

# Third Musical Festival at Kelowna is Great Success; Local Entrants Win Honors

**Review Contributor Scores Judging of Various Singing Classes INTERPRETATION AND COLOR ARE IGNORED? Great Emphasis Placed, Says Writer, On Many Minor Details**

Thursday morning, April 26, witnessed the start of the third annual musical competition festival at Kelowna, and the Scout Hall was the centre of activity which attracted early comers eager to pit their skill against others of their age and class. The first session was in a sense unofficial, and had been added in order to avoid the extreme lateness of the Saturday evening programme. The class for pianists of 16 years and under was called first, and eleven entrants competed for the honor of being chosen as finalists. This was followed by violinists of 18 and under, but owing to the difficulty of the selection, only two entries were received.

The adjudicator, Dr. Rogers of Vancouver, commented on the severity of the test, and while he commended the competitors for their courage in trying a composition so much beyond them, he could not justly make any award. As this matter of difficult test pieces came up several times during the festival, one instance being especially glaring, it might be in order to state that the Pentiction representative, with the support of the local committee, opposed the adoption of the Vancouver syllabus on this very point, the conditions in the Okanagan Valley being quite different from those obtaining in large centres. The central committee, however, held to the view that Vancouver could make better selections than valley musicians, and Pentiction objections were therefore over-ruled. This will be referred to later.

**Afternoon Crowd Was Large**  
 The audience on the first morning was somewhat small, but the afternoon attendance crowded the hall to capacity. Mayor Sutherland was in attendance, and gave official welcome to competitors and visitors from other points, and at 2 p.m. the piano-forte duet entries for 16 years and under were called.

The selection chosen was well within the capacity of children of that age, but was not particularly interesting from the listener's point of view. However, concerted playing is of value in the training of pianists, and those competing felt that they had gained in experience.

The next class was a duet for soprano and contralto, and in this number Miss C. Price and Mrs. F. Pryce, of Pentiction, were awarded second place against some excellent singers from other points.

Following the finals of the morning piano class, a lovely Purcell song was given by a number of mezzo-sopranos, and here an uneasy feeling that had been creeping over some of the local people began to take definite form. It was felt that while the instrumental decisions were apparently technical details, still the awards were reasonable and just, and there was no fault-finding with the verdicts.

In the vocal decisions, the merest trifles were picked out for a carping sort of criticism, while the general phrasing and artistic effect were ignored—perhaps not even recognized.

As an instance, in the mezzo-soprano class, one competitor was placed low because she had slightly broken a phrase as a result of nervousness. But in the next class, the duet for tenor and bass, one of the singers undoubtedly skipped four entire bars, and yet that couple gained second place. Here also, in the mezzo class, it appeared that a colorless type of voice and expression was favored rather than a vital rhythm with an appreciation of the poetic as well as the musical content. In the tenor and bass duet there was some of the competitor, and Samsen was somewhat gentle and indylike in his delivery. There was a strong reminder of the "Midsummer Night's Dream" character, Bottom, who said "I will rear you as gently as any sucking dove."

There would have been the opportunity for an adjudicator with a full knowledge of vocal possibilities and oratorio requirements—especially in recitative, to have given some valuable advice on declamatory singing, but this was not done, although several couples offered good cause.

The final decision went to Messrs. Newton and Davis of Summerland, who were given a fine margin over their three competitors. The class in piano-forte sight-reading was added after the printing of the programmes, and three Pentiction girls entered at the last hour to provide competition against two from other points. The test piece was fairly stiff, but quite reasonable, and in the decision the second place was won by Sheila Audley, of Pentiction.

**On Thursday Evening**  
 The evening session attracted a large audience, and five interesting classes were heard, commencing with an open class for piano sight playing. Then followed a fine composition by Elgar for contralto voices, and in this class Mrs. F. J. Pryce, of Pentiction, who was in excellent voice, won first place with a good margin against ten other competitors. This was one of the very few classes where full tone and vitality of performance were favorably considered.

The mixed choirs of adult voices were represented by two competitors only, Pentiction United Church having been unable to gather its forces for a mid-week session. The singing in this class was not of the best, but interesting as showing the difference in interpretation employed by the conductors.

Another instance of the poor choice of test pieces was the class that followed, this being the open class for pianists. The selections were too difficult for the average amateur of the smaller towns, and this was commented on by the adjudicator, who praised the players for their courage in making the attempt, and in order to encourage their future work gave both entrants high marks. This differed very much from the treatment accorded the violinist in the morning, who was "encouraged" by low marks. Why the difference was made was not stated.

Two entries were received in the mixed quartette class, and this event was won by a Pentiction group consisting of Miss F. Latimer, Mrs. F. J. Pryce, Rev. A. E. Whitehouse and H. J. Swift. The selections were excellent, and it is to be regretted that there were not more entries. The session was brought to a close by a class of six baritones interpreting a fine song by John Ireland. This was sung entirely too slowly and mournfully, and the adjudicator justly scored the competitors on this account.

Two Halls Were Used  
 Preliminary selecting was carried on in two halls on Friday morning, one adjudicator officiating in the Scout Hall, and the other in the Empress Theatre.

At these sessions a class of young pianists of 10 years and under, with 23 entries; a group of under 12, with 18 entries; and 14 entries for 14 years and under; all pianoforte, together with a class for violinists of 15 years and under, with 12 entries, were heard, and the finalists selected. In the afternoon finals, Lester Clarke, of Pentiction, came second, and Ruth Lambert, of Pentiction, third in the violin class, and Teddy Burton, of Pentiction, won third in the 10 years and under pianist class. This young player was accorded an ovation on his appearance for the finals, and was warmly commended by the adjudicator, who predicted a bright future for him.

Other classes held in the afternoon, before a large audience, were: young contralto soloists, who appeared not entirely at home on the Schubert selection set for young sopranos; a dainty song by a young soprano, who here again broken phrasing was apparent; and an insipid rendition favored in several cases, while others with clearer insight and finer interpretation were unsympathetically received.

**Had Good Voices**  
 Several of the young singers were, however, possessed of excellent voices, and sang very well, among them being Miss Lorna Sutherland, of Summerland, who was awarded first place. This class was followed by the open class for sopranos, and Miss F. Latimer, of Pentiction, was placed one point under the winner. Again the fancy of the adjudicator for colorless voices of the negative type drew attention, as also his ignoring of poor phrasing and the like.

This was still more evident in the class which followed, the tenor soloists, with the Purcell song described as a "fine example of Handel's writing." The tenor who sang "Tom Bowling," and who sings with a very polite lack of passion, was evidently favored. The one singer who infused passion and dramatic life into the song and made it live was not placed.

A very colorless string of words with notes attached represented Purcell, and among the audience the feeling which had been aroused by some of the earlier decisions was being heightened by adjudications which penalized the artistic performer, and which evidenced an entire lack of knowledge of either singing or songs. The impression was rapidly gaining ground that the adjudicator was himself at sea, and referred to "phrasing," "diction," and "intonation" merely as fine-sounding terms, the meaning of which was obscure, but which sounded quite learned.

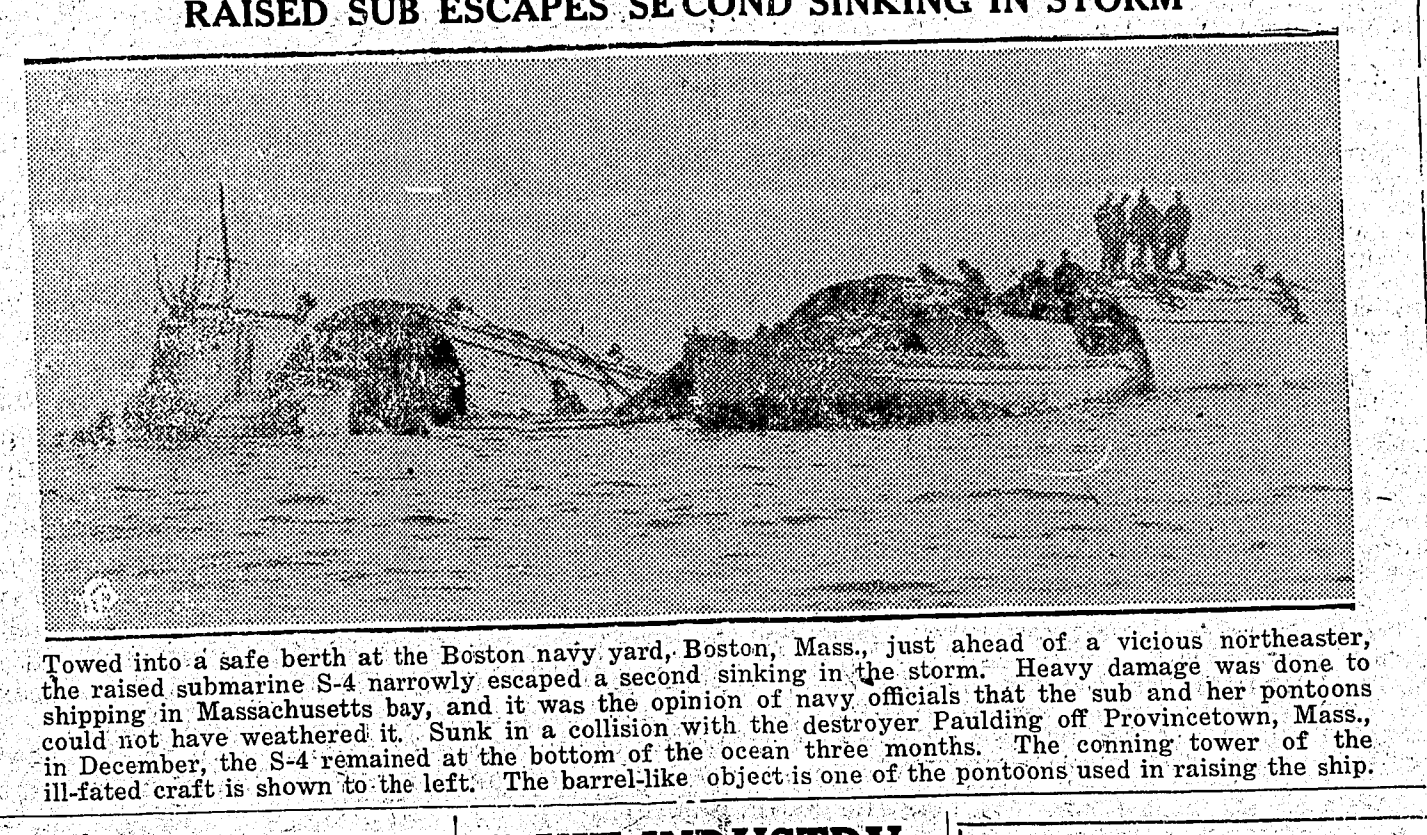

It may here be mentioned that, according to a statement made from the platform on Thursday, each adjudicator marked separately; they then added their numbers together and divided by two. Judging is therefore simply a kindergarten problem in addition and division, and two schoolboys could, if supplied with the marking forms, guess just as well.

In the preliminary Messrs. Ingalls of Peachland, Newton of Summerland and Tutts of Kelowna were placed, the final going to Tutts, Newton and Ingalls in the order named.

The afternoon session concluded with the ladies' oratorio class, and the decision made in this case aroused more adverse sentiment than any previous award. The adjudicator, Mrs. Wylie, stamped her own measure upon them, and proved herself unfit for the position.

**No Orchestra Competition**  
 The evening session opened with the test piece played by the Pentiction Orchestra, unfortunately without competition. The selection was not good, being another example of swallowing the Vancouver syllabus wholesale, but the orchestra played it very effectively and obtained a much finer interpretation than the competition at first promised. There were several minor slips, but on the whole the balance was good, the rhythm was excellent, and the quality well blended with generally good intonation.

The orchestra is to be congratulated on its success with so unpropitious a

Towed into a safe berth at the Boston navy yard, Boston, Mass., just ahead of a vicious northeaster, the raised submarine S-4 narrowly escaped a second sinking in the storm. Heavy damage was done to the ship in a collision with the destroyer Paulding off Provincetown, Mass., in December, the S-4 remained at the bottom of the ocean three months. The conning tower of the ill-fated craft is shown to the left. The barrel-like object is one of the pontoons used in raising the ship.

**Hundred Japanese Soldiers Massacred by the Nationalists**  
 Tokyo, May 3.—It was reported here today that more than 100 Japanese had been massacred outside of Tsinan, capital of Shantung, China, by Nationalist soldiers who captured the town.

**VERNON AND SUMMERLAND WIN MEDALS**  
**Contests in Elocution and Singing Held at W.C.T.U. Convention**  
 At the last session of the W.C.T.U. convention, Okanagan, North Thompson and Selkirk District, the Baptist church was crowded to the doors. The chief attraction was the judging of the Gold Medal contests in vocal music and elocution which brought entrants from all over the districts.

Mrs. B. R. Campbell, of Kamloops, the president, was in the chair. She called upon Mrs. R. Arnott of Armstrong to take charge of the devotional services, which preceded the medal contests. She gave a splendid address on "The Wines of Bible Times."

The participants in the two contests appeared alternately, one for elocution followed by one in vocal. They were all young people, and it is to their credit to record that there were but a few points between them.

Mrs. E. A. Titchmarsh and Miss F. Latimer, both of Pentiction, acted as judges in music, and Mrs. R. Palmer, Mrs. H. R. McLarty and Mr. G. E. Woolliams in elocution.

The contestants in music, Margaret Hogg, Nessie Smithson and Margaret Ritchie of Summerland, Evelyn Temple, Joyce Hodgson of Vernon, Miss L. Sutherland was unable, through illness, to appear.

The elocution contestants, Catherine Ritchie, Lona Williams of Summerland, Stephen Cannings of Pentiction, Grace Hunter, Beryl Grahm and Norman Hastings of Vernon.

In music, Miss Nessie Smithson was awarded the gold medal, and Miss Beryl Grahm the gold medal in elocution.

A report of the two days' previous sessions will be given later.

**SCHOOL CONCERT WELL RECEIVED**  
**Work of Those Taking Part at Festival Repeated—Flowers Presented**  
 There was a very good attendance at the school concert Tuesday evening to hear the programme put on by those who represented Summerland at the Kelowna musical festival. The hearty applause given to the various participants indicated that the music was fully appreciated.

Mr. W. C. Kelley presided, and made comments as the items were announced. Miss R. Dale, Mrs. D. L. Sutherland and Mr. Goo, Messop acted as accompanists for the evening.

There were seven places accorded to the three choirs, senior, junior and high school. The work of training was amply repaid by the excellence of the singing. The numbers by the junior choir, given as the first items in Part 2 of the programme, took with them two groups of children skotching with chalk, in rhythm to the music. These appeared greatly to the audience.

There was sufficient instrumental music to lend variety to the entertainment. Misses Mary Powell and Ivy Weaver, in piano solos, did very nice work. Miss Dorothy Hunt had two elocution numbers that were well received, and the two medallists, Miss L. Sutherland, a gold medal, and Mr. J. Newton, a silver medal, each received very hearty applause following their numbers.

At the close of the evening, the chairman in summing up the work of those who took part, spoke very highly of Miss Dale's work and the help she had given. At the close of his remarks a bouquet was presented to her, much to the delight of everyone present.

The evening's entertainment all through was very well arranged and much credit is due to those who took part in the programme and its arrangement.

**FRUIT INDUSTRY IS GETTING INTO BETTER SHAPE**  
**Financial Reports of District Co-operatives All Reflect Progress**  
**POOL DIRECTORS QUITE OPTIMISTIC**  
**Good Returns for 1927 Al-luded to—Outlook is Hopeful**  
 The annual reports of the fruit co-operatives of the Southern Okanagan for the year closing at the end of March as produced at annual meetings held recently show the fruit industry in this district is getting upon a firm basis. The co-operatives have greatly strengthened their position insofar as ownership of properties and establishment of reserve funds are concerned.

The directors' fifth annual report of the Summerland Co-operative Growers' Association reads in part:

"Packing—Owing to the greatly reduced tonnage dealt with during the past season, packing charges are, of course, slightly higher, namely: Packed apples 4 1/2 cents against 3 1/2 cents last year, with a corresponding increase in the soft fruit. We consider, however, that this slight increase, considering the tonnage dealt with, reflects great credit on the management, both in the packing house and office. A rebate will be paid to growers of 2 1/2 cents per box on apples and pears and 1 cent per box on soft fruits, also in accordance with the recommendation contained in the Auditor's report, a further rebate of 1/2 cent per box on all soft fruits and two-thirds of a cent per box on all apples and pears shipped in the 1926-27 season.

"Box shock—As your directors consider that it is a very great convenience to obtain supplies locally as this enables them to work more closely to actual requirements, particularly at the end of the season, they have placed the order for this year's requirements with the Summerland Box Co. The price is 1 1/2 cents per apple box, this being one-half cent higher than last year, this increase being attributable to the Minimum Wage Act, which embroils the box industry. This price is uniform in the valley.

"Storage—Owing to the smaller crop, our storage building was not utilized to the same extent as in the previous year and accordingly the receipts for storage are down from \$3,860.36 last year to \$1,695.04 this year.

"Depreciation—It will be noted that in the auditors' report reference is made to the reduced depreciation taken from several items. The reason for this is that, on a review by the directors, they were of the opinion that the condition of the machinery and equipment, after five years' experience, justified them in reducing the rate of depreciation originally fixed. They propose that the question of depreciation shall be again reviewed in two or three years' time.

"Local reserve—Your directors suggest that the policy adopted last year of gradually repaying to growers the amounts deducted for local reserve be continued this year, and will ask your approval to the return to growers of deductions made from the 1924 crop.

"Fire protection—In view of the lack of fire protection in the lower town, your directors have had under consideration the question of fire protection for the storage building, and they recommend that they be authorized to continue their investigations and install an effective system at a cost of approximately \$2,000.

"Cooling Moth—This has become a serious menace in our district and the municipal council is putting into effect the powers it possesses to create cooling moth zones and enforce spraying as laid down by the Department of Agriculture for combating this pest, the cost of which has to be borne by the owner. In accordance with the resolution passed at the growers' meeting on February 17, your directors have decided to make a levy from one cent per crop of one-quarter of one cent per box of apples and pears, out of which they propose to pay for extra spray which any of our members may have to put on should they come within a cooling moth zone.

C. J. HINDLESTON, President.  
 J. STEPHENSON, Secretary to Board.  
 Details from Auditors

**Hospital Day Saturday, May 12**  
 The hospital will be thrown open for inspection on Hospital Day, May 12, from 3 to 5.30. It is hoped that everyone will avail themselves of this opportunity. It has been customary on this day to have a miscellaneous shower; anything and everything will be acceptable. Tea will be served by the members of the Hospital Auxiliary.

**ANNOUNCEMENT MADE MONDAY OF REBATES**  
**Co-operative Has Harmonious Annual Meeting—Shows Bright Outlook**  
 There was a very harmonious meeting of the Summerland Co-operative Growers' Association on Monday last when that organization had its members in attendance to hear the auditor's report, a discussion of local interests, and Mr. Barratt's address on the work at Central.

One of the bright features of the afternoon was Mr. Barratt's announcement that Central's rebate on apples, McIntosh and later varieties would be 5% cents per box. This may have had something to do with Major Hutton's cheerful remarks at the close of the meeting.

