## Land Owners in Control of Water

### Peachland Irrigation System Under Municipal Control. Naramata Has Local Water Commission.

The Peachland Irrigation system, installed and, until now, operated by the Peachland Townsite Company, Ltd., has been taken by the provincial government and handed over to the municipality of Peachland with instructions to make the necessary repairs and to operate the system and collect the irrigation rates.

Nothing has been paid to the Townsite Company for the system and apparently nothing will be paid at the present time. Mr. W. J. Robinson, the president of the Company, states that his company had lumber on the site some time ago ready to make necessary repairs and was prepared to operate again this year when a representative of the Water Comptroller's Department visited Peachland and then came here and offered him \$5,000 for the system. This price, he says, he refused as insufficient and states further that his company has always carried out its contracts with land holders under the system and that he will insist that the government fulfil these contracts. Further he considers that the government has wrongfully confiscated private property and will insist that his company be paid a proper price for the system.

At Naramata the irrigation system is now under the control of a commission of three representatives of the water users appointed by the government. This commission, comprised of Capt. Languedoc, A. H. Hook and Wm. Nuttall, is now making extensive repairs to the system and providing storage. The Naramata system, we are told, has been willingly handed over by the owning company, Mr. J. M. Robinson, the president, having told the government that he would be quite willing for the water users to maintain and operate the system. Last fall the government spent about \$5,000 of a total of about \$20,000 that will be necessary to complete a dam on the "meadows", some miles back in the hills of Naramata. A trail was put through, cabins built giving accommodation for 24 men, and the concrete outlet for the dam put in. The commission will send a crew of 20 to 24 men up to the meadows as soon as the work on the lower levels is done for the season. The dam to be built will hold 750 acre feet of water. Its core of concrete will be 600 feet long and 17 feet high at its highest point.

The water users of Naramata expect to organize soon under the Drainage, Dyking and Development Act as recently amended. When so organized they will be in a position to operate the water system cooperatively.

The land under water will be taxed for the improvement now being made to the system including the dam, the cost probably being spread over a period of 20 years.

## "Y" Drive On Next Week.

The Y.M.C.A. drive will be on next week beginning on Monday.

The pressing need of further support of the Red Triangle work was emphasized by H. Ballantyne at a meeting here last Friday. Mr. Ballantyne outlined the activities of the Y. in France, England and Canada, and told how the money was spent and of the plans for the future. His address covered much of the same ground as contained in the special advertisement on page 4 of this issue.

Last night the local committee met and further advanced the plans for next week's drive. The members of this committee are: J. L. Hilborn, chairman; R. Pollock, W. C. Kelley, W. Ritchie, G. J. C. White, G. Thornber and R. E. White.

## Are Buying Up B.C. Canneries

### Dominion Canneries Extending Operations.

The Dominion Canneries, following the recent visit of several eastern directors to the province, have formed a subsidiary company and taken over several canneries in this valley and at the coast.

The new company is the Dominion Canneries B.C., Ltd., with a capitalization of one million dollars and head office in Vancouver.

The Dominion Canneries have been operating at Vernon and the new company has taken over the canneries of the Western Canneries, Ltd. at Kelowna and Penticton. The canneries at the coast of the Vantoria Canning Co., Ltd. have also been acquired by the new concern and the plants operated by the Food Products Co., Ltd., always closely related to the Dominion Canneries, will be under the new corporation.

The Food Products Co., we believe, have been operating at Keremeos. Now that the Dominion Canneries have definitely launched into the canning business in this province on a large scale it is but reasonable to expect that they will not long delay the erection of their proposed cannery in Summerland.

Beside packing many varieties of fruit and vegetables the production of high class jams will be an important part of the activities of the company.

Canada should at once "get after" the big stream of American tourists who, according to the information received by the Canadian Trade Commission at Ottawa, will this year be unable to go to Europe, Mexico or South America.

## Confused By Road Rules

### Two Motor Accidents as Result of Exclusive Practice.

A bicycle and a Dodge car were in a head-on collision on the lake-shore road between Summerland and Penticton on Wednesday afternoon. Mr. Greer was coming up driving the Dodge and was holding to his side of the road when he met an Italian riding a bike, also keeping to the proper side. Suddenly when nearing the approaching car the Italian, we are informed, felt that he was on the wrong side and swinging over, was struck by the car, the projecting end of a front spring smashing through one of the wheels of his bike, while the rider was thrown on top of the hood of the car, slid along the running board and over the rear fender. His knee hit the radiator of the car with such force as to cause the fan to scrape the latter. Mr. Greer brought the Italian in to Summerland and his injuries were attended to by Dr. Andrew.

Wm. King of Kaleden has for the second time within a few months been in an auto accident, though this time he escaped the serious injury he sustained when he was hurt in the collision last fall behind Kaleden when the truck driven by F. Graham, accompanied by Mr. King, was struck by a car coming from the opposite direction. Mr. King's second collision happened on Sunday at the foot of the long hill leading down to Okanagan Falls. Here he was met by a Spokane car, and the American turned to the wrong side of the road with the inevitable result. The Spokane car, an Oakland, was being driven by a travelling salesman accompanied by his wife and his explanation was that he had read the rule of the road in B.C. had been changed. Mr. King's was a new Chevrolet and both cars were badly damaged about the front. One of the children in the King car suffered the worst injury, though none were seriously hurt. Three Summerland cars came along just after the accident and E. R. Butler took the party to Penticton where a service car was sent out to bring in the wrecks.

The 24th of May is Summerland's big day

## Must Conserve Water Supply

### Cannot Turn Water Into Reservoir for Another Week. Council Issues Orders.

The report presented by the Properties Committee to the Council on Monday of the prices tendered for tax sale holdings of the Municipality offered for sale did not reveal any high prices; in fact none of the offers were definitely accepted, the Council deciding that the properties should be inspected this week so that a decision could be reached at the meeting of Monday next and a minimum price put on any that will not be disposed of at the prices offered.

Mrs. Fyfe showed that she had not been given a water connection to her lot below the railway and was rebated her 1918 irrigation rates.

Mr. P. Edwards, owner of a half acre lot, had been charged a general water rate of \$10, which he considered too high and asked for a reduction. It was pointed out to him that sum was according to the schedule in which a half acre lot is charged the same general rate as six town lots, \$10. Otherwise his half acre would come under the acre rate of \$6 general rate with an irrigation rate, not charged him now, of another \$6. He was satisfied with the explanation when he found his rate was the same as paid by others similarly situated.

Application was made by Mr. J. Arkell for irrigation water on the lot commonly known as the campus. It was stated that this lot had never been under a water agreement and for several years the Municipality has been giving it exemption because of the public use made of the property. The application was referred to the Water Committee.

Mr. F. Dickinson, who has the Simpson lot at the end of the Jones Flat pipe line asked that he be given a connection on the ditch which crosses the lower part of the lot. Granted.

Mr. R. Clouston asked for certain repairs to flumes in his district and was told that this is on the list of work to be done at an early date. He again complained of some old wagons that had been permitted to remain on the road side near his home for many months.

The clerk read a signed statement from Mr. A. McLean in which he claimed that the sheds on the lumber yard property went with the lot. In view of this the clerk was instructed to accordingly notify Mr. Kelley, who had bought the sheds from Mr. Ritchie, to give him permission to inspect the file of correspondence covering the question.

Mrs. K. Bentley wrote protesting against being charged a water rate for each of two cottages, that occupied by her and the one beside it used by her daughter, taking the view that they should be considered as one household. The Council was disposed to make the one rate apply until it was discovered that each cottage stood on a separate lot.

Following a report that the water in the reservoir was fast disappearing the Council issued orders that the ditchmen should at once warn all on the pipe lines not to open the valves and to forbid the use of domestic water for irrigation purposes. The Clerk was also instructed to put a notice in The Review to like effect.

Coun. Dodwell had been delegated by the Court of Revision on water rates to investigate an appeal on three acre lots in Prairie Valley owned by the Agur Estate. To receive his report the court held a brief session and recommended to the Council that two of the lots be exempted for the present. One of them is now crossed by a travelled road and cannot be irrigated if a connection were put in without building a new road at much expense, and for the other lot there is no available service. The rebate was granted for this year and until such time as the service is supplied.

The Canadian Commission, while asking Canadian women to favor Canadian made goods, is doing all it can to get manufacturers to improve the quality of Canadian made goods.

## "A Perfect Day" In Summerland

### Well-known Journalist Pens His Impressions of a Day Spent Here.

Since his visit to Summerland a few weeks ago Mr. Peter McArthur, a well known eastern writer has had several articles on this part of the province published in the Toronto Globe. The Vancouver Province has also been printing his articles on this province. The first from here is reproduced below. After getting some information from The Review on Summerland and the South Okanagan Mr. McArthur was directed to several points of interest some of which he visited before leaving for Vancouver.

My visit to Summerland was not arranged for the purpose of investigating the fruit lands of British Columbia. I was really trying to locate a relative who had disappeared into the West a generation ago. After I had found him and visited with him I began to take an interest in my surroundings. The beauties of Okanagan Lake and the enclosing mountains made an instant appeal. Then there were orchards on the benches and clinging to the hillsides. There were huge warehouses on the docks. The prospect was promising, but I was cautious. When I enquired about the fruit industry I was told enthusiastically: "Why you are in the centre of the greatest fruit district in British Columbia."

This left me cold. I am becoming so accustomed to superlatives in this land of enthusiasm that I am not so easily aroused as I was a few days ago. But when I was shown printed statistics showing that the town shipped over \$600,000 worth of all kinds of fruit last season my interest increased. When I was told that the Dominion Experimental Station is located here I felt a touch of conviction. Hiring a car for the afternoon I proceeded to investigate. Having been advised to visit "Kill Kare Fruit Farm" I made it my first objective. It is owned and operated by Mr. J. L. Hilborn, who came to British Columbia some years ago from the Leamington district in Western Ontario. His work as a practical fruit and vegetable grower has been so successful that that he is paid a retainer by the British Columbia Department of Agriculture to keep strict account of his expenditures and earnings and to demonstrate to visitors the possibilities of the British Columbia fruit farming industry. It must be clearly understood that he is a fruit farmer, working under ordinary conditions, and in no sense carrying out the instructions of the Department of Agriculture.

## NO PESTS HIS MOTTO.

When I learned that he was from Ontario we had an immediate point of contact that made my visit to his orchard a real visit. As usual in this province the first thing that struck me was the thrifty appearance of his fruit trees. They had apparently put forth the strongest possible growth without suffering a check or reverse of any kind. When I commented on this he amazed me by stating that since coming to the province he has not found it necessary to do any spraying or to take any other precautions which we are familiar with in Ontario. Moreover he has a standing offer of \$5 for every wormy or scabby apple found in his orchard. Up to the present time he has not found it necessary to pay out any money on this score. He admitted that there had been outbreaks of both the scab and the codling worm in several parts of the valley, but they were stamped out so quickly that he had not found it necessary to take any precautions. His orchard, which is now coming into full bearing, is devoted largely to Jonathan and Delicious apples. He also produces apricots, plums and peaches, and has a few grape vines for his own use. Up to the present he has intercropped his orchard with vegetables and has had surprising success. He specialized on lettuce, cucumbers and musk melons, which are disposed of in the prairie provinces, and also

(Continued on page 2.)

## Still Higher Apple Prices

### Excellent Returns for Car of Mixed Varieties.

Some good returns are being received in these days of high prices for apples shipped from this valley. Only a few days ago we were privileged to publish the returns received by Mr. Isaac Blair for a carload of Yellow Newtowns, the average price per box received by him being \$3.15 f.o.b. Summerland. Since then The Review has been given some particulars of the returns received for a carload of Peachland and Vernon apples packed by the local unions in each of these centres and were shipped on April 12th, being sold by the O.U.G. This was an assorted car of number 1's and number 2's made up of 390 boxes of Ben Davis, 133 Yellow Newtown, 116 Delicious and 76 of other varieties. The average price received for all the number 1's was \$3.70, and for the number 2's \$3.25, and an average price for all grades and varieties in the car of \$3.64. Considering the fact that more than half the car was made up of number 1 and number 2 Ben Davis this average price is considered a particularly good one.

The total value of the car f.o.b. shipping point was \$2,624.

In making a comparison of these prices it is but fair to state that there is a selling charge of 9¢ per box off the above box prices deducted by the O.U.G. This would make the average net selling price to the shippers of \$3.54.

If any of our readers have other such good reports to make of receipts for apples we are sure they will be of great interest to many. Send them along. They will emphasize the possibilities of our chief industry.

## Huge Picnic Here on 24th

### All South Okanagan Coming to Summerland on Empire Day.

Empire Day is to be Summerland's big day. For some weeks plans have been forming for a monster picnic at the Experimental Farm here. The idea we believe was first advanced by the Summerland branch of the B.C.F.G.A., and has since been taken up jointly by other local organizations as well, including the Farmers' and Women's Institutes.

Invitations have been extended to similar organizations of Kelowna, Peachland, Naramata, Penticton and Kaleden to join the people of Summerland in this big basket picnic.

The sports features of the day's program will be arranged by Summerland and our ladies will provide tea, coffee and milk. Join the crowd at the Experimental Station on Empire Day, Saturday, May 24th. A full day of sport and pleasure.

## Will Form a Sports Club

At a well attended meeting on Wednesday, at which Mr. R. H. Helmer presided, preliminary arrangements were made for the organization of an athletic club. The proposal is to form a capitalized organization covering all manner of sports and the erection of a club and bathing house, probably on the shore beside the government wharf. A provisional committee was named to report at a meeting next Wednesday with suggestions as to charter and ways and means of providing the necessary funds. A sub-committee was appointed to take up baseball with instructions to proceed with organization at once.

Summerland is greatly in need of a good organization for the promotion of healthful recreation and the suggestion of a central body with a board of directors and several separate committees for each line of sport should be well received by all. It is hoped that everyone interested in sports, the welfare of our young people and the advancement of the community will attend the meeting next Wednesday night in Campbell Hall.

## Irrigation to Start May 15th

### Good Progress being made on Big Canal. Water Flowing on 10th. Nearing End of Work on North Main.

When will the water be turned on? This is a question now being asked by many water users who are needing irrigation water, which under the ordinary course of events would have been flowing by May first or, more likely, since the middle of April.

With the progress now being made there is every reason to hope that the essential work on the new permanent construction will permit the turning into the reservoir of a considerable supply of water in little more than a week. To complete all the concrete work now contemplated will require about another two weeks.

A representative of The Review went over the work on both the main canal and the north main ditch Thursday morning and was agreeably surprised with the amount of work that has been completed within the past few days. But for a shortage of help more might have been done. Just here we would suggest that every citizen who is at all interested in the irrigation system take the time to visit the big ditch leading from the creek and the work along the north main in Prairie Valley.

The really heavy work is that on the upper ditch where a huge amount of excavation has had to be done to widen the ditch, give it the necessary extra depth to provide for the concrete bottom and to improve the curves and rectify the grades. The old ditch seemed little more than a guide as to the location for the new and bigger ditch. The most of this digging has now been done and the concrete work is being rushed by two gangs of men. Of the nearly 2000 feet between the steel flume and the wooden flume below it is essential that about half of it be lined, bottom and sides, before water is turned in. Down this section of ditch, beginning at the steel flume a huge slab of concrete 8 ft. wide and 9 inches thick is being spread. This work and the excavating ahead is being done by a crew, mostly returned soldiers, with D. Dickson as foreman.

With several hundred feet of this bottom laid another crew, part of the gang that has been on the north main, began the putting in of the sides this (Friday) morning. This crew is under the foremanship of R. Mitchell.

By the end of next week Eng. Fawkes expects to have this work advanced sufficiently to permit the turning in of a supply of water.

Of the work on the north main 2,425 feet is now complete. While the concrete workers are above the reservoir the work of excavating is being pushed on the north main. There is yet 1,700 feet of this ditch to be finished, including about 50 feet of wooden flumes. Here again much digging has been done, a number of the worst curves taken out, all of course being considerably enlarged. At one point by building 200 feet of flume 450 feet of exceedingly crooked ditch is being eliminated.

The engineer expects to have the work on the north main finished in about two weeks.

To the layman it would appear that a splendid job is being done and Engineer Fawkes says the cost will be considerably below his estimate.

## Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Apr.	Max.	Min.	Rain	Snow	Burnshine
23	62	35	.00	0.0	7.8
24	63	44	.00	0.0	1.0
25	64	48	.04	0.0	4.4
26	68	42	.00	0.0	12.0
27	74	45	.00	0.0	5.2
28	67	45	.00	0.0	4.7
29	66	40	.00	0.0	12.0

A quickening of interest among manufacturers in the possibilities of export trade is reported by the Canadian Trade Commission.

## "A PERFECT DAY IN SUMMERLAND."

(Continued from page 1)

raises large quantities of potatoes, peppers, cabbage and egg plants. He has large greenhouses, in which the plants are now developing for transplanting.

When I asked for some indication of the result of his fruit and vegetable farming he was somewhat loth to furnish the statistics, as he did not want to give too rosy an account of his operations. He explained that last year he had an unusual crop and got unusual prices. On being pressed to furnish a statement he agreed to give one covering four years.

### A STORY IN MONEY.

His farm consists of eleven acres. There is some sidehill on the place that is too steep for cultivation and barely nine acres are being worked. Somewhat over six acres are in orchard, chiefly apples and apricots, and the balance is used for the growing of the warm season vegetables mentioned above. As the orchard is only from seven to twelve years of age, it is not yet in full bearing and the greater part of the income of the farm is derived from vegetable products.

The total sales for the four years just past, 1915, 1916, 1917 and 1918, were \$25,430. The total expenses were \$8,984, leaving a balance of \$16,446.

This allows nothing for interest on the investment or for wages for owner; these, however, are largely offset by the increased growth and value of the orchard, and from the fact that a goodly portion of the living of the family of the owner came off the farm.

During the conversation I learned something interesting about muskmelons. Mr Hilborn assured me that the variety which he raises are better flavored than any other on the market in the west, and are quite equal to the famous Montreal musk melon. He attributed the quality to the fact the necessary moisture is supplied by irrigation. Owing to the absence of both rain

and dew during the season when the melons are maturing they have the highest possible flavour. His description of these melons made my mouth water, and made me long to visit British Columbia at the time when the fruit would be ripe. I know, of course, that I am visiting the fruit lands at the wrong season, but I still find enough to rouse my enthusiasm. From all I am able to see the fruit districts are practically ideal, and although Mr Hilborn reluctantly admitted that the province is not able to produce an apple that beats our Ontario Northern Spy, it is admirable in every other respect. I was also glad to notice that in this district I was not among soil robbers, for the fertility of the orchards is carefully maintained by the application of both commercial fertilizers and stable manure.

### HOMEMAKING FIRST.

At the end of the visit there was a touch that pleased me better than anything that I saw or was told regarding the moneymaking possibilities of fruit growing. The proprietor led me to a spot on his little ranch where I could get a glorious view of the lake, the valley, and the surrounding mountains. This was just the touch needed to make me fall in love with this particular part of the fruit growing district. To my mind farming is, first of all, a homemaking industry and money making is a secondary consideration. When a man begins to take pride in the natural beauties of his surroundings and to take delight in the things possessed by his senses beyond the line fences of his farm, he has really taken root in the soil and has established a home. After I had commented on this fact Mr Hilborn showed me photographs of his flower gardens, which are cultivated not as a commercial proposition, but for his own delight and the delight of his family. When I finally climbed into the car I felt that I had visited at a home as well as at a successful money making enterprise, and felt that if this condition prevails throughout the province its future is assured.

My next visit was to the Experi-

mental Farm, but unfortunately the superintendent was away for the day looking after some work in another part of the valley. His assistant was also out of the office superintending work on the farm, and it was impossible to locate him until the time at my disposal was almost exhausted. Although the workmen showed me about to some extent I was unable to get as thorough an understanding as I would like of the work that is in progress. When we finally located Mr Johnston, the assistant superintendent, there was only time for a few brief questions and a brief turn about the farm.

### PROMISING EXPERIMENTAL FARM.

As the farm has been established only three years it has not much to

report in the way of results, although everything about the place is full of promise. Over fifty varieties of apples are being tested under all conditions of soil, cultivation, irrigation and pruning. There are separate plots where bare cultivation is practised, and others testing the value of such cover crops as alfalfa, clover and rye. The great difficulty with the soil is the lack of humus, but this is being remedied by the application of stable manure and plowing under clover. It is found that alfalfa, while growing luxuriantly and producing four crops in the season, makes too heavy a drain on the water supply for the trees to do well. Last season the rainfall amounted to only a trifle over seven inches, but an irrigation system, fed from a reservoir (Concluded on Page 6.)

### Announcement

#### Electric Starting and Lighting

—Consisting of Generator, Starting Motor and Storage Battery.

—An electric system made for Ford cars by the Ford Motor Company of Canada in their own factory; built into the Ford motor which has been re-designed for the purpose.

—Controlled from a complete instrument board on the cowl.

#### Standard Equipment on Sedans and Coupes

All closed models now have electric starting and lighting systems as Standard Equipment.

Ford Sedan \$1,175 Ford Coupe \$975 (Including Ford Starter and Lighting System) Prices are f.o.b. Ford, Ont., and are subject to War Tax.

Ford Closed Models will, for a time, take the entire production of Starting and Lighting Systems.

By June 1st, however, Ford Touring Cars and Roadsters will be supplied with Starting and Lighting as Optional Equipment at an extra charge.

Sample of the Ford Starting and Lighting System are now on exhibit at all Ford Branches. In the near future we also expect to be able to show a complete sample outfit. You are invited to call and inspect it.

A Weekly Chronicle Furnished By Our Local Representative.

Mr. and Mrs. Hansen were passengers to Kelowna on Wednesday last week, returning the following Friday. They brought back with them a pretty and good general purpose horse to add to the ranch stock.

We have been paid two recent visits by Mr. Ford, late of Naramata, who is on the look out for a piece of land, and while here was shown a number of places which could be bought. We have not learned of a deal as yet.

Miss Elliott, assistant to Miss M. Smith in the Oyama school was a passenger arriving on Wednesday night last of week, to spend the balance of her Easter holiday, the guest of Miss Smith on her fruit lot here.

Mr. and Mrs. Frith, who have dwelt among us for nearly a year, residing in the home formerly owned by Mr. Don McNeil, while Mr. Frith has been recuperating from ill health, left on Thursday morning of last week to return to Vancouver. Mr. Frith improved much during his stay here.

Rev. J. A. Rowland was a passenger going north on Thursday morning of last week to spend a day or two.

Mrs. A. Town and Mrs. A. D. Ferguson received on Thursday afternoon of last week at the home of Mrs. Town in honor of Mrs. Geo. Lang—Miss E. Pentland—and Miss Montgomery, who were spending a short visit in town. Many of the ladies of the town availed themselves of the opportunity of renewing their acquaintance with the guests.

Walter Shaw and Bert Keating spent a couple of days in Pentiction last week, returning on Saturday morning.

After a four year visit back to China our old laundryman returned and spent a day in town last week looking around for prospects of business. He states that if there appears to be enough business to warrant he will re-open the laundry.

After enjoying a short visit in town renewing old acquaintances of her teaching days here Miss Montgomery left on Friday morning.

Miss B. and Mr. Lyle Seaton left on Friday morning to return to Vernon, after spending a couple of days in town.

Mr. Ratteray was a passenger south on Friday night, spending the evening in Pentiction and returning on the Saturday morning boat.

The many friends of Mrs. Tewart will regret to learn of her departure on Saturday morning last, en route for England where she will probably remain for some time. Mrs. Cutbill and Dianna accompanied her as far as the coast expecting to spend a week there.

Easter week visitors leaving by last Saturday's boat were Miss Pentland, Miss Smith, Miss Elliott, Miss Carlson, Miss Leone Morrison and her friend Miss Bruce, and Miss Maudie Kincaid. The Misses Lillian and Edith Town accompanied Miss Maudie to her home for the day.

After spending a few days down the lake Miss Betty Buchanan returned to her home here on Saturday morning last.

After a pleasant holiday week spent out of town Miss Young returned on Saturday last, to be ready for her duties at the school on Monday.

Mr. Winger, with Weston and Miss Esle motored to Pentiction

last Saturday with their truck, but had an unfortunate slight accident just this side of Pentiction on their way home causing minor damage to the truck. No one was hurt but they required some assistance to haul the truck home. Miss Essie remained over till Monday morning, coming home via the Sicamous.

The auction sale of Municipal property was held on Saturday afternoon at the Council Chamber as advertised, but the bidding did not show any marked excitement. There was one lot sold adjoining the P.F.G.U. property and was bought by the Union. It is quite probable however that there will be other sales made shortly as the Council have received some offers.

Charlie Morrison came down from Kelowna on Saturday night last to spend the week end at home, returning on Monday morning.

Mr. F. R. Gartrell with wife and family motored up from Summerland on Sunday last to spend a portion of the afternoon visiting in the home of Mr. and Mrs. H. E. McCall.

Mr. R. J. McDougall, of the Pentiction Herald and his foreman Mr. Hanley motored up from Pentiction on Saturday last and returned on Sunday afternoon.

After spending a very pleasant honeymoon for a month, visiting coast and sound cities Mr. and Mrs. Jas. Moore returned to Peachland on Monday night. They expect to reside in one of the Crompton cottages. Mr. Moore is having it renovated and nicely fitted up. They brought their house furnishings in with them.

Our old friend Mr. Wm. Van-Seymourtier is paying town another visit, having come in on Monday night.

Two more land deals have taken place recently. Mr. J. Brown has sold his place to Mr. Edgecomb of the Hudson Bay Company, Calgary, Alta., who with his son in law paid the place a visit from Monday till Tuesday. Mr. Edgecomb's two sons in law will probably come out in the near future to live on the place. Major Hardisty, also of Calgary, with his wife and little boy arrived on Monday night, having bought the Aitkens place. At present they are guests at the Edgewater Inn.

Mr. J. W. Jones, M.P.P. paid town a short visit on Monday. He stayed over at the Edgewater Inn on Monday night, going on to Summerland on Tuesday.

Mr. W. W. Fulton was a visitor to Kelowna on Tuesday last, returning on the evening boat.

Mr. and Mrs. E. Aitkens were passengers down the lake on Tuesday night, returning on the morning boat.

The pulpit in the Baptist Church will be filled on Sunday next at 3 o'clock in the afternoon by the Rev. Grieve of Pentiction.

Mr. J. H. Clements and Mr. C. Sommerville have received their autos and are now enjoying the pleasure of quick and comfortable travelling. They are both Chevrolet cars. This makes the number of cars in Peachland total twelve, and it is a comparatively short time since we sported our first.

The 24th of May is Summerland's big day.

C.T.C. (Canadian Trade Commission) is becoming a household word in reality. It appeals to women to buy only Canadian goods where possible.

**IS HERE TO STUDY ORCHARD PROBLEMS.**

Mr. J. A. Campbell, assistant horticulturist for the New Zealand department of agriculture, has arrived in British Columbia for the purpose of studying and reporting on orchard problems and particularly on marketing problems. He intends to visit the fruit districts of British Columbia, Oregon and California before going east and will return to this province when the orchards are in full bearing to study fruit packing and marketing conditions at first hand. He will leave for New Zealand in November in time to arrive home for the harvest there.

