The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 13, No. 1, Whole No. 704

SUMMERLAND, B.C., FRIDAY, AUGUST 5, 1921.

\$2.50, Payable in Advance

STORED WATER NOW BEING USED

Flow of Trout Creek Fell Off Quickly.

MUCH WATER USED

System Has Delivered Record Volume of Essential Fruit.

Not before in the history of the district has the Summerland irrigation system carried anything like the volume of water that has been distributed this season. Up until a few days ago the flow has been ample, with the exception of a few small sections.

Not for years has the flow in Trout Creek been as large, but never before in the history of the district has it fallen off so quickly as it has this season. For some days growers have been using stored water which has been turned into the system at the earliest date known, and since that time the men in charge have been doing their utmost to conserve the water, and yet serve all.

One trouble of long standing has developed again this season, and the municipal authorities have decided to bring the issue to a head. This is the alleged wrong taking of water by residents of Upper Trout Creek. Foreman Tomlin has visited that section on several occasions, and each time finds large flumes carrying huge volumes of water.

This week Chairman Kirk, of the water committee, took accurate measurements and found the people there still drawing heavily on water to which they have no right. One man is said to have been pouring water on his 20 acres at the rate of 27 1-2 acre feet. These users have been informed that they are taking stored water to which they have no right, and that they must desist from so doing. The municipality has asked the district water engineer to come and adjust the matter.

IS OPTIMIST ON FRUIT MARKETING

C. L. Lowe After Business Trip East Says Fruit Will Sell Well.

Optimistic as to the disposal of this year's fruit crop, Chas. L. Lowe, sales manager of the Okanagan United Growers, Limited, returned on Wednesday from an extended business trip to the principal Canadian and American markets.

"There is every indication that we will be able to sell our fruit to advantage this season. Preserving fruits are going into consumption rapidly and as the different varieties come into season they will be taken by the different markets," said Mr. Lowe.

"As regards apples there is a short crop generally over the continent and while we may experience some slight delays with some varieties, I am convinced after studying conditions in the east, that there will be no difficulty in moving all the apples which we will pack," added the genial head of the sales department of the O.U.G.

Mr. Lowe gave it as his opinion that while prices would be lower than last season the returns to the growers would amount to about the same. —Vernon News.

IS AUTHORITY ON IRRIGATION

Dr. Widsow Will Give Address Here on This Important Subject.

Dr. Widsow, president of the University of Utah, and recognized as the highest authority on this continent on the subject of irrigation, is coming to Summerland within a few days, so he promised Superintendent Helmer, of the Experimental Station. When extending the invitation, Mr. Helmer asked Dr. Widsow to give the people of Summerland a talk on irrigation, to which he consented. This will be an exceptional opportunity and one which our people will not be slow to take advantage of.

The people of British Columbia paid out in exchange during 1920 an amount sufficient to have irrigated the whole of the interior fruit districts by means of hydro-electric power.

PATHOLOGIST IS COMING SOON

Permanently Stationed Here With Headquarters at Experimental Farm.

Fruit-growers of Summerland and the Okanagan generally will learn with much satisfaction that a plant pathologist has been appointed for this district. Mr. A. L. McLarty, of Toronto, who has been assistant to the plant pathologist at the Dominion Experimental Farms, Ottawa, and who is a graduate of Guelph has been appointed to the position, and will be stationed at the Dominion Experimental Farm here. He is expected to be ready to take up the work not later than Sept. 1st.

A two-storey building is now being erected at the farm for the use of the pathologist. The ground floor will be devoted to office and laboratories and the upper floor will be his residence.

It is expected that the pathologist will immediately take up the study of fire blight, mildew and collar rot. He will have grounds for breeding close beside the laboratory. This work, of course, will be done under wire screens.

The appointment of Mr. McLarty will result in relieving Prof. Eastham of the Okanagan, and enable him to give more of his time to the diseases of the wet districts of the Coast, and also the Kootenay, while Mr. McLarty will study the diseases of the dry belt.

KELOWNA HAS SERIOUS FIRE

Cannery and Fruit Products Plant Destroyed Sunday Night.

Fire Sunday night destroyed the Kelowna plant of the Dominion Cannery of B. C., Ltd., and the building and machinery of Shepherd's Fruit Products Co., doing damage estimated at over \$100,000. The boiler room and evaporating plant of the Dominion Cannery was saved through the heroic efforts of the Kelowna fire department and volunteers. The cause of the fire is at present unknown.

These buildings were located in the wholesale district opposite the packing houses of the Occidental and B. C. Growers Ltd. The latter buildings were within the danger zone and their staffs assisted the fire brigade, draped in wet sacks on account of the great heat. The Shepherd's Fruit Products Co. is a large American concern. It is not operating its plant this season, and the loss consisted of building and machinery only.

The Dominion Cannery had some of last year's pack in storage and also this season's cherry pack.

The alarm was given at 9 p.m. and by midnight nothing but the walls of the cannery and wrecked machinery remained.

A shortage of water retarded the efforts of the fire brigade, which, however, was credited with preventing great damage, which would have ensued had the flames spread to the surrounding buildings.

The loss of packing houses at this time of the year have been very serious in fruit growing districts.

HOSPITAL DONATIONS.

Donations received during July at the Hospital are listed below:

- Mrs. D. Thompson, peas and carrots; Mrs. C. Evans, lettuce; Mr. Hodge, cherries; Mrs. Solly, old linen; Mrs. Corner, pastry; Capt. Creese, vegetables, cherries, beans; Mr. T. Charity, lettuce, honey; Mrs. McIntyre, canned cherries; Mrs. Bristow, strawberries and cream; Mrs. T. Garnett, green vegetables, 7 qts. canned fruit; Mr. Reid, cherries; Mrs. Fisher, flowers; Mrs. Mellor, 4 qts. fruit; 4 qts. tomatoes; Mrs. T. P. Thorner, jar of jam; Mrs. Lipsett, cherries, peaches; Mrs. Hayes, 3 tray covers; Mrs. McIntyre, cherries; Capt. Creese lettuce and vegetables; Mrs. Gayton, magazines, 5 qt. jars canned fruit; Mrs. E. J. White, vegetables; Mr. Pollock, 2 crates red currants, tomatoes, apricots, lettuce and fruit; Mrs. Clouston, 1 crate raspberries, flowers, vegetables; Mrs. H. G. Fisher, flowers; Mrs. G. J. C. White, old linen; Major Tweedy, vegetables; Mrs. Angove, 2 qts. cherries; Mr. Walden, cucumbers and beans; Mrs. H. Smith, linen table cover; Mrs. R. V. Agur, cherries.

When you see an idle young man you see a needy old man in the making.

Annual Western Irrigation Convention Comes to Termination After Successful Three Day Gathering at Vernon

Lieutenant-Governor Nichol Welcomes Delegates From Prairie Provinces—Interesting Papers Read and Discussions Follow—Visitors Conducted Through Irrigation District.

ONE HUNDRED AND FIFTY DELEGATES PRESENT AT OPENING

Local Man on Program Gives Fine Points on Forage Crops—Assemblage Hear Utah State University President Talk—Frank Statements Made by Laidman, of Vernon Irrigation District—Officers Elected for Coming Year and Place for Next Meeting is Selected.

The annual convention of the Western Canada Irrigation Association, which closed a three-day session at Vernon on Saturday, was one of the most interesting and largest gatherings of its kind in the history of the association. One hundred and fifty delegates were in attendance at the opening session, which convened on Wednesday afternoon, when His Honor Lieut-Governor W. C. Nichol, following an invocation by Bishop Doull, welcomed the visiting delegates from the prairie provinces to British Columbia. In his remarks, the Lieutenant-Governor declared the Okanagan furnished a notable example of what irrigation will do. He was generous in his praise of work accomplished through past gatherings and pointed with enthusiasm to the contrasts which have followed application of scientific methods of irrigation, but stated there was much further good to come from such gatherings, as many problems were yet unsolved.

Mayor Costerton followed the Lieutenant-Governor with a brief address of welcome to the visitors, bidding them to "feel right at home."

J. A. McKelvie, M.P., followed with an able and interesting address, advocating government ownership of irrigation facilities, quoting a volume of figures supporting his contention that under government ownership more than half the cost of such a plan would be met by increased revenue, and the water users would be paying but half the present rates. Mr. McKelvie brought out many interesting points in his discourse. He contended that under government finance and ownership of reservoirs and ditches greater strides would come towards the development of the province and besides supplying the needs of the present in a better manner, would be an inducement for thousands to locate here. He declared the population of British Columbia would increase by leaps and bounds under such facilities for financing irrigation.

William Pierce followed with an interesting talk. Mr. Pierce has been connected with irrigation problems in the prairie provinces for nearly 40 years and his address was along practical lines.

Professor F. A. Wyatt, of the University of Alberta, gave a highly important paper on "The Action of Water on Soils." In his discourse, Professor Wyatt brought to the attention of the assembly many points, more or less of a technical nature, but brimming over with information worth while. He stated that water dissolved many materials in the soil, such as leaching out of salts and admomished the Okanagan valley irrigators to watch carefully, as it was his opinion that the soil here was apt to be deficient in nitrogen. The kind of water used should be studied to see what soil interaction was caused. He said that water could not be expected to carry sufficient potash or nitrogen to supply soil deficiencies, and pointed out that the water used should be that sufficient to cause the least degree of leaching. Prof. Wyatt also emphasized the necessity for cultivation subsequent to irrigation if continuous high yields are to be maintained.

Mr. W. F. Laidman, a trustee of the Vernon Irrigation district, gave a paper on "Some Irrigation District Problems," full of frank statements and helpful suggestions. In his opinion irrigation had been held back in B.C. because private capital had not been available when needed. It was not until 1919 that money from a government conservation fund became available. The speaker advanced the theory, in common with Mr. MacKelvie, that the government should own the watersheds and install the reservoirs.

He described the government of

water improvement districts and the duties of the board and officials as laid down in the Act. One of the difficulties with the private companies in the old days, he said, was that they could not force landowners to pay for water. In other words, if an owner did not want irrigation water he did not need to take it or pay for its cost. This was now changed. All irrigable land covered by a water district was subject to water tolls.

He favored the compulsory publishing of notices of a water district, and was against an election of trustees by wards. Qualifications which should be found somewhere on the personnel of a board were knowledge, construction ability, engineering, legal knowledge and organization. He opposed any suggestion that the trustees be merely nominal, with the manager as the real "boss."

Discussing the grading of lands for assessment, he drew the attention of the audience to the fact that the question of land values did not arise in this connection. The assessing was done from the standpoint of irrigating possibilities. Productivity should not be taken into account, considered the speaker.

One of the problems was that of exempting land which would not be improved by irrigation, such as bottom lands. On the other hand, would these lands not have required irrigation themselves but for the fact of irrigation above, which thus gave them sub-irrigation?

In many ways Mr. Laidman's paper was of help and brought out vital points which gave rise to much discussion.

Thursday's Session.

The morning session, Thursday, was given over to discussion, and several spirited tilts are reported. After Mr. Pearce read his paper (Continued on Page 4)

C.P.R. BOAT AND TRAIN SERVICE

Supt. McNabb Promises Adequate Sunday Train Transportation.

Mr. T. C. McNabb, superintendent, C.P.R., Revelstoke, has replied to the request made by the boards of trade of the Okanagan for a Sunday boat service during the fruit shipping season. He states in his letter that there has always been "more or less" of a boat service on Sundays, and for this reason he thinks he can promise that there will be a Sunday tug service, whenever required, and that the S.S. Okanagan will take care of express shipments on that day. There is also a programme outlined for a freight service out of and into the Okanagan on Sunday, but he could not see that there is any apparent necessity for a passenger train or passenger boat.

CALGARY HAS FINE TOURIST CAMP SITE

Calgary, Alta.—For the convenience of motoring tourists to the city an island in the Bow River, close to the heart of the city, has been turned into a motor camp, where cars may be parked indefinitely or a permanent camping indulged in. Stoves for cooking, tables, benches and adequate sanitary arrangements have been provided whilst the island having an air of seclusion and is ideal for a temporary camp.

EMIGRATION SHOWS HEALTHY AGGREGATE

Ottawa, Ont.—The arrivals of farmers, farm laborers and domestics for the spring months make a healthy aggregate. In March, April and May there were 10,405 arrivals of these classes at ocean ports, of whom 6,671 were males. For the same period from the United States there were 6,458 arrivals, 4,000 being of the male sex.

Bad Roads Are Costing Motorists Millions

The value of good roads to the motorist has been figured out in dollars and cents, in "Public Works." The saving that could be effected in Canada can be imagined from the figures this magazine gives in connection with highway traffic in Iowa.

"In that state," says the writer, "it is estimated that there are now about 430,000 automobiles and automobile trucks that have an average mileage of 5,000 for their tires, and the present mileage could be increased to 12,000 if the roads were well paved. With tires at \$20 each, there would be a saving of more than \$17,000,000 a year on tires alone."

"One-third of the present amount of gasoline would be saved on good roads and assuming this to be only one-third of a gallon a day for each automobile, it would amount to \$10,000,000 a year. The saving on repairs and upkeep of cars would reach nearly \$7,000,000 more which, with the additional sum derived from the auto tax, is sufficient to build three roads across the full width of the state at a cost of \$40,000 a mile."

ESTIMATES ARE STILL GOING UP

Every Day Sees Increase in Probable Yakima Fruit Crop.

Yakima, Wash.—Present estimates on the 1921 fruit crop are going up every day that the season advances, apples now being estimated at 12,500 cars for the entire Yakima Valley, peaches at 1,600, and peaches at 900, a total of 15,000 cars for these three crops alone. By July 15 summer apples, early peaches, nectarines, prunes and apricots and plums had started moving, everything being ten days earlier than in 1920. A final check on the 1920 apple shipments show 9,600 cars, making 7,267,500 boxes.

Now Fourth City.

Vancouver.—According to a directory census, recently compiled, the population of Greater Vancouver is estimated at 222,618, exclusive of Orientals, who are said to number at least 15,000. The estimated increase during the year past is slightly over 20,000. This ranks the Pacific city as the fourth of the Dominion.

Many Tourists.

Victoria, B.C.—An indication of the enormous tourist traffic which annually visits British Columbia from the Pacific Coast States is the announcement made by U. S. Consul-General Frederick M. Ryder that over 250,000 visited this province in 1920.

GOOD DEMAND FOR B. C. APPLES

Opening Prices Are Fifty Cents Per Box Less Than Last Year.

Apple prices will be lower this year than they were a year ago. This is indicated by the prices now being quoted by a number of Okanagan shippers. Opening quotations are 50 cents per box less than they were at this time last year on No. 1 McIntosh Reds with other grades and less popular varieties ranging downwards.

It is said that the lower cost of boxes paper and nails, together with the general decline in other commodities, including labor, are the factors responsible for the drop in price.

Prairie consumers who buy the majority of the apples grown in British Columbia are fortunate this year in having such a good supply to draw from. British Columbia will gather one of the best crops the orchards ever produced within the next few weeks. Over the continent, however, there is a short apple crop, according to the latest report of the United States department of agriculture. The apple crop of the United States this year is 69 per cent. of the ten-year average and 50 per cent. less than last year; in addition, it is pointed out, than Ontario has a short crop this season, which will mean perhaps greater demands on British Columbia than in any previous year.

UNIQUE SERVICE HELD BY GIRLS

Outcome of Season Spent in Camp by C. G. I. T.

A unique and interesting service was held Sunday evening in the Naramata church, when the girls who had attended the C. G. I. T. camp at Wood's Lake gave a report of their outing. The girls took full charge of the service, which was of an inspiring nature, the singing of the C. G. I. T. hymns being particularly good.

Miss Alice Myers presided, and the opening prayer was offered by Miss Kathie Hancock. The president gave a fifteen minute address on the work achieved at the camp. This was followed by a one-minute talk by each of the delegates, telling what part of the camp life had been most helpful to her. Miss Gwyn Amaron closed the service with prayer.

After the president's address the following hymn, which was written specially for the Canadian Girls in Training, was sung:

Now we unite to pledge a new allegiance
To Christ the Lord and Master of us all,
We would be like Him, so we seek His leading;
Gladly we answer to His tender call.

We would increase in wisdom and in stature,
Growing like Him, in love with God and man;
Seeking the best in all His world around us,
Making our lives as perfect as we can.

We would be strong, for life is all before us,
Nothing can daunt us, guided by His hand;
Eager to serve, we seek to follow Jesus,
Giving our best for God and for our land.

INCREASING OUTPUT OF COALMONT MINE.

The equipment at the Coalmont colliery, west of Princeton, has been thoroughly overhauled and put into good shape since the fire in the early part of the year, and the colliery is again shipping coal to the coast. The new 1 5-8 inch cable on the aerial tramway, being much heavier than the old one, has necessitated the erection of some new towers and the reinforcing of others, consequently the tramway is capable of handling a much larger quantity of coal. The coal is of good quality, the seams are large and easily worked, and the demand for the output is said to be considerably greater than the present capacity of the colliery. The development work of the next few months, however, will greatly increase the colliery's capacity.

Canada has more than 30,000 miles of railroad.

LOSS MUCH LESS THAN FEARED

Damage by Hail May Total Fifty Thousand Dollars.

FIVE PER CENT.

Is Estimate of Shrinkage of Output of Fruit and Vegetables.

That the recent hailstorm affected 80,000 acres, is the decision reached after investigation by Inspector John Tait. In this area there were many acres only very slightly touched, Mr. Tait informed The Review.

Asked as to the damage done, Mr. Tait said that probably 90,000 boxes of apples were affected, about 75,000 boxes being reduced from No. 1 to lower grades. Peaches were marked and the result was yet uncertain, but the damage to much of this crop would be insignificant. Cots were being disposed of, the injured spots having dried out.

Mr. Tait described the outlook immediately following the storm as ten times blacker than it is today.

When asked to state the damage done in dollars and cents, Mr. Tait replied that he had not figured values, but after some thought, he believed that The Review's estimate of \$50,000 loss as a result of destruction of early vegetables, and the lowering of fruit grades would be a fairly accurate one.

On the basis of one million dollars, which seems to be a conservative estimate of the prospective output of the district, the loss, if these figures are approximately correct, will be 5 per cent. of the anticipated total.

EMPTY CARS TO BE TREATED

Plan of Fumigation to Protect Orchards From Infection.

A meeting took place between Messrs A. Sturrock, assistant superintendent Motor Power, T. Acheson, agricultural representative, both of the Canadian Pacific Railway Co., and Messrs Arthur Gibson, Dominion Entomologist, A. F. Barrs and R. C. Treherne in the C.P.R. head-quarter offices at Winnipeg recently.

The matter under discussion related to the subject of treating empty foreign fruit refrigerator cars with steam to offset the introduction of codling moth into the fruit raising sections of British Columbia. Mr. Treherne had previously received the sanction of Mr. F. W. Peters, general superintendent, Vancouver, to further the matter in the manner above recorded. Substantial progress was made and the matter is believed to have been started definitely on the road which will spell success or failure to the principle under consideration. The master mechanic of the C. P. R., has now taken the matter in hand and the fruit growers of the province may reasonably expect a definite opinion in the near future.

Since the above meeting was held Mr. R. C. Treherne has been successful in getting the C.P.R., to carry out experiments to determine the cost of steam heating refrigerator cars and the effect of the steam on the insulation of the cars. In discussing the matter with Mr. Treherne, one of the C.P.R. officials stated that the railway company is naturally very interested in preserving the fruit industry in British Columbia, and that they earnestly desire to cooperate with the Department in their efforts to safeguard the orchards from the codling moth or any other pest. With this in view, the railway is willing when foreign cars come (Continued on Page 5)

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

Max. Min. Rain Wind S.S.

| | | | | |
|---------|----|----|-------|------|
| July 27 | 88 | 58 | | 10.4 |
| July 28 | 81 | 56 | | 13.1 |
| July 29 | 82 | 58 | | 14.3 |
| July 30 | 85 | 56 | | 10.9 |
| July 31 | 89 | 66 | | 13.6 |
| Aug. 1 | 92 | 62 | | 12.7 |
| Aug. 2 | 85 | 61 | | 13.1 |

APPLE SHOW PRIZE LIST WILL BE READY FOR DISTRIBUTION FIRST OF NEXT WEEK

Following is the prize list prepared for the Summerland Agricultural Association Apple Show, which will be held in Ellison Hall, Summerland, Wednesday and Thursday, November 2nd and 3rd. The officers and directors have given much time and study to the preparation of the list this year, and it will be found to compare very favorably with those published in other localities.

RULES AND REGULATIONS

- Entrance Fees:** Membership is \$2.00 annually, and there is no entry fee to paid-up members. To All Others entry fee is 50 per cent. of the first prize money.
- All Entries** must be made to the Secretary two clear days before the opening of the Exhibition.
- In all classes entries must be made in the names of the producers or manufacturers only, and by such producers in person or their agent duly authorized. Any person making entries as an agent for more than one producer or manufacturer must pay the entrance fee for each of such parties.
- On the entry of each exhibit a card will be furnished the exhibitor, specifying the class, division, and number of entry, which card must remain attached to the exhibit during the exhibition.
- Though the Directors will take reasonable precautions to ensure the safety of exhibits sent to the Show, they wish it to be distinctly understood that the owners themselves must take the risk of exhibiting them, and should any exhibit be accidentally injured, lost or stolen, the Directors will give all the assistance in their power towards the recovery of same, but will not make any payment for the value thereof.
- Exhibits will be received at the Hall up to nine o'clock p.m. of the day previous to the opening of the Exhibition. Exception will be made for Bread and Dairy Produce, which will be received up to 10 a.m. of the first day.
- The judges will be appointed by the Board, and will receive notification and invitation to act.
- The judges will report to the Secretary on the grounds.
- No person shall act as a judge in any class in which he or she is an exhibitor. It shall be the duty of the judges, before leaving the grounds or town, to ascertain from the Secretary whether any protests have been filed against their awards in any classes they have judged, in order that explanations may be duly presented to the Board.
- In addition to the stated premiums for exhibits enumerated in the Prize List, the Judges shall have power to recommend diplomas as they may consider worthy.
- No person will be allowed to enter for competition more than one specimen in any one class of a division, unless the additional article be of a distinct named variety or pattern from the first.
- In the Fine Arts and Mechanical Department, diplomas will be awarded in addition to the money prizes to any specimen evincing great skill in its production or deemed otherwise worthy of such a distinction, on its being recommended by the Judges and approved by the Committee, to whom all such matters shall be referred.
- The first day of the exhibition will be set apart for awarding premiums in all divisions.
- Exhibitors may be required by the Directors to make a statutory declaration that the articles exhibited by them are exhibited in accordance with the Rules and Regulations of the Association. In case of any exhibitor refusing to make such declaration on being requested to do so, all premiums shall be forfeited.
- All one and two box exhibits must be packed on the property of the exhibitor.
- All box exhibits must be packed in the commercial apple box, 18 x 11 1/2 x 10 1/2.
- Apples of plate exhibits will become the property of the Association. Those apples not required for exhibition by the Department of Agriculture will be donated to the Hospital.
- No exhibits will be allowed to be removed before 6 o'clock of the final day of the Exhibition. If this rule is broken prize money will be withheld.

PRIZE LIST

FRUITS, VEGETABLES, ETC.

BOX EXHIBITS

All apples must be wrapped, except face layers which may be polished.

CLASS I.

Summerland District Exhibits.

Best display of Fruits, Vegetables, Cereals, Field Crops, Dairy Produce, Eggs and Honey in space allotted.

1st, \$50 and Silver Cup; 2nd, \$30 and Silver Medal; 3rd, \$15 and Bronze Medal.

CLASS II.

Best Packed 10 Boxes Winter Apples. This exhibit to have not less than three varieties. Quality to score on points.

1st, \$25; 2nd, \$15; 3rd, \$5.

CLASS III.

Best 3 Boxes Winter Apples, any one or any three varieties, all varieties to count equal. Packing to be done by the grower or one of the family not a professional packer. By this is meant one who does not pack for a living. All apples must be grown on the property of the exhibitor. Packing to count 50 per cent. of points.

Prizes donated by Superintendent R. H. Helmer and men on the Experimental Station, Summerland.

1st, \$15; 2nd, \$10; 3rd, \$5.

NOTE.—In above 3 Classes three entries or no second prize; four entries or no third prize. Class II. open to all packing houses and fruit growers in the Valley. Rule 3 does not apply to Classes I. and II.

Summerland is divided into six districts. Find out what district you are in, and assist the district committee by supplying produce to make your district display worth while.

CLASS IV.

| | Prizes |
|--------------------------------|----------|
| 1 Best 2 boxes Delicious | \$10 \$5 |
| 2 Best 2 boxes Grimes Golden | 10 5 |
| 3 Best 2 boxes Jonathan | 10 5 |
| 4 Best 2 boxes McIntosh Red | 10 5 |
| 5 Best 2 boxes Northern Spy | 10 5 |
| 6 Best 2 boxes Rome Beauty | 10 5 |
| 7 Best 2 boxes Spitzenburg | 10 5 |
| 8 Best 2 boxes Wagner | 10 5 |
| 9 Best 2 boxes Winesap | 10 5 |
| 10 Best 2 boxes Winter Banana | 10 5 |
| 11 Best 2 boxes Yellow Newtown | 10 5 |

CLASS V.

| | Prizes |
|-----------------------------------|------------|
| 1 Best 1 box Cox's Orange Pippin | \$5 \$2.50 |
| 2 Best 1 box Baldwin | 5 2.50 |
| 3 Best 1 box Gravenstein | 5 2.50 |
| 4 Best 1 box Hubbardson's Nonsuch | 5 2.50 |
| 5 Best 1 box King | 5 2.50 |
| 6 Best 1 box R. I. Greening | 5 2.50 |
| 7 Best 1 box Wealthy | 5 2.50 |
| 8 Best, 1 box Ben Davis | 5 2.50 |
| 9 Best 1 box Gano | 5 2.50 |
| 10 Best-1 box Salome | 5 2.50 |
| 11 Best 1 box Snow | 5 2.50 |
| 12 Best 1 box Stayman | 5 2.50 |

Plate Exhibits, (5 apples to plate).

CLASS VI.

| | Prizes |
|------------------------------|------------|
| 1 Best plate Delicious | 1.50 1 .50 |
| 2 Best plate Grimes Golden | 1.50 1 .50 |
| 3 Best plate Jonathan | 1.50 1 .50 |
| 4 Best plate McIntosh Red | 1.50 1 .50 |
| 5 Best plate Rome Beauty | 1.50 1 .50 |
| 6 Best plate Northern Spy | 1.50 1 .50 |
| 7 Best plate Spitzenburg | 1.50 1 .50 |
| 8 Best plate Wagner | 1.50 1 .50 |
| 9 Best plate Winesap | 1.50 1 .50 |
| 10 Best plate Winter Banana | 1.50 1 .50 |
| 11 Best plate Yellow Newtown | 1.50 1 .50 |

CLASS VI.a

- Best 3 plates of Apples, any variety.
- Special prize of \$10, donated by J. W. Jones, M.L.A., Kelowna, B.C.
- Special Prize—Silver Cup for most first prizes won in Box Apples.
- Special Prize—Silver Medal for most first prizes won in Plate Apples.
- Special Prize—Five Dollars in Nursery Stock for Best 2 boxes Jonathan. Donated by R. Layritz, Victoria, B.C.

CLASS VII.

Plate Exhibits—Any other variety than in Class VI. Each variety to compete separately.

1st, 75c; 2nd, 50c.

CLASS VIII.

Best Box Pears—Flemish Beauty, Beurre de Bosc, Winter Nellis, Comice, Louise Bonne de Jersey, Clairgeau, Beurre de Anjou.

1st, \$4; 2nd, \$2.

CLASS IX.

Best Plate Pears—Varieties as in Class VIII. Conditions and Prizes as in Class VII.

CLASS X.

| | Prizes |
|-------------------------|---------|
| Best Plate of 5 Quinces | .75 .50 |

CLASS XI.

| | |
|----------------------------------------------|------------|
| Best 3 Bunches of Grapes, (American variety) | \$1.50 .75 |
| Best 3 Bunches of Grapes, (European variety) | 2 \$1 |

CLASS XII.

| | |
|-------------------------------------------|---------|
| Best Display of Honey, extracted and comb | \$5 \$3 |
|-------------------------------------------|---------|

FIELD PRODUCE

CLASS XIII.

| | Prizes |
|--------------------------------|---------|
| 1 Best 5 Cantaloupes | \$1 .50 |
| 2 Best 2 Watermelons | 1 .50 |
| 3 Best-2 Vegetable Marrows | 1 .50 |
| 4 Best 2 Pumpkins | 1 .50 |
| 5 Best 2 Hubbard Squash | 1 .50 |
| 6 Best 2 Citron | 1 .50 |
| 7 Best 5 Tomatoes | 1 .50 |
| 8 Best 5 Peppers | 1 .50 |

SAYS JOBBERS AND GROWERS HAVE DIFFERENT VIEWS

In Markets Bulletin, published at Calgary by the B.C. Department of Agriculture during the fruit shipping season, the following remarks appear:

Growers and shippers think their wares cheap at any price. Jobbers think them dear at any price. Their interests in this respect are diametrically opposite. Shippers sending produce on consignment, leaving the selling price to the jobber is alone to blame for losing control of price setting by the growers.

The jobbers have different viewpoints too, some are large handlers and some small. The large jobbers organize in pools and try to shut out the small jobber from participating in carlots. The small jobber lives principally by underselling the big jobber. Most of the small jobbers

advise growers to ship to them on consignment, and as they do not buy their goods, but get them on trust, can undersell the large jobber who buys his supplies. For this reason the big jobber who buys on the f.o.b. basis has no use for the small jobber.

We notice that when a big jobber can get supplies of goods on consignment and proceeds to imitate the small jobber in a cut rate, that the organized pool in which he may be a leading member, does not throw him out, as they would do the small jobber.

American goods are seldom sent to the Canadian market on consignment. Eastern Canada is very similar in this respect. British Columbia is where the consignments come from. Organization is trying to prevent consignment so that producers can make a living. Jobbers who profit by consignment are not in favor of growers' organizations.

What is a Recommendation Worth?

That depends very much upon who gives it. For instance, we recommend Ames Holden "Auto-Shoes" as the cheapest mileage you can buy.

And we know a lot about tires. We have to in our business.

Hence our recommendation should carry some weight, apart from the fact that we are benefiting to some extent by your custom.

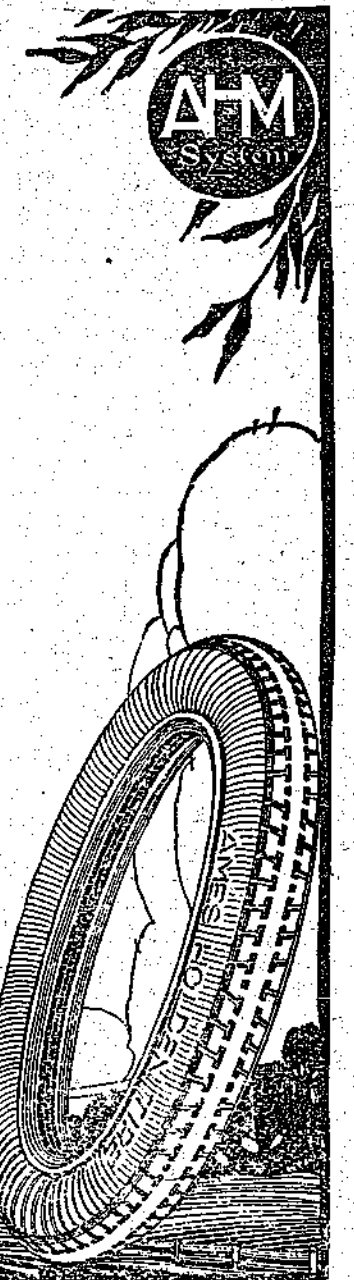

We know that if you buy once, you will buy again—because you will find that our recommendation saves you money on mileage.

We will give you a guarantee with Ames Holden "Auto-Shoes" too—a guarantee that protects you against any defect in material or workmanship which may arise at any time in the life of the tire. And we will get you an adjustment on that basis should necessity arise, without quibble or red-tape. Drop in and let us show you Ames Holden "Auto-Shoes" to-day if you can.

Retarding Fruit Trees.

In some European countries, fruit growers have tried to produce fruit at a time of the year different from the normal crop season, from trees grown in the open. It would be of advantage to obtain late crops of certain fruits, as prices then would tend to be much dearer than earlier in the season.

In 1919, an experiment was tried in France that showed how to obtain cherries late in the season. Following the use of choline, the growth of a cherry tree in the open was affected by the vapor and stopped. In September one part of the tree flowered and in October another part. The September flowers yielded fruit about the end of October. This experiment shows that by the proper use of an asphyxiating gas, the growth of a tree in the open can be arrested and fruit be obtained later than the normal season.

Many large orders for British Columbia lumber are being received from the United States at present.

NEW OLDS FOUR

The Car That Is Taking America By Storm

It has come to our ears that another car dealer is advertising quite generally the fact that this New Olds car is a Baby Grand camouflaged and sold at a higher price. We will admit that the engines of these two cars are similar but contend that any price difference is amply justified by construction value. This we are willing and anxious to prove. Both cars are manufactured by the General Motors, and prices naturally regulated by value. Our best boosters are the owners, ask one, he will tell you he is delighted.

HOTEL SUMMERLAND

The Hotel on the Lakeside

Dining Room Open From 5.30 to 7 p.m.

C. B. McCALLUM, Manager

Boy Scout Column

1st SUMMERLAND TROOP B. P. SCOUTS
Headquarters, The Gymnasium.
Scoutmaster O. F. Zimmerman
Meets every Friday evening at 7.30 p.m.

Tonight the program decided upon is a game known as "Hunt the Scoutmaster." Each patrol leader has been given a map in a sealed envelope with directions to call his boys together at a certain place. At the time given the leader will open his envelope and then pick out his course from the enclosed map. The patrol first finding the S. M. will be adjudged winner. Each patrol will follow a different route as outlined by

the rough sketch map, so that there will be ample opportunity for showing knowledge of the surrounding country.

Last Friday the paper chase was in all respects better than the previous one. Being better organized, the hounds managed to stick to the right trail and landed in with five minutes to spare. After all the hounds were in a route march under A. S. M. Mack followed, after which the scouts were dismissed.

Tuesday night showed the largest turn-out this summer, when King's Scout and first-class badges were awarded. Another order of some 50 proficiency badges has arrived and will be presented tonight. All those wishing badges ordered must hand in the amount at next meeting so as to be included in Saturday's order.

Mr. S. A. McDonald has kindly accepted the position of hon. secy-treas. and will take over the work shortly.