After the reading of the minutes, the president, Mr. Hindlestone, called for the authorization of two cents refund from deductions. This was authorized by the meeting. He also reported that indications were not bright for the rebuilding of the cold storage plant although representations and requests had been made for it.

The directors' report, which was next presented, included a recommendation that the association undertake the installation of its own fire protection system, and asked for a vote of approval to a plan entailing the expenditure of about \$2,500 for the purchase of the building and the installation of the installation of underground electric wires to a motor pump which will supply water for fire-fighting.

Another item on the report asked for instructions re the establishing of a fund to combat cooling moth through a per box deduction on apples and pears. The fund to be used to assist where there is the need of the third and fourth application.

There was a recommendation that Jonathans be picked earlier, even at the sacrifice of grade and color. The directors considered that the growers must make the sacrifice of color to get the apple back into public favor. It was considered that the growers were merely temporary and care in picking early, with less publicity of the trouble, would get over the difficulty.

Mr. Rutherford, for the auditors, presented the financial report. He announced that 4 1/2 cents was the final packing charge. He went fully into the main points of the report and answered numerous questions.

**Votes of Thanks Passed**  
 Deafening calls on Mr. Barratt for his address, the president put a motion made by Mr. J. S. Campbell, of W. M. Dryden, secretary, and Mr. Matt Stewart, manager, and the meeting resolved most heartily.

Mr. Barratt preferred to make very few remarks, and then turned the opportunity over to those in attendance to ask questions about Central, which interested them. He started by announcing that he knew the members would welcome his report that a rebate on apples, McIntosh and later, had been set at 5% cents. He explained how this was possible. He then called for questions. He replied in the negative to one asking if Jonathans had been taken out of the O.C. brand.

**Sixty Per Cent. Signed Up**  
 As a signature to a contract, he said there was about 60% of the crop signed up and no particular pressure had been used to get signatures. The results were very satisfactory.

Major Hutton, representative at Central, when called on, said that the meeting had been of three days' duration, at which they had discussed the desirability of capturing the soft fruit market on the prairie again. United States goods shipped across had been of inferior quality, immature and frequently very undesirable.

A request had been made to permit the stamping of every package found

**RAISED SUB ESCAPES SECOND SINKING IN STORM**  
 Towed into a safe berth at the Boston navy yard, Boston, Mass., just ahead of a vicious northeaster, the raised submarine S-4 narrowly escaped a second sinking in the storm. Heavy damage was done to the ship in a collision with the destroyer Paulding off Provincetown, Mass., in December, the S-4 remained at the bottom of the ocean three months. The conning tower of the ill-fated craft is shown to the left. The barrel-like object is one of the pontoons used in raising the ship.

**THREE LEAGUES FOR OKANAGAN THIS SUMMER**  
**DATES ARE SET FOR LEAGUE CONTESTS**  
 Delegates from Kelowna, Summerland and Peachland attended a meeting held in Peachland on Thursday afternoon to discuss the formation of an Okanagan Valley baseball league, and as a result of the opinion expressed by the three clubs represented, it is possible that no less than three leagues will be operating in the section between Oliver and Vernon this year.

Although Pentiction was not represented, its intentions of entering an Okanagan league had already been expressed, and it was decided to draw up a schedule and to proceed with the organization.

As there was no desire to eliminate Oliver from the scope of competition, but as the distance was too great from Kelowna or Peachland to that point, it was decided to operate a second league to comprise Oliver, Pentiction and Summerland, if the southern clubs were agreeable, which would allow the winners of the two sections to stage a playoff for the Okanagan championship, but in the event of either Pentiction or Summerland winning both sections, the title would be awarded without the necessity of a playoff.

This will give the Okanagan three leagues, the Central Okanagan, comprising two Kelowna entries, and four country points as far as Oliver, and from which the Kelowna entry in the Okanagan league will be picked; the Okanagan league, with Peachland, Kelowna, Pentiction and Summerland; and the Pentiction district, with Pentiction, Oliver and Summerland.

Every effort will be made to run the leagues on strictly amateur lines, with the exclusion of the "tourists" who have done so much harm in the past, the players being confined to bona fide residents of the valley. Mr. E. R. Butler, of West Summerland, is being requested to act as league secretary, and tentative Okanagan league schedule dates are being distributed to the clubs for approval, as follows:

May 10—Peachland at Kelowna; Summerland at Pentiction.  
 May 17—Kelowna at Summerland; Pentiction at Peachland.  
 May 27—Kelowna at Pentiction.  
 June 3—Summerland at Peachland; June 10—Summerland at Kelowna; June 17—Pentiction at Kelowna; June 24—Pentiction at Kelowna; Peachland at Summerland.  
 June 31—Pentiction at Summerland; Kelowna at Peachland.

**Mrs. T. Feltham Also Wins MacLean Prize**  
 Congratulations are being received by Mrs. T. Feltham, who received a substantial cheque from MacLean's Magazine as a reward for the high merit of an entry submitted in Chapter "Three of 'The Bookshelf,'" an educational competition sponsored by that Canadian periodical.

This is the second prize to come to Summerland, from the MacLean's Magazine, recently, Miss Joan McIntyre's success being announced last week.

**TOUGH LUCK**  
 "Did you put your dime in the collection?"  
 "No, mother, I'm sorry; I lost it."  
 "But this is the fourth Sunday you've lost it."  
 "I know, but that kid's luck certainly can't last forever."

Major Hutton remarked that this meeting was the most harmonious, he believed, that he ever attended. It was quite devoid of the usual excitement, and he was so impressed with this that he had to resort to stories from mythology to find suitable means to convey his impressions.

**TRAIL FUNDS GETTING INTO BETTER SHAPE**  
**Arrears for 1927 are Paid Up, Manager Reports Here**  
**DIRECTORS DECIDE TO ISSUE ROAD LOG**  
**Two Thousand Dollars Yet to be Paid on 1928 Quota**  
 Speaking at a meeting of the directors of the Okanagan-Cariboo Trail Association, held Sunday, in Pentiction, Chas. E. Blackwell, of Okanagan, Wash., said that something which was considered an impossibility about four years ago has been accomplished by that organization. It was believed at that time impossible to unite the towns on the Trail for that work, yet it had been done and those on both sides of the international boundary line had worked together harmoniously all this time to the benefit of all.

President D. B. Johnstone, of Kamloops, remarked that when he was appointed to represent his city on the executive of the association he expected the life of the organization would not be over two years at the most, but it had proved that the advantages of this kind of co-operation were beyond the realization of many of the people resident in the towns located on the Trail.

The interim report of the secretary-treasurer, H. M. Walker, Enderby, showed that arrears of quotas for 1927 had been paid up by the various towns and that receipts for the present year amounted to \$3,196.50, with definitely promised quotas totalling \$2,089 yet to be paid. He stated that, providing all quotas were promptly paid, there would be sufficient funds to take care of the full publicity programme planned for this year.

The report of the field manager, L. J. Wood, Pentiction, outlined the work done in connection with raising funds for the 1928 publicity. It stated that 10,000 circular letters and maps had been mailed to special touring prospects in California, Oregon, Nevada and Arizona, and that as a result a large increase in enquiries for information had been received. A large proportion of the people who wrote for information said they contemplated making a trip into this country during the summer. General correspondence had been heavier to date this year than formerly. Requests for literature from information bureaux were coming in very fast and were being supplied as quickly as possible. One California organization had asked for 600 booklets and maps, and requests for these were being continually made to them.

A copy of the April issue of the National Motorist magazine, published in San Francisco, Calif., in which there appeared an article on the Okanagan-Cariboo Trail written by the field manager, was inspected by the directors, and Mr. Wood was asked to secure sufficient copies to send to the directors in each of the affiliated towns.

**Will Publish Road-Log**  
 The question of the publication of a road-log of the Okanagan-Cariboo Trail was discussed at some length and the literature committee was empowered to publish such a log, if found necessary, providing it carries no commercial advertising.

It was reported that a further supply of the sixteen-page booklets, with such changes as were deemed desirable, was in process of being printed. The field manager was asked to do everything possible to have those available for use promptly.

The directors were shown a map of northern Washington and southern British Columbia, of which the Okanagan-Cariboo Trail was one of the main features. It was published by the National Motorist for its own use, and information used in publishing this map was supplied by the Trail association, and over 50,000 of these maps had already been put in circulation.

# MORE THAN MILLION AND HALF DOLLARS PAID IN DISTRICT AS RESULT OF 1927 FRUIT CROP

Co-operative fruit packing houses of the Southern Okanagan and the Southern Similkameen, from Peachland and Keremeos to the international boundary line, have put one and a quarter million dollars into district circulation from the 1927 fruit crop, according to figures compiled this week.

This gigantic total comprises the money paid to fruit growers for their crops, to packers and warehousemen for handling the fruit, to trucking firms and to box manufacturers here for the making of the fruit boxes. It does not include any money going to railway companies for transportation of the fruit crop or for expenses calling for the dispatch of funds to outside points.

**Will be Heavier in 1928**  
 Taking into consideration the fact that the 1927 crop was light and therefore cannery payrolls and packing house wages were small, it is believed that the 1928 crop should put into circulation a considerably larger sum.

The season referred to runs from July 1, 1927, to April 30, 1928, and the co-operatives covered are Pentiction, Naramata, Kaleden, Peachland, Summerland, Oliver-Osoyoos and Keremeos-Cawston.

**Independents Add to Sum**  
 Adding the independent shippers of the district referred to, the grand total would probably go over \$1,650,000 for the 1927 crop, as the independents would probably distribute among their shippers, packers and box material supply people from Peachland south about \$400,000.

**ANNOUNCEMENT MADE MONDAY OF REBATES**  
**Co-operative Has Harmonious Annual Meeting—Shows Bright Outlook**  
 There was a very harmonious meeting of the Summerland Co-operative Growers' Association on Monday last when that organization had its members in attendance to hear the auditor's report, a discussion of local interests, and Mr. Barratt's address on the work at Central.

**THREE LEAGUES FOR OKANAGAN THIS SUMMER**  
**DATES ARE SET FOR LEAGUE CONTESTS**  
 Delegates from Kelowna, Summerland and Peachland attended a meeting held in Peachland on Thursday afternoon to discuss the formation of an Okanagan Valley baseball league, and as a result of the opinion expressed by the three clubs represented, it is possible that no less than three leagues will be operating in the section between Oliver and Vernon this year.

Although Pentiction was not represented, its intentions of entering an Okanagan league had already been expressed, and it was decided to draw up a schedule and to proceed with the organization.

As there was no desire to eliminate Oliver from the scope of competition, but as the distance was too great from Kelowna or Peachland to that point, it was decided to operate a second league to comprise Oliver, Pentiction and Summerland, if the southern clubs were agreeable, which would allow the winners of the two sections to stage a playoff for the Okanagan championship, but in the event of either Pentiction or Summerland winning both sections, the title would be awarded without the necessity of a playoff.

This will give the Okanagan three leagues, the Central Okanagan, comprising two Kelowna entries, and four country points as far as Oliver, and from which the Kelowna entry in the Okanagan league will be picked; the Okanagan league, with Peachland, Kelowna, Pentiction and Summerland; and the Pentiction district, with Pentiction, Oliver and Summerland.

Every effort will be made to run the leagues on strictly amateur lines, with the exclusion of the "tourists" who have done so much harm in the past, the players being confined to bona fide residents of the valley. Mr. E. R. Butler, of West Summerland, is being requested to act as league secretary, and tentative Okanagan league schedule dates are being distributed to the clubs for approval, as follows:

May 10—Peachland at Kelowna; Summerland at Pentiction.  
 May 17—Kelowna at Summerland; Pentiction at Peachland.  
 May 27—Kelowna at Pentiction.  
 June 3—Summerland at Peachland; June 10—Summerland at Kelowna; June 17—Pentiction at Kelowna; June 24—Pentiction at Kelowna; Peachland at Summerland.  
 June 31—Pentiction at Summerland; Kelowna at Peachland.

**TRAIL FUNDS GETTING INTO BETTER SHAPE**  
**Arrears for 1927 are Paid Up, Manager Reports Here**  
**DIRECTORS DECIDE TO ISSUE ROAD LOG**  
**Two Thousand Dollars Yet to be Paid on 1928 Quota**  
 Speaking at a meeting of the directors of the Okanagan-Cariboo Trail Association, held Sunday, in Pentiction, Chas. E. Blackwell, of Okanagan, Wash., said that something which was considered an impossibility about four years ago has been accomplished by that organization. It was believed at that time impossible to unite the towns on the Trail for that work, yet it had been done and those on both sides of the international boundary line had worked together harmoniously all this time to the benefit of all.

President D. B. Johnstone, of Kamloops, remarked that when he was appointed to represent his city on the executive of the association he expected the life of the organization would not be over two years at the most, but it had proved that the advantages of this kind of co-operation were beyond the realization of many of the people resident in the towns located on the Trail.

The interim report of the secretary-treasurer, H. M. Walker, Enderby, showed that arrears of quotas for 1927 had been paid up by the various towns and that receipts for the present year amounted to \$3,196.50, with definitely promised quotas totalling \$2,089 yet to be paid. He stated that, providing all quotas were promptly paid, there would be sufficient funds to take care of the full publicity programme planned for this year.

The report of the field manager, L. J. Wood, Pentiction, outlined the work done in connection with raising funds for the 1928 publicity. It stated that 10,000 circular letters and maps had been mailed to special touring prospects in California, Oregon, Nevada and Arizona, and that as a result a large increase in enquiries for information had been received. A large proportion of the people who wrote for information said they contemplated making a trip into this country during the summer. General correspondence had been heavier to date this year than formerly. Requests for literature from information bureaux were coming in very fast and were being supplied as quickly as possible. One California organization had asked for 600 booklets and maps, and requests for these were being continually made to them.

A copy of the April issue of the National Motorist magazine, published in San Francisco, Calif., in which there appeared an article on the Okanagan-Cariboo Trail written by the field manager, was inspected by the directors, and Mr. Wood was asked to secure sufficient copies to send to the directors in each of the affiliated towns.

**Will Publish Road-Log**  
 The question of the publication of a road-log of the Okanagan-Cariboo Trail was discussed at some length and the literature committee was empowered to publish such a log, if found necessary, providing it carries no commercial advertising.

It was reported that a further supply of the sixteen-page booklets, with such changes as were deemed desirable, was in process of being printed. The field manager was asked to do everything possible to have those available for use promptly.

The directors were shown a map of northern Washington and southern British Columbia, of which the Okanagan-Cariboo Trail was one of the main features. It was published by the National Motorist for its own use, and information used in publishing this map was supplied by the Trail association, and over 50,000 of these maps had already been put in circulation.

**ANNOUNCEMENT MADE MONDAY OF REBATES**  
**Co-operative Has Harmonious Annual Meeting—Shows Bright Outlook**  
 There was a very harmonious meeting of the Summerland Co-operative Growers' Association on Monday last when that organization had its members in attendance to hear the auditor's report, a discussion of local interests, and Mr. Barratt's address on the work at Central.

One of the bright features of the afternoon was Mr. Barratt's announcement that Central's rebate on apples, McIntosh and later varieties would be 5% cents per box. This may have had something to do with Major Hutton's cheerful remarks at the close of the meeting.

After the reading of the minutes, the president, Mr. Hindlestone, called for the authorization of two cents refund from deductions. This was authorized by the meeting. He also reported that indications were not bright for the rebuilding of the cold storage plant although representations and requests had been made for it.

The directors' report, which was next presented, included a recommendation that the association undertake the installation of its own fire protection system, and asked for a vote of approval to a plan entailing the expenditure of about \$2,500 for the purchase of the building and the installation of the installation of underground electric wires to a motor pump which will supply water for fire-fighting.

Another item on the report asked for instructions re the establishing of a fund to combat cooling moth through a per box deduction on apples and pears. The fund to be used to assist where there is the need of the third and fourth application.

There was a recommendation that Jonathans be picked earlier, even at the sacrifice of grade and color. The directors considered that the growers must make the sacrifice of color to get the apple back into public favor. It was considered that the growers were merely temporary and care in picking early, with less publicity of the trouble, would get over the difficulty.

Mr. Rutherford, for the auditors, presented the financial report. He announced that 4 1/2 cents was the final packing charge. He went fully into the main points of the report and answered numerous questions.

**Votes of Thanks Passed**  
 Deafening calls on Mr. Barratt for his address, the president put a motion made by Mr. J. S. Campbell, of W. M. Dryden, secretary, and Mr. Matt Stewart, manager, and the meeting resolved most heartily.

Mr. Barratt preferred to make very few remarks, and then turned the opportunity over to those in attendance to ask questions about Central, which interested them. He started by announcing that he knew the members would welcome his report that a rebate on apples, McIntosh and later, had been set at 5% cents. He explained how this was possible. He then called for questions. He replied in the negative to one asking if Jonathans had been taken out of the O.C. brand.

**Sixty Per Cent. Signed Up**  
 As a signature to a contract, he said there was about 60% of the crop signed up and no particular pressure had been used to get signatures. The results were very satisfactory.

Major Hutton, representative at Central, when called on, said that the meeting had been of three days' duration, at which they had discussed the desirability of capturing the soft fruit market on the prairie again. United States goods shipped across had been of inferior quality, immature and frequently very undesirable.

A request had been made to permit the stamping of every package found

**THREE LEAGUES FOR OKANAGAN THIS SUMMER**  
**DATES ARE SET FOR LEAGUE CONTESTS**  
 Delegates from Kelowna, Summerland and Peachland attended a meeting held in Peachland on Thursday afternoon to discuss the formation of an Okanagan Valley baseball league, and as a result of the opinion expressed by the three clubs represented, it is possible that no less than three leagues will be operating in the section between Oliver and Vernon this year.

Although Pentiction was not represented, its intentions of entering an Okanagan league had already been expressed, and it was decided to draw up a schedule and to proceed with the organization.

As there was no desire to eliminate Oliver from the scope of competition, but as the distance was too great from Kelowna or Peachland to that point, it was decided to operate a second league to comprise Oliver, Pentiction and Summerland, if the southern clubs were agreeable, which would allow the winners of the two sections to stage a playoff for the Okanagan championship, but in the event of either Pentiction or Summerland winning both sections, the title would be awarded without the necessity of a playoff.

This will give the Okanagan three leagues, the Central Okanagan, comprising two Kelowna entries, and four country points as far as Oliver, and from which the Kelowna entry in the Okanagan league will be picked; the Okanagan league, with Peachland, Kelowna, Pentiction and Summerland; and the Pentiction district, with Pentiction, Oliver and Summerland.

Every effort will be made to run the leagues on strictly amateur lines, with the exclusion of the "tourists" who have done so much harm in the past, the players being confined to bona fide residents of the valley. Mr. E. R. Butler, of West Summerland, is being requested to act as league secretary, and tentative Okanagan league schedule dates are being distributed to the clubs for approval, as follows:

May 10—Peachland at Kelowna; Summerland at Pentiction.  
 May 17—Kelowna at Summerland; Pentiction at Peachland.  
 May 27—Kelowna at Pentiction.  
 June 3—Summerland at Peachland; June 10—Summerland at Kelowna; June 17—Pentiction at Kelowna; June 24—Pentiction at Kelowna; Peachland at Summerland.  
 June 31—Pentiction at Summerland; Kelowna at Peachland.

