

PEACHLAND COMPLAINS OF DAMAGE DONE BY DEER—WOULD SHOOT DOES

Council Also Urges Increase in Bag Limit—Mill Rate Set
SOLDIER SETTLEMENT BOARD ALSO ISSUE
Question of Speeding in Village Aired—Huston Funeral Held

Peachland, April 12.—The Peachland municipal council recently changed its day of meeting from Wednesday to the second Monday in the month and consequently held the April meeting on Monday last with a full council, Reeve R. Harrington and Councillors Chidley, Williams, Gummow and McKay present.

Huston Funeral Held
The funeral of the late Robert Henry Huston, whose death occurred in the Summerland hospital on Monday of last week, was conducted on Wednesday afternoon following Rev. T. A. Sadler officiating.

CHOIRS SANG CANTATA ON GOOD FRIDAY

Enunciation Was Excellent Throughout Singing of "Olivet to Calvary"
There was an unusually large attendance at the singing of the cantata "Olivet to Calvary" on Good Friday, by the two choirs of the United church.

DISTINGUISHED AUTHOR COMING

Summerland is to have the opportunity of hearing Dr. Chas. G. D. Roberts, a distinguished Canadian author. We have many occasions presented in which to listen to distinguished men from other lands, but not often the really distinguished men of our own country.

TUNEFUL MUSIC OF PINAFORE HEARD AGAIN

Audience Enthusiastic Over Performance Given By Operatic Society
CHORUS PARTS GIVEN WHOLEHEARTEDLY
"Mr. For called little Buttercup, dear little Buttercup."

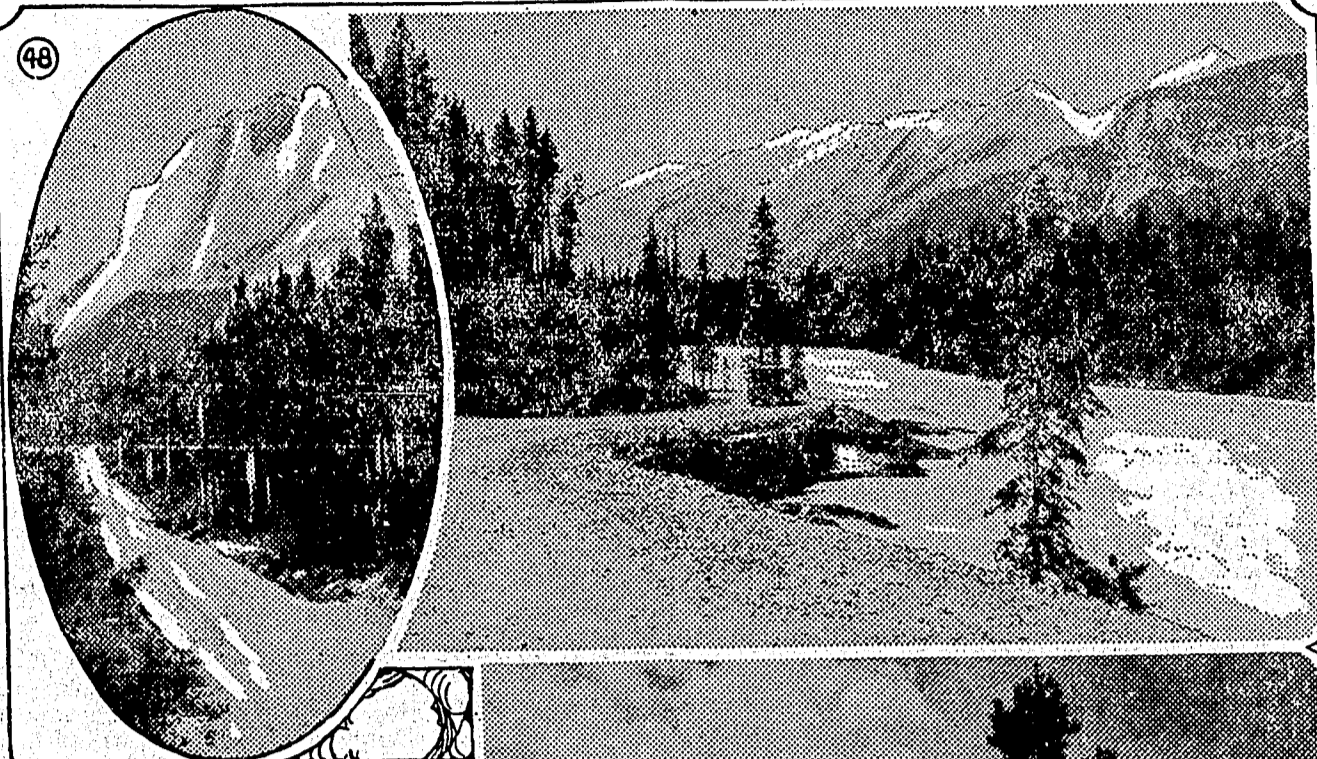

Mr. Benmore has an almost uncanny knack of casting his characters for the most appropriate parts, and on this occasion each one seemed to fit admirably—the Josephine of Miss Carol Graham was delightful in every way, her attractive personality and lovely voice finding ample scope in this most pleasing of Gilbert & Sullivan's heroines.

Chorus Work Good
An outstanding feature was the work of the chorus, each member appearing to enter wholeheartedly into the spirit of the play, while on every hand there was evidence of the careful drilling which had been in progress during the winter months under the musical conductors, Mr. H. W. Daniel and Mr. Benmore.

Those Who Aided
A very considerable part of the credit must be given to Mr. H. W. Daniel, who had charge of the musical side of the performance and who acquitted himself with conspicuous success in this difficult position.

Peaches Form Battleground
Their chief objection insofar as agricultural produce was concerned was to peaches and lettuce. They pointed out, for instance, that last year B.C. supplied about one-tenth of the peaches for the market.

Mountains Splendor Open to Motorists

A new 24-hour motor detour of 142 miles along perfect motor roads through the Canadian Rockies is announced by the Canadian Pacific Railway, which states that the trips will run every day in each direction from either Banff, Alta., or Golden, B.C., beginning on June 15 and ending on September 6.

Upper right—The swirl of the fast waters of the Kicking Horse River harmonizes with the throbs of the engine. Lower right—Every curve of the road reveals greater beauty such as the undisturbed magnificence of the Minniwanka Lake.

Growers Are Alarmed As Ottawa Takes Teeth Out of Anti-Dumping Clause

Grote Stirling, M.P., Meets Local Interests to Discuss Situation
FRAIRIE FREE-TRADERS SCORE TACTICAL WIN
Protests to be Filed With Federal Government from Fruit Sections
Penticon.—Fruit growers of the Okanagan are preparing to make a fight for the retention of the anti-dumping regulations which are now imperilled at Ottawa through the recent action of the government.

Other Method Quicker
With authority given to the minister to set up a fair market value for each commodity, he could do this at the opening of the Canadian season on each variety of fruit or vegetable and set a reasonable price and not as dumped goods shipped away from home U.S. markets to prevent a glut there.

COUNCIL FIXES TAX AT 40 MILLS; MUNICIPAL PROPERTY WAS SOLD; COUNCILS ARRANGE CONFERENCE

JUDGMENT GIVEN MARSHALL VS. HUTTON
Judgment has been delivered by Judge Swanson in the action in County Court entered by G. D. Marshall against Major Hutton respecting the escape of a fire into Mr. Marshall's orchard about a year ago.

VETERAN KILLED BY NOON TRAIN AT PENTICTON

Fell Under Tender as Train Left Station—Head Cut From Body
A. S. Miller, for twenty-one years a resident of Penticon and a well-known fruit rancher there, was instantly killed by the K.V.R. westbound train at Penticon this morning at 11 o'clock.

