Vol. 14, No. 10, Whole No. 713

SUMMERLAND, B.C., FRIDAY, OCTOBER 7, 1921

\$2.50, Payable in Advance

NEED TO ALTER ELECTRIC LINES

Committee Presents Report Covering Expenses of New Connection.

WANT \$8000

Large Primary Wire Necessary—Street Lights on Separate Circuit.

At a meeting of the municipal council, held on Saturday, a report was received from the electric light committee on the cost of connecting with the Kootenay Power line and making the necessary alterations. The matter had been gone into carefully with the assistance of an electrical engineer.

The report gave an estimate of \$3600 as the cost of making essential changes in the existing main distributing lines, one of the chief items of expense in this being substituting heavier wire for the present main wires. These latter will, of course, be available for extension work or other purposes.

Another item of \$350 will be required to provide an outdoor substation at a point near the Anglican Church, where the Kootenay line meets the present municipal lines, lightning arresters and other equipment making up this total.

At present the street lights are inseparable from the main distributing circuits and whenever the generating plant is running the street lights are burning. When connection is made with the high power line and the current will be constant it will be necessary to put the street lights on a separate circuit so that there will be no waste power during the day.

The electric light committee's report covered this expense and also recommended that a wire be strung from the head of the gulch to a point between the high flume and the hospital so as to make a complete circuit. Some few changes in position of street lights were suggested but the total number of street lamps would not be materially increased. The total estimated cost under this head was \$2250.

At the request of the treasurer another \$800 was added to cover expenses of the bylaws and provide a little ready capital for making connections, making the total sum of \$8000 for immediate requirements.

Mun. Electrician Thornber is urging that the bylaws be submitted at the earliest possible date, as he will have all he can do to get the necessary changes made in time to connect up with the high power line when it is finished.

Drafts of the proposed bylaw had been prepared and were considered, and after some slight alterations ordered by the council, the clerk was instructed to immediately forward the bylaws to the municipal inspector for his approval. Immediately upon their return, and having been given the necessary readings, the bylaws will be advertised and submitted to the ratepayers at the earliest possible date.

The electric light committee's report stated further that it would probably be impossible to obtain the necessary information and make any material extensions to the present distributing system before the end of the year.

KOOTENAY POWER HERE PROMPTLY

Early Delivery of Transformers Enables Company to Complete Connection.

When Mr. Lorne Campbell, manager of the Okanagan Water Power Company and its parent company, the West Kootenay concern, was last in Summerland he gave assurance that the Bonington Falls energy would be available here by December 1st unless there was unexpected delay in delivery of the big transformers through which the current will be stepped down to the distributing voltage. He has since been advised that they will be shipped from Hamilton, Ont., on October 20. This would seem to remove any doubt as to the new power being here by December 1st.

Who was it that said that of lies there are three kinds—Lies, d—lies and statistics?!

HAS BRIDGE CONTRACT.

T. J. McAlpine went down to Oliver on Thursday morning to start operations on the construction of a new bridge across the Okanagan River, for which he has been awarded the contract.

The new bridge is made necessary by the change in the location of the main highway. Leaving the present road just south of McIntyre Creek (crossed by two bridges), the new road will run directly toward Oliver and passing through the new townsite, will continue directly down the valley, cutting out the long detour to the foot of the hill below Fairview. The new bridge will be a short distance south of McIntyre Creek.

STOLE \$100 CASH STILL AT LARGE

Used Axe in Effort to Open Cash Register.

A short while ago the store premises of Simpson & Gowan, successors to the Summerland Supply Co., on Shaughnessy avenue, was broken into during the evening between 6 and 8, and a considerable sum of money was taken.

Entrance was made through a window, and the marauder, who apparently was well acquainted with the premises, took the cash out of the till in the hardware store and made use of an axe at the back of the store to endeavor to open the large cash register, but eventually found the combination and extracted the money.

Publicity in the matter has been held back in order to help officials in trying to find the culprit, and although the thief has not yet been arrested, the police are still working on the case, and hope to land their man soon.

CAR ROLLS OFF EMBANKMENT

Occupants Unhurt in Drop of Ten Feet or More.

While driving home shortly after 6 o'clock last Saturday evening from a special meeting of the council, Councillor H. Bristow had the misfortune to roll down the side of the road with his Ford at a point near the head of the gulch. In the car with him was Reeve R. E. White, and although the machine made a drop of ten or twelve feet in rolling down the side, both occupants escaped with but trivial injuries. In fact, both the Reeve and Coun. Bristow were back in their chairs in the council chamber at the appointed hour of 8 p.m.

The mishap occurred just as Coun. cillor Bristow turned out to meet a car which had turned on to the east and west road from the gulch. His right wheels ran over the edge of the road where the earth was soft and the car turned over landing on the top which, with the windshield was crushed, with the occupants inside. The car finally came to a stop on its left side with the motor still running. Beyond the smashing of the top and the windshield and the bending of the radius rod, the car was not damaged and was taken out through Clarence Eisey's orchard next day.

SIMPLE INVENTION APPORTIONS WATER

Designed for the purpose of equitably apportioning the water in any ditch among users connected with that ditch, the device of A. Steuart, plans of which were laid before the council at a recent meeting, has much merit.

As it may be that Mr. Steuart may wish to patent his device we are not able to give our readers details of the construction. Mr. Steuart's aim is to have a simple instrument that can be moved from flume to flume, and at each place calculate accurately the amount of water flowing to each orchard. Having ascertained just the amount of water that each orchard along the ditch should receive, Mr. Steuart's plan also provides a gate which can be set at a position that will give the orchardist his proportion of the flow for that day and no more, but leaves him free to close the gate in case of mishap. The equipment is exceedingly simple in design and can be made adjustable to fit the several flumes in which it might be set. A practical test of an instrument built on the plan drawn by Mr. Steuart would demonstrate its usefulness.

THE NEW DOMINION CABINET

FRUIT SHIPMENTS MAKE RECORDS

In One Week Five Hundred Cars Left the Valley for Eastern Markets.

The Vernon News of last week says: "Fruit shipping records from the Okanagan are being broken daily. Last week 500 cars of fruit left the valley packing houses, while this week it is expected that this figure will be exceeded, if the barges on Lake Okanagan can resume their schedules within the next few days. High winds have swept up and down the valley since Monday playing costly tricks in the orchards and on the lake."

"The loss caused by the winds is variously estimated at from two to four hundred cars of apples, which will now go to the evaporator or be fed to the pigs, according to their condition. Once an apple has been blown from the tree it will not stand shipping on account of the many bruises received by being tossed to the ground, and it is for this reason that the Okanagan never ships wind-falls.

"The season's shipping figures show that up to date an increase of one thousand cars over the shipments of 1919 have been made. This big increase is accounted for to a large extent by the earliness of the season, and the splendid manner in which the Canadian Pacific has been able to handle the fruit as it came from the orchards and packing houses."

SMALL COTTAGE RAZED BY FIRE

Early Morning Blaze on the Robinson Property.

Residents in the vicinity of Hospital Hill were somewhat surprised on going out of doors on Monday morning last to find shingle ashes laying all around and, on enquiry, that a fire had occurred during the early hours of the morning.

J. A. Corrigan, who has been living in the small house on the W. J. Robinson orchard, just off the main road, lit his oil stove that morning and shortly afterwards left the house to go to the barn. Happening to look up a little while after, he was astonished to see smoke issuing from all round the house and on rushing to the scene, he endeavored to enter the front door but was met by a volume of smoke. He then tried the back door, but with the same result, and in a few minutes the place was in ruins. Mr. Corrigan is a returned soldier, and before joining up was a professional athlete, and besides money, clothing and other property which were destroyed by the fire, he had the misfortune to lose some valuable prizes obtained in former days. "I was left," stated Mr. Corrigan, "with just what I stood up in, and it will take me months to replace what has been destroyed, but I do not mind that. It is the things lost that can never be replaced on account of old associations that I regret the most."

Review classified ads. bring results.

LITTLE OFFERED AT TAX SALE

There was little business to transact at the annual municipal tax sale held at the municipal office on Friday last, Sept. 30th, as Collector Pineo had but two or three parcels or groups of lots left on that day liable to sale.

One small abandoned property in Peach Orchard was bought by J. J. Blewett. Seven lots on the shore in Bilk, 46, D. L. 455, also D. L. 2560 in Garnett Valley and 2561 on Giant's Head were allowed to go to sale by Jas. Ritchie. We understand it is his intention to redeem these.

It is not so many years ago that a long list of properties were annually offered for sale because of delinquent taxes. The change is an evidence of the improved condition of the fruit growers.

KOOTENAY POWER FOR NARAMATA

Company Makes Proposition to the Board of Trade.

The Naramata Board of Trade resumed its regular monthly meetings on Monday of this week, when there was a good assembly of citizens gathered to hear the proposition regarding light and power for their district, suggested by Mr. Lorne Campbell, of the West Kootenay Co. The scheme, as outlined by the president, Mr. Geo. Weaver, was that the company proposed to supply Naramata with light and power from a secondary line carried below the main power line contemplated for Kelowna. The primary line will, if arrangements are completed, be carried from the Penticton boundary, through Naramata, and on to Kelowna by as direct a route as possible and the Kootenay company ask for the privilege of putting poles in any orchards which are in line with such route. The matter was discussed fully by those attending, and the prevailing sentiment of the meeting was that the required concession could be granted provided the agreement to be entered into with the company was satisfactory. The executive will ask for a draft of such agreement to be sent them for approval.

Other matters dealt with were the amending of the C. P. R. time-table so-as to show the time of arrival of Ss. Sicamous at Naramata, which has not hitherto been shown, and the improvement of unloading facilities for freight at Arranwana station. The problem of fire protection was also advanced another stage and will be more fully handled at the next meeting.

MACKELVIE WAS ONLY NOMINEE

Present Member's Was Only Name Submitted to Party Convention.

A very enthusiastic meeting and the unanimous nomination of J. A. MacKelvie, M.P., to contest the forthcoming election for the constituency of Yale, was the result of the convention of the National Liberal and Conservative party, held at Penticton on Thursday, Sept. 29th.

No other names were suggested, and the sitting member was nominated by J. Kirkpatrick, of Penticton, and seconded by T. Mallich, of Lar-kin, both of whom spoke strongly in favor of Mr. MacKelvie's past record in the House.

The nominee, who expressed his high appreciation of the honor conferred on him, did not make a very long speech, confining himself principally to a plain talk to his supporters.

Other speakers were J. W. Jones, M.L.A. for South Okanagan; W. A. McKenzie, M.L.A. for Similkameen, and W. H. F. Ladner, of Vernon. Before the convention opened a business meeting was held, when the draft constitution as used by the various associations was adopted. Officers were elected at this meeting with J. F. Burne, of Kelowna, president, and Dr. F. W. Andrew, of Summerland, was elected a member of the executive.

He was a wise man who said that he hadn't time to worry. In the daytime he was too busy, and at night he was too sleepy.

CHAUTAUQUA HAS FINE PROGRAMME

Three-day Course Arranged for This Month—Net Proceeds for Hospital.

Summerland is to have a three-day Chautauqua course and judging from the programme copies of which have been received, the public of Summerland will be grateful to the twenty or more citizens whose guarantee has made this three-day event available to them.

Five programs will be provided under the direction of Canadian Chautauquas, Ltd., of which Harold R. Peat is president. The program covers Friday, Saturday and Monday, October 21, 22 and 24, the first event being on Friday evening.

Through the chautauqua plan it is possible to sell these high class events at very low prices. Season tickets, covering the five events are priced at \$2, and for children 15 years or under, \$1. It will be seen that for the price of 40c. one can enjoy a treat which if it were possible to bring here individually could not be enjoyed for less than \$1. Season tickets will be on sale on the 13th and will be withdrawn on the morning of the 21st, after which the price will be increased.

The citizens' committee which arranged for the course, at a meeting held this week, decided to turn over all surplus funds to the hospital.

SUMMERLAND GIRL MARRIED AT COAST

The Vancouver World of Sept. 29th, contains the following wedding announcement:

A pretty wedding was solemnized on Wednesday evening in the Wilson Methodist church when Miss Eva Bloomfield, of Summerland, was united in marriage to Mr. Donald West, of Vancouver. A reception was held later at the home of the bridegroom, 5849 St. Margaret's avenue. The ceremony was performed by Rev. Mr. Balderson. During the signing of the register Miss Mabel Morris sang "Because. Mr. and Mrs. West left to spend their honeymoon at Victoria and upon their return will reside at 742 Eleventh Avenue East.

A NEW GARAGE

Work has commenced on the erection of a new garage for H. Read. The new building will be almost opposite the one he now occupies and will have a frontage of 40 ft. and a depth of 50 ft.

The foundation and floor will be of concrete with the usual pits, properly lighted. The building will be of frame structure and well lighted. Mr. Read intends to put in a display front and will add to his stock of accessories when he moves into the new building.

He proposes also putting in a new battery repair and charging equipment, and in other ways will have one of the best equipped garages in the district.

NOW READY FOR HOSPITAL DRIVE

Canvassers Organized Ready for Clean-up on Tuesday.

As announced in this issue, the hospital drive will be held here on Tuesday next, October 11th, and one day later at Peachland. The Naramata date is yet to be announced.

Summerland has been divided into twelve districts with two canvassers for each. The purpose of the drive is to raise sufficient money to clear off the balance due the contractor on the new building. At the same time an effort will be made to sell the balance of the municipal debentures issued for hospital purposes and now in the hands of the bank as collateral for advances made on them.

A Record Train of Wheat

The Canadian National Railways claim the record for a train which recently journeyed to Port Arthur carrying 85,000 bushels of wheat. The train was drawn by two engines, consisting of 75 cars, had a tonnage of 6,320, and was nearly three-quarters of a mile long.

LOCAL SYNDICATE SEEKING CAPITAL

More Money Needed to Develop Promising Coal Property.

G. R. Hookham went down to Vancouver last week with the object of interesting some Old Country capital in the coal property at White Lake, of which a syndicate of Summerland men, headed by Mr. Hookham, are owners.

It is many years since croppings of coal were first discovered at White Lake. Back in the nineties, when Fairview was a very live mining camp and transportation facilities were not what they are now, miners operating there used to send a freight team over the hill and secure their needed supplies of coal from small tunnels which started at the grass roots. The coal secured was then recognized as of splendid quality, especially for use in the blacksmith's forge.

For many years the property, under various owners, lay idle. More recently it was acquired by a Summerland syndicate and with Mr. Robert Hookham as superintendent, development work has been going on in a small way. This has consisted principally in the stripping of new seams and in driving tunnels through some of the larger showings. The coal taken out has been taken by truck to Penticton and the proceeds have helped to defray the cost of operating.

As greater depth is attained the quality of the coal has improved and, for steam purposes, bids fair to rival any in Canada, while samples, taken from a special seam in No. 2 tunnel are pronounced by many who are tried it, to be superior for use in the forge to the best Pennsylvania product.

ORDER REPAIRS GARNETT V. DAM

Will Cost Two Hundred Dollars is Foreman's Estimate.

TALK ON WATER

Delegation From Board of Trade Gets Information on Council's Policy.

It will cost just over \$200 to repair the damage done to the storage dam in Garnett Valley, the break in which caused considerable uneasiness last spring. This is the estimate made by Foreman Tomlin. Chairman Kirk for the water committee, presented to the council on Saturday a report of the present condition of the dam, giving in detail the work necessary to put it in good condition. This report was adopted and instructions given to have the work proceeded with.

The committee also reported that the ditch in front of Mrs. Bentley's lot had been regraded and stated that the new grade was ample to keep the culvert clear.

Permission was given J. Dunsdon to remove four lengths of flume in Garnett Valley to permit him to get out firewood, he to be responsible for any damage to the flume.

The public works committee reported meeting E. R. Simpson, representing the Fruit Union, on the question of putting the sidewalk on the opposite side of the street at the new storage building. Mr. Simpson had expressed willingness for the Union to pay a reasonable sum and on motion of Couns. Scott and Bristow, the Union will be asked to pay \$50 towards the cost of rebuilding the sidewalk.

Foreman Tomlin was authorized to give a late irrigation should it be necessary and water is available. (Continued on Page 4)

MISUNDERSTOOD

Last week we reproduced an article from the Orville Gazette telling of a visit of residents of that city to the Summerland hospital. In its report the Gazette stated that "during the month of July the residents of Summerland donated \$1800 in cash and produce towards the upkeep of the hospital."

T. H. Riley, secretary of the Hospital Society, points out that the above figure is not correct and concludes that the item of \$1848 being the earnings of the hospital for that month was confused with the donations.

THE MONTHLY REPORT OF TROUT CREEK SCHOOL

Class standings for the month of September in the Trout Creek school were as below, according to statement furnished The Review by the teacher, Mrs. Grace Logie.

Receiving Class—Edith Verity, First Primer—Donald Tait, Second Primer—Irene May, Dorothy Bell. First Class—James May, Ronald Helmer. Junior Second—Frank Watson, Vera Henshaw. Senior Second—Frank Joy, Irene Watson. Junior Third—Connie Seeley, Norris Laidlaw, Ethel Nicholson, Eric Tait, Ruth Tait, Willie Gartrell.

Arm Badly Cut

With reference to the recent accident to Dr. Wilson Herald, note of which was made in these columns last week, the Kelowna Courier says:

"As the result of a motor accident on Thursday evening, Dr. Wilson Herald is a patient in the Kelowna hospital with a badly gashed right arm, which is cut to the bone. The Doctor, in company with Major K. MacLaren, was proceeding south on Pendoz street in his Baby Grand Chevrollet, and when about opposite Chesterfield School one of the tires apparently burst, causing the car to swerve and dash into a telephone or light pole. The impact made it slew round and upset. The front of the car was much damaged, and it is a marvel that the occupants escaped alive. Major MacLaren sustained only slight injuries and was able to be about next day, but Dr. Herald will be under medical care for some time.

Peachland Doings
A Weekly Chronicle Furnished
By Our Local Representative.

There was considerable excitement and not a little anxiety on the part of a number of townspeople one day early last week over the non-arrival home of Mr. John Brinson and his two boys from a hunting trip across the lake. The evening on which they were to return was windy and the lake was very rough. The following day when the lake calmed down somewhat on this side and the hunters did not return it was feared something had gone wrong. Mr. Wark went over from here in a row boat to find them and when neither he nor they had returned when darkness began to fall things looked serious. However just as it began to get quite dark they all arrived safe and sound and it was learned that although the lake was moderately calm on this side it had remained too rough on the other side for them to get away safely in the boat they had. They had made three attempts to come across but were driven back by the wind and waves and having the two small boys with him, Mr. Brinson wisely chose safety first. They had experienced hunger, but were able to renew their strength to some extent by connecting up with a milch cow they found deserted. A party comprising Bert Baptist, Bert MacKenzie and W. L. Williams were taken down by Earl Weitzel with his car to Van Hises where Mr. Francis Van Hise kindly offered his services and that of his motor launch to take the party to search the other shore. It was rather late, however, when the party came up the other shore and the hunters together with Mr. Wark had just come across home. It had been arranged that if they came home before the motor party reached the spot where they had landed for their hunt a "four shot signal" was to be given from this side. It was given, but not heard by the party over the noise of the motor and when the Sicomous came in a few minutes later the captain was asked to repeat the signal by giving four whistles, which he very kindly did, and the party understood. Those interested appreciated this kind accommodation on the part of the captain.

Passengers to Kelowna on Monday of last week were Mrs. J. Michael and Mr. Allan Wilson. The former returned the same day, while Mr. Wilson remained over for an operation on his jaw to extract a hidden tooth which has been giving him considerable distress and pain for a couple of years, during which time he has been unable to locate the cause. They found it at last through the use of the X-ray. He returned home on Wednesday evening and has been feeling much better since.

Dr. Hsley, V.S., paid Peachland an official visit last week and tested a number of cows with the Tuberculin test and to the pleasure and satisfaction of all interested, all coming under the test passed with a clean sheet.

Mr. Peter Roe, of Summerland, was an early morning visitor in town on Tuesday of last week having made a hurried motor trip to bring a passenger to catch the Sicomous here after she had missed it down the lake.

Mrs. F. R. Jeffords, of Penticton, spent a few days of last week in town, a guest of Mr. and Mrs. O. Keating. She returned home on Saturday evening.

After several weeks' visit with her brother, Mr. F. N. Dorland, and Mrs. Dorland, Mrs. Aylesworth left on Tuesday evening of last week to return to her home in Vancouver. Mrs. Dorland accompanied her as far as Penticton and remained over there till Thursday morning.

Mrs. Grantham and son Jack have taken up their abode at the Edgewater Inn, having come in on Tuesday of last week.

Mrs. A. W. Miller's sister, Mrs. Houston, left on Wednesday morning of last week to return to her home in the East, after a month's visit here. This was her first visit to Peachland and she enjoyed it to the full.

The Peachland Lumber & Manufacturing Company are making preparations for the starting of the mill again.

Nelson Keating returned home from Kelowna Wednesday evening after some weeks getting treatment on his finger.

Having sold their home and fruit lot this spring to Mr. Trimble, who had just come in from Calgary after having purchased the Moore lot across the road from Mr. Robinson's property, Mr. and Mrs. J. B. Robinson moved to Summerland last week to take up residence near Dr. and Mrs. Lipsett. They have been faithful and loyal citizens in Peachland for many years and their many

friends were loath to bid them good-bye, even though they are not going very far distant.

Mr. and Mrs. J. M. Robinson and Will Robinson, of Naramata, and Mr. Robinson's mother, of Summerland, were visitors in town on Thursday, paying a short visit to Mr. Robinson's sister, Mrs. M. E. McDougald, and family. They motored up and returned the same day.

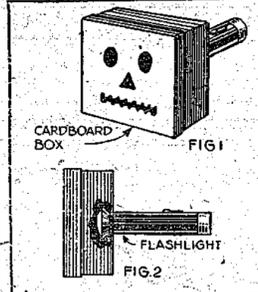

Miss Dimock returned from Summerland on Thursday morning after a pleasant visit with friends there.

The local Fruit Union floor space became quite occupied last week again, so much so that they shut down on all varieties except Jonathan and Grimes Golden, which varieties they were running on, until such time as they got these out of the way enough to make room for others. The majority of the growers have been keeping up well with their picking, but have been somewhat handicapped the last week owing to a shortage of orchard boxes which is largely due to lack of shooks that did not arrive when expected.

Mr. J. T. Long, the manager for the Westminster Trust Company, succeeded in finishing the crop on their orchard on Saturday night last.

Peachland public interest and sympathy was greatly aroused last week when a serious accident occurred, with Mr. H. Williams and son Eddie the victims. It happened on Thursday evening when they were driving down Beach avenue with a single horse and wagon with a few boxes of apples they had just picked from their small fruit lot up the hill. Passing near the C. P. R. wharf the horse took fright at a cow which was tied there ready for shipment on the boat and in a dash across the street struck the electric light pole in front of the Edgewater Inn. The sudden jar unseated Mr. Williams and Eddie and pitched them forward. Eddie fell beside the shafts but in front of the wheels and the two wheels passed over his thigh, fortunately doing him very little damage, aside from giving him a shaking up and making him stiff and sore for a few days. Mr. Williams, however, fell between the

SIMPLE INVENTION FOR YOUR BOY

Here's how your boy can make his own Jack o' Lantern for Halloween, providing he has one of those inexpensive flashlights that many boys have. He takes a common cardboard box or handkerchief box and cuts the eyes, nose and teeth in the cover. In the bottom of the box he cuts a circular hole into which he fits the flashlight. That's all, except to turn on the juice! Copyrighted feature from Popular Science Monthly by special arrangements.

horse and the wagon and the horse, although formerly a very gentle animal, in the excitement commenced kicking and running. Mr. Williams passed dropped through and the wagon passed on over his body without the wheels touching him. He was picked up and taken home and Dr. Buchanan summoned at once. He was found to have a dislocated shoulder joint and broken ribs and the doctor advised removing him to the hospital at once. He was taken to the Kelowna hospital the same evening and on further examination it was found he was more severely injured than thought at first. He was put under the X-ray and in addition to the shoulder joint and broken ribs it was found that the lung had been pierced by the broken ribs and one of his kidneys was lacerated. He has suffered a great deal and is still in quite a serious condition, although having made some little improvement. It is thought that the injuries were mostly from the kicks from the horse.

After a visit here with her daughter, Mrs. E. Aitkens, and other friends, Mrs. J. Hay left for her home in Vancouver on Friday last.

Mrs. H. Williams went over to Kelowna on Friday to spend a few days with Mrs. Williams at the hospital. Owing to improvement in his condition by Monday Mrs. Williams was able to return home and has learned by phone since of the further improvement of his condition.

Mr. Iverson, of Naramata, was a visitor in town on Saturday, returning on the evening boat, but came up

again on Monday to remain for a short time.

Mr. Gus Hansen came home from Kelowna by stage on Saturday to spend the week-end.

Mrs. Brinson, Sr., returned to her home in Penticton on Saturday evening's boat after a pleasant visit here with her sons and families.

Mr. Garnett Sootherin returned to Peachland on Saturday expecting to spend the winter here.

Miss Annie White arrived on Saturday to spend the week-end with her people here.

The Crystal Garage, under the proprietorship of Bert Baptist, is fast becoming quite up-to-date outside as well as within. He has quite an attractive electric sign hanging now. He expects soon to have his air compressor working.

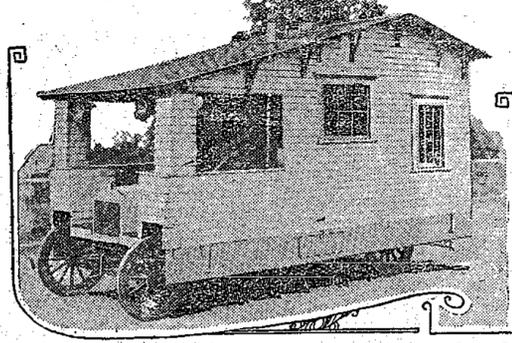

SKUNK IS BEST WILD ANIMAL FRIEND

According to a bulletin just issued by the U. S. Department of Agriculture, the skunk "is the best wild animal friend the farmer has." It destroys mice, grass-hoppers, white grubs, and many other enemies of the crops, and when its career of usefulness is brought to an untimely end, it yields a pelt worth a considerable sum of money.

Love has failed when we expect nothing but faults.

Hon. Mrs. M. E. Smith recently pointed out, in an interview with the press, that the unemployment problem in British Columbia can be solved by an increased preference by the buyers in the province of local products.

CAN SCIENCE PUT YOUR HOUSE ON WHEELS?

A New Jersey man has invented this Automobile bungalow. It has kitchen, pantry, sink, bedroom, stove and the front seat is a living room, a dining table being fitted over the radiator when needed. Through scientific weighting it is not top-heavy. Copyrighted feature printed by this paper by special arrangement with Popular Science Monthly.

Correspondence

The Editor, Summerland Review:

Dear Sir,—I would like to draw public attention to the fact that Summerland is in danger of losing its one and only place of public amusement, the Rialto theatre. During the past few weeks it has been very noticeable to picture-goers that the picture theatre has been very poorly attended, in fact, I am sure the admittance charges could not have paid for film expenses, not to mention general upkeep, advertising, etc. Some time ago the public "kicked" against the poor class of pictures that were thrown onto the screen. Since that date there has been, to my mind, a considerable improvement in the pictures shown and still the public do not patronize the theatre. Why is it? Do the public expect the theatre proprietor to pay top prices for films to show to a mere handful of people? Yet a large number of citizens go down to Penticton, pay more for their amusement, also conveyance charges. Having attended the theatres in both places pretty regularly, I am convinced that the Penticton pictures are, on the average, no better than those shown here. Still the money goes out of Summerland. Would it not be more beneficial to the community if our pocket money was circulated in Summerland? A few days ago I was permitted by the proprietor of the picture theatre to look over his programme of entertainment for the next three months, and I am confident that picture-goers will not regret seeing any of the pictures screened while that programme lasts. I also noticed that the mid-week charges had been reduced to 15c and 25c.

If we are to lose our picture theatre, I am sure you will agree with me that Saturday night in West Summerland will be rather dull, especially during the winter months; therefore, I would suggest to those of us who do enjoy a couple of hours' entertainment occasionally, to give our moving picture proprietor, at least, the necessary inducement to carry on. Thanking you for calling the attention of the public to this matter. THEATRE-GOER.

The Summerland Review

Established August, 1908.
 Published at Summerland, B.C., every Friday by
 THE REVIEW PUBLISHING COMPANY, LIMITED
 Ralph E. White, Editor and Manager
 An independent family newspaper covering Peachland, Summerland and
 Naramata and adjacent districts.
 Subscription Rates—In British Empire, in advance, \$2.50 per year; six
 months, \$1.40. To U.S.A. and other countries, \$3.00 per year.
 Advertising Rate Cards and information respecting territory and samples
 of paper mailed upon request, or may be seen at the office of any advertising
 agency recognized by the Canadian Press Association.
 Advertisers must have copy in by Tuesday noon in order to insure
 changes for standing advertisements. New display advertising copy can
 be accepted one day later.
 Correspondence—Letters addressed to the Editor and intended for publi-
 cation must be short and legibly written on one side of the paper only.
 The longer an article, the shorter its chance of insertion. All communi-
 cations must bear the name of the writer, not necessarily for publication. The
 publication or rejection of articles is a matter entirely in the discretion of
 the Editor. No responsibility is assumed by the paper for the opinions
 expressed by correspondents.

Friday, October 7, 1921

NO AMBIGUITY.

Reference is made by a correspondent in a letter published in these columns to an editorial in last week's issue on the subject of a municipal electric system and which the writer describes as ambiguous on the questions of extensions. Certainly no ambiguity was intended, the object of the editorial referred to being simply to treat the subject from the financial point of view of the general taxpayer. We believe that if Capt. Webb had waited in patience a few days longer, he would have had his questions fully answered by the action of the municipal council on Saturday last, a report of which is contained in this issue.

As will be found, after reading the report of the council's decision, all possible haste is necessary if the local system is to be ready in time to connect up with the high power line, and the council is fully justified in pushing this to a conclusion, rather than waiting to take up the many contemplated extensions to the system.

It is the opinion of The Review that extensions should be made in every direction where practicable, and that no time should be lost in preparing to make these, and while we have no authority from them for saying so, we can express confidence that the majority of the council are of the same opinion.

This paper also stated in a brief editorial note last week that the electric light should be extended wherever practicable but that the first step was to get the Kootenay power flowing through our system.

ANOTHER HOLE IN THE WALL.

When the exchange on United States money in Canada first began to mount up, we were indignant, then we burst into print and were regaled by long exhortations to buy Canadian made goods; then we gradually became accustomed to the situation, and now we take it as a matter of course. Very little is said nowadays about the exchange on American funds. During our early searches for a remedy we found many holes in the wall through which our Canadian money was passing into the hands of our American cousins.

It remained for a Canadian author to bring sharply to our attention one very important hole in the international wall through which Canadian money flows continuously. This author gave a few figures to show the circulation of the chief United States publications in Canada. They totalled hundreds of thousands.

It would be foolish to suggest that all of these subscriptions should be cancelled, for we can gain much by reading some American magazines and in addition they are able to give us exceptional value, because they have a market of 110 million people to support them. But when we realize that the Ladies' Home Journal, as an example, has a circulation in Canada at least four times greater than any monthly published in this country, surely there is something lacking in our national pride. A nation does not begin to permanently grow until it has a literature of its own. So long as it depends upon another nation for its literature it occupies a subordinate position.

We send Canadian money across the border and get in return magazines which are essentially American products—in many instances we are paying to be Americanized. If this is what the Canadian people desire, then we have no complaint to make, but if we are the nation we claim to be we shall prefer to keep our money at home to support publications prepared, published and printed in Canada, by Canadians.—Canadian Financier.

SUPPLEMENTING MUNICIPAL REVENUES.

Forecasts of what may be expected in the way of relief to municipal finances from the special sitting of the Legislative Assembly are being made, following a conference between the Executive of the Union of British Columbia Municipalities and members of the Government. In fact, it is stated that the Premier and the Finance Minister have made a definite promise of relief that was acceptable to the municipal representatives.

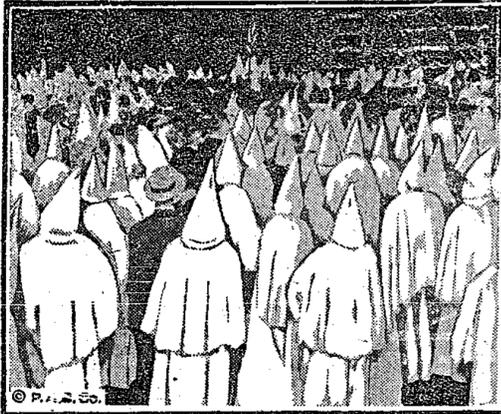

To supplement present revenues of municipalities the government will allocate half of the profits from the government sale of liquors, a promise made at the last session; will waive the collection of personal property tax and permit the municipalities to collect such a tax, and further, a per capita increase will be made in the provincial grants for school purposes.

APPLE PRICES.

That highly satisfactory prices will be received by growers for their number one and two apples has been the view of this newspaper since early in the season. Recent developments tend to confirm that belief. It will be very gratifying, indeed, following upon much pessimistic talk and a seeming disposition of prairie buyers to "fear" the prices to find that net returns to growers will compare well with those of last year.

Lieut.-Governor W. C. Nichol is credited with the statement that recent aerial investigation in the Okanagan has resulted in the discovery of over one thousand new lakes, which only require attention to produce great development.

ONLY PHOTO EVER TAKEN OF A "K. K. K." INITIATION

Copyrighted photograph by the Autocaster Service shows the ceremony of initiation into the Klu Klux Klan, the recent order which is being investigated by the U. S. Government. The K. K. K. now has lodges in every state except New Hampshire, Utah and Montana. The scene above was in a woods in Texas, and the ring of white-clad members included a great number of candidates.

ORDER REPAIRS GARNETT V. DAM

(Continued from Page 1.)

Following the reading of a complaint from D. C. Barr, with respect to the condition of the flume, Foreman Tomlin was instructed to submit a report on this flume.

The police commissioners wrote the council recommending that a telephone be put in the police magistrate's office as an extension to the municipal line, and also that the policeman be paid the cost of one-half of his phone. On motion of Coun. Scott the former was not granted, but Coun. Bristow's motion approving of the latter, was carried.

Domestic water service to Paradise Flat was the subject of a letter from E. R. Simpson and at the request of Coun. Kirk, this was referred to him for the required information.

Representing the Board of Trade, W. C. Kelley, J. R. Campbell and C. J. Huddleston, with the first named as chief spokesman, sought informa-

tion with respect to the council's policy on improvements to the irrigation system. A lengthy and informal discussion resulted, revealing the fact that the councillors were not a unit on this subject. Coun. Kirk explained that he had asked that a reply to a letter from the Board of Trade on this subject be deferred until a definite answer was possible. To the delegation, he explained that further information was necessary before definite action could be taken. He believed it was possible to conserve considerable water now being wasted. The report covering a survey by the government must now be about ready and was expected at any time.

