

IRRIGATION RATES SAME AS LAST YEAR

Council in Short and Uneventful Sitting at Semi-Monthly Meeting.

That the order issued by the board of investigation last year, authorizing the municipality to impose the higher irrigation rate, has been extended was the purport of a communication read at a meeting of the municipal council, held on Friday afternoon. A ruling was given at the same time, with respect to fractions of an acre to the effect that the charge should be based on the nearest half-acre.

A lengthy communication from the minister of labor, Hon. Mr. Manson, who is also attorney-general, on the subject of employment for disabled ex-service men, was read and discussed. A very forceful and sympathetic plea was made by the minister for the disabled men in this province out of work, of whom there are about a thousand. The letter was a copy of a circular being distributed among the industries of the province. Though no definite action was taken, it was decided that this letter should be kept on file and the disabled men given consideration should an opening occur.

The report of Coroner F. W. Andrew on the recent death of Miss Chapman, was received and filed.

Representing this portion of the province in the plea being made by ex-service men for better consideration of the cases of those who have been incapacitated by war service, Col. Edgett wrote, stating that the municipalities of the Valley were being asked to contribute stated sums toward the expenses and asked that "Summerland" grant \$25. On motion of Councillors Kirk and Bristow, the request was granted.

Use of a lot between Lakeshore drive and Elliott's store, as a children's playground, was granted in answer to a letter received from Mrs. J. Tait, in which it was stated that citizens of that section were now prepared to clean up and prepare the lot for that purpose. Occupation of the lot is conditional upon a sale at any time.

START POTTERY CLASSES HERE

Art League Has Succeeded in Getting Services of Experienced Instructor.

Through the efforts of J. W. S. Logie, arrangements have been made for the opening of a class in pottery, in connection with the night school. Mr. Logie spent two or three days in Vancouver last week, where he met officials of the B. C. Art League and discussed with them plans for the coming year. Arrangements were made for the sale of handicraft and souvenirs at the league building here for advertisement to tourists.

Through Mr. John Kyle, superintendent of technical education, the services of Miss Mary Young, who operates a pottery in Banff, have been secured to give the course in pottery in connection with night school. The required number of pupils have been registered, but a few more may be accommodated. Miss Young is expected to arrive here within the next few days.

While here she will experiment with local clays and it is the hope of those behind the movement that it will be demonstrated that the Summerland clay is suitable for pottery purposes and that eventually an industry in that line will be established here. Recently, there has been received from England, a piece of pottery made from Summerland clay sent by Mrs. K. Bentley to her daughter in England, which apparently proves the claim that the local clay is suitable for pottery work. The piece made in England baked a rich brown. By using other clays obtainable nearby, it is hoped to make a pleasing combination of colors.

Efforts have been made to obtain the services of an artist to lecture on color and design, but this will be left over until next winter.

Miss Young will arrive here on

ARE HOPEFUL OF C.N.R. CONSTRUCTION

Kamloops Report Says Engineers Have Inspected Right-of-Way.

Reports from Kamloops portray pronounced optimism on the subject of the completion of the Okanagan branch of the Canadian National Railways. A C. N. R. engineer has been going over the route between Kamloops and Kelowna and, while this official would make no statement for publication, the impression given is that the probability of early completion is so good as to make the situation in that respect distinctly hopeful.

OKANAGAN HAD SHIPPED 4,784 CARS TO FEB. 14

Suggestion That Concentrated Effort Be Made to Capture Manchester Market.

F. W. Peters, general superintendent of the C.P.R., is reported to have stated to the Vancouver Board of Trade that 4,784 cars of fruit had been shipped from the Okanagan up to Feb. 14, and that the railway company had been investigating to see if there were any complaints as to the manner of handling the crop in transportation. He could find no complaints, he said, but offered to consider any suggestions that might be made in this regard.

William Astley suggested that a concentrated effort to capture the Old Country market, particularly through Manchester, where there were facilities to handle 300,000 boxes in one shipment and where the density of population afforded the finest market in the world, might solve the marketing problem for the growers.

W. E. Bland stated that there had been complaints from the Old Country that B. C. fruit did not arrive in good condition and this he attributed to the government regulation requiring fruit to have reached a certain degree of ripeness before packing. This might apply to the East, he said, but the time required for fruit to travel from B. C. to the Old Country was so much greater that there was a tendency for the fruit to be over-ripe when it reached England. He suggested that the fruit should be allowed to be packed at an earlier stage.

FOR DOG OWNERS.

Last year 125 dog licenses were issued by Collector Pineo, but though the tax was payable on Jan. 2nd, only 50 licenses have been applied for up to date. Mr. Pineo is satisfied that the dog population has not fallen off to that extent and has sent out a final notice to known dog owners, warning them that summons will be issued on Monday next unless the licenses are paid for in the meantime.

HIGH SCHOOL TEAM LEAVE ON THIRTIETH

Will Meet King-Edward Team on Easter Monday—Other Contests Arranged.

W. Johnston has received by telegram acceptance of the proposals made by him on behalf of the High School Basketball team to play several high school teams at the Coast during the Easter holidays. The plan now is to meet the King-Edward High School team after two or three games have been played, after which, should the local boys win, it will be up to the Victoria High School team to come to Vancouver to meet the Summerland boys there, in order to retain the provincial championship.

The Summerland team will meet the King-Edward team on Easter Monday. The boys will leave here March 28th and will play two other games between that date and the following Monday.

Canada now occupies fourth place as an exporting country in the matter of quantity of goods exported and first place on a per capita basis.

Saturday and the classes will begin on Monday night.

Jig Saw Puzzles

Tonnage Signed Now Exceeds Objective of Eighty Per Cent.

Local Committee Has Signed Seventy-six Per Cent. With More to Come.

ABSENTEE REPLIES COMING IN SLOWLY

Has Meant Much Hard Work for Committee—List of Growers Who Have Signed.

Summerland has made the grade! Of this the organization committee are satisfied. Because of the unusually large number of shippers, Summerland was considered to be the most difficult section of the Valley and there were many who predicted that the required percentage of tonnage, 80 per cent., could not be signed.

Up to Wednesday morning, the proportion of the tonnage signed up by the committee is given as 76 per cent. There are still a number of orchards whose owners are now absent from the community, which are expected to be lined up in the new organization and there are numerous small growers and a few larger ones whom it is expected will fall in line within the next few days. In fact, canvassers are still in the field.

This percentage does not include the orchards controlled by Basil Stewart and Muir Stewart, of the Stewart Fruit Co., which firm has announced that it is quitting the business of packing and shipping and it is confidently expected that they will join the co-operative within the next few days. Their tonnage, it is said, will put the total well beyond the prescribed minimum of 80 per cent. In fact, a total of 90 per cent. is being predicted.

That there was much more work attached to the campaign for membership in the new co-operative than the obtaining of signatures to the contracts, was discovered by the local committee before the campaign was scarcely launched. To correctly ascertain the tonnage last year, of each individual, and the total tonnage of the whole district, was in itself a big undertaking, but the figures have been checked and rechecked and the committee are confident that the results obtained are accurate. Much hard work has been done willingly by the members of the committee who have been in the field by day and holding meetings every night.

Colored maps are being prepared, showing all portions of the district in orchard and those lots which have been signed up.

Below is a list of those who have signed the five-year contracts with the Co-Operative Growers of British Columbia, Limited.

Provincial Reports Say Co-operative a Certainty—Figures Not Ready.

TO PROCEED AT ONCE WITH ORGANIZATION

Summerland Date Fixed for Electing Men to Launch Local and Central Director.

According to information received this morning by the chairman of the local organization committee, R. V. Agur, from the chairman of the provincial board of directors at Vernon, J. J. Campbell, well over 80 per cent. of the tonnage of the province has been signed up. Final and authentic figures will not be available for several days yet, as there has been so much detail work in the several districts in connection with the obtaining of contracts that few have been forwarded to the central office, but Mr. Campbell stated emphatically that particulars received by telephone and telegraph, gave assurance that the minimum of 80 per cent. had been exceeded and further reports of contracts are coming in all the time.

Having decided the question of the future with respect to marketing fruit under the new co-operative plan, the next move is to organize locals and central on a permanent basis. In this connection Summerland co-operators will meet on Saturday, March 10th, to elect provisional directors for the purpose of making initial steps towards forming a local under government charter. At the same time, they will appoint a representative on the permanent board of directors of the central.

LITTLE CHANGE IN TOTAL VALUE

Court of Revision Makes Many Adjustments—Taxation Total Slightly Lowered.

On Thursday last, the municipal council, sitting as a court of revision, completed its work in connection with the annual assessment for taxation purposes. Though many changes were made, these were of minor importance and the net result is a lowering in the total assessment to the extent of only about \$6,000. A number of changes were made on the initiative of the court, a few of these being because appellants holding similar property had succeeded in obtaining a reduction.

Though improvements are not taxed, there were a number of appeals against assessed valuations. These included:

J. H. Bowering, Blk. 54, D. L. 8640, reduced to \$4500.
Oliver Smith, Blk. A, D. L. 508, improvements struck off roll.
J. C. Wilson, Blk. 30, D. L. 473, improvements reduced to \$5,750.
Summerland Development Co., improvements on Blk. 2, D. L. 455, reduced to \$3000.
P. G. Koop, Blk. 16, D. L. 454, reduced to \$12,000; Blk. 17, D. L. 454, reduced to \$3,200; Blk. 19, D. L. 454, reduced to \$3,500; Blk. 20, assessment sustained; Blk. 21, D. L. 454, reduced to \$2,000.
J. W. Mitchell, Blk. 4, D. L. 2543, (Continued on Page 6)

Provincial Reports Say Co-operative a Certainty—Figures Not Ready.

TO PROCEED AT ONCE WITH ORGANIZATION

Summerland Date Fixed for Electing Men to Launch Local and Central Director.

According to information received this morning by the chairman of the local organization committee, R. V. Agur, from the chairman of the provincial board of directors at Vernon, J. J. Campbell, well over 80 per cent. of the tonnage of the province has been signed up. Final and authentic figures will not be available for several days yet, as there has been so much detail work in the several districts in connection with the obtaining of contracts that few have been forwarded to the central office, but Mr. Campbell stated emphatically that particulars received by telephone and telegraph, gave assurance that the minimum of 80 per cent. had been exceeded and further reports of contracts are coming in all the time.

Having decided the question of the future with respect to marketing fruit under the new co-operative plan, the next move is to organize locals and central on a permanent basis. At the same time, they will appoint a representative on the permanent board of directors of the central.

SUMMERLAND BOYS DEFEAT KELOWNA

While Girls Lose to Orchard City in Games Played Here.

Two interesting games of basketball were played in the College Gym on Friday night between Summerland and Kelowna high school teams. In the girls' game the Kelowna team defeated the local players by a score of 14-4. The play, however, was more evenly balanced than the score would indicate, the teams being well matched in combination and general team play. Alice Brown starred for Kelowna, making every goal. Roy Darlis refereed for the girls.

In the boys' game, the Summerland team easily put it over their opponents, outclassing them in every point of the play and showing the result of diligent practice in splendid team play. The final score was

O. U. G. OFFICIAL TAKES COAST JOB

H. A. Renwick Joins New Westminster Lumber Firm.

H. A. Renwick, during the past year assistant manager of the O. U. G., and prior to that, assistant sales manager, has accepted the position of secretary of the British Columbia Manufacturing Co., at New Westminster. Before joining the O. U. G., Mr. Renwick was engaged in different capacities with the Kelowna Growers' Exchange.

IMPORTANCE OF SIZE OF APPLE DEMONSTRATED

One Box of Large Jonathans Worth to Grower Five Boxes Small Size.

Yakima, Wash.—The size and grade of the apples from any given orchard are known to make a great deal of difference in the net returns. When the grower comes to make comparisons of the results he is often surprised. How strikingly the profits may vary for the size and grade is shown by figures presented by John F. Stewart, fruit grower of the Granger district. Having marketed his apples with one of the reliable dealers he took the returns from his Jonathan crop and deducted some interesting figures.

The receipts from his Jonathan crop of the past season showed that to equal the net returns from one box of extra fancy Jonathans of the 125 size and larger, it took one and one-half boxes of four and one-half tier extra fancy or three boxes of five-tier extra fancy.

To equal one box of extra fancy of the 125 size and larger it took five boxes of sizes 216 and smaller, or one and one-half boxes of four-tier fancy or three, and one-half boxes of four and one-half tier fancy or 18 boxes of five tier fancy, or three and one-half boxes of four to four and one-half C grade.

FAVORS LATE IRRIGATION.

Namap, Idaho.—E. F. Stephens, apple grower, produced a carload of apples on a half acre of ground last year. To be exact, 825 boxes of Rome Beauties were grown on this area, which had produced an equally good crop in 1921. He will plant 15,000 more trees next spring and now has a 42-acre orchard in bearing. To produce a good crop, he says that the trees should be irrigated until mid-October in order to develop vigorous fruit buds, and this is the method he follows in growing his fruit.

GROWERS' DELEGATES GOING TO OTTAWA

Will Urge Upon Government Importance of Anti-Dumping Legislation.

Says the Kelowna Courier, Mr. T. Bulman and Mr. L. E. Taylor are leaving for Ottawa next Saturday at the request of the executive of the British Columbia Fruit Growers' Association, in order to place before the Canadian Horticultural Council a number of matters vital to the fruit growers of this province. While at the capital, Mr. Bulman intends, if possible, to bring before the Dominion Government the necessity of anti-dumping legislation, along the lines of the resolutions passed at the recent convention of the B.C.F.G.A., held at Kelowna, and will also interview the Railway Board regarding the completion of the Kamloops-Kelowna-Lumby branch of the Canadian National Railway. Both gentlemen leave for the East armed with all possible data in connection with the fruit-growing and other industries of this portion of the province and with the best wishes of the community they represent.

58 to 18 in favor of Summerland. George Guy acted as referee. After the games, the Summerland team entertained their visitors at a dinner in the Parish Hall, about sixty invited guests being present.

PRESBYTERY OF KAMLOOPS ANNUAL SESSION

Pass Resolution Favoring Early Union of Presbyterian and Methodist Churches.

Rev. W. A. Alexander was a visitor to Vernon last week, representing Summerland Presbyterians at the annual session of the Presbytery of Kamloops. Rev. Lennox Fraser, Vernon, having declined election to the moderator's chair for the ensuing year, Rev. R. Herbison, of Princeton, was elected.

The ladies of the Vernon church entertained the delegates and friends to supper in the basement of the church in the course of which greetings were brought to the Presbytery by Rev. Mr. Gibson, Rev. Mr. Dean, Rev. Mr. Cassidy, of Vernon. Apology was made by Mr. Fraser for the absence of Rev. Mr. Habershon.

At 8 p.m. the meeting was of a public nature when a brilliant and scholarly address on the "History of the Church Union Movement Throughout the World" was delivered by Rev. Principal Smith, D.D., of Westminster Hall, Vancouver, followed by a statesman-like deeply informing address by Bishop Doull, on the "Prospect of the Reunion of all Christian Peoples Throughout the World."

Both addresses were loudly applauded. The Wednesday meetings were more or less of a routine nature, but much interest was aroused in connection with a motion by Rev. Lennox Fraser, seconded by Rev. John Scott and carried unanimously that the general assembly of the Presbyterian church be requested by the Presbytery of Kamloops to proceed without delay to the consummation of the union of Presbyterian, Methodist and Congregational churches.

The home mission report was unusually encouraging. The number of families under the care of Presbytery mission had increased to 1,245 and single persons to 1,070, while 1,200 children were enrolled in the mission Sunday schools. The mission fund themselves contributing 50 per cent more than ever before and the

(Continued on Page 6)

WOULD UNSEAT COUN. M'BEAN

Action Taken by N. S. Davidson—Says Property Qualifications Lacking.

The election in January last of George Wilbur McBean to the Peachland municipal council is contested by Norman Somerville Davidson, also of Peachland, who has commenced quo warranto proceedings in the Supreme Court, Vancouver, in an attempt to unseat the councillor.

Mr. Davidson questions Councillor McBean's right to exercise that office and alleges the successful candidate did not possess the necessary property qualifications. It is contended by Davidson that although the assessed value of McBean's land is \$6,250, there is a mortgage against it of \$6,000 and, in addition a charge by the British Columbia Government of \$44,200.

This latter charge, it is explained, is in connection with monies loaned by the government to the Peachland Irrigation District and lands within that area were charged for repayment. The loan was not apportioned it is stated, so that McBean's farm is charged to repay the whole sum.

The Dominion Experimental Farm at Agassiz, B.C., has the best butter-producing cow in the world in "Agassiz Sogis May Echo," a five-year-old Holstein, which in 365 days has given 30,886 pounds of milk, averaging more than 4 per cent, and yielding 1,338 pounds of butter fat, equal to 1,073 pounds of butter. This is 86 pounds of butter more than that produced by the previous world's record breaker, "Bella Pontiac," of Brantford, Ont., and although one Holstein, the "American Carnation" cow of Seattle, has produced more milk, no other animal has come near this butter record.

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, March 1, 1923

WHAT OF THE FUTURE?

What kind of a crop of fruit are you going to produce this year, Mr. Fruit Grower? Are you going to take every step to assure a crop of the highest quality or are you going to take a chance? Probably, like most of your neighbors, you are hard up and are disposed to cut out some of the usual and approved of early expenses. You won't hire any pruners, will dispense with or do less spraying and spend little or no money on thinning.

Now, don't do it! If there was ever a time when all these details should be given most thorough attention, it is this season. In an excellent editorial on this subject, "Better Fruit," in expressing a fear that orchardists may ease up in their vigilance against pests and diseases, says:

The reason for this fear is apparent. It springs from the fact that 1922 was an unprofitable year for orchardists in general and apple growers in particular. The natural reaction for such a condition is one of carelessness and reluctance to devote as much money and effort to the orchards as they deserve and require. In many instances the orchardist is actually hard up and in danger of being led to false economy for this reason.

It is our earnest plea to all such weak-kneed growers to keep from being slackers. It is the worst possible course. It would be much better to sell out and quit the game, even taking the loss such action might entail.

It is a time-honored business maxim that the time to buy is when prices have dropped to the bottom; that the time to lay careful foundation for business advancement and profits is the end of a period of depression. The law of averages, too, is all in favor of the fellow who counts on the inevitable good years that follow the lean ones.

If 1922 yielded you no profit, even though it left you in debt, pray do not lose sight of the little secret we call to mind here. If the average farmer finds himself in debt to the extent of \$25 an acre he is in a bad fix. If he is in debt as much as \$50 an acre his case is just about hopeless.

Now suppose the orchardist is in debt to the extent of \$25, or \$50 or even \$75 an acre, is there any grave cause for alarm? Not the least, if he is the right sort of chap. He need only shed his coat, look his creditors squarely in the eye and tell them that he has the finest set of reasons in the world for expecting to "pay out" and have a profit of \$100 an acre for himself in the next two seasons.

Can he do it? We leave it to the hundreds of readers who have seen it done to answer. As the sporting phrase would state it, "the odds are all in his favor."

If you happen to be overburdened with doubts; if you can't confidently step in and pass this little secret to your banker, we beg to suggest that you practice what you believe and employ your half-hearted efforts in backing some other game. You hold no license to waddle along as a slacker in the fruit game.

MAKE IT UNANIMOUS.

All reports received show that an overwhelming majority of the fruit and vegetable growers throughout the Okanagan are signing the contracts with The Co-operative Growers of British Columbia, Ltd. Like the Irishman on the jury, however, who held that the other eleven were wrong, an odd grower still holds aloof to the sorrow, and in some cases the anger, of his neighbors and friends. Surely it cannot be that these isolated cases are thoroughly convinced that co-operative marketing is foredoomed to failure and that within a year or two they will have the sweet joy of rubbing it in to their now sanguine neighbors with "I told you so!"

Wherever co-operative marketing has been properly handled, it has been a success. There have been many initial failures, but success has come repeatedly through sheer persistence after many discouragements and costly mistakes, and there is every prospect that the movement in British Columbia will prove as beneficial to growers as it has done in California and Denmark. It would be unreasonable to expect instant and complete improvement of the marketing situation in every detail. There will probably be disappointments at the outset as compared with the large expectations entertained by some of the growers, but the benefits conferred by methodical distribution offset any shortcomings. Dissident growers should take thought to themselves of what hope or prospect is afforded by continuing to support the present system of individual shippers, acting without concerted effort and bent on marketing produce regardless of what "the other fellow" is doing. When shipping firms paid a flat rate per pound for fruit according to grade or bought whole orchards outright, thus taking all the risk themselves of marketing conditions, there might have been good reason for adhering to them, but those days have gone for ever and for several years the pernicious system has prevailed of the grower selling his fruit on a basis of all over a fixed handling charge, with the result that for the past two years there has been precious little over. The grower has been taking all the risk under fiercely competitive marketing methods, and he who wishes to continue so doing must be blind indeed.

The practice at political conventions and other public meetings of importance, when a minority is outvoted, is to give way gracefully and make it unanimous. Why not do so in this matter of paramount importance to every person in the Okanagan?

MAKE IT UNANIMOUS AND SIGN UP!

—Kelowna Courier.

THE UNDERPRIVILEGED CHILD.

Rev. N. A. Harkness, general secretary of the "Kiwanis Big Brothers," of Vancouver, addressed an appreciative audience on Friday last, in the Lakeside church. Mr. Harkness dealt at length with the service which Kiwanians are rendering underprivileged boys and girls.

The underprivileged child he defined as one handicapped in life physically mentally, through poverty, unsuitable environment or loss of parents. Mr. Harkness gave unstinted praise to the 250 Kiwanians of Vancouver, who, at great sacrifice and cost, seek to give a start in life to those who might otherwise become a liability to society.

Their aim is to build future citizens through personal friendship, by being a big brother to an underprivileged child, by enabling the child to continue at school, by finding suitable employment, by giving homes to, and by finding adoption homes in city or country, for handicapped children.

In this way they give to many future citizens a square deal, preventing numbers from reaching the juvenile court, and winning back to nobility of life some who have made a wrong step.

The specific purpose of Mr. Harkness' tour, the expenses of which are being met by the Kiwanians, is to get in touch with any willing to open their homes to scores of underprivileged city children who are awaiting foster homes.

CHILDREN'S PLAYGROUND.

The Summerland Women's Institute's regular monthly meeting, last Thursday afternoon, took the form of a community "bee." Several men had gathered early and with axe and rake, made a splendid showing in clearing the space for the children's playground.

It is planned to carry this to a successful finish. Another "bee" is already planned to have some swings, maypole, etc., put up, also seats for the parents. The ladies entertained in their usual happy way, tea and cake being served by the directors (who were hostesses for the day) at the home of Mrs. J. Tait. Those men who did not have the opportunity of doing their little bit will get a chance at the next "bee," which will be held shortly.—Com.

CONTRIBUTIONS TO GROWERS' FUND

Sam Scott	.10
Total	\$182.59

APPLES IN VANCOUVER.

Two cars of Okanagan apples, including Winesap, Wagner, Winter Banana, Rome Beauty, Delicious and Spitzenberg reached Water street, on Monday morning from Penticton and Vernon. A Vancouver daily states they were priced at \$1.75 to \$2.25.

BACK FROM SOUTH.

S. B. Snider returned on Saturday, via Vancouver, from Southern California, where he and Mrs. Snider have been holidaying. Mrs. Snider remained in Vancouver to visit their daughter and is expected to return home this week-end.

Mr. Snider reports a marked improvement in the business atmosphere of Vancouver. Conditions generally have greatly improved there and business men are looking forward to an active season. Mr. Snider found that many of the men of the United States are looking to this province and are expecting big things in the way of development of natural resources and expanding manufacturing activities.

The people of the neighboring country express surprise and admiration in the manner in which Canada has recovered from financial conditions resulting from the war. The return of the Canadian dollar to par value and the stabilizing of commercial conditions, are much commented upon. He finds, too, that the Canadian Pacific Railway is an institution much admired by business men of the United States, who have to deal with American railway companies.

A NICHT W' BONNIE PRINCE CHARLIE

"Nae where beats the heart mair kindly than beneath the Tartan plaid."

A most enjoyable and highly entertaining social event took place in the Parish Hall last night under the auspices of the St. Andrew's and Caledonian Society. The form of the program varied somewhat from the usual order, and this proved an outstanding feature. The night was given over to a journey with Prince Charles Edward Stuart, known to all Scotch people as "Bonnie Prince Charlie," during the stirring events connected with the rebellion of 1745-46. This was interspersed with the rendering of a number of Jacobite songs, inspired by the dazzle and romance of that historical campaign. All those taking part were animated with genuine Highland fervor, the Royal Stuart tartan and cockade being much in evidence.

The veteran hon. president, Mr. John G. Robertson, after a protracted illness, was able to occupy the chair and was given a rousing reception.

A dance followed and the whole evening's entertainment goes down in the annals of the association as one of the most enjoyable evenings they have yet had.—Com.

Willis Walter returned on Sunday from a short visit to Vancouver. He went down to the coast city on Wednesday of last week for the purpose of taking radium treatment for a growth which has developed on the skin of his right arm.

Mr. and Mrs. H. C. Mellor are moving this week into their new house, continued occupancy of their former residence having been considered hazardous because to its proximity to the site of the slides which have caused them so much trouble and loss.

Since the above list was compiled, Basil Stewart, of the Stewart Fruit Co., has signed the co-operative contract.

Notice to Fruitgrowers

To Those Who Have Signed the Contract

Back up the good work being done by your committee! If you have a friend or neighbor who has not signed, talk it over with him. You cannot spend your time better. It is all to his advantage and your own to have one strong organization in control of the greatest possible amount of tonnage.

LOCAL ORGANIZATION COMMITTEE.

To Those Who Have Not Signed the Contract

It is not yet too late! Why wait longer? Official returns from all over the province show that well over 80 per cent of the tonnage is now signed up and returns of further tonnage are being received daily, which assures the new co-operative going ahead. The objective has been reached.

Your signature on the contract will assure Summerland having well over 80 per cent, and functioning as a very strong local. Let us make sure of this now, not next week. The time is limited. Spray material must be arranged for at once, box shock contracts made, etc., etc. You can help speed up matters by signing now.

Any member of the Organization Committee, whose names appear below, will be pleased to supply you contract forms. Give one of them a call or you can sign up at the office of the secretary, P. E. Knowles, West Summerland.

Business Change

J. C. MELVIN

(RECENTLY OF ARMSTRONG)

Wishes to announce to the Public of Summerland and District, that he has purchased the business of Frank Cross and that the store is now open for business under the new name.

OUR AIM will be to sell the Best Quality Goods at the very lowest possible margin of profit.

Special Cash Sales

It will pay you to visit our store every week, at least, to look over the many bargains that will be offered there.

NEW GOODS ARE NOW ARRIVING—DRESS GOODS, SILKS, NEW GINGHAMS, VOILES, READY-TO-WEAR DRESSES, UNDERWEAR, BLOUSES, Etc. DRY GOODS, GROCERIES, MEN'S FURNISHINGS, LADIES' AND CHILDREN'S SHOES.

The patronage of the customers of my predecessor and general public is respectfully solicited.

Important Notice to Contract Holders

See that your nominations are in early for Provisional Directors for your Local Board, which is to be made up of five members. Nomination forms may be secured from any members of the Organization Committee, from the Secretary, P. E. Knowles, West Summerland, The Review Office, Summerland, or you may use the form appearing below.

All nominations should be sent in to the Secretary, P. E. Knowles, by 5 p.m., Wednesday, March 7th, 1923, and same will be published in The Review the following day:

No nomination accepted after noon of March 10, on which date meeting of all contract holders will be held at 2 p.m., at the Empire Hall, for the purpose of electing the Five Provisional Directors of the Board.

Give this your best thought and consideration—it is business of vital importance to yourself, your community and your industry.

Nominations are also required for a Director on the Central Board. Summerland is entitled to one Director.

LOCAL ORGANIZATION COMMITTEE.

Summerland, B.C., March, 1923.

I beg to nominate Mr. for the position of Provisional Director of the New Local.

(Signed)

Seconded by

(Signed)

I hereby agree to allow my name to stand for nomination and to accept office, if elected.

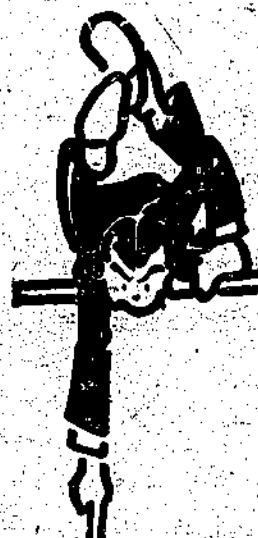

(Signed)

To P. E. Knowles, Secretary
Organization Committee,
West Summerland, B. C.

(Movers, Seconders and Nominees must be contract holders and nominees signed consent obtained.)

HERE WITH THE GOODS

No need to look at pictures when you place your Plumbing Work in our care!

We carry a large stock of Plumbing Material in liberal variety, from a joint of stove pipe to furnaces; a water tap to high grade wash basins and shower baths. Just come in and select what you want—see what you're getting.

We stock **GARDEN HOSE** 1/2-inch and 3/4-inch, in 2-ply and 3-ply, all high grade, and at prices that will please you. Have us show you the latest and best in **LAWN SPRINKLERS** Durable and efficient. Just what you have been looking for. Our price will make the sale.

Summerland Experimental Farm Subject of Discussion in House of Commons

In a lengthy speech in the House of Commons, Hon. Mr. Motherwell, Minister of Agriculture, in mentioning his recent trip throughout the west said:

In visiting the farms in British Columbia, I found, of course, an entirely different condition of affairs. While they are interested in livestock, they are primarily interested in dairying, poultry raising and fruit growing. I did not visit the farm at Invermere, although it was my intention to do so. It is not very easy to get at, and a good deal of time is required to give it the attention it should receive. Possibly at some subsequent date I may be able to visit that farm. But I visited the farm at Summerland on Okanagan lake, and there I found the question of irrigation was one of the uppermost problems. They had difficulty in regard to the supply of water. They were endeavoring to irrigate without the necessary available supply of water, and that question confronted, not only the experimental farm, but many private farms throughout that district. Then there were the questions of fruit growing, of cover crop, of extending the area to be devoted to farming, of what manurial agency should be supplied to the land there, of raising the necessary livestock. I found that one of the problems, a problem which may sound strange to prairie farmers, was to get the necessary quantity of straw to supply bedding to their livestock, two carloads of which they usually fattened during the winter months. Straw cost them from sixteen dollars a ton laid down at Summerland, and to buy manure from the livestock yards at Calgary would cost them six or seven dollars a ton, so there they were confronted with the difficulty of growing livestock on an experimental farm in that irrigation area. Notwithstanding that, however, they have found it profitable to fatten livestock every winter. Even at the expense of buying dear straw, they found that more economical than not to have any livestock and to have to

buy manure from the stockyards at Calgary. Hon. J. A. MacKelvie, commented as follows on the minister's reference to the Summerland Farm: I do not think the minister quite concluded his explanation in regard to questions asked about details of the increased expenditure. I do not feel myself in a position to criticize the increased appropriation and, indeed, if it is properly expended, I regard it as one very capable of justification. I was interested this afternoon in hearing the minister's account of his tour of inspection, when he mentioned that he had visited the experimental farm in my constituency at Summerland. I can assure him that his visit there was greatly appreciated. In my opinion, we have as superintendent of that farm, in the person of Mr. Helmer, a most capable and efficient officer. I know he is a man who gives a great deal of attention to research work at all times, and the exhibits from that farm which he puts up at the annual provincial or local exhibitions are of very great interest. The farm is limited in area and his opportunities of increasing his usefulness are considerably restricted on that account. In this contemplated addition to the appropriation, is anything included for addition or expansion in that Summerland farm? Mr. Motherwell—My hon. friend refers to the Indian land adjoining that farm? Mr. MacKelvie—Yes. Mr. Motherwell—We are purchasing that. I do not know whether the contract has actually gone through yet, but it has been agreed to. We are also providing for what is very much more needed, and that is a new water supply. You cannot irrigate, I find, without water and plenty of it. The arrangement that was made before did not meet the situation, so that we are securing not only more land, but more water for that farm, two things very much required. Mr. MacKelvie—Has any request come to the department for a pre-cooling plant there for fruit? Mr. Motherwell—Not that I am aware of.

ALMA MATER SAYS ATTACK IS UNFAIR

Statement is Issued Refuting Charges Made by Canon Hinchcliffe.

Stating that they fear a false impression has been created in the public mind by what they term "the ill-grounded and unfair charges levied against the history department of the University of B. C." by Joshua Hinchcliffe, M.L.A., A. E. Richards, president of the Alma Mater society, and H. M. Cassidy, editor of the "Ubysey," have issued a statement in which they summarize the history of the dispute.

The statement points out that the book which has been branded as pro-American and anti-British in the legislature, was on the whole a fair, impartial account of the subject matter treated. It is stated that the last 70 pages, the portion of the book that was specifically criticized, had never been assigned to the students for reading.

"In view of this and other facts Canon Hinchcliffe's fears of university students being Americanized and made 'unpatriotic' were groundless," the statement says.

"The book will automatically disappear from the list of authorized texts after the academic year 1923-24, because the course for which it was used will not be given in the university after that time," it is stated.

HOT FORMALDEHYDE FOR POTATO SEED

Formaldehyde for treating potato seed is preferable to Corrosive Sublimato in that it is less poisonous and does not corrode metals. By using it hot it is effective for both scab and rhizoctonia. For using it hot the Minnesota College of Agriculture gives the following directions:

The solution is made by mixing two pints of 40 per cent. formaldehyde to 25 gallons of water. This is heated to a temperature between 118 deg. F. to 122 deg. F. The potatoes are dipped in the solution for two minutes and then dumped in a pile and covered with a canvas cover or sacks for one hour. They can then be dried or cut and planted immediately. Formaldehyde when used without heating will not control rhizoctonia and requires one and a half hour's soaking for best results in control of scab.

Honey producers of the northern end of the Valley have formed the North Okanagan Honey Producers' Association.

POULTRY A FOOD NOT A LUXURY

(Experimental Farms Note.)

Poultry meat has dropped in price to such an extent that its general use should be more seriously considered. Viewed from the economic as well as the scientific standpoint of nutrition it is worthy of a higher place and more frequent use in the daily diet than it has been accorded. It should be regarded as an essential part of our diet rather than as a luxury.

The question of the value of poultry meat for food has been given attention by chemists at various times. Results of their researches have been published from time to time. Analyses have been made of the flesh of practically all kinds of domestic fowl and these furnish a basis for comparison of poultry meats with other articles of human food. A comparison of poultry meats with beef, veal, lamb and pork show that the refuse in poultry is somewhat less than in the other meats. Furthermore, the carcass of fowl can be used as soup stock, thus rendering available a large amount of nourishment which would otherwise be lost and which in the case of other meats is often discarded. The amount of water is about the same in poultry as in other meats but the amount of indigestible nutrients in poultry is small. Summing up these differences poultry shows a slightly higher proportion actually available for nourishment than other meats. As fats furnish more heat per unit weight than proteins or carbohydrates and since poultry meat is somewhat lower in fat than other meats its fuel value is correspondingly less. To state this in another way, poultry meat furnishes more tissue forming but less of the heat forming elements and it must be borne in mind that as a rule the former are the more expensive.

Common or domestic fowl contains more refuse than average poultry, is about average in protein but richer in fat. Turkey contains relatively little refuse, about 2 per cent. more protein and the same proportion of fat. Goose shows the lowest proportion of refuse of the poultry meats, a lower proportion of protein but much higher fat content. Combined with this is a certain prejudice against goose which has a tendency to lower the market price. This has resulted to make goose one of the cheapest, most wholesome and nutritious foods on the market. Duck contains relatively large amounts of refuse, lit-

Correspondence.

To the Editor of The Review:

Dear Sir,—I am writing these few lines to you to see if you will give space in your paper to an idea which has been bothering me for quite a while back. In other towns the size of Summerland that I have been in they have had an amateur theatrical society. Now I am sure that Summerlands, both towns together, have plenty of talent in this line. Such a society costs very little or nothing to start. There is lots of amusement and it is one of the best means of fostering the community spirit that is needed to make any community a successful organization. Now I don't wish to take up too much space, but I would like to see an organization of this kind in the Summerlands. A few business men or citizens to get behind the movement, the rest just get in line and boost and we've caught our fox. I would not like to see a society formed to just take in dramatics, but one that would admit every one, young, old and the real oldsters, one that would run to developing individual talent in stunts, singing, speaking, one-act playlets and stuff like that; in fact, nothing but real honest-to-goodness home town foolishness. Sincerely yours, for fun,

"BILL,"
Mineola, B.C., Feb. 17, 1923.

A Specialist.

Mrs. J.—"Did that man say he would help clean house and beat rugs?"

Mrs. S.—"No. He said that wasn't what he worked at. He said he only worked 'at intervals'—and this wasn't one of them."

tle protein and large quantities of fat.

Poultry as a whole (especially chickens and geese) with low price, and high muscle-forming properties, the easily digested and palatable qualities makes the ideal meat food for everybody, particularly for those in offices and for invalids and children.

READ REVIEW CLASSIFIED ADVERTISEMENTS

Did You Ever Stop to Think ?

- THAT profit is often derived from reading advertisements. They tell you of advantageous sources of supply.
- THAT it is a good thing for a town to put its attractions and virtues before the world.
- THAT your town is a good town and your citizens should be proud of it.
- THAT to be a citizen of your community is a privilege that every citizen should cherish.
- THAT from whatever section a person or his ancestors may have come, his home town should occupy the first place in his thoughts.
- THAT if the business of any retailer, wholesaler or manufacturer of a town is to grow bigger in the years to come, it will not be a matter of accident or due to an increase in population only, it will be the result of intelligence added to energy, plus ADVERTISING.
- THAT whenever you find a big flourishing business, you will find behind it, a strong, pushing man of spirit, driven by the words, "I can and I will." This man advertises; he must deliver his message to all. MULTIPLIED CUSTOMERS AND LARGER TURNOVERS ARE ABSOLUTELY ESSENTIAL TO HIS PROGRESS.
- THAT you should light the match of enthusiasm with the fire of energy. The success of your community will be in direct proportion to the interest your citizens put into the development of your community.
- THAT ECONOMY IS A FINE THING WHEN JOINED TO WISE EXPENDITURES, BUT IT IS FOOLISH WHEN IT DEPRIVES OF NECESSITIES.

The Summerland Review

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture.

Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared, and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

"COMPETITION" IS SUBJECT OF DEAN'S LECTURE

First of Series of Lectures Under Auspices of Naramata Farmers' Institute.

TURNIPS AND THE HUMAN RACE

Prof. Boving Points Out Dangers of Unrestricted Immigration—Other Naramata News.

A crowded gathering marked the inauguration of the series of educational lectures listed by the Farmers' Institute for the next three months. The speaker of the evening was Dean Clements, of the U. B. C., and Prof. Boving, who accompanied him, responded to an invitation to add a few words. In announcing the lecturer, the chairman, Mr. W. H. Irwin stated that the institute had in mind a course of educational evenings extending to the opening of the busy season and to begin afresh in September for the winter series. The address for the evening would be on "Co-operation."

Dean Clement, in opening, said he was really going to speak on competition, but that would lead to exactly the same point as the subject announced by the chairman. To emphasize the difficulties in the way of reaching results, he told a story of his friend, Captain Galpin, when sojourning for his health in one of the cut-over areas of Northern Michigan, known as "Skims."

The captain bought a cow bred in the district and ignorant of the appearance of a respectable blade of grass, and began to try a diet mixed on scientific principles to improve "My Lady's" condition. It took him two months to teach My Lady to eat the properly balanced food provided, but on the 61st day she yielded, and thrived ever after. In the same way it takes many years to bring conditions in production, labor and marketing to perfection. In the old days it was held that a man could do as he pleased when selling his own product, and was not concerned as to the welfare of his neighbors. If he was a poor salesman, or if he needed money quickly, he sold cheap, and broke the market to the injury of others.

He was not on equal terms with the buyer, who had experience, and was comparatively indifferent as to whether he bought or not. The result was that the market price was ruled, not by what the consumer was paying, nor by the real value of the product, but by the inefficiency of the man who was forced to sell on unequal terms. Equal bargaining is only possible where buyer and seller are on equal terms, and the individual producer is never on equal terms with the big buyer. When producers combine they are on the same platform as the buyers, and can bargain fairly.

Another feature of combination is the possibility of reducing the marketing margin by efficiency. This margin includes all expenses of packing, shipping and selling, and can be reduced by a system of co-operation managed by a skillful executive. The speaker knew of cases where the packing charges on apples only amounted to 38c as against the figure of 68c and 70c given him by the big meeting. There was a spread which could be amended by close supervision at a central point, and which illustrated the feasibility of reducing the marketing margin. The fluctuations of the market itself could not be controlled—they were generally world-wide and had to be endured. But they can be eased to the producer by efficiency in marketing, so that the grower gets the greatest possible share of the profit due to him. This means also that the grower himself must be efficient, and produce a profitable amount of high grade fruit. Third grade apples will probably be discouraged by the central body and the grower told to leave them on the trees.