SPORTS CLUBS TO BUY SPORTS GROUND HERE

Will Play Game at Oliver on May 24—Officers Elected
At a meeting of the Baseball Club held last week at George Inglis' office, officers were elected for this year, and a movement started to purchase a sports ground.

EASTER EVENING SERVICE HELD AT BAPTIST CHURCH

Easter Sunday evening services at the Baptist church were well attended. The church had been tastefully decorated for the occasion and the choir had prepared extra music.

ELECT OFFICERS FOR ART LEAGUE

On Tuesday the Art League held its annual meeting at the home of Mrs. C. P. Nelson, with a good attendance of the members. The election of officers was held and plans made for this year's activities of the organization.

Several Were Granted Right to Take Ground from Road Allowance

CHOICE LAND LEFT; MAY NOT BE USED

Council No Longer to Meet On Fixed Day of Week
At this week's meeting of the council the tax rate was struck for this year, several pieces of municipal property were disposed of, the long-delayed fire bylaw was finally given up as hopeless, and the month's accounts passed for payment.

Several parcels of municipal real estate were sold or details of sale to be arranged by committee. Part of the Gray property, ten acres, was applied for by Mr. Macdonald. Details of the terms of payment were discussed and left with the real estate committee for final settlement.

Mr. Hermiston had an offer in for a block in Prairie Valley, and this too was left with the real estate committee to finally settle. Wm. Hinton made an offer for a piece of the Giant's Head, and this also was left with the real estate committee.

Several applications were in for the privilege of taking earth from the municipal road allowances. All were arranged for in some manner.

Arrangements were made to meet the Penticon council on April 17 to discuss the Soldier Settlement Board matters, and it was thought Peachland council would also attend.

A change in the Municipal Act by the Legislature now throws the meeting time of the council to fixed dates rather than fixed days, so that the wages accounts may be passed. This makes it very awkward for those who wish to attend the meetings of the council, as they must inquire as to what day meetings are being held.

The tax rate for this year was finally arranged and passed at 40 mills, made up as follows: Municipal charges 3 mills, school charges 20 mills, debenture charges 17 mills.

WILLINGDONS TO BE HERE SOON

Vice Regal Party Will be in Okanagan Early in May

Penticon.—Early May will see their Excellencies Lord and Lady Willingdon visitors in the Okanagan. According to preliminary itineraries, the Governor-General will probably arrive in Penticon from Vancouver via K.V.R. on Sunday night, May 6.

On Tuesday they will leave for the north to connect with the main line on their eastward journey.

THE SUMMERLAND REVIEW (Published at Summerland, B. C.)

WALTER M. WRIGHT, Editor and Manager Member of Canada Weekly Newspapers' Association

SUBSCRIPTION RATES \$2.50 per year by mail in Canada; \$3.00 by mail outside of the Dominion—All in advance.

OUR HOSPITAL

If Summerland is to keep the asset of its hospital at work and at the service of the community, it is quite apparent a little more serious thought must be given to financing the institution.

Recognizing that something must be done immediately, those primarily interested are making a week's drive for funds, going through all the different forms of appeal from tag-day to concert, or, if you prefer concert to tag-day, and the citizens generally are asked to assist in making the week an unequalled success.

On a few occasions, it almost looked as though the hospital might have to be closed for the need of finances. This would indeed be a calamity, for in these modern days under western conditions, equipment for attending to the sick in their own homes is frequently very limited, and efficient helps are not there.

YOUNG FOLKS AND AGRICULTURE

Agriculture faces today a rather serious situation in many sections of the country, simply because a sufficiently fair proportion of the consumers' final purchase price of farm products does not get back into the average farmer's possession.

The education given to most of our boys and girls enables them to figure out the possibilities of higher rewards in the occupations of city life, and their inclinations will lead them to leave agriculture, unless they feel assured that a fair proportion of the retail selling price finds its way to the producer.

Farming deserves fostering, because it is the one industry which, the harder it is worked, and worked as it should be, will prove to be an inexhaustible source of wealth. This cannot be said of other industries.

These things lead naturally to the conclusion that if the farmer is to be kept out of the peasant class, his preparation for his work and investment of capital, must be as suitably rewarded as the city industrial or professional opportunities.

HORSES PAY BETTER NOW

There seems to be an increasing demand for horses which has brought even eastern farmers to look at the market for heavy horses with favor. Western associations at their meetings lately have been commenting on this fact.

On the situation in the East, an authority states that the western horses of good quality had brought \$125, which was looked upon as an indication of the return of that market to a point where a profit could be realized.

It is some time now since there has been much of an attempt on the part of horsemen in this valley to go after the horse market, and buyers have not been very numerous in here lately, but with this indication coming from the prairies, it looks as though there might be something in the business in the near future even for ranchers here.

THE ANTI-DUMPING SITUATION

The free traders who have been successful in getting the Ottawa government to take the teeth out of the anti-dumping legislation say that they are only fighting for a principle.

All the peaches that these prairie people eat do not amount to anything, insofar as the individual farmer's family is concerned. But apparently, the principle is the thing. Perhaps it does not matter in the meantime if the peach growers of B. C. and the Niagara peninsula are put out of business.

Many of these prairie farmers seem to believe that the prosperity of any other part of Canada does not amount to whit so long as they can buy their goods at the cheapest possible price and sell their grain at the highest figure.

If American fruit growers have a glut of fruit and are willing to ship it to Canada or anywhere else for the price of the freight just so long as it is kept out of their own markets and a domestic price collapse is prevented, that seems to be fine for the prairie free traders.

If we had received some protection from the flooding of our natural markets with low-priced American dumped peaches in years gone by, there would be much more peach-growing done in the Okanagan than is evident today.

Every additional grower making a living here through selling the produce of his land on the prairies would be a lot more valuable to the country at large than the amount a prairie farmer saves each year on the crate or two of peaches he might buy for next to nothing from the United States.

World of Politics

(By an Ex-Writer of the Ottawa Press Gallery.)

The Dominion House having adjourned for ten days, there is a temporary lull in political news from the Federal capital. A majority of members have been taking advantage of the unusually long Easter recess to pay a visit to their constituencies, and it is doubtful whether many of the western members will be back in their seats when the House resumes.

THE NEW MEMBER OF THE RAILWAY BOARD The appointment of former Premier Norris of Manitoba to the vacancy on the Dominion Railway Board, due to the expiry of the term of Commissioner A. C. Boyce, definitely closes the door for a time to the possibility of British Columbia securing representation on that body.

CAPABLE MINISTER OF TRADE AND COMMERCE Ever since the creation of the Dominion Department of Trade and Commerce many years ago a feeling has been more or less prevalent that it was one of the departments of the government that was not making good.

BREAD LINES IN THE UNITED STATES If the estimates of an unofficial research organization, the Labor Bureau Inc., New York, are to be relied upon, there are in the United States at the present time just about one million unemployed workers in Great Britain in proportion to the population.

Timely Hints For the Orchardist

Specially prepared for The Review by J. Tait, District Field Inspector

Burn up all rubbish and brush pile of prunings before the end of this month. A neglected brush pile is not only unsightly but, to a certain extent, is a menace to plants and trees in the vicinity.

Peach and apricot spraying should not be delayed any longer. Lime-sulphur 1-8 in the pink.

Commence bridge-grafting and top-working trees any suitable day now. We are ready to assist anyone in this work.

"All early in the April, when daylight comes at five, I went into the garden most glad to be alive."

And there are still some who have no garden. Have a garden by all means, for Spring and Summer without flowers is at best a sorry outlook. The Summerland Horticultural Society members have perennial roots to dispose of and are anxious to assist those planning a start.

For early vegetables, seed now. Peas, lettuce, radishes, parsley and onion sets.