Coun. Bristow—Mr. Kirk, in his modesty, has not stated that he had found a loss of about 50 per cent. of the water near the intake. An instrument for measuring water was now being obtained.

The reeve briefly outlined his policy with respect to improvements to several parts of the district and expressed the opinion that a further

HAS DISPOSED OF BOND ISSUES

Penticton Municipality Finds Buyer for Several Issues.

The 1921 Penticton municipal bond issues, amounting to \$215,000, have been sold in one block to the Workmen's Compensation Board of B. C. on a basis of a yield of 7.65 per cent. The price at which the debentures have been disposed of is not quite so good as that obtained for debentures sold in 1920, but the fact that they have been taken by an organization

loan should be made, although he favored a rate that would permit necessary repairs and improvements from current revenue.

Mr. Campbell spoke strongly in favor of further storage on Aeneas Creek.

which will, in all probability, hold them as an investment until maturity, more than offsets the difference in price.—Penticton Herald.

Willie: "Give us a suck o' yer toffee."
 Lucy: "No I won't. But yer may kiss me while my mouf is sticky!"

EMINENT DRAMATIST

Mr. Frank Fouche will give a Recital in Lakeside Church on Thursday, 13th October, at 8 p.m. Selections will be given from Shakespeare, Kipling, Drummond, and others.

is the cheapest and most effective method by which the local merchant can reach the buying public. No expense or trouble to get the message into the homes as there is in the case of circulars. Practically every family takes THE REVIEW, and everybody in the home reads it.

Better than a catalogue

To issue a catalogue is beyond the power of the ordinary merchant, but a weekly message in the columns of THE REVIEW is much better, and the mail order houses acknowledge that their business is least in the district where merchants use the columns of the local paper.

START NOW—The present is the time to prepare for the fall campaign. In a few weeks many families will be preparing a list of fall and winter requirements, and the local merchant who is not in the family circle by means of an advertisement is forgotten.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

Mrs. G. G. Stuart has as her guest her brother, Mr. Thompson, of Vancouver.

Mr. J. Johnson, a former resident of Prairie Valley, has been a recent visitor to Summerland.

No Saturday afternoon trip to Penticton will be made by the ferry this week, but the evening trip will be made as usual.

D. D. Lapaley, at one time with the Summerland Supply Co., and now representing a shoe manufacturing concern, was a visitor to Summerland this week.

We clean or dye soiled or faded garments, house furnishings, etc. Let us mail you price list. Permanent Dye Works Ltd., 1641 4th Ave. West, Vancouver, B.C. 48fc

"YOUR XMAS PORTRAITS"—For our Summerland clients we have had new reception rooms built and our studio redecorated. "Stocks the photographer." Studio over Customs office, Penticton. 713

Mrs. Adam Zimmerman and Mrs. Alec Zimmerman, of Hamilton, Ont., arrived in Summerland this week on a visit to Mr. O. F. Zimmerman, manager of the Dominion Bank here.

"Mademoiselle of Armentieres," a comedy written and played by Canadian veterans and staged at the Empress theatre on Friday last, was enjoyed by a large number of Summerland people.

Work has been started on an addition to L. W. Rumball's store, the Summerland Grocerteria. This will be occupied as a meat store, an announcement of which is made in the Grocerteria's regular advertising space.

Just as he rounded the corner in front of T. B. Young's house on Tuesday night, Noel Wright, with his car, collided with a horse driven by Gus Johnson, resulting in a broken front wheel and some other minor damage to his car and a few scratches to the horse.

A notice will be seen elsewhere in this issue of a recital to be given by Mr. Frank Fouche, in Lakeside church, on Oct. 13th. This should prove an entertainment of merit, not only giving delight but instruction. Mr. Fouche has many testimonials from various sources as to the high standard of his recitals.

The Review has been asked to call the attention of the public to the new postal regulations in regard to the additional stamps required on letters to Great Britain and other parts of the Empire. We are informed that in spite of the publicity already given to this change, which became effective October 1st last, nearly 90 per cent. of the letters received at the post office have only three-cent stamps on them, and letters are therefore held up in consequence.

Coming Events

Notices under this heading are inserted at 3 cents a word. Each repeat, 2 cents a word; minimum charge, 50 cents. Contract rates on application.

The West Summerland Women's Institute will meet on Friday, October 14th, at 8 p.m., in the Parish Hall. Talk on "Health," by Dr. F. W. Andrew.

Words are all right when backed by brains.

Good looking girls are born, but most good looking women are self made.

John Tait was judge of fruit and vegetables at the Salmon Arm fair held this week.

Miss Dewar, of the hospital nursing staff, is again on duty following her annual vacation.

No meeting of the Boy Scouts will be held this week on account of Ellison Hall being used for the Hospital dance.

Mr. and Mrs. G. J. C. White have rented their house for the winter and will leave shortly for California for a few month's vacation.

The next meeting of the G.W.V.A., which will be a smoker, will be held at the Parish Hall on Wednesday, the 19th inst., at 8 o'clock.

Assistant Superintendent R. Palmer and Mr. MacLarty, plant pathologist at the Experimental Farm, attended the fair at Salmon Arm last week.

Dr. H. S. Timberlake, optician, will be at the Summerland Drug Company's stores, Tuesday, October 11th, Summerland in morning and West Summerland in afternoon. All optical work guaranteed. 713

Harvey Walton, who was taken to the hospital a few days ago seriously ill with pleuro-pneumonia, is holding his own, according to a report from the hospital on Thursday afternoon. He has pneumonia on both sides.

Mrs. A. Griffith has sold her property in Peach Orchard to Willis Walter, and will be leaving for the coast shortly. Her son, E. Griffith, is going to Rossland, B.C., for the winter, having obtained a position at that place.

Windfalls, the result of the high winds of a few days ago, have been shipped to Vancouver in bulk. McIntosh Reds were the chief sufferers and the fruit was sold to the retail trade at \$1.75, 75c to \$1.00 below the regular price for packed fruit.

Approval was given on Saturday by the municipal council to plans of a subdivision submitted by Jas. Ritchie of his property opposite the Bank of Commerce to a point opposite the Kellogg block. As in other subdivisions along that street, Mr. Ritchie has allowed an additional ten feet for street.

Mr. and Mrs. Burton L. Hatfield have returned from their honeymoon trip and are now residing in Penticton, where Mr. Hatfield has bought a house. They were married last week at the home of the bride, in New Westminster. Mrs. Hatfield was formerly Miss Constance Wiltshire, and has many friends here, having practised her profession of nursing here for some time.

Bryson White, Dominion fruit inspector, had the Vernon Growers before the magistrate last week, charged with packing small and inferior apples. The Growers were fined and advised to ship only good fruit. Mr. White, in commenting on the case, said that there was altogether too much poor fruit going to the markets this year, and that shippers and growers should realize that it was to their own advantage to ship only the best.—Vernon News.

B. C. APPLES FOR LONDON SHOW

Individual Care for Every Specimen.

Two special cars of Okanagan apples were shipped from Vernon last week and are now well on their way to the Old Country, where they will constitute the valley exhibit in the British Apple Show in London this month.

Fifty boxes of Snows, Cox's Orange, Gravensteins, Kings and Wealthies from Creston will also be included in the two cars, while in addition to these several boxes were shipped a few days previously to take the place of any which may be spoiled in transit. This is unlikely, however, as all show apples are strapped, wired and double topped. Railway and steamship officials also give them special attention in handling and storing.

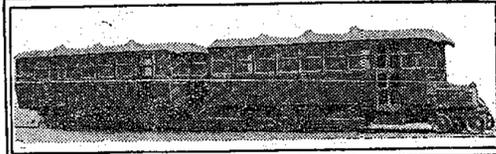

From Vernon to seaboard the apples travel in iced refrigerator cars which are attached to a passenger train, with a couple of expert fruit men along with the cars to give any needed attention either by rail or boat. At London the Dominion fruit commissioner will have men to receive the exhibit and take charge of

DEWDNEY TRAIL WAS FIRST ROUTE

The British Columbian, New Westminster, says editorially:

"The distance from Hope to Princeton via the old Dewdney trail, is 65 miles, as against the 92 miles of the Cleveland survey, located several years ago under the McBride government, the minister of public works has stated. The old sappers' road could be utilized for some 23 miles, while 3 1/2 miles of the Cleveland line on the Princeton side would also be utilized. The Cleveland survey south from Princeton has been graded some 20 miles, and on this route there was expended up to 1919 approximately \$180,000 in construction and \$44,000 in surveys. The Dewdney route crosses Allison pass at a height of 5,800 feet, or 1,000 feet of an additional climb to that on the Cleveland survey, or the Silver Creek-Roche River route, the summit at the head of Roche River and Mud-dry Creek having an altitude of 4,485 feet. It will be another tribute to the engineering skill of the Royal Engineers if their route to the interior is adopted after the passing of more than half a century."

A HENRY FORD GASOLINE TRAIN

How the great inventor would run passenger railroad trains. Copyrighted Popular Science picture by special arrangements between this paper and that magazine.

placing it in the Canadian section of the big exhibition. These two cars will comprise the whole British Columbia exhibit at the fair.

It is the opinion of orchardists of the Valley that in the Empire Section of the exhibition, British Columbia apples should prove superior to the British Isles fruit in the matter of color and keeping qualities, but the Old Country product should be superior in texture and flavor, owing to the fact that it matures a couple of months earlier than the Canadian

Some people have an idea that they have a right to keep anything they find. They are wrong. Failure to advertise or report to the police the finding of anything is construed by the law as a disposition to steal. A young man travelling on a railway train found a gold watch and put it in his pocket without saying anything to anybody about it. Unfortunately for him he was seen to pick it up and it was found in his possession. The judge sent him to jail.

Naramata News

Current Events of Town and District

Naramata Institute's Interesting Session

A full and interesting report of the recent conference at Vernon and a witty and stimulating talk on town improvement by Mrs. Gillespie, were the chief features of the Women's Institute meeting at the Unity Club on Tuesday afternoon. Resolutions covering a wide field of endeavor which were passed at the conference were read, and in accordance with one of these, which recommended the appointment of a committee to investigate local accommodation for fruit-pickers and packers during the season, a committee consisting of Mrs. Howard Rounds, Mrs. J. V. Hughes and Mrs. Nuttall, was appointed. It was felt that this committee could do little this season, but that with the increase in the outside help employed this year that some help might be planned in getting accommodation for workers coming in here from outside.

It was agreed to write the university extension committee expressing a desire to hear any lecturers they might send out this year.

Mrs. Gillespie, in her short but interesting address, put forth a plea for co-operation of the different organizations in fostering community spirit and asserted that the people made the town and as the people, so would the town be.

Mrs. Mallory and Mrs. Hughes were appointed to confer with Mrs. McGregor regarding the coming tour of Mrs. Garland Foster to give a course of lessons in basketry and other arts.

Mrs. Weaver left town on Wednesday morning with her daughter, who has been staying with her for some time, for Calgary. She expects to be in Calgary about a month before returning to Naramata.

Mrs. Gordon Hayman, who has been spending a few days here, left for Rossland recently.

Mr. J. O. Naves returned on Saturday last from Banff, where he

MOLLA IS DEMPSEY OF TENNIS COURT

Molla Bjurstedt Mallory doesn't look much the petted favorite of society in this picture, taken as she proved for the sixth time that she is the best woman tennis player in the world. It was she who made the French European champion, Suzanne Lenglen, quit in the second set of a terrific net battle in national play this month at Long Island.

spent the summer months. He is much improved in health.

Miss Kathleen Drew, of New Westminster, stopped off for a short time in Naramata when on her way east recently to attend university. She visited Miss Standen, a friend and former classmate.

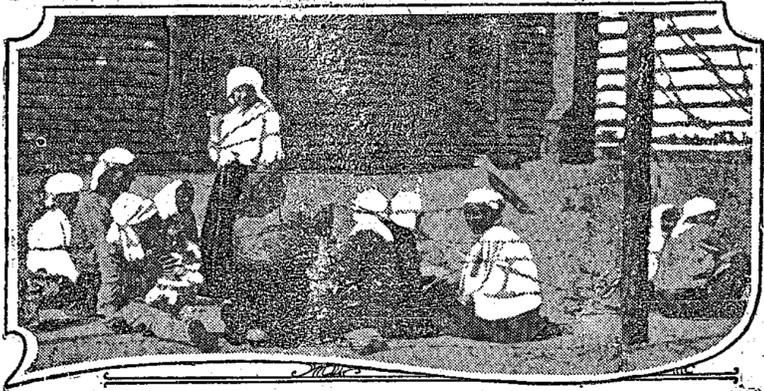

Mrs. Lumsden and Mrs. Colquhoun, who had been visiting here, left last week for Vancouver, where they will spend the winter.

Mrs. Wollstonecroft was a visitor in Naramata over the week-end, coming up from Penticton on Saturday afternoon to visit Mrs. Geo. Aldridge.

Canada has only 5 per cent. of the world's population, but she produces—

- 90 per cent. of its cobalt;
- 83 per cent. of its asbestos;
- 58 per cent. of its nickel;
- 32 per cent. of its pulpwood;
- 20 per cent. of its lumber;
- 20 per cent. of its cured fish;
- 18 per cent. of its oats;
- 15 per cent. of its fish;
- 12 per cent. of its silver;
- 12 per cent. of its wheat;
- 11 per cent. of its barley;
- 4 per cent. of its gold;
- 4 per cent. of its copper.

ST. ANDREW'S GIRLS REORGANIZE C.G.I.T.

Have Delightful Outing on Giant's Head.

The C. G. I. T. classes of the Presbyterian church have reorganized after a long and pleasant summer vacation. The girls are entering into the spirit of the movement with great eagerness and are displaying a lively interest in the plans which are being made for the fall season.

There are now three clubs, the Ok-we-su girls under the leadership of Mrs. Alexander, the Diakonia girls led by Miss Ball and the Polyanna girls with Mrs. Denton as leader. Last Friday afternoon the three clubs united in a grand rally, which took the form of a bacon roast and bon-fire at the top of Watchman.

The Ok-we-su and Diakonia girls, with Mrs. Alexander, Mrs. Munn, Miss Munn and Mr. Alexander, left Mrs. Alexander's residence about 4.15 and climbed to the college where they were joined by the Polyanna girls with Miss Ball and Mrs. Denton. After a brief rest the whole crowd, some twenty-six in number, continued the climb to the top. This was made in good time, allowing for time to admire the beauty of the scene below as well.

Mr. Alexander started the fire at once, and as Peggy had arrived with the precious frying-pan, Mrs. Alexander installed herself as Grand Mistress of the Order of Bacon Friers. In a few minutes the savory smell of frying bacon was whetting appetites already sharpened by the stiff climb through the brisk fall air. Others busied themselves in cutting and buttering great piles of bread. Judging by the amount of bacon, bread and cake consumed there were no serious cases of indigestion among the girls.

After supper everyone went over to the peak, where the bonfire was kindled. Homemade candy was

passed around and a pleasant hour was spent in singing and story-telling. The Ok-we-su girls gave their club yell with a gusto, which could scarcely be rivalled even by that of the Polyannas. The new members were then called upon to give a story. Mary Hanna told a true bear story with a bear hero who stood upon his hind legs and looked in at the upstairs bedroom window.

Mary Fisher followed with a ghost story so abounding in dark, dark cities, dark, dark streets, and other dark darks, that the shadows without the camp fire began to look extremely dark, dark.

The girls then sang a verse of "There's a Long, Long Trail," and guided by the light of Mr. Alexander's lantern, hit the long, steep trail into the valley below.

The trip down was made to an accompaniment of "Put on the Brakes," "Emergency brake, please," "Watch your feet, girls," "Look out for the hole below" and occasionally a bar or two of "The Long, Long Trail" from our musical members.

The party disbanded at Mrs. Alexander's with many happy good-nights and much looking forward to the next hike, which is to take place on Thanksgiving Day.—Contributed.

Home Town Paper Week

It is very rare that the average newspaper boosts its own business, but gives quantities of space in boosting the affairs of others.

Somebody suggested that it was time for the newspapers of the country to adopt a week in which their own business should be given precedent, and The Review thoroughly endorses the idea.

The date set is the second week in November, from the 7th to the 12th, including that great world event, Armistice Day.

The official title for the week will be "Subscribe For Your Home Town Paper Week."

Thousands of papers will join in this event, and our readers will hear more about it as time goes on.

Ever ready to help in any cause that is in the interests of a better community, better living conditions, and better government, we now ask the readers and advertisers of The Review to turn in and lend a hand during "Subscribe For Your Home Town Paper Week," and boost for us.

REVIEW WANT ADS BRING RESULTS

Correspondence

Summerland, B.C., Oct. 3, 1921.
The Editor Summerland Review.

Dear Sir:—Will you allow me through the medium of your columns to address an appeal to the Reeve and council to take the public into their confidence with regard to the pending electric light changes?

Many citizens, myself included, have been anxiously watching the progress of negotiations between the Municipality and the Power Company, and the news of a conclusion of a satisfactory agreement was very generally welcomed in the belief that it would mean the extension of the electric light system to many of those homes at present without it.

It is now rumored that our hopes are far from realization and that there is, in fact, no prospect of the system being extended. It is also stated that the Council propose to expend a sum of \$8,000, if sanctioned by the taxpayers of course, on the proposed changes and improvements, including an elaborate system of street lights.

It appears to me that, before the taxpayers are asked to sanction the raising and expenditure of such a considerable sum the fullest publicity should be given to the whole scheme. How is the money to be spent, and why? What part of it is to be set aside for street lighting, and how many householders could be supplied for that amount of money with the light for which they have long and patiently waited?

The editorial in last week's Review, which may possibly have been inspired, established quite clearly that the electric light system will continue to be self-supporting; but was discreetly ambiguous on the question of extensions, and made no mention of street lights. May we suppose that this ambiguity was also inspired?

A good system of street lights is no doubt an asset to the community, but I am sure that many people will feel, as I do, that an elaborate extension of the present system is far less urgent than the supply of light in our homes.

I am frankly ignorant of the cost of electric light construction, and it may be quite possible to show that the sum allotted to street lighting would be inadequate for any considerable extension of the domestic system; but it is precisely on such points as this that the public is entitled to information.

Whilst thanking you in anticipation, Mr. Editor, for allowing me the use of your correspondence column to make this appeal, I would also ask you to add to the obligation by using such influence as you may possess with the Reeve and Council to further the object which I have in view.
Yours faithfully,
W. V. B. WEBB.

To the Editor of The Summerland Review:

Dear Sir,—Re "An Objectionable Custom," in your September 30th number, I have read with special interest your leader on this and can only say that I agree with every word.

I feel that it must be most annoying to a young couple who ever enjoyed the respect and high regard of all who know them, to have a cat-call serenade on the evening of the great day of their life.

The French call it Charivari, the Swiss, Kat-music.

As a serenade expresses love, reverence, respect, esteem or devotion of one for another, so does a Charivari express contempt, annoyance, disapproval, derision, for the person or persons it is meant for. This so-called fun at the expense of others is a remnant of savagery. There is a saying, "Scratch the Russian and you find the tartar"; so we may often say, "Scratch the white man and you will find the savage."

Were I a young husband, I would feel inclined to turn the garden hose on the crowd of assailants which would, no doubt, damp their clothes as well as their exuberant spirits.

We are approaching another yearly outbreak of savagery, namely the St. Halloween Eve, when it is considered harmless fun to disturb your neighbor's night's rest, to carry away, damage or destroy his property. Where the harmless fun comes in I always fail to see.

All these old savage customs should be done away with and one and all put their foot down and say, "We'll have none of it or come at your peril and you will get something you won't forget while you live." I beg to remain, Dear Sir,
Sincerely yours,
B. I.

Sept. 30, 1921.
I was once in a university town where the students gave a Charivari to a professor who had made himself obnoxious by interfering in some old-time university custom. The police had to interfere and made some arrests.

Ed. Note.—The above letter was referred to the Reeve, who stated that information with respect to the progress made in regard to hydro electric power had been passed on to the public as fast as each step was completed. It was only last Saturday that definite action was taken by the council on the question of necessary alterations and the submission of the bylaws to the ratepayers authorizing these.

A potato root dug up in Ashcroft yielded 107 tubers, all large enough to be cooked.

LAWRENCE D'ORSAY COMING TO EMPRESS

Edmonton, Alberta.—The Edmonton Automobile and Good Roads Association are petitioning the Government to build a highway from Edmonton to Vancouver on the old Canadian National Railway grade through the Yellowhead Pass. The roadbed at the present time is in fair shape and the bridges and culverts are all intact and only need planking to make them ready for use. The petition to the Government sets forth that the estimated cost of converting the 210 miles of abandoned C.N.R. grade into a motor road is only \$94,600. By taking advantage of Alberta's apportionment of the Federal road grant, the cost to the province would be only \$36,000, which is already available from motor fees.

Starring in "Tootlums," described as the funniest play on the road, Lawrence D'Orsay, who has many years of established fame to his credit, will appear at the Empress theatre on Friday, October 14th.

Mention of "The Earl of Pawtucket" is enough to remind showgoers of a great play made famous by a great player, and Lawrence D'Orsay has accomplished a wonderful feat in presenting a new play which bids fair to rival the one which established his reputation on this continent. Nevertheless "Tootlums" is having a wonderful reception, due to the personality behind it. Besides the star, an exceptionally capable cast has been chosen to support him in "Tootlums." There is Mr. Ernest Elton. He was leading man with Otis Skinner, later becoming stage manager for Mr. D'Orsay, and brings 30 years of experience to the construction of an important part. Then there is Miss Kitty Coleman, who was understudy to Mrs. Patrick Campbell and played Mrs. Crosby in "The 13th Chair." Afterwards she was leading lady in "The Earl of Pawtucket."

Miss Maud Henderson was leading lady with Forbes Robertson in "The Passing of the Third Floor Back," and also leading lady with Nat Goodwin. Miss Georgie Rusholme, who is Mrs. D'Orsay in private life, starred in "The Sign of the Cross" and other notable successes. Other members of

A DANGEROUS PLACE.

An Irishman visiting a friend in hospital began to take an interest in the other patients.

"What are you in here for?" he asked one.

"I've got tonsillitis, and I've got to have my tonsils removed," was the answer.

"And you?" he asked another.

"I've got blood poisoning in the arm and they're going to cut it off," was the reply.

"Holy Moses," said Pat in horror. "This is no place for me. I've got a cold in me head!"

Here is a Riddle

Q. What garment of a lady's apparel resembles a dead flea?
Ans. A "finished" jumper.

It is easier to criticise people than to appreciate them.

Naturally the girl who frankly admits that she can't sing knows that she has a keen sense of humor.

PRESENTATION - APPLES FOR THE OLD COUNTRY

We will deliver all charges paid to any part of England, Scotland and Wales, a box of specially packed O.K. APPLES for \$4.75. Orders must be received by us not later than October 22nd, and accompanied by Express money orders or marked cheque with exchange added. Write the address plainly so as to avoid mistakes. OKANAGAN UNITED GROWERS LTD. VERNON, B.C.

COAL

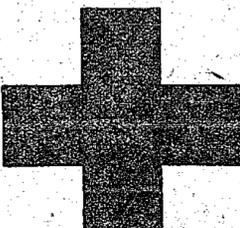

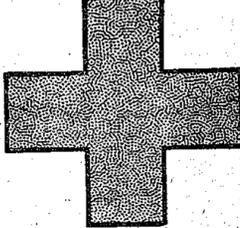

THERE is no time like the present to prepare for the future. Coal bought and placed in the bin not only gives one a "comfy" feeling about the coming of winter, but its good business. There is a material saving in the cost in buying the winter's fuel supply early in the season.

Let us fill your bin at once with the best all service coal that can be had. We have a car ordered and will be in position to supply your coal requirements in good shape at prices same as last year. Quality same as last year.

Uncle John's Poem

A CURIOUS DREAM

I dreamed one night as fellers will when everything around is still, an' what I saw it seemed to me, was true to life as it could be.

It pleased me lots to realize that I'd been wafted to the skies, where everything was bright an' fair, with music soundin' everywhere.

Each buddin' flower an' shinin' face that filled the mighty boundless space, was chanting chords so powerful sweet, I really never seen the beat!

I told an angel standin' near, that I lived in another sphere, an' bein' a stranger thataway, I couldn't think of much to say, an' while I stood to watch it all, I felt concerned for fear I'd fall.

The angel saw that I was scared, an' told me not to be afeard, remarkin' as he took my arm, that heav'n was mighty free of harm.

"This home of ourn," he says to me, "was built to last eternally. It's underpinned with love of God, an' latticed with the chastenin' rod; the mortar mixed with blood an' tears—it ort to stand a billion years. I reckon you would never guess that heav'n is built on man's distress, an' gained by one unfaillin' plan—THE GOODWILL OF YER, FELLER-MAN."

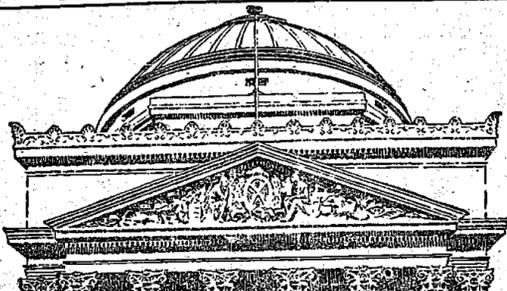

I waked at early dawn of day, an' hated that I couldn't stay; so I resolved, right then an' there, to treat my friends an' neighbors square.

From Uncle John's Poem

Where will you reside?" asked the reporter of the young couple.

per read thus—"Mr. Hardup and his bride, formerly Miss Millions, have returned from their honeymoon and will live at the old man's."

"At the Old Manse," replied the bride. And the item in the local pa-

MAKES MOVIES OF FRUIT INDUSTRY

Motion pictures of Summerland and Naramata as well as other parts of the valley will shortly be screened for advertising purposes through the efforts of the Okanagan United Growers. On Tuesday, this week, Mr. Sutton, a cinema man, visited Summerland and Naramata and took several films. One from the C. P. E. wharf here caught the tug and barge coming in to the slip, and another showing fruit cars in process of loading. From the old Smith wharf he took a picture of the loaded barge moving out and also got a view of the new storage building.

Going up to Geo. Sinclair's property, Mr. Sutton took a panoramic view of the surrounding orchards.

At Naramata a picture was obtained of the interior of the new packing house with the grading machine in operation.

An interesting film should be one taken by Mr. Sutton at the ranch of Carroll Aikins at Naramata, when the Misses Adams, Lawrence and Beaufort, three student players in Mr. Aikin's Little Theatre, who are working on the ranch during the fruit season, gave a pantomime in costume among the trees in the orchard.

Oct. 3	69	35	9.8	
Oct. 4	70	47	7.3	

SURVEYING ROUTE FOR POWER LINE

R. P. Brown, engineer with the Okanagan Water Power Co., is laying out the route for the power line within the limits of the municipality. The line will come north through the Experimental Farm, cross Trout Creek close to the railway bridge and run almost due north in a direct line over the hill to Garne's corner. From there it will follow the Giant's Head road to the junction of the roads east of St. Stephen's church. Mr. Brown has pointed out that it will be necessary to move nine telephone poles in order to give the power line a straight course.

Transmit Electricity 1000 Miles

Thirty years' experimenting ended in triumph last week when the General Electric Company succeeded in transmitting a one-million volt electrical current. In practical terms that means that it should be possible now to transmit electrical energy on a commercial scale over a distance of 1000 miles.—Canadian Financier.

Stock from the Prince of Wales' farm was shown at the Kelowna Fair this week.

The sportsmen of Merritt and district propose to stock Nicola lake with rainbow trout.

Measure the appreciation you bestow by that which you desire.

A Scotchman named MacDonald was very proud of his ancestors, and was never tired of boasting about them. On one occasion he remarked to a friend that his clan had lived before the Flood.

"Weel," replied the other, "I never heard of the name MacDonald ganging into the Ark."

"Noah's Ark?" retorted MacDonald contemptuously. "Whoever heard of a MacDonald that hadn't a boat of his own?"

Absence will strengthen friendship if the last recollections were kindly.

A writer in the Kelowna Courier says: "It is all right for Wenatchee people to beat the big drum, to claim that their orchards are the best ever and that they are the only people who can grow orchards in permanent alfalfa and get away with it; this is clever advertising, but why Okanagan people should swallow this, hook, line and sinker, why they should organize excursions to Wenatchee and fill Okanagan papers with praise of Wenatchee, we confess it heats us. On the Benches we have orchards as good as any in Wenatchee and we can make our own experiments with alfalfa, experiments which have more value than experiments in other soils and other climates. It is time local people woke up and took some pride in Kelowna and its neighborhood and ceased boosting orchards across the line.

Customs officers recently seized narcotics to the value of \$20,000 in a raid on a trans-Pacific steamer at Vancouver. It is significant that the supplies of habit-forming drugs now come from the Orient.

"Isn't it funny," asks the Gilliam Globe, "that the man who thinks he is a business man will get up in the morning from an advertised mattress and shave with an advertised razor, take off advertised underwear and put on advertised underwear, hose, shirt, collar and tie, seat himself at the table and eat advertised breakfast food, put on an advertised hat, light an advertised cigar, go to his place of business and turn down advertising on the ground that advertising doesn't pay?"

INFORMATION ON STORAGE SITES

Government Engineer Advises Council on Subject

WOULD INVESTIGATE

Possibilities of Cheap Conservation at the Head of Trout Creek

That increased storage can be more economically provided at the head waters of Trout Creek than elsewhere was the statement made by Mr. J. C. Dufresne, C.E., at an informal meeting of the members of the Council on Saturday afternoon.

This is contrary to the opinion of a number of citizens who have advised looking elsewhere for storage sites, Canyon Creek and other tributaries closer in than the head waters being advocated.

Mr. Dufresne rode down from Canyon Creek specially to fulfill an appointment with the Municipal Council and left again Saturday evening. Some of his remarks with respect to head waters are subject to confirmation on the spot, the conclusions reached being arrived at from figures he had worked upon since his return.

Describing the main reservoir as No. 1, and other reservoirs emptying into it as Nos. 2 and 3, Mr. Dufresne recommended an investigation to see if it would be possible and practicable to turn the creek flowing into No. 2 into No. 3 as No. 2 now fills and overflows as does No. 1 while No. 3 does not fill.

Mr. Dufresne is also of the opinion that an additional 150 acre feet of water could be drawn from No. 1 by clearing below the spillway and improving the channel. Further storage of approximately 250 acre feet can be had by filling No. 3. Mr. Dufresne disapproved of the practice of leaving opened beaver dams unrepaired, as frequently the break was not made good by the beavers and so much storage lost. Repairs to a beaver dam and temporary work at Whitehead Lake, raising the lake 30 inches over an area of 80 acres, would give about 200 acre feet storage, which with those mentioned above, would make a total additional storage of approximately 550 acre feet.

That Summerland now stores on the Trout Creek system a total of approximately 1,660 acre feet was the conclusion made by Mr. Dufresne. This storage is as follows:—

No. 1 Reservoir, 1,118 feet; No. 2, 358 feet; No. 3, 100 feet; Canyon Creek, 90 feet.

If the additional 550 acre feet mentioned above can be stored it will be seen that the storage capacity on the Trout Creek system would be increased by one third.

Additional storage could be secured on Crescent Lake, three miles below No. 1 dam on Trout Creek head waters, and at Deer Lake over the divide from Aeneas Creek.

Mr. Dufresne is making plans of the lakes on the Trout Creek watershed with a key map showing their location. These with other information now being compiled will be forwarded to Victoria as soon as possible when Mr. Dufresne is confident that all the information will be available to Summerland.

SELLING APPLES BY GOOD ADVERTISING

B.C. Growers Covering The Prairies With Wall Cards

British Columbia apple growers are this year making a determined effort to capture and expand the prairie market by extensive advertising, according to the Department of Agriculture.

By special sales forces and shipping arrangements they have started out to plaster every store from the Rockies east with color lithographed wall cards representing luscious fruit and an impressionistic glimpse of the orchards from which they come.

"Health Giving, Luscious Apples; Buy Them By The Box; Okanagan Apples, Perfect In Quality, Colour, And Flavour," are the inscriptions on these posters.

The wife of a shiftless man always has an excuse for him. He means well.

DANCE BRINGS \$200 TO HOSPITAL

The Ladies' Hospital Auxiliary was responsible for a most successful dance held in Ellison Hall on Friday last, when the Banff Orchestra made its first appearance of the season. The floor was in excellent shape, the music was "Banff" and the refreshments were as plentiful as they usually are at a Hospital function.

There were in the neighborhood of 300 present, including parties from Peachland, Naramata, Penticton and Oliver, and all were unanimous in pronouncing the dance a huge success. The Review learns that the Hospital will benefit to the tune of something like \$200 as a result of the dance. Hopes are expressed that the Auxiliary will stage a come-back soon "when we'll all be there."

PRAIRIE MARKETS REMAINING FIRM

Idaho Apples Sold By Auction To Pay Freight

Weather conditions during the past week have been more favorable than for some time past, the only break in an exceptionally fine week being a slight fall of snow on Wednesday evening, but this was very light and rapidly disappeared with the warm sun of Thursday. Threshing operations are now proceeding rapidly, and it is expected that with another ten days of the present weather will be completed.

Sold by auction at C.P.E. freight shed today (Friday) to cover freight charges, a car of fruit from Dover, Idaho, consigned to Calgary on Sept. 24th, containing 600 boxes of apples, 50 boxes pears, 60 boxes plums.

No. 3 and unwrapped crates of McIntosh Red apples have advanced 50c. a case wholesale. No. 1 stock still remains the same price.

Plums, prunes and peaches have just cleaned up on this market. The first shipment of American hothouse cucumbers has arrived.

The first straight-car of California Casaba melons ever shipped in to Canada is rolling to one of the local wholesale houses.

The onion market is firming up, some of the houses having raised their price to 4c. and 4 1/2c. per lb.

S. G. Freeze has sold his business here to the Good Co. of Lethbridge, who will take possession the latter part of this month.

Best celery is now being wholesaled at 4c. per lb. Butter in prints, per lb., 39c. to 40c. No change in egg, fowl, or hay prices.

SCHOOL BOARD IN DEFERRED MEETING

Uneventful Session With Barely a Quorum

There was little but routine business transacted at the postponed meeting of the school board held on Monday evening. Those present were Chairman Tait and Trustees Darkis and Sharpe, a bare quorum.

For the painting committee Chairman Tait reported that a contract had been awarded for the painting of the old high school building at a cost of \$325.00. The committee had decided to leave the painting of the larger building till next year.

With the additional high school room the janitor work is costing more. The board agreed to pay \$35 for October, and \$40 a month for November and December.

Accounts totaling \$4081.19 were approved for payment.