New Zealand, states Mr Campbell, has great possibilities as a fruit country if systematic efforts are made to cope with the insect pests which are not so numerous as on the Pacific Coast. The growers are looking to Southern America and Europe for a winter market for their summer fruits.

The Nelson district, which is at the north end of the southern island, Mr Campbell likens in area and character to our own Okanagan district. It is the principal fruit district of New Zealand.

Estimate How Many Kernels of Pot Barley in the B.C. Home Brand Pickle Jar.

The only conditions are, with each dollar spent at our Stores—either in cash purchase or regular charge account—you are entitled to one estimate as to the number of kernels of pot barley in this jar.

Regular Counter Sales Slips are good for whatever number of estimates they represent in dollars.

Sales Slips are accumulative: the dollar need not be spent at one time.

You will have a good many estimates during this Contest from APRIL 28th, 1919, to JULY 1st, 1919, so start early and count a jar of pot barley—a Sample Jar of Barley is exhibited at both our Stores in a B.C. Home Brand Pickle Jar. Get a bottle of these fine pickles, fill it with pot barley and count it.

All estimates, accompanied with the Counter Sales Slips, must be mailed to THE AUTO CONTEST CO., 535 ROGERS BUILDING, VANCOUVER, B.C.

Estimates as received will be time stamped and deposited in a sealed box, to be opened by the Judges when the Contest closes.

The First Nearest Correct Estimate Received Wins. So estimate as early and as often as your purchases will permit.

**REMEMBER, this Contest commences April 28th, 1919; and closes July 1st, 1919.**

**Summerland Supply Compy. Ltd.**

SUMMERLAND AND WEST SUMMERLAND

**Naramata News**

Current Events of Town and District

Mr. J. C. Miller of Calgary came in on Friday's boat to look over his fruit lot and arrange for the summer's work in connection therewith.

Two additional men for work on the irrigation system came in on Thursday's boat. There are now six men from outside points besides local help busy on the system and it ought shortly to be in good shape.

A very profitable and pleasing service was held in the church on Easter Sunday. Mr. Ewing, the pastor, took charge, and the choir rendered very creditably the anthem and appropriate hymns. Mr. G. Weaver sang from the Messiah the tenor solo, "He shall not leave, etc."

We have been very fortunate in securing the services of Mr. Weaver for choir master, and we hope shortly to have a girls' and boys' choir as well.

Saturday was the tenth anniversary (tin wedding) of the marriage of Mr. and Mrs. J. C. Lyons. In the evening quite a number of friends gave them a pleasant surprise. The couple received a number of very useful gifts and a most enjoyable time was spent.

One of the busiest men in our town at the present time is Capt. Languedoc, who is trying to get the irrigation system in shape for the coming season. It certainly looks as though the community had chosen the proper man for Chairman of the committee.

The much talked of playette, "Church Bazaar at Mulberry Corners" took place on Wednesday evening in the church auditorium, and proved an even greater success than was anticipated. The parts were well chosen, and all, individually and collectively, deserve great praise for the efficient manner in which the whole thing was carried through. Special mention will be made only of one character, Mrs. Price, Chairman of the Committee, who carried the responsibility of the "Bazaar" on her shoulders. This was ably carried through by Mrs. D. O. Hughes, being the heaviest part of the playette. There was a large and appreciative audience and all pronounced it a great success, being the first thing of this kind given by the Ladies' Aid. We hope it won't be the last. There was also a good musical program as follows: "O Canada," Audience; pianoforte solo, Mrs. R. H. King; ladies' quartette, Mesdames Allen, Lyons, King and Hayward; violin solo, Mr. S. Dicken; reading, Mrs. Jas. Hayward; pianoforte solo, Miss Alice Myers; vocal solo, Mrs. Smith, piano and violin accompaniment; pianoforte solo, Mrs. A. Aveson; chorus, (patriotic), Six Members of Ladies' Aid.

Another motor car has been added to the number already in our little burg, this time it is a Baby Grand and the owner Mr. Everett Mason.

Last Friday afternoon the annual election of officers was held of the Unity Club. The new officers are President, Mrs. H. Salting; Vice-President, Mrs. F. J. Languedoc; Secretary, Mrs. D. McKay; Treasurer, Mrs. Geo. Cook; Board of Management, Mrs. W. Mitchell, Mrs. Wells; Entertainment Committee, Mrs. A. Aveson and Miss Violet Mitchell. All members were appointed a sick visiting committee. Mrs. Jas. Hayward and Mrs. J. C. Lyons served refreshments.

In the absence of Mr. W. P. Ewing, Rev. Mr. Huntley of Pentleton officiated at the afternoon service on Sunday.

A number of those owning motor cars are availing themselves of the opportunity of taking the evening services in Pentleton. This last Sunday three families and friends

**Correspondence.**

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Editor, Review:

Dear Sir,  
Without wishing in any way to disparage the very interesting lecture delivered by Prof. Boggs, I would like to present a few comments which have occurred to me.

Prof. Boggs stated at the outset that palliatives would be of no avail in the present crisis and that drastic measures were necessary, and then in answer to my question admitted that the Whitley commission idea belonged to the former class.

If anyone has any lingering delusion that the present industrial unrest is a question of more wages and shorter hours, he is living in a fool's paradise, which may crash around his ears at any time.

Ask any of the labor leaders in this country if the Whitley commission idea will settle labor troubles or offer any sort of a satisfactory solution and he will simply laugh at you. This is not a wage struggle but a class movement, and any talk of compromise is futile.

attended the Oddfellows' service in the Presbyterian Church. Rev. F. Miller as usual spoke to the point in a very feeling and helpful manner, showing appreciation of the work done by the Society. The selections by the choir were also most fitting and much enjoyed.

The proceeds from the recent Ladies' Aid concert amounting to about \$40 will be used to provide a choir rail and curtain, also for matting for the church aisles.

On Saturday night Sgt. Sherwood Davies returned to his home here after an absence of over three years. One by one our soldier boys are coming back to us. Two more are expected in the near future.

On Wednesday of this week the regular monthly meeting of the Ladies' Aid was held in the church basement. This was also the day for election of officers. Mrs. M. M. Allen, the president, served refreshments on this occasion. More later.

The orchards are once more looking beautiful. Apricots, cherries and plums now being in full bloom, and the pink of the peach is beginning to assert itself. There is a good outlook for a bumper crop this year.

Two returned soldiers have been engaged by Mr. C. C. Aikens for the coming season. They are anxious to delve into the mysteries of fruit farming with a view to locating here. The gentlemen are both of English birth, but lived in Canada a number of years previous to enlisting in Calgary over four years ago. Their names are Mr. Griffith and Mr. Stallard, the latter bringing with him a wife and young son. They are now living in the house formerly owned by Mr. Lewis Block.

Rev. W. P. Ewing spent part of last week in this town calling on and getting better acquainted with the different families. His large circuit makes it impossible for him to visit us as often as he would like.

Mr. and Mrs. Fred Manchester who have for the past few years been in Battle Creek, Mich., returned on Tuesday night's boat, and will again take up residence in this town.

A large number of Naramatans have met the boat each night the early part of this week, also on Saturday, last hoping to welcome back Walter Land who is just returning from the home land. It is learned, however, that he is now paying a short visit in Vernon, so that he won't be expected until the latter end of the week.

Labor knows what it wants and there will be no industrial peace until those utilities which are socially operated are socially owned.

Some of us have been trying for years in our feeble way to point out this fact and in 1907 the writer stated on every public platform in the Okanagan valley that we would have to make a choice between measures of constructive socialism or an industrial revolution. We are confronted now by the condition and not the theory, and all proposals of reconstruction (blessed word) put forward by capitalistic governments and their apologists are remarkable chiefly for their sterility and utter lack of vision. The policy of the present Canadian Government is to turn every vexed question over to a commission and then say "There, thank God that is settled."

What would you think of a doctor who told you that you had appendicitis but that as an operation would involve considerable trouble you had better linger along for a few years and you would likely get better, unless of course you happened to die in the meantime. You would very likely rush to the nearest surgeon and have the trouble removed at once.

The social organism is sick, very sick, and when the disease has been diagnosed and the remedy indicated it seems logical to apply the treatment, no matter how drastic it may seem.

Prof. Boggs stated that the way to prevent revolution was to speed up the forces of evolution. This is correct and the acme of statesmanship as at present understood. It remains to be seen whether we can realize the gravity of the situation in time to avert the industrial smash which is impending.

Yours truly,  
J. W. S. LOGIE.

**Help the Y.M.C.A. Finish its Work For Soldiers**

Help the "Y" Construct the Manhood that will Re-construct Canada

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good old 'Y'" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Reconstruction period. The Annual Red Triangle campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

The Y.M.C.A. will keep its chain of service unbroken till the end.

**For Our Men Returning**

For the soldiers and their dependents, returning from Overseas, we have provided as follows—

1. A Red Triangle man on board every ship when it leaves Great Britain, with a full equipment of games, gramophones and records, magic lantern, literature and writing materials. Where possible, also a piano or an organ. Lectures, concerts, sing songs, instruction re Government repatriation plans, and Sunday Services.
  2. Red Triangle comforts and facilities for the men on arrival at Halifax, St. John, Quebec and Montreal, including coffee stalls, with free drinks, free eatables, cigarettes, candles, etc.
  3. Red Triangle men on every troop train to provide regularly free drinks, eatables and cigarettes, organize games and sing songs, and furnish information.
  4. Red Triangle free canteen service, information bureau, etc., at each of the 22 Dispersal centres in Canada.
  5. Red Triangle Clubs in the principal cities of Canada in the shape of large Y.M.C.A. hostels to furnish bed and board at low rates and to be a rendezvous for soldiers.
  6. Seventy-five Secretaries to superintend Red Triangle service in Military Hospitals, Camps and Barracks throughout Canada.
  7. Tickets entitling soldiers to full Y.M.C.A. privileges for six months at any local Y.M.C.A. furnished.
- In addition to our work for the returning soldiers, we have to maintain the Red Triangle service to the full for the soldiers in Siberia, as well as the work of special secretaries in Northern Russia, Palestine and Poland.

**For Canada's Manhood**

The Reconstruction program of the Y.M.C.A. includes the following vitally important developments—

1. An increased service to 300,000 teen-age boys in the Dominion—the development of Canadian Standard Efficiency training; Bible Study groups; summer camps; conferences; service for High School boys, for working boys, in the towns and cities; for boys on the farm and for boys everywhere, who have lacked opportunity for mental, moral, physical or social development.
2. Inauguration of Y.M.C.A. work in the country, and the smaller towns and villages lacking Association buildings and equipment, on a plan of county organizations. This will include the establishment of Red Triangle centres for social, recreational and educational work among boys and men, in co-operation with the churches.
3. The promotion of Y.M.C.A. work among Canada's army of workers in industrial plants, both in Y.M.C.A. buildings and in the factory buildings, organizing the social spirit among the industrial workers of our cities by meetings, entertainments, games and sports.
4. The establishment of the Red Triangle in isolated districts where lumbermen, miners and other workers hold the front trenches of industry.
5. Besides these main fields of increased activity for 1919, we have to provide for enlarged work among railway men, college students and for our campaign to encourage physical and sex education. Under all our work we place the fundamental foundation of manly Christianity.

**Y.W.C.A.**

For the wives and children Overseas, dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be set aside for the Dominion Council of the Y.W.C.A., which is caring for the soldiers' women folk, and their little ones on the long journey, from Liverpool to Canada, and is also extending its work for Canadian girls.

For their sake also be generous when you make your contribution.

FOR the sake of our victorious soldiers and their dependents, and the happiness of their home-coming; for the sake of our future citizens; our teen-age boys; for the sake of rural life in Canada; for the sake of the social betterment of the toilers in factory and workshop; for the sake of lonely men and boys in our mines and forests; for the sake of Christian Society and Canadian manhood—we appeal to you. Give us your contribution, little or big. Be as generous as you can.

Hand your contribution to the canvasser when he calls, or if you live where it is difficult for him to call, send it by check, money order or registered letter to the National Treasurer, Red Triangle Campaign, 120 Bay Street, Toronto.

**Please Note:**

We are not asking for money to carry on our work Overseas, with the Army in Great Britain, France or Belgium. That work will continue at its maximum for some months, financially provided for by the liquidation of our assets Overseas, and will not terminate till the last man has sailed for home.

Passing Events: Social, Personal, &c.

The 24th of May is Summerland's big day.

Mrs. Clarence Eisey will receive for the first time since her marriage on Thursday next, May 8th.

Mr. Robt. Atkinson, who has been at the Coast for a time, returned by K.V.R. Wednesday morning.

Capt. Roe is making arrangements for re-opening the Syndica House at Naramata. He plans on giving a first class service under efficient management.

A. J. Beer has bought the house in which he is living together with the half acre on which it stands. The former owner was G. N. Gartrell and the sale was made by W. C. Kelley.

We would this week again direct particular attention to the advertisements carried in this number. You cannot well afford to pass them by hurriedly. Note the offer of a free auto made by the Supply Company.

Mrs. R. H. Agur and Mrs. A. E. Hespeler and daughter were coastward bound passengers over the K.V.R. last Friday morning. Mrs. Agur will visit for a time at the coast and Mrs. Hespeler went to accompany her young daughter back to the school for girls, which she is attending in Vancouver.

Mr. G. W. Lang, who has been acting superintendent of the Ottawa Electric Railway since he went east three or four years ago, is with Mrs. Lang spending a three months vacation in the valley making Peaceland their headquarters. They are occasional visitors to Summerland and were here this week.

Mrs. Kelley returned this morning from a visit to Vancouver.

Mrs. D. W. Rawling of Vancouver is the guest of Mrs. H. H. Eisey.

Mr. and Mrs. C. P. Nelson and children returned Wednesday from a visit to coast cities.

Mrs. R. R. Chew and her daughter Miss Harrison returned by K.V.R. Monday morning from a visit to the Coast.

Mr. J. M. Robinson arrived at Naramata this morning from the Coast, where he has been living since last fall.

Mr. and Mrs. Blacklock have returned from Kamloops where they went by motor a few days ago to visit relatives.

Pte. H. H. Whitaker of Kaleden was among the returning men who arrived on the steamship Belgic at Halifax a few days ago.

Lieut. Reginald Tait, who was a resident of Summerland until he enlisted, has returned from across the water and joined Mrs. Tait at Kaleden.

Mr. Geo. Raby has gone to Calgary for a short visit, having accompanied his son, H. E. Raby, back to that city after the funeral of Mrs. Raby.

Mrs. Margaret Gray, R.N., of Winnipeg, arrived here Wednesday evening to take a position on the staff of the Summerland Hospital. Mrs. Gray has but recently returned from overseas, where she served for two years in medical and surgical work in Canadian and British military hospitals.

Word has been received here of the marriage in Liverpool of Miss Inez Verne Stainton of Vernon to Lieut. E. L. Austin of Albert Park, Liverpool. Miss Stainton crossed over to England in 1816 when she joined the Imperial forces, and has since been serving in hospitals in England and France. The bridegroom enlisted in 1914 at Liverpool and was later granted a commission. He was severely wounded, and later returned to France as an Intelligence officer, and was mentioned in Sir Douglas Haig's last despatch. The bride was given away by Mr. J. Forsyth Smith, Trade Commissioner for Canada, formerly B.C. Prairie Markets Commissioner.

Money Stolen

One of three men who have been canvassing the district for orders for enlargements of photos has been accused of taking between \$19 and \$20 from the home of A. W. Miller Victoria Gardens. As reported, the agent, after talking for a time, asked Mrs. Miller for a glass of water, but when Mrs. Miller returned with the water the man had disappeared, as had also some money which had been on a table in the room. The theft was reported but the man is said to have gone to Penticton by auto but a few minutes before Constable Craig succeeded in locating him in town. The matter has been reported to the provincial police.

Second Univ. B.C.

Extension Lecture

Dr. Ashton, Professor of French in the University of British Columbia, gave a very instructive lecture on Balzac, the famous French novelist, on Monday evening in the West Summerland Baptist Church. The lecture was announced to be held in St. Andrew's Church, but Dr. Ashton having written stating that he would like to have his lecture illustrated, Mr. Baker kindly consented to use his powerful lantern, and it was necessary to use the other building where wires had been put in for that purpose. The attendance was not nearly as large as at the first of the University Extension lectures, but Dr. Ashton, who was educated in France, gave his honors a very fine character sketch of this much lauded and much defamed novelist of the early nineteenth century.

Please note that Capt. P. S. Roe's phone number is now 13.

Miss Angwin returned last night from a brief visit to Kelowna.

A daughter was born to Mr. and Mrs. E. Hunt on Tuesday, April 29th.

Mrs. C. Noel Higgin returned by train Wednesday morning from Vancouver.

Mr. and Mrs. McFadden and Mrs. Rice have moved to Dr. Lipsett's cottage, formerly the Phinney cottage.

Contributions of eggs for the hospital will be received at the regular meeting of the Women's Institute next Friday.

Geo. Loomer has bought a building lot near the upper packing house of the Fruit Union and is building on it a small cottage.

Mrs. C. H. Cordy and her daughter, Miss Doris, were visitors to Kelowna last Friday. Miss Sharp of that city returned with them and spent the week-end here.

C. Herbert Riley is now the owner of a new Dodge car. He intends to take care of what he considers a pressing need for a car delivery and jitney service at West Summerland. 40

Mr. J. W. Jones, M.L.A., spent several days this week in Summerland. On Wednesday night he gave a summary of the session before the Liberal Conservative Association.

Mr. and Mrs. J. C. Findlay came up from their Kaleden home on Sunday, Mr. Findlay to take a few days' treatment at the hospital and Mrs. Findlay to visit her sister Mrs. Vanderburg.

"Too Many Husbands" the excellent drama put on last week under the auspices of the Ladies' Aid of St. Andrew's Church will be reproduced by request in the Empress Theatre, Penticton, next Tuesday night.

As announced in our advertising columns the banking hours, the time in which the doors of the banks of the country are open to the public, will revert to the old time of 10 to 3 o'clock, commencing Monday, May 12th.

J. Lawler of the Summerland Fruit Union left here on Monday with a party of fruit men to visit fruit districts of Washington and Oregon. Included in the party were C. Lowe, sales manager of the Okanagan United Growers, Manager Kinnard of the Vernon Fruit Union and E. Trask of Oyama. The trip is being made by auto. They will visit Wenatchee, Yakima, Hood River and other points.

Soldiers Organize

The organization of the Summerland branch of the G.W.V.A. was completed at a meeting held in St. Stephen's Hall on Tuesday evening. At an earlier meeting preliminary arrangements for organization were made, and temporary officers elected. At the meeting this week officers for the year were elected as follows: President, F. J. Nixon; Vice President, J. Corner; Secretary Treasurer, S. A. McDonald. Several new members were invited. In all about 24 were present.

Bride and Groom

Given Reception

A pleasant surprise was given Mr. Reg. Vorrler and his bride of a week by the Five Hundred Club and others in Campbell's Hall last Friday. Some days before Mr. Vorrler had gone to the Coast and when he returned brought with him a wife, a young lady whose acquaintance he had made while in hospital. Some 60 or 70 friends attended the reception, a feature of which was the shower of many beautiful and useful presents. These had been spread on a table behind a curtain, the latter being drawn back at an appropriate time, speeches being made by Rev. H. A. Solly and Mr. W. C. Kelloy. Dancing and refreshments followed. Mr. and Mrs. Vorrler are living at the upper end of Prairie Valley.

The 24th of May is Summerland's big day.

"The Objections of Straus, Renan and Baur" as to the genuineness of the Resurrection will be dealt with on Sunday morning at the 10.30 service in St. Andrew's Presbyterian Church. Remember Mothers' Day on May 11th. C

Regular meeting of the Summerland Women's Institute Friday, May 9th, in St. Stephen's Hall. "Egg Day" for the Hospital. C

Here is what one home patriot said recently: I never allow any of those big bulky mail order catalogues in my home. I figure they do more harm in any locality where they are accepted and studied. People get a craze for sending away for goods and never stop to realize that they are at the same time selling out a good inheritance at home for a mess of pottage elsewhere."

Keep the community fires burning with the fires of local loyalty.

CARD OF THANKS. Mr. George Raby and family wish to thank the many friends for their sincere sympathy in the hour of their bereavement.

The 24th of May is Summerland's big day.

### Traces of Platinum In Okanagan Val.

An increase in platinum production this year in the province is predicted by Mr. Charles Camseel, geologist in charge of the B.C. branch of the Dominion Department of Mines, in a recent report appearing in bulletin form. That this valuable metal may be found in this valley is a possibility according to Mr. Camseel, who investigated Shuttleworth Creek which enters Okanagan River from the east below Okanagan Falls.

The Tulameen district has been one of the largest producers of platinum on this continent and that of the Similkameen are receiving further investigation. Rover Creek in the Nelson district also has possibilities, a Philadelphia chemist having a property there which is said to have made a good assay. Platinum also occurs in the gravels of the Fraser River and some of its northern tributaries.

### Preparing For Provincial Fair.

New Westminster.—It will cost the Royal Agricultural and Industrial Society of this city at the very lowest estimate, \$75,000 to get ready for the 1919 exhibition, which is to be held the week of September 29 to October 4 at Queen's Park.

There are several causes for this large expenditure, principal of which is the fact that since the Association closed its gates in 1913 soldiers in many thousands have occupied the buildings and grounds and have naturally necessitated considerable alteration and no small amount of wear and tear.

There has been such a universal demand for resumption of the annual provincial exhibition, however, that the directors are unanimous in their determination to see the thing through and they have passed their joint word to the producing public of British Columbia not to be daunted by unexpected financial obstacles, but to carry on and make good their assurance that the 1919 exhibition shall go down in history as the "Best in the West."

### Be Specific.

Advertising should be specific, says a writer in Monthly Review. Generalities don't glitter any more; on the contrary, they lack lustre and invite distrust. If you are not in a business that quotes prices as the fundamental basis of your appeal, you can talk service, integrity, facilities, accommodation, etc. You can say something that creates confidence. Your business has a soul, a spirit, an individuality. Dilate on one point at a time, and make it the means of approach to a closer, more definite understanding with possible customers. Digging for facts is the primary function of successful publicity, and it pays big dividends.

### 'A PERFECT DAY IN SUMMERLAND.'

(Continued from page 2)

in the mountains, provided water equal to a rainfall of forty-two inches. The most noticeable result in the way of forcing the growth of the trees was evident in the orchard where soiling is practised. The spaces between the trees are enclosed by movable fences, and the cover crop is either pastured or mowed with a scythe and fed to sheep and hogs. The trees in this orchard, although planted at the same time as the others, show a considerably larger and stronger growth.

During the past couple of years the officials of the Experimental Farm have devoted their energy largely to raising carrot, mangel, tomato and cabbage seed. Owing to war conditions there was danger of a scarcity of these seeds in the province and the government experimenters undertook to meet the demand. Their work met with a success that indicates possibilities of a further development of seed growing in this district.

**BEAUTY AND DOLLARS.**  
Experiments covering a wide range of possibilities are also being conducted with pears, apricots, plums, peaches, strawberries, raspberries, and all small fruits. Flow-

ers, particularly roses and tulips, are also receiving attention, showing that beauty is being cared for as well as dollars. On the higher slopes of the farm experiments are being tried in dry farming for the purpose of developing the possibilities of cereal crops.

Most unexpectedly I found the home touch at the Experimental Farm. I have always regarded institutions of this kind as being devoted entirely to scientific research, so it was a pleasant surprise to have one of the workmen ask me to walk out on the railroad bridge—the second highest in Canada—so that I could get a view of the canyon of Trout Creek. As this had nothing to do with the possibilities

of fruit growing or any other kind of farming it was much to my liking.

On the whole I am inclined to record my impressions of Summerland as those of a "Perfect Day."

The 24th of May is Summerland's big day.

## Empress Theatre

### A Week of Specials

FRIDAY 2, SATURDAY 3:

### "The Great Love"

A Griffith production. One of the best screen plays we can offer. The world's famous actors will be seen in this super-film.

Comedy—HEY DOCTOR. Orchestra One show, 8 o'clock. Be on time.

MONDAY 5,

### Madam PETROVA in 'The Panther Woman'

You will see the world's favorite actress to advantage in this brilliant and exciting story.

Comedy, CHARLIE CHAPLIN, "Dare Devil Queen."

TUESDAY 6:

### 'Too Many Husbands'

A Farical Comedy presented by the SUMMERLAND OPERATIC SOCIETY.

A live wire play, up to the minute. Two hours' enjoyment for the trifling admission, 25c. and 30c. Auspices Ladies' Aid of Summerland. Be on time—8 o'clock.

WEDNESDAY 7, THURSDAY 8:

### "A Pair of Cupids"

A beautiful Love Story, one that will take you back to the shade of the old apple tree, and then—"Deadly Calm."

Coming—CHARLIE CHAPLIN in "Dog Life." "Intolerance." "The Better 'Ole."

## Summerland to be the Mecca of All South Okanagan on May Twenty-Fourth.

### Need of Better X-Ray Outfit At Hospital

#### Importance of Such Equipment Shown by the Treasurer

The people of Summerland have always made an effort to keep up with the times, and to do as well as their neighboring towns if they cannot even go them one better, but there is one thing in which they will go behind if they do not give the following their careful consideration.

It is this. Both Penticton and Kelowna are determined to install in their Hospitals the most modern X-Ray equipment obtainable, even if it costs them \$2,000 to do it, and if I know the Summerland people they will, after careful thought, wish to do the same.

You will say that we have one already. We have, but it is merely a small portable one of very limited capacity indeed, which cost only \$225. Dr. Andrew has given me particulars of its limitations, and it is easy to see that it is so far behind the one proposed to install in its capability to assist diagnosis of anything other than limbs and bones, that anyone suffering from chest, stomach and other internal troubles has still to make the expensive and tedious (when you are sick) trip either to the Coast hospitals or even to Rochester before the complaint can be with certainty determined and the correct treatment prescribed. Delay proves fatal in some cases of sickness as is well known, which would be obviated if we had the proper equipment in our midst.

As to its cost, \$2,000 you will say, is a lot of money, but apparently these days when it happens to be a question of buying a handsome motor car, \$2,000 does not seem to be quite the extravagant sum that it used to look. Summerland is full of these expensive motor cars and yet the X-Ray plant that we should have will only cost the same as single one of these, and instead of a single person having to pay the price as in the car purchase it merely represents a contribution of \$1 per head of our population.

I have been asked if I think the price can be raised, and looking at it in the way I have just outlined I think it absurd to think that it cannot be raised with ease.

On this basis it is a cheap form of insurance in our midst favorable to all. You are taken ill with you know not what, or get injured, and with the present inadequate equipment the doctor may be in so uncertain a mind himself that he will decide to send you where a better equipment is in use, rather than risk treatment without full knowledge which the better plant would give him, and I have already touched upon the expense, discomfort and danger of a sick journey.

What we should do is follow what the car owner does; he scrap his little old original Ford and buys a modern satisfactory one. The Hospital should scrap its little old original Ray and buy a modern satisfactory one; otherwise how can we keep up to date?

We would not have to scrap it altogether however, as it would sell where a portable one is suitable, for something.