**TRAIL FUNDS GETTING INTO BETTER SHAPE**

# PEACHLAND NEWS

By Our Resident Correspondent

At the irrigation tax sale held in the Municipal Hall on Saturday last there were only two parcels of land which changed hands, and these were as follows: Lot No. 12-1183, known locally as the Tewart place, was bought in by Mr. Wm. Douglas for the Thomas Powell estate; Lot No. 11-490, one of the Thompson lots west of town, reverted to the municipality.

Mr. and Mrs. Button, proprietors of the local bake shop, have just received a new awning for the front of the shop. They have also recently increased their stock, adding biscuits and more confectionery. To their equipment they have added some new ice cream tables and chairs to be ready for the on-rushing season.

Miss Dancer, a former sojourner in Peachland, was among the arrivals this week, coming in by C.N.R. Pentown to pay her old friend, Mrs. House, a visit.

Rev. N. A. Harkness, of Vancouver, secretary of the British Columbia Auxiliary of the Canadian Bible Society, which in turn is auxiliary to the British and Foreign Bible Society, visited Peachland on Tuesday evening of last week and gave an illustrated address in the Baptist church, showing pictures of Bible Colportage in China. He had a fine collection of views which, with his able description accompanying each picture, gave the audience a splendid idea of life in the parts of China covered by this address. Mr. Harkness gave his hearers a splendid review of the vast history of the Bible Society and by giving many comparative figures and other data, showed that they were carrying on a great work and advancing all along the line. Among other things, he stated that the Society for the past year had printed the Scriptures in a new language every six weeks. The turn-out on this occasion was quite encouraging to the local executive of the Society. Before closing the meeting, Mr. Harkness called for nominations for re-election of officers for the ensuing year, which

resulted as follows: President, Rev. T. A. Sadler; vice-president, Mrs. A. McKay; secretary, Mr. Bradford, and treasurer, Mr. McCall.

At a baseball meeting held in Peachland last week there were representatives from Kelowna and Summerland. It had been intended that Pentonion should be represented as well, but they, being unable to attend, sent word that they would fall in line with what the others decided. The purpose of the meeting was to form a league, which was done, comprising the four towns, Pentonion, Summerland, Peachland and Kelowna. A schedule of games was drawn up which gives each of the four teams six games for the season of actual league play, which includes two home and home games for each. It is intended that the winning team out of this league will play the winning team in the southern league, comprising Keremeos, Oliver and Pentonion. The first league game for the home team will be played with the Kelowna team at Kelowna on May 10, and the second game with the Summerland team at Peachland on May 17. Outside of these games as scheduled above the home team expects to play at Oliver on May 24 and Summerland on June 3, exhibition games.

Mr. Hampson at the Edgewater Inn is getting his tennis court well on towards completion. He has the surfacing on and the poles set for guard nets at the west end.

C.N.R. workmen spent Tuesday of this week in town installing lights in and around the wharf sheds, having put in seven lights placed so that they shed an abundance of light, making the place look quite civilized.

A number of the local members of the Trepanier Lodge A.F. and A.M. motored to Pentonion to attend a Masonic meeting held there on Tuesday evening of this week.

Bob Thompson returned home last

week-end after having spent a few weeks working in Pentonion.

Mrs. H. E. McCall and son Henry left via C.N.R. on Tuesday last en route to Vancouver, where Henry competed in the oratorical contest.

Mr. T. W. Thompson left on Wednesday for Vancouver, where he expects to spend a few days.

Hugh Dorland and H. E. McCall each took a load of ladies, members of the local branch of the Women's Christian Temperance Union, down to Summerland on Wednesday morning last to attend the district convention held there. The delegates were as follows: Mrs. G. Lang, Mrs. Sadler, Mrs. Dorland, Mrs. Keyes, Mrs. J. B. Robinson, Miss M. Smith, Mrs. MacKenzie and Mrs. McCall Sr.

There was a slight auto crash on one of the first points south of Peachland on Wednesday morning last, when a local car and a passing auto collided. One car had a narrow escape from being put over the bank. Both received some damage, but no person was hurt.

The local Orange Lodge held its regular monthly meeting in the hall on Tuesday evening last and part of the business of the evening was arranging for the Twelfth of July celebration. It was decided to hold a basket picnic in Peachland and invite other lodges and their friends from Kelowna, Summerland, Pentonion and Naramata.

Mr. Thomas McLaughlin and son Tommy moved to Pentonion last week, where Mr. McLaughlin has accepted a position as a plumber. Mr. and Mrs. George Topham have since moved in to the house vacated by Mr. McLaughlin.

George Topham and Mr. Heighway have commenced some of the preliminary operations at the local Walters Ltd. packing house.

The Women's Auxiliary of the local branch of the Canadian Legion held its regular meeting in the home of Mrs. George Dell on Tuesday evening last, with eight members present. Vice-president Mrs. G. Lang took the chair. After the routine business of the evening it was decided to disband for the summer months to open again early in the fall.

The local branch of the Women's Institute held a bazaar and tea on Friday of last week which was pretty well patronized. The treasury was augmented by about fifty-five dollars as a result.

## FIFTEEN YEARS AGO

The reeve appointed R. H. English fire chief, and on Thursday next the new chief has arranged for a demonstration so that those responsible for the working of the equipment will understand how to use it.

The St. John's Ambulance class will have its next lecture in Campbell's Hall next Monday at 8 p.m.

Deputy Minister Scott and Mr. R. Robertson attended a meeting of the fruit growers of Summerland and outlined the marketing policy to be adopted by the Summerland Fruit Union, giving encouragement to the movement in the Okanagan Valley. At the end of the meeting a motion was made by Reeve Thompson, seconded by H. C. Mellor, president of the board of trade, that the meeting endorse the central agency plan, and was carried without a dissenting voice. Upon Mr. Mellor's motion, the chairman of the organization committee, namely G. J. C. White, was appointed to represent Summerland at the district meeting next week, when a constitution for central will be drawn up.

The young people of the Baptist church gave Mr. and Mrs. Geo. Graham a surprise party. About fifty were present and a most enjoyable evening was spent.

The Athletic Society of the College goes to Pentonion tonight to repeat the gymnastic and musical concert which was so successfully given in the gymnasium recently.

The Balcom post office has been closed for some time and the residents of that section are now using the West Summerland post office. The people of Balcom, however, have acted on the suggestion of The Review, and have applied for a rural free delivery.

## Timely Hints For the Orchardist

Specially prepared for The Review by J. Tait, District Field Inspector

Now is the time to destroy the ants that are in and around the orchard. They are a factor in the spread of all species of aphids on the trees. Find the mounds they live in, then make a deep hole in the centre (if a very large hill, make several holes) with your hoe handle, apply a teaspoonful of Calcium Cyanide (Cyanogas). This powder will create a poisonous gas that will kill the ants and eggs. Add a few drops of water to the powder, or, better still, lay a wet sack over the mounds.

Every grower should take note of his spraying dates. Note down when the lime-sulphur spray was applied, also the temperature and wind on day of spraying. This data is of value to check up on the next season. Use Arsenate of Lead for all biting insects; Nicotine Sulphate 40 per cent. for aphids; Lime-Sulphur, summer strength, for apple mildew, add Casine Spreader. This combination can be used in your next spray. The first Arsenate of Lead spray suggested this season will be the Calyx Spray, just after apple and pear blossom time. It is especially asked that every orchard be sprayed once at least (Calyx Spray) to control and keep out the codling moth. It is advisable that a second spray be applied two weeks later. The more summer spraying done, the better chance of eradicating the codling moth.

There is a Codling Moth Control fund being proposed by deducting a fraction of a cent per box on apples and pears to help pay for extra spraying in quarantine areas, and only those who have subscribed to this fund will reap the benefit. Give serious thought to this plan, as you may be in the next quarantine zone.

## PROTECT EARLY GARDEN PLANTS

Use of Caps Effective at Ten Degrees of Frost Last Year

By W. M. Fleming  
After a diet of staple foods supplemented occasionally by canned fruits or vegetables, the amateur gardener longs for fresh green vegetables from his own garden, and as soon as the ground is fit to work the garden is put in. When a fine warm day comes along, the thermometer rises to nearly 70 degrees, we are tempted to think that the cold weather is over and that some varieties will stand slight frosts. Others will not. As long as the snow lies on the hills in sight in every direction there is every possibility of a sudden dip in temperature some night with several degrees of frost.

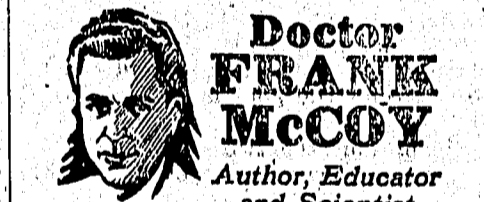

Several types of protection against frost have been tried at this station and two can be recommended for much more general use. One is a sulphuric acid process paper which resembles a waxed paper but does not contain wax. It is translucent but only partly transparent. It goes by the trade name of Glassine. It has been used freely at Oliver for protecting the early cantaloupes and has proved successful at this station. It comes in sheets about 16 inches by 18 inches or 16 inches by 20 inches. After a hill is seeded or transplanted, a piece of wire 24 inches long is bent over the hill like a croquet arch. A sheet of Glassine is then laid over this wire and soil banked over the edges all around it to form a little paper cap. This cap is left in place until the plant grows large enough to fill the cap. By this time danger of frost is usually over. A small slit should be made in the north side of the cap for ventilation. This should gradually be

enlarged as the plant grows until finally the plant will grow out through the slit and the wire and torn paper may be removed.

A somewhat similar protection is a waxed paper cap sold under the copyright name of Hot Kaps. This is a dull colored paper treated with paraffin. It is snapped ready to place over the plant and has a projecting flange which is covered with soil to hold the cap in place. A metallic "setter" can be purchased to set the Hot Kaps in place very quickly. This type is more expensive than the Glassine but is much more convenient to use. Where many are to be used the decreased labor brings the two types to nearly the same price per acre. There is no noticeable difference in results from the two papers. Last year at Osoyoos Hot Kaps protected cucumbers from ten degrees of frost. The Hot Kaps are left in position the same as Glassine until the plant grows through it. No wire is required with Hot Kaps. If the soil is carefully banked around the caps they will not blow away. Both types of plant protector may be

Notwithstanding the fact that the great majority of people enjoy good health, there are times when, some of us feel "under the weather." Undoubtedly there is a reason, but more often than not, we can not account for it. If we knew the cause we certainly would avoid a recurrence.

Dr. McCoy's daily health talks in The Vancouver Sun actually do give thousands of people the answers to their health mistakes. Every day his inspiring advice leaves something valuable to remember—advice in fact, for which you would pay not less than \$2.50 were you consulting a physician in person. Vancouver Sun readers enjoy important health advice every day, for but a few cents each month. Can any up-to-date family afford to be without the "Sun"?

obtained in Summerland. They may be used with small tender plants such as cantaloupes, water melons, cucumbers, small tomatoes, etc. For large tomato plants of the size usually set out in this district a larger sized cap is necessary. These have been tried out at other stations with good success.

An income tax is a tax which should apply to all incomes larger than your own.

## HEALS ECZEMA IN 7 DAYS OR LESS

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.  
Not only does this great healing antiseptic-oil promote rapid and healthy healing in open sores and wounds, but boils, abscesses and ulcers that are discharging are almost immediately relieved and cleanly healed.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped; the eruptions dry up and scale off in a very few days. The same is true of barbers' itch, salt rheum and other irritating and unsightly skin troubles.  
You can obtain Moore's Emerald Oil in the original bottle at any modern drug store. It is safe to use, and failure in any of the ailments noted above is next to impossible. All druggists can supply you at any time.

MAKE PERMANENT DIAMOND

Each year for some seasons back the Baseball Club had its own difficulty getting away to a good start and always because of the uncertainty of the grounds on which it was going to play.

The property loaned this spring by the municipal council will one of these days be bought for orchard purposes, and the work of preparing the field and constructing a serviceable diamond will be again thrown away and the money expended on it will have been turned to no permanent plan.

It would be a much better idea if the club, school board and council might get together and arrange for the proper surfacing of the central school grounds, construct a permanent diamond and have a worth while place when the work is completed, than that the present situation be allowed to continue.

The idea is not impracticable because no games are played during school hours. In fact they are generally played in the evening or on holidays, and in either case would not interfere with class work.

There is as much room for parking of cars as is required, and the spot is quite accessible from the town. Surfacing work would be in the nature of a permanent undertaking, and any money expended would be invested, not wasted.

The necessary capital would not be beyond what is easily attainable, and this sport, which is likely always to be popular here, would not have to struggle through the same old difficulty each year.

CERTIFIED SEED

Just at this particular time of the year there is possibly more interest than usual taken in the certified seed business here and especially in certified seed potatoes. For a number of years a few Summerland growers have made marked progress in this branch of agriculture.

Third Musical Festival Is Great Success; Locals Win Honors

(Continued from Page 1)

Male quartettes followed the orchestra, with two entries, and were followed by several entries in the ladies' trio. The taste for colorless tones and blurred outline was here again in evidence, the character of the Schumann composition was effeminate if the accepted interpretations are a guide.

Stephen Cannings Holds Cup On Saturday the Empress Theatre was again used for preliminaries, the morning being occupied by elocution classes. First place was won by Patsy Bird, of Penticon, for girls of 17 and under, and by Stephen Cannings, of Penticon, for boys of 17 and under; Stephen also retaining the cup which he won last year.

In the class for girls of 13 and under, Louise Foley, of Penticon, came first, while in the corresponding class for boys, David Meldrum, of Penticon, was awarded second place. In the Scout Hall 15 girls of 15 years and under sang a Haydn song, which was given a special interpretation by the adjudicator, Haydn might not have known his song as thus explained, but that's of small moment.

The "Blad Pipor of Hameln" was then given splendidly by a primary grade class, followed by a duet for boys. This was won by artificial singing, which was preferred to natural voices with clear enunciation. The day school choirs of grades three and four followed with three entries, and first place was given to Penticon under Miss Page, with a fine rendering of the selections. The duet for girls came next in order, and was so extremely difficult that it had been abandoned both by singers and accompanists as beyond the powers of children, and almost beyond average pianists.

A class of ten entries in the solo for boys of 15 and under was next heard, and artificial tone was here also given the preference over the clear boy's voice with distinct articulation and intelligent phrasing. The morning session concluded with a single entry for the cornet solo.

Rural School Choirs

A crowded hall in the afternoon listened first to a clarinet soloist, followed by some excellent singing by four rural school choirs. This was fine work, deserving of every praise. The great event of the day followed, the senior school choirs, grades five to eight, with four entries. This was a remarkably close contest, and was awarded to Kelowna, with Penticon as nearest rival. The singing was very fine in each number, and was delightful to hear.

However, the adjudicator was paid to know, so presumably he does know. Three entries in the class for girls' choir were then heard, in which the superiority of the Penticon school girls' choir was so overwhelming that the award could not have been given elsewhere. The Penticon girls sang beautifully; indeed it is probable that their singing was the finest choral work that has yet been heard during the three years of the festival.

The Final Concert

The hall was packed to the limit on Saturday evening for the final events and the "grand concert." J. W. Jones, M.L.A., was in the chair, and Mrs. Grote Stirling distributed the cups, shields and other special prizes and trophies, awarded with massed choirs singing "O Canada," and followed by a chorus sung by the senior school choirs, two entries in the violin ensemble class were heard. There was excellent work done in this class; it is a pity Penticon had no entry. This event was followed by two competitors in elocution, a class open to men, and then was succeeded by several of the winners in oratorical sessions, among them being Miss L. Sutherland, of Summerland. The festival was concluded with the Gold Medal championship competition for vocal soloists, and thus ended the third annual Okanagan festival.

It is to be regretted that the final concert could not be purely a concert, with no competitive element to spoil the climax. There is a fear lest the term "competitive festival" be found to be a contradiction in terms; that the "competitive" outweigh the "festival." This would be a thousand pities, for the festival movement is of tremendous value, especially if standards are set that will inspire young students to develop their faculties to the greatest point. But it is certain that eventually the syllabus must be fitted to local conditions, and it is even more certain that teachers and others who enter pupils must be sure that their work will be judged by authorities who can set still higher standards, and not judged by men who fall below the ideals set by local teachers. There must be less attention to pedagogical standards and more to the interpretative side. The pedagogical side has its place, but it is not at a festival where rivalry is sought, and there is a definite feeling in the festival ruled far too strongly by the "pedagogical" side. In instrumental classes there is little fault to find, although pentaton was over-evident in too many cases. But in vocal and elocution classes there was lack of insight, and a crystallized pedagogy seemed to smother under all initiative and spontaneity.

venture in this branch of farming. The new sacks authorized for seed are quite an improvement over those used other years. Less lettering and a good strong brand mark lend attractiveness to them for display purposes.

Mr. R. V. Agur, who has taken a prominent part in potato raising in Summerland for some years, stated that he had best success in watching for the districts are reported free from disease and securing his seed there. That point alone is the biggest item to be considered by those desiring seed. He says he has brought in seed every year of the Nettle Gem, and always certified and from disease-free districts. In following up the history of the potatoes later grown in Summerland and elsewhere, the precaution has proven well worth consideration, he says.

The government sends in to Summerland two field inspectors during the growing season, and also gives two tuber inspections, one when harvested and one when the government tag is being attached to certify the quality. The buyer is thus protected not only in the seed as he sees it, but also in its ancestry. Mr. Agur summed up the whole business in stating that the proof of the worth of it was in the results. Last year one ton yielded thirty-three, or at the rate of 16 1/2 tons per acre. Most of the unsatisfactory yields are the results of diseased stock, he claims, which can be avoided by proper treatment and making certain of good ancestry.

THIS COMING WEEK

This coming week Summerland is to have a real test of the value it places upon its hospital and an opportunity to demonstrate a real loyalty to it. Several organizations have indicated the intention to foster the move to secure funds, and Mr. Lockwood has given his two shows in the Rialto this week in support of the plan. Now it rests with the people to help these plans make the week's programme an unqualified success.

There are times when the hospital has but few patients and it cannot pay its way, and then at other times it is burdened with extra expense because there is an extra heavy demand made upon the institution. These two occasions are the times that require the additional financing that is necessary so that we may always have at our service the benefits a hospital must stand ready to give.

Most of the items on the schedule the Board has arranged make it easy for all to assist, for there is some kind of amusement returned for the contribution made. The collection in the churches Sunday, and the membership fee of one dollar, are the only direct donations expected.

The week, if it receives the support of the people, will undoubtedly mean a great deal to those who take the responsibility of directing the work of this institution, and surely they deserve the support of everyone who may ever be in need of the care that the hospital alone can offer.

FRUIT INDUSTRY GETTING INTO BETTER SHAPE

(Continued from Page One.) Insurance policies covering the risks shown were produced for our inspection: Stock, \$16,500; fruit and stock, \$2,500; office building, \$1,400; equipment, \$8,000. The unexpired insurance premiums shown as a deferred item in the balance sheet have only been estimated by us owing to the above-mentioned certificate not having been received.