WIND RECORDS FOR SEPTEMBER

The average velocity of the wind for the month of September was 9.9 miles according to an abstract furnished the Review from records kept at the Experimental Station, the prevailing direction being from the south-west.

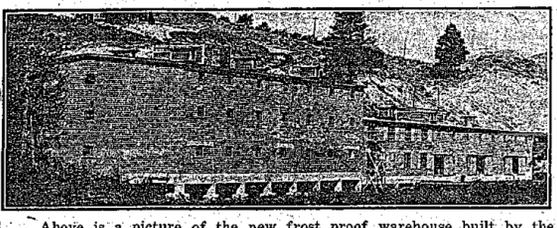

The records show that the wind attained a velocity of 50 miles on September 27th. This was the date of the strong south-east wind which knocked off thousands of boxes of apples in the northern end of the Valley and did even greater damage on the Washington side of the line, where a number of apple trees were uprooted and many thousands of boxes of apples were converted into culls.

How the things that are none of our business do interest us.

BIG FROSTPROOF STORAGE BUILDING NOW NEARING COMPLETION

Has Capacity of One Hundred and Fifty Carloads of Apples. Much Fruit Now Being Cared For

Modernly Equipped for the Economic Handling of Summerland's Growing Apple Output

Already the new frost proof storage building of the Summerland Storage Company Ltd., contains thousands of boxes of apples, and as the contractors finish their work and make more floor space available it is being stacked with apples tiered high.

The value of the new building to the fruit growers of the district, and in fact, to the community as a whole has already been emphasized, for without it, the heads of the Fruit Union say they would not have had any place to receive a large part of that portion of the apple crop which has been harvested to date. With the heavy crop of apples, the packing would have been delayed some weeks because of inability to handle the fruit in the limited space of the old buildings, so far delayed that loss from freezing would have almost certainly resulted.

Mr. W. H. Hayes, president of the Storage Company says with assurance that the new building will have saved to the fruit growers its total cost in some season.

Holds 150 Carloads

The new building is 300 feet in length with a width of 64 feet and has a capacity of 150 carloads of apples. It is divided into three sections. The southern section where the fruit is received is 112 feet long and three stories high. The middle section is 63 feet long, and the northern section 125 feet in length.

The foundation is of heavy concrete built on piling, the foundation columns being two feet square. The beams under the building are of heavy reinforced concrete two feet in depth. The walls are 12 inches thick of hollow tile construction from foundation to roof.

Frost Proof

The main floors and the roof are heavily insulated with double ply quilting. The joists of the main floor are of fir 6x12 on edge, while those of the second and third floors are fourteen inches in depth and are carried on specially trussed beams. The lower floor is constructed of two thicknesses of ship lap with tar paper between covered with quilting on top of which one and a half inches furring strips are laid ten inches from center to center and on this was placed the finished fir floor.

The upper floors are of 2x6 planking with finished fir on top. The larger windows are fitted with shutters double hung on the outside while the casement windows have shutters on the inside. The large exterior sliding doors are three inches in thickness and inside of this is another floor two inches thick fitted with counter balances and lift directly up out of the way.

Ventilation

The system of ventilation is unique. Ventilating shafts run from beneath the main floor to the roof. As the building is situated over the edge of the lake, the atmosphere has the much desired humidity and is tempered both in extremely hot or cold weather by the water of the lake. There are a number of these shafts throughout the building each with an inlet for the fresh air and an outlet at the ceiling leading through the roof.

Provision is made for two elevators, one in the three storey section which will carry apples in orchard boxes to the upper floors. The other is in the northern end for the purpose of moving the packed fruit from one floor to the other. As it has not been possible to install elevators in time to handle this year's crop escalators will be used. Already one with a capacity of 600

boxes per hour has been put in position and Yellow Newtowns are being lifted to the second floor. A second will be installed this week and a third within a few days. Stairways connect the first, second and third floors and there is another stairway at the north end of the building.

Grading Rooms

It will be noted by the accompanying picture that there are large windows in the middle section of the building. Here the grading machines are being installed with the head of the machine next to the three storey section, the floor of this latter being twenty inches higher than the floors of the packing rooms. This difference in height makes it easier to pour the apples on to the grader. There is floor space for three machines on each of the two floors. One grader has been put in on the main floor and another will be moved from the old building. Next year at least three graders will be used and it is probable that two of them will be on the upper floor.

After the fruit is packed it will pass on to the third section of the building from which it will be loaded into the cars, double trackage having been provided outside the three loading doors which will permit the loading of six cars at one time.

At the extreme northern end of the building there are double sliding doors of fire proof construction which will give access to the older buildings where more fruit may be stored awaiting shipment.

Near the middle of the building there are lavatories and wash basins for the men and women employees separated by the entrance provided for employees. A comfortable rest room for the women is also provided.

Between the receiving doors there has been installed a large dial scale of modern design with a capacity of 7,000 pounds. The building is wired throughout.

When finished the estimated cost of the property including the land will be about \$30,000. The extension of the railway spur was made at the expense of the Storage Company at a cost of about \$2700.

RESUMING WORK ON C.N.R. BRANCH

After a long period of inactivity work has been resumed on the Okanagan branch of the C.N.R. between Kamloops and Kelowna.

The work now started consists of bridge building.

All the grading of the 111 miles between Kelowna and Kamloops has been done, as has also that of the branch to Lumby.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Wind S.S.
Oct. 5-60	42	43
Oct. 6-63	42	10.2
Oct. 7-59	37	10.2
Oct. 8-62	37	9.9
Oct. 9-60	38	8.4
Oct. 10-65	43	9.8
Oct. 11-64	44	9.5

LONDON NEEDS THE B.C. APPLES

Local Dessert Apples Last Only Till January

The following is an extract from a letter from London, Eng., dated September 22nd:

"At the present moment English apples are rolling into our market in enormous quantities, and unfortunately for our growers the bulk is of very poor quality, and the prices particularly low. Lately Cox's Pippins have started, and owing to the warm weather we have had this season they are earlier than usual, and of very fine quality. It looks, however, as if this fruit (which from now forward will be practically our only 'dessert apple') will be finished in about two months' time. So that after Christmas, and in the second part of the season, our market will be wanting dessert fruit from your side.

"It must not be forgotten that on account of its geographical position, Scotland will be able to take the bulk earlier than the South, and next of course will come Liverpool and district. London, owing to its being practically in the centre of the fruit growing districts of the United Kingdom, is at the present moment better supplied than the northern markets."

PRESENTATIONS AT THE HIGH SCHOOL

Women's Institute Prizes Distributed to Winners

A very interesting ceremony took place at the High School recently when a delegation from the Summerland Women's Institute presented Dorothy Dunsdon with a prize of five dollars in honor of her having passed with the highest marks from Public School at the end of last term. Mrs. F. W. Andrew in a few well chosen words made the presentation, to which Dorothy very ably responded.

On Monday another presentation of prizes took place in the Public School under a competition organized by the Summerland Women's Institute. Eight boys and girls, winners of the school garden prizes were presented with books, the following being the successful recipients:

Division I.—Orville Dunham, Alvin Wilson, Lester Gould, Arthur Dunsdon.

Division II.—Jean Blewett, Emily Wallock, Lillian Hunt, Zoe Fudge. These prizes were presented by Mrs. Andrew and Mrs. D. J. Welsh.

The Summerland Women's Institute are to be congratulated on the success of this movement, which is very creditable and has the desired effect of bringing out the best endeavours of the children in the district in the hope of obtaining the small but much coveted prizes.

Another sale went through last week showing the belief residents have in their own district. The Jarvis lot in Prairie Valley, immediately behind the residence of H. M. Lumsden, was purchased by him. The property has on it one of the finest apricot blocks in Summerland, also cherries and Jonathan apples.

RE-ORGANIZATION OF BASKETBALL CLUB

A meeting of the Basketball Club was held on Friday at the Fruit Union, with W. Angove in the chair.

Considerable discussion took place in the meeting when it was found that the Club was unable to obtain permission to use the Gym. Arrangements are pending for the use of Empire Hall, and if possible a practice will be held this week.

Fred Baker was elected coach, and G. Guy manager, and the members are looking forward to a successful season. A captain will be elected later and with good material for a team already available, it is expected that an attempt will be made to take a team to the Coast during the winter.

HARVEST FESTIVAL AT NARAMATA

Sunday last was the occasion of the Anglican Harvest Festival, held in the Union Church, Naramata, Mr. Edgecombe of Peachland officiating in the absence of Rev. H. A. Solly.

The Church was very tastefully decorated by the Women's Auxiliary. The preacher took for his text the incident of the feeding of the multitude in the wilderness, and laid stress on the fact that to-day we are still lacking in faith, as were the disciples on that occasion.

Favorite harvest hymns, and Simpson's anthem "Let Everything That Hath Breath" were well rendered by the small but efficient choir, which never fails to respond to the training of Mr. Weaver. The congregation was fairly large, but might well have been larger in view of the special character of the service.

NO CANDIDATE IS NAMED--DEADLOCK

Yale Farmers Are Unable To Agree on Standard Bearer

Farmers of Yale riding will not place a candidate in the field at the coming election.

The convention held Tuesday at Penticton so decided. Although at first all were unanimous in wishing to see a candidate put forward to represent them, when the convention came to the point of nominations there was so much dissension that a deadlock resulted. The following names were before the meeting: L. W. Makovski of Armstrong, Col. C. E. Edgett, A. T. Howe, Brig.-Gen. Harmon of Vernon, T. J. Guinan of Princeton, and R. A. Copeland of Lumby.

As a result of the discussion, all nominees withdrew their names with the exception of Brig.-Gen. Harmon, who was not present to accept or reject nomination.

Col. Edgett, who was the Farmer-Soldier-Liberal candidate at the last by-election, withdrew on the ground that he believed that the United Farmers' organization would suffer if a candidate was placed in the field by that convention.

The Seattle Produce News Says

Owing to the "dumping" clause shipments of apples across the line will be limited this year, dealers being compelled to pay the Government the difference in the cost of production, thus protecting the markets for the home grown products. Government officials estimated the cost of production of a box of apples at \$1.50 and added to this 25c. for the grower's profit. This duty is assessed against all boxed apples irrespective of grade.

To Undergo Operation

Major H. E. Homer-Dixon of Coldstream, Vernon, will leave shortly for Philadelphia, where he will undergo still another operation made necessary by wounds received during the war. Dr. Frazier, a celebrated specialist, will perform the operation, which it is hoped will relieve the excruciating pain from which Major Dixon has been suffering for several years.

Major Dixon was a member of the 102nd Battalion and a survivor of the famous encounter at Regina Trench.

Mr. F. J. Nixon was a recent visitor to Faulder and vicinity. Mr. F. Attwell Miller who has kept a close record of Trout Creek, informed him that the Creek was never so low at this time of year than when Mr. Nixon saw it last week end.

VOTERS' LIST IN GEN. ELECTION

Dominion Statute as it Effects General Public

USE PROVINCIAL LIST

Qualified Names May Be Added by the Prescribed Procedure

One of the most important matters in connection with the general election about which little has been said publicly is the preparation of the voters' lists. For this entirely new machinery has been provided under the new Dominion Elections Act, as amended at the last session of Parliament. It is a complicated measure which is probably not very well understood by the majority of the members of Parliament themselves, much less by the general public.

The statute which governs is the Act of the Dominion Parliament of 1920, as amended by an Act of 1921. By the Act of 1920, O. M. Biggar of Ottawa is appointed chief electoral officer to exercise general direction and supervision over the conduct of elections, and extensive powers are conferred upon him.

Every person, male or female, who is a British subject by birth or naturalization; is twenty-one years of age, and has resided in Canada twelve months, and in the electoral district in which he or she seeks to vote at least two months prior to the issue of the writ of election.

Chinamen, Japanese, Hindus or Indians cannot vote except those who have served in the Naval, Military or Air Forces of Canada in the late war, and who produce a discharge to the Registrar of Voters at the time of compilation of the voters' list.

Voters' lists for the ensuing election will be compiled as follows:—The voters' list last in force for the purpose of provincial elections will be taken as the basis; that is the provincial voters' list as revised at the May Court of Revision, 1921. To this list may be added names of persons who are qualified to vote under the following procedure:

Immediately after the writ of election is received, the returning officer shall appoint a registrar of voters in each city, town or incorporated village which has a population of over 2,500 or less than 4,000 persons and one registrar for each additional 4,000 persons or part thereof. These are called urban polling divisions. The registrar shall immediately post notice in conspicuous places stating dates, hours and place of sitting. He shall sit for six days from 9 a.m. to 9 p.m., with intermissions from one to two, and six to seven o'clock, and all persons desiring to be registered as voters shall attend before him. The applicant will be examined orally as to his qualifications, and if satisfactory to the registrar his name will be placed on the list.

Sickness Cases

In case of sickness or temporary absence, a qualified person's name can be placed on the list by a relative or employer appearing before the registrar on his or her behalf. The registrar shall post copies of the list so prepared in conspicuous places.

A judge of the County Court (called the revising officer) shall then hold a court of revision, and shall continue in session six days; previous notice of the court having been advertised.

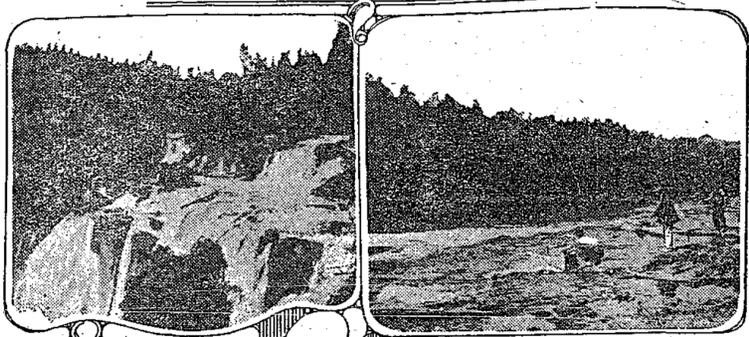

Objections will be heard by him to any name which has been placed on the list by the registrar, and any person who has neglected to appear before the registrar may apply to have his or her name placed on the list. Persons who have been refused registration by the registrar also have the right to appeal to the revising officer.

Rural Divisions

In rural polling divisions (having a population of less than 2,500) the procedure varies somewhat. A registrar will be appointed for each polling division and it will be his duty to make up a list of persons who are qualified to vote. He will post up copies of such list in two conspicuous places in the polling division and will attach a notice thereto, designating a place where electors can find him between two and six o'clock in the afternoon of the five days next following the fourteenth day before polling day. During such five days he shall add names of any

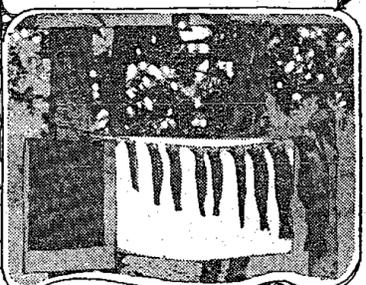

(Continued on Page 8)

Ontario's Wilderness is Sporting Paradise

AUBREY FALLS ON THE MISSISSAUGA RIVER.

A BIT OF ROUGH WATER HARD ON BOATS BUT FINE FOR FISHING. AS THIS WILL SHOW

The two hundred and seventy miles of canoeing down the Mississauga River between walls of dense forests, slipping into one exquisite lake after another and making 35 portages, is accounted the acme of outdoor pleasure by those who have been so fortunate as to have traveled this Ontario water trail.

The start is usually made from Biscotasing, 8 miles west of Sudbury, where outfits and guides can be obtained. This route passes through Bisco and Spanish Lakes, then into Spanish River where one is likely to see a dozen moose in the course of a day's journeying. Spanish and Canoe Lakes and several lakelets intervene ere Mississauga Lake, the source of Mississauga River, is reached. From here the travel is all down stream through wildly beautiful scenery.

Tall spires of pines reach heavenward above the solid wall of forest that lines either bank. Moose, deer and other wild animals often emerge from the dense woods to gaze at the passing strangers. They are seldom molested and are quite fearless and present splendid targets for the camera. Excellent fishing is at hand the whole distance—speckled trout, lake trout, bass, pike and muskies are so plentiful that one seldom casts without getting a bite. Pretty little streams come stealing through the forests to pour their silver offer-

ings into the Mississauga and to coax the travelers to leave the big river and seek the hidden charms of the hinterland. The side trips often lead to waters over which white men have never fished.

The majority of the portages are just long enough to give you a chance to get the kinks out of your calves and are a pleasure rather than a hardship. The portage at Aubrey Gorge affords a wonderful sight, that of the river surging and swirling through a quarter-mile gorge and then marking a 107 foot leap over a cliff. It takes one and

a half hours to shoot the Forty-mile Rapids, which is done with no more effort than reclining in the canoe and using the paddle now and then to keep it in the channel. The portage around Mississauga Tunnel is made by team over a good road that parallels the narrow cut in the solid rock through which the river churns its way for three miles.

The route really ends at the Canadian Camp Club House one-half hour above Sowerby, from the latter it is a 45 minute motor run to the railway at Thessalon.

Hints To Housewives

- Start corned beef to boil in cold water.
- Remove the burned surface of bread with a grater.
- Bait the mouse trap with sunflower seed.
- Equal parts of talcum powder and

- cream of tartar mixed makes a good cleaning powder for white kid gloves.
- Wash black stockings in fresh suds and rinse in very blue water.
- An egg poached in milk makes an excellent dish for the invalid.
- A washable cotton rug is a comfort in the up-to-date kitchen.

- Puff paste must be made rapidly in a cool place.
- Sow grape-fruit seeds in a fern pan and you will have a pot full of pretty and vigorous greenery.
- White stockings make excellent wash cloths. Cut the stockings open, then cut into desired size. Doubling it will make a heavier cloth. Crochet the edges.

SHIPPING RATES TO GREAT BRITAIN

The rates to Great Britain from Vernon on apples via St. John and via Panama are as follows:

Commencing on October 15th in cars heated in transit at owner's risk delivered to steamer at St. John, \$1.50 per 100 lbs. plus \$33.00 per car heating charge; ocean rate for ventilated space is 45c. per box.

Rate Vernon to Vancouver 49½c. per 100, no heating; wharfage and handling at Vancouver, 6¼c.; Panama rate refrigerated, \$1.00 per box.

There is a difference, laid down in England, of 5c. per box in favor of the trans-Canada route, and this will throw the volume of export overland; it is faster that way as well as cheaper. Later, in order to avoid risk of frost via trans-Canada route, the Panama route may induce considerable movement.

It is a good plan to keep on hand a bottle of equal parts of turpentine and raw oil. Before dusting dampen the clean dust cloth with this preparation. It will keep the floors and furniture looking bright and will remove unsightly marks and scratches.

ENGLAND WILL HAVE WORLD'S RECORD TRAIN

London, Eng., Oct. 6.—The G.W.R. train which is scheduled to cover 90.9 miles in 87 minutes breaks all pre-war records. Before the war the famous Riviera Express ran from London to Plymouth in 4 hours and 7 minutes, a remarkable performance, but the average speed was only 54.9 miles an hour, 7 miles and hour less than the average speed of the new flier. For one section the latter train is timed to travel at the rate of 78½ miles per hour for 13 minutes, which entitles it to claim to be the fastest train in the world.

The only pleasures enjoyed are those that are earned.

Consider the Old Hen--

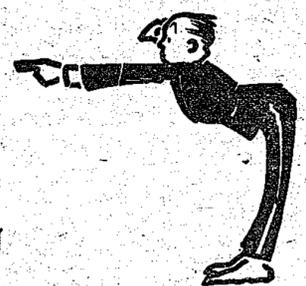

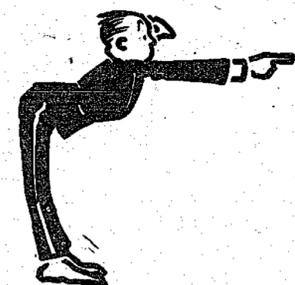

She doesn't quit scratching when worms are scarce

- ¶ We'll say she doesn't.
- ¶ On the other hand when the picking is poor she does more scratching than ever before, going over the back yard with a fine tooth scratcher, so to speak. And more than that—she invades new territory, and opens up new fields of endeavor.
- ¶ How many of us can learn a lesson from the homely hen, and when business is bad, instead of sitting idly by waiting for it to "pick up again" proceed to do more advertising—more intensive advertising—better advertising—than ever before.
- ¶ And not only that, can't we too open up new fields—reach out further by newspaper advertising, and like the old hen, increase our scratching radius.
- ¶ The Review reaches every corner of your territory and is read by more than 95 per cent. of the people whom you wish to reach.
- ¶ In other words, we furnish the scratcher.
- ¶ Here's to the old hen, long may he scratch.
- ¶ And may we have sense enough to profit by her example.

NOVEMBER 2 and 3

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs. Morgan enjoyed a month's visit from her sister-in-law, Mrs. Morgan of Alberta, who left for her home on Monday of last week.

After several months spent in Peachland and vicinity Miss Monteith left on Monday to return to England. She likes the life here very much, this being her second sojourn in the place.

Vernor Winger returned from Summerland on Monday where he has been recuperating, following an operation for appendicitis. He is gaining strength quite fast and already has begun to feel good results from the operation.

After a short visit to the north end of the Valley Captain Giggins returned home on Monday evening.

Mrs. H. Williams returned Monday evening after a few days at Kelowna Hospital with her husband, who was taken there following his run-away accident. Although in quite a serious condition physically, he had improved somewhat before she left.

Mr. and Mrs. J. Kudelka enjoyed a short visit last week from Mrs. Lumsden of Kelowna and her sister-in-law Miss Lumsden of Vancouver.

The staff of the Union packing house is doing heavy duty these days trying to rush the apples out as fast as possible. Two of the hands from the Westminster Trust orchard, Miss Doris and Mr. George Long have been added to the staff since they finished up at the ranch last week-end. The shipments are totalling up favorably this season, the local Union having shipped out nearly as many apples during the month of September this year as the total shipment last season. There have been three times as many Jonathans this year as there were last and twice as many McIntosh Reds.

Mrs. A. D. Ferguson left on Thursday morning for the East, where she goes to get her daughter's children and bring them home with her.

Mrs. McLaughlin is suffering from an injury to her knee and has been ordered by the doctors to keep quiet, a pretty hard thing for the mother of two small children to do. Mrs. Ferguson is going to take care of the children in order to give her the opportunity to carry out the orders.

Quite a number of Peachlanders journeyed to Kelowna on Thursday of last week to attend the Kelowna Fall Fair. They came home well pleased with their outing and reported having seen quite a good exhibit.

Mrs. Ekin spent Friday last visiting her husband in Kelowna.

Master Robert Williams spent Saturday last visiting his father in the hospital at Kelowna, and reports him doing as well as can be expected. Although he is obliged to keep very quiet he is not suffering much pain.

Mr. J. A. Edgecombe was a passenger south on Saturday evening to keep his appointments at the Anglican services in Summerland and Naramata. He returned Monday morning.

On Saturday evening near Mr. J. S. Drought's home a Kelowna and a Vernon car met in a head on collision. No one was hurt but considerable damage was done to the lighter car, a Ford, while the other was a McLaughlin. The damaged car was towed in to the Crystal Garage here and although pretty badly disfigured was soon on the road again.

Mr. Bell, former teacher in the Central School here, now teaching in the Armstrong School, is spending a few days in town visiting friends and old scenes, owing to being off duty from school in Armstrong while they are installing a furnace. He wheeled down on his bicycle.

The Peachland sawmill has commenced operations again, starting in this week on a run of logs which they got out previous to their shutting down. They are starting up with a fair sized crew.

Preparations are well under way for the Fall Fair being held this week, particulars of which will come out in next week's issue.

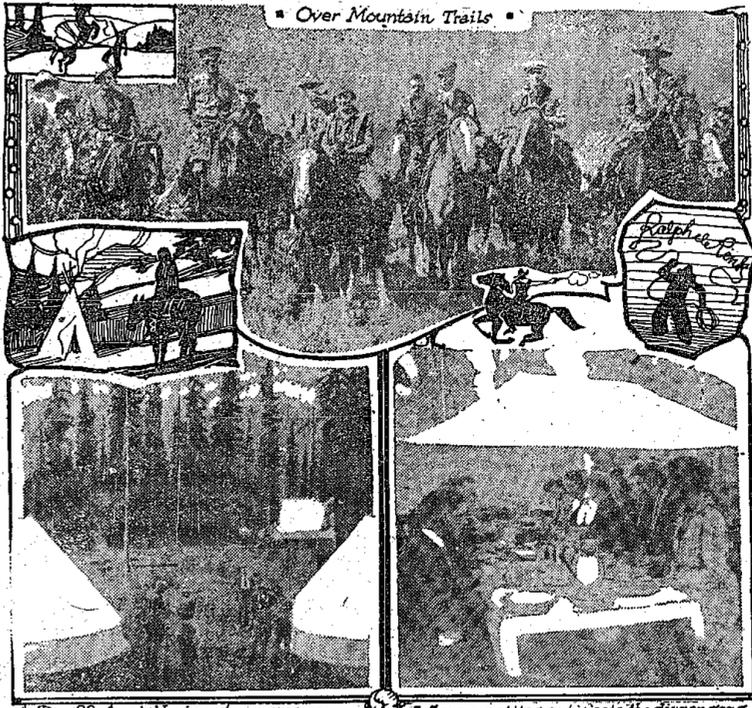

Passing The Buck

Axel, a Swede in an outfit at Fort Jay, woke up one morning with a desire to loaf. He got put on sick call, thinking it was worth trying, anyway. At the dispensary the doc looked him over, felt his pulse, and took his temperature. Then he said: "I can't find anything wrong with you." No answer.

"See here, what's wrong with you anyhow?" "Doc," replied Axel, "That bane your job."—The American Legion Weekly.

TRAILS IN CANADIAN ROCKIES FOR HIKERS AND RIDERS

Over Mountain Trails

A Banff-Assiniboine tours camp. Where appetites anticipate the dinner gong.

Tennis, golf and swimming in the Canadian Pacific Rockies are being supplemented now by "Weekly Walking and Riding Tours." Among the thousands who visit the Canadian mountain resorts every summer are many who express a desire to get back of the surrounding peaks and off the beaten tracks.

Mt. Assiniboine, known as the "Matterhorn of the Rockies," is a three days' pony trip from Banff. This Banff-Assiniboine trip has been selected for the weekly tours.

A large comfortable camp, located on an admirable site, will be maintained at Banff Middle Springs. Accommodations may be had at this camp without taking the tour. Other camps are located at convenient distances along the main tour route which goes by way of Spray Lakes.

Schedules will be elastic. Should the scenery or trout fishing—which is very fine—of a certain camp appeal to one, there is nothing to

prevent a sojourn there as long as desired prompts, then joining another party for the balance of the tour. Special side trips may be arranged to Kananaskis Lakes and Pass, Palliser Pass, Mt. Redskin, Mt. Whiteman, Marvel Lake, Lake Gloria and other points of interest. The return trip may be made by way of the Valley of the Rocks, Golden Valley, Citadel Pass, Healy Creek and Bow River.

Correspondence

Summerland, 12th October, 1921.

The Editor of The Review.

Dear Sir, As I believe you are this week publishing a description of the new building of the Summerland Storage Company, now nearing completion, and as I have by the kindness of the shareholders and directors of the Company been placed in the honorable and responsible position of President of the Company, I would like to say a few words.

The Directors of the Company with a full knowledge of the great need for the building, not only for the carrying and handling of this season's crop, but also for the safety and insurance of our ever increasing crops for future years have passed through a trying and anxious time for the past few months.

The difficulty of the situation has been greatly increased by the state of the money market, which has rendered it necessary that practically the entire cost of the building should be "dug up" this year.

How well our people have responded to the need of the situation, once the conditions were placed before them, is now a matter of history, and I for one am proud to be connected with such people.

Looking back over sixteen years spent in this community and over the many advances and improvements that have taken place during that time, I cannot help but think I believe that this thing that we have consummated this season stands in the very front rank, and I may add parenthetically, that I regard the coming of the Kootenay power as almost equally important.

If any doubt has existed in the minds of any as to the wisdom of the undertaking at this time, a glance through the building now, after one

week's partial occupancy, with another glance through the teeming orchards yet waiting to send in their burden of fruit, must surely and forever dispel any such doubt.

Without it Summerland would this season have suffered a calamity, and would have lost a sum of money surely not less than the cost of the structure.

Thanking you for the opportunity to express my thankfulness and appreciation of the energy and resourcefulness of the people of Summerland, and the success which has attended their efforts,

Yours truly, W. H. HAYES.

Prosperity brings many friends, but hard luck separates the wheat from the chaff.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

Mrs. W. J. Greig of Toronto is visiting Miss Sinclair.

Duncan Wood returned a few days ago from Hedley where he has spent the summer.

J. H. Bowering moved his Post Office from the Johnston block into the new Kelley block on Thursday of this week.

Provincial Electrical Inspector Muirhead was in town on Thursday inspecting the wiring of the new storage building.

Mrs. R. M. Ross and Mrs. T. G. Beavis were judges in the Women's Institute Section of the Peachland fall fair held on Wednesday.

Coffee will be served free between the hours of 1 and 9 on Saturday at the opening of the new meat department at the Grocerteria. See advertisement.

We clean or dye soiled or faded garments, house furnishings, etc. Let us mail you price list. Permanent Dye Works Ltd., 1641 4th Ave. West, Vancouver, B.C. 48tf

The ferry "Skookum" was re-floated on Wednesday after being on the beach at Naramata for a general overhauling. She brought to Summerland on her first trip 400 boxes of apples.

Stocks the Photographer won two medals for portraits in Vancouver at the Photographer's North West Pacific Convention in September. He would like to take a portrait of you for Xmas. Stocks, Penticon. 714

Mr. and Mrs. J. M. Robinson announce the engagement of their youngest daughter Marguerite Candice to Mr. J. Stuart Leckie, only son of Mr. and Mrs. J. A. Leckie of Penticon, the marriage to take place early in November.

A. W. Ellison Fawkes, recently engineer on the Summerland irrigation system, is now supervising engineer on a \$775,000 technical school now under construction at Hamilton, Ont. He hopes to have the building completed by September 30th, 1922.

Mr. Bert Harvey leaves to-day (Friday) with his family for an extended trip to the Old Country, and expects to be away till about February. He has called in at The Review Office to get the address of his paper changed to London, England, as he says he would not be without his "Old Home Town Paper" every week.

Mr. Ernest Wood of Adyar, India, is touring Canada on his return to England, and has consented to deliver a lecture in Summerland. He will speak in the Rialto on Thursday, October 20th at 8 p.m.; subject, "What Theosophy Is." Mr. Wood is a well known educationist and the author of several volumes on Theosophy, education, psychology and Sanscrit.

"The Summerland Review is quite in a class by itself and reflects great credit alike both to the publishers and the community." Thus writes a subscriber, a business man resident in Vancouver. The Review appreciates these kindly words of encouragement and is also grateful to the citizens who have helped to make the paper what it is.

An interesting announcement is made by Butler & Walden in their regular advertising space. Messrs. E. R. Butler and T. A. Walden have taken into partnership with them the latter's brother R. G. Walden. This firm have leased the store in the new Kelley block and will carry there a stock of furniture, and will also open a boot and shoe department.

A. J. Beer left on Sunday for a business visit to Vancouver.

T. H. Riley returned on Monday from a business visit to Vancouver.

Two weeks' cash discount sale at Milne's. Twenty-five per cent. off all lines of dry goods including silks. 714

Between Saturday evening and Monday morning the garage of T. B. Young was broken into, and apparently a quantity of gasoline taken.

Mr. and Mrs. I. Kendall of North Vancouver were the guests for a week of Mr. and Mrs. J. W. Rutherford. They returned to the Coast early this week.

A "smoker" will be held by the G.W.V.A. in the Parish Hall on Wednesday, October 19th. All members and returned men are cordially invited. 714

That the mail order houses cannot get down to their prices is the interesting statement made by the Stark Supply Co. in their advertisement in this issue.

Bert Robertson of the contracting firm of Robertson & Partners went down on Wednesday's train to the Coast. He is expected to return early next week.

A letter in answer to "Theatre-goer" has been received by The Review, but owing to there being no indication of the name of the writer, it cannot be published.

Their many Summerland friends will learn with interest that a baby girl was born to Mr. and Mrs. J. C. Kennedy on Thursday of last week at the Penticon Hospital.

Dollar Day sales are an innovation here, though old in many places. H. Finley is the first local merchant to adopt this popular and effective sales feature. See advertisement.

Mrs. Campbell-Brown of Oyama, who was the subject of an interesting write-up in a Vancouver daily, will speak in St. Andrew's Church next Tuesday. She will be well worth hearing. 714

Mrs. McIntyre and her daughter Miss Jean are leaving this week end to spend the winter in Vancouver. Both the boys are students at the University and the family will live together in the Coast city.

An account, amounting to \$39, in favor of the Summerland Hospital Society, for a Penticon resident who had been treated at that institution, was passed for payment on Wednesday evening by the Penticon Municipal Council.

Miss Peggy Sergeant, a popular member of the picking staff on the Coldstream Ranch, was drowned on Tuesday evening in Long Lake, where the canoe in which she and a friend were paddling capsized. The body was recovered next morning.

A shortage of boxes is being experienced by the Fruit Union. The Review is asked to urge all who have boxes left over after their last load has been taken to the warehouse, to return all empty boxes. This is urgent. If you cannot yourself return what boxes you have, phone the Union office.

Don't fail to hear Mr. Ernest Wood lecture at the Rialto on Thursday, October 20th at 8 p.m. Mr. Wood has been private secretary to Mr. Leadbeater, educational secretary to Mrs. Annie Besant, and has founded several colleges in India. Summerland citizens should avail themselves of this opportunity of hearing him. 714

Lucy Drinks Soda and Tells Indian Legends

Lucy, her age estimated between 126 and 148 years, is furnishing to Dr. J. C. Merriam, president of Carnegie Institute, legends and history of the Yosemite Indians. She is shown here enjoying her first automobile ride and first taste of soda-pop at Yosemite National Park, Calif. field day recently.

The Penticon Ratepayers' Association has decided against the city manager form of civic government, which has been advocated there for a year or more.

The sale of tickets for the three day Chautauqua course opened on Thursday the 13th. All indications are that the tickets will be taken up quickly. The price at which they are offered brings down the cost of the individual numbers of the course to a very low price. The course starts next Friday evening and will be continued through Saturday and Monday afternoons and evenings.

Mr. and Mrs. J. M. Robinson announce the engagement of their second daughter Gladys Catherine to Mr. Fred DesBrisay Mathers, B.A., eldest son of Mr. and Mrs. George Mathers of Vancouver, the marriage to take place early in November.

Owing to various adjustments being necessary to the switchboard The Review has been asked by Manager Atkins to announce that telephone service will be discontinued from 10 p.m. on Saturday 15th to 8 a.m. on Monday the 17th inst. in order to get the necessary work done to the system.

OUT ON THE FARM

Uncle John's Poem

"THE OLD HOME PAPER."

