## ASSOCIATION REGISTERS A MERITED KICK

Tactics of Vancouver Fruit Jobbers Condemned by Thos. Bulman.

Prompt action was taken last week by the Associated Growers to direct the attention of the editor of the Vancouver Province to the serious injustice and monetary harm it aided to bring upon the Okanagan producers of apricots in the article referred to in our last number, in which Vancouver citizens were urged to buy United States cots. Vigorous protest against the attitude of Vancouver wholesalers and the press of that city was made in the editorial columns of other Valley papers in addition to the Review last week and Thos. Bulman, vice-president of Associated Growers of British Columbia, also took the matter up in a letter to the Vancouver Province. His letter reads:

"Kelowna, B. C., July 20th, 1923. 'The Editor, Vancouver Province,' 'Vancouver, B. C. 'Dear Sir—Enclosed find clipping from your paper, dated July 19th. Can you imagine any article that would strike more discouragement into the hearts and minds of fruit growers than this article? 'The fruit growers of the Okanagan having come through one of the most disastrous years in their history and in consequence of the disaster, making a supreme effort with the help of the board of trade in Vancouver, and other broad-minded citizens, to organize a co-operative marketing scheme with the hope of making the business at least one that will give a living to those engaged in it, and to find that the promises of the one hundred per cent. support of the wholesalers of Vancouver are no insincere that at the first opportunity they have to make a dollar for themselves they are advocating the housewives of Vancouver to hurry up and purchase all the apricots they require before the Okanagan crop is ripe and ready to market.

"From information reaching us from our brokers the jobbers of Vancouver have taken advantage of the large surplus of apricots in the States to provide themselves with their total requirements for this year of American grown fruit. This may be good business for the dealer but it is a very serious matter for the fruit (Continued on Page 6)

"The Editor, Vancouver Province,' 'Vancouver, B. C. 'Dear Sir—Enclosed find clipping from your paper, dated July 19th. Can you imagine any article that would strike more discouragement into the hearts and minds of fruit growers than this article? 'The fruit growers of the Okanagan having come through one of the most disastrous years in their history and in consequence of the disaster, making a supreme effort with the help of the board of trade in Vancouver, and other broad-minded citizens, to organize a co-operative marketing scheme with the hope of making the business at least one that will give a living to those engaged in it, and to find that the promises of the one hundred per cent. support of the wholesalers of Vancouver are no insincere that at the first opportunity they have to make a dollar for themselves they are advocating the housewives of Vancouver to hurry up and purchase all the apricots they require before the Okanagan crop is ripe and ready to market.

## SCHOOL ROUTES TO COST LESS

Trustees Award Contracts For Conveyance on Six Routes.

At a special meeting of the School Board last night, contracts were awarded for the six routes. The successful bidders and their rates are: Giant's Head, Smith & Henry, \$5 per day; Paradise Flat, H. Dunham, \$4.40; Garnett Valley, Chas. Clarke, \$4; Trout Creek, H. Thornthwaite, \$2.75; Town, W. E. Rines, \$5.50. This makes a total of \$25.06 per school day as against \$20.30 last year, a saving to the board of \$305 in the year, and a like amount to the Department of Education.

The resignation of W. R. Payne of the high school staff was formally accepted and another teacher for the high school staff is being sought. Several delinquent high school fees were reported paid through the collector and the secretary and instructions were given to the collector to proceed with the collections of those still outstanding.

The principal of the High School in an analysis of the examination results, endeavored to place the chief responsibility for the poor showing upon the other two members of the High School staff.

**HAIL AT COLDSTREAM**  
Coldstream district was badly hit by a hailstorm one day last week when hailstones, measuring more than half an inch in diameter fell. Some growers will lose two-thirds of their crop.

## TO WIDEN FRUIT MARKETS OBJECT OF THIS CIRCULAR

The fruit branch, Department of Agriculture, Ottawa, is now circulating Transportation Bulletin No. 31, of representative express rates on fruits and vegetables from British Columbia shipping points. The object is to widen distribution and consumption of Canadian tender fruits by familiarizing the trade and consuming public with transportation costs for fruits and vegetables by express under seasonal commodity tariffs from points of production.

Under existing marketing methods particularly in seasons of heavy crop, tender fruits often glut the larger markets, though the possible consumption outside the cities and larger centres is not fully supplied, particularly in remote villages and rural areas. The information now presented in bulletin form will prove useful as a ready-reference for shippers in quoting express charges to any destination, and may also point out neglected marketing opportunities. To the retailer or consumer exact information of laid-down costs will undoubtedly stimulate orders and increase consumption.

Requests for this bulletin are invited and may be addressed to the Fruit Commissioner, Ottawa. Similar information of express rates from Ontario shipping points to destinations in Western Canada is given in Bulletin No. 30.

## NO DIVIDEND ON STORAGE CO.'S SHARES

Some Loss in Concluding Sale to New Holders of Building.

At the annual general meeting of the shareholders of the Summerland Storage Co., Ltd., held on Tuesday evening, the following were elected directors: W. H. Hayes, E. R. Simpson, F. W. Andrew, W. C. Kelley, A. B. Elliott, J. R. Campbell and Wm. Ritchie. On recommendation of the retiring board the dividend was passed, among other reasons, being that \$1717 had been paid the Summerland Fruit Union for office and vault, which were turned over to the purchasers of the storage building. In the past, dividends due any shareholders whose payments on stock were covered by note were applied on the interest on said notes. There being no dividends this year, these shareholders will be asked to pay the interest on their notes.

Major Hutton, vice-president, who had recently resigned from the board, was asked to give his reasons and explained that he was not in accord with the policy of the board in the hypothecation of the debentures received from the purchasers of the building with the bank as security for loans made by the bank. There was considerable discussion on this question, but apparently the shareholders were of the opinion that no other course was open.

Payment of the \$60,000 purchase price of the building was made in cash, \$30,000, and debentures, \$30,000. The cash was used to pay mortgage and interest, approximately \$23,000, bank overdraft and outstanding accounts. The \$60,000 debentures will be cleared when shareholders who gave notes in payment of shares have retired those notes.

## NEW BRIDGE AT NARAMATA

Included in recent appropriations by the Provincial Government for public works is a sum of \$650 for a new bridge at Mill Creek at Naramata.

## VERNON HAS BUILDING BOOM

Vernon is experiencing somewhat of a building boom, according to the Vernon News. Several new business blocks are going up on Barnard Ave. On another street, new offices are being built for the Associated Growers.

The Occidental Fruit Company have secured premises in Naramata and will operate there.

## SCOUTS WERE RUSTICATING AT THE FALLS

Real Scouting Work Was Accomplished—Eric Johnson Fractures Leg.

Judging from the remarks of the youngsters who were in camp this year, there can be no doubt but that it was one of the best yet. After three years at Miller's Point the roving spirit of the boys began to assert itself as fresh fields had to be sought.

There could be no more ideal spot than that chosen. A little south of the falls, on the shady side of the river, with lots of ground for sports, good river swimming, new grounds to be cleaned up—what more could be desired?

Saturday morning saw the boys ready at Ellison Hall. Unfortunately several of the senior boys were out of town, but the rest of the troop were all there—very much so—and with the A.S.M. and the T.L. in charge the start was made. The Falls were made about noon and after the tents had been erected, lunch was served.

This year's camp was in the nature of a back to the primitive, consequently the Scouts took along no stove, all the cooking being done on an open fire. It was surprising what adept the boys became in the culinary art, flap jacks and dough nuts being quite a common item on the menu.

Real Scouting work was the main item of this year's camp, one of the novelties being freighting without matches.

To most people the idea of freighting by the means of rubbing two sticks together means a long tedious process, but when fire was obtained in camp in 20 seconds by means of two pieces of wood and a shoe lace it demonstrates the usefulness of knowing the method.

The competition this year between the Patrols was for the Borton Cup. This cup goes to the Patrol having the highest number of points in the following: land sports, water sports, general scoutmanship, cooking, ambulance work, signaling, fire-lighting, archery, and camp inspection results. The final returns will be ready next week when a full account will be given. The first installment of "A Tenderfoot Diary" will also be published next week, and it promises to be the best yet.

(Continued on Page 6)

## TAXES LOW SAYS VISITOR

Comparison in Letter is Unfair to Summerland He Says.

That the letter published in our last issue over the name of P. G. Koop does an injustice to Summerland, is the opinion of an American visitor to the Review office on Monday. Several American tourists camping in the park over the week end were supplied with copies of the Review and it was one of the readers, Mr. John Gooder, who called to give his version of the manner of taxation.

Our informant, who is a resident of Omak, states that his tax rates are very similar to those paid by the Wenatchee fruit grower and further that a Wenatchee member of the party told him that had Mr. Koop added a cipher to Wenatchee school taxes he would have been about right. Wenatchee's tax rate runs about 60 mills, of which about one-half or a little better is for school purposes. Mr. John Gooder, who owns an orchard at Omak, states that his rate is 67 mills, of which 36 is for school and they tax land and improvements and personal property. "They even tax my watch."

The basis of assessment is quite different from ours, but the tax per acre is higher. Land is placed at \$80 as if unimproved, and each year \$30 is added to the value of orchard property. The average ten-acre lot with trees and buildings pays round \$200 a year taxation. For a first class ten-acre orchard here the total taxes are \$120.

## NOT THINNING HEAVILY ENOUGH SAYS VISITOR

A tourist party in three cars from Omak, Washington, 100 miles south of here, spent a day or two here late last week. They were August Aveldson, Harold Aveldson, E. Ahlin, T. Wheeler and John Gooder, with their wives and children.

The last named gentleman, who, by the way is an Englishman, and has been operating an orchard at Omak for some years, commented on the lack of thorough thinning here, of apples in particular, that being the fruit in which he is most concerned. He and his neighbors now look upon this as perhaps the most important work in an orchard. Jonathans and other heavy bearing trees, tending to throw a small fruit are well thinned assuring good sized fruit and an annual crop.

## 1923 GAME REGULATIONS ARE ISSUED

Bear Not to be Trapped—Cock Pheasants May be Bagged On October 20.

The Game Regulations for 1923 were promulgated in a recent issue of "The British Columbia Gazette." The Okanagan Valley is included in the Eastern district, which is defined as including all that portion of the Province situate and lying to the east of the summit of the Cascade Mountains and south of the main line of the Grand Trunk Pacific Railway, and we therefore give the rules applicable only to that district.

**OPEN SEASONS.** (Dates of commencement and close are inclusive).

**Big Game.**

**Moose.**—Of the male sex, in the Electoral District of Cariboo and those portions of Omineca and Fort George Electoral Districts situate and lying to the south of the main line of the Grand Trunk Pacific Railway, from September 15 to December 15.

**Caribou.**—Of the male sex, throughout the Province, except Queen Charlotte Islands, and except all that portion of the Province lying to the south and east of the main line of the Canadian Northern Railway, from September 1 to December 15.

**Wapiti (Elk).**—Of male sex, in the Electoral Districts of Fernie, Cranbrook and Columbia, from October 1 to October 20.

**Mountain Sheep.**—Of the male sex, in the Electoral Districts of Columbia, Cranbrook and Fernie, from October 1 to November 15. In that portion of the Electoral District of Lillooet situate and lying to the west of the Fraser River and to the south of the Hancoville-Clinton wagon road from the Fraser River bridge at Churn Creek to the northern boundary of the Lillooet Electoral District from September 1 to November 15.

**Mountain Goat.**—Throughout the Eastern and Northern Districts, except that portion of the Eastern District south of the main line of the Canadian Pacific Railway, from September 1 to December 15. In that portion of the Eastern District south of the main line of the Canadian Pacific Railway from September 1 to November 15.

## OUR ADVERTISING ALPHABET

**I**s for the INFANT  
Not old, but oh, so wise;  
In want it opens up  
Its mouth to AD-VER-TISE

## SPECIAL RATE FOR EXPRESS CARLOAD LOTS

New Reduced Rates on Some Fruit Shipments Now in Effect.

New special reduced express rates on apricots, plums and peaches in car lots to prairie points are now in effect.

Local Agent A. M. Leslie states that a special rate for mixed carloads of apricots and plums to the chief C. P. R. prairie points went into effect a few days ago, and is the same as formerly given berries, cherries and currants. It calls for a rate of \$2.40 per hundred with a minimum car weight of 24,000 pounds. This rate covers such places as Calgary, Edmonton, Saskatoon, Moose Jaw, Regina, Brandon, Winnipeg, etc.

For an extra charge of \$6.00 the privilege is given of partially unloading at any such point, with the shipment then proceeding on to destination. Or for same charge it is possible to start an express car at one point in the Okanagan and finish loading it at another. Icing charges are extra.

From July 26th peaches have been included in the special car rate. Straight cars are also allowed at the same rate as the mixed cars.

The special fruit rate put into effect this season provided for a rate of \$3.20 per cwt. to Winnipeg, \$3.00 to Saskatoon, \$2.50 to Edmonton and \$2.40 to Calgary. Thus, while the new lower rate does not make any reduction to Calgary, it will cut the transportation cost to all the major points east of Calgary and the rate will be the same for all.

The fact that these new low rates on cots and plums come into effect to prairie points for the benefit of B. C. shippers, and after the American crop is over, is of particular interest. The same situation will apply in the case of peaches.

## SUMMERLAND'S IS BEST EGG PLANT

Summerland is sending to Vancouver the finest egg plants seen there, according to the market columns of the Vancouver Province. These are described as excellent size, well colored and firm and compare very favorably with the best that California can produce at any time of the season. The wholesale price was given as twenty-five cents per pound.

## VETS SHOULD STATE CLAIMS

Time Limit Set for Those Suffering Disabilities from Service.

Ottawa.—Warning to all ex-members of the Canadian Expeditionary Force suffering from disabilities incurred during, or aggravated by, war service, that they should immediately advance their claims, has been issued by the Dominion command, Great War Veterans' Association.

The notification points out that all claims for disability pensions will be outlawed after August 31, 1924, and sets forth certain test questions for each disabled man to apply to himself to ascertain whether his claim is valid.

Commenting on the notification, C. G. McNeill, Dominion secretary of the veterans' association, stated that there were large numbers of veterans whose claims had been rejected by the Pensions Board prior to the passing of the new legislation, who would come within the range of the Pensions Act.

Correspondence received by the Dominion command adjustment service showed that the great majority were not aware that the legislation affected their status in any way. Officers of the local branch of the G.W.V.A. will be glad to assist any man who is suffering from war disabilities.

## CHEAP CHERRIES IN ONTARIO

Last week Niagara fruit growers were offering cherries at ten cents a basket to anyone who would pick them.

## EVAPORATOR IS MUCH NEEDED AT PRESENT TIME

Hailing of apples on the Great ranch and some of the Peachland orchards followed last week by a hail storm in the section of the Coldstream Valley is increasing the demand that some arrangement be made for the operating of the evaporator owned by the O.U.G. Fruit Products Ltd. Seen this week, Matt G. Wilson, liquidator of the above company, stated that there already existed a strong feeling that the evaporator should be operated and frankly stated that he was prepared to run the plant or make some provision for its operation, provided the Associated Growers would stand behind him to the extent of guaranteeing against loss.

The Review is informed that at the Great ranch alone, there will be over five thousand boxes of hail marked apples and this will only be a small part of the total of the whole valley. Salmon Arm too has been badly hit by hail and will have some 40,000 boxes of the marked fruit.

If public deposits in banks and loan companies can be taken as a fair indication, the Canadian is the world's richest man, according to a statement made by F. A. Hatch, retiring president of the Ontario division of the Canadian Manufacturers' Association. These deposits amount to more than two billion dollars, or \$250 per capita.

## ADVANCE OF HIGH SCHOOL CANDIDATES

Pupils Recommended by Principals Previously Reported—District Medals.

The results of the examination for passing from public to high schools were announced last weekend. It is now the practice to allow the principals to pass up to 60 per cent. of their pupils on the work of the year, those who have not made such a good record being required to write the examinations prescribed by the Department of Education.

There were in the province 4,939 candidates examined for entrance to high schools, and of these, 2,713 or 55 per cent. were successful. In addition to these, there were throughout the province 1,701 pupils promoted on recommendation of the principals. Candidates writing the exams were tested on five subjects only, arithmetic, grammar and composition, dictation and spelling, geography, and drawing. To obtain certificates, they had to pass in these subjects and also to submit a statement from their teachers certifying that they had completed the work prescribed for entrance classes in history, literature, hygiene, and nature study. The possible maximum is 500.

The names of the pupils who were promoted on recommendation of the principals of the schools covered have already been published. The names of those who were successful in passing the examinations are given below, together with their total marks.

Gladys A. Fisher, of Ponticton, won the Governor-General's medal for this district with 415 marks. The province is divided into ten districts for this purpose. The highest marks in the province were made by Alvin M. Faronhurst, Merritt, with 427 marks. Edward McLean, Prince Rupert, followed her closely with 420 marks. The district leaders each receive a bronze medal, but Miss Faronhurst gets a gold medal from the Governor-General.

Summerland.—John L. Plant, 338; Arthur R. Morgan, 324; Ivor H. Solly, 307; John D. Bernard, 300; Thomas E. Harris, 300; Arthur S. Knowles, 300.

Meadow Valley.—Emily D. J. Wheeler, 300.

Peachland.—Maud Fridgo, 377; Wallace A. MacKenzie, 340; Henry N. Wilson, 330; John A. Cousins, 335; Edward O. Williams, 310; Gerald A. Elliott, 300; Alexander Fridgo, 300.

Naramata Superior School.—Florence H. Lyons, 325; Charles D. Kennedy, 302.

Man never escapes punishment for disobeying the laws of nature.

## JONATHANS IN CELLARS KEEPING WELL

Growers Cannot Believe Story of Wholesale Breakdown.

There are many growers who are inclined to doubt the statement that Jonathan apples did not stand up last year and that their early breakdown was the reason for the heavy charge imposed on growers of Jonathans.

That there were some apples of this variety and perhaps a considerable percentage that broke down is not disputed, but there are many growers who have been carrying Jonathan apples up to the present and under anything but ideal storage conditions, who have seen no evidences of the alleged general breakdown. Only this week, John Tait, district inspector, brought to the Review office specimens of apples of several varieties kept in his cellar in open boxes and unwrapped. In the same cellar is his furnace and the temperature throughout the winter was well above the temperature of 32 degrees, prescribed as ideal for apple storage. The samples included Wagener, Winesap, Northern Spy and Jonathan, the latter very highly colored, which has been advanced as one of the causes of the failure of Jonathans to stand up. All of the specimens were in an excellent state of preservation and well demonstrate the possibility of keeping apples from one season to another. In oiled wraps all these would have been as good as when put into storage. Mr. Tait and many others are of the opinion that consignees have taken advantage of the unsatisfactory condition on arrival of some boxes of Jonathans to condemn whole shipments and believe that they would not have got away with it had the shippers been represented at points of arrival.

## DELIGHTED WITH OUR CLIMATE

Jack Neate of Victoria, a linotype operator, was a visitor at the home of his sister here, Mrs. E. O. James, last week. While in town he called at the Review office and was surprised to find such a complete and up-to-date plant here. Mr. Neate was very enthusiastic over the Okanagan climate, which, though he thought it hot, he found was not depressing like the hot humid atmosphere of the Coast.

## INFORMATION ON PACKING

Data Prepared at Experimental Farm is Guide for Growers.

The relation of the diameter of an apple and the number required to fill a box is something that concerns every grower and shipper. Some reliable data on this subject was prepared last fall at the Summerland Experimental Farm.

The exact diameter of course varies slightly with the variety, but the figures below represent the average of several of our main commercial varieties, and should form a fairly accurate guide to the grower in determining just what constitutes a No. 1 size apple.

The measurements were made with a calliper across the apple midway between the calyx and stem end.

No. apples per box.	Transverso Diameter.
96	3 1/4 ins.
104	3 3/8 ins.
113	3 ins.
125	2 7/8 ins.
138	2 3/4 ins.
150	2 11-16 ins.
166	2 3/4 ins.
175	2 1/2 ins.
188	2 7-16 ins.
200	2 1/2 ins.

Following is a list of commercial varieties with the approximate size which the grower should keep in mind as an ideal towards which to work: (Continued on Page 6)

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED

Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association. Member of British Columbia Selected Weeklies.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, August 2, 1923

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

### THANK YOU!

This is the sixteenth anniversary of our Birthday, and The Review bows acknowledgement to all who have assisted it in any manner in the past. Harkening back to August, 1908, is a far cry, but on looking back we can say from our hearts that the policy of The Review since its inception has been always for the good and our enemies are consequently negligible.

We have passed through several vicissitudes during this epoch, but to date we have been able to dodge those phantoms which deponent sayeth haunt the printeries: the judge, the sheriff, and the journalistic boneyard. We thank you!

### REAL CANADIANISM.

The Governor General has been touring the Maritime Provinces recently. In his speech to ex-service men at St. John, N. B., he breathes the spirit of the real Canadianism. Read it and remember it—

"My fondest hope would be to have Canada just like the Canadian corps, and if that hope was realized, we would have the finest nation that ever walked—and I know that you boys will see me through.

"At Vimy you knew French-Canadians were there and would do their job; you knew that Nova Scotians would do their job; you knew that the Ontario battalions would do their job. They were first and always Canadian.

"If we can make Canada like that corps, all believing in one another, all one great, big nation, all doing the same thing, all helping one another to attain that end, then I say we will have the finest nation in the world. And that is my heartfelt wish.

"And I know that you boys will see me through, just as you helped me through your fighting qualities. It was through you that I met success in command of your corps; it was through you that I went to the third army; it was through your loyalty and devotion and help that I won success; it was you who shoved me to the top of the tree. I can only say in return, 'God bless you.'"

### CITRUS ADVERTISING A SUCCESS.

The Florida Citrus Exchange is making an appeal to the growers of grape-fruit to co-operate instead of compete in the marketing of their product, and states that the keynote of its success up to date has been found in newspaper advertising. Ten years ago, the exchange says, it started to educate the American housewives to the food and health values of grape fruit. Today, as a result of newspaper advertising, one-fourth of the American people eat grape fruit. There remain, however, three-fourths of the people yet to be reached.

The potential market for the canned grape fruit alone is staggering to contemplate. The canning of grape fruit now has been perfected.

All that remains is to have the people told about it. The citrus exchange is to be complimented on its vision in seeing that only newspaper advertising can accomplish such mutually beneficial education. The housewives of every small town in the country will learn through advertising in their local newspapers all about grape fruit. Then everybody will profit.

### LIQUIDATOR SUES THE CRESTON UNION

Mrs. G. Wilson, liquidator of the property of the Okanagan United Growers, Ltd., has entered suit against the Creston Fruit Growers' Union, Ltd., for the sum of \$10,227. The Imperial Bank of Canada, with a branch at Creston is also being proceeded against by Mr. Wilson. The action is to recover monies advanced by the O.U.G. in excess of the net returns due the Creston branch of the old marketing organization. It is stated that Creston Growers formed a new organization under this name and that assets of the former local were turned over to the new one and further, that the Imperial Bank had taken a lien on the assets, when the bank will have to be brought in as the party in suit.

### "Typewriter Supplies."

A drug store recently attracted a lot of attention and stirred up much amusement by advertising "Typewriter Supplies" in large bold type. But instead of the usual line of carbon paper, ribbons, etc., there appeared below the headline the following list of items:

"Chewing gum, lip sticks, hair nets, candy, and also a choice line of confections."

Now for some party. 'Tis said Mrs. Frances DeAugebe Lajune packed up and ran off with a boarder. 'Tis false and malicious; unfair and a slander, I know: it was only a roomer. Too many advertisers are like the hen—they only cackle when business is good.

### AUTOS BURN ON MAIN ROAD

Two automobiles were burned while travelling along the roads south of Oroville recently. One was a light Ford truck, owned by John Thaw of Oliver, who was accompanied by his wife and his two children and two other children. They were on their way back from Omak and when near Oliver the car suddenly burst into flames, the fire apparently starting under the seats above the gasoline tank. The occupants escaped without injury, but all the woodwork of the car was entirely consumed. Though the tank of the car exploded, the tires were saved and the residue of the wreck was left at a nearby farmhouse and the unfortunate travellers were taken to Oliver in a passing car. The fire is supposed to have been caused by friction. Mr. Thaw had purchased the truck a few days before, paying \$250 for it, and as he is a man of limited means, the loss is a heavy one. This accident occurred on Sunday afternoon, July 22nd.

The next day, near the same place, a large automobile was burned up on the road. A little further down the Valley another car, owned by a Tonasket man, was consumed near the latter town.

There were at that time reaching here, frequent reports of extremely hot weather in that part of the Valley. These fires would seem to confirm the reports.

### GAME REGULATIONS

(Continued from Page 1) cific Railway, from September 15 to December 15.

Bear.—Throughout the Eastern Districts, from September 15 to June 30, 1924. Bear may not be trapped in any portion of the Province.

Deer, Mule, White-tail and Coast.—Bucks only, throughout the Northern and Eastern Districts (except that White-tail Deer may not be killed in those portions of the Eastern District known as North and South Okanagan, Similkameen and Greenwood Electoral Districts), from September 15 to December 15.

Fur-bearing Animals.—In the Northern and Eastern Districts all fur-bearing animals (except Beaver), north of the main line of the Canadian Pacific Railway, from December 1 to April 30, 1924.

Beaver.—In the northern District and in the Electoral Districts of Prince Rupert, Omineca, Cariboo and Fort George situate and lying in the

### Eastern District, from December 1 to April 30, 1924.

In that portion of the Eastern District south of the main line of the Canadian Pacific Railway, there shall be a close season on all fur-bearing animals for a period of three years, except in regard to Musk Rats in the Columbia Electoral District, where the season will be open from December 1 to April 30, 1924.

Game Birds.—Ducks (except Wood and Eider Ducks), Wilson Snipe, Coots, Black-breasted and Golden Plover, Greater and Lesser Yellowlegs.—In the Northern and Eastern Districts, from September 15 to December 30.

Geese and Brant.—In the Northern and Eastern Districts, from September 15 to December 30.

Grouse and Ptarmigan (except Prairie Chicken and Sharp-tailed Grouse).—In the Northern District and those portions of the Omineca, Fort George and Cariboo Electoral Districts, from September 1 to November 15. In the remainder of the Eastern District from September 15 to October 15.

Prairie Chicken and Sharp-tailed Grouse.—In the Electoral District of Fort George, situate and lying to the north and east of the Rocky Mountains, from September 7 to October 15.

Quail.—In the Eastern District, in those portions known as the Electoral Districts of Similkameen and South Okanagan, from October 20 to November 17.

Pheasants (except Golden and Silver Pheasants).—In the Eastern District, cock birds only, in the Electoral Districts of South Okanagan and Similkameen and in the Municipality and District Municipality of Salmon-Arm, from October 20 to November 17.

BAG LIMITS.

Big Game.—Deer.—Three during the open season.

Grizzly Bear.—North of the main line of the Grand Trunk Pacific Railway, two; south of the main line of the Grand Trunk Pacific Railway, one.

Mountain Sheep.—North of the main line of the Grand Trunk Pacific Railway, two of any one species, or three altogether. In the Electoral Districts of Columbia, Fernie, Cranbrook, Cariboo and Lillooet, one.

Game Birds.—Pheasants.—Four in one day; total bag limit, 12.

Quail.—Daily bag limit, 10; total bag limit, 50. Grouse and Ptarmigan.—Six of one

species, or twelve of all species in one day; total bag limit, 50.

Ducks.—Daily bag limit, 20; total bag limit, 150.

## RESULTS OF HIGH SCHOOL EXAMS.

Unfortunately we are not able to boast of our high school, following the announcement of the examination results. Disappointingly low indeed are the most of these. In fact, Summerland has dropped from a high standard to a relatively low one and much dissatisfaction is being expressed.

A number of pupils in the first year were promoted to second year by the principal. Of those who were required to write, seven failed and four were passed. All of the second year were promoted to the third year or junior matriculation. The third year are all required to write on the papers prescribed by the Department of Education and of those writing, six passed in all subjects, five will be required to write one supplementary and four on two supplementary examinations, while eight failed. The high standard made by G. E. Rayner, of Naramata, a new student at the local high school, is worthy of comment. Carlyle Clay made the highest average of the local students, and Amy Smith second.

"The Man Who Saves You \$\$\$\$"

SUMMERLAND WEST SUMMERLAND

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebates of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 20, 1918. Taxes are remitted for five years.

Provision for return of monies accrued, due and unpaid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

MAKOVSKI DISCUSSES PRAIRIE WHEAT POOLS

Editor, The Summerland Review, Summerland, B. C.

Dear Sir,— Regarding your article on Mr. Sapir and the formation of a wheat pool for the three prairie provinces, it would appear that many people seem to imagine that Mr. Sapir can perform miracles and organize the wheat growers so that "they will be able to handle their business that cost and something more will be obtained from their huge crop."

Mr. Sapir himself states that if "American wheat growers would create a joint agency for the sale of the exportable surplus, together with Canada and Australia, and perhaps Argentina, there would be UNQUESTIONABLE STABILIZATION of the world wheat price, and both the farmer and consumer would be saved from the speculators in Liverpool and Chicago."

I submit that both these suppositions are entirely misleading. A rise in the price of wheat cannot benefit the consumer except indirectly, through a rise in the purchasing power of the farmers enabling them to purchase more manufactured articles from the British factories and thus giving more employment in England.

Such a rise, as Mr. Sapir suggests, could only be brought about by a corner in wheat. A corner could only be temporary, as Mr. Joseph Leiter discovered in 1897-98.

The so-called speculators in the wheat market perform a very valuable function. They take all the risks of stabilization in the price of a commodity which is governed by the usual law of supply and demand. They have to deal in futures and anyone who knows the wheat market knows that entails speculation or the use of judgment. Moreover, the farmer himself in growing wheat has to speculate. The farmer's business is a speculation in any case and consequently the sale of his commodity is more or less of a speculation, unless the demand exceeds the supply invariably.

The farmers on the prairies are doing this year exactly what they did last year—talking about a pool when they should be selling their wheat through their present co-operative elevators. Consequently, it is quite possible that the grain exchange in Winnipeg will be unable to quote prices for futures to the Liverpool wheat buyers and these will turn to the Chicago market. In other words the American farmers will be able to market a large proportion of their exportable surplus while the Canadian farmer is talking it over. If the Farmers' Union and the other organizations interested would appoint a committee to examine the possibilities and make a report during the winter, it might be possible to anticipate marketing conditions and prices for next year. The basis of all such marketing is a five-year contract with the marketing association. In wheat a ten-year contract would be better so as to obtain an average price. But there is no need for the farmers to go to the enormous expense of establishing more marketing associations when if they would only stick to their own organizations and market through them on the contract basis, they would be able to take the fullest advantage of the extremely well organized machinery already established. It is an entirely different proposition to market the production of what is a comparatively localized production such as citrus fruits, tobacco and cotton, to marketing what is of world wide production such as wheat, apples, butter, etc.

Two items in the daily papers of July 26 are illuminating. The first is dated from Portland. "C. N. McNary, senior United States senator from Oregon, announced today that he will urge President Harding to call a special session of congress to fix a minimum price for wheat at \$1.75 a bushel."

The second is dated from St. Paul. "Magnus Johnson, recently elected senator from Minnesota on the Farmer-Labor ticket, stated: "The farmer is in dire need and emergency legislation is needed to remedy the situation. . . The farmer should have control of production, plus a reasonable profit, definitely guaranteed by the government."

Every farmer in Canada should plump on his knees and pray "what-over Gods there be" that these two senators may have their way. "Fix prices" . . . "Emergency legislation" . . . "Government guarantee." Even while congress was debating such things prices would go soaring up and Canada could sell her whole surplus at a nice profit.

"Farm and Ranch Review" publishes an extremely interesting table from a southern exchange: "It takes 762 eggs to pay a plan-

terer for eight hours' work.

"It takes 17 1/2 bushels of wheat to pay a bricklayer for a day's work."

"It takes 23 chickens weighing 2 pounds each to pay a painter for a day's work."

"It takes 42 pounds of butter, or the output from 14 cows, fed and milked for 24 hours to pay a plumber for a day's work."

"It takes a hog weighing 175 pounds representing eight months' feeding and care, to pay a carpenter for one day's work."

Let the farmer read, mark, learn and inwardly digest these figures, and then let him stand together behind his own clearing houses and link them up with the marketing machinery already established. . . But well advertised panaceas and Government legislation will never get him anywhere. He must stand on his own legs. The remedy is in his own hands and it only takes common sense to apply it. He cannot make a profit every year but he can make an average profit if he channels his products to the market through properly constructed locks.

Yours truly, L. W. MAKOVSKI Armstrong, B. C., July 23, 1923.

"FIRST THINGS FIRST"

Editor, Review: A comment on the front page of last week's issue of the "Review" would make one wonder if our mental vision has become so distorted that we are unable to see things in their proper light. The condition of our roads, as commented on by the "Oroville Gazette," is the question under consideration. "We wonder if the P.G.E. is responsible for the depopulated state of our highways?" Of course it is expensive, costing the Province \$4,605.67 per day, but at least it is doing some good by opening up country, etc. Let us pause a moment, and consider what our liquor bill amounts to. By a little figuring we find that approximately \$55,000.00 is daily required to quench the thirst of our people. The article adds that we pay enough taxes to keep our roads in good condition. Yes, we do, and we know that our taxes have increased \$2,500,000 annually since government control and sale of liquor came into effect. Is it not time that we put first things first?

SUBSCRIBER. Whew—and Whew. Mrs. Slowpaw (angrily). "Well take it from me—you can't get blood out of a turnip."

Collector: "You misinterpret my mission, madame. 'Tis my task to get money from a dead beat."

You Win, Dickie. Young Thing: "Captain, what is that on top of those hills over there?" S.S. Captain: "That is snow, madame."

Young Thing: "That's what I said, but some smart man on the upper deck said it was Greece."

Timely Tips

A new broom.—Before using a new broom, soak it in boiling water with salt. This will toughen the bristles and make it last much longer.

Iodine stain.—A very hard stain to remove is iodine. It can be done though if soaked in milk, occasionally rubbing the spot.

Clothespins.—If you will boil your clothespins once or twice a month you will find they last much longer. Oatmeal.—A little sugar added to oatmeal while it is cooking will improve the flavor.

Fruit stains.—If powdered starch is applied instantly to fruit stains, it will usually remove them.

Short stemmed flowers.—To prevent flower stems going down too deep in a tall vase roll some ordinary newspaper into a loose ball. The flowers will then stand up. It will hold the moisture, if replenishing the water is forgotten, which is a double benefit.

Ironing pongoo.—Pongoo, unlike most materials, should not be dampened when ironed. It should be thoroughly dried and ironed on the wrong side for a really good effect.

For sticky substances.—If when grinding raisins or any such sticky substances a few drops of lemon are squeezed into the food grinder first, the difficulty will be removed.

Broken Glass.—If a glass is broken, don't try and pick up the small pieces. Instead lay a wet woollen cloth on the floor where the fragments are and pat it. The tiny particles will adhere to the damp cloth and that can easily be buried. A piece of glass in the flesh might cause no end of trouble not to mention the pain.

To keep stove bright.—Rub your stove off daily with an ordinary piece of newspaper and the polish will remain twice as long.

MOTOR NOTES.

Proper Use of Spotlight.

When a spotlight is used on the windshield of a car, its rays should be focussed to strike the road immediately in front of the right-hand fender. In any other position, it fails to fulfil its purpose and tends only to confuse other drivers.

Don't Climb on High.

Many drivers try to stay in high gear and keep their spark lever advanced as long as possible in climbing a hill. Under these conditions, when a change is finally to be made, it may be necessary to go down into low gear, because of the slow speed, whereas second would have sufficed with a little more momentum. Not only this, however, for, with the engine laboring, there is a great strain on all the parts, the bearings are undergoing great pressure, while only being poorly oiled, and with the spark too far advanced, the combustion of the gas is partially exerted in a reverse direction, actually slowing down the engine and subjecting the whole engine to a terrible shock at every explosion. Naturally, too, much fuel is being wasted in this destructive effort.

Most drivers who do this think they are economizing because they reason, their engines are turning over less times per given distance of car travel, and hence less gas is being passed through the engine and burned. This is not so, for if a change were made to second speed, actually less fuel would be consumed.

BUDDING CHERRIES INCREASES YIELD

The Dalles, Ore.—What is considered one of the biggest moves toward building up of cherry production was got under way recently when every orchardist of the community who expressed a desire for it had his trees budded with pollinizers.

Results of the last two years in experiments along the lines of pollinization have given horticulturists conclusive proof that bigger and better yields can be obtained by additional pollinizers. W. S. Nelson, head of the horticultural and agricultural bureau of The Dalles-Wasco county chamber of commerce, believes that the work will eventually bring thousands of dollars into the county.

The budding work has been pooled and experts are doing the budding on a contract basis.

Courage would fight, but discretion won't let him.

Three may keep a secret if two of them are dead.

The man who is always shooting off his mouth seldom makes a killing.

The boy and girl who go straight home from school are not likely to be found following a crooked trail.

Pop. Said No. He: "Would you accept a pet monkey?" She: "Well, you'd better ask papa."

Anyway an egoist uses his I's as much as his tongue. The real good roads problem—stick to the straight and narrow path.

NARAMATA NEWS

Current Events of Town and District

Perfect weather conditions, an attractive program, and unstinted hospitality all combined to render the Women's Auxiliary "At Home" on Thursday evening a decided success.

The Methodist Sunday School, Penticton, chose Naramata for their annual picnic, and made the Unity Club the centre of their sports on Thursday.

Among the guests at the Syndica Hotel this week are Messrs. Philbrick, Thackeray and McClinton, all of Vancouver.

Rev. H. J. Armitage proposes to spend a week or so in Naramata in order to get acquainted with the members of his congregation here, and will, with his family, occupy the Cross residence pro tem.

Mrs. Weaver entertained a number of ladies at afternoon tea on the lawn on Saturday afternoon in honor of Mrs. Wakeling and her mother.

Mr. and Mrs. Russell Wells and family were the guests of Mr. and Mrs. Lyons on Sunday.

Rev. H. A. Solly held evening service on Sunday in the Union church.

The Occidental Company have rented the Robinson building adjoining the wharf, and will carry on a shipping business.

Mrs. Wakeling and children, with Mrs. Pinnington, left on Tuesday morning for Vancouver, where they will spend the month of August.

The packers in the local co-operative went out on strike on Saturday in protest against the new rule that they have to lift and carry their own boxes of fruit, instead of having the help of a "rustler" for that purpose, as in previous years.

At the meeting of the Ladies' Aid on Wednesday last, it was arranged that a tea and sale of home made cookery would be held at the home of Mrs. J. C. Lyons on Saturday, August 4th.

Egotism. Every man's wife's relatives expect more of him than he expects of himself.

It seems as hard for men to make good laws as it is for laws to make good men.

When we get wireless politics we may be able to do away with the polls.

Compressed thought doesn't come from compressed brains.

Historical Research for The Dominion

Wm. Webber, Montreal, Marquis of Sligo, Captain E. Griffiths, R.N.R., "Empress of France," Marchioness of Sligo.

AFTER a two-year holiday, completing a mileage of 46,000 miles on Canadian Pacific railway and steamships, the Marquis and Marchioness of Sligo returned to their London home.

Prior to his departure on the S.S. "Empress of France," the distinguished visitor forwarded to the Canadian Government an interesting document found in the Sligo family correspondence, being a letter from the Hon. Henry Broghe, who was associated

with the capture of Quebec. For some time past, the Marquis has been occupied in gathering data about his family and the part they played in the history of Canada and the Dominion to reap the benefit of his research.

Tree Wiring Versus The Propping Method

(By Harry D. Clark in "Chelan County Farm Bureau News.")

Tree wiring has been practiced more or less by apple growers for many years, and when one hears a conversation today about wiring trees it is usually in reference to the old center May-pole plan or the ring system, and the remarks as a rule are not of approval.

There is at this time only one plan of wiring recognized as a proper method in the valley, that being the plan known as the guy-wire system. This system has been in use by the writer for the past seven years, since which time it has been adopted and attempted by many growers of the valley.

The writer wishes to call attention to damage which may result from improper installing of this system. The average grower allows his trees to bend over badly with too much crop at the tops of the structural limbs; and much breakage of valuable limbs has resulted in some orchards, by reason of the weight above the point where the wire is attached.

To compare advantages and costs of permanent wiring over temporary propping is a simple matter of cost figures and observation. Any man who knows anything about tree shape should be able to put in not less than 6 or 8 wires per hour and put them in right, which makes the cost, including one cent for wire and staples, 4 to 8 cents per tree.

First cost plus labor makes the average cost of one prop 10 to 20 cents, depending on size and length of prop. The nuisance of props and

overhanging trees complicate late work in the orchards, such as spraying, scattering boxes, and hauling. Wiring keeps the tree in shape and upright, while the tree cannot be kept in good shape and upright by propping.

How to Install. The first thing is to provide yourself with the proper equipment which includes 3 or 4 push-poles each with a padded crotch at the end and ranging in length from 7 to 10 feet; a supply of No. 18 or 14 galvanized wire; a carpenter's apron to carry galvanized staples, a hammer and heavy wire pliers.

Study the Tree. Before going further, spend a little time studying the tree. Select in your mind, or to be safer, label, first, the 3, 4, or 5 permanent leaders, then select and label the 6 or 8 best limbs above four feet from the ground which are outside of the leaders and well separated—those to be known as laterals, or secondary structural limbs.

It is a mistake, however, for any grower to attempt to install a permanent wiring system in his orchard or in any of his trees unless he has an absolutely definite and fixed plan of permanent tree form. By that is meant that he should know beforehand which limbs should and will comprise the future structural limbs of the tree and at what angles he wishes them to spread.

As the trees grow larger the grower finds himself between two fires—how to get sufficient sunshine to all parts of the tree and at the same time keep the trees from interlocking across the rows and obstructing into spraying and harvesting operations. These two points are important ones to consider when wiring and also are the only limbs which should ever be wired.

If the leaders are in fairly good position, i. e., upright and separated to balance on the open center, the main work will be on the laterals. However, if any leader limbs are out of position and balance, the object should be to attend to those

first. Place the padded crotch end of the push-pole under a side branch of such a leader, high enough up to be able to push the leader back to where it should be and remain, using a pole long enough to set the other end on the ground so that it will hold the leader in the location desired.

When any of the leaders which need attention in order to regain the tree's balance and shape are thus put back in the proper place, set the remaining push-poles under the laterals in the same manner, to hold them at an approximately 45 degree upright angle.

You are now ready to climb into the tree and set the galvanized staples in. The staple should be set with the points in a diagonal line with the grain of the wood to avoid splitting the limb, or spreading the prongs of the staple too wide.

Note the direction in which the leader has been shoved and select a point lower down, on an immovable and solid position on a leader, in the same line of direction. Set a staple at this point. When these two staples are connected tight the push-pole may be removed and the leader will remain in proper place, and will carry its crop thenceforth without losing its balance.

To secure the laterals in a proper and permanent position is the next operation. A limb should not be considered as a permanent lateral limb if it grows from a leader below four feet from the ground. However, many a grower will consider all large limbs as permanent, and in so doing he is apt to wire in haphazard fashion and have many wires to cut at a later date.

