# The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

\$2.50, payable in advance.

VOL. XIX.—No. 5

SUMMERLAND, B.C. FRIDAY, FEBRUARY 3, 1928

## SUMMERLAND'S FIRST POLITICAL MEETING AS SEEN BY CHAIRMAN

### Old-Timers Have Wonderful Night—Big Crowd Listens to Hon. Price Ellison and Local Entertainers and Speakers.

It was probably a record crowd that attended the Old Timers' celebration on Thursday night, certainly one of the biggest in the history of the society and as intent on having a good time as any crowd they had assembled.

Besides local contributors to the programme, Hon. Price Ellison was the only one who could attend. He came down from Vernon to be present and enjoyed renewing former friendships and participated in recollections of happenings of other days.

The annual business of the organization takes only a short time and it was soon dispatched. The last year's officers were returned, although the president, R. H. English, asked that someone else be put in his place. He gave a brief address in which he recalled the purpose of the organization and referred to the great pleasure it was to have Hon. Price Ellison again in Summerland, and to speak to this section of the constituency which he represented and in the hall he was able to secure for Summerland.

The chairman then called on Thos. Ramsey to present the first item of the programme with an accordion solo, which received generous applause.

Hon. Price Ellison was then called upon. He expressed the pleasure it gave him to be present in the hall and noted the modern changes in the place with other innovations such as bobbed hair, which he was convinced deserved nothing less than a strong tax. He took occasion to refer to a former victory Summerland had scored with grapes, exhibited in the Old Country, two bunches weighing seven and nine pounds. He spoke of the past year, the year of Canada's Diamond Jubilee, as a great one in the history of Canada, and compared the growth of the Okanagan as being in line with that. First, we had only the small C.P.R. steamers, then the Okanagan and now the Slocan and the service of the C.N.R. In closing, he hoped that 1928 in Summerland would keep pace with that record and surpass it.

T. G. Beavis was next called upon for a solo, and chose an old-time selection which was much appreciated.

W. C. Kelley had the next item on the programme, and in his remarks said that fifteen minutes in the life of an individual was somewhat like a fifteen-year period in the life of a nation. Canada, in the Jubilee year, to which Hon. Price Ellison referred, showed somewhat of this idea in her growth. During this time she had developed traits of national character, and to such an extent that now on our census records we might rightly place the names of those of British parentage, as Canadians, and not Irish, Scotch or English, and Canada a boy or girl can go as far as ambition and ability will take them, and while in Summerland we do not see many direct evidences of this, yet those who have gone ahead look back with pride to the excellent start in life Summerland has provided for her young folks.

Miss Carol Graham followed with a solo, and her encore number was just as much appreciated as the first selection.

The chairman then introduced Rev. Mr. Solly as a real old timer. After referring in complimentary terms to Summerland's good citizens, he suggested where we should have our own place where we should have our own Old Timers in this place bound together. In setting out the young trees, they attempted to solve a big problem and so laid the foundation for present orchard practices.

The chairman, in announcing the next soloist, said he had known her and was anxious to see how she would behave herself in public. He had then heard her sing very much. He then called on the Rev. Wm. White. The audience showed approval and gave a generous encore.

Three girls in Highland costume, Joan and Margaret Stevon and Catherine Ramsey, very gracefully danced the Highland Fling.

Granville Morgan, an old timer among the Old Timers, sang a solo that was very much appreciated.

Dr. Andrew, when he had to speak, said that to call man an Old Timer in comments feelings we all hold high our estimations of him. He said he would give some crumbs of philosophy taken from his experiences in Summerland, with humor peculiar to the doctor himself he recounted to the delight of his hearers an occasion when he had been called to attend an injured workman in the old mill. He was able to "give some gratuitous health hints" much enjoyed by his hearers.

Mr. G. C. Cameron and his son, "Ethel", spoiled his chances of escaping a solo, and gave a second solo, which was just as much enjoyed as the first number.

A humorous play, "How to Keep a Husband at Home," put on by Mrs. E. Sutherland, Mrs. T. G. Beavis, Mrs. E. Buttler, Miss Gantrell and Leo McLaughlan, was the last item on the programme. They presented it to a small audience in the winter and on this occasion did even better than before, giving the crowd many a good laugh.

Several Old Timers who were unable to be present sent their greetings. Mr. Moreland and Geo. Ross sent telegrams, while D. Watson, Cliff and A. McWilliams, Nelson Short, Jack Logie and H. Atkinson sent letters. These were all very much appreciated. Mr. Atkinson's letter, recounting the first political meeting in Summerland, follows below.

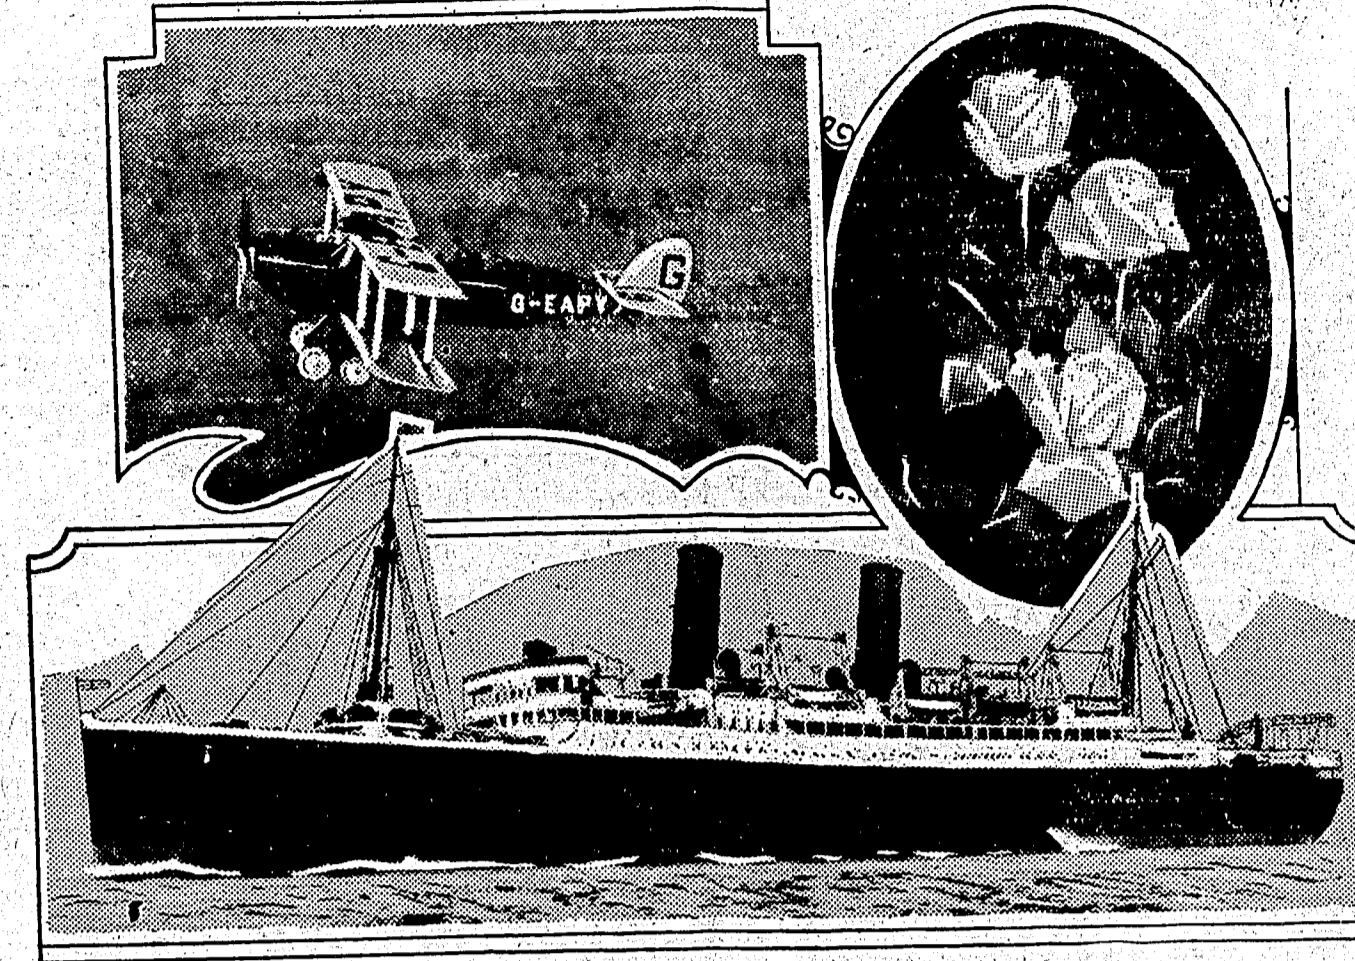

After the programme a generous supper was served and a local orchestra provided the music for a dance which kept the merry crowd till the early hours of the morning.

Victoria, Jan. 30th, 1928.

Mr. R. H. English,  
President Summerland Old Timers' Association.

Dear Mr. English:  
I thank you very much for your cor-

## Canadian Roses for Paris Ladies

Upper Left:—Type of airplane that conveyed the flowers to France. Upper Right:—Specimen of the roses from the Dale Estate, Brampton, Ontario. Lower:—Canadian Pacific liner Montreal on which the roses left Saint John for England.

A gesture of courtesy that used as its means of expression the fragile flowers of the heart of summer conveyed by railway, steamship and airplane, over three thousand miles of land and sea, in the depth of winter, to two ladies in France, was chronicled in the information given out by the Canadian Pacific Express Company.

The flowers were two boxes of roses, grown in the huge greenhouses of the Dale Estate, Brampton, Ontario, and sent by Lieutenant-Colonel J. B. Maclean, president of the Maclean Publishing Company, of Toronto, to Princess Carolyn de Faucigny-Lucinge, who was a patient in the American Hospital in Paris, and to the Countess Odon de Lubersac. They were sent as a Christmas present to those ladies, but the weather intervened, and they did not reach their destination until some three days' later. When they were as fragrant and fresh as if they had been plucked a few minutes earlier from their bushes.

The Canadian Pacific Express Company was responsible for the handling of the roses from Brampton via Saint John and overseas on board the S.S. "Montcaim" to Liverpool. They arrived at the latter city

## PATTULLO PROMISES AID TO IRRIGATIONISTS IN REDUCING LIABILITY TO GOVERNMENT

### Will Write Down Capital Charges on Interior Systems and Extend Time of Payment — If Rates Are Modified For Mixed Farming on Irrigated Land Government Will Consider Assuming the Burden, Says Minister of Lands.

(Special to Summerland Review)

Victoria, Feb. 3.—New pronouncements of policy of far-reaching importance, including plans to grant relief to interior irrigationists and Sumas landowners were made in the House by Hon. T. L. Pattullo, in a speech acknowledged as one of the most forceful and masterly heard in the legislature in years.

In brief, the government, through Mr. Pattullo, promised legislation at this session:

To write down the capital charges of interior irrigation systems thereby radically curtailing the water users' liability to the province.

Extension from 30 to 50 years of the period in which irrigationists may pay off money borrowed from the province to establish waterworks.

Consideration of proposals that the government should assume the burden if, on reclassification of the interior irrigation lands, it should be found that neither fruit growers nor mixed farmers could meet the irrigation rates the reclassification would show to be proper.

Elimination of compound interest on irrigation loans in respect of the moratorium period.

Legislation authorizing district water boards to waive the 15 per cent penalty on tax delinquents in their discretion.

Return to original pre-emptors of the value of their labor on the sale of reverted pre-emptions by the Crown.

Left Holding the Bag.

"In boom pre-war years," he said, "land companies with subsidiary water companies were formed. It was the intention to separate the water from the land and they undertook to sell the water at a low rate in order to sell the land at a high price. They did sell the lands at a high price and that is one of the difficulties today. They got out from under, leaving the water user to hold the bag.

"Statements that the government place charges on these water users are totally wrong. The annual levy is simply in order that they will pay back the borrowed money and it is not a tax at all. The irrigation works are the property of the water users, not the government."

Regarding re-classification of irrigation districts with a view of eliminating the standard charge and devising a modified plan according to the ability of the land to pay, he pointed out that if anything were taken off the charges on mixed farmers it should properly go on the fruit growers and not on the government. However, he promised if it should be found that fruit growers could not bear the heavier levy the government would consider assuming the burden.

## COUNCIL STARTS FIRE BYLAW AND CODLING MOTH CONTROL

All the members of the council were present at Tuesday's meeting. Several important matters were discussed that needed consideration before the next meeting, when the board will have things shaping up for the arrangements of their budget for 1928. By that time the Court of Revision will have been held, the school estimates will be in and some of the proposed alterations to the irrigation and domestic water will have been settled upon.

A letter was in from the Farmers' Institute asking for council to take the necessary steps to create two isolated districts for the prevention of spreading of codling moth. This has been put into the hands of the council now, by the Department of Agriculture. The two areas include three orchards at West Summerland and three east of the Giant's Head. Mr. Campbell stated the government had given the municipality the necessary powers, he understood, and he felt there should be an inspector put on to see that the spraying was done to advantage. He also reported that Mrs. Orr was very anxious to see that their orchard was properly treated. Reeve Johnston was anxious to know if the packing houses could be instructed to accept fruit from orchards not properly cared for. Mr. Arkoll suggested that the clerk get information from Kelowna as to how they are handling the spraying, etc., there. Councillors Campbell and Tweedy were appointed a committee to see Mr. Kelley and discuss the matter with him, so as to comply with the legal side of the matter.

A bylaw relative to the tax sale of land passed its second reading. Legal accounts for 1927 on tax sales were gone over and the clerk instructed to be passed for payment. Mr. W. C. Kelley was to be asked also to represent the municipality before the Water Board when they fix the irrigation charges for 1928.

The council discussed the advisability of having the municipality created an improvement district. The subject was debated in a general manner and it was decided that it should be discussed with the Water Board. There were some matters it was felt this move might be handled.

The question of a bylaw for fire protection was then taken up. The two townships, it was felt, should be one fire district. At the Lakotit it should include part of the Co-operative plant. The telephone central, the street up by the old Methodist church, along the business section up to Rowley's, Carter's, P. Garriault's, then also include the dwellings along Bonch avenue as far as E. N. Rowley's.

At West Summerland it would include Lind's dwelling, Wm. Johnston's, Mr. Stovner's, Geo. Armstrong's, Alex Stovner's, take in the Baptist church and along the business section to include the schools, A. J. Door's, Armstrong's, the Occidental, Pincos's and O. J. Wright's.

Mr. Arkoll felt the bylaw might be turned down, as it made provision for a gas pumping equipment for the lake shore, but Mr. Campbell thought the people had discussed it so much that they understood matters better now than on a former occasion. Mr. Arkoll reported fully on the views held by the people down by the lake. He asked what a pipe system would cost, and Reeve Johnston stated it would be considerably more than the present plans called for. A bylaw was to be put in shape with the help of the solicitor, that would call for expenditure of about \$8,000. Then, if it was felt a public meeting was wanted by those

## JERSEY CATTLE CLUB BEING NOW STARTED

### Canvas Under Way For Members—Bank is Behind Move

A number of men interested in the promotion of a purebred Jersey club in Summerland met on Monday evening in the Municipal Hall to discuss such a project.

It has been suggested that in a district such as Summerland where such a large number of people keep one or more cows to supply milk for family use, that a considerable number of individuals might become interested in keeping a purebred Jersey instead of the grade cows which are kept at present. A purebred cow will eat more than a grade cow; she will produce as much milk and probably more; and she will require no more attention and care. However, being a valuable animal and one in which the owner will take considerable pride, she will probably be given greater consideration and attention, and her development and brood cow will afford her considerable pleasure and extra profit.

Her greatest value to her owner will develop through the breeding for sale of her calves. There never has been and never will be a time when grade calves of either sex, nor grade heifers ready to calve, were worth any considerable money. But purebred cattle developed into good producers always command a ready sale and at very remunerative values.

It is being suggested by those sponsoring this movement that Summerland could develop a community Jersey Club, the members of which would later on have for sale each year a number of purebred heifers and bull calves of good breeding. On the island of Jersey, where a very lucrative business from the sale of surplus purebred cattle has been built up, the conditions are somewhat similar to those pertaining in Summerland. There the people are almost entirely growers of only potatoes and their individual holdings are very small. All the cattle, with very few exceptions, are tethered to pasture and, in the great majority of cases, only one cow and her offspring are kept by the individual. As these offspring grow up they are sold, and only the milk and butter. It is interesting to note that the export of cattle each year from this source brings to the growers of Jersey Island several hundred thousands of dollars annually.

In order to start the purebred Jersey business in Summerland it will be necessary to form a club comprised of a sufficient number of interested people who are willing to purchase a foundation female and assist in the raising of a high class proven bull for the service of these farmers. The local manager of the Bank of Montreal is looking with extreme favor on the movement and it is altogether likely that very favorable accommodation for the members can be arranged if desired.

A committee of three, comprised of George Drowatt, John Tait and W. T. Hunter, has been temporarily appointed to canvass the district in respect to prospective members for the club, and the formation of the club will be proceeded with at once if sufficient interest is manifested in the movement throughout the district. It is hoped that the club ultimately will be able to hold a parish cattle show each year and that possibly the surplus cattle will be auctioned each June at the Experimental Station picnic.

## UNITED CHURCH YEAR'S REPORT

### All Branches of Activities Show Marked Progress

St. Andrew's United Church, West Summerland, held its annual congregational meeting on Tuesday night, in the hall. The reports covered a nine-month period, not a full year.

Rev. W. T. Reed was in the chair, with a good attendance of the congregation present. The finance report was able to report increased receipts and all obligations met. All the different societies showed balances to the good.

One thousand and six dollars had been paid towards cost of the new organ. The total amount raised by the congregation for all purposes was \$3,853.14.

## Hunter Kicks Cougar As Big Cat Mauls His Pet Airdale

Courtenay—M. Brown, colored man of Cumberland, whilst out hunting cougar on Perseverance Trail on Friday last, managed to wound a big fellow very severely. When the big fellow dropped, mortally wounded, Brown's dog, a beautiful Airdale, attacked the cougar furiously, grasping him by the throat. The animal, infuriated by the wound and attack of the dog, retaliated and managed to get hold of the Airdale by the front leg, almost mauling it off.

Brown, anxious to save his dog, and being afraid to shoot at the struggling pair, calmly walked up to the cougar and, not having a club handy, commenced to kick the beast in the face until it released its hold on the dog. It was a matter of only a few minutes when the cougar was dispatched. The dog suffered considerably in the mauling and whilst an effort is being made to save the injured dog, Mr. Brown is of the opinion that amputation will have to be resorted to.

## ASTERS MATURE SEEDS HERE

### They Offer Profit as Well as Beauty For Their Care

Many of the flower lovers in Summerland will be interested in the commercial possibilities as well as the beauty of the aster, as discussed by Mr. W. M. Fleming of the Experimental Station here. He has given the following interesting information on this flower:

Asters mature seed freely at the Summerland Experimental Station. According to experiments were commenced to ascertain the possibilities of an aster seed industry for the Okanagan. Two crops of seed secured indicate that this industry may be profitable if properly conducted.

The early varieties such as Early Wonder and Queen of Market types may be expected to produce full crops of seed every year. Further testing is necessary before later varieties can be recommended.

Growers should secure the best obtainable strains of not more than four varieties. These should be grown in isolated plots. Every plant showing any variation of color or type should be removed. Two or three of the best plants of each variety should be saved for stock seed and the rest discarded. The plan should be followed until the strain is fixed in type and color.

Samples of seed should then be submitted to leading British seedsmen for trial. If these find the trials satisfactory they may offer contracts at prices that will yield profitable returns to the grower. These seedsmen enter to a discriminating trade which insists upon purity of variety so that the seedsmen must have confidence in his contracting grower. Anything that undermines that confidence will ruin the industry.

The seed should be started in a greenhouse or mild hotbed. When the second pair of leaves develop the plants are set two inches apart each way in flats and grown in cold frames. A second transplanting helps to develop the plants as soon as danger of frost is past. Thirty inches apart each way is a good distance for seed selection purposes. The plants are then handled as they would be for flower production. The blooms are left to mature separately by hand into sacks and thoroughly dried. The sacks are rubbed and shaken until the down separates and the seed is finally cleaned by sieves.

## PLEASED CROWD SAW CAR FILM

### Evidently the big crowd which attended the Ford movie film on Saturday last got genuine satisfaction, for there was no restlessness displayed throughout the whole afternoon.

The lectures, too, were full of useful information, and the demonstrations of the tractors at work were very valuable. The varied uses of these power units were quite extensive. The lumber shifting tractors at work proved interesting and quite amusing to the crowd, as they scuttled about the yard lifting whole loads at one time and placing them in quick time elsewhere. They reminded one of boys hustling about on skis.

The assembly of the engines of the new models would appeal to any car owner and appeal very strongly to those accustomed to doing part of their own repair work. The assembly showed extensive testing work in the factory in getting the parts nicely adjusted, and outlined the advantages of these particular designs.

The film and lectures took over three hours and drew many favorable comments. As an advertising idea it was quite a success and was unique here.

## W.C.T.U. REGULAR MEETING HELD

The regular monthly meeting of the W.C.T.U. was held at the home of Mrs. H. H. Eisey with an attendance of 25. The regular routine business was taken up with reports of committees, chief of which was that for the silver medal contest. All was in order for the contest, Friday evening, February 3, and a good programme is expected. A letter was read from the chaplain of the Vancouver Seaman's Mission, thanking the Union for comfort bags and \$5 for socks for needy ones.

Three fine solos were given by Mrs. G. Weaver, Miss Carol Graham and Margaret Ritchie, all of which were just enjoyed. A competent committee was appointed to arrange for the February meeting, which is the annual Frances Willard memorial day and will be a public meeting.

## BAPTIST CHURCH SERVICE WITH CALEDONIANS

### Many Attend to Hear Address on Scottish Home Life

Members of the Caledonian Society were in attendance at the evening service in the Baptist Church on Sunday last, when Rev. J. J. Smithson gave a sermon based on the Idioms in Burns' "Cottler's Saturday Night."

The choir gave two anthems to add to the beauty of the service. In presenting the subject, Mr. Smithson, who lived in the neighborhood where Burns lived and wrote, explained that the poem was written before the young man had left for the city and full a prey to his ailments.

He translated several of the similes into modern phrases to make them apply to modern conditions, and outlined the beauty and worth of the home as described by Burns where divine worship was honored.

Although rain had started just at church time, the auditorium was full, and those present followed the pastor's presentation of the subject with keen interest.

REV. LESLIE CLAY IS DEAD IN WINNIPEG (Special to The Review)

Winnipeg, Feb. 3.—Rev. W. Leslie Clay, D.D., veteran pastor of St. Andrew's Presbyterian Church, Victoria, and Moderator of the Presbyterian Church in Canada, died in hospital here last night.

Sixteen Peach Orchard ladies took possession of Mrs. Thos. Cowan's home on Thursday, the occasion of her 78th birthday. They presented her with a set of china tea cups and many other lovely presents sent for the occasion by others of her friends.

PEACHLAND NEWS

By Our Resident Correspondent

Skating in Peachland is apparently now a thing of the past. The rink by the schoolhouse where the young folks had many jolly times has melted since the warm spell arrived. In addition to the fun which the local rink provided, there were three outside skating parties, two to Hardy's Lake and one to the Cousins' rink. On each of these occasions there was a good turnout, and all enjoyed themselves very much.

Mr. Hugh Williams, local hay merchant, has recently stocked his warehouse with quite a large amount of hay to take care of the early spring demand for feed, and seems to be getting quite ready for it.

We are glad to see our friend, Mr. George McBain, quite himself again and able to be about as usual after being under the weather for a few weeks.