The proposed new one would be capable of taking any picture in from one-tenth to one-half second of all bones, limbs, chest, stomach or other internal organ, and the limited time of exposure means indestructibility of equipment and a minimum of discomfort to the patient, while the one we have at present requires photographic exposure anywhere up to sixty seconds which spells quick deterioration of expensive equipment, will do limbs and bones only and the discomfort to

### Beautiful Experimental Station here to be Scene of Day of Pleasure and Profit Plans Prepared to Take Care of Big Crowd of Citizens and Visitors.

the patient is obviously very much prolonged.

The life of any one of us may any day hang upon a successful hurried operation which has been clearly demonstrated before hand to the doctor by a good X-Ray plant, and no one should hesitate making the small required cash donation towards our attaining it, and I am sure the people of Summerland see the advisability of getting it as soon as possible.

E. B. MAY,  
Hon. Treas.

A carload of 32 head of cattle, brought here a few days ago from Alberta, are feeding on the Walton pre-emption.

### Trustees and Teachers Confer

#### School Boards Recommended To Increase Salaries.

The executive of the Trustees Association and a deputation from the Okanagan Teachers Association met in conference on the subject of teachers' salaries, in the Kelowna High School last Saturday.

There was a very frank and friendly discussion. The teachers were not prepared to make any suggestions on the construction of a schedule of salaries; but they advocated a percentage increase to tide over the present high cost of living and they suggested that the question of a schedule be left over till next fall.

Both trustees and teachers were emphatic in declaring that no consideration should be shown to teachers who were doing inefficient work. If the teachers were to be protected in their interests the public must also be protected.

As an outcome of the meeting a recommendation will be sent to all the school boards in the Okanagan district that teachers should be notified as early as possible in May as to what their salaries were to be for September. The general feeling among the trustees was that salaries should be increased next September.

Mr. J. A. Biggar, Kelowna, president of the Trustees Association presided.

### Kaleden Lands Subject of Sup. Court Case.

Vancouver.—Col. Banbury, a wealthy officer in the Imperial army, who recently brought an unsuccessful suit against the Bank of Montreal in connection with a loan to the Westholm Lumber Company, is a plaintiff in proceedings in the Supreme Court.

Col. Banbury some years ago advanced \$75,000 on a first mortgage on a block of 5,000 acres at Kaleden, and is now claiming payment. There is also \$57,000 due for taxes, \$21,000 for interest and \$85,000 to debenture holders in England.

"The Land Settlement Board and the Minister of Lands have had the property offered to them in connection with soldier settlement schemes," stated Mr. Douglas Armour, K.C., who asked for and received ten days' extension from Mr. Justice MacDonald. The object of the extension is to give the original owner, Mr. Ritchie, a chance to get a decision from the provincial government and take steps to redeem if possible.

One mile of a country road in Oregon is surfaced with borax.

### Farmers' and Women's Institutes, and B.C.F.G.A., Are Behind This Huge Get-Together Picnic.

The 24th of May, Empire Day, is the first big sports day of the season. Early in the history of the Okanagan when inter-community events were held in one valley town or another, at which people from all lake points assembled; Summerland held special claim to Empire Day as its chief day of sports.

This was all interrupted by the war. Now that peace is assured and many of our young men are with us again the people are once more turning their thoughts to cooperative recreation. The need and great desirability of better acquaintance between neighbor and neighbor in each community and between those of neighboring communities is generally recognised.

The big get-together picnic at the Summerland Experimental Station to which the fruit growers, farmers and women of Summerland have invited the people of other south Okanagan districts is an excellent way of spending the day formerly celebrated as Queen Victoria's birthday, and later termed Empire Day, and of affording an opportunity for healthful recreation and social intercourse. At the same time the place selected for the picnic will give many of the people of the Valley their first opportunity to see something of the great work that is being done at the Experimental Station.

All indications are that there will be a large attendance. The plan has been to depend on automobiles

to bring the crowds from the several parts of the Valley and this will have to be the arrangement for this year, though outside points are asking if a special boat cannot be provided.

The success of the event is practically assured, judging from the manner in which the various committees are taking hold of the work. A preliminary official announcement of the big day of sports, recreation and instruction is given in the advertising columns of this number. It will be noted that several of the leading men of the province are expected to be present and to take part in the programme.

Below is given the personnel of the several committees appointed jointly by the Farmers' and Women's Institutes and the B.C.F.G.A.

Reception Committee:—R. V. Agur, C. H. Tait, Rev. H. A. Solly, E. R. Simpson, Mrs. O. F. Zimmerman, Mrs. K. Bentley and Mrs. R. C. Lipsitt.

Refreshment Committee:—Mrs. T. Washington, Mrs. S. B. Snider, Miss Campbell, Mrs. W. Ritchie, Miss Dodwell, A. McLachlan, G. J. C. White, G. Marshall and A. Moyes.

Programme and Sports Committee:—R. H. Helmer, O. F. Zimmerman, F. Baker, J. Lawler, F. Nixon, Major Hutton, Miss Cartwright, Mrs. A. G. Munn and Mrs. H. A. Solly.

Transportation Committee:—Jno. Tait.

### Washington Apples Damaged by Frost

Reports from portions of the Wenatchee Valley and from the Okanagan-Omak district indicate that considerable damage has been done the apple crop by frost. Two or three weeks ago similar stories were current regarding the apricot crop in sections of Washington. In parts of the lower mainland of B.C. and on Vancouver Island, frost is said to have done damage to cherry and berry crops.

There was a severe storm last Saturday in Alberta and live stock losses were considerable east and south of Calgary.

While the temperatures ran low here for several nights no frost damages are reported. Reference to the weather report from the Summerland Experimental Station as published in this number and which covers the low temperature period show that the frost level was not reached. Truly the Okanagan Lake country is a favored region.

### LIBERAL-CONSERVATIVES ELECT OFFICERS.

At the regular annual business meeting of the Summerland Liberal Conservative Association held in St. Stephen's Hall on the evening of April 30th, the following officers were elected:

President: E. R. Simpson.  
1st Vice President: R. V. Agur.  
2nd Vice President: Mrs. Andrew.  
3rd Vice President: A. B. Elliott.  
Secretary: J. A. Kirk.  
Treasurer: W. C. W. Foebory.

Committees.

Ward I.—Dr. Lipsitt and Miss Sutherland.

Ward II.—C. Tait and Mrs. Darlis.

Ward III.—Mr. Clouston and Mrs. Albert Doherty.

Ward IV.—Mr. D. Gray and Mrs. F. Gartrell.

Outside Municipality.—Mr. and Mrs. Miller.

### Weekly Session Of Mun. Council

Greater efficiency in the irrigation service was the object of a resolution proposed by Coun. Kirk at the regular meeting of the Council on Monday that each ditchman be supplied with forms on which every water user who had a complaint to make or suggestion to offer could do so in writing.

A report of the progress of construction work was received from the engineer and after consideration was filed.

Reeve Simpson and Coun. Campbell submitted a report with recommendations in respect to the flume running north under Logie's hill. The repair suggested was agreed to.

The Council having agreed that the prices tendered for the properties recently advertised were not sufficient, it was arranged that the several lots should be inspected by members of the Council on Wednesday and prices put on them at the next meeting. One lot, a half acre at Trout Creek point, desired by a former owner, Mr. G. N. Gartrell, was priced at \$75 net.

Constable Craig asked for instructions regarding a report he had received from the Medical Health Officer relating to decayed onions dumped on the nuisance ground. The Clerk was instructed to reply that the person responsible for creating the nuisance should be notified to have the onions buried.

Notification was received from W. C. Kelley that J. A. Black, former owner of lots 13, 50 and 51 in D.L. 1078, taking advantage of the War Relief Act, objected to the sale of those properties. The Clerk was instructed to obtain further particulars regarding these lots.

As a result of a complaint regarding woods on a lot now said to be held by the Summerland Development Company the Clerk was instructed to notify the Development Company to have the lot cleaned. The Water Committee recom-

mended that where flumes must be put on trestles the latter should be built on stones embedded in the earth. The Clerk was instructed to notify Foreman H. Tomlin accordingly.

A complaint that the whole of the Neve' lot cannot at present be watered was referred to the engineer.

A special pay roll for construction work, totalling \$2,516.20 was approved for payment. After carefully calculating the total acreage that might be put on the ditches and flumes under the syphon crossing Garnett Valley the engineer was asked to submit a report as to the size of pipe necessary in a new syphon. The citizens' plan called for a 12 inch pipe.

### Provincial Plans For Better Roads

#### Minister of Public Works Heard on Subject.

The subject of better roads is one that interests almost everyone. The recent statements of Hon. Dr. King, Minister of Public Works for B.C., made at a banquet a few days ago and reported as follows by the Cranbrook Herald will be read with interest:

He made a very important reference to the roads of the district. The minister admitted that not much money had been spent during the past two years, but now large sums of money should be spent on roads. He took the position that the making of roads should be a provincial affair. It is necessary for the province to take care of a larger programme. It is expected that the Dominion will assist. Twenty million dollars is to be appropriated by the Dominion Government to help construct a trans-Canadian highway. A portion of that will be spent in the province of British Columbia. As 92 per cent. of the population of the province lies south of the railway belt, the highway will in all probability be constructed through the southern portion of the province. Justice to the people who have long settled this province demands that this be the route chosen. There is now a good road from Vancouver to Hope. From there over the mountains there is a stretch of seventy miles not completed. The pass is 5000 feet high and the route would be open about four or five months of the year.

There is an alternative route from Hope up the Fraser Valley, where the elevation is only 1200 feet. Whichever of these routes is chosen the connection would be made just the same with the southern route. Surveys are now being made and a decision will be made shortly. The Great Northern right of way is to be taken over by the government and a good road via the Crow's Nest Pass is assured. Although over \$27,000,000 have been spent on roads and trails in B.C. since Confederation, the work in many cases is not equal to the task of carrying motor traffic and much new work will have to be done and new surveys made.

### Deaths Caused by Wood Alcohol

As a result of the inquest held yesterday at Penticton over the bodies of the two Indians Paul, father and son, the Negro Miles was charged with being the cause of their death. The jury found that they died from taking wood alcohol and in their opinion the poison was supplied the Indians by Miles. The accused was remanded and the pro-

### Concrete Work On Mains To Be Suspended

#### Alteration of Flume Plans Occasions Great Annoyance

Concrete work on the main canal and the north main ditch will be finished off so that water may be turned in on May 15th. This is the assurance given by Engineer Fawkes.

For several days the lining of the big eight foot canal has been proceeding rapidly with one gang of men putting in the floor and another gang the walls. The second crew has now been put back on the north main. On the upper work the concrete extends from the steel flume to a point beyond the bridge on the Shingle Creek road and covers the most sandy and loosest section of ditch.

On the north main carpenters are putting in a long piece of new wooden flume and the concrete gang pushing forward the lining of the ditch. Other men are giving attention to parts of the north main needing urgent attention before the water is turned in. For a short time the present syphon to Jones Flat will be used, but as soon as possible this will be replaced by a larger one of several times the capacity of the present one. The new wooden flume, the extension of the north main around behind the Cartwright property, has been finished to the syphon.

This particular piece of work was the subject of much comment at this week's council meeting. Very much to the surprise of every member of the board it was reported by Coun. Campbell that he had on Saturday night discovered that the size of the flume had been reduced by one-third all round the Cartwright place, and the third bottom planks were being drawn away. The news was received with little short of consternation. This work had not been put directly under the charge of the new engineer and when asked about it he only remembered having been asked to go up there to check some grades and of having been told that the flume had been narrowed as it only had to supply the syphon. It was impossible to definitely fix the responsibility for the change at Monday's meeting.

Later calculations indicate that the smaller flume will be large enough to supply all the land that can be put under the syphon this season.

### B.C. Flagpole For Peace Celebration

The London Times of April 10th says: "The giant flagstaff, weighing eighteen tons and 215 feet long presented by the British Columbian Government to Kew Gardens, which arrived in London from Vancouver by the R.M.S.P. Merrionthaire in December, 1915, being afterwards towed up the river to Kew, is now about to be erected by Canadians in the gardens. Its first use will probably be that of flying the Flag of Victory and Peace in the forthcoming peace celebrations."

### Kamloops-Kelowna Line Contract Let

Announcement has been made from the head offices of the Canadian National Railways, that the contracts for the construction of the line into Kelowna from Kamloops has been awarded to General J. W. Stewart, the well known western railroad builder. It is understood that the work is to be commenced at once.

Liminary hearing will come up next Monday. Miles bought wood alcohol from the Summerland Drug Co.

### SUMMERLAND APPLES TEN CENTS EACH.

THE EDMONTON BULLETIN of recent date contained the following: "Apples from Summerland, B.C. are selling in Edmonton at 10c. each. The best oranges from Southern California are selling at 90c. a dozen, or 7½c. each. The apples of Summerland are protected to the extent of 50c. a box by the Canadian tariff. The oranges of California have to pay 7½ per cent. war tax to get into Canada. Summerland is within 900 miles of Edmonton, Southern California is over 2,000 miles away. Why?"

A subscriber asks us to answer the question contained in the last word. The first explanation, of course, is the superior quality of the Summerland apple. The Bulletin is comparing high class apples with ordinary oranges. We do not think the "protection" of 50c. per box enters into the question. It has the effect of aiding in preventing the demoralization of the Canadian market by the "dumping" of third grade apples from American markets onto the Canadian side. The Bulletin would find upon enquiry that apples of similar quality and size were selling in American cities at as high a price as on this side. A fairer comparison would be to consider the weight or size of apples and oranges. The 7½c. oranges no doubt run 176 to 200 per box, the 10c. apples likely around a hundred, perhaps less.

At the same time we do not attempt to deny that the retail price is unduly high. The "spread" between producer and consumer is too great. These same apples probably brought no more than quarter their retail price when sold f.o.b. Summerland. The same comparison will hold good with the oranges. How to remedy such evils is a problem that has been discussed on many an occasion by leading men of many countries. In this instance the holders of the fruit have taken it upon themselves to put a premium price on a high class article, knowing they can get their price.

### EDUCATE THE CHILD.

A BILL HAS BEEN PASSED in the province of Ontario providing for the compulsory education of boys and girls over 14 years of age. This is a step in the right direction. Too many boys and girls have hardly a start in the way of education at 14 years of age, and in consequence are in a deplorable condition mentally to start out later in the world's contest without further instruction. It seems almost incredible that any parent will permit a child to lose these days when the best can be had without money and without price. It is a reproach upon the parents and practically a crime committed against the child. The days coming will not be like the past. Education will mean more in the future for the man or woman who is fighting for success than ever it did before. Education will make a better merchant, a better contractor, a better railway man, a better farmer, a better stock raiser, a better clerk, a better mechanic—in fact education will lift a man out of the sands of failure by the bootstraps and place him on a plane of equality with successful men. Educate the youth and he will educate himself the rest of his life, because he has formed the habit. British Columbia has splendid public schools and high schools and there is no excuse for an uneducated youth in the province.—Kamloops Standard-Sentinel.

AN EFFORT IS BEING MADE to have the Dominion government establish an experimental station on the South Okanagan lands between Fairview and Osoyoos, recently acquired by the provincial government for soldier settlement. Supt. Helmer of the Summerland Experimental Station has been asked to give his support to such a plan. Of such value is the work being carried on here by Mr. Helmer and his staff that it is felt that a similar farm in the soldier district would be of great value to the new settlers.

Were such a farm started in the south country we are sure that the Summerland Experimental Station would long be the greater in value to the man on the land in that district. Here experimental work and

demonstrations have been carried on for some years and evidences of the value of this work and the good results of correct practices under conditions as they exist in the Okanagan can only be found here. Had a farm, similar to the one now being so efficiently managed here by Mr. Helmer, been in existence for five or ten years previous to the opening and developing of Summerland as a fruit growing district the settlers would have been saved many thousands of dollars, many sore disappointments and irretrievable loss of time. A demonstration farm in the new district run as a branch of the Summerland Experimental Station under the experienced management of Mr. Helmer would perhaps be the greatest help in this line that could be given the settlers.

## OPPORTUNITY for Retail Merchants

THE next few years will mark a tremendous change in the business of retailing.

Motor Transportation, now reduced to a low-cost basis, gives retailers a great opportunity for business growth because it widens their trading area.

The Ford One-Ton Truck makes available this opportunity. It is Motor Transportation at low cost—low first cost, low maintenance cost, low operating cost.

A small outlay will motorize

your deliveries and open to you the opportunity for business expansion.

Complete Trucks—Two Standard Bodies

Ordinary hauling and delivery work can be best adapted to two standard types—the Stake Body and the Express Body.

These two body types are kept in stock ready for immediate delivery. They insure the maximum efficiency from the Ford Truck.

Both types have the Enclosed Cab with the two-way windshield which gives the driver proper protection from the weather.

See these complete trucks. Seize the opportunity to enlarge your field of business. Let us solve your delivery problem.

Price (Chassis only)

### Naramata News

Current Events of Town and District

Mrs. Walter Land came in on the Saturday night's boat and received a very hearty welcome home, a large number of friends being present to meet him. Like most folks Walter was very pleased to be in Naramata again.

At the annual meeting of the Ladies' Aid held Wednesday last the officers were all re-elected with the exception of the Secretary who felt that she could not undertake the work for this year. Those in office are: President, Mrs. M. M. Allen; Vice President, Mrs. J. M. Myers; Secretary, Mrs. Geo. Aldridge; Treasurer, Mrs. J. S. Dicken; Purchasing Committee, Mrs. Geo. Wolstencroft and Mrs. Wm. Nuttall; Visiting Committee, Ladies' Aid; Clothing Committee, Mrs. DeWitt; Flower Committee, Mrs. Avison. This Society is surely progressive for there has been an addition of 14 members during the year and work is now in full swing for the bazaar which is to be held in the late fall.

Mr. and Mrs. J. M. Robinson are again residents of this town having come in on Monday morning's boat.

Mr. and Mrs. Lee and family of Winnipeg came in on Wednesday last and will take up residence here, having purchased the Bates lot on the south benches.

Mr. Featherstonhaugh our new water bailiff arrived on the boat a few nights ago bringing his saddle horse with him.

The monthly meeting of the Women's Institute was held on Tuesday of this week and was well attended. The special feature of the afternoon was an address on "Bees" by Mr. Weaver, who seems to be quite as conversant on bees as on music. This proved to be a most interesting and instructive talk. Mrs. Smith gave a vocal solo which was well received. The ladies purpose co-operating with the Farmers' Institute in holding a fall fair. Membership has reached the half hundred mark and the organization is now entitled to two more members on the Directorate.

Mr. and Mrs. F. J. Young with Mrs. D. O. Hughes motored to Vernon on Wednesday. While there Mr. Young will attend the District Meeting of the Methodist Church, going from this Church as a delegate.

Capt. and Mrs. Languedoc, Mr. and Mrs. T. H. Rayner, with Mr. E. Mason motored to Armstrong Saturday last and while there were the guests of Mrs. Turner. The party returned on Monday, Mrs. Turner coming back with them. She is the guest of Mrs. Languedoc.

About twenty persons motored from this town to Penticton on Tuesday to take in the play "Too Many Husbands," put on in the latter town by Summerland. Those who went were well repaid and anyone going there with the blues or an attack of indigestion would surely come away thoroughly cured, for it kept one amused from start to finish and all deserve great credit.

The congregational meeting held in the Naramata Church last Thursday.

day night was quite well attended and a very pleasant hour spent. Splendid reports were given from all departments of the church, each showing progress. Mr. Bartlett and Stewart Allen spoke for the Sunday School, Mr. F. J. Young of the financial condition of the Church and Mrs. M. M. Allen for the Ladies' Aid. A short programme was given consisting of violin solo, Mr. Dicken; vocal solo, Miss Davidson; recitation, Mrs. Russell Wells, which should receive special mention and was greatly appreciated. The following society representatives were appointed: Madames Lyons, Wells, Williams and Dicken; also Messrs. Myers and Hughes. Refreshments were served at the close.

Mr. T. H. Rayner has been appointed as representative of the School Trustees Association from this town and attended a meeting of that organization on Saturday last at Kelowna.

Rev. W. P. Ewing filled the pulpit of the church on Sunday last and at the close of the service the Sacrament of the Lord's Supper was administered.

Mr. and Mrs. Len Smith (friends of Mr. Sherwood Davies) have taken up residence in the Turner cottage.

The Syndica Hotel, we understand, is shortly to be opened, being now repaired. Mrs. A. Wilson will be in charge. It will surely be a step forward to have hotel accommodation again.

"Mothers' Day" will be observed in the Sunday School on Sunday next, the 11th.

Mr. Charles Grimaldi, another of our soldier boys arrived in town on Wednesday last, coming in by train to Penticton and driving up from there. It all happened so quietly that the usual welcome could not be accorded him, but this method of

doing things is characteristic of Charley.

On Friday morning of this week Mrs. M. M. Allen took the K.V.R. train coast bound, where she will, as a delegate, attend the Sunday School Convention in Vancouver on Monday and Tuesday, 12th and 13th, and the Annual Conference of the Methodist Church in New Westminster on Wednesday and Thursday, 14th and 15th inst.

### Doukhobors Agree To Sell Holdings

That the Doukhobors have agreed to sell their Grand Forks land holdings separately for soldier settlement, and that the general appraisal of the property by B. E. Paterson of the Federal Soldier Settlement Board, is acceptable to the Doukhobors, is the statement of delegates from the Grand Forks Doukhobor community who attended the conference with the government representatives at Brilliant last week.

While Mr. Paterson, as government representative, will report only to Ottawa in the matter, the statement of delegates from Grand Forks is that an agreement was reached whereby the Doukhobors agreed to sell their entire holdings in Canada, or would sell their holdings in British Columbia, or would sell separately their holdings at Grand Forks. It was also stated that the rough estimate of the purchase price for the Grand Forks holdings of some 4,800 acres, made by Mr. Paterson on behalf of the Government, was acceptable to the Doukhobor representatives.

Reports are being forwarded to Ottawa and Mr. Paterson is now in Nelson awaiting further instructions in the matter.—Grand Forks Gazette.

### Nude Doukhobors At Grand Forks

"I have heard about nude Doukhobor demonstrations and have been dubious; now I have seen them myself and know." This was the significant comment of Lieut.-Col. W. S. Latta, D.S.O., after witnessing a parade of nude Doukhobors about five miles north of Grand Forks.

Col. Latta had been motoring with others through the North Fork district, inspecting land generally; they had stopped at a Doukhobor community and were going over the land and had been there half an hour when the Adam and Eve demonstration of the Doukhobors took place. Observed at a distance of half a mile, the Doukhobors marched to within a few feet of the motor party and then formed in a semi-circle facing the visitors, the nude assemblage including both sexes.

Some months ago when a Grand Forks constable was sent to the community on official business he found himself in the centre of a circle of nude Doukhobors, and Canadian farmers living adjacent state that these demonstrations are quite frequent.

A Weekly Chronicle Furnished By Our Local Representative.

Mr. Will Aitkens and Mrs. Lup-ton's little girl were passengers to Kelowna on Wednesday of last week.

On Wednesday of last week Mr. Moorehouse of Penticton arrived on the morning boat to go across the lake and survey Mr. E. Scroggin's pre-emption near Squally Point.

Mr. Townsend paid Penticton a visit last week, going down on Wednesday and returning on Friday morning.

The W.C.T.U. held their regular meeting in the Baptist Church on Wednesday of last week. A committee was appointed to canvass the community with a petition in support of the present prohibition act.

Mr. and Mrs. O. Keating were passengers to Penticton on Thursday night of last week, remaining over till Saturday morning.

Mrs. W. A. Lang has returned and is busy getting her orchard and vineyard into shape for the season's cropping. She expects to remain here to look after her interests through the fruit season.

Having completed her services on the steamer Scamous, Miss G. McCall is spending a vacation with her relatives here before leaving for her home at the Coast.

Mr. A. J. MacKenzie enjoyed a few days' visit of a cousin from the Portage plains, Mr. Kenneth MacKenzie, who came in on Thursday of last week and left on Tuesday evening last.

Mr. Taylor of Vancouver, representing the Boys' Earn and Give branch of the Y.M.C.A. spent a night in town last week and rounded up a few of the boys for a meeting. He put before them the great need of to-day along this line and explained to them the workings of the movement. During the evening Mr. McLeod was appointed to take charge of this section of the drive for Peachland, and it is to be hoped that every boy who can will avail himself of the opportunity to in this way do for his home and country.

Mr. and Mrs. R. J. Hogg are enjoying a visit from Mr. Hogg's niece, Miss Leddingham, who returned from the Coast on Friday of last week, where she has been training as a nurse.

Miss Myrtle Keating and Mrs. Robert Howell were passengers to Penticton on Friday night of last week, returning on the morning boat.

Mr. Gordon McDougald spent Friday night of last week down the lake, returning via the Scamous on Saturday morning.

Mrs. Hendrickon is spending a short time in Penticton, where she went on the occasion of the sickness of a friend.

Major Hardisty was a passenger south on Friday night last week, returning on the morning boat.

Mrs. H. Williams and Eddie were passengers spending last Saturday in Kelowna.

Mr. Jack Wilson spent a few days at down the lake points returning on Tuesday morning last.

Mr. and Mrs. and Miss Mary Vicary returned to Peachland on Saturday last. We understand they intend moving on to and taking charge of their fruit lot again for a time.

Mr. Higgins of Calgary one of the contracting parties in the purchase of the J. Brown lot, arrived on Saturday night last to take up his residence here and set things in shape for the arrival of the rest of the party who arrived on Monday night in the persons of Mr. Higgins' brother-in-law Mr. Edgecomb with his wife and two daughters. They have taken possession of the new home, Mr. Brown having removed his effects.

Mr. H. Lang of Vernon spent the week end in town, coming in on Saturday night's boat and returning by auto on Monday.

Mr. Marshall of Edmonton, a friend of Mr. Wm. Logan spent a day in town last week, looking over some property here.

Frank Stewart, who as school boy spent about nine months in Peachland about ten years ago in the home of Miss M. Smith, returned on Saturday night last. He came expecting to find Miss Smith here and pay her a short visit, but visited other acquaintances over Sunday and left by Monday morning's boat to look Miss Smith up at Oyama, where she is now teaching. Frank has spent twenty-two months in France doing his bit.

The Athletic and Aquatic Association had a meeting called for

Saturday night last, but unfortunately there was not a good attendance, so the meeting was postponed for a time.

The L.O.L. hold a re-organization meeting on Saturday night last, when the election of officers resulted as follows:—Worshipful Master, Mr. Walter Charlton; Deputy Master, Mr. Jas. Michael; Chaplain, Mr. L. D. McCall; Corresponding Secretary, Mr. R. H. Houston; Financial Secretary, Mr. Fred Young; Treasurer, Mr. W. J. Moore; Lecturer, Mr. J. S. Moore.

Mrs. L. Mills, Miss Whitman, Miss Young and her visiting friend Miss Mary Hay, motored to Summerland in the Peachland Livery auto, and while in that community we understand they visited the Experimental Station.

