STATE SHOULD EDUCATE.

THE EDUCATION OF THE CHILDREN of a community should be provided by the state as a whole and not be paid for largely by the ratepayers of the community as at present. This is the attitude taken by the school trustees of the Fraser Valley in their first convention at New Westminster last week. In support of this view it was stated that the educated child is a state asset and a benefit to the whole country. There is much that might be said in support of this stand. A large proportion of the young people that go through the higher grades, and especially through high school will not be permanent residents of the community that gave them their education. Then again, in such communities as ours, only land owners are taxed for school purposes. True the province pays quite a proportion of the cost, approximating half of the salaries paid the teachers and half the cost of conveyance of children to the consolidated school. But if the larger part of the cost were borne by the country as a whole the state would then be paying for the asset the educated boy or girl becomes to it.

The Westminster convention also passed a resolution asking the Department of Education to define high school areas, these schools to be financed and maintained by the province.

"EXPERIMENTAL STATION, SUMMERLAND."

PUBLIC COMMENT by Reeve Simpson of the practice of the Editor of the Penticton Herald, and Penticton correspondent of the Province of completely ignoring the fact that the Dominion Experimental Station is here at Summerland brought the following reply from the editor and correspondent referred to:

Reeve Simpson, of Summerland, takes a slight exception to the practice of The Herald in referring to the Experimental Station as being at Trout Creek, or "near Penticton," instead of describing it as being in Summerland. We must ask the Reeve's pardon. As we understand the situation, the station is slightly over six miles from Penticton and somewhat over three from Summerland. In the Government bulletins it is always referred to as the Trout Creek station, not the Summerland Station. In our reference to it as being "near Penticton" we merely desired to locate the place for the benefit of that portion of the public which might have a better idea of where Penticton is than of the location of Summerland. The University of British Columbia grounds are in Point Gray, but most people for the sake of clarity and convenience refer to the site as being at or near Vancouver. The Summerland Review reported Reeve Simpson's remarks as follows:

"At noon Reeve Simpson in a few words extended to the visitors a welcome to Summerland and the Experimental Station. Although it has been the practice of certain newspaper writers at Penticton, he said, to refer to the Experimental Station as being at Trout Creek or near Penticton, Reeve Simpson asked the friends from Penticton to note that the Experimental Station was at Summerland. Its irrigation water was supplied by the Summerland system, the children of the families living on the farm attended the Summerland schools, and its genial Superintendent is a citizen of Summerland."

Since reading this editorial we have made careful enquiry and have failed to find a single instance in which the Farm is officially referred to as the Trout Creek Station. In this we are supported by Supt. Helmer who informs us that the Farm is officially known as the "Dominion Experimental Station, Summerland."

Further, while the Station is six miles from Penticton it is only separated from Summerland by a boundary line, and if the Correspondent wished to visit the Station he would, in coming from the south, travel a mile of Summerland roads before reaching the main entrance to the Station. The comparison with the University hardly applies. While the University grounds are at Point Grey the University is still in the City of Vancouver. We are of the opinion that his readers would not be quite so ignorant of the true situation of the Station if he gave it its proper location as The Herald editor may imagine.

The spirit that tends to the magnifying of his own community is commendable, but such magnifying should not be done by belittling one's neighbor. To say the least it does not tend to encourage that co-operation between the two districts which would be to the advantage of both.

WHERE ARE THOSE ROADS?

Before the last provincial session adjourned, the Government said a million or two of dollars would be expended on the building and im-

proving of roads in British Columbia.

Dr. King, Minister of Public Works, has been spending considerable time down east as the representative of the Oliver Government in arranging for the big Liberal Convention in August. Everybody knows that the engineers in the different districts are drawing their salaries. The people know that not for many years have the roads been so bad in the province, and those driving over the province in autos say that it is as difficult to find a man working on the road as it is to find that man late for his meals.

The greatest saving there is to the farming community and also to those living in the city, is good roads. A bad road costs big money. And this increased cost is a deplorable addition to the high taxes now being paid. This is not a question of politics; on the contrary, it is a question of cold business as it effects every man in the province, no matter to what party he may belong.—Kamloops-Sentinel Review.

Pasture For Hogs, &c.

High prices for farm produce do not always mean large profits. Cost of production plays a very important part in determining the net profit a farmer makes on what he has to sell. This is a matter that should receive more attention than is being given to it. Manufacturers of articles that the farmer has to buy study the question of cost of production very carefully. The farmer is a manufacturer of the things the other fellow has to buy, and while he does little in the way of setting prices for his products, he could and should do more toward lessening production cost.

Take, as an example, the production of pork. Economical production of pork depends largely upon the consumption of cheaply grown feed. In the summer time hogs should be put on pasture. The pasture should be so managed that the forage produced will be clean, tender and palatable. The

idea that anything, no matter how dirty, is good enough for hog feed is erroneous. While the hog will eat some dirty food, he will eat more and thrive better if he is given clean food and clean water.

Such crops as alfalfa, clover, rape or peas and oats make good hog pasture. The pasture should not be overgrazed. It is best to divide the pasture lot into two or three equal areas and allow the hogs to remain in each a week or ten days. This will allow the first pastured areas to recuperate before the hogs are turned into it again.

Some grain also should be fed when hogs are on pasture. Opinions differ regarding the quantity that should be fed. A medium ration would be from two to three per cent of the live weight of the hog. No fixed rule can be laid down regarding this. The pasture should be tender and clean, and enough grain should be fed to keep the hogs shapely and in thrifty, growing condition at all times.—F. C. Nunnick in Conservation.

THOMAS B. YOUNG.

Peachland Doings

A Weekly Chronicle Furnished
By Our Local Representative.

Rev. A. Henderson returned last week from a short visit to Kelowna and brought with him another worthy addition to the already goodly number of well bred cows, she being a well bred and promising Jersey cow giving a good flow of rich milk. He also brought her heifer calf.

After spending a few days visiting in Penticton and vicinity Mr. W. L. Williams has returned.

Miss Young, teacher of the primary room in the central school enjoyed a short visit last week of a friend from Kelowna, Mrs. Hay, who came down on Wednesday and returned on Friday a.m.

Mr. A. J. MacKenzie returned on Wednesday night of last week, from a short business trip to Kelowna and the outlying district.

Major McDonald paid town a short visit again last week in connection with the irrigation system and while here made a trip to the dam to make an inspection. He was accompanied by Coun. MacKenzie.

On Thursday evening a number of friends met the evening boat to say good-bye to the Rev. Mr. Harkness with wife and family from Westbank, who were passing through en route for Vancouver, where they expect to settle.

Another man who left our midst some time ago to distinguish himself in the service overseas, Mr. Jack Thorn, returned on Thursday evening. He did not come back alone, as he left, but brought with him a life help mate, one who had seen service as a nurse. They spent a short visit in town before going on to Vancouver, but in all probability will return to make Peachland their future home.

Miss Leone Morrison, having closed her school at Rutland for the summer holidays returned to her home here on Thursday.

Mr. B. L. Hatfield, Summerland, and a friend paid town a short visit on Thursday afternoon, motoring up and back.

Mr. Townsend was a passenger south on Thursday evening's boat, returning on Saturday morning.

Mrs. E. Aitkens had the pleasure of a visit from some Vancouver friends, Mr. and Mrs. Findlay and their little child, on Thursday of last week, when they were passing through town on their return trip to Vancouver by auto. Up to the time they were here they had travelled about a thousand miles, having come via the States and had been farther up the Okanagan valley.

They reported a very enjoyable outing thus far.

On Thursday evening of last week at the home of Mrs. J. A. Moore, Mrs. Moore, Mrs. Bennet, and Mrs. J. B. Robinson entertained a gathering of young people of the Union Church congregation. A very pleasant time was spent by all present.

Mr. J. A. Moore of Ocean Falls, Montana, spent a day in town last week, arriving on Friday morning and leaving to return via Calgary on Saturday morning.

Mrs. C. W. Aitkens was a passenger up the lake on Friday morning of last week, returning on the following morning.

After spending a week in Kelowna Mrs. H. McDougall returned to her home here on Friday.