Depreciation—The various assets have been depreciated at the same rates as in previous years, with the following exceptions: Office equipment, 5 per cent. instead of 10 per cent.; machinery, 5 per cent. instead of 10 per cent.; packing house equipment, 7 1/2 per cent. instead of 15 per cent. These changes have been made on instructions from your directors. No provision has been made for depreciation of orchard boxes during the year under review.

Surplus account—This account discloses that overages on Growers' Packing House deductions of \$1,977.58 and local reserve deductions of \$910.75 were credited to surplus in error in the statement for the previous year. These amounts have now been transferred and the corrected surplus as at March 31, 1927, is shown as \$2,861.80. The final adjustments of the 1926-27 crop proceeds of \$1,019.21 are shown credited to surplus account. We would recommend that the amount of \$1,019.21, being amount of surplus undistributed on closed pools on the 1926-27 crop be refunded to the growers on a per box basis on the shipments for the above-mentioned season.

Operating account—The surplus of revenue over expenditure for the year ended March 31, 1928, is \$44.40. This is after providing for a rebate to growers of 1/2c per box on 20-lb. packages and 2 1/2c per box on 40-lb. packages, which amounts to \$3,808.48. All adjustments for the 1927-28 season have been made in these statements and we are informed that all returns have been received from the Associated Growers of B.C. Ltd. for fruit shipments for the season under review.

Growers' Packing Houses, Ltd.—The amount due to the Growers' Packing Houses, Ltd. for the buildings purchased from them is now \$44,226.45. The deductions made from shipments during the year under review, amounting to \$20,237.47, have been taken into account. It is noted that the equipment purchased under agreement of sale from the Growers' Packing Houses, Ltd., has now been paid for in full and a certificate is to be obtained from them showing that the agreement has been paid off.

Growers' Packing House deductions—The total of the deductions from fruit shipments in this connection, up to March 31, 1927, is \$46,820.74. Mortgage debenture stock in the amount of \$44,650 has been issued to cover these

deductions, and further stock will be issued to cover the deductions made during the year under review. Details of the amounts not covered by an issue of debenture stock are shown in the balance sheet.

Local reserve—The total of the deductions from fruit shipments up to March 31, 1927, for local reserves is \$21,937.80. Deduction certificates in the amount of \$20,906 have been issued to cover these deductions. Further certificates are to be issued to cover deductions made from shipments during the year under review. Details of these deductions not covered by an issue of certificates are shown in the balance sheet.

The total deduction certificates issued in connection with 1923-24 shipments amounted to \$4,954, and in accordance with the last annual general meeting the growers were notified that these certificates could be redeemed on presentation. As shown by the statement, certificates to the value of \$4,954 have been redeemed as at the date of these statements. Certificates covering the balance of \$660 have not been presented for payment. Final returns—All fruit shipment returns had been received from the Associated Growers of B.C. Ltd. at the date of these statements. The amount of \$7,896.31 shown as due from them has been received since the date of these statements. Cheques have since been issued to the growers for the unpaid balances on pools closed and amounting to \$26,770.37. The fact that final returns were received from Growers before the closing of your books and records has greatly facilitated the preparation of these statements and has obviated the necessity of estimating the amounts of unclosed pools. Pool records were not completely checked by us.

Packages and Charges

The details of packages for 1926 and 1927 in Summerland with the packing charges for the fiscal year ending March 31, are: Cherries, 4-basket crates, 38c; 1926, 5,863; 1927, 2,552; lugs, 28c; 1926, 4,561; 1927, 2,104; cannery, \$3.75 per ton charge; 1926, 128,575 lbs.; 1927, 33,875 lbs.; Apricots, layers, 4-basket crates, 34 1/2c; 1926, 6,758; 1927, 3,415; apricots, jumbled, 4-basket crates, 31c; 1926, 10,028; 1927, 1,180; apricot, peach box, 19c; 1926, 6,800; 1927, 300; cannery, \$3.75 charge per ton; 1926, 125,542 lbs.; 1927, 37,669 lbs. Peaches, No. 1 peach box, 25c; 1926, 10,310; 1927, 7,311; No. 2 peach box, 25c; 1926, 973; 1927, 690; 4-basket crates, 34 1/2c; 1926, 109; 1927, 4; cannery, 1926, 47,495 lbs.; 1927, 70 lbs. Plums, layers, 4-basket crates, 34 1/2c; 1926, 6,782; 1927, 2,485; jumble, 4-basket crates, 31c; 1926, 4,642; 1927, 915. Prunes, peach box, 19c; 1926, 5,073; 1927, 14,469. Tomatoes, 4-basket crates, 30c; 1926, 3,272; 1927, 7,007. Crabapples, fancy per box, 23c; 1926, 6,891; 1927, 6,831; to cannery, 1926, 17,372 lbs.; 1927, 1,926.9; Pears, fancy pear box, 40 1/2c; 1926, 549; 1927, 4,728; C pear box, 40 1/2c; 1926, 5,716; 1927, 3,864. Apples, 4 1/2c; 1926, 173,408; 1927, 127,338; economy crate, 3 1/2c; 1926, 24,831; 1927, 21,006.

Assets and Liabilities Under the heading of assets, the cooperative's land is now valued at \$10,766 and storage building at \$76,075.93, less \$9,414.50 depreciation reserve, with trackage at \$2,901, less \$362.62 depreciation reserve; office building at \$1,700, less \$425 depreciation; Mutual building at \$6,265.83, less \$1,566.45 depreciation reserve, and Stewart building at \$3,947.17, less \$986.77 depreciation. The fixtures, equipment, orchard boxes, etc., are valued at \$5,527.93 net. Total assets are \$162,604.86. Liabilities include \$44,226.45 due on Growers' Packing Houses Ltd. agreement for sale; \$26,770.37 on growers' closed pools, and \$3,808.48 on rebates of packing charges.

The packing charges against growers reached \$87,755.85 for the past season, less \$3,808.48 rebates. The amount expended for box shooks, paper, nails, etc., was \$37,169.20 net. Wages expenses, etc., for operating totaled \$14,228.65, with \$7,957.37 for packing wages, \$3,000 for manager's salary, \$3,300 for office salaries.

NARAMATA SAYS PRICES HAVE BEEN GRATIFYING

"Prices for the past year have been most gratifying," says the directors' report of the Naramata Co-operative Growers' Exchange. The auditor's report indicates that the exchange is in a strong "liquidity" position according to its cash in hand. Says the directors' report: The season covered by this report has produced the largest value of crop of the growers, and although the quantity of soft fruit was lower than in previous years, the apple crop showed an increase of about ten per cent. over that of last year.

In view of the fact that the costs of materials for packing have increased, our packing costs have kept normal with the previous year, the rate on apples being forty-one cents per box, of which, two cents per package represents the dividend to shareholders on capital. Therefore the net cost for packing apples was thirty-nine cents per box. The deduction for working capital this year has been on the same basis as in previous years, the paid-up capital now amounting to \$28,030.42. Plant and equipment represents an investment of \$16,408.40. The shares issued in 1923 amounting to \$6,651.71 are recommended by your board to be redeemed this year and the growers paid accordingly.

Dividend Recommended Your directors recommend a dividend on the outstanding shares of \$24,106.00, for which the sum of \$1,603.72 has been provided for from the revenue of the season. The reserve fund now amounts to \$2,253.40 and during the current period the sum of \$600.00 was transferred from the surplus account. The surplus account now amounts to \$2,178.05 and the financial position of the exchange is most favorable. With reference to the increase in storage accommodation, Mr. R. Lyon has been engaged as architect and the contract has been let for the work, so that storage facilities will be increased for the handling of the 1928 crop.

We are pleased to say that the Committee of Direction has been appointed for another year and our representative is again Mr. O. W. Hembling. Both the Canadian National and Canadian Pacific Railway have surveyed sites for a car dock ship which will greatly facilitate our handling of the crop, should these plans materialize. As you will agree, prices for the past year have been most gratifying. Soft fruit having done exceedingly well in all varieties while apple prices to the grower have been excellent and

far above those of the preceding year. To date a very large percentage of the apple pools have been closed, only the main pools for Newtowne, Winesaps, and a few odd varieties being outstanding. We are expecting the returns for these soon now and also hope to close out the spring storage pools at an early date. The new contract has been very favorably received by the growers throughout the valley and we expect that the tonnage of our exchange will be increased considerably over the past season. In concluding we are pleased to point out that our exchange has enjoyed a good year financially, and everything points towards even greater prosperity in the future.

Signed on behalf of the Board W. S. YOUNG, President.

The Packing Expenses Packing expenses for the year included \$5,344.63 for warehouse wages and \$5,898.22 for packers' wages, with \$21,296.93 for boxes, paper, etc., making a total of \$41,759. The amount charged the growers for packing was \$39,958.18, and \$803.66 for storage. Details of packing charges include the following figures: 71,938 boxes apples at 35c; 11,207 crates at 27c; 3,534 boxes pears at 25c; 2,091 boxes crabs at 27c; 2,860 crates crabs at 30c; 758 crates crabs at 27c; 620 peach boxes of crabs at 20c; 17,450 pounds crabs at cannery at charge of \$3.50 per ton; 2,654 4-basket crates to cannery at charge of \$3.50 per ton; 6,479 crates peaches at 24c; 547 crates No. 1 plums at 30c; 199 crates No. 2 plums at 27c; 1,117 crates prunes at 18c. Value of crop to growers \$87,453.27

KALEDEN REPORT ALSO ONE OF GOOD PROGRESS

The fourth annual report of the Kaleden Co-operative Growers' Association for the year ending March 31 reflects the same story of progress as told in other districts of the Southern Okanagan.

The amount of profit carried forward from the revenue and expenditure statement to the profit and loss account is \$1,058.51, with a profit of \$96.91 on trading account.

Among the packing expenses for the year are: Wages, \$7,340.30; boxes, paper, etc., \$12,213.54; hauling, \$1,445.27; office salary, \$2,400.00; depreciation on buildings and equipment, \$616.89. The packing charges received from growers reached \$26,204.63.

The paid-up share capital is \$6,799.73 with capital deductions for the season 1927 of \$6,891.73, less shares redeemed and capital deductions refunded of \$5,850.58. The assets are placed at \$13,250.85. Accounts payable are \$1,397.10. A dividend of six per cent. on paid-up capital is put into effect. Packing expenses for varieties of fruit are: 638 boxes cherries at 35 1/2c; 119 boxes at 26 1/2c; 842 boxes crabs at 32 1/2c; 517 at 30 1/2c; 853 at 23 1/2c; 699 boxes plums at 32 1/2c; 374 at 30 1/2c; 499 boxes peaches at 26 1/2c; 2,538 boxes prunes at 16 1/2c; 565 boxes pears at 35 1/2c; 610 boxes crab apples at 25 1/2c; 53,952 boxes apples at 31 1/2c; 4,281 boxes apples at 24 1/2c; and 465 at 21 1/2c. There is an addition of 1 1/2c for hauling of apples and pears.

OLIVER, NEWEST DISTRICT IS WELL TO THE FRONT

Oliver, the newest of the fruit growers' districts, is able to declare a six per cent. dividend on paid-up capital and carries a profit to the balance sheet of \$1,282.34, being slightly above the 1926 profit. The local has also paid a six per cent. dividend on capital deductions.

The expenditures of the Oliver Co-operative Growers' Exchange for the fiscal year ending March 31 included \$2,880.78 for packing and shipping and \$3,207 for salaries, with other items making a total of \$8,576.64. The packing house is valued at \$2,962.98 after a depreciation of \$228.57, while the equipment and office are placed at \$892.00 after depreciation of \$153.00.

The paid-up share capital is \$1,613.50 with capital deductions of \$4,671.00. Accounts payable reach \$890.43, with a B.C. government packing house loan of \$2,442.48. Oliver, 1926 and 1927. The following is from the directors' report: The table given below shows a comparison of the crop handled during

Table with 2 columns: Year (1926 and 1927), and Packages. Rows include Apricots, Peaches, Tomatoes, Cucumbers, Prunes, Cantaloupes, Pears, Crabapples, Apples, Watermelons, and Various.

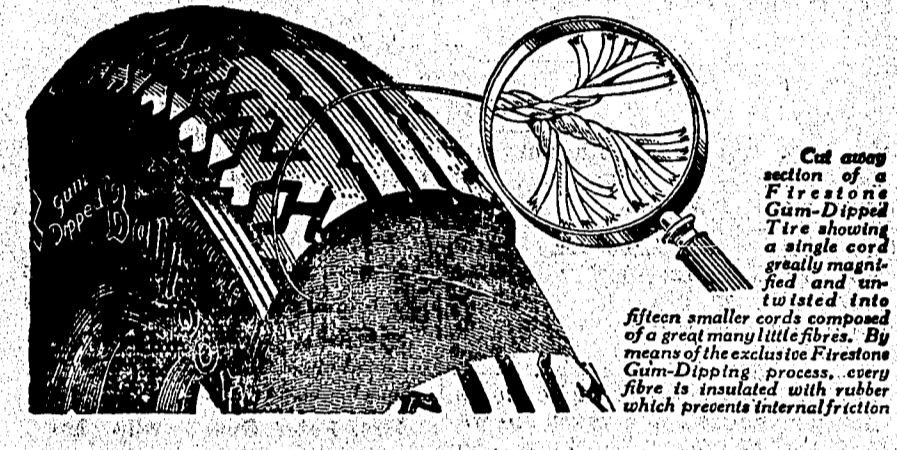

general reserve account has been increased by \$605.56 profit on shares redeemed and cancelled. The general reserve account was \$10,605.56 at the end of March. In the profit and loss account, \$2,891.24 has been related to growers, largely made up by amount realized on the sale of cull apples of the 1926 crop and also overages from the crop of the same year. The rebate was one cent per box on forty-pound packages and half that amount on the soft fruit packages.

The auditors' report shows that the buildings on leased land were valued at \$47,776.06, with the furniture and equipment \$20,315.15. Among the expenditures for the year making up a total of approximately \$120,000 are the following items: Box and paper material, \$66,661.96; packers' wages, \$13,538.25; warehouse wages, \$19,053.02; management and office salaries, \$5,860.

The amount charged the growers in connection with packing and shipping, fruit was \$125,767.23. Here are some of the figures for the packing charges for the 1927 crop year: 6,451 four-basket crates cherries, 35c; 1,185 25-lb. lugs cherries at 29c; 26,375 lbs. cherries to cannery at \$1.50 charge per ton; 2,330 No. 1 four-basket apricots, 25c; 1,457 No. 2 four-basket crabs at 27c; 1,393 15-lb. lugs crabs at 22c; 24,292 lbs. crabs to cannery at charge of \$1.50 per ton; 30,354 No. 1 peaches at 23c; 1,358 No. 2 peaches at 23c; 9,000 lbs. peaches at cannery at charge of \$1.50 per ton; 2,833 No. 1 plums at 29c; 2,075 No. 2 plums at 27c; 9,541 No. 1 prunes at 16c; 2,328 boxes crabs at 22c; 13,832 boxes pears at 33c; 35,670 boxes large apples at 35c; 8,387 boxes large-small apples at 36c; 9,389 boxes medium-small at 37 1/2c; 709 small-small at 40 1/2c; 103,320 boxes C grade at 35c; 37,868 crates at 28c; 10,700 culls at 4c.

PENTICON'S REPORT ALONG SAME LINES

The fifteenth annual report of the Penticon Co-operative Growers' Association presented at the annual meeting here on Monday night. In it the directors recommended that the sum of \$5,647.75 be set aside for the payment of a seven per cent. dividend to all shareholders on amount of paid-up capital stock. The amount of \$5,000.70 transferred to

Why Firestone Tires Give You Most Miles Per Dollar

The greatest enemy to tire life is not the harsh grind of city streets or rough roads but heat which is created inside the tire by internal friction. Heat not only weakens the fabric, but also softens the rubber causing blowouts and tire failures.

The exclusive Firestone Gum-Dipping process prevents internal heat. Every fibre of every cord is insulated and impregnated with rubber, which prevents internal friction and at the same time binds the cords together by a stronger union of rubber, thus giving greater strength and flexibility to the tire.

Take advantage of the Gum-Dipping process to lower your tire costs this year. Your local Firestone Dealer not only supplies you with these better tires that cost no more, but also gives the better service that enables you to benefit from every extra mile built in at the factory.

DOG GONE An irate fan who had watched his home team go down in defeat, stopped the umpire as he was leaving the field. "Where's your dog?" he commanded. "Dog?" ejaculated the ump. "Have no dog." "Well," said the grouchy one, "you're the first blind man I ever saw who didn't have a dog."

THE REASON! Barclay: Why are legislators so much alike? Winthrop: Because so many of them are machine made!

FORLORN RIVER

Starring Jack Holt And it's a Zane Grey story. When it comes to Westerns, Zane Grey's are the best. There are thrills, romance, wild riding, shooting and adventure in the wide open cattle country. There is also a good comedy and a Knt Cartoon.

KID BOOTS

With Eddie Cantor, Clara Bow, Billie Dove and others One of the best comedies of the season. We are having this picture for the benefit of the Hospital. We are in hopes everyone will help. Come and see a good show and help along a good cause. Also a Good Comedy and an Allice Cartoon.

There will also be a Matinee on Saturday afternoon at 2.30 so as to give the children a chance to see the picture and help the Hospital. Don't forget we have some of the best productions of the season coming. Here are three that are coming soon:

Tuesday & Wednesday, May 22-23 John Barrymore in "THE BELOVED ROGUE"

Tuesday & Wednesday, June 12-13 Douglas Fairbanks in "THE GAUCHO"

Tuesday & Wednesday, June 26-27 Charlie Chaplin in "THE CIRCUS"

LOCAL HAPPENINGS

Thursday, May 11, Hospital dance in Ellison Hall. 18-1-c

Mrs. W. R. Powell went down to the Coast on Monday's train.

Mr. J. W. Jones, M.L.A., spent a couple of days in town this week.

Keep next week as Hospital Week for YOUR hospital.

Mrs. C. Schwass went as far as Kelowna with Mrs. Siderfin on her way to Tranquille.

Mr. Charlie Lowe, formerly with the Associated, was a visitor to town this week.

Next Saturday, as the last day of Hospital Week, is visitors' day at the hospital.

Mrs. J. E. O'Mahony left for Calgary on Monday, summoned by sickness of a friend there.

The hospital has filled up the Coming Events for this week. Give it your support, heartily.

Mr. Muir Stuart went up to Vernon on Wednesday to attend a managers' meeting of the Associated Growers.

Hospital Week doesn't even come once a year, but it will be here every day next week.

Mrs. Donald arrived on Friday from the Old Country to join Mr. Donald, who has purchased land in Garnett Valley.

Mrs. J. McDonald, who has been visiting her sister, Mrs. Amm, left on Wednesday's train for her home in New Westminster.

Mrs. Peter Gunn, who has been spending the winter with her sister, Mrs. A. H. Steven, left on Tuesday for Edmonton.

The C.N.R. surveyors working along the lakeshore this week were locating the lot lines necessary to secure the foreshore rights for the car slip.

Mr. J. Kirk went down to Victoria to take charge of some new Jersey purchases recently made by Mr. Landry, as an addition to the Trout Creek herd.

Rev. H. A. Solly, Capt. and Mrs. V. B. Webb went on Monday to the Coast to attend the annual meeting of the Board of Governors of the Anglican Theological College.