The Baptist Church held its annual business meeting last week, which was attended by quite a representative gathering led by the pastor, Mr. Gilbert Thornber, of Kelowna.

Mr. and Mrs. Paget of Riverside, Manitoba, were recent visitors in town, spending a short time with Mrs. Paget's uncle, Mr. Grant Lang, and Mrs. Lang.

Mr. and Mrs. Bregg and family, Saskatchewan farmers, paid a short visit in town recently, looking over some properties with a view to buying a town residential home. They have been spending the winter in and around Kelowna and are looking over a number of places before deciding where to settle.

Mr. W. L. Williams returned home this week after having spent a short time in Vancouver.

Mrs. Alpaugh spent a couple of days in town again this week looking after the house and effects of her father and mother in their home here. She sold off some of the furniture and expects to sell most of it preparatory to closing the house, as she plans to take her mother back to Alberta with her. She reports her mother improving nicely and they think she may be able to travel in a couple of weeks.

Mr. and Mrs. Farrow and family recently moved into Peachland from Princeton, and have taken up residence in Mr. R. J. Hogg's town prop-

erty. We understand Mr. Farrow has purchased the logging truck owned by Mr. Williams and expects to haul logs from the Miller and Thorne camp as soon as the roads open up fit for hauling.

Mr. Walters, of Walters Limited, Summerland, held a public gathering in the Municipal Hall, Peachland, on Monday last for the purpose of meeting with all fruit growers interested in the sale of their fruit for the ensuing years. At the outset he explained that it was the intention, if enough tonnage were promised, to come in and operate a packing house this season. He made a few remarks with reference to the financial standing of the company and gave a summary of prices which he had paid for the 1927 crop, and also explained his method of doing business. He then threw the meeting open, asking that all present ask any question or questions they wish explained. There were quite a number of growers present and many questions were asked and answered.

Mr. Walters had a few contract forms with him which he proposed having signed, if he decided to operate in Peachland, as an evidence of the good will of the growers, so he would know whether or not he would have enough to make it worth while to come in. On these contract forms the packing charges for the coming season were given in detail. After the contract was explained and all questions in connection with it and the business in general answered, Mr. Walters said that, while he would like to know just as soon as possible how many growers wished him to handle their crop, in order to make necessary arrangements, he did not believe in jumping into anything too quickly.

He explained that if any present had their minds made up and would care to sign up at once they would be glad to have them do so, but stated that he would leave the forms and send a further supply. He asked that those who wished would sign and send the contract down to the head office in Summerland by Saturday evening, February 4. He also explained that he would come up to Peachland on Monday and meet any of the growers at the Municipal Hall any time during the day to take the matter up with them personally.

He explained that if any present had their minds made up and would care to sign up at once they would be glad to have them do so, but stated that he would leave the forms and send a further supply. He asked that those who wished would sign and send the contract down to the head office in Summerland by Saturday evening, February 4. He also explained that he would come up to Peachland on Monday and meet any of the growers at the Municipal Hall any time during the day to take the matter up with them personally.

NARAMATA

A serious accident happened to J. Littlejohn, son of J. Littlejohn Jr., when he was kicked in the head by a horse, and suffered a fracture of the skull. He was taken to the Penticton hospital, and it is expected that he is doing as well as was hoped for.

Mr. and Mrs. J. Littlejohn Sr. returned from Victoria last week on hearing of the accident to their grandson. They have been spending the winter on the Pacific coast.

The annual meeting of the United Church was held on Thursday evening, when reports of the past year's work were handed in. These included the Sunday school report, presented by Miss Florrie Lyons; the Ladies' Aid report, given by Mrs. Williams, and the Church Board report, made by Mr. Leslie Smith. All these statements proved very satisfactory, and showed considerable progress. The organization of a choir was left in the hands of Mrs. A. C. Lyons. Officers of the church for the coming year were Messrs. Bartlett, Kennedy and Irwin. It was announced that there were hopes of a musical treat very shortly by favor of the Associated Music Teachers of Penticton, under the auspices of both churches.

Miss Nessie / Rushbury returned from Vancouver, accompanied by her friend, Miss Gray, of that city.

Miss Alice Myers entertained the young girls of the community at her home on Saturday afternoon.

Mr. Weaver reports that irrigation taxes have come in well, very few penalties being incurred.

Mrs. W. J. Lethbridge, who has been ill for a considerable time and has been under medical treatment at Penticton and Summerland, was taken down to Penticton hospital on Wednesday in a serious condition. Her friends and neighbors hope to hear better accounts of her soon.

An enjoyable time was spent on Tuesday evening last at the home of Mrs. W. Munro when Isabel entertained her school friends to the number of seventeen. Thanks are due to Gerald Williams, who kindly conveyed the girls direct from school. Those present were the Misses Bernice Young, Rhoda and Margaret Cargill, Marguerite Nuttall, Rosemary Hardman, Maggie and Eva Smethurst, Edna Baker, Lois Aitchison, Doris Hook, Gracie Armour, Florrie and May Littlejohn, Winifred and Margaret Sammett, Isabel Maitland and Margaret Munro. The prize winners in the various contests were Edna Baker, Florrie Littlejohn, Bernice Young, Rhoda and Margaret Cargill, May Littlejohn, Margaret Sammett and Lois Aitchison.

ANNUAL REPORT OF GIRL GUIDES

A very interesting meeting of the local association First Summerland Girl Guides was held in the Parish Hall on Tuesday, January 31. The Association was well represented and Mrs. Midgley, district commissioner, was in attendance. The proceedings opened with the swearing in of three new Guides, Guides being in horseshoe formation with color party and colors complete, after which they were reviewed for presentation of a silver cup, "Holly Patrol" winning it for the first three months. Mrs. Midgley called on Mrs. Sharman, the donor, to present the trophy. An interesting report was read by Patrol Leader Dorothy Solly on the happenings and lectures, etc., conducted in the Jubilee Camp held in Victoria last year, at which she was one of the delegates. Afterwards the Guides served tea, provided by the local Association.

Minutes of the last annual meeting were then read and adopted. The secretary report, financial report and report of Guide work, from Miss Paradis, the captain, was much appreciated. The subject of Church Parade was brought up and the district commissioner just having returned from Vancouver, spoke for a few minutes on the inadvisability of holding parades of any kind, the feeling being at Headquarters and elsewhere that it helps to promote a military spirit, neither necessary or helpful to the Guide movement. The election of officers for the year was next in order, and the president, Mrs. Sharman, expressing a wish to resign, which the Association was very reluctant to accept, Mrs. F. A. C. Wright was chosen president, Mrs. Sharman vice-president, Mrs. O'Mahoney secretary-treasurer, Mrs. Andrew, Mrs. O. Atkins and Mrs. Tavender, executive.

A hearty vote of thanks to the officers of the local Association was proposed by Mrs. Midgley and seconded by Miss Paradis, after which general business of the evening was discussed, the commissioner leaving to catch the train for Penticton, where she resides. The secretary's report included the following interesting items:

This has been quite an important year in the local Girl Guide world, since we have had to find entirely new officers, new room for meetings, and provide a part of our week-end recreation. In January we were able to purchase a new tent, and in a net total of \$68.50. In February we gave a very successful Guide party in the Legion Hall, while in June we paid for outfitting the first aid box for camp, also transportation to and from camp. In July we sent two delegates to Jubilee Camp in Victoria and also entertained a company of Rangers from Toronto to lunch and tea. Mrs. Wright kindly lending her house at Crescent Beach for the occasion. During the year we purchased two lanterns, Mrs. Hookham gave a stove, Mrs. Wright donated wood for lighting and heating of the Guide Hall. Our lieutenant, Miss Atkins, unfortunately left Summerland and has since taken on a troop in Vancouver. Our present one is doing well and learning to be of great assistance to Miss Paradis. I would like to take this opportunity of thanking the president for her help during the past year and congratulate the Association on its strong financial position and point out that we have handled over \$100 and spent \$88.35 on the Guides.

FIFTEEN YEARS AGO

H. W. Rudd had decided to open a public garage about the first of March and had leased the blacksmith shop opposite Carlson & Co.'s warehouse.

The Okanagan Jam Company was getting the growers to estimate what acreage they would have of the different crops, and were putting together an evaporating plant to add to their equipment.

Railway construction camp No. 5 in Peach Valley was about to break up and the local Mission committee gave them a farewell concert. The work of supplying libraries and magazines with other reading matter was much appreciated. After the concert, the cook had a fine supper prepared for the visitors. In fact, much more than they could possibly take care of.

The Board of Trade held its annual meeting, at which H. C. Moller, the president, gave in his address some information about the Experimental Station. Kelowna was in competition with Summerland as a possible place in which the farm would be located. The Okanagan Telephone Company was represented by Messrs. Doble and Hankey. They promised several things but were not apparently accorded a very sympathetic hearing.

The C.P.R. was planning a new steel-hulled steamer for the Okanagan lake service, as well as another tug and more barges, as the year promised to be a busy one for the railway on the lake.

The College and the Town basketball teams played one of their school games. Baker for the Town and McDougall for the College played forward and made it snappy. College won out in the game, 13-8.

In a hockey match with Kelowna on the Giant's Head rink, Jack Craig had to be taken off the ice, and to the doctor. It was a pretty rough game. The score was 4-2 for Summerland.

HERE'S SPEEDY RELIEF FOR TENDER, ACHING, SWOLLEN FEET

Moone's Emerald Oil Must Give Complete Satisfaction Or Money Cheerfully Refunded

Your feet may be so swollen and inflamed that you think you can't go another step. Your shoes may feel as if they are cutting right into the flesh. You feel sick all over with the pain and torture and pray for quick relief. What's to be done?

Two or three applications of Moone's Emerald Oil and in fifteen minutes the pain and soreness disappears. A few more applications at regular intervals and the swelling reduces.

And as for Soft Corns and Callouses a few applications each night at bed time and they just seem to shrivel right up and scale off.

No matter how discouraged you have been with powders, footbaths or other applications, if you have not tried Emerald Oil then you have something to learn.

It's a wonderful formula — this combination of essential oils with camphor and other antiseptics so marvelous that thousands of bottles are sold annually for reducing various sore or swollen veins.

Every good druggist guarantees the very first bottle of Moone's Emerald Oil to end your foot troubles or money back.

The Mutual Life Assurance Co. of Canada

The Summerland Women's Institute will meet on Friday, Feb. 10th, at 3 p.m., in the Parish Hall. Valentine tea. Everyone interested will be welcome. 5-1-c

Saturday, February 11, there will be two big games of basketball, Princeton vs. Summerland, and there will be one other game. Princeton has a very strong team and this should be one of the best games of the season.

Okanagan—Searching an innocent-looking load of oats near Loomis late Wednesday afternoon; customs officers discovered 51 cases of Canadian liquor. Tom Bean, driver of the wagon, was lodged in the Okanagan county jail on a federal charge of smuggling.

Bean is a son-in-law of Monroe Harmon, at one time owner of the Ruby mine. Bean's wife died less than a month ago. His home is at Chocoma, just beyond the station, and practically on the international line.

Wednesday afternoon Customs Officer W. O. Burton of Nighthawk and Immigration Patrol Officers Terry of Nighthawk and Wheeler of Oroville, came upon Bean while he was driving with a team and wagon toward Loomis. His wagon was seemingly loaded with oats, but under a thin top layer of the cereal was found the 51 cases of liquor. The liquor and conveyance were both confiscated and Bean brought to Okanagan.

## POUND NOTICE

Public Notice is hereby given that the following animals have been impounded in the Municipal Pound in Prairie Valley:

1 Grey Gelding; branded D1 on left shoulder. Impounded Jan. 26th.  
1 Sorrel Mare; white face and white hind feet branded on left shoulder but can't make out the brand. Impounded Jan. 26th.

If not claimed by Monday, Feb. 6th, will be sold at Public Auction at 1 p.m. at said pound if fees and charges are not sooner paid.

## LOCAL HAPPENINGS

Trains have been coming through the Coquihalla all this week.

Mr. Hall, public school inspector, has been here this week at the central school.

Laidlaw & Co. report that they had a very successful sale, even beyond their expectations.

When you want to put in one of those cent-a-word ads, call up the office, 305, or 656.

Miss Jean Moffat left on Wednesday night for Seattle, expecting to be away for a couple of months.

The "500" party and dance on Tuesday last in the Legion Hall was a very successful event, well attended.

Mr. A. J. Mann left on Friday for Grand Forks, where he is to speak on tobacco culture on Friday night.

Believe it or not! There will be a "Grand Costume Carnival" next Friday, February 10.

O. Vaughn came up from Pentiction to be with the Old Timers and renewed many former acquaintances.

Rumor is about town that the Federated Orchards Company intends to hang out its shingle at West Summerland this year.

A checker war is on. West Summerland goes into the enemy's camp on Monday and will attempt to oust Stark's Veterans.

Miss M. Whelpton, who has been visiting Mrs. Hardy at the Experimental Station, returned to Agassiz on Saturday.

Messrs. White & Thornthwaite had to bring in wood from Hope this week. The local dry wood is about all used up.

The Co-operative was packing on Thursday this week to fill up a car. They were working mostly with Ganos.

Mr. Dunc Woods was one of the Old Timers who came to town to see old friends. He came in from Hedley on Thursday.

At Kelowna the Summerland Senior B basketball boys won a victory that was worth having. The score went 24-14.

Mr. E. J. Chambers, Capt. Rattray and G. E. Barratt were in town this week and met the directors of the Co-operative.

The Sorority Girls gave a send-off party at Mrs. McRoberts' on Saturday last for Miss Reta Bender, previous to her departure for Vancouver.

Percy Foster met with hard luck on the trip with the mail on Tuesday, when the rear end of his truck gave out. He had to get a taxi to finish his trip.

Traffic is increasing on the Lakeshore road and the new cars are being brought through by salesmen. They have a snappy appearance and attractive colors.

A herd of 20 does and fawns was down in the orchards above Crescent Beach this week. A black dog was making things lively for them for a while.

Mr. Harold English received a shipment of Anchovy ducks this week from a friend of his at Edmonds. They are white with a stroke of red from their eyes to the back. The drake is almost as big as a small gander.

Now that the thaw has reduced the depth of the snow in the orchards, the snip of the pruning shears can be heard most anywhere. Very few have reported putting out and peach whips in water to test the condition of the blossoms.

Mr. Robertson from Vancouver is in town to take charge of the work with the whitefish spawn at the hatchery. There are numerous jars and tanks that are very interesting and which will soon be worth having a look into.

Thursday was Ground Hog Day. We do not know what the ground hog was supposed to do under the circumstances—he could have seen his shadow on two or three occasions, but only for short intervals.

## LAND ACT

Notice of Intention to apply to Purchase Land

In Vernon Land Recording District of Yale, and situate in Garnett Valley, Municipality of Summerland, B.C., occupation farmer, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the South West corner of Block 3322 thence twenty rods south; thence twenty rods east thence twenty rods north; thence twenty rods west to point of commencement and containing forty acres, more or less.

ROBERT SHANNON,  
Dated January 10th, 1928. 5-8-c

There was a baby boy born to Mr. and Mrs. N. May in the local hospital this week.

Miss Reta Bender left on Sunday for Vancouver, where she has taken an office situation.

Mr. Ernie Graham has taken the Lawler house in Peach Orchard, moving in there recently.

## SWAN REPORT ON IRRIGATION IS NOW ISSUED

Commissioner Thinks Fruit Industry Can Stand Water Charges

TRANSPORTATION IS DEEMED TOO HIGH

Extension of Control Board Scope Urged in His Findings

Victoria, Feb. 2.—Commissioner Swan's irrigation report and findings have been made public and Hon. T. D. Pattullo, minister of lands, discussed them in the House on Thursday.

The commissioner was appointed primarily to look into the irrigation situation in the northern end of the valley, where the government had advanced large sums of money to assist the district systems. Irrigationists were seeking further relief, preferably by a cancellation of part of the charges or else by an extension of repayment period.

In his findings, the commissioner proposes to extend the repayment period from 30 to 50 years and to reduce the six per cent. interest rate to a lower figure. Some sort of government bonus in connection with lands other than orchards, to keep them in cultivation in poor times, is suggested.

Mr. Swan finds that transportation costs to prairie markets are too high. He would give the committee of direction greater scope.

With a continuance of present conditions he does not think existing irrigation charges for fruit lands too great.

### Recommendations

1. That the interest rate on borrowings from the conservation fund should be reduced as soon as possible from the present rate of six per cent. to the lowest rate at which money is available today to the provincial government.

2. That the repayment on permanent structures be increased from 30 to 50 years.

3. That if lands other than those suitable for orchard culture or other forms of intensive cultivation are to remain in production, some means must be found of reducing the irrigation charges beyond what the present proposed measures of relief will accomplish. While a modified graduation of charges according to the ability of the land to pay has been strongly advocated, this present serious difficulties. In fact, the commissioner says any classification along these lines must be carried on within the irrigation districts.

4. That the general conditions of the industry not improve over the situation of the last three years, the Government would be fully warranted in carrying a share of the load in the way of bonus until such conditions have improved.

5. Provision should be made for the transfer of water within an irrigation district.

6. There should be no compounding of interest on the repayment of arrears under the moratorium.

7. The scope of the Committee of Direction should be extended to eliminate unfair competition from uncontrolled areas. This applies particularly to vegetables and small fruits.

8. Aid for Storage Water. Early consideration should be given to the question of further Government assistance to provide a much greater amount of storage water generally for irrigation purposes, a step which would enhance the Government's equity in these systems.

9. The scope of the Committee of Direction should be extended to eliminate unfair competition from uncontrolled areas. This applies particularly to vegetables and small fruits.

10. Mr. Swan finds that transportation rates on produce from the irrigated districts to the prairie markets are too high, and he urges their revision.

He says the most substantial step taken to provide relief was that under which the Government carried the fixed charges for irrigation improvements on all lands reverting to the province. He considers that the irrigationists presented their case very fairly. The report puts the investment in central B.C. irrigated lands at \$30,000,000, not including investments in communities, government roads and transportation facilities.

The general class was intelligent, hard working and entitled to any help their fellow citizens could give without imposing a hardship on themselves.

But, he continues, the irrigated districts must to their utmost ability carry their own load and solve their own problems if the settlers and the industry are to find a sound and permanent foundation for the future.

It was satisfied the irrigation generally in the interior could have been carried on without Government assistance.

A careful examination of the Oliver project and of a number of privately-owned projects leads him to the conclusion that the only real advantages which any one district has over another lies in the variations in the soil and the comparative cost of bringing water to the lands, he reported in answer to the question as to how the northern districts directly under investigation compared with others likewise financed.

On the question of the ratio of irrigation costs to other costs of production, he says: "In the case of fruit growing while the irrigation charges have been a considerable burden during the past six years, they should, in my opinion, be readily carried under normal marketing conditions. In the

case of mixed farming, however, under present methods, of cropping, the existing rates are undoubtedly burdensome.

Cover Too Much Ground.

"There is no doubt that the increase in cost of irrigation is attributable mainly to the general increase in cost of material and labor which has taken place during the past twenty years," he says. "On the other hand, some irrigation systems have been extended to cover too much ground. This is a matter in the hands of local settlers over which no government could exercise control."

"Undoubtedly the cost of irrigation to the industry during the last six years would have been felt severely had not the moratorium been in effect. There is, however, every reason to believe that with an improvement in prices which the operations of the board of control seems to promise, the present irrigation charges as applied to the fruit industry will not be onerous."

The Major exonerates officials of the Lands Department who advised the irrigationists in the establishment of their systems. He finds that Government engineers were not seriously out of line. He said the Vernon district in general received good value for its expenditure and could not have carried on without Government aid.

The Major exonerates officials of the Lands Department who advised the irrigationists in the establishment of their systems. He finds that Government engineers were not seriously out of line. ## Deer Tracks Were So Thick Farmer Thought Sheep Band Passed

Okanagan, Wash.—Deer tracks so thick that he thought a band of sheep had passed were reported at Lost Lake by Charles Gugat of Wauconda when in Okanagan on Monday. Mr. Gugat passed Lost Lake on his way to the Wilder place south of Chesaw. The sixteen-mile trip from his ranch near Bonaparte Lake to the Wilder place took him all day. On Strawberry Mountain, which is the summit between Bonaparte and Lost lakes, the snow was so deep that Mr. Gugat had to break trail for his horses.

The deer around Lost Lake are feeding on the tree moss and as there is plenty of moss, according to Mr. Gugat, there is no danger of the deer starving. He reports on several occasions having seen where the deer have been chased by coyotes, the deer being at the disadvantage of breaking through the snow while the coyotes run on the crust. Nearly every morn-

## CORPORATION OF THE DISTRICT OF SUMMERLAND

NOTICE IS HEREBY GIVEN that the Corporation of the District of Summerland has applied to the Board of Investigation under the "Water Act" and amending acts, for an order authorizing said Corporation to charge, impose and collect for the year 1928, tolls or rates against all lands within the boundaries of said Corporation, against which irrigation tolls or rates were charged and imposed by it in 1927, and any other lands within said boundaries properly chargeable with irrigation tolls or rates, of the same maximum amounts as were so authorized to be charged and imposed for 1927, namely:

- For Blocks containing 1 acre or less, \$11.75.
- For Blocks containing over 1 acre and less than 3 acres, \$11.00 per acre.
- For Blocks containing over 3 acres and less than 4 acres, \$10.25 per acre.
- For Blocks containing over 4 acres and less than 5 acres, \$9.50 per acre.
- For Blocks containing over 5 acres and less than 6 acres, \$8.75 per acre.
- For Blocks containing over 6 acres and less than 7 acres, \$8.25 per acre.
- For Blocks containing 7 acres and over, \$8.00 per acre.

Or such other tolls or rates as said Board may fix.

The said application will be heard by said Board of Investigation on Wednesday the fifteenth day of February, 1928, at nine o'clock in the forenoon at the Municipal Hall, West Summerland, B.C.

F. J. NIXON,  
Municipal Clerk.

Dated January 26th, 1928. 4-3-c

ing the cry of the coyotes at the chase is heard and since no rabbit tracks are seen it is presumed that deer are being chased.

George Varcoe, who lives on the Miller place, recently lost 43 chickens which were killed by coyotes. Claude Gugat recently shot a coyote in the barnyard of the ranch while two others got away. Mr. Gugat reports that there are more coyotes this year than ever before on the bluff which begins opposite Leese and runs by Bonaparte and Lost lakes. This district is in the recently created game preserve and the farmers cannot go into the territory to hunt or trap the coyotes.

Another coal mine is being reopened at Princeton, the old United Empire mine in East Princeton and close to the K.V.R. line. Spokane interests propose to develop it as the Hunter Creek Coal Co.