Service was conducted in the Baptist Church on Sunday last by Rev. Mr. Greave of Penticton. Those present enjoyed quite a treat. Commencing with last Sunday the 4th of May Mr. Grieve will preach every alternate Sunday at 3 p.m. He motored up with Mr. Layton, accompanied by Mr. R. J. McDougald and Mr. Palmer.

Mr. and Mrs. H. E. McCall, accompanied by Miss Gladys McCall spent last Monday in Westbank, driving up in the morning. Mrs. and Miss McCall had taken the boat at Westbank en route to Penticton to pay Dr. Turner a short visit.

The School Board held their regular meeting on Monday last.

Mr. Powers arrived on Monday morning's boat and after making necessary arrangements here during

**Black Minorca Eggs for Hatching.**

F. DICKINSON, West Summerland, Phone 972.

the day, was taken out by the Livery, to attend to some assessment duties on a mining claim up Deep Creek.

Charlie Morrison returned to his home here on Tuesday night last. We understand that Charlie has severed his connection with the Bank of Commerce in Kelowna.

Mr. A. Day of Kelowna was a passenger arriving on Tuesday night last. He remained over night to meet Mr. Tom McAlpine from Summerland to look over a proposed road into a timber limit.

It is reported that the Townsends Bros. have recently purchased the Ritchie lot adjoining the John Robinson lot.

There has been some little concern this week about the thermometer not remaining as high as we would like to see it, but as yet we are glad to report no harm. In fact no frost at all on the benches.

Mr. and Mrs. E. Atkins have recently moved from their former quarters in the Tewart bungalow into the upper Crompton cottage, and Mrs. Morgan and her daughter have moved into the bungalow.

Miss Young enjoyed a few days' visit of a friend from Kelowna in the person of Miss Mary Hay. She left again on Monday last.

WANTED - Capable young woman for general office work. One who can learn to keep books and wait on customers. One with knowledge of shorthand preferred. Good salary as soon as proficient. Apply in own handwriting to Box 10, Review Office. 40tf

WANTED - TELEPHONE OPERATORS are now getting MORE PAY. Now is a good time to learn. Make your application to the Manager. Summerland Telephone Company. 38tf

Passing Events: Social, Personal, &c

Mrs. O. Atkins went down to the coast early this week for a short vacation.

Mrs. R. M. Ross returned on Saturday from a visit to her son Geo. Ross at Field, B.C.

It is reported that H. Sculthorpe is arranging to purchase the Hosmer lot under the soldier settlement scheme.

Mr. J. R. Brown has been doing the rural mail route of late with the present contractor with a view to taking it over about the middle of this month.

Mr. W. R. Shields has sold his blacksmith business to a Vancouver man who spent part of this week in town. The new owner will take charge about the 20th. He is also buying the shop and lots on which they stand.

Daily train service over the K.V.R. is soon to be resumed, according to a published statement of Mr. O. E. Fisher, traffic manager. The new daily service will be continued summer and winter. Mr. Fisher is looking for a large tourist traffic through this part of the province.

Wm. McNair, wholesale fruit and vegetable dealer of Armstrong, is reported to be arranging to open a shipping house in Penticton with J. B. Castner as local manager. Mr. McNair is one of the pioneer vegetable shippers of the northern part of the Valley. Mr. Castner is well known throughout the Valley, having been for a time with the Okanagan United Growers as inspector of packed fruits.

After May 15 the Syndica Hotel, Naramata, will be open for 41 guests.

Eneas Creek water is now being distributed through the irrigation system.

Miss Aitchison returned last night from a visit to Ottawa and is again in charge at the Summerland Hospital.

Allen Harris, Donald McIntyre and Roy Elsey, three Summerland students at the University are home for the summer vacation.

The treasurer of the Okanagan Ambulance League acknowledges with thanks the receipt of \$16.48 from the Public Schools for the Blinded Soldiers Fund.

Rev. W. A. Bennett, for nearly two years pastor of the Baptist Church at Kelowna, has resigned to take charge of the Emmanuel Church, South Vancouver.

A call will be extended to Rev. Mr. Knox, soon to return from service overseas, to become pastor of the Baptists of Summerland. This decision was reached at a special meeting of the church members held Sunday afternoon. Mr. Knox was for two years previous to enlisting pastor of a church in Saskatchewan.

Mr. H. J. Collas, recently returned from overseas, has accepted a position as accountant in the Vernon branch of the Bank of Montreal. Mr. Collas will sell his Summerland home because of his removal to Vernon. For the present Mrs. Collas is visiting with her parents, Mr. and Mrs. C. N. Higgin.

A number of additional motor trucks have been put into commission in Summerland this week. The Summerland Lumber Company have bought a heavy truck, a Republic, and G. R. Hookham Co. a lighter one of same make. T. B. Young has added a converted Cadillac truck to his equipment and the Summerland Fruit Union have bought a second and larger Giant.

Yesterday was "Crow Day" in the Kelowna district. No gun licenses necessary and plenty of shooting. Crows have been killing off young pheasants in that part of the Valley about as fast as they are hatched and the citizens decided to wage war on the crow tribe. Accordingly special permission was obtained from the Superintendent of Provincial Police for all persons wishing to kill crows on the 8th to do so without obtaining the customary license.

Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Table with columns: Apr., Max., Min., Rain, Snow, Sunshine. Rows for Apr. 30, May 1, 2, 3, 4, 5, 6.

Misses Dancer and Chapman returned last night from a visit to Vancouver.

Preparations are being made this week to start the pump irrigating Trout Creek point.

Little Reggie Eskersley while playing about a wagon on Sunday fell and broke his right forearm.

After an illness of some weeks Mr. J. H. McWatters, the well-known Penticton merchant, died on Sunday. The remains were taken to Seattle for burial.

The Summerland Operatic Society held the boards at the Empress last night. They put on the farce "Too Many Husbands." A good crowd greeted their efforts and offered well deserved applause. -Penticton Herald.

The Five Hundred Club before suspending its gatherings for the season voted a present of \$40 cash to baby "Jack" Facey, fitting acknowledgement of which has since been made to the club by his mother.

Charlie Stewart, younger son of Mr. and Mrs. A. Stewart, who enlisted in a cycle corps, reached home last Thursday evening. News of his coming having preceded him, he was met by a large number of friends at the wharf.

Summerland Players at Penticton.

The play "Too Many Husbands" put on here recently by the St. Andrew's Ladies' Aid was presented again on Tuesday night in Empress Theatre, Penticton.

There was a fairly large audience and the play seemed to be very well received. We fail to see how it could be otherwise, for every member of the caste did his and her utmost to carry it through successfully.

There are always disadvantages in an amateur company putting on a play in a neighboring town and this didn't prove to be an exception. We understand though that the play was repeated more by way of an experiment than for any great expectations of financial gain.

There were many difficulties to be surmounted and owing to finding it extremely hard to get the necessary stage setting it was almost thought at the last minute that the play would have to be abandoned.

However a former Summerland resident came to the rescue and willingly helped out in this difficulty, giving splendid assistance, and the caste feel very grateful to him for his spontaneous effort.

Another difficulty to face is public prejudice and the feeling that "They ought to have stayed at home." However Summerland knew that Penticton would harbour nothing of this sort, for has not Summerland always supported any movement of entertainment in Penticton very loyally? If Penticton feels that it has returned this spirit of good camaraderie then the taking of the play "Too Many Husbands" there has not been in vain. -Cont.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Mothers' Day will be observed in St. Andrew's Presbyterian Church next Sunday morning at 10.30. A beautiful order of service has been arranged, including solos, recitations, readings, etc. Come and take part in this service. C

The Ladies' Hospital Auxiliary will meet on Tuesday at the Hospital at 3 p.m. Special business. C

Gen. Turner Endorses "Y" Work

Vancouver. - The following cable has just been received from General Turner: "I heartily endorse the Y.M.C.A. work carried on since Armistice. Never before has Beaver Hut and London work been so appreciated. The Y.M.C.A. camp activities are invaluable for the contentment of the men awaiting sailing. Hope that the same efficiency of organization may continue in Canada for the welfare of us all. -Turner."

Pound Notice

IMPOUNDED at Trout Creek Pound: One bay mare, 3 years old, branded RV on left shoulder, white star on forehead, gentle.

One bay filly, no brand visible, white spot on nose, white right hind foot, long mane, might have been stabled during past winter.

If not claimed will be sold on Saturday, May 17th, at 5 p.m.

G. MORGAN, Pound Keeper.

Day or Night. Phone 39 Penticton

### Planting Roots For Seed.

(Experimental Farms Note.)

As the time for planting mangels, turnips and carrots for seed is at hand, a few recommendations relative to planting may be opportune. In the first place, anyone who has saved some roots for the purpose of raising from them what seed he will need for next year's seeding should use only the very best roots. It is of course evident that if the most satisfactory results are to be obtained, the roots to be used for seed production must be perfectly sound; otherwise the seed grower runs the risk of going to the trouble of planting only to find that after a while the stand of the seed crop becomes thin and disreputable looking as the diseased roots rot in the ground.

The roots used for seed production should furthermore be as uniform as possible in respect to general type. That is to say, they should be of the same colour and of the same general shape. It is of minor importance that they be uniform in size as experience has shown that small roots produce about as much seed as large ones and that the quality of the seed produced by small roots is just as good as the quality of the seed produced by large ones.

The roots chosen for seed raising should be planted in rows anywhere from 2 1/2 to 3 feet apart so as to make it possible to horse cultivate between the rows. Mangels and swede turnips should, in order to be given a chance to branch out freely, be spaced anywhere from two to three feet apart in the rows.

If only a small number of roots are to be set out, the planting may be done with a spade. This method of planting is very simple. Holes are made at the proper distances sufficiently deep to allow the roots placed therein to be just nicely covered with earth. When the roots are placed in the holes, the soil should be packed around them. The planting is done properly if the tops of the roots are just a little below the surface of the ground.

If a large area is to be planted, it is, especially if help is scarce, more economical to plant with a plow. Furrows are made, and the roots are placed reclining on the slanting side of the furrow at the proper distance apart in such a way that the soil turned over by the plow in the next round will just cover the tops. Then a third furrow is plowed and no roots are

planted in it. To be brief, the roots should be planted in every third furrow and placed in such a manner that the plow barely covers them with soil. If the tops are left uncovered, they may dry out if the weather turns hot but if, on the other hand, the roots are buried too deep, the seed stalks sprouting from them may have some difficulty to break through, especially if the roots are small.

No matter what methods are followed in the planting of the beets, it is essential that the roots be set out as early as it is possible to go on the land, for according to experience, the early planting brings the heaviest seed yields.

"Buy Canadian goods and products" is the recommendation of the Canadian Trade Commission.

### Press Advertising Sold Victory Bonds

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising. Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$876,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No ar-

gument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 11, No. 42, Whole No. 563.

SUMMERLAND, B.C., FRIDAY, MAY 15, 1919.

\$2.00, payable in advance.

## \$22,000 Spent to May 1st On Improvements To Irrigation System

### Council Deals with Numerous Items of Business at Monday's Session.

Construction work in connection with the irrigation system still takes up much time at the weekly meetings of the Summerland Municipal Council. This week the Reeve and Councillors were in session on committee work or in open council from 2 till 11 o'clock. An hour or so of that time was spent in inspecting a section of the water system.

Mrs. K. Bentley who now owns the Pares and McLean lots adjacent to each other, asked that the two lots be assessed as one, her request being granted.

Mr. W. M. Wright told of difficulties being experienced in locating lots in the cemetery and suggested that permanent posts be placed as already suggested. Even with a map it was impossible to find certain graves. He believed that E. C. Graham who knew the plan of the cemetery better than anyone else, should be obtained while available to set concrete corner posts.

Mr. Wright on behalf of the joint committee in charge of the gathering of fruit growers at the Experimental Farm here on the 24th inst., asked that the Municipality make a grant not to exceed \$100 to assist in entertaining the speakers and help meet other necessary expenses. This he considered a splendid opportunity to boost Summerland. The expenses of the sports program is being taken care of along with some other expenses. By unanimous motion a grant not to exceed the \$100 was voted.

Mr. H. H. Elsey was given an irrigation connection on the pipe line passing the south end of his lot the S. 1 of lot 54 in D.L. 3640.

An application from Mr. J. S. Emerson, Vancouver, for a reduction in acreage charged for irrigation purposes on several small lots in Peach Orchard was referred to the Clerk for further information.

A request from T. R. Whitfield for electric light was granted.

Mrs. J. H. Moody of Toronto, stating that she had kept the taxes on her property paid since her son had enlisted but had not kept up the water rates, wrote saying that she was now ready to pay the latter but objected to paying interest on arrears. There seemed no way open for granting such a rebate.

The Water Committee submitted a report with certain recommendations which were acted upon. Certain improvements to the flumes near F. R. Gartrell's home were authorized. A suggestion from R. H. English that the Trout Creek pump be run two shifts each day was referred to the Engineer. The recommendation of the committee that all owners of parcels of land in re-subdivisions must sign water agreement was adopted and referred to the Clerk.

The committee's recommendation that all ditches on the irrigation system be cleaned and kept clean for four feet from each edge was approved and referred to the Engineer.

A brief report from the Engineer stated that he proposed disbanding the crew in the upper camp on the ditch system this week, but proposes to hold the other men for work on the tunnel between the reservoir and north main ditch, the Garnett Valley siphon and other work. The report also contained a list of pipe that had been ordered for various uses.

An official report was made that a certain citizen, without going through the formality of making application for domestic water service, had made the connection himself and had been using water for some weeks. Previous to this he had been taking advantage of a neighbor's water service, only the rate having been charged. He will be dealt with through the proper channels.

Assistant Clerk Pollock, stating that the volume of work in the office including the bringing of the records and general office work up

to date was more than two men could do, suggested that a stenographer be engaged for full time and offered to have his time and salary reduced to half in order to keep down expenses after a few weeks in which all three should be kept on.

After Mr. Pollock outlined some of the work that had been allowed to stand over and told of other that should be done for the sake of efficiency, it was agreed that an effort should be made to get a suitable stenographer.

A bill was presented from a girl's home in Vancouver for the care of a girl from Summerland for seven months at \$10 per month. The correspondence showed that the institution had been promised last year that "in the meantime" the Municipality would pay for the girl.

(Continued on page 6.)

## Too Late to Build Cannery for 1919

### Dominion Cannery Make Reply to Reeve's Enquiry.

The Dominion Cannery will not build a cannery here this season, according to a reply received by Reeve Simpson to a letter written by him as a result of the reported discouragement of officials of the Cannery. Had received when here for the purpose of completing plans for putting up a factory, and of which it is stated that plans had been so far advanced that the necessary machinery had been selected.

Below is the answer made to Reeve Simpson's effort to re-open the question with the Cannery:

Vancouver, B.C., April 25, 1919.

E. R. Simpson, Esq.,  
Reeve, Corp. of Summerland,  
Dear Sir,

We are in receipt of yours of April 22nd, in reference to locating a plant in your municipality. We might say it is too late now to do anything this season, although we can tell you that the information we received when our representatives were there was not at all favorable to operating a plant in Summerland. This was in view of the fact that we were given to understand that we could not look for any electricity for light or power, and as far as sewerage was concerned, this was put up to us as almost an impossibility.

We are, of course, sorry if there was a misunderstanding, but as we have said before, it is too late this season, but if there are any further extensions in the British Columbia business we will look into the question of your district then.

Yours faithfully,

DOMINION CANNERS LTD.  
per F. G. Evans.

## Temperature Was Close to Freezing

For two nights this week the temperature was uncomfortably near the danger point. Here and there on low spots such tender plants as tomatoes if out may have been injured, but nothing can be learned of any damage to tree fruits.

Reference to the weekly weather report from the Experimental Station here will indicate how close to freezing the temperature dropped. Both Monday and Tuesday it was down to 38 degrees. At Balcom Ranch the official thermometer recorded 32 on Monday and 31 on Tuesday. These two records show the difference between the upper end of Prairie Valley and the front benches overlooking the lake; no great difference.

The Canadian Trade Commission believes that buying Canadian made goods at home, together with more exporting, will solve the war debt problem.

## Water Flowing In New Canals

### Much Permanent Work done During Past Month.

Though much remains to be done before the full advantage of the expenditure on the Summerland municipal irrigation system will be realized by water users, so much has been accomplished within the last month that it will be possible to continue increasing the efficiency of the system while the water is flowing, according to Engineer Fawkes. Work on the upper canal was suspended on Wednesday and the gate at the intake lifted yesterday admitting water to the south main and to the reservoir. This morning distribution commenced through the north main.

Before the supply to Jones Flat can be greatly increased the old siphon across Garnett Valley must be replaced by a larger one. The placing of the new 14 inch siphon will be started within a few days, the purpose of the Engineer being to use the 8 inch siphon until the new one is ready to connect up with the water system.

Another hindrance to a full flow of water is a section of wood lined ditch east of the Carr orchard in Prairie Valley. This is cut through a sidehill of shale and lining is necessary. The old flume in this ditch is too small and in places its upper side has been pushed in by the weight of shale on the upper side. The Council visited this with the Engineer last Monday evening and decided that the capacity of about 700 feet of the north main at this point must be increased. A suggestion of Engineer Fawkes is that after everyone has had a good irrigation the water might be shut off for 5 or 6 days and the whole piece lined with concrete. It may be that another channel will be made beside the present one by building a new flume. This would occasion a minimum interruption in the service just while connection is being made. In the meantime necessary repairs will be made to the Garnett

(Continued on Page 6)

## Miles Committed On Murder Charges

Following the verdict of the coroner's jury last Thursday that the two Indians, Kalamalka Paul and Alec Paul came to their deaths through drinking wood alcohol supplied to them by R. L. Miles, the latter was given a preliminary trial on Monday and Tuesday and committed for trial at the Vernon assizes on May 27th on two charges, that he did murder Kalamalka Paul and Alec Paul on April 26th. Acting Chief Constable of Vernon prosecuted and W. Clayton of Penticton appeared for defendant, the hearing being in the provincial court at Penticton.

The evidence submitted showed that the two men had come in to Summerland, one shortly after the other, from Shingle Creek. While in his restaurant W. Johnson saw the older Indian give Miles \$2, saying that when he got the stuff he would give Miles the rest of the money. The three then went around behind the livery.

Alec having sold his horse was taken home by his father. On the way they drank the contents of several small bottles. After taking Alec to within a short distance of his home Kalamalka headed for his own place, but fell from the wagon when almost there. His wife thinking he was drunk, covered him with a blanket. Next morning he was aroused, went in the house and to bed. Both men were in a stupor and complained of pains. When the doctor, who was summoned, arrived Kalamalka was dead. Going to Alec's he found him very ill but still conscious. He told of drinking stuff bought from a negro in Summerland and produced a bottle with some of the stuff.

Post mortem examination showed that both had died of poisoning from wood alcohol.

J. W. S. Logie told of selling Miles wood alcohol as did also a lady clerk in a Penticton drug store.

The accused through Mr Clayton, reserved his defence.

## Good Showing For Flu Period

### Summerland Health Report Hard To Equal.

Remarkably few deaths with a comparative freedom from infectious or contagious diseases are features of the report submitted to the local health authorities by Medical Health Officer Dr. F. W. Andrew covering the first four months of 1919. His report follows:

To the Local Board of Health, Corporation of Summerland, Gentlemen:

I beg to submit a summary of health conditions in this Municipality for the past four months.

In January there were 61 cases of Epidemic Influenza reported and 2 cases of Tuberculosis with no deaths. The Influenza was of a milder type than that of November last.

February was free of infectious diseases.

In March Whooping Cough appeared in the school, traceable to a child that had visited Vancouver. There were 8 cases of this, while only 1 of Influenza. There was also in this month 1 death from Tuberculosis, a resident of Montreal.

In April there were 18 cases of Influenza with 1 death, while Whooping Cough showed 14 new cases.

It is reported to me that Mumps are epidemic in Kelowna and Chicken Pox in Penticton, but neither of these diseases have appeared here.

One complaint of the pollution of Aeneas Creek has reached me which I referred to the Sanitary Inspector. Certain families depend on this creek for domestic water, and all reasonable means should be enforced to prevent its pollution.

You will be pleased to know that the Hospital Board have decided to erect a pavilion for isolated diseases with a capacity of about 4 beds.

Respectfully submitted,

F. W. ANDREW,  
M.H.O.

## Arrangements for 24th are Complete

An excellent program of sports has been arranged by the sports committee for the big picnic to be held at the Experimental Station on the 24th. Field sports begin at 10 o'clock and baseball at 3.30. A number of speeches by leading men of the province will be perhaps the most attractive feature of the day's program. The speakers will include Hon. E. D. Barrow, Minister of Agriculture, who will visit Summerland for the first time; Mr. J. W. Jones, M.L.A.; Dean Klink, Acting President of the University; Profs. Clement and Boving, also of the University; Messrs. C. E. Barnes and L. E. Taylor, President and Vice-President respectively of the B.C.F.G.A. and Mr. R. A. Copeland, President of the United Farmers of B.C. Posters are being distributed giving details of the program.

The Ladies' Hospital Auxiliary have arranged to sell ice cream, soft drinks, etc.

An excellent arrangement has been worked out for the conveyance of the public to and from the Farm. The local jitney men will combine their services under one management, putting their cars under the "Red Star Line." Special rates have been fixed as shown in the advertisement of the day in this number and regular routes will be maintained for the convenience as well as the safety of the public. Motorists generally will be requested to travel the specified routes.

## Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Day	Max.	Min.	Rain	Snow	Bushy
7	07	43	00	00	13.0
8	71	45	00	00	3.8
9	64	50	00	00	0
10	65	43	00	00	6.1
11	50	40	25	00	3.3
12	56	33	01	00	5.3
13	60	33	00	00	6.0

## Influx Of Settlers Makes Inevitable Greater Accommodation For Our Schools

### School Board Must Provide for Two Additional Rooms For New Term.

The pressing need of more classroom accommodation is rapidly reaching an acute stage owing to the steady increase in school age population due as well to the coming in of new families as to the increasing number of native children being admitted to the schools.

This became more apparent to the School Board at the regular monthly meeting last Saturday night during a discussion with Principal McDonald of the grading required to meet the needs of next term. A new and larger building will be absolutely necessary in the immediate future for the consolidated school and Trustee Tait and others are also pressing for a new building down town. Trustees Marshall and Tait were appointed a committee to arrange for accommodation for two additional rooms for the coming term.

## Mr. E. B. May Goes To Coast

### Pioneer Bank Manager Transferred. His Successor.

News of the transfer of Mr. E. B. May, manager of the local branch of the Bank of Montreal, to the office of the Superintendent in Vancouver will be received by Review readers with general regret. The dulling of his sense of hearing has made his work as manager more trying than it otherwise would be and Mr. May has asked that he be given a position that will relieve him of this extra strain.

The position to which he has been appointed no doubt will be one of such importance and responsibility as to be a reward for the faithful manner in which he has conducted the business here of the big financial institution. Mr. May came here in the early pioneer days of Summerland when the bank was opened and during these years has taken a keen interest in the general welfare of the community. His courteous and gentlemanly manner have made for him many friends who will wish for him every success in his new field and hope that the change will result in improved health.

In women's circles Mrs. May will be equally missed. She has always taken a most active part in Church work and in Institute and other organizations.

Mr. E. J. White, now manager at Armstrong, has been selected to succeed Mr. May here.

## CHILD KILLED IN RUNAWAY.

The five years old daughter of Jimmie Koga, a native of Japan, who has been a resident of Summerland for several years, was killed Thursday morning in a runaway. Koga is now living out at the Highland Ranch, Shingle Creek, and it was there that the accident occurred. From what we have learned it would appear that the little girl and a three year old sister were both in the wagon when the horses got away. Both children were hurt on the head, the older one receiving a skull fracture from which she died about the time they arrived at the hospital.

## TROUT CREEK SCHOOL GROUNDS

On Thursday, May 8th the United Farmers of British Columbia (Trout Creek Local) devoted the evening of their regular monthly meeting to the improvement of the school grounds. About twenty of the residents of the district turned out and with three teams some good work was done in clearing and grading the grounds immediately in front of the schoolhouse. It is proposed to spend another evening at the work in the near future.

As darkness came on a little surprise was in store, refreshments, kindly provided by the ladies, consisting of tea, coffee cakes, ice cream, etc. being served at the home of Mr. Harold Smith.

Only three of the five members of the board were present at the meeting Saturday evening, namely Messrs. Garnett, Marshall and Tait, the first named being elected to the chair.

For the committee appointed to attend to the improving of the school grounds Mr. Marshall reported that it had been impossible to do the work because of the inability to get teams.

Medical Health Inspector Dr. Andrew submitted the following report:

"We have had a mild epidemic of whooping cough in this Municipality lately and the Principal has been asked to send home any doubtful cases. It might be good warning to know that mumps is prevalent in Kelowna, and chicken pox in Penticton. Neither disease has appeared here as yet.

"I have had the new addition to the High School measured and find that there is only 255 cubic feet of air space to each individual. The minimum should be 400 feet.

"I have noticed that the old privy closet in the rear of this building, although nailed up, has not yet been removed. I think it would be advisable to have this done before the weather gets any warmer, as part of the ventilation of the room referred to comes from this direction.

Respectfully yours,

F. W. ANDREW."

## Fruit Prices Will be Higher.

At this season of the year express shippers of fruit, those who send out printed price lists to householders, are concerned with the prospective prices for the coming season. What the other fellow is quoting is of special interest. Price circulars have just been issued by the Penticton Co-Operative Growers, the recently formed union combining the Penticton Fruit Union and a direct to consumer shipping concern, the object being to maintain a mail order business as well as to ship through the Central. The Penticton Herald makes the following comparison of 1918 and 1919 prices quoted by the Co-Operative Growers:

	1918	1919
Gooseberries, 24 pts.	\$2.50	3.00
Red Currants, 24 pts.	2.50	2.75
Black Currants, 24 pts.	3.00	3.50
Preserving Cherries,		
18 lbs.	2.15	2.25
Dessert Cherries, 10 lbs.	1.50	1.50
Dessert Cherries, 20 lbs.	2.40	2.75
Apricots No. 1, 20 lbs.	1.50	2.00
Apricots No. 2, 20 lbs.	1.10	1.50
Tomatoes, 20 lbs.	0.95	1.00
Peaches Class A, 20 lbs.	1.25	1.50
Peaches Class B, 20 lbs.	1.25	1.50
Peaches Class C, 20 lbs.	1.25	1.50
Peaches, Class A, B, or C, No. 2, 20 lbs.	1.00	1.25
Dessert Plums, 20 lbs.	1.50	1.75
Preserving Plums, 20 lbs.	1.25	1.50
Prunes, 20 lbs.	1.00	1.50
Crab Apples, 38 lbs.	1.60	2.00
Grapes, 18 lbs.	1.40	1.75
Pears, Fall, 40 lbs.	2.25	2.50
Pears, Winter, 40 lbs.	2.25	2.50
Apples, Summer, 40 lbs.	1.50	2.25
Apples, Fall, 40 lbs.	1.50	2.50
Apples, Winter, 45 lbs.	1.50	2.25
Cucumbers, large, 20 lbs.	1.00	1.00

RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, MAY 15, 1919.