In conclusion, the speaker expressed his opinion that the time is not far distant when a producer will be forbidden to undersell his neighbor and stated that, even today, in some parts of the United States, the grower who is guilty of doing this, has his orchard placarded, and is regarded as a menace.

Prof. Boving, in a racy speech, compared the human race to certain vegetables and drew an analogy between different races of mankind and species of the turnip. The early white turnip is a pure stock and fills a certain place in the order of things; the Swede also has its own value. But let the pollen from the one fertilize the stigma of the other and the crossbred product is inferior in almost every respect. The same principle is applicable to the mixture of diverse races among mankind. A cross between the Caucasian and Mongolian races meant serious deterioration and less power of resistance to disease. Tuberculosis especially, increases among such people, and their standard of morality is lowered. He deprecated the suggestion of world wide immigration to this country, and contended that we should select our new blood from those shores which are around the North Sea. Unrestricted immigration would be fatal to the standard of population of Canada.

A cordial vote of thanks to the speakers was given, after which Mrs. Cross entertained the audience with a humorous reading and refreshments were served by the members' wives. Miss Lila Young sang "Smiling Through," and the meeting closed.

During an interval in the institute meeting, Robert King announced to the growers present that quotations for spraying material had been obtained from Pentleton, and arrangements made for delivery to Naramata wharf by boat, or on to the ranches by truck, as required. Such growers as wished to avail themselves of this arrangement were requested to send their order, with cheque, to the secretary of the institute as soon as possible.

Miss Sproule, missionary for the W. C. T. U., gave an address in the church on Wednesday evening, her subjects being "Temperance" and "The Drug Habit." Some startling figures were given concerning the growth of the latter. Mrs. F. Young presided over a fairly large gathering. Miss Sproule also visited the school and addressed the children.

Mrs. Len Smith is in Pentleton visiting Mrs. Turner for a few days.

At the Unity Club meeting, held Friday, a hard times gathering was discussed and March 6th fixed for date of same. Mrs. J. M. Robinson was hostess at the meeting and provided some dainty refreshments. Mrs. Cross sang "The Gates of the West," during the interval in the proceedings.

J. C. Lyons has purchased a gaso-

Review of History of Fruit Growing in B.C. Made by W. H. Robertson

Victoria.—That the fruit industry of British Columbia would be placed on a much firmer and sounder basis and that much greater benefit and prosperity would be obtained by the growers if they co-operated by entering a central organization distributing and shipping their products through one body, was the prediction made by Mr. W. H. Robertson, provincial horticulturist, Department of Agriculture, in addressing members of the Victoria Kiwanis Club at the weekly luncheon gathering Wednesday afternoon in the Dominion Hotel dining-room.

Mr. Robertson gave the Kiwanians an insight into the extent and value of the fruit growing industry in the province, particularly dealing with the products of small fruit trees and smaller fruit areas. His remarks were listened to with a great deal of pleasure, and he was the recipient of a hearty vote of thanks at the conclusion of his discourse.

The speaker briefly referred to the beginning of the fruit growing industry in British Columbia, pointing out that in 1837 the Puget Sound Agricultural Company, did some work in clearing land and preparing for planting of fruits. In 1851, when Sir James Douglas was governor of the Crown colony, steps were taken to plant various kinds of fruit, while ten years later fruit taken from these trees was displayed on exhibition.

Between 1864 and 1880 such well-known pioneers as Thomas Earle, of Lytton, and Thomas Ellis, of Pentleton, engaged in ranching and in the early 'eighties plantings were made. In the year 1890 there were 450,000 fruit trees in the province, and by 1910 this number was increased to 2,600,000.

"But a great deal of land which had been set out for fruit growing pur-

poses proved totally unsuitable for this industry owing to the soil, irrigation and climatic conditions. Mr. Robertson asserted that the horticultural branch of the Agricultural Department had made a survey of the fruit trees areas in 1921, and had found that the number of 2,600,000 had been reduced to 1,750,000, many of the trees having died or having been pulled out.

Mr. Robertson showed that while the fruit trees had diminished in numbers, yet the value of the products had increased. In 1900 the total value of the fruit tree products was \$436,000; in 1910 it jumped to \$1,000,000; while in 1921 the values were between five and six million dollars.

There were 971 acres planted in small fruits in British Columbia in 1913, continued the speaker. In a recent survey it was shown that there were 6,200 acres in 1922 growing various kinds of small fruits. These 6,200 acres were divided among 2,300 growers, the majority of whom had their farms on the Lower Mainland and Vancouver Island. Of the 2,300 growers, 300 were Orientals, and the latter controlled 1,500 acres, or 25 per cent. of the total acreage on which small fruits are grown.

In the Okanagan there was little small fruit, about 450 acres, as against 5,000 devoted to tree fruits. In Salmon Arm 1,500 acres were devoted to tree fruits and possibly 200 acres to small fruits. There were, however, about 1,000 acres of small fruits on Vancouver Island, and about 4,300 acres of the same on the Lower Mainland.

Mr. Robertson, in concluding, stated that upon the success of the agricultural communities depended the success and prosperity of the cities. "The success of the agricultural industry is really your success in future."

pressed his opinion that the time is not far distant when a producer will be forbidden to undersell his neighbor and stated that, even today, in some parts of the United States, the grower who is guilty of doing this, has his orchard placarded, and is regarded as a menace.

Prof. Boving, in a racy speech, compared the human race to certain vegetables and drew an analogy between different races of mankind and species of the turnip. The early white turnip is a pure stock and fills a certain place in the order of things; the Swede also has its own value. But let the pollen from the one fertilize the stigma of the other and the crossbred product is inferior in almost every respect. The same principle is applicable to the mixture of diverse races among mankind. A cross between the Caucasian and Mongolian races meant serious deterioration and less power of resistance to disease. Tuberculosis especially, increases among such people, and their standard of morality is lowered. He deprecated the suggestion of world wide immigration to this country, and contended that we should select our new blood from those shores which are around the North Sea. Unrestricted immigration would be fatal to the standard of population of Canada.

A cordial vote of thanks to the speakers was given, after which Mrs. Cross entertained the audience with a humorous reading and refreshments were served by the members' wives. Miss Lila Young sang "Smiling Through," and the meeting closed.

During an interval in the institute meeting, Robert King announced to the growers present that quotations for spraying material had been obtained from Pentleton, and arrangements made for delivery to Naramata wharf by boat, or on to the ranches by truck, as required. Such growers as wished to avail themselves of this arrangement were requested to send their order, with cheque, to the secretary of the institute as soon as possible.

Miss Sproule, missionary for the W. C. T. U., gave an address in the church on Wednesday evening, her subjects being "Temperance" and "The Drug Habit." Some startling figures were given concerning the growth of the latter. Mrs. F. Young presided over a fairly large gathering. Miss Sproule also visited the school and addressed the children.

Mrs. Len Smith is in Pentleton visiting Mrs. Turner for a few days.

At the Unity Club meeting, held Friday, a hard times gathering was discussed and March 6th fixed for date of same. Mrs. J. M. Robinson was hostess at the meeting and provided some dainty refreshments. Mrs. Cross sang "The Gates of the West," during the interval in the proceedings.

The West Summerland Women's Institute will meet on Friday, March 9th, at 3 p.m., in the Parish Hall. Cooking demonstration, 'Made-over Dishes.' Mrs. C. J. Amm. 786C

TO PUMP FOR FARM.

Arrangements have been made for supplying additional irrigation water to the Dominion Experimental Farm, by pumping from Trout Creek. The Canadian Fairbanks-Morse people have been given the contract for installing the pumping plant, which will be electrically driven.

This decision on the part of the Federal Department of Agriculture means that the proposal made by the municipality for a further supply of water to the farm has not been accepted.

For the past two or three seasons the Farm has been operating the Antoine Pierre property, adjoining, under lease. In his will, Pierre, now deceased, asked that the property be sold in order to provide an income for his widow. Negotiations are now pending and will, no doubt, soon be consummated, whereby the government will acquire this 70 acres and will add it to the present farm acreage.

CARD OF THANKS.

Mrs. W. T. Broad and son wish to express their very deep appreciation of the sympathy and many kindnesses shown them by their friends in their recent bereavement, and also to thank them for the beautiful floral tributes received.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

Mrs. Davidson, of Peachland, is the guest this week of Miss Dancer.

Coal—Now unloading car of Drumheller stove, suitable for range or furnace. Phone 18, P. S. Roe. 786

Wm. Atkinson has returned from Penticton, where he has been visiting for some weeks with his daughter, Mrs. H. M. Ramsay.

Two teams from the high school, boys and girls, go to Penticton tonight to play basketball against teams of the Penticton high school.

I am building a fine new greenhouse, 60x24, to take care of the vegetable plant trade. A. McLachlan. 786

A son was born to Mr. and Mrs. G. Madcock, of Mineola, on Friday, Feb. 23rd, at the Summerland hospital.

Beginning today, March 1st, public schools revert to the summer schedule and open at 9 a.m. instead of 9.30 a.m. and close at 3.30 instead of 3 p.m.

Mr. and Mrs. Jack Lloyd returned to Summerland on Friday after an absence of some months, during which time Mr. Lloyd has been employed on the railway.

Roy Darkis left this morning to join his father at Coaldale, Alta., in the irrigated section of that province, where they will engage in farming.

George Gould, the little son of Mr. and Mrs. Edgar Gould was hurt on the forehead on Friday, by a snowball, making it necessary for him to be removed to his home.

Special Sale. Best Bargains ever seen in Summerland, while they last. Shoes of high quality at lowest prices. See our window for bargains. A. Filato. Shoe repairing a specialty. North of Grocerteria. 755-6

Mrs. R. M. Ross, who has been visiting her son, George, at Castlegar, has gone down to Vancouver to remain for a time with her younger son, Donald, who is taking a course in railway telegraphy.

Mr. Wm. Inglis came in on Friday night from Saltcoats, Sask., to visit his brother here, Mr. G. H. Inglis. Mr. Inglis came in to spend the summer and is now contemplating making his home here.

While at high school on Wednesday of last week, George Dewar was struck in the eye with a snowball and for a time it was feared that sight had been destroyed. This week the doctor has expressed a hope that the eye may be saved.

John Blayney, of St. Anthony, Iowa, is here visiting his daughter, Margaret, who, until recently, has been living with Mr. and Mrs. C. M. Bender. Mr. Blayney and his daughter are guests of Rev. H. E. and Mrs. Livingstone.

Jas. H. Ritchie has recently concluded a business deal, whereby he will enter into partnership with Fred C. Tetsall, recently with the Lawlor Fruit Co. here, and who is now in the wholesale fruit and produce business in Water street, Vancouver. Mr. Ritchie will leave here within the next few days.

Miss Mitchell, of Toronto, travelling secretary of the W. M. S. of the Presbyterian church in Canada, addressed the women of the local society in St. Andrew's Hall on Wednesday afternoon. Miss Mitchell gave much interesting information on the work of W. M. S., especially emphasizing the work of their missionaries in China and Japan. Miss Mitchell went up the lake this morning, and is speaking at several of the Presbyterian churches on her way. She is to represent the W. M. S. at the Women's Prosyterial, to be held at Salmon Arm on March 13th and 14th, when she will address that gathering. While in Summerland, Miss Mitchell was the guest of Mrs. J. Tait.

Miss Sproule, travelling missionary for the W. C. T. U., on Friday afternoon, addressed the children at the schools, and at 3 o'clock, spoke to the C. G. I. T. girls in the auditorium of the school. On Saturday afternoon she met the ladies of the different congregations in the Baptist church, when she gave a most interesting talk. Miss Sproule spoke again at St. Andrew's church on Sunday morning, in an inspiring address to mothers on 'The Women of the Bible,' and in the evening spoke at the Lakeside church. She left by Monday morning's boat for Peachland, and from there continued up the lake, speaking at several towns on the way, in the W. C. T. U. cause, for which she has travelled for many years.

S. D. Cooper was a business visitor to the Coast last week.

Mrs. J. E. Phinney, of Penticton, is visiting with friends here.

Miss Kathleen Morrison left on the Sunday noon train for Victoria, where she will join the staff of the Jubilee hospital as a probationer.

A telephone has been installed in the new central school building, the instrument formerly in Secretary Bowering's office having been moved to the board rooms.

Word has been received here of the birth of a son to Mrs. Robinson, formerly Muriel Phinney, of this place. Mr. and Mrs. Robinson now reside in Vancouver.

A stage driver from Summerland was fined \$5, and costs for failing to secure his license for operating a car for hire within the limits of this municipality.—Penticton Herald.

Dr. J. S. Pirie came in from Vancouver on Sunday morning and left again for that city on the Monday noon train. He stated that he will be returning in a month to remain.

Miss Hibbs, who resigned the position of matron of the Summerland hospital, left on Sunday for Vancouver. From there she will go to Grand Prairie to assume similar duties.

A construction crew in charge of A. J. Woodburn is completing the work of building the section of government telephone and telegraph line at Trout Creek point. Up to the present, the line has crossed the Experimental Farm.

Word was received here last week of the serious illness of Rev. John Hogg, D.D., of Vancouver, and his granddaughter, Miss Jean Ledingham, left for the Coast immediately. Later information is that his condition has greatly improved.

G. R. S. Blackaby, until recently with the Bank of Montreal here, has been made accountant of the Cloverdale, B.C., Branch, succeeding R. Shaw, who is also a former member of the Summerland staff. Since leaving here, Mr. Blackaby has been in the Vancouver main office.

Mr. F. W. Vipond and his bride came in from Vancouver by K. V. R. on Sunday morning, continuing north by boat on Monday morning on their way to Nakusp, where they will reside. While here they were guests at the home of Mr. Vipond's sister, Mrs. A. M. Leslie.

About 100 members attended the practice of the Summerland Choral Union on Tuesday evening. The chorus was assisted by a small string orchestra. Mr. Cope, the conductor, expressed himself delighted with the progress, tone and enthusiasm of his choristers and thought that now, no new members could be admitted.

Announcement is made in this issue of The Review by J. C. Melvin of the purchase by him of the mercantile business of Frank Cross. For two years, up to last November, Mr. Melvin carried on a retail business in Armstrong and for the past few months has been at the Coast. Mr. and Mrs. Melvin and family arrived here last week and they are now residing in the R. H. English cottage, recently vacated by Mr. and Mrs. T. A. Walden.

Something of the value of insulin, the recent discovery made by Toronto physicians for the successful treatment of cases of diabetes, is brought home to many people of Summerland through the almost instant improvement in health experienced by Mrs. E. R. Simpson. Mrs. Simpson when she left here two weeks ago to enter the Vancouver General Hospital was in a serious condition of health, but late news is that she is greatly improved as the result of insulin treatment.

"THE REFEREE," "The Referee," which comes to the Rialto theatre next Friday and Saturday, offers Conway Tearle the type of role his admirers have long wished he would play. There is perhaps no screen star of the day more fitted to play the part of a fighting referee forced by circumstances into the most trying situation of his thrilling life.

The fight is on! The arena is jammed with fight fans crazy for action, crying for first blood! The gong clangs! Action! The fighters step gracefully onto the ring, their muscles moving like silk ribbons under their skin, their eyes narrowed and eager for the first advantage. There is a blow under the belt. Some one cries "Foul!" The crowd on the way, in the W. C. T. U. cause, shrieks. The referee steps forward, for which she has travelled for many years, the mightiest fight of all begins!

OBITUARY.

PROF. W. T. BROAD.

News of the death of Professor W. T. Broad last Friday morning, came as a shock to the community. Professor Broad had conducted his Bible class as usual on the Sunday previous and he went for a walk the next day. He was taken ill on Wednesday but revived and the end came quite unexpectedly on Friday about 10 a.m., as the result of heart failure. Largely due to the havoc wrought in his family by the war, Prof. Broad had been in poor health for some time.

The funeral was held on Sunday afternoon, from St. Andrew's church and was largely attended. Rev. W. A. Alexander officiated, assisted by Rev. H. E. Livingstone and Rev. O. E. Mann.

A native of Cornwall, Eng., deceased had been a resident of Calgary for some years, but had been living on his fruit ranch here for the past seven or eight years. From his boyhood he was a great student and was engaged in educational work for many years in England and Canada and for a time in Pennsylvania, as superintendent of schools. In Calgary he helped in the starting and organization of Mt. Royal College and for a time was a member of its staff. Later, he took classes for preparing young men for the university, continuing this work until advised by his doctor to leave Calgary and give up teaching. It was then that he came to his fruit lot here.

Always keen to further the interests of Summerland, which he often described as the 'gem of the Okanagan, with a people second to none, he was ever ready to take his share, as far as able, in anything for the good of the community.

For many years Prof. Broad devoted most of his time to the study of the scriptures in the original and worked as one of the translators of the Twentieth Century New Testament. For nearly forty years he was engaged in Bible class work as well as occupying various offices in the Methodist church.

He leaves a widow and two sons, Samuel, of New York, and Charles, at home. Three sons were lost in the war. The bereaved ones have the sympathy of a large circle of friends.

The advertisements in a newspaper are more full of knowledge in respect to what is going on in a state or community than the editorial columns.—Henry Ward Beecher.

SAY WET PROVINCES ARE BIGGEST MARKETS FOR DOPE

Dr. J. G. Shearer, of Toronto, Speaks to Peachland Audience on Work of Social Service Council—Other Peachland News.

Under the auspices of the Peachland Branch of the Women's Institute, Dr. J. G. Shearer, of Toronto, general secretary of the Social Service Council of Canada, addressed a Peachland audience in the Municipal Hall on Tuesday evening. He explained the organization and furnished the audience with valuable information as to laws recently enacted with regard to social vices and gave with regard to social vices and gave an extremely interesting account of the various activities of the council. In speaking of the narcotic question he gave the audience facts and figures proving beyond a doubt the utter falsity of the propaganda often used by the "wets" when they say that "Prohibition has been the cause for an increase in the use of drugs." He showed very conclusively that the wet provinces of the Dominion are the greater narcotic users.

He pointed out many of the benefits of laws being put on the statute books as a result of the activities of the council, stating that it was easier today to get legislation for the betterment of social conditions than it had been a few years back. Though much had been done, there was still much to be done, and the keen interest and support of all are needed. A hearty vote of thanks was tendered the speaker for his able and interesting address. The Rev. T. A. Sadler acted as chairman. The collection amounted to over \$8, and Mr. Shearer explained that his expenses were met otherwise and that after paying for the hall the balance of the collection would go to the Social Service Council for the province.

GIVES FAREWELL SERMON.

Rev. Isaac Page preached his farewell sermon in the Peachland Baptist church on Sunday afternoon after a two-year pastorate. In addition to his regular work in connection with his home church in Penitence, Mr. Page has been conducting a service on alternate Sundays between Kaledon and Peachland, but has found the drive, in addition to the work, over-trying and has had to discontinue it at least for the time being.

During his ministry in the Peachland church he has stood four square and fearlessly preached the whole gospel, emphasizing from time to time the entire Bible as the inspired word.

His many friends and brethren in Peachland regret very much that his visits as pastor are at an end, but hope that he will find it possible to pay an occasional visit.

On Sunday he was accompanied by Mr. Brown of the teaching staff of the Penitence school.

Mr. W. White returned home on Saturday after having attended the Provincial Grand Lodge held in Victoria last week, as a representative from Peachland L. O. L. No. 408. He reports having enjoyed the trip and the sessions very much.

According to the press enquiries are out for information as to tourist camps, this for a tourist's guide book soon to be issued for circulating among American tourists. It will be remembered that S. J. McGirr last

year advocated a tourist camp in Peachland, a question which Peachlanders might do well to consider. It would no doubt have a far-reaching effect toward placing Peachland on the map. Had we a camp now and were we in a position to furnish information for the guide book referred to, this would be only one of many ways in which the camp would advertise our town and district.

The committee appointed to canvass for co-operative contracts has been quite active and the signatures are mounting up steadily. We are not able to give actual percentage figures, but it would seem that the 80 per cent is fairly well assured.

Mr. and Mrs. J. S. Moore and little daughter were recent visitors in town, having motored up from Summerland. Mrs. Moore remained here while Mr. Moore returned to Summerland to wind up his affairs there and come up to take up residence on the Lambly Ranch, where he has engaged with Mr. W. Lambly for a couple of years.

Visitors to Kelowna on Saturday were Miss Noble, Mr. J. McKinnon and Mr. J. Stewart & Son.

Mrs. Martin was a passenger north on Saturday morning to conduct her regular music lessons with her Westbank pupils.

Mr. M. N. Morrison returned on Saturday from a short business trip to the Coast.

Mr. W. J. Moore had the misfortune to have one of his best mares take sick and die last week. He had Dr. R. C. Lipsitt up from Summerland, but nothing could be done to save the animal.

Mr. W. D. Miller has closed down his Deep Creek logging camp, which has been in operation for the winter months. Later in the spring he expects to log a piece behind the Greata Ranch, where Mr. Keating has been getting out-timber for him.

The C. P. R. pile-driver was called for at the Peachland wharf by the tug last week after its crew had completed fixing holes in the wharf and replacing worn planks and driving some additional piles.

Mr. and Mrs. B. F. Gummow and son John, spent a day in Kelowna last week, visiting friends.

Rev. T. A. Sadler returned home last week-end from Vernon where he had been attending Presbytery meetings.

The new addition being built by the baker, preparatory to starting his bake shop, is progressing favorably, now that the weather has settled, the outside work being near completion. Mr. A. W. Miller and Mr. A. E. Henderson are the carpenters.

At the annual meeting of the Peachland Stock Breeders' Association, officers and executive were elected as follows: Mr. Evans, Sr., president; W. B. Sanderson, vice-president; J. Wilson, secy.-treas.; executive, H. Hardy, E. Taylor, R. Harrington, Mr. Ruffie, Sr., and J. Wright.

Miss Agnes Sproul, of Vancouver, W. C. T. U. missionary, addressed a gathering in the Municipal Hall on Monday evening, under the auspices of the Peachland Branch of the W. C. T. U. In the first part of her address she gave the boys and girls a health talk, which she made very amusing and interesting, as well as profitable. Then followed a short account of her work of many years, telling of her early work back in the northern part of Ontario among the logging and mining camps, where she had many and varied experiences and then of her work in and around Vancouver. Her's has been a life of sacrifice and service and she has

LITTLE CHANGE IN TOTAL VALUE

(Continued from Page 1)

improvements reduced to \$400; Blk. 10, improvements reduced to \$1500. E. Evans, Blk. A, D. L. 974, Lot 7, improvements fixed at \$3500, and on Lot 8, improvements fixed at \$4000. Lots 27a and 28a, C. P. R. property, were changed from wild land to improved land and value of improvements on each lot fixed at \$25. Agur Estate, Blk. 24, D. L. 476, improvements increased to \$15,000. Mrs. Atkins, Blk. 18, D. L. 455, Lot 3, improvements fixed at \$75. Mr. Banton, Blk. 18, D. L. 455, Lot 4, the same as above. Jas. R. Doherty, Blk. 35, D. L. 476, Lot 17, improvements increased to \$2000. Mrs. F. E. A. Cooper, Blk. 6, D. L. 425, Lot 3, improvements fixed at \$2000.

Seven miles of Okanagan Telephone Co. lines were added to the payroll at a valuation of \$75 per mile.

The following properties were dealt with with respect to land valuations:

S. Turner, Blks. 22-23, D. L. 3194 and Blk. 2, D. L. 1073, assessment sustained.

D. H. Kirstin, Lots 1 to 8, Blk. 9, D. L. 455, reduced to \$60 per lot; Lots 11 to 16, reduced to \$70 per lot.

J. W. Clarke, Blk. 2, D. L. 675, reduced to \$1,000.

A. E. Nelson, Blk. A, D. L. 974, Lot 1, reduced to \$300, and Lot 2, to \$100.

K. S. Hogg, on behalf of Mrs. Hogg, Blk. 58, D. L. 455, Lots 14 to 17, assessment sustained.

Summerland Drug Co., Blk. 45; D. L. 455, Lot 1 reduced to \$425.

J. R. Brown, Blk. 58a, D. L. 455, Lots 1 to 6, reduced to \$10 per lot.

W. A. Chisholm, Blk. 4, D. L. 472, reduced to \$2800.

Oliver Smith, part Blk. A, D. L. 508, reduced to \$1250.

J. C. Barkwell, Blk. 2, D. L. 508, Lots 6 and 7, reduced to \$175 each; Lot 31, assessment sustained.

J. M. McDougall, Blks. 3 to 9, D. L. 2562, reduced to \$125 each.

C. J. McDougall, Blks. 1 and 1a, D. L. 2562, reduced to \$800 and \$400 respectively.

R. Mitchell, Blk. 35, D. L. 470, Lots 23 and 27, reduced to \$275 and \$250, respectively.

Summerland Development Co.—Blk. 37a; D. L. 455, Lots 1, 6 and 7, reduced to \$500 each; Blk. 5, D. L. 475, to \$100 and Blk. 6, to \$250; Lots 105 to 213 on Map 306, reduced to \$7 per lot; Blk. 35, D. L. 454, to \$300 and Blk. 25, D. L. 439 to \$750; Blk. 2, D. L. 475, to \$750; Blk. 2, D. L. 455, to \$1850; Blk. 17, D. L. 455, Lot 2, reduced to \$550; Blk. 43, D. L. 455, reduced to \$1450; Blks. 23 to 33 and 34 to 37, D. L. 675, assessment sustained.

S. F. Sharp, Blk. 7, D. L. 20, reduced to \$300.

Fred H. Moody, Blk. 14, D. L. 454, reduced to \$1300.

John W. Mitchell, Blk. 4, D. L. 2543, assessment sustained, and Blk. 10, reduced to \$2200.

H. E. McCall, Blk. 50, D. L. 455, Lots 13 and 14, reduced to \$450 each.

Summerland Supply Co., Blk. 55, Lots 27, 28 and 31 and 32 and Blk. 45, Lots 3 and 4, D. L. 455, assessment sustained; Blk. 37a, D. L. 455, Lots 8 and 9, reduced to \$500 each.

E. Evans, Blk. A, D. L. 974, Lot 7, reduced to \$2500.

H. Atkinson, Blk. 8, D. L. 455, reduced to \$1250.

M. E. Pound, Blk. 26, D. L. 455, Lot 2, reduced to \$475.

Summerland Development Co., Blk. 58, D. L. 455, Lots 12 and 13, assessment sustained; Blk. 21, D. L. 439, increased to \$850.

G. W. Blothar, Blk. 8, D. L. 2176, reduced to \$2000.

W. A. Dorrick, Blk. 4a and Blk. 4, D. L. 455, reduced to \$1800 and \$2700, respectively.

G. N. Gartrell, Blk. 2, D. L. 508, Lots 3 and 9, reduced to \$175 each, and Lot 10 in the same Blk., property

PRESBYTERY FAVORS IMMEDIATE UNION

(Continued from Page 1)

increase in this department is indicative of every other. Special grants were made to Coalmont and Blakeburn of \$1,000 each to assist in erecting small churches and reading rooms. North Bend and Malakwa on the C.P.R. were also promised similar help. During the past year three manses were built and two churches. The Presbytery could not resist the temptation to hold their next regular meeting in Penitence. They expect to gather here in August.

The Presbytery was made of the following delegates:

Rev. W. W. Aitchison, Revelstoke; Rev. C. A. Campbell, Salmon Arm; Rev. W. F. Kelley, Ashcroft; Rev. Jas. Dewar, Chase; Rev. W. Brown, Rev. K. Herbison, Princeton; Rev. W. A. Alexander, Summerland; Rev. J. T. Millar, Penitence; Rev. E. R. Braden, Kelowna; Rev. C. Campbell Brown, Oyama; Rev. Lennox Fraser, Vernon; Rev. T. A. Sadler, Peachland; Rev. Wm. Stott, Armstrong; Rev. John Stott, Enderby; Rev. Wm. Peck, Vancouver; Rev. G. A. Wilson, D.D., Vancouver; Rev. W. H. Smith, D.D., Vancouver; Rev. E. S. Logie, North Thompson; Elders: J. G. French, Vernon; D. H. Campbell, Kamloops; Jos. Ball, Kelowna; R. Aiken, Salmon Arm.

of F. J. Nixon, placed at like value.

Mrs. F. V. White, Blk. 37a, D. L. 455, Lots 2, 3, 4 and 5, reduced to \$500 each.

John Moffat, Blk. 17, D. L. 455, reduced to \$600.

The Trend of Business

To forecast correctly trade developments is of vital importance to the man of business.

Our monthly Commercial Letters, which will be sent on request, contain analyses of agricultural and trade conditions of great assistance in reaching sound conclusions.

NOMINATIONS FOR DIRECTORS NEW LOCAL

More Than Dozen Names Are Already In—Two for Seat on Central.

ELECTIONS SATURDAY

Committee Looks for More Than Ninety Per Cent. of Tonnage.

Though the local organization committee expects to have 90 or 92 per cent. of the tonnage of the district signed up for the new co-operative within the next few days, there has not been any great change in the total since last week. The additional signers bring the total up to perhaps 78 per cent.

Co-operators are meeting on Saturday next to take the preliminary steps toward the organization of a local, by the appointment of five provisional directors. At the same time, they will elect their representative on the board of directors of the central. Formal announcement of this meeting is made elsewhere in these columns and the committee is also making another bid for further signatures. All who expect to ship through the organization should sign before the meeting so that they may have a say in electing the men of their choice.

Up to the time of going to press, 18 men had been nominated for the local board and two for the seat on the central, these two being Basil Steuart and G. J. C. White. Nominations for the local board are: Bristol, H.; Campbell, J. R.; Croft, T.; Gray, G. L.; Hutton, Major E. E.; Nixon, F. J.; Shepherd, Jas.; Steuart, Basil; Turner, A. C.; Tweedy, Major W. R.; Webb, Capt. W. V. B.; White, G. J. C.; Wilson, M. G.

ASSAULT CHARGE AGAINST FUOCO MADE BY WIFE

Admits Guilt and is Bound Over by Police Magistrate to Keep Peace.

Probably the first record on the books of the local police court of an assault case, in which a man is accused of assaulting his wife, was made on Monday, when Jasper Fuoco, an Italian, was brought before Magistrate Hutton, following a charge of assault laid against him by his young wife, Mrs. Nellie Fuoco.

It would appear that their brief married life has been a very stormy one and their quarrels were continued in court. Fuoco, however, pleaded guilty to the charge, the particular quarrel which led to the assault, evidently originating over a dispute as to which one would make the morning fire, the wife stating that she had to protect herself by crawling under the bedclothes.

The accused was bound over in the sum of \$100 to keep the peace.

GROWERS' SALES AGENCY CHANGE

Will Be Jobbers Organization—Growers Drop Out.

M. G. Wilson returned a few days ago from Calgary, where he attended the annual meeting of the Growers' Sales Agency, Limited, which, up to now has been controlled by the Okanagan shipping houses. Because of re-organization at this end the growers are withdrawing and their capital investment will be refunded, together with a nice margin of profit on the last year's operations. The company will be continued as an agency for what are known as the independent houses, that is those distributing houses not controlled by the Nash people. It is stated that those independents handled about 60 per cent. of the fruit tonnage on the prairies last year.

The Growers' Sales Agency, Limited, is also taking over the Vancouver office of the O. U. G. John Burns, of the P. Burns Co., was elected president.

TROUT CREEK FARMERS' INSTITUTE

The Trout Creek Farmers' Institute held their regular monthly meeting on Tuesday evening last. The business arising out of the minutes being disposed of, the president called on Mr. Granville Morgan to give a talk on "The Value of Birds in the Orchard." This proved very interesting and Mr. Morgan displayed a deep knowledge and enthusiasm for his subject. The law regarding the protection of migratory and other birds was touched upon. Some birds deserve every protection, whilst others have to be kept within reasonable bounds, otherwise the benefits they bestow are outbalanced by the harm done. Feeding of birds during the winter and the provision of nesting boxes were items dwelt upon.

Mr. Harold Smith was next called upon for a talk on "Shade Trees." When planting shade trees it is essential to bear in mind that these, being of a permanent nature, beauty is a first consideration. A tree Mr. Smith would strongly recommend is the English walnut. These are beautiful trees, give an abundance of shade when well grown, and are also profitable. Trees planted on his own lot produced fruit at nine years. The native evergreens should not be overlooked.

PARENT-TEACHERS' ASSOC'N. ELECTS OFFICERS

Small Attendance at Annual Meeting—Out for More Members.

Last Friday evening, in the Central school building, the Parent-Teachers' Association, in annual meeting, elected officers for the current year. These are as follows:

President, T. H. Riley; vice-presidents, Prin. G. A. Lundie and Mrs. A. H. Steven; rec. secretary, Mrs. W. J. Robinson; treasurer, A. G. Smith; corresponding secretary, Mrs. G. H. Inglis.

The retiring president, J. R. Campbell, briefly reviewed the past year's work of the organization, which he said had not been as active as it should have been. He regretted the very small attendance of parents, which he believed was because the meeting had not been sufficiently advertised.

Those present decided on an active campaign for membership, Prin. Lundie undertaking to bring in forty new members.

Meetings are being held monthly and the school board will be asked for permission to meet in the school building. The executive was asked to arrange an entertainment of a social aspect for the next meeting and to present a program for the year.

STAMPING OUT TUBERCULOSIS AT ITS SOURCE

The Disease in Cattle to Be Eradicated From Certain Districts.

The Dominion Department of Agriculture has taken a further step towards the eradication of tuberculosis in cattle. By a recent order-in-council, eradication by proscribed districts will be undertaken by the health of animals branch. The department is prepared to apply quarantine to restricted areas on the request of a provincial government, and to test cattle for the disease. The quarantine will be applied, in so far as bovine tuberculosis is concerned, under such conditions as will prevent contact with cattle from outside. Owners of the cattle within the area will be required to assist the veterinary inspectors by collecting the cattle when required and by giving such help as may be reasonably demanded. Testing will be performed by accredited veterinarians and will be completed as rapidly as possible. Compensation up to two-thirds the appraised value will be paid for such re-detectors as are destroyed. Provision is made for saving for breeding purposes valuable animals that react to the test. Those, if the owner desires, may be segregated under what is known as the "Bang system," this being virtually a quarantine from which only the newly born calves may be saved and returned to the healthy herd.

Matt. G. Wilson, President of Fruit Union, is Appointed Liquidator

Members of Summerland Fruit Union in Annual Meeting Unanimously Favor Winding Up of Business—Leaves Field Open for New and Larger Co-operative—Contract Breakers Cause Loss to Loyal Members.

At the regular annual meeting of the shareholders of the Summerland Fruit Union, held on Tuesday, a motion to the effect that the Union go into voluntary liquidation was unanimously adopted. By the same motion, the president, M. G. Wilson, was appointed liquidator, his fees to be those prescribed by Bankruptcy Act. Mr. Wilson's appointment as liquidator was favored by Mr. Dudley Dawson, of Vancouver, representing the Dominion Bank, who claimed that by virtue of growers' paper discounted for the Union, the bank is the largest creditor.

The financial statement, as submitted, showed a small surplus of assets over liabilities, but the auditors recommended the writing off of a further sum of \$1,100 for doubtful accounts.

Liquidation was decided upon as the best course to take in view of the fact that nearly all the fruit growers of the district are joining the new co-operative organization.

M. G. Wilson, president, referring to the decision of the directors to recommend liquidation, expressed the deepest regret that the Union had been brought to that position. All felt a pride in the part it had taken in the fruit industry and every fruit grower had been benefitted through its existence.

C. N. Higgins asked if it were true that the Bank of Montreal, at Vernon, had been holding money that was due from the O. U. G., to growers and if the O. U. G. was going to stand for this. Mr. Wilson replied that it was true that the bank had been holding the money to retire a loan made to the O. U. G., for the purpose of financing the marketing of last season's crop. This loan had now been liquidated and the growers will get all the fruit realizes.

VALLEY BRANCH IS ASSURED

J. A. MacKelvie, M. P., Advised of Decision of Railway Board.

Definite assurance that the Kamloops-Kelowna branch of the Canadian National Railway will be completed has been given by J. A. MacKelvie, M. P., by Sir Henry Thornton, president of the Canadian National Railway Board, according to a special dispatch from Ottawa to the Vernon News. Contingent upon the money being provided by the government, of which Sir Henry expressed no doubt, the board has decided on this as one of the first pieces of construction work to be undertaken among the various plans under consideration. With reference to this announcement, the Kelowna Courier says:

"With direct rail connection, Kelowna will naturally assume a position of much greater importance in lake navigation than it now occupies, as it will practically become the northern terminus. With a fast steamer service on the lake between Kelowna and Penticton much better connection with the Kettle Valley Railway both east and west should be possible, and most of the lake points north of Kelowna can be served better from here than Okanagan Landing.

Statistics jointly accepted by the Dominion and provincial governments show the total yield of wheat in Canada last year is provisionally estimated at 391,425,000 bushels. This is the highest yield since 1915, when the yield from the smaller acreage of 15,100,415 was 393,542,000 bushels. The area sown to wheat in 1922 is estimated at 22,422,003 acres. The average wheat yield per acre, 17½ bushels, was also higher than in any year since 1915, when the average was 20 bushels.

An initial party of 3,000 Mennonite farmers are en route from Ukraine to Western Canada.

To an enquirer, Secretary Beavis stated that the fire loss had been about \$30,000. Over \$20,000 was received in insurance, the net loss being \$8,860.38.

C. Craig created some amusement when he demanded that the official who overlooked having insurance transferred when fertilizers were moved from the upper warehouse to the building which was later burned, be required to make good the loss. He did not get a seconder for his motion.

P. G. Dodwell referred to the comparison between the 1921 and 1922 tonnage handled and claimed that the failure of so many members to live up to their contracts was the reason for the present unfortunate situation of the Union and suggested that the liquidator take action to recover damages.

J. Shepherd asked how much the shrinkage in tonnage had added to the packing charges, to which E. R. Simpson, manager, replied that about 7 or 8 cents a box extra charge had resulted.

"This means," said Mr. Shepherd "that I have lost \$100 or more because others broke away."

To further questions the president replied that many, at the end of the season, had taken part or all of their fruit to other houses. This, he thought, was largely due to the result of the court case of the Kelowna Exchange against a member. The manager further explained that this action had not been anticipated nor discovered until it was too late.

Major Hutton, referred to the Kelowna case, and explained that the court's decision in no way invalidated the contract, the decision being that the case was not one for specific performance, but rather that suit should

be entered for damages. At the last session of the legislature an amendment had been made, making the contract susceptible to specific performance, so that a suit such as had been entered by the Kelowna Exchange could now be successfully proceeded with. The contract in the new co-operative was in better form than the old contract, but even if no better, it could now be enforced under the amendment mentioned.

Mr. Dodwell was insistent that the liquidator take action against those who broke their contracts. Following a brief discussion of the annual report and financial statement, these were adopted.

At the request of J. S. Campbell, the president, who was also Summerland's representative on the board of directors of the O. U. G., was asked to give what information he could on prospective apple returns.

Mr. Wilson replied that he had been examining the pools, but there were so many sales yet to be adjusted that it would not be possible to give definite figures. MacIntosh's would bring about \$1.15, from which central and local charges would be deducted. He feared there would be little left to the growers for Jonathans. Although some had been sold at good prices, other shipments had fallen down badly. The loss to the growers would be heavy through the failure of the apples to hold up. Newtons would probably bring \$1.70, f.o.b. Returns to the growers of 21½ cents had just been made for Gravensteins. Delicious prices were about \$2, f.o.b., "and," said Mr. Wilson, "The O.K. Brand Delicious is getting a good premium over Delicious of other brands." Claims for refunds on Northern Spy were

(Continued on Page 6)

PROGRAM FOR VALLEY SCHOOL MEET ARRANGED

Summerland Teachers Active in Plans for Annual Sports.

A meeting of the Okanagan Valley Teachers' Association was held in Kelowna on Saturday last for the purpose of completing arrangements for the second annual track meet. Mr. C. W. Lees, the president of the association, was in the chair and representatives from Westbank, Penticton, Summerland, Kelowna and Rutland were in attendance.

Much enthusiasm for the approaching meet was manifested and the towns at the south end of the lake seem particularly anxious to develop this track event into an outstanding feature of school life in the Valley. Last year the day selected was June 10th, which was felt to be a little too late in the season. This year May 12th was chosen, so that the ambitious contestants will have just a little over two months for preparation.

On the recommendation of the Penticton representatives the events have been divided into two sections. Division A is open to both high and public school pupils and on the result of events in this section will rest the championship of the Valley and the winner of the large cup donated last year by the Kelowna Athletic Club. Division B is open to high school pupils only and will determine the high school championship of the Okanagan. As yet there is no trophy for this division, but it was intimated at the meeting that some enthusiastic citizens of Penticton would make good this deficiency.

Financing of the meet was left to the executive of the association and each school board in the Valley from where entries may be expected, is to be asked to contribute a pro rata quota in accordance with the resolution passed at Vernon last October

ASSOCIATION NOW SHIPPING EGGS

The Summerland Poultry Association, recently organized for the purpose of marketing eggs co-operatively, now has thirty-one members and during February, 629 dozen of eggs were shipped. All of these eggs went to retailers or direct to consumers, such as lumbering or mining camps. The members will receive approximately 38 cents per dozen for these eggs.