For all laterals which are smaller than the leaders adjacent to them, wire as follows: Drive a staple into the upper side, or inside, of any lateral to be pulled up or held upright, at a point as high up, or farther out on the limb as will not badly split the wood or bow the limb. The "smaller than its leader" lateral should

always be supported by a direct and short wire attached or stapled to its respective leader at a point as high or higher than the staple on the lateral. If such a direct upward or horizontal pull causes the lateral to swing sideways against, or too near to, another limb, such limb may require a second wire attached to the same staple, to anchor it in position by an opposite sideways pull to some solid point.

A leader may support two, or perhaps three, fairly large laterals with crop on, without being secured in turn by a guy-wire across the center. In case of doubt, which must be determined by the relative size of the leader to the laterals which it supports, it is advisable to install the guy wire to relieve the leader from too much strain.

A well shaped tree, when completely wired, may need no guy wires across the center, if the leaders are relatively large and upright. In such case only laterals need be wired to the leaders which are strong enough to support them.

If the grower would think more in terms of proper tree shape and early maintenance, much of the artificial means of supporting crops could be done away with.

Uncle John's Joke

Ignorance leads men into a party, and shame keeps them from getting out again.

The worst wheel of the cart makes the most noise.

An old man in a house is a good sign.

SAVES TIME AND MONEY. The cheapest servant you can employ is the Telephone. You cannot afford to be without it, especially during the busy fruit season. The Summerland Telephone Co. Limited.

In Putting Away Winter Woolens Save By Washing This Way. Put away your winter woolens, this spring, clean and soft—without harmed colors or fabrics in washing. It will save a lot of money, you'll find, by giving longer wear. In thousands of homes this is being done. Careful housekeepers now use PALMOLIVE PRINCESS SOAP FLAKES for laundering all valuable fabrics. Woolens, silks, satins, crepes, and expensive cottons; all come from washing with beauty renewed—and fabric uninjured. Purest, unadulterated soap, these white, crinkly flakes save money two ways: By giving longer fabric wear; and by cutting down soap cost—because they last longer. They give richest, stiffest suds—in washing machine, tub, or bowl. It dissolves all dirt speedily but gently. Splendid for all household use. Order one or more handy one-pound packages or bags today. Start saving next time you wash. The Palmolive Company of Canada, Limited. Montreal, Que. Toronto, Ont. Winnipeg, Man. 1905

# Announcement to Growers

The Associated Growers announce that the book of rules and regulations which has been held up pending information from the Dominion Government giving the color requirements and sizes for the different varieties of apples, will be issued in a few days. If the information regarding the color requirements and sizes are not received from the government in time they will be printed and sent out as a supplement.

## SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Snow	S.S.
July 25—25	01	.....	.....	.....	14.5
July 26—26	00	.....	.....	.....	14.4
July 27—27	03	.....	.....	.....	14.4
July 28—28	05	.....	.....	.....	14.1
July 29—29	07	.....	.....	.....	13.8
July 30—30	05	.....	.....	.....	8.0
July 31—31	57	.....	.....	.....	7.6

## HAIL INSURANCE

A section of the Okan, Washington, district suffered severely from hail last year and more or less damage has been done again this season. Hail insurance is generally carried there. Asked what premium was paid, Mr. Gooder, an Okan visitor here, stated that up to this year the highest rate had been two and one half per cent, but because of the heavy loss last year, the rate had been increased to four per cent.

# Local Happenings

## COURTESIES!

This column is yours, in which to extend courtesy to your guests; or courtesy to your friends by recording your own goings and comings. It is a courtesy also to us, and the general reader. Therefore, tell it to the Review. Phone 39. Thank you!

Say it with "Oranges!" 1-1

Miss Clara Smith left on Tuesday for Washington, D. C.

Mrs. Bemister, of Winnipeg, is the guest of Mrs. G. L. Salter.

Mrs. Jacques of Michel, B. C., is visiting her daughter here, Mrs. M. N. Scurrah.

Mr. John H. Riha, of Omaha, Neb., is visiting at the home of Mr. and Mrs. J. T. Washington.

Mrs. J. E. Brown left on Tuesday's boat for Rowley, Alta., to visit her daughter, Mrs. Richardson.

Mrs. Wm. Johnston is back home again, after a two weeks' outing in their camp at Crescent Beach.

Miss Faith Walker, of Vancouver, is visiting Mrs. C. H. Elsey, having come in from the Coast on Sunday.

Master Freddie Bleasdale has returned from a week's vacation at Kelowna, the guest of Mrs. J. J. Atherton.

Say it with "Oranges!" 1-1

Miss Gladys Palmer came in from Vancouver on Friday morning and is a guest at the home of Mr. and Mrs. J. A. Darke.

Mr. and Mrs. L. Mossop of Calgary, Alta., came in on Friday night to visit Mr. F. Mossop, a recent arrival in Summerland.

Mr. and Mrs. Alf. Atherton, of Penticton, motored here on Sunday and picniced at Crescent Beach for the day.

Miss Marie Arkell the first of the week went down to Penticton where she has obtained a position with the Bank of Montreal.

According to word received here, Ivor Harris, who left here recently for Vancouver, to enter the Canadian Bank of Commerce, has been stationed at Anxox, in northern B. C.

J. E. Clarke, accountant at the Bank of Montreal, is now enjoying his annual vacation, and is being relieved by J. H. Roberts, a former accountant in the local office.

Say it with "Oranges!" 1-1

That Miss Schwass, a former resident of Summerland, sister of Chas. Schwass, was married in Calgary recently, is the information given the Review. Her husband, Jack Reed, is a resident of Calgary.

Back on the job! After two months' absence from business receiving hospital treatment, I beg to announce that I am again open for business. Shoes repaired to your satisfaction. Camille Rovers, next door to Stark's. 808p

Capt. F. B. Williams and Mrs. Williams left here yesterday to return to their small fruit farm in the Fraser Valley. Capt. Williams was for a time manager of the Canyon Ranch and later employed at the Experimental Farm.

Mr. W. T. Macoun, Ottawa, Dominion Horticulturist, was a visitor to Summerland on Friday, spending most of the time at the Dominion Experimental Station here. It is learned that the Department is still advertising for a superintendent for the local farm, the position which was rendered vacant some weeks ago by the resignation of R. H. Helmer. After leaving here, Mr. Macoun visited Kelowna, Vernon and Salmon Arm.

Say it with "Oranges!" 1-1

Eric Johnson, one of the Summerland Boy Scouts in camp at Okanagan Falls, was brought into the hospital on Friday morning, suffering with an injured ankle. While playing football the night before, he received a bad kick and was given first aid, but, as the ankle was still badly swollen the next morning, he was brought up to the Summerland hospital where the X-ray showed that a bone immediately above the ankle had been cracked. It was removed from the hospital to the home of his parents, Mr. and Mrs. Geo. W. Johnson, on Monday, but will be required to keep the ankle in a plaster cast for about three weeks.

## MINISTER OF CUSTOMS GETTING INTERESTED

American apricots from Washington have been dumped into B. C. at a price so low that the Okanagan cots cannot be put on the market at a competitive figure. Following the Vancouver Province article, in which the public was invited to stock up at once on cots, as the Wenatchee supply was nearing an end, the Associated Growers took the matter up at the Coast. The letter from the Associated Growers to The Province, pointing out that B. C. cots were only starting to go on the market is published in another column of this paper.

Sales manager E. McDonald then went down to the Coast to interview the Water street merchants. While they agreed to cancel some of the orders for apricots placed in the States, providing the Associated would supply Okanagan cots at the same price, the figure at which Water street has been able to buy in Washington is so low that were the Associated to sell to at the same price the returns to the local growers would be very unsatisfactory.

The Associated says in its bulletin: "It is an opportunity for the government to make good the promise given to the United Farmers of B. C. and the B. C. Fruit Growers' Association when their representatives visited Ottawa last spring, that they would take steps to protect the fruit industry of the Okanagan against unfair American competition this year, and we wired the Honorable J. Bue-reau, Minister of Customs, as follows: "Owing to large crop apricots in States, American canners refuse to take further supplies and shippers stand ready to accept any price to move crop. Our markets, especially Vancouver, are going to be flooded with American apricots and our growers will be unable to market. Please advise by wire what we may expect."

"In reply we received the following telegram from the commissioner of customs: "Your telegram to minister. Investigating officer now in Washington instructed by wire to make prompt investigation and telegraphic report. Meantime ports instructed to receive entries only subject to amendment. "We are determined to leave no stone unturned to protect the fruit growers, and we feel that if economy and careful persistent effort is practised there will be a bright future for the fruit industry of the Okanagan. "It would be a mistake to lead growers to believe that this can be accomplished in one year, but it is desirable to promote in their minds the necessity of courage and faith in the difficulties confronting them, and the only possible way to solve this is by united effort."

## COAST BROKERS ON CHERRY DEAL

That the Associated Growers received the fullest co-operation of the brokers in their effort to satisfactorily market the cherry crop is the statement contained in a lengthy bulletin on the "cherry deal," issued from Vernon, and a copy of which was received by the Review last night.

That the cherry pool will net the growers unsatisfactory prices is apparent. Excessive moisture conditions rendered the fruit unfit for shipment, much of the fruit arriving at destination in bad condition.

"By July 25," says the bulletin, "forty-four cars of cherries had been moved and reports were so discouraging that the management, sales force and executive in conference decided to notify the growers to stop picking rather than continue to ship with the overwhelming certainty of selling at prices that left nothing for the grower but the car number."

The first shipments went out well and there was every promise of a fair market for cherries until the rains came and made the fruit too soft to carry.

The distribution was well arranged in advance and the brokers themselves have suffered considerable loss in an effort to help the Associated to market this crop. After the weather had improved shipments in local lots were resumed and with more satisfactory results.

## Lucky for the Men

Don't make fun of a woman's imagination. It is only because of the things that she imagines man is going to do sometime that she can bear to live with us at all.

## NARAMATA W. C. T. U.

The regular meeting of the Naramata W.C.T.U. was held in the church on Tuesday evening, July 24. In addition to the usual business, the superintendents of departments were elected as follows: Evangelistic section, Mrs. Symons; "Y" work, Mrs. Nuttall; Sabbath observance, Mrs. Lyons; scientific temperance and medical contest, Mrs. Amaron; parlor meetings, Mrs. Mitchell; legislation and parliamentary usage, Mrs. Young; literature and white ribbon tidings, Mrs. Myers.

## NARAMATA SCOUTS ON LONG HIKE

As stated in last week's issue, the big event of this week's activities was the Kelowna hike. At 8 o'clock on Friday afternoon all those who were taking the outing assembled at the home of the S. M., and after providing themselves with the necessary equipment in the way of blankets, provisions and pack-horses, were ready to depart. A real hot summer sun blazing down on us could not dampen the spirits of the seven Scouts but it did cause the perspiration to fall from our brows when we climbed the hill going up to Glenfir. From that point we followed the Kootenay power line to Chute Lake, using the roads and trails as much as possible. After a three hour walk supper was prepared and was thoroughly enjoyed. When we had eaten to our hearts' (or rather to our stomachs') content, our horses were again loaded and orders given to proceed as far as possible before striking camp for the night.

In addition to the usual business, the superintendents of departments were elected as follows: Evangelistic section, Mrs. Symons; "Y" work, Mrs. Nuttall; Sabbath observance, Mrs. Lyons; scientific temperance and medical contest, Mrs. Amaron; parlor meetings, Mrs. Mitchell; legislation and parliamentary usage, Mrs. Young; literature and white ribbon tidings, Mrs. Myers.

## NARAMATA SCOUTS ON LONG HIKE

As stated in last week's issue, the big event of this week's activities was the Kelowna hike. At 8 o'clock on Friday afternoon all those who were taking the outing assembled at the home of the S. M., and after providing themselves with the necessary equipment in the way of blankets, provisions and pack-horses, were ready to depart. A real hot summer sun blazing down on us could not dampen the spirits of the seven Scouts but it did cause the perspiration to fall from our brows when we climbed the hill going up to Glenfir. From that point we followed the Kootenay power line to Chute Lake, using the roads and trails as much as possible. After a three hour walk supper was prepared and was thoroughly enjoyed. When we had eaten to our hearts' (or rather to our stomachs') content, our horses were again loaded and orders given to proceed as far as possible before striking camp for the night.

**PEACHLAND DOINGS**  
 A Weekly Chronicle Furnished By Our Local Representative.

Rev. W. Sadler and Mrs. Sadler and family motored to the ferry last mid-week and going across spent the day in Kelowna.

Wes. Waldriff came home last week to recuperate after his accident and a few days spent in the hospital. He is getting back to his usual form gradually.

Mr. and Mrs. Geo. Jones and daughter enjoyed a visit last week from some old friends, Mr. C. B. Rowe and his two sons George and Sydney and daughter, Mona, all of Medicine Hat, Alta. Mr. Rowe is assistant accountant for the C.P.R. at that point. After a few days here he and the boys left to continue their vacation journey. The daughter will remain with Mrs. Jones indefinitely.

The Baptist Sunday School hold their annual picnic on Thursday at the picnic grounds at Deep Creek. A very pleasant afternoon was spent, supper and ice cream being served early in the evening.

Peachland baseball diamond was the scene of a hotly contested ball game on Thursday night when the Oliver team, with some friends, motored up to clean up on the Peachland Nine. Things hardly went as they anticipated and it proved too much for their ordinary peace of mind with a result that many non-complimentary remarks were heard from them about our boys and things in general. A great deal of their remarks and protests were lunged at the umpire, who, according to the judgment of the majority of the onlookers, was doing fine. All locals interested regret very much that this, the first game with the visitors should turn out so apparently unsatisfactory. In spite of the many protests and arguments there was some very good playing shown by both teams. The score of 11 to 1 in favor of Peachland was largely won in the first innings. Our local pitcher, Walt Shaw, states that they put the side out once with the least number of balls he ever remembered pitching for one innings, which was six. That looks like playing ball.

Mr. and Mrs. I. E. McCall motored to Westbank on Thursday evening and brought home with them a carload (auto) of honey bees, being

Peter Piper was a man we found it hard to please. He always had a frown on from his dome clear to the knees. Until one day, he altered, and that's why we're telling you. You'll smile like Peter Piper does with Swaps in the Review.

swarms purchased by local bee-keeper from Mr. Falkner of Westbank. Mr. McCall says they are very touchy little beasts and incidentally he handled some of them very feelingly.

After the ball game on Thursday evening a number of young people assembled at the Veterans' Hall, and enjoyed a dance till about midnight.

Mrs. H. McHollister arrived in town last week, to spend a short vacation with her home folks.

Master George White, who for some months has been working for Mr. D. McLachlan, returned to Peachland last week after having undergone an operation in Penticton. He is spending a few days in town.

After a pleasant visit in town with friends, Mrs. Walters with her little girl left on Friday morning to return to her home.

Mrs. Aplugh spent Friday in Kelowna.

Master Jack Moore of Penticton recently came up to spend a portion of the summer vacation with his uncle, and aunt, Mr. and Mrs. B. F. Gummow.

Mr. and Mrs. Will Atkins spent Saturday in Kelowna. They returned in the evening, accompanied by Mr. Atkins' sister, Mrs. Lupton of Kelowna, and Mr. E. Wilkison.

Little Miss Francis Robinson of Westbank is a visitor in town this week, having come down on Saturday evening. She is a guest at the home of Mr. and Mrs. G. Koyos.

An accident occurred on Saturday evening last by Mr. McCall's fruit lot, when Mrs. Jones and her daughter and a visiting friend were turned out of a buggy, which tipped over when they were motoring and passing Mr. Robin's auto. It is understood that none of the parties were to blame and fortunately no one was seriously hurt. Mrs. Jones was considerably shaken up and bruised and the girls received a few minor bruises. The buggy, dash, seat and top were badly damaged.

Masters Roy Harrington and Hugh Dorland left on Monday morning to spend a few days camping out and enjoying life in the woods. In other words, they struck for the tall timbers.

Little Miss Mildred McDougall of Penticton arrived in town on Tuesday morning to spend a portion of her vacation with her aunt, Mrs. Dorland.

Miss Doll, who is in charge of the home for feeble minded children at Essondale, B. C., came in on Tuesday morning to visit an old friend, Mrs. R. H. Huston. Miss Doll has under her care in the home seventy-one children.

Mr. C. Drake was a visitor to Kelowna on Tuesday.

The "call home" came this week to one of our respected citizens, when death followed the sudden and short illness of Mrs. H. Williams. She was taken ill on Sunday evening and the doctor was summoned at once. The case was considered well in hand until Monday evening, when the doctor noticed signs he did not like and asked another doctor to be called for a consultation. Dr. Knox of Kelowna was called and they decided she would have to be taken to the hospital. This was done the following morning by boat. The doctors at the hospital found an operation was the one and only chance, so they operated on Tuesday. She came through the operation but passed away shortly after two o'clock on Wednesday morning.

Mr. and Mrs. Wm. Dryden returned last week end after a very enjoyable motor trip as far as Seattle, taking much the same route as Mr. and Mrs. Wm. Buchanan, Jr., recently travelled.

**CORRESPONDENCE**  
 Letters to the Editor.

**THE HIGH SCHOOL**  
 Editor, Review,  
 Dear Sir,—  
 The true standard of our high school is now revealed by the recently published results of the June examinations, and is about as low as can be found anywhere in B. C. Are the taxpayers of Summerland satisfied? They have paid their school taxes, the fees in addition. The pupils have spent a year of their time. And what are the results?—20 per cent. proficiency in the graduating class! What's to be done? Such a disgrace cannot be allowed to stand. SAVANT.

**WERE VISITING BROTHER HERE**

Recent guests of Mr. and Mrs. H. G. Fisher were two sisters of Mr. Fisher, who are on their way east from San Francisco, where they had been attending a Child Welfare conference in session there for about two weeks. Mrs. A. Loomis, one of the ladies, is connected with the Child Health organization of New York city and represented that body at the conference. Her sister, Miss Fisher, is an international convention reporter and handles some of the biggest jobs in that line, employing a large staff of writers to cover big important gatherings. She attended the League of Nations conference and spent some time in Europe in soldier welfare work. Mrs. Loomis spent a year in Czechoslovakia in child work. Both ladies make New York their headquarters. Last Thursday they spent with their brother and friends on the lake and greatly enjoyed the outing. One of the ferry company's boats was engaged for the occasion.

A sweetly spoken refusal of a request is sometimes more satisfactory than a begrudged acquiescence.

**SCOUTS WERE AT THE FALLS**

(Continued from Page 1)  
 The Troop was very sorry when Eric Johnson broke a leg during a football game. He certainly lived up to the Scout Law—"A Scout smiles and whistles under all difficulties," and it was hard to imagine from Eric's attitude that anything was the matter at all. Camp-Doctor Andrew met Eric at Penticton and soon made him comfortable, and the leg is progressing nicely. We all hope before long that Eric will be among us again.

While in camp the Provincial Commissioner paid us a visit, and gave the boys quite an interesting talk on Scouting. He was particularly emphatic in his request that we enter for the Governor-General's Shield next year. We shall.

## AMATEURS CAN NOW APPLY FOR PROPER CARDS

### Summerland Joins Up with Amateur Athletic Assoc. of Canada.

In response to a wire received from the B. C. A. A. U., Mr. Wm. Johnston, accompanied by Allen Harris, motored to attend a meeting held in Vernon, Saturday, to organize a local board of the Amateur Athletic Association.

Dr. J. G. Davidson, president of the B. C. A. A. U., who has just completed an organization trip of the Interior, occupied the chair. Representatives from Vernon, Salmon Arm, Enderby and Summerland were present. Kelowna and Penticton not being represented.

It was at first proposed to organize a branch to cover the whole valley, but it was evident from the first that the Northern end of the Valley was opposed to this idea on account of the expense of travelling. It was finally decided to organize two local boards, North and South Okanagan, Mr. Johnston being appointed organizer for the southern portion.

There has in the past been considerable friction on account of the unorganized condition of sport in the Valley. With the local boards in control all athletes will take out their amateur cards, and thus at any time will be safeguarded against suspension in the event of unknowingly competing against professionals.

In an interesting talk, Dr. Davidson outlined the growth of the Amateur Athletic Association in Canada, and it was pleasing news to hear that Canada had been awarded a special gold medal for having the finest system in the world, and that the world federation were organizing on the British Columbia system of board control.

Several interesting points regarding professionalism were brought out. An amateur competing against a professional does not professionalize himself, but does automatically suspend himself.

When only holders of amateur cards, however, are allowed to compete this removes the danger of a man unknowingly suspending himself. That the trip made by our basketball boys to the Coast put Summerland on the map, as regards sport, was quite evident at the meeting.

The North end of the lake is now organized, and an organization meeting for the South end is to be held in Penticton shortly.

Under this system the winning teams from each district would compete once a year for the Valley championships, and thus eliminating the expense of teams making several visits from the extreme ends of the lake.

## CENTRAL HAS A DISCUSSION RE ECONOMY

### Offer of Manager Pratt to Drop Out for Winter Not Entertained.

According to current reports, A. M. Pratt, general manager of the Associated, has been giving considerable thought to costs of operation and has been endeavoring to work out a plan for their reduction, even going so far as to propose that his services be dispensed with for a few months during the winter.

The board of directors were in session from Monday until Tuesday and it having been stated here at the meeting of the Co-operative that the operating expenses of the Associated would come before that meeting, the Review endeavored to learn over the phone this morning what had been done. It was learned that, prior to the meeting of the directors, the manager and executive called the heads of the several departments together and placed the situation before them. This resulted in a number of them volunteering to accept lower compensation and an offer from others to shorten their term of office, but the details are not yet available. (Continued on Page 2)

## HORSES LEAVE FOR ROUNDUP

Roddie Brent left here early this week to accompany Hans Richter with a bunch of horses from the Similkameen, which will be entered in competition with horses from other parts of the province in the "Range Days" competitions at the Vancouver Exhibition, August 11 to 18.

Richter is known as one of the most famous old-time cowboys in the province and he will come up against Gus McGregor of Kamloops and Jack Boyd of the Cariboo. Thirty of the best riders and ropers in British Columbia have promised to take part in the several competitions which will consist of rough riding, bareback riding, wild horse riding, relay racing, steer roping, calf roping, wild cow milking, cattle separating, old timers' races, packing contests, stage coach races, trick riding, fancy riding, trick and fancy roping, etc.

Vancouver Exhibition officials confidently declare that the "Range Days Competitions" at this year's Fair will fully equal the Calgary "Stampede," and if all we hear of this latter spectacle is correct, visitors to the Fair this year have a novel and interesting experience awaiting them.

## VISITOR BUYS PORTION OF AGUR ESTATE

### So Favorably Impressed, Tourist at Park Decides to Locate.

W. R. Powell, of Vancouver, has purchased from the Agur Estate the large residence at the head of Prairie Valley, together with the ten acres on which it is situated. M. Powell, a Welshman-by-birth, has been a resident of Canada for the past twenty years and has been residing in Vancouver until last fall.

For some months, he and Mrs. Powell have been touring in the States and arrived in the Okanagan recently from Colorado. The tourist camp in Peach Orchard pleasing them best, they have been making it their headquarters for some time and, Mr. Powell, in conversation with a representative of the Review, states that in all their hunt for a desirable place in which to locate, they found none that pleased them so well as Summerland.

The sale, which is perhaps the first one of importance that might be directly credited to the tourist camp, was completed this week.

Mr. Powell will take possession about the first of September. His family has gone down to the Coast to visit relatives until then.

## TOURIST CAMP NOW HAS PHONE

Motorists camping in Peach Orchard park now have the additional convenience of a free telephone, thanks to the enterprise of G. Y. L. Crossley. Mr. Crossley has had the phone placed in the cookhouse, and over it is a thoughtfully worded invitation to use the phone to get in touch with the tradesmen, garages or any others desired. Tourists are also reminded that they can purchase property here through Mr. Crossley. A large sign directing the attention to the telephone and bearing Mr. Crossley's advertisement is being erected outside the building.

## CARD OF THANKS.

Mr. and Mrs. V. J. Bernard desire in this manner to express their gratitude to the many kind friends and neighbors who so generously came to their assistance following the loss of their home by fire. Mr. Bernard wishes also to thank the Community Lumber Co., Ltd., for their generous offer received from them in a letter, which reads:

"We have just been informed regarding the loss of your home and contents by fire. While our Company is not a charitable institution, we cannot sit by and see a hard worker like yourself lose in this way without at least showing an interest in the matter. This letter is good for \$25 worth of building material if presented at our office at West Summerland. Hoping you will accept this in the spirit in which it is tendered, we are, "Yours truly," "COMMUNITY LUMBER CO., LTD."

## Local Co-Operative Meeting Very Harmonious -- Directors Re-elected

### Denomination of Shares now \$1 Instead of \$10—Credit Arranged with Bank of Montreal—President Howe Explains Situation in Cherry Market and Advises Cooling Plants—Arrangements Completed for Exporting Apples to the United Kingdom—Excellent Marketing Connections Established in Cities of Manchester and Glasgow.

Re-election of the provisional directors of the Summerland Co-operative Growers Association en bloc was made unanimously at the statutory meeting held last Thursday evening. The directors, in their report, pointed out that they had made the denomination of the shares one dollar each instead of ten, as proposed in the resolution passed at the meeting of March 10th. This was done in order to keep the value of the shares uniform with that of other locals. Each member will be required to take a minimum of ten shares.

Credit to the extent of \$105,000 had been arranged with the Bank of Montreal at interest at 7 per cent. This is for operating expenses and is based on thirty-five cents per box on an estimate of 300,000 packages. The Association is paying the C.P.R. for its upper warehouse rental of \$216, plus taxes.

The report further pointed out the advisability of installing an elevator in the storage building, at a cost of \$2,200 and an additional grader, cost \$1100. As the share capital of \$10 per member would not be sufficient to meet these requirements, the board recommended that a reserve fund be created for this and for other necessary capital expenditures by a deduction on fruit handled on the basis of two cents per box for apples, pears and crabapples and one cent per box for all smaller packages.

A resolution proposed by G. J. Coulter White to the effect that the directors be authorized to make such a deduction from the net returns on fruit passing through the locals was unanimously carried. This motion further provided that paid-up shares or other security would be given the shareholders who will be paid 6 per cent on the money so retained. When an amount sufficient for the needs of the local has been accumulated, deductions will further con-

tinued, but redemptions of the shares or other security given will be made in order of issue. Under this plan, a revolving capital will be provided, and only those who are, or have been in the immediate past, members of the Association will have capital invested in this way.

The directors' report further advised the members that the board is dispensing with the use of scales as far as the movement of apples is concerned. Under the new system each individual's fruit is packed separately and weighing is not necessary and the time thus saved will greatly facilitate the handling of the crop as it is delivered and the operating expenses of the packing house will be that much reduced.

Both in their report and in speeches from the floor, the directors appealed to members to deliver as much as possible of their crop to the main packing house. In this way, there will be a considerable saving in overhead expenses as compared with the double handling of fruit delivered at the upper warehouse.

By resolution, the meeting approved the proposal of the directors that a charge of seventy-five cents per ton be made on all fruit delivered at the upper house.

Messrs. A. T. Howe and Thos. Bulman, president and first vice-president of the Associated, addressed the meeting and answered a number of questions with respect to the operating of the Central.

Mr. Howe stated that in his years of experience in business he had never met a group of men who are doing better work than were those at the head of the Associated. While a great deal of credit is due them and they are doing splendid work, to make the organization a success, they must have the co-operation, support and sympathy of the growers. Their task is not an easy one. These men are now getting acquainted and are

understanding each other. They are making progress, and working together for the common interest.

Of the cherry deal, Mr. Howe stated that the conditions under which small fruits and cherries are now shipped, make it impossible for the fruit to arrive in good condition and that accommodation must be provided for the proper handling of these fruits. Car after car of cherries had arrived at destination in such condition as to make it absolutely impossible to sell them. The brokers had done their utmost and had met with loss after loss. The facts are that this was a very unusual season, the fruit was loaded with moisture and hastened into a ripened condition by very hot weather. Cooling plants must be provided. At Salmon Arm, small fruits have been put through a drying plant, which has been giving satisfactory results. Many of our cherries, which appeared in the best condition when shipped, were mouldy within twenty-four hours.

The speaker said it was up to the Central to give encouragement to the different centres to provide cooling plants.

Speaking of the apple market outlook, President Howe stated that Central had been in touch with many markets of the world and the outlook was far from discouraging. He believed the combination effected on the prairies would work out to the best interests of all concerned. "So far as the brokers have done the best possible." Arrangements have been completed for exporting to the United Kingdom.

Much information has been obtained on the subject of lining up with the selling end in Great Britain. It has been proposed that British Columbia line up with the Western States with the object of feeding the Old Country market as it would absorb

(Continued on Page 2)

## RANCHER UP FOR DAMAGE

### Allows Escaping Water to Damage Highway—Is Fined.

Joe Christanto, who operates an orchard on the bench above Crescent Beach, was before the police magistrates on Monday on a charge of allowing water to escape on to the lakeshore road near Crescent Beach, damaging it to the extent of \$25. The case was the result of complaints entered at Kelowna, by northbound motorists, as the result of which the district foreman instructed the local road foreman, J. C. Arkoll, to take action.

Several witnesses were examined, one being Wm. Johnston, whose car was stuck in the mud. Mr. Arkoll stated that the water had covered the road with from four to eight inches of mud over a stretch of 137 yards.

K. M. Elliott, for the defendant, attempted to show that the road in question was not in fact a public highway, as it was not shown on the registered map. Magistrate Hutton, quoting from the statutes, described any land on which public money had been spent for such purposes a public highway.

The accused was fined \$5 and costs, and ordered to pay \$15 damages. It is understood that the road authorities intend prosecuting other alleged offenders.

## CARD OF THANKS.

Mr. H. Williams and family wish to thank their many friends for the assistance and kindnesses shown through their recent bereavement, and for the wealth of floral tributes.

You don't enjoy pleasure when you get all tired out chasing it.

## DONATIONS TO THE HOSPITAL

Donations to the Summerland Hospital during June and July as noted below, are gratefully acknowledged by the matron.

Donations for June. Capt. Creese, vegetables; Mrs. J. W. Smith, 6 jars fruit and magazines; Mrs. Lipssett, 4 doz. eggs; Mrs. Hutchinson, 1 doz. eggs and lettuce; Mrs. Tompko, 3 doz. eggs; Mrs. Harold Smith, lettuce; Mrs. Chew, 2 doz. eggs.

Donations for July. Mrs. Hutchinson, 1 doz. eggs; Mrs. Pihoo Young, 5 broilers; Mrs. Elsey, 2 jars; Mrs. Angove, vegetables; Mrs. Fisher, lettuce and beans; Mrs. Winter, raspberries; Mrs. Tomlin, raspberries; Mrs. Morrow, cherries; Mrs. Schwans, vegetables; Mrs. Hutchinson, vegetables; Mr. Clouston, fruit vegetables, eggs and flowers; Mrs. Fisher, flowers and vegetables; Dr. Lipssett, cherries; Lim. How, vegetables; Mr. Garnett, vegetables.

ALL THE NEWS

## GROWING GOOD CELERY HERE

For many years, Summerland has been a large importer of celery, practically none of this being grown here. That the imports are not necessary and are likely to cease, is apparent from the fine field of celery being grown this year by W. J. Beattie on a piece of bottom land in Garnett Valley. Samples of this celery were received at the Review office a few days ago and the quality was certainly very fine, a little more blanching only being required to make it perfect, and we are informed that Mr. Beattie is using planks rather than the less satisfactory method of banking it with earth to give the celery the required whiteness. This will assure its being much cleaner and free from rust.

The variety he is growing is known as the "White Plume" and is described by experienced gardeners as the finest possible. It will, no doubt, find a ready home market.

There seems no reason why the rich black alluvial soil to be found here and there in the district could not be used to provide celery enough for the home and nearby markets and we predict that the pioneer efforts of Mr. Beattie will meet with success.

## PROTEST MADE ON AWARD OF TWO ROUTES

### Exception Taken by Parents on Account of Youth of Driver.

At the regular meeting of the School Board, the contract for the Garnett Valley school route was reconsidered, following the reading of a petition signed by practically every parent on the route. The petition pointing out the nature of the road, called attention to the fact that the lad to whom the contract had been awarded had no experience as a motor driver and questioned whether he would have sufficient control of the children.

Three tenders for the route, including that of Chas. Clark, were again considered and the contract will be awarded to Smith and Henry, at \$2 per trip.

W. A. Caldwell protested awarding the Trout Creek contract to H. Thornthwaite, whose price was five cents higher than his. The chairman explained that the contract was given to Mr. Thornthwaite because of the fact that he lived at Trout Creek and would take the children home very night instead of leaving them at the top of Gartrell's hill, and further that it was not necessary that the board accept the lowest tender. Mr. Caldwell expressed a willingness to take the children down the hill if the board wished that provision made in the contract; otherwise they would be treated with every consideration during inclement weather and especially outside the busy season. He realized the board had acted with the best intentions. The board promised to consider the matter during the evening.

The position of science master on the high school staff will be offered to J. O. Steves, who wrote some time ago, applying for a position on the staff. The salary offered is \$1800. If immediate acceptance is not obtained by wire, the secretary will advertise for applications.

The proposal of Mr. Gibson, supervisor of agricultural instruction, for a division of the salary and expenses in connection with agricultural instruction was agreed to. Summerland, under this plan, will pay for two days and one-half the transportation allowance, the total cost to the municipality being \$580 for the next year.

Before adjourning, the Trout Creek contract was debated at some length, resulting in the decision to leave the contract with Mr. Thornthwaite.

A telegram from Mr. B. Robinson, who had been offered the position of principal of the high school, in which Mr. Robinson stated that he did not feel justified in accepting the position, was read. The wire stated that Mr. Lundie advised he intended fighting the appointment, and quoted Supt. Willis as giving the opinion that the appointment would not be legal. Mr. Robinson is writing in more detail.

## AUTOISTS SAY CAMP GROUND APPRECIATED

### Camp Gets Publicity—Visitors Speak Highly—Telephone Installed.

Visiting the Summerland auto tourist park one day last week a representative found no less than sixteen parties from outside points enjoying the salubrious environment. These modern knights of the road all speak in flattering terms of our camp, and one enthusiastic gentleman, who is a banker from Okanagan, Wash., stated to the scribe that it is the best on the road. Asked to particularize, with a sweep of the arm which took in the surroundings, he said, "Could anything be more delightful?"

Continuing, he observed: "First of all, you have an ideal camp site, with an abundance of delicious water, then the camp is singularly free from mosquitoes, and that alone recommends itself to me. The evenings and nights are delightfully cool, and being secluded in a glade of handsome shade trees, there is no discomfort should a windstorm suddenly arise. I was here last week with my son, and liked it so well, that I returned home and brought the Missus and the rest of the family along to finish our vacation here."

Passing around and chatting with the visitors, the Review learned much of the travellers' experiences and joys of camp life. All spoke in glowing terms of the camp, and said they would pass the good word along to their friends so that they could come along and enjoy similar good times which they themselves were experiencing.

One could not help but be favorably impressed with the class of tourists taking advantage of the camp. There were no "auto-tramps," or those of the wandering gypsy fraternity. A pleasing feature also noted was the cleanliness of the grove, there being no unsightly heaps of tin cans or waste paper to mar the natural beauty of the park. It would appear in this regard that tourists are being well educated along these lines, and that the invitation to "make yourself at home, but keep the camp clean," is being faithfully observed.

For the convenience of the campers a telephone has now been installed in the community kitchen. The writer, who has visited many auto camps during the past three years, would suggest that some provision be made for firewood and kindling; otherwise the visitors may be tempted to slash branches from some of the fine trees which now adorn the park, and irreparable damage be caused.

## LOCAL PARTY MAKE ASCENT OF MOUNTAIN

### Snow Mountain Described as a Garden of Wild Flowers.

Snow Mountain for the past few days has been without its almost perpetual snowcap. For about six weeks out of the year no snow is visible, at least from this direction. No doubt there are many who have often thought they would like to climb to the top of the mountain. On Tuesday there returned from just such an expedition, seven young people in charge of J. V. S. Logie. Mr. Logie and his party went out to Shingo Creek and camped there about a mile beyond Brent's, and the next morning, with saddle horses, they climbed to the top of the mountain and returned to camp the same evening. The trip was made without a guide, beyond the fact that Dominique Paul directed them to a little used trail, which they were able to follow fairly well during the ascent, but which was lost when returning during the afternoon, but all reached camp without serious loss of time.

Mr. Logie described the mountain as a garden of wild flowers, with a great profusion of bloom, many of the flowers seen here in the early spring being among them. Near the top there is a splendid growth of (Continued on Page Two)

A tired man seldom finds any fault with the mattress.

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED.

Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association. Member of British Columbia Selected Weeklies.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. News display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

### THE REASON WHY.

We received a telephone call yesterday from the principal of the high school, who peremptorily demanded to know why we had not published all that transpired at last week's meeting of the School Board. In another conversation with him, he declared he knew what the board were doing. Several of our subscribers have also asked us if certain reports were true, and we feel, in view of what has transpired, that an explanation is due our readers, and we are making this with the knowledge of the board.

At the meeting referred to, the appointment of a science teacher on the high school staff was discussed, with the result that a resolution was put through, which instructed the secretary to communicate with Mr. B. Robinson, instructor in agriculture, offering the position of principal to him, he to include agriculture with his other subjects. Only one member of the board voted against this motion, which was adopted, after reading a letter from the superintendent of education, advising the board that it was within their power to change the position of any teacher on the staff to another position, it being, of course, understood that there was no resulting change in salary. At the same time, the secretary was instructed to communicate with the registrar of the Department of Education, asking him to recommend one or more teachers for the position of science teacher, so that the vacancy could be quickly filled should Mr. Robinson decline to accept the offer. When the board advertised for a high school principal early in June, Mr. Robinson was one of the applicants.

One of the trustees asked, "What shall I tell Mr. Lundie?" The reply from the chair was that, as no appointment had been made and nothing definite arrived at, there was no information to give out and, as the Review representative was the only person present outside of the board and secretary, he was asked that no publicity be given the matter until something definite was arranged.

This, we trust, will be of sufficient explanation of the silence of The Review last week on the effort of the board to demote the principal.

### LOCAL PARTY ASCEND MOUNTAIN

(Continued from Page 1) hemlock, spruce and other evergreens, while the summit, just now uncovered, has a fine growth of heather. The view itself is well worth the effort of the climb. Kereemos, and Nickel Plate mountains are close below. Away to the northeast Kelowna could be seen and during clear weather, even Mt. Baker, beyond the Coast Range, is visible. The party comprised Marjorie Carter, Leigh Saiter, Bert Simpson, and Ian Campbell, of Summerland; John Atkins, Naramata; Marjorie Greenhill and Ronald Appleton, Penticton.

### CENTRAL HAS A DISCUSSION

(Continued from page 1.) The suggestion from Mr. Pratt that he drop out during the winter was not entertained. There was a full meeting of the board and it is announced that much was accomplished. The directors were delighted with the new officer and express satisfaction with the efficiency of the staff. It was announced that definite arrangements had been made with the Bank of Montreal for financing the business. The apriect deal in Vancouver was discussed at some length and the directors are confident that such a situation will not again develop.

### NARAMATA SCOUT NEWS

On Wednesday, August 1st, the usual Cub meeting was held at the Council Circle, but there was a poor attendance. The few that turned up

did a little work on their first star test. All the boys expect to be working on that badge very shortly.

The Scout meeting on Friday was opened promptly at 7 p.m., with the troop present in full strength. After a short talk by the S.M. on some important matters relating to the troop, the Scouts broke away into various sections for work on the Tenderfoot tests, Ambulance, and First Class work.

As some of the troop were out on a hike to Altamont or on the sick bed, there was a smaller attendance on Monday evening than on the previous Friday. After the opening formalities the boys put in an hour on bandaging and other parts of the Ambulance badge. Two of the boys are almost through this badge and will pass their tests in about ten days. On Tuesday evening P.L. Eric Raynor finished the tests for his Swimmer's badge.

### A NARAMATA SCOUT.

### LOCAL CO-OP. VERY HARMONIOUS

(Continued from Page 1) the fruit. The present method is to consign to auction houses, where the fruit is put up for sale. Excellent marketing connections are now established in Manchester and Glasgow, with two very reliable firms. Liverpool has not been satisfactory, but the above two firms have promised to amalgamate in Liverpool and propose to sell the apples and give a better chance for success. The London market has not been satisfactory, but the Glasgow house, of which Simons is the head, has opened at Southampton and Mr. Howe expressed confidence in the Associated being able to get a fair distribution of fruit through that channel. As yet the

executive are undecided on the subject of sending a man over to the Old Country to watch the apple sales.

According to a bulletin issued by the fruit markets commissioner, J. Forsyth Smith, there will be a good chance in Great Britain to sell apples, especially the early varieties such as Wealthy and McIntosh. Mr. Howe referred to the recent visits here to interview the Associated of representatives of Goodwins, Ltd., Manchester, and Simons, Shuttleworth Co., Glasgow. Mr. Simons promised his firm would line up with the growers in their endeavor to make the marketing of British Columbia apples in the Old Country a success.

The Western States has one of its largest crops, but there is a shortage of early varieties. The speaker believed the Associated will find a good market in the Western States for Wealthy and McIntoshes. The Americans cannot produce an apple to equal our McIntoshes which have already created a good demand, the Jews particularly asking for them. It is impossible to state a price but the Associated is carefully feeling out the markets and will try to sell f. o. b. Vernon. United Kingdom apples must be consigned.

Men in Great Britain had expressed the opinion that Jonathans will not suffer because of last year's experience. It is the most popular variety over there. A Toronto agent of a British firm had informed the Associated that one steamer laden with Australian Jonathans arrived in Britain early in July. The apples were in cold storage all the way and arrived in good condition. Another boat on which there had been a breakdown in the cold storage plant, delivered its Jonathans with brown heart and the speaker believed that with proper handling, there should be no trouble with disease this season. Though a definite ruling had not yet been obtained, Inspector Clarke had given assurance that color requirements for Jonathans would not be as large as in former years.

T. P. Thornber offered some criticism on the method of handling cherries, stating that private shippers had met with greater success, to which Mr. Howe replied that small concerns working under the umbrella of the big concern, might sometimes set prices for small quantities, but it had been amply demonstrated that the control of the market by one big growers' organization was the only way of preventing chaos.

Thos. Bulman, 1st vice-president of the Associated, who, up to the present had been one of the independents, declared that the only salvation of the fruit growers was through co-operation and this should be 100 per cent. He had never met a more earnest or better group of business men than those now conducting the affairs of the Associated. They realized that the salvation of the industry depended on the success of the organization and prayed for good judgment in handling the business of the growers.

Unfortunately, they had started in a disastrous year. The United States shippers were trying to consign into Canada, offering apricots at any price. Many down there made no attempt to pick their coats. Immediately the apriect situation was realized, the Associated had appealed to Ottawa to apply the dumping clause and for some time all imports were subject to revision as to values. This had checked importation. Water Street, Vancouver, when appealed to, had expressed a willingness to cancel orders for Washington coats which they had obtained at 92 cents. The executive was still staying with Ottawa and is determined to get protection from unfair competition from the States. It will not be wise to ask a big price from the prairie markets but the chances for making good in the United Kingdom are better than they have ever been. Apples have been sold in Boston and New York, some at \$1.75 a box f. o. b. here for No. 1 Macca.

