

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 12, No. 36, Whole No. 607

SUMMERLAND, B.C., FRIDAY, APRIL 2, 1920

\$2.00, payable in advance

OKANAGAN UNITED GROWERS HAVE SUCCESSFUL SEASON

Representatives of Local Unions Hear Full Report on 1919 Operations

E. R. SIMPSON AGAIN VICE-PRESIDENT

Markets Greatly Extended Through Efforts of Excellent Selling Organization. O. K. Brand in Demand

At the annual general meeting of the Okanagan United Growers held last week in Vernon the directors presented an exhaustive report to the shareholders covering operations of the past year. This was the seventh annual report and with it was the printed report of the auditors and the financial statement. The meeting was well attended by the members from the several affiliated local organizations.

The directors elected for the current year are: J. T. Mutrie, Vernon; E. Trask, Vernon; R. Arnott, Armstrong; J. Chambers, Penticton; L. J. Proctor, Enderby; E. M. Carruthers, Kelowna; Thos. Powell, Peachland, E. R. Simpson, Summerland.

At a subsequent meeting of the directors, Captain J. T. Mutrie was re-elected as president and E. R. Simpson as vice-president.

Much of the material in the directors' report referred to above was included in our report of the annual meeting of the Summerland Fruit Union. There are however other salient features which will be of interest to our readers.

There were twelve directors' meetings held during the year. The expenses and indemnity for the year amounted to \$1,437.20, a saving over 1918 of \$502.55, and over 1917 of \$1,235.55.

The statement shows a surplus on fruit and vegetables handled for affiliated local associations of \$33,490.90. Added to this: interest on savings bank account, \$705.70; surplus on handling charges for unaffiliated associations, \$492.76; profit on vegetables, fruit and feed purchased, \$5,725.74; and allowing for interest on loans from growers, depreciation on furnishings and equipment, reserve for bad debts, and cost of removal (totaling \$9,155.28, and amount of Graham's suspense account written off, \$17,481.84, there is a surplus on the year's operations of \$13,777.98.

This \$13,777.98 has been carried forward. Adding it to the balance from previous years, there is a present balance of \$18,024.64.

Working Capital Account

The amount shown on the balance sheet in this account is \$96,943.41, which is made up of deductions: 1916, \$21,934.87; 1917, \$16,489.25; 1918, \$24,836.91; 1919, \$31,631.46; total, \$94,842.49. Also an amount of \$2,600.92, which is due for payment, and so far remains unclaimed. Notes covering 1919 deductions are now in course of preparation.

Shipments

Packages shipped on behalf of affiliated local associations were:

	1919	1918
Soft Fruits	205,721	238,038
Apples, pears, crabs	780,374	487,077
Vegetables, hay	78,330	106,705

Totals 1,050,034 827,420

On behalf of unaffiliated associations:

Soft Fruits	20	3,254
Apples, pears, crabs	8,022	51,406
Vegetables	413	9,400

Totals 8,644 64,240

Purchased stock:

Soft Fruits	2,007	920
Apples, pears, crabs	6,070	1,440
Vegetables	78,270	47,220

Totals 87,865 49,640

Making a total number of packages shipped for 1919 of 1,157,169, as against total number for 1918 of 941,200, showing an increase 1919 over 1918 of 215,957.

Sales

The total sales for year 1919 amounted to \$2,170,799.18, being made up—

On behalf of local associations:
Fruit \$1,500,501.00
Vegetables 77,898.46

1,070,000.15

On behalf of unaffiliated associations 20,794.21

Policy Encouraging to Fruit Growers

By Determined Fight Westbank is Freed of Codling Moth

Nothing undertaken by the Provincial Department of Agriculture has established more confidence in the future of the fruit growing industry of this province than has the constant vigilance against the introduction of codling moth and the thorough method of eradication practised wherever a single moth has been discovered. An instance of this thoroughness, which indicates the importance put upon the keeping out of this dreaded pest, is the campaign of extinction which has been carried on at Westbank. Several years ago codling moth became established there and probably existed and increased for two or three years before being discovered. Immediately it was recognized the Department inaugurated a vigorous campaign of complete extinction all fruit being destroyed and every tree banded and inspected. All this work has been carried on at considerable cost until last year not a single moth could be found. To be absolutely sure that the pest has been wiped out the same process of banding and watching will be carried out this coming season.

In Alberta during February 200,000 acres of land were filed on for oil and natural gas.

Will Be Like Days of Old

Changes in Hotel Summerland Will Put It in Lead Again

Summerland a few years ago was a favorite week-end stopping place for commercial travellers. An important factor in the attractiveness of Summerland as an over-Sunday resort was its cheery, homelike and beautifully situated hotel. Those days are again with us. Under the direction of the new proprietor, Mr. C. B. McCallum, Hotel Summerland is being thoroughly renovated and considerably altered and improved. This work is being done gradually, but without any cessation, with as little inconvenience as possible to guests. Already every part of the building has been thoroughly cleaned, the walls and ceilings retinted and the really first class wood finishing given a fresh coat of varnish.

Many of the guest rooms have been fitted with new beds and bedding, bureaus and other articles of furniture, much of which was of superior quality, carefully repaired and refreshed or replaced with new. The plumbing has been gone over and repaired so that hot and cold water are now available to the guests. A contemplated early improvement is the putting in of hot and cold water in all the guest chambers.

Already considerable work has been done under the building, choked drains cleared and the first steps made towards putting the hot water heating system into condition. This will be completed before cold weather of next fall.

Some permanent improvements will be effected to the foundation of the building.

Structural changes are to be made in the northern end of the building and will include a stairway on the north side of the office to run in the same direction as the main stairway on the south side. This new stairway will lead to the upper floor of the annex and will give ready access to that part of the hostelry.

The laundry at the rear, not a very pleasing structure as viewed from the guest rooms, is to be removed and the court cleaned up and made attractive. A new kitchen will be built on the ground floor of the annex which will be connected with the dining room through swinging doors in the north end of the west wall of the dining hall.

Very soon men will be put to work making repairs and improvements to the outside of the hotel building. When all the work contemplated by Mr. McCallum is completed Summerland will again have one of the most attractive and satisfying hotels in the Valley, one we feel sure which

Service as Trustee Highly Appreciated

Mr. J. A. Morrison, Now C.P.R. Agent Here, Honored by Co-Workers.

The Vernon News of last week says:

A gathering of members of the School Board, the staffs of the High and Public Schools, and of Domestic Science and Manual Science was held in the Central School on Wednesday evening, March 17th, in honor of Trustee and Mrs. J. A. Morrison, to whose regretted departure from Vernon reference was made in the last issue of the News.

A very enjoyable musical program was carried out. During the evening Mr. Morrison was presented with a gold mounted fountain pen from his fellow members of the School Board who all spoke feelingly of their high appreciation of the long and faithful service rendered by Mr. Morrison in the cause of education in the city. These sentiments were seconded by the school principals, T. H. Calder and Clarence Fulton, on behalf of their respective staffs.

Messrs. J. H. Reader, W. F. Kennedy and C. B. L. Lefroy, delegates from the local Knights of Pythias, presented Mr. Morrison with a set of military brushes as a gift from members of their lodge, and all present joined in wishing Mr. and Mrs. Morrison much happiness and prosperity in their new home in Summerland.

Will Operate at Peachland

New Owners of Cannery There Preparing for Busy Season

Peachland, Wednesday, Mar. 31: Mr. S. Maurice Carter of Vancouver spent an evening in town last week representing the company which has bought out the cannery here. He addressed a public gathering called to hear him in connection with the proposed plant. He stated that the company intends canning tomatoes, peas and beans and fruit of all kinds. Also they intend to put in an evaporator for the apples.

This is very pleasing information to the growers here, as this will enable them to realize a revenue from some of the crop which year by year shows a loss when we have no market for such fruit. Very often it is very choice, tree-ripened fruit, and everyone knows what tree-ripened fruit is compared with fruit picked green and ripened in transit. Mr. Carter stated that his company is prepared to pay the market price for tomatoes and would require about four hundred tons here besides what they could get elsewhere. They would not undertake the canning of corn this season. The people need not be afraid to plant any quantity of these other lines as the cannery will be prepared to handle any quantity, already having contracts for their entire output. They have been assured of plenty of sugar. The company have secured the services of a competent man with sixteen years experience. Mr. Carter stated that he expected to return in about ten days, and would be bringing his process man along.

Ralph Brown, of Summerland, spent Wednesday of last week in town on official business, returning on the evening boat.

After some months spent over on the other side, Mr. Iverson returned home on Wednesday of last week. (Continued on Page 8)

will be patronized to the limit of its capacity.

While making an inspection of the building with the new proprietor and manager, we were informed by Mr. McCallum that business throughout the winter had been very satisfactory, much better than he had anticipated. With the improved accommodation and increased comforts he is now providing this patronage will doubtless greatly increase.

Man of mettle turn disappointment into helps as the oyster turns into pearl the sands which annoy it.

RULE OF ROAD CHANGES JULY FIFTEENTH NEXT

Government Bill in House Provides For New Traffic Regulations

COAST DISTRICT CHANGES LATER

Bill Provides for Classification of Roads with Government Assistance in Construction and Maintenance

Effective July 15th next the "rule of the road" in the Interior of the Province will be changed to conform with that of the provinces to the east and the states to the south. This, providing an amendment to the Highway Act tabled in the legislature last Friday by Hon. Dr. King, Minister of Public Works, is made law, which it doubtless will be. By this bill the Province is divided into two districts. District No. 1 will include Vancouver and surrounding settled district and all of Vancouver Island. District No. 2 takes in the remainder of the Province. Obviously this division is made to put as much of the Province as possible under the new road rules while at the same time it gives the B. C. Electric Co. ample time in

Hospital Charge Higher for Indigents

Some Amendments Proposed to Hospital Act

By an amendment to the Hospital Act brought down in the House at Victoria by the Provincial Secretary two dollars and fifty cents per day is the limit fixed on the rate that may be charged against a municipal corporation by a hospital for the maintenance of any patients whose care is chargeable under the Hospital Act to the municipality. In the past the Act limited this charge to one dollar per day.

The Hospital Act provides for an agreement between municipalities and the governing bodies of hospitals whereby a fixed annual grant may be made in lieu of its liability for the maintenance of any such patients. The Municipality of Summerland has had such an agreement with the Summerland Hospital Society.

Another amendment to the Hospital Act proposed by the Government is one that will give the hospitals a grant of one dollar per day for each patient treated who is affected with tuberculosis of the respiratory tract, irrespective of the number of days treatment in any one year. Grants made to hospitals by the government are graded according to the number of days treatment in a year, thus T. B. patients will not be counted and will therefore not pull down the per capita grant no matter how many of this class of patients may be under treatment.

OBITUARY.

WILLIAM BATES

Deepest sympathy is felt by the community at large for Rev. and Mrs. W. H. Bates and family in the loss of their older son and brother.

But a few days ago Willie was in his usual health but with the other members of the household he developed influenza and hemorrhages, which followed one another at close intervals, soon reduced his vitality and resulted in his death on Monday afternoon.

The deceased young man was in his eighteenth year. He was a native of Ireland and came to Canada with his parents about twelve years ago when they settled in Manitoba. Later the family moved to this province when Mr. Bates assumed the pastorate of the Presbyterian Church at Anheroft. The family moved here from Vancouver about three years ago.

The departed lad was the older of two sons and the second child. The other members of the family are: Kenneth, Norah, Kathleen and Muriel.

A private funeral service was held at the family residence at 2.30 Tuesday afternoon and a public service in St. Andrew's Church at 3.30, this being very largely attended. The services were conducted by Rev. J. Ferguson Miller, Moderator of the Synod of British Columbia, assisted by Rev. J. Stoddley. The musical part of

which to make changes in its lines and rolling stock, for in District No. 1 the new rule will not come into effect until the end of 1921 unless by earlier proclamation of the Lieutenant-Governor-in-Council either as to the whole or part of District No. 1.

The bill also provides for the new system of classification of highways into "primary," "secondary," and "local" highways, such classifications to be made by the Minister of Public Works and to be ratified by agreement between the Minister and municipalities where such run through municipalities.

Cost of construction and maintenance of primary and secondary highways shall be apportioned as follows:

Primary, 75 per cent. by the department and 25 per cent. by the municipalities; secondary, equal share in construction cost and, as to maintenance, 40 per cent. by the department and 60 per cent. by the municipality.

In the case of local highways the entire cost of construction and maintenance shall be borne by the municipality. In the case of secondary roads running through municipalities of less than one thousand population the department may contribute as high as 75 per cent. for construction and maintenance. Control of the construction and maintenance of the primary highways will be in the hands of the department, of secondary in the municipalities.

Fifteen days notice may be given by the department to a municipality that a secondary highway is not kept in proper condition, and if it is not put into proper repair the department may step in and charge the cost thereof to the municipality.

A copy of the new bill may be seen at The Review office.

Is Asking Damages

D. Gollatly Asking C. P. R. for Fire Damages

D. Gollatly, who recently suffered serious loss by fire, is likely to seek damages from the C. P. R. Mr. Gollatly has returned from Vancouver where he went to interview C. P. R. officials with respect to his loss which he claims resulted from a spark from the smoke stack of the S. S. Steamous. His loss is said to have reached the large sum of \$20,000, the wharf, packing sheds, stable, box factory and a large quantity of box material being lost as was also a stack of hay belonging to Mr. Gollatly's son. The horses were saved from the burning stable through the bravery of Mr. Gollatly's daughters, one of whom was kicked by a frightened horse though her leg was not broken as reported.

All coal and oil lands in British Columbia have been withdrawn from location. This has been done to stop speculation.

The service was in charge of the choir leader and organist, Mrs. W. T. Reed. The remains of our departed young citizen were laid at rest in the Peach Orchard cemetery. The pall bearers were: Willie Koen, Alex. Smith, Blanchard Munn, Moses Marshall, Fred Brind and Warren Gayton.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Spring Pruning of Fruit Trees

By M. B. DAVIS, Pomologist, Central Experimental Station.

If pruning is to be done this spring see that it is completed before the sap is flowing to any extent. Do not think it is necessary to take out a lot of wood from every tree. Much damage may be done by annual butchering. If the orchard has light annual prunings it will only be necessary to (1) remove all dead or broken branches (2) to head in any branches which may be too rangy (3) to remove cross branches (4) to thin out where the tree has become absolutely too thick.

If the orchard is old and has been neglected; which is evidenced by a lack of growth, and barren arms for many feet from the main trunk, a vigorous heading back of the top is necessary to force out new growth from which new fruit producing wood can be selected.

Handle the young trees carefully. Do not make it a practice to head back one-half or one-third annually. Watch the crotches and always keep one branch in the lead to avoid weak crotches.

Cut out where branches are too close together, keep the tree headed low, and if the variety produces a long rangy tree, suppress the strongest growing branches; the most and the weakest the least.

In cutting back a main branch and one of its strong growing laterals do not cut both to the same length. Permit the main branch to retain the lead, otherwise two branches of equal dimensions will result which will produce a very weak crotch; a constant source of trouble.

Whenever given the option of selecting either a branch growing at a sharp angle to its parent or one growing almost at right angles, choose the latter—it will make a stronger crotch in future years.

Always cut back to a bud, cutting as close as possible without injuring the bud itself. By paying attention to the position of the bud one can do much to decide the form the tree shall take.

Study each variety you are dealing with and adopt a system most suited to its needs. Do not attempt to apply very hard and fast rules to your whole orchard.

It is not a question of how much pruning one can do, but how little one can do and still retain the desired shape, vigor and productiveness of the tree.

RABBIT REARING A NEGLECTED RESOURCE

Rabbits Are as Profitable as Poultry and Can be Raised in the City and on the Farm

Rabbits are valuable for their meat and for their fur. Their flesh is wholesome and tender and, when properly cooked, it is difficult to distinguish from chicken. Not only are their pelts dyed to imitate more expensive skins, but those derived from some of the most handsome breeds are used in their natural color. Rabbit fur is moreover, extensively employed in the manufacture of hatters' felt.

In northern France and Belgium, rabbits are as commonly kept on farms as poultry. It is therefore only natural that several of the utility breeds should have been developed in that part of the world. Enormous quantities of rabbits are consumed every year in England; indeed, the home supply has to be greatly supplemented by imports from Australia.

In cities, pigs are objectionable because they are malodorous and chickens because they are noisy; rabbits are clean and quiet as well as easily kept. True they will not devour the house garbage in any considerable quantity, nor is it good for them, yet they can be fed cheaply. They will eat many weeds such as dandelions, couch grass, shepherd's vetches and plantain. From the table they can be given the leavings of cereals, cooked potatoes, and milk. But their staple diet should be hay, wheat or oat straw, clover or carrots.

Rabbit hutches should be divided into a sleeping chamber, which

should be tight and free from draughts, and a more open space, protected by wire netting. A small hutch may have a floor space 6 feet by 2 feet and the floor should be raised off the ground. For larger rabbitries, courts are used, these may be either paved or grass courts surrounded by a fence sunk deeply enough into the ground to prevent the animals burrowing out.

Boys and girls generally take an interest in feeding and caring for these animals. Work of this kind would have an educational value and would have the further merit of enlisting the sympathies of the younger generation in the campaign for greater production. Rabbit rearing on a more extensive scale can also be made a profitable occupation for adults.

Passing a hand over his forehead, the worried drill sergeant paused for breath as he surveyed a knock-kneed recruit. Then he pointed a scornful finger. "No," he declared, "you're hopeless. You'll never make a soldier. Look at you now. The top 'alf of your legs is standin' to attention, an' the bottom 'alf is standin' at ease!"

Correspondence

R. R. 1, Summerland, B.C., March 27th, 1920

Re article "Stock Men to hold Meeting." I am greatly and disagreeably surprised at the assertion you make in this article that Summerland will have to go back to the tin cow for milk supply just because the local stock associations may have to send away their bulls. You say that "these sires have made dairying possible." Well, some of them may have done so, also some of these sires have almost made dairying impossible for the simple reason that the sires were no good for the purpose for which they were kept here, that purpose being to throw good heifer calves. It takes a good bull to throw a good heifer calf and it takes a good cow to give a good pail of milk. In other words a good cow will give good milk if she is fed up for it and bred to any bull.

Last spring I ran an eight weeks advertisement in your paper advertising a Jersey bull. It is rather queer that you intimate there will be no bull in Summerland if the Association bulls are taken away. That is as much as to say that I have not got any or if I have that he is unfit for use. As a matter of fact I have two Jersey bulls, one is a pure bred bull and registered, and I have the papers from the Government Stock Commissioner. The other is as good as pure bred although I have not the papers for him. He is a grandson of the late R. H. Agur's Jersey bull and his grandmother was one of the best Jersey milkers that ever was in Summerland. The family that owned her often paid their grocery bill with the receipts from her produce. Furthermore I take the liberty to assert that my bull got more cows in 1910 than either of the Association bulls, and perhaps more than both bulls taken together. My bull had patronage from all parts of Summerland except the Trout Creek district. One lad told me he brought his cow twenty miles to get the service of a Jersey bull. The trouble with the Holstein variety is that more than half the people here keeping cows don't want the Holstein breed. I have bred to the Government Holstein bull for five or six years and have never yet got a good heifer calf from any of them.

The local climate and lack of succulent pastures here are not favorable to the Holstein variety. Better milk but less of it can be obtained from other varieties than the Holstein. With hay at \$40 a ton I don't wonder that no one wishes to keep a bull.

Yours truly, R. S. MONRO.

It is much easier to live up to an income than it is to live up to a reputation.

THE READY WIT OF PAT

Two English tourists in Ireland, after chatting awhile with an inhabitant thought to take a rise out of him by saying, "Do you know, Pat, that the Devil is dead?" "Ye don't tell me!" said Pat in mock surprise. "Yes, the Old Boy has gone at last."

Pat said nothing further but fished a few odd coins from his pocket and handed the Englishmen a penny each.

"What's this for?" they asked. "Sure," said Pat, "it's a custom of the country. We always help the orphans."

Forebodings

"He talks beautifully." "Huh?" "Says that after marriage I shall be a ministering angel to him." "Ugh!" That sounds as if you'll have to carry in his breakfast."

Current Events of Town and District

Mr. Hal Endacott a former resident, but who has been in Three Hills, Alberta, for the past few years, was in town to see his old friends last week, afterwards returning to New Westminster where he has taken up residence for the present.

Miss Kathleen Robinson who is in training at the Vancouver General Hospital returned home last week. Miss Kathleen is convalescing from an attack of flu and at the same time is having a good visit with her relatives and many friends.

Mr. and Mrs. Jas. Myers and daughter Alice, who have spent the winter in the East, are home once more and glad to see the Valley again. Mr. Myers has purchased a pair of black foxes from Prince Edward Island and will probably start a fur farm in the near future.

Mrs. A. Aveson who has been in the hospital at Summerland for treatment, has returned to her home and is steadily improving in health.

Miss Marguerite Salting spent the week-end with Miss Lucy Hargreaves in Summerland.

Mr. J. McLean of Summerland is visiting friends here. Mr. McLean recently returned from Montreal where he spent the greater part of the winter.

The Young People's Society of the Methodist Church had a social evening in the church basement on Monday evening. Games and refreshments made up the entertainment.

Mrs. D. O. Hughes has purchased the property from Thos. Kenyon known as the Squire Hill lots.

The members of the Ladies' Unity Club met on Friday afternoon with Mrs. Fred Simpson acting as hostess. As the next meeting will be for the

Synopsis of

Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per acre and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 3 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 3 years are required.

Pre-emptor occupying Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided satisfactory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased, as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stamp duty.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 28, 1918. Taxes are remitted for five years.

Provision for return of moneys acquired, due and due under Act of April 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from settlement to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS. Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grants to be made based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Fees or moneys payable for settlers, campers or travellers, up to ten head.

purpose of electing officers for the coming year, it is to be hoped that every member of the club will be present. A number of plans are proposed for getting financial returns, one of them being a whisky drive to be given in the near future. More about this will appear later.

Mrs. E. P. Roe who has been quite ill for the past few weeks is now on the road to recovery.

Mr. E. Mallory went to Princeton and surrounding country on a business trip this week.

The Okanagan Lake Boat Co. are doing some repair work on one of their boats. They expect to launch the scow soon.

Miss Gwen Robinson is expected in from Toronto this week. Miss Robinson is doing special nursing in the East and making a great success of her profession. She has been away for over three years and her friends will be very glad to welcome her to Naramata once more.

The main wharf is now finished and work on the warehouse has started. The house is to be 20 feet by 80 feet and will be welcome after so long a time without any shelter for freight and express.

WHEN CAR SMOKES— SOME CAUSES

One of the greatest nuisances that the public has to contend with is the smoking automobile that leaves an evil-smelling smudge as it travels through the streets.

This evil is due mostly to carelessness and in most instances can be avoided. Much of the smoke we see comes from too much lubricating oil being applied to the engine. This may come from having the reservoir too full, that is, well above the level indicated by the manufacturer. The remedy would be to draw off the surplus. Again the fault may be in the construction with too much oil feed to the engine even when the reservoir level is normal.

Some of the trouble with oil comes when driving at low throttle opening. When touring there is likely to be very little smoke, as the engine is run with fairly wide throttle most of the time. When this same car enters the city, where there must be much throttling down, there may be trouble with smoke. The reason is that with a closed throttle the gas drawn in does not fill the vacuum in combustion chamber and this draws oil past the pistons.

Smoke caused by excess of gaso-

line may be distinguished by its being black, while that from excess oil is blue, and there is always steam issuing from the exhaust and as soon as it strikes cool air it is white. One of the products of combustion in the cylinders is water, which is vaporized and passes out with the exhaust, becoming steam.

Very Considerate

Fair Art Student — I hope you don't mind my sketching in your field?

The Farmer — Bless yee, no, miss. Why, you be savin' me the trouble of puttin' up a scarecrow!—From the Edinburgh Scotsman.

ON SPRING HOUSECLEANING

A recent issue of Farmers' Magazine says editorially: The custom of cleaning house in the spring is still generally observed in farm homes, though it has sustained some hard knocks since the vacuum cleaner began to make its way to the country districts. As the sun swings up from the south and the earth responds with warmth and freshness, it seems impossible for the habitations of men not to respond in like manner. And so soap and water and fair arms make the attack and houses shine though bodies ache for it, and several days are cut right out of the heart of the sweetest of the springtime.

Doubtless houses will be cleaned as much as ever this year; at the same time there are indications that women are not going to neglect the greater housecleaning issues which seem to be peculiarly the responsibility of women interested in the betterment of their community and of social conditions generally — problems which are more important than window-washing or rug-shaking. We would not suggest that these be dispensed with entirely; that would be nothing short of heresy. We would only hint that the world will survive if all the housekeeping is not done at once, and with such an expenditure of feminine energy. But the other problems that progressive women are working with — better schools, better health, better legislation for the safeguarding of children and maternity, and for the protection of our social order generally — a broader, friendlier spirit in their own neighborhoods — these cannot be safely neglected even for a season. So we say that while the individual homes must be cared for, let there be more power to the women's organizations working for those things that are going to make conditions better for every home.

§ § § §

Tell us this. How can 80 cent butter when exported keep the price of foreign markets down to 66 cents? Seattle reports that the arrival of British Columbia butter seems to have kept the prices from advancing. The same report states that city creamery butter extras in bricks were quoted at 66 cents. Probably this latter was a wholesale price.

§ § § §

A letter in this paper with respect to outdoor sports calls for attention. Who will take the lead in this commendable movement?

§ § § §

An interesting announcement is made in our Naramata column to the effect that a well known citizen there purposes engaging in fox farming and is bringing some silver foxes from Prince Edward Island where fur farming has developed into an extensive industry.

REVIEW LEADS IN EVERY RESPECT

This is what one of our subscribers said the other day when renewing his subscription to The Review: "Friends have often remarked what an excellent paper it is. I have seen many of the papers published in the smaller communities and I candidly admit that yours leads in every respect. Keep up the good work." With the co-operation of subscribers and advertisers we shall endeavor to do so.

HOW A NEWCOMER LOOKS AT IT

One of our newer subscribers writing when renewing his subscription to The Review says: "Your paper has always been of the greatest value to me in many ways and has enabled me to understand my surroundings and the mode of living of my neighbors of which I would otherwise have remained in ignorance. It is a valuable paper for any newcomer and will in many ways enable him or her to get the topography of the place in a very short time."

NOTICE

TO OUR ADVERTISERS

In order to meet the ever-increasing costs of publishing a newspaper we have been forced to advance our advertising rates.

This increase will come into effect with the first issue of The Review in May.

During the past years when every other commodity that is sold has doubled and more than doubled in price our advertising rates have remained the same — with the exception of a rearrangement of our rates last May — which in many cases meant a lowering of rates — we have made no change in our advertising charges.

Our changed rate card will appear in an early issue.

R. E. WHITE, Manager.

The Easter Idea.

Every age creates new conditions which ask new questions and which modify previous interpretations, yet the seasons which give them form seem to remain and keep their unrelaxed grip upon us. The glory of a season, as of a nation, however, depends on the value of the gift and the timeliness of its message to its own day.

So the Easter season is upon us again, fraught as usual with suggestions of immense value, scientific, national and religious. It is because of the great principles which inhere in its true significance that this the greatest season of the year is welcomed by all alike.

The two sovereign words of Easter are **Sacrifice** and **Peace**; their synonyms **Calvary** and **Victory**. This makes the Easter morn a necessity and its message eternal from views both retrospective and prospective.

The true function of Easter is therefore not that of a fruitless attempt to reconcile complex historical facts with human reason but for the express purpose of emphasizing and enforcing vital life principles. From simple observance it may be said that both nationally and religiously humanity as a whole are still concerned with Peace and are not at all sure of Victory. Sacrifice willingly and justly, whether upon the altar of immediate offering or on the field of long and toilsome service is the one adequate price and final assurance of this most coveted heritage of humanity.

Perhaps the crown of Easter suggestion is that which relates to life as one whole. The witnessing of strange heroisms and supreme sacrifices in these latter days for the sake of national honor, if nothing more, has confirmed a former vague belief in an immortality of life to some who have not waited to reason a method or to find an interpretation. The deep waters of grief, which still others, through these fine virtues have been called to pass have been driven to seek its truth at sources quite unreliable and hence unsatisfying. Nescient effort and desire is as ancient and universal as time, yet history at no point acclaims it as wise, but often, whilst recognizing its honesty — has pronounced it unethical and deteriorating.

However the true spirit and message of Easter is neither to condone the one or condemn the other but rather to guide the honest believer and lift the sad hearted to Him who came to "bring life and immortality to light," words that can have no other or holier meaning than once having — through Him, discovered the true meaning of life we have at the same time discovered the certainty of immortality and have entered into that peace "not as the world giveth" but that which is hallowed by sacrifice and crowned with victory. Such is the Easter significance; hence if it be but form only that impels a collective adherence to this season, then let form exact from us its due and inherent reverence; if it be but common patriotism then let it kindle within us the fires of its deepest and divinest emotions; if it be but a duty to a religious service at the demand of a great Lawgiver, then let duty's dignity awe us into a tender submission to her power.

The Easter message is but begun in retelling the story or by exacting an admiration or even commanding a sympathy. It is finished when the fires of that unique sacrifice of the great High Priest of the day long gone of the commoner sacrifices so freely and abundantly offered by those "whom we have seen go out to break their strength and die in bloody protest for a glorious thing" of those commoner still, yet equally glorious, which incense arises from the altars of obscurity and loneliness, from hard and meager service, uninspired by the contagion of visible glory and uncheered by the plaudits of the throng in the days that are ordinary — it is finished we think when these fires burn out of us all that "meaner dross" and we learn that the true religious observance is in the mystic companionship of all the great, in the atmosphere of all that is noble and unselfish, of all the yesterdays, today and all the tomorrows to be.

This is the Easter idea, and to miss it is to miss its reality.

OKANAGAN UNITED GROWERS HAVE SUCCESSFUL SEASON

(Continued from Page 1)

keted in New Zealand and Australia this year in comparison with 7,350 boxes last year. The reason for this decrease was lack of shipping space but a considerable increase in 1920 was predicted.

The O. U. G. shipped 68,716 boxes to Great Britain in 1919. Letters from buyers in Great Britain and from the Canadian Fruit Trade Commissioner, were very flattering indeed. A very heavy increase in shipments for 1920 is predicted.

The Market
"1917 was practically our first season of entering into the United States market. That year we shipped five cars of crabapples only. Our increase in shipments of all packages of fruit, apples and crab apples in 1918 amounted to 21,480 packages. We feel that we have made remarkable progress in opening up this market for our fruit, which comprises apples, crabapples, plums and prunes. In 1919 shipments amounted to 180,471 packages of all fruits, the heavy shipments being crabapples, Jonathans, McIntosh Reds and Italian prunes. The American public are especially fond of our crab apples and McIntosh Reds. Previous to the season 1919 we never exported a single box of McIntosh Reds, and in 1919 we sent to the United States 20,467 boxes. Shipments in

seasons to come will be limited only by the railroad equipment available to take them over. This is one of our great drawbacks in exporting to the United States, as the Canadian Railways do not allow their equipment to go there.

Eastern Canada.

"This market has also shown marked improvement in the demand for Okanagan fruits. We increased our shipments of fruits from 29,520 packages in 1918 to 78,480 packages in 1919. At the same time we increased shipments of onions from 3 cars in 1918 to 38 cars in 1919. During the season of 1920 our shipments to Eastern Canada should be at least double those of the year 1919. Eastern Canada now recognizes the superiority of Okanagan fruits and vegetables. As a comparison to show the extent and increase of our export during 1919, we would point out that while our entire crop of Jonathans, ones and twos, in 1918, was 63,923 boxes, our export alone on this variety to Great Britain and United States in 1919 reached the high total of 110,220 boxes. As regards McIntosh Reds, they show a very close second. In 1918 our total crop of McIntosh Reds ones and twos was 58,475 boxes. Our export of this variety for 1919 totalled 56,123 boxes. Crabapples — We increased our export on these from 10,400 boxes in 1918 to 61,200 in 1919, they going wholly to the United States. These figures show that our selling organization is alive to the necessity of

securing a wider distribution (owing to increasing production) so as to give the maximum price to growers.

"Soft fruits, apricots, cherries and plums show a considerable increase in price over 1918. Peaches and prunes, however, due to the extreme sugar shortage at all marketing points, show a decrease as compared with 1918. Had it not been for the sugar shortage prices received for all soft fruits, crabapples, summer and fall apples, would have averaged much higher. The matter of the sugar shortage received the closest attention of our organization, and it is due to the efforts which we and the B. C. Credit and Traffic Assoc. put forth that the worst of the situation was somewhat relieved, and the loss from this source at one time in prospect, partially reduced.

Final pool returns were delayed over previous years, due chiefly to the sugar and car shortage. Owing to the sugar situation, cars of soft fruits, early apples, and crabapples had to roll unsold, and be disposed of to the best possible advantage on arrival.

"Cars disposed of in this way always mean delayed returns. Car shortage delayed pool returns on late apples, owing to cars not being available at time apples were sold and should have moved. When cars were available the weather was unsuitable to load. This loading could only be done by taking heavy risks. In the case of some varieties of apples cars were not available until after marketing periods for them had elapsed.

Supplies

"The statement shows a loss under this heading of \$2,305.96. This was due to our having invoiced our locals with box shock at the actual price paid by us to the mills and having charged this account up with its proportion of the total expenses for the year.

"During the year a total of all supplies was purchased of 179 cars, the commodities being: Flour and feed, 12; boxes, 145; spray, 5; nails, 3; paper 11; sacks, 3.

"This shows an increase over 1918 of 42 cars. The value of supply sales was \$292,655.56.

Advertising

"The advertising campaign was again conducted by a committee consisting of Messrs. E. R. Simpson (chairman), J. T. Mutrie, W. J. McDowall and C. L. Lowe.

"Our advertising has been very widely and favorably commented upon by the trade, the public and the press, and we are confident that the benefits obtained fully merit the continuance of this form of expenditure."

Grade and Pack

The pack and grade of the several locals selling through the O. U. G. during the past season has been a distinct improvement upon that of previous years and in every way creditable to the Okanagan.

"As we must in the future expect to ship more and more of our crop to foreign markets, we should at all times be fully alive to the necessity of not only maintaining this standard, but improving it wherever possible, in order that it may compare favorably with that of all competitors. The best markets are demanding only the best goods, and are willing to pay the best prices for them. Only by conforming to such standards can the highest price be obtained for the growers. It is only by growing a high percentage of No. 1 fruit that the grower can reap the greatest profit from his or-

chard. The market is becoming increasingly discriminating. (No. 3s are not wanted at all, and each year a smaller proportion of No. 2s are demanded. There is no district in the world where a higher percentage of first-class fruit can be grown, and each grower should endeavor to raise the standard of his own fruit year by year. In doing so he will not only greatly assist his organization but find it decidedly profitable for himself.

"The growers who have loyally stood by the co-operative movement for the past seven years have every reason to be proud of the success which has been attained, and it is not too much to say that the satisfactory results at present being realized are largely due to the efforts of this organization, and made possible only by their support. The success attained should result in a much larger support being given by growers who, for one reason or another, have hitherto held aloof.

Selling Force

"There were no changes in the selling force during the year. It was a season calculated to try the mettle of any sales manager. Your board were indeed fortunate in having as sales manager, at such a time, a man of Mr. Lowe's proven ability and resourcefulness, and wish to record their appreciation of his successful work in one of the most trying years in the organization's history. His efforts were ably seconded by a capable and loyal field staff, consisting of Mr. R. M. Hood, Vancouver; Mr. I. H. Kerr, Vernon; Mr. Ross Morrison, Calgary; Mr. J. E. Montague, Edmonton; Mr. A. H. Flack, Regina; Mr. G. H. Florence, Winnipeg.

Management

"Your directors also again express their appreciation of the very efficient work of Mr. McDowall as general manager and secretary-treasurer. Besides endorsing Mr. McDowall's work in previous reports of the board, we emphasize the good judgment he has always shown in the regulation of credits, and in the very small losses in bad debts, since he has had control of this department. This is a feature of the business often lost sight of by the growers, but it is one which has materially assisted in gradually overcoming the unfortunate Graham loss and again placing the organization on a sound financial basis."

Signed on behalf of the board,

J. T. MUTRIE,

President.

MARION & MARION, 264 University St., Montreal.

Passing Events: Social, Personal, &c.

Mr. H. H. Elsey has returned from an extended visit to southern California.

Mrs. H. D. Suckling, Penticton, whose life was despaired of some days ago, is now said to be out of danger.

Suffering from what appears to be a belated attack of influenza, Mr. J. Downton has been confined to his home since early in the week.

The G. W. V. A. dance will be held at Naramata on April 8th, Thursday. Novelty Dance Orchestra. Refreshments. Good time. Free ferry. 36

Mr. A. Davidson is now the owner of a ten acre lot on the front bench overlooking the Lakeside Dairy farm and known as block 20 in D. L. 508 just north of the Caldwell blocks.

Mr. Hutchinson has leased from Reeve Campbell the ten acre fruit lot north of the Central School building worked last year by Japs. Mr. Hutchinson and family have moved to a cottage nearby.

The members of the class of boys which has been taking a business course during the winter under the instruction of Mr. W. M. Wright, motored to Vaseaux Lake on Saturday. A pleasant outing was enjoyed.

The pure bred Holstein bull loaned the Summerland Pure Bred Stock Association by the government died Monday night. The Department at Ottawa was notified by wire and has also been advised not to send another as no caretaker is available.

A notice in the Dominion Presbyterian announces the marriage on March 11 last of Mr. Gordon M. De Renzy of Summerland to Miss Edna Mary Gillies, of Braeside, Ont. The wedding took place at 248 Poplar Plains Road, Toronto, at the home of Mrs. Findlay McEwan, parents of the bride. Rev. Peter McDonald officiated.

An invitation has been sent to the school board by downtown residents asking them to meet parents and rate-payers of that section to discuss with them several matters relating to schools. From what we can gather the building of a larger school down town to replace the old building on the hill will be urged. The meeting will be held in the Men's Club on Monday at 8 p.m.

Last summer three ladies from Summerland purchased from one of the Penticton stores a baby's go-cart and asked to have it charged to the Summerland Ladies' Auxiliary. Since then the management have been trying to find out which Auxiliary this is, as no one from the English or Presbyterian Ladies' Auxiliary was authorized to make this purchase and naturally they do not feel like footing the bill. 36

Mr. F. A. C. Wright went down to the Coast a few days ago.

Miss Gwen Robinson returned Wednesday night from Toronto where she has been nursing.

Blocks 3 and 4 in D. L. 2195 north of the James property in Peach Valley has been bought by V. G. Barnard.

The range, block No. 9, D. L. 2195 north of Jones Flat for some time the property of J. L. Logie has been bought from him by Geo. Doherty.

Miss Muriel Phinney has gone to Vernon where she has accepted a position as stenographer with the Okanagan Telephone Company. Penticton Herald.

Fred McKinnon, his wife and two children have recently come here from Vernon and are living in the cottage formerly occupied by A. Mc Lachlan, with whom Mr. McKinnon is working.

Mrs. Parsons, the retiring matron of the Summerland Hospital, was the surprised recipient of a silver tea service presented her Tuesday evening by the members of the Ladies' Hospital Auxiliary.

As will be noticed by his advertisement, in this issue H. W. Harvey has entered the retail lumber business and is now carrying a full stock of builders' supplies. Mr. Harvey has recently added to his lumber shed capacity.

Five carloads of potatoes arrived at the Coast a few days ago from New Brunswick. After being transported from the Atlantic province to the Pacific Coast these potatoes are being sold at a lower price than has been asked for the British Columbia product.

The government at Victoria has promised Penticton to remove any difficulties in the way of adjusting irrigation rates sufficient to meet expenses of operation, maintenance and sinking fund. The Board of Investigation of the Water Rights Branch will go to Penticton at an early date to hold an investigation.

Poles for the high power line which is being extended from the boundary country across the southern Okanagan Valley to Fairview and up the Similkameen to Allenby and Copper Mountain are now up to a point a few miles west of Hedley. With improved weather the working force will be increased and the work speeded up.

Mary Pickford in "M'Lisa" has been promised the Rialto Theatre patrons on more than one occasion, but through no fault of the house, it has not yet been possible to show this picture. It will appear for sure on Saturday night. Many, especially the youngsters, have been looking forward to the appearance here of Mary Pickford in "Daddy Long Legs." This special will be shown at the Rialto on Tuesday.

Phone A. E. Smith at 664 for all Massey-Harris machinery and parts. 36

Harry Steward, formerly of Pilot Mound, Man., is visiting here at the home of his aunt, Mrs. McIntyre.