## The Movies.

Those who attend the theatres to-day and compare the pictures with the trashy and sensational stuff put on the screens a few years ago cannot but note a marked contrast. It is possible for the picture house of to-day to obtain films that will make up a program that is instructive, entertaining and carrying high moral ideals. One such picture was that shown at the Empress on Monday and Tuesday, "The Sign Invisible," in which the artists selected the Indian and Half breed of far northern Canada to refute the declaration of a discouraged doctor of the south that there is no God. From an artistic point of view also the picture was splendid. Manager Berry is sparing no effort in obtaining the best that is to be had for his patrons.

Equally marked is the improvement in the service now being given by the Rialto. "Fighting Odds" shown last Saturday night, showing the triumph of right and just recognition of an effort to serve mankind being especially good. Manager Darkis is making every effort to steadily improve the quality of an already good and appreciated service.

## Women's Institute

The response to the roll call created much interest at last week's meeting of the Women's Institute. Everyone answered with her own special "pet economy," which was either amusing or instructive, or sometimes both! Arrangements for May 24th were thoroughly discussed and Mrs Fosbery gave the short monthly instruction on Civic Laws.

Mrs Hespeler, who, as our Summerland delegate, had attended the Child Welfare Convention held last winter in Vancouver, gave a most interesting report of that convention and explained the object of the Child Welfare Association, the lines along which they worked and the splendid and very necessary work they were doing among the neglected children in Vancouver and elsewhere.

Mrs Barnes presented the silver trophy cup given by Professor Bovington and won by Mrs Kelley for the seed growing competition of 1918; also 1st and 2nd prizes to Miss Spencer and Mrs Caldwell.

All members wishing to ship fruit through the Institute this summer are asked to send in their names as soon as possible to Miss Cartwright.

## PINNED UNDER CAR

An employee of A. S. Hatfield, Mr McGinn of Kaleden, met with serious injuries last Saturday when the car he was driving from Okanagan Falls to Kaleden skidded and rolled over the bank. Mrs McGinn who was with him and Hartley Simpson also of Kaleden a passenger, were thrown clear of the car, Mrs McGinn sustaining a sprained ankle. McGinn was pinned under the overturned car and was only released by the almost superhuman efforts of Simpson. His collar bone was broken and chest crushed and he was at once taken to the hospital in Penticton. His condition is reported satisfactory.

## OBITUARY

### IRENE HUNT.

After but a few hours of serious illness, Irene Hunt, second daughter of Mr and Mrs Ernest Hunt, died suddenly Thursday morning.

The little one, who had been away from school but a few days, had a cold with sore throat which quickly developed pneumonia. She was but little over eight years of age. The funeral service is being held this afternoon.

The sympathy of the community is extended to the bereaved parents in this time of sudden and overwhelming grief.

## Cash Prices for Fruit

The Direct-to-Consumer Business makes it possible for us to pay higher prices than any other shipper.

In the few years that we have carried on our business it has grown by leaps owing to the intelligent service that we render the consumer; and enquiries are pouring in this year faster than ever before.

Why not share in the bigger returns? Now is the time for the Grower to make hay. Prices are at the peak. Never again will we see such good times in the fruit industry.

It behoves every Grower to make the best of his opportunity.

We still need cherries, apricots, peaches, plums, pears and crabapples, for which we will contract at liberal cash prices.

If your crop is not sold we offer three distinct advantages—

1. High guaranteed cash price.
2. Segregation of fruit in packing-house. Nobody else's calls are charged to you.
3. We'll haul your fruit.

Make this your Big Year. The crop if good—don't miss the big returns. Nature has done her share; now you do yours.

Don't accept less than you can get.

Drop me a line or phone 991 and I'll be around with the high prices.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr A. Town was a passenger for Vernon Wednesday morning of last week. He returned the following evening.

Mrs. C. Aitkens spent a few days of last week in Kelowna with her husband, and returned to their home here on Monday night last.

Mrs. E. P. Roe of Naramata is spending a short vacation here visiting friends and relatives.

Reeve R. J. Hogg spent a few days of last week in Vernon returning home on Saturday evening.

After spending a very pleasant holiday at the coast, Mrs. Cutbill and little Miss Diana returned to their home here on Wednesday night of last week.

Charlie Morrison was a passenger to Kelowna on Thursday morning of last week, returning again on Monday night last. He has for some days now been nursing a rather badly damaged finger, but reports it as doing nicely and hopes to be able to get back to work soon.

After holidaying here for a few days with her relatives, Miss Gladys McCall of Gibson's Landing, left on Friday morning of last week to return to the coast.

Miss Brosecomb was a passenger to Penticton on Friday night, returning on the Saturday morning boat.

After selling his place here, Mr J. Brown left for the coast on Friday of last week.

Mr J. Wilson spent a few days down the lake and returned on Sunday last.

District Engineer Groves of Kelowna spent a day here last week end.

R. H. Huston returned from a trip down the lake on Saturday morning last, having gone down on Thursday night.

Little Miss Mildred and Master Royal McDougall met the boat on Saturday last to accompany their Daddy Mr R. J. McDougall as far as Vernon on his way to the coast. They are spending a short time visiting their grandfather and grandmother, Mr and Mrs J. Silver.

Another teacher for the staff of the Central school arrived on Monday morning last. The junior and senior divisions have been rather too full of late, so it was thought advisable to take some out of each and constitute an intermediate division, this being the one of which Miss Roy, the new teacher, will have charge. The change was made on Tuesday morning last.

After spending a week in Penticton Mrs Hendrickson returned to her home here on Monday morning last.

Mr and Mrs Wingate with their little boy and girl arrived on Monday night's boat to look after their interests here and stay for a short time. Mr Wingate has been able to get his final release from the naval service.

Mr and Mrs Spalding with their daughter and son were visitors in

town on Monday last. We understand the family are doing a little scouting around on the look out for a piece of land which will suit them, but we have not been advised as to whether or not they saw what they wanted. After looking around here for the day they continued their search by going down to Naramata the same evening.

Messrs. Edgecomb and Higgins received their carload of furniture and other effects on Monday night last and employed the Peachland Livery truck to cart the effects out on Tuesday.

Mrs Hayward of Naramata has been spending a week here visiting her daughters Mrs J. L. Elliott and Mrs John Wright. She left via the Sicamous on Monday night for her home in Naramata.

Mr R. A. F. Moore was a passenger south on Monday night last to spend a day or two in Summerland.

Mr A. Town left on Tuesday morning for Vancouver, where he goes to attend the Methodist Conference.

Major Campbell McDonald is spending a day or two in town this week in his official capacity as Superintendent of the Expenditure under the Conservation Division of the Water Act, and will take over the duties heretofore performed by Engineer Groves. He will have his office in Kelowna.

Mr McNaughton under the Dominion Government and in charge of the Creek measurements spent a portion of last Tuesday in the community and while here took the measurement of Deep Creek.

Orchardists will be glad to learn that we are likely to have irrigation water down by the 15th of this month.

### Will Attend The Picnic.

The regular monthly meeting of the Women's Institute was held on Friday last at the home of the president, Mrs Dryden. The usual business and roll call occupied the first part of the evening. It was decided to accept the invitation of the Summerland Institute to join the picnic at the Experimental Farm on the 24th of May.

A very interesting program was carried out. A sash drill and fairy song was given by 13 little girls all dressed in white except the fairy who looked charming in a pretty pink dress. Mrs Mitchell sang "My Jack" in her usual acceptable voice and Mrs George Lang, whom the members of the Institute are glad to welcome back, favored them with "In An Old Fashioned Town." Miss Young read an excellent paper on Nature Study. Refreshments were served. In future the Institute will hold its meetings in the Masonic Hall.

Mr J. Hyde was a passenger south on Tuesday night to spend a day at down the lake points.

### CORPORATION OF THE DISTRICT OF PEACHLAND

NOTICE IS HEREBY GIVEN that the Municipal Council of the above district will hold its first sitting as a Court of Revision of the Assessment Roll of 1919 in the Council Chambers, Peachland, on Wednesday, June 18th, 1919, at two o'clock in the afternoon.

WM. M. DRYDEN, Municipal Clerk.

42-45

### Road Into U.S. Ends At Fence.

Owners of the land between the town of Oroville and the international boundary are putting their properties under cultivation more and more each year, fencing each plot as it is reclaimed from virgin condition. A result of this development has been the throwing of fences across beaten trails and the defining of roadways by fences, if not by grading. The main road to Oroville is one of these, and across it, right at the boundary line, have been stretched several strands of barbed wire, apt to catch the unwary motorist, especially after nightfall. To avoid this almost invisible obstruction one going south has to turn sharply to the right and enter one of the openings between fences. It will now be necessary for our road authorities to connect up the B.C. road with the new entrance to Uncle Sam's domain.

The Canadian Trade Commission's slogan for Canadian men and women is: "Buy Made-in-Canada goods."

Current Events of Town and District

Mr. F. Dean and family came in on Wednesday night's boat. Mr Dean will take charge of the operations of the Fruit Union this summer. They will occupy the James Williams cottage. Mr C. E. Davidson also arrived with Mr Dean's party and will assist in the packing house.

Mrs Steele, who has made an extended visit to the coast, came in on Wednesday morning and will take up her duties on her fruit lot.

The Syndica House which has undergone extensive repairs opened for the season on Thursday morning. Mrs Wilson will be the manager, and first class service will be assured the patrons.

Rev. H. A. Solly held the regular monthly Anglican service on Sunday afternoon.

Mothers' Day was fittingly celebrated by the Methodist Sunday School on Sunday afternoon at 2 o'clock. They were assisted by the Girls' choir and also by the regular Church choir. The Girls' choir is a new organization and is composed of about twelve members. They are being trained in this work by Mr George Weaver, who is also the leader of the Church choir.

The Misses Gladys, Kathleen and Margurite Robinson came in on Monday morning's boat from the coast, where they have been spending the winter.

Mr and Mrs J. M. Robinson have arrived from Victoria and will remain in their summer home for the balance of the season. Mr Robinson made some business trips east in connection with his Naramata interests and reports that everyone is interested in the doings of the Okanagan Valley and its great success in the fruit growing industry.

Rev. Mr Ewing is away attending Conference and his place in the Church will be filled by Mr Bartlett next Sunday.

Word has been received that Norman Mitchell has arrived in Halifax and is expected home at an early date.

Mrs Allen is spending a few days with friends at the coast.

Mrs George Wolstencroft and Mrs George Aldridge are visiting in Kelowna this week.

The Naramata Opera House is being overhauled and will soon be in condition for holding dances, concerts and other public entertainments.

(Leaves Vancouver 8 a.m.)

T. A. OLIVER, Agent.

O. E. FISHER, Traffic Manager, Penticton.

Walter Land arrived home from overseas a few days ago. He will resume his work on his fruit orchard.

Mr and Mrs. F. C. Manchester came in a few days ago from Battle Creek, Michigan where they have been for the last three years operating a large dancing academy. They have opened classes here in the Ladies' Unity Club House. A class for beginners will soon be held, also one for children. They will hold classes in other towns in the Valley in the near future.

Mrs W. L. Robinson and Mrs Harold Firstbrook of Toronto will arrive on Friday from California where they have been spending the winter. While here they are guests of Mr and Mrs J. M. Robinson and family. Mrs Firstbrook will remain about a week. It is her first trip to this Valley, but without doubt she will visit us again later. Mrs Robinson will spend part of the summer with us at least. She is waiting word from Dr W. L. Robinson, who has been overseas in hospital work, before she will leave for the east.

Misses Lois Wells and Violet Mitchell motored to Penticton on Tuesday.

Mrs E. P. Roe is visiting her sister Mrs McDougall in Peachland.

Mr and Mrs Fred Young and Mrs Hughes motored to Vernon the early part of the week.

Mr R. P. Leckie is in from Vancouver and will be employed by Mr Aikins on his fruit ranch.

Miss Vera Salting has returned from the coast where she has been the guest of Miss Marion Bruce, a former resident of Naramata.

Mr and Mrs H. W. Lee and family of Winnipeg are in town and are occupying the Alexander cottage. Mr Lee expects to return to Winnipeg shortly but Mrs Lee will remain for the summer.

Mr and Mrs S. Smith of Ottawa are now in town looking for a suitable location for engaging in fruit growing.

Mrs F. Davidson is visiting Mrs Fred Young for the summer.

Mrs Seavers and daughter Miss Edith who purchased the T. H. Boothe ranch have taken possession and will remain for the season.

Mrs Tom Lyons and her father Mr. Baily are in town for the purpose of going onto their ranch which was formerly the Morgan property.

The Okanagan Securities Company are moving their warehouses from the Government wharf onto the hotel grounds. The Government expects to start work on the new wharf as soon as the place is cleared and ready.

Mrs Elizabeth Wells, who sustained a painful injury through a bad fall a short time ago, is now able to be at work again.

Mr Howard Rounds had the misfortune to poison his hand with spray mixture and was obliged to consult Dr Andrew in Summerland Wednesday.

On Friday evening the stewards of the church motored to Penticton to meet the Penticton Methodist Board.

On Saturday last Arthur Stiff one of our soldier lads came in from Trail, where he has been since returning from overseas.

Mr Ben Newton gave the people of Naramata a surprise when he arrived here on Monday afternoon. Ben had been at the coast for some little time awaiting his discharge papers.

Rev. Chas. Myers is spending a few days with his brother Mr J. M. Myers. Mr Myers gave a very interesting talk on Reconstruction in the Church.

The \$200 extra equipment that the Overland gives for no extra cost is worth your having. 43

Mr. C. H. Taylor wife and four children recent arrivals here from Vancouver have purchased the Quipp lot and are now settled there.

Among the returned men arriving at Halifax last Friday on the Mauritanian are mentioned: Gnr. J. Ker, Summerland; Gnr. N. A. Mitchell, Naramata; Pte. A. E. Henderson, Peachland, son of Rev. A. Henderson of Summerland.

The DeMuth Lumber Company, Ltd., with authorized capitalization of \$20,000 has been granted a charter to take over the business of Mr. Fred DeMuth, the well known lumber operator, whose mill is at DeMuth Station on the K.V.R.

Mr. W. J. Bowser, former premier of the province and now leader of the opposition is to speak here next Tuesday evening in the College Gymnasium. Mr. J. W. Jones, member for South Okanagan, will also be present and address the meeting. Further particulars are given in our advertising columns.

Miss Findlay, matron of the Summerland hospital during the two months' absence of Miss Aitchison and her efficient assistant and friend Miss McPherson of Winnipeg, after spending a few days at Kaleden at the home of Miss Findlay's parents, left Wednesday morning for a visit to the coast. Miss McPherson will later return to Winnipeg and Miss Findlay to Kaleden.

When you get that new car take a look at the Overland first. Compare it with all the rest. Then buy the car that pleases you.—R. M. Snider, local agent for W. R. King & Co. 42

NOTICE

Whereas considerable damage has been caused to the Public Highways during recent years by water being allowed to overflow from irrigation ditches, etc., and whereas such a condition is also a serious menace to the safety of the travelling public, the attention of all water users and others is called to the Highway Act, Chapter 29, Subsections 6 and 7 (1913), which provides a penalty for the infringement thereof.

This practice (of allowing water to overflow onto the public highway) has become so general that the Department of Public Works has no other recourse but to prosecute offenders under the Act, and it is the wish of the Department to warn all and any of such offenders that they will be summarily dealt with thirty days after the publication of this notice.

Copies of the Act can be seen at the Office of the General Road Foreman, Summerland.

W. K. GWYER, District Engineer, for Hon. Minister of Public Works.

Penticton, B.C., April 22nd, 1919. 39-48

Only one Show on Monday; 26th, starts 8 p.m.

Ezra Kercher is steadily improving after a serious illness.

A son was born to Mr and Mrs Robt. Shannon on Saturday, May 10th.

Miss Blanche M. Babbitt of Summerland graduated from the Vancouver General Hospital last week.

A telegram received a few days ago by Rev. A. Henderson brought news of the arrival of a granddaughter born to Mr. and Mrs. Clayton Crawford, Toronto.

Phone me up and arrange for a ride in the Model 90 Overland. It will please you and is our pleasure. R. M. Snider, Phone 902. 42

Mr. Jack Wilson of Peachland was the guest here last week of his friend Mr. Douglas Henderson. After going overseas, with the Canadian forces Mr. Wilson transferred to the Imperial army in which he soon won a commission.

Rev. A. Henderson and Mr. H. C. Mellor went down to New Westminster Wednesday to attend the Annual Conference of the Methodist Church in B.C. The Sunday evening service in the Lakeside Church will be led by Rev. Chas. Baker.

Because of the sudden bursting of a large water main much of the community was without water for several hours on Saturday. The seriousness of the break did not permit the giving of the usual notice before shutting off the water. The pipe was quickly repaired and water turned on the same evening.

Mr Ben Newton, who has been at the coast awaiting his discharge since returning from overseas, surprised his Summerland friends when he came off the boat Saturday night. He is looking very fit, and has taken a position with the Municipality on flume construction. Those who remember Mr Newton as a soloist will be glad to learn that he is to sing in the Lakeside Church Sunday evening.

Repairs made necessary to the Fruit Union building at the wharf by the collapse of the upper floor early last winter are now nearly complete. The work has been done by Contractor H. W. Harvey under order of the Union. Before proceeding with the work the C.P.R., owners of the building, were duly notified that the cost would be charged against the building.

Mr. and Mrs. Lawrence W. Rumball and child arrived last Friday night from Nanton to take up residence here. Mrs. Rumball is a daughter of Rev. O. E. and Mrs. Mann, who have a ten acre orchard above Peach Orchard, and are more recently owners of the Harrison acre lot in Peach Orchard. They have also bought the Emerson cottage in Peach Orchard at one time a part of the orchard property. Mr. and Mrs. Rumball will live in the latter cottage and Mr. Rumball will operate the Mann orchards which he has leased for the season. We believe Mr. and Mrs. Mann plan on spending a part of the summer here, and to make Summerland their home after this year.

Will the car you are using give you 25 miles to the gallon of gas? The Overland will. 42

Mrs Patton of Calgary arrived here this week to take a position as accountant with the Co-Operative Orchards Company.

Miss Susie Wallock, a Summerland student at the University has taken a position as teacher in a summer school near Edmonton and has gone there direct from Vancouver.

Our local photographer, Mr C. P. Nelson has bought the lot immediately west of the Bank of Montreal and has given H. W. Harvey a contract for the erection of a studio. He hopes to be open for business in his new stand by June 1st.

Accompanied by his father, Alfred Johnston went down to Vancouver last week to consult a specialist regarding his eye which has been giving him much trouble for two or three weeks. Mr. Johnston returned Monday morning, but at that time had not learned the cause of the trouble.

While coming in from Mineola on the top of a load of lumber, Mr Wilberforce, of the Princeton office of the Summerland Lumber Company, was thrown off the truck and sustained a break in one of the bones below the knee. He was brought in to the hospital where he is doing well.

J. Lawler and a party of fruit men returned last Friday from a visit to the fruit districts to the south. He reports prospects good there for large crops and says the stories of damage by frost have been exaggerated. Fruit growing is being prosecuted vigorously and with thoroughness, says Mr. Lawler.

After being confined to his bed for a few days because of a general shake-up, the result of an accident in which his car went over the side of the gulch road, T. B. Young is about again. Running out of gas while climbing the hill Mr Young attempted to turn his car at a narrow part of the road and a front wheel got over the edge and the car beyond control. It landed directly on end about 12 feet below.

Attention is directed to the advertisement in this issue of a splendid entertainment, to be given in the College Gymnasium next Friday night by the Boy Scouts. The Scout entertainments in the past have always been very creditable events and attracted large houses. The work that the boys are putting into the preparation of this year's program is guarantee that the high standard will be maintained.

At a meeting of the shareholders of the Summerland Fruit Union held on Tuesday evening a resolution passed at the annual meeting to make the cost of hauling fruit from the upper to the lower house a general charge instead of a charge against the owners of fruit delivered at the upper house, was rescinded. Approval was also given to the recommendation of the directors that the packing of the fruit should be done at the lower packing house.

Tax Sale Lands.

A late amendment to the Municipal Act, requires that all the tax sale properties owned by the Municipality be disposed of only by-law. Formerly a resolution or motion was sufficient.

In a general letter to the clerks of the various municipalities, Inspector Baird explained that it was thought by the Committee that the question of tax sale properties was becoming one of considerable importance and that the various councils would in all probability wish to adopt a fixed policy with regard to handling them. It was also thought that a by-law was safer than a resolution in this respect, that it would prevent the fixed policy of the council being reversed by a sudden vote of a bare quorum.

The Inspector suggests the adoption of a policy of arranging a price list of the properties, which was the plan decided upon by the Municipality of Summerland some weeks ago. After the list is prepared the council would adopt a by-law authorizing the disposition of any or all of the listed properties at the prices as listed and at the same time authorize completion of the necessary conveyances.

At the regular meeting of the Summerland Council on Monday the Clerk was instructed to have a by-law prepared along the lines laid down in the Amendment.

Mr and Mrs W. Carter returned Tuesday night from a visit to Moncton, N.B. Two nieces of Mr Carter, Mrs Innis and Mrs Ingram, and two little ones, also his nephew, Wm. White, have come to Summerland with the Carters. The young man will join Mr Carter in his plumbing business.

Pound Notice

IMPOUNDED at Trout Creek Pound: One bay mare, 3 years old, branded RV on left shoulder, white star on forehead, gentle.

One bay filly, no brand visible, white spot on nose, white right hind foot, long mane, might have been stabled during past winter.

If not claimed will be sold on Saturday, May 17th, at 5 p.m.

G. MORGAN, Pound Keeper. 41-45

**Council In Session**  
(Continued from Page 1.)

ality would pay the account. Criticism was made of the failure of the institution to present a bill before the expiration of seven months. Finally it was agreed that \$40 be remitted to cover the period up to the end of 1918, and that the Home be required to look to the relatives of the girl for any further payments.

A report from H. Bristow regarding a flume to the Arnett lot was referred to the Engineer. Mr. Bristow also complained of the leaky condition of a pipe passing his property. This was referred to the Engineer with request for early attention.

During a discussion of the change made in the size of the new flume behind the Cartwright property David Kean carpenter in charge of the work, came in and gave his version of the incident. Mr. Kean was assured that the Council attached no blame to him. During the consideration of the information then available a resolution covering the matter was suggested but was finally laid on the table until a report was received from the Engineer.

A report submitted by the Accountant showed an expenditure of by-law money on the work done this spring up to May 1st and for cement and other material used and on hand totaling \$14,424. In the fall of 1918 an expenditure of \$7,486 had been made from the same fund, making practically \$22,000 of the \$35,000 voted for capital expenditure on the water system.

A surprisingly high cost per meal in the construction camps was shown in the Accountant's figures, the average price per meal, including cooks and helpers being 67 cents, the cost of food and supplies being 56 cents and cooks and helpers wages, 11 cents. The very high price being paid for meats and practically all other foods was given by Engineer Fawkes as an explanation.

The capital outlay being made on the irrigation system explains the very much larger budget of accounts presented by the finance committee. These were as follows, all having been approved for payment:

Wm. Johnston, bread	\$45.00
J. Downton, meat	419.09
Summerland Telephone Co.	5.00

**WATER FLOWING IN NEW CANALS.**

(Continued from page 1)

Valley ditch so that water will be available from there while the north main is closed.

During the spring a large amount of work has been done on the main flumes and larger laterals but there is still much to do. This work will be carried on with as little inter-

ruption to the service in the several sections as possible. Those who have inspected the work that has been done on the main canal and the north main are unanimous in their praise of the quality and amount of work accomplished in the brief time since weather conditions permitted doing concrete work. It is just over four weeks since work started on the north ditch and the pouring of concrete did not begin on the upper ditch until a week later, but in that time a marvellous amount of permanent ditch has been made.

**Press Advertising Sold Victory Bonds**

**BEFORE** the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$876,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No argument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr. J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 11, No. 43. Whole No. 564.

SUMMERLAND, B.C. FRIDAY, MAY 23, 1919.

\$2.00, payable in advance.

## Mr. W. J. Bowser Speaks to a Large Audience

Former Premier and the S.O.K. Member are Heard in Criticism of Oliver regime.

Mr. W. J. Bowser, who is making his annual tour of the upper country, visited Summerland on Tuesday in company with Mr. J. W. Jones, and spoke that evening to an audience of 150 to 200 people in the College Gymnasium.

The chair was taken by Reeve Simpson, president of the Liberal Conservative Association, who first called on Mr. Jones to address the gathering, of which a goodly proportion was made up of women voters.

Mr. Jones, always strong on statistics, used many figures in dealing with the administration of the present government. The abolishment of patronage, economy in expenditure, non-partisan civil service and comprehensive and practical provision for returned soldiers were platform promises of the government that had not been carried out. Dealing with expenditure Mr. Jones stated that this had grown from \$9,000,000 to \$13,000,000 and the proposed expenditure for 1919-20 would bring the total to \$19,000,000 with a revenue in sight of only \$10,000,000. When the Brewster government came into power the provincial debt was \$18,000,000. Premier Oliver is authority for the statement that the debt is now \$25,000,000, and when the \$9,000,000 to be borrowed is added the province will be in debt \$34,000,000 at the end of the present year. The great increase in taxes on farm lands in unorganized districts and the cost of making the recent assessment were referred to by Mr. Jones, who also told of large sums of money paid to party papers for advertising tax sales. Of a total sum of \$102,000 realized, \$43,000 went to these papers, some of whom received more than was realized from the sales. Figures were again used in condemning the cost of the Land Settlement Board, which, he said, had failed to place settlers or increase production. Each of the six members of the board had averaged \$28,860 for salary and expenses. One drawing \$34,000 had loaned \$5,750, another \$8,500.

Mr. Jones also criticised the government for buying the Southern Okanagan land without first obtaining a report on the property. Only now were the engineers going over the property. More accurate data should first have been obtained.

Mr. Bowser, in his speech, also dealt largely with figures. The election pledges of the Liberals have been ignored, he asserted. One of the first acts of the government was to employ a firm of chartered accountants to examine the books of the late administration, confidently expecting a derogatory report. This report had cost the people \$18,227 but had never come before the house as nothing was found to be wrong and no criticism had been made of the previous administration. Instead of attending to the business of the country the greater part of 1917, said Mr. Bowser, was taken up with investigation of insanity, not of the Conservatives, but of their own Attorney General. He declared the Civil Service Bill inoperative and said patronage had not been abolished, not even after all available positions had been filled by supporters.

Though office had been gained by the promise of retrenchment, reckless expenditure had greatly increased the taxes. At much length Mr. Bowser detailed the administrative costs. The Premier now received \$7,500, while in his time \$3,000 was the limit. Legislation passed by the late government to reclaim lands held by speculators had been amended by the new government to give speculators another year, abolished the reserve placed on it for soldiers and retarded development of these two million acres for an indefinite period. Mr. Bowser poked fun at the Taxation Board composed of an associate professor from New York and two

## Police Commission In Brief Session

The Police Commission held a brief session Wednesday afternoon which was attended by Constable Craig.

Among the correspondence read was a letter from the Chief of Provincial Police stating that all chauffeurs must be licensed, the license being issued by the Provincial Police.

The Municipal Council submitted a report as to an increase in the fee charged for impounding animals. The fee will be one dollar per head instead of fifty cents as formerly.