Of the new organization, Mr. Bulman said, "If growers will do as earnest work as their officers are doing, the organization will be safe. Cohesion is your only salvation. We must keep courage." He reminded his hearers that others were worse off than the growers of the Okanagan and predicted that we are going to have the finest valley in the world. He urged those present to see that "every neighbor is with us. If the 3,000 members would work to this end, we would soon be 100 per cent. strong." Mr. Bulman commended the action of the local in assuming part of the cost of cartage, when they fixed the charge of hauling from the upper to lower packing house at 75 cents. "Summerland had a better spirit of fairness than even at Kelowna," and he again complimented Summerland on its splendid packing house. If, at any time, the growers decide to provide cold storage, Ottawa will give financial help, he said.

Mr. Bulman closed his remarks with an admonition to the growers to "keep at it; we will succeed."

To a suggestion from G. J. Coulter

White that a little forethought might have headed off a flood of American apricots and his reference to the Vancouver deal, Mr. Bulman said that the business men of Vancouver generally were behind the Associated. Thirty-five thousand letters to housewives had been sent out by wholesale grocers, asking them to wait for B. C. fruit. A card showing the dates when the different fruits would be ready had also been distributed.

Following a comment from Mr. Howe, who expressed appreciation of the work of the local press in helping to establish co-operative marketing, Mr. Bulman said a good deal of credit was due the local press and he asked that business men show their appreciation by giving their local paper every support.

To questions from the house, Mr. Bulman stated that at the present rate, the Central expenses are \$90,000 per year, but every effort will be made to reduce this. Central charges will be 5 1/2 to 6 cents per box plus brokerage.

Upon motion of J. S. Campbell, who assured the members that the directors had consented to the reduction, the directors will be paid \$25 per year and the president \$300. Mr. Campbell pointed out that the president, Mr. G. I. Gray, had been putting in a great deal of time for the Co-operative. This motion was unanimously carried.

During a discussion, it was pointed out that the following deductions will be made on apples in addition to local packing charges. Five cents to provide for capital for purchase of building, etc.; three cents to provide for interest, insurance, taxes, etc.; two cents capital reserve; six cents Central charge.

## GIRL GUIDES RETURN FROM ENCAMPMENT

Naramata and Summerland Girls under Canvas at Miller's Point.

"Ei ah oh  
Yah yah yum yo  
Anya kenek kenek kenek  
Naramata Girl Guides, rek, rek, rek,  
Arrapah, arrapah alama la,  
Naramata Girl Guides, rah, rah, rah!"

Such was the welcome War Cry wafted on the breeze to herald the return of the Naramata Troop, Canadian Girl Guides, as the transport "Skookum" approached the dock on Friday evening, August 3rd, at 7 o'clock. The Troop, some twenty-two strong, under the charge of Captain Dorothy Robinson and her two able lieutenants, Nessie Rushbury and Lila Young, went into a joint camp with the Summerland Guides at Miller's Point, near Peachland, on Wednesday, July 25th. The camp was an unqualified success from every standpoint, and the Guides, individually and collectively, declare they had a most wonderful time, and that the ten days passed away all too quickly.

Mrs. Colin McDonald, of Penticton, was Commander-in-Chief of the combined troops, and under her able supervision everything proceeded without a hitch in the camp routine:

Mrs. McDonald, who is a graduate of Sargent's Physical Culture College, made a most capable camp director, and the girls cannot speak too highly of her ability and the personality which endeared her to every girl under canvas. Discipline was strictly maintained, and the rules and regulations were enforced by her "iron hand in a velvet glove." It speaks well for Mrs. McDonald that she was able to keep her forty odd charges, old and young, under such excellent control, and still hold their universal affection. It is reported that every Naramata girl attending camp gained weight and physical improvement under her training system, and the parents are delighted with the results.

Sunday, July 22th, was visitors day, and quite a crowd of visitors from both Summerland and Naramata took advantage of Capt. Roe's excursion to pay the Guides a call and take along a supply of ice cream, cake, etc., as a variety from the camp fare. The visitors were hospitably received and entertained, and left with very favorable impressions of the way everything was running along.

Five birthdays occurred during the camp period, and on Wednesday evening, August 1st, the Naramata Troop held a combined Birthday party, with a very special spread to celebrate. Some visitors from Naramata arrived to grace the occasion, special thanks are due Bert Partridge and Dick Lawrence for their very generous donation of ice cream.

Gordon Hayman, Leslie Smith and Bill Bailey are also worthy of special mention for their valued aid in helping erect tents and getting the camp ready for occupation. The Guides also wish to take advantage of the opportunity to express their thanks to their Local Board, and to all the "home folks" who so loyally backed them up with generous donations and help which made the venture a possibility.

The Summerland Guides were entertained by their sister troop to supper on one occasion, and the compliment was returned at a later date.

The following is a sample of the daily camp routine:

Reveille	A.M. 7.30
Morning Dip	8.00
Breakfast	8.00
Flag Raising	8.45
Tent Inspection	9.00
Gymn. Physical Training	9.30
Swimming Instruction	10.30
Dinner	12 noon
	P.M.
Rest Hour	1-2
Guide Work	2-3.30
Swimming	4.30
Supper	5.30
Organized Games or Camp Fire	7.00
Lights Out	9.00

## WOLF CUBS STRIKE CAMP

Indulge in Land and Water Sports and a Nightshirt Parade.

On the evening of Tuesday, August 7th, twenty Cubs assembled at Ellison Hall at 7.30 and were conveyed to Crescent Beach by Simpson & Gowan's truck. At Crescent Beach they were joined by A.S.M. Harris, S.M. Cresso, Troop Leader Wright and Cubmaster Clay. Tents were put up quickly and before long all were quiet.

In the absence of the Cubmaster, the camp was conducted by A.S.M. Harris and T.L. Wright, assisted by some of the Scouts.

Thursday afternoon was devoted to sports, T.L. Wright having charge of the land sports, while the A.S.M. took care of the water sports. Several parents and friends took this opportunity and visited the camp. In the evening the Cubs had a bonfire and entertained their friends with a concert.

Saturday night a nightshirt parade and feed was held at 10 o'clock.

Sunday morning Mr. Granville Morgan gave his exceptionally fine talk on "Birds." At 4.30 Rev. Armitage gave a very helpful and impressive talk to the boys.

Camp was struck at 7.30 Sunday evening.

The Cubs wish to thank A.S.M. Harris, T.L. Wright and Scout Bunny Wright for the time they spent with them in camp, and also Mr. Simpson for his kindness in conveying them to and from camp, and Mr. Devitt for the donations of meat, as well as the many others who so kindly contributed to make this camp a success.

### BOY SCOUTS' NEWS

As promised last week, we publish the first installment of a "Tenderfoot's Diary." The regular meetings

were resumed last Friday, tomorrow's program consisting of a paper chase. There are now one or two boys who need not be surprised if they receive a notification that their name has been struck from the roll, and that their badges must be returned. We have forty-five keen members who are not going to be retarded by one or two slackers who fail to realize the meaning of their Scout promise.

The Wolf Cubs and Girl Guides have each returned from extremely successful camps. The Girl Guides have enjoyed for the first time the ordeals of real camp life. Full particulars will be published later. The Cubs did not travel so far afield, but a keener or merrier bunch of youngsters could not exist.

The Scout organization is extremely grateful for donations kindly sent by Mrs. Andrew, Mr. Stark, Mr. Melvin and Mr. Finley. They were very much appreciated.

### "A Tenderfoot's Diary"

Saturday, 21st, A.M.—The last few days have seemed like years, but the day has come at last and I am going to my first camp. I have been up since 3 a.m. and here it is nearly five minutes from the time I have to go and I'm sure I've forgotten at least half my belongings. I wonder whether we'll get enough to eat. Oh, I know what I missed—it's my shirt.

"The Man Who Saves You \$\$\$\$"

SUMMERLAND WEST SUMMERLAND

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1910, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

CORRESPONDENCE

Letters to the Editor.

MISINFORMED

Editor, The Summerland Review, Dear Sir,

With reference to the front page article in your last issue pursuant to my letter in your previous number, in which I referred to Wenatchee School Taxes and other things, it would appear that when in Wenatchee last summer I was misinformed on this matter. I have immediately enquired of the other Summerland party who was there with me, who confirms the information as stated in my letter as being correct in so far as it was given to us by a resident Government representative. By a peculiar coincidence, on the day I received your last issue two friends from Wenatchee looked me up. Although they did not know the exact School Tax mill rate off hand, they informed me that their school tax comprised 40 per cent. of their total taxes. There is therefore no doubt that we were both misinformed, and I very much regret having unwittingly mistated the facts in my letter.

In what respect, however, I am doing Summerland an injustice, by criticizing our prices and rates, which in turn affect our cost of production very materially, I fail to see. Healthy criticism, although it may not always be pleasant reading, is in my humble opinion what we require under existing circumstances. Criticism further may not always be correct, and in that event I, for one, am always glad to admit an error.

Although it appears that Wenatchee taxes are higher all round than ours, we must take into consideration the very different conditions. They have paved highways in every direction, and apparently the fruit-grower makes good money in spite of the heavy cost of fighting the codling moth. Properties are changing hands frequently, one of the party who visited me having only a few weeks ago sold out of a mercantile business and bought a 10 acre orchard, for which he paid twenty thousand dollars. On enquiry as to what I expected to take off my 40 acres of orchard this year, and being informed that I expected to get about 6,000 boxes, he told me that was just about what he expected to get off his 10 acres in an average year. Under such conditions and with only fair prices people can well afford to pay high taxes.

With us, unfortunately, things are not so favorable and to my mind we seem to put the cart before the horse. Let the fruit-grower get on his legs and then if necessary increase the taxes. It is only necessary to enquire into the amount of delinquent taxes at our municipal office to see how far our taxes are out of proportion to our revenue.

The concluding lines of your article state that the total taxes on a first class ten acre orchard here are \$120. Last year I paid \$166.40 on each of two 8 acre lots, which on 10 acres works out at just \$200 per 10 acres. Perhaps mine are not first class orchards though I have to pay considerably more than the first class rate.

Yours very truly, P. G. KOOP.

PRINCIPAL EXPLAINS

Editor, The Summerland Review, Dear Sir,

I have read the various comments in the Review upon the recent High School examinations. In justice to the staff of the school I should be glad if you will publish in your forthcoming issue the annexed digest.

Aggregate percentage of passes in both examinations: Mr. Lundie ..... 86.5. Miss Miller ..... 74.2. Mr. Payne ..... 74.5.

Ed. Note: In view of the fact that but four of the eleven who wrote on first year examinations were successful in passing into second year, and that eight out of twenty-three of the Matriculation class failed and five others will be required to write one supplementary and four more two supplementaries, some explanation of the percentages stated in Mr. Lundie's letter will probably be necessary.

When asked on what he based these figures, Mr. Lundie explained that a pass mark on a subject is 40 per cent. and that it was on this that his calculations were made. It might further be explained that an average of 50 per cent. must be made, although a drop to not below 40 per cent. is allowable on one, or two, subjects, provided the average of 50 per cent. or above is obtained, while Mr. Lundie has taken 40 as a pass average in each case.

"SAVANT" REPLIED TO

Editor, Review, Dear Sir,

In reply to a letter appearing in your last issue and signed by one "Savant." This person evidently blames the staff for the poor showing of the High School pupils at the recent examinations.

Having attended the High School since January 8th of this year I feel I am in a position to reply to his letter in defence of the staff. Possibly if this person had followed the results a little more closely he would not have expressed such dissatisfaction. Is he aware that during the term five of us who had been out of school returned and for his information I would like to point out the handicaps we were up against and our results.

Of the five, two got through without any supps, while the other three got through with supps. Of the two of us who passed, the other chap was out of school three years and returned shortly after Christmas; and after being away from school between six and seven years, I returned on January 8th of this year. Of the three who got supps, one was out of school four years and although he had never taken any second year work returned in October and passed with two supps. Another had been away three years and passed with one supp. While the third had left school before going overseas and did not return until Easter, and got through with two supps. All of us realize that we owe our results to the untiring efforts of the whole staff.

The whole class was warned time and again by the staff that unless they changed their methods of study and showed more interest in their work the results would be disastrous. Unfortunately the warnings of the staff were not heeded and now the staff gets the blame.

Possibly if "Savant" had kept a record of attendance of the matriculation class at dances and other amusements during the past term he could answer his question, "What's to be done?" Had he attended the dance at Empire Hall on June 4th, exactly three weeks before exams, he would have found a large number of those who failed at this dance. On May 24th, less than five weeks before exams, some of the pupils attended the sports at Kelowna and arrived home between 7 and 8 o'clock on the morning of May 25th. The result was that on this morning three of the boys, who, needless to say, failed, were found asleep in the basement. Does "Savant" think it a square deal to condemn any staff when some of the pupils display such studious habits?

All three teachers continually offered their help to any pupil with their difficulties at any time; and one teacher, Miss Miller, went so far as to hold special classes in her subjects, on four afternoons a week, from 3.15 until 5 o'clock. These classes were held from Easter until shortly before exams. What were the results? A great many thought a game of tennis or some other amusement more important than special classes.

I am glad to say that only last week I heard one boy honest enough to admit he alone was to blame for his failure.

This letter is written in defence of the High School staff against whom such unjust insinuations have been

made regarding "the true standard of our high school."

Yours truly, C. E. CLAY.

IN DEFENCE OF STAFF

To the Editor of the Summerland Review.

Your correspondent "Savant's" contention in the light of the above figures that the efficiency of the High School is but 20 per cent. is pure twaddle. A student may fall down in one or two subjects and be compelled to take supplementals and yet become a brilliant success at the University when the time comes for him to specialize. If there is any sense in "Savant's" contention, then conceivably if our 21 candidates had each scored 900 marks out of the maximum of 1000 and each scored 1 mark in (say) algebra, so that all would have been required to take a supplemental, then the school would have to record a zero per cent. of efficiency! I can conceive of no more petty way than "Savant's" of trying to make out a case against the teaching of the staff of the Summerland High School.

To particularize on the results, I should like to point out that five students who had been debarred from instruction for years either passed or may take supplementals. What these were able to do the majority of the others could have done had they really worked or been fit for matriculation work at the beginning of the last school year. Of this residue, four never had a possible chance from the outset, and had I been able to do so, I would have insisted on their repeating their second year. As it was, I had simply to deal with the material as it was passed on to me when I took charge. Any impartial person reviewing the successes and failures as I have tabulated them as above cannot blame the staff of this school, but there is a source of blame and I will point out where it lies, even though it may hurt some people's feelings.

The marks would have been much higher and the results much more satisfactory if some of those who failed had worked harder. The amount of time frittered away during these vital years in High School on pleasures (harmless enough in themselves) is far too great. To some students, sports, dancing and "having a good time" appear to constitute the be-all and end-all of their existence, and the passing of their school examinations a mere side line. Until parents and pupils become thoroughly

### Correspondence

(Continued from Page 3)

seized of the fact that to pass matriculation in three years is no easy matter, and demands steady and consistent application and real mortification of the pleasure instinct, first class results cannot be expected even with the assistance of the most efficient and painstaking staff procurable. In the coming school year all students who fail to secure a 50 per cent. average either at the Christmas or Easter examinations will be demoted, and that without fear or favor. But such a course will be unnecessary if only the parents will co-operate with the staff by insisting that their children work and put the same effort into their studies that they do into their sports and pastimes. Give us teachers the guarantee and we shall see what we shall see.

G. A. LUNDIE, M.A.,  
Principal.

### TOO MUCH PLAY.

Editor, Review,

Sir,—Apropos of "Savants" letter re results of High School examinations I wish to submit the view that this letter is based on a very narrow view of the causes of such results.

The inference is that poor results are entirely due to faulty teaching, and this involves the view if the teaching is excellent the results will be also. The percentage passing in the province was stated to be 55 per cent., while our average is above this. Surely with all the educational machinery and equipment we have in B.C. a percentage of 55 is low enough to cause a lot of searching into causes.

There is a pretty wide spread view among those who are not teachers that much of the poor results is due to the lack of control of parents and the lavish devotion of time and thought pupils give to sport and amusements. Play is a good thing in its proper place but when so much time is given by students to sport and amusements it is idle to expect high standing in examinations by the average student. The genius may do both but we are mostly concerned with the average student.

One did not need to be very observant in Summerland during the past year to be assured that many of the Summerland pupils were inordinately devoted to amusements that were of little or no help to them as students, and which make no real contribution in training for life's work. The parents seem quite content with this sort of thing until poor results in examinations crop up and then the blame is placed on the teachers.

I hold no brief for any teacher but I object to conclusions based on narrow and incomplete premises. Some pupils were exceptions no doubt, but I am satisfied a canvass of the student body would prove that many did not do justice to their opportunities. Even when in recognition of the weakness of some of the preparation of some students the teaching staff offered to give extra assistance in the evenings shortly before examinations, most of the students refused or neglected to avail themselves of this help.

It would be interesting to know how much home work was done in the year by the High School students. Possibly I am out of date in holding that students cannot possibly obtain high standing in any school or College where individual study outside the class room is not done to a considerable extent. One of the pri-

mary elements in the successful student is the power to concentrate and this cannot be developed to any high degree except by individual study.

It is to be hoped the Parent-Teachers' Association will take up many of the aspects involved in the successful outcome of High School courses. It is quite idle to contend that low standings are due to one factor.

W. C. KELLLEY.

### IN PRAISE OF PARK

Editor, The Summerland Review,

Dear Sir,—I took a walk to the auto tourist park one night last week, and was agreeably surprised to find so many visitors availing themselves of the opportunity thus afforded them. I think, Sir, it is opportune to remark that these delighted visitors would have passed Summerland up in their itinerary a few weeks ago, because they then had no means of learning that we had a camp site and the advantages that go with it. Therefore, credit to whom credit is due, first of all to those public-spirited citizens who provided the necessary guide signs and other advertising matter; to the municipality for providing the excellent site and perquisites, and to The Review for its incessant hammering to get action and results. It is all an effort well worth while, and our citizens should appreciate the boon that has been bestowed on the auto travelling public.

I remain, Sir,  
A RATEPAYER.

### FOREWARNED IS FOREARMED

As an aid to car owners who desire to prepare their cars for summer touring an auto firm has issued a list of hints and suggestions that should be of value. Among the more important points to be checked up are the following:

"Make sure that the generator and ammeter are functioning properly and that lighting circuit, starter and horn connections are secure.

"Lamps should have bulbs of equal candle power, have clean reflectors and be properly focussed.

"Test the steering gear to see that it does not bind at any point and is thoroughly lubricated.

"Examine the brakes. Be sure that they are free and do not drag with lever and pedal released and that they hold with pressure when pedal is depressed or lever drawn back. Brakes should be so adjusted that the car can be brought to a stop without grabbing.

"Keep the radiator clean. Flush the water circulating system to remove any rust or sediment deposits as these tend to heat the motor.

"Be sure that all hose connections are changed once a year. Hot water rots the rubber, loosens up the fabric which gets in the way of the water, cutting down the efficiency of the cooling system.

"Inspect wheels carefully and note any damage. Do they run true? Are the flange bolts tight?

"Inspect alignment of front wheels. With the wheel camber approximately correct, the wheels point straight ahead. The distance between the felloe bands of the front wheels in front of the axle should be 1/4 to 1/2 of an inch less distance than between the wheels back of front axle.

"Correct wheel alignment saves tire wear and should not be neglected.

"Proper inflation is as important as proper leads. Under-inflating results in flexing the layers of fabric which cause early deterioration of the tire.

"Do not change inflation pressure with change in atmosphere temperature. More damage results from trying to compensate for an increase in the tire temperature than is caused by the increase in temperature itself.

"Change your tires from time to time. One side of a tire may show more wear than the other. Turn it around.

"The electrolyte of the battery should cover the plates by a half inch. Never use anything but distilled water in the battery.

"Drain out all oil in motor and replace with clean oil every 500 miles. Always make sure that the gauge registers proper level and that pressure gauge indicates properly.

"Examine all spark plugs. Clean and set all points at about one-fiftieth of an inch, or the thickness of a 10-cent piece, and in replacing be sure they are set tight in cylinders.

"Look over the water cooling system and make sure that there are no leaks.

"Check timing of motor.

"Note operation of clutch and whether there is excessive play in clutch pedal.

### PLAN TO RETURN TO THE ORIENT

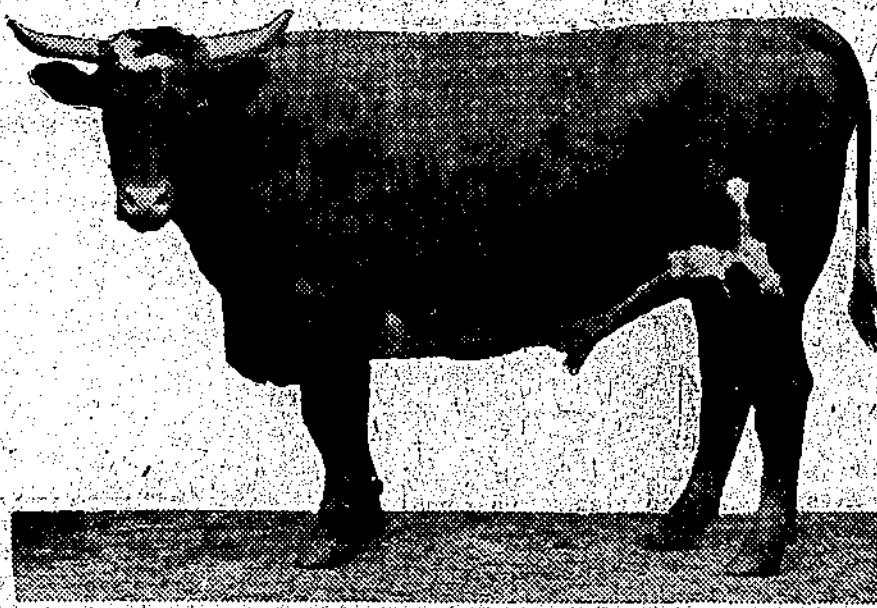

Rev. H. M. Irwin, pastor of Knox church, Vancouver, was a visitor with his brother, Mr. W. H. Irwin and Mrs. Irwin, Naramata, last week.

He is exchanging pulpits with Rev. Lennox Fraser, of Vernon.

The change was made with the hope that a few weeks spent in higher altitude would benefit Mr. Irwin's health.

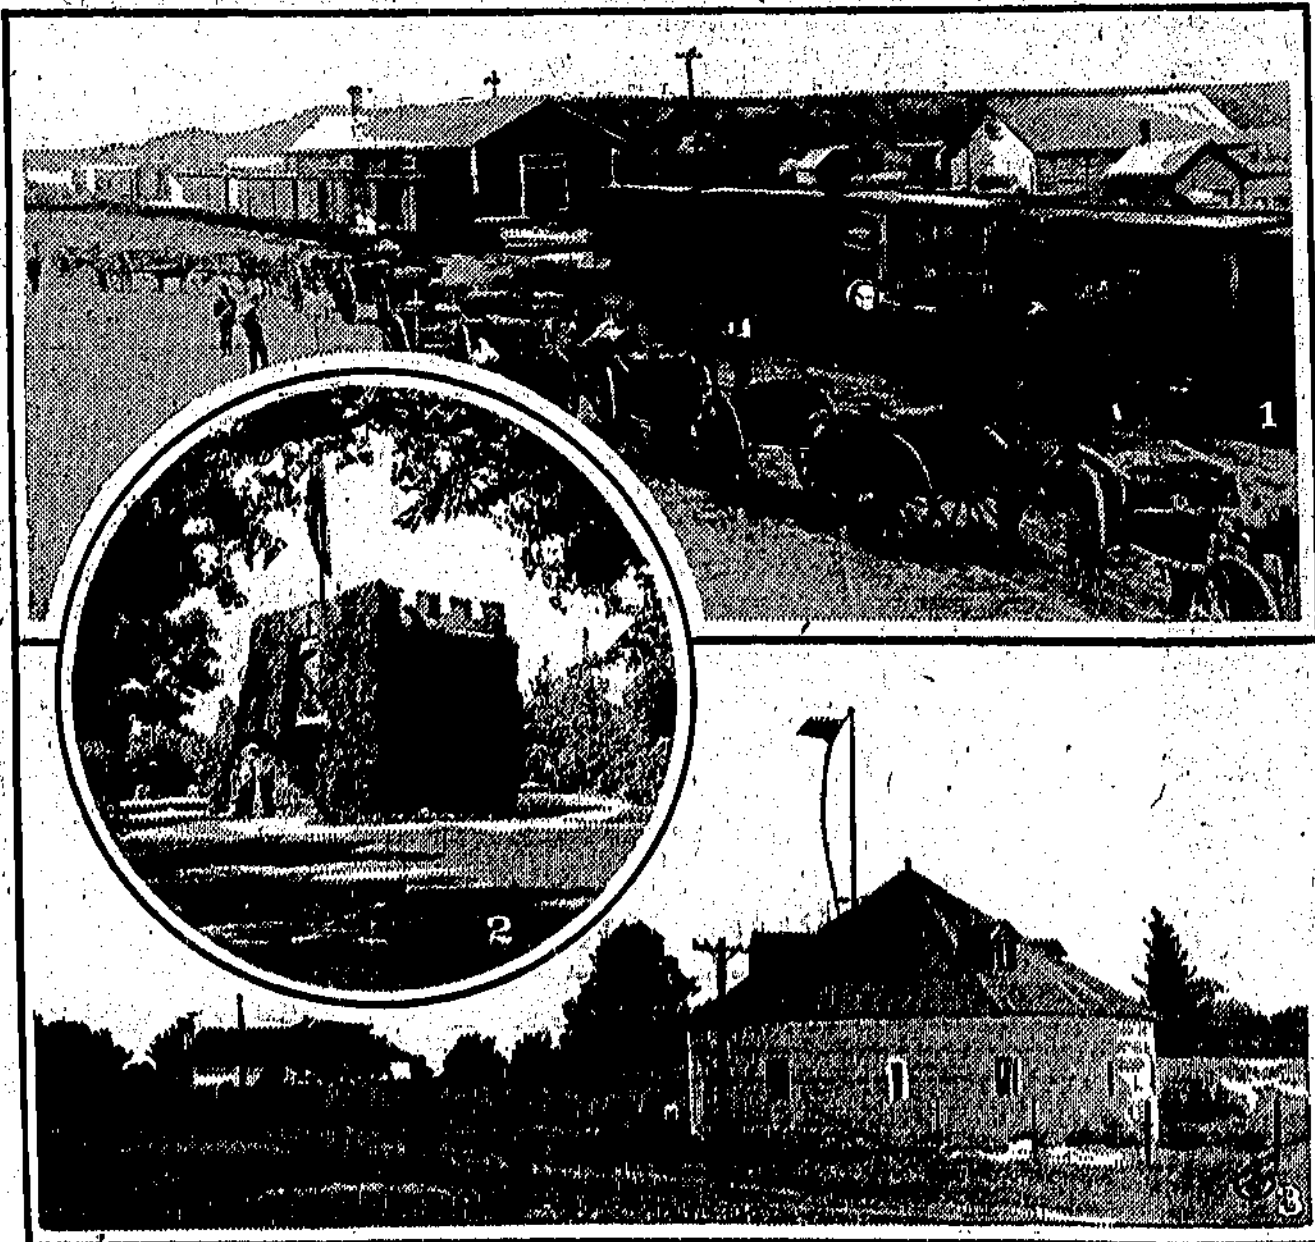

He and his family have spent over eighteen years in Turkey as missionaries, and intend returning to their work there next fall or winter if conditions will permit.

### C.N.R. CARRIED RECORD SIZED STEER TO PEG STOCK YARDS

The largest steer ever received at the Union Stock Yards, Winnipeg, was brought in on August 1st from Wainwright, Alberta, by the Canadian National Railway. The animal weighs 3,170 pounds, stands six feet at the withers, and is still under five years of age, and brought the record price of \$250 to its owners, Messrs. Stuart and Church of Wainwright. This is the highest sum paid for any steer in Winnipeg since the war, eight cents per pound on the hoof. Messrs. Bradon and Turn, the buyers, are placing same on exhibition at the Winnipeg Citizens' Sports Carnival, to be held within the next few days. J. H. Parsons, of Duhamel, Alberta, was the breeder.

### BY THE RED RIVER

(1) A train of Red River carts laden with furs that travel down Portage Avenue, the longest street in the world, from Fort Edmonton to the Canadian Pacific yards, Winnipeg.

(2) Fort Garry, the "Winnipeg of the West."

(3) Part of "Lower Fort Garry" known as "The Stone Fort," still in good repair.

NOT long since, Fort Garry was the point of exchange between the traders and hunters of the plains—the barttering point of the great fur country to the west. The fur traders flocked around the fort, snatching every opportunity for trade and thus, within a stone's throw of Fort Garry, was begun the foundation of the city of Winnipeg. The link sixty miles to the north had long since been named "Winnipeg," a contraction of the Ojibwa Indian "Ouinipiquon," or "Winnipeg," meaning "Win"—murky, and "Nipi"—water, so the name was adopted for the new metropolis.

Across the river was the old Catholic settlement of St. Boniface and one ranges up and down the corridors of time and history walking its streets, overshadowed by great, old trees, gazing in the mellowed cathedral and buildings, with the imprint of time on them. It was as early as 1817 that a band of French soldiers made their headquarters at Point Douglas and established St. Boniface.

There are now over 600 miles of streets in Winnipeg and many of the names are rich in history.

## The Storage of Fruit and Vegetables

By R. H. HELMER.

The storage of fruit and vegetables for home and market must receive greater attention than it has hitherto been accorded. The amount of waste annually is very great. As a first step towards eliminating this, every farmer or household with sufficient land to grow vegetables, and perhaps trees, should understand more about storing the crop. Some crops keep best in an atmosphere that has high moisture content, whereas others require a low percentage of humidity. So it will be seen that there cannot be a condition to suit all vegetables and fruit in the same cellar or storage building. Apples, pears, potatoes, carrots, cabbage, soon deteriorate in very dry storage; while on the other hand winter squash, pumpkins, marrows and other such crops like a dry atmosphere. Moulds and rots soon destroy them.

In case of squash and pumpkins, etc., any frost proof place which is dry is suitable—the top shelf of the pantry for instance, or shelves in the passage. Quality is often lowered by poor ventilation. Where crops are stored in large quantities ventilators should be open as much as possible to carry off gases and heat coming from a large bulk of any crop. When severe weather occurs close up the ventilators. Do not store a large volume of any crop while it is warm from the field unless you know that you can reduce the heat by proper ventilation. More attention must be paid to this when commercial storage is being done in the fall and our growers must help when asked to do so.

If you know your cellar is a very dry one and you wish to keep apples, etc., in it, make provision for adding more moisture to the air by introducing wet sacks spread out or by sprinkling the floor, the idea being that a large surface must be wet and evaporation quick. The atmospheric humidity can be tested with a wet and dry bulb thermometer. Take the readings and check up on the chart which is supplied with it. A humidity ranging from 75 to 85 is satisfactory.

## New Beauty for Dainty Fabrics and much longer wear

The two worries you have in washing fine fabrics, dainty garments, are removed. You can launder them now with full confidence that fabric will not be harmed, or delicate colorings dulled.

Silks, satins, crepes, and dainty, expensive cottons come from the wash with new brilliance and beauty. In thousands of homes women are using PALMOLIVE PRINCESS SOAP FLAKES.

These pure white, crinkly flakes give a wonderful, "whipped cream" lather that dissolves dirt magically.

And save money in two ways: By giving longer wear from fine fabrics; and, being nothing but pure soap, they last longer—cutting soap cost.

You can't find anything better for use in the washing machine—nor, in fact, for all laundry or household use.

In handy one-pound packages or bags. Order some today and begin saving next time you wash.

This column is yours, in which to extend courtesy to your guests; or courtesy to your friends by recording your own goings and comings. It is a courtesy also to us, and the general reader. Therefore, tell it to the Review. Phone 39. Thank you!

Urban Eckford left this morning for southern Alberta.

Dr. R. C. Lipsett made a professional visit to Finlay on Monday.

L. W. Rumball has as his guest, J. C. Gearhart, of Nanton, Alta., an old-time friend.

The C.P.R. S.S. Okanagan is again on the run after a thorough overhauling and repairing.

Mr. and Mrs. G. L. Harding left by today's train for the Coast on a two weeks' vacation trip.

Mrs. Geo. C. Benmore is visiting friends at Kelowna this week and taking in the regatta there.

Cliff Roe, who took a course in telegraphy last winter in Vancouver, is now one of the staff of the C.P.R.

Eric Winter is down from Armstrong spending his vacation with his parents, Mr. and Mrs. C. B. Winte, here.

Leonard Eckford sailed on Tuesday night from Port Alberni on the S.S. Canadian Importer, for Sidney and Melbourne.

Mrs. H. J. Armitage is entertaining the children of her Sunday School class to a garden party at the parsonage this evening.

C. P. Nelson, of the municipal office staff, started on his vacation this week, and, accompanied by Mrs. Nelson and their children, they are making a tour of the boundary country.

Mrs. Jas. Ritchie returned on Saturday from Kaleden, where she had been staying with her parents for several weeks during the illness of her sister, Miss Finley, who was operated on recently for appendicitis.

Mrs. Comber and children, former residents of Jones Flat, are the guests of Mrs. Ibbetson. Mr. and Mrs. Comber are now living at Ocean Falls and Miss Goldwin of that place accompanied Mrs. Comber to Summerland.

Mrs. Jas. McDonald and her daughter, Miss Marion McDonald, who had been for some weeks guests at the Elliott and McLaughlin homes, returned on Saturday from a short visit to Coast points and left again on Tuesday morning to return to their home in Boyle, Alta.

Mr. and Mrs. J. Rowley, Mr. and Mrs. C. J. Amm and Miss Amm and Miss McMillan left on Friday on a motor trip to Vancouver via Seattle. Mr. Amm came back by K.V.R. Tuesday morning. Mr. J. Rowley will go out by train to return with the party.

Guests of Rev. Z. L. Fash and Mrs. Fash are their daughter and his father, who arrived here last Saturday from Red River and Edmonton, respectively. Mr. Fash, accompanied by his father and daughter, left here on Wednesday for a short visit to Vancouver.

The Summerland and Naramata groups of Girl Guides returned from Miller's Point on Saturday, after an exciting ten days' joint camp there. This is the girls' first outing of this nature, but from all accounts it will not be the last. In another column is a report on the camp written from the point of view of the Naramata troop.

Mr. and Mrs. J. C. Robson, of Rossland, accompanied by their daughter, Mrs. E. R. Butler, and her children, motored over from the Kootenay city this week. Mr. and Mrs. Robson will remain here probably until the beginning of the school term, when they will return to Rossland, where Mr. Robson will resume his duties as principal of the Rossland public school.

Miss Alice Brown and Miss Honey Parkinson, of Kelowna, undertook to walk from the Orchard City to Summerland on Thursday of last week. Leaving Kelowna at 7 a.m., they took the ferry to Westbank. From there they walked to Peachland, where they had lunch, and continuing on their way, reached Summerland at 8 p.m. After spending Friday here, the guests of Miss Laura McLaughlin, they returned to Kelowna on Saturday morning's boat.

Misses Annie and Hazel Stewart returned on Monday from a vacation at the Coast.

H. R. McLarty of the Experimental Farm left this morning for Salmon Arm.

Miss Bertha Johnston returned on Monday's boat from a visit of several weeks to the Prairies.

Mrs. T. S. Evans, of Hillboro, Ill., is visiting her sister, Mrs. G. W. Cope, Paradise Flat.

Rev. H. A. Solly and Mrs. Solly, their two daughters and Mrs. J. M. Sutherland and Miss Helen Sutherland left on Tuesday morning on a motor trip to Vancouver.

About twenty crates of fruit were gathered, packed and shipped to the Tuberculosis Hospital, Vancouver, early this week by the Young People's Society of St. Andrew's church.

Fare from West Summerland to Vancouver and return for the Vancouver Exhibition is \$13.15, good going from the 9th to the 17th and returning good to the 20th.

Mr. and Mrs. George Ross and daughter, Helen, arrived here last week to spend the latter part of Mr. Ross's vacation, the first ten days of which they spent in camp on the Arrow Lakes.

The Pirie family will be leaving here shortly to reside in Kelowna. Rev. J. S. Pirie, who is now in New Westminster, has accepted the call to the pastorate of the Kelowna Baptist church and will commence his duties there at the beginning of September.

Three carloads of fruit were shipped from here last Friday by the Co-operative, and each day since one carload of mixed fruit has been started rolling by them.

E. G. Clay, a well-known commercial traveller and a frequent visitor to this part of the Okanagan, died suddenly last week at Kamloops. The late Mr. Clay represented Ramsay Bros., a Vancouver biscuit firm. He was taken ill at the Leland Hotel, Kamloops, and died the next day. Mr. Clay was in his 61st year.

A. M. Leslie, C.P.R. agent here, and Mrs. Leslie are away on their vacation. They left here last Friday morning for Edmonton and from there they will go to Prince Rupert over the Canadian National and then down the coast to Vancouver, and will probably visit other Coast cities before returning home. Relieving agent Foster is in charge of the station here during Mr. Leslie's absence.

Miss Dewar, of the nursing staff has handed her resignation to Capt. H. H. Creese, secretary of the Hospital Board. Miss Dewar asked to be relieved of her duties at the end of this month. According to current rumor, Miss Dewar will shortly assume the larger responsibilities of matron of the household of a young Summerland man now at Kimberley, B. C.

T. C. Norris, for seven years premier of the province of Manitoba, was a visitor to Summerland this week and met a surprising number of former Manitoba acquaintances while here. On Wednesday he was given a motor ride by his cousin, Mrs. Thos. Dale, with whom he lunched on Thursday before leaving for Harrison Hot Springs. Much of his time here was spent with Adam Stark, an intimate acquaintance and former neighbor at Griswold, Manitoba. Mr. Norris is steadily recovering from a recent serious illness.

"I have travelled through France, Italy, Switzerland, Germany and Austria, but I never saw anything to beat this view in all my travels." This was the statement made by Mr. Sidney Lee, of Toronto, during a recent visit here with his friend, Mr. J. Rowley, while the two were viewing the lake and surrounding hills from Mr. Rowley's orchard.

R. G. L. Clarke, Dominion fruit inspector, was a visitor to Summerland this week and went from here to Vancouver on Wednesday. Mr. Clarke was on one of his regular inspection tours. He predicts a crop of apples of superior quality, particularly in those orchards that have been well thinned. Mr. Clarke is not disposed to blame Water Street for the recent complaint about importation of apples. He states that the Okanagan has given little attention to that market, shipping practically all its cots to the prairies. The Coast market could consume a big bulk of the cots grown in this province.

## AN ENJOYABLE "SURPRISE PARTY"

On Friday evening last, the home of Mr. and Mrs. J. T. Washington was the scene of a very jolly party, when over forty young people and friends of the West Summerland Co-operative packing house arrived laden with good eats.

The "surprise party" was given in honor of their guest, Mr. J. H. Riha.

"Jack" certainly enjoyed and very much appreciated the kindly welcome of the young people.

## DON'T BE ALARMED!

An alarm won't worry you if you are insured.

Let me quote you a rate on your home.

J. H. Bowering, secretary of the school board, has received a wire today from J. O. Steves, accepting his appointment to the staff of the high school.

Mr. C. B. Gooderham, Dominion apiarist, Mr. Shepherd, provincial apiarist, and Mr. Roberts, provincial inspector of bees for the Interior, were visitors to the Experimental Farm here on Tuesday, continuing north the same day, visiting several other apiaries on the way, at Kelowna, Vernon and other Valley points.

## After-Eating Distress

and all forms of stomach trouble such as gas, pains, acid, sour burning stomach are all relieved in two minutes by taking Jo-To. Jo-To sold by all druggists.

## CARS IN COLLISION

Two cars came together in head-on collision about 6 o'clock this morning at John Tait's corner. This is a dangerous corner, the road being narrow and the view obscured. R. C. Palmer of the Experimental Farm, had been at the wharf and was returning south when he was met by another car driven by Mr. Finch of Penticton. A front wheel was torn off the Farm car, the front axle bent and guard buckled. Finch's car suffered less damage.

## The Bonehead.

Susie: "Mother, I want you to whip Tommy. He just broke my doll."  
Mother: "He did? How?"  
Susie: "I hit him on the head with it."

## The Fuller White Hair Brush

Is far superior to any Old Style Hair Brush—and when once tried you will never use any other. They are strong, sanitary and very durable. The Bristles are made from genuine wild boar.

## AN APOLOGY

A valued Customer came into our store on Saturday afternoon, as usual. Owing to the number of other customers there at the time, she was unable to get immediate service and, being in a hurry, had to leave and get the goods elsewhere, thus undoubtedly paying 50 cents more for the goods she would have purchased here. For this we owe an apology. We would respectfully suggest shopping as early in the day as possible, especially during the week end, or a telephone message beforehand will ensure your order being ready for you. Our fullest services are at your disposal.

PEACHLAND DOINGS

The funeral of the late Mrs. H. Williams, one of Peachland's most respected citizens, who passed away after a very short illness, was conducted on Thursday, August 2nd, at 2 p.m., from the Union church.

Rev. J. Scott came in on Saturday evening to spend a few days with old friends here. Rev. H. A. Solly motored up from Summerland to conduct the regular service in St. Margaret's church on Sunday.

Mr. C. D. Drake left here on Tuesday morning to go down to Alberta to attend to some matters of business; from there by way of Vancouver and south by boat to southern California where he hopes to locate. His many Peachland friends are wishing him success and happiness.

Mr. B. M. Whyte and little son, Stuart, were visitors here for a day or two last week, with her parents, Mr. and Mrs. A. W. Miller.

Mr. and Mrs. Hacket returned to Peachland last week after some months spent at the Const. During his absence Mr. and Mrs. Bradley have lived in and had charge of their place.

Mr. and Mrs. Grantham and children paid a short visit in town last week, guests at the Edgewater Inn. They left to continue their trip up through the Cariboo country after which Mrs. Grantham and the children hope to return and enjoy a couple of weeks in Peachland.

After a very enjoyable visit in Peachland with her parents and other members of the family, Miss Dortha Bradbury left on Thursday evening to return to Pentleton.

Miss Alice Cousins arrived home Tuesday evening to enjoy her mid-summer vacation with her parents and other members of the family.

Mr. and Mrs. Whyte and son paid another short visit in town this week.

This funny old merchant who lived in a shoe, said his store "Kept the goods," which was certainly true. If "keeping" is good—then no wonder he's blue. For he'd smile once a while if he tried the Review.

Mr. and Mrs. J. Shortreed left on Thursday morning's boat to return to the prairie after several months sojourn in Peachland, following their marriage here in the valley.

Mr. J. Gellatly was a visitor in town and community last week. Although he came down to attend the funeral of Mrs. H. Williams, he remained to get some further data on nut culture in this district. He gathered some interesting specimens from various orchards.