We are glad to note the success of Scout John Meredith, of St. Paul's

Troop, Vancouver, in the recent entrance examinations, winning the bronze medal. John is one of the keenest scouts in the troop, although as yet only 13 years old, and we wish him continued success.

CUB NEWS.

Seventeen boys turned out Tuesday night to form the nucleus of the Summerland Wolf Cub Pack, and were initiated into the first steps by Cubmaster Sharp. From now on the Cubs will meet on Tuesday evenings at 7 o'clock, being dismissed at 8 o'clock, so that the boys will not be out late. A monthly fee of 25c will be imposed to cover the cost of pack registers, etc. At present a uniform will not be insisted on, but it was decided that each cub purchase a cap and neckerchief.

The official uniform is a blue cap with gold cord, red handkerchief, green sweater and shorts. Any other boy intending to join would do well to attend Tuesday as as soon as the required number is obtained enrollment will cease, as the pack will start right away on its work.

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Friday by THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

FRIDAY, AUGUST 5, 1921

"GROWN" VS. "MADE."

A glance at the commercial page of any of the Vancouver papers gives one seriously to think Made in B.C. campaigns will never have a real and permanent result till stories such as one can read any day in commercial records are no longer published. One paragraph in the Water Street report of Saturday says: "The first pears from the upper country arrived this morning and sold readily at \$2.50 per box. Bartlett's from the south (mark you) were moving easily at \$6 and \$6.50 a box." "A car of Crawford peaches, Bartlett pears and a variety of plums rolled in from the south during the night. The peaches are selling at \$3 and the plums from \$3 to \$3.50." "Another straight car of Imperial Valley (Calif.) cantaloupes was distributed." "Cars of apricots, apples and plums are due to arrive from Wenatchee on Monday and a car of Idaho plums is due to arrive early in the week."

This sort of reading makes sore the heart of the man who has invested his all in a British Columbia fruit farm and then finds that he must let his fruit rot on the ground or sell it to a cannery at a price which hardly pays the picking charges. Why is it that the British Columbia housewife cannot wait until the different fruits are in season in their own country? They are very much better than those which, coming from a longer distance, must be picked in a greener state. They are no more expensive and in some cases very much cheaper. They are of just as good quality and the same varieties as those which are grown in the south, and, above all, by waiting the extra two or three weeks you are keeping your money in Canada where you get full price for it, instead of sending it to a country which charges you 14 cents on the dollar for the privilege of dealing with its people. There is nothing "made in B.C." any better than its fruits and vegetables, and the very people who have been most energetic in the work of furthering the interests of British Columbia manufacturers might take a leaf from some of their own campaign matter and alter it to read "Grown in B.C."

Every argument in favor of the one applies to the other. In some cases it is more pertinent in favor of the "Grown in B.C." slogan, because it is very evident that some of our manufacturing industries are being forced before their time. Some will always be exotic, while there is not a single one of the fruits mentioned which is not grown as well somewhere in the province of British Columbia as it is in that vague source of supply, "the south."

Our season is somewhat later, but seasons are only relative after all, and there is always plenty of our native grown fruit to keep the table supplied and the preserving kettle busy until the next variety is in order.

If there is one thing in the world which will put British Columbia fruit where it should be it is the British Columbia housewife. The home market is absolutely indispensable to the fruit grower; without it his export trade is useless. The big fruit districts of "the south" have a tremendous home market; when that is filled for the moment, a few carloads are shipped up to Water Street or some other street frequented by the fruit and produce brokers and middlemen. These carloads are broken up, expressed all over British Columbia, and the Kamloops housekeeper quite forgets or absolutely ignores the fact that she will have just as good stuff in a couple of weeks "grown in B.C."—Kamloops Standard-Sentinel.

MORE ON ROADS, LESS ON CROWS.

The Ladysmith Chronicle does not think much of the law providing a bounty on crows while the Provincial Government has no money for road work. It says: "It is a very debatable question as to whether crows do more harm than good. True it is that they are accused of destroying crops, and have been found in the fields of grain, etc., but bugs are in the habit of locating in fields of grain, and the Dominion Entomologist of Manitoba, Mr. Norman Criddle, makes the statement that six crows are capable of consuming three bushels of grasshoppers in one season. To our way of thinking the money expended on dead crows could be well used on the roads of the Province."

British Columbia has the most varied resources of any of the Canadian provinces, says an exchange, but it cannot assimilate all the unemployed from the older provinces, unless the older provinces send along the capital for development, obtain a decent reduction in freight rates on B.C. products and protect us against dumped fruit, rough lumber and other unfair competition from the states to the south. In view of the stated policies of the farmers' organizations, this is a word in time.

Sweden adopted the eight-hour day as a nation a year ago. Today they are regretting the action and a determined effort is being made to have the law repealed. The result of the legislation of a year ago is described as disastrous, it being estimated that the country is losing approximately two hundred million dollars a year.

"Within another six months time, the Province of British Columbia will have changed its rule of the road." Thus the Western Canada Motorist, published in Vancouver, starts its leading editorial. It hardly seems possible that the Motorist

is not aware of the fact that just over a year ago the rule of the road was changed in British Columbia, with the exception of a small portion of the province in the south western corner, and Vancouver Island.

Coast reports place the shipments of strawberries to the prairie provinces from British Columbia as close to one hundred and fifty carloads, by far the largest in the history of the small fruit industry of the coast districts. Last year the total was about twenty cars.

Holders in the Okanagan of last year potatoes have been able to dispose of a dozen or more carloads to prairie buyers at \$12 a ton f.o.b., according to late reports. Large stocks of potatoes at the Coast are said to have been a total loss, no buyers being found.

The dispatches announce that the prices are raising in South Africa, and that now a man has to pay as high as four cows for the ordinary sort of a wife that he used to buy for four spearheads. The luxury tax has probably struck that country, also.

Billy Sunday wants the Kaiser tried, convicted and permitted to drink nothing but Belgian beers. Would not a more adequate punishment be to compel the ex-Kaiser to memorize a couple of Mr. Sunday's sermons.

When Timothy said: "Take a little wine for thy stomach's sake," he did not mean bootleg whiskey. This will be news to a number of men who thought they were obeying Divine injunction.

Now that repairs on the Lake Shore road are under way, it would be advisable to hasten efforts to provide suitable camping sites for tourists. Let's keep up with the procession.

Eastern Apple Crop.

Frederickton, N.B.—Although weather conditions which have prevailed during the past month have been a detriment to the apple harvest, it is anticipated, judging from present indications, that the apple crop in this district will be the heaviest in years. Reports from Kingsclear, Oromocto and Douglas all show that the orchards are looking well and giving promise of a big yield.

Halifax, N.S.—All the coopers' shops in the Gaspereaux and Cornwallis valleys are now operating to capacity and large orders are daily being booked, the 1921 yield of apples being estimated as the largest yet.

NEW ENGLAND CONSERVATORY OF MUSIC.

Boston, Mass.

Haines Bros.

Gentlemen:

After our initial order for 30 Haines Bros. Pianos placed with you in 1909 we purchased additional pianos from you in 1910 and 1914.

All of these pianos have given excellent satisfaction in every respect, although subject to an average of six to eight hours of practice daily for forty weeks each year.

Yours very truly,
RALF L. FLANDERS,
General Manager.

T. G. Wanless, Penticton, is local agent for these famous pianos. Buy for cash and save big money. 51-2

Annual Irrigation Convention Closes

(Continued from Page 1).

on the "Reservation of Water Reservoir Sites," Mr. J. F. Robinson, of Kamloops, moved that the program be changed for the afternoon, so that the convention could discuss how the provincial and Dominion governments "might get down to brass tacks" and undertake a real irrigation scheme, whereby the vast unfertile areas in British Columbia and Alberta would be brought under cultivation.

F. E. R. Wollaston, chairman of the executive committee, objected to Robinson's motion. E. A. Cleveland, provincial water controller, quickly arose and told of the provincial conservation fund and how a million and a half dollars had been spent in the Okanagan from Penticton northward. The motion was lost.

The afternoon was given over to a drive around Vernon. Shortly after 2 o'clock the motors left the town and speeded over the roads skirted on either side by fruit trees just now looking their best. The drive took in the Coldstream and Lavington sections, with a visit being made to the headgates of Vernon's irrigation system. Here the visitors saw the water flowing through the gates that supplies moisture to nine thousand acres of agricultural lands. From there the cars went on to the Coldstream ranch where a delightful supper was served in the grove of trees beside Coldstream Creek.

R. H. Helmer Talks.

"Unless farmers will measure the water they are using there is little use in giving information," is the way R. H. Helmer, superintendent of the Dominion Experimental Station at Summerland, put his first remarks in one of the most interesting papers read before the session. "Water is not being used economically," he continued, "and instead of increasing crops in some places they were being decreased." Mr. Helmer's long association with experimental work is so well known that it is needless to state that his remarks received close attention. His subject was the "Growing of Forage Crops." He declared that irrigation at no time takes the place of good farming, and anyone who

thinks that when the water is brought to the land his troubles are over, is mistaken.

Soil fertility must be maintained, declared the speaker, and two elements were essential, that of nitrogen and humus. In providing soils with these two very necessary factors, he recommended alfalfa as the most useful cover crop. Its deep root system and the beneficial results which have been obtained prove that it takes the premier place. Clover, he said, has given good results but will not stand up on the dry bench lands of this section like alfalfa. The latter, with its enormous root system, brings up from the depths plant foods so essential to growing crops.

Mr. Helmer stated that corn required less water as a forage crop than anything else, sunflowers not doing so well. Sorghum was next to corn.

In hoed crops turnips could be grown but were too great an expense as compared with mangels. In the grain year of a seven-year rotation,

the speaker suggested turning it into a soiling crop year with vetch or rye. Peas and oats as green feed would take less water than grain.

Mr. Helmer's paper was informative and was followed by considerable discussion among the delegates, particularly as to planting alfalfa and grain together.

Other interesting addresses were made and papers were read, but space forbids going into full detail. The principal address of the session was delivered by Dr. J. A. Widtsoe, president of the University of Utah, an authority on irrigation and the author of textbooks on the subject. The subject of his address was "Excessive Irrigation and Its Dangers." "If ditches and flumes were only for this generation all irrigation effort would be wasted," he declared.

A cardinal principal of irrigation, he pointed out, was never to saturate the soil. The crop was not in proportion to the amount of water used, for the more water applied above a certain standard the less (Continued on Page 8)

PASSING EVENTS
LOCAL, PERSONAL, SOCIAL & OTHERWISE

H. Finley has re-arranged his store and is adding a stock of gents' furnishings.

W. J. Banton, of Richmond, Cal., is here visiting his sister, Mrs. O. Atkins.

Dominion Fruit Inspector R. G. L. Clarke was in Summerland this week on one of his regular visits.

The Review will appreciate very much to have you phone or write the office any news of local interest.

A daughter was born to Mr. and Mrs. P. Laidlaw at the Summerland hospital on Saturday, July 30th.

Mr. and Mrs. S. M. Young are visiting at the home of their son, T. B. Young, having motored around from Vancouver.

Mr. and Mrs. McPherson and baby, of Vancouver, are here on a visit to Mr. McPherson's parents, Mr. and Mrs. S. B. Snider.

Mrs. H. C. Simpson, of Vancouver, arrived here on Wednesday morning to attend the funeral of her cousin, Mrs. C. E. Pineo.

C. P. R. repair barge No. 43 was at work on the wharf here last week, putting in fresh piles at the slip and also at the east end of the wharf.

Miss A. M. Smith, B.A., and Miss M. McKechnie, of Vancouver, are visiting their aunt, Mrs. Geo. Gray and other friends in the valley.

Rev. H. A. Solly left last Saturday for a visit to England. Before his return he will attend a meeting of the Synod of Canada at Hamilton, Ont.

Mr. P. Litzit arrived on Wednesday evening from Vernon, to take up the position of assistant to the C. P. R. agent, Mr. Leslie, and act as freight checker.

We clean or dye soiled or faded garments, house furnishings, etc. Let us mail you price list. Permanent Dye Works Ltd., 1641 4th Ave. West, Vancouver, B.C. 48ct

Miss Hack, who has been home here on her vacation and recuperating from an operation for appendicitis, has been summoned back to her nursing duties at the Revelstoke hospital, where they are sort of help. She will probably leave this week.

A barge service for straight carload shipments has been started by the C. P. R. and will run daily, except Sunday. The SS. Okanagan will also run daily, except Sunday, between Okanagan Landing and Naramata, for the purpose of handling freight consignments.

Prof. Eastham, plant pathologist for British Columbia, was a visitor to Summerland on Tuesday and Wednesday. While here he visited several orchards, accompanied by Inspector Tait, for the purpose of helping to find a solution to some local problems. He informs The Review that he found fire blight well controlled here.

Mrs. Fudge left here this week for Winnipeg, in answer to a telegraphed message from her sister, who is seriously ill there. On her way to Summerland from England, Mrs. Fudge's sister was taken ill at Montreal some weeks ago, and was not able to proceed any farther on her journey than Winnipeg, where she has been receiving medical attention.

Whilst switching cars from the C. P. R. barge to the Fruit Union buildings a few days ago, a fatal accident was narrowly averted. In spite of all their efforts, the C. P. R. officials are unable to keep the children from playing around the cars when unloading, and have had to call the services of a constable. The Review is asked to direct the attention of parents to the threatened danger, and to ask them to aid the C. P. R. by not allowing their children to go near the slip during unloading times. One little fellow was trying to see how close he could keep to the moving car, when his chum called him. Turning round to answer, he entirely forgot the oncoming car, and was only just rescued in time.

ANOTHER REASON FOR TREE SPRAYING

That blister mite in the pear and apple is becoming altogether too prevalent is the statement made by Inspector John Tait this week.

Mr. Tait says that he knows of orchards (not in Summerland) where the crop will not be worth picking because of the blister mite and he cautions all growers to spray next spring to check this destructive pest. He has been making some experiments for the last year or two on the control of blister mite, under local conditions, and will continue them this fall and next spring.

—Mrs. Barker, daughter of Mr. and Mrs. Pollock, is here on a visit to her parents.

Mr. Wishart, manual training instructor, is taking a course at the summer school in Vancouver.

Mrs. T. B. Young entertained a number of friends on Tuesday afternoon in honor of Mrs. S. M. Young.

Miss Dorothy K. Carruthers, from Bradner, B.C., is spending a few weeks with her aunt, Mrs. Vanderburg.

Mr. Blackaby and ten or twelve boys of his Sunday School class left on Tuesday for a week in camp at Miller's Point.

H. Finley and his mother moved this week into a new house just erected by G. J. Coulter White near the Baptist church.

F. G. Evans, of Vancouver, manager of Dominion Canneries of B. C. Ltd, was a visitor in town Tuesday on his way to Kelowna.

Mrs. Singer, sister of Mrs. C. E. Pineo arrived here Thursday morning from Vancouver, to be present at the funeral of Mrs. Pineo.

Agent, Pentiction Cold Storage. Ice put in your ice box, Tuesdays, Thursdays and Saturdays. P. S. Roe. Phone 13.

Mr. and Mrs. Blethens, Peach Valley, have visiting them for their summer vacation, two of their daughters who have arrived from points in the United States.

Prof. W. T. and Mrs. Broad left here on Friday to be present at a church memorial service in honor of their three sons who fell in the Great War. They are expected home this week.

The special film in which Blanche Sweet was the principal artist, will not appear at the Rialto on Aug. 8th and 9th as advertised, the performance having been cancelled for the present.

Owing to the increase in the number of patrons at the Hotel Summerland, Mr. McCallum, the proprietor, has opened up another dining room, in order to accommodate the extra number of guests during the holiday season.

Nine bricklayers arrived here last week from Vancouver to begin work on the new Cold Storage Company building. The carpenters are rushing work on the erection of the frame work, a donkey engine being used in hoisting the huge timbers into place.

The Fruit Union is a busy place these days, the early apples coming in very fast, besides tomatoes, cucumbers, apricots, peaches and plums. Three straight carloads of apricots have been shipped this week, in addition to which between seven and eight thousand cases of cots have been expressed.

Work on the Cold Storage building is rapidly proceeding, thirty men now being employed on its construction. Masons are erecting the walls, and have already reached the first floor with the brick work. The last supporting timbers for the roof of the two-storey section were put in place on Wednesday.

Preparations are now being made for the erection of a new business block on Granville road on the corner immediately east of the Bank of Montreal. The block, which is being erected by W. C. Kelley, will be a one-storey concrete structure with a store and office rooms. The store will be a 30 ft. front and will be occupied by R. G. Walden who, we understand, will carry a stock of boots and shoes and other lines. Application for the corner office has been made by Postmaster Bowering.

GATHERING DATA ON EVAPORATION

Asked this week what data he was getting from the evaporation equipment at the Experimental Farm, Supt. Helmer stated that in one week recently, the evaporation amounted to 1.7 inches. One can realize what this means, he says, when it is known that one inch over one acre means 113 tons of water. The evaporation from the lake, for instance, would be enormous.

Mr. Helmer hopes to take up next year the study of evaporation of soil moisture.

IN MEMORIAM.

In loving memory of Sergt. T. A. Chisholm, who was killed in action August 8th, 1918.
"Greater love hath no man than this—that a man lay down his life for his friends."—Inserted by his loved ones.

WARM WEATHER RUSHING FRUIT

Stone Fruits Moving in Large Volume—Apples Starting to Come In.

Following is in part the weekly report of the district horticulturist:

LOWER MAINLAND

The raspberry crop is holding on well with the present cooler weather, and there should be steady picking for another week or ten days. The growers are greatly encouraged by the way raspberry prices have held up.

Loganberries are moving steadily. Both raspberries and Loganberries in many patches show signs of injury due to the nature of the spring and poor pollination.

Blackberries are showing for an abundant crop. Strawberries and cherries are now off.

All truck crops are doing well. The hay crop has been excellent and the best for a number of years.

KELOWNA

The weather continues very warm and dry. Sweet cherries are practically over, and late sours are now moving in quantity, especially Olivets.

Tomatoes and cucumbers are now moving fast. Apricots and Early peaches are also moving. Apples and pears are sizing up well. Liveland raspberry and Yellow Transparent apples are now moving in quantity through the packing houses.

Ground crops are looking well but could do with rain.

SUMMERLAND.

Weather has been very hot this past week culminating in a severe thunderstorm. The storm centred in the Jones Flat, Siwash Flat and Lakefront benches. There was a heavy rainfall accompanied with hail, which has caused considerable damage to all crops. Apples, pears and apricots suffered most. The total damage has not yet been estimated.

The cherry season is now about over. The shipments of apricots, peaches and plums are increasing in volume. Transparent apples are being shipped and Duchess are maturing fast.

Tomatoes and cucumbers are ripening up fast, and carload lots will be moving shortly.

PENTICTON AND KEREMEOS

During the past week weather conditions in the Keremeros district have been favourable. Apricots, Early Peaches and Peach Plums are moving. Some Duchess apples will be picked soon.

Field crops generally are looking very well.

In the Pentiction district quite a large quantity of apricots, peaches and peach plums are moving. Some Yellow Transparent apples have come in this week.

A goodly number of growers are preparing for cover crops and from present appearances a fair acreage will be sown to vetch.

VERNON.

Weather conditions now seem fairly settled and hot dry weather is prevailing. Under these conditions all fruits are developing rapidly.

Apricots and peach plums are now moving out of the Valley, also some of the early apples. Duchess apples will be rolling by the end of the coming week, and Transcendent crabs will follow very closely on the Duchess. Blackberries and dewberries are moving out very freely and the coming week should see the clean up on the raspberry crop.

Growth conditions are good and all crops show splendid development. Fire blight is now apparently quiescent, and this fact is giving much relief to the orchardists who have been combating this disease this season.

Harvesting of the grain crop is pretty well advanced and threshing is becoming general. Considerable of the grain this year is apparently being threshed from the stook and some nice samples of grain are in evidence.

Saved Pure Breds.

A bunch of 14 pure bred Suffolk sheep were purchased the other day by Superintendent Helmer, of the Experimental Station. These are described as of superior quality and were about to be slaughtered and it was for this reason that Mr. Helmer bought the lot.

If stockmen kill off their breeders indiscriminately they will have to resort to range animals when market conditions improve, and they wish to build up their flocks and herds.

Two pulp and paper industries could have been established with the money paid out by the people of British Columbia in exchange last year—\$10,000,000—for which there was no return.

Empty Cars to be Treated.

(Continued from Page 1).

mence to move to the Okanagan Valley, to take the first fifteen foreign empties received at Feld, B.C., and the first fifteen that are moved from the Coast, and steam them out at Revelstoke and Kamloops in order to ascertain if the Company can, with the facilities they now have, perform this work, and to determine the effect of steam on car equipment. When these experiments are being conducted, a careful check will be made to ascertain as far as possible the actual expense involved, including switching charge after which it will then have to be determined who will reimburse the railway company for the expense involved.

Mr. Treherne has already completed experiments which have demonstrated that the cooling moth can be destroyed in refrigerator cars when the cars are subjected to live steam for about 10 to 15 minutes. He will carry out a series of experiments this season to determine the effect on the insulation of the cars by the continued use of steam.

OBITUARY.

Emily Pineo.

Following two days serious illness, Emily, the wife of Mr. Clarence E. Pineo, passed away quietly at the Summerland hospital on Tuesday afternoon about 6 o'clock.

Last Saturday Mrs. Pineo was about as usual, and on Sunday morning prepared to spend the afternoon at Crescent Beach with friends. Not feeling well when the party left at 1.30, she decided to remain at home and spend the afternoon reading. When Mr. Pineo returned that evening, he found his wife in an unconscious condition, and hurriedly summoned the doctor, who ordered her removal to the hospital, where death occurred without her recovering consciousness. Her death was caused by a form of paralysis.

Mrs. Pineo has been a respected resident of Summerland for the past 14 years, coming here from Manitoba, her husband having preceded her by three or four years. The deceased was born in Ontario in 1864, and moved from that province to Manitoba when she and Mr. Pineo were married about 33 years ago.

The funeral, which was largely attended, was held at St. Stephen's church, interment being made in the Church of England cemetery.

The world is moving so fast to-day that you have to run as fast as you can in order to stay where you are.

THERE IS ONE FUNDAMENTAL THAT MAKES MUSIC.

With this there is music in a monotone. Without it even melody can be mere noise. That fundamental is tone. The most celebrated musical artists of modern times have spoken and written of the beautiful tone of the "Haines Bros." piano. Many large conservatories of music use it exclusively. Its tone never becomes harsh or "tinny." Haines Bros. do not sell their pianos on long terms of payment. Buy for cash and save big money. T. G. Wanless, Pentiction, sells these famous pianos, now made in Canada. 52-1

To Teach in High School.

C. Winfield Matheson, B.A., of Rimbey, Alta., has been appointed to the position of teacher of Science and Latin in the Summerland High School. Mr. Matheson is a graduate of Dalhousie University.

St. Stephen's Church

During Rev. H. A. Solly's absence services will continue to be held each Sunday.

1st and 3rd Sundays, Matins, 11 a.m.

2nd and 4th Sundays, Matins, 11 a.m. Evensong, 7 p.m.

Ladysmith footballers defeated Calgary by six goals to one in the series for the Connaught Cup, emblematic of the championship of Canada. The score about represents the play.

GENTS' FURNISHINGS

Having ordered a stock of Furnishings for Men and Boys we will now be in a position to cater to the public needs in this line.

We have now in stock a good selection of the famous

ARROW COLLARS, SHIRTS AND UNDERWEAR

Also a nice line of Ties, Sweaters, Overalls, Light and Heavy Socks, Silk Hosiery and Notions.

Ladies' Department

We are now showing some new Georgette and Tricolette Waists. Good values at \$6.00 and \$7.00.

Summerland School Board.
TENDERS FOR SCHOOL CONVEYANCE
will be received by the undersigned up till noon on SATURDAY, August 6th, for conveyance of school children by motors, on the following routes:—
Route 1—Summerland to Central School, starting from Hospital Hill, thence to Summerland, and thence to Central School via Peach Orchard road, returning by same route in the afternoon.
Route 2—Trout Creek, starting from Mr. Sharpe's corner to Central School via Lake Shore and Gulch roads, returning by same road to Jas. Gartrell's house.
Route 3—Giant's Head, from Mr. Rose's ranch via Morningside road to Central School, returning to same point in the afternoon.
Route 4—Paradise Flat, from Mr. E. R. Simpson's gate to Central School, returning by same route in the afternoon.
Route 5—Prairie Valley, from Old School House to Central School, returning to same point in the afternoon.
Route 6—Garnett Valley, from Mr. Clarke's gate to Central School via Main road, returning to same point in the afternoon.
Tenders to state price per single trip.
All vans to be covered, and of sufficient capacity to accommodate the number of children on the respective routes. Approximate numbers may be learned on application to the Secretary.
Contractors to provide rugs in cold weather.
All contracts must be signed on or before August 31st.
J. H. BOWERING,
Secretary School Board.
West Summerland, July 23rd, 1921.

IS FATE OF CALIFORNIA'S VALLEYS TO OVERTAKE LOVELY OKANAGAN?

ORCHARDS OF SUMMERLAND PASS INTO HANDS OF JAPANESE.

STORY OF INVASION

Vancouver Daily World Representative Writes of Oriental Situation in This Section of Valley—From First Hand Information.

(By J. S. Cowper, World's Special Correspondence)

Summerland, B. C., July 21—Summerland is the Japland of the Okanagan fruit district. Hence my visit to this delightful place on the west shore of Okanagan Lake, an hour's motor ride from Penticton, through a great Indian reserve whose non-use is enough to make an economist weep. Great benches of orchard land enough to provide over a hundred fruit ranches and capable of producing a crop—at current yields and prices—of approximately three-quarters of a million dollars, lies idle because they form part of a great 50,000-acre reserve on which a few head of Indian cattle graze. But that is another story.

If you want to know what Summerland is and what it knows its prospects to be, you can have a surer test than a trip over the 400-acre experimental farm of the Dominion government, on which Supt. R. H. Helmer has demonstrated all manner of field and orchard crops. The test is this: Down at the wharf, where the big C. P. R. stern-wheeler Sicomous calls in twice a day for passengers and fruit, the Summerland fruit growers are building themselves a new cold storage warehouse. The old warehouse of the Summerland Fruit Union has become too small.

Building Big Warehouse

They are building for the future are these Summerland men. Laid on deep piers of concrete, the new cold storage warehouse will be 300 feet long and 80 feet wide. Vancouver contractors tendered a price of \$80,000 for the job. The fruit growers of Summerland dug down in their jeans and forthwith subscribed \$63,300 of the needed amount, leaving \$17,000 to be looked after by the bank. They have great plans for the future, have these Summerland men. And into Summerland the Japanese tide has set.

Summerland residents are glad—undisguisedly glad—that their Macedonian cry has been heard at the coast.

Said one well known resident: "We took up this question at the Fruit Growers' meetings, but nothing came of it; we took it up at the Farmers' Institutes and nothing came and we took it up at the United Farmers' meetings. We brought it before Premier Meighen when he was out here and he dismissed it by saying: 'It is your own problem and you must settle it yourselves.' Now we are looking to The World to make our plight known to the people of the province and arouse public opinion to compel some action by the federal authorities."

There are fewer Japanese at Summerland than at Kelowna where there are 46 Japanese ranches, or Mission where there are 84, or Haney where there are 90, or Surrey where there are 59.

Public opinion or "the agitation," as my Kelowna Japanese informant, Mr. Iwashita, phrased it, had prevented many of the Kelowna Japanese colony from buying their holdings. It is not lack of means. Public opinion alone made it impossible for the owners of the Coldstream and Belgo ranches to consider the offers of Japanese to purchase the great parent ranches at Vernon and Kelowna.

But at Summerland all but five of the Japanese are actual owners of their ranches. They are there to stay. The Okanagan is in the same position as was the Sacramento Valley 15 years ago. And with the history of California staring them in the face, the residents of Summerland are concerned at the Japanese invasion of their district.

Inspector W. H. Lyne of Vancouver, head of the fruit inspection department of the provincial government, tells me that he was a grower in the Sacramento valley at the time of the Japanese invasion there.

"I thought the Japanese were a god-send, as did a good many of the growers, when they first came," says Mr. Lyne. "I used to have the usual trouble harvesting my prune crop each year. Then came the Japanese.

They seemed ideal people for orchard help. Short-legged, they could stoop easily; they were active for ladder work. They worked industriously. In 1904 when I tried them out for the first time I thought all my troubles were over."

The other side of the picture came later. After three years, in which time they swept white labor aside at the picking season, the Japanese refused to work except under their own labor contractors. They made demands for higher wages and reduced hours, and exercised a tyranny which the displaced white labor had never been able to invoke.

Next, and most vital step, they went into the orchard business for themselves. Draughtboarding themselves through the five defined areas they had marked for themselves in California, they acquired land by lease and purchase.

California's Warning.

To quote the words of Governor Wm. D. Stephens in narrating the condition of California in a letter to the secretary of the United States asking for federal action: "The Japanese with his strong social race instinct acquires his piece of land, and within an incredibly short space of time, large adjoining holdings are occupied by people of his own race. The result is that in many portions of our state we have large colonies of Japanese, the population in many places even exceeding the white population."

At the present time the Japanese operate 458,056 of the choicest acres of California. In San Joaquin county, out of a total of 130,000 irrigated acres the Japanese and Chinese hold on lease 95,329. In Colusa county they have 51,105 acres out of a total of 70,000; in Sacramento county, out of 80,000 acres, they hold 64,860. Eighty per cent. of the tomato crop in California, says Governor Stephens, is produced by Japanese, and between 80 and 90 per cent. of the vegetable and berry crops.

This yellow transformation has actually taken place in California in the past fifteen years. Will it be the fate of British Columbia, too? With a five-year start during the war and with her sparser population, the peaceful conquest of British Columbia's fruit industry offers fewer difficulties than did the conquest of the rice areas of Colusa, the fruit and vegetable districts of San Joaquin and Sacramento, and the vineyards of Fresno.

A White Man's Industry.

Here is a fact to be faced. Hundreds of men and their families who are not entitled to Canadian citizenship—who are not even free to renounce their fealty to Japan—have got a foothold in the fruit districts of this province. In California they have adopted a policy of draughtboarding the districts they entered. With the assistance of absentee landlords and men who have more land than they can look after by themselves, they are doing the same thing in British Columbia.

I have by me a copy of the answers given by the county horticulturalists of the thirty-eight Californian counties which have reported an Oriental problem on their hands. Their answers are astoundingly similar to the answers to similar questions which I propounded to representative fruit growers in regard to labor and living conditions, methods of acquiring land and colonization.

One question received practically unanimous answer both in California and in our own province. It ran: "Could or would the lands now being farmed by Chinese, Japanese, and Hindus be cultivated by native whites?"

Thirty-seven of the 38 Californian horticulturalists answered, "Yes."

So far as orcharding in the Okanagan is concerned the question answers itself. The fruit industry of the Okanagan was conceived and organized and developed by white industry and white capital. Not until it had proven itself a commercial success did the Japanese move in and occupy land that white men had broken for them.

How the Japanese Got In.

At Summerland I had an opportunity to meet Mr. Jno. Tait, district horticulturalist and secretary of the local Farmers' Institute. We went over the list of Japanese growers in his district.

"How many were in here before he war started?" I asked him. "Only one at most, G. Tada, who bought just after the war," was the answer.

Of the other owners of fruit ranches, Mr. F. Egano bought four years (Continued on page seven)

Naramata News

Current Events of Town and District

Mrs. Wollstonecroft, of Penticton, has been spending a few days in Naramata as the guest of Mrs. Geo. Aldridge.

Mr. and Mrs. Seaton, of Peachland, who have been spending a few days in Naramata, left for the other side of the lake, expecting to spend a short time with Mrs. Miller, before returning to Peachland.

A regrettable accident took place on Monday night when Mrs. Wells, sr., who had gone down to the wharf to meet her granddaughter, Miss Alma Price, was knocked down by one of the trucks used in loading and unloading freight, and suffered considerable injury. Dr. Affleck was summoned from Penticton, and Mr. Russell Wells communicated with Mrs. Wells remained in Naramata in charge of Miss Price, who is a trained nurse from Calgary. She sustained several cuts on the face and some injury to an arm, as well as considerable shock.

Miss Jane Patterson, of Eston, Sask., is visiting with her sister, Mrs. J. Littlejohn, and with Mr. and Mrs. Littlejohn, sr.

Mrs. James Gawne and family, of Madison, Sask., is visiting with her parents, Mr. and Mrs. Littlejohn, sr. After staying in this district for a few weeks they intend visiting the Coast and returning by main line C. P. R.

Miss Gwen Robinson, who has been nursing an accident case in Penticton for the last eight weeks, returned home on Saturday.

A considerable number from both Summerland and Penticton, as well as local residents, turned out to hear the S. A. Citadel Band on Monday night. The music was appreciated, and the heat increased the pleasure of the evening out-of-doors, as well as the sale of ice cream. Miss Margaret Robinson was in charge of a well-supplied candy stall, Miss Cooper and Mrs. Horswill looked after the ice cream with their helpers, and Miss Garden read fortunes by palmistry. Mr. J. M. Robinson spoke briefly in the course of the evening in appreciation of the courage and enterprise shown in bringing so important a musical organization to a comparatively small place like Naramata.

Mrs. D. O. Hughes gave much pleasure to the small members of her Sunday school class by giving them a picnic on the beach and later at her house on Tuesday afternoon. The afternoon's play, as well as the cake and lemonade were much enjoyed.

The Keeping of Poultry

If resident in either town or country and you wish to know how best to keep poultry and secure the most satisfactory results, consult a pamphlet treating of the subject prepared by the Dominion Poultry Husbandman, F. C. Elford, and recently issued by the Department of Agriculture at Ottawa. The pamphlet can be had free on application to the Publications Branch. It tells of how poultry can be made to pay, how the birds should be housed and fed, how they should be treated in winter and summer, how to commence keeping in a small way, the equipment that is desirable, how to choose a breed, how to hatch and rear, and how to gather, keep, or market the eggs.
In short all the essentials to success in poultry keeping for home consumption or selling are clearly and explicitly explained. In the term poultry are included turkeys, geese, ducks, guinea fowls and pigeons, the raising and care of which are fully discussed. Numerous illustrations of types of birds, and of methods of housing and feeding contribute to make the pamphlet an invaluable compendium on poultry keeping and marketing.

TIMBER SALE X3335.

Sealed Tenders will be received by the District Forester, Vernon, not later than noon on the 15th day of August, 1921, for the purchase of Licence X3335, near Summerland, to cut 200 cords Fir and Pine Cordwood.

