

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 12, No. 40, Whole No. 691

SUMMERLAND, B.C., FRIDAY, May 6, 1921

\$2.50, Payable in Advance

WHAT IS AN EDUCATION?

BY D. J. WELSH, M.A.
Principal Summerland High School.

The question is of the utmost importance to-day. Large sums of money are being spent upon the education of our children. The cost is annually increasing. The taxpayer who foots the bill wants to know whether he is getting value for his money. He has a right to know. It may not always be certain that the average man can fully comprehend the situation. That may not be his fault, for he may be the victim of a faulty system of education which organized society is endeavoring to correct as rapidly as possible. Every educator to-day welcomes constructive criticism from any source. It wonderfully helps to point the road to better conditions.

Generally speaking it may be said that three types of education have prevailed during the centuries. The first of these is the so-called classical education in which philosophy and dead languages, such as Latin, received the emphasis. One was not considered to be educated who could not write good Latin and read easily the old masters in their native tongues. Under this system of education the schools existed for the privileged few. Only a small number and often not the brightest became learned in the generally accepted meaning of that term.

It was observed, however, that those who learned a trade by long years of apprenticeship possessed an erudition often not inferior to the best college trained youths. Observation and investigation led to the inclusion of science and manual arts in technical education in order to secure the greatest efficiency. Then was ushered in the scientific and practical education which has received so much emphasis of late years.

The experience of men in any age constitutes a sifting process. It was observed that the college trained youth very frequently failed in the race, and that large numbers of such men and women are among the derelicts of humanity. What was wrong with the system of training that failed to make anything of such a large percentage of the gifted youths of the past generations? The conclusion reached by eminent scholars and students of human history was that education had a wrong objective, viz., knowledge; that it had sought to cram the mind as a sort of store house with facts; that it had failed to develop the type of character that would make the proper use of these facts.

Hence the view point of education has been changing through the years and education to-day means the symmetrical development of the life with the emphasis on character. The educated man is the man who, knowing the right, will do the right. To this kind of education every boy and girl is entitled. The higher institutions of learning alone cannot perform this task. Life is of one piece. The growing boy must live in his environment and his education must enable him to do so at every stage ideally. If at any point there is a break or neglect, an irreparable injury will be done.

The alert teachers in every grade are aware of this fact and they are seeking, through the common school system, to provide ways and means for that daily expression of life that will ensure correct habits of thinking on all questions as well as induce a correct attitude to life. The allies of the school are the church and the home. The hearty co-operation of these three in building the highest type of character will save democracy. Independent action will result in failure. In union there is strength. The wisdom of increased expenditure in education will be apparent within a short time if organized society works as a unit towards the objective, character.

The answer to the question at the head of this article may then be stated briefly. Education is not knowledge, possession of facts, or even knowing how to do things; but it is the possession of a character so efficiently developed and rounded out that the individual will under all circumstances act in the highest interests of society as a whole. To attain unto this desirable goal the schools of to-day use knowledge as a means to an end.

A man has been released from prison because of the poetry he wrote. Men will go to almost any extreme to gain their liberty.

OBITUARY.

CARL G. BRAY.

The funeral of Carl G. Bray took place on Monday at Penticton. The deceased was the younger son of Mr. and Mrs. Wm. Bray and moved from here to the Penticton Hotel a few months ago with his parents.

Death came on Sunday at noon and was the result of double pneumonia and pleurisy. He was but twenty years of age and leaves one brother and two sisters.

Quite a number of friends from Summerland attended the funeral, Jack McCallum and Clifton Roe being among the pallbearers.

BILLY JOY.

The unexpected death occurred last week of "Billy" Joy, the eldest son of Mrs. Bessie Joy a resident of Trout Creek Point. The lad, who was but eight years old, had been operated for throat trouble, and was over come by loss of blood following the operation the former not being in healthy condition and refusing to clot as is usually the case. At the request of Dr. Andrew, Coroner White held an inquest. Mrs. Joy, who is a war widow, has the deep sympathy of the community in her sudden bereavement.

Getting Behind The Apple Show

Directors Meeting With Splendid Response From Growers

The directors of the Summerland Agricultural Association are meeting with great success according to John Tait, the secretary of the Association. The membership promises to be larger than in any previous year of its existence. The canvass for members has not yet been completed, so that those not already called upon will still have an opportunity of subscribing. There is, says Mr. Tait, every evidence of a renewed and keen interest being taken in the Apple Show. Every intending exhibitor should see to the thinning and growing of their produce, says Mr. Tait, so that all his or her crop will be up to show standard.

Selling Interest In Mercantile Co.

Vancouver Buyer Coming Here Next Week

His shares in the Summerland Mercantile Co. Ltd. have been sold by J. J. Wilson to George Stuart, a business man of Vancouver. Mr. Stuart is expected to arrive here in a few days when Mr. Wilson will withdraw from the business and apply himself to his orchard.

Waiter (to Shaw): "How did you find your steak?"
Shaw: "Why I lifted my potato, and there it was."

Evil induced Adam to eat, but he took to drink of his own accord.

SPROUTING!

Sykes in Philadelphia Public Ledger.

GRAIN INQUIRY BOARD CONVENES.

Members of the Royal Commission to inquire into the grain trade who are holding sessions in Winnipeg. Reading from left to right the commissioners are: Lincoln Goldie, W.D. Staples, Mr. Justice J. D. Hyndman, chairman, and J. H. Haslam.

NARAMATA EXPECTS BEST YEAR IN HISTORY

The prospects for a large crop of fruit in the Naramata district are excellent, says a visitor from the sister town across the lake. It is estimated that the value of the crop to the growers will be in the neighborhood of \$160,000.

A candy factory organized by L. Robinson, one of the newer citizens, is about to begin operations. It is understood that the various Okanagan towns have had samples sent them and that the prospects for business are good.

"That man works by fits and starts."
"Fits and stops, I should say."

Every dog has his day—and the watch dog, also, has his night.

Next Week's Work In The Orchard

By R. H. Helmer.

Our spring rains have done much good for small fruits and starting grasses, but they have not penetrated very far. Have you troubled to find out how deep the moisture has penetrated on your own land? If not, why not? Do so at once; as you should know if you can make use of the flood water that is going to waste.

For your guidance: on land that has not been cultivated this spring and on which weeds were growing the two and one-half inches of rain which we have had this spring went in just five inches. The soil below that was dry. In properly, early cultivated soil it has gone down twelve inches, barely deep enough for the main roots of our trees.

Rain over-saturates the surface soil and the cold winds dry it out very quickly.

UNION PRINTERS CONDEMN ENFORCING 44-HOUR WEEK

Twelve Thousand Union Members Voted Against Making the Demand When Subject Officially Up For Consideration

"I am wondering how the situation brought about by the I. T. U. is affecting your business. I trust your men will be true to themselves and to the 'cow that gives them milk.'"

The above quotation is from a letter received by the editor of The Review from a friend in the East who, by the way, is a printer and member of long standing of the same I. T. U. which has ordered the strike for a shorter work week, and is an example of the attitude of the wiser heads among union printers. More than a year ago when the question of demanding a shorter week was up for voting no less than 11,919 union printers voted against making the demand.

Reproduced below is an article on the subject of the 44-hour demand, written by a union printer. To make the expressions of this man, which were published in the Inland Printer, more intelligible to the lay reader we would explain that printers are divided into several groups such as compositors, or type setters, pressmen, etc., and that the writer of this short but pointed article is a member of the pressmen's union. Here is what he says of the 44-hour demand of the typos:-

This article is by a union man who has weathered two strikes during 14 years of continuous membership, and these views are not exclusively the writer's own, but are the opinions and general sentiments of a number of fellow printshop employes. First: I believe in unions and their principles. Let no one doubt that statement, as I have worked "under cover" in many above during my touring days and have been let out more than once owing to the decoration of my coat lapel.

But what seems to have come over our crafts of late?

It appears, that unless the forty-four hour week is granted, a nation wide strike, affecting all the allied printing trades, will be called May 1st. And just why this 44-hour week? Perhaps the writer (a common ink singer, by the way) is dense or behind the times, but if such is the case, he has lots of company. Many compositors, pressmen, and feeders had not given serious thought to this proposed legislation until a short time ago when the clouds began to gather and all are of the same opinion—that is, that this measure has in a manner been railroaded through.

Many of them claim it was enacted while they were overseas or in camp. Anyway, it looks like bolshevism to them and they are wondering why they did not have a vote on the question. They, and the writer, are not students of political economy and are not prepared to debate the question of 44hrs. statistically, but all can see that if the program as constructed is carried out, it means a long, bitter struggle, and to many of us it spells defeat.

Public opinion is for the 8-hour day, and the sympathy of the public is with any and all movements, organized and otherwise, to better working conditions and maintain high standards of living, but public opinion will give scant encouragement and no support to this threatened strike for the 44-hour week.

It is all wrong and unnecessary, and impracticable.

The nation in the matter of production, is not prepared for the 44 hour basis in any industry. At the present time in the printing industry, hundreds of shops are required to work considerable overtime on the 48

CAR OVERTURNS ON LAKE SHORE ROAD

While motoring from Keremeos to Summerland, Mr. and Mrs. J. C. Kennedy went off the road about a mile this side of the Penticton bridge the car turning completely over and pinning Mrs. Kennedy down by the neck, but fortunately, not with an excessive pressure.

Mrs. Kennedy was driving the car and the accident occurred when she met Mrs. J. Rowley with her car going south. Assistance was given by the occupants of the Rowley car, and Mrs. Kennedy hurried back to the Inco Hotel, and medical aid summoned, when it was found that she had suffered no great injury, though considerably shaken up.

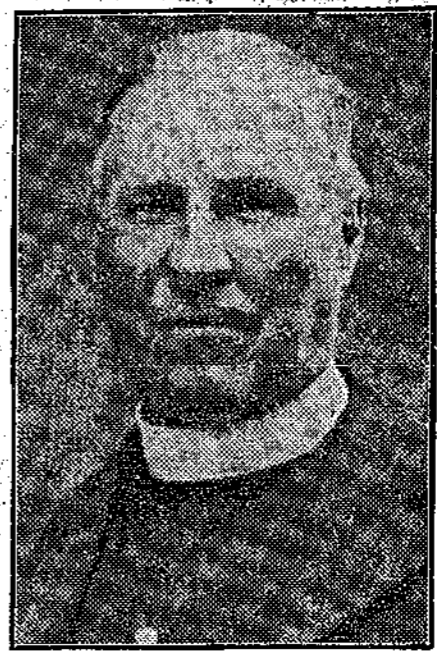

STARTING WORK ON STORAGE BUILDING

Progress is being made at the site of the new storage building. A concrete mixer is being installed and gravel is being drawn for the concrete. Files for the extension of the C. P. R. trackage on the lake side of the building are being brought in, and some carloads of square timbers for this work arrived at the wharf on Wednesday.

TREES WHERE NONE GREW BEFORE.

About fifteen years ago, a campaign of tree planting was commenced in Western Canada, and the face of the prairie has since been gradually transformed by the introduction of millions of trees which have changed the bareness of the prairies. The end of another quarter of a century will doubtless find this work completed—every farm with its avenue of hardy trees giving welcome shade and protection. Naturally this planting has increased the value of the farms.

CODY WILL NOT GO

Rev. Dr. H. J. Cody, rector of St. Paul's, Toronto, has advised his parishioners that he has decided not to accept the call to the archbishopric in Melbourne, Australia, and will stay with his people at St. Paul's. This announcement was received by the church congregation with applause, all rising and singing, the doxology.

HA! HA!

Knicker—My wife sure got stung on a deal several days ago.

Bocker—What's the joke?

Knicker—She wrote for a book "How to Get in the Movies," and the answer was, "Pay a quarter and war tax."

WITH THE O. U. G.

At the annual meeting of the Kootenay Fruit Growers Union, held last week C. E. Barnes, of the O. U. G., submitted a proposal that the Kootenay Union co-operate with the Okanagan organization in selling the fruit crop of the Kootenay. This proposal met with favor among the Kootenay Union members and was adopted.

with satisfaction to all. It will be no disgrace or dishonor to admit that the 44-hr. week enforcement is not practicable, neither will it be a victory for the employers. The brave man and the strong is he who can acknowledge his error; to him belongs the victory. The writer is just a plain, ordinary union pressman, the breadwinner for a little family, and is perfectly happy among the old type grinders all day; but he knows that a strike is war, and Shruman said the rest.

THE CULTIVATION OF ROOT CROPS

By R. H. Helmer, Superintendent Experimental Farm, Summerland, B.C.

(Experimental Farms Note).

Although it generally costs more to grow root crops, such as mangels, carrots and turnips, than it does to grow corn, at the same time roots, alfalfa hay, straw and grain when fed to steers, give as good gains as corn silage does.

The average yield of mangels is under twenty tons an acre, owing as a rule to uneven stands of large, coarse roots which come from poor seed or poor soil preparation, or both. Consequently, mangels rarely give the returns they should.

Knowing this, the object of the grower should be to improve on it and obtain a one-hundred per cent. stand so that, with rows planted three feet apart and mangels twelve inches apart—and with careful cultivation—the yield with a ten pound average per root would be seventy-two tons per acre.

The most important thing to know in growing root crops—and this should be from personal experience, not from the outside of the seed packages—is the quality of the seeds. The seed bed should then be very carefully prepared and land that is liable to form a crust after seeding should be seeded more heavily, and when the crust does form it should be broken with a hand rake or light harrow.

The best preparation for roots is clover or alfalfa, which is ploughed in the summer or early fall; manure disced in and re-ploughed in spring, and, if necessary, well worked up by discing, harrowing or packing. Roots should be seeded in rows three feet apart directly frost danger is over. As soon as the seed is up, the rows should be chopped out, so that the plants are ten to twelve inches apart; then they should be hand thinned and blanks filled in after thinning.

The plants should be established without irrigation if possible, because in this way they are forced to make a large, deep root system, which is essential for them later on during the hot, dry weather. However, if the land is very dry, irrigation should take place before any other preparations for seeding are made.

If the first irrigations are marked deep, (with a six inch plough), a deep root system will be established, as roots have to follow the moisture and thus they are kept in the deeper, cooler areas of the soil. The depth of the irrigation furrow should be decreased gradually, as the roots spread out sideways and the tops shade the soil. Roots should remain in the ground as long as possible, as the cool nights and days increase the growth.

When the crop is harvested, it should be placed in rows for the sun to dry and harden. Crop should be carefully handled when hauled and when in pit or cellar there should be abundant ventilation until heavy frost is expected.

Although irrigation is necessary at times, it can never take the place of good cultivation; in fact, better cultivation is necessary when irrigation is used if a hundred per cent. stand is to be attained.

Father—Helen, isn't it about time you were entertaining the prospect of marriage?

Daughter—Not quite, pa. He doesn't call until 8 o'clock.

CHAIRMAN OF THE RAILWAY COMMISSION

The Hon. Frank Carvell who has just completed his investigation in the West regarding Western freight rates.

GET YOU A GOAT.

Four cents a day will keep a goat. The average nanny goat is good for two quarts a day of rich, delicious milk. At 12½c. to 15c. a quart—the price now paid for cow's milk—could anything more profitable be added to the household?

Milk goats are particularly adapted in outlying districts, are self-supporting, and are of great use in cleaning up brush, weeds, etc. It is recommended that two goats be kept so that one would always be in milk, and besides, no animal does well alone. You can keep three goats on what it would cost you for one quart of cow's milk per day, and three goats should give you six quarts of milk, from which to make butter and cheese.

The prejudice existing against milk goats in the minds of those who have not had experience with them is due to ignorance. Nanny goats have no objectionable odor—rather the opposite—and the milk, instead of being strong tasting, as some people imagine, is as sweet and wholesome, if not more so, than any got from cows.

Goat's milk is rich, containing from 5 per cent. to 6 per cent. butterfat, and yet the fat globules are so small that the milk is digested in one-third of the time it takes to digest cow's milk; this is why goat's milk makes such an ideal food for infants and invalids.—Okanagan Commoner.

The numerous slogans used by the "Made-in-B.C. Campaign" Committee in connection with the Made-in-B.C. Day which was held on Friday in Vancouver, will likely remain with the people of that city. Among the expressions used, that urging the people to "Help Yourself!" is probably one that made the strongest appeal. It hit the nail on the head by pointing out that the main object of the "Made in B.C." movement is to help every man, woman and child in the province.

The "Made-in-B.C." movement is but a part of the "Made-in-Canada" movement. Boosting British Columbia industry boosts the output of Canadian industry in general. As instancing the importance of the Made in B.C. Campaign to Canada, it is only necessary to mention that in two of British Columbia's greatest resources, Canada produces twenty per cent. of the world's supply of lumber, and cured and canned fish.

