SUMMERLAND, B.C., FRIDAY, FEBRUARY 6th, 1920

GOVERNMENT AID FOR HIGHWAYS COMING SOON

New Policy Relating to Municipal Highways

Victoria. - One of the most important measures to come from the department of public works during the present session will be an amendment to the British Columbia Highway Act.

The general design of the bill will be to establish a definite system of co-operation between the municipalities and the government in the matter of highways in general. It is intended that provincial highways shall be divided into three classes. Primary highways will comprise main trunk roads through municipalities. Secondary highways will be of the semi-trunk variety and of less general importance than primary highways, while local highways or laterals will comprise such highways as are not in either of the former two clas-

In connection with primary highways, the measure will definitely establish the proportion of cost of construction and maintenance to be borne by the government and municipalities. In this case the government will contribute 75 per cent. towards the construction and maintenance of the primary road, while the balance of 25 per cent. will have to be contributed by the municipalities.

In the case of secondary highways the cost of construction is to be dividid equally by the municipality and the government. The cost of maintenance, however will involve a 60 per cent. liability on the part of the municipality, and 40 per cent on the part of the government.

In explaining the reason for this general classification and apportionment of costs in the matter of provincial highways, Dr. King stated that it would do away with the present report of the canvassing committee "hit or miss" methods, which enabled was presented by J. L. Logie. Absome municipalities to get an undue out \$9,000 had been subscribed to unate. He characterizes the bill, therefore, as in the nature of "guid- cluded. ing" legislation, by which the municipalities will understand that all may appraoch the government on an erect the plant and finance a season's equal footing as determined by stat-

The minister likewise points out that the proposed measure is intend-structed to endeavor to attain this ed to dovetail into and facilitate the minimum. operation of the Dominion Highways

FIRST LEAGUE GAME IS CLOSELY CONTESTED

The first of the Summerland-Pen ticton-Kelowna basketball league games was played at Penticton last ticton. The game is described as and provisional directors were apnight between Summerland and Penhalf time the score was 8-8 and at ated, of whom the following five very even and very rough. \mathbf{At} full time 16-16. Five minutes over time was played in an effort to reach a decision but again the score was even, 18-18. In a further five minutes of playing Penticton was able to gain 2 points, making a score of 20-18 in favor of Ponticton. The next league game will be played here between Kelowna and Summerland on Thursday evening

On Monday there was a game between the Summerland and West Summerland boys in the College C. P. R. Building 500 Refriger-Gymnasium, in which the town team was defeated, .West Summerland scoring 27-17.

LÈCTURE COURSE FOR

J. Tait before the pupils of the Cen- western lines for the C. P. R. recenttral School this afternoon. He will ly. These cars, Mr. Coleman told ogation. This is one of a series of take care of the fruit harvest of this being arranged by Principal Mac sion which the railway anticipates.

NEW TAX RATE WILL BE HIGHER

New Loans and Higher School Costs Will Require Higher Levy

That there will be a marked inrease in the Summerland tax rate for 1920 is an absolute certainty. Just what the rate will be is not yet known as the estimates have not yet been concluded.

The tax rate is made up of three items, a rate for general municipal purposes, another for the purpose of raising money to help make up the annual interest on the bonded indebtedness and to provide a sinking fund to meet the bonds at maturity. A third item is the school rate. All three of these are likely to be in-

creased this year.

The School Board, though it has not yet prepared its estimate, is likely to require about \$20,000, practically double that asked of the taxpayers a year ago. As a result the school rate is likely to be 16 or 17 mills as compared with 9 mills last year.

Bonds totalling considerably over \$100,000 have been issued during the past few months. Interest and sinking fund must be provided on this increased indebtedness, necessitating a further annual call on the taxpayers. Some increase in the general municipal rates is also probable. It would appear therefore that a tax rate of 44 or 45 mills will be needed to meet the increased expenditure, as we understand there has been no material increase in the total assessed value of taxable lands. Last year the rate was 33 mills.

DIRECTORS FOR **CANNING CO**

Another cannery meeting was held Monday afternoon under the auspices of the Farmers' Institute when a share, while others were less fort- the capital of the proposed company, the canvass not then having been con-

- Following a discussion on the question of the capital necessary to pack it was decided that \$20,000 in actual capital should be secured and the canvassing committee was in-

Mr. Bickford, who was present. read a letter from a Vancouver wholesale house assuring him that there would be no trouble in disposing of the pack. Mr. Bickford further stated that banks would be ready to advance money on the pack in warehouse pending sale.

The meeting decided to proceed with the organization of a company, pointed, eight citizens being nominwere elected: M. Steuart, J. L. Logie, O. F. Zimmorman, C. A. Walter, and E. R. Agur.

The directors were authorized to obtain an option on the site and were authorized to purchase some used machinory on which an option had been obtained, provided same was, found to be satisfactory.

PLENTY OF CARS FOR FRUIT CROP OF 1920

ator Cars for B. C. Traffic

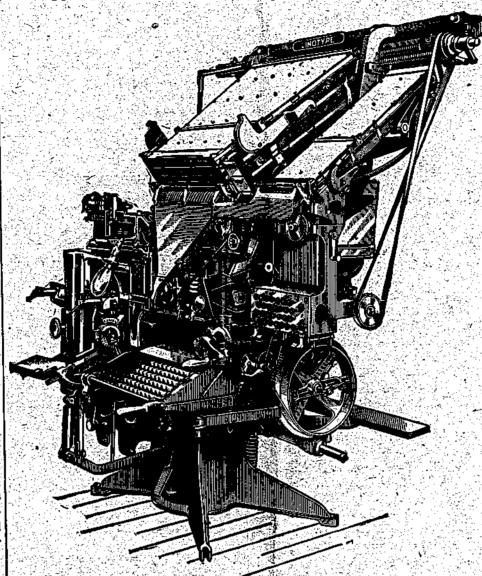

Vancouver .- Five hundred new refrigerator cars are now being constructed at a cost of \$1,500,000, and these will take care of the British CENTRAL SCHOOL Columbia castward fruit trade over the Canadian Pacific Railway, ac-Demonstrations in budding and cording to the announcement made

REVIEW INSTALLS TYPESETTING MACHINE OF LATEST MODEL

LOCAL NEWSPAPER AND JOB PRINTING OFFICE NOW ON PAR WITH BEST EQUIPPED CITY PLANTS

Our New Model Fourteen Linotype

The Linotype is the most practical and efficient machine yet invented for the printer's use. It is operated from a keyboard similar to an elaborated typewriter, having three banks of keys for capitals, lower case, small capitals and also char-The letters are cast from separate brass moulds which drop from their channels at the touch of the keys and assemble themselves in a slot the length of the line. Between each word a wedge of steel called a "spaceband" is dropped and automatically the machine presses in the wedges to space out the line to make it exactly full.

The line now goes into the mould where the molten metal is forced in by a piston operating in the bottom of the metal pot. Round goes the wheel and out comes a slug, which is the printer's name for the cast line of type all ready to go into the column in the form being made ready for the press. Each line in the newspaper thus consists of a solid bar of metal with the type running along the top edge. When these lines are once used they are dumped into the pot and melted up again.

The Model 14 installed in The Re-| seconds, the range of these being limview office carries four magazines, ited only by the quantity of extra eqeach containing type molds, known as uipment which an office may install. matrices, and each "mat" in the three rived here about three weeks ago standard magazines having two and further parts have been coming molds, any one of which may be forward by express. brought into use almost instantly. Some idea of the range of this mach- otype machine in the interior of ine is shown on this page, every letter B.C. of this model except one of which, except the main heading which has just been installed in the has been cast on slugs by the new office of the Nelson Daily News. use by a change requiring but a few to operation.

NEW DIOCESE OF

Proposal Before Provincial Synod to Divide See of Kootenay

Consideration of a resolution sub mitted to the second provincial Anglican Synod, in session at Vancouver last week, relative to the division of the Diocese of Kootenay, was referred to the executive committee, with the request that the whole question of the boundaries of each diocese in the province be investigated with a view to alterations. A report of the findings will be presented at the next sitting of the provincial synod.

The Bishop of Kootenay introduced the petition, stating that it was unanimously agreed by his synod the export fruit trade. Prospects that the only way of ensuring efficient work among the people of the Kootenay and Okanagan districts was to divide the diocese into two parts, one to be known as the Diocese of Okanagan. He made it clear that only one bishop would be required to carry on the work of the two sections. All that was desired centres, which was not a possibility pointing out that in view of the keen was common synods with natural at present. As stated above, the question was referred to the executive committee for full investigation as to the rearrangement of the dioceses of the province.

The Ladies' Auxiliary of the Summerland Hospital Society has received from the Summerland branch of the Red Cross the sum of \$63, and from the Naramata Red Cross a cheque for \$50, both of these donations being contributed toward the furn ishing of the temporary hospital.

HIGH SCHOOL PRIN. RESIGNS

Principal D. H. McIntosh, of the High School has tendered his resignation to the School Board to take effect at once. His resignation came p for consideration at the regular meeting of the Board on Wednesday evening and was regretfully accept-

Chairman Wright was not present being in attendance at the Board of Trades Convention at Vancouver.

The resignation of Mr. C. D. Denton was read, as was also a request from him for a month's sick leave allowance in which he asked that his salary be paid to March 1st. It and his resignation were laid on tha table to be considered at an adjourned meeting next Tuesday.

Communication was received from the Provincial Board of Health pointing out the possible danger of smallpox obtaining a foothold in the province and suggesting vaccination as a precaution. It may be that every child of school age will have to be vaccinated to be allowed to continue at school.

The Secretary reported that the janitor at the Central School buildings had asked for in increased salary to \$900 per year. Consideration of this was also left over until Tuesday, whon it is expected that the chairman will be present.

The following accounts were ap-

proved for payment:

SAD DROWNING ACCIDENT

Salmon Arm. - Margaret, Warron and William Fordham, three childron of a widow, were drowned in Shuswap Lake last Sunday, in an endeavor to rescue an older brother, Stlas, who had broken through the ice. Silns was rescued.

OKANAGAN GREAT OPPOR-TUNITY FOR B.C. FRUIT EXPORTS

Recent Shipments Create Favorable Impression in U.K.

The opinion was expressed by Mr. C. W. Baxter, fruit commissioner for the Dominion Department of Agriculture, when addressing the Western Canada Fruit Jobbers' Convention, that the present time is distinetly British Columbia's opportunity to establish itself firmly in for the industry are very good all over Canada, he observed, but particularly so in this province. The exports of apples from British Columbia to the United Kingdom had created a most favorable impression, the boxed products comparing well with any other offered.

Mr. Baxter sounded a note of warning in connection with packing, competition vigilant care must be exercised to retain the high prestige already gained by last year's ship-

The fact that heavy frosts damaged a large proportion of the eastern fruit crop for two seasons and that the production languished considerably during the war gives the western growers a big advantage at present, he added.

WILL AWARD LOCAL MAIL CONTRACTS SOON.

Post Office Inspector Visits Summerland to Arrange Details

Assistant Post Office Inspector Clark was a visitor to Summerland this week in connection with the awarding of several local mail contracts Some time ago tenders were invited for the rural route, for carrying the mail between the K. V. R. and the post offices and for the service between the two post offices. would seem that the figures tendered were all higher than Ottawa was prepared to pay, hence the delay in awarding the contracts.

While Inspector Clark made no statement as to who would be given the contracts, it is believed that the rural route will go to A. E. Smith, who has been continuing on the route under the Thompson contract. He is also likely to get the contract for the service between the local post offices. T. H. Riley has been carrying the mail between the K. V. R. and the post offices, and it is probable that he will be given the new contract.

Matters had reached a climax with regards the Rural Route when Mr. Clark arrived. On the day before Mr. Smith had declined to continue on the route, and in order that the service might not be interrupted. Postmaster Hayes hired a car and distributed the mail that day.

Mr. Hayes has recently had fitted up on the lower floor of the post office building a neat and convenient sorting room for the rural route courier.

THE SUMMERLAND STORAGE COMPANY

It is expected that the "Summerland Storage Company" will soon be an accomplished fact. The directors of the Fruit Union have taken the initial stop to accomplish this. In a very short time now the growers of Summerland will be invited to subscribe for stock, elect a regular board of directors and push forward the matter of providing strictly first class storage accommodations, sogreatly needed if our increased crops of apples are to be saved from loss by freezing.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

After spending several weeks visiting in the home of Mr. and Mrs. Hardisty, Mr. and Mrs. D. Baker left on Wednesday morning of last

Ralph Brown of Summerland spent Wednesday of last week in this vicinity in connection with his duties for the Soldier Settlement Board. Coming up on the morning boat he paid official visits to settlers here and at Glenrosa, catching the boat here in the evening.