Two years will be allowed for removal of timber.
Further particulars of the Chief Forester, Victoria, or the District Forester, Vernon.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Miss Boggs, of Penticton, spent a few days of last week visiting in the community, a guest at the home of Mr. and Mrs. G. Keyes, returning home on Wednesday evening's boat.

The Miss Alice and Ruby Cousins were visitors at Kelowna on Monday of last week.

Mrs. J. Winger and daughter, Katy, returned on Monday evening's boat after a short visit up the lake.

Two of Mrs. Lupton's children spent a few days here last week visiting their grandparents, Mr. and Mrs. Aitkens.

Miss Doris Charlton returned home on Monday of last week, having resided at Vernon for some time.

Mr. S. H. Murdin spent Tuesday of last week in Kelowna, returning home in the evening.

Mr. Lorne Shaw left by stage on Tuesday en route for De Kuth's mill, where he expects to work for some time.

Mr. and Mrs. Evans enjoyed a visit last week from their daughter, Mrs. Roberts, from the prairie. She went south via the Sicamous on Monday evening to spend a short time in Penticton.

Mrs. Grantham and son Jack, came in by stage last week for a vacation in Peachland and are guests at the Edgewater Inn.

The Rev. Isaac Page, of Penticton, arrived on Wednesday morning's boat, to spend the day visiting with members of his congregation and to attend the Sunday school picnic being held in the afternoon.

The Baptist Sunday school picnic was held on Wednesday afternoon of last week. It was well attended and a very pleasant afternoon was spent in the usual Sunday school picnic custom.

Reeve R. J. Hogg spent a few days out of town last week, attending the irrigation convention, which was held in Vernon.

In spite of the fact that he has more or less permanently moved from Peachland and has taken up work in Alberta, we cannot help having a feeling that he has a soft place in his heart yet for Peachland, where he spent several years in its making. This, C. G. Elliott, of Edmonton, who arrived on Wednesday evening of last week to spend a portion of his vacation here again this summer, with his mother and sister and brother and family. Mrs. Elliott and the children are spending their vacation East this year.

Mr. and Mrs. Trousdale and family with Mr. Trousdale's mother, friends of Mrs. G. B. Phillips from Calgary, arrived last week and have taken up residence in the cottage recently occupied by Mrs. Phillips and intend spending a couple of months here.

Mr. Allan Wilson returned home last week from a short visit to Alberta during which time he visited several parts of the province and reports having seen the evidence of good crops in the portions he visited, including his old home district about Lamont, and also around Edmonton.

Mr. Thos. Bell is enjoying a visit from his son, Mr. W. Bell, and his wife, who have just arrived from the old country to spend a time in the valley.

After a pleasant visit here with Mrs. Robertson, Mrs. Jupp and children took the northbound boat on Friday last en route for the Coast.

After visiting here for a time with her brother and sister, Mr. and Miss Metcalf, Mrs. Tees left on Friday morning's boat.

Frank Cottle and Master Arthur McCall were visitors to Kelowna on Friday last.

Having accompanied his father to Vernon for a short visit with friends, Master Royal McDougall stopped off the southbound boat on Friday evening to visit in the home of Mrs. P. N. Dorland, his aunt.

After a very pleasant visit with friends in Summerland Mrs. E. House returned home on Saturday morning.

Mr. Heighway returned from Oliver on Saturday morning last, after having spent some time in that vicinity.

Mr. Fawcett left on Saturday morning for Okanagan Landing where he expects to work in the employ of the C.P.R. for some time.

Miss Lily Cousins and Miss Betty Buchanan were visitors to Kelowna on Saturday, returning on the evening boat.

Miss Annie White came down from Kelowna on Saturday evening to spend Sunday at home with her mother and the rest of the family. She

returned to Kelowna on Monday morning.

Mrs. B. M. Whyte and baby were visitors in town again last week, guests at Mrs. Whyte's parents, Mr. and Mrs. A. W. Miller. Harold Miller accompanied her home after having spent a week or so at their home at Okanagan Centre.

The Women's Institute held a superfluity and home-cooking sale on Saturday evening last in the Municipal Hall, which resulted in great success. They also sold ice cream and lemonade. The homecooking, ice cream and lemonade were each sold in different places in the room and were managed by separate sales staffs. The superfluity sale was handled by auction, Mrs. Buchanan acting as auctioneer. The proceeds for the evening were upwards of \$50. The room was beautifully and tastefully decorated by the ladies.

Mrs. A. Smalls and son, Sydney, left on Sunday last en route for the Coast where they expect to visit for a while. A portion of the time will be spent as guests with Mr. and Mrs. D. Kirkby.

Mr. R. J. McDougall with wife and family, of Penticton, motored up on Sunday last for a short visit with relatives here returning in the evening. Miss Francis Robinson accompanied them home for a short visit.

Visitors to Kelowna from here on Monday last were Mrs. Morgan Mrs. Wilson and the Misses Alice and Helen Wright. Mrs. Morgan returned on the evening boat.

Mr. W. T. Jones, of Penticton, representative for the Laritz Nurseries, is paying an official visit to the district this week, having motored up on Sunday afternoon.

Mr. and Mrs. Sam Michael are the proud parents of a daughter, born at Peachland on Monday last. Both mother and baby are doing nicely.

Mr. and Mrs. Alf Ades arrived by auto on Monday for a week's visit here with Mrs. Ade's father, Mr. R. H. Houston, and other friends.

Mr. H. A. Solly, of Summerland, motored up from Summerland one morning last week and took the boat here for England, where he expects to spend a vacation. He intends returning and attending the synod, which meets in Hamilton, Ont., late in September or early in October, and returning to his field here during the month of October. During his absence Mr. J. A. Edgecombe, a local resident here, will conduct the four appointments under Mr. Solly's charge, namely, Summerland, Naramata, Peachland and Westbank. Mrs. Solly and the family returned to Summerland by auto and will take care of the home duties till Mr. Solly's return.

Mr. Drake has recently received word from Mrs. Drake of the death of her father, Mr. T. J. Johns, of Oakland, Iowa, which took place about two weeks after her return home on her visit.

Visitors to Kelowna on Monday last were Mrs. H. Williams, Mrs. Ekin and Mr. J. Kudelka, all returning on the afternoon boat.

Mrs. J. Campbell, who owns the town lot adjoining Mr. J. H. Clements, a former resident for a short time some eleven years ago, paid town a flying visit this week, arriving by stage on Tuesday and spending the day here.

The man who does not advertise because his grandfather did not, ought to wear knee breeches and queue.

Is Fate of California's Valleys to Overtake Lovely Okanagan?

(Continued from Page Six)

ago; K. Imayoshi bought three years ago; while Y. Sato and B. Inaba came in two years ago.

Mr. Tada's opportunity, as a matter of fact, came as a direct result of the war, for he bought Capt. Estabrook's ranch when the latter went to work at Canadian camps under Y.M.C.A. auspices.

Egano was a hired man on a Summerland fruit ranch and saw his chance during the war, when ranches were going cheap. First of all he rented from an absentee owner. Then he got a chance to buy from a lady mortgagee who foreclosed on a white rancher.

There was competition for the ranch from a white man, who wanted a place of his own, and was prepared to pay the same price as Egano. But when it came to making a cash payment Egano had no trouble in raising the ante on his white rival, and the lady sold to the gentleman with the most ready cash. Egano is doing very well. He drives a nice McLaughlin car. His defeated rival for the Summerland ranch is now at Grand Forks growing fruit.

Imayoshi is another enterprising Japanese grower who waited till a mortgagee was putting pressure onto a white owner. He bought from the mortgagee and acquired a nice property coming into bearing. Inaba and Sato both bought from white owners.

Residents Talk Boycott.

At Summerland many Japanese lease from absentee landlords. T. Terai leases his orchard from a Brandon doctor; Jack Imayoshi leases his orchard from a Vancouver life insurance manager; F. Egano rents his from a Salmon Arm business man.

K. Imayoshi, who owns ten acres, leases another ten from a local resident; Jim Shimizu leases his 30 acres of orchard from a retired resident; Sam Uzawa leases his 25 acre orchard from another absentee doctor owner. Other Japanese who are working leased orchards at Summerland include K. Zoma, Joe Mori, H. Kovayoshi, B. Inaba, Y. Sata, Furuya, S. Uzawa, and R. Nagai.

Mr. Nagai is the latest of the Japanese contingent to move into Summerland and lease a farm. He came in this year. He has 50 acres under lease, of which ten acres are in orchard and the remainder in truck. He bids fair to become one of the largest ranchers and employers of Japanese in the district.

"How do the local residents regard the sale and leasing of land to Japanese?" I asked Mr. Tait.

"Feeling is deeply aroused by it. There is talk now of boycotting any white man who sells or leases to the Japanese. Some of those who have sold have expressed their sincere regret," he said.

"And are there many Japanese employed by white orchardists?"

"No. As a matter of fact the Japanese have no longer an inclination to work for white growers. They prefer to work among themselves and learn the business, preparatory to branching out on their own."

"Have the Japanese any difficulty in finding money for buying ranches?"

"No; when it comes to a competition between a white man and a Japanese, the Japanese labourer can usually find more money than the white man, wherever he gets it from."

Japanese Demand the Vote.

Just how alive both the Chinese and the Japanese are to the value of printers' ink and propaganda in the

Okanagan district is evidenced by two curious bits of "publicity" which came to my hand this week while up here.

One is the pamphlet of the Canadian Japanese Association demanding the franchise for Japanese who have taken out Canadian naturalization. It recites with a certain unctuousness portions of the judgment of Chief Justice MacDonald of the B.C. Court of Appeal on Japanese Rights. The decision is the recent case in which the Dominion Government secured an order restraining the Provincial Government from inserting in its contracts a proviso forbidding the employment of Japanese and Chinese on public works or on public lands belonging to the province.

The other is much more grotesquely humorous. It is in the form of display advertising sent out by a Quebec newspaper which claims to be the largest English daily circulated east of Montreal. The newspaper's own letter to a Kelowna paper explains itself as follows:

"We are enclosing two of a set of copyright advertisements which the Chinese colony has just completed running with the Telegraph, and which we think you will find it easy to arrange for with your local colony. The ads. are flexible and may be used in any city by merely altering the name and a few other small details."

"Here is an idea that will get you 2,000 lines of space without a bit of trouble—just get in touch with the secretary of the local branch of the Chinese Nationalist League and tell him how this advertising will make a better feeling for his people and so bring them more business."

"We have already written the branch in your city, so they are probably half sold on the idea already. The copyright of the series may be obtained for your city upon payment of \$25—this the colony will be willing to pay."

"We enclose an order form which you can get them to sign and send to us with \$25, when the set will be forwarded at once. Don't neglect this big space getting idea."

"Yours very truly,
"QUEBEC TELEGRAPH."
"per....."
"Advertising Department."

The text of the two advertisements is as follows:

No. 2.
How many are there? — Just now Quebec's celestial colony numbers about one hundred and fifty souls. They are all picked men.

Regulated by an organization that sways undisputed power and holds up a restraining hand against the ingress of aught but members of the strictest moral and ethical probity, Quebec's Chinese population holds none but good citizens.

The colony has no use for bad Chinese—if they don't measure up to the established standards they are asked to get out, and they get.

No. 9.

In the Treasure House of Memory—Your Chinese citizen stores up and keeps fragrant the impression your kindly look, word or act has made upon him. Chance courtesies mean a lot in the life of a man as far from home as he is—and they cost you nothing. If your laundryman seems shy, tongue tied, uncommunicative—just remember he's trying to do business in two alien tongues and try "The International Language of a Smile," chances are good you'll get it back with interest. He's human like yourself—and your effort to spill a little sunshine will gild the whole day for him. Now—go to it.

There's a Chinese Laundry near your home.

Rhapsodies Are Wasted. The rhapsodies and sob stuff of the gifted young prose-poet who drew up the advertisements is lost on the Okanagan, where the ribald youth writes on the hoardings "Swat the Chink." The editor of the Kelowna Courier, in declining the proposal through his paper, adds:

In spite of the horrible sacrilege of comparing the Chinese of Quebec to the Pilgrim Fathers, all this slosh is irresistibly funny, were it not for the painful fact that white men have composed it for money and are seeking to induce other white men, to print it for gain.

In the meantime thoughtful and far seeing men in the Okanagan Valley foresee Hawaii's fate and California's predicament looming before their own eyes in the near future unless enlightened public sentiment is

Motors And Good Roads

Good roads mean money in the pocket of every automobile owner. They mean comfort to the body of every automobile rider. Efficiency and economy of operation pay large and certain dividends on every dollar invested in highway improvements. As these improvements are extended even the man who neither drives nor rides on the open highway will take his profit from improved transportation of farm products and more rapid and economical communication in business and industry.—Chicago Tribune.

There is more money made by hurrying people than by instructing them.

aroused to the danger of the growing tide of Oriental invasion.

WEDDINGS.

Herne—Hardisty.

Peachland was en fete last Wednesday on the occasion of the marriage of Miss Rea Hardisty, daughter of Major Hardisty, and granddaughter of the late Senator R. Hardisty, of Edmonton, to Roy Herne, son of Mr. and Mrs. Edmond Herne, of Vancouver, late of Cardiff, South Wales.

The ceremony, at the Anglican church, which was beautifully decorated, was fully choral, the officiating clergyman being Rev. H. A. Solly, of Summerland. Mrs. Solly kindly undertaking the musical portion of the service. The bride, who was given away by her father, looked a charming picture in a dress of soft white satin and a lovely veil of fine net, beautifully embroidered with lovers' knots. She was attended by one bridesmaid, Miss Julie Cameron, of Vancouver, whose dress was soft peach colored georgette, the bride's small brother doing duty as page. Mr. Rex Pumpfrey acted as best man, he having served overseas with the bridegroom in the 72nd Seaforth Highlanders, in the late war. Amongst those who witnessed the ceremony were Major and Mrs. R. G. Hardisty, Mrs. R. H. Hardisty, grandmother of the bride, Mr. and Mrs. Edmond Herne, parents of the bridegroom, and Mrs. Graham, of Calgary. After the ceremony a reception was held at the home of the bride's parents, the bride cutting the wedding cake with her father's sword. In the evening the happy couple left by motor car for Penticton en route to Banff.

Mr. Herne has for the last eighteen months been taking an agricultural course at the Dominion Experimental Station at Summerland and successfully passed all his examinations. On their return they will take up fruit growing at Kelowna.

The Provincial Government recently paid out \$700 in bounty on crows in the vicinity of Oyster Harbour, Vancouver Island.

AN ADVENTURE.

(By Pochahontas)

So often we feel, after saying farewell to the youthful days when life is one great adventure, that there is something lacking; that the nights draw down too quietly; that yesterday morning was much like this morning, and that tomorrow will be an uninteresting repetition of today. Even in Summerland where the monotony of life is broken by occasional hailstorms or by heated discussions as to the exact unit in the nineties recorded by invariably infallible thermometers, there is at times this vague desire for excitement.

On Sunday evening last one section of a picnic party returning from Dog Lake had this unspoken desire fulfilled. While passing through the Trout Creek district a sharp eye in the front seat of the car discovered flames bursting from the window of a small house a short distance from the road.

The driver was entreated to pull up, the possessor of the sharp eye, with commendable presence of mind, ran to a nearby house to give the alarm, while the occupants of the back seat, though not in gymnasium costume, performed a hundred yard dash which, if repeated at the next Empire Day sports, will win them, if not fortune, undying local fame.

Nearing the burning building, the winner uttered a war-hoop (the savage ferocity of which can be accounted for only by the alleged presence of a North American aborigine in her remote ancestry), followed by a full-throated cry of "fire."

The startled occupants of the burning building issued from various doors, and to the good-intentioned disturbers of the Sabbath calm their aspect was almost threatening as they remarked, indicating an extremely active smudge pail set close under a window, with leaping flames showing the insect world the way in, and smoke rolling off to keep the frost from the fields on the Experimental Farm.

"Fire! Where?"

Annual Irrigation Convention Closes

(Continued from Page 4.)

would be the crop return. Excessive irrigation leached out the soil and caused seepage. Seepage, if permitted, would eventually ruin all the lower levels of the Okanagan. Many farmers thought they should apply as much water as possible at each irrigation, but as a matter of fact, three to five inches was ample.

The speaker alluded to the tremendous waste of water from earth irrigation ditches. He declared that for his part he would only allow water to run in these ditches when actually being used.

The convention gave the speaker a standing vote of thanks.

In the absence of Hon. T. D. Pattullo, minister of lands, Deputy Minister G. R. Naden read a message from his chief. This paper recited the fact that dry belt companies had fallen into financial difficulties, but the matter had largely been straightened out when the government created a conservation fund and provided assistance in conserving and distributing water to irrigationists. This fund totalled \$3,000,000 of which \$1,350,000 had been distributed. At the outset it had been said that ten years would be required to solve the irrigation problem. Five years had now gone by since the present government grappled with the problem and the difficulties had so far been fairly well met.

Resolutions were adopted setting forth the appreciation of the work done by the government during the past twenty years toward irrigation in the west and recommending that the Dominion government keep up with the United States government in the scheme whereby both might co-operate in making satisfactory arrangements for the use of water from the St. Mark and Wateron lakes in Montana. It was pointed out by the committee that these lakes could supply a large Canadian acreage with water, providing a joint arrangement could be made with the two governments.

This resolution follows on the previous one and asks the government

Subdued, but cooler than if they had been right, the sprinters returned to the car, laughed all the way to Summerland, and still feel that an old tin smudge pail included in the stocktaking made it possible to say, "the end of a perfect day."

to ascertain how much water Canada is entitled to take from these lakes;

That the Dominion government be urged to hasten the surveys relating to the taking of water from the St. Mary and Lake rivers which are subject to the treaty between the United States and Great Britain.

Following are the officers elected for the coming year:

Honorary President — Sir James Loughheed, minister of the interior.
 President—Hon. J. A. Maharg, minister of agriculture for Saskatchewan.

Honorary Vice-Presidents — Hon. E. D. Barrow; Hon. T. D. Pattullo; minister of public works for Alberta; minister of highways for Saskatchewan; G. R. Marnoch, Lethbridge; W. H. Fairfield, superintendent experimental farm, Lethbridge.

Vice-Presidents — D. J. Wylie, Maple Creek, and Walter Huckville, Medicine Hat.

Executive—G. S. Herringer, Maple Creek; Mayor Purcell, Brooks; A. S. Dawson, chief engineer C. P. R. irrigation systems, Calgary; V. Meek, Calgary; G. M. Houston, Lethbridge; Peter Lund, Coaldale; Grote Sterling, Kelowna; E. R. Simpson, Summerland.

Secretary—James Colley, Calgary. Maple Creek, Sask., and Brooks, Alta., were jointly selected Friday afternoon by the delegates to the irrigation convention as the place of next year's meeting.

Do unto the printed matter of others as you would have them do to yours.

T. B. YOUNG

Uncle Tom's Cabin

An announcement that will please both the older and younger generation of theatregoers is that of the engagement of Stetson's "Uncle Tom's Cabin," which will appear at the Empress Theatre for one night, August 10th. It has been some time since this enduring drama has been seen here and the producer brings a company of forty talented players, with excellent stage accessories, Cuban bloodhounds, colored singers, dancers and entertainers for the plantation and auction scenes, and a band and orchestra of picked musicians. A novel street parade will be a daily feature of the engagement consisting of band, ponies, chariots, floats and novelties.

The man who does not advertise because somebody said it did not pay, ought not to believe that the world is round because the ancients said it was flat.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 5 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may seek another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the late war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for 5 years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Read The Advertisements

THE PUBLISHERS of this paper draw your attention to the advertising columns, and particularly to the advertisements of our merchants.

These merchants have invested their money in goods to satisfy the needs and desires of us all.

Their enterprise is a distinct service to our whole community. For this reason we should buy from them to the best of our ability and in so far as our needs and judgment of value dictate.

Then, too, the general commodities advertised in our columns are worthy of consideration. It is desirable that readers should ask merchants to supply advertised goods wherever possible. By doing so the cycle of trade is kept alive and inter-community commerce stimulated.

WE REPEAT—READ THE ADVERTISEMENTS.

SCHOOL BOARD FAVOR VOTE ON SCHOOL BY-LAW

Conveyance Contracts Awarded For Coming Year.

GARNETT RESIGNS

Further Accommodations Considered At Meeting Of Trustees On Saturday Evening. Accounts Ordered Paid.

That the Trustees are in favor of re-submitting the new School By-law to the electors, was the answer given to the Municipal Council's enquiry at a meeting of the School Board, on Saturday evening last, when all the members of the Board were present. Mr. T. J. Garnett submitted his resignation from the Board, which was regretfully accepted, and steps will be taken to elect another trustee to take his place.

Accounts for payment amounting to a total of \$752.82 were duly considered and passed.

A communication from Mr. S. Danks stated that the Theatre building would not be available for school purposes, and it was decided to make use of the present manual training building as temporary school quarters, after providing it with proper ventilation, and to provide another structure for manual training.

Tenders for school conveyance were opened, and were awarded as follows:

Route No. 1, Summerland to Central School, via Peach Orchard to A. E. Smith.

Route No. 2, Trout Creek to Central School via lake shore and Gulch road, to W. E. Rines.

Route No. 3, Giant's Head to Central School, to T. J. Garnett.

Route No. 4, Paradise Flat to Central School, to H. Dunham.

Route No. 5, Prairie Valley to Central School, to Smith & Henry.

Route No. 6, Garnett Valley to Central School, to Harvey Walton.

It was decided to call for tenders from local tradesmen for painting the school buildings.

LOCAL MERCHANT AVERTS FIRE LOSS

Spontaneous Combustion Caused By Sun's Rays On A Pile Of Oakum.

What might have been a disastrous fire in West Summerland was narrowly averted on Wednesday, when a peculiar case of spontaneous combustion occurred at the premises of W. W. Borton's plumbing and heating business in town. Pat Borton returning to the store with the truck, whilst some distance away, sighted smoke coming from the building, and concluded that Mr. W. W. Borton was doing some work in the shop. Imagine his surprise on entering to find that Mr. Borton was not there, and the premises were in a blaze. At some risk, and with considerable damage to his hands, he managed to subdue the flames, and averted a serious loss.

It appears that the sun shining through two window lights, had concentrated its rays on a pile of oakum, which smouldered, eventually bursting into flames. Had Pat been but a few minutes later in arriving, nothing could have saved the building and contents from being a total loss.

OUR CHERRIES IN CHICAGO.

At Monday's auction sale the Okanagan United Growers, Vernon, B.C., had the first car of British Columbia cherries in this market. The car consisted of 936 crates of 15 pound faced lugs pretty well divided between Windors, Royal Annes and Bings. The Bings averaged \$3.75 per crate, the Windors \$2.65 and the Royal Annes \$2.05. This car was of very fine quality and local buyers were very much impressed with this stock from British Columbia. — Chicago Packer.

Halifax, N.S.—A bumper apple crop is expected in the Annapolis Valley this year and it is estimated that over a million barrels will be available for export, all of which will pass through this port.

SAYS OUR SYSTEM BETTER THAN OUR SISTER PROVINCE

L. C. Charlesworth, deputy minister of Public Works for the province of Alberta, paid a flying visit lately to Summerland, in order to renew acquaintance with his old friend Mr. Clarence Craig, and was greatly interested in our local irrigation system; and charmed with the look of our orchards.

Mr. Charlesworth was very much impressed with the system we have of taking care of the waste water, and stated that it is much better than the irrigation system in Alberta where the roads are continually being flooded by water users with consequent loss and damage to the highways.

SISTER TOWN HAS GOOD PROSPECTS

Naramata Growers Have Best Crop in History.

The erection of the new fruit building is proceeding rapidly under the direction of the contractor, H. W. Harvey of Summerland, work on the second storey being now in progress. The lot between the present fruit building and the one in course of erection has been secured, and it is the intention to put up a one-storey warehouse on this lot, in order to connect up the old and new buildings.

The new Cutler grader of 2,000 box capacity is on the way and is expected to arrive immediately for installation, and will replace the present graders of only 700 boxes, which have been disposed of.

INVESTIGATORS FIND WATER LOSS

Council Advised Of Plan To Save Seepage And May Act Upon Same.

As a result of a cursory investigation made by Chairman Kirk of the water committee, following visits of himself and Foreman Tomlin to Upper Trout Creek, Mr. Kirk declares that there is a considerable loss of water between a point at Faulder and the intake to the Summerland irrigation system. Measurements were made and without having worked these out, Mr. Kirk made the statement at a meeting of the water committee last Saturday, that he was confident that quite a volume of the water in Trout Creek disappeared within three-fifths of a mile of the municipal head gate.

For some years the statement has been heard from time to time that there is some loss of water along the gravelly bed of the creek in that section where the channel is nearly level. It was stated by Mr. Kirk at the above meeting that a channel could be dug from the present intake up the side of the creek about three-fifths of a mile which would make it possible to carry nearly the full volume through the intake. This matter is receiving the immediate attention of the Council, and it may be found that this will be the best expenditure possible in order to increase the supply for irrigation purposes.

Hospital Receives \$5,000 Present

The Provincial Government has recently forwarded a cheque for \$5,000 as a grant toward the building of Summerland's new hospital. A grant for a like amount was given last year.

Of the grant of \$15,000 in the form of debentures, made by the Municipality, there still remains to be sold \$8,100. As the Society is now in need of this and some other funds to clean up its obligations, plans are being made for the putting on of a campaign to sell the bonds among the citizens of Summerland, and to raise the sum necessary to pay off the balance owing on the building and equipment.

A concern is being started in British Columbia to manufacture Battery Separators. In the past British Columbia cedar has been shipped east for this purpose.

SESSION BRIEF BUT BUSY ON TUESDAY P.M.

Important Matters Handled By Councilmen.

REEVE IS ABSENT

Wage And Monthly Accounts Passed Amounting To About \$5,000. School By-Law Matter Laid Over.

With all members present with the exception of the Reeve, the Municipal Council meeting was held on Tuesday afternoon, and was but a short session in comparison with the length of the usual sittings.

Coun. Kirk was appointed a delegate to the Convention of the Union of B.C. Municipalities to be held at Port Alberni from August 31st to September 2nd.

Complaints of damage from seepage water were received from S. A. Denike and E. R. Nightingale of Prairie Valley, and were referred to the water committee.

The electric light committee submitted their report of proposed extensions and alterations necessary in order to link up with the Kootenay Power Company, which was laid over until Mr. Lorne Campbell, manager of the Company, met with the Council, which it is expected will be shortly.

The matter of the School By-law was, owing to the absence of the Reeve, laid on the table for a full meeting of the Council.

One domestic water connection was granted to W. C. Kaley for his new cement building site, and two electric light connections were authorized, one to G. J. Coulter White for his building near the Baptist Church, and the other to the Chinese laundry down town.

In connection with a complaint that had been made by Mr. H. C. Mellor, Mr. A. A. Derrick attended the Council meeting and explained the reason of him taking the water on the occasion referred to, namely the 17th July, the fact being that he understood it was his turn that Sunday to make use of the water.

The usual wages and monthly accounts were passed for payment on the 15th inst., amounting to about \$5,000.

Chute Lake Mill Near Completion

Ideal Spot For Mill Site. Some Machinery Yet To Come.

The box factory and mill being erected at the foot of Chute Lake is fast nearing completion and the greater part of the machinery is being installed. The stacks have been raised and the boilers bricked in, but owing to delays in shipments some of the equipment cannot be placed, which is causing loss of time. However it is expected that the missing parts will arrive at any time now and installation completed.

When completed the new mill will have a capacity output of about 3,000 boxes per day. The site is well chosen for a mill, being located on the lake which will be used for a pond to float the logs to the saws, and its nearness to rail transportation, making it possible for quick shipments.

According to a statement with which Mr. Robert Carswell, in charge of lumbering operations, has been credited, an excellent quality of box material, consisting of spruce, jack pine, white fir and balsam are available.

Ashcroft Has Blaze

The village of Ashcroft suffered a \$10,000 loss last week when the power house and contents were destroyed. Since the fire the town has been in darkness and the residents are forced to resort to the old coal oil lamp for some time until the plant can be rebuilt. The origin of the fire is unknown.

Victoria, B.C.—The preliminary report of the Provincial Minister of Mines shows that more than thirty-five million dollars worth of minerals were procured in British Columbia during the year 1920.

NELSON & PECKHAM BUY SUMMERLAND GARAGE

A deal was consummated the past week whereby C. P. Nelson and B. J. Peckham become owners of the Summerland Garage, having purchased the same from Mr. Hatfield. Mr. Nelson has been a resident of the community for many years and is well known to all, while Mr. Peckham has been until recently travelling mechanic representative for the Giant Truck people. He is an expert in the automobile line and will devote his attention to the mechanical end of the business and Mr. Nelson will have charge of the business office.

A large lathe has been put into commission and an expert lathe man engaged. The new firm is in a position to serve the public in the best manner in its line.

Supply Of Water Enough For Season

Men At Headwaters Confident There Will Be No Shortage.

There was a snowfall on the night of Thursday last, August 4th, when cool weather was enjoyed following several hot days. This is what the men who are at the headwaters opening beaver dams and cleaning the channels reported when they returned last week end.

The water flow in Trout Creek is holding up remarkably well and it is now confidently anticipated that the season will end without any shortage of water.

ISLAND MEMBER'S INITIAL VISIT

Expresses Surprise At Wonders Of Valley—Will Come Again.

Canon Hinchcliffe, member in the Legislative Assembly for the city of Victoria was a visitor to Summerland on Friday, and was accompanied by Mrs. Hinchcliffe. They were brought down from Kelowna by J. W. Jones, M.L.A., and Canon Hinchcliffe called at the Municipal Office, and at the office of the Reeve to learn what he could of municipal affairs in this part of the province. He is specially interested in municipal government, being a member of the municipal committee of the House.

Like others from the Coast who have visited the Okanagan for the first time, Canon Hinchcliffe was very much surprised with what he saw here, and having become acquainted with this beautiful valley he promises himself other visits to British Columbia's premier fruit belt.

Mr. Jones spent Saturday here and at Peachland, returning to Kelowna that evening.

Box Car Goes Into Lake When Apron Pin Breaks

A repair crew was called to Summerland Tuesday, arriving about six o'clock in the evening, to remove a box car which was accidentally dumped in the lake during the morning. The car was loaded with cord wood and was being switched to the Summerland Fruit Union track by a local transfer. The car was pushed back on to the apron at the slip and while throwing the switch was precipitated into the water when the pin holding the apron in place broke.

The work crew unloaded the wood from the car and endeavored to raise the car on the apron by the aid of the pile driver outfit, but found it impossible, so pulled the car into the lake and out of the way. The apron was repaired and only a short delay experienced in shipments.

HAS APPLE ORDERS FROM MANY COUNTRIES

Kelowna, B.C.—One local apple shipper has already booked export orders for the United Kingdom, Holland, Belgium, Scandinavia, South Africa, South America, New Zealand, Australia, China and Japan, in addition to the usual Canadian and American markets. Delivery is to be made this autumn.

SAYS AVERAGE GRAIN CROPS FOR PRAIRIES

Late Rains Are But Little Benefit To Grain.

HARVEST STARTED

Hot Weather And Rust Will Shorten Oat And Barley Crops, Says Bank Report.

While not quite so rosy as earlier bulletins the latest report of its crop survey issued by the Bank of Montreal is, on the whole, an encouraging one. On the prairies, our chief market, there will be a good average grain crop. Here in B.C. the crop conditions generally are good.

The Bank's report follows:

PRAIRIE PROVINCES.

Edmonton District.—Wheat and oats promise good average crop. Hay lighter than usual. Plenty of moisture; no damage reported.

Calgary District.—Whole district visited by rains which though helpful were too late to be of much benefit. Fair to average crop expected north part of district, but in south crop light.

Lethbridge District.—Heat of past two weeks will lower yield. Heavy rains south district and some hail. Late rains are profiting by rains and there is no danger of a feed shortage. Grain crop estimated at two-thirds of last year's crop.

Regina District.—Prospects above average with continued favourable conditions except in extreme west where drought damage is heavy. Late wheat crop will suffer somewhat from rust and fly. Oats promising well.

Saskatoon District.—Cool weather has made good crop growing conditions; heavy scattered hail losses. Wheat expected to average 15 bushels. Poor crops in certain districts, but in immediate Saskatoon district conditions good. Oat crop and pasture good.

Winnipeg District.—Considerable (Continued on Page 6)

BOYS RETURN FROM "HIGH OLD TIME" AT CAMP

The "Y.R." Camp consisting of a dozen boys of the intermediate class of the Summerland Baptist Church, with Camp Leader G. R. S. Blackaby, their teacher, in charge, aided by Charlie Clarke as Second Leader, returned from a seven days holiday at Miller's Point on Wednesday, after having a "high old time".

The boys rose at 6:45 a.m. and paraded for the hoisting of the Union Jack and the special flag of the camp presented by Mrs. Geo. Inglis. The morning was spent in acquiring useful knowledge, such as compass work, knot tying, etc., varied with a swim at intervals. Lunch was on at 12:30 followed by a compulsory hour of rest. The afternoons were spent in instruction, and another swim, supper being partaken of at 6 o'clock. Games were played in the evening until sunset, when after lowering the flags, camp fires were lighted. Mrs. Miller was the cook for the party, and before leaving the table at the last meal, three very hearty cheers were given her by the boys.

Visitors' day was Saturday, when water sports were indulged in, and excellent diving and swimming were exhibited. One funny incident was the non-swimmers' race, when each contestant swam at least 50 yards and some almost 100 yards.

Although the camp was a decided success and much regret was expressed when the time came to leave.

Moderation Act For Codling Moth

Wenatchee.—Frank Schnell, an orchardist, has worked out a new plan for handling codling moths. He hangs ciders in the trees containing hard cider made from last year's wormy apples. The moths flock to the cans, get drunk and die. The experiment is so successful that he will begin early next spring with cans through the entire orchard.

Somebody asks, "How can you expect to make a 'hit' if you have no aim in life?"

EGG PLANTS FROM SUMMERLAND FIRST ON COAST MARKET

Summerland had the first egg plant from the Okanagan on the Vancouver market this season, according to The World of August 6th, which says:

The first egg plant from the Okanagan Valley to reach the local market this year came in this morning from a Japanese shipper of Summerland and sold at 15c. to 25c. a pound. Tomatoes and vegetable marrow were also received from the same section, the former selling at \$2.50 a crate and the marrow at 6c. a pound.

ANOTHER PUPIL PASSES MATRIC

Summerland Pupil Receives Due Recognition From Department.

Word has just been received from the Department of Education at Victoria that Miss Isabel F. Davidson of the Summerland High School, one of the candidates at the examinations in June, has satisfactorily passed.

When returns were given out at the end of July, Miss Davidson's name was amongst those who failed, and the Department in notifying her of her success, express their regret over the mistake made in the first place.