British Columbia has about 16 per cent. of Canada's population, and Canada has but 5 per cent. of the world's population; yet British Columbia has the greatest resources of lumber, fish, and various kinds of minerals, of any country in the world. Boosting local industry, through the "Made-in-B.C." Campaign means the development of these resources.

Manufacturers in Great Britain are studying the possibilities of British Columbia as a likely spot for the establishment of textile factories. They are gathering statistics regarding raw materials, power available, and other information. British capital will invest far more quickly in a province where it knows the people are one hundred per cent. strong behind local industry.

The widespread interest being taken in the "Made-in-B.C." movement is well evidenced by the large number of school children who entered the Made-in-B.C. Committee's essay contest. From as far east as Fernie, from northern sections of the province, and from Vancouver Island, papers were received competing for the large number of prizes hung up by the committee.

"Did you hear about Blick proposing again to his divorced wife?"
"No, what did she say?"
"Said she couldn't think of marrying a man whose first wife was still living."

HOME-SEEKERS OR INVESTORS WOULD DO WELL TO CONSULT F. D. COOPER REAL ESTATE BROKER PEACH ORCHARD SUMMERLAND

New chiefs of United States President-elect Harding, Mrs. Harding, Mrs. Coolidge and Mr. Coolidge, Vice-President.

Are you willing to sign your name to the story you are about to repeat regarding your neighbor? Would you go into court and swear to it? No? Well, you had better not repeat it. It may harm your neighbor's reputation for the story may be false. You may then have explanations to make.

You may also be sure that you will be put down as a gossip and a busy body. "You will not be trusted."

It is best not to repeat stories about people. But never repeat any story unless you know it is 100 per cent. true.

THE WATTS AND DAVYS.

Many years ago Huxley wrote: "A small percentage of the population is born with that most excellent quality, a desire for excellence, or with special aptitude of some sort or another. Now the most important object of all educational schemes is to catch these exceptional people and turn them to account for the good of society. If the nation could purchase a potential Watt or Davy or Faraday at the cost of £100,000 down he would be dirt cheap at the money."

EVERY MAN IN BUSINESS KNOWS

What HE Has to Sell—But Do Our Readers Know?

New Goods at the Ladies' Emporium

Among recent shipments arriving at this store are many New and Seasonable Lines, some of which you have been looking for, such as

- SUMMER DRESS GOODS
- NEW GINGHAMS AND VOILES
- TOWELS AND TOWELLING
- PILLOW COTTONS
- READY MADE SHEETS
- Beehive Scotch Fingering Wool, 5 ply, and White Heather Wool.

Mrs. A. MILNE

Shaughnessy Avenue Opposite Hospital

Visiting Curate—Mandy, is it necessary for you to leave all these young children at home and go out to cook?
Mandy—Yes, sir; the doctor says I need a rest.

Here's a southern poet singing that while his body is in Texas, his soul is in Tennessee."
"Well, he's not the first poet who has had trouble in keeping body and soul together."

She frowned on him and called him Mr. Because that night for fun he Kr. So just for spite That very night The naughty Mr. Kr. Sr.

OLDSMOBILE FOUR

The Car that is taking America by storm.

EVERY INCH AN ARISTOCRAT

The Highest Powered, Most Reasonable Priced, Snappiest Appearing, Four Cylinder Car in the Market To-Day.

Mr. T. B. Young,
West Summerland.

Dear Mr. Young,

In reply to your letter enquiring as to whether I am satisfied with the Oldsmobile car you sold me recently, and my opinion of it, I can assure you that I am delighted with it. For power, for riding ease, for room and general comfort, as well as in detailed attention to finish, this car in my opinion equals, if it does not excel any car in its class of which I have experience, and is certainly ahead of some cars of decidedly higher cost.

At the present time I have only run some eight hundred miles, but the engine is satisfactorily "run in," and I have no doubt from its general behaviour that the car will stand up.

If this expression of my opinion is of any use to you, it is quite without prejudice, and you are welcome to use it in any way you please.

Yours truly,

Summerland, April 13, 1921.

G. R. HOOKHAM.

CANADIAN HAPPENINGS

CHRONICLED IN BRIEF

Fernie council will supply free gravel to citizens who wish to construct cement walks leading up to their residences—or in front of them.

Grand Forks must now have more revenue and the council is considering the imposition of a traders license on insurance agents, undertakers, doctors and music teachers.

The Canadian National Railways station to be built at Prince George will be large enough to take care of the traffic for some years to come, railway officials announce.

Vancouver.—Five thousand dollars has been granted by the City Council of Vancouver towards defraying the expenses of transporting five hundred men from here to the prairie provinces, where they will be given employment by the provincial employment bureau. The total cost of transporting these men will be about \$15,000, and the balance of \$10,000, it is understood, will be provided by the provincial and federal authorities.

During the past year the assay office at Vancouver received in gold \$3,416,129 from British Columbia mines.

Spring operations on an unprecedented scale are being planned at Dawson. Much prospecting will be done and there will be extensive gold dredging and hydraulics, and rich new silver properties will be opened. Machinery is being overhauled, and many old timers who were unable to secure work outside during the winter are returning to Dawson by stage or on foot.

A revival of trade with Vladivostok which was beginning to assume important proportions at the outbreak of the great war, is now looked for by British Columbia commercial men. The decision of Britain and the United States to trade with Lenine and Trotsky is regarded as the first step in that direction.

A pulp and paper mill with a daily capacity of 200 tons and costing between seven and eight million dollars, is to be established at Prince George, according to plans now being completed with government officials at Victoria by Robert Tynhurst, a member of an Eastern timber and pulp syndicate. The location of the plant is especially suitable owing to its proximity to the big pulpwood area in the interior of British Columbia.

Eleven vessels, ranging in size from gas boats to big stern wheelers over 200 feet in length, with a total value of well over \$200,000 will be built in Vancouver for the Hudson's Bay Company for operation on the McKenzie River during the coming spring and summer months, according to an official of the Company undertaking arrangements.

British Columbia is a fruit raising country, yet last year foreign imports show that 4,138,704 pounds of apples, valued at \$136,656, were brought to the province. The previous year the total was 1,005,400 pounds, valued at \$45,866. Other tree fruits brought into the province in 1920 weighed 3,144,903 pounds, being a decrease of a million pounds over 1919. We imported 6,307,982 pounds of canned fruits in 1920 as against 2,679,751 pounds in 1919 and 1,712,517 pounds in 1918.

If the coal strike continues in England, it is considered possible that British Columbia coal may be shipped there.

Grand Forks tax rate is increased 7 mills this year, due largely to unavoidable increased expenditure in connection with the town schools.

Oroville Gazette: With Osoyoos growing up to be a town immediately across the line and almost within sight of Oroville the temptation will be greater for the booze hounds on this side of the line to become bolder in running the blockade.

Victoria.—The number of students enrolled in British Columbia schools is now placed at 79,242, an increase of ten per cent. over the previous year, according to the statement made by S. J. Willis, superintendent of education, at the annual teachers' convention. Fifty-five new schools have been erected in remote districts and thirteen schools had been reopened during the past year, he added.

There is an increasing demand for British Columbia timber in Eastern Canada, in the manufacture of wood products. These products could easily be manufactured in this province.

In Massachusetts a man who speaks ten tongues has just married a woman who speaks seven.

We are betting on the lady.—Philadelphia Public Ledger.

"Sir," said the angry woman, "I understand you said I had a face that would stop a street car in the middle of the block."

"Yes, that's what I said," calmly answered the mere man. "It takes an unusually handsome face to induce a motorman to make a stop like that."—Topeka Journal.

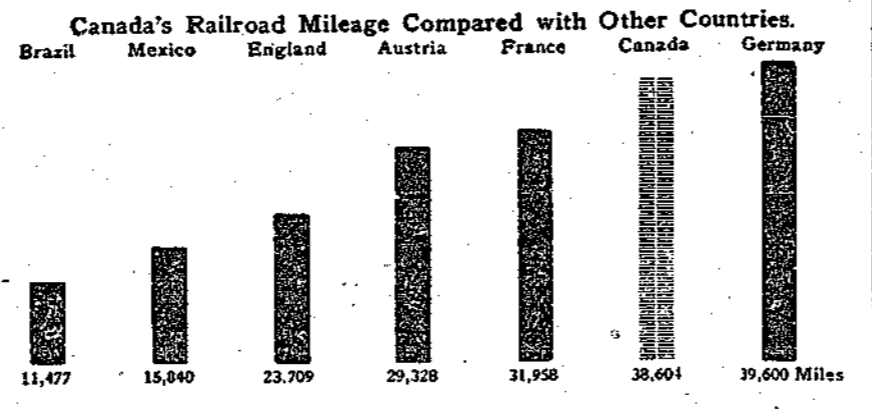

The experts say that a broad flat nose indicates lack of curiosity. It may, however, indicate that it has been thrust once too often into the affairs of other people.—Baltimore Sun.

Three British Columbia elk—a fine three-year-old bull and two year-old cows—have been shipped by express from Vancouver to St. John, N.B., whence they sailed for England on April 16th. These elk are destined for the Zoological Gardens in London. This is the first shipment of elk ever made out of this province to England.

During the four months from December 15th to April 15th, the sum of \$300,000 was paid out in the City of Vancouver for relief. This would not have been necessary if the consumers of British Columbia bought the goods that they help to produce.

Announcement was made by Hon. F. B. Carvell that the freight rates on lumber from British Columbia would be decreased. This, it is expected, will result in an increased demand for British Columbia timber on the prairies.

"Nothing succeeds like success." Standing solidly behind local industry means success for that industry. If the people of British Columbia put their shoulders to the Made-in-B.C. wheel, and make their weight felt, the weight of their money, the weight of their example, and the weight of their enthusiasm, this province need never concern itself about the future.

CANADA'S TRANSPORTATION SYSTEM.
In railroad mileage, Canada is third among the nations of the world; per capita of population, she is first. The Canadian Pacific Railway alone has 18,600 miles of railroad.

A schoolboy wrote an essay on cats. The chapter on different breeds supplies the following information: "Cats thats made for little boys and girls to mau and tease is called Maltese cats. Some cats is known by their queer purrs; these are called Porsian cats. Cats with bad tempers is called Angorrie cats. Cats with deep feelins is called Feline cats."

"What did Noah do in the Ark?" asked the teacher.
"He spent his time fishing," said the small boy, adding: "But he didn't catch much."
"Really!" said the teacher. "Why not?"
"Hadn't enough bait," answered the boy; "only two worms."

FIVE HARD JOBS.
The five hardest jobs in the world are:
1. Shaving a man who has St. Vitus dance.
2. Sharing one's last bottle of Scotch.
3. Trying to get work at a soda fountain on the strength of a cock-tail mixing reputation.
4. Filling out a money order with a post-office pen.
5. Living within your income.
And the five easiest jobs are:
1. Clipping coupons.
2. Giving friendly advice.
3. Delivering ice in Yukon.
4. Telling how you would run the country.
5. Living beyond your income.

KAISER BRONCHITIS IN EXILE
Thousands Liberated
What! have you not heard the joyful tidings? Bronchitis has been exiled—kicked right out of society—and 100,000 Canadians liberated from the bondage of this disease. Every trace of bronchial trouble is blown to atoms by the world's most effective disease-destroyer, Buckley's Bronchitis Mixture. No wonder people are rejoicing! No longer do they dread the effects of coughs, colds, asthma, etc., and so anxious are they that others should benefit also, hundreds of letters have been written proclaiming the merits of this wonderful medicinal remedy. Here is one letter:—
To Whom it may Concern: "This is to certify that I had been suffering for over three weeks with bronchitis and was advised to try Buckley's Bronchitis Mixture. I purchased a bottle and after the third dose I received relief, and before the bottle was finished, I was perfectly well. In making the above assertion I have no hesitation in saying it is the best remedy I ever came in contact with for heavy colds and bronchitis."—
(Signed), Mrs. M. Harding, c/o Dustless Brush Co., Toronto. The original of this testimonial may be seen at W. K. Buckley, Limited, 142 Mutual St., Toronto. This mixture, proven in thousands of Canadian households, will give you sure relief. It cannot fail. Seventy-five cents is the price that stands between you and the road to health. Take no substitute—insist on the bottle with the "Satisfaction guaranteed, or money refunded." Ask your druggist. 19

The Summerland Review

Established August, 1908

Published at Summerland, B.C., every Friday by THE REVIEW PUBLISHING COMPANY, LIMITED

Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Wednesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

FRIDAY, APRIL 29, 1921

Correspondence

Peach Orchard, Summerland, B.C. 24th April, '21

The Editor, Summerland Review.

Sir, It is with great interest that I have read from time to time in The Review articles on the Oriental problem. Concurrent with that interest is a boundless surprise that our Okanagan people seem as a body so blind to the inevitable results of an unchecked influx of these peoples, Japanese and Chinese. A few voices proclaiming themselves dissentient from this policy are but as "a voice crying in the wilderness," and nothing will be done without concerted action, complete unity.

Forgetful of the fact that the Orientals' costs are less than ours, that they earn far more here than their wildest dreams allow them to expect in their own country, and that that country gets the benefit of their Canadian earnings, people will say, "Oh! but if Me Wun Lung will do it so cheaply, why should I give my work to a white man?" And again, "And they are so good at it; so painstaking, you know."

It was with joy that I heard recently that a certain person, finding the Oriental's price 50c. less per measure less for an article of necessity than that of the white man, found himself considerably "short-measured" on reckoning up after delivery. Can, or will, people not look further than the immediate present—and its apparent—only apparent—advantage in paying a little less?

Thinking people see, admit, and strive against the appalling danger, but meet with a blank wall of indifference in their own fellows, those who in the not far distant future will howl when the imaginary danger is an accomplished fact, and they are ousted from that land which is such an important section of the Empire.

I for one heartily endorse the proposed federal convention for discussion of the exclusion from settling rights and business operations in Canada of all Orientals.

I am, Sir, Yours truly, E. GRIFFITH.

Summerland, B.C., 25th April, 1921.

The Editor,

Summerland Review, Summerland, B.C.

Dear Mr. Editor, I will not support an Apple Show in Summerland because—

(1) I grow apples for a living and not as a hobby. My market is not here, so why should I exhibit my apples where there is no chance of selling them.

(2) Present indications point to a record crop of tree fruits; and the middle of October will, I hope, find me trying to crowd two days' work into one in the effort to harvest my crops before killing frosts, which, on the authority of Mr. Helmer are liable to occur then.

(3) I do not think that one must be a successful exhibitor to be a successful grower.

(4) Instead of encouraging a few individuals to waste their time at that critical period in selecting super apples to make super packs for the benefit of themselves alone, I think that the money and energy could be better employed in advertising our produce where it is likely to be sold.

I would be willing to support an exhibition where the main object would be to encourage the culture of flowers, and which would incidentally tend to improve the general appearance of our district.

Another advantage of such an exhibition would be, that it could be held at a time when we are not running a race against Jack Frost, in order to escape the disaster that overtook some of us in 1919.

Thanking you in anticipation, Yours truly, FRUIT-GROWER.

Development of the West

The proceedings of the Grand Trunk Arbitration Board now sitting in Montreal in connection with the valuation and acquisition of the Grand Trunk and Grand Trunk Pacific Railways by the Canadian Government, were enlivened by the examination of Col. J. S. Dennis, of the Canadian Pacific Railway. Called as a witness to the history of the Canadian West, Col. Dennis—who perhaps, has a wider and more personal knowledge of its growth and development than any other man.

COLONEL J. S. DENNIS.

Described graphically, the changes that have taken place in that great Western territory from the time when a young man, in 1872, he first went West in the employ of the Department of the Interior until the present day—its early settlement and struggles, the method of land survey, first transportation lines, its agricultural beginnings, commercial extensions, mineral resources, etc.—showing by tabulated statements and maps, the steady increase that has resulted during the period under discussion, and under cross examination, giving his opinion of the future that lies before it.

Col. Dennis then went on to tell of the development of the West. He gave figures showing the increase in population for various periods; the growth of bank clearings at principal points; the increase in elevator capacity; the total land acreage and the acreage under cultivation; the land tributary to existing railway lines available for settlement; the suitability of land for settlement; the growth of the railways; a description of the Peace River country; the amount of grain produced; the value of a settler to the roads and the country; irrigation development and extension; mineral output and the prospect of the Alberta oil fields.

Before cross examination by the Government counsel, and after a brief description of the proposed work of the Western Canada Colonization Company, the witness was asked to give his opinion of the outlook for future development of Western Canada. "Very briefly, then," said Col. Dennis, "my opinion with regard to the development of the Western Prairie Provinces is conditioned on one fact only. We have, as I have shown, at the present time, thirty-two million acres of land being cultivated, and made productive. We have adjacent to the railway lines that serve that present productive area, an area equally large that is absolutely unproductive. If in the near future we can make this two or three million acres of land that is within fifteen miles of existing railway, productive of settlement, it is a fair estimate that it will more than double the productiveness of the country, because, if the thirty-two million acres that we now have under cultivation produce the traffic we have at present, the colonization of the additional thirty-three million acres will produce a great deal more than a similar amount."

