DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

**BUSINESS PRESCRIPTION**

"A Dollar for Advertising Purchases More than Any Other Dollar the Business Man Invests."

Vol. 15, No. 49, Whole No. 804.

SUMMERLAND, B. C., THURSDAY, July 5, 1923

\$2.50, Payable in Advance

## FAREWELL TO R. H. HELMER AND FAMILY

**Summerland and Naramata Join in Wishing God Speed Presentation Made.**

Summerland, British Columbia, June 28th, 1923.

Mr. Ronald H. Helmer, Dear Mr. Helmer:

On the eve of your departure from Summerland your many friends here and from Naramata have gathered this evening to express our deep regret at the loss we all feel in losing such a good citizen as you have proved yourself to be.

Summerland and Naramata in less than a score of years have developed from a state of nature and the pioneer stage to modern communities, equipped to minister to the higher needs and aspirations of men, women and children. To accomplish this in so short a time has required hard work and devoted service on the part of our citizens.

In all this development we gratefully acknowledge your kindly, capable, energetic and unstinted efforts to make our communities those of happy homes and progressive people.

The twentieth century, more and more, requires highly organized skill and intelligence in the production of Farm and Orchard, and in this your special field—we know you have been prominently successful, not only in your splendid management of the magnificent development of the Federal Experimental Station here, but also in your assistance throughout the Okanagan Valley and other British Columbia districts.

You have had the happy faculty of making the Farmer and Orchardist feel you were, at all times, eager to give the best assistance at your command to solve his problems, and of doing this as a partner in his enterprise, and not as an outsider.

In the work of our Fruit Organizations, our Farmers' Institutes, our Agricultural Associations, our Hospital Board, our efforts in sports, our Boards of Trade, and in all organizations seeking to attain community betterment, you have shown the same kindly and energetic spirit, and have made large contribution to them all, of your time, strength and ability, in a way we shall always hold in warm and kindly remembrance.

Life in the West is full of change. (Continued on Page 6)

## CLEAR WAY FOR LOCAL FINANCES

Shareholders of the Summerland Fruit Union, in liquidation, yesterday passed a resolution permitting the liquidator to give the bank of the new co-operative preference over the Union in respect to its account for monies advanced. This will remove a difficulty the co-operative was up against in financing the handling of this season's crop.

Mr. A. M. Pratt, who was on his way to Naramata, addressed the meeting briefly, arrangements for this having been made to the last moment by Mr. M. Stewart, manager of the local.

## BORTON CREDITORS HEAR STATEMENT

At a meeting of the creditors of W. W. Borton held last week at the office of the assignee, Matt G. Wilson, a statement of the affairs of the business was submitted. This is subject to some amendments, but showed liabilities totalling about \$6,000. Assets were valued at about \$3,000, subject to realization and expenses.

Mr. Wilson, the official assignee, was approved by the creditors. He is offering the business for sale as a going concern.

## TUXIS BOYS IN CAMP AT MILLER'S POINT

Mr. G. R. S. Blackaby came in from the Coast Wednesday morning to take the Tuxis Square boys of the Baptist church for their annual camp at Miller's Point. The boys left Wednesday afternoon and will make a camp of one week.

A service will be conducted in camp on Sunday afternoon at 3 o'clock by Rev. Z. L. Fash. It is expected that the choir will be present to give its assistance. This service is open to the public.

Monday, after 1:30 p.m., will be visitors day, when the boys will hold field and aquatic sports. Visitors are expected to bring their basket with them.

## COMPANY PAY TO GROWERS

### Amicable Settlement Made With Fruit Growers of Kelowna.

Action in court entered upon by a group of Kelowna growers against the B. C. Growers, Ltd., has been dropped, the company and the growers having come to an agreement whereby the company is said to be paying the growers over \$20,000.

Suit had been entered by a committee of three, Col. Lindsay, Messrs. J. E. Roekie and G. M. Stanley, who had been appointed to sue the company in the name of a group of East Kelowna growers.

The Kelowna Courier of last week had the following report of a meeting in the East Kelowna school house, when the settlement arranged by the committee was agreed to. Here is the report of the proceedings:

Mr. W. Crichton Spencer was appointed chairman of the meeting and Mr. Gillette, secretary. The chairman called on Mr. Roekie to address the meeting.

Mr. Roekie stated the steps taken to recover the 20 cents a box rick on the Jonathans and 5 cents a box brokerage. Finally, the company offered to refund 18 cents a box on the Jonathans and one cent a box brokerage. Considering the uncertainty of law, the long delays, risk of appeal and the large law costs that would be incurred if this offer was refused, the committee decided to accept it. Both sides had made sacrifices to attain a settlement. The growers gave up part of their claim and the B. C. Growers, Ltd., were paying a very large amount, about \$21,000. There were 95,000 boxes of Jonathans involved. He hoped every one would at once sign the form ratifying the settlement and send it in as of course, the company offered to settle only on condition that the growers release them from all claims they might have against them.

The humane society should take drastic action with those people who ride a free horse to death.

# Promotions and Honor Roll Summerland Central School

Two Pupils Distinguish Themselves by Winning Silver Medals with Essay on "Forestry" in Entry of 10,000—Certificates Awarded Many Pupils for Muscular Movement Writing—New Eight Grade System Comes into Operation Next September.

**F**ORMAL closing of the Central school was carried through in the open front of the new building on Friday. The program was a simple one, much of the time being given to the passing out of certificates, some 140, to the successful pupils. This was done by Mrs. Solly, trustee. Mr. S. F. Sharp, chairman of the board, presided over the ceremony.

Below is the promotion list of the Summerland Central school, with the exception of that of the Entrance class. Promotions of those pupils in the senior grade who were advanced by the principal were published last week. A number of pupils in this class wrote the exams prescribed by the Dept. of Education. Results of these will be known about the end of July.

There is also given here a list of pupils who were awarded certificates for writing as well as of those who led their divisions in proficiency, deportment and punctuality.

For these lists The Review is indebted to Mr. S. A. MacDonald, principal of Summerland Public schools.

**PROMOTIONS.** (In order of merit throughout).

**Div. I. Miss Elliott.**

**To Grade III, Part I.—**Marianne Orr, Ida Pacey, Ronald McKay, Walter Taylor, Alan Butler, Alan Callaway, (Mildred Arkell, on trial).

**To Grade III, Part II.—**Dorothy Bowering, Edna Baker, Doreen Howis, Harvey Michell, Betty Nelson, Jessie Bushell, Kitty Higin, Harry Barkwell, Gertrude Clark, Alastair Campbell, Christine Lundie, Robert Killick, George Dunsdon, Gordon Boothe, rey Reynolds, Pia Betuzzi, Harry Walmsley, Katherine Ramsay, George Gould, Margaret Stark, Winnie Gray, Annie Denike, Gordon Smith, Marjorie White, Jack Armstrong, Tommy Mack, John Theed, Kathleen Read, Hudson Pirie, Norman Thompson, Ronald Taylor, Lloyd Gould, Adorne Biaglioni, James Clark, Kenneth Walker, Edward Rippin, Norman Dickinson, Ruby Haddrell, Ronald Helmer, (Elden Baker, on trial).

**Div. VIII. Mrs. Denton.**

**To Grade III, Part I.—**Verna Gale, Marjorie Bernard, William Steuart, Edith Verity, Marion Monro, Florence Doherty, Daphne Walter, Aimee Eckersley, Brian Atkinson, Arthur Eckerley, (Cameron McGown, on trial).

**To Grade III, Part II.—**Ian Nicholl, Gordon Morgan, Joan Haddrell, Elisabeth Philippson, Alma Gould, David Munn, Earl Inglis, Billy Stark, Horace Bryant, Kenneth Boothe, Lloyd Shannon.

**To Grade II, Part I.—**Rex Derrick, Alexander Caldwell, Ernest Hunt, William Dunsdon.

**Div. IX. Miss Banks.**

**To Grade II, Part I.—**Frank Walden, Robin Agur, Philip Dunsdon, Ronald Thorner, Mary Block, Mary Lundie, Hilda Zimmerman, Stella Creese, Eleanor Jackson, Christine Reynolds, Maurice Welsh, Margaret Smith, Jean Gould, Colin McKenzie, Eva Gale, Alec Purves, Hector Sutherland, Natalie Milne, Margaret Steven, Anthony Craig, Paul Derrick, Winnifred Eckford, Rupert Walton, Gordon Sutherland, Betty Gray.

**To Grade II, Part II.—**Peggy Turner, Freddie Smith, Billy Borton, Vivian Harvey, Bob Barkwell, Ross Nicholl, Herbert Bryant, Isobel Pacey, Muscular Movement Writing Certificates.

## VETS HAVE TENNIS CLUB

### Officers for Season Appointed and Fees Fixed for Members and Visitors.

The G.W.V.A. Tennis Club held its first meeting at the G.W.V.A. Club-rooms on Tuesday night last, when the following officers were elected: president, G. Y. L. Crossley; vice-president, Jack Lawler; secretary, Miss Gwen Harris; executive members, H. C. Howis, A. B. Morrell, A. A. Howland, R. H. McConnell.

A governing body of three members elected by the G. W. V. A. and two from the Tennis Club, which is being run as a separate club, affiliated with the G.W.V.A., will be responsible for the conduct of the courts apart from playing and ground rules, which latter will be formulated and enforced by the Tennis Club Executive.

Membership fees are to be as follows: men, members of the G.W.V.A., \$3 annually, non G.W.V.A. members, \$5; ladies, members of the G.W.V.A. or the W. A. to it, \$2 annually, non members of the above, \$4. Junior members, twelve years and over, will have the privileges of the Tennis Club on Mondays and Wednesdays till four in the afternoon, as well as at such other times as playing members may invite them, when the courts are not in use. Out-of-town visitors may join for \$2 a month.

The executive have power to limit the number of members, temporarily or otherwise, when a waiting list will be opened. Applicants for membership must be proposed and seconded by two club members, and elected. Further information may be obtained from the secretary, Miss Harris, or any of the above officers.

## NARAMATA CO-OP RE-ELECT BOARD

Members of the Naramata Co-operative Growers' Exchange held their statutory meeting yesterday afternoon, when the provisional directors were all elected to serve for the current year.

For the purpose of creating a working capital five cents per box will be reserved.

Mr. A. M. Pratt, general manager of the Associated Growers, and Mr. Basil Steuart, one of the executive, attended the meeting. Mr. Pratt spoke at some length. We hope to cover his speech in our next issue.

## LOCAL BOYS DO WELL AT PENTICTON

### Roland Reid Wins Sprint and Summerland Team Captures Relay.

Summerland sent a big quota of holiday makers to Penticton on Monday last, Dominion Day. Special trips were made on the "Trepanier" and other boats, but the major portion of the local contingent journeyed by road. There were several showers throughout the morning, and an occasional sprinkling during the afternoon, but it was a fine day generally, and all greatly enjoyed themselves. Nearly all stayed for the fireworks display and dance in the evening.

Some very good baseball was witnessed, the three teams entered for the tourney being Kelowna, Peachland and Summerland. The first two teams opened the play, and Kelowna won a hard fought game with a score of six to two. The first innings was a carnival of runs for Kelowna, five being notched before the last man batted. Peachland steadied down after this and rung up two, whilst Kelowna was only able to add one more. It was nip and tuck all the way in the game between Summerland and Kelowna, it ending in a win for the latter by eight to seven.

Summerland held its own in the field events, although Gayton our local crack athlete, did not compete in any of the open events.

Reid put up a game showing in the one hundred, just beating out a speedy Indian on the tape. Harley Hatfield of Penticton nosed out Reid in the 100 yard hurdle race, and the same Athlete again defeated Reid for premier honors in the high jump. Reid obtained his revenge in the open broad jump by negotiating 19 feet 9 3/4 inches, a splendid effort. Hatfield was his runner-up with a showing of 19 feet 7 inches.

Ted Williams was called upon at the eleventh hour to represent Summerland in the open two-miles, and he put up a remarkable race considering he had received no preparation.

Summerland again upheld its reputation of having the fastest relay team in the west, it defeating the Penticton team readily by about 15 yards. Warren Gayton turned out for this event, the winning team being, Gayton, Reid, R. Munn and M. Marshall.

## O.U.G. CREDITORS MEETING TODAY

Creditors of the Okanagan United Growers, Ltd., which means every grower who marketed his fruit through that concern are to be given a statement of the affairs of the company now in liquidation. A creditors' meeting is being held in Vernon today, when the liquidator, M. G. Wilson, will submit a statement.

Mr. Wilson left here yesterday, by motor, for Vernon following the extraordinary meeting of shareholders of the Summerland Fruit Union.

## EXPERIMENTAL STAFF HONOR HELMER

On Friday evening last the employees of the Dominion Experimental Station gave a farewell dinner to Mr. and Mrs. R. H. Helmer and family. Tables were set for forty-nine adults in the Log Cabin and in addition to these about twenty children were provided for in the grounds. Immediately after dinner Mr. Jos. Smith, one of the oldest residents, rose to speak a few words of appreciation of Mr. and Mrs. Helmer, and on behalf of those present he presented them with a handsome eight-day clock.

An excellent musical program had been provided, many members of the staff taking their part.

## PRODUCTS CO. IN LIQUIDATION

### Matt G. Wilson Will Have Winding up of This Growers' Concern.

The O. U. G. Products Co., Ltd., a subsidiary company of the Okanagan United Growers, Ltd., has gone into voluntary liquidation. This course was decided upon at a meeting of the shareholders held last Friday at Kelowna. Mr. Wilson, of Summerland, was unanimously appointed liquidator.

In reply to an enquiry, Mr. Wilson informed The Review that neither the evaporator nor the cannery owned by the Products Company is likely to be operated this season.

Much of the accumulated surplus of the O. U. G., represented by "pink notes" held by the growers all over the Valley, was invested in the Products Co., and a very large number of fruit growers are concerned in this latest assignment and will anxiously await a statement of the affairs of the company.

## PRACTICAL TESTS IN THINNING

Experiments and demonstrations in thinning of apples are being carried on here under the direction of the District Horticulturist by Inspector Jno. Tait. This work will be continued over a period of years.

Sixteen trees in each of two orchards are being used for the purpose. In the R. S. Jackson orchard a block of Jonathans are being used and in the Agur orchard McIntosh was selected. In each case Mr. Tait thinns each alternate tree according to the prescribed method and the owner the other. Checks will be made of the results and particularly will the crop records be noted.

Extensive copper deposits have been found near the head of the Coquihalla River, within two and a half miles of the Kettle Valley Railway.

A sucker is a person who gets caught trying to make some easy money out of someone else.

## RECEPTION FOR REV. ARMITAGE

### Delightful Social Function at Lakeside Methodist Church—Speeches, etc.

Rev. J. H. and Mrs. Armitage were the guests of honor at a delightful reception held at the Lakeside Methodist church on Tuesday evening, when a large crowd assembled to give them a happy welcome. Representatives from the other denominations of Summerland spoke words of welcome and cheer to the newcomers and wished them all happiness and success while among us here. Rev. H. A. Solly spoke in his usual pleasing and witty manner. Other speakers of the evening were Messrs. H. C. Moller, R. H. English and O. E. Mann.

Mr. Armitage responded to these speakers in an exceedingly fine address. By all who heard him, this reply is spoken of as an exceptional speech.

During the evening solos were ably rendered by Messrs. T. G. Beavis and M. H. Scurrah. The instrumental music by Mr. T. P. Thornhor was much appreciated as well.

The gathering then adjourned to the Parlor where refreshments were served and a most delightful social time spent together.

A small dehydrating plant, which will be used for experimental purposes, is shortly to be installed at Penticton, according to an announcement made by Mr. C. S. McGillivray, federal inspector under the Canned Foods Act. It will be one of four similar plants which the Dominion Government is about to erect, three of which will be built in the Province of Ontario.

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED

Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

**Subscription Rates**—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

**Advertising Rate Cards** and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

**Correspondence**—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

**Typographical Errors**—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

### BRINGS HONOR TO OKANAGAN.

Our congratulations are extended to the Vernon News on its winning the silver cup presented to the Canadian Newspaper Association by the president, Mr. A. R. Brennan, Summerside, P.E.I., to be awarded the best weekly newspaper in Canada. The result was announced at the recent convention of Canadian weeklies held at Halifax.

The Vernon News has long been recognized as one of Canada's best and the publishers are giving the northern part of the Valley excellent service. That it is appreciated is apparent from the generous patronage it receives. Our contemporary has set a high standard which we think has always been reflected in the other newspapers of the Okanagan.

### ELECTRIC POWER SERVICE.

Hot weather is here and its coming revives the disappointment in the heart of many housekeepers in that the long looked for arrival of hydro-electric service has not made it possible for them to do their cooking and water heating by electricity.

With very good reason they feel that the power company and the municipality, as distributors, are not serving the interests of the consumers as they might. With energy available at three and a quarter cents, and a distributing system quite capable of carrying a much larger load than at present, the municipality could, without loss and with very little expense, cater considerably to the comfort of its citizens and, incidentally, make itself a better customer for the power company by providing electricity for heating and cooking at a rate that would make it possible for people to utilize this modern method and it is not beyond the reach of probability that the power company would give the distributors a special rate for power used for the purpose, particularly for heating.

The city of Kelowna, which draws its power from the same source as does Summerland, provides its citizens with a rate of four cents per k.w.h., according to metre measurement for cooking purposes, and for water-heaters the rate there is two cents per k.w.h.

If Kelowna can do this, why can not Summerland?

### CANADA'S PROSPERITY.

When the war was on and this country was putting forth every effort, at home and overseas, to aid the allied cause, a great spirit of confidence and faith, of willingness to work, economize and sacrifice, filled every class of the community from the highest to the lowest.

As a result, Canada's honorable war record has set her high among the nations, with a place at the Imperial Council table and a voice in international affairs.

Canada must and will come, with equal honor, through the troublous times of post-war adjustment. The only question is, will all of us help—or some of us hinder, by pessimism, apathy, or class jealousy?

To the Canadian farmer this question comes with a peculiar force. Agriculture must be the economic balance wheel of this or any nation. It is an occupation where nature herself demands energy, courage, economy, and efficiency. These sturdy qualities radiate from our farms to industries in other walks of life, where so many leaders were country born and bred.

The farm home and farm life as the source of what has been and is the strongest and truest in our national character is interwoven with the history of Canada from its infancy. The settlers on the shores of New Brunswick and Nova Scotia, toiling to clear a patch of forest and sowing their grain among the stumps; Hobart and the pioneers of New France, fighting Indians, enduring privations, wresting merely a rude living from their small clearings, but of full of faith in the future, if not for them, then for generations to come; the men who rescued Upper Canada from the wilderness; the Red River colonists, who, after two years of complete destruction of their crops, sent a party to Mississippi for seed grain for the next year and won! These men made possible the Canada of today.

The farmers of Canada, then, have a rich history and a noble tradition to live up to. Upon them Canada's progress has always, in the main, depended; upon them it will always, in the main, depend.

What, then, is necessary for the farmers of today? Simply the application of those qualities we have referred to—energy, courage, economy and efficiency, and under present-day conditions the return is sure and speedy. A very high percentage

of farms owned by farmers in this country have been acquired and paid for in the farmer's own lifetime. For the present and future generations there is exactly the same opportunity. True, with each generation, and perhaps oftener, we may have to change our type of crops to meet changing market requirements, but surely that is a trifling task compared with that of those who had to establish themselves in a new country, create their farm, their community, their markets, and their civilization.

During the war years, the farmer, like most others, became unreasonably optimistic. As in other industries, he over-capitalized, tied up too much money in extravagant buildings and expensive machinery, bought tractors to get the crops in more quickly and easily, without considering whether actual earning power of these warranted the investment. With the depression, which has followed, this over-expansion has been a serious burden and has shaken the faith of some in ultimate success.

We must get back the indomitable courage and untiring effort of Canada's early days. The farmer must remember that in the last analysis he is infinitely better off than the wage-earner of the city. True, his cash income may sometimes be small, but he can, at the very worst, gain his living from the soil, while in the city the larger wage soon melts away in paying for things which on the farm involves no cash outlay. The farm products are necessities of life and must always command a market. The products of city industries must often create their market and their sale is subject to wide fluctuations. Sure of a market, then, the farmers' main problem is simply the lowering of cost of production to permit of a fair margin of profit even at present prices. This can be done and is being done.

We may call attention to the advertisement placed in this issue by the Federal Department of Agriculture. It is more than an advertisement; it is a call to united and cheerful effort, a summons to the Canadian spirit of the "will and win" which has burned so brightly throughout Canada's history—a spirit which is so well shown in a message received in Ottawa only a few days ago from one of the foremost farmers of the Province of Alberta. He says: "It started to rain the last part of the week, and this coming after the recent heavy rains has put the soil in a condition that it has not been in at this time of year since 1916; the farmers are consequently very jubilant and if optimism could pay debts the farmers of Southern Alberta could by next fall cancel our National Debt."

## From Our Exchanges

### "THE LONG-STANDING FOLLY OF THE OKANAGAN."

Inevitably the fruit producers of the Okanagan Valley and other fruit growing areas of the province will learn that their tariff policy has been and is the outstanding folly of the industry. When we analyze the situation it appears almost incredible that our fruit growers deliberately forego the greatest market in the world in order to get something like a monopoly in the puny prairie market of this Dominion—and fail even at that. Such a policy could only be equalled if the State of Washington should forego access to the city of New York in exchange for the privilege of endeavoring to foist a monopoly on the Dakotas. Insane, isn't it, when somebody else does it.

To sacrifice access to one hundred and ten million hungry mouths of the United States in order to play "whole hog" with one million hard pressed poor souls on the prairie who can't afford to eat fruit three years out of five anyway, appears to us to be the greatest folly of the day and the next in line of those which should be erased from the records of the fruit growing industry of this province as quickly as possible. We deliberately confine ourselves to all intents and purposes, to the prairie market and then proceed to antagonize that market by asking for a tariff to help us control it. Not only is it unwise; it fails.

Thousands of cars of Washington apples are sold in the east at fair prices every year; our apples are just as good if not better but they have neither wings, legs nor tentacles with which to scale the tariff wall which we have helped to construct.—Farm and Home.

### "THE WHITE MAN'S GREED."

"Under the above heading, The Commoner, Enderby, comments on the murder by her husband of Annie Louis, on the Indian reserve near that town:

"The butchery of Annie Louis Saturday night is but one of many atrocious crimes which the whiteman must answer for in sight of God and man.

For the actual crime, Charlie Louis, husband of the murdered woman, will have to answer to the law; but for the crime of supplying the bottle of whiskey which was responsible for the murder, the whiteman must answer. The liquor was purchased at the Government liquor store by a whiteman, sold by a whiteman, manufactured by a whiteman, and at every turn of the wheel in the process of getting that booze from the distillery to the Siwash a profit in the transfer has gone to a whiteman. In fact, the upkeep of our schools and hospitals is dependent on the profits the government makes on the sale of liquor.

An empty bottle of Imperial Irish whiskey, an ordinary pocket knife, a bloody hockey stick, which was apparently used by the mad Indian, and a hank of hair; these are the exhibits in the case; and out there in the Siwash burial ground will rest the body of an Indian woman, the mother of four little children, hacked to death by her husband, the father of those little children.

Charlie Louis and Annie Louis, left alone by the whiteman and without saviour, were a peaceful, hardworking, inoffensive pair.

Put whiskey into them and they changed into fiends without reason and beasts without knowledge of right and wrong. Victims of the whiteman's greed."

### CANNED GOODS ARE NOW STANDARDIZED

Consumers Run No Risk of Getting Poor Quality if They Order by Grade.

Housekeepers run practically no risk of getting poor quality canned fruits or vegetables if they will be careful to order by quality grade. All canned goods put up in the larger factories must conform to legal standards, and these are shown on the label of the can. The system of standardizing canned fruits and vegetables is explained in the May-June number of the Agricultural Gazette by C. S. McGillivray, the chief canning inspector of the Department of Agriculture at Ottawa.

The four legal standards of quality for fruit and vegetables are—"Fancy Quality," "Choice Quality," "Standard Quality" and "Second Quality." In addition to general standards for vegetables, specific grades have been established for canned peas. These are as follows: Size No. 1, Size No. 2, Size No. 3 and Size No. 4. The size is determined by the opening in the sieve through which the green peas will pass.

Canned fruits are graded for quality and syrup. In grading for syrup, the terms "Heavy Syrup," "Light Syrup" and "Without Syrup" are employed. If the packer so desires he may substitute the words "Packed in Syrup" and "Sugar" (stating the percentage of sugar in the syrup).

The terms denoting the quality and grade must appear upon the main portion of the label in plain type of a size not less than three eighths of an inch in height. Thus, in the case of peas, the label must indicate the quality and size of the peas contained in the can, thus—"Fancy Quality, Size No. 1." In the case of fruit, it must indicate the quality of the article as well as the consistency of the sugar so far as the sugar content is concerned, thus—"Fancy Quality, Heavy Syrup."

The declaration of net weight on certain sizes of containers is not required, as these sizes have been standardized. These sizes are known as

Size 1s, 1½s, 2s, 2½s, 3s and 10s. The minimum net weight of both the liquid and solids as packed is defined for each of these sizes. Sizes not standardized must show on the label the net weight and the drained weight.

### MANY TROUT EGGS HAVE BEEN PLANTED

Four hundred and fifty thousand Kamloops trout eggs have been planted this season on several streams and lakes in his district by G. N. Gartrell, fisheries inspector.

When the clock strikes the laborers walk out.

### Special Announcement

## J. Ross Higginbotham, O.D.

SUMMERLAND WEST SUMMERLAND

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only.

PEACHLAND DOINGS

A Weekly Chronicle Furnished By Our Local Representative.

Master Lester Adhead, of Calgary, has arrived in town to spend the summer with his aunt, Miss Metcalf.

Mr. Geo. Phillips came in on Tuesday evening's boat to visit his father and mother-in-law, Mr. and Mrs. Geo. Keyes.

The special meetings held in the Baptist church each evening from Sunday to Wednesday were well attended considering the busy season.

When Mr. Keyes visited the Summerland hospital to learn the result of the X-ray pictures of Mrs. Keyes' foot, he learned that the small bone of the leg was fractured just above the ankle.

Mr. J. McKinnon and Mr. T. Powell were outgoing passengers on Thursday morning's boat, for a short visit out of town.

Miss Ruth White, who recently completed her training in the Vernon hospital and received her diploma, returned last week and is visiting her parents and other members of the family here.

Mr. Joe Morsh left on Monday for Oliver to accept a temporary position on some of the engineering works.

Mr. and Mrs. J. Kudelka and family left on Monday to motor to Oregon to visit friends and relatives for a week or two.

Mr. W. D. Miller motored in from the ranch on Tuesday and took Mr. and Mrs. Lyle Seaton out with him for a visit during part of the vacation.

VACUUM STORAGE OF FOOD BEING TESTED

An interesting article in connection with the vacuum process of storage for perishable food products is contained in the June number of the Commercial Intelligence Journal.

The article states: "As a result of successful trial shipments of perishable food products to Hong Kong and other Eastern ports, a company to be known as the Vacuum Storage and Trading Company, Ltd., is now in process of formation in Melbourne.

An announcement was made at the Union church service on Sunday to the effect that commencing with next Sunday, Sunday school will open at 10 a.m., instead of 2 p.m., as formerly.

Dr. Lipsett motored up from Summerland and took Mr. and Mrs. Bulyea down for the Dominion Day celebration at Penticton.

Miss Whiteman, well known in Peachland since her teaching days here, has returned to spend her summer vacation at the home of Mrs. and Miss Needham.

Two of the teaching staff of the Central school, Miss Noble and Mr. Macmillan, left by stage on Monday to take the K.V.R. westbound at West Summerland.

Trepanier Lodge A. F. & A. M. of Peachland entertained the Orian Lodge A. F. & A. M., of Penticton, at a basket social on Thursday of last week.

When Mr. Keyes visited the Summerland hospital to learn the result of the X-ray pictures of Mrs. Keyes' foot, he learned that the small bone of the leg was fractured just above the ankle.

Mrs. Wm. Ashley recently enjoyed a visit from her niece, Mrs. Wm. McDonald, of Vancouver, who called in on her way back to the Coast after a visit to her former home near Moosomin, Sask.

Several local hunters and citizens were all excitement on Tuesday morning when it was reported that Mr. Allan Wilson was called on by a good sized black bear at his kitchen door while they were out in the orchard working.

Mr. MacKenzie got his 303 into action. Whether those hunters got Buck fever, or Bruin has a charmed life is not known, but although Mr. MacKenzie also thinks he crippled him some more he made his get away.

YALE MEMBER IS EULOGIZED

(Continued from Page 1) "Coming to parliament via the historic bye-election of 1920, made necessary by the appointment of Hon. Martin Burrell to the post of parliamentary librarian, Mr. MacKelvie made a splendid impression from the start. It was his privilege to second the motion for an address in reply to the speech from the throne in 1921, and his speech was conceded by the press of Canada to be the best maiden effort in the House for several years.