MORE WATER FOR FRUIT GROWERS

Beaver Dam at White Head Lake Can Be Utilized, Says Engineer.

That some eighty acre feet of water might have been stored in a beaver dam last winter had the dam been repaired, is the statement made by Engineer J. C. Dufresne who has been making a survey of the water shed to Trout Creek.

The dam referred to is at or near Whitehead Lake and was opened several years ago in order to provide that much additional water. It was expected that the beavers would immediately repair the dam, but it is now found that they have forsaken the district. Comparatively a small amount of labour would have put the dam in condition for holding water, and while that particular section offers no good storage site, it will probably be found worth while to utilize the beaver dam to conserve what water it will.

Summerland Eggplant Are Finest of Season

Under the heading "Okanagan Egg Plant Finest of Season" the Vancouver Province says:

Mr. Joseph Pennant of Summerland is responsible for the shipment of the finest eggplant seen on Water Street this season, several boxes of unusually high grade stock having arrived this morning. The size is considerably larger than usual and the color is fully equal to anything shipped in from California at any time of the year. The price is 20 cents a pound.

To-day's novelty is a box of what is described as "lemon cukes," which appear to be a combination of both lemon and cucumber, and about the size of the former. The skin is about the same texture as the "cuke" and the color is a whitish yellow. They are being experimented upon at Peachland. There was not much of a demand.

Two carloads of mixed fruit and vegetables rolled in from the Upper Country. The new potatoes are moving at \$1.85 to \$2, peach plums at \$2, sickle pears \$1.25 per half box and triumph peaches in four basket crates around \$1.53. The peaches were almost in the over-ripe stage.

There were also some musk melons from Peachland which were disposed of at \$4 per apple box. Small white pickling onions were shown for the first time at \$2 per box of about 17 pounds. Local greengage plums were easy at \$2 a box.

"Lady Lena," a barred Plymouth Rock hen, registered at the Dominion Experimental Farm at Kentville, N.S., laid one hundred and four eggs in one hundred and four days, and is, the Halifax Morning Chronicle asserts, the champion of the world. During 1920 she laid 246 eggs.

ESTIMATES FOR LIGHT CHANGES ARE SUBMITTED

To Convert System To Link With Kootenay Power.

COMING THIS FALL

Total Expenditures In Making Change About \$2,670. Extensions Considered In Five Separate Units.

The electric light committee of the Municipal Council has been busy preparing estimates covering the changes necessary to convert the electric light system over to link up with the Kootenay Power line, which it is expected will be to a central point in the municipality this fall.

Details were presented by the committee at a meeting of the Municipal Council held on Tuesday. Change of transformers, line changes, and other necessary expenditures, totalling \$2,670. At present the street lights are on the distributing circuits, under which arrangement they must burn all the time the power is on. It will be necessary to change this and put the street lights on separate circuits in order to save power. The rebuilding of these lines will cost, according to the estimates submitted, \$2,475.

Extensions were considered in five separate units, and estimates given on each. One running east and around south of Giant's Head, another serves Trout Creek Point, and a third Prairie Valley, while another circuit covers Jones Flat, and an estimate was also given for extending the line well up into Garnett Valley.

LITTLE THEATRE AGAIN HAS PLAY

Ella VanValkenburg in Alice Sit By The Fire Displays Remarkable Powers.

Another pleasing form of entertainment was given last Monday evening at The Little Theatre, Naramata, when Ella VanValkenburg (Mrs. Maurice Browne), a distinguished player of Seattle, gave an impersonation of the characters in J. M. Barrie's "Alice Sit By The Fire" in which Ethel Barrymore takes the title role.

Before the curtain went up, Mr. Carroll Atkins addressed the audience, and in an eulogistic and very complimentary manner introduced Mrs. Browne, to whom he said the modern American stage owed a great deal.

With a background of curtains of a green shade, the only furniture on the stage being a single chair, Mrs. Browne without a perceptible pause went through three acts, occupying about two hours, giving her impressions (after seeing one performance of the play), both in voice and action of the different characters.

Although not a full house, there was a good attendance, and we are inclined to think that if there had been better advertisement there would have been more gratifying results.

MANY SUMMERLANDERS AT KELOWNA REGATTA

Quite a number of Summerland people attended the Kelowna Regatta on Wednesday and Thursday, most of the visitors going up on the latter day. The C.P.R. steamer Sicomous ran nearly two hours behind schedule time to accommodate excursionists and took quite a few from here. Many others motored up while C. B. McCallum took his motor launch "Calgary" with a party of six, including Dr. Coultas, Messrs. Zimmerman, Bentley, Peckham, H. Gray, and A. G. Williams. Mr. McCallum went up with the intention of entering his boat in some of the races, but at time of going to press we have not learned with what success he met. The machinery of the "Calgary" has been recently overhauled and she should be in good trim.

The man who doesn't advertise because he doesn't know how himself ought to stop eating because he can't cook.

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Friday by THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

FRIDAY, AUGUST 12, 1921

ART PERPETUATED BY SCIENCE.

Enrico Caruso, the silver voiced, is dead. But the march of science has seen to it that his art will not die with him. Through the medium of the phonograph thousands—and it might be no exaggeration to say even millions—have come to know the wonderful voice. The great majority of these people would never have had the opportunity of hearing Caruso in the flesh; perhaps but for the phonograph they might never have heard of him. Today however the name of Caruso is known in all lands, and Italy is mourning as for the passing of a national hero, and not much less so the United States, the land of his adoption.

True to the aversion which the human race seems to show towards advanced ideas in any line of endeavor, some of the great artists of the opera house were strongly against lending themselves for any such purpose as the reproduction of their song. It would be prostituting their art, they said. Science did not allow their objection, however, and now the foremost of the world's talent in music have had their art perpetuated for all time by the aid of the same mechanical device which was at first despised. Their gift of song has been sealed for the future, and like that of Caruso, their names will live forever. Jenny Lind was perhaps one of the greatest singers of all time, but she lived before the era of the phonograph. Thousands went to hear her, and some live yet who remember vividly the wonderful charm of that voice. A few years more and all memories of Jenny Lind will be gone, while Caruso will still have the world for his audience.

The old adage of the copy book says that peace hath its victories no less renowned than war, and surely that of voice reproduction, with its many ramifications reaching out into the everyday life of the nations, must be among the greatest.

—Cranbrook Herald.

PRODUCTS GROWN IN CANADA.

Products grown in Canada should be better advertised. When it comes to growing grains, fruits and vegetables, none better are grown than those produced in Canada. But there is something wrong when the States to the south find our market centres a profitable dumping ground for their surplus produce.

A splendid movement is abroad through which Canadian manufacturers will benefit. Farmers are urged to purchase implements and other necessities that are manufactured in their own country; which is perfectly right and proper. But why not go a little further and include in the same campaign a movement educating the housewives of Canadian manufacturers and others to give preference in purchasing the farmers' products also. It would appear that such a movement would be entirely consistent.

The past year has seen the importation of more than \$64,000,000 worth of produce into the market centres of the Dominion, in excess of exportations. There is something wrong here, when we realize that Canada is an agricultural country.

British Columbia soda fountain dispensers last year in the making of sundaes and other confections, used \$100,000 worth of crushed fruit, of which British Columbia growers benefitted to the extent of only \$570.00, according to an authoritative statement, the remainder of the fruit being imported from the United States.

The Canadian people are loyal to their own country. They are progressive and alert, courteous and contented, but greatly lacking in understanding of those cardinal principles of loyalty to one another when it comes to trade. They are too easy going for their own welfare in this respect, with that neighborly spirit of "live and let live" prevalent everywhere. But the time is at hand when a change must come, if we are to get ahead and no better way can be devised than through educational channels. Advertising our products will do the business in less time than any other means.

In our last issue we reproduced an article written by J. S. Cowper for the Vancouver World. Mr. Cowper has written a series of articles from different parts of the province on the question of the Oriental on the land, and this from Summerland was the fifth of the series. We feel that Mr. Cowper wrote rather hastily when he described Summerland as the Japland of B.C. There are very few Japs here compared with several other fruit growing districts of the Okanagan and Lower Mainland, and but five own land here, totalling 45 acres.

WHEAT READILY SOLD.

Winnipeg, Manitoba.—No difficulty will be experienced in marketing the Canadian wheat crop this year despite the wheat restrictions imposed by the United States on Canadian wheat, according to Dr. Magill, secretary of the Winnipeg Grain Exchange. Dr. Magill intimated that English buyers were already in the market for vast quantities of Canadian grain and that the United States will have to buy large quantities in any event.

TO MAKE FERTILIZERS.

New Westminster.—The Triangle Chemical Company, which has just been incorporated, will immediately establish a plant costing about \$50,000 on waterfront property which has been leased on the North Arm of the Fraser River. It is the Company's intention to manufacture sulphuric and muriatic acid, super-phosphate and a full line of chemical fertilizers as well as to deal in all materials from which standard fertilizers can be made.

New World's Record Established Sunday

Two Summerland Men Perform Feat Yet Unequaled.

Summerland is the home of at least two distinguished men. To these individuals must go the glory of a feat performed unequalled in the annals of man, according to authentic reports. There is no chance for mistakes to creep in for the writer witnessed the event and knows full well whereof he speaks. Others witnessed parts of the performance and if there should arise any contention or disbelief there are other evidences at hand to substantiate the claim set forth. Read on:

Sunday morning two Summerland athletes departed from the Hotel Summerland at 7.15 o'clock, covering the first two miles by auto and the balance of their journey of fifty-nine miles by train; dismounting, they walked back to Summerland in time for supper at seven o'clock the same evening, the last lap of three miles being made by boat. The combination age of these men is 109 years and their combination weight about 350 lbs. in travelling attire.

There may be other cities in the Dominion harboring men who can equal this phenomenal feat, but we have yet to hear or read of it. The local men are hale and hearty to-day and offer to repeat the performance for the small sum of \$5,000 or more—but no less.

Both claim the thermometer would have risen to upwards of 110 in the shade about four o'clock on that afternoon, and that in many spots the shade was quite conspicuous by its absence. They declare the experience to have been all that could be desired, but hastened to their couches early after arrival, singing one stanza of "The End Of A Perfect Day."

Names of the gentlemen holding the title are withheld for political and other reasons, but may be had upon application.

FRUIT ADVERTISING NOW APPEARING

Co-Operative Scheme is Meeting With Much Success On Prairies.

The first advertisements of the big fruit campaign which is being carried on throughout Western Canada this summer to stimulate the sale of British Columbia fruit, have already appeared in the newspapers and with the publication of a large list of farm papers there will hardly be a publication issued in the west but which will carry the advertising.

Already newspapers have given considerable space to the campaign and have referred to it in their news columns.

The wholesale fruit dealers of the prairies are lining up behind the campaign and prominent Okanagan shippers who have just returned from the prairies tell of the enthusiasm which is being displayed by the jobbers and their travellers.

They realize the importance of advertising and how it helps to sell fruit.

The advertising will appeal to the housewives to place their orders with their grocers early lest they be disappointed. They are also being kept informed as to when the different fruits are available and when they will be on the market. The advertisements also give information as to the crops and when the next fruit crop will be arriving.

A folder has been sent to 8,000 fruit retailers from the Great Lakes to the Pacific Coast.

The jobbers have all been told about the campaign and are co-operating in every way possible.—Vernon News.

"Over expansion and consequent financial embarrassment have caused in many localities a pessimism which is not warranted by the fundamental soundness of Canadian conditions and its almost unlimited natural wealth." —E. W. Beatty, President C.P.R.

WHAT BRITISHER SAY OF THE REVIEW

Writes of Fruit and Crop Prospects in England.

Not infrequently to the publishers of The Review receive requests, from people looking to the Okanagan for an opportunity to establish themselves, for sample copies. One such request was received a few weeks ago from a resident of England and acknowledgment of the receipt of the paper is made thus:

The Editor, Summerland Review: Dear Sir,—Thanks for the copy of your excellent newspaper to hand. It is a live little organ, and the news service is alert and well set out. The community in the Summerland district have every reason to be proud of their newspaper, and it is far superior to any journal in the agricultural and fruit-growing areas in this country.

As a small country newspaper it compares more favorably than those of the small towns over here with population of 40,000, and I wish your journal every success.

You may be interested to know that the fruit crops in England are very poor and this owing to the continued drought which has lasted for over 160 days.

The hay crops have been very thin and the corn is ripening now and promises to be poor. So far there has been comparatively no damage caused by frosts, but the lack of rain has spoiled what might have been the best fruit and hay crop for many a long year.

Oats have done very badly, too, and there are prospects of a shortage of fruits, hay, oats and even root crops.

Now that the coal strike is over the industrial situation is slowly recovering and the rock bottom prices of foodstuffs has been reached. There has been a slight rise in prices the last fortnight and the effect of the poor harvest is likely to result in a great shortage of foodstuffs, for the drought is affecting the whole of Europe. The largest importers of foreign foodstuffs prophecy very firm prices will rule throughout the coming winter.

I trust to visit "Summerland" in September, and shall probably settle down in your vicinity. Your slogan, "Be Loyal to Your Own Community," is quite consistent with the whole atmosphere of your paper.

Not having received his permission we refrain from using the writer's name at this time.

Jules Misch—"Say, Otis, do you believe in heredity?"

H20 Weaver—"Most assuredly I do. Why, for instance, my month-old girl is continually trying to get her toes in her mouth. This I lay to the fact of her dad's constant struggle to make both ends meet."

IS YOUR CAR INSURED?
I'll be glad to explain the different branches of Auto Insurance to you, and can cover you for ANY ONE OR ALL risks. All lines of insurance written—Fire, Life, Accident, Sickness, Casualty and Automobile.

Hot Weather Coolers

Some men can't speak in public while others find it so easy they can't stop.

If you don't get on very well these warm days it probably isn't for lack of good advice.

If a man hasn't anything but a long line of excuses, people soon lose interest in his samples.

The fellow who is willing to tell all he knows, is likely to go farther and guess at a lot more.

That the constant drip of water will wear away a stone is true, but it's a slow process. Muscle and a hammer will do it quicker.

While thousands of labor saving machines are being invented in all lines of business, we don't see why someone doesn't invent one to write editorial squibs. Vacation time is here and the fish are biting fine.

The breakfast food barons have been at it quite a while, but to our way of thinking they haven't produced anything to take the place of ham and eggs.

It is alright for any man to go into business for himself, but it's no sign that he will be his own boss.

BIRDS SHOULD BE PROTECTED

Their Worth Becoming More Recognized By Farmers.

It may appear startling, but it is a fact that if all the insect pests ravaging our crops could be suppressed, and all the plant and tree diseases eradicated, and the increased revenue derived by the country there-by could be turned into the Dominion Treasury, there would need be no question of taxation. This idea is largely substantiated by the fact set forth by the Entomologist of the Dominion Department of Agriculture that a conservative estimate of the annual loss in Canada to field, orchard and garden crops due to destructive insects is upwards of \$200,000,000. As our authority says: "To this huge devastation must be added the enormous annual destruction caused by forest insects, etc." Upon this statement the entomologist founds a well-sustained argument in favor of the protection of the insectivorous birds, such as the prairie horned-lark, the robin, the somewhat despised crow, the red-breasted Nuthatch, the western tanager, the myrtle warbler, the chick-

adee, grouse, gulls, and many other kinds.

In the state of Iowa it has been estimated that tree sparrows annually devour something like 895 tons of weed seeds! Speaking of the robin, an investigator in Toronto found that a single bird kept in confinement ate 165 cutworms in one day. Another authority states that a brood of prairie horned-larks consumed 400 cut worms in one day. This same authority, namely Mr. Norman Criddle, Dominion Entomologist in Manitoba, declares that six crows are capable of consuming three bushels of grasshoppers in one season. It is recorded that in certain places in Manitoba areas of growing grain have been saved from destruction by the pestilent grasshoppers owing to the presence of large flocks of gulls. In light of these facts it is gratifying to be informed by the Dominion Entomologist, Mr. Arthur Gibson, to-wit, that the importance of protecting our useful birds is becoming more and more recognized by farmers and fruit growers.

The REVIEW

MUNICIPAL AUTO CAMPS

By W. E. Koehring.

Under the sub-title of "No City Can Afford to Sacrifice its Reputation and Hospitality by Neglecting the Stranger Within its Gates," W. E. Koehring, who describes himself as a farmer of Lawrence, Kansas, in the following article in "Kansas Municipalities" urges the setting aside of certain open spaces as auto camps for tourists:—

Without question the first and original tourist travelled afoot. It is also equally certain that he camped out. He did both from necessity. He may have liked walking, but the liking for it did not persist in his successors to the extent of causing them to reject other modes of travel when offered. But that camping out satisfied a real longing of his nature seems clear from the persistence with which one type of successor, the auto tourist, clings to that practice. It is this camping out idea that makes the auto tourist something of a problem to the community through which he passes. The filling station, the service station, and the auto accessories shop amply provide for all his needs in motive power, lubrication, inflation and all other possible and impossible needs and facilitate in every way his journey, as well as the spending of his money. And the sign, "Oxy-acetylene welding done here," appears in the most unexpected, surprisingly remote, and, with present conditions of roads, welcome places.

If you are out yourself day after day, you will meet the tourist varying greatly in the completeness of his equipment, reflecting on the neatness of his appearance, the condition of the roads and the state of the weather, and also, strikingly, his love of order or slovenliness. Bliethly individualistic through the day, sufficient unto himself, as the day draws to a close, seeking some common point at which to gather and spend the night with others. This natural social instinct is fostered by a variety of causes. A certain timidity and dread about camping alone in the open in a strange community is felt by many. Another factor is the desire to discuss the condition of the road and routes of travel with those who have just been over them, and to learn of the best camping places on ahead. The fact that it is more satisfactory to buy food supplies in small quantities as needed rather than carry large supplies, and the further fact that an abundant supply of water of desirable quality can usually be found in town or city and not always elsewhere, determine the point of gathering.

Most towns and cities that are so situated as to have any considerable number of auto tourists passing through are recognizing a very obvious situation and are making an effort to meet it by providing some sort of a place for them to camp. In some places this has been done in a spirit of true hospitality, with a studied attempt to provide for the needs and comfort of these travellers. With others, the response has been very reluctant, with no thought even for the absolute need of the situation. The question for each community is whether it can afford to allow this ever increasing host to pass on to the next town. From a business point of view, it is well to consider that the aggregate of money spent along the way by the tourist is very great. Also the purely humanitarian aspect of the situation cannot well be disregarded. There is also an ethical side, for there are some from every community accepting this sort of hospitality elsewhere and as a community we should do unto others as we would have them do unto us.

Equipping the Camp.
But aside from all else, it must be recognized that there are certain things which from the standpoint of sanitation and public health the community cannot afford to neglect.

Adequate toilet facilities that insure privacy and decency are of course the first requisite, and every effort should be made that cleanliness prevails. The most satisfactory arrangement that we found in visiting many tourist camps last summer was buildings constructed entirely of concrete, built so that they could be thoroughly flushed and scrubbed. Sewer connection is of course highly desirable.

The water supply is next in importance. In the larger camps that we visited this was supplied by conveniently placed hydrants, but in most cases no provision was made to take care of the wastage in drawing water and thus the surroundings were made very sloppy and disagreeable. Brilliant illumination is not desirable, but wherever it is possible some lighting of the camp is a good thing, because of the feeling of safety that it gives the tourist and a better chance of observation it affords the commu-

nity. Rough tables and benches were provided in some of the camps, and ovens of masonry had been built for cooking purposes. In some cases firewood was furnished free. This may have been partly a matter of self protection, for loose lumber and anything that burns readily is liable to be gathered up pretty closely when the need of fire for cooking or warmth becomes urgent.

Shower baths were provided in some places and we noticed that these were much patronized by the children. One of the things found occasionally and much appreciated was a place to wash the car. Sometimes this was simply a hydrant with sufficient hose to reach around the car, but at Ogden, Utah, where, in addition, a concrete slab had been laid on which to work, the arrangement seemed complete. In Blackfoot, Idaho, the park was divided, one half being used for camping while the other was being irrigated. This arrangement insured the life of the trees and grass without discomfort to the campers.

A well drained location is best for any camp ground and trees will contribute much to the comfort of the campers. Some regular caretaking is necessary to keep the place in a habitable condition. The tourist should be encouraged to be tidy about his surroundings, and this is best accomplished by providing receptacles for refuse and requesting their use by conspicuous signs, and by daily cleaning of the grounds allowing no accumulation of waste.

Be Easily Found.

Conspicuous signs giving clear directions as to how to find the auto park at the points where the principal roads enter the town are of great assistance to the tourist. In some cases the interest in this subject by some public official manifested itself by his daily visits to the park and his mingling with the tourists to learn of their ways, and to get new ideas as to their needs. This interest does not need to be confined to an official, but any public spirited citizen might well take it upon himself to study the needs of his city's auto park. Needless to say, it was in places that such interest was manifest that we found the most attractive camp surroundings, and it would be fortunate for the tourist and the town too if there were more public officials and citizens who would take a personal interest in this subject.

LAND REGISTRY ACT.

Boy Scout Column

1st SUMMERLAND TROOP B. P. SCOUTS
Headquarters, The Gymnasium.
Scoutmaster O. F. Zimmerman
Meets every Friday evening at 7.30 p.m.

The scout game "Hunting the Scoutmaster" last Friday was won by the A.S.M.'s, the troop being unable to locate them.

At last Tuesday's meeting, each patrol leader was given a sealed envelope on which was written the meeting place of that particular patrol, and the time at which they could open the envelope and consult the rough sketch map which designated the route to be followed to the hiding place of the A.S.M.s.

The patrols experienced no difficulty in following the directions which led to the park at Peach Orchard, but they could not find their quarry, who afterwards made the astonishing claim that their feet had been in danger of being stepped upon by the hunters. The boys hunted until

ings, and it would be fortunate for the tourist and the town too if there were more public officials and citizens who would take a personal interest in this subject.

B.C.'s PAPER EXPORTS.

Vancouver.—The movement of paper from B.C. paper mills to New Zealand and Australia has shown considerable improvement and transportation companies are anticipating yet more increased activity. All ships now sailing from this port carry from five hundred to fifteen hundred tons of paper each.

GASOLINE IS DOWN TWO CENTS IN U.S.

Reduction in the retail price of gasoline two cents per gallon has been announced by the Standard Oil Company, effective at once. This will bring the price to 23 cents per gallon in San Francisco, says an exchange. The decrease will affect all Pacific coast states, the announcement said. It takes six American gallons to make five of ours.

Peachland Doings
A Weekly Chronicle Furnished
By Our Local Representative.

Mr. and Mrs. J. Hackett are enjoying a visit from some friends from Fort Saskatchewan, Alta., who arrived on Tuesday evening of last week in the persons of Miss M. Simmons, Mrs. Bert. Wright and Mrs. Geo. Becker.

Mr. Geo. White was a passenger to Kelowna on Wednesday of last week, returning in the evening, bringing with him the cow which the family had left behind when moving over here.

Mr. W. H. Colclough, provincial manager for the London Life Insurance Co. with headquarters at Vancouver, B.C., spent Wednesday of last week in town visiting with their local representative, Mr. H. E. McCall.

Our old friend Mr. D. D. Lapsley paid an official visit to town again last week looking after the soles of the Peachlanders by way of selling the general store some good shoes.

Jack Wilson was sporting quite a smile last week, and upon enquiry it was found that he had received word of the birth to his wife in Kelowna of a baby girl.

Some of our townspeople motored to Westbank last week to witness the unveiling of the Westbank War Memorial Monument which took place on Thursday, August 4th. The school children met in the schoolhouse at 1:30 p.m. and marched to the site of the monument which is situated at the four cross roads. Following the school children came the Westbank Boy Scouts, and then the returned soldiers accompanied by veterans of the Boer War and the Fenian Raid. The chairman of the memorial programme, Mr. Gore, opened the ceremony and the Rev. Coad of Peachland led in prayer. Several songs of a patriotic character were sung by the school children and addresses were given by Mr. Jones, M.P.P. and Rev. Coad. To Major K. C. Tallyour of Peachland was given the honor of unveiling the memorial, and in a few well chosen and fitting remarks he reminded the gathering of the deep need of inspiring the young with patriotic principles. Following the unveiling, the "Last Post" was called by the Boy Scouts and "In Flanders Fields" was recited by Miss McMillan.

The MacKenzie and the Harrington families joined forces and motored to near the ferry wharf opposite Kelowna and enjoyed a very pleasant picnic on the beach.

Mr. W. T. Jones of Penticton is spending several days in the district soliciting orders for nursery stock for 1922 planting.

Mr. and Mrs. H. E. McCall are enjoying a visit from Mrs. McCall's brother, the Rev. L. J. Sharp, pastor of the Compton Hill Congregational Church in St. Louis, Mo., who came around this way to visit relatives in B.C. after having attended the National Council of Congregational Churches which was held in Los Angeles.

Mrs. Henry Burch of Kelowna was among the arrivals on Thursday evening's boat last week and returned the following morning, taking with her her little baby, who during the severe illness of Mrs. Burch has been cared for by her sister, Mrs. J. L. Elliott. Mrs. Burch has recovered considerably after some months of ill health.

After a pleasant visit spent in Summerland with friends Miss Helen Stewart returned home on Friday morning last.

Major and Mrs. Hardisty, accompanied by Mrs. Heane of Vancouver, who has been spending a short time in Peachland following the visit here on the occasion of the marriage of her son, spent Friday last visiting in Kelowna.

Miss Cameron who has been visiting in Peachland recently in company with Mrs. Heane of Vancouver, was a passenger south on the Lakeshore Stage on Friday last.

After a pleasant week's visit spent in Peachland Mr. and Mrs. Ades left on Friday last en route for the Coast via Ford to West Summerland to catch the K.V.R. train at that point. They were accompanied on the trip by Mrs. J. L. Elliott.

Mr. and Mrs. Wm. Douglas are enjoying a visit from Mr. Douglas's sister Mrs. VanAllan, of Brantford, Ont., who arrived on Friday evening last. This is Mrs. VanAllan's first visit to these parts and she is quite impressed.

The Rev. and Mrs. A. T. Robinson, who have been visiting in Summerland for a short time recently paid a visit to Peachland for the week-end, visiting Mr. Robinson's sister, Mrs. M. E. McDougald and family.

After about a month's pleasant visit with friends and relatives in Summerland, Mr. J. B. Robinson re-

turned home on Saturday morning last.

Miss Moule, who used to teach in the Peachland Central School, paid a visit to town last week-end.

Miss Betty Buchanan and Miss Williamson were visitors to Kelowna on Saturday of last week, returning in the evening. Mr. Geo. McBan was also a visitor to Kelowna the same day.

The Keating family are enjoying a visit from Mr. Keating's sister-in-law and her daughter Mrs. Cochrane who came in on Saturday morning last from the Coast, and expect to remain for several weeks.

Mr. and Mrs. Evans were passengers south on the Lakeshore Stage on Saturday last to pay a short visit.

Mr. and Mrs. McAlpine were visitors in town on Saturday last, guests at the home of Mr. and Mrs. Murdin.

Mr. Ekin came down from Kelowna on Saturday evening to spend Sunday here with his family.

The Ladies' Aid of the Presbyterian Church held a lawn social and tennis party on Mr. Hogg's lawn on Saturday afternoon and evening last in aid of the Parsonage Fund. Quite a large number of the community attended and the results were very gratifying.

A number of the young people of the town met in the Orange Hall on Saturday evening and enjoyed a dance to liven up their spirits.

The church services on Sunday last were conducted as follows: the Union by the Rev. F. Coad assisted by the Rev. L. J. Sharp of St. Louis; the Baptist by the Rev. L. J. Sharp, and the Anglican by Mr. J. A. Edgecombe in the absence of the Rev. H. A. Solly.

Mrs. Geo. Phillips and family left on Monday morning last en route for California to join Mr. Phillips who has been transferred from Alberta to represent his Company in California. They joined Mrs. Phillips' parents Mr. and Mrs. Geo. Keyes and motored to Salmon Arm where Mr. and Mrs. Keyes intended to pay a short visit to friends, Mrs. Phillips and the children taking the train there.

BOOKLET SENT BY RAILWAYS ON B.C.

Contains Much Interesting and Instructive Matter on This Province.

"Playgrounds of British Columbia," the new booklet sent out by the Canadian National Railways, which includes the Grand Trunk Pacific railway and steamship lines, is one of the best works of advertising matter setting forth the advantages of the province gotten out his year. The book is an earnest endeavor to place British Columbia before the traveling public in an attractive and enlightening manner. The book is being placed through many eastern points of the United States and Canada and should result in much material benefit to the commonwealth.

TIMBER SALE X3335.

Sealed Tenders will be received by the District Forester, Vernon, not later than noon on the 15th day of August, 1921, for the purchase of Licence X3335, near Summerland, to cut 200 cords Fir and Pine Cordwood.

Two years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, or the District Forester, Vernon.

SYNDICA HOTEL Naramata

Beautiful scenery, good shady bathing beach, boating, fishing.

Good Cooking Moderate Terms

Tea room open at all hours and light lunches provided.

Special Thursday and Sunday teas—fresh fruit and cream, home made cakes.

Picnic parties provided for.

MRS. E. DUKE Proprietress

Westbank Notes

The unveiling of the War Memorial took place on Thursday, August 4th at 2:30. "Fall In" was played and Boy Scouts and Veterans fell in to line. Veterans from the Red River Rebellion, the Reil Rebellion, the S. African War, the Fenian Raids and the Great War were present.

The Boy Scouts fell in under Scout Master James, with the Veterans under S. Hewlett in the rear. They marched down to the Memorial while the buglers played some pretty lively marches.

Addresses were given by Mr. J. W. Jones, M.P.P., Mr. J. M. Jones, Rev. Mr. Coad. Then the War Memorial was unveiled by Major Tallyour, followed by an address by him; then the "Last Post" was played by the buglers.

A hearty vote of thanks is given to the visiting boy scouts who came over from Kelowna to play the bugles.

Patrol leaders T. Drought and H. Jones made a business trip to Kelowna on Saturday to purchase scout uniforms for the Westbank troop.

The Westbank Boy Scouts have received some of their badges and are working hard now to win some more.

The weekly picnic was well attended last week and a very pleasant afternoon was spent in the shade of the trees. The water felt none too cold as the day was frightfully hot.

The heat is nearly unbearable these days and if it was not for an occasional breeze from the lake I think we would burn up, but this is just the weather to put a little color on the apples—cold nights and hot days.

A party of young people motored over to Kelowna on Sunday, July 31st to see the big fire, but unfortunately they could not get across the lake. They saw the fire from a fine location and were rather glad they did not get over on the ferry.

Mr. Murray Smith was a visitor to Kelowna on Thursday, August 4th.

A party of Westbank people, including the Boy Scouts, motored to Kelowna on Sunday, August 7th to witness the unveiling of the Kelowna War Memorial. The Westbank scouts were only too glad to be with the Kelowna scouts during the unveiling.

There are a number of new houses being erected here including Hewlett Brothers' residence, and A. Nicol's garage in town.

The fruit crop here is proving to be greater than previously expected and among the present fruits going out are apples, peaches, apricots and plums.

Mr. C. H. James, Scout Master for Westbank, was in town last Sunday.

Mrs. Tallyour were in town last week to take part in the unveiling of the War Memorial.

Mr. Sidney McKay accompanied by Mr. George Brown and H. Smith made a business trip to Kelowna on Saturday.

Mr. H. Hirasawa accompanied by Mr. and Mrs. Smith motored to Oroville Sunday last.

Miss Jeanne Brown, who has been spending a short visit with Mr. and Mrs. Featherstonhaugh of Kelowna, returned home last week.

Master H. Charlton of Peachland was in town on Saturday afternoon.

Mr. H. Drought of Peachland, accompanied by Mrs. J. Drought and T. Drought, paid a visit to friends in Westbank on Monday.

The Indians, who went to Vernon to compete in the sports on the 3rd, 4th and 5th, returned home on Saturday night.

Mr. J. L. Howlett, who has been spending a few days in Kelowna fixing up plans, etc., for the new school room, has returned home. We expect the work to commence soon as the room will be needed when the term commences.

Mr. Smith arrived on Monday's boat from Kelowna, where he has been spending a short visit.

Mr. Marshall, district engineer, was in town on Monday afternoon.

Card of Thanks.

Mr. C. E. Pineo and Mrs. Young wish to express through The Review their thanks to the citizens of Summerland for the sympathy and kindness shown them during their recent bereavement.

From London comes a story of Baron Hayashi, which if not true deserves to be true. And if it is true, he is a diplomat to his finger tips. At dinner recently he sat next to a lady who talked to him for an hour. When the coffee hove in sight, said the lady, "You must think I am very fond of the sound of my own voice." Said the Baron: "I knew you liked music.—Japan Advertiser.

PASSING EVENTS
LOCAL, PERSONAL, SOCIAL & OTHERWISE

R. W. Fieldhouse, a Kamloops resident, was a Summerland business caller Friday.

Mr. Harding left on Thursday's train to visit Vancouver in connection with business for Beer's Shoe Store.

Mrs. W. Harvey has returned from a three months visit to the Coast, where she has been staying with Mrs. J. H. Baldwin at Vancouver.

We are giving special discounts off all white canvas footwear from 10 per cent. to 50 per cent. Beer's Shoe Store.

Mr. J. W. Harris has accepted a position to teach in the Peachland Central School. Announcement to this effect reached The Review Tuesday.

We clean or dye soiled or faded garments, house furnishings, etc. Let us mail you price list. Permanent Dye Works Ltd., 1641 4th Ave. West, Vancouver, B.C.

Mr. and Mrs. R. G. Walden, who have been visiting here for some time and who have decided to locate here permanently, are expected to arrive in a day or so from a trip to Vancouver and Victoria.

Work has been started on the new concrete brick structure next to the Bank of Montreal at West Summerland, about half a dozen being employed putting in the forms for the concrete foundation.

Nesbitt & Forster have had an attractive sign hung over their place of business the past week. These gentlemen are much encouraged by a good run of business and declare Summerland a "dandy" town.

R. W. Wilson was charged in the Police Court on Wednesday with being intoxicated in a public place in Summerland on August 7th. The defendant pleaded guilty and was fined by Magistrate Hutton fifty dollars, (the minimum under the new Liquor Act) and costs.

Mr. W. P. Secrest expects a good crop from his thirty acre apple tract near Fairview. Mr. Secrest formerly lived in Summerland and exchanged with C. J. Rippin for his place near Fairview. It is said to be one of the finest farms of the southern district, having 200 acres of rich level land.

Our new respected citizens Messrs. Gowans and Simpson, successors to the Summerland Supply Co., are making a bold bid for their share of the business of the community, and have received a consignment of furniture which, priced at a reasonable figure, is well worth a visit from those in need of anything in that line.