How fondly I dream of the old county weekly, that came every Friday when boyhood was mine; my Dad read aloud and we all listened meekly, and stayed up till midnight to hear every line.

But now how I choke on the big city daily,—I've mental dyspepsia, and ringworm and gout,—the slush in its mazes bewilders me really, till I am submerged in a quagmire of doubt.

And so I hark back to the old county weekly, the gem of my boyhood, the charm of my youth; I gaze at the riff-raff, and shake my head meekly, and long for the weekly that peddled the truth,—the old county weekly, the honest old weekly, the bald headed weekly that peddled the truth.

From Uncle John

Naramata News

Current Events of Town and District

A public meeting was recently called by the local Board of Trade to discuss the question of getting a light and power service from the Kootenay Light and Power Co. Mr. Lorne Campbell, manager of the Company, in conference with Mr. J. M. Robinson earlier in the season, had undertaken that the Company should carry secondary wires for Naramata on their main line poles when building up the Valley, and sell power and light directly to Naramata. In response to a recent letter from the Board of Trade, the Kootenay Light and Power Co. reiterated this offer, contingent upon being granted a right-of-way through the Naramata bench lands.

Some slight opposition was offered at the meeting to granting a free right-of-way, but the general feeling of the meeting was in favour of the Company's proposal, and a resolution was finally passed in favour of granting the right-of-way subject to insurance against damage to the orchards. The Company propose to run their main line poles through Naramata mid-way between the railway and the lakeshore as far as Chute Creek, then up Chute Creek to Chute Lake, and thence to Kelowna. They propose to sell light to Naramata at from 11c. to 14c. per kilowatt hour, and to install separate connections for power service, giving this latter service at from 8c. to 6c. per kilowatt hour. If Naramata and the Company come to an agreement, work will be begun very soon, and it is hoped that the service will be available to the district early in the winter.

Mr. Fred Mathers of Vancouver is spending some days in Naramata, and is the guest of Mr. and Mrs. J. M. Robinson.

Mr. Hilton Snyder was the victim of a rather bad accident on Saturday when a motor truck delivering fruit to the Union and driven by Mr. Bud Rounds, started off too quickly by mistake, causing the Fruit Union Manager a fall which rendered him temporarily unconscious. Mr. Snyder had been helping with the fruit and the unexpected starting of the truck caused the gang plank on which fruit is conveyed from truck to platform to fall, precipitating him against the truck. He sustained several cuts and bruises, but rapidly recovered, though carrying some traces yet of the accident, which might have been more serious in its results.

Dr. and Mrs. Lipssett were visitors here on Monday, motoring over from Summerland.

Mrs. Clarke of Penticton came up recently to join her husband, who is employed at the Fruit Union, and is residing at the Syndica.

Mrs. J. M. Robinson, who has been absent some days in Vancouver, returned Monday morning.

Miss Vera Partridge entertained at a very enjoyable party at the Unity Club last week in celebration of her 21st birthday. Mr. and Mrs. Fred Manchester provided the music for the evening, and dancing proceeded merrily till an advanced hour, refreshments being served during the evening. Many of the young people of the town and benches were present and report having had a thoroughly enjoyable time.

Mrs. Hancock returned last week from the Summerland Hospital. Her friends will be glad to learn that though still very weak, she is considerably improved in health.

Mrs. M. B. Smith moved last week from her house on the benches, which she has recently sold, to Mrs. Mal-

lory's house in town. Mr. and Mrs. Angell, who have been residing at the Syndica have moved into the house recently occupied by Mrs. Smith.

Some of the girl friends of Miss

MUNICIPAL VOTERS' LIST

Corporation of the District of Summerland

PRICE STREET | VERNON

Margaret Weller, whose marriage is to take place this week, gave a shower for her on Friday evening of last week at the Syndica Hotel, Mrs. Duke co-operating with the girls for the occasion. Many pretty and valuable gifts were presented to the bride-to-be. Mrs. Oakes contributed to the evening's entertainment with musical selections, and Mrs. Duke served tea.

Mrs. Reesor of Vancouver, formerly resident here, has been visiting in this vicinity and has recently been a guest of Mr. and Mrs. W. J. Robinson at Summerland. On Sunday she paid a short visit to Naramata, returning to Summerland the same day.

Invitations have been issued for the wedding of Miss Margaret Weller and Mr. T. Scafe, which will take place on Wednesday, October 12th at the Naramata Church. The bridal party and guests will proceed to the Syndica Hotel after the ceremony, where supper will be served.

An interesting visitor to town this week was Mr. McKim of Montreal, who with his brother A. McKim organized the McKim Advertising Agency of that place and built it up from small beginnings to the extensive business it now is. Mr. McKim is spending some days here as the guest of Mr. and Mrs. J. M. Robinson.

Easy going men usually go the wrong way.

Home Town Paper Week

It is very rare that the average newspaper boosts its own business, but gives quantities of space in boosting the affairs of others.

Somebody suggested that it was time for the newspapers of the country to adopt a week in which their own business should be given precedent, and The Review thoroughly endorses the idea.

The date set is the second week in November, from the 7th to the 12th, including that great world event, Armistice Day.

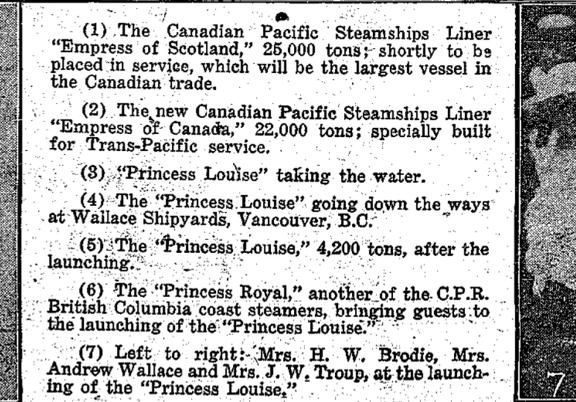

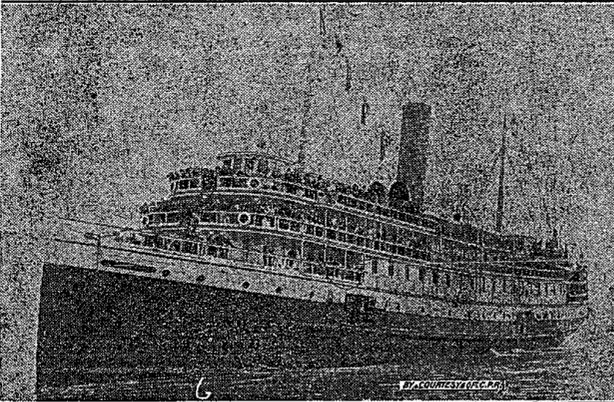

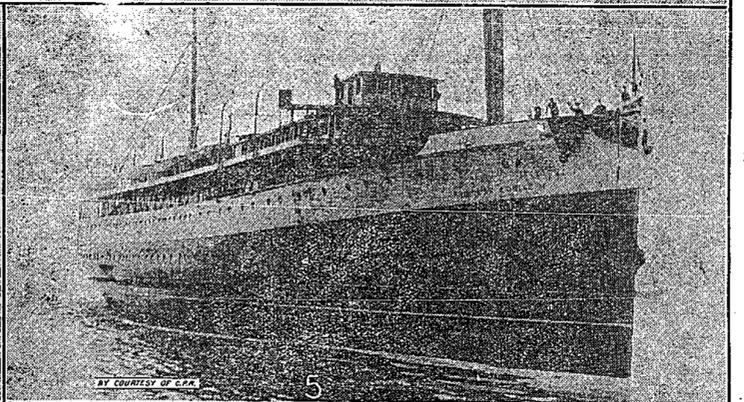

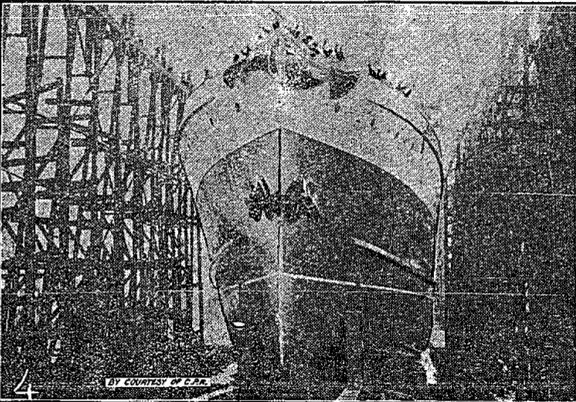

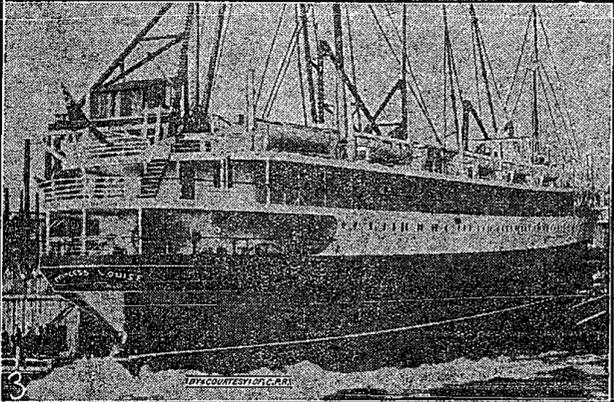

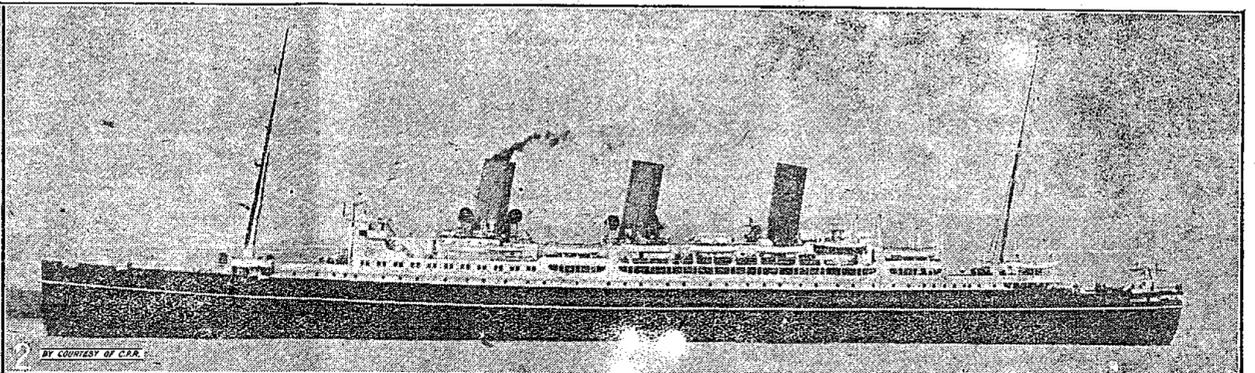

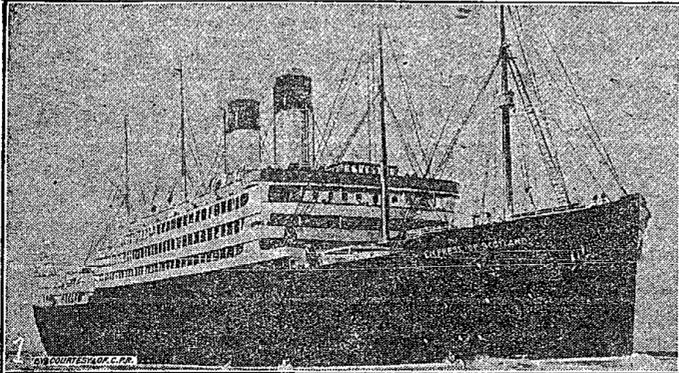

The official title for the week will be "Subscribe For Your Home Town Paper Week."

Thousands of papers will join in this event, and our readers will hear more about it as time goes on.

Ever ready to help in any cause that is in the interests of a better community, better living conditions, and better government, we now ask the readers and advertisers of The Review to turn in and lend a hand during "Subscribe For Your Home Town Paper Week," and boost for us.

REVIEW WANT ADS BRING RESULTS

SHIPS THAT MAKE CANADA GREAT

- (1) The Canadian Pacific Steamships Liner "Empress of Scotland," 25,000 tons; shortly to be placed in service, which will be the largest vessel in the Canadian trade.
- (2) The new Canadian Pacific Steamships Liner "Empress of Canada," 22,000 tons; specially built for Trans-Pacific service.
- (3) "Princess Louise" taking the water.
- (4) The "Princess Louise" going down the ways at Wallace Shipyards, Vancouver, B.C.
- (5) The "Princess Louise," 4,200 tons, after the launching.
- (6) The "Princess Royal," another of the C.P.R. British Columbia coast steamers, bringing guests to the launching of the "Princess Louise."
- (7) Left to right: Mrs. H. W. Brodie, Mrs. Andrew Wallace and Mrs. J. W. Troup, at the launching of the "Princess Louise."

It is officially announced that the Canadian Pacific Steamships Limited has been definitely chosen as the new name for the former Company known as the Canadian Pacific Ocean Services, Limited. Mr. G. M. Bosworth will continue as Chairman of the Board of Directors, and the organization and personnel will remain as at present. It is understood that this is a further step in the desire to maintain the closest relations between the railway and the steamships.

The Canadian Pacific has a large fleet of ships on the Atlantic Ocean, the Pacific Ocean, on the Great Lakes and on several of the lakes in British Columbia.

In summer the Canadian ports of the Atlantic service are Montreal and Quebec; in winter the port is St. John, N.B. The ports in Great Britain and on the Continent are Liverpool, Glasgow, Southampton, Havre, Antwerp and Danzig. The Canadian Pacific and the Navigazione Generale Italiana operate a combined service direct from Canada to Genoa, Naples and Trieste.

The steamships of the Atlantic service are Empress of Britain (15,857 tons), Empress of France (19,500 tons), Empress of Scotland (25,000 tons), Minnedosa (14,000 tons), Melita (14,000 tons), Metagama (12,600 tons), Victorian (11,000 tons), Tunisian (10,600 tons), Pretorian (7,000 tons), Scandinavian (12,100 tons), Corsican (11,500 tons), Scotian (10,500 tons), Sicilian (7,950 tons), Montreal (Italian service) is 9,500 tons. Three steamships are nearing completion or being fitted out, the Montclair, Montclare, and Montrose, of 16,000 tons each. (Ships carrying freight only are the Bosworth, Dunbridge, Bothwell, Bolingbroke and Batsford).

The quickest time across the Pacific is maintained by the Empress of Russia (16,850 tons), Empress of Asia (16,850 tons), Empress of Japan (6,000 tons), Montteagle (6,180 tons) and these will be augmented very soon by the Empress of Canada (22,000 tons), which is now almost ready for service; the Empress of India (17,500 tons), and the Empress of China (19,000 tons). Regular passenger service is between Vancouver and Yokohama, Kobe, Nagasaki, Moji, Shanghai, Manila and Hong Kong. In addition there is a supplementary freight service to Singapore, etc., by the steamships Methven and Wattawa.

The St. Lawrence Route.

Additions are being made to the Atlantic fleet to meet the increase in traffic and the requirements of the present.

The fame of the St. Lawrence route is spreading to such an extent that many wealthy American tourists and business men are commencing to use this route in preference to those from American Atlantic ports. The chief feature of attraction, apart from the comfort and service of the Canadian steamers, is the novelty in the fact that ships plying between Liverpool and Quebec can make the

trip within six days, during which time they are only out of sight of land two and a half days. The trip up the St. Lawrence with its beautiful scenery, the absence of sea-sickness and the prompt organization all make a powerful appeal. Passengers in the first and second classes, pass the immigration inspection while sailing up the river from Father Point, also have their steamer tickets exchanged for railway transportation, and their luggage examined and checked, so that they walk from the steamer to special trains in waiting, and may be on their way to their home destinations within one and a half hours after the steamer is docked.

The Empress of Scotland, 25,000 gross tonnage, will be the largest ship to enter the St. Lawrence when she runs to Quebec next summer. She was purchased a few months ago by the C.P.R. from the Reparations Commission, and was formerly the German liner, Kaiserin Auguste Victoria. During the first year after the armistice, the K.A.V. (as she was known for short) ran under the flag of the Canadian line.

Her purchase outright by the C.P.R. indicated the policy of the C.P.R. namely to meet all competition in the St. Lawrence route with an increased fleet composed of large and modern liners.

The Empress of Scotland, before running to Quebec will make a winter cruise to the Mediterranean under the charter of a New York tourist agency.

The new liner will be the largest in the Canadian Atlantic service. Her dimensions are: Length, 700 feet; breadth, 77 feet; and draft of water, 34 feet.

The Empress of Canada.

The new C. P. R. liner, the oil burning Empress of Canada is built especially for the Pacific service. The appointments will be the best and most luxurious possible to-day with particular regard to the C.P.R. standard of "Safety, Speed, Comfort."

She has an overall length of 658 feet, is 37 feet 9 inches in breadth and 53 1/2 feet in depth to the bridge deck; she has a straight stem and cruiser stern, three funnels and two pole masts. There is a continuous shelter deck with bridge, promenade and boat decks over, the former extending for the full length of the ship; two complete between decks and lower and orlop between decks at the fore and aft ends. The "Empress of Canada" has a gross tonnage of 22,000 tons; and is arranged to carry about 490 first class, 106 second class, 238 third class and 933 Asiatic steerage passengers, and crew of 547. Of the cargo spaces, a large portion has been fitted for the carriage of silk and refrigerated cargo. Her speed is about 21 knots. She is built to the highest class of Lloyd's Register full Board of Trade requirements.

The first class accommodation is arranged on the shelter deck and in

addition to the single, double and family rooms, there are several special rooms and private suites, which comprise bedrooms, sitting rooms and bathrooms. The state-rooms are fitted with the very latest type of open washbasin, with a supply of hot and cold water. The public lavatories and bath rooms have the most modern improvements in sanitary equipment. A complete system of telephones is connected with a central exchange to the rooms and offices.

The dining saloon is on the upper deck and will accommodate 328 persons. A large reception room is situated forward of the dining saloon; the passenger elevator is at the fore end. On the upper deck is also a large swimming pool, 30 ft. by 18 ft., with adjoining gymnasium and dressing rooms similar to the best clubs. The other public rooms are arranged on the promenade deck with special view to convenience and comfort. The large lounge will provide ample room for concerts and moving picture performances, with complete moving-picture operating room. There is a long gallery, specially designed room for children, Drawing Room, Writing Room, Smoke Room and Verandah. Cafe, and all are luxurious and attractive in every way. Long promenades and recreation spaces for games, dancing and sports are reserved for the use of passengers.

The second class accommodation is situated on the shelter deck at, arranged in two and four berth rooms. These staterooms are fitted similar to the first class. The Dining Saloon is on the upper deck and will accommodate 180 persons. The Lounge is on the Bridge deck aft.

In addition to a large laundry, dispensary, hospital, dark room for camera enthusiasts, etc., there are innovations in the stowage, food, kitchen and pantry service. A perfect system of mechanical ventilation is installed and all the supply and exhaust fans are capable of changing the air throughout the ship at such frequency as to assure practically pure air at all times. All thermometers and supply fans have an approved disinfecting apparatus. Electric radiators are fitted in the first and second class state rooms.

The cargo equipment is of the most modern type as well as the cargo davings being operated by twelve powerful electric winches. The steam steering gear, manoeuvring and warping machinery are also improvements on any now in use.

Throughout the ship particular attention has been devoted to the fact that the "Empress of Canada" is for Trans-Pacific and semi-tropical service; therefore the rooms are large and airy and specially designed.

The "Empress of Canada" has been preceded by two other oil burners, the "Empress of Britain," now in service, and the "Montclair," which was launched last year, and will set a new pace in comfortable passenger steamships for ocean service. Two others of the popular

"M-boat" type are in course of construction. The oil fuel bunkers of the "Empress of Canada" have a normal capacity of 4,500 tons of oil.

The Princess Louise.

No event in the history of shipbuilding on the Pacific coast has caused more interest than the launching of the new Canadian Pacific Railway coastwise passenger ship, Princess Louise, which took to the water recently at the Wallace Shipyards, North Vancouver. The launching was attended by the usual ceremony. The yards were as usual thrown open to the general public. The silver band of the Wallace Shipyards was in attendance to play the ship into the water. The Princess Louise is in an advanced stage of construction, and in a very short time after launching will be ready to hand over to her owners.

The steamer Princess Louise took the invited guests to the Wallace Shipyards. Four hundred invited guests were present at the launching of the Princess Louise. The ship presents a gorgeous spectacle in her black and red hull, with white superstructure. A band of gilt encircles the hull, and the lettering "Princess Louise" shows up prominently.

The Princess Louise is a British Columbia product, and it will cost about \$1,500,000 to complete the ship. Every effort has been put forth by the builders to make the ship the equal of any vessel of similar size and construction on the coast. It was indeed a compliment to British Columbia and the shipbuilders that the Canadian Pacific Railway decided that no better work could be done elsewhere. It is a well known fact that the big corporation aims to secure the best in any such purchase, and British Columbia is filling the order. In all probability Old Country yards will never again build coastwise passenger steamers for use on the British Columbia coast.

The Princess Louise will be the finest ship of the B. C. Coast Service. Only one ship is longer. The vessel is 330 feet overall, 43 feet beam, 18 1/2 deep, 4,200 gross tons. She is single screw and with a 4,500 horse-power engine which will develop a speed of nearly eight knots. The Charlotte is 12 feet longer, but her tonnage is 500 tons less than the Louise. With the exception of the steel and the hardwoods and glass, the materials which are going into the construction of the ship were supplied in British Columbia. When completed the ship will carry 300 passengers.

The construction of the Princess Louise is a big achievement for Canadian enterprise, and one of which Andrew Wallace, proprietor of Wallace Shipyards, may be proud.

It is just 32 years ago since Mr. and Mrs. Wallace came to Vancouver. Their first home was on Richard Street. They lived there for 11 years and then moved to their present residence at 1165 Davie Street. Mrs. Wallace was Miss

Eliza Underhill, of Grimsby, England, and married Mr. Wallace in 1886. They have two sons, Mr. Clarence and Mr. Herbert Wallace. Mrs. Troup, wife of Captain J. W. Troup, of the C.P.R. coast fleet, was sponsor for the Princess Louise; Mrs. Brodie, wife of Mr. H. W. Brodie, general passenger agent of the C.P.R., at Vancouver, was assistant sponsor.

Address by D. C. Coleman.

Mr. D. C. Coleman, Vice-President of C.P.R., paid a high tribute to Captain J. W. Troup and to Mr. Wallace — the one for his efficient handling of the Canadian Pacific Railway's coastwise fleet, and the other for his success in building the splendid new steamer.

"There is no creation of man's hands and brains in which he takes so much pride as in a ship," said Mr. Coleman, referring to Capt. Troup, "and there is no creation of his for which he is disposed to have so much affection as for a ship. The owner, the designer and the master craftsman must feel in common a thrill of exultation when a new ship takes to the water. And even for the spectators who have no direct interest, a ceremony such as that we have just witnessed must carry with it a whiff of the romance and the mystery of the sea. That feeling descends to us, of course, from our ancestors; from the mariners of old who adventured on the bosom of the sea into the unknown; to lift the veil, and to find strange lands, to lay the foundations of far-flung empires and to open the way, often through blood and suffering, for the peaceful fleets of commerce.

"While these are more prosaic times it is to be hoped that the maritime spirit will always be instinct in our race. The ship which we have just launched is not intended to plow distant seas, but she is designed to spend her life in waters which were discovered, explored and chartered by some of Britain's greatest sailors, and surely no ship ever built which promised to fulfil its destiny on a scene of more surpassing grandeur and more bewitching beauty.

Vancouver's Future.

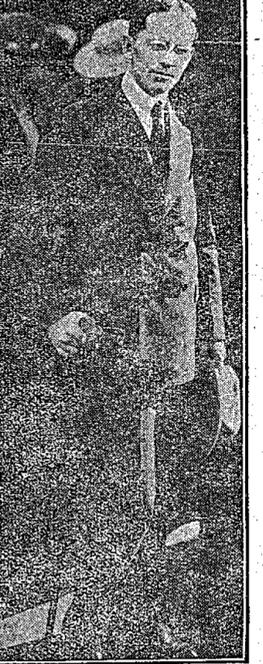

"The owners appreciate the fact that so many citizens of Vancouver and of Victoria have given an afternoon to be present at this ceremony. Speaking to a newspaper on one occasion I said 'The future of Vancouver lies on the ocean.' When we have failed since to agree with some persons about the proper measures to be taken for the development of the port, that sentence has been quoted with a view to our discomfiture. But I still believe it to be true, and if it was an indiscretion, as these critics suggest, to have said it just then, it is an indiscretion of which I am not ashamed. I believe the future holds much in store for this city and for this coast in the way of the growth of seaborne commerce. Some observers say that the future will see a greater increase in shipping on the North

Pacific than on any other sea. I hope you will forgive what may seem to be boasting when I remind you that for many years the Canadian Pacific has held for Canada the blue ribbon for supremacy in service on the North Pacific. And while prophecies are often dangerous and sometimes foolish I venture to predict that it will be a long time before any other company or any other nation will wrest that ribbon from us.

"Jim" Hill's Tribute.

"The coast steamship service of the Canadian Pacific, in which service the Princess Louise is to be employed, was once described by a non-too friendly critic of our company, Mr. James J. Hill, as the finest service of the kind in the world. As to whether or not that was an exaggerated compliment I shall leave you to judge, but I must say that the service owes its efficiency very largely to the ability and the exertions of one man—I refer to Captain J. W. Troup. When he took charge the fleet was practically nothing but a name, and supported by the wise generosity of two successive presidents of the company, he has brought it after years of enthusiastic and capable work to its present condition. Of all the officers of character and efficiency who have devotedly served the company, there is none of whom we are most justly proud. We regarded it as only appropriate that some one very dear to Jim should have a part in this ceremony, and we, therefore, felt gratified and honored when Mrs. Troup, who is so universally esteemed and admired, consented to act as a sponsor for the 'Princess Louise.' The building of a ship of this character at Vancouver is an outstanding achievement. When it is completed, I think you will agree that it is the first ship built in the Americas which will compare in design and finish with the best product of the great yards in the British Isles. You have every right to be grateful to Mr. Wallace and his associates for this demonstration of what can be done in British Columbia, and on your behalf and on behalf of the owners, who are more than satisfied with what he has done, I wish to offer Mr. Wallace our sincere congratulations and our very best thanks."

In his reply Mr. Wallace declared that it had always been his ambition to do things which no one else had done. There were one or two things he wanted yet to do before he left this terrestrial sphere for a better world. The building of the Princess Louise was a step toward them. It was changing from building freight steamers to the more difficult work of constructing passenger liners. From rivet boy to superintendent the employees of his yards had tried to make the Princess Louise the best on the ocean. He hoped at some time in the future to be called upon to build ships as big and as fine as the Canadian Pacific "Emperors."

D. C. Coleman, Vice-President of the C.P.R., at the launching of the "Princess Louise."

J. W. Troup, Captain of the C.P.R. British Columbia Coast Fleet.

High School Report

September

The High School pupils this year have taken hold of their work with considerable enthusiasm and interest. The addition of a third teacher to the staff has made possible far more detailed attention to the work of the various classes than could be given last year. The senior rooms are not so crowded and hence a healthier condition can be maintained.

For the purposes of promotion a departmental examination will be held in June, and all pupils in the first and second years will be promoted only if they obtain not less than 40 per cent. in each subject and 50 per cent. on the whole. In order that parents may note the progress of the pupils of the High School The Review has been promised a report each month to be published along with other High School items of interest.

The following is the standing according to merit in each of the classes for September:

Matriculation
 Dorothy Tomlin, Marion Beavis, Phyllis Freeman, Russell Munn, Merle Smith, Kenneth Walden, Irvine Adams, Delmer Dunham, Zanda Garnett, Carleton Clay, Jessie Monro and Ivor Harris equal, Davessa Cowan, Gordon Blewett.

Second Year
 Noel Wright, Clifford Laycox, Amy

G. H. INGLIS & CO.

Snap, \$1,100. 10 acres under irrigation, about 150 trees.

\$4,000, 5 acres, 2 1/2 planted to good varieties of trees. Good 4 room house.

\$3,000, 5 acres, about 2 1/2 planted, good bearing orchard, small house.

\$5,500, 14 acres, 7 acres planted to 11 year old trees.

Correspondence

Summerland, B.C. Oct. 10th, 1921.

Dear Sir:
 I wish to thank you for bringing my letter of the 3rd inst. to the notice of the Reeve, but I wish that you could have indicated that gentleman to make some statement for publication on the question of street lighting and its importance as compared with the lighting of our homes.

I have now read the published summary of the Electric Light Committee's report, for which you suggest I should have done well to wait, and, so far as my principal point is concerned, I am still in the dark, where I am likely to remain, I think, in more senses than one.

I am glad to be assured that your leader writer is guiltless of the intentional ambiguity of which I was inclined to suspect him, and I willingly withdraw the imputation. Otherwise there is little in my letter, as it appeared in your issue of the 7th inst., which I should wish to alter, with the exception of the spelling, and for that I disclaim all responsibility. Yours faithfully,
 W. V. B. WEBB.

Gold is tried by fire and man often by gold.
 No man's steady character will enable him to keep cool in warm weather.

VOTERS' LIST IN GENERAL ELECTION

(Continued from Page 1.)
 person eligible to vote and strike off names of those not entitled to be on. Any creditable person under oath can have the name of any person who is entitled to vote added. Any person residing in a rural polling division, whose name is not on the list, can have his or her name added on polling day upon being vouched for by a duly registered voter.

The only cure for old age is to die young.

If men had the brains they think they have their legs would not be strong enough to carry them.

SPORTSMAN.

UNLAWFUL KILLING OF PHEASANTS

Editor, Review:
 I have noticed the last three weeks or more the "Pheasant Slayer" has been busy, shooting cocks, hens and even young birds. Can this not be stopped? Why is there no fixed game guardian in this district to prevent this slaughter and capture the miscreants, who in many cases possess no licence. Why are not the names of those who have purchased licences posted in some prominent place?

PEACHLAND HAS SUCCESSFUL FAIR

Required 2 Buildings to Hold Exhibits of Women's Institute and Growers

J. W. JONES, M.L.A.

Officially Opened Fine Show. Summerland Provided Judges. School Exhibit Was Attractive Feature.

The Peachland Fall Fair was held on Wednesday, October 12th under the auspices of the Women's Institute and a committee of men, representing the community, appointed at a public meeting held early in the fall. Two halls were engaged for the exhibits as we have outgrown the one building.

The community is again indebted to the management of the Experimental Station at Summerland who brought up a nice exhibit to assist and also to the Horticultural Branch at Vernon who brought down quite a display of seed, etc. and both had able men here representing both branches and to impart information along many lines interesting to the growers. These representatives showed a keen desire to assist the grower in every possible way with his varied problems, which is very much appreciated by the members of the community.

Mr. R. H. Helmer, Superintendent of the Experimental Station and Mr. John Tait, fruit pests inspector, attended and acted as judges in the fruit and vegetable sections. The fruit, vegetables and seed display was in the Orange Hall, and the Women's Institute section and the Experimental Farm exhibit in the Municipal Hall. Tickets were sold at both buildings which admitted to either building. The entry receipts amounted to about ninety dollars and the women took in nearly twenty dollars at their refreshment booth.

To give credit where credit is due, it must be said that the Women's section was a huge success, and although the display of fruits and vegetables was somewhat disappointing as to quantity, the quality certainly was not lacking.

Mr. J. W. Jones, M.L.A., opened the fair with well chosen remarks at each building. He commented very favorably on the exhibits and among other remarks impressed the gathering with the advisability, and in fact the necessity of organization to ensure success with these undertakings, and strongly advised Peachland to get organized under an agricultural association and benefit not only at fair time by the assistance of the Government grants for that purpose, but to take advantage of the Government's proffered assistance at all times through the year. It had been hoped that Mr. J. A. MacKevie, M.P. would be here for the opening of the fair, but he arrived later in the afternoon and took a keen interest in the exhibits in both buildings.

Mention must be made of the co-operation of the teachers in responding to a call for school work exhibits. They not only encouraged it among the pupils but took a keen interest in assisting to arrange their display at the hall. There was some very fine examples along many lines of school work which was very interesting to the spectators.

As a whole the committees and those interested were pleased with the success of the undertaking. Some exhibits from this fair have been selected to be shown at the exhibition to be held at Summerland next month.

A competition worthy of mention was a number of essays on the development and growth of Peachland called for by Mr. J. M. Jones, for which he had offered a special prize of \$5. There were six in all written by children in the public school, and for the ages of the writers the essays were surprisingly interesting and good. Mr. Jones was very well pleased with them, so much so in fact that after reading them over he said they were all deserving of reward, so in addition to the prize offered for the winner he is going to reward each of the others.

Miss Young was a visitor to Kelowna on Thursday.

Dr. Buchanan and W. L. Williams went down to Pentiction on Thursday evening, the former returning

AUTOS SMASHED IN HEAD ON COLLISION

Occupants Escape Serious Injury When the Driver Makes Mistake

Meeting in head on collision, two cars came to grief at a turn in the lakeshore road a short distance south of T. P. Thornber's home about 5.30 last Friday afternoon.

O. Atkins accompanied by a Pentiction man was going south and as he rounded the turn saw approaching him a Ford, each car being on the proper side of the road. To give ample room Mr. Atkins says he turned further to the right, and as he did so the approaching car turned towards him, and though the Atkins car went up on the side of the cliff, the two came together.

The movement of the Ford is explained by the fact that it was driven by a Vancouver man in which city it is yet the practice to turn to the left, and intuitively the driver did this when he saw the other car coming.

Except for a wrecked radiator the Ford escaped damage and was able to proceed north with a new radiator the next morning. The Atkins car fared worse, the frame being badly twisted, the springs broken and the front fender wrecked, and it had to be completely dismantled.

Fortunately no one was seriously hurt. Mr. Atkins suffered a slight sprained arm and leg and was shaken up, and his companion lost a tooth.

BULLET IN SHIN

E. S. Bird of the Bank of Commerce is making good progress towards recovery following his recent accident.

With a number of friends Mr. Bird was out towards Shingle Creek and one of the group was examining or adjusting a gun when it accidentally fired, the small bullet entering Mr. Bird's leg, penetrating the shin bone. He was immediately taken to the hospital where the bullet was removed. Fortunately the bone was not shattered.

the following morning while the latter remained over for a few days.

Bert Robinson returned home on Friday morning nursing another sore finger.

R. A. F. Moore and a cousin, J. Moore of Pentiction, came up on Friday morning for a short visit, during which time they will probably take a few hikes out among the tall timbers and most likely take some sort of weapon along with them for self protection from the onslaught of a pretty set of horns.

Major Hardisty spent a couple of days in Vernon last week, returning home Saturday night.

Mr. and Mrs. Myrae and family left early last week to return to their home in Calgary after having spent the summer in Peachland, during which time they occupied the Tewart bungalow.