Being unavoidably delayed from reaching here in time for the funeral of her sister, Mrs. H. Williams, Mrs. Thos. Latimer of Vancouver came in, arriving on Friday morning via K.V.R. and stage, and is spending a short time with Mr. Williams and the two boys, at their home here.

Mrs. R. H. Huston and her guest, Miss Bell, were visitors on Friday to Kelowna.

After a pleasant visit to her former home here, Mrs. H. McHollister returned to Kelowna on Friday, taking her youngest sister, Katy, with her.

Mrs. J. L. Elliott is spending a short vacation camping with some friends and relatives at Kelowna.

Mrs. A. Ades and children are visiting at Mrs. Ades' old home, now the home of Mr. and Mrs. R. H. Huston. Mrs. Ades is well known to many Peachlanders, having spent many of her girlhood years here.

Rev. H. A. Solly motored up from Summerland to conduct the regular service in St. Margaret's church on Sunday.

The service of the Baptist church on Sunday was conducted by Mr. Gilbert Thoriber, of Summerland, who supplied for Rev. Isaac Page who is away on vacation at the Coast.

Mrs. F. E. White came in on Monday evening's boat to spend a couple of weeks vacation with friends in the community. Just now she is a guest of Mr. and Mrs. Thos. Powell.

Mr. C. D. Drake left here on Tuesday morning to go down to Alberta to attend to some matters of business; from there by way of Vancouver and south by boat to southern California where he hopes to locate. His many Peachland friends are wishing him success and happiness.

Mr. H. E. McCall returned on Tuesday morning's boat after a rush business trip to Naramata.

Mrs. Hohensee accompanied by two of her girls, who were down to Pentleton to pay her a short visit, came home Tuesday morning to spend a day before the big rush of packing. She is having pretty steady work in the Pentleton house, under Mr. Taylor, who formerly managed the Peachland packing house.

Rev. T. A. Sadler and son, Jimmy, motored to Kelowna on Monday to spend the day.

Miss Marjorie Simpson, of Vancouver, is a guest of her aunt and uncle, Mr. and Mrs. G. H. V. Bulyea. Miss Simpson will be remembered by many Peachlanders, having resided here with her parents several years ago.

After a pleasant visit in Peachland with her friends, Mrs. Huston, Miss Bell left on Tuesday evening, to return to Ensdondale.

NARAMATA NEWS

Current Events of Town and District

MEETING DISCUSSES PACKERS' STRIKE

Following on a petition circulated by the packers of the local co-operative, and signed by over a score of growers, a meeting was held on Friday evening in Naramata Hall, ostensibly to discuss certain grievances held against the management of the packing house. It was found, however, that due notice had not been given of the meeting, and the proceedings were consequently of an informal character.

Mrs. Iverson presided, and the complaints of the packers were voiced by Miss Lois Wells, who stated that the several men employed were forbidden to lift the boxes for the girls, although it had always been the custom for a man to do that part of the work. A great deal of discussion ensued, but no resolution was passed, and the meeting broke up without result. The local feeling generally is that the dispute might have been adjusted without difficulty had both sides approached matters differently. The sympathy with the girls, who for the present have lost their positions, is strengthened by the resentment felt at the ill-considered suggestion that Oriental labor might be brought in, and on the other hand, it is held that a strike should not have taken place.

The Girl Guides returned on Friday, after an enjoyable week of camping out at Miller's Point.

Miss Dorsey of Edmonton has been the guest of Mr. and Mrs. Fred Young for the past few days.

An afternoon tea and sale of home cookery was held at the home of Mrs. Lyons on Saturday, tea being served on the lawn. The affair was

in connection with the Ladies' Aid, which organization is richer by \$27 as a result.

Percy Falkner arrived Wednesday morning from Vancouver for a visit to his mother, Mrs. Geo. Weaver.

Mr. T. Williams is suffering from an attack of lumbago.

Reason for Everything. Wife: "John, I'm disgusted with this old car. It squeaks dreadfully."

John: "Can't be helped m'dear. There is pig iron in them axles."

Both Right. Customer: "Sir — this salmon smells."

Butcher: "Impossible, madame—it's dead."

## LANDSLIDE AND CAVE-IN ON LAKESHORE

### Autoists Have Thrilling Time Negotiating Temporary Roadbeds.

Water seepage was the cause of slide and cave-in on the lake shore slide and cave-in on the lake shore road one day last week, and for several days the road was closed to vehicular traffic. The cave-in occurred right upon the main road, and this has now been propped and cribbed but eventually a bridge will have to be constructed, or else extensive blasting and excavating to widen the road must be done.

The Kelowna-Penticton stages have been off the regular run for nearly a week, but the Westbank-Peachland stage has been run on schedule. For the convenience of the travelling public, a detour was laid out near Miller's Point, signs being placed at the bridge notifying motorists that the road was unsafe and that they traversed it at their own risk. This involved a steep climb over a narrow discarded road, and at the summit loose shingle had been placed over the mud slide. At each end of this detour a man with a red flag was stationed and a telephone was installed so that information to the other end could be given on the approach of a car, and thus there was no danger of two cars meeting.

The crews worked continuously until midnight Saturday, and on Sunday, a temporary cribbing and two plank runways had been placed over the subsidence for a distance of about 300 feet on the main road, and with great care drivers of cars could negotiate it.

A representative of the Review visited the spot late on Sunday night, and was surprised to find that no employee had been left in charge at each end of the damaged roadway. Neither was there a lantern to warn motorists of the dangerous spot. This is a piece of cool indifference for the safety of the travelling public that should not go unnoticed.

## PEACHLAND WANTS ROAD TO PRINCETON

A communication was received on Tuesday evening at the regular meeting of the Peachland board of trade, from the Peachland board of trade, asking support in a movement to secure the completion of a wagon road linking Princeton and Peachland. It was pointed out that the greater portion of this road was already passable.

The Penticton Board could not see its way clear to lending support.

## LOCAL GIRLS ARE GIVEN A FINE SEND-OFF

### About to Enter Jubilee Hospital, Are Entertained by Friends.

The Parish Hall was the scene of a gay party last Friday evening, when many young friends of the Misses Ella Morrison, Lillian Darko, Edna Knowles and Amy Smith gathered to bid them farewell. These young women are leaving soon to enter the Jubilee Hospital at Victoria, where they will train for nurses. This opportunity was taken to give them a good send-off, and to give them a slight indication of the respect and esteem in which they are held by the younger circle in Summerland.

The evening's program was purely social. The good wishes of their friends were not presented in any such formal manner as a speech, but asserted themselves in the gaiety of the evening.

Music was provided by the Misses Ida Shields, Thelma Lockwood, Sue Whiteford, Bertha Johnston, Dorothy Melvin, and others.

The girls provided refreshments during the evening and the boys engaged the hall.

## A PLEA FOR THE HOSPITAL PATIENTS

Motorists who have occasion to traverse Hospital Hill at any time, and particularly at night, are earnestly urged to close their cut-outs. Many unthinking ones are tearing past the hospital with their cut-outs wide open, and did they but know the shock and injury they were thus causing to the nerves of the inmates prostrated there, we feel sure the practice would at once cease. During the stillness of the night, every little sound is greatly accentuated, and many of the patients are nervous wrecks, and are taking the rest cure prescribed for them. It is to be hoped that every motorist in town will take consideration of this appeal, which is made on behalf of the patients and hospital staff.

The practice of using the open space at the hospital as a turning ground should also cease.

## ASSOCIATED SAYS CHANGE IS JUSTIFIED

### Critics Answered on Recent Complaints of Interior Spending.

The following has been issued by the Associated Growers, from Vernon, justifying the changes made in office accommodation.

True economy does not simply consist of saving money, in fact, bankers will tell you the majority of failures are caused by insufficient capital, which is another way of stating the management could not provide the facilities necessary to do the business attempted.

Successful business enterprises are invariably those controlled by men who know how to spend money wisely and judiciously. The Associated Growers management aim to do this, but have been criticized by some who either do not know the full circumstances or are not experienced enough in business to fully realize what a heavy loss a business can sustain by placing a large payroll of high class office help in cramped, uncomfortable and inconvenient quarters.

The office formerly occupied by the O.U.G. being entirely inadequate, as the business of the Associated will be almost double the volume, it could not be transacted in the same office space and therefore it was necessary to enlarge or find other quarters.

To enlarge the office, taking more warehouse space from the Vernon Fruit Union, together with the necessary addition to the heating plant, was found would cost at least \$5,000, and the office would not then be satisfactory, as it was oppressively hot in summer and exceedingly cold in winter. Figures were obtained from contractors by tender for insulating the floor and making such other changes as could be made making the office reasonably satisfactory, and the total cost was found to be very close to \$15,000, and the rent to the Vernon Storage Company, to cover interest on capital and space occupied, could not be less than \$150 per month, and as the Vernon Storage Company had not the funds, the Associated would have to finance for them the \$15,000 expenditure.

Earnest and careful consideration was given to the situation and all possible alternatives were investigated with the result that the Reynolds building was selected as the best for our purpose.

Sufficient floor space could be had and all partitions and changes, including heating plant, could be provided for a cost of \$0,200, which, with a lease for eight years of 5,000 feet of floor space, figuring the expenditure as pre-paid rent and allowing interest during the unearned period only made a total rental of \$194 per month, giving what is expected will be ample space conveniently arranged to transact the business economically and, as approximately 3 per cent. of efficiency in the office staff would equal the total yearly rent, the executive and management concluded, and rightly so.

(Continued on Page 6)

## General Manager Pratt Has Resigned from The Associated Growers

### Has Nervous Breakdown and is Prescribed Complete Rest by Physician—Basil Stuart, Summerland, Takes over Office—Vague Rumors as to Cause of Resignation are Flying Around Valley, but Officially Denied—Harmony at Headquarters is Keynote—Confidence in Basil Stuart to "Carry on"—Loyalty to the Association is Urged by Directors.

The chief topic of discussion the past few days has been the resignation of General Manager A. M. Pratt, of the Associated Growers. The air has been full of the wildest rumors, and many theories have been propounded as to the reason why the general manager should resign in the midst of the busy season. Rumor came along that ill-health was responsible for Mr. Pratt's retirement, but this was discounted by others, who averred that the general manager, immediately after handing in his resignation, began a 350 mile auto trip to Seattle.

However, that there has been no rift in the lute, and that harmony has at all times prevailed between Mr. Pratt and his colleagues at Vernon, despite rumors to the contrary, is now substantially verified by a written statement from that gentleman himself, and another which has been issued by the Associated. Their letters read:

Notice to the Press.

Dear Sirs, It is with great regret that we announce the resignation, in consequence of illness, of Mr. A. M. Pratt, as General Manager of the Associated Growers of British Columbia, Limited.

Although Mr. Pratt has been in failing health for some weeks past, he courageously endeavored to continue the heavy work and responsibilities of his position, although advised of the danger to himself such a course would entail.

On Saturday, the 11th inst., his medical adviser, Dr. Baldwin of Vernon, in a letter to the executive advised them that, as Mr. Pratt's medical consultant, in his opinion an attempt to continue in his present occupation would lead to a total incapacity; and in fact, the stage of complete collapse has been reached.

The services rendered by Mr. Pratt have been particularly valuable, especially in the direction of co-ordinating

the work of the Central, or sales staff of the Association, in fact, this part of the organization has been so well-planned and advanced that even the loss of Mr. Pratt's services at this critical time in the season's operations will not, we are convinced, seriously interfere with the successful continuance of our business.

It has been decided for the present to appoint Mr. Basil Stuart, now Second Vice-President of the Association, as Managing Director. Mr. Stuart's experience as a grower and a shipper, and his known and proved ability, and also the fact that he has been closely associated with Mr. Pratt from the time the latter arrived in Vernon, and is thoroughly conversant with the needs of the business, enables us to make this announcement with the utmost degree of confidence and satisfaction.

The success of the Association must ultimately depend on a continuance of the loyal support of every individual grower—this, we are convinced, will be given and, therefore, success is assured.

Yours very truly,

ASSOCIATED GROWERS OF B. C., LIMITED.

A. J. HOWE,

President

To the Executive of the Associated Growers of B. C., Ltd.

For the past few weeks it has been hard to feel growing upon me an increasing difficulty in applying myself efficiently to the job. It was something I felt unwilling to admit to myself, believing that tomorrow I would feel more normal, but nature had to finally be considered, and as you know, the Doctor says I am so near a complete nervous collapse that my only course is to resign.

I have told you verbally of this, and you know the regret and mental anguish that this means, and yet some way, with the acceptance of my resignation, and your sympathetic understanding of it all, I feel more at

ease. It is sorely disappointing, the outcome, but it is settled and the suspense at least is over and I know I have done all I could.

To you men, the members of the executive, I want to pay this, my last sincere respect. No five men could ever work with greater earnestness, with more frankness, and meet all the trying problems of our adjustment period with any greater freedom from jealousy or friction and with any finer spirit of friendliness and true partnership in a common cause than you men and myself have shown. In leaving you I feel I am leaving real men and friends, and as a personal friend it hurts to feel I cannot continue to carry my full share of the load with you. I want you men to know, and I should like to have our growers know, that I have received more credit than I should, and you less than your part. So much was expected of me as an individual, that possibly it weighed too heavily upon me.

Regardless of the fact that the heavy end of our season is just before us, the suspense necessary in completing all our plans, and in getting the entire sales-machinery in Canada, the United States, and Overseas is over and accomplished, and I believe our judgment will prove right. You and the staff fully sense all that can be learned in applying the principles of "co-operation." I have never seen a body of men willing to work so hard, and who feel so deeply your duties to the growers (who trust you) as you men and those on the staff. It is time that all our grower-members, to a man, realize this; it is time for a searching of hearts on the part of every grower to know whether he really has the loyalty, the manhood and courage to meet the hard problems before us all as they have been met by those working and fighting with these problems in Central.

## MIDNIGHT PICNIC AND CORN ROAST

About thirty friends were the guests of Mrs. Madames Roe and Milne at a picnic and corn roast on Tuesday evening. Chartering the "Skookum," the merry party camped in a secluded nook near Naramata, where many good things were partaken of, and songs were indulged in around a bonfire, until 2 a.m. the following morning. They were joined by a number of talented artists from Penticton, who regaled them with the latest songs and gags.

An official in charge of the cattle shipments from the port of Montreal recently stated that nearly 40,000 head of store cattle would be shipped from the port this year. He declared the rush seasons would be the months of August, September and October.

## BENCH FARMERS MUST BE CAREFUL

Two serious landslides on the Lakeshore Road during the past few days, fortunately with no loss of life or bodily accident, are directly attributable to irrigation operations on the benches immediately above. From Summerland to Peachland water is to be noticed seeping from several orchards above, and in each instance there is danger of a breakaway which might have disastrous effects. Last week a rancher was fined for allowing water to overflow onto the road, and unless greater care is exercised by others, they too will find themselves in an ignominious position. The most recent slide occurred at Mellor's, and almost completely covered the old slide to a width of 90 feet.

Traffic over the slide has been resumed and the road put in good repair.

## NO DECISION ARRIVED AT RE DRAINING

### Council Will Hold Special Meeting to Discuss Hilborn Lake.

The draining of Hilborn Lake was the chief item of discussion at the regular meeting of the Municipal Council Tuesday afternoon. Mr. Norvington, engineer, with members of the Council last week carefully investigated the lake and the possible means of draining it, but no final decision was arrived at. A special meeting of the Council will be held Saturday evening at 7 o'clock, when they will meet the owners of land immediately concerned, in an endeavor to make some arrangement for the permanent establishment of this nuisance. Means of draining and the cost of such work will be discussed at this special meeting.

A report from the men at headwaters was received. All dams were full and have all been opened. In the past the dam on Canyon Creek has been the last to be opened, but this year it was opened first and is now empty, the water in this small dam only lasting a few days. Prospects are better than average for abundant water to carry to the end of the season. The beavers in no case had interfered.

Complaints were received of seepage from the upper East flume in Garnett Valley. Nine lot owners petitioned the renewal of this section of fluming. This is not a new matter to the Council, they having had it in mind for one of this year's improvements, but since all the debenture money for this kind of work has been spent and it is getting late in the season, it was thought inadvisable to take any action this year. However, it will be referred to next year's Council with the recommendation that this piece of work be carried out at once.

The usual bills were passed for payment, amounting to \$4,562.00. There was practically no debenture money involved.

The assistant engineer, Mr. McLaine, of the Kettle Valley Railway was up last week and, with Roove Campbell and Coune, Bristow, went over the present site of the station. No decision was arrived at as regards moving the building, a report being submitted to Chief Engineer McCullough for consideration.

It was decided that no delegate be sent to the convention of the Union of Municipalities of British Columbia.

Complaints were entered by Messrs. J. McDougall and Shiller, re irrigation service in their district.

## M. P. VISITED NARAMATA.

Mr. James Black, Vancouver, superintendent of claims for the C.P.R. for B. C., and his brother, Mr. H. A. Black, of Ontario, who is a member of the Dominion Parliament, were visitors with Mr. and Mrs. Irwin last week. Mr. H. A. Black is prospecting for a location in our valley.

## PROVINCIAL POLICE ARE RESPONSIBLE

### Sanitary Condition in Packing Houses up to Them, Says M. H. O.

The annual report of the Medical Health Officer is given below. Local Board of Health, West Summerland. Gentlemen:

I beg to submit the following report of health conditions in this Municipality for the year ending June 30, 1923.

Vital Statistics.—Births, 51; males 22, females 29. Deaths, 19; males 9, females 10. One inquest and two coroner's inquiries were held.

Infectious Diseases.—Measles, 7 cases reported, no deaths. Scarlet fever, 29 cases reported, no deaths. Chicken pox, 2 cases reported, no deaths. Tuberculosis, 5 cases reported, one death. Influenza pneumonia, 4 cases reported, one death.

Measles were traced to two sources of infection brought into the Municipality, and were promptly quarantined. The scarlet fever was exceptionally mild and free of the usual complications. All the cases of tuberculosis originated outside the Municipality. Influenza appears from time to time in a mild form, although one death was due to influenza pneumonia.

Dairies.—No formal complaints have been made regarding the milk supply. It is urged that the dairies continue to be regularly inspected, as the public have a right to be protected against impure food.

Nuisances.—Last fall, many complaints were received regarding the careless disposal of over-ripe fruit and culls. Recent Provincial Board of Health regulations call for better sanitary conditions in fruit packing houses, and I have been assured that the Provincial Police have the responsibility of enforcing these regulations. When it is remembered that fruit is food frequently eaten raw, too much care and cleanliness cannot

(Continued on Page 6)

## SOUTH AFRICANS LIKE OUR APPLES

Still more reports of the splendid quality of our Okanagan apples are coming into our office, this time from South Africa. In a letter to Mrs. T. Croil, her sister, now living in Johannesburg, tells of buying there Okanagan apples, wrapped in the O. U.G. brand paper, and states that they were in first class condition and of delicious flavor. These apples were being sold from house to house, for nine pence or eighteen cents a dozen.

## IN HOSPITAL AS RESULT OF GUN ACCIDENT

### Bullet Penetrates Floor of Mouth and Lodges Near Spine.

Through what might have proved a much more serious accident on Tuesday afternoon, Robert Darke, eldest son of Mr. and Mrs. S. R. Darke, of Meadow Valley, is in the hospital suffering a badly fractured jaw and mouth.

At the time of the accident the lad was out in the field near his home helping his father haying, and had with him a small rifle, which he was carrying from one field to the other. Just how the accident occurred is not certain, but, in some way, while Robbie was riding on the wagon the gun went off, the bullet entering his lower jaw. Penetrating the floor of his mouth, it went through the back of his throat and lodged near his spine. He was taken to the hospital where medical aid was given, and on Wednesday morning an operation was performed and the bullet removed. Fortunately the spine escaped injury. Though suffering considerably, he is getting along as well as can be expected, though he will probably be confined to the hospital for some time.

## A GOOD WAY TO SELL ALL OUR APPLES

### Write Your Friends and Urge Them to Buy a Box This Fall.

The Associated Growers have a unique suggestion to offer this week, and one if taken up in a wholehearted manner, will help materially in boosting along sales. Their proposition is that every person in the Valley and particularly those with typewriters should write letters to their friends in Canada, the United States, and in the United Kingdom, telling them of the merits of our products, and urging them to buy a box.

It is believed that good results would be obtained in such a campaign, and so as to keep the ball rolling and forming an endless chain, a number of unsigned typewritten letters should also be enclosed, and these could be mailed again on their mission of usefulness by your friends to their other friends. A copy or sample of such a letter is to be found in the advertisement of the Associated Growers, which appears in this issue on another page.

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED

Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association, Member of British Columbia Selected Weeklies.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, August 16, 1923

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

### THE OTHER SIDE OF THE STORY.

The other side to the story of the Vancouver apricot deal and Water Street's apparent indifference to the Interior, is now being told, and it is apparent that Okanagan shipping concerns, which must be supplied by proper publicity, and the fact that the Okanagan has always looked upon the Coast as an unsatisfactory market, are factors entering into the matter. Closer co-operation between shipper and distributor and more advertising are needed if we are to secure and hold our own home markets.

Col. W. B. Foster, manager of the B. C. Products Campaign, has furnished the Review with a copy of a letter written to another Valley paper, and that part of the letter relating to the apricot question is reproduced here.

"Whilst thoroughly agreeing with you that the American apricots should not be exploited at the expense of our B.C. apricots, it would appear to me that you are not quite fair in your criticism of the 'Buy B. C. Products Campaign'.

"In the first place, I think you will agree with me that the Vancouver Board of Trade has placed itself on record time and time again in sympathy with the interests of the Growers of the Okanagan and other valleys. Surely the publication of the reports referred to in the daily papers, over which they have no control, should not be taken as an indication of their attitude, especially in view of their action in helping the Growers in the past.

"The home market for B. C. fruit is not as strong as it might be, but by careful appealing, attractive advertising, and the insertion of crop bulletins in the papers by producers, there is no doubt this consumption could be greatly increased.

"During the past two years, the 'Buy B. C. Products Campaign' has devoted a great deal of time and money in placing before the public in the coast cities the vital necessity of patronizing B. C. agricultural products.

"Last December application was made by the Campaign to the Minister of Agriculture, Victoria, asking if it were possible for that Department to issue an official leaflet giving a short review of the crop situation and the dates the different commodities would be on the market. It was explained that many of the public had complained that when they wanted to purchase B. C. fruit they were informed either the B. C. fruit was not on the market due to lack of supplies, or the crop was a failure. Many stated they were willing to wait for the home crop, provided they know when it will be on the market. The Honorable Minister replied, stating he thought the idea a good one, and that he would follow it up. Later his department furnished the Campaign with a list showing when the principal fruits would be on the market.

"Similar application was made regarding vegetables, it being pointed out that this was imperative in view of a similar American list being circulated throughout the country.

"Over 100 meetings were addressed in Vancouver, New Westminster and Vancouver Island, urging the public to wait for and purchase B. C. fruit.

"Ten thousand lists in book and leaflet form similar to the enclosed, giving the dates when B. C. fruits would be on the market, were distributed to housewives in Vancouver. A further ten thousand printed on B. C. laminated material, to hang in city kitchens, will be distributed at the Vancouver Exhibition.

"In co-operation with the Campaign, a wholesale firm in Vancouver has distributed thousands of the enclosed circulars and cards with their accounts and correspondence, urging the purchase of B. C. fruit.

"With the financial support and encouragement of the Campaign, 5,000 copies of the enclosed Cook Book, giving recipes for using B. C. fruits and the dates they will be ready for preserving, have been distributed to city housewives.

"Extensive advertising in the press has been carried out, and many articles by the Campaign have appeared in support of the agricultural industry.

"Taking everything into consideration, the public has been very receptive to the appeal being made, and many individuals and associations have pledged themselves to do their part in assisting the agricultural industry by waiting for their products. All they ask in return is that the producers will give them of their best, keep the market supplied, and present their products in a uniform and attractive manner, so that they can point to them with pride as being superior to the imported varieties.

"That some progress is being made by the Campaign is borne out by the fact that while in 1920 \$26,816,469 worth of agricultural products were imported for consumption in B. C., in 1922 this was reduced to \$17,143,322. Some of this reduction may be due to a depreciation of unit value, but at least some of it is due to the action of the buying public.

"In view of the above work carried out by the Campaign without financial support from the agricultural industry, it hardly seems consistent that they would endeavor to undo their work by encouraging the publication of the reports referred to.

"It is realized that if any progress is to be made by the 'Buy B. C. Products Campaign,' the appeal must be made to the consuming public, with a view to bringing about better co-operation between that body and the producers. The Campaign can exercise little, if any, influence on what the distributors handle, for in many cases the distributors or wholesalers themselves manufacture goods and are handling foreign products in direct competition with their own products. Their buying is largely influenced by the public demand, also by the profits they can make on the goods which they are supplying. This latter argument applies more to fruit and vegetables than to any other commodity, owing to the fact that

the distributors must keep such perishable products moving, and in order to make money must keep a constant supply of them moving. It is during the periods when B. C. fruits are not on the market that the bulk of the foreign products are imported.

"As previously stated, the remedy lies in educating the public to wait for B. C. fruits and vegetables; but the producers must do their part in constantly bringing before the public the fact that their goods will be on the market on a certain date, the condition of their crops, and the approximate prices. The failure of either of these bodies to co-operate means the importation and consumption of foreign goods."

### THE WISH IS FATHER TO THE THOUGHT.

A recent dispatch from Victoria states that definite announcement has been made by the Hon. Dr. Sutherland, Minister of Public Works, regarding the completion of the trans-provincial highway, which will run from Vancouver, through the Interior of British Columbia to the prairies. That the road plan would be carried into effect by the end of 1924 was the announcement made by the Minister during a speech at the opening of the new Sidney-Victoria highway last week.

No announcement of the route to be used is yet made, but the consignees of the press dispatch from Victoria are out with their little hammers and doing their utmost to scotch the adoption of the Hope-Princeton route, for it says:

"Kamloops is keenly interested in the attitude of the Government toward the early construction of a motor road connection with the coast, and our Board of Trade has consistently urged the building of the highway along the route selected by the survey engineers. It is hoped that the new highway will not be a makeshift, as was planned two years ago, when it was stated that a temporary, second-class road connection would be built from Hope to Princeton."

### TOURISTS MAKE UP THE DEFICIENCY.

An analysis of the road traffic of the Valley thus far this year goes to show that by comparison with the same period last year, very few local autos are moving. That does not refer to the immediate district alone, but embraces all the central points of the Valley. Accurate figures of autos using the Kelowna-Westbank ferry are kept from year to year, and thus far the auto traffic of the Valley falls far short of last year.

Food for reflection, however, is further found in the fact that the grand aggregate will far exceed former years, and the tourist traffic is responsible for this. This prompts us to look forward to the linking-up of the Hope-Princeton road, and to anticipate the ultimate installation of a free government ferry. Constant complaints are being heard from tourists regarding the unexpected added cost of transporting cars and passengers from either side of the lake, it being the contention that where the main roads of travel are interrupted by water then it is up to the Government to provide bridges or free ferry service.

### MR. PRATT'S RETIREMENT.

It will be read with general regret of the resignation, through illness, of Mr. A. M. Pratt, general manager of the Associated Growers of British Columbia. Since coming among us and taking over the important position he has held since the inception of the organization, Mr. Pratt has proved himself as a man of sterling work. His complete breakdown in health will be a temporary blow, and his retirement in consequence, will be keenly felt. We earnestly hope that, with the necessary rest, he will return speedily to normal health; but in the meantime, the plan and routine formulated through his untiring energy will go on. We bespeak for Mr. Basil Steuart, of Summerland, who is temporarily taking over the managerial office, a continuance of the support and co-operation of every member and the public generally.

### MANAGER PRATT HAS RESIGNED

(Continued from Page 1)

Our local managers and officers, and directors of our locals must continue to square their shoulders with you and share the problems in the true spirit of co-operation, and carry that conviction by their own actions back to the growers who are members of these locals.

This organization is right; it is absolutely necessary to the Province, and the last condition will be worse than the first unless the growers fully recognize that the true spirit of co-operation calls for and has a right to command stalwart support; a viewing of things in a big way instead of a small way; a kindly big-hearted attitude; a keen readiness to give the movement the benefit of the doubt; and a determined united stand that it shall succeed.

The limitations of the prairie markets with the wheat growers going through their present suspension period must be recognized, but when wheat begins to move, and the small country points resume even in a small way normal purchasing capacity, we will find less restrictions, and you men, the staff, and our representatives will most efficiently use all the resources of the prairie markets as things pick up. Our growers have a right to expect the utmost efforts and they will get it. They must also realize if things are disappointing that the utmost has been done.

It is a burning shame that there is enough outside the ranks of this organization to tend to drag things down to a consignment basis—the peculiar competitive situation of the prairie markets being able to assume a portion of the crop and the unfairness to ourselves that can result in an organization like ours trying to maintain a market should be recognized by our growers and the public at large.

The Province of British Columbia should be back of the Associated as a Province and I believe the public-minded will eventually insist upon this fact being accomplished. You can and will succeed, and with a known sense of appreciation, and a righteous shame of uncalculated criticism, your burdens should be less and your hearts lighter, and you will be happy in the thought that "you played the game" well and to the finish. I only wish I could play it through with you too, but my heart is with you, the staff, our loyal growers, and also those who I still believe heart.

will soon have the understanding (Signed) A. M. PRATT, General Manager.

### PRICES ON FALL APPLES

The Northwestern Fruit Exchange is the first of the apple shipping and sales agencies of the Northwest to name its opening asking prices on the new crop of fall apples, as follows:

Extra Fancy grade, f.o.b. shipping point—Winter Bananas, \$2.75; Dolelous, \$2.75; Winesap, \$2; Spitzenburgs, \$1.85; Arkansas Blacks, \$1.85; Grimes Golden, \$1.75; Stayman Winesaps, \$1.75; Jonathans, \$1.75; Yellow Newtowns, \$1.75; White Winter Pearmaine, \$1.75; Black Twigs, \$1.05 and Reme Beauty, \$1.05.

The usual differential will exist between this grade and Fancy and C grade offerings. Oil wraps are promised on all varieties except Winter Bananas and Dolelous, as the experience of the Exchange on its 1922 crop proved the value of this method in controlling scale in apples and insuring a better delivery on the open market.—Markets Bulletin.

There is nothing more anglic on earth than the smile of the little babe who knows not why it forms its innocent mouth into that pleasing shape.

### SPREADING GOSPEL OF CO-OPERATION

The success of the co-operative movement among farmers has been rightly recognized by the Department of Agriculture as one of the most important developments in American agricultural life. Already there are a million or more farmers who have joined co-operative organizations, and, although this number forms but a small proportion of the farming population, it is significant of the spread of the co-operative movement. The dairy farmers lead the way, as is natural in view of their occupation, having a membership of over 112,000. One milk producers' association alone, the Dairyman's Co-operative Sales Company of Ohio, has a membership of 11,000, and, during the year ending April, 1923, sold 311,700,000 pounds of milk. The tobacco growers have also formed large associations, two of which have in the neighborhood of 90,000 members each, and annually market millions of tons of tobacco.

But perhaps the most interesting thing about the co-operative movement is the extent to which agricultural co-operation is being taught in the colleges. Eleven agricultural colleges and eight State universities are now giving one or more courses in co-operation, and there is every prospect of an increasing number in the near future. These are devoted primarily to the principles of co-operative organization and theory, together with instruction in management and marketing. Accounting, purchasing and credit also come in for their share of attention, so that the student may learn about all branches of co-operative work before taking part in the organization or direction of some group. Fifty-nine other colleges and universities give instruction in co-operation in other courses, devoted, as a rule, to farm economics or management.

In this type of instruction there is much hope for the future. Co-operative organizations can be of great help to the farmers, not only in the disposing of their products, but in improving the methods of cultivation. One of the troubles of the past has been an ignorance on the part of the farmer of the product most likely to be in demand. This has led to much overplanting, and to a form of specialization which in the fat years has been very profitable; but in the lean years, has invited disaster. Experience has amply demonstrated the wastefulness and futility of such a system. Only too often it has led to a demand by the farmers for wildcat legislation by Congress to protect them, whereas, what they really needed was greater co-operation among themselves.

The plans of the newly organized Michigan Fruit Growers' Association indicate the type of service which co-operative organizations seek to render. This association lists seven major purposes: To develop an efficient system of selling and distributing fruit; to collect and disseminate information on crop and market conditions; to investigate the demand for fruit and adjust claims on shipments; to establish uniform grades and standards; to strive to increase consumption by advertising; to assist in establishing warehouses and packing plants, and to foster ways and means for the utilization through by-products of waste and surplus fruit.

It is obvious to the uninitiated that such a program, if carried out, would be very helpful to Michigan fruit growers. As a matter of fact, the co-operation principle, when properly applied, ought to do much to clear up the "mystery" of the gap between the farmer's price and the consumer's price, which has so sorely puzzled not only the redoubtable Magnus Johnson, but many farmers and students of economics everywhere.—New York Times.

### EVAPORATION.

(Experimental Farm Note). By Geo. W. Johnson.

In the dry belt of British Columbia, where the conservation of soil moisture is of the utmost importance to successful farming, a study of evaporation becomes essential. As a beginning in this direction, the Dominion Experimental Station at Summerland installed a tank, made of galvanized iron sunk into the ground, six feet square by two feet deep, from which, by means of a vernier, measurements of evaporation from an open water surface can be made as near as one one-hundredth of an inch.

During the summer of 1922, the average daily evaporation from this open surface was as follows: April (8 days), .13 in.; May, .14; June .22; August, .15; September, .12; October, .06. The total evaporation over this period, i. e., from April 22 to October 31 was 28.54 inches. The Earth mulches may be considered the most efficient conservators of soil moisture, but the advantageous use of these requires a thorough understanding of their nature. Con-

total rainfall over the same period was 5.12 inches.

The relative atmospheric humidity, taken at 9 o'clock each morning, is also interesting. The average figures for the months are as follows: May, 61 per cent.; June, 46 per cent.; July, 51 per cent.; August 62 per cent.; September, 65 per cent.; October, 79 per cent. From these figures it will be noticed that the greatest evaporations and the lowest percentages of relative humidity occur in June and July. It is scarcely necessary to point out the close relationship between these two sets of figures. Atmospheric moisture is the product of evaporation from the surface of the earth. A very dry atmosphere has a strong pull on the available moisture.

Having thus briefly indicated the conditions which prevail during the summer months in the Dry Belt, we must now consider what means are at the disposal of the farmer to enable him to conserve moisture against these conditions.

tinuous clean cultivation; year after year, impoverishes the soil of its organic matter and nitrogen. Bacterial action is greatly reduced; the texture of the soil deteriorates. Unless one can apply heavy dressings of barn-yard manure this practice cannot be continued beyond three or four years.

A second method is the crop mulch system, and this, under our conditions, is by far the safer method. Under favorable conditions alfalfa may be regarded as the crop to grow, but this must be regarded as a cover crop only, not as a hay crop. Under less favorable conditions, where the humus content of the soil is deficient, or where there is a probability of water shortage towards July or August, hairy vetch has many advantages over alfalfa.

The methods of treating these cover crops were dealt with in a recent article, but anyone requiring information should address the Superintendent, Experimental Station, Summerland, British Columbia.

## Growers - - Advertise Do Your Part

You can rescue your industry from disaster and bring prosperity to every home in this district if you and the friends of the Fruit Growers will

### Write Three Friends

living in Western or Eastern Canada or the United Kingdom and get them to buy a box of apples packed by the Associated Growers of British Columbia and in turn ask them to write three of their friends, suggesting that they help with their purchasing power to bring prosperity again to your District.

A little individual but united earnest effort and the luxury of prosperity is ours. Let us all get busy—Copy the following letter—Spend nine cents and

### ASSOCIATED GROWERS OF B.C., LIMITED

Read on

Dear Friend:—

If you would keep the Doctor away—Eat an apple a day and copy this letter, sending it to three of your friends whose largeness of heart will catch the spirit of the effort, and act on the suggestion to buy a box of one of the following:

TRANSCENDANT CRABS, DUCHESS APPLES.

These will be available in the stores of Western Canada August 15th to 31st.

#### MCINTOSH APPLES

Available in the stores of Western Canada after September 20th and in Eastern Canada after October 1st, and in the United Kingdom after October 15th.

#### JONATHAN APPLES.

Available in the stores of Western Canada after October 1st, Eastern Canada after October 10th, and in the United Kingdom after November 1st.

If you do this and do not break this chain of letters, Luck will surely follow you as it most certainly will the Fruit Growers of British Columbia. But YOU may be as unlucky as will be my friend who is growing fruit if you buy any apples that are not packed and shipped by the Associated Growers of B. C.

DO IT NOW—Place your order with your Grocer and send the counter slip to the Associated Growers, Vernon, B. C., giving them the information as to grade and price you paid; this will at once stimulate courage and optimism in an industry where Growers have and are experiencing very difficult times.

Yours sincerely,

## Just Arrived!

### Gar of Flour and Feed Royal Household Products

Ogilvie's products are noted for their superior quality—and the prices are no higher than those charged for the ordinary run of flour and feed.

Try it—you will be convinced.

"The Man Who Saves You \$\$\$\$"

SUMMERLAND WEST SUMMERLAND

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

PRE-EMPTOR'S FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

SUB-PURCHASERS OF CROWN LAND

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area.

GRAZING

Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

DIARY OF A GENUINE CUB

(Crowded out of our last issue.) My O.C. asks me as a special favor to say at the beginning of this diary that the pancakes we had for supper Sunday were so tough that he has not had time to digest their contents yet, and therefore he can only read half my diary this week.

A TENDERFOOT AT SCOUT CAMP

(Continued from last week.) P.M.—They've put us to bed for an hour, but we sure had a big lunch: but why make us go to bed for an hour. However, it will give me time to write my diary. I thought I would never get my pack down to Ellison Mall before the truck left, but I managed to find a place on the thin edge of nothing.

PEACHLAND DOINGS

A Weekly Chronicle Furnished By Our Local Representative.

The Rev. and Mrs. Williams and two children were among recent arrivals in Peachland, coming in from Sunny Alberta to spend a vacation with Mrs. Williams' parents, Mr. and Mrs. Ruffles, and other members of the family.

The big slide on the Peachland-Summerland road, just north of Deep Creek, has caused considerable inconvenience, worry and work since it started to move last week. The lower road was completely blocked and the upper road rendered hazardous. Many autos passed over the upper grade during the days and nights since, but Municipal and road authorities took the precaution to put up notices and have watchmen at either end to inform motorists of the condition of the road, and warn them that if they chanced the road it was at their own personal risk. Many tons of earth have come down the slide, a portion of which made its way into the lake. The old cribbing put in three years ago, at that time thinking to prevent a further slide, has held it pretty well since, except for small breaks from time to time. This time cribbing and all were forced out, and some of it carried as far as the lakeshore. Quite a gang of men were at work last week end and by working late on Saturday evening succeeded in laying timbers down near the lake shore and stringing planks two wide for each wheel, so that vehicles could get over. This was put in for temporary use, while the gang are pushing the work of clearing out the old roadway. That work is under progress as these items go for publication.

Miss Doris Winger was an out of town visitor last week, spending a few days with her sister in Kelowna. Miss Amy Winger has accepted a position in Kelowna and went over last week.

Mr. Martin, of the Trepanier Township, and Mr. A. J. Miller spent Wednesday out of town, returning on the evening boat.

Rev. Chas. Clark accompanied his sister up the lake on Thursday morning on her return trip to Weyburn, Sask., where she has been teaching for some time. She had recently been visiting at the Coast with her brother and his wife, and she and Mr. Clark motored over, enjoying a splendid trip. Mr. Clark will remain in Peachland for a week or more.

After a few days' visit with friends in Peachland, Rev. Wm. J. Scott left on Thursday morning for Kelowna, where he expected to supply at the Baptist church for a Sunday or two.

Mrs. McCall's nephew, Mr. Loyd Werner, who has spent a couple of months in Peachland, left on Thursday morning's boat to return to the prairies for the harvest, expecting after that to go down to Iberia, Mo., where he has arranged to attend the academy for a time.

Mrs. Huston, with Mrs. Ades and her two boys, enjoyed a day's visit in Kelowna on Thursday, returning on the evening boat.

Mr. and Mrs. R. A. F. Moore and baby Anne, of Penticton, motored up and paid a short overnight visit with friends and relatives last week. Their son, Jack, who has been stopping with his uncle, Ben Gummow, for a short time, accompanied them on their return home.

Mr. H. Williams' sister-in-law, Mrs. Thos. Lintner, left on Thursday to return to her home in Vancouver, after a short visit in Peachland with Mr. Williams and the boys.

Mr. A. J. McKenzie had the misfortune last week to lose a valuable mare. She was on tether in their lot and in some way got tangled up in her chain and threw herself in such a position that she was dead when they found her. Being a good general purpose family horse they will have a hard job to replace her.

Mrs. Needham and her daughter spent Friday visiting out of town, returning by boat in the evening.

Mr. and Mrs. Geo. Keyes received quite a surprise on Saturday when their daughter, Mrs. Geo. Phillips, and grand-daughter, Phyllis, of San Francisco, arrived unexpectedly to pay them a visit of several weeks.

Mrs. Mabon and children of the Trepanier Township left on Saturday evening's boat to spend a week or more visiting friends in Princeton.

Mrs. J. B. Robinson and her son, George, motored up from Penticton on Saturday to visit Mr. and Mrs. Bulyea and other friends, and returned home in the evening. This was really a good-bye visit for George as he expects to leave Penticton on the following Monday en route for Medford, Oregon, where he has accepted a position with the California and Oregon Electric Co., a position which will give him more scope to advance along the electrical lines which he wishes to follow. His father and mother expect to follow later when arrangements can be made for the move. Their friends here will be glad to learn that Mr. Robinson is feeling fine these days.

Little Miss Alice McCall went down to Penticton on Saturday evening to enjoy a week's visit at the home of Mr. and Mrs. R. Howson.

Miss J. Dryden was among the arrivals on Saturday evening's boat, to pay a short visit with her parents here. Her father and mother took her back by auto on Sunday.

Mr. Tripp, the auditor, paid Peachland another official visit this week and last, working in the Municipal Office.

Miss Jean McKenzie and her younger brother, of Vancouver, are spending a couple of weeks in Peachland with their cousins. Mr. McKenzie motored down Sunday and met them via K. V. R.

Mrs. Vivian and her sister, Miss

R. Law, were out of town visitors on Monday, spending the day in Kelowna.

After a pleasant visit in Peachland with her aunt and uncle, Mr. and Mrs. Bulyea, Miss Marjory Simpson left on Monday evening's boat to make a short visit in Kaledon, where she had formerly lived with her parents.

Mr. John Stange left on Monday morning's boat to return to his home at Claresholm, Alta., after a short visit in Peachland, a guest at the home of Mr. and Mrs. Allan Wilson. Mr. Stange is a brother-in-law of Mrs. Wilson.

Hugh Dorland enjoyed a day's visit from the two McAllister brothers, from Penticton, who came as far as Peachland to join their father, whom they expected to arrive on the evening boat on his way to the valley from Winnipeg.

Daniel Cousins, who has been over with his brothers following logging operations, arrived home on Tuesday morning by stage.

