

# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

**BUSINESS PRESCRIPTIONS**  
"The time is coming when advertising will shape the fate of every great undertaking, social and political, as well as economic."—James O'Shaughnessy.

Vol. 15, No. 39, Whole No. 795.

SUMMERLAND, B. C., THURSDAY, MAY 3, 1923

\$2.50, Payable in Advance

## Members Unanimous For Purchase of Storage

**Directors proposed that Building and land bought for \$90,000 approved by growers at special meeting of Summerland Local—Visitors praise foresight in providing storage.**

Members of the Summerland Co-operative Growers, at a special meeting in the Rialto theatre on Saturday afternoon, voted unanimously in favor of the purchase of the Summerland Storage Co., Ltd., at a price of \$90,000, the terms to be left with directors to arrange with the central board, through whom the property is being acquired.

At the same meeting, approval was given to the purchase of the two Stewart buildings, the lots on which they stand and the equipment for \$15,586.

The meeting was well attended by the growers, who heard, for the first time, speeches by Mr. A. T. Howe, the recently elected president of the Associated Growers, and Mr. T. Bulman, who is a member of the executive with Mr. Howe and Mr. B. Stewart.

Mr. Geo. I. Gray, president of the Summerland Co-operative Growers, in opening the meeting, stated that the board had expected to be in a position to present a definite proposal from the Associated Growers for the purchase of the Storage building, but that the present executive were not yet in a position to state definitely the terms on which the building might be bought.

The price asked was \$90,000 with interest at 7 per cent. on deferred payment. The purchase price, according to the Associated Growers' plan, was to be made by a deduction of 5 cents per box until this and the Stewart buildings were paid for and a further charge of approximately 3 cents per box would be made to cover interest, insurance, taxes, maintenance, etc. The offer of the local board was to pay \$90,000 but to have the 5 cents per box cover all charges, the payments to be spread over a sufficiently longer period to retire the debt.

The executive were not in a position to accept this offer, but had promised to refer it to the full board which would meet at Vernon on Monday afternoon, and Mr. Gray suggested that the matter be left with the directors to see that Summerland received the same fair treatment as had been given the independents in the purchase of their properties.

Mr. A. T. Hoye was then asked to address the meeting. He explained that he and Mr. Bulman were not here to dictate or compel or to drive a hard bargain. They were here as servants of the growers. He and his associates have the troubles of the whole organization on their backs and are going to meet them to the best of their ability. He asked for a fair chance and reminded his hearers that the central directors were subject to recall.

He urged the necessity of all pulling together, of exercising faith in their appointees and patience with them in their work. Organization has not yet had the same attention as had been given to the work of obtaining signatures to the contracts. Organization would be the linchpin of the new organization "will be put on a business footing that will be to our credit." Soon the executive would have a publicity department and he promised that growers would be kept fully informed of the work of the central board.

Mr. Howe, who was well received, apparently made a very favorable impression. He spoke very optimistically of the organization, declaring its possibilities to be tremendous. He was sure no one would go back, even now, to the conditions of last year and prior. If they did they would not last very long.

The O. U. G., he said, never did have a square deal. What fifty per cent. of the growers, through this organization, were trying to do, the other fifty per cent. were doing their best to undo. He urged that no stone be left unturned to gain the remaining 15 per cent. of the tonnage necessary to make the Associated Growers 100 per cent. strong.

## WOULD CURTAIL USE OF LAWN SPRINKLERS

Foreman Tomlin on Friday again requested of the Council an amendment to the by-law which would give him authority to restrict the use of sprinklers in June, if he considered it advisable.

He stated that some of the homes on the higher levels were being deprived of domestic water through the excessive use of water from the pipe lines during hot weather. Particularly is this true on the Giant's Head line, though Jones Flat and other high places suffer. Mr. Tomlin would forbid the use of sprinklers during the day and also limit the hours during which they might be used at night.

There seemed to be some difference of opinion of this subject. The belief as expressed by some of the councillors is that it was the illegal use of domestic water for irrigation purposes that was causing the trouble rather than the running of lawn sprinklers. Councillor Bristow also declared that even during prohibited hours sprinklers were being used.

Foreman Tomlin was also advised that domestic water must not be used for irrigation at any time.

His request for further restrictions was laid over on the suggestion of Reeve Campbell, who proposed that the situation be watched as the season advanced.

## CENTRAL BUYS STORAGE BLDG

**Storage Company Throw In Office Building—Terms of Purchase by Local**

By telephone message Tuesday evening the directors of the Summerland Storage Co. were advised that the Associated Growers will buy the Storage Co.'s property and the Union office and vault at the price of \$90,000.

At a meeting of the shareholders of the Storage Co. held Tuesday night, the vice president, Major E. E. Hutton, stated that he had received a message from Mr. Howe, the president of the Associated Growers, stating that the purchase at \$90,000 had been approved by his board and promising to confirm the purchase by letter.

By resolutions, the storage shareholders approved of the recommendation of their board that the liquidator of the Summerland Fruit Union be indemnified to the extent of \$1700, for the office building and vault erected on the company's property. Some objection was made to this but Major Hutton, who has been conducting the negotiations, recommended the concession as a wise one to make.

Dr. Andrew, in a few complimentary remarks, proposed a vote of thanks to Major Hutton for his services so generously given.

The shareholders, by a resolution, agreed to indemnify the directors for their out-of-pocket expenses in connection with the negotiations for the sale of the property.

Tuesday's meeting was an adjournment of a meeting held on Thursday last, when Major Hutton detailed the history of the negotiations up to that date. The meeting had been called to consider the repudiation of the contract for the purchase but as the new executive of the Associated Growers had again taken up the matter, the meeting was adjourned until Tuesday.

It is stated that the purchase of this and other properties by the local will be made by payment of 5 cents per package on principal plus a further charge for interest, insurance taxes, etc.

## MORE HYDRANTS ON SHAUGHNESSY AVE.

Two additional fire hydrants are being put on the Shaughnessy avenue water main, one at the Hotel corner and the other at a point opposite the Summerland Garage and the Review printing plant. A section of new pipe was also inserted into the main from the corner of the Empire block to a point in front of the Hotel.

Coun. Kirk, at Friday's council meeting, reported that it had been the intention to put in a larger pipe while this section was being renewed but that Foreman Dickson has found so many other pipes crossing this line that it was difficult to do so.

## ARE PREPARING FOR OPERATION

**Directors of Local Open Office Making Boxes Soon—Using Mutual Building**

The following information with respect to the Summerland Co-operative Growers has been given The Review by the secretary to the Board for publication.

The directors of the local met last night at the office in the old Mutual building. For the present this will be used as the office of the Co-operative, and Mr. Pollock, the secretary-treasurer, will be there each week day. When possession of the old Fruit Union office has been arranged, it is expected that the office of the Co-operative will be permanently there.

The manager is ordering forward carloads of shoo and will shortly have box makers at work. To begin with, this work will likely be done in the Mutual building. It has been decided to have some boxes made up in growers' orchards, where they so desire and where the growers have sheds or other cover in which to store the boxes when made up. Those desiring to take advantage of this arrangement should communicate with the manager, giving him their requirements.

Considerable progress has been made since the meeting of growers on Saturday last. The question of taking over equipment from the old Union has been gone into and some things have already been purchased.

Any information a grower desires will be gladly given by any of the directors or by the manager or secretary-treasurer, and the board would be pleased to receive and consider any suggestions the grower may have.

## LOCAL ORDERS ITS BOX SHOOK

**Bulk of Order Goes to Coast Firm—Prices up Four and Five Cents**

Summerland Co-operative Growers have placed their orders for the season's supply of box shoo. Part of the order has been placed with the Summerland Lumber Co., but the larger part will probably be supplied from a coast mill, the B. C. Manufacturers. The latter will furnish twelve carloads of shoo at 19 cents, according to Mr. G. I. Gray, president of the local. The balance will be at 20 cents.

This spring has witnessed quite a marked advance in the price of box shoo. The prevailing price last season was around 15 cents.

## SHOULD LAY PROTEST WITH DEPARTMENT

Major W. E. Twedy came before the council on Friday, asking for information on the reported application of R. V. Agur for domestic water rights on a spring in his neighborhood. Major Twedy feared that any alteration at the spring would damage his property. It was told that the council know little of Mr. Agur's plans and was advised to take the matter up with the Department, with whom any objections to granting the license should be lodged.

Major Twedy asked for repairs to the flume serving the Ostar lot. This was referred to Foreman Tomlin for a report.

## WOULD EXTEND FLUME SERVICE TO BEGGS ET AL

**Many Acres There and at Dale's Corner Drawing From Pipe Line**

Last summer a pipe was laid on the surface of the ground from A. E. Smith's corner to the road at the north-east corner of J. C. Wilson's property. This was done for the purpose of feeding the water main serving the hospital hill district. A few days ago the municipal council gave C. C. Wharton a contract for digging a trench for this pipe which will be laid permanently.

On Friday A. E. Smith, S. J. Beggs and Arthur Pentland waited on the council and protested against the use of this pipe, stating that it had the result of greatly reducing the pressure of the pipe serving them and their neighbors. Mr. Beggs going so far as to state that if he were not to have any better pressure than during the latter part of last season after this pipe was laid, it would be useless for him to attempt to carry on.

During the discussion it was revealed that about 50 acres in that vicinity are irrigated from the pipe line and also that there is quite an area in the vicinity of Dale's corner also irrigated from the domestic water line. It was the opinion of Reeve Campbell that an extension of the flume back of the high school could be made to serve the 50 acres on the Beggs' district. In any event, he declared, whether the new connecting line was used or not, it should be laid for use in an emergency. Without it the hospital hill district would be deprived of water should a break occur at a point above. The reeve declared that the flume behind the school will have to be extended eventually and upon suggestion of Coun. Kirk, details of a survey made by Engineer Barton will be obtained.

The Prairie Valley flume will also be extended to serve the Ritchie tract south of Granville road, and also several of the orchards west of Dale's corner.

## WILL STRIKE TAX RATE ON SATURDAY

Municipal tax rates for 1923 are to be considered at a special meeting of the municipal council on Saturday night. The council has been delaying the passing of the usual tax rate by-law because of some uncertainty as to the amount of money that would be collected in irrigation rates, apparently with the idea that if receipts were much below normal some addition might have to be made to the tax rate.

## FOUND STILL IN DEEP RAVINE

**Joe Armstrong, Similkameen Alleged Owner Committed To Trial**

An interesting case was heard at Penticton before Magistrates Pope and McDougall, when Joe Armstrong of Koromoc was charged with having a still in his possession unlawfully.

A large number of witnesses were heard on both sides, the chief evidence for the Crown being given by Staff Sgt. Road of Grand Forks and Corporal Harvey of Penticton, both of the Royal Canadian Mounted Police, who had found the still and seized it.

The case of the Crown was purely circumstantial. The still was found in a canyon not far from Armstrong's ranch residence. A dugout had been built in the side of the canyon, in which were the still, a cooling tank, four large barrels and four kegs, one of which had painted on it J. Armstrong, Koromoc. These barrels were each about a quarter full of mash. A path led to the vicinity of the still and on this path were fresh marks of a horse shod with Novorall shoes. It was proved Armstrong had such a horse. A rope was found tied to brush to enable one to get down the canyon to the dugout. In the collar

(Continued on Page 2)

## EXTRA CONNECTIONS EXPENSE TO BOTH

That additional connections between the irrigation system and orchard properties will be an added expense when measuring boxes are put into general use or else there will be the added cost to the municipality and orchard owners for removing these extra connections, was pointed out by Reeve Campbell when application for extra connections were before the council on Friday.

## VETERANS OPEN NEW CLUB ROOM

**Reeve Campbell and Col. Clayton Take Part in the Ceremony**

On Thursday evening last, the 26th, the local branch G. W. V. A. held the formal opening of their new club-rooms, in the presence of about 125 friends.

After about half an hour spent informally, the Chairman, Com. "Ned" Bentley, called the gathering to order and, in a few words, explained the aims and ambitions of the branch, outlining an ambitious program for the future, which included additions to the building, verandas, tennis courts, and lawn bowling. He pointed out, however, that expansion had been conservative and within the branch means and assuring those present that future development would be along the same lines.

The Chairman then called on Col. Clayton, President of the Penticton Branch, G. W. V. A., to address the meeting and formally open the building. Col. Clayton spoke feelingly of the place the association had had in the re-establishment of ex-Service men communally, emphasizing the fact that all points striven after and gained by the G. W. V. A. of Canada had been obtained by constitutional methods, and assuring the gathering that these were the approved methods as far as the Association was concerned. He spoke fittingly of the keen remembrance in which all ex-Service men held their fallen comrades.

Reeve J. R. Campbell followed, and, speaking both for himself and the Council, he endorsed the work of the Branch and avowed his approval of the way in which the work had been carried on, assuring the Branch of his continued support.

## ASSOC. GROWERS APPOINT STAFF

**List of Salaries for Staff Executive and Members of Board**

With the appointment of the general manager as reported in another column, the directors of the Associated Growers have filled the last executive position. The appointment of B. MacDonald as sales manager has again come before the board through his suggestion that his salary be fixed at \$9,000, instead of \$7,500, the figure said to have been agreed upon by the provisional directors.

The salary list apparently runs as follows, General manager, \$15,000. Sales manager, \$7,500; secretary-treasurer, \$5,000. The members of the executive, President Howe, of Vernon, Vice-President Bulman, Kelowna, and second vice-President, B. Stewart, Summerland, receive \$3,000 per year each, with a living allowance of \$4.00 per day for those members who are away from home. Mr. Lewis of Kelowna, who sits with the executive when vegetable matters are under consideration, is also reported to be receiving a similar salary.

The directors will be paid \$10 per day while in session.

Representations that the abandonment of right-of-way of the Great Northern railway into Rossland be used as a highway, have resulted in the B. C. government delegating an engineer to make a report on that proposal.

## Californian Is General Manager Assoc. Growers

### INSTITUTE HEARS LECTURE ON LAW

There was a good attendance at the regular monthly meeting of the Trout Creek Farmers' Institute on Monday evening when Mr. W. C. Kelly gave a talk on "The Law as Relating to the Farming Business."

To talk on this subject for upwards of one and a half hours is something to accomplish but this was done by Mr. Kelly. In introducing his subject the speaker went back to the time of the Romans, tracing briefly, but clearly, the system which gradually led up to the present large estates as they exist in England at the present time. He showed how the system of land transfer differs in Canada from that which exists in England. Titles should be carefully investigated; it is a mistake for any man to take his title for granted. In speaking of wills, Mr. Kelly insisted on 21 to make a will. Interstate estates may involve endless trouble and expense. Leases were touched upon and explained. Real estate and personal property were defined. Promissory notes, cheques, bills of lading were taken up, and the law as relating to them briefly outlined.

Questions to the speaker brought out very interesting and instructive information on taxation, trespass, etc. The meeting closed with a hearty vote of thanks.

## UNIV PLAYERS HERE MAY 19

**Coming Under Auspices of Boy Scouts—Local Man in Caste**

News of the fact that the University Players are coming to Summerland this season will be received with delight and satisfaction and judging from reports from Coast points, their appearance here will be a genuine treat.

"A most enjoyable performance" is the general verdict of Vancouver, Victoria, New Westminster and Nanaimo, where the Players' Club of the University of B. C. have already presented "You Never Can Tell," the witty comedy by England's celebrated dramatist, G. B. Shaw.

Performance following convention will take place in Kamloops, Salmon Arm, Vernon, Kelowna, Summerland, Penticton, Grand Forks, Trail, Nelson, Creston, Cranbrook and Fernie. This annual tour is a source of real pleasure to many theatre-goers who appreciate a clever and finished performance of a worth while play. From the time of its organization eight years ago, the Players' Club has given performances of sustained merit, enabling audiences in various parts of the province to see plays by Barrie, Pinero, Oscar Wilde, Zangwill, A. A. Milne and Shaw.

In the cast of "You Never Can Tell" are three performers who won appreciation last year in "Mr. Pim Passes By". These are Miss Betty Somersot and Messrs. Neil McCallum and Jack Clyno. Among the newcomers are several very prominent in college activities. Miss B. Fordham Johnson is a member of the first graduating class in the Faculty of Nursing. Mr. Potor Palmer is one of varsity's best athletes, and has played on the rugby three-quarter line for two seasons. Miss Both McLennan and Miss Eloise Angell have been very active in the social life of the college. Mr. Fraser Lietor, a Summerland boy, who appears for the first time in this year's production, has achieved a real triumph in his clever portrayal of one of the twins.

The play will be presented in Empire Hall on Saturday, May 19th.

A two million dollar pulp plant is being planned for Nelson. The arrangements for this large undertaking are practically completed, water power and the necessary large pulp and timber leases having been secured.

### A. M. Pratt appointed by Directors on Monday—Brings best of recommendations—He is optimistic—View of B. C. Fruit Industry—Message of Cheer and Advice to Growers.

(Special to The Review.) Archie M. Pratt for ten years with the Mutual Orange Distributors, one of the large co-operative citrus fruit shipping firms of California, was on Monday appointed general manager of the Associated Growers of British Columbia, Limited. The appointment was made after the directors had met Mr. Pratt and discussed with him a number of financial, trade and organization matters. His salary, it was learned, will be \$15,000. He assumed his new duties immediately after the appointment.

Mr. Pratt comes to the Okanagan with the best of recommendations, not only from his former employers, but from his competitors as well. He is spoken of in the highest terms by Mr. Sapiro and other well known California fruit men.

He is 43 years of age, married with three children and has been in the fruit business since he was a boy in Minneapolis where his father was a wholesale fruit man.

From the Minnesota city he went with his parents to California where he has been engaged in the fruit trade in different capacities. For a time he conducted a brokerage office with his father and brother and was instrumental in organizing the Elephant brand orange trade mark which has had a big sale throughout the country.

He has been general sales manager of the Mutual Orange Distributors for the past ten years and was virtually general manager for some time. That firm handles annually from four to six thousand cars of citrus and other fruits.

Mr. Pratt knows the fruit trade and is well versed in all its branches. He has a pleasant personality and has made many friends since coming to the valley.

Since his arrival he has been advised by telegram that he was elected president of the Redlands, California, Rotary Club, of which he is a member.

He is also financially interested in three orange groves near his home town of Redlands, and in accepting the position he pointed out to the directors that he was making certain personal sacrifices, but the fact that there was a big job to do in the Okanagan appealed to him and he then waived all ties that held him to the golden state.

In discussing the future of the Associated Growers, Mr. Pratt advised that only by the loyal support of the growers and the trade would the success of the new organization be assured. He had every reason, he said, in believing that those who were pledged to the growers' concern.

"Ninety per cent. of the control of the apple and fruit crops in British Columbia does not mean that we have a similar control over the entire apple crop of the continent," said Mr. Pratt and intimated that the problems facing the management were in some measures as complex as before.

"A sane confidence in the new organization has been shown, not only on the part of the directors, but also by the growers, insofar as I have been able to ascertain," he continued. "And it will be a real hard pull to get prices that will make the deal satisfactory to the grower and to the trader."

"The only way for an organization such as this to succeed is to bring about uniformity and dependability, as the foundation stones of our brands. I do not mean by this the inauguration of radical grades but rather a good honest pack that will merit our securing the continued business of the trade," asserted the new manager.

He pointed out that the distribution problem was most important and that he expected to find limitations and obstacles that were not found in the citrus trade.

"If we inject an element of confidence in the Okanagan deal we shall see a different attitude and we

(Continued on Page 6)

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED  
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

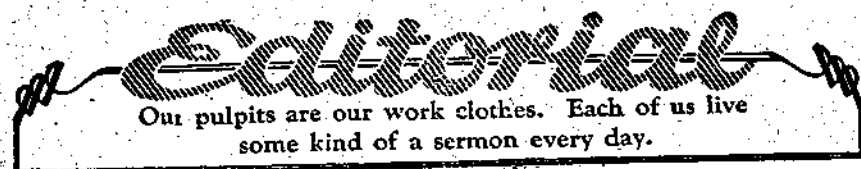

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

## SUMMERLAND'S BAND

That such an enterprising and commendable organization as our local band should be obliged to become non-existent through lack of encouragement or of sympathetic interest on the part of our citizens would be most unfortunate. Yet that is what the leaders of this movement are facing at the present time. It is with difficulty that the work is being carried on and this difficulty lies, not in any lack of zeal on the part of those who are at the back of the movement, but in the lack of enthusiastic co-operation of the citizens themselves. A community organization of this nature is, in itself, a splendid thing for Summerland and is one which should be given our hearty support. We have plenty of latent talent in our midst, and to any who care to join the members assure a hearty welcome.

There are a good supply of instruments on hand and plans are under way to secure an expert instructor in the absence of the former leader, Mr. A. E. Cline. Practices are being held every Tuesday evening in the high school building.

Do we want our band to be a success? Of course we do. Then why not come out and support it, by joining it if possible; if not, then at least, by showing our appreciation of their initiative in this regard. Let us help in every way we can to make our band an active institution and a credit to the community. Make a special effort and be present next Tuesday night.

## IMPERIAL AND UNITED STATES GALLONS

Spray Calendar, 1923, gives a table of comparisons between United States and Imperial measures, which is not strictly accurate. Though possibly not sufficiently at variance with the facts to make any great difference in mixing sprays, we feel it is quite in order to point out the discrepancy.

An Imperial gallon of water of a certain temperature and at a given altitude, weighs 10 lbs. Under like conditions, the U. S. gallon weighs 8.3389 lbs. Again, the U. S. gallon measures 231 cubic inches, while the Imperial measures 227.274 cubic inches, almost exactly 1.2 U. S. or English wine gallons. Multiplying this (1.2) by 5, it is seen that you get 6 U. S. gallons. Thus, instead of 50 American gallons making 40 Imperial gallons, 50 will make 41 3-4 Imperial or Canadian gallons.

This error is so often made by motorists when comparing the mileage claimed for cars of American design, when using the Canadian gallon that we feel it is not out of place to point out this common error. Reference to any work on standard measures will confirm the above figures.

## From Our Exchanges

### BE CAREFUL, GIRLS.

No young lady ever lost her hero because her hands happened to be a little calloused from wielding the broom or stained from dipping them in dishwater.

No girl ever fell down a lot in the estimation of her hero because she stayed at home all afternoon and helped her mother with the work instead of coming down town and putting on a parade of eight miles.

No girl ever lost her hero because she made life more pleasant for Dad and smoothed the wrinkles from his brow and caused him to look forward to the evening at home with pleasure.

No girl ever lost her hero because she wasn't an adept at using all the latest and most popular slang of the day. There is nothing in slang for a young man to admire and much less a young lady. If the young lady wishes the company of a worthwhile fellow she will avoid slang as she would poison. She will shun the girl or young man who uses the slang of today.

No girl regrets losing a hero who was a common, cheap, tin-horn sport and she had better be a kitchen queen for dad and mother all her life than a broken-hearted drudger of a slave for such a brainless brat a single day.

Just because a girl arrives at gray hairs and faded cheeks in single blessedness is no sign she didn't have a chance. More than likely it is because she kept posted in market values and refused to sell her heart and happiness for a mess of pottage.—Ex.

# Growers Favor Purchasing Storage Company Property

(Continued from Page One)

It would soon be a matter, he said, for a grower to consider if he can afford to stay out.

Referring to the purchase of the Storage building, Mr. Howe said that only last week the statement had been made that a five-cent deduction would take care of the purchase price and overhead. Since then the newly appointed directors have found that provision had not been made for interest, insurance, etc. in this five cents. He intended to push this question to the end and will lay the proposition before the board next week. He reminded his hearers that the directors were legislating for all. He declared his faith in human nature and his belief that British Columbia fruit growers can get together and work for the common good and put their association in an unassailable position.

Mr. Gray explained that the object of the local board was to make the cost as low as possible, particularly during the first few years. He denied certain statements made at the meeting of the shareholders in the Storage Co. on Thursday night to the effect that the local board had, directly or indirectly asked the Storage shareholders to assume a loss of \$10,000. Referring to another statement, that if the local board bought the building at \$65,000 while the Storage Co. got \$90,000 then Summerland would be receiving charity from the growers of other districts, he stated that he was sorry that such a statement had been made, as there was no intention that Summerland should be an object of charity. He and his associates were willing to do anything for the success of the movement and would not stand in the way of any agreement that would help to that success.

Thos. Bulman, when called on to speak, reminded the meeting that he, too, was a grower. In meeting with the two local boards he had found them entirely in accord. To take over the Storage building at a low price would be only taking from one group for the benefit of another. At Kelowna, Mr. Bulman's home town, they too had their troubles. At no time was there a better promise for the future of British Columbia's fruit industry, but the central board cannot succeed without team work on the part of the growers. "What you pay for your buildings will cost you absolutely nothing," said Mr. Bulman. He was sure that the new organization would save the members much more than the cost of the buildings.

Mr. Bulman stated that a year ago he foresaw trouble and chaos and though he had a good business, he felt that all the growers should get together, and ultimately his company, the B. C. Growers, Ltd. had turned over to the new organization all their business including connections on the prairies and abroad at the cost of bricks and mortar.

Including Creston, the Associated Growers are controlling about 92 per cent of the tree fruit of the province. If the business is handled right, the organization can get 100 per cent. service on the prairies. Ottawa already realizes that British Columbia fruit growers have done what has never been done by farmers before and while we must have personal differences of opinion, we would be very foolish to allow these to destroy the organization.

He had made the statement at Kelowna that five cents would take care of all the charges in connection with the buildings but had since learned that the holding company had made allowance for an added charge of overhead. It will never do, he said, to have one plan here and another at Kelowna, and if it were necessary for the success of the movement, Kelowna was willing to pay the higher rate, and he asked for the same assurance from Summerland. Nothing can prevent the success of the movement if the growers work together. The influence and the strength of the organization is enormous.

Mr. Bulman told of his experience at Ottawa where he went with the signatures of two thousand British Columbia fruit growers with the result that even Mr. Fielding admitted that something had to be done to satisfy British Columbia with respect to anti-dumping regulations. It was the combined power of B. C. fruit growers, declared Mr. Bulman, that made it possible for him to obtain the better conditions for the industry.

Mr. Bulman instanced the recent success of the Tomato Growers' Association as evidence of what co-operation can do. An eight million dollar cannery combine had laughed at the growers as a bunch of farmers, and were determined to make the growers accept the cannery price. Tomato growers stood to-

gether and were ready to destroy their plants rather than give in. The canneries would not talk to the association or its representatives, but through business men and individual growers, they tried to obtain their objectives. Finally, they yielded to the association, accepted their price and signed a five-year contract with the growers' organization.

"More depends on how honest you

## Breezelets

By M. K. W.

Whenever I hear a Britisher holding forth about the "wretched Yankees" I want to giggle. Why? Because he is lamming his great-grandmother's aunt's de-

## CONCERNING YANKEES

scendants. All Yankees are Americans, but not all Americans are fortunate enough to be Yankees. The name originated thusly:

The English settlers in that district now designated as New England received the name from the native red men, whose pronunciation of the word "English" when worked out in English letters resulted in this appellation.

There are certain sections of the United States where it would be just as safe to call the natives "niggers" or "rattlersakes" as to address them as "Yankees." Just try it in any of the states south of the Mason and Dixie line, Dixieland in other words, and expect to dangle from the nearest Magnolia tree at sundown.

Call a Milwaukee alderman a Yankee and the least you might expect would be a buff on the bean with a beer bottle, or whatever it is that takes the place of a beer bottle in these days.

In the Middle West the people would not feel in the least complimented by being called Yankees, though they would offer no violence out of respect to their grandparents who hailed from the New England States. Your mid-wester has a hazy idea that the Yankees are either anemic blue-noses, who subsist on clams and codfish, or else they are dreary bluestockings who sit up till all hours of the night reading Epictetus and Socrates and then go to bed with a copy of Emerson under the pillow. Mr. Mid-West is so all-fired busy making motor cars, threshing machines, breakfast foods, cash registers and a million or so other things that he never gets time to visit his forty-second cousins in Boston and Burlington and modify some of his mistaken notions.

When all's said and done a few months' travel about Canada and the United States would iron out lots of funny wrinkles for all of us if only we were not so busy.

Miss Peach—"Yes. All of it."

Which Bench, Sis?  
Betty—"Oh, I see you got another lotter."  
Hollie—"No, that's the envelope my new bathing suit came in."

Two-handed Eater  
Doctor—"Here, here, little boy. You shouldn't be eating that cake. It's too heavy for you."  
Boy—"Aw, I'm using both my hands to hold it."

# REID COMMITTED FOR TRIAL

## Case of Unusual Interest Disposed of By Major Hutton

J. H. Reid was this afternoon sent up for trial by Magistrate Hutton and has been admitted to bail.

J. H. Reid, against whom a charge had been laid for alleged appropriation of farm implements, the property of C. W. Lees and selling of same without accounting to the owner, was brought in from the Coast by Constable King on Sunday and was given a preliminary hearing in the police court on Tuesday. The case occasioned more than the usual interest, the court room being well filled with spectators.

Witnesses told of making purchases of sundry items, the total payment running into several hundred dollars. A team of horses entered into the case, which became quite complicated, particularly with regard to the horse deal.

C. W. Lees, in his evidence, stated that he had hired Reid in January, 1919, and that he worked for him until the end of 1921, living on his ranch. Lees furnished all equipment, including horses. When Reid moved from the ranch, he asked him to take the equipment for safe keeping as the ranch would be unoccupied.

Copies of accounts were presented, showing a balance due Reid at the end of 1921 of \$114.55 and a cheque issued a few days later, showing payment to Reid of \$100. Another copy of the account between them as at August last, which Mr. Lees swore was mutually agreed upon when he and Reid went over their affairs last August was also entered as evidence. This showed a balance due Reid for 1921, \$14.55; work done by members of the Reid family, \$86.04; work done by Reid, 1922, \$37.20; due Reid's partner, Williamson, \$113, total \$250.79.

Mr. Lees stated he had sold Reid his team early in the year for \$300, but upon representation from Reid had knocked \$50 off the price. He did not consider he owed Reid anything. Reid had agreed to buy

some of the farm implements and he had asked him to return what he did not intend buying. He told of identifying a number of items, sold by Reid as his property.

Cross-examined, Mr. Lees stated that Reid had submitted a list of articles for which he offered \$200, but the price was absurdly low and he did not entertain it. He got some few small things back.

Defendant's counsel endeavored to show that the horses had been sold to Williamson but this was flatly denied by Lees, who stated he told Reid at the time that though Reid and Williamson were entering into partnership, he looked to Reid for payment.

Williamson, in his evidence, stated that he bought the team from Lees but he admitted that when Reid sold the team, they shared the proceeds, but he denied sharing in the proceeds of the sale of other articles, admitting finally that all the money went into a common fund handled by Mrs. Reid.

J. H. Reid, when sworn, stated Lees owed him \$114.55 plus \$12 at the end of 1921. He did not remember receiving the cheque for \$100, but he acknowledged his endorsement of it. Lees told him in November to take the team and implements as a purchaser but he did not do so. At the end of December, Lees promised to pay at a certain date but failed to do so. He offered to take certain implements for \$209. A feed cooker, which he admitted selling, was not included in this offer. He promised to pay Lees the balance either in cash or work. He left Lees place early in March taking everything with him. He had been paid at the rate of \$1000 a year but claimed \$1080 for the third year.

Reid proved a rather difficult witness, not answering many questions put to him. He stated that Mr. Lees wrote him in March, saying that as he, Reid, was selling the implements he would like to get balance due him.

Claims and counter claims seemed to complicate matters and after considerable questioning of the witness, the Crown prosecutor stated he would question no further.

Following very brief arguments by counsel, the court adjourned until this afternoon at 3 o'clock.

W. C. Kelley, appeared for the Crown and K. M. Elliott for defendant.

SUMMERLAND WEST SUMMERLAND

# Growers Favor Purchasing Storage Company Property

(Continued from Page 2)

are," said Mr. Bulman, "than on the ability of the directors." The directors are determined that every section shall fare alike. If all co-operate for the common good, as we had been told two thousand years ago to do, he was sure of prosperity, but if one section tried to get something that the other has not, disaster will result.

Speaking of conditions here, Mr. Bulman said he would like to trade Kelowna's position with that of Summerland. Summerland growers, by their wisdom and good judgment, have put themselves in an enviable position by providing a suitable building. Kelowna has got to finance some 15 or 16 independent buildings, scattered here and there over the town. While the capital investment there, considered on the tonnage handled, is lower than that of Summerland, Kelowna will have heavier depreciation, higher insurance and poorer buildings and cannot handle its crop as economically as here. Summerland's building has a minimum of fire insurance, the lowest, he thought, in the Okanagan.

At a recent Kelowna mass meeting, it was pointed out that the Occidental Co. was still in business and was a serious menace, having as it has, a connection with the McDonald distributing houses on the prairies and it was decided that this concern must be bought out. Kelowna, therefore, must spend \$90,000 for the purpose and pay for it out of the fruit. Kelowna co-operators having decided that if it is in the interests of the industry, the Occidental must be bought. The five cents or eight cents to be charged on each package will mean nothing to Summerland growers as it will be saved in the overhead.

Major Hutton, speaking for the Storage board, asked if the question of time of payment was the only

point to be settled and if so, when this might be decided, as a meeting of the shareholders of the Storage Co. was to be held on Tuesday evening. After hearing the speeches of Messrs. Howe and Bulman, he looked with more confidence to a settlement next Tuesday.

Mr. Bulman replied that he would like to see the matter adjusted in the way the local board asked and he had as much expectation as not of having the terms arranged in that manner. He wanted Summerland to say it would buy and at five cents a box if possible but that it will agree to the same terms as Kelowna.

Major Hutton was assured by Mr. Howe that the matter of terms, whether five cents per box only or five cents plus another charge for interest, etc. will be definitely decided on Monday or Tuesday at the latest.

Mr. Bulman made the further interesting remark that the Associated Growers have a problem on the prairies. One bunch of brokers is working against another group, trying to get an exclusive deal with the Associated Growers. The directors hoped to bring the two together, effecting better distribution.

Major Hutton made the additional offer for the Storage board that the latter were willing to pay the liquidator of the Summerland Fruit Union seventeen hundred dollars for the Union office, vault, etc., built on the Storage company's property and would include this in the sale at no additional price.

G. J. C. White, referring to the rate of interest, stated that the holding company was getting money at six per cent. for the cash payment on properties purchased, while the debentures to cover the payments bore interest at seven per cent. If it is decided that the members pay five cents plus interest, etc., it will

mean that the grower who puts in 1,000 boxes will get a debenture bearing interest at seven per cent.

Another possible plan was that known as the revolving fund, under which a grower contributed five cents per box for five years and on the sixth year he was paid back the money he paid in in the first year and so on in perpetuity. Thus, only a shipping member would hold an interest in and pay for the buildings.

Both Messrs. Howe and Bulman emphasized the point that whatever plan was adopted, it must be uniform everywhere. Mr. Howe, personally, was willing to back the proposal to make five cents cover everything.

In answer to a question, Mr. Gray stated that the local board believes the Storage property worth the \$90,000 asked.

F. J. Nixon disputed this and stated that he would not have been a director had he understood that the local was to buy the buildings and he asked if the valuator had been here and what was their report.

Mr. Bulman replied by stating that he had been informed that the valuator was here and had established the price of \$90,000 and, personally, he believed the value was there. He only wished that they had this building at Kelowna.

J. Shepherd proposed a resolution to the effect that the directors be authorized to purchase the Storage property at \$90,000, the terms to be arranged by the directors.

Speaking of storage, Mr. Howe said, "We have such a building in Vernon. When it was first proposed I vigorously opposed putting the money of the growers into such a building. I was a new comer then and did not understand conditions. I was not listened to and I am very glad now that I was not. I told them that they would not get a cent of my money and they did not. But next year an early frost came and I was quite ready to have put my money in the storage building."

Questions from the floor brought out the statement that approximately an additional \$10,000 would be required for packing house equipment and \$15,586 was the purchase price for the Steuart properties and equipment.

When the resolution favoring the purchase was put to the meeting it was carried unanimously.

Mr. Bulman thanked the members, stating that they would go back to Vernon with renewed effort "to transact the business in your favor." Mr. Howe assured the gathering that a big load had been taken off his shoulders by this resolution.

"Let us develop the co-operative spirit," he said. "With combined enthusiasm we can make things go."

J. S. Campbell inquired about the canning of surplus fruit, to which Mr. Howe stated that the board had done nothing as yet on the question.

Mr. Gray, in answer to an inquiry stated that the valuator had approved of the price put on the Steuart purchase and had further stated that the price asked by the Steuart interests came nearer their own value than was the case in any other instance in the Valley.

G. Thornber proposed a vote of thanks to Messrs. Howe and Bulman together with an expression of confidence in the central board, to which hearty response was given.

Mrs. Hood was in town again last midweek in connection with the business of the Urquhart property.

Mrs. and Mrs. H. E. McCall motored to Summerland on Thursday on a business visit, returning the same evening.

Mrs. Morgan returned to Peachland recently after a few months spent in California.

Mr. and Mrs. J. McKinnon spent Saturday visiting Kelowna.

Local readers will remember that there was a poultry competition conducted among the pupils of the Central School last year by Principal Harris and supervised by Provincial authorities. Owing to illness on the part of some of the government officials the prizes which had been promised have been slow in coming through, but have reached here now and the awards are as follows—Class 1, first prize of \$5.00 to Douglas Elliott; second prize of \$4.00 to Edgar Taylor, third prize \$3.00 to Irene-White, fourth prize \$2.00 to Gerald Elliott; Class 2, first prize \$5.00 to Edna Cudmore,

second prize \$4.00 to Arthur McCall, third prize \$3.00 to Gordon Morrison, fourth prize \$2.00 to Henry Wilson. The contestants showed great interest in the competition from the first to the last and as a result produced quite a number of fine birds all of the Bared Rock strain.

The Young People's Society of the Union Church, recently organized by Rev. T. A. Sadler, held a debate on Monday evening: "Resolved: That the World is Getting Worse." There was a good attendance and the speakers were well up to the mark, having put considerable time and study on the subject, as shown by the numerous points brought out. Mr. Sadler acted as chairman. The speakers supporting the affirmative were Franklin Elliott, Miss Millie Robins and Miss B. Buchanan. For the negative: Miss B. Noble, Masters Robert and Edward Williams. Some of the speakers went away back into ancient history and worked their subject down the line to the present day with many interesting points brought out and interspersed with jokes aplenty. Among the issues

discussed were the following: drug evil, liquor traffic, political unrest, Bolshevism in Russia, racial bitterness in the South, women's rights, kingdom rulers, books, schools, medical field, scientific realm, spiritual, physical and moral conditions and the enlightenment of the ages. The affirmative conceded that the world might possibly be somewhat better mechanically but it was their intention to prove that spiritually and morally it was worse. The negative supporters said that possibly in some respects the world might be considered as being worse but it was their intention to prove to the audience and the judges that as a whole it was getting better. Although it was the first attempt at debating by some of the speakers they all did exceptionally well and pleased their hearers very much with their arguments and the working out of their subjects. Mr. Edgecombe, Miss A. Elliott and Mrs. C. Somerville were the judges, and brought in the report that the negative had a little the better of the argument. Mr. Edgecombe, who spoke for the judges, heartily congratulated the speakers.

Mrs. Murdin spent Friday in Kelowna.

### Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs. H. E. Trimble and Mr. A. J. MacKenzie spent the day visiting in Kelowna.

Mr. and Mrs. S. Stephens were visitors to Kelowna on Wednesday.

Rev. Isaac Pogo of Ponticton attended a business meeting of the Peachland Baptist Church on Wednesday. After a strong appeal from the members Mr. Pogo consented to take on the work here again for a time commencing with Sunday the 13th of May.

Mr. J. McKinnon returned Wednesday evening after a day's visit up the lake.

The Memorial Committee is having the street cleaned and graded around the monument and already have made a great improvement in the general appearance of the street. They have made arrangements for a thirty foot section in the center of the street and expect to beautify that section.

Civic improvements are the order of the day. The Municipal Council have had the flag pole removed from its former position in front of the old council chamber and reset in front of the present Municipal Hall, and a new cement walk leads from the sidewalk to the steps up to the Municipal Hall door which makes a great improvement, and one which was much needed.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

J. W. JONES, M.L.A., GIVES LECTURE ON LEGISLATION

and Information Address Before Farmers' Institute. Tells How New Laws Are Brought Into Force in Interesting

"Legislation, its origin and the Responsibilities of Government" was the subject of an excellent address given by J. W. Jones, M. L. A., before the Summerland Farmers' Institute at the last meeting. During the Spring Mr. Jones has been addressing many gatherings in his constituency and he stated that this was the twenty-first. Another favorite subject with him is that of "Education."

Mr. Jones went back to confederation in 1876 and reviewed the history of the formation of Canada under the British North America Act and paid high compliment to the Fathers of Confederation. He defined the powers of the Federal government and the governments of the provinces.

British Columbia had entered Confederation in 1871, retaining the rights of her natural resources. The four provinces entering Confederation: Ontario, Quebec, New Brunswick and Nova Scotia, then had a population of two millions. The nine provinces today have nine million people. The speaker described Canada as a fine large home with nine large rooms.

Previous to 1871 British Columbia was a crown colony. The Lieutenant-Governor appointed by Ottawa superseded the Governor appointed by Britain. Until recently our Lieutenant-Governors were East-ern men, but the last three Lieut.-Governors, Patterson, Barnard, and Nicoll, were British Columbia men.

Of our system of government Mr. Jones explained that the people elected representatives, the party with the majority selecting the leader of the government and the cabinet members. At the last election, 1920, the members were divided as follows: 26 Liberals, 14 Conservatives, four Independents and three Laborites. From the 26 Liberals, Premier Oliver, selected his ministers, who with the Premier are the advisors to His Honor the Lieutenant-Governor.

"Where does legislation originate?" asked Mr. Jones. "It might be," he said, "at a meeting of a Farmers' Institute." Some such organizations are very prolific with suggestions and ideas.

Legislation pertaining to fruit growing would be presented by the advisory board of the Fruit Growers' Association, and would first be dealt with by the Agricultural Committee and recommended by it before being introduced in the House.

Mr. Jones reviewed, briefly many of the Bills that have been before the last session of the Legislature. On one question the members were unanimous, resulting in a resolution being sent to Ottawa on the Oriental question. At Ottawa all B. C. members supported the resolution, but it was defeated by the East. The head tax was being taken off Chinamen by the Federal government.

Though there was an understanding with Japan that not more than 400 Japanese would emigrate to Canada in any one year, this was being evaded. The speaker told of the aggressiveness of the Japanese in attempting to obtain an equal footing in every way with our citizens, even trying to get the franchise, but so far British Columbia has refused the franchise to all Orientals.

Only cabinet members present Bills in the House, but the Opposition has the right to recommend and does secure amendments. Mr. Jones reviewed the history of the last amendment to the Liquor Act as it related to hospitals. When the Bill was introduced, he, as a member of the Opposition, had asked how it would affect the smaller hospitals and had been assured that it would not affect them adversely; and was told that the bill had been prepared by the hospital association. Mr. Jones stated further that he had received a wire from the Kelowna hospital asking that he give his support to the bill. He now feels sure that something had been put over the members and that the injustice done the smaller hospitals would be remedied.

Last session the Premier brought in a Bill which affects all apple and pear growers. By this, those growers will be assessed to provide a sum up to \$20,000 for fighting the codling moth menace. If the municipal assessor does not provide for the tax within municipal boundaries the provincial assessor will step in.

Not all Bills or amendments brought in by the government pass the House and Mr. Jones named a number of such, outlining their effect if they become law. It is believed by recent amendments of the school law, that B. C. now has a splendid school law. It

endorsed the proposition for a survey of our schools.

Mr. Jones referred to a recent report from Victoria which had appeared in the Review and other newspapers with respect to a provincial tax on fruit trees. Mr. Jones spoke of his efforts to get a lower tax on orchard properties and of the assurance given him that there would be a reduction on the assessed value of fruit trees. On the last day of the session he had been informed that the Premier had promised this amendment, which was to come into effect by proclamation and would be in force this year. At the convention of the United Farmers in Vernon and again at Kelowna, Mr. Barrow, Minister of Agriculture had declared that this reduction would apply and that the proclamation would be made any day. At the request of Mr. Jones, Mr. Barrow wired Victoria on the subject. The Premier was away and the report was indefinite. Many of the farmers then got busy, writing the Department. Assessor Wilnot, he said, assured the farmers that they would get a reduction. When Premier Oliver was in the Valley recently, a delegation waited on him and was amazed to be told that the reduced assessment would not be made this year and that the Minister of Agriculture did not have the authority to make the promise he did. The same statement was repeated by the Premier at Kelowna. It was said further that any relief must be under the Revenue Act. "This meant," explained Mr. Jones, "that destitute persons must apply individually for relief from taxes." He feared that the newspaper reports meant relief under the Revenue Act, rather than a general reduction of assessment under the Tax Act. He had written for information.

(It might be explained here that this legislation does not apply to orchards within municipal limits.—Editor.)

The growing debt of the province was touched upon and the speaker referred, hopefully, to the organization of fruit growers through which he looked for a return of prosperity to the Okanagan.

The special feature of the Naramata W. I. regular meeting held at the Unity Club, May 1st, was a splendid lecture on "Goltre" given by Dr. Andrew, who, with Mrs. Andrew drove around for the occasion.

Dr. Andrew treated the subject from the standpoint of preventive measures and a clearly concise list of causes contributing to the malady. The unusually large attendance were delighted with the lecture and accorded the speaker a hearty vote of thanks for his interesting and instructive talk.

A farewell gathering on the occasion of Hilton Snider's departure from Naramata was held in the home of Mr. and Mrs. J. M. Robinson on Friday evening, Mrs. Manchester, Mrs. Routh and Miss Robinson being the convenors. About thirty guests were present and a pleasant time spent in dancing and general sociability. Refreshments were served by the ladies, and the best of good wishes tendered to the departing guest. Mr. Snider left Naramata on Sunday evening for Penticton.

Mr. and Mrs. Loveday and family arrived from the North on Friday evening, and have been staying at the Syndea Hotel pending the arrival of their household goods.

Mr. and Mrs. Sismoy are moving into the Manchester cottage this week.

Rev. H. A. Solly held evening service in the church here on Sunday.

# HORSES TAKEN DURING NIGHT

### Poundkeeper's Pony Also Taken But Returns—Horses Captured

That someone opened the pound and took out a bunch of impounded horses on Thursday night of last week is the belief of Poundkeeper D. C. Thompson. A bunch of horses, reported since to belong to Indians of the Westbank reserve, had been impounded and it is reported that one of the band was sent down to get the horses and had been provided with money to pay the fees. Current report has it that the money was expended otherwise. The Indian tried to persuade the poundkeeper to let him have the horses saying that the Indian agent would pay the fees. This he refused to do but along about 2 o'clock the next morning the horses, along with Mr. Thompson's own horse, disappeared. A day or two later they were impounded. After being away for two days, Thompson's own horse returned home. The horses are to be sold on Saturday.

#### POUND NOTICE

Impounded on April 28th; one bay work horse; white star on face; shod all round; no brand visible. If not claimed by Friday, May 11th, at 2 p.m., will be sold at public auction. D. C. Thompson, Poundkeeper. 795

# PLAN TO BUY OCCIDENTAL

### Negotiations Pending For Taking Over of Independent by Asso. Growers

Associated growers are negotiating with the Occidental Fruit Co. for the purchase of the latter's business, this concern being the chief of the few remaining independent shipping houses. The Occidental is controlled by the MacDonald Co., Winnipeg, with many wholesale houses throughout the west. It seems probable that the deal will be consummated but it is expected that the Occidental will carry on for the present season.