"Mr. MacKelvie believes uncompromisingly in protection for the fruit industry. He knows that the very life blood of it is dependent upon the ability of Canadian growers to prevent the Americans, whose seasons are earlier, from glutting the Canadian market at preserving time. "A journalist once referred to John Armstrong MacKelvie as the Encyclopedia Okanaganensis—for in him is deposited all the lore and all the knowledge of the entire valley. His fellow-townsmen recognize the fact, and if one happens in the town of Vernon in quest of information, one is invariably referred to the News office. His office is one of the best appointed in Canadian newspaperdom. It looks like a real workroom and not a bluff. "Mr. MacKelvie confesses that politics is his one and only hobby, and admits being a strong party man. He is an organizer par excellence, and his ability as a platform orator has led to his services being eagerly sought on behalf of every Conservative candidate who ever sought the favor of the electors of the valley. He is a political fighter, and a clean and honorable one at that. "In his earlier days, soon after he reached the west, he joined the Alberta Rifles during the Biel rebellion, and fought as a loyal Canadian. He had a brief and glorious career as a soldier, and was one of the party that rescued Mrs. Gouinlock and Mrs. Delaney from Big Bear at Loon Lake. "After these fighting days, Mr. MacKelvie spent a year in Calgary, then took to the western trail again in search of gold. He reached Vancouver in 1888, when the present world port was only an infant railway terminal. After knocking around the city for a year or so, Mr. MacKelvie heard rumors of a gold find near Nelson, which started him on the trail for the interior. It was by chance that stopping at Kamloops, he happened to hear of the newly-discovered Okanagan valley, where such remarkable results were being secured in farming. Nelson was far away, the fruitful Okanagan, with its waiting harvest, was near at hand. He crossed over to Vernon and went to work in the harvest fields. Odd jobs made subsistence possible until W. R. Megaw opened his store in the town, and then Mr. MacKelvie became its manager. "For thirty years as editor of the Vernon News, Mr. MacKelvie has with his trenchant pen exerted a constructive and salient influence on the people of the Okanagan Valley. "In the House of Commons he speaks very seldom, but what he says is always worth hearing, and fellow members flock in from the lobby when the member for Yale has the floor. But while Mr. MacKelvie is not given to talking aimlessly for the sake of piling up words in Hansard, his actions speak all the louder."

PERSISTENCY BRINGS PROFIT

The Montreal Star makes an interesting and pointed business remark when it declares that "January's advertising helps June and June's will help December." There is a word of truth, reason and significance in this utterance and a little reflection will prove why this is so. Effective advertising must not be spasmodic but must be persistent. To hope for instant and sustained results from one or two advertisements is to expect the impossible — is as though one hope by attending school a day or two every six months to become an educated man. The one is as absurd as the other. The wise advertiser is he who advertises regularly week in and week out and regards his initial advertising as the builder regards his foundation — a basis for the permanent superstructure that is to rise later.—Kingston Standard.

poem by UNCLE JOHN

I wonder if the man's alive, that's got a perfect score, in pleasin' all the critics that his life is flashed before? It's true our dear Redeemer lived a short, though perfect span. But critics pierced his lovin' heart, as brutal humans can. This land or our'n has shed its blood, that peoples might be free, We seized our swords an' bayonets, an' said, "It's got to be!" We sent our dashing boys abroad, an' crushed the monster's might, and now, we hear the critics howl, "They never done it right!" Facts is—a lot of Dervishes, in editorial guise, that spends their time promotin' all the politician's lies. They occupy a velvet seat, an' shake their loaded dice—they'd criticize the angels, if the devil had the price!

NARAMATA NEWS

Current Events of Town and District

The C.G.I.T. left on Friday for the camp at Kaleden.

Stanley Allen returned home on Friday, after the winter course at the B. C. University. He passed 2nd in one hundred and fifty students, and also won a general scholarship.

The repairs to the lower dam were finished last week.

Mr. and Mrs. E. W. Tanner left on Wednesday morning for Victoria, where Mr. Tanner will take a short course of study.

The Boy Scouts left for camp on Saturday in charge of Scoutmasters Stewart Allen and Leslie Smith. They came in for church service on Sunday afternoon when Rev. Armitage preached a special sermon.

The school awards were made, and prizes presented by Chairman Kennedy on Friday. The principal addressed the students on the necessity of keeping school matters in mind above all else, during the school period of life, and also outlined the changes which would be necessitated by the addition of an eighth grade to the course. The awards were as follows: High school pupils taking first year examination (Preliminary course, junior grade), Margaret Symons, Myrtle Iverson, Wesley Eastman. High school pupils taking second year examination (Advanced course, junior grade), Mary Young. Public school promotions, in order of merit. Division 1 (Mr. E. W. Tanner's room), to grade 8 (Entrance class), Alice Cross. To grade 7, Robert Horswill, Violet Lawrence, Harold Young, Robert Symons, Annie Smethurst, (on probation) Ernest King, Division 2, (Miss B. V. Vanderburgh's room). To grade 6 (5th Reader, part II), Eileen Horswill, Victor Waterman, Lois Walters, Dora Cross, Edgar Hanck, John Munro, Walter George. To grade 4 (4th Reader), Ketha Iverson, Rena Woods, Rhoda Cargill, Arthur Hook, Molly Rayner, Wilbert Munro, Ralph Symons. To grade 3 (3rd Reader), Bernice Young, Douglas Amaron, Lloyd Iverson, Vera Clements. Division 3 (Mrs. Coates' room). To grade 3 (3rd Reader), Robert Walker, Margaret Nuttall, Doris Hook, John Aikins, James Gawne, Harry Woods, Stuart McPhee, (on probation) Edith Waterman. To grade 2 (2nd Reader), Margaret Cargill, Agnes Armour, Phyllis Dunn, Grace Ar-

mour, Isabel Munro, Gordon Dunn, Arthur George, Roseway Hardman, Phillip Wilkinson, Phillip Rounds. Division 1 pupils taking entrance examination: Norman Hanck, Robert Iverson, Charlie Kennedy, Avery King, Florence Lyons, Alice Walters. Rolls of honor.—Punctuality and regularity: Division 1, Colina Kennedy; 2, Arthur Hook; 3, Robert Watson. Proficiency: Division 1, Robert Horswill; 2, Eileen Horswill; 3, Margaret Cargill. Department: Division 1, Florence Lyons; 2, Walter George; 3, Doris Hook. Division 1, McLean writing certificate, Annie Smethurst. Division 2, improvement in writing, Douglas Amaron, Molly Rayner, Lois Walters. Best work, Bernice Young, Ketha Iverson, Eileen Horswill. Division 3, heads of classes: Robert Walker (2nd Reader A), Edith Waterman (2nd Reader B), Margaret Cargill (1st Reader). Writing, Margaret Nuttall. Water book, Robert Walker. Best flower book, Edith Waterman.

FIRE EXTINGUISHERS.

Cheap fire extinguishers may be made by filling old electric lamp globes—or bottles can be used with some solution having special fire extinguishing properties. (Such a solution can be made by taking 20 parts calcium chloride, 5 parts of common salt, and 75 parts of water. The globes are filled by immersing them in a large dish or pail containing the solution and breaking off the tips with a pair of pliers. They will fill quickly owing to the fact that the air has been largely exhausted from them during manufacture. When a fire occurs one or two of these globes are thrown at the burning object.

English as She is Spoke.

The following is an actual dialogue between two Summerland residents, both recent arrivals from the Old Country: "Give us fower-r-r bits wuth o' chookituts, Missis!" "Fower what's o' what? Tuk English, mon." "Gie us twa bob's wuth o' Chookit suckers, mither!" "E-e-e, by gum, na tha's talkin'. A canna mak t'talk oot o' onny on ye."

It Makes a Difference How It's Done.

When a boy should be splitting wood at home it's the time you are quite likely to find him at the gymnasium doing something to develop his muscles.

HOMIE PHILOSOPHY for 1923.

ONCE we knew a man in far away India who for more than thirty years had not spoken to a human soul. His last words were that it was better to talk and do things than to waste time talking; moreover he believed nobody ever had said anything of lasting value. It would be a strange world if all of us just shut up and talked through our actions. Gee, how lonely it would be. Lots of things might be accomplished that are now left undone, but we'd miss that human contact that seems to make the whole world kin. And it isn't true that nothing has been said of lasting value. There are three everlasting words that stand as the foundation of human happiness and development: Love! one another. We don't need to talk a great deal if we say something.

Uncle John's Jests

White House Doesn't Tempt Mrs. Ford

A picture of Henry Ford appears often in the public press, but seldom is that of his wife seen. Mrs. Ford is quoted as saying that she has no desire to live in the White House. Her husband has been suggested as a candidate for the presidency of the United States.

Making It Clear The Pacific Banker in a recent issue prints the following "form" letter, found in the old records of a private banker, as an example of a notification unique in expression, convincing in argument, and which probably produced results: "My dear Sir: I have gone to considerable expense in getting into proper shape to do a banking business. I suppose I could take what money I have and loan it out privately, and make as much money as I can by having a regular bank; however, I concluded to build a vault, employ clerks, invest in stationery, etc., my principal object being to build up a deposit account. Now, my friend and esteemed customer, whenever I look at your account I am sorry to say instead of your depositing funds with me, I am continually having funds deposited with you, and as you have no vault, no clerk hire, etc., and would not pay my cheque if drawn on you at sight, I would be under many obligations if you would bring my money back and deposit it to your credit, so that at least, if you have no funds deposited with me, I may have the satisfaction of knowing I have none with you."

GREATEST MOTOR CAR EXPORTING COUNTRY

"It is predicted that within a decade Canada will be the greatest automobile exporting country in the world," says The Industrial Digest, New York. "Several of the world's largest producers of motor vehicles according to recent reports, are now handling all their export business from the Dominion, while the largest individual manufacturer of motor cars has for some years filled all orders for the British Dominions and possessions from his plant on the Canadian side of the Detroit River." Wall Street Journal.

Canada Confident of the Future

CANADA is endeavoring to regain her after-the-war stride in the midst of many difficulties, — debt, deflation and depression being some of them. Quack remedies and academic theories beset her path on every side. Some suggest that our debt worries can best be eased by going further into debt. Others preach blue ruin, decry their own country and indulge in mischievous propaganda generally, while still others look for a new social order or some miraculous sign to indicate a better coming day—all this in apparent forgetfulness of the fact that just as there was no royal road to win the war, there is now no royal road to pay for it or regain our former buoyancy, vigor and confidence.

even a blazed trail. They had to fight savages, frosts, scurvy, loneliness and starvation. The United Empire Loyalists subdued an unbroken forest in one generation, growing their first wheat amid the stumps and snags of the new clearing. The Selkirk settlers came to Manitoba when the prairie was a buffalo pasture, and grew wheat where none had grown before and where those who knew the country best at that time said wheat would never grow. Today the Canadian prairies grow the finest wheat in the world.

In proportion to population Canada stands to-day among the wealthiest nations in the world, with average savings on deposit per family of \$800. Canada's foreign trade per head of population stands amongst the highest of the commercial nations, being \$192 per capita in 1922-23, as compared with \$135 in 1913-14, the "peak" year before the war.

New Opportunities for Canada In Canada, although prices in the world markets fell below war level, our farmers reaped last autumn the largest grain crop in Canadian history, and Canada became the world's largest exporter of wheat, thus in large measure making up for lower prices. Last year, Great Britain, after an agitation extending over thirty years, removed the embargo on Canadian cattle, and a profitable and practically unlimited trade is opening up for Canadian stockers and feeders.

Some are leaving Canada hoping to escape taxation, only to find there is no escape anywhere. In seeking for easy remedies too many of us overlook the fact that the greatest remedy is honest, hard work faithfully and intelligently performed, accompanied by old-fashioned thrift. It takes time, it takes patience, it takes grit. But every Canadian knows in his heart that Canada is coming through all right. Our Experience Proves It Look back over the path Canada has trod. The French Colonists, cut off from civilization by 3,000 miles of sea, faced a continent—a wilderness—without the aid of

"The 20th Century belongs to Canada"—if Canadians keep faith. The next article will suggest practical opportunities for profit making on our Canadian farms.

Have Faith in Canada

Below is a report furnished by the
Dominion Experimental Station here
for the week ending Tuesday:
Max. Min. Rain Snow S.S.
June 27-81 56 ... 13.2
June 28-80 50 ... 14.4
June 29-92 58 ... 12.2
June 30-80 64 ... 14.8
July 1-84 59 ... 15.0
July 2-80 65 .03 ... 3.0
July 3-75 55 ... 12.5

WANTED.—Two reliable men.
Thinning and picking. Apply Major
Hutton. 804
Miss Foster of Enderby is the guest
of Mrs. C. B. Winter. She came down
the lake yesterday.
Mr. McConnell an S.O.R. patient
at the hospital here for the past two
months, returned to Vancouver yea-
rday.

Local Happenings

Bill Wilson was in from New West-
minster last weekend.
W. Nichol left on the train Satur-
day noon for Vancouver.
Mrs. Daniel and family are leaving
Saturday morning for Regina.
Miss Ida Shields went down to the
Coast on Sunday for a short visit.
Mr. and Mrs. V. J. Bernard and
family and Mr. and Mrs. W. W. Bor-
ton and family motored to Vancouver
last week.
Miss Ruth Blair returned last week
from Riverside, Cal., where she has
been since Christmas.
Miss Sue Whiteford, of the Dom-
inion Bank staff, left on Sunday
to spend a vacation at the Coast.
Mr. M. F. Meredith was the guest
of honor at a party given by Noel
Wright on Wednesday evening.
Alex. G. Smith left for Vancouver
on Sunday's train, where he will at-
tend summer sessions at the Uni-
versity.
Miss Bessie McCallum returned on
Saturday morning from the Coast,
where she has been spending her
holidays.
Mrs. A. B. Elliott and her daugh-
ter, Miss Kathleen, are leaving on
Saturday for a visit to friends and
relatives in Nova Scotia.
Master Frank Atherton, of Kel-
owna, is spending a holiday in Sum-
merland with his father, J. J. Atherton,
of the Review staff.
Miss Margaret Dunsdon left on
Tuesday for Victoria where she will
visit her grandparents, Alderman
John Harvey and Mrs. Harvey.
Mr. and Mrs. Helmer boarded the
boat on Monday evening and are now
on their way to England for a visit
before they go to their new home in
Nicola.
Miss E. M. Hamilton, Winnipeg,
is the guest of Mr. and Mrs. W. C.
Kelley. She arrived here Monday
evening and will go on to the Coast
the end of this week.
Mr. and Mrs. Robinson left a few
days ago for Vancouver and Victoria.
Mr. Robinson, local instructor in agri-
culture, will attend the G.W.V.A.
re-union and then go on to summer
school at Victoria.
Dr. Davidson and Mr. Lloyd Bolton
came in from Vancouver Tuesday
morning and left again for Vernon
Wednesday. Dr. Davidson is in charge
of the campaign against the white
pine blister rust.
Howell Harris returned Tuesday
morning from Oregon Agriculture
College, where he has been taking
post graduate work during the past
winter. He received his M. S. A.
degree with a very high standing.
Mrs. Finley has as her guest at
Crescent Beach her niece and the
latter's husband and children and
Miss Tuckett, all of Portland, Ore.,
and Mrs. Kennedy, of Spokane. The
party motored up from the Rose City
arriving here last Saturday and plan
to start on the return journey next
Wednesday.
Among the ex-service men of Sum-
merland attending the big re-union in
Vancouver this week are Theodore
Herman, J. Mitchell, jr., W. G. Rit-
chie, Dave Thompson, W. Atkinson,
jr., Frank Williams, J. Siddall, W.
J. Nicol, D. T. Ewon, Russell Roe,
V. J. Bernard, W. W. Borton, S. Bar-
tholomew and B. Robinson.
A rattlesnake, three feet long and
with ten rattles was killed by Geo.
Henry last Friday in Upper Garnet
Valley. It had but a short time be-
fore devoured a young rabbit whole,
which extended twelve inches within
the snake, greatly enlarging its di-
ameter. This is the third rattler kill-
ed by the same citizen in a short time.
J. Ross Higginbotham, O. D., opti-
cal specialist of Penticton, will visit
Summerland the first and third Fri-
days of each month, beginning this
week, specializing in muscular and
refractive defects of the eyes and the
examination of the eyes for glasses,
and in every way effecting a complete
optical service. Special care given
to the eyes of children.
Greta Ranch and Dan McLaugh-
lin's ranch a little further north were
severely hit by hail on Monday after-
noon, according to authentic reports
from Penchland. A shower passed
over upper Garnet Valley in a south-
west to north-east direction during
which considerable hail fell. Some
of the orchards on the higher levels
at Penchland are said to have suf-
fered, while most of the orchards of
that district experienced some
damage.

Hobbs, Miss Roadhouse, Miss Simp-
son.
Mrs. H. H. Boyle and Miss King are
camp nurses, the latter officiating also
as librarian.
Mrs. Yeandle, assisted by Mrs.
Campbell of Penticton, is the busi-
ness manager. They are ably as-
sisted in looking after the bodily
wants of the girls by Miss Grier and
Mrs. Bothwick of Penticton, Mrs.
Munn and Mrs. Shields of Summer-
land, Mrs. Cash and Mrs. Morrison
of Naramata.
The attendance up to date is: Ju-
niors, 47; Seniors, 51; Staff 20.
The staff occupy the ground floor;
the kitchen, store-rooms and spaci-
ous dining room are in the basement.
The grounds are suitable for tennis,
basketball and group games. The
beach is excellent and safe. There
is a good wharf with diving board.
The following is the daily schedule:
Schedule
7.00 Rising whistle, flag raising,
setting up exercises, dip.
7.45 Morning watch
8.00 Breakfast.
8.30 Housekeeping (staff meeting).
9.30 C.G.I.T. Bible study.
10.15 Free.
10.45 C.G.I.T. Mid-week session.
12.00 Free.
12.30 Dinner.
Quiet for resting, reading, study.
2.30 Games.
3.30 Free.
4.00 Swim.
6.00 Supper.
8.00 Campfire, reading of chronicle,
vespers.
9.15 Bed.
9.45 Quiet.
Sunday.
8.00 Rising whistle, morning dip,
setting up exercises, morning
watch.
9.00 Breakfast.
10.30 Sunday school.
11.30 Free.
12.30 Dinner.
2.30 Church service.
3.30 Letter writing, quiet talks, etc.
6.00 Supper.
8.00 Camp fire, vespers, etc.
9.30 Bed.
10.00 Quiet.
The girls have chosen for their
camp name "Shaka Camp," and the
daily chronicle is called "The Shaka
War Whoop." It is edited by the
groups in turn, and it is read around
the camp fire at night. There is an
editorial, a serial, current events,
jokes and an occasional poem. Two
stunts are put on by the groups each
evening, then comes the bed-time
story, a sing-song and prayers.
On Sunday, Mrs. Green, a returned
missionary from China, told of her
work. Monday, Mr. Robinson gave
a talk on botany. Tuesday there was
a life saving demonstration and in-
struction in resuscitation. The camp
officers were also elected by the girls,
the following being their choice:
Senior Camp: pres., Cathie Hancock,
Naramata; vice-pres., Alice Myers,
Naramata; secy., Amy Smith, Sum-
merland. Junior Camp: pres., Jean
Travis, Penticton; vice-pres., Veda
Cooper, Penticton; secy., Mildred
Wilson, Summerland.
To be continued from July 4-9.

THIRTY-ONE LOCALS ARE IN ASSOCIATED

Official List Is Issued Showing Those Which Have Joined Co-operative Movement.
The list of Co-operative locals which are united with the Associated Growers of B. C. Ltd., has been issued and is as follows:
Armstrong Co-operative Growers Association; Bonington Fruit Growers Association; Boswell Fruit Growers Exchange; Burton Co-operative Growers Exchange; Carrolls Co-operative Growers Union, R. R. No. 1, Burton; Crawford Bay Farmers' Institute; Enderby Growers Exchange; Fauquier Co-operative Union; Grand Forks Co-operative Association; Harrop and District Co-operative Association; Kamloops District Co-operative Growers Union; Kelowna Growers Exchange; Keremeos Growers Co-operative Association; Nelson Co-operative Fruit Growers Association; Naramata Co-operative Growers Exchange; Oliver Co-operative Growers Exchange; Peachland Fruit Growers Union; Penticton Co-operative Growers; Robson Co-operative Exchange;

Nothing Better

than a big salmon, halibut or cod steak.
No bones—white tender meat fried to a crispy brown.
Come in this week and get fresh fish for a royal feast.
DOWNTON & WHITE

SENATE HOLDS UP VALLEY LINE

Keen disappointment is felt all through the Okanagan and more particularly in Kelowna and Vernon in the action of the Senate last week in giving the bill authorizing the completion of the Kelowna-Kamloops Railway a six months' hold.
So certain were they after the bill had been given its third reading in the Commons that it would go through that they were looking forward to having the branch in operation in time to handle 1924 fruit and vegetables.

SCOTTS PICNIC IN SCOTTISH WEATHER

Between fifty and sixty citizens, members of St. Andrew's Society and their relatives motored up to Garnet Valley dam on Monday, leaving here about 11 a.m., to picnic there. The program of sports was interrupted by showers of rain and hail and late in the afternoon they came down and finished the day with a supper in St. Andrew's hall.
The hardest kind of work is that which we have to do ourselves.
Most people like to be flattered but few care to be soft-soaped.

FAREWELL TO R. H. HELMER

(Continued from Page 1)

but nowhere are warmer or stronger friendships made than in the West, and as you go to your field of labor, we assure you that you leave behind a host of warm friends and admirers, and we know that in that new field you will carry that same strong desire to render public service, whose reward, like virtue's, is its own expression.

We ask you to accept this small cabinet as a slight token of our esteem and appreciation of yourself, and your many services to Summerland and Naramata.

We join in extending to Mrs. Helmer, yourself, and family, our sincere wishes for your continued success and happiness.

On behalf of the Summerland Board of Trade, and of Summerland and Naramata citizens.

The above is the formal address from the citizens of Summerland to Mr. R. H. Helmer, read by the chairman of the Board of Trade at a large attended gathering in Empire hall last Thursday evening.

An informal program of music occupied the earlier part of the evening which was followed by a few brief speeches and presentations to Mr. and Mrs. Helmer.

A feature of the program was a three-part performance by a number of Naramata young people, whose clever work under the direction of Miss Robinson, was greatly enjoyed. Other numbers included: Vocal Solo, Miss Kayner, Naramata; Banjo Solos, Mr. C. B. Winter; Piano Duett, Misses Bumfrey; Song, Miss Bumfrey; Vocal Duett, Messrs. Beavis and Newton.

PROMOTIONS AND HONORS

(Continued from Page 1) life, Marjorie King, Myrtle Walden; 2, Mary Munn, Elva Pirie, Percy Rand, Gertrude Shields, Mildred Laidlaw; 3, Ethel Denike; 4, Sadie Cunliffe, Walter Cunliffe, Emily Mountford, Myrtle Page, Herbert Page, Lois Zimmerman; 5, Laura Smith, Kitty Beattie, Alastair McGown; 6, James Clark; 7, Marianne Orr, Gertrude Clarke; 8, Cameron McGown; 9, Robin Agur.

Forestry Essays. Some time ago the B. C. Forestry Department offered prizes for the best 500-word essay on "Our Forests, and Why We Should Protect Them." Two silver medals have been awarded to pupils in the Summerland School, one in the Senior Grade section to Stella Wilson, and one in the Intermediate Grade section to Joyce Plant. As there were in the neighborhood of 10,000 essays submitted, this is quite a distinction.

Eight Year Course. Beginning in September this province will adopt the Eight Grade System of classification in the Public Schools. Most of the other provinces of Canada have been working on this system for years, and the pupils in this province have been attempting to accomplish practically the same amount of work in seven grades. A year ago the Readers were changed but there was no official change in the naming of the grades, so that there must have been some uncertainty in the minds of parents as to the progress of their children. The new system is a very simple one to understand, as may be seen from the following list of Readers prescribed for the various grades:

Grade 1.—First year pupils (including Recolving Class, Canadian First Reader. Grade 2.—Second year pupils, Canadian Second Reader. Grade 3.—Third year pupils, Canadian Third Reader. Grade 4.—Fourth year pupils, Canadian Fourth Reader. Grade 5.—Fifth year pupils, Canadian Fifth Reader (Part I). Grade 6.—Sixth year pupils, Canadian Fifth Reader (Part II). Grade 7.—Seventh year pupils, prescribed books. Grade 8.—Eighth year pupils, books to be selected from a prescribed list.

ing involuntarily to the Nicola Valley. Since its inception Summerland has occupied a position of eminence because of the public spiritedness of a few of its citizens, declared Rev. H. A. Solly, who described Mr. Helmer as a man filled with the idea of public service. Summerland was losing a man who in every sense is a public spirited man and the only consolation is that Nicola needs him more.

Dr. Andrew regretted there were not among the government officials more who could recognize the true worth of a man and were in a position to pay him accordingly, as then he felt that we might still have Mr. Helmer with us. He referred to the leading position Mr. Helmer had held in the Valley, his value at conventions, with his wealth of facts, his punch and conviction. Few have held such a position for so many years. He was one of Summerland's best boosters.

Mr. Kelley declared there are not as many public spirited men in Summerland as there might be; too many were not using their talents as they might and urged that more of our young people take example from the work of Mr. Helmer. In hospital work, institutes and many other ways he has set an example.

After Mr. and Mrs. Helmer had been asked to go to the platform, Mrs. Solly, on behalf of the women of Summerland and Naramata, presented Mrs. Helmer with a travelling bag. In an excellent address the speaker referred to the active part Mrs. Helmer had always taken in the W. A. of St. Stephen's church, the Women's Institutes and the Ladies' Hospital Auxiliary. She had always been ready to help and with a smile. Her going was creating a gap that would never be filled.

Mr. Kelley then made the presentation to Mr. Helmer who briefly acknowledged it and that of the women to his wife. He declared it the proudest day of his life "when you as citizens recognize in such a handsome way the things I have tried to do." He had been a citizen of Summerland since the day the Development Company had taken over the former cattle ranches. He found it hard to root up and to break old associations. But for twenty years he had been telling people how to farm and he now hoped to be able to put many of his theories into practice.

SCHOOL BOARD PERMITTED TO USE COTTAGE

Cottage School Building to be Converted but Probably Not This Year.

That the School Board has the authority to convert the cottage school building built and used for some time to take care of the overflow from the main Central School building, was the purport of a letter from Mr. S. J. Willis, superintendent of education, read at the last meeting of the board. It is not probable that the building will be converted in time for use this year and may not be touched until after the new year.

Miss Elliott was granted leave of absence for September. Mrs. Harvey Walton, who as Mrs. Denton has just resigned from the staff, will be her substitute.

Correspondence from the solicitor with respect to the collection of high school fees now in arrears was read and the matter was laid on the table until the next meeting.

Mr. S. A. McDonald, principal of the Central School, presented his report of the work of the past year and made some suggestions for the coming term. This report was accepted.

Accounts totalling \$2,959.29 were examined and approved for payment. Mr. H. W. Daniel, of Vancouver, was appointed to a position on the Central School staff, at a salary of \$1150.

The secretary was instructed to advertise for tenders for conveyance on the several school routes. Particulars of these are given in the advertisement.

INCENDIARIES GIVEN HEAVY SENTENCES

H. A. Archibald and Henry Banister were sentenced to twenty-three and seven months respectively in Oakalla jail by Judge Swanson in the District Court at Kamloops, for arson at Sicamous on June 5, when a warehouse was burned down.

B. C. WEEKLY CROP LETTER

Department of Agriculture On Progress Made in Past Week.

The June drop has all passed and growers generally throughout the district are busy thinning. It is noted with much pleasure that there is more and better thinning being done this season than has occurred in any previous season. It seems apparent that the lecture "The Trail of the Cull" recently delivered by Mr. J. R. Paterson of Wenatchee, has awakened general interest to the importance of thinning and the benefits to be derived from this orchard operation.

All tree fruits are growing rapidly and give promise of being of a good size where proper thinning has been carried out. Duchess and Wealthy will be a good crop, but from present indications McIntosh will be lighter in the Vernon district than for the past two years.

PENTICTON MAKES OFFER TO NARAMATA

Some time ago at the request of the Naramata school board the Summerland board made a proposition whereby the Naramata pupils would be given tuition in the Summerland High School at a fee of \$8 per month. The local board left it with the Naramata young people or their board to provide their own transportation. The Pentiction school board is making a proposal to the Naramata school board for the admission of pupils from the latter town into the Pentiction high school. The offer will include a charge of \$80 per pupil and in addition the Naramata board will be asked to pay one third the cost of operating an extra truck from Four Mile Creek to the school. Naramata of course would be required to deliver the pupils to that point.

G.W.V.A. IS OUT OF POLITICS

The G.W.V.A. at its annual convention in Vancouver voted against amalgamation with the Grand Army of United Veterans so long as the latter upholds the idea of a political party and advocates the cash bonus. This was decided after a lively debate and is taken to mean that the veterans association will refuse to enter politics as a body.

FORD TO MARKET NEW MOTOR FUEL

Backed by Henry Ford, a plant for the low temperature distillation of coal, whereby a ton of coal is expected to yield as high as 10 gallons of motor fuel as a by-product is under construction at the Ford factory at Walkerville, Ontario. This announcement was made recently by Wallace Campbell, president of the Ford Motor Company of Canada.

The foundry, which will cost, it is said, approximately \$800,000, will distill about 400 tons of coal daily. The motor fuel by-product, which its inventors claim, may be as universally used as gasoline, will be distilled from the coal without affecting the fuel value of the residue. The residue will burn as well, or better, it is claimed, as the "raw" coal.

ENCAMPMENT BIG SUCCESS

The following "Diary" of happenings at Kaleden, where the "Canadian Girls in Training" have just concluded a most successful encampment, is continued from the date published in The Review of last issue. The camp was struck on Monday last, and the bronzed and happy girls returned to their homes.

GIRLS IN ATHLETIC CONTESTS AND WATER SPORTS—AND AN INDIAN POW-WOW.

Wednesday.—The special feature of the day was the Initiation Ceremony, which took place in the evening. All wore blankets and loachovers. The Great Chief led his braves to a secluded spot and there addressed them admonishing each one to be true to the spirit of the camp. Then to the sound of the tom-tom the Big Chiefs led their braves to their own camp areas, where a pow-wow was held by the tribal chiefs who sent their Big Chiefs to swear allegiance for them to the Great Chief of camp.