A request from Constable Craig for an increase of salary to date from January 1st was laid on the table until the next meeting.

A detailed report for April was submitted by the Constable. He told of having found a holstein heifer tied to a post against a haystack on R. Pollock's lot west of Giant's Head, and two mares in Mr. Pollock's field of red clover. In attempting alone to impound the animals the stock got into the owner's yard and having broken a stirrup strap, he was forced to relinquish the task.

Much of his report was in reference to stray animals or stock that were annoying citizens. In another case he responded to a complaint and impounded a white horse that was reported as a nuisance. On another occasion he answered a call regarding sheep in the upper part of Prairie Valley. The Paul-Miles incident was carefully reported. The month ended with more trouble with stock. E. O. James had reported three horses on his place but when the Constable arrived they had been driven into R. Pollock's hay field, but having no instructions from Mr. Pollock he did not impound the horses. A cow and calf were impounded and an unsuccessful effort made to capture an itinerant agent accused of stealing money from the home of A. H. Miller.

During April Constable Craig had spent 26 hours in carrying out his duties and had impounded five head of stock. Nine complaints had been received and investigations made.

## Everything Now Ready For a Full Day of Pleasure

### Big Valley Picnic at S'land Experimental Station, with Baseball, Field Sports, Speeches, &c.

#### New Diamond Ready For Its First Ball Game

With every promise of perfect weather the Get-Together Picnic at the Experimental Station on Empire Day is likely to be one of the most successful and enjoyable social events ever held here. At the Experimental Station Superintendent Helmer has anticipated every need and has erected a permanent booth for the sale of ice cream, drinks and other refreshments. He has also put up a big marquee for the comfort of the visitors. Road signs have been placed at the several road junctions on the farm so as to avoid any confusion of traffic.

Two traffic policemen have been sworn in by the Reeve and during the day they will be stationed inside the fence line of the James Gartrell orchard to regulate the traffic along the shore road and coming into this road down what is popularly known as the sand hill. These men, David Thompson and Arthur Pentland, will wear the regulation police badges and each will carry a red and white flag and will be provided with whistles.

Deputy Minister of Agriculture Dr. Warnock, will represent the Minister, Mr. E. D. Barrow, who is at present in the north country and could not accept the invitation to be one of the speakers here on the 24th. Mr. O. E. Barnes, President of the B.C.F.G.A. has sent his regrets stating that a big reception being given the returned men of Waihachin prevents his coming. The other advertised speakers are expected to be present.

An ideal spot has been selected and prepared for the baseball diamond, located on a flat bench just above the railway traversing the farm. The Summerland-Peachland nine will play a team representing Penticton. Playing starts at 3:30. The program of field sports commences at 10 a.m.

## Californians To Summer In Okanagan

This is the plan of J. M. Robinson, who established Okanagan as Canada's California.

During his several visits in the last three or four years to Southern California Mr. J. M. Robinson has never missed an opportunity to talk of the advantages of the Okanagan, especially when in conversation with former Canadians. On more than one occasion he has heard him speak of the possibilities of Canadians now in the southern state returning to Canada and making the Okanagan their home. There are others whom he hopes to induce to visit this valley in the summer. Reference to this plan is made in the following, published in a recent number of the Vancouver World.

Mr. J. M. Robinson of Naramata, wife and family, were at the Vancouver and left Thursday for their up-country home. They have been wintering in Victoria.

It is two decades or more since Mr. Robinson, then a resident of the prairies, after visiting a mine in which he was interested, rode his horse down the gorge of Trout Creek and in the home of a rancher on Okanagan lake, where he spent the night, supped on the most delicious peaches and cream he had ever eaten.

When he found that those peaches grew on the shores of Okanagan Lake he had an inspiration. It was to stop the flow of Canadians from the prairies to California and to divert that immigration to the bench lands that rise in graceful undulations from the shores of the lake.

The result is a matter of common knowledge. Peachland, Summerland and Naramata were successively established and retired business men from the prairies transplanted here. The smiling settlements which to-day form one of the most attractive of all British Columbia communities grew out of that vision and Mr. Robinson is in the rare position of a real estate man whose rosy predictions for his clients have been more than fulfilled.

He declares that his next enterprise is to visit California and start a movement from there to summer in the Okanagan to offset the winter-in-California trend of recent years among Western Canadians.

## Council Lists Holdings with Realty Brokers

### Makes Temporary Loan Against Current Taxes to Carry on Administration.

Following two hours spent in committee the Councillors sat in regular session from four o'clock on Monday until the lights failed about 9:30.

Among those citizens visiting the Council Chamber during the afternoon were W. A. Caldwell, who asked that further effort be made to assure an even flow of water to his front bench lot over the lake-shore road. He also made a suggestion for a more equitable distribution of water on Sundays, his proposal being that the ditch under Mr. Brewer be divided into sections for this purpose.

Following a request made by T. H. Riley for the Transportation Committee for Empire Day, the Council agreed to put on two extra policemen to regulate road traffic on that day. These men will be stationed at Gartrell's corner, Trout Creek Point, where it is estimated, from 200 to 500 cars will pass during the day. Without this regulation of traffic it is feared there might be several collisions with, perhaps, serious results.

T. B. Young asked for certain repairs to flumes and E. O. James complained of seepage from a ditch.

Reporting a conversation with Mr. Hector Sutherland, Coun. White moved that the proposed new flume to Mr. Sutherland's lot be not built this year and that the current year's rate be rebated him. Carried.

Following a report by the Clerk a rebate for six weeks' domestic water rates was given A. A. Dock-stader.

Upon suggestion of Coun. White instructions were given for the building of a wider and better crossing over the new ditch at the head of Prairie Valley.

Reeve Simpson for himself and Coun. Campbell reported an inspection made of the Thompson ditch and of having called the attention of the foreman to sections needing immediate repairs. Approved.

Road Engineer Gwyer, in answer to a letter, stated that it was the intention of the Government to maintain the north half of the lake-shore road within the municipal limits. It is also proposed that improvements be made to the lake-shore road outside the Municipality by somewhat straightening the shortest curves and cutting off the sharp points.

Following a report of the chairman of the Finance Committee of an interview with the Manager of the Bank, a by-law for the borrowing of \$10,000 against taxes due the coming fall was given first, second and third readings. Final consideration and approval was given this by-law at a special meeting Thursday evening. This money is needed to meet debenture interest maturing this month, to pay school accounts and carry on the general work of the Municipality, including more than the usual repairs to water systems and roads.

Stating that posts had been set in the cemetery, A. W. Hobbs wrote offering to assist in the location of any unmarked plots.

Irrigation connection was granted the Adams estate for an acre in Garnett Valley just outside the municipal limits. Rate payable in advance.

Chairman Dodwell of the Properties Committee submitted a report recommending prices on certain tax sale properties. This report was adopted and instructions were given to have the properties listed with the real estate men.

## Balanced Ration For Ailing Trees

(Yakima Morning Herald)

Fifty or more interested growers were at the Commercial Club rooms last evening conferring with the soil doctors over ways and means for treating the ill of plant life. These were told that all tree ills were due to malnutrition; that the soil must be fed with a balanced ration as one would feed a cow, or an animal of any kind.

"Fertilization is a chain and only as strong as its weakest link," said W. R. Nebo, Manager of the Marine Products Company of Tacoma. "There are three links in the chain: Nitrogen produces green rank growth. Phosphoric acid stimulates root growth and hastens maturity. Potash produces quality. It gives fibre to the plant, color and toughness to the skin and shipping hardness. This is the ABC of fertilization and the basis of all discussion."

### FARMERS MUST DIAGNOSE.

"If your crops grow tall and rank and green the soil has an abundance of nitrogen. If they fall down before they mature or the grain does not fill or the fruit set the soil lacks potash. If the tree lacks color and looks stunted, there is a lack of nitrogen. Any farmer can diagnose the needs of his crops as they are growing and mature.

"What he needs to do is to put into the soil what it lacks and to keep putting into it what is annually taken out in maturing crops. Take the crop for a base. Every farmer should put back into the soil one-tenth the value of the crop he produces. If not the time will come when he will draw a check upon the bank and get it returned with the notification, 'N.S.F.' which in agriculture means 'Not Sufficient Fertilizer.'"

### PRACTICAL DISCUSSION.

Other speakers of the evening

## Storage Dams Will be Full.

All indications are that there will be an abundance of water to fill the storage dams at the heads of Trout and Aeneas Creeks, where the reserve water for the Summerland Irrigation system is held. Mr. R. Johnston went up to the dams last week and closed those gates which had been left open during the winter.

At the Aeneas Creek reservoir he found the water still covered with its winter sheet of ice. The ice had loosened around the gate so that it was possible to close the dam to permit it to fill. The slopes around the reservoir were well covered with snow and on the way in his horse had to wade through two and a half feet of snow in places.

Around the main storage dams at the head of Trout Creek there is also much snow and strong streams are running into the big dam there. Mr. Johnston has no doubt that all the dams will be full to the top with the possible exception of the lower one, but he thinks that too will fill.

### Goltro, Its Incidence, Cause, Caution, Prophylaxis and Treatment.

is the subject of a report prepared by Dr. Francis J. Shepherd for the Commission of Conservation. It has been published in pamphlet form. Copies of this report may be obtained on making application to the Commission of Conservation, Ottawa.

## New X-Ray For The Hospital

The Summerland Hospital is to be furnished with a more powerful and one of the most up-to-date X-Ray machines. This decision was reached yesterday by the Board of Directors.

The outfit will cost the Society \$1,800 installed and demonstrated. It is manufactured in Chicago and will be ready for use in about six weeks.

Several other machines of the same kind have been ordered for the Valley. Two will be installed at Vernon, one at Kelowna and it is understood that Penticton will also order one.

Equipped with such an outfit the hospital authorities feel that they will be in a position to take care of cases that otherwise must be sent elsewhere and the prompt attention that can then be given may often mean the saving of life.

### BILLY BEATTIE.

Billy Beattie, the six year old son of Pto. Wm. Beattie, died on Wednesday following a very brief illness. Septic sore throat is given as the cause of the little fellow's sudden demise.

The funeral service was held Thursday afternoon, being conducted by Rev. W. H. Bates. Interment was in Peach Orchard Cemetery, the pall bearers being Joe and Warren Gayton, Hugh McIntyre and Billy Bates.

Deepest sympathy is felt throughout the community for the bereaved parents.

## Express Rates Not Increased

The matter of the application of the Dominion and other express companies to the Railway Board for permission to raise their charges on express matter and to withdraw the commodity rate given fruit and other lines has not yet been settled as far as has been learned. As the period in which the commodity rate is in force began with the fifteenth of this month it does not now seem that any change will be made in the rates on early fruits at least. In fact, Mr. M. Steuart of the Steuart Fruit Company, informs the Review that he has authoritative information from Ottawa that no increase in rates may be expected for the earlier part of the season.

### Laid To Rest.

The funeral of the late Irene Hunt, second daughter of Mr. and Mrs. Ernest Hunt, was held last Friday afternoon, the services at the house and at the graveside being conducted by Rev. G. J. C. White. A large number of friends and neighbours gathered at the house on College Hill where a brief and impressive service was held, the words of the speaker carrying much of comfort for the grief stricken parents. The little body was laid away in the Peach Orchard cemetery, the pall bearers being Hugh McIntyre, Jack Harris, Ronald White and Ernest Riley.

The very large number of floral tributes were pleasing expressions of the widespread sympathy felt for the bereaved parents, sisters and brother.

### Keep your cash at home and it will continue to work for you. Send it away to the big city and it will work for the big city to your disadvantage.

## Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station, here for the week ending Tuesday:

Max.	Min.	Mth.	Rain	Snow	Sunshine
14	65	40	0.0	0.0	4.1
15	50	40	.25	0.0	4.5

## Now Is The Time To Wage War On Flies.

Certain authorities are predicting more than usual trouble with flies during the coming summer, owing largely to the comparatively mild winter. Whether or not the theory is correct, no chances should be taken. The common housefly is one of man's most dangerous enemies. As a means of spreading a number of serious diseases such as typhoid fever, dysentery and tuberculosis the fly plays a sinister role. Its ability to reproduce itself is amazing, the descendants of a single pair numbering millions in a season under ordinary favorable conditions. Such conditions exist where rubbish, filth and manure are left unprotected so that flies may lay their eggs therein. Consequently the first principle in exterminating the pests is rigid cleanliness and then more cleanliness. The fly avoids cleanly conditions as men avoid the plague. Dirt and disorder are its natural habitat. It is of prime importance that every individual and every community should see that the winter's accumulation of dirt and rubbish should be carefully destroyed and collected. Manure should be so handled, either in fly proof pits, or bins with maggot traps, as to prevent flies breeding. It is important also that garbage be carefully gathered and

disposed of, for it too provides sanctuary for flies.

Further, it is essential that food products be kept properly screened from flies. Civic authorities should insist on shopkeepers so protecting their wares and endeavour by every possible means to have householders take like precautions. The time to begin is now. Far more can be accomplished in the spring time with less expenditure of effort than at any other season of the year.—A.D. in Conservation.

## Footwear And Health.

Disraeli once said that "public health is the foundation on which reposes the happiness of the people and the power of the country."

But public health is simply the sum total of the health of all the individuals in any given community. Consequently the health of the individual is of vital concern to the public at large. It is the duty of the public authority to create and foster the best conditions for the development of sound, healthy citizens. At the same time, it is the duty of the individual to become informed with respect to the functions of the body and the best means of maintaining it in a state of all-round health. Unfortunately this knowledge is too generally neglected and custom and fashion have frequently done much injury

(Concluded on Page 5.)

## BALANCED RATION FOR ALL-ING TREES.

(Continued from Page 1.)

were J. H. Scott, President of the Marine Products Company, Y. Nakanishi, Japanese gardener who is said to be the largest intensive farmer in the state, and Dr. T. C. Fry, dean of the Botanical Department of the University of Washington.

The discussion had both its technical and practical sides. Mr. Scott has had Old Country training in chemistry applied to animal organics for fertilizers and edible use. Dr. Fry spoke of the development of the help industry and what it meant to the Northwest. Mr. Lebo is an expert in crop fertilization, having had experience in all fruit, vegetable, hop and grain sections of the Pacific coast. He has recently had some experiences at Wenatchee which were directly in

point with local conditions here.

## EXPERIENCE OF JAPANESE.

Mr. Nakanishi last year sold to Camp Lewis \$392,000 worth of vegetables grown on 180 acres of land. He said he used \$48 worth of fertilizers to the acre and produced as high as \$900 per acre from the land. He put on 5,600 tons of horse manure in addition to the fertilizers bought, and paid \$60 an acre ground rent and was still making money. He said he did not understand the scientific terms but knew what to do with it. If he wanted "top money," meaning crops maturing above the ground he did so and so, but if he wanted "ground money," meaning root crops he did so and so. "Lots of hard work scratching in dirt, but good money," was his final comment.

The mulberry tree originated in Persia.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr R. A. F. Moore returned from Penticton on Wednesday of last week after a short business trip.

Miss Kathleen Henderson arrived on Wednesday morning of last week to remain for a time. We are pleased to hear the report that Arthur Henderson is on his way home and will probably be here in the course of a week.

Passengers to Kelowna on Wednesday of last week were Charlie Morrison and Mr Will Aitkens.

Mr Southern who spent a winter here a few years ago, returned last week and has settled here to look after his fruit lot. There being no buildings on his lot, he is taking up residence in Mr H. H. Thompson's house at the Townsite. A friend of his, Mr Montgomery, followed him a day later, to stop with him for a time.

Mr Townsend spent a day down the lake last week, going down on Tuesday night's boat.

Mr J. Winger made a business visit to Naramata last week, going down on Wednesday night and returning the following morning.

Miss Essie Winger was a passenger to Penticton on Wednesday night of last week, remaining there until Saturday morning.

Mrs Morgan is enjoying a visit from her father who came in last midweek.

Dr Walker and son of New Westminster spent a few days of last week in the community looking over the Trust Company orchard which is being supervised by Mr J. T. Long. We understand that Dr Walker was favorably impressed with what he saw while here.

Mr R. Walters, manager of the P.F.G.U., made a short business trip to Vernon last week representing the local Union, returning on Saturday night's boat. Willie Buchanan looked after the business in Mr Walters' absence.

Little Miss Mildred and Master Royal McDougall returned on Friday night last from Vernon where they have been visiting with their grandparents Mr and Mrs J. Silver. Mrs Silver accompanied them home and is busy renewing and visiting old acquaintances. While here she motored down to spend Sunday last with Mrs W. D. Miller at Camp Helena.

After having been absent for some years and living on the prairie Mr and Mrs Frank Maxwell returned on Saturday night last and have moved back on their place on Trempanier Creek.

Major and Mrs Hardistie and little Master Dick were passengers south to the week end in Penticton. The Major returned on Tuesday last.

Mr A. N. Cutbill made quite an early car trip on Monday morning last, when he motored to Summerland with the Peachland Livery auto in time to enter the auto in Mr Hatfield's garage for special overhauling and catch the Sicamous for home.

Mr and Mrs Topham and one of the boys were visitors to Kelowna on Monday last, returning on the evening boat.

Mr Campbell Swinton, who will be remembered by many old timers here, spent a day in town this week. Having been some time here and in other parts of the valley in the pioneer days he is spending a portion of a holiday renewing old acquaintances and looking on the old familiar scenes once again. Since leaving here Mr Swinton has spent the greater part of his time on his rubber plantation in the tropics. He states that where his plantation is there is little change of temperature either summer or winter, being quite hot all the time; and the days and nights are of equal length throughout the year.

Mr George Keyes motored down to Summerland and back on Monday last.

Mr Southern's friend Mr Montgomery was taken suddenly ill and was conveyed by auto to the Summerland Hospital on Tuesday last.

A number of the boys with a couple of livery teams put in a day's work on the park grounds on Tuesday last, preparing a diamond where they hope to practise an invincible nine. A little good live assistance as well as encouragement would be appreciated by the lads and any assistance given would probably net the donor a fair return. Why not help the boys enough to put a large piece of the

park in good shape for other sports, as well as baseball?

The ditch and flume crews on the irrigation system are getting on with their work to the extent that quite a portion of the community now has irrigation well under way on the orchards and gardens. We feel that the danger of frost is practically over for this year, and with the water well assured in the near future for all, we may almost count on quite a large crop, as promised by the heavy bloom we have had. Mr and Mrs L. D. McCall spent a few days of last week visiting in the home of Mr and Mrs George Keyes.

Mr Jas. Michael and Mr W. Charlton started out on Tuesday last en route for the North Fork Dam. They have gone prepared to clear their way in over the trail as there are a lot of wind falls which have come down since last fall.

Mrs H. McDougall enjoyed the company of her immediate friends on Tuesday night to help her celebrate the anniversary of her 77th birthday.

The pear and apple are from Europe.

### CORPORATION OF THE DISTRICT OF PEACHLAND

NOTICE IS HEREBY GIVEN that the Municipal Council of the above district will hold its first sitting as a Court of Revision of the Assessment Roll of 1919 in the Council Chambers, Peachland, on Wednesday, June 18th, 1919, at two o'clock in the afternoon.

WM. M. DRYDEN, Municipal Clerk.

42-45

### Sharp Advance In 'Cot Prices

Marked increase in the net price to the producer is indicated in the following daily press clipping:

"The California Prune and Apricot Growers' Association has named the opening figure on the standard grade of 1919 apricots at 25 cents per pound, marking an increase of 12 cents per pound over the figures named in 1918 to be paid to the producer."

This paragraph, we take it, has reference to the dried fruit.

### Cash Prices for Fruit

The Direct-to-Consumer Business makes it possible for us to pay higher prices than any other shipper.

In the few years that we have carried on our business it has grown by leaps owing to the intelligent service that we render the consumer; and enquiries are pouring in this year faster than ever before.

Why not share in the bigger returns? Now is the time for the Grower to make hay. Prices are at the peak. Never again will we see such good times in the fruit industry.

It behoves every Grower to make the best of his opportunity.

We still need cherries, apricots, peaches, plums, pears and crabapples, for which we will contract at liberal cash prices.

If your crop is not sold we offer three distinct advantages—

1. High guaranteed cash price.
2. Segregation of fruit in packing-house. Nobody else's culls are charged to you.
3. We'll haul your fruit.

Make this your Big Year. The crop if good—don't miss the big returns. Nature has done her share; now you do yours.

Don't accept less than you can get.

Drop me a line or 'phone 991 and I'll be around with the high prices.

The Perfect Corset

Inimitable Style  
Assured Health  
All-Day Comfort

## GOSSARD CORSETS

The Original Front-Lacing Corsets

are and always will be indispensable. New world conditions, demanding the unusual of all patriotic women, have emphasized the superiority of the genuine Gossard. They have become a part of the patriotic war uniform for women.

Only in a Gossard can every woman attain the ideal proportions of her type, an inimitable style and a hygienic support that safeguards her health and assures a priceless all-day comfort.

The perfect Gossard back, with its delightfully flat lines that never have been and never will be attained by those attempting imitations, perfectly supports the spine and back muscles in every position.

The perfect Gossard front eliminates all appearance of fat or thickness and gives a hygienically correct abdominal support that means perfect comfort standing, sitting or bending.

The perfect corset, the original front-lacing corset and the only correct expression of front-lacing principles, minimizes fatigue, assures added efficiency and the economy of a wearing service that alone is worth the price you pay, whether it be \$2.00, \$2.50, \$2.75, \$3.00, \$3.50, \$4.00, \$5.50 or more.

The name *Gossard* on the inside of the corset is your guarantee of the genuine. Insist upon it. Avoid imitations.

The highly specialized service of our corset department assures you satisfaction.

**Naramata News**

Current Events of Town and District

Mr Percy Thornber and Mr Atkins and daughter were here on Thursday. Mr Atkins made some necessary repairs on the Naramata Supply Co. phone.

Mr R. Leckie has erected a tent house on his lot near the Unity Club building and is now occupying his new quarters.

Mr and Mrs J. M. Robinson and daughter Gladys motored to Penticton on Friday morning, where they met Mrs W. L. Robinson and Mrs Harold Firstbrook who had just arrived from California. Mrs Firstbrook will remain here for a few days and will then leave for points of interest in the Canadian Rockies.

A number of our young people attended Tennis Club dance in Penticton on Friday night and report a most enjoyable time.

Miss Alice Meyers who is attending high school in Summerland came home for the week end.

There will be a public meeting of the water users of Naramata in the Church basement on Friday night. The object of the meeting is to inform the water users of the plans of the Committee for the coming season and the work already accomplished.

Major McDonald, Superintendent of construction under the conservation fund, came in on Monday night and is located at the Syndica House. He will thoroughly inspect the water system and confer with the Committee on ways and means of construction.

Word has been received that Norman Alexander will soon be a resident of Naramata once more. He will be employed by Capt. Peter Roe in the interest of the Okanagan Lake Boat Company.

Services at the Church last Sunday were conducted by Mr W. R. Bartlett. A very satisfactory rehearsal of the Girls' Choir was held in the Church under the direction of Mr George Weaver on Saturday night.

The gardens of Naramata are taking on a very prosperous appearance. Mr A. Aveson is in the lead and now has fine lettuce for sale. We believe this is the first out of doors grown lettuce to be put on the market in the district.

At the last meeting of the Farmers' Institute a most interesting paper dealing with destructive rodents was read by Capt. F. J. Languedoc. This paper has been accepted by the Publication Department of the Department of Agriculture and will appear in the Agricultural Journal in June.

The regular monthly meeting of the Ladies' Unity Club will be held on Friday afternoon. It is to be hoped that there will be a good attendance as there is business of importance to be discussed. The hostess on this occasion will be Mrs Languedoc.

A great many of our citizens are making arrangements to attend the celebration at the Summerland Experimental Farm on the 24th.

(Leaves Vancouver 8 a.m.)

T. A. OLIVER, Agent.

O. E. FISHER, Traffic Manager, Penticton.

Mr and Mrs Andy Wilson and son motored to Penticton on Saturday night.)

A number of the logging crew who are working at Glenfir came down and spent Sunday with us.

According to word received by our local express agent there can be no express sent east of Regina till further notice. This condition is caused by the strike at Winnipeg.

Mrs J. S. Aikins who has been visiting her son Mr C. C. Aikins of Rekadome Orchards will leave Friday morning for Montreal on her way to England where she will meet her daughter Miss Mary.

A dance for the returned soldier boys is being planned and will be held on Wednesday night, May 28. There will be more details of this social function in the next issue.

The power sprayer owned by Wolstencroft and Wells has been out of commission for some time but new parts have arrived and it will be working overtime for the next few days.

Mr F. C. Manchester went to Summerland and Penticton on Tuesday on business.

Mr and Mrs J. M. Robinson, Mrs Harold Firstbrook, Mrs W. L. Robinson and Miss Gladys Robinson motored to Summerland via Penticton Friday.

Mr J. M. Robinson is arranging to move the electric light plant to a suitable location in the hills nearby and thus make it possible to have current for the benches and

also to use the water over again for irrigation purposes after it passes the plant. Mr Winger, a stone and cement contractor from Peachland was here last week to see about building the power house. So Naramata can be assured that the electric light will soon make its appearance once more.

Supt. of Roads Partridge is making necessary repairs to roads in the district to get ready for the coming fruit season.

Mr E. H. Hancock was a visitor in Penticton on Friday.

Mr E. B. May was in town in the interest of the Bank of Montreal on Tuesday.

Mr J. W. S. Logie of Summerland was in town on business early in the week.

Mr and Mrs F. C. Manchester were the guests of Capt. and Mrs F. Languedoc for dinner on Sunday.

Mr and Mrs Lee entertained a party of friends who motored in from Armstrong on Sunday.

Passing Events: Social, Personal, &c.

Mrs H. Reynolds is visiting friends in Peachland.

T. P. Thornber went out to Vancouver this morning for a brief visit.

Mrs Chas. Baker returned on Saturday from Lethbridge, where she had been for a brief visit.

The recovery of Mr George Gray from his illness, now of several weeks' duration, is not as rapid as might be expected, though it is felt that he is making progress.

Mr W. R. Bartlett, Naramata's versatile postmaster, conducted the service last Sunday morning in the Penticton Methodist Church in the absence of the pastor.

Mr J. W. Jones, M.L.A., after taking Mr Bowser and his party to Penticton Thursday morning in his car, returned to Summerland and is remaining here until after the picnic.

Wm. Weaver, formerly a resident here and for the past two years employed in the shipyards at Vancouver, has moved with his family to Keremeos, where he has bought farm land.

Have you ever had a comfortable ride at reasonable speed? Try one in the Overland 90. You will be under no obligation. Phone me and arrange a drive. R. M. Snider, phone 902. 43

Wm. Beattie, who has been at the coast for some weeks under treatment, arrived home Wednesday evening, having been called home by the sudden death of his young son. He is required to again return to hospital and does not expect to be able to get his discharge from the army for a month or more.

NOTICE

Whereas considerable damage has been caused to the Public Highways during recent years by water being allowed to overflow from irrigation ditches, etc., and whereas such a condition is also a serious menace to the safety of the travelling public, the attention of all water users and others is called to the Highway Act, Chapter 29, Subsections 6 and 7 (1913), which provides a penalty for the infringement thereof.

