

## Teachers Present Their Case re Higher Salaries

Schedule of Salaries Asked by Summerland Teachers. A Comparison

The salaries asked for by the teachers of the Summerland High School and Public School and how different salaries were arranged as well as statements in support of the request of the teachers is contained in the following letter which has been handed to The Review with the request that it be published:

Summerland, B.C.,  
December 29, 1919.

Editor, Review:

Referring to the article in your last week's issue regarding the increase in salaries asked for by the Summerland teachers, a few facts might be of interest to the public.

Last spring the teachers of the Okanagan organized into an Association. The object of this association—and in fact of all the teachers' associations of the four western provinces, with which we are now co-operating, is to raise the standard of the teaching profession and in this way further the cause of education.

Now it is most obvious that the miserably low salaries paid is the greatest obstacle in the way of making the teaching profession a permanent one, and attracting into it and retaining in it men and women of energy and ability. To remove that obstacle is one of our present objects.

As conditions throughout the Okanagan are very similar our association drew up a very moderate salary schedule to apply to all schools in the Valley.

How extremely moderate this schedule is may be seen by comparing it with the schedule recently drawn up by the Vancouver teachers.

Summerland Vancouver Receiving	\$1140-1830	1250-2260
Jr. Grades	900-1200	1200-2200
Intermediate	1140-1830	1250-2250
Senior	1140-1830	1300-2200
Prin. Small		
Public School	2100	2500-3450
H.S. Assistant	1830-2000	1950-3450
Prin. Small		
High School	2400	3750-4200
Manual Training		
	1680-2160	1600-3300

It may be noted that in most cases the Vancouver minimum is equal to and in a few cases much greater than our maximum. With regard to the higher paid teachers it may be noted that the salary according to our schedule for a public school principal is \$400 lower than the minimum for a similar school in Vancouver; the maximum for our high school assistants practically equal to their minimum; and the salary of our high school principals is \$185 lower than the minimum asked in a school of similar size in Vancouver.

In some few cases the increases we ask for seem large, in one case 50 per cent., but this is entirely due to the fact that for five years, while the cost of living went up (who can tell how much?) say 50 per cent., no increase was made in those salaries. This fall a temporary increase of between 6 and 7 per

cent. was made. So that the increase now asked for, if spread over the last five years as it should have been, is really very moderate.

Penticton, and in fact most of the progressive districts of the Valley have shown that they consider our demands fair and reasonable by granting the salaries asked for. Surely Summerland is going to keep up with the times and do the best she can for the coming generation.

If Summerland is content to allow the salaries of her teachers to remain lower than those of the other Valley towns, then the inevitable result will be that she must be content with the poorer grade of teachers. But we trust that the people of Summerland will not be content with anything but the best, and if they get the best they surely will be willing to pay what it is worth.

Thanking you, Mr. Editor, for your valuable space,

S. A. MacDONALD,  
Prin. Public School.  
C. D. DENTON,  
for Prin. of High School.

### WEDDING

#### RICHARDSON-BROWN

A wedding of unusual interest to the community was solemnized at the home of Mr. and Mrs. J. Robert Brown on Beach Avenue, Summerland, B.C., on Monday, December 29th, 1919, when their daughter Mary Evelyn was united in marriage to Mr. John Arkie Richardson of Killam, Alberta.

Rev. J. H. White, D.D., Supt. of Methodist Missions, a personal friend of the family, officiated. The bride who was given away by her father, was charmingly attired in a Taupe dress of satin and georgette, trimmed with cerise and carried a shower bouquet of roses and carnations, and was attended by her youngest sister, Kathleen, who wore a dress of blue crepe de chine and georgette and carried a bouquet of pink and white carnations.

The groom was supported by the bride's brother, Ralph W. Brown. Two tiny nieces of the bride, Mona McLaine and Janet Craig, looked very sweet in dainty frocks as flower girls.

The groom's gift to the bride was a charming necklace of turquoise and pearls, and to the bridesmaid a pair of pearl earrings.

The esteem with which the bride was held was clearly evinced by the array of presents, both beautiful and costly, which she received.

The bride is the daughter of one of the pioneers of Summerland and was a very successful teacher in the primary department of the Public School, the trustees of which presented her with a silver cake plate with their names engraved thereon.

She was also presented with a purse containing \$60 by the united congregations of the Lake Side Church, and a Bible by the Sabbath School, as a token of appreciation

## Trustees Fix Salary List For Six Months

Increase High School Fees New Dom. Sc. Teacher

At a meeting of the School Board held on Tuesday, the appointment of Domestic Science instructor was given Miss Riley, who has been recommended for the position by a Vancouver teachers' agency. The tuition fee of the first and second year high school was increased from fifty cents to one dollar per month and all high school pupils will be required to pay three months in advance.

The question of teachers' salaries occupied much of the attention of the trustees who finally adopted the schedule as noted below, the same to be effective until June 30th next: High School—Principal \$1750, 1st assistant, \$1600; 2nd assistant, \$1560.

Public School—Principal, \$1800; Division 1, \$1300; Division 2, \$1000; Division 3, \$1000; Division 4, \$1000; Receiving Class, \$1100; Ward Schools, \$900; Domestic Science, \$1820; Manual Training, \$1800.

of her unwearied efforts both as leader of the choir and Sabbath School teacher. The bride is possessed of an exceptionally sweet and powerful alto voice, and willingly responded to any request to sing in the community.

After the ceremony a buffet luncheon was served at the conclusion of which the bride and groom motored to Penticton and boarded the steamer for Banff and Edmonton, en route to their future home in Alberta, amid the good wishes of all present.

#### DODWELL-HIGGIN

On December 24th, at St. Stephen's Church, Summerland, the marriage took place of Phillip George Dodwell, son of Frederick Dodwell, Esquire, of London, England, and Phyllis Mary Higgin, second daughter of C. Napier Higgin, Esquire.

In the absence of her father the bride was given away by Mr. G. R. Hookham, Mr. R. V. Agur acting as best man. The Rev. H. A. Solly officiated.

#### READ-HENDRICKSON

Mr. Horace Read, proprietor of Read's Garage, was married on Tuesday, December 30th in Seattle to Miss Alma Hendrickson of that city. Mr. Read went down to the Sound city just before Christmas and is expected back with his bride next Tuesday.

Dr. L. H. Appleby arrived here this morning from Vancouver to carry on the practice of Dr. F. W. Andrew until his return. Dr. Appleby, who is a graduate of Queen's University, served for three years overseas and since his return has been on the staff of the Vancouver General Hospital. The formal announcement in this issue with relation to Dr. Appleby will be welcome news to many people of Summerland and district.

## Data Covers Spring and Fall Frosts At Summerland

Balcomo Ranch Records Covering Twelve Years.

Valuable statistics on spring and fall frosts have been compiled by Mr. R. V. Agur of Balcomo Ranch, Summerland, and published in the latest bulletin of the B.C. Fruit Growers Association. The figures are given in tabulated form covering two pages of the bulletin and should be preserved by everyone who has received a copy of it. When forwarding the tabulated figures Mr. Agur wrote an explanatory letter which was also printed in the bulletin and which we reproduce here:

W. A. Middleton, Esq.,  
Asst. Secy. B.C.F.G.A.

We have kept official records for the Dominion meteorological service for the past twelve years, so the following figures should give something approaching an average to go by. Also, our location in regard to elevation from Okanagan Lake should represent about the average (on the safe side) for most of the orchards of the Southern Okanagan.

**Spring Frosts.**—The frost of May 24, 1918, represents the latest frost ever recorded at this station, i.e., since 1908. Our thermometer registered exactly 32 degrees. There would probably be a degree or two in low lying damp sections where there was poor air drainage. According to the table this frost cannot be considered as anywhere near an average date, i.e., in the twelve springs, 1908 to 1919, we had eleven chances to one that we were perfectly safe, say, in setting out tomato plants, planting corn, etc., by May 15, and reasonably safe on May 10. Regarding the extent of the frost damage to crops, through the frost on May 24, 1918, I have no exact data. The indirect loss would be considerable for the reason that in tomatoes, alone it destroyed practically all the early plantings, which meant the grower losing the early and high priced market for his tomatoes. There was also a direct loss through having to buy and set out new plants, which in many cases were inferior or worthless imported hot-house stock. In the case of tree crops there were many growers who lost even their apple crop, and it hit stone fruits hard in many sections.

**Fall Frosts.**—The frost of October 24, 1919, was also a record breaker, i.e., for severeness. Our thermometer registered 17 degrees, or 15 degrees of frost. As far as an early frost date is concerned, this year's frost has not established any record. In fact, the records show that after October 15 frosts from one to five degrees are the rule rather than the exception, and after the 15th we are taking very heavy chances. From our records and experience we feel strongly that all growers should endeavor to have their crops harvested by the 15th and consider the 20th of October as the danger date.

Another exceptionally outstanding frost, like that of May 24, 1918, was the one that visited this valley on November 11, 1911, when our thermometer registered 4 degrees below zero. Following this early freeze up (when the leaves stayed on the apple and pear trees most of the winter) firelight broke out in the spring of 1912 and caused one (Continued on page 8.)

## Valley Boards of Trade in Conference at Kelowna

Important Resolutions Adopted to go Before Forthcoming Provincial Convention

Three resolutions from the Summerland Board of Trade were submitted for endorsement by the Associated Boards of the Valley at a meeting held a few days ago at Kelowna at which the Summerland Board was represented by Vice-President H. A. Solly and Secretary F. A. C. Wright.

The meeting was the first of its kind to be held since before the war. S. T. Elliott, president, was re-elected and Mayor Sutherland of Kelowna appointed secretary until the next meeting which will be held in August. At the Kelowna meeting it was agreed that a short conference would be held at Penticton prior to boarding the train for the Provincial conference of Boards of Trade to be held in Vancouver early in February.

## Buy's Forty Acre Orchard Tract At Penticton

Through a deal which has been pending for some time and which has just been concluded Mr. Muir Stewart becomes the owner of quite a tract of land within the municipality of Penticton, known as the Munson property. The area purchased by Mr. Stewart includes forty acres of bearing orchard.

The purchase was made from Mr. A. Jones, who has thus disposed of the remainder of the Munson ranch, of which he was at one time foreman and which had been purchased by him from the former owner. Several ten acre blocks had previously been sold by him to individual buyers. The price of the block purchased by Mr. Stewart is said to be something over \$40,000.

In addition to the forty acres of orchard and some other land of considerable value the tract includes the knob known as Munson's Mountain, covering about fifty acres.

It was W. C. Kelley who put through the deal, which is said to be one of the largest that has been made for some time in the southern part of the Valley.

## Unusual Treat For Summerland

Artists of exceptional talent, such as are rarely heard outside of large centres are to visit Summerland this winter, and will come before the people of Summerland under the auspices of the Ladies' Hospital Auxiliary. These artists come to us through a Lyceum bureau. Dr. Frank Bohn, a nephew of Premier Lloyd George, an author, publicist, lecturer and humorist, will be one of the attractions of this course. Dr. Bohn has been a tremendous success wherever he has appeared in the great American cities.

There are few who have not heard and are not in a measure acquainted with Ida M. Tarbell and her great work as a publicist, author and journalist. We believe she was the only woman delegate to the great Peace Conference and she is coming direct from France with a great lecture on the conference.

A musical evening is another number in this course when a company of artists, headed by Sam Lewis, the great Welsh tenor, will be here on Wednesday, January 14th. Mr. Lewis is described as the greatest lyric tenor now on the American continent. Miss Ruth Lavory, one of America's finest young violinists, Miss Irene Haruff, soprano and accompanist, and Miss Amber Hopkins, reader and entertainers are other members of this company of artists.

#### THE BETTER WORD.

One of the most beautiful and significant words in the language is Christmas. It is to be regretted that the abbreviation "Xmas" is again making its appearance. Let's all resolve to use the longer and better word hereafter.—Boston Post.

Endorsation, was given a resolution from Summerland asking for free ferry service, particularly between Westbank and Kelowna. Failing this the resolution requested that all ferries in B.C. be placed on the same footing and a standardization charges made equitable to all parts of the province. The resolution further pointed out that the ferry schedule of two trips per day each way between Westbank and Kelowna is wholly inadequate and complained that an exorbitant rate is charged for special ferry trips and requested the Government to provide free ferry for at least six trips each way per day.

Mr. J. W. Jones, M.L.A. expressed doubt of the Government granting a free ferry. He believed a more probable course would be the putting of all ferries in the province upon a toll basis.

Another Summerland resolution urging upon the Government haste in building a motor road between the Interior and the Coast, was also endorsed. This resolution requested the Government to raise the necessary capital for this work by loans or other means.

Still another resolution from the Summerland Board which was endorsed urged that municipalities be given a share of the automobile license fees.

In regard to the trans-provincial highway of which the Interior-Coast road would form a link, Mr. Jones stated there was a possibility that a start might be made on this road next spring as the Dominion Government had agreed to meet 40 per cent. of the costs.

The Secretary was instructed to send copies of these resolutions to the Good Roads Association, the Associated Boards of Trade of B.C. and to the members of South Okanagan, North Okanagan and Similkameen.

Other resolutions endorsed by the Associated Boards included an urgent request to the Federal Government to enact such legislation as will effectively prevent the owning and leasing of land in this province by Orientals. Copies of this resolution were ordered to be sent to the Premier and all Federal members of B.C. and it was decided to solicit the co-operation of the G.W.V.A.

Another resolution asks the C.P.R. to give train connection at Okanagan Landing with the passenger steamer on its arrival there. At present there is a three hours' wait before the train leaves the Landing.

The meeting endorsed the request of the Penticton Board of Trade for the completion of a highway on the east side of Dog Lake and for a new road between Okanagan Falls and Vaseaux Lake.

The Government will be asked to use every effort to have the Kamloops-Kelowna line ready in time to assist in moving the 1920 crop. This resolution pointed out the heavy loss suffered by the growers in the past through shortage of cars. The Vancouver Board of Trade and the coming convention, will be asked to support this resolution.

Penticton is reviving the question of a mail car on trains between Midway and Hope. At the present time a mail car runs between Nelson and Midway, and another between Hope and Vancouver. The meeting resolved to petition the Postmaster General to establish mail car service between Midway and Hope.

The visiting delegates were entertained to dinner in the Lakoview Hotel by the Kelowna Board of Trade.

Manager Doble of the Okanagan Telephone Company was also a guest of the Kelowna Board and took advantage of the occasion to present his arguments in support of a single telephone system in the Valley. He denied that there was anything in the story that the B.C. Telephone Company was waiting to buy out the Okanagan Company, but stated that the latter would probably buy the B.C. Telephone Line between Kamloops and the Okanagan.

## Corporation of the District of Summerland

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Corporation of the District of Summerland that I require the presence of the said electors at the Municipal Office, West Summerland, on the 12TH DAY OF JANUARY, 1920, AT 12 O'CLOCK NOON, for the purpose of electing persons to represent them in the Municipal Council as Reeve and Councillors, on the Municipal School Board as Trustees and on the Board of Commissioners of Police as Police Commissioner.

The mode of nomination of candidates shall be as follows:—  
The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and two p.m. of the day of the nomination; and the said writing may be in the form numbered 5 in the Schedule of this (Municipal Elections) Act, and shall state the names, residence, and occupation or description of each person proposed, in such manner as sufficiently to identify such candidate, and in the event of a poll being necessary, such poll will be opened on the 17th day of January, 1920, at Mr. W. J. Robinson's office, Summerland, for Wards I. and IV. and at the Municipal Office, West Summerland, for Wards II. and III. of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for Reeve, Councillor and Trustee are as follows:—

The qualifications for Reeve shall be his being a British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial assessment roll, of five hundred dollars or more over and above any registered judgment or charge, and being otherwise duly qualified as a municipal voter.

The qualifications for Councillor shall be his being a British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the municipality of the assessed value, on the last municipal or provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the municipality for the space of one year or more immediately preceding the day of nomination, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, or being a homesteader, lessee from the Crown or pre-emptor who has resided within the Municipality for a portion of one year immediately preceding the nomination, and during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, and being otherwise duly qualified as a municipal voter.

The qualifications for School Trustee shall be his being a British subject of the full age of twenty-one years actually residing within the Municipal School District and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office of land or real property situate within the municipality of the assessed value, on the last municipal or provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the Municipality for a period of one year immediately preceding the nomination, and during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, and being otherwise qualified by this (Public Schools) Act to vote at an election of school trustees in the said school district.

Given under my hand at Summerland, this 31st day of December, 1919.

F. J. NIXON,  
Returning Officer.

## Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

West Summerland, B.C.,  
December 26th, 1919.

To the Editor, Review.

Dear Sir,  
As the time at the mass meeting held to discuss hospital problems was so ill apportioned between speeches and discussion, will you kindly give me space in your columns for certain points which I was unable to present to a tired and restless audience.

It is quite evident from the vast expanse of full length figures that responded to the "Aye" vote on the resolution, that small districts as well as nations, may suffer from excessive diplomacy. The attempt to manipulate the public mind to divert a noble sentiment to the provision of a common utility, was apparently successful.

Perhaps the most pertinent speech of the afternoon was that of a man who rose to ask, "In what sense could the hospital be called a war memorial?" Here was a clear thought unclouded by a flow of eloquence—a most desirable thing at a business meeting. Indeed, it was so clear and unclouded that, like the sun in similar condition, few eyes could face it.

Let us occasionally indulge in those neglected pastimes, facing facts and telling the truth. The exercise is of benefit whether undertaken individually or as a community.

How, indeed, can any public utility which the citizens of an up-to-date municipality provide for their own convenience as soon as they can afford it, be called a war memorial? In less than ten years Summerland will be hopelessly behind the times if the hospital is not municipally owned and maintained by an annual levy. This logical plan is meeting with such astonishing success in Saskatchewan, that Manitoba and Alberta have legislated in its favour, and B.C. will probably do so at the next session. Where all share alike in the support of the institution, the cost to each is small, in one of the leading districts in Saskatchewan the levy for hospital maintenance being two mills or about \$6.00 per quarter section, and from this tax the board not only covered operating expenses, but built a fully modern nurses' home in 1918 at a cost of \$15,000.

We are treated to a lot of mushy sentiment about the nobility of caring for the sick. Caring for the sick is an economic necessity, as is caring for the well in order to prevent illness, and there is nothing strikingly noble about either unless the service rendered be aside from the ordinary path of duty, and gratuitous.

There is a story of a man whose dearly loved brother died while engaged in public work. The man was poor, but hoped to be able soon to express a little of his heart's emotion through the medium of a simple stone erected in memory of the dead and his worthy deed. In

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Horse Stable, Experimental Farm, Summerland, B.C.," will be received until 12 O'CLOCK NOON, THURSDAY, JANUARY 15, 1920, for the construction of a horse stable at the Experimental Farm, Summerland, B.C.

Plans and Specifications can be seen and forms of tender obtained at the offices of the chief architect, Department of Public Works, Ottawa, the Superintendent of the Experimental Farm, Summerland, B.C., the Resident Architect, Victoria, B.C., and the Superintendent of Maintenance, Department of Public Works, Vancouver, B.C.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender. War loan bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

By order,  
R. C. DESROCHERS,  
Secretary.

Department of Public Works,  
Ottawa, December 20, 1919.

an unfortunate fire he lost among other valuable possessions, all his shoes. How to provide himself with another supply of good strong serviceable footwear so necessary for his health without touching the small amount he had set aside for the stone he did not know. After much thought, he came to the conclusion that his brother would much rather have him provided with the necessities of life than lie under a heavy stone, which was true. "Why not," he then argued, "let this necessary expenditure stand as a memorial to my brother? I'm sure he would think it most sensible." The more he thought about it the more the idea appealed to him, and he forthwith decided to purchase the best shoes, not ordinary, common shoes such as had hitherto sufficed, but extraordinarily good ones, and, in addition, to wear always pinned upon his breast, a small tablet engraved with his brother's name, and the fact that the worthy shoes in which he stood and found much comfort were worn as a memorial to his dead brother. When he first voiced his intention, a neighbor, who was fortunately feeling polite that day remarked to his wife, "Poor fellow! He is laboring under a delusion." When he carried out his intention, even his best friends said, "Poor chap, he's impossible. He lost more than his shoes in that fire."

The stone which one of the speakers added to the proposed edifice and so cleverly placed "to catch the first gleam of the rising sun and the last ray of the setting sun" is too obviously a recognition of the concession to the existence of something approximating pure sentiment in the hearts of at least a few of the citizens of Summerland. That stone upon its pinnacle might be a memorial to our dead, a municipal health insurance office building, never!

Thanking you for the space, and hoping that you will understand that this is written with no personal ill-feeling to anyone,

I am, yours very truly,

LILY FOSEBURY.

There are 700 telephones in Kamloops.

An Englishman, thinking to put one over on an Irish friend, said to the latter, "I say, Pat, if you weren't an Irishman, what would you be?" The somewhat disconcerting retort came back, "Sure, and I'd be ashamed of myself."

Silk worms hatched from an ounce of eggs eat a ton of mulberry leaves and produce from 150 to 200 pounds of silk.

### Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.  
 Pre-emption now confined to surveyed lands only.  
 Records will be granted covering only land suitable for agricultural purposes and which is timber land.  
 Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.  
 Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.  
 Where pre-emptor in occupation not less than 5 years and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.  
 Records without permanent residence may be issued, provided applicant makes improvements to extent of \$500 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.  
 Pre-emptor holding Crown grant may record pre-emption of land he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.  
 Unsurveyed areas, not exceeding 80 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.  
 For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.  
 Mill factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.  
 Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.  
**PRE-EMPTORS' FREE GRANTS ACT**  
 The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.  
 No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 30, 1918. Taxes are remitted for five years.  
 Provision for return of moneys accrued due and been paid since August 1, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.  
 Interest on agreements to purchase town or city lots held by members of Allied Forces or dependents, acquired direct or indirect, remitted from settlement to March 31, 1920.  
**SUB-PURCHASERS OF CROWN LANDS**  
 Provision made for issuance of Crown grants to sub-purchasers of Crown Land, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.  
**GRAZING**  
 Grazing Act, 1917, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on number of registered head of established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

## Naramata News

Current Events of Town and District

Mr. and Mrs. Wm. Steele of Mineola, who have been the guests of Mr. George Cook for a few days, returned to their home on Saturday.

Mr. Harold Mitchell returned on Wednesday from the coast cities, where he was obliged to go for medical treatment. His many friends are glad to know that he is much improved in health.

Mr. Wm. Mitchell spent a few days last week at the coast. While there he called on Mr. Matt. Wilson who is in the Vancouver General Hospital. He reports that Mr. Wilson is improving very slowly.

Mr. Gerald Lumsden has gone to his home in Vancouver to spend the holidays with his people.

At the last regular meeting of the Unity Club there was a good attendance, and the Misses Gladys, Dorothy and Marguerite Robinson acted as hostesses. A very entertaining Christmas program was given, consisting of a vocal solo by Miss Emily Seevers, piano solo by Mrs. Green, a Christmas editorial by Mrs. Howard Rounds and a Christmas story by Mrs. A. Aveson. At the conclusion of the meeting all joined in singing Auld Lang Syne. Mrs. Routh will be hostess at the next meeting.

The packing is now finished and everyone is resting or planning winter trips till spring comes to start them in on what promises to be a very busy season.

Mr. Lawrence came back from the coast last week, where he had been on business.

Mr. Fred Roe made us a hurried call on Christmas day. He motored up from Penticton to have a little visit with his relatives.

Mr. and Mrs. Vic. Watson of Princeton were the guests at Christmas of Mrs. Watson's mother, Mrs. E. Wells.

The Misses Robinson and W. A. Robinson were the guests of Mr. W. J. Robinson at Summerland on Christmas.

Mr. R. C. Robinson spent Christmas day in Summerland at the home of Mr. and Mrs. J. L. Logie.

Mr. F. Dean's family who have been assisting in the work at the Union packing house during the season have returned to their home in Okanagan Centre.

Mrs. Gordon Baine has gone to Vancouver to visit her sister for a few days.

Miss Lois Wells left Sunday for Princeton where she will spend a few days with her sister, Mrs. Watson.

Miss Stonehouse is visiting in Vancouver for the holidays.

The Christmas spirit was sadly lacking among our business houses this year until we came to the store of Mr. Julius Block which was very finely decorated with different kinds of rare evergreens procured and displayed to advantage by Mr. A. Aveson.

### Town Basketball Team Loses Out at Penticton

On Monday, December 29th, the Summerland Basketeers journeyed to Penticton to try conclusions with two Penticton teams.

The first game played was between a mixed aggregation from West Summerland and Penticton junior team.

This game was too one sided to be interesting, the West Summerland team having decidedly the better of the play in both halves. Final score being 26-6 in favor of West Summerland.

The second game between the Town and Penticton was a good game and full of excitement, both teams playing strenuously and roughly with minor casualties on both sides.

In the first half of the game Penticton went off with a rush and although the checking was hard and rough our boys were apparently unable to hold their opponents, and Penticton had decidedly the better of the game, the score at half time being 20-6 in favor of Penticton.

In the second half of the game it soon became apparent that the Penticton team had played themselves out in the first period, the Summerland team had all the better of the play, their opponents only scoring one field basket in this period. This half was equally strenuous and rough, and the referee had occasion to warn some of the players for their roughness. The Town boys had the ball nearly all the time but were handicapped in their shooting by the low rafters. It was only time that saved Penticton from defeat, and if the game had gone on another five minutes the result would have been different. In this half the local team scored 12 points to their opponent's 2. The final score being 22-18 in favor of Penticton.

For the Town, Ralph Brown did the majority of the scoring, making 5 field baskets and converted 2 fouls; Roland Reid, 1 field basket and 2 fouls, and Hilton Snider, 1 field basket.—Contributed.

### Movement to Revive Local Band

Editor, Review:  
 Dear Sir,

A meeting for the purpose of discussing the resurrection of the Summerland Brass and Reed Band will be held in Campbell's Hall, Monday, January 4.

As one of the original perpetrators of that world-famed organization I have been asked to boost this meeting and to ask all interested to be on hand. We have music, instruments and some uniforms available, and there should be no dearth of musical talent among the young men of the locality. A capable conductor in the person of Mr. E. Hutchinson can be secured, and if sufficient interest is shown work can be begun at once.

Our old band was one of the best advertisements this place ever had and it should not be difficult to duplicate its successes.

Yours truly,  
 J. W. S. LOGIE.

### Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. In this they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

### INVENTORY OF B.C. WATERPOWER

According to the comprehensive report just issued by the Commission of Conservation on the Water Powers of British Columbia, a copy of which has just reached this journal, it is estimated that 3,000,000 twenty-four hour horse power may be developed from the waters of the province. This estimate is, admittedly, not conclusive and may be misleading, especially if compared with other totals where "no real basis for comparison has been established." The mountain systems, glaciers, snow fields and widely variant precipitation make the power question in British Columbia a unique one, and render difficult comparisons with other provinces. There are already about 250,000 horse power developed, also estimated on a 24 hour basis. For various reasons a number of the possibilities on such rivers as the Fraser, Thompson, Skeena and Naas cannot be economically developed under present conditions. Moreover, it was not possible to make adequate estimates of the power potentialities of the more northerly portions of the province. As the country becomes more developed considerable additional power may be found available.

The author of the report, Mr. Arthur V. White, deals fully with the relationship between water as a source of power and its use for domestic and municipal supply, agriculture, irrigation, navigation, fisheries, mining, forestry and riparian rights. These problems are too frequently neglected in surveys of water powers. The development of the country's natural resources can best be carried on when each of them is given adequate consideration. It is a mistake to concentrate on any single resource such as water power, or the soil, or the forests, to the exclusion of all others. They are naturally interdependent.

As every engineer knows, it is necessary to obtain records of stream flow, precipitation and natural storage for a period of years to arrive at average conditions, before attempting to estimate the amount of potential power. Power possibilities at present must be based on the minimum flow of streams. In many instances, however, artificial storage may be used economically and perform a double function of reducing floods and increasing the amount of available power.

The report deals at length with historical aspects of water legislation in British Columbia. A useful feature is the chronological key to water legislation in British Columbia from 1858 to 1917. The chapter devoted to power developments discusses the subject from a historical standpoint which adds materially to its value and interest.

A large amount of stream flow data has been assembled, and carefully analyzed. Meteorological data has been compiled with similar care, a feature that adds much to the value of the report from a technical standpoint.

A convenient set of hydraulic conversion tables as well as a list of bench marks on the Vancouver Island and Pacific Mainland coasts are given in the appendices. As a work for reference purposes the report is greatly enhanced by the inclusion of a full bibliography and an index.

### Teachers' Assoc'n Writes Trustees On Salary Question

The school boards of the various school districts throughout the Okanagan Valley have each recently received the following communication from the Okanagan Valley Teachers' Association:

The Okanagan Valley Teachers' Association, which is now affiliated with the British Columbia Teachers' Federation, has endeavored by co-operation with the United School Boards to remove the inequalities in salaries paid to teachers doing virtually the same work. At our last conference with the trustees in Vernon a scale of salaries, providing for a standard wage for experienced teachers, was presented.

We are pleased to state that in a few instances, Vernon and Penticton in particular, an effort has been made to meet our moderate requests. In the majority of school districts, and these are the ones in general where the greatest injustice prevails, no attempt has been made to pay the teachers a decent living wage.

Our association is formed for the purpose of promoting and improving the cause of education, and to this end hopes for the sympathetic co-operation of every school board. The question of salaries holds a minor place in our programme, but the glaring inequalities and rank injustice which obtains in many places as regards the salaries paid has brought this question to the forefront.

Our executive members are anxious that no drastic move be made by the teachers to secure a uniform standard salary, but we feel that we should enter a strong protest regarding the indifference that has been shown the requests we have made through the executive of the United Boards. We enclose herewith a copy of the report of our salaries committee, presented to the Trustees at the Vernon conference, and would request that where there has been no reasonable recognition of the schedule contained therein, you again give the matter your most serious consideration. If there is any real difficulty in adopting it at once we urge that it be

### Alleged Infractions Motor Traffic Law

Three Summerland citizens, two of them minors, were brought before Magistrate Guernsey last week by Provincial Constable King. The two boys, Ernest Riley and Clifford Roe, were accused of driving motor cars illegally, being under 17 years of age. Mr. T. H. Riley was charged with having a motor car on the public highway without a license plate.

Mr. Riley was defended by Mr. W. C. Kelley. During the latter's examination of Constable King the constable practically admitted that he was not sure that the car was on the public highway when he saw it. Mr. Riley in his evidence stated that the car had been in the garage close by for some repairs which necessitated the removal of the license plate, and had just been returned to him and was standing beside his office. The case was dismissed, the charge not being proven.

Because of irregularities in making the charges against the boys in which the latter were accused instead of the owners of the cars, and the failure to state the day on which the offences occurred the Provincial Constable did not press these charges and the boys were dismissed.

### CONCEPT OF SEX.

The feeling of superiority in the sterner sex is inborn.  
"Mama, do you think you'll go to heaven?" said Jack, looking thoughtfully into his mother's face.  
"Yes, dear, if I'm good," said the mother cautiously, wondering what was coming next.  
"Then please be good, for papa and I would be lonesome without you."

made an issue at the 1920 municipal elections, or at a public meeting called for the purpose of discussing it. The question to be decided is, "Shall our schools be kept open?"

Signed on behalf of the executive, O.V.T.A.,  
D. J. WELSH, President.  
A. S. Matheson, Cor. Sec.

## .. The Winding Trail ..

What strange instinct is that which prompts mice THE MUSICIANLY to select the keyboard of a piano as a suitable place MOUSE in which to build their nests? One would imagine that the thundering of a bichord bass at such close quarters must be anything but a soothing lullaby, and that the first fortissimo passage, say from Wagner's Dance of the Valkyries, would incontinently blanch their coats from dun colour to white, or at least piebald! But no such thing happens, and if the happy family are not routed out, they will dwell in harmony until parted and scattered in the natural course of events. We might conjecture that there existed some musical tendency in such families if we found that their progeny developed that talent for singing which some individual specimens are known to possess, but no such result has been observed, and we have no more evidence to support such a theory than we have for the predilections of a whistling oyster or a dancing rat. The singing mouse, by the way, I personally know to be actually existent, since I have heard them and had them in captivity; the dancing rat I have had reported on very good authority; but of the whistling oyster I know nothing beyond the pages of Tom Hood the younger. In these may be found an illustrated epic relating to a duet between an oyster who whistled "Shells of the Ocean" to an accompaniment on the comb and paper by a tortoise. How far this narrative was based on actual natural history observation may perhaps be judged by the alleged incident of the tortoise suddenly bursting into tears on finding that the comb from which he was extracting sweet melody was made of tortoise-shell! Nevertheless the singing mouse and the mouse in the piano are matters of history beyond dispute.

### AN APOLOGY— OF A SORT

The current number of the Agricultural Journal contains what purports to be an editorial apology for that publication's repeated attacks on the Retailers' Association. It is satisfactory only in so far as it contains an admission of a mistaken policy; as a frank and cordial apology it leaves a great deal to be desired. In it the editor admits that "it was unwise to make a general assertion which would reflect discredit on all members of a business organization." As a matter of fact it was far more than "unwise"—it was grossly unfair, and requires much more than "enthusiasm" for co-operation to palliate it. A government publication has no right to "enthusiasm" in favour of any class or method to the detriment of others. When it treats that path it becomes a class journal pure and simple, and such a publication, supported by public money, is, or should be, entirely out of the question. The real test of this tentative apology will be found in the editorial attitude in future issues, and there it may be left for the present.

§ § § § §

Is music just a luxury, or should it form part of the THE SCHOOLS. training of children in our schools? This is a question often put, yet it really admits of only one answer, and should not be considered as doubtful. Take music out of national life and there would be a deadly void which could hardly be expressed. Martin Luther said, "Next to theology, I give to music the highest place and honour." Doubtless he had the Church chiefly in mind at the moment, but such was not the case with Bovee, when he wrote, "Music is the fourth great material want of our natures—first food, then raiment, then shelter, then music." During the late war the Red Triangle organization of the Y.M.C.A. showed its practical good sense by liberal provision for music in its huts, and many a weary Tommy reaped the benefit of its wisdom. Obviously the school is the logical stepping stone to musical training amongst our children, and vocal music should form part and parcel of their daily instruction. For this purpose an instrument of some sort is a necessity, and it is a good sign that very few schools are to day lacking in this respect. Some schools, in fact, go further. Only the other day I came across a school in this Valley which, already possessing an organ, has recently bought a phonograph of fine quality, and uses it daily as an aid to musical training. The place in question is hardly one fourth as large as Summerland, but what it lacks in size it seems to make up in well-directed ambition. As to the why and wherefore of this paragraph, I can use the famous aphorism of one Capt. Jack Bunsby, "The bearing of these observations lies in the application of 'em'!"

AUTOLYCUS.

### High Rates For Irrigation Water

Penticton Finds it Necessary to Increase Charges to \$10 Per Acre.

Penticton will ask the Provincial Government to place the municipal irrigation system under the control of the Public Utilities Commissioner. This proposed step is to be taken for the purpose of making possible an increase in the irrigation rates. The agreement limit on the bench is \$5 per acre with \$2.50 on the flat. The existing bench rate is \$4.25 and the flat rate is up to the limit. In order to provide for the carrying charges of the new \$97,000 by-law the rates must go up to about \$10 per acre, otherwise the money will be levied from the general taxation which already sustains an annual irrigation department loss of over \$2,000.

If the system is put under the Public Utilities Commissioner the rates can be increased despite any existing agreements, the council finds, hence its decision to adopt that course.—Penticton Herald.

Two old Scotchmen sat by the roadside, talking and puffing away merrily at their pipes. "There's na muckle pleasure smokin', Sandy," said Donald.  
"Hoo dae ye mak' that out?" questioned Sandy.  
"Weel," said Donald, "ye see, if ye're smokin' yer ain' bacee ye're thinkin' o' the awfu' expense, an' if ye're smokin' someither body's, yer pipe's ramm't an' tight it winna draw."

Take good care of what little common sense that you have, for the world's supply doesn't begin to equal the demand.

### THE SAM LEWIS COMPANY.

A treat for all music lovers is in store in the coming of the Sam Lewis Company on the Lyceum Course on January 14. Headed by the prominent Welsh tenor, it is a combination of artists with unusual talents.

Sam Lewis is a concert singer of the first rank. He has a lyric tenor voice, vibrant and robust. Competent critics proclaim him as one of the few great Welsh tenors of his generation. He has appeared in concert the continent over and always with unqualified success.

Miss Ruth Lavery, violinist of the company, is one of the finest young artists in the country and is destined to accomplish great things in the musical world. Last winter in the annual contest conducted by the Associated Musical Clubs of Illinois, Miss Lavery was awarded first place among the musical students of the state.

The other members of this splendid artists' company are, Miss Irene Harrut, gifted pianist and soprano, Miss Amber Hopkins, reader and entertainer.

### HE GOT HIS NUMBER.

An Irishman once boarded a train in which every seat except one was occupied. This seat had as occupants a young sport and a large shaggy dog. The Irishman stood at the seat expecting room would be made for him. The young man did not take the hint but regarded him with undelighted scorn. At last Mike remarked: "That is a foine dog you have. What breed is he?"