Mrs. E. Aitkens returned last week after a pleasant holiday spent visiting friends and relatives in Vancouver.

Messrs. H. Hardy and Wm. Douglas were passengers south on Wednesday evening of last week, having been appointed by the Fruit Growers' Union to investigate fruit handling and shipping facilities down the

Wm. Duke, the "strong man" and "handcuff king," spent Thursday of last week in town having come in on the Wednesday evening boat. As

advertised he gave a free exhibition on Main street by having an auto run over him. After the auto passed over his thighs the strong man jumped up apparently unhurt. In the evening he gave a very interesting demonstration of strength and agility. Mr. R. H. Huston and George Robinson undertook to tie him up in the rope and it took him twenty-five minutes to get out of the ties and hitches. It remains as a puzzle to the audience as to how he got out of the handcuffs, leg irons and chains which were padlocked on him, but he did it. By the attendance a number of citizens did not think the performance worth going to, but those who went felt that they had their money's worth.

A number of the young people of the community took advantage of the good sleighing on Wednesday evening of last week and got out with a full team load for a good ride. They hauled in at the home of Mrs. A. Town and enjoyed a dance till well on in the evening when they again resumed the sleigh ride.

Mrs. Boothe, of Penticton, with her little daughter came in on the Thursday morning boat last week and is visiting at the home of Mrs. A. Town

Mrs. Symes is spending a short time in town attending to some business in connection with the estate of her father, Mr. Garraway. She is a guest at the home of Mr. and Mrs. A. D. Ferguson.

Mr. Will Aitkens has been suffering for some time from the result of having his feet frost bitten, and finally had to go over to Kelowna on-Friday to undergo treatment.

After spending some time here with his brother, Mr. W. Sootheran left on Friday en route for Invermere, B. C., where he goes to take up duties in the experimental station there. He is to have charge of the poultry and bees, a line which he is familiar with, having followed the same on the farm at Ottawa.

After a short heliday spont at the foot of the lake, Mr. Sanburg returned on Friday morning last to resume work at the sawmill,

Mr. Willis who has recently purchased the Wolch property, where Mrs. Reed has been living, came in on Monday morning. He bought Mrs. Roed's house furnishings and she with the two children left Tuesday morning to return to Winnipeg.

Mr. M. D. Ross was a passenger south on Friday returning on Saturday.

There was an "old time" dance in the Orange Hall on Friday night gotton up by the Veterans, which proved to be quite an enjoyable affair. The attendance was good and each came with the idea of having a good time. They had it. The music was supplied with a violin, banjo and plano, and an occasional piece rendered by the gramophone. Light refreshments were served during the ovoning.

The Friday night draw of the checker tournament resulted as follows: Mr. Dryden and C. G. McDougald-McDougald 8, Dryden 1; Mr.

Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. Inthis they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material. our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

THE NEW HIGHWAY POLICY

Maintenance of the many miles of highways in such communities as Summerland and Peachland has been fast becoming an increased burden on the tax payers. Increased production occasioning greatly increased traffic is putting an ever growing burden upon our thoroughfares. This greater wear, together with growing costs has been mounting up as an increased tax. Then again for the past few years there has not been the same measure of Province aid as was previously enjoyed, and because of the lack of policy or certainly a policy that was considered fair to the Municipality, the main trunk roads have gone unrepaired or have been kept in a certain stage of repair at the expense of the Municipality. The announcement made at Victoria and published in these columns respecting a change of policy on the part of the Government made possible by the Dominion Highways Bill will be cheering news to those responsible for the financing of our municipalities and not less welcome to those who use our roads and to the taxpayers.

THE FUNCTION OF THE AGRICULTURAL COLLEGE

The services that may be performed by the agricultural colleges in Canada in the upbuilding of a sound rural spirit, as viewed by the presidents of these institutions, are graphically outlined in the January number of the Agricultural Gazette of Canada, published by the Department of Agriculture, at Ottawa.

Dean Clement, of the British Columbia College of Agriculture, feels the need for more and better leaders on behalf of the rural community life and that the effort must be to train and educate men in such a way that the light of their inspiration and methods will reflect from their farms and permeate the whole community.

Valuable assistance will be rendered the Summerland Hospital Society by the action of the Unity Club, Naramata, in furnishing a room in the Summerland Hospital. The neighborly spirit of co-operation thus manifested will be as much appreciated by the general citizen as by each member of the Hospital Society. The Hospital has at times past proven of much value to the citizens of the sister town of Naramata, and with a ward furnished by that energetic women's club the people of Naramata will have a feeling of real ownership, in Summerland's proposed new and better Hospital.

LEAP YEAR POETRY

Tell us not in idle jingle "marriage is an empty dream;" for the girl is dead that's single, and things are not what they seein. Life is real, life is ernest, single blessedness a fib; "man thou art to man returneth," has been spoken of the rib. Not enjoyment and not sorrow is our destined end or way, but to act that each to-morrow finds us nearer marriage day. Life is long and youth is fleeting, and our hearts, though light and gay, still like pleasant drums are beating wedding marches all the day. In the world's broad fields of battle, in the bivouac of life, be not like dumb driven cattle-be a heroine, a wife! Trust no future, however pleasant; let the dead past bury its dead; act-act in the living present, heart within and hope ahead. Lives of married folks remind us we can live our lives as well, and, departing leave behind us such examples as shall "tell"-such examples that another, wasting time in idle sport, a forlorn unmarried brother seeing, shall take heart and court. Let us, then be up and doing, with a heart on triumph set; still contriving, still pursuing, and each one a husband

BUILDING MUCH NEEDED WHARF

The construction of the new wharf is now under way, much to the satisfaction of the citizens of this disby 182 feet, with a warehouse 20 cline instead. Whether this will be uipment to carry on the work. satisfactory or not remains to be seen. As all of the buildings are now removed there is no housing for freight or express, which makes it very inconvenient.

TO FURNISH ROOM IN HOSPITAL

ternoon to discuss ways and means near future. of furnishing a Ladies' Unity Club room in the new Summerland Hospital. It was decided that this be done and plans for raising funds were made. Mr. F. C. Manchester offered to direct a concert to be put on in March, and his offer was accepted. This will be a musical review and it will appear in both Naramata and Summerland, with a possibility of Penticton as well. A working committee was appointed composed of Mrs. Freda Nuttall, Miss Gladys Robinson and Mrs. Howard Rounds. Further news in regard to this atfair will appear soon.

FIRST SOCIAL AFFAIR WAS HUGE SUCCESS

That the G. W. V. A. of Naramata is a very much alive organization was proven conclusively to the large number of guests that were fortunate to attend their opening dance in the Fruit Union building on Thursday night. The boys had all work ed hard to make their quarters at tractive and comfortable and not a detail was lacking when the doors opened to admit the crowd. A large number attended from Penticton and the ferry was loaded to capacity with the delegation from -Summerland The scheme of decoration was composed of flags and bunting and lighted Chinese lanterns. A most efficient system of checking coats and wraps was established. The ladies of the community furnished the eatables which were plentiful and of splendid quality—the kind that mother used to make predominating, During the evening Mr. Lawrence, the president, thanked the guests for their patronage and appreciation very nicely. All were loud in their day of February, 1920. praise of the music, which was furnished by the Novelty Dance Orchestra, composed of F. C. Manchester, Mr. T. Kenyon. These social affairs mitting. will be every two weeks, and the money will be used by the G. W. Y. A. for carrying on the work of their society in this district.

CANNERY INTERESTS NARAMATA FARMERS

The regular meeting of the Farmers' Institute was held at the Unity Club building Monday night with a large attendance. Mr. R. V. Agur, director of the B. C. Fruit Growers' Association for this district, Mr. Mc Lachlan, delegate to the B. C. F. G. A. convention at Vernon, Mr. J. Tait and Mr. Lawler of Summerland were all present. Mr. Agur and Mr Mc Lachlan gave a most interesting talk on business taken up at the convention and on work of importance to be done this season. Mr. Tait told of the cannery to be started in Summerland, and we were glad to learn lb. that it is to be a growers' concern. Mr. Lawler spoke of fruit conditions lor and more No. 1 in apples, which he said means more pruning and thin- vice, a grant in aid of operation of members here, which is now over pared to operate this ferry for. forty, and thought the untiring eforts of Mr. Partridge in procuring them was largely the cause of our

Two resolutions were passed at the meeting, one protesting against the owning and leasing of land by Orientals in B.C., and the other that we have a Naramata delegate to the B. C. Growers' conventions. The regular business of the Institute was transacted after the speakers of the evening had departed for Summerland.. The principal things under consideration were the slip dock and the sending of a delegate to the Agricultural Council in Victoria. It SUMMERLAND

> The United Farmers of B. C. were organized on Wednesday evening, at which time Mr. S. T. Elliott, of Kelwna was present and spoke for the organization, explaining its aims and objects, and the value of such an association to the community. The following officers and directors were elected: president, Mr. Rayner; vicepresident, Mr.F. C. Manchester; secretary, Mr. R. Gamman; directors, Mr. Kenyon and Mr. Routh.

The Women's Institute held their egular meeting at the Unity Club ouilding on Tuesday afternoon. After a short business session the ladies were favored with a piano solo by Mrs. Green and a vocal solo by Miss Seevers. Roll call was answered by favorite Bible texts. A most interesting paper on the goat industry was given by Miss M. Gordon.

To-day is the to-morrow that you worried about yesterday and it never happened.

OKANAGAN DISTRICT.

Ferry, Summerland-Naramata, Okanagan Lake.

In accordance with chapter 85, R.S.B.C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as Naramata, a distance of about two miles and three quarters.

Applications will be received up to 12 o'clock noon, Monday, 16th

The charter will cover a period expiring on the 31st March, 1921. The ferry shall make two trips A. Peck, Mrs. F. C. Manchester and each way every day, weather per-

> Applicants shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Canada Shipping Act, 1906," and amending Act.

The following is the schedule of rates:--

Autos, \$1. Single rigs, 75 cents; loaded \$1. Double rigs, \$1.25; loaded \$1.75. Passengers, 10 cents single. Passengers, 5 cents single (under

Settlers' tickets, fifteen for \$1. Horses, 50 cents; two or more, 10 cents each.

Cattle, 40 cents; two or more, 80 cents each. Pigs, sheep, colt, calf, 80 cents;

two or more, 25 cents each. Freight, per 100 lb., 10 cents; per ton \$2.

No charge for parcels under 25 To the successful applicant the

Government of British Columbia for next year and called for less co- will pay, at the expiration of every three months of satisfactory serning and earlier picking. Mr. Agur this forry, and each applicant should congratulated us on our number of state the amount of grant he is pre-

The Columns of THE REVIEW are open to the public for the discussion of matters of gen-eral interest. No notice can be taken of anony-mous communications. Letters intended for inmous communications. Letters intended for in-section must be authenticated by the name and address of the writer, not necessarily for publica-tion. The opinions of correspondents are not necessarily those of the Review.

Summerland,

The Editor, Summerland Review.

Dear Sir: An advertisement appeared in your last issue under the names of three tradespeople announcing that they had by "mutual agreement." decided to discontinue the allowance of 5 per cent. on cash sales and monthly accounts, and in an editorial you commend them for this, apparently on the assumption that they will now reduce their net prices. You may have inside knowledge that this is their intention, but the advertisement does not say so, which it surely should have done if they so intend. We consumers will live in hopes, but at Vernon, which include 13,000 ac-I venture to think that if these hopes are not justified by events, outside purchases will continue to grow with increasing rapidity.

It is notorious that a large amount of Summerland money finds its way to neighboring towns, and if the lips of local post office people were not officially sealed, I fancy they could give us startling figures as to the amount that goes to mail order houses. Now, it is much less trouble to telephone a local shopkeeper (to say nothing of the personal touch) and have the goods delivered the same day, than to write a letter, obtain a money order, and wait some days or weeks, or travel some twenty miles or more and bring back the goods, so the purchasers really must find that, personally, it does pay them to buy out of Summerland, notwithstanding the dictum on your issue of January 23rd, that "it pays you to deal in Summerland." People do not go to this extra trouble just for the fun of the thing. Just to give one instance: During the last six or eight months I have only made one purchase out of Summerland and in that case I got for \$32.95 (including the freight) what I was asked \$55 for locally. True I got the goods at the wholesale price, but this should not account for so much difference.