Mrs. A. Town returned on Monday evening after a short visit to Kelowna.

Mrs. Vernon left on Tuesday morning for Vernon to attend the annual District Convention of the Women's Missionary Society of the Methodist Church, as a delegate from the Peachland Auxiliary. She returned Wednesday evening.

Mr. Bell has returned to Armstrong to resume his duties in the school there, having received intimation that the installation of the furnace in the building was complete.

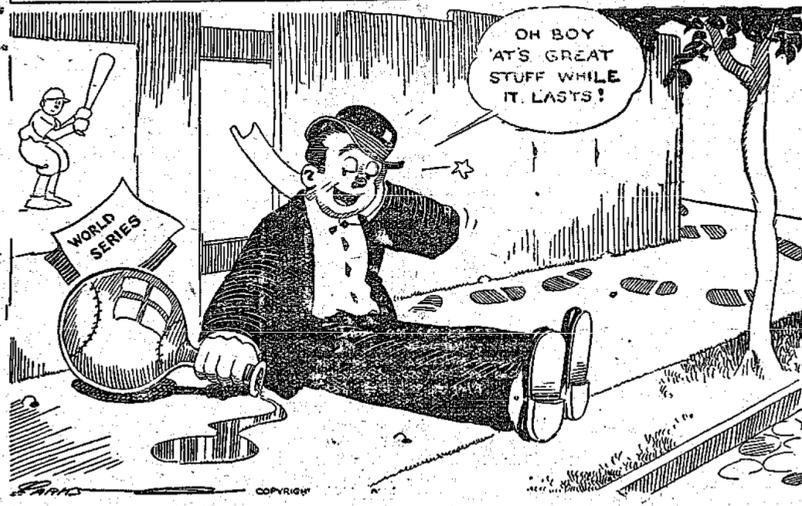

Mrs. B. M. Ross and Mrs. T. G. Beavis of Summerland acted as judges for the Women's Institute section of the fall fair held here on Wednesday.

Mr. Livingston, of Edmonton, brother-in-law of Mrs. House and Mrs. White, arrived on Wednesday to spend a week in Peachland and vicinity. Although Mr. Livingston has for some years owned the lot adjoining the Rev. C. W. Whyte lot on the south, this is his first visit to the Valley. He is favorably impressed with what he has seen in spite of the fact that it is rather late in the season to see orchard districts to advantage. He took the southbound boat at the week-end to visit Pentiction.

Mrs. A. Town left on Wednesday evening to return to Vancouver. She

PROHIBITION DOESN'T PREVENT INTOXICATION

CALL MEETING OF RATEPAYERS

Electric Power By-laws to be Discussed at a Public Meeting

VOTING NOV. 3

These and School By-law Now Ready for Decision of Ratepayers. Garnett Valley Dam Repaired. Street is Named.

Friday's session of the Municipal Council opened with but three present. The Reeve was unavoidably out of town and Coun. Kirk almost forgot the date of meeting and arrived a bit late. Councillor Bristow was appointed to the chair.

Following a discussion on the present situation with respect to the electric light service, an order was put through to the effect that no more connections be given until the Kootenay power is available.

Accounts totalling \$9,101 were passed for payment. This sum included the school requisition of \$4,081 and a sum of \$800 paid from one account to the other in the Municipal Office covering tax sale purchases.

The Fruit Union agreeing to the proposal to pay \$50 towards the cost instructions were given to build a sidewalk on the west side of Lakeshore Drive from the C.P.R. wharf to a point nearly opposite the southern end of the new storage building.

It was decided to call a meeting of the ratepayers for the purpose of discussing the electric light by-laws, and to advertise this meeting in The Review. As this meeting follows the afternoon of the regular council meeting, the hope was expressed that there would be no delegations from ratepayers at the council meeting on that occasion.

Foreman Tomlin reported that the repair work on the Garnett Valley dam was completed. Though the hole under the gate was larger than expected, the work had been done under the estimated cost.

Fearing that a proposed program of dances to be put on by outside talent would interfere with and cut down the attendance at a series of dances arranged by the Ladies' Hospital Auxiliary, a representative waited on the Council seeking protection. It was pointed out that all that could be done is to impose the local tax of \$5 and that the local organization should appeal to the patriotism of the public to support the hospital dances in preference to the others.

W. C. Kelley made a request for a piece of sidewalk 50 feet in length

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Wind	S.S.
Oct. 12	61	42	5.7	
Oct. 13	66	48	2.7	
Oct. 14	59	50	2.3	
Oct. 15	60	47	.01	3.3

Oct. 18	54	40	1.7	

CAMPIGN ON POWDERY MILDEW

R. H. Helmer Tells of Plans Being Made to Fight This Pest

VERY DESTRUCTIVE

Says Ravages of Disease Have Cost Wenatchee Growers Hundreds of Thousands of Dollars This Year.

Wenatchee has lost hundreds of thousands of dollars this season through the ravages of powdery mildew, according to a statement made to The Review by Superintendent R. H. Helmer of the Dominion Experimental Station.

Mr. Helmer and Mr. H. R. McLarty, plant pathologist at the Farm, accompanied by their wives, left here early Sunday morning and arrived at Wenatchee that evening. There they met Mr. Fisher, plant pathologist for the State of Washington, and made a careful study of the subject.

Mr. Helmer informs The Review that many orchardists who formerly shipped a large percentage of extra fancy fruit did not have ten per cent. of that grade this year because of this pest.

Wenatchee fruit growers will have to spray at least three times next year to keep mildew in check. Like the fruit growers of Summerland and other parts of the Okanagan, Wenatchee orchardists though having mildew on their trees have not paid sufficient attention to it with the result that they were hard hit this year. Our growers will suffer likewise unless concerted action is taken.

Review readers will be glad to learn that Mr. Helmer and his staff are going to make experiments on spraying for powdery mildew. A campaign against this pest will probably be started at the winter horticultural meetings.

Mr. Helmer informs The Review that blister mite is getting a strong hold in some parts of the Wenatchee district, where it has crept in from other districts. Until recently that district has been quite free from blister mite. Here again there is a similarity between that district and the fruit districts of the Okanagan. The blister mite not only attacks the leaves but the fruit, which is consequently lowered in grade. The fruit is attacked in three or four different ways and at times it is hard to identify the damage as the effects of blister mite. Spraying is the remedy.

Mr. Helmer and party arrived here at 10 o'clock Tuesday evening, having had an enjoyable trip both ways without mishap.

Irrigates By Pump

Col. F. A. Hill of Grand Forks was a visitor in Summerland on Wednesday. He represents that district on the executive of the O.U.G. and with E. R. Simpson boarded the boat that evening to attend an executive meeting at Vernon.

Col. Hill has an apple orchard of 18 1/2 acres irrigated by a pumping plant with a thirty horse power electric motor. This delivers 600 gallons per minute at a height of 112 feet and 400 gallons at 170 feet. It costs him about 90c. per hour.

WHEN IS TIME TO HARVEST APPLES?

This and Many Other Tests Are Now Being Carried Out at Experimental Farm

About 500 boxes of apples were grown on the young orchards at the Dominion Experimental Farm here this season. Practically the first shipments from the Farm were made this year, some of the earlier varieties having been shipped. A few boxes of the latter were shipped a year ago.

Asked by The Review what was being done with the later apples, Superintendent Holmer stated that they were keeping most of them for testing purposes. As to be expected, they are experimenting in everything at the Farm, even to the picking of the apples.

An early start was made on the picking of the apples now going into storage, two boxes of each variety being picked every third day, and picking will be continued until the fruit is frozen on the trees.

The last time the Valley was visited by an early frost, people did not know what to do, whether to pick their fruit or leave it for a day or two longer, and whether some varieties would not be materially damaged as compared with others.

Following the experiments being made at the Summerland Experimental Station the effects of frost in varying degree combined with sunshine or lack of sunshine after will all be carefully ascertained, and valuable information will be available to fruit growers.

CHATAUQUA PROGRAM A GOOD ONE

While talking to the Chataqua representative The Review asked him to give something in the nature of a review of the programs. After hearing his story of the programs and the way in which it has been received elsewhere this fall there remained little doubt that it would be worth while. He pointed out that there would be something for every one.

Take for instance the first evening program. It was divided into two parts. The first portion of this program is of a recital nature. Mr. Schell who is a tenor soloist is a pupil of Witherspoon of New York. His repertoire is wide in its range including as it does selections from the operas such as Faust and Rigolotto, as well as many of the more commonly known and loved songs. He is accompanied by Miss Magdelaine Moore who is a splendid accompanist as well as a finished pianist. Her piano numbers form a pleasing supplement to Mr. Schell's vocal program.

The second part of this program while it is of an entirely different nature, is no less just as true artistry. Mr. Hilburn is a master at impersonation. His work is to make us see many people or characters all in the person of himself. In doing this he uses such aids as grease, paint and wigs. One of the essential differences between the work of Mr. Hilburn and many other impersonators is that he never leaves the platform while changing from one character to another. All of his changes are made on the stage. While his characters are true to life they are nevertheless really very funny.

The second day brings two preludes by the Batting Mahler Duo. Nothing could describe the programs of these two entertainers better than the phrase "The Program Different." It consists of a group of monologues, musical readings, comic sketches, and impersonations by Miss Batting coupled with a number of very pleasing vocal solos by Miss Mahler. Miss Mahler does some of her numbers in Italian costume. There are in addition on the second day two lectures. One in the afternoon and one in the evening. J. C. Evans who lectures in the afternoon on "The Average Man" is not an orator. His lecture is more or less of a heart to heart talk. Matthew Wayman in the evening presents his lecture "Labor in Canada, Europe, and the United States" or "After the Aftermath." Mr. Wayman is a McGill man. He will be remembered by many as being associated with "The Nation." His recent return from a tour of Europe in connection with the industrial or economic branch of a great news service has provided the opportunity of hearing him.

The last afternoon program is also

(Continued from page four)

WATER BOARD IS SUGGESTED

This is Trend of Opinion Advanced During Board of Trade Discussion

ROYAL CITY FAIR

Board Decides, Following Report of S. Angove, to Request Prize List be Amended in Favor Commercial Exhibits.

That Summerland's irrigation system should be handled by a competent manager, or a commission, instead of by the council seemed to be the consensus of opinion at the Board of Trade meeting held on Monday night when a large number of members attended with President J. C. Freeman in the chair.

Two new members were elected, these being the Professor W. T. Broad and Rev. O. E. Mann.

A communication was read from the Princeton Board of Trade in regard to obtaining a definite settlement from the government as to the route of the provincial highway, and on motion of Dr. F. W. Andrew the suggestion of the Princeton Board of Trade was approved.

A letter from Kelowna Board of Trade in regard to urging the government to adopt a Sale of Shares Act similar to the one in force in Manitoba was considerably discussed, and K. M. Elliott pointed out that the Companies Act as now amended practically covered the situation. Before taking any further action in the matter, K. S. Hogg moved that a copy of Kelowna's resolution as referred to in the letter be obtained.

Mr. S. Angove attended the meeting and gave a short report on the Board of Trade exhibit at the New Westminster Fair, with some suggestions for guidance in showing at future exhibitions and was well received.

Mr. Royal Tait's suggestion that the Royal City Fair committee be asked to revise their score card so as to give the commercial fruit exhibits the highest marks met with approval, and a motion that a committee be appointed to draw up a resolution embodying this idea was introduced by F. L. Salter, when Messrs Tait, Helmer, MacLachlan and Andrew were named.

Mr. C. J. Huddleston, for the water committee, reported on their visit to the council, and stated that there appeared to have been some misunderstanding as to no answer having been received to the Board's letter. Mr. Kelley had put before the council the necessity for more storage, and the main answer from the latter was that they were waiting to get more information on the question. He stated that the council seemed desirous of taking action in the matter as soon as a definite policy had been resolved on.

There was much discussion on the water question, among the speakers being Col. Cartwright, F. L. Salter, A. E. Smith and J. Shepherd, Mr. Smith taking the stand that it should be handled entirely apart from the council, as this body had too much to do. He suggested a manager or a commission of local men.

A resolution was finally adopted that the present water committee be asked to continue their duties and go into the question as to whether it is possible under the law to have a commission apart from the council, and if so, whether it would be proposition and support itself apart necessary to make it a commercial from the municipal rates. Mr. E. R. Simpson's name was added to the water committee.

Accounts presented were passed for payment as funds were available.

Codling Moth To Be Discussed At A Meeting Of Growers

Mr. W. T. Hunter, district horticulturist, was in town on Monday on his way north from Osoyoos.

While in Summerland Mr. Hunter informed the Review that the codling moth situation was very alarming, and that a campaign to draw the attention of the fruit growers to this pest was being arranged for. It is expected that a meeting will be called for Naramata on the evening of the 10th of November, and afternoon and evening sessions will be held on the 11th and 12th at Summerland.

NARAMATA LAND MUCH IN DEMAND
 Vancouver Province Publishes Interesting Write-up of Thriving District
TELLS OF ACTIVITIES

Production is Heavy. Has the Largest Grader in the Valley. Population Increasing. Kootenay Power Coming.
 Periodical visits to the Okanagan have been made for several years by Mrs. Charlotte Gordon, representing the Vancouver Daily Province. Visiting Naramata last week she sent her paper the following "story" on that prosperous fruit district:

Ranches are so much in demand in the Naramata district that parts of the townsite have been sold off in large tracts, to be used for ranching purposes. The flat land at the lake is well adapted for fruit, and this centre of the Okanagan Valley has had a good year. The output was more even than in any part of the Valley, the flow of cherries, apricots, peaches, apples, plums and crab apples being steady and showing a very considerable increase over the crop of last year. The apple crop of the district is much ahead of the large one of 1919.

The settlers of the district have formed a co-operative company and are erecting a building for storage purposes. It will have a capacity of about six cars. The output of the district will be about \$200,000, the largest in the Valley in proportion to the amount of land under cultivation. There are about 3,700 acres under cultivation, and the land lies in a natural terrace for eight miles along the lake, every tract having an unobstructed view of the water. The situation is ideal in that it is without land currents. It has a background of unbroken mountains, and the lake

in front, thus having only lake breezes, chiefly from the north and south. So guarded, it escapes harm from frost and other troubles.
 There are two shipping houses in the town, and in one is the largest grader in the Valley, with a capacity of two thousand boxes a day, employing twenty-four packers in its operation. About thirteen thousand packages will be shipped, including 80,000 boxes of apples.

Many visitors from the prairies and the Coast have summered in Naramata and houses have been at a premium. Fine, winding roads lead to the homes on the benches—driving over the hills, loaded trucks are frequently seen and in the orchards are signs of unusual activity. Mr. Gerald Lumsden, formerly of Vancouver, is now living in his new bungalow on the benches. From his verandah a fine view is unfolded in the sweep of the lake and the hills, radiant in the autumn sunshine.

The school is overcrowded, as are all the schools in the Valley, and additions will be made this fall.
 The Board of Trade, formed this year is becoming quite a force in the district. Mr. George Weaver is president, Mr. Fred Manchester is secretary, and there is a council of six members. They declare that they have put Naramata "on the map" in many ways.
 The Kootenay Light and Power Company have promised to run their line through the district.

APPLE SHIPMENTS NOW NEAR PEAK

Vernon.—This week will see the peak of the apple movement for the season reached. In a report issued by R. M. Winslow of the B.C. Traffic and Credit Association, it is shown that shipments to the prairie provinces are much below the average, despite the fact that British Columbia has this year the biggest apple crop in its history. Car after car has gone to the Old Country, New York, Toronto, Montreal, and other eastern markets. The short crop in Ontario, New York state and other eastern apple producing sections has left the road open for the Okanagan shippers.

Shippers in the Valley are busy getting out cars for the markets and they advise early buying, for the crop will clean up quickly, as but 5 per cent. of apples are still on the trees. Compared with 1919, the previous big crop year, shippers to date are greater by a thousand cars.

TELLS COAST OF WATER SYSTEM
 More Permanent Construction on Summerland Than on Other Valley Systems
MODEL SCHOOLS

Special Correspondent Gives Readers of The Vancouver Province a Glimpse of Summerland.

Visiting the Okanagan last week on one of her periodical tours, Charlotte Gordon wrote the Daily Province thus:—
 Summerland will have an output of over \$1,000,000 this season, 700 cars being shipped out. The growers of the district are building a large storage building, the largest in the Southern Okanagan, with a capacity of 250 cars. The pre-cooler, the largest in B.C., does not meet the requirements this year and a second one will be built.

There are 4,000 acres under cultivation in the district and the irrigation system, owned and operated by the Municipality is very satisfactory. The system is supplied with water from the reservoirs on Trout Creek and Aeneas Creek with an extra storage dam on Canyon Creek.

The Experimental Farm at Summerland under the direction of Mr. R. H. Helmer, is one of the great assets of the Valley. An additional 100 acres has been leased this year. A new scheme of irrigation is now being experimented on at the Farm. Water is pumped up 300 feet from Okanagan Lake and is proving quite satisfactory.

From the natural hub of West Summerland is a series of valleys and they are showing remarkable development this year. Prairie Valley, Garnett, Morningside, Jones Flat, and Trout Creek, all have distinct characteristics.

Summerland has more concrete ditches and steel flumes than any of the other systems in the Valley. The main cement ditch is 16 feet wide and can be seen from the Kettle Valley Railroad. There has been an educational propaganda throughout the Valley this season to impress upon the people the value of perman-

ent building in the form of their irrigation systems. The open forum has been a centre for expression of opinion on every conceivable subject. Prominent speakers have given lectures and the discussions of the residents have been an educative feature in the district.
 A set of model school buildings is planned to meet the growing needs of the community and an agricultural course has been added to the regular school work.
 There are pretty traditions about Summerland. On West Shingle Creek, near by is a rude drawing on a pine tree which dates back to time immemorial. It depicts a hut and a woman's face and the story it tells is one of an Indian who, with a little home built, lost, by death, the maiden he was about to marry. In her memory he made the drawing on the pine.

APPLE MARKET IS EXPANDING

Owing to rapidly expanding markets both in the Eastern States and overseas, the apple market in British Columbia is stiffening, according to latest market reports. Although the Okanagan crop will exceed the 1919 record, the discovery of new markets has supplied a demand that will easily take care of any surplus stocks.

Okanagan United Growers officials state that owing to its fine quality the Okanagan McIntosh Red, as well as the Jonathan apple, was competing successfully with the eastern product right in its own market. In New York they are paying \$4.75 a box for both varieties and large consignments are finding their way to that centre this season.

The exchange rate also works out to the advantage of the Canadian exporter and not only offsets any anti-Canadian duty but takes care of the brokerage charges as well. The freight rate to New York only amounts to seventy-five cents a box.

This increased demand will likely cause some shortage of the best varieties in the B.C. and prairie markets. Last season large quantities of American apples came to the Coast market and kept it well supplied, but with the operation of the newly enforced anti-dumping tax practically none have been seen in Vancouver this year, and it is unlikely that this condition will be altered through the winter.

REVIEW WANT ADS BRING RESULTS

Correspondence

To the Editor of The Summerland Review, Summerland, B.C.
Dear Sir,

When, after the great war the distress and want among children in Central Europe and other parts became known, there formed themselves in England into a body, a number of courageous, warm hearted men and women for the relief of this great number of underfed and starving little ones. The name and title is

Save The Children Fund with headquarters at 26 Golden Sq., Regent St, London, W1.

Its work gained the admiration of all and the praise of the highest in the land. The administration of this fund was just perfect. With a minimum of expenses it showed a maximum of results. All enquiries in Central Europe will confirm this.

An appeal of mine through your valued newspaper at the time brought some kind contributions, which I sent to London and which were gratefully received and acknowledged in your paper.

Just now I have received the enclosed further appeal to help the starving children in the Wolga and other Russian districts, and again venture to approach your readers for any contributions they may entrust me with, assuring them beforehand that they are doing a great work and will earn thereby the everlasting gratitude of thousands upon thousands of their fellow men and women. Just imagine the feelings of mothers when they hear that kind hearts away in far off lands are sending help and that before long they may again hear the laughter of their small folk, laughter that has gone out of their little bodies, being so hungry.

Any contribution, however small, will be thankfully received and acknowledged by

Yours very sincerely,
JULIUS W. A. BLOCK.
Naramata, B.C.,
12th October, 1921.

Dry Cleaning At Home

Many women look their best in light clothes, but these are apt to become dirty quickly, so some advice on cleaning at home will be welcome.

Preparing Beforehand
A great deal of home cleaning would be much more satisfactory than it often is if articles were not allowed to become too badly soiled and if the clothes were prepared for cleaning beforehand.

Whatever cleaning medium is to be used, the garments should first be well shaken and thoroughly brushed.

A stiff nail brush, or one of the little wire brushes sold by all shoemakers should be used for white boots and shoes; this will slightly raise the surface to receive the cleaner.

Finely ground oatmeal is excellent for cleaning light suede gloves or shoes, although few women seem to realize this; while another way is to take a little wad of clean white flannel dipped into the meal and rub with a circular movement until all dirt is removed. Then lightly finish with fine sandpaper or a wire brush. When cleaning light gloves place them on the hands and rub in a big bowl of meal as if the hands were being washed.

White and pale marabou neckwear and light aigrettes will wash perfectly in a little flaked soap and water, making the lather first and well rinsing the articles after. If they are white a little blue should be added to the last water.

Marabou neckwear will curl on a silk or satin lining after washing, but this may be avoided if, when nearly dry, the article is pinned correctly into shape on a clean cloth and the cloth hung in the open on a windy day until the feathers are absolutely dry. If the weather is bad the cloth should be hung in the kitchen.

Magnesia as a Cleanser
Powdered magnesia is splendid for cleaning white felt or beaver hats, and many small light garments belonging to the children. All soiled parts should first be rubbed with the powder and then thoroughly shaken and fresh powder applied. This should remain in the garment, or hat, for at least twenty-four hours, when it may be beaten out with a light cane or small rug beater.

Some drink so many healths that they drink away their own.

Lord and Lady Byng and Captain Cook, R.N.R., Commander of S.S. Empress of France, on arrival at Quebec.

Lord Byng of Vimy, taken on board S.S. Empress of France, en route to Canada.

It makes a woman knit her brows when her husband tells the children yarns.

The softer the road, the harder, it is to travel.

Corporation of the District of Summerland

BY-LAW NO. 140

A BY-LAW TO ENABLE THE CORPORATION OF THE DISTRICT OF SUMMERLAND TO RAISE BY WAY OF LOAN THE SUM OF THIRTY THOUSAND DOLLARS (\$30,000.00) FOR SCHOOL PURPOSES.

WHEREAS it is deemed expedient to borrow the sum of Thirty Thousand Dollars (\$30,000) for school building purposes;

AND WHEREAS it is necessary for the purposes aforesaid to raise by way of loan upon the credit of the said Municipality the sum of Thirty Thousand Dollars (\$30,000) payable on the First day of December, 1921, bearing interest in the meantime payable half yearly at the rate of Seven (7) per cent. per annum, the principal of such loan when raised to be applied for the purposes aforesaid;

AND WHEREAS the said amount of Thirty Thousand Dollars (\$30,000) is the amount of the debt which this by-law is intended to create;

AND WHEREAS for the payment of the said principal it is necessary to raise the sum of One Thousand and Seven Dollars and Forty-seven Cents (\$1,007.47) by rate in each and every year;

AND WHEREAS for the payment of the said interest it is necessary to raise the sum of Twenty-one Hundred Dollars (\$2,100) by rate in each and every year;

AND WHEREAS the amount of the whole rateable land and improvements of the Corporation of the District of Summerland according to the last revised assessment roll is three million, two hundred and seventy-two thousand, eight hundred and eighty-seven dollars (\$3,272,887);

AND WHEREAS the total amount of the existing debenture debt of the said Corporation of the District of Summerland is four hundred and fifty-six thousand, seven hundred dollars (\$456,700), of which none of the principal or interest is in arrears;

NOW THEREFORE the Municipal Council of the Corporation of the District of Summerland in open meeting assembled, enact as follows:

(1) It shall be lawful for the Reeve of the said Corporation of the District of Summerland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the Municipality by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of Thirty Thousand Dollars (\$30,000), and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the Corporation of the District of Summerland for the purposes and with the objects hereinbefore recited.

(2) It shall be lawful for the Reeve to cause any number of debentures to be made for a sum not exceeding One thousand dollars (\$1,000) each, bearing interest at the rate of Seven per cent. (7 per cent.) per annum, not exceeding in the whole the sum of Thirty Thousand Dollars (\$30,000), and all such debentures shall be sealed with the seal of the said Corporation, signed by the Reeve and counter-signed by the Treasurer of the said Corporation.

(3) The said Debentures shall bear date the First day of December, 1921, and shall be made payable in twenty years from the date thereof, at the Agency of the Bank of Montreal at Summerland, British Columbia.

(4) The said Debentures shall have coupons attached for the payment of the interest at the rate of seven per cent. (7 per cent.) per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the First days of the months of June and December in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

(5) An amount shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality, in addition to all other rates, to pay interest on the debt hereby created during the currency of the said Debentures and to provide for the payment of the said debt when due.

(6) The sum of Twenty-one Hundred Dollars (\$2,100) shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality in addition to all other rates for the payment of the interest on the said Debentures.

(7) The sum of One Thousand and Seven Dollars and Forty-seven Cents (\$1,007.47) shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality in addition to all other rates for the payment of the debt hereby created when due.

(8) This By-Law shall before the final passage thereof receive the assent of the electors of the said Corporation of the District of Summerland in the manner provided for by the Municipal Act, 1914, and Amending Acts.

(9) This By-Law shall come into force and take effect on the First day of December, 1921.

(10) This By-Law may be cited for all purposes as the School Building Loan By-law, 1921.

DONE AND PASSED by the Municipal Council the Fourteenth day of October, A.D. 1921.

RECEIVED THE ASSENT OF THE ELECTORS of the Corporation of the District of Summerland the day of 1921.

RECONSIDERED AND FINALLY PASSED by the Municipal Council, signed by the Reeve and Clerk, and sealed with the Municipal Seal this day of 1921.

Reeve. Clerk.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken at MUNICIPAL OFFICE, WEST SUMMERLAND, B.C. and

NIXON has been appointed RETURNING OFFICER to take the votes of such electors.

CORPORATION OF THE DISTRICT OF SUMMERLAND. R. E. WHITE, Reeve. F. J. NIXON, Clerk.

MEATS!

—Handling Fresh Meats from stock on the hoof to the consumers' table is our method of doing business. In the old days our mothers and fathers were highly elated to have FRESH meats once a week. To-day—you may have the freshest of meat on your table for every meal. If you are living out of town phone your order; we will arrange for delivery.

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Friday by THE REVIEW PUBLISHING COMPANY, LIMITED
 Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.
 Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.
 Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.
 Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Friday, October 21, 1921

THE MIDNIGHT CALL

The doctor hears the noisy bell, and staggers to the phone, then silently he dons his garb and marches forth, alone; a chill pervades the empty street and stings his weary form, while others in their cosy cots are comforted and warm. Through all the toilsome weary day he battled with his foes, anticipating in his way a night of earned repose. But ah, how vain the doctor's hopes! The thought of peaceful rest, or happy hour to call his own, eludes his constant quest. 'Tis his to strive for competence against the rainy day, and his to heal the suffering ones that fall beside the way; 'tis his to lend the cheering smile and lift the wasted form,—no matter how the midnight chills, nor how severe the storm. For him there is no peaceful dream, no restful hour is set wherein this silent, earnest man may rally—or forget. God, give him strength to overcome his heart-aches, one and all, and lead him gently when he makes his final midnight call!

From Uncle John

Chautauqua Program Is a Good One

(Continued from Page 1).

of two parts, the first a prelude concert by the Williams Concert Company, and the second a gripping story of conditions in Russia under the Soviet Government. Mr. Dempster, who gives this lecture, "Red Russia With the Lid Off," spent several months in Russia travelling the length and breadth of the country and has come back to give an unbiased picture of the way Soviet government is working in Russia.

The last evening, or Joy Night, is given over entirely to the Williams Concert Company. Their program is a varied one, consisting of vocal solos, violin solos, piano numbers, comic sketches, and various kinds of concerted work. Many of the people have heard George Roby, and George Fromby. In hearing Mr. Williams they will think that they are again hearing these men. His work is the laugh-getting kind. Miss Adie is a real musical treat, and so is Master David Raitblat the talented young violinist. Miss Brown does some excellent numbers as well. But Joe Williams MAKES you laugh.

The Review asked the Superintendent which he considered the best program, and he said, "There is such a wide range in the programs that it is impossible to compare them. The best plan is to buy a season ticket, see them all and decide for yourself which is the best. They are all good."

SUMMERLAND'S APPLE SHOW

STAGE ALL SET FOR BIG EVENT WEDNESDAY AND THURSDAY, NOV. 2 and 3

RULES AND REGULATIONS

1.—Entrance Fees: Membership is \$2.00 annually, and there is no entry fee to paid-up members. To All Others entry fee is 10 per cent. of the first prize money.

2.—All Entries must be made to the Secretary two clear days before the opening of the Exhibition.

3.—In all classes entries must be made in the names of the producers or manufacturers only, and by such producers in person or their agent duly authorized. Any person making entries as an agent for more than one producer or manufacturer must pay the entrance fee for each of such parties.

4.—On the entry of each exhibit a card will be furnished the exhibitor, specifying the class, division, and number of entry, which card must remain attached to the exhibit during the exhibition.

5.—Though the Directors will take reasonable precautions to ensure the safety of exhibits sent to the Show, they wish it to be distinctly understood that the owners themselves must take the risk of exhibiting them, and should any exhibit be accidentally injured, lost or stolen, the Directors will give all the assistance in their power towards the recovery of same, but will not make any payment for the value thereof.

6.—Exhibits will be received at the Hall up to nine o'clock p.m. of the day previous to the opening of the Exhibition. Exception will be made for Bread and Dairy Produce, which will be received up to 10 a.m. of the first day.

7.—The judges will be appointed by the Board, and will receive notification and invitation to act.

8.—The judges will report to the Secretary on the grounds.

9.—No person shall act as a judge in any class in which he or she is an exhibitor. It shall be the duty of the judges, before leaving the grounds or town, to ascertain from the Secretary whether any protests have been filed against their awards in any classes they have judged, in order that explanations may be duly presented to the Board.

10.—In addition to the stated premiums for exhibits enumerated in the Prize List, the Judges shall have power to recommend diplomas as they may consider worthy.

11.—No person will be allowed to enter for competition more than one specimen in any one class or a division, unless the additional article be of a distinct named variety or pattern from the first.

12.—In the Fine Arts and Mechanical Department, diplomas will be awarded in addition to the money prizes to any specimen evincing great skill in its production or deemed otherwise worthy of such a distinction, on its being recommended by the Judges and approved by the Committee, to whom all such matters shall be referred.

13.—The first day of the exhibition will be set apart for awarding premiums in all divisions.

14.—Exhibitors may be required by the Directors to make a statutory declaration that the articles exhibited by them are exhibited in accordance with the Rules and Regulations of the Association. In case of any exhibitor refusing to make such declaration on being requested to do so, all premiums shall be forfeited.

15.—All one and two box exhibits must be packed on the property of the exhibitor.

16.—All box exhibits must be packed in the commercial apple box, 18 x 11½ x 10½.

17.—Apples of plate exhibits will become the property of the Association. Those apples not required for exhibition by the Department of Agriculture will be donated to the Hospital.

18.—No exhibits will be allowed to be removed before 6 o'clock of the final day of the Exhibition. If this rule is broken prize money will be withheld.

PRIZE LIST

FRUITS, VEGETABLES, ETC.

BOX EXHIBITS

All apples must be wrapped, except face layers which may be polished.

CLASS I.

Summerland District Exhibits.

Best display of Fruits, Vegetables, Cereals, Field Crops, Dairy Produce, Eggs and Honey in space allotted.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

Read A. J. Beer's Ad. on page five. 715

Forty cents is all a Chautauqua program costs if you buy a season ticket.

Hear the first Chautauqua program Friday night and you will hear the others.

A son was born to Mr. and Mrs. C. P. Evans on Friday, October 14th at Summerland Hospital.

Afternoon and evening ferry trips to Penticon, Saturday, October 22. Return fare, 50c. 715

Mrs. J. B. McLaren of Victoria arrived here on Tuesday to spend a few weeks with her niece, Mrs. T. B. Young.

Two building lots just north of T. B. Young's garage have been sold for Mrs. McIntyre to Alex. McLean by G. H. Inglis & Co.

Word has been received here that the Milne claim for \$57.50 for wages alleged due him from W. Arnett was dismissed with costs by Judge Brown.

Why not send your dye work through your local dealer? Our dye work and prices will compare favorably with any you can get. A. J. Beer. 715

S. G. Rand is putting up a building between Read's new garage and Borton's plumbing shop. When finished it will be occupied by the Summerland Lumber Company.

Rev. H. A. Solly returned to Canada from England about two weeks ago and has been attending the general Synod of all Canada at Hamilton, Ont. It may be that he will reach home this week-end.

Mather Hilburn will be accompanied by his make-up box on his visit to Summerland on Friday night. His make-up box contains many interesting characters. He will open the box and display them at Chautauqua.

Mrs. W. Beer, accompanied by her daughter Mrs. W. Bullock and the latter's six year old son, left Ottawa on Sunday to come directly to Summerland on a visit to her son, A. J. Beer.

While cranking his car Mr. T. P. Thornber had the misfortune to get a blow on the head through the engine "kicking" and is now wearing a patch on his forehead in consequence.

D. M. Gorman, the superintendent of the Chautauqua arrived in town Wednesday and he assured the writer personally that the program that is to be presented here by the Canadian Chautauqua Friday, Saturday and Monday, is really a treat and has been received with enthusiasm everywhere this fall.

Mr. C. R. McKay with his wife and children motored via the Crow's Nest Pass from Camrose, Alberta, to Summerland, making the trip in nine days arriving on the 15th. Mr. McKay, who has taken G. J. White's house for the winter, has returned to the prairie to get his crop threshed, and hopes while there to dispose of his holdings, as he would like to settle here.

While at work at the new storage building, Bob Hatfield about 8 o'clock Wednesday evening fell between the building and the freight car, striking the timbers of the spur and rolling from there into the water beneath the building. He was quickly rescued. He suffered minor injuries to head and spine and was taken to the hospital Thursday morning as a precaution against more serious developments.

Corporation of the District of Summerland

BY-LAW NO. 145

A BY-LAW TO ENABLE THE CORPORATION OF
THE DISTRICT OF SUMMERLAND TO RAISE BY WAY
OF LOAN THE SUM OF EIGHT THOUSAND DOLLARS
(\$8,000.00), FOR THE PURPOSE OF ALTERING AND
IMPROVING THE ELECTRIC LIGHT SYSTEM OF THE
CORPORATION OF THE DISTRICT OF SUMMERLAND.