"Now," he continued, "whether we can colonize it or not depends upon the government. If the government—in view of the present railway situation, — are going to impose restrictions with regard to colonization, of course that means a lengthened time within which development can be carried out. Assuming, as is suggested, that we have the door open to the character of colonization which brought about the settlement of the thirty-two million acres and the development of that country from what it was forty-nine years ago to what it is to-day, which resulted wholly and solely from the settlement of the country—there was not anything else which brought about this development—my opinion is that a very rapid development can be produced within the next few years, and the future of the Grand Trunk Pacific absolutely depends upon it."

"To sum up I will say that if all interests take hold of the matter intelligently and aggressively and the Government will consider the interests of the National Railways and not bar the door, it is my opinion we should have a very marked movement of people to Western Canada, in fact, I will be disappointed if our immigration does not double within the next five years."

INHERITED.

Music Teacher—Your son is improving, but when he gets to the scales I have to watch him very closely.

Mamma—That's just like his father. He made his money in the grocery business.

She.—Is it true, darling, that you gave the minister \$15 for marrying us?

He.—Yes, but keep it to yourself. I was never so swindled in my life.

ENGLISH LIKE THE DICKENS.

(From an advertisement in a Siamese newspaper quoted in The Pioneer, India.)

The news of English, we tell the latest. Write in perfect style and most earliest. Do a murder get commit we hear and tell of it. Do a mighty chief die, we publish it, and in borders of somber. Staff has each one been college, and writ like the Kipling and the Dickens. We circulate every town and extortionate not for advertisements. Buy it.

LEATHER FROM RABBIT SKINS.

A tanning trick has been discovered by an Australian for making leather from rabbit skins and recovering the fur as a by-product in felt making. A company has been formed in Sydney to turn this discovery into practical use, having established works capable of handling about 100,000 skins a week. The leather has already been utilized in Sydney in the manufacture of boot and shoe uppers, handbags, gloves and other articles.

Some Business Enterprises Are in the 'Wetted Clay' Stage!

"No man ever wetted clay and then left it, expecting that there would be bricks by chance and fortune."

—Plutarch.

STORES do not prosper by chance and fortune, either. The good store, before it is adequately advertised, is in the wetted clay stage of brick-making. The materials are there—but the "making process" must be followed to its conclusion.

—For a successful store is a creation, whose status must be first reached and then maintained

THROUGH ADVERTISING.

—As with a newspaper, the store must be constantly made anew. Every day brings a new task of service—an imperative summons to greater effort. Last week's value-giving may have made many new friends—these must be held through this week's value offerings, and these must be **ADVERTISED**, that the new friends and the old may **BE POSTED**.

—The good store, the good business enterprise of any sort, will never really 'arrive' until **ADVERTISING** has placed it in close touch with its public—has carried its message, has **MADE KNOWN ITS APPEAL FOR PUBLIC FAVOR**.

Coming Events

Notices under this heading are inserted at 3 cents a word. Each repeat, 2 cents a word; minimum charge, 50 cents. Contract rates on application.

There will be Evensong at St. Stephen's Church on Sunday, May 9th, at 7.30 p. m. Rev. Mr. Rose, a missionary from Kangra, India, will preach.

A meeting of the West Summerland Women's Institute will be held on Friday the 13th. May at 3 p. m. in the Parish Hall. Mr. Welsh will speak on "Character Building and the Public School". Everyone invited.

The thirteenth annual district convention of the W. C. T. U. will be held here in the Baptist church next Wednesday and Thursday. The provincial president, Mrs. Lillian Wright and the district president, Mrs. Robt. Arnott, are expected to be present. A gold medal contest will be held on the first evening. Addresses will be given by the local pastors and Mrs. Wright will speak each evening. A special musical program is being arranged, and papers and addresses, followed by discussions will be the features of the day sessions.

Times are a trifle hard just now, and money is a little scarce. Evidently Uncle Ephraim thinks so, for he came up to his supply merchant the other day and said:

"Marse John, times is tighter dan ah evah seed 'em befo'. Do you know, Marse John, ah can't get no money at all? No sir, ah can't get nothin'! Ah can't even get hold of a nickel! Do you know, Marse John, hit actually looks like ah'll have to go preachin' in order to make a livin'. Ah done it once and ah ain't too good to do it again!"—The Way.

Get Your Seats Early

Passing Events: Social, Personal, &c.

THANK YOU!

Don't forget that A. G. Parker, Penticton, can sell your used car.40

Mrs. H. M. Lumsden was thrown from her horse a few days ago and suffered a fracture of the upper right arm. She was immediately hurried to the hospital.

Dr. F. W. Andrew had his office broken into a week ago last Sunday night and a small quantity of morphine stolen. A "dope fiend" who had been about town for a few days before is suspected.

G. Y. L. Crossley has withdrawn from the local firm of real estate agents, G. H. Inglis & Co., and informs The Review that he intends to start in business for himself immediately.

To meet the demands of its advertisers, who found once a week not often enough to get their store news before the public, the Penticton Herald has decided to publish twice a week.

Dr. C. J. Coultas, dentist, from West Summerland, will pay a weekly visit to Peachland Mondays, commencing May 9th. His office for the time being will be at the residence of Mrs. House. 40

Commencing Saturday, May 7th, and every Saturday thereafter during the summer, P. S. Roe will run an excursion by boat to Penticton, leaving Summerland at one p. m. and Naramata at 1.30 p. m. The return trip will be made right after the matinee, and the charge will be 50 cents. 40

P. S. Roe intends making a special motor stage to Penticton every evening, leaving Hotel Summerland at 7 o'clock, and also a morning trip about 8 o'clock, of which further announcement will be made in these columns. 40

"Stop, look, listen!"
The reflective man stopped to read the railway warning.
"Those three words illustrate the whole scheme of life," said he.
"How?"
"You see a pretty girl; you stop; you look; after you marry her, you listen."

PEACHLAND LOSES HONORED CITIZENS

The "passing" of two prominent and respected citizens of Peachland occurred this week. James Michael succumbed to pneumonia after a short illness, and W. A. Lang died after a long illness contracted while he was in Lyons, France, holding an exhibit for the Dominion.

Both the deceased were old-timers in the Valley, both having filled important positions in the public service. They were Freemasons, and were buried with full Masonic honors, a large number of friends and citizens attending to pay their last respects.

Speaking of weather indications, when allspice is adulterated with ground coconut shells the season is sure to be mild.

Rev. James Dunlop has returned from a brief trip to Vancouver. Mrs. R. S. Monro returned from Vancouver last Thursday morning.

See A. G. Parker, Penticton, before purchasing a car as he is in touch with those who want to sell and can save the purchaser money.40

GRAND NEWS FOR DADDY.

Let the water that washes the dishes and bathes the baby light the house says The Nation's Business. That's the plan of M. Colardeau, a French scientist, as press cables bring the news to America. The ingenious inventor has a high speed turbine fixed to his supply pipe and that in turn is connected with a little battery of accumulators. When the taps are turned on for the use of water for ordinary domestic purposes, the energy piles up until the lights are needed.

This grand news for every household's daddy ought to cheer up the world a bit. The time may come when the water tap will also heat the house in winter and make the ice in summer.—Montreal Herald.

Someone wants to know if woman can create. She can! She can create an interest in life, an illusion, a situation, a dilemma, a denouement, a scandal, or her own complexion.

NEGATIVE WAS POSITIVE.

Student of Electricity—Can anything be both positive and negative at the same time?
Electrician—Sure. When I proposed to my girl last night she gave me a negative answer which was very positive.

The hostess asked the solid man of her company to take a young and talkative woman in to dinner.
The woman did her best to keep up conversation, ranging from reciprocity to Buddhism and back again by a different route, but once only did the solid man desert the unfailing affirmative for "No'm." That was when he was tried on music and musicians.

"Do you like Beethoven's works?" she asked.
"I never visited them," he replied, with a show of interest. "What does he manufacture?"

Less Troublesome Adjustments

As a rule the adjustment you get on a defective tire, doesn't quite satisfy you. Mainly, we suppose, because we are all human and want a little more than we are entitled to.

But even our most private opinions on the fairness of an adjustment, can find no fault with the method of settling claims on Ames Holden "Auto-Shoes."

You are always right with ourselves and the manufacturer. We personally look after your interests. There is no needless red-tape, delay or argument in fixing our measure of responsibility and your compensation. Ames Holden "Auto-Shoes" are guaranteed against any defect in material or workmanship without time or mileage limit. They are adjusted on that basis without quibble or evasion.

THE CONTROL OF SWARMING

An Interesting Article on Bees
By C. B. Gooderham, Apiarist, Dominion Experimental Farms.

Swarming is the natural method by which bees increase, but is a hindrance to the best results in honey production; especially is this true of comb honey production.

The uncertainty of swarming, the reduction of the honey crop through a division of the working force of the colony, the possibilities of losing swarms and the difficulty of controlling swarming without considerable labour, all make the control of swarming the biggest problem in bee management.

Colonies do not all require the same treatment. Swarming may often be prevented by the following manipulations. The introduction of a young queen. Giving ample room for brood rearing just previous to and during the early part of the clover flow.

Providing plenty of super room for the storage of honey. Giving adequate ventilation during the hot weather by raising the front of the hive on small blocks to enlarge the entrance. Raising a few combs of emerging brood from the brood nest to a super to relieve congestion of a brood chamber.

The destruction of queen cells every nine or ten days requires too much labour and is not always effective.

In localities where the swarming season is short, the separation of queen and brood is usually effective. All the brood is removed from the brood chamber and placed in an empty super and the brood chamber is then filled with empty combs.

A more effective method is to remove the queen from the colony at the time the first active queen cells are found and to destroy the cells. Eight days later again examine the colony and destroy all queen cells but one, or destroy all and give a ripe cell of select parentage.

It is a good plan to keep the queen's wings clipped, for, should a swarm emerge, the queen will be unable to fly and will fall to the ground when she leaves the hive.

WASTED ENERGY.

Conservation of a great many things has been advocated with more or less intelligence, but the waste of talk goes on. If this amount of physical energy wasted every day in making sounds with the vocal chords and motions with the lips were turned to the mining and transportation of coal, the gathering and husking of corn, the cutting and piling and hauling of wood, the raising and shearing of sheep, the breeding and fattening and butchering of cattle, the world would be surfeited with heat, food and raiment at a cost that would make living practically free.

When you do not intend to pay a bill there is nothing like being decisive in your refusal. The other day a bookseller had an "account rendered" returned to him with the following reply scrawled across the bill: "Dear Sir, I never ordered this beastly book. If I did you didn't send it. If you sent it I never got it. If I got it I paid for it. If I didn't I won't.—Yours very respectfully, John Jones."

CAUSE OF MISFIRING.

A not infrequent cause of spasmodic engine missing is either moisture or grease on the ignition distributor face. The current passes across the surface of the water or oil, instead of pursuing its proper course. It is a good plan to give the distributor a cleaning at frequent intervals.

CHANGE TIRES AT NIGHT.

There should be a trouble lamp with a good length of wire as an integral part of the car. The most important aid a trouble lamp could give would be to light a wheel for tire changing. One with a magnetic base exists. The current which lights the lamp magnetizes a little iron button in the bottom of the socket, so that the lamp can be stuck against any steel part of the chassis and will hold itself there. Failing this refinement, a little screw clamp could easily be designed which would fit on almost anywhere.

NOISE IN REAR AXLE.

Noise in the rear axle may be caused by several different things. The construction of some differentials naturally produces a humming sound. This is not harmful. But if a harsh, grating noise is produced, or in the case of some cars if there is any noise at all there is a defect in the system which should be remedied. Some causes are lack of oil; use of the wrong grade or a poor grade of oil; gears out of alignment; chipped, burred or broken teeth; or if the car is old the gears are undoubtedly worn, resulting in noise.

WHAT MADE THE NOISE.

Wife—I heard a noise when you came in last night.
Hubby—Perhaps it was the night falling.
Wife (coldly)—No, it wasn't, it was the day breaking.—Blighy (London).

CONSIDERABLE MULE.

A negro was trying to saddle a fractious mule, when a bystander asked: "Does that mule ever kick you, Sam?"
"No, sah, but he sometimes kicks where I see jes' been."—The American Legion Weekly.

PAID BY THE HOUR.

Old Crow—I guess we'll have to stay out of that cornfield to-day.
Young Crow—Why so? That's only a scarecrow. I've watched it twenty minutes and it hasn't moved once.
Old Crow—Don't fool yourself. I guess you never watched one of those day laborers from the city.

When a man begins to analyze the quality of beauty in a girl it's a sign he may be a great deal younger than he looks.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.
Pre-emption now confined to surveyed lands only.
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.
Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.
Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.
Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.
Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per acre and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.
Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.
Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.
For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stampage.
Natural hay meadows inaccessible by existing roads may be purchased conditionally upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.
PRE-EMPTORS' FREE GRANTS ACT
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the war. This privilege is also made retroactive. No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for 5 years.
Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.
Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enactment to March 31, 1920.
SUB-PURCHASERS OF CROWN LANDS
Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.
GRAZING
Grazing Act, 1919. For systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

LANDS FOR SALE.

An extraordinarily good bargain is the Jarvis Orchard at \$4,750. Should pay for itself in about 2 years. 13 acres, 7 planted in best varieties, including large number of Apricots. Close to the Rippin Meadows.
4 1/2 Acres good soil at Trout Creek, \$1,100. Also many other bargains in that locality.
Choice Residences. Small and Large Orchards up to \$50,000. Stock Farms. Meadows.
Your choice of over 80 properties listed for sale. State your requirements by letter or call at Office in Peach Orchard.

Banking Service for All

AS the majority of the first directorate of the Bank of Montreal, formed in 1817, were Scotchmen or bore Scotch names it was but natural that they should seek in Canada "to extend and to perpetuate for the farmer and the merchant the benefits and stimulus of a system the worth of which Scotland's prosperity could abundantly prove." One of the outstanding features of the system was the maintenance of numerous branches by banks of large capital.

The Bank of Montreal, in adopting this feature from the outset, laid

the foundations of a service by which branches have been established throughout the entire Dominion.

At each of these branches the full service of the complete organization is available.

Through this service the Bank of Montreal offers to all classes of the community, from the smallest savings depositor to the largest commercial organization, good and adequate banking facilities. Each customer whether his account be large or small is welcome as a client of the institution.

BANK OF MONTREAL

ARE YOU A GOOD CITIZEN?

You needn't ask the answer from your neighbor; a bit of self-examination will tell you.

Do you sit down with your daily paper, peruse its contents and then proceed to rip Lloyd George up the front, read the theories of Meighen, Mackenzie King, the navalists, the anti-navalists, public ownership, private enterprise, the tariff, the railways and everything else in the public eye?

Do you scoff, jeer, scorn and hold in abomination all of your communities' problems, their representatives in work, field and parliament?

Do you complain, criticize, object, bewail and annoy those who are trying to do something?

Do you stop at that? If so, you're no citizen at all.

Do you, on the other hand say, "Well, Jones is doing pretty well, but he could do better; perhaps my suggestion will help him?"

If your criticism is of a constructive nature, you are a good citizen. Criticism is necessary and vital to the efficiency of everything but to

be valuable it must be constructive, suggestive, and not merely destructive.

To be a good citizen you must criticize abundantly. Your criticism may be favorable or unfavorable towards its object, but above all things let it be constructive. If you tear down anything serving a purpose, no matter how inefficiently, let it be for the purpose of building something better, bigger, stronger.

If this is your guiding thought in public matters you are indeed a good citizen and Canada needs millions like you.—Farm and Home.

During 1920 the citizens of British Columbia increased their imports of farm products from other provinces by \$312,767; but they increased their imports from foreign countries by \$3,599,175, according to figures compiled by the Government.

The Banff to Lake Louise highway is now completed, and it is expected that the road will be declared open for vehicular traffic during June.

CORPORATION OF THE DISTRICT OF SUMMERLAND.

BY-LAW NO. 140.

A By-Law to enable the Corporation of Summerland to raise by way of loan the sum of Thirty Thousand Dollars (\$30,000), for School Purposes.

