

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 12, No. 15. Whole No 588.

SUMMERLAND, B.C., FRIDAY, NOV. 7, 1919.

\$2.00, payable in advance.

Mail Service Is Discussed by Board of Trade

Would Have Closer Connection With Vancouver

Local mail matters were discussed at much length at a general meeting of the Summerland Board of Trade held Tuesday evening in Campbell's hall. An announcement that the Post Office Department was calling for tenders for conveying mail from the railway station to the local post offices but not from the post offices to the west bound train occasioned much disappointment. The rural route service also came in for considerable criticism when it was stated that patrons of the rural route were not receiving their coast mail until twenty-four hours after it had arrived here and also that the local paper had, on several occasions been left in the post office and not delivered until Monday. The opinion was expressed that there was no reason why the mail courier should not sort the mail before starting out and that it would be better that the mail were left than that it should be left behind.

The Council of the Board of Trade had been in correspondence with Post Office Inspector Murray and he had replied regarding courier service between the post office and the west bound train to the effect that he had referred this to Railway Mail Service Superintendent McLeod, but stated that he saw very little likelihood of this service being given because of the expense.

It was stated by the contractor at the meeting that he had offered, for forty cents a day extra, to take the mail from the lower post office, after he had delivered the coast mail, to the upper post office and at train time take it and a second bag from the upper post office to the station. Dr. Andrew thought this was a matter that did not greatly concern the patrons of the lower post office. The discussion resulted in the unanimous adoption of a resolution opposing the long term of four years in the contract now being advertised by which the mail would be carried from but not to the K.V.R. station.

A suggestion from Mr. J. C. Freeman that an effort should be made to have a mail car attached to the regular K.V.R. trains resulted in a decision to bring this matter up at the next regular meeting of the associated boards of trade of the Okanagan Valley.

There followed a long discussion of the rural route service with several suggestions as to better hours for leaving the post office, 9, 10 and 12 o'clock being suggested. Dr. Lipsett pronounced this an opportune time to take action as the Department is likely to advertise soon for tenders for the rural route. By resolution, the secretary was instructed to write the Post Office Department, to request that the hour on which the courier should leave the post office should be such as would permit the sorting of the Coast and local mails before leaving.

Summerland still maintains its stand as being opposed to the turning over of the Government telephone lines to the Okanagan Telephone company. A resolution that the Summerland Board of Trade strongly urge the Government to avoid creating a monopoly of telephone matters in the Okanagan Valley by holding its lines was unanimously carried and the secretary instructed to wire Ottawa to this effect and to send copies of the resolution to Peachland and Penticton and other Valley points, asking for endorsement.

The Chairman reported that the entertainment of the members of the Vancouver Board of Trade here was generally conceded a huge success, largely due to the efforts of the Women's Institute and a hearty vote of thanks to the women was carried.

The Summerland Board of Trade is asking the other boards of the Valley to arrange for a meeting in December, in order to prepare for a meeting of the Boards of the Province which will be held in Vancouver early in February. The Se-

A Victory Loan Message

THIS is the sixth War Loan floated in Canada since the War broke out.

It is the only War Loan floated in Peace times. Surely it is the duty of British Columbia to show her gratitude for Peace, and to the Soldiers for what they have accomplished.

This is a Peace Loan and a War Loan combined, and, therefore, it should more readily be oversubscribed than any of the former Loans.

Our Soldiers have made their sacrifice. It is now for us at home to make ours.

British Columbia has never failed to answer a patriotic call.

She will not fail now!

W. H. MALKIN,
Chairman, Provincial Committee.

Presentation to Mr. & Mrs. Hilborn

There was a pleasant item not on the program at the social gathering in the hall of St. Andrew's Church, last Tuesday evening when Mr. and Mrs. Hilborn were presented with a handsome leather bound copy of The New Methodist Hymn Book, which contained the following inscription:

"With kindest remembrances and all good wishes to Mr. and Mrs. J. L. Hilborn, on leaving the district. From the members of the Methodist Association worshipping at St. Andrew's Church.

W. T. Broad, President, on behalf of the Committee of Management."

The presentation was made by Rev. Mr. Bates and suitably responded to by Mr. Hilborn, who said that Summerland was in very many ways the best place he ever lived in and he would always remember with much pleasure both the district and the friends living here.

Mr. and Mrs. Hilborn left Thursday morning for Victoria, where they will reside.

Local Fruit Shipping House Fined

Last week a well-known private fruit shipping house was charged with shipping fruit contrary to the Fruit Marks Act. Dominion Fruit Inspector Robt G. L. Clarke took charge of the case and the minimum fine was imposed by R. H. English, J.P., who found the accused guilty.

Some eight boxes had been taken out of a car which was being loaded, it being charged that the shipper had already been warned not to ship the fruit. The requirements of the Act had been disregarded by the shipping of culls, by shipping closed packages unmarked as to grade and by shipping as No. 1 fruit inferior to that grade. A little time before the same house had been fined a minimum fine of \$10.00 for shipping Wealthy as Gravenstein. In this instance the fruit had been inspected by Mr. Clarke at Vancouver, and had been sent back to the shipper.

A fire of mysterious origin, started Tuesday evening in a shed at F. R. Gartrell's. Fortunately it had not made much progress when noticed, and was extinguished before any great damage was done.

Secretary read a letter from the Vancouver Board of Trade conveying the thanks of the members for the splendid manner in which they were entertained here. They were glad to have had the opportunity to see Summerland and territory contiguous to it and were glad to note the spirit of co-operation manifested here.

Vernon had replied to the suggestion of a Valley meeting saying such a meeting was highly desirable. Dr. Andrew believes that the Vancouver meeting will be a most important one and urged that all who could attend taking with them their wives.

Horses to be Had For the Taking

With the high price of meat and the demand in certain markets at good prices for horse flesh it would seem that Summerland offers excellent opportunities for engaging here in the preparing and shipping of horse meat.

On the hills back of Summerland there are many horses, seemingly in hundreds of all ages and sizes without owners and of no local market value. The recent heavy fall of snow is driving these animals down to the lower lands and for some days past they have been causing much trouble and annoyance in certain sections of our orchard districts. In droves of varying numbers these horses have been rounded up and impounded. A few of those thus captured are found to be branded and are claimed by local owners but most of them are wild horses, claimed by nobody and not wanted by anyone. On Saturday eleven were impounded and on Monday twenty-six more. Others are still at large about the orchards. So many have come in that the pound keeper is at a loss to know what to do with them and believing that if offered for sale not enough would be realized to cover the expense of feeding, advertising and selling, he asked the Municipal Council on Tuesday what he would do in the matter. Mr. Dale was instructed by the Council to advertise the animals in the usual way and in the event of their being sold and falling to bring enough to cover costs the Municipality would be responsible for the difference.

Packing House at Grand Forks Burns

The Carson fruit packing house of the Grand Forks Co-Operative Growers' Association was burned to the ground a few days ago. Seven carloads of apples were in the building, two carloads already packed ready to be loaded. The warehouse was being used by the Occidental Fruit Company of Kelowna, who are handling a large portion of the valley fruit. The building and contents were partly covered by insurance.

Rialto Theatre Being Enlarged

A large addition is being made to the Rialto Theatre which will be ready for occupancy in a few days. At the same time the entrance has been remodelled, completely changing the appearance of the front and the building will now be unmistakably recognized as a movie theatre. The change will also add greatly to the comfort of patrons, especially those sitting in the rear seats.

Immediately the extension at the rear is finished the stage and screen will be moved back and additional seats put in, nearly doubling the present seating capacity. The management is arranging for a big special for the reopening night, the date of which is fixed as Saturday, November 15th, when special music will also be provided.

Would Hold Trade For This Province

Summerland Board of Trade Supports Penticton In This Move

The opening up for settlement in a large way of the Fairview-Osoyoos district by the Provincial Government will result in creating immediately a large volume of business in the various materials that will enter into the several lines of construction as well as in groceries, provisions, clothing, etc., which will be required by the workers and settlers in that district and, until towns are established there, these will be bought elsewhere. Being closer to Oroville, Wash., than any other source of supply that town is counting on quite a boom as a result of development work to be carried on just north of the boundary. Already it will be noted that the abominable condition of the road between Oroville and the boundary is being remedied.

Penticton being the nearest town on this side of the line from which supplies may be obtained or through which they may be shipped is also looking for increased business from this source. The Penticton Board of Trade has been advocating the completion of a road along the east side of Dog Lake. The use of this road by motor trucks would not only shorten the distance, but by eliminating the heavy grade on the west side of the lake would permit the carrying of larger loads, particularly if a road following the water grade between Okanagan Falls and Vesseaux Lake, which is also being advocated, was built. The endorsement of a resolution by the Penticton Board of Trade asking for the building of these sections and the improving of the road through to the new district is being asked of the Summerland and Vancouver Boards of Trade. At a meeting of the Summerland Board of Trade Tuesday night a resolution was proposed by Dr. Andrew and seconded by R. E. White to the effect that the Summerland Board of Trade strongly endorse the Penticton resolution to have a water level road capable of carrying motor truck traffic from Penticton to the Boundary to facilitate development of the South Okanagan country and eliminate the possibility of trade during such development being diverted to Washington. This resolution was carried unanimously.

HANINGTON—RIVINGTON.

On November 1st at St. Mary's Catholic Cathedral in San Francisco, the wedding took place of Mr. Frank F. Hanington, only son of Major C. F. Hanington, of Ottawa and Mrs. Mary Evelean Rivington, daughter of the late John W. Willans of London, England. Both are well known in Vancouver. The ceremony was performed by Rev. Father C. Byrne.

Will Augment Present Domestic Water Supply

Springs Below Reservoir Have Considerable Flow. Engineer Reports Progress on Concrete Work

Reeve Simpson was unavoidably absent from the Municipal Council meeting on Tuesday and because of this several important matters were carried over to next week's agenda and the Council adjourned shortly before 6 o'clock. Acting Reeve Campbell occupied the chair.

Engineer Fawkes in his report on the progress of the work on the North main, stated that 3,500 feet of the ditch had been completed with 1,100 feet yet to be done. On No. 2 ditch 1,000 feet of the 2,800 feet of concrete lining to be put in had been finished. Weather had been somewhat of a handicap but excavating and similar work had been carried on whenever possible. No damage had been done to the concrete by the frost. In a week or ten days the concrete work should be completed. He hoped to have the steel fluming before then so that the work could be carried on without interruption. The Engineer is now making a model of a measuring device which it is proposed to put in at a number of diverting points along the system so that the water may be proportionately divided and an even flow maintained.

Estimates covering the cost of building a concrete conduit through the James property and of diverting the siphon so as to eliminate the above and of properly fencing the cut through the James lot, were submitted.

The first would cost \$2,668; the second \$940; the fence \$131. Upon motion of Councillors Kirk and Dodwell the Engineer was instructed to fence the ditch through the James lot according to the report.

A preliminary report covering the diverting of water appearing below the reservoir in the form of springs was also submitted by Engineer Fawkes. A measuring weir had shown a flow of 1.08 cubic feet per second. When the reservoir was low this had dropped to .75 cubic feet per second. More water could be gathered by going further down the creek but for sanitary reasons this was not advisable, but at the point selected pure spring water is available. This volume was considered sufficient to warrant the expense of building a small dam and connecting with one of the domestic water mains. If, as believed, a report to be submitted next week will show that this work can be done at a reasonable cost it will be proceeded with immediately.

Speaking for Mr. G. R. Hookham and Capt. Temple, who were present, Mr. W. C. Kelley asked for an extension to the domestic water main a distance of less than three hundred feet to the Hookham pro-

perty, south-east of the Koop orchard. If domestic water is laid on Capt. Temple proposes buying the property and erecting a house thereon. The extension was granted.

Mr. Fiske, who is buying the Mc Taggart lot south-east of Monro's in Peach Valley, was also promised domestic water as was Mr. Clements, for the lot immediately to the east of Mr. Fiske's lot, both subject to the approval of Engineer Fawkes. Both men propose building and Mr. Fiske stated that if the pipe line was extended one hundred and twenty feet to his lot that he and Mr. Clements would carry the water through to the Clements lot.

Mr. Fiske's request for repairs to road in his vicinity was referred to the Superintendent.

Mr. Denike came before the Council with reference to his practice of turning to the right with his team when meeting motor vehicles. He again told of his reason for doing this but the Council explained to him that the road law was a provincial enactment and pointed out the responsibility in violating the same.

Mr. Victor Barnard, who is building in Peach Valley near the station, was granted domestic water connection as was also Mr. H. A. Walton for his lot in Prairie Valley.

The Summerland Supply Company was granted electric light connection for the sheds in the rear of their premises.

The Clerk reported receiving a list of names from the G.W.V.A. for the Summerland Honor Roll. This was referred to the committee to be revised.

A letter from a Vancouver firm stated that Mr. B. F. Dempsey had returned from the front and enlisted with the R.N.W.M.P. They asked for a statement covering the taxes against his Paradise Flat property. The Clerk was instructed to forward same.

Complain Trains Obstruct Highway

Complaints are being made at the Municipal Office of the obstruction of an unduly long time of the highway crossing the K.V.R. track at the station. This road, which is much used by the Paradise Flat people especially at this time of the year, is the only outlet for that district, and when trains lay across the road for from twenty to forty five minutes as has been reported, great inconvenience and annoyance is occasioned. One man told of being held at the crossing on one occasion for twenty minutes, and on another twenty-six minutes while freight was being loaded or unloaded. Another citizen complains of having been held up with a truck for forty-five minutes.

We are informed that the legal limit put on the obstruction of highways by trains is five minutes. If a train is to be held for a longer time than that it must be broken to leave the road open to traffic.

Canada's Second Best

Summerhill Topay, a pure bred Holstein cow owned by the Balcom Ranch here, took second place for the months of July and August in an official record of performance test covering all of Canada. There were twenty-eight cows and heifers to qualify in this test. Summerhill Topay in those two months produced 17,817 pounds of milk. Only one of the twenty-eight exceeded her production. The record of this was 21,073 pounds. The cow next below the local Holstein gave fifteen thousand odd pounds. It is very apparent from the official records and the winnings at exhibitions that Summerland has some of the best strain of Holstein cattle on this continent.

A Weekly Chronicle Furnished By Our Local Representative.

Miss Bradbury spent Wednesday of last week at home here with her people.

On Wednesday afternoon of last week the regular meeting of the W.C.T.U. was held in the Baptist Church. It was decided to postpone the starting of a Band of Hope till spring. It had been intended and partly arranged to start this month.

Miss Hockyard arrived on Friday night from England to get and take back with her little niece Emma Hockyard, who for several years has been in the charge of Mr. and Mrs. Pinneke. Emma's father paid the supreme sacrifice while in the service last midsummer. His sister and mother are going to take care of his daughter now.

Mrs. Art. Johnson returned from Kelowna on Friday accompanied by her little baby girl. Mother and baby are both well. Mr. and Mrs. Johnson have been residing at the saw mill where Mr. Johnson has been employed with his team.

Having spent several weeks in Kelowna packing fruit, Miss Elsie White returned home on Friday evening.

Mr. McIntosh, a friend of Mr. H. Williams from the prairie, was a visitor to town last week end, and it is possible that he may return before long to look into matters a little more fully, take up residence for a few months, and if satisfied may remain permanently. Mr. McIntosh has been in business on the prairie for years, but having sold out contemplates a change.

The Rev. C. D. Clark, leader of the C. S. E. T. movement here for boys called the boys together for their regular meeting on Friday night in the reading room. After the meeting the leader led the boys down to the Masonic room where he had preparations under way for a pleasant evening for them. A few Hallowe'en games were indulged in, after which the 28 boys sat down to quite an array of good things to eat, to which they one and all did honor. Mr. Clark had previously invited in to help him Miss Whitman, Miss Gummow and Mr. H. E. McCall. During the evening the assembly was surprised by a visit from Mr. Peter Frisk and his two companions, dressed in costume. They came in and shook hands with a number of those present, only staying for a few minutes when they took their departure. They soon returned and this time just in time for the eats. On being asked to join in they accepted the invitation, but before they could take part in the actual exercise they were obliged to unmask and who did it turn out to be but three of the young ladies of the town, Miss Bettie Buchanan and the Misses Flossie and Dorothy Clement. After the eats were done away with singing was enjoyed with Miss Betty at the organ. None were backward in saying that they had enjoyed a good time throughout the evening. Mr. Clark is to be congratulated on the number of boys he has enrolled in this important movement.

Mr. E. Pratt is in town again representing the Okanagan Telephone Company, doing some further repairs on the line, and cleaning up some litter left from the right of way clearing of this fall.

On Saturday last Mrs. C. Aitkens was taken over to the Kelowna hospital suffering from sciatica and a general break down. She was accompanied by Mr. Aitkens and Mrs. Bennett. We are glad to report that Mrs. Aitkens is improving nicely.

Mr. and Mrs. Howson of Penticton spent last Tuesday night in town, guests at the Edgewater Inn, having had car trouble between here and Westbank on their return from an auto trip up the valley. They had the car towed in to Mr. Thos. McLaughlin's garage and repaired so they were able to resume their journey home on Wednesday morning.

The Rev. J. A. Rowland bade goodbye to his friends in town last week and left to go to the Coast where he has accepted a call.

As seems to be the custom nowadays Mr. N. S. Davidson has traded off his Ford for a bigger car. He is now sporting a Dodge. Mr. A. D. Ferguson has since bought the Davidson Ford.

On Sunday last Rev. A. Grieco filled the pulpit in the Baptist Church, and Rev. H. A. Solly of

Summerland led the services in the Anglican Church.

Mrs. A. J. Miller's father, Mr. Mc Donald, returned from Summerland on Wednesday morning feeling better.

Preparations are well under way for the Victory Loan drive and the canvassers will soon be out. Anticipations are that there will be no difficulty in reaching our quota of \$12,000.

When you meet a man who is thoroughly content you see one whose ambition has gone to bed.

WATER NOTICE.

(Use and Storage.)

TAKE NOTICE that Naramata Water Users Committee whose address is Naramata, B.C. will apply for a licence to take and use 1,500 acre feet and to store 1,000 acre feet of water out of Chute Creek (East Fork), also known as Lequime Creek, which flows west and south and drains into the east side of Okanagan Lake about 12 miles from the outlet of said lake.

The storage dam will be located at a point 1 1/2 miles due west of 12 M. Post, Lot 2711. The capacity of the reservoir to be created is about 800 acre feet, and it will flood about 80 acres of land. The water will be diverted from the stream at a point about 3 miles west of 12 M. P., Lot 2711, and will be used for irrigation and domestic purposes upon the lands described as D. Lots 206, 207, 209, 210, 266, 3315, 3314, 156, 211, Plan No. 576, 575 and 706.

This notice was posted on the ground on the 18th day of October, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of

Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

NARAMATA WATER USERS COMMITTEE, Applicant.

By A. Harry Hook, Agent.

The date of the first publication of this notice is October 24th, 1919.

**Synopsis of
 Land Act Amendments**

Minimum price of first-class land reduced to \$5 an acre; second-class to \$3.50 an acre.

Pre-emption now confined to surveyed land only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$200 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without the usual improvements, provided statutory occupation, residence and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 30 acres, may be homesteaded; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial site on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditionally upon construction of a road to them. Rebate of one-half cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.
 The scope of this Act is enlarged to include persons joining and serving with the Armed Forces, the time within which the heirs or widow of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retrospective.

No fees relating to pre-emptions are due or payable by soldiers or sailors. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependants, acquired direct or indirect, remitted from settlement to March 31, 1919.

SUB-PURCHASERS OF CROWN LANDS.
 Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1919.

GRAZING.
 Grazing Act, 1915, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

**SPECIAL
 Orchard Snap**

I have a very choice Orchard Property listed with me for a quick sale. It has a good dwelling, greenhouse, orchard bearing Ten acres. Within two minutes of West Summerland Post Office. Also a number of smaller properties in all parts of the district.

A Victory Loan Message

NO soldier who fought in France and Flanders with the Canadian Corps was doing his full duty unless he was at all times prepared to go the limit; to pay with his life, if there was need of it, for the victory of the principles he was fighting for. No one who stayed at home does his today unless he is prepared to give up his last dollar if it is required to discharge Canada's debt to the men who, by fighting for her, were disabled for life; to the widows and orphans of her glorious dead; and to the returned men who need work provided that they may re-establish themselves and their homes. Canada's honor to her own sons is at stake with the success or failure of the Victory Loan.

Canada must not fail!
VICTOR W. ODLUM,
 Brig-General,
 Vice-Chairman Provincial Committee.

LOANS FOR IRRIGATION SYSTEMS

Interim Report Issued By Lands Dept.

Victoria, Nov. 5.—While it may not be construed as anything more than an interim report and not intended as a document for presentation to the Legislature, a brief statistical summary dealing with the administration of the various branches of the Provincial Department of Lands affords information of general interest. In authorizing an abridged reference for publication the Hon. T. D. Pattullo emphasizes the fact that by reason of the somewhat ambitious nature of the policies adopted by his Department time has been required to elapse in order to provide their tangible justification.

COMPANY FAILURES

It is pointed out that not a little difficulty presented itself before an effective method of handling the peculiar conditions of the dry belt, could be evolved with promise of success. Boom day land companies which had become possessors of large areas of irrigable lands had failed in their obligations. The sale of land at high prices "with water delivered" had netted them fine profits, while the fruit grower reaped his own crop of water difficulties by reason of failure on the part of the water companies to carry out their part of the bargain. The only solution, therefore, deemed capable of relieving increasingly serious conditions was direct assistance to the producer.

THE CONSERVATION FUND.

One result of that decision was an amendment to the Water Act providing a Conservation Fund of \$2,000,000 to be drawn upon at the rate of \$500,000 per annum if circumstances demanded that amount of annual assistance. By extending statutory authority for the formation of water users' communities to take over and operate irrigation works under a policy of Government assistance it became obvious that nothing short of such a course would meet the case. Hence in the report referred to it is shown that assistance has been rendered in the case of Peachland

to the extent of \$12,000; Naramata, \$35,000; Scotty Creek, \$18,000, and Rutland, \$3,000. In these districts the community has organized itself and existing works are being repaired and renewed under expert supervision.

PROVINCE GETS MONEY BACK.

Of the larger concerns, for instance, it is pointed out that

\$44,000 has been loaned to the White Valley Irrigation and Power Company because its service is essential to the water users of the community while the company itself was not in a position to finance the necessary repairs incident to that service. Similarly in the case of the Kelowna Irrigation Company, \$20,000 has been loaned from the Conservation Fund under like conditions, while as security for the Province's investment in both cases the Government holds it as a first charge against the whole property of the company as well as the revenue of the undertaking itself. It will thus be seen that although the outlays involved are not inconsiderable the capital is amply secured and revenue producing from the commencement.

APPLICATIONS COMING IN.

And as tribute to the success of the scheme it is observed that there are twenty applications for assistance now being dealt with according to their merit and relative importance. From this section of the report, therefore, it will be seen that the Department is following out a policy tantamount to Government ownership and Government control rolled into one. Involved legal positions, however, necessarily impose limitations and until a number of cases are shaken down to a more practical level Government acquisition on a wholesale scale would be bad business for the Province and of no effective benefit to the individual water user. It is noted, by the way, that thorough investigations are being carried

(Continued on page 7.)

HORSES FOR SALE

TEAM AND HARNESS.—Well mated, weighing 2,600 lbs., seven and eight years old, geldings, thoroughly broken double or single, smart on their feet and good roaders. These horses have been used in the orchard all summer. You know the value of horses for such work that you can trust standing alone while you attend to odd jobs connected with the work on hand. Unless you are wanting just such horses don't waste yours or my time answering this advt. Apply to

Former Bnyers Are First To Invest In 1919 Victory Loan

(Special to the Review)

Vancouver, November 6th.—E.R. Woods, chairman of the Dominion executive of the Victory Loan made the following comments on the success of the campaign to date:

The campaign is now half finished. The success to date has been due in a large measure to the fact that investors who have so far purchased funds have bought more than they did in previous years. The fact that experienced investors, large and small, have subscribed early and have taken more bonds than ever before indicates that they recognize the attractiveness of the Victory Loan as an investment, as well as appreciating the patriotic necessity of cleaning up of war obligations and maintaining Canada's prosperity.

The total subscriptions reported so far aggregate two hundred and eight million dollars. It must be remembered, however, that this amount includes a very large proportion of the big subscriptions available and in order to make a success of the loan it will be necessary, as in previous years, that the medium and small subscriptions come forward in great numbers.

The rate of interest carried by the bonds, namely 5 1/2 per cent., is the same as on the loans issued in the dark days of the war, also which loans are selling at substantial premiums. As a matter of fact this new loan is particularly attractive from the standpoint of the small investor and the gratifying feature of the campaign has been the readiness with which the employees of industries have taken the loan where they had experience of buying previous loans.

This is Canada's final financial war effort and it is not only good business but good patriotism for every Canadian to become the owner of a Victory Bond.

Let every man and woman in Canada buy bonds to the limit of their ability and prospective savings of the next ten months.

May Drop Portfolio For Senatorship.

HON. MARTIN BURRELL.
Secretary of State and Member for this part of B.C., who it is said may resign his seat in the Commons to accept the vacant British Columbia seat in the Upper Chamber.

St. Andrew's Church Officials Entertain The Congregation

A most enjoyable social was held in St. Andrew's Church hall on Tuesday evening when the elders and managers were at home to the worshippers in St. Andrew's Church. A short program was rendered by Mr. Fraser Sheriff, Miss Sinclair, Mr. Ben Newton and Mr. Fraser Lister. Short addresses were given by the Pastor and Messrs. Lee McLaughlin, G. A. Marshall and J. L. Logie.

During the evening Mr. J. L. Hillborn was presented, on behalf of the members of the Methodist Association, with a beautifully bound

How to Finance Victory Bonds

FARMERS:

In the case of farmers, and others who do not receive returns until the end of season, bank managers are empowered to make loans against the 1919 Victory Bond issue for the period of one year, without requiring periodical reductions to be made in the interim.

F. W. ROUNSEFELL,
Treasurer Provincial Committee

BUSINESS MEN:

All business men may finance their Victory Loan purchases through their local bank, up to at least 90 per cent. of their purchases, without impairing their ordinary credits with the bank.

EMPLOYEES:

All bond purchases of employees may be financed by the employer through his local bank, up to 90 per cent. of the amount of the purchase. Weekly or monthly payments on account of purchase may be arranged through the employer.

INDIVIDUALS:

Anyone may purchase 1919 Victory Bonds on ten monthly instalments, by paying 10 per cent., and filling out an instalment card. These cards are handed to the bank specified by the purchaser, and the payments during the ten-month period paid in to the bank.

POWER OF LOCAL BANK EXTENDED:

By arrangement between the Finance Minister and the Canadian Bankers' Association, it is announced that where branch managers have a loaning limit for their branches, such limits are to be disregarded insofar as they may be affected by advances to finance 1919 Victory Loan subscriptions.

EVERYONE CAN AFFORD A BOND!

Must Make Further Effort To Win The Prince's Flag

Subscriptions to the Victory Loan in Summerland have reached about twenty thousand dollars, less than half the sum expected from this district, and there is a possibility that the sum asked for will not be subscribed. The Municipality will not have any funds this time to invest in Victory Bonds as all the money now to the credit of the sinking fund will be needed to meet maturing obligations.

Chairman Solly of the local committee states that it is much harder to interest people in the Victory Loan than it was a year ago. Many, however, are realizing the excellent opportunity the loan affords for safe and readily convertible investment at a good rate of interest. It is doubtful if there will ever again be such a splendid opportunity for those who have any ready cash to invest it to such good advantage. With but a week in which to wind up the campaign there is much work yet to be done if Summerland is to do justice to herself and win the Prince's Flag.