It is a great pity that so much trade, which could be done locally, should go elsewhere, as, in the end, the community as a whole is the loser, but so long as things are as they are I fear your reiterated advice to be "loyal to your community" will fall on deaf ears. At present it on ly creates a smile. It might be well, therefore, if the three tradespeople in question (and others) once more got together and by "mutual agreement" decided that they would make strenuous efforts to stop or reduce this outside trade by offering better inducements for the people to shop at home, both in regard to price, variety of goods and attractiveness of display. It is possible to do this to the mutual advantage of both sides. If the tradespeople increase their trade they can afford to reduce prices since their overhead charges would not increase proportionately, but as things are now they must reduce prices first, and increase the varicty of goods, before they can recover the lost trade. In a word, it is up to them to prove that "it pays to deal in Summerland." I make bold to predict that if some such step is not taken they will, ore long, have another competitor in the shape of a co-operative store. Several people have suggested this to me, showing that the idea is now in the "bud" stage and may, under favorable conditions (such as it is now receiving) maturo into "fruit."

My excuse for troubling you with so lengthy a letter is that I consider the matter a very important one to us as a community. Larger issues are involved than the purely personal one, such as the broadening of the burden of local taxes, but I must not now onter upon that subject.

For obvious ronsons I prefer to withhold my name from publication. Yours truly, CONSUMER

MUCH GROUND

FOR OUR WORRY

American Okanogon Paper on Oriental Activities Here

The Oroville Gazette, published in this Valley just south of the international boundary comments as fol-February 2nd, 1920 lows on the Oriental question in the B. C. Okanagan:

> The people of our neighboring towns of Penticton and Summerland only a short distance across the line in British Columbia, are very much wrought up over the activities of Orientals in obtaining orchard and city property in and around these municipalities. And there is much ground for this worry, as recently Japanese have purchased some of the best orchards around Summerland, and Chinese have become owners of some of the best inside property in Penticton. It is also given out that a syndicate of Japanese are negotiating for the purchase of the Coldstream orchards res, and is one of the most beautiful- 'Phone 93

ly situated improved tracts of land in British Columbia. If this accumulation of the choicest lands by Japanese and Chinamen continues, the white population of these cities will be crowded out of the country, for white men cannot live and prosper where the bulk, or even a small percentage of the population is Orien-

The poor residents of Bahia, Bra zil are to have their teeth treated absolutely without charge.

The Soldier Settlement Board has decided to open a district office at Vernon, providing suitable accommodation is available. The new office will handle the business of the "upper country" thus relieving the present strain at Victoria and Vancouver.

AUDITORS' REPORT TO SHAREHOLDERS

We have compared the above Balance Sheet with the books and accounts at the Chief Office of The Dominion Bank, and the certified raturns received from its Branches, and after checking the cash and verifying the securities at the Chief Office and certain of the principal Branches on December 31st, 1919, we certify that, in our opinion, such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs, according to the best of our information, the explanations given to us and as shown by the books of the Bank.

the Bank.

In addition to the examinations mentioned, the cash and securities at the Chief Office and certain of the principal Branches were checked and verified by us at another time during the year and found to be in accord with the books of the Bank.

All information and explanations required have been given to us and all transactions of the Bank which have come under our notice have, in our opinion, been within the powers of the Bank.

THE DOMINION BANK 564

SUMMERLAND BRANCH,

O. F. ZIMMERMAN,

Manager.

THE DOMINION BANK'S GAIN IN DEPOSITS

Indication of Prosperity and Increased Public Confidence

"The Dominion Bank enjoys a wide connection with the farming community and having so many accounts of both borrowers and depositors amongst the farmers, live stock dealers, cheesemakers, dairymen, etc. its annual statement will be of special interest to those engaged in such business."

To see a substantial increase in the deposit account of any of Canada's Premises Account \$300,000, or an chartered banks is in a twofold respect a matter for gratification, rethe prosperity of the people of the country, and on the other hand the confidence of the public in the institution with which they place their by about \$50,000. surplus funds.

That the Dominion Bank had an experience of this kind during the last year, is evident from the statement submitted to the shareholders at the Annual Meeting held in Toronto on Wednesday, January 28th, the

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to sur-veyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Fartnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective

with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not, less than 5 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS

price, is made.

PRE-EMPTORS' FREE GRANTS

ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retractive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 20, 1918. Taxes are remitted for five years. Provision for return of moneys accrued, due and been paid since August 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members of Allied Porces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1926.

SUB-PURCHASERS OF GROWN

BUB-PURCHABERS OF CROWN

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not olaim whole of original parces, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1019, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing-permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Pres, or partially free, permits for settlers, campers or travellers, up to ten head.

deposits at December 31st being in excess of the corresponding date of the previous year by \$15,307,000. The total deposits amounted to ag

\$111,414,000. As a matter of fact, there was an all round improvement in the Bank's position during the year. Net profits made a gain of \$83,205, the total standing at \$1,169,703, or 9 per cent. of the capital and reserve.

In the distribution of these earnings, the sum of \$780.000 was alloshortage and lack of boxes, 50,000 cated to the shareholders in the form of dividends at the rate of 12 per cent, per annum, and a-bonus of 1 per cent. After writing off Bank amount of \$50,000 more than the year before, and contributing \$40.500 flecting as it does on the one hand to Pension, Patriotic and other funds the Bank was able to carry forward \$495,700 to profit and loss account, a sum in excess of the previous year

expansion is to be found in the commercial loans, the total at the end of the year being \$66,400,000, which is in excess of that of the corthan \$2,328,000.

The total note circulation at the 1918.

KELOWNA PRODUCE TO-TALS OVER TWO MILLION

Kelowna. - According to statistics gathered by District Field Inspector T. M. Anderson, department of agriculture, the following were the freight shipments of fruits and vegetables from Kelowna during 1919. These are exclusive of shipments by express:

Crab Apples	75,000
Plums and Prunes	
Cherries	39,000
Peaches	25,000
Apricots Tomatoes	4,000-
Tomatoes	50,000
	lbs.
Onions 1	0,500,000
Potatoes	1,000,000
Values have been calc	ulated on a
onservative basis, takin	
ge for the season, and t	he result is
Fruit\$	1.750,000
Tomatoes	\$25,000
Onions	\$400,000

\$2,200,000 Total -Mr. Anderson's revised estimate of loss on apples places the quantity at 100,000 boxes, chiefly through car

Potatoes

boxes through frost. The total value of these shipments including an estimate of the value of express shipments, shows that the Kelowna district produced \$2,500,000 worth of fruit marketed.

EFFECTIVE METHODS OF MOTH CONTROL

A tribute to the efficacy of British A striking feature of the Bank's Columbia's success in exterminating statement was an increase of the the codling moth pest by quarantine sum of \$6,546,000 in the immed-methods has been given by Mr. P. S. iately available assets, the total of Darlington, district horticulturalist these being \$70,075,000, a sum equal at Wenatchee, Wash., in an address to 54 per cent. of the liabilities to before the Fruitgrowers' congress at the public. Cash assets alone at Spokane. Mr. Darlington pointed \$31,903,000 made a gain of not less out that British Columbia had exterthan \$3,405,000 during the year. minated the pest and produced 300 Total assets \$143,500,000 are about cars of moth free fruit in 1918 from \$10,000,000 greater than a year ago. 40,000 acres of orchard land, while An evidence of the Bank's business in the same year Washington spent \$1,500,000 in control methods and suffered a \$4,000,000 loss in the orchards from this pest.

responding period of 1918 by not less end of the year was \$9,525,000; or \$332,000 less than at December 31,

THE WEST REVEALED

William Russell, the popular ath letic actor, has a big, swift moving outdoor drama in "Where the West Begins" to be shown at the Rialto on Thursday next. It is produced by the William Russell Productions for the American Film Corporation, Inc., under the direction of Henry King and distributed by Pathe.

"Where the West Begins" is a wholesome comedy-drama. In the principal supporting roles with Mr. Russell are Eileen Percy. J. Cullen Landis, Frederick Vroom, Carl Stockdale and Alfred Ferguson. The story is of an eastern lad, who is duly shown by a brisk westerner that life is just what you make it. Russell creates enough excitement for the easterner, to say the least.

The action of the story transpires first in the east and later in the great outdoors, the glorious West. Mystery, adventure and romance - the three most essential elements when properly woven together.

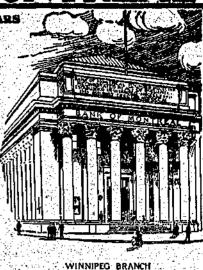

And when the leading role is played by such an artist as William Russell the result is an interesting and inspiring photoplay.

New Zealand plans to spend ab out \$2,500,000 in the development of its water power resources.

Vernon has just raised \$8,800.00 as the result of a drive to secure funds for the Vernon Jubilee Hospital. It is proposed to make certain necessary repairs to the building and to pay off the Hospital's debts, to assist which a government grant is being sought.

Consistent Saving

The systematic and consistent saving of money, is a duty which devolves upon every one of us. The Bank of Montreal will open Savings Accounts on receipt of \$1 and accept thereon deposits of \$1 and upwards.

E. J. WHITE, Manager, . WEST SUMMERLAND BRANCH. Branches in Okanagan District: Armstrong, Enderby, Kelowna, Penticton, Princeton, Vernon. Sub-Agencies at Summerland and Naramata.

New Fish Market

I beg to announce that I have opened a Fish Market in the T. B. Young building, and am making regular deliveries.

I am carrying Fresh Supplies of

Salmon, Halibut, Cod, Herring, Smelts, Soles, Skates. Also Bloaters, Haddies and Salt Cod.

H. CALLOWAY.

SOARING

The price of Boots and Shoes continues to climb higher and higher as the wholesale prices of last Fall are being felt by the retail merchants.

As I explained to the Public of Summerland a short time ago Boots and Shoes on September 1, 1919, took an advance of 40, 50 and in some cases 60 per cent., having an effect on the retail merchants which caused a curtailment of purchases for the time being.

However, the consumer must be cared for and stocks have been depleted with the result that the retailer has been compelled to replenish at the high prices prevailing today and the consumer is now face to face with shoes frequently priced at \$15.00 and even more. Fortunately I was informed of the advance in sufficient time to visit Vancouver and place orders for delivery in the Spring now approaching at prices but slightly advanced on those then prevailing, and the prices I will show this coming Season will be in keeping with this saving. We have frequently been told by our patrons that our prices are the most moderate of any Store in the Valley, and others have inspected the stores of Vancouver and have returned to their home shoeman with equally complimentary remarks.

Our first care is to supply you with footwear of superior quality to the average that comes in from outside, our second is to supply it at moderate prices and our third to give you a service which with other advantages will persuade you to LEAVE BOOTS AND SHOES OFF when you are sending out mail orders.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

Seed Orders Winter Treatment of Fire Blight

Affected Trees Must Be Cleaned Up by March 31st

Fire blight is a well known disease. It is caused by trees becoming affected with bacteria known as ment in turning over the pages of bacillus amylovorus. This is a microscopic plant about 1-16,000th of tally picturing the fine crops one an inch long and about 1-45,000th will have next summer. Often, howof an inch wide, which grows just in- ever, the catalogue is laid aside withside of the bark of the tree, killing out the order being sent, and nothing the plant tissues. These bacteria further is done till spring, when it must be present for blight to exist. Cutting out "hold over" blight is the ired. The quantity available of the only means of preventing the disease. If all blight is cut out of the roofs, trunks and branches, and burned there will be no germs left. Without the germs we cannot have the discase.

Everyone should be interested in the control of bight. It destroys the blossoms, the tree and the fruit. The damage annually in the United States is quoted at \$25,000,000; in British Columbia it amounts to thousands of dollars each year. This loss can be practically eliminated by all growers cutting all of the blight out of their trees.

Do not let your orchard become a menace to the community. If you think cutting out blight and taking care of your trees does not pay, do not knock the business because vou are an unsuccessful fruit grower, but pull your trees out and use-the land for some other crop. Trees that are worth keeping are worth taking care of.

Method of Cutting in the Dormant

Remove all blighted branches and twigs, cutting well below the diseased area, not less than three inches. Cankers on large limbs can be taken out and the limbs saved by cutting the bark away to the sap wood. Always cut the bark away at least two inches above and below the infection and an inch at the sides, making sure that you are beyond any discoloration or sign of the disease,

Wnen there' are ____ diseased water sprouts, and suckers at the root always dig down and treat any portion of the root that may be diseased the same as you would any other good. While it is interesting to test portion of the tree. Root infections left untreated are directly responsible for the loss of a great many trees and are often the means of carrying infection over from one season to an other.