INDIAN HISTORY REVEALS STERN METHODS USED

Lover's Act Cost Him Hard Punishments Under Simple Laws

LEGENDS TOLD IN NEW LIGHT

History related by the Okanagan Independent, and of interest here, we have copied below for Review readers:

Thanks to the effort of a number of people who have cast aside the romantic tales brought forth by adventurers and gone to the original sources of information, much of the fallacious legend surrounding the American Indian is being shown in its proper light.

A writer in a recent issue of a national magazine brought out that the common belief that the Indian is perpetually solemn and grave is all wrong and that he is, in his own environment and surrounded by his own people, one of the most fun loving and jovial sons of man.

One day, undoubtedly under the influence of a fit of jealousy, he deliberately cut off his wife's nose. He was immediately brought before Chief Tonasket and confessed that he had committed the act as a means of keeping the other bucks away.

At the appointed time for punishment Antwyne's wrists were bound and his arms brought down between his legs. Ropes were fastened to his ankles and to the thongs on his wrists. The ropes were made fast to a log so that Antwyne was held rigid.

Stomping to the bound prisoner, Chief Tonasket began to lay on lustily while the assembled tribe counted the blows. At the fifteenth blow, Antwyne fainted. Tonasket continued until all twenty-five blows had been given.

FIFTEEN YEARS AGO At a meeting of the Overseas Club on Thursday, April 3, a resolution was passed to the effect that a memorial fund be started in Summerland in honor of the heroes of the Scott expedition.

In order to promote co-operative methods of marketing fruit and the purchasing of supplies, Mr. R. Robertson of Vancouver has been chosen by the Department of Agriculture to address a series of meetings throughout the Okanagan, and gave addresses on co-operative methods.

complete. The garage is 60 x 45 and will accommodate twenty cars.

Clean-up day has been fixed. Fix up. The most humble cottage in our village can be made neat and attractive. A common board fence, without plane or paint, can be neat. Don't tie up your gate with a fence post.

A home is being erected near the Zimmerman property by Geo. W. Johnston, one of our newer citizens.

There are now men at work preparing the foundation for the false work on the K.V.R. bridge over Trout Creek for which work there will be about one million feet of lumber used. To build the false work up from the bottom of the creek, some 250 feet below the track level. About 480 tons of steel will be used.

A special boat service has been arranged for Sunday next to take anyone who wish to go to Kaleden for the opening of the Baptist church there.

Veteran Steamboat Captain Nominated By Slokan Tories

New Denver, B.C., April 12—Captain James Fitzsimmons was Wednesday the choice of the Kaslo-Slokan Conservative convention as candidate for the approaching general election. He is a steamboat captain who has operated for more than 30 years on the Arrow, Slokan, Trout and Kootenay lakes.

UNCONSIDERED TRIFLES

(By AUTOLYCUS)

Granny seems to be coming into her own nowadays, although some of us may have failed to notice it. Of course the great majority of those living today never knew the Granny who was born over a hundred years ago, and whose wisdom, inherited and acquired, ruled the domestic economy of the home in the days now referred to with more or less concealed amusement as the early and mid-Victorian period!

GOOD OLD GRANNY! I never knew the Granny who was born over a hundred years ago, and whose wisdom, inherited and acquired, ruled the domestic economy of the home in the days now referred to with more or less concealed amusement as the early and mid-Victorian period!

WHAT A sad fate was hers that she lived in that deplorable period known and reviled as the early Victorian age!

Mr. W. J. Black, director of colonization for the Canadian National Railways, is reported to have told the Ottawa Committee of Immigration that the British immigrant has lost his old genius for plodding, and that the majority of immigrants to this country cannot be from Britain.

Mr. Black objects to the custom of British farm hands of working eight hours a day, and taking a half holiday on Saturday, and he seems to think that the farmer's day should never be done. I fancy I have heard, somewhere or other, of demands by other classes of labor for a five-day week of six hours a day, and no work at all on Saturday, but we can let that pass.

Mr. Black makes the mistake of ignoring the fact that a farm hand, paid a fixed wage, is entitled to fixed hours of work, and for additional time is as much entitled to additional pay as is a carpenter or bricklayer.

Mr. Black ought to know that the Britisher immigrant is by far the most adaptable of all men, and if he does not know that, he should look around the world and see the proof of that truth. His remarks are simply in line with that underlying anti-British tendency which has been only too apparent for a long time past, and it is his attitude is to be taken as representative of the policy of the Canadian National Railways, we need not look to that organization for good results.

It seems to be looking back with regret to the days when the "green Englishman" was exploited by certain types of Canadian farmers, who took handsome premiums from him under the pretext of teaching him how to farm, and worked him from daylight to dark without pay, giving him his fill of "chores" around the farm, but teaching him just nothing at all.

Mr. Black's attitude is a very square peg in a round hole!

CORPORATION OF SUMMERLAND

Clean-Up Day The Municipal Council has appointed Thursday, 19th April, as CLEAN-UP DAY for the Municipality, and all citizens are asked to co-operate. A truck will be available for transporting rubbish to the nuisance ground.

What a sad fate was hers that she lived in that deplorable period known and reviled as the early Victorian age!

TRAGIC CLOSE COMES TO LIFE OF A. S. MILLER

Well-Known Pioneer Resident Cast Himself Under Train Wheels
HEAD IS SEVERED FROM THE BODY
Deceased Had Been Overseas Veteran and Active Church Worker

Penticton—A. S. Miller closed his long and useful career under a dark cloud of tragedy last Friday forenoon when, in a state of mental depression, he threw himself beneath the wheels of a Kettle Valley train.

Monday afternoon one of the largest funeral corteges in the history of the town wended its way to the cemetery where last respects were offered to the memory of a man who had given many years of unselfish endeavor to community life, particularly in the St. Andrew's and later the United Church.

The fatality occurred about 11 o'clock last Friday morning as the westbound train was backing out from the lake depot. Opposite the boiler room door of the Incola Hotel laundry, the deceased, who had been walking along the east side of the train, suddenly apparently lay down with his head across the eastern rail, the second truck of the end car passing over his neck and completely severing the head from the body.

The scene was a distressing one for the passengers and others at the depot, but the coroner, Dr. R. B. White, quickly had the head and trunk of the corpse removed.

That the act was premeditated was apparent from the fact that something similar had seemingly been attempted a few days previously. Letters left by the deceased at his home also suggested that he was preparing for death.

A coroner's jury viewed the remains on Monday afternoon, the inquest being held at the undertaking rooms as the funeral was being conducted in the United Church. The verdict of the jury, which comprised John Brooks, foreman, L. C. Burrell, A. C. Armstrong, George Taylor, O. Fumerton, and R. Hultgren, was to the effect that the deceased, Alexander Skene Miller, came to his death on Friday morning, April 13, by throwing himself under a K.V.R. train while in a state of mental depression.

Joseph Barrett, the first witness examined by Coroner White, stated that on the morning in question he was outside of the boiler room door at the rear of the Incola watching the train backing away from the depot, at about 10.55 a.m. Friday. It was going about four or five miles an hour. He observed a man's legs moving on the other side of the train; apparently the

MANY ENJOYED NATURE TALK

Dr. Roberts Had Splendid Reception Monday Evening

A delightful evening was spent on Monday last by those fortunate enough to hear Dr. Charles G. D. Roberts on "Wild Life and Nature Study." His lecture was given under the auspices of the Art League in the Veterans' Hall, where a good audience gave unmistakable evidence of their appreciation. His subject is always a popular one, he being a past master in the art of story telling. It is hard to say whether the grown-ups or the school children most enjoyed his tales of animal life and his own experiences in the woods.