One in five of the population in British Columbia is an Oriental.

If you want to be gloomy there's gloom enough to keep you glum. If you want to be glad there's glee enough to keep you glad.

Pound Notice

The following animals have been impounded and unless previously claimed will be sold at the West Summerland pound on Saturday, November 15th at two o'clock in accordance with the by-law governing stray animals:

No. 1.—One black mare, with white strip in face, with bay colt at foot.

No. 2.—One strawberry roan mare, with roan colt at foot.

No. 3.—One yearling cayuse mare, white strip in face, white stocking on left hind leg.

No. 4.—One yearling steel grey horse colt, with white strip on face.

No. 5.—One brindla heifer, about two years old, tip of right ear cut off.

JOHN DALE,
Poundkeeper.

Passing Events: Social, Personal, &c.

A. R. Gayton has gone down to Fairview on constructional work there.

Mr. Arthur Davidson has bought, through Mr. F. D. Cooper, the Prof. W. H. A. Moore house and lot of five acres.

Mr. Ernest Lock came up from New Westminster on Saturday and returned with Mrs. Lock and child on Sunday.

The synod of the Diocese of Kootenay will meet on Wednesday and Thursday next, November 12 and 13 in Penticton.

Harry Cascaden returned Wednesday night from the Peace River district, where he had been with his family during the summer.

Locally, Armistice night has been taken possession of by the G.W.V.A. Announcement is made elsewhere in this issue of a social evening to be given by the veterans in Empire hall.

Roy Darkis arrived home last Friday from the Drum-Lummer mines, where he has recently been working as an engineer. He expects to remain in Summerland.

Having purchased the Hilborn lot Mr. A. McLachlan is moving with his family to his new property. The McLachlan cottage, we are informed, will be occupied by Mr. E. Hutchinson and family.

Pronounced one of the most successful events of its kind the masquerade ball, given in Empire Hall last Friday night, was largely attended. The music was excellent, the program well conducted and everybody had a good time.

Mr. G. R. S. Blackaby arrived here a few days ago to take charge of the down town office of the Bank of Montreal. He will have with him, after today, Mr. Hicks, who is being transferred from Vernon. Mr. Tocque, who has been in the office since it was opened, has been transferred to Kelowna.

The classes in the Summerland High School were dismissed Monday morning for the day. Fuel on order had not been delivered and the supply on hand had been exhausted. In order to assure a supply of fuel next day Chairman Gartrell of the School Board had a load of wood taken from Trout Creek Point.

Mr. Lewis J. Block and Mrs. Block have returned to the Okanagan from Victoria where Mr. Block has been doing expert work in the artillery branch of defence service. Their Summerland friends will be interested in learning that they have decided to make Summerland their home. Mr. Block will be in the office of the Summerland Garage.

At a general meeting of the United Farmers in the school house at Trout Creek Point, Mrs. David Gray was presented with a silver mounted service tray by Mr. Gilbert Thorner on behalf of the members. It had been expected that Mr. Gray would also be present but he had left for Victoria that morning. There is general regret that Mr. and Mrs. Gray are removing from the district.

Miss Irene Carefoot, a Summerland High School girl, who is attending the Spokane's Expert School of Business, is one of the brightest students in the school. She ranks high among all the girls of the school. Last week the Otis Intelligence Test was given to every student in the school. Miss Carefoot's score was 156, which is several points above the standard set by the Government in similar tests given to soldiers and for people whom they class as very superior in intelligence.

Hallowe'en was one of the quietest nights of the season in Summerland. As was to be expected there was a ready response to the appeal of the Reeve and Council to the young men of the district to refrain from any misdeeds which might result in damage to property. The streets were practically deserted and nowhere have we learned of any misdeeds of any kind. We have a fine lot of young men in our community and though, perhaps, thoughtless at times, the readiness with which they responded to the request of the Council was something of which Summerland may be proud.

Phone your order for rubbers and I will deliver by mail at my expense. A. J. Beer. 13-20

Diphtheria is said to be prevalent at the Coast. A case was reported at Penticton on Thursday.

Mrs. F. W. Andrew will be at home next Thursday afternoon, November 13th, from four to six.

Mrs. W. J. Robinson left this Friday morning for Winnipeg. She will be away for a month.

Mrs. F. R. Gartrell returned on Wednesday from Vancouver, having been in the hospital there for an operation.

Mr. E. W. Keenleyside of Vancouver, owner of an orchard near Mr. Thos. Dale's is a visitor to Summerland this week.

Capt. H. H. Crease has been given the appointment of inspector for the Okanagan district with the Soldier Settlement Board. He will still reside in Summerland.

Our readers generally will regret to learn that Reeve Simpson has been confined to the house all week with an attack of bronchitis. He hopes to be out again in a few days.

The auction of College furnishings has been changed from the Gymnasium to the College buildings. It will commence at the Ladies' College and be continued at the Boys' building. Tea and cake on sale 4 to 6. 15

On the occasion of the fifth anniversary of their wedding Mr. and Mrs. Muir Steuart were surprised with a wooden wedding by a number of their friends on Monday evening. The evening was pleasantly spent at games, music, etc.

Summerland Municipal bonds are proving a popular form of investment for private citizens. On Tuesday two more applications were received, each for \$1,000. The Treasurer was authorized to sell to both applicants at a price to net the buyers seven per cent.

Miss Blott, who served as a nurse with the Canadian forces and was for some time at Salonika, returned to Summerland last Monday. Since receiving her discharge she has been visiting with relatives in the east. She expects to remain here for a time with her sister, Mrs. F. W. Andrew.

Mr. and Mrs. H. Reynolds have moved from Peach Orchard to their ranch in Garnett Valley. Their stay there will be a temporary one, however, as they contemplate moving to White Lake very soon. Mr. G. R. Hookham and Mr. Reynolds have recently acquired a large ranch at White Lake and Mr. Reynolds goes to manage it.

Of interest to quite a number of Summerland people is the marriage of Mr. Elmer Greeley to Miss Elsie Lett, at Vernon on Wednesday, October 29th, at which Rev. T. Keyworth officiated. Mr. Greeley came to the Valley from Shaunavon, Sask. The bride whose home was Pembroke, Ont., has been living in Summerland for some months. The bride and groom came here to spend their honeymoon and have decided to remain for some weeks at least.

Rev. W. H. Bates and family have moved to the John Dale house on the Prairie Valley meadows from the Prof. Moore place, the latter having been bought by Mr. A. Davidson, who with his family is moving in. Mr. T. H. Riley and family are moving into the Davidson cottage now owned by Arthur Pentland. Miss Annie Dale, who owns the cottage which has been occupied by Mr. Riley intends to occupy it with her brother, Mr. John Dale.

Mr. C. M. Woodworth of Vancouver was a visitor to Summerland this week. Mr. Woodworth, who has been the holder of considerable property here, has disposed of three of his five properties and intends to sell the others. The fourteen acres with the house in which Mr. J. C. Wilson has been living has been sold to Mr. Wilson. The ten acre lot at the head of the Guleh road has been bought by Clarence Elsey. A five acre lot near Mr. Blair's will be taken by James Kenn providing the deal is approved by the Soldier Settlement Board.

There are many Summerland friends who will be delighted to hear of the safe arrival of a daughter to the home of Mr. and Mrs. H. B. Young, now of Cashmere, Wash. Mr. Young was at one time station agent here for the K.V.R. and later opened and operated the Rialto Theatre. He is again at railroad work with the Great Northern.

Mr. Matt. Wilson has gone down to Vancouver for examination and operation if necessary. It will be recalled that Mr. Wilson was seriously injured in an automobile accident on the Kaleden hills and was removed to the hospital at Penticton. He has been at his Paradise Ranch for some time. As the broken bones have not set to his satisfaction Mr. Wilson decided to go to the Vancouver Hospital to consult the surgeon who successfully fixed up his arm and shoulder which were smashed in an earlier accident.

Both the bylaw authorizing the Council to borrow on the credit of the Municipality the sum of five thousand dollars for road equipment and the bylaw for the borrowing of four thousand, eight hundred dollars for the purchase of a school site were approved by the ratepayers yesterday. The vote was a slim one, fifty two ballots being cast on the road equipment bylaw and two less for the school bylaw. In both instances ten of these voted against, which means that one in five of those who voted opposed the loans.

Vernon News.—Mrs. C. L. Lowe and children left on Monday for California. The News hears with much regret that Mr. Lowe, who for several years has been the highly successful sales manager for the Okanagan United Growers, is likely to sever his connection with this organization and move to California this winter. We sincerely hope, in the interest of the fruit shipping business of the Okanagan, that arrangements may yet be made to retain Mr. Lowe's services, as in our opinion he has been one of the biggest assets that the industry has possessed in this district.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. First insertion. Each repeat one cent a word. Minimum 10 cents.

The Rev. Mr. Cooke of Ontario who served as chaplain overseas will preach in the Baptist Church, West Summerland, Sunday morning at 10.30 and in the evening at 7.30.

Harvest Thanksgiving service will be held in St. Andrew's Presbyterian Church at 10.30. Anthem, "Seek Ye The Lord." Mr. Ben Newton, soloist. Young People's Society 7.30, Mrs. Mitchell leader. All welcome.

The regular meeting of the Summerland Women's Institute will be held Friday the 14th in the Parish Hall. The report of the Convention will be heard and members are all requested to contribute to the Women's exchange.

CARD OF THANKS.

Having sold my blacksmithing business I wish on this occasion to thank the people of Summerland, many of whom I consider my personal friends, for their patronage during the years I have been in business here. Signed SCOTT DARKIS.

New Trustee

Being the only nominee for the vacancy on the School Board, Mr. F. A. C. Wright was on Monday elected to that position by acclamation. The appointment of Mr. Wright gives his section of the district a representative on the Board, so that all sections of the district are now represented. Miss Dale, whose position on the Board Mr. Wright now holds was the only woman trustee on the Board this year. Her resignation and the appointment of Mr. Wright means that we have for the first time in several years a school board of all male members.

Summerland Basket Ball Club

At a meeting of the above club held in the Summerland Fruit Union on Wednesday, November 5th, the following officers were elected for the coming season: Hon. President, Dr. F. W. Andrew; President, E. R. Butler; Vice President, K. S. Hogg; Secretary Treasurer, C. H. Sismay; Manager, George Craig; Coach, Fred Baker.

It was proposed that a dance be arranged in the near future for the purpose of raising funds for the necessary expenses of the club. A special meeting will be held in the Summerland Fruit Union at 8 p.m. on Monday, November 10th, for the purpose of arranging practices and to decide which hall will be used. All members and those interested in the club are requested to attend this meeting.

Bargain For Quick Sale

TEN ACRES ORCHARD, mostly planted, good soil, deep subsoil. Extensive lake view. Attractive artistic bungalow. Price \$3,000. F. D. COOPER, Real Estate Broker, Peach Orchard.

THE RIALTO On SATURDAY, Nov. 8th, MAE MURRAY in a universal Special Attraction, "The Little White Devil" On THURSDAY, Nov. 13th, EDITH ROBERTS in the cleanest, fastest Comedy-Drama in years, "A TASTE OF LIFE," "Smiling Billy" Mason of Comedy fame, in the leading masculine role. A certain "Peachy young friend newlywed" in her desire to curtail expenses to help husband, discovers her new hubby in a strange room with a strange lady, and under very strange circumstances. With this complex situation as a flying start you'll see a "mile a minute" drama that will make you chuckle in glee. YOU'LL ENJOY IT IMMENSELY. How this awful tangle that gets worse as the picture proceeds is untangled, forms the basis of one of the most hugely enjoyable photo plays of the season, and EDITH ROBERTS will give you a real "Taste of life." DON'T MISS IT! SATURDAY, Nov. 15 — Grand Re-opening Night: The Prince of Wales in Summerland. Watch for announcements of Big Special. Pianist, A. S. PECK.

THE NEW Overland Will be ready for delivery within a few days. This is the Wonder Car that everybody is talking about—the New Light Car that is as easy riding as any car more than double its price. Watch for announcement of arrival of our first shipment, with definite delivered price. DON'T ORDER YOUR CAR until you have seen and ridden in the New Light Overland W.R. KING & Co. — AGENTS — PENTICTON, B.C.

**Gathering Place
For Celebrities**

An important press meeting, at least it is so considered by the "celebrities," was held a few days ago at Kelowna. Here is how The Kelowna Courier reports the affair: "It seems to be a custom these days for the world's celebrities to pay a visit to Kelowna. Only a few weeks ago we were honored by a visit from the Prince of Wales, then came the Governor General of Canada, and now, last Friday and Saturday, the city was honored by the newspapermen of the Okanagan Valley being our guests. The visitors comprised Mr Walker of the Enderby Commoner and Armstrong Advertiser; Mr Ball, manager of the Vernon News; Mr White, of The Summerland Review and Mr McDougall of the Penticton Herald and Princeton Gazette. With them came also Mr Brand, manager of the Vancouver Printers' Board of Trade, and Mr Jewell, a man of large experience in printing and newspaper work in Canada, especially in British Columbia. All these gentlemen, together with the managing editors of the two Kelowna papers, secreted themselves for the best part of two days in a room reserved for the occasion. What plots were planned on the unsuspecting public may never be known, but it is quite certain that when such a body of men meet together something is going to happen. One of the most important decisions reached was a campaign to hold in the Valley much of the printing that is now being sent away, both east and west. This will be done by holding prices as low as possible and by sending a first class salesman round to interview those firms who are purchasing printing out of the Okanagan. Mr Jewell was selected as this salesman, and early in the new year he will make his introduction to the business men of the whole Valley, as he is to divide his time amongst the various printing establishments. Printing equipment in the Valley is as up-to-date as any in Canada outside of the largest cities, prices are as low as present day costs will permit, and with the stimulating effects of Mr Jewell as salesman it is confidently believed that both the printers and their customers will find increased business and satisfaction."

October School Results

DIVISION I.—S. A. McDonald.
Entrance: Muriel Davidson, Amy Smith, Clifford Laycox, Florence Campbell and Willie Kean equal.
DIVISION II.—D. Davidson.
Junior 4th: Willie Ritchie, Alvin Wilson, Dorothy Garnett, Ella Bowering.
Senior 3rd: Bessie Tomlin, Willie Thornber, Jessie Rutherford, James Smith.
DIVISION III.—Miss K. Butters.
Senior 3rd: Myrtle Dunham, Annie Johnston and Edith James equal, Nicolas Solly, Kathleen Monro.
Junior 3rd: George Dentke, Thomas Harris, David Aitken, Clara Callaway.
DIVISION IV.—Miss J. E. Nicholson.
Junior 3rd: Alannah Sutherland, Doris Jackson, Mary Gartrell.
Senior 3rd: James Reid, Loretta Inglis, Mary Munn.
Junior 2nd: Jim Purvie, Norah Clements, Edward Smith.
DIVISION V.—Miss F. M. Banks.
Junior 2nd: Willie Reid, Eva Hilborn, Wilbert Devitt.
First Reader: Donald Orr, Jessie Tullett, Kittle Beattie.
DIVISION VI.—Miss M. E. Brown.
Second Primer: Stanley Taylor, Eileen Tomlin, Gordon Nixon, Alan MacKenzie.
First Primer: Marino Biagioni, Edward Wernick, Horace Callaway, Wesley Tavender.
Receiving Class: Mifanwy Wright, Isobel Zimmermann, Jack Sculthorpe, Dianna Barnes and Mildred Borton equal.

Naramata News

Current Events of Town and District

Naramata is going to live up to her reputation in subscribing to Victory Loans as she is over the top now on her quota and still going strong. The result will be published in the next issue.

Mrs. Russell Wells and the new son have returned from Pentiction and Russell is smiling once more.

Mrs. Gordon of Victoria has been the guest of Mrs. J. M. Robinson for a few days this week.

Mr. Jack Norris is in town visiting friends and also attending to some important business.

The Women's Institute meeting has been postponed for two weeks.

We are glad to have Mrs. George Aldridge with us once more. She came down from Kelowna the last of the week and now expects to stay.

The ferry took a good crowd from here to the masquerade in Empire Hall, Summerland, on Friday night. The costumes were much above the ordinary masked ball kind and there was keen competition for the prizes. The hall had been most tastefully decorated with flags by a committee of War Veterans and there was a very large attendance. The music seemed to be much appreciated and all united in saying it was the finest affair of its kind ever given in Summerland.

Capt. Bruce Cash was here for a few days last week getting his home ready for occupancy. He expects to be here permanently after November and we will be glad to have him back as well as Mrs. Cash whom we will have an opportunity to know better soon.

Several motor loads of our young people attended a Hallowe'en party at the home of the Rev. Mr. Ewing in Pentiction on Friday evening.

Our losses from the last freeze are apparently very light and the fruit ranchers are confident that they will ship nearly everything.

Mr. Lewis Block who has returned from service visited us on Tuesday. He is going to be associated with Mr. Hatfield in the garage in Summerland. Lew was not looking as fleshy as when he went away owing to sickness but with good care and life in the Valley we know he will soon be himself again.

Mr. J. C. Miller of Calgary who has been here for the past month looking after his fruit lot left for his home on Wednesday night. He expects to come in for a longer period next year.

Some handsome bunches of grapes have been brought down by Dan McKay this week. They are of the Flaming Tokay variety and Mr. McKay always has a fine crop.

Stuart Allen made a fine showing at the Summerland Fair with his show of fruit. He took first prize on his two boxes of Jonathans, second on three boxes of winter apples, third on Hyslop crabs, first on a plate of Wagners and first on a plate of Snows. Mr. and Mrs. J. M. Myers also captured a number of prizes but we have been unable to obtain an accurate list of their winnings.

A most interesting Water Users meeting was held on Saturday night with a good attendance. Mr. Rolt was elected on the committee to fill the place of H. Hook who has left for New Mexico. There was some discussion over the boundaries of the territory to be put under the community water system, but it was finally settled to the satisfaction of the majority of those interested.

DEPT. OF LANDS REPORTS

(Continued from page 3)

ried out in respect of all interests involved.

AEROPLANE SPRUCE

Another interesting phase of the Department's work is that dealing with the effects of the Aeroplane Spruce Cutting Act—a measure passed by the Legislature for the purpose of removing all obstacles to rapid recovery of a commodity urgently required by the Royal Air Force. The figures themselves are eloquent of the success accomplish-

ed. From the time the Order-in-Council passed the Provincial Executive in January of last year—and the legislation passed a couple of months later was merely of a confirmatory nature—until the end of October, just eight months afterwards, 26,124,000 feet of spruce and 9,224,000 feet of fir had been cut and shipped. In other words, this amount represented sufficient timber to build 20,000 aeroplanes.

FOREST REVENUE

Nor is the least interesting part of the Minister's interim summary that section dealing with comparative forest revenue for the last four years ending September 30th of this year. It is shown, for instance, that for the year 1916 the total figure stood at \$1,851,000. This grew in 1917 to \$2,094,000; in 1918 to \$2,172,000 and for the year which closed on September 30th last, the figures reached \$2,735,000. While to the general administration department—whose normal cost of administration, it should be noted, has not increased—some of the more favorable showing is ascribed, the Minister remarks that advantage accrued by amendments to war relief legislation in such cases as those not affecting soldiers.

Moreover, co-operation has been a keynote of the Forest Branch and mention is made of the fact that the Department keeps in the closest touch with the related industries as a whole. Joint committees of representatives of lumber industry and forestry officials have been formed and met regularly to discuss scaling, log export, market extension and so on.

TIMBER ROYALTIES

Illuminating, too, are the figures quoted for revenue from timber royalties. In 1915 the revenue reached the sum of \$440,000; in 1918, \$831,000 was the amount. As an instance of revenue from Crown timber sales, the summer of 1915 represented a cut of 56 million feet with a revenue of \$87,561. This summer the cut increased to 108 million feet; but the revenue leapt to \$271,407. In other words three times the revenue from twice the quantity of timber is the essence of the comparison noted.

WATER NOTICE.

(Use and Storage.)

TAKE NOTICE that Naramata Water Users Committee whose address is Naramata, B.C. will apply for a licence to take and use 200 acre feet, and to store 100 acre feet of water out of Summit Lake, which is approximately one mile north-west of 13 M.P., Lot 2711, which flows south-westerly and drains into Big Meadows and Chute Creek, about 1 1/2 miles west of 12 M.P., Lot 2711.

The storage dam will be located at the south-west side of Summit Lake. The capacity of the reservoir to be created is about 100 acre feet, and it will flood about 20 acres of land. The water will be diverted from the stream at a point on Chute Creek about 3 miles west of 12 M.P., Lot 2711 and will be used for irrigation and domestic purposes upon the lands described as D. Lots 206, 207, 209, 210, 211, 156, 3314, 266, 3315, Plan No. 576, 575 and 706.

This notice was posted on the ground on the 18th day of October, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

NARAMATA WATER USERS COMMITTEE, Applicant,
By A. Harry Hook, Agent.

The date of the first publication of this notice is October 24th, 1919

Home, Sweet Home

A wanderer stood in the darkened street, looking through the window at a happy family within. The scene pictured the longing in his soul for the home he did not have.

The man slipped away unseen, and one day wrote a song—the song of his soul. And this song became immortal; the most beautiful and pathetic heart-song that the world has ever known.

The man was John Howard Payne, and the song is "Home, Sweet Home."

You may RE-CREATE in your own home this immortal song if you own

The NEW EDISON

"The Phonograph with a Soul"

"Home, Sweet Home," "Swanee River," "Kathleen Mavourneen," "Silver Threads Among the Gold" and hundreds of other heart-songs are at your command; waiting to be RE-CREATED for you by the magic of this greatest of all instruments, with all the richness of melody and depth of expression that you have longed for in the phonograph—just like the living artist.

If you love real music, ask for a copy of the beautiful book "Edison and Music," and "What the Critics Say," the booklet that proves Edison's superiority.

Summerland Supply Co. Ltd., - Summerland.

Summerland Must Not Fail

SUMMERLAND is allotted \$55,000 of the Victory Loan 1919

That is the amount we are expected to lend to Canada to "carry on" and "clean up."

We are behind in our allotment.

This should not be.

The importance of reaching our objective is one that every citizen of Summerland should regard as a personal matter. If each will say to himself—"I will do my part—large or small—to put Summerland's allotment over the top"—together we can surely do it.

Every citizen has a responsibility.

The time is short.

Prompt action is necessary.

As a matter of local pride—as a matter of national service—as a matter concerning our own prosperity—let us unite and act, so that when the Victory Loan 1919 closes, Summerland will once more have done her part well.

SUMMERLAND, B.C., FRIDAY, NOV. 14, 1919.

\$2.00, payable in advance.

Will Rely On Supply Of Water From Trout Creek For Domestic Needs.

Engineer Favors Refilling Reservoir Through Canal During Warmer Periods.

Asks Return Of Shore Lots.

Mr. J. M. Robinson Makes Formal Application to the Municipality For Return of Property Sold At Tax Sale Several Years Ago.

After hearing a verbal report from Engineer Fawkes respecting the diverting of water from springs below the reservoir to one of the domestic water mains and a comment from Coun. Dodwell on the condition of the water, the Council on Tuesday decided to abandon the plan for the present. From the site selected for a small dam to the water main is a distance of seven hundred odd feet. To build a dam and make the connection with an eight inch pipe would cost something over \$900. Though too high to admit any chance of contamination from barns, etc., it was stated by both Coun. Dodwell and Engineer Fawkes that the spring water at the site selected carried a large quantity of small black articles in suspension. This combined with the fact that there is no money available for an undertaking of this kind led the Council to conclude that it would be better to drop the plan particularly when assurance was given by Engineer Fawkes that the reservoir could be kept up by rushing water through the Trout Creek canal during mild weather. The Engineer has put an outlet in the side of the canal just below the intake so that any water which may get through the gate will flow back to the creek, thus preventing its flowing down and freezing in the ditch. By thus keeping the canal free and taking advantage of warm days the Engineer anticipated no trouble in maintaining the water supply in the reservoir. His plan was favored by Reeve Simpson and Councillor Kirk and the Engineer was instructed to take the matter in hand and keep the ditch in condition for carrying the matter when needed.

The Engineer reported having repaired and regraded over 9,000 feet of the main flume on the west side of Garnett Valley.

On behalf of the Okanagan Securities Company, of which he is the president and manager, Mr. J. M. Robinson made written application for the return of the shore lots Nos. 8-10 in block 26A between the post office and the Fruit Union building. These lots were sold some years ago for taxes and Mr. Robinson stated that his company had not been in a position to redeem them until now. He stated that in other cases property had been returned to former owners by the payment of all the claims of the municipality. This latter assertion was denied by Coun. Campbell who pointed out that the only cases of this kind were when the offer was advertised and each person interested notified. The lots in question have been the property of the Municipality for some years. Councillor White told of a conversation with Mr. Robinson on the subject and of the arguments advanced by Mr. Robinson in support of his request. Coun. Kirk could not see any point to these arguments. After some further discussion the application was referred to the properties committee.

Application was made by Mr. A. Davidson for electric lights. Mr. Davidson stated that Mr. J. W. Harris also wished the service. These applications again brought up the question of the inadequacy of the present power plant and the Reeve informed Mr. Davidson that it was impossible to make any further extensions at the present time. Reminded by Coun. White that the two houses in question had been expected to take the service along with several others when the extension was made in that direction and had the Council known at the time that the Harris and Moore properties would not be included the extension would probably not have been made, decision was made by the Council for a week until the cost of making the extension is learned.

Mr. F. A. C. Wright also applied (Concluded on Page 8.)

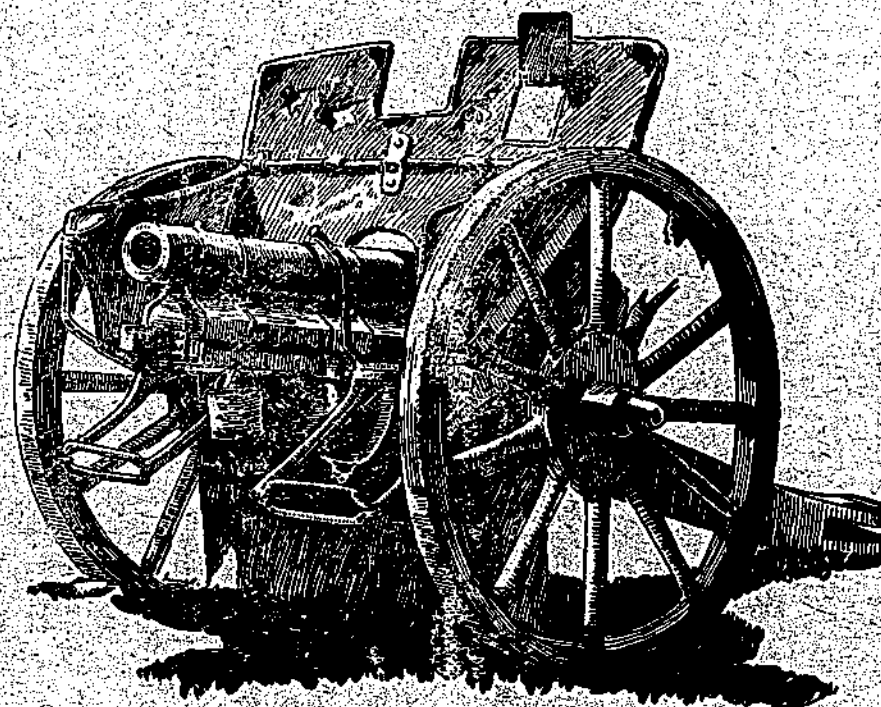

Estimated Loss of Apples in B.C.

