

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 11, No. 45. Whole No. 566.

SUMMERLAND, B.C., FRIDAY, JUNE 6, 1919.

\$2.00, payable in advance.

Future Plans for Flume & Ditch Improvement

Much yet to be done to put them in required condition

Answering several enquiries from residents of the Jones Flat and neighboring districts, Reeve Simpson explained the low pressure in the pipe lines that had prevailed for several days at the same time stating that within another day or two, when a separate connection was given the ditches with the reservoir full pressure in the pipe would be restored. Before the full advantages of the money that had been spent could be had more work must be done.

Prof. W. T. Broad, one of the visitors at Monday's Council meeting told of being over the new work and expressed pleasure in what he saw. The work was being well done and the money wisely spent.

It was unfortunate, said the Reeve, that more work had not been done last fall. The season between frost and the starting of irrigation had been very short, preventing the completion of the work undertaken. Further, the complete failure of some of the main flumes had made it necessary to spend considerable more money on that work than had been anticipated. All the work on the main ditches had not yet been done.

Answering a question from Prof. Broad, Reeve Simpson stated that the by-law money was now about all spent, whereupon Mr. Broad suggested getting more money in time to take full advantage of the fall. This the Reeve answered was the plan of the Council and would be done as soon as estimates could be prepared.

Prof. Broad assured the Council that he had not come to complain as he believed the Councillors were doing all they possibly could.

H. C. Mellor, also assuring the Council that he did not come to find fault told of unsatisfactory service along the ditch in his direction. This as explained by the Reeve is one of the ditches down for immediate attention. Mr. Mellor told of seeming favoritism in the distribution of water and of at least one instance in which an Oriental had offered a bribe to a ditchman. The general discussion tended to confirm reports of readiness on the part of some to bribe the ditchmen.

Complaints of citizens permitting cows to enter ditches was referred to the Municipal Clerk, with instructions to have the ditchmen stop the practice and report any who might persist in the offence.

Coun. Campbell told the visitors of the need of rebuilding 3,600 ft. of flume in Garnett Valley, below Theed's. This would give Jones Flat needed connection with the Garnett Valley system.

A report on the flumes from the south main to Prairie Valley was submitted by H. Tomlin who was

Summer School For Teachers

An authoritative announcement has been made by the Provincial Superintendent of Education regarding the summer school for teachers. This will be held in Victoria, commencing on the morning of July 7th and closing on the afternoon of August 8th. In addition to last year's course will be added a high school course, consisting of general science and art.

Local Cow Shows Fine Performance

With an official record for twelve months of 12,800 lbs. of milk, 405 lbs. of butter fat and a butter fat test of 3.65 per cent, the pure bred Holstein, Belle Hongerveld Lady, of Meadowbrook Farm, now holds the record for Summerland. This cow is but five years old and had just entered the mature class. The minimum requirements to obtain a standing in the R.O.P. class among Holsteins is 10,500 lbs. of milk and 337 lbs. of butter fat.

Retiring Pastor Receives Purse

Rev. A. Henderson Bids Farewell to Local Charge

Before a large audience in the Lakeside Church Rev. A. Henderson terminated his pastorate here and his pulpit work for a time at least in a farewell address. Following a brief resume of his life Mr. Henderson expressed the wish that he might now be taking up the work as before us is a most interesting period of reorganization in which he would like to actively participate.

Mr. Henderson and family have this week moved to their Peachland orchard.

Last night, at the home of Mr. and Mrs. W. J. Robinson, Mr. Henderson was presented with a purse made up among a number of the many friends he has made during his stay in Summerland. This presentation was a complete surprise to Mr. Henderson, but he made a very fitting and happy acknowledgement. The purse was tendered Mr. Henderson by Mr. J. R. Brown before a large gathering. The house had been pleasingly decorated with flowers and a most pleasant social time was enjoyed. During the evening Miss Evelyn Brown delighted the gathering with a beautifully rendered solo.

Hospital Donations During May.

The following donations to the Hospital during the month of May are gratefully acknowledged by the matron:

Women's Institute, eggs; Mrs. W. J. Robinson, asparagus; Mrs. George Gray, rhubarb, jelly; Mrs. Allan Agur, eggs; Mrs. S. J. Conway, eggs, old linen; Mrs. A. B. Williams, jelly; Mrs. R. McFadden, oranges and lemons; Mrs. R. M. Ross, canned fruit; Mr. Isaac Blair, rhubarb, butter, marmalade; Mrs. Mary Campbell, rhubarb; A Friend, magazines; Mrs. E. B. May, old linen; Billie Andrew, ice cap; Mrs. R. C. Lipsett, marmalade for nurses.

An expression of thanks is due to Mrs. Shields for use of car, and to Dr. Lipsett for assistance at hospital during house cleaning.

High water in Mission Creek, an annual source of anxiety and trouble, is again occasioning considerable alarm. Though the Creek has not reached the height to which it is expected to go, the overflow is greater than for ten years. The back country is practically shut off from Kelowna by the flooding of roads and meadows.

Given permission to make certain improvements.

Following a complaint from G. Marshall regarding water connection to the Joseph lot, Coun. Campbell suggested that the ditch be cement lined with trowels. This was left with the Engineer and Coun. Campbell.

An application from R. H. Godwin for domestic water was referred to the Water Committee. About 750 ft. of pipe would be needed to give the service, but additional frontage tax would be obtained. The resignation of J. J. Corner, ditchman, was received and referred to the Engineer.

The question coming up in Council, Couns. Kirk and Campbell and Eng. Fawkes were asked to look into and advise as to the better plan of laying the new 14 inch siphon to Jones Flat, whether it should be buried or placed on top of the ground.

A number of suggestions and complaints on the newly prepared forms came before the Council each receiving attention and being disposed of in accordance with the nature of the subject matter.

Rev. W. Arnold Bennett, who has been pastor of the Baptist Church at Kelowna, has gone to the South Vancouver Church, of which Rev. A. W. MacLeod has been pastor until his recent removal to North Vancouver. Rev. W. M. Armstrong will supply for the Kelowna Church.

Fruit Union Preparing for Big Output

Enlarged packing house to care for increasing crops

Crop prospects are excellent according to reports from various sections of the Summerland, Peachland and Naramata districts. The apple crop is likely to far exceed that of any previous year. Apricots are said to be lighter than last year, but generally speaking other fruits will show considerable increase. The several low temperature periods which brought frost to some other districts passed over without doing any damage here.

To be prepared to handle the larger crop the Summerland Fruit Union is making considerable extensions to its packing house capacity and will put in a second and larger fruit grading machine. The Union had a record year last season but is expecting to surpass the bumper output of last year by at least one third. For some time carpenters have been busy remodeling the building formerly used as a flour and feed warehouse and connecting it with the adjoining fruit packing house, at one time used by Sterling & Pitsairn but occupied last year by the Union.

It is proposed to use this new addition to the packing house as a receiving house for apples, etc., where the fruit will be assorted for varieties. From here the fruit in the original orchard boxes will be moved up to the head of the grading machines in the Stirling & Pitcairn section of the connected buildings. The original Union building will be used as a storing and shipping warehouse.

Last year the Steuart Fruit Company doubled the size of its packing house. The Co Operative Orchards Company is now erecting a new packing house to meet the requirements of its increasing business.

The other local shipping concerns are all preparing for an unusually active season. The only unsatisfactory feature is the uncertainty of the shipping outlook due to the general labor unrest and strike possibilities.

The Okanagan fruit and vegetable crop for 1919 has been variously estimated to exceed that of last year by from 700 to 1,000 carloads.

Canford Mills Destroyed by Fire

Box and Lumber Mills Burned Loss over \$500,000.

The mill of the Nicola Pine Lumber Company, located fifteen miles from Merritt, was completely destroyed by fire last week, with nearly a million feet of lumber in the yard, five cars loaded on the delivery track and all the houses and other buildings, with the exception of Manager Meeker's residence and a Japanese cook house. Estimates of the loss run from half a million to three quarters of a million dollars, well covered by insurance. The mill will be rebuilt and possibly right in the town of Merritt. In the past quite a lot of box material has been shipped to the Okanagan from the Canford mill.

Among the Jersey cows that qualified in the Canadian Record of Performance during the past two months is Vera Lenore, a three year old owned by Mrs. Mary Street, of Sardis. This cow gave 11,180 lbs. of milk and 700 lbs. of butter fat in 30 days and showed a test of 6.28 per cent. This was the highest record of those made by B.C. Jerseys entered during the two months and receives mention from the Secretary of the Jersey Breeders Association as being certainly a good record.

A slight change has been made in the schedule of the C.P.R. lake service. Beginning the first of this week the Steamer Sleamous leaves here at 6.15 a.m., a half hour earlier than for some weeks, and is due here in the evening at 6.15.

Wants Road Superintendent In Kelowna

Started agitation to have Sup. McAlpine dismissed

The Kelowna Board of Trade at a recent meeting adopted a resolution asking for the appointment of "an officer with full power to build roads, to be stationed in the Kelowna district." This was the outcome of the discussion of a resolution prepared by the Glenmore Local of the U.F.B.C., endorsement of which by the Board of Trade was requested. At the regular monthly meeting of this farmers' organization the following resolution had been unanimously passed:

"Whereas the Glenmore Local of the U.F.B.C. has repeatedly drawn the attention of the government through its secretary to the deplorable condition of the roads in this district, and whereas, nothing has as yet been attempted to remedy the present state of affairs;

"Therefore be it resolved that we, as an united body, request the Minister of Public Works to remove from office the present Road Superintendent, and to appoint a more capable and efficient person to that position."

Although the purpose of the resolution found strong support among the members of the Board of Trade present at the meeting of the latter it was decided to adopt the one noted above.

According to one resident of Kelowna responsibility for the present very unsatisfactory condition of the roads is placed upon the Superintendent. Apparently it is not claimed that Superintendent McAlpine could have had a larger appropriation for his district had he insisted, nor have we heard that he has been charged with favoring one section more than another, though the feeling in Summerland has been that much of the roadwork done has been in the Kelowna district.

Another version is that the agitation was started by a Kelowna man who would like to have the appointment.

The chief need is an appropriation by the government sufficient to meet the requirements of the district. It matters not whether that money is spent under the supervision of a man resident in Kelowna or Summerland so long as he knows his business.

Protect Birds; Save the Crops

Damage Small to Service Rendered. The Farmers' Friends.

The protection of birds has been preached from end to end of the North American continent and laws have been enacted by the governments of the United States and Canada protecting them, especially during their periodical migrations. Yet there are a few persons to whom the truth has not yet been brought home that the bird is the best friend of the farmer and cannot be too much encouraged. The children in the public schools are being taught this fact and are encouraged to become members of the Audubon Society, the aim of which is bird protection.

It is hard for the fruit grower to sit still and watch the birds picking off his cherries and digging holes in his apples, and the temptation to use a gun is great. The annoyance of a flicker drumming away at a rotten building has before now ended his career, and permitted many thousands of insects to survive. It has been said by a man of figures that were the birds exterminated, in less than a year no greenstuff would grow upon the face of the earth. The balance of nature would have to be restored in some manner or such a result would perhaps be possible.

The use of sprays supplements the work of the birds in keeping the orchards clear, but no amount of spraying that is commercially possible would keep down the insect pests in the waste lands and forests, where they would increase beyond all bounds were it not for the checks that nature has provided.

Fruit Prices Going Higher

Wenatchee Reports Steady Upward Movement.

A motoring party in two cars with J. Lawler at the wheel in one and C. W. Lees in the other left here Saturday morning for Wenatchee. One car with Mr. Lees, W. H. Hayes and A. Stark returned Sunday and the other car containing beside J. Lawler, T. G. Beavis, S. M. Young, G. Thorner and F. Baker went on to Seattle. This latter party returned early this morning.

Mr. Lawler says that buyers in Wenatchee district are now offering \$2.25 for Jonathans, \$2.50 for Winesaps and \$3.50 for Delicious, the highest known advance prices at this time of the year for apples. The Wenatchee World says that offerings for cherries and apricots continue to advance, buyers now offering \$125 per ton for 'cots, 14c. and 15c. for Bings and Lamberts. Black Republicans are quoted at 10c. and Royal Anne's at 8c.

Reports were current, says Mr. Lawler, of large areas of fruit lands having been frozen out in Colorado, Idaho, etc.

About 300 acres throughout the Valley will be devoted to tobacco growing this season.

Coast-Okanagan Excursion Proposed

Thirty years ago Robert Kelly, the Vancouver wholesaler, covered the Okanagan territory from the northern end of the valley through to Fairview by horse stage. Since that time he has observed, year by year, wonderful changes in the Okanagan.

Mr. Kelly was a recent visitor here motoring north to Salmon Arm. During his trip he paid visits to Penticton, Peachland, Kelowna, Vernon, Armstrong and Enderby, and renewed acquaintances with many pioneers who knew him well in the old days.

Mr. Kelly has extensive interests in the valley. The trip made a good impression upon him and he spoke highly of the prospects ahead of the Okanagan. He announced that upon his return to the coast he intended getting in touch with the railway companies with a view to arranging a special excursion to give Coast people who have not seen the Okanagan a chance to view its orchards.

Mayor Gale of Vancouver, on one of his trips here expressed an intention of doing the same thing, and it is anticipated therefore that some such outing trip may be arranged this summer, providing for an inspection of the scenic beauties of the Coquahalla as well.

The birds are the greatest of all destroyers of insects and unless known to live almost on produce alone, should not be destroyed.

The flicker is a bird of the woodpecker family, larger than a robin, and lives almost entirely on injurious insects. This bird is plentiful around Chilliwack and should be under the special protection of the public. The work of the robins and swallows is well known. There are few birds that do not include a liberal quantity of insects in their daily diet, and if they take toll of the fruit in return, they but come under the old injunction "Thou shalt not muzzle the ox that tramples out the corn."

Toads and frogs, too, are grant insect destroyers and do no harm. Therefore, they are worthy of protection. Snakes are generally disliked by mankind, but the common snake found in this district is entirely harmless and does much good in ridding the country of vermin, in the shape of mice and rats. The owls and hawks do a similar work, though a few varieties have earned a bad name for the majority by showing a partiality for the chicken pen as a hunting ground.

Over two hundred dollars was realized by the sale of work held last Saturday in the Men's Club, and the members of the Ladies' Aid and the Methodist Church are delighted with the success of the affair.

Pipe Line Now Independent of Ditch System

North main ditch now draws direct from reservoir

Direct connection between the north main irrigation ditch and the reservoir was made this week. In the past both the ditch and the pipe system were supplied by a single pipe leading from the reservoir to a gate chamber.

To carry the water to the ditch a deep cut was made through the gravelly ridge that runs along the east of the reservoir. In this a concrete conduit four feet wide, flat on the bottom, with perpendicular sides and arched top has been built to extend into the reservoir and connect with the concrete ditch. Near the upper end is a gate with which to control the flow of water. To extend the conduit out into the lake without so far lowering the level of the water as to expose the end of the pipeline a coffer dam was built. Even with this the seepage through the gravelly soil from around the ends of this temporary dam was considerable, making it necessary to lay the concrete floor of the conduit along one edge and then carry the water along this while the other half was being laid. The job as completed is a most creditable one and will be good for generations.

The separating of the two systems, pipe and ditch, at the source will have the effect of making it possible to turn very much more water into the north main ditch without in any way interfering with the domestic pipe service and will make possible a better and more uniform water pressure in the pipe line.

The new permanent work on the north main ditch and along the upper canal is such as will last for many years and is of sufficient capacity for all time.

Walking along the ditch when the water is flowing one will notice that here and there wooden flumes thrown over ravines, though narrower than the cement, do not in any way retard the flow of the water, nor does the level of the water in the narrower flume come up. As explained by Engineer Fawkes the velocity of the flow is increased before it is put into such narrowed sections by a simple but clever method of constructing the ditch, giving the latter a shape technically known as a Ventura throat as it connects with the narrowed section. To demonstrate the effect of this shaping it was shown that the water velocity was 3.82 feet per second in the open ditch, while but a few feet beyond it had increased by the Ventura throat to 5.74 second feet.

From the point where the main canal forks to the south main and the reservoir there is a piece of concrete flume on a steep grade leading down to the reservoir. With the increased supply the enlarged canal permits it has been found necessary to add to the sides of this spillway in order to carry the increased volume of water through to the reservoir. This has now been done.

Miles Given Ten Years In Pen.

Richard L. Miles, negro, charged with the death of the two Shingle Creek Indians Kalamalka Paul and his son Alec Paul and convicted at the Spring Assizes of manslaughter, was sentenced by Mr. Justice Morrison to ten years in the penitentiary. Miles was found to have supplied the Indians with a liquid containing wood alcohol, the drinking of which caused their death.

Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Date	Max.	Min.	Rain	Snow	Bumhine
May 28-74	48	.00	0.0	10.0	
" 29-56	47	.00	0.0	.0	
" 30-56	44	.00	0.0	1.0

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, JUNE 6, 1919.

A VALUABLE ASSET.

THE PEOPLE IN THE INTERIOR have not risen to a full appreciation of the great asset they possess in the Triangle Automobile Circuit. Properly advertised, it would bring more people to the interior of British Columbia than all other attractions combined, says F. E. Simpson, editor of the Kamloops Sentinel-Review. It has just been his privilege to make the circuit along with several other citizens of Kamloops and he is therefore able to speak authoritatively.

GROWING GARDEN SEEDS.

A CIRCULAR, (No. 17), of the Dominion Experimental Farms shows that seed of most varieties of vegetables can be grown at home of as good or better quality than is the imported seed. To secure having good seed however, it should be produced from the best plants of the crop rather than from those which happen to be left unused. This publication which is entitled "Every Gardener His Own Seed Grower" is obtainable from the Publications Branch of the Department of Agriculture at Ottawa and tells how to grow, select, and care for seeds of such garden crops as beans, corn, cucumbers, egg plants, lettuce, melons, parsley, peppers, peas, radish, tomatoes, and some other crops.