Austin Hay came back from Vancouver last week, arriving on Friday night, and has taken up the packing line again this year for the season. He is staying with his sister and brother in law Mr. and Mrs. E. Aitkens.

Mrs. Henry Burch of Kelowna has been spending a few days visiting her sisters Mrs. J. Wright and Mrs. J. L. Elliott, returning to her home on Wednesday morning last.

Mr. Sheldon, teacher of the Trempanier Townsite school, with his wife, left on Friday night. Mr. Sheldon has resigned his position and will not return.

We were sorry on Saturday morning last to have to say good-bye to two more of our teachers who have been doing good work in their departments and are not returning. These were Miss Young of the primary department and Miss Roy of the intermediate department.

Miss M. Smith returned to her home here on Saturday having resigned her position in the Oyama school. Miss Smith expects to remain on and work her fruit lot here now, and is already hard at work.

Mr. Ben Gummow was a passenger south on Saturday last and Dame Rumor has been saying something about this happening, but for fear she might be off the track we will not repeat what she says till we have more convincing evidence.

On Sunday last there were two disappointed congregations in town

when their leaders did not arrive in time for the services. It seems that there was another slide on the road between here and Summerland and as both of these divines were coming by auto to make their appointments they were unavoidably delayed.

Hugh Dorland, Mr. W. L. Williams and W. Waldriff were passengers south on Monday night last, going down early to take in the 1st of July sports being held in Penticton.

Mr. Ratteray spent his 1st of July holiday in Kelowna, going over via the steamer Okanagan the same morning.

Peachland was well represented at the sports at Penticton on Tuesday last, when upwards of fifty wended their various ways down for the occasion. Some came back the same evening, some didn't, and some stayed down for the entire sports.

The tenants for the Bulyea house

arrived on Wednesday morning last and are duly installed in the residence for a couple of months. They are Lieut. J. Macmillan with his wife and child, being accompanied by Miss Stewart, daughter of Col. Duff Stewart, all of Vancouver.

Mr. J. McKinnon aroused the curiosity of quite a number in the community recently when he left by auto for Kelowna, about the time Dame Rumor was busy with more matrimonial news. The curiosity was soon satisfied, however, when he returned bringing with him the bird for the cage, having wedded to Miss Haigh of Kelowna. We do not know whether or not Jack heard any talk of some friends visiting his domain the evening of his return, but if he did and was disappointed, he can partly lay the blame on the fact that there was another important fete on for the same evening.

Merritt has decided on a 35 mill tax rate this year.

Naramata News

Current Events of Town and District

Mr. and Mrs. Thomas Kenyon came in on Friday morning from Vancouver and will take up their residence in the cottage on the north shore belonging to F. C. Manchester.

Friends of Gordon Hayman were glad to welcome him back when he came in on Friday night. He left for Kelowna on Monday but will return in a few days and expects to make this his home once more.

Miss Enid Raynor, who has been attending school at the coast is now home again for the summer.

Mr. J. M. Robinson's mother from Summerland and Mrs. W. McKechnie from Vancouver were visitors at the Robinson home on Saturday.

A very interesting meeting of the Water Users was held at the Unity Club house on Tuesday night. Numerous matters of importance were discussed. The most important question to settle was whether the dam at the Big Meadows should be so constructed as to allow another eight feet to be built on it, thus making it possible to store that much additional water if necessary. It was decided to allow this to be done, and an extra amount of seventeen hundred dollars was voted for the purpose.

Mrs. W. Waite, of Lindsay, Ont., niece of Mrs. Joe Lyons, is visiting at their home for a month.

Dr. and Mrs. Lipsett of Summerland were visitors in town on Saturday.

The Farmers' Institute will hold their annual picnic on the lake shore on July 17th. There will be a lot of fun and numerous stunts will be pulled off to a victorious finish for someone. Last year's

Synopsis of

Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption; if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 40 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Route one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 25, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependants, acquired direct or indirect, remitted from settlement to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring title from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1911, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Actual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

affair was most successful and there is no reason why this one should not be even better. After the day program is over Mr. F. C. Manchester will hold a dance in the Pavilion.

The dance that was to be held on the 4th was postponed owing to the short time necessary to get the dance floor in shape, but there will be one held in a short time and notice will be given.

The regular meeting of the Unity Club was held in the Club house on Friday afternoon. Plans were discussed by them for the erection of a memorial for the boys who went to the front from this district. There will be more definite news of this subject in a later issue. Tea was served by the hostess, Mrs. F. C. Manchester, and a pleasant social time was enjoyed by all. The hostess for the next meeting will be Mrs. W. Mitchell, assisted by her daughters.

The Aquatic Club dance at Pentiction on Friday night drew a large number of our young folks and all enjoyed themselves.

Owing to Tuesday being a legal holiday there was no meeting of the Women's Institute.

Mrs. W. L. Robinson left on Monday morning via the K.V.R. for Winnipeg.

Mr. Stuart Leckie of Pentiction was in town on Sunday visiting friends.

The old Romans got the idea that June was the lucky month for marriages. It still is—for some.

Seed Growing in B.C.

A further step in the establishment of the seed growing industry in British Columbia has been taken by the Dominion Government in co-operation with the provincial authorities. It is the intention to set up a central cleaning plant and a trial ground for testing out the seeds grown. There will necessarily be an official subsidy to place the plan on a working basis.

Mr. McMeans, of the Dominion Department of Agriculture, with Prof. B. A. Boving, of the University staff, are making arrangements for the work in the 1919 season.

Describing the plan Mr. McMeans states that the cleaning will be supplementary to the cleaning now conducted by the growers, and the trial grounds will assure guaranteed seed from the province. If there are complaints from any part of the world thereafter of the germination of seed it will be known whether the fault lies here or with the methods of cultivation.

"It is assumed," Mr. McMeans

stated, "that it will take five years to put an organization of this character on its feet commercially, and for that purpose the governments will back the plan during the period named. It will have to be placed in charge of a competent official, and the results will justify themselves in the season following the growth of the seeds, for there is necessarily that interval in the passing of seeds through the usual channels to the consumer for distribution and raising another season's crops."

Mr. McMeans states that the bonusing system adopted by the government will cease this year, it having been adopted to stimulate production during war time. He thinks the business in the province is now sufficiently on its feet to be stable. He reports a good demand for British Columbia flower seeds as well as for vegetable seeds,

although the industry is still in its infancy.

The plan of the campaign this year will include a thorough canvass of the growers on the Island, and in the Okanagan and Fraser Valley districts. For this purpose Mr. McMeans will visit Courtenay with a view to investigate the possibilities of the Comox valley for commercial cabbage seed production. He is satisfied already of the

climatic qualities of the land.—Family Herald and Weekly Star.

QUALIFIED ANSWER.

"How's your husband getting along, Mrs. Fogarty?" "Well, sometimes he's better, and sometimes he's worse, but from the way he grows, an' takes on when he's better, Oi think he's better when he's worse."

British Preferences in Sizes and Varieties of Apples.

British people are very set in their ideas, and rather slow to change. It is worth while to study their tastes and cater for them; otherwise we may be money out of pocket. The popular Delicious and Winter Banana are little known, and will not bring as much as the old established varieties. The small sized apples from 175 to 225 per box have always brought the biggest prices at auction. The following are London's preference in the order named:

- Selection No. 1.—
Jonathan, size 175 to 225.
Cox Orange, 175 to 225.
Newton Pippin, 150 to 175.
Spitzenburg, 150 to 175.
- Selection No. 2.—
Winter Banana, 150.
Delicious, 120 to 150.
- Selection No. 3.—
Rome Beauty, 120 to 175.
Winesap, 175 to 225.
Wagener, 150 to 200.
Northern Spy, 120 to 175.

It may be noted that Spys of poor color and over size are the only ones that have come on the British market from the West. The Spy is not an exceptionally good carrier, and is subject to pin head rot, and all this goes against it in the above classification. While small sizes are preferred, it must not be understood to mean inferior color or poor shape. It will pay to make the selection with great care, as only the firm, sound specimens will hold up to perfection on so long a journey.