Mrs. C. B. McCallum was called to Tacoma, Wash., Tuesday by the serious illness of her mother, residing near that city. Information received indicates that an operation of a delicate nature would take place in a Tacoma hospital as soon as Mrs. McCallum arrived, but as no word has reached her family here since her arrival in Tacoma it is presumed that the operation was a successful one.

G. E. S. Blackaby and the intermediate boys of the Baptist Church have been camping at Miller's Point for the past week, and on Sunday afternoon a large number of senior and adult members of the school, with Mr. Coulter White, superintendent, journeyed to the camp to have a service with the boys at 8 o'clock. About 60 took part in the service, which was held on the beach. Afterwards the visitors inspected the camp and were greatly impressed with the camp regime. The boys say they are having a "high old time."

A reference to our advertisement columns will show that through the enterprise of the proprietor of our local theatre, the inimitable Charlie Chaplin will be seen in "The Kid" shortly. It is at considerable expense that these splendid pictures are brought into our midst, whereby for a nominal sum we are able to enjoy the best there is in filmdom without having to go to the city for that purpose, and the slogan "Be loyal to your own community" used by The Review could well be applied by resident citizens to local business houses.

Two much needed improvements have been carried out in the downtown section, one being a new sidewalk at the Summerland Hotel, and the other a concrete gutter along the east side of Shaughnessy Avenue, extending from W. J. Robinson's office to well past the Post Office. The recent heavy storm caused considerable flooding of the buildings on this side of the Avenue, owing to the quantity of water coming down from the hills and the slope of the roadway throwing all the water to that side of the road where it could not get away fast enough.

Mrs. E. C. Graham of Kelowna is visiting with friends in Summerland.

A. G. Williams of New Westminster is spending a few days in town.

T. W. Ritchie was in town from Kelowna Monday attending to business matters.

G. A. McLaine was up from Penitction Tuesday and registered at the Hotel Summerland.

Mr. and Mrs. J. C. Robson of Rossland are guests at the home of their daughter Mrs. E. R. Butler in Summerland.

Miss Blackburn of Vancouver, who has been staying at the home of Mrs. S. H. Adams for a few weeks, returned to the coast city on Sunday last.

Mr. K. S. Hogg and party, consisting of Mr. and Mrs. J. L. Logie and son Edmund, and Mrs. Campbell Robinson, returned last week end from their motoring trip to Portland, Ore., and other Coast cities.

A Penitction exchange says: This year many of the ranches on the Dog Lake bench, and some on the Penitction bench, will only receive two irrigations where they should have four, and three are imperative.

Attention is directed to our advertising columns and A. B. Elliott's store news. A visit to his store will repay the ladies of our community, especially as regards the silk and voile waists which are offered at bargain prices.

R. E. White, editor and manager of The Review, has been transacting business in Vancouver this week. In his absence it has taken fourteen men a couple of girls and a boy to fill his place, and then to have accomplished a good job of it fourteen more men should have been added to the staff.

A walk around the big business store of Butler & Walden's at West Summerland, came as a pleasant surprise to a comparative stranger this week. Having had considerable experience in stock appraisal, it was noted with satisfaction what a complete line of hardware, etc., was on display, making it possible to supply any demand along that line.

On Monday Mr. J. Traves, manager of the United Seed Growers Co. of Penitction and Mrs. Traves with Mr. Sidney Hooper of Calgary visited Mr. Cope of Paradise Flat. Mr. Hooper who was a large landowner in Alberta and is now looking for land in this neighborhood, left for the East next day. He says he has nothing to equal the district round the southern end of the Okanagan Lake.

According to information just received, Mr. D. J. Welsh, principal of the Summerland High School will return to take up his duties on or about September 1st. Mr. Welsh has been attending the College of Education, Toronto, during his vacation in order to take a course in pedagogy, to qualify for the degree of D.Paed. The weather in Toronto is extremely hot, and in fact the temperature has been higher than for the last eighty-one years.

Frank Carbonaro, a section foreman on the K.V.R. appeared on August 5th in the Police Court upon the complaint of his wife Mary Carbonaro that he had deserted her and failed to provide maintenance since July 13th for herself and four infant children. Mr. McKoen of Clayton & McKoen, Penitction, appeared for the defendant and stated that since the information had been laid the parties had signed an agreement. After satisfying himself that the complainant understood the terms of the agreement, and had signed it voluntarily, Magistrate Hutton allowed the charge to be withdrawn.

BERT CONNELL KILLED
WHEN HE FELL FROM
CLIFF NEAR FAIRVIEW

While fighting fire near Fairview a man named Bert Connell fell over a cliff and was killed. The accident happened more than a week ago. According to one version the man, who was watching the fire is supposed to have started for camp in the dark and to have lost the trail and fell down a rocky slope. A search was started for him the next day, but it was not until Sunday last that his body was found in terrible condition. Not only had it been lying on a ledge for a week, but on the night of Monday, August 1st another fire had swept over the ground on which the body lay. Coroner Wood decided that no inquest was necessary.

Mr. and Mrs. W. C. Kelley left on Thursday for a vacation at the Coast.

B. Thompson, a Vernon business man, was transacting business here Tuesday.

Mr. and Mrs. Simpson Tate of Cowley, Alberta, have been visiting the former's father and mother, Mr. and Mrs. C. H. Tate.

Mrs. A. B. Elliott with her daughter Kathleen and son Rhodes returned Sunday morning from a visit of a month's duration at the Coast.

Our prices have been adjusted to the recent lower wholesale costs. Give us a trial before going elsewhere. Beer's Shoe Store.

Mr. W. J. Gibson of Victoria, director of Agricultural Instruction for B.C. was a visitor to Summerland yesterday, for the purpose of meeting the School Board, and going into the question of the school situation along the agricultural line. It is expected that he will make definite appointment of an instructor in agriculture at the schools both here and at Penitction.

J. E. Gooder, August and Harold Avelsdson drove up Wednesday from Omak. They reported the roads in excellent condition and prospects for the bumper apple crop in the history of the Lower Okanagan. Wednesday afternoon they visited the Dominion Experimental Farm and the same evening met Mrs. Gooder, who arrived on the boat from the north, on the return from a visit in Alberta.

District Water Engineer Norington in response to a wish expressed by the Council, was in Summerland this week, and visited Upper Trout Creek, and pointed out to the residents of that part of the Municipality the proper share of water they were entitled to, and thus disposed of the complaint that had been made, of these citizens having more than their due proportion.

New Westminster.—The Triangle Chemical Company are arranging with the city of New Westminster for a lease of all the waterfront comprised in the Indian Reserve on the North Arm. It is the intention of this firm to erect a plant for manufacturing muriatic acid, sulphuric acid, superphosphate and a full line of chemical fertilizers.

T. J. McALPINE AWARDED
CONTRACT FOR BUILDING
SPUR FOR STORAGE CO.

At a recent meeting of the directors of the Storage Company the contract for building the railway spur beside the new storage building was awarded to T. J. McAlpine. The spur will be an extension of the existing trackage behind the Fruit Union building and will be erected on piling.

The building of the third storey on the southern end of the new building was given approval.

Excellent progress is being made by the contractors in the erection of the new storage building. The tile walls are going up rapidly and good progress is also being made with the carpenter work.

Mrs. Fudge who left here early last week when advised by wire of the serious illness of her sister Mrs. Lambert, arrived in Winnipeg but a few hours before the latter died on Thursday of last week. Accompanied by her husband the deceased was on her way from England to Summerland to reside when taken ill and got no further than the prairie capital. Mr. Lambert and Mrs. Fudge are expected to reach Summerland tonight.

British Columbia only requires to have a few optimists working at their trade. The province and its resources are as wonderful as ever. Let's have a "Cheer-up Week."

A seaplane has been assigned to forestry patrol work, with headquarters at Kamloops. The plane has arrived at Kamloops, having made the flight from Vancouver, a distance of about two hundred miles, via the Coquihalla Pass in the splendid time of two hours and forty-five minutes. The greater part of the flight was made at an altitude of from seven to nine thousand feet, while ten thousand ft. was reached half an hour before arriving at Kamloops.

MANY TOURISTS.

In no other summer has there been so many automobiles passing through Oroville loaded down with camping outfits and happy looking excursionists. Hardly a day passes that one or more of these nomad excursionists do not pass through town either going in to or coming out of Canada. Sometimes there are two or more cars in the same group of vagabonding pleasure seekers, and from all outward and visible appearances these sight-seers seem to be having a happy time, travelling leisurely from place to place and going into camp wherever night and an attractive place to camp is reached. This is an ideal way of seeing a new country and taking a summer vacation, and as the auto is a going vehicle much territory can be covered in a few weeks.—Oroville Gazette.

Co-Operation Needed.

In a brief announcement respecting the organization of the Niagara Peninsula Growers, Ltd., the Fruit Grower, (London) says: "Much fruit has been going to waste each year in Ontario because of lack of co-operation. The crop, when heavy, glut the local markets and, unless export arrangements have been made well in advance, great losses occur. It is hoped and expected that the new organization will be able to greatly increase the export of fruit from Ontario to Great Britain."

*Tweed cloth and woollen blankets are now being manufactured in British Columbia from the wool off the backs of British Columbia sheep.

Correspondence

Whoop Was Genuine

Editor: Review:
In common justice to her dusky ancestress, your contributor Pocahontas wishes to explain that her war whoop was a good old fashioned, blood curdling, hair raising, painted and feathered whoop with none of the parts missing; not one of the fully modern, foreshortened, phonetic whoops produced by up-to-date machinery.

SAYS AVERAGE GRAIN CROPS FOR PRAIRIES

(Continued from Page 1)
damage has been done by heat and rust and crops are spotty. Somewhat better than average crop expected but oats and barley will be light. Harvesting has started and will be general throughout the West in from ten to fifteen days.

PROVINCE OF QUEBEC.

The hay crop except in the Abitibi and Lake St. John districts was very light and in some districts almost a failure. Recent rains have helped the growth of cereals. Crops generally will be below average; roots are in fair condition and grass pasture has benefited by recent rains but more moisture is still needed.

PROVINCE OF ONTARIO.

Conditions in most districts are favourable for a good general yield. Harvesting is almost finished from three to four weeks earlier than usual. Fall wheat a good average crop on the whole. Other grains a fair yield. Hay generally has been light but there will be no shortage of feed as an exceptionally large yield of corn will offset the shortage in oats and hay. Grass pasture and roots have been improved by recent rains. Apples light crop, small fruits, cherries, plums, pears, good. Tobacco and early tomatoes doing exceptionally well.

MARITIME PROVINCES.

Reports from the Maritime Provinces indicate the prolonged drought has adversely affected all crops, more especially in New Brunswick. Hay crop light, probably 50 per cent. of an average crop. Cereals slightly below average. Roots and pasture have benefited by recent rains. Fruit prospects are average. In Prince Edward Island hay is nearly an average crop. Cereals are ripening and harvest will be early. Roots rather below average.

PROVINCE OF BRITISH COLUMBIA.

Weather generally hot and dry. Grains satisfactory and cutting has commenced. Good average crop expected. Roots continue satisfactory.

GAME SEASON IS ANNOUNCED

Open Season and Bag Limits For This Part Of The Province.

Eight days is the limit placed by the government on the shooting of pheasants in this district for the 1921 season. Announcement of the game regulations for the season has just been made by the attorney-general. The killing of female deer, caribou and moose is forbidden. There will be no open season for beaver. Other fur-bearing animals may be taken from Nov. 1st, 1921, to March 31st, 1922. The duck shooting season is from September 8, 1921, to December 18, 1921; grouse, September 17 to October 1. Quail may be shot in the South Okanagan and Similkameen electoral districts from October 22 to November 20. Male pheasants only may be taken in these same districts, there being no open season for golden and silver pheasants.

In respect of big game throughout the province, no person shall kill or have in his possession during the open season more than three deer, all of which must be of the male sex, or during the open season more than two grizzly bear or three bear of any other species.

In Columbia, Fernie, Cranbrook, though Kootenay district reports lack of moisture. Tomatoes are commencing to move. Prospects excellent; hops promise 100 per cent. yield. Apples now making first appearance and quality excellent. Other fruits making headway. 100 per cent. prospect in Okanagan.

Caribou and Lillooet, no person shall at any time kill or have in their possession more than one mountain sheep of the male sex.

Here are the bag limits for game birds in the South Okanagan and Similkameen electoral districts: Pheasants, cocks only, daily bag limit, four; total bag limit, twelve. Quail, daily bag limit, ten; total bag limit, fifty.

Throughout the whole province: Ducks, daily bag limit, twenty; total bag limit, 150. Geese, daily bag limit, ten; total bag limit, fifty. Brant, daily bag limit, ten; total bag limit, fifty. Grouse, daily bag limit, six grouse of any one species, not more than twelve of all species; total bag limit, fifty.

Every person shall, upon the request of any constable, furnish satisfactory proof to him of the dates on which any big game or game birds were killed or taken.

The wise man knows how little he knows of what may be known.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the late war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for 5 years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Peachland Civic Fathers to Get Some Remuneration For Services.

SUNDAY BATHING

To Be Regulated. Council Will Support All Proper Steps to Prevent Oriental Control of Land.

The regular meeting of the Peachland Municipal Council was held on Wednesday, August 11th. Present the Reeve and Councillors Powell, Harrington and Lang. The Reeve reported on the visit of the Minister of Public Works, District Engineer Gwyer and Col. Donnelly in reference to road matters.

Arising out of the communications was a question re. the Oriental problem and the following motion was passed: That this Council will be glad to support all proper steps which may be taken towards preventing the passing of any land into the hands of or under the control of Orientals.

Reeve Hogg was appointed representative at the Municipal Convention to be held at Port Alberni August 21 and September 1.

The chairman of public works reported verbally on work done on roads. Seepage water had caused extra work at several places, the most serious being opposite the McLaughlin property, Blk. 4, D.L. 1183.

The chairman of the light and water committee gave a verbal report that the Summerland Municipal Electrician had suggested the exchange of transformers for meters, also that our electrician had recommended the purchase of a new belt.

The Clerk reported a considerable amount of money outstanding for arrears of light and water. He was in-

Pioneer Woman Dies.

Mrs. J. T. Burnyeat of Vernon died suddenly at Kelowna on Tuesday, August 9th. She was one of the old timers of the Valley, having come to Vernon with her husband more than 30 years ago.

Mr. Burnyeat has been a prominent engineer of the Valley for many years and has done considerable work for the Municipality of Summerland.

O.U.G. EXCELLENT CO-OP. SUCCESS

Organization Placed Okanagan Fruit Growers in Envyable Position.

Considering the really quite phenomenal success of the great British Columbia co-operative fruit growers association, the Okanagan United Growers Limited, and the example the work being done by it ought to be to other bodies of growers seeking organization along similar lines, a fairly extended review of its history, its organization, and some of the work it has done ought to be of interest.

In British Columbia, it may be stated that the fruit growers tried the individualistic system of handling their product, and were forced into co-operation by the realization that it was either that or going out of business.

The Okanagan produces about 85 per cent. of all the apples in British Columbia. The rapid growth of the industry quickly brought about chaos in the selling conditions. It was in 1910 that the apple planting boom started, and production very soon reached large proportions, but lack of organization to dispose of the crops produced conditions so bad that three or four years later there were many neglected orchards, and there was some danger of a considerable area being grubbed out or otherwise destroyed.

This was in 1913, when the O.U.G. was brought into existence. The organization is a simple one. There are only two branches to it—

(Continued on Page Three)

Fruits Markets Intelligence Service

Successful Marketing Dependent on Information as to Conditions and Values.

Practically since the inception of the Fruit Division over twenty years ago it was recognized that crop estimates and markets intelligence must be included in its activities. While the standardization secured by the enforcement of the Fruit Marks Act was a primary step in the development of the industry, successful marketing is also an essential, and this depends largely on producer, dealer and consumer having reliable information as to sources of supply and market conditions. As early as 1905, this office was issuing monthly crop reports, showing conditions in the commercial fruit districts, crop prospects and market values in Canada and competing countries. The report in its early days comprised only a few sheets mimeographed, and sent to a comparatively small number of growers and dealers. In the past twelve years, however, its scope has developed, and the report now consists of from twelve to sixteen printed pages, giving detailed information regarding crop conditions for all fruits grown commercially (including potatoes and onions) in Canada and competing countries. It also contains notes on transportation matters, the package situation, special insects or fungous diseases and other items that affect either directly or indirectly the marketing of fruit and vegetables.—C. W. Baxter, Fruit Commissioner, in The Agricultural Gazette of Canada.

MAKING SHIFT TO CARE FOR BEGINNERS

Will Have Nine Rooms Ready For Classes. New Building for Manual Training.

With the assistance of two men, Mr. Wishart, training instructor, has been busy this week putting up a building for use as a manual training workshop. The new building is of a temporary nature, 24 x 32 and situated a little to the west of the present buildings on the Central grounds. As soon as completed the manual training equipment will be moved in, and the room which has been used for this purpose will be converted into a regular school room.

This will give nine rooms at the Central, four in the main building, four in the old High School building, including the former domestic science and manual training room, and the new one room building.

Prin. S. A. MacDonald anticipates, with this accommodation, to be able to take care of the 60 of 70 beginners which he expects will apply for admission at the opening of the fall term. Some alterations are being made to give better ventilation in the two rear rooms of the old High School building.

Two buildings will be used to accommodate the classes of the High School. The two rooms in the Methodist Church used last year will be supplemented by another in the Summerland Hotel annex, where the large room on the ground floor now used as a dining room will be used by the first year students.

Issues Warning to Jam Makers.

(Fraser Valley Record).

We note that the jam manufacturers of the United States and Canada have organized and have mapped out a policy to save the jam making industry. We believe that this organization will eventually be supported by the growers in a financial way, as it is an open secret that banks will not make advances unless upon approved sales, and this is impossible without protecting clauses in view of the heavy losses sustained by wholesalers last year. We do not agree that the policy adopted by the manufacturers is sound. They will manufacture so little that a starved market is sure to result, and consequently higher prices.

Inquiries for pulp berries from Great Britain may result in heavy sales being made by shippers to British jam manufacturers. Should this occur we anticipate competition on the Canadian market by Canadian-grown berries manufactured in Britain. We warn manufacturers to beware of reaction on their apparent safety-first policy.

Old Times in Western Canada

This picture reproduced from an actual photograph taken in 1886 at Stony Mountain, Manitoba, shows a group of French Journalists, the first to travel over the Canadian Pacific Railway. Poundmaker, the rebel Indian chief, is seen in the centre of the picture.

NEW ISLANDS ARE UNCLAIMED

Passing Car Has Close Call When Slide Occurs.

HEARD FOR MILES

Hundreds of Tons of Rock and Dirt Tumbles Into Lake on Wednesday Evening North of Crescent Beach.

Who owns the new island or islands, for there are more than one of them? They sprang into existence Wednesday night about a quarter of a mile north of Crescent Beach; sprang from above, not beneath the water, and from the cliff above the lake shore road to a distance of about 200 feet into the lake.

At this point the road is built along a rock formation, the top of which has a steep slope towards the lake. Along the surface of this rock, men who have been working along the road say, water has been oozing out for some time. This had apparently formed a strata of slippery mud immediately above the rock which could no longer support the huge weight of earth above it. Thousands of tons broke away, and sliding down the slope sprang with terrific force well out into the lake, but a small portion of the huge quantity of earth falling on the road, which nevertheless is buried to a considerable depth and for a distance of about 150 feet.

Picnickers at Crescent Beach were terrified by the sound of the huge avalanche which created quite a tidal wave on the shore. One car had just passed the place a moment before. In fact bathers feared it had been buried, but its lights were seen later.

The point where the slide came down is at or near John McDougald's ranch. It will probably take two or three days to clear the road.

On Thursday morning Road Foreman J. C. Arkell made some repairs to the upper road so that it might be used while the shore road is being cleared.

The point where this slide has come down has been giving some concern, but so complete has been the slide, that there should be no further danger at this point.

Naramata Values Its Lakeshore.

Provincial Police Constable Connell of Penticton visited Naramata by request last week, and ordered the removal of certain debris thrown on the lakeshore by the occupants of one of the tents put up in the north bay. The local Board of Trade recently made provision for the depositing of such refuse in a suitable spot, it being recognized that its indiscriminate scattering was against the interests of the town, as well as contrary to hygienic rules. Along the lakeshore frequented by bathers and visitors in general, the practice is particularly objectionable, and should be discontinued by all residents.

The strawberry is probably more subject to local conditions of soil and exposure than any other plant we have.

MEMORIAL SERVICE FOR BOYS WHO FELL

Three Sons of Professor and Mrs. Broad Fell in Late War.

In The Review of August 5th, mention was made of the fact that Professor and Mrs. Broad had gone to Calgary to attend the memorial service and the unveiling of a tablet in Central Methodist Church, in memory of their three sons who fell in the Great War.

The tablet is a very heavy bronze one, cast by a firm in Oshawa. It was erected by the kindness of Mr. R. B. Bennett, K.C., LL.D., late Minister of National Service during the war, in whose office one of the three boys was articled, and under whom he passed all his exams for a barrister. All three boys were members of Central Methodist Church, and the Pastor and officials desired that a memorial service should be held at the unveiling.

An unusually large congregation was present, and a very solemn and impressive service was held. Addresses were given by three officers, one from each of the three battalions in which the boys served in the war. Lieut. Colonel L. F. Page, D.S.O., Lord Strathcona's Horse, formerly Officer Commanding 50th Battalion, C.E.F., and some time Major, 5th Battalion, C.E.F., in which the eldest son, Lieutenant W. E. L. Broad was an officer when he fell in the assault on Vimy Ridge, Easter Monday, 1917, gave a resume of his work and character in the highest terms.

Lieut. Colonel G. S. Peakes, V.C., D.S.O., M.C., General Staff Officer, Military District No. 13; formerly Officer Commanding 116th Battalion, C.E.F., told of the splendid work accomplished by the second son, Captain T. H. Broad as Intelligence Officer, in reconnaissances of the German positions around Arras, gaining valuable information which led to the defeat of the enemy, and for which he was given his captaincy. A few days later, while busy with other officers in moving the wounded out of reach of German shell fire, he with some others was killed by a shell.

Alderman Fred Shouldice, M.C., formerly Captain Princess Patricia Canadian Light Infantry, told of the work of the third son, P. D. S. Broad, who was a private in the Princess Patricia's, and of his fine influence upon the men of his company. He gave details of the third battle of Ypres, when Percy was first under fire, and of his later experiences up to the battle of Courcellette, where he lost his life.

Brigadier General A. H. Bell, C.M.G., D.S.O., General Officer Commanding Military District No. 13, then gave a brief address. The congregation were asked to stand facing the tablet. The General touched an electric button in the pulpit and the Union Jack with which it was covered, slid slowly downwards, unveiling the tablet. Then followed an address by the pastor, Rev. Chas. A. Sykes, B.D., in which he spoke of the home and church life of the three boys, and referred to their father's Men's Bible Class in the Church, from which nearly 100 young men volunteered for the war, among whom were these three sons. The chief message of the address was an appeal

(Continued on Page 2)

CROPS KEEPING UP SAYS REPORT

Soaking Rain Needed Badly to Mature Crops.

MIDGE APPEARS

Severe Infection Discovered in Fields Near Salmon Arm. Peaches and Plums Being Harvested.

Crop conditions are summarized thus in the weekly newsletter furnished the press by District Horticulturist W. T. Hunter:

Salmon Arm and Main Line Points. The weather has been hot and dry during the past week and rain is needed by all crops.

Tree fruits are sizing well up to the present, but if the dry weather continues, are likely to check up.

The berry crop is about over. Loganberries and raspberries tailed off rather suddenly owing to the hot weather.

The first picking of Duchess apples was made the last of the week ending August 7th.

Vernon. The weather still continues hot and dry. A good heavy rain would be very beneficial for everything at the present time. Fruit continues to size well and a continuation of the present weather conditions is liable to have an influence of checking the fruit development, which is very undesirable from every standpoint. Rain is also badly needed to maintain a supply of water for irrigation purposes. At the present no severe shortage has been felt and we are in hopes that it will remain ample for all purposes for the balance of the season.

Peaches, apricots, early plums, early apples, Transcendent crabs, are moving out at a rapid rate. These fruits are being harvested easily two weeks in advance of last season and it promises to be an early harvest season for all fruits.

There are still some late sour cherries dragging through the marketing channels. The berry season is about wound up, blackberries being the only fruit holding the market in any quantity at the present time.

With a continuation of the present hot weather affecting the tree fruits, there will be a tendency to cut down the tonnage.

Vegetables of all descriptions are moving out in large quantities, but with the advent of the prairie truck crops into the local markets, there is a tendency to cut prices pretty fine.

The onion and potato crops are developing in A1 shape. The acreage of late potatoes and of onions will be considerably under that of 1920. Second crop alfalfa and most of the grain is now being harvested.

The cabbage white butterfly, cabbage root maggot, and the onion maggot have been very severe this year in the Okanagan. The mercury bichloride treatment for cabbage root maggot has again given excellent results. The green cabbage worm has also been controlled by dust applications of powdered arsenate of lead.

(Continued on Page 2)

New Townsite of Oliver Gaining

Has Made Rapid Strides During Summer Months. Construction Gang Pushing Ahead.

Although three months ago there was hardly a building on the townsite, today there are more than thirty and all of these are far and away ahead of those generally seen in a new town. Beside this, Oliver has created history by having a domestic water system of permanent construction, adapted for enlargement when required, within but a few months after the first building in the town was put up. The water is taken from the gravel beds under the river and pumped up on the hillside. This gives ample pressure for fire fighting as well as domestic use.

The town now possesses a Government land office, two general stores, a hardware store, lumber yard, barber shop, shoe repair shop, garage, restaurant, real estate office, bank, confectionery store, Presbyterian church and manse, school and half a dozen dwellings. A large manse and church to replace those at present there will be built shortly, money being provided from the Forward Movement funds.

Work on the extension of the irrigation system for the surrounding agricultural lands is being rapidly pushed ahead, over 275 men being employed in the various construction camps.

The new main vehicular road, which will pass through the main street of Oliver, is now under construction and will furnish a more direct route to the south country as well as doing away with several grades encountered on the old main road.

MUST OBEY RULES OF MOTOR ACT

Must Be Enforced by Municipality or Province Will Collect Fines, Say Police.

Police Constable King has been specially active this week in the enforcement of the motor act. There has perhaps been some tendency to overlook certain infringements of the law with respect to motor vehicles, but this will no longer continue. During a visit to Summerland on Monday, Provincial Policeman McConnell advised the local authorities that unless the Act was properly enforced, the provincial authorities would step in and collect the fines.

If there are any who have neglected to take out their 1921 motor licenses, it would be well not to have the vehicle on the street until the license has been procured. A chauffeur's license is also necessary when a vehicle carries passengers for remuneration. Running without tail lights or with only one or no headlight is also punishable, as are driving on the wrong side of the street, and parking a car headed in the wrong direction, exceeding the speed limit, etc.

Recently Kelowna had a clean up on matters pertaining to motor traffic following a similar notification from the provincial authorities, when quite a number of citizens were haled to the police court for infractions of the Act.

The Honey Crop in Naramata.

Mr. Geo. Weaver reports exceptionally good yields of honey from early August extracting at Naramata, the results so far being in marked contrast to the returns of last season. An interesting feature is the fine showing made by combless packages of bees brought in from California in the spring, several two pound packages having each built up strong colonies, and given a surplus of over fifty pounds of honey.

Mr. Weaver will probably operate bee houses on several Summerland ranches next season.

A New Raspberry.

A new autumn-fruiting raspberry, discovered in England as a chance seedling, has been named "Lloyd George." It is said to be a variety of vigorous growth in that country and to bear very freely. According to Gardening Illustrated, "the fruits are dark crimson, each from one and a half to two inches long, the flesh firm and richly flavored."

WONDERFUL RAIN FALL WEDNESDAY

Half Inch Precipitation Better The Situation in This Community.

A WELCOME RELIEF

Came at Opportune Time and Fruit Growers are Rejoicing. Heavy Fall in Mountains Also.

The heavy rains Wednesday morning bringing half an inch of precipitation, covering a greater part of the community, came at an opportune time, checking a long tedious dry and hot spell and bringing freshening appearance to all vegetation and relief to the inhabitants.

The rain began soon after midnight and continued intermittently for several hours, and accompanied by lightning and thunder.

From reports, we gather that the entire lower part of the Valley benefited and that the fall was heavy in the hills to the west and across the lake.

Reports of a hail storm of more or less injurious character visiting the Penticton district has been received, but extent of the damage done has not as yet been given out.

Mrs. Smith is Still Denied Portfolio.

Hon. Mary Ellen Smith, Minister without portfolio in the Provincial Cabinet, on Wednesday, August 3rd attended the third sitting of the Cabinet at which she appeared since her elevation to cabinet rank in March last.

Hon. Mrs. Smith's friends in Vancouver have been expecting that ere now a definite statement that she was to be given full-fledged cabinet honors with the remuneration that goes to the holder of a portfolio would have been made, and it is no secret that Hon. Mrs. Smith herself considers that she is entitled to that status. But so far there has been no move to grant her other honors than the seat in the cabinet without portfolio. It was reported some time ago that Hon. Mrs. Smith would be provided with office quarters at the Legislative Buildings and assigned a secretary, but while the office is there no secretary has yet been named, and Hon. Mrs. Smith rarely visits the city, her attendance at cabinet sessions so far having been confined to one attendance about every six weeks.

Recently Premier Oliver, in response to a query as to what was intended to be done in giving Hon. Mrs. Smith added cabinet status, responded that the situation with respect to her was "unchanged."

DROUGHT EFFECTS FRUIT OUTPUT

Prolonged drought is having a serious effect on the fruit crops of eastern Canada. The Annapolis Valley in Nova Scotia started the season with a promise of an unusually heavy apple crop. The following telegram sent to the Dominion Fruit Inspectors from the Fruit Commissioner at Ottawa tells of the seriousness of the drought in that fertile valley:

"Reports received today from District Fruit Inspector for Nova Scotia, states no rain since July 15th in Annapolis Valley. Drop very heavy and continuing. Strong wind on 7th caused extremely heavy drop. Fruit making no growth. If present conditions continue apple crop will be less than last year."

The fruit crop of the Niagara district will not be large according to figures given out by the manager of the Niagara District Growers Ltd., there being a decrease in the production of nearly all kinds of fruit. One explanation is that last year's crop, one of the largest on record, had sapped the trees of a great deal of vitality. This it is said is very noticeable. The apple crop will not reach 50 per cent. of last year's production; there is a blight on this fruit which has done considerable damage. Peaches will scarcely total thirty per cent. of last year's production, plums are very light, while pears will average about 75 per cent.

Every time you spend a dollar for B.C. products, fifty cents is put into the pockets of B.C. workmen.

The Summerland Review

Established August, 1908.
 Published at Summerland, B.C., every Friday by
THE REVIEW PUBLISHING COMPANY, LIMITED
 Ralph E. White, Editor and Manager
 An independent family newspaper covering Peachland, Summerland and
 Naramata and adjacent districts.
 Subscription Rates—In British Empire, in advance, \$2.50 per year; six
 months, \$1.40. To U.S.A. and other countries, \$3.00 per year.
 Advertising Rate Cards and information respecting territory and samples
 of paper mailed upon request, or may be seen at the office of any advertising
 agency recognized by the Canadian Press Association.

 tions must bear the name of the writer, not necessarily for publication. The
 publication or rejection of articles is a matter entirely in the discretion of
 the Editor. No responsibility is assumed by the paper for the opinions
 expressed by correspondents.

FRIDAY, AUGUST 19, 1921

LOOKING FOR WAY OUT.

What better plea could be advanced for the immediate construction of a highway to give access to the Coast from this part of the province than the following news item from The Oroville Gazette:

Tourists have much difficulty in securing information relative to the line of travel to follow from the Okanagan Valley to Vancouver, B.C., and hardly any two people can give out the same instructions as to the course to pursue. Many tourists passing through town going into British Columbia desire to continue on to the Coast and there seems to be no one to guide them on their way. We have taken some trouble to enquire as to how people crossing the line in autos can reach the Coast. The fact is there are no roads through to the Coast from the Okanagan Valley, nor as far north as an autoist may travel. This is emphasized by the fact that very frequently automobiles from points in British Columbia, as far north as the Frazer River, pass through Oroville on their way to Vancouver, being compelled to cross Blewitt and Snoquaime passes to Seattle and then up the Coast on a paved road to the British Columbia metropolis. If tourists wish to cross over to the Coast from this point, or from any point to the north, they are compelled to drive to Princeton, B.C., and from there have their car shipped by train to Hope, from which place there is a road to Vancouver. The cars can only be taken on the days when freight trains run over the Kettle Valley road, which we understand are Mondays and Thursdays. According to the railroad officials at this place the charge is \$15.00 for the car and regular passenger rates for the occupants.

RUSSIA IN CANADA

That the Soviet has been re-organized in Canada and the United States and is actually stronger and more aggressive, though less is heard of it in the public press is the statement of a Toronto contemporary, which says further:

This is explained by Article IV., Section I. of the Constitution of the Communist Party of Canada, which proves that "it is an underground, illegal organization. It is highly centralized, with a convention as its supreme body and a central executive committee acting as such between conventions."

It has been re-organized in Canada on instructions from the Third Internationale, Moscow, working under instructions from Berlin, through New York. It has laid down a program of "mass action in Canada as a vital form of proletarian activity, leading to armed insurrection, and civil war, as the decisive, final form of mass action for the destruction of the capitalists; proletarian dictatorship in the form of Soviet power as a lever of the Communist Reconstruction of society." It is to-day strongest in the districts between Toronto and London. The aim at present is to promote as much unemployment as possible. It is creating the impression in the Unions that there will be great distress this winter, that workers will be hungry and that therefore they will riot. Magnetic speakers are being brought out. Agents have been visiting various labor unions and listening to the speakers.

Lists of the men and women most successful in inflaming the crowd are being made up, and they are being tested, and those who can be trusted are employed to prevent wage agreements, to suggest seizure of industries, to urge strikes. The Niagara Falls district is seething with them. The real leaders do not appear. They pull the wires. Certain newspapers and Trade Unionists are doing their bidding. Reputable newspapers sometimes unconsciously help to spread their propaganda.

CANADA-U.S. EXCHANGE

The subject of the seemingly complex question of the discount put upon Canadian money by United States bankers is treated by The Toronto Globe in a way that the layman can readily comprehend, and will read with interest.