Mrs. Jas. H. Ritchie has returned from Calgary where she has been with Mr. Ritchie since the first of the year.

Kelowna's Fall Fair will be held on Wednesday and Thursday, Sept. 8th and 9th, a much earlier date than in former years.

George Graham has sold his ten acre lot immediately north of the ten acres on which he resides, to Basil Steuart.

Attention is directed to the advertisement of a dance to be given by the G. W. V. A. in the College Gymnasium on Friday, April 8.

A golf club has been organized at Kelowna and it is probable that a golf course will be built near the cemetery. The club has been offered the Wollaston property, comprising 160 acres, less the acreage occupied by the cemetery, for \$4,000 cash or \$5,000 on terms.

The Superintendent of the Soldier Settlement Board offices at Vernon has advised the Kelowna Board of be taken over and settled by soldier that Indian Reserves may now diers and has asked the board for all information possible on the West-bank Reserve, in regard to the nature of the land, chances of irrigation and the number of Indians on the Reserve.

Recent reference was made in these columns to the arrival in Penticton of a carload of whiskey, etc., which was unloaded between Saturday evening and Sunday morning and stored in a cellar of a private dwelling. Since the shipment arrived provincial and local police have not forgotten it and according to recent reports the proprietor and manager of a hotel is alleged to have paid the freight bill and also for the goods. A few days ago the carload of liquor was seized by the police and stored in the old provincial jail. Developments are likely to be interesting.

The government at Victoria has promised Penticton to remove any difficulties in the way of adjusting irrigation rates sufficient to meet expenses of operation, maintenance and sinking fund. The Board of Investigation of the Water Rights Branch will go to Penticton at an early date to hold an investigation.

Poles for the high power line which is being extended from the boundary country across the southern Okanagan Valley to Fairview and up the Similkameen to Allenby and Copper Mountain are now up to a point a few miles west of Hedley. With improved weather the working force will be increased and the work speeded up.

Mary Pickford in "M'Lisa" has been promised the Rialto Theatre patrons on more than one occasion, but through no fault of the house, it has not yet been possible to show this picture. It will appear for sure on Saturday night. Many, especially the youngsters, have been looking forward to the appearance here of Mary Pickford in "Daddy Long Legs." This special will be shown at the Rialto on Tuesday.

Rev. W. H. Bates and Mrs. Bates and family desire to express their sincere thanks for the kind help, letters of sympathy and flowers sent them from their many friends during their recent sad bereavement and trust this acknowledgement will be accepted by all.

THE WOMEN'S INSTITUTES.

The regular monthly meeting of the Summerland Women's Institute was held last Friday in the Oddfellows' Hall. Between twenty-five and thirty members were present.

The Institute voted that five dollars be sent to the Federated Women's Institutes of Canada to help carry on the work.

An appeal was read from the secretary of Alberta Women's Institutes for any help we can give in the way of clothing or bedding. There are so many destitute families in that part of the country who have had no crops since 1916. A committee was formed who will pack and dispatch as much as comes to hand, and they hope to have a large consignment.

Mrs. McCutcheon gave a reading, and Mrs. R. M. Ross gave a most interesting talk on civics — dealing principally with "Women in Politics." Miss Morrison very kindly attended and gave a delightful pianoforte selection.

Mr. J. Tait gave a talk on gardening, dealing with the growing of vegetables, lawn making, the cultivation of roses and bulb growing. Tea was then served and a social time was spent. —Cont.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

Date, 1920	Max.	Min.	Rain (In.)	Sun-shine
Mar. 24	51	36	—	1.0
Mar. 25	44	29	.03	3.5
Mar. 26	44	26	—	.5
Mar. 27	48	34	—	7.5
Mar. 28	51	34	—	2.0
Mar. 29	57	34	—	4.6
Mar. 30	46	37	.02	4.3

Wouldn't it be nice if everybody's work was as easy as the other fellow thinks it is?

A plague of grasshoppers is reported from south-eastern Saskatchewan and the Department of Agriculture of that province is urging prompt remedial measures.

.. The Winding Trail ..

WANTED— One point made by your correspondent "Music A CHORAL Lover" is that present day taste in music is not only poor in the abstract, but is decidedly lower than it was a few years ago.

That is of course exactly on all fours with my original claim that the flood of stuff which we may for brevity's sake class as "rag-time," and which has inundated this country for the past ten years or more, has had, and must necessarily have, a distinctly lowering effect on our musical taste. That your correspondent was, even in Vancouver, shown nothing but music of the jazz variety is not surprising— "it is a direct result of propinquity," as remarked in my first article on this subject. As a further object lesson, let us analyze a list of what the publishers term "song hits flashed from our headquarters." This list appeared as a full page advertisement in a Philadelphia publication of over two million circulation, and are said by the advertisers to contain "elusive notes," "rolling chords," "tunier melodies," etc., etc., and to have "sweet America, instantly famous wherever there is life and music." The gems of the collection appear to be "Beautiful Hawaiian Love," "At the moving picture ball," and There's always two sides to a question," while other "Broadway melodies" are "I used to call her Baby," "Don't put a tax on the beautiful girls," "At Ching-a-Ling's jazz bazaar," and so on. This advertisement is issued by a New York firm (which, I regret to note, has a branch house in Toronto) and is doubtless doing its share in elevating the standard of music in this country!

The reference of "Music Lover" to choral work in Summerland in earlier days, opens up a subject which is, or should be, of great public interest. Nothing is of greater benefit to the cause of real music than the existence in a community of a choral society, and now that many members of the "Roll of Honor" are once more in the district it should be possible to again establish such an organization. It must be remembered that the outbreak of the war automatically closed down most of these societies by the departure of their male members, but there should surely be an opportunity now to revive them, and, as a matter of fact, many of them have already reorganized. Pentiction has its choral society as a permanent institution—Kelowna found no difficulty in producing a body of forty singers for choral work at the call of a well known local teacher a year or so ago, and I understand that Naramata is now organizing an association of the kind. It may be taken for granted that all communities possess in their midst a certain percentage of people who can sing if they get the opportunity, and, given a capable leader, who can attract and hold together a score or more of such, there seems no valid reason why Summerland should not do its proper share in keeping standard music alive.

—AUTOLYCUS.

ANTI-TUBERCULOSIS CAMPAIGN IN CANADA

Institutional Accommodation Insufficient. Work for Tuberculous Soldiers

The Nineteenth Annual Report of the Secretary of the Canadian Association for the Prevention of Tuberculosis tells of a widespread effort throughout the Dominion on the part of provincial and municipal health authorities in the educational campaign.

The report indicates that the capacity of the institutional accommodation for the tuberculous is 3,500 beds, but it points out that the increase is due largely to the provision made during the past year for tuberculous soldiers. Apart from the work done by the Dominion Government, there is little ground for congratulation in respect to this particular and important feature of the work, as the report states that "only about fifteen per cent. of the tuberculous in Canada can now be accommodated in sanatoria and every bed available is much needed and many more are still required." The secretary emphasizes, however, the important fact that the great majority of patients will always be treated in their homes and therefore he points out that the visiting nurse is necessary and essential.

The Department of Soldiers' Civil Re-establishment is caring for 1,600 patients in sanatoria, many of whom are acquiring vocational training. The patients are divided into three classes, namely:

- A.—Bed cases, suffering from the disease in acute stages and who remain in bed until their temperature is practically normal.
- B.—Porch cases, who go to meals three times a day and rest in chairs in the fresh air.
- C.—Exercise cases, who commence by taking a fifteen minute walking exercise daily, gradually increasing to two hours morning and afternoon.

It is interesting to note that patients in class "A" sometimes undertake light work such as lacemaking, drawing, weaving, etc., while class "B" do more of this same class of work, and, as their strength increases, go on to heavier work. The more extended vocational training is taken up by Class "C" who are prepared for it by suitable physical exercises. The arts and crafts work

includes basketry, carving, art metal work, picture frame making, clay modelling and designing. The whole of this work, as well as that of general education, is looked upon as of the nature of occupational therapy and the results, as we have seen are very satisfactory.

The outstanding features of the year's work are in the province of Quebec, where the Laval Hospital at St. Foye was erected at a cost of \$250,000, and in British Columbia, where a dispensary, financed by the Rotary Club of Vancouver, has been established, to be known as the Institute for Diseases of the Chest.

The busy man on his busiest day has time to listen to the fellow who drops in to tell him what a wonder he is.

TIMELY CALL TO ORGANIZE FOR OUTDOOR SPORTS

May I request space in your valuable columns to keep the ball rolling in athletics? With the basketball season nearly over, bright spring weather so much in evidence, is it not time to plan the sports program for the summer months?

It is high time that an association was formed to line up the really promising material among the younger citizens to arrange baseball, football, lacrosse, tennis, etc., as well as aquatic schedules later on. The Boy Scouts are on edge for the season, and the older athletes will have to look to their laurels soon. Let us get busy right away and have teams in good shape for May 24th instead of waiting till a week before the holiday to organize and train. Will not any of the Council or some

other public minded person call a meeting to start sport booming in town? He will be assured of a good turnout as the need for organization is a pressing one, and all the younger element realize it.

Let us "pass up" the indoor sports, bones, penny ante, shooting the pink, etc., and get out to more wholesome pastimes where all-round development is to be gained.

Yours, in the interests of athletics, BOOSTER.

On April 1st Indian Reservations in British Columbia will be thrown open for the mining of gold and silver.

Musical Talks.

Written by Prof. C. C. Laughler, Mus. Bac., Bowmanville.

(C. C. Laughler, Mus. Bac.)
No. III.—THE VIOLIN

The violin is the principal orchestral instrument. It is the soprano of the string quartette, the quartette of instruments being violin (soprano), viola (alto), cello (tenor), contrabass viol (bass). The quartette more often used is 1st and 2nd violin, viola and cello.

The face value of the material in a violin may not exceed many cents but that same little instrument may be valued at several thousand dollars. I quote from the catalogue of an American violin dealer for the better known makers as follows: Gaunerius \$18,000; Bergonzi \$9,000; Gaunerius, \$8,500; Stradivarius, \$7,500, etc.

Everyone is familiar with the shape of the violin which is entirely hand made, its weight being 8 1/4 ounces, has four strings and is played with a bow. The tone of the violin resembles the human voice. It was formerly larger, but to "Gaspar da Salo" we owe its present shape. A well made violin consists of seventy parts, and it is generally understood that the old Italian makers used such a delicacy in the making of violins, that it is often spoken of as a violin secret which died with the makers of that period. Violinists are familiar with such names as Stradivari, Stainer, Gaunerius, Cremona, Amati, etc. Mozart says to choose a violin by its looks is like choosing a singing bird by its feathers.

Modern violin students smile to think of the great violinists playing with the chin on the right side of the tail piece. Now we play with the chin on the left hand side of the tail piece.

Violin compositions were in evidence around 1630. About that time the art of violin playing was generally understood.

LANDS FOR SALE

The Wismer Estate, originally the old Garnett Homestead, comprising 16.76 acres and 40 acres of timbered range. 10 acres well watered by 2 flumes and a ditch, also Aeneas creek flowing through the bottom lands. H. CALLAWAY

Two notes at one time may be played on a violin and with a quick sweep of the bow four notes may be played almost simultaneously. The violin and its music hardly bears description. Hear the great violinists of today and the execution and interpretation forms will simply amaze one.

Let us review the career of the greatest violinist that ever lived, Niccolò Paganini, an Italian, born 1781, died 1840. Although Niccolò was very delicate his mother dreamed that he would become the greatest violinist. This inspired him for at 6 years he was a remarkable player and at 9 years he played at a concert, playing his own original variations. It must be remembered that the noted Paganini played only his own compositions. At eleven years of age his father took him to Parma to take lessons from the great teacher, Rolla, but Rolla was sick in bed, and while Niccolò waited in an adjoining room, he saw a violin and a music composition lying on the table, and taking the violin he played the composition so perfectly that Rolla enquired what great master was in the house. On seeing a mere boy he could hardly believe his own eyes and

protested that he could teach him nothing.

Paganini played astonishing feats on one and two strings to imitate a conversation between two lovers. He took off the two middle strings D and A and played the duet on the remaining two strings. So well was Paganini received and appreciated that Pope Leo XII. decorated him with the Order of the Golden Spur. Reports were abroad that he was a child of Satan, whom one man declared he saw directing his bow at a concert. Paganini frequently visited an old Florentine castle and people declared that he held intercourse with the Devil for they heard all manner of queer noises coming from the place. When he made his first appearance in London throngs followed him in the streets, even pinching him at times to see if he were real. In his playing he combined the arco and pizzicato together, plucking the string with his left hand and at the same time using his bow with his

right, making most astonishing feats. He tuned his violin to produce different effects, his system being mostly his own even though he had much training. Paganini was much opposed to the wiles of society leaders. On one occasion they tried to secure from him \$1,000 worth of violin music in return for the price of a dinner. On another, while concertizing in Paris he received a pressing invitation to dine with notable company, and a postscript adding "Do not fail to bring your violin." Paganini returned the invitation card with following written on it, "My violin does not dine." Paganini wrought a revolution in the violin world. Vieuxtemp, the renowned violinist, who had heard the wonderful virtuoso said "He is the greatest of us all."

Japan now has 5000 motor cars.

Summerland and TWO STORES West Summerland

FOR SPRING OF 1921 PLANTING

We have made liberal provision and will have many thousands of trees of leading varieties to offer of choice quality, grown in the Chilliwack Valley, where we get a splendid root system and vigorous growth.

The available supply of NURSERY STOCK is likely to be less than the demands for the coming year. We therefore advise planters to place their orders with us as early as possible and avoid disappointment.

We already have quite a few orders on our books for Spring 1921 delivery. A word to the wise should be sufficient.

Income Tax Return on or before the 30th of April, 1920.

Dominion of Canada

Department of Finance

ALL persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:—

1. Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more.
2. All other individuals who during the calendar year 1919 received or earned \$2,000 or more.
3. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919.

Forms to be used in filing returns on or before the 30th of April, 1920.

ALL INDIVIDUALS other than farmers and ranchers must use Form T 1.

FARMERS AND RANCHERS must use Form T 1A.

CORPORATIONS and joint stock companies must use Form T 2.

Penalty

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of Twenty-five per centum of the amount of the tax payable.

Any person, whether taxable, or otherwise, who fails to make a return or provide information duly required according to the provision of the Act, shall be liable on summary conviction to a penalty of \$100 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months' imprisonment or to both fine and imprisonment.

General Instructions.

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters.

TO OPERATE AT PEACHLAND

(Continued from Page 1)

He reports his little girl is improving slowly.

Roy White left on Wednesday of last week, en route for Prince George, where he hopes to find some suitable land to locate on.

Mr. Thos Powell spent a few days in Vernon last week attending the meeting of the Okanagan United Growers held there. He returned on Monday evening.

Mr. J. A. Edgecombe was a passenger north on Thursday of last week, returning Friday evening.

Mr. Bert Robinson spent a few days of last week here with his wife and family, coming down on Thursday evening and returning on Monday morning to resume his work with the government pile driver.

Mrs. C. D. Clark and Mrs. B. F. Gummow held their post-nuptial reception at the home of Mrs. R. A. F. Moore on Thursday of last week. The house was tastefully decorated with pussy-willows, and dainty refreshments were served. The brides were charmingly attired and their many friends called during the hours of the afternoon to wish them well on "life's matrimonial journey." Mrs. Moore received the guests at the door, while the Misses Ilyva Murdin, Aliee Cousins and Elsey Law assisted with the serving.

After spending a very pleasant winter in California, Mr. and Mrs. A. W. and Miss Kate Miller returned

on Friday morning much improved in health and vigor.

Mrs. Robt. Howell surprised some of her friends by stepping off the boat on Friday evening. She came back to attend to the packing up of some of their effects which they had left behind. She left on Monday to visit in Vernon for a short time.

Mr. Lloyd Affleck, one of the old timers here, spent a day in town last week-end, visiting his old friend Mr. Thos. Elliott.

Miss Elsie White left on Saturday morning for Vernon where she has accepted a position.

Messrs. P. C. Tees and Phinney arrived on Saturday morning to spend the day in town. Mr. Tees is still teaching in the Summerland High School.

Mr. Gudmore with his little daughter Edna left on Saturday evening for Vancouver for a short visit.

Mr. and Mrs. Bert Dennis were passengers south on Saturday evening last to visit Summerland. They returned on Monday morning.

Mr. G. McBean is enjoying a visit from a brother from the prairie, who arrived last week-end.

After a week or so spent in Kelowna Mrs. J. S. Drought returned home on Saturday evening.

After having taken Mr. Town's auto to Vancouver Mr. R. A. F. Moore succeeded in finding one down there to ride back in, arriving last Saturday. He reports having had

quite an enjoyable trip both ways. In a recent issue he was reported to have been bringing a truck back for Mr. Hyde, but another driver was undertaking this duty and had Mr. Moore bring a car through for him. Mr. Hyde and his driver however did not drive all the way home. Taking the train to West Summerland they had Mr. Moore meet them with the car. The truck will follow later.

Mr. Finch, who will be remembered as having spent a considerable portion of last season in this community, returned on Monday last to spend the summer here again. In fact it is reported that he is looking for a suitable place to purchase. He is a guest at the Edgecomb home.

Mrs. Craig left on Tuesday to return to the prairie, after having enjoyed a very pleasant visit with her people here. Mr. Craig has recovered from his severe illness.

Mr. B. M. Whyte was a passenger north on Tuesday morning last.

Mr. and Mrs. Allen Wilson returned home Tuesday evening having left the family and friends at Lamont improving in health.

Mr. Cutbill's new home is progressing favorably the concrete basement walls are beginning to loom up now.

Mrs. D. J. White has been enjoying a visit by her sister from Neepawa, Manitoba, whom she has not seen for over thirty years. She was accompanied by her husband, Mr. James Pool and his sister, Mrs. H. Waite, of Medicine Hat, Alberta. They are returning from the Coast, where they have been spending the winter and bought property, intending to make their home there eventually. They spent from Thursday till Monday here.

Mr. and Mrs. McGregor from near Stettler, Alta., are spending a short time here looking around with a view to purchasing a home. They have taken up residence in a portion of Miss M. Smith's home.

Mr. and Mrs. W. D. Miller and family who have been living in town for the winter in Mr. and Mrs. A. W. Miller's house, have moved out to the ranch again. Mr. Miller has taken a logging contract for the Kelowna Sawmill Co. and is getting ready to start operations. They expect to take the timber off the McLaughlan pre-emption and others in that vicinity.

YOU ARE INTERESTED IN The Review

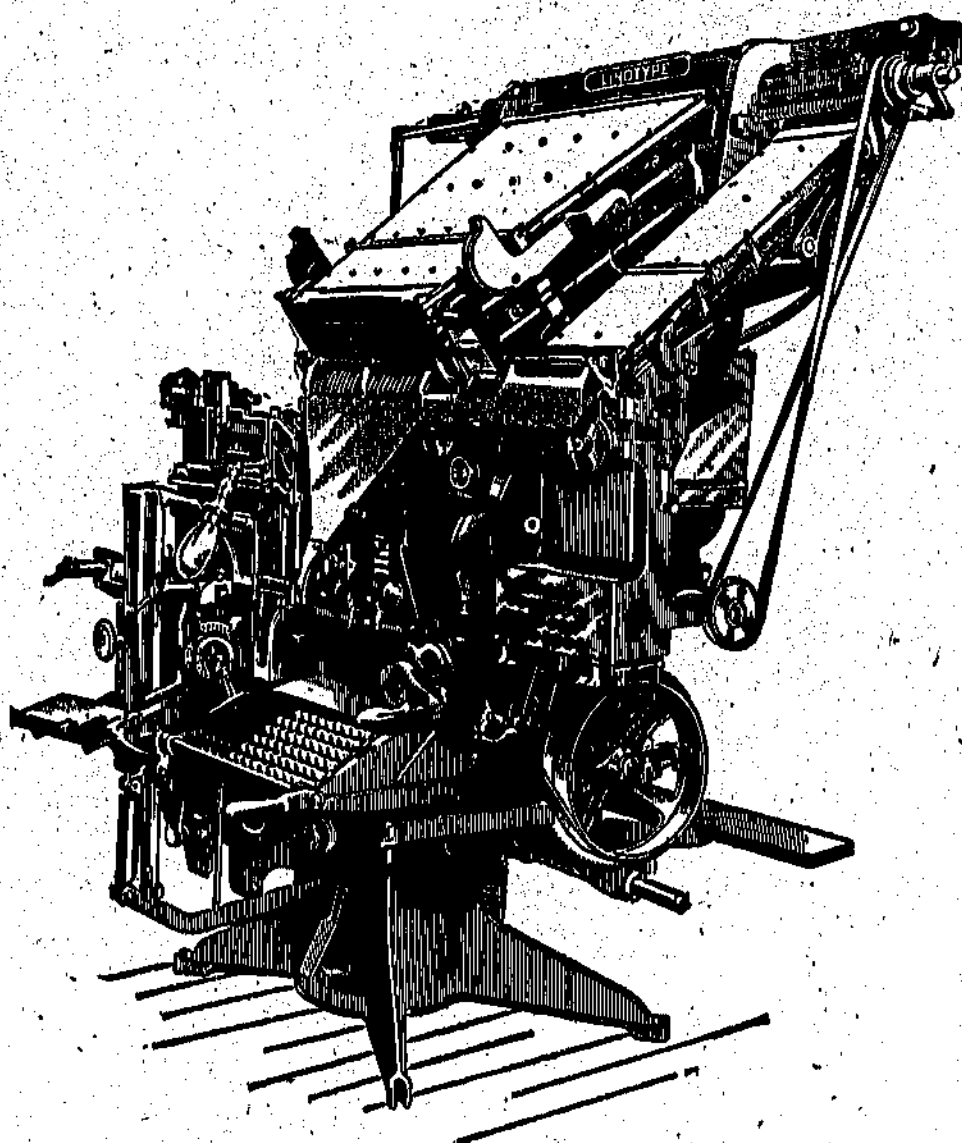

WE ARE feeling mighty proud of ourselves these days and we think justly so, and we wish our many friends and subscribers to know that they have a just right to feel proud, too, of the printing plant from which this paper is published.

The press shown below is the Babcock Optimus machine — one of the best makes of flat bed two revolution cylinder printing presses and is the only printing press of this type in the whole Okanagan, and as far as we know in the Interior.

THE MODEL 14 Linotype (shown to the right) represents the last word in type slug casting machines and is also the first No. 14 to be erected in the whole of the Okan-

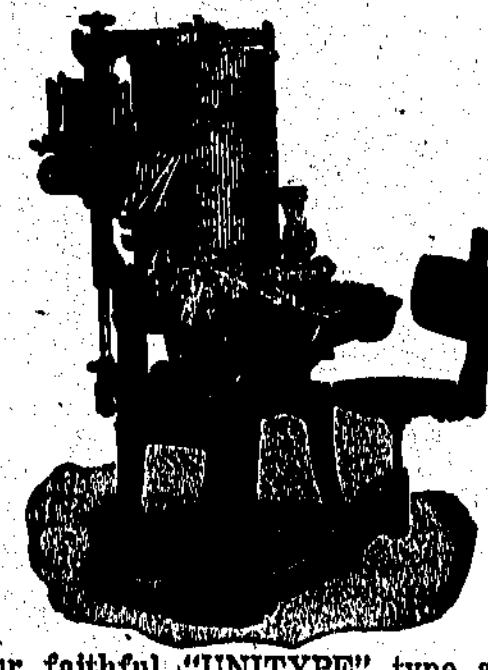

BABCOCK OPTIMUS PRESS

Our New Model Fourteen Linotype

agan Valley. This a truly wonderful machine and so much can be said about it that we are not going to tell you anything — only ask that you spare a few minutes and come in and see her "talk type" (only don't come on a Friday, publication day.)

WE ARE also proud of our Unitype but we have now outgrown this machine and with our new Model 14 we are over-equipped and will dispose of an old and trusted friend when we find a buyer for our Unitype.

Our faithful "UNITYPE" type setting machine which we have outgrown

THIS OFFICE as will be seen by the above has an equipment equal to any Coast printing office and we are in a position to take care of your wants in this line both economically and expeditiously. The Review is a private corporation with a public mission and YOU ARE INTERESTED insofar as we must have your support to warrant a return on the investment. There is no reason why all the job printing of Summerland, Peachland and Naramata should not be manufactured here.

DOES ADVERTISING PAY IN THESE TOWNS? Ask yourself this question and wake up to the business to be developed in your own home town. The Review covers your field completely. 'Nough sed.

WOULD OPEN WARD SCHOOL IN CHURCH

Down-town Parents Ask That School on Hill Be Closed

When high school re-opens following the Easter vacation, the school board may be forced to again call on Mrs. R. C. Robinson to take some of the classes. It was stated at the regular meeting of the school board Wednesday evening that Mrs. Robinson had consented to again fill in a gap in the teaching staff if needed.

The secretary reported that the new principal, Mr. D. J. Welsh, had arrived, and that Mr. Tees would act as first assistant. Mrs. Kennedy, another high school teacher, now believed to be in Calgary, had not replied to a letter from the secretary written March 22nd. The work has been so broken that both the inspector and principal have strongly advised that the third teacher be employed until the end of the present year at least. It was stated at the Wednesday night meeting of the board that four high school subjects had scarcely been touched this year.

The board briefly discussed a resolution as submitted by the Duncan school board, on larger grants from the Province on teachers' salaries. This resolution already has been published in these columns. The resolution was finally laid on the table in anticipation of an early meeting of the trustees' association. Chairman Wright thought this was a matter for municipalities to deal with rather than school boards.

Trustee Garnett stated that a number of school children had not yet been vaccinated. He was advised that this matter was receiving the attention of the medical health officer.

On Monday about a dozen parents, mostly residents of Beach Avenue and vicinity, met the trustees and asked that a school be opened down town. The Methodist church building was suggested as a place in which to hold school until a suitable building was erected, a two-room school having been requested. A resolution was prepared on the above lines and this was considered at the Wednesday meeting of the board, and was briefly commented upon by the chairman. He thought the request was a reasonable one, and that it was feasible to rent the Methodist church and do away with the school. The Methodist body had been asked to put a rental price on the building, but this had not been received. Some doubt was expressed as to the condition of the plumbing and the matter of heating will be looked into. One difficulty which had presented itself to the chairman was that the children in Peach Orchard would be a long way from the school, and this might mean conveyance to the central. He did not consider the Monday night meeting a representative one. Trustee Garnett suggested making up a list of the children, and the chairman proposed that a list of all parents concerned be compiled and a referendum taken. Trustee Zimmerman suggested that the matter would depend on the inspector, and it was finally decided that Inspector Lord be invited to come to Summerland and inspect the church building, at which time a special meeting of the board would be called.

There was some discussion on the subject of financing the cost of building a new ten-roomed consolidated school building, but no definite action was taken.

Following is a summary of the accounts approved for payment:

Teachers	\$1,507.00
Conveyances	243.00
Caretaking	98.00
Secretary	10.00
Clark & Stuart desks	110.00
Water rates	42.50
Medical Health Officer	31.25
Review Pub. Co.	33.45
S. A. Donite, wood	150.00
H. W. Harvey	65.35
W. W. Boston	8.40
S. Supply Co.	53.21
Sundries	22.05
Total	\$2,441.11

Hop is the thing you can't bunk the average man out of.

Peach Prices Will Be Higher

Higher prices will be paid for peaches during the coming season, according to predictions. Western American peach crops will be exceeding light. Extremely cold weather in the Yakima and other parts of Washington State destroyed the fruit buds. More recent reports from other states tell of the killing of prospective crops. By a blizzard in Missouri the entire crop of peaches, apples, plums and cherries of that state were killed, in the opinion of the state board of agriculture. The fruit crop in that state is placed at \$2,000,000. Damage to Oklahoma fruit crops as a result of freezing temperature and blizzards last Saturday and Sunday will exceed \$5,000,000, according to the State Board of Agriculture.

SUMMERLAND APPLES IN PARIS

Caterer Says They are the Best Ever Seen There. Wants More

Summerland apples are selling in the fruit stalls of Paris and are spreading the fame of the Okanagan. They are the best apples ever seen in that city, according to a recent report received from there.

Mr. McKinnon, one of our newer citizens, who is buying a lot in the Paradise Flat district, is in receipt of a letter from a friend who went over to England recently on a visit, and while there crossed over to France on a short tour. While in the heart of Paris this friend, desiring some apples, asked a caterer for a few. The apples were taken from the original box in which they were packed and the purchaser was greatly surprised and much interested to note the address of "Summerland, B.C." on the box, and wrote promptly to Mr. McKinnon of the discovery, stating that the apple box bore the label of the Steuart Fruit Co. In speaking of the source of the apples with the dealer, the latter remarked that they were the best apples ever received in Paris, and he was determined to have more of them next season.

Pushing Work on Water System

Building Metal and Wood Flumes. Will Start Concrete Monday

Concrete work will be started on the Summerland irrigation system the first of next week, according to Engineer Fawkes. Everything is now being made ready and the material placed and crews organized for this part of the improvement work being undertaken this spring. Already much other work has been done on the flumes, and so far, Mr. Fawkes states, with the exception of carpenters, that he has had no trouble in getting men.

The north main around to Jones' Flat is now in such shape that with a half day's notice water can be put through. Cleaning out of some sand and gravel washed in is all that needs to be done. The siphon connections have been put in at Garnett Valley and the Jones' Flat main can now be laid from the north main. The new Jones' Flat lateral has been completed with the exception of a culvert under the road at C. H. Tato's. Pipe for this is on the way.

On the Thompson ditch, which extends from the T. N. Ritchie property across Siwash Flat and north to and beyond the Koop property, will be wholly new when the present program is completed. A portion of this ditch was cement lined last fall, and men have been busy for some time erecting the metal fluming along the face of the hill east of Jones' Flat. One thousand feet of this fluming is now in place. Engineer Fawkes is getting forms ready to start concreting on this ditch on Monday, when the concrete lining will be extended from where the work stopped last fall to connect with the steel flume. Two sections of wood fluming on the Giant's Head main have been re-

A MILLION DOLLAR FRUIT CROP RECEIPTS FOR 1919 BULKED LARGE

Summerland Again Leads with Express Shipments. Splendid Gains Made by Naramata, Peachland and Westbank. Record Shipments from All Points

Summerland's fruit and early vegetable crop for last year closely approached, if it did not exceed, the million dollar mark. Several careful estimates have been made, and all confirm the immense increase in output as compared with that of but a few years ago.

Summerland again maintained its position as the largest express shipping point in the province. This end of the business makes a very substantial part of the total shipments. Inquiring some months ago of one in good position to know, we were informed that an estimate made some time before totalled \$770,000, but The Review's informant then stated that this figure would be exceeded. Another estimate has placed the total crop at about \$900,000, another just passes the million dollars mark.

A careful compilation of shipping reports places the freight shipments at almost an even 400,000 packages. There was in addition to this nearly two hundred tons of bulk shipments, mostly tomatoes. Express shipments ran to two million pounds or more, variously estimated in value from \$120,000 to \$150,000. It would seem that some of the estimates made in previous years have not made due

allowance for the package and packing charges, some official estimates having taken into consideration only returns to the growers. As the packages are largely local product, and the packing charges as properly added value to the fruit as are the picking or other orchard costs, these should be very properly added to the value of the shipments. Placing the express shipments at \$140,000, and putting a conservative value on package and packing, one estimate brings the total to \$1,280,400. It may be that some of the returns were lower than the figures used in this estimate, but these prices would have to be cut considerably or there would have to be a great discrepancy in the tonnage to bring the value down to \$900,000.

Shipments from Naramata are variously estimated at from \$130,000 to \$150,000, and from reports we have received it is probable this latter figure was somewhat exceeded.

Peachland shipped about 90,000 packages by freight and over eighty tons in bulk. Express shipments from that point are given an estimated value of \$15,000. The total value runs between \$120,000 and \$140,000. Westbank exports are placed at about \$90,000.

newed, and more of this kind of work is to be done. The engineer plans on starting at once to cement line portions of this main.

Three sections of fluming on the south main which had throttled its capacity have been removed and will be replaced with new and larger fluming. Cement lining will be put in a portion of this main as soon as the frost is out of the ground.

A portion of the Prairie Creek lateral running off the north main and down through Prairie Valley has been renewed, 800 feet near the school house having been completed. Other portions of the ditch have been cleaned out and the sides trimmed up and otherwise enlarged. Two sections of the lumber fluming on this ditch above Dale's has been renewed and enlarged, and all that portion of lumber back of the Anglian Church and around to the gymnasium has been torn out and a start made on new flume.

Lumber is being hauled today to fill in a gap in the Garnett Valley flume near the Bartholomew place. When this ditch is in condition water can be carried through from Aeneas Creek to Jones' Flat, and this will be the source of supply when Trout Creek runs low.

Another thousand bags of cement is on the way. This has been bought at the same price as the cement received last fall, in spite of an advance in prices.

Merritt is to avail itself of the services of a town planning expert to be supplied by the government, for the purpose of making a thorough survey of the city and reporting on street grades, cost of a sewerage system and the feasibility of having people living in the outlying areas move in. The last feature is regarded as of great importance, as tending to economy in all municipal services.

United Farmers and Farmers Institutes

For the purpose of endeavoring to effect an amalgamation of the United Farmers of B.C. and the Farmers' Institutes throughout the province, a joint meeting of the central board of the United Farmers and the advisory board of the Farmers' Institutes will be held in Kelowna some time in June, according to the present plans. At this meeting a constitution for a future organization will be submitted. This constitution was discussed and approved at a joint meeting of representatives of the two organizations held in Vancouver recently.

By a bill introduced into the House by Attorney-General Farris, the pay of petit jurors will be increased from three to four dollars per day.

B.C. IS SECOND IN PRODUCTION

Report on Canning, Evaporation and Preserving of Vegetables

The Dominion Bureau of Statistics has just issued a preliminary statement on canning, evaporating and preserving of vegetables in Canada during 1918. The fact that British Columbia produced largely in those lines makes the report particularly interesting for two reasons—because canning, preserving and evaporating of fruits and vegetables are natural industries here, and because B.C. is second among the provinces in production. Ontario has a long lead as first. In evaporating plants, B.C. has eight out of 94; Ontario, 78. In canning factories, B.C. has 15 out of 130, and Ontario 88. In vegetables, B.C. has six out of 29, and Ontario 18. As will be seen, altogether it is a most important industry. These three allied industries made a profit of about 22 per cent. on an investment of \$16,252,986. The total expenditure amounts to \$20,100,116, and the selling value of the products at the factories was \$23,686,375. The number of persons employed was about 5000. A little over \$15,000,000 was paid for raw materials alone. Of course, the war created an unusual demand; but the importance of the industry, especially to B.C., is significant. The canning and evaporating industry has great possibilities. It will yet be expanded so as to include sauces, catsups, relishes and the like, and one may in time see firms in that line as noted as Crosse & Blackwell and Lea & Perrin used to be.

BURGLAR IN SUPPLY STORE GOOD FRIDAY

Smashes Front of Cash Register. Gets Only Silver Change

The Shaughnessy Ave. store of the Summerland Supply Co. was burglarized on the evening of Good Friday. The cash register was broken into and from five to eight or possibly ten dollars in change was taken. The damage done to the cash register was more than the amount of cash obtained. Apparently the thief knew little about the operation of these machines, for instead of moving the lever and opening one drawer after another, he attacked the cash register with a big screw driver, badly disfiguring the cabinet and finally breaking off the front end of one of the drawers, but this did not give him access, as the inner part of the drawer was still intact. Evidently another attempt was made to open the cash register in the proper way, as one of the drawers was found open and its contents removed.

The burglar entered the building from the lower floor on the north side. From the beach he climbed onto a septic tank and from there walked up an inclined sewer pipe until within reach of one of the windows which was partly open. Shoving the window further open, he climbed in, and from the basement reached the floor of the building immediately to the north of the store, and now used as a warehouse. From there entrance to the store was easily had through a connecting door.

The store was burglarized early Friday evening, as Mr. Stark was in the store shortly after 6 o'clock and left the large screw driver, referred to above, laying on the counter as a weight on some papers left there for Mr. Angove. Shortly after 8 o'clock Mr. Angove entered the store and went to the rear to obtain some postage stamps, and on his way out to go to the post office noticed the cash drawer open and then discovered the damage done. Close beside the register was a heavy bar of iron, believed to have been intended as a weapon in case the thief was surprised. The screw driver was left beside the cash register, as was a part of a bar of chocolate. Several wrappers of chocolate bars were found at the cash register and at the window of the basement.

The open window, the candy wrappers and afterwards the footprints on the sand outside the window showed how the store was entered.

This is the second down-town store to be broken into recently. A few weeks ago the Summerland Drug Co.'s store was broken into, but the loss was not heavy. Two strangers who were about town at the time were thought to be the guilty ones on that occasion, but they are not suspected as having robbed the Supply Co. store on Good Friday.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

Date, 1920	Max.	Min.	Rain	Sn.	Sun-shine
Mar. 31	42	30	—	—	6.1
Apr. 1	43	21	—	—	7.5
Apr. 2	37	28	.5	—	4.7
Apr. 3	30	10	—	—	4.0
Apr. 4	43	31	—	—	0.0
Apr. 5	49	32	—	—	5.1
Apr. 6	46	28	—	—	6.7

Advertising makes friends with the future.

subject to slides and deterioration from floods and snow water, while the resultant damage would absorb a large annual expenditure of money were the highway to be kept in proper condition. Nevertheless, said the minister, it would have to be remembered that the Hope-Princeton route, once through connection was established, would open up a new country rich in timber, mineral and agricultural land. The expenditure to complete this extension by either route would approximate \$1,000,000 to \$1,000,000.

THE management of The Review has for some time had in mind the advisability of changing the day of issue of The Review from Friday to Thursday, and in order to get an expression of opinion both from its advertisers and readers, we are asking you to kindly fill in the blank below and mail same to us—now, making any comment that might in your opinion further improve The Review. We are anxious to give our readers and advertisers the very best service we can.

Do you favor Friday or Thursday as publication day of The Review?.....
(We publish Friday evening at present)

And why?

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

The Woolly Aphid of the Apples

By A. L. Melander, Entomologist

The woolly aphid is one of the most insidious and dangerous of apple pests. It occurs on the roots and above ground, also on the branches. The branch form can be easily controlled by contact insecticides, but it is practically impossible to stamp out the aphids on the roots.

Winter weather of Eastern Washington is usually severe enough to destroy what individuals are above ground, so that developing colonies in the spring come from wingless aphids of the roots or crown. These aphids are apt to locate on a bruise of the bark and soon become conspicuous because of a growth of "wool." Their feeding poisons the tree and results in a local swelling and ultimately in a weak tree with small-sized fruit. After a couple of generations some winged individuals appear which migrate to other apple trees, thus spreading the pest. The summer generations are less vigorous, and in early fall other winged migrating individuals are produced. These rarely seek apple trees, but are attracted to elms, if near by, and there give birth to wingless sexual aphids, the females of which produce a single egg, which is laid for the winter deep in a crack of the bark. The following spring the insect inhabits the leaves of the elm, forming rosettes of curled leaves. Its third generation is the winged spring migrant that returns to the apple tree.

The woolly aphid is prevalent on nursery stock, and thus gets access to a new region. Apple stock showing swellings or galls should not be planted, and elm stock should be carefully searched for black eggs. When the woolly aphid occurs above ground it can be destroyed by a light swabbing of alcohol, gasoline or kerosene, or if numerous by a spraying of tobacco-soap, such as is given for green aphid. The underground form cannot be effectively reached and is consequently most dangerous. Kerosene emulsion, sulphur-lime or an abundance of tobacco dust applied to the roots have been recommended, but give only partial benefit. Plowing and cultivation to force the roots down are thought to be helpful since the aphids do not thrive much below a foot. Northern Spy trees are remarkably free from attack, and such stock would prove valuable in a badly infested district. The woolly aphid is too delicate and weak to force its way through the soil, but it will work along cracks and roots and thus spread through the orchard or nursery row. To prevent branch infection from below, the trunk may be banded with equal parts of rosin and castor oil melted together and applied on burlap or cotton strips, or if in a dusty district where this method would be inapplicable, it has been suggested to pack around the trunk of a tree a good layer of sand through which the aphids cannot crawl.

Valuable Suggestions on Tomato Growing

By R. H. Helmer, Superintendent Experimental Station, Summerland, B.C.