Late Frosts Decrease Washington Cherry Crop.

Spokane, July 1.—There will be a noticeable shortage in Washington canned cherries next fall, all cherry crops being affected by the late frosts. Bings were unusually scarce in the Inland Empire, while the normal crop of Royal Annes was cut down to less than half. The pie cherry crop is looking good in some parts of the valley, but some producers state that they lost at least two-thirds of their crop by frost.

THE COW TREE.

Brosimum Galastodendron is the scientific name of the "cow tree" of South America. On the mountains near the town of Cariaco, and elsewhere along the sea coast of Venezuela, it forms large forests, growing to a height of 100 feet, with a smooth trunk six or eight feet in diameter, and without branches for the first 60 or 70 feet of its height.

The tree yields a milk of as good quality as that from the cow. In its native country the cow tree is called Palo de Vaca, or Arbol de Leche. Its milk, which is obtained by making incisions in the trunk, so closely resembles the milk of the cow, both in appearance and quality, that it is commonly used as an article of food by the inhabitants of the places where the tree is abundant.

Unlike many other vegetable milks it is perfectly wholesome, possessing an agreeable taste, like

Boy Scouts Now in Camp

Though camping nearly 60 miles from home the Summerland Boy Scouts are having a good many visitors from here. At a well chosen spot on the east side of Osoyoos Lake the boys are in camp for two weeks. Quite a number of cars went down from here on Thursday of last week and again on Sunday, when Rev. H. A. Solly led the service. Yesterday was their annual field day when several car loads of friends visited the camp and witnessed the sports. In the baseball match the Summerland boys defeated the Penticton Scout team by 9-4. Oroville won the first place in the swimming contest.

that of sweet cream, and a pleasant balsamic odor, its only unpleasant quality being a slight amount of stickiness. The chemical analysis of this milk has shown it to possess a composition closely resembling some animal substances; and like animal milk, it quickly forms a yellow, cheesy scum upon its surface, and after a few days' exposure

Airplane Met With Many Difficulties

Lieut. Hall, who last week flew the first airplane from the coast to this Valley, after returning from Oroville on Sunday morning started for Vancouver Sunday afternoon, but found it impossible to get over the coast range, because of adverse winds. It is reported that he had a most trying time and that after a desperate struggle he lost consciousness but quickly "came to" when his machine with pilot and mechanism plunged earthward, in time to regain control. Giving up the effort to get through the Pass he turned back and landed at Penticton. Early next day he flew directly up the lake with the intention of going west by way of the Fraser.

to the atmosphere turns sour and putrifies. It contains upwards of 30 per cent. of a resinous substance, called gallatin by chemists.

Better plant a cow tree in your back yard. It would not have to be fed and milked regularly and it would not bloat.

Safety all the Time.

Our Passengers are fully insured against accident.

The Review Job Printing Department.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs. H. W. Dearman's lady friend who accompanied her out from Winnipeg and has been staying with her since at her home in the Trepannier Townsite, left on Wednesday morning of last week.

Mr. J. Thorn and wife are taking up their residence on Mr. Thorn's place at Deep Creek.

Miss Hunter and Miss Burrows of Vernon were passengers arriving on Wednesday. They came down to join the fruit handling crew on the Westminster Trust orchard for Mr. J. T. Long. Mr. Long was heard to say last week that if he could get enough help he would be shipping out about a ton of cherries per day for a time.

Mr. J. Hyde was a passenger south on Wednesday of last week, returning by auto on Friday.

Miss Margaret and Master Charles Veroy of Okanagan Landing arrived on Wednesday of last week to spend their vacation with their grandparents, Mr. and Mrs. W. J. Moore, on the Lambly Ranch.

Mr. Powers of Summerland returned to Peachland on Thursday morning after having celebrated the 1st of July and returned to his mining claim assessment duties back of here about nine or ten miles.

Mrs. A. W. Miller and Mrs. Morrison were passengers south on Thursday night. They spent the following day in Penticton and met Miss Kate Miller on her return by K.V.R. and accompanied her home on Saturday morning. She expects to holiday at home for a short time.

Miss Essie Winger went down via the Sicamous on Thursday to Penticton, where she remained over the week end, returning on Monday morning.

Miss Jessie Henderson, who has been in the east for some time is at present enjoying a visit here with her people having arrived on Thursday evening.

Miss Harper of Vancouver is spending a short vacation in Peachland, a guest of Miss Mary Vicary.

Mrs. M. E. McDougall enjoyed a day's visit on Friday from her mother and sister Mrs. Robinson, Sr. and Mrs. Gray of Summerland. They returned on the afternoon boat.

Mr. McLeod, principal of the Central School left on Friday morning to spend his summer vacation at the coast. We are glad that he expects to continue with the work for the coming term.

Miss E. Ireland, who taught here the term before last as principal in the Central School is spending a fortnight here visiting friends. She motored down from farther up

the Valley where she was enjoying the Okanagan air, and while here is a guest at the home of Mr. and Mrs. J. B. Robinson.

Mrs. Wilde of Portland, Oregon, probably better known to old timers here as Flossie White, arrived in town by auto on Friday with her little daughter to spend a portion of the summer visiting her parents and the rest of the family.

Mr. Wallace and wife of Winnipeg, arrived on Friday night to spend a vacation here and incidentally look after his interests in connection with his fruit lot.

On Friday evening Mrs. Stevens held the first of her fortnightly dances to be held in the Orange Hall. There was a good turnout for a commencement and those in attendance reported a pleasant evening. The music, which by the way, was of a somewhat new departure for Peachland, was pronounced fine. It might be classified as an orchestra, there being stringed instruments, piano and drums.

Mrs. A. McDonald, nee Miss Gladys McCall, niece of Mr. L. D. McCall, arrived on Saturday morning from Penticton, and was joined here by her husband, first mate on the Sicamous, on the return of the boat in the evening. They spent Sunday in town, Mr. McDonald having to resume his duty on the north bound trip of the Sicamous on Monday morning.

Mr. and Mrs. Thos. Powell enjoyed a week end visit from old prairie friends now living in Kelowna, Mr. and Mrs. Luckwell, who came over on last Saturday night's boat. Mr. Luckwell was obliged to return on Monday morning, but his wife remained over an extra day.

The local Stockbreeders' Association met in the Council Chamber on Saturday night last, with a fair representation present.

The Rev. Mr. Grieve of Penticton preached in the Baptist Church at 8 o'clock on Sunday afternoon, and made a very interesting and helpful application of gleanings from the recent Convention of the Church which he attended at Vancouver the last week in June.

The service in the Union Church was of a special nature in recognition of the recent signing of peace. Rev. Mr. Clark spoke on the subject "The Larger World," and ably cited many of the wrongs in the world of to-day and very assuringly explained "The Way Out." The choir rendered special music as follows: an anthem by the full choir entitled "How Beautiful Upon the Mountain;" a solo by Mrs. H. K. Mitchell entitled "The End of a Perfect Day;" a solo by Mrs. J. A. Moore entitled "Lest We Forget."

Mr. Denning of Lineham, Alta, was a visitor in town last week end, a guest at the home of Mr. and

Mrs. R. Harrington. He has been out on a vacation trip around the coast and is returning via K.V.R., leaving here on Monday morning to see part of the Valley north before going south to catch the K.V.R.

Mr. R. J. McDougall of the Penticton Herald paid town another week end visit by motor, and was accompanied this time by Mr. P. N. Dorland who succeeded in getting time enough off his mail service run to come up and visit his home here. They returned early Monday morning to catch the east bound K.V.R. train.

The Trepannier Lodge A. F. & A. M. held their regular meeting in the Lodge rooms above the General Store, on Tuesday evening last.

Mrs. E. F. Smith and the two boys Teddie and Dick, left on Tuesday morning's boat, en route for Edmonton for a short time.

Miss Grace Logie of Summerland visited friends in town last week end.

Weather conditions are forcing the cherries on pretty steady and from present appearances the main crop will be off slightly earlier than last season. The recent heavy rain did not seem to do any damage to the cherries of this district.