The Globe points out that in the year 1920-1921 the balance of trade between Canada and the United States was adverse to Canada by approximately \$265,000,000, with the Canadian dollar at a discount in the United States; while in the year 1912 the like adverse balance of trade was \$297,000,000 with Canadian funds worth par in the United States; and proceeding to explain that "the theory is that the adverse rate of exchange against Canada is caused by the adverse balance of trade," it concludes that these figures prove that "there must be another reason for the slight which our dollar suffers."

It is with becoming humility that we suggest to explain that "the theory is that the adverse rate of exchange against Canada is NOT that it is caused by the adverse balance of trade, but that it is caused by the Canadian suspension of specie payments in the international settlements involved. In 1912 the settlements of the adverse balance of trade were effected, when necessary, by the shipment of gold at the comparatively small cost of freight and insurance; but now, when gold shipments are suspended for ordinary commercial purposes, American exporters must sell their Bills of Exchange on Canada for what they will bring, and the resultant fluctuations in the market price of such, depend, of course, upon the amount of the offerings from time to time. The law of supply and demand—when not artificially restrained—regulates the fluctuations

of such price. If gold shipments were resumed to-morrow, the Canadian dollar would immediately rise to par in the United States, subject only to the cost of shipment. And, even without the resumption of gold payments, if equality of current international indebtedness were established tomorrow between Canada and the United States, the Canadian dollar would immediately rise to par in that country.

Naramata News

Current Events of Town and District

Mr. Fred Manchester with his mother, Mrs. Gillespie, arrived home on Monday evening on the Sicamous from Battle Creek. Mrs. Gillespie, who bore evident traces of her recent severe illness, was greeted on the wharf by several of her old friends who were expecting her arrival. It is hoped that she will speedily recover her accustomed strength.

Mr. T. Henry Roberts, who teaches in the King George High School in Vancouver, with his wife and two daughters, spent Sunday in Naramata with Mr. and Mrs. Horswill. Mr. Roberts and his family have been spending some time camping at Pentiction, and are much pleased with the Southern Okanagan and hope to locate here at some time in the future.

Mr. Bodie, of Vancouver, spent Sunday in Naramata, on his way to Nelson, where he goes on a fishing trip.

It is planned to have Mr. Ivens, M.P.P. for Winnipeg in the Manitoba Legislature, speak in Naramata when he visits the Okanagan shortly. Mr. Ivens is a graduate of Manitoba University, was pastor of a Methodist church in North Winnipeg, and later organized the Labor Church of Winnipeg. He is best known as having been active in the Winnipeg labor strike of two years ago. For these activities he was sentenced to a term in the penitentiary, where he was when elected to the Legislature of Manitoba at the last election. Mr. Ivens is a man of ability and an interesting speaker, and though many will differ from him on economic questions, there will no doubt be many pleased to have the opportunity of hearing him.

Mr. J. M. Robinson with his party returned on Friday from a motor trip north which extended as far as Enderby, and took in on Thursday the regatta at Kelowna. With Mr. Robinson were Mrs. Robinson, Miss Gwen Robinson, Mr. Billy Robinson and Miss Anne Marie Smith.

Master Roy Hunt of Glenmore is spending some time in Naramata as the guest of Mrs. Geo. Aldridge.

Mr. David Good of Naramata enjoyed a visit this week-end from his brother, Mr. R. A. Good of Harlowton, Montana, whom he had not seen for the past 30 years. Mr. R. A. Good, who has been connected with the Railroad Administration Dept. of the Milwaukee and St. Paul R.R. for the last 24 years, was accompanied to Naramata by his wife. They had previously visited Tacoma, coming from there to the Wenatchee Valley and motoring from there here, arriving at this place on Sunday. Monday they went to Kelowna, and motored through the orchard districts, Ellison, Rutland, Belgo Orchards, K.L.O., and Glenmore, paying a visit at Glenmore to Mrs. Hunt. They were accompanied through the Kelowna district by Mrs. Aldridge. Mr. Good was much pleased with the orchards of Kelowna, Naramata, and the Southern Okanagan generally, expressing a preference for this district over that of Wenatchee.

MEMORIAL SERVICE FOR BOYS WHO FELL

(Continued from Page 1).
 to young men to be ready for any emergency whether in life or death.
 The noted male quartette of Central Church gave a splendid rendering of "Still, Still With Thee When Purple Morning Breaketh," and Mr. Gordon Weir gave "The Reessional" as a baritone solo. Doctor Frederic Rogers presided at the organ and played Chopin's Funeral March at the close of the service.

CROPS KEEPING UP SAYS REPORT

(Continued from Page 1)

and the onion maggot is successfully held in check by the trap crop method. Growers desiring further information on these methods of control, are advised to correspond with the Entomological Branch at Vernon.

A new record was received this week from Salmon Arm, proving the presence of wheat midge. The infestation appears to be very severe. This is the first record of the presence of this insect in this district.

Kelowna.

Weather conditions continue very warm and dry. The following fruits are moving through the packing houses: Peach plums, Tragedy prunes, Abundance plums, Yellow Transparent and Duchess apples, Transcendent crabs. These are all of good quality.

Semi-ripe tomatoes are now in in quantity. Apples and pears are sizing up fast and from present indications the previous estimate will be about correct. It is anticipated that all fruit will be picked about fourteen days earlier than last year.

The second crop of hay has been cut, and owing to ideal weather conditions, is heavy.

Summerland.

Owing to the hot weather peaches, plums, pears, Red Astrachan apples, and Transcendent crabs are rapidly approaching the harvesting point. Apricots are about over.

BUILDING

Clapp's Favorite and Bartlett pears will be moving next week.

All classes of vegetables are being shipped in volume. On the night of the 9th inst. about 1,500 cases were shipped by express.

There have been several windy nights lately, but no damage to fruit trees has been reported.

Pentiction and Keremeos.

In the Keremeos district the bulk of the early peaches, apricots and Peach plums is now over. Duchess and Yellow Transparent apples are moving freely. They are mostly crated. Pears and late apples are sizing well. Field crops are doing well. Tomatoes are not ripening very fast, but the hot spell the past week should remedy this.

The weather in the Pentiction district for the past week has been very warm. Pears and late apples are beginning to show a good deal of color. Tetofsky, Yellow Transparent, Duchess, Red Astrachan are moving freely, mostly crated. Transcendent crabs are beginning to move.

Bartlett and Clapp's Favourite will be moving in small quantities this week. The bulk of the early soft fruit is over. Cucumbers are moving in fair quantities, tomatoes light.

Kootenay and Arrow Lakes.

The weather continues to be very warm and dry. Potatoes, truck and field crops will be cut short by the drought. Plums and prunes are also dropping from the severe heat, where

O.U.G. EXCELLENT CO-OP. SUCCESS

(Continued from Page 1).
The local grading and packing associations, and the central selling agency.

The local associations consist of from 100 to 200 members each. They each have a president and board of directors, who appoint a manager and secretary; in the case of the smaller concerns one man fills the dual position. They are incorporated under the Agricultural Associations Act of British Columbia, and are able to obtain loans from the Government for the purpose of building sheds, erecting plant, etc. Some of them have borrowed from \$25,000 to \$40,000. Fortunately most of them raised their loans in 1913 and got them at a low rate of interest. The most successful of these associations is the Vernon Fruit Union, which on the 31st January, 1919, had a membership of 312, making it the largest of the locals affiliated with the O.U.G.

Growers Bound to Sell Whole Product to Association.

Now a few words as to the system pursued. There is a contract between the grower and the local association, and between the local association and the central, by which the growers agree to sell all their fruit through the United Growers Ltd. It is a perpetual contract but there are about three weeks in each year, say from February 1 to February 21, in which any grower who wishes to withdraw can do so. There is another date, say April 1, before which any who want to come into the association or want to renew their contract, must do so. The interval is fixed to give the agents for absentee owners time to communicate with their principals in England, or elsewhere. April 1 is fixed as the last date for renewing the contract so as to give the Central time to get in shape its estimates of the new crop. Unless it receives in good time reliable estimates of the output for the season the board cannot place to the best advantage the enormous quantities of produce with which they deal.

The directors of the local association elect one or two members to represent them on the Central, which, as I have already explained, looks after the marketing end of the business. Its capital consists of a nominal issue of 28 shares of one dollar each owned by the local associations for voting purposes only. The working capital is secured by deducting from the growers' returns two per cent. of his selling price, for which he is given bearer bonds, issued by the Central, carrying interest at 5 per cent., and repayable in five years. The organization is supported by certain fixed charges on all packages handled. In the case box, corresponding to the commission charged by the dealer.

When the organization was started, the bonds issued in return for the 2 per cent. deducted for working expenses were made payable both as to principal and interest in three years. At first the growers attached so little importance to them that they threw the papers away. The Central, however, paid them off with interest two months before the due date, and next year they did the same with those then falling due. Needless to say the grower now looks upon his bearer bonds as equivalent to money in the bank, and takes the utmost care of them. The period of repayment of the principal has now been extended to five years, but their interest is paid yearly instead of in a lump sum at the end of the period.

Directors Elect Their Own President.

The directors who are elected to the Central choose and appoint their own president, and engage the general manager; the latter appoints the sales managers and other officers of the corporation.

In 1913 the local associations were all sending fruit to the market, and were dependent on the brokers for disposing of their fruit on the prairies. This meant, of course, that the associations were all competing against each other, and there was no provision against a glut in any one market. Practically the growers had to take what they could get. In the third year of its existence, the United Growers had its representatives in the chief towns, but these were more in the nature of inspectors to report as to the prospects of the market, the quantity of fruit required, etc. They still had an agreement with the brokers to handle their fruit, but if the United's representative sold any, the brokers, of course, got no commission on those lots.

Now the United handles the whole of the fruit packed by the local associations and has cut out the brokers entirely. The United has its own selling agents in Calgary, Regina, Winnipeg, and Vancouver. These each form a subsidiary company, known as the Growers' Sales Agency, which is really a partnership between the managers of the local associations and the O.U.G. From July

to December these local sales managers are busy handling the products of the United Growers, but they are also allowed to act as Canadian representatives of other non-competing organizations, such as the citrus growers of California, so that they are able to supply to the public a complete line of fruits and vegetables all the year round. They get a brokerage both on the outside stuff and the produce they handle for the O.U.G. The expenses of running the office are first deducted and of the balance 50 per cent. goes to the manager of the sales agency and 50 per cent. to the O.U.G. It was estimated that the profits from these agencies would reduce the selling costs to such an extent that the O.U.G. would be able to reduce the fixed selling charges by at least 25 per cent.

Each manager is paid a fixed salary of so much a month, irrespective of whether the office pays or not, and in addition, as already mentioned, he shares in any profits that may be made.

I was told they have 200 varieties of apples in the Okanagan Valley, which in the opinion of Mr. Hood, my informant—and I expect most practical growers will agree with him—is at least 175 too many. The growers started with insufficient knowledge of what was required, but at the time of my visit they were weeding out the non-profitable varieties.

The United Growers, Limited, has adopted a pooling system, under which each variety is dealt with separately. For example, all the McIntosh Reds are pooled and the proceeds are divided among the growers who supplied that particular variety. Formerly the different varieties were marketed together and the proceeds pooled, so that the grower of an indifferent variety of apple received as much as the grower of the most popular variety. This was manifestly unfair and gave no incentive to growers to improve the quality of their produce. Wealthy, McIntosh Reds and Winesaps, I was told, are very popular varieties in British Columbia.

Central Ought to Have More Control Over Locals.

The apples are graded and packed by the local associations. Experience has shown that it would probably be better if the Central had more control over the managers of the local associations that it possesses at present. The natural tendency of the local manager is to get as large a proportion of his members' output as possible passed in a high grade, and the general quality is apt to suffer. In view of the importance of keeping up the standard it was suggested that it would be better if the Central had the power of displacing a manager who habitually sent forward consignments not graded as they should be.

The Central handles all the fruit, including No. 3 grade, and even the culls. Under Canadian law all fruit in close packages is liable to inspection and must be properly graded and up to standard. To get over this provision some of the growers enclose their entire orchard produce in crates. Of course, this is not a good plan as such consignments are not less than would the same fruit if properly

graded, and the practice tends to bring down the general price level of the higher grade stuff. The O.U.G. therefore sets its face against this practice and will now handle only properly graded lots.

A curious effect of the price control in Great Britain was brought under my notice which it may be of interest to mention. While I was in England the Government fixed the price of apples at 9d. per lb., and I could not help being struck with the miserable quality of the apples exposed for sale. They were mostly windfalls and such as one would not trouble to pick up from the ground. I have seen with my own eyes wretched, shrivelled specimens not much bigger than walnuts exposed for sale in London fruiterers' shops, and being eagerly bought, in the absence of anything better. In British Columbia I learned that this fixed price made it impossible to ship grades 1 and 2 to England at a profit, and it is one of the most rigid rules of the O.U.G. not to export any but grades 1 and 2, so as not to lower the reputation of the brand. Unfortunately they had sold a large quantity of No. 3 in Eastern Canada for evaporating, etc., and the purchasers of this fruit not only shipped it to England but I was told, sold the apples as from the Okanagan. Of course, the O.U.G. people were furious, but apparently the law left them no redress.

Central Gets Estimate on Probable Output.

The method of scientific distribution adopted in British Columbia is similar to that of the citrus growers in California. The Central obtains from the managers of the local associations an estimate of the probable crop of each variety grown. It sends to each of its local sales agencies sufficient to meet requirements, being careful not to send an excess to any centre. By the issue of literature, advertising and in other ways, it stimulates the consumption of apples. The surplus is exported to Australia and New Zealand, arriving in our off season. And I may add that they are only too anxious that we should reciprocate. So far from regarding us as rivals they look upon us as friends. They say, and I believe they are perfectly right, that it is in the interests of growers as a whole that the taste of fruit should be cultivated and kept alive, that the arrival of bright and juicy New Zealand apples during the Canadian off season will have this effect, and make the Canadian public all the more eager for the Okanagan crop when it comes on the market.

The organization also maintains a supply department handling boxes, spray material, etc., and the turnover in this department in 1918 was \$225,198. I was given to understand that it was intended to enlarge very materially the operations of this department. The directors at first, very wisely, concentrated all their efforts on firmly establishing the marketing end of the business. They intend now, however, to extend their supplies department so as to include farm implements, automobiles, tractors, and, in fact, everything required by their members.

Already this well managed concern has stabilized prices, eliminated a good deal of waste, lessened charges, and, what is of greater importance, improved the quality and established a good name for British Columbia fruit.

Referring to this organization, Prof. F. M. Clement, in a letter to a New Zealand fruit grower, had the following to say:

"This year (1920) British Columbia, because of her organizations, is having a fairly successful marketing season. The crop is, however, about 30 per cent. to 35 per cent. less than a year ago, and the unfavorable exchange makes it possible for us to sell in United States markets. We feel quite proud of The Okanagan United Growers, and although I do not know anything of your conditions I feel quite certain that an organization on somewhat similar lines would be of extreme benefit and value to your industry."—B.C. United Farmer.

Prince Rupert, B.C.—An unofficial estimate of the city's population places it at 7,000, and it is considered that this would be somewhat greater were there greater housing accommodation, the lack of which has prevented some expansion.

The power that often wins is simple patience.

(Continued from Page 1.)
structed to notify all users of electric light and domestic water that the 10 per cent. penalty on arrears will be strictly enforced on and after August 31st, 1921.

The following motion was carried: That the Clerk be instructed to prepare a by-law to the following effect: That the members of the Peachland Town Council be remunerated for their services per annum at the rate of \$100 for Councillors and \$150 for the Reeve. This resolution to be operative as and from the 1st of January, 1921.

The question of Sunday bathing in front of the Baptist Church was discussed, owing to the disturbance to the services caused by the bathers, and it was decided to ask the Reeve to instruct the constable to forbid bathing, unless from the front of the Government wharf and from the C.P.R. wharf north.

The accounts for July were passed and ordered paid as funds permit.

Mrs. Holcord and Mrs. Johnson of Penticton were visitors last week, guests of Mr. and Mrs. J. A. Edgecombe.

Mr. Frank Wrightson came in from the prairie on Monday last week to look after his property here in the vicinity of the Huston Flats, and after spending the week left on Saturday morning.

Mr. G. Lang and his friend Mr. Watkins of Brandon, Man., were visitors to Kelowna on Monday.

Masters Ed. and Will. Wright went down to Naramata on Monday evening's boat to visit their grandparents. They returned on Saturday morning.

Mr. and Mrs. J. Edgecombe are enjoying a visit from friends from Calgary, Mr. and Mrs. Ramsbottom.

Mrs. Morgan was a passenger to Kelowna on Wednesday morning and after spending a couple of days in that vicinity returned home on Thursday evening.

Mr. and Mrs. Wm. Suddaby enjoyed a few days' visit last week from Mr. Suddaby's cousin, Miss Bertha Nichols from Omemee, Ont., and friends from Saskatoon, Sask., in the persons of Mr. and Mrs. Hore. They left here to resume their trip to coast cities before returning home.

Visitors from here to Kelowna on Wednesday the first day of the regatta being held there were Mr. W. J. Moore, Charlie Verey, Grant and Orman Eddy, Mrs. F. Upton with her sister Mrs. Robertson and the family. All returned in the evening. Mr. A. J. MacKenzie and family motored over for the day.

On Thursday Peachland contributed quite a number to attend the closing day of the regatta at Kelowna, some going by excursion boat and many by auto via the Kelowna-Westbank ferry.

Mr. and Mrs. H. E. McCall with Mrs. McCall's brother Mr. L. J. Sharp, who has been visiting in town for a short time, motored to Summerland on Wednesday afternoon last, just paying a flying visit to that district.

After a pleasant motor trip to Salmon Arm Mr. and Mrs. Geo. Keyes returned on Wednesday evening of last week.

Mr. Bert Baptist has recently secured the tenancy of the old cannery building, and after having the street end opened out has turned it into a garage and moved in last week end ready for operations.

Mrs. Geo. Cottle with her daughter Evelyn, of Calgary, Alta., arrived on Friday evening last to visit with her uncle and aunt Mr. and Mrs. L. D. McCall. Mr. Cottle expects to come at a later date to join the family for a short visit.

Mr. Fawcett made a short visit home on Friday, coming in on the Seacombs in the evening and spending the time with his wife and family till he had to go on duty on the Okanagan on her fruit trip.

Mr. Halliday of Armstrong was a visitor in town on Thursday evening and Friday of last week, having come down to call on Mr. E. Leverington, an old friend. He was unfortunate in finding Mr. Leverington away in Summerland, and took the boat on Friday evening to join him there.

Fire Ranger W. L. Williams, in viewing the range from one of the look-out points last Friday caught sight of a fire apparently just commencing on the slope on the north side of Crown Mountain by Spring

Creek, which must have been started by lightning. He got a small gang together at once and soon got the fire under control. Unless a high wind should come there will be no difficulty in holding it within its present bounds. There was also a fire started in the vicinity of Jack Creek, and a gang was put on it at once.

Visitors from here to Kelowna on Saturday were Mrs. and Miss Needham, Miss Whitman, and Mrs. Harrison.

Allan Iverson returned Saturday morning from down the lake where he has been working for some time.

After a short visit here with Mr. G. Lang, Mr. Watkins of Brandon, Man., left on Saturday morning to return east.

Mrs. Ferguson of Winnipeg left on Saturday morning to return home after having spent a pleasant visit here with her brother-in-law, Mr. A. D. Ferguson and his wife.

Mr. John Seaton of Okanagan Centre spent the week-end in town.

The Rev. F. Coad conducted the service in the Union Church on Sunday and the Rev. L. J. Sharp conducted the service in the Baptist Church.

Dr. and Mrs. Lipsett motored up from Summerland on Sunday to call on Mrs. Lipsett's sister, Mrs. J. B. Robinson.

After a very pleasant visit with his sister Mrs. H. E. McCall, The Rev. L. J. Sharp left on Monday morning to return to his home in St. Louis, Mo.

We wish to correct an item in last week's issue which reads "girl" instead of "boy" in the case of Mr. and Mrs. Jack Wilson.

The Misses Clara Graham, Edith Johnston and Lillian Darke of Summerland were visitors in town on Monday, the former two guests of Mr. and Mrs. Williamson and family at the Trepanier Townsite, while Miss Darke was the guest of Mr. and Mrs. L. D. McCall. Miss Graham remained over to visit here for a week while the other girls returned on the evening boat.

Among the arrivals on Monday morning's boat were Mr. and Mrs. Roberts, who are guests at the Evans home.

Mr. Wm. Ashley and family are enjoying a visit from Mr. Ashley's brother and daughter of Bellingham.

The case Oakley vs. Davidson which was to have been tried on Monday afternoon was adjourned to Saturday afternoon the 20th.

Having sold off his stock and effects Mr. J. Thorne left last week end en route for the Old Country where he will probably reside for some time.

Mr. and Mrs. J. McLaughlin Sr. are enjoying a visit from the following friends and relatives: Mr. and Mrs. Geo. Spears, Mr. and Mrs. John Graham and son George, all of Bellingham, Wash., with Mr. and Mrs. Haddow of Tacoma, Wash. They motored all the way and expect to spend a short time here before returning home.

Mr. J. Wilson visited Kelowna on Monday and brought back with him Mrs. Wilson and their baby boy.

Mr. Everet Law returned home to Penticton by Monday evening's boat after a short visit in town, and was accompanied on his return by his sister Mrs. Vivian.

Mrs. Mildray and Mrs. Bates were passengers south on Monday evening's boat to make a short visit.

Mr. Gus Hohense left Tuesday

Westbank Notes

Mr. Sidney McKay took a number of Westbank people over to the regatta in his truck. Everyone reported a very enjoyable day.

Mr. C. Butt was a visitor to Kelowna on Thursday.

Mr. W. M. Buchanan, fruit inspector, and old friend, was in town on Saturday, returning by stage that afternoon to Peachland.

Mr. J. Basham is the proud father of a little baby girl, born in Westbank on Friday, August 12th.

Mr. J. L. Howlett was a passenger to Kelowna on Saturday.

A party of Westbankers took in the dance at the Aquatic, Kelowna, on Thursday, and reported an excellent time and a large crowd.

Mrs. W. Fulton was a visitor to Peachland last week, returning by the jitney.

Mr. and Mrs. McIntosh accompanied by Misses Muriel, Marguerite, Winnie, and Master Arnold went for a picnic trip up Powers Creek last Thursday. They spent a very enjoyable day fishing, returning by Shannon Lake in the evening.

Miss Marjory Aberdeen, who has been spending part of her holidays with Miss Myrtle Howlett, has returned to Kelowna.

The Boy Scouts' meeting was held on Saturday, August 13th, and a number of tests were passed and instructions given to the boys to go ahead and study up for second class.

morning for Kelowna where he has accepted a position with Mr. W. Taylor, our former Union manager here.

Miss Ivy Law returned Tuesday morning after a short visit with relatives in Penticton.

Mr. and Mrs. Wesley MacTaggart of Edmonton, Alta., friends of Mr. C. G. Elliott came in on Monday evening to spend a short holiday in Peachland.

SUMMERLAND | PENTICTON

The Westbank weekly picnic was well attended on Saturday and a very fine afternoon was spent swimming, boating, and other games.

The packing houses are working day and night packing apples, peaches, plums and pears, but the main crop now being harvested is crab-apples, the B.C. Growers having over a carload for Saturday's shipment, and many boxes still waiting shipment.

Dr. W. M. Buchanan was in town last week.

Mr. and Mrs. W. Oakley and Dorothy of Peachland were in Westbank on Friday.

Mr. David Smith is in town doing the clerking for his brother for a couple of days.

Mr. H. Brown was a visitor to Kelowna on Tuesday.

Mr. E. Brett who has been spending a short holiday with Mr. and Mrs. Gore has left for Vancouver.

Mr. and Mrs. A. E. Drought were passengers to Kelowna on Saturday's and Tuesday's stage.

Dr. W. M. Buchanan was in town Monday morning.

A lawn party was held at Mr. and Mrs. J. M. Jones' last week. A very enjoyable evening was spent, singing and dancing.

Last Saturday evening was the scene of a very enjoyable dance at Westbank. The young people who had attended the picnic spent the evening at Mr. and Mrs. Ewer's, dancing and playing games.

Messrs Leslie Howlett and Thomas Drought accompanied by H. Charlton of Peachland had a fine trip last Saturday and Sunday. Leaving Westbank late Saturday evening they rode through Peachland and hit for the

We hear that Mr. McCallum's motor launch received second prize in the five mile motor race at Kelowna Regatta last week; while the trip from Kelowna to Summerland, with six passengers, was made in about an hour and thirty minutes. Mr. McCallum's boat had just passed through our shop for a complete overhaul.

We give every care and attention to the overhauling of cars, trucks, or indeed, any engine, but we are just as careful and attentive to the trifling job, that happens along.

Deep Creek country. They travelled all night, going to the north fork of the Creek, and back during the night. From the forks they went back to Spring Creek and following up this they expected to find the forest fire, but were unsuccessful. The only luck they had was to wake up the fire fighters, who looked rather tired at that early hour, 4.30 a.m. The boys arrived back in Westbank Sunday and next day looked somewhat fatigued.

Mr. McDonald of Peachland has been in town visiting Mr. A. E. Drought.

Miss Dorothy Smith, accompanied by her sister, came back to Westbank from Kelowna on Sunday. We are all very glad to see her back with us again.

Mr. and Mrs. A. E. Drought accompanied by Mrs. Brown and Miss Clarke motored to Peachland Monday afternoon.

Mr. Murray Smith who has been spending a few days on his father's ranch has returned to his store here.

Mr. Jas. Duncan, who has been spending a few days visiting Enderby, Armstrong and other Valley towns, returned home Saturday.

Mr. W. Fulton made a business trip to Kelowna on Monday.

Mr. Hunter of Vernon, chief pest inspector, was in town on Tuesday.

Those who are true to themselves are never false to others.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

The Basketball Club are giving a dance. Where? 1-706

The afternoon ferry trip is discontinued; evening trip as usual. 706

Recent guests of Mrs. Jas. Ritchie were Mrs. King and her children of Kaleden.

Attention is directed to the announcement of the first showing of winter hats at Finley's.

Mr. and Mrs. Muir Steuart went down to Vancouver on Monday intending to visit the fair.

The staff at Pollock's packing house had a pleasant outing at Crescent Beach on Wednesday evening.

Miss Grace Logie entertained a number of friends at an outing at Crescent Beach on Tuesday night.

Mr. and Mrs. Godwin and their young son Frank of Ocean Falls are guests of Mr. and Mrs. C. Comber.

The employees of the Mutual Fruit Co. enjoyed a pleasant outing at Crescent Beach on Tuesday evening.

Guests of the Misses Spencer are their niece Mrs. Noyes of Vancouver and her niece Miss Margaret Nicholson.

Mr. J. H. Bowering has resigned as issuer of marriage licenses and registrar of births, deaths and marriages, and Mr. Adam Stark has been appointed in his stead.

We clean or dye soiled or faded garments, house furnishings, etc. Let us mail you price list. Permanent Dye Works Ltd., 1641 4th Ave. West, Vancouver, B.C. 48tf

The Basketball Club Dance will be held at Empire Hall. When? 2-706

Mrs. R. Waddell and two children of Montreal, came in on Saturday's boat and are guests with Mrs. Waddell's parents, Mr. and Mrs. James Thompson, Victoria Gardens.

Mrs. G. C. Flamank, formerly of Glacier, now of Vernon, who has been visiting her parents, Mr. and Mrs. C. A. Walter and brother W. E. Walter, returned this week to her home.

Mr. and Mrs. S. M. Young left on Thursday to return to Vancouver. They motored from the Coast to Summerland by way of Seattle, and are going back through Princeton, shipping their car from that point to Hope.

Miss Marie McKechnie, daughter of Dr. McKechnie of Vancouver, and Miss A. M. Smith, daughter of T. J. Smith of the same city, are visiting at the homes of their aunt, Mrs. Geo. Gray, and uncles Messrs. W. J. and J. M. Robinson.

Thos. Collinge, who was associated with The Review in its early days, is one of a company who has recently purchased The Chronicle at Lady-smith on Vancouver Island. Mr. Collinge left here about ten years ago, going to Port Alberni.

The Basketball Club Dance is on Thursday, August 25th. What's doing? 3-706

Rev. Jas. Dunlop went down to the Coast last week on a business visit. He will return in time to take charge of the services next Sunday. Last Sunday the Baptist pulpit was occupied at the morning service by Rev. Dixon Smith, missionary from India. There was a service of song in the evening with a short address by Rev. G. J. Coulter White.

Mr. Smart, one of the bricklayers working on the storage building occupied the pulpit of the Lakeside Church on Sunday morning, and the Rev. O. E. Mann preached in the same church on Sunday evening, the Pastor Rev. H. E. Livingstone being at the Naramata Church. Naramata is now under the pastorate of Mr. Livingstone, who preaches there on the afternoon of each Sunday except the second Sunday, when he holds service in the evening.

A cabaret supper and good dancing music at Basketball Club Dance. How much? 4 706

Mr. and Mrs. P. G. Koop gave a fancy dress bathing party at Crescent Beach on Tuesday evening in honor of Mr. Koop's sister who has been spending the summer here, and will be leaving shortly to return to England. There were a large number of friends present, and the costumes were varied, including Indian princesses, South Sea Islanders, summer boys (with long hair), and summer girls (with short hair). The ladies' prize was taken by Mrs. Andrew as "The Cannibal," and the gentlemen's prize by Mr. Crossley as "Kewpie."

Only \$1.50 per couple to take in the Basketball Club Dance. Let's go! 5-706

Hasn't anyone got that one as advertised for in the Lost Column? 706

Rev. H. A. Solly is building a cottage on his lot directly behind Mr. Theo. Hermon's residence.

Mr. and Mrs. G. H. Inglis entertained a number of friends last Tuesday evening at a cornbake and bathing party at Crescent Beach.

Enjoy a trip to Pentiction Saturday afternoon at 1 o'clock, 50 cents; evening, 7.30, 75 cents. Phone 93. 706

Rev. C. H. Daly who has been spending his vacation here and occupying the pulpit of St. Andrew's Church on Sundays, leaves this week to return to his church at Ladner.

Bernard Taylor is agent for Pentiction Steam Laundry. Collections around town made on Mondays, other patrons leave at house, phone 931. Laundry returned on Friday. 706

Dr. H. S. Timberlake, optician, will be at the Summerland Drug Company's stores Tuesday, August 23rd; Summerland in morning and West Summerland in afternoon. All optical work guaranteed. 706

Jack, the seven weeks old son of Mr. and Mrs. Charity died on Thursday of last week at the Summerland Hospital. Interment was made in the Anglican Church Cemetery on Saturday.

Miss Cartwright entertained on Thursday evening at an informal dance in honor of Miss Lewis of Victoria who has been her guest for the past week. Miss Lewis returned to the Coast on Thursday's train.

There are at present four S.C.R. men in Summerland Hospital, all of whom are making satisfactory progress. Mr. A. C. Soule who was at the Coast for some time was sent to the local hospital, C. H. Taylor also a local man is another, and Mr. Wenzel of the Experimental Farm staff is also a veteran patient, the fourth being Mr. Turnbull, who came to the institution from Naramata.

Word has been received here of the death of Mrs. Osborne of Buckley, Washington, mother of Mrs. C. B. McCallum. Death occurred on Thursday of last week following a critical operation. Apprised of her mother's serious illness Mrs. McCallum left here just in time to reach her side a few hours before she was taken to the operating table on Wednesday. Mrs. McCallum is expected home this week.

Card of Thanks.
 Mr. and Mrs. Charity wish to express their gratitude to their many friends in Summerland, for the sympathy and kindness shown them at the loss of their little one. 706

The man who does not advertise because he tried it and failed, should throw away his cigar because the light went out.

CANADIAN PLAYERS
 Home Theatre
 Naramata, B.C.

CONCERT RECITALS
 Aug. 24th and 25th at 8.30 p.m.
 (Complete change of program each evening)

BOYD WELLS, Pianist.
 FRANCIS ARMSTRONG, Violinist.

All Seats \$1.00, Reserved, and now on sale at Main's Pharmacy, Summerland Drug Co., and Naramata Supply Co. Children under 16 will not be admitted.

Ferry leaves Summerland, Aug. 25th, at 8 o'clock. Return Trip to Theatre 50 cents (payable on ferry). 706

Mrs. H. C. Howis returned home last Friday after a visit of several months in England.

Mr. J. J. Wilson who is now conducting a business in the Fraser Valley was a visitor to his home here early this week.

Mrs. H. G. Fenner is making very satisfactory progress towards recovery from an operation recently undergone at the hospital.

The new retail firm of Simpson & Gowans has added a motor truck to its equipment, with the intention of making regular deliveries to customers.

Miss Elmo Lipsett who has been visiting at the home of her uncle, Dr. Lipsett, left on Wednesday for Vancouver on her way back to her school in Manitoba.

Mr. A. Stark makes a bid in our advertising columns this week for business in the several lines he is now carrying in his new business, the Stark Supply Co.

Kenneth Elliott who has recently been admitted to the bar of this province, arrived here the first of the week to spend a vacation with his parents Mr. and Mrs. A. B. Elliott.

Mrs. D. F. Brewer returned last week from a visit of about two months with her daughter, Mrs. B. C. Moore of Calgary. She brought with her her young grandson Kenneth Moore.

Mr. W. L. McPherson is building a substantial and good sized residence on the five acre lot opposite the home of Mr. J. R. Campbell, the property which he bought from A. Gayton a few months ago.

Mr. G. R. S. Blackaby is again at the Bank of Montreal, Shaughnessy Avenue office. Mr. Meredith, who was relieving him during his vacation, will be in charge of the Naramata office while Mr. Fisher is on his holidays.

Miss Lena Snider left on Tuesday to return to Vancouver following a vacation visit with her parents, Mr. and Mrs. S. B. Snider. She took with her her young niece Dorothy Lott, who will visit with relatives for a time.

Mr. and Mrs. Geo. Campbell of Winnipeg were guests from Saturday to Wednesday of Dr. and Mrs. R. C. Lipsett. Mr. Campbell is master mechanic with the Dominion Bridge Co., and with Mrs. Campbell is making a holiday visit to many western points. Leaving here on Wednesday they went down to the Coast with the intention of visiting also some American cities before returning east.

AMERICAN TOURISTS POURING INTO CANADA

Niagara Falls, Ont.—A continuous stream of United States automobiles is crossing the bridges into Canada and officials say that all records are being broken, the movement totalling at times three hundred cars per hour. The trains are also crowded and altogether there is an unprecedented rush from across the border to Canadian summer resorts.

Town Marshal—You can't hitch here!
 Driver of Wagon—Why not? The sign says: "Fine for hitching."