## ACHIEVEMENT

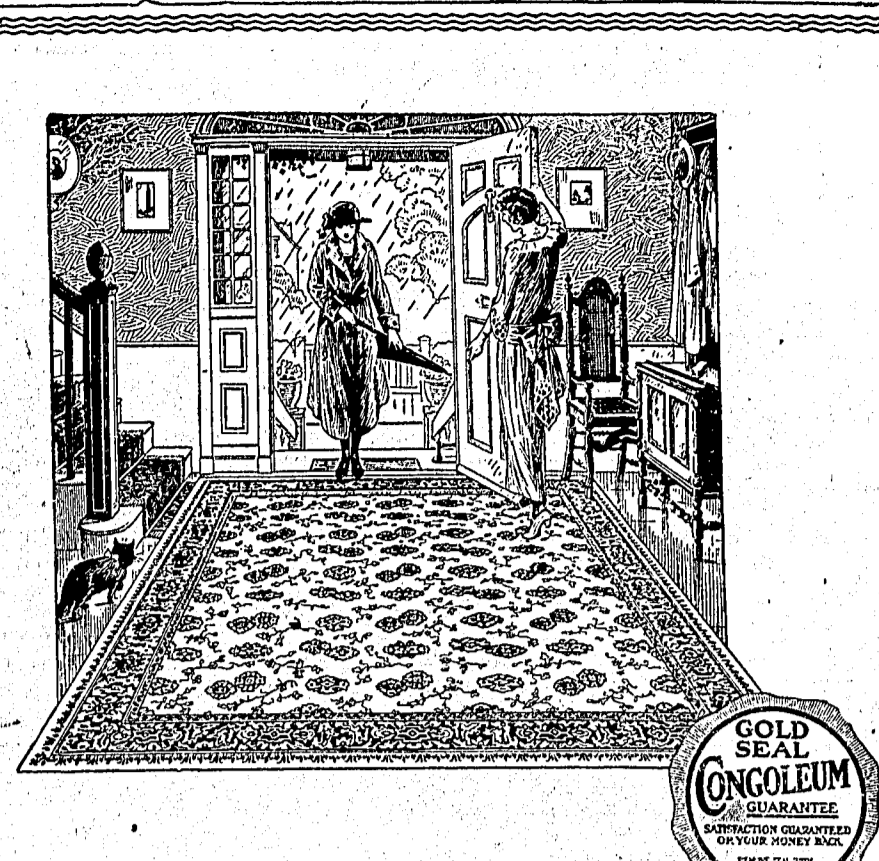

Are you seeking a connection that will be permanent, one with which you can, on the foundation of Quality merchandise, at a real saving to your customers, build a repeat business, that will insure you success? Whether you be at present a salesman or intend to be one, if you are a man with genuine desire to establish yourself in a growing independent business, one in which intelligent and conscientious effort to please the public will be backed up by the House. We have for you a proposition with real interest. Our line of Men's Wear which is sold direct to the customer through honest and ambitious salesmen, is the outstanding ACHIEVEMENT of this year. It will pay you to investigate. In answering please state age, experience, if any, and other information about yourself that might help us determine your qualifications. All applications should be addressed to

## Bridge Work Programme On Railway This Year is Likely to be Heavy

### Activity in Replacements, Particularly on East Side Is Expected

Work to Proceed When Snow Leaves High Levels

Penticton, B.C.—It is unofficially understood in railway circles here that an extensive programme of bridge replacements is contemplated by the Kettle Valley Railway for the coming season. Many of these replacements are to be made in the vicinity of Myra on the east side and approximately fifty miles from Penticton, although there are also replacements for other points on the K.V. system.

Work is to be started as soon as the snow leaves the high levels. East side replacements are to be of a heavy character, it is said, providing for larger power.

Many men will be given employment throughout the building season through the opening up of this work. It is not stated whether the building will be done by contract or day labor.

## SILVER MEDAL CONTESTS HELD

### Competitors Made Excellent Showing — Plan For Next Year

Many years ago silver medal contests, sponsored by the W.C.T.U., were quite frequent occurrences, and then a lack of leaders called a halt. Last year an attempt was made to revive them. Vocal music was added to declamation and two silver medals, one to each group, were presented.

Last Friday evening another contest was held, and two more medals awarded. A large audience, filling St. Andrew's United Church, listened with the usual good attention of a Summerland audience to a long programme. It was noteworthy that the young artists were not distracted in any way by noise or movement in the church, even among the younger ones in the front seats.

The main object of these contests is to interest the younger people in prohibition work and to help them show up, in public, the evils and misdeeds brought about by the drink traffic.

The selection of the songs and verse given by eight boys and girls were all good and showed careful training and faithful work. The judging was difficult because of the excellence of all contestants, and small things had to be considered in making the decisions. Lona Williams was awarded the medal, Dorothy Hunt came second, Betty Smithson third and Alan McKenzie ranked so close it was decided to add his name, and books were presented to the three.

In the vocal contest the seven girls had two numbers each. All sang the test piece, "Leave it With Him," then sang to the platform a second time and sang an individual selection. Dorothy Reid received the medal, Margaret Ritchie second, Nessie Smithson and Margaret Hogg, equal, third, crowding the leader closely, there being only a mark and a half between them. The three received books.

The president of the W.C.T.U., Mrs. McAlpine, was in the chair and she and the vice-president, Miss Coulter White, presented the prizes at the close of the successful event.

The concert committee is indebted to Mrs. Mossop for, at the last moment, filling with music the place allotted to Rev. J. J. Smithson, who was not able to be present. The chairman expressed the thanks of the Union to the Session of St. Andrew's church for the use of the building; to the judges and contestants; the accompanists and trainers; and the committee led by the untiring superintendent of medal contests.

The judges were: For declamation, Mrs. Palmer, Mr. McLarty and Mr. Woodlams, all from the Experimental Farm; and for vocal music, Mr. G. W. Cope and Mr. T. F. Thornbor. Besides the four already mentioned, Phyllis Neild, Vera Gale, Howard Milne and Gordon Smith recited, and Margaret Stark, Ivy Weaver and Ruth Tait sang. With the exception of the medal winners, these will all be eligible for another try next time.

It is hoped that a gold medal contest can be arranged to take place at the W.C.T.U. district convention to be held here in May, when silver medalists up and down the valley will compete.

## MEMORIAL SERVICE

There will surely be a large gathering assemble with the Veterans in their hall Sunday morning to participate with them in the Memorial Service of the late Earl Haig.

## NEWS RECEIVED FROM FORMER OLD-TIMERS

### Jack Logie Gathers Up Items of Interest and Sends Them Along

Some of the Old Timers who did not get to the big night are anxious to know what Jack Logie had to say, and we secured the letter for the readers of The Review. He was delayed in getting his letter off and had to send it by Air Mail to get it here in time, but it brought news on time of many Summerland folk now residing near Jack.

Box 314, Arcade St., Los Angeles, Calif.

Mr. R. H. English, Pres. Old Timers' Ass'n., Summerland, B.C., Canada.

Dear Father English:

As this letter will have to be mailed at once if it is to reach you before the Old Timers' Reunion, I am obliged to write it very hastily and under conditions which will make any attempt at literary style almost impossible. However, I cannot miss the opportunity of sending greetings and all good wishes to the Old Timers of the Home Town from the many former residents of Summerland who at present are visiting Los Angeles or living here permanently.

There will likely be a large Summerland delegation at the annual Canadian picnic and whenever a few of us get together we always swap news from home and wonder how deep the snow is. I often see J. M. and Mrs. Robinson, Gwen, Jack, Billy and Ira Hughes of Naramata. I might also mention the Simpsons, Rileys, Penants, Gregos, Dunrobins, Mrs. Clouston and Clouston Carberry, Bill Sauter, Mrs. Mawhinney, Mrs. Ponton and Norma, Mrs. Salter and Leigh, and there are many others whom as yet I have found no time to locate in this city of magnificent distances.

When the membership book is signed, I suppose, as usual, there will be some gaps in our ranks and we will realize more fully the value of our organization in gathering us together twice a year to renew old friendships and to recall the pioneer days which were happier and more carefree than perhaps we realized at the time. When I return I will miss most of all my little friend, Ada Darke. She was a child of great promise and the life of many canoeing parties.

In a conversation with J. M. Robinson the other night we were discussing the towns in the Okanagan and decided that Summerland excelled for its tolerance toward progressive ideas and for those qualities which might be designated as spiritual. Mr. Robinson attributes this to the fact that the early settlers were "hand-picked" in order to obtain those characteristics, but they are due in great measure to Mr. Robinson himself, who was not in the early days for his benevolent and tolerant attitude toward any new idea which might contain a germ of truth.

In the old days we were like one big family and we still are. Of course, even families have their disagreements, but in Summerland these are all on the surface and there is a deep and genuine friendliness underlying all our social relations. It is often an advantage to live in a small town, provided we do not acquire the small-town mind. In Summerland there should be no danger of that.

Some of us dream of a time when the Okanagan will bear the same relationship to the rest of Canada as Greece of the time of Pericles bore to the European world. It should be the home of sculptors and artists, poets and dramatists, great scientists and statesmen, mystics and dreamers, and as Greece had its Athens and Italy its Cremona so the Okanagan has its Summerland. Can the Old Timers of Summerland leave such a bequest as this to the rising generation?

We will be with you in spirit on the night of February 2nd, and the writer can only express his regret that he cannot be present physically. If the gods are kind and the walking good, he hopes to be on hand for the next Reunion in July.

With all good wishes, I am, as always,  
Yours,  
JACK LOGIE,  
January 28, 1928.

## Alberta Not Likely To Accept Offer for Peace River Lines

Edmonton, Feb. 9.—That the Alberta Government is not favorably inclined toward the Canadian National-Canadian Pacific \$17,000,000 offer for the Peace River railways and intends to recommend to the Legislature against acceptance of the offer, was the announcement made by Premier Brownlee in his speech in the debate on the Speech from the Throne in the House.

He said the lines were now paying.

## Railway First Aid Champions

First Aid teams of the Canadian Pacific Railway made a clean sweep this year of St. John Ambulance Association competitions in which they were eligible. Outstanding among the trophies won by the various teams of the Company were the Melitzambert Trophy, representing the open championship of the Dominion won by the Chapleau, Ontario, team; the Wallace Nesbitt trophy, emblematic of the open championship among railways in Canada, the States of Maine and Michigan, which was won by the Toronto Freight Offices and the Sherwood Police Shield, for the highest honors in police competitions open to all uniformed forces in the Dominion. This trophy was carried off by the Angus' Police Team No. 1 of the Angus works, Montreal.

In the photograph above is seen the team representing the Toronto Freight Offices, holders of the Wallace Nesbitt Railway trophy. Members are, from left to right, top row: W. T. Warren, A. G. Shakespear, first aid instructor of eastern lines; and A. T. Curle. Lower row, left to right: C. Sellen and H. H. Braid. The team are also holders of the Grand Challenge Cup, representing the championship of the C.P.R. system, the Osborne Cup, symbolic of the championship of Ontario district of the Company, and the Shaughnessy Shield, representing the championship of eastern lines. The Wallace Nesbitt trophy is seen in the centre above, while below it is the Shaughnessy Shield. At the right is the Grand Challenge Cup and, at the left, the Osborne Cup.

The various awards were presented to the Canadian Pacific teams in the board room of the Company in Montreal recently, in the presence of E. W. Beatty, Chairman and President of the C.P.R., and a large gathering of the officials; also officers of the St. John Ambulance Association.

## SEVENTEEN ARE KILLED WHEN RUNAWAY FREIGHT CARS CRASH INTO CROWDED ELECTRIC TRAM

Thionville, France, Feb. 10.—A string of freight cars breaking away from a train, ran down a hill here last night and cut in half an electric car on a grade-crossing. The car was crowded with workmen.

Seventeen of the twenty-six passengers were killed, the remaining nine being injured. The motorman, apparently crazed, fled.

## PREMIER ANNOUNCES SLASH IN B. C. INCOME TAXATION; TO DROP ABSENTEE VOTE

(Special to The Review)  
Victoria, Feb. 10.—In his Budget speech, Premier MacLean announced a ten per cent cut in net income taxes, a four per cent cut in gross income taxes, with a discount for prompt payment; a fifty per cent cut in professional income tax, and a fifty per cent reduction in the tax on undeveloped coal lands. The Budget forecasts an increase of a million dollars in both expenditures and receipts, with a probable surplus of \$9,000,000.

(Special to The Review)  
Victoria, Feb. 10.—Admitting quite frankly that the suggestion came from across the floor of the House, Premier MacLean definitely announced in his budget speech today the intention of the Government to abolish the absentee vote. The Liberal leader departed somewhat from the strict rule of a budget speech in announcing policies of his government and party, but occupying the dual positions of prime minister and minister of finance, he combined the declarations of both in the single speech.

The candidly stated that charges of dishonesty following the general election of 1924, centering around the absentee ballot, and the necessity of preserving public confidence in the conduct of elections had led him to decide upon the abolition of the form of absentee voting and the substitution of advance polls.

P.G.E. Negotiations Now On  
In announcing the intention of the Government to submit a loan bill, Premier MacLean in his budget speech briefly outlined the Government's intention with respect to the Pacific Great Eastern Railway. It is to sell the road if negotiations now under way offer a satisfactory solution of the problem. If no sale is effected, the Government is to complete the railway from Vancouver to Princeton.

"With regard to the P.G.E. Railway," said the Premier, "I wish to do for the question of providing money for further construction until the negotiations now under consideration have further developed. Before the close of the session, this matter will be definitely dealt with. Unless satisfactory arrangements for sale are completed," he added, "I propose to bring down a bill to authorize the borrowing of the sum of \$4,000,000 for capital expenditures for the following purposes: Roads, bridges and ferries, \$4,000,000; public buildings, \$240,000; university townsite, \$850,000."

Hon. Mr. MacLean reviewed with a wealth of detail to the balance sheet, the past financials of the Government. He pointed out that total assets over total liabilities show an increase over those of last year of \$1,643,891."

## BASKETBALL FINALS SET

Summerland Has Chance to Win Trial At Coast

On Saturday, February 11, Princeton basketball team plays here, also the strong Scout team of Penticton. Princeton is noted for being rather rough, so it should be an interesting game to watch. Cecil Ritchie, who played here last year, is this year on the Princeton lineup.

## Tolmie Attacks the Australian Treaty In Speech in Commons

Ottawa, Feb. 9.—A single shipment of butter which arrived at Vancouver on R.M.S. Niagara from New Zealand and Australia early this month brought in enough of this product to keep more than 6,000 cows busy for a year, or enough to keep 600 mixed farms established in Canada.

This was one of the illustrations used by Hon. Dr. Tolmie, Conservative leader in British Columbia, in an attack on the Australian treaty in the House of Commons on Wednesday. He dwelt on the need for developing Canada's, and particularly British Columbia's, natural resources rather than importing supplies.

In this connection he urged the immediate return of the Peace River block and the Railway Belt to that province and the construction of railway communication from the Peace River to the Coast.

## ENTRANCE BOYS AID HOSPITAL

### Manual Training Class Makes Piece of Furniture

A short time ago Mrs. Solly had been enquiring of Mr. S. W. J. Feltham if the boys of the manual training department could undertake to make a hat and coat tree for the hospital, as one was badly needed in the hall there.

Mr. Feltham spoke to the boys about the matter and they were quite enthusiastic over the idea. Last week when Mrs. Solly was in the school she was invited downstairs and Harvey Farrow, in a very nicely worded address, presented to her for the hospital, on behalf of the entrance class, a very fine hat tree.

They made it of oak and among themselves they took care of the costs of the materials they used. Mrs. Solly thanked Harvey and the boys most graciously for their thoughtfulness, and assured them that the Hospital Board would appreciate their splendid spirit and donation.

The hat trees has since been placed in the hospital hall, and visitors will now, on entering, find the boys' gift ready to serve them.

## KELOWNA WINS AT BADMINTON

### Game Played in New Hall in Kelowna Friday Last Week

Friday of last week local badminton players went up to Kelowna and played in the men's doubles, ladies' doubles and in the mixed doubles. Mrs. Colias, Mrs. Hookham, Miss J. Cordy and Miss Hutchinson, for the ladies, and Messrs. P. Dodwell, H. Howis, R. Miller and N. Rippan, for the gentlemen, represented Summerland club.

Kelowna won out, the final score being 15-8. The games were played in the new hall, which the visitors speak very highly of. Kelowna gave the Summerland folk a very enjoyable time.

## LOCAL JERSEYS SELLING WELL

### Two R.O.P. Tested Heifers Go Up to Vernon from Summerland

On Tuesday, Summerland shipped its first Jerseys to the outside market and a good price was realized. The two animals were purchased heifers, raised by school members of the Boys' and Girls' Club, Catherine Beattie and Arthur Joy. Mr. A. T. Howe of Vernon purchased the animals at \$200 each.

Catherine Beattie's heifer, when it was under R.O.P. test, made a record as a two-year-old of 475 pounds of butterfat, and Arthur Joy's made a record of 443 pounds of butterfat.

These two sales show what can be done here with Jerseys, and the market that is open to our community, demonstrating that the idea behind the promotion of a Jersey cattle club has real value, the stock men here state.

## WILL REBUILD DAM ON RIVER

### Twenty-Nine Thousand Set Aside For New Works

(Special to The Review)  
Ottawa, Feb. 10.—Included in the estimates totalling some \$373,000,000 brought down in the House of Commons is \$20,000 for the reconstruction of the Okanagan River dam at Penticton.

Mrs. Walker Wright, whose husband was pastor here of the Church of God, has been visiting friends in Summerland. She came in Saturday last and left on Thursday morning.

## Wider Road Along Lake Being Blasted out of Rock; More Work Now Coming

### LITTLE TICH IS DEAD

(Special to The Review)  
London, Feb. 10.—Little Tich, who with his big boots was familiar to London as a laughter-provoking vaudeville artist, died today.

## DISCOURAGED HE LEFT FOR PEACE RIVER

### Checkers Cause of Loss of Citizenship — Cure For Baldness Now

Judging by a report given by a reporter to The Review, the "checker" at Stark's this week was a second Oopogoo race. Here is how the pen-wielder saw it after having climbed through the spectators over the gent's furnishings' counter to the Home Comfort range's warming oven, where he roosted during the speed trials.

"Next to the Old Timers' meeting, the outstanding event of the past twelve months was the checker game held in Stark's store. For those who do not know where that is, it is near where the village smithy stands. The writer was not a player but an observant spectator. The West team came down fully convinced that it was simply a walkover, but poor souls, how they were disillusioned! Thos. B. Young, I understand, and Charlie Part unknown, Muir and Charlie Steuart have left to play golf (with Mr. Ramsey could play checkers as well as he can his hand organ, no doubt the flag on Stark's flagpole would have been at half mast. McCutcheon gave as his excuse that the altitude was too low and swears he is off checkers for good unless the next game is played in the Ladies' College on the Giant's Head. With a few more lessons, Austin Walden would in time develop into a fair player. Bert Saunders was evidently out of form and we have just learned from a very reliable source that on that particular evening he had domestic troubles in his home.

"There was one exceptionally fast player, Thos. Ramsey, whose speed not only impaired his judgment, but gave him ample opportunity to clean up on the candies—that were provided free. What else could you expect from a man who came from the Orkneys? R. S. Jackson would have made a much better showing if he had been matched against Al. Bland, and even then the results would have been questionable, especially considering he had a flat tire and remained tired all evening, and we understand is still tired at the season.

"The Summerland team, now being champions, feel that West Summerland should play a series of elimination matches, with Faulders, Mineola, Peachland and Crescent Beach, to prove their ability and gain the right to meet them again. The citizens of Summerland and West Summerland will find the next event of Shaughnessy avenue will be especially lighted for the occasion, and the town band, led by Mr. Snider, will render selections from the Post and Peasant overture from the orchestra.

"If necessary, the fire brigade will be in attendance to cool things down. McCutcheon considers the game referred to, to be a regular hair-raiser, and would strongly advise anyone inclined to baldness to follow up checkers with a good hair cream. It is also that T. B. Young has departed for the Peace River, as he could not stand the caustic remarks of his West Summerland friends."

McCPherson would have been the star player of the evening if he had remained in the fold with Stark's Collis.

The scores were as follows: Gartrell and Young, two draws and each one game. Dryden and Ramsey, two draws and each one game. Hannah and Jackson, one draw. Hannah 1, Jackson 2. Miller and McCutcheon, Miller 3, McCutcheon 1. Scourrah and Walden, 2 draws, Walden 2. Richards and Stuart, one draw. Stuart 1, Richards 2. Phelan and McCPherson, Clarke 3, McCPherson 1. Barkwell Sr. and Saunders, Barkwell 3, one draw.

GRAND FORKS WILL TAKE POWER DISPUTE TO COURT  
Victoria, Feb. 3.—The whole public utilities commission issue will be forced to a settlement as a result of court action to be launched immediately by Grand Forks. It is expected that the collapse of negotiations with the West Kootenay Power and Light Company under a power rate dispute, Grand Forks will apply to the court for a mandamus to force the company to submit the controversy to the Provincial Water Board for adjudication. If successful, this action will make the Water Board act for the first time as a public utilities commission in settling such a question, and incidentally it is anticipated, will bring to a head the discussion of public utilities control now proceeding in the municipal committee of the Legislature.

A number of West Summerland folk took advantage of the last snow for a sleigh drive to Faulders, Monday, going out to Amundson's, starting from Prairie Valley.

## Twenty to Twenty-five Foot Highway is Now Being Provided

### WILL PROTECT ROAD FROM WEAR ACTION

### More Construction Coming Both North and South of Here

Penticton, B.C.—Valuable work on the Penticton-Summerland road is now being done by a road crew handling a compressor drill. This drill was used last year on the road between Summerland and Peachland and later on will possibly be moved back to that section.

Much rock work north and south of Penticton is contemplated by the department this season, including the removal of some of the rock along Vaseaux Lake in order to give a wider road.

A large sum is also to be spent this season in continuing the road-widening between Summerland and Peachland, particularly at the rocky points. On the section from Penticton to Summerland, between \$4,000 and \$5,000 in all will be spent this spring, although this is much less than the amount contemplated north of Summerland, where the road requires a good deal more improving. It is possible that another compressor will be brought here.

Where formerly there was a narrow road around a rocky point sticking out into the lake, a highway twenty to twenty-five feet wide is now being created. The old vertical rock wall which was constructed along the road in 1911 and which has been undermined in many places by wave action, is being altered. The outer side of the road, instead of being an up-and-down rock wall will run off into the water at an angle. In this way there is practically no danger of the water washing the highway out at exposed points as has been the case in the past.

## SMALL FRUITS GROW IN HERE

### Varieties That Are Best Adopted to Dry Localities

The interior valleys of British Columbia are, as a whole, less suited to berry production than are the more humid sections along the coast. Nevertheless there are numerous commercial plantations in the Salmon Arm, Armstrong and Kootenay districts, while the results of experiments at the Summerland Experimental Station indicate that even in the driest areas of the province quite a variety of small fruits may be grown with a fair measure of success. Given the right varieties there seems no reason why the tree fruit sections should not produce at least enough berries to supply the local demand.

The strawberry is probably the most local of all the berries in its adaptation to soil and climate. The Magoon, which is admirably suited to conditions at the Coast, has not proved so well adapted to the intense sunshine and low humidity of the southern Okanagan. However, several other varieties, such as Magic Gem, Clark, Parsons and Van Sant have been grown to advantage in various parts of the Dry Belt. No matter what the variety, success with strawberries under semi-arid conditions is dependent largely upon maintenance of a uniform supply of moisture and a high state of fertility in the soil.

Raspberries also require careful irrigation and special attention to enrichment of the soil, an annual application of well-rotted manure being advisable. The Cultbert is still the standard of quality, but several new introductions promise severe competition from the standpoint of vigor, hardiness and productivity. The Viking, an origination of the Vineland Experimental Station, is extremely vigorous and produces fruit of large size and high quality. The Minnesota Fruit Breeding Station is responsible for another introduction called Latham, which yields large size and good quality with exceptional hardiness.

Trailing blackberries such as the Loganberry and the Leneretta dewberry require to be laid on the ground and protected from winter injury in most interior districts. The vines may be covered completely with earth or a mulch of loose straw material. A certain amount of labor is involved, but this will not deter those who have once experienced the joy of sampling a luscious downy ripened condition.

In the case of currants, for these are very hardy. They thrive best, however, when planted in rich, cool soil. Every orchardist should have a few bushes of Roskoop Giant (black) and Perfection (red) in his kitchen garden where the soil is fertile and a plentiful supply of water is available. The lowly gooseberry he forgotten. Poorman and Clark are two new varieties which appear to combine the high quality of the European type with the resistance to mildew characteristic of the American sorts.