Miss Williscroft of Vancouver is spending a short vacation in town visiting friends; and at present is a guest at the home of Mr. and Mrs. S. H. Murdin, who are old acquaintances from Gladstone, Manitoba.

There seems to be a much more general feeling of contentment with regard to the irrigation problem at present, nearly everyone getting a pretty satisfactory supply for their needs and lots reported in the reservoir, for at least the immediate future.

Current Events of Town and District

Mrs. V. L. Watson of Princeton was here for a few days visiting her mother, Mrs. Elizabeth Wells.

Mr. Russell Wells has returned from a very successful business trip on the prairies.

Mr. Duncan Leckie from Vancouver is here for the summer.

Mr. and Mrs. J. M. Robinson and W. A. Robinson motored to Oroville on Friday, where they met Miss Dorothy Robinson and her friend Miss Gordon of Victoria. The party enjoyed the day at Oroville and returned the same evening. Miss Gordon expects to stay for a month.

Owing to Tuesday being a holiday the Women's Institute held their meeting on Wednesday afternoon. After a good deal of discussion it was decided to postpone the rose tea which the Institute had intended to hold this month on account of the rush of business and the affair will be held later, only it will be under some other head as roses will soon be gone. During the meeting the ladies were favored with a piano solo by Miss Alice Meyers. Roll call was answered by a girl's name representing a flower.

Miss Kerr of Kelowna is the guest of Mrs. George Wolstencroft.

The Farmers' Institute are getting ready for a big time at their picnic which will be held on Thursday afternoon on the lake shore near the Unity Club House. The ladies have been called on to help make the affair a success, and so there is no question of it now. There will be a big dance in the evening which will be held in the open air pavilion on the lake by Mr. F. C. Manches-

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-forest land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTOR'S FREE GRANTS

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 30, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enactment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights to pre-emptors who failed to complete purchase involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner.

Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

ter. A big crowd is expected and a good time is in store for all.

Mr. Norman Mitchell has returned from Penticton and will stay here for the balance of the season.

Miss Emma Davies of Vancouver is visiting her parents for a month.

The Rev. Mr. Dobson and family of Regina arrived on Monday evening's boat. They have taken the Mitchell cottage and will spend the summer with us.

Mr. Allie Noyes who has been ill in the Penticton hospital with trench fever, is reported to be much improved and will return to his home in a day or two.

Mrs. L. L. McDonald and son from Blackie, Alberta, are the guests of Mr. and Mrs. Wm. Mitchell for a month.

Mr. and Mrs. Hugh Davies have their guests Misses May Roe, Ethel Gray and Mr. Sidney Gray of Ottawa.

Mrs. Ellen Simpson who has been in Medicine Hat for the winter, has returned to her home.

The ice cream lawn social which was held at the home of Mrs. Hughes on Monday night in aid of the Methodist Church was a most pleasant affair and decidedly a success financially. The lawn was

beautifully decorated with flags and bunting and while the guests were partaking of their refreshments they were entertained with numerous musical selections. There were a number of people from Penticton who came up to enjoy the treat and as far as we can find out there was plenty for all in the way of eats and fun.

A number of members of the Farmers' Institute and their families engaged the launch Skookum and went to Kelowna on Sunday. The main object was to meet a delegation of Kelowna citizens and go over with them the route of the proposed road from Kelowna south. They had a picnic lunch on the beach and afterwards attended to the road project. There seems to be a difference of opinion as to what was accomplished in that respect, but they all had a good time and are in hopes the road will be built.

There will be a public school meeting at the new school house on Saturday night at seven o'clock. It is to be hoped that there will be a good turnout as there are important things to be taken up that will be necessary for the coming year.

Miss Dorothy Severs from the Summerland Hospital staff was visiting her mother on Monday.

The Methodist Church held their

Thanksgiving Service on Sunday afternoon. Special music was rendered by the choir and a solo was given by Mrs. Waite of Lindsay, Ont.

Mr. and Mrs. Fryer are visiting Mr. and Mrs. King. Mrs. Fryer was formerly Miss Evelyn Young.

At the dance which will be held in the Pavilion on the 17th of July, refreshments will be served by members of the Ladies' Unity Club, and the money taken in at their stand will be for the benefit of the Club.

Mrs. F. Languedoc and Mrs. R. Smith spent Tuesday in Penticton.

The Okanagan Lake Boat Company are putting their boats on the ways near their wharf for repairs.

To get a little more prominence

What The Peace Treaty Demands Of Germany

Germany, by accepting unconditionally the terms of the treaty drawn up by the Allied Associated Powers, has agreed:

To the reduction of her territory in Europe from 208,825 square miles to 172,000 square miles.

To the reduction of the population under her jurisdiction from 66,000,000 to 54,000,000.

To the surrender of 2,950,000 square miles of colonial possessions.

To the restoration of Alsace-Lorraine to France; to parts of Upper Silesia to Czecho-Slovakia and to Poland; most of Posen and parts of West Prussia to Poland; Malmédy and adjoining territory to Belgium.

To plebiscites in the Saar mining district, in unceded parts of Upper Silesia, in parts of East Prussia, in Schleswig.

To the internationalization of Danzig.

To the independence of Austria.

To the renunciation of all political and territorial rights outside of Europe.

To the reduction of her army from a peace basis of 2,000,000 men to 200,000, and by March, 1920, to 100,000, and to abolish conscription.

To the reduction of her navy from the 41 battleships, 59 cruisers of 1914, to 6 battleships and 6 cruisers.

To dismantle all forts 50 kilometres east of the Rhine.

To stop trade in and nearly all production of war material.

To Allied occupation of parts of Germany for 15 years, or until reparation is made.

To demolish the fortifications of Heligoland and to open the Kiel canal to all vessels.

To possess no military or naval air forces.

To accept full responsibility for all damages caused to the Allied Governments and Nationals.

To reimburse all civilian damages, beginning with \$5,000,000,000; the final total to be determined by the Allied reparation commission before May 1, 1921.

To the trial of the Kaiser and the surrender of those responsible for the war.

Fitting and Feeding Cows For Lactation.

All mammals, when in proper environment and under normal conditions, naturally take on flesh during pregnancy, the reserve being used in milk production when the young is born. As we expect a dairy cow to give much more milk than her calf requires it is only reasonable that she should be in extra good condition of flesh at calving time. A further consideration is the procuring of strong, well nourished calves which cannot be expected from poorly nourished cows. Grain fed during the dry period has been found to give greater returns than the same amount of grain fed after calving, these returns being in the form of a more vigorous calf and increased milk production. To have the cows in proper condition of flesh, one of the first requisites is to give them sufficient rest between lactation periods. The cow that is milked up to within two or three weeks of calving may pile up quite a record for that year but she will surely fall off in the next lactation period. Each cow should have from six to eight weeks of a rest period.

The feeding of the cow during this period will depend upon her condition when dried off. If she is in good condition of flesh then very little more than a maintenance ration is necessary, but the feeder should watch that she does not lose her thrifty condition. If she has become thin and run down, then a liberal ration should be allowed. The character of the ration need not differ materially from that fed to the milk cows. Pasture, supplemented by silage or soiling crops in summer and roots or silage and legume hay in winter should be sufficient for the cow in good condition. Those in poorer

condition should receive grain in addition up to six or seven pounds per day if necessary.

It is important at all times that dairy cows receive a laxative ration but particularly so just at calving time. To this end the grain ration should consist of such laxative feeds as wheat, bran and oil cake together with either ground oats, barley, or corn, preferably the former, in equal parts. For every 100 lbs. of the above grain mixture there should be added one pound each of ground rock phosphate, charcoal and common salt. The salt is a necessity in the ration while the other ingredients act as a tonic. Cows not receiving the grain should be fed some of this tonic mixture separately or the last day or two before calving the regular ration should be replaced by bran alone which should be fed up to calving time and for a few days afterwards.

To ensure the best results from the above method of fitting the cow

for her lactation period she should be allowed plenty of exercise. Running with the milk cows in summer and being turned out in the barnyard for an hour or two daily in winter will meet requirements in this regard. The exercise will be found to do away with many of the calving and udder troubles experienced with cows highly fed on heat producing foods just previous to calving.