FRUIT UNDER GLASS.
 Medicine Hat, Alberta.—Growing fruit, vegetables, and flowers under glass is becoming an important industry in Southern Alberta, and a new company which has just been formed with a capital of \$10,000 will have two acres under glass this year. There is already one similar company operating here with about four acres covered. The city's natural gas is a great factor in the success of these undertakings.

Tourists motoring over Vancouver Island one day recently, found that every hotel room was taken at Nanaimo, Parksville, Courtenay, Cumberland and Campbell River. The number of visitors to the Island highways this year exceeds all past summers.

The Dominion forest reserves in Western Canada comprise an area of approximately 27,500,000 acres, and consist of tracts of land unsuitable for agriculture, which have been set apart permanently for forest production.

We Are Selling Cheaper Mileage

You may get extraordinary mileage out of any one tire—but that's not the way to figure mileage.

Get the average of mileage given by a pair of tires or a set—and you will get nearer to the actual cost of mileage to be charged to the upkeep of your car.

It's just because we've taken the trouble to figure values that way, that we recommend Ames Holden "Auto-Shoes."

We know they are giving real mileage over the worst roads in the country and their "average" performance leaves no doubt in our minds that Ames Holden "Auto-Shoes" will give you the cheapest mileage you can buy. And they are guaranteed without time or mileage limits. Drop in and let us show you and tell you about

IS YOUR CAR INSURED
 You insure your house! Why not your car - it runs more risks? You may depend on yourself, but - CAN YOU DEPEND ON THE OTHER FELLOW G. Y. L. CROSSLEY Real Estate and Insurance Phone 424 West Summerland, B.C.

You Save Every Way—

Quality maintains economy. No matter how much you pay "per gallon" for other lubricating oils you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

MORE mileage from every gallon of fuel and quart of oil; uninterrupted service from your car; slower depreciation; fewer repair bills and no lubrication trouble, just about sums up the savings and satisfaction enjoyed by users of Imperial Polarine Motor Oils.

The uniform high quality of Imperial Polarine Motor Oils, wherever you buy them, insures you more miles of correct motor lubrication for your dollar than you can obtain in any other way. Quality *does* maintain economy.

Our Chart of Recommendations shows the grade of Imperial Polarine Oils required to correctly lubricate your car. Use this grade exclusively and you will get the years of service and satisfaction which you have a right to expect from your car.

Consult our Chart at your dealer's or write to 56 Church Street, Toronto, for a copy of "Automotive Lubrication," which contains the complete Chart and other useful information.

IMPERIAL OIL LIMITED

Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR

Not even Imperial Polarine Motor Oils will lubricate properly if mixed with grit and dirt. Your crank-case should be thoroughly cleaned every thousand miles or less. Dealers displaying the sign to the left will clean your crank-case in an expert and workman-like manner. Such dealers use Imperial Flushing Oil, the modern scientific cleansing agent. Employ crank-case service regularly and you will save hundreds of dollars every year.

Correspondence

Glassonby, England.
August 18, 1921.

The Editor, Summerland Review,
Summerland, B.C.

Dear Sir,

We have read with interest your suggestion in the editorial column of The Review, concerning the establishing of a free camp ground in Summerland, and hope that Summerland will be far seeing enough to realize the benefits to be derived from a camp ground of this nature.

On our recent trip we followed the Yellowstone trail and every town of any importance has a fully equipped camp ground which is taken advantage of nightly by tourists from all over the United States, and a few from Canada.

In Spokane is one of the most complete and up-to-date camp grounds, and there we found splendid buildings equipped with hot and cold shower baths, set tubs for washing, with hot and cold water, fuel for the stoves, in fact all the requisites of a travelling public, and even at that time (early in May) seventeen motors and tents were in evidence the night we were there.

In South Dakota we found a very small but very complete and inexpensive camp consisting of a small building about 12 feet square, but containing a shower, a kitchen range and outside a ton of coal, which in a short time provided hot water as well as the cold already there.

Upon entering these towns the

sign of "Welcome" is there in large letters and on departing "hurry back" which is, as you suggest, a contrast with "No Camping Here," as you find in most places in Eastern Canada.

Each tourist tells the other of the good camp grounds, and they soon become well advertised, and naturally there is a good deal of money spent in that town in the purchasing of groceries, gasoline, etc.

Hoping Summerland will see its way clear to provide this camp ground and thanking you for this space,

Sincerely yours,
J. M. ROWLEY.
(Mrs. E. N. Rowley)

MOVIE PEOPLE COMING TO B.C.

Cranbrook, B.C.—The Universal Film Company of Los Angeles, California, are coming to Bull River, in this district, this month, to film a picture, the scenario of which is written round "The Conflict," by David Graham Phillips. There will be about one hundred and twenty-five members in the party, and the staging and filming of the picture around Bull River, Cranbrook and Rampart will take about two months. The cost of the production is estimated at about \$30,000.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted immediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the late war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1915. Taxes are remitted for 5 years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

YAKIMA FRUIT COMPETING WITH OKANAGAN

Earlier Season Results in Overlapping in Market.

FREE APPLES

Elks From Okanagan Do Some Advertising While in Parade. Peachland's Lemon Cakes Again.

Fruit Markets Commissioner Mr. J. A. Grant comments as follows on market conditions in Calgary as at last Saturday.

Sunshine, showers, and the Elk's convention featured this week in Calgary. In the street parade about 2,000 Elks took part. The Okanagan sent a full quota of delegates who included business with their pleasure. They distributed pamphlets along the route and showered the kiddies with apples. Some of the delegates found time to call at our office, including Messrs. D. McNair, Armstrong; M. McTaggart, C. L. Lowe and J. Galbraith, Vernon; E. Trask, Oyama.

The market conditions are dull with a big supply constantly rolling in. The season is two weeks ahead of last year. Housewives will return from their summer vacation in a week's time for the school opening. Prairie markets besides taking care of B.C. shipments is being flooded with American produce of a like kind from Yakima. This stuff was sold by visiting salesmen and wholesalers expected it to move out before B.C. fruits were ready. The result is loss all round. Several mixed cars from Yakima containing apples, pears, plums arrived unsold and are being sold as on consignment. B.C. tomatoes have slipped in price. Cucumbers are dragging at 50c per crate. New potatoes (Continued on Page 5)

PREPARING FOR BIG FALL SEASON

Cold Storage Plant To Be Put In Operation Soon As Possible.

In anticipation of the early completion of the new Cold Storage plant work is being done in the Empire Block on the old grader taken out of the Fruit Union building some two years ago. This grader has for some time been under repairs, and will shortly be in such good order that it will be installed in the Cold Storage plant, and will have a capacity of about 1,800 boxes. This, with the two already in the Fruit Union building will, it is believed, be fully capable of handling the apple crop as it comes in without any delays, as has sometimes been the case in previous years.

Apparently the apple crop is likely to exceed the early estimates, and the Company are making all possible preparations for the efficient handling of the crop as brought in by the growers.

COMMENTS ON FRUIT ADVERTISING

Seeing much significance in the co-operation between grower and shipper on the one side and the wholesalers and retailers on the other, the B.C. Fruit Markets Commissioner at Calgary says:

We notice the display ads. featuring B.C. fruit, its merits and when it will roll, appearing in daily and weekly papers in different centres. These ads. are being paid for jointly by the growers and shippers of B.C. wholesalers and retailers of the prairie cities.

The attention of housewives is especially being drawn to the time to buy different fruits. It is pleasing to know that all those contributing to this educational campaign are satisfied with the immediate results, to say nothing of the future good advertising does to fix in the public mind the high quality of British Columbia produce.

The wholesale and retail merchants of the prairie would not spend their money co-operating with B.C. shippers unless they were convinced that they had the goods to deliver.

BOX CAR GIVES BOATS PLENTY OF TROUBLE

The box car which went over the end of the slip at the C.P.R. wharf some days ago when one of the cables broke has been the occasion of considerable work. After some effort to lift the car back on to the slip this was abandoned, the running gear only being salvaged. The car box was tipped over to one side to give the barges access to the slip.

Efforts of the tug and barge to drag the car out into the deep water being unsuccessful, the "Okanagan" gave assistance last Friday evening, and the wreck was finally moved out some distance, but not until several cables had been broken and much time spent.

But again the wreck had to be moved, as on Monday morning the Sicanous struck it while coming into the wharf, and the old box car had to be again picked up and taken further out into the lake.

EXPECTING PRICES TO MOVE UPWARD

Survey of American Fruit Markets is Indicative of Stronger Prices.

Reports from Yakima and Wenatchee are very encouraging. Dealers who visited the eastern part of Washington from Seattle say that the wholesale row in Seattle looks quiet after what they saw in Wenatchee and Yakima.

Buyers from the East were there in force, and bidding for the season's fruit was lively. The International Apple Shippers' Association at Cincinnati, Ohio, started the ball rolling in western box buying. Sales there were made of Extra Fancy Jonathans at \$2.15 a box, while the Extra Fancy Delicious brought \$3.25 to \$3.50 a box. A sixty thousand box lot of Newtons, 150 or larger, sold at \$1.80; Extra Fancy Spitz, \$1.95, and Winesaps, \$1.95.

Some individual sales of Idaho Rome Beauties and Jonathans brought for Romes \$1.90, Jonathans \$2.10. A fifty car sale of Idaho Peaches brought \$2.50 per bushel.

In Yakima 3,500 tons of cannery pears have been sold at \$40 per ton with expected advance to \$50 per ton. Alberta peaches have advanced from 75c. to 90c. per box.

Wenatchee apple growers are refusing to sell until after September 1st. Prices offered there so far are not as high as those quoted from Cincinnati.

Potatoes are scarce and prices have advanced both in Oregon and Washington.

Taking the general outlook in the United States and Canada, says Markets Commissioner Grant, we feel safe in saying that all fruits and most of the vegetables, particularly onions and potatoes, are due to rise in price. B.C. potatoes are today selling for less than any other state or province from the Gulf of Mexico to Alaska.

GETTING MATERIAL READY FOR WHARF

Contractor McAlpine Commences Operations at New Storage Plant.

Piling for the new extension to the repair wharf on the lake side of the Fruit Union building in order to have railroad facilities to the Cold Storage plant now being erected, was started to be hauled this week, and on Wednesday, Contractor McAlpine was busy marking out the positions for the piles to be driven.

It is expected that actual work of construction will be commenced shortly.

DAM REPAIRS ORDERED BY COUNCIL TUESDAY

Instructions were given by the municipal council on Tuesday to have repairs made to the dam at the head of Aeneas Creek. R. Johnston who had recently visited the reservoir there reported that several bags of cement would be required to make the repairs, also that two men and three pack horses would be needed. It would also be necessary to clear two or three miles of trail between Fish Lake and the dam before the repair work is undertaken. Mr. Johnston agreed to take charge of the work and it was left to him to arrange the details.

NEW GOVERNOR-GENERAL'S ARRIVAL IN CANADA.

Reading from left to right—taken on board S.S. "Empress of France." Lady Byng; His Excellency Lord Byng, G.C.B., G.C.M.G.; Commander E. Cook, R.N.R.; Capt. The Honorable W. D. H. Jolliffe, A.D.C.; Mr. Neil McLean, Labor M.P. for Glasgow; The Honorable Captain F. W. Erskine, A.D.C.

SOUTH ROUTE TO COAST HAS BEEN SELECTED

Public Works Department Says This Will Be First Road Opened. Definite Route Not Fixed.

COST A MILLION

This is Guess of Department. Will Complete the Highway Right Across Province, is Statement.

Confirmation of the prediction made by The Review in its issue of June 10th that the first connecting link between the highways of the interior and the lower mainland will be over the Hope-Princeton route is contained in a recent communication said to have passed from the Deputy Minister of Public Works for this province, to the Secretary of the Edmonton Automobile Club. This club made an urgent request that the British Columbia Government take up the construction of a trans-provincial road via the Yellowstone Pass and Jasper Park. Here is Victoria's reply to this request:

"Sir—Referring to your communication of the 18th ultimo to Mr. Gwyer, district engineer, Penticon, and to the Hon. the Premier, I beg to advise that at the present time we are devoting all our energies, insofar as our limited funds will permit, to completing the southern route from the coast to Alberta via Hope, Princeton, Nelson and the Crow's Nest Pass. The main gap in this road between Hope and Princeton, a distance of about 82 miles, now remains to be built. There are three or four routes available but as yet the Government has not been able to decide which to follow. The completion of this connection will likely involve an expenditure of one million dollars at least, and until such time as this is completed, we do not think it wise or desirable under existing financial conditions to enter into negotiations or arrangements for another trans-provincial road, as we find it impossible to build roads for settlers as fast as we should like to. However, the northern route through the Yellowstone has much in its favor and will no doubt be built before many years pass.

Yours obediently, etc."

Model Town for T. B's.

Kamloops.—Plans are in progress for the formation of a model town for tubercular returned soldiers on a 7,000-acre tract of land near here. Inspection has already been made of the land and if the report is adopted at the coming session of parliament, work will be commenced in the spring of 1922.

PRIZE WINNERS GARDEN CONTEST

Orville Dunham, Alvin Wilson, Lester Gould, and Arthur Dunsdon of Division 1 of the Central school have been awarded the prize offered by the Summerland Women's Institute for the best group of four plots in the school garden. Two judgments were made, one early in June and a second on the 18th August, Mr. G. Marshall being the judge.

It will be noted that all four of these boys live a long distance from the school, and as they had to make periodical visits to the garden plot during the summer vacation their success is all the more creditable.

The names of the winners in Div. 2 will be announced after the return of the teacher, Mr. Davidson.

Arranging For A Series of Lectures

Rev. N. A. Harkness Has Plan to Have Social Speakers Visit Okanagan.

Vancouver.—Rev. N. A. Harkness, who returned recently from a trip through the Okanagan Valley in the interest of the Provincial Social Service Council, reports the organization of local councils at Penticon, Summerland, Kelowna, Armstrong and Vernon. The newly organized councils made tentative arrangements for a seven-course lecture series to be given during the winter months, commencing in October.

It is expected that prominent speakers from the coast will make a tour of the Okanagan each month, speaking under the auspices of the local councils. The subjects dealt with will be of local and provincial interest and the course of lectures will be continued until April, 1922.

SUCCESSFUL AND HAVE HIGHER AIMS

Students Who Passed Exams Are Leaving Shortly For University and Normal.

Quite an exodus of young people from Summerland is expected to take place this fall, when the educational institutions re-open for the next term.

A large number of those who passed their examinations in June last will be leaving for the coast city, and it is expected that Allen Harris, Howell Harris, Roy Elsey, Donald McIntyre, Blanchard Munn, Fraser Lister, Ronald White, Hugh McIntyre and one or two others will join the University.

Thelma Hobbs, Alva Garnett and Ruth Graham will attend the Vancouver Normal School, and James Marshall is going to Guelph, Ont., to attend the Agricultural College there.

It is understood that P. C. Tees who resigned his position as teacher at Summerland High School last June will, with Charles Broad, attend the University to take up a partial course of study.

WANT LIGHTS EXTENDED UP GARNETT VALLEY

A Large Delegation Requests That Utility Cover This District. Want Road Improved.

WEST SIDE FLUME Needs Repairs. Assured This is Contemplated. Light Extension One of Finance When the Power Comes.

The petition asking the municipal council to again submit to the ratepayers the proposed school loan by-law authorizing the building of the new school was laid before the council at the regular meeting on Tuesday together with the required guarantee covering expenses, should the by-law not carry.

One or two of the councillors spoke against presenting the by-law, but the reeve took the view that the council had no option in the matter. Two of the members of the School Board were quoted by councillors as stating that there was no immediate hurry, and on the suggestion of the reeve it was decided to withhold the submission of the by-law to the ratepayers until other contemplated by-laws are put before the electors.

Garnett Valley was represented by a large delegation at Tuesday's sitting of the municipal council, among those noted being F. Dickinson, O. Koester, H. L. Gallaughier, S. R. Davis, H. C. Handley, W. R. Lawrence, R. Shannon, D. Rutherford, R. Siderlin, H. Reynolds, R. F. Theed, R. Phillipon, E. Adams and J. Dunsdon.

Mr. F. Dickinson was the chief spokesman and informed the council that the delegation had come to ask that the electric light system be extended up Garnett Valley. Mr. Dickinson and others apparently had the impression that the council had decided to make extensions to the electric light system to cover other portions of the municipality omitting Garnett Valley. The claim was made by the delegates that Garnett Valley was not getting its share of municipal expenditures, the statement being made that the land in that section was paying for services rendered residents in other parts, that they were taxed to provide electric light and domestic water to those served by these utilities.

The reeve went into the question of municipal finance at some length with the delegates, explaining that while theoretically the capital expenditure for utilities was a charge on the land, in practice the rates charged users were sufficient to bear the charges with the one exception of the irrigation system, in which case the deficit was made up from taxes.

Repairs to the west side flume were (Continued on Page 6)

MONEY IS ADVANCED FOR DISTRICT EXHIBIT

Representing the Board of Trade, Messrs. C. J. Huddleston and R. H. Helmer waited on the council on Tuesday asking that the municipality guarantee the expenses of putting on a district fruit exhibit at the provincial fair at New Westminster.

It was explained that the exhibition association will contribute \$200 towards the cost of the exhibit, provided such exhibit makes at least 50 points out of a possible 100. This sum, it was stated, would about cover expenses, but the committee wished to have the amount advanced by the municipality in the meantime. The exhibit is being prepared by Messrs. Tait and Lawler and will be in charge of Mr. S. Angove during the time of the exhibition.

On motion of Councillors Bristow and Thornber \$200 was advanced to the Board of Trade committee.

EXCELLENT FOR VEGETABLE CROP

Will Not Hurt Any Fruits and Will Be Splendid For Most Truck Crops.

"Splendid" was the comment of Inspector John Tait when interviewed by a representative of The Review after the rain on Tuesday. Mr. Tait considered that it had come in good time, when it would not interfere with picking too much, and the rain this year was a full week earlier than last year, when the first rain came on the 29th August after a long hot dry spell. This shower, he stated, would go a long way towards helping out the irrigation question for this season, and he thought it would make it possible to carry on in the Summerland municipality, while in other places where there had been greater shortage of water, it would materially aid in finishing off the fruit and vegetable crops.

Asked as to whether the rain would have any bad effects Mr. Tait thought that possibly the tomatoes might be hurt a little. However, he added, nothing else would be anything but benefited by it.

In talking over the general crop outlook, Mr. Tait stated that peaches had been scarce, and it was expected that plums would run short, but that the quantity of prunes would be normal, as also would pears, which will start to move this week. The estimate for pears last year was 13,000 boxes, and it is anticipated that this year's supply will run at least the same, and possibly a little better.

With regard to apples this season, Naramata expects to have between 80,000 and 90,000, while Summerland and Naramata together will have about 400,000 boxes.

Express shipments, he said, were keeping up well, cukes, tomatoes and other early vegetables, as well as cranberries and early apples going out in a steady flow.

FOUND GUILTY OF CAUSING DAMAGE

Neighbor Suffers From Chicken Raid. Gets Compensation in Police Court

Jack Imayoshi was fined ten dollars and costs and ordered by Magistrate Hutton to compensate his neighbor, Mr. Thos. Rumball to the extent of \$25 for permitting his chickens to damage the latter's garden.

The accused was found guilty of wilfully damaging the cabbage, tomatoes and other vegetables in Mr. Rumball's garden. According to the evidence the chickens had been feeding in the garden from May to August. Imayoshi had been remonstrated with and warned by the complainant and was also warned early in July by the police, but the chickens continued to do damage. Mr. Rumball in his evidence estimated the loss at \$75, and was supported in this by three witnesses.

Defendant admitted that a certain amount of damage had been done and excused the fact that the chickens were allowed to run at large by stating that the pigs had ropted under the chicken fence, and that he had not had time to make repairs. He estimated the damage to Mr. Rumball's garden at \$15, and his partner who gave evidence put the figure at \$10.

The time to hustle for business is all the time; the less business there is the more you want to hustle.

SHOWERS WERE OF GREAT VALUE TO FRUIT CROP

Ideal Growing Conditions Giving Good Size And Color.

SEASON EARLY

Nearly All Varieties Moving Some Weeks in Advance of Average Date, Says District Horticulturist.

That showers were general last week throughout the Okanagan and at the Coast is shown in the report issued last Saturday by the District Horticulturist. His bulletin covering the principal fruit districts of the province follows:

Vancouver Island and Gulf Islands.

The prolonged dry spell which has been experienced at the Coast for the past six weeks was broken the night of the 16th and the morning of the 17th by a very heavy rain. It will do good but it is a disadvantage to the harvesting of grain, as there is a great deal cut and in the field at the present time.

The sour cherry crop is practically over. Five cars were shipped from Victoria and the price realized was good.

Loganberries are still hanging on and the rain will be of considerable benefit to them.

Potatoes are not looking in good condition owing to the continued drought.

Yellow Transparent and Duchesne apples are being harvested at the present time.

Apples in general are not sizing well owing to the drought, but may move forward now with more moisture available.

Salmon Arm and Main Line Points. (Continued on Page 6)

OPENING PRICES ON WINTER APPLES

Shipping Concerns Quote Figures Somewhat Lower Than Year Ago.

Opening prices for winter apples, as fixed by the principal Okanagan shippers are somewhat lower than the peak prices reached in 1920. The quotations are:

Delicious, No. 1 \$3.00
Delicious, No. 2 2.50
Spies and other like varieties, No. 1 2.50
Do. No. 2 2.25
Other winter varieties, 80 per cent. No. 1, 20 per cent. No. 2 2.10

These prices are F.O.B. shipping point for car lots.

Opening prices last year were \$3.50 and \$3.00 for Delicious, \$3.00 and \$2.50 for Spies, etc. Other varieties \$2.50 to \$2.25.

These lesser prices will not mean that much less to the grower as there has been a considerable reduction from the high prices of last year in packing and handling charges, and similarly the higher prices fixed for the 1920 crop as compared with 1919 was to a large extent absorbed in the costs incurred after the apples were delivered to the packing houses by the grower.

SUMMERLAND FAIR PRIZE LISTS OUT

Now is The Time to Get Your Copy Before The supply is Exhausted.

Secretary John Tait of the Summerland Fall Fair is a very busy man just now, sending out the prize lists to all centres from Salmon Arm to Keremeos, as well as to many outside points, besides answering enquiries for copies from correspondents from different parts.

There are only a certain number of these prize lists printed, and Mr. Tait is anxious that everyone who wants one shall have one, so if you have not obtained yours yet, it would be as well to get in touch with him.

A patron that has been robbed doesn't return to the scene of the robbery.

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Friday by
THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

FRIDAY, AUGUST 26, 1921

POPULARIZING OUR PLEASURE RESORTS.

What are we doing in the Okanagan to popularize our watering places and our many unsurpassed driveways and pleasure haunts for lovers of the out-of-doors? Are we doing anything worth while? We have here in the Okanagan a series of watering places, each with its own distinct character, which are, or could be made, the stopping place for thousands of tourists each season. We have beautiful drives running in all directions which would entice tourists from all sections if they knew of them and the roadways were made of a standard grade and quality. We have driveways through orchard lands, wheat lands, and mixed agricultural lands; we have driveways looking out upon placid lakes and fertile valleys; through evergreen forests or by rolling hill lands. How many of these delightful driveways are known, even to the average autoist at home? How much publicity has been given to any one of them?

What is the use of our talking of attracting tourist travel to the Okanagan if we fail to prepare the way for them to find the way to and enjoy the beauty spots they would like to see?

It requires concerted effort to popularize anything—and especially a watering place. It must receive a large amount of publicity, and must be made easily accessible to the public. Tourists are not prepared to undergo hardships in order to reach the goal they seek. They will go and will come back again only if the going is good. And they will stay only if they can get what they want when they want it and with little effort on their part. They are prepared to pay for what they want, in dollars, not labor. Are we making the way possible for them? What are our good roads associations, our boards of trade, our city and municipal councils doing about it, or intending to do? What is the Minister of Public Works, Victoria, doing about it? What does he intend to do?—Okanagan Commoner.

LOOKS LIKE "I WON'T WORK."

The fact that a hurry up call from Saskatchewan for 2,500 men from British Columbia to help harvest and thresh the huge grain crop on the prairies this fall, has resulted in not being able to get fifty per cent. of the number of unemployed in the cities of Victoria and Vancouver to take advantage of government assistance to that end leads one to think very seriously over the situation.

The fact also that a large number of those who accepted such government assistance for that purpose should be so despicable as to cash their tickets for the purpose of gaining easy money and staying at home also leads one to pause and wonder.

The reason given for their apathy appears to be that they do not want to go to the prairies, an attitude which is distinctly untenable, as it is no reason at all. Here we have thousands of able bodied men walking the streets of British Columbia, practically demanding that the Government should keep them, and yet not willing to take a 1,000 mile or so free train ride and accept \$4 a day and their board and lodging in the prairie provinces, (equivalent to about \$6.50 a day), for the next two or three months and all before the winter sets in.

To anyone who understands conditions on the prairies there seems to be not one adequate excuse for these men, as it is a well recognized fact that one experience of a harvesting and threshing season will convert any man with red blood in his veins, and from henceforth the lure of the binder and separator will call him every year in just the same way as the honk of the geese appeals to the sportsman.

With perfect weather just snappy enough to tingle the blood, and continued sunshine, the harvesters rise from their beds to partake of the most lavish farmhouse meals, both in quality and quantity that one could desire, from whence they adjourn to the fields. There the work is neither irksome nor heavy, and not more monotonous than any other daily toil, and at about 10.30 a.m. there comes out to the field a most welcome and tasty lunch which refreshes the body and stimulates the workers till noon, when another splendid meal is partaken of. Again in the middle of the afternoon lunch is supplied and at dusk the outfit shuts down for the night.

There is nothing more health giving and enjoyable than being engaged in this employment. The noise of the engine and separator and the wheat pouring out into the wagon boxes combined with the fun and chaff which is going on all the time among the outfit, with the wide open space to the distant horizon a rest to the eye, a clear blue sky overhead, and a bracing, snappy atmosphere that is only obtainable on the prairie, all combine to make the work light and time to pass very rapidly.

There seems to be something wrong with a man's make-up when he will rather accept charity than do a fair day's work, and it would only be right for the Government Labor Bureau officials to keep a record of all applicants who refuse to accept their generous offer so that other well intentioned and ready workers shall have a prior right to any work that may be available.

There may be those who do not like to leave their families, but to those it should be pointed out that thousands of men left their families without the consent of the latter during the war, and that thousands of some of the best men we have today, have had to make a virtue of necessity.

The question of getting paid need not cause a moment's worry, as every man who works on such an outfit has a lien on each farmer he helps to the amount of wages he earns whilst working for him, and a provincial government act to that effect ensures payment of all he may earn, and every farmer is aware of this.

EXPECT TO GET FRUIT.

Complaint was made to a coast paper the other day by a Vancouver citizen upon his return from a visit to this Valley that only southern fruit had been set before him in some Okanagan hotels at the middle of the fruit packing season. He found during his fortnight's tour of the Valley that other hotels provided a profusion of home grown fruit. This is not a new complaint. From time to time we hear travellers and tourists express surprise at the lack of fruit available to visitors in this famous fruit valley.

The visitor referred to above stated further that the roads of the Valley should be put in good repair. His statement that there had been a slight frost about three weeks ago will be received with surprise by our readers.

CHIEF WHITE ELK
in person with "Before The White Man Came."

Naramata News

Current Events of
Town and District

Mr. and Mrs. Dugald MacPherson and their family from Sutherland, Saskatchewan, have been visiting Mr. and Mrs. J. Littlejohn for the last two weeks and will be here till next week.

Mr. and Mrs. Oakes, who have been staying at the Syndica for a week past, have bought through the Okanagan Securities Co., Mr. Wollstencroft's property on the bench immediately overlooking the lake, consisting of 4 1/2 acres of bearing orchard. Mrs. Oakes will remain here and will probably occupy Mr. J. C. Lyons' cottage, Mr. Oakes returning for a time to Saskatchewan, where he is in the employ of the C.P.R.

We understand there have been a considerable number of land seekers in the community lately, equipped in most cases with only a moderate amount of cash for a first payment, and looking for orchard lands. They find it difficult to locate what they want, as most Naramata ranchers are well satisfied to keep what they have. If anyone is willing to sell, it would be well to let it be known, as the opportunity is now here.

Mr. and Mrs. Coleman of Calgary, with their two daughters Fay and Phillis, are holidaying in Naramata, and are occupying Mr. J. C. Lyons' cottage. They will remain here till the end of the month. With them are their friends Mr. and Mrs. Chamberlain and their little daughter, who are also spending a holiday here.

Mr. J. Lyons of Marpole, and Mr. Douglas Young of Chilliwack, are making a holiday tour through the Okanagan. They arrived in Penticton Sunday morning and motored up to Naramata in the afternoon to visit friends here. They left on the boat north Monday morning.

Mrs. A. Davidson and family left on Monday's train for Vancouver, where they will reside. Mr. Davidson who is now on the prairies will join his family at the coast city later.

With men working from both ends, the big slide on the lake shore road north of Crescent Beach was cleaned

off this week. Road Foreman Murrin of Peachland had a crew at one end and Foreman J. C. Arkell put his men at work on the southern end. It was necessary to do some blasting in order to remove the danger of further slides.

One of the group shown in the picture on the front page of The Review last week, showing Poundmaker, the rebel Indian Chief of Manitoba, was Mrs. Sutherland, who was a recent visitor to Summerland. The Review is informed by Mr. H. Sutherland. Standing beside her is her husband, Mr. Sutherland's brother, Dr. R. D. Sutherland. Another one in the group recognized by Mr. Sutherland is Hon. John Marquay, premier of Manitoba for 17 years.

They Say--

That the great Caruso's master told him at his first singing lesson that his voice sounded "like the wind whistling through the windows."

That rouge and lipsticks, sleeves above the elbow and transparent stockings are now forbidden in the Chicago High School for Girls. Also that 23 other high school principals have drafted rules for the behaviour of their scholars, chewing gum in public, singing ragtime and talking in movies being no longer allowed, neither must they "toddle, rouge or wiggle."

That whatever you do, cultivate a spirit of manly independence in doing it. Let your work express yourself. Do your own thinking as far as possible, even when working for another.

That Scotty won the race last Thursday at Penticton, but who got the cup?

That the Japanese dislike being referred to as "Japs." They contend that the British are not referred to as "Brits," nor the Germans as "Germis."

That real work of any kind includes drudgery in so large a proportion that considerable moral courage is required to carry it to a successful issue.

That there is no such person as a "Canadian."

That a radical organization in Victoria is urging unemployed men there not to go to the prairies on the grounds that it is the duty of the Government to find work for them at home.

That one of our youthful followers of Isaac Walton is having great luck in catching trout at the Government wharf this week.

Tests conducted by practical fruit growers on their own farms are most valuable and interesting. They corroborate the findings of experiment stations.

COAL

THERE is no time like the present to prepare for the future. Coal bought and placed in the bin not only gives one a "comfy" feeling about the coming of winter, but its good business. There is a material saving in the cost in buying the winter's fuel supply early in the season.

Let us fill your bin at once with the best all service coal that can be had. We have a car ordered and will be in position to supply your coal requirements in good shape at prices same as last year. Quality same as last year.

SHOWERS WERE OF GREAT VALUE

(Continued from Page 1)

Early varieties of apples and plums are moving here. Size is good, but in apples color is only fair.

Transcendent crabs are coming in fairly strong at Salmon Arm, and shipments of this variety are rolling from Kamloops.

A picking of Wealthy will be made here next week. This variety has sized up well, but McIntosh Red are a little behind in this respect. Corn and cukes are going out in small quantities.

Vernon.

This district has been blessed during the last two days with some very heavy showers, which has had the effect of tempering the extreme heat from which we have been suffering the past two weeks, and likewise helping out moisture conditions of the soil. All fruits seem to have been benefitted by this change in weather conditions, and apples are sizing up nicely.

The Duchess crop is now about finished, and from observation and enquiries we find in most cases crops have gone over both growers' and shippers' estimates. Transcendent crabs are now in full swing, and the same applies to this fruit as the Duchess; that the crop is running high. Some nice stuff is going through the packing houses, but there is some small stuff that would be better turned into jelly.

The apricot is practically over and some very nice fruit has gone through the houses this year. Peaches and plums are now in full swing and it is expected to see Wealthy apples running in about ten days' time. It is early yet for more color to develop or the Wealthy but it is hoped with the advent of cooler weather that coloring will be much improved. McIntosh are coming along very nicely, showing good color for this period, but as they have yet some time to go before picking the size should be improved very materially. Other apples and pears are sizing up very well. Bartlett should begin to move about the same time as the Wealthy.

Vegetables are now rolling out heavily. Onions seem to be moving especially freely at this time of year.

Kelowna.

A heavy rain fell early on the morning of the 17th followed by cloudy warm weather. All apples are sizing well but this rain will be of great value after the long dry spell. Water was becoming very scarce in some sections.

Duchess apples are about done. Alexanders are in. First picking of Wealthy will start next week.

Semi-ripe tomatoes have been moving in quantity but have shut down this week owing to full markets. Ripe tomatoes are coming in and are of good quality.

Transcendent crabs are heavy and about half through, should clean up this week.

Tragedy pears should finish in a few days and Burbanks and Bradshaws will come next.

Bartlett and Clapp's Favorite pears are just starting to come in. They are earlier than usual and should be picked promptly.

Pickling onions and small vegetables are in in quantity. Onions are a short crop.

Summerland.

Tuesday night, August 16th this district had a splendid rain. Summerland Experimental Station recorded .55 inches. The rain was timely and has brought a cooler air with it, which will help to check premature ripening of stone fruits.

The movement of fruit and vegetables is increasing every week. Triumph peaches are over, Yellow St. Johns are beginning to move. Transcendent crabs are going out in carload lots. Transparent, Red Astrachan and Duchess apples are about over in this district. Some Wealthy and Gravenstein apples and Clapp's Favorite and Bartlett pears picking has begun.

Burbank and Bradshaw plums are being packed out.

Grand Forks.

Rain is badly needed in this district. The outlook for the fruit crop begins to look serious in those orchards unprovided with irrigation and unless rain comes very soon the yield is bound to be disappointing. The crop in the orchards which have water is sizing and coloring up remarkably well. The season as regards size and maturity is fully two weeks ahead of last year.

Some scab is showing up on apples, and the work of the leaf hopper is also evident to some extent, but the crop as a whole is very clean. The unusual prevalence of orchard pests in the district this season has made many converts to the need of more thorough spraying, and next year will undoubtedly see a greatly increased effort in this direction.

Pears are sizing up well and are

unusually well colored for this time of year.