Dr. Roberts has been called the dean of Canadian literature. We are all familiar, or should be, with the beauty, keen insight, depth of his poetry and prose works. His tolerant philosophy of life, wide culture, keen sense of humor, make him a most fascinating talker and lecturer, and Summerland was indeed privileged to have the opportunity of hearing him. He is now on a lecture tour, going east, and it is hoped he may be induced to pay us another visit on his return, and give us another opportunity of hearing him. It is seldom that men of genius and high literary attainment visit our secluded corner of the world, and we should take every opportunity of showing our interest when they do.

The audience on Monday evening was evidently of that opinion. We can assure them that Dr. Roberts fully appreciated their sympathetic attitude.

COUNCILS WILL FIGHT AGAINST S.S.B. ATTITUDE

Penticton and Summerland Confer on Vexed Taxation Issue
CROWN LAND FOUND HARD TO DEAL WITH

Municipal representatives of Summerland and Penticton met at the council chambers here on Tuesday night to discuss the situation created by the Soldier Settlement Board, which threatens to become intolerable.

On land sold to soldier settlers the board is willing to look after tax arrears created by the occupants, but demands the waiving of the fifteen per cent. penalty which is called for by the Municipal Act, and also proposes to pay only six per cent. interest instead of eight. This puts any settler in a difficult position because of the fact that all land held by the board is Crown land and therefore cannot be dealt with in the ordinary way.

At the meeting here on Tuesday the council representatives decided to draft a memorandum for submission to each of the municipalities in the valley affected by the S.S.B. for endorsement. It is also proposed to start a movement through the Union of B.C. Municipalities as well as to approach Ottawa so as to ameliorate conditions and lift the heavy burden now resting upon any districts containing numerous pieces of Soldier Board lands.

GREENHOUSE WAS BURNED SUNDAY

Early Sunday morning the greenhouse belonging to Mr. Alex Stewart, which is close to his dwelling, took fire and was completely destroyed. The fire probably started from an over-heated stove. The stove had been stoked a little heavily or perhaps there was more pitch in the wood than usual which probably caused the place to become overheated. The fire was not noticed till after it was beyond control. Mr. Jim Gibbon saw the fire

For many years different kinds of refrigerator cars were used for fruit shipped from the Okanagan Valley, but the new cars operated without the use of ice have proven the most satisfactory. These cars were used extensively last year throughout the district.

Under old conditions there was always a certain amount of risk in shipping fruit. The entry of dust or cinders, or the high temperature of the car, was frequently the cause of fruit becoming spoiled during transit. But under present conditions, fruit not only retains its color, freshness and firmness when it is shipped from one point to another, but it is actually improved.

For many months officials of the Canadian Pacific Railway and the Canadian Pacific Railway Express have been carrying on experimental work with a new type of ventilated express car to be used in the handling of soft fruits by express to prairie points, and they have recently arrived at an entirely new method of ventilating express equipment, which is known as the "B.C. Ventilator."

This device allows the air to be received into the car through two spacious intakes located at the ends of the car at the roof, carried to the floor without decreasing in velocity and effectively distributed through the lower sections of the car. Three times a minute there is a complete change of air, 10,276 cubic feet of air per minute being recorded through the intakes and 9,522 through the exhausts.

The new type of ventilator was tested under full load conditions, the car containing more than a thousand crates of strawberries, which were carried from Vancouver to Calgary in excellent condition. At the end of the journey not a single speck of dust could be found on top of the boxes, and the average temperature of the car was eight to ten degrees lower than the outside air, during the entire trip.

The strawberries arrived in perfect condition and the new type of car is expected to greatly help the fruit-growing industry throughout the Dominion.

B. C. TELEPHONE TAKES OVER GOVERNMENT LINES; LIKELY ALSO TO ABSORB OKANAGAN

Competition in Long Distance in Valley Will Then Disappear
OTTAWA DROPS OUT OF PHONE FIELD
Important Extension Developments Coming Says Coast Concern

The following dispatches from Ottawa and Vancouver have an important bearing upon the telephone situation in the Okanagan, indicating as they do the entrance of the B.C. Telephone Co. into this district: It is now believed that the B.C. concern, having taken over the government lines, will also absorb the Okanagan Telephone Co. The B.C. Telephone Company owns the system at Kamloops and has a line from Vancouver to that point. It also owns a system in the Kootenay, hence the ownership of lines in the Okanagan is important to it.

The chief obstacle to B.C. absorption of the Okanagan Telephone Co. in the past has been, it is said, the existence of a competing government line in the Okanagan. Now that the Coast company has purchased the government system, the taking over of the Okanagan Telephone Company and the elimination of all competition is probably only a matter of a short time, believe those who have studied the situation.

Price Was \$50,000
Ottawa, April 18. — The Dominion Government is going out of the telephone business in the southern interior of British Columbia. An order-in-council has been passed accepting an offer of the British Columbia Telephone Company for 1,006 pole miles of government lines; the price to be \$50,000.

The principal section included is from Kamloops to Kelowna by way of Merritt, Princeton and Vernon. Other facilities affected are Kelowna, Penticton and Endorby. The superintendent of telegraphs has figured out an annual saving of \$80,000 from this deal. More properly it appears to be avoiding a loss of \$80,000.

The telephone company is tapping the territory at different places, and plans to do more of it, so that conclusion has been reached that it would be good business to sell out the lines at the price offered.

Vancouver—Purchase of the government telephone lines in the southern part of the province is a preliminary step in the plans of the B.C. Telephone Company for extension of its services to all parts of the southern interior, and eventually connecting with all parts of Alberta, stated Mr. J. Hamilton, general manager, when informed of passage of the order-in-council authorizing the transfer of the government services to his company.

"The company has an extensive development programme mapped out but is not yet in a position to announce details," he added.

from town, but was at a loss at first to know where it was. He went up to West Summerland and then along to Mr. Stewart's and at that was the first to arrive to assist Mr. Stewart, who was already on the ground, watching that the fire did not spread.

The wind was, however, in a favorable direction, and there being but a small amount of inflammable material, it did not take long to burn out.

The building was a complete loss, as well as the many plants that were being started under glass.

LOCAL GIRL TO PLAY SENIOR BASKETBALL

Miss R. Harris With Team to Try for Dominion Championship

Miss R. Harris, who has played basketball here and with the U.B.C. team, may now have the honor of playing in the final tussle for the Canadian championship. The Vancouver Province recently gave the following item on approaching games:

Varsity girls, B.C. senior basketball champions, have been given a bye into the finals for the Canadian championship, and will meet the winners of the Dominion semi-finals, between Edmonton Grade and Toronto Lakeside, either at Edmonton or Vancouver, in a series for the title around May 1. This was the substance of a letter from Manager Arnold Henderson of the Varsity girls' team, who is also a member of the Varsity senior A men's squad which is shortly to contest the Western Canada final with Winnipeg Trollers.

Henderson had a conference with President Percy Page of the Canadian Basketball Association (Page is also manager of the Edmonton Grads), when the Varsity men passed through Edmonton, and an agreement was finally reached: Grade and Lakesides will clash at Edmonton April 21 and 22. If the Grads win, Varsity will travel to Edmonton for the Canadian final. If the Lakesides should win, they will come on to Vancouver for the final series.

If Varsity is forced to travel, they will write their exams first, leaving for Edmonton about May 1.

LOCAL INTEREST IN WEDDINGS OUT OF TOWN

William R. Boyd Married in Ontario—To Visit in Victoria

Fraser Lister Married Girl Native Daughter of Victoria

A pretty Easter wedding was solemnized at high noon on Tuesday, when, at the residence of the bride's parents, Dorothy Lavrock, only daughter of Mr. and Mrs. Harry E. Truax, and grand-daughter of Mr. R. E. Truax, ex-M.P., became the bride of Mr. William Roberts Boyd, of Summerland, B.C., son of Mr. and Mrs. John Boyd, Russell Hill Road, Toronto.