#### LIKELY TO OPERATE FRUIT PRODUCTS

That the Fruit Products Co. will operate its plants for the preservation of cherries, cots, peaches and apples now seems probable, according to a report from Vernon, plans along these lines are now being made.

#### BEN HOY AGAIN ON FRUIT STAFF

Ben Hoy is again on the staff of the Horticultural branch, having been appointed to the Kelowna position held by T. M. Anderson for the past four years. Mr. Anderson has resigned and will devote his entire time to his farm at Rutland.

If a man wants to do just as he darn pleases, he should lead his wife to believe he is as easy to manage as a Maltese kitten.

# Local Happenings

Louis Smith, now a student at U.B.C., came in on Friday's train from Vancouver.

Mr. J. H. Roberts, formerly on the staff of the Bank of Montreal here, came in from Merritt last week, and is now relieving on the staff of the Penticton branch.

Domestic water service was suspended all day Friday along Shaughnessy Avenue and other streets served from this main. During the day a section of the main was taken out and replaced with new pipe.

Lieut.-Col. Belson, president of the Kelowna G. V. V. A., passed through here last Thursday on his way to Vancouver on business in connection with the Veterans' reunion to be held in July.

100 pairs of White Canvas Boots and Shoes. Sizes 5 1-2 to 2. Regular \$2.50, now \$2.00; and \$1.50—now \$1.25. Running Shoes 85c per pair. See display in window. We specialize in Children's Shoes. A Milne. 795

Mr. W. J. McDowell, general manager of the O.U.G., came down from Vernon on Monday night and conferred with the Dominion Bank officials and the liquidator of the Fruit Union on matters relating to the latter.

Mrs. John Reid came in from Matsqui on Saturday to visit her sister, Miss M. Miller, of the high school staff. While here, she is staying at the home of the Misses Spencer.

Mr. S. Blackburn, of Vancouver, spent a day or two in town last week, the guest of Mr. and Mrs. G. H. Inglis. Mr. Blackburn is a student at the University, where he has been studying for the ministry.

R. Carefoot has applied to the municipal council for an irrigation connection for an alfalfa field in Prairie Valley lying above the flume and now watered from the domestic pipe line. An effort will be made to give him flume service.

Through an error in reporting the programme given by the Baptist C. G.I.T. in these columns last week, Miss Edith James was mentioned as taking the part of "Angelina" in the first sketch. This part, on the contrary, was taken by Miss Bessie Tomlin.

An application received from Mr. Killick for domestic water service to a lot formerly the McLean property in Hill Park Gardens, may result in an extension of the domestic water system to that subsection. Reeve Campbell and Councillor Johnston have the matter in hand.

A goodly crowd of young people attended the dance given by the students of the high school in the Parish Hall on Friday night. Miss B. Johnston presided at the piano, with Jas. Kean playing the traps. The proceeds, amounting to about \$10, go towards the school sports fund.

Mr. and Mrs. L. R. Williams and their daughter Ruth, came in from Cranbrook on Tuesday and left here again on Wednesday for Vancouver where they will visit for a month. Mrs. Williams' mother, Mrs. Estabrook, who has been with them for the winter, arrived here a few days earlier and is again living in her home in Ponch Orchard.

#### MALE AND FEMALE BRAINS

The masculine brain works more rapidly than the feminine in associating ideas, but it has less originality. Abstract reasoning is man's strong point, while woman analyzes, assimilates and complicates. Men judge with their reason and women with their instinct and are less gifted in creative intelligence.

#### SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Snow	S.S.
April 18-53	35	.17	....	5.8	
19-50	30	.04	....	0.2	
20-47	34	.03	....	0.0	
21-55	35	.01	....	0.0	
22-59	32	....	....	12.9	
23-05	33	....	....	13.1	
24-00	37	....	....	13.1	
25-00	41	....	....	13.1	
26-07	45	....	....	12.8

28-50	37	....	....	4.0	
29-58	40	....	....	4.4	
30-51	32	....	....	0.5	
May 1-54	37	....	....	3.6	

Miss Eva Shields is visiting relatives in Penticton for a few days.

Another carload of feed was unloaded yesterday for L. W. Rumball.

Mr. and Mrs. J. Dowton left on Sunday for a holiday visit to the Coast.

Russell Munn came in from Vancouver on Friday, where he has been attending University.

Basil Stuart spent last week end at his home here. He returned to Vernon on Monday morning.

A son was born to Mr. and Mrs. Philip Agur on Friday, April 27th, at the Summerland high school.

Ronald White came in from Vancouver on Saturday morning, where he has been attending University.

The West Summerland Women's Institute will meet on Friday, May 11th, at 3 p.m. in the Parish Hall. 795C

Mr. Dudley Dawson, of Vancouver, is a business visitor in town this week, coming in on Tuesday's train.

The road between Dale's corner and the K.V.R. station has been considerably improved by the grading machine.

G. N. Gartrell returned on Friday night from Halcyon Hot Springs, where he had been taking treatment for a short time.

Jack Harris, of the staff of the Bank of Montreal, left on the noon train yesterday for a two week's vacation at the Coast.

Mr. A. H. Rathie, of Vancouver, is a visitor to Summerland this week, in company with Mr. D. Dawson, of the Dominion Bank.

Will Angove came in from Kimberley, B. C. on Tuesday morning for a short visit. He returns to his position there on Monday.

Rev. H. A. Solly went down to the Coast on Tuesday to attend a meeting of the Synod. He is expected back this week-end.

Mrs. Scott Rand has received the sad news that her mother, Mrs. Boyd, passed away on May 1st, at her home, Sawyerville, Que.

H. Reynolds, assistant forest ranger, is away from home much of the time now in connection with the duties of that department.

Mr. and Mrs. Guy Walden are moving this week from their home on Beach avenue to the J. H. Ritchie cottage at West Summerland.

Many genuine bargains that will be a surprise to the public and a delight to careful shoppers are being offered this week by A. J. Beer in his advertisement.

Miss D. Dewar returned on Tuesday morning from a visit of several months to her former home in St. George, N.B. She will resume her duties on the hospital staff on Saturday.

H. C. Handley is now manager here for the Community Lumber Co. Wm. Ritchie, who has been in charge for the past few months, severed his connection with the firm at the end of April.

Mrs. J. H. Ritchie returned last week from a short visit to Seattle. We understand that Mr. Ritchie's plans are somewhat changed and Mrs. Ritchie will remain here for the time.

#### CHINESE MUST NOT WORK ON SUNDAY

Are Warned by Provincial Police That Laws Must Be Observed.

Vernon.—Chinese while working in the fields on Sunday afternoon were visited by the provincial police and told that they were breaching the Lord's Day Act, which specifically states that no person shall carry on his "usual occupation on the Sabbath Day."

The Orientals were warned that they must desist, otherwise they would be brought before the magistrate.

An active campaign in this connection will be carried out, according to word from Victoria, following recent instructions from the attorney-general, who stated that the law must be enforced.

Boychoboy  
A dumo I love  
Is Allec Forn;  
Sho don't know much,  
But willin' to learn.

# BIBLE THOUGHTS For This Week

FRIDAY  
**Forsake Evil.**—Thus saith the Lord of hosts; turn ye now from your evil ways, and from your evil doings.—Zechariah 1:4.

SATURDAY  
**Give God the Best.**—Honor the Lord with thy substance, and with the first fruits of all thine increase.—Proverbs 3:9.

SUNDAY  
**Contentment With Good.**—Better is a little with the fear of the Lord than great treasure and trouble therewith.—Proverbs 15:16.

MONDAY  
**Love Casts Out Fear.**—There is no fear in love; but perfect love casteth out fear; because fear hath torment. He that feareth is not made perfect in love.—1 John 4:18.

TUESDAY  
**Seek Things Above.**—Set your affections on things above, not on things on the earth.—Colossians 3:2. Ye cannot serve God and Mammon.—Matthew 6:24.

WEDNESDAY  
**Life and Good Days.**—He that will love life, and see good days, let him refrain his tongue from evil, and his lips that they speak no guile.—1 Peter 3:10.

THURSDAY  
**A Constant Prayer.**—With-hold not thou thy tender mercies from me, O Lord; let thy loving kindness and thy truth continually preserve me.—Psalm 40:11.

GOOD BUSINESS.  
Good publicity makes good business; a good business makes good neighbors; good neighbors make a good town; all of which is more evidence as to beneficial results of advertising.

#### OBITUARY.

##### MRS. D. H. WATSON

News of the death of Mrs. D. H. Watson at the hospital on Saturday came as a shock to her many friends here. Mrs. Watson came in from Edmonton a week previous and on Monday underwent a major operation for cancer, and until Saturday morning gave good promise of recovery, but the end came suddenly, following a sudden relapse.

Mrs. Watson was well known here, having been a resident of Summerland for a number of years. After leaving here, she spent some time with her daughter in Vancouver and for the past two years has lived in Edmonton.

Mr. Watson came in on Monday night from Edmonton and took the body back for burial on Wednesday morning. A short funeral service was held in the Methodist church on Tuesday night, when Rev. H. E. Livingstone gave a sympathetic and impressive address. Mr. T. G. Beavis rendered a beautiful solo "Gone To Her Rest." Many beautiful flowers were put on the casket, among them a large wreath from the W. M. S. of the Methodist church here, of which Mrs. Watson was for years an active and enthusiastic member.

She is survived by her husband and two daughters, Mrs. Racey of Vancouver, and Mrs. Kneale, of Seattle, both of whom were with their mother during her illness here. The sympathy of the community is extended to the bereaved family.

##### MRS. G. G. STUART

The death occurred on Thursday night at the Summerland Hospital of Mrs. G. G. Stuart, following a sudden attack of pneumonia. Mrs. Stuart only a few days before had been substituting on the staff of the central school.

Mrs. Stuart, who has been a resident of Summerland for several years, was born in Manitoba, but moved west some time ago. For several years she taught school in B. C., coming here from the Nicola district. She leaves to mourn her loss her husband, one brother, Mr. Finley Thompson and a sister, Mrs. Wm. Dick, both of Vancouver, who came in from the Coast upon receipt of the news of her serious illness.

A brief but impressive funeral service was held on Saturday at the Stuart home, conducted by Rev. W. A. Alexander. The body was taken to Vancouver on Saturday's train, where burial took place. Mr. Stuart, Mr. Thompson and Mrs. Dick all went down to the Coast on Saturday. Mr. Stuart will probably remain there for a time but expects to return to Summerland at a later date.

# SCHOOL SPORTS ARE SUBJECT OF PROTEST

### High School Fees Again up at Parent-Teacher Meeting

That there is a time for work and a time for play and that the spring weeks when all should be busy preparing for the examinations, is not the proper time to give extra attention to sports was the claim made by Mrs. Solly in a brief address before the Parent-Teachers' Association last Friday, and in this she apparently was supported by a number of others. Too much time had been lost in basketball competitions and preparatory practices. Scarcely were they over when the pupils were thrown into the Valley inter-school meet.

Someone also wanted to know who was responsible for the high school dance being put on that night. Of this principal Lundie said he had no knowledge until that evening but the pupils were in debt for tennis equipment, etc., and he believed they were putting on the dance to obtain money.

Though she would have high school fees abolished, Mrs. Solly appealed to those present to loyally pay the fees this year and start a campaign to abolish them for next year. There followed a lengthy discussion on this subject, resulting in a second meeting of parents, when the matter was further debated, Reeve Campbell being the chief champion for the fees. A committee of three was named to again approach the school board with a view to having fees abolished for the current year. Dr. Pirie, J. W. Harris and a number of others, many of them women, took part in the fees discussion at both sessions.

Principal Lundie disapproved of the undue attention given to sports, stating that he found that those who gave their time to this were not in a proper condition of mind to acquire knowledge. Competitive sports at this time of the year were undesirable.

In a very informative and entertaining lecture, Capt. Creese gave a description of Egypt and its people and told of his experiences in that country during the war. Social, agricultural and religious conditions, the various nationalities of the population, the history of the country, its architecture, scenery and ancient ruins were all touched upon by the speaker.

The auditorium was well filled by parents and teachers, the meeting being presided over by T. H. Riley, president.

### MODEL FLUME FRAME INTERESTS COUNCIL

Considerable interest in the model for metal supports for fluming as devised by W. Johnston was manifested by the members of the council last Friday afternoon. Mr. Johnston demonstrated his device before the council and pointed out some of the advantage claimed by Mr. Johnston is that two men can erect more of these in one day than six men could build of wooden trestles in a week.  
 He was asked to ascertain the cost of manufacture, and to advise the council on this and other points later.  
 Mr. Johnston has applied for patents in both Canada and the United States.

### CALIFORNIAN GEN MANAGER ASSO GROWERS

(Continued from Page 1)  
 shall have the enthusiasm and confidence of the buyers," continued Mr. Pratt, who said that he had investigated the unsatisfactory conditions that had prevailed on the prairie markets during the last two seasons.  
 "Psychologically, aside from the laws of supply and demand, the buying trade welcomes any organization that will stabilize conditions. The buyer is just as important as the producer," and we must help the buyers to earn more money, then they can pay us more for our fruit," was the further comment of the manager.  
 He emphasized the necessity of a square deal to the trade. Buyers were just like the rest of the people: act honorably with them and in nine cases out of ten they will reciprocate.  
 "This organization will work on the basis of giving justice and will expect justice," he added.  
 He intimated that foreign markets would be analyzed carefully and expressed the opinion that they might hold possibilities that have as yet been unseen. The old country markets would be considered, and here there might be new ways of disposing of British Columbia fruit. New methods might be employed, as in the orange trade where the auctions had been abandoned for private sale arrangements.  
 The United States might also hold unexpected markets, was his further comment.  
 "There is a charm in the mind of the average housewife about buying apples from Canada," continued Mr. Pratt, who said that B. C. fruit bore a splendid reputation and that its particular appeal might offset any tariff and freight handicaps.  
 "The grower must feel that he is part of the organization. He is the foundation on which this structure is built and as such, the staff, are his employees and his servants," was another statement.  
 "We shall go to the limit to get results and the grower may rest assured that he will be kept informed of general business conditions, particularly as to any settlements that have been made."  
 Mr. Pratt stated that a system would be worked out whereby the growers, through the managers of the locals, will know about the business in the making, when sales are consummated and in other ways the growers will be taken into the confidence of the various managers in the different districts so that they understand the different problems that come along and will know what the management is trying to do.  
 "If the returns on certain varieties will be low we shall tell the grower so that he will not be building on something that he is not going to get."  
 "I cannot but believe that the organization with the new life which it has obtained, and with the loyal enthusiasm, which seems so general, is bound to make a big step forward in helping to solve conditions as they exist here at present," said Mr. Pratt, who went on to say that he found in Mr. McDonald a man of exceptional ability. The same could be said of Mr. Kinnard, the secretary, he added.  
 Mr. Pratt paid a tribute to the directors and the men he had already met.  
 "They are of a type far superior to any I have ever seen supporting a co-operative organization and their general breadth of viewpoint shows that they have the ability to put things across."  
 He expressed his approval of the organization as he had seen it and the task that had already been done in co-ordinating the different interests.  
 Mr. Pratt will remain in Vernon for two or three weeks before leaving for California to arrange for his

### FOUND STILL IN DEEP RAVINE

(Continued from Page 1)  
 of Armstrong's house were found a number of empty whisky bottles, and in the root house about 160 of the same bottles. In a bureau drawer was found a package of three star labels, similar to those used as labels on liquor bottles.  
 Armstrong claimed the hoof marks had been made in looking for stock, and that the bottles in his cellar had been bought by him with liquor in same for his own use. The other large bottles he claimed he had bought to fill with vinegar to sell. He denied all knowledge of the still. The case lasted two days and a number of tilts took place between Counsel Mr. W. C. Kelley of Summerland acted for the Crown, and Mr. W. Clayton of Penticton for Mr. Armstrong. At the conclusion of argument by the counsel the Court found Armstrong guilty and fined him \$200.00 and costs, with six months at hard labor in default of payment.

### COURT REGISTRIES OPENED AT KELOWNA

Notice is given in the British Columbia Gazette of the establishment at Kelowna of a Registry of the Supreme Court of British Columbia and a Registry of the County Court of Yale. G. A. Fisher, of Kelowna, has been appointed Registrar of both the County court and District Registrar of the Supreme court and also Clerk of the Peace of the County of Yale. His appointment and the opening of the Registries date from May 1st.

### WOMEN'S INSTITUTE ACT IS AMENDED

By order-in-council an alteration has been made in the act affecting Women's Institutes. Cause 4, relating to the objects of the society now reads:  
 Clause (4) The objects of the Society are:  
 (a) To improve conditions of rural life, so that settlement may be permanent and prosperous in the farming communities;  
 (b) To promote home economics, public health and child-welfare, education and better schools, legislation, immigration, and settlement;  
 (c) To encourage agriculture, home and local industries;  
 (d) To promote social intercourse, mutual helpfulness, and the diffusion of knowledge; to make settlers welcome and improve community conditions.  
 Another amendment re-procedure at general meetings reads:  
 Clause 12 (g), subsection (d): Delete the words "Business arising out of Minutes," and substitute therefor "Report of Treasurer"

## No Exclusive Deal For Brokerage Concerns

**Both Firms Accept \$10 Per Car Reduction — Will Handle Shipments to Exclusion of Other B. C. Fruit—Two Well Known Men Added to Sales Staff.**

(By our Special Correspondent)  
No exclusive deal was made by the Associated Growers with either of the two prairie brokerage firms, it was learned in Vernon this week, after representatives of the Mutual Brokers and the Growers' Sales Agency had discussed the question with the executive. The two firms agreed, it is understood, to handle the shipments of the Association, to the exclusion of other B. C. fruit, on an 'open deal.'

The brokerage charge, it is stated, has been reduced to ten dollars per car which will mean a saving to the growers this year of \$35,000, at least. In former years the brokerage charge was always \$35 per car but from now on it will be \$25, according to the arrangements made by Mr. Pratt, the general manager, with the two concerns.

Most of last week was given over to conferences with the representatives of the prairie brokers who discussed the pros and cons of the season's selling arrangements.

The prairie men were much impressed with Mr. Pratt, with whom he made a good impression, not only in a personal way, but in the manner in which he conducted the negotiations on behalf of the co-operative.

'Dave' McNair, who for many years has managed the firm of Wm. McNair, with packing houses at Armstrong, Vernon, Penticton and some main line points, has been appointed to the sales staff of the Association. Mr. McNair's experience in the vegetable branch of the trade has been extensive.

O. Jennens, who has been with the B. C. Growers at Kelowna, has also been appointed to the sales staff.

## SEASON TWO WEEKS EARLIER THAN USUAL

**First Report on Crop Prospects and Orchard Conditions Is Encouraging.**

District Horticulturist W. T. Hunter issued on Saturday last his first weekly news letter on horticultural conditions throughout the province.

Summerland.—May 5.  
The 1923 season is at least two weeks earlier than the past three seasons.

Apricots were in full bloom on the 18th of April, while last year they were in bloom on the 28th April, a difference of ten days. Peaches were in full bloom on the 24th; cherries 27th; pears 28th. Apples are now in the "pink" and are ready for the "pink" spray now, which is 16 days earlier than 1922.

The trees have wintered well, and are showing good set of bloom in all varieties, with the exception of apricots through heavy crop last year and some winter injuries to buds in odd sections.

Moisture conditions are fair to good, the rain of April 10th and 17th did much good and gave the cover-crops a good start. Some orchards require additional moisture right now, and growers would be well advised to attend to this immediately.

**Kootenay and Boundary.—May 1.**  
Season at least two weeks earlier than in 1922. Ideal spring weather up to the 28th of April, light rains on the 20th and 30th, followed by a heavy snow and rain storm on May 1st, and weather has turned much cooler.

Sweet cherries are in full bloom. Pears showing pink, also plums and some of the sour cherries. Growers will be putting on the first scrub spray (pink) by the end of this week in some early locations. This spray will be general by the 10th of May.

All small fruits have come through the winter and spring in good condition and have made good growth up to date. There will be considerable increase in the acreage bearing

## GOVERNOR'S MEDAL TO SUMMERLAND BOY

That he has made the highest standing in his class for the first two years and has thereby won the Governor General's medal is the pleasing news received by "Jimmy" Marshall, now on vacation from his studies at Ontario Agricultural College. In addition, Jimmy has won a scholarship of \$10 for the best all-around man. This scholarship for general proficiency, we believe, also includes sports. Another scholarship of \$30 was won by him in the English department, for which a special essay was required.

## ALL READY FOR INTER SCHOOL TRACK MEET

**Large Contingent of Students To Attend Valley Sports at Orchard City**

Much enthusiasm is being shown throughout the Valley in the coming Okanagan Inter-school track meet to be held at Kelowna on Saturday, May 12th. Present indications are that about 400 scholars from Valley schools will go to Kelowna, which, with the Kelowna pupils and adults, should make a record crowd of this nature. This is the second Okanagan school track meet, and the teachers, trustee boards, and pupils are sparing no effort to make the day a successful one.

With a wide-awake and active committee in charge, a systematic program has been arranged, including foot-races, relays, broad and high jump, pole vaulting, etc., the meet being held in two divisions, Div. A open to pupils of any Valley school, while Div. B is open to pupils of high and superior schools only.

Two Valley championship cups are being contested for under this arrangement; one, for the town championship of the Okanagan Valley, held for the past year by Kelowna, and determined by the results of both divisions, the other, a high school Valley championship cup, determined by the results of Div. B only. Two other cups are being awarded by the Association, as aggregation prizes, to be held permanently by the boy and girl making the largest number of points at the meet, and in the case of ties, each contestant will receive a cup.

Our local pupils are putting in some good work in preparation for this annual event and hope to capture a good share of the honors. Plans have been completed, whereby Capt. P. S. Roe makes a round trip with the Skookum, leaving Summerland early Saturday morning and leaving Kelowna about six p. m.

Refreshments will be available on the grounds, and the committee has made arrangements to have hot lunch served for those remaining in the grounds during the noon hour. This is being prepared by the ladies of the Kelowna Parent-Teachers Association, the price being 50 cents.

Morning program commences at 10:30 and the afternoon session will begin at 1:30.

of strawberries and raspberries. Prospects are quite good for an average crop of all tree fruits. The apple crop will hardly be as large as last year. Spys in some sections will be very light. Baldwin's are also showing off crop. Wealthy are irregular. McIntosh, Wagoner, Rome Beauty and Delicious are showing up well in most sections.

Sweet cherries are showing a heavy bloom, and if no damage by frost the crop should equal that of 1922. Prospects are favorable for a good pear crop also.

Tent caterpillars are showing up very badly in large number of orchards in several sections, and growers troubled with this pest would be well advised to use arsenate of lead in their lime sulphur solution with the first scrub spray.

As indicative of the forwardness of this season compared with that of 1922, (Continued on Page 6)

## INDIAN IS FINED ADMITS BEING DRUNK

Dominique Paul, one of the Indians residing at Shingle Creek, was fined \$10 and costs in police court on Monday for being drunk in a public place on Saturday, April 28th. When asked if he was guilty, Dominique said he did not know what that meant, but he was drunk in Summerland on that day. He was informed by court that costs would be heavy as the constable had to hire a motor truck to take him to serve the summons on him at Shingle Creek. Failing to pay the fine, he would be imprisoned for seven days. Dominique asked to be given a few days to obtain the money, when he would pay fine and costs. Police Magistrate Hutton told the Indian he was getting off easy as if he had been a white man, the minimum fine would have been \$50 and costs.

## NEW SAW MILL AT OKANAGAN FALLS

Some time ago Okanagan Falls was a live little lumber manufacturing town, but for a long time there has been little doing there. The extension of the railway down the Valley has improved the status of the Falls. A lumber mill with the capacity of 10,000 feet per day is starting operations there. It has been erected between the K. V. R. slip and the hotel. In addition to the usual circular saw and carriage, there is a planer, edger, trimmer etc., all driven by a 60-horse power engine and boiler. The mill, though a small one, will be an important adjunct to the district. H. Sladeh and C. Dix are doing business under the name of the Cederfer Lumber Co.

## LIGHT OPERA COMING HERE WELL RECEIVED

**Criticism of First Performance of "Pirates of Penzance" at Kelowna**

By E. O. MacGinnis, Kelowna.

Kelowna.—Combining in wonderful degree the qualities of Tennyson's Brook, that "goes on forever," and Dr. Coe's "every day in every way getting better and better," the Kelowna Operatic Society, in their this season's vehicle, "The Pirates of Penzance," the melodies of which are familiar to all, even if they do not know where they come from, have again demonstrated to their admiring but critical friends that the older they get as a society the better they are.

The excellent scenery depicting the scenes in which the story is laid gives an excellent background from which chorus and principals can tell the story to the audience. The chorus is stronger than last year and better balanced, their work in the ode to poetry being particularly effective.

Careful training is seen by the constant "stago pictures" being formed one after another, which prevents monotony to the audience. The chorus attacks are "snappy," the choruses "catchy," and everybody thoroughly enjoys their part, their pleasure transferring itself and infecting the audience whose enjoyment was very manifest.

Some nice male singing was heard in the opening chorus of pirates, who are discovered on a rockbound shore, drinking and making merry. This introduces a new member of the cast, Mrs. A. L. Somers, who plays the difficult and thankless role of "Ruth," the "piratical maid of all work," and to her is given the song on which the plot hinges, her splendid enunciation making it possible for the audience to understand what it is all about. Having played Shakespearian roles in Drury Lane and other London theatres, Mrs. Somers has the ability to throw into this small part a pathos, vivacity, tragedy and braggadocio that makes it outstanding. With a pistol in one hand, a short sword in the other and a dagger in her tooth, she is indeed a fearsome creature in the second act. Always popular as a soloist, Mrs. Somers received an enthusiastic welcome to the stage from the audience.

(Continued on Page 6)

## HUNDRED AND COSTS WAS FINE IN INDIAN CASE

**Story of Dominique Paul Gets Local Store Man Into Trouble**

**CASE APPEALED**

**Indian and Companion Swore Bought Vanilla Essence From A. Milne—Accused Denies**

Charged with supplying intoxicating liquors in the form of several bottles of essence to an Indian, Alex. Milne was fined \$100 and costs by Magistrate Hutton.

The case came up for hearing before Magistrate Hutton on Monday. Dominique Paul, Indian, Shingle Creek, the chief witness, swore he bought from A. Milne a large bottle of vanilla shortly after noon of Saturday, April 28th, paying \$1.25. An hour or so later he bought four smaller bottles from Milne, again paying \$1.25. Later in the afternoon he bought two others for 75 cents. These, he said, were all bought from Mr. Milne in his store. He drank some of the extract in a stable near the store and on the hillside where his horse was feeding. After the last purchase, he started for home, but remembered nothing after riding about half way from the lower to the upper town until about four o'clock the next morning. The extract made him drunk, but he did not remember yelling or singing. "Don't do that when I'm sober; maybe when drunk." Cross-examined, witness said maybe he drank all the extract, there was none left. He had four of the bottles when he left town for home. He went to Milne, asked for vanilla. Milne said he had none but knew where to get it for him and told him to come back in a few minutes. The first time he entered the store Saul Paul was with him. "Saul was afraid maybe bad stuff; he does not like it anyway. But I like it."

To a question from accused's counsel as to how many times witness had been fined or drunk, Paul replied, "I have no business to tell. That all done." But further questioned, he said this was the first time he had been fined here, but he had been, long time ago in Penticton.

G. K. Devitt, another witness for the Crown, told of seeing Dominique Paul on the afternoon and evening in question, first at noon, again about 2:30 or 3, when he passed his store apparently drunk. Again at 9 o'clock, he came into his store, noisy and drunk. Some of his customers got him away to his horse. He had seen Dominique drunk several times.

Frank (Jack) Morrow, acting constable, told of the noise Paul was making Saturday night on Shaughnessy Avenue. He went to the stable next Milne's shortly after 10 o'clock and found Paul too drunk to waken. Later in the night, he got him on his horse, hoping that he would go home. About midnight he saw him again passing his (Morrow's) place in Prairie Valley, noisy and yelling.

Saul Paul, sworn, stated he came from Shingle Creek with Dominique and went into Milne's store with him. Dominique Paul asked, "What drinks you got?" Milne answered, "What you want?" Dominique said, "Vanilla extract." Milne said, "Don't have any, but can get it." Dominique put one dollar and quarter on table and Milne took it and told Dominique to go out and come back in a few minutes. They went back and Milne had a large bottle with paper around it. When Dominique (Continued on Page 6)

## MUCH TALENT BROUGHT OUT IN GIRLS' PLAY

**St. Andrew's Canadian Girls In Training Give Fine Play to Large Audience**

Excellent acting, beautiful costumes, good setting—all the necessities of a successful play were supplied on Thursday evening, last, by the Ok-We-Su Club of St. Andrew's C. G. I. T. And their play was successful; a grand success!

Mrs. Alexander spared neither time nor trouble in her work of training the girls for the "Misogamist," and she has indeed proven herself a master hand. Her untiring efforts in their behalf brought the girls up to the perfection displayed in their production of this play.

Great credit is due the girls who followed her leadership so ably. Every part in "The Misogamist" was an important part and every one was excellently upheld by the girl to whom it was allotted.

Miss Mary Hanna, as David Dampor, the Misogamist, delighted the house by the capable manner in which she handled her part. For the time being she was a crusty, old, woman-hating bachelor, striving to save his best friend from a terrible fate.

Miss Amy Smith, as Maria Macnaw, a female man-hater, ably supported Miss Hanna in the leading part. She also threw herself wholeheartedly into her part and made Miss Macnaw a real character to her audience.

Miss Ella Morrison, as Jossy Meadows, the gentle niece of Miss Maria Macnaw, went through with her role in an admirable manner. One could not help but sympathize with Mr. Charles Chester when he learned he was to lose such a treasure.

Miss Laura McLachlan, as Mr. Charles Chester, was excellent. This was a quiet gentlemanly part and Miss McLachlan was a perfect gentleman even under some very trying conditions.

Miss Margaret Mann, as Miss Corollino Coy, suspected of being Mr. Chester's mother, upheld her dignity very well considering that she had been waiting at the church for Mr. Niggle from ten in the morning till late in the afternoon.

Mr. John Niggle, the fluctuating bachelor, who so trifled with Miss Coy's feelings, after having been previously connected with five simi- (Continued on Page 6)

## NO CHANGE LIKELY IN TAX RATES

That there will be no change in the Summerland municipal tax rate seems probable. The Tax and Council met in special session last Saturday night when tax rates were considered and the 1923 tax bylaw given its first readings. The bylaw comes up for final reading tomorrow at the regular meeting of the Council. A good part of the evening was devoted to the problem of irrigation arrears.

## TRUSTEES ENDORSE SCHOOL SPORTS

That there is a possibility of a wrong impression being received by readers of the brief report in our last number of the address of Mrs. Solly, school trustee, at the last meeting of the Parent-Teachers' Association, is feared by Mrs. Solly.

In speaking of the meeting to a representative of the Review, Mrs. Solly stated that she and other members of the school board were heartily in favor of sports and that they had given their approval to the visit of the basketball team to the Coast and also recognized the inter-school meet as an established institution.

What they wished to discourage was an undue amount of inter-town competition in sports during the few weeks prior to examinations, and, said Mrs. Solly, it is not so much the sports that trustees and teachers object to as it is to the dance which almost invariably follows the game, keeping the young people out to a late hour and unfitting them for the school work.

National Hospital Day—Saturday

Saturday, May 12th, is Hospital Day throughout Canada. Locally, the program is in the control of the Ladies' Hospital Auxiliary, when the hospital will be open to the public from 2:30 to 5:30. Summerland's hospital is considered one of the modern hospitals of the province and is well worthy of inspection. Further, it depends largely on the support of the citizens and donations in any form will be welcome. If you can do nothing more, ask for some empty sealers while visiting the hospital on Saturday. Take these home and fill them when doing your canning.

## EXECUTIVE OF B. C. F. G. A. MET LAST WEEK

**Link Up With Canadian Horticultural Council—Much Effective Work.**

A meeting of the executive of the British Columbia Fruit Growers' Association was held last week at Kelowna. It was called for the special purpose of preparing a brief on the fruit growing industry of this Province for presentation to a special committee on agriculture sitting at Ottawa. The members of the executive present were: L. E. Taylor, President, Kelowna; T. Abriel, of Nakusp; G. I. Thornton, of Sardis; G. Constable, of Creston; W. H. Robertson, Provincial Horticulturist; and Prof. A. F. Barrs, of the University of B. C., Secretary of the Association. W. A. Middleton, of Vernon, and C. E. Barnes, J. E. Reekie, and T. Bulman, of Kelowna, also attended the meeting, by invitation.

The first business transacted was the dealing with several of the resolutions passed at the last annual meeting. These were discussed and Mr. Taylor explained the various matters taken up by himself and Mr. Bulman, when in Ottawa last March attending the meeting of the Canadian Horticultural Council, such as the question of freight and express rates, and the numerous concessions they had been able to obtain for the benefit of the fruit growers of B. C. through visits paid to Montreal, Toronto, Winnipeg and other centres, some of which had to be fought for several years before ultimate success was reached.

The meeting was informed that the delegates had decided to take out membership in the Canadian Horticultural Council, which represents the entire horticultural industry of the Dominion and has a membership of 75,000, and that this Province will be represented by two members from B. C. being placed on the Executive of the Council, which is composed of seventeen men representing the various provinces.

Mr. Taylor next took up in detail the matters which had been dealt with at Ottawa, such as the Anti-Dumping clause in the Customs Act; French and Australian trade treaties; the Fruit Marks Act, the Australian and Japanese embargoes, etc., also explaining the evidence which the delegates had given before the Agricultural Committee of the House. He stated that the Minister of Customs had given an assurance that the anti-dumping clause would be enforced early enough this season to amply protect the fruit growing industry in B. C.

Mr. Taylor also stated that the Federal Department of Agriculture had promised that everything possible would be done to investigate the breaking down of the Jonathan apple, and that this investigation had already commenced.

The Provincial Police force is being re-organized and it is understood that more officers will be stationed along the international line with a view of lessening the export of liquor.

Mr. G. G. Stuart returned early this week from Vancouver.

## Father and Son Banquet Was Complete Success

### OCCIDENTAL WILL OPERATE AS USUAL

That it is the intention of the Occidental Fruit Co. Limited, notwithstanding reports to the contrary, to operate in Summerland this season, is the information conveyed in a letter from the head office of the company at Kelowna. The letter states further "that up to the time of writing, no communications have been received by this company from the Associated Growers for the purchase of the Occidental holdings."

### EXECUTIVE OF B. C. F. G. A. MET LAST WEEK

**Link Up With Canadian Horticultural Council—Much Effective Work.**

A meeting of the executive of the British Columbia Fruit Growers' Association was held last week at Kelowna. It was called for the special purpose of preparing a brief on the fruit growing industry of this Province for presentation to a special committee on agriculture sitting at Ottawa. The members of the executive present were: L. E. Taylor, President, Kelowna; T. Abriel, of Nakusp; G. I. Thornton, of Sardis; G. Constable, of Creston; W. H. Robertson, Provincial Horticulturist; and Prof. A. F. Barrs, of the University of B. C., Secretary of the Association. W. A. Middleton, of Vernon, and C. E. Barnes, J. E. Reekie, and T. Bulman, of Kelowna, also attended the meeting, by invitation.

The first business transacted was the dealing with several of the resolutions passed at the last annual meeting. These were discussed and Mr. Taylor explained the various matters taken up by himself and Mr. Bulman, when in Ottawa last March attending the meeting of the Canadian Horticultural Council, such as the question of freight and express rates, and the numerous concessions they had been able to obtain for the benefit of the fruit growers of B. C. through visits paid to Montreal, Toronto, Winnipeg and other centres, some of which had to be fought for several years before ultimate success was reached.

The meeting was informed that the delegates had decided to take out membership in the Canadian Horticultural Council, which represents the entire horticultural industry of the Dominion and has a membership of 75,000, and that this Province will be represented by two members from B. C. being placed on the Executive of the Council, which is composed of seventeen men representing the various provinces.

Mr. Taylor next took up in detail the matters which had been dealt with at Ottawa, such as the Anti-Dumping clause in the Customs Act; French and Australian trade treaties; the Fruit Marks Act, the Australian and Japanese embargoes, etc., also explaining the evidence which the delegates had given before the Agricultural Committee of the House. He stated that the Minister of Customs had given an assurance that the anti-dumping clause would be enforced early enough this season to amply protect the fruit growing industry in B. C.

Mr. Taylor also stated that the Federal Department of Agriculture had promised that everything possible would be done to investigate the breaking down of the Jonathan apple, and that this investigation had already commenced.

The Provincial Police force is being re-organized and it is understood that more officers will be stationed along the international line with a view of lessening the export of liquor.

Mr. G. G. Stuart returned early this week from Vancouver.

### Nearly One Hundred Sons and Their Dads Hold Delightful Social Function—After Dinner Speeches From Young Talent Revealed Much Promise.

Summerland's first "Father and Son" supper was held on Friday night at the Parish Hall and proved a huge success. The supper was for Boy Scouts, Wolf Cub Scouts and their Dads and was arranged by the Rovers.

At six thirty between ninety and one hundred Dads and sons sat down to supper. After supper Rover-mate Jackson acted as toast-master and after a few brief words explaining the idea of the supper proposed a toast to the King. This was responded to in the usual way, by singing "God Save the King." Mr. K. M. Elliott then proposed a toast to "Our Dads." Mr. W. J. Robinson responded to this with a very instructive talk to the boys. Mr. Winter was then called on and delighted the crowd with his favorite songs and his banjo. All the boys, old and young, demanded an encore which Mr. Winter gave. Nick Solly then proposed a toast "To Our Mothers," and proved himself a very clear and clever after dinner speaker. Mr. Caldwell fittingly responded. Mr. M. Scourrah sang and was heartily encored. The next item, a whistling contest, proved very exciting, and was won by Ivor Solly. Mr. Phil Scourrah then played a few old favorite songs and a short sing-song was held. After this "Pickles" Nicholson proposed a toast to the Rovers, to which Capt. Creese responded. The toastmaster then announced a pie-eating contest between Rover George "Lummy" Dewar and Cub Billy Gartrell, and added that the scouts were also to put in an entry. Scout Fred "Windy" Gale was un-

(Continued from Page 6)

### WANTS HEAD OFFICE ASSOC. GROWERS B. C.

Penticton Making Determined Effort to Get New Organization Head.

Penticton is making its strongest possible bid for the establishment there of the headquarters of the Associated Growers of B. C. On the invitation of the Board of Trade of that municipality, Archie M. Pratt, the newly appointed manager of the Growers, visited Penticton on Tuesday, when he was shown over the district and taken down the Valley to Kaledon, Okanagan Falls and Oliver. Mr. Pratt was shown over various buildings in Penticton that were considered suitable for head offices.

Penticton claims to be the logical place for the executive offices of the Associated Growers on the ground that it is more convenient of access to the majority of the directors than is Vernon or Kelowna. Mr. Pratt returned to Vernon on Wednesday without expressing his views on the subject.

### LOSES HIS MONEY—FOUND ON TRAIN

Getting off the train Wednesday morning, a passenger from Victoria bound for Westbank, engaged Wm. Johnston to take him to his destination. Arriving there, he discovered that he had lost his purse containing nearly \$100 and a careful search of clothes and car failed to reveal it. He had breakfasted at Johnston's hotel and Mr. Johnston phoned home but no trace of the purse could be found. Mr. Johnston thereupon phoned to the K. V. R. office at Penticton, reporting the loss and the office telegraphed the train, then on its way to Nelson. During the afternoon he received the news that the purse and money had been found on the train.

Apples are now in full bloom. This is approximately 20 days earlier than last year.

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED

Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

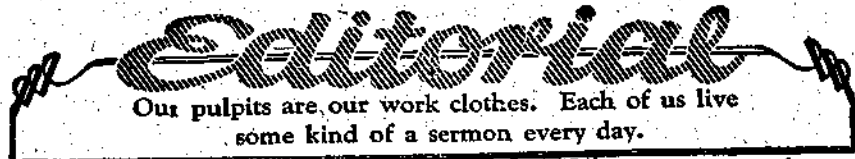

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, May 10, 1923

## THE WEEKLY HALF HOLIDAY.

It appears to be highly probable that concerted action will shortly be effected to secure a change of date of the weekly half holiday. That such a change from the prevailing mid-week holiday now in vogue is wise and necessary has always been held by the Review. So insistent has become the clamor for such a step at Vancouver, the Retail Merchants' Association of that city have forwarded to all the members a questionnaire which will undoubtedly bring out many divergent views on the subject.

Saturday is the logical day for the cessation of the week's business activities, for it affords a welcome break and rest in a seven day cycle, and no extraneous business reasons are to be offered for a continuation of the old order of things other than time-honored custom and habit. All banks have long agreed to call a halt at the noon hour on Saturday, and large commercial houses together with all industrial plants cease to operate for the week at the same hour.

The present break in mid-week gets the employer and employees nowhere. School is in session so the parents cannot take a holiday with their children, and it is also outside the bounds of all possibilities to travel any distance in such a few hours.

Of course it will be argued that the public may not take kindly to it at first, but it is our humble opinion that the public are very tolerant in all matters pertaining to community welfare and happiness, and the slight inconveniences that may accrue at the inception of such a welcome change will be borne cheerfully, and then it will be a matter of but a few weeks until the shopping public are educated to govern themselves accordingly in the matter of shopping hours.

## OUR FAIR VALLEY.

The Okanagan has been described as "The Garden of the Lord," the "Eden of B. C.," and when can this be more fully appreciated than during these wonderful spring months, with the freshness of nature and the glow of new life everywhere? For the last two weeks Summerland has been a veritable bower of beauty with all the orchards a mass of fragrant pink and white blossoms, giving promise of a bountiful harvest. The pure white of the cherry and apricot, intermingled with the deep pink of the peach has transformed the landscape and, as the dainty freshness of the apple blossoms now adds itself to the picture, what more can be desired?

At the Experimental Farm one sees further evidence of the wonders of Spring in the Okanagan. Here the tulips are vivid in a riot of gay colors, even more beautiful than in former seasons. Tourists have said that to see the Okanagan in Spring was like a glimpse of Paradise and with the lengthening days and long hours of sunshine, where could one find a more idyllic spot? Truly we dwellers in the Okanagan are richly blessed with an abundance of all that is lovely in God's miracles of beauty.

## BOOST YOUR TOWN.

"My town is the place where my home is founded, where my business is located, where my vote is cast, where my children are educated, where my neighbors dwell, and where my life is chiefly lived. I have chosen it, after due consideration, from among all the towns of the earth. It is the home spot for me. My town has a right to my civic loyalty. It supports me, and I must support it. My town wants my citizenship, not partizanship friendship, not offishness; co-operation not dissension; sympathy, not criticism; my intelligent support, not indifference. My town supplies me with law and order, trade and friends, education, morals, recreation, and the rights of a free-born Canadian. I should believe in my town and work for it, and I will."

Th above, from an exchange, is good horse sense. It displays the proper spirit, and is applicable to any town. Why should we not all be boosters for this town? The answer must, perforce, be in the affirmative. Every resident should be a supporter to advance this town in every way, and to quote a Couelism, "Make it better day by day, and in every way."

Along about this time of the year there are about two weeks in which the man of the house does his annual stunt of preparing for the best garden in the community.

A newspaper will win more battles than the best bruiser in the country.

## NEWSPAPERS AND ACCURACY.

It has taken newspapers a long time to live down the charge that inaccuracy is their major quality. In the earlier days, when communication was difficult, rumor frequently was news, and rumor is fickle. For many years past the supreme goal of every reputable newspaper was scrupulous accuracy, and so large a place has that assumed that it is the essential dividing line between good and bad journalism.

Addressing the National Educational association a few days ago, Dr. Otis Caldwell, a school principal of New York City, said:

"We clipped 3,061 stories upon biological subjects from 492 newspapers in a seventeen-month period, and out of that number only fourteen articles contained an inaccuracy. That is a better record than most books can show."

Indeed it is; also it is a record to surprise many a newspaper man, for no one is more aware than he of the fallibility of the human machine, and he, of all men, knows the score of perils a single fact must traverse before it reaches the sanctuary of the printed page. Error in transmission, poor type-writing, pencil slips, typographical mistakes, even the jumbling of the type or misplacing of a line when all else has been cared for, may easily wreck a fact and all of this is threatening from the second it is put on paper for filing in Timbuctoo or Juneau until the moment the form is locked for the press.

The striking thing about a reputable newspaper is not that it contains inaccuracies, but that it contains so few.—Exchange.

## SHORT SKIRTS DANGEROUS TO MEN.

Swiss insurance companies have raised their rates as much as 15 per cent. for the reason that short skirts, high heels and low necks increase the likelihood of women falling and hurting themselves. In this country it is the men who are made the unusual risks because of the selfsame short skirts, etc. Their necks are so badly stretched and weakened that they have little resistance to a severe fall. And while on this subject of skirts:

Short skirts are hygienic, a news dispatch says. Women who wear them exercise their prerogative—men exercise their eyes—exercise is healthy—and so short skirts are hygienic.

## OURS OUGHT TO BE SHOT.

England has been interested, it is said, by the discovery of a double to King George, which causes the Manchester Guardian to recall the theory that every man has a double somewhere in the world. Upon the theory that misery loves company, this must be of considerable consolation to a number of men we could name.

S pring now is back in Summerland,  
U nited Farmers say it's grand;  
M ore sunshine on their way is shed,  
M ay blooms on scenes that once were dead;  
E arth ripens to her genial ways,  
R eborn are fruits on budding sprays.  
L ight thrills again on lake and shore,  
A nd hills their opal hues restore.  
N estling beside this mountain strand,  
D eight returns to Summerland.

W. G. Boynton.

## From Our Exchanges

### JUST CHICKEN FEED.

A herd of humans is much like a home garden. In the crowd you will find the common cabbage head, satisfied to take time to grow. There are the creeping cucumbers, the smelly onions, the flat turnips, the snippy parsnips, the green table varieties.

Along the fence you will find the row of sunflowers bowing and nodding in the breeze of attention, and how much like some men the sunflowers are. The sunflower cannot be happy until it tiptoes to the highest possible position. A sunflower must look down on the carrots and smile on the sweet peas. Th higher the sunflower grows, the higher it wants to climb.

But when the frost comes and the sickle slashes—when the sunflower has gone to seed, what happens? It's nothing but "chicken feed."—Ex.

## KING'S BIRTHDAY FOR SUMMERLAND'S ANNUAL SPORTS

In conversation with a representative of the Review a few days ago, Mr. G. J. Coulter White offered the suggestion that it would be well for Summerland to definitely fix on June 3rd as its annual gala day, instead of, as in past years, leaving undecided until a few weeks before, the question of whether we should celebrate on May 24th or June 3rd, thus causing a lot of last minute work to fall on the managing committee, and leaving the citizens in general in doubt as to whether or not we were to have a community sports day at all. As a result, many people arrange private picnic parties, rather than depend on something of which there is no definite assurance.

Surely a community day should be arranged for the convenience of the citizens as a whole, and a definite understanding of date would aid this to a large extent. Another argument in favor of June 3rd, is the fact that Empire Day is more generally celebrated, and by this means, we avoid clashing with other Valley towns in their annual picnics, while considerably more could also be done in the way of a water sports pro-

gram, for which the earlier date is by some considered rather early. May we not have the opinions of some more of our readers on this point? Already, those dates are only two or three weeks distant. Are we to get together in our annual community day this year, or is it to be allowed to pass unnoticed?

## "OVER THE HILL" TO BE SEEN AT RIALTO

"Over the Hill," one of the most emotional pictures that has ever been produced, will be shown at the Rialto, on Tuesday and Wednesday, May 15th and 16th. This picture has been seen by millions, and takes you from your childhood days to old age, with all the joys and sorrows. To see this picture is to live life over again. As advertised, it is a "picture that will live forever," and as Mr. Lockwood has secured it at great expense, he is preparing for a record crowd.