Mr. Louis Garnett, who has been spending the winter with Mr. T. Garnett, left for Winnipeg on Thursday on his way back to Sault Ste. Marie, Ont.

The Free Masons held a progressive bridge party in the lodge room on Friday last. A large number were present and enjoyed a most delightful evening.

Members of the Oddfellows and Rebekah lodges attended worship in St. Andrew's church Sunday last. There was a good attendance. Special music was arranged, and Rev. T. W. Reed preached a most appropriate sermon.

Russell Munn, Rhodes Elliott and B. Wright returned this week from U.B.C. Miss R. Harris went on to Edmonton with the basketball club for their chance at the Dominion championship on May 5 and 7.

COMING EVENTS

Hospital Day, Saturday, May 12. Tea at Hospital 3 to 5.30. Everybody welcome.

The Players' Club from U.B.C. is presenting "Polly With a Past" in Ellison Hall, Saturday, May 10, for the Summerland high school. Secure your ticket from students or Macdonald's Drug.

HOSPITAL WEEK—MAY 6-12 Sunday, May 6—Hospital Sunday in all churches. Special collection. Monday, May 7—Canvas for membership in Hospital Society. Tuesday, May 8—Hospital dance in Ellison Hall. Friday and Saturday, May 11 and 12—Hospital picture show. Saturday, May 12—Hospital Day at the hospital. Visitors welcomed. Donations thankfully received. Tea served. Monday, May 14—"Wanted, a Wife", play produced by the Alkamin Club. Half proceeds to hospital. Hospital tng day postponed to later date. Tuesday, May 8—N.Y.P.U. entertainment with lantern slides in Baptist Church.

Have your dollar ready for Hospital canvasers May 6. Tag Day at the Experimental Farm, June 3.

The Summerland Women's Institute will meet on Friday, May 11, at 3 p.m. in the Lakeside United Church. A demonstration in hooked rug making by Mrs. Cartwright and weaving by Mrs. C. P. Nelson. Anyone having hand-made rugs to show, please bring them for exhibition.

GARD OF THANKS

Mrs. J. W. Wheeler wishes to thank the Masons and the many friends for their kindness and sympathy occasioned by her recent bereavement.

Miss L. Darke left on Monday for Victoria.

Mrs. H. H. Creese and Miss Byrne left on Wednesday for Vancouver.

Hospital Week, May 6-12. See the Coming Events.

Mr. W. C. Kelley left for Princeton on Thursday morning.

Joe McLachlan invested in a new Oldsmobile this week.

Gordon and Ralph Scouthorpe left for Rosebud, Alta., by car on Thursday.

Lockwood is helping you to help the hospital. Read the Rialto advertisement.

The fishing season has opened in the lakes, with a limit put on the day's catch.

Read Macdonald's advertisement if you are interested in an easy way to help the hospital.

Mr. J. H. Moore of Kelowna has been appointed foreman in the Co-operative packing house.

Mr. L. Beavis came home on Friday to spend a short time with his parents.

Mr. Shully of Vancouver spent the weekend with his mother-in-law, Mrs. E. Graham, in Victoria Gardens.

Mr. Jas. Strother of Vernon, who has been appointed manager of the Vernon Box Co., was in town last week, driving a new Ford.

It is expected that the rock slide which has been holding up traffic in the Coquihalla Pass will be cleared out early in the coming week.

Downton & White unloaded a car of fine fat animals from Alberta and placed them on Giant's Head for pasture, where they are to feed till the people of Summerland require them for their meat supply.

Mr. Blanchard Munn has received the appointment of company doctor at Iroquois Falls, Ont., where there are large paper and pulp mills established. He is to leave Montreal shortly to take up his new duties.

Reeve Johnston was the fortunate one to secure two fine heifer calves from Oliver, both closely related to "Farleigh St. Maves Retta," the cow which made the world record at the local Experimental Station last year.

Work has progressed rapidly at the telephone central station, and all the new "jacks" are now installed. The service is practically up to full possibilities though there is about a week's work yet necessary to complete the repairs.

The M.S. Pentowna, operating between Kelowna and Pentiction for the C.N.R., will be taken off this service Monday and Tuesday, May 7 and 8, and possibly Wednesday, May 9, for annual inspection and repairs. Every endeavor will be made to have the vessel in readiness to resume its regular schedule out of Pentiction, Wednesday.

Wheeler Funeral is Held in Peach Orchard

There were many of the friends of the late J. W. Wheeler in attendance at the funeral held on Monday afternoon. Members of the local Free Masons' Lodge acted as pall bearers. Meeting the boat at the wharf on Monday, they took the casket to the Peach Orchard cemetery, where interment was made.

Rev. T. W. Reed conducted a short service at the graveside, where quite a number of friends of the family had gathered for the opportunity to show their last respects to a former citizen of this community.

Pat and Mike were looking into a jeweler's window. "Mike," said Pat, "how'd yo look to have your pick here?" "Faith," answered Mike, "O'd rath-er have me shovel."

SHOOK MAKING IS GOING AHEAD

Box Factory Managed so as to Fit With Saw Mill When it Starts

Up at the box factory these days there is a steady rush of work. Judging by the show of fruit blossom, the early start at shook making is quite warranted, and the early employment of the approximately fifty men is necessary.

Mr. F. W. Grant has the work synchronized in the new arrangement of the factory so that when the sawmill starts, the two departments will dovetail and the supply of lumber will keep pace with the demands of the box making department. At present, the lumber piles are being noticeably lowered each week by the steady demands of the shook making machines.

The shook is being regularly moved out, and as fast as it is cut, the trucks haul it to the various packing houses, where room is being made to receive it.

The sawmill is practically ready to start work, some delay had been caused through part of the equipment not arriving as anticipated. Logs are piled about the mill in almost every available spot, yet ten more cars are expected almost any day.

Mr. Grant hopes it may not be necessary to have the plant running night and day, but considers it is not at all improbable, but in any event the mill is going to keep up to the demands made upon it, no matter how busy the season.

It is an interesting plant to go through and when the sawmill is in full operation it will be as busy a spot as the packing houses in apple time.

"POLLY WITH A PAST" IS HUMOROUS ENTERTAINMENT

When the Players' Club of the University of British Columbia comes to Summerland on the evening of May 19 it will present a three-act comedy entitled "Polly With a Past." This very entertaining play opened in New York, where it ran for over a year under the management of David Belasco.

A story of refined American life, with the spirit of youth predominating, it is particularly well suited to production by the youthful players of the University. It is full of bright, clean humor and amusing situations, and its audience is assured of an evening of unalloyed entertainment. The Vancouver Province speaks of it as "one of the best staged and best acted offerings of the student dramatic club."

Celebrates Her 87th Birthday Anniversary

About thirty ladies gathered at the home of Mrs. F. W. Feltham on Tuesday afternoon, May 1, to offer congratulations to her mother, Mrs. Smith, on the occasion of her 87th birthday anniversary.

The aged lady received the good wishes of the company very happily and entertained the guests with several short readings in the course of the afternoon. She received some lovely gifts and many beautiful flowers.

It is not often one attains this age holding the same cheerful outlook on life as does Mrs. Smith. Heartly good wishes were left by the guests that they would meet her on the first of May for many years to come.

Plenty of Rain and Sunshine in April

Mr. Geo. Johnson, at the Experimental Station, has made the following summary of the weather report to the end of April: The recent heavy rain gave a measurement of .65 of an inch. The total rainfall for April amounted to 1.57 inches, and the April average for twelve years past is .72.

The mean temperature for April is 46.50, and the average is 47.44. Remarks have been frequent on the loosened hours of sunshine, but when it is all totaled, April is not far behind the average. There were 161 hours this April while in the past eleven years the average was 101 hours, leaving the month of April, 1928, ten hours short of the average.

Then there was no frost recorded at the station thermometer last week, though the mercury dropped to 33.

NARAMATA

The local tennis club is beginning its new season, a good deal of work having been lately done on the ground by some of the members. The surface has been well sanded and rolled, and is now in fine shape.

A meeting of the Unity Club was held in the club building on Friday, Mrs. J. M. Robinson, president, being in attendance and made welcome after her absence during the winter months.

The members of the Ladies' Aid met on Wednesday at the home of Mrs. E. H. Hancock, Mrs. Geo. Cook presiding.

Mrs. Doggett and her little son are visiting at the home of her parents, Mr. and Mrs. H. B. Rushbury.

Service in the United Church was held on Sunday afternoon, Rev. W. Aitcheson officiating.

The heavy rainstorm of last week swelled the creeks here to the limit of their capacity, and entailed considerable work on the well at the intake, which was choked with debris washed down by the flood.

Mr. H. B. Rushbury returned on Monday from a short trip to the Coast.

Mr. F. H. Latimer, of Pentiction, was in town on Tuesday engaged in surveying portions of the lakeshore frontage north of the Co-operative Exchange buildings.

The annual tax sale of delinquent lands in the Naramata Irrigation District was held on Monday in the district office by the local collector, Mr. George Weaver, and several parcels were disposed of to local purchasers, among them being Messrs. J. C. Williams, W. T. Nuttall, H. P. Salting, W. Sammett and G. H. Partridge. In every case the properties sold had been held by absentee holders, and their acquisition by resident growers means renewed activities on lands which had for some time been neglected.

Kamloops Tax Rate for 1928 Set at 41 Mills

Kamloops—As anticipated, and reported, the tax rate for the city of Kamloops this year will be the same as last year, 41 mills, made up by a general and debt rate of 22.97 and schools rate of 18.03.

Estimates total \$389,726, as compared with \$351,581 in 1927. Expected increased revenue is the reason for the rate not going up.

School board estimates are \$2,600 higher than last year.

Father: "Every time you are bad I get another grey hair." Son: "Well, you must have been a corker. Look at grandpa."

Kamloops Nettled; Vice Regal Party Not to Visit City

Kamloops—There was no discussion after a letter from the city clerk of Vernon was read last night in city council, inviting the mayor and aldermen to meet Lord and Lady Willingdon, at Vernon, May 8. It seemed to be felt that Kamloops had been badly ignored in this visit, for after all the Governor-General had promised faithfully that he would visit the city this spring. Again, it was felt that Vernon sensed a sort of superiority coming to her and kindly stooped to her poor relation and invited her to come along anyway! Be that as it may, after an uncomfortable silence, Ald. Johnston moved that the invitation be refused with regret, and this was unanimously agreed to.

In preparation for the reopening of the North Okanagan football league on April 29, the Kelowna football club held its annual meeting last week and elected officers as follows: President, J. Silcock; manager, Bruce Deans; captain, W. Woods; vice-captain, R. Rowley; secretary-treasurer, Chester Owen.

North Okanagan Football League Commenced its Season on Sunday Last

The North Okanagan league consisting of Lumby, Vernon and Kelowna began operations with Vernon playing at Kelowna on April 29, the league fixtures lasting until June 24, Kelowna, which held the Whitten shield for some years without competition, was successful in retaining the trophy last year in the first year of revival of competition, and has about the same amount of material this year for the league entry.

WILL REBUILD CANNERY AT KELOWNA AT ONCE

Kelowna, April 28.—Announcement has been made that the Dominion Cannery, whose local plant was recently destroyed by fire, intend to rebuild immediately and will have the factory in operation in time to handle this season's crop.

YES AND NO

A venerable old Scot purchased a little radio set, and a few days later his friends asked him how he liked it. "Well, it's aw right to listen to," he replied, "but those bulbs are nae so gud to read by."

BROOM CORN FOR VERNON

Vernon—Growing of broom corn is to be experimented with this summer. During a recent visit to Vancouver, F. B. Cossitt discussed the possibilities of the use of land not under irrigation for this purpose. J. H. Roaf of the Clayburn Co. Limited, Vancouver, who is somewhat acquainted with the conditions under which broom corn is grown in the United States, so far interested himself as to secure a sack of seed corn which he has forwarded to Mr. Cossitt so that a thorough try-out may be arranged for.

SAFETY FIRST—AND LAST

"Do you know," she cried to her audience, who were nearly all of her own sex, "that our present style of sensible clothing has reduced accidents on street cars, trains, and buses by at least fifty per cent."

"She paused to let this sink in. It gave a bright young man his opportunity. "You'll excuse me," he said, very politely, "but why not do away with accidents altogether?"

Attention Ladies!

We have just received a special consignment of Silk Underwear, Vests, Bloomers, Bobettes, etc., in a variety of colors and styles. We will be glad to have you come in and see this special shipment. Prices guaranteed.

SPUN SILK

We have the most complete range of colors we have stocked. Buying direct enables us to meet competitive prices consistent with quality. See our display.

# New Long Distance Phone Line Is To Be Built Via Hope Through Okanagan

### B.C. Telephone Co. Plans Alternative Line to Alberta

#### DETAILS GIVEN ON RECENT TRANSACTION

#### Government Reasons are Produced for Sale of Interior Lines

In connection with the sale by the Dominion government of its telephone lines in the southern interior to the B.C. Telephone Company, it has been intimated that the company intends to construct a new long distance line from Hope to Brookmere, Coalmont, Princeton, Penticton, Summerland, Osoyoos, Nelson and Yahk.

#### Discussed in Valley

A good deal of discussion has been created in the Okanagan as a result of the sale by the federal authorities of all their lines in this section of the province to the B.C. Telephone Company for the comparatively small sum of \$50,000. The question has been asked why such a sale was not made to the Okanagan Telephone Company, already in the Okanagan field.

It is explained, however, that the lines sold to the B.C. Telephone Company comprise many more stretches of wire than actually operated by Ottawa in the Okanagan.

The B.C. Telephone Co. now operates in and around Nelson, on Vancouver Island and also in the Lower Mainland.

It has been built a toll line from Vancouver to Kamloops and also from Kamloops to Vernon. With the new lines contemplated from Hope through this southern district to Nelson and through the more northern section from Kamloops to Field, it became clear that the government lines would have long distance competition in almost every quarter.

#### Lost \$30,000 Last Year

Last year Ottawa lost \$30,000 in the operation of its lines in the southern interior, and with increasing competition through the B.C. Telephone extension the deficit would be greater. The government was also faced with the necessity of making many capital improvements to its lines in order to bring them up to standard efficiency. This would probably mean a capital expenditure in this section of about \$30,000.

It was apparently felt, therefore, that with the strength of the B.C. Telephone Company and its programme of expansion, it would be the logical buyer of the government lines.

The government's idea in the past has been to build in isolated sections and give the country districts telephone service, even at a loss. When the time came that it could turn over its entire block of lines in any one district to a commercial company on some agreement by which the "farmers' wires" would be continued, it was evidently prepared to make a transaction.

By this sale it believes that it will now save further capital expenditure here as well as eliminate an annual operating loss of \$30,000 and will give the southern interior population a wider service through B.C. Telephone lines.

#### Did Not Want to Buy

Insofar as the Okanagan Telephone Company is concerned, it is said by Ottawa, this company never at any time offered to buy any portion of the government system in the southern B.C., but on the contrary stated that it was not in a position to do this. What it sought some years ago was merely a lease of the government circuit between Penticton and Vernon, leaving Ottawa to continue with the remainder. The government naturally did not feel like leasing the revenue paying part of its system and accordingly took the stand that it would sell all or none.

As the interior situation now will be, the B.C. Telephone Company will operate a line from Vancouver through Hope, Kamloops and Field to connect with Calgary, and another connecting line leaving Hope and Nelson with southern Alberta points. In addition to tapping the Okanagan at Penticton it also will have its line from Kamloops to Vernon as well as the government line down the valley and the various rural lines.

In the course of time it is presumed that the larger company will undoubtedly absorb the smaller.

The situation, insofar as the Okanagan Telephone Company sees it, is hardly in accordance with the government's view.

The Okanagan Telephone Company has always been ready, it is claimed, to take over that part of the government system lying within its own sphere of operations, and sees many precedents for this in previous sales by Ottawa of various of its phone lines. But in the past Ottawa has always set such a high value upon its circuits that there was never any real opportunity to enter into serious and constructive negotiations.

The valley company, however, felt assured from verbal statements made to it that when the time really came for a sale it would be given the first chance to buy. Hence the transaction with the B.C. Telephone Co. was a great surprise.

### Hospital Donations For Month of April

Gifts to the hospital for the month of April are as follows: Mrs. H. E. Elsey, bottled fruit and apples; Mr. H. Dunlop, milk; Mrs. A. Nelson, bottled beans; Miss Curry, books (fiction); Mrs. Andrew, magazines; Mr. Klingsell, eggs; Baptist Church, catfish; Mrs. C. Elsey, bottled fruit and tomatoes; Hospital Auxiliary, serviettes, doctors' caps, surgical towels, ten large sheets, six small sheets, forty surgical sponges, seven utility covers and seven teaspoons from shower; Mr. Beattie, two sacks potatoes; Women's Institute, eighteen dozen eggs and waterglass; Mrs. Koop, eggs; Mr. W. C. W. Fosbery, eggs; Mrs. H. Vanderburgh, eggs; Mrs. Wolf, pickles and rhubarb; Mr. Noel Higgin, apples; Mrs. Pineo Young, eggs and two sacks potatoes; Mrs. Blair, eggs.

### FUTURE EFFORTS OF LOCAL CLUBS MAY BE UNITED

#### Desire Expressed Replacing Chautauqua—Keep Funds For Local Needs

There was practically a full attendance of the membership of the Musical Society at the social and business meeting called for Wednesday of this week, when a very interesting musical programme preceded the short business meeting. A partial report of the secretary was presented, several ideas for future work of the society were advanced and officers were appointed for the ensuing year.

Group singing was enjoyed for a few minutes and then Mr. T. P. Thornber, as chairman, called upon Mrs. F. Mossop and Cyril for a piano duet. Songs were given by Mrs. Geo. Harding, Mr. W. Boothe, Mrs. G. E. Weaver, accompanied by Mrs. Mossop, Mr. Chas. F. Killick and Miss-Nessi Smithson, accompanied by Miss Dale and Mrs. Albert Anderson accompanied by Mrs. D. L. Sutherland.

Mr. W. C. Kelley, president of the society, then took the chair for the business meeting, which was conducted in a very pleasant spirit, those taking part keeping Summerland's interests continually to the fore, rather than just those of the society.

Rev. T. W. Reed was called on and suggested that for the future a change be made. He felt there were rather many organizations splitting the efforts of the community and would like to see all united, presenting a programme once a month next winter. Three of these entirely local talents, and by doing away with Chautauqua, keep funds at home but bring in three outside attractions of real known worth.

Mr. Kelley supported this view, showing its feasibility.

Mr. Mossop suggested the society become the local representative of the Musical Festival and advocate that it be moved from place to place.

Mr. Macrae being called upon stated that he was most agreeably surprised with the results of Friday's programme and considered there was a good future for the society.

### Silver Wedding Noted By Surprise Party

On Thursday evening of last week the members of the local St. Andrew's and Caledonian Society, with their usual enthusiasm, journeyed out to the home of a fellow clansman—Andy Moyes—to tender their felicitations to him and his good lady on the occasion of attaining their silver wedding.

The venture was in the nature of a surprise one, so much so that Andy, fearing a raid, thought of taking to the heather like a modern Rob Roy or Roderick Duin. Realizing, however, that the mission was a peaceful one and that there was no warlike intention on the part of the visiting highland host, he and his amiable partner set about receiving their friends in the most becoming Scottish fashion.