It is an easy matter to bear the aches of another's corns.

There's no telling what a day may bring forth. A man may be happy to-day and married to-morrow.

HIS COMPOSITION ABOUT ELIJAH.

There was a man named Elijah. He had some bears and he lived in a cave. Some boys teased him. He

said, "If you keep on throwing stones at me, I'll turn the bears on you and they'll eat you up."

And they did and he did and the bears did.

FRIDAY, JULY 18, 1919.

GET BEHIND YOUR HOME PAPER

SPEAKING TO RETAILERS a few days ago Mr. E. Trowern, the Dominion Secretary of the Retail Merchants' Association, said: "It is the small town newspaper that is going to save the country," noting that the large city dailies were so tied up to the departmental stores and the big interests that only through the town newspapers could the people look for fair treatment. "Get behind them," he said, "and don't be afraid to advertise. They depend upon you almost wholly for their support."

SAVING FOR CITIZENSHIP

EVERYBODY KNOWS what spending for good fellowship means. It used to be easier before the war and when the bars were open. We learned to give for true fellowship during the war. Some have given money freely. Some time, some sympathy, the women—God bless them—gave socks till their fingers were sore. Some have given sons. Some have given fathers, brothers. Some gave limbs; others gave health, some gave lives—all for a great ideal—the ideal of citizenship of the highest kind. It was easy to give. It was easy to spend. Now we are asked to save for citizenship. We have been forced by the war to save. In a country which had never had a bond flotation exceeding \$5,000,000 we had five loans in three years with subscriptions from \$97,000,000 to \$684,000,000 each. We subscribed a billion four hundred thousand millions during the war. While we saved this or loaned it to the nation it means a big interest charge to meet, and it makes financing all the more difficult. The Thrift Campaign is to continue the good work. To give us all a stake in the country. Huge credits are demanded if Canada is to get a fair share of trade in the reconstruction period. Fifty millions are needed to handle the lumber situation alone. Thrift stamps are to raise that \$50,000,000 by small economies, by small self denials, by making better citizens of us all, with money to lend instead of being perpetual borrowers. 25c. buys a Thrift Stamp, \$16 buys a W.S.S. Teach your children to be good citizens. Be a good citizen yourself. By a Thrift Stamp. Save for Canada and benefit yourself.

THE ANSWER TO A QUESTION which has been put to the Editor of this Journal on more than one occasion is contained in a recent judgement given in a coast court, in which the right of a householder to kill dogs or other animals found on his premises destroying his livestock was upheld. The evidence showed that at 2 o'clock in the morning a Mr. Duncans heard a disturbance among his hens and on going into the garden found a cocker spaniel in the chicken coop killing the chickens. He shot the dog, which had burrowed beneath the coop in order to get at the birds. The point was raised incidentally, as to whether Duncans had not committed an offence against the firearms by-law by discharging a gun without a permit, but it was pointed out that the by-law admitted the right to discharge firearms for the protection of life and property. The magistrate held that defendant was justified in killing the dog in the circumstances and dismissed the case.

THE SUM PAID ANNUALLY FOR IRRIGATION WATER by the fruit growers of Summerland is generally recognized as a comparatively small item in the cost of production. Particularly is this true when a man gets all the water he needs at the time he requires it. The rate of \$3 per acre is also a very low one when compared with the price

of water elsewhere under similar conditions. Immediately south of the international boundary where it crosses this valley is an irrigation system covering the Oroville and nearby districts extending some miles south. Land under that system is now paying a rate of \$1.50 per acre for operation and a maintenance and depreciation charge of \$6.00 per acre, a total rate of \$7.50 per acre per year.

TWO CENT LETTER RATE was restored by the United States postal authorities on July 1st. Nothing has been heard of the pre-war rate being revived in Canada. When "penny postage" was brought into effect some years ago in this country there was no falling off in revenue as was anticipated. Whether a reduction in the letter rate from three to two cents would again have the effect of increasing the volume of first class matter would be hard to foretell.

RURAL FREE DELIVERY mail contractors, who are doing their routes by motor cars are beginning to figure their costs on a mileage basis. Recently the Association of Rural Mail Carriers decided to ask

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Lieut. Col. J. McMillan was a passenger going north on Friday morning en route for Vancouver.

Miss Whitman left for the Coast on Friday to spend a portion of her holidays there.

On Friday night the Sicamous brought back another of our boys from overseas, this time Bryson White, whom we are glad to say is looking fine and fit, and is jolly glad to be back.

Property transfers are still the order of the day, two having been transacted recently. Mrs. E. F. Lang sold her acre lot in Trepannier townsite to Mr. Childley, recently out from Winnipeg. Mrs. W. A. Lang has sold her fruit lot property to Mr. Allan Wilson, of Lamont, Alberta, who expects to take possession in the course of a few days.

Mrs. L. Vivian returned from Penticton on Saturday morning where she has been helping during the illness of her sister-in-law, Mrs. E. Law, who, we are glad to mention is improving nicely. Mrs. Vivian was accompanied on her return by another sister-in-law, Mrs. A. Law, from northern Alberta, who is enjoying a trip West for a holiday.

Rev. A. and Douglas Henderson were passengers north on Monday morning last. Douglas returned on the evening boat.

Mrs. Buchanan's brother, Mr. J. D. McDonald, of Penticton, arrived on Monday morning last expecting to spend a couple of weeks at the townsite.

Another of our overseas men to return to resume his pre-war vocation is Ian Sutherland, who came in on Monday night last, and will again occupy his Trepannier residence.

Peachland is yet as it always has been, a favorable health and holiday resort, and now that conditions are becoming somewhat settled again since the great war, people are able to come and enjoy these advantages. All vacant houses are again occupied, and some even have to resort to the old original tent dwelling. This, however, is no hardship in a place like this where climatic conditions are so suitable for tent dwellers; in fact there are many house dwellers who wish they were supplied with tents for some of these hot nights we have been having recently. To add to the list of visitors for the summer in town a party of nine arrived on Monday night last from the prairie and are divided between the homes of Mrs. Mitchell and Mr. and Mrs. George Keyes. Among the number was little Miss Myrtle Phillips who joined the party and came in their care from Calgary to visit with her grandparents.

Mrs. Hamilton has been enjoying a visit from her son Mr. C. E. Hamilton with his wife and little baby who left by boat Monday night to return to their home in Moose Jaw, Sask., where Mr. Hamilton is employed in the Post Office. They are returning via K.V.R.

After having spent a number of weeks in Peachland, Mr. W. Wingate left on a business trip to Vancouver on Monday night last. He will probably be away for some time. Mrs. Wingate and the children, however, remain here for a time to enjoy the Okanagan Valley life.

After spending a short vacation here visiting friends Miss Willis-Croft of Vancouver left by Monday night's boat.

Mr. and Mrs. Hobson and family of Winnipeg arrived Tuesday morning last after having visited the Coast for a while and are settled in their home here, "The Vatican," which Mr. Hobson bought through the instrumentality of Mr. Mantou from Mr. A. N. Pope. We understand that Mr. Hobson is well pleased with his deal. He will remain here now for a short time, but hopes to return at a later date.

Miss Nancy Buchanan is enjoying a visit this week from her friend Miss Montgomery of Penticton.

To Mr. and Mrs. H. H. Thompson belongs the honor usually of producing the earliest tomatoes and cucumbers of the season, and apparently this season is no exception as far as we know. On Saturday July 12th they picked their first ripe and mature tomatoes and cucumbers.

The bulk of the cherry crop is picked and marketed now, and by the end of the present week there will not be many more to come except sour and semi sour. From various reports received the growers are quite hopeful of good prices again this season, and although early in the cherry formation period season many growers feared there would be a very light crop in some of the varieties, a better crop developed than was anticipated.

Mr. E. F. Brinson of Lancourt, Alberta, is visiting town for a week or two to look after his interests here, having a lot out of the original Huston block. Mr. Brinson hopes at some future date to make this his home.

Reports from every section are that the potato crop of B.C. is very short, running from two to four tons per acre.

The Poultrymen's Union of British Columbia has opened a distributing warehouse in Vancouver, selling only to the wholesale trade.