Earliness is essential in tomatoes, as the early crop brings the best prices and the main crop can be grown for the canneries. To obtain this it is necessary to have a greenhouse or hotbed wherein to start the plants early, say from the middle to the end of February, and a cold frame to harden the plants before planting in the open. The best soil to use for starting tomatoes is one that will not compact with watering. This can be made by using good orchard soil, screen and mixed with an equal part of loamy soil from bottom land, care being taken to avoid alkali. It is well to take the bottom soil in the spring and allow it to dry out and weather during the summer. This sweetens the soil and shows up the alkali if any is present. Use only well rotted manure if any is necessary. The most satisfactory flats or boxes are made by using for ends 4 inch by 4 inch by 12 inch, two side pieces 1/2 inch by 4 inch x 24 inch, two bottoms 1/2 inch by 6 inch by 24 inch.

Tomato seeds must be started in a fairly warm atmosphere, a night temperature of from 55 to 65 degrees is best. If kept too warm at night the plants become too spindly and are harder to transplant. As soon as the two first true leaves appear, transplant in flats 2 inches apart in well firmed soil. Water the plants enough to keep them growing well; too much water makes them weak. Two or three transplantings are made, and we aim to have thick stock plants 6 by 6 inches in the

flats. Allow the plants to dry off a little in the cold frame a week before setting out. This toughens them for transplanting in the open.

The land intended for tomatoes should not be too rich or the plants will run to vines and fruit be much later ripening in consequence. It should be well ploughed and worked up in the fall. In the spring re-plough or cultivate deeply, set plants 4 feet apart in rows 3 feet to 3 feet 6 inches apart. A good method is to soak the soil in which the plants are growing just before you transplant them, and cut the plants out in squares. The damp soil holds together and the roots are not exposed to the air at all.

Cultivate shallow once a week, as good stirring of the soil hastens growth. The plants should be irrigated once a week, about 2 or 3 acre inches, or light irrigation, and cultivated shallow after each irrigation. Deep cultivation interferes too much with the shallow roots and retards the maturity of the plant. The growing fruit is very susceptible to sun-scald, and if you remove leaves, exercise great care. It has been found that vines allowed to remain on the ground give as early and as good a crop as vines trained to stakes or trellis, and is by far the cheapest method of growing tomatoes in this hot, dry climate.

Speed
An Englishman was boasting to an Irishman about the fastness of English trains.

"Why, Pat," said the Englishman, "we run our trains so fast in England that the telegraph poles look like a continuous fence."
"Do they now?" said Pat. "Well, sir, I was on a train wan day in Ireland, and we passed first a field of turnips, then wan of carrots, then wan of cabbage, and a large pond of water, and we were going so fast that it looked like soup."—Boys' Life.

Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. In this they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

Naramata News

Current Events of Town and District

Mr. J. Winger, of Peachland, is here arranging to move some buildings and do a great deal of cement and stone construction work. He expects to be here most of the summer, and will bring teams and equipment from Peachland in a few days.

Mr. Sherwood Davies is in town for a few days doing some teaming and other spring work.

Mr. Markle, of Penticton, was a business visitor on Tuesday, and it is rumored that there will be another car soon touring the surrounding country.

Mr. Russell Wells, of the Naramata Fruit Co., will shortly take up his residence in Penticton. Mr. Wells' sister and family are expected in soon from the prairies, and will occupy the home during the summer.

Mr. A. W. Lee went to Vernon this week to meet his family, who are coming in to our town to live.

Mr. W. Armour's little daughter suffered a severe accident a few days ago. She was playing with a hammer and nails and got hold of a fulminating cap by some means, the cap was exploded and her hand badly torn. She was taken to the Summerland Hospital for treatment.

Miss Stonehouse and Mr. Richards, teachers in the school, came in from a visit at the Coast this week. School started today after being closed for about two weeks.

Miss Lois Wells and Mrs. Wells are both able to be out, after a severe attack of grippe.

The community was shocked and deeply grieved after receiving the word that Mrs. L. Smith had passed away at the Penticton Hospital. Mrs. Smith was known to be in a serious condition, but everyone hoped that she would rally and recover. However she grew gradually worse, and the end came at about seven o'clock on Sunday night. Mrs. Smith leaves a husband and baby daughter, and a large number of friends to mourn their loss. The funeral was held on Wednesday afternoon at the undertaking parlors in Penticton.

Owing to the sad death of Mrs. Smith the meetings of the two Institutes and the dance, which were scheduled to be held this week, were all postponed.

Mr. H. Stallard has purchased the Dobie lot and will soon be living in his own home on the benches. Mr. Dobie will engage in the contracting and building business in Penticton.

The ferry contract for the year was awarded to the Okanagan Lake Boat Company, and the service was to start the first of April under the new schedule and tariffs, but for some reason the Ferry Company have not complied with the rules, and are not running according to the specifications of the contract. It is hoped that for the benefit of all concerned that operations will soon start, and we will get our three trips a day and other benefits we are to receive for the largely increased subsidy.

Testing Advertising

In talking recently with a man who has made a large success as an advertising salesman in another place this question was asked him: "When a merchant says it does not pay to advertise, what do you tell him?"

"I just tell him this: What proportion of the population of this town has been inside your store during the past two months?"

"Very few merchants ever claim they have had more than 20 per cent. of the population. Most of the non-advertisers would be glad to get 5 per cent. A lot of them probably only get a small fraction of five per cent. with any regularity.

"Then, I say, how are all the rest of the people going to know about your goods? How can they tell whether it would be for their advantage to patronize you or not? If you have good values or special bargains how do they know about it? A great many of them rarely or never pass your store. The great majority that pass give you only a glance. You are not getting their business, having done nothing to interest them.

"Then I go on to say there are just three ways to get some of this trade now slipping past them. They

can send round solicitors from door to door, distribute circulars or handbills or advertise in newspapers. The newspaper notice is read carefully where the solicitor is turned down, and besides the advertising is twenty times cheaper than canvassing. And handbills are chucked into the waste baskets while newspapers are read. If you don't care to use any of these methods, I tell them, most of the people of this town will continue to pass you by without knowing anything about your goods." These remarks fit in here as well as in the town where they were made. A merchant must tell the public about his goods in order to get trade.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange to acquire pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$500 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption if he requires land in conjunction with his farm without actual occupation, provided satisfactory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 50 acres, may be leased as homestead; title to be obtained as for fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 50 acres may be leased by one person or company. Mill, factory or industrial plant on timber land not exceeding 50 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which claims or defenses of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 21, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued and held since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry, provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Fees of permits for range for settlers, campers or travelers, up to ten head.

WHERE ARE WE HEADING FOR?

It is perhaps too early to say just what the inauguration of the eight-hour work day is going to do for labor, says an exchange, but, judging by what is to be seen today it is not leading to increased efficiency nor even an increased desire for efficiency on the part of the laboring men. The demand for an eight-hour day has been followed by another for a six-hour day. The question of efficiency, or the ability to deliver the goods does not seem to have entered into the question. It is only one of fewer hours of labor and increased pay.

If this is all the eight-hour day means to the young men and young women of today who are starting out to make a living at any trade or profession or calling, then they must look out for the future. Canada today needs greater efficiency in labor more than labor needs the shorter hours. Not that employers are opposed to the shorter hours, but with the shorter hours has not come the efficiency predicted, nor yet the desire for efficiency. Speaking generally, laboring men are not making any good use of the increased hour or two of rest from daily toil. They are not striving to make themselves more efficient. In fact, under the old system of ten hours a day, while we would not advocate going back to it, laboring men, especially the young men, made greater exertion towards efficiency than they do today.

Last week the Victoria legislature refused to consider legislation for an eight-hour day for the Provinces, for the reason that the Federal Parliament is debating a national eight-hour day. It is generally conceded that Ottawa had best keep its fingers off problems of this character. We are told on all sides that the land is being depopulated to fill the cities, and there cannot be any doubt that there is a lot of truth in the assertion. Our cities are growing out of all proportion to the country side, and this, the Toronto Saturday Night says, is not a good sign. Under production is the Dominion's curse. It is the main cause of our present difficulties, and to it the outrageous cost of living can be attributed. To further reduce the hours of production could not help matters and might lead to real distress—men would have money with which to buy plenty, but there would be nothing to buy. These conditions are approaching. They do not appear to be so far off as men think.

Apparently they have been coming unusually thick and heavy or Editor Rose, of the Kelowna Courier, would not have been provoked to write as he did last week with respect to requests for free publicity. Probably he had just been comparing the cost of "getting out" an issue of the Courier when further requests for free space were made of him, occasioning the following comments:

"Prominent among the worries of the management of a paper are the constant demands for free publicity. Every mail brings shoals of them from all sorts of people with a fancied claim to free space. It is also surprising how many local people are obsessed with the same idea, that a publisher is a species of lunatic who delights in paying printers high wages and incurring other large outlays for the sole purpose of handing over his space gratis to all and sundry with axes of their own to grind.

"In reality, there is a sharp line of distinction between the news and the advertising departments of a paper. News may be defined generally as comprising accounts of events of general public interest that have taken place, descriptive articles and editorial matter; and announcements of meetings and other coming events of interest only to those immediately concerned should be classed as advertising matter pure and simple, and should be a source of revenue to a paper instead of an expense, for be it remembered that every line of news costs the publisher money to produce.

"Those who wish to insert announcements of coming events in The Courier will please note that there is a proper department for such on the local page—at two cents per word.

Gasoline was advanced in price from 28 cents to 30 cents a gallon in Spokane last Saturday. This higher price is equivalent to 36 cents our measure, as compared with 52 cents now being charged here. Gasoline is carried further to the capital of the Inland Empire than is the haul to the Okanagan. Our gasoline is refined at Vancouver, while Spokane will probably draw from the Pacific coast, a longer haul, or from the east. Why the difference in price?

True our gasoline passes through more hands. It might be that our dealers could combine their purchases and bring in direct shipments in carload lots. If this could be arranged no doubt a saving could be effected which would put the dealers in a position to reduce the retail price and at the same time have a larger margin of profit for themselves. We offer the suggestion for what it is worth.

HOTELS The details given in The Review of last week concerning improvements under way at the local hotel were doubtless welcome reading to Summerland citizens. Nothing has a worse effect on the standing of a town than the existence of poor hotel accommodation, and it must be admitted that Summerland has for some time laboured under that handicap. Travellers, both commercial and uncommercial, had learned to shun it as a stopping place except under dire necessity, and moreover did not fail to spread their warnings to others. This ill report grew by what it fed on, and it would be very hard to measure the amount of negative injury inflicted on the place in consequence.

That the cause of offence is to be removed is good news, and cannot be too widely made known. It will take time to wipe out the late bad impression, but the first well-pleased commercial traveller may be relied on to use the wireless telegraphy common to his fraternity, and results will grow from that moment.

As one who has spent a good deal of his life wandering over the face of the earth and dwelling in the tents of hotelmen, I have a good deal of sympathy with the hotel-keeper, even when I happen to be badly served. I reserve to myself the right to think my own thoughts of the accommodation, and, that being taken for granted, can then make allowances. To begin with, we know that the hotel business has been completely revolutionized during the past five years, in fact that word hardly describes the situation. A crate of eggs kicked sky high by a mule would pretty fairly describe the position of the business when the country was swept by the prohibition movement. Accompanying, or closely following, this there was a considerable drain on the men of the country, which meant a shrinkage of hotel guests, and finally our own familiar friend (in disguise) the High Cost of Living, came along and did his share to make matters worse. On the whole, it seems rather remarkable that the hotel conditions in the smaller places have got as far towards normal as they have.

The chief element responsible for poor hotel keeping is the fact that in many instances the work is undertaken by people who are no more fit to run a hotel than to govern Mexico or placate Ireland. It is self evident that the successful handling of an institution which has to cater for individuals of so many different temperaments, and to satisfy them all, requires an exceptional sort of ability. A few of the qualities indispensable are an equable temper, a vast fund of patience, a ready smile, and a sense of responsibility. All these qualities are doubtless exceedingly desirable in any walk of life, but the hotel-keeper must have them or fail. Then it goes without saying that the management of his establishment must be on lines which only a good business man can obtain, and, as a sort of additional postscript to all this, these should be that subtle, indefinable sense of personal care for the comfort of every guest, which is the crown of hotel achievement. When we consider all these things and note how often these establishments are rashly taken over by men and women who seem to be deficient in nearly every requisite, we can hardly wonder at results alike disappointing to the public and disastrous to the individual.

Summerland, with the support and co-operation of its residents, should be exceptionally well able to maintain really good hotel accommodation. The Valley is fast filling up, and the fame of its climate is spreading rapidly among the dwellers further inland. A little judicious publicity in prairie provinces would bring considerable results in visitors, and in that direction it might be possible for the Board of Trade to assist. A good hotel and such improvements on the lake front as the municipality might find possible, would soon put Summerland in the front row.

—AUTOLYCUS.

A lady subscriber writes thus: "I have read your paper that I know of and I always read it with the greatest of interest and appreciation." The Review: "It is the very best local paper that I know of and I always read it with the greatest of interest and appreciation."

IN LAST

WEEK'S ISSUE OF THE REVIEW

we made an announcement of the new Advertising Rates to come into effect next month. This increase is necessary on account of the enormous increase in cost of production. Paper continues to jump in price—cost of repair parts are extremely high—and repairs are a necessary expense in newspaper work—and lastly journeymen printers' wages have recently taken a big jump, our union men receiving a raise of a dollar a day, according to the new schedule recently signed by the Employers of the Okanagan Valley. Naturally these raises in the prices of the different commodities have given our cost of production a severe jolt—too much of a jolt to be wholly absorbed by The Review and of necessity the selling price must be raised in sympathy with the higher costs.

R. E. WHITE,
Manager.

Passing Events: Social, Personal, &c.

Miss Ruth Graham is spending Easter with relatives in Kelowna.

The Hospital sewing meeting will not be held this week in the Parish Hall.

Ralph Brown, now with the Soldier Settlement Board, spent the Easter holidays here.

Provincial Constable E. C. Graham, of Kelowna, was a visitor to Summerland this week.

Miss Sullivan, of Vancouver, spent last week-end with her aunt, Mrs. W. Limmer, and cousin, Mrs. M. Steuart.

Miss Kathleen Brown, now a student of the Provincial Normal School, Vancouver, came in on Friday to spend the Easter vacation.

Mr. Jas. A. Darke went out Wednesday morning to Innisfail, Alberta, for the purpose of disposing of his farm and live stock.

Mr. R. G. S. Blackaby, of the Bank of Montreal, spent the Easter vacation with friends in Vernon and Kelowna, returning Monday evening.

C. W. Little, inspector for the O.U.G., who has been attending to sprayer sales for that organization, is a visitor to Summerland this week.

Mr. W. Arnott, who with his wife and daughter is now living in Dauphin, Man., came in by boat Tuesday evening on business connected with his orchard property here.

Mr. D. J. Welsh, recently appointed principal of the Summerland High School, motored down from Enderby early this week with his wife and young son. They will reside in one of the cottages near the college building.

There has been quite a general outbreak of measles of a mild type here during the past few days. Dr. Andrew informed The Review last night that the epidemic is now under control and that there had been no new cases for a day or two.

The "Sicamous" has discarded the melodious whistle borrowed from the pioneer "Aberdeen" and has reverted to her grunting roar once again, which is, if anything, more raucous than ever. Strange it is that the C.P.R. seems so wedded to such a discordant bellow for their crack lake steamer.—Kelowna Courier.

Miss Jean Johnson, the newly appointed matron of the Summerland Hospital, took charge of that institution on the first of April. Mrs. Chas. Parsons, who has been in charge since the hospital was opened in the Felix Hotel building, left early this week for Buffalo, N.Y., where she and Mr. Parsons will make their home.

The C.P.R. telegraph is arranging to increase its telegraphic facilities in this Valley south of Vernon. At present the C.P.R. uses but one wire, which is leased from the Okanagan Telephone Co., although it has two wires running north from Vernon, one connected with Vancouver and the other with Calgary. The improvement in the service is to be made this summer.

The Rivington orchard property near the railway bridge across Trout Creek canyon has been bought by Mr. Alex. McGown. But recently Mr. McGown purchased the Douglas-Hamilton orchard immediately to the south of the Rivington lot and on the brink of the canyon. With these two lots Mr. McGown will have a very nice property, beautifully situated, overlooking the Dominion Experimental Station and Trout Crook point and the lake.

The death of Mrs. H. D. Suckling occurred last Saturday morning at the Pentleton Hospital. Mrs. Suckling had been seriously ill since shortly after the birth of her twin babies on March 11th. Though she had but few acquaintances in Summerland, her husband is well known here, having been for some years with the Bank of Montreal here as accountant and he has the deepest sympathy of a large circle of friends. A little girl of three and the infant twins are left. Mr. Suckling took the remains to Montreal, leaving Wednesday morning. The late Mrs. Suckling's mother, Mrs. Muddoll, arrived after the death of her daughter, and is taking care of the babies until Mr. Suckling returns.

Mrs. A. G. Munn returned Tuesday morning from a visit to California.

Roy Black has returned from Vancouver, where he has been for some months.

Miss Ballentine came in Friday night from Kelowna to remain during the Easter holidays.

Mr. C. W. Lees arrived by train this morning from Vancouver, where he had been for a short visit.

Jas. Ritchie went out to the coast Friday morning, intending to visit Victoria and Vancouver on business.

Councillor Johnston and family are moving this week from Trout Creek to their new house near the Baptist Church.

Arlington Gayton, who is with a survey party near Fairview spent Easter here with his parents, Mr. and Mrs. C. H. Gayton.

Mr. Atkins, of Calgary, a brother-in-law of Mr. E. R. Simpson, accompanied by a friend, spent a few days here at the Simpson home.

Miss Ruth Dale and Miss Kate Butters, of the public school staff here, are spending the Easter vacation at Miss Butters' home at Lumby.

Having bought an 80-acre farm near Armstrong, Mr. and Mrs. A. Dockstader and family are moving this week to the North Okanagan town.

H. P. Scott, of the Dominion Bank, was a visitor to Vancouver over Sunday, leaving here on the morning of Good Friday and returning Tuesday morning.

Mr. C. A. Walter leaves Monday morning for a visit to Castor, Alberta, his former home. He expects to return about May 1st.

Miss Blanche Crowe, daughter of Mr. and Mrs. Alex. Crowe, of Pentleton, lost her life in the Lincoln Hotel fire in Seattle on Wednesday morning. She was employed there as stenographer.

Summerland stores are busy. Several proprietors state that last week was one of the busiest weeks in the retail trade in this community, one of them going so far as to state that Saturday was the busiest day in the history of his business. This is very encouraging, and is partly the result of the influx of new citizens as well as to the opening of the spring rush.

The Review takes pleasure in welcoming to our midst Mr. A. Mathieson, of Winnipeg, who has come to take charge of certain work necessary in the production of The Review. Mr. Mathieson comes to us very highly recommended as being thoroughly versed mechanically in newspaper and job printing work. Mrs. Mathieson and son are expected to arrive early in May, incidentally adding one more family to our ever-growing community.

Following a brief illness, Mrs. Greeley, wife of Mr. W. E. Greeley, of Mineola, died last Friday morning at the Summerland Hospital. The body was taken by the bereaved husband to Pembroke, Ont., for interment. Mr. and Mrs. Greeley were married here a few months ago, and have been living for some time at Mineola, where Mr. Greeley was employed with the Summerland Lumber Co. Mrs. Graham, of Ponticton, a sister, and two sisters and a brother from Saskatchewan attended the funeral.

Sympathy of the most practical kind is that which has been extended to their pastor and his family by the members of St. Andrew's Presbyterian Church. The family has been passing through most difficult times and the strain and anxiety and the death of the oldest son has borne heavily upon Rev. W. H. Bates and Mrs. Bates, and has severely tested the strength of the former. The church has persuaded Mr. Bates to take an extended vacation, and provision will be made to have the pulpit supplied until August. For the next two or three Sundays Mr. W. T. Reed will take charge of the services. A further evidence of the esteem and love in which he is held by his congregation is shown in the fact that a voluntary addition of over \$300 was recently made in Mr. Bates' salary.

Miss Gertie Blair has returned from a visit of some weeks in Vancouver.

Mr. and Mrs. Jas. Gartrell went up to Kelowna Good Friday to spend Easter with relatives.

Manager J. W. Wheeler, of the Summerland Lumber Co., is about again after a brief illness.

H. S. Blanchard, who has been at Vancouver since he sold the hotel property here, is a visitor in town.

The Misses Campbell, having sold their orchard property here, are leaving tomorrow morning for an extended visit to prairie centres.

Miss Belle Vanderburg came in from Graham's Landing, Arrow Lakes, Friday night, to spend the Easter vacation at her home here.

The Bankhead Orchard at Kelowna may be used by the Soldier Settlement Board as a training farm for ex-Imperial soldiers coming to this Valley for the purpose of engaging in fruit growing.

W. D. Smith, second son of Mr. and Mrs. J. O. Smith, is here for the Easter vacation. He is taking a course in electrical engineering at the University, which course he expects to complete this spring.

Jas. H. Ritchie has returned from Calgary. He and Mrs. Ritchie will make their home for a time in the cottage recently occupied by Mr. and Mrs. Geo. Craig, and later they expect to occupy the T. N. Ritchie cottage.

The family of Mr. J. J. Wilson arrived last week from Winnipeg, and after a few days at the hotel awaiting the arrival of the household furniture, they have moved into their new home, formerly the property of the late Mrs. Mary Campbell. Mr. Wilson is expected to arrive from Winnipeg at once.

What is the date on the label of this paper, friend subscriber? If it is a date in advance of the present we are grateful to you; if not, please take this reminder. Increased costs make it more necessary that subscriptions be paid promptly. If you have not received a "dunner" it is because we are very busy. Thank you.

Attention is directed to an advertisement in this paper of a sale of work and home cooking to be given by the Women's Auxiliary of the C.W.V.A., on Saturday afternoon in St. Andrew's Hall. The ladies have assembled a large and varied collection of garments and other handiwork, and will also offer a quantity of home cooking.

Summerland Baptists have extended a call to Mr. Isaac Page to become their pastor. Mr. Page, who occupied the pulpit for two Sundays, afterwards returning to Vancouver, has wired his acceptance. Mr. and Mrs. Page have both served as missionaries in the interior of China under an inter-denominational missionary board. Shortly after their arrival here Mr. Page will be ordained as pastor of the Summerland Baptist Church.

Two sudden deaths from septicaemia following confinement have occurred in the Pentleton Hospital. The victims of this very contagious form of blood poisoning were Mrs. H. D. Suckling and Mrs. A. E. Smith, Naramata. Further reference to the latter's death appears in our Naramata columns. The outbreak of this dread disease is occasioning the Pentleton authorities much concern. It is said that one or two other young mothers in private homes are threatened with the disease.

MAY OPEN BANK HERE

Summerland was visited this week by Mr. Searth, of Winnipeg, representing the Imperial Bank. Mr. Searth's mission here was one of investigation. His bank is desirous of getting a share of Okanagan business, and the action of the Bank will depend on his report. Mr. Searth was very favorably impressed with business prospects in Summerland.

Any person convicted of intoxication while driving a motor car should be given a jail sentence without the option of a fine, according to a recommendation made to the government by the Vancouver Automobile Association.

Musical Talks.

Written by Prof. C. C. Laugher, Mus. Bac., Bowmanville.

(C. C. Laugher, Mus. Bac.)

No. IV.—THE PIPE ORGAN

The Pipe Organ is without doubt the noblest of all instruments—the wonderful evolution of the centuries. This instrument is invested with such a dignity yet possessing such massive tones that no other instrument approaches.

The Pipe Organ originated in ancient Greece from the "Pan Pipes," which consisted of a series of whistles fastened together and blown by the mouth. These same pipes were afterwards placed on a wind box and supplied with air through a bellows. The number of pipes were increased and required more wind than the hand bellows could produce, so a series of bellows were arranged and persons were engaged to walk upon them, forcing in the air by their weight. Then a water system or hydraulic pressure was introduced, then pneumatic and now electricity, which is more powerful and enables quicker action, etc.

Now about the playing of these instruments. In the earlier days, there being no keyboard, the fingers were placed over the pipes to stop the tone, afterward a slider was attached and these were pulled in and out at the base of the pipe to admit the air. Following this a key was devised, it being found easier to depress the key with a blow than to pull the slider which had great resistance.

The first keyboard had sixteen keys, each key 40 inches long and 3 inches wide. The performers were called organ beaters or smiters, having to strike the key with the fist.

Space will not allow to explain fully the gradual advancement and growth of the Pipe Organ, but it is most interesting.

The tone of the organ in its earlier stage was much more lusty than the present day organ. It is recorded

that the pipe voices were so loud and strong that listeners could not venture near with uncovered ears.

The modern pipe organ is known to all, but its parts and working method may not be so generally known. The kind of pipes are of the whistle or flute type, also beating and free reeds. These are made to imitate orchestral instruments. The modern organ is capable of producing from the softest tone to the great power of a huge band.

The keyboard is known as the manual and in one large organ, five smaller organs independent of each other may be combined, each smaller organ having a separate keyboard to itself, making a bank of keyboards one above the other ranged before the player. The organist's hands are completely occupied and besides this he must be an expert in performing upon the pedals with his feet, the pedals compass being 30 notes.

All pipes are made of wood and metal (tin, lead and zinc), all the pipes are built in shape of huge whistles.

The modern keyboard has five complete octaves, the principal keyboard is called the "Great," the one

above is the "Swell," the one below the "Choir," and the "Solo" is above the "Swell" and the "Echo" is above that.

It is good for the music student when visiting a city to take every opportunity to hear good music of this kind, as an organ recital by a competent organist should create much interest.

Some people pride themselves upon hearing great organists and do not forget to boast about it, but listen to this: A visitor of pompous character going up to one of the attendants in Westminster Abbey said, "Will you please tell me who that is at the organ, I cannot tell by the touch if it is Sir Walter Parratt or Sir Frederick Bridge?" The attendant answered, "I beg your pardon, sir, that it is not either of them, it's the vacuum cleaner over in the corner."

San Francisco possesses one of the largest and finest organs in the world, the organist is Frederic Le-

mare, the eminent English organist, whose salary is \$10,000. Compare this with the great Beethoven who was appointed second court organist at 150 florins (\$63).

The organ is the most interesting part of a church property as judged from the standpoint of public interest. You may have stained glass windows, libraries and carved furniture in the church investment, but leave out the organ and what is the result—an immediate lack of interest. A good, sincere, eloquent, devout pastor, a good choir, and a good organ means a prosperous church.

FOR SPRING OF 1921 PLANTING

We have made liberal provision and will have many thousands of trees of leading varieties to offer of choice quality, grown in the Chilliwack Valley, where we get a splendid root system and vigorous growth.

The available supply of NURSERY STOCK is likely to be less than the demands for the coming year. We therefore advise planters to place their orders with us as early as possible and avoid disappointment.

We already have quite a few orders on our books for Spring 1921 delivery. A word to the wise should be sufficient.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Peachland, April 7th

Miss Morley, teacher of the intermediate grade in the Central School, left on Wednesday of last week to spend the Easter vacation at her home at the Coast.

The men from here who formed part of the Government pile-driver crew, having completed the work to be done just now, arrived home on Wednesday. These were Bert Robinson and W. L. Williams.

Mr. and Mrs. Grantham and their son, Jack, motored to Kelowna, on Thursday.

Mr. C. G. McDougald spent Good Friday visiting friends down the lake, going down Thursday evening and returning on Saturday.

Two more good-looking milch cows were brought in by boat last week, one for Major J. Thorn and the other for Major Hardisty. These were both Jersey stock, and Major Thorn's was accompanied by a calf.

Our school for the most part is closed down for Easter holidays. Mr. McLeod, however, is giving the entrance class their work during this week, as usual.

Lieut. P. C. Tees is spending his Easter holidays in Peachland looking after some work on his fruit lot.

After a few days in Vancouver on business, Mr. Cudmore, with little Miss Eva, returned home on Friday.

Alex. Beasley left on Friday to spend the Easter holiday at his home in Oyama.

Mr. and Mrs. Keating and Miss Lexie arrived back on Friday, after having spent the winter on the prairie visiting friends and relatives. They report having experienced much cold and rough weather, but they enjoyed the trip immensely.

Mr. Seth Davidson is enjoying another visit from a son, who came in on Friday. He will probably remain here with his father for an indefinite period, having sold out his cigar business at Kamloops.

Mr. W. L. Williams spent the week end at Friday the lake points, going south Friday evening and returning on Tuesday.

Mr. and Mrs. Cartwright, of Okanagan Landing, spent a few days, recently visiting Mrs. Cartwright's parents, Mr. and Mrs. W. J. Moore. They left on Tuesday morning to return to the Landing, after an enjoyable time spent here.

Mr. and Mrs. McGregor, who recently came in from the prairie and rented a portion of Miss Smith's house for temporary quarters, rented the house on Maple Point lot owned by Mr. Allan Wilson.

As a result of a bad cold, Mr. R. Walters was unable to attend to his duties at the Union on Saturday. Mr. H. E. McCall was asked to take his place, and on Monday as well. Mr. Walters had previously tendered his resignation as manager of the local Union, and same was to take effect on Monday. The directors have not located a successor as yet, but Willie Buchanan, who returned from the Coast on Monday evening, is taking charge of the food department in the meantime. The directors would have been pleased to have had Mr. Walters continue for another season, but he had what he considered better offers and felt he was justified in accepting one of them.

Miss Bradbury came up from Penticton to spend Easter here with her parents and the rest of the family. She returned on Monday evening.

Mr. R. J. McDougall, of Penticton, brought the Rev. Andrew Grievos up on Sunday last, when he came up to preach in the Baptist Church.

Rev. H. A. Solly, of Summerland, motored up on Sunday morning to hold the regular services in the English Church.

Mrs. J. L. Vicary was a passenger north on the Seacombs on Monday morning.

Mrs. Wray came up from Naramata on Monday to spend the day with her parents here. She returned on the afternoon boat to Naramata, where Mr. Wray is employed looking after some property in that vicinity.

Mr. M. D. Ross spent the Easter holiday up the lake, returning on Monday evening's boat.

Mr. Murray McBean, who has been visiting his brother here, took the boat south on Monday night to look over various properties in Summer-

Summerland vs. Peachland

First Tournament Checkers Game Won by Summerland

The first checker game in a tournament arranged between Summerland and Peachland was played here last night between nine members each of the two clubs, four games being played by each of the nine pairs. The score was 17-11 in favor of Summerland.

Following is the result of the game, the first name in each pair being a representative of the Summerland checker club: T. B. Young, 3; Ross, 0; 1 draw. McMillan, 0; Benson, 3. Beattie, 0; Buchanan, 2; 2 draws. Harding, 3; McDougald, 1. Atkins, 2; Dryden, 1; 1 draw. S. B. Snider, 2; Miller, 2. Wm. Ritchie, 3; Williams, 0. McCutcheon, 3; Henderson, 1. Beer, 1; Moore, 1; 1 draw.

The players were kindly entertained at the home of Mr. and Mrs. Wm. Ritchie, where the match was played. A return game will be played at Peachland in two weeks.

Presentation Made Mrs. H. K. Lott

Her many Summerland friends will be interested in learning that Mrs. H. K. Lott has been taking a prominent part in public school work in Vancouver, through the Parent-Teacher Association, and will look to Mrs. Lott to take a leading part in similar work here now that she has come to make Summerland her home. The following is taken from a Vancouver paper:

The members of the Henry Hudson Parent-Teacher Association entertained at a charming tea yesterday afternoon at the home of Mrs. F. C. Tingley, 1937 Whyte Avenue, in compliment to Mrs. H. K. Lott, who will leave shortly to take up residence in Summerland, B.C.

The hostess was assisted in receiving the guests by Mrs. F. Bayliss, and little Miss Myrtle Tingley, dressed in a dainty yellow crepe frock, opened the door.

The drawing and sitting rooms were attractively decorated for the occasion, a profusion of golden daffodils being arranged prettily throughout.

Mrs. C. S. Arnold presented Mrs. Lott with a nicely worded address on behalf of the association, wishing her every success in her new home. She was also the recipient of a lovely basket, decorated with ferns and filled with daffodils which was presented to her by little Miss Retzee Tingley and Miss Eleanor Arnold.

Mrs. Lott responded to the presentations in a few appropriate words.

Strenuous Basketball

After commenting generally on the game played between the Summerland girls and the Kelowna ladies' basketball team recently at Kelowna, the Courier says:

"An interesting feature of this game was the exhibition given by Gertie Angwin, guard for Summerland. This petite damsel, built on stocky lines, and with determination written constantly on her countenance, objected strenuously to any approach to her citadel. This challenge was taken up at every opportunity by Blossom Buck for Kelowna, and at times the work of these two gladiators overshadowed even the game itself. Both seemed well versed in jiu jitsu, catch-as-catch-can and Graeco-Roman styles, and at times the referee seemed to be in doubt as to whether a fall had been obtained and by whom. At one time the contestants both went to the mat, Gertie having apparently a leg scissors and a stranglehold, while Blossom was forced to part with a beautiful hamlock obtained after much endeavor.

land and elsewhere. He has some notion of buying a small place for a home, and wishes to see the various places in the valley before definitely settling on anything.

Mr. J. Hyde arrived from Summerland on Monday with the auto truck which he had just brought in from the Const for the Peachland Lumber Company.

Quite a goodly number turned out to the dance held in the Orango Hall on Monday night, the Summerland Orchestra supplying the music, which was very much appreciated. The platform having been taken out of the hall made quite a difference to those on the floor, and made room for several more couples.

Miss Kate Miller and Miss Loona Morrison were passengers north on Tuesday morning last.

Railway to Extend 16 Miles from O.K. Falls

Not only will the Kettle Valley Railway build a spur to Dog Lake and establish a barge service on that sheet of water, but, according to the bill now before the House ratifying the agreement, the company is to construct a railway from the dock and slip at the south end of Dog Lake to a point on the Okanagan River near the Demonstration Plot, a distance of about sixteen miles. This line, according to the bill, must be completed and the railway put in operation by the end of the present year.

The spur to the head of Dog Lake, the dock and car slip there and a second dock and car slip at the southern end of Dog Lake are to be constructed and rolling stock equipment provided and a boat and barge service established on Dog Lake within three months from the date of the ratification of the bill.

No definite provision is made for extending the railway south from the Demonstration Plot near Fairview to Osoyoos Lake or Orville. The bill merely provides for this extension to be built if and when developments warrant the construction of this section.

Trout Creek School

At the Trout Creek School, as reported by the teacher, Miss Margaret Harrison, the results of March exams are as follows:

Senior Second—1. Robert Gilley; 2. Mildred Laidlaw; 3. Violet C. Beck.

Junior Second—1. Noris Laidlaw; 2. Eric Tait; 3. Ruth Tait; 4. Margaret Bender.

First Reader—1. Wm. Gartrell; 2. Elsie Thompson; 3. Ivy Thompson; 4. Harry Benedict; 5. Constance Seeley.

Second Primer—1. Edward Joy; 2. Myrtle Benedict.

First Primer—Stanley Sharpe. Rec. Class—1. James May; 2. Ronald Helmer.

Perfect Attendance—Robert Gilley, William Gartrell, Harry Benedict, Constance Seeley, Ruth Tait, Eric Tait, Margaret Bender, Edward Joy, Stanley Sharp, Myrtle Benedict.

The new High School at Grand Forks will be built of concrete blocks made locally.

DADDY LONG LEGS

The much-heralded "Daddy Long Legs" is to be at the Rialto Theatre on Saturday afternoon and evening. Of this the management have been given absolute assurance by wire. This much anticipated film was to have been shown at The Rialto last Tuesday afternoon and evening, but, through circumstances beyond the control of the theatre and also of the film exchange in Vancouver, a substitute picture had to be supplied. The "Daddy Long Legs" film was to have been in Vancouver Monday morning to be shipped from there to arrive here Tuesday morning. The exchange sent an excellent substitute which would have been much appreciated under ordinary circumstances, but it was not "Daddy Long Legs" as had been looked for by the children, young and old. The film has now arrived in Vancouver and was offered to The Rialto for Saturday night on the condition that it be shipped from here on the next train. Needless to say the management, even more than their patrons, were sorely disappointed over the non-arrival of the advertised picture.

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 13, No. 38, Whole No. 609

SUMMERLAND, B.C., FRIDAY, APRIL 16, 1920

\$2.00, payable in Advance

Much Business Before Council on Monday

Engineer Submits Reports on Irrigation System

R. Pollock Resigns

Another Collector and Accountant Must Be Engaged

The Summerland Municipal Council had a long session on Monday, sitting from 2 o'clock until 10.30 or later, with a recess of but an hour between 6 and 7 o'clock, and much business was left unfinished.

The reeve, to whom the matter had been referred, reported that S. A. Denike demanded another \$35, in addition to \$25 already agreed upon with him in connection with putting the new concrete ditch through his property. Reeve Campbell pronounced the claim unfair, while Councillor Johnston thought the whole matter had been settled when he had arranged with Mr. Denike to accept \$25. The feeling was expressed generally that Mr. Denike was taking an unfair attitude, but it was finally decided upon motion of Couns. Blair and Johnston to pay him the \$35 in full of all claims to date.

The action of the reeve in buying the Lumsden team and harness for \$450, was approved.

A request for higher wages from Foreman Tomlin and J. Morrow, in charge of the tractor and motor truck, was referred to the reeve.

A. M. Temple applied for a flume across a lot just south of his property, instead of an open ditch, described as very wasteful of water. This was granted.

J. Tait will be given a 1/2 inch connection to water an acre of block 35 in D.L. 675, in which some nursery stock will be carried over until next spring.

On motion of Couns. White and Kirk, a lot on the Giant's Head road, formerly held by the Woodworth estate and bought at a tax sale last year by the Municipality, will be sold to W. C. Kelley, agent for the estate, for a sum sufficient to cover the claims of the Municipality.

Inspector J. Tait notified the Council that the tree on Block 4, in D.L. 2196, must be sprayed for blister mite. The Municipality has a request for a lease of this property, and this and the matter of spraying were referred to the reeve.

W. A. Caldwell and A. Davidson asked that the road between G. J. C. White's and Orr's corner, now very sandy, be improved, and also that the road running north along the front bench from their property toward town be put in condition so that loads of fruit may be taken to the wharf. Early attention was promised, and the request referred to the roads committee.

R. Theod asked for better connection.

(Continued on Page 8)

New Business

Firm Formed

An outcome of a visit made here some weeks ago by T. A. Waldon, of Yorkton, Sask., is the forming of a partnership for the purpose of carrying on a hardware business here. The new firm will be known as Butler & Waldon Bros. E. R. Butler, for many years in charge of the hardware department of the Summerland Supply Co., is the senior partner. The others interested in the business are his cousins, T. A. Waldon and the latter's brother, also of Yorkton, but who will not come to Summerland for the present at least.

The new firm are buying the hardware department of the Supply Co.'s upper store, and slight alterations are being made in the building to separate the hardware business from the stock on the other side of the building. The Review joins with its many readers in wishing our popular citizen and his partners every success.

Mr. Waldon has had a long retail trade experience on the prairie. With his family he is now living in R. H. English's cottage on Beach Ave.

Institutes Would Distribute Sugar

Women's Organizations Suggest This to Minister of Agriculture

The monthly meeting of the West Summerland Women's Institute was held in St. Stephen's Parish Hall on April 9. The meeting opened by singing one verse of "O, Canada." This was followed by the regular business.

After reading an appeal from the secretary of the Alberta Women's Institutes asking for clothes, etc., for the people of Southern Alberta whose crops have been a complete failure the last few years, a committee was formed to collect all they could and have the things sent as soon as possible.

It was moved and seconded that the resolution passed by the Cobble Hill Women's Institute be endorsed, namely: "Resolved, that owing to the loss incurred by reason of a serious shortage of sugar in 1919, at the time of jam making and canning fruit, the secretary be instructed to write to the honorable, the Minister of Agriculture, asking him to take such action as will insure that this serious loss to business does not occur this year, and suggesting as a remedy that a certain quantity of sugar be allotted to each Women's Institute for distribution, at current prices, amongst its members, and that each institute shall be responsible for the bona fide use of such sugar in jam making or fruit canning. That a copy of this resolution be sent to each Women's Institute in the province."

Mrs. Solly gave a very interesting ten-minute talk on art, taking up Grecian architecture, and this was followed by Mr. Kelley, whose very interesting study of "The Tempest" was indeed appreciated by all who were present.

Miss Phyllis Clynes played a violin solo accompanied by her sister, Miss Needa, which was very much enjoyed. After singing the national anthem the meeting adjourned and tea was served.—Contributed.

Commenting on a recent issue of The Review, an official of Canadian Linotype Limited said, in part: "If the typographical appearance of this issue is any indication of what the future holds forth for The Review, the people of Summerland and vicinity may well be proud of their newspaper. We sincerely trust that your future success will be assured by the ability you have displayed in this excellent number."