The Kamloops cannorials anticipate a good season and a large acreage has been signed up by the growers of tomatoes, pumpkins and string beans.

Some folks are lucky not to be paid for what they know.

## Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr. and Mrs. Dryden returned home on Tuesday evening after a couple of days spent in Vernon.

Mr. R. J. Hogg, who has been busy with organization matters in connection with the new co-operative returned home on Tuesday.

Municipal Hall saw quite a little stir one day last week when the Kelowna and Penticton Boards of Trade held a joint meeting there. It had been decided by the two boards this was a convenient way of meeting instead of either having to go the full distance.

Jas. Shortreed of Manville, Alta., who has been spending a few weeks here with his cousin, A. Alpaugh, left on Wednesday morning on a short visit to Kelowna. With him was Miss Agnes Sherin, also of Manville, who arrived here Tuesday evening. Miss Sherin was matron of the hospital at Manville, but is changing her profession to become matron in the Shortreed home, following the wedding ceremony which took place on Wednesday afternoon.

The Boy Scout Association committee held a meeting on Tuesday evening for the purpose of arranging for a flag presentation. The Women's Institute is donating two flags, one to the Scouts and one to the Cubs. The president of the Institute, Mrs. Dryden, was asked to meet with the committee and it was decided to arrange for a sports day for the Scouts on June 4th, and have the flag presentation on that occasion. Another matter arranged was a "twenty-five cent and over" drive and collectors were appointed for the various sections of the community.

(Further Peachland News page 4.)

## LOCAL STUDENTS MAKE GOOD AT UNIVERSITY

Very gratifying indeed is the showing made by Summerland students in the recent examinations at the U. B. C., the results of which are announced today, there being not a single failure, while several of our boys graduated with honors.

In the Faculty of Arts and Science, J. Allen Harris, who has been continuing his studies at the University while acting as assistant instructor in chemistry, has this year, received his degree of Master of Arts, while R. C. Palmer has the honor of being the only student in the Faculty of Agriculture to receive this year his M. S. A. degree.

Those receiving their degree in Arts and Science are: Donald M. McIntyre, Fraser Lister and Harold T. Allen, all former students at Summerland, while Alan Hunter, a Vancouver student who made many friends during his stay here last summer, has also received his B. A. degree. Wm. G. Mathers and Sperry S. Phillips, also well known here, received the degree of B. S. A.

The other results are as follows: Arts and Science, 3rd year, C. Roy Elsey, 1st class honors; 2nd year,

## FRESH BREAD DAILY

ALL THE LATEST in CAKES and FRENCH PASTRY PIES of all kinds

JOHNSTON'S BAKERY

Ronald White, second class honors; 1st year, Louis Smith, 1st class honors, coming 4th in his year; 1st year, 2nd class honors, R. R. Munn, Summerland, and Alice Myers, Stewart Allen, Cyril Rayner, and Margaret Allen, Naramata. Two other former Summerland students, making 2nd class honors in 2nd year Arts are Joseph Morsh and Leighton McLeod; while in Agriculture 1st year, 2nd class honors, is John C. (Lefty) Nelson, well known to many here.

We hope to be able to give a detailed report next week.

## ADVERTISING SIGNS NEAR ROADS MUST GO

Anyone who has crossed the state of Washington by auto has noticed the multitude of signs that fringe the highways, and especially the main arteries of travel, advertising almost everything under the sun that enters into the channels of commerce. These signs range all the way from a small fragment advertising some brand of pills, to enormous frame structures covering many square feet. Some of the signs are almost a work of art, but all of them litter up the scenery and are an eyesore to the traveller. It is the intention of the highway department to eliminate these signs on or along the state highways. How far the authority of the department may go in this matter of destroying signs, which have cost the advertiser con-

siderable money; remains to be seen, but the department is in earnest in its determination to remove the unsightly bill boards and the public generally trusts that the department is not bluffing. The following announcement setting forth the intention of the Washington State Highway department appeared in many of the Washington State papers during the last week or two:

"Notice is hereby given that parties owning advertising signs located in whole or in part on any state highway in Spokane, Pend Oreille, Stevens, Ferry, Lincoln, Grant, Douglas, Chelan or Okanogan counties, to remove same not later than May 1, 1923. Failure to observe this notice will result in the destruction of all signs, either located on the highway or overlooking the same.

Any further encroachments by advertising signs will result in arrest and prosecution.

GUY G. HARVEY, Dist. Engineer, Washington State Highway Dept."

Nelson and nearby district are in the grip of an invasion of tent caterpillars, which are doing an immense amount of damage to orchards and shade trees.

British Columbia apples are meeting with a ready sale in South Africa. The market was secured through the enterprise of the Canadian trade agent there.

## Notice to Growers!

We are Opening in Summerland and Solicit the Handling of Your 1923 Crop.

WHY YOU SHOULD SHIP THROUGH US—BECAUSE

We are an old established firm. Our affiliated houses, the Macdonald Organization, can distribute your products more economically on the Prairie Market. Our Export Connections are well established. Our Financial Standing is the highest. We are the right kind of Opposition. You are assured of the highest prices consistent with Market Conditions.

We are not only Fruit and Vegetable Shippers, but Canners.

**Nut Growing Possibilities of the Okanagan Excellent**  
 By David Gellatly.

Editor The Review:

Dear Sir,—I have just returned from a week's trip spent in making a survey of Kelowna, Summerland, Naramata, Penticton, Oliver and Fairview; to locate the bearing nut trees in each district; and to gather data as to their suitability to climatic conditions prevailing in each particular locality. Also to discover the soil requirements and bearing capacity of respective varieties of nut-bearing trees.

During this time I learned much of interest, and have obtained conclusive evidence that the foundation is already laid for a permanent industry well worth serious consideration.

In conversation with the planters, I found many who are keenly alive to the possibilities of nut-growing, and who are deeply interested in the information and the specimens gathered on this trip; as well as in our own experience in nut-growing in the Okanagan. Others, who had never given the subject any serious thought manifested considerable interest in the matter when shown the collection of fine nuts in great variety, which were grown by people in their own district; who have acclimatized almonds, chestnuts, filberts and walnuts; and which are all doing well on a variety of soils, wherever given the requisite location and air drainage, combined with the necessary soil-moisture and good cultivation.

It is only fair to state that I also found several whose experience with the above mentioned nuts were anything but satisfactory; but whose failure was due to known causes such as: bad location, wrong variety, disregard of pollenization requirements, use of non-climatized nursery stock, transportation of the young trees too great a distance, resulting in much mechanical injury to the trees before being set out in the grove, injury by careless teamsters, etc.

The intending planter will profit by these mistakes just to the extent that he avoids them, and endeavors to obtain for his planting, trees that

have been raised in the same, or a nearby, locality, from trees of proven merit. If he does this, he will have a uniform grove, which will grow well, and give good returns.

Throughout the Okanagan Lake and River regions, there are protected valleys and slopes, where the influence of topography on air drainage is sufficient to modify the effect of latitude; in the distribution of temperature. Consequently nuts and fruits native to more southern localities may be grown with little fear of frost-injury; when it is remembered that many of these nut trees will stand a winter temperature of 15 degrees to 30 degrees below zero. The influence of large bodies of water in tempering the severity of frosts is clearly brought out in the vicinity of Okanagan Lake and River.

Consideration of the above points is necessary to the successful locating of sites for nut groves and orchards. In all hilly country it is possible to find belts on mountain sides or high hills where plant growth commences several weeks earlier in the spring than on the tops of the hills, or in the valleys below; likewise in the Autumn the frosts are delayed to the same extent, thus lengthening the growing season in these belts several weeks. In this connection I was much impressed with the arrangement of a great deal of the land in the Oliver district, where the air and land drainage has been well planned by nature; while the next important item will be well supplied by the substantial irrigation system now nearing completion.

Here the prospective nut planter will find all the climatic conditions; also a wide range of soils, and these well located. Similar and as good locations are to be found at Summerland, Penticton and Naramata; in fact, at most Okanagan Lake points where the land is not already planted to other trees. A great deal of the land not yet planted, and situated between Gellatly and Kelowna, and West-side Ferry landing, offers ideal location, with soils well adapted to nut culture.

**Buyer Protected By Advertising**

**Man Who Buys Standard Brands From Local Merchants Knows That He Is Getting Full Value for His Money.**

Time was when advertising did not occupy the place in the world of trade that it does today. It has not been so very many years ago that the people were suspicious of advertising. They were inclined to believe that the merchant was trying to "fool" them with his advertising, that he exaggerated the value of the merchandise he advertised, and took that method of trying to get them to buy goods that he could not sell by the old established methods of merchandising.

Those days are gone. The public now realizes that it is the greatest beneficiary of advertising.

Advertising has done more in a decade to establish certain standards in merchandise than could have been accomplished in a hundred years by any other agency. The manufacturer who a few years ago merely made and sold clothes now makes and sells the Blank brand of clothes. The man, who formerly just made hats now makes Blank's hats. And so it is with everything that one buys today. The manufacturer, by his advertising, has built up his business around a trade name and if he is to continue in business he must protect that trade name by maintaining such a high standard of quality that people when they buy his products will know just what they are getting. The consumer, when he goes into a store today, does not buy merchandise blindly, with the hope that it will prove to be worth the money. He buys standard goods that bear the trade-mark of the manufacturer and that are backed by the reputation not only of the merchant who sells them, but the manufacturer who makes them. This has been brought about by advertising.

**No Reputation to Protect**

All this applies to the retail merchants as a class but it does not apply to the mail order business. The man or woman who buys goods from a catalogue house is not protected by the manufacturer of the goods, for the reason that most manufacturers who sell goods to the mail order houses do not place their names upon the goods and therefore have no reputation to protect.

The great majority of articles listed and illustrated in the mail order catalogues are included in what is known among manufacturers as "stone" stuff. These articles bear

To anyone interested in nut culture, I will be pleased to give the names of those now growing nuts of various kinds successfully, in their own localities.

Yours truly,  
 J. U. GELLATLY.  
 Gellatly, B. C., April 25, 1923.

**FRUIT CANNING OFFERS VERY LARGE MARKET**

During the past few years the business of canning and evaporating fruits has made great strides in Canada. We have not yet reached the point arrived at in California where 80 per cent. of the fruit output, apart from citrus fruits, is canned or preserved, but we have brought the business so far to the front that it has become an industry of great importance. As Mr. C. S. McGillivray, Chief Canning Inspector of the Dominion Department of Agriculture, says that Canadian canners have packed sufficient high grade fruits to demonstrate that the highest quality can be packed in this country—if, he pointedly adds, the canner can get the right kind of raw material. There is the point. The canner can help the fruit grower to a large and profitable market, but in order that he may do so, he must be provided, not with culls or fruit of inferior quality, but with the best that can be grown.

If fruit growing is to be a profitable occupation, the development of canning and dehydration or drying is a prime necessity for, in the short season during which the product of the trees and bushes can be marketed in a fresh state, it is at time impracticable to dispose remuneratively of the entire crop. Thus the canner provides a relief service for the grower and a wholesome food all the year round for consumer. Involved in this matter is not alone the preservation of the domestic market, but also the question of developing an export trade. This is possible only by furnishing standardized products from the highest grades of fruit.

Turning to the dried and evaporated fruit industry, it is gratifying to know that, with the government's encouragement and aid, the standard of Canadian evaporated apples in particular has been raised to an equality with the best in the world. A proof of this is supplied by the fact that when Great Britain during the war called for 1,500,000 lbs. of evaporated apples from America, Canada was in a position to secure close upon three-fourths of the order, or 1,120,000 lbs.

**ENGLISH AS IT IS SPELLED**

A stranger in our land was he:  
 He tried to learn our spelling.  
 He thought it would as easy be,  
 As buying or as selling.

He tried to write, but couldn't quite  
 Learn when to write or right.  
 He couldn't tell just where he stood,  
 When using cood or wood or shood.  
 He had to stand a lot of chaffing,  
 When cruel people started laughing.  
 Then other things confused him so,  
 As doo and dough and roo and row,  
 And mail and male and sail and sale,  
 And many more that turned him pale.  
 Said he, "I left my wife and daughter,  
 In other lands across the waughter,  
 I wanted much to bring them here,  
 But they will have to stay, I fear,  
 And I must leave you." With a sigh  
 He added, "Else I'll surely dieh."

—The School.

**The Secret of a Beautiful Skin**

Cleopatra knew it. That was the secret of her power. Every day her skin was thoroughly cleansed with palm and olive oils. Then as now these oils were famed for their mild, soothing, cleansing qualities.

She too used other cosmetics, but every day these were removed by thorough cleansing. In this way she was able to keep her skin smooth, firm, fresh and youthful.

Today these same oils are scientifically blended in famous Palmolive Soap. They give it mildness, wonderful soothing qualities, profuse creamy and refreshing lather.

Powder and rouge will not harm the skin if you wash daily with a mild soap. A thorough cleansing with Palmolive will tone your skin and help it do its own beautifying. Smoothness and a charmingly natural color will result.

You can buy Palmolive Soap at all first class dealers

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timberland.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home-sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces.

The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

St. Margaret's W. A. of Peachland had a very successful sale and tea recently, and made about \$50.00.

Mr. and Mrs. Alf Craige have been at their home in the Trepanier Township, having come home from the Princeton country for a few weeks' work here.

Mrs. J. Wright and Mrs. J. Elliott have been enjoying a visit from their niece, Miss Burch, of Kelowna, who spent a few days in Peachland.

Since completing their work for this term at the University of B. C. Miss Mary Miller and Mr. Jos. Morsh have returned to their homes here.

Mrs. A. W. Miller visited friends in Vernon recently, motoring up with Mr. Jas. Silver who was going that way to return south again. On their return trip they made a short call at Okanagan Centre with Mrs. Miller's daughter, Mrs. B. M. Whyte.

Peachland pioneers will regret to learn of the recent decease of one of the early settlers here, Mrs. D. H. Watson, who passed away at the Summerland Hospital last week. The remains were taken to Edmonton.

Orange Lodge No. 408 held its regular monthly meeting on Tuesday evening of last week in the Municipal Hall.

Mr. and Mrs. Hackett left on Wednesday, taking part of their effects with them, and going via K. V. R. to Vancouver to reside for a short time.

A. J. MacKenzie has purchased the Urquhart property in Peachland. He moved in last week end and is now getting the orchard put to rights. Mr. Zold and family and Mrs. Bartfay and family, who have been residing on the property, moved to town and have taken up residence at Mr. Kudelka's.

Mr. and Mrs. Drake and Mrs. Williams were visitors to Kelowna on Wednesday.

Harry Slater, late of Kelowna and well known to Peachlanders (having managed the local Union here a few years ago), was a visitor in town on Wednesday evening of last week. He expects to move to Vernon soon to take up his duties as manager of the local co-operative in that city.

Mrs. Hood was a visitor in town again this week, and this time accompanied by her son Montgomery who has grown, since leaving Peachland, from a small boy to quite a tall young man.

Indigestion relieved in two minutes with Jo-To. Gas, acid, sour, burning stomach all quickly relieved with Jo-To. Drug Stores.

A. J. & A. M. Summerland Lodge, No. 56 Meets Third Thursday in the month. C. J. Huddleston, W.M. K. M. Elliott, Sec'y

I.O.O.F. Okanagan Lodge, No. 58 Meets Second and Fourth Monday at 8 p.m. in Freemasons' Hall. J. C. Froeman, C. H. Sismey, Noble Grand. Rec. Secretary.

J. H. Kudelka returned last week after a business trip to the prairie where he spent a few weeks.

Mr. J. Stewart and his little daughter Edith spent Thursday in Kelowna.

Mr. J. Harris, principal of the Central School, was a passenger south on Thursday's boat, expecting to be away for a short time. In his absence Mr. Jos. Morsh is taking charge in his room.

Mr. and Mrs. Drake spent a day in Westbank last week visiting friends.

Mr. and Mrs. Coldham and son spent Friday in Kelowna.

Master Henry McCall took Friday evening's boat to spend the week end with his friend Willie Gartrell at Summerland.

Rev. H. A. Solly conducted the regular service in St. Margaret's Church here on Sunday.

Rev. T. A. Sadler on Sunday afternoon conducted the Union Service held weekly in the Westbank schoolhouse there.

Mrs. Cudmore and daughter, Edna, spent two days in Kelowna this week.

Mr. and Mrs. DeBeck came in on Monday morning's boat to visit their daughter and her husband, Mr. and Mrs. Lambly. They returned in the evening.

Mrs. Tallyour was among the outgoing passengers on Tuesday morning for a short visit up the lake.

Mr. Art. Dobbin and two children were in town on Tuesday, having motored down.

Mrs. Nourse and Agnes Gyles were out of town visitors this week, going north Tuesday morning.

Major K. C. Tallyour returned Tuesday morning after a short visit out of town. He came up by jitney from Summerland.

The annual birthday party held by the Ladies' Circle of the Methodist Church was held on Friday evening last at the home of Mr. and Mrs. J. L. Elliott. There was a goodly number present and a very enjoyable evening was spent with games and music, and light refreshments were served. When the contents of the birthday bags were counted they totalled \$12.00.

The regular meeting of the W. C. T. U. was held recently in the home of Rev. T. A. and Mrs. Sadler, with the president, Mrs. H. E. McCall, in the chair. The president read a synopsis of the B. C. liquor laws as written by Rev. W. H. Smith, D. D., principal of Westminster Hall, and a short discussion followed. The president, who is also superintendent of Little White Ribboners for the district, was appointed superintendent for that department. It was decided to send a resolution to the Municipal Council asking for "No Smoking" cards hung up again in the Municipal Hall. These had been used to good effect for some time, but for a considerable time have been missing.

The annual meeting of the Union Church was held on Thursday last, and was divided into afternoon and evening sessions. Rev. H. E. Livingston presided. Amongst the financial reports read were those of the Ladies' Aid (Mrs. Young), the Missionary Committee, the C. G. I. T., (read by Mrs. Myers in the absence of Mrs. Amaron), the Sunday School (Mr. Wm. Bartlett) and the Church Fund (read by Mr. Myers). The Ladies' Aid showed total receipts for the year of \$305.38, an expenditure of \$345.86, leaving a cash balance in hand of \$10.52. The Missionary fund showed receipts amounting to \$82.72, the C. G. I. T., \$52.18, of which \$50.80 had been devoted to Missions and Girls' Work Board. The Sunday School receipts were \$82.51, with an expenditure of \$40.54, and a cash balance of \$22.03. The Church Fund had received \$486.04, and had a small deficit of \$12.40 to carry over to the next year. During the evening session the readings of the various reports was interspersed with musical items, including a piano solo by Mrs. Walters and a song by Mr. Stewart Allen. Mrs. Cross gave a reading. The Church committee of last year were elected without change. In conveying the thanks of the meeting to those who had carried on the various phases of church work during the past year, Rev. Livingston took the opportunity of speaking a few words of farewell in view of his approaching departure for the east, and assured the congregation of his continued sympathy with them. Refreshments served by

CONTRADICTS PAPER'S STORY

Statements Published At Penticton Re Storage Not In Accord With Facts.

Last week the Penticton Herald published a story on the subject of the sale of the storage building here, which is quite at variance with the facts, according to directors of the Storage Company and statements made by the executive of the local.

Our information is that at no time have the directors of the Summerland Co-operative Growers disputed the value of the storage building and the statement has been made in public meetings that there was no objection by the new local to the purchase by the holding company at the price of \$90,000. Any difference between the local directors and the holding company has been one of terms on which the Summerland Growers could purchase from the central. The president of the Storage Co., W. H. Hayes, has written to the Herald with respect to this story, both of which are given below.

The Herald stated: "The Summerland situation is a difficult one. The Summerland Fruit Storage Co. set a price of \$90,000 on the property, which about represents the cost, the structure being expensively constructed during the time of peak prices. Apparently Organizer Sutherland agreed to this figure at the outset, but later called off negotiations. Growers in Summerland who are members of the storage company and who have also signed Association contracts, are alleged to have stated that they signed these contracts upon the representation that the building was to be bought at \$90,000, which would apparently save them from loss on their investment or pledges. But

the Ladies' Aid brought the gathering to an end. Stewart Allen returned from Vancouver last week, and is busy on the ranch. Mrs. Allen is expected early next month. Miss Hall returned with her nephew, Stewart.

Mrs. Williams went to Kelowna on Wednesday as delegate to the Methodist conference held in that city this week.

Final rehearsals are held this week for the play, "Mrs. Temple's Telegram," which will be presented by the Dramatic Club on Tuesday next.

The regular meeting of the Board of Trade was held on Monday evening, president George Weaver in the chair. Amongst the items of business dealt with were the matters of street lighting, the needed extension of the government wharf, and the proposed clean-up day to be arranged in conjunction with the Women's Institute. Correspondence from Professor Bars in connection with the car slip was read, and it was decided to advise the local Co-operative as to the position of that matter as it now stands. Two new members were enrolled in the persons of Messrs. Loveday and Sismey. A protest was also entered concerning the cancellation of all local J. P. appointments without any new ones made in their place, and this will be sent to the government.

Mr. J. M. Robinson is around again after his recent illness.

The members of the Women's Auxiliary met at the home of Mrs. Gamman on Wednesday, the return trip being made by car.

Mrs. Williams has received word of the death of her father in Ontario.

Mr. Wenvor is installing a second house apiny on the ranch of Col. Cartwright, West Summerland.

Mrs. Robertson of Penticton is visiting Mr. and Mrs. King.

other growers, not in any way interested in the storage company, claim that to buy at this price would add too greatly to the Summerland local's overhead expenses. They argue that a proper, present-day price for the building is \$60,000 or \$65,000 and as a matter of fact a structure quite suitable for packing requirements, could be provided for \$25,000. A special Associated Committee is now taking the matter up with the Summerland Storage Co. directors.

Some statements have been made to the effect that certain Summerland contract holders, interested in the storage concern, claim they will charge misrepresentation and will withdraw from their contracts unless the building is bought at \$90,000.

Mr. Hayes in his letter to the Herald says: "There are some statements concerning matters in which I am much interested, to which I must take exception. Regarding the 'Summerland situation' which is described as 'difficult'—the statement is made that the storage had set a price of \$90,000—on the property which about represents the cost," which is correct, and is confirmed in the part that the valuator sent from Vernon by Central placed the same valuation on it. The succeeding statement, 'the building being expensively constructed during the time of peak prices,' is not true. Also if anybody has argued, as stated, that a proper present-day price for the building is \$60,000 or \$65,000, such 'argument' has not been put forward to the board of directors of the Storage Co. in any shape or form, and to conclude my letter, I may say that at a meeting of the contract holders in Summerland of the Associated Growers, held on Saturday afternoon, and called for that express purpose, it was resolved to purchase the building in question from the Summerland Storage Co. for \$90,000, unanimously, without a dissenting voice or vote.

It is evident that there has been considerable loose and idle talk somewhere.

I remain yours truly, W. H. Hayes, Summerland Storage Co., Ltd. President, Summerland,

Strawberries expected this week end. Summerland Grocerteria. 796

Roy Darkis returned on Monday night from Coaldale, Alta., where he had been with his father.

J. H. Reid has returned to the Coast. His case will be heard in County Court about May 15th.

Mrs. A. B. Elliott entertained a number of friends in honor of her mother, Mrs. A. McLaughlin, who celebrated that day her 77th birthday.

Mr. C. B. McCallum has made splendid recovery from his recent serious operation and on Saturday returned to his home from the hospital.

We ask those are not yet our customers to examine our prices closely. It will pay to do so. See our advertisement. Summerland Grocerteria. 796

Coun. R. Johnston and Mrs. Johnston and their daughter Eva plan on leaving here in about a month on a motor trip to Brandon, Regina and other prairie points.

Mrs. Kneale, who has been visiting here for some time, part of which she has been on the staff of the hospital, left on Tuesday to return to her home in Seattle.

Adjourned meeting of the Summerland Agricultural Association will be held conjointly with Farmers' Institute on Friday, the 18th inst., Parish Hall, 8 p.m. Annual report and election of officers. 796

Mrs. Bleasdale and family arrived in Summerland Tuesday night from Cumberland, England, and are the guests of Mr. and Mrs. Harold Smith. Mrs. Smith went up as far as Sicamous to meet them.

Charles N. Broad of Summerland, is one of two British Columbia students in the Faculties of Arts and Science in Queen's University, Kingston, to receive their B. A. degree last Saturday.

J. W. Rutherford, agent for the K. V. R. here, left on Sunday to spend a month's vacation in the East. We understand he will go as far as New York, travelling by way of Minneapolis and Chicago. During his absence E. A. Macdonald, relieving agent, is in charge at the station.

Mr. and Mrs. F. Mossop and family arrived in Summerland from Calgary on Monday, having made the trip by motor car. They are living in the Trowse place, recently purchased by them. They were accompanied on the trip by Mr. and Mrs. Stevenson, who are returning to Calgary shortly.

Three additional fire hydrants are being placed this week on three different streets. One, with a single outlet, at the post office corner on Granville Road; another opposite the Summerland Lumber Co.'s lumber yard, and a third a short distance north of St. Andrew's church. The latter two have each two hose connections.

The School Board requests that parents refrain from using the telephone to the Central school except in case of emergency. 796

After a sudden illness, the death of Claire Chambers, 13-year old daughter of Reeve Chambers of Penticton, took place Saturday.

Rev. H. A. Solly went up to Vernon on Tuesday to attend a meeting of the clergy of the Okanagan Diocese, returning Wednesday evening.

The Summerland-Naramata ferry is now running on summer schedule, making three round trips per day. The schedule is published in another column.

Six persons received the right hand of fellowship into membership in the Summerland Baptist Church last Sunday morning at the Communion service.

J. Downton returned early this week from Vancouver, where he had been for a week. Mrs. Downton, who went with him, remained behind for another week.

J. W. Gibson, director of elementary agriculture, who is also supervisor of school grounds, was a visitor to Summerland this morning when he went over the Central school grounds with a view to making some changes in the plotting of the grounds.

Mrs. Wm. Inglis with her two children, came in from Saltspring, Sask., last night, to join her husband, who has been for some time with his brother here. Mr. and Mrs. Wm. Inglis will reside in the G. H. Inglis house recently vacated by V. J. Nicholson.

Wm. Woodburn, a Penticton man, while assisting another with some young pigs, had his left eye knocked out. A small pig they were holding succeeded in freeing one leg and in its kicking struck Woodburn in the eye. After local treatment he was sent to the Vancouver hospital.

The Okanagan Lake Boat Co. relaunched the Trepanier this week after giving the boat a thorough overhauling. The engine formerly in the Lil has been put in the Trepanier, which is expected to considerably increase her speed and enhance her popularity as an excursion boat.

The school board at its regular meeting last night was again requested to do away with high school fees, when the committee appointed at the Parent-Teachers' meeting last week took the matter up with the board. No action was taken beyond referring it to a committee of the whole, which committee will meet next week.

A sage once remarked: "Some men are born great; some achieve greatness; and some have greatness thrust upon them." We have a very ambitious linotype, so ambitious in fact that it endeavors at all times to thrust greatness upon some member of our community. Last week it broke its kicking strap and began at once to impart its ambitions broadcast. It caught the stork in mid-air and imparted the desire to feather a nest for an expected little stranger right in to the seat of learning so that it could be cradled, as it were, in the elementaries, and thus get ahead of the other fellow,—and that is where our linotype is ambitious. Some aver that our calligraphy was responsible for the error, but it is quite likely that any untrained linotype may make a mistake by registering the words "high school" instead of "hospital." We allude to an error of location in the birth notice of a son born to one of our esteemed local families last week, and tender our apologies and congratulations.

The Ladies' Hospital Auxiliary will hold their regular monthly meeting next Tuesday, May 15th, in the Parish Hall. 796C

Summerland Women's Institute will meet Friday, May 18th at 3 p.m. in Parlor of Methodist Church. A full attendance is requested. 796C

Saturday, May 12th, is Dominion Hospital Day, and the Ladies' Hospital Auxiliary are serving tea at the Hospital from 2:30 to 5:30. The public are invited. 796C

**AT THE EMPRESS.**

"When Knighthood Was In Flower," a screen adaptation of Charles Major's celebrated novel, will be shown at the Empress Theatre, Penticton, on May 11 and 12. The remarkable beauty of this picture, its dramatic story, historical accuracy, its superb photography and rich costumes, and all the features of superiority with which it abounds, stamp it as the most magnificent picture ever presented on the screen. Special music has been arranged for these evenings.

**HUNDRED DOLLARS AND COSTS IS FINE IN INDIAN CASE**

(Continued from Page One)

pulled the paper off, he said it was good drink, and Dominique put it in his pocket.

Saul said he left him then. Later Dominique wanted him to wait until he got more vanilla extract, but Saul did not wait.

Dr. Windeler gave evidence as to the alcoholic nature of extracts. Formerly running to 90 per cent. alcohol, average extracts today contained 50 to 60 per cent. alcohol and would cause intoxication. Habitually used, vanilla would cause degeneration of the heart muscles and kidneys.

A. Milne, sworn, said he had seen Dominique on Saturday, April 28th, when he came into his store between 4:30 and 5. Saw him again between 9 and 10, when he passed his door, followed by boys who were annoying him. He stopped the latter. Did not think he helped Dominique into

the stable. Mrs. Milne and Russell Roe were in the store when Paul came in. Mrs. Milne, Roe and the Indian talked and joked for a few minutes and Roe and Paul went out together. Accused declared emphatically that he never sold the Indian any extract of vanilla. Some days before, he and Paul had had some words over an account and the Indian threatened to get him.

A dispute arose between the Crown prosecutor, W. C. Kelley, and counsel for the accused, M. M. Colquhoun, Penticton, over questions by the later, who stated that his object was to establish that there was an ill feeling in the mind of the Indian against Milne.

Further questioned, Milne told of an account contracted two years ago by Dominique and his brother which had only been settled recently by supplying wood. Witness stated further that he did not carry extracts in his store. The last he had bought was a quarter of a dozen about a year ago.

Cross-examined, the witness stated he had been in his store all day. Witness again declared he did not sell Paul any extract that day nor did Paul pay him the sum, stated. The statements of the Indian's were downright lies. He did not know why Dominique came into his store, but he admitted he was in the habit of coming into the store. He did not go out and get any extract for the Indian. He never sold Indians any extract or any drink except possibly pop. Saul Paul was not in his store on April 28th. He never saw him before.

Mrs. Milne told of seeing Dominique Paul in the store at the same time as was Russell Roe but not at any other time. She said she had never seen Saul Paul. Under cross-examination, she admitted that it might be possible for a person to come into the grocery store, while she was in the workroom.

Russell Roe told of taking bread to the Milne store at about 4:30. Mr. and Mrs. Milne were there and later Dominique Paul came in. Witness

**LIGHT OPERA IS WELL RECEIVED**

(Continued from Page 1)

H. S. Atkinson appeared to good advantage as the swaggering Pirate Chief, his physique and voice alike making him the pirate chief of our childhood dreams, big, strong, wilful, but kind-hearted as a woman. His solo with chorus "I am a pirate king," in the first act, was an outstanding number.

The role "Frederic," the apprentice to the pirate band, is a heavy one and the audience greeted with pleasure Mr. A. Graves as being the right man for the part. Mr. Graves had some splendid solo work and acquitted himself in creditable manner, also in his duets with Ruth, and again with Mabel. In his solo with chorus, "If you could cast your eyes on me," the effect was beautiful.

Phyllis Trenwith played the part of Mabel (the leading soprano role) in a manner which proved a delight, instilling the part with vivacity and singing the difficult numbers with an ease that immediately installed her as one of whom Kelowna audiences will expect to hear more.

That over popular comedian, G. C. Bonmore, from his opening lines, "I am the Major-General," and large family of daughters kept the action going all the time.

The policeman's chorus under Sergeant Leopold Hayes was a scream. Mr. Hayes adopted a delightfully apologetic manner and got numerous recalls. Hilda Tutt, May Lowery and Marion Mantle made dainty daughters and though assigned small parts made the most of them. Mr. P. Holes, the swash buckling lieutenant of the pirate band, put much "pop" into his part.

After a long list of names of members of chorus and of the orchestra and others, the writer concluded: Too much praise cannot be given those responsible for the splendid results obtained in successfully staging this delightful light opera. With two performances in Kelowna, one in Vernon and one in Summerland on the 10th and 17th respectively, the Society will hang up on their scutcheon—another success.

**FATHER AND SON BANQUET SUCCESS**

(Continued from Page 1)

animously chosen as the scouts' champion. "Lummy" won this with "Windy" a close second. Following this Mr. Vaughan proposed a toast to the Boy Scouts, and Troop-leader Noel Wright gave a short summary of the history of the 1st Summerland troop of Boy Scouts. In order that the Dads might show what they could do, a biscuit-eating and whistling contest was arranged. All the Dads had to eat three dry soda biscuits then whistle. Before the contest, however, one of the contestants, Mr. Caldwell, entered a protest and demanded that a handicap of one biscuit be placed on Mr. Elliott. The protest was upheld and Mr. Elliott placed under a handicap. After this, Mr. Winter was called on again and was requested to sing "The Toreador" and "Polly." Tommy Harris followed, and played some "Jazz" as it was called for. Ivor Harris then proposed a toast to the Wolf Cub Scouts. Cub Stanley Taylor "made a hit" in his response and was referred to by the toastmaster as the coming premier. After a few remarks by Capt. Croese and Cubmaster Alex Smith all joined in Auld Lang Syne.

**HUNDRED DOLLARS AND COSTS IS FINE IN INDIAN CASE**

(Continued from Page 5)

quonam urged that the matter resolved itself into a question of credibility, and attempted to discredit the evidence of Dominique Paul. An Indian, he said, had no sense of honor, and would lay the blame for supplying the liquor on anyone he considered his enemy.

Mr. Kelley argued that the credibility of the Crown witnesses had been established by the straight story of Saul Paul, nor was there anything inherently contradictory to the evidence of Roe and Mrs. Milno. It was a question of credibility between the two Indians and the accused. Mrs. Milno may have been out of view when the Indian was in the store earlier in the day. Taking the evidence as a whole, it was in favor of the prosecution.

Judgment was given at noon on Tuesday, when notice was given by counsel's counsel of appeal to County court.

**MUCH TALENT IS BROUGHT OUT**

(Continued from Page 1)

lar affairs, was naturally a bit nervous and excited. Who would not be after fighting duels, being caned and constantly appearing in breach of promise suits? Miss Dorothy Garnett handled this difficult part very cleverly.

Miss Snavo, a husband-hating spinster, although sadly grieved over her failure to ensnare Mr. Niggie's affections, turned her attentions upon Mr. Boss. Here through excessive admiration and constant flattery she met with greater success and the end of the play found Mr. Boss ac-

**SEASON TWO WEEKS EARLIER THAN LAST**

(Continued from Page 1)

of 1922, tent caterpillars were first noticed hatching out this season on April 8th whereas they were not observed last year until April 25th.

In this district the weather has been remarkably fine almost continuously since the first of March, and vegetative growth both in field and orchard is well ahead for this time of year.

**Vernon.—May 4.**

The growing season of 1923 is considerably in advance of that of 1922. Records of the blossoming dates in the Vernon district shows this year's first blossoming date to be exactly two weeks earlier than that of last year. This seems to be general throughout the Valley, and all other plant growth is in a similar stage of advanced development.

Weather conditions during the past month have been variable, but generally speaking warm, and it is the driest April experienced for several seasons past. With the advent of steady warm rains plant growth would be very rapid.

At the present time apricots are set, pears, plums and prunes are in blossom. Sweet cherries are commencing to shed their blossom. During the past few days a showing of crab apple blossoms and Wagener's where trees are in especially favored spots, has been noticed. In another week blossoming will be general, providing weather conditions remain reasonably warm.

It is too early yet to determine any definite indications of this season's crop promise, although most varieties give indication of fair to heavy blossom. The frosts which have occurred during the past three nights have apparently caused no injury.

The appearance of all small fruits is good, although in some of the less favored sections a certain amount of winter injury occurred to raspberries, but this does not seem to be very extensive.

A large proportion of the vegetable acreage has already been seeded, except in the cases of the more tender varieties, or late plantings of certain vegetables.

Present indications point to a much smaller acreage both in onions and potatoes in the Vernon district for this coming season than was the case in 1922. Other notes on this will be given as the season advances.

Fall seedings of winter wheat and rye have come through the winter in excellent shape generally, and where are throughout the district some splendid stands of these grains. Spring seeding is now practically complete and much of the onion seedling is now up. Hay meadows are showing good promise, but both these and grain fields are sorely in need of rain.

**Penticton.—May 4.**

After a rather open winter all trees have come through in excellent condition. There is a rather heavy showing of bloom. The rather dull, cool weather of the past few days has checked blossom development to some extent.

There was a rather severe frost on the night of May 1st, which has done considerable damage to sweet cherries, and in some cases apricots. The extent of the damage is difficult to determine at present.

The water was turned on earlier this season than usual, and is being used at present particularly on soils growing a young cover-crop.

In reviewing the evidence, His Honor stated it was largely a case of conflict between evidence. It was extremely distasteful to him to come to the conclusion that he must accept the evidence of an Indian instead of that of a white man. The stippancy with which Roe had given his evidence did not enhance it.

There had been so much drunkenness from the use of essences that the tradition had been warned not to supply essences to white people addicted to alcohol, nor to Indians. That being true, he regarded this as a bad case and imposed a penalty of \$100 and costs or, in default, imprisonment for a term of one month.

**Grand Forks.**

There is every indication at the present time of a big crop of tree fruits, unless the winter injury which has taken place in some instances should adversely affect the "set."

Things have come along very fast the past few days, and after the recent rains moisture conditions are very good.

There is considerable injury to raspberries in the district, due to immaturity last Fall. Strawberries have come through very well, also loganberries where growers took the precaution to lay the canes down flat and cover them up. Most growers now do this in the district.

At the present time the apple orchards promise a profuse show of bloom. Blossoms on Wagener are opening out fast, and those on McIntosh are already showing "pink." Jonathans indicate a fairly heavy show of bloom, and other varieties promise well.

There appears to be almost no evidence of winter injury, notwithstanding the fact that many varieties of apple trees, more particularly Wagener, carried their old leaves over the winter.

A greater amount of, and more thorough, pruning has been done this season than heretofore, although there is still room for improvement along this line in some orchards.

Cover crops, principally hairy vetch, are showing up very well at the present time, and preparations are under way to largely increase the acreage of this excellent cover crop.

Field work is well along at this date. A greater acreage of spring grain is being sown than last year. The acreage to be put into potatoes will be probably somewhat less than last season. A considerably increased area is being seeded to alfalfa this spring. This is made possible by the assurance of plenty of water from the new irrigation system.

**Creston.**

The apple crop as a whole promises to equal last year. The trees are in the delayed dormant stage and have come through the winter without any apparent injury.

The weather has been warm and the season is advanced over that of last year by fully ten days.

The strawberries are uncovered and promise a full crop. Transplanting of new beds and land clearing are in full swing.

Cherries are in full bloom, and pears will be shortly, with prospects of a heavy showing.

Reports from district No. 1, Vancouver Island and Gulf Islands, are all favorable and from district no. 2, Lower Mainland, reports are that trees are heavily loaded with bloom. Strawberries promising well and bush and cane fruits looking better than last year. Ten carloads of rhubarb had been shipped from that district up to May 2nd.

**Donations Made to Hospital**

Donations to the hospital during the past month are gratefully acknowledged by the matron as follows: Mrs. Calloway, 1 doz. eggs; Mrs. Inglis, 1½ doz. eggs; Mrs. Cooper, watercress and magazines; Mr. Logic, magazines; Mrs. Gayton, 1 qt. jolly, 2 doz. eggs, and 1 box apples; Mrs. Whiteford, 1 qt. jolly; Misses Campbell, 5 doz. eggs; Mrs. H. Dunsdon, 1 doz. eggs and cake; Mrs. Morrow, 1 box apples; Mr. Leo McLaughlin, 1 box apples; Mrs. Lipsott, 1 pt. jolly, 1 pt. jam; Mrs. Sinder, 4 doz. eggs; Mr. C. B. McKay, 5 boxes apples; West Summerland Women's Institute, 22 doz. eggs; Mrs. Needham, Panchland, 2 qts. jolly, magazines.

Enactment of legislation providing for the imposition by municipalities of a health poll tax of not less than \$5 per year on all persons resident in the municipality for more than fourteen days who are non-taxpayers the monies collected to be put into a trust fund for the defraying of indigent hospital and undertaking accounts, was asked by delegates attending the convention of the Saskatchewan Association of Rural Municipalities.

## Summerland Athlete Wins Cup at Kelowna

**Individual Honors Excellent by Local Competitors—Kelowna Wins Both Championships—Big Crowds Attend From All Valley Centers.**

The founders of the Okanagan Schools' Athletic Association have every reason to feel highly gratified at the many eulogiums heard from the public regarding the second Annual Inter-city Track Meet held on Saturday last. The dawning of this auspicious day has been long and keenly anticipated by those youthful fleet of foot of the Valley who had been selected to do battle for and uphold the prestige of their respective towns and schools.

Kelowna was again the venue, and all roads and trails led to the Athletic Park on Saturday; the ideal geographical central location, combined with natural charm of environment being potent factors in making this an annual function that will in future years be eagerly awaited. Much labor and expense has been entailed in making the Kelowna athletic grounds second to none in the Interior; a splendid track having recently been constructed for the distance events which redounds to the credit of all concerned. The perfect oval is one-fifth of a mile, having a good drainage grade and banked corners; the surface dressing consisting of fine sifted shale, well rolled. The result is that a very fast track has been constructed, and the splendid time for juniors of 56 seconds flat for the quarter mile amply demonstrates that fact. Large and well-ventilated dressing rooms for the competitors, with running water, lavatories, and shower-baths have been located under the grand stand, and a business-like perfume of embrocations, unguents and oils pervaded the atmosphere on Saturday.

## CO-OPERATIVE INCORPORATED

**Objects of Association as Given in Charter—Shares Ten Dollars Each.**

Notice of the incorporation of the Summerland Co-operative Growers Association under the Co-operative Associations Act was given in the last issue of the British Columbia Gazette. The denomination of its shares is ten dollars each.

The objects of the Association are: (a) To carry on the business of packers and shippers of fruits, vegetables, and produce in all their branches, both wholesale and retail, and both as principals or agents;

(b) To acquire and undertake the whole or any part of the business, property, and liabilities of any person or company carrying on any business which the Association is authorized to carry on or possessed of property suitable for the purposes of the Association;

(c) To buy, sell, and deal in all consumable articles, chattels and effects of all kinds, and generally to engage in any business or transaction which may seem to the Association, directly or indirectly, conducive to the interests or convenience of the members of the Association;

(d) To make arrangements with persons or corporations engaged in any trade, business, or profession, and others, for the concession to members of the Association, and others, of any special rights, privileges, and advantages.

## RAILWAY FILL IN PRAIRIE VALLEY

That it is the intention of the K. V. R. to replace the trestle at the Cross property in Prairie Valley by a culvert and fill, was stated at Friday's meeting of the Municipal Council, when it was reported by the Clerk that inquiries had been made by the contractor who expects to build the culvert, as to the chances of getting water for the work. It was the opinion of those present that a supply of water could be given.

## HOSPITAL AUXILIARY TO MAKE PURCHASES

Twelve members only attended the regular monthly meeting of the Ladies' Hospital Auxiliary on Tuesday afternoon in the Parish Hall. The president, Mrs. H. A. Solly, presided.

The purchasing committee was authorized to buy the following articles required at the hospital: electric iron, 6 plain chairs, 6 bedside tables, and lock for drawer. There was a request for baby blankets or large blankets which could be cut.

Tea was served, following adjournment.

## IMPROVEMENT PROGRAM IS COMPLETED

**Money Voted Not All Expended—\$2,500 Still in the Treasury.**

With the program of improvements as defined in the last irrigation improvement bylaw completed, the Council was informed by the treasurer on Friday that about \$2,500 of the bylaw money was still in the treasury.

The Reeve and Council are to be congratulated upon being able to finish the work so well within the estimated cost. One of the savings which made this possible was in the purchase of metal flume.

There are still other demands for money which by no means cover them. More measuring boxes; changes and improvements to permit taking a number of orchards off the pipe lines and giving them flume service; an addition to Happy Valley siphon and other work has been under contemplation. It is probable that the Council will decide that the best returns for the money expended will be by changing a number of orchards from the pipe lines to flumes and ditches. About fifty acres in the vicinity of the Beggs property could be taken off, much to the advantage of others that could not be so readily changed. There are some orchards in Prairie Valley and another group in the vicinity of Dale's corner, which, if taken off the pipe line, would greatly improve the pipe line service.

The Council will decide at an early date how best to expend the remaining money.

Forty mills on the dollar is the total municipal tax rate for 1923, and is the same as the total for 1922. This is made up as follows: School rate, 16 mills, which is 2 mills less than last year; general municipal fund, 9 mills. In this there is a reduction of one mill from that of last year. A larger sum is required to take care of sinking fund and interest on bonded indebtedness because of the last loan for irrigation purposes, and this rate has been increased from 12 mills, as last year, to 15 mills for 1923.

The tax rate bylaw was given its final reading at the regular meeting of the Council on Friday afternoon, when the Reeve and Clerk were authorized to sign and seal same.

## STORES WILL CLOSE SATURDAY NIGHT

Summerland stores will be closed next Saturday evening to permit employers and employees to attend the performance in Empire Hall to be given by our University Players. The Boy Scouts of Summerland, Naramata and Peachland are busy selling tickets and are meeting with success.

That there is no doubt of the success of the movement to make Saturday the weekly half holiday is the opinion formed by Capt. H. H. Crocco after he had called on the merchants who pledged to close their stores on Saturday. Capt. Crocco is confident that if the matter were referred to the merchants, it would have their unanimous support.

## Spring Cartoonettes

## CORONATION OF MAY QUEEN ON SATURDAY

**Summerland Given Invitation to Visit Sister Town on Saturday.**

May Day is to be celebrated at Naramata on Saturday of this week in real orthodox style. The Naramata Women's Institute has undertaken and will carry through a rather ambitious program at the school grounds on Saturday afternoon.

Florence Lyons, elected by the school children as May Queen, will be duly crowned. The maids of honor are Rhoda Cargill, Dora Cross, Eileen Horswill and Lois Walters. There will be a decorated float for the queen and other decorated vehicles in the procession. Following the coronation and the maypole ceremony by the primary department, there will be a sports program by the Girl Guides and Boy Scouts. The respective leaders of which are Dorothy Robinson and Stewart Allan.

By special arrangement the ferry will leave Summerland at 1.30 o'clock and the Naramata people are hoping that many citizens from this side of the lake will attend. There is no admission charge; the Institute will serve a 25-cent lunch and in this way will endeavor to cover the expense of the celebration.

## DOMESTIC SUPPLY FROM COOL SPRINGS

That R. V. Agur, who had made application to the water controller for rights on a spring at the head of Prairie Valley, was ready to drop his application if the Council had any objection thereto was the report made to the Municipal Council on Friday.

During earlier discussions on the subject, it was apparent that the Council did not favor alienation of rights to this or other springs which food Prairie Creek. It is the opinion of Reeve Campbell that it would be advisable to impound the water from these springs for the purpose of feeding the domestic water pipe line. Not only will the water be much colder and therefore better for summer use, but it will be clearer and free from any vegetable matter.

The 8-inch pipe line, one of the two mains leading from the reservoir, is now causing considerable trouble through leaks. It is about fifteen years since the pipe was laid, and the metal binding, particularly at the collars, is giving way in places. This explains the recent interruptions in service, lessening the pressure or in some cases suspension of service entirely while repairs were being effected.