NEW MANAGER FOR CASORSO'S

Accompanied by Joseph Casorso, of Casorso Bros., Kelowna, W. Nield, until recently with P. Burns & Co., Calgary, arrived here Monday evening to assume management of the West Summerland Meat Market, a branch of the Kelowna concern. Arrangements had been made some time ago, whereby the former manager, Norman Board, was to be transferred to Kelowna and for the past two weeks Mr. Nield has been at Kelowna getting acquainted with the firm's methods. Mr. Nield's family, now in Calgary, will join him here later. Mr. Board left here Saturday night. Mr. Casorso spent three days here introducing Mr. Nield to his new duties.

BOYS TIE WITH PENTICTON IN LATTER'S GYM

High School Boys Held Own in Keen Contest With Senior Men.

Two Summerland high school basketball teams, boys' and girls', went to Penticton on Thursday night of last week to play two Penticton teams, the games resulting in a tie, 32 all, for the boys, and a victory of 28 to 6 for the Penticton town girls against the Summerland high school girls; though these teams were so unevenly matched that nothing else could have been expected. Owing to an unfortunate misunderstanding in making arrangements by phone, the Penticton town girls turned out, instead of the Penticton high school team, which our girls understood they were to play.

The boys' teams put up a good game, though the Summerland players were considerably handicapped by the very low beams in the Occidental building, in which the games were played, and which allowed no opportunity for long passes. T. Beatty and R. Phinney did most of the scoring for the Penticton team, W. Gayton starring for Summerland. The teams were as follows:

Penticton Town Girls—E. Mahoney, Edythe Mitchell, G. Parrott, M. Power, L. Beatty. Summerland High School Girls—R. Harris, H. White, M. Hanna, L. McLachlan, N. Thompson.

Penticton Intermediates—R. Phinney, W. May, T. Beatty, M. Layton, C. Forman, Summerland High School—W. Gayton, J. Smith, I. Harris, G. Blowett, I. Adams, K. Walden; J. Smith and K. Walden spelling off quite frequently, in order to give both equal practice for the coming games listed with Coast teams at Easter, in preparation for which our boys are putting in much strenuous work.

WAITING FOR MONEY

Summerland fruit growers, who sold their crop to the Lawlor Fruit Co., are daily expecting payment of their claims, those being 60 per cent. of the original price. About \$7,500 is to be turned over to the legal representatives of the growers by A. P. Slade & Co. Some delay has occurred in getting the consent of a number of the growers on the subject.

SECRETARY DEPARTS WITH CLUB FUNDS

Directors of the Aquatic Club reporting to the shareholders' annual meeting on Friday night, stated that W. J. Barclay, the secretary caretaker of the club since early in 1922, absconded a few weeks ago, leaving a cash shortage of \$97.27. This shortage, however, was partially covered, it was said, by \$40 due to him in wages.

WANT LOCAL PRICE FIXED ON TOMATOES

Local Growers Sign Contracts But Await Assurance on Price.

JAPANESE JOIN

Kelowna Representative of 'Orientals Speaks to Com-patriots Here.

Tomato growers of this district are in favor of lining up with the new co-operative organization of tomato growers. In fact, many of them have already signed the contract, but the local association is holding these until certain conditions are adjusted to their satisfaction.

A meeting of the organization was held last week at the office of the secretary, P. E. Knowles, when K. Iwashita, of Kelowna, spoke for more than an hour to the Japanese members of the association who are signing up 100 per cent. strong.

One of the conditions required by the local association is in respect to prices. Should it be that there will be no cannery operating here this season, the growers want the same prices f.o.b. Summerland, as the Kelowna tomato growers would get at that point. On motion of Messrs. Agur and Caldwell, the following resolution was adopted:

"That Summerland tomato growers receive the same f.o.b. prices for graded and ungraded tomatoes as the Kelowna growers receive f.o.b. Kelowna and that the secretary be instructed to get acceptance before sending contracts." Under this condition the canneries will pay the freight on tomatoes shipped from here either to the Coast or other Valley points.

Mr. Iwashita was able to answer a

(Continued on Page 2)

KELOWNA SIGNS EIGHTY-TWO PER CENT. OF CROP

Results Announced for the Several Districts in That Territory.

Eighty-two per cent. of the tonnage of the Kelowna district had been signed up by the new organization on Thursday of last week. Those who had refused to sign up to that date, represented 3½ per cent. of the Kelowna 1922 crop. The balance is represented by absentee owners, all of whom are being communicated with; and there is good reason to believe that the majority of these will sign the contract. Up to that date the district percentages were as follows:

District	Percentage	Tonnage
Glenmore	70	4,858
Belgo-Rutland	70	3,277
Kelowna-Benvenuto	78	610
East Kelowna	87	5,499
West side of Lake	97	197
Ellison	90	881
Mission	89	328

"WOLF LAW" AT THE RIALTO

Out of the frying pan into the fire! The hero eased himself over the border three bullets ahead of the sheriff, and landed in a community where the big mogul said he would be a permanent resident or die leaving!

A story of the older day, sweetly told—something our fathers might tell us; romantically pictured (all the modern jazz era left out and nothing but pure adventure and a dramatic story—that's "Wolf Law," which is coming to the Rialto on Friday and Saturday, March 9th and 10th.

DONATIONS TO THE HOSPITAL

Donations to the hospital during February, as noted below, are gratefully acknowledged by the matron: Mrs. Black, manganos; Mrs. Linnett, marmalade; Mr. Foster, 1 dozen eggs, 1 qt. cream, 1 box apples; Mrs. Harwood, fruit and pickles.

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, March 8, 1923.

Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

FINANCING THE GROWERS.

Already there is a more optimistic spirit among our fruit growers and also our business men as a result of the progress made toward co-operative marketing of our fruit crop. But there are a number of fruit growers left high and dry on the rocks of adversity by the disastrous result of marketing the crops of the past two seasons and they are sorely concerned as to how to finance the operation of their orchards until the next crop is on the market.

A certain amount of cash is absolutely necessary to enable them to produce fruit of marketable quality that will bring profitable prices. There are growers, no doubt many of them, with sufficient reserve to enable them to carry on; others, whose credit has been good at the bank and who anticipate no trouble in getting what assistance they require. But there is another large portion of our fruit growers whose credit, perhaps, never was very high but who have always managed to get along on their own resources until now and to whom the statement that the new organization would not be in the banking business has brought additional cause for worry.

Do these people realize that by the simple act of signing a five-year contract with a large organization of fruit growers, they have added much to the value of their assets and greatly increased their credit? That the new organization is along sound lines is recognized by financiers, who have offered to advance the new co-operative a half million dollars. Likewise, numerous locals will experience no difficulty in obtaining advances for operating expenses. This, all because the five-year contract has put an additional value on the industry, and the land, trees and equipment behind it.

It will not be necessary, as it seemed to be in the past, for the locals to give financial assistance to members. Our banks, no doubt, will be ready to extend credit to growers who have signed the contract, who could not have obtained such assistance before. A note, signed by such a grower, backed, if required, by an order on the local, once it has been properly launched, should be sufficient security for enough cash to carry on until the next crop. While thus helping to add to the tonnage and to raise the quality of the output of the district, the banks would be doing a good stroke of business, by increasing the net income of the district for next season's crop, the buying power of the individual grower and the total turnover in the volume of business done by the merchants and the banks themselves.

DISCREDITING SAPIRO

In a feature editorial, under the heading "They Will Lie About Sapiro and Co-operation," Farm and Home, Vancouver, of last week, says:

During the present campaign of the fruit growers to sign up eighty per cent. or more of those engaged in the industry for the new co-operative marketing organization, it is certain that all of the interests who are either openly or covertly opposing the movement with all their strength, will leave no stone unturned to discredit not only the co-operative plan, but the reputation of Aaron Sapiro also.

Growers will be told by these interests and by their glibble tools that the plan is unworkable; that it is not the plan devised by Sapiro and that even if it were, Sapiro is not the great man he is supposed to be. These grafting parasites, now endeavoring to play their last card, will tell you that "most of Sapiro's co-operative organizations have failed, anyway."

In reply to this underhanded attempt by those interests to remove the last barrier which stands between them and complete exploitation of the fruit growers, Farm and Home will state its reputation on the following statements:

(1) In all its basic essentials, the plan of co-operative marketing now presented to the growers was suggested by Mr. Sapiro after many consultations with the very capable growers' committee of seven.

(2) This plan has been perfectly adapted to every local legal requirement by the growers' committee and local barristers in conjunction with Mr. Boyd Oliver, Sapiro's partner, and it has also been passed upon with the highest recommendation by the leading business men and financiers of Vancouver, who not only support it but are willing to finance it if adopted by the growers.

(3) It is the only workable plan yet devised for use in any part of the world and has been eminently successful wherever used.

(4) Sapiro is a far greater man than he is supposed to be—and one of the most modest of great men. There are only a handful of such men alive on the earth at any one time. He is so great that the Hon. Mr. Crerar, former parliamentary leader of the prairie grain growers, places absolute reliance on his opinion and will sanction no movement contrary to it. He is so great that when the Prime Minister of Canada, the Hon. W. L. Mackenzie King, desires expert advice on agricultural matters, it is Sapiro whom he calls into consultation when he has all the world to choose from.

Not one of Sapiro's co-operative organizations ever failed through following any plan of his; but SEVENTEEN CO-OPERATIVE BODIES HAVE FAILED BECAUSE THEY REFUSED TO FOLLOW HIS ADVICE WHEN HE TOLD THEM TO RE-ORGANIZE ON SOUNDER PLANS. These are the failures of which you will be told in garbled and purposely misleading reports. They will tell you nothing of the enormous and successful co-operative organizations of which Sapiro is the leading spirit—organizations

which are making splendid incomes for hundreds of thousands of growers year after year. They will not tell you that Sapiro has the complete confidence of the greatest financiers of America, who will finance anything, anywhere, which receives his approval. They will not tell you that Senator Arthur Capper, leader of the Farmers' Bloc in the U. S. Senate, has called Sapiro the greatest living agricultural organizer and the farmers' greatest friend.

(5) Every person who attempts to belittle the work or ability or present co-operative plan of Aaron Sapiro either has an "axe to grind" or is a victim of some such person. Pay no attention to such evil gossip.

(6) British Columbia fruit growers need have no fear of failure if they adopt Sapiro's co-operative plan, which is now before them; but if they don't they will not be able to sell their bearing orchard land at one-third of its present assessed value within five years of the present time or less.

Growers: every selfish profiteering parasitical interest associated with the fruit-growing industry of British Columbia is now making its last stand. Together and singly, secretly and openly, they will attempt to move heaven and earth in a last desperate effort to divide you, to blind you to the truth, to work upon ancient prejudices, to create suspicions and jealousies, to confuse and keep you and your neighbors apart, and above all, to make you doubtful of everything designed for your own welfare. Sapiro will be lied about; your local leaders will be maligned; everything will be done to keep you from signing the contract.

But don't be fooled, for if you are it will be for the last time as fruit growers. Sign and save yourselves; refuse to sign and save the interests! And don't let any red heffings be dragged into the issue. In some districts, the selfish and evil influences are pointing to inefficient local managers of packing plants and asking the growers if they wish to have their fruit handled by such men. Certainly you don't want your fruit handled by inefficient managers and you will not have to suffer inefficient managers at all. What these malicious, designing knockers try to keep from you is that once you are members of your co-operative you have voting power in it and can very quickly eliminate any manager not to your liking; but as long as you are outside of the organization you have no control over him whatever.

Don't blame ALL of the shippers, most of them see and understand the necessity of this movement; they realize they will lose their entire investment in the Okanagan and Kootenay areas, for under any other method but co-operative marketing fruit growing will cease as an industry and they will be left high and dry with their costly plants on their hands. These shippers are not fools—as we know from very long experience—and the majority of them welcome this opportunity to sell at a fair price. Many of them would be valuable servants to the new organization in the capacity of local managers.

Only a few of the shippers are likely to stand out in open or covert opposition to the plan, either for exorbitant prices for their plants or because of downright hatred for farmers' co-operation; these and their lies must not be allowed to delay the present righteous movement.

Don't be small; don't be narrow, and don't be afraid; faint heart never won Prosperity.

THE WORLD OF WIRELESS WAVES.

The spectacular development of the wireless telephone commands more serious attention than any discovery within the recollection of the present generation. That it is bound to prove the greatest civilizing influence of the century there can be no doubt. It will far outstrip the talking machine and even the motion picture because its potentiality lies nearer to the root of things. When the farmer can be brought into conversational contact with the remotest part of his country things are going to move. What is to happen to the local band when the boys and girls of every town and hamlet dance to the music of the world's greatest master of the jazz broadcasted from a central point. Business men will do well to give serious and immediate thought to this new development. Already the effect of the wireless is being felt in the talking machine industry. True human nature likes to pick concerts to its own liking, to "put on" the record that pleases for the moment, but when the standard of the ready made concert, as it will, takes into consideration the variety of tastes and wishes the home reproducer is destined to the discard.

Quite apart from its commercial aspect, however, let us hope the government will not let slip by unused this great potential service for the people. Wireless communication can be made to lower the death rate, it can be made to check the growth of insanity, it can be the means of making healthier and happier mothers and children, it can spell the spread of sanitation, it can cure the cold and halt the fever. Its blessings can be reflected in the remote hamlets where plain God-fearing Canadian people find their homes and do the work of the hour far removed from medical skill and simple social science. For the farmer the possibilities are limitless. Five years or even less should see in the cabinet at Ottawa a Secretary of Communications—the biggest job in Canada.

WANT LOCAL PRICE

(Continued from Page 1)

number of questions to the satisfaction of the local members. Growers will be permitted to pick semi-ripos for market up to August 15th and places with no canneries will be permitted to ship to a later date. Up to the time of the meeting approximately 60 acres had been lined up. It is expected this will be greatly increased.

Later Mr. Iwashita went to the Consul to confer with Japanese Consul Saito on the subject of affiliation of Japanese with co-operative marketing associations. On this subject the consul said later:

"It is the desire of all Japanese farmers and fruit growers to become affiliated with organizations for the mutual benefits of their industry and the ultimate interests of the consumers. While we may not have so many Japanese engaged in farming or fruit growing, it is found they are anxious to become merged into any organization that may prove helpful and amicable. For this reason Mr. Iwashita of Kelowna visited me. His mission is similar to the desire of other Japanese agriculturists of British Columbia."

With limited advertising done by the California Pear Growers' Association in several of the big eastern markets the California pears outlast Michigan and New York pears at double the price during the 1922 season.

ORIENTAL MUST BE EXCLUDED

J. A. MacKellvie Speaks in No Uncertain Words on Oriental Question.

In a speech during a debate on the Oriental question in the House of Commons, J. A. MacKellvie, M. P. for this riding, said:

I may say that having lived for over thirty years in British Columbia, and having seen this problem, this menace, of oriental intrusion grow from small beginnings until it has now assumed proportions that cause it to overshadow practically every other problem we have to face in that province, I have always, in the innumerable discussions in which I have taken part during that time regarding this subject, endeavored to approach it with a mind charged with more than local issues, endeavored to view it with a full sense of the responsibility entailed by those who advocate complete exclusion having regard to international and imperial associations. That aspect, dealing with the constitutional phase of the question, was very ably and fully discussed last year in this House by the hon. member for Centre Vancouver (Mr. Stevens). His arguments left nothing to be said on the subject, and I do not propose to rehash them now.

In reply to the Minister of Trade and Commerce, if he apprehends that any difficulty regarding trade relations may arise from the enforcement of resolutions such as this, I wish to warn him that a much more serious difficulty, a much more inflamed state of feeling in the Orient, may very reasonably be expected to arise if this almost intolerable condition under which we are now suffering in British Columbia is allowed to continue, and that serious results are inevitably bound to follow. There will be disturbances which will have the effect of creating far more inflamed feeling in the Orient towards this country than anything that could possibly result on account of restrictive measures which we may adopt.

I gave my opinion to the House regarding this matter last year, and I suppose that those of us from my province will be compelled again to debate this question when the policy of the minister is brought up. I may say I will support this motion, not because I believe it is absolutely the best way of approaching the subject, but because I am always in favor of moving in any direction which will give us relief in British Columbia—and indeed, in other parts of Canada, for the menace is rapidly spreading—from this condition of affairs which strikes so vitally at the very fundamentals of our prosperity in that section of the country.

As far as the constitutional phase of the question is concerned, I am prepared to reiterate what I said last year. If there be treaties standing in the way, denounce them. If there be anything that can be done by this parliament to absolutely put up the bars against oriental immigration of all kinds, let it be done immediately. Before I came to Ottawa I attended a meeting of the provincial association of British Columbia farmers. A

CARTER, The Plumber,

SHOP AT FOOT OF GULCH ROAD

Parlous State of Australian Fruit Industry

C. Hartlett, Office of the Trade Commissioner, Melbourne.

Australian fruit-growers are very perturbed at the present time, owing to the difficulty they find in marketing their products both at home and abroad. It is claimed that inland rail and overseas marine freights are now so high that the grower cannot compete with the products of other countries in the British markets upon which they have hitherto mainly depended, and even the domestic demand is far from satisfactory owing to the high cost of the fruit to the consumer.

So far as the domestic markets for ordinary qualities of fruit are concerned, the grower complains that railroad and other charges leave him the bare cost of production at the most, while the consumer is strongly of the opinion that there is nothing to warrant the present high price which he is compelled to pay for the same fruit in retail shops, and consequently purchases as little as possible of a commodity produced in this country in great abundance and of splendid quality.

Many conferences of growers, officials and others interested in the industry have recently been held, but the solution of the problem of satisfying both the grower and the consumer has not yet been found. An advertising campaign by the Victorian Railway Department in the form of large placards posted on railroad depots and newspaper advertisements throughout the country advocating a large consumption of fruit, has not relieved the situation to any extent, nor have attempts to bring a direct connection between grower and consumer been more successful. "Over-production" is being freely discussed and restriction of output advocated.

At many conferences between government representatives and growers, it is being urged upon the government to refrain from encouraging the planting of fruit trees as a commercial undertaking, seeing that the present returns from many fruits realize less than the cost of production.

Markets Sought.
The commonwealth and states governments are making every effort to find new markets, particularly for the citrus and other fruits from the various soldier and other irrigation settlements established in recent years on the banks of the River Mur-

ray. As an illustration, a commission of three experts is on the way to the United Kingdom and the continent, at the joint expense of the Commonwealth and State governments, to investigate trading conditions there and to assist in marketing this season's pack of fresh, canned and dried fruits to the best advantage. The sum of £6,000 has been allocated for this purpose. It is probable that one or more of these experts will visit Canada on the return journey with the object of developing the market for raisins and currants in the Dominion.

Last year a trade in oranges was successfully initiated with Canada and New Zealand by the consignment of shipments which gave satisfactory returns to the growers, and next season those markets are to be further exploited on a larger scale in regard to both fresh and dried fruits. Every effort is also to be made to find profitable markets in China, Japan and the East generally through the medium of the Australian Trade Commissioners already established there.

Government Assistance.
Although it is understood that the Commonwealth government incurred a loss on the guaranteed price to the canned fruit pool of last season, a guarantee of 90 per cent. of the value of processed fruit sent into the voluntary pool formed to handle this season's pack has also been given.

The grading and packing is now proceeding under the strict supervision of an experienced and capable staff of government inspectors, and every effort is being made to raise the standard of the export pack to the highest possible level. It is the intention of the government to prevent any repetition of the adverse criticism to which much publicity was given in regard to the appearance and quality of the exported portion of last season's pack.

So far all efforts to obtain a reduction in freight rates to the United Kingdom have been unsuccessful, mainly, it is stated, owing to the high cost of operating vessels in Australian waters. Efforts also to obtain additional preference in the duties on Australian dried and canned fruit entering the United Kingdom have likewise failed in their object.

Correspondence.

To the Editor of The Review:
Dear Sir,—We notice in The Review of Feb. 22nd, an article on the use of Casein Spreader, it being stated that this has been responsible for the burning of foliage. We cannot understand this, as we used this spreader on all our trees in the three sprays for codling moth control last year and did not notice a single case of burning. The provincial horticulturist also has no complaints on this account. We have certainly found the value of spreaders both in the dormant and later sprays, and to further demonstrate that the casein spreader is coming into general use and is considered a safe and sane investment, we quote from a recent report of Prof. P. J. Parrott, of the New York Experiment Station:

"We have used a large amount of calcium caseinate and, as in the case of glue, soap, and other stickers, this material makes spraying mixtures spread better, apparently increasing to some extent their adhesive properties. It also helps to secure better suspension of spraying materials and checks to some extent undesirable chemical reactions such as occur between lime-sulphur and lead arsenate. It certainly makes lime-sulphur, arsenate of lead and other arsenicals spread better, and you will want to use it if it does not cost too much."

From this it will be seen that casein spreaders act as a safeguard against burning rather than as a danger. We are writing this letter to disabuse the mind of many of our growers who have approached us and Mr. Tait on the subject.

Yours very truly,
R. H. HELMER,
Superintendent.

EXPORTING STARCH FROM COAST PLANT

New Westminster.—Potato starch will be manufactured here shortly at the plant of the Pacific Starch Products. The plant is now practically completed and has about 2,000 tons of potatoes on hand with which to start operations. Orders are reported to have already been received by the new company for export shipments to Great Britain and New Zealand. The farmers throughout the Fraser Valley are large shareholders in the new company.

tion here with her brother and his wife, Rev. T. A. and Mrs. Sadler.

J. Stewart, who recently came in with his family and settled on the J. Brinson property, left on Tuesday morning on a trip back to Manitoba, his former home.

After-Eating Distress

and all forms of stomach trouble such as gas, pains, acid, sour burning stomach are all relieved in two minutes by taking Jo-To. Jo-To sold by all druggists.

LIFE WAS MISERY!

"I was reading the other day about Neurasthenia, about the large number of people who were troubled with this disease. It is just what my wife had. She felt miserable all the time and was constantly depressed. She would waken in the morning and tell me that something dreadful was going to happen that day. Life 'was nothing short of misery for her. She was so depressed that I expected she would lose her mind and have to go to a sanitarium and I kept wondering how I would get the money to pay for her. She could not eat and had no appetite for food. She was irritable and cranky most of the time. If she was crossed in any way, she would immediately work herself up into a violent temper. This worried me because she had always had a kind and gentle disposition and nothing which was said or done seemed to irritate her. I spoke to our family doctor about her and he said that her trouble was imagination and that if she would try and forget about her depression and look on the bright side of life she would be all right. Of course I didn't dare tell her this because I know she would get into one of her tempers. When she got over these fits of temper, she was always weak and ill and more depressed than ever. The doctor said a tonic might help her and gave me a prescription but this did not do her any good. She tried all kinds of other tonics with the same result. Carnol was recommended to me and I wish to state that it is the leader of all tonics. Since taking it my wife has changed completely. Now she is always ready for her meals and work is no burden. It is a pleasure for me to recommend Carnol to anyone who is in need of a tonic or a body builder. Excuse me for writing this letter but I want you to accept my thanks for that wonderful tonic known as Carnol." — Mr. J. M., Toronto.

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 7-022

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr. West, Trepanier, returned home last week, after having spent the winter out of town.

Mr. and Mrs. B. M. Whyte and young son left last week for their fruit ranch at Okanagan Centre, Mrs. Whyte and the boy having spent some months here with her parents, Mr. and Mrs. A. W. Miller.

Mrs. J. McLaughlin, Jr., spent two days last week with friends in Kelowna, returning home on Friday evening.

Considerable preparations are under way and practising is being done for the seventeenth of Old Ireland.

S. G. Michael, a former resident of Peachland, but late of Oliver and Vancouver, B.C., spent a day in town last week attending to some business and visiting relatives and friends. It is reported that he expects to return from Oliver to Vancouver.

H. Williams and son, Edward, George Topham, Tom Robins and Art White, spent Friday in Kelowna. On the return the latter stayed off at Westbank for a day.

Miss Craig, of the Central school staff, went south on the Friday evening boat and spent the week-end out of town.

The directors of the Peachland Fruit Growers' Union, have appointed Wm. Buchanan, Jr., to continue as manager of the Peachland Local. Public opinion seems to heartily endorse the appointment, which in addition to the fact of the re-appointment goes to show that the services rendered during the past season by the manager were commendable.

J. E. Kerr returned Saturday morning after a week with relatives in Penticton.

Owing to pressure of other duties W. Buchanan, Jr., scout master, has found it difficult to keep up the work with the scouts and the committee have made a temporary arrangement until the annual meeting next month. Mr. Crooks is acting as scout master in the meantime. He has had previous experience with the scout movement in the Old Land. President Wm. Sanderson is acting assistant scout master and A. E.

Henderson, secy-treas, is acting club leader. The boys are enthusiastic and keep up the attendance well.

Rev. H. A. Solly, of Summerland, motored up on Sunday to conduct his regular service in St. Margaret's church here.

Mr. and Mrs. W. Dryden left on Monday morning's boat to spend a couple of days in Vernon.

Some Peachland car owners have been holding off getting their licenses for 1923, expecting a government official to come in for the purpose of issuing same. This, it is said is not likely. It is rumored that some of the officials are likely to drop in any day to see if there are any stragglers on the road without the 1923 sign.

Road Supt. S. Elliott, of Kelowna, paid an official visit to Peachland early this week.

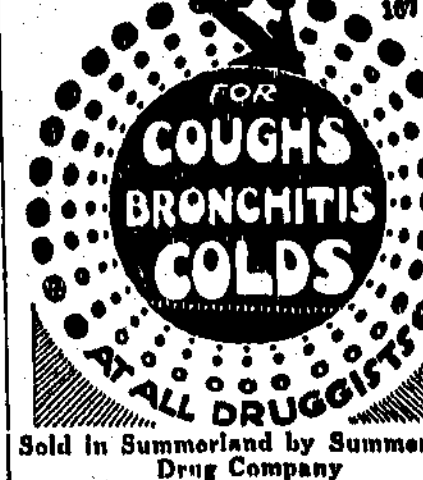

Dr. and Mrs. R. C. Lipset, of Summerland, were in Peachland on Monday, the doctor having been called to attend a sick horse owned by W. Moore.

The familiar form and countenance of Mah Wing is again in evidence in Peachland. Mah spent most of the winter at Westbank.

Miss Sadler left Tuesday morning to return to Montreal after several months spent in the west, part of the time at the Coast and the latter por-

BUCKLEY'S BRONCHITIS MIXTURE

RESULTS GUARANTEED FIRST DOSE BRINGS RELIEF

Sold in Summerland by Summerland Drug Company

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home-sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1910, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Constipation's Remedy must come from nature. Colery King is a mixture of medicinal herbs and roots that ride the system of impurities in a gentle, natural way. An old and well tried remedy—80c and 60c packages.

A Salesman's Cough Irritates his customers—and makes him inefficient and miserable. Shiloh is the ideal remedy—it is not a bulky cough mixture but a special formula proven successful for many years. A few drops brings immediate relief. 30c, 60c and \$1.20. All druggists.

SHILOH FOR COUGHS

The Banks and Co-operating Farmers

By Otto H. Kahn, Prominent Business Man of New York.

The following significant article by Otto H. Kahn, a prominent business man of New York, appears in the Bankers' Monthly. It is an interesting and almost novel treatment of a theme of great interest to our readers.

"I consider that the results which the farmers are seeking to attain by the organization and operation of business institutions known as co-operative marketing associations, are results that should be attained. Their objects are legitimate objects. Their methods of building up these institutions are legitimate business methods. The basis of their operations is economically and financially sound. While I believe in competition and am opposed to monopoly or monopolistic tendencies and practices, I am inclined to think that we have gone too far, notably in the Clayton Act, passed in 1914, in attempting to enforce competition under all circumstances and to prevent natural and legitimate co-operation, or, at least, have gone at the thing in a clumsy way, leading to results sometimes unfair to business and detrimental to the community. It is notable and significant that not a single one among the other leading nations of the world have followed our example in respect of that policy. But whatever one's views on the general subject, it seems manifest that millions of individual farmers should not be compelled to act as millions of individual sellers in the disposal of their products, especially in view of the fact that, owing to their principal dependence upon the forces of nature, the farmers are not in a position to regulate the supply in accordance with the demand, as is the case, more or less, in most other industries.

Better Distributing System. "Any movement that aims to create, by sound business methods, a better distributing system, and thereby bring about a better financial and economic condition of the farmers, who, with their families and those engaged in ministering to the wants of rural communities, comprise about half the population, should naturally prove of benefit to the entire population. Its effects should be seen in larger and better-adjusted buying power for the agricultural half of the community. This necessarily will translate itself into an enhanced demand for the products and services of the other half.

Greater Prosperity. "It will translate itself for the manufacturer and jobber in larger market, which again means more abundant employment for the working man. For the banker and merchant in the rural communities, it will translate itself in having more money spent in those communities. To the people as a whole it will translate itself in a more prosperous and more contented farming class. "Speaking as a banker, I do not hesitate to say that I think bankers should encourage and aid this movement. That means, in the first instance, that country bankers should make loans with due dates suitable to the methods and needs of the co-operative associations and that the banks in the cities should carry such paper for their country correspondents for adequate periods. The practice of making farm papers all come due with the maturity of the crop is open to the objection that it creates selling pressure regardless of the demand, a condition advantageous to the least desirable type of buyer, but disadvantageous otherwise, both economically and socially. "From the standpoint of the relations of the banks with the co-operative organizations themselves, it would appear that their methods of doing business fit in with approved and sound banking methods. "The farmer's calling, always a hard and hazardous and usually a poorly-rewarded one, indeed one of the least adequately remunerated among the activities which make up the sum total of the nation's work, is of course, absolutely basic and vital. The farming business is the largest in the country. The direct farming population constitutes considerably more than one-third of the country's total. The farming stock provides a continuous and essential supply of human raw material toward the preservation of the vigor and distinctive characteristics of the American race. "With wages continuing on a high level, and in some cases, such as the coal miners, wholly undeflated from the peak reached during the war conditions, with the supply of labor greatly restricted through the operations of the Immigration Act, with the cost of everything he buys much above the level of pre-war days, the farmer finds that the dollar price of that which he produces and sells is no higher than it was before the war; and that the dollars which he receives in return for his toil have materially diminished purchasing power as compared to what it was formerly."

PUBLIC SCHOOL CLASS LEADERS

Monthly Report From the Several Divisions of the Central School.

Below is the report of examination results for February in the Central School:

Div. I, Entrance Class, S. A. MacDonald. (Half the class in order of merit) —Doris Jackson, John Plant, Ernest Doherty, Helen Sutherland and Kenneth Nicholson, Margaret Theokston, George Denike, James Smith, Winnie Cunliffe, Jack Purves, Stella Wilson, Lester Arkell, Alannah Sutherland, Ivy McKay, Harold White.

Div. II, Junior Fourth, A. G. Smith. Class Leaders—Mary Simpson, Jim Purves, Iris Williams, Jack Bowring and Annie Williams.

Perfect Attendance—Ralph Blowett, Jack Bowring, Carolyn Clark, Edgar Walker, Fred Dunsdon, Loretta Ingalls, Arthur Joy, Arnod Koch, Mildred Laidlaw, Mary Munn, Iris Williams, Elva Prie, Percy Rand, Jim Reid, Frances Rutherford, Gertrude Shields, Edward Smith, George Smith.

Div. III, Senior Third, Bertha T. Ball. Class Leaders—Evide Koch, Eileen Tomlin, Gordon Nixon, Norah Clements.

Regular Attendance—Norah Clements, Ethel Doniko, Albert Doherty, Mary Fisher, Mary Hack, Edith Monro, Allan McKenzie, Gordon Nixon, Alex. Smith, Joan Steven, Eric Tall, Stanley Taylor, Eileen Tomlin, Frances McKay, Jack Naylor.

Div. IV, Junior Third, Miss J. Nicholson. Class Standing—Isabel Zimmermann, Veronica Solly, Gladys Darke, Marnye Steinbeck.

Attendance—Sadie Cunliffe, Walter Cunliffe, Gladys Darke, Horbie Page, Myrtle Page, Veronica Solly, Marnye Steinbeck, Wesley Tavendor, Lona Williams, Lois Zimmermann, Marlene Blagioni, Emily Mountford, Coel Clarke.

Div. V, Miss M. Harwood. Senior III... Proficiency—Laura Smith, Mary Betuzzi, Alastair McGown. Junior III. Proficiency—Jean Fisher, James May, Donald McLachlan.

Attendance—Gene Botuzzi, Jean Fisher, Alastair McGown, Laura Smith, Paddy Woods, Jessie Tullett, John Betuzzi, Agnes Fisher, Robert Scourrah. Div. VI, Senior II, A. Ruth Dale. Regularity and Punctuality—Adorne Blagioni, James Clark, Winnie Gray, Katherine Ramsay, Ronald Taylor, Margaret Steinbeck.

Div. VII, K. M. Elliott. Punctuality and Regularity—Daniela Cavani, Gertrude Clark, George Dunsdon, Dorcen Howls, Harvey Mitchell, Bobby McCutcheon, Marianne Orr, Donald Tait, Walter Taylor. Proficiency, Junior Second—Dorothy Bowring, Edna Baker, Margaret Tavendor. Proficiency, First Reader—Ronald MacKay, Marianne Orr, Walter Taylor.

Are You in Need of a Truck? We have been appointed dealers in this district for Ruggles, Day-Elder and Traffic Trucks and can supply you with the one most adapted to your particular needs. Let us talk it over with you. If you already have a truck, is it in good running order? Perhaps with a little repair work we could save you big expense later on. Let us "look it over." Nesbitt & Forster's Garage and Filling Station

Farmers' Meat Shop Everyone is talking co-operation. We practice the real thing by selling direct to the consumer the local products of the community at prices and quality that cannot be beaten. PHONE ORDERS TO 542 OR BETTER STILL, CALL IN AND GIVE US A TRIAL ORDER.

NARAMATA CONNECTION The putting in of a new cable is under consideration by the Board of Directors. If the work can be financed they will be glad to go ahead. Final decision is deferred for a month, when the matter will again be considered. In the meantime any ideas or suggestions leading to a solution will be received with pleasure by the Board.

NOTICE

SUMMERLAND AND NARAMATA GROWERS

All orchard and apple boxes the property of the Summerland Fruit Union must be delivered to the warehouse of the Union not later than March 31st.

Retention of same after that date will make grower liable to prosecution.

Orchard boxes marked with grower's name are in most cases now the property of the Union, payment having been made at Union, paying having been made at or before March, 1922, by the Union either in cash or by crediting grower's account.

MATT. G. WILSON, Liquidator for Summerland Fruit Union.

Leaf Roller and Blister Mite

How to Determine Whether or Not to Use Miscible Oil Sprays.

Considerable confusion exists in the minds of many growers in reference to the recommended control sprays for the leaf roller and the blister mite on apples, and a little information in this direction would probably clear the situation at this time.

Leaf roller, it might be stated, was first discovered to be present in the orchards through the Okanagan Valley during the season of 1922. In certain sections it is established to such an extent that its depredations are greatly to be feared.

Miscible oils, according to present advice, are going to be high in price and every orchardist whose fruit suffered from leaf roller injury should consider whether the extent of the injury is sufficiently severe to warrant his expending such a sum as might be involved for the purchase of miscible oil for the control of this pest in his orchard.

For blister mite on apples, which is a pest of major importance in this district, lime-sulphur is the best known remedy. However, laboratory tests being conducted in connection with the effectiveness of miscible oils for blister mite point to the fact that in the very near future, splendid control of blister mite can be expected from the use of miscible oil as a dormant spray.

Under what circumstances, therefore, should miscible oil be used? The following recommendations may be of assistance to many in solving this problem in their own minds. If leaf roller is present in sufficient quantity to warrant its being specifically sprayed for, then miscible oils are advocated at a strength of 6 1/2 per cent. applied previous to the bursting of the buds.

The degree of infestation of leaf roller can be judged most readily by the grower himself. Leaf roller injury is identified by the appearance of russeted scars on the mature fruit. These russeted scars may or may not accompany a distorted appearance of the fruit at picking time.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

Ed. Smothers left here on Wednesday for Spokane, Wash.

Alan Cross went out on Monday's train for the Coast. His father is remaining here for a time.

The Misses Jean McA. Curry and Kathleen B. Harvey, of Grand Pre, N.S., are guests of Mrs. G. J. Coulter White.

Mr. John Blayne, and daughter, Margaret, left here by Monday's boat to return to their home in St. Anthony, Iowa.

The boys of the Y. R. of the Baptist Sunday school entertained the members of the Junior C. G. I. T. of the same church last Friday evening.

Rev. W. A. Alexander is attending the annual meeting of the Synod of B. C. being held in Vancouver this week. He left here on the train Monday noon, expecting to return Saturday morning.

Last night, at Princeton, W. C. Kelley gave his popular lecture on "Jean Valjean," under the auspices of the Ladies' Auxiliary of the Princeton hospital, the entire proceeds going to hospital funds.

Harlan P. Davison, who spent several years in Summerland and now is editor of The Acadian, of Wolfville, N.S., was married on Valentine's Day, at Dorchester, Mass., to a Miss Lamb.

As representative for British Columbia, W. C. Kelley has recently been appointed a director of Brandon college. This institution is under the direct control of the Baptists of Western Canada.

B. R. Isley, V.S., of Armstrong, inspector of dairy herds for the interior of B. C., was a visitor to Summerland on Thursday of last week and again on Monday, when he tested a number of cows for tuberculosis. No traces of the disease were found. He visited about twenty barns.

The West Summerland Meat Market is now under the management of Mr. Niels, formerly of Calgary, a man of wide experience in the meat business. Under his able management and careful attention they hope by giving the public expert service, to not only retain their old customers, but gain many new ones. See their advt. in this issue.

Three games of basketball are scheduled to be played in the College Gymnasium tonight, between Kelowna and Summerland teams. The Kelowna men's team will meet the Summerland seniors for the first time this year, and are looking forward to an exciting game.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

Table with columns: Date, Max., Min., Rain, Snow, S.S. Rows for Feb. 28-45, Mar. 1-48, 2-38, 3-36, 4-33, 5-41, 6-44.

oil is now being purchased by the various co-operative units through the Valley, and particulars as to the price, etc., may be ascertained from these houses. It will be best for all to decide in their own minds at once whether or not it is necessary to use this oil and place all requisitions immediately, in order that sufficient supply may be secured.

Summing up the situation the following points should be borne in mind:

1st—Determine whether or not your degree of injury from leaf roller is serious enough to warrant its being controlled. This can be ascertained from the amount of loss each grower individually suffered from its depredations.

2nd—If blister mite is present as well as leaf roller and it is necessary to spray for leaf roller, rely upon the miscible oil to control the blister mite.

3rd—If blister mite is present but leaf roller is not seriously affecting the grade of fruit, do not spray with miscible oil specifically for blister mite, rather use lime-sulphur, strength 1 to 1, applied before the buds have swelled to any extent.

The officials of the department of agriculture will be pleased to assist any grower in determining his problem in connection with leaf roller and blister mite.

Jf Tait went up to Kelowna this morning.

A. J. Beer challenges the mail order prices on footwear in his advertisement in another column of this paper.

Mr. and Mrs. Feltham sailed from Bristol last Saturday. They will stop off at Toronto for a few days on their way home.

Frank Agono was fined \$5 and costs by Police Magistrate Hutton, on Monday for operating a motor car without a license.

It will pay you to attend the meeting on Saturday. The price of admission is one signed contract. Can you afford to stay away?

Police Magistrate Hutton held court in Naramata for the first time on Saturday, when four or five suits for debt were heard.

Joseph Whitman, of Newfoundland, who has been spending the winter with his brother at Kaleden, is visiting for a few days at the home of A. G. Munn.

Mr. Chappel, who has been for some time a guest of Mr. and Mrs. E. Kercher, left by Tuesday morning's boat for Port Elgin, Ont. He was accompanied as far as Seacombe by Mr. Kercher.

A carload of cedar poles for electric light purposes, was ordered jointly by Summerland and Penticton. The car arrived here this week and after Summerland's share had been unloaded, the balance was sent on to Penticton.

Survey work is now being done on the western end of the proposed route of the trans-provincial highway between Hope and Princeton. The survey work on the Princeton end, in charge of H. C. Whittaker, provincial government engineer, was finished a few days ago.

J. W. Jones, M. L. A., spoke before a meeting of the members of the local Liberal-Conservative association on Monday night, when he reviewed the legislation of the past session. Mr. Jones came down from the Orchard City Monday evening for that purpose and returned by stage Tuesday afternoon.

Fire, which broke out at noon today at the home of the Misses Spencer, caused considerable excitement for a time. The fire, which started in the roof of the house had evidently been caused by a burning chimney. The alarm was sent in and a crowd quickly gathered, and with the help of a voluntary bucket brigade the flames were soon extinguished. The extent of the damage will probably not exceed \$200.