"CANADA-PRODUCT"

THE CANADIAN TRADE COMMISSION has adopted the word "Canada-Product" as its trade mark (though the term is not strictly correct). The hyphen is an integral part as it was thought necessary to overcome the objection that the word "Canada" as an adjective is a little bare and strange to the ear. "Canadian," though well understood in English speaking countries, would not be nearly so expressive to the foreign peoples with whom Dominion trade is now extending. The root of "product" has the advantage of being understood in about four-fifths of the world's commercial languages, as—

French	Produit	Spanish	Product-o
Portuese	Product-o	Italian	Prodotto
German	Produkt-en	Austrian	Produkt-en
Dutch in Holland	Produkt-en	South Africa	Produkt-en
Dutch West Indies	Produkt-en		

The phrase would be at once more widely known without translation than "Made in Canada" or "Canadian Made." It also covers the double fields of agricultural "produce" and industrial "manufactures."

Health-Giving Value of the Apple

Okanagan's Main Crop Carries Youth and Vigor To Many.

That the apple is a healthful article of food is generally accepted. In just what way it is so is not so well known, nor is its real value as restorer of energy given proper recognition. Something is told of the medicinal value of the apple in the following taken from a medical journal:

"Chemically the apple is composed of vegetable fibre albumen, sugar, gum, chlorophyll, malic acid, gallic acid, lime and much water. Furthermore, the apple contains a larger percentage of phosphorus than any other fruit or vegetable. This phosphorus is admirably adapted for the renewing of the essential nervous matter, lethicin, of the brain and spinal chord. It is, perhaps, for the same reason, rudely understood, that old Scandinavian traditions represent the apple as the food of the gods, who, when they felt themselves to be growing feeble and infirm, resorted to this fruit for renewing their powers of mind and body; also the acids of the apples are of great use for men of sedentary habits, whose livers are sluggish in action; these acids serving to eliminate from the body noxious matters which, if retained, would make the brain heavy and dull, or bring about jaundice or skin eruptions and other allied troubles. Some such experience must have led to our custom of taking apple sauce with roast pork, rich goose, and like dishes. The malic acid of ripe apples, either

raw or cooked, will neutralize any excess of chalky matter engendered by eating too much meat.

"It is also the fact that such fresh fruits as the apple, the pear, the plum, when taken ripe and without sugar, diminish acidity in the stomach rather than provoke it. Their vegetable salts and juices are converted into alkaline carbonates, which tend to counteract acidity. A good ripe, raw apple is one of the easiest vegetable substances for the stomach to deal with, the whole process of its digestion being completed in eighty-five minutes. Gerard found that the 'pulpe' of roasted apples mixed in a wine quart faire water, and laboured together until it comes to be as apple and ale—which we call lambeswool—never falleth in certain diseases of the raine, which myself hath proved, and gained thereby both crowns and credit. The paring of an apple, cut somewhat thick, and the inside whereof is laid to hot, burning or running eyes at night when the party goes to bed, and is tied or bound to the same, doth help the trouble very speedily; and contrary to expectation—an excellent secret."

CLOCKS CALL THE TIME.

Clocks without hands or faces are now common in Switzerland. The timepiece stands in the hall and, when a button is pressed, by means of phonographic arrangements it calls out "Half past five" or "Five minutes to nine," as the case may be.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

The Miller brother's sister Mrs. Mussen who has spent several months in Peachland has returned to the Coast where she expects to remain for some time with her daughter.

Mr. and Mrs. A. J. Miller were passengers north on Wednesday of last week and on their return on the evening boat were accompanied by Mrs. Miller's father Mr. McDonald recently out from Ireland. He expects to remain for some time.

Mr. F. R. Gartrell and Mr. T. J. Garnett, of Summerland, visited Peachland last week representing the Summerland School Board. They came to see the Peachland Board with a view to trying to negotiate arrangements for employing a domestic science teacher between the two schools. There have been no developments as yet. These gentlemen were accompanied by Mrs. Tullett and Mrs. Garnett and two children.

Major Hardisty is enjoying the sojourn of his son who arrived last mid-week to enjoy the pleasures of life in the Okanagan for a time.

Another returned veteran, Sergt. Ort, spent a day or two in town last week spying around in his quest for a location to settle.

Mr. and Mrs. Wildy who recently purchased the former Scroggins place at Squally Point returned from a trip up the lake where they procured a neat little gasoline launch to add to their equipment at the ranch. This will facilitate their journeyings to and fro across the lake.

On Wednesday evening of last week about forty persons assembled themselves at the home of Mr. and Mrs. A. Town to celebrate a special and appreciated occasion. It was the occasion of the burning of the mortgage on the Methodist Church building, which after having been reduced from time to time had been finally scored off. Naturally this event caused the members very much pleasure and all present enjoyed themselves to the full.

Mr. and Mrs. McBean who were reported in last week's issue to have come in for a sojourn in Peachland have taken up temporary residence in the former Hamilton Cottage on the old Clarence lot.

Mr. Dobie, of Vernon, representing the Okanagan Telephone Company visited town last week accompanied by Dr. Jones of New Westminster, President of the Westminister Trust Company. They motored in on Thursday and remained over till the following day.

Tommie McLaughlan has already rented the large warehouse on the Government wharf owned by the Vernon Fruit Company, and is starting up a garage in it. He has already executed some needed repairs to cars brought to him since his starting the garage.

Mr. and Mrs. Wingate and the children returned home on Friday from a short business trip.

Mrs. Robert Howell was a visitor spending the week end in Kelowna, going over on Friday morning and returning on Monday night last.

Mr. Keating was a passenger to

P.O. Box 2 - West Summerland

Penticton on Friday night's boat and returned on Saturday last.

The representatives from Peachland called for the jury in Vernon last week returned home on Friday evening's boat.

Mr. Jas. Michael made another trip in to the North Fork Dam on Friday last returning on Saturday with the satisfactory and pleasing report that the dam was full of water and running over the spillway. He is moving in a small crew this week to commence some completion work. Part of the supplies have already gone in and more on the way. Mr. and Mrs. Wingate and family are moving in with the others and Mrs. Wingate is going to supply the hungry men with the necessities of life round the board.

Messrs. C. and Will Aitkens were passengers to Kelowna last Saturday morning; the latter returning the same day and Mr. C. Aitkens returning on Monday evening.

Art Henderson drove to Summerland and returned by boat on Saturday morning leaving the horse and rig for his sister Kathleen and her friend to drive up with.

Mr. R. J. McDougall of the Penticton Herald motored up from Penticton on Saturday last and remained over till Monday visiting with his family.

Mr. and Mrs. Kenneth Hogg and family of Summerland were visitors in town this week.

Miss Leone Morrison came down from Rutland on Saturday night last to spend the week end with her people here.

There was a full complement of services on Sunday last; Rev. Greave of Penticton filling the Baptist pulpit, Rev. Solly of Summerland in the Anglican Church and Rev. J. A. Rowland delivering his farewell

sermon in the Methodist Church. Toward the close of the Union service in the Methodist Church Mr. Rowland spoke a few words of farewell and among these were words of appreciation of the kindnesses of the congregation during his work in the field, and he expressed his sincere wish that the work of the church and community would advance with great success in the days to follow. He announced the coming of Mr. Clark who was to take charge of the field under the Methodist Board. Mr. Clark arrived on Monday evening.

Mrs. J. Gummow who has been suffering illness for a considerable time passed away on Sunday morning at an early hour. The passing of life came in a quiet and peaceful sleep and the body was laid to rest on Monday afternoon under the direction of Funeral Director B. Priest of Penticton, Rev. J. A. Rowland officiating at the service.

One of our laundrymen, Ying Lee, left for Kelowna on Tuesday morning last where he expects to work for a time.

Mr. Rattery, manager of the Royal Bank here, was a passenger north on Tuesday morning last, to spend the holiday.

We were glad to welcome Rev. A. Henderson back to Peachland on Tuesday morning last, although he does not come in the capacity he formerly did, he having been superannuated at the last Methodist Conference. He preached his farewell sermon in Summerland on Sunday and expects to spend a rest time on his fruit lot here with the boys.

Mr. Gordon McDougall taking advantage of the Bank Holiday on Tuesday took his mother for a pleasure drive to Summerland and back Tuesday night to visit Mrs. W. W. Fulton.

Art. Johnson, who will be remembered by many old timers here moved down from above Westbank on Tuesday last to work at the Peachland Lumber Co.'s mill with his team. He brought his wife (whom, by the way, he brought back from England) with him and they expect to set up housekeeping near his work at the mill.

CORPORATION OF THE DISTRICT OF PEACHLAND

NOTICE IS HEREBY GIVEN that the Municipal Council of the above district will hold its first sitting as a Court of Revision of the Assessment Roll of 1919 in the Council Chambers, Peachland, on Wednesday, June 18th, 1919, at two o'clock in the afternoon.

WM. M. DRYDEN
Municipal Clerk.

42-45

WATER NOTICE

(Diversion and Use.)

TAKE NOTICE that Major R. G. Hardisty, whose address is Peachland, B.C., will apply for a licence to take and use 700 gallons per day of water out of a spring rising on Sub-lot 1, D.L. 2534, which flows southerly and drains into Okanagan Lake. The water will be diverted at the spring and will be used for domestic purposes upon the land described as Sub-lots 58, 59 and 60, D.L. 2534. This notice was posted on the ground on the 28th day of May, 1919. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within fifty days after the first appearance of this notice in a local newspaper.

R. G. HARDISTY,
Applicant.

The date of the first publication of this notice is June 6, 1919.

Cash Prices for Fruit

The Direct-to-Consumer Business makes it possible for us to pay higher prices than any other shipper.

In the few years that we have carried on our business it has grown by leaps owing to the intelligent service that we render the consumer; and enquiries are pouring in this year faster than ever before.

Why not share in the bigger returns? Now is the time for the Grower to make hay. Prices are at the peak. Never again will we see such good times in the fruit industry.

It behoves every Grower to make the best of his opportunity.

We still need cherries, apricots, peaches, plums, pears and crabapples, for which we will contract at liberal cash prices.

If your crop is not sold we offer three distinct advantages—

1. High guaranteed cash price.
2. Segregation of fruit in packing-house. Nobody else's calls are charged to you.
3. We'll haul your fruit.

Make this your Big Year. The crop if good—don't miss the big returns. Nature has done her share; now you do yours.

Don't accept less than you can get.

Drop me a line or phone 991 and I'll be around with the high prices.

SUMMERLAND AND WEST SUMMERLAND

Naramata News

Current Events of Town and District

Mrs. M. M. Allen entertained six ladies for luncheon at her home on Wednesday after which they attended a Ladies' Aid meeting at the home of Mrs. F. Languedoc. The principal business of the afternoon was discussing plans for a picnic which is to be held in Kelowna at the home of Mrs. Hunt. The ladies are also planning to hold a lawn festival at the home of Mrs. Hughes the first Monday in July.

A pleasant social affair in the shape of a dance was held in the Opera Hall on Wednesday night. The guests of honor on this occasion were the returned soldiers of Naramata. A number of young people came over from Summerland and every one had a fine time. A very substantial luncheon was served by the committee which was one of the features of a most enjoyable evening. The Manchester Orchestra furnished music and used the banjo and steel guitar in combination with the trap drums and piano. Another of the same kind of entertainment will be held on Saturday night. On this occasion the Ladies' Unity Club will furnish the refreshments buffet style and the funds from this source will go for the benefit of their club.

Mrs. Tom Lyons and her father Mr. Bailey were in Summerland on Thursday.

Miss Ethel Wilkins who has been the guest of Miss Marguerite Robinson left Monday morning for Kelowna. After a short visit there she will return to her home in England.

Messrs. J. W. S. Logie and George Anderson of Summerland were here on business on Friday.

Mr. Calahan of Calgary was in looking over the fruit lots with the idea of purchasing one in the near future.

A number of our young folks went to Pentiction on Friday and Saturday nights to see "The Better 'Ole," and all said it was fine.

A pleasant surprise party was tendered Mr. and Mrs. Jack Young on Monday night to help them celebrate their wooden wedding. Music, dancing and lunch was plentiful and all enjoyed this pleasant affair.

We are very sorry to hear of the serious illness of Mr. T. H. Boothe at his home in Pentiction and sincerely hope he will soon be able to be about once more.

The two sons of Mr. J. Winger of Peachland drove in Monday via

Pentiction. They will go into camp at the place selected for the new electric power house and will do the preliminary work, after which they will be joined by their father and the laying of stone and cement will be started. The power house will be a stone and cement building eighteen by twenty-six feet and will be thoroughly equipped for supplying Naramata with electric service of the most modern type.

A water users' committee meeting was held on Monday night.

The fish are biting and numerous boats are dotting the lake and their owners are having the time of their lives landing the big ones. Mr. F. C. Manchester caught two fine ones Tuesday.

Women's Institute

The Naramata Women's Institute held their regular monthly meeting on Tuesday afternoon. They are making great preparations for a flower show and tea to be held on the third Thursday of this month at the Unity Club House. Prizes will be given to the exhibitors as was the case last year and the tea is to be given for the purpose of raising necessary funds. Prizes were awarded on Tuesday for the winners in last year's show. In the contest for new members Mrs. J. H. Meyers who secured the largest number was awarded a very handsome knitting bag, while Mrs. Howard Rounds received a very fine hand made handkerchief as winner of the second prize.

The entertainers for this meeting

were Mrs. C. C. Aikins who read two very interesting poems, and Mrs. Cash played a medley of the National Anthems. Roll call was answered by naming British Possessions. It was altogether a most satisfactory meeting.

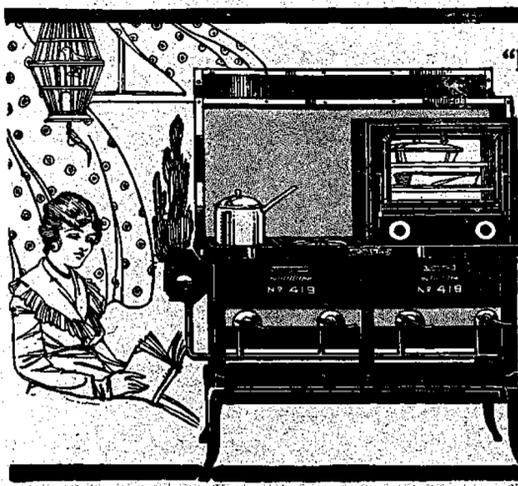

Mrs. George Cook entertained a number of ladies on Monday in honor of her guest Mrs. W. Steele

The Farmers' Institute will hold their regular meeting on Friday night. A special musical program will be rendered after the regular business is concluded.

Big Orchard Merger

Plans for the purchase of 1,500 acres of developed Yakima orchards have been announced by Ira D. Cleveland, manager of the Northwest Service Company, as part of the program of the \$100,000,000 merger announced in Los Angeles by J. S. Crutchfield, of Pittsburgh, Pa. The Cascade Fruit Company, organized by officers and members of the Yakima Fruit Growers' Association, is competing for control of big orchards and will market through that organization.

Because they put their dead in a box on top of a big rock instead of burying them, three Doukhobors have been committed for trial at Grand Forks. About a dozen others of the community threatened to perform a nude procession on the street as a protest, but afterwards decided to walk to Nelson and pull off the stunt there.

LAND REGISTRY ACT (Section 24)

IN THE MATTER of an application for duplicate certificates of title numbers 11987a and 14360a issued to Robert Cartwright covering Lot 2890, Group 1, Osoyoos Division, Yale District and Block 46, Map 287a, Pontleton Indian Reserve No. 8 respectively. Notice is hereby given that it is my intention at the expiration of one month from the date of first publication hereof to issue duplicate certificates of title covering the above lands to Robert Cartwright unless in the meantime I shall receive valid objection thereto in writing.

Dated at the Land Registry Office, Kamloops, B.C., the 9th day of May, 1919. C. H. DUNBAR, District Registrar.

Passing Events: Social, Personal, &c.

Miss Ruth Blair is visiting Miss Henderson at Peachland.

Mrs. E. R. Faulder is home again after an extended visit to Coast cities.

Walter Verity reached home Saturday night last, having come directly from the Atlantic seaboard.

Miss Myrtle Ritchie, who has been attending business college in Vancouver returned Monday morning.

E. W. Bateman, Right of Way Agent for the C.P.R., came in by train Tuesday morning to visit friends here.

Mr. and Mrs. F. A. C. Wright went down to Vancouver last Friday where Mr. Wright will take a course of treatment for rheumatism which has been causing him much suffering for some time.

Mrs. Solly, the treasurer of the Okanagan Ambulance League acknowledges with thanks \$11.90 from Summerland Schools for the month of May, for the blinded soldiers.

E. N. Rowley, who left his car in Vancouver when he came up earlier in the season went down to Vancouver a few days ago and drove the car home via the Washington route. Carlyle Clay and a chum accompanied him. Mrs. Rowley and little one returned by K.V.R. arriving Tuesday morning.

We Buy And SELL all Stocks & Bonds. R. Gellety & Co. 334 GRANVILLE ST. VANCOUVER. Members Vancouver Stock Exchange.

The Corporation of the District of Summerland

TO WATER USERS—

The Municipal Council of Summerland requests that all complaints, which must be phoned for the attention of the Engineer, Irrigation Foreman, Pipe Line Foreman or Municipal Clerk, be made to the Municipal Office during the regular hours of business.

While all members of the staff are willing that they be phoned in cases of emergency the Council is of the opinion that these men and their families are entitled to greater consideration than has been shown. The number of evening calls which they have been receiving is not justifiable. The Council will authorize and support them in requiring that calls, other than those of a very urgent character, be made to the Office before receiving attention.

In all cases state the complaint or request concisely and ring off. The time of our staff is valuable.

All ditchmen and the Office will be supplied with forms for written complaints or requests, which please use when possible.

E. R. SIMPSON, Reeve.

The RIALTO

SATURDAY, JUNE 7th, DOUGLAS FAIRBANKS.

"The Lamb"

THURSDAY 12th, "Social Hypocrite" with MAY ALLISON, A great Society hit.

SATURDAY 14th, "Venus Model"

Featuring MABEL NORMAND. A Story of a Girl who found her fortune in a bathing suit.

Performances start promptly at 8 p.m.

Miss Wells, of Vancouver is the guest of Mrs. R. Cartwright.

Mrs. Higgins of Winnipeg arrived here a few days ago to visit her friend Mrs. J. P. McIntyre.

Assistant Municipal Clerk R. Pollock returned Tuesday morning from a short visit to Vancouver.

George Edwards who has been ailing for some time is seriously ill at the home of his father, Mr. Peter Edwards.