## PUBLISHING ONE DAY EARLIER NEXT WEEK

Empire Day, May 24th, falls on Thursday, our regular publishing day. The Review will therefore issue on Wednesday, one day earlier. Will our advertisers kindly assist us by having their copy ready a day sooner. Correspondents and any with news items will please keep this in mind.

## KELOWNA SPORTS DAY, MAY 24TH

Announcement is given in another column of the Annual Athletic carnival to be held at Kelowna, on Thursday, May 24th. It is hoped that Summerland speed merchants are keeping in trim, for some fast times are to be looked for on the new track that has recently been installed at the Athletic park grounds. A splendid camping site for autos has just been completed, with running water, etc. right under the shade of some ornamental trees upon the sands. Those travelling down by car and stopping overnight will find this a very novel method of making a day of it. There are to be all kinds of field and track events in the morning, including bicycle races, whilst football and lacrosse will be featured in the afternoon. A big dance at the Scout Hall will conclude the day. Victoria Day, in Kelowna's day, and no doubt a large crowd will make the trip from Summerland.

## DOUGLAS HOME A TOTAL LOSS

**Peachland Citizens Suffer Serious Loss—No Insurance.**

Peachland was all astir on Monday evening last when the word "Fire" was sounded throughout the community, and in a surprisingly short time quite a gang of men and boys were on the job at the scene of the fire, which was the home of Mr. and Mrs. Douglas. Mr. and Mrs. Douglas had been out in the orchard and garden attending to the spring planting and irrigating, and Mrs. Douglas went in and put on the fire for tea. While the fire was taking a start she went out to see to the irrigation in the current bushes alongside the house and in five minutes she noticed smoke pouring from the kitchen door. She rushed to the door but found that in that short space of time the fire made it impossible for her to get in to do anything. Sending the little girl up in the orchard for her father, she hurried around to the front door to save some of the things from the

## UNIVERSITY PLAYERS HERE ON SATURDAY

**Further Comments on This Production of Shaw's "You Never Can Tell."**

"You Never Can Tell," the witty comedy by G. B. Shaw, which the Players' Club of the University of British Columbia will present here on Saturday next, was first produced by the University Players in New Westminster. The New Westminster "Columbian," in speaking of the performance, says in part as follows:

"This year's offering of the players is a happy choice. It belongs to that stage in George Bernard Shaw's development which at the present time is perhaps the most acceptable. The history of every pioneer in art follows the same general trend. He breaks new ground; follows a route diverging from the beaten path, and at first carried, comparatively few with him. In due course of time the merit of his work becomes appreciated by the populace, but by that time he himself has advanced far beyond his first ventures and may in fact regard his early work as crude."

"You Never Can Tell" falls into that category. Nevertheless, it is a piece of sound work in a technical sense, and in the hands of a group of clever players offers everything that play of its kind need have—wit, humor, human emotion, a touch of satire, and a solid, good-to-chew-on, dramatic situation and plot.

With this material the University players had a golden opportunity, and they did well with it. Their character drawing was good. They delighted with a clear brush."

## MAINTAINING GASOLINE PRICES HERE

Protesters from all parts of the continent tell of one or more reductions in the price of gasoline, the cuts varying in amount. The Grand Forks Gazette, in its issue of May 14th, published the following:

"Notice of another drop of 2 cents in gasoline was received today by Agent E. Vant of the Imperial Oil Co., which with the drop of two cents on April 26 rounds out four cents reduction in the past ten days. As a result of this four-cent drop in the wholesale price of gas, it is stated that local garages have agreed to cut the retail price five cents.

The local dealers obtain their supply from the Imperial Oil Co., but inquiries among them brings the statement that there has been no reduction in the wholesale price to them.

## Vernon is Headquarters of Associated Growers

### EXTRA CONNECTION COSTS FIVE DOLLARS

Additional connections of the individual fruit lots with the irrigation system and the proper policy to adopt with respect to these have frequently been subjects of discussion by the municipal council.

Reeve Campbell reported at the last meeting that the Westbank irrigation district is charging \$5 per year for an extra connection and in addition the cost of the measuring weir for this connection. The first measuring weir is provided free.

Coun. Johnston declared his intention of seeing these weirs in operation.

### QUORUM ONLY AT MEETING OF MUN. COUNCIL

**Civic Clean-up Day Proposed by Reeve—Accounts for April.**

There was barely a quorum at the regular meeting of the Municipal Council on Friday. Councillors Kirk and Ritchie, being absent.

Accounts for April were approved for payment. Payroll totalled \$3,819.22; the requisition from the school board, \$3,025.22, and sundry accounts \$3,716.33. Total \$10,560.76.

John McDougald wrote complaining of irrigation service, particularly of the condition of the flume trestle leading to his property and stated that he would not be responsible for slides or washouts if he were compelled to try to force water through this section.

The municipal auditors submitted a list of names of high school pupils whose fees were in arrears, this being a copy of a report sent to the school board. The arrears totalled \$293.50.

Foreman Tomlin was given permission to put an 8-inch plank in the spillway of Garnett Valley dam.

D. Dickson, in charge of pipe lines, reported several using domestic water service who were not ratepayers.

Mrs. Solly applied for electric light connection to her cottage on the shore in Peach Orchard, and H. C. Mellor also made application for extension to his home. These were granted under certain conditions.

Several bylaws to formally authorize exchanges of surveyed roads for used roads, were given their first readings. These included an exchange of a strip through the Dale meadow for the roadway now being used along the south end of the meadow. Another bylaw provided for an exchange with the Development Co. in Peach Valley and another leading to Paradise Flat district.

Coun. Johnston volunteered to go to headquarters at Trout Creek about the first of June, when he will also visit Deer Lake. His object is to learn of exact conditions there and he will take someone else along with him to acquaint him with the sources of supply, gates etc. It is probable that Reeve Campbell will go at the same time.

Reeve Campbell pointed out the advisability of fixing a day for general clean-up, and this again opened the question of the nuisance ground and the desirability of finding some new site for the disposal of refuse. Reeve Campbell regretted that the owner of a certain gulch had refused to allow it to be used for the purpose.

Reeve Campbell and Coun. Johnston, to whom the question had been referred, reported that it would cost about \$1,000 to give the Hill Park Garfield tract connection with the domestic main on the Prairie Valley road. It was proposed that the matter be taken up with the owners of the estate.

### Directors in Session Tuesday Strongly in Favor of That Center—President and Manager Doing Good Work—Winning Confidence.

Vernon is to be the permanent headquarters of the Associated Growers of British Columbia, Ltd. This decision was reached by the directors on Tuesday.

That city has been the headquarters of co-operative fruit marketing organizations of the interior since the growers were organized.

Kelowna, Penticton and Kamloops were all aspirants for the honors. A strong case was put up by Kelowna, and Penticton also made a determined bid, emphasizing the point that it is a more convenient location in which the directors might meet.

Apparently only the representatives from Kelowna and Penticton took the view of their townspeople. When the question came to a ballot, there were but three votes for Kelowna and one for Penticton, this being the same number as the directors on the board of the Associated Growers from each of those districts. Vernon received thirteen votes.

This question definitely settled, the executive can now get down to work.

That Archie M. Pratt, the recently-appointed general manager, is sizing up well, is the statement made by those who have been watching his movements since he arrived in Vernon. He and the president, Mr. A. T. Howe, are an able team, according to the statement of one in close touch with the work, who is confident that the interests of the growers will be well looked after. Some difficult problems have already confronted them but in every case they have showed splendid ability.

## SUPT. HELMER IS RESIGNING

**Is Going to Big Nicola Ranch—Successor Not Yet Named.**

R. H. Helmer, Superintendent of the Dominion Experimental Farm here since it was first started, has tendered his resignation to the Department at Ottawa with the request that he be relieved at the earliest possible date. Mr. Helmer is leaving to assume an even more important and, we presume, more lucrative position as manager of the big estate of Major Goldman in the Nicola Valley.

Many of our readers will remember when the papers contained much of the purchase of the townsite of Nicola with thousands of acres adjoining by Major Goldman. There are altogether 20,000 acres in the tract with 1,000 already under irrigation. Major Goldman is now in the Nicola and Mr. Helmer and Mrs. Helmer recently visited him there.

If Mr. Helmer can be relieved soon enough, he plans on first making a visit to England, before taking on his new duties, and is hoping to get away in time to make the journey in company with Major Goldman. News of Mr. Helmer's resignation will be received with general regret. He has been a most efficient and courteous superintendent, always ready to give help and information and since coming to Summerland in its earliest days, has been one of our most energetic and progressive citizens. He will be greatly missed by the community.

G. R. Hookham came in from Vancouver on the Saturday noon train and, after attending the meeting of the White Lake Collieries, returned to the Coast Sunday noon, accompanied by Mrs. Hookham. Mr. Hookham has been at the Coast for many months in connection with the White Lake Coal property, but is expected to return next week to remain for a time at least.

Mr. and Mrs. J. H. Reid came in from Vancouver on Monday.

(Continued on Page 6)

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED  
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

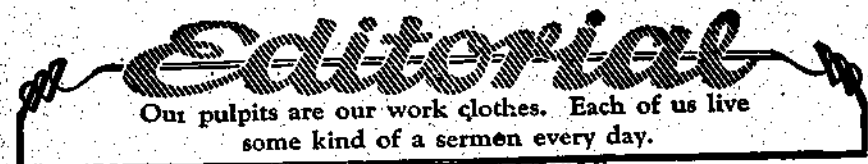

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, May 17, 1923

## DISPOSING OF REFUSE.

Disposal of refuse and the undesirable location of the present municipal nuisance ground again becomes a live question with the return of summer. To find a site that is in every way suitable and at the same time convenient to both business centers has proven a problem not yet surmounted.

With a little more control and no more expense, nearly all of the material which now finds its way to the nuisance ground could be used to advantage and the small proportion of objectional stuff could be destroyed.

There are a number of places along our lake front, where many loads of such material as empty cans, heaps of binding wire from our packing houses and other non-combustible refuse could be deposited and used as a binding for holding the earth with which it should be covered, in order that it would not become unsightly and at the same time serve as reclamation material. One such place where the material might be so used is between the bandstand and the Pioneer livery stable, where the bay cuts into the street line. The municipality has some lake front lots which could be built up in this way. Plenty of earth could be had from nearby cliffs, or by widening hillside roads, for covering it. It would probably be no more expensive to the municipality to supervise the depositing of the material and cover it than it would to buy and maintain a plot for use as a dumping ground.

## OUR TOURIST CAMP.

Another tourist season is upon us. Already many cars from south of the border and a few from the prairie provinces have been seen on our streets. Most of these pass directly through, but no doubt many of them would be induced to stop and perhaps look around the district, if they knew of the existence of the ideal camping ground, which nature has provided in our public park in Peach Orchard. True, some of the needed conveniences have not yet been added, but even so, conspicuous signs inviting the travellers to use the park would turn many that way.

There is no more promising means whereby additional settlers could be obtained than through our camping ground. A good many while camping would look over our beautiful district and would, no doubt, readily become interested. No small number of tourists have their eyes open for something better than the community from which they came.

## THE UNIVERSITY PLAYERS.

From the early days of Summerland to the Great War, Summerland was always visited by the best that was on the road in the way of entertainment companies, lecturers etc., and these were always well patronized, particularly those of the better grade.

Somehow, since the war, there has not been the local organization or the enterprise along these lines that formerly existed and, too, by the grouping of a number of theatres of other Valley centers, contracts have been entered into by entertainers, which have not given them time or opportunity to play at such independent houses as the Empire Hall here. The result locally has been a growing feeling of dissatisfaction.

The coming of the University Players will give Summerland an opportunity to show its appreciation of real high class entertainment and also give its approval of the determination of the University Players to show in Summerland.

Some may think that the prices are high, but as fixed by the local Boy Scout management, these are much below what one had to pay a year ago, and are no higher than are being charged at other points. Last year, reserved seat prices were \$1.65 and there was not the opportunity to buy low priced tickets such as are being offered for the children and is asked for rush seats.

Let us see to it that Summerland is made one of the permanent towns on the University Players' circuit.

## EMULATE THE EARLY BIRD.

Do not sit up nights hating your neighbor. Go to bed, have a good rest, Come down in the morning and beat him to it.

They tell us that when people got back to the land living will be cheaper. When we return to dust we won't care much what the cost of living is.

Count Zarechivskumny is getting to be a famous author. Anyone would pick him for a man of letters.

## CO-OPERATIVE OVERHEAD.

The directors of the Associated Growers have followed the right course in selecting as general manager a man with wide experience in the fruit trade instead of someone that might have gained an excellent reputation in some other line of endeavor as an organizer and executive, but would have to learn much in connection with the peculiar problems and intricacies of fruit marketing before his talents could be utilized to their full value, and the action of the Board will undoubtedly meet with the general approval of the growers. But there is a fly in the ointment—the question of salary, and the figure announced of \$15,000 a year as remuneration of Mr. Pratt will cause many growers to gasp who have not had as many cents for their past two years' hard work and worry. When it is considered that this salary is greater than the Premier of Canada draws and is about double that of a Deputy Minister in charge of the most important government departments, it gives cause for thought whether the directors of the Associated Growers are keeping constantly before them the need of rigorous economy in overhead expenses.

There is a tendency to treat overhead expenses in an airy way, certain items being reckoned as working out to only a fraction of a cent per box over an output reckoned in millions. But there is a wholesome old Scotch proverb: "Mony mickles mak' a muckle," which most people understand without the need of interpretation, and in the multiplication of these mickles lies danger. In these times, an additional one or two cents per box counts for much with growers, and if the overhead expenses can be reduced from what has been usual in the past, the growers will reap the benefit without inflicting any extra burden upon the consumers.

It is understood that the California Fruit Exchange pays somewhere about \$30,000 per annum to its general manager, but on an annual turnover of some \$300,000,000, the overhead expense is a mere drop in the bucket. On a turnover of from \$5,000,000 to \$10,000,000, between which figures the business of the Associated Growers may be expected to range, a salary of \$15,000 assumes different proportions, especially if all other expenses are on a like basis, and it would be well if the directors would take the growers into their confidence and explain why it has been necessary to pay such a high rate to secure a suitable man.—Kelowna Courier.

## CO-OPERATIVE SALARIES.

Here and there one may occasionally hear criticism of the "high" salaries paid to the officials of our various co-operative organizations but there is a general appreciation of the fact that a good man is worthy of his hire.

A business of any kind depends upon its management for success; a losing business under an inefficient manager can be made the reverse under competent management; and likewise, the best organized business in the world can fail completely if entrusted to a man of minor ability. Thousands of men can be quickly trained to run locomotives, but not one locomotive engineer in a thousand is so constituted that he could ever qualify for president of his railroad. The same applies to fruit-marketing.

In choosing the head of a great co-operative organization, the first object must always be to obtain a man who can make it a success, for the happiness and prosperity of thousands of families is in the balance. Even with care it is not always possible to choose successfully, but a past record is at least an index to ability. We do not hesitate to state that a man competent to handle the affairs of any one of our great industries is worthy of any salary within reason.

It is hardly fair to cite the case of governmental officers; the governor-general of Canada receives \$50,000 a year and all expenses, while the prime minister does infinitely more work for less than a fifth of that salary. But because we underpay the prime minister is no reason why we should underpay others. If we are to develop men capable of managing our great business enterprises and willing to bear tremendous responsibilities, we must always let it be known that exceptional salaries will be paid to exceptional men.—Farm and Home.

## CO-OPERATIVE MARKETING PAYS.

Marketing a million eggs a week, the B. C. Poultrymen's Co-operative Exchange has become in the past few weeks the largest individual co-operative poultry organization in the world, beating even the famous Petaluma district of California.

The exchange has been in operation for four years. In the last three months it has trebled its business. Last year it did a business of \$500,000. This year it will exceed \$2,000,000 and more than quadruple its 1922 record.

At present it has a contract membership of 2,000. The exchange controls 90 per cent. of the egg output of the province, and the producers are confident they are now in a position where no independent dealer will ever be able to assemble a carload of eggs for eastern shipment again.

Since January 1 the exchange has shipped 34 carloads east, no other agency having shipped any since January 4.

Since January 1 the floor space of the exchange premises has been increased 900 times its own area.

More than 30,000 feet of B. C. lumber is used every week in the construction of shipping crates.—Commoner, Enderby.

Nothing is quite so irritating as to have a person ask your opinion and then try and argue you out of it.

No man is so honest that he won't offer an excuse for a mistake he has made.

With men of such prominence as Woodrow Wilson declaring that nine hours of sleep is required each day, we are not surprised that there are so few who make a success as country editors.

## SUMMERLAND BOY SWEEPS THE FIELD

(Continued from Page 1)

day as the young gladiators groomed themselves prior to the athletic battles in which they were scheduled to participate for the honor of the schools of their respective districts.

A hundred or more competitors and friends journeyed from Penticton by the S. S. Sicamous, whilst the quota sent from Summerland filled the Skookum to capacity, a number also going by the regular boat.

Peachland sent a strong contingent, and the decks and saloons of the big vessel were crowded by the time the Westbank bunch embarked. Vernon sent a large number by water and road, and far-away little Armstrong did nobly by transporting no less than 100 children by road.

When the first event was announced the capacious grand stand was a veritable sea of faces. Partizan school yells and counter yells denoted the great interest manifested by the youngsters generally, and briefly it must be stated that the education accrued by the youngsters in the conduct of clean athletics will be beneficial and enduring, for are not our athletic boys and girls of today the athletes and men and women of tomorrow?

The various committees in charge are to be highly congratulated upon the results achieved. Beautiful balmy summer weather prevailed throughout the entire day.

The meet was held in two divisions, known as A and B. Division A being open to the pupils of any school in the Valley, one competitor to be eligible from each town for each event. Division B was open to pupils of high and superior schools only, one competitor from each town being eligible for each event.

The town championship of the Okanagan Valley and the winner of the present challenge cup (held last year by Kelowna) were determined by the results of Division B only. The events in Division A were separated into two classes: for pupils under seventeen years, and for those under thirteen years of age.

Keen competition and close finishes were the order of the day, and the friendly rivalry displayed in securing the necessary number of points to carry its town to victory kept the spectators keyed up to expectancy throughout the day. Kelowna was successful in again retaining the "Kelowna Cup," also annexed.—(Continued on Page 3)

## OBITUARY.

### W. H. SNOW

Death came suddenly Tuesday evening to W. H. Snow. Mr. Snow had been in poor health for some time, having suffered two paralytic strokes, from both of which he recovered fairly well.

Mr. Snow, who was 62 years of age, came from Devonshire, Eng. to Summerland about 14 years ago. He leaves two sons, William and Channon and one daughter, Mary. His wife died about ten years ago.

The body was taken to Kelowna this morning, where it will be interred beside the remains of Mrs. Snow in the Catholic burial ground in that city.

## KEREMEOS TO BUILD STORAGE IN GRAVEL PIT

Success with Earth Storage Encourages Storage at Production Point.

Storage of apples, whether underground, in frost-proof buildings or under cold storage conditions, is a live subject with fruit growers. Many fruit growing communities are facing the problem of caring for their fruit until shipped, and again there is that other question of whether to store the fruit at the point of production, or to ship it and put it into cold storage at or near the probable point of consumption.

The following report from Keremeos on the matter of storage as it relates to that district will be of interest to our readers:

A recent report in the Coast papers, in regard to the condition of a carload of apples shipped by W. H. Hardy, draws attention to the necessity of proper storage. The question of storage has been taken up and discussed to some extent, but the time is drawing near when the local directors of the new organization will be forced to come to some decision in the matter, and it is well to look over the situation before that time.

While some are in favor of storing at the point of consumption, it would seem that the arguments of storing at the point of production are stronger and also that this is the accepted rule in the older districts, such as California, where the citrus fruit are stored and distributed from the point of production.

To store at the point of consumption will always have a danger of too heavy storage at one point and too light at another. To equalize this, it may be necessary to reship and rehandle, which means extra expense. Then there is the danger of some of the fruit not holding up, which would require repacking and this away from

the point where experienced packers are to be had. Another point that is often overlooked by growers who know when each variety of apple is mature for use, is the fact that the usual retailer knows nothing whatever about this, and is liable to place an apple on the market before it is prime, while others are allowed to get overripe. In both cases the fruit is condemned by the consumer. By storing at the point of production no varieties need be put on the market until ready.

Nature has provided this district with what should be perfect underground storage in the gravel bank on the north of the town. To tunnel in this bank, say at a point below Chinatown, would give perfect storage, the gravel not being too damp but at the same time damp enough to insure the best conditions for storage. A couple of miners, used to running a drift in gravel with a small gang would soon make sufficient space for storage, at the same time timber it up for the present, this afterwards could be filled in with concrete. At the back of this tunnel a shaft could be run up of a size sufficient to make an elevator shaft, and at the same time give the proper ventilation. The elevator could be used to receive all the fruit from the bench, which would save the long and somewhat dangerous haul down the hill. At the mouth of the tunnel a packing house could be erected and a spur brought around the foot of the hill. There are many points in favor of this that can be advanced. The fruit once received could be placed at once and not rehandled again until required to be packed. Anyone familiar with the many shifting and jars received under the old system will appreciate the value of this. The packing house being located on its own spur, would leave cars undisturbed until fully packed and braced. Those who have had experience with handling cars upon what is known as the "house track" will know what this means.

Storage at the point of consumption means an extra charge of seven cents a box, the growers know who pays this. Allow out of the 125 thousand boxes shipped last season, that fifty thousand would go into

# J. C. MELVIN

**Familiarity's Breed.**  
At the grave of the departed the old dandy pastor stood, hat in hand. Looking into the abyss, he delivered himself of the funeral oration. "Samuel Johnson," he said sorrowfully, "you is gone. An' we hopes you is gone where we specks you."

The reason woman appears so good is that there is nothing but man to compare her with.

Trim ankles mean trimmed skirts.

**Worse and Worst**  
A Scotchman and an Australian were discussing the conditions in Scotland and the Commonwealth. The Scot said he understood there were many Scotchmen in Australia. "Yes," replied the Australian, "but the worst feature is the rabbits."

A man with crowfeet on his face is not necessarily a bird.

The worst children, of course, are the ones that aren't yours.

**SUMMERLAND BOY SWEEPS THE FIELD**

(Continued from Page 1)

ing the high school championship and cup, donated by H. M. Ramsay, Esq., of Penticton.

The outstanding feature of the meeting was the wonderful success achieved in individual honors by Warren Gayton of Summerland. Commencing with the 100 yards open, he swept the field in that and in all other subsequent track events in which he entered. The official time recorded for the 100 yards was 11 seconds flat, which must be considered as exceptionally fast by a youth just barely turned 17. Competent unofficial timekeeping, however, even conceded him with accomplishing 2 yards faster than 11 seconds. It was a beautiful race, the entire eight competitors being not more than a yard apart when Gayton breasted the tape, it being impossible for the judges to separate second and third, and the dead heat was re-run off between Henderson and Aitken. The latter gained a foot at the getaway and broke the tape two feet ahead of Henderson. The hurdle race of 10 flights 3 feet high was run on grass, and brought out a field of seven runners. This was a pretty race, the contestants jumping from the holes as one, and taking the first hurdle simultaneously. Immediately Gayton's superior running and leaping powers asserted themselves and gradually assuming the lead he breasted the tape three yards in front of Harley Hatfield of Penticton, with John Aitken of Kelowna right at his shoulder. The time was 20 seconds, a highly creditable performance on a somewhat rough track. He was also in a field of seven in the boys open 220 yards, which he won handily by five yards. Gayton was also one of the team to represent Summerland in the relay race, which was won by Vernon. In the field events this sterling young athlete was conspicuous again, he winning out in the running broad jump from a field of six. His winning attempt was 17 feet 9 1/2 inches; whilst in the high jump he cleared 5 feet 2 inches, and being just nosed out for first place by Harley Hatfield of Penticton, who cleared the bar at 5 feet 3 inches. In his final attempt Gayton had the misfortune to take off from a hole in the earth,

which undoubtedly militated against his securing premier honors in this event.

Special mention should be made of the wonderful effort made by a diminutive Summerland boy in the half-mile. Shelly Knowles substituted for Arthur Dunsdale at the eleventh hour, and although quite a tot by comparison with the other eight competitors, the fair-haired boy from Summerland made the grand stand rise en masse in response to his spartan efforts to clean up the field. The pace set from the turn loose was a cracker, but the youngster grouped with the first bunch, consistently and refused to be tailed. He held his position despite a sprint in the entire last lap for supremacy, and he was just edged out by a few inches for second position, the winner being two feet ahead. The game youngster collapsed at the conclusion, but he quickly recovered and received the lusty plaudits of a thousand throats.

**Division A.**  
Summary: Girls under 13, fifty yards. This was run in two heats, the final being won by Louise Cryderman, Vernon; Mary Dockstader, Armstrong was second, and Barbara Webster, Coldstream, third. Time, 7 seconds.

Boys under 13, 75 yards, Donald Appleton, Kelowna, 1; Dick Farmer, Vernon, 2; Ian Campbell, Summerland, 3. Won by 5 yards, foot between second and third. Time, 10 seconds.

Girls under 15, 75 yards.—Mabel Dore, Kelowna, 1; Pearl Johnston, Penticton, 2; Louise Cryderman, Vernon, 3. Won by yard, foot second and third. Time, 9.8 seconds.

Boys under 17, 100 yards.—Gordon Meikle, Kelowna, 1; Gordon Hull, Vernon, 2; Charles Lambley, Penticton, 3. Won by a yard—same between second and third. Time, 11.8 seconds.

Boys under 17, hurdle race.—Guy Bray, Armstrong, 1; Ralph Thomas, Penticton, 2; Colin McCloume, Vernon, 3. Bray took last flight one yard in front but was nearly caught by Thomas on the tape. Time, 19 seconds.

Girls under 17, relay race, four to a team, 100 yards.—Armstrong 1, Penticton 2, Vernon 3. Time, 48 seconds.

Boys under 17, relay, 100 yards.—Penticton, 1; Kelowna, 2; Armstrong, 3. Won by 20 yards; time, 48.8 seconds.

Girls under 17, hop, step, jump.—B. Moore, Armstrong, 28 feet 6 inches, 1; Marion Brown, Kelowna, 28 feet 2 inches, 2; Elsie Meldrum, Penticton, 28 feet 1 inch, 3.

Boys under 17, broad jump.—G. Hull, Vernon, 16 feet 2 1/2 inches, 1; E. Fisher, Penticton, 2; Elwyn Williams, Kelowna, 3.

Girls under 17, high jump.—Barbara Webster, Coldstream, 4 feet, 1; A. Conner, Penticton, 2; Jean Trimble, Armstrong, 3.

Boys under 17, high jump.—Gordon Meikle, Kelowna, 5 feet, 1; John Beddall, Penticton, 2; F. Hull, Vernon, 3.

Boys under 17, half mile.—Elwyn Williams, Kelowna, 1; Fred Parmley, Penticton, 2; Shelley Knowles, Summerland, 3. Time, 2 minutes 20 seconds.

**Division B.**  
Girls open, 50 yards.—Alice Brown, Kelowna, 1; Elsie Meldrum, Penticton, 2; Merle Howlett, Westbank, 3. Won by two yards. Time, 6.2 seconds.

Boys open 100 yards.—Warren Gayton, Summerland, 1; John Aitken, Kelowna, 2; James Henderson, Vernon, 3.

Boys open hurdle.—Warren Gayton, Summerland, 1; Harley Hatfield, Penticton, 2; John Aitken, Kelowna, 3.

Girls open relay, 75 yards.—Penticton, 1; Vernon, 2; Kelowna, 3. In the first attempt Kelowna and Vernon ran a dead heat for second place. On the run off Vernon was successful.

Boys open relay, 220 yards.—Vernon, 1; Kelowna, 2; Penticton, 3.

Boys open broad jump.—Warren Gayton, Summerland, 1; Harley Hatfield, Penticton, 2; Gordon Hull, Vernon, 3.

Boys open, 220 yards.—Warren Gayton, Summerland, 1; John Aitken, Kelowna, 2; Jimmie Henderson, Vernon, 3.

Girls open 100 yards.—A. Brown, Kelowna, 1; Helen Higgs, Vernon, 2; Merle Howlett, Westbank, 3. Time, 13 seconds.

Girls open high jump.—N. McMynn, Westbank, 1; Alice Brown, Kelowna, 2; Nell Hamarstadt, Penticton, 3; 4 feet 3 inches.

Boys open high jump.—Harley Hatfield, Penticton, 5 feet 3 inches, 1; Warren Gayton, Summerland, 2; Gordon Hull, Vernon, 3.

Boys open 440 yards.—John Aitken, Kelowna, 1; Jimmie Henderson, Vernon, 2; D. Corbishly, Penticton, 3. Won by 10 yards. Time, 50 seconds.

Boys open pole vault.—Laurence Lundy, Penticton, 8 feet 6 1/2 inches, 1; Guy Bray, Armstrong, 2; Roddy McCloume, Vernon, 3.

Boys open one mile.—Art Geen, Kelowna, 1; Irvine Adams, Summerland, 2; Harold Patchett, Armstrong, 3. The winner took the lead from the start, and despite a big effort by Adams to overhaul him, he won handsomely by 20 yards. Time 5 minutes 14 seconds.

The winning aggregate of Kelowna for the Kelowna cup was 66 points; 32 being notched in Division A, and 34 in B. Penticton was second with 55, Vernon third with 36, Summerland fourth with 28, Armstrong fifth with 27, whilst Westbank and Coldstream obtained 7 and 6 respectively.

part of individual entrants from Summerland, excepting in one or two instances, is responsible for the meagre number of points secured in the grand aggregation.

There was also a lack of cohesion in the relay race, which again went to sadly demonstrate the fact that our boys and girls have not diligently been working out together. The criticisms are offered in the best of spirit, and it is to be hoped that advice from an old professional pedestrian will be accepted in the spirit in which it is tendered.

With proper judgment Adams, of Summerland, should have won the mile. Races are won with physical endeavor. Adams seemed to be fit, but he loafed at the crack of the pistol and was content to follow the trailers for half the distance. He made his effort too late. Had Geen been worried and closely pressed throughout probably he would have crumpled up. He was all in at the finish whilst Adams was comparatively fresh. This does not deteriorate one iota from the splendid win by Geen, who ran his own race and used his noodle. Five minutes and fourteen seconds is mighty good going for youngsters.

We expected better of the girls. They were fast getting away, and as swift as the others for half the distance, as a rule; and then for the lack of training and coaching dropped behind.

Old-Timer noticed a number of the youthful competitors from Peachland and Penticton indulging

in a seductive cigarette whilst journeying up in the early morning. This is bad—Bad! Old-Timer also noticed that the same youthful athletes had "bellows to mend" at a critical stage in the day's events. It's one or the other boys—make your choice whilst the going's good.

Warren Gayton was top scorer in the individual open competition, with 23 points. His runners up were Meikle and Hall with 16 each.

Bicycle races are advertised for the 24th at Kelowna, and in this regard it is as well that a warning note should be sounded. The corners of the track are as yet banked insufficiently for cycling, and in an exciting and close race there is danger for the competitors. One accident will be sufficient to put a crimp in all such future events, and as there is yet time to remedy the defect we respectively suggest to the Kelowna Athletic Club that it is better to be safe than sorry. We understand it is feared by the Lacrosse players that the raising of the track at the corners would mar their game. Old-Timer can't see eye to eye with them in that—anyway, think it over, gentlemen.

We wondered why no yells proceeded from the Kelowna rooters, in striking contrast to the throaty zi-zap-zorum of the other contingents. We were informed that this was according to schedule, as it was feared that such oral demonstrations might be considered discourteous by the visitors. It was awful, as one of the orchard city kiddies, as one youngster remarked: "Halleychee, if I can't yell I'll go bugs!"

**HOW AND WHEN TO DESTROY WEEDS**

The best time to destroy weeds is within two or three days after the first pair of leaves has formed on the seedling plant, says the Dominion Seed Commissioner in his bulletin on "Weeds and Weed Seeds." In friable soils the "weeder" is a useful implement for that purpose. The "hilling" harrow is also satisfactory for comparatively loose soils and is preferred as a weed destroyer on firm or clayey land. Weeds are irregular in time of germination; consequently it is necessary to apply the weeder or harrow frequently throughout the growing season. Potatoes, or fields of corn and cereal grains when sown with a drill, may advantageously be cultivated with such implements once or twice before the crop distinctly shows above the ground, and again, when the plants are three to six inches high. Even relatively heavy harrows ordinarily in use will do little damage to the potatoes, corn or grain plants if the land is not wet, while the loosening of the surface soil benefits the crop in addition to the destruction of the weeds.

For perennial weeds, or seedlings that have become well rooted, a cultivator having diamond-shaped or other relatively broad shovels is needed for hood crops. The disc is a favored implement for destroying weeds in a summer fallow or in preparing seed bed. When, however, it is desired to unearth and remove the rootstocks of perennial weeds, such as couch grass, a narrow-toothed cultivator that will loosen the soil and bring the underground vegetation to the surface, is preferred to an implement that will cut the rootstocks, the small cuttings of which may be exceedingly persistent in growth.

**NOTES ON THE MEET**  
(By "Old-Timer")  
Congratulations to Warren Gayton, who won outright the handsome silver cup for highest aggregate in the open division. Alice Brown, of Kelowna, won a similar cup in the A Division.

The official time of the half mile of 2 minutes 20 seconds is a corker for boys under 17. That makes the performance of little Shelley Knowles all the more meritorious. With care and coaching that youngster will be heard of big one of these days.

Lack of training generally on the

**Why You Should Use a Mild Soap**

Harsh soap dries the natural oils and is apt to irritate the skin and make it scaly. In the mild, soothing, creamy lather of Palmolive you have an ideal cleanser. It is lotion-like in its action. It soothes while it cleanses.

Artful application of rouge and powder may lend your skin the appearance of smooth freshness, but when this is washed off, what a cruel revelation!

You can easily possess a fine complexion by giving your skin proper care. Instead of putting your skin to sleep with cold creams and cosmetics, wake it up with soap and water. Cleanse each tiny pore and skin cell, revive sluggish circulation. Get rid of the blackheads which are only accumulated dirt.

Use Palmolive Soap and apply it with your two hands. Massage it thoroughly into your skin and remove with many warm rinsings. This treatment makes your skin fresh as a rose.

You can buy Palmolive Soap at all first-class dealers.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement, and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year.

Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces.

The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes.

GRAZING. Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Fees, or partially free, permits for settlers, campers or travellers, up to ten head.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mr. and Mrs. W. J. Moore, who have for some years operated the Lambly ranch, and having recently been relieved by the arrival of the owner, Mr. W. Lambly, to take it over, have started to move their effects to their ranch at Powers Creek. They have had a house built on the ranch and expect to improve their place as fast as time will permit.

Mrs. Dorland and son Hugh, with some friends, motored to Pentiction on Friday afternoon and brought Mr. Dorland home after the arrival of the boat in Pentiction, he being off duty for the week end.

Miss Annie Kudelka arrived on Friday evening's boat to spend her vacation with her people. This is her first vacation since entering the Kelowna hospital, and she expects to have three weeks off.

The regular meeting of the Women's Institute took the form of an open meeting on the 11th, a very good showing of the members and husbands being present—about seventy in all. After the singing of the Institute Ode the regular business was attended to, several letters were read, and B. C. Products literature was distributed at the close of the meeting. The rôle call was answered by the telling of a joke. This created great amusement and was enjoyed by all. Notice was given by the Crystal Garage that they will be unable to continue the noon whistle after May 31st, owing to the fact that they are moving their compressor. This convenience to the community has been arranged and paid for by the Institute. The program for the evening then followed: An instrumental by Mrs. Martin; recitation—Miss Craigie; solo by Mrs. Jones; recitation—Mrs. Keating; duet—Mrs. Elliott and Miss Craigie and a chorus by the Institute executive, all of the numbers being well rendered and well received. Arrangements were made for clean-up day at the Cemetery, on Saturday, May, 19th; the crowd to leave town at 9.30. Basing their calculations on last year's provisions, the ladies had come prepared with a complete list of the refreshment requirements for clean-up day, and the president, from the chair asked for volunteers for the various items. It was very gratifying to see how the response came, so fast and numerous that the secretary had difficulty in getting the names written as fast as they came in. The list was taken up in a very short space of time. This done, refreshments for the evening was announced, and during the interlude it became quite plain to some of the members that the men

Indigestion relieved in two minutes with Jo-To. Gas, acid, sour, burning stomach all quickly relieved with Jo-To. Drug Stores.

would have answered the Roll Call maybe a little quicker than the members did; however, this did not matter. A vote of thanks was tendered the hostesses and the meeting closed by singing the National Anthem.

Apples and Plums Were Introduced in England Four Centuries Ago.

Works of reference show that this year is the fourth centenary in England of two of their most valued fruits, the apple and plum. They were introduced to that country in 1522, and may be said to have kept close company ever since, the combination of plum and apple in preserved and culinary form being well known, particularly to those on the battlefronts, who sang of the glories of plum and apple jam in the early stages of the struggle, and gradually became less enamored of it. The apple came from Syria and the plum from Italy. Apples, of a kind, were indigenous to England, but the fruit as we know it was introduced in 1522, no doubt by Richard Harris, fruiterer to Henry VIII., to whom England is indebted for so much in the way of fruit and vegetables. He planted a great part of the original orchards of Kent. In 1688 the number of varieties was placed by Ray at 78, and now there are over 2000. Experts in pomology might question, however, whether this could be demonstrated on distinct varieties.

Naramata News Current Events of Town and District

A SUCCESSFUL PERFORMANCE.

Unqualified satisfaction was the general feeling of the large audience which assembled on Tuesday evening to witness the inaugural production of the Naramata Dramatic Club. "Mrs. Temple's Telegram," which was the comedy presented, abounds in laughable situations, and these were accentuated by breezy and unflagging action on the part of those responsible for the production. An occasional need of the prompter's good offices, by one or two of the male characters, was more than offset by the calm confidence of the ladies, who were conspicuously at home in their several renderings. The jealous suspicion of Mrs. Temple, who rejects the plain truth concerning her husband's night out, and forces the concoction of something more plausible but quite fictitious, leads to the usual complications in such cases, and provides a series of happenings which leave nothing wanting by way of wholesome amusement. It is not easy to particularize where all characters were so well handled, but a word of praise may be accorded to the make-up of Mrs. John Brown and Wigson, the reminiscent butler, both of these showing considerable skill on the part of the green room artist. The fascinations of the suspicious Mrs. Temple and the innocent Mrs. Fuller were indisputable, as was also the bland efficiency of the spurious John Brown, as peacemaker in general. Jack Temple was hard put to it to prove his conjugal fidelity, while the real John Brown shared the usual hard fate of victims of circumstances. The billing and cooing of Captain Sharpe and Dorothy interweave itself in the main story after the approved fashion, and ended with wedding bells in prospect. The whole production showed a great deal of painstaking work on the part of the director, Mr. F. C. Manchester, and was an earnest of future entertainments along similar lines. Those were tentatively promised in the few remarks made between Acts, by Mr. Manchester, who outlined the scope of the Dramatic Club, and invited co-operation from any who might be interested. The following is the cast of characters: Mrs. Temple, Mrs. Dunn; Mrs. John Brown, Mrs. F. Cross; Dorothy, Miss Lily Young; Mrs. Fuller, Mrs. W. Greene; Jack Temple, J. J. Dunn; Frank Fuller, A. O. Horswill; John Brown, Denn Walters; Wigson, W. Armour; Captain Sharpe, Frank Hughes. Lighting and effects were in charge of Miss Dorothy Robinson, properties arranged by Frank Hughes, and music by Denn Walters. The whole under the direction of F. C. Manchester.

James Craig is back from Vancouver, where he has been throughout the winter.

William Graham, son of J. Graham of the Naramata Supply Co., met with a painful accident on Saturday, cutting off the thumb of his right hand while working at the mill at Chute Crook. He was taken to Pentiction on a K. V. R. trolley car, and treated at the hospital.

Russell Walls and family were the guests of Mr. and Mrs. Lyons on Sunday afternoon.

PROSPECTS ARE GOOD FOR BIG FRUIT CROP

Blossoms Heavy Throughout the Valley—Tent Caterpillar in Vernon.

Below is the second report issued from the office of the district horticulturist, W. T. Hunter, on the subject of orchard conditions and crop prospects.

District No. 3—Okanagan. Vernon—The orchards in the Vernon district have fulfilled the promise of our anticipation in last week's letter and are now a gorgeous sight with their mass of blossoms, practically all varieties being in full blossom with the earlier varieties shedding heavily.

It is very apparent that the blossoming period this year is going to be brief and inside of a week the major portion of the blossom will be off the trees. Growers should govern themselves accordingly in being prepared for the calyx-sprays.

Judging from blossom indication the Vernon district is again going to provide its full quota of fruit for the coming shipping season, unless unforeseen incidents occur to lessen this promise.

Generally speaking, Wealthy and Wagener are going to be a heavy crop. Duchess will run a good average. McIntosh tend to show a little lighter blossom, as this variety is showing spotty in a good many orchards. Jonathans are again, taking the district as a whole, going to have a full load.

Most varieties of pears are this year showing a lighter blossom, but the resultant crop may not be so much lighter in proportion to last year's crop, as the blossom indicates.

Fruites have had a heavy blossom and are apparently setting well. Taking all varieties of plums, the average of blossom is lighter than last year.

These notes will be somewhat indicative of this year's promise but no definite indications should be drawn from the same, until after the "June drop" has occurred.

We find a number of growers are already applying irrigation water, and quite a few more are making preparations for this operation almost immediately.

Stands of clover crop are in most cases in excellent shape and are making good growth.

Since our last letter we have had a very considerable rainfall, which has cooled the atmosphere considerably and given much needed moisture to the ground crops. These generally are in good shape and showing the benefit of the recent rain. With the drying winds of the past two days another 48 hours steady rain would be of tremendous good to all crops.

Tent caterpillars are showing up very heavily throughout the district this season and their ugly nests common and prevalent in many orchards, and growers would be well advised to carry out destruction of this pest in an earnest endeavor to stamp the same out so that it shall never become established in this Valley as it has done in the Coast sections.

Fire blight is again active in several orchards and this disease is already leaving its mark on blossom spurs wherever trees have become infected. Now is the time for the growers to take this incipient spread in hand and endeavor to clean the same up before it becomes general, when it is a much more difficult operation to handle in the growing season.

Summerland—During the past week weather conditions have been ideal. On the morning of the 9th there was a much needed rain throughout the district.

Apple trees are now in full bloom and show very good promise. All

varieties, with very few exceptions, are fruiting this year. Spraying with arsenate of lead for Peach Twig Borer should be done without any delay to obtain good control. Vegetable plantings are lighter this year especially tomatoes.

Pentiction—The past week has been bright and warm, and practically all apples and pears are in full bloom. The blossom period for soft fruit is pretty well over and promises to be a very heavy crop.

At Keremeos the crop does not promise to be nearly as heavy as last year, although the trees appear to be in good condition.

There was a nice warm shower of rain on the 9th, which was badly needed throughout the district and has done a great deal of good.

District No. 1—Vancouver Island and Gulf Islands. The weather turned much warmer the latter part of last week, the 4th inst. being an exceptionally warm day.

Conditions are becoming dry and a heavy rain would do an immense amount of good. Blossom development has been very rapid during the past few days.

Strawberries are moving fast and, with continued warm weather, should be at the height of their bloom in a week's time.

Bloom has pretty well fallen from sweet cherries, plums and pears. There has been no frost and the set appears to be good. Olivet cherries in most cases are going over the full bloom period.

Apples have developed very rapidly. Most varieties with the exception of Wealthy and late sorts, such as Baldwin, Ben Davis and Northern Spy, are in full bloom. Kings are practically at the height of the blooming period and show a profusion of blossom.

Fruit buds on raspberries, loganberries and blackberries are showing well, but none have opened so far.

Greenhouse cucumbers and tomatoes are moving.

Poetry written about them is probably what makes the wild flowers wild.

Francis, now to the English language but desirous of being polite, asked the lady beside him at dinner if he might "cockroach" on her time for a moment. Amid the gale of laughter a friend explained that the word was "onerach." For a moment Francis was mystified. Then his brow cleared.  
"Ah, oui," he exclaimed. "You 'honerach' when you address so lady. 'Cockroach' when you address so gentleman. Merely so matter of gender. Ah, oui!"

# Local Happenings

Miss Carol Graham spent the week-end visiting friends in Kelowna.

Mrs. G. L. Saiter came in from Vancouver on Tuesday to remain for a time.

Miss Margaret Anderson of the hospital staff is at present away on her vacation.

Mrs. A. W. Temple of Guilford, Surrey, England, arrived here on Monday on a visit to her son Capt. A. M. Temple.

Coun. Wm. Ritchie went down to the Coast on Monday of last week on a business visit.

Mr. J. L. Logie has so far recovered from the effects of his recent accident as to be able to be about again this week.

W. T. Hunter, district horticulturist, returned on Monday from Victoria, where he attended the funeral of his father.—Vernon News.

Mrs. E. W. Turner, of Toronto, arrived here on Monday evening to visit her son, A. C. Turner. She will probably remain here for about two months.

Mrs. S. Angove went down to the Coast this week to represent the Methodist church here at the W. M. S. convention being held this week in Vancouver.

Mrs. H. W. F. Tavender was operated on Monday at the hospital for appendicitis. Mr. Tavender states this morning that she is getting along nicely.

Mr. and Mrs. G. W. Bumfrey, of England, arrived here last weekend. They are friends of Mr. and Mrs. J. H. Lee, of Mineola and are guests at the Lee home. It is their intention to locate here.

W. J. Robinson and a party of friends are opening a prospecting camp at Tulameen on the property they hold there. First assays made of sands taken from the property show a heavy deposit of platinum and gold.

Ministers of the several churches of Penticton and the captain of the Salvation Army there have united in extending an invitation to Dr. G. S. Price, the evangelist healer, now in Vancouver, to hold a series of meetings in their town.

Joe Graham came in on Saturday night from Toronto, where he has been studying, having just graduated from the Royal Dental College there. He will go down to Vancouver shortly to write off some exams in order to fulfill the B. C. requirements.

Mrs. T. G. Beavis went down to the Coast on Tuesday as a delegate to the W. M. S. convention of the Methodist church at Vancouver. From there she will go to Victoria to visit her daughter, Miss Marlon, who is attending Normal school there.

A relay team is being organized by Wm. Johnston to participate in the sports on May 24th in Kelowna. Relays will be of 220 yards. Summerland basketball team will also play in the Orchard City on that day. Kelowna is to play return matches here on June 4th.

# LOCAL POULTRY BUSINESS UP

Many More Birds Will Be Kept—Association Asked to Join.

Summerland Poultry Products Association has been invited to link up with the Okanagan branch of the B. C. Poultrymen's Co-operative Exchange, which will be in operation early in June, with headquarters at Vernon and receiving stations in a number of Okanagan centres.

The Summerland association, organized some months ago, is meeting with success, finding its own markets, but may eventually find it advisable to affiliate with the provincial organization.

At a slimly attended meeting of the members here some nights ago, W. H. Fairley, Dominion poultry expert, in a very interesting address, spoke for an hour and a quarter on the subject of co-operative marketing of eggs.

Less than a score were present and it was felt that the meeting was not sufficiently representative of the Association to permit of a decision on the question of affiliation.

Mrs. W. C. W. Fosbery, the president, gave a very interesting summary of the development of the industry locally, stating that nearly 5000 baby chicks had been produced from local incubators or imported and without taking into account the numerous small flocks hatched in the natural way, she predicted that there would be well over 2000 pullets engaged in the business of egg production next fall.

The secretary, P. E. Knowles, gave a report on receipts and expenditures.