This practice (of allowing water to overflow onto the public highway) has become so general that the Department of Public Works has no other recourse but to prosecute offenders under the Act, and it is the wish of the Department to warn all and any of such offenders that they will be summarily dealt with thirty days after the publication of this notice.

Copies of the Act can be seen at the Office of the General Road Foreman, Summerland.

W. K. GWYER, District Engineer, for Hon. Minister of Public Works. Penticton, B.C., April 22nd, 1919. 39,43

George Sinclair and his sister, Miss Sinclair, returned last Friday from the coast where they spent a week or ten days.

Why not drive your own car next week? The Overland Model 90 is the cheapest car you can own. R. M. Snider, phone 902. 43

R. Pollock of the Municipal Office staff is taking a well earned vacation of a week's duration at the coast. He went out by K.V.R. this morning.

While two men who had been inspecting the boiler at the cannery were away for supper on Tuesday their tools and a couple of bottles of 'two-per-cent' were removed from their hiding place in a vat, according to a report made to local police.

Mr and Mrs Norman Alexander and family, former citizens of Summerland and Naramata, who for several years have been residing in Quebec and Ontario are returning to Summerland and are expected to arrive Saturday night. Mr Alexander has taken a position with the Okanagan Lake Boat Company and will be on his old 'beat' on the Summerland-Naramata ferry.

April Donations To Hospital

The following donations to the Summerland Hospital were received during the month of April and are gratefully acknowledged by the Acting Matron, Miss Findlay:

Mrs Lipsett, scalloped potatoes, old linen, cake, strawberry jam, cream; Mrs Washington, eggs; Mrs G. J. Coulter, white, eggs; Mrs Dowton, eggs; Mr N. S. Davidson, eggs, fruit, butter; Mrs Gayton, plant, daffodils; Mrs J. P. McIntyre, tomatoes; Mrs W. J. Robinson, cake, asparagus tips; Mrs A. H. Miller, fruit, cake; Mrs F. W. King, Kaleidos, eggs, nut loaf; Mrs Solly, old linen, milk; Mrs Judson Findlay, brown bread, cake; Dr Andrew, X-Ray equipment; Mrs F. A. C. Wright, old linen; Vera and May Walker, flowers; Alanah Sutherland flowers; G. A. McWilliams, repairs to sewing machine.

FOOTWEAR AND HEALTH

(Continued from page 2)

to individual, and, therefore, to community health.

For example, take the care of the feet. According to one authority, "sufficient men were rejected by the Canadian military authorities on account of bad feet to form several battalions." The American Museum of Safety states that 90 per cent of the civilian population have feet more or less deformed, resulting in lessened efficiency.

The Paris (France) Academy of Medicine is so impressed by the effects of high heels upon the health of women that it has made an appeal to the public to end this injurious fashion. The use of high heels and narrow pointed toes is the cause of hammer toes, bunions, corns, weak muscles, fallen arches, many of the backaches from which

Mrs Arthur Oxley of Mineola is visiting friends in Vernon for a few days.

Bert Dennis, who has been a resident of Mineola from the first, has moved to Peachland.

J. Lawler has been incapacitated for several days with a severe attack of lumbago or similar ailment.

You do not need the full cash amount to pay for the Overland Model 90. Our terms are favorable. R. M. Snider, phone 902. 43

It is stated by unquestioned authority that the boiler, engine and other machinery in the old cannery on the Smith wharf is to be removed to Kelowna.

J. W. S. Logie, C. Craig, J. R. Brown J. W. Johnson and C. E. McCutcheon have been called as witnesses in the Miles case to come before the Spring Court of Assize at Vernon on Tuesday next. Gordon McK. DeRenzy and Clifford A. McWilliams, both of Summerland, members of the Grand Jury, have been summoned to attend.

women suffer and, to some extent, of defective eyesight and nervous irritability. That high heeled shoes are still further a sad commentary on human intelligence is shown by the fact that in the United States during 1916, 1,149 people were killed and over 4,000 crippled from the result of falls on stairways, due to wearing high heeled shoes.

Shoes should conform to the shape of the feet. If the public will persistently demand such shoes, the manufacturers will supply them.—Adapted from article by Mrs. L. A. Hamilton of the Footwear Reform League.

A short preparatory course on foreign trade for business men and students has been suggested to every Dominion university by the Canadian Trade Commission.

Tenders Wanted

SEALED TENDERS will be received by the undersigned not later than the 31st day of May, 1919, for the packing and delivery of the following supplies from Chute Lake to Big Meadow Dam; being a distance of Six (6) miles, more or less:—

Not less than 200,000 lbs. or not more than 300,000 lbs. of cement; 2,000 F.M.B. of 1x6 or 1x8 lumber in Eight (8) foot lengths;

Provisions and other supplies for a camp of about twenty (20) men. Any further information may be had upon application to the undersigned or F. J. Languedoc, Chairman. Envelopes containing tender must be marked "Tender."

The lowest or any tender not necessarily accepted. Dated this 19th day of May, 1919.

NARAMATA WATER USERS' COMMITTEE per J. Stanley Dicken, Secretary. 43,44

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

St Andrew's Presbyterian Church. Morning service at 10.30. The Pastor will preach on "The Doubt of John the Baptist and the Message of Dr. Dixon of the Metropolitan Tabernacle, of London, England."

Theosophical Study Class.—Subject for Sunday: A World Religion.

CARD OF THANKS.

Mr and Mrs E. Hunt desire to express their heartfelt gratitude for the innumerable acts of kindness and sincere sympathy shown them during their recent sad bereavement and for the large number of floral tributes sent by friends and neighbours and by the school mates of their dear one.

As women make 90 per cent. of the purchases for the homes, their action in this is the most important single factor in righting our adverse balance with the United States.

### MR. W. J. BOWSER SPEAKS TO LARGE AUDIENCE

(Continued from page 1)

Island farmers, the former being paid \$1,000 per month and expenses. Farmers would be interested to know that Mr. Oliver had stated that in all probability taxes would have to be increased this year by 40 per cent.

Criticism was made of the failure of the government to continue the policy of the late administration by which shipbuilding had been established in B.C. His criticism of the land policy was severe. It was now, not two years hence, that the soldiers wanted land. Action should have been taken long ago.

The Public Utilities Commission was an unnecessary expense, to cost at least \$15,000 a year.

Claiming gross incompetence for the present government Mr. Bowser gave in detail the costs of various undertakings.

Especially severe was his criticism of the Department of the Attorney General in the administration of the prohibition law.

He pointed out that as leader of the opposition his duties were clearly defined; he could not make policies but had to be content with criticism. He felt he had done his duty and he appealed to his hearers to take more interest in the affairs of their government. With the reconstruction problems to face the province needed and must have a government competent to inspire confidence and handle these problems with a firm hand.

He declared the heart of the present government did not ring true

on the returned soldier question, and much dissatisfaction had resulted in their dilatory methods of handling the questions of the day.

**WHY RISK LOSS?**

THE Dominion of Canada offers you every safeguard for your investment in Thrift and War Savings Stamps.

Your postmaster will register every War Savings Stamp for you, and if they are lost by theft, fire or other cause, you can still obtain your money, with the accumulated interest, at the office where the stamps were registered.

Sixteen 25-cent Thrift Stamps will buy a \$4.00 War Savings Stamp worth \$5.00 in 1924.

NATIONAL WAR SAVINGS COMMITTEE  
British Columbia Division Vancouver, B. C.

**BUY THRIFT STAMPS**

## Press Advertising Sold Victory Bonds

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,001! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$676,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No ar-

gument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr. J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.

# Warm Weather Footwear

"I want something cool, lightweight and durable to wear on my feet."

This is a demand we will have to meet everyday from now until the end of September. We have prepared for this demand with a Stock of Canvas Boots, Oxfords and Pumps with both rubber and leather soles, dressy shoes for the women and children, and a wide range of light, strong working boots for the men and boys. We expect this to be our largest season for "WHITE GOODS," and have ready a range comprising the latest ideas and best models in this line. Our "Miners' Canvas Working Boot" is a boot that will "stand the test" of the hardest wear. Try them, you will want a second pair.

A large shipment of Men's Strong Working Gloves has just arrived, comprising Pigskin, Buckskin, Horschide, Mulehide and other durable leathers. We invite comparison in both quality and price.

\$2.00, payable in advance.

## Minister of Lands On Water and Other Policies of Prov. Govt.

Hon. T. D. Pattullo and Mr. L. V. Rogers Heard in College Gymnasium.

Hon. T. D. Pattullo, Provincial Minister of Lands and Mr. L. V. Rogers of Kelowna held an interesting meeting in the Gymnasium on Wednesday evening. A fairly representative audience enjoyed their explanations of public matters.

Mr. Rogers, who spoke first, discussed the question of pre-election promises and how they had been met, pointing out how woman suffrage and direct legislation and referendum had been passed. He also dealt with the land and water questions, and took occasion to correct alleged misstatements of fact recently made in public by Mr. J. W. Jones regarding road foremen. Mr. Jones had stated the Bower Government only had three foremen while the Oliver Government had five in this constituency. Mr. Rogers gave the names and addresses of seven who served, he said, as road foremen under the Bower Government at the same time while the Oliver Government were doing the same work with five men.

Mr. Pattullo, who is a pleasing speaker, received the closest attention of the audience for an hour and a half, in which he discussed in a broad way the whole position of our province and the problems and achievements of the Oliver Government.

He first explained the position financially when the Bower Government went out of office, claiming that the annual expenditure far exceeded annual income, and that the new Government had to make a readjustment to make these more nearly balance. He dealt very fully with what the Government had done and was doing to help the soldiers and explained how the Ottawa Government was co-operating with them. Soldiers buying B.C. lands get a reduction in price of \$500 and long terms of easy payments. All lands are carefully inspected and valued and the object is to make conditions such that future success is reasonably sure. He stated most of the returned soldiers understood and appreciated what the Government was doing for the soldiers and that the criticism came mostly from a small element of noisy fault finders who would not view things constructively.

Here Mr. Pattullo took occasion to contradict statements made by the opposition that appointments were being made of party supporters to the exclusion of returned soldiers and cited figures as defying contradiction that from July 1st, 1918 to March 31st, 1919 out of 178 appointments to positions made by the Government 148 had been of returned soldiers, and of the 30 not returned soldiers were stenographers and others who had special qualifications; and that of appointments since that date even a larger percentage of soldiers had been named.

The timber and land policies were exhaustively dealt with and it was clearly shown how speculators had been brought to time by being compelled to work their lands productively, or to sell at a reasonable price or pay high taxes, and of how outside markets had been got for export timber. Mention was made that by reason of the Government's activity B.C. was at the time of the Armistice producing spruce for air ship construction equal in quantity to that of the United States.

The speaker also touched on the social life and problems as considered by the Government and endorsed the policy of having more women in Parliament to help in these problems, particularly that conditions and wages as affecting working girls might be continually improved. A minimum wage had been fixed for girls and a commission appointed which would investigate and remedy unsatisfactory conditions.

The road, mining and water (Continued on page 6.)

## Miles Convicted Of Manslaughter

Outcome of Death Here of Two Indians Supplied with Wood Alcohol by Condemned Man.

Richard L. Miles, negro, of Carmi, was found guilty of manslaughter at the Assize Court held this week in Vernon.

Miles was indicted for the murder of Alec Paul, Indian, the allegation being that the prisoner supplied the Indian with wood alcohol, the drinking of which had resulted in the death of Paul. A second and similar indictment against Miles was made because of the death of Kalamalka Paul, father of Alec.

The evidence produced was much the same as had already been given in the preliminary hearing and published in these columns.

In defence the prisoner told a long story of his movements here and at Penticton, stating that he had been trying to engage teams from the Indians to haul wood. He denied having furnished the Indians with alcohol. He had bought two bottles of methylated spirits to use in a spirit stove. One of these had been spilled and the other had disappeared from his bag.

The jury was only about a quarter of an hour arriving at a decision which was that the prisoner was guilty of manslaughter. In this verdict the judge concurred. Sentence was deferred until the conclusion of the Criminal Assizes.

Recommendations made by the Grand Jury included the following:

The Grand Jury, having in view the case of Rex v. Miles, which has just come under their consideration, consider that some alteration or amendment in existing laws with regard to the sale of poisons, should apply particularly to the sale of wood alcohol, as apparently many people are unaware of the injurious and deadly effects of this spirit.

## Seven Day Train Service via Pass

Day Trip to Coast—Night Journey Returning.

Beginning with next week K.V.R. trains will be running on a daily schedule via the Coquahalla Pass. The new schedule giving a seven day service goes into effect on Sunday but the westbound train for Monday has been cancelled. The last train in from Spence's Bridge will be that to arrive Sunday morning.

Number 12, westbound, leaves Nelson at 9 p.m., arrives at West Summerland at 11.16 a.m., and is due in Vancouver at 10.30 p.m.

Number 11, eastbound, leaves Vancouver at 8 p.m., arrives here at 7.43 a.m. and at Nelson at 10.30 p.m.

Westbound passengers will thus go through the Pass by daylight and the trip from the Coast will be a night journey.

## Valuable Orchards Change Ownership

One of the most important real estate deals put through here for some time was closed a few days ago whereby H. C. Mellor disposed of the remaining portion of his orchard on the bench above his house. The purchasers are The Walkers, Limited, of Castor, Alberta, for some years owners of the Elliott property on the bench south of town. Mr. Mellor retains the portion of the property beside the lake and also has a ten acre orchard west of Peach Orchard. Some two or three months ago Mr. Mellor gave a visitor to Summerland an option on approximately seven acres of his old orchard and this section was sold just prior to Mr. Walker's taking the remaining portion, about seventeen acres. The latter sale was made through W. J. Robinson and we understand the price well maintains the values being put on Summerland orchard property.

The Walkers, Limited, do a retail business in Castor, and will ship the large crop which the orchard promises, to their Alberta store.

We understand that it is the intention of some of the owners to

## Home From Peace Conference.

*R. Borden*

Sir Robert Borden, Premier of Canada, who will insist that the place Canada has won for herself in the world's greatest theatre of action shall be maintained at the council of nations.

## Would Spend Cost Of Trip On Roads.

The directors of the United Farmers of B.C. think the B.C. Government might better spend the money on road work than flitter away six or seven thousand dollars on a picnic for certain delegates representing the various and sundry farmer organizations established in the province, to be held at Smithers, B.C., June 18-21, particulars of which will be found in another column of this paper.

A meeting of the Board of Directors was held at Vernon last week, when a resolution was passed taking strong exception to the proposed meeting of agriculturists at Smithers on the invitation of the Hon. Mr. Barrow, Minister of Agriculture. It was the unanimous opinion of the directors that the \$8,000 or \$7,000 which the Department would be required to spend to defray the expense of this proposed government picnic could be more economically used in the improvement of government roads in the province.

It is said that should the meeting be held and the decision arrived at that the many agricultural organizations should be merged into one united body, the new organization would have to follow practically the same lines as the United Farmers of B.C. have followed, and the directors feel it is only wasting time beating about the bush when the United Farmers' organization of Canada is already in existence doing business under what is practically the same system adopted by the organization in the other provinces of the Dominion.

come here to reside.

Two well known and valuable orchards have been bought this week by Muir Stewart, the van de Hagen lot of 20 acres in Garnett Valley and the Col. E. I. D. Gordon orchard north of the Koop properties, also of 20 acres. Both these properties were sold by F. D. Cooper.

Will Angove went down to Vancouver this week for a short visit with relatives and friends.

## Large Crowd Attends First Farm Picnic.

That the big picnic held last Saturday at the Experimental Station was a success in every way is the expressed opinion of all. With well organized committees and the getting of the people to and from the Farm provided for, everything went smoothly. Not quite enough cars were included in the "Red Star Line" service and a few citizens were kept waiting for their turn while a few others, after waiting for a time, went home or made other provision for getting to the Farm. The size of the crowds headed for the picnic grounds greatly exceeded the expectations of the jitney men. Some of the car men, by keeping at it throughout the day, did their best to make up for the shortage of cars.

During the day hundreds of cars and many trucks fitted up for passengers visited the farm. The attendance from Peachland, Westbank and Penticton was good, while a number came from as far as Vernon and Keremeos. The traffic along the roads leading to the Farm was well handled and not a single accident occurred throughout the day. The attendance has been estimated at fully 1,500 people. For many of them it was their first visit to the Experimental Station and they were at times widely scattered over the Farm.

At noon Reeve Simpson, in a few words extended to the visitors a welcome to Summerland and the Experimental Station. Although it has been the practice of certain newspaper writers at Penticton, he said, to refer to the Experimental Station as being at Trout Creek or near Penticton, Reeve Simpson asked the friends from Penticton to note that the Experimental Station was at Summerland. Its irrigation water was supplied by the Summerland system, the children of the families living on the Farm attended the Summerland schools and its general Superintendent is a citizen of Summerland.

A little later in the afternoon speeches were heard from W. C. Kelley, Summerland; Mr. J. W. Jones, M.L.A.; Dr. Warnock, Dop-

(Continued on page 2.)

## Ask Assistance From Province

Need for Additional School Accommodation Put Up to Department of Education.

Representing the Summerland School Board Chairman Gartrell and Trustee Garnett have been endeavoring to complete arrangements for the opening of the domestic science department next fall.

The services of Miss Oliver, daughter of the local K.V.R. agent and highly recommended as an excellent instructor, are available to the local board and an effort is being made to arrange for another two days as Summerland will for the present only be able to engage an instructor for three days a week. Mr. Kyle, supervisor for the province, had been expected to complete arrangements but seemingly has done nothing. Penticton was visited but no definite arrangement was made as they would also like to have three days' instruction.

Messrs. Gartrell and Garnett interviewed some of the Peachland Board and the matter will be brought before the full board for consideration. It is possible that Naramata may introduce domestic science with the same instructor as Summerland.

Very slim attendance at the Central School during the past week or so is seriously interfering with the work. Principal MacDonald feels there is no longer any occasion for alarm and is hoping for a full attendance on Monday.

The Board has placed before Dr. Alex. Robinson, Superintendent of Education, the pressing need here of greater school accommodation and has asked that the Province assist in the erection of a new consolidated school building. The request has been referred to Inspector Anstey, who has been asked to visit Summerland and submit a report on the subject.

## Superintendent of Construction Here

New Official on Irrigation Systems in Okanagan Valley.

J. Campbell MacDonald has been appointed superintendent of construction in connection with the Provincial Government's irrigation proposals in this valley. Among the duties of the new office will be the direction of the construction work being undertaken by the Government at Peachland and at Naramata. Mr. MacDonald has been here this week in connection with this work.

Mr. MacDonald, whose position is a new one, is a veteran of the South African war and also served with the Canadian Engineers in France for more than four years. He possesses a wealth of practical knowledge of the engineering business and will bring to his task a ripe experience. Mr. MacDonald is a Bachelor of Arts, a Bachelor of Engineering and a graduate of Dalhousie University.

## More of Our Boys Return From War

One by one and in groups of two or three our men are returning home from France. Some arrive with little or no advance notice of their coming but all are given a hearty welcome by the citizens on the first opportunity.

A few days ago James Kean came in and last week Keith Elliott, Will Angove and G. D. Marson were welcomed home. On Tuesday night Corp. Gerard H. Godwin came off the boat bringing with him a bride of a few months.

To-night Wm. Smith, son of Mr. and Mrs. J. O. Smith is expected and E. F. Smith, son of Mr. and Mrs. Jos. Smith, who arrived at Halifax on the 24th is expected to-night or to-morrow. Athol Agur and Walter Verity were reported to have arrived at Halifax on Sunday and may possibly reach here Saturday night.

Dean Klink was the guest of R. V. Agur over the week end.

## Road Engineer Proposes 50-50 Basis for L.S. Road Repairs

Idea Meets with Favor. Report of Regular Session of Municipal Council.

The Province will be asked to make the needed improvements to the Lakeshore road between Peach Orchard and the southern boundary of the Municipality at the Trout Creek bridge, the Council agreeing to pay half the cost. At the Council meeting on Monday the Clerk was instructed to lay such a proposition before Road Engineer Gwyer.

Mr. Gwyer had written the Council suggesting that the Lakeshore road through the Municipality be repaired by him, the cost to be borne equally by the Municipality and the Province. As that portion of the road from Peach Orchard to the northern boundary of the Municipality near Van Hise's was built by the Government as a part of the Okanagan highway and is not used as a municipal road, and furthermore, is now being maintained by the Province, it was not quite clear to the Council whether Mr. Gwyer included this section in his proposition. The Councilors were willing to assent to the suggestion of the Engineer provided it related to the portion of the road between Peach Orchard and Trout Creek.

Several citizens, mostly along the Brewer ditch, complained of water shortage. Mr. Brewer, who was present explained that his and the Gray and Thompson ditches were all being served from Prairie Creek, whereas formerly the Thompson and Gray ditches had only had the surplus from his section to augment the supply from Garnett Valley. This latter they are not now getting. Mr. Brewer told of wasted water through leaks in the dam near St. Stephen's Church, and several bad leaks in the pipe and through a valve at the power house. He had to put water through the pipe to irrigate lots near the high flume. During the discussion it was shown that the channel from the head of the north main which carries additional water to Prairie Creek was not large enough to take care of the additional load of these three ditch sections. This work is being done this week and some repairs have been made to the pipe line. It was stated on Monday that a new dam or extensive repairs to the existing one must be undertaken.

E. O. James asked that a leak in the ditch at his ranch be stopped and again asked for the fruit on the Trumble lot, offering to do certain work in payment. Prompt attention to the leak was promised.

H. Cancellor asked for repairs to the road beside his orchard before fruit hauling started. Referred to Committee.

F. G. Barnard asked for repairs to the road in Peach Valley. Orders to do this work had already been given.

H. Callaway was given, under written agreement, the C.P. Oil lot in Peach Valley and a lot near the Althison orchards for the season, he undertaking to do certain work on them in exchange for the crops.

Under similar arrangements A. B. Elliott was given the Trumble lot for the season, Mr. Elliott agreeing in addition to the work on the lot to pay half the water rates.

From the reports received from municipal officials it was apparent to the Council that much of their own time is taken up with telephone conversations with ratepayers and others on matters which properly should be dealt with through the office. The Reeve was authorized to publish an open letter to water users regarding this.

Instructions were given for the placing of a standpipe at the north-east corner of the property commonly known as the campus.

The Clerk was instructed to advise the K.V.R. Company that it was the purpose of the Municipality to lay an irrigation pipe under the road at the point where it crosses the railway near the Trout Creek Bridge.

Introduced by Chairman Kirk of (Continued on Page 6)

## NARAMATA'S RIGHTS

NARAMATA HAS GOOD REASON to complain of the lack of ferry accommodation and the need for relief is steadily increasing. Little wonder that the citizens are kicking and are demanding an outlet by road to the north. For years there has been maintained at Government expense a ferry service between Naramata and Summerland but no attempt has been made to provide a landing place on the Naramata side for cars or other vehicles. The result is that all car owners at Naramata, and they are rapidly getting more numerous, must make the long detour around the end of the lake in order to reach Summerland, Peachland or any point to the north. Naramata is supporting Kelowna in a demand that the road between those two points be completed and they should be given attention. In the meantime the long needed ferry landing at Naramata should be provided. This would in a great measure discount the now pressing need for the road to Kelowna, especially if the ferries were made free as they are in so many other parts of the province. Until they are made so here the Okanagan is being unjustly dealt with.

## A CAPABLE OFFICIAL

THE APPOINTMENT of Prof. J. H. Grisdale permanently to the office of Deputy Minister of Agriculture for Canada will receive the approval of agriculturists throughout the country and especially of those who know Mr Grisdale best. During his tenure of office as Director of Experimental Stations Mr Grisdale proved himself to be a practical and progressive leader of farmers and in the more important position of Deputy Minister of Agriculture he will have the confidence of the large proportion of the citizens resident upon the soil. Mr E. S. Archibald, long connected with experimental farms and who has been acting as director since Mr Grisdale was made acting deputy, has been appointed permanently to the position. Promotions like these are acts of government so far removed from the old party patronage methods as to give much cause for hope for really effective work.

THE ONE THING LACKING at the picnic on Saturday was the good old Summerland Brass Band. Is it not about time to seriously consider its revival?

## LARGE CROWDS ATTEND FIRST FARM PICNIC.

(Continued from page 1)

uty Minister of Agriculture; Dean Klink; L. E. Taylor, Kelowna; Professor Clement of the Department of Horticulture, U.B.C. and Secretary of the B.C.F.G.A.; R. M. Winslow, Secretary of the Traffic and Credit Association of the Okanagan; A. H. Huntley, Penticton; and R. A. Copeland, Vernon. Supt. Helmer also spoke briefly of the work being done at the Station. R. V. Agur, local representative of the B.C.F.G.A. introduced the speakers.

Summerland supplied free coffee, tea, milk and sugar to all and the invited guests were provided for among several picnic groups, the size of the undertaking having made it necessary to ask the people to bring their picnic baskets. By the thoughtfulness of Supt. Helmer

and his staff the needs of the picnickers were fully met. A new refreshment booth was occupied by the Ladies' Hospital Auxiliary, who took in over \$300 from the sale of ice cream, etc., and could have sold much more had they not run short of supplies before the afternoon was over. Another time they will know better how many to provide for.

The chief feature of the sports program, perhaps, was the ball games, one between Penticton and Kelowna, won by the latter, who also defeated the Summerland-Peachland nine.

The citron is a native of Greece.

Oats originated in North Africa.

Rye came originally from Liberia.

Spinach came from Arabia.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr J. M. Robinson of Naramata was a visitor spending Wednesday of last week in town.

The regular monthly meeting of the W.C.T.U. was held on Wednesday afternoon of last week in the Baptist Church. The officers who had been elected at the original organization meeting when Mrs Arnot was present were elected just for the three months remaining of the W.C.T.U. year. As last week's meeting marked the start of the W.C.T.U. year the Union reorganized for the year's work. The officers as appointed for the three months were re-elected except the office of treasurer which had been filled by Mrs H. K. Mitchell, who found herself unable to carry out her duty and asked to be relieved. Mrs L. D. McCall was appointed to hold the office for the year.

It has been some little time since we have had the privilege and pleasure of welcoming back any of the overseas boys, but we had that same on Wednesday night of last week when Arthur Henderson returned. Art was sure glad to get back, and we are pleased to note that he is looking fine and hearty.

Owing to press of work and business the Y.M.C.A. subscription drive committee were unable to carry out the canvass during the time allotted for the same; but got busy last week and made practically a house to house canvass, and with what they actually collected with what was promised they reached mark a something over seventy-five dollars. If there were any who might have been overlooked the Committee, which is the 1919 Council Board, will be pleased to receive the subscriptions intended.

The local Great War Veterans held a meeting in the reading room last week to discuss organization. A resolution was passed to have the organizer come and effect organization here.

Mrs A. Nichols of Westbank was a visitor in town on Wednesday of last week, a guest at the home of Mrs W. W. Fulton.

On the occasion of Teddy Clements' birthday, his parents entertained a number of his boy friends. After enjoying supper on the lawn Mr Clements treated the crowd to an auto ride which they all enjoyed to the full.