Disinfect your knife after each cut with corrosive sublimate at a so that there will be time to order strength of one part to 1000 parts of again if the germination is poor. Ofwater and disinfect all wounds. (It has lately been - recommended to treat the wounds with cyanide of mercury, one part to 500 parts of and one loses the crop. When there water. This is not effective on the

Horticultural Regulations

Sec. 6, subsec. 9, "Fire blight in fected trees shall be cleaned up during the dormant season by the proper cutting out of all blight cankers. This work shall be completed to the satisfaction of the inspector on or before the 31st of March. Blight infections during the growing season shall be dealt with as the inspector shall direct."

Cut out your blight now. After cutting out the blight, prune your trees and cut out any blight missed in the first cutting, and then give trees a thorough inspection and cut out any remaining infec-Burn all prunings.

REV. HENRY IRVIN. **ALIAS "FATHER PAT"**

(An Appreciation)

Though Ireland was his native land, And well beloved by him; He labor'd at his "Master's" work, Among our mountains grim.

No narrow dogma clogg'd his acts, The same to all was he, And many men, of many creeds,

Engaged his sympathy. He strove to rouse in erring souls,

Repentance deep and true; But ne'er forgot (while striving thus)

That men have bodies too.

And whensoever pain, or loss, Compell'd the groan, or tear, That pain, or loss, was soon reliev'd When "Father Pat" was near.

The Pioneer in lonely hut; The Miner in distress;

Had often cause — with swelling heart-His helpfulness to bless.

The ragged Tramp, and broken "Sport."

His bounty oft confess'd; And onward trod the weary trails, In Irwin's garments dress'd.

By those who knew, (and knowing loved) The man we all rever'd

A monument, at Rossland, was To Henry Irwin rear'd-And even when that monument

Shall crumble in decay, The impulse of his deeds will live Till Earth's remotest day.

S. J. McGIRR. Peachland.

West Summerland, B.C. February 10th, 1920

The Editor. Summerland Review.

Dear Sir:

Replying to a letter in the columns Dear Sir: of your last issue written by "Consumer," may I remind that gentleman (I presume that is the sex of the wrimost of us also producers, and the day is fast approaching when the consumer who is not a producer (the man who lives on "interest") will be regarded as "a drone in the hive."

Too much is said of the consumer attached to the implication that he has a right to exist merely as such, a person whose interests are antagonistic to those of the producer, whereas he or she if playing a useful part in society is both consumer and producer, and not in a position to criticise either unless backed by personal efforts towards a much needed change in the social order.

I have applied the word produces as referring to all occupations useful to society. Friend Consumer seems to feel that he is not getting enough to consume (let us hope that he is good producer and grant him the be nefit of that doubt) and he is wor ried about the profits of local storekeepers which he has instanced by figures quoted to be 66 per cent. approximately. I wish I knew what business offers such an opportunity er who has the privilege of a thirty here. I might endeavor to get into day account should endeavor to pay it. Certainly no such profits are "profitably" available in my own lines and I very much doubt if any article over ten cents fetches that profit anywhere in Summerland.

Did Consumer pay the \$32.95 be fore he asked the price locally or after? Prices are advancing rapidly and I know of instances where one week has made a difference in wholesale price of 40 per cent., impossible though it may seem.

Consumer makes bold to say that the idea of a co-operative store is in the bud. No doubt he will invest heavily in it, when such wealth is so easily available and he has access to wholesale houses already at his disposal. I suggest without sarcasm and in the friendliest and sincerest of moods that our friend leave his present possibly unprofitable occupation and try storekeeping and apply the whole of his capital to it. Storekeepers of Summerland would welcome an enquiry into the profits they made during 1919 by any responsible committee and perhaps Consumer would not be adverse to a comparative enquiry into his own profits by the same committee and it will be remembered that other consumers pay both of these profits.

profits on fruit and jealous fruit grobut right minded men of both occupations are glad to see each earning a reasonably good living. Personally I am glad to see the fruit growers do well apart from any personal benefit I may derive and I hope they will be glad to see us do well, though I sometimes have cause to doubt it.

I know something of the several yearly turnovers of the stores. in Summerland and I know that they are large and also I know something of the yearly profits derived by several stores in our town and that they are not excessive even in the best years. I further know of one year when almost every store in Summerland showed a less, goods were sold in large quantities below cost, and there were other years almost as bad. In these years money was going out of Summorland just as it is now. do not know of any storekeeper who lives in a palatial home or who is able to squander money on himself.

The best homes in our community do not belong to our tradesmon. It the fun starts when Charlie tries to crank his car. The traffic scene is the funniest incident over shown.

has taken ten years of close living (and the reputation of being a tightwad) with the assistance of money in- CITY OF COMRADES made otherwise than in business to permit me to gather enough to purchase a home.

If jealosy animates friend Consumer we storekeepers invite him to jump in for a slice of the "melon" without further loss of time. If a bottor spirit animates him the experience will improve his opinion of Summorland's public servants and in the doubtful years to come possibly COMING .make him and us too sadder and wis- Feb. 20 and 21-True Heart Susie, ors in business just prior to the war Feb. 23 and 24—Back to God's or mon as it did thousands of othprosperity of our country. subject and subjects it touches upon, but I have already helped myself generously to your space, and I thank now, Consumer, what would you for ourselves in this regard we you for the privilege.

Yours sincerely, A. J. BEER.

West Summerland, B.C., February 9th, 1920. The Editor,

The Summerland Review, Summerland.

May I have the courtesy of a little space in which to reply to Consumer's letter, which I cannot but think not open to challenge. ter) that we are all consumers and was written in entire lack of knowledge of the facts and without a broad minded man's consideration of both sides.

> Just think things over again, Consumer, and when you have read this letter through ask yourself if you have been absolutely reasonable.

Too many people are inclined to sure you—don't they, Consumer? condemn the local business men, much, I imagine, on the principle of that certain Irishman who made it a practice of voting "agin the Government" always, and by so doing com-

mit an unwitting injustice. I might explain that the matter of abolishing discounts has been under discussion for some time by the three firms in question, and for the following reasons: No other store in their knowledge makes a practice of this system; the wholesalers terms to the retailer are short, varying in the main from spot cash to sixty days. Conforming to these terms is not made a virtue, but a grim necessity if they would continue in business.

Now is it not fair that the customup at the end of each month, as a duty, and without having to be bribed by way of discount to do so?

There is no one who is more deeply affected by the H. C. of L. that the merchant and no one who is more earnestly endeavoring to combat it than he, but what can he do when the wholesaler quotes him prices that he is ashamed to ask the consumer, not including the small profit he himself must have. Rest assured that if the abilishment of the cash discount permits him to mark his goods any low-

er, he will do so. Now right here, Consumer, we would like to impress upon you that it most certainly was the intention of the tradespeople in question to adjust the net prices accordingly, wherever possible. We invite you to study their advertised prices and after taking service into consideration, inquire where you can do better on as good a quality of goods, kept by any store running in similar conditions.

A good deal of discussion was given to the matter of explaining to the public about decreasing net prices, and it was finally decided to leave it out for this reason. As everyone knows general prices are on the rise, and it is more than possible in a great many cases that after de-Jealous wheat growers complain of ducting the 5 per cent discount the net price may have to be advanced wers complain of profits on wheat, instead of decreased to allow the merchant an even smaller per cent. of profit on his advanced cost.

Consumer says "better inducements must be offered in the way of

would venture to suggest that he can would gladly do so. Much more might be said on this have very little conception of the cost of carrying on a business, in- inducements to home buying in cluding overhead charges. Honestly, greater variety of goods. Speaking make it at a guess? We are just would say that we have increased through closing our books for six our stock in six months 150 per months and we know to our cost, cent. in an endeavor to give the puband our overhead is down to the min- lic better service, and as the pubimim now, unless we reduce our lic shows its appreciation of the assistants' salaries, and they must greater variety of stock to choose live, you know. Even you would from, will continue to do so. not consider that a business was charging exhorbitantly when it was making only 41/2 per cent. on the cost wish, and cannot prevent some mail of its total turnover. This may be order shopping.

> Probably some things can be brought in from the big departmental stores cheaper than they can be got locally. And besides these big stores always let you examine their goods before you buy, and when you need a little credit-"why, that discuss it with you, provided you

Summerland would be a pretty dead place if everyone dealt with the departmental stores, and there were no local stores.

Certainly the larger the turnover the cheaper merchandise can be sold, but it would be impossible for the merchant to run his business at a loss till the increased turnover should turn that loss into gain. Probably he would have assigned before that time would have arrived. Is not Consumer inclined to put the cart before the horse?

We are distinctly curious to know what the article could have been on which Consumer saved practically 67 per cent. If we had our stock marked at anything like that exhorbitant rate we could afford

In reply to this I to give a 20 per cent. discount and

Consumer then speaks of better

Of course it will be understood that your local merchants do not Some of the hue a surprising statement, but is one and cry in this matter is justified, and some is not. In a small town it is impossible to handle such a complete stock of drygoods and wide range of ready made wear.

Now if there is anything, Consumer, in this letter that you do not agree with, we would be glad to will be all right," they hasten to as- come out with a letter over your own name, since it seems to us that anyone having the courage of his convictions should not deem it advisable to conceal his identity under an assumed name.

Thanking you, Mr. Editor, for this space, we are.

Yours truly, SUMMERLAND MERCANTILE CO T. B. YOUNG.

WOULD PAY OUR TAXES

Canada could finance herself or could at least go far in paying all taxes by the output of her gigantic forests. Such is the substance of a statement made at an assembly of the Dominion Land Surveyors in annual session at Ottawa.

Some ten or twelve years ago it was claimed for this province that the time was fast approaching when the citizens The annual income from its would be free from taxation. great wealth of natural resources in timber, minerals, fish, etc., would be sufficient to meet governmental expenditures and thus there would be no need to directly tax the people.

We do not for one moment claim that this Utopian hope was beyond possibility nor is it worth while to point out why the ideal was not attained and that our people are burdened with taxes notwithstanding their great potential wealth as represented in British Columbia's incalculable natural resources.

Occasionally some lecturer or writer would tell us of how some continental city was financed, without taxing its citizens, through such enterprises as the economic management and reforestation of nearby timber areas, owned and maintained by that city for the specific purpose of obtaining revenue for civic

PUBLIC NOTICE

The School Board announces that Dr. Appleby will be at the Central School from 1 to 3 p.m. daily during the week commencing Monday, 16th, for the purpose of vaccinating all School Children.

The Health Regulations in regard to the vaccination of school children are as follows:

VACCINATION

14. It shall be incumbent upon Local Boards of Health to arrange suitable times and places for vaccination, and to give public notice thereof.

15. It is now deemed necessary, and is hereby ordered, that teachers in Public Schools and High Schools or Colleges shall require a certificate of successful vaccination from each child attending at such School or College, or a certificate that such child is at the present time insusceptible to vaccination. The certificates shall be presented on demand to the teacher or other proper authority.

PENAL CLAUSE (Sec. 112 Health Act.)

16. Provides that any person who violates any regulation of the Provincial Board, shall, unless it is otherwise specially provided be liable for every such offence to a fine not exceeding one hundred dollars, with or without costs, or to imprisonment, with or without hard labor, for a term not exceeding six months, or to both fine and imprisonment, in the discretion of the convicting Court.

After Friday, the 20th, no Pupil will be admitted to classes without a certificate as demanded by the Provincial Board of Health.