BOY SCOUT DANCE A GREAT SUCCESS

Those who dared the elements and attended the Scout dance in Ellison hall on Friday had certainly no cause for regret as it was without doubt the most successful dance of the year. The music was provided by the Rover Scout orchestra, which is making quite a name for itself in the jazz music line.

The girls were decorated in a manner which drew exclamations of appreciation from all who saw it, the Scouts having turned it into a veritable fairy land. Support was a feature of the evening, when all sat down to pleasant banquet.

Great credit is due to Troop Leader Noel Wright and A.S.M. Allen Harris, under whose directions the program was carried out. If the concert is handled as well it will be well worth attending.

CREDITORS AT VERNON IN ANGRY MOOD

Severe Criticism of Action of Summerland Fruit Union Financing.

Summerland came in for some severe criticism at a meeting of creditors, practically all members, of the O.U.G. last Friday at Vernon. It was the policy of the Summerland Fruit Union, adopted in 1921 upon the urgent demands of the members, whereby growers shipping through the Union were advanced monies against the anticipated crop, that occasioned the grumbling. Money for these advances was borrowed from the Summerland branch of the Dominion Bank and, here is where the O.U.G. net holders are concerned, this loan was guaranteed by the O.U.G.

Friday's meeting confirmed the appointment of Mr. M. G. Wilson as assignee and was attended by about sixty creditors.

Mr. Wilson gave the meeting the three principal reasons, in his opinion, of the failure of the organization. First was the investing of \$40,000 of reserve of working capital in the Fruit Products Co., done at the request of the shareholders, and the advancing to this subsidiary company a further \$85,000 as working capital.

The second mistake was the loaning of \$25,000 of the fruit growers' money to establish a box mill at Chute Lake. For this the O.U.G. holds a mortgage on the plant. Third came the guarantee made the Dominion Bank on behalf of the Summerland Fruit Union, a net liability, according to Mr. Wilson, of about \$45,000.

It was chiefly the depreciation on these several investments that left the central organization in an insolvent position, resulting in the assignment. Mr. Wilson placed the total deficit at about \$100,000.

CAR GOES OFF KALEDEN HILLS

Four occupants of an almost new Star car north bound had a narrow escape from death, early Sunday morning, when it rolled over the edge of the road at the top of the first steep grade on the Kaleden hills and dropped 40 feet to the flat beneath.

Gabriel Saunier the owner of the car was driving and sustained some bad cuts about the face and neck and a severe bruise on the shoulder. The other men with him were P. Cameron, Mr. Golden and F. Denison. All were badly bruised and Saunier and Cameron were taken to the Pentiction hospital, but the latter was sufficiently recovered to be able to leave on Monday.

Mr. Saunier claims that the accident happened through one of the front wheels of his car breaking, but none of the others appear able to give any account of what took place.

The car was almost entirely wrecked. From its appearance the rear end struck the ground first, the back of the body being buckled badly. The hood and windshield were smashed and the braces of the steering wheel were all broken. Considering the condition of the car it is regarded as a wonder that any person came out of it alive. It was hauled into Pentiction and taken to a garage.

BOY SCOUT DANCE A GREAT SUCCESS

Those who dared the elements and attended the Scout dance in Ellison hall on Friday had certainly no cause for regret as it was without doubt the most successful dance of the year. The music was provided by the Rover Scout orchestra, which is making quite a name for itself in the jazz music line.

The girls were decorated in a manner which drew exclamations of appreciation from all who saw it, the Scouts having turned it into a veritable fairy land. Support was a feature of the evening, when all sat down to pleasant banquet.

What Have You Got? How Will You Trade? LET'S SWAP!

Everybody has something lying around that they would like to turn into hard cash—or failing that—to trade it off for something needed around the house or farm. Tightness of money cannot hinder a swap. The other fellow wants what you've got—and you need something he has no further use for.

Commencing with our next issue The Review is going to specialize with a "Swap Column." Look 'em up! See what you have got lying around idle, and then send your copy along.

Here's a sample: SWAP—Sewing machine in good order. Will trade for gramophone and records, or anything suitable. Jack Jones, Lake Road. SWAP—Airdale pup, male, pedigree—will exchange for white leghorns. Box 318, Review. Rates: three cents a word. Minimum charge 50 cents.

EVERYBODY SWAP

PRESENTATION TO MISS ELSEY

Armstrong Advertiser: "At the Baptist church on Thursday the members and Sunday School united in making a presentation to Miss Gertrude Elsey, previous to her leaving Armstrong for her home in Summerland. The presentation, which was a Crown Derby cup and saucer, was made in appreciation of Miss Elsey's services as organist and Sunday School teacher. Refreshments and ice cream were served after the presentation."

BOY SCOUTS PROMISE FUN

Entertainment Next Friday Night Said to be a Scream from Start to Finish.

To raise the necessary funds needed for the forthcoming encampment of the local troop of Boy Scouts, a splendid entertainment has been arranged for the public on Friday night in the College Gymnasium. This method of "raising the wind" is enterprising and commendable, as it not only throws into discard the old method of passing the hat, but it inculcates the correct spirit of working for what one gets—a Scout axiom.

A splendid program has been arranged, and the Scouts want the public to come expecting a good show, because they are not going to disappoint them. There are two excellent farces on the bill of fare, besides a number of screwing funny interludes, which should keep the audience rocking in their seats. There is a grand ensemble of the whole troop in a concerted number and as this opens the proceedings the audience are requested to be on hand in good time. The fun starts promptly at 8.15 and the price of admission is nominal.

SUMMERLAND INVITED IN AUTO ASSOC.

Board of Trade Hears Talk from Manager, But No Decision Made.

Summerland Board of Trade through its Good Roads bureau, has been invited to become a branch of the British Columbia Automobile Association, an organization recently launched at the Coast.

J. R. Sigmore, Vancouver, manager of the association, met the executive of the board last Friday and outlined the objects of the organization. He explained it would be province-wide, with locals in as many points as possible. All locals would have equal representation upon the central directorate, thus removing any feeling that the larger bodies in the big cities could control the association.

His efforts would be directed towards obtaining the construction of a trans-provincial road, removing roadwork from the sphere of politics, having the auto license road money expended on road maintenance and improving travelling conditions for tourists and local motorists as well. He said that it was the intention to place emergency men on the road in this district to assist members and motorists.

Mr. Sigmore said that if the government favored a 3c tax on gasoline as suggested by the Premier, the association might feel disposed to cooperate, assuming, however, that license fees came down, and also that all monies raised from auto owners were spent in road maintenance.

The membership fee is ten dollars, including the cost of the club emblems for the front of the car. Rev. H. A. Solly, while approving of a provincial organization, thought that the board should not move hastily. He referred to another organization, already mentioned in these columns and thought this should first be heard from when conclusions could be drawn and some decision be made as to the merits of each association. This suggestion was endorsed by the others present. In the meantime Mr. Sigmore will correspond with the secretary on the subject.

TAKING RAINBOWS WITH PITCHFORKS

Naramata Co-op. Directors Issue Report and Hear Talk from A. M. Pratt.

That Indians are using seins and pitchforks to catch rainbow trout from Whitewater Lake, a few miles west of here on the Similkameen side of the divide, is the statement published by the Orville Gazette.

After describing the experience of two Orville men during a fishing trip to that lake, and the wonderful catch they obtained the Gazette says: "The young men were surprised to see a state of affairs existing there which would not long continue to exist if the game warden of that part of the province knew what was going on. They report that Indians were found camped at the lake engaged in sealing the fish, and in such a way that the fish had absolutely no chance of escape. The fish run up a very small stream emptying into the lake for the purpose of spawning. Indians throw a net across this stream and snare so many of those big rainbow trout that they are able to pitchfork them out of the water in piles. Indians are not alone guilty of this despoiling the lake, as white men (that is, not extremely white) are alleged to be engaged in the same ruthless slaughter of these game fish. If a halt is not put to this method of taking the fish in a few years the lake will be depopulated."

HEADQUARTERS FOR TOURISTS NOW IN B. C.

The American and Canadian Tourists' Societies have moved their headquarters from Los Angeles, Cal., to Vancouver, B. C., for the summer months. During July and August there will be many events for the visitors, given by the Tourists' own organization. On Wednesday, July 25, there is to be a monster rally of 25,000 tourists from U.S. and Canada, at Stanley Park, Vancouver. Reduction fares will bring thousands from the States and Pacific Provinces for this big event. J. Arthur Inopon, Tourists' Hdqrs., 438 Pender St. W., Vancouver, B. C., is the Hon. Sec'y.

BRODER TO RUN VALLEY CANNERY

Among the shipments of box shoo that will be made from here this season will be some twenty thousand shoo for tomato cases from the factory of the Summerland Lumber Co., Ltd., to Kelowna for the Broder Canning Company, Ltd.

According to well founded reports the Broder Company will operate the cannery at Benvoulin and will likely be in the market for Summerland ripe tomatoes not already contracted. C. H. Duncan, owner of the Benvoulin cannery passed through here on Wednesday en route to New Westminster and it is understood he will complete arrangements while there to operate for the Broder Company this season.

CRESCENT BEACH A POPULAR RESORT

Crescent Beach is becoming more popular each season as a summer resort. This season has seen more local people camping there than ever before, several new cottages having been built. The latest is one being built by Mr. Croil.

BREAKS ARM IN FALL FROM TRUCK

Mildred Arkell, the eight year old daughter of Mr. and Mrs. J. C. Arkell, is in the hospital with a compound fracture of the right arm as the result of an accident on Sunday. Mr. Arkell, foreman of provincial roads in this district, being concerned about the Summerland-Peachland road which has been much damaged by the very high water of the lake, went over his section of that road on Sunday afternoon and took several members of his family with him. It was just when he had returned to Crescent Beach and had turned off the road to call on their eldest daughter, Miss Marie, who is camping at the Beach, that the accident occurred.

It is thought that Mildred was leaning forward in the chair in which she was sitting in the truck, when the latter was thrown to one side as it left the hard road and the little girl was thrown headlong to the ground, alighting on her right arm. Both bones between the wrist and elbow were broken.

SOME SNAGS ENCOUNTERED

Naramata Co-op. Directors Issue Report and Hear Talk from A. M. Pratt.

The first general meeting of the Naramata Co-operative Growers' Exchange was held in Naramata Hall on Wednesday, July 4th, at the hour of 2 p.m., the chair being taken by Mr. F. W. Rolt, provisional president of the Exchange.

Mr. Archie M. Pratt, general manager of the Associated Growers of B. C., Ltd., and Mr. Basil Stuart, a member of the executive were present for a short time, and replying to several questions, gave the meeting much valuable information. Mr. Pratt said he felt the organization was being built up on a very firm and solid basis, this remark having special reference to the arrangements made for prairie marketing. He explained that the Naramata house and the Growers' Sales Agencies had been appointed brokers for the Associated, the idea being that competition between the two would stimulate business very appreciatively. As previously announced in the press arrangements had also been made to place the bulk of the McIntosh crop in storage at United States points. This has an important bearing on the Jonathan situation, brokers having been notified that the McIntosh crop having been dealt with they must make a special effort to place the Jonathan crop on the prairie. In reply to questions regarding the British export market, he stated that a special study was being made of this very difficult and complicated problem. He explained that though very large quantities of American fruit went to that market, growers were anything but satisfied with results obtained, and freely admitted that so far they had entirely failed to control the situation. He went on to say that he was hoping shortly to confer with a number of large producers of the State of Washington with a view of considering a plan

ARROWS SHOW LOCATION OF AUTO PARK

Poster at Boundary Will Tell Motorists of Ideal Parking Site.

Road signs directing visitors to the tourist camp in the Park in Peach Orchard have been erected, the chief credit for which should go to Ned Bentley. These have been made in arrow form and painted black with white lettering.

Capt. H. H. Creese is preparing a sign board or advertisement to be erected at the Customs House, Osoyoos. This will advise motorists of the fact that Summerland, fifty miles north, has a splendid natural park near the lake and situated among forest trees with running spring water, etc.

Only an occasional motorist passing through has, so far, learned of the existence of the Summerland park, but already quite a few have used it and all are delighted with its natural beauties, which only await a few added conveniences to make it superbly attractive.

ADMINISTRATION IN B. C. HIGHEST IN CANADA

The rise in the cost of administration of provinces in the past five years has made rapid forward strides, according to the Financial Post.

British Columbia's cost of administration has increased nearly 100 per cent since 1917, as the figures of 1917 show the cost to have been about \$9,581,740, as against \$17,346,487 in 1922. Per capita expenditures of the provinces of Canada in 1922 were: British Columbia, \$30.11; Alberta, \$18.57; Saskatchewan, \$16.07; Manitoba, \$12.99; Ontario, \$12.07; Nova Scotia, \$8.83; Prince Edward Island, \$7.52; New Brunswick, \$7.51 and Quebec \$6.00.

The per capita administration expenses of all Canada have jumped from \$7.16 in 1917 to \$12.54 in 1922.

Revenues from forests, automobiles, succession dues, leases of lands, and various licences have been increasing rapidly. Corporations in Canada are paying about \$25,000,000 a year or approximately one fifth of the total provincial revenues.

ROAD GRANT TO NARAMATA

Special Authorisation for Completion of Road Recently Washed Out.

Victoria.—A large number of authorisations for work on roads, trails and bridges have been made this week, and further authorisations are expected after the return of Hon. W. E. Sutherland and Chief Engineer P. Philip from the north, where they are on an inspection tour of the Queen Charlotte Islands and the country along the Grand Trunk Pacific as far east as Prince George. The Minister of Public Works is expected back on July 15.

Works that have been authorised Those authorisations include: Diversion to North Naramata road to enable fruit crop to be shipped where washout of road occurred, to cost \$850. General repairs to cost \$4,750. Repairs to Mission brook bridge, to cost \$500, and \$700 for Mill creek bridge at Naramata.

Repairs to Revelstoke-Okanagan road following slides, caves-in and subsidences, to cost \$10,000. Work to be carried out by provincial day labor.

Gravelling five mile extension of Oliver-Osoyoos road under foreman Finlay Fraser. Section of trans-provincial highway between Creston and Duck Creek to be rock-surfaced at cost of \$4,000, and extension of Howell-Kusknook road south of Roswell to connect with Creston-Crows Nest Pass trans-provincial highway at cost of \$6,000. Both works to be carried out by provincial day labor under general foreman Moore.

The Summerland Review

Established August, 1908. Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

A NARROW ESCAPE.

Though cruel to an individual neighbor, Providence was very kind to the fruit growers of Summerland on Monday of last week when the hail storm crossed the Valley but a very few miles north of the Summerland fruit area.

Hail is a rarity in this district, years having gone without any serious loss having suffered by it. But that it is always a possibility and a hazard was demonstrated by the loss of two years ago, the near visitation of last week and the occasional very local and slight damages that have been reported from time to time.

In such a favored district as ours it should be possible to buy hail insurance at a very low rate, and the risk, slight as it is, is altogether too great for the individual to assume.

Farther down the Valley, on the Washington side of the line, it is customary for fruit growers to carry hail insurance. True they appear to be more likely to have hail, but our risk is sufficient to make it necessary here as well, and we would probably get it at less cost.

NEARLY READY FOR HARVEST

While some of our neighboring towns must go to great expense to provide camping sites for motoring tourists, Summerland has the great advantage of possessing an ideal site provided by Nature. There is, however, some outlay required to make it attractive—to bring the business local tradesmen are looking for.

POACHERS BUSY DOWN THE VALLEY

Oroville Gazette: Word is received from down the valley that solicitors for city job offices are canvassing the business houses of the various towns for job work. In some instances they are taking this class of work for less than the same shops do the work for their city patrons, just to get the order, or put up the appeal that country offices cannot do the work for which they are soliciting.

ENCAMPMENT BIG SUCCESS

(Continued from page 1.) visited the camp on Thursday afternoon and watched an interesting program of sports, the results of which were as follows: Senior—50 yards dash—1, Elsie Meldrum; 2, Pearl Johnson; 3, Margaret Allen.

THOS. B. YOUNG

Are you Loyal to B.C.?

A big majority vote was cast when nearly 4,000 growers of fruits and vegetables decided by written ballot and a five-year tight contract that British Columbia growers have their own co-operative organization that would represent the industry.

Nearly 90% of the B.C. Growers are already members. Recognized loyalty to B.C. in this common problem will certainly and rapidly increase this membership towards the ideal 100%.

It is a duty and a privilege. Be a part of us. Talk it over. ASSOCIATED GROWERS OF B. C., LTD. B. STEUART, Local Representative.

The Canning Season Ready For You The season for FRUIT AND VEGETABLE CANNING is now here and so are those perfect sealing fruit jars you need.

Y.R. BOYS BACK FROM CAMP

Even the best of things must have an end, as the ten Summerland boys are fully realizing today as they manfully struggle with a "five box" cherry tree, for the third Y.R. annual camp closed when the truck arrived at the old camping spot at Miller's Point at 2.30 yesterday.

Burning Stomach relieved in two minutes with Jo-To. Jo-To relieves gas pains, acid stomach, heartburn, after-eating distress

From Our Exchanges

CANADIAN MOTOR CARS TOO COSTLY.

"Price f.o.b. factory, \$2,500. Price in Canada (delivered, taxes, etc.) \$3,800." This is the kind of contrast that staggers the buyer of an automobile in Canada. He is asked to support home industry; he is told that the automobile he buys is "built in Canada," and yet the same make of automobile costs him over 50 per cent. more than the factory price in the United States.

C.P.R. RUNNING EXCURSION HERE

Many prairie and coast people are this year taking advantage of the special excursion rates made by the Canadian Pacific Railway to visit the Okanagan Valley. Special advertising is being done by the railways on the prairies and at the coast, and it is having a good effect.

July Clearance A. MILNE SALE COMMENCES FRIDAY, JULY 13th This is the Big Clean-Up Sale you have been waiting for. Everything at Melt-Away Prices

In the story where they get married and live happy ever afterwards the hero doesn't marry a suffering suffragette.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

PEACHLAND DOINGS

Mr. R. J. McDougall and family accompanied by some friends, motored up from Penticton and spent part of Sunday with Mr. and Mrs. Dorland.

Peachland branch of the G.W.V.A. entertained with a dance in the Hall on Saturday evening last. There was a goodly number present and everything went well.

Mr. Bradley was a recent arrival in town having come from Winnipeg to join his family whom he moved out here last season.

Miss Doris Bradbury came down from Kelowna last week to spend a few days at her home in Peachland. She was accompanied by the two little children of Mrs. Edwards of Kelowna, with whom she is employed.

Mr. F. A. Maxwell returned home on Tuesday evening after a short visit out of town.

Mr. Hamilton of Kelowna, who is one of the District Inspectors for the Associated Growers, paid Peachland an official visit this week.

The Loyal Orange Lodge, No. 408, held its regular monthly meeting on Tuesday evening of last week. Arrangements were advanced for joining the 12th of July celebration held in Kelowna, and were completed at a special meeting on Tuesday evening of this week.

Mr. and Mrs. E. E. Eddy and family left on Tuesday evening of this week for their former home in the East. They expect to remain in the East till next spring when they will return to Peachland.

Master Robert Williams left on Wednesday morning in company with the Eddy family to travel with them as far as Regina, near where he goes to spend some months with an uncle, and try farming.

Mr. Bell, who taught in the Central school in Peachland some two and a half years ago, and who has since been teaching in the Armstrong Consolidated school, visited friends in town last mid-week while on a motor trip through to Victoria and

other Island points where he goes to spend his summer vacation.

Miss Myrtle Robins returned home last week after having spent several months out of town.

The members of the Peachland branch of the L.T.L. with their leaders and some other adults enjoyed a pleasant picnic at Trepanier Creek last Thursday. A shady spot beside the creek was selected for the eat part of the picnic.

Bert Baptist, Municipal Constable for some months, having resigned, a new appointment has been made and any offenders will be dealt with in future by Mr. Weitzel, sr. Mr. Weitzel is a very quiet inoffensive citizen, but as he says himself, "one not to be bull-dozed," and he intends to carry out his duties without fear or favor.

Mr. John Tait, of Summerland, paid an official visit in the community last week, returning home on Saturday.

The death occurred here on Sunday morning of Mrs. M. E. Law, widow of the late R. E. Law, sr., who departed this life in the year 1907. Mr. and Mrs. Law were natives of Ontario, having spent years of their life in Toronto. They came to Peachland in 1906 to be with members of the family who resided here.

The funeral service was conducted by Rev. T. A. Sadler from the Union church on Tuesday morning, at 10.30. There were beautiful floral tributes from friends of the family. The bearers were Messrs. R. J. Hogg, R. H. Huston, W. Douglas, A. D. Ferguson, Dr. Buchanan and J. L. Elliott.

Mr. and Mrs. Bulyea returned home last midweek after a few days visit at Penticton and Summerland. They were accompanied by a sister and her husband, Mr. and Mrs. Alexander, who motored up from California to visit their Okanagan relatives.

The lake shore road between Peachland and Summerland received more or less damage from high water and waves last week and it was feared

for a time that it might become impassable. Traffic is still continuing however, and it is hoped that there will not be any bad storms till the water has commenced to subside.

Mr. Kenneth Hogg and members of the family motored up from Summerland on Sunday last and visited Mr. and Mrs. R. J. Hogg here.

Rev. Isaac Page, assisted by Mr. H. Brown, Penticton, conducted the regular service in the Baptist church on Sunday afternoon.

Sunday last marked the commencement of the holding of Sunday School at 10 a.m. in the Union church, instead of 2 p.m. as heretofore. The alternate Sunday's preaching service will follow at eleven as usual.

He that idly loses five shillings' worth of time loses five shillings, and might as prudently throw five shillings into the river.

NARAMATA NEWS

Current Events of Town and District

The Women's Auxiliary of the Anglican church held their regular meeting on Friday at the home of Mrs. Rushbury.

A runaway occurred at the wharf on Friday, when the Lyons team bolted owing to a too sharp turn which snapped the pole, and left the team out of control.

Mrs. Wakeling and her mother, Mrs. Pinnington, together with the two Wakeling children, have rented the Tanner house for July, and arrived on Friday evening.

Mrs. Stanley Dickens and children are visiting Mr. and Mrs. Williams, and expect to remain here for some weeks.

Mr. Hayward has returned to Naramata, and is living in the small cottage next to the old home.

Mrs. Amaron returned from the Kaleden C.G.I.T. camp at Kaleden on Monday, and reports a good holiday for the girls.

The Boy Scouts broke up camp on Monday morning, having had ten days under canvas.

The monthly meeting of the Board of Trade was held on Monday, president Weaver in the chair.

The road between Naramata and Pentiction was taken up, and a letter authorized to Mr. Gwyer on the subject.

Miss Plumm and Miss Mason, both of Vancouver, are staying at the Syndica Hotel.

Miss Turner, sister of Mrs. Rushbury, accompanied by Miss Cis Rushbury, arrived on Monday from Vancouver, and will stay two weeks.

Miss Violet Lawson, of Vancouver, arrived on Tuesday evening, and is the guest of Mr. and Mrs. Weaver.

Encampment Big Success

(Continued from page 1.) The spirit of the camp is entering more and more into the girls; while enjoying the physical exercises to the utmost, they are taking a keener interest in the development of the spiritual.

Saturday was a rainy day, but that did not interfere with the program, for the building is spacious enough for one hundred girls to be at home without crowding.

A program of rest and study was planned for Sunday. A list of Bible stories was distributed to the groups. These were to be read and dramatized in the afternoon.

Mrs. Amaron, the camp director, gave the parting talk to the girls. She said they were linked up with a band of fifty thousand young people who were studying how to make this world a better place in which to live.

If we follow in the footsteps of the Master we shall always be in the right path. Many times we shall come to cross-roads, and not know

SPRAYS KILL LEAF ROLLER

Experiments by the University of Idaho Prove Value of Strong Arsenic.

That proper spray activities will control the apple leaf roller has been established by workers in the state departments of horticulture, agriculture and chemistry, of Idaho, who joined together on experimental work in Kootenay county.

Several very definite things were brought out in the course of the work. It was shown that in the case of a heavy infestation of the leaf roller that the larvae could be controlled to such an extent that not only the foliage of the tree could be saved, but also a fair set of fruit secured as well.

To obtain the best results, two sprays were found necessary; one just as the worms were hatching, which is about the time the Wagners are in the full pink stage, and another at the time of the calyx spray. It was also found that to be efficient these sprays must be triple the strength of the regular codling moth sprays.

It was apparent that a very strong active poison is necessary to control this pest, since the Paris green and the acid arsenates of the lead gave the best control. One very striking fact brought out was in the use of lime sulphur with the arsenate solution.

It was apparent that a very strong active poison is necessary to control this pest, since the Paris green and the acid arsenates of the lead gave the best control. One very striking fact brought out was in the use of lime sulphur with the arsenate solution.

Monday was breaking up day. The awards for codes and specimens were given. The percentages were unusually high, and the specimens of bugs, flowers and leaves varied and were artistically arranged.

Camp has shown to me a way So great, so grand, so full of things unknown, And yet so sweet and simple that I own I needs must follow, catching from afar Visions of all the greatest things that are And are to be.

HELMER ADVISES THINNING APPLES

Now that the now co-operative is assured and beginning to function we, the growers of B. C., cannot sit down and hold out our hands for the dollars to fall in. Each and every one of us has a duty to fulfill and that duty is to help in every way to make the co-operative a success.

The initial consideration has to be that of thinning. It is an inoperative operation but a most necessary one, and what we wish to point out this year is that there will be two thinning needed. An early thinning, and later in the season a thinning for worm-stung apples.

The initial consideration has to be that of thinning. It is an inoperative operation but a most necessary one, and what we wish to point out this year is that there will be two thinning needed. An early thinning, and later in the season a thinning for worm-stung apples.

PRACTICAL EDUCATION

The child's brain is susceptible of the highest development, but it should be developed along the line of its inclinations and for practical purposes. If ever there was a time when sanity in education was needed, now is that time.

The education of today seems to destroy initiative, self-reliance, courage and a desire for self-support. The educational system of today has apparently destroyed the desire on the part of children to be contributing members of society.

Men of brains and money should spend their time and money and their energy in founding, erecting, and directing technological schools for the training of boys and girls in the great mechanical trades of life.

There's many a puzzlin' problem that attacks a feller's mind, when discoursin' to a Public, of a mighty various kind. There's some will differ with ye, and there's others that applaud—an' some that won't believe ye on yer oath, so help ye God!

I've allers heard that Honesty was just among the things, that took a man to Heaven, on the shiniest of wings; that a man that wuzzent honest, had mighty nigh as well, consult the ticket agent fer the slowest train to hell.

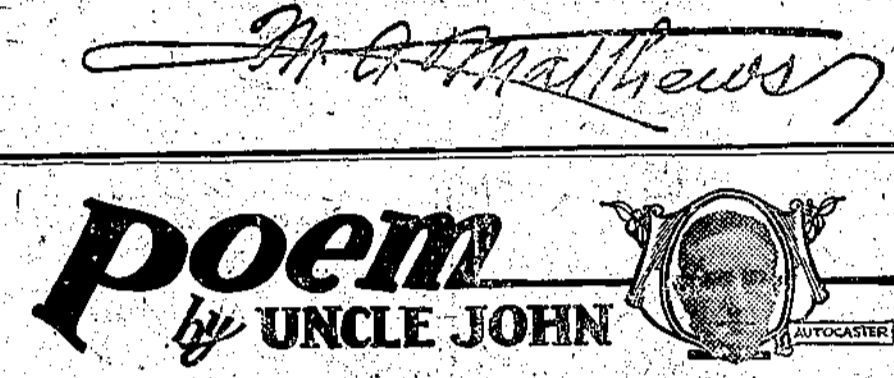

I try to foller reason in the ideas I evolve—an' I sometimes pray fer guidance, when I've got a thing to solve. I've catered more to judgement, than to tolerance or taste, in these days of much palaver where the syntax goes to waste.

That Honesty is resky—in the bosom of a Fool!

American master mechanics, the factories of the land would have to close. The majority of the master mechanics controlling the factories today have been trained in foreign schools. We have permitted the tyrannical labor unions of the country to destroy the school of apprentices.

Men of brains and money should spend their time and money and their energy in founding, erecting, and directing technological schools for the training of boys and girls in the great mechanical trades of life.

We have too many counter hoppers, too many clerks, too many non-entities and too few technically trained mechanics coming from the public schools of our country.

There's many a puzzlin' problem that attacks a feller's mind, when discoursin' to a Public, of a mighty various kind. There's some will differ with ye, and there's others that applaud—an' some that won't believe ye on yer oath, so help ye God!

It is no wonder a man loses his power of speech when talking to a girl who is "too sweet for words."

DRAYING BY MOTORS OR HORSES. We do all kinds of draying and transfer work, and guarantee satisfaction. Have us do your next job. We have in stock and ready for immediate delivery a large supply of Seasoned Pine and Fir in 16-Inch Length. R. H. ENGLISH & SON. Phones 41 and 415.

CAREFULLY SELECTED HOME GROWN MEATS. When you buy your meats from us you help us to keep your money in circulation at home. Downton & White.

COVER CROPS IN BRITISH COLUMBIA

COVER CROPS are now almost universally recognized as soil builders and as an economic orchard practice. There exist, however, certain conditions in several sections of British Columbia's dry belt where very dry conditions prevail and water shortages occur.

To break up the stiffer clay and silt soils, start the work by using rye sown in the fall and ploughed under early as possible in the spring, when a fair stand is obtained, never allowing the rye to dry out the land or grow too much and become strawy.

When ploughing under cover crops, do not plough the whole orchard at once but do it by stages, discing and harrowing as you proceed. This crumbles the soil well and helps to preserve moisture.

Uncle John's Jest. A MAN SHOWS HORSE SENSE BY NOT INDULGIN' IN A LOT O' HORSE TALK! Illustration of a man talking to a horse.