The following is the estimate of damage done by the recent freeze at the different points of British Columbia. The loss of apples is hard to give accurately as many of them will be fit for use as a by-product, very few will be fit to ship. The loss is largely valuable winter varieties such as Delicious, Spys, Wagner, Winesap and Newtons, which will have a bearing on prices of these varieties that have been stored ahead of the freeze. We also find that British Columbia shippers are practically sold out of apples, and the same is true of Wanchew and Yakima. Our last prediction of high priced spring apples is emphasized by recent happenings, and we include onions in the estimate of high spring prices. Estimated loss of apples: Okanagan Valley, 250,000 boxes. Grand Forks, 4,000 boxes. Kootenay and Arrow Lakes, 1,500 boxes. Creston, 2,000 boxes.

—Markets Commissioner's Report.

Mr. J. M. Robinson left for Winnipeg Thursday morning. We understand he will try to interest prairie capital in a plan for providing better facilities for taking care of our apple crop.

Will Your District Win This Gun?

Boche Siege Gun—A War Trophy

will be presented by the Canadian War Trophies Commission to the B. C. town or district making the best percentage showing on the Victory Loan. Every town and district has an equal chance.

In Battle Won by Bravery—In Peace to be Won by Bonds

Seed Production Greatly Increased

Co-Operative Seed Organization Formed

At a meeting held in Penticton recently the organization of the seed growers of B.C. known as the United Seed Growers, Ltd., was consummated. The following officers were elected: President, L. E. Taylor, Kelowna; Vice President, W. C. Kelley, Summerland; Secretary, W. T. Hunter, Penticton; Directors, Prof. P. A. Boying, D. W. F. Reid, W. J. Gibbons, F. W. King and H. M. Eddie.

To an executive committee of three, Messrs. Kelley, Gibbons and King were delegated the management of the affairs of the Company.

Prof. Boying gave an estimate of the seed produced in B.C. this year, placing the total at approximately 97,000 pounds, practically all of which will be cleaned, graded and marketed by the new organization.

A great increase in the production of pure seed in B.C. is expected to follow the formation of this co-operative company. The Summerland district with the encouragement and assistance of the Dominion Experimental Station here will be one of the leading pure seed producing sections of the province.

Work or Starve

Dr. J. W. Robertson Heard Here on Present Day Problems.

One of the finest lectures heard here in a long time was that given before a fair sized audience in Campbell's Hall last Friday evening by Dr. J. W. Robertson. Dr. Robertson, who is a brother of Mr. R. Robertson, organizer of the O.U.G., is recognized as one of the leading world authorities on matters pertaining to agriculture. He has long held a prominent position with the Federal Department of Agriculture and was one of the special Canadian advisors at the Peace Conference. Dr. Robertson gave an extremely interesting talk on matters in connection with the Conference and of the present relation of the nations. He made a strong plea for greater production as the only means of warding off a world crisis. Citing the effectiveness of military organization as an example Dr. Robertson made a strong case for organization for peace production.

Maximum production only would help us to meet our national heavy debt. We are in for some bad times in the near future unless we head them off by increased production from soil and factory. There is great danger to the nation in the arrogance, selfishness and irresponsibility of many of our citizens. There is only one ending. Unless we work we will go without work.

Settlers Not Permitted To Land.

Party of Foreign Blood Sent Back To Prairies.

Several families of Hungarian or Austrian blood were travelling up and down the Lake on the 'Sicamous' for several days this week. The party, the elders of which were born in Europe, had come to the Okanagan for the purpose of settling near Kelowna, where it is said they had bought land. The adults all claim to be naturalized Canadians and resident in this country from thirteen to sixteen years. All spoke English. The children, all of whom were born in Canada, spoke English only, according to reliable information. When the party arrived at Kelowna they were met by ex-soldiers and other citizens and forbidden to land. For several days as the boat reached Kelowna from the north or south the crowd was there to prevent their going off the boat. On Wednesday the 'Sicamous' was held at Penticton until the train from Nelson arrived, when some R.N.W.M.P.'s went up the Lake with the party and endeavored to effect an understanding with the Kelowna people. Claiming that these were forerunners of others of Austrian birth the crowd was insistent and finally the heads of the party decided to return to Weyburn, Sask.

Equal Pensions

Imperials In Canada Are Put on the C.E. Force Standard.

Through the efforts of the Imperial Veterans in Canada, aided by other soldier organizations, the scale of pensions now granted to the Imperial men is on the C.E.F. standard. These pensions are paid by the Imperial Government, not by Canada.

The re-establishment problem has now been met by a reciprocal agreement between the Canadian and British Governments which allows for the training of Imperials in Canada at Canadian rates and Canadians in Britain at British rates.

The gratuity question is still in abeyance, but it is stated the Imperials in Canada have been assured that the claim of all Imperials to equality of gratuity is to be recognized by Parliament at Ottawa.

Should the above information come to the notice of any ex-Imperial men who would like to obtain more information we would suggest writing to W. Butterworth, Board of Trade Building, Vancouver, who is the Imperial representative on the S.C.R. and handles all Imperial questions.

Unless we curtail our extravagant habits we will some day face the sobering fact that we must do without necessities.

Will Double Capacity Of Switchboard.

Many More Subscribers To Local Phone Exchange Forces Extensions.

"The line is busy." This answer to a request for telephone connection always occasions disappointment. Sometimes the answer comes so quickly that those who are not acquainted with the work at the telephone exchange may sometimes doubt the correctness of the statement.

The volume of business handled at the local telephone exchange has been growing steadily and rapidly. There are half a hundred more subscribers than a few months ago. This means that each of the former subscribers has that many more telephone users to call or to be called by and the business has now reached a state where for some hours each day the operator and the equipment are worked to capacity. At times there is not a single plug unoccupied and perhaps a dozen or more little lights are indicating that that many subscribers are seeking connection with other subscribers.

At a recent meeting of the directors of the Telephone Company it was decided to make arrangements for doubling the capacity of the switch board and employing another operator for at least the rush hours of each business day. Summerland has a splendid phone system and with the better service which the enlarged switch board and additional operator will give the existing occasion for annoyance caused by momentary delays in getting connections will be removed.

School Board Monthly Session

Mr. F. A. C. Wright, the newly elected trustee, took his position at the regular meeting of the Board of School Trustees last Saturday evening. With the exception of Mr. Garnett all the trustees were in attendance.

Miss Kennedy, newly appointed to the High School staff at a salary of \$1,250 met the Board and asked for additional salary, stating that she found she had to pay higher prices for board and room than she expected. Chairman Gartrell explained that no increase could be granted until after the end of the year.

The janitor of the High School was voted a bonus of ten dollars per month on account of additional work put upon him.

Chairman Gartrell and Trustee Wright were appointed delegates to represent Summerland at a Convention of School Trustees to be held at an early date.

The accounts noted below were approved and the Secretary instructed to pass them over to the Municipal Treasurer for payment:

Teachers' salaries	\$1471.00
Conveyances	310.00
Caretaking	87.00
Secretary's Salary	10.00
Clarke & Stuart Company	47.88
B. C. Assay and Chemical Company	116.25
W. W. Borton	30.50
Manual Arts Press	11.75
G. R. Hookham & Co.	7.80
Summerland Supply Company	98.02
Postage, etc.	5.00
Summerland Drug Company	6.55
Sundries	8.70
Total	\$2211.14

A public reception to the ex-soldiers of Summerland is being organized by the women of the community and will be held on the evening of Tuesday, November 25th in the Empire Hall. A committee of the women is sending out invitations to all returned men. Should it be that any veteran is overlooked the committee will be very glad to have the fact communicated to Mrs. K. S. Hogg. In order to raise money to meet the expenses all men other than ex-soldiers will be charged an admission fee. Further particulars are given in our advertising columns.

Miss Aitchison Resigns Post At Hospital

Has Been Matron Since Institution Was Opened Five Years Ago

At the regular meeting of the Hospital Board held Monday afternoon the resignation of the matron, Miss Aitchison, was received and accepted by resolution which at the same time expressed the regret of the directors. Miss Aitchison opened the hospital just over five years ago and has been head of the institution since that time. Her services have been highly esteemed by the Board as Miss Aitchison is considered an excellent manager in addition to being an exceptionally capable surgical nurse. Miss Aitchison's resignation is to take effect about the middle of December, when she will return to Ottawa, her home city.

The position thus rendered vacant has been offered to Miss Findlay of Kaleden, but there is some doubt if she will be able to accept, although the directors are yet hoping that she will be able to do so.

The Hospital Drive, started some time before the Victory Loan Drive, has been suspended for the time. The committee reported that nearly \$4,000 of the \$5,000 required had been received or promised and there is every reason to hope that those citizens who have not yet contributed will make up the thousand dollars necessary.

The new X-Ray equipment has been installed and has already proven a valuable aid in Hospital work. The Board of Directors authorized the payment of the second instalment on the purchase price.

The Directors decided to hold a New Year's Eve dance, and Empire Hall has already been engaged for that date. This is likely to be an annual affair. Through careful management the Hospital has been kept out of debt and without increasing the rates. Any further funds that may be obtained through an event of this kind can be used to advantage.

School Trustees Should Not Have Appointment of The Teachers

That the appointment of teachers should be taken out of the hands of the trustees and that the salaries paid to teachers must be materially increased if our schools are to be successful were two features of a forceful and able address given recently before the annual meeting of the Okanagan Teachers' Association, by the president, Mr. Jas. Gordon.

In the course of his address he stated that the low status of the teaching profession was due to the low salaries paid. In a world which still believed that a man was worth what he earned and earned what he deserved, there was room for leadership originating from the teachers, for only the so-called leading citizens could get a hearing even in educational leadership. He contended that the business of the teacher so far as men were concerned was a good enough side line, but as a serious life work it was an absurdity. The tenure of office was too insecure. No one wanted an old teacher and a man might find himself after years of faithful service in the interests of the children of a community, merely an object of pity and patronage.

He contended also that the appointment of teachers should be taken out of the hands of Boards of Trustees and placed in the hands of officials who know the needs of the various schools and the qualifications and records of the teachers. The salaries of teachers should be put on a similar basis to the Civil Service and thus the degradation of approaching school boards for advances in salary would be abolished. He thought that the appointment of those who were to teach, train and influence the young life of a community should not be left to chance as it often is at present. Boards

(Continued on Page 5)

A Victory Loan Message

IF, after achieving a costly victory, Canada fails to provide for her wounded heroes, for the employment of her citizens, and for the maintenance of her trade, Germany will not have fought in vain. The Victory Loan 1919 is to provide for all those things. It is vitally needed. While the expenses of mobilization were spread over four years, the cost of demobilization is being crowded into one.

British Columbia, which maintained such a high average in recruiting, and Canada, which in Sir Arthur Currie's words, "Never failed to make an objective," dare not fail now.

JOHN NELSON, Chairman Press News and Feature Committee for British Columbia.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs. J. B. Robinson is spending a week or so in Summerland visiting her sister Mrs. R. C. Lipsett and other friends.

Mr. Seth Davidson has been enjoying a short visit from his son Mr. Norvel Davidson and his wife from Winnipeg. This is not Mr. Davidson's first visit to Peachland, and from what he says it will not likely be his last. They were making a trip to Coast cities and just stopped off for a few days. Mr. Davidson has the honor and distinction of having been the first person to build an automobile in the city of Winnipeg. He was employed in a bicycle business at the time, and worked nights and holidays designing and building the automobile for some time until he completed it in the year 1900. It was not until 1903 that they formed their first automobile club and then with only four or five members. It is worthy of note that the machine made by Mr. Davidson was in running order until comparatively recently. Possibly it is yet, but he had lost track of its whereabouts since about four years ago. Mr. Davidson was also the first person to take out an auto license, and since that date has witnessed a great many changes in the automobile world. They expected to resume their trip on to the Coast on Tuesday evening, but Mrs. Davidson very kindly consented to render vocal assistance at the patriotic concert held here on that evening and Mrs. Town took them down by auto on Wednesday morning to catch their train at West Summerland and in that way they lost no time on their schedule.

Mrs. Daly and children returned on Friday of last week from To-field, Sask., and are guests at the home of Mr. and Mrs. H. R. Jeffords. Mr. Daly and Mr. Jeffords are busily engaged with their trap line.

Mrs. N. A. McDonald was a visitor in town on Tuesday last, spending the day with the McCall families, and returning to her home in Penticton in the evening.

Sam White and Cecil Brown came out on Saturday from the dam where they have been employed for some time.

The members of the Baptist Church gathered at the Church on Friday last to "house clean" the church. They spent part of the forenoon at work and then sat down to numerous dainties which had been brought for the mid-day lunch and completed the necessary work in the afternoon. Even while they worked they enjoyed the time spent.

Mrs. Evans (nee Miss Reta Scott, who will be remembered by many as having stayed here for a while some years ago to attend school, residing at the home of Mr. Young), with a friend, Miss Smart, have been recent visitors in town, guests at the home of Mr. Thos. Elliott.

Miss Hockyard with her little niece Emma left on Saturday morning last for England.

After a pleasant trip to the Coast, Mr. and Mrs. R. A. F. Moore returned on Saturday bringing with them an auto truck of goodly size, which will put Dick and the democrat in the shade for moving produce. They were accompanied by M. Howse of New Westminster.

Rev. C. D. Clark conducted a song service in the Methodist Church on Sunday evening the 9th at the usual service hour. There was a good attendance out for the occasion. The choir rendered several extra numbers, including a quartette, a duet with chorus and anthems. Mrs. N. Davidson who was visiting in town sang two beautiful solos which were enjoyed very much by all. Mrs. Davidson is a member of one of the large Methodist Choirs in Winnipeg and gave great support to the choir on this special occasion. The service was in commemoration of the Armistice and the hymns and choir numbers were chosen relative to various phases of the war, and was very impressive.

Mr. Sootherin is enjoying another visit from his brother, who came in last week.

Miss F. Broscob came down from Kelowna to spend the week end with her sister and family here, returning Monday morning.

The deer are coming down to the front of late and several have been bagged during the last week, but it is not all sunshine getting them as the snow has piled up pretty deep for this time of year.

The Victory Loan Campaign in this section is progressing favorably, with the canvassers still active.

Miss Pearl Gellatly returned home on Monday morning, having come down on Sunday afternoon for the evening service here, and was a guest of Mrs. L. Mills.

Mr. Brinsen is enjoying a visit from his brother with his wife and family who came in on Tuesday night to remain a short time.

The address which had been advertised for Friday afternoon the 7th was given by Dr. Robertson, brother of Mr. R. Robertson, founder of the Okanagan United Growers, in the Council Chamber. There was not a very large attendance, but those who were there spoke very highly of the address and the pleasing and able manner in which it was given. The speaker gave an outline of what had been done by Britain and Canada during the war period and very strongly urged greater production, explaining that the greater the production the sooner the decline of high prices. He was of the opinion that it would take a couple of years or perhaps three for us to realize any marked change in high pricing, owing to the tremendous shortage in many lines. He also urged a continually increasing community spirit along the lines of general improvements in all phases of social life, and stated that he considered Peachland none too small a town to hold at least two monthly meetings where every available citizen should attend and discuss ways and means of bettering the community along all lines. He emphasizes the benefit to the growing generation of boys which was found in the Boy Scout Movement, speaking very highly of this method of helping to fit the boys to take their places and fill them to better advantage as they rise to manhood. Mr. J. W. Jones, M.P., accompanied Mr. Robertson in his tour of the Valley.

Mr. and Mrs. John McDougald have moved down to Summerland, where Mr. McDougald has accepted a position which he expects to occupy for some time.

Mrs. Grantham with her little boy of Vancouver is visiting in town for a time, a guest at the Edgewater Inn.

The Armistice Day entertainments given by the Community Club for the 11th was quite a success. The Orange Hall was filled almost to its capacity and everyone enjoyed the evening. The program was as follows: Opening chorus by the school children, The Maple Leaf For Ever; Solo by Mrs. N. Davidson—with encore: Carnival of Nations, in which little Miss Frances Robinson was costumed to represent Belgium while Mrs. J. A. Moore sang a Belgian national song; little Miss Mildred McDougall represented France while Mrs. N. Davidson sang a National song of France, Little Miss Willa Elliott represented Canada while Mrs. J. L. Elliott sang O Canada; with the school children joining in the chorus. Master Edgar Taylor represented the U.S.A. while Mrs. J. A. Moore sang The Star Spangled Banner; Master Joe Hyde stepped out as John Bull, while Mrs. Mitchell sang, Rule Britannia, with the school children joining in the chorus. Then followed an address by Reeve Hogg which was very interesting and instructive. Space will not permit of our dealing with his address entire, but among other important points taken up he pointed out many of the changes which the war wrought in the world especially in the scientific realm. He pointed out very clearly where the world needs the best that is in us to cope with the many trying situations which we find ourselves in, and in his summing up made an appeal for everyone to do his and her best for Country and Community, and suggested that one of the quick and beneficial ways to help the country was to come to the fore and respond to the Victory Loan Campaign. Following came a solo by Mr. A. N. Cutbill which was well received and an encore demanded. Mrs. N. Davidson then rendered another beautiful patriotic number. Miss Morley acted as accompanist throughout the evening. The next on the program was a trio of tableaux; first, "Freedom" by seven girls in costume bearing the letters to form the word FREEDOM. Second, "Red Cross" with Miss Kathleen Henderson as Red Cross Nurse over a patient on a stretcher, a very touching scene. The third, "Peace" well portrayed by Miss Verna Town appropriately costumed and looking charmingly "Peaceful." This part of the program was brought to a close by the singing of "God Save The King." The assembly arranged themselves in groups and enjoyed refreshments which were served, after which they dispersed.

One in seven of the population of Montreal is a foreigner.

WATER NOTICE. (Use and Storage.)

TAKE NOTICE that Naramata Water Users Committee whose address is Naramata, B.C. will apply for a licence to take and use 1,500 acre feet and to store 1,000 acre feet of water out of Chute Creek (East Fork), also known as Lequime Creek, which flows west and south and drains into the east side of Okanagan Lake about 12 miles from the outlet of said lake.

The storage dam will be located at a point 1 1/2 miles due west of 12 M. Post, Lot 2711. The capacity of the reservoir to be created is about 800 acre feet, and it will flood about 80 acres of land. The water will be diverted from the stream at a point about 3 miles west of 12 M. P., Lot 2711, and will be used for irrigation and domestic purposes upon the lands described as D. Lots 206, 207, 209, 210, 266, 3315, 3314, 156, 211, Plan No. 576, 575 and 706.

This notice was posted on the ground on the 18th day of October, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of

Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

A Victory Loan Message

FEEL the great task of the Provincial Publicity Committee has been to bring the true status of the Victory Loan 1919 to a clear understanding of the public. If this can be done the work of the Victory Bond salesmen will be easy indeed.

I want our citizens to know that 1919 is a War Year—to understand the post war problems that our Government has faced. I want them to know that if the Government is to keep its covenant with the Canadian Corps—to redeem its pledges made with our hearty approval—if all this is to be done we must provide the necessary money through the 1919 Victory Loan.

I would urge all citizens to familiarize themselves with the true condition, to carefully study all literature, which has been conscientiously prepared in connection with this loan.

OSCAR A. OLSON,
Chairman, Provincial Publicity Committee.

Synopsis of

Land Act Amendments

Minimum price of first-class land reduced to \$2 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is not timber land.

Partnership pre-emption abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may be granted intermediate certificate of improvement and transfer his claim.

Records, without payment, residence may be issued, provided applicant makes improvements to extent of \$100 per annum, and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces, the time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 30, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Armed Forces or dependents, acquired direct or indirect, remitted from settlement to March 31, 1919.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers recorded after August 4, 1914, involving forfeiture, completion of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due to them may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing district and range administration under Commission.

Annual grazing permits issued based on numbers ranged priority for established owners. Ranged areas may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Have You Any Surplus Money To Invest?

Now is the time to place same on good Mortgage Property. I have some choice loans offered. See me if interested.

W. C. Kelley

A Campaign For Good Roads In Canada.

The Canadian Good Roads Association is extending its activities to a Dominion wide educational campaign with the object of stimulating a more active interest in the Good Roads movement generally, and in particular to create sufficient public opinion to influence the provincial and local authorities to take advantage of the Dominion aid of \$20,000,000. For some reason the offer has not been taken up as well as expected. Even the boosting given it by the Commissioner (Mr. A. W. Campbell) has not made it popular, but now that the Good Roads Association has determined to take up the matter there is every chance for its success. The principal difficulty that the Association has to overcome is the jealousy of the provincial authorities who seem to have a chronic resentment against any scheme emanating from Ottawa for the benefit of the citizens generally, particularly when the said scheme is of such a nature that it should have been taken up, but for one reason or another neglected by the provincial authorities themselves. This is well illustrated in the Federal Aid scheme itself. Outside Quebec and Ontario the roads of Canada are anything but what they should be, the principal reason being that the Provincial Treasuries are not overflowing with funds—and good roads cost money. The Dominion authorities know this and being urged by the good road enthusiasts, such as the Canadian Good Roads Association, offer to subscribe \$20,000,000 for the building of good roads on certain conditions which in effect are, first, that for every forty cents put up by the Dominion Government the Provincial authorities must put up sixty cents, and second, the Dominion authorities must have a voice in the control and management of what-

ever roads are built with the aid of Federal funds. Whether these conditions are good or bad we are not prepared to say, but we do think the time has come for closer co-operation between the Federal and Provincial—and Municipal—authorities in everything that affects the welfare of the citizens. Canada has a population of less than nine millions, yet she has one Federal, nine Provincial and over 3,600 Municipal governments to control her administration, which means that unless each unit appreciates and works with the other units much that would be valuable is wasted. In the building and maintenance of our roads, highways and streets the three units are now associated, consequently there should be the closest co-operation between them through there is a tendency on the part of both the Federal and Provincial authorities to forget that there are rural as well as municipal authorities who know local needs better than either. Be that as it may, we wish the Canadian Good Roads Association every success in its campaign for good roads. —Canadian Municipal Journal.

Yakima Loses 300 Cars Apples

Yakima, Wash.—C. L. Robinson, district horticultural inspector, has announced a ruling that no frozen apples would be shipped unless marked frozen, and sent direct to by-products plants. The edict destroys the hope of many growers and shippers, that it would be possible to thaw frozen fruit and send it as fancy stuff. Robinson, one of the most conservative estimators of frost damage, says the order affects at least 300 cars, estimated at a value of \$450,000. This afternoon while inspecting produce row warehouses, Robinson found a crew behind locked doors engaged in packing frozen fruit for shipment. The stuff was confiscated and the proprietor warned that any repetition of the offence would result in court action. All dealers are warned they must pack in the open.

Spinsters are not partial to adages.

TO CARE FOR WOUNDED

Money From Victory Loan Will Be Used to Re-establish Soldiers.

Our soldiers in France faced perils other than those of shell and gas and machine-gun fire. There was the peril of tuberculosis. Up to August last 3,909 soldiers suffering from this disease had been returned to Canada. These were placed in sanatoriums under the direction of the Department of Soldiers' Civil Re-establishment, and they are one of the departments of that branch that must be maintained, and come under the head of capital war outlay. All of these men and some 20,000 others, disabled or ill, will be looked after with money raised through the Victory Loan 1919. It is the sacred duty of Canadians that the money is forthcoming.

Credits Must Be Established for Sale of Surplus Products.

Success of Victory Loan 1919 Will Insure Steady Markets for Farmers.

It takes some six bushels of wheat to feed the average person in Canada annually. Roughly, therefore, the eight million people here consume about 50,000,000 bushels each year. But even in a poor year the crop is some five times that amount, and the surplus must be sold if the farmers are to get a return for their time and labor. But the sale of the crop must be financed. Great Britain, which provides our greatest market, has not the ready cash; and so Canada must find means of raising the money. Hence the Victory Loan 1919. In view of the fact that the prosperity of the Dominion is dependent to a considerable extent upon the sale of her surplus grain the necessity of the money being forthcoming is patent.

Your dollar may be the last straw that sweeps the Victory Loan over the top. Would you take the chance of making it a failure?

Lend your money that your pay envelope may be always filled, as will follow the success of the Victory Loan.

Victory Bonds are the fodder that keeps the machinery of Canada's industrial world running at full speed.

Summerland School Board

NOTICE TO PARENTS

As tonsillitis and acute colds are now present in the Municipality, and as influenza and diphtheria are reported in the Province, it is advised that school children with severe colds or any inflamed condition of the throat be kept at home. While any part of the respiratory tract is inflamed, such children are unable to do justice to their studies, are a possible source of infection to others, and are in a condition to readily contract any infectious disease.

F. W. ANDREW,
Medical School Inspector.

Municipal School Board

TENDERS FOR WOOD

TENDERS will be received by the Undersigned up to Saturday, December 6th for FIR or PINE Stove Wood, to be delivered and piled at the School yards as stated below:

80 Cords at CENTRAL SCHOOL.
7 Cords at TOWN SCHOOL.
7 Cords at GARNETT VALLEY SCHOOL.
7 Cords at TROUT CREEK POINT SCHOOL.

Wood to be sound and cut into 16 inch lengths. The standard of measurement in each case to be the true cord of 128 cubic feet.

Also 10 straight cords of 36 inch wood to be delivered at Okanagan College.

J. H. BOWERING,
Secretary School Board.

FRIDAY, NOV. 14, 1919.

AN INTERESTING SITUATION in respect to municipal taxes has developed in connection with the soldier settlement scheme of the Federal Government. Under the plan of purchase the vendor sells to the Government, termed "The King," the veteran buying from the Government on terms which will mean that deeds will not be obtained and the property registered in the name of the purchaser for a varying period up to twenty years.

As public property held in the name of "The King" is exempt from taxation the general purchasing by the soldiers of lands in any municipality might easily have a disastrous result to municipal finances. Doubtless this phase of the transferring of property in this manner to war veterans was overlooked and a remedy will no doubt be effected.

THE LOSS SUSTAINED BY FRUIT GROWERS this season through various causes should bring about a radical change in the methods of handling the fruit crops. Shortage of wrapping paper, due evidently to great under estimation of the crop, and a more serious shortage of box material, due perhaps largely to the same cause, totally inadequate storage facilities and the inability of packing houses and rail roads to take care of the crop, resulting in the unprecedented early frost finding many thousands of dollars' worth of our best apples wholly unprotected, has had a result that will give many of our growers serious thought, resulting in a demand for a change of method that will guard against any possibility of a recurrence of this year's disaster.

THROUGHOUT THE SEASON the shortage of box material has been acute. Perhaps by the early placing of orders for shooks and by more general adoption of the practice of making up of the boxes in the orchard this trouble would be overcome. A few weeks ago the writer visited an apple growing district in Washington, with an estimated crop of at least 800 cars. He was somewhat surprised to find that it was a common practice to supply the grower with the boxes in shook form. With plenty of boxes on hand growers could pick to a better advantage and send to the packing houses only those varieties which were being shipped out.

Individual storage accommodation in the orchards would make the grower largely independent of the packing house. With storage in the orchard and large frost proof warehouses in connection with the packing establishments our apple crop could then be handled in a manner to assure better prices and growers would have a practical assurance against the recurrence of a loss such as has been experienced this year.

The loss in Summerland due to frost is placed officially at from seven to eight per cent. of the total apple crop. Peachland's percentage may be a little higher, and Naramata's somewhat less. The sum represented by these losses would provide the much needed storage. The question of obtaining box shooks well in advance of the harvesting of the fruit should be a simple matter for our shipping organizations to deal with.

SHOULD FRUIT TREES BE CONSIDERED as part of the land or in the nature of improvements, as buildings, fences, etc.? This question has been discussed in an informal way by our Municipal Council in previous years. A recent ruling by Ottawa effecting the federal land settlement scheme will therefore be of particular interest. Under this ruling soldiers will be able to borrow a larger sum for the purchase of orchards and may again borrow for improvements, live stock, etc. Up to the present many men wishing to go fruit farming and to have the board purchase for them land already planted with fruit trees have been greatly handicapped by the fact that the trees have been regarded as part of the stock and equipment. Arrangements have now been made whereby the trees are to be regarded as part of the land and their value will be added to that of the land.