Trout Creek Local U.F.B.C.

The United Farmers of British Columbia, Trout Creek-Local, held their regular monthly meeting at the school house on Thursday, July 10th. Owing to the busy season the attendance was not large. This was to be regretted as an excellent paper was given by the President, Mr. S. F. Sharp, on "The Packing and Handling of Fruit." This gave rise to many questions and an interesting discussion during which much valuable information was gleaned regarding the varieties most in demand and the best methods of handling them.

At the next regular meeting the Rev. A. Henderson, has kindly consented to give a talk on "Co-operation vs. Competition," and it is hoped that there will be a large attendance. Non-members are heartily invited.

Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Date	Max.	Min.	Rain	Sn.	Sunshine
July 9	95	57	.00	0.0	15.1
" 10	90	60	.00	0.0	13.8
" 11	86	70	.00	0.0	10.0
" 12	80	57	.00	0.0	10.9
" 13	84	58	.00	0.0	14.0
" 14	90	57	.00	0.0	14.2
" 15	100	64	.00	0.0	14.1

The tax rate this year in Penticton will be thirty-five mills, net. The general rate is 15 mills, school rate 8 mills and loan rate 12 mills. Purchase of a motor truck and increased expenditure on roads have been factors in the raising of the general rate.

The consensus of opinion amongst dealers is that B.C. is not producing one-third of the eggs consumed within its borders.

THE WOMEN'S INSTITUTES

The Summerland Women's Institute meeting for this month was held last Friday and took the form of a lawn social held at Mrs. Fosbery's, where the lawn and surroundings of flowers and shrubbery were indeed looking beautiful.

There was a good attendance of both members and visitors. The novel entertainment was a story entitled "Mabel and Arthur," each one present doing her share towards the success of the story. Afterwards tea and cake, and delightful ice cream was partaken of, which ended a very enjoyable afternoon. Mrs. Bentley was appointed off-

cial delegate to attend conference. No meetings are to be held August or September.

Classy Animal Acts With Hugo Bros. Big Circus

One of the feature acts that delights the younger patrons of the Hugo Bros. Shows is the trained dogs and ponies. These beautiful little animals do everything but talk, and their drills, marches and dances and other evolutions are a source of continual delight to the youngsters, and another feature that delights all the patrons from six to sixty is the wonderful performances of the trained goats, monkeys, pigs, and elephants. In fact besides the aerial, wild west and other acts of every description a complete trained animal performance is given. Words cannot describe the many remarkable qualities of almost human intelligence shown by the trained animals with the above shows. Besides ponies, goats, monkeys, baboons, pigs and dogs,

that do everything but talk, and with an army of funny clowns to furnish the fun, and the greatest lady and gentlemen performers that will furnish the thrills in feats of

daring, skill and beauty. Now the Hugo Bros. Shows will exhibit here next Thursday, afternoon and night, and will be worth driving miles to see, so don't fail to come.

All Entrance Pup-ils Pass Exam

Below is a summary of the results of the Entrance examinations for Summerland, Peachland and Naramata, as announced by the Department of Education at Victoria:

SUMMERLAND.
Candidates, 24. Passed, 24.
Marion Beavis 751; Dorothy Tomlin, 750; Zanda Garnett, 730; Marion Hatfield, 720; Jessie Munro, 673; Grace Garnett, 653; Merle Smith, 650; Warren Gayton, 648; Ewart Bowering, 647; Verne Smith, 642; Carol Graham, 640; Ralph Purves, 633; Gordon Blewett, 630; Sylvia Washington, 625; Clifton Roe, 622; Alex. Munn, 611; Dorothy Thompson, 597; Ivor Harris, 595; Kathleen Bates, 573; Winnie Yule, 558; Alfred Johnston, 557; Earl Wilson, 553; Clyde Caldwell, 551.

UPPER TROUT CREEK.
Candidates, 1. Passed, 0.

NARAMATA.
Candidates, 7. Passed, 3.
Malcolm Walters, 662; Margaret Allen, 578; Leslie Mallory, 550.

PEACHLAND.
Candidates, 11. Passed, 8.
Archie Hamilton, 610; Ruby Cousins, 594; Alice Hohensee, 590; Thomas Hamilton, 587; Nelson Keating, 563; Elsie Law, 556; Thomas Drought, 550; Albert Town, 550.

HYDRO ELECTRIC IS LIVE ISSUE.

(Continued from page 1)
Mr. J. H. Patterson recently wrote to President Morley of the Board of Trade in the following terms:
"I observe by the Vernon News of recent date that there is a movement among the towns of Kelowna, Vernon, Enderby, Armstrong, Salmon Arm and Spallumcheen, to investigate the possibilities of developing hydro-electric power on the Adams River.
"In this connection it occurred to me that it may be feasible for the South Kootenay Power Company, with plant already in operation, to extend their lines through Pentiction, Summerland, Peachland, Westbank to Kelowna, thence through the territory above mentioned, giving it sufficient business en route to warrant the outlay and a reasonable rate. As an alternative Pentiction, Summerland, Peachland and Westbank could perhaps combine with the Upper Okanagan and build a line connecting with developed power at Fairview, purchasing at a reasonable rate, avoiding the necessity of duplication of plants."
A very enjoyable dance was held in the Collega Gymnasium last Friday under the auspices of the G.W.V.A. and was largely attended. Music was furnished by F. C. Manchester and Alden Peck.

New K.V.R. Line Down Valley

A definite announcement that a new railway line is to be built in the near future from Pentiction south to the boundary line was made at the end of last week by Mr. H. W. Brodie, C.P.R. passenger agent, at Vancouver.
Mr. Brodie had just returned to the coast after a tour of inspection over southern lines of the Canadian Pacific.
His announcement was to the effect that the line was now being staked out by engineers of the Kettle Valley Railway. From Pentiction it will roughly follow the course of the road south, passing Dog Lake on the west side and on to Okanagan Falls. From there the line will run on to the boundary, the exact location not yet being given out.

Apparently the building of this railway has been considerably accelerated by the soldier settlement scheme in the Osoyoos-Fairview country.

Irrigation facilities are to be provided for the settlers, and without doubt that part of the Valley will, in a few years, rival the productivity of the northern portion. Kaleden will get additional transportation for its increasing fruit crop from the new line, and if a connection is made with Oroville the tendency will undoubtedly be to draw the trade of that country up to Pentiction, thus bringing to the south end of Okanagan Lake more prestige from a business standpoint.

Mr. Brodie was exceedingly optimistic as to the prospects in the Okanagan generally this summer, and also intimated that the utility of the Kettle Valley line across the southern portion of the province was being made clearer every year.

Miss Ruth Dale went down to Vancouver some days ago to visit her aunt, Miss Annie Dale, who is still in hospital there.

GOOD RESULTS IN HIGH SCHOOL EXAMS.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

After spending a couple of weeks in town renewing acquaintances, Miss E. Ireland left on Wednesday.

Mrs. A. Town and Miss Verna returned home on the Sicamous on Thursday, having motored down the lake the previous day.

Mr. Thos. Powell spent a couple of days of this past week on a business trip to Vernon.

After spending a few weeks vacation here visiting with her friend Miss Mary Vicary, Miss Parker left for Vancouver on Thursday.

The Misses Bessie and Margaret Dimock, with their young brother Leonard arrived on Thursday morning from their home in Vancouver. They are enjoying a portion of their holiday viewing familiar scenes and renewing acquaintances of the days when they lived here.

Miss Helen Tees of Winnipeg came in on Thursday's boat to visit her brother Lieut. Tees and her uncle, Mr. Metcalf.

Mrs. McKechnie of Vancouver and her daughter Miss Maria, who have been spending a vacation, guests at the Incola Hotel, Penticton, came to Peachland on Friday morning to renew acquaintances and visit relatives here. They returned down the lake on Monday evening, intending to spend another portion of their holiday here later.

After spending a few days here looking over his property, Mr. Hobson with his wife and boy left on Friday morning for Winnipeg. They are anticipating coming out to settle here next spring.

Mrs. Lupton of Kelowna visited her parents here on Friday night, returning on Saturday morning.