WHEREAS it is deemed expedient to alter and improve the electric
light system of the said Corporation;

AND WHEREAS it is necessary for the purpose aforesaid to raise
by way of loan upon the credit of the said Corporation the sum of Eight
thousand dollars (\$8,000.00), payable

Six hundred dollars (\$600.00) on the First day of December, 1922;
Six hundred dollars (\$600.00) on the First day of December, 1923;
Seven hundred dollars (\$700.00) on the First day of December, 1924;
Seven hundred dollars (\$700.00) on the First day of December, 1925;
Eight hundred dollars (\$800.00) on the First day of December, 1926;
Eight hundred dollars (\$800.00) on the First day of December, 1927;
Nine hundred dollars (\$900.00) on the First day of December, 1928;
Nine hundred dollars (\$900.00) on the First day of December, 1929;
One thousand dollars (\$1,000.00) on the First day of December, 1930;
One thousand dollars (\$1,000.00) on the First day of December, 1931;

bearing interest in the meantime, payable semi-annually on the First days
of June and December in each year at the rate of Seven (7) per cent. per
annum, the principal of such loan when raised to be applied for the
purposes aforesaid.

AND WHEREAS the said sum of Eight thousand dollars (\$8,000.00)
is the amount of the debt which this By-law is intended to create;

AND WHEREAS for the payment of the said principal it is necessary
to raise the sum of

Six hundred dollars (\$600.00) by rate in the year 1922;
Six hundred dollars (\$600.00) by rate in the year 1923;
Seven hundred dollars (\$700.00) by rate in the year 1924;
Seven hundred dollars (\$700.00) by rate in the year 1925;
Eight hundred dollars (\$800.00) by rate in the year 1926;
Eight hundred dollars (\$800.00) by rate in the year 1927;
Nine hundred dollars (\$900.00) by rate in the year 1928;
Nine hundred dollars (\$900.00) by rate in the year 1929;
One thousand dollars (\$1,000.00) by rate in the year 1930;
One thousand dollars (\$1,000.00) by rate in the year 1931;

AND WHEREAS for the payment of the said interest it is necessary
to raise the sum of

Five hundred and sixty dollars (\$560.00) by rate in the year 1922;
Five hundred and eighteen dollars (\$518.00) by rate in the year 1923;
Four hundred and seventy-six dollars (\$476.00) by rate in the year 1924;
Four hundred and twenty-seven dollars (\$427.00) by rate in the year 1925;
Three hundred and seventy-eight dollars (\$378.00) by rate in the year 1926;
Three hundred and twenty-two dollars (\$322.00) by rate in the year 1927;
Two hundred and sixty-six dollars (\$266.00) by rate in the year 1928;
Two hundred and three dollars (\$203.00) by rate in the year 1929;
One hundred and forty dollars (\$140.00) by rate in the year 1930;
Seventy dollars (\$70.00) by rate in the year 1931;

AND WHEREAS the amount of the whole rateable land and improve-
ments of the Corporation of the District of Summerland according to the
last revised assessment roll is Three million, two hundred and seventy-two
thousand, eight hundred and eighty-seven dollars (\$3,272,887.00);

AND WHEREAS the total amount of the existing debenture debt of
the said Corporation of the District of Summerland is Four hundred
and fifty-six thousand, seven hundred dollars (\$456,700.00), of which none
of the principal or interest is in arrears;

NOW THEREFORE the Municipal Council of the Corporation of the
District of Summerland in open meeting assembled, enacts as follows:

1. IT shall be lawful for the Reeve of the said Corporation of the
District of Summerland to raise by way of loan from any person or persons,
body or bodies corporate, who may be willing to advance the same on the
credit of the Municipality by way of the Debentures hereinafter mentioned,
a sum of money not exceeding in the whole the sum of Eight thousand
dollars (\$8,000.00), and to cause all such sums so raised and received to
be paid into the hands of the Treasurer of the Corporation of the District
of Summerland for the purposes and with the objects hereinbefore
recited.

2. IT shall be lawful for the Reeve to cause any number of debentures
to be made for a sum not exceeding One thousand dollars (\$1,000.00),
each bearing interest at the rate of Seven (7) per cent. per annum, not
exceeding in the whole the sum of Eight thousand dollars (\$8,000.00), and
all such debentures shall be sealed with the Seal of the said Corporation,
signed by the Reeve, and countersigned by the Treasurer of the said
Corporation.

3. THE said Debentures shall bear date the First day of December,
1921, and shall be made payable

Six hundred dollars (\$600.00) in one year,
Six hundred dollars (\$600.00) in two years,
Seven hundred dollars (\$700.00) in three years,
Seven hundred dollars (\$700.00) in four years,
Eight hundred dollars (\$800.00) in five years,
Eight hundred dollars (\$800.00) in six years,
Nine hundred dollars (\$900.00) in seven years,
Nine hundred dollars (\$900.00) in eight years,
One thousand dollars (\$1,000.00) in nine years,
One thousand dollars (\$1,000.00) in ten years,

from the First day of December, A.D. 1921, at the Agency Branch of the
Bank of Montreal, at Summerland, British Columbia.

4. THE said Debentures shall have coupons attached for the payment
of the interest at the rate of Seven (7) per cent. per annum on the amount
of the said Debentures, and such interest shall be payable semi-annually
on the First days of the months of June and December in each and every
year and the signature to such coupons may be either written, stamped or
lithographed.

5. AN amount shall be raised and levied annually by a rate sufficient
therefor, on all the rateable land or land and improvements within the
Municipality in addition to all other rates to pay the interest on the debt
hereby created during the currency of the said Debentures and to provide
for the payment of the said debt when due.

6. THE following sums shall be raised and levied in the years de-
tailed, by a rate sufficient therefor, on all the rateable land or land and
improvements within the Municipality in addition to all other rates for the
payment of the interest on the said Debentures. the sum of

Five hundred and sixty dollars (\$560.00) in the year 1922,
Five hundred and eighteen dollars (\$518.00) in the year 1923,
Four hundred and seventy-six dollars (\$476.00) in the year 1924,
Four hundred and twenty-seven dollars (\$427.00) in the year 1925,
Three hundred and seventy-eight dollars (\$378.00) in the year 1926,
Three hundred and twenty-two dollars (\$322.00) in the year 1927,
Two hundred and sixty-six dollars (\$266.00) in the year 1928,
Two hundred and three dollars (\$203.00) in the year 1929,
One hundred and forty dollars (\$140.00) in the year 1930,
Seventy dollars (\$70.00) in the year 1931.

7. THE following sums shall be raised and levied in the years de-
tailed, by a rate sufficient therefor, on all the rateable land or land and
improvements within the Municipality in addition to all other rates, for the
payment of the debt hereby created when due: the sum of

Six hundred dollars (\$600.00) in the year 1922,
Six hundred dollars (\$600.00) in the year 1923,
Seven hundred dollars (\$700.00) in the year 1924,
Seven hundred dollars (\$700.00) in the year 1925,
Eight hundred dollars (\$800.00) in the year 1926,
Eight hundred dollars (\$800.00) in the year 1927,

Nine hundred dollars (\$900.00) in the year 1928,
Nine hundred dollars (\$900.00) in the year 1929,
One thousand dollars (\$1,000.00) in the year 1930,
One thousand dollars (\$1,000.00) in the year 1931.

8. THIS By-law shall before the final passage thereof receive the
assent of the electors of the said Corporation of the District of Summerland
in the manner provided for by the Municipal Act 1914 and Amending
Acts.

9. THIS By-law shall come into force and take effect on the First
day of December, A.D. 1921.

10. THIS By-law may be cited for all purposes as the Electric Light
Loan By-law, 1921.

DONE AND PASSED by the Municipal Council the Fourteenth day

Corporation of the District of Summerland BY-LAW NO. 143

A BY-LAW TO RATIFY AN AGREEMENT ENTERED INTO BY THE OKANAGAN WATER POWER COMPANY OF THE ONE PART AND THE CORPORATION OF THE DISTRICT OF SUMMERLAND OF THE OTHER PART.

WHEREAS on the Second day of September, A.D. 1921, the Okanagan Water Power Company and the Corporation of the District of Summerland entered into an Agreement for the sale and purchase respectively of electric power by the parties aforesaid, and the due and faithful observance of the conditions, covenants, and obligations contained in said Agreement having been guaranteed by the West Kootenay Power and Light Company Limited, which said Agreement and guarantee is as follows:—

MEMORANDUM OF AGREEMENT, made this Second day of September, in the year of our Lord, One thousand, nine hundred and twenty-one,

BETWEEN OKANAGAN WATER POWER COMPANY, a body corporate under the laws of the Province of British Columbia (hereinafter called the "Power Company")

AND THE CORPORATION OF THE DISTRICT OF SUMMERLAND, (hereinafter called "The Municipality")

1. WITNESSETH that the Power Company for and in consideration of the promise of the Municipality herein contained and of the fulfilment thereof, does hereby promise and agree to and with the Municipality to sell, furnish and deliver electric power to the Municipality, and the Municipality, for and in consideration of the promises of the Power Company herein contained and of the fulfilment thereof does hereby promise and agree to and with the Power Company to purchase and receive from the Power Company and to pay the Power Company for said Electric Power during the term, at the price and upon the terms and conditions specified and set forth as follows, to wit:—

2. ALL electric power to be delivered and received pursuant to the provisions of this Contract shall be what is commonly designated as three phase, sixty cycle, alternating current, and shall be delivered at an electromotive force of approximately Four thousand four hundred (4,400) volts at the junction of main roads at Blocks 29 and 29A, D. Lot 473, current to be metered near Block 27, D. Lot 441, in the said Municipality, slight variations in frequency and electro-motive force in either direction to be allowed. The Municipality agrees that it will so regulate the load that the power factor will be at least seventy-five (75) per cent.

3. THE Power Company shall furnish, inspect, test and keep in repair all meters belonging to said Power Company and which may be required for measuring in terms of K.W. Hours the amount of the electric power delivered under this contract, and shall install such meters near Block 27, D. Lot 441.

4. AND the Municipality shall likewise inspect, test and keep in repair the check meters installed by them at the southerly boundary of the Municipality, as well as all other meters installed by them; and the Municipality shall have the right at any time to inspect and test such meters in the presence of a representative of the Power Company appointed for that purpose upon giving the Power Company two days' written notice; and the Power Company reserves the right at any time to inspect and test such meters of the Municipality in the presence of a representative of the Municipality appointed for that purpose upon giving the Municipality two days' written notice.

5. THE Power Company and the Municipality will each install near Block 27, D. Lot 441, of the Municipality of Summerland hereinafter mentioned, one or more three phase unbalanced recording watt hour meters of sufficient capacity to register in K.W. hours the total power supplied to the Municipality.

If the variation between the measurement of the watt hour meters of the Power Company, and the measurement of the watt hour meters of the Municipality does not exceed two (2) per cent. then the mean between the two measurements shall be taken as a basis for computing the amount of power delivered and to be paid for. If the variation between the measurements exceeds two (2) per cent. then the said watt hour meters shall be checked with a proper checking meter, and whichever measurement shall be found correct shall be taken as a basis for computing the amount of power delivered and to be paid for: In the event of a meter being found incorrect, it shall be corrected or replaced by the party to whom it belongs. The testing and repair of meters shall be done in the presence of a representative of each of the parties hereto and at the expense of the party to whom such meters belong.

6. All electric power delivered under this contract shall, except as hereinafter otherwise provided, be paid for according to meter measurement, provided, however, that if any installed meter shall, during any period of time, for any reason whatsoever, fail to register correctly the electric power delivered through it, the amount of the electric power delivered through such meter or meters, during such period of time shall be estimated by the Power Company from the readings taken at the Power House of the Municipality whenever practicable, and in such other cases by determining the average daily consumption of electric power through such meter during the month next preceding any such period of time, and obtaining the multiple of such daily average, and the number of days of such period; provided, however, that if any motor or other electricity using device is, or is not, used during any such period, which was not, or was, used during any such preceding month, then the amount of electric power used on any such motor, or other electricity using device, during the said period shall be estimated according to the rated capacity of any such motor or other electricity using device, and the amount of such estimate, added to, or deducted from, the said multiple to determine the total amount of power delivered through any such meter during such period; but no correction for any inaccuracy of meter measurements shall be made in any bill rendered by the Power Company unless the party complaining of such inaccuracy shall in writing request such correction before the expiration of the calendar month in which such bill shall be rendered.

7. IF any part of the Municipality's lines, electrical machinery and apparatus, shall at any time be unsafe, the Power Company shall have the right at its option, of ceasing to deliver electric power under this Contract until the Municipality shall put such part in good and safe condition; PROVIDED however, that the Municipality shall take all reasonable precautions to keep its lines, electrical machinery and apparatus in good repair and immediately upon any such lines, machinery and apparatus becoming unsafe or out of repair the Municipality shall cause the said lines, machinery and apparatus to be made safe and in a proper state of repair in order that the delivery of power shall not be interrupted more than reasonably necessary.

8. THE Power Company shall exercise reasonable diligence and care to furnish and deliver to the Municipality electric power in accordance with its covenants herein contained, and to avoid interruption of delivery of such power under this Contract; but nevertheless, shall not be liable to the Municipality for any loss of damage which may be occasioned to the latter by any failure on the part of the Power Company so to deliver such electric power, or for any loss or damage which may be occasioned by electric power delivered by it, if such failure, interruption, loss or damage shall be caused by inevitable accident, Act of God, fire, strikes, riots, war, or any other Act or thing beyond its control.

9. WHENEVER the Power Company or the Municipality shall find it necessary for the purpose of making repairs upon or improvements in any part of its electrical generating and distributing machinery, apparatus or system, it shall have the right to suspend temporarily the delivering or receiving of electric power under this Contract, but in all such cases such reasonable notice thereof as circumstances will permit shall be given to the other party to this agreement and the making of such repairs or im-

provements shall be prosecuted as rapidly as may be practicable, and if practicable shall be made at such times as will cause the least inconvenience and loss to the other party to this Agreement.

10. ALL electric power which shall be delivered by the Power Company to the Municipality hereunder shall be paid for by the Municipality monthly during the term of this Contract and within ten days after the rendition of the monthly bill of the Power Company for the power consumed during the month next preceding. If default shall be made at any time by the Municipality in paying any money which shall become due to the Power Company hereunder, and if such default shall continue for the period of thirty (30) days after demand, then the Power Company shall have the right, at its option, to cancel and terminate this Contract or to discontinue the delivery of electric power without cancelling or terminating this Contract until all money due to it under the terms hereof shall have been paid, and this option may be exercised by the Power Company whenever and as often as such default shall occur and continue for the period of thirty (30) days after demand, and neither delay nor omission on the part of the Power Company to exercise such option at any time shall be deemed to be a waiver by it of its right to exercise the same.

11. THE Power Company shall have the right within a reasonable time after the expiration or other termination of this Contract to remove from the property of the Municipality any and all meters, wires, poles, machinery, apparatus and fixtures which it shall install thereon.

12. THE Power Company shall at all times during the existence of this Contract have, and it is hereby granted, all rights of way and easements over such streets or lanes the property of the Municipality as may be necessary for the erection, maintenance, repair, replacement or use of any and all wires, poles, machinery, apparatus and fixtures necessary or convenient for the supplying and delivery of electric power hereunder by the Power Company to the Municipality.

13. AT all times during the term of this Contract, except as herein otherwise provided, the Power Company shall furnish and deliver to the Municipality and the Municipality shall purchase and take from the Power Company, and pay the Power Company for electric power in the amounts necessary for the operating of lights and motors, or other electricity using devices installed or to be installed within the Corporation of the District of Summerland or area now being served by the local distribution of the Municipality or to be served. The price at which all electric power herein under shall be sold and delivered to and paid for by the Municipality, shall be Three and one-quarter cents (3 1/4 c.) per K.W. Hour. Power consumption to be measured by meters on the power line at the southerly boundary of the said Municipality.

14. ALL payments shall be made monthly during the term of this Contract.

15. THE Municipality will use the electric power to be furnished to it hereunder only for the purposes aforesaid.

16. THIS Contract shall continue in force for the term of Ten (10) years from and after the First day of January, One thousand nine hundred and twenty-two (1922) and thereafter until terminated by at least six months' notice in writing by either of the parties hereto to the other.

17. THE Company will complete its line and supply power hereunder as soon as it is able to do so by the use of all reasonable diligence.

18. EXCEPT as herein provided the Power Company shall not during the continuance of this Agreement supply electric power for any purpose to any consumer within the Municipality of Summerland, or the area now being served by the local distribution of the Municipality or to be served other than to the Municipality, provided that the Power Company may enter into an Agreement to supply or may supply electric power for any purpose to any industry or consumer hereafter locating in the aforesaid Municipality and not being supplied with power by the Municipality provided; however, that this right to supply electric power direct to such industry or consumer shall belong to or enure to the benefit of the Power Company only if the said industry or consumer shall use a minimum of fifty (50) horse power or more.

19. IF any difference shall arise between the parties hereto as to the meaning and purpose of this contract or the proper performance thereof, or the proper amounts to be paid or allowed pursuant to any clause thereof or as to matters of calculation or as to efficiency of plant and machinery or any other question of like nature, the same shall be referred to an Arbitrator to be named by the Managers of the respective parties, or if they cannot agree, then by any two of three arbitrators to be named as follows: One to be named by each party hereto, but if either party name one arbitrator and notify the other in writing and the other party neglect to appoint another within one week after such notice, the party giving such notice may name a second arbitrator and the two arbitrators first appointed shall appoint the third, and the decision in writing of such first mentioned Arbitrator or of any two of such three Arbitrators shall be final.

The term "Arbitrator" in this clause shall include any expert in matters so referred.

20. THIS Contract and all the provisions hereof shall run to and bind the respective parties hereto and their respective heirs, successors, representatives and assigns, subject to the same being ratified and assented to by the electors of the said Municipality.

IN WITNESS WHEREOF the parties hereto have executed these presents in duplicate.

Legal Seal of the Corporation of the District of Summerland THE CORPORATION OF THE DISTRICT OF SUMMERLAND RALPH E. WHITE, Reeve F. J. NIXON, Clerk

THE WEST KOOTENAY POWER AND LIGHT COMPANY, LIMITED, having taken communication of the Agreement hereto attached, made between the OKANAGAN WATER POWER COMPANY of the one part and THE CORPORATION OF THE DISTRICT OF SUMMERLAND, of the other part, dated the Second day of September, A.D. 1921, in consideration of the said Agreement on the part of the Corporation of the District of Summerland to be kept, observed and performed, hereby guarantees to the Corporation of the District of Summerland, the due and faithful observance and performance by the Okanagan Water Power Company of the said Agreement and of each and every of the conditions, covenants and obligations in the said Agreement contained on the part of the Okanagan Water Power Company to be observed and performed.

IN WITNESS WHEREOF THE WEST KOOTENAY POWER AND LIGHT COMPANY, LIMITED, has hereunto caused its Corporate Seal to be affixed and the hands of its proper officer in that behalf to be set this Seventh day of September, A.D. 1921.

Witness OLIVE GAIRNS THE WEST KOOTENAY POWER AND LIGHT COMPANY, LIMITED JAMES J. WARREN, Managing Director

Legal Seal of the West Kootenay Power and Light Company, Limited

AND WHEREAS it is deemed expedient to pass this By-Law ratifying the said Agreement, subject to the same being approved by the electors of the said Corporation of the District of Summerland,

NOW THEREFORE the Municipal Council of the Corporation of the District of Summerland in open meeting assembled enacts as follows:—

1. That the said Agreement between the Okanagan Water Power Company and the Corporation of the District of Summerland hereinbefore referred to, be and the same is hereby ratified and confirmed.

2. This By-Law shall, before the final passing thereof, receive the assent of the Electors of the Corporation of the District of Summerland in the manner provided by the Municipal Act 1914 and Amending Acts.

3. This By-Law may be cited for all purposes as the "Okanagan Water Power Company Agreement Approval By-Law 1921."

The National Crisis

"My appeal is to the whole people; to every man and woman who wants to do right by this country; to everyone who breathes the spirit of our fathers who founded this British Dominion." —ARTHUR MEIGHEN

THE Election to be held December 6th will be the most momentous in Canadian history; for as men and women vote will depend the economic stability, the political stability and, indeed, the national stability of this country.

Today we find group striving against group, class against class, the industrial and financial structure of the country assailed by false and unsound doctrines and theories, while our great neighbour to the south has adopted a trade exclusion policy directed against Canada's vast agricultural interests.

The currencies of nearly every country in the world are depreciated. The Canadian dollar in the United States is subject to a heavy discount causing a loss of over one hundred million dollars in exchange annually.

Europe is overwhelmed with war debts—unemployment is acute—and the restoration to pre-war conditions is slow.

While Canada is in a much more favorable condition than many countries, yet there is evidence of stagnation, instability, unemployment and lack of confidence.

Taxes are heavy because of the country's efforts in the Great War, but have become burdensome on account of the misconceived policies and blunders of Governments that directed Canada's affairs prior to 1911.

These conditions are largely the direct aftermath of the war, but they must be dealt with fearlessly and constructively. This is no time to consider experimental changes, or the theories of visionaries.

This is no time for Crerar and his Free Trade policy. This is no time for King and his wobbling "charfed" policies, varying with each provincial boundary.

It is the time to cling to orderly, stable Government in the interest of all the people; to be guided by the experience of the past, proceeding upon lines that have been proven sound.

It is the time to place the destinies of Canada again in the hands of a Government led by a sane, courageous Canadian who has safely brought the country through the trying years of reconstruction, and upon whom we can rely to retain and initiate policies in the interest, not of a group on class but of all the people.

It is the time to support Arthur Meighen and his Candidates.

Meighen will lead us through

The National Liberal and Conservative Party Publicity Committee

4. This By-Law shall come into force and take effect on the First day of December, A.D. 1921.

DONE AND PASSED by the Municipal Council the Fourteenth day of October, A.D. 1921.

RECEIVED THE ASSENT of the Electors of the Corporation of the District of Summerland the day of A.D. 1921.

RECONSIDERED AND FINALLY PASSED by the said Municipal Council, signed by the Reeve and Clerk, and sealed with the Municipal Seal the day of A.D. 1921.

Naramata News
Current Events of Town and District

Pretty Church Wedding
An event of much interest to residents of Naramata took place on Wednesday evening, October 12th, when Miss Daisy Weller and Mr. Thos. Scaife, both of this place, were married at Naramata Church.

The church was decorated for the occasion by the On-we-go girls club, which numbered among its members many friends of the bride. Masses of clematis mingled with fern and autumn leaves were banked against the railing at the front of the church and formed an archway over the centre aisle. Asters of many colors, Jack-o'-Lantern, and hollyhocks were also used in profusion, making a very pleasing effect.

The bridal party entered the church to the strains of Lohengrin's Bridal Chorus, played by Miss Emily Sievers. The bride was accompanied by Mr. J. E. Smith, who gave her away, and was attended by Miss Enid Rayner as bridesmaid, and by three little girls, Eileen Horswill, Isabel Bailey, and Ada Bailey as flower girls. Rev. Mr. Livingstone performed the ceremony. Mr. Horswill acted as groomsmen.

The bride looked very pretty in a dress of white georgette, with veil and orange blossoms, and carrying a bouquet of pink and white roses and carnations. Miss Enid Rayner, her bridesmaid, wore blue crepe-de-chine with touches of gold and carried pink and white asters, while the three little flower girls were frocked in white with blue ribbons and sashes and carried bouquets of mauve and white. During the signing of the register Miss Beryl May sang very sweetly "O Rest in the Lord."

The bridal party left the church while the organist played Mendelssohn's Wedding March, and motored to the Syndica Hotel, where a reception was held and supper served. Many guests were present. Mr. Horswill proposed a toast to the bride and groom, Mr. Scaife responding briefly and appropriately. Many beautiful and useful gifts were received from friends of the bride and groom.

After the supper, Mr. and Mrs. Scaife left by special ferry for Summerland, from which point they left later for points further up the lake.

Moving Many Apples
The floor space at the large, Union building, as well as at the older building is becoming pretty well filled with apple boxes. The Fruit Union expects to have the apples all gathered into the building for storage by November 10th, but packing will continue considerably beyond that date.

Wagners were being packed on Monday, and are being brought in now in large quantities. Jonathans are practically over, though there will be some small lots yet to run through. Picking will be practically over by the end of the week.

Mrs. Town of Vancouver, who has been spending some time in Summerland and other parts of the Valley, paid a short visit to Naramata at the end of the week, visiting Mr. and Mrs. J. M. Robinson.

Mr. Fred Mathers, who has been spending a week here, left Monday morning for Vancouver.

Mr. Lindsay, at one time a rancher on the prairie, and more recently at

WATER DISTORTS BEAUTY BEFORE CAMERA

Trying to photograph even a champion swimmer, through the water gets funny results—as this picture proves. It was taken off Brighton Beach, Long Island, the other day, as the champion American swimmer was finishing in front.

Her name is Miss Ethelda Bleibtrey of New York. She is the champion woman swimmer of the world, having won her crown at the Olympic games in Antwerp last year. In the big race last week, she clipped 29 seconds off the old record, swimming the three and one-half miles in 56:27 minutes.

the northern end of the Valley, spent some time here at the end of last week, in the course of a tour of the Valley.

The "Skookum" which was drawn up for repairs at Naramata for some days, is in commission again, after receiving a coat of paint to the hull and some repairs. The work was done by Mr. Scaife. The Skookum took the afternoon trip to Penticton last Saturday, this trip having been cancelled the previous Saturday, owing to there being only one boat in service at the time. A very heavy sea was encountered on the afternoon trip to Penticton, a wind of considerable violence blowing from the south. It is expected that the Trepanier will also be beached for repairs and a coat of paint at an early date.

Miss Sarah Doble celebrated her 12th birthday on Monday, October 17th. Miss Alice Cross, Miss Standen, and Miss Wilson were her guests upon this occasion.

Mr. Allie Noyes, who has been suffering from an affection of the hand, is reported as being somewhat better.

Mr. Mallory is still shipping tomatoes, sending out 40 crates on Monday, October 17th.

Mr. Kenyon, who has been away for some weeks on a trip to Vancouver, returned on Friday to her home here.

Following upon a growth of activity in prohibition circles lately, it was decided to re-organize the W.C.T.U. in this place, and a meeting was held for this purpose at the home of Mrs. Ameron on Friday night of last week. Officers were elected as follows: President, Mrs. Fred Young; Vice-President, Mrs. Ameron; Secretary-Treasurer, Mrs. J. O. Hughes; Corresponding Secretary, Mrs. Irwin. A meeting was arranged to be held at the same place on Tuesday, October 18th, when plans of work will be discussed.

A party consisting of Mr. and Mrs. J. O. Hughes, Mrs. M. B. Smith and Mr. and Mrs. Mallory, motored to Penticton on Saturday night to the show, returning later to tea at Mrs. Hughes'.

PEACHLAND HAS SUCCESSFUL FAIR
(Continued from Page 1.)
expected to visit in Summerland and Penticton on her way through.

Dr. and Mrs. Buchanan received word last week of the birth of a son to their daughter Mrs. Ian Sutherland.

Mrs. Vicary and daughter spent the week-end in Penticton, going down Friday night and returning Monday morning.

J. Duncan of Westbank came in on Friday evening to pay a visit to his sister Mrs. H. McDougall before leaving on a trip to the Coast.

Mr. and Mrs. Dorland and son Hugh were visitors to Kelowna on Saturday.

Eddy Williams spent Saturday last visiting his father in the Kelowna Hospital. He states that his father told him he expects to come home soon.

Rev. Isaac Page came up from Penticton on Sunday to fill his appointment at the Baptist Church. He was accompanied by Mr. Hopkins.

Mrs. Gilbert Jukes (nee Miss Whitman, who taught school here a few years ago) and child of Penticton, are guests of Mr. and Mrs. J. S. Drought.

He who hopes for tomorrow seldom worries about the failures of yesterday.

Children Think It's Fun
And so do grown folks who know the difference between electric ironing and the drudgery of using ordinary irons.
Ordinary irons make sad ironing days. Probably that's why they are called sad irons.
It is cheering to know, however, that in thousands of homes throughout the country, ironing day is no longer a trouble day.
"Sovereign" Electric Flatirons
have driven the old fashioned sad irons to the obscurity of some out-of-the-way shelf, thus alighting their attendant train of well known worries and unknown losses and expenses.
A "Sovereign" Iron consumes only a few cents worth of electricity in doing the week's ironing of the average size family. Come in and iron with the most popular iron on the market.

HUNDRED CARS APPLES TO N. Y.

Record Shipment of a Week Rolling East From Okanagan Valley.

THREE FAST TRAINS

C. P. R. Co-operating to Fullest in Getting Okanagan Apples Into Eastern Metropolis—Seventy Cars from O. U. G.

Okanagan fruit shippers created a record last week when they shipped more than 100 cars of apples in three big trains to the New York market. Of this amount the Okanagan United Growers sent 70 cars and the independent houses made up the balance.

The apples were all No. 1 grade and the value of the three trainloads is about \$160,000.

The efforts of the shippers was to get into New York with the fruit before the possible railway strike in the States on October 31.

The cars were all refrigerators and the work of the Canadian Pacific in having this number of "freezers" on hand at Vernon for the shipments is highly praised.

The Canadian Pacific, in fact, has been complimented from many quarters on the way it has handled the car situation in the fruit districts this season.

Of the apple movement from the Okanagan the Vernon News says: "British Columbia apples are moving to New York in trainloads. On Wednesday a fast freight left here; yesterday another, was sent on its way, and today will see the third full trainload of apples headed for the most discriminating fruit market on the continent."

As soon as the citizens of Gotham sank their teeth into an Okanagan apple this season they demanded more, and for several days the packers in the valley have been getting ready the three trains.

This marks a new record in apple shipments in Canada, and if not on the Pacific coast. To have even one train billed for one city is somewhat of an achievement in the apple trade, but when three trains of more than thirty cars each are rolling to the one market the event becomes of more than local importance.

The apples on the three trains are valued at nearly \$160,000, seventy of the cars shipped out by the Okanagan United Growers, having been sold by "Charlie" Lowe, sales manager. These two trains from the O. U. G. comprise the best varieties and best packs from all parts of the valley.

"Other shippers who are getting cars out on the apple specials are the Mutual Fruit Company and B. C. Growers of Kelowna.

"The Canadian Pacific is giving the trains special attention, and they will run on fast schedules across Canada and cross the border at Niagara Falls. Every car is a refrigerator car, and all are iced, which assures the fruit arriving in good condition. In view of the fact that so many refrigerators have been required to move this season's crops, the securing of more than one hundred freezers at this time is considered by shippers to be the best kind of co-operation from the Canadian Pacific."

EVERYTHING READY AT ELLISON HALL

Fair Officials Anticipate Best Exhibition in History of District.

Asked as to how the entries for the Fall Fair were coming in, Secretary John Tait informed The Review that receipts were pretty heavy and that all those who decide to make entry should do so as soon as possible.

The wall space is almost all taken up, the Department of Agriculture, Experimental Farm, Penticton Fruit Growers and district exhibitors having applied for a large share of it. It is the desire of the committee that all who wish shall have space allotted to them, and they strongly urge those who intend doing so to make application at once, so that the necessary space can be allotted to them.

We have the "time" and the "place" and all we want is the "exhibits" to make this the best fall fair ever held.

It is more profitable to emulate than to envy.

SUMMERLAND VISITORS TO SIMILKAMEEN

J. W. Wheeler, manager of the Summerland Lumber Co., O. F. Zimmerman, manager of the Dominion Bank at Summerland, and C. P. Evans and B. Mayne were in town on Wednesday night. They inspected the mill at Allenby, which is owned by Mr. Wheeler's company, and also went up the Otter valley as far as the Cook & Myren ranch, where the company has leased ground and will erect a mill next summer. Besides deterioration in plant, Mr. Wheeler states, their overhead expenses at the Allenby mill, during the year it has been closed, amounts to \$5,000. He is naturally greatly interested in any indication of activity on the mountain. In the Otter valley his company has purchased large timber limits.—Princeton Star.

B. C. FRUIT NOW HOLDS MARKET

Conditions Show Marked Improvement—Big Jobbing Concern Holding Back.

There is a certain nervousness amongst jobbers in advance buying in anticipation of severe weather, writes B. C. Markets Commissioner Grant in his weekly bulletin. The cause is principally the depression in rural trade caused by poor prices realized by farmers on grain and stock. Another cause is the policy of one selling concern directed from Minneapolis, word has been passed to their houses not to buy excepting on the market. While there is no reason apparent for this caution it has its effect on the other jobbers. The policy of the jobbers is their own concern. We predict that they will be buying automatic kicking machines in the spring as we have no doubt that they will pay dear for their caution. We admit that for the past few seasons such caution was justified, but this is a different season.

Of conditions in the Alberta capital, the Commissioner says: "The weather has been excellent all this week. Business in fruit selling has improved and the congestion of two weeks ago is passing. The apple deal last week has steadied the market. Many dealers who saw 'conspicuous without terms' are getting over that dream. The pack from B. C. is excellent this year, and the quality of the apples was never better. The difference in price between No. 1 and No. 3 is greater this year than formerly. This stimulates a greater sale for the crated stock although the returns to the grower will be small. Apart from a few grapes from Ontario, B. C. is in control of this market, the same is true of all prairie points west of Winnipeg.

"The 'street price' to the farmer for No. 1 wheat is 78 cents per bushel. Scarcity of money has forced a large part of the grain crop on the market. Farmers that can hold are anticipating far better prices for May delivery.

Eggs—Prices same as last week.

RESERVOIRS READY FOR SPRING RAINS

That the value of the beaver dam on Whitehead Lake for storage purposes is doubtful, is the opinion of Foreman Tomlin who, in company with R. Johnston and J. R. Campbell, visited the head waters of Trout Creek last week.

While there they repaired the gap in this beaver dam but Mr. Tomlin states that there are no beavers working there now, nor have there been for several years, with the result that the dam is old and may not hold water. Whitehead lake is twelve miles distant from the cabin at the main reservoir.

During their stay in the hills, these citizens experienced considerable rain, and there was snow on the ground when they left.

Asked if they had found it practicable to divert the creek flowing into No. 2 dam into No. 3, Mr. Tomlin stated that the decision in this matter must rest with an engineer. He believed that if it could be done, the cost would not be justified, that beavers would probably choke the ditch, and that the money had better be spent in raising No. 2 dam. They found all the reservoirs in satisfactory condition.

The test of your worth is if you would be missed from your place.

FRUIT GROWERS ARE WARNED

District Horticulturist to Start Campaign Against Pests and Diseases.

Reputation gained during this season by Okanagan apples in distant markets must be maintained. To do so our orchards must be kept free of disease and it is apparent that our horticultural men are alive to the situation.

Fire blight, at times dormant and at other seasons virulent, is one of the serious pests to be controlled or eradicated.

In three or four spots in our apple growing districts codling moth has made its appearance and is extending its ravages in a surprising fashion, so much so, that District Horticulturist W. T. Hunter, is issuing a warning to the growers.