New Proposals

For Cannery

Local Interests Asked to Line Up With New Company

Cannery matters in Summerland have taken a new turn this week. It is now probable that the local company, yet in its first stages of organization, will line up with a Vancouver company to whom a charter was recently granted. This latter company is Carter's Okanagan Canning Co. Ltd., and was organized for the purpose of operating the cannery at Peachland, an option on which that company now holds. Learning through Mr. Bickford something of the opportunities offered by Summerland, Mr. Carter was induced to come here and look over the situation. His visit resulted in a proposition to the organizers of the proposed local company, which offer was considered in an open meeting of the growers Wednesday evening.

The Carter company is capitalized at \$20,000. It is proposed that one-half of this be taken by the local interests, two of the directors being appointed by the Carter interests and two by Summerland shareholders, the fifth to be the manager of the company. The Summerland group have asked that the capitalization of the company be increased to \$50,000, and this probably will be done.

The question of a site was touched upon at the Wednesday night meeting, and it is probable that the Municipality will be asked to grant the company the vacant lots north of Empire Hall block for canning purposes.

MANY NEW BUILDINGS GOING UP AT EXPERIMENTAL STATION HERE

Handicap Occasioned by Lack of Buildings Will Be Removed. Residences Being Grouped Near Flower Gardens

UNIQUE STRUCTURE FOR PUBLIC USE

Central Heating and Lighting Plants Contemplated. Common Sewerage System for Small Village Now Building

There is much building activity at the Dominion Experimental Station here this spring. Throughout the period of the war, Supt. Helmer did not urge for the erection of some much needed buildings. There is therefore now much to be done in this line before the Farm is properly equipped with buildings necessary for efficient operation.

The largest building now under course of construction is the boarding house. This is a frame building which will be finished with metal lath and plaster on the outside and the usual plaster finish inside. It is a two and a half storey structure, with a deep, full-sized basement. A living room for the housekeeper is provided with separate entrance. Near the main entrance of the boarding house is a large washroom, which will have three wash basins. A good sized dining-room and pantry are provided with convenient arrangements for the serving of food and the removal of and caring for soiled dishes. Beside the above-mentioned rooms there is the kitchen on the ground floor. The building has been wired throughout for electric light, and plumbing except the fixtures has been installed. For the time the work of finishing the interior of this building is held up awaiting the arrival of lath. A neat stair from the front hall leads to a good sized hall on the floor above, off which there will open six bedrooms. Two single beds will be put in each of these rooms. On this floor bathroom, toilet and washroom are provided, each in a separate room. On the floor above there will be two more bedrooms.

On the front of this building, which faces towards the lake, there is a deep veranda, which will no doubt be a favorite resting place after the day's work.

To the south of this building a herdsman's cottage will be built, and to the north of the boarding house the foreman's house is nearing completion. This is already plastered, is wired and has modern plumbing and an open fireplace. It is in every way a neat, comfortable and convenient home.

On the east side of the road nearly opposite the foreman's cottage a similar building will be erected for the assistant superintendent. For the present these buildings will be heated by stoves, but they have been located so that they may eventually be heated from a central heating plant with underground pipes leading from the

heating unit to the several buildings. They are now each being connected up with a large, common septic tank built a short distance down the slope to the west of the buildings.

The farm building plans also include a home for the superintendent, and Supt. Helmer, whose claim to optimism is admitted, is still hoping for an early start on the long waited for house. He and Mrs. Helmer have certainly been putting up with many inconveniences during the years in which the farm has been under development. In the meantime Mr. Helmer and his family will live in the foreman's cottage.

A structure in which the general public will be especially interested is a large eight-sided log house built among the trees close to the head of the Farm irrigation system. The walls of this building are nearly up to the full height, and are built of round logs, the ends of which project across each other at each of the obtuse angled corners. Inside this will be a large room, twenty-five feet from wall to wall. Extending out from one side a kitchen is being built. Here cooking conveniences with running water will be provided. The roof of this building is conical and will have suitable rustic finish. This building will be for public use, and will no doubt be a favorite resort and should attract many visitors to the Farm.

Another building to be erected soon is a large horse stable, a description of which was given in these columns some months ago.

Cattle, sheep and hogs are provided for in buildings in a well-sheltered valley to the west of the main administration building. Here a silo has been built, a root cellar dug into the side of the hill, and other conveniences provided for the caring of the stock.

The poultry division is considerably removed from what will be the centre of operations, this division having been permanently established on the bottom land near the main entrance.

When the buildings now under course of construction are finished and the others, which include homes for the superintendent, assistant superintendent and herdsman and the horse stables, are put up, there will be quite a little village where formerly there has been only the farm office building and the stock barns and a few temporary shacks.

MAKES HANDSOME DONATION TO NEW SUMMERLAND HOSPITAL

Mrs. Van Allen Offers Ten Thousand Dollars for Wing in Memory of Son

Summerland's new hospital is to have a memorial wing known as the Marston Van Allen Memorial. For the erection of this wing Mrs. Van Allen, mother of our late citizen, Lieut. Van Allen, who was killed while with the Royal Air Forces in Belgium, is donating the handsome sum of \$10,000. Mrs. Van Allen expressed a desire to erect such a memorial previous to the burning of the hospital. She has now renewed this offer and has promised such a sum as will enable the Hospital Society to erect a permanent wing, excellently equipped, which will in itself be a complete unit. This very generous offer has been gratefully accepted by the Hospital Society.

At the regular meeting of the Board on Monday it was decided to appeal to the ratepayers of Summerland for \$15,000 toward the building and furnishing of the new hospital

building. It is estimated that the main structure, which will include accommodation for the nursing staff, will cost fully equipped close to \$25,000. A grant of at least \$5,000 is expected from the province.

Messrs. Wright, Lipsitt and Zimmerman waited on the Municipal Council on Monday afternoon and laid the proposition before that body. It had been proposed that the Hospital Society put on a drive, but it was said that only a few would contribute in this way, and as the whole sum required would have to be realized within a brief period, some misgivings were felt in the success of a drive to raise from \$15,000 to \$20,000 dollars. The Board finally decided that a levy on the whole district would be the more equitable, and by a debenture loan payments could be spread over a term of say

Meteorological Station Well Worth Visiting

Delicate Instruments at Experimental Station Make Accurate Records

To few visitors to the Dominion Experimental Station here will there be anything more interesting than the meteorological station, where accurate records are kept of the temperature, sunshine, the rainfall, the direction of the wind and its velocity, and to which will soon be added a registering barometer and a device for measuring and recording evaporation. This station has been installed on the edge of a bench overlooking the lake, and at an elevation of perhaps five or six hundred feet above the lake and open to the elements.

Though simple, the instrument whereby the hours and minutes of sunshine are recorded is most interesting.

The registering thermometer is protected from the sun's rays, but is open to every air current.

The device for measuring precipitation is simplicity itself, being a wide bronze tube on end with a funnel-shaped bottom, at the apex of which is a small hole and beneath which is a cylinder for receiving and measuring the water. Should the rainfall be heavy this small vessel overflows into a larger one of similar design. This receiving device is so constructed as to prevent evaporation, and is placed on a concrete pedestal.

The electrically operated mechanism for recording the velocity and direction of the wind is perhaps the most interesting of all. A weather vane and four semispherical cups each on the end of projecting arms of metal, and which revolve with the slightest breath of air, are placed on the top of a tall staff. Beside the staff there is a small building under which there is a storage battery, while in the building itself are a clockwork mechanism, and registering equipment, all under glass. The clockwork makes frequent connections with the electrical equipment, part of which is connected with the weather vane, and when the contact is made a needle punctures a sheet of paper, thus recording the direction in which the arrow is pointing, whether north, east, south or west, or at some position between these points. Similarly the speed at which the breeze or wind is travelling is recorded.

Each morning the automatic registers made by the several instruments are removed and replaced with fresh sheets. This work is in charge of Mr. G. W. Johnson, who after the records are taken to the office has much work to do in compiling and tabulating the information thus obtained.

Would Dispense With Engineer

Motion Before Municipal Council Laid on Table

At the evening session of the municipal council on Monday, a resolution was proposed by Couns. Johnston and Blair to the effect that the services of the municipal engineer be dispensed with.

The chief argument in support of the motion was that of finances, although some reports respecting the work on the irrigation system were also advanced. In answer to these Reeve Campbell said he could not place any credence in them, and declared that in justice to the engineer he would make an investigation, so that such rumors could be authentically denied. He spoke very confidently of the work done by Engineer Fawkes.

After some discussion, Coun. White protested against the passing of a resolution of this kind to vote without having given previous notice of the motion. In this he was supported by the Reeve, and Coun. Kirk emphatically disapproved of placing a motion of this nature before the council without notice with the expectation of putting it to vote. The motion was finally laid on the table.

Anything from a setting of eggs to a full-grown orchard can be sold through the columns of The Review.

Suggest Tax on Trees as Part of Land

Letter From Former Reeve to Be Further Discussed

Board of Trade

Deals With Main Subjects at Tuesday Night's Meeting

There was a wide range of subjects discussed at the Board of Trade meeting, held Tuesday evening in Campbell Hall, ranging from matters relating to taxation to ferry tolls and from the control of the migration of tuberculosis cases to the price of gasoline.

The attendance was not large, while the report of the secretary respecting paid membership was somewhat disappointing. A letter from the West Side Okanagan Farmers' Institute asked the board to endorse a petition requesting the Government to improve the road along the west side of the lake running north from Westbank Ferry to White Man's Creek. Doubt was expressed of the feasibility of making the road fit for motor traffic, and the feeling of the meeting was that efforts should be concentrated on obtaining a free ferry from Westbank to Kelowna. The secretary was instructed to write the Farmers' Institute referred to that the board could not endorse the petition.

A letter from the Associated Boards of Trade of B.C. brought with it a copy of the constitution of this newly organized body and a request for membership. The president of each local board has a seat on the executive of the association. The constitution was read and filed without comment.

Upon motion of R. V. Agur and R. E. White, the board decided to join the Associated Boards of B.C., something of the objects of which were outlined by President Andrew and Secretary Wright.

Some time was taken up discussing two resolutions, one being an amendment to the other, and both of which had been discussed at the Board of Trade convention, and finally referred to the locals without having been put to vote. One advocated the abolishing of the excess profits tax and the other advocated continuing this method of raising revenue. No decision on this subject was reached.

A reply was received respecting a Summerland resolution, which had been adopted by the Associated Boards and forwarded to Ottawa. This was in respect to the control of the passage of T.B. patients from province to another, and requesting that provision be made that if a patient become a public charge, that his home province be made responsible. The resolution had been returned by Ottawa with the suggestion that the Provincial Board of

(Continued on Page 8)

Interesting Wind Records Made Here

During March, Summerland had 6,147 miles of wind, and that wasn't very much, either, according to the records kept at the Dominion Experimental Station here, for there was not a single gale and but very few strong winds during the month. The maximum velocity reached at any time during the month was 20 miles with a southerly wind, the date of highest wind being March 24th. The average wind velocity for the whole month was 8.8 miles.

Other interesting information was obtained by The Review during a visit to the Farm on Saturday. The greatest mileage made in twenty-four hours by the wind during the month of March was 402. There were nine days on which strong winds were recorded, and seven days of fresh winds, while the longest continued wind direction was from the north which extended over a period of twenty-one hours. The prevailing direction was from the south, there being 2452 miles of south wind in a total of 254 hours.

Orchard and Farm:

Treatment of Tuber Diseases of Potatoes

When digging potatoes, a number of diseases may be observed on the tubers; for example, spots of corky tissue on the skin, called common scab; or black surface spots which look like pieces of soil, but remain sticking to the tuber when it is washed—this is the so-called black scurf or rhizoctonia. Again, there may be brown spots somewhat silvery, especially when moistened, the silver scurf disease. These diseases do not affect the edible qualities of the potatoes; only when they are badly infected is a loss incurred, due to a deterioration in the saleable value.

Later, however, after the potatoes have been in storage for some months, more or less rotting of the tubers takes place, which in bad cases may result in 30 per cent. or 40 per cent. of the tubers becoming valueless. This rotting may be observed externally through its causing irregular sunken areas to appear, which are brown under the surface of the skin. This rot is due to late blight; this being a disease which first makes its appearance on the leaves as dead, water-soaked areas, occasionally killing the whole plant as well as infecting the tubers. Thus it is most important to spray your plants regularly during the growing season, particularly in warm and damp weather. Again, one may also find a dry rot with white pustules breaking through the surface; in this case the cause is a fusarium dry rot, which is nearly always associated with a crack or bruise of the tuber.

Other diseases may be noticed when the potatoes are cut or peeled; for instance, a black discoloration extending from the skin inwards which is sometimes wet rotted. This is black leg, a disease which also attacks the growing plant, causing an unthrifty condition which often results in the plant turning yellow, falling over and dying. It cannot be controlled by spraying, but is easily held in check by planting sound potatoes, for the disease is transmitted to the plant by the tuber.

To control these diseases an experimental farms note says it is necessary to adopt a careful routine for the selection and treatment of the seed tuber at planting time, and to provide the best possible conditions of storage. These two points are briefly outlined as follows:

Seed Treatment

1. Do not use seed from a field known to have been badly attacked by some disease.
2. Discard all cut, broken or bruised tubers.
3. Before cutting, soak them in either: (a) Corrosive sublimate solution, 2 ounces in 25 gallons of water, for 4 hours. (Corrosive sublimate is a deadly poison). Or (b) Formalin solution, 1 pint in 30 gallons of water, for 2 hours.
4. When cutting tubers, keep a jar of formalin at hand with a spare knife in it and, when a tuber is cut which shows any discoloration, discard it, drop the knife into the jar, and use the other one for the next tuber.
5. Do not plant potatoes in a wet, undrained soil, for such soil furnishes conditions favorable to many diseases.

Storage Conditions

1. See that the potatoes are thoroughly ripened, and exercise the greatest care to avoid any injury to the tuber.
 2. Keep the temperature of the storeroom about 30 degrees, F. Potatoes freeze at 20-28 degrees, F., and freezing must be avoided.
 3. There should be ample ventilation with sufficient moisture to prevent the potato drying, but not enough to cause water to condense on the surface of the tubers.
 4. Direct sunlight should be excluded.
- It is of the utmost importance to spray regularly during the growing season, since, more particularly in the case of late blight, mentioned above, there is a direct relationship between the diseased plant and the later rotting of the potato in storage. In this article, however, we have aimed at emphasizing (1) the planting of healthy tubers, disinfected so as to kill externally adhering diseases, and (2) the providing of conditions in storage which will reduce the losses from rotting to a minimum.

Toronto is likely to be the scene of an all-Canadian apple show next fall. Efforts are being made to have the Okanagan well represented.

Two Eyes Enough Says Potato Expert

Ontario Government Specialist Tells How to Cut Tuber

S. C. Johnston, B.S.A., vegetable specialist of the Ontario department of agriculture, answers a number of questions relating to potato seeding for the information of amateur gardeners.

"How many times can a potato be cut for seed?" Mr. Johnston was asked.

"That depends upon the size of the tuber and the number of eyes the potato contains," replied Mr. Johnston. "The potato should be cut so as to have two eyes in each set and the sets should be as even in weight as possible. It is a good practice to take the first set from the stem end; to cut slantingly across the potato and finally to divide the seed end."

"Is one eye to a piece enough?"

"No, it is better to have two eyes for the reason that one may not grow, in which case there will be a blank in the garden or potato field."

Leading seed firms also expressed opinions on the cutting and planting of seed potatoes.

Wm. Rennie Company: "Potatoes are usually planted in three sets of two eyes each to a hill. The sets are planted about three inches apart in the hill. The planting of a whole potato is wasteful and of no advantage."

The Steele Briggs Seeds Company state opinions differ materially as to the number of eyes necessary to a potato set. Some people believe that a one-eye set is sufficient if the ground is rich, but the majority plant

three-eye sets. An average-sized potato is usually cut into three or four sets. It is rare that potatoes are planted whole except they are very small.

S. C. Johnston, who is quoted above, is the government vegetable expert who gives attention to all inquiries for information upon vegetable cultivation. At the present time he is besieged every day with inquiries by telephone and letter; most of them from amateur gardeners. This morning's mail included over thirty inquiries, while Mr. Johnston's telephone was kept buzzing.

W. J. Squirrel, assistant professor of field husbandry, Ontario Agricultural College, Guelph, expressed his opinion: "A two-ounce set with two eyes taken from the centre of the potato makes the best for seeding and ensures the greatest production. To plant a whole potato may be all right when seed is cheap, as under favorable conditions it may produce a larger crop of potatoes, but cannot be recommended as a good practice." Prof. Squirrel states there is an unusual demand for seed potatoes this year, which is an encouraging sign that many who never engaged in potato growing before intend doing so this year and helping in food production. With a favorable growing season there should be a big crop of potatoes in Ontario this year. Last year Ontario had only a little better than one-third an average crop.

The department has issued new literature dealing with gardening, the most instructive being Bulletin No. 231, Vegetable Gardening; Circular No. 3, entitled "A Vegetable Garden for Every Home," and another entitled "Potatoes," by C. A. Zavitz, professor of field husbandry, Ontario Agricultural College. These pamphlets will be supplied free on application.

A. J. Beer, Wm. Ritchie, Harvey Lumber Yards, A. B. Elliott, Review Publishing Co., Fruit Union, Summerland Supply Co., Summerland Drug Co., Read's Garage, Chas. Schwass, blacksmith, and other local firms all carry fire insurance through me. You should, too. Phone me at 771.

To Have Slip Dock at Naramata

The Farmers' Institute met at the Unity Club house on Monday night, and much of importance was discussed. A letter from the B.C. Fruit Growers' Association was read that assured us we would have a slip-dock next year, and could even have one this year if we wished to finance the construction and then turn it over to the C.P.R. next season at the price of the cost of building. The citizens were satisfied to wait for a year under these conditions. As it was entirely through the efforts of the B.C. Fruit Growers' Association that this promise was made, it should be the duty of all to join this strong organization, which is constantly working to benefit the fruit grower.

A resolution was also passed asking the Water Users Committee to call a public meeting. For the benefit of the water users we are able to state that the committee were already making preparations for the public meeting, and would have some information of importance to disclose at that time. This was learned by The Review through an interview with one of the committee on Tuesday.

Some strong objections to the domestic water policy were voiced, and instructions were given to have the matter taken up with the Department.

Mr. Ben Hoy gave a most interesting talk on spraying, and his knowledge of this subject was very much appreciated. Mr. Hoy is now one of us, and we are fortunate indeed to have him where we can get valuable information at any time, as he is always willing to do this. He received a hearty vote of thanks at the conclusion of his remarks.

Miss Barkwill, of Summerland, delighted the gathering with a vocal solo.

Naramata Women's Institute Meeting

The Women's Institute held their meeting at the Unity Club on Tuesday afternoon. The special business of the meeting was arrangement of plans for collecting clothing, shoes, etc., for destitute farmers and families in Alberta. The people are to bring all donations to the church basement on Tuesday.

The ladies are taking up the town cleaning up proposition in earnest, and it is expected that a strenuous effort is to be made to have the brush and debris removed from Robinson Avenue, which is such a tangle, and does not look well to strangers coming to visit us.

The younger girls are competing in a flower gathering contest, and as a start Miss Margaret Allen brought in thirteen varieties. This is very good for the middle of April. Miss Allen was able to give the botanical name of all the varieties she had gathered. These flowers are to be pressed and mounted, and will be added to the library.

Mrs. M. M. Allen gave current events for the month.

Roll call was answered by the names of mountains of B.C.

Mr. Stanley Dickens was up from Penticton on business last week.

Capt. Lawrence and family have moved to their home on the benches.

Mr. and Mrs. Taylor, who have been here during the construction of the wharf, have returned to Okanagan Centre.

While the Syndica House is not formally opened, Mrs. Jones is taking care of all travellers very nicely. She expects to have a formal opening in the near future, which will be announced later. In the meantime the equipment is being gradually installed and help procured, so that we may soon expect the luxury of a really good hotel.

The wharf is now completed and the finishing touches are being put on the warehouse in the shape of paint, etc. In spite of the small wharf that has been provided, the whole affair looks very attractive, and is a decided improvement to the old one in this respect.

A number of pleasure seekers attended the Viny Ridge dance in the Gym at Summerland on Friday night.

Miss Barkwill, of Summerland, is the guest of Mr. and Mrs. Salting for a few days.

The Rev. H. A. Solly held Anglican Church service in the Methodist Church on Sunday.

We are sorry to hear that Mrs. A. Ayeson, who has been ill for some time is not getting on as well as expected.

Mr. L. Smith wishes to thank all the citizens for their kindness and sympathy in his recent sad bereavement in the loss of his wife.

About sixty of our citizens attended the funeral of Mrs. L. Smith, which was held in Penticton on Wednesday.

The card party, which was held at the home of Mrs. F. C. Manchester

on Saturday night, was a pronounced success. The affair was given in aid of the Unity Club and a nice sum was realized.

Rev. Anna L. Gillespie has just entered upon her fifth year as pastor of the First Spiritualist Church of Battle Creek, Mich. The official board expressed their appreciation of her services and requested her to remain, at a meeting held at the weekend. This church has grown to surprising proportions during her pastorate. Mrs. Gillespie will be here this summer to visit her family and friends, and will probably remain about six weeks.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1 acre, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$50 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 3 years, and improvements of \$10.00 per acre, including 1 acre cleared and cultivated, and residence of at least 1 year are required.

Pre-emptor holding Crown grant may record another pre-emption if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 40 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stipulated price.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Value of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces, the time within which the heirs or families of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 28, 1918.

Taxes are remitted for five years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enactment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free or partially free permits for settlers, campers or travellers, up to ten head.

Correspondence

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

To the Editor of Review, Summerland, B.C.

Dear Sir—I desire to express my thanks for your kindly reply to my letter and for the Reviews.

I have been endeavouring to gather from an article therein on school music (at least I suppose that is the root of the discussion) between the mystical name and the lady oppositionist. The former seems troubled about an imaginary fear that music in schools may decline to the parallel of Nick Carter's library in literature and that the germs of school music impurity are the product of our southern neighbors, while the lady follows up the man of fear with a balm-worthy, a Ditson decoration.

I feel sure there is a possibility that both are barking up the wrong tree to make any serious impression on the coon.

If the Summerland School Board decides upon the kindly, generous, and inspiring study of music as a subject for its curriculum, surely the electorate of Summerland would find no occasion to demand of its representatives that purity of material is necessary, for although we may criticize (sometimes our superiors), yet I think better of men than be suspicious of them attempting to carve manhood and womanhood with the tools of an arch enemy.

The writer on more than one occasion has been a delegate to the Music Teachers' National Association of America, and visited some of those centres of school oratorio, and heard excellent performances, but never heard "purity of tone" or "clarity of diction" owing to the various stages of the singers' lives, none of whom had arrived (by nature) at that point of vocal development capable of such production. Schools were in the hands of masters whose conception of youth and its capabilities and the gift of sympathetic nature led them to guard the inroads of objectionable matter.

No Canadian musician who has been converted from system to soul, would permit a loose style of literature musically or otherwise. Nor does he admit that Canada is musically Americanized except where emulation is conducive to progress as a worthy national asset, for good, better, best, are the climbing rules for youth. What avails the source of his or her inspiration so long as he gains the summit?

The writer has given normal training for twenty years and may be permitted to state that he has never experienced any danger of unholy principles being taught.

I must plead ignorance of "jazz," "fox trots," etc., and am afraid any criticism I might attempt would be profoundly weak, but am under the impression that it must be practised in the American senate, judging from their antipathy to international peace.

However, there is an idea prevalent in the minds of jazzers that "the hug" is to be abolished, so it will be as hard on the jazzer as the prohibition of booze on the boozer. The effect of the latter has made straight many a winding trail. So all is coming out right, only let us get the sunshine of pure song into the heart of youth, and try to keep his face heavenward.

"Materia Musica,"

SAVE THE CHILDREN FUND

The Review of Jan. 23rd carried an appeal made by Mr. Julius W. A. Block for donations to the above fund, the object of which is to save the children in the famine areas of war-scarred Europe. Mr. Block, in the letter published below, acknowledges the receipt of donations from Summerland and Naramata, and with that letter he enclosed the official receipt to him from the head office of the Fund in London.

To the Editor of The Review, Summerland.

Dear Sir—In reference to my letter of some weeks ago, which you so kindly brought in your valued paper, I now beg to enclose the acknowledgment of receipt of the money I

Increase Made in Road Grants

Victoria, April 10, 1920
The Review, Summerland, B.C.

Dear Sir—Knowing that the people of our riding will be interested in the expenditure for roads, etc., in the various ridings of the province, I am enclosing you copy of list of expenditure just laid upon our desk this afternoon by the Minister of Public Works. You will note that the expenditure for South Okanagan is about 30 per cent. more than last year. Let us hope that with proper supervision of this amount, our roads will be put in a very much better condition.

With kind regards, believe me,

Yours faithfully,

J. W. JONES.

The following is the proposed expenditure on roads, streets and trails in the various electoral districts for the fiscal year 1920-21:

District	Total
Alberni	\$46,400.00
Atlin	38,000.00
Cariboo	74,000.00
Chilliwack	30,800.00
Columbia	39,100.00
Comox	66,000.00
Cowichan	31,300.00
Cranbrook	48,200.00
Delta	23,900.00
Dewdney	54,700.00
Esquimalt	31,800.00
Fernie	40,500.00
Fort George	80,600.00
Grand Forks	24,000.00
Greenwood	26,400.00
Islands	27,000.00
Kamloops	68,300.00
Kaslo	39,100.00
Lillooet	62,150.00
Nanaimo	9,800.00
Nelson	5,000.00
Newcastle	30,000.00
New Westminster	1,800.00
North Okanagan	53,500.00
North Vancouver	23,000.00
Omineca	81,000.00
Revelstoke	38,400.00
Prince Rupert	63,450.00
Richmond	26,000.00
Rosland	9,600.00
Saanich	5,000.00
Similkameen	43,600.00
Slocan	87,200.00
SOUTH OKANAGAN	40,200.00
South Vancouver	16,900.00
Yale	49,900.00
Trail	42,500.00

REPORT THAT K.V.R. PRESIDENT RESIGNED

According to current rumors, President J. J. Warren, of the K. V. R., has resigned that position in order to give more attention to the affairs of the smelter company at Trail, of which he is president and manager. It is said that the new president will be D. C. Coleman, vice-president of the C.P.R., with head office at Winnipeg. This is in line with the policy of the parent company as adopted in respect to the E. and N. Ry. on Vancouver Island. It is presumed that this is a move toward the complete absorption of the K.V.R.

LIPSETT PROPERTY SOLD

A real estate transfer made Thursday of this week that will be of general interest is the sale of the Lipssett property to Wm. Bray, formerly of Tisdale, Sask. The sale includes the Lipssett residence, the small cottage close by and about five acres of orchard. Mr. Bray, with his wife and two sons and daughter motored in from the Coast a few days ago, bringing with them a large McLaughlin and a Ford. Mr. Bray will take over the Lipssett property in about three weeks. Since arriving here the Bray family have been guests of Mr. and Mrs. Edgar Gould.

Dr. and Mrs. Lipssett are disposing of their household furniture, and it is probable that Mrs. Lipssett will spend the summer in her native town, Gagatown, N.B. Dr. Lipssett's plans for the future are uncertain.

The sale was made by W. J. Robinson.

got from Summerland and Naramata friends, and which I sent to above Society. I shall be pleased if you will bring it in The Review, so as to let the donors know, adding my very best thanks.

Any further kind contributions will be gratefully received by

Yours very sincerely,

JULIUS W. A. BLOCK.

Naramata, April 12, 1920.

The Winding Trail

A little time ago I came across the following sentence in a story dealing with a boy's experiences: "He took in" one of those inspiring weeklies that dull people used to call "penny dreadfuls," admirable weeklies, crammed with imagination, that the boys' cheap "comics" of today have replaced. These words took me back more years than I like to reckon, to a certain day when I was going with the stream on a busy street in the heart of the city of London, absorbed in the pages of one of these same penny dreadfuls known as the "Boys of England" and suddenly feeling a hand on my shoulder, looked up into the smiling face of—a city policeman, of all persons. Whatever boyish fears I may for the moment have had, were soon dispelled by the kindly words of the man in blue, whose object was solely to give me some fatherly advice as to my choice of reading. I have many times remembered that little lecture, delivered to me in the short distance allowed by the boundary of the policeman's "beat," and the ill-concealed surprise on my adviser's face when I showed him the titles of some of the contributions in the weekly I had in my hand. Fiction there was, of course, and plenty of it, but along with that were series of articles on natural history, amateur carpentry, the romance of English history, and even a section to parents, headed: "My Boy—What Shall I Do With Him?" My friend the policeman was quite evidently taken aback by this itinerary, and may have learned a little, while teaching me, in which case benefits were mutual, as they should be. I still kept up my "Boys of England," and can safely say it never harmed me, but I broadened my field of reading also, and so justified my friend's advice.

Today it seems to me that the range of boys' weeklies is narrower than it used to be, and I also notice an extraordinary falling off in the matter of reprints of the good old standard boys' writers. One may search the shelves of almost any bookstore and find that the books of Mayne Reid, Marryatt Aimard, W. Stephens Hayward, Percy B. St. John, or even Fenimore Cooper, are practically extinct. I must admit I never could stand Cooper's Lindley Murray characters, and I don't believe there ever did exist a set of trappers and Indians who spoke such appallingly correct English as he put in their mouths, but Mayne Reid's "Rifle Rangers," "Ocean Waifs," "Scalp Hunters," and many others, were miracles of fascination to the boys of yesterday, and would be so today—if they could be found. And St. John's "Snow Ship" gave me my earliest impressions of Canada in a form which actual experience has only confirmed. As for the books of Marryatt, where could one hope to scent the sea breeze more readily than in the pages of "Peter Simple," "Midshipman Easy," and "Jacob Faithful"? No trace whatever seems to be left of Hayward, although his "Cloud King" and its predecessor, "Up in the Air and Down in the Sea," seem to have deserved a little longer life. Fortunately we can still buy the prophetic romances of Jules Verne, and I suppose Ballantyne and Henty are yet to be had—if closely sought after, but on the whole the boy of today does not seem to be nearly as well provided for as was his grandfather. His chief literary diet appears to be a choice between sensational and entirely preposterous "detective" (!) stories, and the highly intellectual and inspiring doings of the "Blutzenheimer Kids." Truly a wholesome bill of fare!

The question as to the why and wherefore of this dearth of good reading for boys is an interesting one. Is the correct answer a claim that boys accept what they find to their hands, or is it that they really prefer poor stuff? Or is an alternative to be found in the supposition that the Canadian boy of the present day does not read very much at all, and consequently skims only the froth off the watery stuff provided? To put the query in concrete form—does the average modern boy find it too exhausting to read "Ivanhoe," but is able to skim the pages of a "Nick Carter" effusion? Or is it that for any one copy of "Ivanhoe" to be found on sale, there are twenty "Nick Carters" staring him in the face?

While on this topic I would like to refer to one publication which has happily been spread far and wide in this country during the past few years. I mean "The Book of Knowledge," a series of volumes containing all that its title implies, presented in a way which is far more attractive than might be deduced from that title. This collection is a mine of interest to readers of all ages, and not the least of its value lies in the fact that it introduces to the notice of the young reader some of those standard books which have just been referred to, and which are sadly in need of such introduction.

—AUTOLYCUS

Imperials Reach Okanagan Valley

Nearly a score of Imperial veterans, who have come to Canada to take up land under the soldier settlement scheme, have arrived in the Okanagan district, intending to train in order to qualify as fruit ranchers. Capt. L. C. Burrows, of the Soldier Settlement Board, states that more than 100 settlers have passed the selection committee in the United Kingdom and are bound for British Columbia to take up land. He adds that there are plenty of vacancies for these men in the province, and that it was possible to place 500 on farms immediately. Imperials are required to do at least one year's work with a farmer before they can qualify under the Soldier Settlement Board for their own farms.

Even a young pullet, with mighty little head and no brains, believes in advertising. Ever notice her just after she has laid an egg? What a noise she makes.

Teachers Attend Victoria Convention

Summerland was well represented at the B.C. school teachers' convention held at Victoria last week; in fact the teachers from here outnumbered those from all other points in the Valley. Those who attended from Summerland were: Principal S. A. MacDonald, of the Consolidated school; his first assistant, Mr. Davidson, and Misses Banks and Nicholson, both members of the Central school staff. The teachers went down to the capital city Tuesday and returned Sunday morning. Some splendid lectures were heard, and on the whole the teachers report having had an excellent and most profitable session.

Very Queer

Ethel: "What did father say when you told him you wanted to marry me, Edward?"

Edward: "A very queer thing, darling. He asked me if there was any insanity in my family." — Answers.

Council Holds Extra Session

At an adjourned meeting of the Municipal Council held Wednesday evening, the report of the financial committee recommending the payment of accounts totalling \$11,991.44 was adopted. The itemized list of these accounts are crowded out of this issue.

The by-law authorizing the increase in the electric light rates was finally read and approved.

The engineer reported having received written permission to extend the outlet end of the Peach Valley siphon across a lot belonging to Mrs. Fyffe.

The matter of extending the C.P.R. siding up to Shaughnessy Ave. was informally discussed, and upon the suggestion of Coun. Blair, the matter was referred to the municipal solicitor to ascertain the relation and power of the municipality in respect to a matter of this nature.

HANDSOME DONATION TO NEW HOSPITAL

(Continued from Page 1)
Ten years. Another argument advanced in support of this plan was that the hospital would be an asset to the community, and would accordingly increase the value of the land which it was proposed should be taxed for a period of years to raise the required sum.

The board did not ask the Council to pledge assistance, but wished the Council to place a by-law before the ratepayers, leaving it to them to decide whether or not the new hospital should be built and the generous donation offered by Mrs. Van Allen and the assistance promised by the government taken advantage of.

Reeve Campbell did not approve of the proposed method of raising the necessary funds, but the motion of Couns. Kirk and White that the matter be placed before the ratepayers was carried without opposition.

LAND REGISTRY ACT

(Section 24)
In the matter of an application for duplicate Certificate of Title No. 14946A, issued to William J. Garraway, covering Lot 3, Block F, Map 217, Peachland.
NOTICE is hereby given that I shall at the expiration of one month from the date of the first publication hereof issue a duplicate Certificate of Title covering the above mentioned lands in the name of William J. Garraway, unless in the meantime valid objection thereto is made to me in writing.

DATED at the Land Registry Office, Kamloops, B.C. this 7th day of April, A.D. 1920.

Passing Events: Social, Personal, &c.

Mrs. K. S. Hogg returned Monday morning from a brief visit to Vancouver.

Mr. O. E. Fisher, traffic manager of the K.V.R., is now in Mayo Bros' hospital, Rochester, Minn.

Rev. W. H. and Mrs. Bates and their daughter, Miss Muriel, plan on leaving next Wednesday for a visit to the coast.

Owing to a further increase in the price of feed, team owners are obliged to raise their price of hire.

BIG one-day Auction Sale, Thursday, May 6, of Dr. and Mrs. Lipsett's household effects, farm machinery, wagons, harnesses, garden tools, etc.

Mr. T. W. Reed went down to Vancouver Wednesday morning. He will return tomorrow morning and will conduct the service in St. Andrew's Church on Sunday.

Rev. J. J. Baker, who has a farm in Meadow Valley, returned Wednesday evening from Toronto, where he and Mrs. Baker and the latter's sister, Mrs. York, have spent the winter.

S. Bardsley, one of our newer citizens, has bought block 7, west of the Zimmerman property and opposite that of G. W. Johnson, and commonly known as the McClure lot.

Mr. and Mrs. L. W. Rumball returned Wednesday evening from Bowden, Alberta, where they have been during the winter.

Mr. and Mrs. L. W. Rumball returned Wednesday evening from Bowden, Alberta, where they have been during the winter.

His many Okanagan friends will be pleased to learn that E. H. Lock has been successful in the science of education examinations leading to the degree of bachelor of pedagogy in the University of Toronto.

Summerland is not generally considered within the zone where earthquakes may be expected, but the second one this spring was felt here at 11 o'clock last Friday evening.

The traffic and Credits' Association, which met at Vernon last Thursday, represented fruit and vegetable shippers who in 1919 handled in British Columbia for export and home consumption over six million dollars worth of produce.

Shipping of Fruit Discussed at Vernon

The traffic and Credits' Association, which met at Vernon last Thursday, represented fruit and vegetable shippers who in 1919 handled in British Columbia for export and home consumption over six million dollars worth of produce.

Mr. Stout, of the Stuart Fruit Co., attended from here.

The meeting discussed with W. B. Lanigan, freight traffic manager; Mr. Plow and Major W. M. Kirkpatrick, of the C.P.R. freight department, matters affecting shipping for the coming season.

Empress Attractions

Friday and Sat'day, Apr. 16-17 A SOCIETY EXILE

Featuring ELSIE FERGUSON This is a powerful play. Miss Ferguson plays the dual role in this stirring picture with marked success.

Mon. and Tues., April 19-20 Street Called Straight

from the famous story by Basil King. Produced by an All-Star Cast. A real pleasant, well made, human play that is well worth seeing.

COMING: LOVES BURGLAR—Wallace Reid. THE TEETH OF THE TIGER.

MUTT AND JEFF'S DREAM In Three Acts and Six Scenes

W. H. Danham is moving to his property on Paradise Flat this week.

Mrs. Kennedy, of the High School staff, returned Saturday evening from a visit to Calgary.

Watch next issue for announcement of sale of high-class household furniture.

W. Morris, auditor for the Workmen's Compensation Board, is in Summerland on one of his periodical visits.

J. L. Logie has sold to Basil Stewart the westerly lot of the two lots he has been occupying.

Mr. and Mrs. A. B. Williams returned Sunday morning from New Westminster, where they have been visiting their daughter, Mrs. E. H. Lock.

West Summerland 500 Club will hold a dance in the gymnasium April 21st, in aid of the Summerland Hospital. Good music is assured.

The treasurer of the Ladies' Hospital Auxiliary is in receipt of a cheque for six dollars contributed to the hospital during the month of March from the pupils of the Central School.

At a meeting of the police commission, held Monday evening, J. C. Arkell was appointed Municipal constable, and during the sitting of the Municipal Council on the same day he was also made sanitary inspector.

Capt. M. W. Coode, accompanied by his bride, arrived here by boat Monday evening, the fact that there was a bridal couple on board being made known by the repeated blasts of the whistle of the Sicamous.

THE ALBERTA SUFFERERS

The West Summerland Women's Institute has had a touching appeal from Alberta districts where crops have been a failure for three years.

OBITUARY.

DAVID WATSON, SR.

Word has been received here of the death of David Watson, Sr., of Pilot Mound, Man. Mr. and Mrs. Watson left here last September to visit with their daughters in Manitoba, and we learn that Mr. Watson had been bedridden for some weeks.

Three sons are well known here: David H., now of Edmonton; Courtland, living in Pentleton, and Wellington, who recently moved from here to Kolowna.

ARTHUR ROBINSON After an illness of many tedious weeks death ended, on Sunday at noon, the sufferings of Arthur Robinson, the five-year-old son of Mr. and Mrs. W. J. Robinson.

The sunlight of happiness seldom falls on a shady reputation.

Mrs. J. R. Brown returned Friday evening from a visit with relatives in Alberta.

F. A. Williams went out to Calgary on Monday to take a position in a printing office there.

Mr. and Mrs. P. G. Koop returned Monday evening from a visit to England, where they have spent the winter.

Mr. H. W. Seeley, recently of Victoria, is now in charge of the gardens and lawns at the Dominion Experimental Station here.

The Summerland Fruit Union has a power sprayer machine available for public service. If you wish spraying done, phone or write to the Union Office.

Mr. and Mrs. T. H. Riley and family are moving into their newly built house on the west side of the road to the station.

R. Walters, until recently manager of the Peachland Fruit Growers' Union, has accepted the position of foreman with the Summerland Fruit Union here.

Mrs. Jack Conway and daughter, Eileen, arrived from Vernon on the boat last night to remain with relatives for a time.

Mr. G. J. C. White went out to Vancouver Wednesday morning to be present at the ordination of Mr. Isaac Page, Thursday afternoon and evening in that city.

Following are the contributions to the Summerland Hospital for the month of March, as acknowledged by the matron, Mrs. C. Parsons:

- Mrs. Campbell, six jars fruit, pork and old linen. Mrs. Gartrall, fruit and two dozen eggs. Mrs. Armstrong, one jar fruit, one jar honey. Mrs. Sanborn, fruit. Mrs. Cluston, eggs. Corrected—Mr. Logie, use of gramophone. Mrs. Riley, eggs.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. First insertion. Each repeat one cent a word. Minimum 10 cents.