TO RESUME NEXT WEEK

(Continued from Page 1)

On Monday these Summerland. were referred for inspection and made by Mr. Logie. came up for consideration again on Mrs. L. K. Henry, Shellmouth, Wednesday but without reaching a Man., asked for a reduction on asdecision acceptable to Mr. Logie. sessment of improvements on blocv Lots 2 and 6 each have a frontage of 9, D. L. 508, \$1400. Assessment 25 feet, 7 over 60 feet and each was sustained. assessed at \$200. Last year the John Steuart appealed on block 16 total assessment on the six lots was D. L. 508, assessed. land \$900. im-\$800, this year it is \$1200. The provements \$900; both sustained. power house lot immediately to the . D. L. Fraser. Ottawa, owning 27 north is \$750, as are each of the lots and 28 in D. L. 474, south of the from there to the post office. Fur- Cartwright property, was granted 10 ther south Mr. English has a front- per cent. reduction on the land asage of four lots assessed at \$375 sessment. Improvements sustaineach. Hatfield's Garage lot is \$500. ed. Mr. Logie objected to the assessment | Geo. Batho, Winnipeg, appealed it had been done but would not con- felt that he had been under a misapreduction on the others. At one be written. point when the discussion was more Assessment on block 24, D. L. 439 Coun. Blair. When questioned as sustained. to price of the other lots Mr. Logie J. O. Turnidge wrote from Oregon Practically the same deadlock re-

sulted over the appeal made by Mr. not made the required return cov-Logie against the lots in 47 running ering its pole lines. This return north from the Summerland Garage, should have been in the hands of the on which decision was also deferred. Assessor some weeks ago and the 44A and 45A are blocks on the hill- Company is liable to a fine of \$50 side running from the Methodist per day such return is withheld. The the Ross and Watson properties in block 52. assessed in 1919 at \$350 each and again in 1920 at the same figure. Mr. Logie objected to this assessment stating that 12 and 18 were not worth as much as 11. The Councillor for that Ward expressed the opinion that 12 and 13 were worth at least \$250 each, but that lot 11 was worth more than the assessed value. These lots had also been inspected. Lots 12 and 13 were each reduced by \$35. No. 2 in D.L. 439 had been assessed last year and this at \$1000. Mr. Logie reported that it had been sold to Mrs. Fyffe for a much less figure and it accordingly dropped 10 ner

Mr. Logie made a strong protest against the assessed value of a group of lots close to the shore in Peach Orchard owned by Mr. J. W. S. Logie. These were lots No. 26 to 32 facing the Peach Orchard road opposite the Gartrell property, 33 the lot occupied by the Logie cottage and assessed at \$200 and lots 34 and 35 to the north of the latter. On all of these except the occupied lot Mr. Logie appealed. By treating each lot individually the value of several of the lots were reduced, though some members of the Council maintained that the better situated lots were worth more than assessed. Of the nine lots and part lot in question the values were reduced on five and sustained on the

The assessment on 21, 22, 25, 26, 28, 32, 34, 35, in D. L. 439, Development Company property, were all appealed by Mr. Logie. Lots 21 and 23, each assessed this year as last at \$900, were reduced to \$810. No. 25, a ton acre lot, was reduced by \$100; 26, a 17 acre lot partly above the ditch, from \$1000 to \$900;【瞿 and 28, which had been planted but [on which the trees had died, from | \$1500 to \$1350; and 32, a 9 acre lot from \$550 to \$500. Blocks 34 and 35 were also each reduced 10 per cont. Blocks 6 and 7 in D. L. 440 and block 3 in D. L. 474, hillside lots near the K. V. R. station, were also reduced 10 per cent. Blocks 1, 2 and 3, D. L. 2801, rough lots on the | hillside south of Prairie Valley as-Bossed at \$750 each wore reduced to \$675. Block B, D, L. 476 is land near the reservoir owned by the Devolopment Company, on which Mr. Logic said his former assessment of | \$1000 was a mistake. 10 per cent. | | reduction was granted. Block 24. D.L. 441 in Trout Crook Canyon cast of the Kirk property, was also reducod 10 per cent., as was 11 in D. L. 508. Block 2 in D. L. 2100 which has been assessed at \$1500 was described as being worth but half that. The assessment was reduced to \$1350. Block 9 in the same District Lot was reduced from \$1250 to \$1125. No. 12 also in the same district had been formerly assessed at

\$1500; this year at \$1350.

COURT OF REVISION ADJOURNS assessment was sustained. A part SUMMERLAND WELL REPof a lot crossed by the approach to the K. V. R. and owned by the railway company was reduced from \$800 to \$720.

This was the last of the appeals

of each lot in this group in the way on a lot in Garnett Valley but-it was sent to an increase on the more val- prehension when making the appeal, uable lots to offset his claim for a and instructions were issued that he

animated Mr. Logie said that the the property of Wm. Cross, through company would take \$100 for the which the railway passes, was redthree more southern lots. Immed-uced from \$2000 to \$1800 on the lately the offer was taken up by land assessment. Improvements

stated that he would accept \$350 asking for reduction on lots 2, 3, 4 for lot 2, but he would not consent and 5, block 2, D. L. 508, half acre to an increase of the assessment. The lots at Trout Creek point, assessed

Upon enquiry it was stated that the Summerland Telephone Co. had of the building lots into which the Court should adjourn until Monday blocks had been subdivided. There next at 10 a.m., to give the company are three lots, 11 12, and 13, between an opportunity to make the return and the Court secretary was instructed to so notify the company.

At a meeting of the newly formed branch of the United Farmers it was decided to postpone the official organization until after the convention of United Farmers at Victoria, which is to be held on February 23 and 24. It was the general feeling of the meeting that the policy of the society would be more clearly outlined after the convention. As soon as a report of the convention is in, a special meeting will be called by the president.

There is a strong feeling among our people that we should have a cooperative society here and special information is being gathered toward this end. The alleged success of Salmon Arm, Penticton, Princeton, Nelson, Vancouver and Victoria in co-operation for the general welfare of the citizens is stimulating the movement in other localities.

At a general meeting of the Naramata branch of the G. W. V. A. held February 5th. a most hearty vote their quarters on January 29th.

Correspondence

Naramata, B.C.

Dear Sir: A week or so ago when it was snowing I stepped on a sheet of ice which had just an inch of snow covering, so I did not see it. I came Mr. Jim Williams has gone to the down with a crack, fortunately just part of the back.

Getting up I had to pull up my knees, raising myself with my hands. ped out of my pants pocket. I missed Mr. N. Morton, who has been the out of my pants pocket. I missed guest of Mr. R. C. Robinson for a it when I got home. Thick snow had come down then and search was fruitless. Friends said "you will find Mrs. H. Salting, Mrs. D. McKay, it when the snow is gone," but I Mrs. Cash and Mrs. Dean Walters had small hope. What was my surprise when this morning a boy came whist drive at the Unity Clubhouse to my house, saying he had found it. on Wednesday evening. The sum of Yes, there it was, with all contents. I was more than pleased, because it confirmed the good opinion I always had about the place and the people.

I heard in past years from time to time tales of residents having missed this, that or the other but I always had my doubts about such stories, Ned Bentley of Summerland were thought them founded on mistakes the guests of Mr. and Mrs. C. C. Aik- or such, or explanations might be found nearer home.

You know how long I have lived here, nearly as long as you have. I have often been surprised at the honesty of the inhabitants and that we had no more of those who find it hard to draw a correct line between mine and thine.

Yours truly, AN OLD FRIEND

All the residents of a town are partners, not opponents. In all likelihood the more business done by your rival, the more you will do. Every merchant who treats his customers honestly and fairly will get his share and the more business that can be secured by united effort, the better it will be for all. When a town ceases to grow it commences to die, and the more people try to kill each other off in business and good name the more rapidly will utter ruin come to all. Stand together for the advancement of all.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr. R. A. F. Moore enjoyed a visit on Thursday from his son, Fyfe, enjoyed the afternoon as wee folk who came on the morning boat to spend the day here:

Thursday.

Mr. Chas. Reed returned from the prairie on Thursday and is with his sister, Mrs. Seigfried.

Mr. Little, the O. U. G. fruit inspector, spent a day in town last week on official business.

Rev. C. D. Clark with his "Trail Rangers" spent an enjoyable evening at the home of Mr. and Mrs. A. Town, where they met for their weekly gathering, on Friday last.

Mr. D. A. Cameron, general agent for the Massey-Harris Co., spent Saturday with the local agent, Mr. H.

Synopsis of

Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to sur-veyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acrescleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 30 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Robate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years. Provision for return of moneys accrued, due and been paid since August 1914, on account of payments, less or taxes on soldiers pre-emptions. Interest on agreements to purchase town or city lets held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF GROWN

Provision made for issuance of Crown grants to sub-purchasers of Grown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fullilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1820.

GRAZING. GRAZING.

Grazing Act, 1019, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Thinkel grazing permits issued based on numbers ranged; priority for established owners. Mitock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

E. McCall. They were successful in obtaining a fair amount of business.

Master Leslie White with the aid of his mother and sisters, entertained a number of his young friends on Friday afternoon, on the occasion of his fifth birthday. The wee folk 29 can in their usual plays and games.

About a score of young people Mrs. McKay and her daughter, of hopped on to the Peachland Livery Naramata, were visitors in town on truck on Friday evening last and soon were enjoying themselves at the dance in the Westbank packing house. They say they were treated to a good time.

> Friday night's checker tournament draw resulted as follows: R. A. F. Moore and Jas. Moore—the former 3 and the latter 1; Brinson and Mc Dougald-Brinson 4; Buchanan and McDonald—Buchanan 4.

To correct an error in a recent is sue, would explain that the Welch place reported sold to Mr. Willis was rented only.

The postponed meeting of the shareholders of the Peachland Fruit Growers' Union was held in the Orange Hall on Saturday afternoon of last week. It was not a very largely attended meeting, and some of the business which might have been closed had there been a better representation of members, was laid over for further discussion and decision. Many of the particular points and knotty questions in connection with the fruit handling were discussed at length. The meeting, however, was postponed after a fairly lengthy sitting. The final pools having come in recently and the growers' accounts closed, many of the growers received their final cheques at the close of the

Miss O. Gummow has resigned her position as teacher in the Townsite school and the Board has accepted the application of Miss Elliott.

Owing to the condition of the road between here and Penticton, Rev. Andrew Grieve was unable to come up by auto on Sunday to fill his appointment in the Baptist Church. Arrangements were made, however, for a service on Monday afternoon at 8 o'clock, Mr. Grieve coming up on the morning boat. A good number attended the service.

After a few days spent up the lake Mr. Grant Lang returned on Monday

Mr. James Moore with the baby were passengers south on Monday evening last to spend a day in Summorland.

Mr. J. Tait of Summerland was a visitor in town on Tuesday,

The Monday night checker tournament draw resulted as follows: Mr. Dryden and R. A. F. Moore-Drydon 2, Moore 1 and 1 draw: H. Miller and R. Walters -Miller 4. Few of these occasions seem to find the full number of players on deck so the tournament will be drawn out longor than schoduled.

The entertainers who are to fulfil the contract for the third entertainment being put on by the G. W. V. A. arrived on Tuesday night.

Mrs. Sanburg left by Tuesday night's boat to visit in Ponticton for a fow days.

A PROHIBITION DELEGATE APPOINTED

Boy Scout Column

1st SUMMERLAND TROOP B. P SCOUTS

Scoutmaster O. F. Zimmerman Headquarters Parish Hall Meets every Friday evening at 7.30 p.m.

On Friday the 30th of January an impromptu mock trial was the main feature of the evening. Scout Donovan Simpson was charged with having "knowingly and willingly stolen a hand sled, which belonged to Scout W. Kean, from the Parish Hall the previous Friday evening." He was not guilty, and the case was dismissed a little often nine o'clock.

Last Friday evening, two patrols, the Lions and the Beavers, provided a debate for the entertainment of the rest of the troop. The resolution was, "That all Summerland sports should be united under one union association." Mr. Tees, of the High School was present and acted as the judge. The Lions, who took the affirmative, won. They had ten arguments for their opponents' seven. Mr. Tees then spoke to the troop, criticizing the debate, which he said was exceptionally good, and then on sports in general. The troop was then dismissed and we expect to have another debate soon.

It would seem that the delegation

had expected that the money was in a section of the travelled road in the treasury awaiting them. out six or seven years ago money Continued on Page 8) had been contributed from Municipal sources toward the irrigation system at Trout Creek Point.
When the Municipality acquired

the Development Co. and Garnett Valley Land Co irrigation systems. all the lands within the Municipal boundary were bonded and property at Trout Creek Point has been paying toward the purchase and improving of these systems as have other lands, in proportion to their value. Some years ago when a similar demand was made for such assistance figures were given by the treasurer showing a considerable amount at the credit of or due to the owners of the land in question and at that time the Council agreed to expend a certain sum on the irrigation system there.

This system, by the way, though in part owned by the Municipality, inasmuch as municipal money has been expended on the system in the construction of a dam, pipe line, etc., has never been operated or maintained by the Municipality, the community being organized as a water community and local irrigation rates collected and the system managed by a committee. Each landowner in the meantime has been contributing his share to the difference as between the charges made against the municipal irrigation system, and the total realized in irrigation rates.

The committee on Monday asked that a sum approximately representing the accumulation of these payments made during the past half dozen years be expended on the local Two Instructive

Some surprise was occasioned when the committee was told that there was no money available for such work, that only enough had been levied on the lands to meet the annual requisition, and that their contribution had gone in the same way as taxes from other lands. While the Council admitted that the Trout Creek land owners had a moral claim for assistance in as far as they were contributing to a system from which they derived no benefit, they were informed there were only two methods of moeting their requirements, either by issuing debentures authorized by by-law, or by a special tax levy on all the lands of the district, the latter of which might ing facts, not be legal:

Whon the committee asked how much money might be considered re- taking for his subject "Etchings." turnable to them under their proposition, the Treasurer replied that mor's address on Gardening - takthis could never be definitely ascor- ing up the home garden especially, tained but it was finally agreed that both flower and vegetable, the an effort be made to come within an preparation of the soil and best vaapproximate estimate. Okanagan Apples In Annapolis

Superior Quality Finds For Them a Market in Famous Apple Districts

"Carrying coals to Newcastle" s the proverbial way of expressing land. an anomaly,

But the apple growers of British Columbia have created a more modern and expressive one. Shipping apples to Annapolis, and to Grimsby, is the latest activity of the growers of the Okanagan.