NARAMATA NEWS

Current Events of Town and District

The annual picnic of the Naramata Sunday School was held on the Lake Front on Saturday afternoon, and was a very enjoyable event. Races and various games were the order of the day, after which tea was served by the ladies of the congregation. Rev. Armitage, with Mrs. Armitage and the family, came over on the o'clock ferry from Summerland.

Mrs. Len Smith is spending a few days in Vancouver.

Mr. and Mrs. Tanner returned from Victoria on Saturday, Mr. Tanner leaving again on Monday morning for a week's visit to his ranch at Fauquier, on the Arrow Lakes.

The Donald McKay building is progressing fast under the supervision of the contractor, George Cook.

In the absence of the Rev. H. A. Solly at the Coast, the Sunday afternoon service was taken by Mr. Cope, of Summerland.

Captain and Mrs. Languedoc, with Mr. and Mrs. Morley, have been spending a week in camp up the lake, returning on Sunday evening.

At the meeting of the Women's Auxiliary held at Mrs. Mason's house on Monday night, it was decided to hold a sale of home cooking on Saturday, September 1st. The suggestion of an increased rental for the church building was also discussed and decided to be impracticable at present.

Mrs. Avison was over from Summerland on Sunday, visiting old friends.

Rev. Armitage was a visitor on Monday evening, staying the night with Mr. and Mrs. J. C. Lyons.

Miss Seavers returned home last week after a long stay in the East.

Mr. Fred Manchester recently bought a car for use on his Penticton trips, and has just completed a garage for same.

LINKING CANADA AND THE STATES

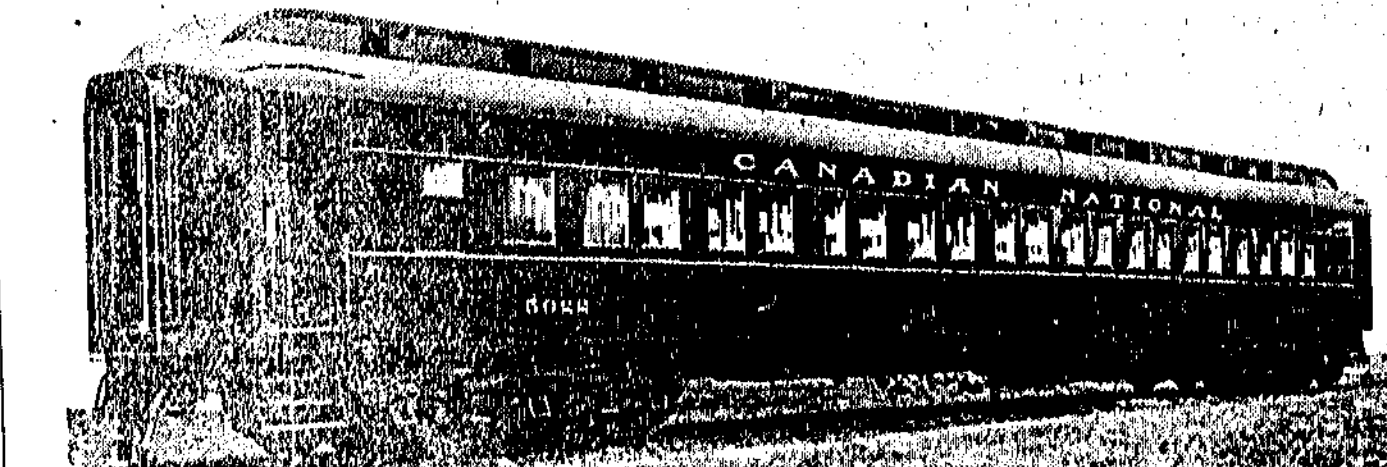

THE automobile has become a national institution for transcontinental touring and in United States five million persons last year are recorded as having whirled from one national park to another. Boston to the Pacific Coast by motor is getting to be as casual as train travel. With a camp outfit tied to the running boards and a few additional auto parts, the motorists are able to dress in their sports clothes, throw care to the wind and search out Nature with the help of a little gasoline. Hotels are only used on bath nights, as the chief fun is to pitch the tent in the open and cook over a camp fire, or, as is the case throughout the West, over especially built camp stoves established in the open places. Rustic camps are also placed in most of the national parks where motorists may rest for a few days or weeks, in cabins rented at a moderate price and within a short walk of a community house and dining hall. The Canadian Pacific Rockies are this year to be opened to all such motor tourists, for the Canadian Government in co-operation with the Canadian Pacific Railway, has completed the Banff-Windermere automobile road which throws open Banff, Lake Louise and Windermere Valley to motorists. Bungalow camps are being planned at convenient and beautiful points to accommodate just such travel in addition to the regular travel which comes by rail. The new road will be formally opened on June 30th and will permit the whole tide of motor traffic up and down the Pacific Coast to travel from San Diego to Portland, thence up the Columbia Highway to Spokane and so on, through the Canadian border, up the Windermere Valley, through the Canadian Pacific Rockies to the famous resorts of Banff and Lake Louise. From Lake Louise the motorist may go to the Valley of Ten Peaks and Moraine Lake. This is entirely new country for the tourist approaching from the West, although the road from the East, Calgary to Lake Louise, through Banff, has been in operation two years. The connecting of this link makes it possible for motorists from the East to tour all the National Parks of the United States and visit those in the Canadian Pacific Rockies as well. The roads from one end of the country to the other are generally excellent. The cost of such motor trips is cheaper than staying at home, say the motor tourists.

NEW ALL-STEEL CARS BEING INSTALLED ON NATIONAL SYSTEM

Typical all steel first-class coach, of which forty-one have been ordered this year by the Canadian National Railway. They are made in Canada. These cars have been assigned to the main run of the System, an all steel equipment being the standard adopted by the Canadian National Railway.

The dainty, economical soap for dainty fabrics. In every home, in every laundering, there are delicate fabrics, dainty garments to be washed. Now they can be beautifully cleaned without injury to material or harm to lovely coloring. Thousands of careful women manage it easily, simply, by using the pure white, curly PRINCESS SOAP FLAKES—made by PALMOLIVE. Crepes, satins, silks—sheer voiles, fine batistes and ginghams—expensive cretonnes; they come from washing with renewed brilliance and beauty. PRINCESS FLAKES are economical in two ways: They give longer life to fabrics; and, being pure, unadulterated soap, they save on soap cost. They give quick, creamy suds that dissolves dirt quickly and thoroughly. Splendid for the washing machine; splendid, in fact, for every laundry and household use. In handy one-pound packages or bags. Order some today. Save by using them. THE PALMOLIVE COMPANY OF CANADA, Limited Montreal, Que. Toronto, Ont. Winnipeg, Man. PALMOLIVE PRINCESS SOAP FLAKES. Made in Canada.

# Local Happenings

Miss Ruby Timmins, of Vernon, is the guest of Miss Fva Shields.

Mr. I. F. Doyle left on Tuesday's boat for a visit to his home town in Saskatchewan.

Mr. and Mrs. C. E. McCutcheon went down to the Coast on Sunday for a short visit.

Lloyd and Cliff Cunningham and John Aitken, of Kelowna, were visitors in town on Friday.

A daughter was born to Mr. and Mrs. A. R. Gayton on Sunday, the 12th, at the Summerland Hospital.

See Finley's ad. on page six for bargains at summer clearance sale.

Mrs. W. J. Tullett went down to Vancouver on Saturday for a short visit.

Mrs. Pineo Young left Thursday for a ten days' visit with her sister, Mrs. Singer, Vancouver.

Miss Gertrude Darke, of the staff of the Dominion Bank, left this morning for a vacation at the Coast.

Geo. W. Johnson, of the Experimental Farm left on Saturday's train to attend the Vancouver Exhibition.

Miss Edith Bristow came in from Victoria on Wednesday, after having attended the summer school there for some weeks.

A. E. Cowan is leaving on Saturday morning for Laverna, Sask., and will probably remain there during the fall harvesting season.

Miss Marion Beavis returned on Sunday morning from Victoria, where she has been taking a course at the summer school for teachers.

Mrs. Bemister, who has been visiting Mrs. G. L. Salter for several weeks, left on Monday to return to her home in Winnipeg.

John Denike went out by Saturday's boat for Saskatchewan, having received notice of his acceptance as teacher in a school near Runnymede.

A party comprising Mr. O. Atkins, Miss Violet Atkins, Miss Winnie Riley, Rev. H. J. Armitage and Mr. T. G. Beavis left today for a motor trip to the Coast.

As Mr. Solly has been unavoidably detained in Vancouver, we understand Mr. G. W. Cope will conduct the service in St. Stephen's church this coming Sunday.

Mr. and Mrs. Geo. Ross and daughter, Helen, left by motor on Saturday to return to their home at Castlegar, B. C., making the trip via Spokane.

Hugh McIntyre has accepted a position as teacher in the Forest Hill school, near Tadmore, Saskatchewan, and left this morning to take up his duties there.

Mr. and Mrs. J. T. Riley and family, of Kelowna, spent Sunday with Mr. and Mrs. O. Atkins here. Miss Winnie Riley remained here and is spending the week with Miss Violet Atkins.

Mr. T. Price, of Seattle, came in on Monday morning to visit his father, Mr. R. Price, at the Experimental Station. Mr. Price was accompanied by his cousin, Mr. T. Williams, also of Seattle.

S. F. Sharp's Sunday School class of the Lakeside Methodist church held a coronat at Chute Creek on Wednesday night, as a farewell gathering in honor of Miss Ella Morrison, who is leaving shortly to enter Jubilee Hospital, Victoria.

Miss Phyllis Freeman was the guest of honor at a pleasant surprise party at the home of Miss Dorothy Melvin, Tuesday evening. About twenty friends were present. Miss Freeman left this morning to assume her position as school teacher at Albermarle, Sask.

On Thursday evening, August 30, the B. C. Art League will present Mrs. J. P. Carpor in a song recital, assisted by Mrs. G. L. Salter. Mrs. Carpor has just returned from Chicago, where she sang her own compositions at a recital given by the Chicago School of Music, in one of the largest theatres of that city. She has a voice of exceptional range and power and has received flattering press notices wherever she has appeared. Prior to her retirement from the concert platform, Mrs. Salter was one of the leading sopranos of Winnipeg and her many friends will be glad of an opportunity of hearing her again. The entire proceeds will go to the Art League and will be applied toward the purchase of the pottery kiln.

Miss Hazel Nelson, of Nelson, is the guest of Mrs. Harvey Walton.

Mrs. Theo. Hermon went out by Saturday's train for the Coast.

Mr. and Mrs. D. C. Denny left on Sunday for a two weeks' holiday at the Coast.

Miss Gertrude Mower, of New Westminster, is the guest of her friend, Miss Elva Pirie.

Mr. H. N. Jacques, of Michel, B. C., is visiting his sister, Mrs. M. N. Scurah.

Mrs. A. Hargreaves went down to the Coast on Saturday for a short visit.

Mrs. T. H. Boothe and daughter, Gwen, of Penticton, are guests this week of Mrs. W. J. Robinson.

See Finley's ad. on page six for bargains at summer clearance sale.

Mr. and Mrs. F. J. Nixon and son, Gordon, left this morning for a visit to Vancouver.

Mr. J. Gillespie, district secretary of the United Typothetae of America, was a visitor in town this week.

After spending the week end with his family here, A. R. Gayton returned to Oliver on Tuesday morning.

George Hamington left on Saturday morning for Runnymede, Sask., having obtained a position as school teacher there.

Miss Margaret McKay and Miss Irene Lovell, of Winnipeg, are guests at the home of Mr. and Mrs. J. L. Whiteford.

The Misses Marie Klingsell, Reeta and Vera Bender and Divessa Cowan spent last week end in camp at Siwash Bay.

The Rovers celebrated their first anniversary by a banquet at the Hotel Summerland, last evening. About twenty-five members were present.

Mrs. J. Morrison, who has been visiting her daughter, Mrs. W. H. Wilberforce, for some weeks, left on Wednesday to return to her home in Winnipeg.

Mr. and Mrs. W. L. McPherson have had as their guest this week, Mr. Hindorss, of Norquay, Sask. Mr. Hindorss came in on Monday, leaving again on Thursday morning.

Miss Muriel Knott, of Victoria, is spending a week or two with her friend, Miss Jessie Moffat here. Miss Knott intends visiting Kelowna, Vernon, and other points in the Okanagan during her stay.

Attention of readers is drawn to the advertisement appearing on page three in this issue, announcing the opening, on August 26th, of the summer school of social science at the Log Cabin.

Miss Thelma McCollough, who has been the guest of her aunt, Mrs. Geo. Graham, left on Friday to return to her home in Winnipeg. Miss McCollough's visit here completed a rather extended trip, taking in the coast cities and Washington.

Mrs. J. W. Harris went up the lake on Saturday morning and, after spending the week end in Vernon, returned by motor on Tuesday, accompanied by her son, Howell, who has his headquarters there, while doing inspection work under government employ. Howell returned to Vernon this morning.

Leaving Kelowna on Monday at 4 a.m., four intrepid Orchard City boys, in two canoes, paddled to Summerland, arriving the same day at 6.30 p.m. Several stops were made on route for fishing at the mouths of creeks, and stripped clear to the tan, the young voyageurs resembled red Indians as they swung along the C.P.R. wharf here. They camped here overnight, proceeding the next morning south. It is their intention to penetrate by water into the States as far as possible before they call it off. The boys are Willie Knowles, Gordon Mollie, Russell Williams, and Frank Funerton.

### Driving Without Fan Belt.

When the fan belt breaks at a time when another cannot be procured, it will be possible to run the engine with safety if the speed of the car is kept above 20 miles an hour. At this speed the movement of the car will usually insure sufficient air circulation to keep the temperature below the danger point.

When a man has a nag for a wife he can't be blamed for letting her work like a horse.

Mrs. W. E. Rines left on Saturday by K. V. R. for Vancouver.

Miss Stephanie Hespeler, of Burnaby, came in on Sunday morning and is visiting at the home of Mr. and Mrs. Robt. Clouston.

Miss May Harrison went out on Sunday's train to the Coast. Miss Harrison will spend her holidays at Victoria and other Island points.

At the first meeting of the recently elected directors of the Summerland Storage Co., W. H. Hayes was appointed president and W. C. Kelley vice-president.

Electric light service has been given, by the municipality, to the camp kitchen at the auto park, Peach Orchard. Lights on the grounds will be installed this coming week.

Dr. J. S. Pirie, came in from New Westminster on Saturday's train, and after spending a day or two with his family here, went on to Kelowna, where he has accepted the call to the pastorate of the Kelowna Baptist church. Dr. Pirie took both services in the Baptist church here on Sunday.

### INDIAN LANDS FOR EXPERIMENTAL FARM

According to a recent announcement from Victoria, the Summerland Experimental Farm is likely to be given a considerable additional portion of the Indian Reserve. An order-in-council has been put through at Victoria, to be followed by one at Ottawa. Both of these confirm the McKenna commission report, as modified by Major Clark and W. E. Ditchburn. This report confirms to the Indians certain reserves, and also sets aside for the Crown certain other lands.

The original report set aside for the Crown (specified for the Summerland Experimental Farm) a portion of the range land of the local Reserve. The strip in question cut in two the bench south of the Farm by a line running east and west. Representations were then made to the effect that this cut off should include the whole of this bench instead of only half of it. It is understood that Messrs. Ditchburn and Clark, after their visit here a couple of seasons ago, agreed with this view.

At all events, the general feeling is that under the new situation the bench will now be in the hands of one government or the other, and will have passed from the control of the Indians. Its development for fruit purposes some time in the future may reasonably be expected.

### AUSTRALIA NOT GOING TO RAISE EMBARGO AGAINST B.C. FRUIT

British Columbia growers will not be able to ship apples to the Australian market, according to word received by Chief Dominion Fruit Inspector R. G. L. Clarke, as follows: "Australian Government finally decided that the embargo on Canadian apples can not be removed this season." The wire was forwarded by Commissioner Geo. E. McIntosh, of the fruit branch.

For the past year since his appointment to his present position, Mr. McIntosh has worked hard to induce the Australian Government to allow British Columbia apples into that country, but without success, the Australians claiming that British Columbia fruit is infested with fire blight. The ban has been on for the last three or four years, but even before that period not a great deal of fruit was exported to that country.

The Australians, in their turn, had asked Canada to remove the restriction against codling moth, but this could not be accepted, as special exception would have had to be made as against the other provinces of Canada.

### HINTS ON CLEANING AUTOMOBILES

"There is a proper time to wash an automobile and the work should be thoroughly done. If mud is allowed to dry on the car it is harder to get off and stains the varnish. Mud should never be permitted to remain on a car any longer that absolutely necessary, by any means not over night. All mud contains alkali, and in some parts of the country is almost clear alkali. Alkali has the same relation to varnish as muriatic or nitric acid has to steel. The antidote is water; isn't it simple, plain everyday water right off the tap. "If one expects to keep a fine car looking fine he must be willing to flush off the mud at night no matter how late it is; the work need not take more than half an hour and the work can be done thoroughly in the morning.

"The chief faults to guard against are the excessive use of soap, using water with too much force, and washing the hood before it is cooled. "In the old days no coachman

# NEW STAMP REGULATIONS

Nearly All Kinds of Receipts Over \$10 Must Bear Stamps.

Under the amendment to the Special War Revenue Act, effective from the 1st of August, letters, including form letters, forwarded by mail, also post cards, acknowledging the payment of \$10 and upwards, are subject to the stamp tax on receipts. The revised regulations are, therefore, as follows:

The following rulings are issued on questions which have been addressed to the department:

Counter sales slips and cash register tickets are not taxable, provided no words implying or stating acknowledgment of the receipt or the payment of money, appear thereon.

Pay rolls—signature of employee thereon being receipt of wages—taxable, in respect of each such signature.

Receipts for payment of legacies are taxable. A receipt for money in a deed or mortgage is taxable.

Receipts for payment of taxes, except those given to, or by, the Dominion government or Provincial government, are taxable.

Individual freight bills and periodical statements of same, acknowledging receipt of payment, are taxable. Customs house brokers' receipts are taxable.

All insurance policies, whether fire, life, marine or casualty, wherein the payment of money is acknowledged, are taxable.

All insurance receipts, acknowledging the payment of money, are taxable.

Receipts drawn out of Canada, but not valid until countersigned in Canada, are taxable.

Voucher cheques and cheques with receipts endorsed thereon, when drawn upon or addressed to a bank, are not taxable as receipts.

Remitter's counterfoil, being part of a taxable express money order, is not taxable as a receipt.

### SPECIAL CLASSES FOR B. C. FRUIT

The Imperial Fruit Show will be held this year at Bellevue Gardens, Manchester, from October 26 to November 3. In addition to the usual list of classes for British fruitgrowers, special inducements are again held out for exhibits from the British Dominions. In the case of Canada, all entries must be sent to the Imperial Exhibition department, fruit branch, Department of Agriculture, Ottawa, marked "Imperial Fruit Show," on or before September 25.

In the overseas section there are sixteen classes covering the following varieties of apples: Wealthy, Snow, McIntosh, Jonathan, Cox's Orange, Pippin, Spitzenburg, Newtown Pippin, Wagner, King, Golden Russet, Spy, Blenheim Orange, Greening, Stark, Baldwin and "any other variety." Each exhibit consists of seven boxes. In this section gold, silver and bronze medals will be given as prizes. The entry fee in each class is \$2.25.

In the British Empire section two classes are open to Canada, viz., ten boxes each of any dessert or cooking variety, the entrance fee being \$4.50. The first prize is a gold medal and \$20 cash; second, silver medal and \$10 in cash; third, bronze medal and \$5 in cash. The fourth and fifth prizes of \$3 and \$2 respectively.

prizes carry certificates and cash. Messrs. T. J. Poupart, Limited, of Covent Garden, will award a special cash prize of \$10 for the best British Columbia exhibit.

would permit a fine carriage to go unwashed no matter how late he came in to the stable at night. You must treat an automobile the same way if you reach the same standard that the old-fashioned coachman reached.

"There are two things that should be remembered. First, that soap, gasoline, or anything like them intended to cut grime, will attack varnish if allowed to stand on the car, because oil is an important part of varnish. Second, hot water takes the lustre from varnish.

### A CURE FOR BURNS.

### MARKETING NOT AN INDIVIDUAL PROBLEM

Aaron Sapiro says marketing is not an individual problem. It is a group problem. You cannot market without a distinct consideration of what all the other producers are doing at the same time. You cannot market without knowing what the market absorption is, or what the market demand is, what the money markets are, and the other elements of trade. Production can be done individually. Marketing can be done solely on a collective basis, and through organized effort. The co-operative structure represents that organized effort. The farmer must have some way in which he can take the crops from individual production through the group problem as financing and marketing. This way is co-operation, with experts handling these technical group problems from a commodity standpoint and not from a local standpoint.

The commodity idea must be handled within practical limits. But the commodity idea is the only thing to bear in mind when you are thinking of successful co-operative associations.

When making an emergency stop, leave the clutch engaged, apply the footbrake and pull the hand brake; but do not "lock the wheels." Keep the wheels rolling; otherwise there is danger that the car might slide or skid.

### Care of Universal Joint.

The universal joint should never be neglected because it is not easy of access. It does a terrific amount of work, and must be lubricated properly to stand the strain and also to transmit power without absorbing a great deal of it through friction. As it begins to wear it develops a peculiar thump, which gets worse very rapidly.

### LEAVE YOUR ORDER WITH A. B. ELLIOTT

### The Fuller White Hair Brush

Is far superior to any Old Style Hair Brush—and when once tried you will never use any other. They are strong, sanitary and very durable. The Bristles are made from genuine wild boar.

### CASH OR CREDIT?

This is the "thorn in the flesh" with all merchandise traders at the present time. With the readjustment period upon us it is necessary for us to decide one way or the other—whether we will do a credit business at large profits or a cash business where our profits will be less and where the man who pays for the goods will get them at the price he should get them at when he pays cash. In other words, the man who pays for his goods should not be asked to pay a higher price on account of the man who buys on credit. We therefore have decided to do a strictly Cash business after the 20th of August. We will pay cash for Eggs and Vegetables, selling our goods on the same terms. Customers belonging to the Egg Association will get their cheque on the 15th of each month, as per usual.

Our main object is to give our customers the best value in the Province, so that the money of the district will be kept in circulation at home, at the same time placing ourselves in a position where we will have access to the very best cash markets. In taking this stand we do not question the honesty or the ability of the purchasing public to pay. We are simply doing the same as the large majority of traders throughout the province—just getting in line with conditions as they are in order to serve the largest number in the best way. Trusting that our customers will appreciate our efforts in this matter and that it will mean increased business for us,  
Yours sincerely,

**CORRESPONDENCE**  
 Letters to the Editor.

To the Editor,  
 Summerland Review.  
 Dear Sir,—The mothers of small children were horrified to read in a recent issue of the vicious dog episode, and it can be safely said that, they would, if consulted, have been unanimous in the demand that this menace to the public safety be immediately removed. They rest in the assurance that the dog was speedily and with eminent sanity put where he could do no further harm.  
 It is understood that the animal openly attacked only one, but being merely a dog, there was no delay to enquire into his mental processes, no consideration for his family, none of the weakness and indecision that in the present day attend us when we are confronted with a public menace no less important than a mad dog.  
 It is alleged that a quartette of very young girls has recently been attempting, evidently with a degree of success, to demoralize the youths of this community.  
 We no longer condemn anything; it is not up to date. With a criminal patience and a tolerance amounting to ineptitude, we watch these curious products of a hectic age on their work of destruction bent, and find much amusement and no little instruction in an enquiry into the mental processes behind their acts, discovering in some cases that there is no mental process other than that associated with a savage instinct.  
 Let us, for example, speculate as to the mental processes of a young woman whose physical condition is such that normally she would desire to be inconspicuous, who stops when well out of sight of her home and hearing the Saturday night centre of attraction, to roll down her stockings in order to exhibit, in addition to her other, questionable charms, a pair of big, fat knees.  
 Why does she do it? If the temperature were responsible she would wear no stockings at all. If the exhibition of her big fat knees in public were encouraged by her family she would have rolled her stockings down before she left home. A female of low intelligence will seldom at an early age do anything that she thinks makes her less attractive to men, therefore, we must suppose that this misguided one thinks those knees attractive. How did she get this impression? Not from a mirror, because a mirror reflects. Some one must have looked at them with what seemed to the owner to be approval. Who? Obviously not the fellow members of her household, for she does the rolling act out of sight of home. Then someone she has met in the town and hopes and expects to again meet in the town.  
 Ah, Sherlock Holmes! Who then? Let us watch and see.  
 Mental processes are interesting but unfortunately our little enquiry takes us beyond the limits of your space and time.  
 When we examine the actions of those specimens in this way do they not look ludicrous? And is not their foolishness reflected in their weak-willed victims?  
 If it were not for the tragedy of it all one could shrug with laughter. But the poor dog pays the penalty and the little boy who is bitten carries the scar to his dying day.  
 Yours for safe highways and byways,  
**LILY FOSBERY.**

**ASSOCIATED SAYS CHANGE JUSTIFIED**

(Continued from Page 1)  
 that it was the wisest course to take. Twenty per cent. efficiency could easily be lost if the staff were forced to work under adverse conditions, and at the utmost, only a saving of fifty to seventy-five dollars per month could be effected, while the efficiency loss of twenty per cent. of the salaries paid would mean from twelve to fifteen thousand dollars yearly.  
 In addition to the above, an option was given the Associated Growers to purchase the property at a very low price any time during the term of lease if it became the interest of the Growers to do so, and in this event the improvements would remain the property of the Associated, making the amount paid as rental a very small item.

**AN ABUNDANT PRAIRIE CROP YET POSSIBLE**

**Weekly Crop Report of Bank of Montreal is Very Encouraging.**  
 With haying largely over, and the harvesting of grains soon to be in full swing, the Bank of Montreal's weekly Crop Report shows that conditions generally throughout the Dominion, while not entirely fulfilling earlier hopes, still continue favorable for an abundant harvest. In Alberta, everything points to the best crop since 1915, but in Saskatchewan and Manitoba considerable damage has been caused by heat, rust and saw fly. In Quebec Province, a heavy hay crop is reported in some districts with a yield below average in others. In Ontario, hay and fall wheat are harvested, the yield being heavy. The average fruit crop expected. Weather conditions continue favorable for all crops in the Maritime Provinces, while in British Columbia hay and grain are both yielding good crops. Details as follow:  
**Prairie Provinces.**  
 Edmonton District.—Weather past week cool and showery, grain filling but ripening slowly, slight frost damage some localities. No damage reported, warm weather needed. Harvesting expected to be general latter part of month. Calgary District.—Weather cool, light frosts, no damage. Conditions remain favorable. Harvesting will be general in one or two weeks. Lethbridge District.—Cool weather, grain filling well; fifty per cent. crop cut, light yield. Wheat cutting well under way. General reports indicate lower aggregate yield than former estimates. There is a shortage of labor. Saskatoon District.—Indications point to good wheat crop. Grain filling well, no material damage reported from rust, saw fly or frost. Cutting not general for a week. Corns grains expected to yield heavily. Regina District.—Prospects generally are for an average wheat crop. Yield will be reduced in Southern Saskatchewan by damage from rust and saw fly. Prospects for coarse grains continue satisfactory. Winnipeg District.—Cool weather is checking rust development and enabling grain to fill. Considerable wheat cutting under way and results tend to confirm expectation of a somewhat below average crop. There will be an average crop coarse grains, which are less affected by rust than wheat.  
**Province of Quebec.**  
 Montreal and the Eastern townships districts.—The yield of hay is heavy, in other districts it is below average. Grain and roots promise good results. Potatoes in satisfactory condition. Apples below average. Pasture is good in Montreal and Eastern townships districts, but rain is needed generally.  
**Province of Ontario.**  
 Crops in some localities are suffering from drought and rain is urgently needed. Hay and fall wheat, practically all harvested, yield heavy.

**Dumb—Just Dumb**

"Love girl; my dear love girl, You're the breath of my life," he cried.  
 "Won't you hold your breath?" She coyly asked.  
 The mutt said he never had tried.

**Our Health Column.**

"Dear, Doctor: I have long office hours and am worried about my health. Are 8 hours sleep enough?"  
 J. J. J.  
 Answer—"I wouldn't call 8 hours a long day."  
 We give our enemies the benefit of the doubt.

**AUTOS IN COLLISION ON LAKE SHORE**

A head-on collision between a local auto and one being driven from the Nicola Valley occurred on the Lakeshore road, about two miles north of Penticton, last evening. Mr. Wm. Johnston, with party consisting of Mrs. Ibbetson and Mrs. Comber, together with two of the latter's children, were proceeding toward Penticton and on making a sharp turn in the road, collided with a car being driven by Mr. R. A. Smith, of Merritt, the other occupant being his daughter, Olive. Fortunately neither cars were going beyond 10 miles an hour, but the suddenness of meeting precluded the possibility of applying the brakes in time. The road is wide at the place where the accident occurred, and Mr. Johnston hugged the bank closely, but it is supposed the driver of the other car lost control in the emergency and turned in instead of out.  
 Both cars are out of commission for some time, that of Mr. Johnston being badly damaged. All of the parties received a severe shaking, and all bear minor cuts and bruises.

**PROVINCIAL POLICE ARE RESPONSIBLE**

(Continued from page 1.)  
 be observed in handling it. Another nuisance which has caused several complaints in the region of "Hilborn Lake." I understand the abolishing of this nuisance involves engineering difficulties that the Council already have under consideration.  
**Miscellaneous.**—The Tourist Camping ground in the Park is as yet in good condition, but as it becomes more commonly used, will require more oversight if its present reputation is to be maintained.  
 Attention is drawn to the fact that Goitre, so common in this part of the Province, can largely be prevented by small amounts of Iodides. The School Board has offered this preventive treatment to the pupils of the Public Schools with the following results: Of 180 pupils who took treatment, 8 per cent. of that number developed Goitre, while 74 per cent. of those with Goitre improved. Of the 126 who did not take treatment, 19 per cent. of the whole number developed Goitre and only 28 per cent. of those with Goitre showed improvement. When it is pointed out that the amount of Iodide given was less than that usually advised, and that some of those pupils who did not take the treatment in school received private treatment, the results appear to be well worth while.  
 Your obedient servant,  
**M. H. O.**

**PULLETS**

I have **FOR SALE** beautiful White Leghorns from pens that are standing ahead of eleven pens in the Agassiz contest in average, with flock record to July 31 of 155 1/2 eggs, and still laying over 60 per cent.  
 These birds carry some of the best blood on the continent, and, properly managed, will make good use of it.  
 Price: Aug., \$1.25; Sept., \$1.50; Later, \$2.00.  
 Mrs. Fosbery,  
 Erinmore Leghorn Farm,  
 West Summerland.

**FEED IS DECLINING EGGS ARE RISING NOW IS THE TIME!**

Vancouver, Wash.—A possible permanent outlet for Clarke county prunes is uncovered in the sale here last week of a carload of small, or cull, prunes to one of the eastern manufacturers of plug tobacco. These will be used instead of southern molasses in flavoring the company's product.  
 The Clarke county prune is noted for its sweetness and it is thought that a permanent market can be developed to use forty or fifty cars of these prunes annually.  
 Efforts will also be made to interest smoking tobacco manufacturers in the same product since prunes are used in the cheaper grades instead of chocolate to produce a uniformly colored product for tinning.  
 Business and life are like bank accounts — you can't take out more than you put in.

**SUMMERLAND PARK CAMPING GROUND.**

No notices will be allowed to be posted in the Park without the consent of the Parks Committee. A notice board is being erected and spaces for business cards 18 inches by 9 inches will be available for rental, \$2.50 for this year.  
 Apply to the secretary, Ned Bantley.

## CONFERENCE IN VANCOUVER ON COAST MARKET

### Growers, Jobbers and Board of Trade in Frank Discussion.

Vancouver. — A long conference was held last week between the Water street interests, the representatives of the growers, and the executive of the B. C. Products Bureau of the board of trade. It was a private meeting where all parties laid their cards on the table. Mr. A. M. Dollar, board of trade representative on the directorate of the Associated Growers, was in the chair, and urged the frankest and fullest discussion of the many points of mutual interest.

Mr. A. T. Howe, president of the Associated Growers, presented the viewpoint of the producers. Mr. W. Clark spoke for the Water street men, while Mr. J. B. Thomson, president of the board of trade, repeated his assurance that the board was ready at all times to do everything possible to further the best and permanent welfare of the fruit industry.

All the questions about marketing and the relation of the prairie market to that of Vancouver and the Coast were gone into, with the interested parties stating their views without reserve.

"It was one of those meetings where we get down to bed rock facts, divorced from any sentiment of an impracticable nature, and the air has been cleared in such a manner that we may confidently look for definite results from the closer understanding established," said Mr. J. B. Thomson.

The outcome of the meeting was the appointment of a standing committee representing the jobbers, producers and the board of trade, to deal with all questions affecting the fruit business that may come up in future.

## JAPANESE ACTIVE IN CANNING FIELD

New Westminster, August 22.—Japanese cannery men have organized another company with a capitalization of \$100,000. This makes the third company of the kind that has been founded within five weeks. The company will seek to supply the American and British Columbia markets, and announce cut rates.

## SUCCESS LIES WITH GROWERS

### C. E. Barnes, Recent O. U. G. Organizer, Urges Loyalty to Co-operation.

In a recently published interview regarding the fruit situation, C. E. Barnes, of Kelowna, the late organizer for the O.U.G., said he felt optimistic. While he did not expect to see the growers receive as large returns for their produce this year as many of them anticipated when the Associated was first organized, nevertheless he believed the fruit industry would come back and be in a prosperous condition within the next two or three years.

Growers, he said, must realize that half the battle rests within their own power. At least half the battle can be won in the orchards, before the fruit has much more than started to grow. The secret is to take care of the trees and thin the fruit so that very little but first-class fruit is grown.

He knows nothing of the circumstances which caused the resignation of General Manager A. M. Pratt, and was sorry to hear of it, as Mr. Pratt had created a very favorable impression on him on the various occasions upon which they had met.

Mr. Barnes did not think the change would necessarily do any harm to the new organization. It would depend upon how the situation was met, but one thing was sure—it is essential, he said, for the officials as well as every grower in the organization to hold fast to the principles of co-operation and pay no heed to rumors which, on occasions such as this, are spread abroad for the sole purpose of causing dissension.

## AMPLE WATER FOR SEASON ASSURED

That there will be an ample supply of water for the remaining portion of the irrigation season seems reasonably certain. Number one dam, the main reservoir at headwaters, held seven or eight feet a few days ago, according to a report made by Mr. Sanderson of Peachland, who is acting for the municipal authorities at headwaters. He reports having opened number three dam early this week; number two was nearly empty. The water from both these dams flows into number one before emptying into the creek.

Nearly an inch of rain has fallen this week, which will add to the supply in storage dams and will maintain the flow for some days longer than otherwise would have been the case.

Premier Oliver is credited with the statement that if the car owners of the province would submit to a tax of two or three cents on gasoline, the provincial government is willing to commence the construction of the trans-provincial highway from Hope to the interior.

## DOWN TO COAST FOR THE MUNICIPALITY

W. C. Kelley returned on Tuesday morning from Vancouver and Victoria. His visit to the Capital was in connection with municipal matters. He took up with the Minister of Public Works the question of the charge made by the province against the municipality for irrigation water for several years back.

If it were a crime to make mistakes, there would be no one to watch the jails.

## TO DRAIN OFF HILBORN LAKE

### Council Makes Decision and Suggests Bearing Half the Cost.

At a special meeting of the municipal council held on Saturday night, it was decided to proceed with plans for the draining of Hilborn Lake, under the local improvement plan. The approximate cost of the work will be ascertained and the list of all the irrigated acreage on the slopes above the lake will be made and an estimate of what proportion of one-half the cost each lot will be required to pay.

The Reeve was careful to avoid any admission of responsibility on the part of the municipality, but suggested that it might bear half the cost. It would be necessary to get the consent of the owners to at least 50 per cent. of the value of the lands involved.

## BENEFIT SHOW FOR FIRE VICTIMS

Through the kindness of Mr. V. M. Lockwood, proprietor of the Rialto Theatre, benefit performances were given on Tuesday and Wednesday evenings for Mr. V. J. Bernard and family, whose home was recently destroyed by fire. The recipient of the benefit is a one-armed veteran of the European war, who served in the Railway Corps, and universal regret was felt at his serious loss, as he is a hardworking man who, in spite of his handicap, built his home almost unaided.

Mr. Lockwood negotiated with the Royal Film Company for a free service of films for this benefit, the program being a special Goldwyn release, "The Glorious Fool," featuring Helen Chadwick, a Harold Lloyd comedy and a scenic. During the intermissions songs were rendered by Ben Newton and Miss Bumfrey, who received generous applause.

Lack of publicity is alone responsible for the somewhat small attendance. The occasion and the program provided certainly merited would necessarily do any harm to the new organization. It would depend upon how the situation was met, but one thing was sure—it is essential, he said, for the officials as well as every grower in the organization to hold fast to the principles of co-operation and pay no heed to rumors which, on occasions such as this, are spread abroad for the sole purpose of causing dissension.

## GOVERNMENT INVESTIGATES "BREAKDOWN"

### Determine that Jonathan Fell Down from Combination of Causes.

(Experimental Farm Note.)

Last year some varieties of apples, especially the Jonathan, did not keep as well in British Columbia as usual, the flesh becoming brown unexpectedly. The term "Jonathan Breakdown" has been applied to this trouble by a number of the fruit growers. As this "breakdown," if of annual occurrence, would result in great loss to the fruit growers, the Dominion Department of Agriculture began an investigation of the trouble early last winter. Injured apples were submitted to specialists to determine if it were a disease which was affecting them, but no disease could be found, hence further investigation has been made along other lines. In order to obtain the views of the fruit growers themselves, as to the cause of this injury to their fruit, 2,425 copies of a questionnaire were sent to as many individual fruit growers in British Columbia. Questions were asked in regard to condition of soil, methods of irrigation, if any, in 1922 and in previous years; varieties affected; and methods of picking and storing fruit with their effect on the "breakdown."

Many answers were received to this questionnaire, and some of the outstanding conclusions reached by a majority of those who replied fully were as follows:

1. The opinion seems to be practically unanimous that the "breakdown" is due to a combination of (a) leaving the fruit too long on the tree in order to obtain the high color required by the selling agencies; (b) followed by storing or shipping under conditions not favorable to its keeping in best condition. To this conclusion—

(Continued on Page 2)

We realize that the amount of fruit consumed in the upper valley is trifling in comparison with the amount produced in the lower valley, but if that quantity could be quadrupled by selling at a price that was alike fair to the producer and the consumer, it would help some.—Princeton Star.

## WINSLOW GOES TO PR. RUPERT

### Fruit Expert Takes Executive Position with Fish Firm.

R. M. Winslow, provincial horticulturist and, until recently, manager and secretary of the B. C. Traffic and Credit Association has accepted an important executive position with one of the big fisheries concerns at Prince Rupert, and has left Vernon for that city.

Mr. Winslow has been interested in the fruit industry of British Columbia since his graduation from the Ontario Agricultural College in 1908. When he was with the government, he also acted as secretary of the B. C. Fruit Growers' Association, and did most effective work in helping to develop the industry at a time when it was becoming a big commercial proposition.

Mr. Winslow's knowledge of the fruit business is most extensive, and he is looked upon by all those in the trade as having a fund of information that is possessed by very few. Not only has he a knowledge of the cultural side of the business, but of the marketing and distributing branches as well.

His leaving the Valley and the fruit business is being genuinely regretted, as it is felt by a large number that his knowledge should be taken advantage of at this particular time.

Mrs. Winslow and the family will join Mr. Winslow at Prince Rupert in a short time.

Work as if you were to live one hundred years, pray as if you were to die tomorrow.

## YAKIMA HOT AFTER PRAIRIE BUSINESS

J. A. Grant, Calgary, Fruit Markets Commissioner for B. C., sends the Okanagan press the following wire:

"Tomatoes slumped to one fifteen per crate to retail trade. Big Y. Yakima, advertising in prairie papers. Hot after pears and soft fruits business."

## IMPROVING ROADS IN SOUTH SECTION

Roads in the southern part of the municipality are now receiving the attention of the repair crew at the direction of the roads committee. The inundation of the road at Hilborn Lake has put people south of that point at great inconvenience and the roads through Peach Valley and down the Zimmerman hill are being improved.

On Tuesday some slides occurred on the latter section near the Johnson property, cutting off all traffic from the south. These have been cleared and Reeve Campbell states that irrigation service will be discontinued there for some days as there has been an excessive amount on the land which has caused washouts, damaging the road.

## BAD FIRE AT WILBERFORCE RESIDENCE

### In Early Hours of Morning Occupants Discover Rear of House in Blaze.

Fire at an early hour on Wednesday morning almost completely destroyed the home of Mr. and Mrs. W. H. Wilberforce, together with much of the contents. Between four and five o'clock, Mrs. Wilberforce was awakened by some unusual sound and called Mr. Wilberforce, who, too, heard a noise at the rear of the house which sounded like breaking glass. Rushing through the living room to the dining room, he found that part of the house all ablaze and it was impossible to enter the dining room.

The kitchen, dining room, back porch and bathroom were badly burned, together with the entire contents, before the fire was extinguished.

Immediately he discovered that the house was on fire, Mr. Wilberforce called A. M. Leslie next door. He phoned in the alarm to the telephone operator, who called many of the phone subscribers. While some were getting the fire hose and connecting it up, others busied themselves salvaging the furniture, etc., from the front of the house. The water pressure was exceedingly poor and was described by one person as being about sufficient to wash a motor-car, but it was improved somewhat later, presumably by the shutting off of other outlets. It was useless, with the pressure available, to attempt to use more than one hose. Fortunately there was no wind, else a large portion of the town would almost certainly have been swept away.

The house and furniture were both insured.

For the present Mr. and Mrs. Wilberforce will live at Hotel Summerland.

The Summerland Lumber Co., Ltd., has assigned to Geo. E. Winter, of Riddell, Stone, Hodges and Winter, chartered accountants at Vancouver. The assignment was made on Tuesday and is said to have been the result of pressure of one of the creditors of the company.

The Review has been informed that both the mill and the box factory will be operated to capacity until the end of the year. There will, of course, be no doubt of the payment of wages, which is a first charge against the output.

News of the difficulties which have overtaken this company, one of Summerland's pioneer and principal industries, will be received with general regret. The company has but recently established a sawmill at Myron, between Princeton and Tulamoon on the K.V.R., and experts declare the site and the timber limits almost ideal. During the past few months the box factory has been moved from its former site at Mineola to the building erected last year by the lumber company near the K.V.R. station, and additional machinery has been installed. This is one of the most up-to-date box mills to be found anywhere and is turning out an excellent class of material. Insufficient capital is said to have been a handicap to the company, resulting in the necessity of borrowing to finance its business. With everything in its favor, from standing timber to a ready market, it is hoped that arrangements can be made to continue the business.

## RETIREMENT COMMENTED ON BY OFFICIAL

### Denials Given to Rumors of Dissension—Several Factors Responsible.

Many and varied have been the rumors relating to the returning of A. M. Pratt to his home city, Redlands, Cal. The Vernon News is running the following story this week on the subject:

From information gathered by The Vernon News during the past week on the circumstances surrounding the resignation of A. M. Pratt, on Aug. 11th, there were evidently several contributing factors.