Ernest F. Smith, whose arrival in Canada was noted last week, arrived home Tuesday morning, coming via Vancouver.

Mr. J. C. Berry, of the Empress theatre circuit, was one of a party of motorists looking over the Experimental Station and other parts of the district on Thursday.

E. T. Kingsley, official organizer for the Federated Labor Party, addressed a gathering of about a hundred citizens in the Campbell Hall on Wednesday evening.

Municipal Electrician T. P. Thornber, who attended a convention of electricians in Vancouver came in over the K.V.R. Tuesday morning.

At a recent meeting of the Summerland Agricultural Society, H. Bristow was re-elected president and A. McLachlan made vice president. The annual fair will be held as usual.

Word is received of the marriage of Flight Lieut. Philip Agur of the R.A.F. and Miss Elsie Cunningham of London, England, on Saturday, April 12. Flight Lieut. Agur is now at Winchester awaiting transportation for himself and bride. They are expected home early in July.

Mr. and Mrs. Norman Alexander, who were expected here from Ontario a week or more ago are not coming at present. Just as preparations were about completed for their leaving Mrs. Alexander had to go to hospital for treatment. This may delay their coming for a year.

The Summerland Lawn Tennis Club is preparing for an active season. At a recent meeting Mr. P. G. Dodwell was elected president and Mr. H. M. Lumsden, Vice President. The early departure of Mr. and Mrs. E. B. May will be a serious loss to the club, of which both have been active members. The visit of Mr. and Mrs. P. G. Koop to England has also deprived the club of enthusiastic members.

BIRTHS.

READ.—At the home of Nurse Scott, West Summerland, on Friday, May 30th, to Mr. and Mrs. J. A. Read, a daughter.

SHARP.—At the Summerland Hospital, on Saturday, May 31st, to Mr. and Mrs. S. J. Sharp, a daughter.

Home Seekers or Investors

Would do well to consult F. D. COOPER, Real Estate Broker, Peach Orchard, Summerland.

F. D. COOPER, Real Estate Broker, Peach Orchard, Summerland.

Those who attended the dance given last Thursday evening in Empire Hall by Misses Ruth Blair and Janet Sutherland enjoyed a delightful evening. Much effort had been devoted by the promoters to the decorations and providing refreshments. As announced the net proceeds go to the Ladies' Hospital Auxiliary.

HER ANSWER. "The worship of girlish beauty in this country is unprecedented," said David Belasco. "Look at the magazines—a pretty girl on every cover. Look at the ads—nothing but pretty girls. Go to the theatre—it's a girl show. Yes, the pretty girl is worshipped, but she remains unspoiled. I heard the other day about an elderly millionaire banker who proposed to a pretty girl in the surf at Palm Beach. 'Think,' said the old rascal, 'think of the automobiles and pearls and saddle horses a rich husband could give you.' The girl looked at him critically. 'Oh, a rich father would do just as well,' she said. 'Marry mamma.'"

CAUSE FOR ADMIRATION.
 All who have visited Epsom have seen the big gates on which are perched two stone dogs. An American officer saw them recently for the first time.
 He approached a native with a joke on his lips, expecting to see it fall flat, as he believed would be the case. "When do they feed these dogs?" he asked.
 "Every time they bark," said the Epsomite, and now this particular American is more of an admirer of Englishmen than ever.

Job Printing Department.

Press Advertising Sold Victory Bonds

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$876,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No argument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man, who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 11, No. 46. Whole No. 567.

SUMMERLAND, B.C., FRIDAY, JUNE 13, 1919.

\$2.00, payable in advance.

Construction Work on Irrigation Mains Suspended

Appropriation Expended, Council Calls a Halt Until the Water is Shut Off.

Little more construction work on the Summerland irrigation system on capital account can be done until more money is voted by the ratepayers. Statements presented by Municipal Treasurer Nixon at the regular meeting of the Council on Monday showed that the appropriation made by by-law had been expended, and further, more than the usual sum chargeable to current revenue had been spent on maintenance account. On the other hand, the receipts to date from rates had been between four and five thousand dollars less than last year.

A recommendation from the Chairman of the Finance Committee that the work be stopped until more money is voted met with general approval as being the only course open. Beyond the placing of the pipe for the new siphon across Garnett Valley it is felt that but little more work could be done to advantage on the main ditches until the water was shut off at the close of the irrigation season.

There was a difference of opinion as to the best method of laying the new siphon. The suggestion was put forward that iron collars might be used to best advantage and the pipe buried for its whole length; and the statement was made that unless the pipe were laid on top of the ground the job would not be complete in time to make use of the flood waters of Trout Creek.

The suggestion of Coun. Campbell that all the water possible be put through the present siphon and fullest possible use be made of Aeneas Creek was accordingly favored.

The holding over of this work and the suspension of concrete work until fall and a further loan had been authorized would immediately cut down the expenditure by the discharge of the construction gang of 20 or more men that have been in camp in Prairie Valley.

Engineer Fawkes recommended the holding of the best ten men of the gang, stating there was plenty of work to be done during the summer, and as the men were now thoroughly conversant with the work they would make the nucleus of a good gang when concrete work was taken up in the fall.

Stating that figures had not been available to show just how much of the by-law money had been spent and as it would take some weeks to get another loan through, even though the Council were ready with figures and plans for continuing the work, Coun. White said that though no one would like to see the work continued more than he provided it could be done economically, he could see no other course of action than to close down on the work until the money had been voted.

At a brief informal meeting held Wednesday morning instructions were given the Engineer to rush the laying of the siphon and to lay it on the surface so as to get a good supply of water to the Jones Flat section within a week if possible. Though Engineer Fawkes favored laying the pipe in a trench the quicker way was approved by the Council.

A report was made by the Engineer on Monday of the break in the main flume above the reservoir.

Chas. Marshall, who has bought the Sutherland lot near the Fosbery place, asked for domestic water, stating at the same time that Geo. Fosbery, who was now owner of the Milligan lot also wanted domestic water service. The one extension would serve both lots. Acting Reeve Campbell promised that these applications would be dealt with when the larger plan of a general extension of the pipe line system is taken up later in the season.

Acting Reeve Campbell reported having gone over the ditch serving the Joseph lot and with the Engineer arriving at the decision to cement the ditch back to the first standpipe.

Further complaints from I. P. (Continued on page 6.)

Late Snows Will Prolong Season

Predict Creeks Will Keep Up For Some Time.

Canyon Creek reservoir was visited last week by R. Johnston and the gate closed. Mr. Johnston states that he found the reservoir nearly half full even with the gate partly open. He expected it would be full by Sunday night. The creek was running strong with lots of snow still to come down. Accompanied by Lee McLaughlin he left here Thursday morning and arrived in time to close the gate the same night. About five o'clock Friday morning they got up to do some fishing and found it snowing. This did not discourage them, but they did not find much pleasure in standing on a raft in a snowstorm with their lines freezing above the water. The snowfall lasted throughout the forenoon.

Some of our citizens whose opinions in such a matter may be relied upon predict that the flow of water in Trout Creek will be well maintained this season for a longer period than usual, and that all reservoirs will be filled.

An abundance of snow fell during the winter back in the hills and cool weather and spring snow falls will keep the hills wet for a long time.

Two Farewell Presentations By Co-Workers

In anticipation of her early removal to Vancouver Mrs. E. B. May was the recipient of two presentations made at St. Stephen's Hall on Tuesday. On behalf of the Women's Auxiliary of St. Stephen's Church and in recognition of the valuable service she has rendered that organization Mrs. H. A. Solly presented Mrs. May with a certificate of life membership in the Women's Auxiliary.

Following this Mrs. R. C. Lipsett representing several of the local women's organizations with which Mrs. May has been actively associated greatly surprised Mrs. May when she presented her with a beautiful silver handled umbrella, engraved with monogram and a cheque with the request that Mrs. May make her own selection of a remembrance with the sum represented by the latter.

Though so completely surprised Mrs. May made fitting reply to both the addresses which accompanied the presentations.

Mr. and Mrs. May have been chief guests at several functions held at the homes of Summerland friends during the past few days.

Mr. E. J. White, accompanied by his mother, has arrived here from Armstrong to take over the management of the local branch of the Bank of Montreal, which position was rendered vacant by the transference of Mr. May to the Vancouver office. Mr. May expects to leave early next week.

Mails Soon Over Short K.V.R. Line

Summerland is certain soon to have much better mail connection with Vancouver and other coast points. Now that trains are running daily over the short line of the K.V.R. a much quicker service may be had over this route than by way of the C.P.R. Matter mailed in Vancouver during the late afternoon or early evening could be delivered at the post offices here between 8 and 9 o'clock the following morning. The westbound train leaves here at 11.10 a.m. daily and mails dispatched on it would be delivered some hours earlier than if sent over the C.P.R. It is confidently expected that within a few days at most the Post Office Department will have arranged for the quicker service over the shorter route.

A condor can exist without food for 40 days and an eagle can go along without a meal for 20 days. Civilized man eats three meals a day (if he has the price) but all other animals eat only when they're hungry.

Makes Quick Job Repairing Break In Irrigation Flume

Collapse of Big Main, Causing Serious Washout. Water Again Running in 72 hrs.

A serious break in a big flume on the main irrigation canal between the creek and the reservoir on Sunday morning completely shut off the source of water supply for all that part of the district supplied through the south main ditch and the reservoir. Though the water in the reservoir was at a low level there was enough, fortunately, to keep the domestic service going until the break was repaired. The unusually cool and dull weather greatly minimized the loss that would otherwise have resulted to growers of fruit and vegetables in the three days the water was off.

The accident occurred but a short distance above the reservoir and on a section of the ditch that had been built to replace that which approached the reservoir on what is now the K.V.R. right of way. A deep basin was crossed near its southerly side by trestling and fills. It was the giving way of the fill on the easterly side of the basin that started the trouble and the nature of the soil is such that it quickly dissolved and soon had the flume so distorted as to permit a heavy flow of water down the side of the basin. Quickly the earth under the concrete footing of the trestle work was washed out and the flume fell, bent after bent. Had it not been that two of the Agur brothers were walking along the ditch and noticed an appreciable lessening of the flow of water, suggesting an interruption, the damage would have been much more serious. Being but a short distance below the break they soon discovered the trouble and while one went to notify R. Mitchell the other went to the head-gate and closed it down. It was about 11 o'clock Sunday morning when this occurred.

Wednesday morning, but 72 hours later the gate was again raised, a new section of flume having been built in the meantime around the deep cut made by the water. Early Sunday afternoon, Engineer Fawkes having run the levels for carrying the flume around the break, had the gang of men that had been at work on the north main at work levelling off a ledge to support a part of the new work. Early Monday morning Foreman H. Tomlin had a crew of carpenters with needed material on the site and great credit is due Mr. Fawkes and Mr. Tomlin for the expeditious and thorough manner in which the work has been carried through. The job was all completed Wednesday forenoon and water flowing through to the reservoir by noon.

At the site of a former slide but a short distance west of Sunday's break Engineer Fawkes discovered that the trestle on one side had but little support, and here another break would have occurred at any time had it not been strengthened. While inspecting the trestle the earth beneath his feet gave way though on the surface all seemed good. This has been so fixed as to assure no settling of the heavily loaded flume.

Wednesday afternoon and night the water was put through to the reservoir and irrigation began Thursday morning. For a time it looked as though most of a week would be lost.

Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Date	Max.	Min.	Rain	Snow	Sunshine

" 9-10	40	08	0.0	0.0	1.5
" 10-11	40	00	0.0	0.0	4.5

Revolstoke is expecting the 54th Kootenay Battalion to reach that city to-day (Friday) and a big program has been arranged as part of the official welcome.

Teachers Ask For Fifteen Per Cent. Increase

Proposed Shift to Provide for Increased School Attendance. Two Teachers Resign.

Resignations from the teaching staff of the Summerland public schools were received from Miss Wolfenden and Miss MacDonald at the regular meeting of the School Board last Saturday evening. Miss MacDonald expressed regret in having to leave Summerland but felt that she must be with her mother at the Coast. Both resignations were accepted as was also that of H. A. Walton, who has been caring for the Central and High Schools buildings.

Applications from Miss Belle Vanderburg and Miss Edith Bristow for appointments to the teaching staff were filed for the time.

Mr. DeLong, inspector of high schools for the province, in answer to a letter wrote stating that it would be impossible for him to visit Summerland this term. It is now nearly two years since he has inspected the high school here and in his reply he explained that press of work had made it impossible for him to come. At the same time he intimated that a second inspector would be appointed shortly so that the board might expect regular inspection henceforth.

Permission was asked by some of the teachers to put up a shed for their cars. The matter was left with the Secretary and Mr. Baker to make measurements as to distance from the school buildings so that insurance would not be increased.

The pressing need of further classroom accommodation is causing the Trustees much concern. The present Central building has only four rooms while there are now pupils for six rooms. The question was discussed at some length at the Saturday night meeting, one suggestion which met with general approval being that the two High School rooms be used and other provision be made for the High School classes. Two buildings have been suggested, the gymnasium and necessary room in the college building. Disadvantages in the former would be the cost of fitting it up and difficulty in heating. Classrooms in the college building are equipped with desks, blackboards, etc., which would save an outlay of several hundred dollars. The climb to the college would be the chief objection, provided rooms can be leased at satisfactory rate and conditions. Trustee Tait is the convener of a special committee to deal with this matter.

An increase in salaries is being asked for by the teachers. Principal McDonald, who attended the meeting told of a recent meeting of teachers and trustees held at Kelowna, at which a fifteen per cent. increase was urged by the teachers. While the local board felt that such an increase could not be granted for the fall term, the Secretary and Principals McIntosh and McDonald were asked to go into the matter and report to a special meeting of the Board.

Following a discussion of re-arrangement of classes and teachers it was agreed that Miss Nicholson should be given Division III. of the Central with the increase of salary that the promotion would carry. The accounts approved for payment were summarized as follows:

Teachers' salaries	\$1,120.00
Secretary	10.00
Conveyance contracts	328.00
Janitors	52.00
S. Darkie	10.75
W. Ritchie	5.00
	\$1,893.65

The Holstein heifer, S. C. M. Leonora Hengervold, owned and bred by J. M. Stoves, Stoveston, B.C., has recently completed a two-year old record that shows a highly creditable production of milk, unusually high in butterfat test. She gave in 305 days, 16,348 pounds milk averaging 4.08 per cent. fat or 668 pounds fat equivalent to 855 pounds butter, 80 per cent. fat.

Two of Hospital Officers Resign

New President and Treasurer of Summerland Hospital Society.

At the regular meeting of the Summerland Hospital Society the resignation of two of its chief office holders, both of whom have served for a long time, were accepted with regrets and others of the board appointed to the vacancies.

Mr. E. B. May, who has served in a most efficient manner as treasurer ever since the society was organized, resigned because of the fact that he is leaving the district. His successor is Mr. O. F. Zimmerman, who has been one of the directors representing the Government and whose term as such is now ending.

Stating that he would be too busy to continue as president, especially in view of the fact that there will be building and other activities in connection with the hospital, Mr. W. J. Robinson asked to be relieved from office. Maintaining this stand, his resignation was accepted. With the exception of but two years Mr. Robinson has been president of the Hospital Society since its inception. Dr. R. C. Lipsett, for a long time vice president, was appointed to the presidency.

Seed Growers To Organize For Selling

An important step in the establishing of the seed growing industry on a sure footing was made this week when the seed growers in convention at Penticton decided to form a selling organization which will be known as the United Seed Growers, Ltd.

Prof. Boying of the University, and Messrs. McMeans and Peart of the Dominion Department of Agriculture, both seed specialists, attended the gathering and gave valuable assistance.

The new company will be capitalized at \$20,000 with shares of \$50 each. The Dominion will subsidize the company to the extent of \$2,500 per year for five years. The province will also contribute \$2,500. These offers are on condition that the growers put up a like amount. A call of 10 per cent. will be made on the subscribed capital and another payment of 5 per cent. required at time of allotment.

The provisional directorate is comprised mostly of men resident in Southern Okanagan together with Messrs. Boying, McMeans and Peart. Later when organization has been perfected directors representing all parts of the province taking up seed growing will be elected. Beside the experts already mentioned Messrs. Eddie of Sardis, Taylor of Kelowna, Kelley of Summerland, Hunter of Penticton and King of Kaleden are the provisional directors.

Prof. Boying in addressing the meeting stated that seed could be (Continued on Page 2)

Grazing Act As It Affects Our Stockmen

The Grazing Act as passed at the last session of the Legislature will be the subject of discussion at a meeting of those in this district who are concerned in this matter, which meeting will be held Saturday afternoon in the Campbell Hall. Arrangements were made this week by Mr. R. J. Hogg, of the Forest Branch to have the Grazing Commissioner, Mr. T. P. MacKenzie, meet stockmen of this district so that the various phases of the Act may be explained and the views of stockmen here obtained by the Commissioner. Unfortunately, as explained by Mr. Hogg, the Department made no provision for advertising these meetings nor for the rental of any places of assembly. Appreciating the poverty of the Government, Coun. Campbell has kindly offered his hall free to the Department and this notice is given without charge for the benefit of our readers.

Kelowna now has a Salvation Army.

Must Build To Provide For Growing Population

Ten-Room Structure Needed For Central School. Gov't Assistance Required.

The steady and rapid growth of Summerland's population of school age is making demands upon the School Board which they will be able to satisfy only by the assistance of the Provincial Department of Education. The urgent need of greater school accommodation and the insufficiency of the present buildings have been laid before the Superintendent of Education and as a result Inspector Anstey was asked to visit Summerland, look into the situation and report.

The trustees and a representative of the Review met Mr. Anstey in an informal way Tuesday evening in the board room when the urgency of the situation was laid before Mr. Anstey. At the same time he was informed that the Board could not hope to provide for the rapidly increasing number of school pupils without generous assistance from the Department of Education in meeting the cost of a new building.

The condition here was not at all new to Inspector Anstey, who said that he had already stated in reports to the Department that the rooms were overcrowded. At the Central School there was then an attendance of about 180 pupils with only four rooms. As the school law fixes a limit of not more than 40 pupils to a room and it is not possible to so arrange the classes as to have them all of like number a considerable overflow is certain. Already six teachers with as many rooms are needed to take care of the attendance at the Central. According to statements made at the Tuesday evening gathering over 200 pupils will be attending at the Central after the summer holidays.