# FAREWELL TO REV. AND MRS. LIVINGSTONE

About eighty friends attended the farewell for Rev. H. E. and Mrs. Livingstone given by the Ladies' Aid of the Methodist Church on Friday night. An informal program had been arranged, Mr. Mellor occupying the chair. Solos were given by Messrs. T. G. Beavis and M. Scurrah. Mr. S. F. Sharp and Mr. H. C. Mellor both spoke briefly, expressing the appreciation of the congregation for the manner in which Mr. and Mrs. Livingstone have so willingly carried on their work here, both in the church and Sunday School, and spoke with deep regret of their departure from Summerland, to which Mr. Livingstone fittingly replied.

Following the program all joined in a rousing "Community sing" and enjoyed a pleasant social hour, during which refreshments were served by the members of the Ladies' Aid.

# REID FOUND GUILTY.

Jas. H. Reid was found guilty in County Court yesterday, on a charge of stealing a feed cooker and harness, the property of C. W. Lees. Judge Brown accepted the argument of the counsel for the accused of the lack of guilty intent on the part of Reid in disposing of other articles. A suspended sentence of six months imprisonment was given by the judge.

W. C. Kelloy was crown prosecutor, and K. M. Elliott appeared for the accused. Arrangements are being made, states Mr. Elliott, which will permit persons buying articles from Reid, to remain undisturbed in their possession.

Take a Chance! Take a Chance! Old Lady—"Horo, my little man, is a penny for you." Small Boy—"I'll match you, lady, whether yuh make it a nickle or keep it."

Overplayed. She—"But, dear, haven't we been engaged long enough to get married?" He—"Why, or—yes, dear. Too long. I haven't a cent left."

If you would have a faithful servant and one that you like, serve yourself.

Sweet pea seed grown on Vancouver Island, British Columbia, is rapidly replacing imported seed in Western Canada. There is also a big demand for the B. C. seed in England, where it sells as high as \$5 per pound. English gardeners say that the British Columbia sweet pea seed is the best that can be found and demand it every time in preference to that grown in other countries. The reason for the superiority is that it is hand-picked, great care being taken by the growers in seeing that it is uniform. The Vancouver Island pea seed farm now comprises 25 acres and this area is being increased from year to year as the demand grows.

# Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

A number of Peachland school children and some supporters, including Mr. Macmillan, teacher of the high school, journeyed to Kelowna last week, where some of the scholars joined in the School Track Meet.

We are unable to report any particular honors won for Peachland, although some of the contestants made a fairly good showing.

The McCall family motored to Summerland on Saturday, combining business with pleasure, and joining some friends in that vicinity for a little basket supper in the evening.

Mrs. Estabrook, of Summerland, is a short time guest at the Harrington home.

Mrs. Vivian left last weekend for Vancouver, where she goes as a delegate of the Peachland Women's Missionary Society at the Provincial Convention being held there.

Friends and acquaintances of Jos. Morsh will be pleased to note that "Joe" passed with second class honors in the second year Arts at the U. B. C. He is spending a vacation at his home here.

Rev. Isaac Page, of Penticton, motored up on Sunday to conduct the afternoon service in the Peachland Baptist Church. He was accompanied by several of his Penticton friends.

Mrs. Hohensee was a passenger north on Monday morning to spend a week in Vernon.

Mr. J. Wilson was an out of town visitor on Monday.

Mr. and Mrs. W. J. Todd and family, of Winnipeg, who recently purchased the property owned by Mr. Mangin, arrived here Monday evening to make this their home.

Mr. and Mrs. Coldham spent Tuesday in Kelowna.

Mr. and Mrs. Keyes motored to Penticton on Tuesday and took Mrs. McCall, Sr., with them for the outing.

Mrs. Etta Schultz of New York, her niece, Mrs. Chester Noyes and her son Clarence from Winnipeg are visiting in Peachland with Mr. Mills and his daughter Mrs. Hyde and family. Mrs. Schultz expects to remain for the summer anyway, perhaps longer, while Mrs. Noyes and little boy spend a few weeks here before going on to visit at Vancouver before returning to their home in Winnipeg.

KELOWNA - B.C.

Mrs. McHollister of Kelowna is a visitor in town this week with her parents, Mr. and Mrs. Winger, and the family.  
Mr. and Mrs. Jas. Shortreed returned to Peachland Thursday evening, and have taken up residence in the upper Crompton, cottage. At one time in the evening they began to think that portion of the neighborhood was haunted, for they heard the most disturbing sounds all around the place, but after their first scare and upon investigation it turned out just to be a bunch of Scout Cubs with several different kinds of tin instruments. A nice crisp bill, however, was enough to tempt them to cease their endeavors and take them back down the hill to continue their celebration at the Ice Cream Parlor. They were well pleased with their outing.

C. L. LOWE GOES WITH ENGLISH FIRM

Will Represent J. & H. Goodwin in Western Canada and States.

Vernon News - C. L. Lowe, who up to a few weeks ago was sales manager of the O. U. G., returned to the city this week from a business trip to the east. On his return, it was announced that he had been appointed manager of all business west of the Great Lakes and Mississippi River, for J. & H. Goodwin, Limited, one of the big United Kingdom fruit importing firms. This firm has branches scattered throughout the British Isles and has a number of offices in the eastern states.

Mr. Lowe expects to make his headquarters in Yakima, and will be leaving for there in a week or ten days but will return after school closes for Mrs. Lowe and family. "Charlie's" hundreds of Okanagan friends are extending to him their congratulations on receiving this appointment from such a well and favorably known importing organization.

G.N.R. MAY RUN THRU THE COQUIHALLA

Vice-President Jenks Will Inspect Line with Scheme in Mind.

Grand Forks Gazette. - News from usually well-informed circles is to the effect that the Great Northern railway are planning running a daily train from Spokane via Grand Forks, Oroville and the Coquihalla Pass to Vancouver. This would cut the running time between this section and the Coast by four or five hours, and would be expected to attract business which the Great Northern does not now receive.

A considerable portion of the tikegake between Princeton and Hope, now operated by the Kettle Valley line only, is owned by the Great Northern, which has its own line to Princeton and has its own running rights from Hope to Vancouver. The proposed new train would involve no new construction.

C. O. Jenks of St. Paul, vice-president of the Great Northern, accompanied by divisional officials, is expected to arrive here tomorrow on route over the line to consider the project.

Says the Oroville Gazette: Attention has been called a number of times to the nest of cabins just across the line on the British Columbia side where liquor was deposited to the thirsty traveller from the old side of the boundary. There were four of these shacks, always doing a thriving business. Three of them were bunched together and the fourth was down near the lake, where water was handy as a chaser. For the time being, at least, these resorts will no more figure as trouble makers as Wednesday night the three close together burned down. No one seems to know how the fire happened, but it is sufficient satisfaction to know that it did.

The good looking young fellow who has all the girls is usually paying 10 per cent. interest on money borrowed from the homely fellow.

SPORTS DAY ON JUNE FOURTH

Committees Now Busy on Full Program at Crescent Beach.

At a meeting of about twenty citizens in the G. W. V. A. club rooms on Monday night last, called to order by the G. W. V. A., it was decided that Summerland would again hold a sports day on the King's birthday, which this year will be celebrated on June 4th.

Ned Bentley was elected chairman and manager, and the following committees were named: Grounds - Vaughan, W. Snow, Blawett, Niabet, Baker, Newton, Jack McCallum, Jack Barkwill. Advertising - Huddleston, Crossley, Allen Harris, K. M. Elliott, Catering - Keith Elliott, T. A. Walden, Butler, Finance - A. B. Elliott, Brodie, Melvin, C. B. McCallum, Knowles, Winter, Sports and program - Scott, Windeler, Lippsett, Payne, Andrew, Hurrell, Koop, Creece, Nixon, MacDonald, Alex Smith, Bentley, C. E. Clay, Wm. Johnston.

It was decided that the entrance fees should be the same as last year, namely 25 cents a head, 50 cents for car tags, and children free.

The sports will be held at Crescent Beach and it is hoped that some aquatic events will be included in the program. It is expected that children's events will be held in the morning, and the open events, including any horse races, in the afternoon, followed by a baseball match. In this connection, an offer has come from Kelowna for a home and home game, played there on the 24th and here on the 4th. To see what can be done in this regard, a meeting of all interested in ball, both fans and players, is called for 8 o'clock on Monday next at the Premier Hotel. W. Johnston wants to see what can be done with baseball this year.

Meetings of all committees will be held this week, and the chairmen must meet at the G. W. V. A. next Monday night at 8 o'clock sharp. Any proceeds which may be left after expenses have been paid, including ground rent, will be turned over to the G. W. V. A. to help defray their extension work.

GETS FIRST ORDER FOR HOME POTTERY

Summerland Art League has received its first order for pottery. This is for ink wells of rustic design to be used by the C. P. R. mountain hotels. Specimens are now being prepared. Those will be made by pupils in the night school for pottery, conducted here by Miss Mary Young last season.

Next year the school will be equipped with a kiln and in addition to the elementary class there will be another for the more advanced work of glazing and firing. This kiln, which will cost about \$250, is being provided jointly by the Department of Education and the local school board, the idea being that the latter will be compensated as the sales are made.

It is probable that all orders will be handled by the Art League on a basis of 10 per cent, the individual the object of the organization to encourage cottage craft during the winter.

Miss Mary Young, instructor, is now at Danf and will teach pottery in the summer school for teachers at Victoria.

The formal opening for the season of the Art League building will be held on June 7th, when J. W. Jones, M. L. A., will give the opening address. It is hoped that John Kyle, Supervisor of Technical Education for the province, will also attend. There will be an exhibition of paintings, pottery and other local handicraft. These exhibitions may be left at either of the Drug stores.

In the dance of life the pipor gets up the entertainment for his own benefit.

YOU NEVER CAN TELL

Of the coming to that city of the University Players, the Kamloops Standard-Sentinel says:

"We seldom ever get any decent shows in Kamloops, is what one often hears in the street, with reference to dramatic fare. We have an Opera House, with never any opera in it, and it is true, rarely anything in drama or comedy, which calls for excitement.

On Monday, however, theatregoers and others will have a singular opportunity of hearing wonderful comedy, when the University of British Columbia Players present "You Never Can Tell" by G. Bernard Shaw.

It is OUR university and it is incumbent upon us to encourage the official dramatic club of this institution, especially when it offers such an outstandingly witty production as this Shavian play. There is not a dramatist in the world today who can command such audiences as Shaw. In Berlin, in Moscow, in Stockholm, in all the capitals, but London - save the mark! - Shaw vies in popularity with Shakespeare and Ibsen. Do we do well to treat him and his exponents casually?

The Players are a clever aggregation, and last year we rather ignored them. If they were hurt, their spokesman in Professor Wood was rather forgiving about it, although he DID think Kamloops might have done better.

Can we make up for this? Let us patronize OUR university's dramatic society; then, and at the same time enjoy a play of distinctive charm and cleverness, one which we can long remember, for its feast of pungent epigram and sheer wit and wholesome philosophy.

KEREMEOS TO BUILD STORAGE

(Continued from Page 2) storage, this at seven cents means \$8,500. This amount would probably more than give all the storage room required, and with the additional advantage of giving storage for many seasons to come, against the amount paid for one season only, and the same amount to be paid again next season.

This system would be absolutely fire proof as well as frost proof, especially after being concreted. This would do away with the cost of insurance. How taxes would affect it we cannot say, but from all reports the government would undoubtedly find a way to tax a hole in the ground, if there was revenue in sight. The present B.C. Growers building which it is understood has been taken over has been proven not frost proof and fires will be necessary, just as soon as you apply artificial heat you get shrinkage and depreciation of the fruit.

There is the further consideration of having ample room to store all fruit before the danger of frost. One does not need to be a very old timer to remember the year we were caught here, and when Wanchee had thousands of boxes frozen in the fields and on outside platforms through not having sufficient storage room. We should let that one experience be enough without having to go through it again before we learn. With ample storage there will be no need for the mad rush in packing we have every year, with the consequent loss from bad packing.

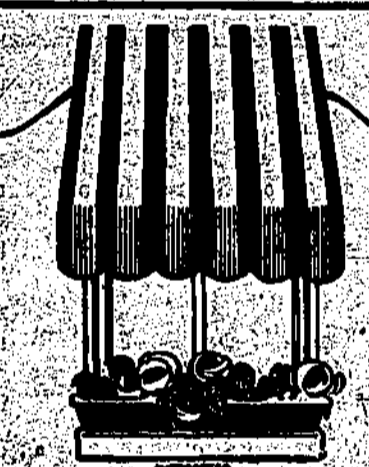

Taking it altogether our directors have their work cut out for themselves, and will have to make up their minds that much of their time must be sacrificed for the good of the whole, and possibly without the appreciation from the growers that they should receive. It will be up to the growers to assist them in every way and avoid criticism, except where given in the right spirit, and with a view to helping. Remember that your directors are giving up their time, and its going to require a lot of it, along with much good hard brain work to make the thing go. Its one of the biggest things in B. C. if not in Canada, and its the biggest thing on earth to you and me, Mr. Grower, and we have got to make it go.

DOUGLAS HOME A TOTAL LOSS

(Continued from Page 1)

front of the house. She was able only to get a couple of articles of furniture out when access was cut off there. When Mr. Douglas got there it was impossible to get in at any of the doors or windows, the fire had gained so rapidly. About that time the crowd began to arrive in cars and trucks, and all got busy to save the other buildings which were close to the house. It was with some difficulty these were kept from burning. There was a good supply of irrigation water handy which aided in preventing the other buildings from getting alight, and also in subduing the flames of the house. Mr. Douglas had recently allowed his insurance policy on the house to lapse and was without insurance on either the house or the effects; practically a total loss. The sympathy of the community is being expressed freely over their loss, not only financial, but the loss of savings and keepsakes of years, which money does not repay. The loss is estimated at anywhere between three thousand five hundred and five thousand dollars. Mr. Douglas stated that his library alone was worth five hundred dollars, and there was a piano among the ruins. Friends came to the aid and are doing all they can to make the family comfortable in the meantime.

The cost of the cigarette in actual money is not as stupendous as its cost in the physical energy it saps.

AWNINGS for Windows Doors and Porches

If you would be cool during the summer heat, repose in the cool shadow of our Awnings.

Let us measure your windows and porches now for a complete outfitting of Awnings.

Many weights of canvass and a wide selection of colors. All modestly priced.

## "PIRATES" WAS EXCEEDINGLY WELL STAGED

**Kelowna Theatrical Society Delights Large Audience Here.**

"Delightful, and far beyond our expectations," was the general consensus of opinion of the capacity audience which greeted the Kelowna Theatrical Society at the Empire Hall, Summerland, on Thursday evening last. The vehicle through which they leaped into popularity at the initial essay in Summerland was the evergreen opera by that immortal duo, Gilbert and Sullivan, "The Pirates of Penzance," and briefly summed up it must be written that the Kelowna Theatrical Society surely lived up to and beyond advance notices.

Although there were counter attractions during the week the seating capacity was taxed to the limit and those who attended were rewarded. It is to be sincerely hoped that in the future this organization of talented Okanagan ladies and gentlemen will include Summerland in its regular itinerary, and the splendid attendance on the part of the theatre-going public on Thursday should go far towards that decision.

Credit for the great success goes unstintingly to Mr. A. L. Soames, who for several years has directed the destinies of the Kelowna Theatrical Society. Mr. Soames is eminently fitted for the capacity of director and stage manager, for the grand ensemble of "The Pirates of Penzance" revealed at once the finesse and technique of a mastermind. The basic essentials for the success of such an undertaking were there in their entirety, and one could hardly realize that the clever aggregation were ordinary every day mortals who had found place in the cast for art's sake alone.

Mr. Soames was ably supported by the Kelowna Philharmonic Society's orchestra, and their faultless rendition of the difficult musical score under the baton of Director J. Borchtwick was an outstanding feature. The orchestra consisted of twenty instrumentalists, with Mrs. A. J. Pritchard, L. R. A. M., at the piano.

Considerable study had evidently been given to the stage setting, and when the curtain was withdrawn for the first act a spontaneous burst of applause emanated from the audience. It revealed a rocky, trysting Pirates.

(Continued from Page 1)

## PUTS WHOLE DISTRICT IN DARKNESS

**Failing to Make Corner Motorist Smashes Light Pole—Escapes Injury.**

About 10.30 Saturday night, Summerland was thrown into darkness by the sudden interruption of the electric light service. The break occurred during the time of interval just preceding the last act in "You Never Can Tell," being played in the Empire Hall by the University Players. For a moment the large audience in the hall attributed it to the blowing out of a fuse in the building while the scenery was being changed on the stage. A few nervous ones got up and went out but there was absolutely no confusion, and candles and lanterns were brought into service and the Players prepared to put on the final act, which was to be a moonlight scene. Just as the curtain was being raised, the lights flashed on again.

The cause of the break in the service was a motor car accident at Patterson's corner, a few yards north of the Stout packing house, in which Ted Logie had a narrow escape from serious injury. Logie was approaching town from the west and failing to make the turn, crashed into a guy post supporting the guy wire which ran from the fence line across the street to an electric light

## ACCIDENT AVERTED

Naramata.—Douglas Amaron had a narrow escape from drowning on Tuesday afternoon, when a raft on which he was disporting himself, went out with the current, and he found himself unable to get back. Mrs. Amaron fortunately became aware of his danger, and immediately plunged into the water, wading until out of her depth, and then swimming with the aid of a plank she had seized. When she reached the boy he had slipped off the raft and was clinging to one end. Meantime, Mrs. Routh and two friends, who were on the verandah of the Routh residence, had put off in a boat, and rowed to the rescue, taking young Amaron on board and assisting Mrs. Amaron in the return to shore.

Mr. and Mrs. J. K. Bruce, of Winnipeg, spent the weekend at the Syndica Hotel.

## NINE-CENT PRICE ON WALLA-WALLA CHERRIES

Walla Walla, Wash.—Two hundred tons, or 85% of the Royal Anne cherry crop of the Milton-Free-water district of this valley have been contracted at nine cents to the Oregon Packing Company, according to the announcement by a grower's concern in that vicinity. Last year the grower received only six cents for these cherries. The crop is the heaviest this year of any in history.

## LOSES LIFE IN ACCIDENT AT KEREMEOS

**Strange Collision on G. N. R. Near Keremecos Was Bad Smash-up.**

Joe Beck, head brakeman on the Oroville-Princeton branch of the Great Northern was scalded to death by escaping steam on Wednesday of last week, when the regular tri-weekly G. N. train from Oroville to Princeton collided with five flat cars standing on the main track two miles west of Keremecos.

The Princeton Star gives the following account of the accident: "For some weeks past the railway company have been rip-rapping the river bank at various places along the line as a preventative against damage during the coming flood waters. The custom is to load a number of flat cars at some convenient point along the line. The loaded cars are brought down on the east-bound train; left where required; unloaded by the section crews and the empty cars taken back to the loading point by the next westbound train.

Last Monday's train took down the last load required this season. They were left at the point where the river cut into the bank about two miles west of Keremecos. Tuesday they were unloaded in readiness to be picked up by Wednesday's westbound train.

How the smash occurred is difficult to understand. The engineer had his orders to pick up the cars at the specified point and the brakeman was sent forward when the train pulled out of Keremecos to be ready to make the necessary coupling. For a mile and a half, or more, the track west of Keremecos is perfectly straight followed by a very slight concave curve, permitting the flat cars to be seen a long distance ahead.

Apparently the speed of the train had not been checked when the impact came. The nearest flat car was raised and crashed through the locomotive for a distance of about six feet, driving back the steam pipes and causing an escape of steam through the fire box. Although the brakes were set on the flat cars three of them were forced back by the impact.

The post was struck with such force as to shatter it, resulting in a short circuiting of the wires, and this threw out the breaker switch at the transforming station at Princeton, and it was there that the service was again connected. Just as the car, which Logie was driving, struck the pole, it also skidded into the ditch, the impact and the skidding resulting in considerable damage to the car, though the driver escaped practically unhurt.

## BEEKEEPERS URGED TO CO-OPERATE

**Wide Variation in the Prices Quoted for Honey by Producers.**

Sounding a note of warning to beekeepers in the Summerland district, on Friday night Mr. Geo. Weaver told his hearers at the Agricultural Society's meeting at the Parish Hall that unless there was co-operation amongst them in marketing their honey, there would be nothing in it financially for them. He cited instances which had come to his knowledge of local people who had four or five hives, running around and trying to dispose of their honey locally at about 15 cents per pound, and this at a time when the retail market price was around 30 cents. He urged immediate action on the part of all beekeepers to consolidate so that in future the product of the hives could be shipped in bulk and the best prevailing prices obtained. "It was an unbusinesslike mistake for people who had only about five or six hives to surrender their honey at a sacrifice simply because the bees were a side line with them and the upkeep practically negligible.

There was a steady and increasing demand for properly ripened honey, he said, in the large centers. He himself last year netted 20 cents a pound by shipping his honey in bulk, and so as to protect the local retailer he had not sold a pound locally under 25 cents, which was a fair price. He wondered what kind of a dairyman he would be who would sell his butter around 30 cents when 40 cents was the market price. He hoped to see immediate action taken in the matter.

Mr. Weaver spoke for nearly an hour on the subject of bee-keeping, from the installation of the apiary, until the marketing stage was reached, his discourse being listened to with great attention by the beekeepers of the district and others present.

He said in part that the modern experience was that small hives were no use, chiefly because they were not large enough to hold the necessary winter food. However, the loss in the Okanagan in that regard had been small. The ordinary ten frame standard hive was not large enough. The queen bee needed a range of

## TO LECTURE HERE NEXT WEDNESDAY

An interesting tour of British Columbia is being carried out by Mrs. W. D. Todd, secretary of the Vancouver Island Board of Directors of the Women's Institutes of B. C., under the auspices of the Department of Agriculture and the B. C. Products Bureau of the Vancouver Board of Trade.

Her itinerary will include the 105 B. C. Women's Institutes, which have a membership of over 5,000, and which are located in every part of the province.

Her program includes an interesting address covering the Industries of British Columbia, and a model meeting setting out the advantages to be gained by patronizing the products of those industries.

Mrs. Todd left Vancouver on May 20th for the Okanagan Valley, where she will conduct thirty meetings, including Summerland, West Summerland and Naramata. She will conclude her tour at Princeton on June 9th.

Those attending these meetings are expressing the hope that those in the cities will do their part in helping to build up the rural communities by patronizing the products of the country.

Mrs. Todd also entertains her audience with several delightful vocal selections.

## Naramata's May Queen

Miss Florence Lyons was crowned Queen of the May at the Naramata May Day festivities on Saturday.

## CORONATION NARAMATA'S MAY QUEEN

**Delightful Community Function Staged for First Time.**

**FLORENCE LYONS A BEAUTIFUL QUEEN**

**Ambitious Program Launched by Women's Institute—Complete Success.**

Although "no lark could pipe to skies so dull and grey" as those which hung over the Valley on Saturday, the May Day festivities scheduled at Naramata for that day were carried through successfully, and brought a large gathering of interested spectators, including many who came from Summerland by special ferry. The program was necessarily somewhat hindered by showers of rain which came at intervals, but fortunately there were enough fine spells to allow of the leading events being staged as arranged, and the competitors in the various sports which followed did not allow a little rain to damp their ardor. The proceedings opened with a procession of decorated cars and other vehicles, headed by a float bearing the May Queen (Florence Lyons) and her attendants (Rhoda Cargill, Dora Cross, Ellen Horswill and Lola Walters), and followed by several riders of saddle horses, also gaily bedecked. On their arrival, an interesting address was given by the president of the Women's Institute, Mrs. M. Robinson, and replied to by Mr. J. M. Robinson, after which "O Canada" was sung, and "Welcome, Sweet Spring-time" was rendered by the Community Singers, and the school children marched on to the ground, followed by the Girl Guides and Boy Scouts in double column. These formed a guard of honor to the May Queen, seated on her throne, and receiving homage from various contingents of school children bearing wreaths of flowers, and singing songs of praise. The Maypole Dance followed, amid much applause, and adjournment made to the sports arena, where some twenty or more events were held. Later in the afternoon, lunch was served in the schoolrooms, by members of the Institute, after which the Queen of festivities presented prizes to winners of the various contests, and the day ended with the singing of the National Anthem.

## BASEBALL CLUB RE-ORGANIZED

Summerland's baseball club was re-organized Monday night at an enthusiastic meeting held at the Premier Hotel. Following are the officers elected: president, A. B. Elliott; secretary-treasurer, Keith Elliott; vice-president, C. E. McCutcheon; manager, W. Johnston. Frank Stewart was named the mascot. A practice game was held on Tuesday afternoon. It is the intention of the club to enter a team in the sports at Kelowna on the 24th, and they have been promised a return engagement here on June 4th.

On Tuesday afternoon, Warren Gayton was elected captain by the team.

## OIL WRAPS HELP IN RETURNS

Wenatchee, May 22.—Extremely good returns are being received by the American Fruit Growers in Wenatchee packed in oil wraps and kept in cold storage. This is the first extensive test that has been made here with a large quantity of apples wrapped in this manner and the results seem to more than justify the expense and trouble. One carload of extra fancy Winesaps sold at auction in New York for an average of \$3.73 for all sizes, which equals \$2.73 here. Other cars sold at slightly lower prices, but all were enough above the ruling returns for unwrapped fruit to demonstrate the efficiency of the oil wraps when properly used on good fruit kept in cold storage until the correct time.

A man is always disgusted with the man he can't convince.

## FERTILIZERS AND SOIL CULTIVATION

**Much Money Wasted by Blind Use of Compound Fertilizers.**

"Soils and Fertility" was the subject of an interesting discourse given at the Agricultural Society's meeting at the Parish Hall on Friday. The lecture, which was enhanced by the projection of some stereoptical views, was given by Mr. B. Robinson, instructor of Agriculture at the Summerland School. Mr. C. J. Huddleston occupied the chair. Mr. Robinson prefaced his remarks with an anecdote. He related how an old dorkie in one of the southern states had had one of his offspring christened. The father's name was Ferdie and the mother's name was Liza, so out of their own abbreviated name they had attached to the surname of their dusky bairn the euphonious baptismal one of "Ferti-lizer."

The speaker said that the subject of soil fertility was a rather complex one to handle in a limited time, as it embraced anything that constituted food for plant life, and he therefore dealt with the best methods of applying artificial fertility where it was found to be needed.

He said that iron was a requisite in all soils and in some countries this was added artificially. Canadian soils, however, were usually generously supplied by Nature. He related how in Amherst, Nova Scotia, an old farmer's wife had driven nails into a pear tree, as she had been told that the tree was perishing for the lack of iron. There was a local story to the effect that a nail was imbedded in all the fruit from that tree annually.

He emphasized the fact that it was a waste of money purchasing fertilizers with compound constituents when one of the elements alone was required by the soil. Nitrogen, potash or phosphorus might all be required, but there was always the probability that either one of them would suffice. He instanced the case of a farmer he knew who had expended \$700 on a combination fertilizer, when \$125 would have purchased the essential one required. To demonstrate that fertility did not depend upon a combination of three or more he exhibited a slide of a large corn field showing various degrees of growth. That part of the field that had been treated with phosphorus alone had flourished, but that

## BENMORE RETURNING

Geo. C. Benmore will be the Summerland manager this season for the Occidental Fruit Co., Ltd. This company has leased the T. B. Young building formerly occupied by R. Pollock. For the past two years Mr. Benmore has operated the main packing house of the Occidental at Kelowna and has been connected with the fruit business in the Valley for the past fifteen years. Many of our readers will recall his being Summerland's manager for Stirling and Pitcairn in 1910. A number of our citizens had the opportunity of renewing acquaintance with Mr. Benmore when he visited Summerland as a member of the Kelowna Theatrical Society, when he appeared in the role of Major-General Stanley, in "The Pirates of Penzance."

## AEROPLANE DESCENDS IN TOWN OF OLIVER

The wreck on the Great Northern Railway, as reported in another column, was responsible for the town of Oliver receiving a surprise visit from an aeroplane. It appears the machine was secured at Wenatchee for the purpose of rushing a doctor to Hedley, but the pilot of the machine is stated to have mistaken the Okanagan Valley for the Similkameen. When the mistake was discovered a car was at once commandeered and the medico proceeded with all haste to Hedley.

## SUMMERLAND POULTRYMEN IN SESSION

**New Law Tends to Enforce Co-operative Marketing of Eggs.**

That the branch of the B. C. Poultrymen's Exchange soon to open at Vernon offers to Okanagan Poultrymen the only safe and permanent outlet for their products was convincingly shown by Mr. Fairley, an official of the Provincial Government, in a most interesting talk on poultry subjects at St. Andrew's Hall, West Summerland, on Wednesday, 9th inst, which was briefly reported in our last issue.

Though the 57 members of the local association received individual notice of the meeting, no more than a dozen appeared in reply. It was therefore impossible to arrive at any decision as to the action of the Association in regard to the contracts offered by the Exchange for the signature of egg-producers.

## UNIVERSITY PLAYERS SHOW MUCH TALENT

Large Audience Greatly Enjoys Shaw's "You Never Can Tell."

Summerland greeted the University Players last Saturday evening with the largest audience the troupe had met since it started on its tour of the interior. The enlarged Empire Hall was almost filled to capacity and the play, "You Never Can Tell," by G. Bernard Shaw, as given by the Players, was greatly enjoyed. This is the first appearance of the University Players on a Summerland stage and such was their welcome here that we feel sure the Players Club will in future include Summerland in their itinerary. The public are indebted to No. 1 Troop, Summerland Boy Scouts, for their undertaking in bringing the Players to Summerland.

By the method employed in selecting the caste for each spring performance, only the most talented among the many applicants from among the students succeed in being accepted as members of the Players' Club, and the manner in which each performed his or her part, proved the latent talent of each member.

Beth McLennan, as Dolly, and Fraser Lister, as Phil, "barbarian children with unimproved minds," were models of present day youthfulness in their self confidence, frankness and absolute disregard of the conventions. Perhaps the fact that Fraser was a former Summerland boy added to the interest manifested in the pranks of these two simple young people.

Miss Betty Somerset filled the more difficult role of the complex character of Gloria with the grace of a professional. Miss Beatrice F. Johnson, as "An Advanced Woman," carried through her part with the ease and a confidence which made her appear quite at home.

The difficult part of Valentine, the dentist, one of Shaw's peculiar creations, was very cleverly interpreted by Jack Clynne. The role of the philosophical William, the waiter, a remarkable person in his way, called for exceptional ability and was well taken by Neil McCallum. C. Y. Robson was truly hateful, as he was required to be, in the part of Crampton. Possibly not so well taken were the roles of the solicitor and the K. C., viz., Peter Palmer and E. R. Chamberlain respectively.

(Continued on Page 5)

## EXCEPTIONALLY HEAVY CROP IS PREDICTED

**Reports From Nearly All Sections Tell of Heavy Setting.**

District No. 3.—Okanagan. Below is the third news letter on fruit prospects and orchard conditions issued from the office of the district horticulturist, W. T. Hunter.

Vernon.—The weather remains cool and bright and all fruits are reported to have set well. The bloom is about finished and Calyx sprays are being applied to the apples.

From all reports received, Summer apples are lighter than last year, and while Wenatchee are heavier than 1922, the average for Fall apples, which include McIntosh, will be about the same as last season. Winter apples are reported to be much heavier. On the whole, an increase of tonnage can be expected of about fifteen per cent. in the Vernon district.

Kelowna.—Present indications are that there will be an increase in the apple tonnage this year. Waggoners, Jonathans, Rome Beauties and Spies are reported to be heavier than last year. McIntosh are somewhat lighter, and Delicious a good crop. Other varieties average good.

(Continued on Page 3)

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED  
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

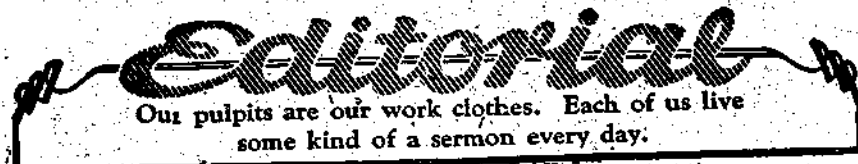

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, May 24, 1923

## SIZE MEANS MUCH.

Size in peaches and other fruits is one of the chief aims of the good grower. Probably there are few who fully appreciate the importance of growing fruit of good size, rather than a greater number of fruits to the tree, of lesser size. The importance of striving for the larger sizes is strikingly emphasized in a bulletin issued last December by the Southern California Canners Bureau to the growers of their territory. The object of the bulletin is to improve the size and quality of the canning fruits.

In this bulletin it is pointed out that one 2 1/2 inch peach is the equal in weight of two 2 inch peaches. Further, because of its smaller size, the 2 inch peach brings only half the price per ton of the larger peach. "Therefore, one 2 1/2 inch peach is more valuable to a grower than four 2 inch peaches." Of course, everyone will realize that there is much less demand on the vitality of the tree in the production of the one large peach than in growing four of the smaller kind.

## CANNING FRUITS.

Frequent are the complaints of the prevalence in this province of California canned fruits. But a casual glance over the bulletin referred to above, would suggest that size and general attractiveness are among the first reasons why the California article is in demand, though it is generally admitted that in flavor, it has nothing over the products of our home canneries.

For this year the southern canneries have established a size of two and three eighths inches as the minimum for No. 1 canning peaches. "No. 2 canning peaches shall not be less than 2 1/8 inches in diameter and shall be paid for at half the price of No. 1 peaches. The maximum quantity of No. 2 peaches to be accepted from the grower shall be 10 per cent. of the total tonnage delivered by said grower. Apricots for canning purposes will not be accepted at a size smaller than 1 1/4 to the pound."

Further evidence that only the best is acceptable to the canneries is contained in the following regulation: "All canning peaches and apricots shall be of good merchantable canning quality, ripe but firm, and free from worms, split pits, scale, fungus, scab, sunburn, bruises or other imperfections."

We are indebted to Mr. S. B. Snider for the above information, which we have gleaned from a copy of the bulletin loaned by him.

## ORGANIZED SPORTS.

Lack of organization and the incentive which it gives is perhaps one reason why our young people are not more active in sports. The Okanagan is to be given an opportunity within a few days, to hear something on this subject when Dr. J. G. Davidson, of the Department of Physics in the University and president of the British Columbia branch of the Amateur Athletic Union, will spend a few days in the Valley. He will also visit several Kootenay centers.

His coming is the result of many inquiries received by him from different points in the Okanagan and interior, asking what procedure is necessary to organize local boards. It is expected that Dr. Davidson will be in the Valley next week and we would suggest that he be communicated with immediately at 2218 St. George St., Vancouver, with the request that he visit Summerland for the purpose of putting our several local sporting organizations on a better footing and informing them on the subject of lining up with the Amateur Athletic Union.

The course of true love leads directly to the foot of a steep hill called matrimony.

It is said that a Russian prince wants to marry an American girl because of her beautiful voice. If the marriage culminates, it will be the first time on record that a member of the European nobility has swapped his title for a song.

A dispatch from London says that the lino-scope has been so perfected that the inventor has been able to see more than 900 miles. Pretty soon the lonely wife at home can have one of these machines installed in the house and see what hubby is doing on his vacation.

Healthy people are usually the happiest—and happy people usually healthy. The moral is significant.

## GROUP MARKETING OF EGGS.

In June a trial shipment of eggs will be sent to the United Kingdom. Britain annually buys some \$55,000,000 worth of eggs, many of them from China. Since the B. C. egg has the highest nutritive value by actual test of any egg in the world, only falling below the Danish egg in point of shell thickness, a market should be created in Europe that will tax the B. C. poultryman even at a maximum production.

If in four years the poultrymen of this sparsely-settled province by applying the economic principle of group marketing at point of consumption as against individual marketing at point of production, can build up the greatest industry of its kind in the world, any similar organization dealing with any product along similar economic principles can expect similar success.

Co-operative marketing creates stability instead of monopolies. It assures fair prices for consumers and producers. It is the biggest idea that has come into agriculture in the last 500 years.—Vanvouver Sun.

## OKANAGAN THE MAGIC NAME.

If there is a district on earth whose name conveys so much of magic beauty, so much of magic wealth and real worth as the name Okanagan we do not know where it is. Admitting that our knowledge is not all-inclusive; in fact, that it may be rather restricted, yet, will somebody who knows more, name a district which can boast of greater potential wealth or greater beauty of lake, river, meadow and mountain and tell us where it is?

By the same token, let no one run away with the idea that the Okanagan has arrived, or that the Okanagan we have known and know today is the Okanagan of the future, toward which the hand of fortune is directing us. We believe the Okanagan we have known and know today is only a semblance of the Okanagan twenty years hence. There is, however, one feature of the Okanagan today that will not be improved upon nor made more splendid, and that is our lake, river and mountain scenery and that homeland atmosphere that pervades every locality and impresses itself upon the mind and conscience of the great majority of people who visit the Valley or those who come to make their home here.

And the man and medium through whom and which the people of the Okanagan are going to "come into their own" and reach their best, is, we believe, none other than Archie M. Pratt, a Californian, recently made general manager of the Associated Growers of British Columbia at a salary of \$15,000 a year.

The big thought expressed by Mr. Pratt in his first word to the people of the Okanagan was to be found in these words, "The buyer is just as important as the producer, and we must help the buyers to earn more money, then they can pay us more for our fruit."

With this thought underlying the new co-operative organization, it cannot fail. And this organization with Archie Pratt at the helm is going to do the trick.—Okanagan Commoner.

## CAR ROLLS OVER GULCH

While going up the gulch road and attempting to pass a large truck, V. J. Bernard had the unpleasant experience of rolling down into the gulch at the side of the road near the foot of the horsehoe. The earth gave way under his outer wheels. He was going slowly at the time or the results might have been more serious. Very little damage was done, only the bows on the top being slightly bent and twigs puncturing the top in one or two places. The truck driver, noticing his efforts to pass, had swung quickly, throwing the projecting rear of the truck body around so that Mr. Bernard had to swing out further to avoid it.

## CARD OF THANKS

The sons and daughters of the late W. H. Snow wish to convey their thanks to their friends for the great kindness shown them during their late bereavement. 798

The person who marries for money doesn't demand very much.

## AN APPRECIATION

The Naramata Women's Institute desire to express their thanks in this way to all those who helped them in making the May Day a success. To Mr. Smith, Sr., and Mr. Cook, who so ably assisted the committees, they are especially indebted. Others whose time and work are deeply appreciated are: Mr. Frank Rounds, Mr. Victor DeBeck, Mr. Earl Hughes, Mr. Ira Hughes and the Boy Scouts. Those making cash contributions were: The Farmers' Institute, Mr. Fisher, Mr. Morley, Grand Forks Garage and Pentleton Tire Hospital.

A special vote of thanks is due Baby Iverson and his gallant white horses (Ralph Symons, Howard Symons and Lloyd Iverson) for their clever and original equipage in the parade. Another vehicle which was a distinctly interesting feature of the parade was that of Mr. Duncan Munroe, who truly represented the people of Naramata in a specially well-chosen decorated vehicle. THE EXECUTIVE.

When the devil goes to church he doesn't always take a back seat.

## Coming Events

Notices under this heading are inserted at 3 cents a word. Each repeat, 2 cents a word; minimum charge, 50 cents. Contract rates on application.

The Summerland Parent-Teachers' Association will meet in the Central school, Friday, May 25th, 8 o'clock. Peachland senior grades will give a demonstration in part singing. The cent collection. 798C

Under the auspices of the Women's Institutes, Mrs. W. D. Todd, Victoria, will address a public meeting in Parish Hall, 8 p.m. on Wednesday, May 30th. Everybody welcome. 798C

## THE WOMEN'S INSTITUTES

Summerland Women's Institute held their regular monthly meeting on Friday 18th, in the Parlor of the Methodist Church, when much business was disposed of.

It was decided to help the school tennis courts by providing the necessary tapes, etc.

Ways and means were discussed whereby the necessary funds would be available for getting the children's playground completed, so on June 2nd we plan on having a sale of home cooking.

The members are looking forward to Mrs. Todd's visit to Summerland on May 30th, when she will give an address in Institute work and methods.—Cont.

The West Summerland Women's Institute met on Friday, May 11th, in the Parish Hall.

The committee reported that the tennis net had been presented to the School on behalf of the Institute. It was announced that the Model Institute meeting which will be conducted by Mrs. Todd, of Victoria, will be held in the Parish Hall on Wednesday evening, May 30th, and everyone is cordially invited to be present.

It was arranged that a sale of home cooking and garden produce will be held at the next regular meeting, and each member is requested to bring something for the sale.

The conference which was to have been held the middle of June, has been postponed until the Fall, the dates to be arranged later.

Miss Cartwright gave a report on Immigration, after which the meeting adjourned, and was followed by tea.—Cont.

## TIMBER SALE X5128.

Sealed tenders will be received by the Minister of Lands, at Victoria, not later than noon on the 25th day of May, 1923, for the purchase of Licence X5128, to cut 278,040 feet of Yellow Pine and Douglas Fir on Lot 3713, Osoyoos Land District.

One (1) year will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Vernon, B.C. 798

Record Mileage—Faultless Anti-skid

# Lubrication—OR—"Just Oil."

Lubrication, although the least expensive, is the most important item of motor car expense.

Gasoline makes your car run—that's true. But lubrication determines how long and how well it runs. On lubrication largely depend engine power and gasoline mileage. And most important, the frequency and size of your repair bills.

Lubricating oil is the one accessory you dare not buy in a hit or miss fashion. One repair bill may easily be many times your cost of lubricating oil for a year.

SUNOCO OIL is a real lubricator—does not carbonize nor injure your bearings, as do the inferior oils. We have SUNOCO of the right body for your car.

**The Real Test**—Is it not to deal thy bread to the hungry, and that thou bring the poor that are cast out to thy house? when thou seest the naked, that thou cover him; and that thou hide not thyself from thine own flesh?—Isaiah 58:7.

**Seek Today**—Seek ye the Lord while he may be found, call ye upon him while he is near.—Isaiah 55: 6.

A man may travel far on a train of thought and still not be there.

**Ain't It the Truth.**  
Paris dispatches say the new styles are copied from clothes worn 3000 years ago.  
That's nothing—some of our recent styles go back to the Garden of Eden.

**P. Prune, the Prof.**  
He came out of his house saying: "Dern it, I've forgotten my watch," then taking out his watch and looking at it, "and I haven't got time to go back and get it."

## EXCEPTIONALLY HEAVY CROP IS PREDICTED

(Continued from Page 1)  
Summerland.—The past week has been somewhat cooler with showers, making ideal weather for field vegetable transplanting.

Apples and pears are past their full bloom and seem to have set well. No blossom blight has been reported. Summerland, Peachland and Westbank promise an exceptionally heavy crop of apples.

Calyx spraying time is at hand, twelve days earlier than last year.

Penticton and Keremeos.—A considerable amount of rain has fallen during the past week, cooling off the atmosphere and adding much needed moisture. There has been no frost in the past week.

The bloom was unusually short this year. The set appears to be very good, and everything points towards Penticton district harvesting the largest fruit crop in its history. Growers are irrigating. Cover crops are in good condition.

**General Crop Conditions in the Okanagan Valley.**

While crop estimates at this period are never accurate, much effort is being put forth by all concerned, towards forecasting the probable tonnage of the Okanagan District for 1923. Probably one guess is as good as another, but taking the consensus of opinion throughout the entire Valley, there appears to be at this moment a very strong feeling that the 1923 crop will exceed all previous records. 1922 was supposed to be an off year in the Okanagan Valley, but we find that this district actually produced 35,000 more boxes of apples in 1922 than in 1921. These figures, of course, include the tonnage which was diverted to by-products plants, 1919 and 1921 were our big crop years and in the regular course of events 1923 should be another bumper year, and from all indications at the present moment such a year can be expected.

Keremeos is the only district which shows a decided falling-off in the amount of bloom in apples and while Vernon gives promise of a slight in-

## BEEKEEPERS URGED TO CO-OPERATE

(Continued from Page 1)

storeys, and in this connection he pointed out that 20-frame hives were more expeditiously handled by the keeper, because it did away with the labor entailed of lifting off the top brooder. This had to be done every eight days, so that it could be seen if the bees were swarming.

It was the natural instinct of the bees to work upwards, and it was nearly always found upon inspection that the bottom storey was untenanted. Many a bee-keeper imagined that he had a full hive until when proceeding to extract the honey at the proper drawing time he found that the bottom storey was empty, and therefore it was a great disappointment to the bee-keeper.

Bees hated to deposit honey on the bottom storey. The large hive prevented swarming, and it was much easier to look over to see what's doing.

He advocated three storeys if the modern hives were used; as this would give the bees the necessary brooders in which to do their house-keeping. With regard to the structure of the hive he had experimented with a new departure. Realizing that the bees worked upwards it followed that they would also work to the right and left, and he had constructed some hives with extension or added brooders at the sides with which he had met great success. He did not take credit to himself for originating this innovation, for it had been previously introduced by an old man named Potten.

The bees were capable of giving birth to their own queen, all the workers depositing what was known as royal larvae in the royal cell, and their queen was nursed and cherished until it had reached maturity, when it took command. In speaking of the habits of the bees he said they were great thieves, and that

(Continued on Page 4)

crease over last year, of approximately ten per cent., Kelowna will probably run twenty-five per cent. higher, while from Kelowna south through Westbank and Penticton, the increase over last year will be very considerable.

At the present moment a good guess for the entire district would be an increase in apples of 20 to 25 per cent. at the very least over the crop of 1922. The Weekly News letter of June the 1st will deal largely with the Cherry, Apricot and Peach crop, at which time this crop will be in a position to properly estimate.

**District No. 4.—Kootenay and Boundary Districts.**

Pears, Crabs, Plums, Sour Cherries and most all varieties of apples are in full bloom. Owing to the cool weather the blossoming period is going to extend over a rather long time in most sections in the Kootenay district.

Growers have completed their pink spray for Apple Scab control. Many have used arsenate of lead with their lime sulphur for tent caterpillars, green fruitworms, etc. In this spray, the tent caterpillars being extremely bad in the orchards of the district and on the bushes near by.

McIntosh, Jonathan and Rome Beauty generally speaking are going to be a heavy crop, if the bloom is any indication. Wagoners are not showing up so well this year, and trees that produced a heavy crop last year are off. Spies will be light in many orchards, also Baldwin, Ontario, Spitz, Cox's Orange and Yellow Newton showing about an average crop. Wealthy are irregular and taking the district as a whole the showing is not as good as last year. Gravenstein in the Kaslo district are showing a heavy bloom, other sections not quite as good as last year.

Many varieties of pears are showing a very heavy bloom and the crop should be larger than last year. Crabs and Plums, also Sour Cherries have an average showing of bloom or about the same as last year.

Creston.—The weather was much cooler with showers the latter end of week ending May 12th.

Cherry bloom is over. Early and Fall apples are in full bloom. Pear petals are beginning to fall. Strawberries are just coming into bloom. Plants are looking strong and healthy where irrigated. Blossom buds of raspberries are showing. Young plants are strong and growing vigorously. On unirrigated patches canes are short and backward.

Spraying was in full swing until the weather changed the middle of the week.

The Bud Moth is not so prevalent this year where growers used arsenical sprays in their spraying applications last year.

## PROPER WAY TO OPEN ANY CANNED GOODS

Did you ever try to open a can of food? Did you punch a hole in the top of the can and wiggle the can opener around, leaving a jagged edge like a buzzsaw? Did you cut your hand and loose your temper over the poor inoffensive can?

If so, you will be interested to know, once and for all, that there is no need for all this extra effort and annoyance.

Just remove the label from the side of the can, until you can see the seam, which was made in forming the body of the can.