Mrs. J. Kincaid came in on Friday night and is spending a part of her holiday visiting friends here.

After spending a few days visiting relatives here Mrs. A. Law left on Friday night en route for the coast.

Mr. Ryall with his wife and family of Westminster, spent a few days of last week in town and district. Mr. Ryall holds an interest in the Westminster Trust Orchard.

Mr. Ratteray was a passenger south on Friday evening, returning on Monday morning.

Mrs. Stevens held the second of her fortnightly dances in the Orange Hall on Friday night, which also proved quite successful.

Mr. H. Walters was a passenger north on Saturday morning to spend the week end holiday, returning by auto on Monday.

Mr. George Hill, who owns a place up Trepannier Creek, and who used to visit here previous to the war, came in on Saturday night to spend a few days in that vicinity.

Mr. G. Fosbery of Summerland arrived on Saturday morning to spend a few days with Mr. and Mrs. Wildy at their ranch at Squally Point and enjoy a spell of boating and fishing. He returned on Monday evening.

Mr. J. H. Clements and family enjoyed a pleasant motor drive to Oroville and return on Sunday last.

Rev. Mr. Grieves of Penticton preached in the Baptist Church on Sunday last at 8 p.m.

Mr. Edgecomb and daughter and Mr. Higgins were passengers leaving for Kelowna on Monday morning last and on their return in the

evening were accompanied by Mr. and Mrs. Insley of Calgary, who came to spend a few days visiting here. While in Kelowna Mr. Edgecomb purchased a cow and brought it home with him, and one came the same evening for Mrs. Morgan. Two more good Jersey cows to add to our good strain of milking stock.

Mr. J. Thorn and Mr. Jas. Miller were passengers leaving for Vernon on Monday morning last. Mr. Thorn purchased a team of Suffolk mares while there which promise well for a general purpose team for his ranch. He brought them home over the trail, arriving on Tuesday afternoon. Mr. Miller returned by boat on Tuesday evening.

Mr. Foster arrived on Monday evening to join his wife and the rest of the party who arrived here last week and have been enjoying the visit here.

Mr. B. Gummow was a passenger to Penticton on Monday evening's boat, returning Tuesday morning.

Mr. J. Winger is spending a few days in Naramata this week, having gone down on Monday night last.

Mr. J. T. Long made the first shipment of peaches for the season on Monday, the 21st.

Mrs. E. F. and Miss Gwen Lang left for Victoria on Monday morning by motor to Summerland to take the train there.

Mr. J. H. Clements' father and sister left on Tuesday morning after having spent a few weeks here enjoying the Okanagan. They were accompanied as far as the Landing by Mrs. J. H. Clements with Flosie and the two boys and Mrs. D. McLachlan.

Peachland's Peace Celebration.

Peachland was the scene on Saturday, the 19th of a typical pre-war gala day to celebrate in-unison with the other towns and cities of the Dominion. The day was ideal and as it came at a time when there was very little fruit moving, nearly all the citizens of the district were able to attend, making a good turnout. Everyone came out for a good time and got it as was evidenced by the merriment, and from all quarters throughout the day. The first on the program was the firing of a couple of make believe bombs followed by the bugle call to fall in, when all the returned men lined up on the pavilion and a goodly looking bunch they were too.

Reeve Hogg gave the opening address.

Following this the crowd went down to the old recreation grounds where a baseball match was staged, Veterans vs. Town. Very much to the surprise of all the score ended 13 to 9 in favor of the Town, but the game was pretty even throughout. The Women's Institute served ice cream, drinks, etc. at the grounds and took in over \$100. The water sports at the pavilion were followed by supper on the beach, or in fact anywhere and everywhere. It had been thought best to arrange it so the crowd could gather into groups or as they

chose for the picnic, and this proved very satisfactory. After this function the short program of races were run on Beach Avenue just opposite the Pavilion, followed by the singing of the National Anthem and other songs by the crowd. A small organ was secured and placed on the pavilion for this occasion and a crowd gathered around it.

This brought a very pleasant day's celebration to a close, everyone feeling glad they had come out. A number of people then gathered in the Orange Hall in the evening and enjoyed a dance to wind up the day.

The following is a list of the events and prize winners:

Swimming race.—Boys under 15 years, 25 yards: 1, G. Town; 2, F. Elliott.
Swimming race—Open, 50 yards: 1, H. Keating; 2, P. Tees.
Diving.—Boys: 1, G. Topham; F. Elliott.
Diving.—Men: 1, H. Keating; 2, W. Buchanan.

Greasy pole: A. Town.
Running races.—Boys and girls under 8 years, 25 yards: 1, Mary Reid; 2, Joe Hyde.

Running races.—Girls 14 years and under, 50 yards: 1, A. Foster; 2, L. Town.

Running races.—Boys 14 years and under, 50 yards: 1, E. Murdin; 2, D. Elliott.

Running races.—Girls 14 years and over, 50 yards: 1, B. Buchanan; 2, A. White.

Running races.—Boys 14 and over, 50 yards: 1, A. Town; 2, F. Elliott.

Three legged race, 50 yards: 1, G. Town and F. Topham; 2, E. Murdin and D. Morrison.

Returned men's race, 75 yards: 1, W. Buchanan; 2, J. Seaton.

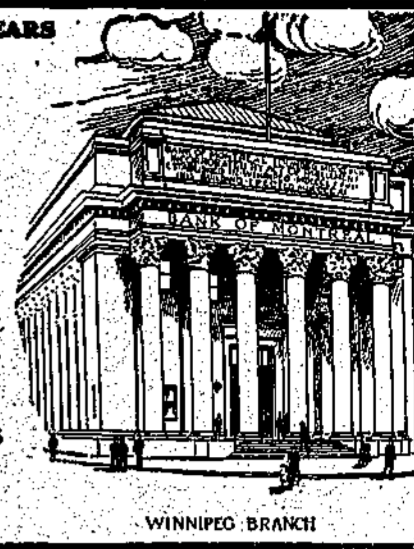

After spending a week in town looking over his property and visiting, Mr. Brinson left on Tuesday morning for his home in Lamont, Alberta.

Naramata News

Current Events of
Town and District

Thursday, July 17th was Farmers' Institute picnic day and was that and more. A good sized gathering consisting almost entirely of Naramata people participated in the fun and there was plenty of it. The picnic was properly opened by an address of welcome by the president, Mr. Dean Walters, and then the young men's swimming race was slated. It was some race and was won by A. Kendall. Lester Mallory was a close second and Harold Allen got third. The girls' running race was a fast event and they were small girls too, from six to eight years old. Alice Walters captured first, Lois Walters second, and Grace Brodie third.

The older girls, that is from twelve to sixteen, next tried their skill at the running game and Margaret Allen was the best, Dorothy Partridge next best and Kathleen Kendall pretty good.

The small boys from eight to ten years then took a hand and Stanley Allen crossed the tape first, then came Francis Kendall and afterwards Lester Williams.

Boys from twelve to sixteen ran a dandy race; Gordon Williams first, Donald Salting second and Stanley Allen third.

The girls' three legged race was won by Margaret Allen and Dorothy Partridge.

The boys' race of the same kind was won by Earl Hughes and George Tomlin.

Boys' six to eight running race: Arthur Dobson, first; Arthur Hook, second; Mark Brown, third.

The Boys' wheel barrow race was won by Gordon Williams and Harold Allen.

The tug of war between the married and single women was won by the married women after a hard battle and the prize went to the Red Cross.

The men then tried the tug of war game, captained by Russell Wells and W. Nuttall. Russell Wells' team captured the prize and that was also turned in to the Red Cross.

The boys' tug of war under the leadership of L. Mallory and Gordon Williams was won by the Mallory team.

One of the fastest events of the day was the driving race in which the women did the driving and the men blindfolded and with a string in their mouths were the pacers. There were some accidents in this event but it was finally decided that Russell Wells and Mrs. Hughes were the winners.

The men had a chance to show their skill in the sock darning contest and the prize was captured at once by Rev. Mr. Dobson.