WHEREAS it is deemed expedient to borrow the sum of Thirty Thousand Dollars (\$30,000) for school building purposes; AND WHEREAS it is necessary for the purposes aforesaid to raise by way of loan upon the credit of the said Municipality the sum of Thirty Thousand Dollars (\$30,000), payable on the First day of August, 1921, bearing interest in the meantime payable half yearly at the rate of seven per cent. (7 per cent.) per annum, the principal of such loan when raised to be applied for the purposes aforesaid;

AND WHEREAS the said amount of Thirty Thousand Dollars (\$30,000) is the amount of the debt which this By-law is intended to create; AND WHEREAS for the payment of the said principal it is necessary to raise the sum of One Thousand and Seven Dollars and Forty-seven Cents (\$1,007.47) by rate in each and every year;

AND WHEREAS for the payment of the said interest it is necessary to raise the sum of Twenty-one Hundred Dollars (\$2,100) by rate in each and every year;

AND WHEREAS the amount of the whole rateable land and improvements of the Corporation of the District of Summerland according to the last revised assessment roll is Three million, two hundred and seventy-two thousand, eight hundred and eighty-seven Dollars (\$3,272,887); AND WHEREAS the total amount of the existing debenture debt of the said Corporation of the District of Summerland is Four hundred and fifty-seven thousand, five hundred Dollars (\$457,500), of which none of the principal or interest is in arrears;

NOW THEREFORE the Municipal Council of the Corporation of the District of Summerland in open meeting assembled, enact as follows:

(1) It shall be lawful for the Reeve of the said Corporation of the District of Summerland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the Municipality by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of Thirty thousand Dollars (\$30,000), and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the Corporation of the District of Summerland for the purposes and with the objects hereinbefore recited.

(2) It shall be lawful for the Reeve to cause any number of debentures to be made for a sum not exceeding One thousand dollars (\$1,000) each, bearing interest at the rate of Seven per cent. (7 per cent.) per annum, not exceeding in the whole the sum of Thirty thousand Dollars (\$30,000), and all such debentures shall be sealed with the seal of the said Corporation, signed by the Reeve and counter-signed by the Treasurer of the said Corporation.

(3) The said Debentures shall bear date the First day of August, 1921, and shall be made payable in twenty years from the date thereof, at the Agency of the Bank of Montreal at Summerland, British Columbia.

(4) The said Debentures shall have coupons attached for the payment of the interest at the rate of seven per cent. (7 per cent.) per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the First days of the months of February and August in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

(5) An amount shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality, in addition to all other rates, to pay interest on the debt hereby created during the currency of the said Debentures and to provide for the payment of the said debt when due.

(6) The sum of Twenty-one hundred Dollars (\$2,100) shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality in addition to all other rates for the payment of the interest on the said Debentures.

(7) The sum of One thousand and Seven Dollars and Forty-seven Cents (\$1,007.47) shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality in, addition to all other rates for the payment of the debt hereby created when due.

(8) This By-law shall before the final passage thereof receive the assent of the electors of the said Corporation of the District of Summerland in the manner provided for by the Municipal Act, 1914, and Amending Acts.

(9) This By-law shall come into force and take effect on the First day of August, 1921.

(10) This By-law may be cited for all purposes as the School Building Loan By-law, 1921.

DONE AND PASSED by the Municipal Council the Twenty-sixth day of April, 1921.

RECEIVED THE ASSENT OF THE ELECTORS of the Corporation of the District of Summerland the day of 1921.
RECONSIDERED AND FINALLY PASSED by the Municipal Council, signed by the Reeve and Clerk, and sealed with the Municipal Seal this day of 1921.

Reeve. Clerk.

The Summerland Review

Established August, 1908

Published at Summerland, B.C., every Friday by
THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. Wrote, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.
Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Wednesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

FRIDAY, MAY 13, 1921

THE SCHOOL BUILDING BYLAW.

Tomorrow, the ratepayers of Summerland are asked to give their assent to a bylaw authorizing the borrowing of thirty thousand dollars for school purposes. It is the duty of every citizen to record his vote on this most important question.

The schools have long been overcrowded, making it impossible to carry on the work of teaching efficiently. The health of the children has been constantly menaced by the poor ventilation. The High School, crowded into very unsuitable quarters, is placed at a very great disadvantage, in competition with other schools of the Valley.

Summerland is a growing district and its school population is rapidly increasing. These, together with many other facts are arguments in favor of a large vote being polled for the bylaw.

It should be borne in mind also that the school board has been wrestling for considerable time with the problem of school accommodation and the decision to erect an eight room building at a cost of \$35,000 is the most economical that could be devised, consistent with the actual needs of the district.

It is to be hoped that every citizen entitled to vote will mark his, or her, ballot in favor of the bylaw tomorrow.

UNDER THE HANDICAP OF THE STRIKE

Absenting himself completely from his office desk and unavoidably neglecting his usual routine business, the editor of The Review has been acting as amateur linotype operator and general printer, and by dint of much hard work and very long hours, and with the assistance of other amateur help, has succeeded, with this issue, in getting out a second edition under strike conditions. We expect to have professional help, beginning the first of next week, and within a short time to have our plant fully manned and operating as usual.

Wethank our many customers and friends for their indulgence and consideration, and are confident that all will overlook our shortcomings and mistakes during this distressing period. It has been absolutely impossible for us to write up and set up the report of the regular meeting of the municipal council. We trust this will be equally as good reading next week. Much to our regret, we have been unable to get into type much copy from regular correspondents and casual contributors.

THE ORIENTAL IMMIGRATION PROBLEM

Recently Hon. S. F. Tolmie, Minister of Agriculture, declared that Canada, in British Columbia, had a similar Oriental immigration problem to that of the United States, in California, and that there was need for taking steps that would assure the control of this immigration by the Canadian people so that there would not be admitted into Canada elements which could not be assimilated. As Canadian citizens, Orientals were not desirable, Dr. Tolmie emphatically told Eastern Canadians. They did not assimilate with the Anglo-Saxon; did not, in general, as settlers, come up to the Canadians' standard of living, and almost every cent of profit they made in industry was sent out of the country.

These aspects of the Oriental problem are discussed by Dr. S. S. Osterhout, Superintendent of Oriental missions for the Methodist Church, in the current number of the British Columbia Monthly. He would insist that Chinese settlers in Canada should observe the ordinary laws of sanitation and hygiene, adopting methods of life compatible with Canadian ideals and customs. To this end he advocates a vigorous and persistent law enforcement, not spasms of inconsequential fines, and an adequate constructive social program, in this connection emphasizing the value of not more missions but outstanding social centres.

These and other suggestions that have been put forward from time to time to raise the standard of living and conduct of the Oriental settler in Canada, says the British Columbian, mean additional grants from the provincial treasury. There is a difficulty here, continues that journal, with general educa-

tional requirements so much in need of increase in money grants. It has been suggested that the Dominion could very properly vote a special appropriation for citizenship work among Hindus, Chinese and Japanese. Since 1904, when the Chinese head tax of \$500 was imposed, there has been taken in by the Dominion \$8,540,046, and some proportion of this, it is claimed, should go to special educational work among the Orientals. If this were done, there could be no objection to the continuance of the head tax. It would not be an insult to the New Republic or to Japan even, as an educational or citizenship tax.

NOTICE

IN THE MATTER of the Companies Act and amending Acts and The Summerland Supply Company, Limited.

NOTICE is hereby given that at an Extraordinary General meeting of the members of the above Company, duly convened, held at the office of the said Company at Summerland, B. C., on May 5th, 1921, extraordinary resolutions were passed that said Company cannot, by reason of its liabilities, continue its business, and that said Company be wound up voluntarily and W. C. Kelley, Solicitor, of Summerland, B. C. was appointed Liquidator.

A meeting of the creditors of said Company will be held in Empire Hall, Summerland, B. C., at 2 o'clock p. m. on the 21st. day of May, 1921, to receive statement of affairs and for the general ordering of the liquidation.

Said creditors are required, on or before said 21st. day of May, to send their names and addresses and the particulars of their debts or claims to W. C. Kelley, Solicitor, of Summerland, B. C., the liquidator of said Company, and, if so required, by notice in writing from the said liquidator, are to come in and prove their said debts or claims at such time and place as shall be specified in such notice, or in default thereof, they will be excluded from the benefit of any distribution made before such debts are proved.

Dated this 6th. day of May, 1921.
W. C. Kelley,
Liquidator for above named Company.

T. B. YOUNG

"Oh, I'm so glad my husband is a big fat man!" sighed Mrs. Uppa Gainstitt, soulfully.

"Horrors!" exclaimed the slim man's wife. "How can you!"

"I know, my dear," came back the other, "but just think, each leg of his old trousers will make an overcoat for one of the twins this winter."
—Richmond Times-Despatch.

CORPORATION OF THE DISTRICT OF PEACHLAND

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Municipality of Peachland that I require the presence of the said electors at the Municipal Office, Peachland, on Monday the 23rd. day of May, 1921, at twelve o'clock noon, for the purpose of electing a person to represent them on the Municipal School Board as a trustee.

The mode of nomination of candidates shall be as follows:-

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and two p. m. of the day of the nomination; and the said writing may be in the form numbered 5 in the Schedule of this (Municipal Elections) Act, and shall state name, residence and occupation or description of each person proposed, in such manner as sufficiently to identify such candidate, and in the event of a poll being necessary, such poll will be opened on the 28th. day of May, 1921, at the Municipal Office Peachland. Of which every person is hereby required to take notice and govern himself accordingly.

The qualification for School Trustee shall be any person being a British subject of the full age of twenty-one years actually residing within the Municipal School District, and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the Municipality of the assessed value, on the last Municipal or Provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge; or being a homesteader, lessee from the Crown or pre-emptor who has resided within the Municipality for the space of one year or more immediately preceding the day of nomination, and is assessed for five hundred dollars or more on the last Municipal or Provincial assessment roll over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the Municipality for a period of one year immediately preceding the nomination, and during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and is assessed for five hundred dollars or more on the last Municipal or Provincial assessment roll over and above any registered judgment or charge, and being otherwise qualified by the Public School Act to vote at an election of school trustees in the said School District.

Given under my hand at Peachland, this 12th. day of May, 1921.
W. M. DRYDEN,
Returning Officer.

CLEAN COOLING SYSTEM.

This is the time of year when it is well to remember the good old method of loosening scale that has formed in the cooling system. Six pounds of washing soda dissolved in five gallons of boiling water is the correct formula. Pour this solution in the cooling system and allow it to remain for a day, then drain and flush the system out with clean water and refill.

Hope is a key with which ambition is wound up.

WASHING RULES.

The car should never be washed in direct sunlight. If the operation is not carried out in the garage the vehicle should be in the shade while being washed. The direct rays of the sun striking on water causes heating, which tends to dull the finish. In the same way the hood should never be washed when it is hot, as directly after the run.

Some Business Enterprises Are in the 'Wetted Clay' Stage!

"No man ever wetted clay and then left it, expecting that there would be bricks by chance and fortune."
—Plutarch.

STORES do not prosper by chance and fortune, either. The good store, before it is adequately advertised, is in the wetted clay stage of brick-making. The materials are there—but the "making process" must be followed to its conclusion.

—For a successful store is a creation, whose status must be first reached and then maintained THROUGH ADVERTISING.

—As with a newspaper, the store must be constantly made anew. Every day brings a new task of service—an imperative summons to greater effort. Last week's value-giving may have made many new friends—these must be held through this week's value offerings, and these must be ADVERTISED, that the new friends and the old may BE POSTED.

—The good store, the good business enterprise of any sort, will never really 'arrive' until ADVERTISING has placed it in close touch with its public—has carried its message, has MADE KNOWN ITS APPEAL FOR PUBLIC FAVOR.

IMPORTANCE OF EARLY CULTIVATION IN THE ORCHARD

W. T. Macoun, Dominion Horticulturist.

If a cover crop has been left over the winter in an orchard it should not, as a rule, be allowed to grow in the spring until there is a good crop to plow under, especially in districts where droughts occur, but the land should be plowed as soon as it is dry enough to work, not waiting for the plants to grow up; thus much moisture which could otherwise be transpired by the leaves of the plants will be saved and the chance of suffering from drought lessened.

A good setting of fruit depends very much on an ample supply of moisture in the ground at blooming and setting time, and if there should be a drought after a heavy crop of clover or vetch has been plowed under late in the spring, conditions will not be at all favorable.

After the land has been plowed, it should be kept well harrowed during the early part of the season to conserve the moisture as it has been found that there is a rapid decrease of moisture unless the surface soil is kept loose. Early cultivation is desirable also because it is important to get the soil warmed up as soon as possible by letting the air in and so making conditions favorable for growth early in the season. The greater activity in growth there is in the early part of the season, the more likely is there to be a good set of fruit, especially on rather old trees where the flow of sap through the fruit spurs is not as free as in the younger trees, and if there are drying winds and a drought there may not be sufficient moisture to hold the fruit on the trees. An application of nitrogen on some soils has been found very useful in promoting greater activity of growth in the early season and so better ensuring a setting of fruit.

DON'T BE A LOBSTER.

(Thrift Magazine.) We frequently hear used in a slang way, "He is a regular lobster." Now there may be more truth than slang in the expression, because there are a lot of human lobsters in the world. A lobster when left high and dry among the rocks has not enough energy to work his way back to the sea, but waits for the tide to bring the sea to him. If it does not come he stays right where he is and dies, too lazy to put forth any effort himself. Many men are stranded on the rocks of business. Instead of putting forth their own energies they are waiting for some grand friendly billow of good fortune to set them afloat.

POINTED PARAGRAPHS.

Ice is one of the few things that are really what they're cracked up to be.

A TIME FOR MODERATION.

"I believe in free speech!" exclaimed the vociferous man. "So do I," exclaimed Uncle Bill Bettletop; "so do I. But in one respect free speech reminds me of the free lunch in the old days. You hate to see a man making a pig of himself just because something's free."—Washington Star.

CLEARLY ABSURD.

A Frenchman learning English said to his tutor: "English is a queer language. What does this sentence mean: 'Should Mr. Noble, who sits for this constituency, consent to stand again and run, he will in all probability have a walkover?'"

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land. Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims. Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 6 acres before receiving Crown Grant. Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim. Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvement of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required. Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land. Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions. For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stampage. Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made. PRE-EMPTORS' FREE GRANTS

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the late war. This privilege is also made retroactive. No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are assessed, as formerly, on return of moneys secured, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, required direct or indirect, remitted from enlistment to March 31, 1920. SUB-PURCHASERS OF CROWN LANDS Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920. GRAZING Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Speaker's Chair for Canada

The Speaker's Chair which is being presented to the Canadian House of Commons by the Empire Parliamentary Association (United Kingdom branch) to take the place of that destroyed by the fire at the Parliament Buildings, Ottawa, in February, 1916, is now completed, and it is expected that the presentation will be made by the Right Hon. J. W. Lowther, speaker of the Imperial House of Commons, during the summer.

The gift has been tendered by the donors as "an abiding token of good will between both Parliaments," and has been gratefully accepted as such by the Canadian House of Commons. The chair is an exact copy of the Speaker's Chair in the House of Commons (designed by Pugin, who was Barry's assistant in the building of the New Palace of Westminster), which has been used since the occupation of the present chamber by the Commons in 1852. Like the original, the replica is a beautiful example of carved oak. It stands 13ft. 6in., surmounted by a canopy bearing the Royal Arms, which are carved in a piece of oak taken from the roof of Westminster Hall. The seat of the chair is upholstered in green leather. The right jamb of the chair is inscribed:—"Manus Justa naratur; memor et fidelis mens conscia recti"; and on the left jamb is inscribed:—"Vox prece nec pretio; libertas in legibus; hostis honori invidia; laus Deo."

(By Courtesy of the C.P.R.) to the Crown—there were two old and bulky armchairs standing guard, one at each side of the fireplace; they were chiefly remarkable for their lumbering size and gaunt, inconvenient form, and visitors, always curious as to their history, were told they were the chairs of the House of Commons in which Addington had sat as Speaker. He originally possessed three of these chairs. He presided over the House of Commons in three consecutive Parliaments, and had the distinction of being the first Speaker of the Commons of the United Kingdom on their assembly on January 22, 1801, after the Union with Ireland. One of the chairs disappeared, Dean Palgrave was never solved. The chair of the first Speaker of the first reformed House of Commons is in the Parliament House of the Commonwealth of Australia at Melbourne. It is the chair that was provided for the temporary chamber in which the House of Commons sat after the fire of 1834, and was taken away as his perquisite by Charles Manners-Sutton when he completed, late in 1834, his long term of office as Speaker. Manners-Sutton's son took the chair out to Melbourne when he was appointed Governor of Victoria, and presented it to the Legislative Assembly, whose successive Speakers sat in it for many years. In course of time another chair was substituted for it, and at the inauguration of the Commonwealth in 1901 it was placed with a brass plate recording its history—in the House of Representatives for the use of the Speaker.

What's a Guarantee?

Our idea of a guarantee is that the manufacturer who gives one—which hasn't any tags and loopholes—believes in his product. So much so that he stands ready to make good any loss suffered by the purchaser through defective material or workmanship. It's mainly because of the guarantee that goes with them that we are selling and recommending Ames Holden "Auto-Shoes."