On Thursday afternoon Mrs. T. Garnott was hostess at an afternoon tea in aid of St. Andrew's kitchen silverware fund. Quite a number of ladies were present and all had a very enjoyable time.

### NEW COMERS FOR BUSINESS IN PEACHLAND

#### Edgewater Inn Proprietor Arrives in Valley From East

Confectionery also changing hands

#### Purebred Stock Association Holds Its Annual Meeting

Peachland, Feb. 9.—The new proprietor of the Edgewater Inn, Mr. J. F. Hampson, with his wife and little girl, arrived on Friday evening of last week from Calgary. They are busy getting acquainted with their new surroundings. They were preceded by Mr. Hampson's parents, who have been looking after the Inn awaiting the arrival of Mr. Hampson Jr. Mr. Hampson travelled all through the interior of B.C. and finally picked on Peachland as being most nearly suited to his taste.

He is very enthusiastic about the possibilities of the place, situated as it is on the main highway. Already he has done considerable publicity work. Mr. Hampson was approached by the National Automobile Club of New York and the Edgewater Inn has been listed as an official stopping place for the club's members. This cannot be termed a new venture as Mr. Hampson has had experience in this sort of business at Banff. The family are just getting settled and intend as soon as possible to commence making improvements to the property.

Mr. F. R. Button and wife came in this week from Vancouver to take over the bakery and confectionery business recently bought from Mr. and Mrs. M. R. Margerison. Mr. Button is an Old Country baker but has served in several important capacities in Canada. He has baked in the Windsor Hotel, Montreal, in Winnipeg and in McGregor, Manitoba. He was pastry cook for the Hudson's Bay in Edmonton, Alta.

Mr. and Mrs. Margerison, who have so successfully carried on the business since taking it over, have moved back to their former home, Mrs. Margerison having found the work rather too trying. During their stay in the shop they made many friends, having given cheerful service at all times.

Mrs. Alpaugh came up on Friday of last week to sell off some more of her mother's household effects and packed the balance up ready for shipment to their home in Alberta. Returning to Summerland on the evening boat, she

intended to leave the following morning for home, via K.V.R., and visit Mr. Alpaugh's people in Nelson. We are pleased to report Mrs. Hunter gaining strength nicely.

Mr. George Barber, of Kelowna, who for the past few years has been managing the Rowcliffe packing house in Peachland, spent a part of the week in town doing a little scouting work in connection with the advancing fruit season.

There was quite a little excitement on the street one day recently when one of the new Ford cars stopped and the salesman demonstrated it to many interested onlookers.

Walters Limited, of Summerland, have definitely decided to open and operate a packing house in Peachland this year. Mr. Walters spent Monday last in town meeting with growers and receiving contracts. For their operations this season they have leased the old cannery and will fix it over for their needs.

Mrs. R. H. Huston, who is at present visiting her son, Mr. W. F. Huston of the King Edward High School of Commerce in Vancouver, was the recipient of sad news last week. On January 25 her uncle, Mr. Charles McLaughlin, of Burkes Falls, Ont., passed away suddenly from a stroke. On February 2, her brother, Mr. T. McLaughlin, of the same town, died suddenly of heart trouble. He is survived by his wife and five children. This makes three bereavements in less than a year, as Mrs. Huston lost her mother last March.

Mr. H. Richards, who recently rented a small office in the old cannery building and put up the first Occidental Co. sign, signifying the firm's intention to operate here this season, spent Monday in town and has rented a house. He expects to get settled this week-end.

Slide Delays Traffic

The big slide between Peachland and Summerland is temporarily holding up the automobile traffic, but it is hoped the road will soon be put into shape so cars can safely pass over the slide area.

The local Purebred Stock Association held its annual meeting in the council chamber on Monday evening of this week, with President E. Ruffie in the chair and Secretary J. H. Wilson in his place. The minutes of the last annual meeting were read, discussed and adopted. The general business of the association was fully discussed with regret that the caretaker of the bull, Mr. Allan Wilson, would have to discontinue his care of the animal at the expiration of his term in the near future and it will be necessary for the association to find someone to take his place. The election of officers resulted in the re-election of the 1927 officers, who were as follows: President, Mr. E. Ruffie; vice-president, H. Williams; secretary-treasurer, J. H. Wilson, with Mr. Allan Wilson on the directorate.

The Peachland Lady Orange Lodge held its regular monthly meeting on Monday evening last in the Municipal Hall.

Had Fire Scare

An electric light pole going down on Sunday evening last was the cause of darkness throughout the town for the rest of the night. Bob Thompson played a perfectly innocent joke on the fire chief and his family as a result of the darkness.

Not being prepared for oil light in his home, when the electric lights went out, Bob proceeded to the harness shop to fix up a gasoline lantern which he had there. To give him light to perform this little task, he lit a gasoline blow torch.

Just at this moment the chief's daughter remarked at the tea table that there was a light in the harness shop. The chief looked in that direction and saw that it was not an ordinary light and with the statement that there were flames flickering, jumped to his feet and put on a marathon in

the direction of the light, with members of his family and a visitor following hard after, only to find Bob calmly working at the lantern by the light of the flickering torch, which in the darkness lighted up the whole shop. "All's well that ends well".

### NARAMATA

Much regret was felt here at the news of the passing of Mrs. Lethbridge on Wednesday last week, shortly after her admission to the Penticton hospital, as noted in last week's issue. The funeral took place on Monday, the ceremony being held in the United Church, Rev. W. Aitchison officiating. There was a large attendance of friends to pay their last respects and many floral tributes were sent among them being wreaths from the Unity Club, the Ladies' Aid, and the Co-operative Growers. A sympathetic address was delivered by Mr. Aitchison, and hymns were sung by the gathering. The bearers were Messrs. Len Smith, Leslie Smith, F. T. Harris, J. A. Noyes, W. T. Nuttall and J. Dery. The funeral arrangements were carried out by Mr. Howson.

Miss Ruby Ford spent the week-end in Naramata, visiting a day or two with Mrs. A. C. Lyons, and later going to her parents' home at Arawana.

Mrs. J. N. Kennedy returned home last week after several weeks' stay in Victoria.

A meeting of the Co-operative Growers was held in the Exchange building on Friday last to consider the advisability of installing cold storage facilities under the building, but no decision was arrived at, and it was arranged that a further meeting should be held for additional information. There was a fairly good attendance. Mr. W. S. Young presiding.

Packing operations were resumed for a short time this week, and it is expected that the balance of winter varieties remaining in storage will be shipped out by the end of his month. Between five and six thousand boxes are in storage.

Service was held in the United Church on Sunday afternoon under Rev. W. Aitchison, who announced that the Penticton branch of the B.C. Music Teachers' Federation had consented to repeat the programme recently given by them in Penticton, the date being fixed for Thursday, February 16.

### TOURNAMENT FOR SATURDAY

#### Badminton Players Will Compete For Southern Okanagan Cup

The Southern Okanagan badminton championship for the Johnston Hardware Cup will be decided at a tournament on the Hall badminton courts on Saturday afternoon, starting at 2 o'clock.

Summerland, Oliver and Naramata will compete with the two Penticton clubs. Play will continue in the first and second rounds throughout the afternoon, with the final round taking place in the evening. It is expected that there will be a large attendance at this tournament, the first of its kind to be staged here.

### ROADWAY ON LAKE BLOCKED

#### Highway to Peachland May Not be Open for Weeks

Information comes from the government engineer's office that the road between Summerland and Peachland along the lakeshore will be closed until the end of the month, assuming that weather conditions remain as they are. The upper road is also closed.

There are many slides along the Lakeshore from Crescent Beach north to Deep Creek, due to the unusual precipitation last fall and in the winter, followed by the present warm spell. The banks, soaked up with moisture, are now sliding down to the water's edge. There are also many small slides on the old top road.

Road Foreman Sam Elliott of Kelowna took from nine in the morning until eleven in the evening to get through from Peachland. He was hauled for seven miles by a caterpillar tractor.

In some places the slides have covered the road with six feet of oozy flowing mud. Gangs of men are now busy attempting to clear the highways, but due to the existing weather, fresh mud comes down as fast as the former deposits are cleared away.

The Kelowna Board of Trade proposes to approach both Penticton and Summerland for endorsement of a proposal to move the offices of the Associated Growers from Vernon to Kelowna. Peachland, Westbank and Glenmore growers have approved of the suggested change.

Notice is hereby given that an application will be made to His Honor Judge Swanson, Local Judge in Chambers, at the Court-house in the City of Kamloops, on Monday, the 20th day of February, 1928, at the hour of 10:30 o'clock in the forenoon, or as soon thereafter as counsel can be heard, for an order restoring Review Publishing Company, Limited, to the register of Companies for the Province of British Columbia.

### HERE'S SPEEDY RELIEF FROM BUNION PAINS AND SOFT CORNS

#### Emerald Oil Must Give Complete Satisfaction of Money Cheerfully Refunded

Get a two-ounce bottle of Moore's Emerald Oil (full strength) today. Every well stocked drug store has this, with the distinct understanding that your money will be cheerfully returned if it does not reduce the inflammation, soreness, and pain much quicker than any remedy you ever used.

Two or three applications of Moore's Emerald Oil and in fifteen minutes the pain and soreness disappears. A few more applications at regular intervals and the inflammation is gone. And as for Soft Corns, a few applica-

tions each night at bed time and they just seem to shrivel right up and scale off.

No matter how discouraged you have been with pads, shields, or other applications, if you have not tried Emerald Oil then you have something to learn.

Every good druggist guarantees the first bottle of Moore's Emerald Oil to end your foot troubles or money back.

### SEES CHANCE TO GET PANHANDLE

#### Atlin Member Believes St. Lawrence Project Brings Opportunity

Victoria, Feb. 10.—The Legislature without division asked Ottawa to open negotiations with Washington for the Alaska Panhandle.

Victoria, Feb. 9.—With big international projects under consideration, of which the success hinges on full measures of co-operation between the Dominion and the United States, Canada would hold trump cards in new negotiations at the present time for acquisition of the Panhandle of Alaska.

This fact was impressed on the House as it commenced discussion of the resolution of H. A. Kergin, member for Atlin, urging the Legislature to press Ottawa to take action of this kind. Mr. Kergin and his second, Ian Mackenzie of Vancouver, based

their arguments for readjustment of the boundary largely on grounds of natural justice, pointing out that many of the old established frontiers of the world were being peacefully altered to remove geographical barriers.

"But if it came to bargaining," said Mr. Mackenzie, "there is another aspect of the question. The two nations are at present considering a gigantic scheme which needs the closest co-operation—the St. Lawrence Waterways development. That is liable to be an issue at the next presidential election. Would it not be a gracious gesture on the part of the United States to return us that strip of sea coast in Alaska to encourage and deserve a greater degree of co-operation?"

### Black Tells Victoria Committee's Troubles With Oriental Growers

Victoria, Feb. 3.—The chief difficulty in the administration of the Marketing Act, as regards potatoes especially, lies with the Orientals, and under the Act no differentiation is possible as between the honest white grower and the Oriental, who has his

cousins and connections in Vancouver, making it impossible for the committee of direction to trace shipments and prices, declared F. M. Black, chairman of the board, in an address to members of the cabinet and Legislature today. It was most difficult, said Mr. Black, to trace the ultimate destination of shipments and the price at which they were sold.

Another difficulty presented by the Oriental was that he did not keep his records in English; the committee proposed to ask amending legislation, making this mandatory, so that auditors might be able to trace records and shipments.

The Oriental and the over-production, especially on the Coast, were the causes of the instability of the trade. Another difficulty was presented at Ashcroft, where Orientals owned their own land, it was intended to make further representations to the Legislature on this score.

Mr. Black did not indicate what those representations would be. He extended the act rather than restrict it, was the advice of Mr. Black, who said

### SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes and which is not timber land, i.e., carrying over 5000 board feet per acre west of the Coast Range, and 8000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land, \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon an dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes, areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers and travellers, up to ten head.

Borden's EAGLE BRAND CONDENSED MILK

## AGREED

BEER is a most wonderful tonic for all who are overworked and those who are run-down because of weak impoverished blood. There is no tonic in the world like good pure beer.

Being rich in the food elements of choicest Barley Malt, combined with the tonic properties of golden hops, it quickly aids nature in restoring both mind and body to normal health and strength.

### SILVER SPRING BREWERY LTD.

Women's Auxiliary of Canadian Legion Valentine Dance, Tuesday, Feb. 14th, Legion Hall. 5-2-c

The Canadian Legion invites the public and veterans to the memorial service for Field Marshal Earl Haig, Grand President of British Empire Service League, which will be held in Veterans' Hall on Sunday, 12th, at 9:45 a.m. Padre, Rev. T. W. Reed. 6-1-c

Help Summerland basketball teams Saturday night when Princeton is here and see the two games on Monday night with Kelowna and Vernon. 6-1-c

All Veterans are requested to attend the Memorial Service for our Grand President, Earl Haig, on Sunday, 12th, at 9:54 a.m. in Veterans' Hall. 6-1-c

KEEFERS RANCHER KILLS

HUGE RUSSIAN WOLF Kamloups—Ald. A. B. Shaw is authority for the following story: The other day, at Ashcroft station, he was shown by one Reid, rancher at Keefers, the skin of a Russian wolf, shot by Reid recently, and which measured more than half as long again as a timber wolf. It was almost black in color. He had never heard of one being shot in this territory, or Western Canada, for that matter.

LOCAL HAPPENINGS

Mr. Bert Harvey went down to Vancouver on Tuesday last.

To get an advt. in the cent-a-word column, call The Review office or 656.

Miss Doris Mitchell left on Thursday to teach school at Hilda, Alta.

Mr. Muir Steuart went up to Kelowna on Tuesday of this week.

Miss Jean Duplat went up to Neudies on Thursday morning's train.

Mr. and Mrs. D. Kean came back on Tuesday from a visit to their son at Chula Vista, California.

Mrs. Bernard is enjoying a visit from her mother, Mrs. Borton, of New Westminster, who arrived last Friday.

Mr. Geo. Washington left for Seattle on Thursday to visit his sister, Mrs. Riha.

Miss Dorothy Garnett has arrived home from the Peace River, where she has been teaching.

Miss Palmer came from Duncan, B.C., to visit her brother, R. C. Palmer, at the Experimental Station.

Mrs. R. Taylor and little daughter are visiting Mr. and Mrs. C. H. Taylor.

The basketball club is going to have quite a number with it when it goes up to play Vernon on the 20th.

Dr. and Mrs. Lipsett were passengers on the Sicamous to Peachland, Wednesday last.

Thos. B. Young left on the Sicamous for Bowden, Man., on Thursday, where he has interests in a ranch.

There were about fifty appeals at the court of revision on Wednesday, and the court had to be adjourned till Saturday to finish up the work.

The Hospital Auxiliary had a successful bridge party on Monday last in the Parish Hall. They had about twelve tables playing for the evening.

Keep your association's date posted in the cent-a-word column of The Review. The Coming Events column is reserved for your use.

Mr. E. A. Baptist, of Peachland, motored down from Peachland over the upper road on Wednesday. He says it is rather icy in spots.

Mr. G. J. C. White set the record this week for first plowing, and reports that the ground was in excellent condition.

The annual meeting of the Summerland Poultry Produce Association will be held in Johnston's hall, Monday, February 13. Everyone interested in poultry cordially invited. 6-1-c

Messrs. Walters Ltd. packed out the last of their season's crop this week, and report a very satisfactory year's business.

Camie McAlpine, who has been on the government survey locating sites for the new C.N.R. wharves and slips, got home on Wednesday.

About eight years ago Mr. Walters sold an orchard to a Japanese here, and this week he got it back again. He intends to make a better proposition than ever of it.

Word has been received that the Development Company has appealed against the decision handed down in its case against the municipality. The appeal will likely be tried in March or June.

If Ground Hog Day did not settle the question of spring last week, perhaps the meadow lark's arrival this week did. Their cheery call gave a real touch of spring to outdoor life.

A traveller, not knowing that the road was closed from Peachland, got stuck in the McDougall slide above Crescent Beach. He met someone out there who told him it was about a mile from there into town. He says it is a mile. He got White and Thornthwaite to put his car over the slide.

Mr. Robinson, who is supervising the work at the fish hatchery, went up to Vernon by the Sicamous on Wednesday expecting to take charge of the whitefish eggs that are coming for the hatchery. Mr. McHugh was also in again from Vancouver to see the work started.

The Alkum Club had an evening's fun in an election of rove and councillors. Each candidate speaking appointed for support on some platform, each speaker dressing up his claim for support a little more humorously than the preceding one.

One hundred and twenty-five sat down to supper at the Father and Son banquet in St. Andrew's church on Tuesday. The tables were decorated with tissue paper and apples, making a most attractive setting. Each boy invited his dad, and the ladies saw to it that they were well treated. Rev.

Mr. Chester of New Westminster spoke, as well as several local men.

Here and There

Saint John—Almost 200 new Danish colonists were added to the settlement of New Denmark in the course of the past year, and the population of the colony is now 800. Colonists are prospering and their increase in activity is expected in 1928.

Morris Ackerman, acknowledged as one of the leading authorities on fishing and hunting on this continent, urges protection and a close season for great northern pike, grey trout and doré in Ontario and reduction of number allowed to be caught in a day below the figure of four specimens now permitted. Otherwise depletion will cause heavy loss in diminished tourist traffic.

French-Canadian folk songs are becoming more and more popular as was shown by the recent recital at the Jacob Sleeper Hall, Boston, addressed by J. Murray Gibson and illustrated by songs by Charles Marchand, well-known singer of French-Canadian songs. Boston University students and many members of the Canadian Club and of Boston Musical societies attended the recital.

Ottawa—A shipment of six bacon type pure-bred swine from Canadian farms to New Zealand has recently been made. Three of the hogs were Canadian type Berkshires from Ridgely, Ontario, and were prize winners at the Royal Fair. The other three were Tamworths from Ontario and Quebec breeders. This is the first year that hogs have been imported into New Zealand from North America since 1916. Other shipments are expected to follow shortly.

The annual dog-racing classic—the Eastern International Dog-Sled Derby—will again be run in Quebec City, February 20-22 next under the auspices of the Winter Sports association of that city. It will cover 120 miles in the three days and already some of the best known mushers in the United States and Canada are entered for the race, which carries a cash prize of \$1,000 and custody for a year of a handsome gold cup.

Calgary—More than \$500,000 worth of cattle from the farms of the province of Alberta were exported to the United States between July 1st and November 30, 1927, according to the report of the American Consul at Calgary. The shipments include some 12,000 head, comprising stockers, feeders and butcher cattle. The American markets at the present time are very inviting to stockmen in Western Canada and shipments have shown greater activity during the past six months than in any similar period since 1922.

Canadian Pacific Express, railway and steamships and finally an airplane were employed to carry two boxes of roses from Brampton, Ont. to Paris, France as a gift at Christmas. They were sent by Lt-Col. J. B. Maclean of Toronto to Princess Carolyn de Faucigny-Lucinge and to Countess Odon de Lubersac and only the heavy snowfall that swept Great Britain at that time prevented them from being placed on these ladies' breakfast tables on Christmas morning. As it was, they arrived two days later, as fresh as though they had just been plucked.

COUGAR'S TOLL ON DEER HEAVY

Expert U.S. Hunter Tells of Heavy Game Loss.

Oroville—The fame of Boyd Hilderbrandt of Malott, cougar hunter par excellence, is spreading far and wide. First it was feature stories in the papers throughout the Northwest then it was the radio broadcasting his achievements, and now his exploits are the subject of an editorial in the Spokesman Review. The editorial from last Sunday's paper was headed, "About Cougars, Bears and Coyotes." "As Theodore Roosevelt was wont to say, there is so much 'nature faking' about the wild life of America that it is good to hear the dependable statements of men who really know wild life; such men, for instance, as W. H. Wright, nationally noted authority on the grizzly and the brown bear, or Boyd Hilderbrandt, successful hunter of predatory animals in Chelan and Okanogan counties.

"Mr. Hilderbrandt should be an authority on the coyote, for he has killed 340 of them in five years of hunting. But 'only once have I found evidence of a coyote's having killed a deer,' he testifies. 'This happened near Loomis, where I found the remains of a two-point buck that had not been killed by a cougar. Farther on I found a fawn, yet warm. Four of the largest coyotes I ever encountered were eating this fawn.' "It is the cougar, not the coyote, that is the implacable enemy of the timid deer. Mr. Hilderbrandt reports that after killing a cougar last year between the Methow valley and Lake Chelan, I found that he had slain one deer and three goats. It is possible for a cougar entirely to exterminate a band of goats, as they make no effort to leave the district, although they are being attacked.

"Although Mr. Hilderbrandt has

CORPORATION OF THE DISTRICT OF SUMMERLAND

NOTICE IS HEREBY GIVEN that the Corporation of the District of Summerland has applied to the Board of Investigation under the "Water Act" and amending acts, for an order authorizing said Corporation to charge, impose and collect for the year 1928, tolls or rates against all lands within the boundaries of said Corporation, against which irrigation tolls or rates were charged and imposed by it in 1927, and any other lands within said boundaries properly chargeable with irrigation tolls or rates, of the same maximum amounts as were so authorized to be charged and imposed for 1927, namely:

- For Blocks containing 1 acre or less, \$11.75. For Blocks containing over 1 acre and less than 3 acres, \$11.00 per acre. For Blocks containing over 3 acres and less than 4 acres, \$10.25 per acre. For Blocks containing over 4 acres and less than 5 acres, \$9.50 per acre. For Blocks containing over 5 acres and less than 6 acres, \$8.75 per acre. For Blocks containing over 6 acres and less than 7 acres, \$8.25 per acre. For Blocks containing 7 acres and over, \$8.00 per acre. For other tolls or rates as said Board may fix.

The said application will be heard by said Board of Investigation on Wednesday the Fifteenth day of February, 1928, at Nine o'clock in the forenoon at the Municipal Hall, West Summerland, B.C. F. J. NIXON, Municipal Clerk. 4-3-c

FESTIVAL MUSIC NOW IN DEMAND

Prospects Are For an Excellent Showing From All Valley Points

The 1928 Okanagan Valley Festival bids fair to surpass the fine list of entries of last year, for the secretary reports copies of test pieces in heavy demand, and urges that prospective entrants order supplies early. So many of the chosen pieces are published in Europe that re-orders, if required, must be sent soon, or the delay will mean the elimination of some contestants, or at best a great deal of inconvenience.

Attention is drawn to one correction in the syllabus, and to one alteration. The correction is in Class 32, instrumental trio; the edition required is Schirmer, not Peters. The alteration is in Class 8, male voice choirs. The test piece (b) is written for male alto, and has therefore been cancelled, and in its place has been substituted "Men" by Frank Odell, No. 50643, Curwen ed.

JONES URGES ROAD FROM KELOWNA TO CARM

Victoria, Feb. 2.—The construction of a road from Kelowna to Carmi, as part of the development of the highway system of the Okanagan, was urged on the Legislature by J. W. Jones, member of South Okanagan, on Wednesday. He asked that Dugald McPherson, Liberal member for Grand Forks, support him, as it would be of benefit to that riding as well. He will bring it up again when estimates are being considered.

Paint Your Face From the Inside Out

Don't be content to buy a standardized complexion. Awaken your skin to life and loveliness with proper care. That rose-late tone and texture we all envy just means healthy active cells and tissues and a skin freed of poisons by brisk circulation. To overcome an oily condition and to brighten and clarify a sallow faded complexion try this three times a week. Get a little Peroxine Powder from your chemist. Apply hot cloths to the face and then rub gently with the powder using a rotary motion. Follow with hot, and then cold water. Apply a good cream (we recommend Carol creme). This helps to restore that dry velvety finish to the skin; improves its texture and brings natural color to the cheeks.