"It's a cross between a skunk and an Irishman," was the snoring answer.

"Shure, then—it's a relative of both of us," came the instant retort.

## Okanagan Ambulance League

A Meeting of the Summerland Branch of the Okanagan Ambulance League, in the Parish Hall, on Monday, January 5th, at 2.30 p.m.

A proposition to continue the work of the Red Cross under the management of the Ladies' Hospital Auxiliary, and in future working for the Summerland Hospital, will be considered.

The report of the Secretary-Treasurer for the past year will be submitted.

NOT A STRAIGHT ANSWER.

"The average individual," said a Scotland Yard official, "can't give a detective simple, plain, straightforward information. Questioned by a detective he becomes as involved and difficult as the office boy."

"A detective asked an office boy if it was Mr. Jones or his partner who reached the office first as a rule."

"Well," said the boy, turning very red, "Mr. Jones at first was always last, but later he began to get earlier, till at last he was first, though before he had always been behind. He soon got later again, though of late he has been sooner, and at last he got behind as before. But I expect he'll be getting earlier sooner or later."—L.O.

Passing Events: Social, Personal, &c.

Mr. C. H. Cordy spent the Christmas holidays with his family here.

Mr. G. J. C. White has sold four lots at Penticton which he has held for some time, to Mr. C. W. Coss, an Anarchist Mountain farmer.

Mrs. McMillan, who was called to Vancouver early in December, because of the illness of her mother who has since died, returned home by K.V.R. this morning.

Capt. H. A. Pearson who has been military Y.M.C.A. secretary for Alberta and B.C. has been appointed industrial secretary for the same territory, but will still be in charge of the military work also.

Ralph Brown, who has been appointed a field supervisor in connection with the Soldier Settlement work, went up to Vernon this morning to take on his new duties. He expects to be transferred shortly, probably to Penticton.

Mrs. C. W. Lees, who, with her little daughter has been visiting her parents Mr. and Mrs. W. H. Hayes, went up the lake this morning to meet Mr. Lees and with him return to their home in Kelowna. Mr. Lees has been visiting in the east.

Coming in from Vancouver on Monday morning J. Lawler is spending a week here. He and Mrs. Lawler will return to the coast for another short visit. Mr. Lawler is looking much better having gained in flesh considerably during his stay at the coast.

C.P.R. trains are still running on summer schedule but the winter time table will come into effect on Sunday, January 18. The fast train, Trans-Canada, Limited, was taken off December 31. Just what change, if any, the winter schedule will make in the lake service and on the K.V.R. is not yet known.

Mr. T. E. Clay, a former citizen of Summerland and father of Mrs. E. N. Rowley, was taken seriously ill at his home in Vancouver on Christmas day and removed to St. Paul's Hospital. According to news received this morning he was not expected to live past midnight last night. Mr. Clay has been in poor health for several years.

Mr. and Mrs. Geo. T. Mann and their two daughters are recent arrivals here from England. Mr. Mann is a brother of the Rev. Oliver Mann and has come here with his family to make Summerland their home. They are living next door to the Rev. O. Mann in Peach Orchard, in what is commonly known as the Fulton cottage.

Principal McIntosh of the Summerland High School, who has been ill for some days with a bad cold, which later developed into a light case of pneumonia, is now improving. He will not be able to resume his duties at the high school when the school re-opens on Monday. Mrs. R. C. Robinson has been engaged to teach during the Principal's absence.

The public and high schools re-open on Monday next.

Mr. and Mrs. Jas. Ritchie and family spent Christmas at Kaleden.

Miss Marion Harwood was a visitor at the home of her parents over the holidays.

Edward Logie came up from Vancouver to spend the holiday season with his parents.

Dr. and Mrs. Andrew expect to sail shortly from San Francisco on a visit to Honolulu.

Mr. G. R. S. Blackaby of the Bank of Montreal spent Christmas with friends in Kelowna.

Mr. and Mrs. C. E. McCutcheon and children are spending a few days' vacation in Vancouver.

Miss Kathleen Brown went out by K.V.R. this morning to take a course in normal school at Vancouver.

Mr. and Mrs. C. J. Duncan went down to Vancouver just before Christmas. Mr. Duncan expects to return immediately.

Miss Belle Vanderburg has taken a position as teacher at Graham's Landing and leaves this week-end for the Arrow Lakes town.

Miss Madeline Elsey who is teaching at Hammond, spent the Christmas holidays here at the home of her parents, Mr. and Mrs. H. H. Elsey.

For the purpose of interviewing the Government in an effort to obtain as much assistance as possible from the Province in the building of the new hospital here, the Hospital Board has sent one of the directors, Mr. F. A. C. Wright to Victoria.

It is very probable that the Kaleden Hotel will be re-opened next spring. The present owner, Mr. J. D. Kennedy of Vancouver, will probably have associated with him a brother who is proprietor and manager of one of Vancouver's leading hotels.

Mr. and Mrs. A. H. Barker of Trail were the guests of Mrs. Barker's parents, Mr. and Mrs. R. Pollock, during the Christmas holidays. Mr. Barker returned to the smelter city on Sunday, but Mrs. Barker will remain with her parents for a few days longer.

H. G. Estabrook, formerly superintendent of Baptist Missions in B.C. and latterly engaged in Y.M.C.A. military work at Victoria, on troopships and in England, has taken charge of the Y.M.C.A. military department work in Vancouver and district.

An "R and P" tractor arrived here a few days ago for the municipality and has since been at work pulling a grading machine over some of the principal thoroughfares. Those who have seen the machine at work express every satisfaction with its traction power and ease of operation.

Cameron Barr returned last Friday from a visit to Scotland. Coming with him were his sister and her husband, Mr. Alex. McGown and three children. Mr. and Mrs. McGown have come with the intention of remaining in Summerland and are now living in the cottage on College Hill recently vacated by Mr. and Mrs. Geo. Elsey.

After some weeks spent at the coast Mrs. R. H. Holmer and daughter Miss Isabel arrived home on Sunday. Mr. Holmer went down to Vancouver and spent Christmas with them and accompanied them home. Mrs. Holmer had taken her daughter down to Vancouver for an operation which has been quite successful, and Isabel has been making very satisfactory progress toward restored health for some time.

It is unfortunate that more Summerland people were not privileged to attend the splendid program given in Empire Hall Tuesday night by a company of Penticton girls. The program was greatly enjoyed by the small number who attended. No doubt there would have been many more present had there not been two or three other previously arranged attractions. The nature of the program and the date should have been announced earlier in order to assure a satisfactory attendance.

Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

The annual meeting of the Ladies' Hospital Auxiliary, for election of officers and organization of work will be held at the end of the Red Cross meeting which is being called for 2:30 at the Parish Hall on Monday the 5th.

A call to prayer has been issued to the women of the Dominion in connection with the inter-church Forward Movement. The women of this community will meet in the Parish Hall on Friday, the 9th of January at 3:30 o'clock. It is desired that as many as possible will be present. A special program has been prepared which will be used that day throughout Canada.

BIRTHS.

PECK.—Born, to Mr. and Mrs. A. S. Peck on Saturday, December 27th, a son.

CARD OF THANKS

Mr. and Mrs. W. J. Tullett wish to thank their many kind friends and neighbors for the thoughtful and sympathetic help so freely given during the illness of their dear son and also to express their gratefulness for the many splendid floral tributes.

Mr. G. M. Ross spent Sunday here with his wife and child.

Cliff McWilliams was a visitor to Summerland over the week-end.

It is currently reported that the Duncan property, opposite A. E. Hespeler's has been sold to a Jap.

Mrs. J. R. Conway is visiting here with relatives. Mr. Conway also spent Christmas here with his mother and sisters.

SUMMERLAND HOSPITAL SOCIETY.

In order to enable the closing of the Society's books to December 31st all tradesmen are requested to render their accounts promptly.

THOS. H. RILEY, Secretary.

Summerland Weather Report

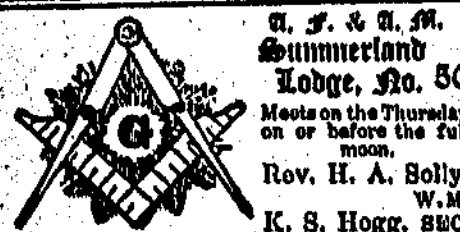

Below is a report furnished by the Dominion Experimental Station here, for the week ending Tuesday:

Table with columns: Date, 1019, Max, Min, Rain, Sun, Sunshine. Rows for Dec 17-36, 18-42, 19-42, 20-43, 21-46, 22-46, 23-46, 24-51, 25-44, 26-43, 27-41, 28-43, 29-39, 30-35.

During the absence of the undersigned, my office will be occupied by

L. H. Appleby, M.D. C.M., B.A., Late of the Vancouver General Hospital and a Graduate of Queen's University.

F. W. ANDREW, p.p. M. E. Blott.

St. Andrew's Sunday School Entertainment

Tuesday, December 23rd was the day long looked forward to by the members of St. Andrew's Sunday School and when they arrived at the church at 7.30 they found the building suitably decorated for the occasion and a large Christmas tree standing on the platform laden with sweet things.

The program furnished by the children was very interesting and greatly appreciated by those present. The boys and girls as they grow older improve in their ability to entertain their audience. The teachers are to be complimented on their painstaking efforts in training the children so efficiently.

The school program, which was presented by the superintendent, Mr. J. L. Logie, was as follows: Opening hymn, "Joy to the World;" chairman's address; chorus

by School; orchestra selection; chorus by Mrs. Beer's class; dialogue by Mrs. Harding's class; song, Miss Arkell; recitation, Primary Class; chorus by the school; solo, Muriel Bates; dialogue, Miss Sinclair's boys; song, Miss Harrison's girls; reading, Phyllis Freeman; exercise, Miss McCurdy; class; violin solo, Phyllis Cline; double duet, Misses Adams and Ritchie; reading, Alex. Smith; song by Miss McCurdy's girls; "Abide with Me," by Miss Harrison's class. This item was most beautifully rendered. The lights were lowered and a voice could be heard in the distance singing the hymn while the girls, dressed in white, represented Grecian maidens, and illustrated by different postures, each verse.

An orchestra selection and the appearance of Santa Claus brought the program to a close.

Seven children won prizes for regular attendance and two for memorizing certain passages of scripture. Attendance for the year totalled 4,295.—Contributed.

## Orchard and Farm: Topics of Timely Interest and Helpfulness in the complex Business of Farming.

### What Does It Cost per Ton or per Acre to Grow Tomatoes?

Cannot Sell for less than \$25.00 per ton, Say  
Kelowna Growers.

For some time the growers of tomatoes in the Okanagan Valley have felt that they were not being paid by the canneries enough for their stock, and in an effort to get at the actual cost of production of such a crop, a committee was appointed to make careful enquiry and to report. The report handed in by this committee was considered at a recent meeting of the growers about Kelowna, and the decision reached was that at \$17 per ton there was no profit in the crop under present conditions.

The committee consisted of Messrs. Leslie Dilworth, T. Swordy, P. Casorso, A. Patterson, T. W. S. Taylor and L. Kwashita.

The complete revised estimate ran as follows on a one acre basis and estimating the average value of the land at \$400 per acre:

Interest on investment at 8 per cent \$32.00

Preparation of land:	
Plowing	\$5.25
Harrowing	1.40
Discing	2.00
Floating	.50
	9.15

Cost of plants, including hauling, 3,000 plants per acre, at \$7.00 per 1,000 21.00

Provision for loss, 500 per acre 3.50

Planting per day, average 4 acres:  
Team and man, \$7.50;  
planter, \$2.50; four men, \$14.00; total \$24.00

Per acre 6.00

Poisoning: Bran, Paris green, etc.	2.50
Filling in plants	1.75
Irrigation water	3.00
Labor, irrigating furrows, 3 times	5.25
Cultivating, 5 acres per day, 5 cultivations	5.00
Hoeing twice, two acres per day at \$4.00 per day	4.00
Pruning, three times at \$4.00 per day, doing an acre per day	12.00
Picking, average crop, 12 tons, or 600 boxes per acre	42.00
Hauling and loading, \$2.00 per ton	24.00
Cleaning up land, per acre	4.00
Taxes (school and land)	3.00
Manure (spread)	20.00

Total cost per acre \$198.15

Continuing the estimate at the rate of 12 tons or 600 boxes to the acre, which was admitted to be a very high average, and taking the price received for the 1919 crop, \$17.00 per ton, the receipts from the acre worked out at \$204.00, leaving a balance of \$5.85 over cost. This amount, the meeting declared, was lost by waiting for boxes and by incidentals, so that the price of \$17.00 only paid the cost and left no profit. Acting on this belief the meeting passed a resolution that the growers should not and would not grow tomatoes for sale at less than \$25.00 per ton. They also passed a resolution in favor of asking the Ontario farmers to ascertain the cost of growing tomatoes in that province and to acquaint the farmers here of the figures.

### A New Oat

Free from Hull — Excellent  
for Pigs and Chickens

By C. E. Saunders, Dominion  
Cerealists.

The introduction of a good, new variety of hullless oats by the Experimental Farms Branch has not, perhaps, attracted as much attention as it should.

Free samples of this variety are now being distributed by the Dominion Cerealists at Ottawa. The stock on hand is not large, but as long as it lasts samples will be gladly sent to farmers in almost any district of Canada, as it is believed that this oat will be widely useful.

The full name of the variety is Liberty, Ottawa 480. It is derived from a cross made in 1903 between the well known variety, Swedish Select, and a hullless oat from China. The new variety is decidedly superior to the old Chinese sort.

Threshing out free from hull, this type of oat furnishes a concentrated product of extremely high value which has only to be ground in order to make the most excellent feed, especially for young pigs and chickens. When carefully enough cleaned for use as human food, it makes meal of surprisingly fine quality.

The Liberty oat has very good field characters, being rather early in ripening and having reasonably stiff straw. The yield (so far as kernel is concerned) is equal to about seven-eighths of that of Banner oats.

Farmers who are interested in the raising of hogs and chickens are strongly advised to give this new oat a trial. It has already proven

### FEEDING COWS.

Do not be surprised if your cows drop in their milk flow when not supplied with enough succulent feeds like silage or roots.

The idea in winter dairying is to make conditions as much like early summer as possible. Grass is the ideal food, and roots and silage, combined with good hay come next. The following simple rules will serve:—

1. Supply 35 or 40 pounds silage or 50 pounds roots per day to each cow.
2. Give all the clover hay the cow will eat up clean.
3. Of any good grain mixture give her one pound grain to every three and a half or four pounds of milk she yields, depending on the quality of the milk. Use some linseed or cocoanut oil cake anyway, but, use more if you have no roots or silage.
4. Water twice a day, not too cold.

A circus was travelling through Scotland, and when it got just outside of Dumfries a baboon died. Not wanting to be bothered with the body it was thrown over a hedge, into a field. Three Scotch farmers went that way, saw the baboon, and wondered who it was.

"He's no a Cameron," said one; "he's too broon!"  
"He's no a Macdonald," said the second; "he's too reed!"  
"And he's no a Macdavis," said the third; "he's too dashed guid-lulkin'! Away to yonder hoose an' see if there's an English visitor measin'!"

extremely satisfactory in some districts.

# Dr. F. S. Tolmie

Head of Canadian Agriculture.

(A Pen Picture by Peter L. Brown).

If you are ever fortunate enough to be introduced to Dr. Tolmie and he offers to shake hands with you—take my advice, and don't. I had the pleasure of meeting this breezy western farmer on the day of his arrival in Ottawa after his overwhelming success at the polls. The pleasure of meeting Dr. Tolmie was enhanced by the fact that we had just come through a trying experience of having met twenty or thirty of the bigger men in departmental work at Ottawa. These men have been in office for some time and Dr. Tolmie comes to Ottawa at the head of one of the most important departments in the government, with a breath of the western country, which is not only exhilarating in the extreme, but seems to be infectious wherever he is.

I have said that Dr. Tolmie is a big man. He is a big man in stature and he is a big man in brains. At the outset of this article I say, do not shake hands with him. I would like to qualify this statement and add that, if you are suffering from neuritis or rheumatism of the right hand, by all means shake hands with him. That grip of his kills all pain and you will feel it for days afterwards. That hand-shake is enough to make you study the man immediately. He is tall, stout, but well proportioned. He has clean cut features, snapping eyes that light up with enthusiasm once he gets on his pet theme of agriculture. The dignity of his position has not yet shown itself in Dr. Tolmie and I don't believe it ever will. A man who can remember his boyhood days and tell you with relish of these early days will never allow a position to make him an autocrat. Dr. Tolmie is a farmer, not an agriculturist. His is a

practical knowledge. Livestock breeding is one of his pet hobbies and he tells with great relish of his first attempts to carry off a prize at the age of 17. This was back in the early days of stock shows when there was only practically one shed to house the stock and at the back of this shed was the saloon. It is a treat to hear Dr. Tolmie tell of his labors in getting an old bull "dressed up" for this show, and how he slept that first night in the stall between his own bull and the competitor's bull, but he never got a prize with that animal. As time went on, however, he had the determination to win the first prize, and he got some imported "bloods" that ultimately got him the coveted prize. That is the big characteristic of Dr. Tolmie. He is a man who sets his hand to the plow and does not stop until the furrow is finished.

There are great days ahead for the Agricultural Department at Ottawa. Two practical men head this Department—Dr. Tolmie and Dr. Gridale. There is no theory about either of them and big things are expected from the combination. Dr. Tolmie is popular with his staff and he could not be otherwise. His smile is infectious and so is his laugh. The solemnity which generally is part and parcel of civil service work will certainly disappear very quickly in the Agricultural Department, for it is a mighty hard thing for Dr. Tolmie to allow any one to be serious, no matter how serious the question. His breezy westernness, his sunny smile, and his indomitable perseverance will do more for the Department of Agriculture than anything else has ever done. The staff of this department

### TALLEST BRITISHER.

Compared with Patrick O'Connor, Albert Brough, who died a short time ago, and who, owing to his 7 ft. 7 ins., was reported to be the tallest man in the world, was a midget.  
O'Connor, who is at present in South Africa, is stated to be the biggest man on earth. Certainly he is the tallest British subject.  
A veritable modern Hercules, O'Connor is almost 8 ft. high, and a person can walk beneath his arms when outstretched horizontally. He has a chest measurement of 55 inches, and weighs 357 lbs., while the ring which adorns the index finger of the giant's hand is so large that a florin can pass easily through it.—Tit Bits.

ment are planning big things because they know that at the head of the department there is a big man who believes in big things done in a big way, and we may look for mighty big things from this new administration. Dr. Tolmie is not a politician in the true and accepted sense of what a politician usually means, and that is a big thing in favor of this big man at the head of agriculture in Canada.—Rural Canada, December issue.

## W. W. Ballantyne

Naidpath Farm Near Stratford, Ont. writes an advertisement

Dear Sir:—  
The Delco-Light Plant you sold me to light my farm has not only given us the pleasure and convenience of electric light in all our buildings, BUT IT IS RAPIDLY PAYING FOR ITSELF IN THE WORK IT DOES.  
It would be a good investment for us aside from the lighting altogether. So far, we have found 16 jobs for Delco on our farm, and we are constantly finding new jobs for it. We are using power from Delco-Light to run:—  
1. Three unit milking machine. 10. Vacuum cleaner.  
2. Cream separator. 11. Electric iron.  
3. The pump in the dairy. 12. Toaster.  
4. Root pulper. 13. Charging batteries on our motor car.  
5. Emery stone. 14. Pumping water for household use.  
6. Horse clippers. 15. Lighting our home, stable, out-buildings and yard.  
7. Sheep shearing machine. 16. Violet ray generator.  
8. Fanning mill.  
9. Washing machine.  
We have never figured this work down to so many hours per day, but we do know that we can operate the farm with one less man than we used to. Figure out the wages and board of a farm hand and you can see what the Delco-Light plant saves us.  
We used to run a gas engine on the milkor and cream separator, at a cost of 10 cents a day. Our Delco-Light plant supplying light and power for the whole farm costs only 7 cents a day.  
It would not only be a harder proposition to run our farm without Delco-Light, but it would cost us a lot more money. We have no hesitation in recommending any farmer to harness up his farm to Delco-Light.  
Yours truly, (Signed) W. W. Ballantyne.

The man who considers Delco-Light something that he will buy—WHEN HE CAN AFFORD IT—should heed this strong letter from Mr. Ballantyne. It costs more money to farm without Delco-Light. Can you afford then, to delay equipping your farm with light and power?

### Exclusive Delco-Light Features

It's direct connected. There are no belts to slip, break or be replaced.  
It is self cranking. Pressing down on a lever starts the engine and it stops automatically when the batteries are charged.  
It is air cooled. There is no water to carry, to freeze or to boil away.  
There is only one place to put oil. There are no grease cups.  
A simple mixing valve regulates the fuel supply. There is no complicated carburetor.  
Ball and roller bearings cut down friction and increase efficiency.  
Thick plate batteries are long lasting.  
75,000 Delco-Light plants are operating in Canada and the United States. This in itself proves the practical nature of the plant. Let us put you in touch with some of these people.  
You owe it to yourself and your family to learn what Delco-Light will do for you. As a start toward greater comfort and larger profit ask us to send you the book "Pays For Itself," written by practical farmers.

A Weekly Chronicle Furnished By Our Local Representative.

After a term at normal school in Victoria Miss Jean Dryden returned to her home here last week. She expects to remain at her home for some time before entering the profession.

Mr. and Mrs. Allan Wilson are enjoying a visit from their eldest son, who has been taking care of the old home in Alberta.

Chas. Morrison arrived last week to spend Christmas at his home here.

Mr. F. R. Gartrell motored up from Summerland on Tuesday of last week on his way to Kelowna. The roads were bad and being blocked by another car on the road he was held too late to catch the ferry, so remained over a guest at the home of Mr. and Mrs. H. E. McCall and took the boat for Kelowna on Wednesday. He reported the roads in very bad condition.

Mrs. J. Winger with Doris and Vernor were passengers to Penticton on Tuesday night of last week to attend the marriage of Miss Hilda Winger to Mr. Ray on Wednesday. They returned on Thursday morning accompanied by the bride and groom and all united at the Winger residence to celebrate Mr. and Mrs. Winger's silver wedding.

Mr. Sootherin made a short visit down the lake last week returning on Wednesday morning.

Mrs. Cartwright with her daughter Miss Margaret Verey came down from the Landing to spend Christmas with Mrs. Cartwright's parents, Mr. and Mrs. W. J. Moore.

Mr. Richard Walters, manager of the local Union has been away for a week or two on a vacation and dame rumor states that he has "gone and done it" and on his return will bring with him Mrs. Walters.

Mr. Allan MacDonald of Penticton spent Christmas in town with the McCall-MacKenzie gathering.

Mr. J. Seaton spent Christmas in Vernon with his mother, sister and brother, returning on Friday to resume his duties on the Government road.

Mr. A. E. Drought came back from a trip to Kelowna one day recently accompanied by Mrs. Drought and a fine baby girl.

Miss Bradbury came up from Penticton to enjoy her Christmas dinner with her parents and family here, returning on the evening boat.

Manager Ross of the local branch of the Royal Bank spent Christmas in Kelowna.

Mr. Burkett Robinson returned from Penticton on Christmas morning to complete his home circle. He returned on the evening boat to resume his duties on the government pile driver. He took with him Mr. W. L. Williams to fill the position of cook on the driver.

Mrs. J. Wright is spending a short time visiting at Vancouver, having gone out on Friday evening.

Mr. and Mrs. Fred Young spent a day in Kelowna last week, visiting Mrs. Rowland who is shortly leaving Kelowna.

Mr. N. S. Davidson is paying a business trip to Vancouver, having left for the city on Friday evening.

One of our former residents, Mr. Ferd. Aitkens, spent Monday in town on business.

Three ladies are spending a short time in the community holding evangelistic meetings, and at the

## Bargains In Real Estate

\$22,000 takes a 31 acre orchard, paying 10 per cent. on investment.

Summerland B.C.

time of writing are holding the meetings at the home of Mr. and Mrs. Walter Morach.

Christmas entertainments were the order of the day in Peachland this week. The Union Sunday School held their entertainment on Monday evening in the Presbyterian Church and the Baptist school held theirs on Tuesday evening. Both were well attended and a pleasant time spent. Santa Claus appeared at each entertainment just at the proper time to assist in the unloading of the trees and the distribution of the good things.

A little party consisting of the Rev. C. D. Clark with Mr. Ben and Miss Olive Gummow left by auto on Thursday afternoon headed south. They were not telling everyone where they were going or what they were going for, but had a notice on the car, in chalk, that suggested a wedding. We must not draw any conclusions, but presume a short time will tell what it all means and we hope to have more definite news for next issue.

## TIT FOR TAT.

Suppose Iowa farmers should strike for a five-day week and a six-hour day and a 60 per cent. increase in income? Wouldn't the miners and the railroad men and every other striker howl himself hoarse? You bet he would, and when he couldn't howl any more his wife would take it up.—Traer (Iowa) Clipper.

## DATA COVERS SPRING AND FALL FROSTS AT SUMMERLAND.

(Continued from Page 1.)

of the most serious losses the growers have ever experienced in this valley.

I hope the above information will be of real use and the means of helping growers, packing houses, box factories, and transportation companies to try and work out their plans so that the growers can have their crops harvested by the danger date; also that the Government will follow up the matter of having weather bureaux established for the purpose, if possible, of forecasting weather conditions for the farmer. Much loss is being saved the farmers of the United States through a service of this kind.

R. V. AGUR.

## RESOLUTION ON WEATHER BUREAUX.

The following resolution was passed at an executive meeting held in Vancouver, November, 1919: "Whereas great damage has been suffered by fruit and truck growers during the past two years by late spring and early fall frosts, amounting to hundreds of thousands of dollars, which could largely have been avoided; Be it therefore resolved that the Dominion Meteorological Department be respectfully urged to supply daily weather forecasts for the fruit growing sections of this province, and further, that frost warning stations be established in the more important fruit and truck growing sections from April 20 to June 30, and from October 1 to November 10."

## Would Build Scenic Road Round Giant's Head Mtn.

Part of Tourist Attraction Discussed at Board of Trade Meeting

### College Building As Hotel

Delegates to Vancouver Convention Are Named.—Would Control Movement of Tubercular Patients.

Delegates to the Provincial Convention of the Boards of Trade to be held in Vancouver next month were appointed by the Summerland Board of Trade at a meeting held on Tuesday evening. These are vice-pres. Solly, Secy. F. A. C. Wright, and Messrs P. S. Roe, G. J. C. White, R. E. White, and A. Davidson.

The several resolutions already published in these columns relating to ferry service, the inter-provincial highway, and the up-keep of municipal roads were referred to these delegates. Messrs. Kelley and Solly were appointed a committee to draft a resolution conveying the sentiment of the Board respecting the regulation of T.B. patients, on which there had first been a considerable discussion. The climate of Summerland is becoming better known, and the danger of an influx of tubercular cases was again pointed out. It was stated that 200 cases develop each year in the city of Vancouver now. The resolution which the Vancouver Convention will be asked to endorse will request the co-operation of the Federal and Provincial Governments in the fight against tuberculosis, and particularly for the regulation of control of the travelling from one part of Canada to another of persons ill with the disease.

The meeting was presided over by Vice President Solly, and Mr. W. C. W. Fosbery acted as secretary, the regular secretary Mr. F. A. C. Wright being at Victoria. Mr. Fosbery complained of delay in receiving delivery of parcels through the Customs addressed to West Summerland post office. He was asked to make enquiry regarding the regulations governing such parcels and to report.

The question of tourist traffic was introduced by Mr. G. J. C. White who pointed out the possibility of tourist business in Summerland. He suggested that the Ladies' College Building might be converted into a tourist hotel, stating that a splendid motor road could be built from the direction of the railway station and continued around to a point on the Giant's Head road near A. Stewart's. This would make a fine scenic road. The College building was in an excellent position for Coast people seeking rest and pure mountain air. After some discussion the delegates to the Vancouver Convention were appointed a committee on tourist traffic.

Mr. Kelley intimated that the Council would be approached early in the new year with the request to build the suggested road over the shoulder of Giant's Head passing the College buildings.

## Rare Musical Treat Next Week.

Right from the large centres of population where they have been enjoying crowded houses the members of the Sam Lewis Company will appear at Empire Hall next Wednesday evening. This company which is under the management of the Ellison-White Lyceum Bureau is composed of four artists, each high up in his or her profession.

Samuel Lewis the Welsh tenor who leads this company is one of the most popular ballad singers on the continent. His voice in quality of tone possesses a never-to-be-forgotten richness that goes home to the heart of every hearer.

Miss Ruth Lavery, violinist, is a close second to Mr. Lewis in popularity. The tones she draws from the violin are of exquisite richness

## Farmers Against Oriental Sales.

The farmers and fruit growers of Summerland assembled in an annual meeting Wednesday afternoon expressed strong disapproval of the selling of land to Orientals. A resolution opposing the selling of land in fruit-growing districts to Orientals was unanimously adopted and will be submitted for consideration at the Provincial meeting of the Farmers' Institutes at Vernon next Monday. The subject was one which provoked much discussion and strong feeling against those who have sold land to Orientals was manifested. Hints of an organized boycott of those who had made the sales were heard.

The Institute members present favored the holding of a Dominion apple show in one of the larger prairie centres, such a show to be a competitive one in which the fruit growers of all Canada might participate. It was felt that this would afford an excellent means of advertising Okanagan apples and a resolution favoring such an exhibition will be submitted by the Summerland Institute at Vernon next Monday.

Still another resolution to go to the Provincial gathering is one asking for more apple pickers, and that special rates of transportation be given this class of farm help. Still another resolution requested the Department of Agriculture to open packing schools in the coast cities.

Mr. J. L. Logic told the meeting that Summerland would be visited soon by a man interested in the canning industry and who would wish to speak to the growers. He is expected to suggest that Summerland fruit growers take an interest in a canning company with the purpose of building and operating here.

Orchard fertilization was discussed and Supt. Helmer of the Experimental Station made a report on a trial shipment of stockyard manure from Calgary. Mr. C. H. Tate was appointed delegate to the Farmers' Institute conference with Mr. A. McLachlan as substitute. The directorate for 1920 elected at the Wednesday meeting is: R. H. Helmer, A. McLachlan, Clarence Elsey, C. H. Tate, and J. Tait.

Mr. R. V. Agur, local director for the B.C. Fruit Growers' Association, then took charge of the meeting, and all the resolutions passed by the Institute were adopted to be submitted at the B.C.F.G.A. conference next week. Mr. Agur was again nominated director, and A. McLachlan appointed official delegate to the convention to be held at Vernon on the 14th, 15th and 16th.

Lieutenant and Mrs. Littlejohn are now at the coast on a short visit.

Mr. J. W. Jones, M.L.A., will speak in Summerland next Tuesday evening. It is expected he will go into the Oriental question thoroughly. The day before Mr. Jones addresses the Farmers' Institute at Naramata on the same subject.

and she plays with the fire and abandon, but never failing accuracy, of the real artist.

Miss Irene Harruff is a most artistic accompanist and will also be heard in soprano solos and duets with Mr. Lewis. She possesses a beautiful voice of most excellent quality and a charming personality.

Miss Amber Hopkins, reader, assists in rounding out a most complete and artistic program, her reading and stories are given with such grace and charm as to make for her an important place as an individual artist and also adds to the artistic finish of the program as a whole.

This is the first of three entertainments included in the Lyceum Course under the auspices of the Ladies' Hospital Auxiliary, and will be an exceptional treat. The price of the season ticket has been placed at the low figure of \$3.00 so that anyone can enjoy three high class events for the very reasonable price of \$1.00 each. A special price of \$2.00 has been arranged for high school pupils so that all might attend.

## The Memorial Hospital.

"AS OTHERS SEE US!"

Dear Sir,

It was splendid to read in your paper of the promptness of the decision to rebuild the hospital, but why do the people of Summerland humbug themselves into pretending that they are building it as a war memorial? If they are honest with themselves they will know perfectly well that they would rebuild the hospital in any case, because they realize that it is a most necessary and useful institution to have in their midst. I hope you will have an even better and more modern building than the first hospital was, but as the greater part of the money needed will, I suppose, be provided by the fire insurance company and the government, why call it a war memorial? Somehow it does not ring true. It sounds small and mean, and not worthy of the people of Summerland, to try and sandwich a memorial to those who were killed, in with a business proposition for the convenience of the public.

When you consider that the memorial is to perpetuate the names of those who have made the greatest possible sacrifice, surely it should be free from all suggestion of selfishness on our part. This is how it appears to one who was not present at the meeting to hear the eloquent speeches made on behalf of the hospital, but who read the account in your paper at a distance.

Yours truly,  
A FORMER RESIDENT.

West Summerland,  
January 5th, 1920.  
Editor Review.

Sir,  
As the one chiefly responsible for the recent mass meeting re: our hospital problem I wish to reply to the letter in your latest issue.

The method of holding public meetings for discussion and action on community questions is a time honored one, and has been in vogue among Anglo-Saxons for centuries. Full notice of this meeting and its objects, and ample opportunity for discussion were given. No attempt was made to manipulate the public mind, and while the meeting was well attended it does not bind Summerland citizens to carry out its decision. I do not think the audience was tired or restless, but if it were then those who did not want to prolong discussion could easily have indicated their opposition to the resolution adopted by merely raising a hand on the voting. But the vote was unanimous that we should erect a new hospital and make it a war memorial.

The Hospital Board felt that no time should be lost in getting an expression of our citizens' opinions of the course they wish taken. The meeting was merely a first step to this end. In my opinion there is no coterie of citizens who can impose any scheme or plan of a public nature upon the citizens. I am sure nobody connected with the Hospital has any thought of so doing.

We are evidently all agreed we must have a new hospital. But if connecting it with the proposed war memorial is opposed by any considerable body of citizens such connection cannot succeed. The majority must rule, however, or else our community spirit is a delusion. Last winter we had several meetings about the form of the memorial and six different plans were proposed and supported by various citizens. Not one of the six plans could get support of a majority of those present at any meeting. Personally I do not expect we shall ever be unanimous as an entire community on the form of the memorial. The main division is that one set of citizens want a memorial that shall have some usefulness, and another set is dead opposed to this. If some of us decline to be ruled by the majority then division and discord with consequent failure will arise. I can think of nothing more unfortunate over such a subject.

As to the suggestion that our hospital be maintained by an annual municipal levy this is absurd under our present system of taxation. Just now we have Royal Commissioners and other experts scanning the tax situation with

anxious eyes. All authorities agree that land is now taxed to the limit. If purely land taxes are increased much higher in B.C. or in Summerland itself, the system will break down, because so large a percentage of land will fall into the hands of the taxing powers, the rest cannot maintain the municipality, and only fools will buy the land dropped.

At present between 40 per cent. and 60 per cent. of the population pays all the taxes, and municipal ownership of a hospital where part of the people pay the cost for the other part would be either a joke or a travesty on justice. However this question is not a live question just now.

For myself I hope the citizens will express their views fully and frankly, and be prepared to act in harmony with what the majority decides. My own views are not favored by the majority but this does not excuse me from helping make a success of what the majority supports.

To avoid any misunderstanding I wish to say no other member of the Board has any cognizance of this letter.

Yours truly,  
W. C. KELLEY.

January 8th 1920.

The Editor, Summerland Review.

Dear Sir,  
Mrs. Fosbery's letter published in your issue of the 2nd instant has aroused in me my own familiar devil—the little fellow that urges to criticism. Believing that Mrs. Fosbery would invite criticism and with the assurance to her that he is a most friendly little chap, I venture to yield to his promptings.

It is borne in upon me that the attempt which Mrs. Fosbery sees fit to attempt to manipulate the public mind to divert a noble sentiment to the provision of a common utility, may have another interpretation. It may, after all, be a perfectly sincere conviction that here a combination of sentiment and utility is desirable. I cannot help thinking that the originator of the suggestion to which Mrs. Fosbery objects, whoever he may be, probably has the desire to honour the dead in the same proportion as have Mrs. Fosbery and myself.

I think that the real point which Mrs. Fosbery has in mind is that a common utility cannot be a fit expression of pure sentiment, but that is a matter of opinion. For surely a common utility, even if it is of the nature of an economic necessity, can partake in some part of nobility and beauty; that is to say, if duty is indeed noble and beautiful. If duty is not noble and beautiful, why our anxiety to raise a permanent symbol of the honour in which we hold those who gave their lives to duty?

It may be that by combining hospital and memorial a saying of money will be effected. Does that have any bearing on the matter? What has money to do with pure sentiment? The vital fact remains that our hospital will be dedicated to those whom we wish to honour, and that when we look on the hospital we shall have in mind those with thoughts of whom it is bound up. This is, I take it, the aim of our desire.

Also I think we may take it for granted that any saving of money effected, will be, not an aim, but an accident.

Personally I am in favour of our memorial taking the form of a public utility, because I believe that would be the wish of all of our dead soldiers, a point which Mrs. Fosbery brings out well in her nice little story of the gentleman and the boots, and I have to be shown a better way of doing honour to a man than by doing for him something which he would wish to be done.