PIONEERS OF CLOVERDALE

The strongest of lures, the lure of the land, led one of the prominent business men of Winnipeg, Mr. Thomas Bulman, of the firm of Bulman Brothers, to forsake city life, about twelve years ago and take up residence in the Okanagan Valley. His ranch, "Cloverdale," has become one of the most interesting spots in the valley, comprising 3,000 acres of bench and bottom lands, presenting a fine idea of operations on a large scale in a fruit-raising country, with everywhere evidence of initiative. It is situated in the Elliston district, sloping from the hills to the famous old Mission road that leads from Kelowna to Vernon. There are about 300 acres of orchard and thirty thousand fruit trees have been planted. Mixed farming is carried on, including stock raising, grain-growing, gardening, small fruit culture, orchard growing, chiefly cherries and apples and hay meadows.

There are ten miles of road built through "Cloverdale," sixty miles of fencing and the distributing system of irrigation water consists of about twelve miles of pipes and flumes. This system has recently been rebuilt in a permanent manner with vitrified clay pipe and cement diaphragm boxes. A trip to the head of the irrigation system was of particular interest when a fine view of the large tract was obtained. In the bright sunlight a lovely valley was unfolded — bright green meadows, dark green fields, orchard slopes, and pine clad hills.

During the war an evaporating plant was operated at "Cloverdale," and has become a permanent industry there. Carrots and onions were evaporated and sent as army supplies to the front while apples and the manufacture of tomato pulp are other industries that have been inaugurated. The yields from the valuable bottom lands average from 12 to 18 tons per acre, in onions and the yield of tomatoes is from 15 to

(1) View of a Cloverdale orchard, in the Okanagan Valley.
(2) Fruit pickers at Cloverdale.
(3) Horses on the Cloverdale Farm.

20 tons per acre, the canneries making contract with the growers for their output. The original owner of "Cloverdale" was Mr. George Whelan who now resides on a 200 acre tract nearby, and a visit to this fine British Columbia pioneer who, at 76 years of age, is enjoying life by reading, keeping abreast of the times and rich in experience, makes one realize that elderly men are one of the nation's greatest assets. Mr. Whelan arrived from England at the

Effect of Freight Rates on Business Exaggerated

Indications are multiplying that efforts of shippers and producers in many parts of the country to blame the unsatisfactory state of their businesses upon present freight rates are not going to pass unchallenged. The United States railroads are preparing to ask the Senate Committee on Interstate Commerce, when it takes up its inquiry into the railroad situation next month, to sift these statements to the bottom. Daniel Williams, president of the Baltimore & Ohio says:

"I have personally asked many large manufacturers and shippers of goods what effect it would have upon their shipments at the present time if freight charges were cancelled altogether, and if the railroads would move the tonnage offered free of charge. Invariably the answer has been that it would make practically no difference at all in the volume of business because people were not buying at the present time."

Chairman Clark has recently made public the results of his inquiry into the assertions of Florida fruit and vegetable shippers that freight rates are now so high that they cannot profitably ship their products to market. Mr. Clark found that shipments of Florida fruits and vegetables between November 1, 1920, and February 28, 1921, amounted to 28,420 carloads, while in the corresponding period of the year before, under the old rates, such shipments had been 26,836 carloads, an increase for the present season of 1,584 carloads.

The Railway Age asserts that on April 16 the average price paid producers for cabbage in Texas was \$7 a ton, the freight rate to Chicago was \$26.30, including refrigerating charges and Federal tax on freight charges, and total cost laid down in Chicago approximately 1,000 miles from the producing fields, was \$33.80 a ton. At the same time cabbage was selling at retail in Chicago at the rate of \$140 a ton. Texas onion growers received \$42 a ton, freight to Chicago was \$22.64 a ton, total cost of onions and freight \$71.64 a ton, retail selling price in Chicago \$200 a ton. For spinach Texas producers were receiving \$5 a ton, freight rate to Chicago was \$30.36 a ton, total of producer's price and freight \$35.36 a ton, retail selling price in Chicago \$300 a ton.

Modesty is always triumphant in the end. At the Coast they are fighting for beer, and they may not get it. Grand Forks asked for water, and she is getting water.

Nothing ruins a woman's complexion quicker than marrying a man to reform him.

A spinster says that getting married is almost as serious as remaining single.

It is usually the blunt man who says the sharpest things.

When you have got a thing down fine you have just begun to understand its elementary principles.

Marrying an heiress is almost as unsatisfactory as any other get-rich-quick scheme.

The self-made man at least relieves Providence of the responsibility.

After a salesman had sold a big order of goods to the Scotch buyer for a Chicago store, he sought to make the Scot a present of a box of cigars.

"I'm sorry I canna accept," the Scot said, "but there's a rule of the hoose that ye canna take presents from salesmen."

"Well," laughed the salesman, I'll

sell them to you for five cents then."

"That's different now," the canny buyer replied after taking a good sniff at the box. "I can buy my smokes anywhere I please. I'll take four boxes."

Half the things people say are re-

gretted later.

OLDSMOBILE FOUR

The Car that is taking America by storm.

EVREY INCH AN ARISTOCRAT

The Highest Powered, Most Reasonable Priced, Snappiest Appearing,
Four Cylinder Car in the Market To-Day.

Mr. T. B. Young,
West Summerland.

Dear Mr. Young,

In reply to your letter enquiring as to whether I am satisfied with the Oldsmobile car you sold me recently, and my opinion of it, I can assure you that I am delighted with it. For power, for riding ease, for room and general comfort, as well as in detailed attention to finish, this car in my opinion equals, if it does not excel any car in its class of which I have experience, and is certainly ahead of some cars of decidedly higher cost.

At the present time I have only run some eight hundred miles, but the engine is satisfactorily "run in," and I have no doubt from its general behaviour that the car will stand up.

If this expression of my opinion is of any use to you, it is quite without prejudice, and you are welcome to use it in any way you please.

Yours truly,

Summerland, April 13, 1921.

G. R. HOOKHAM.

SKILLFUL WORKMEN

If your suit or coat is designed, cut to your own measure and made by workmen who are skilled in their craft, you will not suffer disappointment when you come to wear it.

But how disappointing it is to have clothes sent home to you wanting in those fine touches that tell of work done by those who are skilled in the ways of making fine apparel.

Complete safety is yours if your clothes are tailored by Hobberlin workmen. Only skilled workmen find employment here—from the chief designer—the highest paid craftsman in Canada—down through each and every grade of workmen. Every garment made to measure.

DOWNTON & WHITE TELEPHONE 35

Passing Events: Social, Personal, &c.

Mrs. F. A. C. Wright reached home last Friday evening from a visit to England.

R. Pollock returned a few days ago from a short business visit to the Coast.

The forty Summerland Boy Scouts have been working hard for two months to put on a good concert at the gym. next Thursday night. Be sure to come and see it.

Principal D. J. Welsh and family this week moved from the Gartrell house, near the Methodist parsonage, to the Wellington Watson cottage, corner Shaughnessy and Ninth.

Mr. and Mrs. T. G. Beauvis left for the Coast on Thursday morning on a two weeks vacation, before the busy season sets in at his offices at the Fruit Union. It is expected that his new office suite will be ready for occupation by the time he returns.

The Playlet that the Scouts will put on next Thursday is called "The Psychic Story of the Peupernatural." There will be an extensive athletic program and music.

K. S. Hogg returned a few days ago from Vancouver where he has been visiting his father, Rev. John Hogg, D. D. Mr. Hogg, sr. and his daughter, Miss Hogg, spent the winter with the Rev. A. P. and Mrs. Ledingham, of Vancouver, Mrs. Ledingham being another daughter of his. The reverend gentleman, who is over ninety years of age, accompanied by Miss Hogg, left for his home in Winnipeg, where they will remain for the summer.

Watch for Empire Day sports program next week.

Mr. and Mrs. Fowler, with their son, arrived in Summerland on Saturday's boat to visit their daughter, Mrs. H. S. Lewes. Mr. Fowler has held the position of postmaster in his home town, in Scotland, and is now superannuated by the Government for his long and faithful services in that capacity.

Watch for Empire Day sports program next week.

Although not definitely arranged, we understand that Wm. Ritchie is contemplating a short combined business and pleasure trip to Calgary when it is probable that Mrs. Ritchie will go as far as Banff, for a vacation.

E. H. Plant left this week for Banff, where he expects to spend a month or six weeks taking the cure for rheumatism, with, it is hoped, the best possible results.

Mr. and Mrs. S. A. McDonald have moved into their recently acquired cottage on Hospital Hill.

Major Hutton's property at the upper end of Prairie Valley has been sold by G. H. Inglis & Co. to a Mr. Tait, of Enderby.

Watch for Empire Day sports program next week.

Rev. James Dunlop will go to Peachland on Sunday next to conduct the regular service in the Baptist church.

Plan to spend May 24th. at Crescent Beach. It's going to be a big day. Look for program next week.

Mr. and Mrs. J. L. Crego took the boat on Wednesday evening for Penticton where they are going to reside for the present, Mr. Crego having sold his business here to Scott Darkis.

Watch for Empire Day sports program next week.

An interesting event occurred on Tuesday when a party of ladies met at the residence of Mr. W. J. Robinson, in response to an invitation by Mrs. M. M. Robinson to a quilting party in honor of her two granddaughters, the Misses Gwen and Marguerite Robinson, of Naramata., prospective brides elect. A very busy afternoon was spent, two beautiful quilts, made by Mrs. Robinson, Sr., being finished, after which refreshments were served by Mrs. W. J. Robinson.

Plan to spend May 24th. at Crescent Beach. It's going to be a big day. Look for program next week.

Raked the meadows, sweet with hay,
You think this poem is a fraud?
But, this was an Australian Maud.
She measured out the butter with a very solemn air;
The milk and sugar also; and she took the greatest care
To count the eggs correctly and to add a little bit
Of baking powder, which you know, beginners oft omit.
Then she stirred it all together, and Maud Muller on a Christmas Day she baked it for an hour;
But he never quite forgave her for

leaving out the flour. —Tit-Bits.

YOU'D NEVER KNOW IT.

Golfer (apologetically to caddie): Missed again! Shows I'm out of practice eh?
Caddie: Oh, you've played before then?
When a woman tries to capture a wealthy husband she evidently believes that his means will justify her ends.

? WHY ? THE RED CROSS In times of Peace?

Despite the world-wide activities of the Red Cross since the close of the war, and the incalculable amount of good which it has accomplished in the intervening period, there are still many persons, uninformed, who somewhat wonderingly ask, "Why the Red Cross in times of peace?"

The mission of the Red Cross, as it is evidenced throughout the world today, is a twofold one: Post-war work and peacetime work. Briefly summarized, their activities, as applied to the British Columbia Division, are as follows:

Post War Work

1. To continue and complete war work amongst soldiers still in hospital.
2. To maintain the existing workshop for disabled soldiers, and to increase the number of these workshops.

Peace Time Work

1. To train and maintain Red Cross public health nurses for service in the rural districts, as well as in the sparsely settled pioneer sections of British Columbia.
2. To provide emergency service and outfits throughout the Province for dispatch to and service at the scene of accident or disaster.
3. To relieve sickness among the needy everywhere and anywhere in British Columbia.
4. To promote Red Cross principles and practice amongst the youth of British Columbia—to enlist their sympathies and help, and to enroll them in the Junior Red Cross.

WANTED - \$1.00

from every man and woman in British Columbia as enrollment fee in the British Columbia Division of the Canadian Red Cross Society.

Junior Membership \$0.25

Motor Car Should Be Inspected Fully

Some of the Points Which Need To Be Looked After at this Season—Be Ready For Summer.

- A car that has been in storage with parts properly protected will need perhaps no more than attention to lubrication, the battery, tires, and a good cleaning, but the car that has been operated through the winter will in the majority of cases need a light overhaul. This work will cover a variety of operations, but usually the following work will be included:
1. Take up on main and connecting rod bearings.
 2. Remove carbon and grind valves.
 3. Clean gasoline tank, line, and vacuum tank.
 4. Clean and adjust ignition, inspect wiring.
 5. Inspect generator and starting motor and wiring.
 6. Clean cooling system, supply new connections and belt if necessary.
 7. Tune and test motor.
 8. Clean and adjust clutch.
 9. Adjust all brakes.
 10. Remove wheels, inspect, adjust and
 11. Inspect steering, remove excess play from post and knuckles.
 12. Tighten body bolts, fenders, remove rattles.
 13. Tighten spring shackles.
 14. Inspect driving pinion shaft and propeller shaft for play.
 15. Change engine oil, transmission and rear axle oil.
 16. Lubricate chassis.
 17. Recharge battery.
- The top, if of imitation leather, will need a coat of linseed oil. It surely needs a cleaning on the inside with soap and water to remove spots. The upholstery may require repairing in spots and treatment with neat-foot oil if of leather. If imitation

leather a light rub with olive oil will do. The side curtains will undoubtedly need new windows and a few fasteners may need to be replaced. The front of the radiator may be brightened by spraying it with a mixture of kerosene and lampblack; nicked parts will need brightening, and black parts with chipped paint will need a light coat of enamel.

THE DIFFERENCE.

A pessimist closes an eye, wrinkles his face, draws up the corner of his mouth and says: "It can't be done." An optimist has a face full of sunshine. He beams on you and says: "It can be done," and then lets Joe do it.

But a pep-ti-mist takes off his coat, rolls up his sleeves, goes to it and does it.

Mr. Gabb had been out at an all night poker game and was trying to square himself when he got home at noon the next day. He had a package under his arm. "Wouldn't you like to know what is in this package?" asked Mr. Gabb.

"I'm not a bit interested," replied Mrs. Gabb.

"Well, I bought something for the one I love best in the world," announced Mr. Gabb with a grin.

"What did you buy yourself—col-lars or neckties?" snapped Mrs. Gabb.

At least the minister who rehearses his sermons certainly practices what he preaches.

The Summerland Review

Established August, 1908

Published at Summerland, B.C., every Friday by THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Wednesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

FRIDAY, MAY 13, 1921

STILL SHORT OF MEN

Still laboring under great disadvantages for lack of sufficient help, we feel far from satisfied with the volume of news contained in this issue, and the hurried way in which it had to be handled. By continued hard work and long hours, we are doing our utmost to satisfy the requirements of our customers. One experienced printer has been added to our staff this week, and we expect to have at least one more in the course of a few days.

OPENING NEW OFFICE SOON

The publishers of The Review have about completed arrangements for opening an office in the vicinity of the West Summerland post office. Further particulars will be announced immediately.

The date of "Made-in-B.C. Week" has been set to commence Monday, June 24th. During the six days if the plans of the Campaign Committee mature successfully, every retail merchant in British Columbia will feature the products of the Province. Boards of Trade will be asked to give preference to the goods that they themselves produce.

Crop prospects were never brighter in the Okanagan than this year. It is predicted that about 6,000 cars will be required to handle the harvest.

At Kamloops it is expected that the C.N.R. short line to Kelowna will be completed in time to handle the fruit crops this year.

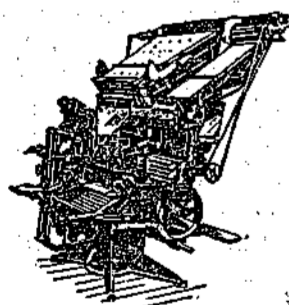

The Northwest Tourist Association will conduct one of the biggest publicity campaigns ever known in America, for the benefit of the Northwest, it was announced at the meeting of the directors recently.

The Kelowna Board of Trade has reported the fact that there are tons of onions in that district going to waste because the people of the coast have shown a preference for the imported product.

British Columbia must become an export province. It has the natural resources to make it a great product but how can its manufacturers and solidarity to enable them to compete abroad, if the consuming public at their doors do not buy their products?

A woman always considers herself charitable when she lets her husband have his own way.

Our No. 14

¶ The cut above represents the very latest in typesetting machines.
¶ This machine is as far ahead of the old style Linotype as the first Linotype was ahead of hand composition.
¶ And The Review is proud of being the first paper in the whole of the Okanagan to install this up-to-date machine.
¶ A go-ahead paper like that is worthy of your support.

R. E. White - Mgr.

Expansion of existing industries, establishment of new industries, and increased population, all hinge on the success of the "Made-in-B.C." movement. "Help Yourself" is one of the mottoes adopted by the Made-in-B.C. Campaign Committee, and in those two words has been summed up about all there is to the Made-in-B.C. idea. But the time, the more study, and the more support given the idea, the more there is to it for every person in

The United States may place a duty on Canadian lumber entering that country, according to a despatch from Victoria, just as Canada exacts a duty of 25 per cent on American lumber coming here.

Why He Wanted Strong Ones
"Gimme three cigars," ordered O'Rourke, shoving a quarter across the counter.
"Strong ones or mild?"
"Gimme the strong ones. The weak ones is always bustin' in me pocket."—The American Legion Weekly.