Lay the can on its side and puncture the can next to the seam with the point of the can-opener, and next to the top of the can. Then set the can in an upright position, insert the can-opener in the hole already made on the "side" of the can—working away from the seam until you have cut around the can.

You will then be able to turn back the entire top (or bottom). If the can be held firmly, any ordinary can-opener will answer. By this method there is no risk of cutting the hand and you will have a smooth edge, over which the entire contents will pass without being cut or broken.

The reason it is so easy for a woman to manage a man is that after centuries of futile resistance he has come to the conclusion that it is easier to let her have her own way and be done with it.

A Colorado man left \$50,000 to a girl who refused to marry him. Such extreme examples of appreciation of a kind act are what lead us to have spells when we think the world is getting better.

## A Girl's Face Is Her Fortune

Palm and olive oils—nothing else give nature's green color to Palmolive Soap.

Because it is the greatest of all womanly charms, a skin which is fresh, smooth, and alluring with the radiance of health, predicts a happy future.

Don't be content to have a lifeless, sallow and blemished complexion—begin at once to remedy these defects.

Every girl can have a beautiful attractive skin if she will only learn to give it proper care.

Thorough cleansing with a fine mild soap once a day, is the secret. Cold cream is beneficial when applied to a clean skin, and rouge and powder are harmless beautifiers—but start fresh every day on a clean foundation.

Keep your skin active and it will be clear, fresh, youthful and attractive.

Soap to be thorough need not be harsh. The mildest toilet soap is the most thorough of cleansers, as you will know after you try Palmolive.

Its mildness and thoroughness are due to the same source—the scientific blending of Palm and Olive oils, the natural cleansers discovered thousands of years ago in ancient Egypt and made use of by Cleopatra.

Palmolive freshens, livens and stimulates the skin, leaving it delightfully fresh and rosy.

You can buy Palmolive Soap at all first-class dealers.

Volume and efficiency produce 25-cent quality for

## The shortest thing in the world—

isn't a mosquito's eyelash or a gnat's whisker, or any other part of any insect whatsoever—IT IS THE MEMORY OF THE PUBLIC.

If you doubt this, ask the first dozen men you meet the following questions:

When did the R34 cross the Atlantic? Who was her pilot? On what date was Lord Kitchener drowned? What was the name of the ship that blew up and almost wiped out the city of Halifax? What German submarine torpedoed the Lusitania?

It is a safe bet that you would not get one correct answer.

Now do you see the necessity of persistent advertising? When the details of events of world wide importance are soon forgotten, how do you expect the public to remember you—UNLESS YOU TELL 'EM—and keep on telling them?

ADVERTISE

**After-Eating Distress**  
and all forms of stomach trouble such as gas, pain, acid, sour burning stomach are all relieved in two minutes by taking Jo-To. Jo-To sold by all druggists.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided that necessary improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as home-sites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces.

The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

"PIRATES" WAS EXCEEDINGLY WELL STAGED

(Continued on Page 4)

place for the pirates on the rugged coast of Cornwall with a bay and cliffs as a background, and the pirates in an opening chorus were discovered drinking and making merry. The plot centres on the coming out of his apprenticeship to the pirates of Frederick, who has decided to henceforth follow the straight and narrow path, and quit the pirates' lair for ever. Moreover he determines to cast in his future lot with the emissaries of justice who are bent on exterminating the pirates. This gives rise to some ludicrous situations throughout the story, as Frederick is of the belief that his apprenticeship with the pirates ceases when he reaches the age of twenty-one. But the smug head of the desperadoes at a critical juncture produces the indentures which prove to everybody's and even Frederick's satisfaction that his apprenticeship does not expire until 1930, it being distinctly agreed that Frederick was to be released on his twenty-first birthday. Being born on the 29th of February (Leap Year) makes Frederick, although mature, "A Little Boy of Five." Although having cast in his lot with law and order Frederick is such "a slave of duty" and a soul of honor that he immediately renounces his righteous friends and rejoins the pirates. The role of Frederick was admirably sustained by "Archie" Graves.

Mr. H. S. Atkinson made a swash-buckling pirate of the old Jolly Roger type that was immense. His splendid physique and carriage eminently fitted him for this role, and his masterful conception of what Gilbert & Sullivan's pirate chief should be was apparent not only in the general make-up but also in the portrayal of the character. The pirate king was ably backed up by Samuel (his lieutenant) which role was cleverly handled by that popular comedian "Pete" Holes, who put pep and zip into every line, and Henry Tutt, another villain. The audience demanded a recall for the song and chorus "I am the Pirate King."

The role of Ruth, the practical maid-of-all-work, was remarkably well portrayed by Mrs. A. L. Soames. Far beyond the limits of an amateur, she threw her unquestioned talent into building up a difficult and thankless character that was a revelation to all. Her duet with Frederick, "Faithless Woman," was excellent, and a repetition was demanded.

In a cast of such all round ability it is difficult to individualize, but none will gainsay that the palm goes to Phyllis Trenwith, who as the leading soprano sustained the part of "Mabel." Her delightful acting and her sweet voice held a charm which will remain with us for a long time. Her initial solo, "Poor Wandering One," had a lilt and rhythm which held the audience spellbound, and a clamorous demand for an encore was responded to. Hilda Tutt, May Lowery and Marion Mantle were sweet and tuneful sisters of Mabel—all daughters of Major-General Stanley.

Mr. G. C. Bamford made a great hit with his impersonation of the gay old Major-General. His song "I am the very Model of a Modern Major-General" was a pronounced favorite. In response to an encore he regaled his audience to some local verses to the same air, which are as follows:

"To my military knowledge I have also added botany, I invested in an orchard, now of wealth I have not got any; I learned to deal with fire-blight, my instruments to sterilize, I'm hoping still to sell the place, and tell a lot of merry lies. At spraying, too, I'm expert, bo it Spitzenberg or Gravenstein, A finer lot of Codling moth than mine I'm sure you have not seen; Now crops of dandelion fall where only sunflowers grow before, I have a notice up "For Sale," nailed to a bit of two-by-four; I sing this final verselot through, but think it a pack o' hosh. And introduce the final word because it rhymes with McIntosh."

The second act revealed a scene which reflects the greatest credit on the artist, Mr. G. E. Emmons; the electrical effects adding greatly to the harmony of a superb setting. The rendezvous were the ruins of an old monastery and once again the audience showed appreciation in a marked manner.

The antics of the modern contingent of police in regulation uniform with goose-like stop was a scream in this act, as was also that of the opposing forces of the pirates "With

Stomach Suffering disappears as if by magic when Jo-To is used. Gas pains, acid stomach, sour stomach, burning and all after-eating distress relieved in two minutes. All Drug Stores.

Cat-Like Tread" to do battle with the shivering "Bobbies." As the sergeant of Police Mr. Leopold Hayes filled the bill creditably. He made a big hit with his song "A Policeman's Life is Not a Happy One," and the audience demanded more. In response he also indulged in some topical touches regarding the Tomato Situation and Co-operation which had the audience rocking in their seats. The policemen's chorus was excellent, and they had to repeat their "Tar-an-ta-ra" and "Forward On the Foe!" several times before the audience was appeased.

Among the principal numbers special mention must be given to the duets of Frederick and Mabel, and the trio of Ruth, Frederick and the Pirate Chief, "That Most Ingenious Paradox," the solo by Frederick, "If You Could Cast Your Eyes on Me," and the duets by Frederick and Mabel, "Leave Me Not" and "Stay, Frederick, Stay."

The wonderful range, compass and harmony of the chorus, combined with a subtlety of well-blended movement throughout the entire performance added a finishing touch to performance which will long be remembered by the people of Summerland. There were over sixty in the cast and chorus, and the zest given to the concerted numbers by the entire company was infectious to a delighted audience.

BEEKEEPERS ARE URGED TO CO-OPERATE (Continued from Page 3)

the bottom storey of hives was repeatedly pilfered by marauders. He also stated that if by chance a queen bee in her migrations was killed or did not return, an unprolific bee known as a laying worker would usurp her functions, and the bees would consider the laying worker as their queen. This bee was an undeveloped, female, and it would have to be got rid of from the colony without delay. To do this several methods were adopted, but he found the simplest and most successful one was to strike the hive with sufficient force to dislodge the colony and allow them to escape to a new hive. The laying worker always remained behind and in a few days died.

The new hive should be taken a good distance away from its old location, otherwise the bees would at the first opportunity return to their former home. To obviate this he recommended that the exits be stuffed with grass. To eat their way through this would occupy some three days, by which time the bees would have lost all sense of location, and would be contented to stay in their new domicile.

The speaker further advocated the proper ripening of the honey before it was drawn. It was a mistake to extract it before it was ripe, as it was claimed that immature honey had no storage qualities. Honey was not properly ripe before the end of August. In some places, the Fraser Valley for example, they had to extract periodically throughout the season.

A colony would be anywhere around 40,000 bees, and from a 2lb. package of imported bees he last year obtained 60 lbs. of honey and doubled his colony. A 2lb. package would average about 10,000 bees.

A deadly enemy to the hive was the wax moth. These parasites prey upon the hives, depositing their eggs in the cells and causing irreparable mischief if allowed to remain. To obviate their tenancy he advocated lots of sunning and open air, as the moths loved darkness. If the wax moth had scoured a footing he recommended that the combs be heated with a solution of sulphide of carbon, the fumes of which would sink in and destroy the eggs of the wax moth.

The speaker exhibited a small two-by-four package of bees which had just arrived from California, and thus demonstrating the manner in

which they were shipped. Several questions of an interesting nature were asked the speaker. One member of the audience wanted to know if the various fruit sprays would have any injurious effect upon the health of the bees. This was replied to in the negative, and the speaker explained that the bees did not work on the trees until the blossoms were fully open, and spraying was not, or rather, should not, be done at that time.

A member of the audience said he believed there was a law in effect in some districts that arsenate of lead was barred from use where apiaries were barred.

Mr. Weaver concluded an interesting address by stating that conditions in the Okanagan were splendid for bee-keeping, and Summerland was ideal. Trout Creek Point would be an excellent location. A well-known bee-keeper from Vernon recently told him that the bees were working around Trout Creek two weeks earlier than at the north end of the Valley.

Mr. C. J. Huddleston occupied the chair, and he remarked upon the discouraging slowness of the attendance. He said it was a great pity that more did not avail themselves of the splendid opportunities offered at these gatherings for inculcating the elementary knowledge so much required by all in the district.

A hearty vote of thanks to the speaker was passed.

Has It Good Points, Too. Some one has expressed the opinion that the letter "E" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger, and in hell all the time. For some reason, he overlooked the good fortune of the letter; so we call his attention to the fact "E" is never in war, always in peace and never in prison. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no heaven, no sleep and no cats. It is the centre of honesty, makes love perfect, and without it there would be no League.

Many a man keeps his eye on a policeman while bragging of his honesty.

**Local Happenings**

After a short stay here, Alan Cross left on Monday for Salmon Arm.  
Keep the 29th of May open for the Girl Guide Concert and Vaudeville. Rialto Theatre, 8 p.m. 79

Cliff Roe returned on Friday from Regina, where he had been employed for a time with the C. P. R.  
Geo. Anderson, who has been with T. J. McAlpine at Grindrod, on bridge work, returned on Saturday.

Dewy Sanborn left on Thursday of last week on a motor trip to Nelson. He expects to return home early next week.  
Miss Clemens, of Vancouver, is visiting her sister, Mrs. Willis Walter, and she expects to spend the summer here.

Mr. and Mrs. Willis Walter are leaving this week for a motor trip to Alberta, where they will spend a month or six weeks.  
Mr. G. D. Brown, C. P. R. operator at Salmon Arm, and Mrs. Brown, spent Sunday here with their cousins, Miss Harvey and Miss Curry, at the home of Mr. and Mrs. G. J. C. White.

Mr. and Mrs. Montgomery, of Vancouver, who have been visiting for some time with Mr. Montgomery's sister, Mrs. A. Fraser, left on Tuesday morning for an extended visit to Saskatoon, Sask.  
Among other items which came up for discussion at a meeting of the Farmers' Institute directors last Thursday was the possibility of chartering a special train to Summerland Experimental Farm. The matter was left in the hands of Secretary C. C. Heaven to get full particulars as to cost of such venture.—Grand Forks Gazette.

In making up our report last week from information gleaned from several sources of the farewell to Rev. H. E. and Mrs. Livingstone, held in the Methodist Church, the name of Mr. O. E. Mann, as one of the speakers, was inadvertently omitted. Mr. Mann, in a very excellent address, dealt with the work which had been accomplished by Rev. Mr. Livingstone during his pastorate at the Methodist church.

Mr. and Mrs. T. J. McAlpine and son, Campbell, returned on Saturday from Grindrod, in the northern part of the Valley, near Sicamous, where they have been for some months. While there, Mr. McAlpine was in charge of bridge construction work for the Provincial Department of Public Works. After a short stay at their home here, Mr. and Mrs. McAlpine are planning on spending a vacation at the Coast.

A band of travelling gypsies, with an elaborate entourage, struck Summerland last Saturday morning, coming from the north. There were six caravans and two motor trucks in the outfit, and were evidently of the elite of their peculiar brand. They were no different, however, from the regular stamp of those wandering Nomads in displaying their voracious propensities for picking up the loose change lying idle, and several of our young men were tapped 'oro they "folded their tents like the Arabs, and as silently stole away."

FOR SALE—Six soster McLaughlin. Bargain, \$700. Apply Broadbent, Sharp's garage, Penticton; phone 52. 798

Mr. Wm. Kerr went down to Vancouver a few days ago to visit his son.  
G. L. Salter is at home here for a short time, having arrived from Vancouver a few days ago.  
A fresh coat of paint has greatly improved the appearance of the high school building. D. P. Ewen had the contract.  
Miss Janet Sutherland is leaving on Friday to spend a month's vacation with friends in Vancouver and Victoria.  
Mrs. Hector Sutherland returned a few days ago from Kamloops, where she had been visiting an invalid sister, whose health is now improving.  
Mr. and Mrs. Thos. Dale are enjoying a visit in Vancouver, having gone down to the Coast two or three weeks ago. Mr. Dale's health is somewhat improved.  
For the benefit of those from the south attending the sports at Kelowna, the S. S. Sicamous will be held there on her trip down the lake until 8 o'clock on the 24th.  
West Summerland Women's Institute a few days ago presented to the Central school, a tennis net, which is very much appreciated by the scholars and staff. Mrs. Solly made the presentation.  
Superintendent Helmer of the Experimental Farm motored up to the north end of the Valley on Monday to meet Mr. John Fixter, chief Superintendent of Illustration Stations. He expects to be away for about three days.  
High school fees will be charged during this year. This is the decision again reached by the school board after considering at a special meeting the requests of parents that the fees be abolished.  
Archie M. Pratt, general manager of the Associated Growers, has been spending the past few days visiting the locals at Grand Forks, Creston, etc. It is confidently expected that arrangements, mutually satisfactory, would be concluded with the Creston growers.  
That the Summerland public appreciate bargain offers was fully demonstrated last week by the volume of business done at the Melvin store as the result of special offers contained in their advertisement last week. Other special attractions are being offered this week end. 798

An invitation is being extended by the Trout Creek Farmers' Institute to all interested in beekeeping, to hear Mr. F. Robertson, provincial instructor in beekeeping, who will address the Institute next Monday evening. Announcement of the meeting is made in our advertising columns.  
Rev. Edgar L. Busch, recently of Vancouver, and a guest here of Mr. and Mrs. A. E. Cowan, is arranging to hold undenominational services at the Lakeside Baptist church. Mr. Busch has been holding services at different points in the district since his arrival here. The services will probably begin the first Sunday in June.  
Electric power was cut off for a good part of the day on Friday while some work was being done on the main line passing through the Experimental Farm, where transformers for pumping service were being put in. Superintendent Helmer has the foundation for the new pump ready and the pipe laid up the side of the canyon and the arrival of the pump is looked for daily.

Opening the 1923 season at the Home Theatre, the Canadian Players Friendly Society will give a costume dance on Friday evening of next week. One of the features will be the special lighting arrangements for the dance. As is generally known, this theatre is specially well equipped for spectacular lighting. The dance promises to be a very delightful affair and already the tickets are being taken up rapidly. Further particulars are given in our advertising columns.  
Agricultural College, Corvallis, Ore.—Geo. H. Harris, son of Mr. and Mrs. J. W. Harris of Summerland, who is a post graduate in the school of agriculture, has just been elected to Gamma Sigma Delta graduate honorary agricultural society. To be elected to this society, one must, in addition to general qualifications as a student and the like, show originality in research. Mr. Harris is doing research work along horticultural lines with plant pathology as a minor. He will complete his requirements for a master's degree in agriculture this year, and will graduate in June.

**UNIVERSITY PLAYERS SHOW MUCH TALENT**

(Continued from page 1.)  
pectively. The somewhat minor part of the parlor maid was gracefully filled by Miss Eloise Angell, though she could not well be heard from her position at the back of the stage.  
The play was well staged with simple but fitting scenery, and the costumes were appropriate and tasteful, several changes being required.  
Professor F. G. C. Wood, of the staff of the University, acted as director, and during the enforced interval, due to the interruption in the lighting service, spoke a few words of appreciation of the manner in which the audience had received their production, and, on behalf of the Players, expressed their pleasure at being able to play in Summerland. He also spoke very highly of the showing of the Summerland students in attendance at the University, and was glad to be able, in this way, to bring at least one phase of the University training more clearly before the citizens as a whole.  
While in Summerland, the members of the University players were well entertained by the local students in the University. On Saturday morning they were brought up from Penticton and shown over the Experimental Farm. The visitors were the guests of Mr. and Mrs. R. H. Helmer for lunch, and during the afternoon they were motored over the district. Again in the evening, after the performance, the visitors were the guests of the local students, when they were entertained at the home of Mr. and Mrs. C. B. Winter, who had kindly opened their house for the occasion.

Several Peachlanders went to Summerland Saturday evening to see the University of B. C. play, being staged in Empire Hall. They were not disappointed according to the favorable report they brought back.  
After several months absence, Walter Shaw's smiling face is seen here once more, he having motored back for a short time.  
Some of the boys this week, each climbing on the hurricane deck of a cayouse, hid them to the tall timber and to the head water lakes, where they enjoyed themselves catching trout. They were quite successful and came home well supplied and well fed.  
Messrs. Cudmore and Drake have completed dissolution of partnership, and Mr. Drake has severed his connection with the store. Mr. Cudmore will continue and has employed Eddie Williams to assist him in the mornings and after school closes. Mr. Drake and family expect to leave before long, although not definitely settled on their future plans.  
Mr. and Mrs. McKinnon spent Tuesday in Kelowna.  
Geo. Rowcliffe, Ltd., of Kelowna, is preparing to operate in Peachland again this year. Mr. A. L. Bruyneel, who is to have charge, has been in town for a few days getting shook over from the C. P. R. wharf and putting things to rights generally about the packing house.  
Mrs. E. Cudmore and daughter left on Tuesday morning for Ontario to visit Mrs. Cudmore's father, who for some time has been in poor health. They will remain there for a few months.  
It would seem that the gas and oil business is looking up in Peachland, as the Imperial Oil Co. send a tank truck through now. It has made a couple of calls recently. Motorists are wondering whether it will put the price up or down.  
Mrs. W. White spent Tuesday in Kelowna.

**Correspondence**  
The Editor, Summerland Review,  
Dear Sir: Your last issue contained extracts from two papers regarding the high salaries which are to be paid the head of the new Co-operative, and I would like to make a few comments on this subject.  
If the new organization is to be a success it must have at its head men of first class ability. Anything less than this means failure from the outset. In any walk of life, men of first class ability are still comparatively rare, and, as such command high salaries. This is their market price, and they can readily get it from private companies. The new Co-operative also must pay the market price for what it requires otherwise it will not get it, and may as well not start business. I was for many years, before coming to Canada, in sufficiently close contact with big business to know that the first class man was the cheaper in the end, even though his salary be double that of the second rate man. The marketing of the fruit of B. C. has now become a big business and deserves and needs the best ability we can obtain. We as growers must recognize that this big business is ours and take such intelligent interest in the marketing organization, not only in times of adversity, but also in times of prosperity, as will ensure the management being kept at the top notch of efficiency. If we criticize, let our criticism be, as was recently said by a speaker at Kelowna, of a constructive nature, and if the men at the head are worth their salt they will welcome such criticism.  
Yours truly,  
JAS. SHEPHERD.

Visiting Mrs. Trimble and her parents, Mr. and Mrs. Conklin, who arrived last week from across the line.  
Mr. Loyal Warner, formerly of Castorville, Ont. and recently of Edmonton, Alta., is visiting his aunt, Mrs. H. E. McCall. He came in last week and will remain for an indefinite time.  
A recent arrival is a baby boy at the home of Mr. and Mrs. Nell Evans.  
A few Peachlanders motored to Summerland on Thursday evening to take in the entertainment being put on there by Kelowna talent. They reported having been well pleased.  
Mr. J. A. Edgcombe was a visitor to Kelowna on Friday.  
The clean-up day at the cemetery proved a decided success. There was a real good turnout and everybody did their best to make it such. The community owe a great deal to the Women's Institute, who took the initiative in this clean-up idea, start-

with the result of these two days' work, proving the old saying, "Many hands make light work." The ladies not only provided the cats for the workers, but many of them, including the girls, proved their ability on the clean-up job. A very nourishing and dainty lunch was served at mid-day and again after the finish of the work of the day, and all enjoyed the social time together. The Boy Scouts were also in evidence, not only at lunch, but were right on the job when it came to the work, running errands and whitewashing the stones lining the walks. There were over one hundred present during the day.  
Several Peachlanders went to Summerland Saturday evening to see the University of B. C. play, being staged in Empire Hall. They were not disappointed according to the favorable report they brought back.  
After several months absence, Walter Shaw's smiling face is seen here once more, he having motored back for a short time.  
Some of the boys this week, each climbing on the hurricane deck of a cayouse, hid them to the tall timber and to the head water lakes, where they enjoyed themselves catching trout. They were quite successful and came home well supplied and well fed.  
Messrs. Cudmore and Drake have completed dissolution of partnership, and Mr. Drake has severed his connection with the store. Mr. Cudmore will continue and has employed Eddie Williams to assist him in the mornings and after school closes. Mr. Drake and family expect to leave before long, although not definitely settled on their future plans.  
Mr. and Mrs. McKinnon spent Tuesday in Kelowna.  
Geo. Rowcliffe, Ltd., of Kelowna, is preparing to operate in Peachland again this year. Mr. A. L. Bruyneel, who is to have charge, has been in town for a few days getting shook over from the C. P. R. wharf and putting things to rights generally about the packing house.  
Mrs. E. Cudmore and daughter left on Tuesday morning for Ontario to visit Mrs. Cudmore's father, who for some time has been in poor health. They will remain there for a few months.  
It would seem that the gas and oil business is looking up in Peachland, as the Imperial Oil Co. send a tank truck through now. It has made a couple of calls recently. Motorists are wondering whether it will put the price up or down.  
Mrs. W. White spent Tuesday in Kelowna.

#### FRIDAY

Love Not the World—Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him.—1 John 2: 15.

#### SATURDAY

Safety of the Righteous—The righteous shall inherit the land, and dwell therein forever.

#### SUNDAY

The law of his God is in his heart; none of his steps shall slide.—Psalm 37: 29, 31.

#### MONDAY

Darkness Disappears.—Thou art my lamp, O Lord; and the Lord will lighten my darkness. For by thee I have run through a troop; by my God have I leaped over a wall.—2 Samuel 22: 29, 30.

#### TUESDAY

God Forgives and Heals.—Bless the Lord, O my soul, and forget not all his benefits; who forgiveth all thine iniquities; who healeth all thy diseases; who redeemeth thy life from destruction.—Psalm 103: 2-4.

#### WEDNESDAY

Shall Want No Good Thing—For the Lord God is a sun and a shield; the Lord will give grace and glory; no good thing will he withhold from them that walk uprightly.—Psalm 84: 11.

### VEGETABLES SOLD BY WEIGHT AND GRADE

Patrons of grocery stores will probably have observed displayed in the stores a sign reading "Vegetables Sold Only by Weight and Grade—The Root Vegetables Act, 1922." Those who have made purchases of vegetables since this card has been displayed will have learned that those products are no longer sold by measure and without reference to grade, as has been the custom in the past.

For the information of readers of this paper, it is pointed out that the vegetables that have to be sold by weight are potatoes, onions, artichokes, beets, carrots, turnips and parsnips. When any of these are sold with the top leaves still attached, they are excluded from the operations of the act. Other exceptions include potatoes sold in closed barrels, now potatoes shipped between the 1st of June and the end of September, and seed potatoes. The act also regulates the marking and packing as well as the size of the potato barrel.

The Act governing these regulations is administered by the Fruit Branch of the Dominion Department of Agriculture, Ottawa, and copies of it may be obtained from the Publications Branch of that department.

## FERTILIZERS AND SOIL CULTIVATION

(Continued from Page One)

Humus was essential to good soil. It gives life to the soil; makes home for bacteria; keeps soil loose and warm; lets air and moisture into the soil; prevents washing and baking; builds soil and adds nitrogen; and helps to make other plant food available. When the humus operates it sets loose other humus in the soil. Air, too, was quite as important to the tree roots as bacteria. Weeds, stock and plant refuse, judiciously used, supply all the elements that the plant needs. He instanced two farmers side by side, the one burning all the plant refuse as worthless, and the other utilizing his and all else he could obtain for fertilization purposes.

In the prairie provinces it was common for the farmer through rotary crops to extract all the organic matter from the soil with the results that the land was starving. In this connection he gave an example of a test extending over 16 years on two farms side by side in the state of Tennessee. Both started off with the same conditions of soil fertility, and whilst the one treated with the necessary fertilizer had increased its annual yield from 20 to 80 bushels per acre, the other owing to steady depreciation of organic matter with no artificial replenishment had in the sixteen years dropped behind to a five bushel yield.

It was a great mistake to leave barnyard manure lying in heaps in the fields and orchards throughout the winter. A good method was to have the live stock tramp it down, as it kept out the influences of the weather and conserved bacteria. Liquid manure contains phosphorus and the farmers of the east now realizing its value are building tanks to conserve it for future use.

Experiments have been made which showed that manure left out in the open had lost as high as 80% in fertilizing value. It is more valuable on the land as fresh manure, but in its application, weather conditions would have to be taken into account. He did not wish it understood that he advocated putting the manure on too fresh, but it must not be dried out.

It was a mistake to haul away alfalfa for sale when it should be fed to the stock and returned as manure to the soil with threefold value, having all the necessary essentials.

Legume crops such as corn have no value in fertilizing the soil. The value of nodules which grow at the roots of some plants are shown in the fact that they contain many thousands of bacteria. He could not speak as to the value of sweet clover as a cover crop, but experiments now proceeding would determine. Alfalfa was superior to some, but vetches were good and had an advantage over clover and alfalfa. Sweet clover having a coarse root was good for a dry soil. Legumes added nitrogen to the soil. Legumes needed lime and must have a soil that is sweet. Lime, however, was not needed in the Okanagan as all vetches grow to profusion without its aid.

In conclusion he said that soil fertility depended upon the chemical content and physical structure of the soil. Mr. Robinson was accorded a hearty vote of thanks at the conclusion of an instructive discourse.

#### A Luxury Perhaps.

Lawyer—"I wish now to tax your memory."  
Witness—"Good heavens! Has it come to that?"

A woman who has had every opportunity to learn that marriage is a failure seems to take stolid delight in arranging a match for someone else.

## LOSES LIFE IN ACCIDENT AT KEREMEOS

(Continued from Page 1)

For a distance of over two hundred feet. Strangely enough not a car left the track and while the first, third and fifth cars were badly wrecked the second and fourth cars were only slightly damaged. The engine was badly wrecked.

Owing to all the cars remaining on the track and it not being disturbed the work of clearing away the wreck was quickly accomplished once an engine and crew were brought from Oroville. By ten o'clock the train was able to proceed on its way to Princeton, fireman Bradbury acting as engineer. Engineer Williams, who was in charge at the time of the collision, was scalded about the legs and returned to Oroville. Bradbury escaped injury entirely. The train arrived in Princeton shortly after midnight and remained here till noon next day.

In all there were about a dozen passengers on the train at the time of the collision. One of them was T. W. Coleman of Keremeos, who stated that the jolt precipitated him over the seat in front and gave him a severe shaking up. Mr. Coleman

was able to render first aid to the injured, having had considerable experience in that line in the past. The sufferer was relieved of his clothing when it was readily apparent that his injuries were of a very serious nature, his face, chest, arms and legs being severely burned. The absence of anything in the way of a "first aid" outfit on the train, was severely commented upon by Mr. Coleman, who said that it prevented him from giving the scalded man the relief he otherwise could.

A car was procured as quickly as possible from Keremeos and the injured man taken to the hospital at Hedley. Thursday forenoon word was received that he had passed a good night and that an airplane was on its way bringing in a specialist from Wenatchee. Fair hopes, however, for his recovery were held out. He died on Thursday night.

Mr. Beck, more familiarly known as "Little Joe," has been on the Princeton run at various times and for the last month has been making it regularly. He was married only recently. His father is the cashier-operator for the Great Northern at Oroville.

Although the Bible has been translated, in part, into 725 languages and dialects, new translations for freshly discovered tribes are always needed.

The world is a stage. Lots of husbands only have thinking parts.

### THE OLDEST APPLE TREE

Vancouver, Wash., May 22.—The Pacific Northwest's oldest apple tree, planted here in 1826, will again bear a good crop of fruit this year. This tree was planted by the gardener of the Hudson's Bay Company shortly after the station at Vancouver was founded, and it is the only one of five set out then which is left. Military authorities from the Vancouver Barracks have erected a small enclosure about the tree to protect it from souvenir seekers.

## VICTORIA DAY CELEBRATION AT KELOWNA

### Summerland Athletes Make Clean Up in All Flat Events—Local Team Defeated in Good Baseball Game.

Ideal regal weather prevailed throughout the whole of Victoria Day, and Summerland citizens spent the national holiday in the great out-of-doors. Picnics and family reunions were glimpsed camping and gyping, here and there among the secluded shady nooks, whilst the disciples of Isaac Walton took the opportunity of spending the entire day on the placid waters of the lake. A large number visited the town of Oliver, where a field day of sports was held, and all report an enjoyable time, with the exception of one or two parties, who unfortunately had car trouble.

May 24th in the Valley is generally conceded as Kelowna's day, and thither by boat and road the major portion of our holiday seekers wended to cheer on the Summerland athletes in the field of sports, and have a good time generally.

The first part of the day was taken up with the various advertised athletic events, and it was one continued round of successes for the Summerland boys, who swept the board in the flat races and carried away with them premier honors in five of the entire nine events. The following is the program:

Bicycle race for boys 16 and under. Burch early took the lead from Harold Cunningham and Wm. Longley and kept it throughout. Cunningham was a good second. Time 3:20.

Hundred yards open.—This proved to be the best race of the morning session. Gayton, of Summerland, winning, with Aitken, of Kelowna, second. Time, 10 and four fifths.

The relay race was an easy victory for the Summerland team, which consisted of R. E. Reid, W. Gayton, R. R. Munn and M. Marshall. Summerland maintained the lead from the start, and the last man romped home well ahead of the others. Kelowna team was second. Time 1 min. 22 seconds.

The mile open, Bicycle Race was also won by Burch, Kelowna, with Cunningham second. Time 3 min. 26 seconds.

Only two entrants put in an appearance for the 220 yards open, Gayton, Summerland, and Aitken, Kelowna. This was a good race, Gayton took the lead and was pressed all the way by Aitken, Gayton however, winning by two yards. Time, 24 and three fifths seconds. (Continued on Page 8)

## OLD DUMBELLS WERE DELIGHT

### Performance Was 'Full of Pep' from the Start to Finish.

A present day slang corruption of the name "Dumbell" may be defined as a person who is so slow in movement and mind that by comparison a mud turtle's speed would be cyclonic. But none who saw the "Old Dumbells" at the Empress Theatre, Penticton, last Thursday night, have any delusion on that score, for there was speed, pep, ginger and fun from the drop of the hat.

The "Old Dumbells" are all ex-service men of exceptional talent for entertaining; and most of them after receiving their first "blighty" in France were attached to different concert parties which operated so successfully in the various theatre towns behind the lines. As may be readily imagined, there was a lack of the necessary "femino" talent so close to the firing line, but this difficulty was overcome by the trying-out of a number of "canonists" with the qualifications of voice, figure and deportment, to impersonate a prima donna. In the language of the hour, they "got by with it" to such a degree (Continued on Page 8)

## VISIT HERE WAS PLEASANT ONE

The Kelowna Theatrical Society scored another success at Summerland last Thursday, their audience being a very appreciative one. The members cannot speak too much of the kind treatment they received there from everybody, which made their visit to that place a very pleasant one. In connection with the production of the "Pirates of Penzance," it will interest many in Kelowna to know the society had a very tempting offer to tour the Kootenay and other portions of the Interior, but were obliged to turn it down on account of so many members of the cast being obliged to return to Kelowna for business and family reasons.—Kelowna Courier.

## VALLEY NEWSPAPER MEN IN SESSION

The annual meeting of the Okanagan Press Guild was held at Vernon a few days ago with representatives from most of the papers in attendance. Kamloops, Salmon Arm and Revelstoke publications, in addition to those of the Okanagan, are included in the membership.

L. J. Ball, of the Vernon News, who has been president for a number of years, retired, and G. C. Rose, of the Kelowna Courier, was elected to the chair. H. M. Walker, of the Comoxer, Enderby, was elected vice-president, and R. E. White, of the Summerland Review, re-elected secretary-treasurer. Matters of interest and importance to the newspaper craft were dealt with.

The visiting journalists were entertained at dinner by the management of the Vernon News.

## BEEN MARRIED HALF CENTURY

### Family Celebrates with Capt. and Mrs. Hatfield Their Golden Wedding.

Married May 27th, 1873, at West Brook, Cumberland Co., N. S., at the home of the bride's parents, Mr. and Mrs. William Dobson, Mrs. Dobson to Capt. Charles Hatfield, of Brookville, Nova Scotia. The ceremony was performed by Rev. McKinnon.

At their home, Kaledon, B. C., May 27th, 1923, Capt. and Mrs. Hatfield celebrated the 50th anniversary of their marriage. There were present two of their three children, B. L. Hatfield, of North Vancouver, and Mrs. Carlotta Block, of Summerland, B. C. Their second son, A. S. Hatfield, of Penticton, B. C., was unable to be present. Four of their eight grandchildren were also present, Lee Hatfield, of Vancouver, Harley and Philip Hatfield, of Penticton, B. C., and Mary Block, of Summerland. They also have one great grand daughter, Rita Mary Hatfield, of Vancouver. The other guests who gathered around the table, decorated with yellow roses and centered with the wedding cake, bearing the dates in yellow, 1873-1923, included Mr. A. B. Elliott, and Mrs. Elliott (a niece of Capt. and Mrs. Hatfield), and family, Mrs. Mina McLaughlin, a sister of Capt. Hatfield, and Miss Maud McLaughlin, of Summerland, Mrs. A. S. Hatfield, Penticton, Mr. J. R. Christie, Isabel and Bobby Christie, Okanagan Falls, and Mrs. E. W. Corbett, of Kaledon. During the afternoon, a purse of gold was presented to Capt. and Mrs. Hatfield, with many good wishes for the days to come.

## ONTARIO FRUIT COMING TO WEST

Winnipeg.—The Niagara Fruit Growers of Ontario expect to sell large quantities of fruit in Western Canada this summer, according to the statement of C. W. Baxter, manager, who is looking over the situation. "I have arranged for all our marketings in Winnipeg," he stated. "Our peaches have met with favorable reception on the prairies the past year and we are informed that so long as we use the peach box package and keep up our quality there will be ready sale for Niagara fruit in Winnipeg and the West."

Miss Betty Barnes came in on Sunday morning from Vancouver, where she is training for a nurse at Vancouver General Hospital. (Continued on Page 8)

## NARAMATA F. I. HEARS HELMER ON THINNING

### Palmer Another Speaker—Other News of the Week in Naramata.

The final meeting of the Farmers' Institute for the season was held on Tuesday evening, and was, as usual, well attended. In the absence of Mr. Irwin, who was unwell, the chair was taken by Mr. R. King, who announced the various items of the evening's program. Mr. Helmer was the first speaker, his subject being the need of making the new sales organizations a success. This meant hard work and a strict watch on the quality of the fruit sent out. The speaker noted that the Daughters of the Empire in Winnipeg had gone on record as future buyers of B. C. apples, and the growers must support such resolutions by shipping only good stuff. When picking and packing, if in doubt as to whether an apple is a cull or not, the safe plan will be to "throw it away. Wenatchee growers were mercilessly thinning out the fillers of their orchards to secure high quality, and the principle is good, although thinning out may be overdone. Mr. Palmer, who followed, dealt with the elements necessary to proper growth of trees, and emphasized the necessity of even irrigation as against unequal distribution. The only real test could be obtained by digging in between rows to find just how much moisture is percolating through the soil. As to cover crops, the experience on the Experimental Farm so far showed that whereas vetch acted quickest and produced greater quantity of fruit, alfalfa was showing the best results in quality.

Mr. Helmer, replying to later queries, told of storage experiments and stated that the chief factor was the regulation of atmospheric moisture in the storage building. In some houses he found a percentage of only 55 per cent. moisture, but an average (Continued on Page 8)

## TO IMPROVE WATER MAIN

### Further Increasing Efficiency of Irrigation System—Other Business.

By an alteration, recommended by Foreman Tomlin and approved by the council at last Friday's meeting, 970 feet of ditch at the top of the Giant's Head main, just below the point where the south main divides to form the Giant's Head and Paradise Flat mains, will be cut out. There has been much loss of water at that point for some time and Foreman Tomlin purposes improving the Paradise Flat main at this point and, as the two are nearly parallel, he will take the Giant's Head supply off about 1000 feet further down. It had been the intention to line this section, but under the new plan, the second ditch will be done away with. Recognizing the value of the organization, the council decided to continue its membership in the Union of B. C. Municipalities.

A half dozen measuring boxes will be installed on the Jones Flat line, running through the Keon and Beattie properties eastward. Roove Campbell, referring to the dissatisfaction which exists in the minds of some of the growers along this ditch, suggested that these few be put in immediately, with the idea that others may be installed later. This was agreed to.

The question of 1924 assessment was up for discussion, but no definite action was taken. Judging from the expressed views of the councillors, it is not improbable that the last assessment roll will be adopted for the coming year. Roove Campbell pointed out that if there was any idea of taxing improvements, a very thorough revision of the assessments on improvements would have to be made.

A new pound bylaw has been prepared by the municipal solicitor, but will be examined by the Roove and councillors individually before being adopted. (Continued on Page 8)

## LOCAL STUDENTS READY TO TEACH

Reports from the Provincial Normal school at Victoria, for this year, are to the effect that of the seven Summerland students there, four, Merle Smith, Divessa Cowan, Marion Beavis and Edgar Hobbs, were successful in obtaining their teachers' certificates, while the other three, Phyllis Freeman, John Denike and George Hannington were granted interims, allowing them to teach for one year on trial before receiving their certificates. Another former Summerland girl, Miss Dorothy Foster, now of Oliver, also received her teachers' diploma. Hugh C. McIntyre, who has been attending Normal school in Vancouver, passed conditionally.

## FIELD MEETS PLANNED FOR ORCHARDISTS

### John Peters, Wenatchee; R. H. Helmer, Summerland and W. T. Hunter, Speakers.

Arrangements are now being completed by the District Horticultural office for summer field meetings to be held during the week of June 11th to 18th. Thinning, Soil Fertility and Irrigation Practices, and Pest Control are to be the main topics discussed at these meetings. Mr. John Peters, of Wenatchee, has been engaged for that week, and will discuss methods of thinning with the growers. Mr. Peters has made a special study and practice (for a number of years) of thinning, and his services as a lecturer on this subject are in wide demand in his own country by the different Farm Bureaus. His famous "Trail of the Cull" lecture has been delivered all over the Wenatchee district and by special request was delivered by Mr. Peters at the Spokane Convention of the Washington State Fruit Growers Convention. Further, it may be stated, Mr. Peters practices on his own orchard the principles of good thinning which he preaches. His talk and demonstration will be worth hearing.

Mr. R. H. Helmer will make his last appearance through the Valley, as Superintendent of the Dominion Experimental Station, Summerland. His departure from the Okanagan is to be regretted and it is hoped that every fruit grower in the Valley will turn out to hear his farewell talk on Soil Fertility and Irrigation Practices. A hundred per cent. turnout will be a practical method of conveying to Mr. Helmer the regret of each district of his departure.

Mr. W. T. Hunter, District Horticulturist, will be in charge of the arrangements and will be present to discuss any problems of Pest Control which may arise.

These meetings are being keenly anticipated by the growers all through the Valley, and now that the marketing end of the orchard business has been properly arranged, it is up to all growers to set their individual orchards in order. "Better Apples and More of Them" is the slogan. The trees of the Valley are setting for a record crop, and of that crop only well-sized, extra fancy fruits will be acceptable. John Peters will convince you that it pays to thin.

Watch for further particulars.

## WILL EXTEND FLUME SYSTEM TO BEGGS ET AL

### Council Decides Most Will Benefit from This Expenditure.

Fifty acres of orchard land along the road running east from the school properties will be taken off the pipe line service and put under the irrigation system. This, the municipal council decided on Friday, was the best way in which to spend the money remaining from the last irrigation bylaw loan.

A survey for this extension had already been made and plans submitted by the engineer were examined. The estimated cost, including a connection over to the Gray ditch, is \$3,195.19. The connecting link from the new flume to the Gray ditch will not be put in this year, but its installation later will make possible the cutting out of a considerable stretch of open ditch. Another saving over the estimated cost of flume metal will also be effected, further bringing down the cost. Yet another estimated expenditure that will not be required will be for a stretch of 8 inch pipe. Some 8 inch iron pipe now lying between the Trout Creek intake and the reservoir, and not used for years, will be put into service on this new extension.

The water will be picked up, not far from S. G. Rand's house and will be carried along back of the high school, under the road near the Pineo property, and thence eastward to serve the Beggs, Pineo, Armstrong, Fringe and Vanderburg properties.

Besides greatly relieving the pipe line and thereby increasing the pressure in many parts of the district, this change will permit of utilizing exclusively the connection between the pipe line in that section and the line serving the hospital hill district. This, again, frees the pipe running through the Ritchie properties and past St. Stephen's church, to serve the line running around past the Turner, Saiter and Hayes properties, out to Tavender's.

## TO HOLD BACK POOR FRUITS

### Local Manager to be Given Monthly Reports of Sales by Central.

Creston, though in affiliation with the Associated Growers, will have a separate pool for its fruit. This concession has been made owing to the difference in freight rates which that district enjoys, and to the fact that a large quantity of fruit from there is sold in Kootenay centers. Otherwise, as already reported in these columns, the Associated Growers will establish provincial pools according to variety and special requirements of each fruit. The old U. G. grading regulations will be adopted with some minor amendments.

It has also been decided to stop, in as far as possible, the shipping of poor varieties of cherries, except to canneries or at the special request of the Central. This will also apply to some varieties of cranberries.

The Central will furnish the local managers with a statement of sales at the end of each month.

## KELOWNA HOSPITAL BENEFITS BY PASSING OF MONEY BYLAW

Kelowna.—Voting on two money bylaws resulted in giving a mandate to the council to authorize the hospital society to build a nurses' home, a laundry, and to remodel the interior of the main building, at a cost of \$18,000.

The other bylaw had to do with the purchase by the city of the triangle of the city park, which was bought some years ago by a local syndicate, but is now being taken over by the city, giving them full control of all land west and south of the C. P. R. wharf.

## IMPROVE TRAIL TO HEADWATERS

Summerland and Peachland municipalities will co-operate in improving the road and trails leading to the storage dams on their respective irrigation systems. On Friday, a letter from Peachland, proposing that the two municipalities jointly appeal to the provincial department of public works to improve the road, or that the two work together, making the improvements themselves, was considered. Coun. Johnson was of the opinion that the undertaking would not be a heavy one and the matter was referred to him to take up with the Peachland authorities.

## CONFERENCE OF SCHOOL TRUSTEES

An important conference of School Trustees from North and South Okanagan and Similkameen will be held in the High School, Kelowna, on Thursday, June 7th, for the purpose of considering the best means of promoting education in the assisted schools. It is pointed out by Mr. J. Harwood, of Vernon, President of the Provincial School Trustees Association, who has been instrumental in arranging for the conference, that last year out of 463 children from assisted schools who sat only 62 passed the High School entrance examinations. Mr. Harwood considers that the high percentage of failure shows that the efficiency of the assisted schools in the higher grades is very low compared to the enormous expenditure made, and that efficiency and economy would both be secured by consolidating the rural schools where possible or by boarding children from isolated districts in the towns.—Kelowna Courier.

## GIVES BOOST TO B. C. PRODUCTS

### Mrs. Todd, Victoria, Tells Peachland Institute How to Increase Prosperity

Under the auspices of the Peachland branch of the Women's Institute, Mrs. W. D. Todd, of Victoria, B. C., secretary of the Vancouver Island District Institute, conducted a "Model Institute Meeting" for the instruction of the local branch. The ladies had advertised this as an open meeting and several of the husbands were present. All were greatly pleased and instructed by the very able and pleasing manner in which Mrs. Todd conducted the meeting. Not only did she show marked ability to conduct according to rules and regulations, but her affable manner won for her at once the confidence of her associates and listeners. The president of the local branch, Mrs. Dryden, acted as secretary for the model meeting and Mrs. Todd bringing with her model reports, including those of the secretary, treasurer and committee heads. These were disposed of in the model way and proved quite instructive to those present. Roll call was answered by statements bearing on the "Buy B. C. Products" question and the following were among those given:

"The Women of British Columbia regulate the pay rolls of the province, for they do ninety per cent. of the household buying." B. C. imports millions of pounds of fruit and vegetables annually from foreign countries. These importations rob B. C. farmers, can makers, printers, paper and box manufacturers, and wire nail makers of their sales, and provide wages for thousands of foreign workers. British Columbia needs this addition to her pay roll. "By buying B. C. products you will stabilize and improve present employment and provide occupation for the coming generation." "In times when the products of British Columbia, Canada and the British Empire are seeking markets, and there are problems of unemployment, it is especially the duty of citizens to patronize and give preference to Home Products." Then Madam President (Mrs. Todd) gave an address gotten out by the B. C. Products Bureau of the Vancouver Board of Trade.

Then followed a questionnaire. Slips were handed around and questions written thereon and madam president answered each one.

Following were among those dealt with:

Quon.—"To sell products, is it not better to get the company in a position to meet competitive prices. (Continued on Page 8)

## ALL IS READY FOR ANNUAL FIELD DAY

### Big Crowd Expected at Crescent Beach on Monday. Full Day's Program of Sports Has Been Arranged.

Summerland's field day, which will be under the auspices of the G. W. V. A., gives every promise of success. A full day's program of sports has been arranged and copies of the program given wide distribution. One of the features of the afternoon will be a return baseball game between Summerland and Kelowna teams and a large contingent of visitors is expected from the Orchard City. Many others are looked for from Naramata, Penticton, Oliver, etc.

The track has been re-graded and motorists are requested not to drive their cars on the track, but to keep them outside the circle. A rail will be put up at the edge of the track in front of the grandstand, so that a mix-up between saddle ponies and spectators, such as occurred last year, will not be repeated.

The program is published elsewhere in this paper, as is also the schedule of the ferry service from both Naramata and Summerland to Crescent Beach.