The difficulty in the matter lay in the fact that fruit trees are delicate plants and, under ordinary circumstances, not suitable to be taken as security for a loan. The Board has decided, however, to make the change, with the result that many men who have been held back from settling on fruit farms will now be able to go ahead. Previously in many cases nearly all the money the board allowed them for stock and equipment was eaten up by the purchase of the trees and there was left practically nothing for other necessities.

NEW YORK and a number of other American cities have adopted daylight saving as a local measure. Several Canadian cities contemplate taking similar action. In some cases the measure has been adopted by civic ordinance. Other cities propose submitting referenda at annual municipal elections. This would indicate that there is some doubt of daylight saving being effected as a national measure next season and the cities are taking the initiative so that they may have the longer evenings again next year.

ROLLING STOCK IS SCARCE EVERYWHERE.

Washington Fruit Districts Crying For More Cars.

Shortage of cars coupled with insufficient local storage still continues to cause local fruit shippers much worry and inconvenience. Fruit is still moving in to the local packing houses in greater quantities than it is being shipped out.

The car shortage seems to be general in this Province and in Washington. The potato districts have lost heavily through being unable to obtain cars in sufficient numbers to move their crops. The fruit districts of Washington are also experiencing an unprecedented car shortage. The Wenatchee Dairy World last week published the following:

An apple blockade exists all over the Wenatchee fruit district, comprising Chelan, Okanogan, Douglas and Grant counties. Every warehouse is jammed full of apples to the roof, every platform is piled high with boxed apples, every vacant basement, storeroom, barn, shed or cellar is filled to overflowing.

Shippers have been forced to refuse to receive any more apples simply because they have not a foot of space to store them in. Yesterday dozens of growers were forced to haul loads of apples back home on account of being unable to find a place to unload them in Wenatchee. The same condition prevails in practically every shipping station in the district.

Frantic appeals for more cars are burning up the wires between here and St. Paul, Chicago and Washington, D.C. It is estimated that there are today between 1,500 and 2,000 car loads of apples in the district that are absolutely unprotected, most of them being in the orchards.

With only about 100 empty cars being received daily and about the same number of loaded cars going out, there is no relief in sight for about two weeks. It will take that long to relieve the congestion of apples in the warehouses so that more apples can be received.

The only hope to save the apples that are still in the orchards is for each grower to provide some sort of temporary shelter right at home. A few hours time and a few dollars worth of lumber and building paper would build a storage house sufficient to protect the average grower's remaining apples for the next month or so.

The time spent in waiting for a chance to unload at the warehouses, would suffice to build a shed of sufficient size to save the crop from damage for a few weeks.

Truck drivers wait five or six hours in many instances for their turn to unload, and when they are informed that their loads will not be received, they are forced to haul the apples back to the ranches. This is a very expensive proceeding for the grower who is hiring the truck by the hour. It is just as expensive for the grower who is doing his own hauling.

During the evenings it is a common recreation for truck drivers to leave their loads standing at the warehouses, while they take in the first show at the Wenatchee or Gem Theatres. They can then return and take up their places in the line.

Yesterday several loads of apples were brought down from Wenatchee Heights and Stemilt Hill, but the owners were unable to find a place to unload them and had to leave them on the streets all night.

Hospital Aided By The Citizens

Donations to the Summerland Hospital for September and October are as follows:

Mrs. G. Young, eggs, fruit, flowers; Mrs. H. A. Solly, milk, fruit, vegetables, old linen; Alex. McLaughlin, melons; Mrs. R. C. Lipsett, canned fruit; Mrs. A. Harrywick, canned fruit, eggs; Harry Callaway, fruit and vegetables; Mrs. Eisey, eggs and fruit; Mrs. O. Zimmerman, canned fruit; Mrs. R. H. Helmer, flowers and vegetables; Mrs. Whitfield, jelly; Mrs. E. Thomas, vegetables; G. J. C. White, fruit, canned fruit; H. Dunsden, cake, cream, fruit; Mrs. W. M. May, eggs; Isaac Blair, strawberries, vegetables; Mrs. F. J. Nixon, canned fruit; Mrs. M. Campbell, blackberries, vegetables and canned fruit; Mrs. G. White, cake, melons, ice cream; E. Faulder, cream; Mrs. W. C. W. Fosbery, canned fruit; Mrs. J. Fyffe, cream; J. McLean, fruit, &c.; Mrs. Chas. Baker, canned fruit; J. Clement, flowers, vegetables, melons; Mrs. C. H. Gayton, vegetables, fruit, chickens; Alex. Fraser, tomatoes; J. Downton, sausages; St. Stephen's Church, fruit; J. W. Wheeler (Mineola), two loads fire wood; W. E. Rines, two boxes prize apples; Summerland Show, vegetables.

When a man loses his caution about this time of year, he gets into a flirtation; when he loses his common sense, he falls in love; and when he loses his last spark of reason, he gets married.

This is about the time of year that the family furnace pricks up its ears in anticipation of making a winter meal of the year's savings.

Passing Events: Social, Personal, &c.

Mrs. J. Lawler left this morning for a visit to Vancouver.

There's a photographer in your town—Chas. P. Nelson, West Summerland. 16tf

Mrs. Wm. Kerr returned Tuesday morning from a visit to the Coast.

Miss Nellie Hutton arrived here from the prairies early this week and is visiting her sister, Mrs. Oxley, at Mineola.

Mrs. E. N. Rowley leaves tomorrow for Vancouver where she will remain for six months. She purposes taking a special course in vocal music.

Mr. Ben Blair and his sister Miss Ruth have returned from the Nelson district where they have been for some time engaged in fruit packing.

Material alterations are being made by Mr. Figgis in his restaurant building. The front has been extended to the sidewalk, thus adding considerable space to the interior.

The annual harvest thanksgiving service was held last Sunday morning in St. Andrew's Church, the service being a most interesting and inspiring one. The decorations were pleasing and appropriate. A special thanksgiving contribution was received amounting to a substantial sum.

Mrs. MacDonald, wife of Mr. S. A. MacDonald, principal of the consolidated school, reached here last Friday from Creston, where she has been visiting with relatives since she and Mr. MacDonald returned from their honeymoon trip to Mr. MacDonald's home in Prince Edward Island.

Slipping on a stairway on Friday, October 31st, Mr. G. Thornber sprained his ankle. Thinking it would be all right in a day or two the injury gave him no great concern, but later when he called on the doctor he was advised to go to the hospital and when put under the X-Ray it was discovered that a bone in the ankle had been broken. For some days he has had the injured limb in a plaster jacket, but he is now getting along nicely and hopes to have the plaster removed within a day or two.

Your friends can buy anything you can give them this Christmas—except your photograph. Chas. P. Nelson, West Summerland. 16tf

Assessor J. M. Sutherland and his assistant Mr. G. Marshall are busy men these times on the work of valuating the property within the limits of the Municipality of Summerland. Garnett Valley, Jones Flat, Prairie Valley, Paradise Flat, Peach Valley and part of the territory around Giant's Head have already been covered by the assessors. The very careful inspection of the lots and improvements thereon has in many cases aroused the curiosity of the owner, as never before have buildings and other improvements been so carefully looked over.

Phone your order for rubbers and I will deliver by mail at my expense. A. J. Beer. 13-20

Reeve Simpson went up the Lake Thursday morning to attend a meeting of the Directors of the O.U.G.

Another dance was given by the G.W.V.A. in Empire Hall on Tuesday evening. The attendance was good and all enjoyed themselves.

The stage and the screen of the Rialto theatre have been moved back to the rear of the new addition recently made to the building.

Levi Johnston, second son of Mr. and Mrs. R. Johnston, arrived home last Saturday. This is his first visit home since he returned from service overseas.

Mr. Cochrane of the Bank of Montreal staff of Vancouver, arrived here on Monday to relieve Manager E. J. White who is now enjoying his vacation.

Mr. Lloyd-Jones came in from the Coast on Monday and after spending a day or so here with relatives went on to his home at Kelowna.

A Toronto woman asked a fruit dealer in that city if the apples he was selling were Canadian. "No," he replied, "they come from de Ockeyanagin."

Children's portraits for Christmas—Chas. P. Nelson, West Summerland. 16tf

Miss McCarthy and Miss Palmer, two young women who have been assisting in fruit packing here, returned Tuesday morning to their homes in Vancouver.

Misses Annie and Ruth Blair and Miss Janet Sutherland are planning to go to New Zealand early in January to engage in fruit packing. That country is looking to this Province every year for expert fruit packers. We understand that any who go have their transportation paid one way.

The College Auction will commence at 2 o'clock promptly on Thursday, 20th, at the Ladies' Building. Some splendid furniture will be offered early in the sale. All good stuff at first including a large quantity of table silver. About 3.30 o'clock the sale will start at the Boys' Building. Entrance at the basement door in rear. 16

Mr. G. M. Ross returned to Field this morning to resume duty in a new position with the C.P.R. which we believe is one of considerable responsibility at one of the most difficult divisional points on the system. Mrs. Ross and the baby will remain here for the winter, Mr. Ross having arranged for rooms for them with Mrs. Phinney.

No mail was delivered to patrons of the rural route on Tuesday because of the illness of Mr. Thomson, the courier. On Wednesday and Thursday Mr. G. J. C. White, one of Mr. Thompson's bondsmen, sent his car over the route, the mail being handled by Mr. J. R. Brown. To-day Dr. Lipssett, the second bondaman, is on the route with his car, with Mr. Brown again working the mail.

Mr. C. A. Walters, who has been here for four months attending to the harvesting and shipping of his fruit crop returned to Castor, Alberta, on Wednesday. He plans on returning to Summerland early next year to build a house on his orchard property and to reside here. His son, who has been managing the business of Walters, Ltd., is also likely to come to Summerland next spring, in which event he will also build and settle here.

While the Council was in session on Tuesday a hurried call was received by Reeve Simpson from his home stating that fire had broken out in the house. The Reeve made a quick departure, hailing a passing car and others of the Council followed. By the time the K.V.R. station had been reached it was learned that the fire had been extinguished. Mr. E. T. Mountford, a neighbor, had been called and quickly removed a coal oil stove which had occasioned the alarm. Mrs. Simpson was in town at the time and it is fortunate that the fire had not spread before noticed by the little ones.

According to information received here Mr. G. A. McWilliams was married a few days ago at Vernon to Mrs. Main, of Armstrong.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

Morning Service at 10.30 in St. Andrew's Church. Subject, "The Adaptation of Bible Religion to the Needs and Nature of Man." Young People's Society, 7.30, led by Mr. J. C. Freeman. Subject, "Citizenship." C

Commencing Sunday, November 16th, the Pastor will conduct a week of special services at the Lakeside Church. Sunday, 7 p.m., week nights, 8 p.m. Everybody welcome. C

Rev. Mr. Cook of Ontario will preach in the Baptist Church, West Summerland on Sunday morning at 10.30. Subject, "A Soldier's Religion," and in the evening at 7.30 he will speak on his experiences overseas. All welcome. C

There are thirtyfour ways of making a husband happy; the first consists of knowing when to cuddle him—the other thirty-three in knowing when to let him alone.

SCHOOL TRUSTEES SHOULD NOT HAVE APPOINTMENT OF TEACHERS.

(Continued from Page 1.)

of trustees in a large measure represented the ratepayers alone. Many trustees were not even parents; some had families grown up, and were more interested in keeping down the rates than in advancing education. His solution of the educational problem was the attraction of a high type of teacher into the profession by better salaries and greater security, making the profession less dependent upon the whims and prejudices of changing trustees and of faddists. At present the teaching profession was a profession of slavery, but the fact that teachers everywhere were organizing showed that they were starting on the road to freedom.

A good deal of business was put through in the afternoon, including the reports of the various committees. The salaries committee reported that it had been successful in influencing the School Boards to increase salaries. In most cases small increases had been granted.

In the evening the convention listened to a highly instructive paper by Mr. Mitchell of Kelowna, on Manual Training, in which he showed the educational value of manual training.

Several resolutions came before the convention, the most important being that the teachers of the Okanagan and Similkameen unite with the B.C. Federation. This central association has been recognized by the Education Department which is giving many of their suggestions, such as a two years' normal course, serious consideration. It also publishes a magazine which will prove very helpful to teachers and trustees all over the province, so that, considering all the benefits which were likely to accrue from uniting with the B.C. Federation, the Okanagan teachers felt that they could not afford to remain outside of it.

There were about 100 teachers present and great enthusiasm and interest prevailed throughout the session. It was resolved to hold another convention in the spring for the discussion of purely technical matters connected with school work. The annual business meeting of the Association was fixed to be held each fall. The new office bearers appointed were: President, D. J. Walsh, Endorby; 1st Vice President, S. MacDonald, Summerland; 2nd Vice President, Miss Cavors, Cavors, Vernon; Recording Secretary, Miss Brown, Summerland; Corresponding Secretary, A. S. Matheson, Penticton.

A Reception and Dance To the Returned Soldiers

will be given by the Ladies of Summerland, in the Empire Hall Tuesday Evening, Nov. 25th at 8.30 o'clock sharp.

All Come, and help welcome our Returned Men.

Peck and Manchester Orchestra.

The Man who Saves You \$'s Summerland and West Summerland

A Victory Loan Message

If the people of British Columbia as a whole respond as readily, as unreservedly, to the direct appeal "Buy Bonds," as the business men have responded to the appeal to give their time, their business ability and their energy to the task of preparing this 1919 Victory Loan Campaign, there will never be a moment's doubt of the result—British Columbia will take up her quota and more.

And the consideration that it is a good investment makes the Canadian 1919 Victory Loan just that much more attractive. That the money raised in British Columbia will be spent in British Columbia—that it will be an insurance for continued business activity in re-establishing the soldiers and in upholding Canada's export trade—there are other considerations which must appeal to every citizen to "Buy Bonds" of Canada's 1919 Victory Loan.

STANLEY BURKE, Chairman Provincial Business Committee.

CANADA'S FUTURE DEPENDS ON LOAN

Steady Employment and Prosperity Hangs on Victory Loan.

Canada's future prosperity depends to a great extent upon the success of the Victory Loan. No country can exist upon trade within its own boundaries. Canada counts on the trade with Great Britain and other allied countries to keep the flood of good times in the country.

The surplus products of the farm and the factory find their way across the seas. The revenue of the farmer and the manufacturer is dependent on this trade relationship being sustained. The employment of many hands depends on the orders that come to the firm. The pay envelope only comes with steady employment.

Great Britain and overseas countries are still desirous of continuing trade relations, but, overwhelmed with war expenses, they must be given credits for the time being. The farmer and the manufacturer must be paid for their products and manufactured articles in cash. Therefore, Canada must finance the proposition to keep the tide of commerce coming this way. But in order to have the money on hand to do this great thing, Canada must borrow from her people.

The Victory Loan offers bonds to subscribers paying 5 1/2 per cent. interest. The guarantee behind the bonds makes them an absolutely safe investment. Victory Bonds are accepted as collateral at any bank, and can easily be turned into money at a profit. It is then to the interests of every Canadian to subscribe for all the Victory Bonds he can, for it is profitable, it is patriotic, and it is necessary for the continued prosperity of the country.

CANADA NEEDS MONEY

War Expenditures Still to Be Met From Proceeds of Victory Loan.

The war is over and won; but Canada's main expenditures for war will not be complete until well on into 1920. The \$610,000,000 raised last year has all been spent, \$400,000,000 having been largely devoted to soldiers—to maintaining them, bringing them home, providing the necessary medical services, training them. Most of the balance of the loan was lent to Great Britain to enable her to buy our surplus products. And money is still necessary—for soldiers, for providing markets, for our surplus products, for the needs of reconstruction. And that is why another Victory Loan is necessary. Canada still needs money, and needs it badly.

A Good Investment.

Speculation is one thing. Investment is another. The majority of citizens want an investment, not a speculation. And they want a safe investment. Victory Bonds fill that requirement as does no other investment. Because behind every bond there is the national wealth of Canada—a wealth so great that it staggers the imagination.

Canadian Bank Clearings.

That Canada is well able to support the Victory Loan is clearly shown by the Canadian bank clearings for the current year. They indicate that the year's total will exceed \$15,000,000,000 compared with \$13,776,000,000 in 1918. And the year's total clearings should be three times those of 1909.

Must Subscribe More

Dividing the people of Canada into three classes—the comparatively poor, the moderately wealthy, and the very wealthy—it would seem that if contributions to the Victory Loans constitute service to the nation, the moderately wealthy class is hardly doing its share. Of the money subscribed to the Victory Loan 1918, two hundred and seventy-one million dollars were in bonds of \$5,000 and under, ninety-four millions in bonds of between \$6,000 and \$26,000, and three hundred and one millions in bonds of \$26,000 and over.

Be true to yourself. Buy Victory Bonds.

You did it before. You can do it again. Buy Victory Bonds.

Canada pledged her last man and her last dollar. Redeem that pledge in Victory Bonds.

If the fighting were still raging, you wouldn't hesitate to buy Victory Bonds.

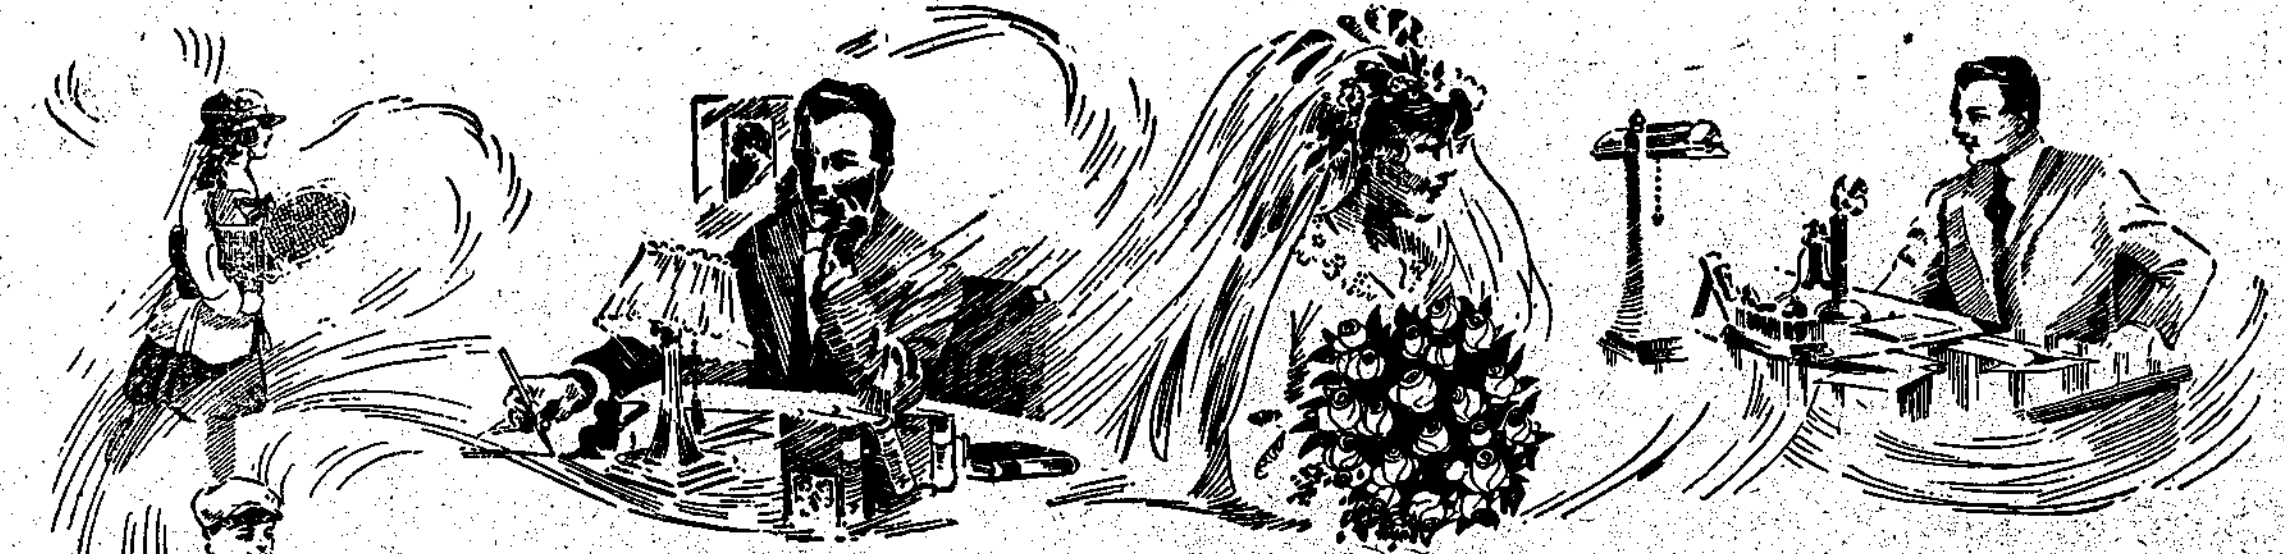

To make the Victory Loan a success is a national obligation. It may be that you are the deciding factor.

If you are concerned about the future welfare of Canada, buy a Victory Bond and make it a sure thing.

Don't forget the future of your children. Lay a good foundation with a Victory Bond.

Would you lend a soldier \$50 if you knew it would save his life? Buy Victory Bonds and keep the military hospitals up.

If you appreciate a good investment you will buy a Victory Bond.

Make Your Dreams Come True

Fond parents dream of a bright future for their children.

They dream of the literary and musical education they are going to give their daughter, and of the high position she will take in her sphere of womanhood.

They dream of the education they are going to give their son and vision him some day as a clergyman, a famous lawyer, an eminent physician, a prominent financier, or a captain of industry.

But to make these dreams come true

—or even partly true—requires foresight, planning and money.

To provide the money what plan so wise as to buy Victory Bonds for each child?

Thousands of parents bought Victory Bonds for their children in 1917 and 1918.

Surely you will be among the thousands of loving parents who will buy Victory Bonds for their children—this year?

Victory Bonds may be bought on instalments at such easy terms that every parent who so wishes may buy

Buy Victory Bonds For Your Children

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

.. The Winding Trail ..

THE FOX AND THE BEAR The Kelowna Courier in a recent issue had an editorial written in the similitude of a fable, the theme being the sleekness, prosperity and content of a certain Grizzly Bear, and eke the gnawing jealousy of a neighbor hard by, known to men as the Red Fox. The allegory relates how the poor Fox lived in a sort of a hole in the ground, away from the end of the lake, and how although he had plenty to eat, and carried a good brush on his tail, he was never really happy because of his jealousy. The Bear on the other hand was always fat and contented, though he had no tail worth speaking of, but only a coat with lovely silver tips, which sometimes glistened like diamonds, and were consequently very valuable. The Fox could see no value or beauty in this coat, and was continually puzzled to know why strangers should be more attracted by it than by the glory of his own tail. Even the Indians know the trail to Grizzly Bear, but they know not of the Red Fox "because the place where he lives is barren, and while it may make a good place for a fox to dwell, it is not the place where a man grows fat, except it be by a cunning like that of the fox."

So much for the fable. What is the moral? If we translate Grizzly Bear into Kelowna, and Red Fox into Vernon, we shall not be far astray, and the moral seems to be that, although the latter place is "barren" and no place for a man to thrive except by the cunning of a fox, yet she hugs the fond delusion of her own superior attractions, and despises the claims of her neighbour. It will be news to a great many people that the Vernon district is particularly barren, and personally I must say I have never heard in that city any expressions of jealousy or contempt directed at her sister community. However, let that pass for what it is worth—the feature which is really prominent is the stupid and unreasoning antipathy we find occasionally between towns or cities which are near enough to consider themselves as rivals. A few well known examples are found in the old time fancied rivalry between the cities of Hamilton and Toronto, Prince Albert and Saskatoon, Edmonton and Calgary, the first named places being in every case much the smaller and yet by far the more aggressive. There was in these instances, no possible rivalry at all—geographical position was the governing factor, and always must be. Neither Hamilton, Prince Albert nor Edmonton were ever rivals of their bigger neighbors. Their interests lay in the territory around them, and that is really the keynote of the situation always. Every town is the natural centre of what may be called its tributary territory, and just in proportion as that territory developed, so will the central point thrive. It is as wide of the mark for a Kelowna paper to apply the term "barren" to the land around Vernon as it is for a Pentiction paper to ignore the real location of the Dominion Experimental Farm, and give it simply as "near Pentiction." The Farm remains at Summerland, nevertheless, and the fertile area north of this lake is neither better nor worse for an idle chance remark. The interests of the Okanagan Valley are one, and every unit in it fills its natural place.

AUTOLYCUS.

Unity Club Peace Banquet

Naramata Women Entertain War Veterans.

The Ladies' Unity Club Peace Banquet which was by far the largest and most elaborate social function that has been given this season, was a pronounced success. Everyone was there and with a purpose, and that purpose was to enjoy thoroughly the fine supper and entertainment which the ladies had prepared. The returned men who had enlisted from here were the guests of honor, some coming from Pentiction and some from Summerland and they were very welcome guests you may be sure. The affair was held at the home of Mr. J. M. Robinson in their large dining room which had been most beautifully decorated with flags of the Allied Nations. The new Victory Flag held a prominent position in one end of the room. The tables were handsomely decorated with barberry, Oregon grape and small flags and chairs were set for one hundred and fifty guests, who were entertained during the banquet by cello and piano duets rendered most charmingly by Miss Gladys Robinson and Mrs. R. C. Robinson. As soon as the repast was finished speeches were in order and most interesting remarks were made by different members of the gathering. Mr. J. M. Robinson acted as toastmaster and it is needless say that he was most proficient in this position. The speeches were interspersed with lively choruses of patriotic songs and besides this there was a most pleasing program composed of music and recitation.

The first number was a violin solo by Mr. Davidson. A reading by Miss Mary Gordon followed, then came a vocal solo by Mr. Griffith and last but not least a piano duet by Miss Ammeron and Miss Margaret Mitchell. A most hearty vote of thanks was given to Mr. and Mrs. Robinson for their kindness in opening their home for this event. After singing "God Save The King" the floor was cleared for dancing and this amusement completed the long to be remembered event in the history of our community, and so Armistice Day has been most fittingly celebrated.

May Organize A Municipality

Leading Citizens of Naramata Are Considering This.

The Farmers' Institute held their first meeting since closing down for the summer, Friday night. There were many important subjects taken up and discussed. The memorial was left to a later date. The necessity for co-operation among the fruit growers was the most important subject and a committee composed of Mr. Partridge, Russell Wells and R. King were elected to go into the matter and report at an early date. Whether we are to form ourselves into a Municipality or not was one of the matters to be

COUNCIL REPORT

(Continued from page 1)

for electric light and offered to pay initial costs, to be refunded through rates. Following a discussion as to the policy to be followed respecting the electric light system that the needs of the district in this respect may be properly served. The Clerk was instructed to write Mr. Wright to the effect that the question was under advisement and until a plan for increasing the power and extending the system was adopted light could not be promised him.

Mr. C. H. Dunbar, former registrar at Kamloops, wrote consenting to make the necessary searches to put the assessment roll in the condition required by law. He also recommended that arrangements be made with the Land Registry Office for reports covering all changes in titles, mortgages and other claims registered against property in the Municipality. This latter service will cost seven cents per item and the Council unanimously agreed that this service should be taken.

Mr. H. H. Elsey was sold some flume in Prairie Valley at 15c. per length and to G. W. Johnson, in his vicinity at 12c. An application from Jas. Hermiston was referred to Conn. Dodwell.

Victory Loan 1919 - Is Bridge Between War and Peace.