CONTRIBUTIONS TO GROWERS' FUND

Table with columns: Name, Amount. Rows for Phillipon (1.00), Z. L. Fash (1.00), Total (\$184.59).

A lot of people who claim to be in partnership with God act as if they owned the entire business.

Coming Events

Notices under this heading are inserted at 3 cents a word. Each repeat, 2 cents a word; minimum charge, 50 cents. Contract rates on application.

The Summerland Women's Institute will meet Friday, March 16th, in the Ladies' Parlor of the Methodist church. Speaker, Mrs. Lipsett. 787C

PROGRAM FOR VALLEY

(Continued from Page 1)

programs, printing and advertising. Messrs. Fulton, of Vernon, Kennedy of Armstrong, and Keatley, of Enderby, are in charge of officials and prizes, while a local committee representing the Kelowna schools is attending to the arrangements in connection with the grounds, etc.

The rules governing the meet are not materially altered except that the age limit for the junior and intermediate events have been raised one year, making them now under 13 and under 16 respectively.

A list of events follows:

- Boys under 13, 75-yard dash. Girls under 13, 75-yard dash. Boys under 16, 100-yard dash, broad jump, relay race, 4 to team, 100 yards each, hurdle race, high jump, half mile.

Open High School Events.

- Boys—100-yard dash; 220-yard dash; 440 yards; hurdle race, standard hurdles; relay race, 4 to team, 220 yards each; broad jump; high jump; pole vault; one mile. Girls—100-yard dash; high jump; relay race, 4 to team, 100 yards each; 220 yards.

A new track has been laid out in the Kelowna athletic park, which will be graded and cindered in time for the meet. The track is a fifth of a mile with good curves and should add greatly to the success of the competition. It is proposed this year to take the time on all races and keep permanent records for each event.

The domestic science department, under Miss Juniper, instructress, served a hot lunch to the delegates, which was apparently much appreciated and Mr. C. D. Smith, of Penticton, thanked the teacher and girls for the splendid repast and expressed the appreciation of the visitors.

Matt. G. Wilson is Appointed Liquidator

(Continued from Page 1)

very heavy, and there were also many claims on Wagener's. Twenty-five cents had been advanced to growers on No. 1 Jonathans and 14 cents on No. 2's. He feared growers would be asked to return this money. Other shipping concerns are having the same experience, and Mr. Wilson mentioned a Penticton grower who had shipped through an independent house and had been advanced \$500 on 2,000 boxes of Jonathans, which he had since been asked to return and, in addition, had been billed for more than \$200 besides.

The motion that the Union go into liquidation was moved and seconded by two members of the board of directors, W. S. Young and G. Thornber, and by a showing of hands, the meeting was unanimously in favor of it. The secretary required a vote on the question, by those members only, who held paid-up shares, with the same result.

Members were anxious to know what they might expect to get from

five-year reserve notes, issued by the O. U. G. and Mr. Wilson replied that the value of these notes depended on the result of the sales of the assets of the O. U. G., chief of which was the by-products plant and the O.K. brand. This latter had cost the growers \$85,000 to establish and an effort was being made to get a satisfactory price from the new organization. Dealers on the prairies had declared that the O.K. brand was the one asset in the Western Canada fruit industry.

Mr. Wilson stated further, that the provincial government had agreed to waive its lien on Union shares and would consider its loan toward the working capital as an ordinary claim against the assets.

In reply to a question by C. N. Higgin, Mr. Wilson stated that the O. U. G. had been met by the provisional directors of the Co-operative and had been assured that they will take over the assets at a fair valuation. G. J. C. White, one of the provisional directors, explained that the new co-operative was not prepared to go into any sidelines, and for that reason was not prepared to take over the by-products plant. Experience had shown that it is better to operate these as separate companies. With respect to the O.K. brand, enquiries are now being made to learn what value this has. A fair deal for everyone, was the spirit of the new organization.

The shareholders were informed that the liquidator could not deduct the 5 per cent. from fruit returns which had been voted for capital purposes.

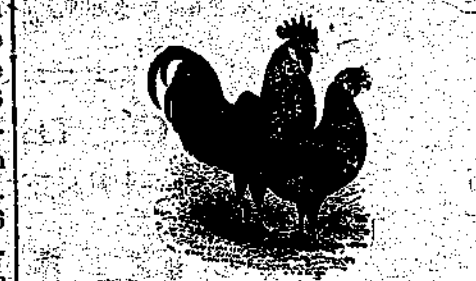

Mr. Dudley Dawson, Vancouver, representing the Dominion Bank in this province, addressed the shareholders briefly, stating that in 1921 the Union owed that bank \$150,000. Early in 1922, after negotiations and following a visit of Messrs. Wilson and Simpson to Winnipeg, the bank decided to advance another \$150,000 in the hope of improving its position. The bank's position had been improved somewhat.

Strongly endorsing the new co-operative scheme, Mr. Dawson assured his hearers that there would be no difficulty in obtaining the \$250,000 or \$350,000 necessary to finance the movement.

He believed Mr. Wilson would be the best man for liquidator.

Pointing out that his institution stood to lose possibly \$30,000 or \$40,000 through loans made to the Union, he asked that his bank be favored with the business of the new local.

The motion that Mr. Wilson be appointed liquidator was carried unanimously.

BUSINESS PRESCRIPTIONS

"Don't assume that goods will sell themselves all through 1923—Advertisement."—B. C. Forbes.

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 15, No. 33, Whole No. 778.

SUMMERLAND, B. C., THURSDAY, MARCH 15, 1923.

\$2.50, Payable in Advance

"SUMMERLAND CO-OPERATIVE GROWERS" IS SUCCESSFULLY LAUNCHED—DIRECTORS NAMED

Application for Incorporation Goes to Victoria—Basil Steuart Will Represent District on Central Board—G. I. Gray is President of Local—New Organization Has More than 80 Per Cent. of Tonnage of District.

Based on last year's output, the local organization committee, before being discharged on Saturday, had signed up for the Co-operative Growers of B. C., Limited, a fraction over 80 per cent. of the tonnage of Summerland. Of the apples, between 81 and 82 per cent. is covered by the five-year contract.

At a largely attended meeting of Summerland members of the Co-operative Growers of British Columbia, Limited, held in Empire Hall on Saturday afternoon, preliminary steps were taken for the formation of a local, which will transact the local business, such as assembling, grading, packing and shipping fruit under the instructions and supervision of the parent concern.

The name of the new local is "Summerland Co-operative Growers," this name being unanimously adopted by the meeting.

The principal business of the afternoon was the election of five provisional directors for the local and one director for the current year of the central organization. Two citizens were nominated for this latter position, B. Steuart and G. J. C. White, the former being elected by a large majority of votes.

The meeting adopted the recommendation of the organization committee that the local director on the central be ex-officio a member of the local board.

Thirteen names were proposed for the five seats on the local directorate. The selection was made by a process of elimination, five ballots being taken. The three receiving the fewest votes were dropped after the first ballot, two after the second and one after each of the others, resulting in the election of T. Croil, G. I. Gray, F. J. Nixon, A. C. Turner and G. J. C. White. Other candidates were H. Bristow, J. R. Campbell, G. S. Drewett, Major Hutton, J. Shepherd, Major Tweedy, Capt. Webb and M. G. Wilson.

Only growers who had signed the contract were admitted, but no motion of G. J. C. White, Superintendent Helmer of the Experimental Farm and relatives of contractors were given the courtesy of the floor and occupied seats at the rear of the

MUTUAL FRUIT COMPANY WILL AGAIN OPERATE

Failure to Get Exclusive Brokerage for Prairies, Alleged Reason.

C. S. Bross, manager here last season for the Mutual Fruit Co., returned on Monday from Vernon and is making preparations for operation during the coming season.

Last year, the Mutual Co. operated also at Vernon and Armstrong and it is understood that they will run all three packing houses again this year.

This concern, affiliated with the group of wholesale houses known as the Nash houses, offered conditionally to withdraw from the Valley, one of the requirements, it is stated, being that the Mutual Brokerage Co. be paid a brokerage on all fruit shipped from this province by the Co-operative to the prairie provinces.

The recently re-organized Growers' Sales Agency, now controlled by the independent houses on the prairies, has also been seeking an exclusive brokerage connection with the Co-operative. The provisional directors have not seen fit to meet the wishes of either and presumably because of this, the Mutual have decided to remain in the field.

room, simplifying the business of voting.

W. C. Kelley occupied the chair. R. V. Agur, chairman of the organization committee, was called upon, and stated that he considered no report necessary, as the meeting was not concerned as to how the committee had succeeded in getting the required tonnage signed up, but rather in the fact that it had been done. Tonnage contracted for, was slightly over 80 per cent, and he asked that his committee be formally released from their duties.

On motion of G. Thornber, a hearty vote of thanks was extended the organization committee and also to Messrs. White and Croil and others who helped to bring the re-organization work to a happy conclusion.

The question of share capital was introduced by the chairman and was discussed at some length, G. J. C. White, E. R. Simpson and M. G. Wilson.

(Continued on Page 6)

ANOTHER WIN FOR H. SCHOOL

Defeat Penticton Seniors in Exciting Game Played Here Tuesday.

Two games of basketball were played in the College Gymnasium on Tuesday night, one between Summerland High School and Penticton seniors, the other between Summerland Intermediate Scouts and a town team.

In the first game the scouts had the advantage in speed though much outclassed in reach. The resulting score was 14-4 in favor of the scouts.

The match between the Penticton Seniors and local high school boys resulted in another victory for our team, and was one of the most exciting games played here this season.

The Penticton team had the advantage in weight, but did not show the smooth team work of the high school boys. Bob Phinney, for the Penticton team, did some fast play, making the larger percentage of the goals. Warren Gayton was in good form, while G. Blewett showed up to good advantage in the second half.

Though close checking on the part of his opponent gave I. Harris little opportunity for scoring, nevertheless, he did some good work for his team. At half time the score stood 17-10 in favor of Penticton, but the final score showed Summerland in the lead with a score of 20-22.

WANTS IRRIGATION DOWN SAND HILL

F. R. Gartrell applied to the council on Friday for an extension of the irrigation service on the bench to a lot at the foot of the sand hill, where it is understood he intends to grow tomato plants, for which, because of its sheltered location, it is ideally situated.

Mr. Gartrell stated that a small flume about 800 feet down the side hill would suffice and believed this could be connected with a private flume at the north end of the Sutherland lot. The cost would be little and he offered to do the labor, under municipal supervision.

D. L. Sutherland accompanied him and made a conditional proposal to the council, to the effect that they might serve the Gartrell property through his flume, provided the municipality repaired the flume along the west side of the Sutherland property and also put in measuring boxes along the ditch, so that he, at that end, could get a more uniform service.

The matter was referred to a committee.

OBJECT TO TAX ON FARM DOGS

"We cannot be law breakers because they are," was the way in which one of the councillors stated the position of the municipal council with respect to delinquent dog taxes. Nineteen twenty-three dog taxes were payable on January 2nd, the fee at that date being \$2, to which a 40-cent penalty has since been added.

Discussion of this subject was brought up at Friday's council meeting by a report from the collector that several owners, practically all of them in Garnett Valley, were protesting against paying the tax on the ground that the animals were kept on the farms and never came to town.

Reference to the by-law showed that no exceptions could be made but all owners of dogs within the municipality were subject to the tax. The collector was accordingly instructed to enforce payment.

It was stated that already some who have paid were protesting against being charged this tax while others were not paying.

FEE QUESTION NOW SHELVED

Considered Closed by Trustees—Going to Forest for Fuel Supply.

That "the incident is closed," was the attitude of the school board at the last regular meeting, when a letter from J. W. Harris, together with a copy of the resolution on the question of high school fees as adopted at the meeting of parents, was read. The correspondence was ordered to be filed.

The board has obtained a free permit from the province to cut fuel wood in Three Lake Valley and arrangements have been made for the cutting. The board expects to effect quite a saving in the fuel bill in this manner.

The Parent-Teachers' Association was granted the use of a room in the school building for its monthly meetings, on condition that the association pay for the services of the janitor.

At the request of Principal Lundie, members of the high school basketball team were granted leave of absence on Wednesday and Thursday, March 28th and 29th, to enable the team to go to the Coast.

Accounts for salaries, conveyances and other expenses, totalling \$8,511.96, for February, were approved for payment and in addition night school accounts to the amount of \$210.55.

At the request of the guardians, high school fees for the current term were remitted to two pupils.

CONCRETE TO REPLACE WOOD

Henceforth concrete blocks will be used for anchors for electric light poles. This decision was made by the municipal council on Friday on recommendation of T. P. Thornber, municipal electrician, who stated that it was not long before the wooden stubs rotted sufficiently to permit the guy wires to slacken. By making these concrete blocks, a number at a time, it is believed that there will be little difference in the cost.

Co-operative Now Ready for Organizer

Organization of the Co-operative Growers of B. C., Ltd., is being hastened by the provisional directors now in session at Vernon. Progress made to date and plans for the future are covered in the following statement, obtained over the telephone by The Review last night:

Plans for organization are being pushed to completion. The stage has been reached when it becomes necessary to place the carrying out of executive details in the hands of one man and it is expected that this appointment will be announced in the course of next week.

This organizer will be charged with completing and carrying into effect the general scheme of organization as worked out by the organizing committee and, with their approval, he will select the necessary

MAY DEPRIVE DELINQUENTS OF IRRIGATION

Ten Thousand Dollars Due Municipality for Rates for 1922 and Prior.

REPAIRS DEPENDS UPON COLLECTIONS

Domestic Service to Be Cut Off at End of Second Quarter.

Failure on the part of quite a number of fruit growers to pay their irrigation rates is putting the municipal council in an awkward position. About \$10,000 in irrigation rates is being carried on the books of the municipality and this money must either be collected or very little repair or maintenance work can be done on the system this year.

This information came to light at the regular meeting of the council last Friday afternoon. Unlike taxes the municipality is not in a position to borrow in anticipation of current year's collections and the 1923 rates are not payable until May 1st. The program of repairs to the system must either be suspended, or greatly altered, unless the delinquent rates are collected.

The most of these arrears are represented by unpaid 1922 rates, but there are a number carried over from 1921 and even a few from 1920.

It was the opinion of the board that not to make the needed repairs would be unfair to those who have paid their rates and the finance committee was instructed to take steps to collect these arrears. It is proposed to refuse the service to those, at least, who are more than one year behind in their rates.

A report submitted by the collector showed that there was also a good deal of carelessness with respect to the payment of domestic water rates and by the end of March there will be a number who will owe for three quarters. The collector was instructed to advise ratepayers that the service to those in arrears would be discontinued at the end of the second quarter and special attention is to be given to those accounts further in arrears.

TELEPHONE CO. HAS ANOTHER GOOD YEAR

Shareholders in Annual Meeting Declare Dividend—More Capital Needed.

Shareholders of the Summerland Telephone Co., Limited, in annual meeting last Thursday afternoon, declared a dividend of 6 per cent. on paid-up capital.

Copies of the financial statement, covering assets and liabilities and expenses and earnings for the year Dec. 31st. last, together with auditor's and directors' reports, had been mailed to the shareholders. The fact that there were very few at the meeting was taken as an indication

(Continued on Page 6)

PLAN TO OPERATE SHINGLE CREEK MILL

Plans are now under way for starting operation of the mill at Shingle Creek, formerly owned and operated by local Japanese. Recently, T. B. Young bought out the interest of Dr. F. W. Andrew, who, through foreclosure, was virtually the owner of the equipment.

Mr. Young is going to the Coast on Friday to get some parts and equipment and hopes to have the mill running by the 1st of April. J. C. Freeman and Bert Bryant are going in with Mr. Young on this venture and Ira Clarke, of Garnett Valley, has been engaged as sawyer. It is stated that the entire cut of the mill will be taken by the Summerland Lumber Co., to be manufactured into box material.

The mill is located on the Shingle Creek road, about eight miles out of town. There is a considerable stand of timber in the vicinity both on pre-emptions and on the Indian reserve and negotiations are progressing favorably for a supply of logs from the latter.

SAYS PROJECT TOO EXPENSIVE

Gen. A. D. McRae Has Something to Say About Southern Development.

The Southern Okanagan project came in for some criticism on the score of expense, when Gen. A. D. McRae, provincial party leader, spoke recently at the Coast.

He reviewed some of the provincial undertakings, particularly the irrigation scheme in the Southern Okanagan and the reclamation of Sumas Lake, declaring that in both instances the work was too costly. He estimated the amount of the initial estimate, a fact which he attributed largely to the cost plus system, which gave to the contractor more money the longer he worked on the job.

The same system, he was informed, was to apply in the construction of the university at Point Grey. Notwithstanding the many contractors who would be only too pleased to figure on such a government job, and notwithstanding the erection of the university had been delayed so long from lack of money, they found that the contract had been landed by a well-known government supporter on the cost plus system. The only result they need expect would be that the construction of the university would develop along the same expensive lines as the Southern Okanagan and Sumas schemes.

DEPARTMENT ISSUES NEW SPRAY CALENDAR

Fruit growers will be interested to learn that the 1923 spray calendar has just been issued by the Horticultural Branch of the Department of Agriculture. This calendar is somewhat more extensive in its scope than the 1922 edition and contains information not only for the control of tree fruit pests but has in addition control measures for insects and diseases attacking small fruits, as well as measures for rodent control. This calendar will be forwarded free of charge by the department to any of our readers who desire it.

DEMANDS OF B. C. FRUIT PRODUCERS TAKEN TO OTTAWA BY B. C. F. G. A. COMMITTEE

Lionel E. Taylor and Thos. Bulman, Before Agricultural Committee Urge Necessity of Protection Against Dumping—Taylor Declares Growers Would be Satisfied With Average Profit of Five to Ten Cents Box.

Ottawa.—Lionel E. Taylor, of the British Columbia Fruitgrowers' Association, told the special committee on agricultural conditions of the situation in the last two years which made imperative some new marketing plan on the part of producers in the Okanagan Valley and outlined the steps taken in forming the new co-operative scheme which will do business this year.

Mr. Taylor said that in 1921 the growers experienced a poor market as regards price and things looked serious indeed. Much of the trouble, he said, was attributed to shipping on the consignment plan. The year previous, too, the shippers had sustained heavy losses. As a result of these difficulties a committee of growers was named to watch the marketing last year and to learn if the growers were getting a fair deal from the shippers. In September, Mr. Taylor, with others, visited the prairies. The banks by this time had become perturbed, and were urging that something be done to correct conditions. Mr. Taylor's party visited Calgary, Saskatoon, Edmonton and Winnipeg and much of the intervening country. They found that not only the growers, but the wholesalers and retailers, were losing money handling British Columbia fruit.

A. R. McMaster (the chairman)—To what extent was the consumer getting the benefit of the low prices? Mr. Taylor—He was getting fruit at a price undreamed of. This applied to apples, pears, peaches and pears. Pears were selling on the prairies at 50 cents a crate and in the Valley at 75 cents, when they should have been selling at \$1.10.

After this investigation, said Mr. Taylor, he and those who had accompanied him on the investigation met the growers and urged that the first step was to do away with internal competition and have their marketing under a central control. A splendid response came from the business men of Vancouver, who got behind the scheme and announced that they would guarantee to sell \$500,000 of bonds to assist us in forming the co-operative organization.

H. SCHOOL BOYS BEAT KELOWNA

Local Girls Lose in Overtime—Seniors Also Defeated by Visitors.

Three snappy games of basketball were played in the College Gym on Thursday night between Kelowna and Summerland teams, Kelowna coming out victorious in two out of the three, with Summerland leading in the intermediate game.

The game between the senior ladies' teams held keen interest throughout, the teams being well matched and both displaying fairly good combination. At half time the score stood 6 to 2 in favor of Kelowna, but in the second half, the Summerland girls pulled up until, when the whistle blew, the game was a draw, with a score of 6-6, and another five minutes was given, in which to play off the tie, with the resulting score of 10 to 6 in favor of Kelowna. C. H. Simey refereed.

The second game, that between Summerland High School boys and Kelowna intermediates, without doubt showed the best play of the evening, the Summerland boys again getting in some good combination work, with Jimmy Smith doing some splendid shooting. Our boys show the result of their steady practice and came out victors with a score of 27 to 15. Goo. Guy acted as referee.

The final game, between Summerland and Kelowna seniors was a fast game, but lacked the clean combination witnessed in the previous game. The play throughout was rough, the visiting team showing much better team play than the local boys, Turk Lewis and C. McLeod, Kelowna, putting in some nice shots. Our boys did not seem to be up to their usual form and, though they worked hard, had difficulty in finding the basket. The final score stood 23-13 in favor of Kelowna.

The line-up for the three games was as follows: Kelowna Girls—J. Kincaid and D. Jones, forward; Mrs. Wilson, centre; M. Moffat and B. DeHart, guard; A. Brown, spare. Summerland—B. Bristow and E. Shields, forward; J. Harris, centre; N. Thompson and O. Bristow, guard.

Kelowna Intermediates—C. Rowcliffe and D. Kerr, forward; Barton, centre; J. Calder and D. Parkinson, guard; C. Raikes, spare. S. High School—I. Harris and J. Smith, forward; W. Gayton, centre; K. Walden and G. Blewett, guard.

Seniors, Kelowna—C. McLeod and T. Lewis, forward; J. Parkinson, centre; J. Gayton and B. Seath, guard. Summerland—I. Harris and I. Adams, forward; W. Gayton, centre; G. Guy and I. Adams, guard, with G.

ing that something be done to correct conditions. Mr. Taylor's party visited Calgary, Saskatoon, Edmonton and Winnipeg and much of the intervening country. They found that not only the growers, but the wholesalers and retailers, were losing money handling British Columbia fruit.

A. R. McMaster (the chairman)—To what extent was the consumer getting the benefit of the low prices? Mr. Taylor—He was getting fruit at a price undreamed of. This applied to apples, pears, peaches and pears. Pears were selling on the prairies at 50 cents a crate and in the Valley at 75 cents, when they should have been selling at \$1.10.

After this investigation, said Mr. Taylor, he and those who had accompanied him on the investigation met the growers and urged that the first step was to do away with internal competition and have their marketing under a central control. A splendid response came from the business men of Vancouver, who got behind the scheme and announced that they would guarantee to sell \$500,000 of bonds to assist us in forming the co-operative organization.

Production Costs. Mr. McMaster—Did they implement that undertaking? Mr. Taylor answered that they did. He explained the organization and said they had a five-year contract with each grower, who guaranteed to sell at least 85 per cent. of his production to the organization, and it was all done voluntarily on the part of the growers. It was pointed out that there was too big a spread between the price paid the producer and that paid by the consumer, so it was decided that the price fixed should be to the consumer. This was determined by cost of production and a fair profit to the producer, plus the freight and the wholesaler's profit. Competition with the United States and Ontario had to be borne in mind also in fixing the price.

Thomas Sales (Progressive, Saltcoats)—What do you regard as a fair profit to the producer? Mr. Taylor said that from 10 to 20 cents a box over a period of five years would be regarded as a fair

(Continued on Page 6)

HOSPITAL HAS HEAVY DEFICIT IN FEBRUARY

Directors to Hold Special Meeting to Deal With Problem—Will Rent Orchard.

February showed a difference of \$350 between hospital revenue and operating expenses, the difference being a deficit. The board at its monthly meeting on Monday wrestled with the problem of finances for some time, all realizing that something must be done, but no one had any solution to propose. The meeting was adjourned, to be held two weeks later, when the problem will be again wrestled with.

President Mellor reported that the special committee had visited the Van Allen property and had arranged for pruning the trees and recommended renting the property for the season by tender. A price of \$8,000 was put on the property by the committee. The board decided to sign the five-year contract with the Co-operative Growers.

Upon recommendation, the board decided to abolish the extra fee of \$10, which had been charged for some time, in maternity cases.

Blewett relieving I. Adams in the second half.

Following the games the Kelowna visitors were entertained at a dance in the Parish Hall.

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED
 Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, March 15, 1923.

Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

JOBS FOR THE DISABLED.

Recently, as noted in our news columns at the time, there was read before the municipal council a letter from the Provincial Department of Labor, with a very forceful appeal on the subject of giving employment to disabled ex-service men. So eloquent was the wording of that letter that the members of the council, for some time, pondered over the subject, wondering where they could find an opening for one of these many unfortunates. The Princeton Star, alleging that the government at Victoria is none too sure of its tenure of office and is broadcasting from Victoria to the provincial press for publication, articles lauding the government, closes its editorial by saying:

"Charity begins at home. Will Mr. Manson please tell us why in the selection of four men to fill the positions of liquor vendors at Princeton, Keremeos and Coalmont, jobs which any disabled man of ordinary intelligence could well fill, only one returned man was selected. Three of these appointments were given to men who had never seen active service, who were quite competent of earning an adequate living otherwise, and who had no special qualifications for the job.

"Let the attorney-general set an example and his suggestions will carry considerably more weight with the people of British Columbia."

THE PROLIFIC HEN.

Apropos the increased interest that is being taken by many of our readers in the humble hen, we are giving here some information taken from the Daily Produce News, Seattle, that will be read with surprise by even poultry enthusiasts. The News says:

"Comparing the earnings of branches of national production, the bureau of census shows that the poultry industry has advanced to third place within the last decade.

"Today only the corn crop and the dairy cow outrank the hen as a producer of national wealth. Below the hen on the list are petroleum, wheat, cotton, anthracite coal, potatoes, oats, copper and gold in that order, says a statement issued by Swift & Co.

"Until recently poultry raising has been a hobby or a sideline for farmers, to be attended to by their wives while the men did the work in the fields. Even yet, there are few who engage in poultry raising as compared with the number who pay specific attention to raising corn or cattle or cotton.

"Yet in 1919 poultry products of the United States were worth \$1,047,823,170—more than twice as much as all the anthracite coal mined, three times as much as all the gold produced, and nearly half again as much as all the petroleum which came from the wells, or all the wheat grown on our farms."

ADVERTISING APPROPRIATIONS.

These are dull times in Penticton, says The Penticton Herald. Do we find the average merchant saying to himself, "Well, I must rustle harder for business. I'll pay more attention to my advertising to see that I get a message 'over' to the public. I'll back my advertising up with window displays. My prices will be such as to bring the people to my place of business."

No, the diffident merchant says, "Times are hard. I can't afford to advertise. I'll just wait till the people get more money in their pockets and then I'll receive my share of it in the usual way. Advertising is an expense, so I will have to cut it out."

Business experts declare that business of the ordinary proportions should spend two per cent. of its gross total annually for advertising. Some businesses spend up to five per cent. Mr. Sapiro took up this point when he spoke to the fruit growers here.

If the business men of Penticton all spent anything like two percent. of their gross turnover in telling the public what to buy and where and how, they would aid greatly in cutting off the flow of money to Eaton's and Simpson's and incidentally the home town paper would be twice as big as now and, we hope, twice as interesting.

CO-OPERATION STARTS IN ORCHARDS.

With the big co-operative fruit packing and marketing organization now under way suggestions are made of other ways in which the fruit growers may put the spirit of co-operation still more fully into operation.

For instance, attention has been called to the fact that unless the wages paid for orchard help are equalized throughout the entire territory in which the marketing organization is operating the growers in some district will not be making as much on their produce as those in other places, owing to larger overhead expenses.

The suggestion has therefore been made that the growers

not only unite in agreeing on a wage scale per district, but that all districts get together and make the wages uniform throughout.

Other points mentioned as important to the eventual success of the co-operative movement are the top-working of trees to eliminate poor or indifferent varieties, and thorough pruning, spraying, thinning and soil maintenance to reduce the production of culls and low-grade fruit to a minimum. These things will all tend to keep down overhead charges in handling produce in the packing houses, it is said, and the success of the venture now in hand will depend upon the growers keeping "the spirit as well as the letter of the law" in co-operation.

One of the main objects of the new organization is to secure better returns for the growers without increasing the price to the consumer beyond a just charge for production and handling. Co-operation must certainly, therefore, commence in the orchards.—Penticton Herald.

THE VALUE OF A PAY-ROLL.

Every town or city, whether large or small, encourages the establishment within its limits of pay-roll industries. Their value to any community is a recognized fact, and they are welcomed with open arms.

It is well known that such establishments distribute from week to week or month to month a considerable amount of money, all of which is thus released for distribution throughout the community.

For this reason "pay-roll" towns are always looked on as being rather more prosperous than those in which all wealth is dependent on more or less spasmodic or uncertain returns. Thus pay-roll industries should be induced to this district and after they have come they should be supported.

There is scant satisfaction in local industries trying to work up business, increase the number of their employees, and cause more money to be circulated locally unless those who live in and do business in such localities see fit to deal with and support such established industries.

Every additional employee means just that much more money per week to be distributed among local merchants. Every dollar spent for out-of-town work, no matter for what kind it may be, is gone for ever and serves no further purpose in Summerland. Every dollar spent in this community remains in the community to be passed on from one to the other, doing good to all as it circulates.

Business men and residents generally should bear this in mind at all times. Buy at home on all possible occasions. Encourage the establishment of pay-roll industries, and having secured them, let all support them.

One of the pay-roll industries of Summerland is The Summerland Review.

CANADA ATTAINS OFFICIAL NATIONHOOD.

With the signing of the recent fisheries treaty with the United States, Canada has officially achieved nationhood. For, so far as can be learned, this is the first time in history that Canada has consummated a treaty with a foreign power and has done so entirely on her own responsibility and over her own signature.

From the standpoint of constitutional law this fact indicates that Canada is a sovereign power, absolute control of foreign relations being the distinguishing factor in defining a sovereign power.

It is well that this should be so. And it is well that Canadians should thoroughly understand it.

Canadian affairs cannot be directed from England any more than English affairs could be directed from Canada. To recognize this fact cannot by any stretch of the imagination be construed into a declaration of unfriendliness towards Britain. Canada is bound into the Empire by economic interest which is more powerful than blood, friendship or any sentiment. Nor does such recognition need to lessen the gratitude that Canadians must feel for the protection and interest with which Britain has guided Canada's destinies in regard to foreign relationships in the past.—Vancouver Sun.

The wise man does not needlessly offend anyone.

If you dislike a man it is hard to be nice even to his wife.

The energetic have to do a lot of work to take care of those who won't work.

A preacher resigned to become a baseball umpire. He certainly will be damned now.

Not knowing for certain, we suppose a dry politician throws dirt and a wet one throws mud.

A smart man can get along in the world with less effort than others—but usually he doesn't.

No person is worth a million dollars—he is merely custodian of that amount of money for a few years.

No man ought to make the same mistake twice—considering how many people there are to tell him about it.

A woman does not have to lie about her age after she has passed 50—no one is curious about it after that time.

It bothers a lot of people because they can't find out a lot of things that they know would hurt their feelings.

A specialist gave up as hopeless a case being treated for blindness and presented his bill. That opened the patient's eyes, but he hasn't "seen" the specialist yet.

Thieves broke into a restaurant the other day. The only valuables removed were three beefsteaks and, as the place carried a \$700 burglary policy, it is thought the loss is fully covered.

A generous sobbing spell seems to be as satisfying to a woman as a two-pound box of candy, and is much better for her physically. It also has an economic feature that should not be overlooked.

THE VALUE OF SPRAYING

(By R. H. Helmer, Superintendent Summerland Experimental Station)

Spraying is still too generally regarded as an operation that may frequently be dispensed with. But before so deciding it will be as well to remember that the orchards having troubles are getting fewer every year. The old maxim, "spray only if you have anything to spray for" is no longer a safe one. It is repeatedly the case that a perfectly clean orchard one year suffers from bad infestations of various troubles, both insect and fungus, the next spring. Production must be saleable production, not that of low grade, diseased or wormstung fruit.

By not spraying it is possible to save approximately \$21 per acre; but cannot a less doubtful economy be effected in some other direction? Acre cost of production might be reduced on orchard land by seeding early to a vetch cover crop, shading the land during the early season. During an acute water shortage one good discing will keep the land in good condition during the rest of the season. This will greatly reduce the number of cultivations and one of the best substitutes for barnyard manure will be added. If the vetch is allowed to seed the land again, work for irrigation as soon as discing; this prevents the stand of vetch from being partly covered later when furrows are ploughed.

Every effort should be made to maintain the productive state of our orchards, and the value of spraying should be carefully considered before deciding to omit it.

The revised spray calendar will soon be ready, and growers are strongly advised to study it. By following it, culls should be reduced to a minimum; and this will lead to greater consumption and more satisfactory prices.

BOX PRICES UP.

It is predicted that the price of box shoo will be considerably higher than last year. Coast mills are finding the export business good and are said to be more or less indifferent as to booking orders for shoo and the latest quoted price is 3 cents higher than last year.

No news may be good news; but no luck is bad luck.

Millinery Opening

FRI. and SAT. MARCH 16 and 17

Women's HATS

SPRING STYLES

Reflecting the mode of the moment these new arrivals in women's spring hats are awaiting your early selection.

Newest Fabrics

All of these extremely smart creations are in the most attractive and popular spring-time colors.

Newest Trimmings

It is the smart trim which denotes the touch of skilled milliners. You will find on these hats the newest effects for the coming season.

They're worth more — much more. There are styles full of beauty and present wearability.

FINLEY'S

READ REVIEW CLASSIFIED ADVERTISEMENTS

THE MAN WHO SIGNS MUST MAKE GOOD!

A responsible man puts his name to a piece of paper and it becomes a cheque—the equivalent of money.

He signs his name on the back of another piece of paper and it becomes an endorsed note—good for money.

He writes a letter and it becomes a binding contract.

The adding of the name makes these things solemn and legal obligations.

The man who signs is responsible.

Just so with an advertisement—the moment a man signs his name to it he has made a pledge to the public.

He is bound by his word as much as if he signed a cheque or note. He must do what he promised on the terms he promised.

If he does not, he courts business disaster. The man who advertises a lie publicly proclaims himself a liar. Such men are seldom in business but frequently in asylums.

It is safer to buy advertised articles than nondescript ones. It is safer to deal with merchants who advertise than with those who do not.

An advertisement is a signed pledge of good faith to the public.

See the merchants and manufacturers who welcome the chance to back their goods and products with their names.

NARAMATA ELECTS BOARD

H. B. Morley, District Representative—Other Happenings of the Week.

A crowded and enthusiastic meeting assembled on Wednesday evening to vote for provisional directors of the new organization of fruit growers. Mr. W. H. Irwin officiated as chairman and announced that the agenda for the evening included the decision as to the number of directors required, the qualifications for voters, the election of directors, and the nomination of a district representative on the central body. The qualification of voters was ruled to be the signing of the five-year contract and eligible candidates for directorship were decided to be those who were owners and contract holders. The original number of candidates stood at thirteen, but Mr. Littlejohn withdrew his name before the meeting, and Mr. King followed suit just before voting papers were given out. The eleven remaining candidates were Messrs. Armour, Horswill, Morley, Manchester, Nuttall, Rolt, Rounds, Stallard, Salting, Walters and W. S. Young. Those elected were F. W. Rolt, H. B. Morley, D. L. Walters, W. S. Young and A. T. Horswill. Mr. Morley was also elected as the district representative. The meeting closed about 10.30.

The "Hard Times" dance, sponsored by the Unity Club, and held on Friday last, was a brilliant success, the large hall being crowded by guests whose dilapidated costumes were in decided contrast to the general atmosphere of merriment which prevailed. Not even the fact that some were reduced to gunny sacks for shirts and were forced to tie on their deplorable shoes with odd bits of string, was sufficient to dampen their good spirits. Hats without brims, and not much crown, were in pathetic evidence, and some of the fraternity of "hard-ups" might well have qualified for scarecrows. Among those who attracted special notice might be named J. M. Robinson, H. P. Salting and T. Dunne, the latter indicating a period of better days in the past by the sporting of an evening dress coat, in sad contrast with a pair of khaki pants, somewhat

the worse for wear. The lady's prize for the most appealing get up was awarded to Miss Beaufort, while Mr. Robson, of Penticton, secured the award for men. Any misguided person who ventured to flaunt a white collar was promptly fined, to the benefit of the Unity Club funds, which are augmented by \$30 as a result of the evening's gathering.

Prominent amongst the items of the program was a dance by the "Gym Girls," the Misses D. Robinson, Lila Young, Margaret Mitchell and Nessie Rushbury, which was encored. Mr. Fred Manchester also gave an exhibition of particular skill and the list of general dances included Irish jigs, Irish lilt, The Lancers, and the Grand March. Mrs. Manchester and Mrs. Green presided at the piano during the evening, with T. Kenyon as cornettist.

Refreshments were contributed by many friends and were served by the ladies of the club.

Mr. and Mrs. Jack Young, former residents of Naramata, are happy in the coming of a baby daughter.

Mr. Lloyd was in town last week, visiting his brother-in-law, E. Stallard, and looking over his ranch above the King property.

Mr. and Mrs. Dan Donald, from the prairies, were visitors to Mr. and Mrs. J. C. Lyons on Sunday, in company with Walter Lyons, of Penticton, whose guests they are until their return home.

Mr. Aleock, of Melfort, Sask., was in town visiting Mr. Eastman, who formerly lived in that town.

Mr. A. C. Horswill has a welcome guest in the person of his brother from Nelson, who is here on a holiday.

Captain P. S. Roe brought over his radio outfit on Monday for the purpose of giving a public demonstration in the Naramata Hall, and a fairly numerous audience assembled. Unfortunately the atmospheric conditions in the early part of the evening were very bad and the results were disappointing. Later on matters improved, and the few who had remained to listen enjoyed a varied program sent from Los Angeles. The earlier stations in touch included Calgary, San Francisco and Montana.

Geo. Weaver has received copies of the music required for the community singing and will conduct the first practice on Friday evening.

Naramata was shocked to hear of the death of Mrs. J. Hayward, which occurred in Vancouver on Tuesday.

The cause of death is reported to be diphtheria, but that is not yet certain. The Hayward family were old residents here and the deceased lady was much respected.

The regular meeting of the Canadian Girls in Training was held in the Young People's room on Thursday, Miss Cathie Hancock presiding. The subject of "Famous Artists" was a feature of discussion, many pictures being shown by the president.

The following news items, intended for last issue, were prepared in due time and despatched in the customary manner, but failed to reach the editor:

The members of the C.G.I.T. held their regular meeting in the Young People's room on Thursday last, the following being present: Cathie Hancock, Mary Young, Alice Cross, Colina Kennedy, Florrie Lyons and Miss Vanderburg. Following the business routine, Miss Gordon gave a very interesting lecture on nursing, illustrating the same with practical demonstrations which were followed with great attention.

A card party under the auspices of the Unity Club was held in that building on Wednesday evening, and was well attended, over thirty persons being present. The first prize for ladies was won by Mrs. Tanner, Leslie Smith securing the gentlemen's award. Mrs. Iverson was the proud recipient of the "booby" prize provided for her sex, while Mr. Raincock was awarded the duplicate trophy. Refreshments were served by the conveners and friends.

The proceeds of the party were devoted to the fund of the club. Mrs. Rushbury and Mrs. Wells were the hostesses of the evening.

The regular meeting of the Women's Auxiliary was held on Thursday in the home of Mrs. G. Cook, with a good attendance. Mrs. Langueodoc presided.

Mr. T. Seafie is back from Vancouver Island, where he went at the request of the forestry department. He was barred from the position he applied for by reason of the age limit, which had not been specified in the department advertisement.

Miss Nessie Rushbury is home after a month's holiday with relatives in Vancouver.

Mr. John Smith has purchased from Mrs. Cam. Robinson the house formerly occupied by Mr. Stanley Dicken, and is at present in his glory carrying out certain improvements to the property before moving in. Mr. Smith wields a deadly alabaster brush, and his friends need to walk wide of him while he is renovating the ceilings of his new home.

The Canadian Girls in Training met by invitation at the home of Mrs. Lyons on Thursday afternoon and had a pleasant time after their routine of business was over.

Mrs. Watson has returned from an extended visit to the States.

Mr. Mallory is in town for a week or so superintending the packing of his household goods for shipment to Vancouver.

The basketball match on Friday between Town and Benches resulted in a sweeping victory for the former the score being 19-8.

Miss Lois Wells is back after several weeks visiting in California and the Pacific Coast.

At a public meeting held Tuesday evening for the purpose of electing a school trustee in place of Mr. J. S. Dicken, Mrs. Cargill was the successful candidate. The chairman of the meeting was Mr. W. H. Irwin, and the secretary, Mr. Dean Walters.

By invitation of the Women's Institute, Mr. J. W. S. Logie gave his lecture on "Fairies," on Tuesday afternoon. A large audience assembled and the school children were in full force, being granted a half holiday for the occasion. The speaker gave an interesting outline of fairy lore in all countries, and exhibited pictures from photographs taken in England several years ago, reproduced in Conan Doyle's book, "The Coming of the Fairies." Many questions were asked by the children at the conclusion of the address, and were promptly answered by the lecturer.

A vote of thanks was called for by the president, Mrs. Horswill, and heartily accorded. Other matters dealt with by the members of the institute were the appointment of Mr. Geo. Weaver as director of community singing, and the formation of a class to attend the pottery classes now being held in Summerland by Miss Young. During the afternoon Mrs. Dunn sang "The Fairies in Our Garden"; Eileen Horswill gave a short recitation and Alice and Dora Cross played two pianoforte duets.