## CARD OF THANKS

Mr. and Mrs. J. C. Arkell desire  
to thank the many kind friends for  
their thoughtfulness at and following  
the accident at Crescent Beach on  
Sunday when their little daughter  
suffered a broken arm. 805

## DODWELL WINS IN TENNIS TOURNEY

Summerland took most of the hon-  
ors at the all-week tennis tourna-  
ment at Kelowna last week.

In the men's singles P. G. Dodwell  
won in the final against Cardinal of  
Vancouver. This is described as a  
very strenuous match of five sets.  
Mr. Dodwell also won in the mixed  
doubles with Miss Froeman of Sal-  
mon Arm against Miss Tatlow and  
Mr. Maw, of Vancouver.

The championship for the Interior  
was won by Mr. Dodwell and Col.  
Worsley of Armstrong against Messrs.  
Cardinal and Maw, of Vancouver.

Mr. Dodwell was in the final match  
for the championship of the Okana-  
gan, with S. Laxon as his partner,  
playing against Worsley, Armstrong,  
and Metcalf, Kelowna, but after two  
sets, Mr. Dodwell, who had been at  
it strenuously all day, elected to dis-  
sault with the consent of his partner.

The veterans' event was won by  
Morrison, Vernon, and Fortune, Sal-  
mon Arm against Maw, Vancouver,  
and Faulder, Summerland.

There were no ladies from Sum-  
merland participating.

Representing the Summerland club  
were: Capt. Davis, Messrs. Dodwell,  
Russel, Turner and Faulder.

The visitors report a splendid time  
and are enthusiastic in their praise  
of the Kelowna courts and the excel-  
lent manner in which they were  
entertained by the members of the  
Kelowna club.

Miss Mathew of Vancouver is the  
guest of her friend, Mrs. Bessie McCal-  
lum. She came in by K. V. R. last  
Saturday morning.

Nort Peckham and Mrs. Peckham  
are moving to Penticton. Mr. Peck-  
ham has taken a position there with  
Gerald MacLain in his garage.

# Local Happenings

Jimmie Smith left for DeMuth's  
Mill on Sunday.

Mrs. R. M. Ross spent the week  
end visiting Mrs. Matheson, Kelowna.

Mrs. A. M. Leslie left Saturday  
morning to visit friends in Nelson,  
and her home in Nakusp.

Mr. and Mrs. J. C. McPherson and  
son, Douglas, came in from Vancouver  
Saturday morning.

Ivor Harris is leaving Sunday to  
take a position in the Bank of Com-  
merce, Vancouver.

Mrs. Ranks and son of Chicago are  
the guests of Mr. and Mrs. Dean  
Walters, Naramata.

Mr. and Mrs. A. J. Boer plan on  
leaving here this week end on a motor  
trip to Wenatchee.

Joe Gayton is leaving the end of  
this week to assist with the camp of  
the Kelowna troop of Boy Scouts.

Miss Edith Litch came in from Van-  
couver Saturday morning. She will  
spend the summer at the home of  
Mr. and Mrs. G. J. C. White.

Mr. and Mrs. C. H. Elsey are re-  
joicing over the arrival of a son,  
born on Friday at the Summerland  
hospital.

Malcolm Walters, son of Mr. and  
Mrs. Dean Walters, Naramata, has  
returned from Battle Creek, Mich.,  
where he has been in high school.

Mr. and Mrs. R. C. Wells motored  
here from Seattle, arriving her Sun-  
day. They will spend a week with  
Mrs. Wells' sister, Mrs. R. S. Monro.

Miss Alice Long, Humboldt, Sask.,  
is visiting her mother, Mrs. Long,  
and sister, Mrs. P. E. Knowles. She  
came in from the Prairies Monday  
evening.

Mrs. P. E. Knowles is making good  
recovery from her recent serious ill-  
ness, the result of blood poisoning  
which developed from a splinter  
wound in her finger.

G. R. S. Blackaby went up to Kel-  
owna this morning to remain until  
the end of the week when he will  
return to Cloverdale to resume his  
duties with the Bank of Montreal  
there.

Mrs. G. C. Benmore and family  
came down last week from Kelowna  
to reside. Mr. Benmore, local man-  
ager for the Occidental Fruit Co., has  
taken the cottage recently occupied  
by Mr. and Mrs. Brosi.

Mrs. McDonald and daughter, of  
Boyle, Alta., are visiting Mrs. M. Mc-  
Laughlin. They arrived Friday and  
will leave for the Coast the end of  
this week with the intention of re-  
turning shortly.

Mr. and Mrs. R. M. MacKay of  
Buffalo, N. Y., have been spending  
some weeks here at the homes of  
W. Jenkinson and J. E. Jenkinson.  
Mr. MacKay has returned home but  
his wife will remain for some time.

J. Atkinson, representing the Bro-  
der Canning Co., Ltd., at Kelowna,  
was a visitor here on Wednesday in  
connection with an order for box  
shook placed by his company with  
the Summerland Lumber Company,  
Limited.

Mr. Jack Riley was the guest of  
Mr. and Mrs. O. Atkins over the  
week end. He left for Kelowna Mon-  
day where he will be for the sum-  
mer, as it is improbable that there  
will be an express agent here this  
season. Mrs. Riley and family will  
join him soon.

Misses Gertrude and Kathleen Nield  
of Calgary are visiting their parents,  
Mr. and Mrs. W. Nield. They arrived  
here last Friday. Miss Gertrude, who  
is with the Hudson Bay Co. in Cal-  
gary, will return at the end of her  
vacation, but her sister, who has just  
completed her high school course,  
may remain.

Mrs. Livesey was the guest of honor  
at a delightful social function held  
last night by the members of the  
Progressive Bible class of the Metho-  
dist Sunday School on the lawn of  
Mr. and Mrs. T. G. Beavis. She is  
leaving on Friday morning for Eng-  
land and will take with her Ronald  
Thornton, little son of Mr. and Mrs.  
T. P. Thornton, who will likely re-  
main with relatives for a year.

M. Archie Graves, with the Bank  
of Commerce, Kelowna, is spending  
his vacation in perhaps an unusual  
ing the Okanagan first" he and Mrs.  
Graves are touring the Valley, spend-  
ing a few days in each centre. In  
this way, in addition to enjoying the  
delightful scenery, he will become  
better acquainted with the whole dis-  
trict. They arrived here on Tues-  
day and remained for two days.

Kenneth Walden left last Thurs-  
day for DeMuth's Mill.

Mr. A. J. McKenzie was a visitor  
here from Peachland last Friday.

Mr. and Mrs. T. H. Riley and family  
left for the south last Friday.

Mr. G. A. Fisher and little son, of  
Kelowna, spent the week end in town  
with Mr. H. G. Fisher.

Miss Helen White returned Satur-  
day morning after a three weeks'  
vacation at the Coast.

Mr. Ambrose Stoner arrived here  
on Saturday night from Ireland to  
visit with his sister in Meadow Valley.

Jack McCallum returned this morn-  
ing from Vancouver and Coast points  
where he has been spending his va-  
cation.

Mr. and Mrs. L. W. Rumball will  
leave here on Sunday by motor car  
for a visit to Vancouver and other  
coast points.

Mrs. Finley's relatives from Port-  
land, Ore., who have been visiting  
her at Crescent Beach, left on Wed-  
nesday to motor to their home.

Mr. and Mrs. Alf Atherton and  
family, and Mrs. T. Armitage, of  
Penticton, motored here on Sunday,  
visiting Mr. and Mrs. J. J. Atherton.

Mrs. Jack Lawler is the vice-pres-  
ident of the G.W.V.A. Tennis Club,  
not her husband as was stated in  
error in our report last week of the  
formal opening of the court.

Mrs. A. B. Elliott and Miss Elliott  
left on Monday morning for Hal-  
ifax and other Nova Scotia points.  
They will spend some weeks amid  
scenes of earlier days.

Walter Johnston, of the S.S. Sica-  
mous, was in town the week end vi-  
siting the McLachlan family prior  
to a two months' trip through the  
United States.

Mr. K. S. Hogg returned Saturday  
from the Coast. He brought with  
him his two nieces, Misses Mary and  
Helen Ledingham, who returned to  
Vancouver on Wednesday.

Mrs. J. J. Atherton, Kelowna, was  
a week end visitor here, the guest  
of Mrs. F. A. Blesdale. Master  
Frank Atherton left on Sunday for  
Penticton to spend part of his holi-  
days with Mr. and Mrs. Alf Atherton  
and family.

Mrs. Isaac Blair has as her guest  
her daughter, Mrs. Gettings, of Bos-  
ton and her little daughter. Ac-  
companying them was Mrs. Wheatly  
also of Boston, a life long friend  
of Mrs. Blair. They all came by way  
of Vancouver and arrived here last  
week to remain about three months.

Change your directory by substi-  
tuting Box Factory 734 for the Mine-  
ola office of the Summerland Lum-  
ber Company.

Mr. and Mrs. Peckham returned  
last week end after a delightful mo-  
tor trip to coast cities, including Van-  
couver, Seattle, Tacoma and Port-  
land.

Greata Ranch lost six thousand  
boxes of apples in the hail storm  
passed over that section on July se-  
cond, according to reports of esti-  
mates reaching town.

Mr. and Mrs. Alexander, guests  
for some time at the Lipsett home,  
left this morning, by motor for Los  
Angeles. It is their intention to  
spend two or three weeks at Yellow-  
stone Park.

Mr. and Mrs. Ed. Wilson of Win-  
nipeg were guests for several days  
of Mr. and Mrs. J. E. Jenkinson.  
They left Monday to visit at the  
Coast but will return to Summerland.  
Mr. Wilson is Mrs. Jenkinson's bro-  
ther.

Dr. J. R. Graham, L.D.S., D.D.S.,  
of Toronto University, has arrived in  
town, and will practice Dentistry in  
all its branches at the residence of  
Mr. Geo. Graham. This is a tem-  
porary arrangement until a suitable  
office in West Summerland has been  
decided upon. 805

Mr. and Mrs. Keith Elliott and  
party have returned from a motor  
trip to Vancouver by way of Wenat-  
chee and Seattle. They had a most  
delightful tour. Keith states that  
the distance from Vancouver to Sum-  
merland is 575 miles coming through  
Seattle. A few miles might have  
been saved by cutting out Seattle.

With delegates in attendance from  
British Columbia, Alberta and Sas-  
katchewan, the seventeenth annual  
convention of the Western Canada  
Irrigation Association at Penticton  
was formally opened yesterday morn-  
ing by His Honor W. C. Nichol, lieut-  
enant governor of the province.

Among the prominent speakers were  
Mr. Walter Packard, California state  
land settlement department; Profes-  
sor Boying, University of British Co-  
lumbia; Mr. A. M. Shaw, University  
of Saskatchewan; Colonel J. S. Den-  
nis, Canadian Pacific commissioner  
of land settlement and natural re-  
sources; Mr. G. H. Hutton, Calgary;  
Mr. P. E. Reid, Regina, and Mr. F.  
W. Hanna, Medicine Hat.

Some topic on the program are  
colonization of irrigated areas; ir-  
rigation district problems; seed grow-  
ing; dairying on irrigated farms; the  
possibility of finishing cattle in the  
irrigated areas.

Quite a large number of Sum-  
merland citizens are in attendance, ei-  
ther as official delegates or private at-  
tendants.

Content makes poor men rich; dis-  
content makes rich men poor.

He that falls in love with himself  
will have no rivals.

SCOTTISH SCENES  
IN PICTURE

Many rural scenes of beauty pho-  
tographed in Scotland are a big fea-  
ture of the new Paramount picture,  
"The Bonnie Briar Bush," which will  
be shown at the Rialto theatre Thurs-  
day next and Saturday. The play is  
in every respect one of the best  
thus far produced by Paramount in  
England. The situations are dramatic  
the appeal universal and the roles  
are in the hands of many of the  
best known screen artists of England.  
Among the players are Donald Crisp,  
Mary Glynn, Alec Fraser, Jerrold  
Robertshaw and Mrs. Hayden Coffin.

V. M. Lockwood, the popular pro-  
prietor of the Rialto is putting on  
this picture as a benefit for the Sum-  
merland Baseball Club.

They say that  
money is tight

Well, suppose it is--

There are other ways of get-  
ting things you want besides  
buying them. If your neigh-  
bor has something he doesn't  
want but something that you  
want, or vice-versa, you can  
arrange a trade, and there  
needn't be a cent of money  
change hands. The only thing  
is, he has to know about it.  
Tell him through

(Continued from Page 1)  
 of joint action for stabilizing conditions in the foreign markets.  
 The directors' report (reproduced below) was then read, and adopted, after which the provisional directors, Messrs. F. W. Rolt, W. S. Young, H. B. Morley, D. T. Walters and A. T. Horswill were re-elected for one year. The meeting then proceeded with the usual formal business and concluded by discussing and passing the following resolution: "Resolved, that for the purpose of providing a capital fund for the purchase of buildings, equipment, supplies and the meeting of packing charges, etc., the directors are hereby authorized to make deductions from the proceeds of fruit and produce passing through the local, to the extent of not more than \$8,000 per annum.  
 "That such deductions continue from year to year unless cancelled by a special resolution regularly passed by the shareholders.  
 "That in lieu of all such deductions, shares in the capital stock of the local at par value, or such other securities as the directors after careful investigations may determine, shall be issued to the growers and shall bear interest at the rate of six per cent. per annum.  
 "That when an amount sufficient for the needs of the local has been accumulated, redemption of these shares or securities, in order of issue, shall be provided for."  
**DIRECTORS' REPORT.**  
 The report of the directors was as follows:  
 To the shareholders, Ladies and Gentlemen:  
 The Provisional Directors of the Naramata Co-operative Growers' Exchange have the honor to submit herewith for your consideration the following report of their proceedings since their election on March 14th, 1923.  
 Steps were at once taken to incorporate, under the provisions of the Co-operative Association Act, Mr. T. G. Bonvis of Summerland being retained for that purpose. Through his experience and careful attention to the requirements of the Act, the preliminary proceedings were carried through without trouble of any kind and incorporation papers were issued on April 9th, 1923, which date, therefore, stands as the birthday of the Naramata Co-operative Growers' Exchange.  
 Shareholders can obtain copies of the Co-operative Association Act on payment of a fee of 50 cents per copy, and will find that schedule B of this Act provides a very complete set of rules, which with a very few alterations have been adopted by the directors for the purposes of this Association.  
 The board next proceeded to appoint Mr. F. E. Lovelady to the position of manager and Mr. C. H. Sismoy to the position of secretary-treasurer and as no suitable accommodation was obtainable elsewhere a room on the ground floor of the Syndia Hotel was rented for an office.  
 The question of finance was taken

up at once with the several banks operating in this part of the Valley. After somewhat protracted negotiations, an arrangement was made with the Bank of Montreal, by which that institution agreed to advance to the Exchange the sum of \$50,000.00, as and when required. The directors had every reason to suppose that all the requirements of the bank had been fulfilled and that no further impediments would arise, but unfortunately the last few days they have been notified that the bank is not prepared to make the stipulated advances until certain further legal adjustments have been carried out, which will put them in the preferential position which they naturally claim to occupy, in order to safeguard their advances. It may be briefly explained that this has necessitated the calling of a meeting of the shareholders of the Summerland Fruit Union on July 4th, and an application to the court for an order relating to the cancellation of the old contracts. The directors have every reason to hope that as soon as these legal technicalities have been disposed of the bank will raise no further objections to the carrying out of their original agreement. It must be explained, however, that owing to the fact that the other banks declined to compete for the business, the board had no choice but to accept the offer of the bank of Montreal, though it is practically certain that the amount named will be insufficient and the conditions of repayment are certainly rigorous.  
 As it is most desirable that shareholders should make a serious and continuous effort to understand the financial conditions of their institution, the board think it right to go into this important matter with some particularity. It seems probable that the shipments through the Naramata Exchange this year will reach a total of 150,000 packages of all varieties of fruit. Assuming the average packing charge on these to amount to 50 cents, the total sum required to handle the crop will be \$75,000, and as the bank so far have set the limit of their advances at \$50,000, it is easy to see that our financial condition may well become difficult, if not critical, before the end of the season. The situation is aggravated by the fact that the Associated Growers, whilst supplying funds for the purchase of the packing houses, are not willing to provide them for acquiring the necessary equipment. Your directors have therefore had no choice but to use part of the monies advanced by the bank to purchase office supplies and furniture and other necessary equipment. Having a very accurate appreciation of the difficulties of the situation, they have bought such articles only as are required for carrying on the business of the organization in a reasonable efficient manner. In this connection it may be mentioned that the board have decided to follow the example of Vernon, Kelowna and other large packing centres and dispense with the use of scales. In this way the expenditure of a large sum of money for the purchase of scales has been avoided and a considerable reduction in packing charges will also be effected. Before turning to other matters it remains to be said that the bank have informed us definitely and distinctly that all monies received by the local from the central must be turned over to them for the liquidation of advances made by them and that no payments on account to growers will be permitted until their own requirements have been satisfied. We are in hopes that this stipulation will not be enforced as rigorously as has been announced, but though we have done our best to secure some modification, we have not succeeded in obtaining any assurance to that effect.  
 Orders for box materials, paper and other requisites have been placed with the Summerland Lumber Co., and other firms, in addition to which a large quantity of such supplies have been purchased on advantageous terms from the liquidator of the Summerland Fruit Union. The board have also agreed to take over from Mr. Littlejohn a certain quantity of box material owned by him.  
 After careful consideration of the matter, it was determined to call for tenders for the hauling of fruit from the packing house to the wharf and

for other work in connection with the business of the Exchange. The tender of Messrs. Mitchell Bros. was accepted and a contract entered into with them, with adequate safeguard for the proper carrying out of their undertaking. The board determined to leave the handling of fruit from the orchards to the packing house to the individual discretion of growers, but they stipulated with the contractors that a maximum scale of charges for such work should be inserted in the contract, with a view to the establishment of rates which should be acceptable and reasonable.  
 The manager having reported that further packing accommodation must be obtained, the board decided to lease the Boves building. Mr. Cook, agent for this property, made it a condition of the lease that he should retain for his own use a certain portion of the basement. No other suitable building being available, the board had no alternative but to agree to the terms imposed upon them. This arrangement is the best that can be made under the circumstances and will, it is hoped, prove adequate for the requirements of the present season, but there is no doubt that among the subjects demanding the most careful attention of the shareholders, none is more urgent than that of the provision of enlarged packing house accommodation.  
 Opinions may differ as to the best way of dealing with this and other problems, but on one point the directors feel that there is no possible room for doubt. They have already found themselves hampered at every turn, as this report shows, by lack of funds and they have therefore determined to take this, the earliest opportunity of bringing forward a plan which will provide for the gradual accumulation of a moderate amount of working capital.  
 Signed on behalf of the board of directors,  
 F. W. ROLT, president.  
 A. T. HORSWILL, secretary.

For the past week a crew of C.P.R. workmen have been busy improving the railway yard. Several trainloads of broken rock have been brought in and placed along the bulkhead beside the spur leading to the storage building and the space between this and the street, formerly the site of the C.P.R. fruit warehouse, is being filled in. This will afford excellent space for additional team truckage.

Vancouver.—Work has begun on an \$150,000 addition to the government grain elevator, which is to be ready by October and will double the capacity of the present elevator.

**OVER 3280 MILES**  
 Displaying a banner "From B.C. to B.C." two young men arrived at Naramata on Tuesday after a motor journey of 3,280 miles from Battle Creek, Mich. They are DeWitt Parsons and Maynard Mapes, both war veterans, one having been in the air service and the other with the navy. They left Battle Creek on June 12th, and travelled west over the Lin-

coln highway to Cheyene, Wyo., thence north to Yellowstone Park, where they spent a week. Carrying a complete camping outfit they have lived in the open all the way and will continue to do so on the return journey on which they started today intending to go through Nelson, Yellowstone and St. Paul.  
 While in Naramata they were the guests of Wesley Rounds, a former Battle Creek friend.

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

"Attractive advertising layout with conservative copy will get the kind of customers you want—maybe not in crowds, but finally bringing them with a desire to buy."—Donald H. Eldredge.

Vol. 15, No. 51, Whole No. 806

SUMMERLAND, B. C., THURSDAY, July 19, 1923

\$2.50, Payable in Advance

## BOY SCOUTS PERFORMANCE WAS ENJOYED

### Big Crowd Witnesses "Plays," Athletic Stunts and a Boxing Bout.

"Tis not in mortals to command success, but we'll do more, Sempronius, we'll deserve it!"

If the Summerland troop of Boy Scouts had the foregoing in mind whilst preparations were under way for their annual concert, last Friday night, then they are to be congratulated, for not only did they fill the spacious College Gymnasium, but they fully deserved every bit of applause so lavishly bestowed upon them.

Capt. H. H. Creese announced that the Scouts were very well satisfied with the financial returns from the dance and concert, although the high-water mark of last year had not been reached. The boys will not remain so long in camp this year as a consequence, the object of the entertainment being to raise funds for that purpose. The standard of the annual Scouts' entertainment has always been of a very high order and if Friday night's program did not quite reach the zenith, there were no complaints, everybody going away happy and voting it a "good show."

The curtain rose to the call of a bugle, and the whole troop were discovered at "attention," the audience rising simultaneously and joining in the National Anthem.

The official Scout Marching Song was well put over. Standing in platoon formation the lusty-lunged youngsters redeared the tuneless "Boys Be Prepared" in a harmonious manner, and an encore was demanded.

The boxing bout between two youngsters proved a "mill" that had the Shelby fizzle feased to a frazzle. This number was put over in the correct orthodox manner, the official diminutive announcer introducing "Jack Dempsey" tuh tuh right, and "Tom Gibbons" tuh tuh left. Time, gentlemen, please, and seconds out of the ring! This was a three-round go in which the championship of Jones' Flat was involved, and the lambasting these champions handed to each other provided much merriment and admiration. Both boys showed flashes of speed, science and head work, and with tuition should be heard of again in the "noble art of self defence." The decision was declared a draw. Dempsey's proxy

(Continued on Page 4)

## COMPANY CAN ISSUE CHECKS

### Court Order Obtained by W. C. Kelley, and Legal O.K. Given.

W. C. Kelley returned on Wednesday morning from Vancouver, where he had gone on business in connection with the financing of the new co-operative organizations of Summerland and Naramata and states that he met with success, having obtained a court order authorizing the extraordinary resolution adopted by members of the Summerland Fruit Union in liquidation at their last meeting.

For some time the credits which the Bank of Montreal was granting the Summerland Co-operative Growers' Association and the Naramata Co-operative Growers' Exchange were held up because of certain complications which the resolution above referred to was intended to remove, because the bank authorities required that the resolution be given the authority of the court. This Mr. Kelley has now obtained, and will enable the liquidator to give full effect to the resolution, which gives the Bank of Montreal a preferred position with respect to the liquidation of the Fruit Union in regard to loans made to the new Co-operative, and will put the Co-operative in a position to issue cheques which have been held up awaiting the court order.

Two Alberta irrigation bond issues have been sold for 103 and 102.81, respectively. The bonds carry the provincial government's guarantee.

## WOULD RETAIN PRODUCTS PLANT

At a meeting of the shareholders of the O.U.G. Fruit Products Co. held last Friday at Vernon, the resolution of the directors to put that company into voluntary liquidation was confirmed.

A meeting of the creditors, who are fruit growers either individually or through the O.U.G., will be held in about three weeks. Many fruit growers have expressed the hope that the liquidator retain possession of the Fruit Products plant, feeling that it will be necessary next season as in this.

The Provincial Department of Labor purposes opening an employment office at Penticton. The Kelowna office has been closed.

## SHIPMENTS OF ALL CHERRIES DISAPPOINTING

### Central States Market Has Not Fallen Down, but Fruit Not Holding Up.

Showery weather has played havoc with the cherries. At least this is the explanation offered for the failure of cherries, evidently in perfect condition when leaving here, falling down before they reach their destination.

Cherries have been going out in considerable volume and all nearby points were well filled before it was discovered that some of the later cherries were not standing up, and therefore could not be shipped to more distant points. Accordingly Central sent the following telegram to the several locals packing cherries:

"Vernon, B. C. "Latest and most recent advice from all markets also local observation and reports from inspectors are most conclusive that Windsor, Bings and Pie cherries will not carry to nearest markets. Therefore strongly advise that picking be stopped as over-ripe and soft and leaking cherries only tend to demoralize a present over-loaded market. Get on to your Lamberts and pack them in prime boxes, faced for export to Minneapolis for next two or three days, thereby giving our Prairie market a chance to clean up.

"ASSOCIATED GROWERS." An unusual development this season has been the shrinking of Bings on the trees just as they reach ripeness.

It is expected that the market will have sufficiently cleared to permit the shipping of Bings, Republicans and other cherries by Friday. The holdup has not been because of price, as general manager A. H. Pratt is quoted as saying that the market is good.

## GRASSHOPPERS AT OLIVER AND FALLS

### Federal Experts Arrive to Head off Invasion of Pest.

Grasshoppers are reported to be doing damage to young fruit trees in the Oliver and Okanagan Falls districts and to combat this pest Ronald Buckle and Paul Vrom, members of the Federal Entomological Branch are now encamped at Oliver and are investigating the situation and outlining a campaign.

Mr. Buckle is said to be one of the best authorities on grasshoppers in Canada and he and Mr. Vrom were sent in here at the request of the Horticultural Branch of the provincial Department of Agriculture. They expect to remain here for about a week.

The difficulty in destroying grasshoppers, it is stated, is that there are so many species of the pest, most of which have different feeding habits. Thus it is impossible simply to go in and poison them, without thorough investigation as their food supply may be so ample that the poison would not tempt them.

The grasshoppers do not appear to be doing any serious damage to trees planted in 1922, but have attacked the young trees set out this year. As soon as the species and feeding habits of these pests have been ascertained the work of exterminating them will commence.

## OBJECTING TO PAY THE RED INK DEMANDS

### Some Growers Will Not Acknowledge Correctness of So-Called Deficit.

That some of the growers who shipped through the Summerland Fruit Union last season and received debit accounts at the end of the season will not pay these accounts without further evidence of their indebtedness, is shown in the fact that a letter declaring their stand and which is addressed to the liquidator of the Union is being signed by a number of growers.

Red ink returns to the total of \$15,000 were made to growers by the Union on last season's operations, which means that all growers unfortunately enough to receive such returns are, according to the books of the Union, in debt to that organization to the extent of the red ink statement given them. This, of course, is in addition to any other indebtedness.

The letter now being circulated declares that the signatories "do not acknowledge the correctness of these statements and are not prepared to do so until we have been satisfied by an independent examination of the books of the Union and the O.U.G. and detailed particulars of the pools of different varieties of fruit, which have resulted in the alleged wholesale losses have been furnished and certified by independent accountants."

These accounts against growers along with all other book debts are now held by the Dominion Bank to whom the book debts of the Union were assigned fifteen months or more ago.

Further complicating the matter is the fact that the contracts were of a three-cornered nature between the Union, grower and central selling agency. Only very few red ink returns were made by the central to the Union but others were so small that when the local charges were considered, there was a deficit on a number of pools.

## PENTICTON HAS CODLING MOTH

An outbreak of codling moth has been detected at the southern end of the Penticton fruit area and about forty acres near Dog Lake have been put under quarantine. R. P. Murray, provincial fruit pest inspector there, with a gang of men, is making a close inspection of the trees both inside the quarantine area and adjoining it to ascertain the extent of the outbreak.

It is estimated that \$2,500,000,000 of American money is invested in Canada.

## BABY PEGGY IS WONDERFUL

### Talented Niece of Local Col. Becomes Juvenile Film Starlet.

Colonel Robert Cartwright, of Summerland, has just cause to feel highly flattered at the remarkable success achieved by his little niece ("Baby" Peggy Cartwright) upon the silver screen. The following dispatch from California will be read with great local interest:

Hollywood, Cal.—Coming to Hollywood from Vancouver, B. C., a short time ago to recuperate from an attack of scarlet fever, Peggy Cartwright, 8-year old film starlet, not only found southern California sunshine to be her best doctor, but she found an opportunity to enter motion pictures, all of which resulted in her becoming a most popular member of the screen juvenile fraternity.

Peggy comes from a most distinguished family. She is the grandchild of Lady and Sir Richard Cartwright. Her uncle is Col. Robert Cartwright, a colonel in the Canadian army; her father, Conway Cartwright, is a doctor by profession and was the youngest Major in the Canadian army. Because of his gallantry during the World War he was recent-

(Continued on Page 4)

## MOTORISTS HERE FROM BANGOR, ME.

Bearing a licence plate of the State of Maine, a big Chandler Six passed through here Saturday, bound for Ashcroft. It was driven by Mr. D. L. Grogan, of Bangor, Maine, who was accompanied by his wife. The most of their route was over the Lincoln highway. They crossed the international boundary at Kingsgate and came by way of Nelson and Grand Forks. They were three weeks and two days from Bangor to Summerland. From here they continued on to Ashcroft, where Mr. Grogan is interested in mining.

## ORGANIZING FOR NEW CREAMERY

Dairy men in the Okanagan from Kelowna north are organizing for the purpose of collecting cream and making it into butter at a co-operative creamery. Considerable difficulty has been experienced by the provincial board of directors in deciding on a location for the creamery but Armstrong has been selected. The new concern is known as The Northern Okanagan Creamery Association.

## IS BACK FROM LENGTHY TOUR WITH BOWSER

### Opposition Leader Has Learned Much of Needs of Good Roads and Irrigation.

J. W. Jones, M.L.A., was a visitor to Summerland last Thursday afternoon on his way home from an extended tour of southeastern British Columbia and Washington state. Accompanying Mr. Jones on his tour was W. J. Bowser, M.L.A., and in the Kootenay country, several other members of the Assembly were with them on a political tour of the several ridings.