Supper was next on the program and there was a grand scramble for the cats. There was a splendid array of good things and everybody did their share. The picnic was a grand success and here's hoping there are more of them.

In the evening there was a dance at the Pavilion in which most of the young folks of the town took part and some came from Penticton to make it a complete day.

Miss Phyllis Monk of Vancouver is visiting her sister Mrs. Thos. Kenyon.

At a special meeting of the Women's Institute held Thursday afternoon Mrs. Howard Rounds was appointed as delegate to the Convention to be held in Salmon Arm next month.

Mr. DuFresne of Penticton is here doing some survey work in connection with the new wharf.

Mr. and Mrs. R. C. Robinson went to Summerland on Sunday to a family re-union held at the home of Mr. and Mrs. J. L. Logie, the occasion being the return of Miss Robina Logie after an absence of several years.

The War Veterans' dance in Summerland on Friday night provided plenty of amusement for the young people who attended from here. There was a large crowd and they danced till the early hours and every one was tired, but it was worth it.

Mr. and Mrs. J. M. Robinson had as their guests over Sunday Mr. C. H. Bodie, prominent real estate man of Vancouver, Mr. Jas. W. Graham of Victoria, Mr. Wilfred Thompson and Mr. Gordon Firstbrook of Toronto. Mr. Thompson and Mr. Firstbrook were in service in Siberia and returned by way of Japan and China. They will leave for their home in Toronto shortly.

The Methodist Church Sunday School held a most enjoyable picnic at Dog Lake on Tuesday.

The apricots are keeping the ranchers and packers busy these days. They are of good size and fine quality.

A number of our returned soldiers and their friends attended the Peace Celebration at Penticton on Saturday. Some took part in the parade and all enjoyed the day.

average crop," stated Ernest B. Kelly, State Horticultural Inspector for this district. "Although no definite invoice has been taken I hardly expect more than half of the normal yield. Last year, the apple crop amounted close to 1,400 carloads, which includes all apples used for by-products, while the estimates for this year will barely equal 700 carloads.

Special care should be given the

apples this year by the producers on account of the shortage, especially in the thinning of the crop, and I would not advise any farmer to thin his apples at the present as the apples will be very late in maturing this year and have not had a chance to show up defects. Under the present conditions July 14 will be soon enough to start thinning."

Apple Crop Hit By Frost.

The 1919 apple crop in Washington State will fall much below that of last year, according to information given out by the State Horticultural Office.

"This year's apple crop was badly affected by the heavy frosts this spring and will not be up to the

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$800 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in connection with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land, not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Robate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons holding and serving with His Majesty's Forces, the time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emption are due or payable by soldiers on pre-emptions recorded after June 28, 1918. Taxes are levied for five years.

Provision for return of money accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members Allied Forces, or dependants, acquired direct or indirect, permitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN

Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete purchase involving forfeiture, on fulfillment of conditions of purchase and taxes. Where sub-purchasers do not claim whole of original purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration. Commissioners Annual grazing permits issued on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Fruit Prospects Are Exceptionally Good

Vancouver.—Present indications point to a 25 per cent. increase in the Okanagan apple production this year, says Chief Dominion Fruit Inspector R. G. L. Clarke, who has just completed a trip through the Valley.

Fruit prospects are exceptionally good and the general condition of the crops is good in those districts which have a supply of water and irrigation systems. In the northern sections, some of the hay and grain crops are light through lack of rain. In these localities the present is the driest season known in years.

Tomatoes are looking well and cherries are turning out fine, due to the absence of rain, which in former years has done much damage through splitting. Canneries are operating and everything points to a good year.

SERIAL BONDS BEARING 6 p.c. (Continued from Page 1.)

pipe during the hours between 9 p.m. and 7 a.m., and also a complaint that the lot, formerly the College campus, was getting more than its share of water. A request from W. C. Kelley for permission to put several small zinc gates on a municipal flume in Peach Valley serving his lot and one of the Monro lots, was granted, subject to written acquiescence from Mr. Monro and the right of the Council to rescind at any time.

Several residents of Garnett Valley visited the Council Chamber to discuss the question of temporary repairs to the west flume in that valley. This is a flume some three miles long and built about twelve years ago. A new flume for that section is included in the work to be done under the new by-law as the old one is beyond repair. This latter fact was generally recognized by the ratepayers who called on the Council. They came, however, hoping that temporary improvement might be given. They were shown that everything possible had been done to make the old flume give service this year and they promised to support the by-law as being necessary.

Several discussions revealed the fact that it is at this time of the year that flumes and ditches that are in poor condition waste the most water. Though there is a good flow of water at the intake much of it is lost in the distribution. With the improvements planned much of the trouble would be eliminated. It was stated by several that there was an abundance of water in Garnett Valley. What was now needed was efficient flumes and ditches. H. Dunsdon, who is in charge of that section of the system, stated that there was 6 feet more water in the Garnett Valley dam, which had been rebuilt last fall, than there was at this date last year.

During the evening session several matters pertaining to construction were discussed in an informal way with Engineer Fawkes.

Coun. Dodwell submitted a report regarding the water service to the Van Allen lot, in which he stated that Mr. Agur, now in charge, was quite satisfied.

Foreman Tomlin submitted a written report covering the irrigation service to lots 17, 20, 21 and 22 in D.L. 508 and complained of by W. A. Caldwell. This report was received and filed.

Engineer Fawkes asked permission to lay a new domestic pipe line to serve the J. M. Sutherland home in Peach Orchard. The present pipe, leading up from Peach Orchard to the house was empty much of the summer because of heavy drafts on the lower level. The Council approved of running a pipe about 200 feet long to the lot line from the hill above.

Communications from the Bank, several brokerage concerns and bond corporations were read and after considerable discussion the Council instructed the Clerk to prepare the new by-law, which will be submitted to the ratepayers for approval.

Under this proposed by-law some seventy thousand dollars will be spent on the irrigation system as already considered and approved in an open meeting of ratepayers. The rate of interest was fixed at six per cent. and the serial bond was favored as costing the ratepayers less in the end than the sinking fund bond, though this form will not bring as good a price as the latter. It being apparent that the bonds will have to be sold at some discount it was agreed that the total principal to be named in the by-law should be \$75,000. Repayments of principal will be made annually under this form and will be so arranged as to start small and increase yearly as the annual payments of interest decrease. In this way the yearly payment of principal and interest combined will be equal throughout the period of twenty years.

Chairman Kirk of the Water Committee reported that he and Engineer Fawkes had gone over the ground covered by the proposed extensions to the domestic water system and detailed estimates of each were being prepared. It was apparent that all the needed extensions had not been considered and he suggests that other property holders who might be needing domestic water service be invited to put in their applications. This was agreed to.

The matter of the fines imposed by the local Justice of the Peace has long been one of controversy and further correspondence on this subject was read on Tuesday. In this the Chief Clerk of the Attorney General's office stated that no returns had been made to that office, nor to the Clerk of the Peace at Vernon. He had taken the matter up with Mr. English but at the time of writing had not had a reply. As understood by the Council these fines should be paid in to the Municipal Treasurer.

W. Mack, a new citizen living near the Elliott store on Shaughnessy Avenue, asked for the use of two vacant lots. His request was referred to the representative of Ward 1.

Theo. Hermon wrote seeking assistance in obtaining a loan under the housing scheme in which Summerland has not participated. The request is under advisement.

Several tenders were received for old flume material and three lots disposed of subject to certain conditions.

In answer to an enquiry from the Treasurer he was instructed to bill the K.V.R. for the time spent by the Municipal employees in fighting the Peach Valley fire last week.

Instructions were given for immediate attention to weeds growing along the sidewalks and to protruding nails and loose planks in the walks.

The Clerk was instructed to again write the Engineer of the Department of Public Works regarding

needed repairs to the Lakeshore Road. The Council had consented to meet half the cost of repairing that portion of the road between Eneas and Trout Creeks, but had

heard nothing further. Reeve Simpson reported having consented, subject to the approval of the Council, to a curtailment of the hours of operating the electric

light plant, so as to further conserve water. It was agreed that the lights should not be on longer than midnight until the demand for water is lessened.