A most good time was enjoyed by all in singing the "Hilling songs of home." During an interval in the prevailing hilarity, Mr. G. D. Marshall, president, on behalf of the society and in a few well chosen remarks, presented Mr. and Mrs. Moyes with a set of stainless knives and forks as a token of the high regard in which they were both held by the members of the clan. Mr. Moyes suitably replied.

The time flew past with tintless heel, and the moon was fast sinking beyond Ben-Voirlich ere Andy from his mound waved adieu to the last of his happy guests.

Short speech he stood—then waved his hand.

Down sunk the disappearing band; Each warrior vanished where he stood; In broom or bracken, hearth or wood.

The pupils at central school were busy practising on Thursday for the track meet events.

### Youthful Orator Who Competed in District

Henry McCall, Peachland high school pupil, who won the Okanagan and Kootenays district finals of the Second Annual B.C. Oratorical Contest, conducted by the Vancouver Sun, held recently in Penticton. He travelled to Vancouver to represent this district in the provincial finals on May 4. Henry is the son of Mr. and Mrs. H. E. McCall, Peachland. Miss J. MacDonald is his school principal. In the provincial finals at Vancouver he made a good showing in a field of eight, although not successful in capturing first place. The winner for B.C. was Swanhild Matthison of New Westminster, a niece of Edith Wynne Matthison, famous British actress. Many local people listened to the young speakers over the radio.

### ROAD TO FISH LAKE DIFFICULT

#### Now Practically Impassable on Account of Stream's Vagaries

Fishermen who visited Fish Lake during the week-end report that the road is now virtually impassable. Saturday, at least forty anglers threw lines into the lake, while Sunday saw sixty fishermen there. A number took boats up with them while others made rafts on the scene. Conditions insofar as the weather was concerned were ideal but the fishing was rather spotty. A few parties struck lucky holes and got a good catch; others took out practically no fish at all.

The road conditions were none too good for those going in Wednesday, Thursday and Friday, on account of soft spots near the lake. Saturday and Sunday warm weather brought down floods of water from mountain brooks, and the road became practically impassable. It is doubtful if any car could get within two miles of the lake today. In several places the roadway is practically washed out and in other sections it is a bog hole for a hundred yards.

The construction of several culverts and the installation of corduroy road in various sections, are necessary if fishermen are to be able to reach the lake by car this spring. While probably only \$100 would have made a passable road a week ago, today the expense will be much greater on account of the damage done by the water deluging stream in the meantime.

Several fishermen took out fine samples of Eastern Brook trout. All of the fish taken, both Eastern Brooks and the local rainbows, were in splendid condition, firm and tasty.

T. B. Harris, of Penticton, contemplates erecting a cabin at the lake for the benefit of visitors, and also putting several boats on the water.

W. A. McKenzie, M.L.A., has written to Hon. D. Sutherland, minister of public works, urging that something be done to improve the Fish Lake road. It is understood that S. T. Elliott, district road foreman, is now inspecting the road.

### CHURCH COMES BEFORE SPORTS

Merritt—The one hundred and ninth anniversary of the founding of the Independent Order of Oddfellows was celebrated by local members of the fraternity on Sunday. About forty brethren paraded from the Oddfellows' Hall to St. Michael's Anglican church. All wore regalia. The parade was led by Don Shaw, Noble Grand of the local lodge, and by W. H. Huxton, Chief Patriarch of the Encampment.

Rev. A. G. Reeves, basing his sermon on words in Jeremiah, chapter seven, verse two, said the prophet's message in regard to duty of worship of God was applicable for all time. Attendance of the Oddfellows in a body that day was a public and official recognition of this duty.

The day of worship must not be made simply a day of sport and pleasure-seeking. He noted, for example, that a schedule of baseball fixtures was being held. The church does not condone sport on Sunday, emphasized Rev. Reeves, but it absolutely insists on a man's duty to God being fulfilled first. Churches in Merritt give all citizens an opportunity every Sunday for morning worship.

The speaker referred to a host and hostess issuing invitations to a picnic on Sunday, saying, "If you accept you must go to church first."

Touching upon the Americanization of the Canadian Sunday, he said they might learn much from Americans who certainly have plenty of sport on Sundays but crowd their churches in the morning.

### CONVENTION OF W.C.T.U. WAS BIG EVENT HERE

#### Delegates Came From All Points of District Interested

#### OFFICERS ELECTED FOR ENSUING YEAR

#### Important Addresses Given At Early Meetings of Delegates

The twentieth convention of the W.C.T.U. for the Okanagan, North Thompson and Selkirk districts was held last week at Summerland. On Wednesday, following final arrangements made by the executive the previous evening, there was a speedy attempt to routine matters; Reeve Johnston gave an address of welcome and eight locals made reports. Papers on subjects of interest to members were read and discussed. Rev. J. J. Smithson was the convention speaker and gave his address on Wednesday.

The officers were elected for 1928 at Thursday morning's session. A report last week covered the annual medal contests in vocal music and elocution.

The convention meetings were held in the Baptist church, West Summerland, Wednesday morning, May 2, the president, Mrs. B. R. Campbell, of Kamloops, took the chair.

Mrs. Hastings of Vernon led the devotional half hour, after which business was proceeded with. At a meeting of the executive on Tuesday evening the last arrangements were made and committees nominated on finance, courtesy and credentials, resolutions, and plan of work, so that the routine business went through in the least possible time. Fine reports from eight local unions were received, and those at Salmon Arm and Kelowna, being new, were welcomed. These reports told of much good work being done and a greater interest in temperance affairs all over the district, this being fostered by public meetings and distribution of literature.

Miss Smith, of Peachland, read a most suggestive paper, "Christian Women and the W.C.T.U.," stressing the importance of every Christian woman doing her full part in the work undertaken by that organization.

At the afternoon meeting, Mrs. Sadler, of Peachland, conducted the devotional period. Mrs. G. J. C. White, Summerland, read a paper on "Coming Prohibition and Women's Part in Bringing It," saying women must encourage, temperance, education with the hope that the new work on hygiene for the public schools will be a help. They must pray, work, fight and vote all in line to gain their goal.

Greetings were brought from the St. Andrew's United W.M.S. by Mrs. Fleming, Lakeside United W.M.S. by Mrs. Mellor, St. Stephen's W.A. by Mrs. Barnes, Baptist W.C. by Mrs. Smithson, and the Women's Institute by Miss I. Spencer.

The business of the afternoon was the reports from departments, which showed a large amount of work done in many lines. Two vocal solos by Miss C. Graham and Mrs. Weaver, and a piano solo by Miss Stella Wilson made welcome breaks in the programme.

Wednesday evening Mrs. Dawson of Penticton led the devotional exercises. Reeve R. Johnston brought a cordial civic welcome, saying, among other things, that liquor had never been legally sold in Summerland. Rev. T. W. Reed followed with an address of welcome from the United Church of Canada in Summerland, emphasizing the stand that church takes on the prohibition question, which is an inheritance from the great churches from which it is formed. Mr. W. C. Kelley brought a message from the Baptist church and expressed their pleasure in entertaining the convention.

Rev. J. J. Smithson was the convention speaker and gave an address on "The Ethics of Prohibition," deprecating some of the ways the work was sometimes carried on, and showing that invidious never won friends to the cause but that kindness and education were better weapons.

The addresses of the evening were interspersed by delightful music. George Mossop played a beautiful clarinet solo, Miss Price a vocal solo and duet with Mrs. Price, Miss Carol Graham and Mrs. Anderson vocal solos and Miss Price and Miss Lind a piano duet.

Thursday morning the convention got down to work after being led in the devotional period by Mrs. Thompson.

Reports of the resolutions and plan of work committees were heard and adopted.

The election of officers resulted as follows: Honorary presidents, Mrs. M. M. Allen, Naramata, and Mrs. Doherty, Vernon; president, Mrs. B. R. Campbell, Kamloops; vice-president, Mrs. R. Arnold, Armstrong; second vice-president, Mrs. T. J. McAlpine, Summerland; corresponding secretary, Mrs. W. C. Kelley, West Summerland; treasurer, Mrs. Thos. Ball, Armstrong.

The afternoon session opened with the devotional period by Mrs. Rear, Revelstoke. Mrs. Arnold, Armstrong, opened the question box and gave much valuable information, answering questions and problems. After some routine business the delegates listened to an interesting and informing paper on "The Pills in Present Day Literature."

The president's address was a feature of the afternoon, being most inspiring.

Miss Margaret Stark and Miss Ruth Tait sang beautiful solos. After the appointment of eight district superintendents of departments the convention adjourned and the delegates were taken for a drive, about fifteen cars being on hand.

The convention closed after the evening session, which has already been reported.

### TAKES FIRST PLACE IN B.C. ORATORICAL CONTEST

Miss Swanhild Matthison, of New Westminster, sixteen-year-old daughter of Mr. and Mrs. A. A. Matthison, captured the honors in the provincial finals of the Vancouver Sun's oratorical contest. Henry McCall, district winner for this section of the province, was one of the competitors in the finals at Vancouver last week. Miss Matthison is a niece of Edith Wynne Matthison, British actress, and is a pupil in the New Westminster school of which Thomas H. Calder, formerly of Penticton, is principal.

### MUSICAL SOCIETY CONCERT WAS BIG SUCCESS

#### Attendance Surpassed That Expected—Winter's Work Reviewed

#### KELOWNA SINGERS HELP WITH CHORUS

The programme which the Summerland Musical Society presented on Friday evening last was a decided success. The capacity of St. Andrew's church was taxed to the limit. Those attending were most appreciative of the efforts of the singers, and the society was greatly pleased with the reception of their effort.

Mr. D. Macrae of Kelowna, under whose leadership the society has been throughout the evening, presenting first "The Crucifixion." Mrs. P. Trenwith and Mrs. H. Glen, of Kelowna, assisted the choir and quartet. Mr. T. P. Thornber accompanied at the organ, and Mrs. F. Mossop at the piano.

For the short preparation the choir had before the singing of "The Crucifixion," it did remarkably fine work, and the entire presentation was made with decided confidence and beauty of interpretation. The clear enunciation and attention to shading were two prominent features observed by the singers.

The second half of the programme was of a different nature and fully as much appreciated and approved by the audience. The first three numbers were part songs, "Society Hall," "Shades of Evening," "The Skylark's Song" and "The Nightingale."

Mrs. Trenwith and Mrs. Glen sang the selection for which they were awarded the medal at the recent festival, which was very much enjoyed. Mrs. Glen gave two solos that were most generously applauded. Following her, Messrs. Beavis and Newton gave the duet for which they had been awarded the silver medal at Kelowna, and they were brought back to sing it over again for an encore. Mrs. Trenwith sang a solo and, as on former occasions here, received a most appreciative hearing and hearty applause.

A male quartette, Messrs. Beavis, Newton, Smith and Boothe, gave the next number, and were generously rewarded by the audience's hearty applause.

The last number of the programme consisted of three selections by the choir, one of which was a negro spiritual, "Were You There?" followed by "Moonlight," music by E. Fanning, and a third one, "How Lovely is Thy Dwelling Place."

#### A REAL TREAT IS COMING HERE

A play that ran a year in New York, and then was most successful in London, is the offering of the Players' Club of the University of B.C. who appear in Summerland at Ellison Hall on May 19. This delightful comedy has charmed Vancouver and other places where it has been presented to date, and is considered the best "Players' Club production since "Green Stockings" in 1920.

The cast is headed by Miss Hope Leeming of Victoria, sister of Miss Marjorie Leeming, Canadian tennis champion. As Polly, she has won the highest plaudits from Coast critics. The Vancouver Sun remarked: "In a part which calls for rare technique and unusual powers of characterization, she acquires herself with great distinction." Alfred Evans of Vancouver, the leading man, is a most capable actor, with a fine sense of pantomime.

Brilliant acting and artistic staging make "Polly With a Past" a most finished production and an evening in the theatre long to be remembered.

reported. Most beautiful feasts were served both days of the convention at noon and evening in the convention church, Wednesday by the ladies of the Baptist church and Thursday by the ladies of the United church. The W.C.T.U. is much indebted to these ladies for their great kindness and generosity.

### SUMMERLAND ENJOYED ANOTHER VICE-REGAL VISIT FOR BRIEF TIME TUESDAY EVENING LAST

#### Generous to Extent of Almost Ten Dollars

One of the interesting events of the opening of the fishing season was an attempt made by Percy Rand and C. E. McCutcheon to persuade Magistrate White that it was generosity on their part that encouraged them to keep on fishing for a few extra of the funny tribe in order to make a donation to the hospital for Hospital Week.

His Worship considered that if the generosity were as manifest as they would have him believe, the donation should have been made from their own catch, and so impressed was he with this view that he asked them to increase the public treasury to the extent of \$8 each, and costs—and the fish.

### MORE MUNICIPAL LAND PRICED FOR BUYERS

#### Baseball Field to be Sold—Government to Build Implement Shed

#### COST OF HIGHWAY UPKEEP NOT PASSED

#### Council Intends to Purchase New Truck With Dump Body Equipment

At Tuesday's council session there were no unusual questions up for consideration but there were numerous small items to be put through. Two pieces of tax sale land were valued for prospective purchasers, and will no doubt be sold as a result. One sale will bring a new citizen who proposes to set out an orchard. Accounts of a little over eight thousand dollars were passed. A bill for twenty-three hundred dollars, Summerland's share for one year of the maintenance of the long stretch of provincial highway through town, was on the agenda. The discussion of the question of which make of truck was best to purchase for municipal work took considerable time of the session.

Under reports from committees there were several places in the municipality talked over, that had been used for piling runnings, and as it was too late for burning permits, it was felt that those offending should be asked to look after the brush, and another year the offence should in some way be prevented.

Some complaints were registered because there was no phone connection with the Prairie Valley pound. The pound keeper is to be instructed to install one for future calls.

A communication was received from the Soldier Settlement Board stating that a conference was desired over items of mutual concern.

A request was received from Mr. A. P. Shuley for a price on the municipal property behind the high school. There was some hesitation before a figure of \$1,200 was set. It was not known whether the baseball team wished to use this lot, as they had not been very active getting it in shape, but in any case, if the deal went through, the property would not likely be wanted till after the baseball season was over, as it was now too late to set out trees.

The provincial government wanted to purchase the lot behind the road, packing shed for equipment storage, and a price was placed on that of \$100. The final reading was given to the bylaw for the sale of municipal property, to Mr. Jas. Hermlston in Prairie Valley.

The report of H. Tomlin on progress of the work on the irrigation system was received and filed, showing that the proposed repairs were keeping up to date and that about as much had been done as finances allowed for the purpose in the budget would cover this year. The government statement of \$2,300, Summerland's share of highway maintenance, was filed without comment.

Accounts passed totalled \$3,312.50. Of this, \$2,545 was for schools, \$2,843 wages account. Plume materials, with other incidentals, took up practically the remainder of the amount.

#### OLIVER PLANS FOR MAY 24

The clerk replied to the question as to how the first payments or irrigation rates were coming in, by stating that the amount received was as good, if not better, than last year.

Mr. Scott Tait complained in a letter that one of his cows had been killed by someone driving a truck out to the hills for wood. The animal had evidently been struck on the head by a bar. He also made application for work on the dams this spring. No definite action was taken.

For about an hour the council debated the question of what truck to purchase for municipal work. The need of a new truck with a dump body was now necessary, but what make could not be settled. No one showed any preference, and so the matter was left over, undecided.

#### WISTERIA VINE IN BLOOM FOR THE TULIP SHOW

One of the reasons why the Tulip Show is to be held at the home of Mr. and Mrs. G. J. C. White is because the Victoria vine at the end of their house will be in full bloom, or nearly so. This great plant is one of the finest, if not the finest, of its kind on the Pacific slope, and this year will have particularly fine show of bloom.

Visitors from nearby places make an annual visit to see the vine in flower. While some tulips will not be at their best for the show, there are many varieties that will present an excellent flower, and there is every indication of a splendid entry.

#### Most Delightful Occasion Observed by Crowd at High School

#### GOVERNOR GENERAL DECORATES CENOTAPH

#### Veterans, Girl Guides and Boy Scouts Were All Inspected

Summerland has again had the pleasure of welcoming the Governor-General within its boundaries, and while preparations were most hurriedly made, the welcome was none the less sincere, nor did that detract any from the success of Tuesday evening's welcome to Their Excellencies Lord and Lady Willingdon.

The visitors motored from Vernon in the afternoon, arriving at Peach Orchard road, where they were met by Mr. Ned Bentley, president of the local branch of the Canadian Legion, who joined them there and drove to the Cenotaph on the high school grounds, for the carrying out of the programme that had been arranged.

At the grounds, Mrs. Kate Bentley, for the Women's Auxiliary of the Canadian Legion, met Lady Willingdon. The distinguished guests then walked to the Cenotaph. On either side of their path the veterans had been lined up, wearing their medals. In front of them the Boy Scouts and Girl Guides were also assembled. In the absence of the Reeve and council, who had been expected to take charge, Major Tweedie gave a short impromptu address, though none the less sincere, in which he referred to the local appreciation of the honor done to Summerland through the visitors having consented to make a break in their hurried trip, that they might visit here. He also expressed the hope that at some future time, not too far distant, they would again come when the points of interest about the place might be shown them.

#### Placed Wreath on Cenotaph

His Excellency then placed a wreath upon the Cenotaph, but somehow it would not hang just right, and Lady Willingdon, noting the difficulty, quickly arranged its position, which drew a commensurate amount of His Excellency's attention. "It just required a lady's touch."

That little situation and the artful handling of it put a tone of informality upon the occasion which set everyone at ease.

Mrs. Bentley then presented a bouquet to Her Excellency on behalf of the W.A. of the Canadian Legion, which was most delightfully received and appreciated.

Lord Willingdon spoke for a few minutes, saying how enjoyable it was to have this pause after a most strenuous day and to discover the spirit of loyalty among the people of Summerland. This made it an added pleasure to stop for the few minutes to thank the citizens, on behalf of the King, whom he represented, for their delightful reception. He assured all that it would be a pleasure if it were possible at some future time to accept the hospitality that Major Tweedie had suggested. Indications pointed to a rich harvest and he hoped all might share prosperity and health.

#### Inspection is Carried Out

Their Excellencies then inspected the veterans, Girl Guides and Boy Scouts, and mixed among the crowd, showing their entire unreserved goodwill. Speaking to those about as the occasion presented itself, they stated how much they regretted that it was not possible to take the time to call at the hospital and sign the register, or to be able to visit the Legion Hall.

Lady Willingdon at this time asked that the high school be closed for a whole holiday on Wednesday, which brought a rousing cheer from the many little folks who were present enjoying the excitement of the occasion.

The greetings over, the party entered their cars to the rousing cheers led by the veterans, and only for the bashfulness on the part of the young fellows in the crowd to lend off, a second round of cheers would have been given for Lady Willingdon.

The party drove around the business block, and on down the road through the orchards, in full bloom, at the foot of the Giant's Head to the sand hill, on their way to their train at Penticton.

### OLIVER PLANS FOR MAY 24

#### Victoria Day is to See Big Celebration at Project Town

Oliver is preparing a royal welcome for its friends on Victoria Day, Thursday, May 24, with a holiday programme which provides for \$500 in prizes.