"It did my heart good," said Mr. R. C. Treherne, dominion entomologist, just back from the East, "to see boxes of Winesaps and Jonathans on sale in the Ningara Poninsula, and in the Valley of Evangeline."....

"The Ontario Tellows didn't seem to care, because they have an immediate market in small baskets to the transient motor trade between Buffale and Toronto. But say! don't the bluonoses roar! to the old barrel pack, and our growers have swept down upon them with their fine boxes of resy, postless fruit, and are disputing their home market with them.

"They say their quality is better than that of the B. C. apples, but the consumers laugh and say Forget that quality stuff; what does a girl sell on but her rosy checks?' "

The whole situation in Mr. Trohorno's opinion is the result of close co-operation among B. C. farmors, of excellent solling organization by the growers in the Okanagan, and of scrupulous care in eliminating posts. Max, Min. Rain i Sn. shine In these particulars, although B.C. orchards are valued at only twenty million, as compared with Ontario's outclassed the latter.

Bees in the Okanagan Valley

A Fruit and Vegetable Coun-Where Bees Are A Necessity

Under the above heading "Glean-This state of affairs has photo of F. R. Gartrell's apiary and shows an orchard with hives among

The Okanagan Valley, B.C., ex-

The population of this area is probably about 20,000, most of whom northern end. The chief products of the Valley comprise apples, pears, peaches, plums, apricots, cherries, grapes, melons, tomatoes, celery and onions. The average rainfall being but 12 inches in the year, irrigation is general except in the extreme north.

More than \$4,000,000 was received by Okanagan growers in 1918, and considerably more last year, from which it may be inferred that there is considerable fruit bloom to be pollinated by our friend the bee. Unfortunately, the profusion of fruit blossoms in the spring is largely offset by comparative scarcity of wild blossoms, and during the latter part of the summer in many districts there is a meagre supply of nectar. Alfalfa is very generally grown as a cover crop in the orchards, and ta- where this is left to blossom the proof sage also grows here and helps The clover and grasses on the out considerably.

BOARD OF TRADE ANNUAL | Starting in the days of primitive man BANQUET GREAT SUCCESS he followed the evolution of trade

(Continued from Page 1)

knocker he always told him that the C. P. R. is running on schedule and advised the knocker to go east into cold storage. Mr. Helmer paid a high tribute to the pioneers of the Okanagan. Mentioning several of her resources he stated that British Columbia's crop values per acre exceeded those of any other province. He urged the importance of maintaining soil fertility. Though so productive British Columbia was still importing beef, pork and dairy products totalling \$10,000,000. He advocated immigration of the right kind to increase production and adwith the game practicing common upon thus: "A go-ahead little place," sense and THRIFT.

An address given Mr. W. C. Kelley on such occasions as this is always much on the other. Boards of Trade. Trade should deal with more than The toast "To Our Visitors" was men was as heroic and courageous GROWERS MAY TEACH town and province. Democracy has izens. some weaknesses, our disposition to

to the teacher or other proper authority.

up to the present day. Rates of exchange change automatically and he explained the reason for the present adverse conditions. He urged for greater home production so that we might have more goode to offer in exchange for those we are buying abroad. Thus we would all become traders and would be serving our country in bringing back our former prosperity.

Mr. F. A. C. Wright spoke principally of the work of the convention in Vancouver which he said had been so well reported that he need only touch upon a few things. In Vancouver and in B. C. generally Summerland is on the map. At the convention Summerland was commented etc. Mr. Wright said there were too few live wires. We should have more of them on the Board of Trade. meaty and leaves with the hearer The convention passed over fifty refood for thoughtful consideration. solutions. A committee picked out Mr. Kelley's speech on the occasion 24 of these as of sufficient importance of his proposing the toast to the "As- to the province in general to be taksociated Boards of Trade" on Mon- en to the Government. These inday night was well up to his usual cluded all three of Summerland's restandard. A large number of Summerland The Provincial Department of Pub- people attended a dance last Tueslic Works is calling for tenders for day evening in Penticton given by the construction of a twelve roomed the ladies of the Penticton Hospital Auxiliary as a benefit for the Summerland Hospital. Those who attended the dance describe it as one of the most successful of Penticton's many successful entertainments of this nature, the attendance being such as to fully tax the capacity of the floor. Many fine costumes were in evidence, adding much to the attractiveness of the dances. merland will, we are sure, appreciate the fraternal spirit thus shown at a time when our Hospital Society must raise funds to rebuild the local institution destroyed by fire.

> A critical young lady was recently heard expatiating vigorously against the silly way that women have of kissing each other every time they get together. She said: "If twenty | women were to meet in the street every last one of them would have to kiss the other nineteen, and there would be-let me see - 380 kisses worse than thrown away for probably in ten minutes the whole party would separate into squads and go off talking about each other. When you see one of those violent miscellaneous kiss-everything-in-sight kind of a weman, it is safe to set her down as a fraud, which she generally is. If I had my way, kissing should be confined to family uses and for medicinal purposes. Now don't you put my name to this or I will kiss you the first chance I have right on Shaughnessy Avenue."

No matter how much good luck a man may have, he always manages to have enough of the other kind to brook the monotony.

Good progress is now being made on the new power line being built by the West Kootenay Power Co., from the Boundary to Princoton. The construction camps have been moved from Fairview district to about midway between Koremees and Hodley. The recent mild weather has materially assisted in the progross of the work. Poles for the power wires have been set from the Greenwood substation through over the Fairview district.

Adrift on Lake **During Night**

Peachland Enjoys Third Number in Lyceum Course. Other Items of Interest from Pioneer Town

Peachland, Feb. 18 .- The third entertainment put on under the auspices of the G. W. V. A. was given on Wednesday night of last week by another of the companies under the Lyceum Bureau. The hall was filled almost to its capacity, the G. W. V. A. netting a nice balance out of the proceeds. The townspeople showed their appreciation of these entertainments by their attendance, and were treated each time to a very enjoyable entertainment.

On Friday evening last, Mr. and Mrs. F. C. Wildy were left in rather an awkward predicament, when in returning to their home across the lake in their motor launch the engine stalled and refused to act again. This happened about midway across the lake quite early in the evening. They were carrying quite a load of freight, comprising furniture and other settlers' effects shipped in by C. P. R. Mr. Wildy tried to get unate again and is nursing another the engine to work again, but to no sore hand. avail. When forced to give up he decided to take to the paddle, but found he had left the cars at home, to Penticton Monday night, where and the only thing available for use Mr. McCall goes to attend the Royas an oar was a spade. With this he al Black Chapter and the Grand Ordid his best but with slight results ow- ange Lodge of British Columbia, ing to the load he was carrying on which is meeting there this week. board. This continued till about midnight when he resorted to a call to shore, which was heard by Mr. Albert Smalls, who went out with a bert Smalls, who went out with a R. A. F. Moore—2 each; C. G. Mc row boat and towed them in to the Dougald and H. Miller — McDouwharf. Mr. Wildy was pretty well done out from the exertion, and Mrs. Wildy was chilled. However, they put up in town for the balance of the night, and the next day felt little the worse for the outing. After ovhauling the engine the next morning they were enabled to make the trip home all right.

After a short visit in Penticton. Mrs. Vivian returned to her home here on Wednesday of last week.

Miss Verna Town returned on Monday morning from a short holiday with friends in Penticton.

been working on a logging contract at DeMuth's mill.

Mr. Marshall, of Kelowna, Assistant District Water Engineer, spent a couple of days in town last week doing some official work on the irrigation system, with Mr. Smalls.

Mr. H. Hardy went north on Thursday to spend a few days in the Vernon district. He returned on Monday night.

Royal Bank Manager Ross made a rief visit down the lake on Thursday, returning on the morning boat.

Mr. and Mrs. C. Drake entertained a number of friends on Thursday evening of last week. A very onjoyable time was spent by all.

The Women's Institute met on Friday last, but the attendance was not up to the usual. Consequently, business of an important nature was laid over till the next meeting, in the hope that there would be a better attendance. After the disposal of the business the meeting was thrown open for basket weaving, under the able instruction of Mr. Chidley.

Quito an onjoyable dance was participated in by twenty-five couples in the Orange Hall on Friday evoning. It was gotton up by the Misses Morley and Morrison as a Valentine party. The hall was prettily and tastefully decorated with flags, cupids and hearts, and Japanese lantorns. Dancing was continued till almost time for the lights to go off, namely one o'clock, light refreshmonts having been served at twelve o'clock.

Last Friday night's draw at the checker tournament resulted as follows: Drydon 8 and Buchanan 1. There has been some little talk at the tournament meets of trying to arrange a play with Summorland, West Summerland and Shingle Creek as Peachland is due a game from each of these points.

Phone Penticion 89 Day or Night BEN PRIEST, Funeral Director. Certificated Embalmer.

Perfect Funeral Service. SUMMERLAND PENTICTON

Friday last was a big day at the school, being the nearest school day to Valentine Day. The teachers arranged post offices and varied wore the Valentines exchanged. In the afternoon the children of Miss Morley's room visited the Primary room in Valentine dress parade, causing considerable merriment for all. Then Miss Morley's room entertained the others to light refreshments served in the school room. Altogether Friday was a very enjoyable day for the children.

Lieut. Graves, of Kelowna, with his wife and little girl of fifteen months. visited Peachland and were entertained in the home of Mr. and Mrs. Wm. Dryden for the week-end. Mr. Graves is on the staff of the Bank of Commerce in Kelowna. He visited Peachland, a chum of Willie Dryden, when Willie was on his leave home before going overseas. He has seen much action at the front, having once received a "blighty," requiring several months hospital treat-

Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. Inthis they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

The Winding Trail ..

It is curious to note how a disputant will some-THAT FIVE PER CENT. times begin his argument with a false step, and proceed to elaborate his position in bliss-DISCOUNT. ful unconsciousness of the preliminary stum-

Your correspondent "Consumer," writing in the Review of February 6th, gives, as his one solitary example of alleged high prices, a purchase made by him outside Summerland, on which he claims to have saved \$22.05, and then naively remarks, "True, I got the goods at the wholesale price." It does not seem to occur to him that unless he was buying for re-sale, he was not entitled to a wholesale price, and that the firm who sold to him was guilty of unfair treatment of the retail trade, yet both of these points are strictly correct. In any case, to cigarette smoker's cough, headache, compare wholesale against retail, without any details, is absolutely beside the mark, and any argument on such a basis must necessarily fall to the ground. I am more concerned, however, with the whole question raised by this correspondence, than with any individual case. It has for some time seemed to me that the retail merchant in general has been getting some very hard knocks, most of which have been undes-In our zealous search for the wicked profiteer, the local merchant, being close at hand, has naturally, but somewhat illogically, borne the first brunt of suspicion, and received more than his share of brickbats. A little cool consideration, and some analysis of the fallacies we are likely to be led into, would do quite a lot to clear the situation.

For example: "Consumer," whom we may take as a typical complainant, implies that the large amount of Summerland money which goes out of town, is a direct result of local high The fallacy of this argument is immediately apparent when we remember the fact that "a large amount of money" goes out of every town, irrespective of local charges, size of the town, or any other consideration whatever. For my own part, I can safely say I have never yet been in a Canadian city, town, or village, which did not send more or less money to mail order houses, and it is a perfectly safe conjecture that there is no such town. I know of very many instances in the Okanagan Valley, and in the Interior can vouch for instances even in such a presumably up-to-date city as Calgary! all the merchants in all these places profiteers, or does the explanation lie largely in the fact that to many of us distant fields are always green, and that if we live in Winnipeg we will send some of our money to Vancouver, or from Vancouver to Winnipeg as the case may be? The answer is plain on the very face of it. Then we have the fallacy that the average local merchant waxes rich beyond the dreams of avarice on extravagant profits. Is it necessary to refute such a claim? One of your advertisers points out that it has taken him ten years to build himself a home, and it is apparent to any average observer in the average town that this is a fair exemplar of the typical merchant. Next comes the warning that unless prices are reduced the merchants will be having a new competitor in the shape of a co-operative store: The fallacy here is not the probability, or otherwise, of such an organization, but the assumption that any lowering of prices will keep it out of existence. Co-operation is in the air: it is one of the various forms of unrest which we see all around us today, and if every merchant in every town were to sell at cost, and pay a bonus to his buyers, co-operative societies would still spring up. It may be that co-operation is simply one phase of evolution in business conditions, and that it will in time find its proper place in the social economy: at present it looks dangerously like an intensive growth of class selfishness, and I must admit I have very little sympathy with it. This may seem like wandering from the original subject, but it really brings us back to its real essence, which is that the average merchant, of this and every other town, is a citizen who carries a heavy load of responsibility for an inadequate pecuniary compensation, and deserves rather more consideration than he often gets. -AUTOLYCUS.