Amid a profusion of palms, ferns and spring flowers, the charming bride, attired in white crepe, in period style, coronet and veil of net and old lace, with diamante and orange blossom trimming, entered the drawing room with her father. She carried a shower bouquet of orchids, white roses, sweet peas and lily of the valley. The ceremony was performed by Rev. T. H. Cole, pastor of St. Paul's United Church, in the presence of relatives and intimate friends.

The bridesmaid, Miss Marjorie Neish, of Toronto, was in ambre point d'esprit over pink. Her flowers were butterfly roses and forget-me-nots. Mr. Beaumont Belcher, of Toronto, assisted the bridegroom. Miss Sadie Bremner, of Barrie, dressed in beige lace, played the wedding music during the ceremony.

Mr. and Mrs. Truax received with the newly wedded couple, the bride's mother wearing beige georgette and a corsage bouquet of sweet peas and lily of the valley. The wedding repast followed when congratulations were extended to Mr. and Mrs. Boyd.

Mr. and Mrs. Boyd left Walkerton on the afternoon train to take up residence at Summerland. The bride travelled in a coat of beige Kashe, with pink cuffs, over a blonde crepe dress, with hat and shoes to match. At Victoria they will meet Mr. and Mrs. John Boyd, who have spent the winter in California.

Among the out-of-town guests were Misses Eileen and Doris Hayvil of Toronto, Miss Marion Adams of Toronto, Miss Ruth Munroe of Thorold, Miss Jean Melville of Toronto, Mrs. Huntley Gordon of Detroit, Mr. and Mrs. Peter Bremner of Barrie, and Mr. A. B. Belcher of Toronto.

To their home on the Pacific Coast Mr. and Mrs. Boyd carry a host of good wishes. The bride will be greatly missed here, where she has been prominent, particularly in musical circles. Mr. Boyd also has numerous friends in Walkerton, where he resided for a couple of years after returning from service in France during the Great War.—Walkerton Telegraph.

TOURISTS FROM U.S.A. FLOCKED OVER CARIBOO

Many Canadian Cars Also Made Trip—One Car From France

New Westminster — Records from Cariboo Road toll gate at Spuzzum, between Yale and Boston Bar, reveal that 2,073 tourists from the United States paid toll to pass over the new mountain highway. A dozen or more states were represented on the books, which show a grand total of 7,659 cars, with a passenger service of about four. The report covers the 1927 touring season.

One touring car from France was registered. British Columbia led the list with a total of 5,586 autos of the 5,820 Canadian cars which made the pass. Motorists from more than half the Canadian provinces are registered at the toll gate office, and under the caption of "miscellaneous" automobiles from many eastern and southern United States are reported to have patronized the Cariboo Road.

The road is spoken of as a link in the chain of close union between the East and West of Canada, and between the states and provinces.

Cariboo Road has among its features the benefits of coolness and picturesque scenery, and wins approval with mountain stillness and rather refreshing change.

Visitors from Washington state were more numerous than others from the United States, records show. California tourists were second in number. Oregon autos were 36 in number in July, 27 in August, 3 in October and 8 in November.

As many as 229 machines in one month were recorded from California, with Washington leading with 352 in August.

FESTIVAL IDEA TAKING HOLD

Schools Receive Greatest Help—Local Shields Offered

The third annual Okanagan Musical Festival, to be held at Kelowna, was advertised in another part of this issue, promises to be, in point of entries, a bigger success than either of its predecessors. Entries are not only in excess of last year but come from a wider range of territory.

The huge success of last year's competition proves that the idea is taking hold. The interest being shown by the schools throughout the valley is keen, and the benefits accruing to the children, by thus being brought more actively in touch with good music, cannot be measured by immediate results only.

It is to be regretted that no adult choirs are entered from Summerland this year. Two cups and one shield have been donated to the Festival for choir events by citizens of Summerland. Only one of these is being competed for, and that by the high school girls' choir. This is hardly as it should be, music lovers think, in a musical community like Summerland. Those locally interested in festival work hope this will be remedied next year, and that the donors of those trophies will give a chance of seeing them come back to Summerland.

Since the syllabus was sent out, an additional item has been added, piano forte sight-playing (10 years and under), entries for which may be made up to the time of competition.

The adjudicators are Fraterio Rogers, Mrs. Doan, of Vancouver; Vernon W. Harford, M.A., of Edmonton, vocal and instrumental, and Mrs. W. A. Wylie, of Kamloops, elocution.

INSTITUTE HAD PASTRY DAY

Exhibition of Old-Fashioned Hand-Made Quilts to be Held

The Summerland Women's Institute held its regular monthly meeting on Friday afternoon, April 13, in the Parish Hall.

Mrs. E. Butler presided and there was an excellent attendance. After the regular business was disposed of and the committees had made their reports, a letter was read from the district convener of home industries saying that Mrs. Laura Goodman Salverson, the Canadian author, would be pleased to address the Okanagan institutes if dates could be arranged. It was moved that the Institute arrange to have her when she makes the town.

As this was egg day for the hospital, a large number of eggs were donated, with promises of more to follow.

Mrs. George Gartrell gave a splendid demonstration in the art of pastry making, which was of the greatest interest to everyone, and at the end of the afternoon there was a beautiful display of pies, tarts and puff pastry, which was duly sampled by the meeting and voted excellent. After a vote of thanks, the meeting adjourned.

PHONE REPAIRS START MONDAY

Night Service Will be Off After 10 o'Clock for About a Week

Extensive renewals are to be made on the switchboard of the local telephone company. Owing to constant use, many of the telephone locks are badly worn, this causes much trouble in that parties find themselves unable to get a conversation through central, or are suddenly cut off after the call is established, which is a great source of annoyance to the subscriber, as well as the operator on duty.

The ringing keys will also be renewed as faulty insulation has developed in the ringing circuits which causes a slight pulsating noise over the entire system. It also frequently happens that the operator is unable to give proper supervision over the ringing. This condition takes extra time to put a call through, having to ring several times to get a party on the line.

Work on the switchboard will commence about the first of the week, and in order to interrupt the service as little as possible, will be carried on at night, the office will be closed from 10 o'clock until 6 a.m. It is thought the work will be completed in about a week. Should there be an occasion arise where an emergency service would be required through the night, special arrangements can be made if notice is given beforehand.

Considerable work is being done this spring on the lines, covering the entire system. Poles are being replaced where necessary, and lines tightened up. When this work is completed there should be a decided improvement in transmission. Summerland is in the unfortunate position of having its telephone subscribers scattered over a very large area, which results in a heavy operating expense having so great line mileage per phone. This also adds to other difficulties in transmission and unless the lines are balanced correctly, electric light interference from high power lines will result.

The telephone company will be glad to have the names of any who are contemplating having a phone this spring as a new directory is being prepared, and this would enable the directory to be up to date at time of issue.

LOSING FAVORITE VOCALIST

Next Tuesday, when Miss Dorothy Truax weds Mr. William R. Boyd and travels to reside in Summerland, B.C., the town loses another of its favorite vocalists. Miss Truax, a graduate of the Toronto Conservatory of Music, is always heard here and elsewhere with much pleasure, and she will be greatly missed. Next Sunday evening she will sing in the cantata in St. Paul's church.—Walkerton Telescope.

PEACHLAND NEWS

By Our Resident Correspondent

Miss Fraser returned on Thursday of last week to spend the latter part of her Easter holidays in Peachland, as her parents and the rest of the family moved from Pentiction and have taken up residence in Kamloops.

Mr. and Mrs. F. R. Gartrell and family motored up from Summerland on Wednesday of last week and spent the afternoon visiting in the home of Mr. and Mrs. H. E. McCall. They exchanged members of the two families, who interchanged visits during the Easter holidays.