Library, recreation room, hospital, they are all the same to me, and yet, bearing in mind that sickness and death go often hand in hand, it does seem to me that the hospital would form a particularly appropriate memorial—an expression, perhaps, of "pure sentiment."

I am, Sir,  
Yours truly,  
G. R. HOOKHAM.

Other contributions on this subject will be found on Page 2.

## Busy Furnishing The Hospital.

Getting together a complete new supply of furnishings for the Hospital within the brief time between the burning of the Summerland Hospital and the proposed date of re-opening in temporary quarters is taxing the Ladies' Hospital Auxiliary to the utmost. Sewing, the cutting out of garments and other articles and much other extra work has been thrown upon that indispensable branch of the Hospital Society as a result of the fire.

At the annual meeting of the Auxiliary held on Monday afternoon 37 paid members were enrolled, and a number of others are expected to join immediately, bringing the membership up to at least half a hundred.

Following the general business and the reading and adoption of reports for the past year the following officers were elected:—President, Mrs. H. A. Solly, First Vice-President, Mrs. W. J. Robinson; Second Vice-President, Mrs. F. A. C. Wright; Recording Secretary, Mrs. A. W. E. Fawkes; Treasurer, Mrs. R. E. White; Corresponding Secretary, Mrs. T. P. Thornber; Mrs. R. E. White, Mrs. Kate Bentley and Mrs. S. Angove were appointed Purchasing Committee and Mrs. R. M. Ross and Mrs. O. F. Zimmerman, House Committee.

Three sewing rooms will be opened and meetings held every Monday afternoon until enough material is prepared to supply the needs of the Hospital. Mrs. R. M. Ross will be in charge of the room in the Men's Club, and Mrs. F. A. C. Wright will direct the work in St. Stephen's Hall. A third group of workers in charge of Mrs. Gilbert Thornber will meet from home to home at Trout Creek Point.

The ladies had been asked to bring contributions to the Hospital at Monday's meeting. In this way about 300 jars of fruit and pickles were gathered, also two pair of blankets, nine oil lamps for emergency purposes and a quantity of linen which has not yet been listed.

## B.C. Fruit Growers Meet at Vernon.

The annual general meeting of the B.C. Fruit Growers' Association is to be held in the Okanagan this year instead of at Victoria. An effective call to the fruit growers of Summerland and Naramata to attend this conference is made by Mr. R. V. Agur, local director, in the columns of this paper. Mr. Agur's district has long held the honor of being the premier district of the province, and it should be largely represented at the conference to be held next week in Vernon. Matters of utmost importance to fruit growers will be considered. Mr. R. M. Winslow, secretary of the B.C. Traffic and Credit Association will talk on transportation problems as will also Mr. C. L. Lowe, sales manager of the O.U.G. Prairie markets will be discussed by J. A. Grant, Prairie Markets Commissioner. By-Products, an interesting topic, will be presented by Mr. J. O. Holt, manager of the Eugene Fruit Growers' Association. Weather Forecasting in Relation to Fruit Growing in B.C. will be dealt with by F. Napier Dennison, Supt. of the Meteorological Services of B.C. The prospective sugar shortage, organization for the coming year, and the establishment of an emergency fund will be considered. Dean Brock of the University of B.C. will close the conference with an illustrated lecture on the Tenth Crusade in Palestine Under Allenby.

The matter of insuring the truck and motor car was referred to the Road Committee. The Clerk reported the receipt of a telegram from a responsible concern proposing to erect a cannery here. He was instructed to reply by wire and to open further correspondence on this subject by mail. Mr. T. G. Virtue, who has bought Block 41, D.E. 455, applied for domestic water and irrigation connections. Granted. A petition signed by four or five householders in that neighborhood asked for better domestic water pressure and expressed the fear that if Mr. Virtue were given connection that there would be no water for the others. The statement was made by Chairman Kirk of the Water Committee that when certain proposed changes are made pressure in this pipe line will be greatly increased. Mr. Feldham, now owner of Block 15, D.L. 3640, known as the

In the east the slogan is "Save Coal."

## Last Meeting of 1919 Council Threatened with Law Suit

S. A. Denike Denies Water Agreement gives right to relocate Ditch

### A New Cannery

Bids Are Received for Municipal Debentures.—Unexpected Claims On Municipal Funds.

Stating that the bond market is weak and will be weaker still, a Vancouver firm has written the Municipality of Summerland offering \$2.50 and accrued interest for the \$61,400 remaining of the \$75,000 irrigation loan. This offer was read at a meeting of the council on Tuesday, and with it another offer of \$7.50 for the same bonds. As not less than 90 had been expected for this issue no action was taken until the matter had been referred to Reeve Simpson who was out of town on Tuesday.

Mr. S. A. Denike apparently feels that he has been served unjustly by the Municipality. When the north main was being rebuilt one or two bad curves were avoided by straightening out the ditch along the upper edge of Mr. Denike's orchard. Mr. Denike called on the Council Tuesday demanding to know what the Council proposed to do about it, intimating that he expected payment and referred to a promised letter guaranteeing him against damage from seepage, and threatening action unless he had an answer by Saturday. He made no claim nor would he state what he wanted. It was pointed out by Councillor Kirk that the water agreement, signed by Mr. Denike gave the Municipality permission to do as had been done.

In a report Engineer Fawkes suggested converting a metal gate, now on hand and considered useless, into a gate to be placed at the Trout Creek intake. His proposal would effect a saving of several hundred dollars over the price of a gate ordered specially for the purpose. Referred to 1920 council.

The matter of insuring the truck and motor car was referred to the Road Committee.

The Clerk reported the receipt of a telegram from a responsible concern proposing to erect a cannery here. He was instructed to reply by wire and to open further correspondence on this subject by mail.

Mr. T. G. Virtue, who has bought Block 41, D.E. 455, applied for domestic water and irrigation connections. Granted.

A petition signed by four or five householders in that neighborhood asked for better domestic water pressure and expressed the fear that if Mr. Virtue were given connection that there would be no water for the others. The statement was made by Chairman Kirk of the Water Committee that when certain proposed changes are made pressure in this pipe line will be greatly increased.

Mr. Feldham, now owner of Block 15, D.L. 3640, known as the

## WEDDING.

NELSON-STUART.

A very pretty wedding was solemnized on January 2nd at the home of Mr. and Mrs. Alex. Stewart when their daughter, Inabel Rankin, was married to Mr. Alfred Etholbert Nelson.

The bride, who was given away by her father, entered the room to the strains of Mendelssohn's Wedding March, played by Miss Hazel Stewart. Miss Annie Stewart attended the bride and Mr. W. R. E. Nelson supported the groom. The ceremony was performed by Rev. W. H. Bates of St. Andrew's Presbyterian Church, in the presence of relatives only, after which a very dainty buffet supper was served.

The many beautiful gifts received by the young couple testified to their popularity. On their return from the southern States Mr. and Mrs. Nelson will reside in West Summerland.

# Corporation of the District of Summerland

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Corporation of the District of Summerland that I require the presence of the said electors at the Municipal Office, West Summerland, on the 12TH DAY OF JANUARY, 1920, AT 12 O'CLOCK NOON; for the purpose of electing persons to represent them in the Municipal Council as Reeve and Councillors, on the Municipal School Board as Trustees and on the Board of Commissioners of Police as Police Commissioner.

The mode of nomination of candidates shall be as follows:—  
The candidates shall be nominated in writing: the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and two p. m. of the day of the nomination; and the said writing may be in the form numbered 5 in the Schedule of this (Municipal Elections) Act, and shall state the names, residence, and occupation or description of each person proposed, in such manner as sufficiently to identify such candidate, and in the event of a poll being necessary, such poll will be opened on the 17th day of January, 1920, at Mr. W. J. Robinson's office, Summerland, for Wards I. and IV. and at the Municipal Office, West Summerland, for Wards II. and III. of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for Reeve, Councillor and Trustee are as follows:—

The qualifications for Reeve shall be his being a British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial assessment roll, of five hundred dollars or more over and above any registered judgment or charge, and being otherwise duly qualified as a municipal voter.

The qualifications for Councillor shall be his being a British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the municipality of the assessed value, on the last municipal or provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the municipality for the space of one year or more immediately preceding the day of nomination, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, or being a homesteader, lessee from the Crown or pre-emptor who has resided within the Municipality for a portion of one year immediately preceding the nomination, and during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, and being otherwise duly qualified as a municipal voter.

The qualifications for School Trustee shall be his being a British subject of the full age of twenty-one years actually residing within the Municipal School District and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office of land or real property situate within the municipality of the assessed value, on the last municipal or provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the Municipality for the space of one year or more immediately preceding the day of nomination, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the municipality for a period of one year immediately preceding the nomination, and during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, and being otherwise qualified by this (Public Schools) Act to vote at an election of school trustees in the said school district.

Given under my hand at Summerland, this 31st day of December, 1919.  
F. J. NIXON,  
Returning Officer.

## Corporation of the District of Summerland

### Referendum re By-Law No. III

At the Annual Municipal Election to be held on January 17th, 1920, the following question will be submitted to the Municipal Electors:

"Are you in favor of the Corporation of the District of Summerland selling to Summerland Fruit Union Lots 8 to 10 both inclusive in Block 36A according to Plan registered in the Land Registry Office at Kamloops in Province of British Columbia as number 157 for the assessed value thereof, namely \$2,000.00, in cash."

December 31, 1919.

F. J. NIXON,  
Municipal Clerk.

## Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Summerland, B.C.  
Jan. 3rd, 1920.

To the Editor,  
Summerland Review.

Dear Sir,  
As my full length figure formed part of the vast expanse of diplomatic dupes at the Hospital Mass Meeting on December 21st, may I be permitted to write a few lines, not in defence of those who voted as they did, but rather to place the matter in a light which Mrs. Fosbery has apparently failed to see?  
The point which Mrs. Fosbery so strenuously labours in her letter published in your last issue is one which, I suppose, has occurred to most of us. The erection of a memorial to the fallen should involve some sacrifice on the part of the community; not, of course commensurate with, but at least faintly typical of the sacrifice which the dead have made for us. The erection of a necessary building by which we alone as a community, will benefit, does not, strictly speaking, entail such a sacrifice. So far the argument is sound enough, but where does it lead us? To a choice, I think, between two alternatives. Either our memorial must be a benefit to others entirely outside our own community, or it must be of no possible use to anyone at all. Even the most fatuous admirer of ornamental horse troughs will shrink, I hope, from the latter alternative; whilst the former demands a degree of altruism which I confess, to my shame, perhaps, I cannot lay claim to myself and do not expect to find amongst my fellow citizens.

The question of the maintenance of the Memorial Hospital, whether by the Municipality or by private subscription, appears to me to have no bearing upon the subject at all. The name alone should suffice as 'a preservative of memory.'

I venture to think that if we consider this matter in the light of common sense, without the aid of allegorical shoes on the one hand or miraculous stones on the other, we shall come to the conclusion that an institution is not less fitted to commemorate the dead because it also benefits the living.

Yours faithfully,  
W. V. B. WEBB.

West Summerland,  
Jan. 5, 1920.

To the Editor, Review.

Dear Sir,  
Will you allow me to correct a typographical error in my letter appearing in last week's paper, which made imperfect the sense of one passage.

In the paragraph beginning "The stone which one of the speakers added, etc., . . . ." the latter part of the sentence should read, "is too obviously a recognition of AND concession to, etc.," instead of "THE concession to," as it appeared.

May I also correct an impression given at the meeting of December 21st, as I believe no one else has publicly done so. It was stated that the municipality has not the power to own and maintain a hospital. This is incorrect. The power is with us if the money is available, and my reference to "legislation in favor of the plan" merely means the customary recognition of the municipal hospital by the provincial government to the extent of a substantial grant per day per patient to all such institutions in the province.

Yours very truly,  
LILY FOSBERY.

[Ed. Note.—According to our recollection of the public meeting referred to above it was not stated that the municipality had not the power to own and maintain a hospital. The statement referred to we believe was that made by Reeve Simpson when he expressed the opinion that the municipality had not the power to float bonds for the purpose of raising funds for the building of a hospital.

On this matter we are not quite clear but believe the statement made by Reeve Simpson with respect to bonding the municipality for hospital purposes is correct.

The typographical error noted above in Mrs. Fosbery's letter is greatly regretted.]

## PATENTS PROMPTLY SECURED

MARION & MARION,  
364 University St., Montreal.

## EDUCATIONAL FREE FILMS.

The Bureau of Commercial Economics of Washington, D.C., an organization exhibiting educational films all over the world, has started a nation wide campaign to get free motion picture theatres into factories, department stores, mining towns, country crossroad centres, lumber camps—every place where there are workers.

The bureau has the largest educational motion picture library in the world—21,000,000 feet of film on almost every conceivable subject, such as, government, economics, industry, history, travel, nature, science, health, commerce, agriculture. All these pictures will be loaned without charge to those who will exhibit them free to audiences.

In addition the bureau is sending eight travelling motion picture theatres—specially built for work in the country to arouse persons and organizations particularly employers as to the possibilities of educational pictures. These trucks carry a projection machine, an electricity generating plant and portable screen. Thus they are able to show pictures at an isolated western ranch centre as well as in a city.

One truck is showing samples of the films that employers could exhibit in a darkened workshop at noon, or at night when the wives and kiddies may see, too—if employers would spend \$200 or \$300 for equipment.

It is much easier for a girl to elope than to get back home after she has discovered her mistake.

## SPACING SPARK PLUGS.

Sometimes it becomes necessary to readjust the distance between the contact points of the breaker. The common error is that of setting these points too far apart; the proper distance is approximately one-fiftieth of an inch, and this may be taken as the standard. Incidentally the width of the spark gaps has a great influence on the functioning of the ignition system.

### Naramata News

Current Events of Town and District

Mr. and Mrs. M. D. Manchester and their two sons Donald and Raymond arrived on Saturday morning from Lindsay, California. Mr. Manchester will remain for a few weeks before returning to Dawson, Y.T., while Mrs. Manchester and the boys expect to locate here permanently. They are fixing up their bungalow on Lily Avenue and will soon move into their new home.

Mr. and Mrs. Bruce Wells of the prairies are visiting Mr. and Mrs. Russell Wells.

Mr. R. Elver has gone to Calgary for a short visit and it is rumoured that when he returns he will not come alone.

Mrs. R. C. Robinson has accepted a teaching position in the Summerland High School. She will take the place of their Principal who is ill.

Mrs. Rayner who has been having a most unpleasant time with an injured wrist is reported to be slowly improving.

Mr. Vic. Watson spent the weekend with his family who are visiting Mrs. E. Wells.

The Christmas celebration of the Methodist Sunday School was held in the church last Tuesday night. They had a most excellent time and every child received a useful gift, while all the grown-ups came in for a fine sack of candy. The following program was rendered during the evening:—Opening address by the Chairman, Mr. Bartlett; song "Nowell" by the School; recitation Avery King; song Howard Simmons; recitation, Katherine Robinson; piano duet Frank and Earl Hughes; recitation, Harry Roe; song Ralph Simmons; recitation Mrs. Aveson's Class; reading

Mrs. Hayward; song Doris Lawrence; recitation Miss Simmons; character song Flora Lyons and Marjory Green; dialogue "The Sand Man"; solo Miss Enid Rayner; recitation Alice Walters; club swinging Marjory Simmons; violin solo S. Dickens; "O Canada" by the Adanac Club; visit from Santa Claus followed by "God Save the King." Supper was served at 6 o'clock which was very well patronized.

A G.W.V.A. was organized on Friday night with 25 members. The meeting was held at the Unity Club house and was a most enthusiastic one. The following officers were elected:—President, A. S. Lawrence; First Vice President, Gerald Roe; Second Vice President, R. Gamman; Secretary Treasurer, J. C. Williams; Executive Committee, J. A. Noyes, H. Stallard, N. Mitchell and Walter Land. The boys are planning all kinds of social affairs, and will be assisted at the opening festivities by the Summerland Branch.

The Women's Institute held their first meeting of the New Year in the Unity Club house on Tuesday

afternoon. Mrs. Thos. Kenyon was elected as delegate to the conference which will be held in Penticton. Mrs. George Aldridge was elected general manager of the Red Cross work. The Institute Library will be under the management of Mrs. A. Aveson, and Mrs. F. C. Manchester will have charge of the travelling library. The exchange bureau will be under the direction of Mrs. J. Myers. A very interesting paper on postponing old age by Dr. Andrew was read by Mrs. Cash and a piano solo was given by Mrs. Green. Mrs. Routh in a few well chosen words presented Mrs. Howard Rounds with a handsome fountain pen in appreciation of her services as Secretary during the past year. Roll Call was answered by "My New Year Resolution."

## Boy Scout Column

1st SUMMERLAND TROOP B.P. SCOUTS.

Scoutmaster - O. F. Zimmerman.  
Headquarters - College Gymnasium.  
Meets every Friday evening at 7.30 p.m.

The Scouts met in the Parish Hall last Friday night and the evening was spent by playing a few games. After the dismissal the leaders and Scoutmaster discussed for a while troop matters in general.

Again on Wednesday night almost the entire Court of Honor, leaders and S.M., assembled in the home of Leader Bernard Taylor. Here the discussion was systematic and energetic, and definite results were therefore obtained. First it was decided that Leaders Joe Gayton, Bernard Taylor and Alex. Smith be promoted to the rank of Assistant Scoutmasters. S.M. Zimmerman will attend in future to the treasury affairs of the troop, while A.S.M. Alex. Smith attends to the secretaryship.

The question of the library was also discussed fully. Leader Blanchard Munn will take charge of this, and the boys will be asked to add to the present lot of books as well as they can. Any books of interest to boys will be appreciated by the Scouts from the troop's outside friends.

A letter from Kelowna Troop re. basketball was read. Our brother scouts there wish to have a game with us in the near future if possible. Like last year there will be three teams, although these may be classed differently from before. Our idea is to have the best fifteen players play, while the Kelowna Troop suggests to have the second and third teams composed of scouts

not over a certain fixed weight for each class. No doubt both suggestions have their good points, but the latter would almost certainly leave out some of our bigger boys. However, we can surely arrange the games and not let this score block the way.

There will be no meeting this Friday, January 9th, but a good attendance will be expected next Friday, the 16th.

A SCOUT.

## LOCALS.

A son was born to Mr. and Mrs. Granville Morgan Monday, January 5th.

Mrs. Stirrup, mother of Miss Stirrup, matron of the Hospital, arrived here this morning to remain for a time.

The condition of Principal McIntosh of the High School, who has been seriously ill for some days, shows some improvement.

Make it your business to attend the public meeting Saturday morning to hear the discussion on teachers' salaries and other school matters.

The operators being too busy, the Telephone Company has withdrawn its offer made some time ago to advise subscribers of dates of meetings, etc.

Mrs. R. Rau has sold her well-known orchard to A. M. Temple. The new owner is a veteran of the Great War who has been in Summerland for some months.

The Vernon warehouse of W. McNair & Co., was destroyed by fire Monday night. A carload of apples, about ten tons of potatoes, and a quantity of onion seed stored in the building were lost. All that was saved of the contents was the office furniture and about two tons of wrapping paper.

Miss Grace Logie is taking a teacher's training course at the Vancouver Normal School.

Miss Madeline Eisey returned to Hammond, B.C., last week-end to resume her duties as teacher in the school there.

Howell and Allan Harris, Roy Eisey and Donald McIntyre have returned to the University to continue their studies, having spent the Christmas vacation at their homes here.

Messrs. F. R. Gartrell and James Darke are contemplating the building of a few cottages on their property in Vancouver. Mr. Gartrell leaves to-morrow morning to arrange for building.

Mr. R. M. Winslow, secretary of the B.C. Traffic and Credit Association is in town to-day and will address the fruit growers this afternoon on the sugar shortage as it relates to the 1920 crop and also on transportation matters.

Several changes in ownership of local realty are reported this week by W. C. Kelley through whom the sales were made. The Raby house and orchard has been bought by D. C. Thompson who has sold his house and lot to G. Noble. Mr. Kelley has sold his lot known as the Hampshire lot to Thos. E. Bushel.

Satisfactory progress is being made toward the organization of a band. At a meeting held last week committees were appointed to make the necessary preliminary arrangements and already most of the members have been lined up. Application has been made to the Municipality for the instruments and uniforms in possession of the Municipality since the once famous Summerland Brass and Reed Band was disbanded prior to the war. The instruments have been inspected and will require some repairs.

Mr. and Mrs. Muir Stuart went out on Sunday for a two week's vacation, most of which will be spent in Seattle.

Mr. and Mrs. Jas. H. Ritchie left here last Friday for Calgary where they will remain for some weeks while Mr. Ritchie takes an engineering course.

Mr. and Mrs. E. F. Cooke returned to Summerland last night. Mr. Cooke was for some time employed with the Summerland Garage, and has been in Alberta since leaving here.

Alex. Munro left last Friday for Vancouver where he will join his brother Robert from Brandon. After a short visit they will return to their home here.

Hon. Martin Burrell, our representative at Ottawa, has changed his portfolio from that of Secretary of State to Minister of Customs. This change was made during a recent shuffle in the cabinet portfolios.

Mr. H. K. Fisher, manager of the downtown branch of the Bank of Montreal, has bought the Shields property. Mr. Shields has bought the two storey house just above the telephone exchange and will move into it as soon as it has been put in condition. Already, Mr. Fisher has moved his household effects from the station to his new property ready to move in as soon as Mr. Shields can give him possession.

The death of Mr. T. E. Clay occurred Friday, January 2nd in Vancouver. Mr. Clay, who was in his 50th year was for several years a resident of Summerland, removing from here to Vancouver, where he and his family since have lived. He leaves to mourn his loss, his wife, one daughter, Mrs. E. N. Rowley of Summerland, two sons, Carlisle and Carlton of Vancouver, also three brothers, Edwin of Vancouver; Dr. Havelock, Amherst, N.S., and Rev. Fred Clay, Chester, N.S.

Plans are being prepared for a commodious and attractive building to be erected for Mr. Scott Darkie, which will be utilized as an ice cream parlour. It is Mr. Darkie's intention to make this establishment thoroughly modern in every way, and in addition to selling ice cream and the usual side lines of the business, afternoon tea will be served and provision made for tired shoppers. The proposed site of the new building is almost directly opposite the Rialto Theatre. Such a service as Mr. Darkie proposes to give will be appreciated and will assure success from the first.

Findlay Munro of Meadow Valley has telephone connection with the Summerland exchange by a wire running from his house into Garnett Valley and down to the Municipal boundary, from which point to Central the line is the property of the Telephone Company. Mr. Munro's section of the line is strung on trees and he states that he first obtained permission from the Victoria authorities to so utilize the trees. He has been without telephone connection recently, and says that some person has been cutting the trees carrying the telephone line. In this number he is inserting a notice of warning to any persons found cutting these trees.

To capture a full grown coyote without gun or trap was the novel experience of G. R. Hookham and H. Reynolds some nights ago. The coyote was caught on one of the main roads on Jones Flat. Mr. Hookham was taking the Reynolds family home in his car and when he reached the crest just above W. J. Beattie's he sighted a coyote directly ahead of the car and at once gave chase. Bewildered by the light the animal made no attempt to swing off the path which the head lights outlined for him. Putting on more speed it was not long before the car was up to the bewildered coyote. He was struck by the pan of the car but escaped the wheels, and was stunned or dazed by the blow. Jumping out Mr. Reynolds caught the coyote by the tail while Mr. Hookham seized a small tent which was lying in the car and running to the assistance of Mr. Reynolds threw the tent over the coyote in which it was rolled up and carried to the car. Upon arrival at the Reynolds home the animal was collared and chained, and already has become quite docile. It is described as a fine big specimen of the prairie wolf.

The G.W.V.A. skating rink is now open. See adv.

Mr. Horace Read and his bride, nee Miss Alma Hendrickson, have returned from Seattle.

Local hockey enthusiasts are arranging for a meeting at an early date for the purpose of organizing.

Mrs. J. R. Conway after spending Sunday in Penticton with her parents returned to Vernon on Monday.

A car of steel flume material and a road drag arrived here this week for the Municipality.

Mr. and Mrs. McCutcheon and children returned Sunday morning from Vancouver, where they have been on a short visit.

Garry Hemsworth of Victoria was the guest last week of Mrs. A. C. Stuart. He returned to the capital city on Saturday.

J. H. Bowering on Thursday moved his post-office fixtures, etc., two doors west, and is now established in the new building put up for him by R. Johnston.

J. Lawler went down to the coast early this week for a further stay, but plans on returning soon. He says he could not be bought to live in the coast climate after having experienced the Okanagan.

Several hundred war trophies will be seen at the exhibition of war souvenirs to be held Tuesday, January 20th, afternoon and evening in St. Stephen's Hall by the W.A. of the G.W.V.A. An admission fee of 25c. will be charged. Children of school age, 10c.

Two stores will be opened shortly in the T. B. Young building which is now being remodelled. We are informed that H. Calloway, Sr., purposes opening a fish and vegetable store in one of these, and that the other has been taken by Geo. Naruke, who will run a Japanese grocery and fish market.

More than \$200. will be turned over to the Hospital Society as the net proceeds of the dance held New Year's Eve. The gross receipts were \$302. The hall, music, catering and other expenses will total to perhaps \$90. Nearly 200 people were in attendance, and a most enjoyable evening was spent in dancing out the Old Year.

On Sunday morning last, during the opening exercises of St. Andrew's Sunday School a presentation of a beautifully bound copy of Dr. Moffatt's Translation of the New Testament in Modern Language was made by the members of the Bible Class to Mr. Kerr "as a token of appreciation and affection."

The Rialto has been enjoying greatly increased patronage since the building has been enlarged and particularly since starting the improved film service early in December. On occasions practically every seat in the house has been sold. In addition to the better pictures much satisfaction is expressed in the musical feature of the evening programs.

At the annual meeting of the Summerland branch of the Okanagan Ambulance League, commonly termed the Red Cross Society, the money on hand, which was shown by the treasurer's report to be about \$90.00, was voted to the Ladies' Hospital Auxiliary. This was practically the winding up meeting of the organization which did much good work during the war period. During the time the organization was in operation 70 bales containing approximately 6,000 articles were sent away for Red Cross purposes. The value put upon these shipments was \$5,079.00. In addition \$535.00 in cash was collected for prisoners of war.

A Public Meeting

to be addressed by Mr. J. W. JONES, M.P.P.  
will be held in the  
**Campbell Hall, Next Tuesday Evening, January 13th**  
commencing at 7.30 p.m. sharp

### Peachland Doings

A Weekly Chronicle Furnished  
By Our Local Representative.

Miss Freda Broscob returned home on Wednesday of last week.

After a few days spent at the coast Mr. N. S. Davidson returned home on Wednesday of last week.

Mr. Seth Davidson enjoyed a few days' visit this week from his youngest son with his wife and son, from Kamloops, where he has a cigar manufacturing establishment. They enjoyed their visit here very much. While here Mr. Davidson was heard to say that the temperature got down to 28 below during that recent cold dip and held at the low points pretty steadily for some time. The visitors returned to Kamloops on Monday.

Mrs. J. L. Vicary was a passenger from here down the lake last mid week.

Mr. and Mrs. A. J. Miller spent an evening in Penticton last week, returning on Friday morning.

Mr. and Mrs. Thos. Powell enjoyed a New Year visit from Mr. and Mrs. Luckwill of Kelowna. Mr. Luckwill is connected with one of the local papers in the city. They returned to their home on Friday morning.

Mr. Bert Robinson and W. L. Williams who are members of the government pile driver crew working down the lake, spent New Year's Day at home.

Parties have been frequent in Peachland during the past week. Mr. and Mrs. Hogg entertained a few friends on Wednesday when a very pleasant evening was spent by all. A party of young people surprised Mrs. Jeffords and household on New Year's Eve by gathering there for a bit of fun and a good time. All were well pleased with the outing, seeing the old year out and the new in.

Mr. and Mrs. Hohensee furnished a very pleasant evening to a number of friends in their home. Games of various kinds were the principal events and everyone came away feeling the better for the evening's fun.

Major and Mrs. Thorn also recently entertained a few of their friends down at their Deep Creek home which was very much enjoyed by the guests.

The Brinsen Bros. are enjoying a visit from a third brother who came in from the prairie last week.

Mr. and Mrs. G. Wray made a short trip back to Penticton this week and have returned to Peachland for an indefinite period. Mr. Wray is helping the Winger Bros. on a logging contract they have in hand.

Two of our young people left on Friday night for the Coast to attend Normal School, Miss Lily Cousins to the Victoria School to start her normal training and Mr. Hugh Ferguson to Vancouver to take his finishing work. He expects to be through about May.

After spending the holidays with their parents here, Francis and Eddie Cousins and Archie Hamilton left on Friday night to return to DeMuth's mill, where they are working on a logging contract.

After a pleasant visit during Christmas week with her parents Mr. and Mrs. W. J. Moore, Mrs. Cartwright and her daughter Miss Margaret were joined by Mr. Cartwright for a New Year's visit. Quite a jolly time was spent at the ranch during which time Mr. and

Phone Penticton 39 Day or Night  
**BEN PRIEST,**

Certificated Embalmer,  
Perfect Funeral Service,  
SUMMERLAND PENTICTON

Mrs. Moore had a few friends in to spend an evening with the family. Mr. and Mrs. Cartwright and daughter left for their home at the Landing on Friday morning.

The B.C.F.G.A. meeting which had been called for Friday, January 2nd, was held in the Council Chamber at 8 o'clock. Unfortunately there was a very limited attendance. Mr. Thos. Powell was in the chair, Dr. Buchanan acting as secretary.

Mr B. F. Gummow returned Saturday morning with his bride, nee Miss S. E. Dynes, formerly of Penticton, but who has recently been teaching school in Victoria. The wedding ceremony was performed by the Rev. C. D. Clark of Peachland, at the bride's home, Beaverdel, on New Year's Day. After a few days spent in the Southern Okanagan they have come to make their home here where the groom has lived since childhood. Mr. Richard Walters arrived on the evening of the same day with his bride, and they have taken up residence in the home of Mr. and Mrs. A. Smalls. We voice the sentiment of the citizens when we welcome to our community Mrs. Gummow and Mrs. Walters. There being three recently married couples who had just taken up residence in town, the young people started out on Saturday night to have a time. They had it. First they visited Mr. and Mrs. Gummow, next in order Mr. and Mrs. Wray, as they thought, but unfortunately they were out for the evening. Then down the hill to call on Mr. and Mrs. Walters. They report that they had an enjoyable evening, but we have not been able to get a report from the other side.

The Peachland L.O.L. No. 408 met on Saturday evening for routine business.

The Brinsen Bros.' sister and her husband who have been visiting here for a few days left on Monday morning to resume their trip to the Coast and down to California.

Mr. John McLaughlin is the proud father of a bonny young son, born in Kelowna on Tuesday evening. Mother and babe are doing nicely.

Miss Morley and Mr. McLeod of the Central school teaching staff returned on Monday morning and have taken up the work of the term, Mr. McLeod as principal and Miss Morley in the intermediate room. Miss Whitman resumed her duties in the High School room with Miss L. Morrison in the primary department. Miss Olive Gummow has taken charge of the work at the new Townsite school this term.

Mr. and Mrs. McIntosh with their daughter left Monday evening for Vancouver to remain for a few weeks. They stated when leaving that they might return later.

**Corporation of the District of Summerland.**

**AUDITORS' REPORT.**

Summerland, B.C., 31st December, 1919.

To the Reeve and Councillors of the District Municipality of Summerland, B.C.

Gentlemen: We have audited the books and examined the records of the Municipality for the twelve months ended December 31, 1919, and attached hereto and forming part of this report you will find:

- (A) Statement of Receipts and Disbursements.
- (B) Statement of Assets and Liabilities.
- (C) Statement of Profit and Loss, Public Utilities.
- (D) Statement of Receipts and Disbursements, Board of School Trustees.
- (E) Schedule of Bonded Debt.

We are pleased to note that the taxes collected have materially increased during the past year.

The only matter we wish to draw to the attention of the ratepayers is the question of Public Utilities, whether it is not now time to start making these utilities carry themselves, and this of course would necessitate a readjustment of the present rates.

You will notice in the Operating Account for the Water and Light that this year depreciation is charged against operating instead of the amount of the Sinking Fund as in the previous year, and our opinion is that this is as it should be as well as being the wish of your Council.

We would strongly suggest to your Council that the question of Public Utilities and the future requirements of the Municipality, more especially with regard to water and light, be attended to while conditions are as favorable as they are.

The Municipal staff have done their work conscientiously and well.

We certify that the statements herewith submitted are true statements as disclosed by the books and records of the Corporation as well as from information received and in our opinion correctly represent the financial affairs of the Municipality as at December 31, 1919.

CREHAN, MOUAT & CO.,

Chartered Accountants,  
Municipal Auditors.

### 40 Years of Age

When a man is 40 years old, he cannot hide from himself certain facts. One of these is that his responsibilities to those dependent on him are not likely to decrease and that he is now probably at the zenith of his earning power.

At this age a savings account should no longer be neglected.

### Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre, second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$80 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 3 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 3 years are required.

Pre-emptor holding Crown grant may record another pre-emption, he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 80 acres may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mills, factories or industrial sites on timber land, not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

**PRE-EMPTORS' FREE GRANTS ACT**

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the expiration of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 30, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued due and been paid since August 6, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enactment to March 31, 1920.

**SUB-PURCHASERS OF CROWN LANDS.**

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who fail to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes payable distributed proportionately over whole area.

Applications must be made by May 1, 1920.

**GRAZING.**

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and administration under Commissioner. Annual grazing permits issued based on number of head of stock owned by established owners. Stock-owners form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

### LAST MEETING OF 1919 COUNCIL

(Continued from page 1)

B.C. Moore lot, was granted domestic water connection as was also Mr. H. H. Elsey for his lot west of the Steuart packing house.

A bill was received from the Steuart Fruit Company for 160 loads of gravel at 25c. per load. As nothing was known of this it was referred to the proper officials.

An account from the law firm of Billings & Cochrane, Vernon, for \$173.50 for legal services from an early date, April, 1911, up to April 1914 was referred to the accountant with instructions to obtain information. The belief was expressed that this account had been paid.

Another account, from Cochrane, Ladner & Reinhard, for several items dating back to August, 1917, was also referred to the Accountant.

A by-law by which the question

### CLEANING VALVE STEMS.

A very simple way of cleaning valve stems which are under suspicion of harboring carbon deposits is to inject a little kerosene in the air valve of the carburetor while the engine is running. In this way a little of the kerosene finds its way down the valve stem and softens and washes off the carbon. It is no bad idea to do this once a month or so.

of abolishing the ward boundaries will be referred to the ratepayers was put through its necessary three readings and will be again considered at a brief special meeting called for the purpose.

Engineer Fawkes presented his report covering work being done along the several mains together with plans and profiles of these ditches. Nearly one hundred thousand feet of mains have been surveyed, two-thirds of which have been plotted.

## Demand Efficient Schools. Ready to Pay the Price

School Matters Up For Discussion at Ratepayers' Meeting

### Hear Teachers' Side of Question

Secretary of Teachers' Association Addresses Meeting on Status of Profession

Teachers' salaries and the increases demanded in the schedule submitted by the Summerland teachers to the School Board was discussed at much length at the ratepayers' meeting called by the Board and held last Saturday morning. The discussion resulted in a resolution demanding that the efficiency of the schools be maintained and instructing the Board to pay the same salaries as are paid in other Valley towns under like conditions.

Mr. C. D. Denton of the High School staff told of the organization effected by the teachers and of the purposes of that organization. During a meeting of this organization salaries were considered and a committee appointed to meet representatives of the Okanagan School Trustees Association when a schedule was drawn up jointly by the teachers and trustees. He understood this schedule had been favorably received by the trustees in convention and that it was passed on to the several school boards. The local teachers received no notice from the trustees and it became necessary for the teachers to bring the matter to the attention of the trustees. The schedule as submitted had been rejected, and the trustees had drawn up another which was described by Mr. Denton as not satisfactory to the teachers, not fair, nor well considered. The effect would be that Summerland constantly would be changing teachers, and the Summerland school would be a training school for the other schools of the Valley. It might be possible to get other teachers at the salaries offered—teachers who could not get positions elsewhere. He did not think Summerland wanted that kind of teacher.

Mr. Denton asked permission to introduce Mr. Mathison, principal of the Penticton schools, and secretary of the organization, whom the meeting voted to hear.

Touching upon the movement for greater efficiency of the schools, which he said were not bringing in the returns they might, Mr. Mathison said the teachers of this province and elsewhere throughout Canada are organizing to promote the cause of education and improve the status of the teachers. So long as the salary paid a teacher repels, our schools will get the poorest, and he asked if there was anything more important than the education of our children. In the past any poor specimen had been allowed to get into the teaching profession and if better got in they did not stay.

The schedule as adopted by the trustees and teachers have been carefully drawn up. The salaries asked for were reasonable. It was so arranged that the poor teacher would have to fall out. It is not everyone who can be an educator. The salaries start at \$900, and when the teacher had been proved he or she would receive such salary as would enable them to give the best. Too often years of the pupils' lives were wasted. The higher paid teachers were cheaper. Mr. Mathison stated that the teachers' organization did not believe that the Summerland School Board was representative of the people of Summerland. The trustees had drawn up a flat salary, unfair and unscientific. Vernon, Kelowna and Penticton had granted the salaries recommended.