After spending a few days at down the lake points Mrs Hardisty and her little boy Dickey returned to their home here on Thursday of last week.

Mr Frank Smith of Vancouver spent the week end in town the guest at the home of Dr Buchanan, leaving on Monday afternoon's boat.

Commissioner Henegge of the Boy Scouts was in town on Thursday of last week. He held a meeting of the boys and their parents for the purpose of talking over the advisability of forming here. It was thought quite possible to make the necessary arrangements and also that there were enough boys to

form three patrols here. Several of the townsie boys have belonged to the Scouts for some time now, but they will be quite willing to go in with the town boys and organize together. However there is nothing definite to report as yet.

After enjoying a few days' visit in town among friends and with Mrs W. D. Miller in her ranch home, Mrs J. Silver left on Thursday morning of last week to return to her home in Vernon.

While visiting her sister Mrs H. McDougall for a few days Mrs Roe of Naramata journeyed to Westbank for a day to visit Mrs Harkness.

Mrs Coleman who has been keeping house for Mr J. Brown until shortly before he sold out has been a guest at the home of Mrs Thos. Powell. She left on Thursday of last week en route for Windermere where she has accepted a position as cook in the hospital where Nurse Wilson has been matron for some time.

Major McDonald, Supt. of Construction over the irrigation systems in this district spent a couple of days in town last week looking over the system. He left for Summerland on Friday afternoon's boat.

Mr A. Town and Rev. A. Henderson returned last week from the Coast where they have been attending the Methodist Conference.

Mr and Mrs R. J. Hogg and Miss Leddingham visited Kelowna via the C.P.R. on Friday of last week, and returned home by auto. Mr Hogg has traded his Chevrolet car and since has been driving an Overland.

Mr Albert Smalls has accepted the offer of the job as Water Bailiff for a period of two months or perhaps more and is doing all he can

to arrange the system so as to give plenty of water for all who are ready for it. The fluming is pretty nearly completed.

Charlie Morrison came down from Kelowna on Friday night and spent the week end at home.

Mr and Mrs S. H. Murdin were passengers south on Friday night of last week where they were entertained as guests at the home of Mr and Mrs Thos. McAlpine over the week end. While down there on Saturday, they were enabled to join in with the crowd and enjoy the picnic on the Experimental Station. On returning by auto on Monday morning they encountered a huge mud slide on the road which was impassable. They however managed to get a chance to catch another auto and come around over the old bench road. Since then a gang have been at work clearing the road, but it is proving to be quite a task.

Miss Kathleen Henderson and her lady friends were passengers on Friday night of last week, for Summerland.

Mrs Vivian went down to Penticton on Friday night's boat last week where she expects to assist her brother and sister in law during the illness of the latter.

After spending a pleasant holiday here with her sister Mrs H. McDougall, Mrs Roe left on Friday night last for her home at Naramata.

Mr K. Hogg motored up from Summerland on Friday last and took Mr and Mrs George Lang back with him, where they stayed to enjoy the picnic on the 24th.

Among quite a representation of citizens going down from here to the picnic at the Experimental Station on the 24th were four of our

baseball boys who played with the Summerland boys against the Kelowna team. These were F. R. Jeffords, Cecil Brown, George Robinson and Willie Buchanan. Considering the practise the boys have had they played a good game.

Mr Wm. VanSeymourtier was a passenger to Summerland on Friday night of last week, returning on Saturday morning.

Mr W. R. Bartlett of Naramata spent Saturday the 24th in town looking after his interests in his fruit lot here.

Mr and Mrs Burkett Robinson and family spent Saturday holiday at Westbank where they had a picnic with Mrs Robinson's sister Mrs Harkness. Mr Robinson and the family returned in the evening, but Mrs Robinson remained over and came home Sunday.

Arthur Henderson spent last week end in Kelowna, returning on Monday night's boat.

Mr J. MacKenzie left on Saturday morning last for a trip to the Coast. He will probably remain away for a couple of weeks.

(Continued on page 4.)

### CORPORATION OF THE DISTRICT OF PEACHLAND

NOTICE IS HEREBY GIVEN that the Municipal Council of the above district will hold its first sitting as a Court of Revision of the Assessment Roll of 1919 in the Council Chambers, Peachland, on Wednesday, June 18th, 1919, at two o'clock in the afternoon.

WM. M. DRYDEN, Municipal Clerk.

42-45

## White Skirts and Middies

A Special Line, in good quality, of PIQUE, REP and BEDFORD CORD, Marked at close prices. SKIRTS are well made at \$2.65 to \$3.25. MIDDIES, smart and pleasing, \$1.75 to \$4.00. CALL and examine these.

A. Milne - Ladies' Emporium

## Cash Prices for Fruit

The Direct-to-Consumer Business makes it possible for us to pay higher prices than any other shipper.

In the few years that we have carried on our business it has grown by leaps owing to the intelligent service that we render the consumer; and enquiries are pouring in this year faster than ever before.

Why not share in the bigger returns? Now is the time for the Grower to make hay. Prices are at the peak. Never again will we see such good times in the fruit industry.

It behoves every Grower to make the best of his opportunity.

We still need cherries, apricots, peaches, plums, pears and crabapples, for which we will contact at liberal cash prices.

If your crop is not sold we offer three distinct advantages—

1. High guaranteed cash price.
2. Segregation of fruit in packing-house. Nobody else's culls are charged to you.
3. We'll haul your fruit.

Make this your Big Year. The crop if good—don't miss the big returns. Nature has done her share; now you do yours.

Don't accept less than you can get.

Drop me a line or phone 991 and I'll be found with the high prices.

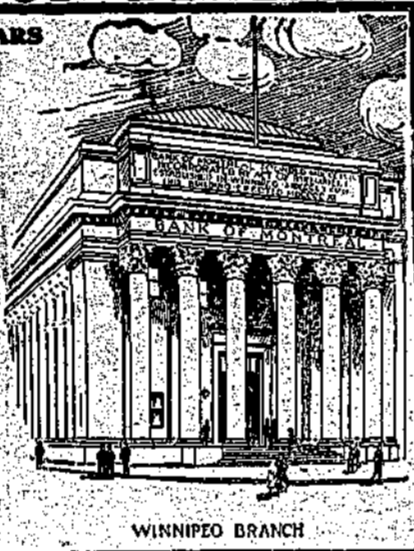

CO-OPERATIVE ORCHARD CO. C. W. LEWIS, Manager.

The Perfect Front The Perfect Back The Perfect Corset

Inimitable Style Assured Health All-Day Comfort

## GOSSARD CORSETS

The Original Front-Lacing Corsets

are and always will be indispensable. New world conditions, demanding the unusual of all patriotic women, have emphasized the superiority of the genuine Gossards. They have become a part of the patriotic war uniform for women. Only in a Gossard can every woman attain the ideal proportions of her type, an inimitable style and a hygienic support that safeguards her health and assures a priceless all-day comfort.

The perfect Gossard back, with its delightfully flat lines that never have been and never will be attained by those attempting imitations, perfectly supports the spine and back muscles in every position.

The perfect Gossard front eliminates all

appearance of fat or thick chest and gives a hygienically correct abdominal support that means perfect comfort standing, sitting or bending.

The perfect corset, the original front-lacing corset and the only correct expression of front-lacing principles, minimizes fatigue, assures added efficiency and the economy of a wearing service that alone is worth the price you pay, whether it be \$2.00, \$2.50, \$3.75, \$3.00, \$3.50, \$4.00, \$5.50 or more.

The name *Gossard* on the inside of the corset is your guarantee of the genuine. Insist upon it. Avoid imitations.

The highly specialized service of our correct department assures you satisfaction.

## Naramata News

Current Events of Town and District

Mrs W. Steele of Mineola is visiting Mrs George Cook for a few days.

Mr J. M. Robinson made a hurried business call to Peachland on Wednesday.

Mr W. R. Bartlett made his annual visit to Peachland on May 24, where he inspected his fruit orchard. He reports a good prospect for a bumper crop.

The Ladies' Unity Club held a very interesting meeting at their Club House on Friday afternoon and numerous important questions were brought up for discussion. A piano solo was very nicely rendered by Mrs A. Aveson. Light refreshments were served by Mrs Languedoc who was the hostess. The hostess for the next meeting will be Mrs F. C. Manchester.

Mrs E. P. Roe who has been visiting her sister Mrs McDougall in Peachland, has returned to her home.

Mrs M. M. Allen has returned after a few days' visit at the Coast.

The Naramata Water Users' meeting was held on Friday night and was well attended by those most interested in the important questions of this district. The plans for the betterment of the system as approved by the Government and the Water Committee were read and generally discussed. Work on the Big Meadow dam will be started early in June and a certain amount of storage will be available for this season if all goes well. Mr Pattulo, the Minister of Lands will be in soon and important matters will be taken up with him and settled to the satisfaction of all concerned.

Lieut. Earl Gray, R.A.F., son of Mayor Gray of New Westminster was the guest of J. M. Robinson and family for the week end.

Mr Arthur Stiff was in town on Tuesday and called on some of his friends.

Mr H. Davies has installed a gasoline filling station near his store. It is a great convenience to the car owners of the district and business is sure to be good.

Mrs T. I. Williams was a visitor in Kelowna on Tuesday.

About sixty of our citizens took advantage of the picnic at the Experimental Farm on Saturday and joined the merry throng. The ferry made two trips and everyone was happy to think they had the opportunity of enjoying the outing. The wind, it blew, but a little thing

like that never interferes with a good time in the Okanagan and all expressed themselves as greatly benefitted by the most interesting talks given by the numerous speakers.

Mr C. C. Aikins has purchased a new McLaughlin Special car. A McLaughlin truck was delivered to Mr Hans Salting on Tuesday.

Capt. Estabrook of Penticton paid us a hurried call the early part of the week.

Mr W. Mitchell, Mr Norman Mitchell and Mr Harold Mitchell motored to Penticton on business Tuesday.

Mr and Mrs F. C. Manchester are now holding children's dancing classes on Friday afternoons in the Opera Hall. A beginners' class for adults will be started next week.

A number of our orchardists are going in for bees and are having good success. A hive arrived Monday for Mr G. Weaver and Mr F. C. Manchester is getting some this week.

A barge came in on Tuesday with a car of box material for the Naramata Fruit Co.

The Naramata Opera Hall has been overhauled and is now ready for dances and concerts and several of these entertainments are being arranged for the near future. The Manchester Orchestra is on the job once more and gala days are in store for all who care for this kind of amusement.

If you want to Sell, you must Advertise

## Peachland Doings

(Continued from p. 3)

Mr and Mrs E. Aitkens and Frankie Lupton, spent the week end in Kelowna. Mr and Mrs Aitkens returned on Monday evening.

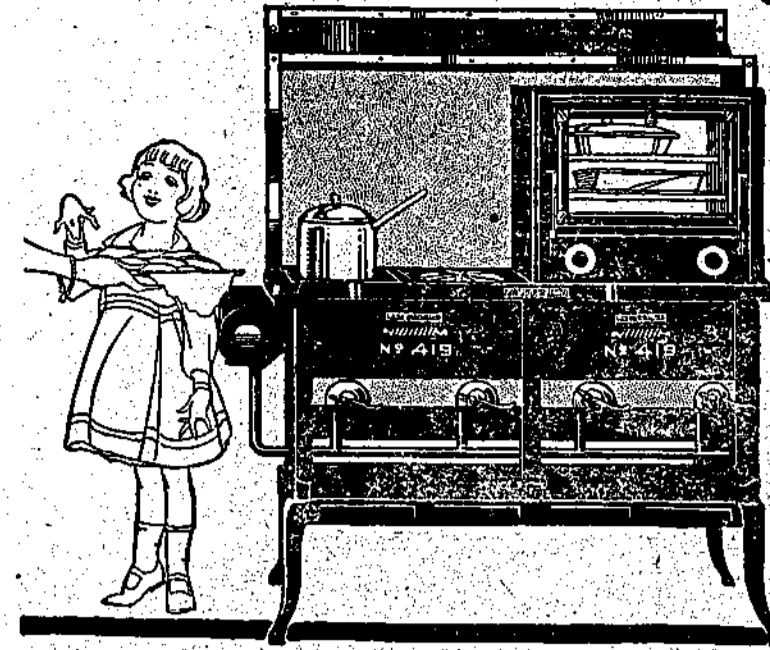

Mr and Mrs Broughman of Penticton came up and purchased a team of horses in town, one of them being the famous Jelico formerly owned by Mr N. S. Davidson and lately by Mr Jas. Elliott, and the other also formerly owned by Mr Davidson and lately by the Peachland Livery. The latter being a half sister to Jelico Mr Broughman takes a good team away with him.

Mrs A. J. Miller is enjoying the sojourn of her father who arrived on Saturday night last coming out from Ireland. He will probably remain for some time.

Messrs H. Hardy, E. Smith, Geo. Robinson and J. Drought were called from Peachland for the jury in Vernon, and left on Monday morning for that purpose.

Mr and Mrs McBean, formerly of McGregor, Manitoba, arrived on Monday night expecting to remain in town for a short time to look around at the different places here, and enjoy a holiday in this fair cilme. They will probably take a cottage for a time.

Mr Hendrickson left on Tuesday morning last for Armstrong on a business trip. He expects to be back shortly.

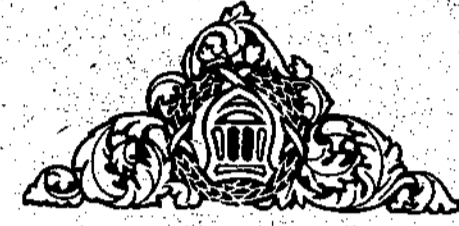

## "FLORENCE AUTOMATIC" OIL COOK STOVES

THE blue flame from the Florence wickless burner is always steady, always under perfect control. A special jacket holds it directly under the cooking utensils—giving a quicker, more economical heat.

Used with McClary's Success oven, the Florence Automatic is a wonderful baker.

There are no wicks to clean, no odors, no trouble. Let us give you a demonstration of the Florence Automatic in actual operation.

The Corporation of the District of Summerland

TO WATER USERS.—

The Municipal Council of Summerland requests that all complaints, which must be phoned for the attention of the Engineer, Irrigation Foreman, Pipe Line Foreman or Municipal Clerk, be made to the Municipal Office during the regular hours of business.

While all members of the staff are willing that they be phoned in cases of emergency the Council is of the opinion that these men and their families are entitled to greater consideration than has been shown. The number of evening calls which they have been receiving is not justifiable. The Council will authorize and support them in requiring that calls, other than those of a very urgent character, be made to the Office before receiving attention.

In all cases state the complaint or request concisely and ring off. The time of our staff is valuable.

All ditchmen and the Office will be supplied with forms for written complaints or requests, which please use when possible.

E. R. SIMPSON, Reeve.

The RIALTO

SATURDAY, 31st, "Treasure Of The Sea" Featuring EDITH STOREY

THURSDAY, JUNE 5th, HAROLD LOCKWOOD in "Lend Me Your Name"

SATURDAY, JUNE 7th, "The Lamb" Featuring DOUGLAS FAIRBANKS. Performances start promptly at 8 p.m.

Mrs C. H. Tate is spending a month at Vancouver and Victoria visiting with relatives.

Mrs York of Toronto, sister of Mrs J. J. Baker of Mineola, went out by boat Thursday morning on her return to her home city.

Mrs Wilson and daughter, who have been visiting Mrs Wilson's sister, Mrs W. Watson, left last night for their home in Minnesota.

A. R. Gayton and C. A. Gayton are both with the Government road survey party in the Fraser River canyon, where a site for the proposed trans-provincial highway is being surveyed.

Rev W. M. Armstrong came in from Edmonton last Friday to join his wife here. He went up to Kelowna this morning. We are informed that Mr Armstrong will be in charge of the Kelowna Baptist church for the summer.

Mr and Mrs J. Stewart Campbell, who have been in Scotland for several years, returned last night bringing with them their two young sons. Mr Campbell expresses much delight in being back in Summerland and the freedom of life which it affords.

Mr and Mrs Thos. Pilkington and family have arrived here from Vancouver to reside. Mr Pilkington has bought out the business of W. R. Shields and has also purchased the land and shop occupied by Mr Shields. On the lot is a cottage which has been vacant for some time. We understand it is Mr Pilkington's intention to renovate it.

Following the picnic last Saturday a dance was put on in Empire Hall. Though arranged for but a few hours before there was a very good attendance. The music was provided by Mrs Laffan, Mr J. Blewett and Mr T. V. Coxon, the latter a resident of Salmon Arm visiting here. The net proceeds of the admission fee were donated to the Summerland Ladies' Hospital Auxiliary.

The unusually high winds of the past few days have been causing trouble for the electric light department. "Shorts" have been frequent. At one time a tree limb fell across the wires, at another a broken telephone wire was found across the light wires near Garnett Valley. Again it was a guy wire from a telephone post to a tree that grounded the current and more than once the lights have been off because of insufficient water.

The late number of the monthly magazine of the Pro-Cathedral Church of the Redeemer, Calgary, contains the following reference to a presentation made by the ladies of that church to Mrs A. W. E. Fawkes upon the occasion of her removal from Calgary to Summerland:

"Mrs Fawkes, the devoted Vice-President of the Pro-Cathedral Branch, who has since left to make her home in Summerland, B.C., was presented with a gold cross and chain as a token of appreciation and loving wishes from the members for her loyal work, and her two daughters were given rings. The presentation was made by the Dean."

Announcement

In announcing the sale of my Blacksmith business in Summerland, I wish to thank my many customers for their liberal patronage during the past 11 years, and to solicit a continuance of the same for my successor, Mr. THOS. PILKINGTON of Vancouver. Yours respectfully, W. R. SHIELDS.

BEN PRIEST Funeral Director and Embalmer. Perfect Funeral Service. SUMMERLAND and PENTICTON. Day or Night. Phone 30 Penticton 43, 44.

Mr A. Davidson went down to Oregon a few days ago on a short business visit.

Mrs Scott Darkis is leaving next week for a visit of several weeks to the coast cities.

Rev. T. R. Heneage, Boy Scout Commissioner, has been a visitor to Summerland for the past few days.

The woodshed on the Shepherd property, formerly the Adamson lot, was destroyed by fire Thursday morning.

Mrs E. R. Butler and little ones returned Sunday from a visit to Mrs Butler's parents in Rossland. They were met at Grand Forks by Mr Butler.

Arthur Henderson, second son of Rev. A. Henderson came down from Peachland last night where he has been for the few days since his return from overseas.

Two of the teaching staff of the Consolidated School, Miss Wolfenden and Miss McDonald, have tendered their resignations to the Board, to take effect at the end of the present term.

The picnic on Saturday was the occasion of quite an outing for a number of Mineola people. They came down Thursday and attended the concert and dance in the Gymnasium, the picnic and movies on Saturday and returned Sunday night.

A big slide including about an acre of bench land moved out and completely blocked the Peachland road north of the Greta wharf, last Sunday night. Road Supt. McAlpine was the first to discover the slide and by noon had a road opened around it.

Mrs T. C. Orr and her two children have returned from Toronto after an absence of several years. They are at present at the home of Mrs Orr's father, Mr J. Rowley, but will move up to the Orr ranch next week. Mr Orr will join them here later in the season.

During their visit here last week Dean Klink of the University of British Columbia and Dr. Warnock, Deputy Minister of Agriculture, were shown over the upper works of the irrigation system by Coun. Dodwell and W. M. Wright. Both were much delighted with what they saw and Dean Klink expressed great surprise in the volume of water passing through the upper canal and the size of the permanent construction in the ditches.

The program presented by the Boy Scouts last week was enjoyed by a large audience. The gymnastic performances were well up to standard, an innovation being the trick given by Roland Reid, in which he stacked up chairs one after the other, each time standing on his head on top of them until he had seven chairs between him and the floor. The comedy "April Fools" was highly amusing and excellently played. Rev. H. A. Solly was chairman and congratulated the boys on their success and complimented them on the good purposes to which they always devoted their receipts. Visitors included Commissioner Heneage, Scoutmaster Weddell of Kelowna and several Kelowna scouts.

Tenders Wanted

SEALED TENDERS will be received by the undersigned not later than the 31st day of May, 1919, for the packing and delivery of the following supplies from Chute Lake to Big Meadow Dam, being a distance of Six (6) miles, more or less:—

Not less than 200,000 lbs. or not more than 300,000 lbs. of cement; 2,000 F.M.B. of 1x6 or 1x8 lumber in Eight (8) foot lengths;

Provisions and other supplies for a camp of about twenty (20) men. Any further information may be had upon application to the undersigned or F. J. Languedoc, Chairman. Envelopes containing tender must be marked "Tender."

The lowest or any tender not necessarily accepted. Dated this 10th day of May, 1919.

NARAMATA WATER USERS' COMMITTEE per J. Stanley Dickon, Secretary.

The closing of Rev. A. Henderson's pastorate in the Lakeside Baptist Church on Sunday at 7.30 p.m. Subject, "A Model Valetocracy as contained in Acts 20, 17-38." C

OBITUARY.

MARGARET BEATTIE

Margaret Beattie, four years of age, the daughter of Mrs and Mrs Wm. Beattie died on Monday after an illness of but a few days. It was only six days before that her little brother Billie passed away, and just a week after his death that the body of his sister was laid beside his in the Peach Orchard cemetery. Deepest sympathy is felt by all for the sorely stricken parents who state they have been greatly helped by the practical assistance and thoughtfulness of many kind neighbors. The Review has been asked to give expression to their gratitude for this kindness and for the many floral tributes.

(Continued from Page 1.)

problems received considerable attention. The Government will assist development of any promising mine prospect, and build roads thereto. The general road problem is being met comprehensively, he claimed, and a larger appropriation made for this work.

Mr Pattullo explained the water problem as being varied at different points in the Valley, so that a solution satisfactory to all was very difficult. Some companies had been badly managed and had plenty of water in their shares but very little on their land and a good deal of money debts represented no actual value. The Government refused to be saddled with the systems of these semi-defunct companies, and took the position that the Summerland people should not be forced to pay for their own water system under their own management and

then, by higher Government taxes, be forced to pay the losses by bad management at other points. He believed in assisting water users to help themselves but they would ultimately have to repay monies advanced.

The keynote of the speech was one of optimism as to the future provided we as citizens realized we must all work to develop our natural resources. The Government was endeavoring to develop industries and to make conditions attractive so as to increase population which is necessary to development.

Imports in the last analysis can only be paid for by exports. The Dominion war debt has grown so that an increased export trade is imperative, according to the advisors of the Canadian Trade Commission.

The horse chestnut is a native of Tibet.

### The Doctor's "Holiday"

Fred Andrew is the doctor of lovely Summerland. And all the people in the town think he is simply grand. He views their ailing bodies and gives them lots of pills. He amputates their legs and arms and cures most all their ills. Appendix is his greatest joy, unless it's balls and sockets. He turns their tummies inside out and empties all their pockets. Doc. Andrew told the nurses he'd have to run away. He simply had to have a rest so he'd take a holiday. "I'll forget, I am a doctor."—It was an idle boast. The stomach case packed up her things to go with him to Coast. The asthma lady heard it and gleefully cried "Hurrah, I'm much too sick to travel alone, I'll go with him to Maw." On Sunday night he went to bed and wearily did snore. The first he knew the jitney man was pounding at the door. Into his clothes he hurried, 'twas well that they were loose. While loudly through the morning air whistled the Sicamous. Swiftly out the door he came, fastening his overcoat. While Wife in the house did cry, "Quick! or you'll miss the boat." Quickly he jumped in the jitney, carrying his little box. His collar and tie were in his hand, but he quite forgot his Sox. Madly, madly the jitney rushed while the whistle a warning blew. The asthma lady bounced in her seat. Oh 'twas an awful stew. At last they were on board the boat, he thought that all was well. But the stomach case was very weak, the asthma case had a spell. The doctor with a grim set face felt for his hypo box. He drew his hand from his pocket and there were the missing Sox!

### Weather Report.

Abstract from weather records for April, 1919, kept at the Government Station, Balcom Ranch, Summerland, B.C.

April	Maximum	Minimum	Sunshine hr. min.	Rain
1919				
1	62.0	39.0	10.18	
2	60.0	32.0	6.54

## IT Costs You Nothing

To have Your Own Private or Business Stationery

Did You ever figure how much per hundred sheets the ordinary Writing Pad costs? — If not, just try it.

We can supply you with full-size Letter Paper with your Business or Ranch name and address on it for 65c. and 75c. per hundred in lots of 1000; and less in larger lots. Small extra charge if padded. Give us a trial order NOW.

The Review Job Printing Department.

## CANADA OFFERS YOU

**\$5.00 for \$4.00**

FOR every War Savings Stamp which you can purchase today for a fraction over \$4.00 the Dominion of Canada is pledged to pay you \$5.00 in 1924. If you cannot make an outlay of \$4.00 at one time, accumulate sixteen 25-cent Thrift Stamps and exchange them for a \$4.00 War Savings Stamp.

Should circumstances compel you to realize on your investment, your money with accumulated interest is always available.

NATIONAL WAR SAVINGS COMMITTEE  
(British Columbia Division)  
Vancouver, B. C.

### BUY THRIFT STAMPS

### COUNCIL IN REGULAR SESSION

(Continued from page 1)

The Water Committee the question of water service during holidays was discussed, resulting in the decision that ditchmen should keep the water flowing on such days and should at least go over their sections on the morning of a holiday. Referred to the Superintendent.

Coun. Kirk urged the repairing of the road from Zimmerman's to Gartrell's before the fruit season opened. This is a sandy piece and Coun. Campbell suggested that the best plan might be to water it twice a week during heavy traffic.

Coun. White was asked to take up the matter of providing a more suitable site for a nuisance ground than the present one.

The Engineer was authorized to push forward the work of reconstruction of the upper flume in Garnett Valley leading to Jones Flat at the earliest possible time.

As the result of several requests the Council decided to have more of the cemetery subdivided into plots.

### Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

May	Max.	Min.	Rain	Snow	Sunshine
21	76	49	.00	0.0	12.8
22	78	58	.00	0.0	11.7
23	71	40	.00	0.0	13.2
24	78	46	.00	0.0	.6
25	71	58	.00	0.0	2.3
26	70	54	.00	0.0	1.5
27	74	57	.00	0.0	14.3

The poppy originated in the East.

## Empress Theatre

"The House of Mirth."

## Press Advertising Sold Victory Bonds

BEFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1917—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times—to 820,000! This was the number purchasing the Victory Loan, 1917. Last month—November, 1918—over 1,000,000 persons purchased the Victory Loan, 1918!

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people bought bonds. Now quite twelve and one-half per cent. of our people are bond buyers!

Before the stupendous amount of \$676,000,000 worth of bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign—in advertisements. No ar-

gument was overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe, and profitable form of investment bonds are. Instead of one man in two hundred owning bonds now one Canadian in eight,—men women and children—owns a Government Security.

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and directed.

The Minister of Finance acknowledges this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan 1918, said, "The press publicity campaign . . . will rank as one of the most remarkable and efficient publicity campaigns ever undertaken in any country," and Mr. J. H. Gundy, Vice-Chairman of the same committee said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is, the splendid work the press has done. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods—and this applies not to bonds alone, but to the goods you are interested in selling.