St. Andrew's Presbyterian Church morning service at 10.30. Prochor, Mr. T. W. Reed. Communion at close of morning worship.

The Onward Bible Class, of which Prof. W. T. Broad is teacher, is held in St. Andrew's Hall every Sunday at 11.45.

Rev. Isaac Page will commence his pastorate of the Baptist Church on Sunday, and will preach at 10.30 and 7.30. There will be a public reception given to Mr. and Mrs. Page on Tuesday evening, April 27, in the church.

A business meeting of the Ladies' Hospital Auxiliary will be held at the home of Mrs. A. W. Fawkes, on Tuesday, April 20, at 3 p.m.

The United Missionary meeting will be held in the Parish Hall on Wednesday night, April 21, at 8 p.m. Lantern lecture by the Rev. E. P. Laycock, of Vernon.

Reserve Friday, April 30, for St. Andrew's Ladies' Aid entertainment, College gymnasium. Particulars next week.

WHY!

Buy Footwear From Mail Order Houses?

We have not one, but many lines priced even less RIGHT NOW than you can buy the same goods for at the foremost Mail Order stores in Canada, without saying a word about the postage you will spend on the one, two or three letters, and the possible return of a pair or two before you are suited or fitted.

We are sending shoes to Naramata or to Peachland, Penticton, Kelowna and other outside points daily in competition with these mail order houses. Yet the mail order Habit is so strong that there are people in Summerland who are sending for shoes which I have in stock and am selling each day for prices which are even less than they are paying for goods of inferior quality. Here are half a dozen instances that come readily to mind:

	OUR PRICE	Price by Leading Mail Order House		OUR PRICE	Price by Leading Mail Order House
Women's Dongola Black Kid Dress Boots. High cut and Goodyear welted; latest fashion.....	\$10.75	\$11.25	Youths' Ooze Harvest Boots. Sizes 11, 12, 13. A light weight, durable summer boot. All leather, at a low price.....	\$2.30	\$2.35
Women's Mat Calfskin, Light Brown, Buff Tops. A very dressy, high-grade boot.....	\$10.90	\$12.00	Boys' Ditto, 1 to 5.....	\$2.65	\$2.65
Boys' Smoked White Elk Stitchdowns, as against a Fawn Crome Stitchdown, which is a cheaper leather.....	\$4.50	\$5.45	Men's Ditto, 6 to 10.....	\$3.15	\$3.15

These statements are open for your inspection at any time—we welcome it—and we have the largest mail order catalogue issued in Canada right here for comparison. The superiority of our goods is testified by dozens of patrons and very frequently.

Whilst in Vancouver I purchased a clear-out line of Men's Shoe Packs, extra

fine finished, light weight, elk and moose leather summer Packs at special prices to your advantage. If you are interested, don't miss these.

We have still a few Men's Genuine Slater Boots, for fine and working wear, left at prices that cannot be repeated. Also a line of Men's Leckie Genuine Hair Seal Work Boots, soft and tough—a splendid working boot.

A. J. BEER, West Summerland.

Headquarters for Boots and Shoes, Tennis and Canvas Shoes, Etc.; Tents, Trunks and Bags, Robes, Gloves, Harness, Harness Parts and General Leather Goods. Get Our Prices on Tents.

Peachland Doings.

A Weekly Chronicle Furnished By Our Local Representative.

Bert Keating paid a short visit to Penticton last mid-week, staying over the day.

After a few days visit in town with Mrs. Willis, Miss McIntosh returned to her home at Westbank on Wednesday morning of last week.

Miss Dancer, of Summerland, spent a day in town last week, a guest at the home of Mr. and Mrs. N. S. Davidson.

After a pleasant visit at Vernon for a day or two last week, Miss K. Miller and Miss L. Morrison returned home on Wednesday evening's boat. They were accompanied by Miss Bessie Seaton, who spent a few days visiting here, returning to her home in Vernon on Monday morning last.

Mr. Graham, of Okanagan Centre, is in town taking charge of the putting up of Mr. Cutbill's ready-cut house. The main house material is not on the ground yet, but is on its way from the Coast. Everything is being gotten ready for pushing the work just as soon as the material arrives. Under the supervision of D. W. Winger, the concrete basement walls are all up and ready for the bond timbers to be cemented on as soon as they arrive. Mr. Cutbill is sparing no pains or money to have everything in and about the place constructed according to modern methods. He is having a thorough and sanitary drainage system and septic tank installed. Mr. F. C. Wildy is in charge of the plumbing and brick work.

After a short visit at points up the lake, Mr. Finch returned home on Thursday evening's boat.

Mr., Mrs. and Miss McKee, of Vancouver are spending a short vacation in Peachland, guests at the home of Mr. and Mrs. J. L. Elliott.

A small audience was entertained in the Orange Hall on Thursday evening of last week, by a company of three under the direction of Miss Pearson.

The entertainment consisted chiefly of comedy and singing. The last number on the program was worthy of special mention, being a tableau, "Miss Canada." One of the young

ladies was fittingly arrayed to represent Canada, and her motionless pose gave the onlooker quite an easy imagination that they were looking on a wax figure. This was accompanied by a song sung by the male member of the group, entitled, "The Boys of Flanders Thank You." In announcing this song he stated that it was being published and would soon be on the market, being composed by himself and a pal from overseas. It was rather good.

Nine of our checker players went down to Summerland on Thursday evening to play against an even number of Summerland players. The party consisted of six senior players and three juniors. The total score was 10-12 in favor of Summerland. This score was considered very credible, however, in view of the fact that some of our junior players were put up against some pretty heavy men in the checker world. The seniors held the score down to ten each, as follows, the first named in each case being the Summerland player: Snider 2 and H. Miller 2; out of four games; Beatty 0 and Buchanan 2, 2 draws; Aitkens 2, Dryden 1, 1 draw; McMillan 1, Brinson 3; Harding 3; McDougald 1; Beer 2; Moore 1, 1 draw. The juniors as follows: Young 3, Ross 0, 1 draw; McCutcheon 3; Henderson 1; Ritchie 3, Williams 1. The games were played in the home of Mr. Wm. Ritchie, where our boys report they were right royally entertained. The only thing to dampen the ardor of the evening was that which came down from overhead. It rained much of the evening, but Mr. Moore had a canopy over the truck for the occasion.

The primary room in the central was not opened after Easter, owing to the illness of the teacher, Miss L. Morrison. We are glad to report that she is improving.

The drinking fountain which the Women's Institute has furnished for the benefit of the town, has recently been installed, and is now in working order at the corner of First Street and Beach Avenue. It is a neat and substantial fountain, and is set on a good block of concrete with a finished surface, making it a very pleasant place to get a refreshing drink. The installation was supervised by Mr. Thos. McLaughlin.

After spending a few days visiting in Peachland, a guest at the home of Mr. and Mrs. J. Winger, Mrs. Smith,

of Westbank, returned to her home Friday morning.

Mr. and Mrs. Ort had the pleasure of a short visit from a friend in the person of Mrs. Howlett, of Vancouver, who stopped in here on her way to Manitoba. She resumed her journey on Monday morning last.

The directors of the P.F.G.U. have hired a manager to fill the vacancy left by the resignation of Mr. R. Walters. Further particulars will probably be given in a later issue.

Mrs. Jas. Darke, of Summerland, spent Saturday last visiting in Peachland, a guest of the McCall family. Mr. and Mrs. Darke are old Peachland residents.

Mr. Geo. McClure, from across the lake, came over by row boat early Saturday morning to catch the boat here. He spent the day in Kelowna, returning at night. He reports Mrs. McClure not in very good health.

Mr. Manning had the misfortune to have an axle break on his car between here and Westbank on Saturday evening. They had to have it towed in here. Mr. Manning went up the lake by boat on Monday morning and got another axle for the car and has it going again.

Mr. H. H. Thompson has charge of a shipment of fruit tree stock which came in Saturday night from Sardis, B.C. This shipment was to fill orders previously canvassed for by the nursery representative and represented the sum of \$1180.40 in the one shipment. This goes to show that the growers here have confidence in the fruit business.

Master Frank Graham, of Okanagan Centre, was a passenger coming in on Saturday night last to visit over the week-end with his father. He returned home again on Tuesday morning.

Mr. and Mrs. P. N. Dorland and son, Hugh, returned from Midway to take up operations on their fruit lot again for the summer. Mr. Dorland expects to have about three weeks' holiday, in which time he will get most of the heavy work done about the place and have things in shape for Mrs. Dorland to manage while he goes back to his post as mail clerk on the K.V.R. They were brought up from Penticton on Sunday by Mr. R. J. McDougall. Mr. McDougall brought little Miss Mildred and Royal up with him, and while here

they visited the Baptist Sunday school, where they had been faithful attendants last summer.

Mr. F. C. Wildy has left his ranch across at Squally Point in charge of his wife for a short time and is stopping on this side while he is engaged on the plumbing and brick work on Mr. Cutbill's new home.

After a pleasant Easter holiday spent at home, Miss Morley returned to take up her duties here again on Monday morning last.

Mr. Burket Robinson was a passenger north on Monday morning's boat.

Mr. F. Young's sister-in-law, with her sister and daughter, have come in this week and are taking up residence for a time on the Young lot.

Mr. W. B. Sanderson has recently purchased the Seaton lot and has commenced work on it.

Passengers to Kelowna on Tuesday last were Mr. J. Hyde and Mr. Iverson, both returning on the afternoon boat.

Mr. N. S. Davidson was a passenger north, on Tuesday last, for Vernon, where he expected to remain on business for a few days.

Mr. Bickford, the process man for the cannery here, spent a day in town this week, looking over the plant to find out the requirements for putting it into shape.

After several days spent at the lower end of the lake looking over various properties with a view to locating a home, Mr. Murray McBoan returned to Peachland on Tuesday morning last, not having fully decided on anything. He reports having seen a number of very good purchases.

Mr. Bert Dennis returned on Tuesday morning from a short business trip down the lake.

The Peachland Lumber and Manufacturing Co. have the material on hand for the construction and installation of a telephone system from their mill in Trepannier Creek to town.

Mr. R. J. McDougall, of Penticton, motored up and brought some fellow Masons with him to attend a Masonic meeting held in Peachland on Tuesday evening.

Fashionable charity always has a card attached to it.

Musical Talks.

Written by Prof. C. C. Laughler, Mus. Bac., Bowmanville.

No. V—MUSICAL SCALES

From a musical magazine I read from the "Music Questions Answered" the following:—Question: "Why do people make such a fuss over scales? They make me quite tired, for there are none in any of the pieces I have ever played?" Answer: "Any more than there are examples of the alphabet in any books you have read. The scale is the foundation of music, and it is because you don't know your scales that you are such a wretchedly bad reader of music."

That is pretty straight, and we do not need to wonder how it was known that the questioner was a wretchedly bad reader of music. This reminds me of the proverb: "The less one knows, the more he shows off." Also the other similar to it: "You know much when you know how little you know."

We know that many think and some pupils say, "What's the good of all these finger exercises and scales?" It is natural for them to think it, because it is a little tiresome at first and needs concentration of mind. I must answer, that to play scales and finger work, is a good essential habit and absolutely necessary to one's future musical success. It is tiresome at first, but when mastered, what wonderful results! A child first attempting to walk—is it not tiresome at first? It needs practice to acquire the art, but oh the wonderful result when mastered!

Let it be known that scales are great time savers, the modes avoid difficulties, provide ease and a natural passing and the fingers do not get mixed. Enough has been said to show that concentration means success, system brings results, and slow practice means fast progress.

I will endeavor to interest you in the scale, how it came about, and of different nations' method, etc. First, what is a scale? The word scale is taken from the Latin word "scala," meaning a "ladder." It refers to a series of tones taken in direct succession through the interval of an octave. You are, of course, acquainted with the diatonic scale—a succession of notes which occur in the key indicated by the signature; and the chromatic scale—made up entirely of semitones.

Pentatonic Scale

The pentatonic scale is made up of a five-toned scale, same as our major scale omitting the 4th and 7th note, or you may understand it better by taking only the black notes (sharps) of the piano, beginning on C sharp to the next C sharp, that forms the pentatonic scale. This scale is used by the Chinese, and it is also called the Scotch scale.

You may think that music was made from the scales, but that is not so, for music was in existence long before any scale, yet the ART of music was not until a scale was formed.

The First Scale

The first scale which history gives to us is of Greek origin and simply a group of three notes, the interval of a fourth below a given note, and a note above that fourth. Turn to the keyboard and strike C, then A flat (below) then G (a note lower), keep playing these in any order, one after

the other, and when you are through, make G the final note, and A flat second last, and thus you have the total number of notes used, and a sense of the tune as it must have sounded.

We get the intervals from the scale, but the Chinese Octave is out of tune to our ear; so is the Siamese fifth. You are familiar with the major third and also minor third, yet some have a third that is between the two. The Oriental System think of scales and intervals as tending downward. We recognize them as ascending, particularly the leading note which is next to the Tonic (most important) note, and which leads up to it which forms a cadence. Think of the natural cadence of man's voice. It tends downward, for when a man raises his voice at the end of a sentence he is either asking a question or expressing astonishment. Thus it does not form a final cadence.

The lesser important notes of the scale we think of them being brought about by the wavering of the voice of the important note; a tremolo, or up and down method of singing forming an indefinite developed ornamental note to the essential note.

The Pentatonic (5 note) scale used by China, Japan, Java and the Pacific Islands, have some of the other notes, but only as ornamental, but the Pentatonic, or 5 notes within the octave is the unmistakable, original system.

There was a time when the Greeks' musical system was the most important, and different modes were invented of the scale as the following will

VERNON GRANITE AND MARBLE COMPANY

show, but you must think only of the white keys of the piano: Doric arranged the scale beginning on the note E to the Octave E. The next was the Phrygian mode commencing on D. The Lydian mode was an arrangement from the note C; Aeolic beginning on A; the Hypolydeon beginning on F and so on.

Play these scales over and you will soon realize that the Lydian is what we use as our standard scale, and that the Aeolic is the relative minor, that is, after we have raised the seventh note to make it a leading note.

Chromatic Scale

The chromatic scale as we understand it is made up of 12 semitones, from C to C (octave). You may be surprised when you learn that a famous lute player in Greece formed the octave into 17 equal divisions, and also that the Indian scale at one time had 2 equal divisions, and the Persians had a remarkable system of 24 equal parts.

The last stage of refinement in the development of our scale system was assimilation of the keys to one another of the tuning of the 12 semitones so that the same mode may be started from any note as the tonic.

Until the 16th century musicians did not use more accidentals than B flat and E flat, F sharp, C sharp and G sharp. J. S. Bach gave expression to his faith in his well-known works,

"Preludes and Fugues," in all keys, calling it the well-tempered Clavier. We are thankful that the beautiful music that we hear every day from the piano, talking machine, pipe organ, bands and orchestra just makes one feel like this little poem:

DID YOU EVER STOP TO THINK?

Did you ever stop to think
How dreadful it would be,
If all the music in the world
Were thrown into the sea?

The world would be a horrid place
If such a thing were true.
I would not want to live at all
If that were so; would you?

But that must never come to pass,
And you must help along,
And do your bit by practicing
Your instruments and song.

What kind of music can you make?
You sing, or play violin?
You should do something musical;
If not, you must begin.

And practice carefully each day,
On scales and studies many,
And when you're asked to play a piece
Don't say, "I don't know any."

Just play or sing as best you can,
Sing loud, each girl and boy;
Sing while you work—sing while
you play—
"Twill fill the world with joy.

Income Tax Return on or before the 30th of April, 1920.

Dominion of Canada

Department of Finance

ALL persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:—

1. Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more.
2. All other individuals who during the calendar year 1919 received or earned \$2,000 or more.
3. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919.

Forms to be used in filing returns on or before the 30th of April, 1920.

ALL INDIVIDUALS other than farmers and ranchers must use Form T 1.

FARMERS AND RANCHERS must use Form T 1A.

CORPORATIONS and joint stock companies must use Form T 2.

Penalty

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of Twenty-five per centum of the amount of the tax payable.

Any person, whether taxable, or otherwise, who fails to make a return or provide information duly required according to the provision of the Act, shall be liable on summary conviction to a penalty of \$100 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months' imprisonment or to both fine and imprisonment.

General Instructions.

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters.

Read carefully all instructions on Form before filling it in.

Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly and avoid penalties.

Commissioner of Taxation.

MUCH BUSINESS BEFORE COUNCIL ON MONDAY

(Continued from Page 1)

tion to the flume on the east side of Garnett Valley, and that he be given water at an early date, as he was setting out about 20,000 heads of cabbage on his lower lot. This and some repairs to the flume on the west side were promised.

Representing the water users' community of Trout Creek Point, and stating that he presumed the Council was expecting to hear further from that organization, G. Thornber said that there seemed but little probability of getting money for the Trout Creek system from the municipality except by by-law. At a recent meeting the community had thought it best that the matter of municipal assistance for improvements be left in abeyance for a time, but that the Council should feel that they would want the money, which they claimed was morally due them, at some time. The people of that neighborhood pay toward the municipal debentures and receive no benefit from the utilities, and feel that these should be made self supporting so that they would not in any way be a charge on the land. He reported that the meeting had been very appreciative of the attention given their request and for the information furnished by Mr. Nixon. The figures, though unquestioned, had been disappointing, as they had thought there was more money coming to them from the municipality.

Stating that the irrigation system owed much to the domestic water system, Jas. Ritchie urged that some money now intended to be expended on the irrigation system be used to extend the domestic pipe line to the bench west of A. H. Steven's home. For years the domestic water system had been used for irrigation purposes, and thousands of dollars was due the pipe system. To do as he proposed would only be paying a preferred claim, and only a few hundred dollars would be required. He had some 4-inch pipe which he would sell the municipality at a low price if used to make this extension. Mr. Ritchie was informed that there was no money available at this time for domestic water extensions, but the matter is receiving the attention of the Council.

Engineer Fawkes presented a progress report covering the several sections of the irrigation system. Because of the shortage of lumber, the reeve reported that he had requested the engineer to modify the construction of that part of the flume on Prairie Creek main extending around the north side of Giant's Head by putting in a 3-foot floor instead of a 4-foot floor. The engineer informed the Council that the dimensions of this flume, as given in the plans, were based on the requirements of the Council for a flume to take care of 600 acres, and the 4-foot flume is mathematically correct. Under ordinary circumstances it would be more economical to put in a four-plank bottom and a one-plank side than three-plank bottom with two-plank side, but as there was but a slim chance of getting lumber for three weeks, and it now seems probable that the whole 600 acres will not be served this season, he agreed to the change with the idea that an additional plank would be put on the side at a later date, the three-plank bottom and one-plank side being large enough for the coming season. The Council passed a resolution proposed by Chairman Kirk, of the water committee, authorizing this modification as a temporary measure, the motion stating further that it is not intended to change the design of the flume at this place, as shown on the engineer's plans and cross section.

The engineer presented a report on Prairie Creek through the meadows where the water level has been causing inconvenience and alleged losses to owners of adjacent land. Mr. Fawkes stated that when the irrigation system is finished there will be less water in the creek. He reported further that the creek should be cleaned out and the sides trimmed, either by the owners or in co-operation with the municipality. This report was laid on the table.

A. Rutherford, who has bought from the Development Co. lots 1, 2 and 8 in D.L. 2801, lying on both sides of the railway in Prairie Valley, asked for and was granted water connection to serve the lower half of block 2.

There was some discussion of a proposal to change the location of the head gates on the Gray and Thompson ditches, and to straighten the course of the creek down to the gates by opening a trench along the south edge of the Harrison lot and in the same direction between other lots. The scheme was approved by resolution and left in the hands of the reeve and engineer.

Municipal Collector and Account-

SUGGEST TAX ON TREES AS PART OF LAND

(Continued from Page 1)

Health get into communication with the boards of the prairie provinces with the object of effecting some understanding on this subject. This was not considered satisfactory, and it was pointed out by Dr. Andrew that T.B. cases come to B.C. from the Maritime Provinces and from other points in Eastern Canada.

This is a subject in which Dr. Andrew has taken an active interest. He had succeeded in having the matter brought before the provincial government, but it had been put off on the plea that Ottawa was to effect an enactment governing the question involved. Dr. Andrew pointed out that under the B.N.A. Act, the provinces in the Dominion had to deal with health matters as with education, etc. Many of our T.B. cases come from the coast. Under the present law a person is considered a citizen of a community after being resident for thirty days. Should an indigent case be sent from here to a hospital, the municipality would be responsible for his maintenance. Dr. Andrew stated further that Colorado had been demanding a bond of \$1000 from T.B. sufferers entering that state. The influx of these people had resulted in heavy charges on some of the south-western states, notably California. Unfortunately T.B. cases in this province were not being registered. He thought the province should do more to accommodate T.B. sufferers.

That the provincial Board of Health insist on full registration of T.B. cases, so that a complete record of indigent cases from other provinces might be had was a motion proposed by the secretary. That the term during which the sick would be considered visitors rather than citizens should be extended to six months was included with this upon the suggestion of R. E. White, and the council of the Board of Trade instructed by motion to forward a resolution to the Associated Boards along these lines.

A very interesting discussion followed a letter from E. R. Simpson, respecting municipal taxation. Mr. Simpson said much public attention was given to the way in which public monies are expended, but not enough to the method of raising this money. Our taxes and rates are becoming higher, but none too much money is realized for municipal requirements. More revenue is necessary. The assessment is nearly fixed, so increased revenue must be had from increased mill rates. Mr. Simpson claimed that improvements must be taxed, or, as in England, the trees must be taxed with the land. If this latter method were adopted the mill rate would be cut in half, the man on the average orchard would pay the same money as now, the better orchard would pay more and the poorer less. He suggested thorough investigation of the subject of municipal taxation.

Muir-Stewart suggested increased

ant Pollock tendered his resignation, to take effect May 15th. Mr. Pollock explained that his own business affairs would require more of his attention, and he felt that he could not do justice to the municipal work. His resignation was regretfully accepted. The municipal auditors will be asked to recommend a man for the position. The Public Utilities Commission forwarded an order approving the change in the electric light rates as applied for.

A request from W. P. Secrest for repairs to flume along the K.V.R., was referred to the foreman for attention. This work had been approved last year.

Several other requests for minor repairs were brought to the attention of the Council. Coun. White complained that those matters should not take up the time of the Council, but should be attended to by paid officials. Discussion which followed ended in a motion proposed by Coun. Kirk that all complaints and requests providing expenditure covering same does not exceed \$50, be dealt with by the superintendent.

Several applications for additional irrigation connections were referred to the court of revision of irrigation rates.

S. B. Snider asked for assurance that he would have a greater supply of water this year than last, as he wished to grow vegetables. The clerk was instructed to reply that the flume leading in his direction is being enlarged.

Domestic water connection was granted Geo. Craig for his Prairie Valley lot, and an application from him for a second irrigation connection was laid over for further information.

A by-law to inaugurate the new electric light rates was given its first reading.

taxation on undeveloped land to force it under production. Reeve Campbell favored single tax, but thought the limit had been reached in taxing raw land. Higher taxes would force it into the hands of the municipality. More money was needed, and the source of revenue must be broadened in some way. A greatly increased mill rate would discourage new settlers.

W. Ritchie was not in favor of taxing improvements, and Secretary Wright believed that more assistance should come from the province, which was collecting most of the revenue. It had been stated that 40 per cent. of the people of the province escaped taxation. The province should get after these.

It was finally decided to lay the letter on the table and to have the subject further discussed at the next meeting.

Some interesting information respecting ferries forwarded by J. W. Jones, M.L.A., was read. Much of this has already appeared in these columns. It was admitted by the government that the Kelowna-Westbank ferry is the fourth largest ferry in the province in respect to traffic. This was considered a strong argument in support of the demand that this ferry be put on the same basis as ferries throughout the province which are free to the public. J. Tait stated that the above ferry now made four regular trips per day instead of two.

Suggestions from W. M. Wright for advertising matter to be used on business stationery of local concerns, and that some action be taken to reduce the difference of 12 1/2 cents in the price of gasoline here and in

FOR SALE BY TENDER

Tenders are invited for the purchase of the following materials, separately or collectively, from the hospital building:

Heating Pipes—About 150 feet, 3/4 inch; about 75 feet, 1 inch; about 250 feet, 1 1/2 inch; about 200 feet, 2 inch.

Elbows, reducers and other connections.

One Hot Water Boiler.

Twenty-one Hot Water Radiators, various sizes.

Two Enamel Bath Tubs.

A quantity of Soil Pipe.

Address tenders to Summerland Hospital Society. R. C. Lipsitt will furnish further information desired.

Vancouver were left over for another meeting.

With much regret the president presented the resignation of F. A. C. Wright as secretary of the board, and after hearing the explanation of Mr. Wright to the effect that hospital and school matters take all his spare time, his resignation was accepted. Mr. S. A. MacDonald, principal of the Consolidated school, was appointed to the position. The chairman remarked that he hoped the new secretary will get after the business men of the community to have more of them attend the meetings of the board.

Three new members were received, namely: J. S. Ritchie, H. Lambie and Geo. Doherty.

Speaking in favor of the proposition, M. Stuart asked for an expression of the feeling of the meeting respecting the running of a railway spur from the C.P.R. to vacant lots immediately north of the Empire Hall block, stating that it was proposed to erect a cannery there. After some discussion it was agreed to ask the municipal council to grant such a request when it should be made.

Pastor of Local Church Ordained

Ceremony at Vancouver Attended by Representatives of Summerland Baptists

Rev. Isaac Page, the new pastor of the Summerland Baptist Church, arrived here last Friday from Vancouver with Mrs. Page, and began his pastorate by taking charge of the morning and evening services on Sunday.

Rev. Mr. Page has been a missionary in China for the past fifteen years, but had to return to this country because of climatic conditions. His work in China was carried on under the China Inland Mission, an interdenominational organization and Mr. Page had not been ordained into the ministry of any denomination.

The custom in the Baptist Church is for the ordination to take place in the church to which the candidate has been called, but owing to the difficulty of securing a representative council, the local church waived its right to have the ordination take place here, Mount Pleasant Baptist Church, Vancouver, being selected, where the service was held on Thursday evening of last week.

A pastor and two laymen were appointed to represent the Baptist churches of the Okanagan and Lower Mainland. These formed the council, which met Thursday at 2.30 p.m. to hear from Mr. Page the story of his conversion and examined him in relation to his doctrinal views. Mr. Page made a very favorable impression upon the members of the council, and was recommended for ordination.

The service took place the same evening. Rev. J. Willard Litch, the chairman of the council, presided, with Rev. Reid McCullough acting as clerk. Rev. Andrew Grieve, of Penticton, and Rev. W. Daniel, of Grandview, led the devotional exercises. The ordination sermon was preached by Rev. F. W. Auvaiche, of Sapperton, and the ordination prayer was offered by Rev. E. G. MacDonald, of Ladner. Rev. S. Sheldon gave the charge to the candidate, and the senior ministers present took part in the ordination ceremony.

Rev. Mr. Page is a man of force and character, and the members of the Baptist denomination are looking forward to his work with them.

The local church was represented at the ordination of its pastor by Mr. G. J. C. White.

Sugar More Plentiful But Price is Higher

Coast reports would indicate that the long sugar shortage is over for this time. Here is one such item:

"Sugar is rapidly becoming more plentiful. Many carloads of the eastern refined product are en route here, while the South American plantation refined stock which arrived via the S.S. Northland is moving out to the retail trade today. There are at present no indications of price changes.

In confirmation of reports in the Coast papers of a further advance in the price of sugar, our local stores have this week been notified by wholesalers of an increase of two dollars per hundred pounds in the price of the sweetener since the New Year, making a total increase in that period of seven cents per pound, which was practically the full cost of the article a few years ago.

C.P.R. MAY RAISE ITS FREIGHT RATES

W. B. Lanigan, western freight traffic manager of the C.P.R., says that the railways in the United States have 17,000 more Canadian cars than the Canadian railways have of American cars. The difficulty in getting these cars returned frequently causes a shortage of cars on this side of the line. Mr. Lanigan predicts an increase in freight rates to cover increased operating costs on all Canadian railroads, and that application will be made to the Board of Railway Commissioners probably about July on behalf of all the roads.

The criminal and civil assize court will be held at Vernon on May 25th.

Eastern Apples No Longer Compete

"As far as Western Canada is concerned the day of the Ontario apple in competition with the product of British Columbia is just about finished," is the statement made by Mr. Dudley Dingle, head of one of the largest wholesale fruit and candy firms in Western Canada. "There was a time, years ago, when the packing and grading of apples and other fruit products from the Coast province were distinctly inferior to the methods of the eastern growers. That day has passed, and the eastern grower finds it difficult now to sell his product west of the Great Lakes."

The firm of Dingle & Stewart, of which Mr. Dingle is the head, buys fruit products in this province every year to the extent of some \$200,000, so that he is in a position to know whereof he speaks. In addition to these heavy purchases, his firm expends annually some \$500,000 in buying California fruits, such as oranges and grape fruit, while a certain amount is also imported from Japan.

Badly Injured in Motor Accident

Struck When About to Board Auto, Two Women Are Now in Hospital

The victims of a most unusual accident, Mrs. Hargreaves and her niece, Mrs. Charity, the latter a recent arrival from England, are both in the hospital since Sunday evening.

Mrs. Hargreaves and her daughter, Miss Lucy, and Mrs. Charity were on their way to church Sunday evening when the accident occurred. Walking north along the Giant's Head road near Mr. A. Davidson's home, the three were overtaken by Gordon Robertson with his car, who turned off to the left side of the road to take the ladies the rest of the way. Following along behind Mr. Robertson was R. Pollock with his car, and it was just as the three ladies came around from in front of the Robertson car to board it that Mr. Pollock turned to the right to pass Mr. Robertson and came upon the ladies before he was aware of their presence or could stop or divert his car. Mrs. Hargreaves and Mrs. Charity were struck by the approaching car before it was brought to a stop, although from what has been gathered, it would appear that the Pollock car had been moving at a very moderate speed when it turned to pass the Robertson car.

After being knocked down, the two ladies were run over, both being scratched about the face. With the assistance of a party in a third automobile which came on the scene just after the accident, Mrs. Hargreaves and her niece were hurried to the hospital, one in the Pollock car and the other in Robertson's, the owner of the third, a Penticton car, having hurried on ahead to summon a doctor. Naturally, Mr. Pollock was much upset by the accident, and at his request a second doctor was called from Penticton.

Examination revealed the fact that Mrs. Charity had a broken bone in her foot and Mrs. Hargreaves a fractured rib. Both were badly shaken up and unharmed. Enquiry at the hospital this morning brought the information that both the unfortunate ladies were improving.

Will Mean Second Telegraph Office Here

Summerland and other Okanagan points served by the Government Telegraph Service are soon to have direct telegraph connection with the East and the Coast. This is to be effected by linking up the government Valley system with the G.N.W. telegraph system at Kamloops. This latter system is now the property of the Dominion government, having been taken over with the C.N.R. This linking up with a transcontinental system will give such places as Summerland, already on the C.P.R., a second outlet.

A further probable improvement in the government service will be in a closer connection to the south with American telegraph lines.

ANNUAL HEARING OF APPEALS ON MUNICIPAL IRRIGATION CHARGES

Court of Revision on Water Rates Hears Numerous Appeals—Some Rebates Granted and Reductions in Area—Adjourns for a Week

The Municipal Council of the Corporation of the District of Summerland, met as a court of revision on the 1920 irrigation and general water rate roll, on Monday, April 19, at 10 o'clock a.m., in the Municipal Office, West Summerland. Those present being: Reeve J. R. Campbell, Councilors J. A. Kirk, I. Blair, R. Johnston, Reeve Campbell in the chair.

The following persons appeared before the Court of Revision in support of their appeals—

H. Dunham, block 2, D. lot 1073, blks. 22, 23, D. lot 3194. Rebate of general water rate owing to lots 22 and 23 being too high to be served with domestic water, and also asking for acreage to be combined for rating purposes. Moved by Coun. Blair, seconded by Coun. Kirk, that the general water rate on 22 and 23; D. lot 3194 be rebated. Carried.

John Dale, blks. 12 and 22, district lot 475. Rebate of irrigation and general water rates owing to seepage from south main and pipe line. Moved by Coun. Blair and seconded by Coun. Johnston, that the irrigation rate for 1920 be reduced from 10 acres to 6 acres, and the irrigation rates for blk. 12, D. lot 474 and blk. 54, D. lot 475 be sustained. Carried.

Moved by Coun. Johnston and seconded by Coun. Blair, that the general water rates be rebated on blocks 12 and 22, district lot 274, and block 54, district lot 475. Carried.

Rev. O. Mann, blk. 6A, D. lot 473, asking for connection to serve north-west portion of above lot. As a connection at the point asked for is necessary to serve the highest part of the lot, instructions were given that it be put in according to Foreman Tomlin's report.

G. S. Drewett, lot 6, blk. A, D. lot 974, requesting reduction of irrigable acreage from 10 to 7 acres owing to seepage. Moved by Coun. Blair, seconded by Coun. Kirk, that the irrigable acreage be reduced to 7 acres. Carried.

A. Hargreaves, block 42, district lot 675, requesting that no irrigation rate be charged this year, as there was no service and he did not require the water. Moved by Coun. Kirk, seconded by Coun. Blair, that no irrigation rate be charged for 1920.

T. J. Garnett, block 7, district lot 508. Reduction of irrigable acreage. Moved by Coun. Kirk, seconded by Coun. Johnston, that a rebate on one acreage above irrigation be granted, and that the remainder of the appeal be investigated. Carried.

J. Gordon Robertson, blocks 13 and 14, district lot 3397, requesting combined acreage for rating purposes. On consideration of the above and similar requests, it was moved by Coun. Blair and seconded by Coun. Kirk, that where separate irrigation connections are required on adjoining lots owned by the same person, separate rates be charged, but where one connection is required for adjoining lots owned by the same person, the rate be charged on the combined acreage. Carried.

With regard to the general water rates in relation to the preceding resolution, it was moved by Coun. Kirk, seconded by Coun. Blair, that the general water rates on adjoining lots owned by the same person and held as one parcel be charged on a combined acreage rate. Carried.

J. A. Kirk, block 30, district lot 474, requesting for rebate of irrigation and general water rates owing to his being unable to make use of the lot on account of seepage from irrigation ditch. Moved by Coun. Johnston, seconded by Coun. Blair, that the irrigation and general water rate for 1920 be rebated. Carried.

The following written appeals were then considered— Mrs. E. M. Drake, block 5, district lot 472. Reduction of charge to 8 acres, and complaint as to flumes requiring repair. Irrigation rate sustained, but instructions were given that the matter of repairs to flume be brought to the attention of the council for action.

Mrs. S. H. Adams, blocks 3 and 4, district lot 470. Reduction of irrigable acreage and combining acreage for rating purposes. Moved by Coun. Blair, seconded by Coun. Kirk, that the rate be sustained. Carried.

K. McKenzie, blocks 6, 7 and 8, district lot 480. Reduction of irrigable acreage. After a report from the reeve on these lots, and in view of the contemplated improvement in the flume serving the eastern portion of the lots, the rate was sustained.

V. J. Bernard, block 5, district lot 439. Reduction of irrigable acreage owing to 3 acres being useless for cultivation. Moved by Coun. Blair and seconded by Coun. Kirk, that the acreage be reduced to 7 acres. Carried.

H. Sutherland, part block 2, district lot 455. Requesting rebate of irrigation rate as there is no service and none required. Rebated for 1920.

L. R. Williams, lot 6, block 5, D. lot 455, requesting rebate of irrigation rate, as there is no service and none required. Rebated for 1919 and 1920.

G. R. Raincock, lots 14, 15, 16, block 4A, D. lot 455, claiming that general water rate should not be charged, as the pipe line was his private property. Decision deferred for report from Foreman Dickson.

W. C. Kelley, blocks 60 and 61, district lot 3640, against irrigation rate being charged, as there is no service. Rate rebated for 1920.

E. E. Sanborn, general water rate block 1, D. lot 472, and combining acreage blocks 2 and 3, district lot 473. Moved by Coun. Blair and seconded by Coun. Kirk, that the general water rate be sustained. Carried.

W. Ritchie, blocks 26 to 29, 33 and 34, district lot 3640. Combined acreage for rating purposes. See previous resolution governing this class of appeal.

A. J. Bear, requesting for second pipe line connection to lot 3, block 28, D. lot 473. Instructions given that present half-inch connection be enlarged to three-quarter inch.

T. Cowan, block 1, district lot 674, wrote complaining as to rate of \$10 for one acre.

Instructions were given that no irrigation rate be charged for 1920 on the following properties owing to there being no service: (Continued on Page 4)

Hospital Design Adopted by Board

Plans for the new hospital building were further considered at a meeting of the hospital board on Tuesday, when a report of the building committee was presented.

Consideration of this report resulted in forming definite ideas as to the design of the new building. According to decision of the board the wing or wings will be but one story in height. The main building will be two stories, the ground floor of which will be given over, entirely to patients. Nurses' quarters will be on the upper floor, and the kitchen, dining room, laundry, etc., will be provided for in the basement.

Mr. H. C. Moller was delegated to interview the architect at Vernon, and to arrange with him to have plans and specifications prepared on the above lines, and to have these ready to be put in the hands of the contractor immediately the necessary building funds are available.

The directors at this meeting passed a resolution of condolence to one of the board, Mr. W. J. Robinson, and his wife, in the recent loss of their young son.

Carpentering work in connection with the 'Southern Okanagan reclamation project was held up for a short time recently on account of a strike. The carpenters wanted 75 cents an hour for both rough and skilled men. The present pay is 65 cents. The contractors sent to Vancouver for a new force.

Peachland Cannery to Start in June

Plans are already completed for the opening of the Peachland cannery early in June, according to Mr. S. M. Carter, president of Carter's Okanagan Canning Co., Ltd., now interested in the Peachland cannery. At a meeting of the directors of the company, held in Vancouver on the 20th instant, it was decided to carry on the business as originally planned, which was to establish at Peachland. The company obtained an option on the plant there, owned by Peachland citizens, and will not be put to any great expense to put it in shape for operation.

PENTICTON BOND OPTION

A thirty-day option has been taken by Wood-Gundy & Co. on a block of \$75,000 of electric light debentures of Penticton. The bonds are 20-year 6 per cent, and it is understood that the municipality is receiving about 85 for the block, at which price the cost to the municipality is slightly over 7 per cent.

Production Must Be Increased

Advancing of Wages Does Not Solve the Question of High Cost of Living

That the continued advancing of wages does not aid in solving the perplexing question of enhanced cost of living, so long as production falls short of the demand, is the argument of the following interesting and simple statement on present day economics as taken from an English magazine:

We do not touch upon politics or social questions, as such, in these columns but the following comments may not be out of place. The necessity of the hour, as far as temporal matters are concerned, was never stated with more pith and point than in a recent utterance by a leading public man. He said, "they (the workers) do not need an increase of wages, but an increase of the things that wages can buy." Until this is understood no advantage can come to any worker, however largely wages may be increased, for the simple reason that demand and supply govern everything, and increase of wages without increase of production merely increases the competition for the possession of the various necessities of life, and it is this competition which is continually sending up prices. A simple illustration may help us to understand how this is.

Take for example, an auction sale (and the whole commercial world is really like one huge auction). If there are only three articles of a certain kind to be sold and thirty people want those three articles, and are determined to possess them, if possible, it is manifest that the price (Continued on Page 4)

Must Eliminate a Garden Pest

R. C. Trohorne, Dominion entomologist, and W. T. Hunter, newly appointed district horticulturist, were visitors to Summerland last Friday. While here they made arrangements for carrying on experimental work in cover cropping and spraying.

Mr. Trohorne informed The Review that immediate action must be taken to destroy the pea-weevil, which pest has become established in the gardens here.

Asked for some information for our readers on this subject, Mr. Trohorne submitted the following: In order to eliminate further trouble with the pea weevil, growers of peas are requested not to allow field or garden peas to mature. This means that no peas should be grown for seed in the Summerland district, and none should be kept for home planting next year.

All peas grown this year should be cooked in the green state—if grown at all. Legislation is not advisable for this measure. Co-operation and regard for the future of your district is the basis for this plea. All those growing peas this year ought to notify the District Field Inspector.

Hydro-Electric Plans Postponed

Government Will Not Now Undertake Development of Proposed Power Scheme

That there is no prospect of the development of the proposed hydro-electric scheme for serving the Northern Okanagan is apparent in a letter to the Kamloops Chamber of Commerce in which the Minister of Lands is quoted as follows:

"When the delegation waited upon the government, I informed the delegation that we had not had time to thoroughly consider the report of Mr. Porter. In a measure, we are still in the same position. From such examination as has been made, however, I may say, for the information of the City Council of Kamloops and others who are keenly interested, that there seems to be no prospect whatever of undertaking the development at this time.