A new broom doesn't sweep cleaner than an old one with a new hired girl attached.

House painters and novelists are responsible for some highly colored stories.

You cannot please everybody, and nobody knows it better than a preacher in a small town.

A wise man never tries to please himself and a woman at the same time.

A. D. MacTier, Vice-President C. P. R.

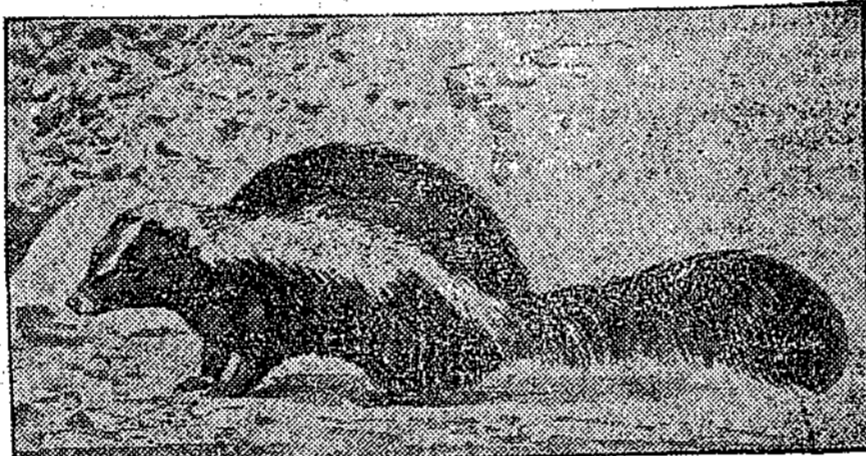

Doubtless the way of the transgressor is hard, but the people who travel thereon have no time to get lonesome.

All geniuses are more or less eccentric. Some have even been known to pay their debts.

If mirrors portrayed us as others see us we wouldn't use them.

Some things are worth waiting for, but it pays to go after others.

THE PROFITABLE SKUNK

The advantages of the artificial raising of the fox, beaver, and muskrat, specifically, have been often pointed out, and here it is proposed to devote a few words to that much abused animal, the skunk. The fact that the animal is to be found in practically every part of the American continent, and that the pelt has sold as high as ten dollars, is sufficient to attract the attention of fur farmers and induce a study into the feasibility and advantages of the industry.

Many years ago Ernest Thompson Seton, the well known nature writer and naturalist to the Manitoba Government, advocated a more extensive artificial propagation of the skunk, and himself operated a most successful ranch of this kind. Because largely of a prejudice against the little animal and its method of defense, skunk farming has never been firmly established in Canada as an industry although the advantages and possibilities are obviously so great. Success on other parts of the American continent and elsewhere have demonstrated the feasibility of establishing the industry firmly and profitably in the Dominion.

The skunk is widely found over the Canadian Dominion in every corner and nook where it can find food suited to its needs, and notwithstanding the fact that it is persistently hunted, trapped and worried by dogs, it continues to thrive and multiply in close proximity to settlements. The animal is neither

timid nor vicious and is practically omnivorous, devouring large quantities of insects including grasshoppers, crickets, beetles and caterpillars. In captivity, its feeding is very economical, the diet consisting of meat, fish, cooked cereals, vegetables and milk. The food problem is most easily solved where the ranch is established within reach of a hotel. The contents of the daily garbage can well feed a considerable number.

The skunk multiplies rapidly with litters of from six to twelve, the period of gestation being eight weeks. Descending may be performed when the animals are five weeks old and all possibility of future nuisance may be eliminated, but in domestic raising this is not really necessary contrary to general belief,

as the animals become remarkably tame and friendly with those handling them and never bring into play the powerful weapon nature has given them except when badly frightened by some intruder.

Skunk ranching could be successfully carried on in practically every section of Canada for the animal is indigenous to every part and would find his natural conditions wherever a farm was located. In wire enclosed pens of suitable land the animals will make their own burrows and dens and need little attention beyond feeding. The demand for pelts is steady and general, and the high prices prevailing during the past few years make skunk ranches very profitable concerns and augur a successful future for any development along these lines.

THE RED CROSS Still Carries On IN British Columbia

THE POST WAR WORK OF THE RED CROSS throughout the world is still a vital factor—a colossal task. This call for increased membership is one to which no person in British Columbia, placed in possession of even a few facts, will fail to respond.

Returned Men Still In Hospitals In the hospitals and sanitariums of British Columbia there are still over 800 returned men seeking to regain health. True, these men have all the attention which crowded hospitals and over-worked nurses and attendants can bestow, but they are lacking these little things of comfort—these small, simple luxuries which mean so little to you who are strong and healthy; so much to them who are ill and suffering. The Red Cross supplies them with tobacco/socks,

pajamas, underwear, sweaters, slippers, razors, shaving soap, and so on. Their wants are few and simple—their needs are great.

Workshops For Disabled Soldiers In a memorandum drafted by the workshop sub-committee of the Victoria Branch of the Red Cross for submission to the Federal Government, Clause 1 states: "That even after all that has been done by the Government of Canada, through its various departments, for the welfare of returned men, there remains in this country a residue of disabled men who are unemployable in ordinary industry, a residue for which no provision exists, namely, those who possess some potential capacity, but can only exercise it if some special arrangements are made to enable them to do so."

WANTED - \$1.00 from every man and woman in British Columbia as enrollment fee in the B. C. Division of the Canadian Red Cross Society.

Junior Membership \$0.25

Some Business Enterprises Are in the 'Wetted Clay' Stage!

"No man ever wetted clay and then left it, expecting that there would be bricks by chance and fortune."
—Plutarch.

STORES do not prosper by chance and fortune, either. The good store, before it is adequately advertised, is in the wetted clay stage of brick-making. The materials are there—but the "making process" must be followed to its conclusion.

—For a successful store is a creation, whose status must be first reached and then maintained
THROUGH ADVERTISING.

—As with a newspaper, the store must be constantly made anew. Every day brings a new task of service—an imperative summons to greater effort. Last week's value-giving may have made many new friends—these must be held through this week's value offerings, and these must be ADVERTISED, that the new friends and the old may BE POSTED.

—The good store, the good business enterprise of any sort, will never really 'arrive' until ADVERTISING has placed it in close touch with its public—has carried its message, has MADE KNOWN ITS APPEAL FOR PUBLIC FAVOR.

The Review Summerland, B.C.

TELEPHONE 39 AND HAVE US LAY A PROPOSITION BEFORE YOU

Correspondence

Summerland, B.C., May 10th.
Editor Summerland Review,
Dear Sir:

In reply to Fruit Grower in your last issue.

We feel sure that Fruit Grower must be one of our newer citizens, and we should have given our newcomers a more personal invitation to attend our meetings, for, with the full knowledge of our hopes for this year, we feel confident that the letter would not have been written. To take up the points mentioned in the letter.

1. The grower who picks and packs super apples is the man to follow, for in the past the men who were making the most of their orchards were the chief prize winners, so, get in this class from this year's show. We hope to pick the super superlative of the exhibits to compete at the Toronto show which it is hoped will be held this winter.

2. The date of the Summerland show will probably be first week in November and fruit will be harvested by that time and our exhibitors will have some leisure to go over those choice boxes that they put aside during the big rush to make the show a success and we hope bring back honors from the bigger show.

3. This point is very debatable, but would point out that our shows set a high standard and that standard can only be compared and kept high by our growers knowing how high his neighbor's is, and A always getting first for his Newtons where shown, B, C and D go to investigate how he does it (that's progress.)

4. "A few individuals" is quite out of place in the show of 1921. With the machine running smoothly the sparg plugs clean and gasoline going down in price, it's one and all for the Fall Fair.

We quite agree with the Flower Show and we have had very successful Flower Shows—very few flowers, but wonderful exhibitions of women's work, but the cherries rather interfered and the apricots came on altogether that year and apples needed going over. Also, the flower garden is mostly attended by the women and in this year's prize list it has been suggested to add seeds to the list, flower seeds being especially mentioned for we do need brighter surroundings to our homes.

Now, Fruit Grower, come in line and join the Fair Boosters and pull for Summerland.

Yours very truly,
The Directors of the Agricultural Association of Summerland, B. C.

Summerland, B. C., May 11.
Editor Summerland Review.

Dear Sir:
With reference to the suggestion contained in a recent letter to the Review as to the beautifying of Summerland, may a comparative newcomer put in a word?

Would it not be possible for the municipality to institute a regular garbage collection by truck, paying for this operation with funds derived from a small levy of \$1.00 or \$1.50 per householder per annum. Each house would place all its old bottles and tin cans which at present seem to be used as a substitute for, or adjunct to, manure, in a receptacle kept for that purpose. These could be collected regularly, say once or twice monthly, taken into deep water on the lake and dumped. I can see nothing impracticable in this suggestion and it would most effectively overcome in a perfectly sanitary manner what at present constitutes one of the chief eyesores of the place, not only to residents, but (which to some people is of greater importance!) to newcomers and casual visitors.

Thanking you, sir, in anticipation of your courtesy, I am
Yours truly,
Londinium.

Vancouver, May 9, 1921.

To the Editor of the "Review,"
Summerland, B.C.

Sir:
It has been stated to me that there has been circulated in some parts of Province a petition of protest to the Government against the alleged action of the Lord's Day Alliance of Canada in seeking for legislation to prohibit the sport of fishing on Sunday.

Anyone who understands the work of the Alliance knows that it is not its policy to interfere with the use of Sunday either for sport or recreation, its active efforts being confined to guarding Sunday as a free day—free from the usual commercial and industrial employments of the other days of the week, and free to use as a man's conscience directs. The Alliance has not and does not propose to initiate legislation in the matter of Sunday fishing.

With relation to Sunday shooting it is well known that the Alliance discussed with the Government of British Columbia the matter of granting to municipalities the power to deal with, and if need be to prohibit, the discharging of fire arms on Sunday where it has become a nuisance.

ance, as in the more populous rural parts of the province, and we have been informed by the government that this has been done.

The Alliance does not propose any further action upon this matter so far as the Government is concerned, but is calling the attention of municipalities, and especially those from which complaint has come of disturbance of Sunday quiet in this manner, to the provision made by the Government by which they can deal with the matter.

CHAS. H. HUESTIS,
Secretary.

Strawberry pickers of the state of Washington will this year use a mobile picking seat invented by a British Columbia man. The device not only adds to the comfort of the picker, but protects the plants and permits of greater efficiency. These seats will be manufactured in British Columbia.

The manufacture of trunks and suit cases has been added to the list of industries in British Columbia.

HIS FINGERS CROSSED.

(London Mail).

Judge: Be careful, sir, or I'll commit you for contempt of court.

Witness: I've not expressed contempt for the court, my lord. On the contrary, I've carefully concealed my feelings!

NEW OLDSMOBILE 4

The Car that is taking America by storm.

This is a super car for the price. Don't believe us—ask an owner. There are already a number of them. Here is one owner's opinion:

Mr. T. B. Young,
West Summerland.

Dear Mr. Young,

In reply to your letter enquiring as to whether I am satisfied with the Oldsmobile car you sold me recently, and my opinion of it, I can assure you that I am delighted with it. For power, for riding ease, for room and general comfort, as well as in detailed attention to finish, this car in my opinion equals, if it does not excel any car in its class of which I have experience, and is certainly ahead of some cars of decidedly higher cost.

At the present time I have only run some eight hundred miles, but the engine is satisfactorily "run in," and I have no doubt from its general behaviour that the car will stand up.

If this expression of my opinion is of any use to you, it is quite without prejudice, and you are welcome to use it in any way you please.

Yours truly,

Summerland, April 13, 1921.

Passing Events: Social, Personal, &c.

T. P. Thornber is spending his vacation at the coast.

Additional floor space has recently been made at the Groceteria.

Mrs. W. H. Hayes and Miss Hayes are leaving this week end for a visit to Ottawa.

A daughter was born to Mr. and Mrs. R. E. White on Thursday morning at the Summerland hospital.

Mr. and Mrs. E. N. Rowley and child started this week on their motor trip across the continent, enroute for England.

An Oriental who has been a patient at the hospital for many months and commonly referred to as "Charlie the Jap," died early this week.

While examining a horse's mouth a few days ago, Dr. R. C. Lipsett had the misfortune to get the thumb nail of his left hand bitten off by the animal, and his first finger slightly hurt.

Rev. H. E. Livingstone went down to the coast last week end to attend the annual Methodist conference, the Sunday evening service being conducted by the Rev. O. E. Mann.

J. Cunliffe of Victoria has bought the Lister property in Prairie Valley through G. H. Inglis & Co. Mr. Cunliffe has been a guest at Hotel Summerland for a time. While cranking a car a few days ago, he had the misfortune to break his wrist. We understand that Mr. Cunliffe's family will arrive here shortly.

Mr. Fraser Lister is spending his vacation here after a strenuous session at Victoria College. He has been taking second year work and the results of the examinations, announced this week, place him fourth in his year, distinction passes having been secured in two subjects. Fraser likes Victoria all right but is glad to be back again among his Summerland chums and hopes to find employment here until the fall, when he intends returning to the Coast to resume his studies at the B. C. University.

The job printing trade in British Columbia supports thousands of persons, and represents an investment of \$1,000,000.

Miss Dancer has returned after an absence of several months.

Charlie Collett was a visitor at the home of Mr. and Mrs. W. E. Rines over the week end.

Mr. B. Gilmour of the Bank of Montreal staff has been transferred to Victoria and left today for the capital city.

The Review is authorized to announce that the Bank of Montreal will give a full banking hour service at their Naramata Branch on and after Monday, May 23rd.

Mr. and Mrs. Tate, recently of Enderby, who bought the D. Clark lot in Prairie Valley, the property of Major Hutton, have arrived here to reside on their new property.

Mr. D. L. Sutton left on Tuesday's train for Endiang, Alta., after a two months visit with Mr. and Mrs. Pennant, and expects to return in the fall to make his home here.

We are advised by the C. P. R. that on account of a celebration of the Society of Elks at Kelowna on the 24th of May arrangements are being made for the "Sicamous" to leave Pentiction at 7.30 a. m. instead of 5.30 and on the return, trip from Okanagan Landing to lay over until 8 p. m. at Kelowna to take excursionists back to Pentiction. There will be no excursion rates, the regular round trip fare being charged.

Found—A small parcel of belt canvas. Owner may obtain same at Review office.

Teacher: Johnnie, what is a cube? Johnnie: A cube is a solid, surrounded by six equal squares. Teacher: Right! Willie, what is a cone? Willie: A cone? Why—a cone is—er—a funnel stuffed with ice-cream.

Girls who are always harping on the rights of women usually get left in the matrimonial shuffle.

According to a report from the marriage license bureau most of the Boston women who marry to-day are between 27 and 33 years of age. Most of the bridegrooms are between 30 and 40.

Some men find it easier to acquire a reputation than to earn a living.

Geo. Ross of the C.P.R. is a visitor at his home here this week.

D. Lorne Sutherland has arrived from Winnipeg and will take up residence on his orchard property.

Report has reached here of the marriage in Vancouver of Miss James, recently of the hospital nursing staff.

Mrs. Pearson of Medicine Hat, who has recently returned from California, is spending the summer with her sister, Mrs. Morrison.

Mrs. R. Roe of Portage la Prairie is returning home on Tuesday on the Trans-Canada, after a pleasant winter in the Okanagan with her daughter, Mrs. Morrison.

Major S. Bird D.S.O., M.C., architect of the storage building, and Mr. Alec Robertson of the contracting firm, came in from Vancouver on Tuesday morning.

For International Trade

CANADA'S imports in the fiscal year of 1919-20 amounted to \$1,064,516,169 and its exports to \$1,286,658,709, a total trade of \$2,351,174,878. In financing the many transactions that go to make up such a volume of business, banking experience and resources are of paramount importance.

The Bank of Montreal has been assisting the merchants of Canada in import and export trade for over 100 years. It has built up an international banking organization that offers exceptional facilities to those doing business with outside countries.

The Manager of any Branch of this Bank will be glad to have you discuss banking facilities with him or you may consult on any problem connected with international trade direct with the Foreign Department at the Head Office, in Montreal, where complete statistical and other information is kept on file.

Canadian firms engaged in Foreign Trade who contemplate sending representatives to Great Britain, France, South Africa, India, Australasia, China, Japan, or the West Indies, will find it to their advantage to communicate with the Foreign Department at the Head Office in Montreal.

LOST—Between Summerland and Penticton, on Saturday, May 14th, one pair motor cycle chains. Kindly leave with John Tait, District Field Inspector. Reward. 42p	

Efforts are now being made to establish a factory in British Columbia for the manufacture of fur garments on a large scale. It is possible, if the plans under way are carried to maturity, that this province may in time become the fur center of the continent.