LAND ACT

Notice of Intention to apply to Purchase Land

In Vernon Land Recording District of Yale, and situate in Garnett Valley, Municipality of Summerland, Take notice that Robert Shannon of Summerland, B.C., occupation farmer, intends to apply for permission to purchase the following described lands: Commencing at a post planted at the South West corner of Block 3322 thence twenty rods south; thence twenty rods east thence twenty rods north; thence twenty rods west to point of commencement and containing forty acres, more or less. ROBERT SHANNON. Dated January 10th, 1928. 5-3-c

"THE MAN WHO SAVES YOU \$\$\$"

Make This Test

Ninety-nine out of a hundred will not be able to answer.

When the next man comes into your store or office ask him if he knows who were the first men to make a non-stop transatlantic flight.

Ninety-nine men out of every hundred will not be able to answer. Yet their names appeared on the front page of every newspaper throughout the civilized world. Magazines, featured their flight and praised their courage afterwards.

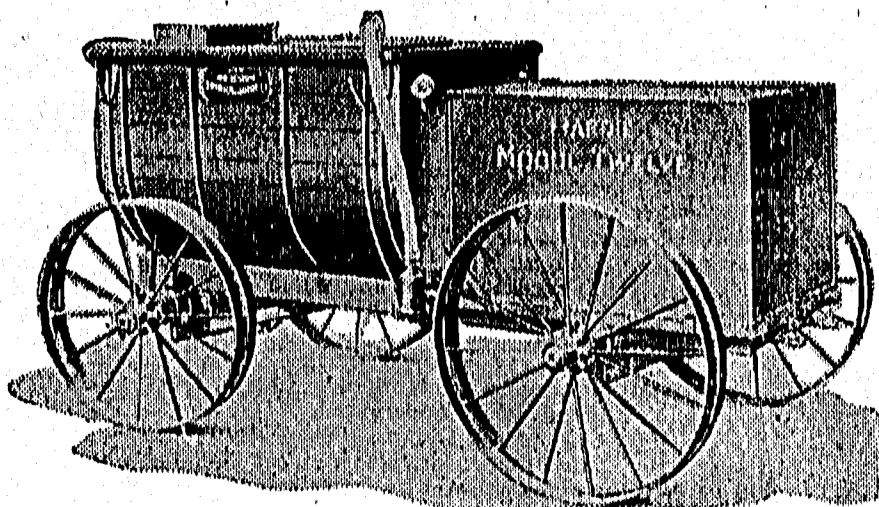

Their names appeared where paid advertising would not be placed. Today these men are just "men." The world that once sang their praise has forgotten them.

Why? Because their publicity was a momentary splurge. The public does not remember: It must be steadily reminded and especially is this true in business.

National advertisers with advertising budgets of hundreds of thousands keep their names before the public through steady advertising. Every business must keep its name before the public constantly.

The Review covers the "Hub of Summerland" in a most unusual manner—men whose business calls them to the homes will tell you the Review appears on the tables and is read with interest by every member of the family.

Tell your story through the advertising columns of THE Summerland Review Tell it in a striking way

THE INITIAL COST of a sprayer is a secondary consideration. Any grower can operate and adjust a "HARDIE." A "Hardie" owner is a "HARDIE" Booster. LET US GIVE YOU A DEMONSTRATION

SUMMERLAND, B.C. FRIDAY, FEBRUARY 17, 1928

\$2.50, payable in advance.

## DR. VANCE, ANGLICAN COLLEGE HEAD, EXPELLED FROM HOUSE THROUGH ACTION OF MANSON

Attorney-General, Recalling Old Conflict, Demands His Withdrawal—Cleric Protests at Gross Insult Given—Pooley Heard During Afternoon in Speech Upon the Budget—Makes Attack Upon Statements of Premier MacLean.

(Special to The Review)  
Victoria, Feb. 17.—Turmoil reigned in the Legislature Thursday afternoon following the expulsion from the House, on Attorney-General Manson's request, of Rev. Principal Vance of the Anglican Theological College, representing the Synod of the Church of England.

The trouble is the aftermath of friction years ago between the peppery law officer of the Crown and the eminent cleric, when the former termed the Ministerial Association "a bunch of pikers." Dr. Vance then retorted effectively.

By request of Mr. Creery, Vancouver, Dr. Vance and a ministerial companion were invited Thursday by speakers' cards to seats reserved for distinguished visitors.

Mr. Manson saw them so seated and privately protested that unless they retired he would "see a stranger" as the custom of parliaments has it and "name" the head of the Anglican college. To avoid a scene, Speaker Buckham, through the member who had asked for cards, suggested that Dr. Vance withdraw. Later the corridors buzzed with excitement, Dr. Vance protesting at a gross insult both personal and to the Anglican church. Peacemakers brought the ministers of law and church together in Mr. Speaker's chambers, in a stormy interview.

Emerging, Principal Vance re-entered the Assembly hall, and having thus re-asserted his right therein, with a formal bow to the chair, left at once, still indignant.

The incident is rated one of the most sensational demonstrations of under-currents in politics the Victoria House has witnessed in years.

Two full hours of the afternoon debate were occupied by Conservative Leader Pooley continuing on the Budget. He riddled the finance minister's comparisons with Alberta; showed by the supreme court judgment lately handed down in Caledonian Collieries vs. The King, that the turnover tax is unconstitutional; demonstrated that the gasoline tax is similarly unsound, in proof of which it is now being replaced by corrective legislation, made retroactive to avert forced rebating of three millions odd, improperly collected, and proved by letters of General Odum and others that there was active political interference with police affairs in North Vancouver. It was a lively day with honors to the opposition.

## Amery Travels 55,000 Miles

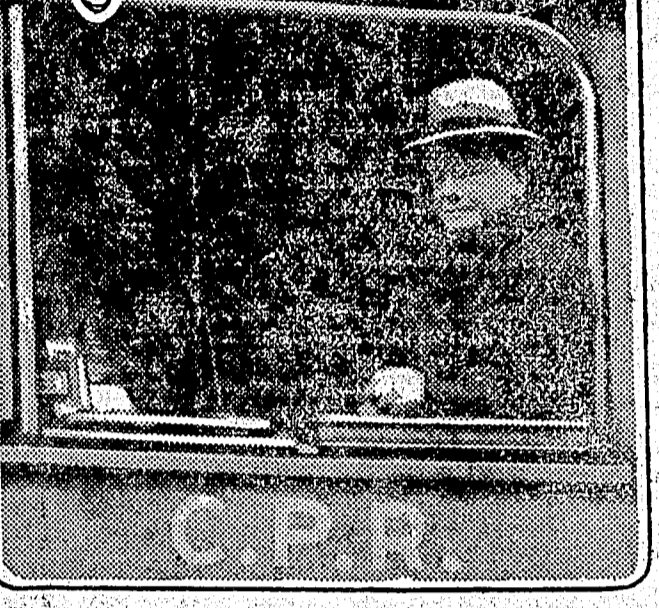

Upper left—Mrs. Amery after an inspection of the C.P.R. engine. Upper right—Disproving the belief that mountain air is colder than cities. Lower right—Right Hon. L. C. M. S. Amery driving the engine which carried him across the Dominion.

Fifty-five thousand odd miles in twenty-two days! That will be the record of Lieut.-Colonel the Right Honorable L. C. M. S. Amery, M.P., Secretary of State for the Dominions, when he returns to England after his Dominion-wide tour on February 11. During this period Colonel Amery has visited South Africa, Australia, New Zealand and Canada, and has delivered upwards of 380 speeches all told.

His speeches have covered a wide range and have been enthusiastically received by monster audiences throughout. He has been particularly happy in his references to the romance of the British Empire and in his remarks concerning the economic position of the component parts of the Empire Marketing Board he has broken new ground with most satisfactory results.

In every speech delivered by Colonel Amery in Canada he stressed the findings of the Imperial Conference in 1926, which made known explicitly to the world, he stated, that every one of the Dominions was an equal Imperial partner in the British Empire.

Colonel Amery landed in Canada from the S.S. "Aorangi" at Victoria on January 6, and will sail from Saint John, N.B., on February 3, on the Canadian Pacific liner, the "Montclare," for Liverpool. For the journey across Canada, where stops were made at 18 important centres, the Canadian Pacific Railway Company placed a special train at the disposal of the distinguished visitor and staff. On arrival at Banff, Alberta, the capital city of the Canadian Pacific Rockies, Colonel Amery threw all

care of state aside and spent all the day of January 12 enjoying winter sports. The Colonel is an expert skier and took great pleasure in overcoming the difficulties of Tunnel Mountain. Throughout the tour Mrs. Amery, herself a Canadian girl, accompanied her gifted husband. Others to make the trip were Capt. W. Brass, M.P. for the Clitheroe Division of Lancashire and Parliamentary Under-Secretary for Health; G. G. Whiskard, Assistant Secretary at the Dominion office, and G. Huxley, of the Empire Marketing Board.

## NINETEEN MILLIONS CUT IN TAXATION IS ANNOUNCED AT OTTAWA BY FINANCE HEAD

Ottawa, Feb. 16.—Reduction of nineteen million dollars in taxes was announced by Hon. J. A. Robb in his budget speech this afternoon.

With the cut, however, came a word of warning. With revenues now buoyant, he said, there is a tendency to have the Dominion embark on many new ventures as well as a tendency towards indiscriminate private speculation.

"We should not, however, forget our debt. Further taxation reductions will become possible as Canada progresses, but national progress is dependent on the wholesome goodwill we practice towards one another."

Estimated revenues for the year were given as \$419,280,000, an increase of nearly twenty millions over last year; estimate expenditures \$364,665,000; estimated surplus \$54,615,000. Soldier settlement lands have been written down, however, and other reductions cut this surplus to \$38,815,000. The net debt had been cut by \$144,500,000 during the past five years, he announced.

Mr. Robb announced that the policy of the government would be against any scheme of retiring the debt until Canada was nearer the pre-war rate of taxation. Annual taxation cuts were as important as debt reduction, he said.

### CUT IN INCOME TAXATION

Hon. J. A. Robb, minister of finance, announced in his budget speech this afternoon a ten per cent reduction on the personal income tax, eight per cent cut on Corporation tax, 25 per cent cut in sales tax, the rate being cut from four per cent to three per cent, and tariff reductions covering a wide field.

The tariff is reduced on materials going into household cottons and yarns, on woollens for mitts and cheaper lines of underwear. There will be an eighty per cent drawback on certain kinds of magazine paper and sixty per cent on material used in the manufacture of tools produced in Canada.

The expected cuts in the excise and duty on cigarettes and liquor did not materialize.

## GOOD BASKETBALL GAMES PLAYED OVER THE WEEK-END

Basketball playoffs are putting the game to the front in the province just now. Summerland is taking its place in the programme and taking its share of honors.

On Saturday, February 11, Princeton Seniors lost to the local Senior team by a score of 32-17. On the same evening (Penticton Intermediate A lost to the local boys in a rather one-sided game, which is quite to be expected since they have been, without a practice floor till recently, when their fine new Scout Hall was opened. Summerland plays a "return" game with Princeton probably on Saturday, February 25.

## CALEDONIAN SOCIETY MET

Rev. T. A. Reed Spoke to Them of Earl Haig and His Work

The usual monthly gathering of the members of St. Andrew's and Caledonian Society took place on Monday evening, February 13, in the Parish Hall. A gratifying number of members was present and a happy social time was enjoyed by everyone. During the course of the evening, Rev. T. A. Reed dropped in and rendered a very touching tribute to the passing of Field Marshal Earl Haig, referring briefly to the outstanding qualities that stamped him as a soldier and a man and to the lack of pomp and splendor on the occasion of his burial in Dryburgh Abbey in the land of his nativity.

## VALENTINE TEA IS SUCCESSFUL

The Summerland Women's Institute met on Friday afternoon, February 10, in the Parish Hall. Mrs. Butler presided, and almost thirty members were present. Mrs. Dryden read a most excellent paper on "Institute Work and Method," telling of all the statistics in the province. There was very little new business, so the rest of the afternoon was devoted to a "Valentine Tea" which had been arranged by the executive. Mrs. William White sang a solo, which was much enjoyed by everyone, and afterwards there was a guessing contest, "What Kate Did," the prize for this being won by Mrs. Conns. Tea was served at small tables, prettily decorated with red hearts and centre pieces of pussy willows.

## Australia Refuses To Lift Embargo on Apples of Canada

Ottawa, Feb. 15.—Hon. W. R. Meadwell, minister of agriculture, informed the House of Commons last evening that the Government of Australia had not yet taken the embargo on Canadian apples. When the minister's estimate was under consideration on a vote of \$200,000 for fruit, Grose Strling, Conservative, Yale, asked Mr. Meadwell if any progress had been made between the Governments of Canada and Australia with regard to the entry of Canadian apples into the Commonwealth.

## High School Gives Concert

For some time the high school pupils have been preparing for their concert which they put on successfully on Thursday evening, and their work has received many congratulatory remarks.

The boys opened the programme with a drill, and the girls' chorus under Mr. Cape followed, and received hearty applause, as they did later in the evening. A piano duet by Miss Stella Wilson and Miss L. Sutherland was much appreciated. Miss Isabel Laidlaw danced a pleasing Irish jig. Janie Simpson and Jessie Fullert gave a Dutch dance, and Iris Williams and Edna Smith a Russian dance. Misses Lavina Inglis, Iris Williams and Dorothy Nield sang several Hawaiian songs.

A Japanese song by three girls, Neelie Smithson, Dorothy Hunt and Nonie Williams, received generous applause. Mr. Geo. Messop played a clarinet solo which was well received. The evening's entertainment was closed by a play very well put on by Miss Joan Stevon, John Cummings, Jack Purvis and Wilfred Nield.

## CHECKER FANS TO COME BACK

Greater Interest in Old Pastime By Real Artists

Checkers have created quite an uproar, and the correspondent of the checker club has favored us with further details up to date.

The checker game reported in last week's Review created interest beyond our wildest dreams. So, in order to pacify the fans and general public interest, the high lights of the next game which, when completed, will make the Dempsey-Tunney fight fade into insignificance.

Atkins is to be asked to take the telephone board personally, as he is a wizard at trouble shooting; the only ones that give him mental worry are domestic and financial, and in this respect he is far from being alone. Will all fans reserve their calls at as early a date as possible (no charge made). The game will be broadcast over station 10U.

The Review has made special arrangements with the Bulletin to have a specially trained correspondent report the game play by play.

Stark has ordered a number of special checker boards of unique design. There are four checkers short on one side, and out of sheer good nature, the advantageous side will be offered to West Summerland.

Structural changes on Stark store are under contemplation. The lighting will remain as at present, because the Summerland team always play in the dark anyway.

Besides checkers, special numbers will be given by well-known citizens noted for their generosity.

One number will be given by T. Ramsey, who is heard nightly practicing "Lay My Head Beneath a Thistle".

D. Thompson will make his debut as a concert soloist by the rendition of an exquisite number entitled "Henry Made a Lady Out of Lizzy".

Davo, the silver-voiced lyric tenor, who has favored quite by accident the other day when Lizzy left him without warning and he was heard singing in subdued tones, full of passion, "O Brink Buck My Bonnie to Me".

R. H. English will sing: (a) "When Irish Eyes Are Smiling"; (b) "I'll Be There".

Beer is expected to be very much in evidence. Constable Kirk and ladies of the W.C.T.U. please take notice.

The cold and austere members of Okanagan Society, who do not play checkers, will secure special consideration—attention bridges will be placed in the Frigidarium department of Stark store.

A small charge will be made for liquid refreshments; some tables will be provided with one glass and four straws.

livan's opera "Pinapore", by kind permission of G. Benmore. The Ellison Hall piano will be used, this being the only one in the world on which selections can be played in a minor and major key, simultaneously, without creating discord. A wire from T. Youngs says: "Have scoured the whole of prairies. After many sleepless nights have found two players equal to Mac & Mac."

Stark promises the winning team free tickets to Crescent Beach, the Coney Island of the Okanagan.

Mr. Stark has requested P. Thornber to preside at the piano, as he is recognized as the poorest player in B.C.

Dr. Andrew promises to be present unless called away to Squally Point.

The forthcoming game, at the request of West Summerland, is to be played next Valentine's Day, when hearts will be trumps.

The Joker in Stark's pack is A. Steven. He says the sun never sets on the British Empire, because the British Empire is in the east, and the sun sets in the west.

## LOOKING FROM OUTSIDE IN

Coast Folks Learn of How Jack Logie Formed Art League

Utility Topics has in its last number an item of interest to Summerland, that deals with the early history of the Log Cabin and Art League, and the many friends here of Jack Logie. They put their comments in the following way:

Jack Logie walks with a crutch. That may be one of the reasons for his sympathy with the misthreatens of others. A few years ago the fruit crop of the Okanagan failed entirely and the fruit growers were on the verge of starvation. They could not, without abandoning their all, seek employment elsewhere.

Jack Logie worried with them. Then he thought—without them. "They alone can help themselves," was his conclusion. Then he spent weeks among them, observing them, making friends with them. As he sat by their firesides or shared their frugal meals he watched the women closely, for there lay his hope.

"I found one whittling idly as he entered her house, and watched a shapely whistle grow beneath her deft fingers."

In another cottage he saw a rag rug upon the floor and learned that the woman of the house had made it out of old rags. Here he saw a crate of pottery, there a picture painted perhaps badly, and again a bit of fine lace work. In another cabin tucked well into the hills he tasted the most delicious oat cakes he had ever eaten, and, once again, he noticed the perfection of a darn upon the knee of a child's well-worn stocking.

"There is talent," he said to himself when he had completed his search, "in every cottage, but the cottagers do not know it. When they discover it their hunger will cease."

And so began the B.C. Cottage Industry. Each woman, when encouraged, studied the craft for which she was best fitted, and her work sold, whether it was carving, pottery, painting, crocheting or merely the darning of socks. They discovered themselves, believed in themselves and then helped themselves.

## REFUSE CHEQUE SENT BY SOLDIERS' SETTLEMENT - SCHOOL BUDGET IS HIGH

Jas. Ritchie Gets Lumber Contract—Fire Bylaw Discussed

TANK AND PIPE LINE IS NOW PROPOSED

W. C. Kelley Instructed to Act in Appeal Case

Tuesday's council meeting saw all the members of the board present, with a lengthy agenda before them.

Councillor Campbell was delegated to present at the coming Co-operative meeting the findings of the council and committee on the bylaw proposed for codling moth control.

A letter from the Water Board was read, in which the Board stated that it would be pleased, while holding meetings here, Wednesday, to discuss the advisability of forming Summerland into a water district.

A letter from the municipal solicitor was read, asking for instructions with reference to the appeal of the case of the Summerland Development Co. recently heard before Judge Swanson.

The council discussed the matter, and Mr. W. C. Kelley was present later in the afternoon to talk over the matter. He was instructed to act in the appeal.

The charges so far connected with the case were \$225.

Mr. Vivian wrote asking if it would be possible to have water connections for the lots in his poultry houses, and how the charges would be arranged.

The clerk was instructed to write that the matter could be arranged and the charges would be for him.

The Soldier Settlement Board wrote asking that the cheque it tendered be accepted for the charges and interest against it, and again the council decided that the board be informed that the council could not accept interest at 6 per cent, because the Municipal Act distinctly states 8 per cent, and it has no alternative but to charge the rate set.

District Engineer W. K. Gwyer, from the government roads department, sent in his statement for payment of his share of the maintenance of the highway which was taken to this, and it was not passed. Charges were made for the past two years' levies, but the bill was not accepted because of the charges for man and equipment were considered excessive. The matters in dispute will probably be referred to the deputy minister when he comes in.

There was some disappointment when the estimates were received from the School Board. It had been hoped that this year their needs would not be greater than last year's. The total proposed was \$24,495, exclusive of the sinking fund and interest, which would be \$3,681.66, this being \$2,000 over that of last year. Some of the accounts were down. Councillors Arkel and Tweedie took the view that if the board were asked to go over the items, possibly they might be able to reduce them. Councillor Campbell also took that attitude. Mr. Tweedie asked how this compared with other years, and was informed that it had been rising about \$1,000 per year for the last four years. Councillor Smith thought it might be advisable to meet with the school board and talk over the subject. The information was brought out that the total expenditure, including the government grants, is \$30,274 for school

purposes, night school classes paying their own way.

On motion of Tweedie and Arkel, the school board estimates were returned for revision.

Tenders were opened from Jas. Ritchie, Wm. Ritchie and Penticton offering lumber for the irrigation system work. The tender of Jas. Ritchie at \$22.50 per thousand was lowest and was accepted. Something over 29,000 feet will be required. H. Tomlin stated that he expected the work could be started early next month. The total repair work is lighter this year, was his comment.

The proposed hospital bylaw for the annual grants was read. This was purely a routine matter.

A draft of a bylaw for fire protection was considered. Councillor Arkel stated that there was a new proposal for the system at the lakefront that might be workable, and asked that it be considered. The new proposal was a tank on the rock at the top of the horseshoe on the Gulch road. The matter was discussed at some length but not finally settled.

## POULTRY ASSO. HOLDS MEETING

Report Provincial Organization Heard - New Rules Made

At the Poultry Association meeting held on Monday night, there was a smaller attendance than might have been expected to hear the report of the year's business.

Mrs. L. Fosberry, president, was in the chair and called upon Mr. Geo. Graham for a report of his attendance at the B.C. Poultry Association meeting at the Coast during the Winter Fair. He outlined several resolutions that had been passed, explaining them to the meeting.

H. Vanderburgh read the minutes of the last meeting and the financial statement. In this he showed that the average price for eggs this year had fallen slightly below the average attained last year.

Mrs. Fosberry, speaking on the year's work and the prospects for the coming year, said that it was most essential for the work of the Association to be carried on in a business-like way and that members should put all their eggs through the Association.

Two rules were added to the regulations of the Association, one being that the manager shall have power to refuse to accept eggs from those who put them in when the price is low and not when the price is up, and also a rule asking the members to give a census of their flocks twice in the year in order to help the manager obtain an idea of what is likely to be necessary to find market for.

## PEACHLAND

Mr. H. E. McCall left Peachland by S.S. Steamship on Saturday last, en route to Victoria to attend the sessions of the Grand Orange Lodge.

The library committee of the Women's Institute held a very successful tea in the Municipal Hall on Tuesday afternoon. The hall was very prettily decorated for the occasion and all present appreciated the dainty refreshments.

## Billion Dollar Bank Merger Is Planned in U. S.

New York, Feb. 16.—Wall Street awaits word on the merger of three great banks, two in New York, into a billion-dollar institution, one of the country's three greatest.

Reports circulated that A. P. Giannini, California banking wizard, is combining with the Jonas Brothers to merge his Bank of Italy with the 116-year-old Bank of America and the Manufacturers' Trust Company met no denial.

## MAKE BEARING TREES GROW

Need Six Inches New Wood Each Season to Give Good Results

By M. B. Davis

During the winter months, when weather permits, pruning operations can be conducted so that by early spring this part of the orchard programme may be completed. Inexperienced growers frequently fear the use of the pruning knife during winter, but all fears on this score may be laid aside and the work proceeded with as soon as the trees are in a perfectly dormant condition.

As pruning is pretty much a matter of judgment it is rather difficult to tell in a few words just what to do. In the bearing orchard, which usually presents the heaviest task, growth is pretty much the deciding factor. I have before me now some propagating wood sent in by an orchardist, which consists of twigs only one inch long. This tree is in need of a pretty severe heading back if it is to be expected to continue to fruit. A full bearing tree should be producing at least six inches of good, stout growth each year on a large part of its surface. If it is not doing that it needs a little stimulating with heading back and fertilizing.

Then as I look out of the window I see several trees that have made a little too much growth this last year, and these will have to be thinned out—probably one-half of the more rangy growth cut back to keep the tree within bounds.