Agricultural and Industrial Prosperity of Canada Depends on Success of the Loan.

Why is it necessary to have another Victory Loan? Have you heard this query? Or have you asked it? The Victory Loan of this year stands out as the bridge between war and peace. The war is over. Our boys won that. The reconstruction period is dawning and we at home must win that.

Much of the money that Canada is asking for will be needed to clean up the war debt. The expenses of demobilization were heavy, and there is still much of it unpaid. Now that our men are back, let it not be said that we repudiated the debt for bringing them back.

The sick and wounded soldiers still in hospitals are expecting that Canada will care for them and their dependents until they have been returned to health and strength. The hospital services must be maintained at full strength as long as there are returned men needing attention.

Many men through disability are unable to return to their pre-war occupations. The Department of Soldiers' Civil Re-establishment is doing a fine work in training returned soldiers in trades and professions that they can earn a living at, and is following up the training and seeing that they obtain remunerative employment. The maintaining of this branch of reconstructive service calls for much funds, and the Victory Loan will be used to pay for it as well as the other purposes.

Under the Soldiers' Land Settlement Act, enough money is lent to returned soldiers to enable them to buy and stock a farm. This money will be repaid at a low rate of interest. The soldier is thus given a chance to re-instate himself in civil life, and production is given a boost. Of the total amount of the forthcoming loan, \$24,000,000 has been apportioned to finance these soldier-farmers.

Pensions to the disabled and dependents of our glorious dead, as well as the authorized gratuities will be other items on the expense sheet. These are some of the obligations owing to the returned soldier who is now in health.

The maintaining of Canada's prosperity is an important reason why the Victory Loan should be a smashing success. The money is needed to finance the credits to overseas countries so that they may continue their trade relations with us. If Canada cannot give these credits other countries will, and then Canada will lose all that great overseas trade that has been the mainstay of our agricultural and industrial life for so long.

As an investment, Victory Bonds are eminent. Paying 5 1/2 per cent., selling above par on the open market, and guaranteed by the Dominion—what further reason can you have for hesitating? The Victory Loan 1919 ought to be oversubscribed, and all right-thinking citizens will do their utmost to see that such a result is obtained.

No imported apples have arrived in Vancouver since late in September.

WATER NOTICE.

(Use and Storage.)

TAKE NOTICE that Naramata Water Users Committee whose address is Naramata, B.C. will apply for a licence to take and use 200 acre feet, and to store 100 acre feet of water out of Summit Lake, which is approximately one mile north-west of 13 M.P., Lot 2711, which flows south-westerly and drains into Big Meadows and Chute Creek, about 1 1/2 miles west of 12 M.P., Lot 2711.

The storage dam will be located at the south-west side of Summit Lake. The capacity of the reservoir to be created is about 100 acre feet, and it will flood about 20 acres of land. The water will be diverted from the stream at a point on Chute Creek about 8 miles west of 12 M.P., Lot 2711 and will be used for irrigation and domestic purposes upon the lands described as D. Lots 206, 207, 209, 210, 211, 156, 3314, 260, 3315, Plan No. 576, 575 and 706.

This notice was posted on the ground on the 18th day of October, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

NARAMATA WATER USERS COMMITTEE, Applicant,

The date of the first publication of this notice is October 24th, 1919

Soldiers' Graves In Canada.

The Imperial Graves Commission will shortly visit Canada with a view to visiting cemeteries where deceased soldiers have been interred to see that all graves of deceased soldiers are marked and maintained.

In order to have complete records of all soldiers' graves of all ranks, information is required as to regimental number, rank, name in full, unit, date of death, cause of death, name and location of cemetery, plot and lot number of grave and address of next of kin of those deceased officers and other ranks who are interred in British Columbia

other than those who died whilst in the C.E.F., those on the strength of the Soldiers' Civil Re-establishment and Active Militia in the district, as information in the latter cases are already on file.

This information is required in respect of:—

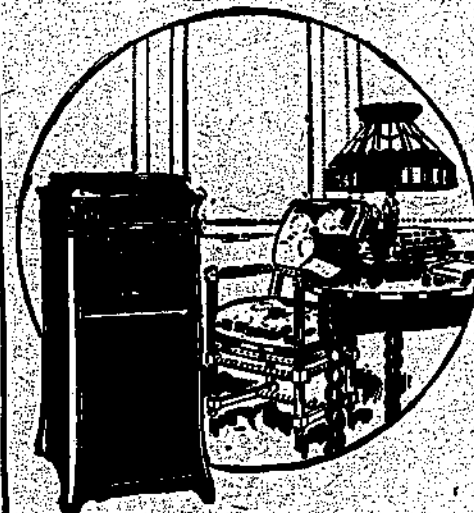

(a) All members of the Canadian Expeditionary Force.

(b) Members of the Imperial Forces.

(c) Members of armies of any of the Allied Forces.

The general public is asked to cooperate in this matter and any information in connection with the above will be appreciated if forwarded to the District Record Officer, M.D. 11, Drill Hall, Victoria, B.C.

Where Words End, Music Begins

Words, in themselves, are but poor interpreters of emotion. Where words end, music begins. Where words only suggest, music satisfies; it utters with a clear, vibrant voice what otherwise would remain unuttered.

Music will allow you to express your innermost thoughts and ideals.

innermost thoughts and ideals.

But how, you ask, can you create this music since you are no musician nor the master of any instrument?

The NEW EDISON

"The Phonograph with a Soul"

has stored up in its magic discs the music of the world's greatest musicians—the soul-children of the music masters. And this music The New Edison will RE-CREATE for you, in your own home, exactly as you would hear it in the grand opera houses and the famous concert halls.

You should read the beautiful book "Edison and Music" and the booklet "What the Critics Say" containing evidence that proves Edison superiority. Ask for copies when you come to hear the New Edison.

Hydro-Electric Power For the Okanagan Val.

Government Investigating Power Scheme to Serve the Whole Valley

Next to water and roads the development of electric power for public and commercial purposes is probably the most important matter with which this and other communities of the Okanagan have to deal. Some years ago we heard much of possible development of hydro-electric power in the northern part of the Valley. More recently hopes of an abundant supply of energy from Kootenay were developed when it was learned that a high tension power line was to cross the Valley at Fairview. These hopes have since been banished, but we need not yet despair as Northern Okanagan now promises to have a supply of power to meet the needs of the district from Kamloops to Penticton.

Several months ago a meeting of civic officials from Kamloops to Kelowna resulted in the appointment of a special committee to take up with our governments the question of developing electrical power at one or more of several named water falls in the northern part of the Valley. Mr. F. W. Clingan, mayor of Salmon Arm, and well known in Summerland, was appointed convener of the hydro-electric committee which was composed of mayors and Reeves and presidents of farmers' organizations. Mayor Clingan has kindly furnished us with the following statement on the progress being made and the possibility of obtaining power for this part of the Valley:

It is gratifying indeed to know that our efforts have met with such quick response and that the engineers of the Provincial Government are already on the work of inquiry, which is necessary for information of the Department before development of our water powers can be undertaken.

It is also cheering to learn that this investigation is being pushed by capable engineers with the utmost speed, making it possible for the reports to be in the hands of Hon. T. D. Patullo, Minister of Lands, probably in January, so they may be scrutinized before the meeting of the Legislature and a Government policy regarding hydro development adopted at the 1920 session.

Our Committee had supposed that the generous offers of the Dominion Government would have been accepted, whereby the Conservation Commission would have undertaken the economic survey and the Hydrometric Branch the survey of the streams; these two afterwards handing their reports over to the B.C. Government for the actual work of development.

Now however it appears that the Provincial and Dominion Governments have come to an agreement whereby the initial expense is shared, yet the whole control and res-

(Continued on page 7.)

Board Appoints Hospital Matron

Miss N. E. Stirrup has been appointed to the position of matron of the Summerland Hospital. Miss Stirrup has been on the nursing staff of the hospital for a few weeks, and having signified her willingness to assume the greater responsibilities she was appointed to the position of matron at a special meeting of the Hospital Board on Wednesday. Miss Stirrup is a graduate of the Vancouver General Hospital and was in charge of the operating room in that institution for one year prior to coming to Summerland. She is also proficient in the operating of the X-Ray machine in which work she took a special course.

Penticton appears to be having its lighting troubles. The Penticton Herald of last week states that Penticton is reaching the stage when the lights are about as often off as on.

Triumphant Tour of the Prince of Wales in Canada

The Prince visits Agricultural College at Guelph. Photo taken with Mrs. Creelman, wife of the President, surrounded by Girl Students.

Time Limit Is Set For Application for Vocational Courses

Disabled Men and Minors Must Register

According to a recent Order-in-Council issued from Ottawa, a time limit has been set of applications for vocational re-training. The order states "Limiting time for application for re-training courses three months from November 1st, 1919, or discharge, whichever is later."

Registration forms have been provided and all who suffer from a disability which prevents them from following their former occupation should obtain and fill in a form; these may be obtained at any S.C.R. Representative's Office, either personally or through the mail. On completion, the form should be mailed to the Department S.C.R. Vancouver.

Any ex-member of the forces who is now at work, but who has a disability should register and thus protect his interests. The fact that a man registers does not mean that he is compelled to take a course at once. He may continue at his present position and can at a later date apply for a course, but he must be registered within the time mentioned.

The Order-in-Council also covers the case of those men who enlisted prior to attaining their 18th birthday, and they also must register within the period before stated.

Woman Member Of Legislature To Speak Here

Mrs. Lipsett, Pres., Resigns

Announcement was made at the regular meeting of the Summerland Womens Institute, held last Friday, that Mrs. Ralph Smith, M.L.A. would be in Summerland early in December and would address a public meeting. A committee was chosen to make the necessary arrangements for the occasion.

Before the meeting adjourned the president, Mrs. R. C. Lipsett, tendered her resignation as she expected to be absent from Summerland for two or three months. The resignation was accepted with general regret.

Roll call was answered with quotations from Burns.

Mrs. Bentley and Mrs. Zimmerman, delegates to the Institutes Convention held at Salmon Arm a short time ago, gave excellent reports of the convention including many helpful suggestions.

Some weeks ago members of the Institute made up a shipment of twenty-six boxes of apples which were donated to the women of one of the small towns of southern Alberta, where successive crop failures have brought much suffering. At last Friday's meeting a number of letters conveying the gratitude of the recipients were read.

McAlpine vs. Summerland Case Passes Into History

Council Accepts Lump Sum in Settlement of Amount Due Municipality

Warm Weather Permits Completion of North Main Irrigation Ditch Will Continue on No. 2 Ditch

Five thousand feet of concrete lining has been put in the north main irrigation ditch this fall and the whole ditch will be completed this week, according to the Engineer's report submitted to the Council on Tuesday. Last spring the ditch was finished for a distance of four thousand two hundred and fifteen feet from its upper end. This fall the work has been completed to station 9218, meaning that five thousand feet of ditch had been regraded, enlarged and concreted since irrigation ceased.

The second gang of men who had been working on No. 2 ditch has been disbanded. The numbers were few and camp expenses excessive for the number of men at work. Engineer Fawkes will transfer the gang from the north main to No. 2 ditch and will continue the work there while weather permits. A start had again been made on the re-building of the main flume on the west side of Garnett Valley and also of a flume on the bench above Trout Creek Point. The Engineer suggested that early consideration be given to the flume on the east side of Garnett Valley. An offer had been received from the Summerland Lumber Company for another ten thousand feet of flume lumber, at the same price as the present contract, \$30 per thousand. The Engineer also reported that the reservoir was being filled through the main canal. His report was referred to the Water Committee, which committee was especially requested to take up the question of the east Garnett Valley flume and the ordering of further supplies of lumber.

Mr. T. J. McAlpine, having tendered a cheque for five hundred dollars in full settlement of the Municipal account against him, the offer was accepted by a vote of three to one. The Reave asked for a showing of hands, a method of voting seldom resorted to by the Council. The cheque accompanied a letter from Mr. W. C. Kelley who stated that he had taken it upon himself to interview Mr. McAlpine in the hope that he could obtain from him an offer to clean up the balance of his account which would be acceptable to the Council. The account referred to is a balance due on a judgment, the result of a court action taken by Mr. McAlpine against the Municipality, in which judgment was given against him, both in the County Court and the Court of Appeals. There remains unpaid \$549.88 with interest to date of \$55.04. There was shown quite a disposition to refuse the offer and it was not until after considerable discussion that the resolution to the effect that the Council, considering it in the best interest of the Municipality, agreed to ac-

cept the five hundred dollars cash. Mr. McAlpine to also pay the cost of the discharge of judgment. The motion was proposed by Messrs. Kirk and White and when put to vote was opposed only by Councillor Dodwell.

Mr. Kelley, who came in while the question was under discussion, assured the Council that his services in the matter were given without remuneration and when questioned stated that should the Council decline to accept the offer and take the usual course to collect the Municipality would be at some further expense in legal fees and that the solicitors would also probably charge a commission, probably amounting to sixty dollars. Considering the possibility of further expense together with the advantage of having the money now instead of in monthly payments of \$25.00 along with the desire to have the matter finally disposed of, the resolution as noted above was proposed and carried. Councillor Dodwell who had described the proposal as an outrage, pointed out that Mr. McAlpine had declared his inability to pay twenty-five dollars per month and was now offering a larger sum than was at present due.

Mr. Kelley explained that Mr. McAlpine was borrowing the amount of the cheque tendered. The Collector laid before the Council a list of accounts of ratepayers who were much in arrears with their light and water rates and asked for instructions. After giving each of the ratepayers referred to fifteen days notice he was instructed to have the service discontinued if the account remained unpaid.

As requested the Engineer submitted a report covering cost of domestic water connections for the Fiske and Clements lots, showing a total of \$132.49. The report was received and filed, the Clerk being instructed to advise the parties that a connection costing this amount could not be made from the current revenue.

Mr. John Dale again asked the Council to do something to lower the level of Prairie Creek through the meadows. Councillor Kirk, who has a lot in that vicinity, explained that some years ago the several owners of meadow lands and the Municipality had cut a new channel for the Creek. He believed that the channel should be deepened and the matter was finally referred to him with the request that he go over the properties with the Engineer and Mr. Dale and other owners; a further report to be submitted to the Council.

A request by George Henry that an allowance for shale taken from his land be placed to his credit was referred to Councillor Campbell.

Splendid Response to The Final Victory Loan

Seven Hundred Million Dollars Contributed. Government Asked For Three Hundred Million

Summerland, Peachland and Naramata All Flying Prince's Flags With Crests

Names Inspector Of Hospitals

New Provincial Department In Interests of Better Health.

Dr. E. C. Arthur of Nelson who recently returned from nearly four years' service with the Canadian Army Medical Corps overseas, has been appointed travelling medical health officer and hospital inspector for the province. While a new post as far as recent years are concerned, many years ago such an office existed but it was allowed to lapse. Provision for reviving it was made in this year's estimates.

It was in 1890 that Dr. Arthur moved from Ontario to this province, locating at once at Nelson, where he has practised his profession ever since, except for his period overseas.

The new appointment is regarded as an important departure, calculated to bring about an important development of the work of the Provincial Board of Health. Hon. J. D. MacLean, supervising minister of the Department of Health, is stated to have explained that Dr. Arthur's duties as hospital inspector would involve frequent visits to the various hospitals and public institutions throughout the province, while he would be prepared to give such advice as would tend to increase their efficiency and scope. It would also be within his sphere to give advice in sanitation, and to maintain general supervision over that important phase of the board's activities, more especially in the unorganized districts.

Some days ago when the quota of \$40,000 was obtained the Prince of Wales' Flag was received, since then a crest has been added when 25 per cent. in excess of the quota was realized. A little over \$2,000 more would have won a second crest.

Trains Stalled in Coquahalla Pass by Bad Slide

K.V.R. and C.P.R. train schedules were both seriously disarranged last week-end by slides. On the main line one slide caused the death of two workmen and greatly delayed transcontinental and other trains. A slide in the Coquahalla held up traffic for three days. The train which left Vancouver Friday evening was held up by a slide a short distance east of Hope, and did not pass that point until Saturday morning. When it reached Romeo, just a few miles west of the Summit, a large slide blocked the entrance to a tunnel and required much hard work to clear the track, the train being held for two days. The heavy rains and melting snows have created the worst conditions of spring on the coast side of the mountains and all week trains have been running behind schedule.

T. H. Riley presented an account for car hire by the Constable in connection with rounding up a salesman who had overlooked the important duty of paying a fifty dollar trade license. This was referred to the Police Commissioners. Pipe line Foreman Dakison made his regular report in which among other things he told of a new pipe being laid from Bristow's corner to the residence of the manager of the Bank of Montreal, of several domestic water connections and putting in a larger pipe at the Paradise Flat pump.

The motion passed two weeks ago giving domestic water connection to the G. R. Hookham lot near the Koop property was rescinded. The water committee was requested to bring in a report at an early date on the question of domestic water extension.

Before adjourning it was decided to cancel the regular meeting of Tuesday next. The Council will therefore not meet until the 2nd December, unless something unforeseen arises.

Once again Canadians have responded generously to the call of their Government for funds with which to carry on during the closing out period of the war against German military aggression. For the purposes for which the loan is intended a total of \$303,000,000 was fixed as the minimum sum required. The people have come forward with \$700,000,000, more than double the amount asked for. Half the sum subscribed was by Ontario, Quebec taking second place, Manitoba third with just over forty millions, and British Columbia fourth with thirty-five millions.

Summerland has contributed \$57,850, all by private subscription, there being one hundred and forty subscribers with sums ranging from fifty dollars to four thousand.

This is considerably below last year's total, both in money and number of subscribers, when 383 contributors made up a total of \$84,400. Under the circumstances, however, the showing is a good one, and better than many expected. Much credit is due to the two canvassers, Rev. H. A. Solly and Mr. R. Purves, but for whose efforts the total raised would have been much less. Due to circumstances, principally those of harvest conditions there was a poor response to the call to organize for the campaign, with the result that these two gentlemen assumed the responsibility and carried on the canvassing without organization.

As the flagstaff at the Municipal Office is still missing the flag will have to be flown elsewhere.

Naramata has more than doubled her quota, winning several crests, \$8,000 was asked for from that district and \$16,950 was subscribed.

Peachland also has done well, \$16,500 being raised by private subscription. Originally Westbank was included in the Peachland district, the quota for which was placed at \$12,000. It is not known what the allotment for Peachland alone was; therefore the amount over subscribed cannot be stated.

Reports from the Kelowna section of South Okanagan are that a total of \$552,000 had been contributed there, \$120,000 having been the quota.

All points in the Similkamen riding have done well. Penticton and district raised \$270,000, the quota being \$104,000. In North Okanagan the total quota for which was \$250,000, the sum of \$527,350 was subscribed.

Veterans Taking Advantage of Government Assistance

Walter Mumm, a young Summerland war veteran, and two former Naramata boys, Roy Boothe and Reginald Boothe, also war veterans, are negotiating for the purchase of fifty-seven acres of orchard land on the bench above Dog Lake, known as the Bughman property. The price is said to be more than twenty thousand dollars. The property was formerly owned by the Shatfords. Much of it is planted to apple trees.

Ernest Lister and William Smith, Summerland, and Arthur Stiff, Naramata, are taking courses at the University under the provisions made by the Government for returned soldiers. Dwight Ritchie and John and Leighton MacLeod, former Summerland boys now living at Vancouver, are also taking courses under this provision.

Naramata News

Current Events of Town and District

Mr. Hugh Fraser who has been here for the summer, has returned to his home in Ottawa.

Mrs. William Mitchell who has been confined to her home with a severe attack of lumbago is reported to be slowly recovering.

Mr. Norman Mitchell has gone to the coast where he has secured a position for the winter.

Mr. and Mrs. Howard Rounds who have been visiting at the Coast returned home on Monday.

The Ladies Aid of the Methodist Church met with Mrs. J. Lyons on Wednesday afternoon.

The Women's Institute held their meeting on Tuesday afternoon at the Unity Club house. Mrs. Howard Rounds gave a most interesting report of the doings at the Convention which was held at Salmon Arm last month. The election of officers will be held at the next regular meeting and all members are requested to be present. Roll call was answered by the name of a woman's club or organization.

Naramata is well over the top in the Victory Bond Campaign. There are sixty-five families living in this community and out of that number there were fifty-seven bonds taken out. Our quota for this year was \$8,000, and our subscriptions amounted to \$16,950, so we may well feel proud of the effort that has accomplished so much in proportion to our size and we will take off our hats to the district that has done better.

Owing to the illness of Principal Richards, Mrs. R. C. Robinson will have charge of the school for the time being.

Mr. J. Lawler was in town Tuesday on business.

Mrs. E. P. Roe is visiting her sister Mrs. McDougall in Peachland.

Mr. and Mrs. A. Peck, Mr. O. Atkins and Mr. Fred Anderson of Summerland were the guests of Mr. F. C. Manchester on Sunday evening.

Triumphant Tour of the Prince in Canada

The Prince Welcomed by Girl Students at Guelph Agricultural College.

Two cars of hay and the same amount of coal are expected in very soon. Owing to the high price of wood the people find it cheaper to get in coal. One car of coal is for Wells and Wolstencroft, and the other is for the Farmers' Institute.

Mr. E. H. Hancock was successful in getting a fine buck on his recent hunting trip.

Mrs. D. Walters who is in the Summerland hospital is reported to be doing nicely and will soon be on the road to health and home.

Bread must be twelve hours old before it can be sold.

The thickest skinned animal is undoubtedly the whale. Nowhere is its skin less than several inches thick, and in some parts it is said to be nearly two feet.

Retail Men In Conference

Helpful Address by Successful Small Town Merchant.

Retail store men in conference recently heard one of their number who had built up a big business in a small western town tell in a most convincing way of the secrets of his success.

His name was Mann — just a plain, common-sense, hard-headed business man and merchant. He told how he started in a grocery business as a boy with \$1,600 capital, and the first week he opened up he had a fair sized advertisement in the local paper; "and I believe there has never been an issue of the paper from that time to this that our firm's name has not been advertised in," he said. Now the store he heads does a business of half a million dollars a year at retail and he advertises more than ever, and says that with advertising he believes they can make the business run a million. Some of the advice he gave the assembled business men was: "First have some thing in the newspaper all the time. You say it is too much trouble to write the advertisements? yes; but if you spend a little time, even till midnight, to prepare some good advertising you will find it the biggest money maker you ever had. Have your salesmen talk advertising, study it, and back it up. Have your jobbers help you prepare advertisements. Take some jobbers' finely written and displayed advertising, and apply it to your own business. Get them to print extra copies of their circulars and folders with your name on and send these out." And then he went on to impress those business men with the danger of not advertising, saying that the big mail order houses have lists of names by the millions; they know exactly in what communities they have the least competition, and they go after the business in those places where the business men do not advertise. And mark this further statement: "Eighty-four per cent. of the business failures are of non-advertisers. I beg of you to SPEND AT LEAST TWO PER CENT. OF YOUR GROSS SALES IN ADVERTISING; and back up this advertising properly and you will see wonderful results."

Is there not a business sermon in this man's observations, since he is not connected in any way with newspapering, but has grown rich as he has grown gray in the mercantile business, and is counted one of the greatest business successes in the Northwest?

One in twelve of the population in Saskatchewan is Ruthenian.

All babies are intelligent. If they weren't they would never be able to understand the language their mothers use in talking to them.

WATER NOTICE.
(Use and Storage.)

TAKE NOTICE that Naramata Water Users Committee whose address is Naramata, B.C. will apply for a licence to take and use 1,500 acre feet and to store 1,000 acre feet of water out of Chute Creek (East Fork), also known as Lequima Creek, which flows west and south and drains into the east side of Okanagan Lake about 12 miles from the outlet of said lake.

The storage dam will be located at a point 1 1/2 miles due west of 12 M. Post, Lot 2711. The capacity of the reservoir to be created is about 800 acre feet, and it will flood about 80 acres of land. The water will be diverted from the stream at a point about 3 miles west of 12 M. P., Lot 2711, and will be used for irrigation and domestic purposes upon the lands described as D. Lots 206, 207, 209, 210, 266, 3315, 3314, 156, 211, Plan No. 576, 575 and 706.

This notice was posted on the ground on the 18th day of October, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of

Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Kelowna Checks Invasion by Foreigners.

Settlers of Hungarian Extraction Made to See They Were Not Welcome at Orchard City

Last week note was made in this paper of a party of Hungarians who were travelling up and down the Lake for several days, the unwelcome guests of the C.P.R. The party had come from Saskatchewan to settle on land bought near Kelowna. Below is given the Kelowna Courier's version of the incident:—

The normally peaceful round of Kelowna life and work was disturbed for the first few days of this week by occurrences that, but for cool heads and guiding hands, might have led to serious trouble. Some little time ago a few people of enemy alien birth but claiming to be naturalized British subjects arrived in town from the district surrounding Weyburn, Sask., and located in the north end of town, where they purchased some property. Finding in the manner of the ancient Israelites that the land was good, they conveyed the glad tidings to their compatriots on the

prairie, and it became known on Monday that several families were due to arrive on the "Sicamous" and that more would probably follow later.

The G.W.V.A. and other returned soldiers took the matter under consideration and decided that this Hun influx must be stopped at once, and in this view they had the backing of the majority of the people in the Kelowna district. When the steamer docked on Monday afternoon, the Huns were there sure enough, several families of them, men, women and children numbering about a score. They attempted to land but found the gangways blocked by a solid mass of returned soldiers who offered them no violence but emphatically refused to allow them to come ashore. Representations by the ship's officers had no effect; the veterans would not budge, and eventually the "Sicamous" had to pull away from the wharf with her unwanted passengers still on board. As she left the crowd raised ironic cheers for the Kaiser, intermingled with groans, but otherwise the proceedings were good natured throughout, and no disposition was made to molest the undesirable immigrants. Perhaps Kipling is right, after all, as to the female of the species. One lady was heard to remark, "Why are the Huns being put back on the boat? Isn't there the lake to put them in?" Places south were promptly advised from Kelowna of the presence of the Huns on board the steamer, and returned soldiers picketed all points of landing so as to prevent the people from disembarking, should they attempt to do so. At Penticton a number of veterans maintained an all night vigil for this purpose.

Back the Huns came on the steamer the following morning, but they encountered the same resolute resistance to landing here as on the previous night, and they continued to travel north and south until the C.P.R. became very weary indeed of these unwelcome passengers and invoked the aid of the law. The north bound steamer on Wednesday morning was delayed several hours, arriving at 1.45 p.m. Inspector King, of the Royal Canadian Mounted Police, was on board and on the wharf were Provincial Constable Graham, City Constable Thomas and three or four of the provincial police from Vernon. Lieut. Col. Belson, secretary of the local G.W.V.A., Lieut. Col. Moodie and others who had exerted a wholesome and restraining influence on the younger element among the veterans, met Inspector King and discussed the situation with him. It had been proposed to hold a conference at which the Huns would be present, but the upshot of the matter was that the latter, having viewed the wharf now densely crowded with hundreds of returned soldiers and the general public, evidently thought better of their intention to persist in landing and decided to remain on the boat, which pulled away from the dock at 2.37 p.m. Eventually they got off the steamer at Okanagan Landing, and it is reported that they are being housed at the Vernon internment camp until the authorities decide how to deal with them.

It is said that the Huns describe themselves as Hungarians by birth and that they flourish certificates of naturalization obtained a number of years ago, but to our returned boys they look (and smell) just like the Helms whom our fellows put on the run at many divers times and places in France.

Meanwhile the G.W.V.A. have been allowing no grass to grow under their feet, and strong representations have been made to Ottawa urging the government to take a hand in stopping the influx of people so eminently unwanted in the district. They are also endeavoring to enlist the sympathies of local real estate dealers towards discouragement of sales of property to people of alien enemy birth.