Mr. Jones expressed himself as very well pleased with the reception given Mr. Bowser and his supporters and declared that the Opposition manifested some time ago to Mr. Bowser as a party leader had entirely disappeared. But, Mr. Jones was even more enthusiastic over his long tour through the irrigated districts of Washington state.

When championing the cause of the Okanagan in the House at Victoria, Mr. Jones has often been up against the difficulty contained in the fact that very few members know anything of the practical side of irrigation and he was delighted to have the opportunity to take Mr. Bowser through the irrigated districts of Washington as well as the Okanagan and Boundary, and he feels sure that he will have one more active supporter for his demands for better conditions for irrigators.

Mr. Jones says that he also took the opportunity to show how Washington was benefitting by good roads. He is confident that we are losing the opportunity of reaping many thousands of dollars through the fact that we are not providing better roads and other attractions for American tourists.

## COUNCILLORS DECIDE UPON POUND LAWS

### Road Closed for Motor Traffic—Cheque Received for Liquor Sales.

At last week's meeting of the Municipal council, instructions were given to close to motor traffic the road running south between the Rose and Drewett properties, a section of which has been flooded for some weeks. At the same time, orders were issued to have the grade passing the Hutchinson and Johnston properties improved as an alternative route. Coun. Kirk presented a report with respect to the flooded area, describing his plan for remedying the trouble. This was laid on the table awaiting further information.

G. S. Drewett sent in a bill for five dollars for hauling Dr. Andrew's car out of the water on the above section of road. The claim was not entertained.

Complaint from Cameron Barr of a leaky flume was referred to Foreman Tomlin.

The treasurer reported the receipt of a cheque from the provincial government for \$1918.97, provincial grant under the Liquor Act. Two-sevenths of this money is apportioned to the school fund and five-sevenths to the general municipal fund.

Accounts totalling \$14,119.35 were approved for payment. This included \$5000 interest on debentures.

W. K. Gwyer, provincial road engineer, wrote requesting payment of \$125, the municipal share of the cost of altering the site of the shore road through the Mellor property.

Further applications for electric light service were received when the treasurer reported that the money realized from the share of debentures for this purpose had been exhausted, and further sales of debentures in the treasury would be necessary. The extensions were granted, subject to a sale being made and the treasurer was authorized to sell one or more debentures.

## CAR AND MAN GO OVER HILL

### Artificial Limb Responsible for Accidents—Marvelous Escape.

Grand Forks Gazette says: "Jack Todd, of Penticton, in his Ford car went off the road at the top of Sunnyside hill and rolled down the mountainside several hundred feet and completing about three somersaults. The accident occurred Tuesday afternoon and aside from a few severe bruises to his face and some scars on the Ford, both driver and car are now on the move as usual.

Mr. Todd is a veteran of the war, who went overseas from Grand Forks with the 48th battalion, and had come over from the Okanagan to renew old acquaintances. As a result of the scrapping in France Jack left one of his limbs over there and his substituting propeller is to blame for the accident. When he started to come down the hill his foot got caught in the brake and before he could get it released the car was travelling at high speed and he lost control, finally shooting into space at one of the curves.

There is quite a steep pitch to the mountain where the accident occurred and Jack figures he made about three revolutions in the course of his travels before coming to a stop.

## OPENS OFFICE

Capt. P. S. Roe has opened an office in the same building with M. G. Wilson on Shaughnessy Ave. and will there conduct the business of the Okanagan Lake Boat Co. and the coal and wood business and Penticton stage, which he carries on in his name.

## IMPROVING ROAD

The bridge over the creek in Peach Orchard near the Lawler property is being replaced by a concrete culvert and earth fill. Much heavy traffic passes along this road, particularly during the fruit shipping season and it has been felt that the old wooden bridge was not strong enough for the heavy loads.

## ESTIMATE OF FRUIT CROP FOR VALLEY

### District Horticulturist Says We Should Have Best Crop In Our History.

W. T. Hunter, District Horticulturist, has made a revised crop estimate for the Okanagan Horticultural District.

Apples are estimated at 3,233,000 boxes or 4,620 cars, this being a 20 per cent. increase over the season of 1922. Crabapples are estimated at 205,400 boxes or 257 cars, being an increase of 8 per cent. Pears are estimated at 94,900 boxes, or 118½ cars, being an increase of 8 per cent. in this fruit over last season. Plums and prunes show an increase of 10 per cent. or an estimate of 287,500 cases or 281½ cars. Peaches show a heavy drop of about 30 per cent. less than 1922 and an estimate of 141,600 crates or 141½ cars. Apricots show a decline of 15 per cent., being estimated at 65,700 crates or 65½ cars.

In his estimates by districts in the case of apples, in nearly all cases an increase is shown, except in the Main Line points, which include the territory from Lytton to Chase, and at Keremeos. All other points show a heavy increase, particularly from Kelowna south, Peachland, however, only shows a slight increase due to hail injury at that point. Hail damage is also reported from Salmon Arm, and it is estimated that approximately 19,000 boxes will be hail-marked at that point.

By varieties it is reported from practically all points, that Wealthies, Duchess and all early apples will be heavy. McIntosh will about equal last year's production on the whole due to Scab injury which is becoming apparent at Northern points. In fact Scab injury may seriously reduce the tonnage in many places. Jonathans will be fewer in number than last year, and all the later varieties will be much heavier. The quality on all varieties is above par. Some damage is reported from Leaf Roller in various sections, but the majority of such damaged fruit is being removed during thinning operations.

Yellow Transparent apples will be ready the last week in July and Duchess should move the first week of August. Yellow Transparent apples appeared for the first time this season on the Vernon market last Saturday.

On the whole it may be stated that the apple crop of this season promises to be well above the average of any crop yet harvested in the Okanagan, both as to quality and quantity. Thinning has been more extensively practised this season than during any previous year, and as a consequence the quality of the crop should be above par, and there should be a relatively low percentage of cull fruits. The growing conditions have been ideal for apples as well as for all other fruits, and should the season remain normal until harvest time, the growers of the Okanagan will harvest by far the best crop in the history of the district.

Tylop crabs are showing more heavily than Transcendents. Pears are credited with an 8 per cent. increase and the quality should be excellent. Plums and prunes are heavy and show a 10 per cent. increase and they should size up well, as the drop, particularly on prunes, has been fairly heavy. Apricots and peaches will fewer in number, should be a better quality than over before as

## GOOD CROPS EVERYWHERE IN DOMINION

### Harvesting of Rye Started—Hail Damage Small—Pests Negligible.

The state of practically all crops throughout the Dominion of Canada is exceptionally good, according to a report just issued by the Bank of Montreal. In the Prairie Provinces, good growing weather continues and the wheat is heading out. Damage by hail has not been above the average and no serious damage is reported from insect pests. Average crops are indicated for Quebec Province and a good all round crop for Ontario. In the Maritime Provinces hay will be below average, estimates are for a large crop of apples. Crops in British Columbia are doing well. Details follow:

Prairie Provinces. Edmonton district: Excellent growing weather, wheat heading out. Slight hail in some parts, heavier near Ponoka. Calgary district: Conditions good, harvesting of rye crop has started. Hail damage in Okotoks and High River districts referred to last week varies from 40 per cent. to 100 per cent. Some recovery has been made. Lethbridge district: Wheat headed out. Other grains well advanced. Cutting of rye and alfalfa has started. Haying late, weather generally most favorable. Some damage from hail but it is reported to be slight. Saskatoon district: All crops making rapid growth. Wheat headed out. Warm dry weather now needed. Weeds prevalent in some sections. No important losses from hail or pests. Hay and pasture good. Regina district: Conditions continue satisfactory but low lying lands are getting too much moisture. Dry windy weather would be beneficial. Wheat all in shot blade and early crops are heading out; hay and pasture good. Slight damage from hail in some sections but none from grasshoppers or other pests. Winnipeg district: Favorable conditions continue with sufficient moisture. No serious damage from rust but less humidity and cooler weather would be welcome. Hail damage not above average. Wheat well headed out. Winter rye harvesting will begin next week. Other grains doing well. Pasture good. Province of Quebec. Grain is improving and an average crop is expected. Corn is doing bet-

(Continued on Page 4)

## GUARANTEED 1922 LOANS

### Tangle and Misunderstanding Caused by Union Bank Account.

With reference to the complaints heard at the recent meeting of the creditors of the O. U. G., it has been pointed out that the O.U.G. guaranteed only the advances made by the Dominion Bank to the Summerland Fruit Union for 1922 operating. Money borrowed in 1921 for advancement to members with which to finance their season's operations and for 1921 packing operations was borrowed from the Bank of Montreal and when the Union changed its account from the Bank of Montreal to the Dominion Bank the latter took over an account of some \$60,000, due the Bank of Montreal by the Union. This was not guaranteed by the Central.

Settlers in the Bulkley Valley, Central British Columbia, are being encouraged to produce clover and certain vegetable seeds for the market, owing to the fine quality of seed grown in that section of the country. Seed production is a coming industry in the Pacific province.

Keep young by associating with young things. The newspapers are youngest—a now one every week. Thinning has been widely practiced this season on these fruits and owing to the growing conditions which have prevailed the size should be well above average. Apricots will roll in considerable quantities the last week of this month.

OUR ADVERTISING ALPHABET

**G** is for GAINS

Day by day is the way Newspaper ads will Make your business pay!

# The Summerland Review

Established August, 1908.  
Published at Summerland, B.C., every Thursday, by  
**THE REVIEW PUBLISHING COMPANY, LIMITED**  
Ralph E. White, Editor and Manager  
An independent family newspaper covering Peachland, Summerland and  
Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.  
Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.  
All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed, and the difference charged to the newspaper.

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

### SAPIRO AND WHEAT.

Aaron Sapiro is going to the Canadian prairies to organize a voluntary wheat pool, and will open his campaign among grain growers on Friday of next week at Saskatoon.

The collapse of the price of wheat has hit the producer of that commodity, of which fact we in the fruit producing section are very well aware. After two years of effort to organize under the Dominion law, which gave the prairies power to form compulsory pools, this plan has been abandoned and the latest move is to form the grain growers into a co-operative marketing organization that will include the three prairie provinces, and Sapiro is the man selected to put over the plan. To market the wheat by co-operation at the point of consumption rather than market it individually at the point of production will be the aim.

Upon the prosperity of the prairie farmer depends the prosperity and progress of all Canada, and particularly are we in British Columbia concerned. Present prospects for a profitable price for wheat are not bright, although indications of a record crop in all grains have developed a more optimistic feeling. Following on this, though, is the fall of the Chicago wheat market to below a dollar, no doubt influenced by the continued unsettled political conditions in Europe.

It is earnestly hoped that Sapiro can line up even a greater percentage of grain growers than he did here of the fruit growers, and that, so organized, they will be able so to handle their business that cost and something more will be obtained for their huge crop.

### WHAT ADVERTISING MEANS TO YOU.

Every now and then we like to talk to our merchants about advertising, and we like to do it in this way because the subject is of equal interest to the public. Frankly, the interest of the public, the interest of the local merchant and the interest of the local newspaper publisher are inseparably linked.

The public always is best served by buying advertised goods. Goods that are advertised are goods that are more extensively manufactured and consequently cheaper because of increased production. Moreover, advertising today is a guarantee of merit. No one need to be afraid, either of the honesty of the price or the quality of advertised goods. Competition compels honesty even if there should be a wish to avoid it.

There is another benefit, too, in local newspaper advertising. When advertising is thoughtfully employed it means the building of trade for our local merchants and this reacts in increase in real estate values generally. A prosperous business section means added population and increased conveniences. The whole scheme of advertising, merchandising and buying is one of co-operation to mutual advantage.

The merchant always wins favorable reaction when he talks frankly in his advertising to the people and shows them he is dealing honestly with them and making a normal profit.

The man who weeb by weeb consistently in his advertising shows he holds the public interest at heart is the man who wins. Many merchants lose the substance of public confidence in grasping for the shadow of immediate sales.

## From Our Exchanges

### BUSINESS GOES WHERE IT IS WELL TREATED.

As has been previously and often stated in the columns of the Enterprise, the business man who sends away from his home town for his printing cannot consistently complain if the buying public follow his example and send elsewhere for their supplies.

The "Trade at Home" idea is the only one which can bring to this county the full measure of prosperity to which it is justly entitled, and it applies in exactly the same degree to every bank, mercantile establishment, creamery corporation, lumbering concern and business of every description that it does to the citizen in purchasing supplies for the home.—Clipped.

### THE CHERRY HARVEST.

The cherries are the largest and finest ever produced in the Valley this year. As a result girls are making as high as \$6.00 and \$6.50 a day in doing the picking. The cherry money is all home money, practically none of it going out of the Valley. The folks around home do the picking and packing, and the money received from the soft fruit goes much farther by reason of this than that received from the apples.—Wenatchee World.

### PUNISHING THE GUILTY.

Why shouldn't we amend the Criminal Code making the white man furnishing liquor to an Indian an accessory to any crime that the Indian might commit while under the influence of the liquor so furnished? Wouldn't the enforcement of such a law soon put an end to the illicit traffic in booze to the Indians?

Suppose the jitney driver who supplied the booze that led to the horrible murder of Annie Louie lately could have been held as an accessory to the crime; suppose he were tried for murder and sentenced to imprisonment for life or a long term of years; wouldn't it have greater effect in the prevention of other crimes of a similar nature than the comparatively light sentence which may be imposed under the illicit liquor traffic law?—Okanagan Commoner.

### SENDING BUSINESS OUT OF TOWN

Advertising makes a town, therefore the men who do the advertising of any town are the makers of it and should have the credit for doing so. In this, as in all towns, there are some non-advertisers—men who do business, or try to, with never a cent spent for advertising. These fellows get part of the benefit from their progressive neighbors' advertising therefore in a sense, they are mooching on their neighbors' investments. When you come to town to spend your money you should always try to trade with the firm that spends its money freely for advertising, for that is the kind of people that make your town and keep it going. The Review believes this is done very largely. The people are rapidly learning that it pays to trade where they are invited and many will shun the store that does not think enough of their business to solicit same. "Business goes where it is well treated."—Clipped.

The more brains a man has the less likely is he to have the big head.

It is no wonder a wife and mother takes so much pride in her husband and children. She usually has no other channels in which to vent her ambition.

A man claims to have invented something that will overcome the laws of gravitation. If he would invent something that would cause a dollar to return to you after being spent that would be more to the point.

Recognizing the important, if somewhat subdued, part that father plays in the affairs of life, a Spokane woman proposes that one day of each year be devoted to the titular head of the family and that this day be called "Father's Day." So long as father devotes the balance of the year to wife; such unexpected recognition from the feminine sex does not seem unmerited.

## poem by UNCLE JOHN

The Senatorial candidates have struck their smartest gait, an' hawk their wares on busted crates, all up an' down the State.

Contendin' voices rant an' roar, to warn us of our danger, . . . Nobody's honest any more THE CONFLICT—the Golden Rule's a stranger!

I reckon if we don't elect a rabid politician, we needn't ever much expect to better our condition. And so—each candidate declaims in hate against the other, without a callin' any names—that he's the Devil's brother. I reckon that it's nip and tuck between contendin' forces—but I would sooner pass the buck, than hear their crime-discourses.

Why can't we have two honest men, to run against each other—who'd serve the people now an' then, an' treat 'em as a brother?

It seems to me, that politics has got so awful rotten, that we'd be in a better fix with all of it forgotten!

### NEPHEW KILLED IN AUTO ACCIDENT

Mr. C. R. McKay has received the sad news of the death of his nephew, as the result of an auto accident at Alexandria, Minn., U.S.A., on the first of July. The young man, who was 10 years of age, was driving along the highway when he met another car, without lights, and, in passing, made too wide a turn. McKay's car overturned, crushing his leg from hip to knee. Two other boys, also occupants of the car, were considerably injured, one receiving several fractures in the leg, while the other suffered injury to his head. Max McKay was so badly hurt that he lived only twenty-four hours, after the accident, death being directly due to loss of blood, although an effort was made to save his life by blood transfusion.

No man can serve two masters. Those who have tried it are doing terms for bigamy.

Many a successful man got his start by having a woman push him along in a go-cart.

Jolly gets more than bullying and leaves no rancorous feelings.

### LAWLER'S WORK IN ONTARIO

Doubtless referring to the engagement by the Fruit Branch, Ottawa, of ack Lawler, of Summerland, and who has gone east for the summer. The Canadian Horticulturist, Ontario, says: "In order to introduce the methods so successfully used in British Columbia for the packing of fruits for long distance shipments, the Fruit Branch, Ottawa, arranged to bring an expert packer from British Columbia to Ontario."

"The markets of the prairie provinces have been accustomed to and will pay a premium for the packages used in the western fruit growing sections. In order that Ontario shippers may be in a position to take the greatest possible advantage of these favorable markets, the expert will give demonstrations in the packing of fruit in western packages throughout the tender fruit growing sections of the province."

"The fruit packing expert is in Ontario and arrangements for his services, which are free, may be made by shippers or organizations upon applications to the Fruit Branch, Ottawa."

### C. P. R. TELLS OF LOCAL NEEDS

The fact that Summerland offers openings for cannery, jam factory and pickle factory is being advertised in a new publication, "Business and Industrial Opportunities in Western Canada," issued by the Department of Colonization and Development of the Canadian Pacific Railway. This publication lists all centers offering business opportunities and gives a condensed description of each, covering the population, existing industries, public utilities, schools, churches, etc. A copy of the publication has just been received by The Review.

### SCOUT COMMISSIONER IS VISITOR HERE

Ross Sutherland, of Victoria, the provincial commissioner of the Boy Scout movement, is here on a tour of the Interior towns, visiting the several Boy Scout troops. At the same time he has been visiting with his brothers here, H. Sutherland and J. M. Sutherland and is making the latter's home his headquarters. He and Capt. Creese, local Scoutmaster, are today at Grand Forks. Mr. Sutherland is very enthusiastic in his work and states that the number of Boy Scouts in British Columbia has increased from 1400 to 3000 in two years.

Further news of the hailstorm which visited the Valley on July 2nd, touching points between Summerland and Peachland are heard from time to time. Glenrosa, situated at quite an altitude back of Westbank, suffered heavily, huge hailstones being reported, while just beyond, at Westbank, no hail fell.

Over 600 establishments in the maritime provinces of Canada are licensed to can lobsters. The industry is carried on under the strict supervision and regulations of the Department of Marine and Fisheries.

### PEACHLAND DOINGS

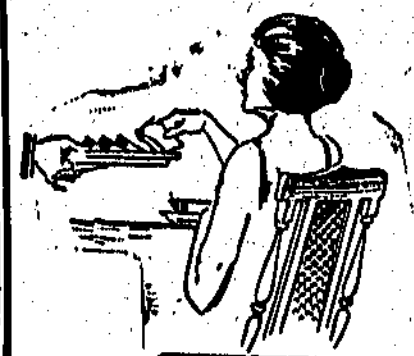

A Weekly Chronicle Furnished By Our Local Representative.

A small gang of men just came down out of the mountains after having completed some very necessary repairs on the Glen Robinson road, principally on the Deep Creek grades, under the supervision of road foreman S. H. Murdin.

Mr. H. E. and Mrs. L. D. McCall motored to the K.V.R. station, Summerland, on Wednesday morning to meet and bring home with them Miss Enid, Smith with her little sister Muriel, of Merritt, B.C., who expect to spend the summer with their aunt Mrs. McCall, Sr. (Further Peachland News on page 3)

### Burning Stomach

relieved in two minutes with Jo-To  
Jo-To relieves gas pains, acid stomach, heartburn, after-eating distress and all forms of indigestion quickly, without harm.  
All Drug Stores.

### BREAD

Women's taste and touch are keen in judgment of good bread.

By the aroma, the feel and the flavor she knows it is good bread.

Johnston's Bread has stood the test of Summerland housewives, and that is the best guarantee we can give you.

Bread crisply fresh from our big oven every day. White Graham, Whole Wheat and Raisin Bread. Also all kinds of rolls and pastry.

## JOHNSTON'S BAKERY

Several new industrial companies were incorporated in British Columbia last month, with authorized capital aggregating \$11,000,000. Hon. John Hart, minister of finance, declares that in practically every department of industrial development the province is making great strides.

Many like to prescribe good advice for the reason that a doctor doesn't have to take his own medicine.

### WILL HANDLE DOM. EXPRESS BUSINESS

A. M. Leslie, local C.P.R. agent, will continue in charge of the fruit shipping business of the Dominion Express Co. here this season. For some seasons it has been the practice of the express company to send in a special agent and assistants, but this year Mr. Leslie will handle the business and employ his own staff.

Terms to Suit Everybody.

## THOS. B. YOUNG

## Are you Loyal to B.C.?

A big majority vote was cast when nearly 4,000 growers of fruits and vegetables decided by written ballot and a five-year tight contract that British Columbia growers have their own co-operative organization that would represent the industry.

Nearly 90% of the B.C. Growers are already members. Recognized loyalty to B.C., in this common problem will certainly and rapidly increase this membership towards the ideal 100%, as any grower who thoroughly acquaints himself with its purposes will recognize in this movement his duty to himself and his fellow growers.

It is a duty and a privilege.  
Be a part of us. Talk it over.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home-sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land, not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

PEACHLAND DOINGS

A Weekly Chronicle Furnished By Our Local Representative.

Miss Winnie Diehl, of Olds, Alberta, is spending a couple of weeks holiday at the Cousins home.

Mr. F. Wrightson, of Meloit, Alta., known to many of the citizens here, having visited the community on different occasions looking after his interests in the Trepanier section, is again spending a short time in the district.

The Robins family are enjoying a family re-union while several members of the family are home on a visit, having motored up from Washington.

Mr. Rankin, of Vancouver, representing the insurance firm of Ceperley, Rounsfell & Co., Ltd., visited Peachland last week in the interests of his firm. While in town he appointed Mr. H. E. McCall local agent for two of their fire insurance companies, The Phoenix and the Liverpool & London & Globe.

The ball game Married Men vs. Single, which had been scheduled for Tuesday evening was not played just as had been expected. A few of the married men were unable to be on deck and in order not to disappoint the spectators, the married men picked out enough men from the crowd to make up a nine and gave the boys something to do to beat 'em. The first innings were fast and furious with side out in short order, but as the game advanced the single lads took a lead and it seemed for a while as though it was going to be a one-sided tally. However, the married men rallied and at the finish the score stood nine to four. Had dusk not crept down, the married men believe they stood a good chance for the honors.

The local branch of the W.C.T.U. held a raspberry and cream social on Tuesday evening in Mrs. L. D. McCall's lawn, which was quite a success, and the proceeds for the evening amounted to about six dollars.

Mrs. J. L. Elliott spent Wednesday with friends and relatives in Kelowna.

Mrs. Romain and family of Kelowna were last week guests of Mr. and Mrs. Wm. White.

Representatives from Peachland attending the irrigation convention held in Penticton last week were Reeve G. Laag, Mr. R. J. Hogg and Major R. G. Hardisty.

Mrs. and Miss Elliott and Master Gerald Elliott left on Friday morning for Edmonton to spend the summer vacation with Mr. and Mrs. C. G. Elliott and family.

Peachland Loyal Orange Lodge No. 408 and the lady Orange Lodge turned out in force on Thursday of last week to attend the 12th of July celebration held in Kelowna.

From all over the Valley were present and made up quite a large parade. The day was fine throughout and one of the best Orange Walks the Valley has witnessed was held on that occasion. The Peachland lodge motored up and crossed by special ferry.

Rev. H. A. Solly motored up from Summerland on Sunday to conduct the service in St. Margaret's church; Peachland, and in the evening at Westbank.

Mr. Taylor, former resident of Peachland and at the time manager of the local Union, with his wife and children motored up from Penticton on Sunday to visit friends. Mr. Taylor is managing the Penticton local this season.

After a pleasant visit at Peachland and on the W. D. Miller ranch. Mr. and Mrs. Lyle Seaton of Vernon returned home on Sunday morning accompanying Mr. and Mrs. Dryden on a motor trip. Mr. and Mrs. Dryden returned on Monday.

Mr. Edgar Phillips, formerly of Edmonton, having recently spent several weeks at the Coast and down in the Yakima fruit belt, arrived here on Saturday morning to visit his friend Loyal Werner at the home of Mr. and Mrs. H. E. McCall.

The Union Sunday School picnic was held on Saturday last at the Deep Creek picnic site. There was a record attendance. The weather conditions were splendid and a very enjoyable afternoon was the result. Bathing was indulged in first, followed by a number of races for the scholars and their teachers and a few swimming races for the boys and girls. The prizes were given out and then a jolly group arranged themselves in the flat by the creek where the ladies served a feast of good things and needless to say it was appreciated by all.

Mr. and Mrs. Crooks, are the proud parents of a baby girl born at their home on Saturday morning.

Mr. and Mrs. Dorland are enjoying a visit from some prairie friends, Mrs. McAllister and her two sons and daughter. They will remain in the Valley for some time, here and at Penticton.

What is supposed to be the first commercial shipment of green walnuts from Peachland was made on July 11th. Mr. A. H. Young made a shipment of one hundred and fifty pounds to Mr. David Gellatly. It will be fine if the residents in the Valley can turn their shade trees into commercial value.

Mrs. Chas. Drake and the children left on Monday morning for Oakland, Iowa, to visit for some time at Mrs. Drake's former home. Mr. Drake is remaining behind and is selling the furniture by private sale, particulars of which will be found

SUMMERLAND MUNICIPAL SCHOOL BOARD

TENDERS FOR SCHOOL CONVEYANCE

Tenders will be received by the undersigned up to noon of Wednesday, August 1st, 1923, for conveyance of school children by motors, on the following routes:

Route 1.—Trout Creek Point. Morning trip—starting from the school house to Central school via Gartrell's hill. Afternoon trip—from Central School to top of Gartrell's hill. To carry about 26 pupils.

Route 2.—Giant's Head. Morning trip—starting from Mr. A. E. Rose's corner to Central School. Afternoon trip—Central School to Mr. Rose's lot. To carry about 40 pupils.

Route 3.—Summerland to Central School. Morning trip—starting at old Town school site going by direct road to Poach Orchard, thence by the Lako Shore road to Elliott's store and on to Central School via the Gulch Road. Afternoon trip—Central School to high flume above the hospital. To carry about 56 pupils.

Route 4.—Prairie Valley. Morning trip—starting at Mr. Cunliffe's corner by main road to Central School. Afternoon trip—Central School to Mr. Hunt's lot. To carry about 26 pupils.

Route 5.—Paradise Flat. Morning trip—starting at Mr. Simpson's corner to Central School via main road. Afternoon trip—from Central School to Mr. Simpson's. To carry about 22 pupils.

Route 6.—Garnett Valley. Morning trip—starting from Mr. Clarke's gate to Central School via main road. Afternoon trip—Central School to Mr. Clarke's gate. To carry about 26 pupils.

Tenders to state price per single trip. All vans to be covered and of sufficient capacity to accommodate the number of children on the respective routes. Each and every conveyance to be approved by the School Board.

Contractors to provide rugs in cold weather. The lowest or any tender not necessarily accepted. J. H. BOWERING, Secretary. West Summerland, B. C., July 10th, 1923. 805-6

ed out in force on Thursday of last week to attend the 12th of July celebration held in Kelowna. Lodges from all over the Valley were present and made up quite a large parade. The day was fine throughout and one of the best Orange Walks the Valley has witnessed was held on that occasion. The Peachland lodge motored up and crossed by special ferry.

When he gets everything cleaned up here he will go to California and as soon as he locates definitely Mrs. Drake and the children will join him there.

TO TREAT IVY POISONING

In the early stages of ivy poisoning, remedies having a fatty or oily base such as ointments should not be used, as the grease or oil tends to dissolve and spread the poison, according to specialists of the United States Department of Agriculture. Instead they advise simple remedies such as local applications of solutions of cooking soda or Epsom salt, one or two heaping teaspoons to a cup of water. Fluid extract of grindelia, diluted with 4 to 8 parts of water, is often used.

Solutions of this kind may be applied with light bandages or clean cloths, which should be kept moist, and should be changed and discarded frequently to avoid infection. During the night, or when moist applications can not be used, the poisoned surfaces should be carefully cleaned and dried and left exposed to the air rather than tightly bandaged. In the latter stage, after the toxic material has exhausted itself, zinc-oxide ointment and similar mild antiseptic and astringent applications hasten healing.

When he gets everything cleaned up here he will go to California and as soon as he locates definitely Mrs. Drake and the children will join him there.

TO TREAT IVY POISONING

In the early stages of ivy poisoning, remedies having a fatty or oily base such as ointments should not be used, as the grease or oil tends to dissolve and spread the poison, according to specialists of the United States Department of Agriculture. Instead they advise simple remedies such as local applications of solutions of cooking soda or Epsom salt, one or two heaping teaspoons to a cup of water. Fluid extract of grindelia, diluted with 4 to 8 parts of water, is often used.

Solutions of this kind may be applied with light bandages or clean cloths, which should be kept moist, and should be changed and discarded frequently to avoid infection. During the night, or when moist applications can not be used, the poisoned surfaces should be carefully cleaned and dried and left exposed to the air rather than tightly bandaged. In the latter stage, after the toxic material has exhausted itself, zinc-oxide ointment and similar mild antiseptic and astringent applications hasten healing.

DAILY—

NARAMATA NEWS

Current Events of Town and District

The annual meeting of the School Board was held in the School building on Saturday evening at 7.30, Captain F. Languedoc in the chair.

The Union church held its anniversary service on Sunday afternoon, Rev. H. J. Armitage officiating.

Henry Rushbury arrived on Friday to spend a short time in town. He has been at Squamish for the past two months.

Several complaints have been heard recently as to the lack of control over certain dogs from the benches, which have a very bad habit of snapping at passersby.