A baseball tournament with teams from Penticton, Summerland, Peachland and Oliver will start at 10:30 in the morning. Boxing events will follow the conclusion of the tourney on the diamond and there will also be a tug-of-war competition for teams of six a side.

An extensive programme of field sports will be carried out at 3 o'clock in the afternoon.

The crowning of the May Queen, with songs, drills and dancing by the school children, is another feature of the day.

Sixty five serenaders will provide the music for the grand dance in the evening.

Miss Thelma McLeod, of Vancouver, is visiting Mr. and Mrs. H. Daniel.

**PEACHLAND NEWS**

By Our Resident Correspondent

Mrs. Bell and family were among the recent arrivals, having come in last week from Hanev to spend a vacation here with Mrs. Bell's parents, Mr. and Mrs. Wm. White. She, with her husband, spent some weeks in Peachland during the season of 1926.

Quite a familiar sound is heard in the vicinity of the fruit packing houses again. The tap of the hatchet resounds as Walters Ltd. men have started box making for the season's run.

Edgar Taylor and Arthur Oliver came over from Kelowna for the weekend on Saturday last to attend a party at the Taylor home for Miss Anna Taylor, who expects to leave before long to return to her training. There were several young people present on the occasion of this party, and all had a very enjoyable evening.

Quite a fair sized crew is at work on the lakeshore drive between here and Deep Creek and is making quite an improvement, certainly where improvement has been quite necessary.

The members of the Lady Orange Lodge held their regular monthly meeting in the Municipal Hall on Monday evening last with a good representation present. Routine business was taken care of, and they are preparing, with the help of the men's lodge, to entertain the women's brethren and sisters in the near future, possibly on the last Thursday in May.

A public audience in the Municipal Hall enjoyed a great treat on Thursday evening of last week when, under the auspices of the Women's Society of the United Church, Miss Marie Lipsey gave a recital, impersonating all the characters in and telling the story

of "Peg o' My Heart." All present were enthusiastic in their praise of the ability of Miss Lipsey to carry her audience with her and let them look right into the home and almost into the hearts of the various characters of the story. It was to be regretted that more persons in the community had not availed themselves of the opportunity of hearing and seeing this very capable young lady. Mr. J. Galatly came down from Westbank with an auto load to hear the recital, and so taken was he with it that he made arrangements with Miss Lipsey to give a recital in Westbank and he undertook to see to the transportation by car so that she would not need to interfere with her regular itinerary.

We have another new car owner in town since last week-end, in the person of Mr. W. Wilson, and just this week Stanley Dell acquired a Studebaker for the handling of the passenger end of his transfer business.

The Morsch brothers recently returned home from Vancouver, Joe last week-end and Paxton preceding him by about a week. Joe has finished another term in the U.B.C. and Paxton has been taking music.

The school board recently called for tenders for the position of caretaker at the central school. We understand there were four applications for the job, and the board considered them on Monday afternoon, deciding in favor of Mr. George Jones.

A party of four young belles from Summerland arrived in Peachland on Wednesday afternoon of this week, enjoying a hike, made possible by a holiday in their school suggested and proclaimed by Lord and Lady Willingdon, who visited Summerland the evening

before. These young ladies started out intending to hike all the way to Peachland and make the return journey by boat in the evening and were carrying out their intent enthusiastically, until a pressing offer of a ride in an auto tempted them and they accepted the lift for the balance of the journey. This brought them to town early enough to be able to look up some acquaintances and enjoy the balance of the afternoon till the SS. Sticamous arrived. They were the Misses Jessie Tullett, Jean and Elizabeth Mann and Ruth Tait.

After a few weeks spent at home recuperating after her illness in Kelowna, Miss Annie Taylor returned on Sunday last to continue her training in the Kelowna hospital.

Lord and Lady Willingdon passed through Peachland by auto on Tuesday evening last, but did not make an official visit in town. They paused a moment, however, in front of the monument. There were quite a number of disappointed folks who had heard of his address and delivery. At the present writing we have not heard what place he holds according to the judges' ranking, but he is enjoying a good time in the city. We think a word would not be amiss here in recognition of the kindness of the various radio set owners making it possible for so many to listen in on this occasion. To lend a good finish for the

evening and in honor of the district representative, Mr. Button, the baker, took his ice cream tubs out on the street and dished out free ice cream in abundance.

Mr. and Mrs. George Gray of Summerland were visitors in town on Tuesday last, spending the day visiting friends and relatives. They motored up with Mr. J. M. Robinson and nephew Will, who passed on through on a business trip.

THE PATTON-NEWELL ARTISTS

**Oroville Boys Find Rattlers' Den; Slay Total of Forty-one**

Oroville—Many anglers have their fish stories—others their dreams of big game which they are about to bag on a hunt, but when it comes to snakes—that's a different proposition. Last Thursday while Francis Hart and his companion were in the Wannacut Lake district, hunting for groundhogs and other small game, they came upon a snake den on a rock bluff. To make the story short there must not be a snake left in that section, because they returned to Oroville with 41 real specimens of Crocotalidae, genus Sistrurus, known among the residents of Okanogan county as the common rattlesnake.

According to the boys' story, they were out hunting and as they came over this rocky point, the snakes were encountered. They started shooting as any real westerner would do under the circumstances, but ere long they realized that their ammunition would not last long enough. With this thought in mind and self-preservation next in order, implements of warfare, best known about 5,000 years B.C., were then employed to win the engagement—which they did very creditably

**This Great Healing Oil Must Banish Eczema and Skin Troubles**

Make up your mind today that you are going to give your skin a real chance to get well. You've probably been, like a lot of other people, convinced that the only thing to use was an ointment or salve (some of them are very good) but in the big majority of cases these sticky salves simply clog the pores and the condition primarily remains the same. Go to any good druggist today and get an original bottle of Moone's Emerald Oil.

The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your skin troubles will be a thing of the past. Remember that Moone's Emerald Oil is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue and that it must give complete satisfaction or your money cheerfully refunded.

**SYNOPSIS OF LAND ACT AMENDMENTS**  
PRE-EMPTIONS  
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes.  
Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.  
Records will be granted covering only land suitable for agricultural purposes and which is not timber land, i.e., carrying over 5000 board feet per acre west of the Coast Range, and 8000 feet per acre east of the Range.  
Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.  
Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres before a Crown Grant can be received.  
For more detailed information see the Bulletin "How to Pre-empt Land."  
**PURCHASE**  
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land, \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 1, Land Series, "Purchase and Lease of Crown Lands."  
**UNRESERVED AREAS LEASES**  
Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.  
**LEASES**  
For grazing and industrial purposes, areas not exceeding 640 acres may be leased by one person or a company.  
**GRAZING**  
Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers and travellers, up to ten head.

**THE SUMMERLAND REVIEW**

Established August, 1908  
 (Published at Summerland, B.C.)  
 Walter M. Wright, Editor & Manager

**JUST ONE REGRET**

It is a pity to throw cold water over such a success as was the reception given the Governor-General and his party on Tuesday and so far to some extent that occasion, but it should not go unmentioned that it was regretted the reeve and council should have absented themselves as a body, from the proceedings.

This was an occasion when Summerland was shown an unusual courtesy not to be allowed to go unappreciated, for there was every reason to pass the little place by, in the hurry of the party's trip from Vernon to their train. There was a deviation from their plans requested at the last minute, so to speak, and their compliance with our community's request deserved the attendance of as many of the town fathers in a body as could possibly be at the reception.

Some of them were with the gathering about the Cenotaph, but as leaders of Summerland it would certainly have looked much better indeed if all could have made it possible to be present and receive the party. On occasions of this kind no lengthy speeches are wanted and the formality required is so slight that anyone can comply with it.

That the event was such a success is certainly a pleasant memory to carry with us, but it would have been a brighter spot in our records had it been more graciously observed.

**ADVANTAGES OF MACHINE TRANSPLANTING OF TOBACCO**

(Experimental Farm Notes)

The use of the machine for transplanting tobacco has many advantages over the old tedious and laborious method of setting the plants by hand, and this may be emphasized particularly where tobacco is the main crop on the farm and grown to any large extent.

A man and a boy, and possibly a third hand for carrying water, will transplant about 5,000 to 8,000 plants in a day, while with a machine, anywhere from 25,000 to 30,000 plants can be set out in the same length of time. Estimating man labor at 30 cents an hour, a machine would pay for itself in a very short time. Therefore it is worth consideration when figuring the cost of production.

The efficiency of the work done by the machine is much in its favor, for replants set out by hand, very soon after the original planting, can sometimes be traced throughout the whole growing season. The machine apparently places the soil around the fine root-system more to the natural liking of the plant.

Probably the greatest advantage in using a machine is that transplanting may be done at any time of the day without any very serious effects, while for best results with the hand method it is almost necessary to wait until after showers or rains. Thus from the standpoint of economy of labor, efficiency, and speeding up of operations the machine transplanting of tobacco cannot be too highly recommended.

R. J. HASLAM,  
 Tobacco Inspector

**Firestone Tread is Scientifically Designed**

When Firestone engineers were developing the Balloon Tire they found it necessary to design a tread altogether different from that required by High Pressure Tires.

The Firestone tread was not designed with large, massive projections for appearance or to make plausible sales argument. On the contrary, the projections of the cross-hatch tread are small and the rider strips narrow, permitting the tread to yield to irregularities and cling to the road, giving the greatest non-skid surface. This tough, pliable tread has the wear-resisting qualities that give thousands of extra miles of service and save you money.

Your nearest Firestone Dealer will gladly supply your needs and give you the better service that goes with these better tires.

**CORRESPONDENCE**

Editor, Summerland Review:

Dear Sir: May I ask a little space to make a few comments on the views expressed by your contributor re the Okanagan Valley musical festival in your last issue.

Taking it for granted that he means what he says when he closes his article "but on the whole the third annual festival was very successful," much of what he has to say in criticizing the adjudicators must be what is known as "hot air."

Certainly a musician is entitled to his own views (and musicians very often differ in their opinions), but the ungentlemanly manner in which your contributor expresses his views, at the expense of the adjudicators, will, I think, bear correcting. His comments re vocal decisions, and "a carping sort of criticism" might very well apply to his own manner of writing. To pass remarks about the adjudicators being "at sea" when referring to "phrasing," "diction" and "intonation," and then to give his own little talk on "pedagogics" and "crystallized pedantry" makes one wonder whether he was in the same boat when the judges were "at sea." To my certain knowledge, the adjudicators both stand very high, musically, in their respective communities, and surely, "by their fruits ye shall know them."

I agree with your contributor in his opinions re the syllabus and also with what he has to say regarding the tremendous value of the festival, witness the progress being made in our own schools, as a result of the unstinted labor of some of our teachers, but I believe the value of the festival will be still further enhanced by more entries, especially in choral classes, and by writers offering criticism that is "constructive" and not "destructive."

Yours sincerely,  
 FRANK MOSSOP.

**RIVER RUNNING VERY HIGH IN SOUTHERN AREA**

**Bottom Lands on Oliver Project Are All Inundated**

**ROAD TO ANARCHIST MOUNTAIN IS WET**

**Creeks Pouring Floods Over All Meadow Areas Near Boundary**

Oliver, May 10.—The Okanagan River through the Irrigation Project bottom lands is running considerably higher than since the flood of 1921. The banks are running full, and water has been overflowing or seeping through into bottom lands. The rise during the last few days, with the exception of Wednesday of this week, has been rapid, and indications point to a real serious flood menace before the end of this month or the early part of June. The peak has not yet been reached, and reports from those well back in the hills in this vicinity are to the effect that practically no snow has as yet melted, and that there is considerably more snow there than for the past several years.

**Bottom Lands Covered**  
 Practically all bottom lands are covered with water, although some of the higher ones are dry with the exception of low spots. The Island at the north of the project is almost wholly inundated, whilst bottom lands running south and adjacent to Oliver are covered with sloughs. At the south end the Osoyoos meadows is almost part of Osoyoos lake, the water being almost over the road leading to the bridge to Anarchist Mountain.

The Similkameen is running full and has backed up the water practically to the head of the old Haynes Meadows, and reports from Oroville indicate that higher water may be expected, as the creeks are running in the next valley in flood water which have been dry for years. The same applies to creeks tributary to the Okanagan, water flowing down gulleys that have been dry washes for several years. MacIntyre Creek has not as yet started, but is carrying considerable water. With cool nights the river should hold to about the present level, but with a hot spell of a week or two, and with the quantity of snow well back in the hills, the run-off will be greater than for many years past.

**BEEES REQUIRE SPRING FEED**

**Never Feed Honey from an Unknown Source; So Escape Disease**

(Experimental Farms Note)

By C. B. Gooderham

The amount of surplus honey that a colony of bees can store depends largely upon the strength of its field force at the commencement of the main honey flow. The greater the number of bees available for field work when nectar is available the greater will be the harvest. The bees that are to gather the honey crop must be reared during the spring and early summer, therefore the object of the beekeeper during this period must be to provide conditions whereby his colonies may produce the largest number of bees possible. In addition to having good queens, proper protection and sufficient room for brood production, each colony must have an abundant supply of food. It has been estimated that one comb of stores is required to produce one comb of brood, and it requires approximately seven to ten combs of brood to produce a force of 100,000 bees, which represent a real strong colony. It is quite apparent that food is an important factor during the spring brood-rearing period. Early flowers supply a certain amount of nectar, but this amount is altogether insufficient to maintain maximum brood production and must

**Timely Hints For the Orchardist**

Specially prepared for The Review by J. Tait, District Field Inspector

Cutworms may be active in the Tomato or garden patch now. A good method of control is to use poisoned bait. Here is a good formula: 100 lbs. bran, 2 lbs. Paris Green, 1 gallon cheap molasses, 7 to 8 gallons water. If only a small quantity is required, make up 1 quart bran, 1 teaspoonful Paris green, 1 tablespoon molasses, enough water to moisten.

Mix Paris green and bran when dry. Dissolve molasses in water and stir slowly in poisoned bran. Scatter this poison round plants thinly, after a rain or in the evenings.

**CAUTION**—This is a poison. Take care that children, domestic animals and fowls do not get at it.

**PEACH WORM SPRAY**  
 Those who have not used lime-sulphur spray for control of Peach Twig Borers should now prepare to spray with Arsenate of Lead, using 1 lb. to 40 gallons of water.

The spray should be applied when the worm is active on the trees. Next week will be the right time to commence on the front benches.

Spray Apricots, Peaches, Plums and Prunes. Stone fruit spray time does not fit in with the apple and pear time, so that the peach spray will have to be applied before the apple and pear calyx spray if the best control of the peach worm is desired.

**CALYX SPRAY**  
 The season is short, ten days, for the application of apple and pear calyx spray. This is the most important spray for the caddling moth control and prevention. Spraymen doing custom work can lengthen their spraying time and get over more acreage if the front bench orchards are gone over first.

be supplemented with food given by the beekeeper. No colony should have less than fifteen pounds of stores available at any time during the spring. Any shortage tends to retard brood rearing and this in turn affects the crop produced. Honey or sugar syrup can be given to make up any shortage that occurs, but never give honey from an unknown source for fear of disease.

**NARAMATA**

Members of the Women's Auxiliary met at the home of Mrs. E. E. Mason on Wednesday, when considerable work was accomplished.

Mr. F. Davis of Victoria and Mr. O. F. D. Norrington of Penticton were here last week for the purpose of in-

specting the improvements being carried out by the Naramata Irrigation District in the centre line and other portions of the system.

Mr. J. J. Dunn of Penticton was a visitor to town on Monday.

The number of crows in this district this year seems to be considerably above normal, and many residents are expressing a wish that their ranks

could be thinned, and the lives of many young birds in the nests saved from their depredations.

Mrs. A. E. Morrison has returned from a week's visit in Penticton, where she was the guest of Mrs. A. C. Paterson.

On May 3 the B.C. branch of the Handicrafts Guild of Canada put on a public exhibition in Vancouver in hon-

or of Lady Willingdon. Among the exhibits was a hand-made rug made by Mrs. J. M. Myers of Naramata. This rug was later purchased from the Guild by Lady Willingdon.

Naramata Guides welcomed their new captain, Mrs. Gamman, on Friday last. The three little Brownies, Wilfred Sammett, Ella and Cathie Armour, received their second class badge at last Monday's meeting.

**Something NEW!**

**BLUE RIBBON BEER**  
*Clean and Pure Beer!*

THE latest achievement of our brewmaster. It's a wise brewmaster who eliminates competition in the brewing business by manufacturing a superior beer of unassailable merit. Physicians say there is nothing better than Blue Ribbon beer as a vitalizing tonic.

*Something New!*  
 Just try it—it is the beer you'll like! Why? It is always pure, extra pale, delicious and wholesome.

Westminster Brewery Ltd.

**Vancouver Man Takes Bond on Properties on Tulameen for \$100,000**

Princeton—Signing of articles whereby Charles Law, prominent Vancouver mining man, formerly of the Similkameen, took a bond on fourteen properties at the headwaters of the Tulameen for \$100,000 from Tom and William Daly, George M. Allison and Alex D. Broomfield, was completed Tuesday. It is understood Mr. Law has eastern capitalists interested. Six months is allowed for first payment of \$25,000.

The transaction marks the culmination to date of a year of unusual activity and excitement in the local mining field, and is no doubt a reflection of the recent Julian announcement.

The properties contain lead carbonate deposits, a very rare and valuable compound, and are said to be one of the four great areas of this nature known.

The undersigned will be at W. Johnston's Hotel, West Summerland, each Tuesday, Thursday and Saturday afternoon from 2 to 5 o'clock for those who wish to take "chiropractic" adjustments according to "neurocalometer" readings.

### LOCAL HAPPENINGS

Mr. Gilbert Thornber was in town on Tuesday last.

Mr. and Mrs. G. J. C. White motored to Kelowna on Thursday.

Mr. Jas. Ritchie went down to the Coast on Tuesday of this week.

Mrs. H. Wilton spent last week in Vernon.

Mrs. J. McLaren has her niece from Vernon spending the week with her.

Mr. and Mrs. J. L. Logie spent the week-end at their home here.

Three cars attempting to get up to Fish Lake last week were damaged. The road is quite rough yet.

Walter M. Wright and Mrs. Wright, with their daughter Audrey, were at the Coast over the week-end.

Miss Dancer, who has been visiting in Summerland for a few days, left on Tuesday's boat.

Mrs. C. Evans, of Port Haney, is spending a vacation here again this summer.

Mr. and Mrs. W. H. Goodwin, of Montreal, are visiting with Mr. and Mrs. Dow.

Mr. and Mrs. K. McKenzie and family, from Oliver, visited Mrs. Leslie on Sunday last.

Commence right away to use the cent-a-word advertisements. They will prove to you that it pays to advertise in The Review.

Miss S. Whiteford spent Sunday with friends in Summerland.

Bowling commenced on the greens on Thursday of this week.

"I want to put a notice in those little cent-a-word advertisements" is the call often sent in. They do pay their way. Use them.

Messrs. Walters Ltd. start to work on the erection of their addition to the packing house on Monday. Jas. Darke has the contract.

Earl Wilson came in on Wednesday from Rock Creek and left on Thursday's train for Jellico, where he will be stationed for a time.

Mr. J. A. Reed has taken a position with the Grocerteria. The business has grown so of late that they require extra assistance. He will look after the office work.