The death of Russell McFadden occurred Tuesday night at the Kallavista Resthome. He had been a resident of Summerland for several years, having come here from Sault Ste. Marie because of ill health. He is a son of Ulrich McFadden, a barrister of Sault Ste. Marie, who visited him a few months ago. He leaves a wife, formerly Miss Alice Stockbridge. The funeral was held on Wednesday afternoon, the service being conducted by Rev. W. H. Bates.

## United Farmers.

The Trout Creek Local of the U.F.C. held their annual meeting on January 8th. After the reading of the minutes of the previous meeting a letter from the Central Secretary was read, this giving indications of certain lines of action regarding the annual convention to be held in Victoria next month. Mr. Gilbert Thornber was appointed delegate to attend the Convention with Mr. Sidney Sharp as substitute. A tentative programme for the coming year was submitted and accepted as a basis. School and Municipal matters were given a great deal of attention. The election of officers for the coming year was as follows:—President, Harold Smith; vice president, Geo. W. Johnson; directors, E. Mountford, G. Thornber, G. Morgan; secretary, A. J. F. Anderson.

## Citizens Take Action on Oriental Question

RESOLVED: That the Summerland Agricultural Association views with alarm and apprehension the increase of influence asserted by Orientals in the province of British Columbia, and more particularly in the Okanagan.

We therefore urgently request the Federal Government to enact such legislation as will effectually prevent the owning and leasing of lands in this province by Orientals.

RESOLVED: That in placing real estate in the hands of agents for sale, owners are urged to state implicitly that same shall not be sold to Orientals.

These two resolutions were passed unanimously at a public meeting last Tuesday evening in the Campbell Hall, following an address by Mr. J. W. Jones, M.P.P., on the Oriental question. Mr. Jones has been addressing meetings in all parts of his constituency on this topic, and until he came to Summerland spoke to crowded houses. On Tuesday evening the hall was not more than half filled, but there was great interest shown in the subject, this being evident from the questions and discussion that took place following Mr. Jones' address.

The business before the annual meeting of the Summerland Agricultural Association was put through expeditiously during the first part of the evening. This was presided over by H. Bristolow, the president of the Association. The financial statement for the year as read by the secretary showed a good surplus and was accepted by the meeting. Following this the election of seven directors took place, resulting in the following being named for 1920: H. Bristolow, A. McLachlan, R. H. Holmer, A. Moyes, J. J. Blewitt, C. Craig, R. V. Agur. At the first meeting of these directors they will appoint their own officers.

Mr. Jones prefaced his address by a review of the foreign population in Canada. He showed that in spite of the increasing floods of foreign immigrants that had come in year by year little had been attempted by the governments concerned to Canadianize these newcomers. This had resulted in the different nationalities segregating themselves, which had greatly complicated the problem in a present day solution.

Touching lightly on the Chinese and Hindu immigration, Mr. Jones said he was of the opinion that these gave way in importance to the Japanese question. From the time

(Continued on Page 8)

## Peachland Alive to "Yellow Peril"

Would Not Lease or Sell Lands to Orientals

### Hear J. W. Jones

Advises Dominion Wide Action to Retain Pacific Coast for Canadians

At a recent public gathering in Peachland Mr. J. W. Jones, M.L.A. for South Okanagan, spoke on the Oriental question. The meeting had been well advertised and a good turnout ensued, comprising a fair percentage of ladies who are taking a keen interest in matters of public interest.

He stated at the outset that he did not wish to deal with the question in an antagonistic manner at all; but to draw attention to some facts in connection with the Orientals which heretofore have in many cases been thought very little of, but which are beginning to prove a vital situation. Leading up to the question he called our attention to the fact that during the years 1900-1916 some four million immigrants came into Canada, among which number there were eighty-five languages and dialects and out of the number there were only approximately one-third of them British born. In one year alone there were four hundred thousand immigrants, and we now have fifty-three nationalities in Canada. He pointed out some of the reasons these people had for coming into our land of which the following two are the most outstanding. First, to take advantage of the life of freedom of our country which our forefathers fought for and won, and second, that others come solely to acquire land. It was interesting to follow the comparison made of some of our larger cities when he pointed out that one in seven in Montreal, one in ten in Toronto and one in three in Winnipeg are foreigners. It was quite an eye-opener to the audience to hear that in a school district surrounding the town of Canora, Sask., embracing ten schools there were sixteen English speaking pupils. He called attention to the fact that in days gone by the western coast was, as it were, the back door of Canada; but recent years have changed conditions so that the eastern coast had practically become the front door. He set the audience thinking when he mentioned the fact that often when he heard a crowd singing the line of "O Canada—We stand on guard for thee," he wondered if they realized the full meaning of the words and meant it. Mr. Jones questioned the propriety of admitting into the country such persons to whom you would not care to grant equal rights.

Coming to the Japanese question it was stated that statistics showed there were eight thousand Japanese in B.C. as at October last, and reminded us that sixty years ago in Japan not one of our heads would have been any too safe. But great changes have taken place since that date, largely if not altogether due to their mixing with western civilization. We could not but admire the tremendous strides of advance the Japanese have made during that period. In the principles of military training the Japanese Government have largely copied from Germany. He pointed out that to-day Japan controls seventy-two per cent. of the shipping on the Pacific Coast.

Controlling down to our own district he called attention to the fact that the Japanese were gradually becoming land owners. He called attention to holdings all the way from ten acres to sixty acres in various parts of the district.

(Continued on Page 2.)

## OBJECTS TO KISSING BIBLE.

Magistrate Guernsey had Provincial Constable A. King under his thumb the other day during the hearing of a case against four Summerland residents who were haled into court on various charges of contravening the laws in regard to automobiles. On being sworn it was noticed that the provincial constable kissed his thumb instead of the Good Book, to which objection

## Reeve Campbell asked to Drop Back

Effort Made to Sidetrack Him at Last Moment

### In By Acclamation

Voting for Councillors in Two Wards and on Referenda

Until a late hour on Monday it looked as though Summerland might be in the same position as Vernon and a few other municipalities in that it would not have enough citizens to fill the civic vacancies. In fact the nomination papers of a number of those proposed were not filed until just prior to closing of nominations. It was only at the last minute when it became known that another school trustee was wanted that Scott Darkis, who was at the municipal office consented to serve.

Councillor Campbell was elected to the Reeveship. Councillor Kirk to his former position as representative of Ward IV. R. Johnston was the only one proposed for Ward III. In Ward I, J. R. Brown is opposing Councillor R. E. White and in Ward II there are two candidates, Isaac Blair and F. A. C. Wright. George Doherty was the only one proposed as Police Commissioner. For the School Board T. J. Garnett is returned and O. F. Zimmerman and Scott Darkis were also elected by acclamation.

Polls will be held at the Municipal Office and at W. J. Robinson's office for electing councillors for Wards I and II, and for taking referenda on the selling of the shore lots to the Fruit Union and on the question of abolishing the wards.

What is interpreted as an attempt to completely reverse the policy of the last Council and to obtain control of Municipal affairs was made at the last moment and though it has failed in part the issue will not be decided until the results of the polling in Wards I and II are known. This quietly planned plot depended largely on obtaining the consent of Councillor Campbell to accept nomination, at the last moment for councillor for Ward II, instead of the Reeveship. Councillor Campbell, however, did not fall for the move and keenly resented the effort, as he viewed it, to have him betray public confidence. The intention of those behind the movement was to nominate J. L. Logie as Reeve in place of Councillor Campbell. Frustrated in this effort former Reeve Blair was selected as candidate for Ward II and it was also decided that an effort be put forth to capture Ward I and a hurry-up canvass was made for a candidate. This explains why one of those who signed the nomination of Councillor White is now running as his opponent; Mr. Brown having been approached and under strong persuasion his consent obtained to accept nomination. Strong public sentiment has been aroused by this movement which is looked upon as an organized effort to obtain control of the Council and especially is the effort made to have Reeve Campbell withdraw at the last moment resented, as Mr. Campbell had been the choice of the ratepayers and was considered as good as elected.

was raised. The magistrate drew Mr. King's attention to the omission, but the policeman answered that he had not kissed a Bible in years. Magistrate Guernsey proceeded to give him the oath again and requested him to kiss the book instead of his digit. The constable once more objected, saying that he preferred to be sworn in the "Scotch style," which merely calls for raising the right hand. The magistrate was adamant, however, insisting that the constable follow the regulations of the court, and there was nothing for Mr. King to do but to kiss the cover of the well thumbed version that has done service those many years.

The cases against the Summerland chauffeurs were all dismissed with the exception of one, who was let off with a nominal fine. Lawyer Kolloy of Summerland looked after the interests of his townpeople.—Penticton Herald.

## Ratepayers Hear Annual Reports of Municipal Council

Regret Retirement of Reeve Simpson After Long Service

### Irrigation Extension Plans Presented

Increase in Rates Suggested to Relieve Drain on Municipal Taxes

## The Hospital.

The Hospital Society is now in possession of the Felix Hotel building which is being made ready for hospital purposes and will be opened as a hospital immediately. Mr. F. A. C. Wright, a member of the Hospital Board delegated to go to Victoria in connection with the proposal to rebuild the Summerland Hospital made his report to the Board here this week. He had an interview with Hon. J. D. McLean, M.D., the Provincial Secretary, by whom he was courteously received. Dr. McLean promised to bring the matter to the attention of the Cabinet, stating that funds were very low and the best he could promise would be assistance on a 50-50 basis and advised Mr. Wright not to be disappointed if the Government's contribution fell short of that proportion.

## Naramata Apples Delight People of Newfoundland

Several carloads of apples were shipped to Newfoundland this year by the O.U.G. Below is the comment of a dealer who received two carloads of Naramata apples packed and shipped by the Summerland Fruit Union warehouse at Naramata. The packers are to be complimented on the satisfaction this trial shipment has given, and there seems no reason why a large business should not be done with the ancient colony.

"The two cars of apples arrived safely and only a few boxes broken in transit, not worth mentioning, everything arrived in splendid condition. Our customers have all been delighted with the shipments and no wonder as they are a splendid fruit. They all like the red apple, and every box that came has been distributed and we have inquiries when the next car will arrive. Let me know if it is possible to make up another car of apples for shipment in the month of March. They would come in all right for the spring, provided the fruit were in good shape. I thank you for the advertising matter which has been all placed to the best advantage and am looking forward for a good season next year.

Yours truly,  
W. A. Munn."

## First Number of Lyceum Course Greatly Enjoyed

Summerland was promised a treat in the first number of the Lyceum course when the Sam Lewis Company would open the series of three events by a musical entertainment. The promise was fulfilled to the satisfaction of everyone. In fact some of those present have stated that the program was the best of the kind ever heard here. Though Empire Hall was not filled there was a good sized audience and an extremely appreciative one. The singing of Mr. Sam Lewis, the Welsh tenor, has not been excelled by anything heard here and he was most generous in his response to the numerous encores, and as a reciter and all round entertainer Miss Hopkins was equally good. The excellent playing of Mr. Allen Awent was greatly enjoyed as were the piano solos by Miss Florence Boney, who also acted as accompanist. The next number of the series will be given in the latter part of February, and though quite different in nature will no doubt be equally high class.

The usual interest of the ratepayers in Municipal affairs and their general intelligent grasp on civic matters was again manifest at the annual meeting of ratepayers held last Saturday. Much of the afternoon was taken up with a discussion on the irrigation system, which was opened by an address by Chairman Kirk of the Water Committee, following which Engineer Pawkes placed before the ratepayers plans in detail of most of the larger mains of the irrigation system.

Reeve Simpson called upon Councillor White as Chairman of the Finance Committee after the consent of the meeting to accept the published financial statement and auditors' report without being read.

Referring to the statement Councillor White pointed out that the surplus of assets over liabilities was practically the same as last year. The debenture liabilities had been increased by recent issues. The amount due the bank was more than \$3,000 greater than a year ago, but this was offset by the fact that the sinking fund deficit had been reduced by \$3,000. A larger proportion of taxes and rates were collected in 1919 than has been the general experience in the Municipality, 80 per cent. of the taxes having been collected as against 69 per cent. in 1918; 76 per cent. of the irrigation rates as compared with 66 per cent. the year before; 77 per cent. of general water rates as against 64 per cent. in 1918.

Attention was drawn to the fact that with the consent of the Council the auditors had substituted a depreciation charge for the sinking fund charge in the statements of public utilities. This had the effect of increasing the sum shown as deficit over what would have been shown under the former practice. Had sinking fund been charged against the electric light account it would require an approximate increase of 17 per cent. to cover the deficit; as shown it would require 22 per cent. He suggested that the electric light rate be increased from 12½ cents per kilowatt to 15 cents in order that the plant might be self sustaining.

With reference to the irrigation rate Councillor White said, "You may be surprised when I tell you that each owner of a ten acre lot paid \$7 per acre for his 1919 water rates and that always our land has been paying for water an amount greatly in excess of the rate per acre charged as irrigation rate. The statement of the water system showed that the charges totalled more than the total rates collected. This shortage must be made up and it comes directly from the land owner as a slice off the sum paid by him as taxes." The speaker said he thought the time had arrived when the irrigation rate should be more in proportion to the actual cost of delivering the water to the land and recommended that the 1920 council increase the water rate from \$3 to \$5 per acre. This would proportionately lower the tax rate.

The auditors' report and financial statement were criticized at some length by Mr. J. L. Logie, who pronounced the statement as not reliable and expressed dissatisfaction with the auditors. In the past he had been opposed to increasing the rates and did not know whether he was now in favor of the suggested increase.

Duncan Woods complained of the fact that the Council had not advertised the 1919 tax sale in the customary way, stating that only in this way could persons know whether land in which they were interested was up for sale. Should such land go to sale it would probably mean a supreme court case in order to again get possession, and this would cost at least \$800. The cost of advertising should be charged to the land affected.

Councillor Campbell, Chairman of (Continued on page 8.)

**J. W. JONES, M.P.P. SPEAKS AT PEACHLAND ON ORIENTAL QUESTION**

Continued from p. 1.

ious parts of the Valley, to say nothing of the lease held lands, and mentioned where they were trying to buy larger holdings. One almost amusing incident related was where a Japanese in one of our communi-

ties in the Valley, after working as an ordinary labourer during the season undertook to negotiate a deal for the place and it was found that he was able to produce a half million dollars to close the deal. They are right there with the money when it comes to a deal.

Summing all the points up Mr. Jones pointed out the fact that there were at least two outstanding

things could be done to deal with the important question. First, resolutions to our federal member, the Hon. Martin Burrell at Ottawa to urge great care and every precaution re. the renewal of the Japanese Treaty. Second, that we individually and collectively prevent Japanese ownership of lands wherever possible. He took occasion to read to the meeting a resolution which he had just received which came to him from the War Veterans' Association of Peachland, dealing with this question.

After some consideration by those present the resolution of the Veterans with a little alteration was unanimously passed as follows:—"That this citizens' meeting of Peachland views with apprehension the constant selling and leasing of local farm and orchard lands to Orientals and unnaturalized aliens and in consequence would request that the Federal Government seriously consider what steps be taken to prevent the Orientals and unnaturalized aliens from acquiring, either by purchase or lease, any farming or orchard land in this province."

In passing this resolution at their meeting the Veterans followed the same with the following reasons:— Depreciation of land values takes place wherever the Orientals or unnaturalized alien settlers. Incoming prospective settlers will not buy, and competition with the Orientals and unnaturalized aliens causes less returns for the British settler. Orientals and unnaturalized aliens do not assimilate with a British community and industries made profitable by British settlers ought to be available to such citizens only.

And finally the apathy of the Government is making the British settler seriously consider the necessity of direct action to protect his just claim.

Chairman R. J. Hogg threw the meeting open for discussion.

Mr. J. L. Vicary took advantage of this opportunity and with a few well chosen remarks suggested that as a gathering he thought it would be well to pledge ourselves not to sell or rent our lands or orchards to Orientals. The remarks met with hearty applause, and as a result of the information which had been so ably presented to the gathering by Mr. Jones, coupled with Mr. Vicary's suggestion, the following resolution was passed by the gathering:—

That this public meeting of the citizens of Peachland assembled to discuss the Oriental question, after having listened to the address of Mr. Jones, M.L.A., now pledge ourselves individually and collectively not to sell or lease any of our farms or orchards to any Oriental or undesirable alien pending action by the Federal Government to amend the at present very unsatisfactory immigration laws; as we feel that the action is necessary to protect ourselves in the meantime.

After the passing of these resolutions Chairman Hogg stated that he considered it would be a good plan for other local organizations to take up this question and follow some definite action along similar lines as above.

**PUBLIC MEETING DISCUSSES SCHOOL AFFAIRS**

(Continued from page 1)

quested. Is Summerland going to take the offscourings? There were towns in the Valley which would go Summerland one better for its manual training instructor, with whose salary he compared those paid the principals and other teachers as unfair, and the Teachers' Association is refusing to allow teachers to operate under unfair advantages. Mr. Mathison referred to the big Dominion Educational Convention when business men and educationalists had resolved to obtain the highest results and raise the standards of education and improve the status of the teacher socially and otherwise.

Mr. W. C. Kelley suggested that the salary question be left to the Board with the understanding that adequate salaries be paid.

Reeve Simpson declared that it would not matter so much what we paid if we got value and if the Board met the schedule we would undoubtedly soon receive full value for our money. We want first class education for our children; nothing is of more benefit to them and there is nothing for which they will be more thankful. He would support the increased salaries and demand efficiency.

Mr. J. L. Logie declared that past experience showed that when poor salaries had been paid that poor results had been obtained, efficiency should not be sacrificed for a few dollars. It would pay us to keep the good teachers here. He moved the resolution as noted above

which was seconded by Reeve Simpson. An amendment proposed by Messrs. Caldwell and Sculthorpe that the matter be left with the School Board was defeated and the original motion carried.

Some criticism of the School Board in not having had a representative at the Valley meeting was heard from Mr. Jas. Ritchie and others.

The statement of school finances, as already published, was read by Secretary Bowering, who advocated the closing of the town as well as the Garnett Valley school. Motor

transportation would remove some of the objections against the consolidated plan. Trustee J. Tait also favored the closing of the Town School. Mr. J. L. Logie opposed this, declaring that the Town School should be kept open and that there should be a two-room school in town. Mr. Chas. Baker objected to closing the primary schools on moral grounds.

After some further discussion this question was left open.

Following a resolution to Principal McIntosh, who has been seriously ill, the meeting adjourned.

**Corporation of the District of Summerland**

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Corporation of the District of Summerland that I require the presence of the said electors at the Municipal Office, West Summerland, on the 12TH DAY OF JANUARY, 1920, AT 12 O'CLOCK NOON, for the purpose of electing persons to represent them in the Municipal Council as Reeve and Councillors, on the Municipal School Board as Trustees and on the Board of Commissioners of Police as Police Commissioner.

The mode of nomination of candidates shall be as follows:— The candidates shall be nominated in writing: the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and two p.m. of the day of the nomination; and the said writing may be in the form numbered 5 in the Schedule of this (Municipal Elections) Act, and shall state the names, residence, and occupation or description of each person proposed, in such manner as sufficiently to identify such candidate, and in the event of a poll being necessary, such poll will be opened on the 17th day of January, 1920, at Mr. W. J. Robinson's office, Summerland, for Wards I. and IV. and at the Municipal Office, West Summerland, for Wards II. and III. of which every person is hereby required to take notice and govern himself accordingly.

The qualifications for Reeve, Councillor and Trustee are as follows:—

The qualifications for Reeve shall be his being a British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the Municipality of the assessed value on the last Municipal or Provincial assessment roll, of five hundred dollars or more over and above any registered judgment or charge, and being otherwise duly qualified as a municipal voter.

The qualifications for Councillor shall be his being a British subject and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the municipality of the assessed value, on the last municipal or provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the municipality for the space of one year or more immediately preceding the day of nomination, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, or being a homesteader, lessee from the Crown or pre-emptor who has resided within the Municipality for a portion of one year immediately preceding the nomination, and during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, and being otherwise duly qualified as a municipal voter.

The qualifications for School Trustee shall be his being a British subject of the full age of twenty-one years actually residing within the Municipal School District and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office of land or real property situate within the municipality of the assessed value, on the last municipal or provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the Municipality for the space of one year or more immediately preceding the day of nomination, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the municipality for a period of one year immediately preceding the nomination, and during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and is assessed for five hundred dollars or more on the last municipal or provincial assessment roll over and above any registered judgment or charge, and being otherwise qualified by this (Public Schools) Act to vote at an election of school trustees in the said school district.

Given under my hand at Summerland, this 31st day of December, 1919.

F. J. NIXON, Returning Officer.

**NOTICE**

**Municipality of Summerland**

TO WIT:

PUBLIC NOTICE is hereby given to the electors of the Municipality aforesaid that a poll has become necessary at the election now pending for the same, and that I have granted such poll, and, further that the persons duly nominated as candidates at the said election and for whom only votes will be received are:—

Surname	Other Names	Whether for Reeve or Councillor	For what Ward	Abode	Rank, Profession or Occupation
Brown	J. Robert	Councillor	Ward 1	Summerland	Rancher
White	Ralph Edwin	Councillor	Ward 1	Summerland	Editor
Blair	Isaac	Councillor	Ward 2	Summerland	Fruit grower
Wright	Francis A. C.	Councillor	Ward 2	Summerland	Fruit grower

of which all persons are hereby required to take notice and to govern themselves accordingly.

Given under my hand at Summerland this twelfth day of January, 1920.

F. J. NIXON, Returning Officer.

**Corporation of the District of Summerland**

**Referendum re By-Law No. III**

At the Annual Municipal Election to be held on January 17th, 1920, the following question will be submitted to the Municipal Electors:

"Are you in favor of the Corporation of the District of Summerland selling to Summerland Fruit Union Lots 8 to 10 both inclusive in Block 36A according to Plan registered in the Land Registry Office at Kamloops in Province of British Columbia as number 157 for the assessed value thereof, namely \$2,000.00, in cash."

F. J. NIXON, Municipal Clerk.

**Corporation of the District of Summerland**

**Referendum re By-Law No. II2**

At the Annual Municipal Election to be held on January 17th, 1920, the following question will be submitted to the Municipal Electors:

"Are you in favor of discontinuing the division of Summerland Municipality into Wards?"

January 9th, 1920 F. J. NIXON, Municipal Clerk

# Peachland Has Excellent Year

## Civic Affairs are in Healthy Condition.

### Ratepayers Hear Reports of Reeve and Committees.

A ratepayers' meeting was held on Saturday afternoon the 10th at 2 p.m. in the Council Chamber. The financial report and auditor's statement were read by Clerk W. M. Dryden, and on motion was adopted unanimously. It was gratifying to the ratepayers to note the remarks of the auditors to the effect that they were pleased to be able to state to the ratepayers that at the close of 1919 the financial position of the Municipality is in a much sounder condition than it was twelve months ago. The statement disclosed the fact that there was a gain in the administration during the year of over \$2,000.00.

Councillor Powell was called on for a report as Chairman of the Finance Committee and also as Chairman of the Irrigation System Committee. There was not much to be said on the financial question other than the points covered by the statement as read. Speaking about the water system, which is a live subject at all times in an irrigation belt, Mr. Powell explained matters of interest. Owing to the Government not completing arrangements and handing the system over to the Municipality till a late date in the spring it resulted in a serious handicap in getting the work of repairs and rebuilding done in time for the irrigation. Extra effort was put forth however, and the work rushed as much as possible with the help available at the time. The rates had been left the same for the past season as had previously been charged, but it seemed inevitable that the rates would have to be higher, the setting of which was entirely left in the hands of the Government. Mr. Powell, on behalf of the Committee and Council thanked the ratepayers for coming forward so handsomely in paying up the rates, as it helped the Committee wonderfully. The total levy was \$2,010.00, of which \$1,805.00 had been paid. The balance, \$205.00 was outstanding with eight non-resident and only one resident ratepayer. The Government had promised to have the new rates set and advised early in the 1920 season. The Chairman of the Electric Lights and Domestic Water Committee, Mr. O. Pope, being away, the Reeve made a few remarks on same.

In connection with the electric pole line extension which had been voted on recently, he stated that it would pay for itself in revenue. Cedar poles will be used.

The Chairman of Public Works, Mr. R. E. Taylor in his report explained that through shortage of labour and not enough funds, not all the work was done which they would like to have done, but that they had striven to do as efficient work as possible under the existing circumstances. The following are the amounts spent in each ward:

Ward 1, \$188.37; Ward 2, \$321.75; Ward 3, \$378.88; Ward 4, \$146.51; Sidewalks, \$119.20; Water pipe and Blacksmith account, \$57.04; making a total of \$1,361.75. The large expenditure in Ward 3 is owing to two slides on the Lakeshore road which caused a lot of work and expense. Chairman A. J. MacKenzie of the Health Committee had little to report as this was such a healthy place there is not much for a health committee to do.

Reeve Hogg in a few remarks stated that he had enjoyed the work throughout the year, partly due to the fact that the committees were on the job at all times and had worked in a satisfactory manner. The levy for 1915 had been \$7,819.97, while for 1919 the levy was \$8,452.88. Owing to the decrease in assessment it took 27 mills to raise the 1919 levy as against 15 mills to raise the 1915 levy. School expenditure had increased nearly \$1,000 between 1915 and 1919, which accounts for more than the excess in the levy.

As Chairman of the School Board Mr. H. Williams referred to the higher school rates, and explained that it was mostly due to the increase in salaries. The Board felt that efficiency was the main thing, and in order to maintain the standard of efficiency we have been proud to boast of, it was necessary to pay the higher salaries.

Owing to assertions that too high a charge was made for the street lights, the Reeve stated that the auditors had made mention of the fact that they considered the charge

too low. The Reeve produced figures taken in various towns and cities and in every case quoted the charges were higher than was ours. The Reeve also referred to the school question and gave some facts and figures as follows:

The average attendance for the years 1917, 1918 and 1919 consecutively were 105, 108, 121. Cost of maintenance based on the 1919 average of 121 was, for the whole school, \$53 per pupil, of which the Government met \$23. For the High School the cost per pupil was \$93, of which the Government met \$55. The Public School cost per pupil was \$53.55, of which the Government met \$31.65. There were a number of High School pupils whose parents were not contributing towards the expenses, and the feeling seemed to be that a uniform levy could be set for such cases.

A motion of thanks was very heartily applauded by all present in appreciation of the services rendered for the year by the Reeve, Councillors and Clerk.

## Would Restrict Sugar Exports

An address by Mr. R. M. Winslow, Secretary of the B.C. Traffic and Credit Association on Saturday night last in the Council Chamber was well attended and thoroughly enjoyed by all who availed themselves of the opportunity. He dealt principally with the sugar shortage and refrigerator car accommodation questions. He gave those present an insight into the reasons of the sugar shortage, such as many of them little dreamed of, and aroused a very keen interest in the question. The shortage of refrigerator cars was also surprising to most present. However the members present noted with satisfaction the fact that those looking after our interests had succeeded in getting a very fair percentage of the few cars to be had.

As a result of the information gained at this meeting the following resolution was unanimously passed: Whereas the shortage of sugar had a serious effect on the prices obtained for soft fruits; and whereas, according to the information obtained from a reliable source this shortage will be as acute, if not more so, this coming season; and whereas, the solution to the problem is to have restriction placed on the export of sugar to Europe and elsewhere, and the providing of additional ships for the importing of the raw material for the refineries; Be it therefore resolved by the fruit growers of Peachland in public meeting assembled, that the Director of the B.C.F.G.A. repre-

senting the district be instructed to request the B.C.F.G.A. to take what steps they deem best to secure restrictions on the export of sugar and the necessary supply of ships for the importing of raw material. And further that the B.C.F.G.A. bring all the pressure possible to bear on the railway companies to ensure a supply of refrigerator cars for the transportation of fruit, and that the association be impressed by the necessity of their keeping at these two important phases till they see the needs met.

## Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative

Rev. Andrew Grieve, with wife and children spent a day in town last week in attendance at the annual business meeting of the Baptist Church. The various reports showed a successful year. A dainty supper was served by the ladies. Rev. and Mrs. Grieve and family returned to Penticton the same evening.

Miss Wilson and Mrs. Thos. Powell left last week for the Coast to remain for a few weeks' rest in Vancouver and Victoria.

Mrs. J. Wright returned last week after a pleasant holiday at the Coast.

On Tuesday evening of last week Mrs. Town entertained a few friends as a farewell for Mr. Town who left on Wednesday for the Coast, where he has gone to settle on something to take up his time and attention for the future, or at least a part of it. He says he is tired of leading an idle life and wants to be busy again.

Mr. Arnew of Olds, Alta., is the guest of Mrs. Siegfried. He is another prairie man who is contemplating life in the Okanagan.

Mr. Thos. Powell spent a few days last week in Vernon, returning Thursday evening.

Mrs. A. D. Ferguson and Mr. J. McLaughlin Jr. motored to Kelowna on Thursday of last week to see Mr. McLaughlin's wife and young son, who they report are doing fine.

Mrs. Grantham and her little boy Jack, who spent some weeks here recently have returned to spend a few months in town. They arrived on Friday and are guests at the Edgewater Inn.

Alex. Beasley of Oyama returned on Monday last to resume his studies in the High School here, and is again residing with Miss M. Smith. (Continued on page 8.)

## Peachland Elects Reeve, Councillors and Trustees By Acclamation.

At nominations on Monday last for municipal and school board offices, all offices were filled by acclamation, there being no more than one nomination for each vacancy. The only changes on the Municipal Council were in Ward 1 and Ward 2. Mr. O. Pope having left the community to live at the Coast, left Ward 1 without a representative, and Mr. R. H. Huston was nominated for that ward. Mr. R. Harrington was nominated for Ward 2, replacing retiring Councillor A. J. MacKenzie. The Council for 1920 stands as follows: Reeve, R. J. Hogg; Councillors, R. H. Huston, Ward 1; R. Harrington, Ward 2; R. E. Taylor, Ward 3; Thos. Powell, Ward 4. There were three retiring school trustees, namely Messrs. Hogg, Taylor and McGirr. The former two were returned. Miss M. Smith filled the vacancy left by Mr. McGirr's retiring. The 1920 School Board stands as follows: Messrs. Hogg, Williams, Taylor, MacKenzie and Miss M. Smith, B.A. During the speeches following nominations several referred to the new departure for the Peachland School Board to be honored for the first time by a lady member. Ratepayers complimented the board on this fact and members of the Board expressed their appreciation and delight, and stated that they fully expected Miss Smith would be a very able assistant. Secretary Hogg expressed the expectation that she would be likely to lend able assistance on the question of arranging for a teachers' and parents' association, which he considered should exist, especially in all small communities, and which would aid greatly in the general conducting of the school affairs. Mr. M. N. Morrison was nominated on the Police Commission to take the place of Mr. A. Town, retiring. This makes the Police Commission as follows: Reeve R. J. Hogg, M. N. Morrison and H. E. McCall.

### THE ENGINEER.

WHAT WOULD BE THE NEXT MOVE of the citizens who are advocating the dismissal of our Engineer? The ratepayers are behind the irrigation improvement program. They demanded that the work be done under the guidance of an engineer and accordingly an engineer was engaged. He came to us highly recommended but like every other man he has made some mistakes. The work is not yet far enough advanced to permit of disposing of the services of an engineer. What would those citizens who are advocating his dismissal do after having attained their object?

Mr. Fawkes after a year's experience is more valuable to the municipality and the irrigation system than he was a year ago, and to engage another would be to sacrifice that experience,—the putting of another new man on the work. Our Engineer is of more value to us than any other man that could be gotten at this time. Just as soon as the Municipality has no work requiring an engineer by all means give him notice that his services are no longer required. To dismiss him just now because he is not perfect or because he has displeased some of our citizens would greatly interrupt the constructional program.

### THE MUNICIPAL ASSESSMENT.

SOME PEOPLE WHO HAD FORGOTTEN that they ever owned certain properties will be receiving assessment notices for these properties about now. By an amendment to the Assessment Act municipal assessment rolls must be made up from information obtained from the Registry Office. All properties are therefore assessed to registered owners. The assessment roll also shows the names of any other interested parties who have registered their Agreement of Sale, Mortgage or whatever their claim may be. These, too, will be served with assessment notices. Thus persons no longer interested in properties once registered in their names will be receiving notices of assessment.

In the Assessment Act provision is made for dealing with such cases. It would be well for persons so assessed to note what proceedings to take to have the assessment made right. On the back of each assessment notice issued from the Summerland Municipal Office is printed Section 216 of the Municipal Act, giving the necessary information and instructions.

THERE WAS ONLY ONE ANSWER that Summerland could give to the teachers' salary question, and the School Board has that answer. The efficiency of our schools must be maintained. The rest is up to the board.

### Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

Creekside,

January 13th, 1920.

The Editor, Review,

PERMANENT WAR MEMORIAL.  
Dear Sir,

The chief drawback to settling on a suitable memorial is that we cannot tell what amount of money we shall be able to collect, therefore may I suggest to those who are not in favor of a building that a bed in the Hospital, could be endowed as a memorial when any dependents of the fallen who have need of medical treatment should be put in this bed and treated free of charge. At the end of each year should there be a credit balance to the account it could be used to help pay part expenses of any of our returned boys who have to have medical treatment.

Should this suggestion meet with approval details could be gone into at a public meeting.

By using this form of memorial I think we would have a permanent one, we would be helping the families of those who gave their ALL, and giving those who have been spared us a little help when it is most needed.

Yours truly,  
F. A. MILLER.

"Roslyn,"

Summerland, B.C.  
15th January.

Editor, Review.

Dear Sir:

To use the phrase commonly spoken by officers of Scotland Yard, "I have been reliably informed by parties who are in a position to know," that there is now in our midst a section of our citizens united and resolved to oust our capable engineer, Mr. Fawkes, from the position he has been filling and is further prepared to fill, much for our benefit and education.

Their small minded and misguided reasons are said to be as follows:

He contracted for lumber and cement from dealers other than our citizens, thereby saving us as a community many dollars, and showing wise, up-to-date and business acumen and foresight.

In my humble opinion the splendidly clear and comprehensive plans prepared by Mr. Fawkes and held up before us at the annual meeting of ratepayers for inspection were in themselves a good enough reason for us wishing to retain his services, to carry on and complete the valuable references and data he has, and is prepared, and further intends to complete for us, if not interfered with.

Yours truly,  
H. M. LUMSDEN.

West Summerland,  
Jan. 14, 1920.

To the Editor, Review.

Dear Sir,

May I again trespass upon your space and the patience of your readers?

A point which was apparently overlooked in letters of the past week is this. At a meeting advertised as for the purpose of dealing with one community question, another community question of importance was brought up and disposed of to the satisfaction of a certain number, no public notice having been given of its intended introduction.

I am under the impression, but open to correction on the question, that knowledge of the intention to introduce the memorial question at the meeting called to discuss the hospital question was confined to a very small circle. The meeting then, though representative of the district on the question with which it had the right to deal, was not truly representative upon the question which was brought forward without public notice, and the "Stop! Look! Listen!" through the medium of your far reaching columns has achieved its purpose.

A writer more tactful than I has said that we are humbugging ourselves. More tactful because he conceded to a human failing—the tendency of mankind to believe that even in the business or art of humbug he did it all himself, standing superior to any influence. But that, as every self-analyst knows, is only another little humbug game with which we constantly amuse ourselves.

Again thanking you, and assuring you that I shall trouble you no further on this question,

I am, yours very truly,  
LILY FOSBERY.

### Community Calendar of Coming Events

Advance notices under this heading will be charged for at two cents a word. Minimum charge 25c. first insertion. Each repeat one cent a word. Minimum 10 cents.

St Andrew's Presbyterian Church morning service, 10.30. Special preacher, Rev. W. H. Smith, M.A., D.D., principal of Westminster Hall. Come and hear this great preacher and scholar.

At the morning service at 10.30 o'clock in the Baptist Church, West Summerland, Mr. Baker will speak on "The Perspective of the Inter-Church Forward Movement." Mr. Baker will also speak at the evening service at 7.30.

The annual business meeting of the Baptist Church will be held in the West Summerland Church on Wednesday evening, the 21st, at 8 p.m.

### NOTICE

RE. PROPOSED BY-PRODUCTS PLANT.

Because of delay in securing a proper location and inability to make necessary arrangements in time we have decided to delay building for the present and regret that we will not be in a position to handle the cull apples from last season's crop, but assure the growers that our plant will be ready in time for the next crop.

Don't miss Carveth Wells jungle pictures at Rialto Theatre, Summerland, Wednesday night, Jan. 21st.

Mr. and Mrs. Gilbert White and family and Mrs. Tromlee, Mrs. White's mother and Miss Freda Grist left Thursday morning for Vancouver on their way to Saratoga, N.Y.

The Mercantile Company would draw attention to the fact that 29 is no longer the phone number of Mr. J. R. Brown, but is the number given the Mercantile Co. by the Telephone Co.

Mr. C. F. Bickford of New Westminster has been in town for the past few days looking into the possibility of establishing a cannery here, and will likely ask for a meeting of growers at an early date.