Boy Scouts Performance

Continued from Page 1)

was Jack Blewett and Gibbon's Billy Gartrell.

The Cubs gave an exhibition of tumbling, one little youngster, Earl Inglis, taking a nose dive over the backs of three of his compatriots.

An amusing feature entitled "The Ducky Sunday School" revealed seven black-faced comedians strutting the stage whilst they invited the audience to "Come and make themselves tuck home."

The evergreen farce of "Box and Cox" was greatly enjoyed, the characters being John Box (a printer), Kenneth M. Elliott, James Cox, (a hatter), J. Allen Harris, and Mrs. Bouncer (landlady), Noel Wright.

The headline production was undoubtedly the "Dwarf Song." This was an illusion that was cleverly staged by J. W. Harris.

The four "Hiliputians" were enclosed in a cabinet and when introduced to the audience were seated in an open procession. The make-up and dress of each of the mannikins were excellent.

A number of Scouts gave a very good exhibition on the parallel bars, finishing up with a display of tumbling. This was followed by the entry of "Three Live Ghosts," the immortals being Allen Harris, Russell Munn and George Guy.

The picaresque contest was called off to the great disappointment of the youngsters. It being announced by Mr. C. B. Winter that the challenge of the Wolf Cubs against all comers had not been taken up.

The program concluded with a farce entitled "The Quad-Wrangle." The characters were: Bill Jenks (a bun), George Guy, Snippy (a crook), Capt. H. H. Croose, The Kid (now-boy), Francis Stournt, Miss Ormerod (suffragette), Miss Frances Nicholson, Dutehor, Bernard Taylor; Pollockman, Jack Harris.

The scene was "Bill Jenks" ome, "somewhere in the smoke." The story was told practically in the cockney dialect, and although the acting throughout was fairly good, much of the salient humor was lost on account of its being handled before a Canadian audience in the coster vernacular.

Cover Crops and How to Use Them

By Geo. W. Johnson, Dominion Experimental Station, Summerland, B.C.

Throughout the Okanagan district preference is given to three varieties of cover crops, clover, alfalfa and vetches. No order of preference is indicated in the order in which these are mentioned.

All three have been tried out in the orchards of the Dominion Experimental Station at Summerland and our conclusions are based on our findings.

Clover has given us most disappointing results. It is hard to establish, more especially in the very dry springs which we frequently experience, and when established is shallow-rooted and consequently a serious competitor with the tree roots.

Alfalfa has been strongly advocated and under favorable conditions it can be recommended but these conditions are rarely to be found on our bench lands until a system of "building up" has been practised for a number of years.

Vetches have given us greater satisfaction than any one of the three cover crops under consideration. We prefer the hairy vetch (sometimes called sand or winter vetch) seeded about the last week in July.

Miss Thelma Lockwood acted as accompanist at the piano throughout the entire performance, acquitting herself very creditably. The plays were produced under the direction of Mr. C. B. Winter, and the songs under the direction of Mr. John W. Harris.

CORRESPONDENCE

Letters to the Editor.

CHERRY DEAL

The Editor,

Summerland Review.

Dear sir,—Can any person explain why the Co-operative cannot sell their patrons' cherries, which are being left on the trees to waste, while private shippers cannot get cherries enough in our district to fill their orders and have to go elsewhere for them?

A SUBSCRIBER.

Shampoo This Way with Olive Oil

and you will have hair with gleam and softness of silk

Olive oil for the shampoo, any leading hair specialist, Olive oil for the shampoo, agree women who have learned the secret—who are admired for their lovely hair.

It washes away all dirt and oil. Dissolves and removes clogging dandruff. It leaves hair fluffy and soft. But never dry, never dull.

Good Crops In Dominion

(Continued from page 1.)

ter, hay generally will be good average, root crops are doing well and a good yield being looked for. Strawberries are plentiful with fair prospects for other fruit. Pasture excellent.

Province of Ontario.

Crop conditions throughout the province continue favorable. A good all round crop is expected with some sections above average. Hay is a big crop. Harvesting has been slightly retarded by the wet weather.

Maritime Provinces.

Weather conditions favorable and prospects improving. Good hay crop

expected in Nova Scotia and Prince Edward Island but rains in New Brunswick too late to ensure even average crop. Roots progressing favorably. Pastures in good condition. Present apple estimates exceed two million barrels in Annapolis Valley.

Province of British Columbia Field crops and tree fruits are in promising condition with weather favorable. Grain is doing well. Roots have benefited by rains but potatoes near Ashcroft may be below average. In Okanagan Valley all tree fruits are growing rapidly. More thinning than usual being done and a large proportion No. 1 fruit expected.

What Might Have Been. Peculiar thought must come to the mind of the woman who becomes familiar with the family life of the unhappy wife who fills a place she might have had.

The narrow-minded women sometimes wear the widest hats.

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How Is It Done?

Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "full persistence" in poorly thought out methods.

Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so again.

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management: "boarder" pickers, scrubbees, poor quality hogs or non-profitable hens.

That even under present conditions profits may be made is testified by many skilful, observant and non-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speed with excessive borrowing and the often consequent disaster.

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more high-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rations including clover and ensilage crops (corn, sunflower, pea and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing seed or interest in fruit? We can give you information that will help you. Do you breed live stock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have some that will help you. We have published and have for free distribution 390 different reports, bulletins and circulars dealing with matters of interest to you. Ask for what you want, or for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

Crop Returns Should be Increased

On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922 as contrasted with all-Ontario average crop costs and crop profits are given below. The all-Ontario figures are in brackets:

	Cost per acre	Profit per acre
Hay	\$21.13 (\$13.50)	\$11.21 (\$5.00)
Corn for		
Forage	\$47.50 (\$33.75)	\$10.38 (\$2.86)
Oats	\$26.47 (\$19.32)	\$ 7.33 (.04)

Similar results can be shown from the Dominion Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs wisely applied up to a reasonable point always increase crop profits. This is true on the Experimental Farm—and on any and every farm.

Have Faith in Canada

July 17—90	62	.22	.....	.....	1.0

## TRAVELLER'S WISH

By the pass of the Coquihalla,

Where the roadbed snakes and coils

To the soaring perilous rockface—

Where an eagle uses wings.

Down through the wooded canyons

Of the Otter and Tulamoen,

Where first October wanders

Pale gold through the sombre green;

You will come to the Okanagan,

And meet a breath of the South,

Where the wind that brings fair weather

Comes up from the valley's mouth.

There ancient ponies is dwelling

On flats of yellow pine

And slopes of sage and greasewood,

In a country I call mine.

There, there is open timber

On level-floored plateaus,

Where evening dyes the tree-trunks

Cinnamon, carmine and rose.

Give me that trail to follow

With the cliffs and pine smell,

Where sheer cliffs stand on either

hand

Like walls of a citadel;

Give me its streams to drink of,

With talk at a friendly door

And a wile enmesh between my knees,

I will not ask for more.

—Billis Carman.

## COURTESIES!

This column is yours, in which to extend courtesy to your guests, or courtesy to your friends by recording your own goings and comings. It is a courtesy also to us, and the general reader. Therefore, tell it to the Review. Phone 39. Thank you!

Bill Wilson came in from Westminister on Tuesday morning's train.

Misses Annie and Hazel Steuart left this morning for a holiday trip to Vancouver.

Mrs. F. A. Bleasdale motored to Kelowna on Monday on a visit to Mrs. J. J. Atherton.

Jas. H. Ritchie returned on Tuesday morning from Seattle, where he has been for several months.

W. Mack, Jr., left on Saturday for Swift Current, Sask., where he will re-enter the employ of the Union Bank.

Mr. and Mrs. Jack Week arrived in Summerland from the Old Country on Monday night's boat, and are the guests of Mrs. Pacey.

Mrs. Jas. Crawshaw, of Vernon, is visiting Mrs. Geo. Gartrell. She came down the lake on Wednesday of last week accompanied by her children.

Miss Ida Shields returned from Vancouver on Wednesday morning, after a short holiday visit to Seattle and Coast points.

W. J. Nicol left for Vancouver on Tuesday in his new "Star" car. He anticipates going to California in the near future.

K. M. Elliott is in Vancouver on a business visit. He left on Monday's train and is expected home tomorrow morning.

A full carload of cherries was shipped from here on Friday by the Co-operative and another carload was despatched by them on Monday night.

Dr. R. C. Lipsett has a felt hat and a straw hat left by the owners under his cherry trees. Perhaps the owners would call at his home for them.

Mr. and Mrs. W. T. Lockwood, of Bellingham, Washington, are here visiting the former's brother, V. M. Lockwood. They motored up from the Sound city.

Mr. and Mrs. Alexander, who left here a few days ago to return to their home in Los Angeles, by way of Yellowstone Park, made Spokane on the first day. This is a run of 259 miles.

Word has just been received from Vernon that they are now taking Royal Ann, Bing, Windsor and Black Republican cherries, if in good condition for shipment to the prairies. 806

Mrs. E. R. Butler and children left on Wednesday by train for Grand Forks, where she was met by her father, Mr. J. C. Robson, and taken to his home at Rossland over the new highway.

Though he had no broken bones, Billy Keen, whose foot was injured at Myron some days ago, will be laid up for some time as the arch of his foot was badly strained when some lumber fell on it.

Major H. V. Hicks, president of the Cranbrook branch of the G.W. V.A. and a battalion mate of Ned Bentley, was in town last Thursday to call on the latter. He attended the irrigation convention at Penticton.

Miss Sue Whitford came in from the Coast on Wednesday morning, where she has been spending her holidays with her sister, Mrs. Bishop, at Now Westminister, and at other Coast points.

Formal announcement is made elsewhere in these columns of a local business change. W. J. Robinson, who has done fire insurance business for many years here, has sold out to Matt G. Wilson.

Mr. and Mrs. Willis Walter returned Saturday night from the prairies by way of the Kootenay. They left here by motor May 23rd and since that time, Mr. Walter has covered many miles of prairie with his car, while Mrs. Walter visited friends in southern Alberta. He was at Edmonton, Calgary and down nearly to Moose Jaw; then to Medicine Hat, Lethbridge and McLeod and coming home, came over the new Rossland Cascade road. Mr. Walter says he never saw such crops as good as they look now. High yields per acre are expected everywhere.

Mr. and Mrs. C. R. McKay of Garnett Valley were pleasantly surprised a few days ago when two U. S. cars drove up to their home. The tourists were Mrs. McKay's brother and wife, Mr. and Mrs. J. L. Curtis, of Yakima Valley, with his daughter and family; a sister of Mrs. McKay, Mrs. S. C. Baker, with her husband, from Cheasaw, Wash., and their son and family. Also a Mrs. Ellsworth, mother of her brother's wife. The party were delighted with the look of things here and report a splendid trip. Mr. Curtis states that the fruit here is almost as large as that in the Yakima Valley, several hundred miles south of us.—Cont.

Colin Chisholm is now working at DeMuth's Mill.

Members of the Baptist Sunday School are holding their annual picnic today at Naramata.

A son was born to Mr. and Mrs. Mathers, nee Gladys Robinson, on Wednesday, July 18th, at the Penticton hospital.

Mr. Geo. McLeod, now a resident of California and a former citizen of Carleton County, New Brunswick, spent Tuesday and Wednesday here, guest of Mr. and Mrs. G. J. C. White.

A hailstorm at Wenatchee, which occurred last Thursday, has largely stopped thinning operations, according to Creighton Rines and his companions, who have returned after being at Wenatchee for a short time.

Mrs. G. Spence Godfrey, of Nelson, who has been visiting her daughter here, Mrs. Denny, went down to Victoria on Saturday, having received news of the death of her brother, Mr. Alexander Fraser, at that city.

Wellington Watson has exchanged his town property here for a ranch near Edmonton and he and Mrs. Watson have removed from Kelowna to Alberta. It is stated here that they are not residing on the farm but in Edmonton.

All electric lights east of the transforming station went out suddenly last Thursday evening and were off until a new fuse was put in. Mr. Thorner is of the opinion that a bird caused a short circuit somewhere on the lines, which burned out the fuse.

Mrs. Kirk came in from Walthachin on Saturday night to visit for a time with her son, Jack Kirk. She was accompanied by her niece, Miss Eva Kirk and Bert Simpson, the latter coming over to visit his father, Wm. Simpson, who is in town for the summer.

St. Andrew's Sunday School held their annual picnic on Thursday last at Crescent Beach, when a goodly number of young people spent an enjoyable afternoon in swimming and sports. Two trucks belonging to Alex Smith and A. E. Smith conveyed the picnic crowd to and from the Beach.

Mrs. P. E. Knowles had the third finger of her right hand amputated on Sunday. Some weeks ago poison developed as the result of a splinter in the end of the finger and treatment failed to check the spread of the poison and amputation of the finger was necessary in order to stop the infection going farther.

G. A. MacLaine, who has been connected with the Tringle Garage, Penticton, has taken over the lease of the whole building and will operate the repair department as well. Bert Peckham, recently of the Summerland Garage, has been engaged by Mr. MacLaine and will be in charge of the repair shop. 806

Rev. W. A. and Mrs. Alexander, accompanied by Miss Mildred Wilson, left today for Vancouver, where Mr. Alexander will occupy the pulpit at Kitajano for the next month. During his absence Rev. Gordon Diekey, of the Kitajano Presbyterian church will occupy the pulpit of St. Andrew's church here, they having exchanged pastorates for that period. Rev. and Mrs. Diekey and two children came in from the Coast this morning.

Mr. and Mrs. Willis Walter returned Saturday night from the prairies by way of the Kootenay. They left here by motor May 23rd and since that time, Mr. Walter has covered many miles of prairie with his car, while Mrs. Walter visited friends in southern Alberta. He was at Edmonton, Calgary and down nearly to Moose Jaw; then to Medicine Hat, Lethbridge and McLeod and coming home, came over the new Rossland Cascade road. Mr. Walter says he never saw such crops as good as they look now. High yields per acre are expected everywhere.

Mr. and Mrs. C. R. McKay of Garnett Valley were pleasantly surprised a few days ago when two U. S. cars drove up to their home. The tourists were Mrs. McKay's brother and wife, Mr. and Mrs. J. L. Curtis, of Yakima Valley, with his daughter and family; a sister of Mrs. McKay, Mrs. S. C. Baker, with her husband, from Cheasaw, Wash., and their son and family. Also a Mrs. Ellsworth, mother of her brother's wife. The party were delighted with the look of things here and report a splendid trip. Mr. Curtis states that the fruit here is almost as large as that in the Yakima Valley, several hundred miles south of us.—Cont.

Kenneth Walden was in from DeMuth's Mill over Sunday.

Miss Katherine Steward of Vernon is visiting Mrs. J. Rowley.

Early peaches are now on the local market. These are of the May-flower variety and look very fine.

The early cots are now being received at the packing houses, which will soon be busy packing this fruit.

Miss K. Harvey and Miss J. Curry, who have been staying for some time with Mr. and Mrs. G. J. C. White, left on Monday for a short visit to the Coast.

Rev. J. Knox Wright, D.D., secretary of the Canadian Bible Society will give an illustrated lecture on Egypt, Monday evening, July 23rd, in St. Andrew's church, West Summerland, to which all are welcome.

A game of baseball will be played today, beginning at 6 o'clock on the local diamond, Oliver having been invited to meet the local team here. Following the game the players will attend the Rialto, where the "Bonnie Briar Bush" will be shown.

A. W. Hamilton, Kelowna, inspector for the Associated Growers, is in town today on one of his official visits. Mr. Hamilton states that the poor carrying condition of cherries which developed in the last few days has been general throughout the district. Kelowna in particular is suffering very heavily.

Summerland Boy Scouts go into annual camp on Saturday of this week at Okanagan Falls, while on Wednesday of next week the Summerland and Naramata groups of Girl Guides go into camp at Miller's Point. The young people are looking forward to a very successful camp, this being the first time the Guides have undertaken an outing of this nature.

While running with several others to board Bernard Taylor's motor truck, Peggy Ramsay, daughter of Mr. and Mrs. T. Ramsay, was knocked down by S. Bartholomew's car at the municipal office corner. He stopped the car quickly, but the front wheel had run on to her leg. No bones were broken, but the flesh was considerably lacerated. She was taken to the hospital, where she is getting along nicely. No blame is attached to Mr. Bartholomew.

While driving home from church on Sunday evening, Mrs. D. L. Sutherland had the misfortune to be thrown from the car to the ground, but, though considerably bruised and shaken up, no serious injury was sustained. A loose horse shoe was the cause of the mishap. The animal, stumbling, jerked Mrs. Sutherland forward with such force as to throw her out, fortunately clear of the wheels. Mr. Wm. Johnston happened along in his car and took Mrs. Sutherland to her home.

A stock car which came in here loaded with box shoox and had just been emptied hung for several days over the end of the spur back of the storage building, having dropped the truck from one end into the lake, because of a bump which it received from several flat cars loaded with rock. The latter gained unexpected momentum on the down grade from the barge to the C.P.R. yard and struck the empty car with such force that it forced the buffer timbers from the end of the track and narrowly escaped being stood on end, or being turned over into the lake. It took considerable work on the part of the repair gang to get the car back on the track.

Announcement of Purchase of Business

I beg to announce that I have purchased the Insurance Business of Mr. W. J. Robinson, of Summerland, and trust to be favored by his clients with the continuance of their favors.

M. G. WILSON.

Announcement of Transfer of Business

I beg to announce that I have sold my Insurance Business to Mr. M. G. Wilson, and would solicit for him a continuance of the business which I have received from the people of Summerland.

W. J. ROBINSON.

Notice

If the person who borrowed, without leave, the magneto from the pumping engine at Minocla will return it to us at once nothing more will be said. If not, immediate action will be taken to recover possession and convict the guilty person.

SUMMERLAND LUMBER CO. LIMITED.

The big Bargain Sale at Mrs. Milne's is being continued until the end of the month.

Miss Hunt, cousin of Mr. A. B. Morkill, who was a visitor here in May, is back again from the Coast on her way to Sherbrooke, Quebec.

Miss Crossley, of Montreal, is visiting her brother here, G. Y. L. Crossley. She arrived here last Thursday and will remain for about a month.

The Methodist Sunday School is holding its annual outing today at Crescent Beach, the young people being conveyed to the Beach by motor trucks.

Mr. and Mrs. A. Cook arrived on Monday night to visit Mr. Cook's sister, Mrs. Wm. McMillan, having motored up from San Francisco. They report a lovely trip.

Generous samples of Palmolive products are being offered free by the manufacturers. Are you taking advantage of these offers which have been running in the Review for the last few weeks?

W. Cummings, of Prairie Valley, cut a finger of his left hand while chopping wood. The finger was so badly crushed that it was found necessary to amputate it. The accident occurred yesterday.

Miss Waterman of the Hospital nursing staff is leaving here next Tuesday for Grand Prairie. She will be associated with Miss Hibbs, former matron here, in the hospital in the northern Alberta town.

NOT WANTED

It is hoped that the recently reported interview with Peter Veregin, wherein it was stated that more than 1,500 Doukhobors who are now in the west are planning to come to Ontario to undertake fruit growing and jam making in the Niagara Peninsula, was merely a feeler on the leader's part, and that the feeling was far from his liking. Ontario's great fruit district wants no truck with the Doukhobors. Although a lesser evil than the Chinese invasion of the market gardening area around Toronto the name and fame of the Niagara Peninsula fruit belt is too important to this province for frenzied experiments of the moment with fanatics.—Canadian Horticulturist.

"How's your wife, Blinks?" asked Jinks. "Her head troubles her a good deal," confessed Blinks. "Neuralgia?" queried Jinks. "No," answered Blinks sadly, "She wants a new hat."—Toronto Saturday Night.

Baby Peggy Is Wonderful

(Continued from Page 1) ly elected to membership in the Ypres League in London, His Majesty King George the Fifth and Field Marshal French acting as patron-in-chief and president of the loyal organization. Peggy made her screen debut at Universal and made such a decided hit with officials of that studio that she was given the part of the little crippled child to portray in Frank Mayo's picture, "Araid to Fight." Her performance in this picture won the unanimous praise of photoplay critics who referred to it as a feature of the entire production.

After appearing in support of Harold Lloyd in "Hand to Mouth," Peggy went to the Orpheum circuit in a special dancing act with her brother, Dick, acting as her partner. They made a tour of the circuit and then returned to Hollywood to resume screen activity. Peggy has appeared in support of virtually every foremost star of the silver sheet. She was cast as the little sister of Louise Glaum in the star's picture "Love;" with Bert Lytell in "Alias Jimmy Valentine," with Betty Blythe in "The Third Generation" and with many others. She has also been seen in many Christie comedies.

In "A Lady of Quality" now in production at Universal, starring Virginia Valli, little Miss Cartwright plays the part of the star as a child. The part carries added significance in that she makes up as a boy, allowing her a splendid chance to more firmly establish her versatility and ability to enact difficult roles. She is presently engaged with the Jack White productions in whose latest picture she is playing the featured role opposite Benny Alexander, under the direction of Norman Taurog.

In addition to her accomplishments before the camera and footlights, the youngster is an expert horsewoman and has won three cups with her equestrian exhibitions. Two of the cups were won an Ambassador Horse show and the other at the Ventura Horse show. She is also proficient as a dancer, swimmer, pianist, artist and cartoonist.

It is doubtful if any other child her age presents the various accomplishments that Peggy does. She has won a number of beauty contests, and was recently adjudged the winner of the Clever Kiddo contest, staged by the Los Angeles Express. Peggy's schooling has been placed entirely in the hands of private tutors. Like her parents and grandparents, Peggy has taken keen interest in things literary and she is conversant with the works of such noted authors as Rudyard Kipling, Mark Twain, Shakespeare and others. Directors under whom the child has worked have found her to be gifted with unusual dramatic talent and it is the foregone conclusion of those acquainted with her work that she will soon be sharing stellar honors with some of the screen's foremost baby stars.

LONE GIRL CROSSES HOPE MOUNTAINS

Came from Vancouver Island With Saddle Pony on Vacation.

To cross the Hope mountains by saddle is a venture which many a man would hesitate to make. A few days ago a young lady, Miss Mercedes Douglas-Crompton, passed through here with her pony on her way to spend her holidays with friends at Salmon Arm, having made the journey over the Coast Range from Hope to Princeton.

Miss Crompton has been teaching at Duncan, Vancouver Island, and wishing to have her saddle horse with her during her vacation, decided to make the trip of approximately 400 miles by horseback. Leaving Duncan on July 1st, she rode the forty miles to Nanaimo, and shipped from there to Vancouver. From Vancouver to Hope occupied four days. At Hope Miss Crompton had expected to be met by an escort with pack saddle and camp outfit, but as there was no escort waiting, and rather than deviate from her program, Miss Crompton, uninformed of the hazards of the trip, decided to make the 66-mile journey through the Hope mountains to Princeton alone. The Princeton Star gives the following account of her journey over the mountain trail:

"Leaving Hope without blankets or camp outfit on Sunday forenoon, she made "Defiance" camp at 23-Mile for the night. There she was comfortably put up for the night. Making an early start Monday morning she reached the survey camp at Cayuse Flat (32-Mile) about 9 a.m. Pushing forward she arrived about 6 p.m. at the intersection of Sam Spencer's trail. There she became uncertain as to which trail to follow and, spent the time until darkness set in trying first one trail and then another.

With the darkness came rain and the chillness which always exists at night near the summit, even in mid-summer. The best shelter Miss Crompton could find was an old trap house and there she spent the night without camp fire and without food, as the only provisions she had brought along was a light lunch of bread and cheese which she ate during the afternoon. At daybreak she was in the saddle again and had trailed several miles, thinking she had possibly overlooked the right trail. She was fast approaching a stage of collapse from hunger, exhaustion and fear when, about nine o'clock, she was met by Mr. W. K. Gwyer, district engineer, who was making the trip from Nino-Mile to the survey camp at Cayuse Flat on foot. Expecting to make camp during the afternoon he was not packing much in the way of lunch but what he had he shared with Miss Crompton and directed her on her way to Princeton.

She arrived in town about 4 p.m. Tuesday and after a day's rest left for Hedley; the first stretch in a trip of about 180 miles which she had still ahead of her. Though the distance to Salmon Arm is a few miles shorter via Merritt and Kamloops she preferred to take the Okanagan route on account of its greater attractions."

Nine million barrels of Canadian flour were exported in the eleven months ending February last, as compared with 6,427,892 barrels and 5,106,302 barrels in the eleven months ending February 1922 and 1921 respectively. Canadian flour is now being shipped regularly to every part of the globe.

The cordage factory established in New Westminster, B. C., in 1921, is proving a great commercial success. There are now 60 hands employed and the factory is running 18 hours a day, with advance orders to keep them going at this rate for the next three months, even though no new orders are received in the meantime.

EDUCATION AIDS EARNING POWER

The critical demands for economy in public administration have included education in the list of possible savings. That is not surprising, seeing that it forms so large a part of the budget of municipal and provincial governments. In Manitoba education calls for one fifth of the total annual provincial budget; in Saskatchewan it is one sixth, and in Alberta it is almost a quarter of the entire cost of administration. In the city of Winnipeg education costs two and three quarter millions out of a total of nine millions; while in Vancouver, with a budget for 1922 of \$7,172,344, education required \$1,755,000, as the share of that total. There has been an attack on the generally accepted Canadian standards. The frills and the extent to which the states should be called upon to go with the student have been mostly under discussion. Acting under pressure to do something the Winnipeg board decided that after the current year, high school students should be required to provide their own books. That extravagance cost the city \$30,000 last year, and, considering that the prime idea behind the practice was that the children of the poorer homes would be encouraged to continue in school, the saving does not look like genuine economy. The High school has been the poor man's university, and it should be kept available for his children to the fullest extent possible and advisable.

There is some difference of opinion as to the extent to which expenditure for education should be borne by the municipality or the province, and paid for by the tax on real property, or out of income by all citizens. That problem is one to be worked out by practical politics. It is not wise that the subjects of education shall suffer through any rearrangement of the system or methods employed for upkeep. It is impossible to hold the curricula of the schools at the same point where they were a generation or two ago; that should be greater as the result of education. The producing and earning power of the mentally trained should be greater as a result of education. Let there be economy and sound administration in regard to education, but let there be no lowering of the standards. And let the schools strive to quicken what Sir Michael Sadler termed the intellectual and moral conscience, veracity, awareness of truth, honesty in seeing both sides of a question, and obedience to light, even where sacrifice is involved. To develop good character and conserve individuality is genuine education.—Canadian Finance.

## Bernard Home Is Destroyed by Fire

One-Armed Veteran Built Residence Entirely Alone.

HOUSE AND EFFECTS REDUCED TO ASHES

Origin of Fire Is Unknown—Some Insurance Is Carried.

Fire on Tuesday afternoon completely destroyed the home of V. J. Bernard in Peach Valley near the K. V. R. station, and its entire contents.

Mrs. Bernard and the children had been camping for several days on the lakeshore, north of Crescent Beach and Mr. Bernard was at work in his orchard at the rear of the house when the blaze was discovered. Apparently the first person to notice the fire was Mr. I. W. Booth, who was driving past about 3 o'clock and gave the alarm to the crew of the box factory close by, but it was then too late to save anything but the outbuildings, as, when the men reached the scene of the fire, the building was wrapped in flames.

There was quite a strong breeze blowing from the south at the time and it was but a few minutes after the fire was discovered before the house was a mass of ruins.

The cause of the fire is a mystery. Mr. Bernard had been in the house about one o'clock and had a fire in the kitchen stove to prepare a meal for himself, but apparently everything was alright when he returned to the orchard.

It is understood that Mr. Bernard was insured to the extent of \$1000 on the house and \$1000 on the contents.

Mr. and Mrs. Bernard have the sympathy of the community in their severe loss. Mr. Bernard is a war veteran, an amputation case and a hard worker. With the assistance of his little son, practically all the work in the building of the house was done by him with his one arm.

As the Bernard family lost all their clothing and bedding, with the other household effects, immediate donations along these lines will no doubt be appreciated and arrangements have been made by the executive of the Board of Trade and G.W.V.A. to have contributions received at the G.W.V.A. hall on Saturday and Monday between the hours of 11 and 1 and at Premier Hotel at any time.

Mr. Bernard plans on building another house, but in the meantime the family will occupy the Borton place.

## VISITOR TO TOURIST CAMP IS DELIGHTED

Write-Up in Wenatchee World Extols Beauty of Summerland Camp.

Summerland's auto tourist camp is given much larger space than is any other in an article in the Wenatchee World written by Mrs. W. P. Cameron, a recent visitor to this part of the Valley. Mrs. Cameron describes the motor trip from Wenatchee to Vernon.

Briefly mentioning Oliver and referring to Ponticon as a popular resort and "just the entrance to one of the most beautiful drives in B. C.," the writer says:

"One of the most delightful rest camps on the trip is found at Summerland. This camp is found about 500 yards off the main road where you turn in at the 'Log Cabin,' a rustic curio shop and ten room which is conducted by the B. C. Art League. This is a real beauty spot and well worth visiting.

"The Summerland camp is especially fine, located in the city park, among the tall timber with excellent water for drinking and cooking. There is a well equipped kitchen, plenty of fuel, no mosquitoes, a lake nearby for swimming and fishing and all that makes camp life desirable. There is a large community hall in the park (Continued on Page 2)

## AUTOISTS ACCEPT OUR INVITATION

That the arrow signs denoting the road to the Summerland Auto Tourist Park are fulfilling their function, and are also bearing out the arguments advanced in these columns for their installation, is proven by the fact that one day last week six tourist parties availed themselves of the opportunity and the invitation to sojourn with us for a while. Among the license plates noticed this week were here from Colorado, Connecticut, Alberta, California, Washington, Oregon, Montana, Saskatchewan, Texas, Indiana and Florida.

We understand that several of the parties were induced to pay us a visit after perusing the Summerland Park advertisement which was recently placed at the Customs Office.