"It seems to me to be a pity that people should, upon insufficient information and without proper investigation, work themselves up into a state of mind that a given project must and will be carried out, because, if the project is not carried out, there is sure to be misunderstanding and disappointment.

"The number of spheres of activity calling for money at this time is simply appalling. It is absolutely impossible for the government to undertake any measures other than those of a moderate character and which will show a reasonable prospect of carrying themselves."

Mr. Anderson also quotes some passages from the report of Mr. Porter, the engineer employed by the government to make an economic survey of the power requirements of the district from Kamloops to Kelowna. Mr. Porter bases his estimate on a 10,000 h.p. development, placing the cost of the power house and all equipment, including the dam, at \$1,000,000, with \$710,000 more for high tension transmission lines, transformer stations, etc., a total of \$1,710,000. He estimates the cost of operation, interest and depreciation at a total of \$262,960 per annum, and says:

"The total capacity in k.w. installed, not including auxiliary plants, at Kamloops, Salmon Arm, Armstrong, Enderby, Vernon, and Kelowna, is 2,830.

"The total k.w.h. sold in 1918 at the same places was 4,191,284.

"The total population of these towns is 15,000.

"The estimated total available revenue of the towns is \$161,344.

"The total revenue earned by these towns at their high rates per k.w.h. is far below the estimated operating charges, as above set forth, and it is obvious that a very much larger market would have to exist to merit this development, and it is the opinion of the writer that at the present time such a market does not exist. The recommendation is made that the proposed hydro-electric development to serve the area from Kamloops to Kelowna be not undertaken at the present time.

"All the towns referred to, with the exception of Enderby, now own and operate an electric supply system. It is practically certain that they would all take, if offered, a supply in bulk from the suggested hydro-electric development and continue their methods of distributing under the existing distribution system. This would naturally necessitate the hydro-electric selling at bulk rates, which, at existing market conditions, could not give sufficient returns to cover operating expenses."

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

Date, 1920	Max.	Min.	Rain	In.	Sun- shine
April 14	55	34	—	—	7.0
April 15	47	32	.20	—	4.1
April 16	48	35	.30	—	0.3
April 17	55	38	—	—	3.2
April 18	54	36	—	—	0.0
April 19	40	35	.05	—	0.0
April 20	40	30	—	—	0.0

Ambition is all right if a man has energy to back it up.

Soiling Crops in B.C. Under Irrigation

Written by R. H. Helmer, Superintendent, Summerland Experimental Station

With our long growing season and shortage of pasture during the summer, we feel sure that soiling crops would be very much more profitable than trying to maintain pastures under irrigation. The cost is certainly greater, but the waste in pasture is enough to offset this, and during hot weather and fly time cattle are more contented in the barns or in the yard near home, and if we find that we have a surplus of soiling crop, we can cut it for hay or put it in the silo. The manure can be used most economically in this way and put where it will be the most profitable.

Some of the crops that give excellent returns are winter vetch and rye, spring vetch and oats or peas, barley, rape, sorghum, millets and some of the coarser annual grasses, such as Soudan grass. A very good series is: Sow winter vetch and rye in the fall and cut green in April, followed by barley and spring vetch and oats and peas and sorghum for fall feeding. Millet cut green makes a succulent feed, and Soudan grass, if cut young and well irrigated, will make a second cutting. As the crop is used up, manure the ground and seed again.

The following is an outline on two acres of soiling crop capable of taking care of from six to ten cows from the end of April to the end of October:—In the fall plant half an acre to rye and fall vetch, one bushel each, and as soon as possible in the spring, say April 1st, plant half an acre to barley and spring vetch, one bushel each. Two weeks later plant half an acre to oats and peas or vetch one bushel each, and two weeks after this plant half an acre to millet and peas or vetch (millet, 40 lbs., peas or vetch, 1 bus.) By this time part of the rye and vetch will have gone. Irrigate this land, manure, plough, disc and harrow, and plant 1/4 acre to sorghum and 1/4 acre to oats and peas or vetch; do the same on the next plot, and put in millet or Soudan grass and carry on till fall. This makes a splendid preparation for roots or corn, and can be followed by grain for grain, or hay if so required.

On a small scale, cutting by scythe is the handiest, but when feeding six to ten cows a mower kept on the soiling patch makes the work both cheaper and easier.

Oats and peas or vetch make a welcome addition for farm horses during the hot weather if fed gradually from dry hay. Hogs do well on it, and it is the cheapest method of bringing hogs through the summer if the alfalfa pasture fails. Ewes and lambs also do very well on it. We brought 19 ewes and 17 lambs through the summer on an acre of soiling crops with only a small grain ration. Rape grows very late and can be pastured off with hogs or sheep, but care must be taken with sheep as they bloat on it. Rape is also good for flushing the breeding ewes. Add a rather larger grain ration a short time before breeding.

In orchard practice, excellent results can be obtained, a good supply of cheap fodder for cows and hogs, to say nothing of bringing the land into splendid condition to take up moisture and hold it, and the legumes give us nitrogen which is so essential to good growth and crops.

Some people worry because they are unable to find out things that would worry them still more.

It is doubtful if we will have daylight saving in B.C. this summer. The government is not disposed to act, and unless some member introduces a private bill into the House and gains support, the clocks will not be advanced the hour for the summer season.

LAND REGISTRY ACT. (Section 24)

In the matter of an application for duplicate Certificate of Title No. 14046A, issued to William J. Garraway, covering Lot 3, Block F, Map 217, Peachland.

NOTICE is hereby given that I shall at the expiration of one month from the date of the first publication hereof issue a duplicate Certificate of Title covering the above mentioned lands in the name of William J. Garraway, unless in the meantime valid objection thereto is made to me in writing.

DATED at the Land Registry Office, Kamloops, B.C., this 7th day of April, A.D. 1920.
H. V. CRAIG,
District Registrar.

Use of Apples as Fillers in Orchards

Written by R. H. Helmer, Superintendent, Summerland Experimental Station

Many trees have been tried as fillers in orchards in British Columbia under irrigation, but none has proved so satisfactory as apples in apple orchards. Even the apple has in many cases not proved satisfactory, and a few words on the method of handling apple fillers may save disappointment and loss to growers who are starting orchards.

The filler's place in the orchard is to give an income in as short a time after planting as possible, whilst our standard or permanent trees are being built up into strong, vigorous trees that will carry heavy crops for a great number of years. To accomplish this the permanent tree must have the advantage of space to permit the best of cultivation and attention. In many cases the filler has taken advantage of this and outstripped the permanent tree, and at 8 or 9 years it became a problem which tree to leave. In many cases the filler was the better tree and had not borne as much fruit as the permanent tree. To avoid this, choose such trees as Jonathan, Wagner, Duchess or Cox's Orange. These trees can give good crops only if handled right.

The first year's pruning is the same as with the permanent trees, to encourage strong growth the second year. Summer thin to maintain well lighted and ventilated trees, which tend to develop large, plump buds on the new wood, and in the winter prune the trees to where the large buds stop at the end of the new growth and the smaller immature buds start. These large buds have a tendency to make fruit spurs. In the Jonathan and Wagner fruit spurs may sometimes be formed well up on the growth. Leaving so much wood has a tendency to check growth and the energy of the tree is devoted to the development of fruit spurs. A few apples may be borne in this way the second season. The third pruning should be very light, keeping the tree well open for bud development. If in this year the tree insists on making growth and not fruiting, only thin out superfluous growth and allow the main branches to go unpruned. Such fillers as Duchess and Cox's Orange do well under this system. Next year it may be advisable to tip back the main shoots a little.

This system brings our trees into early bearing and by proper thinning the tree may bear good crops and yet not be able to compete in size with the permanent tree. By this method we have taken as much as one and a half boxes of Jonathan and Wagner apples per tree after the third season's growth, and the trees show an abundant supply of fruit spurs for

the coming season, the fillers being distinctly outgrown by the permanent trees.

THE PEACH WORM

Growers of peach, plum, prune and apricot in interior districts are recommended to apply lime sulphur spray, 1-9, as close as possible but previous to the blossoming period of the above fruits. Arsenate of lead at the rate of 2 pounds to 40 gallons of water (or of L.S. 1-30) applied just after blossoming is recommended as an alternative spray if growers find it inconvenient to apply the early lime sulphur. Both applications are suggested if the infestation of "worms" the previous year has been severe.
R. C. TREHERNE.

OUR BACK-YARD HEN

The common back-yard hen is the world's most efficient servant. She eats the scraps that fall from the rich man's table, and in return rises with the sun to lay an egg for his breakfast. Her product needs not to be taken from her, as in the case of the cow, but is a voluntary contribution—a bit of workmanship without flaw or blemish, delivered in a sanitary package.

During the day the hen gathers raw material for the construction of another egg, and uses the surplus to pad her person against the day when she shall be called upon to simmer in the pot.

Like most servants, the hen learns slowly, if at all, and has an inherent mania for travelling in the opposite direction from that which one is try-

ing to drive her. Doubtless this trait was developed by her association with mortals.

A young hen is called a pullet. An ancient hen, decapitated and hanging in a meat market dressed and without her telltale spurs, is called a "frying chicken."

Hens' eggs are more popular than ducks' eggs, because a hen cackles to advertise her product. She advertises only the fresh ones. To press the sale of an egg that had been here for some time would hurt her reputation.—Robt. Quillan, in Saturday Evening Post.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

The Women's Institute held their regular monthly meeting on April 9. The attendance was fairly good and those who did come out were well repaid, as Mr. Chidley gave a demonstration in paper flower work which was both interesting and instructive. Amongst the correspondence read was an urgent appeal for help from the Federated Women's Institutes, for families in parts of Southern Alberta where there have been no crops since 1916. Clothing was received, and afternoon tea served at the home of Mrs. Dryden on Saturday, when a collection was taken. The result was most gratifying, as the Institute has been able to send \$24 in cash and three boxes of clothing to the relief depot in Calgary. The directors tender thanks to all who helped them in their efforts.

On Wednesday of last week, Mr. B. M. Whyte paid O.K. Centre a visit, taking with him a shipment of settlers' effects. He returned home on Monday last.

Mr. Bert Robinson returned home on Wednesday of last week, after a few days' visit up the lake.

Mr. N. S. Davidson was called to Vernon on the 13th inst. to attend county court, a case in which he was plaintiff against the Trepanier Water Users Community. The plaintiff sued the community for a balance owing him, namely \$477.22. Mr. Davidson was successful in getting a judgment for the full amount with costs and interest added. Major R. H. Tupper, of the firm of Tupper & Bull, of Vancouver, appeared for the plaintiff. Mr. Davidson returned Wednesday evening.

Mr. Taylor, of Vernon district, who had been engaged by the directors of the Peachland Fruit Growers' Union, as manager for their feed store and packing house here for the season, arrived on Wednesday of last week. He has been much put about since coming to get a place of residence. For the present, however, he has had a tent home erected a short distance south of the Bump. Mrs. Taylor and the children have since arrived, and they are moving into their new home this week.

Mr. Montgomery was an out-of-town visitor last week, leaving on Wednesday and returning on Thursday evening.

The regular meeting of the W.C. T.U. was held at the home of Mrs. Hogg on Wednesday of last week, but owing to the fact that some of the members had not heard of the meeting, there was a very small attendance. The executive hope for a more live attendance for the next meeting.

Mr. Chas. Drake received the sad news by wire last week of the sudden death of a brother. It came as more of a shock from the fact that he had not heard of his illness.

Mr. Thos. Powell spent a couple of days in Vernon last week, returning home Friday evening.

Mr. G. McBean was a passenger south on Thursday evening's boat of last week, returning on Friday.

Mr. and Mrs. Walters left on Thursday of last week for Summerland, where they expect to make their home for the season. Mr. Walters has accepted the position of foreman with the Summerland Fruit Union. Many of their friends won during their sojourn among us were down at the wharf to bid them farewell. Mrs. Walters had been among us but a short time since coming here as a bride, but in even the short time had won many friends who were loath to see her go so soon.

On Thursday afternoon, of last week, a goodly number of the ladies of the town met at the home of Mrs. R. J. Hogg to shower the bride-to-be.

Miss K. Miller. The numerous gifts were both pretty and useful. As of course was intended, it was quite a surprise to Miss Miller, but in spite of the excitement caused by such a surprise, she showered one played her part well. Dainty refreshments were served, the afternoon being enjoyed by all.

After a few weeks spent in Manitoba, where she had gone to render assistance to relatives who had been struck pretty hard with the flu, Mrs. Jas. Michael returned on Friday night. She brought with her a little nephew, who will remain with her for a few months. Mrs. Mills, who went down with Mrs. Michael, is remaining on the prairie for a little while. We are glad to report that Mr. Henry, who has been quite ill for some time, is improved in health and is gradually gaining.

Mr. and Mrs. Baldock, of Penticton, were overnight visitors in town on Friday while they were touring through by automobile. They resumed their journey southward on Saturday morning.

Quite a crowd of young people went up to Westbank on Friday night to attend the dance there. It has sometimes happened that when a crowd went out to spend the night that they were hardly recognizable when they returned, but not so with this crowd. Some of them were not very recognizable when they left town to go. It was a masquerade dance, we are told. Those who went said they had "a bear of a time."

Mr. Farrel Whyte came in Saturday morning from Vancouver, where he has been working for some months in the hardware business. He has given that line up for the time and is going to try his hand at fruit growing. He is taking over the old home place for the season.

Mr. John Brinson and his father were passengers south on Saturday evening's boat, spending over Sunday in Penticton.

Mr. W. J. Moore was a passenger north on Saturday morning last for

Okanagan Centre, looking for a horse to match one he has, since he had the misfortune to lose one of his black mares. He came back with a promising-looking beast.

Mr. Metcalf is enjoying a visit from his sister, who came in on Saturday night, and expects to remain for a couple of months.

Owing to poor health, Mr. G. Keyes, put up his place for rent recently, and has succeeded in getting tenants, Mr. and Mrs. McGregor, who wish to spend a season here as prospective settlers. Mr. and Mrs. Keyes will leave shortly for Calgary, where their daughter and son-in-law, Mr. and Mrs. Geo. Phillips, have their home.

Mr. and Mrs. John McDougald drove in from the ranch and spent Sunday with the folks here.

The congregation in the Baptist Church were tendered an additional treat on Sunday afternoon, when they listened to a sermon by the Rev. J. Willard Litch, pastor of Ruth Morton Memorial Church, Vancouver. He is assisting Pastor Grieve with evangelistic meetings in his church in Penticton for two weeks, and Mr. Grieve brought him up to speak in his stead here on this occasion.

Mr. Cutbill's ready-cut house arrived by car on Monday last. The lumber came through in good shape and the quality appears to be very satisfactory indeed. They hope to get all the help possible and rush the building of the house.

Herb Keating left on Saturday morning last to take a position in the Royal Bank in Kelowna, which line he hopes to follow up. His many friends here wish him success.

THE LATEST NEWS ON THE SUGAR QUESTION

is contained in the following, taken from a letter just received from a wholesale house. Read it!

Vancouver, April 17, 1920

As to supplies, it looks to the writer as if the sugar situation will soon be relieved. As you are possibly aware, there have been a number of carloads of Eastern and also quantities of South American sugar sold and delivered on this market, the greater part of which was sold to different logging and mining camps throughout the country. The quality of this sugar was such that some of the wholesalers did not think it would be suitable for the retail trade. However, the fact that these different establishments mentioned above have enough sugar, is relieving the situation to a great extent, they are now demanding supplies from the wholesaler. The wholesalers' allotment for this month is exceedingly good, and advices from the Sugar Refinery lead us to believe that they will be able to give us a fair allotment of sugar for some time to come. The consuming public are buying as large quantities as they possibly can, and they are buying enough sugar to last them for months ahead; the result, we think, will be that in less than a month's time your demand for sugar will be relieved to a great extent. Also, with the high price the public have to pay for sugar, the average householder cannot afford to stock very many sacks. The writer has heard several reports that certain retailers now have a very plentiful supply of sugar, and are offering same in quantities to the trade. Also, you know that once the public realize that there is no shortage of sugar, they will discontinue buying. You will gather from the above that we think the B.C. Sugar Refinery will have enough sugar to give the consuming public of B.C. all the sugar they want for the balance of the year; that is, unless something unforeseen happens regarding deliveries.

APRIL 23, 1920

WILL BE OF NO HELP TO US

General disappointment will be felt by all the municipalities of the province in the fact that the government has not effected some measure of relief from local taxes.

Probably the government, seemingly sympathetic and willing to consider representations, finds that provincial affairs did not permit of doing more than to open channels for further local taxation. But these are of little value and are not likely to be generally adopted. They are taxation of amusements and a poll tax. The former provides that the present amusement tax, which is a flat rate of 10 per cent., may be increased through by-laws passed by municipalities to 20 per cent., and in the case of such a step being taken by the municipalities or any municipality, the government will undertake to collect the increased tax for the municipality, and would pay it over for school and hospital purposes only.

Imposition of amusement taxes here would often work a hardship, and would not result in any considerable relief.

The poll tax provides that municipalities may pass by-laws calling for the payment of a poll tax, or service tax of \$5, but in cases where the person assessed pays taxes of another nature to the amount of \$5 the poll tax is eliminated. Municipalities must provide for the collection of poll taxes themselves.

Here, again, no assistance will be found. True there are quite a number among us who escape taxation, but after all expenses in connection with collecting such a tax were met there would be but little left for municipal purposes. Had the tax been placed, say at ten dollars, it would have been worth while.

The Dominion government will be asked by the House at Victoria to take every possible precaution to secure to the people a sufficient supply of sugar. This an outcome of the recent sugar investigation made by the provincial house. Fruit growers will wish that the provincial government had put itself in a position to guarantee all buyers of B.C. fruit an ample supply of sugar.

Any municipality in British Columbia now has the right to accept advance installments of taxes and to pay up to six per cent. per annum interest thereon. An amendment made last Saturday to the Municipal Act permits this.

This may be quite an advantage to municipalities such as ours in which taxes are levied annually and late in the year. If payment of interest on taxes, or installments thereon, should induce payments, it would make it the easier for such municipalities to carry on until taxes are due.

Daylight saving will not be put into effect this season by the government of British Columbia, and it is said that it is not within the power of municipalities to order the change. The same object could be attained by the general adoption of the practice by opening for business or starting the factory an hour earlier. The city of Trail, apparently considering it has the authority, is inaugurating daylight saving, following a move by the big smelting concern in that city in like direction.

As a solution to the school congestion problem in the city of Vancouver, it has been proposed that churches be used for school purposes. And why not? This proposal might bear a suggestion of value to many other communities. The church buildings stand practically idle all week. Why should they not be used in the manner suggested?

A generation ago many a community assembled in its school house on Sunday for worship. Might we not now reverse the plan and use the church building for school purposes? This plan at least will offer some relief until permanent school buildings are erected. With the rapidly growing population here and in many other places it will be difficult to provide school accommodation quickly enough in any other way.

A recommendation respecting banking presented in its report by the House Committee on Agriculture at Victoria maintains that in the interests of both agricultural and industrial production, it is desirable that the government seriously consider the possibility of handling the savings of the people of the province, with a view to putting the same in circulation, in a manner conducive to greater production.

ANNUAL HEARING OF APPEALS

(Continued from Page 1)

T. H. Riley, block 2, D. lot 439. Walters Ltd., blocks 10, 50 to 58, D. lot 675.

L. Botturzi, blocks 28 and 20, D. lot 675.

Mrs. E. Fyffe, part block 18, district lot 439.

It was decided to inspect part 18, D. lot 439, W. J. McLain, before deciding whether service should be given and a rate charged.

Instructions were given that an irrigation rate be charged for 1920 on the following lots when service is provided:

Part 1, district lot 2502, J. J. Blewett.

Part 2, district lot 2502, J. M. McDougald.

Instructions were given to combine the acreages on blocks 3 and 4, district lot 3040, J. R. Campbell, and charge one rate, the property to be

served by one irrigation connection.

The clerk reported on the inequality existing in the irrigation rate charged on lots in Hillpark Estate compared to those in force at Victoria Gardens, when it was moved by Coun. Johnston, seconded by Coun. Blair that the irrigation rates on separate lots on Hillpark Estate be reduced to \$7 each lot.

It was moved by Coun. Kirk and seconded by Coun. Blair that, in considering applications for reduction in irrigation rates and general water rates, the council recognizes that the charge for irrigation service is a charge based upon the cost of construction of suitable flumes and ditches and delivering water therefrom, and not upon the quantity required by the user thereof. Applications based upon the quantity of water required cannot therefore be entertained.

The court then adjourned until Monday, 26th inst., at 10 a.m.

.. The Winding Trail ..

THE EVOLUTION OF THE OVERALL

The latest phase of protest against high prices is seen in the new movement in certain American cities, wherein leading citizens have donned the blue denim hitherto confined to those engaged in physical labor, and sometimes called "the horny-handed sons of toil." We learn that one Representative Upshaw, of Georgia, recently appeared on the floor of the House at Washington clad in a suit of blue overalls, and was greeted with applause, while the mayor of Seattle has issued a "pronouncement" to the effect that he will wear overalls "if everyone else did." The revolt against alleged sartorial high charges is also said to be spreading among the professional classes in other cities, and dressing in denim bids fair to become quite fashionable. Whether a garment which has always been intended for a protective covering for ordinary clothing will prove to be enough protection against the vagaries of this backward season remains to be proved. I fear there will be an epidemic of severe colds amongst these passive resisters, and the cost of doctoring may equal the saving in tailors' bills. Another result will be a rise in the price of the goods so suddenly put in the forefront of fashion, and the denim suit may soon become costly enough to chill the ardour of its new friends. It is said that some heavy secret buying has been going on by those who planned the revolt, but that cannot long delay the inevitable advance, which has in fact already begun. However, if there is at the same time a perceptible easing off in prices of normal wearing apparel, the denim devotees may claim some sort of victory. The curious thing is that while members of the Senate and mayors of important cities are thus economizing in dress, we are told that the men to whom the overall is an article of daily wear are buying silk shirts at \$12 each and hose to match! The evolution seems to be working in a circle, and we may expect the two ends to meet presently.

The question of real public interest in the matter is as to the probable effect of this and kindred movements on the general standard of prices, which, by the way, are still on the up grade. It is to be doubted whether they will be much more effectual than Mrs. Partington's attempts to push back the Atlantic Ocean with a broom. We have already seen the failure of more than one such revolt—temporary boycotts of eggs and butter have been instituted here and there, but any decrease in the prices of those necessary commodities is not at present visible to the naked eye. We have willingly or unwillingly been economizing on sugar for many moons past, but the latest market report on that sweetener of life tells us of a \$2 advance on a price which is already about twice as high as it was twelve months ago. (Incidentally we are told that the raw sugar market is now in the hands of speculators, which does not augur well for future quotations.) Many of us now use the lowly potato as a luxury instead of a staple dish, yet the price sails merrily upward all the time. The truth is that the advance in prices is far too widespread to be handled by any local or sporadic treatment. It is moreover very largely psychological, and we are ourselves responsible for it. Money is more plentiful and we are spending it more freely. The fact that much of this money is paper currency and may not always have the necessary gold foundation does not worry us. We complain of high prices, but in actual practice the complaint is becoming chiefly a matter of habit, since we cannot truthfully

PRODUCTION MUST BE INCREASED

(Continued from Page 1)

of these three articles will rise. Each one of those thirty individuals will be bidding higher and higher up to the point beyond which he cannot go. But now reverse the situation. Suppose there are thirty articles of a certain kind, and there are only three people in the crowd each desiring to purchase one. The tendency then would be for the price to fall. If the article must be sold, it is obvious that this will be brought about, not by raising the price, but by lowering it. By way of further illustrating the point, we will suppose that, with regard to the thirty bidders for the three articles, twenty of them have less money to spare than the rest, and at a certain point they cease bidding. But just as the hammer is about to fall, some benevolent person present hands a sovereign to each, so that the bidding may continue. Is it not as clear as daylight that this act, while apparently making the recipients better off, would only further raise the price of the article competed for? And the only person who would really benefit would be the owner of the property. It is true each bidder had been enriched in one way, but by the very necessity of the case, he is conceivably not better off, but actually worse off, if we are justified in supposing in the end he obtains the article not at an advance of part of the twenty shillings, or even the whole of it, but of something in addition.

In the world at large things are not so obvious as in the supposed auction mart, but they are in principle precisely the same, and roughly speaking, owing to the war, the world is in the position, not of three people bidding for thirty articles, but of thirty people bidding for three. What is the remedy? Is it not clear that increased production is the one and only way of putting the matter right? Increased wages, if there be no additional production, must be followed by increased prices.

claim that we are denying ourselves in any respect. No one is simple enough to imagine that the mayor of an important city is really obliged to buy a suit of overalls because he cannot afford his tailor's charges, and much the same sort of fallacy underlies the general protest. We are on the crest of a wave of prosperity and moving accordingly. Whether the wave will break suddenly, or will subside in such leisurely fashion that we may get into our old stroke without disaster, is something we don't know. It is, however, well worth noting that those canny weather prophets who control our banking system are already in process of making all snug aloft by beginning to tighten up credits.

TENDERS FOR COAL

SEALED TENDERS addressed to the undersigned and endorsed "Quotation for Coal, Dominion Buildings, British Columbia," will be received until 12 o'clock noon, Monday, May 17, 1920, for the supply of coal for the public buildings throughout the province of British Columbia.

Combined specification and form of tender can be obtained from the Purchasing Agent, Department of Public Works, Ottawa, and from the caretakers of the different Dominion Buildings.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein. Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

By order, R. C. DESROCHERS, Secretary, Department of Public Works, Ottawa, Ont., April 12, 1920. 30-40

Mr. E. Hutchinson has accepted the position of organist and choir leader of St. Andrews Church.

Mr. D. Woodlan, of Kelowna, came in Wednesday night. He is here in connection with some work on the new buildings at the Experimental Farm.

Kelowna Record: A large extension is now under process of erection for the Dominion Cannery, Limited, which will greatly increase the capacity of the cannery buildings.

Messrs. P. H. Ritchie, W. Moulds and C. Crawley, all returned soldiers from Ottawa, have been in Summerland for the past week looking over the district with a view to locating here.

It will be a surprise to many of our readers to learn that the shipments from the Greta Ranch totalled 22,000 packages of fruit last season. This is equal to thirty carloads and would return, we presume, fully \$30,000 to the owners. It is apparent that this property, situated between Summerland and Peachland, and which is now reaching a good bearing age, is among the largest shippers of the Valley.

Mr. and Mrs. Ed. Walton, of Jones Flat, went out on Tuesday morning's boat to spend the summer on their farm at Bowden, Alberta. Mr. Walton says he will probably dispose of that property in the fall, but in any case will return to Summerland before next winter.

Mr. Rutherford, K.V.R. station agent at Brookmere, has been given the more important position of station agent here. Mr. T. A. Oliver resigned his position as station agent shortly after he returned from an absence of some weeks, and Mr. Presley, who had been relieving him, was ordered back to Hope, where he had expected to be located. Mr. Oliver's resignation was occasioned by the very unsatisfactory condition of Mrs. Oliver. Mr. Rutherford will arrive here this week, when Mr. Presley will go to the Brookmere position.

British Columbia has a Chinese population of 16,250, according to a recent census report by the superintendent of Oriental work of the Methodist Church. Of this number 7,000 are in Vancouver and 4,000 in Victoria. Another 1,000 or more are living in various parts of Vancouver Island. New Westminster and the Fraser Valley have about 1,500. Kootenay and Boundary towns are said to have 1125. This would leave about 1600 scattered in the towns of the main C.P.R. line from Ashcroft to Revelstoke and in such Okanagan centres as Armstrong, Vernon, Kelowna and Penticton. Summerland has but few Chinese.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

The Young People's Society of St. Andrews Church will hold a concert in the Gym building on May 11. There will be selections by the Summerland Orchestra (comprising 12 artists); also glee by the Orpheus Choral party, flag drill by the young ladies, solos by Mr. Ben Newton and others.

Owing to unforeseen circumstances, the St. Andrew's Ladies' Aid entertainment has been postponed.

Baptist Church services Sunday morning at 10.30 and evening at 7.30. Sunday school at 11.45. Come and hear Pastor Page. On Tuesday evening, at 8.45 prompt, Rev. J. Willard Litch, of Vancouver, who is conducting special services at Penticton, will give a charge to the church from the ordaining council which recently met at Vancouver. Mr. Litch is a powerful speaker. All are invited to hear him. Following this will be a public reception to Mr. and Mrs. Page and a social hour. All welcome.

BIRTH.

TAIT—On Sunday, April 18th, to Mr. and Mrs. Magnus Tait, a daughter.

Mr. D. Leckie, of Kelowna, is a visitor to Summerland.

Mrs. Mack was the subject of a successful major operation at the Summerland hospital on Wednesday.

Editor R. E. White was in Vancouver on business this week, leaving here Monday noon and returning Thursday morning.

Allen E. Ross, of Vancouver, spent a few days in Summerland last week, leaving Monday for Kelowna, where he expects to reside.

Naramata has been added to the territory of Fruit Pests Inspector John Tait. His territory extends from Westbank to Naramata.

Mr. T. Forbes Robertson and his sister, Miss Robertson, arrived in Summerland on Saturday from Cheshire, England. They expect to remain here some time.

The provincial government is calling for tenders for the construction of thirteen miles of road east from Osoyoos up over Anarchist Mountain. This road is on a new easier grade over the hill.

W. T. Hunter, B.S.A., has been appointed to succeed Ben Hoy as district horticulturist for the Okanagan. Mr. Hunter has been with the department for several years, and was lately field inspector at Penticton.

Hon. E. D. Barrow, provincial minister of agriculture, has caused to be posted in the municipal hall at Penticton a notice to the effect that the Penticton Farmers' Institute has forfeited its corporate powers, not having held a meeting inside the space of six months.

A very impressive service was held in St. Andrews Presbyterian Church last Sunday, when thirteen new members were received into the fellowship of the church, six by certificate and seven by profession of faith. One hundred and three worshippers partook of holy communion.

Hatfield's Garage is rapidly approaching the stage where any class of automobile work can be handled. A twenty-ton gear press is already installed, and when the new lathe, the electric light plant and the tire hospital equipment arrive, all classes of machine work, battery repairs and charging and tire repair work can be handled by specialists in their own line.

THE WOMEN'S INSTITUTES.

Summerland Women's Institute held their meeting last Friday in the Oddfellows Hall with a fair attendance. Roll call was well responded to with pet luxury.

A splendid paper was read by Mrs. Butler on "Exercise in Relation to Health." She pointed out the great need of exercise and fresh air for both young and old.

Mrs. MacDonald demonstrated some profitable exercises, also gave the housewife some excellent suggestions whereby the work might be beneficial as well as pleasant.

The addresses of both ladies were greatly appreciated.

Mrs. Baker gave a reading on the life and works of Handel, the composer, which proved very interesting.

A protest was made re the proposed building of a railway track on Shaughnessy Avenue as far south as the cement block, while a motion was made that a deputation await on the council and protest against the condition of Shaughnessy Avenue.

Mrs. MacDonald very kindly rendered a solo, and a social half hour was spent over the tea cups.

Five of the leading ranches in the Wynndel section of the Kootenay district are installing the Skinner overhead system of irrigation. All told, twelve acres of strawberries will be thus irrigated this season at an estimated cost for the pipe, labor, etc., of \$800 per acre. It is expected that this system of putting the moisture on will increase the crop at least 25 per cent, and if this is accomplished, at an expected price of \$4 per crate, the system will almost pay for itself in one season.

Most people would rather be miserably rich than happily poor.

The brick yard at Kelowna, idle for some years, is soon to be in operation.

"It is one of the best local papers I have read — a newsy paper" thus writes a well known citizen when sending in his cheque to renew his subscription to The Review.

Owing to the dull market for municipal bonds, the Penticton School Board has been compelled to postpone for the time being the project to erect a brick school building.

Mrs. John Long, wife of the manager of Greta Ranch, was taken to the Summerland hospital this week, suffering with appendicitis. She is to undergo an operation today.

Rekadom Ranch, Naramata, owned by C. C. Aikens and of which Ben Hoy is manager, is to have a 40x80 ft. packing house, in which a grading machine will be installed. The building is to have a basement and will be of substantial structure.

"I congratulate you on being able to give the citizens of the lower end of the Valley such an excellent paper." These are the words of the recently appointed principal for our high school in reply to a letter with reference to his coming to Summerland.

T. B. Young returned last night from a hurried visit to his Alberta ranch. Like many others with stock in that country he has had difficulty in finding feed for them. Recently he shipped a carload of hay from Keremeos and thus saved his animals, some 60 or 70 head. There was still plenty of snow on the ground and more falling, but soft weather was expected.

To have his car slide off the side of the road and roll over with its occupants was the unpleasant experience of O. F. Zimmerman on Sunday. With two friends in the car, he was turning on a sandy piece of road at the upper end of Prairie Valley when the soft edge of the road gave way beneath the car. Though the top and windshield of the car were smashed and other minor damage done, the occupants escaped without injury.

Council Passes Monthly Accounts

At an adjourned meeting of the municipal council held last week, on Wednesday, the following accounts were examined and approved for payment:

Table listing council accounts and amounts: Summerland Supply Co., supplies \$362.00; A. B. Elliott, supplies 50.70; Summerland Mercantile Co. Ltd., supplies 5.45; J. Downton, supplies 2.50; Wm. Ritchie, lumber 28.96; H. Read, repairs 107.66; Chas. Schwass, repairs 36.05; W. P. Secrest, road work 24.00; F. Munro, hay 51.25; Summerland Fruit Union, hay 9.27; R. H. English, teaming 4.00; W. C. Kelley, legal expense 22.45; Sutcliffe & Simey, electric supplies 11.80; Ponticton Electric Co., elec. supplies 45.19; Dufosse & Whitaker, surveying 187.00; Canadian Wastingshouse Co. electric supplies 68.00; Northern Electric Co., electric supplies 9.00; Great West Electric Co., electric supplies 18.08; Office Specialty Mfg. Co., office furniture 25.00; Burroughs & Co., stationery 15.20; Union of B.C. **GENERAL NEWS
IN BRIEF**

(By C. P. R. Telegraph.)
Vancouver, B. C.—The February catch of fish in the Fraser river fisheries district is valued at \$34,638. This is almost double the catch for the same month last year.

Consul, Sask.—The Imperial Oil Company has filed an oil claim on twenty sections of land south of here along Battle Creek. Wells will be sunk in the spring.

Chicoutimi, P. Q.—Work has been commenced on the erection of the model city of Saguenay by the Price Bros. Company, which will cost about \$20,000,000. It will contain 400 houses at the outset, built of brick and will be electrically heated and lighted.

Huntingdon, B. C.—Sumas Indian Reserve, comprising 160 acres of land watered by the Little Sumas, has been purchased by the Soldier Settlement Board for soldier settlement and will be divided into four farms.

Winnipeg, Man.—A sale of farm land, amounting to a quarter of a million dollars, was effected recently to Charles Applegate of Minneapolis, representing a number of Iowa farmers. The land sold is in the Humboldt district, and the purchasers will arrive over the C.P.R. in time to get the seed in this spring.

Toronto, Ont.—Growing conditions in the province are reported on all sides as very favorable, fall wheat being in very good shape and preparations for seeding well under way. Fruit growers are optimistic over the season's prospects. Many farms are changing hands and wages of farm help has reached the record of from \$600 to 750 per year.

Vancouver, B. C.—The steel freighter, S.S. "War Charger," built by J. Coughlan and Sons, was recently sold to Greek operators for \$1,300,000.

Ottawa, Ont.—It is expected by industries interested that there will be introduced at the present session of parliament legislation permitting private firms to manufacture industrial alcohol. This is at the present a government monopoly and the production is considerably short of the supply, the paint industry among others being badly affected.

Alaska, Sask.—Gold was found in a shallow well on a farm ten miles west of here, and already twenty-five claims have been taken out in the sector. The gold was assayed at Calgary and declared to be the genuine metal. The well is located near an old creek or river bed and is said to be ideally situated for placer mining.

Yorkton, Sask.—Two local men have started a Belgian horse farm and secured their nucleus of seven animals from George Rupp of Lampman, famous all over the American continent as a breeder of high-class Belgians. They also purpose bringing stock to the province from the big farms of the United States.

Quebec, P. Q.—Five new agricultural districts have been created in the province for the advancement and further development of modern farming. These districts are supplied with agricultural experts who give advice on all branches of the pursuit and encourage up-to-date farming methods.

Fredericton, N. B.—An insistent demand has been made that a thorough investigation of the possibilities of harnessing the tides at the head of the Bay of Fundy, as a power development proposition, be made. It is believed that with the help of the railways the project could be carried out successfully, and some investigation work has been undertaken.

Fredericton, N. B.—The transfer of the crown lands held by the estate of the late Sir William Van Horne a former president of the C.P.R. to the Dalhousie Lumber Co., a subsidiary of the International Paper Co. of New York, has been accomplished. The lands consist of 122½ square miles in Northumberland County, on the Serpentine.

Calgary, Alta.—Arrangements have been made by the Belgian government for credits amounting to ten million dollars for the purchase of eastern Canadian cattle. Since the signing of the armistice, a large trade in livestock has been maintained with Belgium and France.

**ATTRACTIVE
AUCTION SALE**

High-Class Furniture, Farm Machinery, Etc.

Favored by instructions from Dr. and Mrs. Lipsett (who have sold their beautiful home), I will sell at PUBLIC AUCTION at the above home on

THURSDAY, MAY 6, 1920

the following Parlor, Dining Room, Hall and Bedroom Furniture, including:—

PARLOR FURNITURE

- 1 Solid Oak Upholstered Davenport.
- 1 Solid Oak Rocker.
- 1 Solid Oak Centre Table.
- 1 Upholstered Large Chair.
- 1 Fancy Upholstered Chair.
- 1 Wilton Rug, 9x12.
- 1 Cane Seat Rocker.
- 1 Large Arm Grass Chair.
- 1 Music Cabinet.
- 1 Pianola Player (Wheelock).

This is a High-Class Instrument and as Good as New.

BEDROOM FURNITURE

- 1 Brass Trimmed Enamel Bed and Spring.
- 3 Enamel Beds and Springs.
- 1 Solid Oak Dresser with Large Bevel Plate Mirror.
- Bedroom Chairs.
- Bedroom Tables.

Musical Talks.

Written by Prof. C. C. Laugher, Mus. Bac., Bowmanville.

No. VI—SINGING

To "sing" is to utter musical or melodious sounds. The singer uses the vocal organs or chords which are two thick, strong muscles in the larynx. Vocal execution is the practice and art of singing in one or a series of notes which should result in purity of tone and quality of the voice. All cannot produce that desired purity of tone, for some produce a tone that suggests a throaty, tonguey, palatal, or veiled tone.

Agility is acquired by practicing series of notes on vowels, passing from one note to another, changing the quality of tone. Great care must be taken in diction, choice of words, etc. You must not upon any occasion take breath between the syllables of a word, or break up the phrases. How often we hear of such a person screeching out a solo at a reception. A man who apparently has no ear for music may say to you, "Surely she's a finished musician, don't you think?" If you are candid you may reply, "I hope so, but I was afraid she was going to sing again." It is indeed hard to have to sit and listen to a would-be singer, who prides herself upon never taking a singing lesson, yet her singing may remind one of the following: "I hear you ca-a-ling me," warbled the daughter from the parlor. "Yes," sang the mother from the kitchen, "I want you to come he-e-re and help me with the di-ss-shes." Profound silence followed. The voice of girls of high school period are extremely delicate and require the utmost care and attention. Girl sopranos should be able to vocalize up to G. The voice that can vocalize well from middle C up to E—fourth space, should sing mezzo-soprano. Girls who can sing down to G, below middle C, and not above C—third space, should sing alto. The necessary qualifications that a pupil needs to make a singer are as follows: 1st, a good voice; 2nd, musical aptitude; 3rd, general intelligence; 4th, good health; 5th, character.

The instrument and the performer are combined in one person. The process of forming or training the voice includes both the development of technique and the adjustment of machinery, as it may be called. The tuning of the voice is that which includes the production, breathing ability to produce and recognize true pitch of tones, and enunciation of words, etc.

Of all subjects neglected by choir and chorus conductors, diction is an easy first. The singer may have a voice like a saw or rasp, but the well patterned words make up for much vocal deficiency. Every conductor should have as his motto, "Words, Words, Words." The girl with a new dress and proud of compliments said that on entering the church, the choir were the first to notice her new dress, for they sang out as with one voice, "Hardly-knew-you, hardly-knew-you." She was afterwards told they were really singing "Hal-lo-lu-jah, Hal-lo-lu-jah."