Recently I have met many old comrades of the service days, who all tell the same tale of chest measurement fallen by four or five inches, taste in the mouth in the morning, and shortness of breath following the slightest exertion.

They cannot understand it, but it is really only a matter of breathing properly and taking a reasonable amount of exercise.

A man sitting at a desk all day allows his shoulders to droop forward and his chest to contract; in this position he is bound to take very short breaths and never allows a deep inspiration to fill his lungs.

In consequence of this the blood, which is not properly oxygenated, becomes sluggish and the heart is underfed; this, combined with the unaccustomed expansion of the lungs accounts for the shortness of breath following upon sudden exertion. In the natural sequence of things, the heart being underfed, the complexion becomes pasty, and the chest measurement deteriorates.

At night the sleeper lies fully ex-

KOOTENAY HONEY PRODUCTION GROWS

Kootonay beekeepers claim that their district leads all others in the province in the amount of honey harvested. Last year their total crop was 28 % tons, the average surplus per hive being 50 lbs., as against 38 lbs. for the whole province. One Slocan Valley man reports a surplus of 2,100 lbs., from three hives, spring count.

That is, they had but three colonics to commonce with in the beginning of the season. These three and the new swarms from them garner. od over a ton of honey, which is the largest yield ever recorded in the

American foul brood affected only three colonies in the area, and it was proved beyond doubt that the disease had been brought in with package bees imported from the United States. These were all destroyed.

Synopsis of

Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to sur-veyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent real-dence may be issued, provided applicant makes improvements to extent of \$800 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesities.

granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing reads may be purchased conditional upon construction of a read to them. Rebate of one-half of cost of read, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retreactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1018. Taxes are remitted for five years. Provision for return of moneys accused, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase tolded Forces, or dependents, acquired direct or indirect, remitted from enlistment to March \$1, 1920.

SUB-PURCHASERS OF GROWN

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on ful-fillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1020.

GRAZING.

Graving Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing parmits issued based on numbers ranged priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

TWO INSTRUCTIVE

ADDRESSES HEARD

(Continued from Page 1) rieties of seeds to plant. This was

much appreciated by those present.

Before adjourning, Mr. Alex. Smith, Jr., sang a solo which was greatly enjoyed. The meeting then came to a close and afternoon tea was served.

The Institute has prepared and had printed in folder form for distribution among its members, a program for the year and which is reproduced below. The reader will note that an excellent program has been arranged and that some very helpful and instructive papers will be heard by the members of the Institute during the next year.

East Looking to Okanagan

Naramata Soon to Boast of Fine Public Wharf

Naramata, Feb. 18. - Mr. and Mrs. J. M. Robinson, who have been east for a time on business and visiting old friends and relatives along the line, returned home on Saturday. Mr. Robinson reports great interest in the Okanagan Valley and the fruit industry by all with whom he came in contact, with the result that a number of new settlers are coming to look us over soon.

The wharf construction is now bewhile the driving of the piles for the new structure is being done. We are all looking forward to the time when we will have a nice serviceable wharf and slipdock and hope that the slip will be put in some time during the coming season.

Mn. Gerald McLaine and Mr. Ralph Brown were in town on business on Friday. Both motored up from Penticton.

Mr. M. D. Manchester, who has been spending the past few weeks with his family here, left on Wednesday to resume occupation as electrical superintendent for the Yukon Gold Co., at Dawson, Y. T.

The fruit property belonging to Mr. J. C. Miller of Calgary has been sold to Mr. Ogden Hughes and sons who will begin working this orchard

Mr. J. Winger of Peachland was in town on Wednesday making bids on stone and cement work.

Mr. J. B. Mitchell and party were Design of Art Rev Chas. Baker here on Saturday looking over the district.

> A number of our young people at tended the dance given in aid of the Summerland Hospital by the Ladies' Auxiliary of Penticton on Tuesday night, and they report a fine time.

> Mr. Green of Winnipeg, who is interested in some property here and whose family have been residing in the Endacott house, came in last week to take up his residence here.

> F. L. Roe, of Penticton, came in last Friday and visited friends and

At a public meeting held on Friday night, it was decided to organize an orchestra, also a choral and dramatic society, in which everyone More will be said of the result of the Miss Sinclair meeting at an early date.

A Valentine card party was given in the Unity Club building on Saturday night by Mrs. George Cook Mrs. Howard Rounds and Mrs. Mallory. This is the last of a series of parties in aid of the Red Cross.

Mr. Dean Walters has purchased the building known as the Grant Smith mess house, and will move it to his fruit lot soon. The building was owned by F. C. Manchester. The lots which the building occupied have been sold to M. D. Manchester, and will be improved and form part of the home site of Mr. Manchester.

The G. W. V. A. held another of their most successful dances on Monday night and as usual there was a fine turnout. Everybody had a fine time and the music was much appre-The date of the next affair will soon be announced.

TROUT CREEK POINT WATER USERS PRESENT PROBLEM

(Continued from Page 1)

The travelled road now in Peach Valley does not follow the surveyed road and by an understanding with the Summerland Development Co., owners of the land on both sides, some further slight changes are being made in that road, which has been surveyed at the expense of the Municipality for the purpose of making an exchange with the company, giving them the surveyed road for the road on the new plan.

The Council adjourned at 6 p.m. to consider municipal finance on Saturday. What business was left over from Monday's meeting will be taing pushed forward and one section ken up at the regular meeting of the of the old work has been removed Council on Monday next. Before adjourning the following accounts were approved for payment. This is probably the largest single month's budget of accounts in the history of the municipality. Over \$17,000 of the total is for capital expenditures, which sum is being met by the sale of school site, road equipment and ir rigation debentures.

Vaudeville

"VOIX DE VILLE" said Jean Chardavoine, a French musician; and thus came into being three hundred and fifty years ago what to-day we call "Vaudeville".

Vaudeville is the melting pot of the dramatic and musical arts. In it nothing is out of place; it includes drama, comedy, tragedy, farce and burlesque; and every form of music from grand opera to jazz is heard upon its stage.

Every city has its favorite vaudeville house. But you—who live at a distance from the great cities—can have vaudeville right in your home, with

The NEW EDIS "The Phonograph with a Soul"

This marvellous instrument—that is every other instrument in one-will RE-CREATE everything that vaudeville has to offer-the entire magic of the theatre staged for your amusement and pleasure, in your parlor or living room.

Why not let the New Edison bring this wonderful variety of entertainment into your home?

"Edison and Music" is a beautiful book that you should have. Just ask for it and "What the Critics Say" too-it proves Edison superiority.

In Ponticton the schools have been least half a hundred cases of "flu" there. Before the schools closed there were nearly 200 children absent as a result of flu or suffering from whooping cough or effects of smallpox vaccination.

When flu struck this Valley more compared with neighboring control all liabilities had been met. in the other instance.

Large Audience Is Year's Estimates Much Disappointed

Missed Train Connections.

There was a large audience in Empire Hall Tuesday evening gathered there to hear the lecture of Dr. Arthur W. Evans, advertised to speak here in the second number of the Lyceum Course. People had come from far and near in anticipation of a treat, quite a number having come by special ferry from Naramata. while others motored from Pentic-

As there had been no wire or other communication from the lecturer and had gone out on the Sunday himself or from the Lyceum Bureau there was no doubt whatever in the minds of the committee that the lecturer would arrive and even after the boat reached here there was no apprehension in that respect as someone had seen the name of Evans among the arrivals registered at the Hotel and it was after 8 o'clock when it was discovered that Dr. Evans had failed to arrive, when the audience was at once acquainted with this fact.

> The discomfort caused the local Lyceum committee can well be imagined. Next day they got in communication by wire with the Lyceum Bureau making a strong protest against the failure to fill the engagement. On Thursday an explanation was received by wire from the ans had wired stating that he had missed his train connection. Bureau also stated that a letter was following offering a substitute attraction. The local committee is awaiting this letter before deciding

WORLD FAMOUS LECTURER COMING.

IDA M. TARBELL

One of the most important lecture announcements of the year is that Ida M. Tarbell, America's most famous woman publicist and journalist, is to address the Lyceum Course audience here next Thursday. This distinguished woman returned recently from France, where she was correspondent at the Peace Conference for a syndicate of metropolitan papers. Her lecture here will deal with her observations at that epoch-making event.

Miss Tarbell needs no introductions. Her works have preceded her and endeared her to the thinking people of every community. A forceful writer, a constructive thinker, a seer of visions, a doer of deeds, Miss Tarbell has won her place in the affections of Canadians as well as Americans.

Orchard and Farm:

Topics of Timely Interest and Helpfulness in the complex Business of Farming.

WHAT FACTORS IN-FLUENCE SEED YIELDS IN ROOTS?

(Experimental Farms Note) Durng the last few years considerable quantities of field root seed, including mangel, swede turnip and caarrot seed, have been raised by the Dominion Experimental Farms System for the purpose of safeguarding against a threatening shortage in the supply. Much valuable information has been accumulated on the subject of root seed production. the more so because, while engaged in seed growing as an emergency undertaking, the Experimental Farms System at the same time desired to gain reliable data bearing on the possibilities of making root seed growing a permanent agricultural industry in Canada.

One of the more important subjects in connection with root seed growing which have been investigat- also shown that a still greater ined is the question of under what conditions the heaviest possible yield if the land is given both manure and of seeds may be expected. question is of course of particular interest, as the size of the seed yields will largely determine the profit

from seed growing. In the first place, it is necessary that the roots to be used for seed raising are absolutely sound when planted out. Our experience is that planting of roots which show signs of disease or rot, especially at the crown, leads to most disappointing results. Such roots may linger along for some time, but sooner or later they die off, with the result of course that the seed field becomes patchy and consequently gives a comparatively low yield per acre.

In the second place, the seed roots

Synopsis of Land Act 4 mendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements of record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at less 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grasing and industrial purposes exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchased conditional upon construction of a road to them.

read, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS

ACT.

The scope of this Act is enlarged to include all persons Joining and serving with His Majesty's Doross. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accured, due and been paid since August 4, 1914, on socobunt of payments, fees of taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members of taxes or indirect, remitted from en-listment to March 31, 1930.

SUB-PURCHABERS OF OROWN

SUB-PURCHASERS OF CROWN

Provision made for issuance of Crown grants to sub-purchasers of Crown Landa, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on ful-nilment of conditions of purchase, interest and taxes, Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1030.

DAILARD. Grazing Act, 1918, for Systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Pres, or partially free, parmits for settlers, campers or travellers, up to ten head.

Clean, shown that the land must be in the soft water is effective for washing the best possible shape if good seed crops body, and the sponge should be careare to be expected. An experiment fully washed to make sure it concarried out at Ottawa in 1915 gave tains no particle of grit which will results to the effect that an application of 20 tons of barnyard maunre to the acre, or of a commercial fertilizer, composed of 500 lbs. superphosphate. 200 lbs. of nitrate of soda and 200 lbs. muriate of potash. increased the seed yield of mangels with almost 50 per cent. Experiments carried out later have not only substantiated this result but crease in the yield may be realized artificial fertilizers in liberal quantities.

Sound roots, early planting, and rich land are the main factors which determine the size of the yields. It should be added, though, that the yields are also influenced, to a not unimportant degree, by the supply of farm labor that may be available and by the size of the seed fields. Profitable root seed growing requires plentiful labor at certain periods and under present conditions, the writer would say that to a farmer who has not had years of experience in root seed growing one or two acres may prove more remunerative than a larger acreage, because with a small acreage, the yield is apt to be much greater per acre than if the acreage is so large that it cannot be handled conveniently.

> M. O. MALTE, Dominion Agrostologist.

The Proper Washing of an Automobile

Seems Simple But Is Really A Fine Art

(By C. Freegard, in the Victoria Times.(')

The art of washing an automobile seems to most people such an extremely simple undertaking that a discussion of the subject here may appear unnecessary. Yet the damage to many fine finishes caused by careless and improper washing indicates that many people do not know how to wash a car properly, or are very

careless over the operation.