Advertising pays, and those responsible for placing the signs deserve the thanks of the community.

## REFRIGERATOR CAR TUMBLES INTO CANYON

Car Contained 400 Pounds of Dynamite and Other Goods.

Early last Thursday morning a new refrigerator car, containing among other things, four cases of dynamite, jumped the K. V. R. track and fell about 300 feet into the canyon near Myra, which is a short distance east of Chute Lake.

No explanation can be given as to why the accident occurred, but it appears the trucks of the car first left the track in the cut about three car-lengths before the bridge was reached and upon reaching the bridge it became detached from the rest of the train and slid off into the canyon. It first struck a rock about eighteen feet below the track, where the upper portion broke away from the trucks leaving them by the rock. The rest of the wreckage was strewn out for about 275 or 280 feet down the side of the canyon, the ice tanks being the first portions of the car to find lodgment after the trucks were left behind.

It was believed at first that the dynamite exploded, as some flashes of fire were reported to have been seen, but the 400 pounds of explosive was found more or less intact so far as quantity is concerned and it is now believed that the flashes seen were sparks caused by the metal of the car striking the rocks.

In addition to the dynamite the car contained overalls and canned goods. The dynamite was in transit from the coast to Beaverdell and the other goods were for points east.

## POSSIBILITY OF DRAINING HILBORN LAKE

District Water Engineer Will Visit Site and Report to Council.

Business was unusually light at the semi-monthly meeting of the Municipal Council on Tuesday afternoon. The agenda had been cleaned up before 4 o'clock, but, as that hour is the one fixed for meeting ratifiers and others, Council waited, when the average number of visitors were received.

The now pound-by-law already referred to in these columns, was given its final reading and put into effect. H. W. Tavender wrote complaining of lack of water supply. He is served through the domestic pipe line and the Council decided to put a (Continued on Page 6)

## Manager Pratt Strikes Note Of Optimism for Co-Operative

Business Being Handled on Finest Possible Lines—Ruling Spirit Is One of Co-Operation—Outlook Is Promising—Prospects are Satisfactory—Keen Enquiry for Our Early Apples—McIntosh Red Coming Into Its Own—British Markets Still Prefer Jonathans.

"The outlook is promising, prospects are satisfactory," says Archie M. Pratt, general manager of the Associated Growers of British Columbia.

"We are not going to show any miraculous change in this, our first season of operation as a co-operative organization; but we have business arranged, and our plans are formulated and are working out right to run along smoothly. Our plans and policy are matured whereby the adjustment period indispensable from any new departure is to be tided over, and successful future working realized, we hope."

"Our plans and policy alike are well established and formulated," said Pratt. For instance, we have completed marketing plans for the Prairies which are characterized by the finest possible co-operation from traders and jobbers.

"Right there we have succeeded in effecting a saving to the growers of the organization at least between \$30,000 and \$40,000 in commissions, by a new arrangement with jobbers."

"Conditions have been worked out with two sets of jobbers, under plans by which we will direct the distribution and fix prices, and still have the two sets of jobbers competing for our business."

"The ruling spirit is a real spirit of co-operation right through the Prairies. Jobbers and traders there have been brought to a realization of the fact that this co-operative organization can be the means, with their assistance, of establishing prices so that they as well as the growers can make money, instead of having a repetition or continuation of the chaotic conditions existing previously, when each man was against his fellow man."

"The old condition was that each man was cutting the other man—and afraid he would not cut soon enough. That made the whole difference in shipping on a consign-

ment basis instead of the shippers of B. C. having any control at the shipping point.

"We have handled our business in marketing so far this year on the finest possible lines—it is the first time for many seasons that selling plans have been handled along such lines. It is generally conceded that small fruits offer more difficulties to such an achievement than does the marketing of apples. In our small fruit business so far we have had a fine co-operative spirit, which has enabled the organization to accomplish this in the case of the most difficult phase of marketing—small fruits."

"We have been able to maintain f.o.b. marketing at the most difficult point of the business."

"Already there has been keen enquiry for our early apples—especially keen from the eastern states of the United States. From Chicago and east for McIntosh Reds. Prices have been asked indicating an extension of that particular market, not only from the United States, but from foreign countries also. It looks, in short, as if there will be an especially good demand for early shipments of our apples. That applies to the export trade also. There the steamship companies have come out with a statement for advancing freight rates for export trade from eastern ports. We are now working in conjunction with other shippers, towards an end which provides that rather than stand for such an advance in freight rates we will, if necessary, charter our own vessels for that trade. We consider that attempt to raise freights an absolute imposition, especially at a critical period when the apple growers are struggling for a living and to maintain an industry. And especially do we consider it an imposition when those same steamship concerns are offering lower rates for the United States fruit. Our

view emphatically is, that instead of any attempt to advance rates, steamship companies would have been well advised, looking to the ultimate end, to have voluntarily dropped rates."

"The British Columbia McIntosh Red apple is steadily coming into increasing prominence as the special variety which the trade seems to feel can be produced to particular advantage here. It comes on the market at the right time and is produced in such superior quality here as to fit in exceptionally favorably with the general apple program."

"The Jonathan apple has had some trouble in the past, but regardless of that trouble it is, in the minds of English people especially, the preferred apple. The brown rot which was the cause of the trouble has not been definitely solved as a problem yet—that is the cause or the prevention. But if our plan works out as we expect, and conditions come back to normal—as we hope—there will be no regrets on the score of Jonathans. The conditions regarding Jonathans were not peculiar to B. C., but were experienced to the south also. The Jonathan growers are due for a surprise, but contrary to the general view, that surprise is likely to be a pleasant one instead of a sad one."

"We are determined that special attention is going to be given to Jonathans, and a supreme effort is being made in that connection. There has never been any grounds for the grossly misleading statements which have appeared in some quarters regarding B. C. Jonathans, which would appear to have given rise to the thought that B. C. cannot produce best grade Jonathans. As a matter of fact our Jonathans are in splendid vigorous condition right now."

"We have not yet arrived at the point of recommending varieties for growth to growers; or to offer advice as to reducing acreages in certain or any varieties."

## TROUT CREEK FARMERS' INST.

Mr. Freeman Gives Very Interesting Discourse on Early Canadian History.

On Monday evening last the members of the Trout Creek Farmers' Institute enjoyed an excellent paper from Mr. J. C. Freeman on Canadian History. In his introductory remarks Mr. Freeman quoted Scott's well known lines:

"Breathes there a man with soul so dead,  
Who never to himself hath said,  
This is my own, my native land?"

By way of an apology for undertaking such a paper he stated that Canada was his native land. His ancestor, as far back as he could trace, had been Canadian born. It had been established that it was an ancestor of his who replied to General Wolfe when in the hour of victory and death he asked "Who run?"

Mr. Freeman told of the history of Canada from the days of the earliest records, gradually tracing down through the records of the fur traders, the builders of railroads and the men who risked their lives to extend from sea to sea. And the pictures he drew of the hardships experienced were indeed interesting and instructive.

Asked for the meaning of the word "Canada," Mr. Freeman explained that this was the Indian name for a village. Another, though less convincing suggestion for the origin of the name has been made. Among the French discoverers of the country, were a number of Portuguese, who, on observing the desolate aspect of the country, exclaimed in their mother tongue "Ca nada," "There is nothing."

## SIGN AT BORDER INVITES MOTORISTS TO LOCAL PARK

By a neat designed poster, framed and protected by glass and metal, motorists entering British Columbia from the south are invited to use the tourist camp at Peach Orchard Park here. This was put up by Capt. H. H. Creese last Saturday in front of the Custom's House at Osoyoos.

It briefly describes the Summerland Park as the most beautiful in the Okanagan and invites motorists to visit it. Placed about the wording are six photographs, showing the log cabin, the Zimmerman Gulch, Trout Creek, a bit of the lakeshore and views of the lower and upper towns. Jack Logie supplied the photographs and the lettering was done by J. C. Melvin. Butler and Walden Bros. provided the glass and H. Reed did the metal work.

## RABID COLLIE ATTACKS BOY

Four-Year Old Child Victim of Ferocious Stray Dog—Is Progressing.

Kenneth Scurrah, the four-year old son of Mr. and Mrs. M. Scurrah, was attacked and bitten on Monday afternoon by a collie dog, whose owner is not known. He had been walking along the street with his father when the latter stopped at the Stack Supply store and the little lad wandered on a few steps farther and was at the corner of the Empire block when the dog ran across the street from the lake and attacked the child as though he were another and unfriendly dog.

Hearing the child yell, the father ran to his assistance and kicked the dog away, whereupon the latter turned on him, but moved off a short distance. When the dog ran at him the little fellow crouched down against the building and put his bare arm over his face and it was the dog bit, making several punctures with his teeth, the worst being close to the elbow. Though the little fellow has suffered considerably, it is hoped that he will recover without any complications.

It is said that this same dog has been bothering other people for some months, baring his teeth and growling, but this is the first occasion on which he has been known to have done anything worse than grab a person's clothing. At least one cartridge of shot has been fired at the dog since Monday, with the object of destroying it, but it is said that he got away.

A train nearly a mile long and drawn by a single locomotive recently carried 105,000 bushels of grain over the Canadian Pacific Western lines.

## Apricot Market Is In Unhealthy State

WHERE IS THE MONEY GOING?

Not so long ago we were able to boast of our roads and were proud of the fact that our friends south of "the line" used to come up the Valley for a spin over smooth roads. But how things have changed! Read this from the Oroville Gazette:

"Motorists from this place who have recently had occasion to drive over the roads in British Columbia report that they found the highways in a wretched condition. Formerly it was the custom to point to British Columbia roads as models that this state could well imitate, but from some cause the road builders on the other side of the line have fallen down on their job. Complaints of the wretched condition of most of the roads on the other side of the boundary have reached this office frequently this season."

We are paying taxes enough to have good roads. Is the P.G.E. the cause of the change?

Coast Jobbers Have Loaded Up with American Fruit.

HEAVY CULLING TO BE ENFORCED HERE

Prairie Markets Not Keen for British Columbia Cots.

The situation confronting the Associated Growers of B. C. with regard to the disposal of the apricot crop, looked upon by local growers who are following the situation closely, as an extremely serious one. The Vancouver market is already overstocked with apricots from Washington which Water street wholesalers, formed into pools, have purchased and are urging consumers at the coast to buy, just at the time the Okanagan apricots are commencing to roll. The same thing occurred about the time the Okanagan cherries began to reach that market, and, it is feared, a similar situation will develop when the peach deal has to be put over.

The Associated's estimate of the Okanagan's apricot crop shows a probable 50,000 crates. Californian apricots were selling in Portland, Ore., on July 14 at \$1.25 to \$1.50 per four-basket crates. Many hundreds of acres in California are not being picked, particularly where the fruit is a little off size. Washington apricots are being bought by cash operators at \$80 per ton in bulk or \$1.15 to \$1.25 per crate packed. The prairie markets are reported to be only lukewarm, with opening quotations of \$1.50 for No. 1s and \$1.10 for No. 2s.

Advices from the coast indicate that the Water street wholesalers have bought about twice as many Washington apricots on a firm basis of price as they will be able to market at anywhere near cost. Not only is this the case, but Washington apricots have also been marketed on consignment.

This means, it is stated that if the Okanagan apricot deal is to be put over in a satisfactory manner the growers must expect their fruit to be culled heavily.

In the past everything has been shipped that could be called an apricot. This year, for the above reasons, this cannot be done. No. 1s must be nothing smaller than a 5x6 pack and No. 2s will be cut down to a minimum. These will have to be particularly heavily culled as they are (Continued on Page 6)

## WOLF CUBS LEAVE FOR CAMP SITE

Program of Land and Water Sports Arranged—Visitors Welcome Thursday.

Summerland Cubs are preparing to go into camp at Crescent Beach. They assemble at Ellison hall at 7 p.m. on Tuesday evening and will return at 8 o'clock Friday evening.

There will be land and water sports at the camp on Thursday afternoon, beginning at 3.30 to which parents and others interested are invited. If parents wish to take their supper they will also be given a slug-song by the boys. While in camp, the boys will be given swimming lessons and also the usual Cub training.

Each boy is required to take bedding, knife, fork, spoon, plate, cup and saucer, toothbrush, hair brush and comb, soap and towel, dark pants or overalls, light shirt and bathing suit; and in provisions, two loaves of bread, three slices of bacon, 3 eggs, sugar, pie or cake, half pound of cheese and potatoes.

Arrangements have been made to have fresh milk delivered at the camp every day.

In 1922 Canada produced minerals estimated to be worth \$180,022,000, an increase of practically \$6,000,000 over the previous year.

## SUMMERLAND CITIZENS IN AUTO SMASH

Gulch Road Is Scene of Wreck When Steering Gear Does Not Act.

While driving down the gulch road about one o'clock on Sunday afternoon, Major E. E. Hutton, police magistrate, his niece, Miss Molesworth, G. Y. L. Crossley and his sister, Miss Crossley, were all pinned under the car which Mr. Crossley was driving, when it overturned on the road just at the head of the horseshoe.

Mr. Crossley states that he made the turn with the car in second gear and was going very slowly. When he attempted to straighten up the front wheels to make the second curve, the steering gear refused to work and instantly one side of the car ran up on the side of the cliff. The top was down, otherwise he believes the car would not have gone over farther than on its side, but with the crashing of the windshield, it turned completely over, entrapping all four of its occupants.

Fortunately, Dewey Sanborn, with several men, was immediately behind in his car and they were not long in releasing the entrapped ones, all of whom were taken to the hospital. None of the party suffered any broken bones or bad cuts. Major Hutton has been in the hospital most of the week suffering from shock and, in Miss Crossley's case, the accident aggravated a chronic case of appendicitis and she too has been receiving hospital treatment. Miss Molesworth suffered some bruises and small cuts while Mr. Crossley has his hand tied up with a cut and is suffering from an injured elbow.

## NEW DIRECTORY SHOWS GROWTH OF PROVINCE

Wrigley's Just Out—Is Greatly Enlarged—Many New Places.

The sixth annual edition of Wrigley's British Columbia Directory, containing 2020 pages and giving a complete Provincial Directory of the entire province, and complete city directories and house guides of both Vancouver and Victoria, is just issued.

The British Columbia section gives the names and locations of 2426 separate and distinct cities, towns, villages and settlements in the Province, giving a directory of each place, including all business and professional people, employees, farmers, fruit-growers, lumbermen, miners and (Continued on Page 2)

# The Summerland Review

Established August, 1908.  
Published at Summerland, B.C., every Thursday by  
THE REVIEW PUBLISHING COMPANY, LIMITED  
Ralph E. White, Editor and Manager  
An independent family newspaper covering Peachland, Summerland and  
Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.  
Member of British Columbia Selected Weeklies.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed, and the difference charged to the newspaper.

Thursday, July 26, 1923

## Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES  
BEING GREATER THAN HE WHO GIVES IT

### THE COAST APRICOT DEAL.

Are the wholesale fruit houses on Water Street, Vancouver, owned and controlled by Americans?

If not, how is it that the Coast market has been sold to Washington fruit growers?

Have the Associated Growers exerted reasonable efforts to hold the Vancouver trade for British Columbia 'cots and other fruits or have they relied on the promises of Vancouver business men at the time of organization that the Coast would be loyal to British Columbia growers?

These and many other questions are passing through the minds of our fruit growers as the result of information from the Coast that Vancouver wholesale fruit houses have provided for all their requirements by purchases of Wenatchee apricots.

The news article contained in another column in this paper, telling of the unsatisfactory condition of our 'cot markets, rendered so through the heavy importation of Washington fruit, is not pleasant reading for our fruit growers. Not only have Water Street jobbers loaded the market with American fruit, but they have also been receiving the co-operation of Vancouver dairies to persuade buyers that the peak of the season had been reached and that if they did not buy then housewives would be disappointed.

They were being given this story before our apricots had really begun to move, all for the purpose of stuffing the market with imported fruit. On the market page of a Vancouver daily on Thursday of last week prominence was given to a statement to the effect that Water Street wholesale fruit merchants were a unit in urging Vancouver housewives to attend to their apricot requirements at once, as the "hill" 'cots from Wenatchee, being the last of the season there, were now reaching Vancouver and that the peak of the 'cot supply was over. It appears that some publicity acquainting housewives of the fact that British Columbia has an abundant supply of 'cots for local needs is needed.

Vancouver has with much vigor been pushing the campaign of "Buy B. C. Products," for the purpose of increasing the business of that city, but, it seems to forget that the Interior is a part of B. C. when it comes to doing its own buying.

It was just such conditions as described above that occasioned an active movement here some time ago for the establishment of a wholesale fruit house in Vancouver by Okanagan growers and, little as they desire to do so, they may yet be forced to take this action in order to hold the home market.

### FRUIT PRICES.

Unsatisfactory as the cherry market has been and with promises of rather slim returns to producers for apricots, there is no doubt that fruit growers of British Columbia would now be facing an even more disastrous year than that of 1922 were it not for their re-organization into the one big marketing concern.

The Associated has not been in existence long enough to make itself fully felt in the market and no doubt by next year will have definite and effective plans for keeping back a flood of American fruit such as has largely captured the Canadian market this season up to the present, and it is hoped that our markets can be further saved for the later fruits of the current season.

### HOSPITAL FINANCES.

While the Summerland hospital is one of the most efficiently managed institutions of its kind in the province and the municipal grant, as compared with the support given their hospitals by other municipalities, has been small, it is not to the municipality that the hospital should go to this time for money with which to make up the greatly reduced grant from the provincial government.

There was either a very stupid mistake made when the Act was changed last year, or else the smaller municipalities and hospitals were deliberately deceived. The Hon. J. D. McLean, provincial secretary, under whose department the hospitals are placed, is quoted as stating in the House that the then proposed change in the Act affecting the distribution of liquor profits would not materially affect our hospitals. Having this assurance, no protest was made. Later it was

found that the assistance given before the amendment was cut down almost to the vanishing point, and hospitals all over the province are suffering as a result.

This would seem to be the time for joint action on the part of hospital authorities. The government controls the fund from which the grant is being made and Victoria rather than the municipal office should make up the difference which the amendment made in the hospital revenue.

### VISITOR TO AUTO PARK DELIGHTED

(Continued from page 1.)  
and on Friday night of last week the Boy Scouts, which have a membership of fifty, gave a mid-summer "mid-winter" ball, to raise funds for their annual vacation outing. For the decoration of the hall the boys used 150 small balm trees and over 900 snowballs made of white cotton batting. One visiting the hall could scarcely believe that it was still summer time. A program dance, supper and everything necessary for a wonderful party was all planned and carried out by this group of Boy Scouts.

Peachland is another stop-over place on the road to Vernon. The Edgewater Inn is a quaint English eating house in charge of Mrs. Clarence, who urges the tourists to not only eat her jam pie but also try the bread pudding.

Describing briefly the drive through Westbank, Kelowna, etc., to Vernon, Mrs. Cameron writes thus of the Vernon camp:

"Vernon has a real welcome for the incoming tourist. Their too, the camp is situated in the town park. A large kitchen with electric lights, running water, telephone, etc., is at the disposal of the campers. A card informs one that observations from the tourists will be appreciated, as this is the city's first attempt to provide for the campers. New tables are being placed around the camping sites. A stream of wonderful drinking water passes the camp, while a mile and a half drive takes one to the beach where there is excellent swimming."

### GIRL GUIDES NOW AT MILLER'S POINT

Summerland and Naramata Girl Guides are camping at Miller's Point. They were taken to the camp early Wednesday morning by the "Skookum." The Summerland girls are in charge of Mrs. Pares and Miss Dorothy Robinson is leader of the Naramata girls. About sixty or seventy in all are in camp.

Plans have been made for a special boat service to the camp on Sunday afternoon, leaving here at 1.30 and Naramata at 1.45. Parents and others going are requested to take their baskets.

### VANCOUVER WEEKLY IS SCALP HUNTING

Vancouver.—Claiming that official returns show that 34 per cent. of all business failures in Canada are due to "lack of capital," The Hook, the new weekly, edited by J. S. Cowper, ex M.P.P., is this week attacking the Canadian banks who are engaged in the fight with American banks to lend millions to Turkey for development.

The writer claims that the whole of the West is suffering from a lack of banking accommodation and cites several instances, at the same time reminding the banks that the Bank of Montreal lost millions in Mexico, the Royal Bank lost millions in sugar speculation in Cuba and that the Union Bank recently lost millions in gambling in Belgian francs.

Victoria.—War on the Senate and on the export liquor houses has been declared by Attorney-General Manson, who promises "lots of action" in the coming fight.

### KEEPING FOOD WITHOUT ICE

Keeping food without ice has been overcome to a large extent by the home-made iceless cooler. This convenience may be made by anyone who has a saw and hammer.

The iceless cooler is a screened frame work of open shelves, having a solid base, a solid wooden top and a screen door with a curtain constantly kept moist by means of a pan containing water, set upon the top of the cooler with wide wicks of material which serve as carriers of the water from the pan to the curtain.

The size practical for a small family measures 42 inches high, 14 inches wide and 15 inches deep. A large cooler may be made 48 inches high, 16 inches wide and 18 inches deep.

There are two methods used in building the box part: (1) by taking a grocery or merchandise box and cutting out large openings on all four sides, leaving enough at the corners to make the framework strong; (2) building the framework of 1x2 inch material and fastening to a solidly built wooden top and bottom.

After the frame work or box has been made, cover three sides with galvanized screen and make a screen door for the front. The shelves should be movable and made of slats so as to allow the air to circulate in the cooler.

Curtains for the box may be made of either used or new material, canton flannel, outing flannel, cotton or woollen blanket material or burlap. Make the curtain in two parts, one to fit the door, leaving the rest sufficiently large to cover the remaining three sides of the cooler. Hang the curtain with loops, upon screw eyes around the top of the cooler.

When ready for use, place a pan of water on top of the cooler and put a number of wide wicks made of cast-off woollen socks, split open, or pieces of old woollen blanket in the water. These should feed the water from the pan to the curtain. A pan to catch the drips may be placed under the cooler.

The coolness of the iceless cooler depends upon the evaporation as the water flows down through the curtain. Evaporation takes place and heat is drawn from inside the box.

### NEW DIRECTORY OF PROVINCE

(Continued from Page 1)  
fishermen, in the various districts. The Victoria section contains a complete house guide, giving the number and occupant of every house in Greater Vancouver, whilst the alphabetical section gives the name, occupation and residence number of every business and professional man, employee, and resident in Greater Vancouver.

By actual count of the names contained in this section, and by using a common multiple which is used by nearly all directory publishers, Greater Vancouver has a population of 250,554, which does not include orientals, of which there is estimated to be 15,000.

The Victoria section contains a complete alphabetical and house directory of the entire city of Victoria, and includes Oak Bay, Esquimalt and Saanich municipalities, giving the names and residences of all citizens residing in this territory. The popu-

lation of Victoria is placed at 66,144. The classified section is arranged alphabetically under 714 headings, and gives the names of all business firms, manufacturers, wholesalers and distributors in the entire province.

Re populations—The leading centers are stated as follows: Anxious, 2,000; Britannia Beach, 1,000; Chilliwack, 2,000; Cranbrook, 3,000; Fernie, 4,750; Grand Forks, 2,000; Kamloops, 5,000; Kelowna, 3,000; Nainaimo, 10,000; Nelson, 6,000; New Westminster, 18,000; North Vancouver, 9,000; Ocean Falls, 2,000; Peneticon, 4,000; Prince George, 3,000; Prince Rupert, 6,300; Revelstoke, 3,500; Rossland, 2,000; Trail, 4,500; Greater Vancouver, 250,554; Victoria, 66,144.

Some of the towns in the north which are forging to the front and becoming important centers include Prince Rupert with a population of 6,300; Prince George, 3,000; Terrace, 900; Smithers, 850; Quesnel, 500; Vanderhoof, 350; and Burns Lake, 300.

It is interesting to note that in 1918 there were only 2019 places in the Province, as compared with 2425 places at this time; that it only required 964 pages to print a directory of British Columbia in 1918, while the present book comprises 2020 pages; that there has been an increase of 91 new places in the Province within the last year.

Wrigley's British Columbia Directory for 1923 is undoubtedly the largest single job of printing ever printed in the city of Vancouver. Five tons of paper were consumed in the publication of this book. Ten tons of type metal were used in the production of the book. Twenty-six men were employed in the printing of the book for an average period of four months.

The compiling of the book required a staff of thirty-two persons, who have been constantly and busily engaged for an average period of six months in gathering, compiling, tabulating and checking the vast and varied information which goes to make up this directory. Each and every one of these, as well as the printing staff are permanent residents of Vancouver.

Copies of Wrigley's British Columbia Directory are placed in libraries and boards of trade in the principal cities of Eastern Canada, England, and parts of the United States, as a sightseer and tourist guide.

The fellow who digs for nothing other than the root of all evil ought to break his pick.

When steel gets too hot it loses its temper; when man loses his temper he gets too hot.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

PRE-EMPTOR'S FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war.

GRAZING

Grazing Act, 1910, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners.

PEACHLAND DOINGS

The Girls' R. W. B. Athletic Association met last week in the Veterans' Hall for their last meet till after the summer months. The mothers of the members and a friend to accompany them were invited to attend and see the work that is taken up by the club and they were quite pleased over the progress which the girls have made.

Four Peachland High School girls accompanied by a chaperon spent a most enjoyable time camping out last week. Mr. Aplaugh's truck took the camping outfit and provisions about ten miles back into the hills, two of the girls riding out on horses and the other two with the truck.

The first night was a memorable one on account of the weird and unfamiliar sounds around. They "turned in" early, and after getting used to conditions, had a good sleep.

Our new municipal constable, Mr. Weitzel, Sr., is "on the job" these days checking some of the many "speed artists" who pass up and down our main street. It has been feared that sooner or later some accident would occur whereby some child crossing the street, as many of them do, especially during bathing season, would be run down before precautionary steps were taken along this line.

Peachland Boy Scouts were all excitement, when they rounded up at the Scout Hall seventeen strong ready to spend the remainder of the week down at Miller's Point, and a jolly crowd it was that journeyed down the lake.

Mr. Edgar Phillips, who visited Mr. and Mrs. H. McCall last week, returned on Saturday from a short trip to Vernon, and after spending the week end in town left for Pentiction.

Mrs. Wm. Douglas is enjoying a visit from her sister-in-law, Mrs. Houston with her two children, a little girl and boy, from Winnipeg, who arrived last week.

Rev. Isaac Pogo of Pentiction, accompanied by a number of friends, again visited Peachland on Sunday afternoon to conduct the regular service in the Baptist church.

After a few weeks' visit at their respective homes in the Tropanier townsite, the three Cousins brothers, Francis, Eddy and Daniel, and Lorne Shaw left by auto to return to the logging operations near Coalmont.

OILED FRUIT WRAPS PROVE THEIR WORTH

Winesaps Bring as High as \$4.73 f.o.b. When Stored Under Fisher Plan.

Wenatchee, Wash., July 20.—The Northwestern Fruit Exchange has just completed a tabulation and summary of the sales of 19 cars of oiled wrapped Winesaps shipped this spring and sold during the last two months.

This fruit which belonged to the American Fruit Growers, was picked, packed and moved promptly by truck into the plant of the Columbia Ice and Cold Storage company at Wenatchee. Temperatures in the cold storage plant according to records show that this fruit was held at a temperature of 31 degrees.

It is reported that our old friend Wes. Waldriff had the misfortune to receive injuries while working at the Dobbin Camp at Westbank and was taken to the Kelowna Hospital.

On Thursday evening last the Peachland baseball nine, accompanied by several friends, motored to Summerland and met the Summerland nine on their home diamond. The game was a good one in spite of the fact that owing to the rain the ground was in rather bad condition for playing on.

Miss Bertha Bradbury, on Thursday, came up from Pentiction to spend a short time with her parents.

Mrs. Irwin, of Ollala, was last week a guest of her friend Miss M. Smith. She took the Saturday morning boat to continue her trip to Kamloops.

In passing through by motor on Friday, Mr. and Mrs. R. Howson, of Pentiction, paid a short visit with friends in town.

Mrs. R. Walters and her little girl were in town last week, coming in on Friday evening's boat. They were guests of Mr. and Mrs. Smalls, and were visitors to Scout Camp on Sunday.

Mrs. Wm. Douglas is enjoying a visit from her sister-in-law, Mrs. Houston with her two children, a little girl and boy, from Winnipeg, who arrived last week.

Rev. Isaac Pogo of Pentiction, accompanied by a number of friends, again visited Peachland on Sunday afternoon to conduct the regular service in the Baptist church.

After a few weeks' visit at their respective homes in the Tropanier townsite, the three Cousins brothers, Francis, Eddy and Daniel, and Lorne Shaw left by auto to return to the logging operations near Coalmont.

Mrs. E. House left by boat Monday evening to spend a couple of weeks visiting out of town.

Mrs. Murrin spent Monday in Kelowna.

Municipal Clerk Wm. Dryden and Mrs. Dryden left this week on a vacation trip by motor to Seattle. In their absence, Miss Metcalf is in charge of the Municipal office.

All these cars were sold on instruction in New York city at auction. Auction charges range from 7c to 11c per box, depending upon gross price realized.

The total storage charges on fruit shipped prior to May 1, amounted to .25c per box; on the later shipments the storage charge was 30c. The Northwestern Fruit Growers Exchange selling charge and Skookum inspection fee amounted to 11c per box.

Earl Barnhill, regional supervisor of the American Fruit Growers, was largely responsible for this demonstration as to the commercial value of oil wrapped fruit. He states: "The 19 cars sold in New York brought \$61,714.38 from which \$12,447.96, covering freight charges was deducted, making a total gross for the 19 cars f.o.b. Wenatchee of \$48,266.42. The entire 14,808 boxes of oiled wrapped fruit averaged \$3.44 per box f.o.b. Wenatchee."