Pointing out how the children of the ward schools, though living in Summerland, are not enjoying any of the advantages of the graded school and are no better off than the children in country schools, Mr. Anstey strongly advised in favor of complete consolidation. Motor conveyance and making the school hours uniform throughout the year, from 9 a.m. to 3 p.m., will remove objections to the plan.

The trustees were all in accord with this and the opinion was expressed that the new building should have ten class rooms. One had not long to listen to the remarks of Inspector Anstey to know how he stood as regards better educational facilities. He believes that no better investment can be made. Too much cannot be done for our children. We are dealing with human life and by better education building for a better future.

As at present Mr. Anstey felt that the parents were justified in objecting to having their younger children carried to the Central School, but with modern equipment and conveyance and in building and grounds this would be removed. He advocates the acquiring of ten acres of land, assuring the Board that the study of agriculture will be an important part of school work in the immediate future. Ball grounds for the boys and tennis courts for the girls and provision for other sports are essential.

Asking that his remarks be in no way considered as intoned in flattery Inspector Anstey stated that at no time had he seen a finer collection of young people than here in the schools of Summerland. They were much above the average. He had never seen a school he would rather be principal of than this. Realizing the class of people making their homes in Summerland he had no doubt they would be quite ready to provide for the educational requirements of their children if shown the necessity.

While he could not make promises on behalf of the Department, Inspector Anstey assured the Board that he would lay Summerland's need fully before the Department and left the impression that the Board was not asking for more than is required of the Government to meet the needs of the situation.

The Summerland Review

PUBLISHED BY THE REVIEW, PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, JUNE 13, 1919.

A FARMER PRESIDENT.

It should be with unusual interest that Summerland will regard the appointment of Dean Klink to the presidency of the University of British Columbia. He is a man who has trained for leadership in Agriculture in both Canadian and United States Universities. His work in much of the selection of cereal crops has been of inestimable worth to Agriculture on this continent and now that he is president of the University we, who are most vitally interested in the products of the farm will be assured that this branch of education will not be slighted.

It is quite an honor to Agriculture having the Dean of that faculty chosen as president, as farmers have for a long time been looked down upon by other professions. This move will bring them one step nearer to the recognition that as a class they deserve. The University of B.C. is one of the first to include Scientific Agriculture along with Arts and other science courses and the success that attends the work at Vancouver will have a great influence over other universities. We can now expect that it will be given more than usual recognition and we feel assured that it will never be slighted so long as President Klink remains at the head of the institution.

The office has not been hastily accepted by him. Many times was he offered the presidency since he has been acting in that capacity, and he has constantly refused until the pressure became too great and he at last yielded.

Now the faculty of Agriculture must fill the chair he has vacated and the loss of his direct leadership will be felt for some considerable time, but that a well qualified man will take his place we may feel assured and that Scientific Agriculture will have every possible assistance at British Columbia's University is no doubt now quite certain.

NO ROOM FOR DOUBT.

If anyone doubts the need of Canadians continuing to save as they did while the Huns were hammering at the gates of Amiens, let him look at the estimates recently submitted to Parliament. They provide for an expenditure of \$800,000,000 during 1919-20. Of this \$437,000,000 is on civil and \$350,000,000 on war account. At best not more than \$350,000,000 of this could be raised by taxation. The rest must come chiefly through borrowing from the people of Canada. This explains why War Savings and Thrift Stamps have been introduced, and incidentally, they enable every person earning money to invest it in a Government security that pays well.

Community Singing

The secretary of the Civic Club of Alle-Caparn, writes in the Municipal Journal: "Now is the time to prepare for community singing in the parks this summer. Do you have a band in your city? If you do, and have daily or weekly concerts, do not overlook the excellent opportunity you have to develop the wonderful spirit and inspiration created during war times through group singing.

"Here is a simple outline of procedure. If you have a band, paid or volunteer, so good. If you do not have a band, start at once to get your city council to appropriate

some money for one after a careful estimate of what you need.

Find out how many different kinds of instruments are played by local musicians, and fill out the necessary number by some imported if you can afford it. Calculate how much it would cost per man for the season. Get a good conductor, and add his salary to the budget. After your band is secured, get a large screen. Buy or borrow a good projecting lantern; have some slides made with words of patriotic and folk songs clearly delineated, and secure a good chorus leader. Wait until it is dark; then throw your words on the screen; start the band, and, oh, joy, what a chorus you will have! You need only start; the people will do the rest!"

SEED GROWERS ORGANIZE.

(Continued from page 1)

produced here as cheaply and of as good quality as anywhere else in the world. He made special reference to a field of seed mangels on Magnus Tait's farm at Summerland as one of the best in the world. Quality, he said, would capture the market for B.C. seeds.

Now that the seed growers are to be organized and a selling agency established, says Supt. Helmer of

the Summerland Experimental Station, more members are needed and he would urge that everyone interested in seed growing take at least one share in the new organization.

Among those who attended the convention from Summerland were Supt. Helmer of the Summerland Experimental Station, R. V. Agur, Athol Agur, M. Tait, J. Tait, A. Moyes, W. A. Caldwell and E. Thomas.

A seed warehouse will be erected at Penticton.

PENTICTON, B.C.

Peachland Doings
A Weekly Chronicle Furnished
By Our Local Representative.

After spending a few days holidaying at her home here, Miss Leone Morrison returned to her school at Rutland.

After completing his sojourn in Kelowna, Charlie Morrison returned home last week to take up work here for the season.

Mrs. W. Wingate and her little girl Brownie left town on Wednesday morning last week en route for the North Fork Dam to join Mr. Wingate and their little boy who had gone in on Monday. Mrs. Wingate has gone in to take charge of the culinary department. Mr. Jas. Michael has a small gang at work comprising Mr. W. Wingate, W. Charlton, Cecil Brown, and Lieut. Tees. It was rather a novel trip for Mrs. Wingate and Brownie, going nine miles on a democrat load of provisions, etc., and horseback another nine.

Mrs. H. E. McCall with the two youngest of the family left on Friday morning en route for Ontario where she expects to remain for a few months' visit with her people.

On Friday evening of last week Miss Jean Dryden entertained a few friends to a pleasant evening at her home.

Rev. Mr. Clark who is succeeding Rev. J. A. Rowland here in the pastorate of the Union Church, under the Methodist Church management, was obliged to be away on Sunday last owing to having to attend the ordination service. He returned on Monday and expects to take up his work here next Sunday.

Mr. J. Leslie of Kelowna, a pioneer of the valley, having spent a portion of his time here in the early days of Peachland, spent the week end here and across the lake on Tuesday morning.

The Police Commissioners met in the Council Chamber on Saturday

night and among the matters discussed was the herd law. It was moved and carried that the herd law be enforced throughout the community in so far as the young cattle and horses are concerned. That is to say that the young stock is to be kept off the roads.

Mr. A. J. MacKenzie returned unexpectedly on Sunday afternoon after a very pleasant time spent out at the Coast. He was fortunate to get a chance home from Penticton by auto, or he would have had to remain over night in Penticton. Mrs. N. S. Davidson had returned from the Coast on the same train and Mr. Davidson met her at Penticton with the auto. She is greatly improved in health.

We are very pleased to witness the fact that several of our local returned G.W.V.'s are purchasing homes for themselves. Mr. Arthur Henderson is buying the Harrison lot and Mr. Will Aitkens is buying the J. B. Robinson lot.

Three of our citizens, J. S. Drought, Wm. Douglas and E. F. Smith, having been on the jury in Vernon during the assizes were called again for a special case which is to come up, and left on Monday morning.

Joe Morsch has just returned from Victoria where he has been successful in fitting himself with a second class certificate and training ready for teaching. He expects to look around a bit before applying for a school.

Mr. J. H. Clements is enjoying a visit from his father and sister who came through from the East, arriving Monday night last.

W. J. ROBINSON
Real Estate
and Insurance
Summerland B.C.

Miss Kathleen Henderson was a passenger going south on Monday night last.

Mr. H. W. Dearman, of Winnipeg is spending a short time here looking after his interests at the Townsite.

Mr. R. J. McDougall of the Penticton Herald, accompanied by Mr. Brown of the Vancouver Daily Province visited town by auto on Tuesday last, returning to Penticton the same day.

Tommie McLaughlan has officially opened his garage down in the large warehouse on the Government wharf and has just received and set up ready for action a Bowser gasoline pump, so none need be without gas now.

We are very sorry to report that word has been received in town of the death of an old Peachlander, in the person of Mr. W. M. Urquhart. He had been poorly for a short time.

Mr. J. Winger and the boys Weston and Vernor have gone down to Naramata to do the mason work in connection with the removal of the power plant up the creek back of town.

A Glasgow paper has heard that there is a proposal under consideration to send a relief party to the United States to rescue Scotsmen from the threatened prohibition law.

An automobile paper tells of a much mentioned motor car running for seven miles on its reputation after having its engine removed.

Naramata News

Current Events of Town and District

Miss Majda Williams who has been attending the Deaconess School in Montreal arrived home last week and as she has secured a year's leave of absence she will be here for the summer at least.

Arthur Stiff was in town Saturday visiting with friends.

Stuart Leckie who has been assisting Capt. Languedoc on his fruit lot has moved to Pentiction to the ranch belonging to his parents.

Mrs. Ronald Smith and her three children from San Francisco are visiting Mrs. Smith's sister, Mrs. Languedoc. She will probably remain most of the summer.

Mr. Jack Lawler came over from Summerland Saturday to attend to some Union interests.

Word has been received by Mrs. J. M. Robinson that her daughter Miss Gwen Robinson has finished her course in Nursing at the Toronto General Hospital and graduated with high honors. She will take up special work there for the next three months and then come home for a rest.

Joe Morsch who has been attending Normal School in Vancouver stopped over Saturday and Sunday and renewed old acquaintances. He was the guest of Mr. Dean Walters.

Mr. and Mrs. Bruce Cash and baby son from Vernon were guests of Mr. Cash's mother over the week end.

Mrs. Hargraves of Summerland was the guest of Mrs. Hans Salting for a few days.

The baby daughter of Mr. and Mrs. Dean Walters who has been quite ill with gripe is now improving.

Mrs. Wm. Steele who has been visiting Mrs. George Cook has returned to her home in Mineola.

Miss Gladys Robinson is confined to the house with a severe cold.

Rev. H. A. Soly of Summerland held Anglican service here on Sunday afternoon.

The Farmers' Institute held a very interesting session at the Ladies' Unity Club House on Friday night. The most important items of business to settle were the date of their annual picnic and the arranging for a place for the new library and the appointing of a librarian. The Secretary, Mr. Partridge, kindly offered to act in the latter capacity, and the other issues

were left to be worked out by the Executive. After the business of the evening was over a short musical program was given which consisted of a trio rendered by Mrs. F. C. Manchester, Miss Gladys Robinson and Mr. F. C. Manchester, Mrs. Manchester playing the piano, Miss Robinson the cello and Mr. Manchester the one string fiddle; a piano solo by Miss Margaret Mitchell; and a Hawaiian guitar and piano duet by Mr. and Mrs. Manchester. The different numbers were well received by the audience and all responded to encores. The members are planning to have some form of entertainment at their meetings and they will be sure to be well attended.

The social dancing party which was held at the Opera Hall on Saturday night by Mr. and Mrs. F. C. Manchester was a big success and a great many young people attended from Summerland and Pentiction. The refreshments were handled by the ladies of the Unity Club and a tidy sum was realized by them. The hall was decorated with flags and the music was apparently much appreciated as encores were numerous.

Evans Davies has purchased a new Ford car and is making good use of it in his work.

Mr. and Mrs. Earl Ritchie of Ottawa are visiting their sister Mrs. Leonard Smith. They are here with the intention of getting a fruit lot if they find one to suit.

Mr. and Mrs. Brewer and daughter from the prairies who have been

visiting at the home of Mr. Mallory, have taken up their residence at their home in Poplar Grove.

The members of the W.C.T.U. held their regular monthly meeting at the home of Mrs. Hughes on Tuesday afternoon.

News has been received from Frank Hughes and he is expected home in July.

Rev. Mr. Fortune who has just returned from New Zealand will lecture in the Church on Sunday afternoon on Prohibition. While here he will be the guest of Mr. and Mrs. J. M. Robinson.

Mr. and Mrs. James Crawshaw and children are here looking up their old friends and are stopping at the Syndica.

About twenty-five members of the Ladies' Aid of the Methodist Church held a basket picnic at the home of Mrs. Hunt at Glenmore. They left here about six o'clock in the morning on Monday and motored to their destination. In spite of the rain the picnic was a real success. On their way home they stopped at Crescent Beach for tea, arriving home a tired but happy crowd.

KNEW SOMETHING.

"I see Henry Ford is running a newspaper." "Does he know anything about publishing a newspaper?" "Must know a heap. I notice he waited until he got \$40,000,000 before arranging to run one."

The REVIEW

Job Printing Department

Mr. and Mrs. W. H. Hayes are leaving Sunday morning for a short visit to Vancouver.

Major Hutton went out by boat on Saturday to visit Edmonton and other prairie cities.

Mr. and Mrs. Gilbert V. White, their two children and Mrs. White's mother, arrived here on Tuesday to spend the summer with Mr. and Mrs. G. J. C. White.

The national birthday will be observed in a two day celebration by the people of Pentleton. The program will be carried through under the auspices of the Turf Club, of which Mr. J. S. Heales is the secretary and a leading spirit. By an advertisement in this issue of The Review the people of Peachland, Summerland and Naramata are invited to join in the two day celebration.

Mr. R. Robertson, best known here through his former connection with the fruit growers' cooperative organization, paid The Review office a brief visit last Friday afternoon. For eleven months Mr. Robertson has been in the care of doctors and nurses as the result of a serious attack of pleuro-pneumonia and he is yet under constant care of a nurse. Since coming to the Okanagan last week he has been staying at the Incola, but Mr. Robertson informed The Review he was planning to spend a few weeks in Summerland hoping to thus hasten restoration to normal health and strength. His progress has been very satisfactory since coming to the valley.

BIRTHS.

MOUNTFORD.—On Friday, June 6th, at the Summerland Hospital, to Mr. and Mrs. E. T. Mountford, a son.

BAGGS.—On Sunday, June 8th, at the Summerland Hospital, to Mr. and Mrs. A. L. Baggs, a son.

ATKINSON.—On Sunday, June 8th, at the Summerland Hospital, a son to Mr. and Mrs. R. H. Atkinson.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for wharf at Naramata, B.C.," will be received at this office until 12 o'clock noon, Wednesday, July 9, 1919, for the construction of a wharf at Naramata, District of Yale, British Columbia.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the office of the District Engineer at Chase, B.C., and at the Post Offices, Vancouver, B.C., and Naramata, B.C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

Note.—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of \$10, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, June 5, 1919. 46-47

The Grand View hotel at Okanagan Centre was destroyed by fire a few days ago.

Pte. Bedford Tingley arrived Thursday evening and was welcomed at the wharf by a number of friends who had learned of his coming.

Miss Severs, formerly of Ottawa and recently a resident of Naramata, has joined the nursing staff of the Summerland Hospital. Miss Severs was one of the Canadian nurses serving in Egypt.

Mr. and Mrs. Muir Stuart returned last Saturday from a visit to prairie points, Mr. Stuart having gone as far as Winnipeg. They were accompanied home by Mrs. David Mitchell of Medicine Hat. Mr. Stuart says the farms of Saskatchewan are much in need of rain, but that crop conditions in Alberta are excellent.

Naramata may soon hope to have a wharf that will permit of freer communication between that town and Summerland. In this issue of the Review the Department of Public Works is asking for tenders for the construction of the needed wharf. We have not seen the plans but presume they make provision for a ferry slip for passengers, autos, horses, etc.

SNOBBISHNESS.

Lord Reading said in an after dinner speech in Washington: "The war has done one good thing for England. It has broken up our almost incredible snobbishness."

"I heard a story about our snobbishness the other day. A duchess was talking of a self made knight, just deceased, who had subscribed liberally to her charities:

"Poor, dear Sir Thomas," she said. "So he's dead, is he? Poor Sir Thomas! I couldn't know him in London, but we shall meet in heaven."

WATER NOTICE
(Diversion and Use.)

TAKE NOTICE that Major R. G. Hardisty, whose address is Peachland, B.C., will apply for a licence to take and use 700 gallons per day of water out of a spring rising on Sub-lot 1, D.L. 2534, which flows southerly and drains into Okanagan Lake. The water will be diverted at the spring and will be used for domestic purposes upon the land described as Sub-lots 58, 59 and 60, D.L. 2534. This notice was posted on the ground on the 28th day of May, 1919. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within fifty days after the first appearance of this notice in a local newspaper.

R. G. HARDISTY,
Applicant.

The date of the first publication of this notice is June 6, 1919, 45, 46

OBITUARY.

George Edwards.

The death occurred last Saturday, June 7th, at the home of his parents here, of George Edwards, son of Mr. and Mrs. Peter Edwards, formerly of Vancouver. The family moved here from Vancouver some two years ago because of the condition of health of the son. After a brief service at the house the body was taken to Vancouver where interment was made on Tuesday.

Boy Scout Column

1st SUMMERLAND TROOP B.P. SCOUTS.

Scoutmaster - O. F. Zimmerman.
Headquarters - College Gymnasium.
Meets every Friday evening at 7.30 p.m.

The local Scouts wish to take this opportunity of thanking all those who so kindly contributed towards making their annual entertainment the success it was.

The Troop also wishes to gratefully acknowledge contributions of \$18.40 from the girls' basketball team, \$5 from the Badminton Club and a splendid Association football from Mr. R. H. Helmer. All donations were greatly appreciated. There is great excitement among the boys now about the camp. It is three years since the last one so naturally everyone is looking forward to having a good time before

getting down to work. The Scout Master and Leaders spent Saturday afternoon locating suitable camp sites and finally decided upon an ideal spot on Osyooos Lake. The boys will go into camp on the 1st of July, so as to be just between the cherry and apricot seasons, so we are sure that the outing will be a great success.

CONSTRUCTION WORK SUSPENDED.