While cutting wood in his backyard, Mr. J. Corner had the misfortune to almost sever his left forefinger at the upper joint. There is yet hope that the member may be saved, and it is probable that Mr. Corner will have the finger operated on to-morrow.

The Summerland Lawn Tennis and Badminton Clubs united in an informal reception to two of their members, Mr. and Mrs. P. G. Dodwell, Thursday afternoon of last week. Following the serving of refreshments Mr. Fosbery on behalf of the members congratulated the groom and expressed the wish of the members of both clubs for a long and happy life for himself and the bride, at the same time presenting Mrs. Dodwell with a large basket of beautiful and useful gifts.

War souvenirs from all parts of Europe, a truly wonderful collection, each article with a history, will be exhibited next Tuesday in St. Stephen's Hall. This exhibition is being prepared by the Women's Auxiliary of the Veterans Association. It is the first and may be the last of its kind to be seen here and it is something that no one should miss. Further, the efforts of the women deserve the encouragement of every man and woman in the community for the splendid show they are preparing. A musical program is being arranged and tea will be served. Only a nominal fee is being charged. Further facts in advertisement.

A daughter was born to Mr. and Mrs. E. Kercher on Wednesday, Jan. 7th.

Mr. and Mrs. G. J. C. White are leaving next week for a visit to Vancouver and Victoria.

Don't miss Carveth Wells jungle pictures at Peachland-Orange Hall, Thursday night, Jan. 22nd.

Mrs. Kennedy of the High School staff and some of the girl students who live farthest away, have taken rooms in the High School building.

Lieut. and Mrs. Littlejohn returned to Summerland Tuesday morning and are again residing in Peach Orchard.

There has been quite an improvement noticed in the condition of Principal McIntosh of the High School, who has been seriously ill with pneumonia.

Following the Hospital fire two or three lengths of garden hose were removed from the Hospital grounds either for safe keeping or borrowed. The hose is now much needed at the Felix Hotel building by the Hospital Society, who will be grateful for its early return.

Bill Duke, "the strong man," entertained a good sized audience in the Rialto Theatre Tuesday night with the usual strong man feats. It took him nearly an hour to free himself from the rope in which he was bound by Tom Ramsay. During the afternoon he carried out his street exhibition of being run over by a heavily loaded automobile, first having taken the precaution of having a stick of fire wood placed beside his thigh on the side from which the car was approaching.

Machinery for the Walters' by-products plant has been ordered but will not be erected in time to make use of any apples still in storage. The company has experienced some unexpected delay in procuring a proper location and in disposing of their interests in Alberta, but as announced by them in the columns of this paper they will be ready in ample time for next year's crop and we are informed that the plant will be ready for operation not later than July 1st. The machinery purchased is ready to be shipped when instructions are given the company to do so.

**Jungle Explorer To Lecture Here**

"Six Years in the Jungle of the Malay Peninsula," is the subject of a lecture to be given here next Wednesday and in Peachland on Thursday, by Carveth Wells, explorer and lecturer. Mr. Wells will be accompanied by his wife, and both will dress up in Malay costume. The lecture will be well illustrated. Mr. Wells, who is related to the Archbishop of Canterbury, after taking his degree in civil engineering at the London University spent several years pioneering in Canada. Afterwards he was appointed lecturer of civil engineering in the London University. Later he was sent by the British Government to carry out exploration in the Malay Peninsula and spent six long years in the densest jungles, during the last four years of which Mrs. Wells was with him. Mr. and Mrs. Wells have since been engaged on Chautauqua and Lyceum platforms. His pictures secured in the jungle are of greatest interest.

As a lecturer he has a charm of manner that ingratiates him with his audience. Mr. Wells has also been assisting the Inter-Church World Movement, speaking upon his experience with Mohammedans, Hindus, Chinese and the Negroes, who are the lowest type of human being in the world, found in the Malay jungles. There is no other lecture similar to this and it is because it is different that it is so successful. Children as well as adults never fail to give Carveth Wells their rapt attention. He is instructing and entertaining. Particulars of this lecture are given in our advertising columns.

**VALUE OF INCINERATORS.**

In the army every camp, no matter how small, had its incinerator. Fatigue parties were told off, and every scrap of litter was collected and burned. All cans also were put in the fire to remove particles of food that would attract flies. Many of these incinerators were of quite inexpensive and improvised construction; others were specially manufactured. The splendid freedom of the army from typhoid fever attests their efficiency. Moreover in this manner the camps were kept decent and tidy.

Compare this with the disgraceful method employed by many civilian communities of dumping garbage in huge, evil smelling, unsightly heaps. Worst of all, such dumps are actually used for filling hollows on which houses are to be built.

In this respect, if in no other, let us take a leaf out of the army's book and profit by the lessons learned during the war.—Conservation.

Current Events of  
Town and District

Mr. Joe Lyons is seriously ill with lung congestion. He is under the care of Dr. White of Penticton.

Mrs. Brewer of Poplar Grove was the guest of Mrs. Mallory for a few days last week.

Mr. Russell Wells is in Vernon and will be away for a few days on business for the firm.

Mr. Chas. Grimaldi and Miss Clara Palmer, daughter of Mrs. Dan McKay, both of Naramata were married in Penticton on Thursday by the Rev. Mr. Miller. Mr. and Mrs. Grimaldi will take up their residence here in their own home. Their many friends wish them much joy.

Mr. Gerald Lumsden is just back from Vancouver where he was spending the holidays with his people.

A most successful whist drive was held in the Unity Club house on Wednesday evening by Mrs. George Cook and her daughter Mrs. Howard Rounds. Seven tables were occupied and the highest honors were won by Mrs. Andy Wilson and Mr. Thos. Kenyon. The consolation prizes were captured by Mrs. Victor Watson and Mr. Ernie Steers. The proceeds of this drive will go to the Women's Institute library fund.

Mr. Vic. Watson motored in from Princeton on Sunday and returned home accompanied by his little daughter Betty.

Mr. Dan. McKay has gone to the Coast and will be away for some little time.

Mr. R. M. Winslow, secretary of the Traffic and Credit Association, was here on Saturday afternoon and talked to the growers on the sugar situation and other things of interest to the people of the district. It looks as if we would have to get busy at once if we are to have some of the necessities of life during the next year.

Mrs. Tomlin of Kaleden is here visiting Mrs. J. Lyons for a short time.

Mr. and Mrs. George Craig of Summerland and Mrs. Stuart Leckie of Penticton were guests at the Robinson home on Sunday.

We have at last definite information regarding the new wharf which we have waited so long and patiently for. The contract has been let to parties in New Westminster and the time clause calls for its completion by April 16th.

The Farmers' Institute held their first regular meeting of the new year on Monday night with a large attendance. Mr. J. W. Jones, M.L.A. was present and gave the members a most excellent address on the Oriental labour question, which resulted in the endorsing of several resolutions which were forwarded to the Department. Resolutions relating to the shortage of cars and sugar were also sent forward to the Associated Boards of Trade. The Ladies' Unity Club and the Women's Institute were invited to co-operate in a combined social affair which followed the meeting and the result was noticed when most inviting refreshments were served. More of these combined social meetings will probably follow, which will make the gatherings more successful and interesting.

**OKANAGAN DISTRICT.**

Ferry, Summerland-Naramata, Okanagan Lake.

In accordance with chapter 85, R.S.B.C. 1911, "Ferry Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as Naramata, a distance of about two miles and three quarters.

Applications will be received up to 12 o'clock noon, Monday, 16th day of February, 1920.

The charter will cover a period expiring on the 31st March, 1921. The ferry shall make two trips each way every day, weather permitting.

Applicants shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Canada Shipping Act, 1906," and amending Act.

The following is the schedule of rates:

- Autos, \$1.
- Single rigs, 75 cents; loaded \$1.
- Double rigs, \$1.25; loaded \$1.75.
- Passengers, 10 cents single.
- Passengers, 5 cents single (under 13).
- Settlers' tickets, fifteen for \$1.
- Horses, 50 cents; two or more, 40 cents each.
- Cattle, 40 cents; two or more, 30 cents each.
- Pigs, sheep, colt, calf, 30 cents; two or more, 25 cents each.
- Freight, per 100 lb., 10 cents; per ton \$2.
- No charge for parcels under 25 lb.

To the successful applicant the Government of British Columbia will pay, at the expiration of every three months of satisfactory service, a grant in aid of operation of this ferry, and each applicant should state the amount of grant he is prepared to operate this ferry for.

The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.

### Non-Voters Would Lose The Franchise

#### Drastic Changes Proposed in Election Laws

Premier Oliver is responsible for what would be practically a new election law for British Columbia, so drastically would the present act be amended by new legislation which he proposes to introduce into the House at the coming session.

Under the Premier's proposed bill it is intended to cancel all existing voters' lists, to provide a number of special temporary registrars to revise the list once a year instead of twice, with a revision before each election, to provide an autograph check system to prevent impersonation, to permit a voter to vote in any part of the province for his home candidate, and to automatically drop from the list all persons who fail to exercise their franchise.

"The first thing after cancelling the existing lists," stated Premier Oliver, "will be to prepare a new voters' list. In an effort to enroll all eligible voters we propose to take authority to appoint a number of persons to act as deputy registrars to enroll voters. These men and women will be stationed in the streets or take other steps to enroll voters."

It is proposed to keep the voters' lists clean and up-to-date, by having a yearly revision and a special revision before an election if there has not been a regular revision within six months of the election. As a further means of keeping the

list clean and stimulating the use of the franchise, it is proposed to strike off the list after each election all those persons who failed to use their vote. Voters struck off for this cause will be able to get back on the list if they wish by registering again.

"A new feature of the system," stated the premier, "will be the signing of duplicate application forms. One set of these will be bound up in book form, and will be in the custody of the officer in charge of the polling sub-division. Each person presenting himself or herself for a vote will have to sign an application form or a register. The signature of the applicant will be checked up with the signature in the bound book of original applications. By this means we expect to make the impersonation of voters too dangerously difficult for anyone to attempt."

"Another reform will be the creation of machinery to enable persons in rural constituencies to vote in any part of their constituency and to enable any voters who are away from home to cast their ballots without the trouble and expense of returning to their homes. This will be a convenience to the voter and will also relieve candidates from the expensive task of bringing voters from outside constituencies home to vote. By wiping out the need for collecting campaign funds I am hoping to help elections to be freer from corrupt practices."

Votes cast in outside parts of the province, according to Premier Oliver's plans, would be enclosed in special envelopes on the back of which would be an affidavit signed by the voter. When received by the registrar in the home consti-

### Winter Pruning

(Experimental Farms Note)

Winter pruning of bearing orchards should be attended to every year. The orchardist should go over his trees systematically and cut over crossing or broken limbs wherever these occur. Cut close to the main limb, don't leave stubs, and paint the wound with white lead and boiled oil (no turpentine). We prefer a stiff stencil brush and rub the paint well into the wood. A little brown coloring makes the wound less conspicuous. When cutting a large limb cut on the under side first, this prevents tearing the wood and bark as the limb comes away from the tree. When limbs spread too wide and make cultivation near the tree impossible, cut to a shoot that is growing up. This shoot will soon grow strong and take the place of the part cut off. Many of our older orchards have acquired the off year habit, which means crop one year, grow the next. It is after the growing year that we

eney, a comparison would be made of the signature with the signature in the original application book before it would be admitted to count. This procedure would delay final announcement of the returns and might keep the result in some uncertainty, where the home vote was very close between rival candidates. "The amendments have been drawn," added the premier "with the idea that every man and woman possessing the right to vote is entitled to register and cast his or her vote with as little inconvenience as possible."

must thin our trees and see that there is not too much new growth to exclude light and air. If there is a heavy new growth thin this to distribute as evenly as possible. Don't leave stubs of heavy new growth hoping they will form fruit spurs, as cutting away the heavy new growth cuts away the big plump buds which easily form fruit spurs, leaving the less mature buds which prefer to make new wood growth, so the result would be crowding instead of thinning the tree.

Use sharp pruners and saws and make clean cuts. Use sharp eyes and good judgment, distribute the new growth evenly and the crop will be evenly distributed.

A little well done every year eliminates the culls; tree butchery at long intervals eliminates the profits.

Don't haggle a tree and expect the wounds to heal. Don't prune trees when frozen hard.

Don't leave pruning till too late. Don't leave prunings lying about; burn them and take advantage of the ashes.

R. H. HELMER, Superintendent, Summerland, B.C.

Ideals are like stars; you will never succeed in touching them with your hands, but like the seafaring man on the desert of waters, you follow them as your guides and thereby you reach your destiny.

### LAND REGISTRY ACT

#### Notice Under Section 36

No. of Application: 8358D

TAKE NOTICE that an application has been made to register The Summerland Development Company, Limited, as the owner in Fee-simple, under a Tax Sale Deed from the Assessor of the Municipality of the District of Summerland, to The Summerland Development Company, Limited, bearing date the 25th day of March, A.D. 1918, in pursuance of a Tax Sale held by said Municipality on or about the 31st day of August, 1916, of all and singular certain parcels or tracts of land and premises situate, lying and being in the District Municipality of Summerland, in the Province of British Columbia, more particularly known and described as Lots 53, 54, 57, 58, 59, 60, 120 and 121 in the District Lot 673, Map 866.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said The Summerland Development Company, Limited, as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:—"and in default of a caveat or certificate of its pendens being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the "Municipal Clauses Act, 1906," or section 293 of the "Municipal Act," or section 139 of the "Assessment Act, 1903," or section 253 of the "Taxation Act," in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

DATED at the Land Registry Office, at the City of Kamloops, Province of British Columbia, this 10th day of September, A.D. 1919.  
H. V. CRAIG,  
District Registrar

To Mrs. Morland, Assessor of Lots 57 and 58, -26,20

### To the Electors of Ward 2

FELLOW CITIZENS: I come before you again as candidate to represent you on the Municipal Council for 1920. If you will elect me I can assure you that I shall work to the best of my ability for the good of Summerland as a whole, and not for any one party, clique or faction. I would support the carrying out and completing of the work and policy of the last Council, and their staff. I am known to all of you, and would say nothing further than assure you that I am against all favoritism; and while saving all unnecessary expense would endeavour to establish all public utilities on a sound and permanent basis, making them a credit to the Municipality and an example of good, progressive government.

### Synopsis of

### Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$800 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption if he requires land in conjunction with his farm, without actual occupation, provided that improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 80 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 800 acres may be leased by company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stamp duty.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rate of one-half of cost of road, not exceeding half of purchase price, is made.

### PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person to one year from the year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers or pre-emptors recorded after June 11, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase towns or lots held by members of Allied Forces, or dependants thereof, direct or indirect, remitted from enactment to March 31, 1920.

### SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights as purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where the purchaser does not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

### GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

### RATEPAYERS' ANNUAL MEETING

(Continued from page 1)

The Roads Committee stated that a little more had been spent on the roads than formerly as an extra team had been bought for flume work and when not busy on the system had been put on the roads. Teams were expensive and could not be gotten at the time they were needed for grading. We are now spending nearly enough to keep our roads if spent to the best advantage. A tractor had been bought which had proved satisfactory. A grader is on order, one that is believed to be the best and will cost about \$900. A small drag costing \$40 has been received. Some trailers must be purchased which will reduce the cost of delivering material. One of the teams can be disposed of. The tractor will cost less than horses and will be available when needed.

Councillor Kirk, chairman of the Water Committee was next called upon and went quite extensively into various phases of the water system. He pointed out the urgent necessity of extending the water system and of making provision

### Bargains In Real Estate

\$22,000 takes a 31 acre orchard, paying 10 per cent. on investment.

\$15,000 takes good ranch, all complete.

\$1,100 takes acre, with house, stable and small fruits.

\$1,800 takes 4 acres; hay, with small house, etc.

against a water famine during extended cold periods.

Much money had been spent on the purchase of and additions to irrigation system but eight years ago the people awoke to the fact that the system was a failure and must be rebuilt. Last year \$35,000 was voted as a preliminary fund and later \$75,000; and the employment of an engineer authorized.

Considerable difficulty had been experienced in getting started. There was no information in the office, and no preparation had been made in the way of getting material. It was necessary to tramp over a system of 50 to 60 miles in length and calculate the areas and get other information on which the engineer could base his plans. Some of these plans were now in progress and would more than justify their cost. Criticism had been made that others were being employed to take levels instead of the Engineer. As a matter of fact the Engineer was working long hours making plans from the levels being taken.

With the remodelled system Eneas Creek water would be kept in reserve until late in the season when the Trout Creek supply would be used for the southern part of the municipality only. The Trout Creek pumping plant will be done away with, the Prairie Creek ditch being enlarged to extend to the Point. Much material was now on hand ready for work next spring.

Councillor Kirk then dealt with the question of storage giving in detail the information available from Provincial maps and Engineer Latimer's reports, telling of the lakes on which dams had already been built or which could be converted into reservoirs and showing that the district is excellently provided with storage sites, the lakes mentioned having a total possible capacity of nearly 3,000 acre feet. He suggested that after the spring work was done on the ditches that the Engineer be sent to the head waters to make plans for storage.

Touching upon the statement Councillor Kirk pointed out the larger deficit shown by charging 5 per cent. depreciation instead of sinking fund did not mean any extra cash outlay. Of the water system he said "We are now entering upon a time when we can consider this utility a business proposition."

Engineer Fawkes was asked by the Reeve to place before the ratepayers the plans he had prepared covering the improvement program under the \$75,000 By-law. These and some other plans were shown and explained by the Engineer. Questioned, the Engineer stated that the work done so far had been kept within the estimated cost, and although the prices of material and labor were advancing he hoped to finish within the original estimate.

To further enquiries Reeve Simpson explained that the By-law would not do all the work needed and if the new council felt that more work could be done next year it would be well to propose raising more money.

Mr. Kelley suggested that a meeting should be held at a later date when the ratepayers could be told the cost of completing the system. He believed we will get to the point where there will be merely renewals and maintenance on the water system.

In moving a vote of thanks to the retiring council Mr. G. Thornber spoke with regret of the retiring Reeve Simpson and expressed the gratitude of the people for the work that he had done. This motion was heartily responded to when put by Mr. Thornber.

The Reeve assured his hearers that it was with reluctance that he was withdrawing from municipal politics and stated further that he believed that in Councillor Campbell Summerland will have no good a Reeve as could be found. He had given much time to municipal affairs and was strictly fair, which might be said of all the other members of the Council.

Councillor Campbell expressed doubt of the wisdom of attempting to raise more money but favored the increasing of rates and an effort to do the best with the funds available. He pointed out that everyone would be greatly benefited by the work already done on the larger mains.

### Peachland Doings

(Continued from p. 3)

The general store has changed hands recently. Former proprietor Mr. H. H. Thompson has sold out his entire interest in the business to Messrs. Drake and Cudmore, who are now in full charge and ready to do service to the community. The business will be run under the name

of The Peachland General Store. They have completed stocktaking and intend to bring the much depleted stock up to at least double the present total stock. Mr. C. Drake, his wife, and two children and Mr. E. H. Cudmore are at present residing at the Edgewater Inn. Mr. H. H. Thompson is returning to his former business of producing early fruit and vegetables. He has for some years been very successful along these lines on a small scale, but will be increasing the output.

Extraordinary pictures of jungle life at Peachland Orange Hall Thursday night, Jan. 22nd.

Mr. J. G. McDougald spent the week end down the lake.

Mr. Thos. Powell, Peachland director for the B.C.F.G.A. left on Tuesday morning for Vernon to attend the convention being held there this week.

Huge snakes, tigers, apes and wild people at Peachland Orange Hall, Thursday night, Jan. 22nd.

Miss Cathleen Henderson and Miss Verna Town entertained a number of their friends on Monday evening at the home of the latter. Music and dancing were enjoyed until twelve o'clock when dainty refreshments were served. This took the form of a farewell to Miss Henderson's friends as she leaves for Toronto on Saturday morning. She will be missed in Peachland, and all wished her a safe and pleasant journey.

Wonderful jungle pictures at Rialto Theatre, Summerland, Wednesday night, Jan. 21st.

The second entertainment put on for a Peachland audience by the G.W.V.A. was given on Tuesday evening last in the Orange Hall by another of the companies of the Lyceum Bureau. The Hall was well filled, and everyone who attended was loud in their praise of the entertainers' work. They said it was a rare treat. The citizens appreciate the efforts of the Veterans in providing these entertainments which are found to be so clean and wholesome. The receipts are gratifying to the Veterans.

### CITIZENS TAKE ACTION ON ORIENTAL QUESTION.

(Continued from page 1)

of the signing of the Anglo-Japanese treaty in 1905, which permitted the entry of Japanese into this country, there had been a steady influx of the sons of Nippon into Pacific coast ports, and as far as Canada was concerned, the problem centred on B.C., where 90 per cent. of the immigrants had settled. With somewhat startling figures Mr. Jones showed how in the Western States Japanese had obtained a strong hold in some districts, mentioning as an instance that they now controlled not less than 50 per cent. of the Hood River apple crop. In greater or less degree this condition obtains in many other sections.

If Japanese immigration be allowed to go on unchecked, with no restrictions as to property holding and other privileges, a crisis would be precipitated of a tremendous import. A most important consideration also lies in the fact that the home government of Japan does not allow itself to lose sight of its emigrants, but keeps close watch on their movements. This was analogous to the German system, and who could say that it was not for the same purpose. This is a line of thought that may be new to a great many who do not grasp the real seriousness of the question.

Mr. Jones stated that the Anglo-Japanese treaty was to be considered afresh in 1921, when it will come up for renewal. After long study of the Japanese problem on the Pacific coast, he strongly advised that public opinion in the east be roused, and B.C.'s views made clear to them.

Mr. Jones quoted many figures in the course of his address to support his position. These are referred to at length in the report of his Peachland meeting, which will be found elsewhere in this issue, and are worthy of close study.

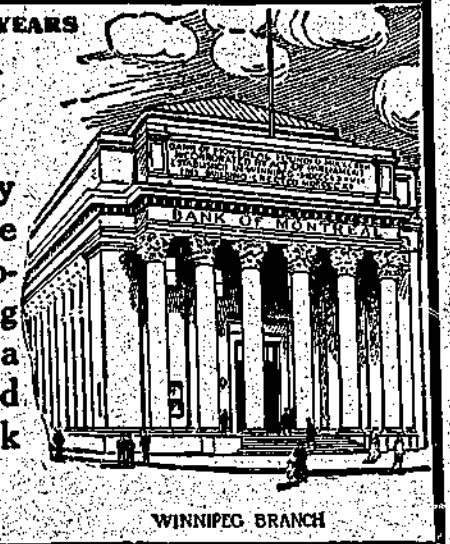

The resolutions endorsed at the close of Mr. Jones' address were the result of a good deal of discussion. It was thought best to have the meeting go on record in a broader way than by just referring to local conditions. One resolution endorsed is similar to that passed by the Associated Boards of Trade of the Valley recently. The second resolution was passed as an indication of feeling in regard to the local situation. Copies of the first will be sent to all B.C. members at Ottawa.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 12, No. 26. Whole No 597.

SUMMERLAND, B.C., FRIDAY, JAN. 23, 1920.

\$2.00, payable in advance.

## Municipal Elections.

### White Again Elected in Ward One. Blair In for Ward Two.

#### The Referenda.

### Citizens Approve of Sale to Union. Would Abolish Ward Lines.

Ward 1	White	55
	Brown	24
Spoiled		2
Majority for White		31
Ward 2	Blair	49
	Wright	42
Spoiled		0
Majority for Blair		7

Above are the official returns of the election returns for Councillors for Wards 1 and 2.

The fight in Ward 2 was particularly keen. Throughout the day both sides remained confident of electing their candidate and every possible voter in the ward was gotten out.

In Ward 1 there was a possible total ballot of 99, 81 of whom voted. Fairly early in the day those who were watching the election predicted the return of Councillor White, and as the afternoon advanced those who were supporting his opponent admitted that they had little chance of electing their candidate.

With a total of 172 ballots cast for councillors and in all only 213 electors to vote on the referenda it is apparent that few of the electors of Wards 3 and 4 came out to vote on the question of abolishing the ward system or on selling the municipal shore lots to the Fruit Union. One hundred and ninety ballots were cast in favor of the latter referendum. Fifteen opposed selling the lots and 7 ballots were rejected; total 212. On the ward question 136 favored abolishing the wards, 68 would retain them. These together with the 9 rejected ballots made a total of 213.

## Veterans Decide On Club House

The G.W.V.A. held their regular meeting Monday of last week. After a short business session the meeting was thrown open to members of the Ladies' Auxiliary, who had been invited to attend and discuss the question of a war memorial.

After some of the ladies and veterans had expressed their views Mr. W. C. Kelley was asked to address the meeting to present the citizens' point of view. In his usual clear style Mr. Kelley explained the meaning and purpose of a memorial and reviewed briefly the various plans that had been proposed at a meeting called for that purpose last spring. He also pointed out the fact that it was improbable that the public would ever agree unanimously with any plan that might be submitted for a war memorial. So that he advised against the building of clubrooms as a memorial, as had been suggested by several veterans.

However he recognized the necessity for a club room in Summerland and suggested that the Veterans proceed with their former plans for a club, which though not a memorial would be of great service to the community. He also suggested a campaign to raise funds for this purpose, and offered to become the first subscriber, to the extent of \$100.

Considerable discussion followed, resulting in a decision to go ahead with plans for a club room, which would eventually become a community club. An appeal to the citizens will be made for assistance in raising the necessary funds.

The meeting closed with a brief social period, tea being served by the Ladies Auxiliary.

A girl who was running a London bus was making out her first report. Under the heading "Accidents" she stated: "Bumped into an old gent." Under the heading "Remarks" she said: "Simply awful."

## Scott Darkis Buys Business Block

Another one of our business blocks changed ownership last week and will soon be remodelled and utilized as an ice cream parlor and tea room. The deal referred to is the purchase by Scott Darkis of the west half of the Campbell block, at present occupied by W. Johnson and J. Downton. It had been Mr. Darkis' intention to put up a building for this purpose but having been offered this property he decided to purchase it and remodel it to suit his purpose.

Mr. Campbell has bought the lot immediately to the east between Elliott's store and the Nelson Studio and will put up a meat store into which Mr. Downton will move. We understand that Mr. Johnson is contemplating erecting another building for his bakery and restaurant business.

## Masons' At Home To Friends In Summerland

Masons the world over have a reputation for hospitality, and the gatherings at which the Summerland Lodge acts as hosts are always of an exceptionally enjoyable character. Guests to whom invitations had been extended responded very largely on Wednesday evening and in all about two hundred people were gathered in Empire Hall.

Dancing was the main feature of the occasion, card tables being provided for those who did not participate in the dancing. Exceptionally good music was provided by the Manchester-Peck orchestra during the evening, while immediately following supper volunteer music was forthcoming for one or two numbers. Dancing was carried on until shortly before three o'clock.

Early in the evening, during an intermission the W.M., Mr. H. W. Harvey extended a cordial welcome to the guests and in a few words pointed to the reputation of the order socially.

Shortly before midnight a grand march was formed leading the way into the adjoining hall for supper. The catering arrangements were all that could be desired and reflected a great deal of credit on those who undertook this essential part of the affair. An excellent program directed by Mr. F. C. Manchester was rendered during the supper, consisting of choruses, solos by Miss Robinson, Mr. F. G. Graham, Mr. F. C. Manchester and a monologue by Mr. A. S. Peck. Dancing was then resumed and continued without interruption until the end of the program.

The officers and members of the Masonic Lodge are to be congratulated on the distinct success their gathering achieved.

## Board of Trade Elects Officers

The annual meeting of the Board of Trade held Tuesday evening in Campbell's Hall was rather an uneventful affair and was not largely attended.

A proposal that a banquet be held at an early date resulted in the appointment of the delegates to the Provincial gathering to be held in Vancouver as a banquet committee. February 17th has been fixed as the date of the banquet.

Election of officers resulted as follows: President, F. W. Andrew; Vice President, O. F. Zimmerman; Secretary, F. A. C. Wright; additional members of the Council, Messrs. Davidson, Solly, Campbell, Tait, Stark and Kelloy.

## Train Stalled In Coquahalla Pass

The K.V.R. train which left Vancouver Friday evening was entrapped in Coquahalla Pass for nearly a week and did not arrive here until yesterday. According to reports received here the train was stopped by a large slide and was not able to back down to Hope because of a washout which had carried away a bridge behind. For about five days

## Reeve Campbell Names Standing Committees

### New Council Holds Organization Meeting Settles Into Routine Work

The 1920 Council met according to the Act on Monday at ten o'clock when the retiring Reeve, Mr. E. R. Simpson, took the oath of office of the Reeve and Councillors.

Visitors to the Council Chambers during the sitting of the Council will find a general shift around the table. Reeve Campbell sits at the end of the board opposite that formerly occupied by the Reeve. At his right is the clerk, and the councillors occupy the other seats without regard to any special order. Immediately upon taking their positions around the table Reeve Campbell made the following committee appointments, the first named in each instance being the chairman of the committee:—

Water: Kirk, Johnston. Finance: White, Blair. Roads: Blair, Kirk. Electric lights: Johnston, White. Properties: Johnston, Blair.

Upon the recommendation of the clerk a special committee was appointed to define the duties and hours of the employees of the staff and to make any further suggestions regarding the administration of the affairs of the municipality. The clerk explained that the work had been slipping back. When he had come into the office after returning from the front many loose ends had to be cleared up and then construction came on, weekly meetings of the council were held, all adding to the volume of work to be handled by the office. Reeve Campbell in appointing the committee, Couns. Kirk and Blair, remarked that the increased work was too much for the present office staff under existing conditions.

It was agreed that the council should meet regularly twice each month, on the 2nd and 4th Monday at 2 p.m.

Coun. Kirk suggested that a by-law be prepared at once for the borrowing of \$10,000 for providing

for some necessary and pressing extensions to the domestic water system, pointing out that while it might not be necessary to expend all this amount it would be better to have the authority to that amount.

At the request of Councillor Blair this question was left over until another meeting as was also the consideration of purchasing trailers to be hitched to the tractor for moving road material, etc., this latter question being referred to the roads committee.

A complaint received respecting the condition of the road running directly west from the municipal office was referred to the superintendent for a report.

An application received for electric light connection, which in this instance would require an extension, occasioned some discussion on the electric light situation, resulting in the passing of a resolution to the effect that no further electric light connections would be made except possibly for business houses within the business sections of the community, and which would be considered, each on its merits. Coun. White pointed out the urgency of taking some measure to improve the service to at least render the plant adequate to the present load so that the voltage might be maintained.

A sale of old flume was made to Mr. T. G. Virtue, subject to the approval of the foreman.

A report from the engineer respecting the making locally of a steel gate for the intake on Trout Creek was received and filed. According to this report it would be possible to save about \$250.00 over the market price of such a gate.

By motion of Couns. White and Johnston Dr. L. H. Appleby was appointed Medical Health Officer in the absence of Dr. Andrew.

## Hospital Auxiliary Closes a Most Successful Year

A perusal of the financial statement for 1919 for the Ladies' Hospital Auxiliary as published in this issue, will reveal something of the activity of the organization during the past year. During that period the Auxiliary purchased a considerable quantity of material which was made up into bed and table linen, and night gowns and other garments for the use of the patients. They donated \$100 to the Isolation Building Fund, \$50 to the X-Ray equipment fund, and was also prepared with funds to furnish the new isolation wards. Three bedside tables, a large sterilizing vat and other furnishings were provided for the Hospital. The Auxiliary raised its funds by membership fees, catering at the annual meeting of the Fruit Union, serving ice cream and soft drinks, etc. at the Experimental Farm on Victoria Day and serving lunch and tea at the Fall Fair. In addition a handsome donation was received from Mr. Crowe for furnishing the Isolation Hospital. The Auxiliary has now a membership of nearly half a hundred and at the weekly work meetings house and bed linen for the new hospital is being made up.

The Secretary will be glad to receive the names of any who wish to join in this good work.

The C.P.R. sent provisions up about 17 miles into the Pass to the imprisoned passengers and train crew. Finally the line down to Hope was repaired and the train enabled to get back to the C.P.R. main line at Hope. From there she came through by way of Spence's Bridge. Trains have been running by that route for a week but it is expected that the Pass will be clear to-night.

Shoe factories in Canada and the United States are officially reported to be producing on a pre-war basis.

## Explorer Heard In Splendid Lecture Here

In spite of the fact that there were several other affairs on the same night there was a fair audience at the Rialto on Wednesday night to hear Mr. Carveth Wells, Mr. Wells' lecture was extremely interesting and instructive. He has but recently returned from the Malay Peninsula, where he was engaged in exploration work for the British Government. His description of the trip from Vancouver across the Pacific and up the Malay coast quickly won his audience, and throughout Mr. Wells' stories and descriptions were followed with the keenest interest.

The lecture was followed by a splendid selection of photographs of animal life, jungle views and the inhabitants of Malay, taken by the lecturer and were fully explained by the speaker as they were thrown on the screen. Scarcely less interesting were the demonstrations given by Mr. and Mrs. Wells, assisted by two young people from the audience, of the native costumes and methods of dressing and undressing in the simple garbs of that tropical country.

Mr. Wells talked for nearly two hours but the evening seemed all too short, the only disappointment of the audience being that they could not hear more. It is possible that Mr. Wells may return to Summerland, in which case we feel we can assure him a crowded house.

A clergyman was dining in a restaurant one evening, when a woman wearing a bare back gown entered and took a seat at the next table. The padre could not help overhearing some remarks by the lady about his personal appearance. He took no notice until the waiter offered him some mayonnaise salad. Then he said in his blandest voice: "No thanks; I do not require dressing, but I think the lady at the next table does."

## Winter Schedule Of Trains & Boats

A change of time effective January 18th has been announced by the C.P.R. This includes some changes in the schedule of the mail boat on the Okanagan Lake, which if adhered to will bring the boat into Summerland considerably earlier than it has been arriving. She will also leave here five minutes later in the morning. On the north bound trip she is due here at 6.20 a.m., at Peachland, 7.20; Kelowna, 8.45; and Okanagan Landing at noon. The south bound steamer is due to leave the Landing at 1 p.m., arriving at Kelowna 3.10; Peachland 4.30; and Summerland 5.30.

The new time-table also affects the K.V.R. schedule. Number 11, westbound, is due here at 11.46 a.m. instead of 11.16 as previously, while the train from the coast is due here at 7.18 a.m. instead of 7.43. The westbound train reaches Vancouver at midnight. The east-bound leaves that city at 7.30 p.m.

## Complains Of Total Lack Of Reciprocation

Summerlanders are always generous in their patronage of entertainments, lectures and events of like nature when given in Penticton. When a Chautauque course was given there it was well supported by people from here. It was but natural that the citizens' committee responsible for the Lyceum Course being given here should expect some reciprocation from the people of Penticton, especially when the first number of the Sam Lewis Company was well advertised in the Penticton Herald. One of the members of the local committee wrote to the Penticton Herald expressing his disappointment. This letter was published in the Herald this week and with the brief editorial note is now reprinted here:—

Editor, Penticton Herald:

Dear Sir,—It is with feelings of regret that I have to inform you that as far as I am aware, not a single person from Penticton descended to patronize the first entertainment of the Lyceum Course held here last night, January 14, even though we did our best to advertise the same through the medium of your paper.

I think I am correct in saying when Penticton held a similar series, the Summerland people attended them to a large extent.

Why cannot the people of Penticton reciprocate for once? From purely personal grounds I am surprised that the business people did not think it worth while attending, considering the large amount of money that is yearly spent in Penticton by Summerland citizens.

I trust the people of Summerland will take this little incident to heart and govern themselves accordingly. I for one certainly will.

Again thanking you for your personal efforts on their behalf,

Yours faithfully,  
P. THORNER.

Summerland, Jan. 23, 1920.

Ed. Note.—This entertainment was in aid of the Summerland Hospital fund. Penticton people might well have assisted, particularly as travelling weather was good.

## Exhibition Of War Souvenirs

The exhibition of war souvenirs given last Tuesday afternoon and evening by the Women's Auxiliary of the G.W.V.A. was all that was promised of it and more. The extensive collection was a surprise to everyone, and the exhibition was in itself quite an education. The exhibition was formally opened by Mr. E. R. Simpson who pronounced it a great credit to the women and also to Summerland. He referred to the purpose of the exhibition, the raising of money to be applied to the cost of building a veterans' club house which object he strongly commended. The exhibition was well patronized, the sum of \$108.55 being taken at the door.

## Would Build New Cannery

### Growers Asked to Take Part of Capital Shares.

#### Committee Named.

### Gathering of Citizens Hear Plans of Cannery. Expect to Meet a Pressing Need of Summerland.

A proposition to build a new cannery in Summerland in which local capital would be interested is being considered by a committee of local business men and fruit growers.

At a meeting held in Campbell's Hall on Wednesday when about 50 or 60 citizens were present Mr. C. S. Bickford of Vancouver outlined a proposition for the erection of a new cannery in which he would have the fruit growers take a financial interest. He was closely questioned by his hearers and stated among other things that the proposed cannery would pack tomatoes, apricots, peaches and apples.