Quite a number of the townsfolk took advantage of the opportunity to attend a vaudeville show on Friday evening of last week, given in the G. W. V. Hall. Part of the attraction of the evening on this occasion, which took the attention of the children more especially was a cub bear and an anteater. This is the second show that has come to town recently.

The Peachland Trail Rangers enjoyed a hike on Friday of last week, winding up at the home of one of the rangers where Mrs. Margetison entertained the lads right royally. They had their regular weekly meeting while out for the afternoon.

The Peachland Baseball Club held a meeting on Tuesday evening last to continue necessary arrangements for the concert which they are getting up for April 27 in the interests of the club and also to discuss and arrange for answering letters asking for games. Letters had been received asking for a game in Oliver on May 24, and one in Summerland on June 3. It was decided at this meeting to accept these two challenges and make arrangements accordingly. The matter of a league was discussed at some length and a letter from Kelowna read, suggesting that Kelowna, Peachland, Summerland and Pentiction form a league. The local club is suggesting that a representative from each of these four towns get together to discuss necessary details in connection with the forming of the league. We understand that arrangements are progressing favorably towards the concert.

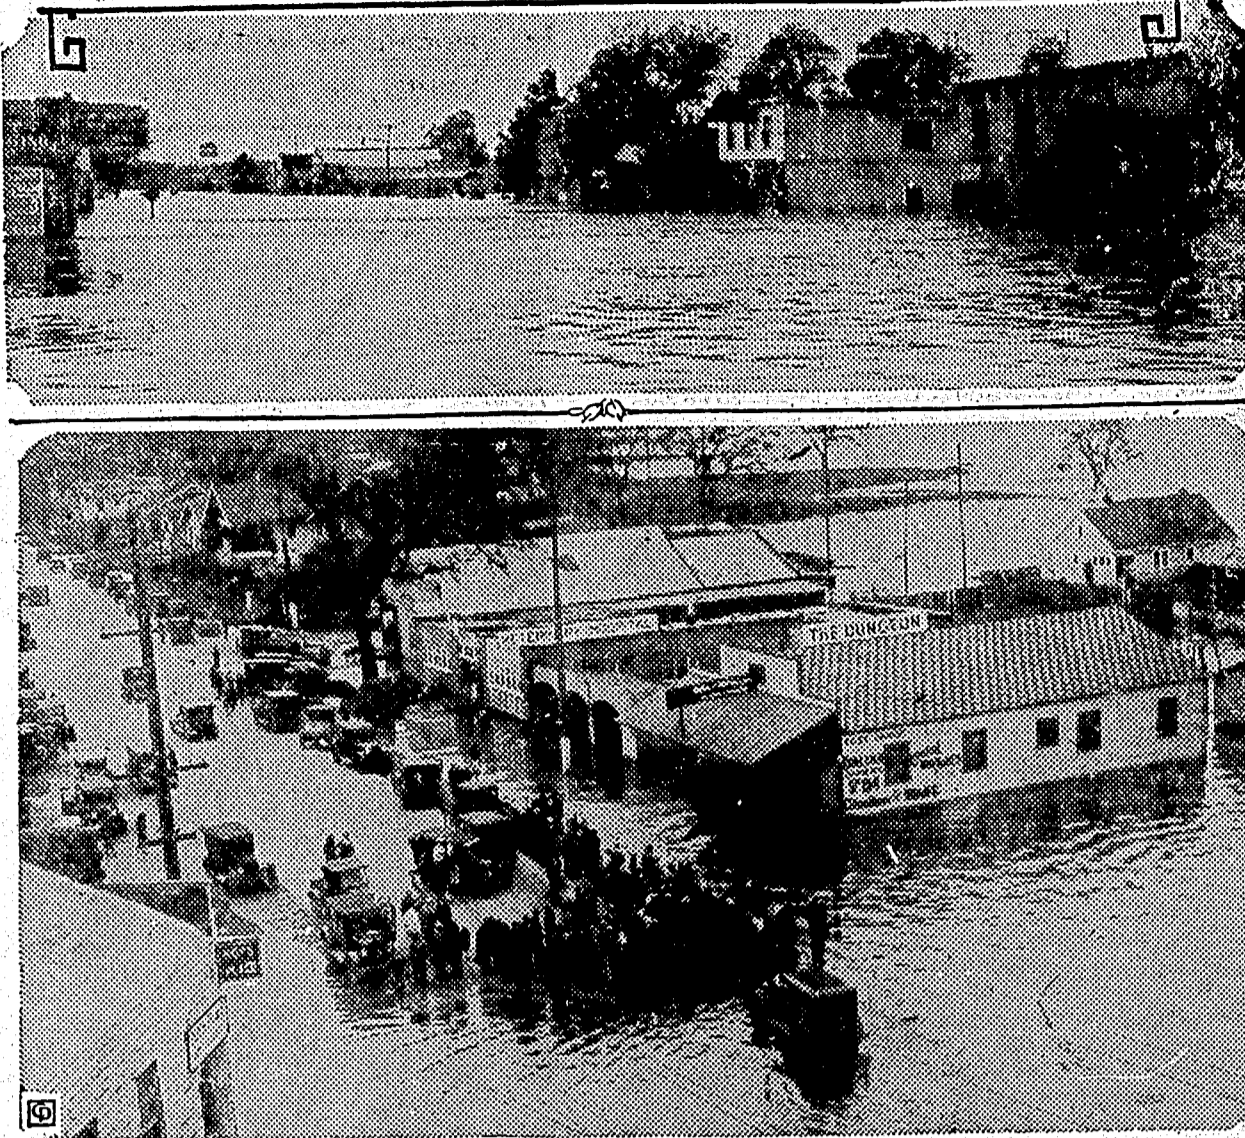

Mr. Alf Huston left on Tuesday evening's boat en route via K.V.R. to return to his home in Alberta to get ready for the spring work and fishing, after having spent a few weeks in

CARD OF THANKS Mrs. R. H. Huston and Mr. Alfred H. Huston wish to thank my many friends who have shown their kindness and sympathy in their recent bereavement, and also the Orange and Lady Orange Lodges for the beautiful floral tribute.

SCENES AS SPRING FLOOD WATERS HIT SACRAMENTO

These views were snapped in Sacramento, Cal., as spring flood waters inundated sections of the city and surrounding territory. Heavy mountain rains caused streams and rivers to rise to flood proportions.

day this year should be set for Thursday, May 17. With reference to the Institute superintendent, a unanimous vote of confidence in Mrs. V. S. McLachlan was voiced by the meeting. A donation was voted of \$5 each to the Solarium and the Otho Scott fund. Mrs. Dr. Buchanan was chosen co-treasurer of a committee to ask the council to co-operate to improve sanitary conditions in the municipality. The library committee reported that it had exchanged books with the Naramata library. It also asked for assistance from the Institute to spring-clean the library and kitchen. The entertainment numbers of the programme were as follows: Recitation by Mrs. Sadler and vocal solo by Mrs. McKay. After dainty refreshments were served by the hostesses for the afternoon, the meeting closed with the singing of the National Anthem.