(Continued from page 1)

Barnes and R. R. Chew regarding an old flume between their lots, the repair of which had already been ordered, were referred to Coun. Campbell and Engineer Fawkes

A complaint of insufficient supply of water at the Experimental Station occasioned expressions of surprise from the Chairman of the Water Committee. The matter was referred to the Engineer.

The Department of Lands addressed a letter to the Council asking

YOU CANT BE HELD UP

NECESSITY may sometime compel you to surrender your investment in War Savings Stamps, but should this happen you get all your money back, with a good rate of interest in addition for the time in which you have lent it to the Government.

Sixteen 25-cent Thrift Stamps will buy a \$4.00 War Savings Stamp worth \$5.00 in 1924.

Press Advertising Sold Victory Bonds

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$676,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No ar-

gument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr. J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.

Preliminary Report On Cost Of Permanent Irrigation Ditches

Engineer Tells of Work Done this Spring on the Mains. Miles of New Fluming Put Up Since Winter.

According to a preliminary report made verbally to the Council on Monday by Engineer Fawkes the concrete ditch on the north main cost \$1.97 per lineal foot. Mr. Fawkes is this week preparing a more complete report of the work done and on work yet to be done to put the system in good and permanent condition, and by charging up against the work every possible item, including heavy allowances for depreciation on truck and car as well as all other equipment, he has brought the total cost per foot for the permanent concrete ditch on the north main up to \$2.15. This is for a ditch measuring 5 ft. 7 ins. across the top and 3 ft. 8 ins. across the bottom and 2 ft. deep, all inside measurements. The walls of the ditch are three inches thick and the floor five inches. The mixture was a five to one.

Included in this figure is the cost of the excavation not only for enlarging but in eliminating bad turns, this latter shortening the ditch by 300 feet.

The new ditch is not yet carrying water to its capacity because the north main is throttled between the end of the new concrete and the new wooden flume by sections of smaller ditch and narrow fluming. From 2,500 to 4,000 feet of concrete lining will be required to complete the north main; the longer length of all the wooden flume possible is replaced with permanent work.

On the big canal between the creek and reservoir, some 4,000 yards of excavation was done before concrete was placed. That part of the canal which runs through porous soil of gravel and sand, some 1,300 feet, has been concreted, the inside measurements of the finished ditch being 9 feet across the top, 8 feet across the bottom, and 3 feet deep. The cost of this work, including the excavat-

ing, was \$7,210.54. This figure will be altered slightly in the final report when some further depreciation charges and cost of returning laborers to Vancouver are included.

The concrete tunnel from the reservoir cost approximately \$3,500 including heavy excavating costs under unfavorable conditions, the building of a coffer dam to permit of extending the tunnel into the reservoir and improvements to road and approach.

The siphon across Garnett Valley, Mr. Fawkes said, he was simply laying to convert the pipe into a water way to give water to Jones Flat at the earliest moment.

Incomplete estimates of further work on the north main, south main, the upper canal and other sections were touched upon but these will be dealt with more fully in his completed report.

A report submitted by Foreman H. Tomlin who has been giving special attention to building flumes showed a surprising amount of work done in the past few weeks. Thousands of feet of new flumes, actually running into miles in the total have been put in. Much of this has been of large size requiring great amount of lumber. Details of all this work will no doubt be available later.

Mr. Tomlin's report gave the number of lineal feet with the size on each section of the irrigation system.

THE WOMEN'S INSTITUTES

The Summerland Women's Institute held their regular monthly meeting last Friday in St. Stephen's Hall. The attendance was very good and the roll call was well responded to with "Your Favorite Proverb." Mrs. Kelley gave a ten minutes talk on "Civic Laws," which was listened to most attentively.

The paper on "Flies and the Public Health," by Mrs. Lipssett, pointing out the diseases spread by flies and their filthy habits, was well worth hearing. After listening to Mrs. Lipssett one is convinced of the danger of allowing them to live.

Dr. Andrew was present and gave a splendid and instructive talk on the X-Ray. He told of the first attempts to produce this wonderful instrument and of the many improvements made up to the present of this now highly efficient and most essential machine for hospital work.

Before the meeting closed it was decided to hold an ice cream social to raise money towards the X-Ray Fund.

To have more water than they could take care of has been the experience on several occasions within the past week or so of a number of fruit growers on Jones Flat served through the ditch, according to reports received at the Municipal Office. This is said to be something brand new for Jones Flat water users. Perhaps when they become more accustomed to a good flow of water they will know better how to take care of it, for Jones Flat fruit growers have in the past always claimed they had to make a little water go a long way. The Jones Flat ditch system has no "waste" outlet for surplus water, and with the generous volume that has come to that section on several days (and nights) of late there was more water than those whose gates were open could take care of. It became necessary to have others take a share of the water. This is an indication of the happy days ahead for many who have had to worry along with insufficient water and consequent small crops.

Preparations are now being made for the survey work on the Vernon-Lumby branch of the C.N.R.

Praises Work Of Instructor.

Boys Doing Splendid Work In Manual Training Under Guidance of Instructor Baker.

Mr. Kyle, organizer of technical education, visited the manual training centre here on June 12th, and expressed great satisfaction with the accommodation, equipment and result of the first year's work. The instruction in woodwork, he stated, is of a high order and the draughting corresponds with the craftsmanship.

Mr. Baker, the instructor has proved himself worthy of the confidence reposed in him by the Board and not content with what his pupils have accomplished, he has a progressive scheme prepared for those pupils who will return next session.

The completed models, Mr. Kyle says, show an element of refinement and careful workmanship, the commercial value being considerably enhanced thereby. A standard of finish is also added which is seldom demanded from boys. Before long the pupils of Summerland will obtain a course of study and work which will be second to none in the province.

It is to be hoped that a domestic science course for girls will materialize this summer to parallel that of manual training for boys. The inhabitants of Summerland will then have a school system of which they might well feel justly proud.

Mr. James Ritchie is called upon this week to show why the irrigation system at Kaleden should not be declared by the Government as appurtenant to the land. After getting ready some data on the subject Mr. Ritchie left on Wednesday for Victoria. The irrigation system at Kaleden is said to be in excellent condition and it is claimed that the Water Company is giving land owners good service. Under the plan of selling the Kaleden lands only the lands actually disposed of acquired an interest in the water, it being required that each buyer of land buy also an interest in the Water Company. In that way when the land was disposed of the water would be in the control of the land owners. As we understand it the Government would give the unsold land rights in the water system.

The first cherries of the season were shipped by the Union on Monday, June 16th. This is five days later than the date of their first shipment in 1918.

Would Convert Waste Lands Into Vast Pasture

Under Grazing Act Range Land will be in Control of Local Co-Operative Organizations.

Grazing Commissioner T. P. MacKenzie met about twenty of the stockmen of the Summerland district in Campbell's Hall last Saturday afternoon and discussed with them in an informal way the working of the new Grazing Act. Mr. MacKenzie was for fifteen years employed in a similar capacity in organizing the grazing areas of Washington State and comes to B.C. with an experience that will prove of great value to the livestock men of this province and, because of the larger number of cattle and sheep which organization will make practical to feed, to the public generally.

The new act provides for the organization of stockmen for grazing purposes and gives such organization control of the government lands in its vicinity. A fee of five cents per month per head is charged by the Government where grazing is confined to Government range lands. If for a portion of the season privately held lands are used the fee is reduced proportionately. Any owner, no matter if he wishes to turn out but one animal must put that animal in the herd of the organization, which will be under the care of a herdsman employed by the owners of the stock.

Along the front ranges and in the vicinity of Garnett Valley there is much valuable spring and fall graz-

Prohibition Now Better Enforced.

Secretary of Provincial Organization Tells of Efforts of Liquor Party to Kill the Act.

Explaining the lack of enforcement for a time of the Prohibition Act as due to the betrayal of the trust placed in Commissioner Findlay by both the Government and the Prohibition Association, Rev. W. C. W. Fortune, Secretary of the People's Prohibition Association, who spoke here on Tuesday night, predicted better administration. He named three centres in the province where the law had been flagrantly disregarded but recent prosecution of offenders had greatly improved the situation. The speaker told of the organized effort of the traffic to defeat the law, referring specially to the "moderation" movement as a cunning move in that direction.

Mr. Fortune has but recently returned from New Zealand, where he went to assist in the prohibition campaign. The bill as submitted to the electors there met with defeat, the explanation given by Mr. Fortune being that the voters objected to the large compensations proposed by the act. He believes that when put to the people next year without this compensation section that prohibition will carry by a large majority.

Before the meeting here Tuesday night adjourned a local committee was elected to be ready for any business that may come up. That committee is: G. J. C. White, chairman; A. G. Munn, secretary; W. Ritchie, G. Thorner, Mrs. Lipssett, Mrs. Mellor, Mrs. T. J. Garnett and Mrs. McAlpine.

There was a fairly good and representative gathering in St. Andrew's Church Tuesday night to listen to Mr. Fortune's message.

On the invitation of the W.C.T.U. of Naramata some twenty or twenty-five members of the Summerland branch of the W.C.T.U. spent Thursday afternoon across the lake. The visitors report having had a most delightful time at the home of Mrs. D. O. Hughes on whose lawn the enjoyable program was carried out. Games featured largely in the program but a reading by Mrs. Allen was specially well received. Mrs. Allen's subject was the early history of the triple districts of Peachland, Summerland and Naramata. An elaborate and lovely lunch terminated a most delightful outing following which the visitors returned home on the six o'clock ferry.

First Appropriation For Permanent Construction Program Expended.

Council Preparing Report for Ratepayers. Second Sum Needed for Fall Work.

The Summerland Municipal Council held a long session on Monday with Acting Reeve Campbell in the chair. Much of the time was taken up with details in connection with the permanent construction on the irrigation system and the extensive improvements made on the wooden flumes and other parts of the system. Attention was also given the further work necessary to put the utility in the permanent condition desired by all and necessary to the giving of all water users a really satisfactory service. This was all preparatory to the laying of a full report before the ratepayers of work done and yet to be done, and the costs. It is the desire of the Council to be fully prepared to resume the construction of permanent ditches immediately the water is turned off at the end of the irrigation season.

The absolute necessity of closing down on all work until more money becomes available became the more apparent when Municipal Treasurer Nixon presented a statement. The \$35,000 voted last fall towards the improvement of the water system had been expended and quite a sum from current revenue had been diverted to like use. A further vote of money must be made by the ratepayers before the work can be resumed.

An extension of the electric light around the east of Giant's Head

WEDDING

Harvey-Baldwin

A very pretty wedding was solemnized at St. Stephen's Church here by the Rev. H. A. Solly, when Miss Marjorie Harvey, daughter of Mr. and Mrs. W. Harvey, was united in marriage to Mr. James Henry Baldwin of Vancouver.

The Church was tastefully decorated with peonies and foliage. The bride's dress was of cord silk and silk crepe chiffon trimmed with orange blossom and pearl ornaments. She wore a large picture hat of crepe de chine and carried a shower bouquet of cream roses and lily of the valley.

The bridesmaid, Miss Carrie Harvey was dressed in lavender crepe de chine and wore a large lavender picture hat and carried a bouquet of lavender and white sweet peas and roses. The bride was given away by her father, and the bride's brother, Mr. H. W. Harvey acted as best man. The two little flower girls, Miss Mfanwy Wright and Miss Vivien Harvey were daintily dressed in scalloped dresses of white Georgette crepe trimmed with rosebuds and killed bonnets and carried baskets of flowers. The Wedding March was played by Mrs. Solly.

After the ceremony a reception was held at the home of the bride's parents, about 50 guests being present.

The bridegroom's gift to the bride was a set of fox furs; to the bridesmaid and flower girls, brooches; to the best man, a tie pin. The bride was the recipient of many beautiful and useful presents.

After the honeymoon, which is being spent at the Coast cities, Mr. and Mrs. Baldwin will reside in Vancouver.

That the Lakeside Sunday School is in a flourishing condition is indicated by the annual report, a summary of which was given The Review by the Treasurer, Mr. Leo McLaughlan. During the past year the collections totalled \$416.75, being nearly one hundred dollars in excess of the previous year. From these receipts a sum of \$184 was contributed to the Roumanian Relief Fund; \$33.25 to the Military Y.M.C.A. fund and \$36 to Missions. General expenses in connection with the Sunday School required about another two hundred dollars. The maximum attendance was 180 and the usual Sunday attendance now exceeds one hundred, under the instruction of eight teachers.

was again suggested by Mr. G. J. C. White, who asked for an estimate of the cost, stating that if the cost were known he believed the necessary capital could be obtained from ratepayers in that neighborhood who would be brought under the light system by the suggested extension. A by-law authorizing these bonds could be put through at the same time as the irrigation by-law.

Acting Reeve Campbell explained that the chief difficulty now will be probably the providing of the additional power that such an extension would consume. The whole matter of increased electrical power was a question that must be taken up as soon as possible. Several plans for increasing the capacity of the plant had been considered.

Foreman Tomlin laid before the Council several jobs of flume work that could not well be delayed and was given permission to carry on that work.

The tender by E. T. Mountford of \$25 for the alfalfa on Paradise Flat lots was accepted subject to certain conditions.

A bill of \$88 from the "Gold Stripe," a soldier publication for the benefit of the Amputation Club, for the publishing of Summerland's honor roll was approved.

Some further correspondence from the Department of Public Works regarding the maintenance of the Lakeshore Drive through this Municipality was received. This matter is now with Engineer Gwyer who will report to the Department.

Complaints of too much water at the lower end of Jones Flat were received from Mr. H. Scott, who pointed out the necessity of a waste flume to connect with the lower ditch. This had already been planned for and Foreman Tomlin was instructed to have it built as soon as possible.

Presented With Silver Plate.

Mr. E. B. May takes with him Beautiful Token of Appreciation by S'land Friends.

Mr. E. B. May was the recipient on Monday night of a heavy sterling silver plate beautifully engraved. For two or three days of the earlier part of the week Mr. and Mrs. May were the guests of Mr. and Mrs. Hespeler and it was at the home of the latter that a number of friends gathered quite unexpectedly to Mr. and Mrs. May, to bid them farewell previous to their departure on Wednesday morning. During the evening Rev. H. A. Solly surprised Mr. May when, following a brief address, he presented him with the silver plate engraved with the following:

"Presented to E. B. May, Esq., Manager of the Bank of Montreal, as a mark of appreciation from his friends in Summerland, B.C., June, 1919."

On the same evening Mr. and Mrs. May, both of whom have been active members of the Summerland Lawn Tennis Club, were presented by Mr. P. G. Dodwell, president, on behalf of the members of the Club, with a large engraved photo frame of silver.

A sterling silver cigarette case, suitably engraved, was presented to Mr. May a few days ago by the members of the Bank staff.

Mr. May prizes all these tokens of good will very highly and in conversation with a representative of The Review expressed much gratitude for the kindness of the people of Summerland to Mrs. May and himself, not only now but during the twelve years of their residence here.

Mr. and Mrs. May left by train Wednesday morning for Vancouver, where Mr. May will be associated with the office of the Superintendent of the Bank of Montreal.

OUR IRRIGATION SYSTEM.

MUCH BENEFIT WILL BE DERIVED by many of our fruit and vegetable growers from the capital expenditure made last fall and this spring on the Summerland irrigation system, but equally as much work will need to be done before the full advantages of the enlarged water ways can be enjoyed. The concrete lining put in the big mains will doubtless conserve a vast amount of water that without the concrete would have been lost in seepage. This will extend the period of ample flow. The total capacity of the ditches have been increased considerably but will be very much greater when the program for rebuilding the mains has been completed.

The making only of the most urgent repairs, and much of these of only temporary nature, during the years of war is throwing now upon the landowners the burden of making good the depreciation of several years in the wooden flumes and other non-permanent parts of the system. Had it been considered practical to have done a larger amount of maintenance work during the war years the task of now putting the system in prime condition would not be such a large one. However much progress has been made this spring and the goal of a really efficient and adequate water system seems possible of attainment. With it water users will be better able to pay any irrigation rate required to administer and maintain the system than they have been able to pay the insufficient rate that has been charged.

"REVIEW" Offices.

TO UTILIZE VALUABLE ASSET.

THE FORMING HERE OF A CO-OPERATIVE organization of stockmen and the placing in their control the grazing lands on the Government ranges should soon effect a very material change in the stock industry of the district. Some such control of the feeding areas and grouping of the animals in one herd under the charge of a herdsman has long been needed. On more than one occasion has the co-operative engagement of a herdsman been considered. Up to the present the districts of Summerland and Peachland have scarcely produced enough beef for the requirements of the home markets. Under the new plan we should soon become a cattle-exporting district. Instead of our money being sent abroad to buy this necessary food product, we shall be taking in the cash from others. This means added wealth for our community. This plan will also put our dairymen in a position to raise their young stock at a much less cost than at present. One matter that will have to be dealt with before very long if the proposed plan is acted upon will be the disposition of the large droves of wild horses now thriving on some of the best grazing lands in the hills west of Summerland and Peachland.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for wharf at Naramata, B.C.", will be received at this office until 12 o'clock noon, Wednesday, July 9, 1919, for the construction of a wharf at Naramata, District of Yale, British Columbia.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the office of the District Engineer at Chase, B.C., and at the Post Offices, Vancouver, B.C., and Naramata, B.C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

Note.—Blue prints can be obtained at this Department by depositing an accepted bank cheque for the sum of \$10, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

After spending a few days visiting friends in Summerland Miss K. Henderson has returned to her home here.

Mr. Will Aitkens spent Wednesday and Thursday of last week in Kelowna.

Mr. Wm. Douglas and Mr. J. S. Drought have returned after having spent a few days in Vernon acting on the jury.

Another of our overseas men, Mr. W. L. Williams, came back home on Wednesday night of last week. It is beginning in some ways to appear like old times to see our boys coming back and settling right here. Billy has not decided what he will do yet.

A party consisting of Mr. and Mrs. C. Somerville, Mrs. J. Wright and Mr. Thos. Elliott motored up to Kelowna and return on Wednesday of last week.

Mr. J. Winger spent a couple of days in Naramata last week, returning on Thursday morning.

Public School Inspector Mr. A. Anstey paid the school here his usual visit on Thursday.

Mr. George Robinson with his mother and Mr. and Mrs. John Wright motored to Summerland and back on Thursday afternoon.

Mr. Kenneth Hogg motored up from Summerland and took back with him Mr. and Mrs. George Lang.