"D. F. Fisher, U. S. Pathologist," continued Mr. Barnhill, "has given to the Northwest, in fact to the apple industry in general, the greatest impetus that has come in recent years. In my opinion, no other factor will have a greater influence in the industry as a whole than will the oil wrapping of our storage fruit. We have been fortunate to realize the first commercial advantage of the wonderful discovery which Mr. Fisher has experimented with and finally perfected."

Wifely Optimism. Hub—"When I see all those bills I get tired of living. Do you think the time will ever come when we shall be out of debt?" Wife (cheerfully) — "Why not, dear? You know you are carrying an exceptionally large life insurance."

"Pardon me," said the little man, "but are you quite sure it was a marriage license you gave me on the tenth of March?" The clerk prepared to turn up particulars.

"I believe so, sir," he said, "but why do you ask?" "Well, I have led a dog's life ever since, that's all."

The crook will get straightened out sooner or later.

The Limit of Laziness. A person afflicted with innocuous desuetude would probably never make the effort necessary to look up what the word means.

# EDITORS VISIT MARITIME PROVINCES

Important places visited by Weekly Newspaper Association on the way to convention at Halifax: (1) The historic fort at Annapolis Royal; (2) The recently completed Chateau Frontenac, where the travellers were entertained at lunch; (3) The Evangeline memorial chapel at Grand Pré, N.S.; (4) Some of the editors and their wives at Halifax.

ONE of the important annual events of the year is the convention of the Canadian Weekly Newspaper Association when the editors of the weekly papers gather from all parts of the country, hold their annual meeting, and travel together to the convention city. Two years ago they went to Vancouver, a year ago to Ottawa, and this year to Halifax, where they spent two days after a ten-day tour of the Maritime Provinces. Never was a convention tour more completely successful. The party, including ladies and children, totalled about 180 people. The editors left Toronto in a special Canadian Pacific train of twelve cars, and in their journeying through the East became acquainted with that important part of Canada and learned much of the viewpoint of Easterners. Therein lies the special value of these annual trips. The influence of this weekly newspaper press of this country is great and it is important that the men who produce them should have the widest possible viewpoint on Canada and Canadian affairs. To Western editors the journey through the Maritime Provinces was tremendously informative. They not only had a close up view of the country's tremendous resources, but heard leading citizens explain the eastern attitude in reference to national questions of the day.

Fredericton, N. B. was the first maritime stopping place, and here the travellers were given a motor drive by the citizens and welcomed by the Lieutenant Governor and the Premier. At St. John the party embarked on the Canadian Pacific steamer "Princess" for Digby, N. S., having a most pleasant sail across the Bay of Fundy. From Digby to Halifax the Dominion Atlantic Railroad carried the party through the Annapolis Valley where the wonderful apple orchards were still in bloom. Two days were spent at Halifax in convention business and in sight seeing, and the party returned home via the Canadian National Railroad. The Canadian Pacific special train was made up of standard sleepers, diners, baggage car and observation coach. The trip was arranged by E. Roy Sayles, Manager of the Association, and from Toronto to Halifax the party was accompanied by W. B. Howard, Assistant General Passenger Agent, and J. Harry Smith, Press Representative of the Canadian Pacific Railway. On the return journey a stop was made at Quebec and the party was entertained at the Chateau Frontenac where they had an opportunity to inspect the new tower wing of the famous hotel. Next year it is expected the convention will be held at Quebec, and after it is over as many of the members as can will go to England to visit the British Empire Exhibition, and perhaps to France to see the battlefields.

## A THOUGHT FOR TODAY.

Nothing is more fatal to the quest for earthly happiness than a general antipathy to and contempt for one's fellow creatures. And nothing can be more unjust, nor more conceited. Your average fellow creature is a very decent person, inspired by a fair amount of kindness and a quite active conscience and a sense of duty. The average person is not an individual to be despised or detested or even sneezed at. And those who do not like or respect him are either ungrateful or wicked, or ill, or self-centred coxcombs, or mere idiots.—Arnold Bennett.

Headstrongness is a mental weakness.

## NARAMATA NEWS

Current Events of Town and District.

The adjourned school meeting was held Saturday evening in the schoolhouse, Mr. A. C. Horswill presiding. A large number of ratepayers were present, and considerable interest was shown in the subject of high school arrangements for the future. In the end it was decided to limit the instruction given to the ordinary public school course, and to reduce the staff of teachers from three to two. Those pupils eligible for high school work will accordingly be unprovided for, but a rider was added to the resolution to the effect that the trustees investigate the possibility of rendering them some assistance. The budget called for by the trustees for the coming year's expenses amounted to \$3,500, as against \$4,200 for the last year. The meeting closed at 10.30.

A hailstorm of some severity occurred on Monday afternoon but so far as can be ascertained, no damage was sustained by the fruit.

Mr. and Mrs. A. T. Horswill, and son Jack, arrived from Nelson on Friday, and are staying a few days with their son, A. C. Horswill.

The W. A. met at the house of Mrs. Weaver on Thursday afternoon, a large number being present. Mrs. Langpodoc presided, and refreshments were served by the hostess, assisted by Miss Violet Lawson of Vancouver.

Henry Rushbary has been under the weather for some days, and is resting by the Doctor's orders.

Miss Lawson left for Vancouver on Saturday morning, after two weeks' visit with Mrs. Weaver.

The Girl Guides left on Wednesday morning by special ferry for Miller's Point, where they will spend ten days in camp. The troop is in charge of Miss Dorothy Robinson, and Mrs. MacDonald of Penikeseon will supervise the schedule of the trip.

The wagons of sin are always paid in full with time and a half for night work.

## NARAMATA SCOUT NEWS

Now that we have finished our ten-day camp we are getting down to work in earnest for the summer months. From the standpoint of work accomplished there, results were very satisfactory, several of the boys having earned two or three badges apiece.

One of the first and most important things decided upon at camp this year was that the Scout Troop should enter the annual competition for the Lieutenant-Governor's shield, which is awarded to the most proficient troop in the province.

Our Scoutmaster, Stewart Allen, was very fortunate in getting an opportunity to assist in inspecting and examining the 1st troop of Vernon

Scouts, who are seeking the above-mentioned honors. On his return he reported that we compare very favorably with that troop at the present time, and after a year's hard work ought to stand very high in next year's examination.

We have been holding two Scout meetings a week for some little time and we will continue to do so during the coming months. On Friday the meeting took the form of a short overnight hike. We struck out for the hills and made camp near the Falls at about 9 o'clock. We sat around the camp fire for a little while, and we did some work on lashing spars, etc. In the morning we started our first work in bridge building for the Pioneer badge. After a very enjoyable night we departed home about 8 a.m. On Monday our work embraced the

Second Class and First Class tests. We also discussed the Kelowna hike, which is a part of this weekend's program. A further report of this will be given in next week's issue.

Our Cub Pack is progressing in its work. We have now ten active members and they are all enthused with the work. At our meeting on Wednesday we went out in the bush to seek a suitable place for a parade circle which would be screened from the eyes of passersby. We found and cleared a nice green spot and before leaving gave our first Howl there. If anyone hears a noise back of the townsite on Wednesday nights don't think it's a raid by wild Indians. You will know that its Wolf Cub night and they are advertising it.

NARAMATA SCOUT

## Admired Hair Is Shampooed This Way

Hair that gleams with life and color

Women admired and envied for their richly beautiful hair know this secret. Hair specialists agree that it beautifies hair. Olive oil for the shampoo! It has been used since history began. For its gentle cleansing action removes all dirt and oil from scalp and hair. Dandruff is dissolved and washed away. And the bright sheen of life and color is greatly increased. It leaves hair fluffy—never dry or brittle. It leaves hair silky and pliant as a baby's—

with the inimitable gloss so much desired. Thousands of women now regularly treat their hair this beneficial way. They use PALMOLIVE SHAMPOO—olive oil in its most perfect form for the shampoo. Easy to use. And very economical. You can get full-sized bottles at your dealer's. Or, by mailing coupon, you may have a 15c trial bottle free. Get some at once. Use it. See the results that follow even one shampoo.

## Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living and brought up their families. It meant hard work, but today they are independent.

**Money in Mixed Farming**  
In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Port William price of 42c per bushel, while barley used for the same purpose has brought as high as 99c as against the Port William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted. The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

### Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

### Profits from Sheep

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving ruinous glut in their local market.

### Poultry Pays

There is a market for good Canadian horses, whether light or draught.

### Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it to the south. Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

### The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

INSURANCE

Fire, Life, Accident,
Sickness, Fidelity, Auto-
mobile, Plate Glass.

AT THE EMPRESS.

One of the most talked of pictures
at the present time is Pola Negri's
first American Paramount picture,
" Bella Donna," which will be shown
at the Empress July 27 and 28. This
is a wonderfully emotional picture
portraying a modern woman of fa-
shion, ruling men with her siren
charms until at last she meets the
eyes of her great lover. There is
a magnetism about this picture which
remains in the minds of those who
see it when many other things are
forgotten.

NEED IS APPARENT.

Six hundred and seventy-eight Brit-
ish Columbia cars passed through
Osoyoos for the States since April,
according to a report made by the
Customs Office there recently. Ap-
proximately two hundred of these
would have gone directly to Van-
couver if there had been a road be-
tween the Interior and the Coast.

Local Happenings

J. D. Sloan, C.P.R. telegraph opera-
tor at Ashcroft, was a visitor in town
on Monday.

Mr. A. C. Whitley, C.P.R. opera-
tor at Lytton, B. C. spent Friday of
last week in town.

A. Sallis and family, who have been
living at Trout Creek for a time, have
moved to Penticton.

Warren Gayton left on Tuesday
for Medicine Hat, having obtained
employment with the railway there.

W. K. Payne, of the Summerland
high school staff, has resigned to take
a position on the Rossland school
staff.

Another carload of mixed fruit
was shipped out by the Summerland
Co-Operative Growers last night, by
freight.

Mrs. J. A. Morrison and daughter,
Ella, are expected home tonight from
Vernon, where they have been for se-
veral days.

Monday was the warmest day of
the year here, 97 being recorded. At
Kamloops it was 101 and at Grand
Forks, 102.

Mr. C. J. Johnston, a former stu-
dent at Okanagan College, came over
from Hope on Sunday and spent the
day with Mr. and Mrs. T. Dale.

Leaving here Saturday morning,
Summerland Boy Scouts are in an-
nual camp at Okanagan Falls, where
they plan to remain for ten days.

Miss Hendry, of Hamilton, Ont., is
the guest of Mrs. H. R. McLarty.
She has been visiting at the Coast
and is now on her way to Ontario.

Mr. Thompson, C.P.R. agent at
Walhachin is in town visiting friends
and acquaintances, having stopped off
here while on a motor trip through
the Valley.

Camille Rovers is recovering from
a lengthy illness and expects to re-
turn to his home this week-end from
the hospital, where he has been for
some weeks.

Mrs. W. Avery, of Winnipeg, and
her daughter, Dorothy, came in on
Wednesday night to visit Mrs. Avery's
sister, Mrs. H. H. Elsey. They will
probably remain here for several
weeks.

W. W. Borton is now working with
J. Galbraith, plumber, of Kelowna.
He moved his household effects to the
Orchard City last Saturday and Mrs.
Borton and family motored up on
Sunday.

V. M. Lockwood and family left
here Monday noon to accompany his
brother and the latter's wife part
of the way on their return to Bol-
lingham. The local party is expected
back today.

Grasshoppers in rather alarming
numbers are reported on the benches
near Chute Crook on the east side of
the lake. One visitor there reports
that they have devoured second
growth alfalfa and are attacking the
sage brush.

Crescent Beach is steadily increas-
ing in popularity as a summer resort
and camping ground. Mr. T. Croll
has just had completed a fine new
summer camp on the north side of
the beach, and work is also being
done toward the construction of an-
other for Mr. T. B. Young.

Despite the showers, a game of
baseball was played last Thursday
evening between the Summerland and
Penelind teams, the visiting team
being the winner. Following the game,
the ball-tossers attended the Rialto
theatre, where a benefit performance
was given for the Summerland team
which was largely attended by cil-
izens and visitors.

Notice

H. S. Timberlake, B. O., the well
known Eyesight Specialist will be at
the Summerland Drug Co.'s store on
Monday next, July 30th.

Owing to pressing business H. S.
Timberlake has been delayed in mak-
ing his usual monthly visits and he
desires as many of his patients as
possible fitted with glasses within
the last three years to see him for
re-examination and adjustment.

Jack Craig was a passenger on the
S.S. Seacombe to the Landing and
back on Tuesday.

Miss J. Curry and Miss K. B. Har-
vey returned this morning from a
short visit to the Coast.

The new edition of the telephone
directory has just been completed
and is about ready for distribution.

A son was born to Capt. A. M.
Temple and Mrs. Temple on Monday,
July 23rd at the Summerland Hos-
pital.

Mrs. Douglas Muir of Winnipeg
was a guest at the Fenner home a
few days this week on her way to
spend a few weeks at the Coast.

Some outside interests, believed to
be American, have been investigat-
ing the College buildings, with a view
to utilizing them as a sanatorium.

Mrs. O. Atkins has with her a sis-
ter, Mrs. H. C. E. Anderson and her
two children of North Vancouver.
They arrived here Tuesday morning.

Mrs. P. E. Knowles, after several
days at home has returned to the
hospital for further treatment to her
hand, which is still giving her much
trouble.

Miss E. Randall of the hospital staff
left Thursday of last week for a
three months' vacation. After visit-
ing friends at Oyama, she will go
to Victoria.

The government thermometer at
Oroville registered 101 on Friday,
July 13th, and 2 degrees less the
following day. Here the temperature
on those days were 91 and 96 respec-
tively.

Alderman Horswill and Mrs. Hors-
will with their son Jack left last
evening for Naramata by motor,
where they will visit their son, whom
they have not seen for the last seven
years.—Times, Nelson.

Burning grass on the north side of
Giant's Head near one of the Wood-
worth cottages Monday afternoon
was the cause of fire alarm. It was
at first thought that the building was
on fire.

According to report reaching here,
Hugh Scriver, former Summerland
resident and now of Fintry, rescued
a small child from drowning at that
place. The little child had fallen off
the wharf into deep water, when Mr.
Scriver rescued it.

G. R. Hookham, after a few days
at his home here, has returned to the
Coast intending to go to Seattle,
where he expects to conclude arrange-
ments under which the coal property
at White Lake, controlled by a Sum-
merland syndicate will be operated.

Summerland Co-Operative Growers'
Association shipped a carload of cher-
ries from here last Friday. This is
the last straight carload of the sea-
son. Much of the cherries shipped
from here have gone up the lake
for assembly into mixed or straight
cars.

G. M. H. Wagner and Son, a Chi-
cago wholesale fruit firm, operating
extensively in the Wenatchee and ad-
jacent territory are building a frost-
proof warehouse at Oroville with the
idea of handling a big part of the
apple crop. The building is 50x100
two storeys.

Crossing the Atlantic on the C.P.R.
liner "Montclare," Mr. Alfred Car-
ruthers arrived in Summerland on
Friday last. He is a native of Cock-
ermouth, Cumberland, England, and
at present is staying with Mrs. F.
A. Bleasdale, who was a friend of
Mr. Carruthers' family in the Old
Country. The "Montclare" left Liv-
erpool on the 6th inst. Mr. Car-
ruthers' trip to Summerland taking
exactly two weeks.

Her many Summerland friends will
be interested to hear of the marriage
in Toronto, on July 20th, of Miss
Gertrude Hippley to Mr. J. A. Whit-
man, of Newfoundland. From thro
the happy couple left for New York,
where they will remain for the win-
ter. Miss Hippley was a former
resident of Summerland and previous
to her marriage spent several weeks
here, the guest of Mr. and Mrs. A. G.
Munn.

Miss Gwon Harris was hostess at
a delightfully informal dance in the
Parish Hall on Friday evening, when
about seventy guests spent a most
pleasant evening. The hall had been
tastefully decorated with flowers and
furns, while outdoors to the west of
the hall, a pleasing effect had been
obtained by an artistic arrangement
of Japanese lanterns, making a
charming outdoor garden, where re-
freshments were served during the
course of the evening.

Miss Mathew, who has been visit-
ing Miss Bessie McCallum for some
time, returned on Sunday to Van-
couver.

Miss Amm, sister of Mr. J. C.
Amm, is here from the prairies,
spending her vacation with Mr. and
Mrs. Amm.

Aif, Johnston left on Tuesday
morning's boat for Medicine Hat,
Alta, where he will be employed on
the railway.

W. T. Hunter, district horticultur-
ist, is attending in Idaho the annual
convention of government horticultur-
ists of the Northwest.

Don't forget the hospital when
doing up your fruit. It will be much
appreciated. Those wanting sealers
can get them by calling at the hos-
pital.

Miss Ruth Waterman, of the nurs-
ing staff of the hospital, left on Tues-
day for Grand Prairie, where she
will join the staff of the hospital of
which Miss Hibbs, former matron
here, is now in charge.

Mrs. H. W. Tavender has visit-
ing her brother, Mr. Hawthorne,
who arrived here on Thursday of
last week direct from Hong Kong.
He will probably remain here for a
month or two.

According to word lately received
from Hilton Snider, now at his home
at Portage la Prairie, the condition
of health of his father remains quite
serious. Hilton will probably be there
for some time.

B.C. FRUIT RECEIVES MUCH PUBLICITY

In a letter received by a Vernon
friend from C. F. Wade, agent gen-
eral for British Columbia in Lon-
don, he expresses his regret that the
Okanagan did not have a represen-
tative with the Vancouver Board of
Trade delegation which visited the
Old Country and adds:

"It was a pity that the delegation
did not have a representative from
the Okanagan Valley. I took the
matter up by cable with the board
before they left Vancouver with the
result that Mr. Forsyth Smith was
asked to join the delegation as far
as the fruit importing cities were
concerned.

"As to publicity, the Okanagan
fruit receives more publicity in this
building, in and out of season, than
any other product in British Colum-
bia. Our exhibit of prize apples this
year and last attracted a great deal
of attention. I have endeavored year
by year to secure an exhibition of
apples preserved in liquor for winter
exhibition, but with very poor
success."

WHY TOURISTS ARE PROFITABLE

Catering to tourists has become a
very important business in British
Columbia and now means more to
the province than even the fishing
industry. At the annual dinner of
the Greater Vancouver Publicity As-
sociation, which through progressive
advertising has been largely respon-
sible in bringing American tourists
to Vancouver, the menu gave the
following figures as an estimate of
what tourists visiting the Coast last
year consumed in the way of food-
stuffs:

Table listing food items and quantities consumed: Cereals, Bacon and ham, Bread, Jam, Coffee, Tea, Sugar, Butter, Vegetables, Potatoes, Fish, Flour, Salt, Fat, Meat, Fruit, Apples, Cream, Milk, Syrup, Eggs.

Does an Alarm Alarm You?

IT WON'T IF YOU ARE INSURED.

Let me quote you a rate on your home.

E. C. SKINNER IS IN SHIPPING BUSINESS

Vernon.—E. C. Skinner, for the
past six years manager of the Mutual
Fruit Company and prior to that man-
ager of the Vernon Fruit Union for
four years, has entered the fruit and
vegetable business on his own ac-
count. He has secured the old Dom-
inion Cannery's warehouse from
where he will carry on operations this
season with the Nash organiza-
tion.

Mr. Skinner states that he has se-
cured quite a good tonnage and has
already started shipping early veget-
ables. J. Montague, who has been
engaged in the Valley shipping busi-
ness in different capacities for the
past few years, will be in charge of
Mr. Skinner's office.

VERNON CHARGES FOR STORED WATER

It has been learned that the stor-
age water rate in the Vernon irriga-
tion district will be \$6.00 per acre
foot till Aug 31st. This compares
with \$5.00 last year.

In the event of there being a de-
ficit on the year's operations, it is
stated that a general levy on all the
lands coming under the irrigation
system will be made.—Vernon News.

THINNING PAID WELL AT YAKIMA

Yakima.—Vigorous thinning prac-
tised by the growers of the Naches
Valley has been very effective in
giving better size in the Winesaps.
This is the report of Curtis Aller,
manager of the two packing houses,
one at Glead and one at Eschbach.
After the disappointing experience of
the growers two years ago when
Winesaps were very small, more
thinning was put into practice by the
growers.

Two years ago these packing houses
showed 80 to 90 per cent of five-tier
Winesaps, while last year there were
only 38 per cent, five-tier and jumb-
les at the Glead house. A grower
who two years ago had 90 per cent
five-tier, reduced to 7 per cent last
year. Another grower who three
years ago had 60 per cent five-tier
cut it to 40 per cent, the next year
and last year to 13 per cent.

When the apple thinning will have
been completed, the growers of the
Yakima Valley will have spent \$500,
000 for this work alone. It is es-
timated that 5,500 thinners have been
at work, the average hourly wage
being 35 cents an hour. The cost of
thinning varies according to variety,
some varieties being thinned ten
to twelve inches apart and others seven
to eight inches apart. The cost per
box of packed boxes of apples, re-
sulting from the harvest is estimated
at 4 to 10 cents a box.

It is sometimes possible to get far-
ther with your brains than with your
legs.

Florence Automatic Oil Cook Stoves

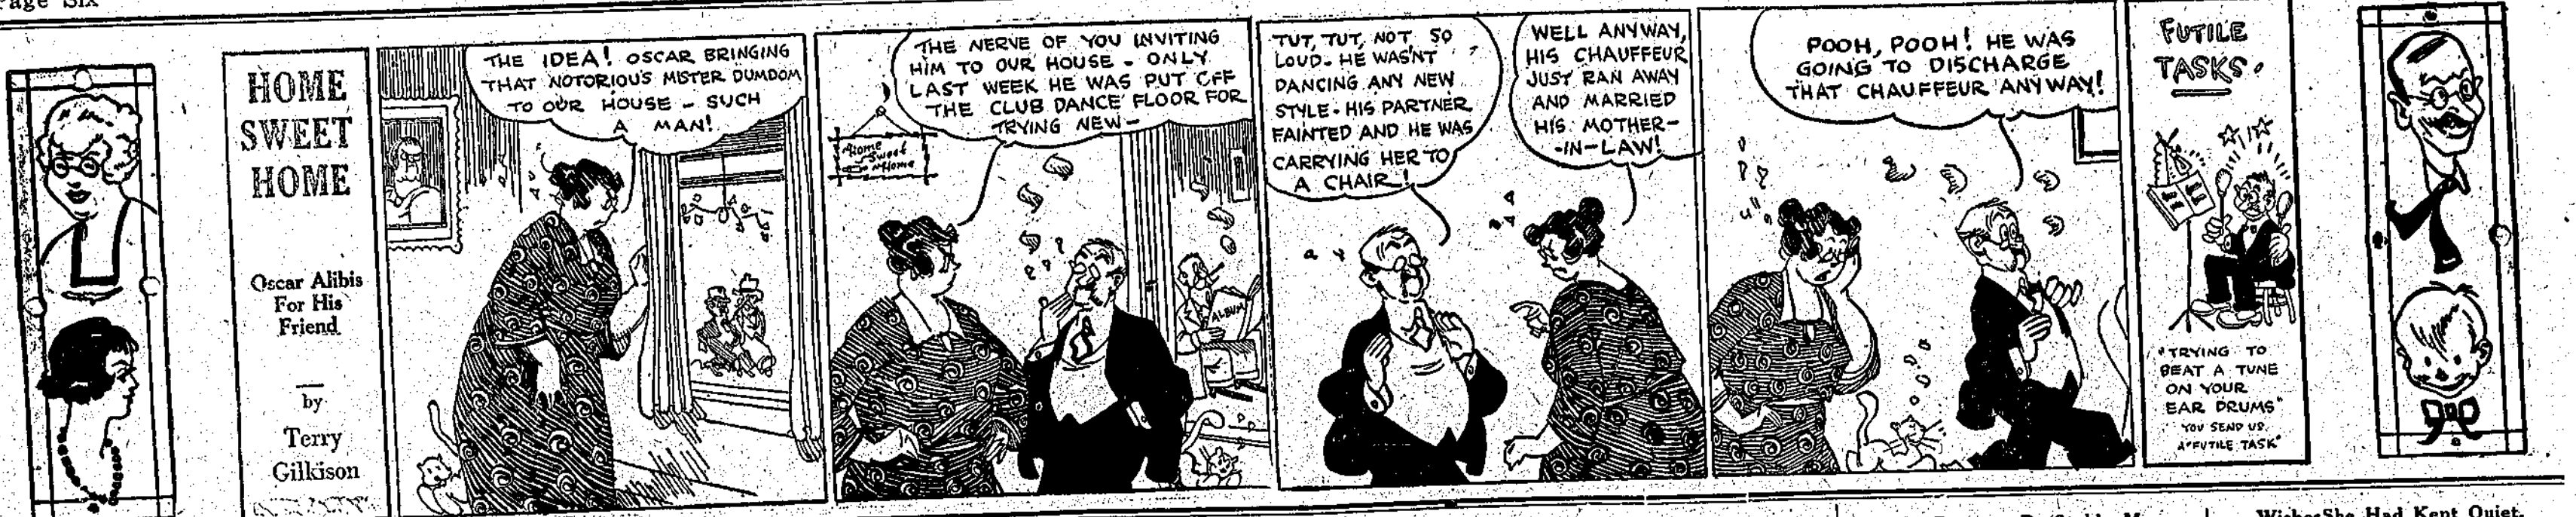

THE FLORENCE AUTOMATIC Oil Cook Stove,
through its efficiency and durability, has removed the
summer convenience bogey associated with many other
oil stoves. THE FLORENCE AUTOMATIC is an all the
year round stove similar to Gas, Coal and Wood Ranges.
To use oil in any oil cook stove means economy, since
it is by far the cheapest fuel available, but to use the
FLORENCE AUTOMATIC ensures added economy be-
cause of its scientific construction.

**CORRESPONDENCE**  
Letters to the Editor.

**AUTOMOBILE PRICES AND SOME OTHERS**

The Editor,  
Summerland Review.  
Dear Sir,—The article in your issue of the 12th quoted from the "Montreal Herald," dealing with the very large spread of over 50 per cent on the price of an automobile purchased in the U. S. A. as compared with the same machine purchased in Canada, is particularly interesting at the present time. Unfortunately this does not only apply to automobiles, as I think I am right in stating that nearly everything we buy in B. C., and of course particularly if it comes from the States, is anywhere from 50 per cent, to 150 per cent dearer. As an example I can cite a certain drugstore commodity which can be purchased retail across the line at 22 cents per tube. The Summerland price is 65 cents and has been 75 cents and the Coast price is about the same. Here we have a spread of over 150 per cent, and there are many other like instances. It makes one wonder who are the "Get rich quick Wallingfords" that control these mysteries of commerce and force the unsuspecting public to such an extent. Perhaps someone can enlighten us!

There are, as your article rightly states, the glaring kind of contrast that advertises to everybody that the United States is a more desirable place to live in than Canada, and that we cannot afford this kind of advertising.

Our taxes, or at any rate the taxes the fruit-grower of the Okanagan has to pay, are not out of all proportion to our revenue. When in Wenatchee last summer the writer was informed that the school tax there is 8 mills. Compare this with our school tax of 18 mills and we have a nice spread of over 500 per cent, with no rational steps of retrenchment in sight. All social improvements and education included are justifiable, in fact commendable, so long as the taxpayer is able to bear the burden, but when we have come to the present state of affairs, which let us hope is only transient, then it is time to cut out every expense that is not absolutely necessary, to enable the fruit grower, who in the end is the backbone of this part of the country, to carry on and exist. Many of us are unable to meet our taxes which in itself is sufficient proof that the money is not there to enable us to pay them. The same applies to the many articles we have to buy at a price which is out of all proportion to the cost of manufacture, automobiles included.

Trusting I am not encroaching too much on your valuable space, I am,  
Sir,  
Yours truly,  
P. G. KOOP.

**LIVES ENDANGERED.**  
Editor, Summerland Review,  
Dear Sir,—I would like to complain through your paper about a wild bunch of youths who have recently picked up a second hand car cheap. These wild youths have since then been tearing around the streets and roads at all hours of the day and night in such a reckless manner that it is a wonder they have not been brought home on a shutter before this. It isn't that I have much regard for their useless carcasses, but I do feel alarmed for the safety of little children and pedestrians generally. It doesn't require the brain of a "Sherlock Holmes" to conclude that these scatterbrains are getting some "hooch" somewhere.

Last Friday evening I witnessed their dash up the road just after the boat came in, and I concluded then that a touch of the lash would be beneficial. I know it is impossible for our policeman to be in more than one place at a time, but surely something must be done. It is a common practice for some of our youth to use Shaughnessy Avenue as a speedway, so if a timely hint will cause them to simmer down, we who have little children will not be in abject fear at all times for their safety.

Thanking you, Sir, I am,  
A SUBSCRIBER.

**APRICOT MARKET IS UNHEALTHY**  
(Continued from Page 1)  
of small value and only pull down the market.  
Both No. 1s and No. 2s will be graded as to ripeness and this will mean that growers will have to watch their pickers very closely. This is the only thing which will prevent shipment after shipment arriving on the market in an over-ripe condition and resulting in losses to the growers.  
Full co-operation between growers and their local packing houses will be necessary, it is stated, and the local managers will endeavor to keep in close touch with the growers through their field men, to see that the apricots are picked at the right time. Only by these means can the deal be put over in a manner which will make a return, particularly now that the coast wholesalers have failed to cooperate with the Associated, and have gone outside of the province for fruit.  
One mitigating circumstance in connection with the matter is that according to the estimate issued by the Provincial Horticultural Branch the apricot crop in the Okanagan Valley this year is 15 per cent. less than that of 1922, this estimate setting the apricot crop at 65,700 boxes.