It is entirely possible to strip off both varnish and paint coats by using hot water and soap or soap powders (the majority of which are strongly alkaline), if used a short time after the newly varnished car has been put into service.

The best time to remove mud from n car is when it is still wet. In washing off, avoid using a strong stream from a hose, because this simply drives and beats the mud against the varnish in a way that resembles a rubbing with pumice stone and water. If a hose is used, let it be with low pressure. Scale the mud thoroughly, let it stand a while, and then go back to it with more water later.

Do Not Drive Mud In

When wiping down the varnish be sure the sponge or cloth is thoroughly wet, otherwise you may produce a result similar to that of rubbing the varnish with sandpaper. Wet, the mud so thoroughly that it will come off without any other help, if pos-

With the mud scaked and washed off, the surface may be cleaned up with a soft sponge kept well soaked in water. After sponging, wipe off the surplus water, using a clean, soft chamols skin previously washed and wrung out well.

It is unnecessary to wipe the surface moisture completely dry, not oven desirable. Allow the final moisture to evaporate, then with a soft 🔯 dry chamois rub the varnish to a pol-

When the wheels and under parts nick up grease, dampen a cloth in gasoline and wipe them off, washing the spots immediately with clean, warm (not hot) water and a touch of Castile soap.

Scorn Strong Soaps Laundry soap—any soap strong in alkali—and the majority of soap powders are unsuitable for car washing, because they destroy the varnish.

should be completely dissolved in tions to every good one. warm, soft water.

In a gallon of soft water dissolve a pound or two of Castile soap by slowly heating until the soap has been completely dissolved. The soap are set out the heavier are the seed the car is to washed put a quart of yields which may be expected. This the mixture in a gallon of soft watapplies to all kinds of field root seed er. First thoroughly clean the parts crops and has been demonstrated ov- of oil and grease, wash with soap water, using a soft sponge, and rinse

Soap should not be used on the scratch the varnish.

About Body Polishes

Of the many preparations on the market, sold for renovating car bodies, i.e., to remove mud without water, there is very little to say. Generally they are harmful indeed to varnish. Any washing which does not contemplate the use of plenty of clean water, had best be avoided. Body polishes and renovators are

How to Make A

The season is advancing when we right temperature. shall want to propagate seeds and The heat of the propagating case cuttings in order to plant them out should be kept at 80 degrees. The air as soon as the weather becomes suit should be kept moist and ventilation, able for the half tender things that of course, must be given. The case add so much to our vegetable and should be placed where there is abflower gardens. Only the very few undance of light, or the seedlings have greenhouses in which to carry will become spindly and weak. In on this work, and it is not always fact, the miniature "greenhouse" easy to obtain the next best thing, a should be managed with the same hot bed, so many amateur garden- care that is given to the common ers will be interested in a propagat- variety. The soil for the cuttings ing contrivance as described in an English book on gardening.

ply the bottom heat and the even never be omitted from the potting temperature that will insure a ready mixture. germination of seeds and rooting of cuttings:

Procure a well made box about 18 inches square and 16 inches high and remove the top and one side. Four inches below the top ledges should be nailed on which to rest the boiler. This a flat box of heavy tin or zinc three inches high and the area of the inside of the box. A hole with a funnel fitted in must be made in the top at one side, while a small pipe for the escape of the steam is inserted at the opposite side. Get a second box of a size that will just fit inside the inch space left in the top of the first box and about ten inches high. Remove the top and bottom and cut the sides so that a pane of glass laid on top will be higher at the back than front in the same way as the lights of a hot bed are slanted. Ledges should be nailed just within the top on which to rest the glass. This box must then be placed inside the top of the first, and as a result the flat top of the boiler will form the bottom of the upper box. Fill the upper case with a layer of cocoanut fibre to a depth of four inches in which the pots, filled with light soil and containing seeds or cuttings can be plunged. The boiler is then heated by a small lamp which is placed in the compartment beneath the boil-

To the man who is handy with tools and enjoys exercising some ingenuity, this contrivance will undoubtedly appeal. Two or three suggestions will probably present themselves. The first is that the boiler could most likely be contrived from our ubiquitous friend, the kerosene

tin. Another is that if hot water is poured in at the beginning there will Miniature Greenhouse be no time lost in "getting up steam" and a very small amount of heat will be required to keep it up to the

PEACHLAND

(AN OLD TIMER'S VIEWS)

On the famous Okanagan, Close along its western sideies the pretty town of Peachland,

Cosy homes, in pleasant gardens. Dot her landscape everywhere, And surrounding them, in summer, Orchard perfumes fill the air.

Where a wealth of charms abide.

If on duty, or for pleasure. We a hillside path pursue. Fifty miles of scenic valley Spread their beauties to our view

Nowhere else in our Dominion Is more balmy climate found: (For restoring the enfeebled It is, far and wide, renowned).

On her sunny slopes and "benches"-In due seasons of the year-Laden trees, and fertile gardens, Riches for their owners bear.

For a town of twenty summers, Whereabouts can critics find Any place surpassing Peachland, For the blessings there combined?

And, though Peachland is no city-Few although her people be-Yet from her, in time of danger, Sixty soldiers cross'd the sea.

And of them, there's scarce a dozen Came unwounded from the strife: While a score, in France and Flanders.

For our "Cause" surrender'd life.

Therefore Peachland justly merits Honest praises for her charm; But the highest honors due her Are for men who wielded "Arms."

-S. J. McGIRR.

Discovery of the growth of sugar on fir trees in British Columbia is announced in the current number of the American Forestry Magazine. It is said to be of great value to chemistry, but not of commercial importance.

The Winding Trail ...

A recent number of "The Review" contains

ADVANCE the following paragraph. "Music is now an official part of the curriculum of the British Columbia department of education." If this means that music of some kind is to be taught in every school, as I suppose it does. British Columbia may be congratulated. True, certain other provinces have had such a rule in force for some years. I believe, but it is never too late to mend, and we can forget past remissness in the face of present accomplishment. The important point now to be kept in mind is the fixing and maintaining of a high standard of quality in the instruction to be given. In making this suggestion I have in mind, not so much the technical musical ability of the instructor, as the standard of the music taught. Any person who takes notice of the class of sheet music on sale at the average music store in this country today, must be impressed with the fact that a very large proportion is of the fox-trot-ragtime-jazz variety, all of which comes from America, and is a direct result of propinquity. In other words, the Canadian market is flooded with such stuff simply because its source is near, and not by any means by reason of its quality. I have in my notebook the following sentence from "Collier's Weekly." of Feb-"Canadians accept most of the New York ruary 22, 1913: stuff, slap-dash affairs from American composers, for lack of anything better." As this expression of opinion appeared in the editorial columns of an American publication, it may be taken as tolerably unbiassed, and certainly lends some color to my remarks above. There is no "lack of anything better," but there is a fatal facility in buying from our nearest heighbor, and the result is that Canadian musical taste is today decidedly Americanized—to its very great detriment. It would be a musical calamity if the training in our schools were tinged with the glaring colors of jazz atrocities, which flourish only too vigorously as it is. Granted that vocal training, which will presumably be the main channel of instruction, does not afford much scope to the ragtime element, still the broad principle of careful selection is one to be carefully kept in mind. With all due respect to our American cousins, it has to be recognized that their national standing in the world of music is as yet very low, and is not being improved by their latest develop-

ments. As educational models, they are to be carefully avoided. It may be interesting to note the report of a Winnipeg musical critic concerning the singing of two hundred and fifty school children at an Oratorio Festival held in that city some years ago. He wrote that the singing of these children "arcused great enthusiasm by its precision, purity of tone, and clarity of diction." That critic knew the points to be aimed at in vocal training!

THE NEW **SCHEDULE**

While on the subject of schools and school work, it may be in order to express satisfacfaction at the adoption of a new schedule of

salaries by the Summerland school Trustees. School teachers have never at any time been overpaid, and during the past few years the disparity between the advance in general costs. and the corresponding increase in professional salaries has been, painfully apparent. There is no more important work than the training of the coming generation, and it entails many years of more or less expensive preparation on the part of those who undertake it, but the standard of remuneration has always fallen short. It is one of life's little ironies that, while almost any sort of unskilled labor can today command good wages, the highly trained instructor has been expected to be content with payment which the average laborer would, and does, reject with no little indignation. Summerland's new schedule is decidedly a good move. -AUTOLYCUS.

OPPOSED TO VACCINATION

(Okanagan Commoner)

Smallpox of a very mild type has peen epidemic in various parts of the province for several weeks past, lar, please. There has been the usual recourse to vaccination, with here and there years later, various other blood and individuals and communities stand- organic diseases attack the child. ing out against the order. Within the past two weeks the provincial houlth department has ordered that all school children shall be vaccinated or refused the privilege of attending public school. As a result of this order the school children of Armstrong were made sick with cowpox last week and on Tuesday of this wook the school children of Enderby were made sick by the same procoss. The schools are now closed for two weeks or longer while nat-ure is driving the puss poison out of the bodies of these children and bringing thom back to health again.

Health boards seem to act on evil signs and omens. A healthy child is a menace to society and so the health board orders that it be made. sick with the poison from a diseased cow. The deed is done. One dol-The child recovers or Months later, perhaps it doesn't. There are some 50 or 60 of these diseases which have followed vaccinea, according to the Medical Record.

Many of life's so-called luxuries are base imitations.

Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. In this they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C., February 23rd, 1920.

The Editor, Summerland Review.

Dear Sir: I should not have troubled you with a further letter but for the arther surprising statements. He com- lake. es into the discussion somewhat late in the day and at once preceeds to deal "very faithfully" (as our preachers would say) with my supposed

errors of logic. Since when and by whom, has it been decreed that a consumer must wholesaler, retailer, etc., a prescrip- ton brought him up by auto. tive right to come between the producer and the consumer? Yet your contributor lays this down as a law last word. Does he realize that in doing so he is, in effect, sitting tomers? And our local Fruit Union ton. must really look into its credentials, for it is a co-operative affair, and cooperation, according to "Autolycus" ishness.''

After this exhibition of logic, the remainder of your contributor's article can be safely ignored, and I have now finished with the corres-

I thank you for your courtesy in granting me the use of so much of your space.

Yours truly, CONSUMER.

February 24, 1920.

The Editor. Summerland Review.

Dear Sir: for income by one class of society "gone over the top" each having subeven in a small community, and the amount of that income invites a widthose of our critics.

letter invites a discussion of social society. economy, which the latter declares Thanking you sincerely, to be irrelevant.

NARAMATA NOTES

(Continued from Page 1)

The G. W. V. A. held a most enjoyable dance on Tuesday evening and a good crowd was on hand to enjoy the fun. Penticton was well represented but Summerland did not turn out as well as usual owing to the short tilme given to advertising this event. The music was furnished by the Manchester & Peck Novelty Dance Orchestra. Another affair will be given in about two weeks.

A meeting of the shareholders and others interested in the Fruit Roll Call Name some feature that Union was held in the Unity Club building on Monday evening. Mr. Simpson and Mr. Lawler were over from Summerland and explained The Convenient many things to the growers on this side. Mr. Rolt was chairman and Demonstration of Fancy Work he brought up many problems for discussion. A director for this district was elected. Mr. C. C. Aikins was again nominated for the office but said he would not be able to accept this time. Mr. Rolt was then proposed for the position and was unanimously elected. A vote of thanks was given Mr. Aikins for his services as director during the past year. The use of apple boxes for picking and the running of the grader were both advised and this will be the policy of the coming sea-The truck situation is not just clear at present but we understand that a larger truck is to be purchased for use here. Mr. Hilton Snider will be local manager this season and expects to assume his duties soon. He will handle the feed and get everything in shape for the handling of shook, which will be in about April 1st. Then there will be boxes to make, etc. Boxes will be sold knocked down or made up according to the wishes of the grower. They will be charged to the lot owner when taken away and he will be credited with the ones returned in good condition

The Ferry Company is making arrangements to get their large barge in the water and so be in shape to handle teams and heavy equipment of all kinds this season. Workmen have been engaged to caulk the barge and put it in good shape for

There was a large delegation from

TF the Ford Motor Company of Lanada, Limited, is able to build up to the limit of its capacity, only 27,350 Ford Cars will be built for use in Canada between January the first and July the thirty-first of this year. Divided among the total. population of Canada this means one car to every three hundred and ten people.

It is easy to see that many people will be unable to get their Ford Cars at all, and many will have to wait for summer or fall delivery.

As Ford Dealers in this territory, we desire to deliver a car to every person in this district who wants one, but we cannot get the cars unless we send in the orders now.

If you will need a car later on, don't wait till spring before ordering. Put yourself at the top of the delivery list by signing an order today.