The Government Inspector of Weights and Measures paid the district his yearly visit on Thursday of last week.

Mr. Powers, who is doing some mining assessment duties on a mineral claim up Deep Creek spent a couple of days up the lake last week.

Mr. Finch of Calgary, a friend of Mr. Edgecomb, is spending a short holiday here visiting in their home, looking over the district.

Mr. Douglas Henderson spent the week end in Summerland, returning on Monday morning.

The Women's Institute held their regular monthly meeting in the Masonic Hall on Friday afternoon of last week.

Miss Jean Gellatly of Gellatly's Landing spent Saturday and Sunday visiting friends here and returned to her home on Monday morning.

A meeting of the returned men was held in Mr. J. A. Miller's office Saturday evening, June 7th, at which a local branch of the G.W.V.A. was organized. The follow-

ing officers were elected for a period of three months: Mr. J. L. Vicary, president; J. E. Seaton, 1st vice president; Mr. Fred Topham, 2nd vice president; Mr. C. G. McDougald, secretary-treasurer; and an investigation committee of three members were appointed re applications for membership.

After spending several weeks in Penticton with her brother and sister-in-law Mrs. L. Vivian returned to her home here on Saturday.

Mrs. Hendrickson spent the week end at Penticton, returning on Tuesday morning last.

Passengers north on Monday last were Rev. Clark, Miss Broscob, Mrs. and Miss Needham, Mrs. H. McDougald and Mr. J. E. Kerr.

Mr. Aitken, an old prairie neighbor of Mr. J. A. Miller spent a couple of days here looking over property with a view to purchasing and went on to Penticton on Monday last.

Friends and acquaintances of Miss Enid McDonald will be glad to notice the following clipping taken from one of the Coast papers: "A telegram of congratulation has been sent by Rev. D. G. MacDonald of this city to his daughter Enid Schurman, who has this week had the degree of B.A. with honors conferred upon her by Bryn Mawr College, Pennsylvania. Miss MacDonald has many friends in Vancouver, among them the junior and senior classes of King Edward High School for 1913 and 1914, of which she was a member. In her second and third years she received scholarships aggregating \$450, and this year has graduated cum laude, a distinction received by less than one-quarter of her class of 88 graduates."

Mr. Wellington Watson of Summerland moved his road camp up here on Tuesday last and set camp down near the recreation park preparatory to putting some repairs on the lakeshore drive between there and the creek.

After spending a short holiday at points up the lake, Mr. and Mrs. E. Aitkens returned to their home here Tuesday night.

Mr. Burkett Robinson who has been working at the Peachland Lumber Company's mill up Trepanier, left on Tuesday night's boat last to go to DeMuth's saw mill for a time.

Mr. J. L. Vicary has just received a motor truck which he bought at the Coast and intends putting it to use on his fruit lot.

AN UNEXPECTED REPLY.

In a Vernon Sunday School the other day the pupils were asked the question: "Who was the worst man that ever lived?" The unanimous verdict gave this infamous distinction to the ex-Kaiser, and it is not on record that the superintendent dissented with this view.

Then came the query: "And who was the best man in the world?" This elicited from a little chap whose father's political leanings are not much in doubt, the rather

Naramata News

Current Events of Town and District

A court of enquiry into the estate of the late Thomas Ellis was held at Naramata Hall this week. The enquiry started on Monday morning and continued for three days. The court was composed of representatives of the Finance Department; of the Estate and members of the Commission as follows: Commissioner DeBeck of Vernon; W. Bullock Webster, Vernon, representing the Estate; W. H. D. Ladner, Department of Finance; R. J. Hartley, Secretary of the Commission; W. W. Runnalls of the Finance Department. A number of witnesses were called and examined in regard to the value of land composing part of the estate in this district. The result of the findings of the Commission will not be known for a few days.

Mr. J. Winger of Peachland was in town on Wednesday on business connected with the building of the power house for the electric plant.

Miss Lily Hunt and grandfather C. E. Edwards of Summerland were visiting friends here on Saturday.

The Ladies' Aid of the Methodist Church met with Mrs. King at her home on the benches on Thursday afternoon.

At the regular meeting of the W.C.T.U. the following officers were elected for the ensuing year: Hon. President, Mrs. E. P. Roe; President, Mrs. F. J. Young; Vice President, Mrs. M. M. Allen; Recording Secretary, Mrs. J. M. Myers; Corresponding Secretary, Mrs. J. R. Wells; Treasurer, Mrs. D. O. Hughes. The W.C.T.U. of Summerland will be the guests of the Naramata ladies on Thursday afternoon at the home of Mrs. Hughes.

Mrs. W. L. Robinson was the guest of Mrs. George Gray of Summerland on Thursday.

Norman Mitchell has accepted a position in Penticton.

The C.P.R. barge came in Monday with a consignment of box material for the Fruit Union.

The Rev. Mr. Fortune of Vancouver delivered a very convincing and most interesting address on the subject of Prohibition at the Church on Sunday afternoon.

Mr. Fred Dennison of Penticton was in town Sunday.

Mr. Jim Williams has returned from overseas and will take up his residence with us once more. He

has purchased the south five acre lot of George Wolstencroft.

The first fruit to be shipped was sent out by the Union Tuesday, cherries from the lot of E. H. Hancock.

J. R. Wells has left for a business trip on the prairies.

Mr. and Mrs. Robert Gammon came in on Tuesday night and for the present will be the guests of Mrs. Dan McKay.

Mr. Dyke is looking over the district with the idea of getting a fruit lot in the near future.

The Aquatic Club dance in Penticton on Friday attracted a number of our young people and all had a good time.

Mr. and Mrs. R. C. Robinson who have been in Vancouver for some time are expected in a few days.

Mr. and Mrs. George Aldridge are moving to Kelowna for the summer. Mr. Aldridge has secured a position there.

The regular monthly meeting of the Unity Club will be held on Friday afternoon, June 27th.

Word has been received that Thomas Kenyon is in Vancouver and he and Mrs. Kenyon are expected in a few days.

Mr. and Mrs. F. C. Manchester will hold another one of their social dancing parties on Friday night from nine o'clock till one in Naramata Opera Hall.

Mrs. Salting, Mrs. Fred Simpson and Mrs. George Wolstencroft were the guests of Mrs. Hargraves of Summerland on Wednesday.

The work at the Big Meadow Dam is progressing finely now. There are about fifteen men working at present and they are putting in the foundation for the cement core. Mr. W. Nuttall and Capt. Langue-doc have paid them visits this week.

Mr. Walter Land entertained a few friends at the Syndica House for dinner this week.

Returns From Convention.

Rev. Anna Gillespie has returned from Detroit where she went to attend Michigan State Spiritualists Society in session there over the week end. She had charge of the Sunday morning lyceum demonstration and was also the afternoon speaker. Rev. Dorothy Newton of Kalamazoo occupied her pulpit in the First Spiritualist Church in her absence.

A distinctive honor was extended to Mrs. Gillespie in the tender of the presidency of the Michigan Society but this she gracefully declined. — Battle Creek Journal.

The slogan of the Canadian Trade Commission, "CANADA - PRO-DUCT," is to be a guarantee of good quality, fair price, and all around high level. Okanagan apples will help to establish high standard.

OIL is a cheap fuel for cooking—No ashes to clean up. No fires to build. What could be less trouble?

Review Want and Sale ads. give Good Results.

Mrs. F. A. C. Wright was a passenger to Vernon by this morning's boat.

During the month of May 2,578 crates of California cherries were imported into Vancouver.

Wm. Nelson, who has been with the Air Service in Toronto, returned home Wednesday evening.

Mr. J. M. Sutherland has returned from Saskatchewan, where he has been for several weeks.

Mrs. J. E. Phinney, now of Penticton, spent last week end here with Mrs. R. C. Lipsett.

Rev. H. A. Solly and Dr. F. W. Andrew are this week attending Grand Lodge in Vancouver.

Mr. A. G. Munn has bought from Mr. G. J. C. White the orchard just north of the home of the former.

Corp. A. J. Adams of Kelowna who has just returned from Europe is visiting at the home of his aunt, Mrs. Jas. Dunsdon.

Miss Walker of Vancouver is visiting her friend Mrs. Clarence Elsey, having come in by the Sunday morning train.

The Doherty orchard in Prairie Valley, bought last year by M. Steuart, has been sold by him to Athol Agur, but recently returned from overseas.

K. S. Hogg and O. Atkins started Tuesday morning in the latter's car for a trip to Seattle and Vancouver.

Harry MacLeod, a former Summerland boy, who has been in the signal service in France has returned to the home of his parents, Rev. A. W. and Mrs. MacLeod, now of North Vancouver.

The new wharf at Naramata will have a sloping deck similar to the Government wharf at Summerland. It will be 186 feet long and 48 feet wide and is to have a warehouse 100 x 20 feet.

As will be noted in our advertising columns the Summerland Hospital Society is now calling for tenders for the erection of an isolation hospital.

The Department of Lands is calling for tenders for the construction of some eight miles of irrigation ditch in connection with the Government's 22,000 acre settlement tract in the Fairview-Osoyoos district of the southern Okanagan.

Mr. and Mrs. F. A. Williams and little ones returned to Summerland Wednesday evening from Kerrobert, Sask., where they have been living for the past two years.

Mrs. Stevenson, wife of the Superintendent of the Dominion Experimental Station at Sidney, Vancouver Island, with her children, was the guest last week of Mrs. Isaac Blair, her aunt.

The subsidy asked by the Okanagan Lake Boat Company for maintaining the Summerland-Naramata ferry service on the standard and at the rates proscribed by the Government being higher than the Department was disposed to authorize the former rates have been reverted to.

A number of the best men in the construction gang that has been employed by the Municipality on the north main have been kept on until the work ended this week, the last work done by them being on the Garnett Valley siphon.

Mountford's butter is sold only under their label.

Mr. C. E. Edwards of Regina is visiting his daughter here, Mrs. E. Hunt.

A new fruit pest, a black aphid on peach trees, has been discovered in some orchards south of here.

Mr. W. H. Hayes came in from Vancouver Thursday morning. Mrs. Hayes will stay at the Coast for some weeks.

There is as yet no improvement in the condition of health of Mr. F. A. C. Wright, who is in hospital in Vancouver.

The old cannery on the Smith wharf has been stripped of all its machinery which has been taken to Kelowna.

Mrs. Lloyd Jones of Kelowna motored down from the Orchard City on Tuesday and took the train here for Vancouver.

Mr. and Mrs. W. H. Hayes and Mr. and Mrs. C. W. Lees and little daughter were K.V.R. passengers for Vancouver Sunday morning.

Mr. and Mrs. R. Harwood were able this week to welcome home their son, who since they left him eight years ago on the prairies has been with the Canadian forces overseas.

As will be noted in our advertising columns the Summerland Hospital Society is calling for tenders for the erection of an isolation hospital.

Three auto-loads of settlers are on their way from northern Saskatchewan to Summerland. One of the party, Mr. Gould, was here some time ago and bought the Angus orchard through Mr. J. L. Logie.

Howell Harris who arrived in Vancouver from overseas a few days ago came in from the Coast by train arriving here Sunday morning.

The following offers by cash buyers in the Okanagan Valley indicate that prices this year are likely to equal those of 1918: Apples, 3 1/2 to 4 cents; (Delicious, 5 cents.); pears, 3 to 5 cents; plums, prunes and peaches, 4 1/2 to 5 cents; apricots, 5 to 6 cents; Royal Anne cherries, 5 to 6 cents; Bing and Lambert cherries, 10 cents per pound.

In advising The Review that free copies of it and other Canadian newspapers will be no longer needed by the newspaper department of the Canadian Red Cross Society Lady Drummond says: "We would take this opportunity of sending our very grateful thanks to you and to all the friends in Canada who have by their kind contributions made it possible to carry on the work of the department."

QUICK TO TAKE ADVICE.

Jones: "I have a terrible tooth-ache and want something to cure it."

Doctor Friend: "Now you don't need any medicine. I had a tooth-ache yesterday, and I went home and my loving wife kissed me and so consoled me that the pain soon passed away. Why don't you try the trick?"

Jones: "I think I will. Is your wife home now?"

It's a pity a man can't dispose of his experience at cost.

Buy your goods from those who advertise.

455 Broadway, West,
Vancouver, B.C.
June 11, 1919.

To the Editor,
Summerland Review.

Sir,
I was asked to-day whether Pentiction would be a suitable place to send a lady for the benefit of her health. Naturally I asked, "Why Pentiction?" "Well," was the answer, "I'm not particular as to the district in the Okanagan." So I suggested a certain party in Summerland.

It seems to me a great pity that Summerland is not just as well known at the Coast as Pentiction or any other town in the Okanagan.

Why does not your Board of Trade let folks at the Coast anyway

U.F.B.C.

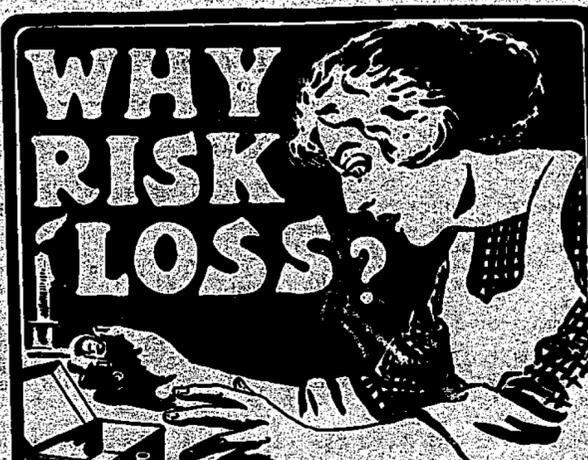

Trout Creek Local.

The United Farmers of British Columbia, Trout Creek Local, held their regular meeting on Thursday, June 12th. There was a full attendance and it was significant that there were a number of ladies present. The minutes of the previous meeting were read and adopted and the Secretary read some correspondence he had had with the Central Secretary indicating what was being done by the Organization to benefit the farmers of British Columbia.

The business being disposed of the president called on Mr. J. W. S. Logie who had consented to give

know there is such a place as Summerland in the Okanagan, where one can have a real good holiday or a quiet rest.

Yours truly,
H. EVERETT.

WHY RISK LOSS?

THE Dominion of Canada offers you every safeguard for your investment in Thrift and War Savings Stamps.

Your postmaster will register every War Savings Stamp for you, and if they are lost by theft, fire or other cause, you can still obtain your money, with the accumulated interest, at the office where the stamps were registered.

Sixteen 25-cent Thrift Stamps will buy a \$4.00 War Savings Stamp worth \$5.00 in 1924.

NATIONAL WAR SAVINGS COMMITTEE
British Columbia Division Vancouver, B.C.

BUY THRIFT STAMPS

a talk on "The Aims of Labor," and in a speech lasting well over an hour. Mr. Logie kept his audience keenly interested in his attempt to outline the policy of the Labor Party, not only in Canada but in other parts of the world during the last few years, and to foreshadow the course of events in the not too distant future. Mr. Logie had evidently given his subject much thought. The Labor Party is the only party that has an international platform, he declared. His exposition of the present governmental system in Russia was listened to with great interest. He contended that the present is the strongest government Russia has had in modern times. A government which is not based on universal right and justice, but relies on force, is

doomed. Numerous questions were asked during the evening. A hearty vote of thanks was extended to Mr. Logie and the meeting broke up soon after ten o'clock.

SUMMERLAND AND WEST SUMMERLAND

Press Advertising Sold Victory Bonds

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$676,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No argument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

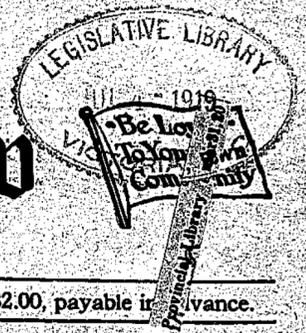

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr. J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.

The Summerland Review

Vol. 11, No. 48 Whole No. 569

SUMMERLAND, B.C., FRIDAY, JUNE 27, 1919.

\$2.00, payable in advance.

To Start Class In Domestic Science in Sept.

Summerland has Succeeded in Securing Miss Oliver to Head New Dept.

That classes in domestic science in connection with the Summerland High and Public Schools will be opened in September is now a practical certainty. Through the diligent efforts of the Board of School Trustees definite arrangements have finally been made to that effect. The Board has been so fortunate as to secure for instructor Miss Frederica Oliver, daughter of Mr. and Mrs. T. A. Oliver of Summerland. Miss Oliver, after matriculating for Toronto University, took a two year course in domestic science and kindred studies at McDonald College, Guelph, Ont., being, we believe, the first student in domestic science to enter that college from this province.

Since she graduated about five years ago Miss Oliver has been on the staff of the Vancouver Schools and is considered one of the best instructors in that city.

During the influenza epidemic of last winter Miss Oliver volunteered for service and was appointed assistant dietician in the Vancouver General Hospital.

Under the direction and with the assistance of Mr. Baker of the manual training department the boys of his classes have been fitting the domestic science room with cabinets and fixtures so that it may be in readiness for the girls' classes when schools re-open after the summer vacation.

The final estimate of the total production of apples in Nova Scotia last season is 325,000 barrels. This figure includes 300,000 barrels consumed within the province, of which 100,000 barrels were marketed. Of the remainder, 86,000 barrels were used by canning, cider and vinegar factories, 265,000 barrels exported to Great Britain and 170,000 barrels shipped to points in Canada and Newfoundland, outside of Nova Scotia.

British Columbia Fruit Production

The following table shows the production of various fruits in British Columbia for the years 1916, 1917 and 1918:

	1916	1917	1918
Apples	2312	2699	2295
Crab Apples	184	266	112
Pears	78	74	149
Peaches	109	87	198
Plums and prunes	249	222	210
Apricots	23	39	52
Cherries	34	47	63
Strawberries	103	86	107
Raspberries	53	61	127
Blackberries	12	14	18

3157 3598 3881

Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Date	Max.	Min.	Rain	Snow	Sunshine
June 18-88	50	.00	0.0	11.2	
" 19-91	54	.00	0.0	12.8	
" 20-84	58	.00	0.0	13.6	
" 21-86	57	.00	0.0	11.3	
" 22-80	55	.00	0.0	8.4	
" 23-74	46	.08	0.0	10.5	
" 24-74	40	.00	0.0	12.6	

Only British Columbia materials and B.C. labor will be used in the construction of the Okanagan branch line of the Canadian National Railway, according to Hon. J. D. Reid, Minister of Railways and Canals.