From close personal friends it has been learned that Mr. Pratt was greatly worried over the task he had in hand. He was working long hours, had many important matters coming continually before him for his opinion and decision, all of which taxed his strength to such an extent that he was unable to sleep.

The same friends point out that Mr. Pratt had referred to the condition of his health some weeks ago and when cautioned to take better care of himself, refused to do so. The natural result was that he broke down completely on the Saturday on which he resigned.

One friend, who was perhaps closer to Mr. Pratt than any other in Vernon, said that he was so upset over the doctor's decision, which said that he would be a mental wreck if he didn't give up his position immediately, that he decided to leave at once for Redlands.

Mr. Pratt, it has been gleaned, was also aware of the conditions surrounding the industry and while his knowledge of the citrus fruit branch of the trade was extensive, he felt that he was handicapped in not knowing more about the deciduous fruit deal, particularly as it is carried on in the box apple sections. This fact, it is said, weighed on his mind and at times he remarked to some friends that it would be a year or more before he would really feel that he had his feet properly planted on the ground. New conditions and new trade connections all gave him considerable concern, it is stated.

Shortly after Mr. Pratt's arrival in Vernon he told a friend about his personal affairs in California and (Continued on Page 6)

## WILL CARRY ON TO CAPACITY

### Summerland Lumber Co. Assigns Owing to Pressure of One Creditor.

The Summerland Lumber Co., Ltd., has assigned to Geo. E. Winter, of Riddell, Stone, Hodges and Winter, chartered accountants at Vancouver. The assignment was made on Tuesday and is said to have been the result of pressure of one of the creditors of the company.

The Review has been informed that both the mill and the box factory will be operated to capacity until the end of the year. There will, of course, be no doubt of the payment of wages, which is a first charge against the output.

News of the difficulties which have overtaken this company, one of Summerland's pioneer and principal industries, will be received with general regret. ## THE "HOOK" ASKS PERTINENT QUESTION

Vancouver.—The Hook, the lively Vancouver weekly edited by J. S. Cowper, which is being sued for \$150,000 damages by Morton Gregory, following its articles on alleged frauds in the promotion of the Gregory Tire and Rubber Company, wants to know why the policy of patronizing B. C. products does not apply to the Vancouver Exhibition which has imported a lady singer from Portland and a chorus leader from Tacoma, while better talent is available.

In the second of a series of articles on "What's wrong with B. C.," the editor condemns the campaign to put more immigrants on the land, on the ground that the cities do not yet provide sufficient market to make farming profitable in B. C. He says that we need industrial development to provide payrolls in the cities; and this can only be achieved by opposing the present policy dictated by the interlocking directorate of the manufacturers, the C.P.R. and the banks to hold back industrial development in B. C.

## YAKIMA IS STORING TRANSCENDENTS

Yakima advices tell of free storing of Transcendent crabapples at the present time, there not being a sufficiently high shipping figure in sight to attract the growers. The fruit is being stored regardless of color, as it is explained that this crabapple will take on plenty of color before they are taken out of storage the first of the coming year.—Seattle Produce News.

## CHILD DROWNED AT PENTICTON

### Falls Unnoticed from Aquatic Club House into Lake.

Genevieve Wright, two-year-old daughter of Mrs. Marshall Wright, Penticton, was drowned last Thursday evening, shortly after 6 o'clock, when by some means unknown, she fell into the water from the lake side of the Aquatic Club building there. The little tot's fall into the water was unnoticed and, it is believed, she had been in the water for from ten to twenty minutes before her mother looked over the edge of the balcony and saw her floating face upwards almost below her. The water at the place she fell in was only two or three feet deep.

The frantic mother raised the alarm and the little girl was quickly brought into the building. Medical help was called, but all the efforts to save the child's life were without avail.

Mr. Wright, the child's father, resides at Saskatoon, and was notified by wire.

## SISTER OF MRS. SUTHERLAND DIES

Mrs. J. E. Kennedy, of Kamloops, sister of Mrs. Hector Sutherland, of Summerland, passed away in that city on Thursday of last week. Advice of her sister's condition, Mrs. Sutherland hastened to Kamloops. Mrs. Kennedy was unconscious when she arrived there and did not know of Mrs. Sutherland's presence, but the latter was glad to be at her bedside at the end.

Born in the old Selkirk colony of Kildonan, Manitoba, 63 years ago, and educated there, Mrs. Kennedy moved at the time of her marriage to Prince Albert. Shortly after the railroad reached Prince Albert, Mr. and Mrs. Kennedy moved to Kamloops, B. C., later coming to Kamloops, where Mr. Kennedy has been for several years in the freight department of the Canadian Pacific Railway. Mrs. Kennedy is survived by her husband, a sister, Mrs. Sutherland, and relatives in Manitoba and at the Coast.

A short funeral service was held early Friday morning, conducted by Rev. R. G. MacBeth, Vancouver, a cousin of the deceased, assisted by Rev. H. R. McGill, after which the remains, accompanied by Mr. Kennedy, were forwarded to Manitoba for interment in the old Kildonan cemetery, beside the remains of her mother.

## ASSOCIATED SENDING OUT BULLETINS

### Central Anxious to Keep Growers Posted on Everything Transpiring.

The executive of the Associated Growers of British Columbia, Ltd., have asked the Review to give publicity to the following bulletin:

In an earnest endeavor to furnish all contract-holders of the Associated Growers with authentic information as to how their business is being handled at Central, the organization has been issuing information regularly to Locals which the executive feels that growers generally are not cognizant of. The executive arrive at this conclusion because so many growers are receiving and giving a certain amount of credence to senseless rumors which would never for one moment be countenanced by the sincere Grower whose unswerving loyalty and earnestness has built up and made possible the attainment of the ideal towards which our eyes have been turned for years.

It was felt that a short synopsis of what is being done, published in the columns of our papers would be the best means of conveying to the Grower the plan that is being followed to disseminate information that Central feels is the real information that the Grower desires.

Daily there is sent out from this office to all Locals:

- (1) Wire bulletins. This contains a copy of every wire received in this office.
- (2) Shipment bulletins, which contain a statement of everything shipped by the organization, whether it be L.C.L. or car-loads.
- (3) Marketing bulletins. Usually sent twice a week. Contain full statement on all varieties of fruit and vegetables moving at the date the summary is issued.

## ARE ENQUIRING ABOUT EXHIBIT

We have received enquiries regarding the Summerland Exhibit for the New Westminster Fair, but up to the present no move, to our knowledge, has been made. It is the intention of the Board of Trade to send an exhibit to New Westminster as usual, the local growers should be informed at once.

## UNITY CLUB GARDEN FETE

### Naramata Organization Has Delightful Time at Robinson Home.

Naramata's thriving Unity Club has one more triumph to record in the occasion of their festive affair of August seventeenth, held at the home of the president, Mrs. J. M. Robinson, where the spacious verandah and lawns lent themselves as a charming setting for this interesting event.

With the co-ordination of club workers and the attention to detail which characterize Unity Club functions, each feature of the evening was so staged and timed as to furnish a happy sequence of interests to the audience. Prior to the formal program, Messrs. Robinson and Iverson in clown costumes provided amusement by their antics on the lawn. In a nook of the south piazza Mrs. Raitt and Miss Annabelle Salting "traded" palms and cards. Long waiting lines of "clients" gave evidence of the reputed skill of these south-sayer. At the end of the north piazza Mrs. Nuttall dispensed ice cream and other delicacies to scores of eager customers. Several raffish were in course of progress, "artistic" raffles from livestock to baskets of homemade candy. Candy and refreshments were served by Girl Guides, seen in their party dresses for a change.

The program which was in charge of Mr. and Mrs. Manneboer, consisted of a happy blending of artful numbers. As an index to the high character of what was to follow, Miss Rayner and Mr. P. H. Rounda led off with a brilliant Hungarian Dance. (Continued on Page 3)

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED  
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.  
Member of British Columbia Selected Weeklies.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, August 23, 1923

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

### TAXING GASOLINE.

There will be no objection made by consumers to the proposal of the provincial government to put a tax of two cents a gallon on gasoline for the purpose of raising money for roads, particularly as the suggestion is accompanied with the promise that the tax on motor cars will be greatly reduced. The tax on gasoline will have the effect of putting a charge on all, whether citizens or foreigners, who use the roads in the vicinity of the place of purchase. The Good Roads League, in convention this week, gave approval to the proposed tax.

### PRICE IS TOO HIGH.

We note with satisfaction that the Good Roads League has taken action with a view to bringing down the price of gasoline, which is maintained, particularly here in the Interior, at a very high figure. When one compares the cost here with the price charged immediately across the line, where the cost of delivery must be greater, the local price looks like robbery, and it is one thing of which visiting motorists are complaining.

Through action of State authorities, consumers are now paying 16 cents in some of the prairie states and, at some points, farther south, the price is down to 10 and 12 cents. Unless the price is brought down, a further charge of two cents to meet the government tax is sure to have the effect of further forcing economy in consumption.

There is some satisfaction in the statement in the last Markets Bulletin from Calgary to the effect that there was not then much American fruit on the market and consumers were ready to buy B. C. apples, peaches and plums.

A man thinks he has a good wife if she thinks he is about the finest piece of male humanity that ever happened.

The man who whines about poor business is taking the surest way to make it so.

Women like the good-looking man—but they settle down with the other kind. That's how some of us come to be settled down.

Suffrage leaders are denouncing the corset. Woman is determined to break all bonds.

## COLD STORAGE COMMISSIONER VISITOR HERE

Dominion Now Prepared to Assist Co-Operative with Storage.

J. A. Ruddick, Dominion cold storage commissioner, is in town today looking into storage needs and the possibility of erecting a cold storage plant here. Mr. Ruddick has come to the Valley at the request of the Associated and, in company with Thos. Bulman, vice-president, is visiting the several Valley centres.

The need of cold storage as well as means for pre-cooling fruit is becoming more and more evident and now that the Dominion Act has been amended to permit government assistance to co-operatives, the Associated is taking the subject of storage plants up with the commissioner. Mr. Ruddick and Mr. Bulman arrived from Kelowna this morning and were in conference with the board of the local during the day.

The Federal Smelting and Mining Co., subsidiary of the American Smelting and Mining Co., is making rapid progress in its development work at the Fairview camp.

## AGAIN SHIPPING TRANSCENDENTS

Growers were advised by telephone this morning that the Associated will accept Transcendents at the owners' risk. This announcement followed a bulletin issued a few days ago to the effect that no more crates of this variety would be accepted because of the dullness of the market.

Mr. Thos. Bulman, who is in town today, states that many growers pick their fruit too green in order to get it on the market early and the conditions of the Transcendents that have been placed in the market is one of the conditions which discourage buyers. Housewives, many of whom are on vacation, do not seem inclined to buy crates yet, but there is a possibility of an increasing demand shortly. In the meantime, Transcendents that should be picked will be accepted and sold at the best possible price.

Winston Christensen, nine months' old son of Mr. and Mrs. H. C. Christensen, of Penticton, died suddenly on Tuesday at the home of Mr. and Mrs. Clark Wilson here. Mr. and Mrs. Christensen, former prairie friends of Mr. and Mrs. Wilson, were visiting the latter. The baby developed a slight fever Tuesday morning and took a convulsion about noon, dying an hour and a half later, in spite of all the doctor could do. The baby was apparently all right when the father went out for a walk and when he returned it was dead.

## OLD COUPLE ENJOY CAMP

Have Interesting Comparison to Make of Camps in Distant Fields.

Among the tourists at the Park last week were Mr. and Mrs. Ed. Fletcher, from far off Donna, Texas. For three years this happy old couple have been touring the United States in their car, going from camp to camp. Commencing three years ago in search of health for Mrs. Fletcher, they have now become so imbued with the joys of the road that they find it hard to stay long in any one place. Mr. Fletcher, who is a swarthy, true-to-Texas type, informs us he hopes to settle down for the coming winter somewhere in the district. Whilst here he ran across old friends of former years, Mr. and Mrs. W. E. Walters. The old couple have a trunk full of unique souvenirs, gathered from place to place, among them being a horned toad from Texas, and a splendid specimen of petrified timber from the petrified forests of Arkansas. They have penetrated right into the Cariboo country recently, and are now enjoying a pleasant time at our lovely camp, of which they speak in glowing terms. Mr. and Mrs. Fletcher have visited several hundreds of camps during the past three years, and among the small free camps, they claim this to be one of the best. They give the palm to San Antonio and El Paso, Texas, as the most up-to-date camps they have yet visited. There the city bands regale them with music every night, and there is always a free picture show and concert for the benefit of the tourists.

## PREPARING BROILERS FOR THE MARKET

Many poultry growers do not consider that special feeding of broilers is necessary. They think that because the chickens are young that they will be tender and consequently they take them from the range and market them as they are. Such methods tend to retard the demand for poultry meats. A consumer who gets a broiler that is hard and stringy is not inclined to order another, but if he gets a broiler that has been properly fed in confinement for from ten days to two weeks, the quality will be such that he will want more. To properly finish either fowls or broilers, they should be crate fed. Nothing but soft feed should be used, and to get the finest quality it is necessary to mix the mash with sour milk, in the proportion of about three pounds of milk to two pounds of grain. A mixture of equal parts of finely ground oats and corn-meal is one of the best feeds, but other grains may be used if lower in price or more easily obtained.

A little salt added to the feed will make it more palatable and the fowl will eat more. Do not over feed the first day or two, as the birds will go off their feed and will lose weight instead of putting it on.

Only by marketing poultry of the highest quality, will an increased demand be created.

George Robertson, Central Experimental Farm, Ottawa.

## GOVERNMENT ON JONATHAN BREAK

(Continued from page 1.)

clusion is added the statement by fruit growers that even when the fruit is left to color highly on the trees, when stored in their own cellars it keeps normally. The largest fruit is believed to be the most affected.

2. Some growers think that the "breakdown" is due to picking in the heat of the day and allowing it to remain sometimes for several days in the orchard with the alternate heating and cooling by day and night, followed by being taken to the warehouse where storage rooms are not very cold and sometimes poorly ventilated.

3. The trouble does not seem to be as prevalent in the non-irrigated as in the irrigated sections. Some growers in the irrigated sections report it worse where there was a shortage of water, while others think that too much irrigation is the cause of it.

The Dominion Department of Agriculture will continue its investigation this summer, especially obtaining information in regard to the bearing of time of picking and subsequent method of storage and shipping on this trouble. Growers, in the meantime, are advised to check the general opinion which prevailed last year by picking some of their fruit earlier and where possible loosing under what condition it is subsequently stored and shipped.

W. T. MACOUN, Dominion Horticulturist.

## HAVE YOUR BUTTER WRAPPERS

Printed at The Review Office.

Jimmy Smith swam across the lake yesterday afternoon from the end of the Government wharf here to the end of the government wharf at Naramata. This is rather an unusual feat. The time required was between two and a half and three hours. Rhodes Elliott and some companions followed him in a rowboat.

## SAYS TOURISTS PASS PENTICTON UP

Under the caption "Time For Action," the Penticton Herald has the following to say:

"It is reported that many visitors are passing on through Penticton to visit the fine camp site which Summerland has provided in Peach Orchard. This is a cool, shady spot with plenty of running water, and the tourists find it exceedingly attractive.

"We do not wish to rob Summerland of any tourist business to which her assets entitle her, but at the same time there is no reason why we should not do our best to improve our own facilities. No pains should be spared to improve the Esplanade as a temporary site, and to have it given regular and frequent attention. If it is not large enough or does not satisfy all the tourists, why not make some arrangement to quarter a proportion of them on the tree-covered property at the corner of Winnipeg and Lakeshore, west of the Incola grounds? This would make a first-class spot, pending the development of the permanent camp site at Power street end."

## RETIREMENT COMMENTED ON

(Continued from Page 1)  
how he was financially interested in several orange groves which were big propositions, and which for various reasons he was reluctant to leave. In one of these, he was associated with a young Canadian from Ontario. It is not breaking any confidences to state now that before leaving Redlands and after he arrived in Vernon, Mr. Pratt was advised that should he wish to return to California there were several positions which were his for the saying so.

In addition to these things, more or less strictly commercial, there was the purely personal side of Mr. Pratt's severing all ties with the town in which he had spent so many years. On his arrival here in May he was advised that he had been elected president of the Redland's Rotary Club, no small honor in itself.

All of these it is believed, were more or less responsible for Mr. Pratt's sudden breakdown which came as a distinct shock to so many of his friends.

It is believed in certain circles that Mr. Pratt was being pressed by his former associates in Redlands to return to take charge of a marketing organization which is at present being got under way.

The rumor suggesting dissension between Mr. Pratt and the executive is emphatically denied by all the members of that committee. There were differences of opinion, as was to be expected, but these were strictly differences of opinion and brought about no hard feelings but rather the opposite, for all declare that Mr. Pratt was a most estimable gentleman.

In speaking of Mr. Pratt, A. T. Howe, president of the Associated Growers on Monday said that he held the late manager in high regard and that he regretted very much the fact that he was obliged to leave.

"He was rather a temperamental man at times," said Mr. Howe, "and those who were not privileged to come in daily contact with him might not appreciate all his qualities, but the work which he did during the initial stages of the Associated Growers will be of lasting value."

Col. B. Scott, Salmon Arm, director on the Associated Growers from that district, in a communication to the Salmon Arm Observer last week, said:

"While in common with others, I deplore the loss of Mr. Pratt, especially at this critical time in our season's operations, I can see no cause for undue anxiety. While we are bound to have trouble in selling some sections of our crop, the situation and outlook on the whole is altogether favorable. The foreign market is distinctly promising. The United States are keen to get a good share of our McIntosh Reds; Norway and Sweden are buying, and the prospects in the United Kingdom, where the domestic fruit crop is much below normal, are very good. Vi-

gorous steps are being taken to find markets in China, South Africa, the Argentine Republic and elsewhere. In Australia alone there is no promise of success, as the embargo on B. C. fruit will be maintained. The prairie markets are presenting, as was anticipated, the usual difficulties. Money is still tight, and much uncertainty exists as to the returns to be realized by the grain farmer, who is one of our best customers.

The deadlocks with U.S. Carriers on the Great Lakes is certain to have an adverse effect on the prairie farmers' returns, and consequently by reflection on ours; but there is absolutely no cause for pessimism, and far less for talk of blue ruin. The men who are making such talk today are the enemies of our business, or pessimists, who are almost as dangerous. The present arrangements by which the brokers are the servants of the jobber and not of the shipper, is radically unsound in principle, and

this will be changed just as soon as a body of competent brokers, devoted to our legitimate interests can be organized. In the meantime, our own representatives are being placed on the prairies, and if it is found that any jobbing houses are not prepared to give us a square deal, we may have to go to the retail trade without them. The jobbers as a whole will do the right thing by us; and being fair-minded men with vision, recognizing that their best interests lie in our success. There are black sheep in every fold, and to meet these, due preparations have been made.

Our prairie representatives will pay special attention to distribution in the smaller and outlying districts and towns.

Our job as growers, is to put out a good honest pack, to determine to make our business a success, to give the blue ruin talker no sympathy, and to be absolutely loyal to our association."

## GROWERS—

HAVE YOU DONE YOUR PART? IF NOT DO IT NOW!

Start your chain of letters by writing three of your friends today. If you have not friends you wish to write to under your signature use a non-de-plume: for B.C., "An advocate of Buy made in B. C. goods," for elsewhere in Canada, "An advocate of Buy made in Canada goods," and for the United Kingdom, "An advocate of Trade within the Empire." This will advertise our fruit, creating an immediate demand at a very small expense to ourselves.

Insert in your letters the varieties of fruit that you grow if you are not growing the varieties mentioned in our suggested letter.

REMEMBER it is only the power of little drops of water working together that make the mighty power of the Niagara River.

YOUR EFFORT, plus the effort of all other Fruit Growers will create equally as strong a power, working in a way that will ensure our SUCCESS. What is wanted is

Team Work  
"It's not the guns or armament  
Or the money they can pay,  
It's the close co-operation  
That makes 'em win the day.  
It's not the individual  
Or the army as a whole,  
But the everlasting teamwork  
Of every bloomin' soul." —Kipling.

## ASSOCIATED GROWERS OF B. C., LIMITED

Write Your Friends a Letter Similar to This.

Dear Friend—  
If you would keep the Doctor away—eat an apple a day, and copy this letter, sending it to three of your friends whose largeness of heart will catch the spirit of the effort and act on the suggestion to buy a box of one or all of the following:

WEALTHY APPLES.  
These will be available in the stores of Western Canada after September 1st, and in the United Kingdom after September 15th.

MCINTOSH APPLES.  
Available in the stores of Western Canada after September 20th, in Eastern Canada after October 1st, and in the United Kingdom after October 15th.

JONATHAN APPLES.  
Available in the stores of Western Canada after October 1st, in Eastern Canada after October 10th, and in the United Kingdom after November 1st.

If you will do this and do not break this chain of letters, Luck will surely follow you as it certainly will the Fruit Growers of British Columbia. But may YOU be as unlucky as will be my friend who is growing fruit, if you buy any apples that are not packed and shipped by the Associated Growers of British Columbia, Limited.

DO IT NOW—Place your order with your Grocer and send the counter slip to the Associated Growers, Vernon, B. C., this will give them information as to the spread in price between producer and consumer, which they are endeavoring to reduce, and the knowledge of your help will stimulate with courage and optimism an industry where growers are experiencing very difficult times.

Yours truly,  
AN ADVOCATE OF BUY MADE IN CANADA GOODS.

## AUCTION SALE

Acting under instructions from two different parties, I will sell, at the home of the late Prof. Broad, Jones Flat (situated between Mr. Logie's and Mr. Basil Stuart's),

Thurs., Aug. 30, 1923, 1.30 sharp

the following:

### MR BROAD'S PORTION.

- Beeman Garden Tractor
- International Truck
- 10-Cylinder Disc.
- One-Horse Cultivator.
- Democrat.
- Potato Digger.
- Grindstone.
- 2 Apple Pruners.
- Numerous Garden Tools.
- Cypress Incubator, 60 egg.
- Gasoline Lamp.
- Kitchen Stove.
- Lumber and Laths.
- 2 Room Shack.
- 100 sacks, good for vegetables.
- Air Tight Heater.
- Coal Oil Heater.
- Small Butter Churn.
- 4 single beds.
- 1 lawn mower.
- 1 large-wheel, hopper grass sower.
- Raffin Grass.
- Assort. Carpenter's Tools.
- Garden and Grass Seeds.
- Pruning Shears.
- Pruning Hook.

- Corn Brisker.
- 2 Kitchen Tables.
- 20 bags sawdust.
- Wire Netting.
- 3 bundles Tar Paper.
- 2 Stable Lamps.
- 1 Electric Heater.
- Quantity Nails.
- Quantity Plant Pots.

### MR. W. MORTON'S PORTION

- 1 McClary's Albert Range, practically new.
- 1 White Enamel Bed, with Spring and Simmon's mattresses.
- 1 Spring and Simmon's Mattress
- 1 Morris Chair, Brown Velvet upholstery.
- 1 Washer and Ball-bearing Wringer.
- 1 Dressing Table.
- 2 Bedroom Rugs.
- 1 White Enamel Sink and Tap.
- 1 small Mahogany Table.
- 2 odd Chairs.
- Various Kitchen Utensils and Sundries.

TERMS OF SALE: Mr. Broad's portion, \$20.00 and under, cash; over that amount, half cash and balance, 3 months lien notes.

Mr. Morton's portion: all cash.

SEE RED FLAG ON DAY OF SALE.

"The Man Who Saves You \$\$\$\$"  
SUMMERLAND WEST SUMMERLAND

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$250 an acre; second-class to \$250 an acre. Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home-sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stampage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers, who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1910, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

ASSOCIATED CROP ESTIMATE

An estimate of the fruit crop, covering Okanagan, Boundary, Similkameen and C.P.R. main line points, has been issued by the Associated Growers of British Columbia, Ltd. Arrow Lakes, Kootenay and Creston are not included in the statement, and an estimate of the production of these districts will be issued later.

A summary of the estimate gives totals of 97 cars of soft fruit, including berries, currants and cherries; 345 cars stone fruits, including apricots, peaches, plums and prunes; 90 cars pears; 202 cars crab apples and 3,448 cars apples; total 4,174 cars.

Italian prunes bulk largest in the stone fruit division, with 148,770 crates, followed by peaches, 118,960; plums, 76,925; apricots, 49,460; total 391,115 crates, or 345 cars.

Pears. Flemish Beauty, 23,890 boxes, lead the pears, the other varieties being Bartlett, 18,095; D'Anjou, 9,410; Clapp's Favorite, 2,450; Duchess, 2,430; Winter Nellis, 2,275; Boussock, 2,035; Clairgeau, 1,670; Conice, 280; Louise Bonne, 190; other varieties, 4,540; total, 67,265 boxes, or 90 cars.

Crab Apples. Transcendent, 102,875; Hyslop, 56,140; other varieties, 2,805; total, 161,820 boxes, or 202 cars.

Summer Apples. Red Astrachan, 3,940; Yellow Transparent, 6,755; Duchess, 54,385; Tetofsky, 2,010; other varieties, 895; total, 67,985 boxes, or 90 cars.

Fall Apples. Gravenstein, 12,570; Wealthy, 274,335; Cox's Orange, 10,106; 785; Jeffery, 13,330; Wismer's Des-Snow, 12,315; McIntosh Red, 572,805; other varieties, 11,005; total 908,250 boxes, or 1,211 cars.

Winter Apples, Standard Varieties. Jonathan, 646,235; King David, 10,260; Grimes Golden, 66,800; Delicious, 90,355; Winter Banana, 38,270; Wagner, 198,125; Northern Spy, 98,790; Rome Beauty, 46,580; Spitzenburg, 47,315; Stayman Winesap, 22,705; Yellow Newtown, 117,385; Winesap, 48,420; total, 1,431,740 boxes, or 1,909 cars.

Winter Apples, Of Varieties. Baldwin, 16,555; Ben Davis, 14,240; Canada Baldwin, 3,400; Greening, 14,055; Gano, 14,895; Golden Russet, 2,705; King, 12,075; Ontario, 15,940; Salome, 11,915; Seeker, 7,805; Stark, 3,870; other varieties, 63,870; total, 174,125 boxes, or 233 cars.

UNITY CLUB GARDEN FETE. (Continued from Page 1) developed as a piano duet. Another instrumental piece which was very well received was a violin solo played by Malcolm Walters. The vocal numbers were as enjoyable as they were varied. Mrs. Loveday and Mrs. McAllister who were heard in Naramata for the first time, gave delightful songs. Mrs. Dunn, in native costume, sang two plaintive Norwegian songs with such effect that one could not miss their import even though unacquainted with the language. Miss Rayner sang Cadman's "I Love You" with a sweetness and sympathy which Naramathans have long since come to appreciate in her songs. All those so fortunate as to have seats in the central porch were delighted with the dramatic readings given by Mrs. Amaron and Mrs. Aikins. The dancing numbers which interspersed the program were given on the lawn under a brilliant spot light, the audience being left in darkness the while. Miss Portia Chambers, of Los Angeles, suitably costumed, gave most charmingly a scarf dance and an interpretation of a wood-nymph's first acquaintance with a rose. Little Miss Frances Chambers in her dance furnished an amusing contrast to her sister's artistic dancing, with her childish portrayal of the shimmy. Miss Alice Walters gave a French dance which was heartily enjoyed. The piece de resistance of the evening was the Poppy Ballet directed by Mr. Manchester. The cast consisted of Mr. Manchester who impersonated the Sun Fairy and the Poppies. In their vari-colored costumes, were taken by the Misses Doris Lawrence, Lila Young, Mary Young, Marguerite Mitchell, Nossie Rushberry, Dorothy Partridge, Lillian Raitt, Marjorie Green and Alice Walters. When the lights were thrown upon the participants of this artistic piece, the Poppies were discovered asleep and as the music progressed they were awakened by the Sun Fairy in a series of well executed dances. The Poppies gradually rousing from their first sleepy attempts at following the Fairy in her joyous greeting of the rising sun; soon become imbued with the Fairy's homages and join in the portrayal of the sheer joy of life when the sun mounts higher in the heavens. Later when they observe the sun going down they reflect a morose influence until they finally hlow about in the breeze, grow drow-

sy, and eventually succumb to sleep once more.

The accompanists of the evening were Mr. Loveday, Mrs. Manchester and Mrs. Walters, and upon their sympathetic support hung that particular "finish" so much appreciated by performers.

Mr. J. M. Robinson, with his characteristic cordiality, enlivened the program as he introduced each performer.

Those Club workers whose efforts were performed behind closed doors removed from spot lights and applause should know that their contributions to the evening's enjoyment were wholly a success. For that matter no one ever heard of one going home hungry from a Unity Club party.

The end of a perfect evening was consummated with the dance held in the dining room. Mrs. Greene, Mrs. Manchester and others provided splendid music and the dancers all registered joy plus.

The Club treasurer, Mrs. Salting, with her assistants, had a busy evening raking in the shekels. The Club funds are enriched by better than seventy-five dollars as a result of this entertainment.

ASSOCIATED SENDS OUT BULLETINS

(Continued from Page 1) mary is sent out—arrivals, conditions, and general attitude of trade.

(4) Price lists. Give prices quoted to the trade and effective immediately on everything that is moving at the date of issue.

To the trade is issued as often as is necessary.

(5) Jobbers' and brokers' bulletin. Giving complete information on all fruit and vegetables for shipment, giving details of quantity available for mixed cars and straight cars with date when ready.

(6) Director's synopsis circular. Every two weeks a complete resume of executive minutes is sent to every director of the Associated Growers.

This contains much material which is not actually embodied in the minutes, but is nevertheless of primary interest to the directors. By means of this circular the director is kept properly informed and posted, and is in a position to answer intelligently the Growers whom he represents at Central.

This as readily applies to your Local manager with the information given to him by means of the bulletins above mentioned.

When you hear what your director or your Local Manager has to say in answer to any question you may ask him, remember that he is not speaking from rumor or hearsay or telling you something to placate you, but instead is possessed of authentic information from Central, and can and is giving you actual facts, not excuses or explanations.

To the press has been issued a good many statements which your executive felt would lead to a better and more helpful understanding on many diversified subjects. We would like to take this opportunity of drawing the Growers' attention to the debt they owe to the major portion of our papers in giving these statements space and publicity.

Short of actually bulletining every grower in the organization the executive feel that they have made a sincere and earnest endeavor to reach all Growers through their Central Director and their Local Managers. They have also offered to attend all meetings that were called and to which they were invited. Those have been far more numerous than the average grower realizes due to the immense size of the territory that the organization embraces.

This statement is issued in the earnest hope that Growers will make use of the information available to them and so refute rumor instead of giving credence to it.

EXECUTIVE, ASSOCIATED GROWERS OF B. C., LTD.

ARE CONSIDERING HIGH SCHOOL FEES

It is not improbable that high school fees will be adopted in Penticton shortly. It is intimated, however, that children of taxpayers will be required to pay but a nominal fee, which will be considerably less than that charged for the children of those who are residents but not taxpayers and a still higher fee will be charged for non-residents.

One suggestion is that the fee to be paid by children of taxpayers be \$15 each for the ten months school year, with \$30 for the child of those parents who are residents but not taxpayers, or for a scholar who comes in to Penticton to reside, with \$50 per year for the scholar who merely drives in to high school from some outside point.

The Penticton Board of Trade is up in arms because the Associated of that city have had an order for shoo-killed at Vancouver whilst men are being laid off at the local sawmill.

SYLLABUS

Summer School of Social Science

AT LOG CABIN, SUMMERLAND, B. C., AUGUST 26th TO SEPTEMBER 2ND, 1923.

MORNING CLASSES, 10 a.m.—Conducted by J. S. Woodworth, Jack Logie and others.

SUBJECTS.—Industrial History, Economics, History and Development of Socialism, Social Welfare and International Politics, etc.

EVENING LECTURES, 8 p.m.—Sun., Aug. 26.—"A Prophecy of Tomorrow." Jack Logie Mon., Aug. 27.—"Problems of the Fruitgrower." G. F. Stirling Tues., Aug. 28.—"The Industrial Situation." J. S. Woodworth, M.P. Wed., Aug. 29.—"The Future of Canadian Drama." Mrs. Carroll Aikins

Thurs., Aug. 30.—"Song Recital." Mrs. H. P. Carper, late of Chicago, assisted by Mrs. G. L. Salter. At Mr. Salter's residence. Admission: \$1.00 (Auspices B. C. Art League.)

Fri., Aug. 31.—"The Music of the Future." Geo. W. Weaver Sun., Sept. 2.—"World Peace" J. S. Woodworth, M.P.

All Classes and Lectures are open to the public free of charge. Visitors from outside points may secure accommodation in the Summer School Tents, by writing the Manager, Jack Logie, West Summerland, B. C.

### Sun-Maid Raisin Growers Reorganize

(From the Oregon Grower).

Reports of the re-organization troubles of the Sun-Maid Raisin Growers have been greatly exaggerated in all parts of the United States. It is true we had a strenuous and hurried campaign both of financing and securing 85 per cent of the acreage under a new contract; but stories of violence or of a severe wrenching of the organization are to be taken at a discount.

In a few words, what happened was this: The Sun-Maid Raisin Growers, by paying an advance averaging 4 1/2 cents per lb. to the growers upon delivery last fall in fulfillment of provisions of the old contract, had to borrow more money than subsequent sales in 1922 would justify. Shortage of cars and market demand were responsible for the miscalculation. In January the growers found themselves with \$3,000 tons of raisins unsold on hand, and a greatly reduced market demand. Propaganda was whispered throughout the East that the raisin growers' financial business was weak, that the organization would go broke and that the trade should buy no raisins "because when the Raisin Company went broke they could get all they wanted for next to nothing." In this emergency the raisin growers called in Ralph P. Merritt, formerly of the War Finance Corporation, and the man who saved the California Raisin Growers by

marketing their surplus crop abroad, and made him managing director with full power to act. Merritt secured temporary extension on the loan and evolved a plan of raising \$2,500,000 by preferred stock sales, and of signing a new contract with the growers, eliminating impossible guarantees and paving the way for bringing the operations of the Association entirely within the provisions of the Federal Co-operative Marketing Act. Secretary of Agriculture, Henry C. Wallace was among the Federal officials approving this act.

It was also necessary to organize a subsidiary corporation under the laws of Delaware, which permit the sale of preferred stock without the manufacturing end of the business. In this way the money was raised, and control of the Association and its subsidiary corporation will be retained by the grower members who alone will, under the new contract, have a vote. The new contract contains the clause making it an application for membership in this Association. Managing Director Merritt has already taken steps to bring about the change of organization as promptly as possible, and a thorough democratization of the Association. Indications are that markets will improve, and the Association once more master of its own finances, with 275,000 acres of vineyards under contract will be the big factor in raisin production and sales.

### B. C. WEEKLY CROP LETTER

Department of Agriculture On Progress Made in Past Week

The total apple tonnage for the Okanagan Horticultural District is reduced by 102,000 packages from the estimated total of 3,233,000 compared with an estimated output of 4,620 cars on July 15th. Salmon Arm tonnage is cut by 15,000. Armstrong to 28,000 and Vernon and Oyamato to 860,000, owing to hail and scab Winfield and Okanagan Centre will be reduced by 10,000 owing to the low vitality of many trees in that district due to winter injury. Summerland on the other hand, reports an increase of 10,000 boxes over the earlier estimate, while at Kelowna the previous estimate of 1,000,000 boxes stands as it was.

The general condition of the apple crop outside of hail and scab injury is above par and all varieties are sizing and coloring well except in certain isolated districts where poor thinning and cultural methods will result in a high percentage of low grade fruit. Fortunately, these districts are few in number and small in total output. Duchess are rolling as heavily as the market requires and should all be picked in the main Okanagan Valley by the latter end of next week. Wealthies will be picked in the southern Okanagan starting the first of the week or about the 21st; and at Vernon and Kelowna. Wealthy harvesting will probably commence on the 22nd or 23rd. The peak of the Wealthy movement should be reached the last of the month. Present indications are, that the McIntosh and Jonathans will be moving by the 15th of September.

Crabs are reduced by 10,500 boxes for the district as a whole or to an estimated car output of 245 cars. The biggest reductions taking place at Okanagan Centre, Vernon, Armstrong and Salmon Arm due to hail and scab.

Pears will be affected but very slightly, the biggest reduction being recorded at Summerland and Naramata, where 1,300 boxes are cut off the estimated total as on July 15th. Bartlett's will move next week from some points.

Plums and prunes remain practically as they were in the previous estimate.

A reduction of ton cars of peaches from the previous estimate is noted; deductions being estimated at Summerland, Naramata and Pentleton. It is now estimated that Summerland will have 22,000 crates, Naramata 15,000 and Pentleton 75,000. The peach crop is not sizing any too well although the first offerings of Yellow Saint John, which are now rolling, are of fair size and quality. Crawford's and Fitzgeralds will roll in about ten days, but more moisture is needed to bring these to perfection. Elbertas are sizing slowly but as they have considerable time yet to go, the quality should be average. Thinning of all fruits has been more consistently practiced this year than ever before and the general condition of the trees and the crop is above average. It is generally to be regretted, however, that the pooling system decided upon by the shipping

houses will not give the good growers as much advantage over those who are growing only poor sized fruit, as would have been the case had the pooling been arranged by sizes. Had such a practice been inaugurated this season, those growers who have gone to considerable expense in the way of time and labor in thinning their fruit, would have been more fairly compensated for their extra expenditure.

### NARAMATA NEWS

Current Events of Town and District

Miss Hilda Graham, niece of Mr. Graham, of the Naramata Supply Store, is spending a few days' holiday here. Miss Graham is a member of the staff of the Prince Rupert "Daily News."

A special meeting of the ratepayers was called by the school trustees for Wednesday evening, to consider possible means of assisting pupils who are desirous of taking the high school course. Mr. Morley presided. After considerable discussion, a motion was put to assist such students to the extent of \$75 per capita, with a total maximum expenditure of \$500. The motion was, however, defeated.

Mrs. J. C. Lyons sustained painful injuries when the Lyons democrat was overturned on Friday at the corner near the Hancock ranch, her wrist being broken, and a rib fractured. Under the care of Dr. Andrew the patient is doing well.

A garden party under the auspices of the Unity Club was held at the J. M. Robinson residence on Friday evening, and attracted a very large number of citizens. A varied program was given to the appreciative audience, and refreshments served later. The receipts amounted to nearly \$90. The program was as follows: piano duet, Miss Rayner and Mr. H. Rounds; song, Mrs. Loveday; solo dance, Portia Chambers; reading, Mrs. Amaron; song, Mrs. Dunn; solo dance, Frances Chambers; song, Mrs. McAllister; reading, Mrs. Aikens; solo dance, Alice Walters; violin solo, Malcolm Walters; song, Miss Rayner; poppy ballet, Mr. F. C. Manchester and Poppy girls.

Mrs. Waite and daughters, of Lindsay, Ont., left on Tuesday for home, after a short stay with Mr. and Mrs. Lyons.

It has been decided to repaint the school house before the coming winter.

Mr. Tanner has been appointed principal of the Port Moody Superior School, and will leave Naramata at once to take up his duties on September 3rd.

Commissioner P. W. Cook, of Buenos Aires, maintains there is a demand in Argentina for Delicious, Jonathan, Winesap; King David, Rome Beauty, Arkansas Black and Northern Spy, all of which could be filled by B. C. growers.

### WOMEN PLAYING AN OLD GAME

Vancouver, August 22.—A number of prominent professional and business men are exchanging grim notes following the departure of two spirited young women who thrived here for several weeks selling subscriptions for an obscure American magazine. They yielded up a touching story of their endeavoring to "work their way through college," despite the fact that both were palpably sophisticated and passe. The young women made a number of visits and raised "loans" on a pathetic hard luck story. Reports from Victoria state they paid a similar visitation to that city.

Great Britain's fruit crop is reported to be far below the average this year.

## Okanagan and Fruit Conservation

The view is that of a flourishing new fruit district in the Okanagan Valley near which Mrs. Smith (inset) has opened her dehydration plant (bottom left).

THE fruit products industry of Mrs. M. B. Smith of Naramata, Okanagan Valley, is a story of Canadian initiative that has assumed large proportions. After extensive research work and experimenting on a small scale, Mrs. Smith is this year opening up a large plant for the dehydration of fruit at Poplar Grove, between Naramata and Pentleton, where seventy fruit products will be prepared instead of eleven as sent out by Mrs. Smith from her ranch on the benches.

The site of the new factory is a point in the very heart of the fruit district and convenient to the railway. A siding of the Kettle Valley Railway will be run into the premises.

The most important factor of the enlarged scope of the work is that the new industry will utilize much soft and perishable fruit that would otherwise go to waste as most of the fruit must be in a tree-ripened condition for dehydration and therefore much too ripe to ship.

Mrs. Smith was visiting on the prairies in the early stages of the war when conservation of food was beginning to be a vital question. She saw dried logan berries for the first time and it led her to dwell on the possibilities of the dehydration of other fruits and vegetables. Later, visiting in the Okanagan Valley, she was much concerned over the large quantity of fruit and vegetables that could not be shipped so, with broad vision and patriotic idon, she began the evaporation of fruit. Mrs. Smith made an extensive study of the work and persisted, despite the fact that men of experience declared that she could not dry fruit, other than apples. Now she is in the unique position of being the first one in Canada who has dried fruit, other than apples, on a commercial basis. Her dried peach is the only totally peeled peach on the market, either in Canada or the United States.

Mrs. Smith, being very much interested in movements to promote the practical usefulness of women in this work. Having no desire to keep a monopoly of the new industry of which she may be said to be the founder, she hopes that all women in fruit growing districts may start small evaporating plants to care for their surplus fruits, not only for their own households but also for export.

By dehydration a large part of the fruit and vegetables which otherwise spoil is saved. The products are so reduced in weight and bulk that one railway car or one ship will carry as much dehydrated fruit as ten of fresh.

Mrs. Smith, in continuing to make a study of conditions, is opening up a new field and demonstrating that women are the natural housekeepers of the race;

## Safe for Washing Dainty Fabrics— Economical for All Laundering

Wear and use your daintiest things—now. Wash them often as need be, without injuring the fine, sheer fabrics or dulling the delicate colorings. Crepes and chiffons, satins and silks, laces, expensive cottons—they come from laundering with new beauty.

Because Palmolive Princess Soap Flakes were perfected to cleanse these daintiest fabrics without harming them.

They are the purest of soap, these curly, snow-white flakes. No harmful ingredients rot threads or fade colors. The stiff, creamy suds dissolve dirt gently.

And because they are all soap, all pure soap, Palmolive Princess Soap Flakes actually last longer than ordinary laundry soaps. Ideal for use in the washing machine. So economical that thousands of housewives use them for all household and general laundering purposes.

Get some today from your dealer. In handy 1-pound packages, or in bulk.

Send it in.

Mr. Alfred Carruthers went out by Tuesday's train to Vancouver.

Rev. H. J. Armitage returned on Tuesday from a short visit to the Coast.

Miss Lottie Coles came in from Nanaimo on Friday and is visiting her friend, Miss Ruth Graham.