The new central packing house is rapidly nearing completion, and is expected to be ready for occupancy by September 10th. In the meantime packing is being carried on in the cannery building. Up to date there has been shipped four cars of mixed fruit, comprising Yellow Transparent, Astrachan and Duchess apples, Transcendent crabs and Peach plums. Two cars of apples, chiefly Duchess, will be sent out this week. These initial shipments have been of fair quality.

Prune shipments will commence the first week in September, and fifteen cars will probably be sent out.

Clapp's Favorite and Bartlett pears will be shipped next week.

Potato fields are showing the effects of the dry weather.

Irrigation for the Valley is the burning question of the hour.

NUMBER THREES LOSS TO GROWERS

Mr. J. A. Grant, B.C. Fruit Markets Commissioner, on the subject of shipping No. 3 apples says:

We notice that No. 3 apples are not likely to be shipped from the Okanagan Valley this year, and in this move we fully agree.

There is no one wants poor grade apples; true, there is a demand for cheaper apples as well as everything else, but No. 3 British Columbia apples are not wanted on this market at the price they are usually quoted at. The spread necessary between No. 1 and No. 3 is or should be about \$1.00 per box, considering the value in apples they each contain.

No. 1 apples are quoted from \$2.00 up, f.o.b. shipping point. It costs the same for the No. 3 box as for the No. 1, the cost of freight is the same, and they are harder to sell, so that the selling cost is fully as great. Now consider the estimated cost of placing apples on the market:

Cost of freight to Calgary45
 Cost of box25
 Cost of wholesale handling40
 Cost of retail handling40
 Cost of overhead in assembling25

\$1.75

This is an expense of1.75 without the apple cost, nor does it provide for packing, risk in transit through weather conditions and other causes. It shows that no profit can be made to the grower from shipping No. 3 apples.

Sell Milk in Cubes.

In Holland milk is now put up and sold in solid form, being made into little cubes which are readily dissolved in tea, coffee or other fluids, says the Columbus Dispatch.

The milk, after removal of the cream, is reduced by heat to dryness, then powdered and mixed with the cream, the materials being pressed into blocks. These milk cubes have the advantage of preserving their freshness for a long time.

They are recommended for use in regions where milk is not easily to be had, and travellers may find it convenient to carry a supply of them.

YAKIMA FRUIT COMPETES WITH US

(Continued from Page 1).

are being quoted from Edmonton at \$25.00 per ton, f.o.b. shipping point. The first case of Lemon cucumbers arrived from Peachland this week. This new vegetable tastes like a high class hot house cucumber, is about the size and color of a large lemon.

Small egg plants have been arriving on the market; it is hard to unload this small stuff.

All peaches so far have moved very slowly, large quantities had to be repacked.

Calgary Wholesale Prices.

Hold Great Fruit Show in London; Is Open to Canada

The London Daily Mail, in conjunction with the Ministry of Agriculture and with the support of and assistance of numerous trade organizations, is organizing an Imperial Fruit Show, which is to be held at the Crystal Palace from October 28 to November 5.

Two thousand pounds in prizes and trophies will be awarded to fruit growers. Three great London shows are to be merged in the Imperial Show. These are the Kent, East Anglia and West Midland fruit shows, each of which has formerly been held independently. There will be special prizes in each of these divisions as well as special Royal Horticultural Society prizes for amateur growers and others from exhibitors from overseas and the United Kingdom.

Canadian entries, marked "Imperial Fruit Show," may be addressed to Imperial Exhibition Department, Fruit Branch, Department of Agriculture, Ottawa, on or before September 20. The entrance fee is \$4.50.

There are fourteen classes in the Overseas Section, consisting of ex-

Peachland Doings
A Weekly Chronicle Furnished
By Our Local Representative.

One of the most interesting cases in the annals of court proceedings in Peachland has just ended this week in which Mr. N. S. Davidson was the defendant, being charged with unlawfully interfering with irrigation flumes on Harry C. Pope's lot in the Trepanier townsite. Mr. T. F. McWilliams, solicitor, conducted the prosecution. The case was tried before Acting Magistrate Thos. Powell and Reeve R. J. Hogg.

As mentioned in a former issue the case was called for a former date and after some preliminary proceedings was adjourned till Saturday afternoon, the 20th, at 2 o'clock. There were quite a number of witnesses and as the details in connection with this evidence were very numerous the case was far from finished when five o'clock was reached. The court therefore adjourned till after dinner, when it was resumed till about 10 o'clock, and adjourned again till Monday morning at 8 o'clock, continuing throughout the day with the exception of necessary hours for lunch and dinner till after 10 o'clock in the evening. After due consideration of the evidence a verdict of guilty was brought in and a fine of \$100 and costs was imposed.

Miss Morris left on the northbound boat on Tuesday of last week after a pleasant visit in town.

Mr. Wark and Mr. J. Brinson were visitors to Kelowna on Tuesday, returning on the evening boat.

After a few weeks spent in Peachland with his parents and sisters Mr. George White left on Tuesday morning's boat.

Mr. Bert Robinson spent a couple of days up the lake last week, returning home on Wednesday evening's boat.

Among the arrivals on Tuesday morning were Mr. Halliday of Armstrong and Mr. Adams who was returning from Summerland. Mr. Halliday spent the day here visiting Mr. and Mrs. Leverington, leaving again the following morning to return to his home.

The Rev. H. Dixon Smith returned missionary from India conducted a meeting in the Baptist Church on Tuesday evening of last week, specializing on a new phase of missionary activity, namely Industrial Evangelism. His talk was interesting and helpful and he made quite an appeal for more zeal and greater activity along these lines. At the close of his address he exhibited a number of curios which he had brought with him, and which were very interesting. It was rather unfortunate that the electric lights on this occasion were very dim throughout practically the entire program.

Mr. and Mrs. W. White are enjoying a visit from their daughter, Miss Ruth White, who arrived on Tuesday evening of last week.

After a few days spent at Penticton Mrs. Mylrea and Mrs. Bates returned to Peachland on Wednesday morning's boat.

Mr. C. Aitkens was a visitor to Kelowna on Wednesday.

Mr. and Mrs. J. Hyde are proud parents of a fine baby boy born at their home on Wednesday of last week.

Miss E. Pentland was among the arrivals on Wednesday morning of last week to spend a portion of her holidays here renewing old acquaintances.

more to follow
The Average Man's Life.

The average man at 20 is full of pep and vim, of good looks he has plenty and nothing worries him. He's fond of shows and dancing, and other senseless prancing, which efforts are entrancing, but keeps his purse quite thin.

At 25 he's learning that all girls aren't the same; he starts in earnest yearning for some nice gentle dame. He spends his dough on candy, for his prospective Mandy and thinks her fine and dandy—for which he's not to blame.

Round 30 he gets wedded, then comes the honeymoon, I hate to think I've said it, but that's the time to "spoon;" as arm in arm they hover, with words like new mown clover, and then at last it's over, and they must change their tune.

At 40 he's the father of three fine kids or more; he hasn't time to bother, his spooning days are o'er. He no longer calls her "Cutey," she's more for use than beauty, she must attend to duty, or there's an awful roar.

His hair is gone at 50, he's uglier than sin, his face which once looked so bright and sunny, now looks so

OKANAGAN APPLE CROP CONDITIONS

Most Satisfactory in History of Valley, Says District Horticulturist. Season is Early—Picking Should Not Be Delayed.

By W. T. Hunter.
Indications throughout the district are that the estimate given from this office under date of July 16th, 1921, will be approximately correct. Certain factors have arisen and will arise which will cut down the grade and the tonnage slightly in certain districts; for instance a hailstorm has reduced the crop in one district and in another a water shortage is reported, but at the present time the effect on the tonnage will not be noticeable.

Planting Fruits in Fall.
Of all fruit trees, only apples should be planted in the fall, and even with the apple, spring planting is equally satisfactory, according to the Department of Horticulture at the Ohio Experiment Station. Cherry and peach trees planted in the fall are quite likely to be killed or injured by winter freezing.

Not Even The Prohibitionists Are Exempted.
Dr. C. J. Gaddis, of Oakland, Cal., informed delegates to the annual convention of the Western Homeopathic Association held at Portland last week that every humble citizen has a booze still all his own.

Okanagan Route Becoming Popular.
(Oroville Gazette).
An auto containing three travelers passed through town Friday last that had come all the way from Ohio. It was the aim of the travelers to go on to Vancouver, B.C., then down the coast through California and home by the southern route. That was but one of the many long distance excursionists who have passed through Oroville this summer. The Okanagan Valley scenic route into and out of British Columbia is becoming more popular every year, and is going to become in future years the great eastern Washington excursion highway.

Eye-Openers
A man who was fairly old got married and one of his friends who was surprised at the fact, said to him, "Why how does it happen that you are taking a wife at this late date?" "Oh," he replied, "I thought it would be a nice thing for me to have someone standing by me to close my eyes when I pass out, so I took to myself a wife." "My dear man," replied his friend, "you have made a great mistake. I married two women and they both opened my eyes."

MAY SHUT OUT SPORTSMEN

Authorities Consider Amending Regulations Affecting Forest Reserves.
Serious consideration is being given by the administrators of the forest resources in the various provinces to a scheme for curbing the gross carelessness of camping parties in needlessly starting forest fires. The job of extinguishing timber conflagrations resulting from fires set by campers and cigarette smokers has caused the public treasuries such a sum of money that some means of curbing the evil will have to be devised.

Apple Prospects in Washington.
(Oroville Gazette).
Prospects are more favorable for the apple growers of eastern Washington this season. This prospect particularly applies to growers in the Wenatchee Valley, under the Government project in the central part of the country and under the West Okanagan Valley Irrigation system. The apple crop is going to be unusually heavy and owing to a shortage of apples all over the country prices will be much better than expected. This means the receipt of many thousands of dollars in localities where ready money has been very much of a stranger in recent months. The problem confronting growers when the crop comes in will be transportation, as it is calculated that it will require hundreds of cars to move the crop.

When a tin of British Columbia jam is sold, those who benefit in this province are: the farmer, jam factory employees, box makers, tin can makers and label printers. When a foreign product is given preference, none of these profit. Last year British Columbia imported more than six million pounds of canned fruits.

Authorities Consider Amending Regulations Affecting Forest Reserves.
Serious consideration is being given by the administrators of the forest resources in the various provinces to a scheme for curbing the gross carelessness of camping parties in needlessly starting forest fires. The job of extinguishing timber conflagrations resulting from fires set by campers and cigarette smokers has caused the public treasuries such a sum of money that some means of curbing the evil will have to be devised.

Apple Prospects in Washington.
(Oroville Gazette).
Prospects are more favorable for the apple growers of eastern Washington this season. This prospect particularly applies to growers in the Wenatchee Valley, under the Government project in the central part of the country and under the West Okanagan Valley Irrigation system. The apple crop is going to be unusually heavy and owing to a shortage of apples all over the country prices will be much better than expected. This means the receipt of many thousands of dollars in localities where ready money has been very much of a stranger in recent months. The problem confronting growers when the crop comes in will be transportation, as it is calculated that it will require hundreds of cars to move the crop.

When a tin of British Columbia jam is sold, those who benefit in this province are: the farmer, jam factory employees, box makers, tin can makers and label printers. When a foreign product is given preference, none of these profit. Last year British Columbia imported more than six million pounds of canned fruits.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

Mrs. W. Harvey returned this week from Vancouver after visiting with Mrs. J. H. Baldwin of that city.

The Saturday afternoon and evening ferry trip to Pentiction is now discontinued.

Drs. J. C. and Jean M. Fish, chiropractors, are back to their Pentiction office from their holidays.

Miss Eva Potter of Vancouver who has been spending a vacation with Mr. and Mrs. Robt. Mitchell returned to the coast city a few days ago.

Another rain visited this community Tuesday morning and for several hours a steady fall of moisture continued, although not heavy at any period.

We clean or dye soiled or faded garments, house furnishings, etc. Let us mail you price list. Permanent Dye Works Ltd., 1641 4th Ave. West, Vancouver, B.C.

Mr. and Mrs. A. T. Robinson who have been making an extended visit among their relatives and friends in Summerland, left on Thursday for a trip to San Diego, California.

Mrs. Finley will be at Hotel Syndica on Tuesday and Wednesday of next week with a stock of ready to wear millinery, as announced in their regular advertisement in this issue.

Mr. S. T. Elliott, president of the Kelowna Fair Association, was in Summerland Tuesday putting up posters for the Fall Fair and Exhibition to be held in that city October 5th and 6th.

The executive members of the Summerland Baptist Church met on Wednesday evening, when a strong winter programme was drawn up with which it is hoped that good work will be done in the community.

Seen this week Major Hutton informed The Review that in view of the changed attitude of the Department of the Attorney-General, he had decided to withdraw his resignation of the position of police magistrate.

Mr. P. C. Tees, who recently resigned his position on the High School staff, and has been taking a summer course at the University, was a recent visitor to Summerland. Mr. Tees will teach in Vancouver and continue his studies at the University.

Mr. Robert Jones of Red Deer, Alberta, came in on Friday to spend a few days here with his wife and child who have been visiting Mrs. Jones' mother, Mrs. Annie McLaughlin. Mr. and Mrs. Jones and little one will leave this week end to return to their home.

Mrs. McCallum returned on Saturday from attending the bedside of her mother Mrs. Osborne of Buckley, Washington, who died recently under the shock of a critical operation.

Mr. and Mrs. Ward, parents of Mrs. Geo. Inglis, returned from a visit of several months to Kelowna, at the home of Mr. and Mrs. Munro, old acquaintances of theirs on the prairie. After a short stay with their daughter, Mr. and Mrs. Ward will leave for their home east of the mountains.

Miss Koop, who has been the guest of her brother and sister-in-law, Mr. and Mrs. P. G. Koop since their return from England last spring, left on Wednesday evening's boat on her return trip home. Her many friends in Summerland will regret her departure and will hope that the "Call of the West" will be felt strongly enough to cause her to return to Summerland.

A number of local people motored to Oliver Sunday afternoon to have a little look around. The new town is looking fine, they report, and many new buildings are in course of construction. The city water mains are being put in and the streets are naturally pretty badly torn up, but the place looks like it was going ahead alright. The Bank of Commerce has a nice building and several nice looking stores are open for business.

A merry party of young people took advantage of the moonlight trip inaugurated by the Summerland Band on Friday last, when the "Skookum" with the scow attached made a two hours' trip on the lake, accompanied by the members of the band under Bandmaster Cline, which discoursed sweet music during the evening. Conditions on the lake were ideal, there being no wind and the water perfectly calm. The moon came out, and the music sounded very well, being heard perfectly from clear across the lake. Between 40 and 50 people took in the excursion and all were well pleased with the entertainment provided.

William Ivens, M.P.P. of Winnipeg will lecture as follows: Crescent Beach, Sunday August 28th at 4 p.m. Rialto, Monday, August 29th at 8 p.m. Naramata, Tuesday, August 30th at 8 p.m. Ferry leaves Naramata at 12:30 p.m. on Sunday. Truck leaves West Summerland Post Office at 2 p.m., returning after the lecture. Mr. Ivens is a forceful and eloquent speaker and will deal with burning issues of the day.

Rev. W. A. and Mrs. Alexander have returned from their vacation after having had a delightful holiday at the Coast visiting Victoria, New Westminster and Vancouver. While away Mr. Alexander took the services on two Sundays at Ladner, B.C. in the church of which Rev. C. H. Daly is the minister. Greatly refreshed by the change and rest Mr. Alexander will occupy the pulpit at St. Andrew's Church on Sunday next.

Mrs. G. Stuart left on Monday's train for a visit to Vancouver.

The two o'clock ferry trip to Naramata daily except Saturday is now discontinued.

Miss Arkell of the Summerland Mercantile Co. went down to the Coast last week to spend her vacation.

Mrs. Jas. Ritchie is giving a corn-bake party at her home today to members of her Sunday School Class and their friends.

A mixed carload of fruit was loaded and shipped on Wednesday by R. Pollock, and included quite a number of crates of cantaloupes.

The cool weather of the past few days has put a damper on the bathing, but occasionally a brave one can be seen taking the deep and pretending that he likes it.

Miss Ballantyne returned the end of last week from a short visit to Regina, bringing with her a sister, who is hoping that a stay in this valley will improve her health.

The Ladies' Hospital Auxiliary requests the ladies of Summerland to remember the needs of the Hospital when putting up fruit for their own use. Sealers may be had at the Hospital.

A. B. Elliott was a visitor to Grand Forks last week making the trip with a commercial traveller in the latter's car. With the exception of the long climb up Anarchist Mountain, Mr. Elliott found the ride a delightful one.

Mr. and Mrs. R. G. Walden have returned from their trip to Vancouver, and their furniture has arrived at Summerland and is being unloaded. They have taken up residence in the C. P. Nelson house on Beach Avenue.

A meeting of the Lord's Day Alliance was held in St. Andrew's Church on Wednesday evening, an address being given by Rev. G. G. Webber of Olds, Alberta, who also spoke at the Lakeside Church last night on the same topic.

Mr. and Mrs. J. L. Hilborn and daughter Eva have arrived from the Coast and are visiting A. McLachlan who purchased his property here a short time ago. With them is Mrs. Hilborn's sister Mrs. Faught of London, Ont., who has been visiting them at Victoria.

G. S. Drewett has sold a 10 acre corner lot south of Giant's Head and to the west of Mr. Rose's property, to Mr. G. S. Robinson of Calgary. The new owner, who takes possession on the 1st October, has given H. W. Harvey a contract to build him a bungalow on the property.

There were quite a number of local people in attendance at the regatta held in Pentiction last Thursday afternoon. No doubt there would have been many others, but little advertising had been done by those in charge and as a result little was known up this way of the affair.

His many friends will be glad to learn that Harold English, who has been "under the weather" with ear trouble with which he has not been troubled for a number of years, is improving, and expects to be about again by the beginning of next week. Harold has quite a bad spell this last two weeks.

Mr. Thos. Bennett, his son, and members of their families were a motoring party camping at Crescent Beach last week-end. Mr. Bennett is a furniture manufacturer of Vancouver, and they are using a furniture motor van for conveyance, carrying along with them ample camping equipment. We understand that Mr. Bennett is looking about with the idea of purchasing property in the Okanagan.

WOULD CANCEL SUB-DIVISION

Representing the owner, Duncan Wood of the Woodland Townsite at Trout Creek Point, Mr. W. C. Kelley has sought the consent of the municipality to the cancellation of the subdivision of Blocks 28-41 in Plan 310, and all lanes and roads except Wharf Street and such portions of 1st and 9th lying within the area.

It was the opinion of most of the members of the council that 6th Street, at least a portion of the shore and possibly one or two other road sections should remain open and the matter was referred to the Public Works committee to report at the next meeting of the council.

GATE LOCKS AND MEASURING BOXES

Stating that he would like to have the value of locks on individual gates tested out on the Prairie Creek ditch next year, Mr. T. C. Orr attended the council meeting on Tuesday last and expressed gratitude for the better service water users at the lower end of the ditch were now receiving. Mr. Orr thought that all gates should be locked instead of one or two as at present and resented insinuations that those at the lower end had interfered with the gates higher up. Locks all along would eliminate all disagreeable feeling. In this Mr. Orr was supported by Mr. W. A. Caldwell.

Foreman Tomlin suggests measuring devices all along Prairie Creek ditch for next year as a start on so equipping the whole system. Mr. Caldwell pointed out that sections of the ditch needed enlarging and cement lining.

Rev. A. Henderson was a visitor in town on Thursday.

Mr. and Mrs. W. C. Kelley are back from their holiday visit to the Coast.

Mr. and Mrs. Muir Stuart returned on Tuesday after a trip to the Coast cities.

Miss Johnston, matron of the Summerland Hospital is again on duty, having returned from a vacation visit to the Coast.

Secretary Bowring of the School Board was advised by telegram on Thursday that Mr. Donald Davidson who is visiting in Guelph, Ontario, was the victim of an accident. The telegram asked that a substitute be procured for a week or so.

Mr. and Mrs. Secord and their daughter, Mrs. Kennedy of Regina, are guests of Mr. and Mrs. A. McLachlan, having arrived here on Wednesday evening. The visitors were former neighbors of Mr. and Mrs. McLachlan in Leamington, Ont.

David Lister left on Thursday's train for Victoria where he will reside with his parents. The night before he was the recipient of a presentation at the home of Mr. and Mrs. R. Johnston when the teachers of the St. Andrew's Sunday School, of which he was secretary, presented him with a travelling case. Presentation addresses were made by the Rev. W. A. Alexander and Mr. J. L. Logie to which Mr. Lister briefly responded.

LANDS FOR SALE.

Bijou Residence in Peach Orchard, in perfect order; 6 rooms, veranda and attic; outbuildings; 45 bearing trees. Reasonable price.

13 Acres, ten being good well watered land on Aeneas Creek. \$800, terms.

15 acres of good dark soil with creek running through bottom land; about 7 acres cultivated; property of the late Mr. F. A. C. Wright. A well built bungalow in excellent condition; hot and cold water; Delco light, good outbuildings. \$7,500.

Choice Residences. Small and Large Orchards up to \$50,000. Stock Farms. Meadows.

Your choice of over 80 properties listed for sale. State your requirements by letter or call at Office in Peach Orchard.

MAY RENDER MORE STORAGE UNNECESSARY

If Alleged Losses on Trout Creek Can Be Prevented Much Water Will Be Saved.

OPEN RESERVOIR

Gate on Canyon Creek Opened This Week—Adds to Irrigation Supply. Showers Greatly Benefit.

The gate of the storage dam on Canyon Creek was opened on Tuesday and the water from that source is now being distributed through the municipal irrigation system.

On Monday afternoon the water in the main canal above the reservoir was 8 1/2 inches deep and on Wednesday after water from Canyon Creek reached the intake the water had increased to a depth of 15 1/2 inches, which was the depth of water passing through the canal on Tuesday the 9th as reported by Foreman Tomlin. Recent showers have been of considerable aid to irrigationists and those in charge of the system speak with confidence of being able to get through the season without any serious shortage.

At Tuesday's meeting of the council methods for assuring an ample supply of water throughout the season were considered, the revee suggesting that further storage might be made on Canyon Creek and in Garnett Valley. The members of the council are hopeful, however, that it may be found that there is a large supply of water now lost at two different points on Trout Creek which may be saved. If the preliminary calculations made by Coun. Kirk with respect to the loss immediately above the intake and the further estimate of Engineer Dufresne that there is a loss at a point some miles up the creek where the latter dwindles in the proportion of 18 to 8 are correct, the saving of this waste will obviate the necessity of building storage dams.

Dr. F. W. Andrew is a visitor to Vancouver.

Mr. and Mrs. Geo. Harding returned on Tuesday from a vacation visit to the Coast.

The Review was informed this week that every ward in the hospital was occupied.

Government Poultry Inspector Traves will visit W. J. Beattie's ranch here on September 1st and states that he will be very glad to visit other poultrymen and give them any assistance that he can.

Mr. Fred Shields of the Winnipeg offices of the C.P.R. was a visitor over the week end at the home of his cousin W. R. Shields. He arrived here on Saturday night and left again on Tuesday to visit Vancouver, Seattle and other coast cities.

SERIOUSLY HURT WHEN HIT BY A MOTOR CAR

Little Ronald Thornber is Run Over When He Turned To Pick Up Stone.

The condition of Ronald Thornber, the six year old son of Mr. and Mrs. T. P. Thornber was reported as being improved shortly before our going to press. The little lad was seriously hurt in a motor accident on Shaughnessy Avenue on Tuesday evening about 7 o'clock.

From the information gathered by The Review it appears that Ronald left the sidewalk at Simpson & Gowen's store, and had run part way across the street in front of an approaching car driven by Mrs. T. C. Orr, when apparently a bright stone attracted his attention and he wheel-

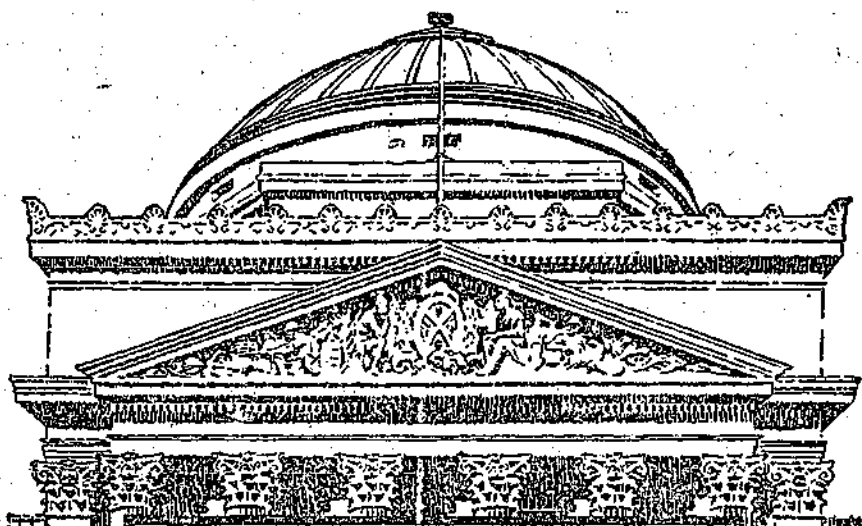

ed about and picked it up and was struck by the car just at that instant. Mrs. Orr was taking the mail from the upper to the lower post office and had picked up Mrs. J. Rowley at the foot of the gulch, and had shut off the power preparatory to stopping at the post office just before the accident occurred.

According to the ladies in the car the little fellow had startled them when he first ran across the street and his doubling back took them completely by surprise. Mrs. Orr claims to have stopped the car in its own length immediately after the accident and picked the boy up and started with him towards the hotel. Meeting Dr. Coultas she requested him to hurry her with the boy to the hospital. There it was found that his wounds were serious, he being cut severely on the face and head, that the clavicle bone was broken and that he was suffering from other injuries. It is stated that the pattern of the tire of the car was shown across his face and shoulder.

Crop Reports

From information collected through its network of Branches across Canada, the Bank of Montreal compiles periodical reports covering crop conditions in every part of the Dominion. These reports are transmitted over private telegraph lines to central cities, from which they are mailed free to persons desiring the information they contain.

If you wish your name to be placed on the mailing list, notify the nearest branch, or the Head Office in Montreal.

BANK OF MONTREAL

ESTABLISHED MORE THAN 100 YEARS
WEST SUMMERLAND BRANCH E. J. WHITE, Mgr.
Sub-Branch at Summerland and Naramata.
A COMPLETE BANKING SERVICE

SLACK PACKING OF APRICOTS

Judging from the following remarks by the B.C. Fruit Markets Commissioner, packers have yet something to learn with respect to stone fruits. Mr. Grant says:

We have seen some fine apricots from B.C. this year, but over 75 per cent. were on the small side. Some good cots were packed 3 x 3 open instead of 5 x 5 close, leaving the maximum of blank space and a light pack; others were laid in flat 4 x 4 and failed to reach the top of the basket.

Apparently some growers were afraid to have the fruit above the tin top and finished just under it, others were half an inch under. We do not expect a correct pack of any fruit until a weight minimum is established, bushels, quarts and pints space get us nowhere, the minimum weight content is a sure guide to a full package.

Review classified ads. bring results.

May Render More Storage Unnecessary

(Continued from Page 1).

urged by the delegation, it being stated that it would be impossible to carry on another season without repairs and new sections in the flume.

Speaking for the council the reeve stated that a preliminary report had been made on this and that other details were being obtained, and that the council had in mind the making of the necessary repairs.

That Garnett Valley was not receiving its due proportion of the road money was another complaint. Reeve White, stating that he had heard this complaint before, replied that he had made enquiries and had been informed that the repairs made this year to the roads in Garnett Valley were at least in proportion to expenditures in other parts of the district. He and other members of the council appreciated the fact that further work was needed, and if possible some of the worst places will be further improved.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

(Continued from page four)

Miss M. Smith was a visitor to Summerland last week, going down by stage on Wednesday, returning by boat on Thursday.

George Robinson was obliged to right about face last week when on his way to Summerland by auto, just getting to a point near Crescent Beach in time to witness the huge slide which since has blocked traffic on that portion of the road. The road is being cleared as quickly as possible. Mr. Mordin and his gang received orders to undertake the work.

Arnold Ferguson left last week for Summerland where he has a job for a portion of the season.

Mrs. Anderson of Calgary came in on Thursday to visit Mr. and Mrs. Kudelka and Mr. J. Hamilton who returned from Vancouver where he has been for a few weeks.

Mrs. Jas. S. Moore of Summerland came up last week to join with her parents and family while they were entertaining their friends from Bellingham and other points south.

Miss Morris of Calgary came in on Friday to join her mother and enjoy a short vacation here, a guest at the home of Mrs. A. J. Miller and her husband.

After a few weeks spent in Peachland enjoying life in the Okanagan and renewing old acquaintances, Gordon Town left on Friday evening to return to his home in Vancouver. His brother Albert accompanied him as far as Summerland and on his return the following morning reported that he had accepted a position there and left early this week to take up the work.

Mr. Townsend Sr. returned to Peachland on Saturday evening last after some weeks absence.

Mrs. Jones and her daughter Miss McNeill of Edmonton, Alta., are visitors this week with Mrs. E. House.

Wallace McKenzie was the victim of an accident last week which resulted in a slight slash in his scalp, caused by a stone thrown in the water where he was swimming. One of the other lads not knowing that Wallace was there heaved quite a large rock into the water and it struck him a glancing blow on the head. It rendered him unconscious instantly as he sank to the bottom. Fortunately Mr. Adams was sitting near the scene of the accident and jumped in and pulled him out. This happened at the old mill wharf and they carried Wal-

lace over to one of the buildings there and about fifteen or twenty minutes' time elapsed before he regained consciousness when he soon felt well enough to ride home. He is getting on nicely.

Mr. A. E. Drought of Westbank this week attended the court case, Pope vs. Davidson, being held here.

Mr. and Mrs. Dorland and Mr. J. E. Kerr joined an outing party who arrived here on Saturday evening by launch, comprising Mr. and Mrs. R. J. McDougall and family of Penticton, and the Roe family of Summerland and Naramata. They enjoyed a very pleasant trip up the lake, making a regular picnic of it, and returned home on Monday.

Edmonton and vicinity have contributed largely to the tourist population of Peachland this summer, which was quite noticeable on Sunday morning last at the Union service in the Methodist Church, where there were eleven persons present from that portion of the prairie.

Mrs. A. Smalls and son Sydney returned on Sunday from a visit to the Coast.

There was quite an exodus of our men folk on Monday when Earl Wetzell, Ed. Wilson, Neil Evans and Mr. J. Kudelka left that morning for various points on the prairie, where they expect to spend a portion of the fall.

Miss Bertha Bradbury accompanied by Mrs. Crosby and children of Penticton arrived on Monday morning to pay a short visit to Miss Bradbury's home.

Mrs. Seaton and daughter Miss Bessie of Vernon are spending a few days renewing old acquaintances of former days of residence here. They are spending a portion of their stay with Mr. and Mrs. W. D. Miller at their ranch.

Another auto and two trucks have been added to the list in and around Peachland, Mr. Wm. Suddaby having recently purchased a 490 Chevrolet and Mr. Geo. McBean a Ford ton truck, and Mr. A. Alpaugh a Chevrolet ton truck. Not in the least to cast any reflections on the autos and trucks in the community, it would almost seem that there would soon be enough here to keep the garages comfortably busy keeping them in repair.

District Water Engineer Norington was a recent visitor in town.

Preparations are about completed for the immediate operation of the calcium carbonate deposits near Merritt. From these deposits kalsomine, razor hone paste, whitening, and a number of other commodities will be produced.

Boy Scout Column

1st SUMMERLAND TROOP B. P. SCOUTS

Headquarters, The Gymnasium.
Scoutmaster O. F. Zimmerman
Meets every Friday evening at 7.30 p.m.

Augusts 18, 1921.

At Tuesday evening's meeting it was carried by an overwhelming majority that two meetings a week be continued until opening of school.

The scouts were then put through a patrol competition in scout work, after which certificates for proficiency badges were received.

Friday night was devoted to dispatch carrying. Five scouts were given dispatches and their object was to deliver them to the bandstand before 9 o'clock. As the raid started after nightfall the guards equipped themselves with flash lights. Catching a raider counted 10 points, while finding a dispatch added another 5 points. Raiders delivering dispatches uncaught gained 15 points, and if caught but still retained dispatch uncaught, 10 points.

Four of the raiders were caught, but only one dispatch found, whilst the A.S.M. managed to get through free.

A.S.M.s Mack and Harris had a narrow squeak on one occasion. Crawling along the beach they managed to get into Mr. English's stables by a side entrance. Just as they were preparing to cross and out through the front door they noticed one of the guards seated in a strategic position a few feet in front of the door. As it was impossible to go further the raiders were held for some fifteen minutes. At last as the time limit was drawing near, they hit upon a plan.

Asking a gentleman in the stable to aid them they devised the scheme. Going out to the watching scout the confederate asked him to give him a hand with a sack. Being a scout the guard had perforce to give a helping hand, and as he entered the door the two raiders were through the window like a flash and back onto the beach, while the guard again took up his position unconscious of what had happened.

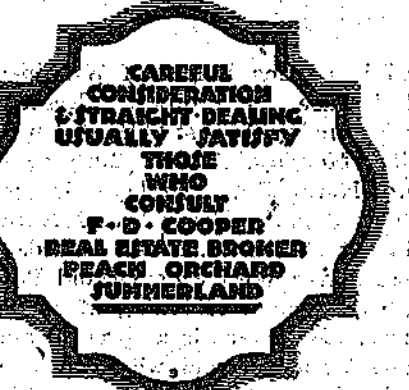

However the worst was not over. Suddenly a flash light appeared over the bank and two raiders did a disappearing act that would be a credit to any vaudeville stage. Unfortunately A.S.M. Mack who was in the lead only had a few bull rushes to curl around, so was caught, but the other dug into the bank like a rabbit so that the light did not reveal him. Then crawling behind the guards and their captive he was able to break through and deliver his dispatches.

One does not wonder at the guards not being able to find some of the messages. One had his hidden between the rubber and leather heels of his boot, another's was carefully rolled up in a ball of chewing gum. One had his sewn under the label in the back of his shirt. Another in the seam of his pants; whilst one had carefully broken his pen, inserted the missive and sealed up the break.

There was a great deal of fun when all were called in, as each raider recorded his experiences in getting in. Judging from the turn-out each evening the scouts appear to enjoy a good open air game, so they will be continued. Next Tuesday's game will be decided on Tuesday.

Four new boys applied for enrollment, whilst one boy is to be suspended for failure to attend without reason. The total number in the troop is at present 48, the largest number since its inception.

At a meeting of the Executive on Friday night it was decided that owing to the inauguration of the Cubs the age limit of the Scouts be raised from 12 to 13. This of course does not apply to those already members.