It is believed that the wholesale destruction of orchards in France and Belgium by the Huns will result in those two countries becoming large importers of apples for some years. The general neglect of all European orchards during the war period will cause a strong demand for apples from this continent.

To Fight a Common Foe

Fruit Growers of Pacific Slope Form Quarantine Board.

The Western Plant Quarantine Board, having jurisdiction over the ten western states, Lower California, New Mexico, British Columbia and the Hawaiian Islands, has been formed as an outcome of the recent congress of Pacific Coast fruit growers held at Riverside, California.

Fruit Inspector W. H. Lyne is the British Columbia representative on the new board and expects it to be of great assistance to the quarantine officers in their work.

"We are combating a common foe from the Orient. Physically it is all the one country with the same insect enemies and the new board will make possible uniformity of action and friendly co-operation in enforcing quarantine regulations," he said.

Inspector Lyne was a speaker at the conference which comprised quarantine officers, nurserymen, fruit and vegetable growers and entomologists to the number of over five hundred.

As a result of the efforts of the vegetable growers the United States Department of Agriculture has decided upon the certification of seed potatoes. In Canada there is a voluntary system of certification under which the grower or buyer may deal, but the system is not compulsory.

The measures now being taken by the big fruit growers organizations to utilize the by-products of the orchards were of deep interest to Inspector Lyne, who made a short tour of the district before returning home.

"There is a citric acid plant in operation by the growers, which utilizes all of the cull lemons and thus enables the growers to make a profit from what otherwise would be waste," stated Mr. Lyne.

Mildew is causing considerable injury in the dry belt, says Mr. J. W. Eastham, plant pathologist. Lime-sulphur 1-40 when the blossoms are in the pink, and again when the petals have fallen, will do much to control it. If the former has been omitted there is all the more reason to give the latter. Later sprayings of the same strength will help to control, but there is a liability of injury to the fruit in very hot and dry districts. Summer spraying at Vernon and Kelowna, however, has not shown any injurious results.

Scouts Preparing For Annual Camp

1st SUMMERLAND TROOP B.P. SCOUTS.

Scoutmaster - O. F. Zimmerman, Headquarters - College Gymnasium, Meets every Friday evening at 7.30 p.m.

The troop was certainly pleased last Friday to welcome back two of its oldest members, "Bill" Smith and Howell Harris. Both are back at work helping out the Scoutmaster. Bill, who for a long time was a bugler in the army, has taken charge of the bugle band, while Howell, who for three years was attached to the signallers, is taking charge of the signalling. We are hoping that both will be able to spend a good time in camp with us.

Camp begins next Tuesday. Starting from headquarters at 7 p.m. the boys will be taken to their destination on motor trucks. We have been having a little trouble as regards tents. We have one bell tent and have had two on order from Ottawa some five weeks, but owing to strike conditions we have given up all hope of having them arrive here in time for camp. However several people have kindly offered us the use of their tents so we are now feeling easy in that respect.

We are sorry that Kelowna's camp and ours take place at the same time as it has been the custom for members of the Summerland Troop to spend a few days in the Kelowna camp, and we were hoping to return the compliment this year by having a few Kelowna

Preparing Estimates of Cost of Further Work

Engineer submits Report on Improvements made to Irrigation System this Spring.

Two sessions were held this week by the Municipal Council of Summerland. Much of the time of the regular meeting on Monday was devoted to the receiving of and considering the report of Engineer Fawkes. The requirements of other sections of the system not referred to in the report were also discussed.

The total acreage that will eventually be served by the Thompson ditch was ascertained and the Engineer will be asked to prepare estimates for enlarging this ditch and putting it in good condition.

The matter of irrigating that portion of Trout Creek Point now served by the pump by enlarging the ditch running from Prairie Creek to the bench above Trout Creek Point is being investigated. Work requiring immediate attention, including flume repairs on both sides of Prairie Valley was referred to the Engineer.

A by-law authorizing the borrowing of \$5,000 from the Bank of Montreal was given its first readings on Monday, and was finally considered and approved on Wednesday evening.

A supplementary estimate was submitted by the School Board asking for a further appropriation of \$800 to cover advances in salaries and to provide for more teachers.

A further bill for \$21,15 from Cochrane & Lader, solicitors, in connection with the McAlpine suit was ordered to be paid.

Stating that land in Prairie Valley that had always been saturated is now dry Coun. Dodwell made application for irrigation water for a lot under the north main.

Upon the request of Mr. Higgin, who wishes to fence in the lot diagonally opposite the Steuart packing house, the road will be altered to follow the road allowance instead of cutting across the corner as at present.

Five hundred sacks of the cement now on hand were re-sold to Wm. Ritchie.

Early repairs to the road running south from G. J. C. White's was promised W. A. Caldwell.

A Frenchman was learning English, and every morning read a little in an English newspaper. One day he was sorely puzzled. "Vot iss this?" he asked a friend, "Your English is a puzzle."

The friend took the paper and read: "Should Mr. Binks, who sat for the Mudville constituency in 19-- consent to stand again and run, he would in all probability have a walk over."

Prices Fixed by American Growers

Growers in some sections of Washington have made a schedule of prices about as follows: Winter Banana and Delicious, \$3.50; Spitzenburg, \$3.00; Winesap and Jonathan, \$2.50 to \$2.75; Rome Beauty, Yellow Newtowns and Stayman Winesaps, \$2.25 to \$2.50. Buyers there are offering \$115 to \$125 a ton for apricots, and 12 to 14 cents a pound for Bing and Lambert cherries.

boys with us at our camp.

Commissioner Henonge, after spending the first week with Kelowna will be our guest for the following week.

The local Scouts received signal honor last week when they received an autographed photograph from Sir Robert Baden-Powell, our Chief Scout. There are few troops in Canada who are the possessors of such a photograph, so Summerland is justly proud of it.

Sunday the 6th and Thursday the 10th will be visitors days at camp and the Scouts will be pleased to welcome all who can come. On the Sunday, service will be conducted during the afternoon, while Thurs-

Britain Will Raise Embargo On Our Apples

British Buyers Coming to Okanagan. Sentiment Favorable to Canadian Trade.

The President of the British Board of Trade has made a public declaration in the House of Commons that the embargo on apples imported into Britain during the war will likely be removed; but it would surely be removed as far as Canada was concerned.

The general impression of the trade in Britain is that the embargo will be entirely removed from all apple importations into Britain this year.

Okanagan apples will be shipped to Great Britain this fall and winter in considerable quantity, according to present prospects. Several leading British fruit buyers have definitely decided to visit this valley and other parts of British Columbia this season. Fruit Markets Commissioner J. A. Grant has just returned from a visit to Britain and says that the interest in the rapidly growing output and quality of B.C. apples was beyond expectation. The Canadian boys by their work in Europe have helped to create a sentiment favorable to Canadian trade in the British Isles, and a slight preference may be looked for in placing our apples there.

In his first bulletin for the season Commissioner Grant reports the outlook in Britain for prices and demand for good, sound, well-selected fruit was never brighter. Especially is this the case for Cox Orange Pippin from 175 to 225 size, and Yellow Newton Pippin from 120 to 150 size in London. A determined effort must be made by shippers to send such apples as are superior in quality to the Dominion Government No. 1 requirements and only to ship apples of first quality. B.C. has a reputation to make and now is the time to make it.

If any apples are sold for the British trade on an F.O.B. basis the above standard should be lived up to, says the Commissioner. It is the only way to obtain a permanent hold on the British market. The world's best goes there.

During his brief visit to Great Britain Commissioner Grant made a careful investigation of the prospects for the sale of B.C. apples, as well as to enquire into the best places to ship the different varieties; the popular sizes; count in the box; the best way to secure them from loss from injury in transit; and the different methods of placing them in the merchants' hands.

This information he promises will be available to shippers in time for this year's exportations.

Deals with Work of Farmers' Institutes

A little booklet written by Wm. J. Bonavia, secretary of the Co-operative Farmers' Institutes of British Columbia, and bearing on the work of that organization in this province, has been published by the Department of Agriculture, Victoria.

A brief history of the institutes tells how they were formed in 1897 for the purpose of protecting farmers in business matters. From two institutes with a membership of 73, the organization grew until in 1915 its branches in British Columbia numbered 136 and had a membership of almost 8,500 farmers. Although the war thinned the ranks of the organization considerably, the membership books show a steadily increasing enrollment which is now placed at 6,500. The aims and objects of the body are given in full and several pages are devoted to a summary of the advantages of belonging to a farmers' institute.

day will be given over to sports. It is hoped that a good crowd will turn out. Bring your lunch baskets and make a day of it. Ten will be provided. A BOY SCOUT.

Fruit Magnates In Foreign Land

Summerland Men are Written Up in Washington.

Recently several Summerland men prominent in the fruit shipping business of the district made a special visit to the fruit districts of that part of Washington immediately to the south. One of the packing houses visited was that of the Okanagan Growers Union at Okanogan, the county seat of Okanogan, just one hundred miles south of Summerland. Below is the note made of their visit made by the Okanagan Independent.

Manager F. C. Paine of the Okanagan Growers Union entertained a party of Canadian fruit men from Summerland, B.C. Saturday. A party of eight was making a tour which was extended to Wenatchee for the purpose of securing information regarding crop conditions and particularly the manner of conducting the growers' unions and warehouses on this side of the line.

Those included in the party were W. H. Hayes, president, and John Lawler, manager of the Summerland Fruit Union; T. G. Beavis, accountant; and F. Baker, S. M. Young and G. Thornber, directors of the same concern; A. Stark, manager of the Summerland Supply Company, and C. W. Lees, manager of the Co-operative Orchard Company of Summerland.

The party made enquiry concerning the methods used here in grading and sorting apples, and the general manner of handling them, taking notes on all kinds of equipment used and other data.

The Summerland Union handled about 200,000 packages of fruit last year, including about 83,000 boxes of apples. The Canadians reported that the prices received were approximately on a par with those returned to the growers in this vicinity.

The Summerland district is organized as a municipal corporation, and the municipality owns its own power and water system, irrigation system, etc., which are operated separately from any government control. About 200 men are now being employed making renewals and repairs on the irrigation system. The district formerly had a large acreage of peaches and apricots which were planted as fillers and were removed to a large extent in recent years. The high prices of soft fruits now, however, have induced some growers to replant orchards of soft fruits.

Naramata Women Entertained Here

The Summerland Baptist Mission Circle entertained the members of the Home Department of Naramata at the Lakeside Church, Summerland, on Tuesday afternoon. About 60 ladies in all were present. A good program was given consisting of an exercise, "The Voices of the Women" by Misses Gertrude Angwin, Marion Hatfield as Conscience; Stella Wilson as Mexico; Lillian Hunt as a Mohammedan; Helen White, a woman of China; Bessie Tomlin, a Hindoo; Katie Monroe, a Hindoo widow; Jessie Monroe, Korea; Florence Campbell, a woman of Japan. The girls were in the costumes of the countries they represented.

Mrs. M. M. Allen of Naramata sang a solo, Mrs. C. W. Lees and Mrs. C. H. Elsey also sang solos, Miss Walker of Vancouver gave a violin solo, all of which were greatly enjoyed. Mrs. Lipssett gave a reading, Mrs. Estabrook a Bible reading, and Mrs. Baker an address on Home Department Work. Dainty refreshments were served and a social hour enjoyed. The collection amounted to \$5.45.

BRIDES GALORE

The total number of girls in Great Britain married to Canadian soldiers during the war is estimated at 32,000, states a British newspaper, which adds that nearly 1,500 British girls are leaving England for Canada every fortnight as the wives of Canadian soldiers.

Will Direct Travel to the Okanagan Val.

"Change Cars for Okanagan" will be Advice of Big Sign at Sicamous.

"Change here for the famous fruit and mixed farming district." That is the sign which, at the particular instance of the Vernon Board of Trade, and endorsed by the Okanagan Valley generally, is to be painted on two large signs near the kiosk at Sicamous Junction, for the education of those who travel up and down the C.P.R. main line.

In connection with the advertising of the district, R. P. Lowe, commissary agent of the C.P.R., will be supplied regularly through the season with samples of Okanagan fruit and vegetables for exhibition in the kiosk. At the request of the C.P.R. natural resources department, publicity folders have been forwarded to Winnipeg and Chicago, and folders will be placed in all the C.P.R. hotels from Montreal west.

A few years ago Mr. Lowe brought up this matter of displaying the resources of the Okanagan Valley, and also the matter of necessary advertising, but since that time, or to be more correct, about 1915, interest has steadily waned, and the action of the Vernon Board of Trade should serve as a stimulus to the towns of the whole valley. The burden of the expense for advertising for some years has been borne entirely by the C.P.R.

Crop conditions on the prairies are reported excellent. An average yield of 25 bushels of wheat per acre is said to be assured. Further rains will increase this average.

Australia anticipates being able to export at least 600,000 boxes of apples, of which 80 per cent. will be from the State of Tasmania. The freight to London will be \$1.84 per case. It is estimated that the net returns to the grower will approximate \$2.07 per case.

Municipal Expenditures of a Month

Following is a list of the accounts for May presented by the finance committee at a recent meeting of the Municipal Council and approved for payment:

A. B. Elliott, supplies	\$180.70
Summerland Drug Company	7.40
J. Downton, meat	522.86
Scott Danks	58.80
John S. Ritchie	4.10
Thos. B. Young, hauling	229.60
A. J. Beer, gum boots, etc.	21.80
Review Publishing Company	46.89
G. R. Hookham & Co.	48.95
C. H. Gayton	12.50
H. H. Elsey	8.00
Okanagan Lake Boat Co.	52.00
T. Terai, horse hire	10.00
H. Read, repairing, etc.	11.55
Wm. Johnston, camp supplies	28.00
Thos. Dale, apples for camp	18.00
W. P. Secrest, do.	24.25
J. T. Washington	30.40
J. R. Doherty, hauling	14.40
T. Carefoot	8.50
R. Johnston	59.50
Pentleton Electrical Co.	25.86
Imperial Oil Company	31.95
Pacific Coast Pipe Co.	3,452.88
Northern Electric Company	70.66
K.V.R., freight, etc.	288.07
Bank of Montreal	56.45
Postages, stamps	11.00
Councillors' meals	14.00
Union B.C. Municipalities	15.00
Children's Aid Society	40.00
Dept. Trade and Commerce	2.55
Kling's Printer, Statutes	2.76
Pentleton Tire Hospital	22.00
Summerland Supply Co.	1,040.37
Wm. Ritchie, lumber	1,639.19
Pay Rolls	0,123.60
School Board Requisition	1,584.14
Redeemed Debentures and Interest	7,448.10
Sundries	14.00

(Deductions from Pay Rolls for camp board, \$1,078.37, included in above). \$26,220.48

FRIDAY, JUNE 27, 1919.

Engineer's Report Covering Permanent Construction On Summerland Water System

Council will go before Ratepayers with Proposition for Further Improvements on Essential Utility.

Below is given a summary of the report presented to the Council at the regular meeting on Monday by Engineer Fawkes covering the work done this spring under the Irrigation By-law No. 98 on the intake canal and the north main ditch.

The upper main, where lined, measures 9 feet by 3 feet by 3 feet. On this section the expenditure was as follows:

Excavation and backfill, wages	\$1,364.10	
Concrete work, wages	2,345.75	3,709.85

This wage total includes engineer, foremen, cook and all other labor.

Cement, 2,400 bags at \$3.78½ per barrel, including return of empty sacks	\$2,271.00	
Hauling cement	168.00	
Loss on board	436.00	
Fares to Vancouver, 13	182.00	3,057.00
Total		6,766.85

Unit cost per lineal foot, \$5.51½.

Against all the work done on this section and the north main a 20 per cent. depreciation on Engineer's car, motor truck, camp outfit, tools and plant was charged. By adding the proportion of the total of this depreciation to the cost of the work on the upper canal the total cost was raised to

7,366.85

The lineal foot costs were thereby increased to \$1.62½ for excavation and backfilling, \$2.03 for concrete and materials and \$2.48½ for labor on concrete. Total average cost per lineal foot \$6.13½.

Contingent expenses were:		
Cleaning out portion of ditch not lined	165.00	
Shoring up Shingle Creek Bridge	97.00	
Hauling fill to low places adjacent to concrete lining	80.00	
Fitting up extra camp accommodation	60.00	402.00

Total expenditure on Trout Creek canal:		
1,200 feet concrete lining	\$7,366.85	
Incidental expenditures	402.00	
696 lineal feet fluming	776.29	8,545.14

The measurements of the permanent work on the North Main are 5 ft. 7 ins. X 3 ft. 8 ins. X 2 ft. Work on this main commenced on April 16th and was suspended on May 15th. Expenditure:

Excavation and backfill, wages	\$1,408.98	
Concrete work, wages	3,378.68	4,787.66

This wage total includes engineer, foremen, cook and all other labor.

Cement, 2,000 bags	1,892.50	
Hire of pump	25.00	
Hauling cement	140.00	
Loss on board	564.65	
Fares to Vancouver	182.00	2,804.15
Total		7,586.81

Unit cost per foot of ditch \$1.99½.

After adding proportion of the 20 per cent. depreciation charge on all equipment as above the total cost was raised to

8,186.81

The lineal foot costs being, excavation, etc. 54c.; concrete, wages, \$1.074; Cement and materials 54c. Total cost per foot, \$2.154. Further expenditures including wooden fluming brought the total expenditure on the north main to

10,521.21

Reservoir Tunnel and General Improvements:		
Wages	\$2,019.80	
Materials and incidentals	1,417.68	3,437.48

Garnett Valley Siphon:		
Wood stave pipe, valve and fittings	2,981.56	
Labor, fares and other expenditures	500.00	3,391.56

Total Expenditures:		
Trout Creek Canal	\$ 8,545.14	
North Main	10,521.21	
Tunnel, etc.	3,437.48	
Siphon	3,391.56	
Workmen's Compensation Board	185.00	26,080.39

A brief report from the Treasurer showed that last year there was spent under this by-law the sum of

7,486.00

Cement still on hand is valued at

2,000.00

Expenditures on flumes to May 31st totalled about

7,000.00

The debenture issue authorized by By-law No. 98 was \$85,000. It will be seen that a sum considerably in excess of this amount has been now spent in the improving of the system and that work must cease until a further expenditure is authorized by the ratepayers.