His proposition was well received and Messrs. M. Steuart, W. C. Kelley, J. L. Logie, R. Johnston and H. Scott were appointed a committee to carefully investigate the proposition and report back to another meeting of the citizens with as little delay as possible. The meeting passed a resolution assuring Mr. Bickford that the people of Summerland desired a cannery.

There was some considerable discussion on the size and capacity of such a cannery as well as the means of raising the capital. Mr. Bickford's suggestion was that the growers invest, say up to \$10,000, and that Vancouver wholesale grocers or other coast capital be approached to bring the capital up to \$50,000 or \$60,000. The meeting seemed to favor a moderate investment in a plant which could be added to when the business became well established.

The citizens' committee appointed at the Wednesday meeting has held one meeting at least and no time will be lost in arriving at a conclusion as to whether the local growers will take up with the proposition or not.

Mr. Bickford met the Council on Monday when he was introduced by Mr. J. L. Logie, and after stating something of his proposition for building a cannery here he asked that the Council furnish a free site, free water, and also suggested that light be supplied without charge. He had gone thoroughly over the district and was satisfied that the only satisfactory site for a cannery was on the lake shore close to trackage. A site near trackage which Mr. Bickford stated would be satisfactory was property near the Fruit Union building, owned by Mr. J. M. Robinson.

Mr. J. L. Logie believed this site could be obtained, and after the matter had been considered by the Council he was asked to learn the price at which the land could be bought. While no definite promise of a site was made, the Council expressed a willingness to place the matter before the ratepayers for their decision.

Mr. Bickford for the past three years has been operating a cannery at Waltham, and before that was with the Broder Canning Company, and for some time held a half interest in a cannery company in Washington State. The Waltham cannery has been closed down and Mr. Bickford is now free to establish himself elsewhere.

Winnipeg city officials are prosecuting skating rink owners who open their rinks on Sunday.

## Summerland Weather Report

Below is a report furnished by the Dominion Experimental Station here, for the week ending Tuesday:

Date, 1920	Max.	Min.	Rain	Evap.	Sunshine
Jan. 14-48	26	.00	0.00	1.8	
" 15-44	20	.00	0.00	0.8

" 17-57	30	.00	0.00	0.0	
" 18-42	32	.00	0.00	0.0	
" 19-32	30	.00	1.80	3.0	
" 20-23	7	.00	0.00	6.1	

**Correspondence.**

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

To the Editor, Review,  
Summerland.

I take this opportunity to thank the people of the Municipality of Summerland for their generous donations and help given in re-establishing the Hospital in its new quarters at the Felix Hotel.

It is impossible to thank each one individually as I would like, but hope this will convey my appreciation.

N. E. STIRRUP, R.N.,  
Matron.

**THE CRY OF THE CHILDREN.**

To the Editor, The Review,

Dear Sir,  
This cry reaches us now also in this land of plenty, this cry of the starving children far away over there where the fury of battle raged not so long ago. There are hundreds of thousands of little children crying for bread daily, day after day. For some months a Feed the Children Fund has been administered by a body of warm hearted men and women in England, but the fund was only a modest one. Now as peace has come and we read more and more of the burying of the hatchet we hope that this appeal for funds will spread then and bear fruit. And, dear friends and readers, this multitude of little ones have had no hand in the war. They with the women, as is so often the case,

were the innocent sufferers all along.

I am collecting money to send to the Society in London that administers the said fund, and any contribution, however small, will be gratefully received. Every cent collected will be sent out, there will be no expenses, I shall see to that; I am an old man and have ever kept my word.

O that I were gifted and could speak to all who read these lines in words of eloquence, in words of fire which would sink into their hearts and convince them that the help I am asking is sadly, sadly needed, so much needed. Imagine, ye proud fathers, (proud in having lovely children); ye loving mothers when you gaze into the rosy faces of your dear ones, imagine what your feelings would be if you saw the roses gone, having given way to pale, thin pinched little faces with dark rings round those eyes you used to see so laughing and dancing, pleading with such a sad look, a look that says "Oh mother, I am so hungry."

Imagine all this, kind reader, and your heart will open to those thousands upon thousands of little ones across the broad ocean, far away on the banks of the Blue Danube. We have just celebrated the Feast of Nativity of Him who ever loved the children and who said those glorious words: "Whatsoever ye have done unto the least of mine, ye have done unto me."

We have just filled many stockings of the poor small folk around us, and have given them a bright Christmas. Let us open our hearts and—oh ye fathers—purses again, and send some help to Help the Children Fund. Though all our purses are pretty empty in January after Christmas giving, if you look well you will find a bit yet at the bottom, and send it.

Yours sincerely,  
JULIUS W. A. BLOCK.  
Naramata, B.C., Jan. 16th, 1920.

West Summerland, B.C.,  
22nd January, 1920.

To the Editor, Summerland Review,  
Summerland, B.C.

Dear Sir,  
Appearing in your last issue was a letter over the signature of Mr. H. M. Lumsden, in which he makes certain statements reflecting on myself as a dealer in lumber and cement.

These reflections are quite unjustified, and I can prove conclusively in very brief time how far at sea Mr. Lumsden's "Scotland Yard" informant must have been in furnishing him with such information. Statements such as Mr. Lumsden has penned were clearly intended to create a wrong and unfair impression in the community at large; and in my own interests, as well as those of the other ratepayers, I cannot allow them to go unchallenged.

Briefly, may I ask Mr. Lumsden why Mr. Fawkes, our engineer, in asking for quotations for all municipal supplies from the business men of the district was willing to allow them a 10 per cent. margin over the wholesale cost, while at the same time he would restrict me on purchases of cement to wholesale cost without any. If this is not discrimination, then I do not understand the meaning of the term.

As far as lumber is concerned Mr. Fawkes, during his past year's term of office, has not purchased any lumber for municipal purposes.

Thanking you for the space I have thus taken in vindicating myself of an insinuation, the basing for which Mr. Lumsden has absolutely no foundation.

Yours truly,  
W. RITCHIE.

**Summerland Hospital Society**

**Balance Sheet for the Year ending 31st December, 1919**

Summerland, B.C.,  
21st January, 1920.

To the Members,  
Summerland Hospital Society,  
Summerland, B.C.

Gentlemen,  
I have examined the books of account of your Society for the year ended 31st December last.

Attached hereto you will find  
(A) Statement of Assets and Liabilities.  
(B) Statement of Revenue and Expenditure.  
(C) Statement of Building Fund.

This latter account has up to the present been kept separate from the regular accounts of the Society and is not incorporated in Statements (A) and (B). It will be seen, however, that there is an amount of \$800 owing to this special Building Fund from the General Funds of the Society.

The Statements in my opinion truly show the working of the Society for the period under review and its position at the close of the year.

The accounts have been carefully and accurately kept by your Secretary.

I am, Gentlemen,  
Yours faithfully,  
C. P. NELSON.

**A.—Statement of Assets and Liabilities**

ASSETS		LIABILITIES	
Land	\$1,200.00	Surplus 31st December, 1918	\$10,131.25

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr. Grantham, representing the wholesale drygoods firm of Jas. Thompson of Vancouver, spent last week-end and a few days of this week in town.

Messrs. Drake and Cudmore have made somewhat of a change in the general store since taking it over, and have received their first shipment of drygoods which is however only a promise of more to follow.

Mr. Jas. Ritchie of Summerland was a visitor in town last week, looking after some of his business interests here.

Mr. Clark narrowly escaped a serious accident on Thursday of last week. Coming between the Townsite and Peachland in the late afternoon in avoiding one piece of bad road he struck another, and the result was a partly overturned car. Fortunately it did not go right over, so he was able with the assistance of a team to get out without damage.

Miss Cathleen Henderson left on Saturday morning for Toronto, where she expects to remain for a time.

The result of the vote taken on Saturday giving the Municipality authority to sell for \$400 the four lots to the Fruit Union which adjoin their present property was 28 to 1 in favor.

About half a score of Peachland young people motored to Westbank on Friday evening to attend a dance in the new packing house there.

Peachland awakened last Saturday morning under a heavy blanket of snow which had fallen during the night. However it did not last long as the greater part of it was gone before night and by Sunday night the front was nearly clear.

Mr. Drake with his wife and family have moved into the Bulyea residence.

Mr. John McDougald was a passenger to Summerland on Tuesday night's boat.

After spending a couple of days in town visiting friends Mrs. H. Elsey returned to her home in Summerland on Tuesday.

Jack McLaughlin went over to Kelowna on Tuesday to bring home Mrs. McLaughlin and the baby who were right royally received at the wharf on their arrival.

Another real estate deal has been reported. J. B. Robinson has made a sale of his fruit property, but the particulars of the sale are not yet public.

Miss Mary Vicary was a passenger south on Monday evening last, to visit for a few days.

Mr and Mrs Martin Hendrickson are the proud parents of a young son, born at Kelowna on Monday. Mother and baby are reported to be doing fine.

BORN.—At Peachland on Wednesday, January 21st to Mr. and Mrs. J. S. Moore, a daughter.

The Peachland Cannery will operate this year. This cheering news became public this week when Mr. N. M. Morrison confirmed the report that the cannery had been sold to Vancouver interests. He stated further that the cannery will certainly operate this year and that in addition the new owners are arranging to install an evaporating plant.

The gravel flow on Saturday last under the Methodist Church, when quite a gang of boys and young men got busy with shovels, and later when they got a horse and scraper into action, hauling up on planks through the window opening. It was a bee gotten up for the purpose of lowering the earth in the bottom of the basement to give space for the putting in of the floor joist low enough to give sufficient head room. Preparations are under way for temporary finishing of the basement. Quite a sumptuous dinner was gotten ready for the workers at the home of Mr. and Mrs. R. A. F. Moore, which was appreciated by those partaking. While the men folk worked on the

basement the women folk busied themselves at a quilting bee at the home of Mr. and Mrs. O. Keating.

A charge was laid by the Municipality against Byard and Allan Iverson, two school boys, for interfering with the electric light system, and tried before R. J. Hogg and L. D. McCall on Friday last. Byard was found guilty of experimenting with the current. He was fined \$5 and costs and gave security to the amount of the damage done, till same was paid. Allan was let off with a warning, which warning was also extended to a number of boys who had congregated in the court-room. Considerable trouble has been experienced by the electrician in keeping the street lights supplied with globes, and it has been stated that the first one he catches interfering with the same will be dealt with, and the deal can be a severe one.

A checker tournament commenced on Monday night last, the following players taking part: C. R. Somerville; John Brinson; J. S. Moore; Wm. Dryden; R. A. F. Moore; Harold Miller; C. G. McDougald; Mr. Sootherin. The result of the first draw was as follows: Brinson and Somerville—Brinson 4 wins; Dryden and J. S. Moore—Dryden 2 wins and 2 draws; Miller and R. A. F. Moore—Miller 2 wins, Moore 1 win and 1 draw; McDougald and Sootherin—McDougald 4 wins.

Mrs. Widen, nee Miss Georgie Elsey, with her mother Mrs. H. Elsey of Summerland motored up to Peachland on Sunday to visit with Mr. and Mrs. H. E. McCall and other friends. Mrs. Elsey returned on Tuesday evening's boat, but Mrs. Widen remained over.

Rev. Andrew Grieve attended a business meeting of the officers of the Baptist Church held on Monday. Mr. and Mrs. R. Harrington invited the officers and their wives to their home and after the business was concluded the gathering spent a very pleasant hour feasting and chatting.

Subscribers to the last Victory Loan who are holding Subscription Receipts upon which payments have been completed should present same at the Bank and receive their Definitive Bonds.

### Peachland Stockbreeders Seek Change in By-Law Forbidding Cattle at Large

The annual meeting of the Peachland Stockbreeders Association was held Wednesday the 14th. Election of officers resulted as follows: Mr. E. F. Smith, returned as President and Dr. Buchanan as Sec. Treas; Messrs. J. L. Elliott, Edgcomb, Hardisty, Ort and Harrington, Directors. The principal business of the evening was in connection with the Municipal law dealing with stock, and the following resolutions were unanimously adopted: This meeting of the members of the Peachland Stockbreeders' Association is of the opinion that all milch cows and heifers above the age of eighteen months, being the property of the ratepayers, should be allowed to run at large between the hours of sunrise and one hour after sunset in the municipality outside the area covered by the sidewalks, and that the Executive be asked to meet the members of the Council in order to come if possible to some arrangements on these lines. Second resolution: Executive to meet the Council and discuss the question of legal fences in the Municipality. Following satisfactory consultations as to fences the committee then to ask for an amendment to the present by-law pertaining to cattle running at large in conformity with the sentiment of the present meeting. A third resolution was passed: That the Executive apply to the Provincial Government to ascertain what range lands contiguous to Peachland are still available and that the same be applied for if suitable for the purpose of the Association. The old executive of the Association were pleased to see a turnout of thirty-three at the meeting, as a lack of interest had been very evident in the previous term, and this attendance boded well for the 1920 season.

### Asking C. P. R. For Better Facilities to Keep Pace With Crop Growth

At a meeting of the citizens of Peachland held on Wednesday the 14th, the following resolution was unanimously passed: Whereas the great increase in production of fruit last season made the shipping and hauling of fruit at this point both difficult and expensive and whereas this production will continue to increase from year to year through the coming into bearing of young orchards, and whereas the facilities for shipping out the fruit and for the importation of box shooks and other supplies necessary for the fruit industry are now inadequate, and whereas the extra handling that has to be done under the present arrangement causes not only unnecessary expense but is detrimental to the condition of the fruit being shipped, and is responsible for many claims arising from the extra handling; be it therefore resolved by the fruit growers of Peachland in public meeting assembled to ask the officials of the C.P.R. now in the Valley making arrangements for the shipping of fruit for the coming season, to recommend that a car slip be installed at Peachland in time for the shipping of fruit, etc. this season. And that this resolution be forwarded to the general manager of the Okanagan United Growers with the request that he present it to the said officials and use all the influence possible to secure the installing of the car slip as soon as possible.

### Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. In this they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED,  
RALPH E. WHITE, MANAGING DIRECTOR  
SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

FRIDAY, JAN. 23, 1920.

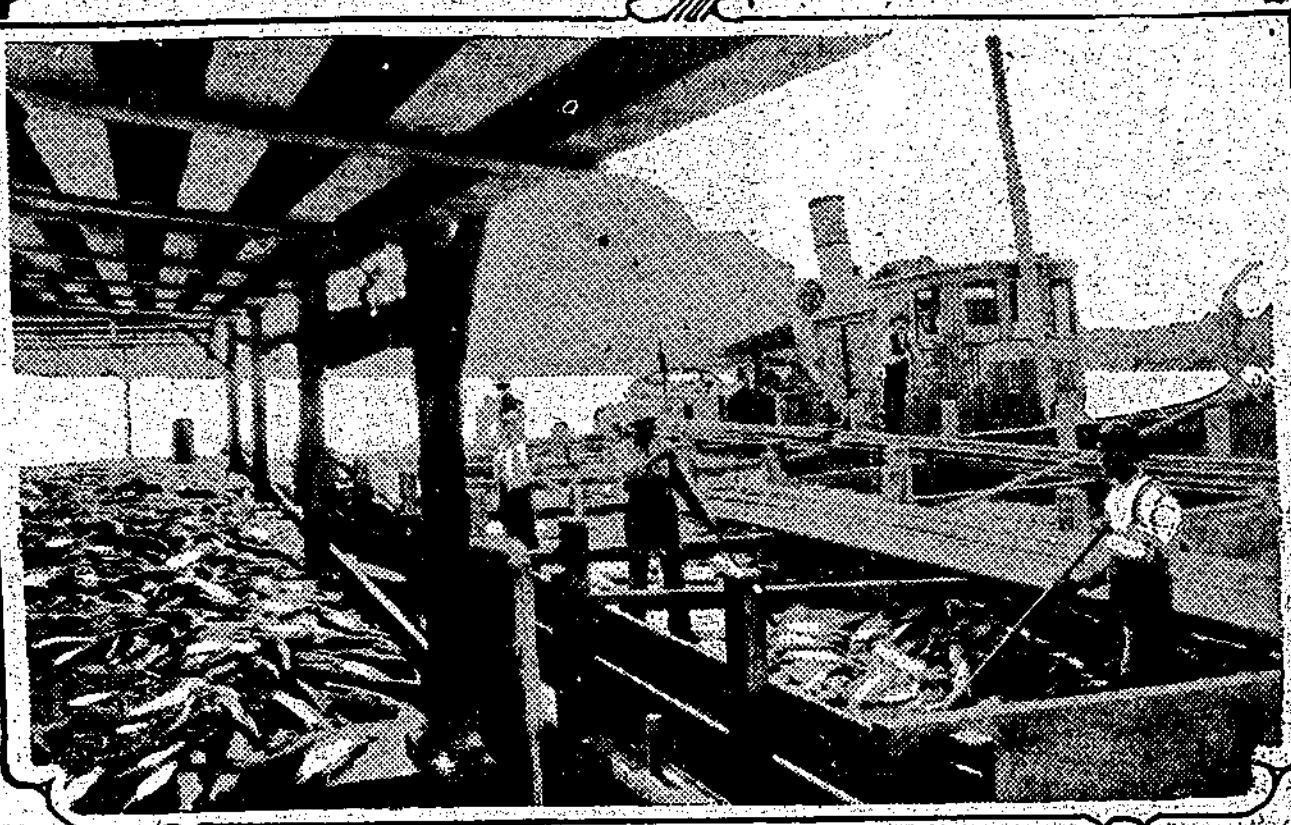

"I know nothing about the tariff, but this I know, when we buy goods made abroad we get the goods and the foreigner gets the money; and when we buy goods made at home we get both the goods and the money."—Abraham Lincoln.

THE SENATE OF THE STATE OF OREGON recently passed a memorial to the United States Congress urging an amendment to the national constitution to prohibit children born in that country of Japanese and Chinese parents from becoming citizens by reason of their birth in the United States.

It is said that at the present birth rate Japanese will control the elections of the State of California in a generation.

OKANAGAN FRUIT SHIPMENTS for the past year totalled in bulk 45 per cent. in excess of the 1918 shipments. It is confidently predicted that the 1920 crop will be an even larger one.

## Salmon from British Columbia Fisheries

Unloading Salmon from Stows, Westminster, British Columbia.

There are salmon and salmon, but the finest specimens of this sporting fish come from the waters of British Columbia. There is a variety of salmon on the Atlantic coast which is highly prized as a delicacy, but the supply is very limited; the catch on the Pacific coast is about thirty times as large and also very fine in size and quality.

Salmon canning is one of the principal industries of British Columbia and the Fraser River catch is now almost looked upon with envy owing to the tremendous decrease of the salmon catch in the State of Washington, where the famous variety called "Sockeye" once abounded in Puget Sound in such enormous quantities.

It is now feared that unless the United States Government prohibit fishing in Puget Sound the salmon industry will suffer.

To date the State of Washington has failed to accede to the Canadian proposals for a joint control of the Puget Sound and Fraser River fisheries, but the Dominion Government is again taking the matter up, proposing a joint protection for fifteen years.

The season for salmon fishing is short, being about 48 days in the Fraser River section and about 62 days, including Sundays, for the northern canners. The British Columbia catch runs about 1,500,000 cases of 48 pounds each a year.

There are five varieties—Sockeye, averaging 6 pounds, maturing in the fourth year; Quinnet, 18 to 25 pounds, sometimes reaching 100 pounds, maturing between the fourth and sixth year; Silver, 3 to 5 pounds, mature at three years; Pink, 3 to 4 pounds, mature at two years, and Chum, 10 to 12 pounds, mature at three to six years.

All these fish return once on maturity to spawn in the stream where they were hatched, and both sexes die after spawning. The main fisheries are the Fraser River, Skeena River, Naas River, Rivers Inlet and around Vancouver Island. The fish are caught in gill nets and seines and by trolling.

## Card of Thanks

To the Electors of Ward One:

My sincere thanks are due the Electors of Ward One for the splendid support given me at the Polls last Saturday. It will be my earnest endeavor to merit the confidence thus expressed.

May I at the same time offer my apologies to the several voters who had been promised motor conveyance from inconveniently distant points to the polling booth, but were not called for. A mishap in the motor service was the cause.

Ralph E. White.

No profiteer is without honor, except among those who have found him out.

It will take four tons of automobile licence plates to supply the demand in this province for the year 1920.

## Wanted: A Slugging Parson.

"Wanted, a minister of the gospel for Athapuskow camp. Must be good poker player. No namby-pamby dude preachers need apply." The above advertisement appeared recently in an eastern paper and a preacher answered it and asked for further details. The miners of the northern Manitoba copper camp replied to the effect that they wanted a "he-man, who wears a mackinaw jacket and stuffs his pants in his boots, can paddle a canoe, play a good game of poker, and give a good account of himself in a knock down and drag out row."

That preacher was Rev. R. Arthur Basham of Columbus, Ohio. Mr. Basham believes himself possessed of most of the required accomplishments and says he stands ready to perfect himself where he is not yet adept. He also states that he would rather be "a Santa Claus to the bunch of miners in that Canadian copper camp than a minister to all the elders in Christendom," and he is going to Athapuskow. Rev. Mr. Basham was a circuit rider in northern Manitoba before he went to France as a Y.M.C.A. worker and knows exactly what he is going up against when he goes back there. Apparently he is made of the right kind of stuff and it goes without saying that he will give a good account of himself before his mission has been completed. Here's wishing him strength in his right arm and power in his preaching.

## IT'S A QUEER WORLD.

Did it ever happen, as you course along the slippery pave, these frosty mornings, that the man second ahead of you tossed both feet into the nippy ozone and came down hard and painfully on his opinus terminus? And the next man ahead of you laughed? And the next man ahead of you, advancing, likewise hoisted his trilbies zenithward and came down with pain and humiliation even as the first had done? And you laughed the more heartily? And a crowd collected—a hard hearted crowd—and laughed? And you advanced? And reaching the spot where the other two had flung themselves you, in like manner, with wilk abandon, flipped your fancy footwear slightly? And you came down? Hard? And hefty? Ain't it a queer world?

## NATURAL GAS DEVELOPMENT

The first discovery of natural gas in the Province of Alberta of which we have record, took place in May, 1884, at Alderson, a station on the main line of the C.P.R., 35 miles west of Medicine Hat. The railway construction gang, boring for water, struck a heavy pocket of gas at a depth of 1,300 feet. A little later in the same year, gas was also discovered at Casalis, 6 miles further west, but while this well soon choked, that at Alderson continued to flow for many years.

In 1890, Medicine Hat, then but a small town, sank a well and found a small supply at 700 feet; four years later another attempt was made, and history tells how, at the eleventh hour, with money all spent—facing bankruptcy—and despair and gloom in the hearts of the mayor and city council, a sensational flow was uncovered at a depth of twelve to thirteen hundred feet. The cheap, apparently unlimited fuel supply, both for commercial and domestic purposes, is largely accountable for that city's growth and present prosperous condition.

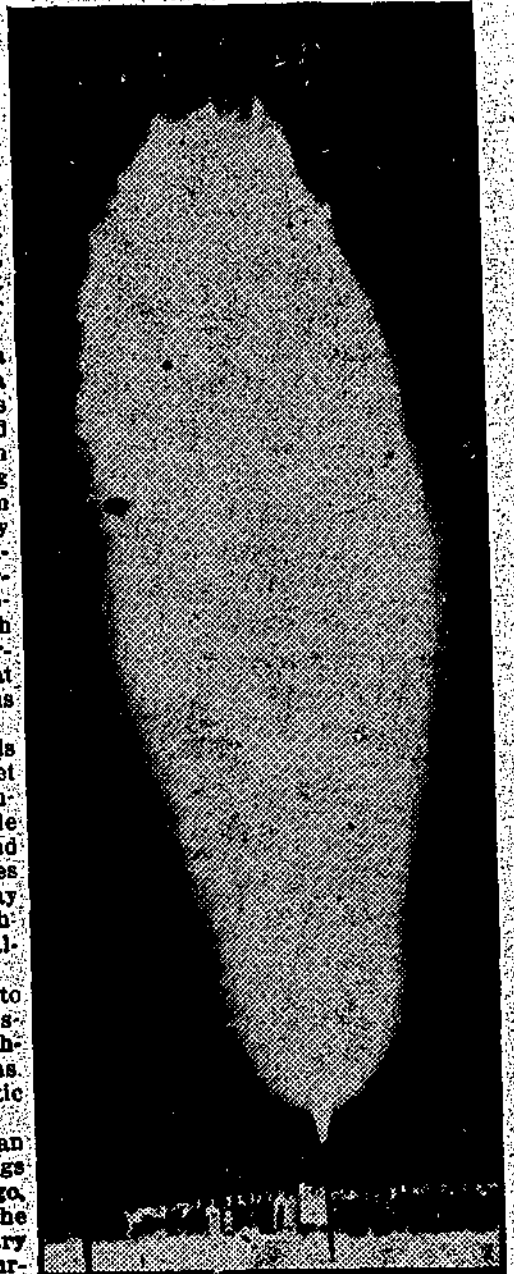

There are several known gas fields in the Province of Alberta, but as yet only two have been utilized for commercial purposes to any considerable extent, namely, the Medicine Hat and Bow Island Fields. Bow Island lies on the railway line about half way between Medicine Hat and Lethbridge, 180 miles south-east of Calgary.

In 1912 the supply was piped into the city of Calgary, as well as distributed en route to the city of Lethbridge, Macleod and other towns where it is used for both domestic and commercial purposes.

In the neighborhood of Pelican Rapids, Athabasca River, gas springs were known at least a century ago, and travellers going up and down the river, into the Peace River Country have cooked their meals there. Further well-known gas reserves are the Foremost Field, south of Bow Island, the Barnwell Field, midway between Bow Island and Lethbridge and the Viking Field, 83 miles east of Edmonton, and were it not for the difficulty of obtaining adequate piping, it is probable that this supply would have been utilized two or three years ago to furnish light, heat and power to Alberta's capital.

Prospecting is now going on in the Monarch Field, 40 miles southwest of Calgary, and at the Okotoks Field, 27 miles south. Along the foothills of the Rocky Mountains, in the vicinity of the apex of a well definite anticline similar to that one in the Okotoks Field, there are many pronounced gas seepages, and it seems probable that as in the former field, which had also a gas seepage, it will be a commercial producer.

The Imperial Oil Co. has commenced prospecting for petroleum along the last mentioned anticline, and it is stated, intends to carry vigorous prospecting from the International Boundary northwards to Hudson Hope on the Peace River. The production of both petroleum and natural gas seems favorable. This company also proposes further prospecting at other parts away from the mountains, where it has selected grounds for operation. In many parts of the province in drilling for petroleum, gas has been found; and

Gas Well at Medicine Hat, Alberta.

indications are that there is an immense gas field remaining yet to be tapped, the exact location, size and probable capacity of which can only be proven by testing.

According to the report of the Canadian Bureau of Mines, in 1915, there was produced 4,378,947,000 cubic feet valued at \$1,037,919, which is equivalent to 23.7c per thousand cubic feet—the heat that could be obtained from upwards of two hundred thousand tons of coal.

The Natural Gases of Alberta are known as "wet" and "dry." The former is a profitable source of gas line, and already a considerable amount of that fluid has been produced, with a probable greatly increased production in the near future. The Medicine Hat and Bow Island Fields are "dry," but there is no reason to conclude that much of the gas yet to be found will be "dry"—rather the reverse.

Helium, a non-combustible gas, very nearly as light as hydrogen and invaluable for balloons, has been extracted in considerable quantity from the Bow Island gas at Calgary, and shipped to Great Britain for war purposes. The termination of the war, has stopped the manufacture, probably, however, only temporarily.

## Recollections of the Old Survey Days

During the summer of 1881, we were locating and running trail lines for the main line of the Canadian Pacific Railway along Nobsbuning Lake and down the Vase Creek towards Lake Nipissing. A Mr. Hegan was in charge of the party, that glutton for work, Mr. E. J. Duchesnay was transitman, and Emile Tetu leveller. At that time there was but one settler on Nobsbuning Lake, and what fishing there was in it!

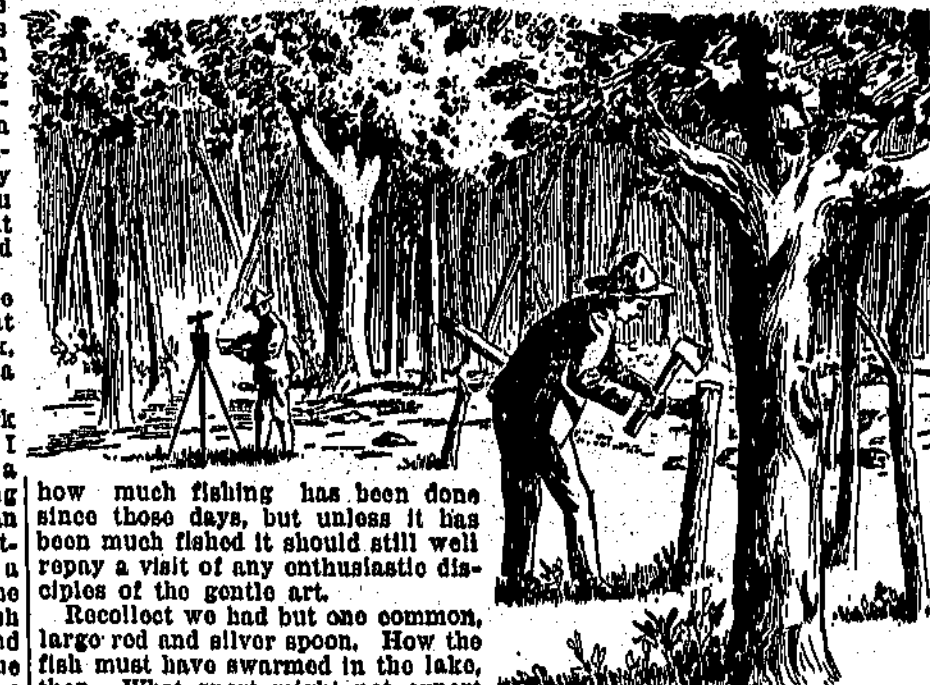

While we were camped along the lake we used a lumberman's red boat to take us to and from our work, when we invariably trawled with a hand line and common spoon.

I recollect while rowing to work one morning, Duchesnay trawled. I sat looking on. Suddenly there was a tremendous tug at the line. Uttering an exclamation Duchesnay began hauling it in, but it was no easy matter. 'Twas evident he had hooked a big one. Fortunately, however, the line was a stout one and the fish securely caught. After a brief and desperate struggle on the part of the fish, he was brought alongside of the boat. The question then was, how to get him on board? For we had neither gaff nor landing-net. At his belt, Duchesnay carried a neat little 32 calibre Smith and Wesson revolver. A brilliant idea occurred to me.

"Shoot it, Mr. Duchesnay," I called out. Promptly acting on my suggestion, at a range of a couple of feet or so, he broke his back with a bullet, killing him immediately and a massalunga of thirty-two lbs. weight—weighed on our return to camp in the evening—was lifted into the boat without any trouble.

The following Sunday morning Duchesnay and I took a bark canoe and went trawling. We had but one line and took it turn about to fish and paddle. I do not recollect how many we caught, but I do remember that after fishing for only a portion of the morning, we brought back to camp more black bass and dord than the whole party of about twenty-two healthy men could eat, before a good part of the catch went bad and had to be thrown away.

I do not know how many settlers may now be living about the lake, or

how much fishing has been done since those days, but unless it has been much fished it should still well repay a visit of any enthusiastic disciples of the gentle art.

Recollect we had but one common, large rod and silver spoon. How the fish must have swarmed in the lake, then. What sport might not expert fishermen have today, with rods and proper tackle? Where could they find finer camping grounds either, or lovelier wild scenery of lake and woods?

When we had left the lake a few miles with our survey we got into the undulating brud country along The Vase Creek. What a paradise that country was for sportsmen, then, before its world old silence had been disturbed by the locomotive's whistle. Moose, bear, lynx abounded. Never a day passed that we did not see fresh tracks of them. The bear and lynx we never saw. What animals are more shy or wary? A moose occasionally we did.

One day, while running the line along a side hill, in the open brud country, we saw six magnificent moose. But, of course, no rifle was ever carried on the line and we could only watch them trot away. What strides they took, with what ease they negotiated fallen timber!

It was about mid-summer, if I remember rightly, of that year 1881, somewhere along The Vase. We had gone out to work as usual, I was a

rodman on that survey; that morning, however, one of the chainmen was laid off, for sickness or something, and I was told to fill his place.

As usual, that morning, Duchesnay set up his transit, and as usual the axeman tolled about, lighted their pipes, or gave a final touch with whetstones to their axes, while they waited for line. In a few moments the transit was in readiness and Duchesnay turned to me.

"Got a good stout four by four inch, four foot dry stake, like a hub-stake, blaze it like a hub-stake, and mark on it with red kool, in big letters, 'C.P.R. Station O.' From now on this line will be known as The Canadian Pacific Railway, not The Canada Central." He turned to the men. "All right, boys, stick up a picket and get line now."

Thus I had the distinction of marking and driving in the first station stake marked, C.P.R.

I think there is a station now somewhere about there, called Calder. J. E.

It takes a hundred years to learn how to live—and then you are dead. When charity feeds the lame, the lazy always limp.

Love thy neighbor as thyself, but leave his wife alone.

Corporation of the District of Summerland.

Passing Events: Social, Personal, &c.

Ralph Harwood returned last week from a visit to Winnipeg.

There are too many men in the world who are not content with wasting their own time.

The Indians near Chilliwack and other points in the Fraser Valley are suffering from an epidemic of small pox.

To meet the higher cost of living the police magistrate's salary in Grand Forks has been raised from \$25 to \$50 per month.

Capt. P. S. Roe is unloading a car of Bankhead briquettes, selling at \$12.50 per ton at car.

Mrs. Bender and her daughters returned last Saturday night from Castor, Alberta, their former home.

The Summerland Hospital has been reopened in the Felix Hotel Building and patients are now being received.

Every dollar spent with a merchant of another town makes it so much harder for your home merchant to meet the requirements of his district.

Mr. Denton and Mrs. Robinson of the High School staff were both compelled to quit their classes on Thursday because of heavy colds. Mrs. Robinson returned to school this morning and Mr. Denton expects to resume his duties on Monday.

Members of the Women's Institute met in annual business meeting on the afternoon of Thursday, the 15th when the following officers were elected: President, Mrs. O. F. Zimmerman; 1st Vice President, Mrs. H. A. Solly; 2nd Vice President, Mrs. A. G. Munn; Secretary-Treasurer, Miss Cartwright; Members of Executive, Mrs. F. A. C. Wright and Mrs. A. J. Beer.

The moist snow which fell during Friday night did considerable damage to electric light and telephone lines. Clinging to the wires, as it fell and freezing it broke down the lines by its weight. Twenty-three different lines on the telephone system were down next morning affecting close to one hundred phones. Here and there the electric light wires were also broken, but these were soon repaired. The damage done the telephone lines required several days to repair.

Lieut. Littlejohn and his wife who have been living in Summerland for some weeks have moved to Comox, Vancouver Island, where we understand the Government has provided them with a farm under special conditions granted to veterans who lost their eyesight in the war. A farm has been assigned them which they may hold without payment for a long term of years, at the end of which time they will have the option to purchase it or surrender it to the Government.

Traffic officers and station agents of the C.P.R. met in Vernon on Friday and Saturday of last week when the past year's operations were reviewed and suggestions advanced for the better administration of the system in this division. One of the changes effected as a result of a recommendation made last week and also a year ago by the Summerland Agent is in the barge service. Next season car barges will arrive here about 6 p.m. with empty cars. These will be shunted and will be here for two nights and a day, giving ample opportunity for loading, and the loaded cars will be started on their journey early in the morning.

It pays you to deal in Summerland.

Mr. and Mrs. Muir Steuart have returned from a visit to Coast cities, including Seattle.

The Summerland Garage has recently unloaded another shipment of McLaughlin cars, most of which have already been sold.

Mr. T. Embree is visiting his brother, Mr. J. J. Embree at Trout Creek Point. The latter is one of our new citizens, coming here from Saskatchewan.

Mrs. Jas. Fenner entertained at an afternoon tea on Thursday when quite a number of ladies gathered and enjoyed a pleasant afternoon. A fee was charged which will be turned over to the Hospital Building Fund.

Duncan Woods has sold ten acres of his Trout Creek property to J. J. Embree, who recently arrived here from Saskatchewan. The block includes the old log cabin, on the opposite of the road from S. F. Sharp's orchard, perhaps the oldest habitation in the district.

The first practice of the Summerland Brass Band will be held in St. Andrew's Hall on Wednesday evening, Jan. 28th at 7.30. All who wish to obtain an instrument are requested to be on hand punctually at that time. Officers will be elected and arrangements made for having the instruments overhauled and put into first class condition.

Mr. E. R. Simpson's sister and her husband, Lieut. Jas. A. Atkins, are visiting at the Simpson home on Paradise Flat. Lieut. Atkins being one of the First Division wears a Mons Star and was through most of the big engagements in which the Canadian forces attained so much glory, and earned his commission in active service. Lieut. and Mrs. Atkins, whose home city is Kingston, Ont., came here from Calgary where Lieut. Atkins holds a position with the S.C.R.