The board of trade held a well attended meeting on Monday evening and dealt with several matters of general interest. The president, Mr. Weaver, reported the steps taken to urge on the C. P. R. the early construction of the long-promised slip-dock, and Mr. F. Manchester, the secretary, read various letters sent and received, including correspondence concerning street lighting. The request of the Farmers' Institute for representation on the board by a blanket membership was ruled out of

Why Irrigate?

By R. H. Helmer, Superintendent Summerland Experimental Station.

In the dry belt of British Columbia the average annual rainfall varies between nine and sixteen acre inches. This rain comes in small amounts only, a fall of .25 of an inch being considered a good rain. Yet an amount of only .25 of an acre inch of water applied uniformly over our orchards would be regarded as but poor irrigation.

Owing to rapid evaporation much of the rain—as well as snowfall—accomplishes very little. Therefore, it is necessary to put in irrigation systems. Further, the "why and wherefore" of using water must be studied—how the soil holds it, how and when it loses it, etc.

In districts of heavy rainfall spring development of crops is slow, the reason being that the soil has an excess of water, or the percentage of air is too small for best root development; but with the advancing season crops grow luxuriantly as these percentages become more evenly balanced.

In the arid, and semi-arid sections, there is an early rapid growth of all plants, wild and cultivated; but they soon exhibit signs of slowing down, start to make seed, and ripen—not because of a strong growing season, but because the percentage of water has fallen too low. It is at this point that the physical condition of soil should be considered. Into most of our dry belt soils the water quickly penetrates, because of their granular structure—itsself caused by the rain coming in small amounts and so never leaching the lime and other soil constituents out. Under dry farming methods the granular structure is soon broken down and rain does not penetrate so readily, but has a tendency instead to puddle the surface. This means a saturated top-

soil and heavy evaporation. Under irrigation there is a danger of "burning the candle at both ends," i.e., of destroying the physical condition by clean cultivation and then, by applying large quantities of water at intervals, carrying much plant food out of reach of the roots. With some of the heavier soils it is possible to injure the granular structure to such an extent that water will not penetrate freely beyond a depth of a few inches. As an illustration:

We have on this station applied three acre inches to land with its granular system so spoilt that the water would not penetrate nine inches; while on land with the granular system improved a similar amount of water—three acre inches—penetrated four feet. It will, then, be readily seen that if both were finally irrigated on, say, Sept. 1st, the former would suffer tremendously from October to April if it received only—as it probably would—a precipitation of some five acre inches. It will also be seen how the second would place and store these five acre inches to a greater depth, and suffer less evaporation.

Last year many of our growers did not commence irrigating until May 15th or even June 1st, by which time their lands were extremely dry. A main reason for irrigating, then, is to keep the moisture in the soil not only during the growing season, but during the winter and especially in early spring when vegetation is due to make large demands upon it. This can only be done by increasing and improving the water-holding capacity of the soil, or by later and earlier irrigations.

An article on "When to Irrigate" will follow shortly.

order as being opposed to the constitution and the secretary instructed to reply to that effect. Mr. J. M. Robinson, vice-president, read a full report of the working of many municipalities in B. C. and received a very cordial vote of thanks for the trouble he had taken in compiling same for the information of the board. The matter of some needed repairs to the road approaching Arwana station was referred to Mr. Partridge, road foreman; who undertook to see to the work. The subject of telegraphic facilities was brought up by Mr. J. M. Robinson, who read considerable correspondence he had entered into with the C. P. R. and the government line, and a committee composed of the president, vice-president and secretary was appointed to push the matter to a satisfactory conclusion. The meeting adjourned at 10 o'clock.

APOLOGIZES TO PENTICTON BUSINESS MAN

D. M. Astrom, a travelling man, representing a firm of elastic goods manufacturers, was charged before Magistrate T. A. Pope, in the municipal police court, with assaulting John Allen, proprietor of the B. C. Variety Store. Astrom, after the case had been outlined, pleaded guilty, apologized to the complainant and paid the court costs.

The history of the case was to the effect that some time ago Ostrom called upon Mr. Allen and took from him an order for goods. When this article, according to Mr. Allen, it

was twice as large as he had made it, and he eventually returned it. C. O. D. Ostrom got into trouble over the matter with his firm, and so when he came this way again he called on Mr. Allen, whom he threatened to punch, and whose character he said he would blacken in the town. He peeled off his coat to carry out his punching threat and, Mr. Allen explained, he feared Ostrom would succeed as he was in prime condition, while Mr. Allen is a wounded returned man. The complainant also said he objected to having false statements circulated in Penticton about him, but he did not wish Ostrom punished if he would apologize. The matter was thus fixed up satisfactorily upon Ostrom paying the costs.—Penticton Herald.

British Columbia coast lumber companies report that they are flooded with orders from overseas, and a brisk trade is being anticipated for this season.

Plans are being perfected to bring a large number of Swiss farmers to Western Canada this year. They will take employment on farms at the outset in order to learn Canadian methods, and will then take up land for themselves.

After-Eating Distress

and all forms of stomach trouble such as gas, pains, acid, sour burning stomach are all relieved in two minutes by taking Jo-To. Jo-To sold by all druggists.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$200 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home-sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND.

Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged in priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Colony King is the thing

to stimulate the liver, cleanse the bowels, purify the blood, banish headaches and make you feel the joy of better health and strength. Nature's own laxative and tonic roots and herbs in Colony King. 80c and 60c packages.

Are You Coughing?

Why not cure it this very day? A few drops of Shiloh relieves that tickling in the throat that maddens you. A few doses heal up the sore and inflamed tissues in the throat and really banish that cough. 80c, 60c and \$1.20. All druggists.

SHILOH FOR COUGHS

Never disobey your conscience and you're not very likely to break many of the ten commandments.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Jack Vass returned to Peachland last week after having spent the greater portion of the winter saw-milling. He paid a short visit to Kelowna before settling down to work for the spring and summer.

Dr. R. C. Lipsett, of Summerland, visited town again last week having a couple of horses to look after.

D. A. Cameron, Calgary, representing the Massey-Harris Co., spent two days last week here and at Westbank with their local agent, H. E. McCall.

Mr. White was a visitor to Kelowna on Thursday.

The Carswell-Baxter picture men entertained again last week in the Municipal Hall. Their movie van, decorated on all available surfaces, created quite an interest with this method of advertising. Those who took in the show report that it was one of the best.

Mrs. J. McKinnon and baby girl spent Friday in Kelowna.

W. Lambly returned on Friday after a few days spent down the lake.

Dr. Buchanan spent a couple of days in Vernon last week returning home Friday evening.

Readers of these columns will have noticed the recent articles in the press dealing with a case which N. S. Davidson, of Peachland, entered in the supreme court, Vancouver, to unseat Coun. G. McBean from the Peachland Municipal Council and will be interested to learn that the case has been called off.

Peachland G. W. V. A. held a social in the Municipal Hall on Friday evening last for returned soldiers and their wives and near of kin to fallen heroes. A very pleasant evening was spent, the principal amusement of the evening being progressive whist and other games. There was also a good complement of music both vocal and instrumental. Dainty refreshments were provided by the ladies. This is the first of a number of gatherings which the G. W. V. A. hope to arrange.

Correspondence.

To the Editor of The Review:

Dear Sir,—A little while ago an old friend in Manchester wrote me amongst other matters as follows: "Quite lately I bought in a small store in this city some apples. Each was wrapped in paper on which I read the name of Naramata. These apples were very fine, equal to fresh ones." In Europe, the public does not know anything about winter apples, good keepers, etc. The farmers or dealers throw the surplus in the fall highly-piggledy amongst hay or straw to keep them from frost and towards spring the skin often got rough, shrivelled up as it were. So my friend's above named remark has to be excused.

Unfortunately, he does not give one the name of the apples, only says he paid 6 pence, 12c a lb., for them. This seems cheap for wrapped apples because bulk ones (our No. 3's) are seldom offered under 3 pence—6c a lb. by the British store or market stall man. My friend sent me one of the wrappers. It is the one used by our local Fruit Union—O.K.

Now, let us say this retailer selling at 6 pence will have paid about 4 pence, 8c a lb., or about \$3 a box. It seems to me that there is a good bit of margin between \$3 a box in Manchester and next to nothing here in the Okanagan Valley. Some of your readers may feel interested to learn this bit of news from England.

Read, think and inwardly digest, oh, ye orchard owners.

Believe me, Dear Sir, yours respectfully,
JULIUS W. A. BLOCK.
Naramata, B.C., March 12, 1923.

GLADYS BROCKWELL IN "PAID BACK"

People have a habit of making decisions and thinking that Fate will let them stand.

"Paid Back" is a Universal all star film play which presents a satire on those same people at the Rialto theatre. It pictures a woman who thought she would ruin her own life in order to ruin a man's; and when she got nicely settled in an earthly and self-inflicted purgatory the hand of Fate came along and yanked her into happiness.

The story is by Louis Durua Lighton, scenarized by Hope Loring and the all-star cast includes Gladys Brockwell, Stuart Holmes, Mahlon Hamilton, Edna Murphy, Kate Price, Arthur Stewart Hull, Lillian West and Wilfred Lucas.

It's a wise man who won't admit he is.

Stomach Suffering disappears as if by magic when Jo-To is used. Gas pains, acid stomach, sour stomach, burning and all after-eating distress relieved in two minutes. All Drug Stores.

Breezelets

By M. K. W.

A TIP TO EXHIBITORS

It has been stated that there are people in this enlightened age who have set their clocks back four hundred and thirteen years—such is their antipathy to modern form of entertainment.

If certain groups make it a point to devote "Picture Show Night" to an orgy of Flinch, sandwiches and cake, would it not be more charitable to believe it was done in an attempt to drown their disappointment at not being able to afford the show?

If all fond mamas will please stop right here and turn to the page devoted to municipal accounts I will advance a still more plausible reason.

Doesn't the true curse of motion pictures lie in those maddening mother-and-child dialogues which drown the incidental music and extract what shred of intellectual enjoyment the photoplay might give. I have never yet been able to understand why the silent drama should demand so articulate an audience.

My suggestion is that exhibitors insist upon parking all mothers, accompanied by children under sixteen, together in the front of the house for just two evenings. This would work a lasting reform for this is what would happen:

Mrs. Lake and Susie would be seated between Mrs. Pond and Winnie on her left and Mrs. Brooke and the twins on her right.

The first close-up of the star, very fluffy as to hair and toothsome withal, fades in. Susie, who is ten years old and able to read the daily paper without parental assistance, becomes imbecile with: "Mother! What is she going to do?" Mrs. Lake's scintillating reply is: "Why, darling, I don't know yet." Very soon the star enters a room where the only occupant, the male lead, rises from the only chair and gallantly offers it to her. The twins, who are in the sixth grade and quite familiar with that charming little anecdote about Sir Walter Raleigh, cry out in unison: "Mother! What did he do that for?" The play progresses and a steady fire of questions as idiotic as the ones just mentioned go on without a break. Each mother determines then and there that the next time her children accompany her to the pictures that they shall rely upon their own brains.

The climax is reached when, with unprecedented precocity, Winnie utters: "Oh, mama! Was that her husband who kissed her then or the man she is in love with?" Several mothers (who until this fatal evening have supposed that progeny and prodigy were practically synonymous so far as their children were concerned) make a hasty exit. Suppressed tears of vexation or suppressed blasphemies (according to their temperaments) have rendered them unable to stand the pressure any longer.

By listening to the three-year-old questions from the nine-to-eleven-year-old Ponds and Brookes, Mrs. Lake is enabled to notice for the first time her own child's limitations.

Truly a worth while experiment, Mr. Exhibitor.

WHAT THE DOCTOR SAID ABOUT THE APPLE

"Do you know what you are eating?" said the doctor to the girl.

"An apple, of course."

"You are eating," said the doctor, "albumen, sugar, gum, malic acid, gallic acid, fibre, water and phosphorus."

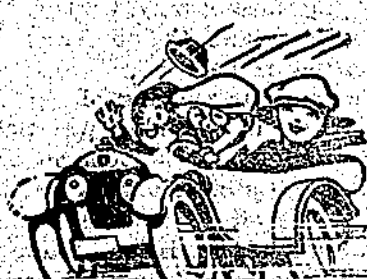

"I hope those things are good. They sound alarming."

"Nothing could be better. You ate, I observed, rather too much meat at dinner. The malic acid neutralizes the excess chalky matter caused in to keep you young. Apples are good to keep you young. Apples are good for the complexion. Their acids drive out the noxious matter which causes skin eruptions. They are good for your brain, which those same noxious matters, if retained, render sluggish. Moreover, the acids of the apple diminish the acidity of the stomach that comes with some forms of indigestion. The phosphorus of which apples contain a larger percentage than any other fruit or vegetable, renews the essential nervous matter of the brain and spinal column. Oh, the ancients were not wrong when they esteemed the apple the food of the gods—the magic renewer of youth. I think I will have an apple," concluded the doctor."

Stomach Suffering

disappears as if by magic when Jo-To is used. Gas pains, acid stomach, sour stomach, burning and all after-eating distress relieved in two minutes. All Drug Stores.

COMING

Friday and Saturday, March 16 & 17

"PAID BACK"

with an All Star Cast, headed by
GLADYS BROCKWELL
and **STUART HOLMES**

in the unusual story of a woman who paid an old debt in a new way, and found happiness in the most unexpected place. Romance, where no romance belongs—in the tropical quiet of a mid-Pacific Island—and it is dramatic to the nth degree.

Also a two-reel comedy
"HENPECKED"
and the International News.

Coming Tuesday and Wednesday,
March 20th and 21st.

MARK TWAIN'S GREATEST COMEDY

"A Connecticut Yankee in King Arthur's Court"

This is celebrated as one of the best pictures ever put on the screen. It caused a riot of merriment throughout England and any place it has ever been played in Canada and the United States.

"MUTT and JEFF" and the News will also be shown.

Fri. & Sat., March 23rd and 24th.

"Child Thou Gavest Me"

This picture is also very highly recommended by exhibitors throughout the country.

SUMMERLAND BAPTIST CHURCH

Rev. Z. L. FASH, M.A. B.D., Pastor
10.30 a.m.—"Hekekiah's Revival."
Junior—"The Boy and the Possum"
11.45 a.m.—Bible School.
7.30 p.m.—"The Anxious Seeker."
"Knocking the Church is Like Beating Your Mother."

NOTICE

SUMMERLAND AND NARAMATA GROWERS

All orchard and apple boxes the property of the Summerland Fruit Union must be delivered to the warehouses of the Union not later than March 31st. Retention of same after that date will make grower liable to prosecution. Orchard boxes marked with grower's name are in most cases now the property of the Union, payment having been made at or before March, 1922, by the Union either in cash or by crediting grower's account.

MATT. G. WILSON,
Liquidator for
Summerland Fruit Union.

Hot House Plants

Having 10,000 square feet of glass, I can give better service than ever. Consult me soon if you want any vegetable or bedding flowers.

A. McLACHLAN

For the convenience of our readers we give below the time of closing of all mails at the local post offices for despatch by boat and train, and also interchange between the two offices:

AT SUMMERLAND OFFICE.
For all points North, East and West—9 p.m.; Sunday, 6 p.m.
For Naramata, Penticton, South, Similkameen, Boundary and Kootenay—Daily, except Sunday, 6 p.m.
For Vancouver and Victoria—Daily, except Monday, 11 a.m.
For West Summerland—Daily, except Monday, 7.30 a.m. and 11 a.m.; Daily, except Sunday, 6 p.m.
For Rural Route—8.00 a.m. daily, except Sunday.

AT WEST SUMMERLAND OFFICE
For Coast Points—Daily, except Monday, 11.30 a.m.
For South, North and East—Daily, 5 p.m.
For Summerland Office—Daily, except Monday, 11 a.m.; and daily, 5 p.m.

Coming Events

Notices under this heading are inserted at 3 cents a word. Each repeat, 2 cents a word; minimum charge, 50 cents. Contract rates on application.

The regular monthly meeting of the Ladies' Hospital Auxiliary will be held in the Parish Hall, Tuesday, March 20th, at 8 o'clock.

St. Andrew's Ladies' Aid are having a St. Patrick's "At Home" in the hall, March 19th, 8 p.m. Admission, 35 cents; children, 25 cents.

SURFACING ROAD WITH BOULDERS

Complaint was made by Councilor Kirk to the council on Friday, of the nature of the material being used to surface the road running past the Goldsmith property. As a result of the material used, the road has more mud than ever and is no better. He stated further that the water seeps down from the hillside and onto the road. A ditch should be dug on that side to keep the road dry. In the material thrown on the road, were many large stones, which should never have been taken from the pit. He urged that better material be used and the ditch dug.

Coun. Kirk also pointed out the need of a ditch on the west side of Giant's Head road in front of the Harris property.

During the discussion, it developed that considerable difficulty is being experienced in finding suitable material for roadwork, without having to draw it too far. An effort is being made to find a suitable shale or gravel pit in that vicinity.

QUEEN ALEXANDRA AND "MOVIES"

(From the London Graphic, June 1)

The visit that Queen Alexandra paid to the Alhambra to see the new film, "A Connecticut Yankee in King Arthur's Court," recalls the fact that her majesty enjoys the pictures more than is generally understood. For some years past defective hearing has militated against her enjoying of an ordinary theatre, so that she finds the pictures a welcome change.

Naturally, however, she makes her choice with a very nice discrimination, since it is not every program that appeals to her. For some time past there has been a cinema outfit at Buckingham Palace, and her majesty has seen several films displayed there. "A Connecticut Yankee" will be shown at the Rialto, Tuesday and Wednesday, March 20 and 21.

MAY SELL OLD POWER PLANT

It is not improbable that the hydro-electric plant used by the municipality until connection with the Kootenay service was made, will go to Nakusp. A citizen of that town has been here on more than one occasion and has been given a price of \$500 on motor, generator, etc., and \$200 for the pipe line with certain sections reserved. The Nakusp citizen is ascertaining costs of installation and is expected to accept the favorable offer made by the electric light committee. This offer was formally approved by the municipal council on Friday.

CONTRIBUTIONS TO GROWERS' FUND

Previously acknowledged\$184.59
S. F. Sharp 1.00
Review Pub. Co., Ltd. 13.15

\$198.74
In order that the committee may close up its business, it is urged that any accounts against the committee be rendered forthwith.

CARD OF THANKS.

M. and I. Spencer wish to thank all those who helped so willingly when their house was in danger from fire.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Snow	S.S.
Mar. 7-45	35	7.0
Mar. 8-44	32	7.6
Mar. 9-44	28	7.0
Mar. 10-45	31	0.9
Mar. 11-42	32	1.8
Mar. 12-43	26	0.3
Mar. 13-43	28	6.6

Burning Stomach

relieved in two minutes with
Jo-To
Jo-To relieves gas pains, acid stomach, heartburn, after-eating distress and all forms of indigestion quickly, without harm.
All Drug Stores.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

See ad. special feed prices at Union warehouses. 788

Mrs. Pares has bought from the Development Company a lot on the bench above Crescent Beach.

Carleton-Clay came in last Friday from Donald, B.C., and left on Monday for Myren Camp, where he will be employed.

L. Stonehouse, recent purchaser of the Nicholson property on Jones' Flat, has applied to the municipality for domestic water service.

For one week—Three Pair Ladies' Hose, 3 Pair Children's Hoes, Ladies' and Children's Boots and Shoes, 50 per cent. off. A. Milne. 788

Another load of the famous Robin Hood Flour and Feed is due at the Grocerteria today. Join the Poultry Association for lowest prices. Now selling a carload a-month. 788

In future, electric light meters must be placed not higher than 7 feet from the floor, according to an amendment to the regulations, made by the municipal council.

Trains between here and Vancouver have been running by way of Spence's Bridge yesterday and today, because of a slide in the pass. It is expected the pass will be cleared by tonight.

Mr. and Mrs. Pete Cotton are spending their vacation here with Mrs. Cotton's parents, Mr. and Mrs. R. Neve. Mr. Cotton is with the Bank of Montreal at Port Haney, of which Mr. Galt, formerly accountant here, is now manager.

Very encouraging reports have been received by E. R. Simpson from his wife, who has been making very satisfactory recovery under the Insulin treatment, which she is receiving in the Vancouver General Hospital.

The annual meeting of the Art League will be held in the Theosophical Lodge rooms, Tuesday, March 20th, at 8 p.m. Officers will be elected and the plans outlined for the coming season. Miss Mary Young will conduct a discussion on pottery-making. 788

G. J. Coulter White, of the provisional board of directors of the Co-operative Growers of British Columbia, Limited, left on Tuesday morning to attend the meeting of the directors at Vernon. He was followed on Wednesday by Basil Steuart, recently elected Summerland's representative on the permanent board.

During a formal discussion of the subject of better fire protection introduced by the editor of The Review, at the last meeting of the council, Reeve Campbell proposed to have the hose reels kept on platforms, so that they could conveniently and quickly be loaded on a motor truck. In this way, the two reels, one in either town, could be brought into quicker action at a fire, no matter in which townsite they were needed.

Councillor Kirk has devised a measuring weir and control, which he will ask the council to install in the main canal, just below the intake on Trout Creek. The object is to have an accurate record of the amount of water put through the canal and also to maintain an even flow. The proposition was discussed at the last meeting of the council, when Mr. Kirk was asked to obtain an estimate of costs.

A large and attentive audience greeted Mr. W. C. Kolley, of Summerland, in the Princess theatre, on Wednesday when he delivered his lecture entitled "Jean Van Jean." The proceeds, which amounted to \$55, go to the benefit of the Princeton hospital. The Hospital Auxiliary under whose auspices the lecture was given, wish to thank Mr. Kolley, who gave his services free of any charge and Mr. J. Dignan for the free use of the theatre. Mr. E. Waterman acted as chairman in his usual happy manner.—Princeton Star.

Miss Jean Urquhart, R.R.C., of Regina, spent three days in Summerland last week on Red Cross work. Miss Urquhart, who is a former colleague acquaintance of Dr. F. W. Andrew, is covering the province at the request of the Canadian organization for the purpose of forming branches and in that connection addressed the school children on "The Junior Red Cross." Miss Urquhart took her training in Regina hospital, graduating with high honors, and later was matron of that hospital, which position she held until war broke out, when she enlisted for overseas service, and served as matron of one of the military hospitals overseas, being several times distinguished for her splendid work there.

Mr. and Mrs. Douglas Henderson are visitors in town this week from Vernon.

C. C. Aikins, of Naramata, who is in the Summerland hospital, is convalescing following an attack of flu.

T. J. McAlpine was a visitor to Summerland on Wednesday. He is still in charge of the government bridge work at Grindrod.

Major J. F. Sutherland and Mrs. Sutherland are leaving today for Vancouver. He sold his Paradise lat orchard last fall.

Councillors Kirk and Johnston have been appointed by the council to represent that body on the board of directors of the hospital.

Jack Lawler returned on Monday from Vancouver, where he has been for several months. Mrs. Lawler, who has also been at the Coast for some weeks, is expected home next week.

H. Bristow, this week, sold five head of Pure Bred Holsteins to Mr. Thompson, of Penticton, who is starting a dairy ranch there. Three head were also sold him by the Agur Estate.

Six or seven thousand dollars has been distributed during the last few days, among fruit growers who sold last year to the Lawler Fruit Co., the suit in court by the latter against the A. P. Slade Co., of Vancouver, having been settled.

The West Summerland W. I. monthly meeting was held on Friday, March 9th, in the Parish Hall. The feature of the afternoon was a practical demonstration in cooking, given by Mrs. C. J. Amm, on "Made Over Dishes," a subject that proved of great interest to all. Some excellent recipes were given, and it being a demonstration, all were able to see and sample the results. A hearty vote of thanks was moved at the close for this splendid lecture. Arrangements have been made to have one of the University Extension lectures on Monday, April 16th. This lecturer will be Prof. Clark, and the subject chosen, "Florence." The lecture will be held in the Rialto.—Com.

It is estimated that \$15,000,000 has been saved to Western Canada so far this year by the consumption of Alberta coals, which are rapidly replacing coal imported from the States.

Copper wire is advancing in price, according to the statement of the municipal electrician at the council meeting on Friday, the cost having

advanced \$3 per 100 pounds within the last two or three weeks.

A further supply of wire is needed and this will be ordered, together with four additional street light brackets, one of which will be placed at the foot of the hill below the Methodist church and the other three between the Baptist church and Dale's corner. While these latter will not be put up for some time, the electrician was instructed to equip, for street lighting, the poles soon to be erected in an extension being made in that direction.

PLAYGROUND SITE PROMISED FOR YEAR

Women's Institute May Later Buy Property From Municipality.

The promise made by the municipal council that the Summerland Women's Institute might use the lot between the Anderson and Mack properties as a children's playground, subject to sale at any time, was not satisfactory to the institute, in view of the fact that it is proposed to put considerable expense on the property in the way of erecting a suitable fence, swings, providing sand piles, etc.

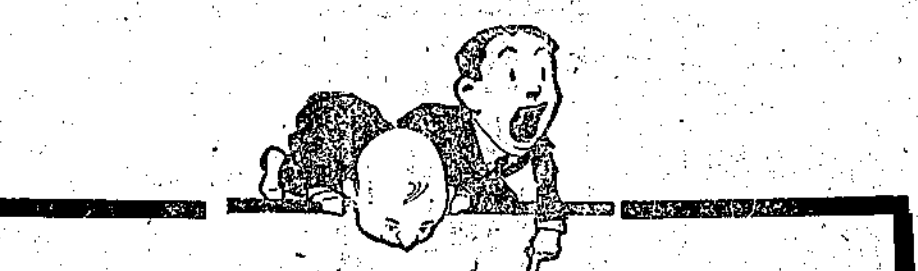

Two members of the institute waited on the council on Friday and asked for something more definite, intimating that the institute would like to have the first option to buy, in case an offer was received. At present, they have not the funds to purchase the property.

On the motion of Councillors Johnston and Bristow, the institute was given the use of the property for a year and the first option to purchase.

DECLARES ADVERTISING WILL CURE CONDITION

Toronto.—Advertising is the cure for the deplorable seasonal condition of the painting and decorating business, according to Mr. Peter Gydsen, of Minneapolis, who addressed the annual convention of the International Master House Painters and Decorators' Association, here. Mr. Gydsen pointed out that the association in Minneapolis came to appreciate that the trade was suffering greatly because the bulk of the work was being done in the spring and fall seasons, leaving many months of the year when the master painters and decorators had to carry on with practically no work.

It is estimated that \$15,000,000 has been saved to Western Canada so far this year by the consumption of Alberta coals, which are rapidly replacing coal imported from the States.

SUMMERLAND CO-OPERATIVE GROWERS

(Continued from Page 1)

son being requested to give their views on this subject. Mr. Simpson favored shares with a par value of \$50, with perhaps \$10 paid on each. This would provide a certain amount of working capital and the unpaid balance would be in the nature of security to a bank making a loan to the organization. Mr. White said that the central committee had suggested \$1 shares, but upon being told that some existing Unions were changing their capital shares to \$10 each, he proposed shares of like denomination for Summerland and this latter was favored by the meeting, the minimum number of shares each grower must take being left for the directors to recommend to the next meeting.

Several proposals were before the meeting as to remuneration of local directors. One proposal that they be paid out-of-pocket expenses only was hurriedly put to the meeting and carried, but the question was again opened for discussion, three dollars a meeting and expenses, four dollars a meeting and five dollars a meeting being proposed. Four dollars a meeting and each to pay his own expenses was finally adopted.

A meeting of the board of directors of the local was held on Monday evening, when G. L. Gray was elected president; T. Croil, vice-president, and A. C. Turner, secretary to the board.

Memoranda of association and rules were considered and these have now been completed and a copy forwarded to the central committee for examination and suggestions, the idea of the local board being that these should be as nearly as practicable, identical with those of other locals.

TELEPHONE CO. HAS GOOD YEAR

(Continued from Page 1)

that the shareholders were satisfied with the statement, though there was some disappointment felt in the fact that, including the directors, there were only nine shareholders present. Congratulations were extended the directors on the showing made and on the good management manifested.

Lack of capital for extension purposes is the worst problem confronting the directors. Much needed extensions to the service were either made from revenue or left undone, mostly the latter, as profits were insufficient to provide additions to the plant.

Several letters were received and read urging the company to put the cable between Summerland and Naramata in working condition. It was shown that some of those who are mostly concerned in this service have not subscribed for a single share in the company. However, some of these will probably be asked to take a share each and instructions have been given the manager to learn the exact condition of the present cable and it is not improbable that temporary repairs will be made in the meantime, that will give a connection.

C. J. Huddleston, retiring director, was re-elected for a period of three years, and A. B. Elliott was elected to the vacancy caused by the death of the late Isaac Blair.

The statement showed total assets of \$35,159 after writing of \$1,296.39 for depreciation for last year. While paid-up capital is only a little more than half that amount, \$18,425, additional capital to the amount of \$6,000 was provided some time ago through a loan for a period of years.

The gross revenue for the year 1922 was \$12,447.65. Salaries and operators' wages, \$5,005.80; maintenance expenses, \$1,203.35. All other expenses totalled \$1,759.82, leaving a balance or profit of \$3,878.83. Against this was charged interest on mortgage and dividend, together with \$600 reduction on special liability, and also the above mentioned reserve for depreciation, leaving a balance of \$440.44 to be added to the undivided profits.

DEMANDS OF GROWERS TAKEN TO OTTAWA

(Continued from Page One)

profit. The average production of apples over a ten-year period was four boxes per tree, the cost of production 83 cents per box unpacked, and the f.o.b. price, including box and packing, \$1.43.

The experimental farm at Summerland is doing very valuable work for the industry.

Eradication of pests was a serious problem in British Columbia, spraying being very expensive. This was a question which should be investigated by the government, particularly oil sprays. Fire blight and breaking down of the Jonathans were also serious problems which should be investigated carefully, and it was urged that it be given particular attention during the coming year.

Speaking of other varieties of apples Mr. Taylor said there was a danger of rot affecting the Delicious. The keeping of apples in storage was also a very important matter. Reverting to the cost of packing he agreed that the cost was excessive.

"We must have protection under the Dumping Act," said Mr. Taylor. He said that last year the United States produced 40,000 cars of apples against the 3,600 of British Columbia. The United States dumped their low grade apples into Western Canada at a ridiculously low price relieving their own market of the competition in these and injuring that of British Columbia.

"We are not afraid of competition on high-grade fruit, but we do need protection from competition on low grades. We want protection during the time our fruit is available. We do not want to stop them sending in fruit to Canadians at any other time of the year," said Mr. Taylor.

The New York Deal. Mr. Sales—Do you expect the prairies to absorb all your product? Mr. Taylor answered in the negative and said they exported to many other countries. Mr. Sales alluded to the alleged dumping of apples by the growers on the New York market last fall. Mr. Taylor said they shipped 800 cars there expecting that with a prospective railroad strike the Washington territory product could not reach New York and the British Columbia men expected a big price. But the strike did not materialize and the prices obtained in New York were low.

Mr. Thomas Bulman, an independent grower and shipper of the Okanagan Valley, declared the growers must have lower freight rates, cold storage facilities on ocean vessels and the completion of the Kamloops-Kelowna branch of the Canadian National Railway. He said growers were losing \$25 an acre because this road was not ready to haul their produce.

T. W. Caldwell, Progressive, Victoria-Carleton—Do you not think that lower freight rates would stimulate greater production and thus increase traffic to the railways? Mr. Bulman—Certainly. Issue Too Wide.

The question of Oriental labor was introduced by one of the committee, but the chairman ruled it out, saying the issue was too wide and would load them too far afield. Mr. Bulman said B. C. wished Australia to give Canada the same treatment with regard to the tariff on fruit as Canada was giving them. Cheaper credits was another matter he mentioned, saying the farmers were paying 8 to 10 per cent. for loans.

The chairman promised this matter would be taken up. Asked if he was impressed with Mr. Snipiro's plan, he gave a somewhat qualified approval, saying the expenditure proposed for handling 4,000 cars of fruit was very high. To a question from Mr. Sales, he said he would agree to a general policy for Canada of cost of production plus a fair profit, if costs were fairly estimated.

Mr. Sales produced figures showing that when the grower was getting from \$1.27 to \$1.50 for McIntosh Reds the cost to the consumer on the prairie was \$4, which included 65 cents for freight, 60 cents for packing and 15 per cent. to the wholesaler, which per cent. he got on freight and packing charges as well as on the fruit. The profit to the retailer was 90 cents a box.

IMPOSES PENALTY ON CARELESS PICKERS

New Clause in Fruit Inspection Bill Adopted by House.

Ottawa.—"We want an act so drafted that we will not have to go to a lawyer to find out what the law is," said T. G. McBride, Progressive member for Cariboo, in the agriculture committee, during the discussion of the bill regarding sale and inspection of fruit.

The point under consideration was a clause imposing a penalty for careless picking. A. R. McMaster, Liberal member for Brome, had objected to the extension of the criminal code over matters in which there was "moral obliquity."

"Let the civil law take care of that," he added.

Mr. McBride wished the law made clear so that the grower would have the means of controlling the pickers.

After a brief discussion the penalty for careless picking was adopted. G. E. McIntosh, fruit commissioner, said it was a new feature in the law.

After some amendments to details the bill was reported back to the House in practically the same shape as it was presented there by the department of agriculture.

HIGHWAY WORK IS UNCERTAIN

Dominion government public works expenditures in B. C. this year will be light, declares Hon. Dr. Sutherland, provincial minister of works, upon his return to the coast, from an Ottawa conference with Hon. J. H. King, Federal public works minister.

Whether the federal highway subsidies will be available in the future is still undecided, Dr. Sutherland states. The Canadian Good Roads Association and other highway bodies are urging the continuation of federal payment under the Canada Highway Act, but the government will not come to a decision until after a conference to be held on this subject in April, Dr. Sutherland declares.

Without federal highway aid it is doubtful if the Hope-Princeton connecting link in the transprovincial highway can be built at present, Dr. Sutherland states. The work will be of a very heavy character and may prove to be too expensive for the provincial government to tackle without aid from the federal treasury.

McCUTCHEON LEADS IN CHECKER GAME

Of late, there has been a revival of interest in checkers and at a tournament, held at the Promer Hotel on Friday evening last, C. E. McCutcheon took the first prize and T. B. Young came second. The result was as follows:

Table with 3 columns: Name, Wins, Losses, Draws. C. E. McCutcheon: 5 Wins, 1 Loss, 1 Draw. T. B. Young: 5 Wins, 2 Losses, 0 Draws. A. J. Boer: 4 Wins, 3 Losses, 0 Draws. R. S. Jackson: 4 Wins, 3 Losses, 0 Draws. T. A. Walgen: 4 Wins, 3 Losses, 0 Draws. T. Ramsay: 3 Wins, 4 Losses, 0 Draws. G. H. Harding: 2 Wins, 4 Losses, 1 Draw. B. Saunders: 0 Wins, 7 Losses, 0 Draws.

HARD TIMES SOON THING OF PAST

Victoria, B. C.—Hard times will soon be a thing of the past, in the opinion of Hon. A. M. Manson, who predicts, on the basis of the reports coming into the department of labor, that during the coming summer there will be more work than men to handle it.

The attorney-general said that he recently had a conversation with a large employer of labor who gave it

as his conviction that there would be four jobs for every man this year. "While not anticipating such a labor shortage as that," said Mr. Manson, "there is every indication that the demand for labor will be at least equal to, if not considerably more, than the available supply, and that there will be no justification for any man being idle."

SUMMERLAND, B. C., THURSDAY, MARCH 22, 1923.

\$2.50, Payable in Advance

WOULD MEAN ADVANTAGE TO LOCAL GROWERS

Expect Summerland Tomato Growers Will Withdraw Demands for f.o.b. Price.

Practically all the local tomato growers have signed the membership contract with the Tomato Growers' Association, but contracts were not forwarded to headquarters, the members desiring first to obtain an undertaking from the association that prices would be f.o.b. Summerland. Action on this matter was reported in these columns several weeks ago.

Only last week was an answer received when W. H. Stonehouse, secretary of the Tomato Growers' Association, wrote pointing out that an f.o.b. price to Summerland growers would be unfair to other members, citing Ellison as an instance, stating that it cost Ellison growers 15 cents per 100 pounds to deliver their tomatoes to the cannery at Kelowna, while the cost of shipping from Summerland to Kelowna was about 9 cents. This, of course, does not include the cost of local cartage or loading of cars.

At a recent meeting of the directors of the new organization, the request of the Summerland branch were brought up and the following resolution was adopted: "Resolved, that the central of the Tomato Growers' Association cannot recognize the Summerland Tomato Growers' branch until the members' agreements are signed without any reservations and forwarded to the central office."

In submitting this resolution, Secretary Stonehouse pointed out that the tomato growers had organized for the purpose of stabilizing the industry. He further stated that the canneries are now offering \$15 at the cannery for graded tomatoes, which, he said, is equal to \$13 for ungraded stuff and he asked that the growers of Summerland refuse to grow cannery tomatoes this season, unless satisfactory prices are given.

A further meeting of the Summerland Tomato Growers will be held tonight, when it is probable that the former reservations will be withdrawn, as it is said the contract does not commit the members to supplying cannery stock at losing prices.

GIVES LECTURE AT PENTICTON

Principal G. A. Lundie's Talk on Australia is Much Appreciated.

Principal G. A. Lundie, of the Summerland High School, gave a public lecture in Penticton on Friday evening. The Penticton Herald gives the following report:

A small but appreciative audience listened to the talk on Australia, given by Mr. G. A. Lundie, B.A., in the Senator Shattford School auditorium last night. One did not get from Mr. Lundie's address a clear geographical or industrial picture of Australia, but he described wonderfully well such points of interest as the life of the aborigines, their nature and achievements, phases of the sheep raising industry, beauty spots of Sydney, the importance of water to the Australian rancher, and that queer little Australian creature which partakes of the kingdoms of earth, air and water.

To illustrate each topic he used numbers of excellent slides. Another point touched upon was the attempt of the labor extremists to burn the great stores and industrial plants of Sydney. They used a solution of phosphorus and he showed how when put on a cloth and exposed to the air it burst into flames. The communists placed these rags saturated with the solution under a pillow or pile of wool in the building or ship which they wished to destroy. Mr. Lundie showed how Sydney had grown in a hundred years from the home of a few stone age men to a modern city of over 6,000. The whole address was anything but dry, and to the audience the two hours during which Mr. Lundie spoke, passed very quickly. It is just possible that the high school will have Mr. Lundie give his talk on New Zealand here later.

KOOTENAY COMPANY TO DOUBLE CAPACITY

The West Kootenay Power Company has made application to Victoria for permission to double the capacity of its main power plant at Bonington Falls on the Kootenay River. At present their plant there develops about 30,000 horsepower. Another plant at Cascade, near Grand Forks, develops 1,500 horsepower. The granting of their request would mean the raising of Kootenay Lake which, it is said, would seriously interfere with the reclamation of Kootenay Flats. Engineers of the department of lands are obtaining further data before a definite answer is given the power company.

SUFFER DEFEAT AT KELOWNA

Three Summerland Teams Lose at Basketball—Were Girls Seaside?

Three local basketball teams met defeat at the hands of Kelowna players in matches played in the Kelowna scout hall on Thursday last, the last game, between a team made up mostly of Summerland high school boys and the Kelowna seniors, being one of the fastest games ever seen in the Valley.

Kelowna got away to a good lead in the first half and at half time had a lead of eight points, but in the second half, Summerland players gained steadily, until within a few minutes of the final whistle the score was 21-20 for Kelowna, and for a time even Kelowna's crack shot, Turk Lewis, seemed to lose sight of the basket. Kelowna, however, made one more field shot, bringing the final score to 23-20 in favor of Kelowna. Though this is the first loss our high school boys have met, we are not disheartened, as they were up against a senior men's team, who easily outclassed them in weight. G. Guy took the place of K. Walden on the school team.

The ladies' game, with a resulting score of 29-9 for Kelowna, was not so interesting as the game played between the same teams here the week before. Our girls lacked the usual combination and could not seem to keep track of their opponents, who were in good form, Alice Brown and Jean Kincaid making the majority of the goals for Kelowna.

The game between Kelowna and Summerland men's teams was slow and showed lack of team work, the fact that our boys had not played together before as a team, showing up in their lack of combination. The Kelowna team easily held the advantage in speed and kept the ball near their basket with the result of a victory for them of 30 to 14.

The Summerland players, with the exception of the high school boys, who motored up with Wm. Johnston, made the trip by ferry, and report a rough trip home.