Sole Antidote For the High Living Cost

Increased Production is Sure, if Gradual, Cure for Persistent Economic Distress

The high cost of living is the greatest material problem of our day.

For the man with a small income, it is a large sized menace; even for the man with a comfortable income it is a source of continual worry.

The phenomenal rise in prices since 1914 is due to the scarcity of goods brought about by the suspension of production during the war. We have also wasted untold quantities of material for war purposes.

This shortage and this waste must be made good before the world can be again as prosperous as in 1914. Until they are made good, it is useless to expect that prices will materially decline or even remain stationary.

Recognizing this fact, many people propose that we get over the difficulty by increasing wages, salaries and profits in the same ratio as the advance in prices. If this were possible, the effect would be the same as reducing prices to pre-war levels. Ultimately this may take place, but certainly not soon.

The "daylight savers" realized that they could not get the public to perform every act of the day one hour earlier than usual, so they innocently deluded us by advancing the clock. It worked because there was no fundamental law against it. But we cannot cheat ourselves over the cost of living in the same manner. Increasing wages without augmenting production sends up prices and leaves real wages unimproved.

What does the higher cost of living really mean? Sweeping away the camouflage of prices expressed

in currency, it means this: That we must now put forth greater effort and work harder to obtain the same satisfactions. There is no cure for it but economy and increased production.

It is not in the nature of the average human being to economize in what is lightly come by, nor to work any harder than is necessary to obtain a comfortable living.

Therefore, the high cost of living is not only natural, but necessary at the present time. Let us face this blunt truth bravely and apply ourselves patiently to work and to save—the only remedy.

Winter Sport Being Arranged

Basketball League in Process of Formation. Trial Game Played

The basketball season opened in Summerland on Monday, November 17th, when the town quintette journeyed to the College Gymnasium to play a trial game with West Summerland.

The town line up was as follows:—Messrs. Snider and Peck, guards; Will Angove, centre forward; Ralph Brown and C. H. Simey, wing forwards.

The town team opened the scoring with Will Angove making the first basket just after the commencement. West Summerland shortly afterwards evened, and then forged ahead and the play was fairly evenly contested for the first half with West Summerland having a little the better of it. Half time score, 14-9 in favor of West Summerland.

After the interval the town boys found themselves and again opened the scoring by making a basket just after the re-start. In the second half the Town team had decidedly the better of the play and soon caught up and passed the West Summerland score. The Town team played much better in the second half as the final score of 29-18 in

favor of the Town will show. For the Town Will Angove and Ralph Brown were the chief basket getters, while Harvey Phinney and Roy Darkis were the chief scorers for West Summerland.

It is hoped that the league will soon be started, and that the same amount of interest will be shown by the people as was formerly shown.

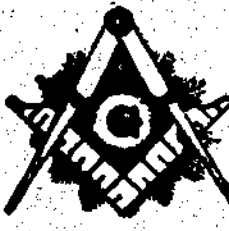

The California Raisin Association has been accused of raisin' prices.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$2 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 30 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emption are due or payable by soldiers on pre-emptions recorded after June 30, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 1, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces or dependants, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown lands acquiring rights from purchasers who, in complete fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission.

Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Summerland School Board

NOTICE TO PARENTS

As tonsillitis and acute colds are now present in the Municipality, and as influenza and diphtheria are reported in the Province, it is advised that school children with severe colds or any inflamed condition of the throat be kept at home. While any part of the respiratory tract is inflamed, such children are unable to do justice to their studies, are a possible source of infection to others, and are in a condition to readily contract any infectious disease.

F. W. ANDREW,
Medical School Inspector.

Municipal School Board

TENDERS FOR WOOD

TENDERS will be received by the Undersigned up to Saturday, December 6th for FIR or PINE Stove Wood, to be delivered and piled at the School yards as stated below:

- 30 Cords at CENTRAL SCHOOL,
- 7 Cords at TOWN SCHOOL,
- 7 Cords at GARNETT VALLEY SCHOOL,
- 7 Cords at TROUT CREEK POINT SCHOOL.

Wood to be sound and cut into 16 inch lengths. The standard of measurement in each case to be the true cord of 128 cubic feet.

Also 10 straight cords of 36 inch wood to be delivered at Okanagan College.

J. H. BOWERING,
Secretary School Board.

Corporation of the District of Summerland

Municipal Voters' List, 1920

FRIDAY, NOV. 21, 1919.

APPLE PRODUCTION IS ON THE DECLINE in Ontario. Whether the farmers are finding it more profitable to engage in other lines we do not know. Should this be the case the result will be a widening of the Canadian market for Okanagan apples. The president of the fruit growers' organization of that province speaking at the sixtieth annual meeting held last week expressed the hope that the Department of Agriculture would do something now before it is too late to save the apple production and suggested that experienced men be placed throughout the province as instructors in growing and packing fruit.

THE HON. S. F. TOLMIE, Canada's new Minister of Agriculture, has summed up the outstanding facts of Canada's agricultural position in an article appearing in the November number of The Agricultural Gazette. He presents statistics showing the growth of Canada's financial burden during the past five years and points out means by which our national debt will be reduced. He says in part, "I am confident that this Dominion, through the development of her natural resources, will in time wipe out her debt. Forests, fisheries and mines all contribute their part of the revenue, but by far the greatest returns will be derived from agriculture, which industry we must continue to establish in permanency and increase in magnitude. . . . One of the greatest responsibilities that falls on either the federal or provincial departments of agriculture is the conservation of the great wealth that lies in the virgin soil. Innumerable considerations are involved in this one problem, but the whole affair can be accomplished if we engage in mixed farming with live stock as a basis. This is the fundamental principle underlying success in agriculture."

THE DOMINION SEED BRANCH with laboratories at Ottawa, Winnipeg and Calgary reported over 35,000 seed tests for the year ending June 30th. The growth of seed testing in Canada is indicated from the fact that only 5,775 samples were reported in 1919. The great bulk of the work in our seed laboratories is done between September and June when each laboratory may handle up to 200 samples per day. Only ten samples are tested free of charge for any farmer or seed merchant during the season. Over this number, the service is charged for at cost.

Official seed testing is the basis of government seed control, which in older European countries is rated as a leading government service to agriculture. Any country without an efficient system of seed control soon becomes the dumping ground for inferior seeds from other countries, and low grade home grown seeds may be sold to unsuspecting farmers. Our system is frequently referred to in other countries as being the most practical and efficient. Its importance is now being better appreciated when it is required that imported seeds are not released from bond until they are approved at the seed laboratories, and when cereal grains, flax, corn, as well as clover and grass seeds are marketed on the basis of fixed quality seed grade standards.

Local Items of Interest

Supt. R. H. Helmer of the Dominion Experimental Station here went out to Calgary Monday where he will purchase two or three carloads of Alberta cattle which he will bring here and fatten on the farm.

An orchestra is being organized in connection with the St. Andrew's Young People's Society and on Sunday night there will be three violins and a cornet to conduct the musical part of the service.

The nursing staff at the Hospital was recently presented with a wicker rocking chair by Mr. H. Thompson, one of the patients. Such a chair has long been needed in the nurses' sitting room and is greatly appreciated.

Rev. Albert Cook, who was a chaplain with the Canadian forces in France, was preacher at both services at the Baptist Church here on Sunday last and also the previous Sunday. Last Sunday evening he gave a very interesting narrative of his experiences in France and of the duties of a chaplain.

Attention is directed to an invitation in this issue extended by the G.W.V.A. to all veterans to attend a social to be given by the veterans' organization.

Rev. A. W. MacLeod, who has many friends here and is now pastor of a church in North Vancouver, is spending his vacation in the Valley having arrived here last Friday. He has been spending the week hunting at Peachland. He will be in Summerland tomorrow and Sunday, and will preach at the Baptist Church.

Mr. Jas. Ritchie returned Monday from a short visit to Vancouver. He was a passenger on the train which was held in the Coquahalla Pass for two days by slides.

It is not very often that weather conditions on the Okanagan Lake offer any menace to traffic but the snow storm some nights ago brought trouble to the Sicamous. Running south from Peachland in the dark and in a thick snow fall, the boat got off her course and grounded near the point at Crescent Beach. She pulled off under her own power shortly with no damage.

The C.P.R. mailboat "Sicamous" reached here very late on Wednesday night. The steamer "Okanagan" had grounded at one of the wharves north of Peachland and the Sicamous was called to her assistance and though the mail boat left Kelowna shortly after six it was past ten o'clock when she reached Summerland.

Since buying the Lambie lot Mr. A. E. Cline has added to and greatly improved the small dwelling on the property.

Oroville is expecting to have a pottery established in that town in which Okanagan clay will be converted into crockeryware. The statement has been made that a grade of clay can be secured from which can be manufactured a superior grade of chinaware.

The busy little bee is better off than the busy man; he is provided with a sting to protect himself against loafers who come around to interfere with his work.

Passing Events: Social, Personal, &c.

Miss Minnie Carefoot spent last week-end at Vernon.

Thirty-three years ago there were only two milk cows in Vancouver.

There's a photographer in your town.—Chas. P. Nelson, West Summerland. 16tf

Mrs. F. D. Cooper went up to Kelowna on Wednesday morning to spend a week with her daughter Mrs. Benson.

Maurice Darke came in last Friday night from Innisfail, Alberta, being the last member of the family to return from that province.

Thirty-three years ago Dr. Mathison, dentist at Kelowna, ran the only job printing office in Vancouver, and was considered one of the best printers on the Coast.

The Okanagan Fruit Market Ltd. is the name of a private company recently incorporated with an authorized capital of \$10,000.00. The registered office of the Company is in Vancouver.

James H. Ritchie has returned from Vancouver where he has been on a short visit. We understand he intends going to Calgary to take a course in electrical engineering, which is open to ex-soldiers.

Mr. O. F. Zimmerman, manager of the Dominion Bank, leaves today for the east for two weeks, having received news by wire this morning of the death of his father, Mr. Adam Zimmerman, Collector of Customs, Hamilton, Ont. During his absence Mr. Scott, accountant, will act as manager at the bank.

As announced in our advertising columns Mr. G. K. Devitt will open a meat market on December 1st in the store in the Gartrell block formerly occupied by Mr. J. Downton. Mr. Devitt is not a stranger here having been a resident of the community for several months. He already has quite a herd of beef cattle and purposes importing mutton and other meats and also fresh and cured fish.

James Fyffe who has been in hospital at Penticton as the result of an accident is now making steady progress and hopes to leave about the middle of next week. Mr. Fyffe was working for the K.V.R. when the accident occurred and was removed to the hospital at Penticton. We are informed that he and a Chinaman were carrying a pole when the latter dropped or threw down his end, resulting in breaking a bone in Mr. Fyffe's shoulder.

THE G. W. V. A.

—INVITES—

Every VETERAN and Lady Friend to a

Social

In The Parish Hall,

Monday, Dec. 1st.

To Our Milk Customers

Owing to the monthly loss we have had in the past on milk bottles, we have decided for the future it will be only fair that customers pay for this most convenient and sanitary way of receiving their milk, i.e., customers OWN AND WASH their own bottles, as is the custom in many of the cities. Milk bottles now cost us 18c. for quarts, 15c. for pints, and 12c. for half pints, and will be charged at these prices as from November, and we are willing to buy bottles back from customers at these prices at any time they may wish to discontinue getting milk from us.

Balcomo Ranch

Per R. V. AGUR, Manager

Twenty years ago Okanagan Falls had a newspaper.

Phone your order for rubbers and I will deliver by mail at my expense. A. J. Beer. 18-20

Dr. and Mrs. Lipsett are planning to spend part of the winter at least visiting friends and relatives in California.

Miss Carrie Harvey left last Wednesday for the Coast where she will spend the winter with her sister, Mrs. James H. Baldwin.

Mr. Uriah McFadden arrived here on Monday from Sault Ste. Marie to visit his son Russell McFadden. Mr. McFadden Sr. practises law in the Lake City.

Alfred Vanderburg has bought the ten acres of orchard just north of the Woodworth lot recently acquired by Mr. J. C. Wilson, and known as the Capt. Lane lot.

A. J. Beer will leave for a short business visit to Vancouver the first of the week. Upon his return he expects to make announcement of considerable interest to the buying public.

The ladies of St. Andrew's Church will hold their annual sale of work and home cooking in St. Andrew's Hall on Saturday, November 29th from 2 to 6 p.m. A good opportunity to buy Christmas gifts, aprons, etc. 17,18

As will be seen from our advertising columns in this issue C. W. Lees of Kelowna is selling his orchards here. With close in bearing orchards in such demand this well known property will not be on the market long. Mr. Lees, we understand, is negotiating for the purchase of a 50 acre property on the K. L. O. benches, Kelowna.

Your friends can buy anything you can give them this Christmas—except your photograph. Chas. P. Nelson, West Summerland. 16tf

Through an oversight in sending out invitations to ex-soldiers to attend the public reception to be given to them by the women of Summerland there has arisen some doubt on the part of unmarried men as to whether each is expected to bring a lady friend. The married men are asked to bring their wives. The Review has been asked to make it clear that the single men are expected to bring a lady friend each.

New Meat Market

This is to inform the public of Summerland and district that I will open on December 1st in the GARTRELL BLK. (formerly occupied by Mr. J. Downton), with a full stock of fresh and cured meats, fish, etc.

Your patronage will be appreciated.

We will sell at lowest prices for cash only.

G. K. DEVITT

A Reception and Dance

To the Returned Soldiers

will be given by the Ladies of Summerland,

in the Empire Hall

Tuesday Evening, Nov. 25th

at 8.30 o'clock sharp.

All Come, and help welcome our Returned Men.

Peck and Manchester Orchestra.

Admission - Gentlemen - One Dollar

(Other than Ex-soldiers)

LADIES FREE

M.P., Lot 2711.

The storage dam will be located at the south-west side of Summit Lake. The capacity of the reservoir to be created is about 100 acre feet, and it will flood about 20 acres of land. The water will be diverted from the stream at a point on Chute Creek about 3 miles west of 12 M.P., Lot 2711 and will be used for irrigation and domestic purposes upon the lands described as D. Lots 206, 207, 209, 210, 211, 156, 3314, 266, 3315, Plan No. 576, 575 and 706.

This notice was posted on the ground on the 18th day of October, 1919.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

NARAMATA WATER USERS COMMITTEE, Applicant, By A. Harry Hook, Agent.

The date of the first publication of this notice is October 24th, 1919. 13-17

The REVIEW

Job Printing Department

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Master Thomas Drought, son of Mr. and Mrs. A. E. Drought left for the prairie on Wednesday of last week. He received a good offer from Mr. Skinner who will be remembered as having spent a few months here a couple of years ago. Since going back to the prairie he re-entered the mercantile business, and also has the Post Office. Having taken note while here of the capabilities of Tom he made the lad a good offer with chances to better himself. Tom has gotten to be such a help at home that his father fears he will not be able to spare him longer than till spring, when he will probably come back for the season's work.

Mr. Ort of the New Townsite left here on Wednesday of last week a single man and came back the following evening something else. He had gone as far as Vernon and met there his fiancée, who had come from Brandon. A quiet but pretty wedding was solemnized at that point. The bride was accompanied by her widowed mother, who is settling here with her daughter and son-in-law. We voice the community when we wish the couple much happiness throughout the days to come, and welcome them to our midst.

Mr. Thos. Bell went to Sicamous last week to meet his son who has been suffering from the results of a wound received while in action. He expects to remain with his father here for some time and we trust climatic conditions here may do much to help him back to recovery.

Mr. and Mrs. Budd of Gellatly are guests at the home of Mr. and Mrs. George Keyes, having come down on Saturday.

Mr. J. House of New Westminster, who has been visiting with Mr. R. A. F. Moore proved himself to be either a very lucky hunter, or a good shot (probably both). In any case he got the game, and nice game it was. He succeeded in getting one of the finest bucks we have seen brought out of the hills. He took in home to Westminster Friday night.

Messrs. Powell and Pope were in Vernon last week for two days.

The regular meeting of the Women's Institute was held on Friday afternoon in the Masonic Hall, with a good attendance. This was rather a special meeting as the prizes won at the Fall Fair were distributed.

Miss Mary Vicary was a passenger south on Friday evening last to spend a short holiday.

Mr. and Mrs. Everett Law with little Miss Pearl Law came in on Saturday from Penticton to visit relatives. They enjoyed a family round up and Mr. Law and Pearl returned on the evening boat. Mrs. Law remained over till Monday evening, and was accompanied home by Miss Rose Law, who is visiting in Penticton for a short time. Friends and acquaintances of Mrs. Law were pleased to see her looking so well after her illness.

Mr. Joe McDonald, Dominion Wharf and Dredge Foreman for this section spent Saturday in town examining the Government wharf here.

The congregation of the Baptist Church enjoyed a treat on Sunday last when they listened to an old friend and former pastor, Rev. A. W. MacLeod, now of North Vancouver. He is spending a couple of weeks in the Valley and consented to preach in the Baptist Church last Sunday and next. During the week he is spending part of his time at an old favorite game, deer hunting.

Speaking of deer hunting, one of our citizens has us all beaten so far when it comes to hunting, when he shoots a deer from his backyard. Hewas going about his work in the yard when he heard a shot not far distant and on looking up saw a couple of deer across a gully from his house. He just stopped in the house for the rifle, and in a moment's time secured himself some meat. This beats tramping for hours in the deep snow.

Mr. and Mrs. A. W. Miller left on Monday morning for Los Angeles, where they intend spending the winter with their daughter Mrs. Crisp and Miss Kate Miller who preceded them a short time ago.

Mrs. E. P. Roe of Naramata is a guest of her sister Mrs. H. McDougall, having arrived on Monday morning.

Eminent Painters Design Our Boxes

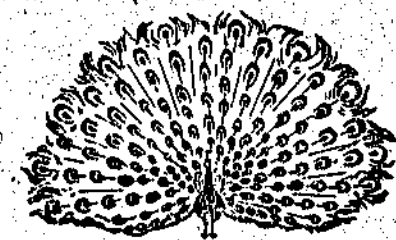

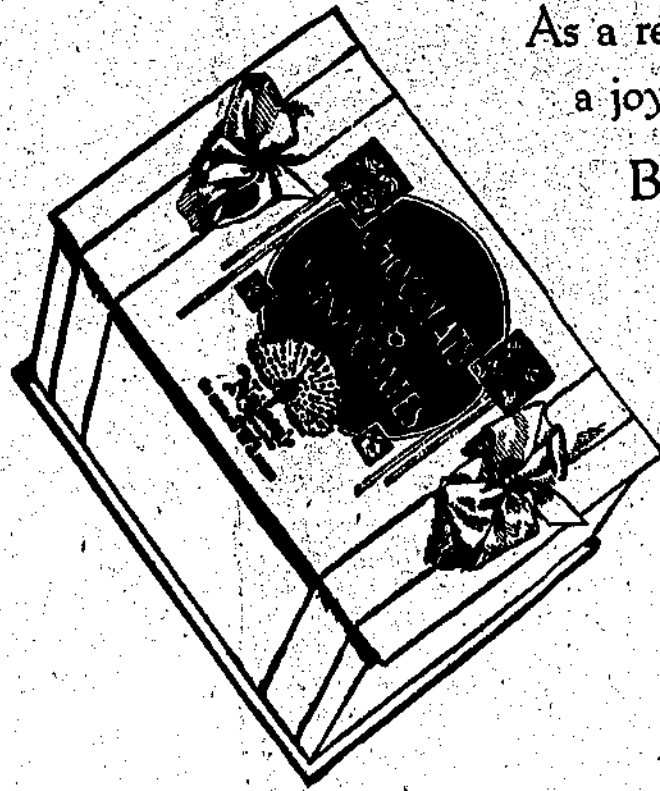

WHY? Because we believe their appearance should reflect the quality of their contents. And their contents are a triumph of the confectioner's art.

After a design is perfected, no detail is neglected to make the box an artistic triumph.

The shaping of the corners, the colour and tie of the ribbon, everything is made to harmonize.

As a result, the Gift of a Box of Neilson's is always a joy to the eye and to the palate.

Buy to-night—a Box of Neilson's Chocolats des Aristocrates.

Neilson's

"The Chocolates that are Different"

Mr. Grantham of Vancouver whose wife is a guest at the Edgewater Inn spent a day in town last week.

Another land deal has transpired this week. Maple Point has again changed ownership, this time from Mr. Burkett Robinson to Mr. Allan Wilson.

Mr. B. M. Whyte paid another visit on Tuesday, arriving on the morning boat.

The entertainment "Morrison's Old Fashioned Girls," given in the Orange Hall on Tuesday evening under the auspices of the G.W.V.A. was a rare treat indeed. It was undoubtedly the best of its kind that has been given to a Peachland audience for a number of years. The Veterans are gratified by the attendance, the hall being filled almost to its capacity, and none went away in the least disappointed, for the treat which the Veterans had promised was there for everyone. The proceeds netted the G.W.V.A. about \$45 over and above their guarantee which amount will be used proportionately between the next two entertainments which they have arranged for here. Some

thought the dollar charge for all over twelve years a little steep, but the Veterans explained that they were not sure how the proceeds would total and having guaranteed quite a large sum they felt that they had to keep themselves safe. After their experience with this their first they hope to be able by using the surplus to make the charges for the January entertainment somewhat lighter.

A PARTING SHOT.

An English vicar and his curate had quarrelled and the latter was requested to find some other congregation to minister to. The curate therefore preached his farewell sermon and the parishioners came in crowds to hear him. "My text," he said, "is taken from the moving story of Abraham, 'Tarry ye here with the ass, while I go yonder.'"

Random advertising, like random shooting in the woods, fails to bring down the game. Advertising—the real kind—is a continuous campaign closely related to salesmanship.

.. The Winding Trail ..

NOT WANTED The repulse of the Austrians at the bloodless Battle of Kelowna forms an interesting item in Okanagan annals. Incidentally it may also prove to be the cause of more or less legal argument. Whether it is legally permissible to obstruct the free passage of naturalized citizens from one province of Canada to another is a point which is evidently open to question, and if forced to a decision may give rise to more or less trouble. It has been suggested that the Dominion Government should take steps to prevent the influx of unwelcome foreigners, but it seems more of a Provincial than a Federal issue. These people are already Canadian citizens according to their claims, and if British Columbia does not want them within its borders, it appears to rest with the Victoria Legislature to deal with the situation by a special Act. It is true that any Act of the character called for might be overruled as being essentially ultra vires, but that remains to be seen.

Meanwhile the perfectly peaceful tactics of the veterans remind one of the attitude of the Quaker in Uncle Tom's Cabin, when he checked the progress of Tom Luker in his pursuit of Eliza. Active hostilities being denied him by his creed, he simply stretched out his arms, and said, "Friend, thee art not wanted here." As the hapless Luker was at that particular moment leaping across a chasm, and the outstretched arms precipitated him to the bottom of the thirty foot ravine, the friendly repulse was sufficient for all practical purposes, and the same may be said of the G.W.V.A. reception. Moreover, general sentiment is probably as much with the veterans as is the sympathy of "Uncle Tom" readers with the non-combatant Quaker.

ESTIMATES I see that the estimated loss of the Okanagan Valley through the recent frosts is 250,000 boxes. How was this estimate arrived at, seeing that the returns are not all in, and that no man knows just how many apples are actually spoiled? Whence does this estimate emanate? The other day a visitor from another part of the province was wishing he could personally gather apples of different varieties from the trees, and test the results of the frost by keeping, his reason being that he had a wholesome skepticism of the "blue ruin" talk about losses. He claimed that advantage

would be taken of the situation to depress the wholesale market, but that the consumer would in the end pay just as much for his apples, and would, moreover, never know the difference. How much or how little truth there may be in his theory is open to opinion, but it certainly looks as though the published estimates are at any rate somewhat premature, official though they be.

It is never so bad but it might have been worse. A CHEERING Moreton Frewen, writing in the "Nineteenth Century," RETROSPECT London, harks back as far as the 16th century, and points out that our present rise in prices is not to be compared to the advance between the years 1560 and 1600. In that period all prices and wages rose 400 per cent., which assuredly does make our trifling inflation of values look poor. One example he gives of the all round rise might be the basis of advantage to borrowers on mortgage—if only the lenders could be made to see it in the same light! The instance is this: a property mortgaged in the year 1560 up to 60 per cent. of its value, in 1600 was only encumbered to the extent of 15 per cent., by reason of the increase in its value during that eventful forty years! Supposing that history repeats itself, will it be possible for a needy borrower to persuade the mortgagee to increase his loan proportionately?

AUTOLYCUS.

HYDRO-ELECTRIC POWER FOR THE OKANAGAN.

Continued from p. 1.

possibility rests with the local government.

This arrangement has obvious advantages and should make for speed in application of the recommendations after reports are presented. Mr. Cleveland, the Water Comptroller, is said to be skilled in this class of work—he will know when his engineers' reports are in, which power is best suited for the work required and will have presumably the same engineers at hand to immediately undertake the further work required.

As this Department of Lands is a very busy one, having large schemes of land settlement and gravity irrigation systems in its care, it is possible that a commission may be named as in Ontario for the special work of hydro-electric development.

Which water power shall be selected for development is quite a secondary matter about which we need not worry. At either source, Adams River, Shuswap Falls or Skookum Chuck, there appears to be ample power to meet all our needs, and in the three combined a total of over 50,000 horse power. The site will be chosen for such reasons as economy of expenditure on dams and works, freedom from slush or anchor ice, and nearness to market for the power produced.

We may hope that the demand for power will increase so rapidly that a second stream will soon have to be harnessed, thus giving an interlocked system whereby our towns would be assured of continuous service and so feel free to dispose of their Diesel engines.

As to the economic survey now being made by Mr. Geoffrey Porter, E.E., showing the territory from Kamloops to Penticton to be a suitable field for hydro exploitation, I have personally no doubt whatever. A superficial estimate would indicate that the requirement in the first two years would be 8,000 to 10,000 horse power. I have already compared this field to that of Grey County system in Ontario, which has a similar population and mileage, taking its power from Eugenia Falls, yet that system, though costing about \$1,500,000, found market for only 2,000 horse power in the first two years of its existence.

There are difficulties, indeed, such as the irrigation service being only a summer load, and there being considerable distances between settlements, but these are offset by ease of development of great power. An earlier estimate by Mr. C. G. Cline, C.E., of the B.C. Hydro-metric Survey, showed that the Adams River Canon is so narrow that three miles down the stream a dam would require to be only 85 feet in width at the top. Such dam would give a head of 110 feet, would hold back the whole 50,000 acres of Adams Lake, and would give a minimum of 15,000 horse power at this point. A larger dam five or six miles from the Lake would develop 30,000 horse power.

There will doubtless develop in B.C. as in Ontario, many industries to use electric power, as for instance, the gypsum works at Falkland, whose work will require at least 500 horse power.

The whole question is large and inviting and full of great possibilities.

After the election smoke in Ontario has blown away, it becomes apparent that hydro remains the greatest practical question in that province. It cannot fail to become a leading policy of any government or party in British Columbia.

F. W. CLINGAN.

Salmon Arm, B.C.

Bearing Orchard For Sale

Having taken an option on a property at Kelowna, I am offering the following in Summerland for Quick Sale.

LOT 473, BLOCK 25; TEN ACRES:—all planted to apricots, plums, cherries, pears and apples, all good varieties; in the heart of the district; convenient to both West Summerland and the Lake, with abundance of water for irrigation. Domestic water laid on. Will sell with or without the packing house which was built so that it could be readily converted into bungalow.

LOT 455, BLOCK 22; FIFTEEN ACRES:—adjoining the above, well known as the Parker Orchard, plums, cherries, crabapples, pears and apples, all commercial varieties, with a block of 300 apricots and 200 Delicious and Rome Beauty planted last year. Good six roomed dwelling house, stable for six head, chicken house, shop and garage—an ideal property and a money maker that will pay for itself in three crops.