Mr. and Mrs. C. E. McCutcheon returned on Saturday from a short visit to Vancouver and Seattle.

Mr. Bird, of the staff of the Bank of Commerce, returned on Sunday from a holiday at northern valley points.

Edgar Hobbs left Monday morning for Neudorf, Sask., fifty miles northeast of Regina, where he will teach school.

Jack Hurrell, who has been with the Bank of Commerce here during the absence of Mr. Bird, returned to Kelowna on Tuesday.

Ned Bentley, of the Summerland Garage, is suffering from a very sore foot this week as the result of stepping on a nail on Sunday.

Mrs. Hobbs has as her guest, her niece, Miss Ethel Bowering, of Summerberry, Sask. Miss Bowering came in last Thursday.

Miss Hazel Nelson, of Nelson, B. C., Mr. and Mrs. Harvey Walton and Mr. Dewey Sanborn spent last week end in camp at Vasseaux Lake.

Mr. and Mrs. A. M. Leslie returned home on Sunday morning after a holiday trip to Edmonton, Prince Rupert, Vancouver and other Coast cities.

Charles Foster, relieving agent, who has been in charge of the C.P.R. station here during Mr. Leslie's vacation left here on Tuesday morning to go to Ducks, B. C.

Mrs. J. P. McIntyre is enjoying a visit from her brother-in-law, D. C. McIntyre, of Brockville, Ont., but latterly of Winnipeg, who is on his way to the Coast on a holiday trip.

M. G. Wilson went up to Vernon last week, intending to leave there on Sunday to go to Edmonton for the purpose of obtaining settlement of some accounts there due the O. U. G.

"Bill" Smith, who has been visiting his parents here, Mr. and Mrs. J. O. Smith, returned on Tuesday to Jasper, B. C., where he is employed as electrician at the National Park.

Mrs. W. Avery and daughter, Miss Dorothy, who have spent some time here at the home of Mrs. Avery's sister, Mrs. H. H. Elsey, left on Wednesday morning to return to their home in Winnipeg.

Rev. W. A. Alexander and Mrs. Alexander returned last Friday morning from Vancouver, where they had been spending their annual vacation. Mildred Wilson, who has been living with them, accompanied them.

Friends of Mrs. and Mrs. C. Roy Elsey will be interested to learn that they are spending the holiday season at Smithers, in the northern interior. Roy will resume his studies at U. B. C. with the beginning of the fall term.

Mr. R. A. Smith and three daughters, of Morrill, B. C., and Mr. H. E. McGill motored down from Peachland on Saturday and spent the day with Mr. Smith's sister, Mrs. H. Bristol. Mr. Smith and youngest daughter, Muriel, started that day on their return trip to Morrill.

Mrs. J. A. Morrison and daughter, Ellen, left on Tuesday for Victoria, by way of Bellingham, Wash. They will visit the latter city for a short time before going to the provincial capital to reside. Miss Morrison intends to take up nursing at the Jubilee Hospital in that city.

Among those returning from Vancouver on Tuesday were Mr. and Mrs. L. G. Harding, Mrs. A. J. Ingraves and Miss Lucy Ingraves, Mrs. W. B. Rines, Mrs. W. J. Tullett, Miss Marian Harwood, J. H. Ritchie, Mr. and Mrs. V. J. Bernard, Mrs. C. H. Taylor and Mr. G. G. Stuart.

A son was born to Major and Mrs. W. Tweedie on Monday the 20th, at the Summerland Hospital.

Col. and Mrs. R. Cartwright have had as their guest their nephew, Mr. Richard Cartwright from Toronto.

Guests of Mrs. G. L. Salter are Mrs. Carper, of Chicago, and Mrs. Ponton and daughter, Miss Norma Ponton, of Vancouver.

Miss Fairy Adams underwent an operation for appendicitis on Monday at the Summerland hospital. She is reported to be getting along nicely.

J. H. Bowering, who, with his two sons, Ewart and Jack, has been spending a holiday at the Coast, returned on Sunday's train.

Mr. W. W. McGill, of Vancouver, has been the guest of Mr. and Mrs. H. H. Elsey. Mr. McGill returned to the Coast on Sunday.

After spending several weeks in Vancouver attending the University summer school classes, Alex. G. Smith returned home on Wednesday.

Robbie Darke, who suffered considerable injuries to jaw and mouth as the result of an accident last week, is making good recovery, though still confined to the hospital.

Mr. S. Phillips, who spent last summer here inspecting fruit, came in from the Coast last week and is again on his old job. This year his territory covers Summerland, Naramata and Penticton.

John MacLeod, a former Summerland boy, has accepted the position of principal of the high school at Keremeos. During last term he was principal of the school at Oyama and his examination results were particularly good.

Some recent improvements have been made at the nuisance grounds in the way of clearing up the roadways on which refuse has been dumped. The municipal authorities are determined to put a stop to all dumping outside the prescribed area.

Masters Jimmy and Joe Atherton, two latter day adventurers of some twelve summers, rowed up from Penticton on Wednesday, clad only in their bathing costumes. It being too late for their return the same day, they were put to roost by friends for the night and shoo'd off the following morning.

There has been a report current that the Occidental Co. was letting out its girl packers and bringing in Orientals. Inquiry this morning proves that there is nothing in this story. Anticipating the quitting of a number of girls to return to school a notice was posted asking for applications, when eight more girls were taken on and a local Japanese also employed.

Mr. H. W. Daniel, who accepted his appointment on the staff of the Summerland Public school, has written the board asking them to accept a substitute, as he had been offered a position at the Coast, which he desired to take. At a special meeting of the board last night, the matter was considered and feeling it would be impossible to obtain a satisfactory teacher for the position at this late date, the board refused to accept the resignation of Mr. Daniel.

The Ok-wa-su group of St. Andrew's C. G. I. T. held a moonlight excursion to Chute Creek on Wednesday night as a farewell to some of the girls who are leaving shortly. The Misses Grace and Zanda Garnett are going to Normal School in Victoria and Misses Edna Knowles, Ella Morrison and Amy Smith are going to Jubilee Hospital to enter the training school for nurses. A number of the Baptist young people were invited, as were the C. G. I. T. group of Naramata and their friends. A very pleasant evening was spent and the girls given a rousing send-off by the group and their friends.

Mr. and Mrs. Fred C. Inhn, of Omak, and their guest, A. E. Nicholson, of Fairbury, Nobraska, and Miss Della Miller, of Wenatchee, spent a day or two in the tourist park in Peach Orchard this week. They left today to return to Omak. Mr. Inhn, who is a fruit grower at Omak, spoke quite optimistically of crop and price prospects. Orders are now being booked for Jonathans at \$1.75 and Dolelous, at \$2.50. These are for Extra Fancy. He said that Fancy and C grades would be 25 and 50 cents, respectively, below those. The growers are paying 20 cents for box costs them approximately 50 cents a box to put the fruit on the cart. In other words, they net \$1.25 for Extra Fancy grade.

E. S. Hopkins, Dominion Farm Husbandryman, with headquarters at Ottawa, was a visitor to the Experimental Farm here last Friday.

J. W. Jones, M.L.A., is in Summerland this week on one of his frequent visits, familiarizing himself with local conditions and getting first hand impressions on the wishes of the public with respect to provincial matters.

Mrs. Courthope and two daughters arrived in Summerland on Friday from England, and are the guests of Mrs. Courthope's cousin, Mrs. F. A. C. Wright. Mr. Courthope is at present employed with the Forestry commission at Victoria.

The Hiltz family, who resided here for a time several years ago, have returned to Summerland. Mr. and Mrs. Hiltz and the five children came all the way from Didsbury, Alta., in a covered wagon and small buggy. They came over the Rockies on the Banff-Windermere highway.

Mr. J. B. Robinson is the guest of Dr. and Mrs. R. C. Lipsett this week. He is greatly improved in health. Mr. and Mrs. Robinson expect to leave the Valley shortly to join their son, George, who has gone to Medford, Oregon, to take up electrical work.

V. J. Bernard spent last week at Vancouver under instruction of the S.C.R. Mr. Bernard is an amputation case and wears a protecting shield or cap over his shoulder and having lost a former one in the fire which destroyed his home, was ordered to the Coast to be re-fitted. Mrs. Bernard accompanied him.

Miss Edna Knowles is leaving on Saturday for Vancouver, where she will visit friends for a few days, and from there will go to Victoria to enter Jubilee Hospital as a probationer. Edna will be greatly missed among the young people here, who all unite in wishing her every success in her new work.

Young men and women should write for our handsome catalogue of Business Courses. Every graduate employed to date. Accommodations doubled for Fall classes. B. C. Commercial and Secretarial School, 709 Georgia street, Vancouver, B. C. The School that gets results. Individual courses. Residential arrangements made on request.

Miss Dorothy Mildred Reynolds Harrington, a former resident of Summerland, daughter of the late Dr. F. G. Harrington, at one time instructor in Okanagan College, was married on Monday in Vancouver to Mr. Lestock Charles Lee, of Peterborough, Ont. The bride is a niece of Mr. Reynolds Harrington of Peachland, and during the residence of the family here, gave instruction in violin music. She was the younger of the two daughters who lived with their parents on College Hill.

WANTED—Supply of cotton rags; must be free from buttons. Ten cents per pound. Review office.

### CORRESPONDENCE

Letters to the Editor.

Editor Review,

Dear sir,—There were three items of business in connection with our roads under discussion at the Council meeting of last Tuesday which, although of interest to many citizens, were not referred to in your account of the meeting. This is my excuse for asking space in your next issue for the following memorandum respecting them.

A petition signed by a large number of interested ratepayers asked that certain roads in the south part of the municipality be repaired. Dr. Andrew, as a delegate from the Good Roads Association, asked improvements and repairs to the roads in both the northern and southern sections; and I drew the attention of the Council to the urgent need of re-

pairs to the road in our south end, and gave at some length a description of their bad condition. These matters were referred to the Roads Committee.

Your truly,  
J A KIRK.

The Review has been endeavoring to give the fullest possible report of Council proceedings. Since the date of the meetings have been changed

to Tuesday afternoon, we are seldom able to attend the meetings and must depend on getting information from the municipal office, the Reeve or the Councillors. With our limited staff, we are exceedingly busy Tuesday afternoons, Wednesday and Thursday, and it is impossible to attend the meetings within that period. We regret any omissions and feel sure that it was not intentional on the part of anyone.

**PEACHLAND DOINGS**

A Weekly Chronicle Furnished By Our Local Representative.

Malcolm Walters and Kenneth Ranks, the Chicago tenderfoot, came up from Naramata to spend a week fishing. At the boat they were met by Joe and Paxton Morsh. After purchasing the necessary grub and fishing tackle and loading it along with haversacks and blankets into the "Ford", the party set out for Morsh's ranch, where the rest of the day was spent in completing preparations for a hike to the headwaters of Powers' Creek. The outfit put forth in the evening, being advised by two men whom they met at different times, to follow opposite banks of Jacques Creek. Joe, as the Swiss guide, followed both sets of directions and some of his own as well, to the everlasting sorrow of his followers. The jack pines and the "deadfalls" becoming too thick for further progress that night, the six sourdoughs lay down on the sidehill where each rested (?) or swatted mosquitoes or slid down hill out of his blankets till about 4 a.m. After an hour's hard going, water was reached and breakfast soon served. Four hours later the Glen Rosa trail was found by Paxton and Joe, who had been scouting ahead, and the going being good from then on the lake was reached early in the afternoon with the sextette about all in. Some rice and tea, however, held the boys on the map and earned Frank and Joe the distinction of being appointed camp cooks. Pax and Ran' (or the Ant, as he was entitled) were fishcleaners and dishwashers, while Mac and Ira cut the water and packed the wood. The fishcleaners were kept busy, as over fifty beautiful rainbow trout, averaging two or three pounds, were caught from the Indian dugout and rafts which were already there. A cabin was used for headquarters, a camp stove greatly simplifying the cooking problem. The cooks served fish after every known fashion—fried, baked "a la reine," boiled with "cream" sauce, as well as bannocks, hot cakes, toast, mush, rice pudding, bonna and many other delectable dishes hitherto unknown to culinary artists. The program was: get up when you like, eat when you are hungry, go to bed when you are sleepy and fish if you care to, but don't catch too many as the cooks can't use them all now. After four full days of camp life the bunch started out with greatly diminished packs. All went well as they hiked along under a full moon till the trail was lost, where it remained till late the next morning. The path found again,

Among the attractions listed to appear shortly at the Empress is a Goldwyn screening of Hall Calne's novel, "The Christian." This picture will need no introduction to the public. The book is in practically every home and those who have read it, as well as those who have not, have flocked to see this picture wherever it has been shown. It will be here on August 24 and 25.

**Little Bo-Peep has lost her sheep;**  
She didn't know how to mind them.  
She's scanning the hills, and the murmuring rills,  
She's wearing out shoes, and she's running up hills;  
But she doesn't know how to find 'em!  
Leave them alone—and what will they do?  
Farther and farther away they'll go.  
If only she'd just place an ad. on this page,  
Those prodigal muttons would end their rampage,  
And Bo-Peep would see them walk back to their cage  
Bringing their tails behind 'em.

the crew made rather slow progress as Frank had hurt one of his legs, while Mac had both of his sunburned. The Morsh ranch was reached in the afternoon, however, even if nobody would try any shortcuts on account of the memories of the "deadfalls" in Jacques Creek. The Naramata boys were too late to catch the boat that night (Saturday), so they remained over till Monday to recuperate and make up fish stories to tell those at home.

Mr. and Mrs. C. Somerville and family started south on Monday on a motor and camping trip, but owing to weather conditions returned after going as far as Penticton, intending to start a little later.

Mr. Alf. Ades arrived in town last week to join his wife and two boys who had preceded him on a visit here with friends and relatives. They left Saturday to return to their home at Macleod, Alta.

Little Miss Willa Elliott enjoyed a few days visit from her cousin, Miss Margaret Burch, from Kelowna, last week. Margaret left on Saturday morning's boat to return to her home.

Mr. Dorland and son, Hugh, accompanied by Mr. J. E. Kerr, left on Wednesday for a motor trip down the Valley. They went equipped with camp outfit, planning for a real outing, and will probably go as far as Seattle.

Miss Steves, of Vancouver, was a guest last week of Mr. and Mrs. Walter Morsh, and returned home leaving on the Saturday evening boat. Being her first trip to the Valley and having been tied down to a stenographer's desk in the city, she appreciated the change greatly.

Mr. A. J. McKenzie with his visiting relatives and members of his own family motored to Oroville on Saturday last for an outing, having a very pleasant trip. They returned the same day.

Col. Edgett, of Vernon, on Thursday evening attended the Great War Veterans' Grand Opening Concert.

Peachland G.W.V.A. held an opening concert and dance in their recently purchased hall on Thursday evening, which proved quite a success.

Mr. and Mrs. H. E. McCall motored to Penticton on Thursday evening to meet and bring back with them their cousin, Mr. R. A. Smith and his daughter, Olive, from Morritt, B. C., who had motored over and were on the last lap of their journey when they had the misfortune to have a crash with a Summerland car driven by Mr. Johnston. The accident occurred about two and a half miles north of Penticton, on one of the sharp points. Both cars rounded the point and did not see or hear each other till it was too late to make a clear pass. Both were holding the middle of the road when they sighted each other and both drivers applied the brakes and turned to the right as soon as possible, but did not succeed in making a pass. They locked horns and the Smith car, being the lighter and the engine killed, swung around sideways on the road and nosed the Johnston car into the bank. Some of the occupants of both cars received some cuts and scratches from the flying pieces of windshield from the Smith car, but none were serious. The cars, however, came in for considerable damage, the Johnston car getting considerably the worst of it. All facts considered, both drivers were equally at fault or blameless, as the case might be considered, and after some little haggling and figuring, they decided to pool the expenses and go fifty-fifty on the deal. Although an expensive one, Mr. Smith enjoyed his visit in the Valley, leaving on his return trip on Sunday morning. He left his daughter Olive with her aunt, Mrs. L. D. McCall, and took back with him his younger daughter, Myriol, who with her sister Enid, has been visiting in Peachland for a few weeks.

After a pleasant visit in Peachland, a guest of Mr. and Mrs. Geo. Jones, Miss Monna Rowe left on Friday morning to return home. Mrs. Jones and daughter, Edith, and Mrs. Linga accompanied her as far as Kelowna,

and after spending the day there, returned home on the evening boat.

Mr. Gilbert Thornber, with Mrs. Thornber and Mrs. S. Sharp and their two boys, motored up from Summerland on Sunday afternoon. Mr. Thornber conducted the regular fortnightly service in the Baptist church.

Plans are about completed by the directors of the Creston Valley Agricultural Association for a three-day fair to open on September 24th. One feature of the occasion will be the first annual school championship athletic meeting in which there will be entered athletes from Lister, Erickson, Canyon, Huscroft, Wyndell, Sirdar, Alice Siding and Creston.

**THE BANKRUPTCY ACT.**

In the estate of THE SUMMERLAND LUMBER COMPANY, LIMITED, Authorized Assignor.

NOTICE is hereby given that THE SUMMERLAND LUMBER COMPANY, LIMITED, of West Summerland, Province of British Columbia, did on the 21st day of August, A.D. 1923, make an Authorized Assignment to the undersigned.

NOTICE is further given that the first meeting of creditors in the above estate will be held at the Rialto Theatre, West Summerland, British Columbia, on Monday, the 27th day of August, 1923, at 3 o'clock in the afternoon.

To entitle you to vote thereat, proof of your claim must be lodged with me or with W. C. Kelley, West Summerland, B. C., before the meeting is held.

PROXIES to be used at the meeting must be lodged with me or with the said W. C. Kelley, prior thereto.

AND FURTHER TAKE NOTICE that if you have any claim against the Debtor for which you are entitled to rank, proof of such claim must be filed with me or with the said W. C. Kelley, within thirty days from the date of this notice, for from and after the expiration of the time fixed by sub-section 8 of Section 37 of the said Act, I shall distribute the proceeds of the Debtor's estate among the parties entitled thereto, having regard only to the claims of which I have then notice.

DATED at West Summerland, B. C., this 21st day of August A. D. 1923.

GEORGE E. WINTER,  
Authorized Assignee.

**Plain as A. B. C.**

Young wife: "You were at one of those stag parties last night, weren't you?"

Young Husband: "Yes. How did you know?"

Young Wife: "You were staggering when you came in."

**Grounds for Divorce.**

"Isn't Braggard an awful egotist?"

"Yes, indeed. I understand his wife is going to sue him for alienation of affections—he loves himself so much."

**Smack! Smack!**

Clarice Justwed: "I worship my husband."

Jealous Thing: "I've heard you offer up burnt offerings to him three times a day."

**SCRATCH PADS**

## ARRANGEMENT OF THE ASSIGNEE IS ENDORSED

### Operations of Summerland Lumber Co. to Continue as Long as Profitable.

Action of the assignee in carrying on operations at the Summerland Lumber Co.'s saw mill at Myren and their box factory here, was approved unanimously at a meeting of the creditors held in the Rialto Theatre on Monday afternoon, and a further resolution unanimously carried requested that the inspectors and assignee arrange to continue operations as long as profitable. The general plan and operating program of the plants are favorable to profitable operation, according to expert advice given the assignee, Mr. Geo. E. Winter, Vancouver.

The assignee reported that definite statements covering liabilities and the condition of the business generally would be issued in a few days. Roughly, the liabilities totalled something more than \$100,000, \$32,500 being preferred claims, and \$34,136 unsecured creditors. The balance is made up of indebtedness to the Dominion Bank, who had forced the assignment by refusing further credits, demanding payment of their loan.

The preliminary statement showed a total indebtedness to the Dominion Bank of \$32,740, and the balance of the Bank's claim is for trade paper at a discount. Mr. Winter placed the wrecking value of the assets at \$59,925.

When asked for further information on this latter subject, he stated that an inventory had been taken of the assets on which replacement values were put and that these totalled \$167,000. This did not include roads and a number of other expenditures necessary to operation.

The creditors confirmed the appointment of Mr. Winter as official trustee and elected Messrs. Dudley, Dawson, M. G. Wilson and Wm. Ritchie as inspectors.

The company has about a million feet of pine logs and also a stock of sawn lumber, and the meeting gave approval to the proposal to have the logs and lumber manufactured into box shock or other marketable form. The company has a paid-up capital of \$57,000.

## OPENING GRAIN STORE

J. J. Blewett is opening a flour and feed warehouse in the Young building immediately north of the Rialto Theatre. Mr. Blewett says that it is his intention to carry a full stock of flour, feed, cereals, hay, etc., and that he will do a strictly cash business.

## WATER SUPPLY IS EXCESSIVE

### Farmers Complain of Damage to Crops Caused by Irrigation Water.

Numerous complaints have been entered at the municipal office of excess of water on a number of properties. Several of the lots are evidently in bad shape through this cause, and some of the fruit growers concerned fear loss of trees.

S. Turner, of Paradise Flats, visited the council chamber on Tuesday afternoon and complained that the water was killing the hay on his property. The trouble, he said, was from an open ditch which was leaking badly. Reeve Campbell promised to visit his ranch some day this week.

J. A. Read wrote complaining of serious damage as the result of too much water allowed to be from leaks in the main canal, and H. S. Lewon had a similar complaint with respect to his lot near the Road property. Reeve Campbell suggested that water be turned off the ditch for a few days, but the foreman pointed out that the Farm and other users farther on still wanted water. The suggestion was made that a ditch be run through both of these properties to drain the surface soil and the matter was left with the foreman to arrange and have the work carried out. A number of other properties were referred to as suffering from too much water and several slides were reported, which were said to be from the same cause.

## SOME GROWERS PICK MELONS TOO GREEN

Unless somebody keeps a closer watch on the quality of melons being shipped, there is grave danger of the industry being seriously injured, according to a statement of A. McLachlan. Mr. McLachlan says that some very fine melons are being shipped by some of our growers, but that others are picking them so immature that they will never be fit to eat. He believes a careful inspection should be made of all shipments, especially through the Co-Operative.

## TO PROMOTE LARGER SALE

### B. C. Products Bureau Concentrating on Marketing More Apples.

"Eat More B. C. Fruit" is the slogan of a campaign being inaugurated by the B. C. Products Bureau of the Vancouver Board of Trade. A meeting of the advisory committee to the Okanagan fruit growers was held at the Board of Trade rooms last week under the chairmanship of Mr. Melville Dollar, to discuss the matter. "Last season," declared Col. W. B. Forster, manager of the bureau, "British Columbia imported 1,500,000 pounds of apples for consumption in a province where the apple growers could not find sale for their crops. In addition, more than 3,000,000 pounds of canned fruits were consumed. It is to endeavor to give this big market to our own people that we are using every effort of which we are capable. If we can succeed in selling more B. C. fruit to B. C. consumers, we will be keeping more of our own money in circulation."

The bureau has produced a neat little label, featuring a big "B. C. Red Apple," which it is intended to ask all business houses to have printed on their letterheads and envelopes.

Provincial police constable McConnell, while driving his car between Westbank Ferry and here on Saturday afternoon was in collision with another car, according to current reports. His car was towed through town by a Pentiction garage trouble car later that afternoon.

## EXPERIMENTAL WATER SUPPLY

### 90,000 Cubic Feet per Day Consumed, and Supply is Excellent.

Ninety thousand cubic feet of water per day has been delivered to the Experimental Farm by the municipality, according to a statement made by Foreman Tomlin at the Council meeting on Tuesday.

Contract between the municipality and the Farm provides for 90,000 cubic feet per day. Foreman Tomlin stated further that Mr. G. W. Johnson, of the Farm, had expressed great satisfaction with the service and that a supply fifty per cent. in excess of the required volume had been maintained.

A metre was installed by the municipality early in the season on the north side of the canyon and there is another on the Farm side. These have been checked up periodically by a government engineer.

## SHOWS PROSPERITY

Canada's trade figures for the twelve months ending June leave no doubt as to the prosperity of the country. Exports for the twelve months increased from \$754,642,891 last year to \$904,543,440 this year—a jump of \$228,900,558. Imports also increased \$132,225,870.

Application has been made by the Co-Operative for an electric power connection to the Stuart building. The cost estimated for giving the connection is \$81.60, and the Council gave approval to the connection under the usual terms, which require a minimum charge of two dollars per month throughout the year.

A slide on the road between the Koop and Purves properties occurred a few days ago. The road has since been repaired by the municipality.

## HILBORN LAKE PROBLEM AGAIN DEBATED UPON

### Lot Owners Object to Sharing Cost of Draining with Municipality.

No material progress has been made in the matter of draining Hilborn Lake and making provision to take care of the water flowing into it from the several slopes above the lake. Apparently the Municipal Council was not surprised when it was stated at Tuesday's meeting that the residents of that district had not held the proposed meeting and that only two of all who were circularized had replied to the proposal that the work be done under the local improvement plan, the municipality undertaking to meet half the cost. M. Steuart and C. P. Evans both wrote objecting to the proposed assessment.

"In other words," said Coun. Kirk, "the people concerned expect the municipality to take care of the excess water they use." Coun. Kirk suggested that the municipality proceed to expropriate a road through the Rose property, when the municipality would be rid of the question.

Reeve Campbell was of the opinion that the water would continue to rise and go over the Rose property at the back of the house.

Coun. Ritchie foresaw difficulties in ascertaining the correct proportion that each lot should pay. There had been more rain this season than usual and, too much water had been used on the land. He could not understand why those on the lower lots did not go after the owners of the property above, from which they were being flooded.

Coun. Kirk, stating that the offer of the Council had been turned down, pointed out that to proceed with the original plan and have the municipality assume the expense would be a dangerous precedent and would put the municipality in for taking care of all seepage and would mean that whenever a lot owner ran water onto the road the municipality would have to take care of it.

Reeve Campbell reminded the Council that the municipality would suffer if the lake was not drained, as the assessment would have to be lowered, and he wondered what the height of the lake would be now had the municipality not put in the pipe now there. He suggested that the lot owners could be sued for damage for flooding the road. To this Coun. Kirk replied that he had no objection to putting in a larger pipe, provided he was assured that those responsible for the flooding of the land would be forced to pay. Several of the councillors cited evidence against land owners using too much irrigation water.

Upon a further suggestion that action for damages be proceeded with, the Reeve said he was not opposed to turning the matter over to the solicitor, but he did not favor putting it on. (Continued on Page 6)

## VETS SHOULD ACT AT ONCE

### Otherwise They Will Lose Opportunity for Special Insurance.

A final warning is now issued to all returned ex-service men from the Dominion command G.W.V.A. with regard to the Returned Soldiers' Insurance Act. All ex-service men should note that this Act expires on the 31st of August, 1928, and should act at once. There is no possibility of an extension as the date of expiration is stipulated in the Statute, only Parliamentary action could alter its effect.

It is suggested that men who cannot take out policies as large as they desire, should at least make application for a small policy, as there is reasonable hope that an amendment to this Act might be secured allowing policy holders to increase the amount of their policies, even after the date of the expiration of the Act.

Local G.W.V.A. officials will be glad to supply any information in their hands regarding the Insurance Act above referred to.

## KELOWNA WANTS ROAD TO CARMI

Kelowna business men have again taken up a campaign for a road from that city to Carmi, via McCulloch, thus connecting up the boundary country with the North Okanagan. Some days ago S. T. Elliott, superintendent of roads, and F. M. Buckland, with the latter's Ford truck, went over the trail from Kelowna to Carmi and returned by way of Osoyoos. This trip was made for the purpose of demonstrating the feasibility of the proposal to convert the trail into a motor road.

## TO CLOSE ROAD.

Reporting it is a practical impossibility to keep open the road running from the Hotel corner past the laundry and up the Hospital hill because of water and frequent slides, Foreman Tomlin asked permission of the Council on Tuesday to close the road until conditions were improved.

## WATCH YOUR JONATHANS

### District Horticultural Office Issues Warning to Valley Growers.

Internal "browning" of the Jonathan is again showing up this year in many places, and growers are advised to take precautionary measures in regard to the handling of this variety. As far as can be ascertained at the present moment the injury is occurring only on trees which are devitalized owing to winter injury, or other causes in the past. In fact, it is most prevalent on trees which have during the past two or three seasons shown drought-spotted fruit. On cutting fruit from such trees the internal browning is showing up in the flesh, close to the centre of the apple, generally between the carpels. The injury at present is only showing very slightly but it is apparent that it will show up more seriously from now on. McIntosh are showing signs of this trouble in many instances.

It would be almost advisable for all growers to go carefully over their trees, particularly Jonathan and McIntosh, before picking, and ascertain which trees are showing injury. IN THE CASE INJURY IS OBSERVED, EVEN SLIGHTLY, THAT TREE SHOULD NOT BE PICKED. IF THE FRUIT IS PICKED FROM SUCH A TREE, SUCH APPLES WILL ONLY INJURE THE GRADE ON ALL FRUIT WITH WHICH THEY BECOME MIXED. Trees upon which injured fruit is found this fall should be carefully marked and given a generous treatment next season. If possible the tree should be heavily pruned and fed liberally with either barn-yard manure or commercial fertilizer containing a large percentage of nitrogen. In all cases orchards containing such trees should be put down to cover crops, preferably vetch, as quickly as possible.

The above remarks with regard to the handling of Jonathans, and any other variety showing this characteristic browning of the tissue, should be closely adhered to by all growers in the Valley this season. The Jonathan variety particularly is at the present moment under suspicion by all buyers. Therefore, it is most important that every care be exercised in the picking in order that no Jonathans of poor grade should be turned into the packing houses.

## HUGE SLIDE DEVASTATES AN ORCHARD

### One of Summerland's Show Places Buried under Tons of Earth.

Canyon Ranch, at one time one of the show orchards of Summerland, today presents a sorry appearance as the result of a huge landslide which occurred there in the early afternoon of Friday of last week. Several years ago a large volume of the cliff side fell on to the bottom land and destroyed a number of trees, but the damage, though great, was nothing as compared with the destruction of last Friday's slide.

For several years, at irregular intervals, there has been quite a spring of water flowing from the face of the cliff on to the orchard land below and it was this which caused the first slide. This summer, it is stated, the volume of the flow has been much heavier and quite a portion of the bank has been saturated with water. This increased flow of water, laden with silt, had spread over quite an area making a broad slimy tract among the trees. Complaint had been entered with the district water engineer and an appointment had been made by him to visit the ranch with J. R. Brown, who had recently sold the property to Major Daniel. Had it not been that they were a few minutes late in reaching the ranch, they would have been on the spot when the thousands of tons of earth gave way, and striking the slippery surface below, shot for 100 yards or more across the level bottom land, ripping trees out by the roots and completely destroying a large portion of the older part of the orchard, which had been planted to Northern Spy trees.

The rushing earth went right up to the front of the house and beyond, the house being 100 yards or more from the face of the cliff where the earth broke away. It is stated that four or five hundred boxes of apples were destroyed and fifty or more trees rooted up and buried. Some bee-hives were also buried under many feet of earth.

Major Daniel, the owner of the ranch, is in Montreal, and Mrs. Daniel is visiting on the prairies. Mrs. Daniel's sister Miss Cotter, has been in charge of the home during their absence. She has vacated the house and moved the entire contents to one of the buildings on the Experimental Farm, and Mr. Conates, who is managing the orchard, has, with his wife and family, moved into the Thornthwaits cottage. Mr. Minett, in charge of the livestock, was working with some bees right under the cliff when the slide came, and Miss Cotter was also close by, but both ran to places of safety as the earth broke from above and a little to one side.

There is still a heavy flow of water rushing down the face of the cliff and it is believed that there will be much more earth yet to fall.

## RETURN TO LOCAL PARK

### Suggestions for Improvement of Tourist Camp in Park.

Mr. and Mrs. J. Gillespie, of Okland, Cal., and the Misses Brand, of Vancouver, were recent visitors to Summerland again on their return from the northern end of the Valley. Mr. Gillespie is connected with the printing industry and spent some time in the Review office.

His plans were to continue the journey some farther before stopping as he was in a hurry to make Spokane, but so attractive was the local tourist camp that Mrs. Gillespie persuaded him to remain over.

Asked if he had any suggestions to make toward improving our new tourist park, Mr. Gillespie spoke very highly of the location and the shaded, grassy grounds and also commented on the excellent quality of the water. He suggested that the neighbors be requested to keep their cows and horses out of the park and also indicated that simply constructed tables with fixed benches would be appreciated by motorists.

## COUNCIL INSPECTS ZIMMERMAN HILL

Councillor Kirk, at Tuesday's meeting of the Municipal Council, again introduced the subject of providing satisfactory roads for the southern part of the municipality, when he pressed for improvements to the Zimmerman hill. He had prepared a sketch showing how the turn at the foot of the hill would be improved and after some discussion, it was agreed that the Council meet at that point this afternoon.

## OLD COUNTRY CROP FAILURE

### Reports Indicate Demand Is Caused for Canadian Apples and Pears.

The English apple crop promises to be a light one this year. What promised to be a fairly good yield was reported on August 1 to have suffered severely from drought conditions.

A report received by the Fruit Commissioner at Ottawa says that the crop is very patchy, and not more than half the average. Early Victoria, Lord Grosvenor, Stirling Castle and Lane's Prince Albert appear to be the best of the culinary, and Worcester, Pearmain, Cox's Orange and Allington of the dessert varieties; but all varieties vary greatly in different districts.

Pears are practically a failure, and plums are generally very poor. Such early blossoming varieties as Prince of Wales, Goliath and Monarch are reported to be bearing fair crops. These reports indicate a satisfactory season for the export of Canadian apples and pears to Great Britain.

## ARE FIGHTING FOR FRASER ROUTE

For the purpose of pressing for the construction of the trans-provincial highway through the Fraser canyon, the Kamloops Board of Trade has appointed a committee which is soliciting and receiving the support of other centres, including Vernon, Salmon Arm, Merritt and Ashcroft. Vigorous effort is being made to have the question decided in favor of the Fraser route.

## ARE NEEDING MODERN LIGHT

### Prairie Valley Residents Ask Council to Extend Electric Light to Them.

Prairie Valley residents, represented by Messrs. C. Napier Higgin, E. V. Agur and Philip G. Dodwell, who waited on the Council on Tuesday, are urging for an extension of the electric light service to the upper end of Prairie Valley. According to the committee, there are thirty to thirty-five householders who will take the service. The municipal electrician, T. P. Thornbor, puts an estimate of \$5,875 on the proposed extension.

Some time ago the municipal authorities put a maximum on capital expenditure for extension of sixty dollars for each service. This means that the municipality would be prepared to spend some \$1,800 to \$2,100 on this extension. The delegates expressed confidence that this would be a profitable one.

After discussing this and other phases of the question, the Council agreed to get other prices on the cost of extension.

Arrangements have been made for the Reeve and Council to meet S. T. Elliott, district road superintendent, at the foot of the Zimmerman gulch on Thursday, when it is hoped an arrangement will be made to permanently provide for the water which flows from the gulch during irrigation season. It is probable that the provincial authorities will catch the water a short distance up the gulch, allow it to deposit its silt and run it under the road through a large culvert, and from there it is proposed that the municipality take it down a ditch to the lakeshore.

Multitudes are being killed at mid-day by eating too much candy, sugar, meat and other concentrated foods, according to prominent U. S. physicians.

## COUNCILLORS PUZZLED OVER WATER SUPPLY

### Cost of Pumping It to Paradise Flat During Winter to be Investigated.

How to provide the residents of Paradise Flat with domestic water during the coming winter is a question that is bothering the Municipal Council. During the summer their tanks are supplied from the irrigation canal that circuits the upper end of the properties. For a number of years the pipes have been filled during the winter months by a small pumping plant, which lifts water from the domestic main in Peach Valley to the pipes on the flat above. This outfit, which was repaired for last winter's service, is reported as being worn out.

An expense in connection with the service, which has worried different Councils, is that of paying a man for two or three days a week tending the pump. When the subject was under discussion at the meeting of the Council on Tuesday afternoon, Reeve Campbell expressed the regret that citizens along the Peach Valley road had not taken the electric light service, as, if they had, it would have been practicable to extend the line that much farther to permit installing an electric pumping plant that would have been nearly automatic and would have saved a big part of the wage bill.

After discussing the problem for some time, Coun. Kirk asked that the matter be laid on the table until further information as to costs was obtainable.

Gravelling is being done on the road south of Seacom, which is badly in need of repair.

Miss Edna Knowles was the guest of honor at a corn-roast given by the staff of Walters, Ltd., on Wednesday of last week. Arrangements had been made to hold the picnic across the lake, but owing to doubtful weather, the party, numbering about forty, gathered in the park at Peach Orchard. A jolly time was spent and during the evening Miss Knowles was presented with a pearl necklace from the staff, which she acknowledged in a pleasantly worded little speech. After supper an informal dance was enjoyed in Ellison Hall, and the good wishes of all present tendered to their guest on her departure for Victoria to enter training in the Jubilee hospital there. Edna left for the capital city on Saturday's train.

## WINNIPEG M.P. IS SPEAKING

### Lectures at Log Cabin Excellent but Sparsely Attended.

Beginning on Sunday evening of last week, lectures on various phases of Socialism have been given at the Log Cabin morning and evening, varied last night with a very interesting and excellent address by Mrs. Carroll Alkin on "The Future of Canadian Drama."

There are several from outside points attending the school, but the number is disappointing. J. S. Woodworth, M.P., of Winnipeg, and Jack Logie are the principal speakers. Mr. Woodworth is dealing chiefly with the subject of economics. On Sunday evening Mr. Logie's subject was "The Phrophecy of Tomorrow," in which he outlined things that must be dealt with by the people as a whole in order that they may adjust themselves to the predicted new conditions. On Monday evening Mr. Woodworth dealt with the financial and labor situation, and gave very interesting talk on Canadian Banking. Mr. Woodworth was a member of the committee of the House of Commons dealing with the review of the Bank Act. Tuesday night he spoke on "The Industrial Situation."

The song recital announced for tonight at the Satter residence has been called off and Mr. Woodworth will again speak on "Modern Education." The program as already advertised will be carried through during the rest of the week.

## The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by  
THE REVIEW PUBLISHING COMPANY, LIMITED  
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.  
Member of British Columbia Selected Weeklies.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure coverage for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, August 30, 1923

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES  
BEING GREATER THAN HE WHO GIVES IT

### IMPROVEMENTS NECESSARY.

The closing of the back road between town and hospital hill will immediately necessitate some much needed improvements on the front road. In the past, it has been the practice for up-going traffic to use one road and the down traffic the other, and a sign at the upper corner has thus been directing traffic. For the past year or two the back road has been so unsatisfactory that traffic has been more and more using the telephone hill. This practice has been the occasion of much reversing and waiting, which could be easily avoided at very small expense, as the nature of the hillside makes it easy to widen the road.

### A NEW APPLE MARKET.

Hull, England, is rapidly growing in importance as a fruit importing centre. Its harbor has today fourteen miles of quays, and in and around its docks there are about three hundred miles of railway lines. Last year the City of Hull had its first direct shipment of apples from the Pacific coast, when 30,000 cases were shipped to Hull. Prices realized compared favorably with the prices obtained for consignments to Glasgow, Liverpool and London. It is stated that they have the facilities in Hull for dealing with a very much larger fruit trade.

### EXTENDING CO-OPERATION.

British Columbia fruit growers will await with interest the announcement of the consumation of plans for the formation of the Northwest Apple Growers' Exchange along lines outlined by Aaron Sapiro recently at Portland, Oregon.

These plans provide for the embracing of all co-operative agencies in one central marketing unit. At a recent gathering of representatives of growers from British Columbia, Oregon and Idaho, details of the proposed contract were considered and those present were almost a unit for the contract as presented by Mr. Sapiro.

### THE JONATHANS.

There is no doubt that growers of perfectly sound Jonathans lost heavily last season through the inclusion with theirs of apples grown under such conditions as to cause their early breakdown.

Judging from the article elsewhere in these columns, by W. T. Hunter, there will be further trouble with apples of this variety grown under certain unfavorable conditions. His request that these apples be not picked may be respected by some, but there will be others who will ignore it. In justice to those who are producing sound fruit a rigid inspection that will eliminate the apples that are not likely to stand up should be maintained. So far as can be learned no evidence of break-down have yet been discovered here.

## From Our Exchanges

### WHAT ARE THE FACTS?

Is advertising as potent a force as its advocates claim? Is the lack of consistent and carefully executed advertising a weakness in retail trade? Let the following answer:

According to Heyman Rosenfeld, advertising manager for Sears, Roebuck & Company, the big Chicago mail order house, this firm has one bureau employing several persons whose duty is to read every week the country newspapers from all over the United States. "There is not a paper of any consequence in our trade territory that our bureau does not get," Mr. Rosenfeld recently stated. "This bureau looks over these papers carefully, and whenever we find a town where the merchants are not advertising to any great extent in their local papers, we immediately flood that territory with our literature. This always brings results that are far in excess of those obtained by the same efforts in territory where the merchants advertise."

The Credit Men's Journal is the organ of an organization, the object of which is to preserve the prosperous and sound

state of retail business, and the journal's comment upon the illustration is as follows: "If this be true, it presents an unanswerable argument in favor of the retailer advertising regularly in his local newspaper."

And still some merchants lose sleep trying to evolve some fantastic and impracticable scheme to combat the mail order invasion.—Commoner.

### THIS IS WEALTH.

There are two places where we do not care to live. One is in a tenement house and the other is in a palace. Pass the pale of modest means and you invade the realms of unhappy riches or sleep in the attic.

To be able to fully enjoy ordinary life is a great accomplishment, for few people really know how to live. The choicest bits of pleasure and the most lasting happiness you will find within the bounds of modest living. If you have a good job and have good health, congratulate yourself. If you have escaped both poverty and riches you are really resourceful.

The struggle to get riches, the fear in keeping them, the pain in losing them—these are the things that make riches an unpleasant responsibility.

Poverty is not so painful as pretense. Keeping up with the Joneses is as foolish as trying to break the record for endurance dancing, so prevalent at the present time.

When we have what is wanted to make us comfortable, all the rest is vanity, excess and envy. The only poor man is the man who has lost his health. You may not have all the money that you feel you would like to use, but how would you like to trade your good health for a wheel chair and some chronic complaint?

Yesterday we were talking with a man that was rich last week. Today he is poverty poor, and worse—he is in debt. Tomorrow he will be broke in health for he is terribly worried. Speculation did it. Today we were talking with a man who is proudly happy of a debt he has incurred. He borrowed money to build a home. The man who speculated lost all. The man who went into debt to build a home will whittle down his debt and win all.—Ex.

### NO WONDER WE'RE SICK.

Man drinks strong black coffee, and that clogs the valves; he drinks moonshine liquor and that strips the gears; he gulps down lemonade, ginger ale, pop, iced tea and what not, and wonders why the boilers do not generate heat. If you should take a donkey and put him through a like performance he would be dead in a month. The simplest and plainest laws of health are outraged every day by the average man.

Did Adam smoke? Did Eve wear a corset? Did Solomon chew tobacco? Did Ruth chew gum? Did the children of Israel make for a cafeteria and a mess of French pastry after crossing the Red Sea? Did Rebecca eat chocolate bonbons and ice cream and call for soda water?