WAS ONLY BIRD TO LAY 300 EGGS

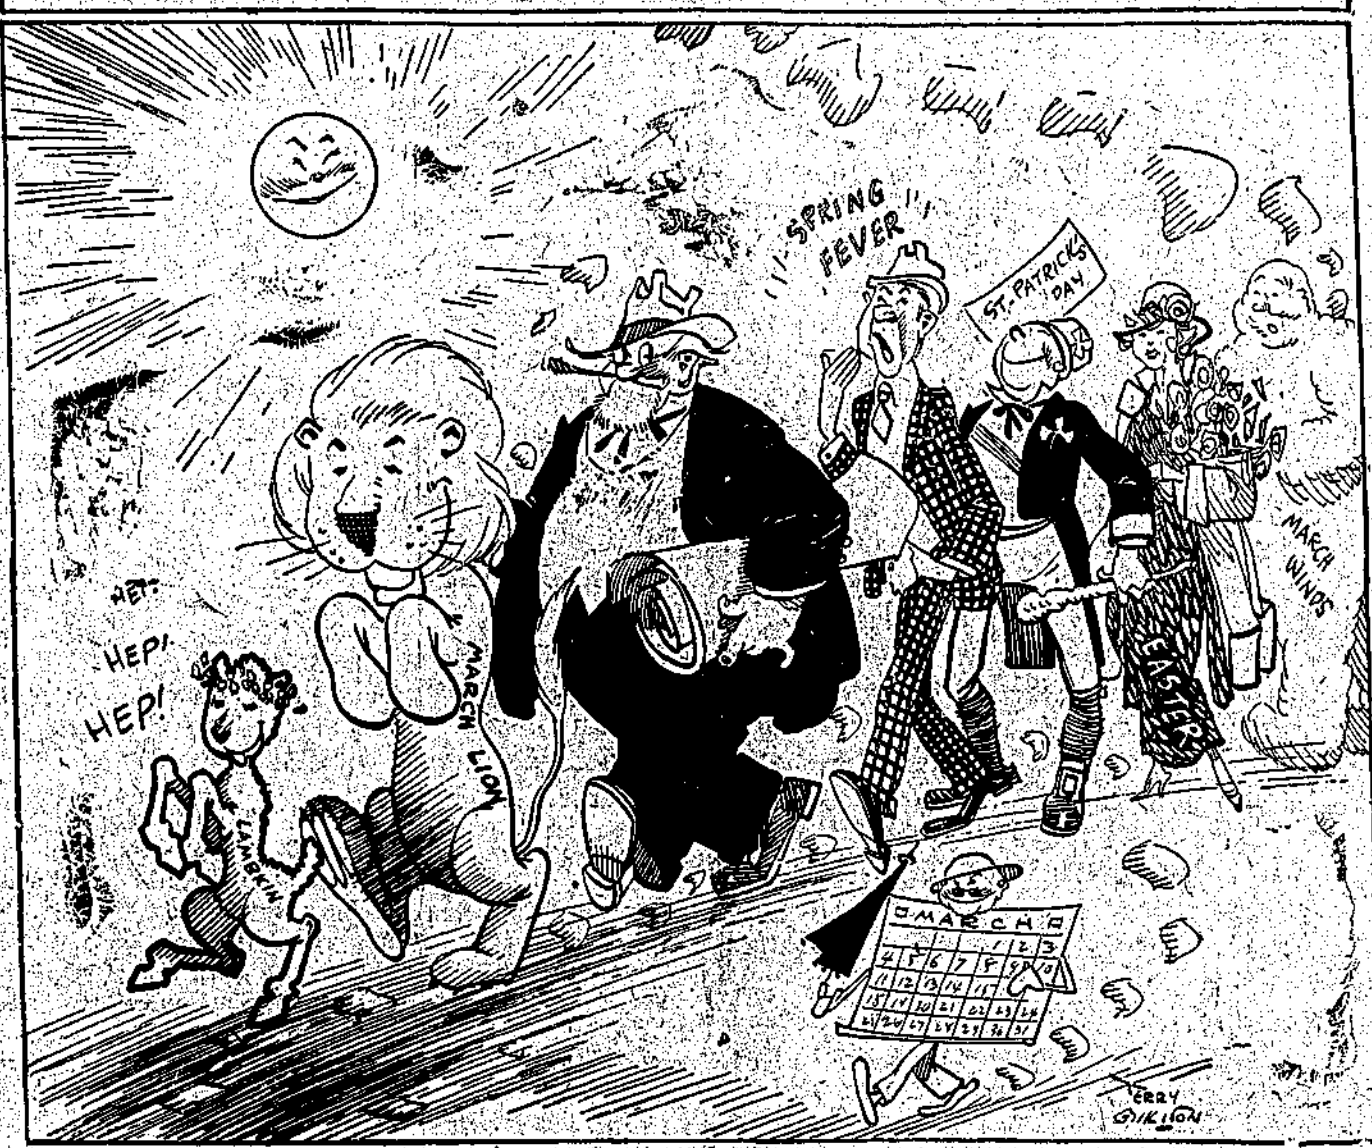

British Columbia Leghorn Leads in Record of Performance Report.

Ottawa.—The annual report of Record of Performance "A" for the year 1921-22, will be ready for distribution within the next week. This report contains detailed information regarding birds whose trap most records have been certified on the breeders' own premises by government inspectors. The results are given of birds owned by 120 breeders, representing every province.

It is interesting to note that of a total of 11,579 birds, only one reached the coveted 300 egg mark. This bird, a Single Comb White Leghorn, is owned by the University of British Columbia, Vancouver, B.C. Of the 23,520 birds which have been entered in Record of Performance "A" since its inception in 1919, only two birds, including the one referred to above, have laid 300 eggs. Both were White Leghorns. One was in British Columbia and the other in Ontario.

A little less than six million tons of coal were mined in Alberta last year. This is an increase over the output of 1921, in spite of strikes and a comparatively mild winter.

Forward March

RIGHT IN LINE WITH HIS FIVE-YEAR CONTRACT.

D. W. Sutherland, Kelowna, is Appointed Organizer of Co-Operative Growers

Appointment Temporary, Pending Selection of General Manager—B. Steuart and R. J. Hogg, Members of New Executive With Col. B. Scott—Tonnage Required Not Yet Signed—Campaign Launched to Secure Signatures—Member of Committee Now Here to Get Contracts.

Following is a report received by The Review, last night covering the situation with respect to organization of the new co-operative.

Mayor Sutherland of Kelowna was on Monday, appointed organizer of the new Co-operative Growers of British Columbia, Limited, at a meeting of the general committee. Mr. Sutherland's appointment is but temporary. He will direct the affairs of the new concern until such time as a general manager is appointed and the permanent directors are elected.

Working with Mr. Sutherland and responsible for the general policy to be followed, is an executive committee composed of Col. B. Scott, Salmon Arm, chairman; R. J. Hogg, Peachland; Basil Steuart, Summerland; and F. A. Lewis, Kelowna; representing the vegetable growers.

This follows out the suggestions put forward by the growers' delegates at the January Kelowna convention. The largest committee has adjourned.

"An active campaign is in progress in every fruit district to secure the signatures of those who have up until now held back from signing the contract," said Mr. Sutherland, on Monday night. "We want to sign up as much of the tonnage as we possibly can. We have every reason to expect that our efforts will be successful for now the machinery of the organization is well oiled and we are ready to proceed with all possible speed, tempered, of course, with common sense."

He stated definitely that arrangements had been completed for the taking over of most of the independent shipping firms.

The financing of this merger had been completed and the independent will receive half cash and the balance in debentures, all valuations for the taking over of the different plants having been arranged satisfactorily to both parties.

Insofar as the immediate financial needs of the new organization were concerned they had been provided for and the plans had been approved of by the banks.

Mr. Sutherland announced further that he had named Mr. R. M. Winslow, who has been acting as secretary to the committee, to continue in charge of the detail work and to assist the organization committee.

"My appointment is for only three or four weeks," he added, "because in that time the negotiations which are pending will have then been concluded and we shall be in a position to announce the name of the general manager."

While Mr. Sutherland would not commit himself on this point he intimated that a Canadian now holding a high position in directing the affairs of a big concern, was being considered and that the recommendations of the man were of the highest order.

Last Friday and Saturday the large committee discussed with the Vancouver Board of Trade delegation, composed of Messrs. Blake Wilson, A. M. Dollar, G. F. Gyles and P. G. Shallcross questions of finance and the general methods to be followed in bringing about the completion of the organization.

GOOD ROADS ASSOCIATION AND B. TRADE UNITE

Purpose Asking for Railway Spur From K. V. R. Station—Game Laws Up.

At a meeting of the Board of Trade, held Tuesday evening, the federation of the Good Roads Association with that organization was practically concluded, the association having already intimated willingness to affiliate. After a brief discussion, a resolution proposed by Messrs. Holmer and Campbell, that the Good Roads Association and Board of Trade be affiliated and that the annual fee be \$3, providing a paid-up membership of 60 be obtained, was carried.

The needs of the district with respect to canneries were discussed, but the board felt that it could do nothing at present to provide this needed industry.

Data with respect to the amount

CRESTON DESIRES SEPARATE POOLS

Fruit growers of Creston are strongly pressing for a separate pool. One of their arguments in support of this contention is their favorable location with respect to the markets in the Crows' Nest district and the growers there are of the opinion that with the prospect of a fruit and vegetable crop of approximately \$350,000, it is inconceivable that such a large amount of more or less perishable produce can be satisfactorily handled by any other person than an experienced manager, located at Creston.

WILL CONTINUE PRESENT LOCAL

Penticton Growers to Take Over Existing Organization—Dollar Shares.

Penticton.—Penticton growers who have signed contracts with the new co-operative organization have unanimously agreed to take over the Penticton Co-operative Growers, Limited, which is a local of the old O. U. G., as a going concern, thus saving time and expenses of organizing and incorporating a new local.

Reports which have been prepared, and presented by the old board of directors and representatives specially chosen at the recent meeting of growers are of so favorable a nature that the 1922 balance sheet was unanimously accepted as a basis of equity upon which new members will be admitted to the association.

All assets of the Penticton Co-operative Growers have been carefully re-valued and after sweeping allowances were made for the depreciation and all doubtful accounts written off, the difference between the values thus arrived at and those shown by the books of the organization was only \$1000. This sum, growers consider, will be more than offset by the taking over of the going concern.

The new board of directors contains three out of the six old members. These men will take office as soon as the decision has been ratified by the meeting of the original shareholders.

Some striking changes will be made in the method of financing. At present the nominal capital of \$20,000, divided into 400 shares of \$50 each, will be changed to a nominal capital of unlimited amount, divided into dollar shares. This will enable any number of shareholders to come into the association. It is expected a capital of \$100,000 will be required, and plans are being made for shares to be retired in rotation and fresh shares issued, placing all shareholders, old and new, on an equitable basis.

The newly-reorganized local will also purchase the Penticton Fruit Storage building in which it operates.

COAST FRUIT IMPORTATIONS

Inspector W. H. Lyne Issues Some Very Interesting Statistics.

Fruit and vegetable shipments imported into British Columbia and examined at Vancouver during 1922 were considerably in excess of those of the preceding year; but out of a total of 800,562 boxes of fruit, 352 tons of potatoes and 9420 crates of vegetables imported and examined, 7,415 boxes of fruit and twenty-nine crates of vegetables were condemned.

Statistics indicating the volume of fruit and vegetables imported and compared with quantities condemned, because unfit for consumption, have been compiled by W. H. Lyne, provincial inspector of imported and exported horticultural products. In addition, Mr. Lyne has tabulated inspections relating to nursery stock, rice, beans, peas and corn, as well as fruits and nuts.

Mr. Lyne's figures cover all fruit and vegetable shipments received in Vancouver and all nursery stock imported into British Columbia.

The fruit imports include 31,428 boxes of apples, 34,535 boxes of pears, 48,335 boxes of apricots, 84,

ART LEAGUE LAYS PLANS FOR ACTIVE SEASON

Advertise Handiwork to Tourists—Will Operate Tea Room—Officers Elected.

Arrangements were made at the annual meeting of the Summerland-Naramata Branch of the B. C. Art League on Tuesday evening, to open the log cabin in Peach Orchard on June 7th, with an exhibition of paintings, pottery and local handicraft. The cabin will be open all summer for the sale of local products to tourists. The tea garden in connection is to be conducted by Mrs. Vicary and Miss Mary Vicary. It will, no doubt, be a popular resort during the warm weather.

Officers for the ensuing year were elected as follows:

President—Jack Logie.
1st Vice-president—Mrs. G. L. Salter.
2nd Vice-president—Carroll C. Aikins.

Secy-Treas.—Mrs. J. M. Sutherland.

Executive Committee—Mrs. D. I. Walters, Mrs. Pares, Mrs. A. C. Turner, Mrs. Coultas, Miss Mary Vicary, A. B. Morkill and W. Cunliffe.

After the routine business had been disposed of the members inspected the first specimens of pottery made from local clays and moulded and fired by the students of the Summerland-Naramata pottery classes conducted by Miss Mary Young. The exhibition was pronounced decidedly satisfactory and as a slight recognition of the services rendered by Miss Young in developing this infant industry, she was unanimously elected as an honorary life member of the Local Art League. It is the intention of the league to procure a potter's wheel and kiln and continue their experimental work now that it has been demonstrated that the craft is practicable and that our clays are suitable for certain grades of pottery.

The meeting adjourned with many expressions of satisfaction at the steady progress being made and the hope that with an increased membership the Art League could still further justify its existence as a service to the community.

FIRST WORK OF POTTERY CLASS

Initial Models in Local Clay—Students Greatly Interested in Work.

Using a kiln belonging to Miss Sponcor, the first lot of vessels, tiles, etc., moulded by the class in pottery at the night school, was fired this week. Several of these pieces are on exhibition in the window of the upper store of the Drug Company, and give promise of much in the future. Local clay was used almost exclusively in making these pieces, a little Saskatchewan clay being first mixed with the water, and for some color effects, a little material from the Similkameen was used.

Miss Young is holding classes at-noon and evening on Monday, Wednesday and Friday at the Central school and at Naramata on alternate days. Much interest in the work is being shown by all her pupils.

290 boxes of California oranges, 166,832 boxes of Japanese oranges to points east of British Columbia, 23,218 boxes of lemons, 14,888 boxes of grape fruit, 28,004 boxes of tomatoes, 352 tons of potatoes, and 9,000 crates of sweet potatoes.

The condemned produce includes 1,747 boxes of apples, 3,084 boxes of pears, and 1046 boxes of tomatoes.

In 1921 more apples were imported, the total for that year being 70,015 boxes. The 1921 statistics indicate 123,276 boxes of California oranges landed in Vancouver; but no Australian oranges, while for 1922, 4,000 boxes of this latter variety were unloaded at that port.

Optimist—A man putting up a wire fence to keep chickens out of his garden.

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, March 22, 1923.

Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

SUCCESS DEPENDS ON A FEW.

George can't do it all! You'll have to help! The success or failure of the attempt to organize the fruit growers of this province for the purpose of stabilizing the fruit market, now rests with a comparatively few fruit growers.

Practically 75 per cent. of the tonnage has been promised, but this is not enough. There has been a number who have been disposed to "let George do it," but he can't do it all. It is now up to those fruit growers who have been holding out to sign the five-year contract and make the movement a success if they hold back they will allow their industry to fall into a state of chaos worse than ever. We don't believe they will do it.

TOPWORKING APPLE TREES.

Our markets demand good-keeping varieties of apples. Can you deliver the goods? The grower who has such, is fortunate, but what about the grower who has so many (or it may be just a few) odd non-paying varieties? This is a subject for your serious consideration, Mr. Grower. There has been some good topworking done here in the past few years, and this good work should be carried on further.

Those growers who are interested in this work will have an opportunity next week to witness practical field demonstrations in grafting the various trees.

The announcement that Mr. W. T. Hunter, District Horticulturist, along with his assistant, Mr. J. Tait, will meet the growers of Westbank, Peachland, Naramata and Summerland next week, when top-working of trees in general will be demonstrated in various orchards of these districts, will be good news to many who would like to know more about this subject.

THE LESSONS OF CO-OPERATION

The directors of the United Grain Growers are to be congratulated on the frank way in which they have faced and acknowledged the losses sustained by the implement, lumber and securities subsidiary companies. Not only have they acknowledged failure but they have written off losses and, where possible, are getting out of the lines of business in which co-operative methods are evidently not effective in competing with highly-organized, long-established private organization.

Experience of the soundly-conducted co-operative enterprises results in one or two things—better and cheaper service to the community through a willingness of individuals to do something for themselves and others or losses which create a better appreciation of the service rendered by private business, both individuals and corporations.

The difference between sound co-operative enterprise and co-operation backed by government guarantee or government ownership, is that in the one case the losses are sustained by those who would benefit in the event of success, while in the other the deficits are made good out of the pockets of the general taxpayers.—Financial Post.

MADE OF GOOD STUFF

It is an indication of the good stuff of which they are made that the farmers of the B. C. interior, notwithstanding the hard blows they received in 1922 through poor markets, are for the most part entering another growing season with the hope of better times and the determination to take advantage of every opportunity and make progress in the industry of their choice. And this spirit will surely have its reward. One might even say that possibly the trials of the last year or two will prove beneficial, for without them the province-wide organization practically perfected in a few weeks, would have been impossible for the reason that under normal conditions many would not have seen the necessity of co-operative effort. The farming industry of B. C. is not "out of the woods" yet, but there is a better tone everywhere, and one can look forward to next season's markets with much greater confidence.—Exchange.

THE RURAL WEEKLIES

Farm and Home takes this opportunity of sharing the credit which has been heaped upon it in connection with the co-operative campaign, with the many local "weeklies" published all over the province. It is true that this publication exercised the initiative and bore the expense of bringing Anron Sapiro and Boyd Oliver to this province and of conducting the Okanagan tour, but we are highly pleased to acknowledge that without the enthusiastic co-operation of the local weeklies and semi-weeklies, the success of the campaign would have been greatly endangered.

While the great and widespread circulation of Farm and

Home was an enormous advantage in spreading the doctrine of co-operation, it was obviously impossible for us to deal with every phase of local opinion and special problems peculiar to each district; nor did we attempt to do so, contenting ourselves with dealing with the problem as a gigantic whole and relying upon the good sense and public spirit of all local editors to handle their particular circumstances. Our expectations were more than satisfied, and it is safe to say that never since the launching of a war-time national loan was the press more unaniously in support of any public action.

We congratulate the local editors and trust that their great service and public spirit will be readily recognized and appreciated by all concerned.—Farm and Home.

CHOOSING A MANAGER

Now that the fruit growers of the province have signified their acceptance of the co-operative principle in no uncertain manner, another important action must be taken. In Sapiro's words, we have a goal and know where we wish to go; we have constructed the vehicle to take us there and all that remains is to secure the services of a competent driver. Once that is done the journey may begin, the destination being permanent prosperity for the fruit-growing industry.

It is gratifying to note how seriously the organization committee views this matter of choosing a general manager; they have wisely sought the advice of some of Canada's most eminent financiers and business men with the object of finding the best man available on the continent. There will be many local and other aspirants for the position, but there will be no experimenting in this all important matter. Such a man will ultimately be found, but there may be a slight delay.

Altogether, the industry has acquired the great family or community spirit and never in the history of British Columbia were the prospects of our fruit-growers brighter than they are today. Out of darkness has come light and out of near-despair have arisen new hope and new life.—Farm and Home.

HEALTH BEFORE MARRIAGE

Possibly the value of the recent suggestion of Hon. A. M. Manson, attorney-general of British Columbia, to make a certificate of health a requirement in obtaining a marriage license, is somewhat over-estimated, though doubtless a good suggestion. It touches a subject wherein reforms must be fairly gradual to accomplish permanent good. There is always a danger of such legislation having the effect of increasing the number of persons who dispense with the legalities of marriage; also many couples can simply go elsewhere to be married where the requirements are less strict. But the need of the law indicates that parents and guardians lack a sense of their responsibilities in this matter.—B. C. Veteran.

Breezelets

By M. K. W.

ATTENTION A recent newspaper item contained the information that certain European immigrants, who could not achieve citizenship in the U. S. with facility, were wont to locate in Canada, become Canadian citizens, then emigrate to the United States as "Canadians," their naturalization papers in this country serving as sort of baptismal documents, I suppose. Of course, this is a tremendous compliment to Canada, (or is it?) but the question is: Can we afford to do it? It takes slathers of money to Americanize (speaking in a continental sense) these particular types of immigrants, and when we get them in the way of being a paying proposition in the economy of the nation, then they scamper off to U. S. A.

Let the United States harden off their prospective European settlers themselves, I say. Our own children (Anglo-Saxon stock for a dozen generations) have honored some of our B. C. districts by making them the places of their nativity. Yet, when they are ready for high school they must either forego further schooling or go to some more favored district at their own expense. My own opinion (not too humble) is that some of the money spent in civilizing European immigrants to that stage where they may be made welcome in our sister republic, might heap better be spent in providing high schools for our native born children.

Not long ago our M. L. A. told one of the local bodies of the W. I. that they had it in their hands to plant little legislation seeds and carefully nurture the seedlings all the way to Victoria. (There now! To be sure, the Oriental question is absorbing, but there is such a thing as overindulging this pet anxiety of ours to the neglect of other vital phases of the immigration responsibility. Could not the Women's Institute send in a resolution which should embody a suggestion that Uncle Sam swap some of his British settlers (which outnumber the Britishers settling in Canada probably ten to one) for some of our polished-off Europeans?

Of course, nothing could come from it but ———

Canada exported meats and allied products to the value of \$30,752,000 last year, and imported to the value of \$10,265,000, exports exceeding imports by \$20,487,000. Bacon and hams comprised the greater part of the exports.

FRIDAY
Pride a Pitfall—Pride goeth before destruction, and a haughty spirit before a fall.—Proverbs 16: 18.

SATURDAY
God Loves the Good—Truly God is good to Israel, even to such as are of a clean heart.—Psalm 73:1.

SUNDAY
The Power of Thought—As he thinks in his heart, so is he.—Proverbs 23:7.

MONDAY
A Safe Investment—He that hath pity upon the poor lendeth unto the Lord; and that which he hath given will he pay him again.—Prov. 19: 17.

TUESDAY
No More War—Nation shall not lift up sword against nation, neither shall they learn war any more.—Isaiah 2: 4.

WEDNESDAY
How to Win—Trust in the Lord and do good; so shalt thou dwell in the land, and verily thou shalt be fed. Commit thy way unto the Lord; trust also in him; and he shall bring it to pass.—Psalm 37: 3, 5.

THURSDAY
Fear Destroyed—Fear thou not; for I am with thee; he not dismayed; for I am thy God: I will strengthen thee; yea, I will help thee, yea, I will uphold thee with the right hand of my righteousness.—Isaiah 41: 10.

PENTICTON HOSPITAL DEFICIT.

Penticton Hospital statement for February shows a deficit of \$417.25, earnings being \$1066.50, while expenses were \$1483.75. The cost per patient day was \$4.10.

Bachelors and spinsters in the United States make up the larger part of those who in their old age are obliged to depend on the town or state for support. Figures show that of men who have a trade only one in a hundred thousand has to go to the poorhouse, and that of men with a college education the proportion is smaller still.

Uncle John's Joke

WE HEAR THAT THE BIG MOVIE "DICTATOR" SAYS THEY WILL PRODUCE BETTER PICTURES WHERE THERE IS A WILL THERE'S A HAYS!

A certain old dame had three lodgers, and was troubled by them coming in very late at night. One day, after a particularly late home-coming, she addressed them angrily: "You three are a fine pair. Last night you didn't come in till 3 o'clock this morning. I've warned you half-a-dozen times before, and I won't warn you twice. If you are going to stay here and carry on like that, you had better leave at once."

Yoo-hoo, Fair Maiden
How times have changed! Years ago the fair maiden would sit in a high secluded tower and pray to the Lord to send her a lover. Now she goes down to the corner and picks one out herself.

Mr. Kidder Talks.
Wife—"Does she dress well?"
He—"I dunno, I never watched her."

THEY QUIT ADVERTISING
Now the Famous Firm of Day & Martin Have Had to Quit Business.

If you ever read Dickens' "Pickwick Papers" you recall that Mr. Pickwick had his boots polished with Day & Martin's blacking. Day & Martin was a real company, famous for generations.

Now it is selling out—quitting business. Its managing director, with a troubled look in his eye, explains: "We failed to keep our advertising."

It was advertising that "made" Day & Martin. But, like many other concerns, it thought that, once established, it no longer needed publicity. The public dies off and a new public is forever coming on the stage. This new public naturally has to be reached by ads, else it will not know of the advertiser. Even when it knows, it forgets quickly unless constantly reminded. Advertisers should keep in mind the fate of Day & Martin.—Vancouver World.

FARMERS' INSTITUTE

A FIELD DEMONSTRATION IN TOPWORKING OF TREES IN THE FOLLOWING ORCHARDS:

A. McGown's 9.00 a.m. G. Marshall's 10.30 a.m.
H. K. Lott's 1.30 p.m. R. S. Jackson's 3.30 p.m.

NOTE THE DATE—

THURSDAY, MARCH 29, 1923

Mr. W. T. Hunter, District Horticulturist, assisted by J. Tait, D. F. Inspector, will take charge.

In the evening of the same day, at 8 o'clock, in the New Central School, West Summerland, Mr. R. Pollock will give an address on "Farm Accounting," and Mr. W. T. Hunter, Vernon, will talk on "Pest Control."

EVERY FRUIT GROWER SHOULD MAKE IT A POINT TO ATTEND.

THE MAN WHO SIGNS MUST MAKE GOOD!

A responsible man puts his name to a piece of paper and it becomes a cheque—the equivalent of money.

He signs his name on the back of another piece of paper and it becomes an endorsed note—good for money.

He writes a letter and it becomes a binding contract.

The adding of the name makes these things solemn and legal obligations.

The man who signs is responsible.

Just so with an advertisement—the moment a man signs his name to it he has made a pledge to the public.

He is bound by his word as much as if he signed a cheque or note. He must do what he promised on the terms he promised.

If he does not, he courts business disaster. The man who advertises a lie publicly proclaims himself a liar. Such men are seldom in business but frequently in asylums.

It is safer to buy advertised articles than nondescript ones. It is safer to deal with merchants who advertise than with those who do not.

An advertisement is a signed pledge of good faith to the public.

See the merchants and manufacturers who welcome the chance to back their goods and products with their names.

To the Editor of The Review:
Dear Sir,—Replying to letter by "Bill" regarding forming a dramatic society, I would like to put my vote in as follows:

As Bill says, this would be one of the best things for fostering a community spirit between the two towns. I feel sure we have as much local talent here as they have in any average small town.

Also it would be a splendid idea if we could form a club, not a society, and as I have seen quite a few of our business men and talked with them about this, I feel sure that the club would not be lacking in ardor for entertainment, providing we can start it. As "Bill" says, we want a little "Fun Club" that would take in everybody free of charge.

I believe, Mr. Editor, that a club of this kind can be started quite easily. Hoping to hear from some other readers on this subject, I will close as "Bill" closed.

Yours for lots of fun,
BILL 2ND,
West Summerland, March 13, 1923

GRAIN CLEANER FOR FARM USE

Medicine Hat, The Canadian Farm Implement Co., Ltd., is reported to have secured the manufacturing rights for the Van Allen field grain cleaner and to have completed contract with a local foundry for a supply of these machines. The cleaner is a Canadian invention which has been put through successful tests in North Dakota and Manitoba harvest fields last fall. It works alongside the separator under its own power and frees the grain of all soil seeds and dirt as it is threshed, bringing it down to straight grade and leaving the farmer his screenings ready ground for stockfeed.

REGISTRATION OF POULTRY

Qualification of Production Like "Record of Performance for Cows."

Only Hens Laying Two Hundred Eggs or More Are Eligible.

"I consider the registration of poultry the greatest development that has taken place in connection with the poultry industry for generations." This was the remark of Dr. J. H. Grisdale, Deputy Minister of Agriculture for the Dominion, in an address delivered to the Ottawa Poultry Association. He added, "it is adding to the existing standard qualifications the qualification of production." Registration is distinct from any other policy that has to do with high producing hens. Only those birds laying 200 eggs and over, averaging 24 ounces to the dozen, in 52 consecutive weeks in the Canadian egg laying contests are eligible for registration. Further it is necessary that these birds be typical of their breed and free from standard disqualifications.

A few birds have already been registered, and those fulfilling the qualifications in the laying contests conducted by the Experimental Farms during 1921-1922, number 308. By breeds these are made up as follows:

- Barred Plymouth Rocks 197
- S. C. White Leghorns 184
- White Wyandottes 30
- S. C. Anconas 19
- S. C. Rhode Island Reds 9
- Buff Orpingtons 5
- R. C. Rhode Island Reds 2
- Andalusians 2

By laying contests these eligibles are divided as follows:

- Canadian Laying Contest 134
- Ontario 76
- British Columbia 55
- Alberta 44
- New Brunswick 25
- Manitoba 22
- Nova Scotia 20
- Saskatchewan 13
- Prince Edward Island 8
- Quebec 1

Registration fees are, for each bird, 50c, for each transfer, 50c, breeders' mark \$1, and flock name \$1, providing membership is held in the Canadian National Poultry Record Association. The membership to this association is \$2 per year. To non-members the fees are doubled. Full information with regard to registration may be obtained through the accountant, Canadian National Live Stock Records, the Superintendents of Dominion Experimental Farms; the Dominion Poultry Husbandman, Ottawa, and the secretary of the Canadian National Poultry Record Association, Ernest Rhoades, Box 52, Ottawa.

Naramata News

Current Events of Town and District

Mrs. Noyes left for Kelowna on Thursday's boat to visit her daughter, Mrs. Hume.

The first practice for community singing was held on Friday evening with a fair attendance. Good work was accomplished on standard selections.

Much inconvenience is found to result from the cutting off of telephone service across the lake, and it is hoped that the broken cable will very soon be repaired.

At the Union service on Sunday afternoon, Rev. H. E. Livingstone officiated at the baptism of Mr. and Mrs. Scaife's baby. Later on, Mr. Irwin read to the meeting a report from Mrs. Allen of the proceedings of the W. C. T. U. convention in Vancouver, at which she was the Naramata delegate.

Mr. and Mrs. Elvers are back from Drumheller, where they have been spending the winter.

The newly-elected directors of the Naramata Local of the Co-operative Growers held their initial meeting on Tuesday morning, transacting some preliminary business.

The C. G. I. T. met on Thursday evening, Miss Cathie Handcock presiding. There were also present Miss Vanderburg, Mary Young, Alice Cross, Colina Kennedy and Florrie Lyons. Arrangements were made for the holding of a paper chase the following week. Miss Vanderburg read a paper on "Hospitality," after which the meeting adjourned.

Another election for a school board trustee is rendered necessary by the resignation of Mr. Fred Manchester, who has been officiating as chairman of the board. The date of the meeting has been fixed for Wednesday, the 28th inst.

Mr. Fred Cross, who has been in Winnipeg for the past few months, returned home on Saturday and is once more busy on his ranch.

Influenza has been in evidence during the past few days, several residents being more or less under the weather. Amongst those who have felt its effects are Mrs. Weaver, Mr. and Mrs. Tanner, Mrs. Smith and son Leslie.

CATTLE BRING LOW PRICES

The Land & Agricultural Co. of Canada, Vernon, made a shipment of three carloads of fat cattle recently to Vancouver. It is authoritatively stated that, though the top Calgary prices were realized, the returns will barely pay for the cost of feed consumed since the animals were put into winter quarters at the end of November, which means that nothing was obtained for their cost for the three years previous.

After-Eating Distress

and all forms of stomach trouble such as gas, pains, acid, sour burning stomach are all relieved in two minutes by taking Jo-To. Jo-To sold by all druggists.

"THE CHILD THOU GAVEST ME."

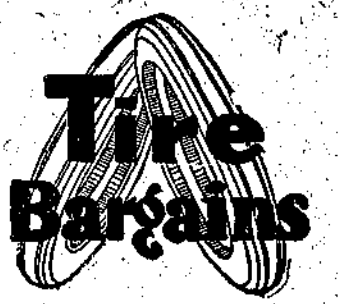

"The Child Thou Gavest Me," a thrilling story of domestic tragedy in high life, will be the feature at the Rialto theatre, Friday and Saturday, March 23rd and 24. It was produced by John M. Stahl, and is the most pretentious work of that gifted director. While it is characterized as an all-star attraction, little Richard ("Itchie") Hendrick, who scored such a hit in "Playthings of Destiny" and "The Woman in His House," runs away with the honors. The story opens with a wedding and the discovery by the bridegroom that his wife of an hour has a son. He dedicates his life to finding the father, swearing to kill him, and as a part of his plan invites his wife's former sweethearts to his home and watches them surreptitiously. Finally he is convinced that his best friend is the one he is seeking—and his revolver barks. But he quickly learns his error and discovers that the man is—Never has a picture contained such a surprising and wholly unanticipated climax.

The production is noteworthy for the lavishness with which it has been staged and the acting of such prominent actors and actresses as Lewis Stone, William Desmond, Barbara Castleton, Winter Hall and Adole Farrington. It is a picture which many persons will want to see more than once.

OUR LAKES.

One of the delights of the Canadian Rockies is the great number of exquisitely tinted lakes. They are of many sizes, ranging from a few yards to several miles in length, but from the thickest tarn to a sheet of water like Lake Minnowanka in Banff National Park, Alberta, they are distinguished by a brilliance and purity of color which is truly goniolic.

The Natural Wealth of Canada
Water Powers

PRACTICALLY every industrial centre of the Dominion enjoys hydro-electric energy. Canada has potential water power resources to the extent of nearly 20,000,000 horse power, only 12 per cent of which has yet been developed. As the application of hydro-electric power is only in its infancy, Canada's wealth in water power is an asset of incalculable importance to the industrial development of this country.

"MAKERS OF THE NATION'S TELEPHONES"

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims. Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim. Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land. Unsurveyed areas not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage. Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive. No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions. Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchases, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1910, for systematic development of live stock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ton head.

B. L. HATFIELD McLaughlin AND Chevrolet Cars. CONSIDER THE ACORN.

It is a nut, yet when it falls from the tree it has wrapped up in its shell an unalterable resolution to produce an oak tree. It is a nut, but it needs only the environment of earth, warmth and moisture to accomplish its job. It is a nut, but it never produces a string bean vine, a lomon tree or a huckleberry bush. It is a nut, but it specializes on oak trees and never falls. You, too may be a nut, but if you have the acorn's same high purpose, the same firm resolve, no human power can stop you. Consider the acorn; it, too, is a nut.—More Pop.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative. Mr. Kennedy returned last week after a short visit to the Chilliwack country to look at some property. He says he likes the country around there fine.

W. Lambly was a visitor to Kelowna on Thursday. Mr. Crooks and family have taken up residence on the Brown place, which they have leased for the season.

Mr. and Mrs. Webber, of Glenrosa were in town on Thursday, shopping at the Peachland stores.

A few of our young men motored down the Valley on Thursday to make application to get on works soon to open up.

Mrs. N. A. MacDonald, of Pentiction for a few days of last week, was a guest of her cousins, Mr. and Mrs. H. E. McCall and other relatives. She returned home Saturday evening.

Miss Bertha Johnston and Miss Dorothy Tingley, of Summerland, spent a couple of days of last week visiting Miss Elva Williamson, of the Trepanier Townsite, returning home on Saturday evening.

Jas. A. Miller, H. Williams and son and the Topham Bros. were in Kelowna on Friday.

The Women's Circle of the Methodist Church have for some years been treating a Peachland audience to an entertainment on or about the 17th of March, with a program suited to that particular occasion. This year it took the form of a three-act play, entitled, "When a Man's Single." Those taking part were Mrs. O. Keating, Mrs. J. McLaughlin, Jr., Miss Elva Williamson, Miss Myrtle Keating, E. F. Gummow, W. Buchanan, Jr., Earl Weitzel and Franklin Elliott. They each and all performed their part to perfection and several of them had no small amount to memorize. Their get-ups were good and well suited to the parts, and from start to finish the audience was deeply interested, watching the straightening out of the various misunderstandings and entanglements. It was not only interesting but extremely amusing throughout. In the interval between acts Mr. Martin favored the audience with a few of his well rendered solos, with Mrs. Martin ably officiating at the piano. The hall was filled to capacity and the receipts for the evening were gratifying. Although she had well chosen and able talent to assist her in the carrying out of the play, much credit is due Mrs. G. Jones, who arranged and conducted the rehearsing.

The Misses Ida Ruffie and Edna Cudmore spent Saturday last in Kelowna.

Mrs. J. L. Elliott went over on Saturday morning's boat to spend a few days visiting friends and relatives in Kelowna.

After a few days visit in Peachland, a guest at the home of Mr. and Mrs. H. E. Trimble, Mrs. Thompson returned to Kelowna Saturday morning.

Mrs. Martin paid her usual week-end visit to Westbank on Saturday.

Mrs. Long and her daughter, Doris, returned home Saturday evening from England where they spent a portion of the winter.

Rev. H. A. Solly, of Summerland, made his fortnightly visit to Peachland on Sunday and conducted the service in St. Margaret's church.

Jas. Hayward returned Monday morning from attending in Vancouver, the funeral of his wife, who was taken ill and died suddenly in that city, at the home of her daughter.

Mr. J. Harris returned to Peachland on Monday morning to take up his duties at the central school after a week-end visit at his home in Summerland.

A water tap and sink have been installed in the kitchen of the Municipal Hall for the convenience of the various clubs, societies and institutes using the hall. This will be found very handy as the kitchen is very frequently called into play by the various bodies using the hall.

The Manitoba Old-timers' Club met in the Municipal Hall on Tuesday evening for the purpose of arranging for a social gathering in the near future of all Peachland citizens formerly of Manitoba residence. A committee comprising Messrs. Lang, McBean and McCall was appointed to engage the hall for a suitable night as near the 1st of April as possible. Mrs. Ferguson, Mrs. Keating, Mrs. Murdin, Mrs. J. McLaughlin, Jr., and Miss Metcalfe were appointed a refreshment committee, and Messrs. Lang, Cousins, T. Elliott and W. Metcalfe forming the executive. In the absence of the president, Mr. Lang was asked to fill the chair. It was unanimously decided to have a

real sociable gathering, as free and easy as possible; with eats, of course, but not too elaborate to interfere with the ladies-enjoying the function equally with the gentlemen.

(Received too late for Last Issue.) J. Buchanan traded in his Chevrolet on a McLaughlin car, the first new car to arrive in Peachland this season.

The Loyal Temperance Legion met in the Municipal Hall on Tuesday afternoon under the leadership of Mrs. Keyes and Miss M. Smith. Several new members were added. The meetings are being held on the second and fourth Tuesday of each month.

J. A. Miller, upper Trepanier district, reported to Municipal Clerk Dryden on Tuesday that a fire was smouldering in the old cement works building. Mr. Dryden notified Chief H. E. McCall and, accompanied by Reeve Lang, he motored out to investigate, picking up Mr. Lambly, the owner of the building and Mr. Verex. On arriving, they found that the fire was making headway and would soon have been out of control. However, with a little quick action and the application of water and tearing up of the floor around where the fire had started it was checked without any serious damage. The fire appears to have been started by some passerby having camped there and left the fire where it caught into the floor timbers.

Bert Baptist, of the Crystal Garage, was a visitor to Kelowna on Tuesday.

E. Cudmore spent Tuesday on a business trip to Kelowna.

J. H. Hyde arrived Wednesday morning to spend a few days at home before returning south.

At the regular monthly meeting of the Women's Institute on Friday, the ladies enjoyed a special treat when Mr. J. W. Jones, of Kelowna, member for South Okanagan, addressed them on "Legislation." You have only to mention the subject to the ladies since to hear them elaborate on what a fine afternoon they had and what a wealth of knowledge they had received. Some of them said "Why, there was hardly anything he did not tell us about." Previous to the meeting Mr. Jones expressed the wish that the ladies ply him with plenty of questions and he had his wish.

The ladies served refreshments and from all accounts the members were just as at home there as on their own platform. Hurrah for good legislation!

Mrs. J. W. Wright and Mrs. J. L. Elliott and Mr. J. Hayward received the sad news this week of the sudden illness and death of their mother and wife, Mrs. Jas. Hayward, a former and respected citizen of Peachland. Death occurred at Vancouver where Mrs. Hayward had been visiting with her children. Mr. Hayward, who has been lying in Peachland with his daughters since he and Mrs. Hayward broke up their home at Naramata, last fall, left for the Coast. The message was a great shock to the family, they not having heard of her illness.

LONG PRUNING IN CALIFORNIA

The value of the 1922 California fruit crop was increased approximately \$7,000,000 and the productive capital of California orchards \$100,000,000 over that of 1921 as a result of the general adoption of the long pruning method in the state, estimates B. H. Orcheron, director of agricultural extension, University of California. The use of the long pruning method began in 1918 as a result of experiments conducted by the division of pomology, says Better Fruit.

In 1910-20, 808 demonstrations of the long pruning method were made throughout California by representatives of the divisions of pomology and agricultural extension. While it is impossible to know the action taken by all of the 10,601 persons attending these demonstrations, it is known that 3,577 of them went home and used the new method of pruning on 59,018 acres. Again in 1920-21, it is known that 4,024 of those witnessing demonstrations used the method on 87,028 acres. At present it is estimated that half the area in the state is long pruned and that on an average it has increased the crop by one-third.