These orchards are offered separately or together; my sole reason for selling is that living in Kelowna it is impossible for me to supervise them.

Reasonable terms to responsible parties and a bargain to returned men.

Beacon Light Needed At Govt. Wharf.

Recent experiences of the operators of the Summerland-Naramata ferry again demonstrate the need of a light on the end of the Government wharf. Much difficulty is experienced at times in locating the wharf as the boats approach the Summerland shore. Only a few nights ago, after cruising up and down in search of the wharf, the whistle was resorted to in calling for help. Guessing the trouble, Capt. Roe's motor car was run out on the wharf with the head lights turned on to act as a guide to the boat.

PREPARE THE ICE HOUSE.

"We have ice cream every Sunday, and we have lots of it, which is probably more than the average city family has."

This statement was made by a farmer, whose family, though grown up, has not deserted farm life. The inducements which cause many young folks to migrate to the urban centres are counteracted by the comforts of the farm home.

The above remark refers to one of the incidentals, which, individually, seem insignificant but, collectively, mean much.

With ice so easy to secure, and the expense of packing so small, the wonder is that so few farmers put up a summer supply. Almost any kind of a building or lean to will serve as a storage place. All that is necessary is good drainage and solid packing with sawdust.

The comforts that accrue to those having an ice supply are numerous, apart from its utility in providing cold storage for milk, butter, fresh meats, etc. The cost of the supply is nominal, and the labour is required at a time when other work is not heavy on the farm.

MAKE A STIR.

Make a stir! What for? Because, if you do not you never will accomplish anything. Life is a field into which harvest hands in great numbers have been sent. Make a stir! Swing the scythe and cut down the grain. Use your hands, binding into bundles all that is ready for the granary. Make a stir. If you are a merchant, be on the alert; display your goods, attract the people, and in a lively way move around them, and show you are a willing servant, even anxious to accommodate in the smallest of matters. Advertise! Be energetic here. Why, your patrons are looking for some word from you, and really expect you to announce some great bargains, as you profess to labor in their interest. Stir around. Make the most of your opportunities; and life a grand success. Life is a battlefield, and no battle was ever won without a struggle, and no struggle ever took place without some stir; hence we repeat it: Make a stir, or you will never gain a victory.

When a man becomes engaged, somehow he always feels as though he ought to go around and apologize to all the girls from whom he has escaped.

Will Discourage Buying Orchards

Land Settlement Board Adopts Policy Respecting Buying Orchard Properties

Questions of great importance to prospective soldier settlers who contemplate going in for fruit growing in British Columbia were discussed at a conference held at Vernon, when Mr. F. C. Brown, head of the federal land settlement scheme on the mainland, Mr. R. G. L. Clarke, chief fruit inspector for British Columbia under the Dominion Horticultural Department, as well as appraisers and others connected with the board, were present.

The conference was the means of clearing up a number of points which had been obstacles to the smooth working of the board.

Of first importance probably was the decision of the board to discourage as far as possible the purchasing for new settlers of existing orchards. In future only experienced orchardists, who hold certificates A and B from the qualification board, will be considered for the purchase of such orchards.

The risk of handing over a valuable orchard to an inexperienced man is too great, both in the interests of the man and in the interests of the taxpayers who back the government's policy. It is felt, too, that there has been too much "swapping" owners in the working of the Soldier Settlement Act in British Columbia, and getting away from the spirit behind the whole scheme, which, after all, is to get more people on the land. It is not of much advantage to the country that a comparatively inexperienced man should be placed on the same farm which has been worked previously by an experienced man. Indeed, if such a policy is allowed to continue, there will be a decrease rather than an increase of production.

Some difficulty has been experienced hitherto in setting a value on fruit trees of various ages for the purposes of loans. It was decided that the basic value should be taken as \$1 per tree per year of age. In addition the varieties suited to different localities have to be considered when estimating the value of the stock.

For the information of those who propose to settle in the upper country, it is pointed out by the board that no assurance of inspection of lands until spring can be given owing to the fact that in most parts of the country the presence of snow and climatic conditions in general make it impossible to carry out proper inspection of the land. It is unwise, therefore, for men to take options on property unless they will hold good for some months to come.

The Hot Lunch in The Rural School

An important Women's Institute activity in connection with Ontario rural school improvement is the installing of an equipment in the school whereby a hot lunch may be served to the children at the noon hour during the cold weather. The equipment consists of a two or three burner coal oil stove and cupboard containing the necessary utensils. A few of the advantages of serving the lunch are:

1. Digestion is aided.
2. Pupils are enabled to do better work in the afternoon.
3. Pupils are encouraged to take sufficient time to eat.
4. The mid-day meal is better balanced.
5. Children are more willing to go to school on cold days.
6. The relationship between home and school is strengthened.

The Department of Education is prepared to give a grant the second year to schools installing this equipment and also to the teachers. The Women's Institute Branch has mailed a copy of the manual on house hold science prepared by the Department of Education to all secretaries and presidents of the branch institutes. This manual contains information on the equipment as well as on the special grants which are given.

This Reads Like The Pioneer Days

Mr. J. M. Robinson went down to Winnipeg a few days ago where he will endeavor to interest prairie people in the Okanagan. The following is taken from a recent issue of a Winnipeg daily:

J. M. Robinson, — the Father of the Okanagan — who is at the Royal Alexandra for a few weeks will be pleased to confer with any who may be contemplating going into fruit farming in the dry belt of British Columbia. After twenty-one years' experience promoting three of the most prosperous communities on the lake in the southern part of the Valley he concluded that his opinions and advice might be of service to those who are desirous of making a home in the "Sunny Okanagan." Telephone and make an appointment.

Municipalities Need Other Sources of Revenue

Government Commission To Hear Okanagan Claims This Week

Municipal taxation and the possibility of increasing municipal revenue without adding to the burden of present tax payers are matters that will be uppermost in the minds of a number of Okanagan municipal officials during the next few days. A sitting of the provincial commission on taxation will be held at the court house at Vernon on Saturday of this week at 10 a.m., when there will be heard any representations that may be made by the municipalities of the Okanagan in respect to municipal revenue or taxation.

When the date of the sitting was learned the City of Vernon sent out invitations to the other municipalities in the Valley to attend a special Okanagan conference to prepare the case for the Okanagan municipalities to be put before the commission on taxation on Saturday.

At a special meeting of the Summerland Municipal Council held Wednesday morning, Reeve Simpson was appointed to represent Summerland at the Valley Conference and sitting of the taxation commission. He boarded the boat Wednesday night so as to be in Vernon Thursday morning.

It is expected that Premier Oliver, Hon. John Hart, Minister of Finance, and other government officers will be at the hearing on Saturday.

Hydro-Electric Power Scheme

Something more of the possibilities of the hydro-electric scheme referred to in The Review last week was learned from Mayor F. W. Clingan of Salmon Arm, who was in Summerland for several days this week.

Mayor Clingan expressed himself as satisfied that the engineer's report to the Government would be a favorable one. This report will cover the proposal to develop electrical energy below Adam's Lake. This lake, approximately half the length of Okanagan lake, lies to the north-west of the Shuswap Lake, with which it is connected by a short river emptying near Notch Hill. Here a large amount of electrical energy may be generated.

Mayor Clingan says that he finds that, like Salmon Arm, every municipality in the district closes each year with a deficit on its local power plant. A large market will be immediately available for power from the Adam's River and Mr. Clingan seems quite confident that within a short time the district from Kamloops to Kelowna will be served from that source. He also thinks that the line will be extended from Kelowna down the west side of Okanagan Lake to serve Westbank, Peachland, Summerland and Penticton.

He informed The Review that the Government Engineer will visit Summerland within a few days when he will look into local conditions as they may concern the Adam's River project.

Returned Men Are Entertained By Local Women

Reception and Dance With Ex-Soldiers as Honored Guests is Huge Success

One of the most successful social functions in the history of Summerland was that held Tuesday evening in Empire Hall when the women of Summerland entertained our returned soldiers at a public reception and dance. The affair was very largely attended both by our returned men and other citizens. At times the spacious floor was uncomfortably crowded with dancers which, however, did not seem to mar in the least the pleasure derived from the rhythmical movement to pleasing music by the crowd which was bent on having a good time.

The program began with a few dance numbers following which a brief program was carried out with Rev. H. A. Solly as chairman.

Speaking on behalf of the women Dr. Andrew in a few appropriate words welcomed our ex-soldiers back to Summerland. Mr. Nixon in responding for the men to the welcome given them expressed the appreciation of the soldiers of the manner in which the women of the nation had carried their share of the burden of war. In a large measure it was they who had brought the struggle to a successful issue, by caring for the wounded, entertaining the soldiers and through the splendid efforts of the Red Cross and other organizations. But for the frequent parcels from home and the letters of encouragement and the other work of the women the spirit of the men would have oozed out at their heels. While the women may be pleased at the return of the men the latter were delighted to again be with the women of Summerland.

Other numbers on the program included vocal solos by Miss Brown, Messrs. Newton and Graves, and recitations by Miss Onslow. Refreshments provided by the ladies were served shortly before midnight and dancing was continued until two o'clock.

London eats 10,000,000 loaves of bread a day.

Two Exciting Basketball Games

West Summerland Defeats Penticton in College Gym.

With a score of 23 to 24 in favor of the local team, one of the fastest and hardest fought games of basketball ever seen here was played in the College Gymnasium last Friday evening between the Penticton team and the West Summerland team.

At half time the score favored Penticton but when play was resumed the local boys soon made good their losses and when the game ended they had a point to the good.

Four field baskets were scored by Charlie Steuart and another four by Roy Darkie, each thus making eight points. Harvey Phinney was successful in scoring six points and two points were scored by Arnold Gayton. James Weir of the visiting team did the heavy scoring on the other side, making ten points with five field baskets, followed closely by Glenn with eight points. Several points were also made by Dr. Turner.

A game between Summerland Boy Scouts and the Penticton Cadets resulted in a walk away for the Scouts. The game was so one sided that it was stopped at half time. Score 16-0.

Nearly two hundred people attended and great enthusiasm was shown.

An interesting visitor to Summerland next week will be Mrs. Ralph Smith, member of the House at Victoria. As announced in our advertising columns Mrs. Smith will address a public meeting here. She has particularly expressed a wish that the audience should not be a lop-sided one. She wishes to talk to the men as well as the women and hopes to see as many of the former as the latter in her audience.

Peachland the Best Lighted Town on Lake

Has Power to Spare and Is Further Extending Street Lighting on Main Streets

Peachland is enjoying the enviable position of having electrical energy to spare and also of having the reputation of being one of the best lighted towns on the lake.

With street lights spread over a distance of about six miles along the water front and main thoroughfare overlooking the lake, Peachland presents a very pleasing sight when viewed from the water at night and this extensive panorama of light is to be further extended if the present plans of the municipal council are approved by the ratepayers.

At a special meeting of the council held last Monday plans for extending the electric light service to meet the demands of citizens in the southern section were decided upon and a by-law for the raising of \$8,500 for this purpose was completed. This by-law will be voted upon by the ratepayers at an early date.

Two extensions are proposed, one from Princeton Avenue to Deep Creek and the other from Young's corner to McKenzie's. When these extensions are made Peachland's street lighting will run considerably farther south than at present and the lighting will be carried farther up the hill.

With plenty of electrical energy for all and every consumer on a flat rate, no one has any occasion to practice economy, and places of business and homes as well as the streets are well lighted. Meters are not used, a flat rate per lamp being charged, only ten cents per month per light being required above a certain minimum.

Peachland would be glad to have more industries using power during the daylight hours. Power could be supplied up to a certain quantity at a low rate. At present the municipal plant is only developing power up to about fifty per cent of its capacity.

London eats 10,000,000 loaves of bread a day.

Lloyd George Eats S'land Peaches

Britain's Prime Minister recently received a package of peaches sent him by Mr. H. M. Lumsden of this place and acknowledgement has been made to Mr. Lumsden of their receipt by the Premier's secretary as follows: "I am desired by the Prime Minister to thank you for the peaches which you sent him and which arrived quite safely. Mr. Lloyd George very much appreciates your kindness in making him this gift."

Mr. Lumsden also sent another package of peaches to relatives in Ireland and although several days longer on the journey than the crate sent to Mr. Lloyd George, he has been informed that more than seventy-five per cent of the fruit arrived in good condition. In both cases he sent Elbertas.

Reeve Simpson Will Not Offer For Re-Election

Makes Definite Announcement to That Effect This Week

Reeve Simpson will not be a candidate for re-election to the position of chief magistrate. His announcement to this effect is published elsewhere in this issue.

At the last regular meeting of the Municipal Council he intimated that this course would probably be necessary. General regret was expressed and he was requested to defer making such an announcement while there yet remained any hope of his being able to serve for another year. He has since made the decision and for reasons given by him does not delay in making the ratepayers acquainted with the fact that he will not be in a position to serve as Reeve next year.

The information will be received with general regret and much surprise, and though Mr. Simpson has put in quite a few years on the Council this is his first year at the head of the Board, and no doubt he would have been returned unopposed had he found it possible to thus serve the public another year.

Council Discusses Road Equipment

While the Reeve and Council were in session at the special meeting on Wednesday the matter of road equipment was discussed at some length. The Engineer had suggested the purchase of a grader to be shipped in the same car with a quantity of rods, ties, etc., part of the steel flume supply being forwarded from Snakatoon. He also recommended the purchasing of a road drag from the same firm, one that could be attached to the rear of the municipal truck. It was agreed to order the latter to come in the car referred to but it was thought best not to place an order for a grader until a market was obtained for the debentures to be issued under the by-law by which the expenditure on road equipment was authorized by the ratepayers.

Ernest E. Simpson Dies of Pneumonia

DIED.—On Nov. 22, at Ashcroft Hospital, Ernest E. Simpson, a resident of Walthachin, formerly of Summerland. He leaves to mourn his loss a wife and two daughters, Lily and Muriel, also a brother Will, all residents of Walthachin. Mr. Simpson and family came out from Halifax, Yorkshire, England, nine years ago, and lived in Summerland six years previous to moving to Walthachin, where Mr. Simpson has been engaged in orchard work and in the packing house.

He died very suddenly of pleuropneumonia, and was interred in Ashcroft cemetery on Nov. 24. Friends please accept this, the only intimation.

Make haste slowly if you would get rich quickly.

Mrs. Blackwood Whitman, chairman of the Advisory Board of the B.C. Women's Institutes, died at Calgary on Wednesday. She was returning from Toronto where she had been attending the Convention of Confederated Women's Institutes.

Respected Citizen Passes Suddenly

Whole Community Shocked by Sudden Death of Miss Annie Dale on Tuesday

A great shock was given to our community on Tuesday by the sudden death of Miss Annie Dale at the residence of her brother, Thomas Dale. She and her brother John were on the eve of moving into their new home on College Hill, and on the morning of the 25th she was about her usual duties, when she was found unconscious where she had fallen off a platform outside the house. Medical help was at once summoned but to no avail.

Miss Dale moved with her parents in the early eighties from Grey County, Ontario, to Manitoba, where the family settled on a farm near Portage La Prairie, and later they moved into that city. In 1907 the family moved to Summerland and ever since have been prominent in all progressive work of the district. Miss Dale possessed a most winsome personality coupled with kindness, high ideals and abilities of a high order. These qualities were freely at the service of all, and no greater testimony could be given to the universality of her human sympathies and abilities than the great variety of people who claimed and prized her friendship.

The hospitality of the Dale home both in Portage and Summerland reached all classes of people, and whether in entertaining the returned missionary, the College boys and girls, the rancher from the hills, the casual traveller or the family friends, the same spirit of service was meted out to all.

Miss Dale for some years engaged successfully in the teaching profession and taught in the Prairie Valley School as well as in our Central School. She was one of the early members of the Baptist Church and during her entire residence here was one of its most prominent and beloved members, both in Sunday School and Church work. During the war she supervised the work of the young people here in making and sending various articles to the boys overseas, and wrote many of her former students and younger friends encouraging letters. Many a soldier's heart has been gladdened by a substantial parcel and cheery letter from her. In fact she worked so hard during the war in these activities that her health was undermined and she was forced to spend some months at the Coast last summer recuperating, and had only recently returned. Her ill health had forced her to resign her position as trustee on the school board, where she had been giving excellent service.

An impressive funeral service was held on Thursday afternoon at the Parkdale Baptist Church, conducted by Rev. A. W. McLeod, Rev. H. A. Solly and Rev. W. H. Bates, and the very large congregation and beautiful floral tributes testified to the respect and esteem in which Miss Dale was held by all classes in the community.

The sincere sympathy of the entire community is extended to the members of the family, Mr. and Mrs. Thos. Dale, Miss Ruth Dale, Mr. John Dale and Mr. and Mrs. E. W. Bateman.

British Columbia is fast becoming a leader in the pure bred cattle industry. Stock entered in the Pacific International Show at Portland, Ore. a few days ago by the University of British Columbia demonstrated the quality of British Columbia cattle. These animals were mostly Ayrshires and captured a number of first prizes and several championships. B.C. Holsteins were also very much in evidence, taking top positions.

Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here for the week, ending Tuesday:

Date 1919.	Max.	Min.	Rain	W. S.	Barometer
Nov. 19—40	30	.03	0.00	1.7

Peachland Doings

A Weekly Chronicle Furnished
By Our Local Representative.

Peachland has gone over the top in the 1919 Victory Loan with a quota of \$12,000 for Peachland, Westbank and Glenrosa together. Peachland subscribed \$16,500 without the other two districts. The Westbank and Glenrosa returns were sent in to the Kelowna unit, but since that time an adjustment has been made whereby the Prince of Wales' flag which we are entitled to will be forwarded to us.

Mrs. J. B. Robinson has returned after a pleasant holiday in Summerland with her sister, Mrs. R. C. Lipsett.

We had quite a little excitement at the wharf one evening recently just as the boat was landing. One of the deck hands dropped in between the boat and the dock where the footing was not very good, but very wet. Fortunately the young man was able to keep himself afloat till ready and willing hands dropped a rope down to him and pulled him up to the deck of the boat, none the worse except for the ducking and slight nervous shock.

Mr. and Mrs. Brinson who have been visiting Mr. Brinson's brother here were passengers north on Wednesday morning.

Mr. Nuttall, who will be remembered by residents here as having supervised the work on the Tewart place a couple of years ago, spent a day or two in town last week visiting friends and bidding them goodbye as he was leaving to return to Ireland, intending to remain there.

Mr. A. H. DeMara, representing the Occidental Fruit Company was a recent visitor in town looking up the possibilities of a large output of tomatoes in this district. They are urging a greater production of tomatoes throughout the Valley, and Mr. DeMara hinted that if they could get enough to warrant it, they would consider starting up a cannery.

The Peachland branch of the W. C. T. U. held an afternoon ten cent tea at the home of Mrs. H. E. McCall on Wednesday of last week.

After spending a pleasant few days last week visiting Mr. and Mrs. George Keyes, Mr. and Mrs. Butt of Gellatly returned to their home on Thursday.

After spending the summer here, employed at the Union packing house, Master Austin Hay left on Monday to return to his home in Vancouver where he expects to take a business course.

The Methodist congregation held their annual church meeting in the home of Mrs. N. S. Elliott on Friday evening. There was a good turn out and those present spent a very enjoyable evening. Cost, ways and means, etc., were discussed for the inside finishing of the basement of the church and it was decided quite within the possibility in the near future. The annual collection taken in connection with this gathering resulted in something like half enough funds to cover the material required, which amount it was stated would be available for that purpose.

Mr. Roy Davidson was a recent visitor to Penticton, going down on Thursday evening and returning on Saturday last.

Mr. O. Keating spent a day down the lake this week, returning on Wednesday morning last.

Saturday night last saw our last veteran home, that is the last of the ones whom we expected to come now. Mr. Leslie Maxwell is remaining in the old country and Mr. Robt. Howell will not likely come through here for some time. The one referred to arriving on Saturday night was Mr. Grant Lang, whom we are glad to note came home looking fine and fit.

Rev. A. W. MacLeod who has been visiting in the community for a short time preached again from the Baptist Church pulpit on Sunday last. In the lapse of time since he used to preach from the same pulpit Mr. MacLeod has lost none of his ability and zeal, and the congregation were pleased to hear him again.

Construction work on the North Fork dam has been abandoned for the time being owing to weather conditions, and the crew came out last week end after successful operations up to the time they shut down.

Mr. W. D. Miller and W. L. Williams were passengers north on Monday last, returning on Tuesday evening's boat.

After a few days spent in Penticton visiting her brother Mr. Everett Law and Mrs. Law, Miss R. Law returned to her home here on Tuesday morning last.

Mrs. Wm. J. Moore left on Tuesday morning to spend a short time visiting her daughter Ms. Cartwright at Okanagan Landing.

Mr. Wm. Fulton has recently bought the old J. A. Miller block opposite the post office and is busy making necessary alterations and improvements preparatory to moving his butcher business and dwelling there. Mr. Chidley has moved his barber stand to one of the rooms over the general store.

**Mr. Devereux's Company
As An Organization**

Critics agree that it is refreshing to find a group of actors such as the Devereux Company, who are modest enough to interpret their authors instead of merely exploiting themselves.

Some of the plays in their repertory are rarely performed in America, several practically unknown except to experts, and many never before seen here.

Most of the company themselves are strangers to critics generally. They agreeably surprise the reviewers by their uniformly clever acting. One critic of note, Henry Scott Miller, recently confessed his inability to write an orthodox criticism of the work of the Devereux Players because he had enjoyed himself far too well to sober his thoughts down to the discreet tone of the critic who shuns enthusiasm as he would the devil himself, and never praises anything for fear of being thought too easy to please, for he even laughed during some of the plays, which was enough to prove him no critic, but he applauded also, which was another damning point in his disfavor.

So he really could not say with professional sincerity and conviction from a critic's severe point of view that the Devereux Company were the admirable and faithful performers that this applause and laughter indicated.

The Devereux Company is to appear at the Empress Theatre for one day, Saturday, December 6th.

All is fair in love—except brunettes.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveys lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land. Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims. Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant. Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim. Records without permanent residence may be issued, provided applicant makes improvements to extent of \$100 per annum and records same each year. Failure to make improvements record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required. Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm without actual occupation, provided statutory improvements made and residence maintained on Crown granted land. Unsurveyed areas, not exceeding 5 acres, may be obtained after fulfilling residential and improvement conditions. For grazing and industrial purposes areas exceeding 500 acres may be leased by one person or company. Mill, factory or industrial sites on timber land, not exceeding 40 acres may be purchased, conditions include payment of stumpage. Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made. PRE-EMPTORS' FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces during the time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the date of such person's death to one year after the conclusion of the present war. This privilege is also made retrospective. No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 30, 1919. Taxes are remitted for five years. Provision for return of money accrued due and been paid since August 4, 1914, on account of payments, less or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by persons Allied Forces, or dependants, acquired direct or indirect, remitted from settlement to March 31, 1920. SUB-PURCHASERS OF CROWN LANDS. Provision made for issuance of Crown grants to sub-purchasers of Crown Lands acquiring rights from purchasers who failed to complete purchase, involving forfeiture on settlement of return of money, interest and taxes. When sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed pro-rata between the whole area. Applications must be made by May 1, 1920. GRAZING. Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued on numbers ranged, priority by established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Naramata News

Current Events of Town and District

Mr. Gerald Lumsden who has been here most of the summer left recently for Vancouver, where he will stay for a few months. Mr. John McLean of Summerland was the guest of Mr. J. M. Robinson this week. Mr. McLean left for a short visit to Paradise Ranch before going to Montreal for the winter. Mr. Mark Manchester is expected in about December first. He is now in Seattle after a strenuous trip from Dawson over the White Pass Trail and then down to Juneau in a row boat. Mr. Manchester will go up further north in the spring and install the necessary electrical machinery to take out the silver which has been found in large quantities. He will be employed by the Guggenheim interests with whom he is at present occupying the positions of electrical superintendent with the Yukon Gold Company. Mr. and Mrs. F. C. Manchester were in Summerland on Tuesday night. Mr. Ernest Steers was in Penticton and Summerland Tuesday. Mr. Lee and children left on Tuesday night for the Coast where they will remain for the winter and then return here to take up their residence on their fruit lot. Mr. Morris of the Compensation Department was here on business Saturday. Mr. Matt. Wilson has successfully undergone another operation that was made necessary after his severe accident this fall. Mrs. Dean Walters who has been in Summerland at the hospital has recovered sufficiently to be moved to her home. Mr. Dean Walters was a visitor in Summerland on Tuesday. Mr. Richards has returned from the coast where he was obliged to go for medical treatment and will resume his position as principal of the school. Those who attended the War Veterans' Reception and Dance given by the ladies of Summerland in Empire Hall on Tuesday night report a most enjoyable time. The hall was most tastefully decorated with flags, bunting and green branches and the committee who had the affair in charge deserve great credit. There was a good program of musical and literary numbers and then the dance and afterwards a most excellent lunch. The Manchester and Peck orchestra seemed to please the patrons and dancing was enjoyed till after two o'clock. A great many more would have liked to go over but owing to the severe storm on the lake it was impossible for the ferry to make the return trip. Mr. Gerald Roe and Mr. F. C. Manchester were the only passengers on the one trip made at eight o'clock and they report the worst sea ever experienced by them on the lake. The hatchway was carried away when about half way over and only the skillful handling of the boat by Capt. Roe enabled

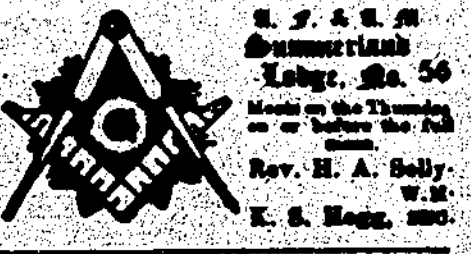

them to land without further mishap. Mrs. Vera Palmer Anderson and daughter are visiting Mrs. Dan McKay for a few weeks. Mr. D. O. Hughes who went to Ottawa to meet her son is expected home in a day or two. The car of coal that was ordered by Russell Wells is here and being unloaded. It comes just in time to take some of the chill off the present cold snap. Mr. and Mrs. Myers and Miss Alice left Tuesday morning for Prince Edward Island. On their way they intend to call at Banff, Calgary and Winnipeg, where Mrs. Myers has a sister, then on to Toronto to visit Rev. Chas. Myers. From there they will go to Hartford, Conn. where with Mr. Myers' friends they will enjoy a family-re-union and spend Christmas, after which they will leave for Charlottetown, Prince Edward Island, Mrs. Myers' former home, where they expect to remain till spring. A small company of Mr. and Mrs. Myers' friends bent on having a good time gathered at their home Saturday evening in the form of a surprise, to wish them a pleasant trip and welcome return. Needless

Same Price Here As in U.S.A.

Thirty-five volumes of the best reading—in weekly instalments—for less than five cents a week. That is just what the Youth's Companion offer for 1920 really means. The contents of the new volume, which will include 8 serial stories, over 200 short stories, fifty or more sketches by men of distinction, articles and special departments, would make 35 good volumes (at \$1.65 each) if published in book form. And there is now a uniform flat price of \$2.50 to all subscribers in Canada and the United States. If you subscribe as soon as you see this notice you will receive all extras mentioned in the following offer, including many of Capt. Theodore Roberts's Up-river Folk Stories. New Subscribers for 1920 will receive: 1. The Youth's Companion—52 issues. 2. All remaining weekly 1919 issues. 3. The Companion-Home Calendar for 1920. All the above only \$2.50 everywhere in North America. to say all present spent a most enjoyable evening.