Here is a good motto for church choirs, taken from the Tenth Dogree of the Fourth Council of Carthage in the year 308 A.D.: "So that what thou singest with thy lips thou dost

believe in thine heart, and that what thou believest in thine heart thou dost show forth in thy works."

Just a word about politeness in singing. The French have a proverb, "Politeness is an investment that costs nothing, but pays well." In no sphere is this truer than in the relation between the artist and the audience. If he comes before them prepared to respond to their good will by an inclination of the head and a smile, he will find them more ready to listen to his song and give him full appreciation. If he takes their welcome coldly, he must not be surprised if he meets with coolness in return. Do not be afraid to show appreciation of the courtesy of your hearers. It will make the artistic task easier and more successful.

Some women have wonderful voices, thousands of women may hold their audience for hours at a time—after which they lay it in a cradle and rock it to sleep, but let me tell you of a real singer. The most famous soprano of the 19th century.

Adelina Patti

A born singer was Adelina Patti. Born in the year 1843 in Madrid, the family moved to New York when she was very young. Although Adelina had several teachers, she knew how to sing intuitively, and sang the shake perfectly when, but three years of age. One biographer says of her: Adelina Patti sang all the important roles of the great operas, that in England at the Covent Gardens, she completely conquered her audience; in Paris she sang the role of Amina and brought all Paris to her feet; the people of St. Petersburg went wild over her, and in Spain and Italy the enthusiasm was high.

Throughout the world she reigned "Queen of Singers." We will now peep behind the scenes, and see why and how this immense success. In childhood she lived carefully, kept constant watch over her voice, never forcing it, and never sang without being in perfect condition. Adelina Patti has a wonderful memory, having memorized forty different operas, and sings them in four different languages. Her method is perfect, her style elegant, her tone rich and clear and her compass unusual.

Now a few words about the greatest song writer that ever lived—

Franz Schubert. He was born in 1797 and died in 1828, thus living only 31 years. Beethoven said of him: "Truly he has a spark of the divine fire." Schubert was an Austrian, his father being a self-educated schoolmaster and his mother a cook. When Schubert was 10 years of age he composed a few little songs and instrumental pieces. Franz had a beautiful soprano voice and had great skill in reading music. For singing in the Imperial Chapel Choir he was entitled to free musical education. Schubert was continually composing and music came from his brain as fast as he could write it. Schubert's 18th year was the most prolific, for during that year he wrote no less than 195 compositions, including two symphonies and six operas. Yet his struggles were many and severe. He had always suffered privations and often cold and hunger. He often had not the money to buy even the music paper on which to write his thoughts. He was in the habit of borrowing small sums of money and leaving a manuscript as security with his creditor, and in this way many of his greatest works were undoubtedly lost. He seemed to live

for his art alone, for he spoke, thought, and lived in music. Though Schubert lived but 31 years he wrote more than eleven hundred compositions—mostly songs. His music is of the most wonderful beauty, tenderness, sweetness and purity, blended with strength, nobility and grandeur. Dvorak, the great Bohemian composer of modern times, declared that he had no hesitation in placing him next to Beethoven and far above Mendelssohn and Schumann.

IT'S A FACT.

The less a man knows the more he wants to tell it.

Cut Costs Over 50 P.C.

If in need of the following: Disc Harrow, extra heavy Democrat, two Single Rigs, one Horse Spray Cart, Gasoline Engine, 3 h.p.; Grain Grinder, Cypher's Incubator, two International Hovers. The above will give you several years of useful service. A personal inspection will repay.

LANDS FOR SALE

The Wisner Estate, originally the old Garnett Homestead, comprising 10.76 acres and 40 acres of timbered range. 10 acres well watered by 2 flumes and a ditch, also Alnus creek flowing through the bottom lands. Five acres of bearing trees and five acres under alfalfa. Good dark soil and deep subsoil. House, Stable and Garage.
Price \$8,000. Terms

The Oldham Orchard in Ernie Valley. 10 acres planted and 10 acres of timbered range. Good varieties of apples, cherries, plums and peaches. Ages up to 15 years. Small shack and stable, domestic water and R. R.
Price \$5,000. Terms

About five acres of strong soil with deep subsoil, well planted with bearing trees, sheltered position overlooking the lake between the Munn and the J. S. Campbell orchards. Small clean house and a garage. Domestic water and R. R.
Price \$1,750 cash

Well Built Cottage with four rooms and wide verandah, on one acre of land. Next Mr. George Gartrell's, on the lakeshore.
Price \$1200. Terms

Domestic Water Report Shows Much Work Yet to be Done

Explanation of Failure of Winter Pipe Line to Deliver Required Supply—Other Pressing Changes to System

Important Ruling on Irrigation Service

Water Users Who Require Extra Connections With Mains Must Pay Higher Rate—Ward System Up Again

With respect to irrigation connections to lots of ten or more acres, that only one connection be permitted to any lot subject to the following exceptions: (1) If, in the opinion of the Council, or authorized municipal officer, an efficient service cannot be maintained without additional connections, then under written instructions from the Council or said officer, such additional connections as may be considered necessary shall be installed without additional charge. (2) But if an application in writing for more than one connection is made that in the opinion of the Council or said officer is not required for providing an efficient service, then under written instructions from the Council or said officer, such connection may be installed upon payment of fifty cents per acre, in addition to the regular irrigation charge, for the area that would be benefited by the additional connection. These provisions to apply to lots where extra connections have been installed.

The above resolution was adopted by the Summerland Municipal Council on Monday. Already a number of lots have more than the regulation one connection with the distribution system, some of these being installed for the convenience of the municipality and others at the request of lot owners. It was felt that regulation provided for by the above resolution would remove any chances of seeming favoritism. In some instances owners of small adjacent lots each with their own connection are paying the higher rate on each lot as fixed

by the schedule. Such owners who would group their lots to obtain a lower rate cannot do so and retain the several connections. The holder of a larger lot, if he wishes to divide his property for irrigation purposes, will be required to pay the higher rate.

The above resolution disposed of several applications which came before the Municipal Council on Monday. P. P. Agur and Chas. Wharton were each granted domestic water connection. Hotel Summerland was granted connection for a small water motor at a charge of three dollars per month.

Engineer Pawkes presented a brief report on the progress of the work on the irrigation system, promising a full report for the next meeting.

Chairman Kirk, of the water committee, presented a comprehensive report on the domestic water system under five headings. The first dealt with the winter pipe line between the dam on Trout Creek and the reservoir. This pipe has not been delivering the anticipated volume of water and the district is in danger of suffering much inconvenience for lack of adequate water supply should a hard winter be experienced. For some years water to replenish the reservoir has been carried from the creek to reservoir through the irrigation ditch, which has to be freed of snow and ice and can be used only in mild weather. The report stated that the engineer had made a survey of the existing pipe and found more than 4,000 feet of it above the hydraulic gradient. A new pipe line is recommended.

During the irrigation season there has been a great reduction in pressure in the domestic pipe running by the high flume and the hospital, and more especially in the line running from the Anglican Church to Hespeler's and beyond. The water committee's report states that a six-inch pipe leads off in each of these directions from a Y near the power dam, and that the double service is supplied by a single line from the tank house near Dale's, part of which line is only six inches and the other part being 8-inch pipe with a capacity of 2.6 cubic feet per second, while the 6-inch section has a capacity of 1.1 cubic feet. This explains the lack of pressure in the two mains below the Y. How much 6-inch pipe must be replaced is not yet known.

The report stated further that the Paradise Flat pumping plant was inadequate, requiring too great an expenditure in wages, and suggested a larger pump and engine.

Under the fourth heading was given a long list of domestic water extensions urgently needed, while number five referred to the conditions of existing pipe lines, making special reference to decayed collars.

The report was referred back to the water committee, with the request that an estimate of costs covering each of the above items be submitted.

At the request of Coun. Blair, the clerk was instructed to prepare a by-law for the abolishment of the ward system.

Believed Fraser Route is Choice

There are no definite developments yet in the matter of the final selection of the route of the inter-provincial highway, and the commencement of construction thereon. It is pretty well understood at the capital, though, according to reports from there, that the Fraser Canyon route has been practically chosen, and that there are certain preliminaries as to right-of-way that have to be arranged with the C.P.R. and C.N.R. In this connection, it is stated that Dominion government representatives are expected out some time next month to confer with the provincial government in the matter.

The Dominion government has a two-fold interest in the question, being owners of the C.N.R. and committed to 40 per cent. expenditure on the inter-provincial highway.

Daylight Saving Starts on Monday

Business Houses Line Up For Earlier Start

Daylight saving will be adopted by the business houses of Summerland, with few exceptions. May 3rd is the date agreed upon for the inauguration of the daylight saving plan, which will continue until October 31st. Just how general daylight saving will be practiced remains to be seen. Unless railway schedules conform to this, C.P.R. and K.V.R. stations and post offices and possibly a few others will adhere to standard time. We understand the municipality will be approached with the request that municipal working hours be made to conform with daylight saving. It is not known whether the schools and churches will adhere to standard time or follow the local movement. There may also be some confusion at first respecting other public gatherings.

Among those pledged to advance their clocks one hour on May 1st are the following: A. J. Beer, Butler & Walden, Mercantile Co., H. Read, W. Ritchie, J. Rowley, J. S. Ritchie, T. H. Riley, Supply Co., C. E. McCutcheon, A. B. Elliott, G. Callaway, S. Danks, Ned Bentley, G. Noble, C. P. Nelson, Mrs. B. Finley, Theo. Hermon, Bartholomew & Atkinson, Drug Co., Hotel Summerland, T. Figgis, T. Pilkington, W. Carter, Fruit Union, Mrs. A. Milne, M. Stewart, W. W. Borton.

The Summerland Lumber Co. Ltd. will also conform to the above schedule, in both offices and mill.

The Storage Site

Ownership of the shore lots No. 8 to 10, in Block 36A, may have to be decided in court. These are the lots bought by the municipality at tax sale in 1915, and which the Fruit Union wish to buy, the municipality having quoted a low price on condition that a fruit storage building be built on them.

J. M. Robinson, the former owner, had asked that the lots be returned to him upon payment of taxes and charges to date. This the municipality cannot legally do, and Mr. Robinson has now instructed Tupper and Bull, of Vancouver, to endeavor to obtain the return of the lots by upsetting the tax sale. The council on Monday received a letter from this law firm asking for information respecting the sale.

A communication respecting the same lots was also received from the Canadian Bank of Commerce, in which it was stated that the bank held a mortgage on these lots and inquiring if they can be redeemed by payment of the claims of the municipality. The clerk's reply was that the time of redemption expired one year after the sale. A similar inquiry was made with respect to Block 28A in D.L. 455. This had been bought by the municipality at tax sale in 1915, and the time of redemption expired in 1916. The title has since passed from the municipality to the Naramata Supply Co.

In view of the action taken by Mr. Robinson, the Storage Co. has altered its plans, and is arranging to build on the lots immediately north of the disputed property.

Change in Train and Boat Schedules

Summer railway schedules on C.P.R. and K.V.R. go into effect on Sunday, May 2nd. No change is being made in the time of the departure of the boat going northward, which leaves here at 6.20 a.m. and Peachland one hour later. Under the winter schedule the boat was supposed to make Summerland at 5.30 p.m. This she may have done on one or two occasions. The new time for her arrival here is 6.15 p.m., with Peachland one hour earlier.

K.V.R. trains will be speeded up, for though the westbound train leaves here 21 minutes later, at 12.07 noon, it arrives in Vancouver at 11.15 p.m., 45 minutes earlier. The eastbound train leaves Vancouver at 7.15 p.m., 15 minutes earlier than at present, and arrives here at 7.05 every morning.

Shaughnessy Ave. Must Be Cleaned

This is Verdict of the Women's Institute

What, it will be hoped, is but the beginning of a really, whole-hearted movement to improve the appearance of our community as a whole was made on Monday when the Summerland Women's Institute obtained a promise to effect improved conditions along Shaughnessy Ave. Mrs. S. Angove, Mrs. J. Tait and Mrs. W. J. Robinson, delegated by the institute, presented to the council on Monday the following resolution:

Recommended that the council see to the proper cleaning up of our main street, and that the street be kept clean of all obstructions which now exist. That the resident property owners be asked to clean up their properties, and that absentee owners property be cleaned up at their expense. That the sidewalks be kept free from weeds and shrubbery during the growing season, and that we also further recommend that the council make provision to have trees planted on our main street.

Mrs. Angove and Mrs. Robinson spoke briefly in support of the resolution in words that could not be misunderstood. They strongly condemned the untidy condition of Shaughnessy Ave., which reflected to the discredit of the whole community.

Councillor White spoke of the neglected condition of the sidewalks and of the street. Individuals should take more pride in the appearance of their properties, and with the co-operation of the municipality this could be effected. He told of receiving complaints which should have the attention of a constable, and suggested the appointment of such an official for the lower town and vicinity.

Reeve Campbell gave the deputation a sympathetic hearing, and after further discussion it was promised that the constable should be instructed to make frequent visits to the lower town and to have the weeds kept down and sundry articles removed from the roadsides. Instructions were also issued to have the sidewalks put in good condition.

Coun. Kirk remarked that he had expected the council would be asked to co-operate in a local improvement movement for boulevarding the streets and planting trees.

Oroville Ditches Are Running Full

Oroville, Gazette, April 12.—Water was turned through the irrigation ditches Monday from the boundary line to the south end of the system. Water has been on as far as Oroville for a week or more, but the regular service was provided for by the filling of the flumes and ditches Monday. The system is much improved over the conditions of last year, as the wooden flume has been metal lined for long distances and much concrete work has been done throughout the winter. These improvements will be continued from year to year until the system is in perfect and permanent condition.

Says Water Diverted From Nicola Watershed to Okanagan

Admitted Was Diverted, But Comptroller of Water Rights Must Decide Ownership

Peachland Benefitted by Channel Made

Interesting Hearing of Application of Greta Ranch for Storage Rights on Brenda Lake

Representing the owners of the Greta Ranch, Mr. J. T. Long, the ranch manager, and Jas. Michael attended a hearing at Merritt last week in connection with an application made by the Westminster Trust Co., proprietors of the above ranch, for storage rights on Brenda Lake. The hearing proved a most interesting one, and the following report, gleaned from the Merritt Herald, will be read with interest by Okanagan fruit growers, especially those of Peachland and Summerland. The charge that water had been illegally diverted to the Peachland water system from lakes and streams which are said to belong to the watershed on the west side of the divide opens a question of vital importance, and one the decision of which will be awaited with concern. The following is an abridged report of the proceedings of the court held at Merritt:

That there is much more than appears on the surface in the simple hearing of an application for water irrigation rights, and objections to the granting of same was demonstrated dramatically, if not sensationally, in the hearing before Government Agent J. A. Murchison, in his capacity as water recorder. In the course of this inquiry the startling incidental information was elicited that, without even the forms of law, a large diversion of water had been made, as long ago as the year 1913, from what might be called the Nicola watershed to the other side of the divide, for the benefit of Peachland orchardists—a diversion which it is now apparent has been an appreciable factor in the shortage of water for irrigation purposes in the Douglas Lake area since, and particularly the last season or two.

The disclosure of this diversion grew incidentally out of the hearing of a perfectly regular and legal application for water rights, and objections thereto, which application was signed by John T. Long and J. Michael, of Peachland, acting for the Westminster Trust Co. of New Westminster, B.C., under date of Oct. 17, 1918, and asked "for a water license to take 400 acre feet of water out of Lake Brenda for storage and irrigation purposes on lots 8316 and 2537, Osoyoos Division."

Mr. Murchison, realizing the importance of the issue involved, notified all parties in any way concerned, including Indian Agent Smith, the applicants for the water rights (Messrs. Long and Michael), F. B. Ward, manager of the Douglas Lake Cattle Company, and also Clifford Varcoe, of Kamloops, district water engineer of the Kamloops district (which includes the Nicola Valley), and W. F. Groves, of Kelowna, district water engineer of the Okanagan district. All these, with M. L. Grimmett, for the Douglas Lake Cattle Co., and the Guichon interests, were present, and besides between twenty and thirty Indians from the Douglas Lake reserve.

Indian Agent Smith, the chief protestant, said that the grounds of his objection were fully and distinctly stated in his letters to the department, and, as recited at the hearing, they were to the following effect: That Brenda Lake, which the applicants proposed to dam and use as a storage reservoir, was a direct feeder of Ponasaki Lake, and that these two lakes were the sources of the Spahamin Creek, on which the Douglas Lake Indian reserve holds a record of 350 millions inches of water, on which the Indians depend to irrigate 723 acres now under cultivation and 877 acres besides that can be irrigated on the reserve, which contains altogether 4,177 acres. Any diversion of the water supply, such as was proposed, would seriously affect the interests of the Indian farmers on this reserve, especially as the water had been noticeably falling for some years, and last year had fallen almost completely for irrigation purposes, beginning in June, and Spahamin Creek practically going dry in July and August.

The evidence of the Indians was all to this effect, that the water for irrigation had failed in June last year, that later in the summer there had been water only in holes in the creek bed, sufficient only for domestic uses, and consequently they had had heavy crop losses.

In the earlier part of the inquiry, Indian Agent Smith aimed to establish through the Indian witnesses the fact of which he had only comparatively recently become cognizant, that an unlawful diversion of some 14 millions inches of water had been made by some parties, from a point on Deep Creek between Brenda Lake and Ponasaki Lake, which water had

Road Plans for Okanagan District

Survey of Proposed Route—Naramata to Kelowna

Arrangements for the surveying of a road location between Naramata and Okanagan Mission have been made by Road Engineer Gwyer, the survey to be undertaken by Dufresne & Whittaker immediately.

A contract has been let for the building of a road connecting Revelstoke and Sicamous, and work will also be done to finish the two and a half mile gap between Sicamous and Mara. When these two jobs are finished, Revelstoke and the Okanagan will have inter communication.

All but three miles has been finished on the One Mile cut-off road between Princeton and Merritt. The remaining balance is to be finished this year.

Engineer Gwyer states that it is possible the Rossland-Cascade gap in the southern road will be finished this year, but if not a considerable portion, at all events, will be built west from Rossland.

Tenders are being called for the construction of a new thirteen mile road up Anarchist Mountain from Osoyoos, in order to give a grade over the hill to the Boundary, which will be superior to the present road.

The work of taking off the rock points on the road to Peachland will be continued for the season. A good deal has already been done there.

Arrangements are being made with the Indian agent to obtain land at the head of Okanagan river, so that next year a road may be built along the line of the telephone poles to meet the Pontleiton bridge. This will mean doing away with the present lengthy bridge across the river and slough. The bridge is given one more year of life with repairs, and the department prefers to build a new cut-off road rather than keep the bridge up.

Another Bank Opens Here

Fourth Banking Office Now Doing Business

The Canadian Bank of Commerce is again doing business in Summerland. An office was opened in temporary quarters rented for a month from Scott Danks, the shop until recently occupied by Johnson's restaurant.

The Canadian Bank of Commerce maintained a branch here for several years in the premises now occupied by the Bank of Montreal Shaughnessy Ave. branch. During that time two lots on Granville Road on the corner opposite the barber shop were acquired by the Commerce but were never built upon. We are informed that work will be started at once on a temporary building on one of these lots.

The new office opened early this week with Mr. A. F. Graves, of Kelowna, in charge, and Mr. Noelard, of the Pontleiton office, as his assistant.

Collector Appointed

Following the acceptance of R. Pollock's resignation of the position of collector and accountant of the Municipality of Summerland, Clerk Nixon was instructed to take up with the auditors the matter of filling the vacancy. The council was advised on Monday that Mr. Crohan had advertised for applications and had selected three from among the applicants. Mr. Crohan was awaiting an answer to his letter before deciding on his man. It was agreed that the selection should be left entirely with Mr. Crohan. The municipal office since has received a telegram stating that a Mr. Nichol, of Vancouver, a man with municipal office experience and a former municipal clerk, was the auditor's choice. Mr. Nichol is expected to arrive here about May 10th.

A subscriber, well known in the public life of Summerland, in renewing his subscription to The Review thus speaks of the home paper: "It is always welcome—is quite the most popular paper that comes to this house. You produce a high class paper in every way." Such words of encouragement are appreciated.

Next Week's Work in the Orchard

(By R. H. Helmer)

By the end of this week all spraying should be completed, and our attention should be directed to planting mangels, carrots and all garden crops. Potatoes should be in by the end of next week. When planting potatoes in new land the tubers should be treated with formalin to prevent the introduction of scab into the soil. (A leaflet on the treatment of potatoes for scab can be obtained from the Dominion Experimental Station). Treating the seed will not keep the crop clean if the land is already infested with scab.

This is a good time to sow oats and spring vetch or oats and peas for soiling crops for the cow and horses, and thereby save the hay. This method enriches the soil and feeds the farm animals at the same time. Before seeding, run the float over the land and save yourself trouble and annoyance in the future in trying to run water up hill.

APPLE POWDERY MILDEW AND ITS CONTROL

(By H. H. Evans, District Field Inspector, Department of Agriculture.)

Apple Powdery Mildew is a fungous disease which has now obtained such a foothold in the various irrigated sections of the North American continent as to command the earnest attention of fruit growers in the study and application of control measures wherever the disease becomes established.

In some sections of the Okanagan Valley during the season of 1919 the disease was so bad as to cause severe russetting of the fruit, which resulted in commercially lowering the grade of fruit so affected. A more insidious phase of this disease than fruit russetting, is the devitalizing influence exerted on wood and bud development, attended by a cumulative loss to the orchardist impossible to estimate.

From general field observations the writer's conclusions are that hardly any variety of apple is immune from the disease, but some varieties show greater resistance than others. A few of the commercial varieties which showed greatest susceptibility in 1919 were: Jonathan, Spitzenburg, Newton, McIntosh, Cox's Orange, King, Rome Beauty and Ben Davis. Not only from the point of community benefit, but from the point of dollars and cents to the individual, are growers urged this coming season to use active control measures in combatting Powdery Mildew.

Most growers where the disease is prevalent are familiar with the silvery felt-like covering, easily found on the fruit spur leaf clusters, also on the leaves and bark of the current season's growth.

Exhaustive experiments that have been conducted in various parts of the Western States of U. S. A. by investigators attached to different Agricultural Experiment Stations, go to prove that efficient commercial control can be maintained by systematic summer spraying.

Quoting from Bulletin 712, U. S. A. Department of Agriculture on experiments conducted in the Wenatchee Valley, by D. F. Fisher, Assistant Pathologist, Fruit Disease Investigations are proved:

- 1.—That the sulphur compounds give most satisfactory control.
- 2.—That Lime Sulphur Solution has given general satisfaction.
- 3.—That except in seasons of heavy infestation mildew control can be obtained before the extreme heat of the summer.

It is a known fact that where sys-

LAND REGISTRY ACT (Section 24)

In the matter of an application for duplicate Certificate of Title No. 14046A, issued to William J. Garraway, covering Lot 3, Block F, Map 217, Peachland.

NOTICE is hereby given that I shall at the expiration of one month from the date of the first publication hereof issue a duplicate Certificate of Title covering the above mentioned lands in the name of William J. Garraway, unless in the meantime valid objection thereto is made to me in writing.

DATED at the Land Registry Office, Kamloops, B.C., this 7th day of April, A.D. 1920.

H. V. CRAIG, District Registrar.

BREAKING THE POTATO HABIT

There is an interesting suggestion in the news items from Denver which states that restaurants of that city have stopped serving potatoes, because of the vegetable's exceeding scarcity. It is entirely a logical thing to do, but may occasion a bit of surprise because it never occurs to the average person that he could get along without potatoes.

Perhaps in all our list of dietetic habits none is more firmly fixed than the potato habit. We class the potato with bread as an indispensable item of food. Yet as far as nutritive value is concerned there is no comparison. Bread is really the staff of life. Without bread we would actually suffer physical deterioration. But potatoes could be utterly abolished and not a person would be worse for it.

Potatoes are mostly made up of water. They also contain starch. The starch is all that has any noticeable food value. Any vegetable rich in starch is competent to take the place of the potato. There are many such substitutes, and they have the added virtue of containing food values that the potatoes does not—proteins, chiefly.

No one is compelled to pay the present prohibitive potato prices. Macaroni, rice, baked beans, peas, are at hand. But the potato habit is hard to break. A meal with no potatoes on the table seems incomplete and no amount of argument will overcome the sense of something missing. However, if anything in the world can break the habit it is a poor grade of potato selling at 10 cents a pound. A pound of potatoes is about one portion for one meal. Ten cents' worth of rice or beans or macaroni is a meal for a family.—Spokane Spokesman-Review.

tematic spraying is carried out for the control of Apple Scab, there Powdery Mildew is a negligible factor.

This can be substantiated by the writer's observations within the district covered by him in the Okanagan.

Control Measures

1.—Spray with Lime Sulphur Solution testing not less than 32 Beaume and diluted 1 to 40, just as the blossom clusters are nicely separated and on through the pink stage.

2.—Spray with Lime Sulphur, diluted 1 to 50, as soon as blossoms fall.

3.—Spray with Lime Sulphur 1 to 50 three weeks after Number 2.

The first and second sprays are essential; No. 3 should always be applied if the mildew is still spreading to any degree.

Use a power spray machine maintaining a pressure from 200 to 250 pounds, and a nozzle that will furnish a driving mist spray. Do not rush the spraying work; thoroughness of application is the secret of success in all spraying operations, and especially with fungous diseases, where it is essential that all surfaces of the tree's area be coated with a film of spray to act as a protective armour against the floating mildew spores.

TREATMENT OF POTATO SEED BEFORE PLANTING

Potatoes suffer from a number of diseases, some of which do not affect their edible qualities but impair their keeping, such as common scab, black scurf and silvery scurf, and there are also late blight, dry rot and black leg. Most of these diseases are found in wet climates, but over-irrigation may result in producing one or more of them, and it is important to take measures before planting which will prevent the use of infected seed.

1. Do not use seed from a field known to have been badly attacked by some disease.

2. Discard all cut, broken or bruised tubers.

3. Before cutting, soak the potatoes in either: (a) corrosive sublimate solution—2 ounces in 25 gallons of water—for four hours; or (b) formalin solution—1 pint in 30 gallons of water—for two hours. Remember that corrosive sublimate is a deadly poison, so do not allow animals to have access to the barrel or tank in which the potatoes are soaking.

4. When cutting tubers, keep a jar of formalin at hand with a spare knife in it, and when a tuber is cut which shows any discoloration, discard it, drop the knife into the jar, and use the other one for the next tuber.

Do not plant potatoes in a wet, undrained soil, for such soil furnishes conditions favorable to many diseases.

It isn't what a man is going to do that adds to his bank balance.

ONION MAGGOT CONTROL

Entomologist Makes Recommendations to Growers of Onions

The Entomological Branch of the Department of Agriculture, Vernon, B.C., has the following to recommend to growers of onions for the control of the onion maggot:

Select some cull onion and allow them to sprout between damp sacks and when the time arrives for seeding onions plant a row or part of a row of these cull onions, every one hundred feet through the plantation, here and there, setting them about three to four inches deep in soil. The object is to have an attractive leaf growth close to soil surface for the flies to deposit eggs on. Destroy these cull onions in mid-June. Thinning of onion field should not be undertaken until June 15th.

NAPPING IN THE PARLOR

Naramata News

Current Events of Town and District

Mrs. Dean Walter made a business trip to Penticton on Tuesday.

Miss Edith Seewers is spending a few weeks with her brother in Calgary.

Mr. Russell Wells and family have moved to Penticton, and Mr. J. Groves and family, of Senlac, Man., are occupying the Wells' home.

Mrs. Syd. Sharpe and Miss Sharpe, of Summerland, were the guests of Mrs. G. Wolstencroft on Saturday.

Mr. Len Smith spent the week end with Sherwood Davies in Summerland.

Mr. J. M. Robinson has returned from a business trip to the coast, and was accompanied by Mrs. W. L. Robinson, of Toronto, who is on her way home after spending the winter in California.

Mrs. E. P. Roe has returned from a two weeks' visit with her sister, Mrs. McDougall, in Peachland.

Mr. Henry Rushberry, of Vancouver, is here for the summer, and is stopping at the home of Mr. J. Noyes.

Mr. Frank Roe, of Montreal, is here visiting his mother and sisters for a few days on his way home after a trip to the coast cities.

Messrs. Tom Ritchie, Cecil Moules and Clarence Crawley, of Ottawa, are occupying the Squire Hill cottage for the summer, and at present are working on the flume.

Mr. Russell Odell, of Ottawa, is a guest at the home of Mrs. M. B. Smith, and is investigating the drying and crystallizing of fruits with the idea of forming a company to enter that industry on a large scale.

Mr. John Firstbrook and Mrs. and Mrs. Harold Firstbrook, of Toronto, are the guests of Mr. and Mrs. J. M. Robinson.

Capt. Wilson, of Toronto, paid Naramata a brief visit on Monday. He is looking for land suitable for sheep raising and looked over the Matt Wilson ranch at Paradise.

Mr. Gordon Hayman and Mr. Victor Watson were Sunday guests at the home of Mrs. E. Wells.

The annual election of officers of the Unity Club was held on Friday afternoon, and the following were elected: President, Mrs. J. M. Robinson; vice-president, Mrs. Hans Salt; secretary, Mrs. F. C. Manchester; treasurer, Mrs. George Cook; executive board, Mrs. W. Mitchell, Mrs. F. Simpson and Mrs. Dan McKay. The members of the club were hostesses, and an elaborate afternoon tea was served after the business meeting. Mrs. E. Wells will be hostess for the May meeting.

The water users of Naramata held a meeting in the Fruit Union building.

ing on Friday night with Capt. Langue, chairman of the committee, presiding. This meeting was held to get the opinions of the users in regard to taking over the domestic and irrigation systems. Mr. McDonald, of Vernon, government agent, was present to give any information required. Two new members were added to the committee, Mr. F. Rounds and Mr. King.

Dr. Andrew paid a professional visit here on Friday afternoon.

The Ladies' Aid of the Methodist Church held their annual election in the church basement on Tuesday afternoon. Mrs. M. M. Allen was elected president; Mrs. Myers, vice-president; Mrs. Cook, treasurer, and Mrs. Weaver, secretary. Mrs. Hughes was hostess for the afternoon.

Naramata residents are looking forward to the concert to be given by the Penticton choir with Mrs. McGregor, reader, which will be given in the near future.

Does advertising pay? Did you ever go into a town that was to all appearances dead? What kind of advertisers were there in that town?

Canadian Women and Music

At the recent Congress of the National Council of Women of Canada a number of resolutions were passed dealing with the question of music. Among them the following points were brought out.

1. Music is a necessity, not a luxury.
2. Every child has an inherent right to a musical education.
3. Unity through music is a means to civic improvement.
4. Patriotism is developed by music.
5. The spirit of comradeship, regardless of creed, is induced by music.
6. Music is the most useful medium in constructive work in a community. With the saloon and dance hall abolished there must be established in their stead places of clean amusement.
7. Music tends to encourage a higher form of citizenship.

Music is a powerful curative for mental, moral and physical ailments.

SUNFLOWER'S MANY VIRTUES

Every part of the sunflower has some economic value. The leaves form a cattle food and the stems contain a fibre which may be used successfully in making paper. The pith of the sunflower stalk is the lightest substance known; its specific gravity is 0.028, while that of elder is 0.09 and cork 0.24. The discovery of the extreme lightness of the pith of the stalk has essentially increased the commercial value of the plant. This light cellular substance is now carefully removed from the stalks and applied to many important uses. One of its chief uses is the making of life-saving appliances.

A woman never thinks that a man thinks she talks too much.

APRIL 30, 1920

Food prices will continue to be high for several years. At least this will be true if prices are governed by the supply. Dr. J. W. Robertson, than whom there is no better authority anywhere, addressing the parliamentary committee on agriculture and colonization at Ottawa last week, said it would take at least two big crops to catch up to anything like the normal supplies of breadstuffs, ten years to attain the pre-war status of milk products, and four or five years for beef products. Dr. Robertson went at length into his experiences overseas, reiterating his statements that prices were dependent entirely upon world conditions. Increased production in Canada would not lower prices because of the continued abnormal demand.

A Kelowna contemporary tells of a startling example of the ruin that the mail-order habit has brought to some of the small towns in the east was made manifest at a recent enquiry conducted at Hamilton, Ont., by the Board of Commerce in regard to the operations of the wholesale grocery trade as affecting the general consumer. It was stated in evidence that the population of Orangeville, Ont., has decreased from 5,000 to 2,800, owing chiefly to the decline of the retail business of the town through people sending to the large departmental stores in the big cities for the bulk of their requirements.

The petty savings that may be made by sending away for goods cannot compensate in the long run for the irretrievable damage done to the local town as a community centre. A prosperous town in the centre of a thriving agricultural district adds to the pleasures and comforts of existence of all concerned, and if people in town and country alike would combine to build up local trade, all sorts of conveniences would gradually add themselves which, in a dead town are not to be found. Volume of trade has a material bearing on the question of good churches under the pastorate of intellectual men, good schools under the direction of the best teachers, and opportunities for wholesome recreation which are an absolute necessity if the younger generation is to be retained on the farm and kept content instead of yearning for the "white lights," the garish display and feverish life of the great cities.

Can any farming district be pictured as enjoying lasting prosperity in which the mail-order habit has developed to such an extent as to destroy the trade of its town centre? Surely town and country are interdependent, and if poor trade leads to vacant buildings, unpaid taxes, decrepit sidewalks and an inferior standard of business and professional men, there is bound to be a reaction injurious to the rural community. The young men of today will not stay in a district where there is nothing but drudgery, no sport or amusement to sweeten the intervals from toil, and shortage of labor would soon spell an end to profit in many branches of agriculture.

Less selfishness and a wider outlook in regard to the common interests of town and country are urgent needs of the hour, and there should be cultivation of a spirit of district patriotism which would regard as a stab to the prosperity of the whole community every dollar sent to build up acre upon acre of floor space in the departmental stores of the great cities hundreds or thousands of miles away.

Review of Reviews, in the following brief paragraph, gives due recognition to the local weekly newspapers as a medium of peculiar value to the man who would get the attention of the people of his community:

"Country weeklies are pre-eminently the home papers of newspaperdom. They are not hurriedly scanned while men travel to business, then left to brakemen to gather up. They go directly to homes where their reading is a duty as well as a pleasure. Hence their peculiar value as an advertising medium."

More Adjustments on Irrigation

The hearing of appeals on irrigation rates and acreage was concluded by the Court of Revision on Monday morning.

G. F. Sinclair requested a reduction of two acres owing to ditch through lot and useless side hill. One acre allowed.

A. Davidson, block 20, D.L. 508, requested reduction of acreage to 7 1/2 acres. Fixed at 8 acres.

A. McGown, blocks 8 and 9, D.L. 441, asked for reduction to 12.8 acres. Acreage sustained.

A. Moyes, block 24, D.L. 2106. Reduction of irrigable acreage to two acres granted.

F. Morrow, block 14, D.L. 508. Reduction to 6 acres granted.

W. R. Tweedy, block 20, D.L. 476, requested reduction of acreage. Reduced to 7 acres.

Rossi Markell, block 20, D.L. 474. Reduced to 3 acres.

R. S. Monro, block 15, D.L. 2106, requested reduction to 6 acres. Fixed at 7 acres.

T. J. Garnett, block 7, D.L. 508. Reduced to 6 acres.

W. A. Caldwell, block 17, D.L. 508. Reduced to 7 acres.

Jna. Shephard, block 6, D.L. 454. Reduced from 8 to 7 acres, but his adjacent lot, 7, was increased from 8 to 9 acres.

A. Fonwick, block 32, D.L. 2106. Reduced from 8 to 7.

G. R. Raincock, Pench Orchard

lots. General water rates rebated, as pipe line is his private property.

G. M. Loomer, town lots. General water rates rebated; lots not served by pipe line.

T. G. Virtuo, block 41, D.L. 455. Reduced from 12 to 5 acres.

G. F. Henry, block 8, D.L. 475, only part under service. Reduced to 6 acres.

H. C. Howis, block 3, D.L. 439. Reduced to 8 acres.

Geo. Batho, part block 1, D.L. 470. One acre allowed.

W. J. McLain, part block 18, D.L. 439. No rate to be charged for 1920 until service given.

A. J. Beer was given a half-inch pipe connection for irrigation purposes.

Several requests for additional connections or rebates of charges for such extra connections were covered by a recommendation to the council, which recommendation is embodied in a resolution passed by the council Monday afternoon.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

April 27	62	50	—	—	4.7

Retiring Pastor Presented With Address of Appreciation

Just before leaving this week for an extended visit to Victoria, Rev. W. H. Bates was presented with the following address from his church and congregation. The letter was prepared by a special committee representing the Presbyterian Session and the Methodist Association worshipping in St. Andrews, and was informally presented to the retiring pastor.

St. Andrews Presbyterian Church, West Summerland, B. C., April 27th, 1920.

To the Rev. W. H. Bates.

Dear Sir and Pastor: We, the members and adherents of the St. Andrews Church at West Summerland, wish through the representatives of our church organizations, specially elected to do so, to convey to you the deep sense that we feel of the loss we are about to sustain in your impending departure from us as our pastor. With deep sorrow we recognize that the precarious state of your health makes it impossible for you to carry on your work as our pastor any longer, a work which has been dear to your heart, and by God's blessing has been unusually successful. We know it is imperative upon you to obey your medical adviser's orders and take a prolonged rest, with the hope that God may see fit to restore you to your wonted health and strength. We trust and pray this may be accomplished at no distant date.

It is with heartfelt appreciation of the splendid service that has been crowded into the two full years of your ministry in Summerland, that we join in expressing to you the great gratitude we feel for the blessing and privilege that have been ours to worship with you and to be guided by your eloquent, able and helpful teaching. "We live in deeds, not years," says the poet, and you have crowded into your two years pastorate the work which it usually takes well-nigh twenty years to do. The deeply spiritual tone of your ministry among us has been a constant inspiration to us all, and the power of the Holy Spirit has blessed your messages to the edifying of the church and the increase of its membership. You close your term with us leaving a strong, earnest, active and spiritual church, vastly better in all that appertains to true Christian life and service. The membership has been largely added to, the Sunday school, Bible classes and Young People's Societies are far away improved in numbers and quality of work done, and these things are due in no small measure to your efficient leadership and inspiration. The union of Presbyterians and Methodists for work and worship in our practically Union Church has been a most gratifying success, and is due largely to your wise counsels and broad Christian sympathies.

We shall miss you much and shall follow you with our prayers and good wishes. The children who enjoyed your earnest, loving talks to them on Sunday mornings, the young people who gathered around you have felt and responded to your soul-stirring messages; our older folks, to whom you have given glimpses of higher spiritual life and a vision of realms of peace and joy beyond—we shall all miss you. But we shall hope to see and hear you again in the future.

We take this opportunity also of expressing our deep appreciation of the brave wife and loving counsellor, whose noble character and influence have endeared her to us all.

With deepest regret we view your early departure, and we pray that the divine blessing may rest upon you and yours, and that our Heavenly Father, in whose loving care you are, may grant you renewed health and strength, comfort you in your recent sorrows and bereavement, and give to you years of useful work in His work.

Signed on behalf of the members and congregation.

J. G. ROBERTSON, Senior Elder.
W. T. BROAD, Chairman of the Methodist Association.

H. CALLAWAY

SAYS WATER DIVERTED FROM NICOLA WATER-SHED TO OKANAGAN

(Continued from Page 1)
by means of placing an obstruction and opening a ditch, been taken from its natural channel and diverted on the other side of the divide to the Peachland district, a distance of some thirty miles. The unusual shortage and failure of the water in the Douglas Lake basin last year, had led to investigation of the sources of the supply, with the result that the evidences of this unlawful diversion had been discovered.

The Indian witnesses were being questioned and giving evidence to this effect, when Mr. Long, for the applicants, interposed that there was no necessity for taking up further time establishing that point, as it was admitted that there had been such diversion, but he or the company he represented had nothing to do with it. Further discussion on this point elicited the information that the diversion had been made in 1913, by a group of individual fruit growers of the Peachland district, who, in desperation, at a shortage of water at the time, had formed a "bee," taken the law into their own hands, so to speak, and diverted this water supply by the means noted, the source of which was and is comparatively remote and inaccessible.

J. T. Long and J. Michael, representing the applicants, gave evidence to the effect that the two lots mentioned in the application for which water for irrigation was required, lots 3316 and 2537, comprised about 110 acres under cultivation and some 200 acres more that could be brought under cultivation with irrigation. They stated also that the plan was to dam and store water in Brenda Lake, during the freshet season, when water was going to waste, and use it for fruit orchards only after August 1st, which they claimed would not deplete the water supply required several months earlier for ordinary irrigation. It would be a serious hardship if they were not able to get this needed water supply. On the other hand, many more acres would be put in trees if the water was granted.