The city of Vancouver lost approximately \$1,000,000 in revenue last year through the citizens buying goods imported from the United States.

The fruit season is starting, British Columbia fruits, which are equal in quality to similar varieties grown in any part of the world, are two or three weeks behind those of California. By waiting for the local products B. C. consumers can give assistance to the B. C. farmer, and no exchange is paid on the money spent with him.

The local press is the show window of a community. The progressiveness of its citizens is judged by the manner in which they support their home paper.

Advertising seems to be an art yet to be discovered by some people—at least the practical part of it. A constant stream of water from one or more fire engines will soon extinguish or get under control a very large fire, while a few buckets of water dashed here and there have little or no effect. The modern fire department is practical and has outgrown the bucket system. So it is with modern advertising—plenty of it, used in a practical common sense and judicious manner, pays.

POST WAR WORK OF RED CROSS IN B. COLUMBIA

The magnitude of the post war work, which the British Columbia Division of the Canadian Red Cross is still engaged in is unknown to, and naturally unappreciated by a very large portion of the people in British Columbia. Hence the question which so often arises—"Why the Red Cross in times of peace"? As a matter of fact, there are over 300 returned men still confined in the hospitals and sanitariums of this province. In these institutions the men have the same status as any ordinary patient, but they are lacking the small comforts which mean so much to sick or ailing persons. In this situation, the Red Cross steps in, giving to these men, the little things which make life bearable. This work on the part of the Red Cross is going on, and will go on until its mission in this particular branch is fulfilled.

Next in order in importance in the post war work which the Red Cross is now conducting, is the work shop for disabled soldiers. There is now established in the city of Victoria, in the former G.W.V.A. headquarters one of these work shops. As yet, in its initial stage, this work shop is on a comparatively small scale, but it is now furnishing employment to twelve disabled men, who, from the nature of their disabilities, are unable to undertake work in the open labor market. It is the idea behind this work shop to teach these men a trade which will make them self supporting, and while teaching them, to pay them wages which at present are based on a minimum of 40 cents per hour, increasing as they acquire a know-

ledge of the particular craft for which they are fitted. It is modeled somewhat along the lines of the Lord Roberts Memorial Workshops in England, where marvellous results have been obtained by the training of apparently hopelessly crippled men. The work shop itself has bright, airy rooms, fitted with workman-like machinery, specially designed to meet the needs of crippled mechanics. It has a spacious show room and office, and by no means least in importance—a rest room, which tells its sad tale of men impaired in health by the vicissitudes of war. Some of the men now employed are capable of but a few hours' work a day, but as they improve in health and skill, six, or even eight hours work can be undertaken. This work shop is the second of its kind in Canada, and it is hoped to extend its quarters, and in time establish work shops of a similar nature at different points throughout the province.

Should you desire business, it is business to go after it in a business-like manner. That is why the leading merchants of Summerland use the columns of The Summerland Review. Besides, they know this paper reaches 95 per cent. of the reading public.

Naramata News

Current Events of Town and District

Mr. W. H. Irwin who has been spending some time in Vancouver at the Provincial Sunday School Convention, returned last week to his home in Naramata.

Mrs. James Sibbald of Marpole arrived in Naramata last week to spend some time with Mrs. Wm. A. McConkey. She will later visit other points in the valley before returning to the coast.

"Go to Sunday School Day" is to be observed on Sunday, May 29th, in the Naramata church by the holding of a special service at 3 p.m. It is hoped that Mr. Miller of Pentiction, will be present to give the principal address.

Miss Marjorie Matheson who has been spending some time in Kelowna with her brother, visited in Naramata this week with Mrs. Fred Manchester.

Mr. and Mrs. Albert Routh and their family moved on Monday to the new building which they have had erected on their fruit lot.

Mrs. Baker of Vancouver is here for a visit of some weeks duration with her son, Mr. Lincoln Baker,

principal of the Naramata school.

Mrs. Hornswill and children arrived in Naramata Tuesday morning, coming to Pentiction by the K.V.R. from Vancouver and motoring up. They are taking up their residence with Mr. Hornswill at the Ranch Cottage.

Mrs. Hancock entertained on Saturday afternoon at a tennis when many friends had the opportunity of playing on their new court which has recently been laid out and completed. The court is a specially delightful one for play, being pleasantly shaded by pine trees, and comfortable rustic seats placed in the shade.

Mrs. Noyes left on Tuesday morning's boat for Kelowna on a visit to her daughter, Mrs. Hunt. Miss Hall of Victoria, and Mrs. E. Noyes of Pentiction, were guests of Mrs. J. O. Noyes in Sunday.

Killing Surplus Buffaloes

The increase in the number of buffaloes in Buffalo Park, Wainwright, Alta., has reached such proportions that it is proposed to slaughter 1,000 of the animals this year. It is expected that a considerable sum will be realized from the sale of meat, hides and heads.

TREE PRODUCES STONELESS PLUMS

A stoneless plum is not very common but Mr. M. Morrison has one growing on his property at Dennison near Mission in the Fraser Valley. Some years ago a traveller called on Mr. Morrison and asked him to buy a young tree. He said that the tree was a stoneless plum and he was prepared to sell it if a guarantee was given that no cuttings or buds of the tree were sold for a space of five years. More to get rid of his visitor than with any belief in the truth of the tree being a stoneless variety, Mr. Morrison purchased it. The tree is now in bearing and the plums are absolutely stoneless. They have a kernel but no stone, and are a really good variety of plum.

VANCOUVER.—Fruit pulp from British Columbia to the United Kingdom is a new feature in shipments outboard from this port. On the SS. "Moerdijk," which left here recently, there were two tons of fruit pulp as a sample shipment.

LUMBER MILL AT CHUTE LAKE

Chute Lake, on the K.V.R. north east of Naramata, is a busy little place at the present time. A Vernon Syndicate under the name of the Okanagan Wood Products Co., has purchased extensive limits there and is already on the spot, clearing a site for the erection of a saw mill. The syndicate will install a complete box making plant in connection with the mill and anticipates a big share of the box trade of the valley.

Messrs. Carswell and Laidman, of Vernon, are prominent members of the new concern.

INVERMERE.—Fifty five hundred acres of land on the west side of Windermere Lake have been purchased by Capt. Hebert H. McCarthy, of New York, who will develop it into a thoroughly modern ranch. The K-2 ranch, as it will be known, will be the largest modern beef ranch in the Kootenay district.

MORTGAGE SALE

UNDER AND BY VIRTUE of the powers of sale contained in a certain Indenture of Mortgage dated the 15th day of June 1907, and made by Rev. James Saunders, which will be produced to the purchaser at the sale, the lands therein mentioned, that is to say, ALL AND SINGULAR those certain parcels or tracts of land and premises situate, lying and being in the town of Summerland, and being composed of Lots numbered Four (4), and Five (5), in Block numbered Fifty-six (56), in the Subdivision of Lot numbered Four hundred and Fifty-five (455), Group One (1), in the Osoyoos Division of Yale District, Province of British Columbia, according to a map or plan of the said Subdivision deposited in the Land Registry Office for the District of Yale in the said Province, and therein numbered one hundred and fifty-seven (157), will be sold by private treaty.

The Mortgagee is informed that there is upon the said lands a one and a half storey frame dwelling containing 9 rooms. Tenders for the purchase thereof will be received by the undersigned up to and inclusive of the first day of July 1921. The highest or any tender not necessarily accepted. For further particulars and terms of sale apply to G. A. HANKEY & CO. LIMITED, Vernon, B.C. 43-46

MORTGAGE SALE

UNDER AND BY VIRTUE of the powers of sale contained in a certain Indenture of Mortgage dated the 14th day of April, 1914, and made by J. Robert Brown, which will be produced to the purchaser at the sale, the lands therein mentioned, that is to say, ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being at Summerland, B. Columbia, and being composed of Block numbered Thirty-one (31) according to a map or plan of a subdivision of Lot numbered Four Hundred and Forty-one (441) Block "B" in a Group numbered One (1) of the Osoyoos Division of Yale District, and deposited in the Land Registry Office at Kamloops as number Two hundred and sixty eight (268), will be sold by private treaty.

The Mortgagee is informed that there is upon the said lands a one and a half storey frame dwelling containing 9 rooms. Tenders for the purchase thereof will be received by the undersigned up to and inclusive of the first day of July 1921. The highest or any tender not necessarily accepted. Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land. Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted an immediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same operates as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the late war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for 5 years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchaser does not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Why "Auto-Shoes"? We figure that any automobile casing has a right to be called a "tire"—whether it's good, bad or indifferent. And we agree with the opinion that an exceptionally good casing deserves a distinctive name. Ames Holden "Auto-Shoes" are miles better in performance than ordinary tires. That has been proved to our satisfaction. So we think it's a good idea to identify such unusual mileage givers by an easy-to-remember name—"Auto-Shoes." The main purpose of the name is to help you to get cheaper mileage. The guarantee behind Ames Holden "Auto-Shoes" insures that you get it. If necessary for adjustment should ever arise you will find that you will get satisfaction without trouble or red tape. They are the principal advantages that go with the name Ames Holden "Auto-Shoes." Drop in and let us show you the tires themselves. AMES HOLDEN "AUTO-SHOES" Cord and Fabric Tires in all Standard Sizes F. L. BLACK Shaughnessy Avenue Summerland

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

FLOOD TROUBLES

Peachlanders have been having a rather dark time of it for a couple of nights recently as a result of the spring freshet in the creek. The power plant is situated just a short piece below the canyon of Trepanier Creek in which canyon is the dam to store water and make a head for the combined domestic system and power main. A tower is built in the dam about four feet square by twelve feet deep. On one side of this is the intake gate for the main pipe system which branches below to the power house and to town.

Close to this gate in the tower is a pipe outlet in the main wall of the dam to be used in high water time to form an outlet and keep a clearance at the tower gate. With the rush of water, a piece of log or root clump has jammed somewhere between the outlet pipe and the tower gateway. This has been added to till there is now in the neighborhood of eight feet of rock, etc., piled in over the intake gate. With the tremendous rush of water over the dam it has been impossible to do much at making a clearance. However an effort was made to blast the obstruction loose by small charges of dynamite through the tower from the inside. The dynamite was placed in a piece of pipe and this shoved well into a hole made in the obstructing heap, through the bars of the gate, but the size of charge thought safe to use so near the wall would not do the work. The plan was to cut a hole through the side of the tower about three or four feet under the level of the water. This allows the water to fill into the tower and supply the necessary pressure in the main. Being well under the surface of the water no drift stuff enters and it is high enough from the bottom that the rocks and dirt cannot fill in so we are pretty well assured of both light and water service till the creek goes down to the extent that the obstruction can be removed. The electrician has been having a very busy time trying to keep the system running against heavy odds. Precaution has been taken early in the game to open the outlet pipe to provide against a jam, but one cannot always successfully buck the forces of nature.

A portion of the Lambly Ranch irrigation dam was washed out, and those familiar with the bridges over the creek will probably have a better idea of just how much water there is rushing down the creek now when they read that the water was splashing against the old bridge so that a person walking over the bridge would be liable to get his feet wet. It has weakened the bridge considerably. Those who for a number of years have been taking note of the various water levels of the lake at Peachland state that it has not registered so high for a long time. A good supply of water

in the creek spells a good irrigation supply, at least while it lasts, and ranchers are hoping that the supply will keep up well, to assure a sufficient supply for the season.

Mr. Wm. Ortt of the Trepanier townsite has recently returned from a short business trip to Brandon, Man.

The Pollard party left on Friday morning after a flying visit down the lake. They were very sorry they could not spend more time in the valley, but press of business was urging Mr. Pollard homeward. Miss Jean Pollard remained over with friends till Saturday morning, joining the rest of the party up the lake.

Mr. W. D. Miller has completed getting his cut of logs out to the lake and has broken up the logging camp and moved down to the ranch on Monday last. Harold Miller is spending a short time in town with his parents, since the breaking up of the camp.

The outlook for a big crop of fruit here this year is quite promising, and although there are a few varieties with some growers which are not very heavy there are more varieties which are showing quite an increase over last season. A number of gardens in the district are quite advanced and tomato plants are being set out here.

Mr. T. F. Williams, B. A., Barrister and Solicitor of Kelowna, paid his first weekly official visit to Peachland on Wednesday evening of last week and held forth in the council chamber during the entire evening after the arrival of the boat, except between the hours of six and seven.

H. E. McCall and son, Arthur, motored to Penticton on Monday last and on their return brought Mr. and Mrs. McCall Sr. home to spend a few days in town.

A new arrangement has been made in the Lake Shore Stage driving and Mr. Thos. McLaughlin has taken over the route between here and Kelowna, while Mr. A. Agur continues with the route from Peachland to Penticton and return.

Mr. J. Tait paid an official visit in town this week, motoring through.

Quite a number of Peachland citizens motored down to Crescent Beach on Tuesday the 24th, to join in the Victoria Day celebration held there under the auspices of our neighbors in Summerland. Besides a number of private cars the Peachland livery truck took a load down. There was quite a list of sports and visitors from here en-

joyed the day very much. The base ball game between Peachland and Summerland was somewhat disappointing to Peachlanders, the score ending somewhat in favor of Summerland. The first half of the game was very closely held down with very few runs on either side, but Summerland gradually pulled up about the three quarter time and the game ended thirteen to eight. There was quite a lot of good play on both teams but sad to relate some pretty bad errors were exhibited.

After quite an extended sojourn in St. Louis and Decatur, U.S.A. Miss S. A. Dimock has returned to Peachland and expects to remain here for an indefinite time. At present she is a guest of Mrs. P. N. Dowland. For the past year Miss Dimock's health has not been of the best and she decided the change back to Peachland would do her good, which result she has already experienced as she has been improving from the first day she returned to the valley. Her many friends here are very glad to welcome her cheerful personage back in their midst and are hoping the improvement in health will continue.

A few Peachlanders went north via the excursion trip of the S.S. Sicamous on Tuesday morning to celebrate Victoria Day in Kelowna, which city also put on a gala day.

Mr. Alex. Scott and Mr. W. Bowles, Evangelists, are in town holding special meetings every evening in the Orange Hall and expect to continue the meetings for perhaps a couple of weeks.

CRESTON, B. C.—Construction work is under way on the wharf at Kuskanook, and it is expected that by the middle of May auto tourists from Alberta points will be able to make the trip to Vancouver and the Pacific coast by the All-Canadian route. In the past autoists invariably went via Yahl, British Columbia and Spokane, Washington, but the completion of the wharf will enable cars to be run right on the passenger steamers for the trip across the Kootenay Lake to Nelson.

NEW WESTMINSTER, B. C.—A Colony Farm Holstein has again broken a record, Colony Favorit Segis, a junior two-year-old, produced 17,507 pounds of milk and 715 pounds of butter during the year. This record is reported the high one in both American and Canadian Holstein Associations.

VICTORIA—It is estimated that the 1921 apple crop of British Columbia will exceed that of 1920 by 7,000 cars, and that the harvesting expenses will be reduced 30 to 40 per cent.

Local Motorist Up at Penticton

Business Man Makes Public Protest After Being Taken Before Magistrate

Feeling that he has just cause for protest against treatment measured out to him by the Penticton police, when he was fined a few days ago in that town, T. B. Young has written the Penticton Herald on the subject. His letter which appeared in the Penticton Herald last Saturday, is given below.

Dear Sir: If you can spare a little space in your valuable paper, that I may inform your readers of what I feel assured they will term a most un-British administration of justice, I will be most grateful.

On April 22nd I had a party of friends down to Penticton and after the picture show, which we had attended, we were on the point of leaving from in front of the Empress theater, when that officer of justice (?) who is your night policeman, came out and drew our attention to the fact that our tail light was out and told us we had better fix it before we left town. This was quite all right, and we told him we would stop at the garage and have it fixed. As it happened the Central Garage was closed, so we went on to Gordon Harris' garage. This garage being likewise closed, we endeavored to find the trouble ourselves, and we succeeded in fixing it before going further.

Though it is a little beside the question, possibly I might state that the trouble which had occurred was not capable of occurring of itself, and if the gentleman who is supposed to guard the peace and safety of your community had been attending strictly to his duty while the car was standing in front of the theater, our tail light might never have been out.

However, if he thought we went home without fixing the light, he was of course, only performing his duty in issuing a summons, and so far I have no fault to find.

He stated in court that I had gone on without fixing the trouble, and I was not even given an opportunity to explain or bring in a witness that

DUFRESNE & WHITAKER
CIVIL ENGINEERS AND
LAND SURVEYORS
Shatford Block. Phone A93
PENTICTON, B.C. 31-1-22p

I had taken down for the purpose. It seems very strange to me that this officious policeman could not see us at Gordon Harris' garage, when the members of my party could see him from where we were working on the trouble.