## CANNERIES SIGN FOR TOMATO SUPPLY

Approximately 800 cars of tomatoes will be planted out this year in the Kelowna, Westbank and Okanagan Centre districts. Two canneries will be operated at Kelowna, the Occidental and the Dominion. A considerable quantity of tomatoes will also be grown in that district for the Broder cannery at New Westminster.

Three hundred and twenty-five acres in the Keremeos district will be given over to tomatoes. There, three canneries will operate, the Dominion, Keremeos Packing Co. and the Caston Co-operative Co., the latter a new concern, which will handle about one third of the local crop.

The Kamloops cannery will be supplied from about 100 acres. Dominion Canners have also arranged for a supply of tomatoes there to be shipped to their Vancouver plant, about 50 acres having been signed. Seventeen dollars a ton will be paid to growers.

## VERNON TO HAVE HOSPITAL DAY

For some score of years the King's birthday has been observed in Vernon as Hospital Day, and, to judge from the advertising, the celebration on June 4th next will be of more than usual interest. A novel feature is the introduction of a pageant of Canadian history, which gives promise of much entertainment and is being presented by various organizations of the town.

## MOVE TO BUY BR. COL. FRUIT

### Winnipeg Members of I.O.D.E. Will Demand Products of This Province.

Members of the Municipal Chapter of the I. O. D. E. in Winnipeg, at a general meeting, passed a resolution pledging themselves to purchase British Columbia fruit in preference to fruit grown in the United States. Their action was taken as a result of an address by Mrs. King Brown, of Vancouver, who said the returned soldiers who have gone into fruit farming in B. C. are impoverished financially by the influx of U. S. fruit to Canada.

Summerland's new box factory will soon be ready for operation. For some days, mechanics have been at work installing machinery in the building erected last year near the K. V. R. station. The plant is being equipped with modern machinery and will be able to turn out a large volume of shuck at a cost that will put the company in a position to meet competitive prices.

# Fruit Confections To Be Product of New Factory

### Poplar Grove, South of Naramata, Site selected for Plant of Loumindon Fruit Confections, Ltd.—Is Outcome of Experiment on Naramata Ranch.

Pessimists who refuse to be comforted by the hope offered by establishment of the new co-operative marketing movement shake their heads and talk gloomily of over-production, and if they were to be believed, says the Kelowna Courier, there would be nothing but darkness lowering on the horizon of the Okanagan fruit industry. Their dun-colored predictions are quite unwarranted, however, in the opinion of the manager of a new industry which is on the threshold of large development that will mean much for the Okanagan.

The gentleman in question is Mr. S. Angell, manager of Loumindon Fruit Confections, Ltd., of Penticton, who paid a visit to Kelowna on Friday last on business in connection with the operations of his company during the forthcoming season. From boyhood, Mr. Angell has been deeply interested in the scientific side of fruit preservation and utilization in various fruit products. The son of a Canadian, but brought up in England, he was encouraged by his father, who was keenly devoted to the same study, to pursue his investigations, which, interrupted by war service in Gallipoli and France, were resumed in Canada when he became associated, two years ago, with Mrs. M. B. Smith, of Naramata, a lady who had made a success of sun drying fruit and of preparing fruit confections, which she demonstrated on a number of occasions before Women's Institutes throughout the Okanagan. During these two years the associates have carried out much research work and, as the result, the company which they have incorporated under the name of Loumindon Fruit Confections will prepare about 70 different fruit products instead of the eleven evolved by Mrs. Smith while working alone. In order to give an idea of the scope covered, we subjoin a list of the principal items, revealing that a field exists for the utilization of fruit much wider than is generally known.

Fruit confections, including candied cherries, apricots, nectarines, prunes, plums, pears, peaches and cantaloupe; fruit flavors; chocolate dipped candied fruits; chopped candied fruit for ice-cream; peach "leather" (peaches ground into a pulp and pressed into a "chewing" substance); plum de luxe; prune de luxe; fruit delights; toffee apples; marzipan (paste with pronounced almond flavor make out of the ground pit kernels of peaches); apricot and quince marmalades; crab-apple and quince jollies; peach, apple and cantaloupe butters; crab-apples in syrup; apple and cherry and combination fruit salads; evaporated cherries, peaches, prunes and apples; maraschino cherries, glace; citron peel; mince-meat; cherry raisins; sweet pickles, peaches, pears; Indian cherry, mixed fruit and pear chutneys; liqueurs, including cherry liqueur brandy, Loumindon Special, noctar liqueur, peach liqueur; apricot and cherry wines; champagne cider; syphon drinks; fruit pectin; almond oil; crushed fruit; fruit syrups; chopped crystallized fruit for ice cream.

This is a formidable list and it will take an elaborate equipment to manufacture the various items. To the shame of Canadian capitalists be it known that the necessary capital could not be raised in this country, and the promoters have been compelled to look to California, where the success of similar enterprises has induced moneyed men to subscribe freely to the shares of the company and financial obstacles in the way appear to have been overcome. Accumulated funds in Montreal and Toronto seem to find a free outlet for investment in Cuba and Porto Rico, but the purse strings are drawn tight when a proposal for the development of a basic Canadian industry is put forward.

The factory of Loumindon Fruit Confections, Ltd., will be situated at Poplar Grove, between Naramata and Penticton, a point convenient alike for supplies of the soft fruits largely utilized as raw material, and for shipment by the Kettle Valley Railway, a siding of which will be run into the premises. The necessary property has been acquired and much of the machinery ordered, so as to be in time for this season's operations. If conditions warrant a branch plant may be erected at Kelowna.

The important point is that this new industry will utilize much soft and perishable fruit that would otherwise go to waste, as most of the material must be in a tree-ripened condition for dehydration and there-

fore much too ripe to ship. The market is boundless, large orders already having been received by the company from the Old Country and from the Hudson's Bay Company for the unique fruit confections and other attractive products which have been manufactured hitherto in a small way at Naramata. As Mr. Angell points out, by far the larger proportion of California's fruit crop is marketed in a prepared form instead of in the fresh condition, and assurance is offered that the Loumindon Fruit Confections, Ltd., and the kindred enterprises which may be expected to emulate its success will have a tremendous effect in disposing of the bogey of over-production of Okanagan fruit.

A much smaller benefit, but one that cannot be overlooked, will be afforded through the provision of winter employment, so much needed in a purely agricultural country. The Loumindon factory will probably employ thirty hands steadily at the outset the year round, with about forty additional during the height of the fruit season. A few industries of this nature would thus mean much towards the solution of one of our greatest problems.

### INVEST AT HOME. (Courtenay Argus)

About a year ago salesmen for a fire company spent some time in this valley and were unusually successful. In spite of the very alluring promises they made at the time no dividend is in sight. There are now other salesmen selling other stocks in the valley, and we suggest to those having money to invest that they stop, look and listen before they sign their name on the dotted line.

Just think for a minute. If these stocks were so certain of yielding huge profits as these visitors declare to us, would they be up here scouring the highways and byways for men to put money into them; the men on the inside would form a snug little syndicate and keep all these fine, fat profits to themselves; they would not invite total strangers to the feast. All these stocks—mining and oil, and many industrials—that are being peddled from door to door by salesmen like Christmas cards, are long gambles, ninety to one shots, and how many investors in this valley can afford these long odds? The periodical raids of these salesmen drain the district of ready cash and impoverish everyone. It is sound advice to put your money into something that you can watch, and in a measure control. There are local bonds, gilt edged, that will yield an excellent and certain dividend every year; if you want a higher rate than Victory Bonds, why not try them?

### Less Dangerous.

"Got any squirrel whisky?"  
"No, but I can slip you some Old Crow."  
"I don't want to fly, I just want to jump around a little bit."

It's the Truth, Mabel  
We turned the plea of a beggar down,  
He gave us a look that was mean and black.  
He got ovan with us as we walked down the street,  
He ran us down with his Cadillac.

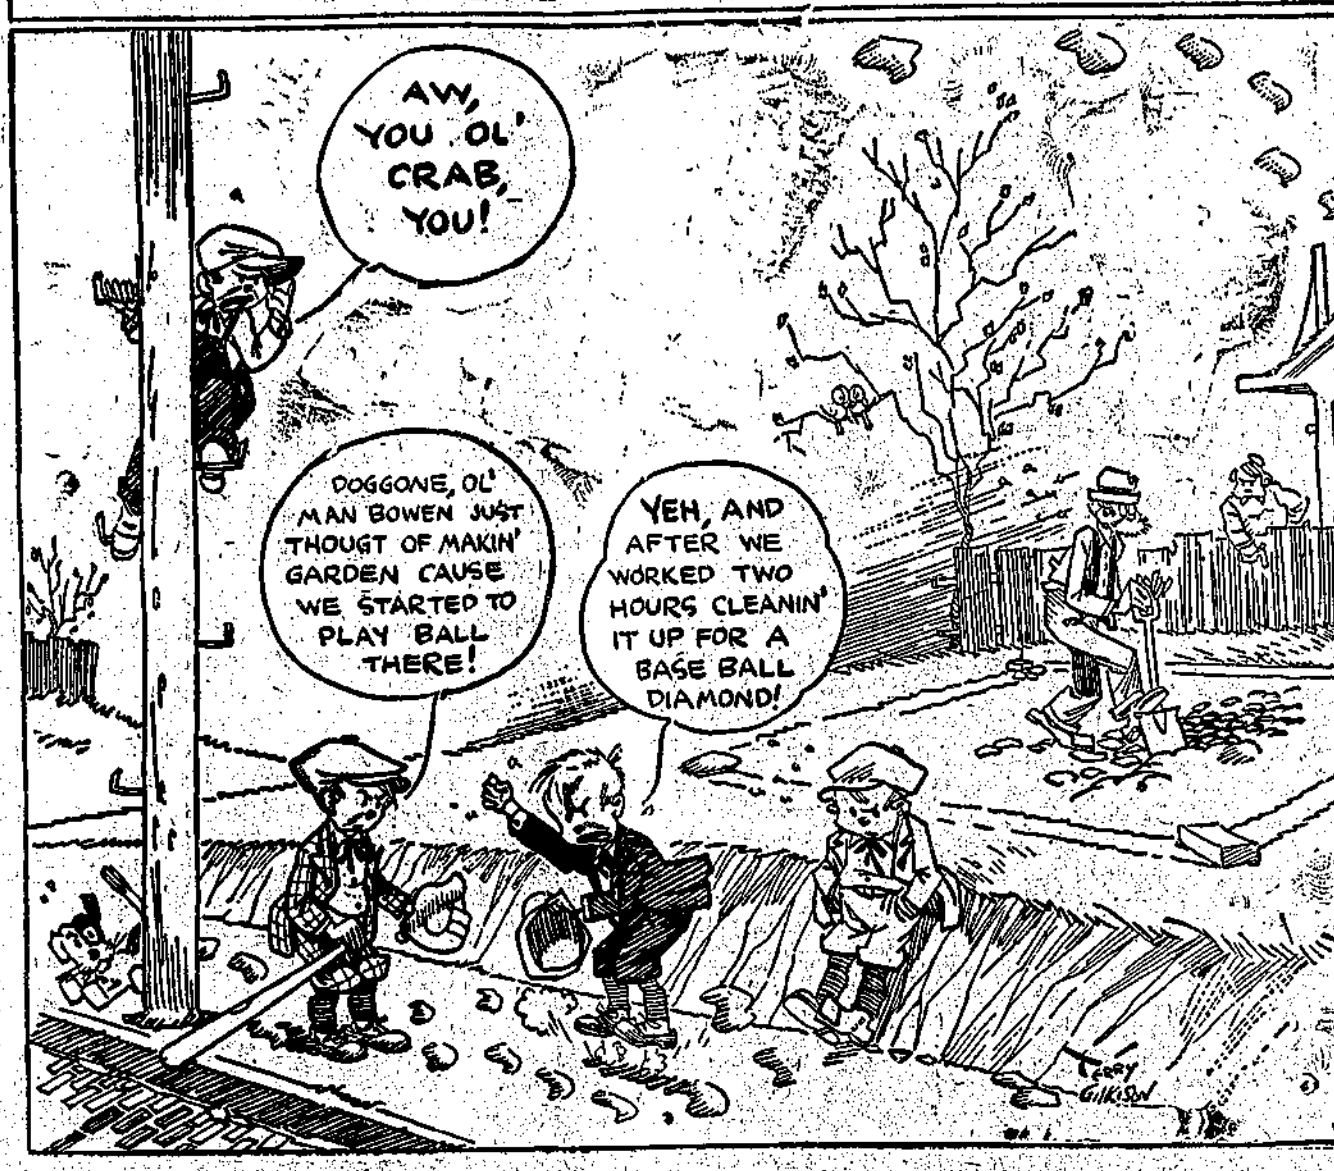

### MAIL SCHEDULE.

For the convenience of our readers we give below the time of closing of all mails at the local post offices for despatch by boat and train and also interchange between the two offices:

**AT SUMMERLAND OFFICE.**  
For all points North, East and West—0 p.m.; Sunday, 6 p.m.  
For Naramata, Penticton, South, Similkameen, Boundary and Kootenay—Daily, except Sunday, 6 p.m.  
For Vancouver and Victoria—Daily, except Monday, 11 a.m.  
For West Summerland—Daily, except Monday, 7.30 a.m. and 11 a.m.; Daily, except, Sunday, 6 p.m.  
For Rural Route—8.00 a.m. daily, except Sunday.

**AT WEST SUMMERLAND OFFICE**  
For Coast Points—Daily, except Monday, 11.30 a.m.  
For South, North and East—Daily, 5 p.m.  
For Summerland Office—Daily, except Monday, 11 a.m.; and daily, 5 p.m.

## Most Unpopular Man In Town

### THE OTHER MAN.

Perhaps he sometimes slipped a bit—  
Well, so have you.  
Perhaps some things he ought to quit—  
Well, so should you.  
Perhaps he may have faltered—why,  
Why, all men do, and so have I;  
You must admit, unless you lie,  
That so have you.

Perhaps if we would stop and think,  
Both I and you,  
When paintin' someone black as ink,  
As some folks do,  
Perhaps, if we would recollect,  
Perfection we would not expect,  
But just a man half way correct,  
Like me and you.

I'm just a man who's fairly good,  
I'm just like you.  
I've done some things I never should,  
Perhaps like you.  
But, thank the Lord, I've sense to see  
The rest of men with charity;  
They're good enough if good as me—  
Say, men 'like you.

### Never Fail Cure.

Hubby—"Well, Marie, I cured that boy of ours from smoking."  
Wife—"How did you do it?"  
Hubby—"I left those Christmas cigars you gave me out on the dresser."

### PUBLIC IS THE BOSS

Many a man looks forward to the days when he will be "his own boss" in business on his own account. Being in business on your own account means that you have simply exchanged a few bosses for many, and this many consists of the public. The public is a most severe and exacting boss, but for the man anxious to serve it, and who will study its needs with a view to meeting them honestly and fully, the public will pay well.

### Literal Lem Again

Judge Symthe—"The reckless drivers must go!"  
Prosecutor—"Yes, but why go so fast?"  
Rap-rap-rap—Order in the courtroom.

### Correct! Call the Next Witness

Attorney—"Now, tell us where did you see the defendant milking the cow?"  
City Witness—"A little past centre, sir."

### The Neighbors, Too.

Miss Effie Schoonmaker, Teacher of Singing. Special pains given to beginners. Ad in Port Jervis Gazette.

### CHARLES AUSTIN BATES SAYS:

## "The Time to Advertise is All the Time."

After a ball starts to roll it will go a certain distance merely by reason of its own momentum.

The heavier and bigger it is the further it will roll. It may have been pretty hard to start in the first place, but once you get it going a little push now and then will be all that is necessary.

If the ground is soft and rough you will have to push pretty hard. When you get to smooth places it will be easier.

The ball of business is hard to roll in hot weather. The ground is more or less sticky and there is a great deal of friction. Still if you push hard enough, you can move it.

In the fall, when cool weather has made the road to trade easier and smoother, you will not have to push so hard unless you want the ball to go faster. If you do not push at all, it will come to a standstill even on a sheet of glass.

Somebody has said: "The time to advertise is all the time."

That is one of the smartest things that was ever uttered.

If you do not advertise in the summer—if you do not push the ball at all—it will stop. If you do not advertise in the busy season, business will go on for a certain time at a slow rate of speed. But if you want to get over a good deal of ground in a short time, you had better push it along lively.

A peculiar thing about the road to business success is that it runs uphill—if you stop pushing your ball it will roll down.

### Fire When Ready, Gridley

Has anyone seen Pete? Pete who? Petroleum. Yes, kerosene him yesterday and he hasn't benzine since. Whizz-zz-zz—Smack-K!

Charity begins at home—and there is no end.

### How Old is Aunty?

Aunty was explaining to little Harold the story about Columbus discovering America and ended it with: "And all this happened over four hundred years ago." Harold, his eyes wide open with wonder, said after a moment's thought, "Gosh, aunty, what a memory you have."

# GOD SAVE THE KING

Last year 2,113 men and 553 boats were employed in the Manitoba fresh water fisheries, with an equipment valued at \$695,414. Over 1,125,000 pounds of fish were caught under domestic license, while the commercial fisheries realized over 16,500,000 pounds. Fish taken under domestic license are not offered for sale, but are used by those catching them, chiefly settlers.

The automobile industry contributes an important item to the export trade of Canada. During the contract year of 1923 the volume of business shows a marked increase, and the prospects for spring trade throughout Canada are most encouraging, schedules having been laid out for a large increase in production over previous years.

Give Mr. Snipe's wife's knife a wipe.

## VICTORIA DAY CELEBRATION AT KELOWNA

Continued from Page 1)  
The two mile Bicycle Race was another victory for Burch, Kelowna, who won somewhat easily. C. Weeks was second, and R. Weeks (third). Time, 7 min. 22 secs.

440 yards. There were three entries in this race. F. Dugan and J. Aitken, Kelowna, and R. E. Reid, Summerland. The latter set a clipping pace and won easily. Aitken was second. Time, 57 seconds.

High Jump. This was fought out solely by two entrants, Gayton, Summerland, and Aitken, Kelowna. The latter was somewhat fatigued after his previous exertions, and Gayton was declared victor after topping 4 feet 10 inches.

One Mile, open. This was a popular win for the Kelowna entrant, Geen, who took the lead and was never passed, ending an easy winner. Munn, Summerland, was second. Up to this time Summerland had been annexing all the treasury for the flat events, and the mile win by a Kelowna boy greatly pleased the on-lookers. The time was slow, 5 min. 14 and two fifth seconds.

The sports throughout were admirably conducted, but much disappointment was felt by the public and management alike at the paucity of entries and thinness of attendance in comparison with previous years.

The officials at the morning's sports were: Starter, Dr. J. Evans Wright; Judges, Mayor D. W. Sutherland and Mr. R. W. Clarke; Timekeepers, Messrs. W. B. M. Calder, W. J. Buse and W. W. Pettigrew.

Football.  
The opening event of the afternoon was an association football match between Kelowna and Vernon, which ended in a win for the visitors by one goal to nothing. Kelowna appeared to be playing in hard luck, doing most of the aggressive work, but failing to register owing to lack of combination on the part of their forward string at several crucial moments. It was on a breakaway from a long bombardment of the Vernon goal that the latter got away and notched the only point throughout the game.

The respective teams were as follows:  
KELOWNA.—Goal, J. Burt; backs, D. Kinnear, A. B. L. Parsons; half-backs, R. B. Deane, C. Whitehorn, W. Handlen; forwards, T. Handlen, H. Whittingham, W. Woods, W. McClimon, G. Reith.

VERNON.—Goal, Mattock; backs, Ransome, Dean; half-backs, Shatford, Knight, C. McClounie; forwards, Hull, R. McClounie, Fallows, Besant, MacDonald.  
Referee: T. Pitts.  
Lacrosse.

It was evidently not Kelowna's day out, for the local lacrosse fans were mortified to see their pets trimmed to the tune of 3-0.

There were several new faces in the Armstrong ranks, and it is evident they are bent on securing the best of timber in their attempt to lift this season's pennant. All the new recruits acquitted themselves well. Urquhart, a former Kelowna boy, put up his usual good game, and is a decided acquisition to the team from the north. Several of the old faces were missing from the Kelowna team this year, their places being filled by young men who are just breaking into senior company; and perhaps this accounted for the 3-0 defeat.

The game was smooth with no element of roughhouse work. There were no major penalties, which speaks volumes for the class of men playing in both teams, but there was a lack of the essential ginger in the game which appeals so strongly to the spectators. The early season want of condition of some of the players was no doubt responsible for this. Dick Douglas, of Armstrong, refereed the game to everyone's satisfaction. The timekeepers were McQueen and Wright.

Baseball.  
The Kelowna spectators were appeased in the closing game of the day, when Summerland was defeated at baseball by a score of 7 to 4.

It was a clean and snappy game until the fatal fourth innings, when the Kelowna team played merry havoc with DeBeck's pitching. When the merry-go-round started our boys became erratic and some fatal errors were made. In these innings every man on the Kelowna team went to bat.

LeQuenne, for Kelowna, pitched a good game, and was given splendid support. In the first inning he retired Summerland in short order. When Kelowna went to bat they registered two runs, mainly brought about by some bungling in the field.

The second and third proved a contest between the pitchers, and in the opening of the fourth Summerland began to flatter their supporters. Buchanan got a two bagger, and he was followed by Gayton who fanned. Phinney made second on an over-throw and Buchanan came home. Reid smashed a dandy to right field but he was caught by Parkinson. Blewett struck out.

The balloon ascension and nose crash followed and at the conclusion of the fourth the box score read: Kelowna 7, Summerland 1.

In the fifth Summerland tightened up and reduced the lead by one, and in the sixth by superior work they had peeled two more off, and the game ended 7-4.

For amateurs it was a creditable exhibition. Were it not for the tragedy in the fourth Summerland would have held its own. Mr. Sparks umpired the game satisfactorily. The teams were:

Summerland	Kelowna
Buchanan	c.
DoBeck	p.
Gayton	1b.
Logie	2b.
Phinney	3b.
R. Reid	ss.
Vanderburg	cf.
Wills	rf.
Blewett	lf.
	Buse

Score by innings:  
Summerland ..... 0 0 1 1 2 0—4  
Kelowna ..... 2 0 5 0 0 x—7

A very enjoyable dance followed in the Scout Hall.

### AMERICANS IN CANADA.

It is estimated that there are approximately one million people in Canada who were born in the United States, or about twelve per cent. of the Dominion population. Most of those are to be found on farms in the Western provinces. Nearly one hundred million acres of Western Canadian land has been settled by homesteaders, and the citizens of the United States have accounted for thirty per cent. of such settlement as against twenty per cent. on the part of British. In addition, United States citizens are each year the heaviest purchasers of privately held and improved lands and farms.

## Creston Decides To Operate Independently

### Directors of Creston Fruit Growers' Union Not Prepared to Accept Terms For Membership in Provincial Organization.

Creston, B. C.—Creston Valley's fruit crop (Wynndel excluded) will be sold entirely independent of the Associated Growers of British Columbia.

This was finally decided at a directors' meeting of the Creston Fruit Growers' union, which was attended by A. M. Pratt of Vernon, the Associated Growers' general manager, and Mr. Howe, one of the permanent directors of the Association.

The meeting was most harmonious throughout, with the Vernon delegates willing to concede most of the Creston demands with the exception that it would not free Creston from the payment of the five cents a box which the Associated Growers requires for the purchase of premises of fruit selling locals that are insolvent, but which are being taken over by the growers, as well as for purchasing independent packing houses and equipment which will be needed at different Okanagan points for the conduct of the growers' business.

In addition to requiring an assessment of five cents a box on all fruit handled by the Creston Fruit Growers' Union, the Associated Growers also required that Creston should contribute an as yet unknown per box charge for the maintenance of central, and on top of all this the union directors would still have to make provision at Creston for financing the season's operations here. The directors were quite unanimous that Creston Valley growers would not consent to paying the two Associated Growers' charges as well as taking care of their own local financing, and for these reasons it was decided to remain clear of the Associated Growers for 1923.

Messrs. Pratt and Howe are exceptionally optimistic as to the new selling organization being able to this season open up new markets that will take care of several hundred cars of apples that were previously sent to the old country or consigned to the prairie market.

The Fruit Growers Union, Limited, directors as well as the other growers who met Mr. Pratt, were greatly impressed with his appearance and knowledge of the marketing situation generally, as it is hardly a month since he assumed the management of the Associated Growers.

The decision of the union directors to remain out of the big British Columbia selling agency, of course, means that Creston will not be the selling central for the whole Kooten-

ay fruit crop, as was favored by the Associated Growers' directors, as well as many of the Kootenay fruit selling agencies, particularly those along the Arrow Lakes, who with their three-days-a-week express service, are at great disadvantage in connecting with Creston on the Crow line and southern Alberta markets.

O. J. Wigen, president of the Co-operative Fruit Association of Wynndel, also had a conference with Mr. Pratt and Mr. Howe on Friday afternoon, the Wynndel association having signed the Associated Growers' contracts to the extent of 90 per cent. of the tonnage in the Wynndel district, which is almost wholly strawberries.

PACIFIC FRUIT RATE CUT BY 10c PER BOX  
Kelowna.—Mr. Leopold Hayes, manager of the Occidental Fruit Company, had an important interview with Mr. J. C. Irons, manager of the Canadian-Australasian Royal Mail Steamship Company, when the latter was in Kelowna last week. On Mr. Hayes pointing out that the rates for shipping fruit on the Atlantic steamship lines had been lowered from 60 cents to 35 cents per box, and that no such reduction had been made on the Pacific routes, Mr. Irons promised to take the matter up on his return to Vancouver, and on Tuesday wired Mr. Hayes that the rate would be made 90 cents per box from Vancouver to Auckland, a reduction of ten cents per box on last year's charge. A considerable shipment was made last year to Auckland, and in Mr. Hayes' opinion this reduction may mean some 30,000 to 35,000 boxes of Okanagan apples may find a market in New Zealand this season. As far as is known locally, however, the embargo placed by Australia on Canadian apples has not been lifted.

During the reign of peace on earth most nations are plotting to secure another piece of it.

## McDOWALL JOINS ASSOCIATED STAFF

W. J. McDowall, since 1917, general manager of the Okanagan United Growers has been appointed traffic manager of the Associated Growers.

Mr. McDowall's knowledge of the business and his ultimate connection with the O. U. G. will no doubt prove of great value to the new organization.

Mr. McDowall was considering leaving the Valley but on the directors of the Association approaching him to accept this position, he decided to remain.

### CO-OPERATION

On every side Nature flaunts this lesson in man's face.  
The seed itself is nothing.  
Sun, soil and moisture must cooperate with the latent germ in order to produce plant life.

The most solid rock is only co-operating atoms.  
The strongest man is weak alone. Only by working with others or winning others to work with him can he achieve worthwhile results.

The biggest business is bound for failure if its workers do not co-operate.  
It is a machine whose parts do not work together. It may run for a while on its own momentum, but it is headed for the dump-heap.

To co-operate is to join forces and something more. It is to join hearts as well as hands, and slip a little soul in the bargain.  
Not to co-operate is to court loneliness, life-rust and loss.

The a.B.C. of success is this—Be a Bee!  
CO-OPERATE.  
—Leigh Mitchell Hodges.

### LESSONS IN ETIQUETTE.

(By Miss Vera Dence)  
A real gentleman is always helpful and considerate to the weaker sex. When in the home of his best beloved, and his future mother-in-law, perchance does have a coughing fit at the dinner table, he should quietly arise, and with a manner full of respect and consideration, pound her on the back with his fist until her cough is relieved.

## Made From The Mildest Cleansers

Palmolive contains Palm and Olive oils. These oils were the cosmetic cleansers used by Cleopatra and kept her skin fresh, smooth and youthful.

Today their scientific combination in Palmolive produces the most perfect of all facial cleansers. Science has discovered nothing finer, milder or more beneficial for the toilet than Palm and Olive oils.

Artful applications of rouge and powder may lend your skin the appearance of smooth freshness. But unless you cleanse the pores thoroughly every day with soap and water, blackheads, pimples and other blemishes are sure to result.

Some persons imagine that soap is too harsh for the face. They should try Palmolive. Its mild, smooth, creamy lather, when massaged into the skin, cleanses without the slightest irritation.

You can buy Palmolive Soap at all first-class dealers.

Made in Canada

# The Summerland Review

Established August, 1908.

Published at Summerland, B.C., every Thursday by THE REVIEW PUBLISHING COMPANY, LIMITED  
Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Member of Canadian Weekly Newspapers Association.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

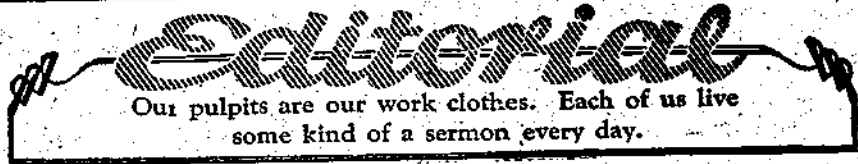

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

All instructions for cancellation or alteration of advertising must be in writing.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Typographical Errors—In the event of a typographical error, advertising goods at less than the proper price, the newspaper will furnish letters to be posted in the store stating the correct price, but goods may not be sold at the price printed and the difference charged to the newspaper.

Thursday, May 31, 1923

## A RIDICULOUS REPRESENTATION

A district like the Okanagan Valley, possessing outstanding features of uncommon character, necessarily receives much publicity of various sorts, good, bad and indifferent. Rarely, however, is it condemned to read such an astonishing impression of itself as that which apparently exists in the mind of the writer, responsible for "Rain in the Okanagan" appearing on the editorial page of the "Daily Province" of May 25th. In this amazing travesty of local conditions we are led to suppose that, except for those infrequent periods when rain comes to our succour, we dwell in a desert where dust is all supreme. Dust above us, below us, and around us, stretching our taut cheeks, straining our eyes, covering our trees, enveloping every moving thing in clouds of marching armies, and even covering our lake with a dusty bloom! We are all wild eyed with the biting sting of dust and drying winds, and only the relief of the too evasive rain restores the quietness of sanity to our aching optics. This kind of thing would be more or less excusable if written by an outsider, but coming from one who should know quite well that the picture is entirely preposterous, such stuff is simply astounding.

## SUPERINTENDENT HELMER.

That excellent work has been accomplished by R. H. Helmer as superintendent of the Experimental station here is appreciated in other parts of the Valley as well as in Summerland, is apparent from the following editorial comment in last week's issue of the Vernon News—

"When it was learned last week that Mr. Helmer, superintendent of the Summerland Experimental Station since its establishment, was shortly to leave the Okanagan, growers and business men up and down the valley expressed their regret. Mr. Helmer has been a friend of the grower. In the research work carried on at the Summerland farm he has done much to aid industry, not only in the Valley but throughout all the British Columbia fruit districts.

He has been ever willing to give advice to those in difficulties, while his lectures and papers have been of great value.

When any movement that had for its object the progress and development of fruit growing Mr. Helmer was always one of its strongest supporters.

At Summerland he has made a wonderful farm. It is the show place of the Okanagan. Under his direction it has been made into a practical agricultural and horticultural college where the problems of the agriculturist have been, or are being worked out. He has been bound up in his job and everybody who knows Mr. Helmer and his work knows that he has done well.

When he leaves the Okanagan he will take with him the best wishes of all growers and business men, for among them he has a host of friends. While we are sorry to see him go we are glad to know that his work is being recognized and that he is not being lost altogether to British Columbia.

## THE FOLLY OF IT.

Dealing further with Mr. Helmer's resignation, to enter the employ of a private citizen, the Vernon News condemns the attitude of our governments with respect to expert employees. Constantly we are seeing men who have proven their worth in some department of public service, picked off by private enterprise to the loss of the province or nation. Mr. Helmer's case is another instance of this. Here is the view the News takes of the subject—

"Mr. Helmer's leaving the civil service is just another instance of a man who has made good working for the government giving up his job to accept a more lucrative post elsewhere. How often we have seen this in the past. The governments for some unknown reason have an idea that good men can be kept in their employ at salaries much less than they are able to command in other spheres. Men who have made good and are valuable servants have time after time thrown up their positions to stop into commercial life. Surely there is no more important work in the country today than that of the government, and when a man, like Mr. Helmer, has proven to be the right man in the right place he should be retained.

We complain about the incompetency of our civil service but yet the government does nothing to make the position attractive. Men are lured away when perhaps they are in love with their work; we are all human and

the increased salary brings with it those extras of life which we all so much enjoy.

How long are governments going to let men slip away into other fields when their ability and experience is so much needed? It is a matter that demands the serious consideration of our law makers and none more perhaps than those in charge of our departments of agriculture, both provincial and federal."

## CANADIAN AND UNITED STATES GALLONS.

A slip in one figure in a recent comment in this column on the difference between the Imperial and American gallons, made the article rather bewildering, the size of the Imperial gallon being inadvertently given as 227.274 cubic inches, instead of 277.274. May we repeat?

A Canadian or Imperial gallon of water of a certain temperature and at a given altitude, weighs 10 lbs. Under like conditions, the U. S. gallon weighs 8.3389 lbs. Again, the U. S. gallon measures 231 cubic inches, the Imperial, 277.274 cubic inches, almost exactly 1.2 U. S. gallons or English wine gallons. Multiplying 1.2 by 5, you get 6 of the smaller gallons. It is quite a common error to consider 4 of our gallons as equal to 5 American gallons.

## KEEPING POSTED.

It used to be an old-time joke that some people were so fond of newspapers that they even read the advertisements.

That might have been a humorous remark years ago. At that period some merchants would run an advertisement a whole year unchanged. Clothing dealers would start in advertising January first with notice of overcoats for sale, and would keep on advertising overcoats until July.

Today people read advertising as a matter of business. The women read it just as a farmer reads price current or a banker reads the financial laws. They thereby get ideas as to how they can save on household or personal expenses.

Probably a majority of the women first turn to the advertising carefully. Even if they have no business enterprise of their own, they are interested in the advertising as a reflection of the business life of the town.

Hence, it is perhaps unnecessary to suggest to the readers of this newspaper that its advertising columns are worthy of the most careful attention. Still it is worth while to say that there is no time when advertising is worth such careful attention as in midsummer. All kinds of merchants have the proposition before them of cleaning out their stocks before cool weather sets in. That makes a good deal of publicity. The goods will not move themselves. The public must be told about them and in some detail.

The story of what is happening in the stores will be found in the advertising columns of this newspaper. Most newspaper readers are seeing it, and it will repay their closest scrutiny.

## FREE TO BEEKEEPERS

There has just been published by the British Columbia Department of Agriculture, a treatise on the subject of bee culture in this province. This bulletin, No. 92, contains very much information of value, particularly for the amateur apiarist. We would suggest that any of our readers who are interested in this subject, write the provincial apiarist, W. J. Sheppard, Victoria, for a copy.

## CO-EDUCATION IS WRONG.

Co-education has been abolished in the High Schools at Victoria; it should be abolished in every High School in Canada. All thoughtful educationalists have admitted that it has worked great harm for years past and that it should be abolished. What has been a part of the public school system for so many years will be difficult to change, but it is generally admitted now that the change is necessary and cannot be made too soon.—Comox Argus.

## THANKS TO THE PIONEERS.

The Associated Growers is but one of the succeeding co-operative ventures among the fruit growers here. It bids fair to be successful for two reasons. First it has enlisted about ninety per cent. of the orchardists, and secondly, it has tied them up for five years. Adverse conditions brought the growers into a frame of mind where they were willing to throw aside differences of opinion and join hands in a great producers marketing movement.

The Associated Growers therefore appears to be the best of the various co-operative organizations seen in the Okanagan during the past decade or two.

But what of the earlier types? They served a purpose, surely, and although they did not reach permanent existence they achieved some good. It is certainly not out of the place to express a measure of gratitude to those men who, throughout the years that have gone by in this valley, gave so much of their time and labor in the cause of Co-operation. Their efforts did not themselves succeed but at least a way was made, a road was built, by which those who followed after will be able to surmount the obstacles of the past.

To the co-operators of early Okanagan days our thanks must unreservedly be due.—Penticton Herald.

It is true that rumors are usually false.

Some people become swelled up with their own hot air.

The new woman is the one who lets the old man do all the work.

Widows and widowers are not as selfish and as avaricious as other people. Many of them devote much time to looking out for No. 2.

## GIRL GUIDES' PERFORMANCE

Excellent Program Enjoyed by Full House.

Those who attended the performance at the Rialto Theatre, given on Tuesday night by the Girl Guides Association, were surprised and delighted. The preliminary advertising did not prepare us for the great treat that was offered, there being several items which were of distinctly high calibre.

The theatre was jammed to the doors when the opening number was presented, and the large and enthusiastic audience paid unstinting compliment to the various interludes of dancing and choruses. Much pains and time had evidently been spent in the entire production, the evening's performance reflecting the highest credit on all concerned.

The program was divided into two parts, the first being devoted to a variety of items which for originality would be hard to beat, whilst the second part consisted of a laughable one act farce entitled "The Bathroom Door."

The program opened with an Oriental dance by Helen Sutherland, whose graceful and sinuous movement denoted excellent training in the terpsichorean art. This charming little lady was quite at home in this and several other characteristic dances in which she appeared throughout the evening.

Mona Winter and Alma Lott sang a tuneful duet in court costume of the Georgian period, which was greatly appreciated. Miss Winter looked a bewitching Beau Brummel in silk breeches and powdered periwig, whilst Miss Lott was charming in her frills and flounces. An encore was demanded.

Mr. C. B. Winter supplied a lot of mirth with his song, "Foolish Questions." He accompanied himself on his banjo, and the audience would not allow him to depart until he had given "A Little Peach in an Orchard Grove."

A unique offering was that of Myrtle Walden and Jean Moffat. Correctly attired in "rustics" they sang a love ditty, and were assisted by a chorus of girls, one of whom made an unconventional entry by throwing a "cartwheel." This went great, and the audience sweet for a repetition.

Mrs. Denny, in a sweet voice, sang "When You Come Home, Dear," and encoored, sang another tuneful ballad.

Alannah Sutherland and Helen Sutherland appeared as Spanish dancers, going through all the intricate movements in a graceful and clever manner. They also received a generous encore.

The evergreen "Gallagher and Shean" was exceedingly well put over by Allen Harris and George Guy. Made up as wandering minstrels of Hebrew type, they kept the audience in roars. George Guy discoursed mournful music from a fake tenor horn, whilst Allen Harris strummed upon a banjo. They had to respond to a number of well-earned encores.

Mr. Winter gave another comic song with banjo, "Popita, Over the Garden Wall," and Mrs. Donny again delighted her audience with a solo entitled "So Were You."

An improvised act which was pleasing then introduced some eighteen or twenty girls, all costumed to represent the various characters in the "Nursery Rhymes." The excellence of the costumes in this item was at once apparent, and the young artistes all jumped into the picture in perfect rhythm when the titles were called upon.

"The Bathroom Door" was an exceedingly funny one act production. The setting was a corridor in a hotel with the bathroom door occupying central position. A number of guests of somewhat eccentric type were apparently desirous of making their morning ablutions at the same hour. The bathroom door appeared to be locked from the inside, and some side-splitting complications ensued as the bathers gathered around the door in various degrees of deshabille, each demanding prior right of entry. One lady guest, who had previously "had words" with her husband, suddenly imagined that he had committed suicide in the bathroom and that his body was hanging there. This gave occasion for frantic despair on her part and indignation and fear on the part of the others. Eventually as desperate measures were about to be resorted to, the page boy arrived and informed them that the door was not locked, but just stuck at the bottom. Upon entering the woman failed to find the body of her hubby as expected, and in response to her frantic appeals as to where she could find the body, she was told by the page that "it" was downstairs having "its" breakfast.

The characters were admirably sustained, the cast being as follows: Mrs. F. W. Andrew, Miss Cartwright, Miss Nora Thompson, George Guy, Allen Harris, Jack Nicholson.

## CHICKS REQUIRE BROODER HEAT FOR FIRST TWO MONTHS

In order to cut down expenses, the average poultryman is apt to take the brooder heat from the young chicks before they are sufficiently strong to get along without it.

Heat should be supplied until the stock is at least eight weeks old, irrespective of the weather conditions. Especially must the heat be supplied between the hours of 7 p.m. and 7 a.m.

Where the brooder stove is removed too soon there is great danger of the chicks contracting a form of cold termed "brooder pneumonia," an affection entirely due to the carelessness of the operator.

## WHAT MAKES A LIVE TOWN?

How Every Citizen Can Help to Make It More Prosperous.

Stay away from that town. It's a dead one.

Do you want that to be said of your town? Of course you don't for you wish, as a matter of local pride, if for no other reason, to have your town stand high in the estimation of the world.

But are you sure that you are doing everything in your power to place your town in that position which you wish it to occupy? That is the question that every person should ask himself or herself at frequent intervals.

When things are running smoothly, when times are good, and when it is fairly easy to make a good living for the wife and kiddies, it is so easy for a man to forget that these things do not come to a town as a matter of course, but are the results of the citizens of the community.

It is so easy for a man to grow careless and think that, because this condition existed, it will continue to exist without any effort on his part or that of the other residents of the community.

That is why it is important for every one to stop and think seriously once in a while about what it would mean to him if the prosperity that makes life worth living for him should take wing and fly away.

Nobody likes to live in a dead town. No one even likes to visit a dead town. That is why you sometimes hear that warning: "Stay away from that town. It's a dead one."

The town which has the reputation of being a dead one suffers as if from a pestilence. Business men seeking new locations will have none of it. The live travelling salesman, even, will give it a wide berth. Those who live in it will get away if they can.

When a town is live and prosperous, local business is good, real estate values are high and stable, labor is in demand, and wages are good; the streets are well lighted, the residents and their property are protected from robbery and fire, and good schools are maintained for the education of the children.

When a town is dead, there is little money in circulation, store buildings stand empty with "For Sale" signs hanging on the front door; there is little employment for the laboring man, the streets are dark, the schools are crippled.

What sort of town do you want to live in? There is only one answer to that question. You want to live in a live town and enjoy all the good things that come to the residents of such a community.

The only question then is as to how these prosperous conditions can be created or maintained and it is the onus on the world to find the answer to that question.

If the people of a community will keep their money at home and keep it in circulation among themselves, they need have no fear of ever being compelled to live in a dead town. If the people will patronize their own business men instead of sending their dollars to the mail order houses, the prosperity of the community will take care of itself.

The local stores, to a very large extent, make every town. The taxes paid by the business men of the community are the principal support of the schools and public institutions.

It is the taxes paid by the storekeepers, to a large extent, that make possible the public improvements, the fire protection, the street lighting, and the many other things which make a town worth living in. The mail order house does not pay any taxes in the town from which it gets its money.

It does not help to support the schools or the churches. It does not

help light the streets or maintain the fire department. It is the aim of the mail order houses to drive small town merchants out of business, so that the people will be compelled to send to the cities for their merchandise, and they are spending thousands of dollars every month to accomplish this purpose.

If they should succeed, who would pay the taxes that are now paid by the local merchants? It's a certainty that the mail order house would not pay them.

Every dollar spent at home helps to make the town a live one.

Every dollar spent away from home to the mail order house helps to make the town a dead one.

The issue is a clear cut one and is squarely up to every resident of the town itself or of the country surrounding it.

The man who does not care whether he lives in a live or a dead town, if there is such a man, need waste no thought on the subject, but the man who wants to live in a live town cannot get away from it. It is up to him to make his town a live one or a dead one.

Alberta produced in 1922 ten million dollars worth more from the soil and livestock than in 1921, according to annual statistics compiled by the publicity bureau of the provincial department of agriculture, in co-operation with the Dominion bureau of statistics. Products of the land in 1921, including value of livestock slaughtered and sold, totalled \$137,455,000, and the estimate of last year's value of production is placed at \$147,336,000. The increase comes chiefly in the larger quantity of grain in the province last year, and in the substantial increase of about ten million bushels, although the average per acre is lower than in 1921.

Canada is exporting many iron and steel chains to many countries, including the United Kingdom.

The possibility of utilizing the anthracite coal found in the foothills of the Rocky Mountains in Alberta, north of the Canadian National Railway's main line, has been discussed in the federal parliament. It is said this coal is equal in quality to the American anthracite. British capitalists have been endeavoring to secure control of the field, according to reports emanating from Ottawa. The deposits are extensive and are so located that deep mining will not be necessary.

It is not the correct thing even in polite society to return the visits of a physician.

Bargain—Good baled alfalfa hay, \$25 a ton at West Summerland. M. G. Wilson. 799

A good time is assured for all who attend the dance in Empire Hall, June 4th, 9 p.m. 799

George Hannington returned on Sunday from Victoria, where he has been attending Normal school.

Wind up the holiday sports on June 4th by attending the Baseball club dance in Empire Hall, 9 p.m. 799

Miss Lorna Ramsay came in from the Coast on Sunday and is a guest of Mrs. Hannington at the Better 'Ole.

H. Trowse went down to Vancouver on Wednesday for the purpose of entering a military hospital for treatment.

Miss Merle Smith came in on Thursday of last week from Victoria, where she has been attending the provincial Normal school.

Davessa Cowan, one of the Summerland students at the provincial Normal school at Victoria, returned home last week.

Edgar Hobbs arrived home last week end from Victoria, where he has been a student at the Normal school for the past year.

M. G. Wilson is moving his office from the former Fruit Union office to the Stark building below the Drug store on Shaughnessy Avenue.

Summerland Women's Institute will hold a sale of Home Cooking Saturday afternoon, June 2nd, at the home of Mrs. Stark. 799

Alfred Vanderburg came in on Friday night from Toronto, where he has just completed his fourth year in medicine at Toronto University.

Help support the Baseball club. Attend the Dance in Empire Hall, June 4th, at 9 p.m. 799

Among the published lists of B. C. graduates of McGill University, there appears the name of Errol Calvin Amaron, Naramata, who has passed for the degree of Bachelor of Arts.

Jack Lawler is leaving this week-end for Toronto. He will spend the summer in Ontario, the first part of the season in giving instruction in box packing, and later in charge of a packing house.

Mrs. E. R. Simpson returned on Wednesday morning from Vancouver, very greatly improved in health as a result of the insulin treatment she has been receiving at the Vancouver General Hospital.

Mrs. Nye, of Vancouver, spent last week in Summerland, the guest of her daughter, Mrs. W. R. Payne. She returned to the Coast on Sunday accompanied by Mrs. Payne, who will visit there for a time.

Jack Hurrell, of the staff of the Canadian Bank of Commerce, has been transferred to Penticton, while P. S. Bird, of the Penticton branch, is taking the position formerly occupied by Mr. Hurrell here.

Mrs. E. R. Simpson returned on Wednesday morning from Vancouver, very greatly improved in health as a result of the insulin treatment she has been receiving at the Vancouver General Hospital.

Mrs. Nye, of Vancouver, spent last week in Summerland, the guest of her daughter, Mrs. W. R. Payne. She returned to the Coast on Sunday accompanied by Mrs. Payne, who will visit there for a time.

Jack Hurrell, of the staff of the Canadian Bank of Commerce, has been transferred to Penticton, while P. S. Bird, of the Penticton branch, is taking the position formerly occupied by Mr. Hurrell here.

Jack Hurrell, of the staff of the Canadian Bank of Commerce, has been transferred to Penticton, while P. S. Bird, of the Penticton branch, is taking the position formerly occupied by Mr. Hurrell here.

Mrs. E. R. Simpson returned on Wednesday morning from Vancouver, very greatly improved in health as a result of the insulin treatment she has been receiving at the Vancouver General Hospital.

Further special bargains are offered this week by J. C. Melvin. 799

Mrs. O. F. Zimmerman and children are now living in the E. N. Rowley house.

Dewey Sanborn returned on Wednesday morning from a motor trip to Nelson.

Mrs. Stephen Phillips has returned from the Coast, where she has been for some time.