A recent visitor to Summerland was Major Jas. F. Sutherland who for twelve years has been the owner of an orchard property near Paradise Flat. Major Sutherland had, on his return from France, intended to come to Summerland to live, but having received a very attractive offer from English interests to return to England for a couple of years, he has postponed taking up permanent residence in Summerland. Major Sutherland is an old time friend of Mr. W. H. Hayes and Mr. E. R. Simpson, and has visited here on several previous occasions.

Summerland Hospital Society The Annual Meeting

of the Summerland Hospital Society will be held at 3 p.m. on Thursday, 29th inst., in the Parish Hall, West Summerland,

Current Events of  
Town and District

Mr. Ben Hoy who has been connected with the Government Horticultural Department for several years has decided to make a change and has accepted the position of manager of the fruit lots owned by Mr. C. C. Aikins. Mr. Hoy came in a few days ago accompanied by his wife and family. For the present they will reside in the Mitchell cottage in town but expect to move to the benches early in the spring.

The G.W.V.A. are getting ready for their social events. The first or opening feature will be a dance on the 29th, and it is expected that a large crowd will be present. As this is for the purpose of raising money to carry on with during the winter, we know the boys will get a good sum. They have secured the Fruit Union building for the winter and are now getting the floor in shape and making arrangements for a busy social season. For other information see large advertisement in this issue.

Mr. and Mrs. Richard Elver came in from Calgary on Saturday night and will make their home here. They will occupy the Herbert Wolstencroft house on the north shore.

Mr. Gerald Lumsden went out to Kamloops on Tuesday morning to take a course of treatment in the Hospital for returned men. He will be gone about six months.

Mrs. A. S. Lawrence, who has been to the Coast for a few days, returned on Monday.

On account of the absence of Mr. McDonald, who has charge of the work connected with the water storage of this district, there was no meeting on Thursday.

A number of our citizens who had freight put off on the wharf at night and could not attend to moving it till the next morning report that there is nearly always some of it missing. We hope that this condition will cease soon before serious measures are taken to remedy it.

A number of people from the Prairie districts have been in this week looking over the fruit lots with the idea of settling here in the near future.

The car of coal ordered by the Farmers' Institute has arrived and will be distributed this week. Just in time for the cold snap.

Mr. Russell Wells has returned from Vernon where he was looking after his firm's interests.

**THE TEN COMMANDMENTS OF A PROMINENT ATHLETE.**

- First—Thou shalt keep thy backbone straight.
- Second—Thou shalt use all thy lungs all the time.
- Third—Thou shalt drink half a gallon of water daily.
- Fourth—Thou shalt take sufficient nourishment.
- Fifth—Thou shalt masticate thy food properly.
- Sixth—Thou shalt sleep eight hours daily.
- Seventh—Thou shalt cleanse the body daily.
- Eighth—Thou shalt walk three miles daily.
- Ninth—Thou shalt think pleasant thoughts and banish unpleasant ones.
- Tenth—Thou shalt praise the Creator for the result these laws bring and tell thy neighbor.

1st SUMMERLAND TROOP B.P. SCOUTS.

Scoutmaster - O. F. Zimmerman.  
Headquarters - Parish Hall.  
Meets every Friday evening at 7.30 p.m.

On Monday, January 12, the Scout basketball team beat the West Summerland team in the College Gymnasium, 27-13.

On Friday night last the whole troop met in the Parish Hall and the evening was spent in the re-arrangement of the new patrols. The four patrol leaders now are, Jas. Marshall, Blanchard, Munn, Gordon Blewitt and Russell Munn. Their seconds are respectively Hugh McIntyre, Edgar Hobbs, Warren Gayton and Louis Smith. After these were named by the Scoutmaster, the members of the patrols were chosen in turn by the leaders and seconds.

The Scoutmaster announced that he would give a prize to the patrol which wins in a basketball schedule which will be drawn up. As the patrols are quite even many interesting games are expected between them.

The patrols were put in charge of the leaders for half an hour's instruction and then the troop was dismissed.

A SCOUT.

**OKANAGAN DISTRICT.**

Ferry, Summerland-Naramata, Okanagan Lake.

In accordance with chapter 85, R.S.B.C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as Naramata, a distance of about two miles and three quarters.

Applications will be received up to 12 o'clock noon, Monday, 16th day of February, 1920.

The charter will cover a period expiring on the 31st March, 1921.

The ferry shall make two trips each way every day, weather permitting.

Applicants shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Canada Shipping Act, 1906" and amending Act.

The following is the schedule of rates:—  
Autos, \$1.  
Single rigs, 75 cents; loaded \$1.  
Double rigs, \$1.25; loaded \$1.75.  
Passengers, 10 cents single.  
Passengers, 5 cents single (under 13).  
Settlers' tickets, fifteen for \$1.  
Horses, 50 cents; two or more, 40 cents each.  
Cattle, 40 cents; two or more, 30 cents each.  
Pigs, sheep, colt, calf, 30 cents; two or more, 25 cents each.  
Freight, per 100 lb., 10 cents; per ton \$2.  
No charge for parcels under 25 lb.

To the successful applicant the Government of British Columbia will pay, at the expiration of every three months of satisfactory service, a grant in aid of operation of this ferry, and each applicant should state the amount of grant he is prepared to operate this ferry for.

The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.

### Progress Reported by St. Andrew's Church and S. S. Reports Presented Show a Healthy Growth in all Departments

Monday night, Jan. 12, the annual congregational meeting was held in the church. Excellent reports from all departments showed that the year 1919 has been one of the best in the church's history. There was a gain of 18 new members, 12 by confession of faith from the Sunday School and 6 by certificate. The amount raised for all purposes was \$2,944.50 and of this the sum of \$178.00 was given to missions. The Ladies' Aid gathered in \$613.10; the Sunday School, which had an average of 90 per Sunday, raised \$277.77; the Women's Missionary Society \$122.60; Young People's Society, since October, \$36.00, and the Junior Mission Band, \$35.00. A most harmonious spirit prevailed and the worshippers are entering whole heartedly into the work of the new year.

The members of the Session wish to express their appreciation to Miss Harrison and members of the choir for the excellent services rendered by them, also to Prof. Broad for the splendid work being carried on by him in the Bible Class. They are very grateful to Mr. Hutchinson and the members of the orchestra for their help voluntarily given in connection with the Young People's Society, which Society now has a membership of 96.

Thirty-six girls have joined the

physical culture club with Mr. Arthur Pentland as O.C. Success is assured.

The following officers were elected members of the Board of Managers for the ensuing year: Messrs. R. Johnston, B. Stewart, A. G. Munn, A. McLaughlin, Lee McLaughlin, G. Sinclair, A. R. Rose, A. C. Mitchell, G. Harding, J. O. Smith.

The regular Annual Meeting of the St. Andrew's Sunday School was held on Wednesday, the 7th.

Very encouraging reports were read, which showed that all Sunday School work was making steady progress.

During the year \$252.00 had been received, as compared with \$184.00 for 1918. Total attendance during the year, 4,295.

The following donations have been made:

Rally Day Fund, \$15.00; Armenian Relief Fund, \$40.00; Missions, \$30.00; Donation to Church, \$50.00.

The following officers have been elected for 1920: Hon. Supt., J. G. Robertson, Superintendent, J. L. Logie, Assistant Superintendent, A. Smith; Secy. Treas., D. Lister.

About 80 carloads of ice is cut and loaded into box cars every day at Tulameen, and already over 800 carloads have passed through Princeton over the Great Northern for distribution at points in the State of Washington. The greater portion of this ice goes to Wenatchee and Yakima, where it will be used next summer in refrigerator fruit cars. Last year's ice crop at Tulameen amounted to 1700 carloads, and this season's output will probably reach about the same total.—Princeton Star.

### ADVERTISING PAYS AT ALL SEASONS.

Morgan Eastman, Expert, Gives Some Pointers on Publicity To Coast Merchants.

"If some merchant has the goods, he must advertise if he wants to get business," said Morgan Eastman, in his address to the merchants of Vancouver. The newspaper goes to every home and is read by all classes of consumers. If you have the goods and do not advertise you may ultimately be successful but it will take you fifteen years longer to do it. Advertisers as a whole are honest and conservative in their statements because the leading publications refuse to accept questionable advertisements at any rate. Proof of the satisfactory results of moderate statements in connection with the advertising of goods is found in the faith of the public which does a tremendous amount of business with the mail order houses.

"Advertising without a definite, careful plan to guide it is like a ship without a rudder," said Mr. Eastman, "and the man who adopts it will pile up on the rocks of business failure. The kind of advertising that pays is consistent and perpetual, and it will work for you day and night. Your advertising becomes news and the consumer looks for it as a guide for his buying."

In support of his statement that a merchant must keep his goods before the public eye continually, Mr. Eastman mentioned a well-known firm which manufactured

magnetos. He said that this company at one time supplied 90 per cent. of all magnetos that were placed in American motor cars. They then decided to drop their advertising campaigns and to-day they do not furnish more than 8 per cent. of the automobiles with their product.

### THE HEATHEN ENGLISH.

A Chinaman describes the English people in this wise:

"They live months without eating a mouthful of rice; they eat bullocks and sheep in enormous quantities; they have to bathe frequently."

"The men dress alike, and to judge from their appearance they are all coolies; neither are they ever to be seen carrying a fan or an umbrella, for they manifest their ignorant contempt of these insignia of a gentleman by leaving them entirely to women."

None of them have finger nails more than an eighth of an inch long; they eat meat with knives and prongs; they never enjoy themselves by sitting quietly on their ancestors' graves, but jump around and kick balls as if paid to do it, and they have no dignity, for they may be found walking with women."

All that man wants here below is a little more than he has.

A long yarn is sometimes produced from the threads of a conversation.

Music is the food of love, which is more than can be said of the onion.

### LAND REGISTRY ACT.

Notice Under Section 36. No. of Application, 8358D

TAKE NOTICE that an application has been made to register The Summerland Development Company, Limited, as the owner in Fee-simple, under a Tax Sale Deed from the Assessor of the Municipality of the District of Summerland, to The Summerland Development Company, Limited, bearing date the 25th day of March, A.D. 1918, in pursuance of a Tax Sale held by said Municipality on or about the 31st day of August, 1916, of all and singular certain parcels or tracts of land and premises situate, lying and being in the District Municipality of Summerland, in the Province of British Columbia, more particularly known and described as Lots 53, 54, 57, 58, 59, 60, 120 and 121 in the District Lot 678, Map 366.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said The Summerland Development Company, Limited, as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:—

"and in default of a caveat or certificate of his pendens being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the "Municipal Clauses Act, 1906," or section 203 of the "Municipal Act," or section 139 of the "Assessment Act, 1903," or section 258 of the "Taxation Act," in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

DATED at the Land Registry Office, at the City of Kamloops, Province of British Columbia, this 10th day of September, A.D. 1919.

H. V. CRAIG, District Registrar To Mrs. Moreland, Assessed Owner of Lots 57 and 58.

### The Story of the Western Grebe.

N. Tournour, in "Rod and Gun."

Many are the barbarities inflicted by man on the dumb things of nature, but especially upon the fowl of the air. There is no sadder story in all natural history than that connected with the grebe of the North-West Pacific Slope. Four years ago many were the pretty scenes they made in their sequestered haunts among the narrow channels of the Klamath Lake district, that lies between California and Oregon, where the harmless waterfowl with its beautiful glistening white breast and silver-grey back has had its home for centuries. The lakes of this region are full of great reeds known as tules, that in time form floating islands, the new stalks every year shooting up and pressing down the previous year's growth till all become a solid floating mass. Here the grebe shapes a platform out of the old dry tules, and hollows out the centre cunningly for its nest, and here the she bird lays its three or four eggs, and rears her young.

Four years ago in this region, many were the charming pictures made by the mother and father bird and their young as they paddled confident and secure in the water around their nest; the father swimming so low that he was hardly to be seen, and the mother floating a little higher to keep dry the three tiny chicks; that nestled on her back under the sure shield of her raised wings. Sometimes one of the little ones would dangle slip off its perch on the thick warm plumage of its mother's back, and plunge into the water, and swim over to its father, the mother carefully attending it. As it would climb on to its father's back the father would duck a little, then dive and make off with the youngster, the mother paddling serenely

onward. A second or two later, the father bird would appear again, the young bird still clinging to his back, and apparently enjoying its plunge with immense relish.

That was to be seen four years ago. To-day it does not meet the eye, save very rarely. The grebe has been killed out in its old home—its home before Columbus was cradled. Too late did the State of Oregon pass a law protecting the harmless and beautiful bird. Fashion and the conceit of women for their headgear has nigh exterminated the grebe.

In 1914, when it was announced that grebe skins would be considered marketable for fashioning into hat ornaments, hunters turned Lower Klamath Lake into a scene of carnage. Their profits were immense, and crowds of backwoods folk invaded the lake region, and many thousands of birds were shot down in a short time. Farmers betook themselves to the butchery of the grebe, for they had found they could go out in early morning and earn more at fowling than by a fortnight's hard drudgery on their land. And so the work of extinction of the grebe went on; until, by now, the bird has been almost harried out of existence.

Indeed, grebe hunting has been organized into a prosperous business—just as was buffalo-hunting, that also put an end to the buffalo—just as hunting the bird of paradise, the osprey, and many another species has put an end to them in their ancestral homes.

Fur trading companies of the North-West, encouraged by the high prices and greening demand for grebe skins, have engaged their entire force of hunters to quest for the birds, and as the plumage remains in fashion, despite the changes brought about by the war, this war on the grebe seems fairly well established.

Expert hunters traveling in small bands quickly clear up even the largest of the remaining breeding grounds, some men killing as many as 400 grebe in a forenoon. After shooting a bird, the butcher picks up the body, cuts off the wings with an axe, throws the wingless carcass on its stomach, and then rips the skin down the back from neck to tail, but he takes care that the beautiful white breast and silver grey back are kept clean. Then he jerks the skin loose from the upper part of the body, and severs it at the neck, and pulls the whole plumage off.

What cares he for the many pitiful little tragedies, where the mother has been shot down by her nest, and not found by him? The grey chicks nestle cheeping and helpless about her lifeless body, seeking relief from the hunger and the heat that kill, and finding it not.

Not for them, evermore, the shelter of her snowy breast, nor the joyous voyage on her back, while the father bird paddles close by.

Grebe killing flourishes in spite of State law and the wardens. California tanneries daily receive boxes labelled "coyote skins," etc., and so the extinction of the western grebe proceeds apace.

It is a lamentable story.

#### COULD YOU BEAT THIS.

A small boy of Jewish persuasion who was playing at the end of the pier down at the beach fell into the water, and was rescued after great difficulty by an intrepid swimmer, who dived off the end of the pier and succeeded in getting the boy into a rowboat.

Half an hour afterwards, much exhausted by his effort, the rescuer was walking off the pier when a man came up and tapped him on the shoulder.

"Are you the man who saved my son Iky's life?" he asked.

"Yes," answered the much exhausted hero.

"Then," said the Hebrew in indignant tones, "v'ore's his cap?"

### To Help Farmers

Farmers, you are capable of greater production if you had more money.

This Bank is ready and willing to help progressive farmers with loans to raise bigger crops and more cattle.

The next time you're in town consult our local manager.

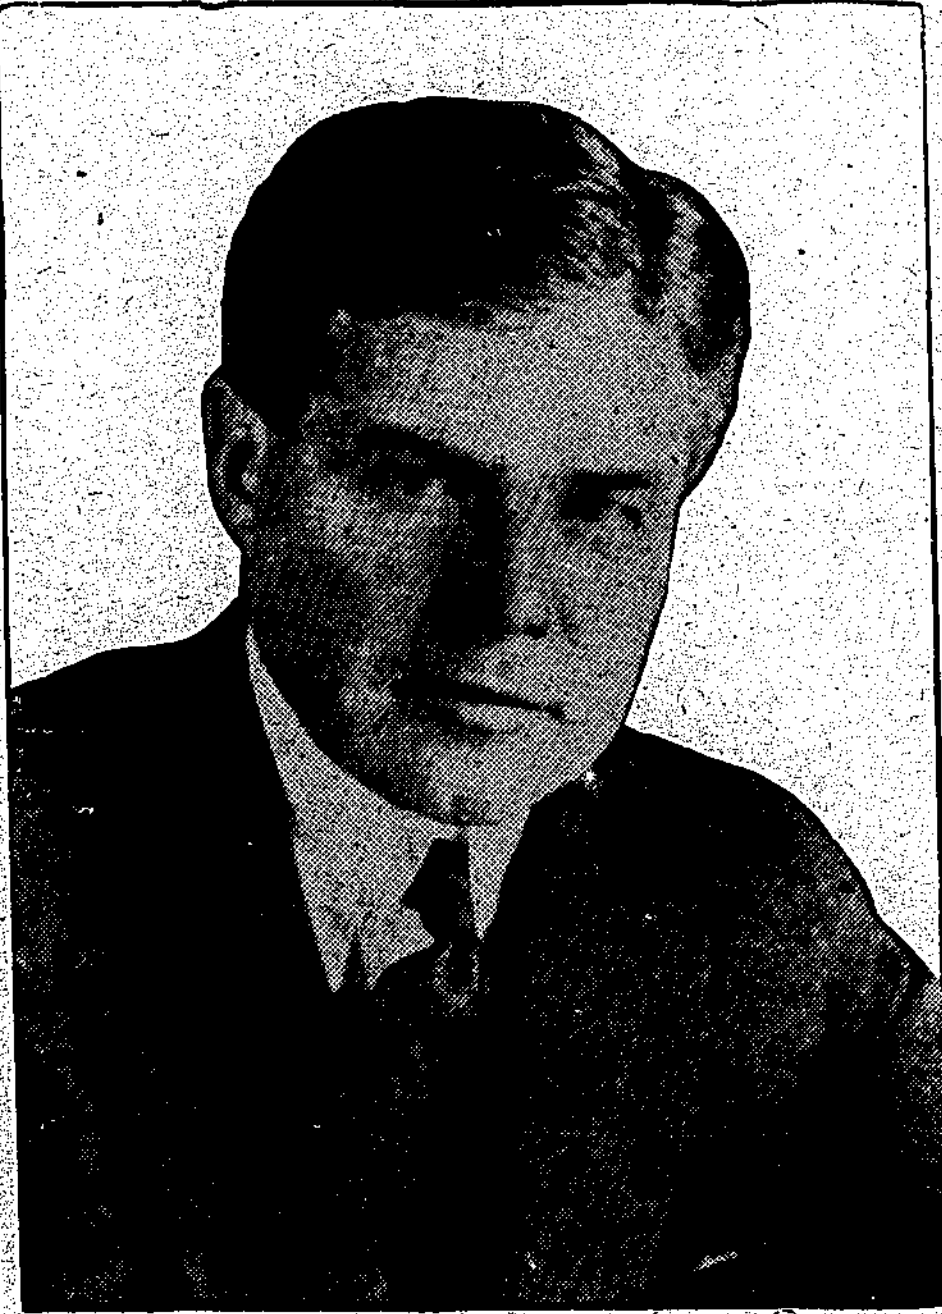

### THE DOMINION BANK

SUMMERLAND BRANCH,

O. F. ZIMMERMAN,

Manager.

E. W. BEATTY, President of C.P. Ry.

The following was a New Year's contribution to the "New York Sun," by Mr. E. W. Beatty, President of the C.P.R.:

"With every new year we usually resolve to turn over a new leaf.

"If there is to be any resolution made by the North American Continent for the year, it might well be in the direction of thrift, for the first after-the-war years are causing natural concern to those who remember the financial panics which have always closed similar periods of careless spending.

"The extravagance noted by every recent visitor from Europe to this continent synchronizes with conditions of actual starvation affecting millions of people in Europe itself who fought for freedom only to die for lack of food.

"This extravagance has been made possible, at least in part by the heavy purchases made under stress of war by European nations on this continent. It represents the expenditure of unexpected profits, which are being dissipated instead of placed in reserve for a rainy day.

"In this orgy of extravagance, Canada is just as great a sinner as the United States. In the last few weeks Canadians have been penalized to some extent for their uncurbed purchase of American made luxuries by an adverse exchange. What the penalty to be paid by the United States will be remains to be seen."

### IT Costs You Nothing

To have Your Own Private or Business Stationery

Did You ever figure how much per hundred sheets the ordinary Writing Pad costs? — If not, just try it.

We can supply you with full-size Letter Paper with your Business or Ranch name and address on it for 65c. and 75c. per hundred in lots of 1000; and less in larger lots. Small extra charge if padded. Give us a trial order NOW.

The Review Job Printing Department.

### Bargains In Real Estate

\$22,000 takes a 31 acre orchard, paying 10 per cent. on investment.

\$15,000 takes good ranch, all complete.

\$1,100 takes acre, with house, stable and small fruits.

\$1,800 takes 4 acres; hay, with small house, etc.

These are not special prices, our regular prices are based on a fair margin and a trial order will convince you that we stock nothing but the best.

### Penticton Trading Association, Ltd.

PLAYER-PIANOS.—We can save you \$75.00 on an immediate sale. "Willis" Player-Piano, style H—one of the best Canadian makes. Price \$75.00 on terms.

T. G. WANLESS - AGENT - PENTICTON, B.C. Singer Sewing Machines. Willis Knabe Pianos. "Wear-Ever" Kitchen Equipments.

### "Here They Come!"

It is the cry of the children when a band is heard far down the street. Nearer and nearer it draws until each note becomes clearer and clearer.

To those in the city this is a familiar picture. But to those residing in suburban towns stirring strains of band music are more rare.

### The NEW EDISON "The Phonograph with a Soul"

in your home makes it possible for you and your children to have at all times the wonderful march music that has inspired the world.

Wherever you live—on the farm or in town—let the New Edison bring the parade, with all its glamour, into your living room, every instrument, every note as clear as a real band—thanks to the genius of Thomas A. Edison.

We tell a wonderful story about the New Edison in a beautiful book that you should have. It is called "Edison and Music". Ask for it; and also for "What the Critics Say".

## Citizens Behind Local Cannery Proposition

### Necessary Capital Will Be Subscribed Here.

A local company with authorized capital of \$100,000, of which not less than \$20,000 must be subscribed at once, was the recommendation of the committee appointed by the Farmers' Institute to investigate the proposition made by Mr. C. S. Bickford, that local capital be raised for the purpose of establishing and operating a cannery here.

Mr. C. H. Tate, president of the Farmers' Institute, occupied the chair. The report of the committee was presented by Mr. J. L. Logie. The committee recommended that all the required capital be raised locally.

The committee had been advised by Mr. Bickford that he had secured a ten day option on machinery and equipment of a modern plant for less than one-half of pre-war prices. Immediate action was necessary if this option is to be taken advantage of. The meeting decided in favor of organizing. A company of eight canvassers, two for each of the four wards, was named with instructions to work the whole territory this week. The canvassers are: Ward 1, A. McLachlan and Jno. Tait; Ward 2, J. L. Logie and S. Darkis; Ward 3, A. H. Steven and R. Johnston; Ward 4, T. J. Garnett and W. A. Caldwell.

This committee is to convene again on Saturday at 5 p.m., when the several subscription lists will be tallied and the results of the canvass ascertained. A meeting of growers is to be held on Monday at 2.30 p.m. when a final decision will be made as to whether the proposition will be carried through or dropped.

## Summerland Band and Orchestra.

### Starts With Membership of More Than a Score.

The Summerland Brass Band has been reorganized and practices have begun. The twenty odd members are all enthusiastic and there are enough of them proficient to be of valuable aid to the novice members.

The band instruments which were turned over to the Municipality when the previous organization was disbanded have been loaned to the new organization, which will be known as the Summerland Band and Orchestra.

An organization meeting was held in St. Andrew's Hall on Wednesday when the following officers were elected:

Hon. President Reeve J. R. Campbell  
President ..... J. L. Logie  
Conductor ..... E. Hutchinson  
Manager ..... J. W. S. Logie  
Sec.-Treas. .... D. Davidson  
Band Sergeant ..... Alex G. Smith  
Executive Committee ..... Conductor  
Manager and Sec. Treas.

Practices will be held every Wednesday evening at 7.30 in St. Andrew's Hall.

The members intend circulating a subscription list for the purpose of raising funds to put the instruments in good repair and to purchase two additional cornets and further supplies.

In addition to the conductor there are twenty-one members in the band as follows: cornets, A. E. Cline and Alex. G. Smith; Baritone, H. Riley; euphonium, M. Munroe; basses, W. Gayton and I. Adams; b. flut bass, E. Hunt; trombones, J. Keon, D. Lister, J. W. S. Logie; Tenors, B. Taylor and D. Davidson; altos, H. Allen, J. Marshall, R. Hatfield; solo alto, J. Gnyton; clarinets, E. Riley and W. Koon; piccolo, A. Munn; bass drum, A. McRitchie; kettle drum, N. Hutchinson.

There was no contest in the civic elections at Kelowna, the only nominees being those selected for offices that were vacant.

## Women's Institute Is Reorganized.

Between twenty and thirty Institute women met in the Men's Club last Friday when the Summerland Women's Institute was reorganized. For some time past the two local institutes have been meeting as one body in St. Stephen's Hall. A number of down town members who have not been able to attend, concluded it would be better to have regular meetings down town, met and organized with the following officers:

President ..... Mrs. W. J. Robinson  
1st Vice-President ..... Mrs. S. Angove  
2nd Vice-President ..... Mrs. C. E. McCutcheon  
Directors ..... Mrs. S. A. MacDonald  
Mrs. S. F. Starp  
Secretary-Treasurer ..... Mrs. J. Tait

## F. A. C. Wright is Chairman of the School Board.

Mr. F. A. C. Wright was appointed chairman of the 1920 school board at the initial meeting of that body held on Monday night in the board room. Mr. J. H. Bowering was re-elected secretary. The members of the 1920 board are: Messrs. Wright and Tait (with one year to serve) Messrs. Garnett (re-elected) Zimmerman and Darkis, the latter three elected for two years.

Correspondence on the selection of a substitute for Principal McIntosh of the High School was read, including a wire confirming the appointment of Mr. P. C. Tees to the position. This appointment was confirmed by motion of the board.

The question of teachers' salaries again came up when it was decided that the salary of the Principal of the High School should be at the rate of \$2000 per annum until June 30 next. The salary of his assistant, Mr. Denton, was increased to \$1800. The increases made in the salaries of public school teaching staff in a schedule adopted by the previous board late in December were approved and the increased salaries adopted for the first six months of the current year.

The Board will hold its regular meetings on the first Wednesday of each month at 7.30 p.m.

## RAY'S NEW PHOTOPLAY HAS POWERFUL THEME

### Numerous Thrilling Incidents Make "His Own Home Town" Notable.

The new Paramount picture, "His Own Home Town," starring Charles Ray, is said to be one of exceptional interest and which affords Mr. Ray one of the best roles he has enacted for many months.

The story deals with the corrupt operations of a political ring in a small town and with the efforts of Jimmy Duncan to rid the city of this degrading incubus. In the development of the story there are many scenes of tremendous interest and it goes without saying that the dramatic action, in which Mr. Ray figures most conspicuously, is tense and nerve racking. Both the star and his support have been afforded ample opportunities by Larry Evans, the scenarist, for the display of their respective talents.

The picture, which will have its first presentation at the Rialto Theatre next Tuesday, was produced under the supervision of Thomas H. Ince, which in itself is a sufficient guarantee that the usual high standard established by Paramount, is amply maintained.

C. A. Love, editor of the Grand Forks Gazette was elected an alderman at the recent municipal election at that city.

The Moslem religious chief in Egypt threatens trouble unless Egypt gets full independence, observes the Toronto Mail and Empire. Behind hints of religious outbreaks is the Bolshevik menace, which is working into Afghanistan with the idea of laying powder for an explosion in India. No matter where the eye turns in the Near and Middle East, there is possibility of trouble that might lead to a "holy war."

## Coming in Lyceum.

DR. FRANK BOHN

Dr. Frank Bohn, noted writer, publicist and lecturer will appear here soon on the Lyceum Course with one of the most absorbing and interesting lectures of the year. Dr. Bohn has but recently returned from Europe and he has some intensely important things to say about social conditions on the other side of the Atlantic. His articles of late in the New York Times on Bolshevism were among the most interesting and illuminative that have appeared. His lecture is known as "Revolutionary Europe" and it will convince anyone with reason that Bolshevism will not cure our ills. His is a fact-lecture of practical value and at the same time highly interesting and entertaining.

## Will Reorganize Work In Municipal Office.

Restrict Hours-When Office Will be Open to Public.

### More Help Needed.

Separate Office for Engineer. Council Exchanges Debentures for School Site.

Shortening the hours when the Municipal Office will be open to the public so as to give the office staff a few hours each day in which to work without interruption was decided upon by the Council on Monday as a means toward better organization of the office work. Mr. Nixon, the Clerk, had asked that a committee be appointed to confer with him with a view to effecting greater efficiency.

This committee was appointed the week before, Couns. Blair and Kirk, and submitted a report at the meeting on Monday last. This report included a recommendation that the working hours of the staff be from 9 to 6 with one hour off at noon. The door will not be open to the public till 10 o'clock and will close at 4.30. This part of the report was adopted to go into effect the first of February.

The report further recommended the employment of a third man and Mr. Nixon would have this man do the work of Clerk and Treasurer, and thus leave him free to pick up a lot of work now in arrears and to attend to other duties with which only he is familiar. The Council was advised that the municipal auditors had been asked to recommend a man for the position.

The Councillor for Ward 1 asked if there was not a taxpayer or citizen who could be had to fill the position, stating that he thought if there were such a man he should have the first chance. The opinion was expressed that there was no one here available for the position. The appointment of the official was laid over for a later meeting. The committee recommended that

## Vernon Farmer Killed by Ram.

VERNON.—H. Dudley, more than 70 years of age, is dead from injuries received in an attack upon him by a ram.

The distressing tragedy happened at the farm of Mrs. C. O'Keefe, at the head of the lake, where Dudley has been employed for a number of years. The attack, which occurred while he was feeding sheep in a field near the house, was unobserved but some school children discovered him lying on the ground with the ram still butting at him.

When picked up his head and face were pounded almost into a pulp and it was discovered that his shoulder had been dislocated. He was hurried to the Hospital, but passed away a few hours later.

## Will Proceed With Plans For New Hospital

The directors of the Summerland Hospital Society were instructed by a resolution passed at the annual meeting of the Society held last Thursday afternoon, to proceed with preparation of plans and specifications for the new hospital building to replace the one destroyed by fire on December 14th, and to make all necessary arrangements for financing same.

Three directors are elected annually for a term of three years each. Those retiring were Dr. Lipsett and Messrs. C. N. Higgin and W. Ritchie. At the Thursday meeting Dr. Lipsett and Messrs. R. V. Agur and H. W. Harvey were elected to these vacancies.

Following the regular meeting the new Board of Directors met when the following officers were elected:

President ..... F. A. C. Wright  
1st Vice-President ..... Dr. Lipsett  
2nd Vice-President ..... H. C. Mellor  
Secretary ..... T. H. Riley  
Treasurer ..... O. F. Zimmerman  
Auditor ..... C. P. Nelson

## Attendants Must Pay Return Fare

### New Ruling Affecting Shipments of Perishable Goods On Car Lots

Effective February 1st, 1920, from points in British Columbia attendants in charge of shipments of fruit or vegetables for the purpose of looking after stoves or heaters will be carried free from shipping point to destination. Return transportation, second class, to original point of shipment, and limited to continuous passage only, will be issued on basis of one-half regular first class fare, provided contract is presented to ticket agent at destination within ten days after arrival of said shipment.

At the present time free transportation is given attendants in both directions.

## Church Has Most Successful Year

The annual congregational meeting of St. Stephen's Church was held in the Parish Hall on January 13th, when there was a large attendance. The Churchwarden presented his annual report which showed the Church to be in a more flourishing condition than at any time in its history. Mr. R. H. Helmer was appointed Rector's Warden and Mr. H. Harvey People's Warden. Messrs. Harvey and Wright were elected delegates to the Synod, with Messrs. Barnes and Howis substitutes.

and the \$100 difference would be paid to the Council by Mr. Ritchie. This offer was accepted.

Mr. W. C. Kelley wrote the Council offering a ton foot strip of land along the north side of the street between the Bank of Montreal and T. B. Young's home at the price of \$500, to be paid for by a twenty year debenture to be issued for the purpose at some later date. This was left over for further consideration.

## Okanagan Fruit Crop for 1919 Bulks Large

### Value Runs Close to Six Million Dollars.

Including the estimated value of fruit still in storage in this Valley on December 31st, 1919, the shipments totalled in value upwards of five and one half million dollars. Despite exceptional losses by wind and frost, our apple shipment totalled 1,000 carloads more than the year before. The Vernon News was given a volume of statistics on the Okanagan 1919 crop by Mr. R. M. Winslow, which that paper has used to good advantage in the following article:

Despite various handicaps including a severe frost which came on an altogether unprecedented date last year, the exports of fruit and vegetables from the Okanagan for 1919 have by far beaten all previous records. From figures compiled carefully by R. M. Winslow, secretary of the B. C. Credits and Traffic Association, the News is able to furnish a thoroughly accurate and authoritative statement of crop returns for the past season, and the figures run into surprisingly large totals. From the section between Enderby and Penticton inclusive, and taking in Summerland, Peachland, Kelowna, Okanagan Centre, Oyama, Vernon, Coldstream, Lumby, Armstrong and Enderby districts the total value of fruit and vegetables marketed this year reaches the magnificent total of \$5,294,250, or adding the Salmon Arm district, at a total of \$5,504,250.

There are still about 200 cars of fruit and 40 cars of vegetables in storage, but these are included in the above estimate.

### A Big Increase.

In 1918 the Valley's output was valued at about \$4,000,000, and while everybody acquainted with local conditions realized that this season's crop would run into higher figures, few placed the increase as high as a million and a half dollars which the 1919 returns disclose. These figures apply only to fruit and its by-products such as evaporated apples, cider and vinegar, and to vegetables. When the exports of hay, grain, cattle, hogs and poultry are added to this it will easily bring the Valley's total production well over the \$6,000,000 mark.

Taking the population of the Okanagan at 20,000 this means that the production of the Valley works out at \$300 per head for every man, woman and child in the district. We greatly doubt that any other section in Canada can show crop returns equal to this.

(Continued on Page 2.)

## KELOWNA BOARD ELECTS OFFICERS

At the annual meeting of the Kelowna Board of Trade the following officers were elected: President, L. V. Rogers; Vice-President, G. Stirling; executive—A. A. Ballard, F. M. Buckland, P. DuMoulin, E. T. Elliott, J. Hunt, J. B. Knowles, B. McDonald, D. M. Rattenbury, M. J. F. Roos; Secretary, N. D. McTavish.

## SUMMERLAND WEATHER REPORT

## OKANAGAN FRUIT CROP FOR 1919 BULKS LARGE

Continued from p. 1.  
Car Shipments

Including 225 cars from the Salmon Arm district contained in Mr. Winslow's statement the output in fruit and vegetables was as follows: Freight shipments — Apples 2730 cars valued at \$3,550,000; crab apples 250 cars valued at \$175,000; pears 50 cars valued at \$78,750; peaches 100 cars; prunes 150 cars; plums 75 cars; apricots 40 cars, and cherries 20 cars; these stone fruits being valued at \$385,000. Express shipments and less than car lots, 233 cars valued at \$349,500. This makes a total fruit ship-

## Boy Scout Column

### 1st SUMMERLAND TROOP B.P. SCOUTS.

Scoutmaster - O. F. Zimmerman.  
Headquarters - Parish Hall.  
Meets every Friday evening at 7.30 p.m.

Last Friday night there was a very substantial turnout in the Parish Hall. After the roll had been called and fees collected, a letter was read from the Kelowna troop re basketball. The first chance the Kelowna boys will have of giving us

This multi-ammunitioneer says that all his children play on the piano.

ment of 3648 cars with a cash value of \$4,537,250.  
**By-Products**  
Added to this were 7,000 tons of by-products from fruit including evaporated apples, cider and vinegar with a value of \$235,000.  
**Vegetables**  
Of onions there were shipped 450 cars worth \$360,000, and of other vegetables 515 cars valued at \$309,000. The local canneries handled 3,000 tons of vegetables, chiefly tomatoes, their output being placed at \$63,000. This brings the total value of vegetable shipments up to \$732,000.

**A Big Total.**  
A recapitulation of the above figures shows a shipment of 3,648 cars of fruit and 965 of vegetables, or a total of 4,613 cars with a value of \$5,504,250. Deducting the shipments from Salmon Arm this leaves for the Okanagan Valley including Pentiction, a total output for 1919 of 4,388 cars representing in cash the splendid sum of \$5,294,250.

**Some Handicaps**  
We shipped in 1919 about one thousand cars more apples than in 1918, which when it is considered that several hundred cars were rendered unfit for shipment by the early frost, shows how rapidly the orchard production is increasing. The growers had to face during the season an unusual succession of handicaps and setbacks, including car shortage, scarcity of labor, difficulty in securing an adequate supply of boxes, and the sugar shortage which seriously hampered the sale of crab apples and other preserving fruits. Despite all of these drawbacks, however, the season has been a banner one for the fruit industry, and even the most pessimistic resident of the Okanagan must be compelled to acknowledge that the future is rosy with hope.  
The distribution was widespread this year, the Okanagan United Growers alone, to quote one of the many shipping firms of the district, sending 215 cars of fruit to the United States, 120 cars to Great Britain and 5 cars to New Zealand in addition to their principal export business to the prairie provinces.