Bearing Orchard For Sale Having taken an option on a property at Kelowna, I am offering the following in Summerland for Quick Sale. LOT 473, BLOCK 25; TEN ACRES:— all planted to apricots, plums, cherries, pears and apples, all good varieties; in the heart of the district; convenient to both West Summerland and the Lake, with abundance of water for irrigation. Domestic water laid on. Will sell with or without the packing house which was built so that it could be readily converted into bungalow. LOT 455, BLOCK 22; FIFTEEN ACRES:— adjoining the above, well known as the Parker Orchard, plums, cherries, crabapples, pears and apples, all commercial varieties, with a block of 300 apricots and 200 Delicious and Rome Beauty planted last year. Good six roomed dwelling house, stable for six head, chicken house, shop and garage—an ideal property and a money maker that will pay for itself in three crops. These orchards are offered separately or together; my sole reason for selling is that living in Kelowna it is impossible for me to supervise them. Reasonable terms to responsible parties and a bargain to returned men. Write, wire or phone COLIN W. LEES, -OWNER- Box 612. KELOWNA, B.C. Phone 622

MUNICIPAL FINANCING

LARGER REVENUES ARE NEEDED by many of the municipalities of this province to carry on municipal government and to maintain roads and bridges. The situation has reached an acute stage with some of the municipalities and so much pressure has been brought to bear on the government that a commission was appointed to investigate municipal taxation. The Minister of Finance, Hon. John Hart, has been gathering data and on Monday the first sitting of the Commission was held at Vancouver, Hon. Mr. Hart presiding. Other members of the commission are, Premier Oliver; E. D. Johnson, Inspector of Revenue, and Robt. Baird, Inspector of Municipalities.

The increased cost of maintaining roads and the growing necessity of better roads are making great demands on municipal finances. A possible source of revenue to meet this expense would be a tax on motor vehicles but the Provincial Government collects this tax, as it also does amusement taxes. The municipalities have been insisting that the motor tax or a proportion at least go to the municipality, and the same claim is made on the amusement tax. Some of the largest cities are also asking for power to impose income taxes which are now being collected by the Federal and Provincial Governments.

Premier J. Oliver last Monday stated emphatically that there is no hope of the municipalities receiving any revenue from the motor or amusement taxes or from any other revenue now collected by the Government. The results of the investigation by the commission will be awaited with deepest interest by those interested in municipal finances.

A REQUEST

THE EDITOR OF THIS WIDELY READ JOURNAL is always glad to have matters of local interest brought to his attention, so that the local field may be thoroughly covered each week. Otherwise some things may be overlooked that should appear. Our phone is 39—easy to remember—and someone is always at this end. In sending news, contributors should write plainly with ink or typewriter; do not use indelible pencil and NEVER write on both sides of a sheet.

And further, if an event occurs early in the week, do not wait till Friday noon to get it to this office—or it may not reach us in time. Recollect that our type setting machine must operate practically all the time, and if not working on what you send or what the editor digs up, it may be on something not quite as interesting to you.

Another thing. Early copy always has the best chance of liberal treatment in space; in other words, it stands less chance of being blue pencilled for the sake of brevity, or being left out altogether.

§ § § § §

BRITAIN WANTS OUR FRUITS

CANADIAN CANNED FRUIT REPRESENTATIVES operating in London, England, report that distributors are ready to take all they can offer. The British public is found to be willing to purchase a Dominion product of which the diversity and excellence are a revelation to most people, because they have never seen it before save in its alluring but unattainable form in windows of the Government offices.

A large distributor states that, as 50 per cent. of these goods are sold to restaurants, careful grading of fruits is essential, and the question has been raised whether a system of Government inspection would not prove advantageous as a guarantee of quality and a safeguard to the reputation of Dominion canned goods, which incidentally would be a valuable form of inter-imperial education besides being an excellent advertisement for the exporting Province.

§ § § § §

FOR AMATEUR BUG MEN

THE COLLECTING AND PRESERVING of insects and the mounting of insect collections has become an important part of the work of the students in many of our schools. The teachers who have specialized in agriculture have learned something of the methods of collecting and preserving insects and are arousing the interest of their pupils in this fascinating subject. In order to assist those desirous of securing accurate information Entomological Circular No. 12, "Directions for Collecting and Preserving Insects" has been prepared by J. H. McDunnough, M.A., Ph.D. This circular may be obtained free upon application to the Publications Branch, Department of Agriculture, Ottawa. It indicates concisely some of the most essential features in connection with the collection of insects, and aims to arouse an interest for intelligent collecting of insects. Insects are very delicate creatures and unless the greatest of care is observed in both collecting and packing for shipment an otherwise valuable collection may be rendered practically worthless from both the aesthetic and the scientific standpoint.

PEACE, PERFECT PEACE.

"Oh, where can rest be found?"
A weary poet sighs.
That's easy. Drop into a shop
That doesn't advertise.

A clergyman who was entering a street car in Vancouver and saw a drunken man inside, asked the conductor if they carried intoxicated men on the cars. The conductor replied: "Yes; if you are quiet about it and hurry in."

Corporation of the District of Peachland

Municipal Voters' List, 1920

TAKE NOTICE THAT A COURT OF REVISION will sit to revise and correct the said Voters' List on Wednesday, 10th December, 1919 at 2 o'clock p.m., at the Council Chambers, Peachland.

All holders of LAST AGREEMENT TO PURCHASE must file the necessary Declaration prior to the closing of the Voters' List on 1st December next, at 5 o'clock p.m., to entitle them to be on the said Voters' List.

WM. M. DRYDEN,
Municipal Clerk.

Peachland, B.C.,
17th November 1919.

The Canadian Poultry Situation

No branch of food production has suffered during the war to a greater extent than that of poultry and eggs. In many countries of Europe it has almost disappeared, while in others scarcity of feed and high prices and the closing of markets have compelled serious reductions of poultry flocks. The need thus created is regarded by Mr. W. A. Brown, chief of the Poultry Division of the Federal Live Stock Branch, as Canada's opportunity to pave the way for a permanent place in the export trade to Great Britain. Mr. Brown expressed this opinion at the first Canadian National Poultry Conference, held in Ottawa this year, the report of which, has been published and is available at the Publications Branch of the Department of Agriculture at Ottawa. It was strongly urged at that Conference that this is the time of co-operation. The provinces were recommended to co-operate with the Dominion as the great clearing house of operations calculated to promote the industry. The poultry industry was recommended as a means of soldiers' re-establishment by Mr. W. J. Black, Chairman of the Land Settlement Board. He expressed the hope that he would see a small flock of poultry about the homes of every returned soldier who becomes settled on the land.

A Valuable Discovery

Magnet May Be Utilized to Locate Sunken Ships

A sub-sea magnet invented by a Japanese scientist named Nakahara promises to be instrumental in locating many of the sunken submarines, warships and transports which have gone down in comparatively shallow water.

Tests of the magnet over the Japanese naval target grounds recently brought to the surface thousands of projectiles fired in practice. At the present price of scrap iron, 600,000 shells which lie scattered at the bottom of the Japanese bays will be worth some \$3,000,000.

It has been suggested that the magnet be used to attract the shell scraps from the soil of European battlefields. The value of this scrap iron alone would amount to a very large sum. A development of the Nakahara magnet promises to be powerful enough to actually lift sunken vessels from the bottom of the sea. Magnets are now in use on land which are able to elevate a weight of 40,000 pounds.

To stimulate interest in the study of music it is proposed to install phonographs in every school in California.

"It is said that a soldier should make a good husband, since he has learned to obey orders. Some of them want a vacation, however, when they return home."

To The Electors of Summerland.

Ladies and Gentlemen:

Having been less than one year in the position to which you elected me last January and being intensely interested in the welfare of municipal Summerland, it is with great regret that I am obliged to announce my retirement from public life at the end of this year.

My own affairs at this particular time demand my best and undivided attention. I sincerely hope that it will be believed that only necessity causes me to lay down this important work. I trust also that some one of the many more able citizens will willingly take it up. I believe there are many in Summerland who, if they would, could fill the post better than I.

I wish to thank all for your courtesy and forbearance towards me while I strove to serve the district as best I could.

E. R. SIMPSON.

Passing Events: Social, Personal, &c.

Major Hutton was a visitor to Vernon this week.

Phone your order for rubbers and I will deliver by mail at my expense. A. J. Beer. 13-20

Order your Christmas turkey or goose now or be disappointed, says J. Downton. See his advertisement. 18

Mr. R. Johnston returned home a few days ago from the prairies where he had been for several weeks having gone east as far as Winnipeg.

Mrs. J. Pennant left on Wednesday morning for a visit to England by way of Halifax. She plans on spending the winter in the homeland.

A pair of side curtains, presumably for a Dodge car, has been at The Review Office for some weeks, awaiting an owner which earlier advertising failed to find. 18

Rev. J. J. Baker of Mineola left this morning to join Mrs. Baker in Toronto. They plan on spending the winter in the east. Mrs. Baker and her sister Mrs. York went east some weeks ago.

Sugar continues to be annoyingly scarce, many homes being without it for days together. When an odd sack or two reaches one of the local stores it is quickly disposed of in one or two pound lots.

Mrs. Norris, who has been a guest at the Lipsett home left by K.V.R. train early Sunday morning for Vancouver. After a few days at the Coast she will go to Winnipeg to spend the winter with her brother, Dr. Alexander.

Duncan Woods has returned to enjoy the balmy climate of Summerland as is his wont at this season of the year. Much of the summer he spends at Hedley looking after his mining claim, but Summerland has an overpowering attraction for him when winter hits the Similkameen.

It is not an uncommon thing for the K.V.R. trains to be delayed at this season of the year by slides on the western division of that line. Last Saturday's train from Nelson due here about eleven o'clock Saturday morning did not arrive until after three o'clock the next morning. The delay was occasioned by a slide near Grand Forks.

Lost and Found.

LOST.—Automobile gas tank cap. Finder kindly return to Summerland Supply Company. 16p

A carload of Toncean metal fluming has arrived for the Municipality.

A display of pictures for Christmas, Dec. 1st to 6th. Chas. P. Nelson. 18

Mr. Harold Smith who was operated on at the Hospital a few days ago is making good progress toward complete recovery.

It is probable that the tennis courts of the Summerland Lawn Tennis Club will be used this winter as a skating rink.

Miss Laura Carruthers of Bradner, B.C. who has been visiting her aunt, Mrs. Vanderburg, left by K.V.R. train Tuesday to return to her home.

Attention is directed to an announcement in this issue of a change in the time table of the Summerland-Naramata ferry. The change is made so that a daylight ferry service may be given.

Rev. A. W. McLeod who has many friends in Summerland, particularly among the young people, with whom he is always a favorite, preached at the morning and evening services of the Baptist congregation here on Sunday.

Miss Gordon of Nanaimo, a former nurse at the Summerland Hospital, is a guest of the matron, Miss Aitchison, at the Hospital. Mrs. Gray, another nurse, is expected in a day or so to say good-bye to Miss Aitchison before she goes east.

Calendars, booklets and pictures suitable for framing, Dec. 1st to 6th. Chas. P. Nelson. 18

At a meeting of interested citizens held last night at the office of J. R. Brown the question of improving Shaughnessy Avenue and Beach Avenue was again taken up. The committee named last spring to deal with this matter was asked to circulate a petition to the Council. The object is to have the streets mentioned improved as to surface and trees planted and boulevards built. The Municipality will be asked to do the necessary work, a portion of the costs of the improvements to be met by a local improvement tax on the properties along the section of the streets so improved.

UNITANIA BEST WORD YET TO DENOTE ENGLISH SPEAKING NATIONS.

San Francisco.—Unitania is the best word yet received by the Word Trade Club of San Francisco in competition for its prize of \$1,000 for the very best word to name U.S. America and all parts of Britannia. The prize of \$1,000 will be paid at noon on 15th May, 1920, at San Francisco and will be presented to the person suggesting the best name. This name is now being used by the World Trade Club in carrying on its campaign for the Unitanian metric standardization.

Wise indeed is the man who knows how little he knows.

Walter Wright's place is for sale. 17,18

Afternoon tea served at The Studio Dec. 1st to 6th. Chas. P. Nelson. 18

Miss Gertrude Elsey was successfully operated on this week at the Hospital for appendicitis.

Will any having thanksgiving envelopes for St. Andrew's Church kindly send them in. 18

Dr. and Mrs. R. C. Lipsett expect to leave here early next week to visit with friends and relatives in California.

Mr. Martin accountant with Crehan, Mout & Co., has been spending the week auditing the municipal books and those of the Fruit Union.

Work is progressing on the erection of the new isolation ward in connection with the Summerland Hospital. The new building will be completed and furnished as quickly as possible.

The ladies of St. Andrew's Church will hold their annual sale of work and home cooking in St. Andrew's Hall on Saturday, November 29th from 2 to 6 p.m. A good opportunity to buy Christmas gifts, aprons, etc. 17,18

Freeman Nuttall, well known to many in Summerland, particularly in the Peach Orchard district where he resided for two or three years, is a visitor to Summerland this week. He plans to soon return to his home in Ireland where he will remain.

Having bought a lot in the new subdivision near the Baptist Church and next the Dale orchard Mr. R. Johnston plans on commencing building operations at once and when his new house is complete he will move with his family from Trout Creek Point, having sold his orchard property there to Harold Smith.

Dr. and Mrs. Andrew expect to leave here next week for a visit to California and to Honolulu, provided they can obtain steamer passage to the latter resort. They will be absent for about three months. During this time Dr. W. H. Wood will practice here. Dr. Wood was formerly located in Greenwood but intends locating in Penticton.

If you have a chance to say a good word for the community in which you live, say it. It won't do any harm and it may be a great benefit to many others.

Many people spend anxious hours over the sickness of a dog and ignore entirely the sufferings of a neighbor or some other poor individual.

There will be a service morning and evening in the Baptist Church, West Summerland, at 10.30 and 7.30, conducted by Mr. Baker. C

Morning Service in St. Andrew's Presbyterian Church at 10.30. Preacher, Rev. J. Ferguson Millar, Penticton. Subject, "The Forward Movement." Young People's Society at 7.30 p.m.; speaker, Mr. J. G. Robertson; topic, "St. Andrew, or The Historic Flag of Scotland." Orchestra selection. Remember Roll Call. Members of St. Andrew's Society cordially invited. C

Linen Shower For Local Hospital

A linen shower is being planned by the Ladies Hospital Auxiliary to be held sometime before Christmas. This plan for obtaining furnishings for the new hospital isolation ward was decided upon at a meeting of the Auxiliary on Monday afternoon. The meeting, was called for the purpose of considering furniture and furnishings for the new ward but as all particulars required were not available it was decided to defer ordering the furniture for a few days. A list of the linen required is being prepared and citizens will be asked to contribute at a social gathering on a date which will be announced soon.

The Huffman farm—of 160 acres near Enderby has been purchased for \$10,000.

"Delilah"

A Storp for the Boys and Girls

Delilah was one of a family of four wild ducklings. She was hatched, however, by a domestic hen who acted as her foster mother. Her place of birth was on the farm of Jack Miner, at Kingsville, Essex Co., Ontario.

Delilah's sisters were Polly, Susan and Helen. They were wild enough little creatures at first, but soon learned to eat custard and were so tame that a tap on a tin pan would bring them all running up for food.

Now Mr. Miner had often been asked the question, "Do birds return to their homes?" He felt sure they did, but had no proof.

Here was a fine chance to make an experiment. So he marked each of these four ducks with an aluminium tag with the words, "Box 48, Kingsville, Ont."

They migrated on or about December 10th, 1912. Helen got shot at Lake St. Clair. On March 14, 1913, Polly came home; on March 18, Delilah returned; and on March 30 Susan appeared, though wounded in the wing and foot. So the question as the return of the birds was answered.

In the autumn of 1913, they migrated again, and in the spring of 1914, back came Polly and Delilah and brought their mates with them too. The young drakes were shy at first, but the two ducks coaxed them down. They raised families that year, and in the autumn, away they went again.

In the spring of 1915, Delilah arrived on March 13 and Polly three days later. A shot had grazed across her beak and cut the side off, leaving it hanging. She just stood around with her mouth open. Jack Miner gave her custard and porridge and, in two days he had her in his hands. In about a week or so, he took both ducks to a photographer, and got a picture of them.

Notice how birds know their enemies and their friends. These ducks had been shy around trying to keep clear of people lying in ambush for them, and now they were eating out of a man's hands. These creatures are not so silly as we are apt to think them.

Polly stayed the winter of 1915-16 on Mr. Miner's place, but in the spring of 1916 she was shot. Delilah, however, migrated regularly every autumn and returned the following spring, returning thus six times in all.

During the six seasons, she has raised five families, two of eight, two of nine, and one of twelve—forty-six ducklings in six years.

This shows that if we protect the mother birds, we need have no fear of the extermination of our wild life. But it also shows what fearful destruction can be wrought by indiscriminate shooting, especially in the spring.

Remember that, though shooting may give you a little pleasure, it is well to limit your bag that, in future years, the birds may not have disappeared.

FIFTY-EIGHT STRIKES IN TWELVE MONTHS.

Fifty-eight strikes and lockouts putting 80,000 men out of work and involving losses estimated at \$4,000,000 during the last twelve months in B.C. was one of many interesting statements by Mr. E. C. Knight, President of the Employers' Association of B.C. at their first annual meeting.

Caribou in untold thousands are ranging the hills within five miles of Dawson and over an area of fifty miles wide by one hundred miles in length. Every hill and valley is covered with the herds. Arrivals from Glacier Creek travelled the main road through the centre of the herd for fifty miles, and they estimate that there are hundreds of

Chicken Bones à la Neilson

HAVE you ever eaten chicken bones? No! Not the bones of a bird, but a chocolate coated mixture of chopped figs, cream and sugar.

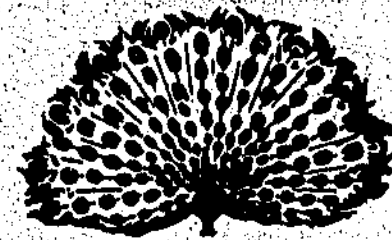

They taste delicious, so let us tell you how we make them.

We buy rich, juicy figs from Smyrna, cane sugar from Jamaica, cream direct from the farm, and blend all three into a delicious confection.

The figs are minced, the sugar and cream is made into a paste, and then the figs are rolled in the paste until a complete mixture is formed. This is rolled to the diameter of a pencil.

The figs are in the middle. The paste is then cut into two-inch lengths. Each contains its portion of figs. From there the "chicken bone" goes to the dipping room, where it receives a coating of very smooth and delicately flavored chocolate, and so on into the box.

Next time you Buy a Box of Neilson's, watch out for the "Chicken Bones."

To Our Milk Customers

Owing to the monthly loss we have had in the past on milk bottles, we have decided for the future it will be only fair that customers pay for this most convenient and sanitary way of receiving their milk, i.e., customers OWN AND WASH their own bottles, as is the custom in many of the cities. Milk bottles now cost us 18c. for quarts, 15c. for pints, and 12c. for half pints, and will be charged at those prices as from November, and we are willing to buy bottles back from customers at those prices at any time they may wish to discontinue getting milk from us.

Caribou in untold thousands are ranging the hills within five miles of Dawson and over an area of fifty miles wide by one hundred miles in length. Every hill and valley is covered with the herds. Arrivals from Glacier Creek travelled the main road through the centre of the herd for fifty miles, and they estimate that there are hundreds of

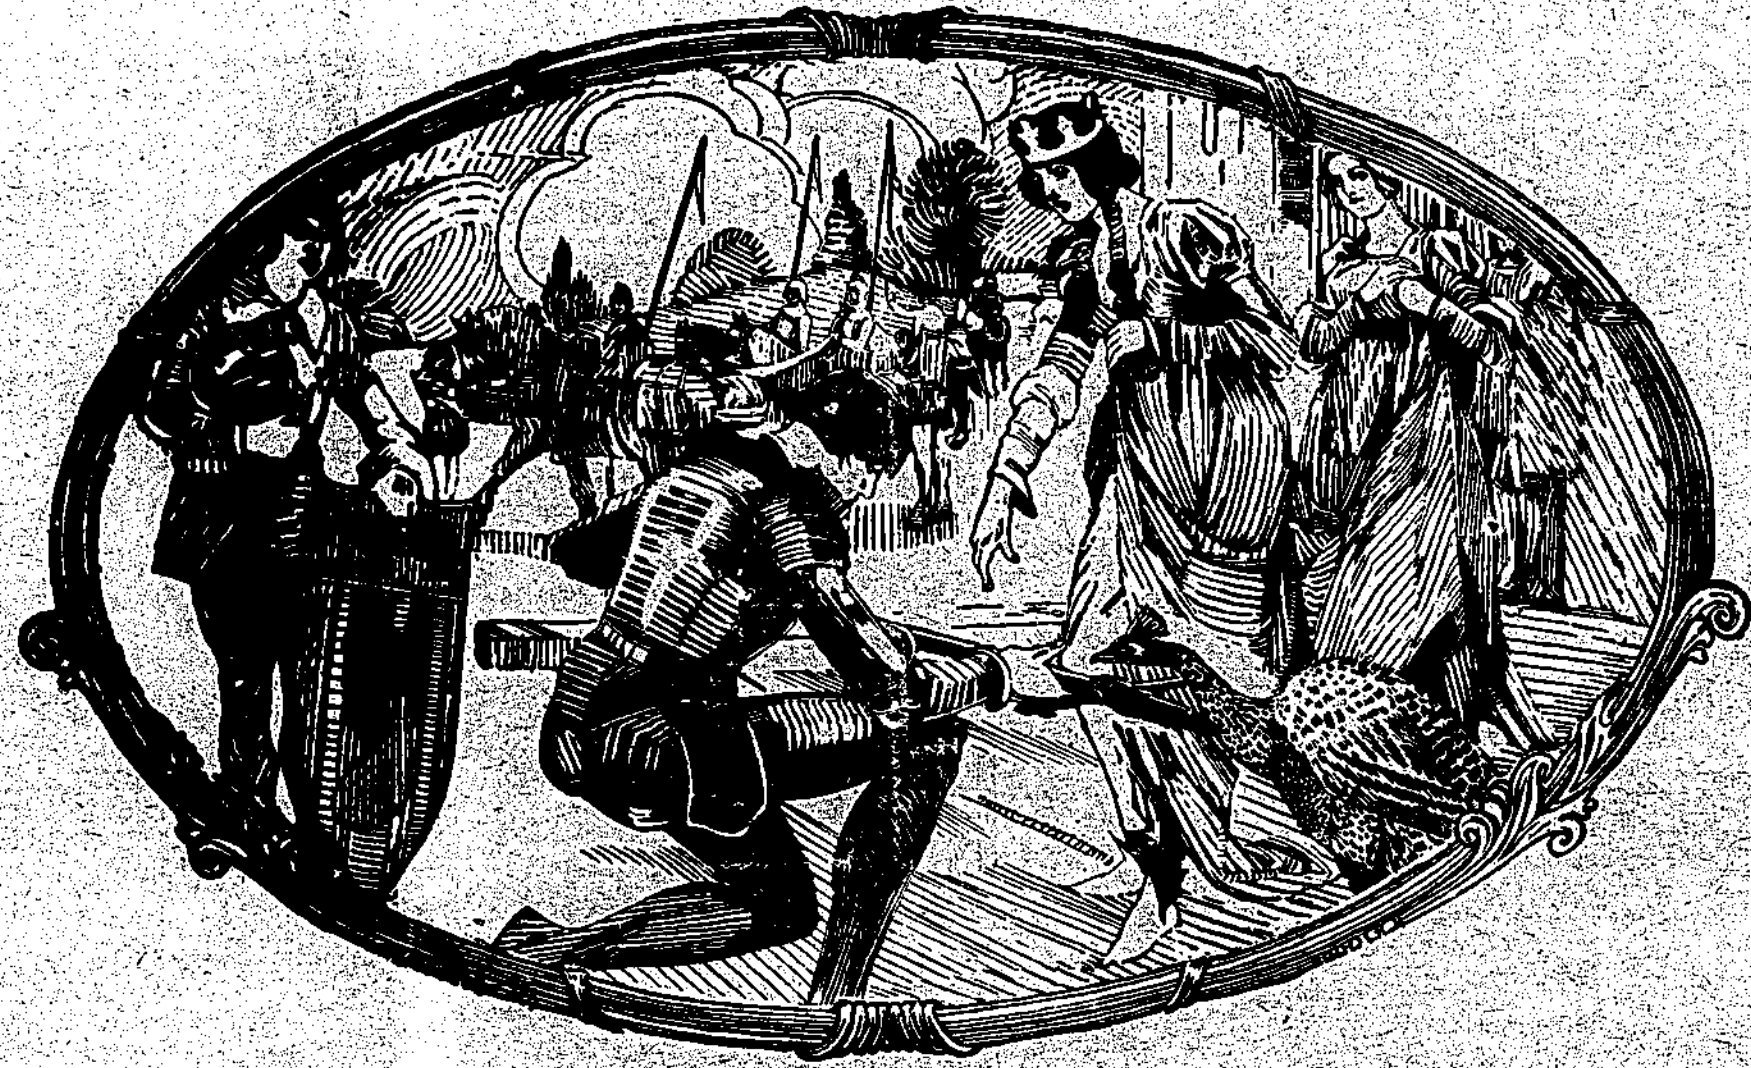

thousands and possibly millions of animals in the great assembly. Dawson people are leaving in squads to secure their winter meat supply. With beef and mutton selling at from sixty to eighty cents a pound, the caribou afford great relief from the high cost of living. Women, boys and girls are joining the men in the big hunt.

Turkeys and Geese For Christmas

THE PRINCE WITH THE NORTH WEST MOUNTED POLICE.

There was a riot of color, sensational riding and fun at the R. N. W. M. P. barracks at Regina following the inspection of the famous force by His Royal Highness the Prince of Wales. Drawn up on the square were the depot division, the physical training class and a squadron of mounted men for inspection. The Prince passed slowly through the lines, stopping here and there to speak with men with overseas service and displaying a decided interest in the winter dress and different types of uniforms on parade. Addressing the officers, N. C. O.'s and men, following the inspection, His Royal Highness complimented them on their smart appearance. In the course of his remarks he showed himself to be familiar with the history of the force, which, he declared, was as famous as the Dominion itself. He referred to the work of the R. N. W. M. P. in the Klondike

in the first days of the gold rush, and the respect the uniform had gained in the West. The record of the force, he said, was known in England, and the name was famous in all parts of the world. Immediately after the inspection a bunch of untrained horses were brought in, and for a time there was real excitement. It was evident that the Prince wanted to get into the crowd and get a better view of what was going on, but each time he managed to get in the danger zone some official led him gently to one side. The mounted squad put their mounts through stunts. The horses lay down, played dead, and did all sorts of things. The action was fast; rider after rider would break loose and dashing across the square would lean far from the saddle and pick up some object from the ground.

Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. In this they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

Vaudeville

"VOIX DE VILLE" said Jean Chardavoine, a French musician; and thus came into being three hundred and fifty years ago what to-day we call "Vaudeville".

Vaudeville is the melting pot of the dramatic and musical arts. In it nothing is out of place; it includes drama, comedy, tragedy, farce and burlesque; and every form of music from grand opera to jazz is heard upon its stage.

Every city has its favorite vaudeville house. But you—who live at a distance from the great cities—can have vaudeville right in your home, with

The NEW EDISON

"The Phonograph with a Soul"

This marvellous instrument—that is every other instrument in one—will RE-CREATE everything that vaudeville has to offer—the entire magic of the theatre staged for your amusement and pleasure, in your parlor or living room.

Why not let the New Edison bring this wonderful variety of entertainment into your home?

"Edison and Music" is a beautiful book that you should have. Just ask for it and "What the Critics Say" too—it proves Edison superiority.