In the course of evidence and cross-questioning, it developed that the applicants, although they had had no part in the Deep Creek diversion, incidentally received in their ditches about one-quarter of the water so diverted.

F. B. Ward, manager of the Dou-

glas Lake Cattle Co., also went on the stand and deposed that several hundred acres of the company's lands could be irrigated from Spahomin Creek, if there was sufficient water. He had proposed to make arrangements with the Indian Department to obtain water from Spahomin Creek. If the application was granted, there would be a shortage of water. There had been a perceptible decrease in the supply of water in Spahomin Creek for the last four or five years. If this proposed diversion was granted, they would lose the flood or freshet water, which was vital to their irrigation projects. The freshet came in June and lasted about ten days or two weeks. He felt certain, from his experience and observation, that if Brenda Lake was dammed and shut off for storage for a time, the waters in Lake Penaski and Spahomin Creek, below, would never come back to their natural level.

Indian Agent Smith, after all the evidence was in, reiterated and emphasized his reasons for protest against the granting of the application, pointing out further that the water belonged to this watershed, and that diverting a portion as proposed would not only be robbing the rightful possessors of sufficient water for irrigating many hundreds of acres, but would lead to endless friction, contention, litigation and trouble, and that it would be found practically impossible to check or limit the water taken under such a scheme.

On behalf of the Douglas Lake Cattle Co. and the Guichen interests, M. L. Grimmett also summed up his objections to the granting of the application on the line of the evidence given by Mr. Ward.

Indian Agent Smith also made a statement that he proposed to take steps to have the alleged illegal diversion of water from Deep Creek in 1913 thoroughly investigated and adequately dealt with.

In some discussion between applicants and objectors, which was all carried on, as were all the proceedings of the hearing with the utmost good feeling, District Water Engineers Varcoe and Groves expressed the view that, if the storage proposal was deemed feasible, it would be a matter to take up between the Peachland people, the Douglas Lake Cattle Co. and the Indian Department. It was also suggested, in this connection, that the water comptroller, before dealing finally with the application, would probably have a thorough

examination made on the ground into the whole question in all its phases. Government Agent J. A. Murchison took all the evidence under oath, and also made arrangements to take a full report of the evidence and proceedings, which, as soon as it is transcribed, will be forwarded to the Comptroller of Water Rights, Victoria, for his consideration and action thereon.

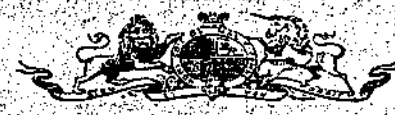

CLIMBING UP!

I now insure away over half of the insurable residences in the district, and have policies on 80 per cent. of the mercantile places.

This shows the confidence Summerland folk have in the seven companies I represent.

You should place your insurance with me, too.
Phone me at 771.

W. M. WRIGHT

TENDERS FOR COAL

SEALED TENDERS addressed to the undersigned and endorsed "Quotation for Coal, Dominion Buildings, British Columbia," will be received until 12 o'clock noon, Monday, May 17, 1920, for the supply of coal for the public buildings throughout the province of British Columbia.

Combined specification and form of tender can be obtained from the Purchasing Agent, Department of Public Works, Ottawa, and from the Caretakers of the different Dominion Buildings.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 per cent. of the amount of the tender.

War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

By order,
R. C. DESROCHERS,
Secretary.

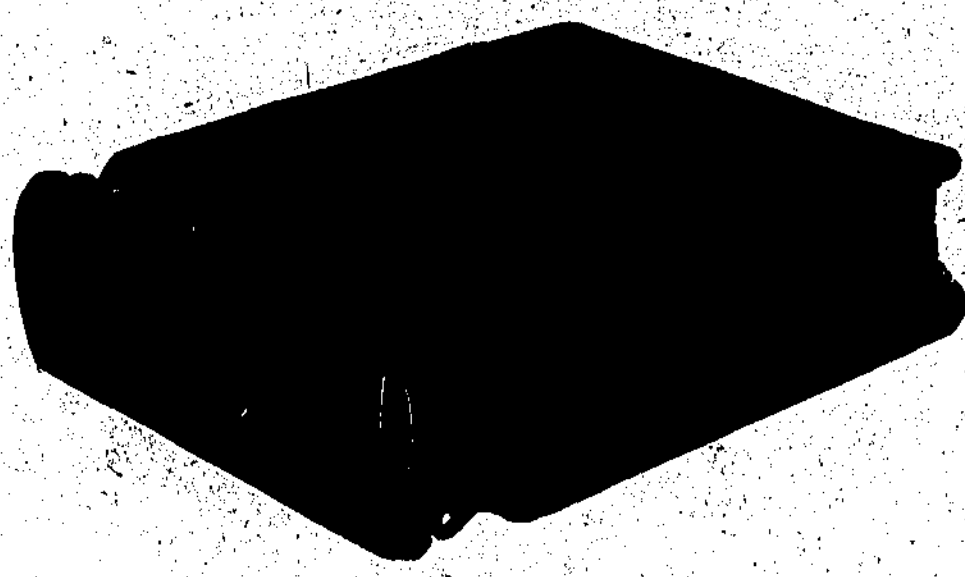

Department of Public Works,
Ottawa, Ont., April 12, 1920.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

St. Andrews Presbyterian Church. Rev. J. Stoodley will conduct the Sunday morning service. Young People's Society at 7.30. Mr. Huntley, of Penticton, will tell of his experiences in mission work in China: C

The Ladies' Aid of St. Andrews Presbyterian Church will hold a sale of home cooking in St. Andrews Hall on Saturday, May 8, at 2.30 p.m. Afternoon tea served. C

A Get-Together Meeting of all the Methodists in the Summerland district will be held in St. Andrews Hall, West Summerland, on Tuesday evening, May 4th. Every member and adherent of the Methodist Church, young or old, is invited. Refreshments will be served by the ladies of the West Summerland Methodist Association. A good programme is being prepared. C

Baptist Church services at 10.30 and 7.30. Lord's supper at the close of the evening service. Go to Sunday School and Mothers' Day. Special service in the Sunday School at 11.45. Come to Sunday School that day. C

Rev. D. A. Gunn, a missionary to the Telugus, India, will speak in the Baptist Church on Monday night at 8 o'clock. Mrs. Geo. Ross and Mr. Baker will sing. C

His Motion Opposed Councillor Retires

A motion to the effect that the services of the municipal engineer be dispensed with was again introduced at the council meeting on Monday by Couns. Johnston and Blair. The motion precipitated quite a discussion, and before it was ended Coun. Blair retired, declaring that he was done and would not attend council meetings.

In support of his demands that the engineer be dismissed, Coun. Blair said that fault was being found with his work. When asked to lay a charge, he referred to a report that an excessive amount of concrete had been used in one place on the main canal, and when asked to prove this and other implied charges, not stated, he said he would bring men to prove that the engineer should be dismissed, but not with the engineer present.

Reeve Campbell and others declared that they did not put credence on rumors, and would be glad to give an opportunity to prove the reports and thus definitely settle these rumors, but in fairness to the engineer he should be present.

Following Mr. Blair's retirement, the matter was further discussed, Coun. Kirk stating that the ratepayers had insisted that the work being done be carried out under the direction of the engineer. Coun. White mentioned other work to be done which could not legally be done without an engineer. The power system urgently needs attention; and domestic water extensions must be made. Coun. Kirk insisted that any criticisms that might be advanced, did not reflect on the engineer but on last year's council, and he as a member of that council was ready to assume all responsibility.

Reeve Campbell declared that the engineer had come here with certain people prejudiced against him, and those were still prejudiced. He referred to the exceptional conditions and the many difficulties to be overcome when the work was started last year.

The council adjourned without the motion being put.

A Boy of Method

It was a week before little Willie's birthday and he was on his knees at his bedside petitioning Divine Providence for presents in a very loud voice.

"Please send me," he shouted, "a bicycle, a tool chest, a—"

"What are you praying so loud for?" his younger brother interrupted, "God ain't deaf."

"I know he ain't," said little Willie, winking towards the next room, "but grandma is."

"Mention twelve animals of the Polar regions," said the teacher at Allonby. The despairing student wrote: "Six seals and six Polar bears."

Passing Events: Social, Personal, &c.

A. E. Hespeler returned Monday from a brief business trip to Winnipeg.

Mrs. Gray, wife of Dr. Gray, of Hedley, has been visiting her sister here, Mrs. H. B. Mair.

Miss Reekie, of Kelowna, is attending high school here, and staying at the home of Mr. and Mrs. D. J. Welsh.

Haying will soon be on. Let me know your needs in machinery and repairs. Do it Now. A. E. Smith. 40 p

G. H. V. Bulyea, ex-governor of Alberta, arrived Thursday morning for a brief visit with his sister, Mrs. Lipsett.

Chas. Marshall now has with him his daughter, who arrived from England by way of Vancouver Monday morning.

Mr. and Mrs. Lott and family have arrived here from Vancouver, and are now on the Harrison property recently bought by Mr. Lott.

Mr. and Mrs. A. S. Peck are visiting in Vancouver. Mr. Peck is buying furniture and fixtures for the new ice cream parlor.

Rev. W. H. Bates has resigned from the pastoral charge of St. Andrews Presbyterian Church, and will retire from the active work of the ministry.

The Lipsett farm implements and machinery will be sold in the morning at 10.30. One ton of Bankhead hard coal will be offered at the sale. 40

Mrs. Litch, wife of Rev. J. W. Litch, has been visiting Mr. and Mrs. G. J. C. White since Monday. She and Mr. Litch left for Vancouver this morning.

Mrs. Geo. Ross has returned from a visit to Vancouver, and will remain for the summer with her father, Mr. S. Bartholomew, who has taken a cottage on Jones Flat.

Westbank is likely to soon have its irrigation system co-operatively controlled. There is a movement there now to organize the district into a water municipality, and a committee has been appointed to get matters into shape for that purpose.

Mr. and Mrs. H. B. Mair and two daughters, Christine and Margaret, have arrived here from Norquay, Sask., to make their home in Summerland. Mr. Mair is now owner of the lot on the east side of Giant's Head, recently held by A. E. Sharpe.

Geo. Craig is expecting two brothers to reach here from the east on Saturday. One of them, Jack, is well known here, having lived in Summerland for some time prior to going overseas with the C.E.F. The other brother, Laurier, the youngest of the family, has never been here, but it is not improbable that he, too, will make his home here.

The carload of liquor seized at a private dwelling house in Penticton about a month ago by the municipal police has been returned to its owner, under an order of court issued by Magistrate Guernsey, who ruled that no evidence had been produced to show that the liquor was being kept in the house for the purpose of unlawful sale. It is understood that the owner of the shipment, which is valued at over \$18,000, is applying to the Attorney-General for permission to ship it back to Montreal.

The question of changing the name of the Church of England in Canada came up at the Anglican synod recently held in Montreal. Upon resolution, however, it was decided that the name remain unchanged, arguments being put forward that any change would be one more link broken between Canada and the mother country, an event which should be avoided at all costs.

AND THAT'S NO JOKE

The League of Nations—You used to call me your very ownest. Don't you love me any more, Jonathan? Jonathan—Yop!—with reservations.—Westminster Gazette.

FOUND—Umbrella. May be had at Review Office by proving ownership and paying for ad. 40

A. J. Rutherford, of Vancouver, has arrived here to take a position on the Dominion Bank staff.

Two Wilton rugs, one 9x10 1/2 and one 9x12, will be offered for sale at Lipsett's on May 6. 40

J. Keeton arrived here Wednesday morning from Sask. He will be employed with J. S. Ritchie.

Two carloads of cattle have been brought in from Alberta by G. R. Hookham, who has taken them to his White Lake Ranch. Harry Reynolds and Fred Brind went to Calgary to buy the stock.

Jack Conway is here on a brief visit at his mother's home, where his wife and daughter are staying for a time.

Rev. T. W. Reed and Mrs. Reed and Mrs. Harrison left last week for Edmonton, where Mr. Reed has been given a charge.

The infant daughter of Mr. and Mrs. Bert Bryant passed away early Monday morning, having been ill but two or three days with pneumonia.

Rev. W. H. Bates and Mrs. Bates and their daughter, Muriel, left Wednesday morning for Victoria, where they will remain for an indefinite period.

Two carloads of Yellow Newtons, the remainder of his stored apples, totalling 1,400 boxes, were shipped this week by Isaac Blair. One car went to Winnipeg and the other to Calgary.

The university has closed for the summer vacation. Among the local students to return to their homes here are Howell and Allen Harris, Donald McIntyre and Roy Eisey.

On Saturday, Rev. W. H. Bates was notified of his appointment as commissioner for the Kamloops Presbytery at the general assembly which meets at Ottawa in June. Physical disability prevented Mr. Bates from accepting the commission.

A grass fire, Monday evening, on the hillside north of W. J. Beattie's caused some excitement. A large crowd gathered to fight the blaze, which was discovered about six o'clock and which was not extinguished until about nine.

Miss Blanche Babbitt arrived from Golden last Friday. She and her sister Kathleen, who arrived from Vancouver some two or three weeks ago, are here because of the serious illness of their grandmother, Mrs. Grieve, who, according to latest reports, is improving.

J. Lawler, manager of the Summerland Fruit Union, and Mr. Ferguson, of the O.U.G., motored to Yakima and back last week. Mr. Lawler looked over a number of storage plants and packing houses between here and Yakima, while Mr. Ferguson gave special attention to canneries and such plants as manufacture fruit by-products.

W. A. Allen, a nephew of J. B. Thompson, who came here as an invalid about six months ago from Elm Springs, Sask., died at the home of his uncle early Wednesday morning. The funeral was held that afternoon, interment being made in Peach Orchard cemetery. The deceased, who was about 84 years of age, had never recovered from a severe attack of influenza.

The Summerland Checker Club played two matches with the Penticton Club Thursday evening, the 22nd, at Ponchland. This was a return match to the one played here on the 8th. We are grateful to Mr. R. Atkin, of the local club, for the scores of these competitions, but as the results are already given in our Ponchland columns, it will not be necessary to repeat them here.

To close its season the West Summerland 500 Club gave a dance on April 21st in the College Gymnasium, it being advertised that the proceeds be turned over to the Summerland Hospital. After all expenses were paid, the sum of \$104.05 was handed over to the Hospital Society by Fred G. Barnard, secretary-treasurer of the club. The dance was very largely attended, among those present being quite a number from neighboring towns. Excellent music was provided and dancing continued until 2 o'clock when it was brought to a close by the singing of the national anthem.

Miss Myrtle Conway is visiting in Vernon.

Mrs. R. H. Helmer is visiting her sister, Mrs. Hamilton Lang, of Vernon.

Donald Ross has returned from Kelowna and is again at the C.P.R. station here.

Do not miss Dr. Lipsett's auction sale of high-class furniture on Thursday, May 6. 40

Mrs. Hargraves and Mrs. Charity are both making good progress toward recovery at the hospital.

Mr. J. W. Jones, member at Victoria for this district, has returned to his home at Kelowna, after a long and busy session of the legislature.

A high-class piano and piano player (The Wheelock, made in New York), will be offered for sale at Dr. Lipsett's auction on Thursday, May 6. Good terms can be arranged. 40

Mr. J. G. Robertson leaves this week for Victoria to represent St. Andrews congregation at the Presbyterian Synod of B.C., especially to speak on behalf of their recently resigned pastor.

Miss Anderson, who has for some time been with Mr. and Mrs. Thos. Dale, is returning to Manitoba to live with her brother. She will be accompanied by Mrs. Hanna, of Winnipeg, who came here for the purpose.

Supt. Helmer, of the Experimental Station, accompanied by Prof. Fairchild, of Lethbridge, is this week making an investigation regarding the possibility of irrigating the Kamloops Indian reserve.

More than three carloads of lime-sulphur spray has been pumped onto the trees in Summerland and vicinity this spring, and should result in much cleaner fruit this season, as last year less than a barrel of the mixture was used.

Mrs. Scarie, who has been visiting Mrs. F. A. Williams, Peach Orchard, has returned to her home in California, taking with her her step-child, who has been a member of the Williams' household since but a few months old.

The Telephone Co. has this week received a long overdue shipment of telephone instruments. This will be welcome news to many new subscribers who have been awaiting connection with the exchange. A quantity of switchboard material was also received. When in place another operator can be accommodated at the board.

Mr. and Mrs. S. M. Young and Mr. and Mrs. T. B. Young celebrated their wedding anniversaries last Saturday night, the former their 40th and the latter their 5th. With Mr. and Mrs. O. Atkins, of Summerland, and Mr. and Mrs. Hayward, of Naramata, they enjoyed a wedding dinner at the Incola.

That carload of liquor, which has occasioned so much talk since its arrival in Penticton some weeks ago, was shipped back to Montreal by the owner, F. T. Abbott, who had obtained permission from Victoria to do so. This consignment had been seized by the police and removed from Mr. Abbott's cellar, but it was recovered by him through police court proceedings.

Attended Dance at Westbank

The following paragraph, from a late copy of a Kelowna exchange, has considerable local interest:

A very successful masquerade dance was held by the Westbank Social Club in the B.C. Growers' packing house on Friday evening. The Summerland Novelty Orchestra was in attendance, and "did themselves proud" in the matter of music. In evidence. The ladies' prize was awarded Mrs. Leonard Featherstonehaugh, of Westbank, and Mr. Roland Reid, of Summerland, was the favored gentleman at the hands of Judges Thacker and Gore. An enjoyable luncheon was served at mid-night, after which dancing continued until the wee sma' hours. A jolly delegation was on hand from Ponchland, all of whom voted the affair one of the most enjoyable of the season.

Judgment Given in S. & P. vs. Kidston Case

A judgment recently handed down in the Court of Appeal of considerable interest to Okanagan fruit shippers and growers, dealing with a contract for the sale of the fruit crop of the Kidston ranch at Vernon to Messrs. Stirling and Pitcairn, Limited, has decided this long-standing dispute definitely in favor of the shipping firm. The case was occasioned by the plaintiff Kidston breaking his contract to sell fruit to Messrs. Stirling & Pitcairn, and in July of last year the latter applied for and obtained an injunction restraining Mr. Kidston from selling his fruit until the matter could be tried before the Supreme Court. At the trial in September the court dissolved the injunction on the technical grounds that no contract existed. Messrs. Stirling & Pitcairn appealed and the injunction was continued until the trial of this present month, when the Court of Appeal unanimously allowed the appeal of Messrs. Stirling & Pitcairn with costs, on the ground that a contract mutually carried out for five years must exist, and also that the document as to terms, etc., was quite consistent and legal.

CARD OF THANKS

Mr. and Mrs. Bert Bryant and Mrs. Thos. Figgis wish to thank their kind friends and neighbors for their help and sympathy in their recent sad bereavement.

New Pastor Given Public Reception

At a largely attended meeting in the West Summerland Church, Tuesday evening, Rev. Isaac Page was formally made pastor of the Summerland Baptist Church, Rev. J. Willard Litch giving the charge to the church. Rev. Chas. Baker, who has been conducting the morning services for some time, gave a few words of welcome to the new pastor and his wife, as did also Mr. G. J. C. White, who eulogized Mr. Baker, whose valuable assistance while the church was without a pastor was greatly appreciated.

On behalf of the Presbyterians, Mr. J. L. Logie extended a welcome to the new pastor, as did Miss Sinclair on behalf of the women's organizations of St. Andrews Church.

Rev. J. Stoodley, of the Methodist Church, also extended a few words of welcome.

To all of these Mr. Page made brief and happy reply. The chair was occupied by Mr. W. C. Kelley, and features of the evening programme were vocal solos by Mrs. S. A. MacDonald and Mrs. Clarence Eisey. Much of the evening was spent in social intercourse, refreshments being served.

D. Gellatly & Sons are arranging to rebuild the wharf on their well-known ranch at an early date. It will be recalled that the Gellatly wharf and several buildings were destroyed by fire some months ago. Provision will be made for a car-slip.

Popular Peachland Couple Wedded

A very pretty wedding was solemnized here on Thursday, April 22, when Miss Kate Miller was joined in the bonds of holy matrimony to Mr. Bryson M. White, both old-timers of Peachland. The ceremony was performed by the Rev. C. D. Clark, at the home of the bride's parents, Mr. and Mrs. A. W. Miller, among a gathering of old-timers and a few of the intimate friends of the bride and groom. The bride looked charming in a gown of white silk with an overdress of Georgette crepe. The bridal veil was decorated with orange blossoms, and she carried a bouquet of white roses, and was attended by Miss Leone Morrison, who wore a gown of apple green silk trimmed with Georgette crepe, and carried a bouquet of pale pink roses. The groom was supported by Mr. J. Seaton. The bride entered the room on the arm of her father, to the strains of the wedding march played by Miss Candace McDougald. After the ceremony a dainty buffet luncheon was served, and shortly after the bridal couple, with the bridesmaid and groomsmen, went by auto to Okanagan Centre, where the young couple intend making their home temporarily. The bride's going away costume was a navy blue serge with a small hat and pretty scarf to match. After seeing the couple settled in their new home, the bridesmaid and groomsmen returned the same evening. Having many friends here and elsewhere through the country, the bride was the recipient of a numerous collection of pretty and valuable gifts.

Mrs. and Miss Morley, of Vancouver, are visiting at the home of Mr. and Mrs. A. J. Miller.

Mrs. Seaton came down from Vernon to attend the marriage on Thursday of Mr. Whyte and Miss Miller.

Mrs. L. D. McCall has been suffering illness for some weeks, caused by trouble with her throat, and since partially recovering she has gone out to spend a short time with her daughter and son-in-law, Mr. and Mrs. MacKenzie, on their fruit lot. Since moving up there she has considerably improved in health.

Mr. Jas. Michael and Mr. J. T. Long made a short business trip in the Nicola Valley last week.

After having spent several months in our vicinity to recuperate from broken health, Mr. and Mrs. Fryth left on Thursday morning of last week to try the climate at Kamloops, where they intend staying for the summer months. While here they resided in the home of Mr. and Mrs. E. Harrington.

Mr. Roy Davidson went north on Thursday of last week, spending a couple of days up the lake.

Mr. A. J. MacKenzie visited Penticton last week, going down by auto on Thursday and returning on Friday morning's boat.

On Thursday evening of last week our checker kings entertained their Summerland friends, at the home of Mr. and Mrs. Wm. Dryden, to a return checker match. The following are the results of the games played.

Among the Seniors, the first names mentioned being the visiting players; Beattie 1, Brinson 3; McMillan 1, Moore 3; Aitkens 2, Dryden 0, 2 draws; White 1, C. G. McDougald 3; Beer 0, Morsch 3, 1 draw; Purvis 0, Buchanan 3, 1 draw; Harding 1, H. Miller 2, 1 draw. Totalling Summerland 6, Peachland 17, and 5 draws.

Among the Juniors: Stuart 1, Ross 1, 2 draws; Thompson 1, Henderson 3; Ramsay 3, Williams 0, 1 draw; Snow 1, W. J. Moore 3. Total, Summerland 6, Peachland 7, and 3 draws.

After the play, Mrs. Dryden, assisted by a couple of lady friends, entertained the players to light refreshments.

After having visited down the lake for some time, Miss M. Vicary returned to her home here on Friday morning last.

Mrs. E. P. Roe, of Naramata, has been enjoying a couple of weeks' visit here with her sister, Mrs. H. McDougald. She came by auto.

Mr. Murray McBean went north on Friday to meet Mrs. McBean and daughter, who were coming in from the prairie. They came in on the evening boat.

Mrs. W. Hewlett and child, of Westbank, are visitors in town, the guests of Mrs. B. Dennis.

Mrs. Graham, with her little girl and boy, came down from Okanagan Centre on Friday to spend the weekend here with Mr. Graham, who has

been working here. They were guests at Mr. and Mrs. Hohensee's.

Mr. Campion, of Vernon, has been enjoying a visit in our vicinity, a guest of Mr. and Mrs. Ortt.

Mr. L. Hatfield, of Summerland, spent part of Friday last in town on business.

A meeting of the police commission was held on Friday evening, at which a motion was passed to the effect that all horses and other stock except 18 months heifers and milch cows were to be kept off the municipal roads and highways.

The irrigation water has been brought down through the main and is being distributed among some of the laterals. Considerable repair work has been done again this spring to bring the system into better condition. In view of the fact that last year proved so much more satisfactory with respect to supply of irrigation water, and the fact that further capacity was arranged at the dam last fall, we should have a good supply of water for our crops this year.

Peachlanders will be interested to learn of the departure for a time of our Belgian citizen, Mr. Wm. Van Sey Mortier. Some, no doubt, will be surprised to learn that for some time past he has been in very poor health and in none too good circumstances. But for the kindness and attention of his neighbor, Mr. Thos. Elliott, he would have been in a serious situation. Mr. Elliott has been taking care of him for about three months. The council took the matter up and decided to have him taken to the Kelowna Hospital for treatment. Mr. G. Lang was appointed to take charge of him going over on Saturday, when he saw him comfortably settled in the hospital.

The nominations to fill the vacancy for Ward 2, which were to have been attended to on Friday last, were postponed till a later date.

Mr. A. N. Cutbill and Chas. Morrison motored to Kelowna on Saturday last, and returned by boat in the evening.

Bert Keating came down from Kelowna on Saturday to spend Sunday at home, returning again Monday morning.

Mr. C. G. and Miss Candace McDougald paid their brother John and his wife a week-end visit, driving down to his ranch.

Mr. R. J. McDougall, of Penticton, and children visited friends here on Sunday last.

Mr. Thos. Powell paid a short business trip to Vernon this week, returning Tuesday evening.

Mr. and Mrs. Murray McBean went to Naramata to visit for a few days.

Mr. Robt. Howell arrived Monday evening to visit friends here.

The two lady evangelists who spent a short time in Peachland last year spent a day here this week, guests of Mrs. W. Morsch. They came up from Naramata on Monday morning and returned Tuesday evening.

Major Hardisty went to Vernon hoping to meet Mrs. Hardisty and accompany her home on her return trip from Alberta, where she has been visiting for a time.

Visitors in town by auto on Wednesday last were: Mr. and Mrs. P. Roe and son, Frank, and Mrs. Hughes, of Naramata. They were guests at the home of Mrs. H. McDougald. On their return they took with them Mrs. E. P. Roe, who had been visiting here for a couple of weeks.

ASSURES CANNERY TO BE OPERATED

Peachland readers will be pleased and interested to read the following extract from a circular letter written by the incoming cannery company:

"In the Summerland Review, dated April 16, a statement was issued to the effect that this company was about to transfer its interest from Peachland and locate its cannery at Summerland. Such is not the case. Carter's Okanagan Canning Co. Ltd. will operate at Peachland this summer and after. Do not let anyone mislead you regarding this. We give you this as our guarantee that the cannery in your town—Peachland—will be operated by us this summer and fall, and that we are in the market for all the tomatoes, peas, beans, small fruits and apples you can serve us with.

"It is true that Summerland made advances to us—in the form of an offer to invest some \$10,000 in the company—but we had arranged to locate at Peachland, and at a meeting of the directors of the company on

April 20, it was unanimously decided that no change should be made in these plans." The letter was signed by Mr. S. M. Carter representing the company.

Ed. Note—It is evident that the above-mentioned company was misinformed. Reference to the article in our issue of the 16th will show that no mention was made of the company abandoning the Peachland plant.

Land Registry Act.

Notice Under Section 36.
No. of Application, 8358D.

TAKE NOTICE that an application has been made to register. The Summerland Development Company, Limited, as the owner in Fee-simple, under a Tax Sale Deed from the Assessor of the Municipality of the District of Summerland, to The Summerland Development Company, Limited, bearing date the 25th day of March, A.D., 1918, in pursuance of a Tax Sale held by said Municipality on or about the 31st day of August, 1916, of all and singular certain parcels or tracts of land and premises situate, lying and being in the District Municipality of Summerland, in the Province of British Columbia, more particularly known and described as Lots 53, 54, 57, 58, 59, 60, 120 and 121 in the District Lot 678, Map 366.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act," are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said The Summerland Development Company, Limited, as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:—

"and in default of a caveat or certificate of its pendency being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the "Municipal Clauses Act, 1904," or section 203 of the "Municipal Act," or section 139 of the "Assessment Act, 1903," or section 253 of the "Taxation Act," in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

Dated at the Land Registry Office, at the City of Kamloops, Province of British Columbia, this 16th day of September, A.D. 1918.

H. V. CRAIG,
District Registrar.
To A. L. Moreland,
Assessed Owner of Lots 57 and 58,
40-41.

ANNOUNCEMENT

We beg to announce that we have taken over the

HARDWARE DEPARTMENT

of the Summerland Supply Co. Ltd. in West Summerland and guarantee to give the public the most efficient services possible.

We kindly solicit your patronage.

Yours respectfully

BUTLER & WALDEN

Announcement

We beg to announce that we have sold our Hardware business at West Summerland to Messrs. Butler and Walden.

We take this opportunity of expressing our appreciation and thanks to our many customers of West Summerland for their long and generous patronage.

We will continue to carry, at West Summerland, a full stock of Furniture and Gents' Furnishings.

The above change does not affect our Down Town Store, where we carry full lines in Groceries, Hardware, Crockery, Gents' Furnishings and Dry Goods.

The Summerland Supply Co., Ltd.

SUMMERLAND AND WEST SUMMERLAND

Musical Talks.

Written by Prof. C. C. Laughler, Mus. Bac., Bowmanville.

NO. VII—THE OPERA

The opera is a dramatic entertainment of which music forms an essential, and not merely an accessory part. Music and acting have been associated from the very early savage days when the music was only the beating of the Tom-Tom, and the acting was the wild movement of the war dance. We now regard opera as a great display of action, beautiful, scenic effect, a big orchestra and fine singing. The aim of the opera is to interpret the drama, yet there is little speaking and much singing. There are various forms of opera and I will mention just the most important: Opera ballad—sentimental; opera buffa—comic or low comedy; opera dramatic—romantic; grand opera—all singing, full orchestra, high musical character.

Away back in the 16th century in a beautiful city of Italy called Florence, a few gentlemen gathered together to discuss how to discover or recover the music of the ancient Greek drama; which had been lost for many centuries. The names of these gentlemen were Galileo, father of the astronomer, Caccini; Peri, Strezzi, Renuccini and some others. They met at the palace of Giovanni Bardi, and they called themselves "La Camerata." They talked of the ancient Greeks and of the Romans who sang their tragedies throughout on the stage, accompanied by an orchestra of lyres and flutes. This group of men thought it would be a great thing and worth the effort to revive that same kind of stately entertainment.

Renuccini

One man of this company named Renuccini, wrote a story for a drama and named it "Dafne" and produced it at the house of Count Corsi, but the score has been lost. Three years later the same man, Renuccini, wrote another poem, the story of a musician named Orpheus and the opera was named "Eurydice." Two musicians of the company, Peri and Caccini, wrote music to it, but the music of Peri was considered most appropriate. This opera "Eurydice" is considered the first opera ever written, and was presented at the festivities to celebrate the marriage of Henry IV of France to Marie di Medici. Of this opera we know very little concerning the costumes they wore or the stage setting, but we do know that the composer sang the hero's role, and back of the stage Signor Corsi presided at the harpsichord. This little gathering of men who worked out this opera intended it to be a revival of Greek musical work, but in place of that they unknowingly became the originators of opera as we have it today. "Eurydice" contains the great principle of the modern opera. Renuccini, seven years later, wrote the librettos for the operas "Arianna" and "Orfeo." The music was written by Monteverde.

Monteverde

The father of instrumentation is Monteverde. He was the first to put character to the orchestra. To the opera "Orfeo" he collected an orchestra of more than 30 instruments. Monteverde is the man that invented the tremolo and pizzicato in violin playing. His orchestra consisted of such instruments as flutes, lutes,

viols, harpsichords or spinet, and the orchestra was always placed behind the scenes. So far all operas had been performed in large houses or castles, and not until opera was in vogue thirty-seven years was an opera house built. The first opera house was built in Venice, and from this time on the growth of opera spread into other large cities particularly Vienna and Paris.

Lulli

A boy named Lulli was brought from Italy when a child and worked in Paris in the kitchen of the niece of Louis XIV., later being dismissed, his musical ability earned for him a position as violinist in the king's band. He afterwards became the greatest musician of that time. Lulli wrote twenty operas in less than that number of years, and he is regarded as the originator of the overture. He is also called the father of grand opera and is important as having put the French school on a firm basis.

Handel

Handel was born about one month earlier than the great J. S. Bach in the year 1685, and lived 74 years. His father was a barber, and was strong against Handel being a musician. It was his desire that young George should be a lawyer. He was not allowed to attend school because he would be taught the scale, but somehow a small piano called a spinet was smuggled up into the garret and George learned to play while his father was at work. Handel was recognized as a great composer, and when I tell you that he wrote 321 musical works, it seems hardly believable, and included in this was the priceless heritage, "The Messiah." I trust that every music student will hear this work. It is the "king of oratorios." The former part of Handel's life was taken up in the writing of operas of which he wrote 41. Then in deep disgust at his own bankruptcy, brought about by an opposing element who pushed to the front an important musician named Bononcini, Handel gave up operas and took to writing oratorio, for which we know his fame as a genius rests. Later Bononcini had to leave London, having been discovered in a dishonorable effort of claiming another's composition as his own.

and Handel was left master of the field.

Gluck

Another man I wish to speak of is Gluck, a great original thinker. He made some changes in opera. He was born in 1714 in Bohemia, but studied opera in Italy, but the later part of his life was spent in Paris. Gluck broadened out opera, also making the overture convey the character of the play to the spectator. Against Gluck was placed another musician named Piccini. In 1776 this man and his party sought to oppose Gluck by introducing the old form of Italian opera. He aroused great sensation and considerable party feeling. The musical world was split into two powerful parties, Gluckists and Piccinists, and there was a great fight, although no record of actual spilling of blood. This is the way it was settled: Each composer to write the musical part to the opera called "Iphigenia in Tauris," and the music considered the most appropriate would be pronounced the "winner of the day." Gluck produced his opera in 1779, and proved his masterpiece. Piccini's appeared

Wagner

sometime later and suffered sadly in comparison. Opera cannot be spoken without the name of Wagner. Wagner is spoken of as the reformer of opera. He made it more real. He arranged that music be set to words and not words to music. Wagner is the most important figure in all the three hundred years of opera. He brought music to its true purpose to support the poem to strengthen the expression and feeling. The world is willing to say that the art for which the nineteenth century will doubtless be remembered is the musical and dramatic art of Richard Wagner.

In closing, it will be seen that Italy is first responsible for opera and Italy is justly proud of the honor; also that Verdi, the grand old man in opera of the 19th century, is an Italian. Verdi was born in 1814 and died 1901. He wrote many operas, and his opera Falstaff is supposed to be his masterpiece and was written when 80 years of age.

A man has never failed till he is willing to confess it.

Correspondence

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Editor of the Summerland Review, Summerland, B.C.

Dear Sir:

Under the timely title of "Where are we heading for?" an article appeared in The Review, April 9, containing an arraignment of the working man. Mention was made of the results coming from the inauguration of the eight-hour day. In what country has this inauguration taken place? Certainly not ours.

The following statement also was made: "Speaking generally, laboring men are not making any good use of the increased hour or two, of rest from daily toil." This statement is given entirely lacking in evidence, as is also the extra hour or two of rest under discussion. Has not the producer of the world's good things the right to the enjoyment of any of them? Suppose the worker spends the extra hours in quiet rest, or reading or attending a lecture or show with wife and family (if indeed he can keep them), will our presumably Christian friend deny that that is good use of the time?

He might better spend the time in studying, no doubt, but eight hours toil and home duties added are not good preparation for study. Referring to the alleged inefficiency, it is popular today for people to growl and complain to the men and women who produce everything that they are not producing enough, and quite frequently the wall comes loudest from the non-producer, or one whose production is of doubtful quantity. Unquestionably, inefficiency is growing, and why not? Practically everything about our present economic system fosters it.

Years ago, before machinery in

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes, and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emption with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$800 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption if he requires land in conjunction with his farm, without actual occupation, provided satisfactory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 30 acres may be leased as homestead; title to be obtained after fulfilling conditions.

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or corporation. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to connect. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces, the time within which heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year to the death of such person, as formerly, and one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by holders on pre-emptions recorded after June 16, 1915. Taxes are remitted for five years.

Provision for return of moneys advanced, due and back on pre-emptions, 1914, on account of payments, fees or taxes on holders' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enrollment to March 31, 1916.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown Grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1916.

GRAZING.

Grazing Act, 1915, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

possession of private ownership created the enormous inequalities of wealth that exist today—this is not meant to decry machinery but to condemn the private ownership of it—it paid to train the children to a trade or other productive calling. This is all changed now. How many parents put their boys and girls through public school or college to make of them producers of the things we need in life? Are they not frequently subtly taught at home that work does not pay, to make the other fellow do the work. That it is the manipulation of finance that matters, and if the lesson is not taught at home, it is bare to the naked eye, so to speak.

On every hand the producer struggles under a load of debt and mortgage, whilst the non-producer frequently lives on the fat of the land. Money in its present form is truly the root of all evil, making wealth as it does without itself producing anything.

All the capital in the world would not feed one starving infant without a worker, yet this capital exacts a staggering toll from the producer. Where is the high cost of living coming from? Is it necessary to answer so simple a question? Our friends say from the shorter hours, etc., of the worker. How many people stop to think that the one-millionaire who has his money out at say 6 per cent, draws a toll on it every year of sixty thousand dollars, enough to settle a strike, and that when this self-made (?) millionaire dies his children (?) receive \$60,000 per year for the same one million, and their children likewise after them indefinitely? The system, aided by the war, has created many new millionaires. In fact the millionaire is out of date—the multi-millionaire and multi multi variety has superseded him. So great is the wealth of these long suffering gentlemen that the most extravagant spending cannot consume their interest, and it piles up capital on capital for still more interest, until the system possibly will automatically break itself down, but meanwhile a greater and greater burden is put on the producer; hence the cost of living.

Years ago, Andrew Carnegie declared his intention to die a poor man, but his money gained such headway that it was more than he could do. We of the labor party propose eventually to abolish the present form of exchange by eliminating industry after industry from the field of investment of private capital and substituting in its place gradually national capital. Capital nationalized bears no interest; to have each and all serve the state as each and all receives the service of the state (we jailed the slacker of war-time justifiably, and why not ostracize the slacker of peace-time?). To accomplish this it is necessary that the state gradually acquire all means of production—factories and machinery, railways, stores, etc.—in fact everything except that which we consume, wear and use for the necessities and pleasures of life. Service to the state the watchword of the people; service to the people the watchword of the state; each for all, all for each. Each worker or producer to receive the full value of his or her service—not equal pay. In this way a really clever worker, manager, farmer or inventor might acquire a moderate and well-earned fortune, but that fortune left to his or her heirs, having no field for investment, would quickly be dissipated unless the said heirs applied their own productive efforts to maintain it.

Our objective is to get for farmer, laborer, manager, factory hand, storekeeper, office clerk, etc., i.e. the producer, freedom from the fast becoming unbearable burden of present day privately owned means of production, or capital, if you will, to make the nation master of its own economic system instead of the system master of the nation. We want to leave a better world for the boys and girls, a world in which production will not require to be boosted by war, in which the moanest occupation properly attended to will supply the worker with the means to purchase a home and maintain a family in comfort; in which a shop girl will not find immorality a surer living, in which the sweat shop victim will be freed, in which the slum will be abolished, in which we do unto others as we would be done by.

For this effort Socialists are being grossly misrepresented and persecuted by the privately owned press. Legislators representing privately owned monopolies more than the people, have robbed even the colleges of our literature, thereby proclaiming their contempt for the peoples' judgment and themselves better judges of good literature than our most learned. Socialists are being cast out of church, out of the legislature and even into jail as in days of old, reminding us of the quotation, "Right

forever on the scaffold, wrong forever on the throne, yet that scaffold sways the future of the dim unknown," and government ownership is coming to the downfall of capital, inevitably coming the wide world over.

It is difficult to treat this large question even decently in so limited a space, but your objections might be further discussed with the kind permission of The Review.

SOCIALIST.

The Editor, Summerland Review.

Dear Sir—I would like to correct a point or two in regards to a recent motor accident, which appeared in last week's paper.

It would almost appear by the article that was in the paper that if I had not stopped nothing would have happened. The parties that were in the accident were never near my car; they were across the road from me. And there was no need of a car to swing to the right to miss mine, as I left the track clear.

Yours truly, GORDON ROBERTSON.

An unsigned letter on the above-mentioned accident was received this week, whether for publication or not it was not stated, but as the writer did not reveal his identity the item cannot in any event be published.