In Placer county the financial increase due to long pruning alone is estimated at \$50,000 a year. In Tulare county in one apricot orchard 300 long pruned trees gave a yield of 32 tons of apricots and 300 short pruned trees gave a yield of only 13.6 tons of fruit accepted at the cannery. A grower in Fresno county reports 13 tons of peaches from 90 long pruned trees and only four and one-half tons from 90 short pruned trees.

Stomach Suffering

disappears as if by magic when Jo-To is used. Gas pains, acid stomach, sour stomach, burning and all after-eating distress relieved in two minutes. All Drug Stores.

Those who have the least to say seem to find the least trouble in finding something to say.

GAINED 65 POUNDS!

"Five years ago when I was first married, I had wonderful energy. I could be on the go all day long without feeling the least bit fatigued. I had a great appetite and could eat anything. I weighed 147 pounds. I used to be busy every minute of the day and, when the day was over, I could go to bed and never waken once during the night. Thirteen months ago my first baby was born. After that my energy seemed to leave me. I was tired all the time. I had to force myself to do my household duties, instead of being a pleasure as formerly, these duties became a real task. I lost all desire for food and nothing would tempt me. I had to make myself eat. I would go to bed at night and toss from side to side for hours at a time. After a while I would doze off only to find that I had been sleeping for ten or fifteen minutes. Naturally when morning came, not having slept, I started the day completely tired out. I was shaky and nervous. The least noise would startle me and make my heart race along. I could see that my husband was worried. I was losing weight every week and had already lost 54 pounds. I tried all kinds of tonics, but they didn't help me. One night, a night I shall never forget because it started me on the way to health and happiness again, my husband brought in a bottle of Carnol. A friend told him that Carnol had saved his wife's life, so he insisted upon my trying it. Six weeks after I began taking Carnol, my weight increased from 93 pounds to 158, an increase of 65 pounds. And, am I well those days? Every morning I fairly jump out of bed ready to tackle anything and every minute of the day is a joy to me now."

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 8-623

Coming Events

Notices under this heading are inserted at 3 cents a word. Each repeat, 2 cents a word; minimum charge, 50 cents. Contract rates on application.

The Ladies' Aid of the Lakeside Church will hold a sale of aprons, home cooking, candy and afternoon tea in the parlor of the church, Saturday, March 31st, at 2.30. 789-90C

Monthly meeting Parent-Teacher Association in the school at 8 p.m. sharp, Friday, March 23rd. Light refreshments will be served. 789C

ALBERTA DAIRY PRODUCTS HUGE

Over fifteen million pounds of creamery butter were manufactured in the Province of Alberta during the past year. This is an increase of a million and a quarter pounds over the make of the year previous. There has been a steady increase in production for the past eleven years, with the possible exception of 1919 and 1920. The selling value of the product last year was \$5,023,000, compared with \$4,543,007 the year previous. An idea of the increased value of the butter industry to the province is shown by the fact that in 1912 there was \$23,500 worth of butter manufactured, as compared with the \$5,083,625 of the year just past. The number of cheese factories in the province is also showing an increase. There are now fourteen in operation. The estimated value of dairy products in the province last year is \$22,500,000. The dairy cattle on the farms of the province are valued at approximately \$18,817,776.

KELOWNA JAPANESE COMMITS SUICIDE

The dead body of Tekujire Kitamura was discovered a few days ago in a shack on Mr. Chamberlain's farm, Benoulin, near Kelowna. Evidence adduced at the inquiry held by Stipendiary Magistrate Weddell, showed that the late Mr. Kitamura had been worrying over money matters, and that he had committed suicide while despondent. He leaves a wife and boy eight years of age, who are at present in Japan, having gone there last fall for a holiday and were expected home in the near future.

KELOWNA POULTRYMEN WANT VALLEY CO-OP.

Kelowna Poultry and Pet Stock Association, in annual meeting recently, instructed the secretary to write to Mr. J. R. Terry, of the department of agriculture, Victoria, and enquire from him if it would be possible to secure the services of an experienced official of that department for the purpose of properly organizing the poultrymen of the Okanagan Valley on businesslike lines.

BY-PRODUCTS FROM SURPLUS PEARS

The utilization of windfall and cull pears presents a serious problem to pear growers. Experiments by Cruess, assisted by Bjarnason, Baldwin, de Villiers, Yoshikawa, and Irish, advanced students of the California Agricultural College, demonstrated that an excellent pear butter can be made from fresh, sound cull pears without the addition of sugar.

The peeled fruit was cooked a short time to soften it and was then converted into a fine grained pulp freed from seeds and fibre by rubbing through a fine screen. This was done upon a large scale by means of a potato pulper and finisher, according to The Evaporator. The pulp was concentrated with cloves and cinnamon in an open kettle to the consistency of apple butter. To each pound of fresh pulp was added before concentration two pints of fresh pear juice. From 60 pounds of fresh pears was obtained 12 pounds of pear butter; this includes the fruit necessary to furnish both the pulp and the juice used. At this rate one ton of cull pears would yield 400 pounds of pear butter when no sugar is added. In more recent experiments a formula of 100 pounds of pear pulp, two quarts of lemon juice, and two ounces of ground cinnamon, cloves and ginger was used. The addition of sugar yields a better product.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Snow	S.S.

Mar. 19-55	36	0.4
Mar. 20-48	30	5.0

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

G. Y. L. Crossley has gone down to the Coast on a business visit.

High school students in two plays, Rialto, April 12. 789-91

Jas. Ritchie returned on Sunday from a business visit to Vancouver.

Capt. P. S. Roe has been in the hospital since Saturday as the result of a severe cold.

R. V. Agur is at the Coast on a short business visit. He left here on the Sunday noon train.

Women's Goodyear Waxed Boots, with low heels, for \$2.95. Sizes 3 1/2 to 4 1/2 only. Beer's Shoe Store. 789

Miss Jessie Monro left last Thursday for Vancouver, where she will take a six months' business course at the Sprott-Shaw college.

He had been away about two weeks. Mrs. S. A. MacDonald and little son, Donald, left on Saturday to visit her mother in Creston, B.C.

Rev. Z. L. and Mrs. Fash have been spending the week in Penticton, where Mr. Fash is assisting Rev. Isaac Page, of the Baptist church, with special services.

G. A. Marshall is going back to Okanagan Centre to the same position he held until a year ago. He has been engaged by the company for a period of two years.

For Sale—A small quantity of Arsenate of Lead at 25 cents per lb., and Black Leaf 40 at \$14 per 10-lb. tin, at Naramata and West Summerland. Matt G. Wilson, Liquidator, Summerland Fruit Union.

Any person requiring parts for making radiophone sets can get complete wiring diagram for 25 cents from P. S. Roe. Price will be refunded on the first purchase of parts. 789

Mrs. R. M. Ross is expected home this week from Vancouver, where she has been with Donald for some time. Donald is taking a course in telegraphy and has been given further leave of absence until May 1st, from the C. P. R. office here for that purpose.

Order your Easter Flowers Early. We will have a good selection. M. A. Travis, Florist, Penticton. 789-0

Hairy Vetch Seed at 23 cents per pound, and Alfalfa Seed at 25 cents, may be obtained at the Summerland House of the Fruit Union. Matt G. Wilson, Liquidator. 789-91

Mrs. Marsden, wife of Mr. Sidney Marsden, Winnipeg, brother of Douglas Marsden, of this place, was a visitor to Summerland this week.

There is much activity at the Experimental Farm just now, with the starting of work on the land. Extra teams have been engaged. A powerful pumping plant has been ordered which will be installed at Trout Creek for the purpose of lifting water with which to augment the irrigation service. Superintendent Holmer states that the pumping plant on the shore will be used only to irrigate the low land in that vicinity.

The monthly meeting of the Summerland Women's Institute was held March 16th, in the parlor of the Lakeside church. Roll Call, answered by "Famous Lawyers," proved very interesting. Mrs. Lipssett read a splendid paper on "B. C. Laws Relating to Women and Children," her knowledge of this subject is so thorough, that she left no part in the address open to discussion. The address was well received by a fairly good attendance of members, and a hearty vote of thanks was accorded Mrs. Lipssett. The president, Mrs. Knowles, presented a report with reference to the children's playground.

A. S. Peck left on Tuesday for Southern Oregon by way of Vancouver. Last week he received a telegram from his father, who is connected with a contracting firm now building one of the state highways running south through Oregon into California, in which telegram he was offered a position with the firm. Declining to accept the offer, Mr. Peck made hurried arrangements to get away. Mrs. Peck and their little son will leave later to visit her mother at the Coast and as soon as satisfactory arrangements can be made, she will join Mr. Peck at Klamath Falls, Ore. About fifty friends surprised Mr. and Mrs. Peck on Monday, when a social was given in their honor at the Premier Hotel, the evening being spent in cards and dancing. Mr. Peck will be missed by many friends, who will wish him success.

Mrs. Thos. Dale has as her guest her niece, Mrs. Corner, of Kelowna.

Mrs. Vicary and daughter have moved from Hospital Hill to the Roberts cottage in Peach Orchard.

Keep April 12 for Lundie entertainment for G. W. V. A. building fund. 789-91

Don't miss Lundie lecture on "Africa," Rialto, April 12. Colored pictures. 789-91

If your little girl wears size 10 or your boy size 4, they can get real bargains in Footwear at Beer's Shoe Store. 789

A large bush fire at Trout Creek on Monday caused considerable uneasiness for a time. No damage was done.

Harry Hobbs has just received the first prize of \$5, awarded by the government for the boys' and girls' high school poultry competition of last year.

Summerland tonnage under contract to the new co-operative has been considerably increased by the signing up of the several orchards owned by Mrs. Basil Stuart.

Having gone into voluntary liquidation, the Summerland Fruit Union no longer needs a manager and E. R. Simpson, who has held that position, terminated his engagement with the Union yesterday.

Mr. and Mrs. Spears, of Brandon, were week-end visitors of relatives here, Mr. and Mrs. G. H. Iglis. Recently married in Manitoba, they have been spending the last two months at the Coast and were on their way back east.

The discount sale on all lines of Dry Goods and Boots and Shoes is still being continued at A. Milne's. Three pairs Ladies' Hose, \$1. Three pairs Children's Hose, \$1. Fifty per cent off Ladies' and Children's Shoes. 789

Arthur Gould is planning on leaving here shortly to return to Tisdale, Sask., where he has taken up one of the free grants of farm land made by the Dominion Government to ex-service men. As announced in his advertisement, he is disposing of his household effects and other equipment.

That Summerland now has, in his new equipment, one of the most powerful receiving sets in Canada, is the statement made by Capt. P. S. Roe, who further adds that he will have his radio equipped this week with a loud speaker. This latter is the very latest and is equipped with special tubes, made by the Western Electric of New York, tubes designed for relay of long distance phone messages, but which have been found to be a wonderful success in increasing the volume of sound from radiophones. Captain Roe is planning to give a public entertainment with his new equipment, the proceeds of which he will donate to the hospital.

In memory of St. Patrick, the patron saint of "Ould Ireland," the members of St. Andrew's Union Ladies' Aid held a delightful at home in the hall on Friday, March 16th, the hall being tastefully decorated with the color so dear to the Irish heart. A splendid musical program had been arranged, including choruses by the choir, solos by Mrs. Rumball and Messrs. Alex. and J. O. Smith; recitation by Mrs. A. H. Steven; a vocal duet by Mrs. J. D.

Wood and Miss Marie Arkell; a vocal quartette, and a piano duet by the Misses Ida Shields and Sue Whiteford. Refreshments were served during the evening and a most enjoyable social time enjoyed by all who attended. The proceeds of the evening, which go to the funds of the Ladies' Aid, were about \$34.

SPRAY NOW FOR BLISTER MITE

The blister mite winters over under the bud scales and just as soon as these scales loosen up the least bit it starts to move toward the green tip of the bud. The mite is not killed by the contact of the lime-sulphur, but by being sealed in under the bud scales by the coating of the lime-sulphur which smothers them to death.

Use lime-sulphur 1 to 8 dilution. Spray with good pressure, make a fine mist spray to cover all parts of the limbs and twigs completely. Have your spray ready now and apply it as soon as you can get the sprayer into your orchard.

Thoroughness and time of application are essential to the effectiveness of the spray.

PEACHES TO LONDON.

The Beaumont district of Riverside County, California, is developing a rather remarkable fresh fruit export trade, according to Better Fruit. The local fruit growers' association recently received word that peaches and pears shipped Sept. 6 to London, England, had arrived in fine shape and were being sold at phenomenal prices. They recently shipped two carloads of French prunes to London. Just previous to that, they sold 300 boxes of Delicious apples, 72 to 113 per box, at \$3.50 per box, netting the growers about five cents per pound at the packing house.

COAST BERRY GROWERS FORM CO-OPERATIVE

Holding Company Will Build Pre-cooling and Preserving Plant.

Following a two-day discussion, berry growers of the Lower Mainland organized the Berry Growers' Co-operative Union of British Columbia, embracing the following organizations:

The Fruit and Mercantile Exchange, Hatzie, Maple Ridge Fruit Growers, Haney, Whonnock and District Fruit Growers; Chilliwack United Growers; Port Kells Berry Growers; Strawberry Hill Farmers' Institute; Newton Road; Richmond Berry Growers, Eburne; Abbotsford District; Burnaby Producers Co-operative Association; Western Producers; Burquitlam, and the Burnaby Lake Fruit Growers. Three Vancouver Island associations are represented, Courtney District, Cowichan Fruit Growers' Co-operative Association, and the Nanose District Fruit Growers. The interior of the province is represented by the Salmon Arm district, which includes all the berry-producing sections of the Okanagan Valley, the district of Creston, Wyndell and Nelson, and the whole of the Kootenays.

A separate holding company is being formed for the purpose of acquiring and financing the present pre-cooling and storage plants owned by the various locals. The holding company also proposes to immediately begin the erection of pre-cooling plants at Haney and Chilliwack and other points. The new plants will contain every modern feature known to the trade and will be capable of handling berries through the various stages of processing and preserving.

The new officers are Messrs. J. B. Miller, Mission, president; H. P. Simpson, Maple Ridge, vice-president; H. M. Eddie, secretary-treasurer and E. Doberer, Salmon Arm, general manager.

MOTOR CAR and TRUCKS FOR SALE

Tenders are invited for the following:

- One Chevrolet 490 Special Touring Car, 1922 Model.
- One 2-Ton Giant Truck, 1920 Model.
- One 1-Ton Giant Truck, 1920 Model.
- One 1 1/2-Ton Commerce Truck, 1921 Model.
- One 1 1/2-Ton Republic Truck, 1919 Model.

Those trucks are in excellent condition, having been used only for a few months each year while the fruit was moving, and having been well looked after.

MATT. G. WILSON,
 Liquidator Summerland Fruit Union.

NOTICE

SUMMERLAND AND NARAMATA GROWERS

All orchard and apple boxes the property of the Summerland Fruit Union must be delivered to the warehouses of the Union not later than March 31st. Retention of same after that date will make grower liable to prosecution. Orchard boxes marked with grower's name are in most cases now the property of the Union, payment having been made at or before March, 1922, by the Union either in cash or by crediting grower's account.

MATT. G. WILSON,
 Liquidator for Summerland Fruit Union.

1922 Fruit Shipments From Okanagan Valley

Official fruit shipment figures for the Okanagan and a couple of main line points have been issued. From those tables, given below, an excellent idea of the package shipment of fruit for 1922 from each district can be obtained. It may be mentioned that apples run about 42 to 45 pounds to the package, cranberries about 42 pounds, plums 20, prunes

WORLD'S LARGEST BENTONITE DEPOSIT ON C.N.R. IN ALBERTA

In a speech delivered by him before the Calgary Board of Trade, Professor Pitcher, professor of mining at the University of Alberta, Edmonton, stated that one of the purest deposits of bentonite in the world had been found at Rosedale, Alberta, situated on the Canadian National Railway, near Drumheller. There are millions of tons of it in Alberta, he said, and its proper development would mean a fortune for the company taking the work in hand. Bentonite is a hard, rock-like substance, which swells greatly when exposed to water. It is used in soap making, is a base for thermofuge, and is used as a sort of mud massage by barbers. It is also used as lubricant, with other constituents.

UNION OIL COMPANY COMING TO VERNON

The Union Oil Company has obtained an option on a lot with trackage at Vernon, and plans are under way for the erecting of oil storage tanks.

It is believed that this company will establish other units throughout the Valley.

HOW TO START BEEKEEPING

(Experimental Farms Note)

Bees can be kept profitably almost anywhere in Canada and each year the number of beekeepers gradually increases. Anyone can keep bees, but it is advisable that persons having an unusually high nervous temperament and those who are badly affected by the poison of bee stings should not attempt it. The returns from bee-keeping are as certain as those in any other business, and I do not think there is any other branch of agriculture that yields as high returns for the small amount

WOULD REDUCE TEACHERS' SALARIES

Penticton Council Asks School Board to Make 10% Cut.

The Penticton Municipal Council has asked the school board of the district, to reduce the salaries of the teachers 10 per cent. The attitude of the chairman of the school board is that to do so would mean to lose many members of an excellent staff of teachers. He claims that the salaries paid there are lower than at

of capital invested, or the time required.

Anyone intending to start beekeeping must have a fair knowledge of bee behavior and what the bees require. A thorough knowledge of modern methods is not necessary to make a start; indeed, this knowledge can only come through years of practical experience. The wider one's experience, the better beekeeper one becomes. It is essential to be able to apply knowledge promptly and to do the right thing at the right time. The business of beekeeping is one of details and one that requires specialists. To gain the knowledge required, it is advisable for the prospective beekeeper to spend at least one season with a good beekeeper, if at all possible. If this cannot be done, much may be learned by attending short courses in beekeeping at any of the colleges, reading good books on the subject or visiting neighboring bee yards as often as possible.

When ready to take up the business the first consideration is one of location. A good location is one that will produce a fairly continuous supply of pollen and nectar from early spring until fall, with at least one source that can be depended upon for a heavy crop. Transportation, avoidance of overcrowding, and shelter from winds are other factors to bear in mind when choosing a place for the apiary. Locality will also determine the system of management, the equipment used and kind of honey produced.

Whenever possible the beginner should purchase one of two colonies of Italian bees with tested queens in his own vicinity. These should be in modern hives. The hive in common use is the ten frame Langstroth, although some beekeepers now prefer a larger hive carrying twelve frames, or the ten frame Jumbo, which is a deeper hive.

Bees can also be bought in one, two or three pound combless packages, and if obtained early enough in the season are often equal to overwintered colonies. No one should make the mistake of purchasing package bees until he has hives and other accessories in readiness.

In addition to the colonies of bees a supply of supers is necessary for the storage of the crop, the equivalent of three deep supers being allowed for each colony. Queen excluders, bee escapes, smoker and a veil are also necessary. If increase is desired a few complete hives should be on hand for this purpose. There are several manufacturers of bee supplies that send out catalogues on application, and by studying these the beginner should have no trouble in choosing the supplies he might require. It must be borne in mind, however, that the equipment purchased should be modern and suitable for the purpose it is intended for; also to keep it standard. The importance of a small beginning with as little expense as possible

cannot be too strongly urged. Unless one has had some experience with bees, do not be tempted to purchase a large number of colonies, even though they are offered at a bargain. It is discouraging to invest a large sum of money in an apiary and then to lose most of the bees during the first winter through lack of experience.

CONTROL GATE BEING PUT IN MAIN CANAL

Council May Take Advantage of Markets to Improve Sinking Fund.

For the purpose of maintaining an even flow of water from Trout Creek into the main canal, a regulating flume designed by Coun. Kirk, chairman of the water committee, will be installed just below the intake. This decision was reached at the regular meeting of council, held on Friday, when Coun. Kirk submitted plans and specifications, and also an estimate of cost, prepared by Foreman Tomlin, the cost being placed at \$147, plus 10 per cent for overhead expenses.

The water committee was also authorized to put in a suitable weir at the point where the south main divides into Giant's Head and Paradise Flat mains, for the purpose of making an accurate division of the water at this point.

Reeve Campbell suggested a measuring box on the Prairie Creek main near Major Hutton's property, but this was not definitely decided upon. Of the \$1000 voted for in the last bylaw for the purpose of providing measuring devices, but \$300 remains and no more measuring boxes will be provided for out of capital account until the cost of those already ordered has been ascertained.

New connections for the several laterals leading from the south main down into Prairie Valley must be provided and the council decided that measuring boxes should be put in here, as the additional cost would be only two or three dollars for each connection.

Victory Bonds are now at a premium and a brokerage house has written the municipality, suggesting that the Victory bonds now in the treasury be disposed of and other bonds guaranteed by the provinces at favorable prices, be purchased, Grand Trunk Pacific bonds, guaranteed by the Provinces of Alberta and Saskatchewan, at a price around 87 1/2 being offered. After some discussion this was referred to the finance committee with power to act.

C. A. Walters, of Walters, Limited, owners of ten lots of approximately two acres each, on the front bench above town, made personal application to the council to have these grouped as one lot for irrigation purposes. In the 20 1/2 acres there were about 12 acres of irrigable land and he asked that they be billed accordingly with the usual extra charge for a second connection. This was agreed to.

Councillors Kirk and Johnston were appointed to represent Summerland at Kelowna on April 3rd, at a meeting of representatives of the irrigation districts of the Valley, when laws and practices and other matters pertaining to irrigation will be discussed.

Supt. Holmer, of the Experimental Farm, in a letter, reminded the council that their irrigation season opened on April 15th and urged that the water be turned on at that date.

In discussing the opening of the season, it was stated that some steel flume has yet to be put in above the reservoir and instructions were given to have this work hastened. The present wooden flume will be hauled out and a new steel flume laid within the next few days. Instructions were given to have the water running not later than April 15th.

The Assistant Water Controller, Victoria, advised the municipality that an application had been received from R. V. Agur for license to take water from a spring in Prairie Valley for domestic water purposes. The clerk was instructed to apply for a copy of Mr. Agur's application and particularly to learn what quantity of water was asked for.

The Gartroll lot at the foot of the mud hill can be connected with a flume crossing the Sutherland lot at a cost of \$80, metal flume being used, or by following the road, at a cost of \$170. Mr. Gartroll will be advised that if satisfactory arrangements can be made with the owners of the Sutherland lot, he will be given the service.

The man who can do his work twice as rapidly as his associates, doesn't loaf around half the day—he does twice as much work.

ROE WINS SUIT AGAINST BRODER

Other Matters of Local Interest Heard in County Court.

A large docket of cases is being heard before Judge Brown this week in County Court at Penticton. On Tuesday the first case to be tried was that of P. S. Roe against Broder Canning Co., Ltd. Mr. Roe sued for an account and for the value of timbers, and blocks and tackle he had supplied in connection with moving a boiler from near Naramata to West Summerland. The company admitted the account, but declined to pay for the materials. Mr. Roe claimed they had used the materials and promised to return them but did not do so. Mr. Eric Agur, former manager, gave evidence of the materials taken from Mr. Roe, and Mr. Broder came in from the Coast to give evidence at the trial. At the conclusion of argument by counsel, judgment was given in favor of Mr. Roe for \$102.40 and costs.

Mr. W. C. Kelley acted for Mr. Roe and Mr. C. S. Lyons for Broder Company.

The next case was that of Woods vs. Littlejohn. This is a Naramata case, of interest to fruit growers. Mr. Woods claimed Mr. Littlejohn had purchased his 1922 fruit crop at fixed prices as a minimum and promised more if the markets warranted, while Mr. Littlejohn claimed the price to be paid was what the fruit realized in the market, less his commission and packing charges. This case is proceeding.

Probate of the will of the late Prof. Broad was granted by the court on the application of Mrs. C. G. Broad, represented by W. C. Kelley.

HOSPITAL BRD. ON FINANCES

Appoint Committee to Deal With Knotty Problem—Prospects Brighter.

Hospital finances were the occasion of a special meeting of the board, which was held on Monday night. There were present the president, H. C. Mellor, and Mrs. Bentley, Mrs. Solly, Messrs. Winter, Robinson, Agur, Solly and Johnston.

At this meeting six tenders were received for supplying milk to the hospital for twelve months, beginning April 1st next. One asked 10c per quart, and the others 12 1/2c and after some discussion, the contract was awarded to Dr. Lipsitt at his price of 12 1/2c.

The small number of patients during the winter has greatly reduced the revenue and the monthly deficits are giving the board much worry. This subject was discussed at various angles again on Monday night, with the result that the president and C. B. Winter were appointed a committee to investigate the suggestion of cutting down the staff with power to act.

Secretary Riley explained to the meeting the serious position in which the change made by the government in the distribution of Liquor Act funds had placed the institution. He gave figures covering this and other hospitals.

A movement has been launched among the hospitals of the Interior to have the matter taken up by the government with a view to putting the hospitals in a better position.

For the past week or more there have been quite a number of patients at the hospital and the staff has been very busy.

BALLOTING FOR MAN FOR CENTRAL BOARD

Growers of the Naramata, Penticton, Kaloden and Okanagan Falls districts will vote on the selection of a representative on the directorate of the new co-operative organization. The two candidates are H. B. Morley, a member of the Naramata Local, and A. DonBriacy, Penticton. The committee, consisting of F. W. Rolt, Naramata, J. R. Mitchell, Penticton, and R. S. Conklin, representing Kaloden and Okanagan Falls, will carry out the ballot.

Easter Thoughts

DELEGATES DO GOOD WORK AT THE CAPITAL

Representatives of B. C. Fruit Growers' Association Obtain Many Concessions.

Mr. L. E. Taylor, president of the British Columbia Fruit Growers' Association, has returned from a visit to Winnipeg, Ottawa, Toronto and Montreal, undertaken in company with Mr. Thos. Bulman to present matters of great importance to the fruit industry for favorable consideration by the Dominion Government and transportation companies. The trip was productive of some direct results, and according to the Kelowna Courier, Mr. Taylor is very pleased with the measure of success attained. Mr. Bulman is finishing up some details of business at Ottawa, but is expected to return in a few days.

The two delegates attended a meeting of the Dominion Horticultural Council at Ottawa on March 6th. Resolutions passed at the Kelowna convention of the B. C. Fruit Growers' Association were taken up with the various government departments concerned, in most cases with very satisfactory results.

An assurance was obtained from Sir Henry Thornton that the Kamloops-Kelowna branch line would be completed this year, the C.N.R. chief expressing the view that this was the most important work to be undertaken. Assurances were also received from various quarters that the money would be forthcoming for the work.

The minister of customs promised that the anti-dumping provisions of the Customs Act would be enforced early enough this year to give the fruitgrowers every protection required.

The minister of trade and commerce was interviewed upon the subject of the embargo upon fruit exported to Australia and Japan, and the matter will be taken up with

(Continued on Page 6)

CHUTE LAKE MILL LOOKS FOR GOOD YEAR

M. G. Wilson visited the box shuck factory at Chute Creek last Friday in the interests of the O. U. G. He reports the mill doing well, with a greatly increased output made possible by balancing up the equipment with some extra machinery.

W. F. Laidman, the manager, stated that he expects to cut 600,000 boxes this year, which will be more than double last year's output. The prices are up, one large order having been booked at 17 1/2 cents, and later orders at a somewhat higher figure. Having advanced this mill considerable money, O. U. G. officials are looking for a good profit this year.

BASKETBALL TEAM LEAVE FOR COAST

The Summerland High School Basketball team, accompanied by their manager, W. Johnston, leave today for the Coast, where they will play a number of high school teams. Playing their first game with Langley, their proposed schedule is as follows: Langley, Friday; Westminster Connaught High School, Saturday; King Edward High School, Vancouver, Monday; Abbotsford, Tuesday; Milner, Wednesday; North Vancouver, Thursday; and Mission, Saturday. The members of the team are W. Gayton (captain), I. Harris, E. Wilson, G. Blewett, J. Smith and K. Walden.

HUNTER & TAIT AT NARAMATA F. INSTITUTE

Give Fruit Growers of Naramata Some Valuable Assistance and Advice.

The regular monthly meeting of the Farmers' Institute brought together a large audience, which was certainly not disappointed with the varied program provided for the evening. Messrs. John Tait and W. T. Hunter, who had both been giving outdoor demonstrations of tree work during the day, were scheduled as speakers and their addresses were interspersed with several items by local performers. Mr. Tait, being called on by the chairman to speak upon irrigation matters, asked for queries from any person who wished information concerning particular points, as he had not prepared a special address. In the discussion which resulted, he dwelt on the value of early irrigation, claiming that growers were often deceived in their judgment of the moisture content of their land in the spring. He contended that much of the drop of blossom was caused by lack of early irrigation, and insisted that the safe guide was to be found in the use of the auger to test the condition of the ground. He also advocated spring seeding of vetch as a cover crop instead of the usual July sowing. Replying to a query concerning sweet clover, he stated that it was the best soil builder we have, but hesitated to recommend it as a cover crop for orchards on account of its unmanageable nature. Mr. Hunter, who followed, began a very accurate and lucid address by referring to the necessity of reducing the number of varieties of apples grown in the Valley and surprised his hearers with the information that no fewer than 137 different varieties went to make up the total now under cultivation. Out of this number, only 17 were of real marketable value, and these were responsible for no less

(Continued on Page 6)

ASSOC. BOARDS CAMPAIGN FOR CO-OPERATION

Valley Organization Out for Contracts for New Marketing Plan.

Pledging the support of all its members, the Associated Boards of Trade of the Okanagan at a meeting held in Vernon on Saturday, discussed the contract signing campaign and named three men to sit with the growers' committee so that every assistance might be given in having as many growers as possible sign the contracts.

In every district throughout the Valley business men are lending assistance to the campaign and they are meeting with much success. Messrs. A. O. Cochrane, Vernon; F. M. Buckland and Lionel E. Taylor of Kelowna, were named as the board's representatives to work with the growers' committee. Mr. Taylor is president of the B. C. Fruit Growers' Association.

The co-operation of the Boards of Trade was most gratefully received by the committee, who at once availed themselves of the services of the business representatives.

Ways and means of securing still more signatures to the contracts were thoroughly gone into and many suggestions were given. It was reported that Mr. W. E. Adams, of Kelowna, and J. A. Greenhill, of Penticton, had gone to the Kootenays with Organizer Sutherland, and that good results were expected from their mission.

Those who attended the meeting on Saturday were H. L. Swan, Penticton; R. A. Bantle, Mat Haason, Armstrong; H. M. Walker, Enderby; A. G. McGosh, H. F. Ross, Geo. McKenzie and W. R. Trench, Kelowna; F. S. Spencer, A. Waring Gyles, Mayor Costerton, F. B. Beattie, Vernon. W. E. McTaggart, Vernon, president, presided.

BANDSMEN ELECT OFFICERS FOR 1923

Members of the Summerland Band met in annual meeting Tuesday night when the following officers were elected: Hon. President, Roove J. R. Campbell; president, J. L. Logie; conductor, A. E. Cline; manager, Jack Logie; sec.-treas., Dolmer Dunham; band sergeant, T. Charity.

The next practice will be held on Tuesday evening at 7.30, in the high school and the manager requests that all instruments be turned in on that night.

Plans have been launched for an active season, and citizens generally will be glad to learn of the prospects of band music at open air concerts and on other occasions during the coming summer.

TO PRESERVE ITS IDENTITY

Good Roads Association Willing to Become Part of Board of Trade.

At a meeting of the Good Roads' Association, held last night at the office of the secretary, C. E. Bentley, federation with the Board of Trade was approved, provided the association does not entirely lose its identity.

Messrs. Solly and Andrew were appointed a committee to confer with the council of the Board of Trade, with the object of bringing about such modifications of the bylaws of the Board of Trade as will safeguard the identity of the Good Roads' Association, by providing a standing committee for good roads and a delegate to the annual good roads convention.

The president, Rev. H. A. Solly, had some very pointed remarks to make with respect to the movement to establish a province-wide good roads organization. He accused the Vancouver Automobile Club of being indifferent to the Interior and selfish in its confidence of its own strength of numbers. He also expressed disappointment in the attitude of the provincial cabinet with respect to the trans-provincial highway, and declared that the Interior was being made the goat, while huge sums that should be spent all over the province were being poured into the P. G. E. railway for the benefit of Vancouver and a small section of the province. Improvements in the park, in the nature of providing a tourist camp, were discussed in an informal way. This subject will be taken up at the next meeting of the Board of Trade.

MANY ATTEND P.-T. MEETING

W. C. Kelley Heard in Helpful Address on "Fitting the Child."

Seventy-five citizens attended the monthly meeting of the Parents-Teachers' Association, held last Friday evening in the central school building, and everyone felt the time had been well spent. The association now has 81 members.

The president, T. H. Riley, before calling on the chief speaker of the evening, gave a brief outline of the aims and objects of the association.

An admirable address was given by W. C. Kelley on "Education," in which he emphasized the necessity of the body of the child being in a fit condition to receive instruction. While there had been great improvements made in school buildings in the past few years, the same advancement had not been made in attention to the physical needs of the pupils. He also pointed out the fact that life is a struggle and the child should be properly prepared for it.

Principal Lundie, of the high school, asked the parents present for their co-operation, particularly with respect to reports to parents on the work of the pupils. Refreshments were served in the domestic science room, where a short time was spent in a social way.

APPLES \$1 PER DOZEN IN VANCOUVER

Penticton.—Returning from the Coast after disposing of a car of apples there at a satisfactory price, Albion Finch states that the fruit situation there presents several curious anomalies. For instance, he says, first class apples are selling in retail stalls at three for a quarter, which works out at a dollar a dozen as compared with oranges at sixty cents a dozen. Yet there are heaps of apples also selling at 75 cents a box. There are practically no American apples at the Coast at present, thus it can be seen that British Columbia is providing not only the good apples but the poor ones which break the general price. It all goes to show, said Mr. Finch, that the only way to keep up a good fair price for apples is to ship only the good ones.

The man who lets woman have her own way and never talks back, probably comes nearest to understanding her of any of them.

CO-OPERATIVE GROWERS NOW INCORPORATED

Two Separate Companies Are Formed to Handle Marketing and Own Buildings.

Crystallization of the co-operative marketing movement into business formed has now been attained by incorporation of two limited liability companies, one of which will be concerned with the marketing end and the other will hold the real estate necessary for carrying on operations.

The marketing company is named the "Co-operative Growers of British Columbia, Limited," and starts with the modest capital of \$10,000, divided into ten thousand shares. The registered office of the company is situated at Vernon.

Apart from the ordinary stereotyped clauses governing the business of a limited liability company, the following paragraphs, which appear in the certificate of incorporation, are of interest:

"The objects for which the company has been incorporated are:

(a) To promote by all lawful means the sale of fruit and vegetables and all agricultural and horticultural products, and for that purpose to enter into agreements or other reciprocal arrangements with all persons, associations, firms or corporations growing, producing, handling or concerned in the growing, producing or handling of agricultural and horticultural products for the disposition and sale of same, with a minimum of expense, directly where possible, to all wholesalers, retailers and consumers thereof, to the end and purport that the farmers, fruit-growers and producers may obtain ready markets with a maximum of returns;

(b) To conduct and carry on the business of fruit, vegetable, grain, hay and general merchants, both wholesale and retail and on commission, and to act as brokers in the buying and selling of same, and to carry on the business of buyers, sellers, exporters, handlers, traders of and dealers in all farm, garden, orchard and dairy products, and in connection with the business of a company to establish branch factories, stores, agencies, depots and other markets for the purchase and sale thereof;

(c) To sell by public auction the fruit or other farm produce owned or held for sale by the Company, and for such purposes to carry on the business of auctioneers, and to acquire or hold an interest in any firm or company whose business consists wholly or in part of selling fruit or other farm produce by public auction."

The Holding Company.

The capital of the Co-operative Growers Packing Houses, Limited, is one million dollars, divided into one million shares, and the registered office of the company is at Vernon.

Some of the objects for which the company is incorporated are recited as follows in the certificate of incorporation:

(a) To acquire by purchase, exchange, lease, or any other manner, any real or personal property and any rights or privileges which the company may think necessary or convenient for the purpose of its business, and in particular any land, buildings, easements, machinery and stock-in-trade, and to erect on any said land packing-houses, pre-cooling plants, warehouses, cold storage plants, warehouses, or other buildings which the company may require for its business;

(b) To develop and turn to account any land acquired by or in which the company is interested, and in particular by laying out and preparing the same for building purposes, constructing, pulling down, altering, maintaining, furnishing, fitting up and improving buildings of all kinds;

(c) An the consideration for any property acquired by the company, to pay cash or issue shares, stocks or obligations of this company, or in such other manner as the company may determine;

(d) To carry on any other business which may seem capable of being conveniently carried on in connection with the foregoing, or otherwise calculated, directly or indirectly, to enhance the value of or render

The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED

Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Editorial

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

CO-OPERATION.

It's not the guns or armament
Or the money they can pay,
It's the close co-operation
That makes 'em win the day.
It is not the individual
Or the army as a whole,
But the ever lasting teamwork
Of every bloomin' soul.
—Kipling.

WHOLESALE CONDEMNATION.

At a recent re-organization meeting of the Penticton Co-operative someone, said to be a newcomer, got by with a resolution condemning wholesale a number of men who have been prominent in the fruit industry of this Valley for some years.

Strange, if all these men are so worthless, that several of them should have had offers of other positions with higher salaries, which, through loyalty to their home institutions or desire to remain in the Okanagan, they have turned down.

We are inclined to believe that impartial future opinions will attribute the failure of so-called co-operation in the past chiefly to the producers themselves. The growers as a whole have never given co-operation the whole-hearted support that was necessary to its success. Had they done so, they could have put their officers and experts in a position to overcome the evils in the system that were apparent to all.

Commenting editorially on the action of the Penticton local, the Herald of that town says:

"Right off the bat," so to speak, the contract holders of the Penticton fruit local pass a resolution stating that they have no confidence in Messrs. McDowell, Lowe and Barnes, of the O. U. G.; Skinner, of the Mutual; McDonald, of the B. C. Growers, and Winslow, of the Traffic and Credit Association. The Penticton growers ask that these men be not given a place in the new organization.

"This is rather drastic. Experience has shown that some of these men have considerable ability and a wide knowledge of the fruit business and of the industry in this Valley. To condemn them out of hand in this summary and public manner is a strong step to take.

"We would suggest that instead of adopting such an action as this, the local should co-operate with the Central board with a view of using the best brains obtainable. If any or all of these men have particular talents which would be of use to the fruit business of the interior, let their services be obtained, if they are willing to work for the growers. On the other hand, if some of them are considered undesirable, such a view might be privately urged upon the Central by the local executive. But to pass open resolutions of this sort is somewhat unjust. Even assuming that in the light of past events, the growers may consider open rejection necessary here and there, surely it is unfair to lump half a dozen men together and publicly condemn them all.

"For instance, it is quite likely that most of the individuals referred to have no desire to work for the Co-operative. Then why refer to them at all, when it is not known that they are applicants for the favor of the growers?"

The Vernon News comments on the matter thus:

"We quite agree with the Penticton Herald when it disapproves of the wholesale condemning of men who have been connected with the fruit business in the Valley.

"Some of those mentioned in the resolution have received flattering offers from other concerns, which shows that their ability is recognized elsewhere, at least.

Those in the trade will remember that it was not so very long ago that Mr. Winslow received a most tempting invitation to join another concern, but like many more who live and work in this province he did not entertain the proposal. The same may be said of some of the others mentioned in the Penticton resolution.

"When an organization sets out to dictate in such a fashion it may soon find itself the one condemned because the men who have the ability to direct the affairs of the concern may refuse to work for an organization that so unwisely condemns.

"It is truly a case of 'a man being a prophet in all save his own country.'"

"We might add that if such a course be pursued by other local and growers' associations, the time may come when everyone in the Valley is ticketed 'not wanted.' Then what will happen?"

FRUIT GROWER AND CANNER.

In by-gone days too frequently it was felt that anything in the nature of fruit was good enough for the cannery. Today home and foreign competition has become so keen that the canner, to obtain trade and to hold it when obtained, must in the first instance have a primo article to put through his various processes. Mr. C. S. McGillivray, Chief Canning Inspector for the Dominion, points out that in 1918, Canada's peach pack reached only \$113,944 in value, while we imported from the United States \$226,870 worth of dried peaches and \$188,810 worth of canned peaches. In 1919 we imported \$862,257 worth and in 1920 \$932,124 worth. He also wants to know why out of a million dollars' worth of canned peaches packed in Canada in 1920 about 75 per cent. were packed from fruit grown across the border. These facts are alluded to in order to show the opportunity that is offered, first, to the fruit

grower, and next, to the canner, also as indicating that to take advantage of this opportunity for extending his market, the fruit grower must supply the canner with high grade fruits and vegetables, and that the latter in turn must place his products on the market in such a condition as to quality and grade as will command trade at home and meet export requirements. In connection with dried and evaporated fruit, it is satisfactory to know that the standard of Canadian evaporated apples is equal to the best in the world.

"IMPROVEMENTS" TO LAND.