A certain amount of pruning is required practically every year and a tree that gets a severe pruning this season will need some attention next, but if the grower watches them yearly he will not be required at any time to give a tree such a shock that it will be thrown out of bearing. If it is remembered that there is no magic to pruning, but that it is a process of admitting light and to enable the formation of some new fruiting wood, the pruner with a little judgment will not go far astray.

The young tree is quite a different proposition. Here the grower is really training for the future, to avoid future trouble and loss by the breaking down of the trees. Probably the best form to aim at is a modified central leader, which is obtained by allowing the original central leader or whip to grow to a height of four or five feet, with lateral branches radiating from it. Then instead of permitting the leader to grow indefinitely, it is cut off at that point and the five or six branches permitted to form the head of the tree.

Further information on pruning of the apple may be had by applying for Bulletin No. 18 from the Experiment Station, Ottawa, or on plums by getting Bulletin No. 46 from the same source.

JONES FILES QUESTIONS IN HOUSE UPON OLIVER PROJECT

Mr. J. W. Jones, South Okanagan member, has filed a series of questions in the House on the Oliver project, Grand Forks irrigation, Okanagan tobacco and Commissioner Swan's salary.

replanting of fruit-trees? What has been the total number of fruit-trees planted on these lots since first planting was undertaken by the Government?

COYOTES TAKE TOLL OF DEER

Princeton—That coyotes are taking a heavy toll of our deer is the conviction of W. M. Daly of Keremeos, who has been trapping up the Ashnola River this winter and is now in Princeton on a visit.

THE SUMMERLAND REVIEW

(Published at Summerland, B. C.)
Established August, 1908

NEW VARIETY OF CORN

There was a time when any new variety of seed would be hailed with delight and even now, regardless of its merits any new propagation is likely to be taken up by many.

Realizing this, those who do experimental work of real value are holding back their information, until they have something definite to offer.

They have a corn named Banting that is particularly suited to meet demands for an earlier variety and one that is hardy. It can be brought to marketing maturity two weeks earlier than Golden Bantam under similar conditions.

The choice of name may later be confusing where gardeners are in the habit of merely saying Bantam, leaving Golden off, for the two names being so nearly alike may lead to confusion in the seed houses.

WE MUST PAY HIGHER PRICES

Not so very long ago, the price of cattle upon the market was so low that it was impossible to place anything but animals in the pink of condition and the rest went without buyers.

The leather men now come forward with a warning of what they intend to do, or, at least, what they say they intend to do, raise the price of sole leather, whether it is all justified or not is another question.

One of the peculiarities of the situation appears now with some considerable force, for it shows some of the reasons why a rise might be expected.

Our old friend, Diogenes, of the Daily Province, the other day expressed his delight at finding, in the "Banner" Pogue, an ally in his attitude against cats.

ON FEEDING OATS
Horses at active farm work do not lend themselves readily to experimental feeding investigations when the results derived from these investigations are measured solely on the basis of variations in weight.

In order to obtain some data relative to the value of feeding crushed oats to work horses four two-horse teams were selected.

The test started on June 20, 1925, and continued until December 5, 1925. Individual weights were taken at the end of each period of two weeks and the feeds then reversed.

CROP COMPARISONS

There are very interesting reports coming from the Peace River district about the wonderful crops and excellent results from the new lands brought under cultivation.

When the peach tree fillers were first in bearing, the young trees enabled the growers here to ship the large-size peach box back east, filled by sixty fine yellow St. Johns or Crawfords.

UNCONSIDERED TRIFLES

(By AUTOLYCUS)

It is encouraging to see that there is at least one member of the Victoria Legislature who thinks it worth while to draw attention to the faults of the old age pension scheme.

DAVIE ON PENSIONS
The fact that the Act is a new departure, and only lately in operation, is a good reason why constructive criticism should be made.

when it is remembered that cats work deplorable havoc among our feathered friends (including the neighbors' chickens) and that their police duty among mice is largely neglected, it becomes evident that there would be good reason for it, provided it could be enforced.

Many years ago I was in a London theatre enjoying my first hearing of Wagner's "Tannhauser" and was (for my sins, I suppose) seated next to a voluble lady who carried on an incessant chatter with a friend on her far side.

Our old friend, Diogenes, of the Daily Province, the other day expressed his delight at finding, in the "Banner" Pogue, an ally in his attitude against cats.

Our old friend, Diogenes, of the Daily Province, the other day expressed his delight at finding, in the "Banner" Pogue, an ally in his attitude against cats.

SUMMERLAND SCHOOL REPORT

Div. I—S. A. MacDonald—Entrance (First 12 in order of merit)

Bob Nelson, Dorothy Bowring, Diana Barnes, Margaret Dundon, Harry Walsley, Walter Chasles, Dick Benmore, Margaret Hogg and Kathleen Read, Arietta Biagioli, Norman Thompson, Doreen Howis and Margaret Tavender.

Div. II—H. W. Danie (Ranked in order of merit)
Francis James, Verna Gale, Ivy Weaver, Jack Armstrong, Robert Killick, Leonard Mountford, Betty Nelson, Adorno Biagioli, Arthur Smith, Alastair Campbell.

Div. III, Grade 6—H. O. Dunham
Proficiency—Maurice Welsh, Frank Walden, Phillip Dundon, Margaret Steven, Gerald Bowring.

Perfect attendance—Brian Atkinson, Mildred Arkell, Alan Butler, Fred Blesdale, Gerald Bowring, Mary Block, Kenneth Boothie, Margaret Baldwin, Sandy Caldwell, Florence Doherty, Terry Farrow, Eva Gale, Jack Haddrell, Philip Hookham, Colin MacKenzie, Russell Neil, Margaret Steven, Walter Taylor, Donald Tait, Frank Walden, Marianne Orr.

Div. IV—B. A. Garnett
Perfect attendance—Tessie Arkell, Bob Barwick, Billy Borton, Stella Cross, Dale Fosbery, Barbara Haddrell, Ernest Hunt, Eleanor Jackson, Roy Kennedy, Violet May, Lillian Mitchell, Gordon Morgan, Lloyd Shannon, Fred Smith, Mona Stewart, George Strachan, Gordon Sutherland, Inez Walker, Kathleen Wright, Gwion Weaver.

Grade 5A
Proficiency—Gordon Morgan, Eleanor Jackson, Barbara Haddrell, Lloyd Shannon, Lillian Mitchell.

Grade 5B
Proficiency—Dulcie Fosbery, Gwion Weaver, Alice Chasles, Roy Kennedy, Joan Sherman.

JANUARY PROMOTIONS
Div. V—R. E. Graham
To Grade 4, Part II
Joseph James, Phyllis Nicol, Don Agur, Dale Rumball, Victor Harvey, Alberta Mitchell, Ann Killick, Bobby Powell, Florence Starck, Roy Smith and Foster, Florence Starck, Roy Smith and Foster, Charles Stewart, Tommy Young, Isabel Clark, Eleanor Amundson, Miriam Walsley, Irona Tait and Mary Uza, Anna Gould, Helen Wolford, Roy Wolford, Billy Ramsay, Howard Shannon.

To Grade 4, Part I
Alex Lyons, Ruth Pearson, Janet Strachan, Robert Strachan, Mary Reid, Caldwell, Albert Derrick, Myrtle Reid, Pearl Smith, Shilma Kuroda, Haruko Inaba, Norma Inaba.

Div. VI—A. Ruth Dale
Grade 3, Part I to Part II
Margaret Reid, Berolyn Agono, Ichiro Roggio Turner, Jimmy Agono, Ichiro Reid, Jean Thompson, Pearl White, Pat Agur, Olive McKenney, George Powell, Jessie Loomer, Lena Ross, Vorn Smith, Lloyd Parker, Mae Guild, Frances Baldwin, Eddie Hannah, Leonard Shannon, Howard Wright.

Bobby Beer. Not ranked, Madeline Hunt.

Grade 2 to Grade 3
Jack Yolland, Sandy Fenwick, Fred Schwass, Kenneth Sourrah, Stephen Dundon, Gordon Mountford, Lawrence Hickey, Adline Wolford, Mary Biagioli, Edward Haddrell, Tommy Ramsay, Thomas Brennan.

Div. VII—Grade 2—M. V. Smith
Perfect attendance—Norman Armstrong, Hector Borton, Shirley Caldwell, Lawrence Chasles, George Clarke, Molly Handford, Jean Kercher, Elsie May, Howard Morgan, Nora Murphy, Hugh McCutcheon, Mayme McKenney, Rees Powell, Leslie Rumball, Audrey Stewart, Betty Strachan, Funi Tada, Doreen Tait, Mary Tweedy, George Uzawa.

Class leaders—Jean Kercher, Kenneth James and Mayme McKenney, Bonar Sutherland, Nora Murphy. T. M. Hobbs

Promoted to Grade 1, Part II
Marjorie Fenwick, Charlie Verrier, Marjorie Carvath, John Forbes, Jean Loomer, Lois Walter, Minnie Kitta, Ruby Agono, Billy Cross, Murray Mitchell, Jimmy Strachan, Phillip Rumball, Lloyd Givrol, Bob Ramsay, Albert Dixon, Audrey Wright, Theresa Orr, Thelma White, Evelyn Laidlaw, Isabel Campbell, Howard Walton (on trial).

Promoted to Grade 2, Part I
Coell Pence, Gwyneth Griffiths, George Cross, Wilford Evans, Rachel Smith, Francis Hannah, Charlie Haddrell, Percy Miller and Loll Cavant.

Div. IX—F. Muriel Banks
Promoted to Grade 1, Part I
Roy Sanderson, Mitsuo Kihokawa, Toshiko Kitagawa, Donald MacDonald, Patricia Pontland, Annie Hall, David Taylor, Jack Gale, James McKenney, Ross MacLachlan, Bobby Montgomery, Charlie Rotzitz Donald Wood, Fumihito Inaba, Bob Blesdale, John Newton, Clayton Clarke, Olive Atkinson, Emma Bartolomeo, Tommy Hannah, Freddie Smith, Isabel Miller, Violet Uzawa, Kutami Inayoshi, Bill Kanamori, Kocoo Bingham (on trial), Allan Gould (on trial), Clarissa Pearson (on trial).

Americans Take Bond On Tulameen Claims

Princeton—Visitors to Princeton during the week included G. M. Wilson, Wilbur Wash, D. Ventworth, Stiles, Idaho, and Eddie Putman, Spokane. They motored up to Mr. Putman's big Buick, and, though directed from Orvilleville to the river road to Nighthawk, managed to get through without much difficulty.

WHO IS TO BUY B.C. TOBACCO?

Vernon Report Says That Mr. Brener Has Not Purchased

Vernon—A. T. Howe interviewed the city council on Monday night to ask for their assistance towards the establishment of the tobacco industry in this district on a good footing.

Mr. Howe said that last year thirty acres of tobacco was grown in the Vernon district. This included that on government plots, Mr. Edcardo's, Dr. Jackson's and his own. A month ago the output was shipped to Kelowna and from thence on to Ottawa.

Expert Assistance Needed
He would ask the council to give some measure of assistance towards securing the allocation of an expert or two to Vernon to advise the people how best to grow tobacco, and to correct certain mistakes that would naturally be made unless expert supervision were given in the experimental stages.

The council decided to take this matter under further consideration little later, at the time when estimates for the year were being prepared.

COUGAR'S TOLL ON DEER HEAVY

Expert U.S. Hunter Tells of Heavy Game Loss

Orville—The fame of Boyd Hilderbrand of Maloti, cougar hunter par excellence, is spreading far and wide. First it was feature stories in the papers throughout the Northwest, then it was the radio broadcasting his achievements, and now his exploits are the subject of an editorial in the Spokesman-Review.

Mr. Hilderbrand should be an authority on the coyote, for he has killed 340 of them in five years of hunting. But only once have I found evidence of a coyote's having killed a deer; he testifies: "This happened near Loomis, where I found the remains of a two-point buck that had not been killed by a cougar. Further on I found a fawn, yet warm. Four of the largest coyotes I ever encountered were eating his slain fawn."

"Although Mr. Hilderbrand has been hunting and killing cougars for several years, only once has he heard that animal's eerie scream. He was in camp near Republic, and the scream resembled that of a woman in distress.

Milos, Helona and Henrietta Voulatino, twin sisters of Marcellino, France, were recently married to Jacques and Jean Milvoay, twin brothers.

THE CHILDREN'S COURT (From the London Spectator)

The "Children's Courts" of London, with their woman Justice assisting the magistrate and their women probation officers, are very interesting places indeed. But, because the terms of their constitution ensure them a privacy of working which possibly doubles their usefulness, the general public knows relatively little of their activities.

Only a century ago a boy of fourteen was "hanged by the neck" for thieving seven shillings worth of goods. In 1832 a boy of nine received the same sentence for stealing two penn'orth of paint!

The various Juvenile Courts may differ slightly in their interpretation of the Act that created them, but they all have that same atmosphere of "a committee of experts engaged in the prevention of crime."

PROVISIONS MADE FOR ENVOY TO JAPAN
The new estimates include the sum of \$50,000 to cover the cost of establishing a Canadian envoy to Tokyo and to this little exception is likely to be taken in Western Canada.

CONGRESS FLOUTS PRESIDENT COOLIDGE
The more a Canadian citizen learns of the United States political system the more he realizes the superiority of the democratic form of government that prevails in Great Britain and the other nations that make up the British Commonwealth.

HIGHER PAY FOR BRAIN WORKERS
After many years of agitation for more consideration for government employees with high technical qualifications, the Ottawa Government has at last decided that they are entitled to better remuneration.

Walter Revell of Grimaby, Eng., was swept off a trowler by a high wave, but the next billow carried him back on board.

World of Politics (By an Ex-Writer of the Ottawa Press Gallery.)

The politicians at Ottawa and Victoria have been hurling a lot of figures at our heads recently and as most of us are not very good at figures it is somewhat bewildering.

DOMINION ESTIMATES APPROACH \$400,000,000
This is demonstrated by turning to the Federal Government estimates tabled at Ottawa which represent a total estimated expenditure, without the supplementary estimates which come down near the close of the session and run into several millions, of \$74,000,000, or an increase of nearly eight million dollars over the total estimates of last year.

PROVISIONS MADE FOR ENVOY TO JAPAN
The new estimates include the sum of \$50,000 to cover the cost of establishing a Canadian envoy to Tokyo and to this little exception is likely to be taken in Western Canada.

### COMING EVENTS

The combined choirs of the United Church will render the second Cantata Olivet to Calvary on Good Friday night, April 6.

Ladies' Hospital Auxiliary meeting, Tuesday, Feb. 21, Parish Hall, 2 p.m. 7-1-c

The Woman's day of prayer will be held in St. Andrew's Church on Friday, Feb. 24th, at 3:15 p.m. Collection for the Zanana bed. 7-1-c

Look up your old clothes for the "Hard Times Dance" at the Legion Hall, Tuesday, Feb. 28th. Prizes and lots of fun. 7-2-c

### QUARTER IS CUT FROM IRRIGATION

Victoria, Feb. 16.—Twenty-five per cent. reduction in capital cost of irrigation works chargeable to waterusers in the Okanagan is announced as the Government's policy for relieving the interior fruit industry.

Under this arrangement the Government may assume one-quarter of the capital cost and reduce the annual charges payable by irrigators accordingly. Legislation does not provide that all capital costs must be reduced a quarter, but allows the Government to make a reduction in any district which requires it up to this amount.

Another big point of friction in the fruit districts will be eliminated by a second provision under which the penalties for failure to pay 1927 irrigation dues will be by the trustees of any irrigation district.

Here is a Dandy for This Friday and Saturday "SWEET DADDIES"

With the best comedians in Hollywood, such as George Sidney, Charley Murray, Vera Gordon, Jack Mulhall and Johnny Kingston. Directed by Alfred Santell. All know he has given the best of everything he has to make "Sweet Daddies" and "Sweet Cookie" what a picture! With comedy, pathos, speed and the novelty.

Also a Buster Brown Comedy "Buster Be Good"

Next Fri. and Sat., Feb. 24 and 25, we have a very attractive offering.

"PARADISE"

Is the name of the picture, with Milton Sills and Betty Bronson. Isn't that some cast? They are supported by Noah Beery, Kate Price, Charley Murray and others. The scenes are laid in London, and from there to the mysterious South Sea Islands. The picture has good write-ups everywhere, and we are sure anyone seeing this production will be satisfied.

Also Comedy "Crowning the Count"

Don't forget the play dates on the big super-special, Michael Strogoff, will be Tuesday and Wednesday, March 20 and 21.

### LOCAL HAPPENINGS

Mr. C. A. Walters was up to Kelowna the first of this week on a short business trip.

The Co-operative shipped three cars this week, one of Extra Fancy New-towns to China, and two to England.

The telephone girls were able to donate \$25 to the Ladies' Hospital Auxiliary after the dance last week.

Mr. T. B. Young returned from Bowden, Alberta, arriving on the Sicamous Thursday evening.

Mrs. H. C. Handley's father, who has been visiting her for some time, left on Wednesday after having spent an enjoyable vacation here.

A fine buck was seen crossing Mr. Geo. Drewett's place this week. It had evidently strayed down from Giant's Head.

Mr. H. W. McRoberts returned from Revelstoke on Monday. He has been working as trainman there with the C.P.R.

Mr. Harold Cartwright returned from Kimberley, where he has been for a short time.

Cyril Taylor returned from Calgary last Thursday, where he has been working as fireman for several months with the C.P.R.

A few reports are coming in of 'cot bloom coming out well this spring. Several have put prunings in water indoors, and prospects are good for a heavy show of blossom.

The local Intermediate A basketball squad intends to travel by C.N.R. to Vernon on Monday to play for the right to meet Kamloops in the play-offs.

Mr. Muir Steuart expects the new equipment for the sawmill in right away and will start sawing in about three weeks. Logs are now coming in from Coalmont.

The provincial inspector for the cow-testing being done in Summerland was in town on Thursday. He was making records of cows at Landry's, the Experimental Station and R. V. Agur's.

The fish hatchery now has a register, in which those who call to see the eggs that are being hatched are expected to sign their names. The more interesting part of the process will be going on in another ten days.

The directors of the Co-operative made a tour of the packing house on Thursday with a representative of fire fighting apparatus, getting information as to the best equipment for them to install.

The Co-operative completed a payment on closed pools this week, covering Baldwin, Ontario, Russet, Black-twig, Arkansas Black, Tolman Sweet, Wagener and Delicious. They expected to finish the season's pack on Thursday night.

J. E. C. Lane, chairman of the Water Board, with Major MacDonald and O. F. D. Norrington, district engineer, held a meeting Wednesday morning to consider the local irrigation water rates. They came in on the morning train and left again at noon, intending to make a report later.

While coming up the Gulch road Friday night, D. Thompson's car had the axle give out in the rear end, and the car could not respond to the brakes. It shot down the hill, giving him and Nellie a severe shaking up and some slight cuts, but nothing more serious, fortunately.

Mr. H. Harkness of Vernon gave the higher classes of the central school an exhibition of three reels, depicting scenes on the C.N.R. line. These were of considerable educational value as well as being very interesting. The same films were run over again in the church at the lakefront on Tuesday evening.

Summerland folks generally will regret to hear that Dr. Andrew has had to go to the hospital, as a patient this time. He has had trouble centering about his neck, which gives him considerable discomfort. He hopes, however, to be back to work again before long.

### Merritt Youth, Said To be Killed by Train, Returns Home

Merritt—The home and friends here of Howard Smythe were given many hours of awful suspense on Monday when a report arrived from Aldersyde, Alberta, that the young fellow had been killed by a freight train. Just when the city was astir with feelings of regret and when the family feared the worst, word was received that the young man was nearing Merritt by train. Smythe, back from Alberta, cannot explain how the youth who was found dead on the railway track came to have in his possession his, Smythe's, auto driving license, which led to the surmise that the Merritt youth was the victim. The body was found by two men who were walking along the track. It is believed that the youth had fallen from a train. Smythe thinks he must have dropped his license and that the youth who was killed had picked it up and put it in his pocket.

Howard Smythe formerly lived in Pentiction with his parents, Mr. and Mrs. D. A. Smythe.

### TAXATION FOR GAS DEALERS

Victoria, Feb. 16.—Following immediately upon the announcement of budget taxation reductions, Premier MacLean, as minister of finance, on Wednesday introduced an entirely new form of taxation.

This time it is in the shape of a license fee upon all persons selling gasoline. The new license fee of \$1 is included in the re-drafted "Gasoline Tax Act", which was brought down in another form to provide against any assault upon its validity in the courts. The tax remains at the same rate.

### HIS HONOR, THE MAYOR, FEELS HIS WEAKNESS

We gather from the remarks of Mayor Clark, as published in a paper sometimes circulated in Trail, that the mayor is not pleased with his home town paper.

As quoted in the aforesaid paper, his remarks were as follows:  
"Trail, he declared, was unfortunate in not having a live local newspaper to assist in fighting its battle for community improvements. He pointed to the different position of Nelson. There, he said, largely due to the publicity campaign of The Daily News, engineers were already at work taking soundings and preparing surveys for a bridge over the West Arm of Kootenay lake, promised in the recent by-election.

"This obvious effect of newspaper publicity led to one conclusion. Trail could not hope to hold its own against other cities until it had an up-to-date newspaper publisher in Trail with Trail's interests at heart. Any newspaper doing that for Trail should have the hearty co-operation and support of all citizens," he said.

"We are really quite surprised at the foregoing.

It had never occurred to us that the idea had ever entered the mind of the mayor that he alone was not sufficient to do and perform all and singular the things needed to bring Trail all the blessings and benefit to which the municipality is rightfully entitled.

Not by word or deed has he left it be known that the puny efforts of a newspaper could be helpful, or could add to his weighty influence with the powers that be.

"Would that we had known the secret thoughts of the great man. With keener regret we learn of the sad hours he has spent, weighed down by the burden of his great responsibilities, and feeling the need of publicity and the consoling words of kindly editorial to help him in his mighty struggle to get a foot-bridge or some little boon

### Vernon Obtains Cheque For \$103,000 on Engines

Vernon — The city treasury is the richer by the sum of \$103,000, a cheque for which amount was paid over by F. B. Cossitt on Tuesday to D. C. Tuck, the city solicitor, and by him passed on to the city treasurer, as representing the balance of the amount due to Vernon from the West Canadian Hydro-Electric Company, \$108,000 in all, under their arrangement with the city council.

Mr. Cossitt also handed to the representatives of the Canadian National Railways a cheque for \$25,000, in full settlement for all their holdings taken over by the Hydro-Electric Company at Shuswap Falls.

Despite the handicap of exceedingly rotten roads between Lumby and the Falls, preliminary work and the hauling in of equipment and supplies has been proceeding uninterrupted at the site of the new undertaking, under the direction of Engineer Burdick, and it is anticipated that the work of actual construction will begin next week.

### Eddie Foy, Veteran Comedian, Is Dead

Kansas City, Feb. 16.—Eddie Foy, oldest vaudeville headliner appearing in public, died at the Hotel Baltimore here early today, aged 73.

Foy was appearing this week at the Orpheum Theatre and went through his act last night as usual. He retired after the performance and his body was found in bed by hotel attendants this morning. Heart disease was the cause of his death.

### FINE TIME TO ADVERTISE

A close study of newspapers in the largest and most progressive cities about now, will show an enormous amount of money being spent in advertising. The managers of those stores have learned from experience that money spent at this time in advertising is an excellent investment. It is a time of year that normally would be extremely dull. Before the days of advertising, merchants must have found little doing in mid-winter, and their expenses must have been exceptionally high for the amount of business they were doing. Advertising in mid-winter keeps the trade flowing in evenly. A great many people have learned to expect to see announcements of special bargains at this time of the year. They wait for such announcements, and they go to the stores to announce them. It is gratifying to announce that the bulk of Cranbrook stores surpassed all previous records for the year 1927, some more than doubling the business of the previous year. One store in particular attributes its heavy increase in business to the consistent advertising policy carried out.—Cranbrook Courier.