The main feature of last Friday night's meeting, however, was of quite an entertaining character. Miss Ruth Dale had kindly come to the hall and we had quite an enjoyable sing song for about an hour. We hope to have more meetings of this kind, thanks to Miss Dale, because the boys entered into the spirit very well.  
At nine o'clock the troop was dismissed, but some of the boys stayed longer, playing games, singing, etc.

## NOTICE

### RE. PROPOSED BY-PRODUCTS PLANT.

Because of delay in securing a proper location and inability to make necessary arrangements in time we have decided to delay building for the present and regret that we will not be in a position to handle the cull apples from last season's crop, but assure the growers that our plant will be ready in time for the next crop.

Correspondence.

The Columns of THE REVIEW are open to the public for the discussion of matters of general interest. No notice can be taken of anonymous communications. Letters intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication. The opinions of correspondents are not necessarily those of the Review.

West Summerland, B.C., 27th January, 1920.

Editor, Summerland Review, Summerland, B.C.

I was very much interested in the letter which appeared in your last issue under the signature of P. Thornber.

At last our people are realizing that Pentiction will not help out Summerland when it comes to a matter of taking dollars away from their own home town. The fact that Summerland nobly supported their Chautauqua and many other of their amusements count for nothing with the majority of the people of that town.

They might well have supported the Sam Lewis Concert Company, not only for the benefit they would derive themselves, but because by so doing, they could return a very little of what Summerland has given them in the way of business, etc.

I might, however, point out to Mr. Thornber that there are people here in this district who have long ago realized the spirit of take all and give nothing in Pentiction, some of whom have invested money trying to put this district on an equal basis with the southern town, so far as entertainments go.

These promoters have for some time realized that they have not seen that spirit manifested at home, which Mr. Thornber decries as lacking on the part of the citizens of Pentiction. It is not too late surely for us to correct our ways and after all "let us remove the mote from our own eye" first.

Yours very truly, SCOTT DARKIS.

STORAGE OF ICE FOR SUMMER USE

(Bulletin, Dairy and Cold Storage Branch, Department of Agriculture)

The storage of a few blocks of ice for summer use is a very simple matter where the ice is readily available. Any unoccupied corner of a shed will serve for the purpose. A rough board enclosure 10 feet or thereabouts square and 8 feet high will hold enough ice to provide 50 pounds per day for 130 days, after allowing a reasonable amount amount for wastage. The smaller the quantity stored the larger the proportion of waste.

The bottom of the enclosure should be covered with about one foot of sawdust. If the soil underneath is impervious clay, it will be all the better if there is a few inches of gravel under the sawdust. In putting in the ice the boards can be taken away from one side and replaced after the ice is in position. A space of one foot should be left between the ice and the boards to be filled in with sawdust, and the ice should be covered with about the same thickness. It is the sawdust which keeps the ice from melting. The drier the sawdust is the better the ice will keep, and it is a good plan, as the ice is removed during the summer, to throw out from time to time the driest of the sawdust where it will be under cover and continue to dry out and thus be in better condition to be used again the following year. The ice should be cut in blocks of uniform size and packed as closely together as possible.

If it is necessary to erect a special ice house the roughest kind of a shed that will keep out the weather is all that is necessary. Poles may be driven into the ground and lined up on the inside with rough lumber, or slabs, leaving a space of about one-half inch between each of the boards, and the whole covered with a roof to keep out the rain. Of course, the ice house may be built with a regular frame, lined inside with rough lumber and, if a more finished appearance is desired, it can be covered on the outside with clapboards or other siding. There should be plenty of ventilation above the ice. The same procedure should be followed in storing the ice and covering it with sawdust as advised in the preceding paragraph.

If sawdust cannot be obtained

PATENTS PROMPTLY SECURED

In all countries. Ask for our INVENTOR'S ADVISORY, which will be sent free. MARION & MARION, 284 University St., Montreal.

planer mill shavings may be used for packing the ice, or, in cases where neither is available, hay may be used as a packing or covering material. Marsh or slough hay or any fine wild hay, which grows in low places gives the best results. If hay is used, the space around the ice or between the ice and the walls instead of being only one foot, should be at least two feet, into which the hay must be well packed. The ice should also be covered with about two feet of the hay.

HIS TEMPERATURE

One of the many good stories told by Sir Archibald Geikie concerns a country doctor who was attending a Scotch laird. As they had been unable to get a nurse, the doctor had instructed the butler in the art of taking and recording his master's temperature with a thermometer. On the doctor's arrival at the house one day he was met by the butler. "Well John," said the doctor, "I hope the laird's temperature is not any higher today." The butler looked very thoughtful for a moment, and then replied, "Weel, sir, I was just wondering that myself. Ye see, sir, he deed at twal' o'clock."

FORMING VALLEY LEAGUE FOR BASKETBALL

Ladies' and Gentlemen's Teams To Have Concurrent Games

A basketball league for the Okanagan, or rather two leagues, for ladies and gentlemen, was the outcome of a convention of representatives from Summerland, Kelowna and Pentiction, held at the last named town a few days ago. The three towns named will have teams in the field, the schedule for the various games being given below. The two leagues, of course, will have concurrent schedules. A good local team has been selected and frequent practices are to be held to get into good shape for carrying off the season's honors.

Dr. Wright of Kelowna has generously offered a cup for the winners of the men's league, and it is to be hoped that others will follow the example. The support of the public will also do much to encourage this new move, which promises to furnish a lot of healthy recreation.

The schedule is as follows, both ladies' and gentlemen's games being arranged for each date and place shown:

Table with 3 columns: Location, Date, Location. Rows: Kelowna Feb. 12...Mar. 11, Sum'land Mar. 4...Feb. 5, Pen'ton Feb. 19...Feb. 26.

Pulp and paper from Kootenay timber may soon be a new industry for the interior of British Columbia. It is one of the projects which Mr. W. A. Anstie, manager of the Forest Mills, Limited, has in outline plan for his present mission to London, where he has gone to interview his principals for the complete re-organization of the concern who are said to have the largest timber holdings by one company in the Kootenay country. There is a very large percentage of timber in the interior not suitable for anything else.

Do You Intend to Use Lumber or Other Building Material in the Near Future?

We believe some are holding off making alterations, extensions or doing any building, hoping for a general reduction in prices. In this they will be disappointed, we are now convinced. It is no use putting off. Lumber will be dearer instead of cheaper. If you have need for lumber or other building material, our advice is BUY NOW.

We have a new shipment of BEAVER BOARD. The price is a little higher, but much cheaper than lath and plaster.

## THE OKANAGAN

It is computed that the fruit and vegetable crop of the Okanagan district for last year was worth \$5,500,000, which is 35 per cent. over the value of the crop of the previous year. Crops other than fruit and vegetables bring the value of farm products up to \$6,000,000. We understand Mr. Winslow's figures to include only the goods shipped. Produce consumed in the district would be additional. It is doubtful if any other district in Canada sends out farm products to the same value per head of the population as the Okanagan district. The famous Niagara district cannot match it. At the present price of wheat there may be groups of grain growers in the prairie country who make larger sales of farm produce per family. One man with hired help in harvest time can farm an area which would keep scores of families busy in the Okanagan. But even with this allowance the Okanagan farmers can afford to invite a comparison.—The Province.

## ON FAIRER FOOTING

Several of the Summerland retail stores for years past have been putting a handicap on their business by quoting their goods at a "long" price in order that they might offer a substantial discount for prompt payment. This has had the effect of making all published and quoted prices appear high, as compared with net cash prices. The proprietors of five stores make a formal announcement in this number that henceforth their prices will be net. They are to be complimented on this progressive movement which we feel sure will be all to their advantage in that they will be able to quote their customers prices that will compare favorably with prices asked in other Okanagan towns.

## "30" On Dad Simpson.

The above is the characteristic heading given by its writer to a circular issued by F. E. Simpson, editor and manager of the Kamloops Standard-Sentinel, familiarly dubbed "Dad," announcing his retirement. For the enlightenment of the uninitiated it might be stated that "30" is the word appended to a news telegram indicating that the article or story is ended.

"Dad" has been suffering from failing eyesight for some months and has been advised to quit the desk, and we sincerely hope that the rest which he will thus be able to give his overworked eyes will quickly effect an improvement.

Journalism in this province is suffering a distinct loss by the retirement of "Dad" Simpson from its ranks. He has been in the newspaper game in British Columbia for many years, long enough to be able to retire with a good bank account had he put the same amount of intelligent and faithful effort in any other line of endeavor. We are sure though that he lays down his editorial pen with a feeling of satisfaction in that he has served his fellow man faithfully and well.

Below is the letter he has sent his fellow members in the B. C. Division of the Canadian Press Association in which he has held leading positions.

"Owing to the condition of my eyes, which have been growing worse for the past year, I am forced, much against my will and natural inclination, to relinquish for good, so far as I know now, newspaper work or go blind. I want to say a word of goodbye to the boys and an expression of regret over leaving the ranks. Many of you I have known for years, some for a shorter time, and a few of you only by your papers. I have never had an unkind word from any of you. I owe all of you the deepest debt of gratitude for your uniform courtesy and kindness to me. You have honored me in your editorial association; you have been more than good in your references to me during the twenty-two years that I have been in the business in the province. I want you to know that I am sincerely thankful to you for what you have done for me, and that I wish all of you the prosperity that is coming to you and the happiness that is your natural inheritance for the sacrifices you have made.

Sincerely yours,  
F. E. SIMPSON.

## BETTER SHIPPING FACILITIES

The Okanagan Valley will be benefited by the expenditure of a portion of a \$3,000,000 appropriation made by the C. P. R. for extension and improved facilities in this province. Mr. E. W. Beatty, K.C., president of the C. P. R., during a visit last week to Vancouver made the following statement with respect to the general subject of C. P. R. plans in B. C. this year.

"Appropriations for 1920 covering extensions and improvements in this province amount in the aggregate to the sum of \$3,000,000. Amongst the items of public interest is the continuation of the lining of Connaught tunnel, the reduc-

tion of grades between North Bend and Kamloops and the construction of a new roundhouse and shops at Cranbrook. We are commencing work on permanently filling the long trestle dock at Kootenay Landing and coaling plants will be constructed at Fernie and Yahk. There will be extensions to our mechanical facilities at Vancouver, Kamloops, Revelstoke and Field. We are building new tugs and barges for handling the fruit shipments on the Okanagan and Arrow Lakes and improvements will also be made to our car slip at Okanagan Landing."

## THE PITY OF IT

Sugar Bowl — Well, Coffee Cup, old fellow, dollar coffee and no sugar kinda puts us on the bum.

Hawker — Any old rags today sir?

Henpecked — No, no, my wife's away in the country.

Hawker — (rubbing his hands) — Ah! Any empty bottles?

## Synopsis of

## Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for such pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claim for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided application for such improvements to extent of \$300 per annum and records made each year. Failure to make improvements or record same will operate as forfeiture. This cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided residential improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 40 acres may be leased by one person or company.

Mill factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Robote of one-half of cost of road, not exceeding half of purchase price, is made.

**PRE-EMPTORS' FREE GRANTS ACT.**

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year from the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 30, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

**SUB-PURCHASERS OF CROWN LANDS.**

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

**GRAZING.**

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Comptroller.

Annual grazing permits issued based on numbers ranged; priority for established owners.

Form Announcements for range management. Free, or partial; fees, permits for settlers, campers or travellers, up to ten head.

## Pound Notice

A black gelding, weight about 1,150 lbs., with white strip on face, some white on under lip and white on inside of right foot, indistinct brand on right hip, has been impounded, and unless previously claimed will be sold at the Municipal Pound, in accordance with the provisions of the by-law governing stray animals.

JOHN DALE,  
Poundkeeper.

At forty a man knows that he didn't know what he thought he knew at twenty.

M. Steuart is on a brief business visit to Vancouver this week.

Mr. and Mrs. C. J. Duncan returned this morning from a visit to the Coast cities.

Muriel Bates, younger daughter of Rev. W. H. Bates and Mrs. Bates is making good recovery from a recent serious illness.

D. H. McIntosh, principal of the High School, continues making satisfactory progress toward recovery from his recent illness.

J. Corner is rapidly recovering from his accident of two or three weeks ago by which he nearly lost a finger.

Mrs. Stoodley, wife of Rev. J. Stoodley, was the subject of a major operation recently at Vancouver, from which she is making satisfactory recovery.

Fresh fish arriving daily with prompt delivery to the homes of his customers is the policy adopted by H. Calloway for his new fish market just opened in the T. B. Young building. Mr. Calloway's announcement appears on page 8.

The Young People's Society of St. Andrew's Church made up a jolly sleigh party of five large sleighs last night and after a delightful moonlight drive returned to St. Andrew's Hall, where lunch was enjoyed.

The Hospital Tea mentioned in these columns as having been held at the home of Mrs. Fenner netted \$10 for the Hospital. There was no fee, charged as was stated, a free-will offering being taken. Several who could not attend sent contributions.

Those who were privileged to attend the Rialto on Tuesday are enthusiastic over the remarkable picture, "The Unpardonable Sin," which was shown that night. It was a picture of the early days of the war, depicting something of its horrors and of the terrible sufferings endured by the Belgians.

Mrs. O. F. Zimmerman entertained at a dance in St. Stephen's Hall last Tuesday evening in honor of her guest, Miss Dennison. Between sixty and seventy friends were present and all had a most enjoyable evening. The music was excellent, the hall prettily decorated and every detail necessary to the success of such an occasion was carefully looked to.

Mr. Percy C. Tees engaged by the School Board to substitute for Principal McIntosh of the High School staff during the latter's illness arrived here last Saturday, and took charge of the work at the High School on Monday morning. Mr. Tees came here from Calgary, but is not a stranger to the Okanagan, being the owner of a fruit ranch at Peachland. He served overseas and received the commission of lieutenant.

Mrs. Thomas, a nurse of Vancouver, is here at the Pilkington home.

Mrs. Ian Brown is making good recovery from an operation at the Summerland Hospital.

Mr. C. D. Denton, of the High School staff, has resigned his position and expects to be relieved of his duties after this week.

Rev. H. A. Solly and Mrs. Solly went down to Vancouver on Wednesday to remain until after the convention of the Provincial Boards of Trade to be held in that city next week-end and at which Mr. Solly is to be a representative of the Summerland board.

Mr. and Mrs. Thos. Cowan and daughter arrived here Wednesday evening from Castor, Alberta, having sold out there with the intention of residing in Summerland. Mr. Cowan stated to The Review that when he left the prairie on Tuesday the thermometer registered 49° below. One can easily imagine his delight with climatic conditions as he finds them in Summerland.

The leading article in the February number of "Everywoman's World" is by Miss Kathryn C. McLeod, formerly lady principal of Okanagan College. Miss McLeod is a sister of Mrs. Grace McLeod Rogers, whose recent book "Joan at Halfway" is predicted by critics to be one of the best sellers of the year. Miss McLeod has recently been elected a member of the Canadian Women's Press Club.

A fire in one of the C. P. R. buildings at the wharf was the occasion of some excitement at noon today. About eleven o'clock one of the charcoal stoves used in heating refrigerator cars had been lighted preparatory to being put in a car in the afternoon. When Agent Sharpe returned to the wharf after lunch he found the old station building filled with smoke. Apparently the stove was defective and it had burned the plank floor on which it had been set.

Mr. C. A. Walter returned on Wednesday night from a visit to his home in Castor, Alberta. He has now come to take up permanent residence here and will be followed a little later by Mrs. Walter. He was delighted to get back to the salubrious climate of the South Okanagan. In conversation with The Review, Mr. Walter stated that he had been experiencing temperature ranging from 30 to 50 below.

Miss Stirrup, matron of Summerland Hospital, and her assistant Miss Moran both of whom lost practically all their personal effects in the Hospital fire, have asked the Review to publicly acknowledge, on their behalf, the receipt of cheques from the Summerland Basketball Club and also of a sum of money realized at a dance given recently by Mr. T. J. Garnett. The thoughtfulness and material assistance thus rendered are greatly appreciated by these members of the Hospital staff.

Mr. A. W. E. Fawkes has been confined to his home for several days with a severe cold.

Mr. C. W. Little of the O.U.G., was in Summerland this week, demonstrating the Hardie sprayer.

F. R. Gartrell returned Sunday from Vancouver where he has been for the past two or three weeks.

Supt. Helmer of the Summerland Experimental Station is attending the Provincial Seed Fair at Kamloops.

Ronald White has nearly recovered from his recent illness and hopes to be about again early next week.

The Major Gordon lot, purchased last spring by M. Steuart has been bought from him by D. Rutherford and W. Snow.

Mr. F. A. C. Wright, secretary of the Board of Trade, leaves Monday to attend the Board of Trade Convention at Vancouver.

Owing to slides in the Coquihalla Pass, the coast trains have been making the circuit via Spence's Bridge. It is expected that the Pass will be open again before the end of the week.

The Imperial Veterans' Association with offices in Vancouver, have under consideration the opening of an Okanagan branch, chiefly for the information and service of Imperial men now resident in the Valley and to insure a certain amount of protection of the interests of thousands who are coming from the Old Country.

Nearly \$10,000 was contributed by Summerland for war purposes through the Red Cross, the Home Comfort Club and Prisoners of War fund. The Municipal Clerk who had been instructed to obtain information advised the Council that the contributions through these organizations were as follows: Red Cross, \$5,079; Home Comfort Club, \$2,366; Prisoners of War Fund, \$1,094; total \$9,350.

BIRTHS.

A daughter was born to Mr. and Mrs. R. R. Jackson on Tuesday, January 20th, at the Summerland Hospital.

On Wednesday, January 28th, a daughter was born to Mr. and Mrs. Thos. Pilkington.

On Thursday, January 22nd, to Mr. and Mrs. Bert Bryant, a daughter.

On Tuesday, January 27th, to Mr. and Mrs. George Tada, a daughter.

PENTICTON, B.C.

**Peachland Doings**  
A Weekly Chronicle Furnished By Our Local Representative.

Willie Buchanan left on Wednesday last for the Coast where he is taking up a business course.

Mr. Oct. Pope came in on Wednesday of last week and spent a day in town attending to some business matters.

The 1920 School Board held its first meeting on Wednesday of last week. The attendance was incomplete owing to sickness of Trustee Taylor and lack of qualifications has caused a vacancy which will be filled by nominations being held this week.

Mr. Carveth Wells, the man who spent six years in jungle life in the Malay Peninsula, with his wife who had also spent a portion of that time in the jungle with him, visited Peachland on Thursday of last week and entertained a goodly gathering in the Orange Hall to quite a treat. First he gave a word picture of the trip from this country to the Peninsula. Then he used his lantern with the assistance of Mrs. Wells, and showed a beautiful and interesting collection of pictures taken by himself, of the people and animals both in ordinary life and in jungle life in the Peninsula. After this the dress of the country was shown by Mr. and Mrs. Wells, who with the assistance of a boy and girl from the audience depicted the costumes and methods of dressing and undressing in that portion of the tropics. The four dressed to represent a family dressed for the street. Mr. Wells was employed by the British Government in exploration work. He has a very pleasing manner, and spoke in language which made it very pleasing and instructive for the children.

Mr. Hill, who owns a piece of property up Trepannier Creek, was a visitor to town on Tuesday of last week.

With the quantity of ice which is being shipped to town these days, Peachlanders ought to be able to keep cool during the summer months coming soon. Messrs. Hendrickson, Fulton, Drake & Cudmore and Mrs. Clarence are stocking up in preparation for the hot weather. Mrs. Clarence has built a substantial ice house at the rear of the hotel.

Mr. John McDougald returned to town on Friday after a few days at Summerland.

A new two ton truck has been added to the equipment of the Peachland Livery.

After several weeks spent at his former home in Calgary, Lieut. Tees returned on Saturday evening last, much improved in health. He left for Summerland on Sunday having accepted temporarily a position on the teaching staff. He expected to commence his duties on Monday morning.

Mr. Arthur Day of Kelowna spent last weekend in town on business for the Kelowna Sawmill Co., who are getting some timber from this district.

After spending a week visiting friends in town, Mrs. Widen returned to Summerland on Saturday to continue her visit with her mother for a couple of weeks before returning to Alberta.

Mr. Cudmore left on Saturday's boat for Vancouver, where he expected to spend a couple of weeks before returning to his duties here.

Municipal Clerk Dryden has been indisposed for a few days as a result of a severe cold.

The second draw of the checker tournament which was to have been played on Friday night last was postponed. On Monday night last there were only four of the sets playing, which resulted as follows: John Brynson and R. A. F. Moore—Brynson 3 and Moore 1; C. Somerville and R. Walters—Somerville 3 and Walters 1; W. Dryden and H. Miller—Dryden 3 and Miller 1; C. C. McDougald and Mr. McDonald—McDougald 4. Quite a keen interest is being taken and the playing is good.

In passing through on the boat on Tuesday evening, one of our old pioneers, Mr. D. D. Lapsley, spent the few minutes the boat was at the dock in a chat with old friends.

Mr. McDowell, general manager of the Okanagan United Growers spent Tuesday evening with some of the representatives of the local Union.

Mrs. Wildy returned on Tuesday's boat after having been away for a few weeks, and was taken to her home at Squally Point by boat on Wednesday.

Owing to a lack of the required qualifications a vacancy was caused on both the Municipal Council and the School Board here for 1920. Nominations were called for on Wednesday last from 12 to 2 p.m., which resulted as follows: one nomination for Ward 2, Mr. George Keyes. One nomination for School Trustee, Mr. M. N. Morrison. These were elected by acclamation. The Council had not been able to finally appoint its committees, but will now be in a position to do so, and prepare for the year's work. Further particulars will probably be given in a later issue when the department committees have been appointed.

**UNITED FARMERS TO MEET AT CAPITAL**

The annual convention of the United Farmers of British Columbia has been called for February 23 and 24 at Victoria. The directors in charge of the arrangements are Geo. Clarke, Saanich; J. L. Fridham, Victoria; W. Paterson, Duncan; and A. H. Dougan, Cobble Hill.

While particulars of the program have yet to be received one of the topics to be discussed will be the proposed amalgamation of this body with the Farmers' Institutes. This proposal is meeting with the approval of the farmers generally, for it is thought that an organization such as this will mean a real progressive farmers' organization independent of government affiliation. It is thought in this way that the farmers can become a much stronger factor in the life of the province than they are at the present time.

The association now has a membership of considerably over one thousand, with locals in practically every section of British Columbia.

There are five Sundays in February of this year. The last time there were five Sundays in that month was in 1880.

**OKANAGAN DISTRICT.**  
Ferry, Summerland-Naramata, Okanagan Lake.

In accordance with chapter 85, R.S.B.C. 1911, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as Naramata, a distance of about two miles and three quarters.

Applications will be received up to 12 o'clock noon, Monday, 16th day of February, 1920.

The charter will cover a period expiring on the 31st March, 1921.

The ferry shall make two trips each way every day, weather permitting.

Applicants shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of "The Canada Shipping Act, 1906," and amending Act.

The following is the schedule of rates:—

- Autos, \$1.
- Single rigs, 75 cents; loaded \$1.
- Double rigs, \$1.25; loaded \$1.75.
- Passengers, 10 cents single.
- Passengers, 5 cents single (under 18).
- Settlers' tickets, fifteen for \$1.
- Horses, 50 cents; two or more, 40 cents each.
- Cattle, 40 cents; two or more, 30 cents each.
- Pigs, sheep, colt, calf, 30 cents; two or more, 25 cents each.
- Freight, per 100 lb., 10 cents; per ton, \$2.
- No charge for parcels under 25 lb.

To the successful applicant the Government of British Columbia will pay, at the expiration of every three months of satisfactory service, a grant in aid of operation of this ferry, and each applicant should state the amount of grant he is prepared to operate this ferry for.

The Government of British Columbia is not necessarily bound to accept the lowest or any application submitted.

(7) Lake Windermere, B.C. This little town is called after the Lake near it.

### The Famous Lake Windermere in B.C.

BY COURTESY OF C.P.R.

(1) There are trees on the banks of the Lake.  
(2) On the Banff-Windermere road.

Nestling in the heart of a two-hundred-mile-long valley between the Canadian Rockies and the Selkirk Mountains, Lake Windermere has attracted to its very beautiful shores a considerable settlement of ranchers, who by means of an excellent irrigation system, grow alfalfa, potatoes, smaller fruits and certain varieties of apple and cherry trees. There are several successful dairy farms, and the Valley is particularly well adapted for horse breeding. The wonderful scenery of the creeks and canyons leading up to the Great Selkirk tuffield is easily accessible from this Valley, and the number of tourists and Alpine climbers who make this their summer headquarters is steadily increasing. Already there is a small tourist hotel, and there is talk of a Tent City for the forthcoming summer, on the lines of the Tent Cities at Coronado Beach and other popular resorts in the United States. The water of the Lake which is ten miles long is of a uniform temperature of about 66 degrees, and there are excellent beaches beside the local golf course.

The Valley is served by the Kootenay Central Railway, connecting the main line of the C. P. R. at Golden, B.C., with the Crow's Nest branch at Colvill and Cranbrook. As the district is best known on account of the Lake, the names of several of the Stations are to be changed. "Achelmer" will now be known as "Lake Windermere"; "Environ" will be changed to "Columbia Lake," and "Dentrick" to "Lake Bank."

Under an agreement between the Federal Government and the B. C. Government, the Banff-Windermere Road now under construction will form part of the National Parks System, and will be completed by the Federal Government. This road will render accessible to motor cars some of the most spectacular scenery in the Canadian Rockies, and should bring many more tourists to one of the most delightful lake districts in Western Canada.

The regular saver finds inspiration in watching his balance grow.

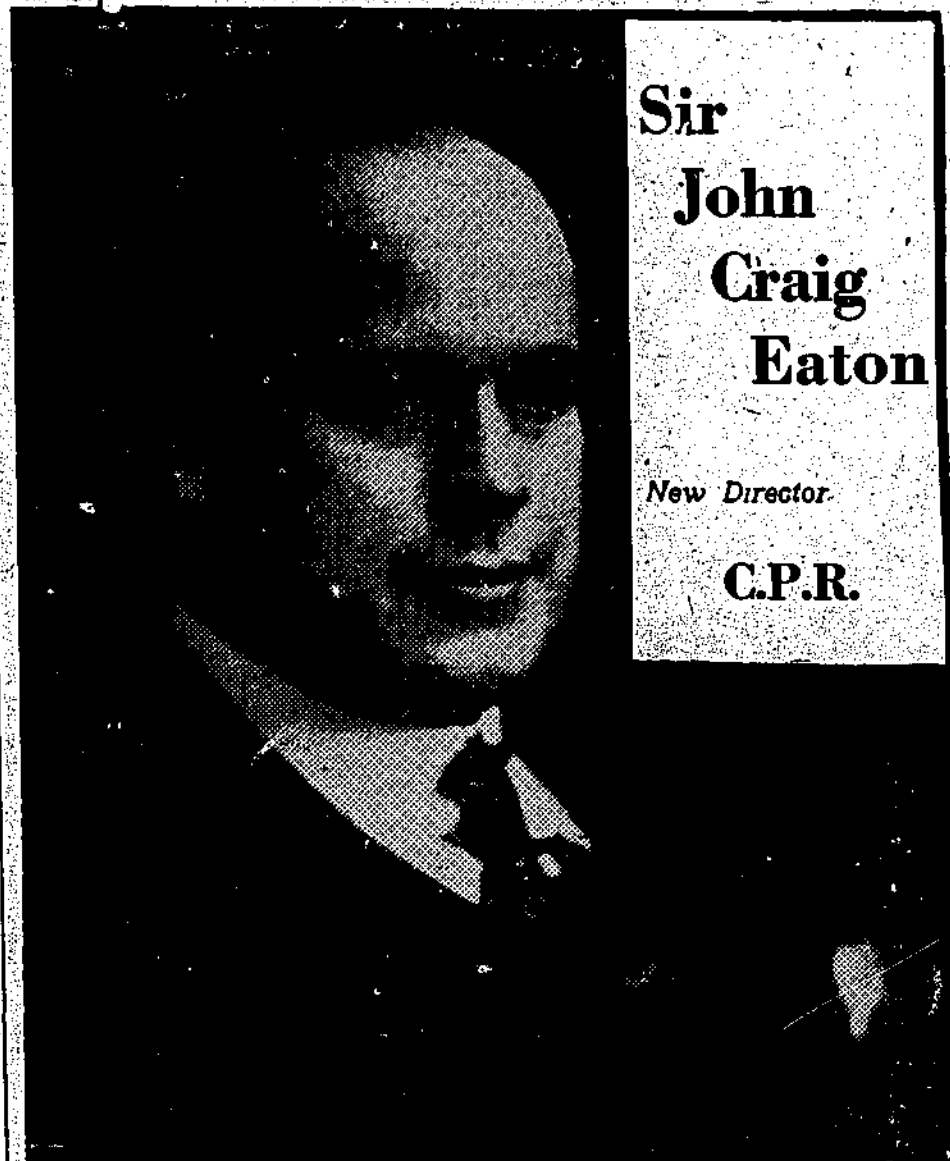

Interest allowed at 3% per annum added to the principal half yearly.

## THE DOMINION BANK

SUMMERLAND BRANCH,

O. F. ZIMMERMAN,

Manager.

Sir John Craig Eaton

New Director.

C.P.R.

Honorary Colonel Sir John Craig Eaton, K.B., whose appointment to the Canadian Pacific Railway Company's directorate has been just announced, is best known to the mass of the American public as president and dominant personality of the T. Eaton Co. Ltd. of Toronto and Winnipeg, the largest departmental institution of the Dominion, for which his father, the late Timothy Eaton, fifty years ago laid the foundation. In official circles Sir John is even better known as probably the foremost Canadian in civilian co-operation with the forces of government during the war period. And in the realm of trade he leads as an exponent of scientific organization, while at the same time recognizing the human equation in the labor factor.

Sir John was born in Toronto April 28, 1876, receiving his education in the public schools of his native city and Upper Canada College. He began his commercial career with his father's growing establishment, the business of which has more than doubled in volume under his administration, his individual foresight leading to the opening of the Western house at Winnipeg in 1905, and the Moncton, N.B., outpost this past season. In addition to being president of the T. Eaton Co., he is director of the Dominion Bank, the Canadian National Exhibition Association and Wellesley Hospital; a member of the Senate of Victoria College, Toronto; an honorary governor, trustee and member of the Finance Committee of the Toronto General Hospital; a member of the Toronto Board of Trade and of the Canadian Manufacturers' Association; also one of Canada's best known clubmen and sportsmen, with yachting, fishing and motoring as his favorite forms of recreation. Political honors, though proffered like Caesar's crown, he has time again refused.

Knighted June 3, 1915, he was incidentally the recipient on Sept. 19th, 1917 of the special decoration of the Navy League, this being an exceptional honor conferred on but twenty-eight persons in all the Empire within the past twenty years. In partial explanation it will be remembered that early in the war Sir John turned over to the Admiralty his fine private yacht, the Florence, which served on the Atlantic Coast patrol under the ensign until no longer required, in the late autumn of 1916. During the war period he also organized, equipped and sent overseas the Eaton Machine gun batteries; while over \$1,000,000 of his private fortune was expended in the maintenance of dependents of Eatonians at the front, the weekly payroll exceeding \$10,000. Two thousand six hundred and eighty-two voluntary recruits went from the T. Eaton Co.'s establishments to the war—a man-power little short of three complete battalions—this splendid body representing 39.25 per cent of the company's male employees. And while the men were fighting for flag and freedom, Sir John provided liberally for their families at home, this wage roll of patriotism exceeding \$2,000,000 in the ultimate total.

The inclusion of Sir John Eaton on the Canadian Pacific directorate gives that pioneer national transcontinental road not only another experienced business general capable of and accustomed to thinking and acting in large proportions. It also gives it a man who perhaps more than any other in the Dominion believes in the application of the Golden Rule to everyday affairs and has proven recognition of the human equation to be successful policy, in the operation of his own large concerns.

The Review Job Printing Department.

Try This When Using

Dripping in Cakes

Housewives frequently complain that cakes made with dripping usually taste of it. An exchange publishes a recipe to cure this, in a way which should be valuable in these days of high butter prices. Beat the dripping to a cream, and gradually add a teaspoon of vinegar, a drop at a time. This quite destroys the fatty flavor.

The Widow's Spite.

The Parson — "Mrs. Smithers seems to be very cross with me—didn't you notice she almost cut me?"

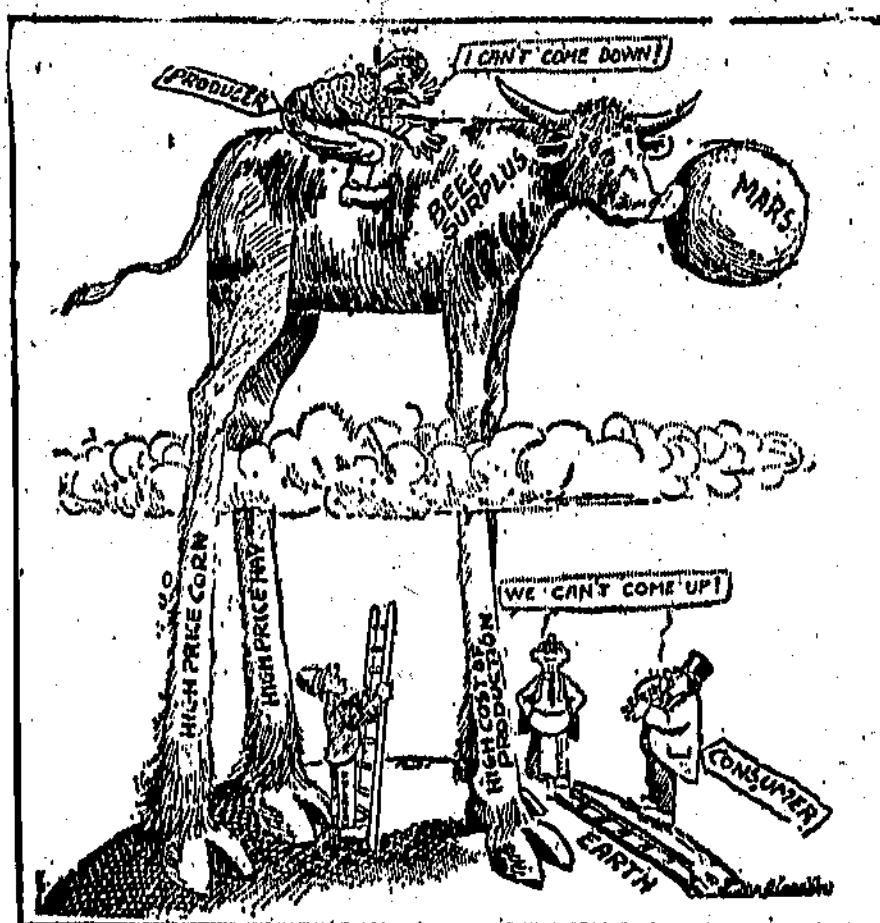

The Friend — "I'm not surprised."

The Parson — "But why?"

The Friend — "Don't you remember when you were preaching her husband's funeral sermon you said he had gone to a better home."

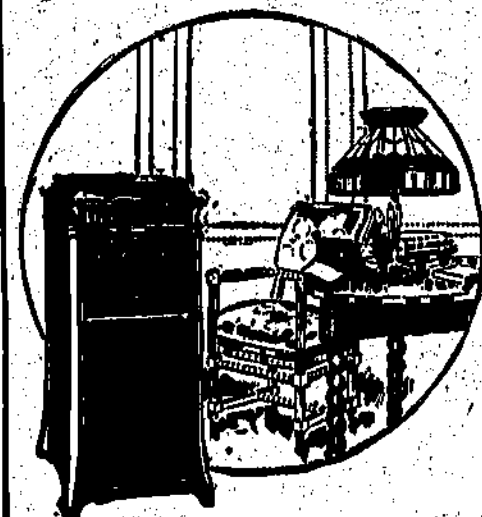

A man can't be as wise all the time as a woman is some of the time.

Yes, Alfred, a wife is called the better half because she usually gets the better of the other half.

Everything he ate went to his legs.

# Where Words End, Music Begins

Words, in themselves, are but poor interpreters of emotion. Where words end, music begins. Where words only suggest, music satisfies; it utters with a clear, vibrant voice what otherwise would remain unuttered.

Music will allow you to express your innermost thoughts and ideals.

innermost thoughts and ideals.

But how, you ask, can you create this music since you are no musician nor the master of any instrument?

# The NEW EDISON

"The Phonograph with a Soul"

has stored up in its magic discs the music of the world's greatest musicians—the soul-children of the music masters. And this music The New Edison will RE-CREATE for you, in your own home, exactly as you would hear it in the grand opera houses and the famous concert halls.

You should read the beautiful book "Edison and Music" and the booklet "What the Critics Say" containing evidence that proves Edison superiority. Ask for copies when you come to hear the New Edison.