Following a recent amendment to the Municipal Act specifying that improvements to land consist not only of buildings but of "clearing, dyking, draining, planting, and cultivating." Mr. Justice W. A. MacDonald rendered an important judgment on this matter in an assessment appeal last week. Mr. Robert McBride successfully appealed from the South Vancouver's Court of Revision assessment on approximately forty acres. The assessor, when determining the property's value for taxation purposes, added the cost of improvements, such as clearing, to the value of the land in original condition. The rate then applied to the combined total. Mr. Justice MacDonald intimated that these valuations should be segregated, so that the land could be taxed for its assessed value, and the improvements including buildings, clearing and cultivating, could then be taxed for half their value. This decision is likely to revolutionize the taxation of land in many British Columbia municipalities. Heretofore, clearing, for instance, has been taken into consideration as enhancing the land's value. Mr. Justice MacDonald's decision on the amendment to the Municipal Act requires that clearing or cultivating and planting, should be considered an improvement, like a building, and must be assessed on that basis.—Ex.

PRIZE WINNERS OF "500" CLUB

The contest for the prizes that were donated by the merchants of West Summerland to the "500" Club, were played for during the winter, was closed on March 15th, the winning members being as follows: Ladies' Prizes—1, Mrs. Rines; 2, Mrs. Morrow; 3, Mrs. Thompson; 4, Miss Marchand; 5, Mrs. Barnard; 6, Mrs. Tullett; 7, Mrs. Ramsay; consolation prize, Mrs. Johnston. Gents' Prizes—1, F. G. Barnard; 2, W. E. Rines; 3, T. J. Garnett; 4, D. Houson; 5, W. Houson; 6, W. Snow; consolation prize, V. J. Nicholson.

The club wishes to thank those who kindly donated the prizes to the club, these being greatly appreciated by all.—Con.

MANY EX-SERVICE MEN ACT IN "FOOLISH WIVES"

Hundreds of ex-service men were employed at Universal City, Cal., during the production of "Foolish Wives," the costly photodrama of Monte Carlo, to be shown at the Rialto theatre next Monday and Tuesday. They were used to give the proper soldier atmosphere at the famous Mediterranean pleasure resort, which also was a leave area of the Allied Armies during the winter following the Armistice.

Among the former soldiers who appear in the various scenes, in their own uniforms, are men and officers from almost every Allied army. Included in this list are Lieut. Edwin C. Parsons, an Ace in the Lafayette Escadrille and the holder of many French and Belgian war crosses; Major Cartwright, of the Dublin Fusiliers; Captains Michael Kustoff and Boris Germanoff of the Russian army; Major Ram Singh, of the British Hindoo forces; Captain B. Given, a British hero of Vimy Ridge; Jean Franke, a non-commissioned officer in the Belgian army, of many decorations; Baron Jarvis, who holds British war medals for both the Boer and World Wars; Roger McKennon, a noted Anzac, and Lieut. Felix O'Rourke of the Scottish Highlanders.

The American ex-service men include men and officers of all ranks from every branch of the army, navy and marine corps. A large percentage of these ex-fighters actually had visited Monte Carlo, either on leave or as hospital patients. They were able to help the picture considerably in reconstructing the life and activities of the Riviera shortly after the war.

EXTENDING DITCH TO U. S. BOUNDARY

Some 250 men will shortly be employed on the provincial government's irrigation project in the Southern Okanagan Valley, and it is expected that no less a sum than \$400,000 will be expended this season with a view to putting a large additional area under water. A metal flume is to be laid from Tostalinda Creek to the north end of Osoyoos Lake and excavating for the main ditch will be continued. Altogether this year's construction programme will place 8,000 acres under irrigation, so that the settlers in and around Oliver and Osoyoos are expecting a very busy and progressive season.

The only way to do is to be so good to your wife that she will love you so much she won't have any for foreign consumption.

PROVINCIAL VOTERS' LIST TO BE REVISED

In accordance with a statutory regulation the provincial voters' list must be revised every year. The court of revision sits on the third Monday of May in each year and this year that day falls on May 21. Registration of electors may take place any time up to six weeks of that date, when the lists are closed and a tabulation made by the registrar of the names to be considered and passed by the court of revision. Accordingly, this year all names must be in the hands of the registrar or other duly appointed officer before April 9.

Qualifications for an elector are six months residence in the province; one month residence in the riding; a British subject by birth or naturalization, and twenty-one years of age for either male or female.

SLEEPING SICKNESS ENTERS VALLEY

Penticton has a case of sleeping sickness. Robt. Meldrum, son of Mr. and Mrs. G. Meldrum, was taken ill on Wednesday night of last week and removed to the hospital on Thursday morning, suffering from this strange disease. Another boy, named Crawford, living on the bench near Penticton, recently developed symptoms of the same disease, but has almost entirely recovered.

AWARDED DAMAGES—DITCH WAS FAULTY

Following a five-day trial at Vernon last fall and argument a few days ago at Vancouver, Mr. Justice Gregory awarded \$1,000 to Mr. and Mrs. S. T. Elliott, of Kelowna, \$600 damages against the Glenmore Irrigation District.

The trial aroused unusual interest throughout the Okanagan. Water from the Glenmore Irrigation District canal escaped in 1921 upon Elliott's land and damages were claimed by him for ensuing destruction of crops. Liability was disclaimed by the defense, which contested charges of negligence, and alleged the ditch had not been constructed by it but had been maintained in the condition the ditch was taken over from the provincial government. It was a case for arbitration, according to the Glenmore Irrigation District.

Mr. Justice Gregory found that corporation guilty of negligence in not properly maintaining the ditch; but allowed damages for one season's crops only. He assessed those damages at \$600.

NARAMATA GIRLS WIN AT BASKETBALL

A basketball tournament staged at Naramata last week, by Naramata and Penticton teams, brought out a large number of spectators and proved to be very interesting. The Naramata girls' team kept up their reputation to its usual level, being winners against the visiting team by 14-7. The boys' local, however, went down to defeat by a score of 31-13 in favor of Penticton. The junior players who were scheduled for a third match did not arrive. After the play, dancing was the order of the evening, over forty couples enjoying a varied program to the playing of Mr. and Mrs. F. C. Manchester. Refreshments were provided by the local clubs and were served by the Naramata ladies.

APOLOGIZES TO SUMMERLAND

Newspaper Withdraws Statement With Respect to Signed Tonnage Here.

That Summerland had only signed up 65 per cent. of its tonnage in the new co-operative, was the statement made last week by the Penticton Herald. This statement is contradicted by the B. C. Co-operative organization committee, which sent the following telegram to the Herald:

Editor Penticton Herald, Penticton, B.C.—"In your issue March 24th under caption 'Tonnage Signed with new Co-operative, etc.' on page one, the statement is made that percentage of tonnage signed up by fruit growers, Summerland, as on that date was 65 per cent. only. This is not correct. The tonnage percentage signed on that date at Summerland was 79.4. Please correct what is apparently printer's error in your next issue. B. C. Growers Organization Committee."

In an editorial in yesterday's issue, the Herald apologizes and makes the statement that the information was given it by a member of the Penticton organization committee.

ROVERS ORGANIZE FOR COMING SEASON

The rovers scouts of Summerland, at a meeting Tuesday night, decided to put in a very busy time this summer, both on water and land. A committee was appointed to look into the subject of getting the war canoe for the season. This canoe has been in Summerland for ten years or more without being put into use. The rovers have a likely-looking crew. Mr. Jack Blewett will be asked to coach the boys and a good season is being looked forward to.

Two teams have been formed to participate in handicap athletic meets to be run off semi-monthly. The winning team will be presented with suitable prizes, while the all-round champion for the season will be presented with a silver trophy. Suitable grounds for week-end camps are being looked for.—Com.

"CONFIDENCE" COMING TO RIALTO THEATRE

What chance for a come-back in life has the man just released from prison? In "Confidence," the Universal attraction starring Herbert Rawlinson, at the Rialto theatre, some idea is offered of just what the ex-convict has to contend with after gaining his freedom. Rawlinson, always a dramatic exponent of crook roles and the like, has the part of a travelling salesman who comes to town in time to frustrate an attempt by a notorious crook to float a spurious stock issue.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

(Continued from Page 4)
He expressed appreciation of the very pleasant evening in Peachland and speaking of the ladies assistance he could say for their local that their ladies were also a great help to the organization.

Mr. and Mrs. Frank Winstone delighted the audience with two violin and piano selections, after which Mr. Hawkes greatly amused the assembly with three comic songs. Mrs. Atherton, president of the Kelowna Ladies' Auxiliary, was then called on for a short address, which, it was stated by President Topham, was intended to entice the Peachland ladies to form an auxiliary. She gave particulars of the activities of the Kelowna Auxiliary, which were very interesting, and told the ladies that she had a copy of their constitution with her if any of them wished to look at it. Sergt. Graves, past president of the Kelowna Branch, favored the assembly with two well-rendered songs, followed by a couple of songs from Mr. Martin, of Trepanier, which were also well received. Mr. C. Gowan, of Kelowna, sang and responded to a hearty encore with another choice number. Major Hardisty tendered a hearty vote of thanks to the visitors. He was sure they could go back feeling that they had assisted to re-launch the Peachland Branch on an active and successful career, and also the Ladies' Auxiliary.

Just before breaking up the Summerland and Kelowna visitors gave three rousing cheers and a tiger for Peachland. Then followed in quick succession cheers for the Peachland G. W. V. A., the Ladies' Auxiliary and the Boy Scouts, and then from the gallery, Sergt. Crooks sounded "the Last Post."

It is easy to rise in your own estimation.

Stabilizing Fruit Markets

Successful marketing of fruit is a problem which is receiving serious consideration by the growers of the States of Washington and Oregon. On this subject the March number of Better Fruit has an editorial in which it treats the subject principally from the point of stabilizing the markets. The editorial reads:

Ask any number of fruit growers what they consider the biggest present problem of the industry and you will find a surprising unanimity of opinion in the answers. Nine out of ten growers of the Northwest will tell you it is that of marketing.

That this is true is evidenced by the programs of all the various fruitmen's conventions of recent months. Questions of marketing, embracing that auxiliary problem of transportation, have been discussed wherever growers have foregathered. California even held a big conference on the subject, at which representative fruit men from all Pacific Coast districts were present.

The marketing problem is too big a subject to be treated in a few paragraphs. In its entirety it seems too big a problem for any one man or group of men to solve. We want to discuss for a moment just the one phase which we designate price stabilization.

In our opinion, honest, earnest effort toward stabilization of prices for fruit products will bring many beneficial results. In our belief, it is the phase of the problem that may most directly be tackled by the producer and his organizations. Various California associations have won their way forward by this very means, if we analyze results correctly.

Readers who recall or will turn to the article in our December number by Asher Hobson, entitled "Study of Co-operative Marketing," will easily understand the difference between price fixing and price stabilization. The American Cranberry Exchange, whose methods he analyzed, has achieved a notable record, not by arbitrarily fixing prices, but by stabilizing them around a just and profitable figure.

To stabilize markets means to hold prices down at times just as much as it means to push them up at other times. Mr. Hobson cited a classic example, when the cranberry exchange "kept throwing berries on

the market" to keep the price down. This system, he said, is based on the realization that well-being of the growers "depended upon the good will of the consumer." He might have added that it depends also, in no small measure, on the good will of the retailers, whom this association carefully protects in the matter of a reasonable profit and no more.

Last fall loganberry growers in certain districts in Oregon sought to organize a big movement to force a price of six cents for their berries this year. We questioned the wisdom of their proposal then and would question it now. Fortunately, we hear now that a large number of the loganberry growers are organized in an association that proposes as its very first step, to confer with the cannerymen in an effort to stabilize the price of this fruit at a figure that will be just and satisfactory to all.

There you have our idea of a sensible movement in this matter of price. The boxed apple industry woefully needs this same sort of co-operative effort. The prune industry would profit by it. It is a fact, though, that the prune and walnut industries of this section profit greatly now through taking advantage of the stabilized prices effective in the sister state of California—much more than the growers realize.

If Better Fruit were to voice a criticism of many of the co-operative associations of the Northwest it would be that they are too selfish and too antagonistic to allied interests for their own good. We urge closer co-operation and more of it. But the kind of co-operation we want to boost takes the broader view, the good-year as well as the lean-year accounting and more unbiased survey of everyone's interests, from the grower to the consumer; than we generally encounter.

From all of which we want you to glean the fact that we are unequivocally and wholeheartedly for co-operation. We are 100 per cent. for that forward-looking co-operation that swings into the coming movement for stabilization of the prices of our products.

FIDGETY PEOPLE.

The ability to sit quiet is not too common among Americans. For

some reason many people find it easier to talk if they pluck at the upholstered arm of the chair in which they sit, or twist a corner of the soft cushion, or swing one foot in restless motion, or play with a pencil or a paper cutter or some other object. Fidgeting is a disagreeable habit; the other person finds his attention becoming more and more fixed upon the repetition of meaningless mechanical movements and more and more distracted from other matters.

Because fidgeting raises in this way a barrier to easy social intercourse, it handicaps the person who fidgets. Moreover, it expresses lack of poise and self-control. The person who has not trained himself to sit and talk without any undue nervous movements of the fingers and feet has not really achieved complete mastery over his fingers and feet. A good rule to observe with regard to those members is to use them when they ought to be used and at all other times to insist upon their being quiet.—Youth's Companion.

IMPERIAL FRUIT SHOW REGULATIONS ALTERED

Word has reached the office of Chief Dominion Fruit Inspector R. G. L. Clarke that the dates for the Imperial Fruit Show, which this year will be held in Liverpool, have been fixed for October 26 to November 3. At least this is the recommendation of the special committee which, it is expected, will be approved.

In the British Empire section the exhibits will be ten boxes of dessert and twenty of culinary apples. In the latter class, however, an appeal is being taken on the ground of the expense involved in the extra shipment. Wagner and Baldwin apples have been added to the overseas section.

It is stated that the prizes will be increased from three to five this season, but the cash amounts lowered. For instance, the first prize would be a gold medal and £20 cash; second, silver medal and £10; third, bronze medal and £5; fourth, 3s and fifth, 2s.

In the matter of judging there will be a five-point reduction in color and an increase of five to ten points in flavor. Only one entry in any one competition in any class calling for a special variety will be received. An extra box of apples will be required in all exhibits.

A lie, no matter how far down and out, can always come back.

Honey Production in B.C.

British Columbia has become so widely known for her wealth in minerals, fisheries, lumber and fruits, that little cognizance has been taken of her other many and varied industries. One of these, agriculture, from a few scattered hives as a sideline to agriculture, has developed into one of the most profitable industries, the many flower-strewn valleys, orchards, clover fields, etc., making British Columbia an ideal place for the pursuit of this industry. During 1922, a total of 711,356 pounds of honey were collected, according to the compilations made by the provincial apiarist, and there was undoubtedly a great deal more collected by individuals which was not reported to the government.

Fifty-three tons were contributed by the Kootenay bees, the Okanagan and Thompson Valleys yielding another fifty. From Vancouver Island and the Gulf Islands, twenty-nine tons were gathered, while twenty-four tons were harvested from Great Vancouver and New Westminster. Within the city limits of Vancouver the bees found over three thousand pounds of honey. Nearly two hundred tons, or more than half the total yield, were collected in the Fraser Valley. Matsqui and Langley made the best district showing, Vancouver giving the lowest average.

While the activities of this industry are spread over all parts of the province, the centre of the honey industry in British Columbia is in the populous Fraser Valley, where agriculture is carried out on a commercial scale. Four years ago a person could travel from one end of this valley to the other and seldom observe an apiary. Many farmers who engaged in bee-keeping as a sideline to their regular work a few years ago, are now devoting all their time to this vocation, finding it more congenial work, and in the main returning

greater revenue for labor expended than from their former occupation.

The provincial department of agriculture has been active in fostering this industry. In various sections of the province during the past year fifteen government demonstration apiaries were erected for educational purposes under the supervision of expert apiarists. There are in all some forty of these demonstration apiaries in the province at the present time.

The average production of the hives under supervision in these apiaries in the past season was about three hundred pounds of surplus honey. Two hives in two of the apiaries have exceeded the six hundred pound mark. One of these produced six hundred and sixty pounds, and the other six hundred and thirty pounds, enough honey being left over on both for winter stores. In addition the government has introduced Italian bees to replace the blacks, which were at one time common in the province. This, with improved methods of bee-keeping, has worked wonders in a short time in eradicating disease and increasing the crop.

There is an extensive market in the province for all the honey that can be produced for some time to come. In the larger centres of community life, like Vancouver, Victoria, Nelson, etc., there is a steady demand for British Columbia honey. The accessibility of markets, low overhead and production costs, have all combined to enable the provincial bee-keepers to place their product on the market at a price which enables them to meet foreign competition. Sanitary methods are used in handling and packing the honey, and the insistent demand for this excellent product ensures the success of the honey industry in British Columbia.

Naramata News

Current Events of Town and District

The attendance at the community song practice on Friday evening was twice as large as the previous week. The idea evidently appeals to the citizens generally. Mrs. Dean Walters acted as accompanist.

Mrs. H. P. Salting is back from an extended stay in Michigan, and is accompanied by her nieces, Mrs. Hazel Long and Miss Annabel Salting.

Another wanderer returned is Frank Hughes, who has been spending two or three months at the Coast.

The moving pictures on Wednesday last, were unusually good and merited a larger audience. Mrs. Manchester presided at the piano.

A tribute to the memory of the late Mrs. J. Hayward took the form of a memorial service on Sunday afternoon, at which Rev. H. E. Livingstone preached a sympathetic sermon, and Mrs. Lyons and Mrs. Williams sang an appropriate duet.

The weekly meeting of the Canadian Girls in Training on Thursday, resolved itself into a paper chase, which afforded plenty of fun and no little physical exercise. "Scraps of paper" were in evidence over a long, long trail.

The Boy Scouts, under the leadership of Leslie Smith, propose to take to the woods on Monday for an Easter outing.

We were glad to see the Summerland Telephone Co. manager, Mr. Atkins, with his assistant, tackling the work of repairing the cable across the lake on Tuesday, using the ferry boat "Skookum" for the purpose.

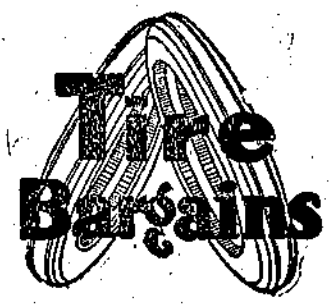

A hasty council meeting of the Board of Trade was called by the president on Saturday to appoint delegates to interview the premier of the province in Penticton on the following Monday. Other business discussed was the matter of a car slip for Naramata, and also the obstruction of the wharf buildings by the carload of hay, which had been refused by the consignees on account of alleged poor quality. The secretary of the board reported that he had received word from Mr. Doncaster that the shipper and consignees had both been notified that this hay must be removed and the board were requested to use their authority in the matter if necessary.

The deputation appointed by the council to attend Penticton on Monday evening was received by the premier about 7.30, on his return from the Oliver settlement. In the absence of the president, who was unable to go down, the secretary, Mr. Manchester, acted as spokesman, and asked for information concerning the prospects of early work on the Naramata-Kelowna road, the date at which the 50 per cent. rebate on the tree tax would be put in effect, and the possibility of obtaining a grant from the government for

street lighting, such grant being in place of a share in receipts from the automobile tax and other monies which are partly apportioned amongst the municipalities of the province, but which unorganized districts do not share. The premier said, in reply, that he knew nothing of the position as regards the road mentioned, but would look into it when he returned to Victoria. Concerning the rebate on the tree tax, he said it had not been intended that the amendment should come into force this year and that any statements to the contrary had been premature. But he intimated that the question was not yet closed and would be discussed on his return. Respecting the suggested grant for street lighting, he stated that any such proposition would require the passing of a special act, and he pointed out that there was already an act in existence which provided for rural communities to instal lighting under certain conditions. The delegation thanked Premier Oliver for his courtesy in receiving them and will refer the information given to the board at its next meeting.

WEST SUMMERLAND, B.C.

Did You Ever Stop to Think

- THAT a local newspaper has much to do with the building of a community.
- THAT if a public movement is started which means better things for a community, the newspaper co-operates and it generally wins.
- THAT if the newspaper does not help, the movement usually loses.
- THAT a local newspaper is a BIG PART OF EVERY COMMUNITY.
- THAT the local newspapers are always working for the public good.
- THAT they seldom get the credit they deserve.
- THAT a newspaper is a business institution the same as any other business.
- THAT they have goods to sell the same as any other merchant.
- THAT their goods consist of newspapers and advertising space.
- THAT they can no more afford to give it away any more than a merchant can afford to give his stock away.
- THAT too many people try to ride the newspapers, always expecting something for nothing.
- THAT if they expect their business or their home town to grow, they might as well begin to realize that WHERE YOU FIND A PROSPEROUS NEWSPAPER YOU FIND A PROSPEROUS COMMUNITY. DO YOUR SHARE TO MAKE YOURS PROSPEROUS.—H. R. Waite.

The Summerland Review

The Natural Wealth of Canada
Canada's Banking System

AMONG the agencies that have combined to build up Canada's trade and thus increase the available wealth, the Canadian banking system stands, in age and excellence, by itself. No country has a system better adapted to its requirements. It has established Canada's name abroad as that of a solid, stable country, remarkably free from panics and financial crises. It has stood the test of time, through periods of business depression and periods of inflation. For over 100 years the Bank of Montreal has been a leader in the banking system of this country.

BANK OF MONTREAL
Established over 100 years

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after full-filling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased, conditions include payment of stamp duty.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1910, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

CONSIDER THE ACORN.

It is a nut, yet when it falls from the tree it has wrapped up in its shell an unalterable resolution to produce an oak tree.

It is a nut, but it needs only the environment of earth, warmth and moisture to accomplish its job.

It is a nut, but it never produces a string bean vine, a lemon tree or a huckleberry bush.

It is a nut, but it specializes on oak trees and never falls.

You, too may be a nut, but if you have the acorn's same high purpose, the same firm resolve, no human power can stop you.

Consider the acorn; it, too, is a nut.—More Pop.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Carswell-Baxter picture service was in Peachland again on Thursday last. In addition to the evening show they put on an afternoon show of educational and other interesting pictures, including the fish industry, hunting scenes, geographic and comic, which were both interesting and amusing, this principally for the benefit of the school children; but numbers of grown-ups were also present.

Menfolk of the Anglican church met on Thursday last and made a bee of putting up a fence around the church lot. The saying, "many hands make light work," was demonstrated on that occasion, for there were a goodly number present and the posts were set and the wire strung in record time. The substantial posts and woven wire fencing has made quite an improvement.

The local Union shipped a carload of apples from the C. P. R. dock on Thursday last.

Visitors to Kelowna on Friday were Mrs. K. C. Tallyour, Mr. and Mrs. Murdin and Mr. J. L. Elliott. On his return on the evening boat Mr. Elliott was accompanied by Mrs. Elliott, who has been visiting friends and relatives in and around Kelowna.

A few of the young people of the community congregated in the Orange Hall on Friday evening and tripped the light fantastic for a few hours.

Rev. and Mrs. Sadler entertained quite a number of the young people in their home on Friday. A very pleasant evening was spent with games and music and Mrs. Sadler served a dainty lunch during the program.

Mrs. Dorland and son Hugh, and Mr. and Mrs. Bratfay spent Saturday in Kelowna.

The Misses Jean Dryden and Flossie Clements returned on Monday morning, Miss Dryden having completed her course at business school, and Miss Clements coming home for the Easter holidays.

W. T. Hunter, of Vernon, district horticulturist, and Inspector J. Tait, of Summerland, on Monday, gave two public demonstrations.

On Monday evening last, in the Municipal Hall, the local branch of the G. W. V. A. with their ladies, entertained members of the Kelowna and Summerland branches with their ladies. Five came from Summerland and arrived fairly early in the evening, some thirty-seven arriving from Kelowna a little later. Just outside the hall, Sergt. Crooks, D.C.M. and Military Medal, blew the assembly and at the wharf as the boat with part of the Kelowna visitors was approaching, blew "Come to the cook house door at the double," and then as the assembly gathered and were seated at tables in the hall the bugle again was heard, this time "Officers' Mess." There were three tables as near the full length of the hall as possible, at which were seated 78 ladies and gentlemen. Ten gentlemen were served in the gallery, and with five local veterans on the floor overseeing things this brought the total number up to 93. A few boy scouts and cubs assisted in the serving, which was well handled. When all was in readiness, Mr. F. Topham, president of the local G. W. V. A., called the assembly to order and asked them to rise to their feet and bow their heads for a moment in memory of fallen heroes.

At the given signal all resumed their seats and did justice to a dainty and bountiful feast provided by the wives and mothers of the members of the local association. Luncheon over, Mrs. Martin and Miss Gamble entertained with a piano duet, after which President Topham rose to welcome the visiting comrades and their ladies. He hoped this would be the first of others to follow, and after a few well chosen remarks, proposed a toast to "The King," when all rose and sang "God Save the King." Roove G. Lang gave an address of welcome to the visitors. After this with Sergt. Graves, of Kelowna, at the piano, the assembly joined in a number of "Jolly Songs for Veterans," word copies of which were passed among the crowd by the scouts and cubs. Among those were "Smile, Smile, Smile," "A Woo Dance an' Doris," "Here We Are," "Hall, Hall, the Gang's All Here," etc. Col. Belsom, president of the Kelowna Branch, called on for an address, thanked and congratulated the Peachland ladies for the wonderful repast the assembly had enjoyed and stated that although they had come to Peachland on this occasion for a good time they had come for more and that to try and help put the Peachland G. W. V. A. on the map again. He thought perhaps some of the reasons why this branch had become more or less dormant were: No definite objectives; not up against some of the problems which a local in a larger centre

would be. It was hard, if not impossible, to hold an active membership by having only business meetings. It was necessary to work in a social function now and then and it is the duty of the organization to train men, train them to speak and take part, especially the young men. If you can't get any excitement in the business meetings any other way, have some of the members ready to move an amendment to every motion brought forward and even go a little farther some time and eject a man out of the meeting some time to make things interesting. He said the G. W. V. A. should take an active part in encouraging the Boy Scout movement and assist them in every way possible. Then it is their duty when Armistice Day comes around to appoint some of the members to go to the schools and explain to the pupils what the day stands for and generally instil patriotism into them. Then in the matter of Dominion, provincial and municipal affairs, it is their duty to see that all offices, so far as possible, are filled with veterans. When war with Turkey was thought imminent, the G. W. V. were ready to go; even many who had been heard to say they would not don the uniform again. If the call comes again for service it was a part of the G. W. V. A. duty, said Col. Belsom, to urge that all share the responsibility alike, the young married men as well as the single men, and referring to the last call, stated that he thought if there had been an active G. W. V. A. in existence then things would have been different. (Cheers). Another duty of the association is to look after dependents, to perpetuate ties of comradeship formed in time of war and to preserve ideals for which they fought. The leaders of the G. W. V. A. should be capable men first and foremost and not chosen because of rank or popularity. He was sorry that Peachland was not represented at the recent convention at the Coast. In closing, the speaker said he would like to leave Peachland knowing that the local would re-organize and keep the association very much alive owing to the great necessity for the organization.

A very hearty applause was tendered the speaker.

Mr. Grant Ferrier, of Kelowna, favored the assembly with a well rendered solo and in response to an encore sang, "In Flanders Fields." Capt. Bentley, president of the Summerland Branch, gave a short address, explaining that, as he did not class himself as a speaker, he would not say very much.

(Continued on Page 6)

DRIVING HIS STRANGE FLOCK.

A farmer of Waitsburg, in the State of Washington, had a flock of 1700 turkeys to market. As the market town was only eighteen miles distant, he decided that the cheapest way of getting them there was to make them walk. The ground was rough and hilly and the journey which was done in easy stages took over a week. On the march the birds foraged for themselves, eating grasshoppers, ants, seeds and anything they could pick up, with only occasional rations of grain and meal from the farmer's men.

The turkeys arrived at their destination without casualties and in good condition.

Stomach Suffering

disappears as if by magic when Jo-To is used. Gas pains, acid stomach, sour stomach, burning and all after-eating distress relieved in two minutes. All Drug Stores.

MAIL SCHEDULE.

For the convenience of our readers we give below the time of closing of all mails at the local post offices for despatch by boat and train and also interchange between the two offices:

CONFIDENT OF MAKING GRADE

Central Reports Show Close to 80 Per Cent. Yesterday—More Coming.

That the central executive are confident of making the grade by tomorrow was the statement made by R. M. Winslow, Vernon, to The Review over the phone this afternoon. Everybody is busy pulling in contracts, quite a number of which have been closed today. Up to yesterday afternoon the actual percentage signed up was 77.31. This does not include Creston.

Creston has lined up with the Co-operative Growers of British Columbia, Ltd., according to information received this morning. A local has been formed there along lines similar to other locals under the new co-operative. There is this difference, however, that the contract made between Creston and the Central varies from other such contracts. It is understood that this contract gives the Creston Local power to sell in the Kootenay markets for practical purposes. Creston tonnage will be controlled by the co-operative, but since the contract is not identical with the others, the Creston tonnage is not being included to make up the 80 per cent. or more required for the contracts.

TROUT CREEK FARMERS' INSTITUTE

A very interesting and instructive discourse on "Farm Accounting" was given by Mr. R. Pollock to the members of the Trout Creek Farmers' Institute on Monday evening last. Mr. Pollock, who gave extensive illustrations on the blackboards, impressed upon his hearers the necessity of keeping accurate records of every one of the multitudinous departments which go to make up the mixed farm. The farmer should be able to see at a glance where his gains and losses are, so that, at the end of his year he can see where the leaks have occurred which have influenced his balance. What other business besides the farmers is run by guess work? The system advocated is that in use by a very successful farmer on Vancouver Island and he recommends it most strongly to his audience.

Mr. Alex. Smith, of the staff of the central school, will leave tomorrow to attend the teachers' convention at Vancouver.

J. Lawler has recently shipped three cars of apples from Penticon. These were apples that he had bought two of them from W. P. Seerest, whose orchard is on the bench north of Enjreview.

BARGAIN in Fruit Lands

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

On Sunday, March 25th, a son was born to Mr. and Mrs. J. J. Embree, Trout Creek Point.

Mr. and Mrs. R. H. English today are moving back into their home property.

Geo. Forster, of Nesbitt & Forster, left today on a business visit to Vancouver.

Mrs. R. M. Ross returned on Saturday from Vancouver, after an absence of several months.

Mrs. J. Lawler returned last week from Vancouver, where she has been visiting for some time.

P. G. Koop, who has been spending the winter in Victoria, is expected to return on Tuesday of next week.

Mr. W. Whiteford, of Virden, Man., is the guest of his brother, Mr. J. L. Whiteford.

R. H. Helmer returned on Wednesday from a visit to Salmon Arm. He made the trip by motor car.

S. A. MacDonald leaves tomorrow morning to spend a day or two at Creston with Mrs. MacDonald.

A son was born to Mr. and Mrs. Jas. W. Clarke at the Summerland hospital on Monday, March 26th.

Mrs. Morkill went out to Victoria on today's train, where Mr. Morkill and she will reside for the summer at least.

Mrs. H. K. Lott was operated on on Sunday at the hospital for appendicitis. Her condition is reported as satisfactory.

Mr. and Mrs. Geo. Gartrell went down to the Coast last Sunday, where Mr. Gartrell went to attend a gathering of inspectors of fisheries.

Mrs. G. J. Coulter White entertained the members of the C. G. T. of the Baptist church last Friday afternoon.

Mr. Thos. Tapp, who has been visiting at the home of Mr. and Mrs. J. L. Whiteford, returned last week to his home in Virden, Man.

There was a large crowd at the Kettle Valley Railway station at noon today to say good-bye to the basketball boys and to wish them luck.

Mrs. Wm. Johnston left by today's train for the Coast, accompanying Mr. Johnston on his trip as manager of the High School Basketball team.

Miss Lena Snider came in from the Coast last week to spend a short vacation at the home of her parents. She will remain here until after the Easter holidays.

Granville Road, from the Grocerteria to the Kelley Block, has been considerably widened and graded this week, by the use of the road grading machine.

Much good work was accomplished on the central school grounds on Thursday and Friday of last week, when ploughing, grading and clearing of stone was done, much of it volunteer work.

About 25 or 30 head of cattle were driven in yesterday from the South Similkameen country, where they had been wintering. These cattle belong to Findlay Munro and Gus Johnson.

J. C. Melvin, who recently purchased the Frank Cross business, has gone to Alberta to arrange for the sale of a retail business he has been carrying on there under a manager. He will probably be away for two or three weeks.

Miss Kathryn C. McLeod, at one time matron of the college here, was the principal speaker at a recent meeting of the Los Angeles branch of the League of American Penwomen, according to a report from a Los Angeles daily. Since leaving here, Miss McLeod has been associated with educational work in the Hawaiian Islands, and more recently is doing journalistic work, making her home in the southern state. It is learned that the national president of the Penwomen's League, Mrs. Grace Goldert, is a relative of Mrs. G. J. Coulter White, of Summerland.

We call the attention of our readers to the advertisement of the Triangle Chemical Co., Ltd., which appears in this issue. It seems that fertilizers, especially Nitrates, are needed here. Some may hesitate to incur expense from fear of another year of low prices, but that should not prevent the use of fertilizers if you need them. Certainly you have a much better chance of profit with a good crop of high-class fruit than is possible with a small crop of poor stuff. To finance this community for fertilizers is a heavy undertaking, and we hope the liberal offer of the Triangle Chemical Co., Ltd., will prove of real help to our growers.

High school students in two plays, Rialto, April 12. 789-91

Noel Wright leaves today for a short holiday trip to Coast points.

Mrs. Finley is visiting Mr. and Mrs. G. A. McWilliams at Vernon.

Oranges, 13 for 47 cents; Lemons, 13 for 48 cents. See Grocerteria advt. 790

R. V. Agur returned on Saturday morning from a short visit to Vancouver.

Mrs. G. I. Gray has returned from an extended visit to her former home in Ottawa.

Oranges, 13 for 47 cents; Lemons, 13 for 48 cents. See Grocerteria advt. 790

Keep April 12 for Lundie entertainment for G. W. V. A. building fund. 789-91

Don't miss Lundie lecture on "Africa," Rialto, April 12. Colored pictures. 789-91

Mrs. W. R. Shields went down to Penticon last week to spend a short holiday with her sisters.

Mrs. S. J. Conway came up from Penticon last week, after spending some time with her daughters there.

Don't miss Lundie lecture on "The Land of the Golden Trade," Rialto, April 12. Colored pictures. 790-1

Order your Easter Flowers Early. We will have a good selection. M. A. Travis, Florist, Penticon. 789-90

Mr. and Mrs. Feltham returned Tuesday night from England, where they have been spending the winter.

Mrs. W. H. Hayes went up to Kelowna on Saturday morning to remain for a time with her daughter, Mrs. C. W. Lees.

Miss Marjorie Lott, a visitor here for some months at the home of her uncle, has returned to Vancouver, where her parents reside.

Hairy Vetch Seed at 23 cents per pound, and Alfalfa Seed at 25 cents, may be obtained at the Summerland House of the Fruit Union. Matt. G. Wilson, Liquidator. 789-91

Miss Ruth Dale, of the central school staff, leaves tomorrow for Vancouver, where she will attend the teachers' convention, in session there during the Easter holidays.

Special opportunity to buy Fertilizer cheap! Burns' Blood and Bone, \$3.00 per 100 pounds, delivered. Apply to Matt G. Wilson, Liquidator, Summerland Fruit Union. 790

Capt. H. H. Creese sent away for analysis, some clay dug up in his lot and has been advised that the material is excellent for fire-brick but, by itself, is not fine enough for pottery purposes.

M. H. Dobie, of the Triangle Chemical Co., New Westminster, manufacturers of a well-known brand of fertilizer, was a business visitor to Summerland over last week-end.

Miss Miller, of the high school staff, resumed her teaching duties on Monday, following an illness of two or three weeks. During her absence, Capt. H. H. Creese supervised, while Easter exams were being written.

After an interruption of several weeks in the telephone service between Summerland and Naramata, the cable has been repaired and the service resumed, much to the satisfaction of subscribers on both sides of the lake.

In reporting the St. Patrick's "at home," given by the St. Andrew's Union Ladies' Aid, in those columns last week, the names of the Misses Banks, were unfortunately omitted as among those assisting in the program with musical numbers.

The Summerland local of the Federated Labor Party is undertaking a rather ambitious program in the proposal to conduct a "summer school of social science" at the log cabin in Peach Orchard, for a week at the end of August. It is their intention to provide tents for sleeping purposes and running a communal dining-room.

Mrs. F. Morrow is in the hospital suffering with serious injuries to an eyeball, as the result of an accident on Sunday afternoon. Her young son was firing air-gun bullets through a knot-hole in a fence and Mrs. Morrow happened to get one of the bullets in the corner of the eye. She was immediately taken to the hospital and has since been kept in a dark room with ice packs on the injured member. It is not yet known whether the sight of the eye can be saved.

LOCAL DEMANDS LOWER RENTALS

In Accord With Storage Company on Sale of Building at \$90,000.

That price and terms satisfactory to all parties has been arrived at with respect to the sale of the Summerland Storage building to the new holding company, is the information gathered by The Review from representatives of the Storage Company and the local directors of the new co-operative. The price set is \$90,000 and the terms have been so modified with respect to interest that it is stated that the annual cost has been reduced by about \$2,500. Major Hutton and E. R. Simpson, representing the Storage Company, went up to Vernon Tuesday morning and returned last night and tonight, at a special meeting, will lay the proposal before the shareholders for their acceptance.

Some difficulty has arisen between the local board and the holding company in fixing the annual charge to the local for the storage building. This and other matters are being discussed at an all-day session of the board being held today.

Major T. Croil and A. C. Turner returned last night from Vernon, where they had been in conference with central representatives.

MUSICAL TREAT GOOD FRIDAY

Choral Society will Give Stainer's "Crucifixion" in College Gymnasium.

For some time past the Summerland Choral Society has been practicing Stainer's "Crucifixion" and as will be seen from the notice in our advertising columns a performance of this work will be given in the Gymnasium on Good Friday, at 8 o'clock. A very creditable orchestra has been formed and the chorus is one that reflects credit on the musical talent here. The soloists, Mr. Ben Newton and Mr. Fred Graham, are too well known here to need comment.

It is a good sign that this society has met with much strong support in Summerland and no doubt there will be a full audience at the concert on Friday.

Next year, it is understood, rather more ambitious works will be attempted, including both sacred and secular music.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Snow	S.S.
Mar. 21—43	32	0.8
Mar. 22—53	31	7.0

HUNTER AND TAIT AT NARAMATA

(Continued from Page 1)
than 85 per cent. of the total tonnage sent out. Vernon, which at present has 100 varieties, is pledged to reduce that number to twenty within the next five years, and the speaker said that a similar policy will be followed all over the Valley. The decrease in the cost of grading and packing would be considerable, and it would be found that in five years' time many varieties now being grown in the Okanagan would be refused by the packing houses. The various pests which had to be dealt with were then referred to, and a spraying calendar handed round and distributed to the growers present. The value of arsenic as a sprayer was dwelt upon, especially in spray solutions which contained lead. The

these countries and an effort made to secure removal of the ban.

An endeavor was made with a large measure of success, to create a better understanding with the Progressive members of the House in regard to the fruit industry. Meetings were held with the Progressive members of the standing committee on agriculture and also with the whole Progressive caucus, with very satisfactory results, and it is felt that the way has been paved for a much better understanding which should prove of great value.

It is expected that action will be taken in the near future to investigate the falling down of Jonathans. Another item of interest is that the government will establish experimental plants to work on the by-products and storage problems.

Mr. Taylor was very much impressed with the work of the Canadian Council of Horticulture, representing thousands of growers, and doing such important work that Mr. Taylor feels the B. C. F. G. A. cannot afford to keep out of it, especially as they were willing to give representation to both vegetable and fruit growers.

Mr. Taylor was assisted in every way possible by Mr. J. A. MacKelvie, M.P.

A special session was granted by the select committee on agriculture to hear evidence on the B. C. fruit industry. This evidence was of a general nature only, and permission was given to file a brief later setting forth the case in detail.

Great interest was taken in the new co-operative movement, especially by the farmer members, who heartily approved of the work accomplished and expressed surprise that it had been possible to do so much in such a short space of time. The general managers of the banks, who were interviewed by the energetic delegates, also expressed their pleasure in a similar manner upon the development of the movement, and promised to lend every assistance in helping the industry. Their comments, Mr. Taylor states, were a very pleasing indication of the sincerity of their intentions.

The head officials of the C. P. R., C.N.R. and Dominion Express Company were also interviewed, and some valuable concessions were obtained as to rates and conditions of shipment, of which a report will be given later.

The delegates were glad to find that the general feeling in Eastern Canada in regard to British Columbia was one of optimism as to the future of the province, which is always considered to be able to make a quick "comeback," and there appeared to be a widespread desire on

the part of the government, transportation companies, manufacturers, banks and other business concerns to do everything possible to assist the fruit growers to make their industry a profitable one.