Notice of Intention to apply to Purchase Land

In Vernon Land Recording District of Yale, and situated in Garnett Valley, Municipality of Summerland.

Take notice that Robert Shannon of Summerland, B.C., occupation farmer, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the South West corner of Block 3322 thence twenty chains south; thence twenty chains east thence twenty rods north; thence twenty chains west to point of commencement and containing forty acres, more or less.

ROBERT SHANNON,  
Dated January 10th, 1928. 5-8-c

### Make This Test

Ninety-nine out of a hundred will not be able to answer.

When the next man comes into your store or office ask him if he knows who were the first men to make a non-stop transatlantic flight.

Ninety-nine men out of every hundred will not be able to answer.

Yet their names appeared on the front page of every newspaper throughout the civilized world. Magazines featured their flight and praised their courage afterwards.

Their names appeared where paid advertising would not be placed. Today these men are just "men." The world that once sang their praise has forgotten them.

Why?

Because their publicity was a momentary splurge. The public does not remember: it must be steadily reminded and especially is this true in business.

National advertisers with advertising budgets of hundreds of thousands keep their names before the public through steady advertising. Every business must keep its name before the public constantly.

The Review covers the "Hub of Summerland" in a most unusual manner—men whose business calls them to the homes will tell you the Review appears on the tables and is read with interest by every member of the family.

Princeton Plans New Course for Golfers

Princeton—After trying out several golf courses without finding any of them to their satisfaction, it looks as if the Princeton Golf Club had finally hit upon something which will prove a solution of their difficulty.

SCHOOL PUPILS SEE HATCHERY AT ITS WORK

Whitefish Eggs are Hatching—Shipment of Trout Eggs Received

OLD SCOW USED TO DISTRIBUTE FISH

Equipment for Hatching Was Explained—Carrying Cases Shown

On Thursday afternoon the pupils of the entrance class at the Central school, with Mr. S. A. Macdonald, went down to the fish hatchery to look over the equipment and see it in operation.

Along one side and one end of the building is a long row of glass jars fed by constantly flowing water from a control flume.

Mr. Robertson says that whitefish eggs generally hatch well, and he told the visitors that eggs of this variety had been brought to B.C. from Lake Erie, requiring that they be a week out of water, and yet had hatched well.

Scow for Distribution Outside, moored to the shore, was the scow used for distributing the fish in the lake, and the pupils went down to look at it.

Benefit to Members The directors, through their secretary, Mrs. M. L. Murray, 511 Province Building, Vancouver, B.C., have made arrangements to give Institute members the benefit of wholesale buying in equipment.

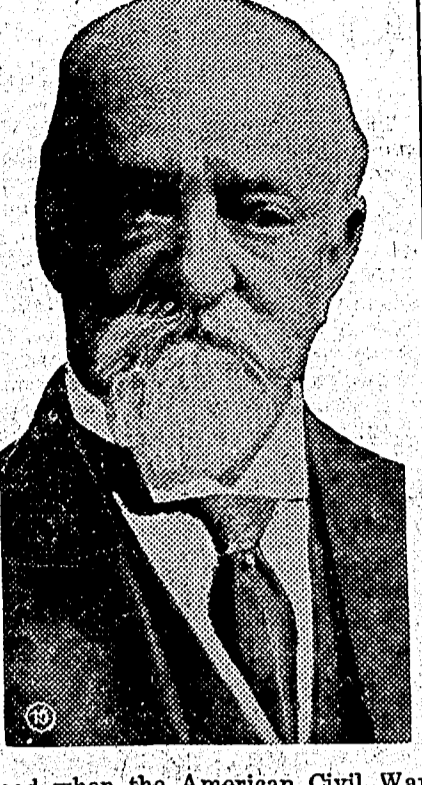

The directors have copyrighted the rugs under the name of "Chinook Rugs". Before doing this, they secured from the Canadian Handicrafts Guild in Montreal the permission of acceptance, so that when rural women of British Columbia who make a good specimen and desire to sell it, a market for them can be found through the Guild or any of its branches.

CAME TO WARMER BELT Princeton—Angus Nicholson, after spending a few days in town, following his winter residence at Copper Mountain, which the snow from his galoshes Monday morning and left on the only train for Princeton, where gentle spring is reported to be already in full swing.

MERRA, George and Donald Ross accompanied their mother to Vancouver, leaving on Tuesday. They came in on Monday's boat.

Grand Old Man of Finance Passes

The late Mr. Isaac Gougeon, Vice-President of the Canadian Pacific Railway, who died Saturday, February 4, in his 84th year, was born in New York on October 10th, 1844.

Mr. Isaac Gougeon

roll of the Company from the start and who had been colleagues of such men as Mount Stephen, Van Horne, Angus and Shaughnessy. Under his guidance, and under the leadership of the Canadian Pacific grew from a strength of just six clerks to that of more than 900.

Long after he had passed the seventieth milestone, Mr. Gougeon remained at his work, "the youngest man," as many people said, "in the entire Company."

Financial Help Coming Soon For Water Districts (Special to The Review) Victoria, Feb. 24.—"This is not a Christmas box, but an act of necessity," declared Hon. T. D. Pattullo, minister of lands, in moving the second reading of the Water Act in the Legislature.

PLAYOFFS ARE GETTING NEAR SEASON FINALS

Good Progress is Being Made in Basketball Leagues

Kelowna—Interior basketball playoffs under the direction of Corporal O'Reilly of Penticon have made considerable headway during the past week, and the finals in all divisions will be well under way before the end of February.

POWER SHOVEL LANDED HERE

Put to Work on Lakeshore Road Near McDougald Wet Slide

On Tuesday morning a new gas-powered shovel arrived at the C.P.R. dock here, for the work on the lakeshore road. It will be used to facilitate clearing away the frequent small slides and road widening.

COUGARS STROLL INTO ROSSLAND

Two Big Cats Are Seen in Streets of Kootenay City

Rossland—Not only were residents of the westerly portion of Rossland put to considerable annoyance, but others as well were made somewhat anxious when it became known to a certainty a few days ago that two monster cougars had wandered into the city near the home of a Mr. and Mrs. Samuel Mason in the westerly portion of the city on Le Roi avenue and were quite bold.

HUGE GRAVEL SLIDE COMES DOWN ON HEDLEY ROAD

Princeton—When loosened from its base by a stream of water flowing along a slab of bedrock, a huge deposit of sand and gravel slid from its resting place about three o'clock Saturday morning, the Hedley road was completely blocked, and Princetonians found a new week-end attraction. Under the direction of P. V. Smith, using a gang of eighteen workmen and a tractor, the road was opened sufficiently to allow for the passage of vehicles by Saturday noon, while by Wednesday it was restored to its old stage. It is estimated that about 1,000 yards of the hillside slid down, the weight being as many tons. This hillside has long been a menace, and further slides are impending.

E. J. CHAMBERS SPEAKS HERE; OUTLINES CONTRACTS OFFERED; LOCAL DIRECTORS ELECTED

Will Anaconda Take Over Hedley Mine?

Princeton—Gomer Jones of Hedley arrived recently from Vancouver, where he reports having spent a most enjoyable holiday. He states that his father, G. P. Jones, intends coming in Monday, and that no time is to be lost, weather permitting, in resuming operations at the Hedley Gold Mine. It is hoped to get started by the first of the month or very shortly afterwards.

### PEACHLAND IS NOW SHUT OFF

#### Up-the-Lake Town Finds Its Roads are Blocked

Peachland, Feb. 23.—The C.N.R. showed pictures of different places and scenes on its route, at the Municipal Hall last Thursday. A good crowd attended and everyone enjoyed the beautiful pictures.

A special programme was arranged for the Sunday evening service in the United Church. A few selections of music were supplied by the Trail Rangers and C.G.I.T. There were also solos by Miss Edna Cudmore and Clarence Margerison.

Mr. and Mrs. Sutherland of Penton came up to visit Mrs. Sutherland's parents, Dr. and Mrs. Buchanan.

Mr. J. F. Hampson, proprietor of the Edgewater Inn, is improving the building by extending the veranda and other changes.

The fifteenth annual meeting of the Peachland Fruit Growers' Union was held in the Municipal Hall at Peachland on Monday, February 20, with Acting President Trimble in the chair.

A fair representation was present. The Associated Growers of B.C. Ltd. was represented by Mr. E. J. Chambers, president and general manager, who gave a very comprehensive review of the activities of the Associated Growers and the Canadian Fruit Distributors.

The financial statement was read and discussed and finally adopted. The election of officers for the coming year was postponed until April 2, when it was thought the Union would be in a better position to judge by the number of contracts which will have been signed, as to their ability to elect directors.

A hearty vote of thanks was tendered Mr. Chambers and the meeting was adjourned until April 2.

A meeting of the Board of Trade was held in the Municipal Hall on Monday, February 20.

Owing to the illness of Mr. George McEan, the vice-president, Dr. Buchanan, took the chair. A large delegation was present from Westbank. The meeting discussed the condition of the road on the west side of Okanagan Lake. There are several slides south of Peachland and the road at Hardy's Lake is impassable on account of water from the lake.

An urgent telegram was sent to Hon. Dr. Sutherland stating that Peachland was shut off from the outside by road both north and south, and asking for his assistance.

The meeting was adjourned until next Monday, February 27. The business will be the election of officers for 1928, and action as to the completion of the Glen road.

Mrs. Mellor of Summerland spent Tuesday in Peachland, when she visited friends and also gave an address at the W.C.T.U. meeting.

Mr. H. E. Trimble met with an accident while cutting wood in the bush. The axe glanced off, cutting a three-inch gash in his leg. Dr. Buchanan dressed the wound.

Mrs. M. M. Morrison arrived home Tuesday evening after a month's visit to Vancouver. She was accompanied as far as Kelowna by Mrs. C. Aitken, who reports her son Ernie improving from the effects of his accident.

The W.C.T.U. observed Frances Willard Day on Tuesday, February 21, in the basement of the Baptist church, when the following programme was carried out: Solo, Mrs. Pollett; recitation, Mrs. Sadler; duet, Masters Billy and Ronald Pollett; address, on Frances Willard, Mrs. Mellor of Summerland; the "Windmill Chorus" by nine members of the L.T.L.; recitation, Mrs. Sommerville; solo, Miss Edna Cudmore, and recitation by Miss J. Macdonald. There were over fifty in attendance. Dainty refreshments were served.

### CONCERT GIVEN AT NARAMATA

#### Penticton Music Teachers Offer Entertainment up the Lake

#### UNITY CLUB PARTY

#### Mrs. D. O. Hughes Hostess At Pleasant Valentine Event.

Naramata, Feb. 23.—The concert given by the Penticton branch of the B.C. Music Teachers' Federation on Thursday evening attracted a large audience, which thoroughly enjoyed the high class programme presented. The selections were all from 16th and 17th century music, and embraced solos, choral, madrigals and motets by Bach, Gibbons, Purcell, Palestrina, Monteverdi and other composers of that period. The growth of modern music was ably dealt with by Mr. G. W. Weaver in a short but comprehensive address, and the various numbers were finely rendered by the vocalists and instrumentalists. Mrs. Smith's violin solo (Sonata, 17th Century) and Mrs. Titchmarsh's piano solo (Andante and Presto, Bach) were warmly received, being of generous length and beautifully rendered. Miss Craig's solo was disappointingly brief, and the same may be said of Mr. Foreman's number. Miss Latimer, Miss Turner, Miss Page were successful in their vocal selections, and the part singing was rendered by Miss Latimer, Miss Turner, Mrs. Titchmarsh, Mr. Weaver and Captain Titchmarsh. Miss Pittblado was an efficient accompanist during the evening. The thanks of the Women's Auxiliary and the Ladies Aid were tendered to the Canadian National Railway for their kindness in changing the date of their picture entertainment, which had been advertised for the same evening, but was postponed for one week through the good offices of Mr. Wiseman.

After the concert the party adjourned to the home of Mr. and Mrs. Rushbury, and enjoyed a delicious supper served by the hostess and members of the club.

**Concert Programme**  
The programme of the concert is as follows:  
Pianoforte solo, Solfeggietto, E. Bach, 1714-1788. Mr. Foreman.  
Four-part choral, That Word Shall Still, J. S. Bach, 1685-1750; five-part madrigal, The Silver Swan, O. Gibbons, 1584-1633. Miss Turner.  
Pianoforte solo, Andante and Presto, (Italian Concerto) Bach, 1685-1750. Mrs. Titchmarsh.  
Vocal solo, I Attempt from Love's, Purcell, 1658-1695. Miss Page.  
Pianoforte solo, Arietta, L. Leo, 1694-1745. Miss Craig.  
Address, How Music Grew. Mr. Weaver.  
Vocal solos, (a) Lasciatemi Morire, Monteverdi, 1566-1650; (b) Come You Not From Newcastle, English folksong, about 1600. Miss Turner.  
Pianoforte solo, Andante and Presto, (Piano Concerto) Bach, 1685-1750. Mrs. Titchmarsh.  
Vocal solo, The Hero I Wait, Lullu, 1633-1687. Miss Latimer.  
Violin solo, Sonata, Valentino, 1681-1737. Mrs. Smith.  
Two- and three-part motet, Ave Verum, Josquin de Pres, 1440-1521; four-part motet, Adoramus Te, Palestrina, 1524-1594. Miss Latimer, Miss Turner, Mrs. Titchmarsh, Mr. Weaver, Capt. Titchmarsh.  
God Save the King.

**Unity Club Valentine**  
The Unity Club was the scene of a gay party given by Mrs. D. O. Hughes on Tuesday, when over forty guests responded to her invitation, and made a brilliant gathering in masquerade costumes of many styles and colors. Valentines were represented by Mrs. J. A. Noyes, Mrs. J. Hoop, Mrs. E. Hoop, Mrs. L. Hoop, Mrs. E. Baker, Mrs. Ruth Rounds, Mrs. E. W. Hughes, Miss F. Lyons and Miss M. Young; Mrs. J. O. Noyes, Mrs. G. Gray and Mrs. Leslie Smith came as Japanese ladies; Gipsies were personated by Miss J. Gray, Miss Alice Noyes and Mr. F. H. Hughes; the Pirate fraternity was ferociously represented by Messrs. Kenneth McKay, Leslie Smith, F. Baker and H. A. Partridge; Mrs. Kenneth McKay, an attractive Pierrotte, Miss Lillian Raitt appeared as an old-fashioned lady, Miss N. Rushbury in a Chinese costume, Miss C. Kennedy in Spanish dress, while Miss V. Partridge as Sunbeam and Mrs. T. Scallo as Daisy were logical attendants of Miss Alice Cross as Spring. A clown, Mr. T. Scallo; a Dutchman, Mr. W. Bailey; Little Lord Fauntleroy, Mr. G. Raitt; a sailor, Mr. C. Kennedy; a Kiltie, Mr. L. Williams; a Mexican, Mr. D. Sullivan; a clergyman, Mr. Len Smith; a Cook, Mr. N. Hitchell; Pierrot, Mr. V. de Beck; a Sheik, Mr. A. King, and a Nihilist, Mr. B. Oryall, completed the cosmopolitan assembly, received by the hostess as Dresden China. Songs, monologues, dances, Gipsy readings and games were the order of the evening, followed by a grand march from the club to Mrs. Hughes' home, where supper awaited the guests. Appropriate decorations embellished the club house and completed the prevailing Valentine atmosphere.

Mrs. W. J. Coloman of Calgary arrived in town last week.

The members of the Ladies' Aid held a Valentine sale on Tuesday at the home of Mrs. A. G. Lyons, and drew a large number of friends.

Mr. C. H. Jackson, C.A., of Kelowna, is a visitor this week on audit business.

The regular meeting of the Women's Auxiliary was held on Friday at the home of Mrs. Geo. Cook, Mrs. R. E. Ganman being hostess.

**Organizers Predict Election Very Soon**  
Rossland—Two organizers of the Liberal party in British Columbia, Charles Wallace and F. Irackon, of Vancouver, and Kenneth Campbell of Nelson, were in the city last Wednesday evening in conference with Liberals of Rossland as regards the forthcoming election, which the Liberals here were given to understand will come soon after the present session is ended.

### THIS GREAT HEALING OIL MUST SPEEDILY BRING COMFORTING RELIEF TO TIRED, ACHING, SWOLLEN FEET

#### Or Your Money Back—That's the Plan on Which Moore's Emerald Oil Is Sold by All Good Druggists.

This wonderful preparation now known all over America as Moore's Emerald Oil is so efficient in the treatment of inflammatory foot troubles that the unbearable soreness and pain often stops with one application. Moore's Emerald Oil is safe and pleasant to use; it doesn't stain or leave a greasy residue. It is so powerfully antiseptic and deodorant that all unpleasant odors resulting from excessive foot perspiration are instantly killed.

Be patient; don't expect a single bottle to do it all at once, but one bottle we know will show you beyond all question that you have at last discovered the way to solid foot comfort.

It's a wonderful formula—this combination of essential oils with camphor and other antiseptics so marvelous that thousands of bottles are sold annually for reducing varicose or swollen veins. All druggists sell lots of it.

### ROSSLAND HAD 10 FEET OF SNOW

#### Heavy Fall of 'The Beautiful' This Winter in Kootenays

Rossland—Rossland had an unusually heavy snowfall this winter to January 1, according to W. H. Reid, who maintains government records at his home in the South Belt, the fall to February 15 of this year, since "the beautiful first put in an appearance, being 122 inches.

As compared with late years, the fall of snow this winter was unusually heavy, but the adoption of up-to-date snow removing methods by both the city of Rossland and provincial government has made possible the keeping clear of the snow off roads and streets very satisfactorily during the winter, autos being able to navigate all the principal streets of the city and roads entering the city with the exception of the Rossland-Cascade link in the Trans-provincial highway out of Rossland and the road to Pater-son, the work of clearing the latter road of snow having been going on of late and success being attained to the point that some autos have already made trips to the south and some from the south into Rossland.

The total snowfall of last year was 72 inches.

### Work is Started Upon Dams for New Shuswap Falls Electric Plant

#### Vernon—Construction of the coffer dams, to divert the waters of the

Shuswap River, has commenced. This marks the commencement of the actual construction of the power plant for the West Canadian Hydro-Electric Power Corporation Ltd., which is to supply Vernon and other Okanagan Valley cities with power and light. Provided there are no unforeseen developments or accidents, the power will be delivered in October as per contract.

Engineer Burdick who went up to the Falls on Wednesday, states that he is well satisfied with the progress which has been made and that conditions on the river are about what they expected. Three carloads of cement have been hauled in from Lumbay and are now on the ground. A gravel pit has been opened up within a few hundred yards of the dam site and proper screens placed there. The lumber needed is at hand and rapid progress will be made.

Ramsay & Smith have the contract for rock work and tunnel construction, and will push it to completion. Construction of the camp has been completed and at the present time 65 men are engaged on the work.

From Vancouver and Coast—7:15 a.m. daily except Monday.  
From Penticton, K.V.R. and Boundary—11:30 a.m. daily except Monday.  
From Steamer Sicamous, southbound—7:40 a.m. daily, except Monday.

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes and which is not timber land, i.e., carrying over 5000 board feet per acre west of the Coast Range, and 6000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating, at least five acres before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land, \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

### LEASES

For grazing and industrial purposes, areas not exceeding 640 acres may be leased by one person or a company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, monthly free permits are available for actors, campers and travellers, up to ten head.

### AN EARLY BANK OF MONTREAL "TOKEN"

FOUNDED before Canada had any currency of its own, the Bank of Montreal early obtained authorization from the Government to issue copper tokens for small change.

Reproduced herewith are the two sides of the "Bouquet" token, one of the earliest coins issued by the Bank. The intermingling of the rose, shamrock and thistle indicates the three branches of the British people—the English, Scotch and Irish—while the use of English on one side of the coin and French on the other is significant of the mingling of the two races in this country.

"Trade and Agriculture" indicates the early connection of the Bank with both urban and rural life in Canada.

Throughout its long history the Bank of Montreal has always been active in serving the financial needs of all the people.

LAND ACT

Notice of Intention to apply to Purchase Land

In Vernon Land Recording District of Yale, and situate in Garnet Valley, Municipality of Summerland.

Take notice that Robert Shannon of Summerland, B.C., occupation farmer, intends to apply for permission to purchase the following described lands: Commencing at a post placed at the South West corner of Block 3322

thence twenty chains south; thence twenty chains east thence twenty chains north; thence twenty chains west to point of commencement and containing forty acres, more or less.

ROBERT SHANNON, Dated January 10th, 1928.

Word has been received of the birth of a daughter to Mrs. W. J. Mack (nee Marion Beavis) Saturday, February 18.

Mrs. L. J. Gibson came in on Friday from Carnation, Alta., to visit her son, Mr. L. Gibson, and her niece, Mrs. A. MacLaughlin.

The cup won by the Summerland Badminton Club and donated by Johnston's Hardware, Penticton, for competition in the Southern Okanagan League, is in Butler & Walden's window. There were four competitors, Summerland, Naramata, Penticton and Oliver.

Two Summerland boys were debating before the student body on the question of whether an officers' train-corp should be formed in the university. Russell Munn was on the side opposed to the plan, and Wm. Thornber on the side in favor. The students voted against establishing the corps.

Fourteen players from Summerland went down to the K.P. whist drive and dance in Penticton Thursday and enjoyed a pleasant evening.

Dr. Andrew is making good progress toward recovery. It is good news from the hospital Friday morning.

St. Andrew's Hall has been finished up inside by the young folks of the church. The improvements make quite a desirable change in the hall.

The Pentowna, in crossing to Naramata on Monday, had to go north against the wind for an unusually long distance. The waves were quite high on the east side of the lake, and the wind decidedly strong.

The Co-operative shipped a car of apples, mostly Newtowns, to Calgary, on Monday. There are about four cars yet to ship from the packing house.

You can be sure of skating Friday and Saturday.

Mr. G. W. Cope, after reading the report of the high school concert, felt some people might consider he had done most of the work and he wished that the work of Mr. Capel and Miss Paradis might also be recognized, for they had put a great deal of effort into the preparations.

A sleigh driving party greatly enjoyed a trip on Friday last up to F. Monroes, at Mineola.

Mr. H. D. McIntyre returned on Sunday from the Coast, where he had been attending a meeting of the Orange Lodge.

About twenty whistling swans were seen on the lake on Tuesday by Mr. Cecil Cope. The trumpeter swans from the lake south of here have disappeared and are being anxiously looked for.

Mrs. Aransson arrived on Friday to join her husband and daughter here. They will remain in Summerland for another month at least before returning to their home in Alberta.

Mr. J. C. Robson and Rev. T. W. Reed went up to Armstrong on Tuesday morning to attend a meeting of the United Church there.

Mr. Dick Spinks left for Trail on Sunday, where he will take up work in the Bank of Montreal, having been transferred from the branch here.

ROBERT SHANNON, Dated January 10th, 1928.

SUMMERLAND MAN PRAISES GRAND FORKS TOBACCO LAND; GROWING SEASON FAVORABLE

Grand Forks — There was quite a large turnout of ranchers at the meeting of the Farmers' Institute, held in the Community hall, when A. J. Mann, assistant superintendent of the Dominion Experimental Station at Summerland, gave a very interesting discourse on the subject of growing and curing tobacco.