Summerland baseball team will go to Peachland tonight to play against the Peachland team.

Edgar Gould has bought the house and lot in Victoria Gardens, formerly the property of Mrs. H. Agar.

Remember the dance in Empire Hall, June 4th, under the auspices of the Baseball club. Good music. 799

Just arrived at Finley's, new voiles in dress lengths, eighty-five cents and up. Wool bathing suits in colors. 799

Major Hutton and his niece, Miss Molesworth, returned on Wednesday morning from the Coast, where they had been for some days.

Mr. and Mrs. Bumfrey and family, recent arrivals in Summerland from England, have rented the Angwin cottage.

Miss Gwen Harris, of the staff of the Dominion Bank, is leaving on Friday for a short vacation at the Coast.

John Denike has returned from the Coast, where he has been a student at the Victoria Normal school, for the past year.

Rev. H. E. Livingstone leaves on Monday morning for Exeter, Ont., having been transferred to the Methodist church there.

John Casorso, of Kelowna, left last week for Italy, where he will visit his old home. Mr. Casorso has not visited his native land since coming to the Okanagan 37 years ago.

Mrs. S. Angove returned this morning from Vancouver, where she went as one of the delegates to the W. M. S. convention. While there she was the guest of her niece, Mrs. Archibald.

Miss Hippisley, a former resident of Summerland, and who has many friends here, came in from Victoria on Wednesday morning, and is a guest at the home of Mr. and Mrs. A. G. Munn.

Capt. P. S. Roe wishes to deny a current report to the effect that he refused to transport the baseball team and friends to Kelowna on the 24th. His offer to take the club to take up forty passengers for twenty-five dollars. 799

W. M. Dryden, since 1913 secretary of the Peachland Fruit Growers' Union, attended the pack and pool conference here last week when his suggestions were of great value during the discussions.—Vernon News.

Mrs. J. C. Wilson returned on Tuesday morning from a visit to Vancouver. While there, Mrs. Wilson was a regular attendant at the evangelistic meetings being held by Dr. Price, and speaks very highly of the marvellous faith and power of this famous healer.

Bringing back 175 pounds of trout, 100 of the 110 fish caught by the party, C. E. McCutcheon, G. H. Ingalls, Dan Rutherford and Channon Snow returned on Monday from a fishing excursion to the headwaters of Aconoa Creek. The fish range in weight from three and three-quarters pounds down.

Mrs. S. J. Conway, with Mrs. T. Bohan and daughter Marguerite, plan on leaving tomorrow morning for an extended visit to the eastern provinces and the States. Making their first stop at Edmonton, they will later continue as far east as Winnipeg. They will probably be away about four months.

V. B. Robinson, D. S. A., instructor of agriculture in the Summerland schools, has been chosen by the Provincial Department of Agriculture to give the courses at the summer school for teachers, to be held in Victoria, July 9th to August 10th. He will give instruction in horticulture and landscape gardening.

"Back to God's Country," the now famous picture from James Oliver Curwood's story, will be shown at The Rialto on Monday and Tuesday. Mr. Lockwood has gone to considerable expense to provide this big special for the night of the holiday. He is also providing a good program for Friday and Saturday of this week.

Mrs. E. R. Simpson returned on Wednesday morning from Vancouver, very greatly improved in health as a result of the insulin treatment she has been receiving at the Vancouver General Hospital.

Mrs. Nye, of Vancouver, spent last week in Summerland, the guest of her daughter, Mrs. W. R. Payne. She returned to the Coast on Sunday accompanied by Mrs. Payne, who will visit there for a time.

Jack Hurrell, of the staff of the Canadian Bank of Commerce, has been transferred to Penticton, while P. S. Bird, of the Penticton branch, is taking the position formerly occupied by Mr. Hurrell here.

Mrs. Nye, of Vancouver, spent last week in Summerland, the guest of her daughter, Mrs. W. R. Payne. She returned to the Coast on Sunday accompanied by Mrs. Payne, who will visit there for a time.

**FERRY SCHEDULE FOR JUNE 4**

Leaves Naramata for Crescent Beach 9.30 and 12.  
Leaves Gov. wharf, Summerland, 10 a.m. and 1 p.m.  
Fare: Summerland-Crescent Beach 10c. each way.

Special afternoon trip, Crescent Beach to Chute Creek, 25 cents return.

Mrs. H. Amundsen left on Sunday morning for Stirling, Alta.

Mr. J. Zolds, a former resident, was a visitor in town this week.

See Finley's for gingham dresses, \$2.35 and up, and colars for holiday. 799

Mrs. C. J. Seeley has as her guest her sister, Mrs. H. Crosts, of Winnipeg. Mrs. Crosts arrived here last Saturday.

Dr. D. Stalker, D. D., late of Calumet, Michigan, came in on Tuesday and is the guest of Mr. and Mrs. J. L. Logie.

Rev. J. Willard Litch, a frequent visitor to Summerland, and who has many friends and acquaintances here, has been given the degree of Doctor of Divinity by Brandon College.

Mrs. W. A. Doherty left a few days ago to visit her parents, Mr. and Mrs. John Ackland, at Brantford, Ont. She will probably be away until September.

Kelowna Poultry and Pet Stock Association will open an egg collecting station on June 1st, the eggs to be shipped through the provincial co-operative organization.

The C. P. R. steamer, Okanagan, is now on the ways at Okanagan Landing, where she is undergoing an extensive overhauling. A good deal of the planking of the hull is being renewed.

Mr. and Mrs. A. L. Soames, of Kelowna, well-known in theatrical circles, are leaving next month for England. A farewell dance was given for them last week by the Kelowna Theatrical Society.

T. C. Orr left Monday morning for Ontario. He has accepted a position as manager in a factory at Owen Sound. If the position is what he expects, he will remain and Mrs. Orr and children will join him later.

Edgar Gould has sold his house and orchard lot on hospital-hill to D. Howson. Mr. Howson will take over the property early in June. Mr. and Mrs. Gould and family have rented the Harwood cottage near Mrs. K. Bentley's.

Mr. and Mrs. Geo. Ross and little daughter, Helen, came over from Castlegar on the 24th. Mr. Ross left the next morning on a business visit to Winnipeg. Mrs. Ross and the little one will remain here with relatives for the time.

Mrs. T. G. Beavis returned on Saturday morning from the Coast, where she went as one of the delegates to the W. M. S. convention at Vancouver. She was accompanied by her daughter, Marion, who has been attending Normal school at Victoria.

Frank Cross, recently of Summerland, has purchased the retail business of Jackson's, Limited, at Salmon Arm. He proposes carrying groceries only, at least for the present. His son, Alan, a recent visitor here, will manage the store.

Mr. T. M. Croil left on Wednesday morning for High River, Alta., and Mr. and Mrs. Croil follow on Saturday morning to attend the wedding of their son, Major Croil, of the Royal Canadian Air Force, to Miss Arnold, daughter of Mr. A. J. Arnold, a lawyer of that place. The wedding will take place on June 6th.

Several cases of stealing from motor cars parked in front of the theatre have been heard of lately. It is evident that this despicable practice has been going on for some time, people who have done their shopping before going to the pictures losing small parcels, some of them of considerable value.

Mr. and Mrs. H. H. Elsey returned Saturday morning from Vancouver. Mrs. Elsey has been at the Coast since early in the winter. Mr. Elsey went down a week or so ago, and both were regular attendants at the meetings held by Dr. Price in the Arona. They were very much impressed with the work being done by this famous evangelist.

Capt. H. H. Croose, with Mrs. Croose and family, spent three days last week-end camping at the reservoir in Garnett Valley. Capt. Croose reports a good flow of water in the creek. The reservoir is full at its newly-increased level and, in addition to a good supply going out through the gate into the irrigation channel, there is also a flow over the spillway.

**LOCAL NURSES GRADUATE AT VERNON**

Seven nurses were graduated last week from the Jubilee Hospital, Vernon. One of the graduates is a Summerland woman and another is from Peachland.

The members of the 1923 graduating class are: Emily Amelia Cluness (class president), Okanagan Landing, B. C.; Edith Sarah Teece, Enderby, B. C.; Olive Valmsley, Summerland, B. C.; Katie Smith, Somenos, B. C.; Edith Mary Birtwistle, Hamilton, Ontario; Margaret Lillian Fraser, Kelowna, B. C.; Ruth Isabel White, Pachland, B. C.

**M. G. WILSON BUYS POWER PIPE LINE**

M. G. Wilson has bought from the municipality a carload of wood pipe. This pipe, formerly used for power purposes, was recently lifted and to have been shipped to Nakusp. Failure on the part of the purchaser to come through with the price resulted in the council making the sale to Mr. Wilson. He already has had it shipped to Glenfir station, above his ranch on the other side of the lake and from there he will have it delivered.

**CHANGE IN SALARIES.**

Penticton Herald.—Slight increases have been made in the salaries of the staff of the municipal office by a new schedule of wages put into effect by a resolution passed on Monday evening, at the regular meeting of the municipal council. These increases were made in view of the fact that faithful service has been given and in some cases there has been no increase applied for or granted since the employee was engaged.

The municipal clerk, under the new schedule will receive \$175 per month, instead of \$165. The assistant clerk, who has been serving on probation at \$110 will receive the regular salary prior to his engagement, namely \$125. The meter reader's salary will be \$110, an increase of \$10 per month; the stenographer, \$75, an increase of \$5; and the junior clerk, \$65. This last mentioned is not an increase.

If parents only knew as much as they think their children do, there would be a whole lot of highly educated people in this old world.

**GREEN FOOD IN SUMMER MONTHS**

Where hens are to be confined to a small yard all summer, preparations should be made to provide the necessary supply of green food. In supplying this need, the plan of growing the greens inside the yard has its advantages.

A plot two or three feet wide and any length should be spaded up, the ground prepared and sown with lettuce seed. Boards four to six inches wide should then be set around the plot and two-inch mesh wire netting spread over the top, fastening it to the top of each board. This will prevent the hens scratching in the bed, but will allow them access to the lettuce through the wire, when sufficient growth has been made.

A good sized bed, if frequently watered, will supply green food for the flock all summer.

**CHANGE OF BUSINESS**

W. J. Nicol on Wednesday last disposed of his grocery and cafe business to Mrs. F. A. Bleasdale, a recent arrival from England. Mr. Nicol takes this opportunity of thanking his many customers and friends for their generous support in the past, and solicits for Mrs. Bleasdale a continuation of their patronage. 799

**VENDOR SUSPENDED**

F. L. Roe, liquor vendor at Penticton, has been suspended for one month, and it is stated that before further action is taken, the board will inquire into the circumstances surrounding the case, when Roe was fined fifty dollars for having sold liquor to Prevost, an interdict, and who had also served a term in Oakalla.

**WAS OFFICER IN INDIAN ARMY**

Capt. G. G. Davis, an officer of the Indian army, arrived here last Friday, via Vancouver, and is with his brother S. R. Davis, of Garnett Valley. Capt. Davis has been stationed in Mesopotamia for the last three or four years. It is stated that he contemplates making his home in Summerland.

**THINNING FRUIT.**

Have you commenced thinning yet? If not already done, apricots and peaches should be thinned at once.

We all know that good sized fruit is never a drug on the market. Apple and pear thinning can be commenced next week.

This orchard practice has not received the attention it requires. The over-loaded tree takes care first of the seed development and only builds up the flesh and pulp of the apple and pear with the surplus. This accounts in a measure for the fact that a thinned tree will produce often as many boxes as the unthinned tree and yet show a much more vigorous growth and be in condition to produce crops regularly. Quality counts and the good grower will get results.

Don't forget to thin this year.

There was a young fellow called Tato, Who dined toto-a-toto at eight-oight. But I cannot relate What that young fellow Tato Ato toto-a-toto at eight-oight.

Even the light under the bushol bnakot has become known through good advertising.

**Indigestion**  
relieved in two minutes with **Jo-To**  
Gas, acid, sour, burning stomach all quickly relieved with Jo-To. Drug Stores.

SYNOPSIS OF Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only lands suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residences, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and must make improvements to value of \$10 an acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year.

Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price is made.

PRE-EMPTOR'S FREE GRANTS ACT. The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces.

The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war.

This privilege is also made retroactive. No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enactment to March 31, 1920.

SUB-PURCHASERS OF CROWN LAND. Provision made for insurance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase interest and taxes.

Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING. Grazing Act, 1919, for systematic development of live stock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners.

Stock owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ton head.

Peachland Doings

A Weekly Chronicle Furnished By Our Local Representative.

Mrs. Shultz entertained a few friends to tea on Thursday afternoon at the home of her brother, Mr. L. Mills, in honor of Mrs. Noyes, who expected to leave shortly for Vancouver. A very pleasant afternoon was spent by those present.

A few Peachlanders took in the Victoria Day celebration at Kelowna on Thursday. Wm. Buchanan, Jr., manager at the Peachland Union, played with the Summerland team in the baseball game between Summerland and Kelowna. As usual Bill played good baseball, but the balance showed the score in Kelowna's favor.

The Misses Craig and Williamson motored to Pentiction on Thursday, where they enjoyed a pleasant visit over the weekend.

After a pleasant few days spent in Peachland, Mrs. Noyes, of Winnipeg, with her little boy, left on Friday for a short visit at the Coast, before returning home.

Mr. J. Harris, principal of the Central school, took about forty of the pupils down to Summerland to demonstrate to the Parent-Teachers' Association there the results of a year's training with the Tonic Sol Fah system of singing. Mr. Harris is very enthusiastic over the question of music in the schools, and has been training the children here with very gratifying results, as shown by the work of his class along this line.

Even though most of the citizens of Peachland have been aware of the fact that Mr. Harris was teaching music to some pupils, there are quite a number who themselves have little idea of the splendid results he has obtained. Those who assisted in taking the children down on this occasion were greatly surprised and extremely pleased with the performance, and the able manner in which Mr. Harris conducted the singing.

Peachland is to be congratulated in having Mr. Harris carry on this good work, and it is hoped a chance will be given for a public demonstration in Peachland. Some time ago Mr. Harris had the children sing at one of the Women's Institute meetings, and there is a rumor afloat that the same is expected again in the near future.

Mr. Jas. Hayward returned home on Saturday morning after a short time spent in Pentiction and Naramata.

Mrs. A. Stewart and her sister were out of town last weekend.

The committee and several others are busy preparing for the 4th of July.

Stomach Suffering disappears as if by magic when Jc-To is used. Gas pains, acid stomach, sour stomach, burning and all after-eating distress relieved in two minutes. All Drug Stores.

Matt. G. Wilson. OFFICIAL ASSIGNEE INSURANCE: Fire, Life, Accident, Automobile, Fidelity. GENERAL ACCOUNTING.

June celebration to be held in Peachland. The program committee have arranged for an afternoon full of events, one of which is to be a baseball game between married and unmarried ladies. Considerable has been the fun and excitement down on the diamond as these contestants have been practising for the big event, and if the game itself is anywhere near as much fun as the practices it will be well worth the citizens' time to come out and see it. The Boy Scouts and the young ladies are making arrangements for serving light refreshments and ice cream and lemonade at the grounds.

Mrs. Hohense left on Monday evening for Pentiction, where she is doing some dressmaking.

Rev. Isaac Page, of Pentiction, was accompanied on Sunday last, when he came up to the Baptist Church afternoon service, by the Misses C. Page and J. Peebles and Messrs. Glen LaRue and H. Brown. On this occasion the two younger gentlemen took charge of the service, while Mr. Glen LaRue gave the address of the afternoon. The ladies with Mr. Glen LaRue and Mr. Page favored the congregation with a quartette, "On Calvary's Brow," which was beautifully rendered, the service throughout being very impressive and appreciated by the gathering.

Mrs. A. Smalls and Mr. Wm. Douglas, spent Wednesday in Kelowna.

Mr. and Mrs. McCall and Miss McKay and Mr. Loyal Werner motored to Kelowna on Wednesday.

Men are at work on the new piece of road being put in near the Trepanier wharf, which when completed will eliminate the steep grade and sharp turn at that point and which has been considered a danger point. The change has been agitated for some time, but owing to the proposed grade cutting into private property, satisfactory arrangements were not arrived at till recently.

Correspondence BEEKEEPING MATTERS. Editor Review:

Kindly allow me to correct two or three errors made in your report of my talk to the Farmers' Institute recently. It is a very easy matter for a reporter not familiar with the technicalities of beekeeping to convey wrong impressions, and I wish it clearly understood that no blame is to be attached to the gentleman who reported on this occasion.

First, with regard to the laying worker. This pest of the apiary is by no means frequently met with, but the trouble is that many amateurs do not know what is wrong in such cases until their colony has dwindled and died out. It is met with chiefly in the spring, and arises often from the death of the queen in a colony which has otherwise wintered fairly well. There being no young brood in the hive, and no means of getting any, one or more of the workers, in a sort of instinct of despair, will begin to lay eggs in a vain attempt to carry on. But those eggs being infertile, produce only drones, and the extinction of the colony is certain, unless it is rescued in time. And here the point arises that, while the laying worker is in the hive she is regarded by the bees as a queen, and it is useless to introduce a real queen or even a queen cell, since they will be promptly destroyed. To get rid of the offender, I find the onliest plan is to take out the combs in the hive, carry them a short distance away, and jar or shake all the bees off. They will all return to their hive, with the exception of the laying worker, who will be too heavy to get back. The hive is then ready to receive a new queen, if carefully introduced. It will be noted that your report credits me with a procedure exactly the reverse of this, and one which would leave the offender in the hive instead of turning her out.

The remarks concerning the talking away of a "new hive a good distance" etc, are rather obscure as they stand. I was speaking of the dividing up of strong colonies, and pointing out that this was easily done, provided the bees on the combs removed were prevented from returning to their original home. This desertion would mean the death of all the young brood in those combs, and could be prevented by plugging the entrance of the new hive with grass, and thus delaying their exit. By the time they have gnawed away enough of the grass to allow a passageway, much of the brood would be hatched and the new bees would obviously be at home, while the nurse bees would have lost much of their sense of direction.

The remedy suggested for bee moth is carbon bisulphide, which is placed in shallow containers on top of a pile of hive bodies containing combs, and shut in, the fumes of the gas

SPECIAL WRAPS NOW USED TO PREVENT SCALD

Will Effect Big Saving in Stored Apples—Soon in General Use.

There have been on display at the temporary office of the Summerland Co-operative Growers Association some interesting samples of apples in oil fruit wraps, the new wrap that is now being largely used in Washington. State for the prevention of scalding while in storage.

After several years of experiments, it has been definitely ascertained that the use of these oil wraps would prevent scald and shrinkage and its use will mean a big saving to the industry. The paper used is similar to that of the ordinary fruit wrap, but is treated with vegetable oil, the quantity of which oil used depending on the variety of the apple which has to be packed.

Last year five boxes of Okanagan apples were shipped to New Zealand, where they arrived without the loss of any of their good flavor or appearance. Another shipment was sent to Stockholm, Sweden, with equally good results.

It is estimated that extra cost of oiled paper for a shipment of first class apples will not be more than one and one half or two cents per box, a very small matter in comparison with the better price which the apples thus wrapped will command.

Last year, Wenatchee oil wrapped apples brought prices ranging from \$2.58 to \$3.33 f. o. b., and in that district the oiled paper is now considered a good investment.

It is stated that there is only one Canadian plant, and that in Ontario, now making oil fruit wraps. It is hoped that the new mill at New Westminster will be able to supply the "B. C." market soon.

It is probable that the new wrap will be extensively used this year on the varieties usually put in storage. Imported paper will be used to augment the supply from the East.

descending and killing moth eggs and larvae. This material is exceedingly explosive and must be handled with great care.

The term "brooder" hardly fits in the beekeeping industry. The brood chamber is wherever the queen lays, and in the case of the long hive, is enlarged or contracted at will by the use of division boards. The long hive is no one's invention in particular, but was used extensively by a Mr. Poppleton some years ago, and is the greatest sayer of heavy lifting which can be imagined. Some of those now in use in Summerland contain twenty-eight frames, every one of which is covered with bees. And some of these large hives I have already begun to super.

My reference to the disinclination of bees to store honey in a bottom storey was touching on one of the drawbacks to a double storey brood chamber. Bees have an instinctive objection to placing stores below the chamber they occupy, and in many cases the queen, having moved up into the second storey, prefers to stay there, and the lower storey becomes depopulated.

Yours truly, GEO. WEAVER.

BOX SHOOK PRICES. The Editor, Summerland Review, Dear Sir: With reference to paragraph in your issue of the 3rd inst. that the Summerland Co-operative Growers had placed an order with the B. C. Manufacturing Co., Ltd. to furnish 12 carloads of shook at 10 cents; we have a communication from them stating that they have booked an order for the Summerland Growers for Apple Boxes at 20 cents per box, and have not booked one box for them at less than this price. Accordingly, the article in question cannot be correct.

Yours truly, W. H. WILBERFORCE, Secretary-treasurer.

BIG FARM WITHOUT ANY LIVE STOCK

"No lowing herd winds o'er the lea" on the horseless, cowless, hogless, sheepless farm of 10,200 acres owned and operated by Schaal & Schaal, twenty-five miles southwest of Winnipeg. Not a single domestic animal has been used on this land in the last four years. The Schaals, father and son, do all their plowing, seeding, harvesting, thrashing, and transportation of grain with tractors.

Mr. Schaal, senior, says that they do not need horses on this grain farm. He and his son operate 8,800 acres of land, and rent the rest. An investment of \$105,000 in small buildings and machinery is required to run the home place, and \$95,000 worth of equipment is used on the rented farm.

Grow Only Small Grains. Only small grains are grown on the farm including in a rotation of two crops of wheat, and one crop each of flax, wheat, oats and barley, in the order named. All of the land is under cultivation, except one section.

No attention is paid to the fertility of the soil, which is a silt loam, averaging about six feet in depth. Chemical tests have shown, according to Mr. Schaal, that crops could be grown for a whole century without exhausting the fertility of this land, making exclusive power farming possible.

When it comes time to plow the land, twenty-six tractors are used, pulling 100 fourteen-inch bottom plows. One acre of land is turned over every two minutes, or thirty acres an hour. The tractors are again used in discing the soil, getting it ready for the grain drill. The seeding is done at the rate of 640 acres a day, using twelve-foot drills.

Thresh 8,000 Bushels a Day. An average of thirty-five men are employed on the farm during the year. As soon as the grain is sown in the spring the men are released. Two are kept to repair the machinery. When harvesting time comes an army of seventy men is drafted into service, and with twenty-four binders the grain is put into the shock at the rate of a section a day.

In about a week after the binders are started three large thrashing outfits begin and the grain starts pouring from the "horn of plenty" at the rate of 8,000 bushels of wheat a day. Each thrashing rig, with its necessary accessories, cost \$25,000 or a total of \$75,000 for the three outfits owned by this farm.

# Buying at Home Adds to Wealth of Every Citizen

An Interesting Article on This Important Subject, Written by a Citizen of the Valley.

There was published last week in the Vernon News an article by J. R. Brown, a patriotic citizen of Vernon, on the subject of buying at home. As the arguments are equally applicable to Summerland, we have taken the liberty of using the article, making only such slight changes as are necessary to localize it. With these few alterations, Mr. Brown's article is as follows:

The citizens of Summerland are a body corporate under the title of the Corporation of the District of Summerland. They are legally empowered to co-operate for their common advantage by establishing and operating such institutions and public utilities as municipal hall, irrigation system, electric light and power system, waterworks, etc. To meet the necessary outlay, funds are provided by means of debentures, taxes, rates, licenses, etc. The money collected being expended by the municipal council, school board or other proper authority.

For some time, these bodies have not had at their disposal sufficient funds to meet the requirements of the various services. Merchants, business and professional men, as well as other citizens find their financial affairs in a somewhat similar condition.

It is held by many, and rightly so, that this condition is, to some extent, accounted for by the large sums of money sent to distant mail-order and department stores for goods that could be bought just as well in Summerland. It is a fact, that in most cases these articles could be bought at home just as cheap, and the postage, express or freight charges saved.

When money is sent out of town in this way, the available supply of the "medium of exchange" for business here is reduced and the amount for circulation is lessened. It is by the circulation of money that the exchange of commodities is mainly effected and business of all kinds carried on. Our citizens require certain commodities and our merchants require the money in payment therefor. Citizens who do not pay their fellow citizens what is owing to them, but send the money out of town, not only deprive the latter of the means of paying their debts and buying at home but also deliberately lessen the amount of money for circulation here in a business way.

Our merchants and business men are called upon for the largest voluntary contributions towards the support of charities, sports, hospital, etc. In most cases their taxes, municipal, provincial and national, are among the highest in the city. It is our duty then, as loyal citizens to assist our home institutions to the fullest extent, financially and otherwise. If we do so, we are assisting one another as members of the same corporation, and as individual citizens, to promote those interests from which we each derive the greatest benefit.

To illustrate: "A," a citizen of Summerland, receives a month's salary, say \$125. He pays his grocer \$25, butcher \$8, tailor \$30, doctor \$10, water and light \$4, sundries \$23 and deposits \$25 in the bank. These payments may be used to increase the bank deposits of each party, or the grocer may pay an employee's weekly wage. The employee is then able to pay a carpenter's bill for \$8 and the carpenter calls at the shoe store and pays the \$8 for his children's shoes. The tailor can pay his hardware account of \$0 and his printing and advertising account of \$12. The doctor can donate \$2 to charity and meet his dentist's bill for \$8. "B" receives her month's salary, \$90. She pays her dressmaker \$15, milliner \$10, her board \$35, \$20 for sundries and puts the balance in the bank. Endless examples might be given to show further how every citizen is benefited directly or indirectly by the expenditure of home money at home.

The larger the volume of local business done at a fair profit, the better the stocks the merchants are able to procure and the better the service they are able to render to their customers. Those customers include all classes of citizens, therefore every citizen is benefited by the buying that is done at home. When money is circulating freely enough, an optimistic feeling prevails and undertakings of various kinds are launched that give work to citizens and bring more business to the city. Business houses will be improved. Growth and expansion will be accelerated in every line of civic and

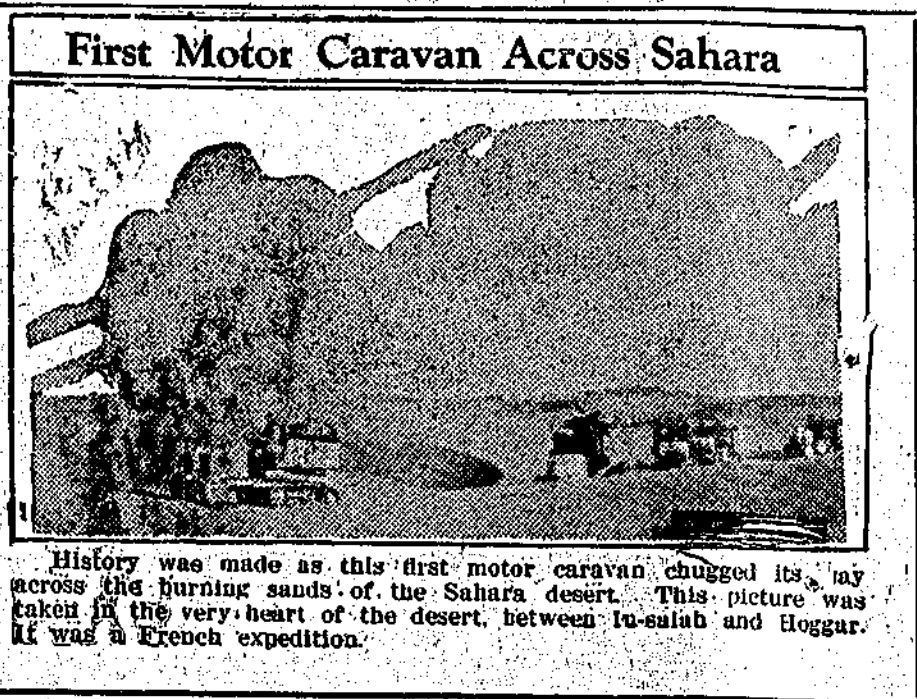

individual enterprise. Additional facilities will be provided for the recreation and enjoyment of our citizens so that the highest degree of contentment and happiness may be reached. This feature of our city would make it so attractive that good citizens of other places would decide to cast in their lots with us.

On the other hand, the money sent out of town is lost to us. It has gone out of circulation here and is used to benefit some other place at our expense and loss. The case may be stated of the local merchant asking the citizen with the express parcel, the cost of his article. On being informed, it was learnt that the citizen could have bought at home at the same price, with a greater variety of choice before buying and a guarantee of satisfaction, and he could have saved the postage and express charges. In another similar case, the merchant was assured by the citizen that the latter did not know that such an article could be had at home as he had read the advertisements and it was not mentioned.

Our aim as citizens should be to use the output of local farms and factories to the fullest extent. By co-operation with the farmer and the manufacturer, the volume of business done and of money handled in our city is greatly increased, with corresponding benefit to every one affected. If the farmer cannot dispose of his produce, his buying power is curtailed so that he may not be able to purchase even such articles as soap and starch in their present form but may have to fall back on the methods of home-made production in use in "grandmother's days."

Citizens have invested in stocks, real estate, etc., through outside operators or solicitors, instead of through reliable local men. Serious losses have been sustained in this way which would have been avoided had local advice been secured. It is estimated that in some years, the losses sustained on account of outside purchases would go a long way towards meeting the amounts for interest and sinking funds in connection with our debenture debt.

Except in a minor case or two, the preponderance of evidence and reason is overwhelmingly in favor of our doing our buying at home. Let us all then co-operate on the money question, let us buy in Summerland and let us show conclusively that buying in Summerland benefits every citizen of Summerland.

History was made as this first motor caravan chugged its way across the burning sands of the Sahara desert. This picture was taken at the very heart of the desert, between Toussah and Hoggar. It was a French expedition.

### AN 'EASTERN LEGEND

A little banyan seed once said to a lofty palm tree, "I am so tired of being tossed hither and thither by the wind; let me shelter a while among your great leaves." "Oh, yes," said the palm tree, "come and welcome, stay as long as you wish."

So the banyan seed nestled down among the leaves of the palm tree, which very soon quite forgot the presence of the little stranger. But the tiny seed was not idle, it sent out little roots and fibres, which crept round the mighty trunk, and under the bark of the palm tree itself, until at last the tree in alarm cried out: "What is this?"

The banyan replied, "It is only the little seed you allowed to rest among your leaves." "But now you must leave me," said the palm tree, "you are growing too large and strong, you sap my strength."

"I cannot leave you now," replied the banyan, "for we have grown together. I should kill you if I tore myself away."

The palm tree rustled its great leaves, and tried with might and main to throw off the banyan, but it could not, and gradually the palm leaves withered, and the great trunk shrivelled, until at last only the banyan tree could be found.

So it is with little sins that come creeping in; they at last smother all the good in the heart, and destroy its true growth.

### ANOTHER UNNECESSARY OPERATION.

A woman suffrage speaker says that those who say Eve was made out of one of Adam's ribs are mistaken. Some of the men claim it was a mistake that she was made at all.

### THE INCONSISTENT DEARS.

A woman will read a work of fiction and cry because the hero does not come out the way she wants him to.

### CHURCH WORKERS' FOLLY.

That mild form of flirtation with the devil, the holding of raffles and lotteries, by good Christian church people, has been banned in Vancouver, says the Port Alberni News.

Mayor Tisdall says that many of these affairs last year were illegal, and now they are listed in common with all forms of gambling vice against which the Vancouver police commissioners have ordered a clean-up crusade.

Certain church workers in other places may take warning. The church benefit by means of raffle or lottery has developed into a nuisance and a menace.

In the guise of "good cause" the gambling spirit is being fostered where it should be frowned upon.

People who find comfort in some particular form of worship should be willing to pay for it in a straightforward manner; but many of them seem to prefer fulfillment of their financial obligations to the Lord by contributing through some attractive trickery plan worked on themselves. Not only that; they are prepared and satisfied to take their religion partly at the expense of any outsiders whom they may ensnare into their various money raising schemes.

There are too many churches and preachers struggling to make material ends meet, and theatrical competition among them has led to loss of Christian power and influence.

If, in their effort to keep their churches afloat, the fund raisers cannot succeed without the bunco games they so frequently resort to they should report failure and let the heathen rejoice.

If the necessary luxuries increase during the next century at the same rate they have during the past 25 years, who can predict what our grandchildren will consider the bare necessities of life?

A man likes have his wife abuse him once in awhile just to give him an excuse for getting huffy.

### CANNED SMELTER SMOKE

Ye gods and little fishes! What next! A Kaslo fruit man advances the idea that canned smelter smoke is a valuable plant food and germicide and is asking the government to turn its attention to the matter in an effort to help solve the problem of cheap spray for farmers and horticulturists. He claims smelter flue dust is a germicide and is valuable for spraying small fruits and garden "saw" which are subject to ravages of pests of several kinds. Thus the poor old smoke question once again forges to the front, but from a different angle. The Kaslo man deals with the subject from a strictly technical point of view, giving percentages of sulphur and other chemicals contained in the present day sprays, and states that the product of the Trail smelter would prove a cheap and highly satisfactory article with but slight alteration. His suggestion is worthy of consideration.—Trail News.

### PRINTING THE TRUTH.

It is not pleasant and profitable always to tell the truth in the columns of a newspaper. Men who have tried this heretofore have always come to grief. Only a few days ago the editor of a paper in Indiana grew tired of being called a liar and announced that he would tell the truth in future; and the next issue of the paper contained the following items: "John Bonin, the laziest merchant in town, made a trip to Belleville, yesterday."

"John Coyle, our groceryman, is doing a poor business. His store is dirty and dusty. Why should he do much?"

"Dave Sonkey died at his home in this place. The doctors gave it out as heart failure. Whiskey killed him."

"Married—Miss Sylvan Rhodes and James Conlin, last Saturday, at the parsonage. The bride is a very ordinary town girl who doesn't know any more about cooking than a jack rabbit, and never helped her mother three days in her life. She is not a beauty by any means, and has a gait like a duck. The groom is an up-to-date loafer. He has been living off the old folks all his life, and is not worth shucks. It will be a hard life."

"Our congressman, a very ordinary man, and who was elected by accident, was here yesterday. He has very few friends here now. He promised some of the voters in this township a piece of pie in the event of his election, but had forgotten all about it when the time came to hand over the little offices."

We seldom seek justice unless we think the scales are weighed on our side.

Friendship that needs constant nursing isn't worth much.

## FROM HARD TIMES TO CANADA

Do the pharae lament? Migrants aboard the tender of the **WILLEN** the Canadian Pacific steamships "Marloch" and "Metagama" last docked at St. John, Canada gained to the extent of over six hundred able-bodied and industrious farmers, farm workers and women from the Isthmus. Forged by the loss of their fishing trade through the war and German competition, and by general hard times to leave their hatched homes, these people have come to a land of promise and have been welcomed as the most valuable immigrants in years. Under the leadership of Rev. Alexander J. Gillies and Rev. John MacMillan, they have gone to the Red Deer district of Alberta and to various parts of Ontario, where they will engage in agriculture. Most of them are from the island of South Uist, Bonbouair and Barra. Here their families worked small farms of from ten to twenty acres and kept a stock of from two to eight cattle and ten sheep on common pasturage. In the spring they gathered seaweed for fertilizer, planted oats, barley, rye and potatoes, and when this was done took to the sea.

# Who Pays for Advertising?

?

Why, nobody pays for it. Like the labor-saving machine that cuts down overhead and increases production. It pays for itself.

Or like the truck installation that decreases delivery charges by increasing efficiency. It pays for itself.

Advertising cuts down selling costs ---breaks down sales resistance. It pays for itself.

**ADVERTISE PERSISTENTLY**  
---It is no game for the quitter.

TO IMPROVE WATER MAIN

(Continued from page 1.) The Reeve reported that request had been made that the municipality grade the track at Crescent Beach.

The matter was referred to the Reeve, with the idea that similar work in Peach Orchard and the Park would be done while the grader was in that vicinity.

Councillor Johnston, chairman of the public works committee, obtained the consent of the council to proceed with the replacing of a bridge on the Peach Orchard road, near the Lawler property, with a concrete culvert and fill.

It is the intention to have this done before the fruit begins to move.

Councillor Johnston was also authorized to do some shaling on the gulch road.

An offer by F. Morrow of \$35 for two shacks near the intake on Trout Creek were accepted.

Rev. H. A. Solly complained of very inadequate irrigation service to his lot on the north-east side of Giant's Head, and asked that something be done to give him a reasonable supply of water.

The Reeve promised to investigate with a view to increasing the pressure there.

Foreman Tomlin submitted a report covering proposed improvements on the irrigation system, including the west side of Garnett Valley, the upper end of the east side and several other smaller jobs.

WHO IS THE INFRINGER?

In the Canadian West small business men often try to lend prestige to their establishments by affixing to their firm names the initials of one of the big railways.

One often sees such signs as "C. P. R. Tobacco Store," "G. T. P. Poolroom," "C. N. R. Boarding House," etc.

The Canadian Pacific recently took official notice of these acts of piracy, and sent out notification that the unauthorized use of the railway's name was illegal.

One of such notices, sent to the proprietor of a certain "C. P. R. Barber Shop—Cut Rates," brought the following reply: "Dear Sir: I got yure notis. I don't want no law sot with yure big company, and I don't want to paint a new sine on my shop.

EMPRESS THEATRE

A special treat in the way of high class films has been arranged by the management of the Empress theatre, and started Wednesday night.

It will last for a week. "Suzanna," a story of the adventures of the daughter of a rich don, in the days of the Spanish colonization in California, is showing tonight.

The subject of the rugged hearts and depths of hatred encountered in the old Kentucky mountain fouds is well treated in "The Trail of the Lonesome Pine," showing on Friday and Saturday.

Charles Chaplin needs no introduction. He will be seen in "The Pilgrim" on Monday and Tuesday and throughout this story, runs the undercurrent of tragedy and humor which made "The Kid" a masterpiece.

Another screening of special merit is "The Kentucky Derby," brim full of love, adventure, plotting and a final clever unmasking of the dishonest schemers. It holds the audience in a spell of excitement from start to finish.

We try unusually hard to think a person is not fibbing when they speak well of us.

OLD DUMBELLS WERE DELIGHT

(Continued from page 1.) That many amusing incidents are recorded of this duplicity.

Who is there who has not heard of the famous and lovely "Marjorie," who in real life is Ross Hamilton? Ross is yet tramping with Captain Plunkett, who has his own company on tour in another field.

The "Old Dumbells" have in Fred Fenwick and Arthur Holland two "demoiselles" who run sweet Marjorie a close race in the popularity stakes.

The company consists of eighteen appearing artistes, each a soloist and specialist. They are headed by that versatile top-liner "Red" Newman, whose original songs became such a rage that they are now to be heard on the gramophone.

The program is divided into two parts, and from the lifting of the curtain there is not "a stage to let" at any time. The opening number was a street repairing scene in which all the old favorites appeared at the foot of a statue of "Mars, the God of War"; the statue comes to life, and some timely advice is tendered by that worthy in which the spectators are urged to continue through life in the spirit of love which prevailed throughout the great war.

There were several concerted acts which went "big" with the audience, and vociferous encores were demanded. The quartette was splendid in all its numbers, excelling particularly in "The Admiral's Broom," "Red Newman, of course, supplied most of the fun.

Two of his songs, "I'm a Daddy" and "Stoney Broke in No Man's Land," made a great hit. Jimmy Goode, a Vancouver boy, is a black-face comedian who ranks as a topnotcher, his work being up to that of "big time" artistes.

The performance concluded with a laughable act entitled "The Duchess Entertains." This had previously been staged by the Dumbells on a former tour of the Valley, but its repetition was thoroughly enjoyed.

The "Old Dumbells" have met with capacity audiences throughout their Western tour, and every seat was taken on Thursday last.

TROUT CREEK FARMERS' INSTITUTE

The regular monthly meeting of the above institute was held at the Trout Creek school on Monday evening last, when there was a large attendance.

The speaker of the evening was Mr. J. F. Roberts, the Provincial Bee Inspector, for the interior, and the great interest shown in the subject was evidenced by the number of visitors coming from a distance.

Mr. Roberts is a very roady speaker and has a pleasing delivery and succeeded in making his talk interesting and highly instructive from beginning to end.

He outlined briefly but clearly the system of management which he has followed in his own apary with great success, from the very early spring to late winter. He strongly advocates a double brood chamber, that is, twenty frames, for the whole year, or perhaps, if the colony is not so strong as it should be, in the late fall he would reduce it to one chamber for the winter.

NARAMATA F. I. HEARS HELMER ON THINNING

(Continued from Page One) Of eighty per cent. was really needed. The breakdown of the Jonathan apple was discussed and was admitted.

ing was held to be a help together with cooling off in the orchard, before piling up in the packing house. During the evening, songs were given by Mrs. Fryer and Miss Enid Rayner, and a guitar selection by Miss Alice Myers.

Refreshments were served, and the proceedings closed with the National Anthem. Mr. Charles Seevers received word on Thursday of the sudden death of his brother Ernest in Calgary, and left for that city on Friday morning's boat.

The last practice of the season was held by the community singers on Friday last, Miss Alice Myers officiating as accompanist. Mr. J. C. Lyons tried out his motor launch on the 24th, and the family enjoyed a pleasant trip to Chute Creek.

Mrs. John Smith has been seriously ill for the past few days, and was taken across to the hospital at Summerland on Monday. The C. G. I. T. members were entertained on Wednesday last by the Misses Cathie and Marie Hancock at their home on the benches.

Mrs. Amaran and Miss Vanderburg accompanied the party. Many criticisms have been heard locally concerning a short article appearing in Friday's "Province" under the heading of "Rain in the Okanagan."

Naramata residents are wondering what part of the Okanagan Valley the writer had in mind when she described "Checks stretched taut with drying winds and the biting sting of dust—eyes aching—and the whole world seen through a haze of it." No one is able to recognize the Okanagan from this misdescription of conditions, and the general impression is that the author has got confused as to localities, and is referring to the desert of Sahara.

Mr. J. M. Myers has received a copy of the Charlottetown Guardian containing an account of the funeral of his mother, who died at Hartford, Conn., early this month, and was buried at Birch Hill Cemetery, Charlottetown.

The late Mrs. Myers was in her 88th year, and leaves one daughter and three sons, of whom the local resident is the oldest. A meeting of directors of the local co-operative was held on Monday, and many matters advanced to a stage which leave them awaiting final completion during the next few days.

Saturday was a foto day for the Girl Guides, being the occasion of the visit of the Pentleton contingent. About sixty-five Guides assembled and filled in a busy afternoon with various sports.

Dodge ball, Hustle ball, Frog race, Indian wrestling, Dispatch game, Wrist wrestling and Tumbling were all included in the syllabus of events, and were followed by a demonstration of camp fire building. On points in the various sports Naramata were the winners on a score of twelve points to seven taken by Pentleton.

Support was served by the Naramata Guides, and the proceedings closed with a song by the Pentleton members, and a parting cheer. LIQUOR VENDOR FINED F. L. Roe, the Pentleton liquor vendor, was found guilty of supplying liquor to an interdict and was fined \$50.00 and costs.

The vendor vainly pleaded that in the rush of business at the time, the fact that the applicant was on the black list was completely overlooked. The magistrate said he could not accept the excuse of a "rush of business" and the fact that Mr. Roe's previous record in being willing to co-operate with the provincial police could not be considered.

GIVES BOOST TO B. C. PRODUCTS

(Continued from page 1.) necessary for producers to advertise as much as they do?"

Ans.—"Yes. Producers must keep their products before the public. If the public is not consuming as much of a product as it should, advertising will educate it to increase the demand. Again, the cycle of buyers changes every seven years and as the first seven years have passed, a new set is coming up each year, who must have kept before them the products that are for sale."

Ques.—"Why do the distributors in agricultural districts handle foreign canned fruit and vegetables?" Ans.—"The distributors naturally handle the goods for which there is the greatest demand. The remedy lies in the hands of the local consumers, for if they demand the home product, the distributor will supply it.

At the same time the agricultural producers will be benefiting directly by creating a greater demand for their own products." A free discussion followed of the questions under consideration. In discussing Okanagan fruit on sale at Victoria, Mrs. Todd made the growers sit up and take notice when she said she had been paying twenty-five cents for two pounds of Okanagan Delicious apples, and three dollars and a half a box for inferior cooking apples.

The growers present wondered where all the difference between that and the insignificant price they received. The only redeeming feature at this moment was the fact that Mrs. Todd emphatically stated, and said others on the coast were following the same example, that they would buy none other than B. C. fruit. Needless to say, applause followed.

Mrs. Todd favored the audience with some beautiful selections of song, accompanied by Miss Craigie, and these were most enthusiastically applauded by the audience. A hearty vote of thanks was tendered Mrs. Todd for the instruction and entertainment given, and in her reply she assured the audience that it had been a great pleasure to her to do so and also stated that she was quite in love with the Okanagan and would not forget Peachland for a long time to come.

The gentlemen present tendered a vote of thanks to the ladies for having given them the opportunity of attending.

TO RECTIFY LOT BOUNDARIES

By mutual agreement, an exchange of properties will be made between the municipality and C. E. Pinceo, which will rectify an old error with respect to boundaries. At present, the correct lot line runs close to Mr. Pinceo's house. He will be given a strip of several yards along the northern edge of the municipal property, formerly Richardson's lumber yard, in exchange for a piece of his land, which lies to the east of the municipal lot.

FINAL RETURNS WILL BE ISSUED SOON

M. G. Wilson, a member of the board of directors of the O. U. G., will leave here the first of next week to attend what will be the final meeting of the board prior to the annual general meeting. Mr. Wilson states that he has been promised that the final returns will be sent down from Vernon this weekend and that statements will be issued to the growers as soon after that as possible.

ADVERTISING.

The hen, we are told, enjoys a higher standing than the duck because she advertises her value to the community more. Likovise, she keeps on scratching, regardless of how much corn there is in sight. Here are two lessons which, now that we are struggling upward to prosperity again, we may well keep in mind.—Barron Collier.

Copper mining in B. C. will receive a great boost owing to the bounty granted by the federal government on copper rods and copper bars made from copper ore smelted and refined in Canada. This decision on the part of the Ottawa Government will result in an increased number of men being employed at the Trail smelter and refinery.

Figures recently compiled by the B. C. Department of Industries show that never before has this province been in better condition from an industrial point of view. New industries are continually being established and many plants are unable to meet the demand for their products.

Sicamous will soon be able to boast of having a local sawmill, the plant and equipment having been ordered. Sealed tenders will be received by the Minister of Lands, at Victoria, of June, 1923, for the purchase of not later than noon on the 7th day Licence X5088, to cut 450,000 feet of Yellow Pine and Douglas Fir on Lot 3699, Osyoos Land District.

One (1) year will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Vernon, B. C. 798-9

Business goes where it is invited and stays where it is well treated—says an old commercial proverb.

TIMBER SALE X5088.

Sealed tenders will be received by the Minister of Lands, at Victoria, of June, 1923, for the purchase of not later than noon on the 7th day Licence X5088, to cut 450,000 feet of Yellow Pine and Douglas Fir on Lot 3699, Osyoos Land District.

One (1) year will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Vernon, B. C. 798-9

Business goes where it is invited and stays where it is well treated—says an old commercial proverb.

The Wage Earner's Bank

EVERY wage earner should feel that his savings account, however small it may be, is welcomed at any branch of this Bank. The man or woman with a few dollars to deposit is afforded the same prompt and careful attention as the depositor with a large amount.

THE DOMINION BANK

Summerland and West Summerland Branches, F. M. BRODDY, Acting Manager.

CHARACTER

Self-indulgence is admitted to be a sign of a weak, and self-denial of a strong character. Are you building up both your character and your Savings Bank account by thoughtful economy and the deposit of all your surplus wages each pay day?