Adam was the first man and was made perfect from head to heel. How long would he have remained so after eating a mince pie before going to bed? Suppose he had slept in a bedroom five by seven with the windows closed down and a steam radiator sizzling. Suppose Eve had been laced up in a modern corset, worn tight shoes with high heels, a hobble fig leaf skirt and sat up all hours of the night, eating chicken salad and Welsh rarebits and trying to keep on four pounds of dead people's hair.—Exchange.

### THE BUREAU SYSTEM.

The bureau system under local organizations is functioning well. The main difference is in the method of appointment. Under the committee system each member of the Board of Trade or United Farmers as the case might be was appointed by the chairman; and he might be interested in the work in that particular or he might not. In consequence there were many men on committees who were apathetic about the work, and neither attended the committee meetings nor the board. Under the bureau system there has proven to be a larger attendance and more interest. To the bureau is also detailed more authority than to the old committees and many wearisome details will be threshed out in committee before they come to the attention of the board. This should prevent interminable discussions at board meetings upon subjects about which only half the members are very mildly interested. The principle should be applicable to any public organization of any size.—Comox Argus.

### BRITISH APPLE PRICES.

Further evidence of the need of better marketing arrangements for British Columbia fruit in Great Britain is contained in an important cable report published on Saturday by the Vancouver Province. While British Columbia fruit growers have been getting little or nothing for their apples shipped to the Old Country, retailers have evidently been making big profits on this same fruit.

A departmental committee on distribution and prices of agricultural products, found as many as six intermediaries between growers and consumers and described Covent Garden, London's famous fruit market, as an anachronism. High class shops were making a profit as high as 344 per cent. on desert apples and other shops nearly 200 per cent.

This report substantiates the complaints made by our growers that they were not getting a fair price for their fruit shipped to British ports and justifies the action of the Ontario shippers in organizing a co-operative association to market their fruit in the Old Land.

Apparently it will be necessary to establish through advertising a consumer demand for our particular brands of apples, a demand that will be so persistent that the retailers must meet it. At the same time the price of our fruit must be under control right through to the retailer.

CO-OPERATION, SERVICE, ADVERTISING—These are three great weapons with which the small town merchant can fight AND WIN his battle against the competition of the big department stores and catalog houses. If he neglects any one of the three he reduces his fighting strength just one-third and there never was a time when it was more necessary for the merchant to be armed at every point if he is to survive.—"Atlantic Coast Merchant."

## HELPFUL HINTS

by Aleda

**A New Broom**—Before using a new broom, soak it in boiling water with salt. This will toughen the bristles and make it last much longer.

**Iodine Stain**—A very hard stain to remove is iodine. It can be done though if soaked in milk, occasionally rubbing the spot.

**Clothespins**—If you will boil your clothespins once or twice a month you will find they last much longer.

**Oatmeal**—A little sugar added to oatmeal while it is cooking will improve the flavor.

**Fruit Stains**—If powdered starch is applied instantly to fruit stains, it will usually remove them.

**Short Stemmed Flowers**—To prevent flower stems going down too deep in a tall vase roll some ordinary newspaper into a loose ball. The flowers will then stand up. It will hold the moisture, if replenishing the water is forgotten, which is a double benefit.

**Ironing Pongee**—Pongee, unlike most materials, should not be dampened when ironed. It should be thoroughly dried and ironed on the wrong side for a really good effect.

**For Sticky Substances**—If when grinding raisins or any such sticky substances a few drops of lemon are squeezed into the food grinder first, the difficulty will be removed.

**Broken Glass**—If a glass is broken, don't try and pick up the small pieces. Instead lay a wet woolen cloth on the floor where the fragments are and pat it. The tiny particles will adhere to the damp cloth and that can easily be burned. A piece of glass in the flesh might cause no end of trouble not to mention the pain.

**Keep Stove Bright**—Rub your stove off daily with an ordinary piece of newspaper and the polish will remain twice as long.

The Home Town newspaper as we know it in North America is the world's greatest salesman.

Every day, everywhere, it is carrying the great message of commerce, bringing buyer and seller into profitable contact.

The sales it makes per year total in the billions.

Its customers are in every home, in every office, on every farm.

Its cost per sale is less than any other salesman, for not only is it the world's greatest salesman in volume but also in efficiency.

The biggest problem in merchandising today is high selling costs. Newspaper advertising, sent on the job of looking for sales whose buying habits offer profitable opportunities, is the surest means of keeping down this vexatious item.

These are the days of scientific selling. Haphazard selling is the road to red ink figures.

Newspaper advertising is the easy road to all the people in all markets—and newspaper advertising and scientific selling go hand in hand.

The great increase in newspaper advertising reflects the tendency of the times.

Merchants of Summerland, we are offering you the services of The World's Greatest Salesman every week in the year.

THE  
SUMMERLAND  
REVIEW

One hundred and fifty visitors registered at the Log Cabin during July.

Miss D. Dewar, of the hospital nursing staff, is leaving on Saturday for her home at the Coast. Miss Phyllis Cline has been appointed in her place.

After spending a few days with relatives here, Mrs. J. R. Conway and daughter, Eileen, left this week for Creston, where Mr. Conway is employed with the Creston Co-operative organization.

Misses Jessie and Frances Rutherford returned this morning from a visit of several weeks at the Coast.

Miss Margaret Allen, Naramata, was one of the passengers on Thursday's westbound train. She is going to Victoria to study at Normal.

Miss Edith Litch, who has been spending the summer here at the home of Mr. and Mrs. G. J. C. White, left today to return to her home in Vancouver.

# The Newest Things in Footwear

The latest fall fashions in footwear are now being shown by us; beautiful creations exhibiting expert workmanship, and being sold at prices which place them within the reach of a humble purse, even in these hard times.

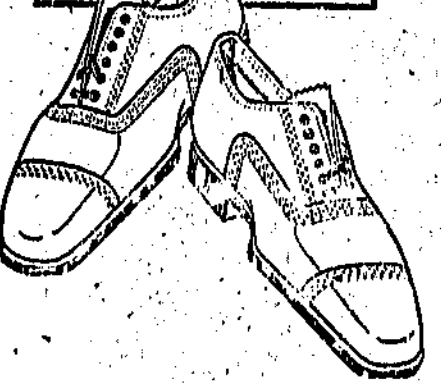

Amongst the numbers included in the above are WOMEN'S PATENT ONE-STRAP PUMPS, with medium gray suede insertions and straps, in various designs, with heels from medium low to the new-fashioned Spanish heel; patent pumps with shimmy tongues and military heels, trimmed with ermine and orange stitching; patent Oxfords with military heels and black suede insertions; patent pumps with gray suede, fantail tongues and Spanish heels; all black suede pumps; all gray suede Oxfords; dark brown one-strap and two-strap pumps and Oxfords; dark brown pumps with brown suede insertions; patent pumps with beige suede insertions; and many others. These Women's Shoes are in Goodyear Welt and flexible McKay construction.

In Men's Footwear we have just received shipments of new brogue Oxfords with the newly discovered crepe rubber soles. These soles are ultra fashionable in the larger cities and are said to have unusual wearing qualities, also to provide a degree of comfort and grip hitherto entirely unknown. Do not fail to see these.

Then, too, we have men's black and brown high grade calf stock, Goodyear Welted Balmorals and Bluechers in Recco, Semi-Recco and the latest "Square Recco" toes, also the round toe "English last," and the wide fitting bull dog last.

We have not taken space to explain in much detail the men's comfort boots we have received, plain fitting wide toes, cushion soles, flexible and long wearing, but we do want to tell you of the

## Sturdy School Shoes

We have laid in stock for school opening and the EXCEPTIONAL values we have placed on these to obtain rapid turnover. Girls' and boys' will find here just the shapely hard wearing footwear they want for our gravelly roads, and parents will find the prices favorably compare with the keenest competition. Why include "Footwear" in your mail order before seeing these?

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home-sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 28, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1918, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

PEACHLAND DOINGS

A Weekly Chronicle Furnished By Our Local Representative.

Miss Bessie Seaton came down from Vernon to spend a portion of her vacation with her sister at the W. D. Miller ranch.

Mrs. Evans, Jr. and Mrs. Lambly spent a day in Kelowna last mid-week.

After a very pleasant visit of several weeks in Edmonton, Mrs. Elliott, with her daughter, Miss A. Elliott, and grandson, Gerald Elliott, returned home last midweek. They spent their sojourn with Mr. and Mrs. C. G. Elliott and family, who, with their auto, were able to give them a splendid time and show them all the principal attractions in and about Edmonton. All came home the better for their holiday.

Mr. J. W. Jones, M.L.A., on Thursday evening met with members of the Board of Trade and discussed the proposed Peachland-Princeton road. Efforts are being made to effect the opening of this much needed road.

Mr. and Mrs. Keyes and their daughter, Mrs. Phillips and daughter Phillis, motored to Penticton on Thursday and enjoyed a very pleasant day's visit with friends in that neighborhood.

Mr. A. J. MacKenzie with his motoring party returned home on Friday after a pleasant trip to Kamloops and back. He was shocked on his return by a telegram which had just come in from Vancouver telling him of the serious illness of his brother Allan. As the telegram stated that there was little hope for recovery, he caught the next K.V.R. westbound at West Summerland. He was accompanied by his two cousins, who have been visiting with the family for a couple of weeks.

Rev. Sadler and family motored to near Powers Creek on Friday, where they joined a Westbank gathering who were holding a picnic there.

Mr. Dorland and son, Hugh, and Mr. J. E. Kerr returned home last weekend from their motor trip south. When they left they had thought to go to Seattle, but went Spokane way instead. They visited at Midway, where Mr. and Mrs. Dorland made their home while Mr. Dorland was mail clerk on the C. P. R. run from Nelson to Midway. At Penticton they picked up and brought with them Master Royal McDougall, son of R. J. McDougall of the Herald.

Mr. Gus Hanson spent Saturday in Kelowna.

Master Willie Gartrell, of Summerland, came up on Saturday morning's boat to spend a few days with the McCall boys.

A former much respected citizen, Mr. J. B. Robinson, addressed by many as "Uncle Joe," who has for nearly two years resided in Penticton, is making his first return visit with Peachland friends. He was driven up from Summerland by Dr. Lipssett and is with Mr. and Mrs. Bulyea. As was always his custom, he attended Sunday School and church and met many of his old friends.

Mr. C. Somerville motored down on Saturday from the Osprey Lake camp where their party have been enjoying a holiday, and left to return to the camp the same evening. He brought with him Mrs. Wm. Douglas who had been with them in camp for a few days. Charlie says "that it the spot," and they are having a swell time.

The Rev. Loggie, from near Kamloops, was a guest of the Rev. and Mrs. Sadler over the weekend. He delivered the address in the Union church on Sunday evening.

Mr. W. Gollaty, with his sister-in-law, Mrs. J. Gollaty, and Mrs. Atchison and daughter, of Winnipeg, who are visiting at the Gollaty home, were visitors in Peachland on Sunday.

Mr. and Mrs. F. R. Gartrell and family motored up from Summerland on Sunday to visit Mr. and Mrs. H. E. McCall.

Mr. David Howrie of the Dominion Government Public Works Department, was in town over the week end and arranged for some repairs to the Government wharf. Mr. W. Gollaty has been engaged to superintend the work of raising the portion of the wharf which recently dropped down, and will employ local help to assist him. He commenced work on the job on Monday morning.

Rev. and Mrs. Sadler and family left on Monday on a motor trip. They intended camping and travelling in easy stages. After attending the meeting of the Presbytery in Penticton Mr. Sadler planned to motor down to the States.

Mrs. Seaton was a recent visitor at the ranch with her daughter, Mrs. W. D. Miller.

Rev. Williams, who is visiting his wife's parents, Mr. and Mrs. Ruffe, for a few weeks, preached in the Baptist church on Sunday afternoon.

Mrs. V. Dynes, of Penticton, spent a couple of days here last week with her daughter, Mrs. B. F. Gumnow.

Earl Murdin returned home in Tuesday morning after a week's vacation in camp at Osprey Lake. He came by K.V.R. to West Summerland and stage from there.

IT PAYS TO KEEP THE CAR CLEAN

Some people who are compelled to keep the mechanism of their cars in good condition in order to get the service required for business are very careless about the appearance of the cover of the car. The side curtains will be out of shape, probably torn as well, the lights are broken or out of order, seat covers dirty and scratched and everything apparently travelling rapidly towards the scrapheap. To such a person a hint or suggestion will save a pocketful of money and perhaps a reputation. The usual advice is, don't allow these conditions to exist. But suppose they do, what then?

The first thing to do with your old top is to open it and give it a thorough surface cleaning with a stiff brush, the stiffer the better. If yours is a mohair top which shows stains and is otherwise dirty, it is a good plan to take a pail of lukewarm water in which you have worked up a substantial lather with some neutral soap.

Then you go over the top with a sponge, taking care to remove all traces of soap with another sponge pressed out from time to time in clean water.

If the top has been up a good deal during the season, it is apt to sag in the middle; this may be due to the fact that the windshield supports have been worn loose through constant vibration, so that when the top is fastened to the windshield stanchions the entire frame is pulled backward and the top consequently left to sag. By tightening the nuts with which the windshield is fastened to the cowl the frame will assume its proper position and not only will the top be tight, but a number of mysterious squeaks and rattles for which you have looked in vain, will disappear at the same time.

The next step is to close the small leaks, the location of which is usually betrayed by discolorations on the inner side of the top fabric.

Repairs to lights and upholstery may be beyond your skill, or replacement of worn or broken parts may put things right in these respects. Cleaning is not difficult if gone about in the proper way and it makes a mighty difference to the appearance, service, satisfaction—yes, and value—of a car.

Travelling by auto is one of the healthiest forms of recreation. Before starting on a long tour the tool equipment should be checked up and any tools that have been lost, replaced.

When touring by automobile, it is essential that all available space should be utilized to the greatest possible advantage. With this in view, a bed has been constructed which, when folded, takes the place of the springs in the rear seat, while the mattress and bedding can be used as a cushion.

The garage, exclusively used for women in Brookline, Mass., has closed because of its few patrons. The interior has an expensively furnished waiting room, lockers and other conveniences, especially for women drivers and car owners.

Backing the car a little and then suddenly plunging forward in low gear causes the most severe strain that can be forced on a rear axle or driving gear.

When negotiating a grade or curve do not jam the throttle too soon. Bad slides occur this way.

The Sulphated Battery.

When a battery becomes sulphated because of neglect to charge it properly or because of low water in the cells it should be charged at a slow rate and discharged, the cycle being repeated until the battery is in good condition. Show charging can be effected by operating the car with the sidelights or the headlights, during the day as well as at night. The set to use should be determined by the ammeter reading. When the ammeter hands begin to swing considerably past zero, the headlights should turn out. This will bring down the charging rate. If the machine is operated at a very high speed, it may be necessary to turn on the headlights to reduce the charging.

NARAMATA NEWS

Current Events of Town and District

Mrs. Loveday and Mrs. Sisney were hostesses at an invitation dance held on Friday evening at the Unity Club.

Mrs. Lyons journeyed to Penticton on Saturday by fry, to stay a few days with Mrs. Russell Wells.

Mr. and Mrs. Tanner left by the early boat on Saturday morning for their new home at Port Moody.

Mrs. McKaye and daughter arrived from the old country on Monday evening, and will reside in the Cam Robinson bungalow until their new house is completed.

Mrs. Cash, accompanied by Mrs. Amaron, left for Vancouver on Saturday, to stay with her sister, Mrs. Price.

APPLES DESTROYED.

Damage which will run into many thousands of dollars was done to the apple orchards in the St. John River Valley, New Brunswick, by a heavy wind last Thursday. The trees were stripped of almost all their fruit.

IMMIGRATION INCREASED

Immigration returns for the current year show a very large increase in the number of new settlers coming to Canada from Great Britain, United States and European countries.

NARAMATA SCOUTS.

(Crowded out of last week's issue.) The work is still going strong, and the attendance at the meetings is perfect. As soon as Friday's meeting began, the boys broke away into various sections to continue the work of the previous meeting, namely, signalling, first-aid, and the compass, in the second-class badge. Scout Robert Iverson passed his Tenderfoot badge and T.L. Stanley Allen passed his Interpreter's badge.

The whole of the time on Monday was devoted to tracking. Two of the Scouts were sent in advance to lay the trail, using scout signs and blazes on the trees. The trail was lost at the top of the hills, and thus the trackers avoided a hornets' nest which had been kindly(?) left for them.

All displayed great interest in following the track, and they showed that they had not forgotten the signs which they learned at the beginning of their service in the troop.

On Wednesday night the usual Cub meeting took the form of a bonfire. Each of the boys was requested to lay and light a small fire correctly, very few being successful at the first attempt. When they finally had their fires ready for lighting, a large bonfire was burning brightly under which were potatoes covered over with a shallow layer of sand. While these were baking, some of the boys enjoyed a swim, while others kept up the fires. Before breaking up, stories were given, as well as a short talk on being careful with fire, especially with those used out of doors.

At a meeting of the quarterly board of the Methodist church this week, a delegation was present from the Troop committee. They requested for the boys the use of the church basement as a meeting place, and the young people's room as a club room, on condition that the boys provide a quantity of fuel, and keep the place in good order. After a short discussion this request was granted.

On Friday night only First Class work was taken up, the general subject being axmanship. A short talk was given which dealt with a supplementary section of that part of the test which was given at Gillwell.

We all find that with these supplements the amount of work necessary to obtain this badge is almost double. Owing to the heavy rain on Monday the attendance was not so large as usual. The more advanced Scouts spent most of the time on the theoretical part of the Camper's Badge. Each boy was asked to submit a plan of what he considered a model setting for a camp, putting in all the necessary requirements. Many and varied were these, no two being alike in any respect, excepting that they were near water. When these were submitted, they were each criticized by the boys, after which a general plan was given for their benefit. About the only thing that prevents some of the boys from obtaining this badge, at present is the lack of the required number of nights under canvas. The remainder of the troop worked on the Signalling section of the Second Class test. Next Friday we are going to have an extra special time which will be reported in the next issue.

A NARAMATA SCOUT.

CORRESPONDENCE

Letters to the Editor.

MORE CELERY.

(Crowded out of last week's issue.)

Editor of the Review, Dear sir,—In your issue of the 6th inst. you have a front page article headed "Good Celery Can be Grown Here," and proceed to acclaim Mr. Bontty the pioneer celery grower of Summerland.

I knew that Mr. Bontty was growing celery and am glad that some of the alluvial soil of Garnet Valley is being put to such good use.

My idea of making our position tenable here is to provide as much of those necessities of life as we possibly can, and thus bring our monetary outgo as nearly as we can to balance our income—if we cannot do better.

However, Mr. Bontty is not the originator of the idea of growing celery in Summerland. Several small plots have been grown here and have proved at least that good celery can be grown.

In the much neglected Ponch Orchard district last year nearly ten thousand celery plants were grown, some of them to a high state of perfection, while others were not so good, depending on the variety, for three varieties were tried out. This year about 550 plants have been set out for fall and winter use.

The method employed in Ponch Orchard is not the same as that used by Mr. Bontty. There are three methods commonly used in Canada and the United States. One, the old

style trench and earthing up; another, the trench or rows and boarding up; and the third, the bedding method. The first is very laborious, the second very expensive if one must buy the lumber, while the third not only saves labor and most of the boards, but a very much larger yield can be obtained per acre, and that of a finer quality.

There are many other necessities of life for which we are now sending out of Summerland hard-earned dollars.

Some years ago there was considerable interest in dairying, poultry raising, etc. Then came years of prosperity and an easy method of keeping up the fertility of our soil. Yet all agricultural experience teaches us to keep live stock.

Would it not be a wiser method of farming to leave a portion of each lot, where practicable, to produce feed for one or more cows, some poultry, etc., and not only guarantee our living but enable us to produce larger and better crops of fruits and vegetables by the use of the then available fertilizer.

Very truly yours, A. A. DERRICK.

SUGGESTS STICKERS.

Editor Review, Sir,—Allow me, through your valuable paper to place before the merchants, growers and citizens, a cheap and far reaching method of advertising the chief commodity of this valley, namely fruit. In order to successfully market any commodity there must be a demand created for it. It has been proven, and there is no reasonable argument against it, that advertising creates a demand.

The most successful business enterprises today are those who began advertising in a small way and increased the appropriation year by year.

The Associated Growers of B. C. is an organization on which depends the success or failure of fruit growing and marketing in the fruit belt of this province.

The plan advocated, and now used in Penticton, is to use stickers on letters and parcels with this slogan printed on them: "Buy B. S. Fruit. Help to make Canada prosperous. You will like our fruit, it is the best you can obtain."

Such stickers will not cost much, and everybody can help to broadcast this message so it will reach all over the world. If it helps, even in a small way, everyone will benefit, so why not every one help to help himself?

R. J. MUIR, Fuller Brush Man.

CORRECTS GOSSIP.

Editor Review, Dear Sir,—We would like very much to put some of the Summerland people's minds at rest, as they

are of the opinion that we received a sum of money from the Board of Trade, and also from the G.W.V.A. We would like to state the total amount received by us in money is \$57.00, including the Benefit Show proceeds. Also we only received a few articles from the shower.

We are not looking for, or expecting charity, and are very grateful for the things we have received, but to enlighten some wonderful dreamers, we give this statement.

Thanking you for your valuable space,

Yours truly, V. J. BERNARD.

NO FALL FAIR.

No move whatever has been made toward holding the annual fall exhibition, according to J. Tait, secretary of the Summerland Agricultural Association. Mr. Tait says that he has not been able to get a meeting of the executive, the members of which seem to have lost interest in exhibition matters.

So far as is known, the Board of Trade has made no movement toward sending an exhibit to the provincial fair at New Westminster.

CLEAN GASOLINE STRAINER MONTHLY

Make it your practice at least once a month to remove the strainer in the gasoline line and clean out all foreign matter that has lodged there. In spite of the best care some dirt is constantly getting into the gasoline tank and it always stops at the strainer. This will eventually clog it, shutting off the gasoline and stopping the engine. As this is a troublesome occurrence it is best to avoid it by cleaning the strainers occasionally. There is one where the feed pipe enters the vacuum tank and sometimes another one where the gasoline enters the carburetor.

When going up a steep hill do not crowd the engine to see if you can possibly get to the top without shifting gears. When running very slowly (laboring) the sudden blows of the explosion, acting against the resistance of the slow-moving crank-shaft tend to flatten out the bearings, shortening their life, wearing them out, and making the engine knock long before it should under proper use. As it is an expensive matter to fit new bearings this is an important detail to attend to.

A relief cock with a handle that is up when the valve is closed is apt to work open if the plug loosens through wear or the spring breaks. The best remedy for such a trouble is to buy a new one with the hole set in the proper direction, so that it is closed when the handle is pointing downward. Another method is to fill the hole in the plug with a piece of brass carefully fitted and to drill a new hole in such a position that the handle will be pointing downward when the hole is closed.

ANOTHER PEAK CLIMBED

Mount Mary Vaux in the Canadian National Rockies, which has been considered invincible, has now been climbed by four Americans, Dr. Emily J. Widdercomb, Kent, Ohio; Miss Mary Blakeslee, Medina, Ohio; Douglas Sutherland, secretary of the Civic Federation of Chicago, and Ben Herzberg, Chicago attorney. The party left Jasper six weeks ago determined to make the ascent and after traversing almost trackless wilds, accomplished their objective. The summit of Mount Mary Vaux affords a superb view of the surrounding Rockies.

SCRATCH PADS FOR School and Office Use

We have a quantity of Scratch Pads, made up from ends of stock, which we are selling at 25c per pound. From 4 to 6 pads make a pound, varying according to size.

THE REVIEW

ROVERS CELEBRATE FIRST ANNIVERSARY

To fittingly celebrate the first anniversary of the inauguration of the Beta-Pi Fraternity of Summerland Rover Scouts, this troop united with the recently formed Sorority of Ranger Guides in a successful outing and corn-boil at Miller's Point on Thursday last. Ideal picnic weather and a perfect moonlight night augured well for the success of the arrangements and it was a merry crowd who boarded the "Skookum" early in the evening. About fifty made the trip, a swim and a big bonfire on the beach being the first considerations after arriving at the point. Bountiful refreshments were later partaken of, and it is still a mystery just how all that corn disappeared, but it is certain that no one of the party can ever again truthfully say he has never had enough corn to eat. Allen Harris, with his inimitable banjo, accompanied by several other weird musical instruments, entertained the merry-makers during the evening, and on the home trip.

PILES

No one but the sufferer knows the terrible agony of the itching nature of Piles and how hopeless it seems to try for relief in ointments, injections and dilators. Genius produces "PAX" Internal Pile Remedy. Pax is the prescription of a well known physician and has proved successful in hundreds of cases. Pax is internal dilator from any other treatment. Applications from the outside are futile. No ointments, injections or dilators are necessary. Pax is complete and is a vegetable remedy, contains no drugs or alcohol. If you have not hitherto found relief do not despair, place your faith in Pax. Except in unusually stubborn cases one box is usually sufficient. Get "PAX" from your Druggist or if he cannot supply you send One Dollar and "PAX" will be sent you in a plain package. CROWN CHEMICAL PRODUCTS OF CANADA 1015 Dominion Building VANCOUVER, B. C.

Who Pays for Advertising? Why, nobody pays for it. Like the labor-saving machine that cuts down overhead and increases production. It pays for itself. Or like the truck installation that decreases delivery charges by increasing efficiency. It pays for itself. Advertising cuts down selling costs ---breaks down sales resistance. It pays for itself. ADVERTISE PERSISTENTLY ---It is no game for the quitter.

Cleopatra's Beauty Secret Cleopatra knew that to have a fresh fine skin, thorough cleansing was necessary. She knew that the gentlest means must be employed. She used Palm and Olive oils. The crude combination of these oils which was the best even royalty could command, is today brought to perfection in Palmolive. Every girl can have the radiant healthy skin which is the foundation of all beauty. Intelligent care is the secret — thorough cleansing the basis. Unless thoroughly cleansed with soap and water, the skin becomes sluggish and inactive. The tiny pores clog with dirt, oil secretions, perspiration, rouge and powder, and blackheads and other blemishes result. A pure mild soap causes no irritation. Women who fear it have been using the wrong soap. Palmolive, with its creamy mild lather is lotion-like in its action. It soothes while it cleanses; it freshens, revives and stimulates and leaves the skin delightfully fresh and rosy. You can buy Palmolive Soap at all first-class dealers. Made in Canada. Palm and olive oils — nothing else — give nature's green color to Palmolive Soap. Volume and Efficiency Produce 25-cent Quality for 10c

# Local Happenings

Will Angove arrived home on Sunday from Kimberley, B. C., where he is employed.

Mrs. Gordon, of Vernon, with her daughter Miss Gordon, is visiting her niece, Mrs. G. N. Gartrell.

Mr. and Mrs. S. A. MacDonald are rejoicing over the arrival of a daughter born on Friday, August 24th.

Miss Lena Snider went down to Vancouver to resume her teaching duties in Vancouver.

Miss Amy Smith left by today's train for Victoria, where she will enter Jubilee Hospital for training.

Basil Stuart, acting manager and second vice-president of the Associated, spent the week end at home here and left for Vernon on Sunday afternoon.

K. V. R. eastbound train due here before seven o'clock Saturday morning was several hours late, being delayed at Osprey Lake by a derailed freight.

W. R. Payne, recently of the high school staff is in town this week arranging to ship his household goods to Rossland, where he has accepted a similar position.

Mr. and Mrs. F. J. Nixon and son, Gordon, returned last week end from Vancouver. They made the journey both ways by motor, via Wenatchee and Snoqualmie pass.

Special rates to the Victoria fair September 1 to 8, are being offered by the K. V. R., the rate being \$16.90 return, good leaving August 30, returning September 10.

Mrs. T. J. C. Martyn, nee Miss Sheila Sutherland, with her two children, arrived from New York on Saturday, and is visiting her parents here, Mr. and Mrs. J. M. Sutherland.

Mrs. W. White was hostess to about forty friends at a corn-bowl at Siwash Bay on Thursday last week. The party went down by trucks and cars and spent an enjoyable evening on the beach.

Miss Lena Rumball, sister of Mr. Thos. Rumball, arrived here last night to visit the latter. She has come to the Okanagan hoping to regain her health and has been making the trip west by short stages.

Mrs. F. W. Andrew and Miss D. Cooper returned on Sunday from Lake Chelan, where they had been for about eight days. Dr. Andrew met them at Orville on Sunday and returned the same day.

Dorothy, Claire and Christine Lundie, young daughters of Mr. G. A. Lundie, left here on Tuesday morning to spend the remaining portion of the school holidays at the home of Major T. E. L. Taylor, of Revelstoke.

Miss Vivian Jones, of Kelowna, daughter of J. W. Jones, M.L.A., and recently appointed to the staff of the Summerland high school, was a visitor in town on Thursday on her way home from a visit to the Arrow Lakes district.

Miss Lillian Darke left today for Victoria, where she will enter Jubilee hospital to train for a nurse. Lillian, always popular among the young people, will be particularly missed among the Baptist young people and choir, of which she was a member.

Mr. and Mrs. H. G. Fisher returned last week end from a vacation visit of about two weeks to Glacier. Mr. Fisher will have this week at home before returning to his duties with the Bank of Montreal at Naramata. During his absence J. H. Roberts is in charge.

Word has been received by friends here from Hilton Snider of the death of his father, Egerton E. Snider, in Portage la Prairie. Mr. Snider has been ill for several months and death came on Thursday, August 23rd. It is expected that Hilton will return to Summerland shortly.

## CARD OF THANKS.

Mr. and Mrs. W. H. Wilberforce wish, through these columns, to thank all those who gave such willing assistance at the time of their fire, and for their many kindnesses since.

## POUND NOTICE.

Impounded on the 24th, one red and white steer, two-year old. No brand visible. If not claimed by 12.0 p.m. on September 8th, will be sold at public auction, D.C. Thompson, Poundkeeper.

Three pounds of creamery butter for \$1.25 at the Grocerteria.

Mr. G. C. Hicks, of Alberta College, Edmonton, is the guest of Rev. and Mrs. Z. L. Fash.

Misses Grace and Zanda Garnett left today for Victoria, where they will attend the provincial Normal School.

Ding-Dong!! Ding-Dong—Tuesday, September 4th. Ding-Dong-Ding. In school. Go to the Grocerteria for school supplies.

Mr. and Mrs. O. Vaughan are this week moving from the Arnett home above town to the Solly cottage recently occupied by W. R. Payne.

Mr. and Mrs. R. Johnston and daughter, Eva, arrived home last night from the prairies. They made the journey both ways by motor.

The Misses Jean and Winnifred Travis have returned to their home in Penticton, after spending a few days with Mr. and Mrs. G. W. Cope.

Ted Atherton, of the C.P.R. Telegraph Department, Kelowna, with Alf Alsgarde, made the trip to Summerland by canoe on Sunday, returning on Monday.

Attention is drawn to an advertisement in this issue from the Co-operative Association regarding varieties of fruit to be picked at once. Growers are urged to give this their careful attention.

A corn roast at Crescent Beach was attended by most of the Paradise Heights people on Tuesday evening. The usual corn roast, eats, dances and songs were thoroughly enjoyed by quite a large party.

Mr. and Mrs. F. W. Dewar, of Seattle, announce the engagement of their daughter, Daisy Isabel, to William Angove, the wedding to take place at the Summerland Methodist church, September 5th, at 8 p.m.

Mr. and Mrs. W. H. Wilberforce went down to Vancouver on Wednesday's train, intending to return again on Friday. Mr. and Mrs. Wilberforce held an auction on Monday and disposed of that part of the furniture saved from the fire.

Four of the accounts for high school fees placed in the hands of the municipal solicitor for collection were taken to the small debts court. Three of the four have been paid and arrangement made for settlement of the other.

Miss J. Rothwell, at one time on the staff of the public school here, came in on Saturday from Regina and while here was the guest of Mrs. McLaren. She left again on Wednesday for the Coast, to visit friends and relatives before returning to Prince Rupert, where she is teaching.

Miss Ruth Dale, accompanied by Miss May Bateman and Miss Ruth Russell, both of Vancouver, returned last week from a motor trip of several days up to the north end of the Valley and around through the Arrow Lakes district. Miss Russell left last Thursday to return to her home at the Coast. Miss Cattermole, also of Vancouver, came in on Monday, and on Tuesday, she, in company with Miss Dale and Miss Bateman, motored to Kelowna, where they will visit Miss Bateman's sister, Mrs. Corner, for a few days.

# Growers are Notified

to pick at once WEALTHIES, PRUNES and FLEMISH BEAUTY PEARS. The local has been notified by Central that the Sales Department has orders for over 100 carlots, and has instructed that the growers be notified to deliver the above named varieties immediately.

We cannot understand why growers do not follow our instructions as to picking. Specific instructions were recently given as to picking pears on the green side, but in spite of this, deliveries have shown that pears were allowed to get too ripe before being picked.

## THIS INEVITABLY MEANS REBATES AND LOWER PRICES TO GROWERS.

McIntosh Red will soon be ready for shipping, when it will be impossible to sell Wealthies. Therefore, get in your Wealthies at once. While fifteen per cent. is the minimum for color requirements, some Wealthies will never color, and these will be crated, provided not smaller than 2 1/2 inches in diameter.

## SUMMERLAND CO-OPERATIVE GROWERS' ASSOCIATION.

Help us keep the prices down. Give us your patronage. Volume counts with us. Grocerteria.

Miss May Harrison returned on Sunday from a two weeks' vacation at Victoria and other Island points.

Mr. and Mrs. Wm. Nichol and family, with a carload of household effects, left here on Friday for Was-

Geo. C. Benmore, local manager for the Occidental Fruit Co., motored to Kelowna last Saturday on a business trip, accompanied by Harry Lee.

Mr. and Mrs. Guy Walden are leaving on Saturday for Yorkton, Sask., where they will reside. Mr. and Mrs. Walden lived in that town before coming to Summerland.

Mr. and Mrs. Arthur Solly, of Port Hammond, are camping on the shore in Peach Orchard in Rev. H. A. Solly's cottage. They will probably remain there for about two months.

Dr. L. M. More, owner for many years of a fruit lot on the bench north of Peach Orchard, is here this week. Dr. More practised formerly in Brandon, but is now a resident of Victoria.

Mrs. W. H. Wilberforce has been engaged by the hospital board to act as matron during the absence of Miss Ketchison on vacation. The latter will probably leave for the Coast about the 10th.

Mr. and Mrs. Wm. Simpson and youngest son, Arthur, came in from Waltham on Tuesday. Mr. Simpson went over from here several days ago. They will reside in the cottage recently vacated by Mr. and Mrs. Guy Brock.

Cherry growers who disposed of their crop this season to the Occidental Fruit Co., are all in receipt of their cheques. The returns for Bings was 10 cents per pound. Biggareau, Lamberts and Republicans fetched 9 cents; Black Tartarian 6 cents, and Royal Annes 6 cents.

Official delegates from the Summerland Hospital Society to the provincial hospital convention at Penticton on Tuesday and Wednesday were Messrs. H. C. Mellor, H. H. Creece and Rev. H. A. Solly. Others who attended were Miss Ketchison, matron of the hospital; Dr. and Mrs. Lipsett; Mrs. R. M. Ross; Mrs. Leslie and Mrs. Inglis.

Quite a number of our young people will be leaving again shortly to take charge of their several schools. Among these are Miss K. Brown, Vernon; Miss Jessie Moffat, Grand Forks; Miss Alva Garnett, Westbank; Miss Grace Logie, Fernie; Miss Thelma Hobbs, Kaleden; Miss Belee Vanderburg; Miss E. Bristow, Nakusp; Miss Marion Beavis, Kelowna; Miss Gertrude Elsey, Vancouver; Alex. G. Smith, Kelowna.

# Corporation of Summerland TO ELECTRICAL CONTRACTORS.

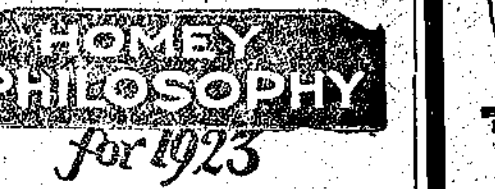

TENDERS are invited for the construction of about three and three-quarter miles of primary and secondary transmission line, including all labor and material complete. Plan and specification can be seen at the Municipal Office, West Summerland, B. C. Tenders, marked "Pole Line Construction," to be forwarded to the undersigned not later than noon on Monday, 10th September, 1923. The lowest or any tender not necessarily accepted. F. J. NIXON, Municipal Clerk, 20th August, 1923.

Big Free Distribution for Boys and Girls under 12, Saturday, 2 p.m., at Summerland Grocerteria.

Miss Gertrude Darke returned on Wednesday from a two weeks' holiday trip to Coast points.

Wanted.—Fifteen hundred dozen eggs. Join Summerland Produce Association for highest prices.

Kenneth Walden is leaving this week for Victoria, where he will enter the provincial Normal School.

REMEMBER that birthday when there were twelve candles on the cake and the big piece rested on the plate of that wonderful girl whose golden curls were the most beautiful in all the world—and then that birthday, when that girl with nut brown hair glanced shyly at Dad told you you were now a man. And then the birthdays came quickly, until there were no candles on the cake, but just a touch of thoughtfulness and love reflected in the making. Now in the mellow of years we can think of birthdays and their joys just as the mirror of the only birthday—the day we pass into life—into Eternity. Smile as the hour nears.

**YOUNG SPORTS SPEND NIGHTS AT PILFERING**

**Mounted Posse Breaks up Party and, After a Chase, Make a Capture.**

A proposed "chicken mulligan" and corn-roast was responsible for a number of local young men getting a bad scare last night. To secure the necessary comestibles, the party made sundry raids on chicken coops and corn patches in the neighborhood, but being disturbed in their nefarious work, the "hue and cry" was raised and a posse of "horsemen" quickly formed.

The posse concentrated on running to earth one of the marauders, supposed to be the ringleader, and a merry chase of many miles among the trails of Giant's Head ensued. Being well mounted, he led his pursuers a lively pace but on nearing the town again, and on attempting to negotiate a ditch, his horse stumbled and he ignominiously fell into the arms of Constable King.

Three of the alleged thieves have been summoned to appear in the police court tomorrow.

Numerous complaints have been heard of late of thieving from gardens after nightfall. Not only did growers lose their stuff, but considerable damage was done the plants. So serious has the situation become that the police were asked to put a stop to it.

**DIARY OF A GENUINE CUB**

Thursday.—Oh! I am so tired. Why in the name of all the Wolf Cubs do we have to have Sports Day? However, I must smile and whistle under all 'circuses' (or some awful word like that) so I must get up and get ready for the sports.

This is a good time of day to start my diary, because I can smell the porridge burning, and it makes me want to put down everything I can, for the day is going to be a long one, and I will have to finish tomorrow what I have begun today.

Our Cubmaster is coming down this afternoon, so I must be sure I am all ready to win all the races I go in for. My O.C. taught one of the boys to swim yesterday, and the poor fish says (of course I mean the boy) he is going to swim in the same race as I am.

The "Cookees" are giving us an extra big helping of porridge this morning, so we can run faster in the sports.

They are going to have the land sports this morning, and the water sports in the afternoon. Last night I asked my leader why we couldn't have the water sports first, and he replied, "If you went in for the water sports first, you would be so

full of water when you came out that you wouldn't be able to run at all—and perhaps he is right.

Well, it is quite near breakfast time, and most of the boys seem to be pulling up their belts, so they must be hungry—I haven't done mine up yet, so I can't try myself, but I can tell when I am hungry by my ribs rattling against my back bone when I run.

Friday.—For Heaven's sake! It is 8 a.m. and the "Cookees" are just getting up! What can have happened? Oh, yes! I remember, we had a camp fire last night and we all sat round and sang songs and one of the boys got up and sang "Oh, don't get up till the sergeant brings your breakfast up to bed." That boy must be a Cookee this morning.

We had a perfectly dandy time yesterday, the best day I have had in my life! We didn't go to bed till nearly ten o'clock, and even then I could have sat round that old camp fire and sung songs and watched the officers beating time with their toes in the sand.

Well! Well! Well! Did you ever hear anything better than this. Yesterday, quite a lot of parents were here and they brought cakes and things for us to eat, and just in the evening one of the parents (I forget which one, there are so many) brought a cake and a pie for us, and the O.C. was too lazy to carry both, so he took the cake and said, "We have tons of grub left." And the boys have eaten too much pie already—and really I have only had four pieces in the last three days, so I am sure he must have been dreaming.

**HELPFUL HEALTH HINTS**

**Eye Lashes**—A little yellow vaseline applied to the eyelashes each night will improve their growth and beauty.

**Removing Dust**—A paint brush used in place of a dust rag can get the dust in crevices where the dust rag cannot.

**Hair**—Brush your hair thoroughly. Brush it twice daily—night and morning. Then whenever you have time massage the scalp with the balls of the fingers; this starts the circulation going and one will soon find much new hair growing.

**HILBORN LAKE PROBLEM DEBATED**

(Continued from Page 1)

ting a road across the Rose property. He favored a conference with the individual property owners, but little hope of accomplishing much by this

**NARAMATA SCOUTS.**

There was no regular meeting on Friday night as the Scouts were invited to attend a corn roast given by the Girl Guides. Every one was on deck at 5:30 and water sports commenced very shortly, which were arranged for both boys and girls.

**Etiquette**  
 What & When to do it  
 By A. Aloda

Any questions on etiquette will be gladly answered in this column if addressed to Aloda, care of this newspaper.

Dear Aloda: If a young lady is asked to go on a picnic with a man, who furnishes the luncheon, the lady or gentleman?—Thanks, B. H.

The gentleman. The person extending an invitation is always the one to see that things are ready. However, as a man usually has no facilities for putting up a meal, the lady should ask if there isn't something she can do or something she can contribute.

If a girl meets a young man with whom she is acquainted on the street, should she say anything if he is talking with another girl?—B. H.

It is quite proper for her to stop and speak if she wishes, but usually more graceful if she just smiles or bows her head in recognition.

In a letter from a young lady in Connecticut, who is going to make a visit, she says: "My friends are Catholic and I want to know whether I should attend my own church, which is Protestant, or go with them. If I go to theirs, should I conform with their services?"—Miss A. H., Conn.

It would be very graceful of you to attend your friends' church. The chances are that they will ask you if you have any preference. Then mention your own. No, it would not be necessary to conform with their services.

Points were given in these events to the successful patrols. Only those events relating to the Scouts are given. The first item on the program for them was diving for plates, in which the Owls came first and third and Coyotes second. There were two swimming races. In the first, the Owls captured first and Coyotes second and third; in the second, Owls first and third and Cubs second. The plunging resulted in the Coyotes first and second and Owls third. The last event of our races was the relay. This was won by the Owls. The total points gained were: Owls, 15; Coyotes, 12; and Cubs, 2. In the meantime supper was being prepared and we all sat down to a fine meal with good appetites. After supper the results were announced by Mrs. Cross, president of the Guides' Council, and a vote of thanks moved by the S.M. for the enjoyable time spent with the Guides. This was responded to with hearty cheers from the boys.

method was entertained by some of the councillors. For another season the Reeve would have measuring boxes on every lot concerned. He was sure that more water had been put on the land than it could hold. Carrying water all that distance and permitting its wasteful use and their