"If we do not face the music right now and wipe out fire blight and codling moth we are putting off to the evil day," he declared when discussing the matter. "We must maintain our reputation and it is up to the growers to do their part. We will do everything we can to help in eradicating the pests and diseases. Growers should make preparations now to cut out fire blight before the leaves drop. It will pay them to do so."

To bring home the seriousness of the condition of affairs the horticultural branch is arranging a series of meetings which will be held in different parts of the valley, pointing out the necessity for action. "And action is needed," added Mr. Hunter.

At the "Moderation" Centre.

A man slightly the worse for that which inebriates but does not always cheer, was on his way home after being to Vernon the other night, says the Commoner, Enderby, when he collided with a box picket fence which had been placed around a tree to protect it. Being somewhat unsteady on his limbs, the man grasped hold of what he supposed was a picket fence and started to feel his way along. After rotating around the tree for half an hour he appeared somewhat puzzled at the extraordinary length of the fence, but he kept bravely on for some time. Finally, however, his courage failed him, and he sank down at the foot of the box fence with a groan of despair. "Fenced in!" he moaned.

COMPANY ACQUIRES HOOKHAM MINE

Will Be Delivering Coal in Commercial Quantity Within Six Months.

The White Lake Collieries, Ltd., owning the large coal area at White Lake, fifteen miles south of Penticton, held an important directors' meeting here on Monday night.

This company was organized by Mr. G. R. Hookham and the property has been prospected by him for some seasons, resulting in important discoveries.

The company recently engaged Glenville A. Collins, consulting mining engineer of Vancouver, to expert the property, with the result that the White Lake Collieries, Ltd., is now preparing to go ahead with the project in a more active manner.

The company has engaged the services of the firm of Glenville A. Collins Engineers, Ltd., to open up and operate the mine. Diamond drilling will start soon, to be followed by preparations for active mining on a commercial scale.

Mr. Collins was in town Tuesday and stated that in his opinion the property would become a valuable asset to the valley, and that the company would be able to offer good coal at competitive prices within six months.

Mr. Glenville A. Collins, manager among other things of the well-known Drum-Lummon Mines, is a member of the American Institute of Mining and Metallurgical Engineers, and an associate member of the American Society of Civil Engineers, also a licensed professional engineer in British Columbia and the State of Oregon, U. S. A.

Fighting Joe Martin, coal mine operator, lawyer, real estate magnate and politician, may not be in the election fight after all. He has not yet been successful in obtaining nomination from any party.

NARAMATA'S CROP AND ORCHARD AREA

The following corrections of an article, reproduced by us from the Vancouver Daily Province last week, appeared in that paper of Friday, Oct. 21st.

Editor Province.—Will you kindly allow me space in which to correct an error appearing in the recent contribution to your paper by Charlotte Gordon, dealing with the Naramata district. The acreage under cultivation is given therein as "about 3700 acres," the actual area being only one-fifth of that extent. It will be seen that your correspondent's figures concerning acreage and output, are badly at fault, a \$200,000 crop from 3700 acres being considerably smaller than Okanagan growers are accustomed to gather, and certainly not "the largest in the valley in proportion," as stated by Miss Gordon in the same paragraph.

Furthermore, the lake front of Naramata proper can hardly be put at eight miles. Two-thirds of that mileage will probably be more correct. Naramata has many natural advantages and the Indians showed much perception of the fitness of things when they named it "The Smile of Manitou." But we do not wish to acquiesce in any mistaken statistics regarding the district, and shall be obliged for the privilege of correcting those now in question.

GEO. WEAVER, President Naramata Board of Trade.

SUTHERLAND IS LIB. CANDIDATE

Kelowna's Mayor is Unanimous Choice of Yale Liberals in Federal Contest.

Mayor D. W. Sutherland, of Kelowna, was selected as the party candidate in the coming federal election by the Liberals of Yale in convention at Penticton last Thursday evening, which was attended by more than fifty delegates, thirty others being represented by proxy.

J. B. Cossitt, of Vernon, president of the Liberal Association for Yale district, was in the chair and in his opening remarks advocated strict loyalty to the party and declared that there was no intention on the part of the Liberals to remove the duty on fruit, unless absolutely necessary. Even if this action were taken, B. C. orchardists can raise as good fruit as is grown across the line.

Officers elected are: Hon. Pres.; Hon. W. L. Mackenzie King; Hon. Vice-Pres.; Hon. John Oliver; Pres.; F. B. Cossitt; 1st Vice-Pres.; C. Hardy, Armstrong; 2nd Vice-Pres.; Mrs. H. A. McGregor, Penticton; Secy.-Treas.; Chas. H. Jackson, Kelowna. The several locals will elect members to the executive.

There were three nominations for candidate: L. W. Makovski, Armstrong; Mayor D. W. Sutherland, and Reeve Chambers, of Penticton. Mayor Sutherland, taking the majority of the votes, his selection was made unanimous by motion of Reeve Chambers and Mr. Makovski.

Any One At All

The owner of a menagerie was in Chicago on business when a telegram was handed him. It read: "The leopard has escaped. Prowling about town. What shall I do?"—Bill

Bill was one of those fellows who have to have explicit direction to do anything, even in an emergency. He was always afraid of making a mistake. The owner rushed from the table and sent a reply.

"Shoot him on the spot," he wired. Being unusually busy he forgot all about the affair until about two hours later, when he returned to the hotel. Another telegram was handed him. It proved to be from careful, conscientious Bill, and asked: "Which spot?"—Everybody's.

OKANAGAN APPLES GOING TO SHANGHAI

Empress of Japan to Take Out 2600 Boxes.

When the Empress of Japan sails on Saturday for the Orient she will carry in her hold 2600 boxes of Okanagan apples, consigned to Shanghai. The shipment is made up almost entirely of McIntosh Reds grown at Penticton and Kelowna.

Be careful of your thoughts, for they are liable to break out into words or deeds at any time.

WINNERS AT THE PEACHLAND FAIR

Complete List of Prize Takers at the Annual District Exhibition

The following is a list of prize winners in the Women's Institute section of the fall fair held in Peachland on October 12th:

Collection of house plants—Mrs. Dryden, Mrs. Keyes. Collection of dahlias—Mrs. Vivian, Mrs. Lingo. Collection of asters—Mrs. Lingo, Mrs. Vivian. Bouquet of garden flowers—Mrs. Lingo, Mrs. Williams. The five dollar prize offered by Mr. J. W. Jones, M.L.A., for an essay on the Development and History of Peachland was awarded to Edward Williams. The competitors were Edward Williams, Frances Clements, Ivy Law, Polly Topham, Gerald Elliott, Wallace MacKenzie.

In the school garden contest arranged by the Women's Institute, Henry Wilson came first with 100 points and Ephie Brinson second with 95 points.

Fruit and Vegetable Section

The following are the prize winners in the fruit and vegetable section: Three boxes winter apples—O. Keating. One box of following varieties: Jonathan—O. Keating, Mrs. Tallyour. Northern Spy—H. Hardy, Spitzenburg—H. Hardy, Wagner—H. Hardy, O. Keating.

Class 3, plate exhibits, five apples: Delicious—O. Keating, Mrs. Tallyour, R. Harrington, Grimes Golden—Mrs. Buchanan, Sam McGirr, G. Lang, Jonathan—E. Topham, Sam McGirr, Mrs. Tallyour. McIntosh Red—Mrs. Tallyour, R. Harrington, Sam McGirr, Rome Beauty—J. Edgecombe, Jno.

IS YOUR NAME ON THE MUNICIPAL VOTERS' LIST?

The attention of The Review has been drawn to the fact that very few applications for enrolment on the municipal voters' list for the annual municipal elections have been received.

Householders who have been resident in the municipality since the first of the year and who have paid the current year's poll tax, or not being liable for the poll tax, have paid the sum of \$2 during the current year for the use of the municipality, exclusive of taxes on land, water and electric light rates or dog tax, are eligible, as are also trade license holders, but they must make application on the proper form before the end of October in order to have their names included in the voters' list.

COAST HIGHWAY WORK IN SPRING

Definite Announcement Soon of Plans to Start Construction in Spring.

Victoria reports say that the minister of public works will announce the government's intention to commence the construction of the highway between Hope and Princeton when he participates in the debate next week. As reported recently, Hon. Dr. King, in company with District Superintendent Gwyer, made a thorough inspection of the routes between Hope and Princeton and selected the old Dewdney trail as the most feasible. Mr. Gwyer returned to the district and prepared a complete report, which the minister will submit to the legislature. Should the House approve the government's proposal next spring will see work commenced on what should prove to be the most important highway in British Columbia.

From Hope to Princeton over the Cleveland survey is a distance of ninety miles, while the old Dewdney trail measures only sixty-eight miles between these points. There would be eight miles of heavy construction and not more than twenty miles of difficult work in the entire stretch. The old Sapper road would be utilized for a distance of twenty-five miles and the Cleveland survey followed for the last ten miles into Princeton.

A definite announcement of the early commencement of the work is expected from Hon. Dr. King within a few days.

PLAN MONTHLY LECTURES HERE

Recently Organized Social Service Council Arranging Winter Program.

Matters of local interest are likely to be discussed at monthly gatherings during the winter months.

Recently there was organized here a local branch of the Social Service Council, and these discussions will be held under the auspices of that organization. It may be that the first discussion will be held in co-operation with the Parent Teachers' Association, when Inspector Lord will speak on the subject of "Child Welfare."

The officers of the local branch of the Social Service Council are: President, Rev. W. A. Alexander; vice-presidents, Rev. H. E. Livingston, Rev. Jas. Dunlop and D. J. Welsh; secretary-treasurer, C. W. Matheson.

The executive committee is comprised of representatives of the several local organizations. Alex. Smith and Geo. Harding represent the Presbyterian and Methodist sections respectively of St. Andrew's congregation; H. C. Mellor the Methodist church, and W. C. Kelley the Baptist church. Mrs. T. J. McAlpine represents the W. C. T. U., Mrs. J. A. Morrison the Summerland W. I., Mrs. W. C. Kelley the West Summerland W. I., and Scoutmaster O. F. Zimmerman the Boy Scouts. St. Stephen's church and the Hospital Auxiliary have not yet appointed representatives.

"Dr." is an ambiguous abbreviation when used to express the relationship between the patient and his physician.

Kerr, R. Harrington. Northern Spy—Ted Smith, H. Hardy, Jno. Kerr. Spitzenburg—Sam McGirr, George Keyes, J. Edgecombe. Wagner—(Continued on Page 8)

CHAUTAUQUA A GREAT SUCCESS

Record Crowds Enjoy First Summerland Chautauqua Program.

COMING AGAIN

Contract Already Signed for Four-Day Program Next Year—Was Also Financial Success.

That a contract has been completed for a return of the Canadian Chautauqua in 1922 is a complete vindication of the action of the enterprising committee of business men, who believed that the people of Summerland would welcome a Chautauqua and guaranteed the expenses of a course this year.

From the opening performance on Friday evening to the last program on Monday night there was a marked enthusiasm shown by the audience, and the attendance was very good each evening, with a crowd on the last night which has probably never been seen before in the Empire Hall.

It is very hard to distinguish the popularity of the different artists who visited the town, as they seemed to share equally the acclamations of their hearers, but special mention might be made of Mr. Hilburn's impersonations on Friday night, which were exceedingly good, as were the vocal numbers given by the Schell Duo.

The amusing sketches of the Batting Mahler Due on Saturday were remarkably clever and received great applause, and Matthew Weyman's lecture on "Labor" was well and forcefully delivered, his word picture of the taking of Vimy Ridge by the Canadians being a masterpiece.

On Monday, Mr. Dempster's lecture on "Red Russia With the Lid Off," more than came up to expectations, and although given again at the end of the evening program by special request, lost none of its effectiveness to those who had heard it in the afternoon.

The last evening was taken up by the Williams Concert Co. with Joe Williams in his characteristic comic songs as the principal, supported by vocal and instrumental talent, and every item on the program received enthusiastic applause from the packed audience.

Before closing, Mr. Gorman, who had so admirably carried out the duties of superintendent of the Chautauqua came, before the house to say a few words of farewell, and the ovation he received indicated the popularity he had achieved during his stay in Summerland.

Quite frequently local committees have a deficit to make up on the initial appearance of Chautauqua, but this was not the case in Summerland. The committee received \$400 from the sale of tickets in excess of the guarantee and \$50 as their proportion of the door receipts. From this must be paid the local expenses, including the hall rent of \$45, and printing and advertising, about \$20.

The committee gets one-half the receipts from season tickets after the guarantee is met and 25 per cent. of the door receipts. This will leave a profit of approximately \$25, which profit has been promised to the hospital.

HIS FIRST "BIRD"

That we still have a great sportsman in our midst is evidenced by the news received of the slaughter of a voracious animal by one of our prominent citizens a few days ago, when Tax Collector Pineo upheld his reputation as a sure shot.

Discovering through his olfactory organs the presence of a sure-enough skunk in his root-house, Mr. Pineo determined on its destruction. He hid him to the house and obtained his trusty gun, and secreting himself at a distance from the building, laid in wait for the enemy. His patience was rewarded by the skunk showing himself, whereupon he was sent "west" by a bullet from the sportsman's rifle, who saw to it that he kept a discreet distance from his antagonist.

In a single day recently more than 90,000 tons of shipping took place in the port of Vancouver. The export trade of B. C. is increasing, but at home too many people still give preference to goods imported from a distance.

EXPERIMENTAL FARM AND HIGH SCHOOL

Students in Agriculture Greatly Helped by Practical Demonstrations

Among many of the advantages to the people of Summerland and nearby communities in having the Dominion Experimental Station here is the asset it is proving to be to our High School students.

Much good must result from visits to the farm by the High School class in agriculture such as was enjoyed a few days ago, when the boys of the second year, headed by Mr. T. H. Jones, supervisor of agricultural instruction, spent an afternoon at the Farm.

WHAT IS MAN?

Man comes into this world without his consent, and leaves it against his will. During his stay on earth his time is spent in one continuous round of contraries and misunderstandings by the balance of the species.

If he is a poor man he is a poor manager; if he is rich he is dishonest. If he is in politics he is a graft-

er; of he is out of politics you can't place him, and he is an undesirable citizen.

If he is in church he is a hypocrite; if he is out of church he is a sinner and is damned. If he donates to foreign missions he does it for show, if he doesn't he is stingy. When he first comes into the world everybody wants to kiss him; before he goes out they all want to kick him.

FUNNY ADVERTISEMENTS

Curiously worded advertisements, that are funny without intent, are common in the London papers, it would seem. A contemporary recently offered a prize, says the Manchester Guardian, for the best collection of such announcements, and the following is the result:

"Annual sale now on. Don't go elsewhere to be cheated—come in here."

"A lady wants to sell her piano, as she is going abroad, in a small iron frame."

"Wanted—a room by two gentlemen, about thirty feet long and twenty feet broad."

"Wanted—by a respectable girl, her passage to New York; willing to take care of children, and a good sailor."

"Mr. Brown, furrier, begs to announce that he will make up gowns, capes, etc., for ladies out of their own skins."

"Wanted—for summer, a cottage for a small family with good drainage."

"Lost—near Highgate Archway, an umbrella belonging to a gentleman, with a bent rib and a bone handle."

"Widow in comfortable circumstances wishes to marry two sons."

"To be disposed of, a small phaeton, the property of a gentleman with a moveable headpiece as good as new."

Well Informed

"Yes, sir, it's pretty hard collecting money just now; I know it."

"Oh, no."

"How, then, do you know that money is hard to collect?"

"Because several people have tried to collect some from me."—Detroit Free Press.

The Great Gap

"I didn't know that Reggie stuttered so badly."

"He doesn't stutter at all, but he promised his wife he would cut out swearing, and if he leaves his conversation full of holes."—Judge.

BUY A POPPY ON ARMISTICE DAY

G.W.V.A. Bringing Poppies Made in Flanders For The Occasion

November 11, Armistice Day, will be "Poppy Day" in Summerland and throughout most of the allied countries. The G.W.V.A. have undertaken to look after the sale of poppies across Canada and the Summerland branch is already making arrangements to celebrate the day in Summerland.

The poppies have been made by the orphan children of Northern France. The purchase price of these poppies will go towards re-establishing the widows and orphans of the devastated areas of Northern France and also to relieve distress throughout the Dominion through a fund administered by all local Great War Veterans Associations who are the sole importers of the Flanders poppy.

The following letter has been received by the Summerland branch of the G.W.V.A. from the Dominion secretary:

"Since the conclusion of the Great War there has been a growing sentiment among the peoples of the victorious nations allied in the conflict, to recognize by some outward expression their great reverence for the heroic dead who made victory and peace possible, and their respect for the men who fought and lived to return to their homes."

"On the anniversary of Armistice Day in 1919 the children of the devastated areas in Flanders and France gave expression to this sentiment by decorating the soldiers' graves near their homes with garlands of the red poppies which grow in profusion in their land. They also wore the poppy as a memorial flower. The idea, first conceived in childish minds, has gained favor all over France and other countries of the allied nations. On Memorial Day this year, May 30, the custom was universal in the United States, Great Britain, Australia, New Zealand, and other countries have adopted the poppy as a memorial flower for Armistice Day."

"It has been thought appropriate that Canada should also adopt this beautiful custom. To this end the Great War Veterans' Association of Canada has arranged with the French Children's League to distribute just prior to Armistice Day, replicas of the Flanders poppy, which the orphan children of France are making."

"Your sympathetic support of this worthy object is for three reasons. The wearing of the poppy on Armistice Day will provide a fitting way of expressing public reverence for the dead; from the sale of poppies it is hoped to secure funds for relief purposes in Canada; and by purchasing the poppies at a nominal price it will aid the destitute children of France in becoming self-sustaining."

"Wreaths, etc., will also be available for the decoration of graves, memorials, honor rolls and similar places. National Provincial headquarters of the G.W.V.A. will be glad to supply more complete particulars upon request."

Those wishing to have a wreath placed on a grave in France should communicate with the Secretary of the local association, who will make the necessary arrangements for them."

HIS FIRST CHANCE

"What do you know of women's work?" fiercely queried the lady orator.

"Is there a man here," she continued, folding her arms, "who has, day after day, got up in the morning, gone quietly downstairs, made the fire, cooked his own breakfast, sewed the missing buttons on the children's clothes, cleaned the pots and kettles and swept the kitchen? If there is such a man in the audience let him rise up, I should like to see him."

In the rear of the hall a mild looking man in spectacles timidly arose. He was the husband of the eloquent speaker.

"This was the first chance he had ever had to assert himself."

Department Store Special

"Why, hello Pat! I hear you lost your job in the Department Store."

"Oh, yes, I got fired."

"You got fired? How did that happen?"

"Oh, I just took a sign from a lady's shirt waist and put it on a bathtub."

"And you got fired for that? Well tell me what the sign read."

"It said, How would you like to see your best-girl in this for \$2.75?"

—Keeping in touch.

Average Sizes For Different Varieties of Apples For Exhibition Purposes

Just what should be the standard size for each variety of apple, particularly for show purposes, has long been a vexed question. For some time the executive of the B.C.F.G.A. together with officials of the Horticultural Branch of the Department of Agriculture, and some of the University men, have been working on this problem.

Below is a list of sizes agreed upon and made public by The Review for the benefit of exhibitors.

As explained by Mr. W. T. Hunter, district horticulturist, this is a tentative list and it may be that the sizes in some varieties may be slightly changed.

Variety	Size Ins. Diam.	Aver. No. per Box
Astrachan Red	2 3/4	138
Early Harvest	2 3/4	138
Yellow Transparent	2 3/4	138

Corporation of the District of Summerland BY-LAW NO. 140

A BY-LAW TO ENABLE THE CORPORATION OF THE DISTRICT OF SUMMERLAND TO RAISE BY WAY OF LOAN THE SUM OF THIRTY THOUSAND DOLLARS (\$30,000.00) FOR SCHOOL PURPOSES.

WHEREAS it is deemed expedient to borrow the sum of Thirty Thousand Dollars (\$30,000) for school building purposes;

AND WHEREAS it is necessary for the purposes aforesaid to raise, by way of loan upon the credit of the said Municipality the sum of Thirty Thousand Dollars (\$30,000) payable on the First day of December, 1921, bearing interest in the meantime payable half yearly at the rate of Seven (7) per cent. per annum, the principal of such loan when raised to be applied for the purposes aforesaid;

AND WHEREAS the said amount of Thirty Thousand Dollars (\$30,000) is the amount of the debt which this by-law is intended to create;

AND WHEREAS for the payment of the said principal it is necessary to raise the sum of One Thousand and Seven Dollars and Forty-seven Cents (\$1,007.47) by rate in each and every year;

AND WHEREAS for the payment of the said interest it is necessary to raise the sum of Twenty-one Hundred Dollars (\$2,100) by rate in each and every year;

AND WHEREAS the amount of the whole rateable land and improvements of the Corporation of the District of Summerland according to the last revised assessment roll is three million, two hundred and seventy-two thousand, eight hundred and eighty-seven dollars (\$3,272,887);

AND WHEREAS the total amount of the existing debenture debt of the said Corporation of the District of Summerland is four hundred and fifty-six thousand, seven hundred dollars (\$456,700), of which none of the principal or interest is in arrears;

NOW THEREFORE the Municipal Council of the Corporation of the District of Summerland in open meeting assembled, enact as follows:

(1) It shall be lawful for the Reeve of the said Corporation of the District of Summerland to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the Municipality by way of the Debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of Thirty Thousand Dollars (\$30,000), and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the Corporation of the District of Summerland for the purposes and with the objects hereinbefore recited.

(2) It shall be lawful for the Reeve to cause any number of debentures to be made for a sum not exceeding One thousand dollars (\$1,000) each, bearing interest at the rate of Seven per cent. (7 per cent.) per annum, not exceeding in the whole the sum of Thirty Thousand Dollars (\$30,000), and all such debentures shall be sealed with the seal of the said Corporation, signed by the Reeve and counter-signed by the Treasurer of the said Corporation.

(3) The said Debentures shall bear date the First day of December, 1921, and shall be made payable in twenty years from the date thereof, at the Agency of the Bank of Montreal at Summerland, British Columbia.

(4) The said Debentures shall have coupons attached for the payment of the interest at the rate of seven per cent. (7 per cent.) per annum on the amount of the said Debentures, and such interest shall be payable half yearly on the First days of the months of June and December in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

(5) An amount shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality, in addition to all other rates, to pay interest on the debt hereby created during the currency of the said Debentures and to provide for the payment of the said debt when due.

(6) The sum of Twenty-one Hundred Dollars (\$2,100) shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality in addition to all other rates for the payment of the interest on the said Debentures.

(7) The sum of One Thousand and Seven Dollars and Forty-seven Cents (\$1,007.47) shall be raised and levied annually by a rate sufficient therefor on all the rateable land or land and improvements within the Municipality in addition to all other rates for the payment of the debt hereby created when due.

(8) This By-Law shall before the final passage thereof receive the assent of the electors of the said Corporation of the District of Summerland in the manner provided for by the Municipal Act, 1914, and Amending Acts.

(9) This By-Law shall come into force and take effect on the First day of December, 1921.

(10) This By-Law may be cited for all purposes as the School Building Loan By-law, 1921.

DONE AND PASSED by the Municipal Council the Fourteenth day of October, A.D. 1921.

RECEIVED THE ASSENT OF THE ELECTORS of the Corporation of the District of Summerland the day of 1921.

RECONSIDERED AND FINALLY PASSED by the Municipal Council, signed by the Reeve and Clerk, and sealed with the Municipal Seal this day of 1921.

REVELSTOKE HAS REAL OIL BOOM

Gas and Oil at Arrowhead Create Excitement

Considerable interest has been manifested during the past week over a reported strike of oil and natural gas at Hall's Landing, and several parties from Revelstoke have already made locations from the Landing to Arrowhead, as well as at Comaplix, says the Revelstoke Review.

A gas-fed flame is said to be burning constantly, and from all the evidences of natural gas to be found throughout the district it is estimated that if a reasonable depth be drilled, an unlimited natural gas flow will result. The water in the wells of the neighborhood of this district is not used because of the presence of oil.

To give an idea of the force of the gas on the surface, Mr. Hall states that merely by dropping a crowbar two or three feet into the ground sand was forced up for the space of about a yard.

The first discovery of oil was made on the Logan Ranch at Hall's Landing. Replying to an enquiry from The Review last week, Mr. Wadman stated that several applications had been received at the Dominion Land Office by those taking up oil leases in the Hall Landing district.

Panting For Breath

Ex-Secretary Lansing of the United States said at a dinner.

"Our taxes are too high. The only way to get them lowered it to protest against them strenuously. This is being done."

"I heard a chap went to a masquerade ball the other night in a costume that excited a great deal of comment. He wore, in fact, a long tailed shirt, socks and shoes—but no trousers."

"George," said his host, rather severely, "what the dickens do you represent—Venus preparing for the bath?"

"No," said George complacently. "This is an original idea of my own. I represent a taxpayer."—Los Angeles Times.

Too Much Ballast

A country housewife of good intentions, but with little culinary knowledge, decided to try her hand at cake making. The result was somewhat on the heavy side, and, after offering it to the various members of her household, she threw it to the ducks in disgust. A short time afterward two urchins tapped at the door. "I say missus," they shouted, "your ducks have sunk!"—The Argonaut (San Francisco).

The Summerland Review

Established August, 1908.
Published at Summerland, B.C., every Friday by
THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Friday, October 28, 1921

STREET LIGHTING COSTS

Some interesting figures on the cost of street lighting to cities and municipalities are contained in the report of the Inspector of Municipalities for the year ending December 31st, 1919, the latest report.

At present by all odds the poorest lighted community in the Valley, if not in all B.C. because of the insufficiency of its hydro-electric plant, Summerland has been paying little for street lighting—\$503.20 for the year, according to this report. Peachland with a local plant adequate to its needs, spent \$1,270, and got full value as it is a well lighted community. For the same year the citizens of the Municipality of Penticton paid \$5,000. For street lights within city limits Kelowna gave its municipal plant credit for \$1,770.94, and Vernon similarly appropriated \$7,500.

Other figures for the same year are: Enderby, \$639.26; Armstrong, \$2,000; Salmon Arm, \$1,831.20.

THE OKANAGAN HIGHWAY.

Recent high winds from the south have been causing the lake to cut into the repairs made on the lakeshore drive between Summerland and Peachland. So far, these repairs have been but partial and unless further work is done in the nature of protecting walls, the several thousand spent in repairs will be totally lost, as well as a much larger sum represented in the initial cost of construction. To the people of the Okanagan the attitude of the Department of Public Works toward this link in our highway seems wholly unexplainable. Unless further work is done, the road will be again broken in many places, resulting not only in serious inconvenience to traffic but a heavy loss as well.

It is said that the government has about two million dollars to spend on new work. Surely the maintenance of the Okanagan highway is of, at least, equal importance to new construction.

THE VALUE OF WATER.

To the value of water in irrigation we can largely attribute the ten-million-dollar crop of the Okanagan Valley. Without water it would have been impossible to raise the tenth part of this year's crop, says an exchange.

Irrigation is a branch of agriculture of such importance that we could well afford a department or portfolio of our government to its promotion. At the present time, irrigation matters are handled by the Minister of Lands who is also burdened with the forest work and timber promotion.

If vast areas in the Dry Belt of our province are to be developed it can only be through irrigation, and we are not at the present time in a state of full realization of this fact.

WEAR A POPPY.

The crimson red poppy has been adopted by the Great War Veterans of Canada, Australia, Great Britain and the United States as the memorial flower to be worn by every citizen on Armistice Day. These flowers are being made by the women and children living on the ruins of the battle fields of the very places where our boys fought and won and where so many sleep.

Let every true Canadian man, woman and child consider it a sacred obligation to wear the bright red poppy on Armistice Day. It will hold and preserve the link of affection between the two sister countries—Canada and France. Keep alive the memory of those who brought back honour to their country, glory to their flag, and peace to the world.

THE WOMEN'S INSTITUTES.

The West Summerland Women's Institute met on Friday last in the Parish Hall. Twenty-four members answered the roll call by Thanksgiving quotations.

The Parent-Teachers Association committee reported that the question of organizing had been discussed, and it was moved and carried that with the approval and co-operation of the Summerland Institute, the Institutes provide for a public meeting to talk over a parent-teachers association, and to have the Inspector present, the present committee to take charge.

Two members were appointed to help arrange the Institute exhibits at the Fall Fair. It is particularly requested that each member exhibit something and help boost the show.

Dr. Andrew gave a splendid address on "Pre-Natal Care of Infants," and at the close very kindly answered numerous questions.

Before adjourning Mrs. Coulter White resigned her office as president, as she is leaving shortly for California, and Mrs. Bentley in a few words expressed the appreciation of the Institute of the work she had done, and the regret of everyone in losing a good president.

Mrs. Solly read a letter from the Red Cross Society, thanking the Institutes for their co-operation in their recent membership campaign, and the receipt of some \$80.

The meeting then closed and was followed by afternoon tea.—Cont.

Summerland Women's Institute held their regular monthly meeting on Thursday, Oct. 20th.

The speaker of the day being indisposed, Mr. D. J. Welsh very kindly substituted. His talk was to bring forward the great need of a library in this community. Mr. Welsh had many ideas whereby with the co-operation of the institute, a good library could be instituted.

The women's section of the Fall Fair was discussed and a committee appointed to decorate and have plenty of space arranged for as a large entry is expected.—Cont.

There is always something back of a shadow.

SUMMERLAND'S APPLE SHOW

STAGE ALL SET FOR BIG EVENT WEDNESDAY AND THURSDAY, NOV. 2 and 3

CLASS IX.

- See Classes XIII, XIV, and XV, for Field and Vegetable Crop Exhibits open to Public School Pupils, including 1921 Entrance Class. There will be a manual Training Exhibit put on by all classes.

MANY BIRDS ARE BEING BAGGED

Pheasants in Large Numbers Brought Down by Local Sportsmen.

The pheasant shooting season opened on Saturday morning with admirable weather for the purpose, and the reports of the guns were to be heard in every direction, putting the general public on the qui vive as the sportsmen seemed to be all around and in the most unexpected places. From the number of shells fired indications would point to the birds being numerous, and report has it that many were bagged. As far as the average man is concerned, he will feel a whole lot safer in going about after the end of this week when the season closes, especially as the furore does not mean anything to him in the way of getting a roast out it.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Wind	S.S.
Oct. 19—55	44	1.6
Oct. 20—59	44	.02
Oct. 21—55	41	6.1
Oct. 22—46	32	3.5
Oct. 23—41	26	7.8
Oct. 24—50	28	2.9
Oct. 25—49	38	0.0

BASKETBALL

Basketball has at last started for the coming winter. A very snappy practice was held Tuesday evening in the college gym. Enough players for two teams were on hand. Last year's team lined up against a very promising looking five, and after half an hour's hard work the old-timers managed to forge ahead.

A new system of play will be introduced this season and it is hoped that a very interesting series of games will be played. A communication has been received from Kelowna enquiring as to the prospects of forming a Lake League. This would be absolutely impossible without the loyal support of the citizens of Summerland who, we hope, will give the team as much backing as possible. All basketball enthusiasts are cordially invited to the practices, which will be held semi-weekly commencing the first week in November.—Cont.

A politician without patronage is like a cat without claws.

H. H. CREESE, Appraiser, Horticulturist, Land and Orchard Valuations, NOTARY PUBLIC. Residence, Hospital Hill, Phone 713. P.O. Box 50, Summerland. 715-728p

PRUNING SCHOOLS

PROVINCIAL DEPARTMENT OF AGRICULTURE.

Horticultural Branch.

Full instruction on the principles and practices of Pruning as applied both to apples and stone fruits will be given by instructors provided by the Horticultural Branch of the Provincial Department of Agriculture. Lectures and practical demonstrations will be given by fully qualified instructors. Ask your local District Field Inspector for full particulars regarding these classes, which will be held probably during the month of November. Therefore, register early with Mr. J. Tait, District Field Inspector, Department of Agriculture, Summerland. 716-7-8

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

Mrs. J. Lawler went out on the train last Friday for a visit to Vancouver.

Attention is directed to the announcement that a pruning class is to be opened here.

The usual weekly meeting of the Boy Scouts will be held on Friday evening at the college gymnasium.

Mr. Geo. Beatty, a recent arrival in Summerland, has leased the Lorne Sutherland cottage in Peach Orchard.

Fifteen hundred dollars worth of real footwear bargains just arrived at Beer's Shoe Store. Come and see them. 716

Mrs. Griffiths, who recently sold her property in Peach Orchard, left on Tuesday's train for Vancouver, where she will reside.

When the C. P. R. liner "Empress of Japan" sailed last Saturday from Vancouver she took several carloads of Okanagan apples consigned to the Orient.

Mr. and Mrs. Willis Walter have moved down from their orchard property to the house in Peach Orchard which they recently purchased from Mrs. Griffiths.

Word has been received by J. Tait, from the Department of Agriculture, to the effect that the apple show at Toronto has been cancelled. Further explanation is awaited.

The Review learns that the Ladies' Hospital Auxiliary have decided to postpone the dance which they were to have given during the Fall Fair. Announcement will be made later in these columns as to the date when it will be held.

The school teachers of the Okanagan Valley were in convention last Friday and Saturday at Vernon. A full report was prepared for publication in this issue, but has been unavoidably held back through lack of space, and will appear in our next issue.

For three or four days during the tie-up on the main line of the C. P. R., caused by the wreck in the Paliser Tunnel, the outflow of apples from this valley was routed over the K. V. line and the Okanagan was indeed fortunate in having a second railway outlet.

C. W. Little, of Vernon, inspector for the O. U. G., with his brother, Geo. E. Little, of Mara, B.C., were in Summerland this week to take advantage of the pheasant shooting, and we understand they obtained their quota of birds during their stay, finding the birds pretty numerous and sport good.

Dr. E. W. Andrew was called upon to hold an inquest on the death of John Jackson, of Penticton. According to the evidence the deceased died as a result of drinking Columbian spirits, a form of wool alcohol. He had been missing for a couple of days and groans heard from beneath the B. C. hotel resulted in his being found there Sunday evening in a dying condition. The inquest was held at Penticton on Monday afternoon.

Mr. and Mrs. Gerald MacLaine, with their two children, left last week by motor for Portland, Ore. From there, Mrs. MacLaine and little ones will continue by train to Long Beach, Calif., where they will spend the winter. Mrs. MacLaine's sister, Miss Amy Brown, is practising her profession as nurse in that city. It had been Mr. MacLaine's intention to motor through to Southern California, but he will not go further than Portland.

The Dunham property on Paradise Flat has been purchased by Mr. Stanley Turner, who has recently arrived here from the Old Country, accompanied by his wife and two children and Mrs. Turner's brother, Mr. Cartwright. They will take possession immediately. Mr. Dunham and family will move to a five acre property north of the Central School, which he has bought from Mr. J. R. Campbell. There are two small cottages on this property and Mr. Dunham is arranging to make some improvements to the buildings. Both these sales were made through Mr. G. Y. L. Crossley.