In the course of his address Mr. Mann briefly spoke on some of the historical aspects of the tobacco trade in the old world, and on the various cultural operations involved in the growing of a tobacco crop. He compared the average mean temperature for the last ten years of Grand Forks and Summerland, and showed that as regards temperature during the growing season that the Grand Forks district compared very favorably with Summerland. Some aspects of the tobacco industry in B.C. from a commercial and experimental standpoint under the headings of "what has been done"; "what is being done"; and "what of the future?" were discussed.

The speaker also dealt with some of the marketing difficulties which are confronting Ontario growers today and of their recent mass meeting which was held in Chatham, Ontario. As a result of this meeting there is a probability that the Ontario tobacco growers may form a tobacco marketing pool, which in time may include all the tobacco growing districts and operate throughout the entire Dominion. At this time one thing is quite certain. British Columbia tobacco industry depends in a very large measure on the quality of leaf which is produced. There is today practically no demand on the world's markets for poor quality leaf. The trade wants a dependable uniform supply of high quality leaf and in good volume or quantity.

Mr. Mann was of the opinion that the irrigated valleys of the southern interior of British Columbia have a climate and large areas of soil quite suitable for the production of this quality as desired by the trade. Experiments which have been conducted with the culture of tobacco leaf during the past three years throughout the southern interior of British Columbia have indicated that with suitable soil, good cultural care, adequate equipment and proper curing methods that economical yields of good quality leaf can be produced.

At the present time the Dominion Experimental Station at Summerland has tobacco projects in progress

which include a general varietal test, quality and yield of leaf as influenced by maturity, quality and yield of leaf as influenced by spacing, cost of production studies, seed production and study of diseases of the tobacco plant. This coming year it is planned to initiate further experiments with the culture of tobacco to include duty of water, manures and fertilizers, and the culture of bright tobacco leaf. The varieties under test include four Turkish, six Burleys, three cigar binders, three Virginias and one Green-wind. These varieties represent five different types of tobacco leaf.

Samples of Grand Forks Tobacco Samples of tobacco leaf which were grown in the Grand Forks district during the past season were shown at the meeting. The size of the leaf indicated that a yield of approximately 1,500 pounds of cured leaf per acre had been produced — this is a fair yield per acre. The leaf was of medium size, medium in texture and body and with good elasticity. The quality of the samples indicated that with good cultural care, adequate equipment and proper curing, that large yields of fine quality leaf may be grown in Grand Forks valley.

Samples of each of the Connecticut Havana and Burley leaf which were grown in the Grand Forks district this past season by the Riverside Nurseries are being shipped to the tobacco division at Ottawa, where very thorough quality tests will be made of the leaf. From the field which grew these samples of tobacco leaf, soil samples will be taken for mechanical analysis. The results of these tests will not be known until probably about mid-summer.

The Summerland station is prepared to supply a small quantity of tobacco plants of different varieties and types for test in the Grand Forks district this coming season, and if possible will try and examine the test plots at least once during the growing season, probably about harvest time. Mr. Mann also touched on the cost of production studies which were conducted by the Summerland station in the district of Kelowna in 1926, and which are given in the report of the tobacco division for the year 1926. These production costs are especially recommended for study by prospective tobacco growers. Plans of tobacco curing barns which are recommended by the Summerland station may be obtained on application to the Department of Horticulture, Victoria.

GROWING PROSPERITY OF CANADA IS REVEALED BY TRADE FIGURES

The investment situation in Canada in 1927 was very interesting as disclosing the increasing prosperity of Canada and the maintenance of confidence in her future on the part of the people of the Dominion and other countries. Canadian bond sales in the past year totalled \$616,464,000, or to the compilation of A. E. Ames & Co., or substantially greater than in 1926 or 1925. Of the total, \$154,920,500 were Government securities; \$78,481,833 municipal bonds; \$303,062,067 corporation bonds; and \$80,000,000 securities issued by railroads.

The gratifying feature in reviewing the year's bond sales is to find that Canada was again the largest purchaser of her own securities, once more exceeding the United States in spite of the very heavy flow of investment funds from that country. The Republic's faith in Canadian future is evidenced in the fact that Canada was far and away the biggest field for United States investment in 1927, according to the estimates of New York financial houses. In 1927, according to one of these, the United States loaned abroad a total of \$2,000,193,500, a record for one year and about 13 per cent. greater than 1926. Of this sum, \$475,453,200, or over 23 per cent., was invested in Canada, as against \$858,310,000 in the whole of Europe.

Absorbing ability of Canada to absorb her own bonds has been a feature of the past few years as the energetic efforts of the post-war period bore fruit in greater prosperity for the Dominion and its people. In 1927 Canada purchased of her own bonds to the extent of \$305,161,186 as compared with \$300,304,547 by the United States and \$10,089,667 by the United Kingdom. In 1926 Canada purchased of her own bonds to the value of \$249,056,337 as against \$300,042,257 by the United States. In 1925 Canadian purchases were \$246,870,710 and those of the United States \$218,520,000. In 1924 Canada took up her own issues to the extent of \$372,051,122, or 63.64 per cent. of the total, while in 1923 she also bought the bulk of her own bonds.

Nor is Canadian investment confined to the Dominion, but money is periodically moving to other countries to finance various enterprises. While it is roughly estimated that Canada has drawn \$5,300,000,000 of foreign capital to her she has also invested \$1,200,000,000 of her own funds in other countries. Some of this is in companies either controlled by the United States or with a large American investment interest in them. Others are jointly controlled between the United States and Canada and operating in both countries. The majority, however, are companies controlled in Canada that either operate branch factories or other enterprises in the United States or in some other way represent a large Canadian interest in the United States. In addition, Canada has some large investments in South America and other countries.

Improving Her Position Canada has been steadily consolidating her financial position since the war. In 1913 the Dominion held only about 40 per cent. of her own Government and municipal bonds, whereas at the present time she holds over 70 per cent. United States investment in Canada in the period has been most voluminous, but the Dominion has increased the purchases of her own securities by an amount almost equal to this.

How she has been able to do this is indicated in the series of annual increments in the value of production since 1923, making for increased buy-

ing power and surplus funds. The value of production in Canada, comprising agriculture, forestry, fishing, trapping, mining, electric power, construction and manufactures, in 1923 was \$4,946,000,000, in 1924 \$5,263,000,000, in 1925 \$5,599,000,000, and in 1926 \$5,656,251,624, while in 1927 it is estimated at \$5,755,796,700, or approximately \$100,000,000 more than in the previous year. The value of production in 1927 was \$809,000,000 more than in 1923.

Canada has worked energetically and steadily to overcome the handicaps resulting from her participation in the war, and it is gratifying to note the reward of such effort. Youthful and with her wealth of resources barely tapped, Canada is a wealthy nation. Considering she has but finally emerged from the depression and in the opinion of industrial and financial leaders is on the threshold of an era of unparalleled development, the future holds boundless possibilities for her and her people.

BEST NEWTOWNS IN ALL WORLD GROWN HERE

Mr. Charles Lowe, manager of the Pacific Coast, and Mr. Taylor, managing director of Messrs. J. & H. Goodwin Ltd., of London, visited Mr. M. G. Wilson on Wednesday and made arrangements with him to finance growers' supplies during the coming season. These gentlemen feel certain there will be a colonial preference in Great Britain in the near future and are desirous of opening direct relations in this section as they believe that we grow the finest Yellow Newtowns in the whole world, not to speak of other varieties.

The firm of J. & H. Goodwin are the largest importers of fruit and have warehouses in every large port in Great Britain, handling apples from every country in the world which has them to export.

OPENING THE DOOR. WAY TO CRIME In the Endorby Commoner, the following interesting comment appeared last week:

One cannot study the Hickman crime and ignore the step leading to it. There was a time in that young life. There was a time when he was a degenerate life when he was a brave and true, as a clean era was in his child and son.

What was the first step leading to Hickman's downfall and the downfall of his 16-year-old companion in their crimes—Hunt? We do not know. But we can surmise.

It was not taken by either of the boys. It was taken by the father or mother or each of them. Upon their

Crisp, Frosty Mornings Suggest Pancakes. Order some for Sunday's breakfast, and be sure to have some Syrup in the house, or you and the children will miss a great treat. We have several gallons of Pure Maple Syrup direct from Sutton, Quebec, which you will find ideal for spreading on the pancakes.

GIVING B.C. A CHANCE. Tariff concessions of fruit and vegetable growers are forecast in the Dominion budget. These seasonal changes would be in the form of higher duties against United States products, it is assumed.

That is good news for British Columbia farmers, and they will welcome it. Consumers, looking for best values and quality in fruit and vegetables regardless of their origin, may not be so unanimous. But will they have just reason to protest? That is the challenge for the growers themselves.

Prosperity for B.C. farmers means larger payrolls and more money in the banks. Even if tariff concessions keep the fruit prices a little higher, they should be no complaint, if there is more money in the family budget to pay for them.

The argument is, of course, that United States can ship in cheap fruit and vegetables and swamp our markets. But it is more of a confession than an argument.

Our climate equals that of Pacific Coast cities. Labor is no more costly and land is cheaper. With adequate assurance of a market, equitable shipping rates and efficient marketing machinery, there is no reason why B.C. consumers need fear protection.

The important thing is to prove that protection is not needed. British Columbia's marketing act is the first phase of a province-wide movement to do that. It is far from perfect, but experiment is the only way to find out.

The ideal future for the marketing act would be to build up its weak points, prove that it can really safeguard prices, quality and markets alike, and then release it to the growers themselves to be operated on a pool basis, affiliated with other Canadian organizations.

Thus the co-operative principle would be linked up in a solid chain from Ontario to the Coast. Something similar to that is going on south of the boundary, where government marketing control is taking shape gradually under the guise of farm relief.

Fruit and vegetable tariff concessions are a means, not an end. They cannot create independence in themselves, but they can point the way for growers to build up their own supremacy.—Farm and Home.

Eastern Brook Trout Are Caught in Lake Kelowna—It will be of interest to local anglers that Mr. J. C. Clarence, of Okanagan Mission, reports the capture by him and his son of two Eastern brook trout in Okanagan Lake.

CHANGING SCHOOLS

There are two reasons why there may be more than ordinary interest in the future programme of Summerland's High School...

For several years past but few from here have gone on to university. There may be explanatory causes for this situation.

Those interested in this latter group have been calling for some consideration lately, because they are personally interested in the education of their own children...

Consequently the Junior High School with its 6-3-3 programme is being discussed by many of our citizens and Summerland will one of these days be interested enough to investigate the plan and see how it effects the community as a whole.

Technical schools, except in the larger cities, find they have a hard proposition before them. They are very expensive to operate...

If Summerland ratepayers think that the new idea will be cheaper to operate, we rather fear they have a surprise in store.

A note in the Annual Report of Public Schools which has just been issued deals with this subject and what is written there will be of interest to Summerland. It reads:

During the year a programme of studies was prepared for Junior High Schools, four of which schools are now in operation in the province.

H. B. Fitch, M.A. Some Junior High School work was undertaken last year in Point Grey under Principal Allan Bowles...

The committee, which acted with the Superintendent of Education in framing the curriculum comprised the principals of the Junior High Schools; the High School Inspectors; Mr. W. K. Beech, Principal of the High School of Commerce, Vancouver; and Mr. Virgil MacLeod, Principal of the North Vancouver High School.

It is well, however, that Boards of School Trustees should not rush hurriedly into the establishment of junior high schools. They should make sure that they already have in their service or can secure principals and teachers who understand the junior high school ideal...

BEATING THE SLUMP

There are two recognized dull seasons every year in business activities, and to many these have become real times for worry, but by the alert they are met with a most aggressive front and turned to good account.

Midsummer is one of these occasions, and January and February the other. We have recently had a most forceful demonstration of how the department stores have met this situation in the cities at the coast.

It is not reasonable to suppose that at these sales everything is offered at an absolute bargain price, and yet because they are freely offered, in order to move out the small unsold surplus of many lines, a great deal larger turnover of staple goods is naturally secured.

The moral is obvious. The practice is general among the leaders in business life where competition is keenest. By the application of the principles behind productive advertising, these merchants are annually able to avoid the dull seasons.

It is only a short time since one wide-awake community, stagnated by the depressing acceptance of the belief that "January has always been a dull month, and will be this year", took the challenge and stepped out determined to make things live up!

Advertising has in it a genuine relief from a tendency towards stagnation. It can put a pulse of life into any period of depression and can, when systematically used, keep business moving in other than erratic rushes.

The New Chevrolet Is Here!

A Public Presentation of the New CHEVROLET will be given at the ARENA, PENTICTON, by representatives of the Chevrolet Motor Company, on THURSDAY, MARCH 1st, at 2:30 o'clock and in the evening.

Music and entertainment will be provided—also an exceptionally fine motion picture entitled "BEHIND THE CHEVROLET." The picture and lecture will begin at 8 p.m. Dance and refreshments will follow. All are invited. Admission FREE

CORRESPONDENCE

FROM MRS. FOSBERRY

Editor, Summerland Review: May I thank you for the delicious column in your last issue in which the Okanagan is represented as peopled by simple peasants incapable of lifting a hand to save themselves from starvation...

The article quoted is one of a series of journalistic lies which, travelling east, west, north and south in the course of the past few years, have given to thousands who do not know the facts, a false and damaging impression of this valley.

No one will question that Mr. Logie (not being a "comrade" I still adhere to the older form of address, or at least do not use the new promiscuously intended, when with the assistance of a hard-working and self-offering committee the local branch of the B.C. Art League was launched, to help somebody or some body, that the result has been a publicity desirable for that body and eminently undesirable for the valley as a whole...

It is hard to catch up with a lie; and a journalistic lie is a difficult customer to deal with for it is a curious and interesting manipulation of truth. Throw a lump of fact on the wheel of imagination, mould it with careless hand, and a top-sided monstrosity is easily and sometimes inadvertently produced.

Through some may hold the view that the articles misrepresenting the situation are beneath notice and that truth will in time prevail, it is the opinion of others that truth's victory might be hastened by the assistance of reputable journalists who have, or

TEST PLOTS AT FARM SHOW TOBACCO OF GOOD QUALITY

A. J. Mann Discusses Progress Made During Past Season Several Months Yet Before Tests Are Finally Complete

Vernon—Two addresses on tobacco were given in Vernon over the week-end, by A. J. Mann, the expert of the Dominion Experimental Farm, Summerland. The first was given at a gathering of about 80 persons in the Court House, on Friday evening. This was called by A. T. Howe, president of the Vernon Tobacco Growers' Association. The other was given to the Rotary Club of Vernon at the Kalmuk Hotel at noon on Monday.

Mr. Mann states that last week at the Dominion Experimental Station at Summerland, project work for the Vernon district was completed. During the past summer and fall, 11 varieties were grown on bench land and on low land located on farms 4, 8, and 10 miles from this city. The varieties tested were six of White Burley, two of cigar binder type, two of Virginia and one Greenwood. In the 11 varieties were four types of tobacco leaf. The field growth made indicates that with good cultural care, and suitable curing barns, good crops of tobacco leaf can be grown in the Vernon district.

The quality of the leaf shows promise, how much promise cannot be determined at this stage of curing. From the 11 varieties tested in the Vernon district this past season, 34 10-pound samples of leaf are now on route to Ottawa where the most rigorous quality tests will be given it by the Tobacco Division, and also by the "Quality Shows Promise" section.

In the experimental plots at Summerland, cigar binder types of tobacco were grown on the bench lands and White Burley on the low lands. The bench lands had a northern slope. The lands were given three or four medium irrigations. No fertilizer of any sort was used. The yields recorded on measured lands, are much higher than are grown in Ontario. Mr. Mann points out that they would need to be on an equal profit, owing to irrigation costs. Yields are given in pounds for 1927 and when possible the average for two or three previous years:

Table with columns: Yields at Summerland, Ave. Yield. Rows include Bright Types, Hester, Warner, Hickory Pryor, Cigar Binder Types, Con. Havana 38, Comstock Spanish, Dark Fired Type, Greenwood.

Table with columns: White Burleys, Holley, Judy's Pride, Resistant, Broadleaf, Station Standup, Kelly. Rows include Yields at Benvoulin, Bright Types, Warner, Hickory Pryor, Cigar Binder Types, Connecticut Havana 38, Comstock Spanish, Dark Fired Types, Greenwood.

Regarding the bright types of tobacco, which are used for making cigarettes, Mr. Mann told of the export ones in Ontario. In fire curing this tobacco, the growers use immense quantities of hardwood, in his opinion it would be most difficult to secure the proper sort of wood in this province and while Greenwood might do well on some soils here, he advised the growers to insist that if their contracts call for this tobacco, it must be paid for at a satisfactory price for air cured.

There was some mention of the difficulty which apparently exists in disposing of the crop grown during the past season. Definite news is expected this week. Eastern firms who might have been interested have been advised the crop was contracted for. If there is no satisfactory news without further delay, negotiations will be opened up with them.

There are nine physiological troubles already noted in the Okanagan. Three of these are serious. Three have been found on the low lying lands at Kelowna and, so far, one at Vernon. After the crop is cut there are four troubles which may develop in the curing sheds. Some of these difficulties are

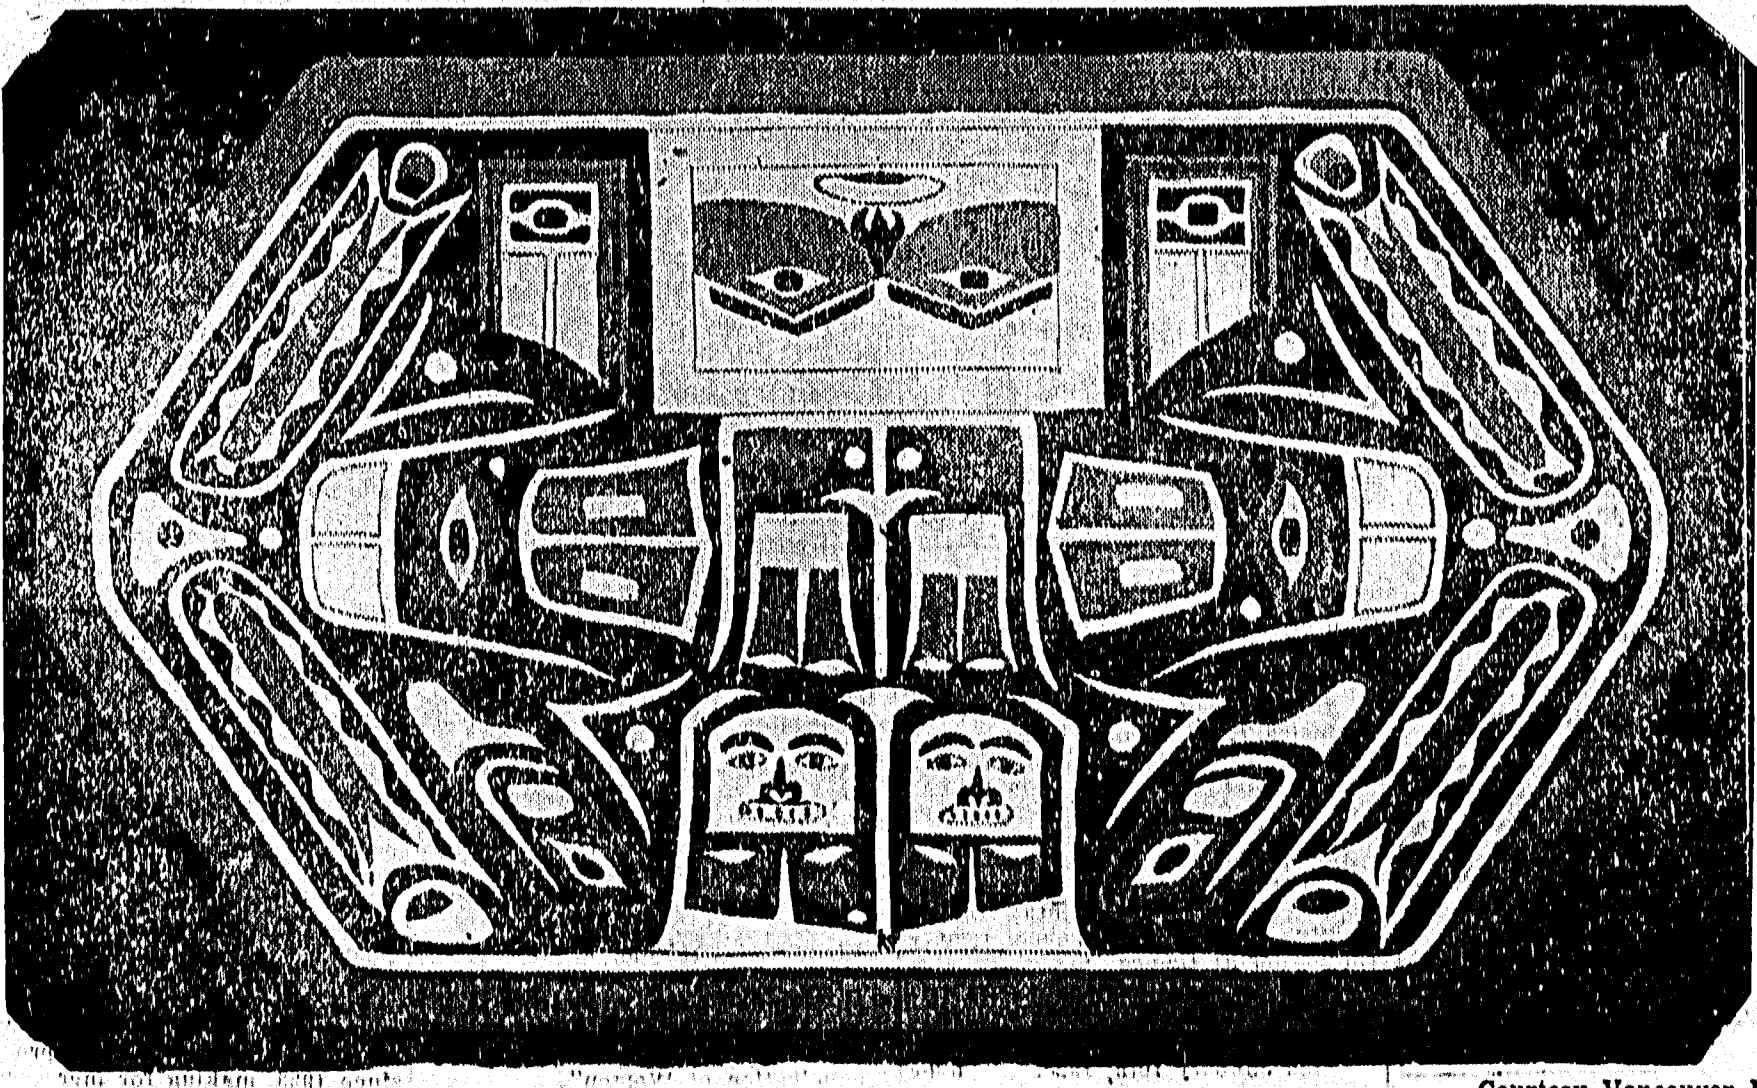

controllable, others are not, so far. While it is true that some fine results have been achieved in growing tobacco, it should be remembered that, in the early stages of an industry such as this, expenses are unduly high. That crops may now be produced at a profit gives great promise for achievements when experience has been gained.

One of the things Mr. Mann stressed is the need for tobacco planters. Planting by hand is not nearly so good. The machine planting gives the plants a splendid start. There were various statements as to costs though it was agreed to be not more than a hundred dollars. At the close of each address Mr. Mann made an appeal for good cultural care, and for proper barns for curing, and planting machines.

GOOD CATCHES AT VERNON Vernon—The local anglers had a good day on Sunday, many silver beauties being landed. The big one came in on the job of E. J. Cooke, it being over eleven pounds. D. S. Shillam and J. Child landed a couple, eight and seven pounds, and there were lots of smaller ones.

Polly: "What does your husband like to eat?" Dolly: "I don't know; I must ask him some day."