When asked if I pleaded guilty or not guilty, being in some doubt as to whether the charge was having left town with no tail light or merely for having no tail light burning when I got into the car, I asked for enlightenment before pleading, and explained the facts as they had happened.

I was afterwards informed that had I pleaded not guilty, (not knowing whether I was lying or not), I would have been allowed a hearing, but as it was, "Case closed—\$5—I refuse to argue further with you."

Now I would like to ask you Penticton car owners and all fair minded citizens, if you will uphold such treatment of out of town visitors? If something goes wrong with a man's car may he not at least be allowed to take it as far as the garage or must the "mountain be brought to Mohamet", a rather impossible proceeding.

Had I, however, received courteous treatment and an explanation that I was breaking the law in ever leaving from in front of the Empress (which I still doubt), there would have been no particular hard feeling over it on my part, the fine would have been paid and the matter ended.

As it is the insulting treatment which I received at the hands of your policeman, impels me to put it up to your sense of justice and fair play, and I have no doubt whatever of what the answer will be.

Thanking you, Mr. Editor for this space, I am
Yours truly,
THOS. B. YOUNG.

Announcement is made that the Royal Mail Steam Packet Company is preparing to place nine 15,000 ton steamships, each equipped with 3,000 tons of refrigerated space, on the route between the Pacific coast points and Great Britain and Continental Europe. This fleet of new steamers is now nearing completion in Clyde shipyards, and the first one will leave Britain some time in May.

LETHBRIDGE—Of the estimated acreage of 1,700,000 acres under cultivation in Southern Alberta this year, 1,200,000 will be in wheat; 350,000 in oats; 85,000 in barley; 53,000 in flax and 16,000 in hay.

REGINA—The equipment of two automobiles as travelling dental parlors to look after the dental requirements of children in outlying settlements was decided upon at a recent meeting of the provincial executive of the Red Cross Society.

NEW OLDSMOBILE 4

The Car that is taking America by storm.

This is a super car for the price. Don't believe us—ask an owner. There are already a number of them. Here is one owner's opinion:

Mr. T. B. Young,
West Summerland.

Dear Mr. Young,

In reply to your letter enquiring as to whether I am satisfied with the Oldsmobile car you sold me recently, and my opinion of it, I can assure you that I am delighted with it. For power, for riding ease, for room and general comfort, as well as in detailed attention to finish, this car in my opinion equals, if it does not excel any car in its class of which I have experience, and is certainly ahead of some cars of decidedly higher cost.

At the present time I have only run some eight hundred miles, but the engine is satisfactorily "run in," and I have no doubt from its general behaviour that the car will stand up.

If this expression of my opinion is of any use to you, it is quite without prejudice, and you are welcome to use it in any way you please.

Yours truly,
Summerland, April 13, 1921. G. R. HOOKHAM.

B-P Boy Scouts' Entertainment Excelled Any Previous Attempt

Large Gymnasium Packed to Doors With Appreciative Audience Thursday Night.

Seldom perhaps since its opening has the college gymnasium held such a crowd as that on Thursday night. The event was the annual Scout concert and everybody had turned out to give their support to the local troop in their effort to raise funds for the annual camp.

Though advertised to commence at 8:30 the curtain, owing to the hall being filled, rose at 8:20, so as not to keep the audience waiting. The curtain rose showing the troop in close formation, and on the first chord the audience rose and joined in singing the National Anthem. Squatting down on the front of the stage the Scouts then sang the popular ditty of, "I Know Where the Flies go in Winter Time," adding as an encore the parody, "I Know Where the Scouts go in the Summer Time," which was well received.

The curtain next rose on the younger boys drawn up in open formation, and a splendid display of P.T. was given, which surprised many by the celerity with which the juniors went through their exercises. The parallel bar work has always been a favorite item with a Summerland audience, and they were not disappointed. The older boys, dressed in blue and green sweaters, presented a striking appearance against the woodland scene as background, and as each difficult feat was performed the audience showed its appreciation by prolonged applause.

Pyramids with the bars as the central span were next built by the boys, and the number of different displays were well received by the crowd.

After a ten minute intermission the curtain rose on a bachelor's apartment, this being the scene for the playlet, "Q," an adaptation of one of Professor Stephen Leacock's "Nonsense Novels." The plot was simple but effective, being the method of the bachelor Anjorly uses to play upon the victim's spiritualistic tendencies and thus relieve him of

his money. The amusing part comes in where there is a third party unknown to Annerly in his chambers, who gets the money. The clever nonsensical lines of the author never fails to draw a laugh, and as proof, the simple spiritualist A.S.M. Tees excelled. A.S.M. Allen Harris had the role of Annerly, the bachelor whose scheme it was to profit out of the simplicity of the other. The part of Dora, the chorus girl who almost ruined the scheme, was taken by Scout Jimmy Smith, whilst A.S.M. Taylor made an effective valet.

Harris and Taylor are well known to Summerland audiences from previous plays, The Dentist's Chair, and others, while Tees is an old member of the University Players' Club of Manitoba.

The next item of the program was the exhibition of tumbling, a never failing favorite in Summerland. Many new dives and jumps were introduced, the dive over a three tier pyramid being encored vociferously. Between the different items humorous recitations were given by Scouts Tom Harris, George Wilson, Mac Layson and Ivor Harris, which were well received. The entertainment came to a close with the troop singing two verses of "O Canada," after which the audience dispersed with a very pleasant appreciation of the work the Scout movement is doing among the local boys.

Too much cannot be said of the work of Mr. Tees for the splendid way in which he had the boys trained for the gymnastic display, which was undoubtedly the best ever given here.

The parallel bar work was in charge of A.S.M. Bernard Taylor, while the playlet was under the direction of A.S.M. Allen Harris.

These three, with the hearty cooperation of the forty boys themselves, and under the general supervision of the S.M., were thus able to make and deserve the success that the concert undoubtedly was.

THE SUPPLY CO.

About 95 per cent. of the interested parties were represented at a meeting of the creditors of the Summerland Supply Co. held last Saturday afternoon in the Empire hall. Wholesalers of Vancouver were represented by Mr. E. Munton, credit man of the W. H. Malkin Co Ltd. Resolutions were adopted confirming the appointment of Mr. W. C. Kelley as liquidator, and appointing Messrs. Munton, Dunsmuir (of Wood, Vallance & Leggatt, Vancouver) and D. Kirstine as an advisory committee. It was decided to call for tenders for the purchase of the stock in trade either en bloc or in departments.

Mr. A. Stark intimated his intention of forming a new company which would likely buy out some of the lines.

The liabilities of the company were stated to be approximately \$33,000, while the nominal assets are nearly three times that sum.

SCHOOL BY-LAW

At the request of 126 ratepayers who signed a petition so requesting, the municipal council, at a special meeting last Saturday night, agreed to re-submit to the ratepayers the school loan bylaw No. 140, which lacked a sufficient majority when voted on the Saturday before. The petition was presented by Dr. F. W. Andrew, O. F. Zimmerman, W. C. Kelley, A. E. Smith and A. Mc-

Lechlan. These gentlemen undertook to become responsible for expenses in connection with the same, should the bylaw fail to carry.

Dr. Andrew was chief spokesman, and the principal argument for re-submission of the bylaw was that in the opinion of the petitioners the recent balloting did not truly express the desire of the ratepayers. There are approximately 500 ratepayers qualified to vote on a money bylaw, only 118 of whom cast their ballots on the 14th. The urgency of the situation with respect to the public schools was again pointed out. From 60 to 75 more pupils are expected to seek admission when school opens next September, and at the present there is absolutely no accommodation for them. The plan is to build an eight room central school building for the graded school, and to turn over the old four room building for high school purposes.

EMPIRE SUNDAY

"Empire Sunday" is being observed by the Summerland Baptist Church on Sunday next, May 29th, with special services. The evening is being set apart as a "Hospital Service" and the offering taken at this gathering will be handed over to the Summerland Hospital. In some communities it is usual to have an Annual Hospital Sunday and if the local church hopes to make this an annual event the date is happily chosen as Empire Week will fall on the anniversary of the opening of the hospital.

The musical program announced elsewhere in this paper is of very high quality and will no doubt guarantee a large gathering.

Since Sunday the K. V. R. trains have been routed by way of Coquihalla Pass. Eastbound trains leave Vancouver at 7:15 p.m., arrive here at 7:10 a.m. and Nelson at 10:55 p.m., No. 11 Westbound leaves Nelson at 9:05 p.m., West Summerland 12:07 p.m. and arrives at Vancouver at 11:15 p.m.

BERNARD TAYLOR

MOTOR TRANSFER Express, Baggage and Parcel Delivery DELIVERY CONTRACTS GIVEN "Service" is my motto Phones: office 7, house 931

Passing Events: Social, Personal, &c.

The Review will publish on Thursday of next week, as Friday, June 3rd, is a public holiday. Will our advertisers, correspondents and other contributors to our columns please note this, and let us have copy at least one day earlier than usual.

Mr. and Mrs. Muir Stuart left on Tuesday to make a motor tour of Vancouver Island.

The water in Okanagan Lake has reached such a height that it has become impossible to operate the municipal pumping plant at Trout Creek Point.

Capt. P. S. Roe will occupy the Felix Hotel building which will be vacated early next week by the Hospital Society.

K.V.R. wharves at the north and south end of Dog Lake have been completed. Between these the steamer "York" will ply as a connecting link on the branch line being laid from South Penticton, to the Osoyoos country.

Prin. D. J. Welsh of Summerland high school has been appointed presiding examiner here for the Queen's University Banking examinations. The boys here who are taking this course will have their examinations in the evenings from June 6th to 13th.

Mrs. H. W. Stevens is visiting here with her mother and other relatives. Mrs. Stevens has been living at Rossland with her husband who is engineer in charge of construction of a link in the trans-provincial highway east of Christina Lake. Just now the construction party is moving camp to Cascade and Mrs. Steven will join her husband there shortly.

Dr. and Mrs. F. W. Andrew were advised by wire this week of the marriage at Kingston, Ont., on Monday May 23, of Mrs. Andrew's sister, Miss Blott, to Mr. Geo. Dickson, mining engineer. They will reside in Cobalt, Ont. Miss Blott is well known in Summerland having lived here before she enlisted for services overseas, and again after her return. The groom is a brother of the wife of Dr. Knox of Kelowna.

Miss Moran of the hospital nursing staff has resigned her position with the intention of returning to Ontario early in June. We understand that Miss Moran will be returning to Summerland in the course of a few months, and rumor has it that she will become a permanent citizen in life partnership with one of Summerland's popular young men.

Mr. Muir Stuart has sold to Mr. G. G. Stuart the 1-2 acre lot north of the Mutual Fruit Co.'s packing house, having recently subdivided the property. The sale was made through G. Y. L. Crossley.

The lakeshore drive between Summerland and Peachland has been damaged considerably by the high water of the lake. It is likely to become impassable any moment according to a citizen who was over the road today.

The Bible School class conducted by the Rev. Jas. Dunlop formed an outing party Friday evening when they engaged one of the ferry boats and crossed the lake to Chute Creek point.

Order your Chautauqua season ticket before noon Wednesday. The price advances then. See advertisement for particulars. 43

Miss Jennie Andrew of Brooklyn, N. Y., is visiting here at the home of her brother, Dr. F. W. Andrew. After a short stay she will go to the coast and California, and from there east.

Mr. Guy Walden of Yorkton, Sask., brother of T. A. Walden, arrived here on Thursday of last week accompanied by his wife and mother, and are guests at the Walden home. Mr. Walden has sold his prairie farm and intends making his home here.

Mr. S. Gilbertson of Olds, Alta., was this week a guest at the home of A. M. Mitchell. We understand that he intends to return to Summerland this fall and it is likely that several other Alberta citizens will come with him to make their home here.

John Buchan is in the hospital suffering with two fractured ribs, the result of a fall.

R. Johnston returned Thursday morning from a visit to Vancouver and Victoria.

Dominion Chautauqua is coming to Penticton next Monday. Get your season ticket now. Largely a Canadian program. Particulars advertised in this paper. 43

T. F. McWILLIAMS, B.A. Barrister, Solicitor, Notary Public. Box 669, Kelowna, B. C. At Peachland Wednesday evenings in Council Chamber, from boat arrival to 6 p. m. and 7 to 10 p. m.

Tug-of-war, Ritchie & Elliott's "Stiffs" vs. G.W.V.A.; won by "Stiffs."

The unqualified thanks of all present are due the Summerland band, who provided a surprise for those who had not previously heard them. The committee are greatly indebted to the band as a whole and particularly to Mr. Cline, the conductor.

There are many others whose names are not mentioned in the above who helped in no small way to make the day the success it was, and among these would appear those who so excellently looked after the traffic arrangements, including those who spent a good part of the day driving trucks and busses.

The Scouts' display immediately following the lunch hour was an event in which particular interest was taken. After their recent concert we expected this item to be good and were in no way disappointed. The Scouts' organization is an exceedingly good one and the Review takes this opportunity to wish it the success it merits, both here and in the neighboring towns of this valley. In this connection it is hoped that the rumor afloat that Asst. Scout Master Tees is thinking of leaving the district is not correct.

It is reported that in the neighborhood of \$325 has been received and, while expenses have been quite heavy, it is hoped that a fair balance will be over to divide between the G.W.V.A. and the Summerland hospital.

It's often a man's strong right arm that favorably impresses a woman.

The Review will publish on Thursday of next week, as Friday, June 3rd, is a public holiday. Will our advertisers, correspondents and other contributors to our columns please note this, and let us have copy at least one day earlier than usual.

CHATAUQUA NEXT WEEK

Chatauqua has now become an annual event in the Okanagan, although Summerland has not yet gone into the circuit. Among the several Valley towns linked up this season with the Dominion Chatauqua is Penticton, where the six day program begins on Monday.

A noticeable and commendable feature of the program is that it includes a number of well known Canadian artists, thinkers, writers and speakers; the Scotch-Canadian Concert Party; Edna Reed, "Canada's Greatest Soprano"; Agnes C. Laut, one of the leading exponents of Canadianism; Dr. Arthur W. Evans, brilliant, humorous young Welshman, blood relative of Lloyd George, being some of these.

But short notice has been given of the opening of the program, particulars of which are given elsewhere in these columns, but many of our readers will wish to avail themselves of the opportunity to hear as many of these as possible.

MEDICINE HAT.—An order several hundred dollars' worth of teapots has been placed by the Canadian Pacific Railway with a local pottery company. The teapots will be used in the Canadian Pacific hotels at Calgary, Banff, Lake Louise, Sicamous, and for the railway's dining car service. The pottery filled a sample order of these goods last year and the result is an order several times as great as the sample order.

FRUIT CROP PROSPECTS WERE NEVER BETTER

(Continued from Page 1.)

Mildew on poorly sprayed or unsprayed lots has developed very fast and there will be a great deal of spraying to be done after the petals have fallen if this is to be checked.

Peach leaf curl has shown up very rapidly this week, especially on lots where the 1-9 spray was neglected or used as a combined spray for peach worm.

Summerland

After a few showers on Sunday the weather has warmed up again.

Pears and apples have had every chance to make a good set, and with the large amount of fertilizer of one kind or other used, the orchards are showing up fine for the time of year.

Wagners, McIntosh and Jonathan are showing maximum blossom, in fact, all varieties with the exception of a very few, are showing good promise.

Some pear trees are showing some blossom wilt, somewhat similar to last year.

Pears promise a good crop again this year. There is some peach leaf curl showing in odd places.

Some tomato growers are setting out some plants now, which is at least ten days earlier than last year. Early vegetable survey is still being taken, expect to finish this by the 1st of June.

The Summerland Agricultural Association Fall Fair prize list is about ready for the printers. This show is open to all comers, and attractive prizes are offered in many classes.

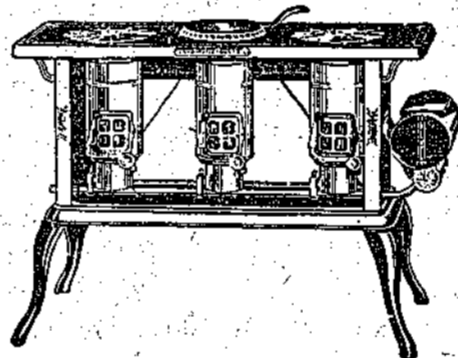

Some growers are looking forward to the Wenatchee trip on the second week in June.

Enjoy Comfort

during the hot summer months and

Practice Economy

By using a coal oil stove in your kitchen

Stocked in Several Sizes

2-burner - \$27.00
3-burner - 32.00
4-burner - 42.00

To use a coal or wood stove during the time of year when heat is a discomfort is no longer necessary. You can do anything in the cooking line with one of our oil burning stoves that you can with the others and maintain a cool kitchen.

BE COMFORTABLE

Besides why waste fuel? It takes so long to heat up to cooking point a coal or wood range.

Come in and examine our new oil burning stoves.