Tragic Close Comes to Life of A. S. Miller

(Continued from Page 1) Individual was walking along the opposite side of the track and in the same direction as the coaches. Suddenly he saw the wheels of the dining car, which is the end car, passing over the man's body. The rear truck set of the diner, which as the train was backing up, would be the first, had gone by, and it was the front truck wheels, which passed over the man. Barrett said he immediately signalled to the engine at the other end of the train and the train was stopped in two or three car lengths. At that time the cars had passed over the corpse, as had also the engine tender. The body was found, front down, outside of the rails at right angles to the track. The head was inside of the rails about eighteen inches from the body. Brakeman's Evidence Brakeman R. S. Fraser said that he was at his post at the end of the observation diner, when the train was backing out. The only man he saw in the immediate vicinity of the accident at that time was Mr. Barrett at the Incola boiler room door. The knowledge of the accident he had was when the train came to a stop from the emergency brake. It had been proceeding at four miles an hour. He got down to the ground and saw persons rushing towards the engine. There he found the headless body of a man up against the rails and at right angles, with the arms down at the sides. The head and a hat were between the rails. Witness said he had no success in his attempt to find out if anyone had actually seen the occurrence. The engineer of the train would not be able to see it on account of the curve. An examination of the train trucks at South Pentiction seemed to indicate that the second trucks of the diner-observation car, in reality being the front end of the car if the coach had been proceeding ahead instead of backing up, were the first to go over the deceased. This would apparently bear out the assumption that the late Mr. Miller had not been approached by the end of the train but had walked along on the east side of the cars and had thrust himself head first into the east rail as he reached the middle of the dining car, or as that car passed him. The examination of wheels at South Pentiction showed that there was blood on the front trucks at the back of the diner but none on the trucks at the rear end backing up. Brakeman Fraser explained that there was no side door at the end of the diner attached to the train, and all vestibules up to the first class coach would be closed. This there was no opportunity for anyone to board the train on these coaches as it backed away from the station. The place where the body was found by the tracks would be about two and a half car lengths south from where the lane would cross Martin street, he thought, and immediately opposite the boiler room door of the Incola. It would be impossible for anyone to see the occurrence from the station, he considered, on account of the curve in the track. Probably it could not even be seen from the Mar-

tin street crossing. Had Tried it Before George Meldrum, K.V.R. fireman, told of a significant incident of April 5, when the K.V.R. westbound was backing to South Pentiction and was between the Winnipeg street and Westminster avenue crossings. He was looking out of the engine cab on the west side and saw a man walking southwest along the tracks towards the Westminster avenue crossing. The engine at the back end of the train was then about at Winnipeg street. The man was three or four feet from the train. After the end of the train had crossed Westminster avenue, the witness got down out of the cab to attend to the fire from the engine deck. When he looked out again this man was just picking himself up from beside the rails. His face and clothing were covered with dirt and cinders but he did not seem to be hurt. He brushed himself off quickly and rapidly turned around to walk back in the direction of the Winnipeg street crossing.

Witness recognized the man as A. S. Miller, whom he had known for many years. The doors on the west side of the train were closed and witness wondered what Miller was doing there, but supposed that he had tried to board the train and had been knocked over by some protruding part of a coach. At the time he got up and started in the opposite direction to that in which he had at first been walking he looked dazed and excited. "The evidence of Chief Davis of the municipal police related to the finding of a large envelope on the table in the home of the deceased. It was sealed and marked "To be opened in case of my death" or any special emergency." Inside the large envelope was a letter to the Canadian Bank of Commerce with regard to business matters, also one to Roderick McDonald, dated March 23 last, which ran somewhat along this line: "I want you to understand that you do not owe me anything for wages for orchard work. I left the pruning shears in your orchard as they are of no further use to me. Think as well of me as you can, Good bye. A. S. Miller." Another note to Mr. McDonald informed him that he and B. C. Bracewell were to act as will executors. Some directions were given them with regard to the papers of the witness in a safety deposit box in the Bank of Commerce. The letters, with the exception of the one specifically detailed above, were dated "March". Had Seen Death Ahead In his observations to the jury, the

coroner said that these letters might be construed as showing that the deceased meditated an anticipated death. He was apparently in good financial circumstances, having recently sold his orchard, but his health had been indifferent for some time. His mental condition had been reasonably good. The evidence showed that there was no blame attaching to any second person in connection with the affair. The jury took less than five minutes to bring in its verdict. All sections of the community were represented at the funeral of the late A. S. Miller, held in the United Church on Monday afternoon, with Rev. A. E. Whitehouse officiating. The church choir, of which he had been a member for many years, was in attendance. The pall bearers were John Lochore, Sid Price, W. R. King, E. W. Mutch, W. T. Leslie and J. R. Mitchell. The returned men furnished honorary pall bearers. The military representatives were P. Coldron, R. H. Atkinson, W. Paterson, A. Tavendale, T. H. Wilson and W. A. Woodward. The coffin was draped with the Union Jack and the pall bearers marched ahead of it, bearing the flowers. Many flowers were in evidence, the church was crowded with those who gathered as a last tribute to the memory of a good citizen unfortunately taking a tragic means of ending life, as a result of a mentally temporarily overthrown by the worry and strain of ill health. Floral offerings came from the following: Mrs. S. McKay and Miss Elaine McKay, Vancouver; Mr. and Mrs. F. J. Young and family, Naramata; Mr. and Mrs. R. G. Keys, Mr. and Mrs. C. J. McKee, Mr. and Mrs. R. McDonald, the Gordon family, Kelowna; Canadian Legion, Mr. and Mrs. J. C. Berry, Mr. and Mrs. Hoelze, Mr. and Mrs. T. S. Price and Miss Price, His Absent Brothers, Mr. and Mrs. W. A. McKenzie, Mr. and Mrs. T. H. Wilson, Mr. and Mrs. A. C. Patterson, Session of the United Church, United Church Choir, the Vagabonds Club. In his funeral address, Rev. Mr. Whitehouse spoke of Mr. Miller's years of association with church work, particularly in the choir. He also touched upon the fact that he had been an overseas man and as one of these had doubtless gone through much of the hell of war, which left its aftermath with so many of the veterans. A. S. Miller was a man of sixty. He came to Pentiction from the Yukon about twenty-four years ago and was thus one of the real early pioneers of

the town. Twenty-seven years ago he, with Mr. and Mrs. Angus McLeod of Naramata and Mr. Roderick McDonald of Pentiction sang in Rev. John Pringle's church choir in Bonanza, Yukon Territory. In those days Mr. Miller clerked in the store managed by Mr. McDonald. The deceased worked in the W. R. King store here after coming to Pentiction and also did some teaming on the benches. Later he purchased an orchard and continued in fruit raising until a few weeks ago, when he sold his place. He had a severe attack of flu about a year ago and since then had been

in poor health, it being very difficult for him to get sleep. He had no financial worries. The fact that he was in a highly nervous state of health became apparent to his friends a few weeks ago and he was urged to enter a sanatorium. He was a veteran of the Great War, being one of those to join up from here in the early days of the conflict. During his service overseas he was taken ill with severe pains in the back of the head. It is believed possible that this ailment or the organic cause of it cropped up again following the flu illness last year. He left a brother in London, England, another in Pittsburg, and a third in Los Angeles, also two nieces, one in Hollyburn, West Vancouver, and the other in Shanghai.

SYNOPSIS OF LAND ACT AMENDMENTS PRE-EMPTIONS Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes. Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent. Records will be granted covering only land suitable for agricultural purposes and which is not timber land, i.e., carrying over 5000 board feet per acre west of the Coast Range, and 8000 feet per acre east of that Range. Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner. Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres before a Crown Grant can be received. For more detailed information see the Bulletin "How to Pre-empt Land."

ALL PULL FOR SPORTS DAY

Last year, on June 3, Summerland had one of the biggest days of the year, with events at the Experimental Station that appealed to practically everyone.

EMPIRE SHOPPING WEEK

The days are from April 21 to April 28. Please keep this thought in mind for this particular week.

AN IDEA

If anyone wishes to convince a skeptic of the reality of the liveliness of Summerland, just invite the skeptic to arrange a programme to be put on some evening.

STUPID PENALIZATION OF AGRICULTURE

The lack of good sportsmanship displayed by the western free traders will strike the fruit growers of British Columbia with greater force because of the factor of the clamant and ailing 1927 apple crop.