MATRON RESIGNS
At a recent meeting of the Hospital directors, Miss Johnson, matron, tendered her resignation, which was accepted, to take effect November 11th. A committee was appointed to engage her successor, and we understand that Miss A. L. Hibbs, who was offered the position, has accepted. Miss Hibbs has been on the nursing staff for some weeks and was in charge during Miss Johnson's vacation.

Bernard Taylor has dry and green wood for immediate delivery.

C. P. Evans went out on Tuesday's boat for a two-weeks' visit to Brandon, Man.

E. Hunt has been confined to his bed for a few days with a mild attack of pleuro pneumonia.

Your Xmas. Portrait. The latest ideas on photography. Stocks Studio, Penticton. 715-6

Smith & Henry have moved their office into the Johnson building, until recently used as a post office.

Look out for the Drug Company's One-cent Sale, Friday and Saturday, Nov. 4th and 5th. Fine list of bargains. 716

Mrs. Morrison Sutherland has moved from the Lorne Sutherland cottage to the J. W. S. Logie house on the lake shore.

Her friends will be glad to learn that Mrs. Chas. Schwass is making good recovery following a major operation at the hospital on the 19th.

We clean or dye soiled or faded garments, house furnishings, etc. Let us mail you price list. Permanent Dye Works Ltd., 1641 4th Ave. West, Vancouver, B.C. 48tf

At the recent balloting in Penticton on the contract between the Municipality and the Kootenay Power Company there was not one opposing ballot registered.

J. A. MacKelvie, representative for Yale in the last Dominion House, was a visitor in Summerland for a short time on his way through to Vernon from the boundary country. He expects to visit Summerland shortly.

Two carloads of Galt coal, one of lump and the other of nut, are due to arrive for Capt. P. S. Roe. The nut coal is highly recommended for cooking and small heater purposes, and sells at two or three dollars below the lump coal price.

Hallowe'en Five Hundred Social, Monday, October 31st, at 8 p.m., Rialto Theatre, under auspices of Federated Labor Party. Children's treat, candies, games, etc., 7 to 8. Admission, Adults 25c, Children 10c. Make this a send-off for the coming season. 716

Mr. R. Ross Sutherland, provincial boy scout commissioner, will be in Summerland on Saturday and will address a meeting at 8 o'clock that evening in the Parish Hall on the subject of the "Boy Scout Movement, and will organize a local Boy Scout association.

Following is an extract from the World newspaper of Vancouver: Mr. Glenville A. Collins, mining engineer, is back in the city after examining the Wallace Mountain mines at Beaverdell, and the coal mines at White Lake. Both of these properties he reports as looking very promising and particularly the coal property, which is looked forward to as a source of supply for that district.

The Review has been asked to announce that there will be no charge for admission to the grounds and hall during the two days of the fair, and that all members and any of their family are entitled to exhibit without charge, and this also applies to all members of the Women's Institutes in Summerland. Every citizen is asked to exhibit this year and thus help to make the fair the success it should be.

RUSHING WORK ON VALLEY POWER LINE

The Okanagan Water Power Company's pole line construction is proceeding rapidly. Poles have been erected from the point where the main high tension line will be tapped near Oliver, nearly to the north end of Vasseaux Lake, according to a statement made by Lorne Campbell, the manager.

It is learned here that the big transformers left Hamilton on the 19th, one day ahead of the date promised. Insulators are expected to arrive within a few days and practically all other material is on hand.

Coming Events

Notices under this heading are inserted at 3 cents a word. Each repeat, 2 cents a word; minimum charge, 50 cents. Contract rates on application.

The Presbyterian Ladies' Aid will serve Thanksgiving supper from 5.30 to 8 p.m., Monday, November 7th, in St. Andrew's Hall. Admission to supper, adults 50c, children 35c. A program in the church at 8 o'clock. 716-7

Corporation of the District of Summerland

BY-LAW NO. 145

A BY-LAW TO ENABLE THE CORPORATION OF
THE DISTRICT OF SUMMERLAND TO RAISE BY WAY
OF LOAN THE SUM OF EIGHT THOUSAND DOLLARS
(\$8,000.00), FOR THE PURPOSE OF ALTERING AND
IMPROVING THE ELECTRIC LIGHT SYSTEM OF THE
CORPORATION OF THE DISTRICT OF SUMMERLAND.

WHEREAS it is deemed expedient to alter and improve the electric
light system of the said Corporation;

AND WHEREAS it is necessary for the purpose aforesaid to raise
by way of loan upon the credit of the said Corporation the sum of Eight
thousand dollars (\$8,000.00), payable

Six hundred dollars (\$600.00) on the First day of December, 1922;
Six hundred dollars (\$600.00) on the First day of December, 1923;
Seven hundred dollars (\$700.00) on the First day of December, 1924;
Seven hundred dollars (\$700.00) on the First day of December, 1925;
Eight hundred dollars (\$800.00) on the First day of December, 1926;
Eight hundred dollars (\$800.00) on the First day of December, 1927;
Nine hundred dollars (\$900.00) on the First day of December, 1928;
Nine hundred dollars (\$900.00) on the First day of December, 1929;
One thousand dollars (\$1,000.00) on the First day of December, 1930;
One thousand dollars (\$1,000.00) on the First day of December, 1931;

AND WHEREAS the said sum of Eight thousand dollars (\$8,000.00)
is the amount of the debt which this By-law is intended to create;

AND WHEREAS for the payment of the said principal it is necessary
to raise the sum of

Six hundred dollars (\$600.00) by rate in the year 1922;
Six hundred dollars (\$600.00) by rate in the year 1923;
Seven hundred dollars (\$700.00) by rate in the year 1924;
Seven hundred dollars (\$700.00) by rate in the year 1925;
Eight hundred dollars (\$800.00) by rate in the year 1926;
Eight hundred dollars (\$800.00) by rate in the year 1927;
Nine hundred dollars (\$900.00) by rate in the year 1928;
Nine hundred dollars (\$900.00) by rate in the year 1929;
One thousand dollars (\$1,000.00) by rate in the year 1930;
One thousand dollars (\$1,000.00) by rate in the year 1931;

AND WHEREAS for the payment of the said interest it is necessary
to raise the sum of

Five hundred and sixty dollars (\$560.00) by rate in the year 1922;
Five hundred and eighteen dollars (\$518.00) by rate in the year 1923;
Four hundred and seventy-six dollars (\$476.00) by rate in the year 1924;
Four hundred and twenty-seven dollars (\$427.00) by rate in the year 1925;
Three hundred and seventy-eight dollars (\$378.00) by rate in the year 1926;
Three hundred and twenty-two dollars (\$322.00) by rate in the year 1927;
Two hundred and sixty-six dollars (\$266.00) by rate in the year 1928;
Two hundred and three dollars (\$203.00) by rate in the year 1929;
One hundred and forty dollars (\$140.00) by rate in the year 1930;
Seventy dollars (\$70.00) by rate in the year 1931;

AND WHEREAS the amount of the whole rateable land and improve-
ments of the Corporation of the District of Summerland according to the
last revised assessment roll is Three million, two hundred and seventy-two
thousand, eight hundred and eighty-seven dollars (\$3,272,887.00);

AND WHEREAS the total amount of the existing debenture debt of
the said Corporation of the District of Summerland is Four hundred
and fifty-six thousand, seven hundred dollars (\$456,700.00), of which none
of the principal or interest is in arrears;

NOW THEREFORE the Municipal Council of the Corporation of the
District of Summerland in open meeting assembled, enacts as follows:

1. IT shall be lawful for the Reeve of the said Corporation of the
District of Summerland to raise by way of loan from any person or persons,
body or bodies corporate, who may be willing to advance the same on the
credit of the Municipality by way of the Debentures hereinafter mentioned,
a sum of money not exceeding in the whole the sum of Eight thousand
dollars (\$8,000.00), and to cause all such sums so raised and received to
be paid into the hands of the Treasurer of the Corporation of the District
of Summerland for the purposes and with the objects hereinbefore
recited.

2. IT shall be lawful for the Reeve to cause any number of debentures
to be made for a sum not exceeding One thousand dollars (\$1,000.00),
each bearing interest at the rate of Seven (7) per cent. per annum, not
exceeding in the whole the sum of Eight thousand dollars (\$8,000.00), and
all such debentures shall be sealed with the Seal of the said Corporation,
signed by the Reeve, and countersigned by the Treasurer of the said
Corporation.

3. THE said Debentures shall bear date the First day of December,
1921, and shall be made payable

Six hundred dollars (\$600.00) in one year,
Six hundred dollars (\$600.00) in two years,
Seven hundred dollars (\$700.00) in three years,
Seven hundred dollars (\$700.00) in four years,
Eight hundred dollars (\$800.00) in five years,
Eight hundred dollars (\$800.00) in six years,
Nine hundred dollars (\$900.00) in seven years,
Nine hundred dollars (\$900.00) in eight years,
One thousand dollars (\$1,000.00) in nine years,
One thousand dollars (\$1,000.00) in ten years,

from the First day of December, A.D. 1921, at the Agency Branch of the
Bank of Montreal, at Summerland, British Columbia.

4. THE said Debentures shall have coupons attached for the payment
of the interest at the rate of Seven (7) per cent. per annum on the amount
of the said Debentures, and such interest shall be payable semi-annually
on the First days of the months of June and December in each and every
year and the signature to such coupons may be either written, stamped or
lithographed.

5. AN amount shall be raised and levied annually by a rate sufficient
therefor, on all the rateable land or land and improvements within the
Municipality in addition to all other rates to pay the interest on the debt
hereby created during the currency of the said Debentures and to provide
for the payment of the said debt when due.

6. THE following sums shall be raised and levied in the years de-
tailed, by a rate sufficient therefor, on all the rateable land or land and
improvements within the Municipality in addition to all other rates for the
payment of the interest on the said Debentures, the sum of

Five hundred and sixty dollars (\$560.00) in the year 1922,
Five hundred and eighteen dollars (\$518.00) in the year 1923,
Four hundred and seventy-six dollars (\$476.00) in the year 1924,
Four hundred and twenty-seven dollars (\$427.00) in the year 1925,
Three hundred and seventy-eight dollars (\$378.00) in the year 1926,
Three hundred and twenty-two dollars (\$322.00) in the year 1927,
Two hundred and sixty-six dollars (\$266.00) in the year 1928,
Two hundred and three dollars (\$203.00) in the year 1929,
One hundred and forty dollars (\$140.00) in the year 1930,
Seventy dollars (\$70.00) in the year 1931.

7. THE following sums shall be raised and levied in the years de-
tailed, by a rate sufficient therefor, on all the rateable land or land and
improvements within the Municipality in addition to all other rates, for the
payment of the debt hereby created when due: the sum of

Six hundred dollars (\$600.00) in the year 1922,
Six hundred dollars (\$600.00) in the year 1923,
Seven hundred dollars (\$700.00) in the year 1924,
Seven hundred dollars (\$700.00) in the year 1925,
Eight hundred dollars (\$800.00) in the year 1926,
Eight hundred dollars (\$800.00) in the year 1927,

Nine hundred dollars (\$900.00) in the year 1928,
Nine hundred dollars (\$900.00) in the year 1929,
One thousand dollars (\$1,000.00) in the year 1930,
One thousand dollars (\$1,000.00) in the year 1931.

8. THIS By-law shall before the final passage thereof receive the
assent of the electors of the said Corporation of the District of Summerland
in the manner provided for by the Municipal Act 1914 and Amending
Acts.

9. THIS By-law shall come into force and take effect on the First
day of December, A.D. 1921.

10. THIS By-law may be cited for all purposes as the Electric Light
Loan By-law, 1921.

DONE AND PASSED by the Municipal Council the Fourteenth day
of October, A.D. 1921.

RECEIVED THE ASSENT of the Electors of the Corporation of the
District of Summerland the day of
A.D. 1921.

Corporation of the District of Summerland

BY-LAW NO. 143

A BY-LAW TO RATIFY AN AGREEMENT ENTERED INTO BY THE OKANAGAN WATER POWER COMPANY OF THE ONE PART AND THE CORPORATION OF THE DISTRICT OF SUMMERLAND OF THE OTHER PART.

WHEREAS on the Second day of September, A.D. 1921, the Okanagan Water Power Company and the Corporation of the District of Summerland entered into an Agreement for the sale and purchase respectively of electric power by the parties aforesaid, and the due and faithful observance of the conditions, covenants, and obligations contained in said Agreement having been guaranteed by the West Kootenay Power and Light Company Limited, which said Agreement and guarantee is as follows:—

MEMORANDUM OF AGREEMENT, made this Second day of September, in the year of our Lord, One thousand nine hundred and twenty-one,

BETWEEN OKANAGAN WATER POWER COMPANY, a body corporate under the laws of the Province of British Columbia (hereinafter called the "Power Company")

OF THE ONE PART

AND THE CORPORATION OF THE DISTRICT OF SUMMERLAND, (hereinafter called "The Municipality")

1. WITNESSETH that the Power Company for and in consideration of the promise of the Municipality herein contained and of the fulfillment thereof, does hereby promise and agree to and with the Municipality to sell, furnish and deliver electric power to the Municipality, and the Municipality, for and in consideration of the promises of the Power Company herein contained and of the fulfillment thereof does hereby promise and agree to and with the Power Company to purchase and receive from the Power Company and to pay the Power Company for said Electric Power during the term, at the price and upon the terms and conditions specified and set forth as follows, to wit:—

2. ALL electric power to be delivered and received pursuant to the provisions of this Contract shall be what is commonly designated as three phase, sixty cycle, alternating current, and shall be delivered at an electromotive force of approximately Four thousand four hundred (4,400) volts at the junction of main roads at Blocks 29 and 29A, D. Lot 473, current to be metered near Block 27, D. Lot 441, in the said Municipality, slight variations in frequency and electro-motive force in either direction to be allowed. The Municipality agrees that it will so regulate the load that the power factor will be at least seventy-five (75) per cent.

3. THE Power Company shall furnish, inspect, test and keep in repair all meters belonging to said Power Company and which may be required for measuring in terms of K.W. Hours the amount of the electric power delivered under this contract, and shall instal such meters near Block 27, D. Lot 441.

4. AND THE Municipality shall likewise inspect, test and keep in repair, the check meters installed by them at the southerly boundary of the Municipality, as well as all other meters installed by them; and the Municipality shall have the right at any time to inspect and test such meters in the presence of a representative of the Power Company appointed for that purpose upon giving the Power Company two days' written notice; and the Power Company reserves the right at any time to inspect and test such meters of the Municipality in the presence of a representative of the Municipality appointed for that purpose upon giving the Municipality two days' written notice.

5. THE Power Company and the Municipality will each instal near Block 27, D. Lot 441, of the Municipality of Summerland hereinafter mentioned, one or more three phase unbalanced recording watt hour meters of sufficient capacity to register in K.W. hours the total power supplied to the Municipality.

If the variation between the measurement of the watt hour meters of the Power Company, and the measurement of the watt hour meters of the Municipality does not exceed two (2) per cent, then the mean between the two measurements shall be taken as a basis for computing the amount of power delivered and to be paid for. If the variation between the measurements exceeds two (2) per cent, then the said watt hour meters shall be checked with a proper checking meter, and whichever measurement shall be found correct shall be taken as a basis for computing the amount of power delivered and to be paid for. In the event of a meter being found incorrect, it shall be corrected or replaced by the party to whom it belongs. The testing and repair of meters shall be done in the presence of a representative of each of the parties hereto and at the expense of the party to whom such meters belong.

6. All electric power delivered under this contract shall, except as hereinafter otherwise provided, be paid for according to meter measurement, provided, however, that if any installed-meter shall, during any period of time, for any reason whatsoever, fail to register correctly the electric power delivered through it, the amount of the electric power delivered through such meter or meters, during such period of time shall be estimated by the Power Company from the readings taken at the Power House of the Municipality whenever practicable, and in such other cases by determining the average daily consumption of electric power through such meter during the month next preceding any such period of time, and obtaining the multiple of such daily average, and the number of days of such period; provided, however, that if any motor or other electricity using device is, or is not, used during any such period, which was not, or was, used during any such preceding month, then the amount of electric power used on any such motor, or other electricity using device, during the said period shall be estimated according to the rated capacity of any such motor or other electricity using device, and the amount of such estimate added to, or deducted from, the said multiple to determine the total amount of power delivered through any such meter during such period; but no correction for any inaccuracy of meter measurements shall be made in any bill rendered by the Power Company unless the party complaining of such inaccuracy shall in writing request such correction before the expiration of the calendar month in which such bill shall be rendered.

7. IF any part of the Municipality's lines, electrical machinery and apparatus, shall at any time be unsafe, the Power Company shall have the right at its option, of ceasing to deliver electric power under this Contract until the Municipality shall put such part in good and safe condition: PROVIDED however, that the Municipality shall take all reasonable precautions to keep its lines, electrical machinery and apparatus in good repair and immediately upon any such lines, machinery and apparatus becoming unsafe or out of repair the Municipality shall cause the said lines, machinery and apparatus to be made safe and in a proper state of repair in order that the delivery of power shall not be interrupted more than reasonably necessary.

8. THE Power Company shall exercise reasonable diligence and care to furnish and deliver to the Municipality electric power in accordance with its covenants herein contained, and to avoid interruption of delivery of such power under this Contract, but nevertheless, shall not be liable to the Municipality for any loss or damage which may be occasioned to the latter by any failure on the part of the Power Company so to deliver such electric power, or for any loss or damage which may be occasioned by electric power delivered by it, if such failure, interruption, loss or damage shall be caused by inevitable accident, Act of God, fire, strikes, riots, war, or any other Act or thing beyond its control.

9. WHENEVER the Power Company or the Municipality shall find it necessary for the purpose of making repairs upon or improvements in any part of its electrical generating and distributing machinery, apparatus or system, it shall have the right to suspend temporarily the delivering or receiving of electric power under this Contract, but in all such cases such reasonable notice thereof as circumstances will permit shall be given to the other party to this agreement and the making of such repairs or im-

provements shall be prosecuted as rapidly as may be practicable, and if practicable shall be made at such times as will cause the least inconvenience and loss to the other party to this Agreement.

10. ALL electric power which shall be delivered by the Power Company to the Municipality hereunder shall be paid for by the Municipality monthly during the term of this Contract and within ten days after the rendition of the monthly bill of the Power Company for the power consumed during the month next preceding. If default shall be made at any time by the Municipality in paying any money which shall become due to the Power Company hereunder, and if such default shall continue for the period of thirty (30) days after demand, then the Power Company shall have the right, at its option, to cancel and terminate this Contract or to discontinue the delivery of electric power without cancelling or terminating this Contract until all money due to it under the terms hereof shall have been paid, and this option may be exercised by the Power Company whenever and as often as such default shall occur and continue for the period of thirty (30) days after demand, and neither delay nor omission on the part of the Power Company to exercise such option at any time shall be deemed to be a waiver by it of its right to exercise the same.

11. THE Power Company shall have the right within a reasonable time after the expiration or other termination of this Contract to remove from the property of the Municipality any and all meters, wires, poles, machinery, apparatus and fixtures which it shall instal thereon.

12. THE Power Company shall at all times during the existence of this Contract have, and it is hereby granted, all rights of way and easements over such streets or lanes the property of the Municipality as may be necessary for the erection, maintenance, repair, replacement or use of any and all wires, poles, machinery, apparatus and fixtures necessary or convenient for the supplying and delivery of electric power hereunder by the Power Company to the Municipality.

13. AT all times during the term of this Contract, except as herein otherwise provided, the Power Company shall furnish and deliver to the Municipality and the Municipality shall purchase and take from the Power Company, and pay the Power Company for electric power in the amounts necessary for the operating of lights and motors, or other electricity using devices installed or to be installed within the Corporation of the District of Summerland or area now being served by the local distribution of the Municipality or to be served. The price at which all electric power herein under shall be sold and delivered to and paid for by the Municipality, shall be Three and one-quarter cents (3 1/4 c.) per K.W. Hour. Power consumption to be measured by meters on the power line at the southerly boundary of the said Municipality.

14. ALL payments shall be made monthly during the term of this Contract.

15. THE Municipality will use the electric power to be furnished to it hereunder only for the purposes aforesaid.

16. THIS Contract shall continue in force for the term of Ten (10) years from and after the First day of January, One thousand nine hundred and twenty-two (1922) and thereafter until terminated by at least six months' notice in writing by either of the parties hereto to the other.

17. THE Company will complete its line and supply power hereunder as soon as it is able to do so by the use of all reasonable diligence.

18. EXCEPT as herein provided the Power Company shall not during the continuance of this Agreement supply electric power for any purpose to any consumer within the Municipality of Summerland, or the area now being served by the local distribution of the Municipality or to be served other than to the Municipality, provided that the Power Company may enter into an Agreement to supply or may supply electric power for any purpose to any industry or consumer hereafter locating in the aforesaid Municipality and not being supplied with power by the Municipality provided, however, that this right to supply electric power direct to such industry or consumer shall belong to or enure to the benefit of the Power Company only if the said industry or consumer shall use a minimum of fifty (50) horse power or more.

19. IF any difference shall arise between the parties hereto as to the meaning and purpose of this contract or the proper performance thereof, or the proper amounts to be paid or allowed pursuant to any clause thereof or as to matters of calculation or as to efficiency of plant and machinery or any other question of like nature, the same shall be referred to an Arbitrator to be named by the Managers of the respective parties, or if they cannot agree, then by any two of three arbitrators to be named as follows: One to be named by each party hereto, but if either party name one arbitrator and notify the other in writing and the other party neglect to appoint another within one week after such notice, the party giving such notice may name a second arbitrator and the two arbitrators first appointed shall appoint the third, and the decision in writing of such first mentioned Arbitrator or of any two of such three Arbitrators shall be final.

The term "Arbitrator" in this clause shall include any expert in matters so referred.

20. THIS Contract and all the provisions hereof shall run to and bind the respective parties hereto and their respective heirs, successors, representatives and assigns, subject to the same being ratified and assented to by the electors of the said Municipality.

IN WITNESS WHEREOF the parties hereto have executed these presents in duplicate.

SIGNED, SEALED AND DELIVERED OKANAGAN WATER POWER COMPANY in the presence of L. A. CAMPBELL, President

Legal Seal of the Okanagan Water Power Company

THE CORPORATION OF THE DISTRICT OF SUMMERLAND RALPH E. WHITE, Reeve F. J. NIXON, Clerk

THE WEST KOOTENAY POWER AND LIGHT COMPANY, LIMITED, having taken communication of the Agreement hereto attached, made between the OKANAGAN WATER POWER COMPANY of the one part and THE CORPORATION OF THE DISTRICT OF SUMMERLAND, of the other part, dated the Second day of September, A.D. 1921, in consideration of One Dollar (\$1.00) to it paid and in consideration of the covenants in the said Agreement on the part of the Corporation of the District of Summerland to be kept, observed and performed, hereby guarantees to the Corporation of the District of Summerland, the due and faithful observance and performance by the Okanagan Water Power Company of the said Agreement and of each and every of the conditions, covenants and obligations in the said Agreement contained on the part of the Okanagan Water Power Company to be observed and performed.

IN WITNESS WHEREOF THE WEST KOOTENAY POWER AND LIGHT COMPANY, LIMITED, has hereunto caused its Corporate Seal to be affixed and the hands of its proper officer in that behalf to be set this Seventh day of September, A.D. 1921.

Witness THE WEST KOOTENAY POWER AND LIGHT COMPANY, LIMITED OLIVE GAINES, JAMES J. WARREN, Managing Director

Legal Seal of the West Kootenay Power and Light Company, Limited

AND WHEREAS it is deemed expedient to pass this By-Law ratifying the said Agreement, subject to the same being approved by the electors of the said Corporation of the District of Summerland,

NOW THEREFORE the Municipal Council of the Corporation of the District of Summerland in open meeting assembled enacts as follows:—

1. That the said Agreement between the Okanagan Water Power Company and the Corporation of the District of Summerland herebefore referred to, be and the same is hereby ratified and confirmed.

2. This By-Law shall, before the final passing thereof, receive the assent of the Electors of the Corporation of the District of Summerland in the manner provided by the Municipal Act 1914 and Amending Acts.

3. This By-Law may be cited for all purposes as the "Okanagan Water Power Company Agreement Approval By-Law 1921."

COAL

THERE is no time like the present to prepare for the future. Coal bought and placed in the bin not only gives one a "comfy" feeling about the coming of winter, but its good business. There is a material saving in the cost in buying the winter's fuel supply early in the season.

Let us fill your bin at once with the best all service coal that can be had. We have a car ordered and will be in position to supply your coal requirements in good shape at prices same as last year. Quality same as last year.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Major R. G. Hardisty having received the appointment of returning officer for the Electoral District of Yale for the coming Federal election, has moved in to town, and set up his office in the former Municipal Hall on Third street and is busy now with his duties of office.

Miss Turner, of Penticton, spent a few days in Peachland early last week.

Mrs. Hackett and Mr. Geo. McBean were visitors from here to Kelowna on Monday.

Miss Park, a guest at the home of Mr. and Mrs. A. J. Miller, left on Monday morning for Vernon.

After a few days in Penticton, W. L. Williams returned on Tuesday morning.

Mrs. Needham spent a few days of last week visiting friends in Kelowna, returning home on Saturday evening's boat.

Mr. Livingston returned to Peachland on Tuesday morning after spending the week-end in Penticton and vicinity, and left the following morning to return to his home at Edmonton.

Mr. Kennedy left on Tuesday morning on a short business trip to the prairies. He will probably bring back some more of his goods and chattels.

Mrs. E. Law, of Penticton, is visiting with relatives here.

Having finished work with the Peachland Fruit Growers' Union on Tuesday evening, Mr. Garnet Sootherin left on Wednesday evening for Summerland, where he has accepted a position with the Union there.

After a few weeks' vacation, during which time they visited their former homes, Mr. and Mrs. C. D. Drake returned home on Wednesday evening.

Mr. and Mrs. J. A. Edgecombe spent a few days of last week up the lake, returning home on Saturday evening.

Mrs. Eddie left for North Bay. She expects to be away a couple of weeks.

Mr. Seth Davidson returned on Thursday evening after a short visit up the lake.

Major R. G. Hardisty was a passenger from here on Thursday evening's southbound boat.

Mr. G. M. Johnston, of Victoria, spent a little time in the community last week looking over some properties with a view to settling here. He left on Thursday evening's boat, intimating that he might be back again.

Friday last was a holiday for the children of the Central school as the teachers were attending the teachers' convention at Vernon. They left on Friday morning's boat, all jubilant and bright with the prospects of a pleasant and profitable time. The male members of the profession returned home on schedule, but when the message was received in town that the two young lady teachers had been detained in the Detention Home in Vernon it almost looked as though they should not have been let away without some protection. However all's well that ends well. They were just having a pleasant visit with Mrs. Stainton, who owns the home in question. They are all back and at their several posts full of fresh vigor and report a very pleasant and profitable convention.

Mrs. N. A. Shaw and daughter, Mrs. Craige, were visitors to Kelowna on Friday last.

Dr. Buchanan was a passenger south from here on Friday evening's boat, returning the following morning.

The regular monthly meeting of the W. C. T. U. was held at the home of Mrs. H. E. McCall on Friday, Oct. 21st. It was open to gentlemen as well as the ladies. There was a good attendance, about thirty in number. A very interesting program was much enjoyed by all. There were readings by Mrs. Williams and Miss M. Smith; a song by Miss Ella MacKenzie and a duet, violin and piano, by Rev. and Mrs. F. A. Coad. Tea was served at the close of the program, which increased the funds of the local branch over six dollars.

Mr. and Mrs. Cummings of Penticton, arrived in town on Saturday morning and were guests at the home of Mr. and Mrs. Maben, of the Trepanier townsite.

Mrs. Iverson and daughter, of Naramata, were in town on Saturday last.

Mrs. and Miss Mary Vicary moved down to Penticton last week, where they expect to live for a time.

Naramata News

Current Events of Town and District

An excellent collection of books is to be found at the Naramata school this term in consequence of the efforts put forth by the people of the district last winter. Realizing the need of reference books for the use of teachers and pupils, as well as the need of good books for supplementary reading, a committee was, last term, placed in charge of obtaining money and books for the establishment of a school library. The committee consisted of Mrs. Carrol Aikins, Mrs. Bruce Cash and Mrs. Campbell Robinson, acting with the school trustees. Money and books were generously donated throughout the district, and the committee gave considerable thought and care to the selection of books. Some difficulties were met with. In some cases books ordered could not be procured and substitutions were made by the publishing companies. Also it was found that books, even in cheap editions, were very expensive compared with prices of a few years ago. However, the foundation of a good library has been laid and the books now procured will be of material assistance to the school work this coming year.

The books at the large school building have been divided into reference books, which are not lent, but can be used in school, and lending and reference books which may be read in school by the junior room, and which may be borrowed for home reading by the senior room.

The reference library includes: Parkman's History of Canada, Young Folks' Library, 20 vols.; The World and Its People, 12 vols.; Highroads of History, 15 vols.

To the lending and reference library were added the following books. Favorite Nursery Stories, Norwegian Fairy Tales, Tom Brown's School Days, David Copperfield, Some Legends of Greece and Rome, Tanglewood Tales, The Children of the New Forest, Fairy Tales of North America, Fairy Stories of Africa, Heroes of Asgaard, The Virginian, Representative Short Stories, Westward Ho!, Sir Roger de Coverly, Stories from Northern Myths, Jiu-Jitsu, The Trainer's Anatomy, Science of Wrestling, Club Swinging, Indian Clubs, Real Physical Culture, A Child's Book of Empire, Silas Marner, Treasure Island, Tales from Shakespeare, Drake, the Sea King, Helen's Babies, The Story of Livingstone, Pizarro, Grimm's Fairy Tales, Aesop's Fables, The Life and Love of the Insect, The Champions of the Round Table, Familiar Quotations (Bartlett), Story of Our Continent, The Book of Knowledge (20 vols.), Cortez and Montezuma, With Wolfe in Canada, The Adventures of Tom Sawyer, The Young Folks' Library (20 vols.), The New Canadian Bird Book, Handbook of Nature Study, Manual for the Study of Insects, Wild Flowers of the North American Rockies, The Adventures of Marco Polo, The Earth in Past Ages, History of English Literature, Classical Methods.

These books had to be ordered from various publishing houses, a few here and a few there. The secretarial work involved, which fell upon Mrs. Campbell Robinson, was no small matter, and it is mainly due to her painstaking effort as secretary of the committee that the books were in place at the beginning of the school term for the use of pupils and teachers.

Mrs. Bruce Cash left on Saturday morning by the Steamour for a week's visit at Vernon and other points up the lake.

A regrettable accident took place on Saturday when Mr. Campbell Robinson's Airedale, Trotsky, was killed by a motor truck on Front street. The dog was chased under the truck by a larger dog and was instantly killed when the wheels went over his neck. Trotsky was a favorite with the children on Front street as well as with his owner, and his loss is much regretted.

Mr. and Mrs. Scaife, who had been staying at the Syndica after their return from Kelowna, moved on Thursday to Mrs. Lloyd's cottage on the Lloyd ranch.

Mrs. J. O. Hughes left on Monday morning for the Coast, to be gone a considerable time. Mrs. Hughes will act as delegate from the W. C. T. U. of Naramata at the W. C. T. U. convention, which is being held in Vancouver this week. Later Mrs. Hughes will enter the general hospital for an operation.

Mr. Cliff Duncan, who is absent in Calgary for a few days, is expected back on Wednesday of this week, Oct. 26th.

Mrs. Annie Gillespie, for several years a resident of Naramata and since then pastor of a Spiritualistic church in Battle Creek, Mich., received last week the following telegram: "Greetings from convention as-

sembled at Detroit. Your splendid report enthusiastically received. We greatly miss your personal presence. We are truly thankful that you have been spared to us and hope for your perfect recovery.

"The committee, Mrs. E. H. Goetz, J. P. Whitwell, G. W. Kalls." For several weeks Mrs. Gillespie has been recuperating at the home of her son, F. C. Manchester, at Naramata, following a serious illness.

The Vital Issue

"What we have to decide is this—Are we going to continue the protective system of this country or are we not? That is the question and that is the whole question. And the great, big, necessary thing is that every voter in this country from the Yukon to Halifax knows that this is the issue he or she is deciding when he or she votes in this great contest."

—ARTHUR MEIGHEN

The vital issue in the coming election—in fact, the only issue—is the Tariff, and to every clear thinking Canadian it should be readily apparent that a Protective Fiscal Policy is absolutely essential to stability, progress and development.

Every important country in the world upholds Protection as an essential economic principle. Even Great Britain—so long the stronghold of Free Trade—has now adopted laws that constitute Protection of the most effective kind. In fact, the present policy among most nations is towards raising their tariff walls, not lowering them. In the face of these facts it would be suicidal for Canada to do exactly the reverse and discard the fiscal system which has been responsible for its progress during the past forty-three years.

Free Trade would mean death to Canadian industry. It would also result in the immediate closing down of Canadian plants of foreign firms, with consequent additional unemployment. There are to-day 650 American factories alone in Canada. Similar proposed ventures would be abandoned. New capital would refuse to come

to a Country lacking adequate protection and present industrial enterprise would be promptly strangled by foreign competition.

The preservation of the home market by a Reasonable Protective Tariff is vital to both city dweller and agrarian alike—now as never before. More capital is urgently needed for the development of Canada's enormous resources, which will result in a lessening of unemployment and an increased population. More work and more workers will produce an enlarged home market for products of both city and farm, and the exodus of Canadian men and women—and the dollars they earn—will be precluded.

The United States has slammed her trade door in the face of Canadian farmers by adopting the Fordney Bill, and the farmer is consequently now even more dependent upon the home market than in the past.

Yet Cramer asks you to destroy that home market by voting for Free Trade.

King's policy—if he has one—will result in the destruction of the Tariff.

Meighen stands four square for Reasonable Protection—Protection for all the people—and asks for an overwhelming mandate to give both industry and agriculture that assurance which will spell prosperity for all. Individual prosperity depends upon National prosperity. Your personal interests and Canada's very existence hang upon your vote.

Meighen will lead us through

The National Liberal and Conservative Party Publicity Committee

Irrigate Your Land With

PEDLAR'S "PERFECT" FLUMES

Don't be dependent on uncertain rainfall—carry the water from lake and stream right into your fields—have all the water you want, whenever and wherever you want it.

Pedlar's "Perfect" Flumes will pay you a big profit every year—they are the best crop insurance. They cost less to build and maintain than any other. They will not leak or sag, shrink, swell or warp. They are unaffected by extremes of heat or cold. Made from interchangeable sections of Galvanized Anti-corrosive ~~C~~ which gives a clear unobstructed flow that never fails.