Engineer Fawkes closed his report on the work that has been done this spring with the following remarks:

"Before closing this report on the work that has been done this spring it might be advisable to call your attention to the physical conditions under which we worked.

"It was freely stated that there would be ample labor available for our work this spring. Advertisements were inserted for help for

several weeks and only three applications were received, and not one of these turned up for work. So it was necessary for your Engineer to proceed to the Coast for men. In this connection I was successful in procuring a number of men for our works program.

"We had little or no accommodation for boarding the men, or equipment to carry on the work, but started the work on the North Main on April 10th, and in one day less than one month about 4,300 ft. of concrete lining and flume was completed and the water was turned into the main.

At the same time another crew of men were working on the Trout Creek Canal. Concrete started on this work on April 23rd and 1200

ft. of concrete lining was in place together with other work, and the water started down this canal on the 15th of May to fill up the reservoir, thus making a good feed to the subsidiary canals, ditches and flumes to that point that governs their capacity, and to get the full value of the increased capacity of the Trout Creek Canal and North Main these governing factors that throttle down the volume of water will have to be enlarged relative to the capacity of the North Main. This applies to that portion of the North Main east of the completed work, and portions of the open ditch on the South Main.

The construction of the Reservoir Tunnel is a great asset to the system owing to its flexibility and control of both Irrigation and Domestic water. In the past both these systems were supplied by a 20 inch pipe intake at the reservoir which did not have sufficient capacity to supply both systems. The construction of the tunnel has eliminated this restricted capacity, and the 20 inch supply goes to Domestic only, and the tunnel feeding the North Main direct.

"The spillway from the Trout Creek Canal into the Reservoir has been increased in depth and is taking an increased volume of water to feed the increased supply to the North Main.

"The loss on board at first glance appears to be somewhat large but when all the facts are considered it is of minor importance. The fact is men were hard to get, even at the Coast, they having the choice of several jobs at higher pay and near the white lights. Some in-

ducement had to be held out to these men, and cheap board at \$6 per week and lots of overtime was the inducement. When we consider the vital importance of water at the earliest date possible, and that these men worked from dawn till dark at straight time, we did not make such a poor bargain after all and I feel that the low cost of the board to these men was more than offset by the speed of the work and the results obtained."

Figures covering further proposed improvements were submitted by Mr. Fawkes. Continuance of the concrete work on the North Main for a distance of 3,500 ft. to connect up with the new flume, concrete lining portions of the South Main, completing the Garnett Valley siphon, replacing old flumes with larger and new ones, were covered in this.

These estimated expenditures were:

North Main	\$8,385.00
South Main	9,693.00
Siphon	700.00
Garnett Valley	5,000.00
Flumes	15,000.00
Trout Creek Canal, completing	10,814.26
Total	\$49,592.26

The Council decided to call a meeting of the ratepayers next Wednesday when a complete report will be submitted to them of the work done and the question of continuing the program of making permanent improvements to the irrigation system will be considered.

Municipality of Summerland

A Public Meeting

will be held in

CAMPBELL'S HALL,

On Wednesday, July 2nd

at 8 p.m.

A Report will be presented on the work done on the IRRIGATION SYSTEM, and the work proposed to be done during the coming fall and spring under a proposed By-Law.

A full attendance of Ratepayers is requested.

(Signed), F. J. NIXON,
Municipal Clerk.

PENTICTON, B.C.

Peachland Doings
A Weekly Chronicle Furnished
By Our Local Representative.

Rev. J. A. Rowland spent a couple of days up the lake last week leaving by Wednesday's boat.

Mrs. L. Vivian returned to Penticton on Wednesday of last week, after having spent a few days with her mother and sister here. Friends here of her sister-in-law Mrs. E. Law of Penticton will be pleased to learn that her physical condition is somewhat improved and she is mending slowly.

Mr. Hendrickson recently purchased the launch "Argo" from Mr. H. H. Thompson, and has since been overhauling and fitting her up ready for use. He has repaired the planking, repainted and on Wednesday of last week launched her. They are now working on the engine getting it in running order and when ready for action Dame Rumor has it that he and Mr. D. J. White are intending going into the wood business and deliver to points on the lake by scow.

The Court of Revision of the voters' list for this Municipality sat on Wednesday the 18th, and as there was not a single protest entered the duties of the officers were very light.

Mr. and Mrs. F. A. Maxwell spent Thursday of last week visiting Kelowna, and on their return brought with them a horse which they had purchased. They are to be congratulated on choosing a very pretty beast and one which has turned out to be A1.

Mr. Thos. Powell paid a short business trip to Vernon last week, going up on Thursday morning and returning on Friday evening.

Mr. Ross who opened the local branch of the Royal Bank here, paid us an overnight visit on Thursday of last week, returning to Kelowna in the morning.

Mr. J. Winger paid Naramata another visit on Thursday night of last week in connection with their contract in that vicinity on the new power house. His son Weston returned with him to assist with their haying duties at home.

Mr. Matthews of Vancouver, connected with the Educational Department, spent Friday of last week in town arranging for the examinations being held here this week. He appointed Miss Whitman to examine the Entrance class and Mr. McLeod to examine the High School class. He went on to Kelowna from this point on Saturday morning.

Mr. J. Tait motored up from Summerland last Saturday, bringing with him Mr. Clement of the B.C. University at Vancouver, also

secretary of the B.C. Fruit Growers' Association, and after picking up Dr. Buchanan they motored through the district, being the first opportunity Professor Clement had enjoyed of viewing our community except from the boat.

Miss Leone Morrison arrived home from her school at Rutland on Saturday night last.

Major and Mrs. Hardisty are enjoying a visit from Mrs. Hardisty's aunt who arrived on Friday night of last week.

Mrs. and Miss Needham have returned home after spending a few days visit in Kelowna.

Mr. Duncan of Westbank paid his sister Mrs. H. McDougall a short week end visit coming down last Saturday night and returning by chance drive on Sunday with Rev. Clark who drove to Westbank to hold the Sunday Service there.

Mr. Ratteray joined a motor party from Kelowna on Saturday afternoon last and spent the week end in Penticton, returning by boat on Monday morning.

Mr. and Mrs. Fulton were passengers from here to Penticton by Saturday's boat, returning on Monday morning.

Mr. W. L. Williams was a passenger south on Monday night's boat.

Major Hardisty was a passenger taking the north bound boat on Monday morning.

Miss Carrie Young returned to Kelowna on Tuesday morning after having spent about a week with her cousin Mr. Fred Young and Mrs. Young.

Mr. H. Hardy is enjoying a visit from his sister who arrived on Tuesday evening's boat.

Mr. A. J. MacKenzie motored up to Kelowna on Monday evening last where he spent a couple of days on business.

Mrs. Harkness with her two children from Westbank, who have frequently visited friends and relatives here, drove down on Thursday of last week accompanied by her husband who recently returned from Toronto where he has been connected with the Y.M.C.A. as chaplain. They were persuaded to remain over till Sunday when Rev. Harkness kindly accepted an invitation to

W. J. ROBINSON
Real Estate
and Insurance
Summerland B.C.

preach in the Baptist Church, and gave a sermon not to be forgotten soon. They expect to leave Westbank this week end for Vancouver where they intend to make their home.

On Tuesday evening June 17th, a very pleasant gathering was held on Mrs. N. S. Elliott's lawn when between fifty and sixty Methodists and Presbyterians met to welcome their new minister the Rev. C. D. Clark. Rev. J. A. Rowland the retiring minister whom we were pleased to note is staying for a time, gave the address of welcome, to which Mr. Clark responded. Then Mr. Hogg on behalf of the Presbyterians and Mr. Ferguson for the Methodists assured Mr. Clark of the hearty support of the united congregations. The reception committee then gave place to the refreshment committee. A very enjoyable evening was brought to a close by the singing of the National Anthem.

FLUME BUILDING.

SEALED TENDERS are invited for the construction of some fourteen hundred and eighty feet more or less of wood fluming on a pre-emption at Deep Creek close to Wm. Douglas's home, Peachland, the property of the Westminster Trust Company, Ltd.

All lumber and other material will be supplied by the Company. Arrangements may be made for housing workmen during construction. Plans and specifications may be seen at the office of the Review Publishing Company, Ltd., Summerland.

Tenders must be addressed to
J. T. LONG,
Greata Ranch.

Naramata News

Current Events of Town and District

The Court of Enquiry into the estate of the late Thomas Ellis has adjourned to meet here again on July 29th.

The fruit shipping organizations are busy getting ready for the big season. Manager Dean and his assistants are making many needed improvements in the Fruit Union packing house and the Naramata Fruit Company have added an open air platform for weighing in and handling orchard boxes. Cherries continue to come and apricots are filling up in good shape and will be coming in soon. The prospect for peaches was never better and apples will go over the top this season.

Mrs. Langeudoc has received word that her mother and sister are leaving England on the 11th of July for Naramata.

Mrs. Lee entertained some of her Armstrong friends for dinner on Sunday.

The Ladies' Aid of the Methodist Church met with Mrs. George Cook at her home on the benches on Wednesday afternoon.

Mrs. T. I. Williams is the guest of Mrs. T. H. Boothe at Penticton this week.

Mr. F. Dyke who has been spending a few days here at the home of Mr. J. M. Robinson returned to the Coast on Wednesday. Mr. Dyke will probably return in the near future and settle here on a fruit farm.

Mrs. Hume and children of Kelowna came in on Monday to visit her mother Mrs. John Noyes.

Mr. and Mrs. R. C. Robinson and family are in town for the summer and will be the guests of Mr. J. M.

Robinson for the present. Mr. Robinson has not been well for some time and will rest and regain his health here before going back.

A meeting of the Water Users was held in the Unity Club House on Tuesday night.

The next dance given by Mr. and Mrs. F. C. Manchester will be held on Friday, July 4th, and will this time be in the open air pavilion on the lake.

Mr. and Mrs. E. H. Hancock motored to Princeton on Tuesday.

Mrs. J. M. Robinson and daughters gave a most enjoyable tea on Wednesday afternoon in honor of her daughter-in-law, Mrs. W. L. Robinson who expects to leave for Toronto on Monday. Dr. W. L. Robinson will join her there in July.

Mr. and Mrs. J. M. Robinson, Miss Margurite Robinson, Mr. F. Dyke and Mr. and Mrs. F. C. Manchester motored to Penticton on Saturday night and spent the evening with Mr. and Mrs. T. H. Boothe.

Mr. F. Dyke entertained the Misses Robinson, Mrs. W. L. Robinson and Mr. W. A. Robinson for dinner at the Incola Hotel, Penticton, on Friday night.

"Meet the British half way in their effort to do trade with Canada," is the suggestion made by the Canadian Trade Commission to business men. There is a broad expansive feeling of goodwill and fellowship at present which should not be allowed to become lukewarm.

When To Cut Alfalfa For Hay

(Experimental Farms Note.)

The yielding capacity of alfalfa depends on quite a number of factors, one of them being the time when the crop is harvested. The time of harvesting, indeed, affects the yielding capacity per acre of alfalfa more than it affects other hay crops for reasons which will be explained briefly.

It is unfortunately a rather common practice among farmers to delay the cutting of hay crops too long, under the mistaken idea that by waiting a little after that the crop has reached its best stage from a quality standpoint, larger and consequently more remunerative crops may be realized. This practice, however, works out rather the other way in alfalfa.

It is generally held that most satisfactory returns, both from the standpoint of tonnage per acre and from the standpoint of the hay quality, are obtained if the alfalfa is cut when, as it is generally expressed, it is "one-tenth in bloom." This expression really means that it is time to cut alfalfa just after it has started to come into general bloom. The blossoming is, in fact, on the whole a rather good indication of the proper time to cut alfalfa; but it is not always so, for in certain seasons, especially if wet and cool weather prevails in the early part of the summer, the blossoming period may be considerably delayed beyond the best time for

cutting the alfalfa for hay. Besides, it is not always easy to determine when an alfalfa field is "one-tenth in bloom," and in case of doubt on that question, the alfalfa grower may easily be tempted to wait a little too long.

A far safer indication of the best time to cut for hay is given by the coming on of the second growth from the crown of the roots. The second growth generally begins to shoot just when the plants begin to blossom, but sometimes a little earlier. As the second growth is the one on which the size of the season's second crop of alfalfa depends, it follows that the first hay crop of the season should be taken off before the second growth has reached such a development that there is any risk of it being cut off with the first crop. And this might easily happen if the cutting of the first crop is delayed too long, the result of course being that the return from the second

crop of the season is apt to become smaller.

Under the circumstances alfalfa growers would be well advised not to delay the cutting of the first crop any time after the second growth begins to come on. A simple examination of the crown of the roots will show how the new growth is developing, and the cutting of the first crop should take

place before it is high enough to be caught by the mower.

Germany sold goods valued at \$835,000,000 to the British Empire in 1913. Canada's opportunity is waiting, the Canadian Trade Commission says.

There are caterpillars in Australia more than six inches in length.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class, to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 28, 1918. Taxes are remitted for five years.

Provision for return of moneys acquired, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Miss Belle Vanderburg came in from Vancouver by K.V.R. on Saturday morning.

Mr. and Mrs. C. W. Lees returned Saturday morning from a week's visit to Vancouver.

Lieut. G. R. Hookham arrived at Portland, Maine, a few days ago and is expected to reach here tonight.

Osoyoos has sent the first B.C. Bing cherries to Calgary this season, a small shipment of Bing's and Royal Anne's having been received at that city last Saturday.

About fifty young people and as many parents and grown ups were delightfully entertained by Mrs. R. H. Helmer at the Experimental Station, the occasion being the birthday of her young daughter, Miss Isobel.

Mr. Cotsworth and Mr. Clever, two well known Kelowna ranchers visited Summerland last week end on their way from the Similkameen Valley, where one of them holds a large tract of farm land. While here they were the guests of Rev. and Mrs. Bates.

The demand for bulbs that will produce beautiful blooms is greater than the increase common to the hyacinth, the narcissus, the tulip and the lily. A market for both bulb and bloom is always at hand and an opportunity is offered those landowners who may like floral luxuries, to produce in quantity to supply a ready demand.

In the mild coast districts of Southern Vancouver Island, the possibilities of bulb increase have been demonstrated sufficiently to show that the tulip, and hyacinth, narcissus can be grown profitably if undertaken as a business proposition. The quality of the B.C. coast grown bulbs is quite equal to that of the importations from Holland.

Jam factories are paying 16 cents per pound for B.C. strawberries.

Donald Ross is back again at his old job, assistant to C.P.R. Agent Sharp.

After spending a holiday at the Coast Will Angove is home again and in civies.

Those of our women folk who will donate canned or otherwise preserved fruit to the hospital may obtain empty fruit jars at the hospital.

The infant child of Mrs. A. S. Cook, born here on Tuesday, died on Wednesday. Mrs. Cook, whose husband is a nephew of Mrs. Wm. McMillan, and whose home is in Winnipeg, has been visiting Mrs. McMillan.

Reeve Simpson, who as vice president of the Okanagan United Growers with the president and general sales manager visited several of the prairie centres, returned home Friday night. He reports the market outlook for the season good, the strike movement being the only disturbing feature. With few exceptions crop prospects on the prairies are good.

Gooseberries are selling in Calgary at \$8.50 per crate of 24 pints.

Washington Bings are selling in Seattle for 15 cents to 20 cents per pound.

Some Italian canneries are pressing tomato seeds into cakes for feeding stock.

Bee Swarming

Measures which may be taken to Prevent Loss of Young Bees.

The measures that are needed to control swarming depend on the intensity and duration of the dominance of the swarming impulse, which in turn depends chiefly on the latitude and the date, size and duration of the honey flow or flows in spring and early summer.

In many places in southern Ontario there is usually only one well marked and rather short swarming by simply expanding honey flow during this period, and it is generally comparatively easy to prevent swarming by simply expanding the brood chamber in advance of requirements, and giving good ventilation. A good practice is to let the brood nest extend into the super, and then, early in the honey flow, to confine the queen again to the brood chamber by means of a queen excluder.

In the rest of Canada, and especially in places where there is a prolonged honey flow, or two honey flows, the prevention of swarming is less easy. The plan of finding and destroying queen cells every week throughout the swarming season is laborious and not always effective. A better plan is to remove the queen at the beginning of the surplus honey flow and destroy all queen cells, except one, eight or nine days later. In this way a new queen is raised and she starts laying in time to produce a large number of young bees for the winter.

In a small apiary that can be watched all day from the house, it is often satisfactory to limit swarming to the prime swarm, and to prevent the swarm from flying away by the following simple method.

The queen's wings are clipped before the swarming season. When the swarm is in the air, the hive is moved away and a new hive, in which the queen is put, is placed on the old stand to receive the return-

CANADA OFFERS YOU \$5.00 for \$4.00

FOR every War Savings Stamp which you can purchase today for a fraction over \$4.00 the Dominion of Canada is pledged to pay you \$5.00 in 1924. If you cannot make an outlay of \$4.00 at one time, accumulate sixteen 25-cent Thrift Stamps and exchange them for a \$4.00 War Savings Stamp.

Should circumstances compel you to realize on your investment, your money with accumulated interest is always available.

ing swarm. This operation weakens the old colony to such an extent that it rarely swarms again, but to make sure, it is advisable to cut out all queen cells, except one, a week later; at the same time the swarm is reinforced by the field bees from the old hive, and it gathers almost as much honey as a colony that does not swarm.

was asked. "Ah don't care where," he replied. "Ah wants to go jes as fah as them eight dollars 'll take me."

Upon being pressed for an explanation he stated: "Ah've jes discovered what dat T.N.T. means. It means 'Travel, Niggah, travel.'"

T.N.T.—TRAVEL! NIGGAH, TRAVEL!

Just after the recent big explosion in New Jersey, a colored gentleman approached the ticket seller at the railway station in great haste, deposited some money at the window, and demanded "Eight dollars' worth of tickets."
"Where do you wish to go?" he

Press Advertising Sold Victory Bonds

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$676,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No ar-

gument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr. J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.