OIL IS BAD KINDLING

There seems to have been an unusual number of fires this year, accompanied by fatalities, that make one wonder if people will ever be able to avoid catastrophes that accompany thoughtless acts.

THE CANADIAN COUNCIL OF AGRICULTURE

Mr. Peterson, whom I have already quoted, also had something to say recently about the so-called Canadian Council of Agriculture, a private farmer organization which presumes to go to Ottawa and speak for all branches of agriculture.

HE COULD NOT EVADE CONTRACT

From a recent issue of an Old Country paper: COURT OF APPEAL—Lord Justice Scrutton and Sankey and Mr. Justice Romer.

World of Politics (By an Ex-Writer of the Ottawa Press Gallery)

The editorial in last week's Herald dealing with "The Anti-Dumping Situation" effectively covered the practical aspects of this question and the apparently callous disregard of the free traders of the prairie provinces.

THE "PRINCIPLE" OF POLITICAL PRESSURE

Reading the despatches to the Toronto and Winnipeg newspapers together it would appear to be fairly clear that the western group of free traders who have their hands on the Government tiller at Ottawa, and who have been dissatisfied with the small measure of tariff reductions in Mr. Robb's budget, applied political pressure to obtain something more.

Harmonize Plants in Places They are to Grow; This Pays

A perennial garden requires much less care than one of annual flowers. However, the fact that certain flowers are perennial and therefore long lived suggests to us that they are slow growing.

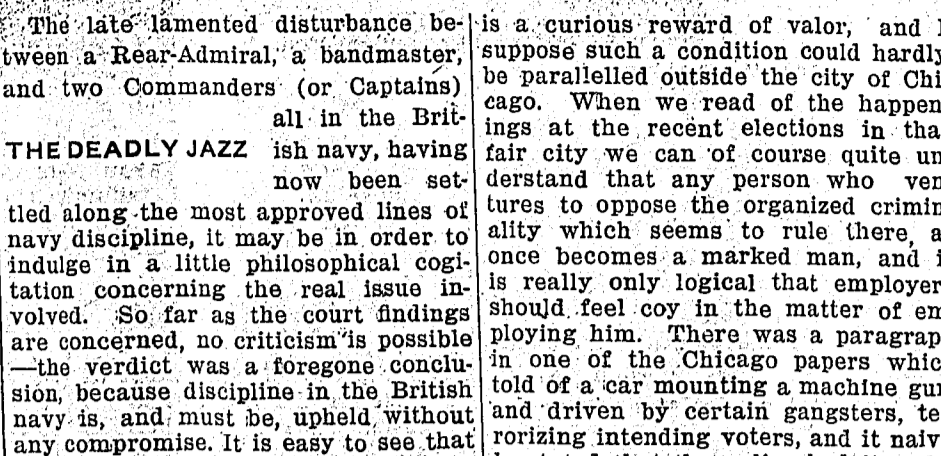

THE DEADLY JAZZ

The late lamented disturbance between a Rear-Admiral, a bandmaster, and two Commanders (or Captains) all in the British navy, having now been settled along the most approved lines of navy discipline, it may be in order to indulge in a little philosophical cogitation concerning the real issue involved.

UNCONSIDERED TRIFLES (By AUTOLYCUS)

My friend George was orating the other day concerning the trend of modern science, and in the course of his remarks said "I was getting tired of reading about the results of current researches, for the simple reason that they were depressing. He said: "When I'm told that, after all, I am only just a bundle of atoms and that everything in the universe comes down to electricity, I feel worse than I did when I was told I was the grandson, many times removed, of a monkey! I'm getting fed up on it all. And look what these fellows are going to do to us presently! When a man telephones me, he is going to be able to see me as well as hear me, and, darn it all, I shan't have a bit of private life left. And the next thing is that they're going to read my thoughts! We shall all be turned inside out and upside down! And the best they can tell us for the future is that, if we survive, we shall be some form of aggregation of atoms, and not ourselves at all. No, my boy; I'm of this scientific stuff. Give me a decent world to read, instead of all this brainstorm theory, and let me live my life the best I can as I find it."

THIS FRIDAY AND SATURDAY Richard Dix in 'The Quarterback' Action—plus—until the last white chalk mark is passed. Dix in this role is a popular football idol. On the eve of 'The Big Game' he is accused of professionalism and it's 'Rough him, cuff him, twist his neck and hit his back for more with a smile, by heck.' Also comedy, 'WET PAINT' and 'FOX VARIETY.' "CHANG" TWO NIGHTS AND A MATINEE—Don't miss this chance of seeing this wonderful production. Pictures of this type are very rare. It is educational, has comedy and thrills. Everything to make something worth seeing. Kru, who takes the lead is a Presbyterian elder, his picture appears on one of the foreign mission booklets. This is your only opportunity to see this film, and you can't afford to miss it. We will also have comedy and Fox Variety. NEXT TUESDAY AND WEDNESDAY, MAY 1 and 2—Matinee Tuesday afternoon at 3:30. Matinee prices 20c and 35c. Evening prices 25c and 50c. RIALTO THEATRE OH! SAY!! SAVE THE FORESTS

LOCAL HAPPENINGS

Miss Lillian Darke expects to leave on Monday for Victoria. Thursday, May 11, Hospital Dance in Ellison Hall. Hospital Week, Map 6-12. See the Coming Events. Mrs. W. L. Moffat, of New Westminster, is visiting her parents, Mr. and Mrs. Dryden. Mrs. H. J. Sanderson and her son Roy returned from Vancouver on Saturday last. Mr. W. C. Kelley was over to Princeton on a case heard before Judge Brown, on Wednesday. The cent-a-word advertisements pay their way. Evidence—note the number who use them. Mr. Campbell Robinson was in town for a few days last week on a hurried business trip and renewing old acquaintanceships while he was here. Mr. Phil Sourrah has returned from the hospital, where he underwent an operation for appendicitis. He is making quick recovery. It is very likely that Premier MacLean will be the speaker at the annual picnic at the Experimental Station, June 3. R. M. H. Turner's home in Meadow Valley was destroyed by fire Thursday morning. The building and contents were a complete loss. Mr. and Mrs. J. Lloyd, of Medicine Hat, who have been visiting Mr. T. Garnett, expect to leave on Saturday for their home. Hospital Week, May 6-12. See Coming Events. Carelessness in the woods has cost Canada untold millions through forest fires which have destroyed 60 per cent. of the original forests. Miss Ethel Denike has been accepted as a probationer in Victoria hospital, Prince Albert, Sask. She expects to start training in the early summer. Mr. E. J. Chambers, president of the Associated Growers, who expected to be at the co-operative meeting, has been called to Ottawa to confer with authorities on the dumping legislation. Mr. Walter McRaye, who spoke in Penticton last week on Canadian Authors, visited Mr. and Mrs. K. S. Hogg this week. Mr. McRaye is also an intimate friend of Jack Logie. He enjoyed a run up to Summerland. There is a strong representation from the Summerland music lovers attending the festival at Kelowna. The steamer Scamoux is waiting over on Saturday night till 10.30, by which time it is expected the last of the programme will be over. This is 'Save the Forest Week' throughout Canada and everyone is asked to fix in mind the fact that, by carefulness, it is as easy to save millions of dollars worth of timber each year as it is easy to destroy it through carelessness. The municipal council has, at the request of the people of Summerland, passed a pests control bylaw and would like to have all use a preventive spray for codling moth. The council's ideas will be given in the Timely Hints next week. The additional bowling green which the Bowling Club had started last fall is being put in shape this week, and it makes a very promising spot. Considerable work was necessary this spring, and a number of men have been at work there this week.

Headaches Dizziness Nervousness Can in many cases be connected with defective vision. A thorough eye examination will soon determine whether your trouble is due to that cause.