Mrs. W. T. McPherson and children returned from Vernon Monday, where they spent the past two weeks with Mrs. McPherson's sisters, Mrs. Steel and Mrs. Ferguson.

Mr. J. H. Bowering expects to leave on Saturday to attend the convocation and alumni banquet at Brandon University, where Ewart and Ella Bowering are finishing their work. They expect to return with him in about two weeks.

Three Summerland girls who have been on vacation at home from training at Jubilee hospital, Victoria, returned on Tuesday's train. They are the Misses Johnston, Blewett and McLaughlin. Miss Walden went down on Monday.

Word has been received by Mrs. J. R. Sutherland that her young cousin, Russell Dickson, of Winnipeg, a lad of 20, has been selected by Lowell Thomas, world famous lecturer and explorer, as his secretary, and left May 1 to accompany him on an expedition to the South Sea Islands and later to the heart of Central Africa.

Buy your ticket for the baseball game and help your local ball team. 19-1-c

Camie McAlpine spent the past week-end in Princeton, driving over with Dr. Latimer.

Mr. W. H. Robertson, provincial horticulturist of Victoria, and M. S. Middleton, district horticulturist of Vernon, were in last week-end on odding moth work.

Notice was made of some particularly good work on the part of our police commissioner in connection with the "no Parking" signs secured for the Governor-General's reception.

Humming birds made their appearance this week in large numbers and were as thick as bees in the orchards. Both the green-throated and red-necked ones were to be seen in every orchard.

Mr. T. J. McAlpine and Camie left on Wednesday for Oliver, where they will put up a big tool house on the Okanagan-Cariboo Trail to house the new tractor-grader. This is a very fine machine and will be used for surfacing.

There will be quite a delegation go from here Friday evening to attend the Free Masons' meeting in Kelowna, when the Grand Master of B.C. will be in that city. Members will be there from Armstrong, Vernon, Penticton and other nearby places.

A number of members of the Liberal Association of Summerland attended a convention meeting in Kelowna on Thursday, when it was decided to run a candidate in the forthcoming election. Those who motored up were K. S. Hogg, Alex Steven, M. G. Wilson, C. A. Walter, Jas. Ritchie, W. A. Caldwell and T. McAlpine.

Mr. Russell Munn received word on Thursday that he had secured the Terminal City Club Memorial scholarship in English and economics at U.B.C. This was quite a surprise for him as he did not know that there was such an award to be won. He said otherwise he might have worked a little harder. One hundred and ten dollars accompanies the honor.

Canadian farmers who toured overseas are to stage at the provincial exhibition a special exhibit, and demonstration. At the request of Dominion Livestock Commissioner H. S. Arkell, Manager D. E. MacKenzie has allotted a frontage of seventy-five feet in the Agricultural Building for the purpose. It is significant that one of the first results of a memorable tour should be a desire to help producers here by demonstrations during the B.C. provincial exhibition.

An amusing incident during the brief visit of our Governor-General and Lady Willingdon, which also showed the effect that military training has on men, was the fact that a number of our ex-service men neglected to remove their hats when Lady Willingdon shook hands with them. On active service the only soldier supposed to have his hat off was the criminal, and evidently Major Tweedie's authoritative "Shun" carried the men back to their military days. One man, wearer of the seldom seen Mons Medal, confessed himself one of the guilty ones, and feels much humiliated by his act. However, we are sure that Lady Willingdon has "the heart that understands" and will make all allowances for war-worn veterans.

**Modified Protection Against Dumping is Expected This Year**

Vernon—Following the Ottawa meeting of a delegation representing a hundred thousand producers whose interests are threatened by the removal of the protective clauses of the dumping duty, and the Dominion Cabinet, the following is a portion of a telegram received by J. T. Muttie, Vernon, president of the Horticultural Council: "I am satisfied as direct result of delegation we will have modified protection against dumping this year." Signed, L. F. Burrows, Mr. Burrows is secretary of the council.

### Order of Oblates Will Create Training School at Okanagan Landing

Vernon—A school for training men for the priesthood is to be established by the Order of Oblates of Mary Immaculate, at Okanagan Landing. Arrangements were concluded on Tuesday, May 1, for the purchase of the large building, the Strand Hotel, and the three acres of land from James Hedgesman. Plans will be prepared for the remodeling of the building and as soon as possible the work will be commenced. It is the intention to have the building ready for occupation for the opening of the school term in September. It is expected there will be accommodation for 28 to 30 students and the staff.

The school will take in young students and give them special training. Every facility will be afforded for a rounded course of training, and expert staff of instructors will be engaged. There is a splendid bathing beach on the property, tennis courts will be erected, and provision of a gymnasium ensures winter games.

### MARRON VALLEY

Mr. Homuth reports having seen a large bear near Dauphin Lake, recently. He was making a hasty getaway to the hills. Not long ago, while ranging, Mr. Homuth came upon a herd of deer of considerable size. And, just to add a touch of sentimental beauty,

CHAMBERS NOW BACK, TELLS OF DUMPING FIGHT

Head of Associated Declares Ottawa Will Give Some Aid

BUT MINISTER IS SHORN OF POWERS

Conditions are Much Improved in the Prairie Provinces

Vernon—E. J. Chambers, president and general manager of the Associated Growers, has returned from Ottawa, where he attended as a member of the delegation which waited on the cabinet in connection with the protest lodged against the removal of the teeth from the anti-dumping legislation.

Apparently, in the past, anti-dumping regulations have been a force against commodities of which Canada produces an insufficient quantity to supply the home market.

While in Ottawa, Mr. Chambers discussed with Mr. McIntosh, fruit commissioner, the possibility of using the standard box this season.

Conditions improved. Crossing the western plains, home-ward bound, Mr. Chambers observed a vast improvement in conditions.

Apparently not all the members of the delegation which waited on the Dominion government in connection with the pulling of the "teeth" of the anti-dumping legislation, are as satisfied with their reception as is Secretary Burrows of the Horticultural Council.

A council of war was held at the Chateau Laurier on Friday, at which, The Globe is informed, the consensus of opinion was that the delegation was not satisfied with the attitude of the Prime Minister or of Hon. James A. Robb.

"They certainly were very much put out at the reception accorded them by the cabinet," The Globe was told today by one of their leaders.

Fire Makes Havoc in Short Time—Risky Blaze To Fight

While in the house for dinner on Wednesday, Mr. W. Boyd was attracted by a honking of his car horn, and on looking out he was startled to see the car on fire.

Satisfied With Euler. With reference to the statement of Premier King to the effect that the customs collectors had exceeded their authority under the order-in-council, the meeting expressed satisfaction with the attitude of Hon. William D. Euler, who explained that his department had not fixed the values of natural products entering Canada for long periods.

Peachland Girl Scores High Marks in Music Festival in Vancouver

Peachland, May 17.—A Peachland girl in the person of Miss Wynne Elliott, daughter of Mr. and Mrs. J. L. Elliott, old timers here, made a splendid showing at the musical festival in Vancouver last week when, in singing in class 45, soprano, competing against twenty others up to nineteen years of age, she took third place with only two marks below the winner.

The Prime Minister did not state to the delegation that the government would not pass orders-in-council to meet any emergency which might arise; in fact he told them that emergency measures could be taken within half an hour if it was shown to the government that Canadian interests were menaced by a sudden influx of fruits, vegetables or other farm prod-

ucts at prices lower than the prevailing market quotations at the place of origin. The producers are not quite satisfied with this, claiming that they have to wait until the dog has bitten them before they can receive government assistance.

As to the contention of western members of Parliament that prairie consumers are forced to pay excessive prices for British Columbia products if the dumping provisions are enforced, the growers state that the people of Alberta, Saskatchewan and Manitoba have, paid less, during the last two years when the anti-dumping law was in effect, than they did previously.

Nor do the producers see the force of Premier King's argument that there would be nothing to hinder boot and shoe manufacturers, clothing and wool-goods manufacturers seeking special tariff concessions by means of the anti-dumping order-in-council if the fruit and vegetable growers and farmers are to receive such protection. It is said that this would be impossible, inasmuch as the order-in-council was restricted to natural products, and did not include manufactured articles.

It is denied the deputation was inspired by a circular sent out by the local representatives of the Canadian Manufacturers' Association. The explanation is that the C.M.A. official wrote to a man in Vernon, B.C., who forwarded the letter to Hon. Dr. King, minister of health.

As the political complexion of the delegation, it is claimed many of them were Liberals; that 78 were from Quebec, mostly supporters of the present government; that 60 were from Ontario, and the remainder from the other provinces, making a total of 300.

FISH ARE BITING AT CHUTE LAKE

Big Fellows Taking Brown Hackle Fly, Says Kelowna Report

Kelowna—It will be of interest to anglers to hear that P. S. Paul in a letter sent to Mr. J. B. Spurrer last week states that the fish in Chute Lake, where he is staying, are biting freely and taking the brown hackle fly very readily. Large trout are being caught there, up to twelve pounds in weight.

Sportsmen interested in the Chute Lake road are invited to contribute small donations to help to put it in shape for the season and to prevent damage by water running down it at the point where a volunteer gang of citizens did good work last spring.

While some people think it is too steep to be feasible, it may surprise them to learn that no fewer than 187 cars passed over the road to Chute Lake last year; about 87 of them being those of tourists and visitors from outside points. It is a route that lends itself to upkeep at a trifling cost, owing to the absence of bridges, slides and similar sources of frequent outlay, and, if the government could be induced to relocate and cut down the steepest grades to a maximum of, say, eight per cent, it would become a favorite run for tourists and sightseers, owing to the magnificent views of the valley to be obtained from many vantage points on it, as well as the excellent fishing in Chute Lake.

An Okanagan Mission man recently had occasion to visit Chute Lake, where the old pack trail which was transformed into a comparatively good road a year ago this spring. It may be of interest to readers to know that immediately below the K.V.R. tracks there is still some eighteen inches of snow, and that at the point where the trail crosses Cedar Creek the creek has become blocked, thus causing considerable damage to the road, which is, in fact, nothing less than a raging torrent.

FORD DELIVERY BADLY BURNED

Fire Makes Havoc in Short Time—Risky Blaze To Fight

While in the house for dinner on Wednesday, Mr. W. Boyd was attracted by a honking of his car horn, and on looking out he was startled to see the car on fire.

Some other people about soon joined him in an attempt to extinguish the flames, which had started on the cushions from his smudge blower, used in driving his car.

They had to work hurriedly and at some risk, for the fire was right over the gas tank. The hood, box windshield, seat and cushions were completely destroyed, as well as the trunk body, though the engine was unharmed.

Peachland Girl Scores High Marks in Music Festival in Vancouver

Peachland, May 17.—A Peachland girl in the person of Miss Wynne Elliott, daughter of Mr. and Mrs. J. L. Elliott, old timers here, made a splendid showing at the musical festival in Vancouver last week when, in singing in class 45, soprano, competing against twenty others up to nineteen years of age, she took third place with only two marks below the winner.

Fruit Prices Paid by the Summerland Co-op. Growers for 1927-1928 Crop

The following list of prices paid by the Co-operative Growers this year is published with the hope that it will be cut out by shippers and growers and kept for future reference. It carries with it a very pointed indication of the relative values of the different varieties of apples grown here and will assist those who are considering the top working of any odd variety trees that they may now have in their orchards.

List of Prices Paid on Apples and Pears for the 1927-28 Season, Taking Into Consideration Local and Central Refunds

Table with columns: Variety, E.F., E.F., E.F., E.F., F., F., F., F., C., E.C. and rows for various apple and pear varieties like Transparent, Duchesse, Gravenstein, etc.

OLIVER APPOINTS ITS MAY QUEEN

Oliver, May 18—Miss Mary Gilmer has been chosen Queen of the May for the May 24 celebration. The court and ceremony will be as lavish as ever.

LOG CABIN IS OPENED AGAIN

Many Fine Pieces of Work Were on Display on Thursday

This week the Art League held the opening of the Log Cabin and although the attendance was not as large as in former years, the interest taken in the arrangements made up considerably for this lack.

HOSPITAL WEEK WAS SUCCESS

Over One Hundred Visited the Institution on Saturday

Hospital Week has given the Hospital Society considerable encouragement. The membership drive added about \$500 to the treasury, and to this the churches contributed another \$100.

ODDFELLOWS ASSOCIATION ELECTS VALLEY OFFICERS

Pentleton was invaded yesterday by Oddfellows from all points in the Okanagan for the annual meeting and district team displays of Okanagan District Association No. 1, I.O.O.F.

Mr. Granville Morgan has been meeting carp operative H. C. Moller, with the idea of starting to rid the lake of those fish which destroy the food of many valuable species.

SPRAY ADVICE ON MOTH CONTROL OFFERED IN U.S.

Washington State Authorities Issue Information on Codling Pest

ARSENATE OF LEAD IS BEST INSECTICIDE

Calyx Spray is Important and Should Not be Missed

Spray recommendations for codling moth control for this year have been compiled by representatives of the Washington State Experiment Station, the Federal Bureau of Entomology and the Washington State Department of Agriculture.

Extensive experimental work for codling moth control was conducted in 1927 and will be continued in 1928. On the basis of this and former work, as well as practical results in commercial orchards, the following is recommended as a guidance to the grower for 1928.

The general principles are here outlined for the guidance of the grower: Spray Treatment

- 1. Arsenate of lead is the only known practical and effective insecticide that can be unconditionally recommended for codling moth control at this time. One pound of arsenate of lead to 50 gallons of water is usually sufficient.

placed well up in the trees, away from packing sheds or other buildings. The first cover spray should be completed within ten to twelve days after moths are caught in the traps.

On severely infested orchards cover sprays should be applied every ten days. In high altitudes or isolated orchards, having light infestation, one or possibly two cover sprays may suffice.

Cover sprays for first brood worms can stop ten days after moths practically cease to enter traps. This usually comes five to six weeks after the first moths appear.

Second Brood Sprays. If there is an average of three to five worms per tree by July 1, or if moth traps show an increase in number of moths caught after July 1, one or more sprays for second brood should be applied.

Spray Thoroughly. Be thorough in spraying, cover every portion of the tree and give special attention to the tree tops, since that is where the extra fancy apples grow and where most of the eggs are laid.

Scrape tough bark from trees and burn to destroy overwintering larvae hibernating under the bark. This should be done to a depth of one to two inches below the ground.

Band trees June 1 and examine every ten days. Rough barked trees should be scraped before banding. The bands will catch approximately 45 per cent of the worms that leave the apples.

Fruit should be thinned to break clusters and to remove wormy fruit. This should be destroyed and not buried.

LADIES GIVEN DEMONSTRATION

The regular monthly meeting of the Summerland Women's Institute was held on Friday afternoon, May 11, in the parlour of the Lakeside United church.

The Farm picnic on June 4 was discussed. This year the Women's Institute and Hospital Auxiliary will work together and take charge of the refreshment booths.

The feature of the afternoon was a display of hand-made rugs, and many beautiful ones were brought for exhibition. Mrs. Cartwright demonstrated the method of hooking a rug, working on one of the new Chinook patterns, the "Killer White," while Mrs. C. P. Nelson showed the method of hooking a rug on a small loom.

The cover sprays should be timed carefully by the use of moth traps.

SUMMERLAND'S GREAT CALF CASE IS SETTLED; COUNCILLOR ARKELL IS ASSESSED \$20 FOR TRESPASS

Kelowna's Tax Rate is Swelled by Four Mills

Kelowna—With all the members in attendance at the regular session on Monday night, the city council had to face the unpleasant duty of raising the rate of taxation by four mills in order to meet the situation caused by a large increase in the school estimates as compared with last year.

PRESENTATION WAS MADE TO G. C. BENMORE

Plans Made and Officers Were Elected For Next Season

PRESENT HEALTHY FINANCIAL STATEMENT

Operatic Society Then Turns To Informal Programme

On Wednesday evening the annual meeting of the Operatic Society was held in the parish hall to receive the report for this season's work and to consider the plans for the coming year.

The president, Mr. G. C. Benmore, called upon the secretary-treasurer, Capt. Webb, for his report, which was read, showing the Society's finances to be in a healthy position.

Before calling for the election of officers, Mr. Benmore stated that he was sorry to have to retire but on account of moving to Kelowna this was necessary.

Thanks to Orchestra. The secretary reported that he had personally seen as many as he could of the Pontonick members of the orchestra and thanked them for their assistance on behalf of the Society.

For next season's work, Capt. Webb was appointed stage manager and production director. Mr. H. Daniel was appointed chorus master.

Mrs. Solly, on behalf of the Society, said she very much regretted that Mr. and Mrs. Benmore were leaving, and felt sure that when absent they would keep the Society in mind.

Band trees June 1 and examine every ten days. Rough barked trees should be scraped before banding. The bands will catch approximately 45 per cent of the worms that leave the apples.

Fruit should be thinned to break clusters and to remove wormy fruit. This should be destroyed and not buried.

TRACK WASHED OUT AT KIRTON

K.V.R. Train Service From Coast Is Delayed This Week

Kettle Valley trains from the Coast are delayed again this week just after the Coughlinville service had been restored at the beginning of the week.

The washout on Tuesday of the track near Kirton, second station west of West Summerland, is responsible for the present delay in service.

It is expected that ordinary service will be resumed by Saturday or Sunday. In the meantime, passengers and baggage are transferred at Kirton, the washout on the main line from the east.

Must Mark "Canada" On Fruit Boxes Sent Into English Markets

Friday afternoon was slightly warm. In the little court house on the hill the machinery of the county court was grinding slowly on.

Outside of the door an old Jersey cow bawled noisily.

On the floor of the court room was a calf's hide, almost as powerful as the cow's outcries.

The calf might have belonged to the cow once, or again it might not have. The court decided that the calf, which once was adorned by the hide, had belonged to some other cow.

Sutherland vs. Arkell. J. C. Arkell, of Summerland, is a councillor, and owns, or has owned a cow or so. The same can be said for D. Lorne Sutherland, also of Summerland, insofar as the livestock is concerned.

Last October Mr. Sutherland took a calf off the range as it seemed to be running around looking for a mother, and his cow, which had freshened on the range, was lacking its calf.

But Mr. Arkell found himself missing a calf from his farm and he heard that the animal was in the Sutherland lot.

Mr. Arkell missed a Calf. The controversy continued and raged particularly around the question of branding.

The case was heard here before Judge Brown in county court, being concluded last Friday. As said before, the cow was an important figure in the suit, being in the prominent foreground, tethered outside the court house door.

Dispute Goes Into Court. Action was promptly brought by Mr. Sutherland for \$600, this figure apparently including the value of a thoroughbred Jersey calf and also the matter of trespassing onto the meadow when the young bossy was removed by Mr. Arkell.

The case was heard here before Judge Brown in county court, being concluded last Friday. As said before, the cow was an important figure in the suit, being in the prominent foreground, tethered outside the court house door.

Against this it was claimed that the Arkell brand was probably only a hair brand which had disappeared. Also, that any hungry calf seeking the chance of a refreshing draught would make use of any cow and a freshened cow, having lost her calf, would adopt most any other one in sight.

It was too late for the judge to attempt the judgment of Solomon and suggest dividing the calf. Certainly no one wanted to get any closer to the hide. So the court decided that the calf did not belong either to Mr. Sutherland or to Mr. Arkell.

This settled the matter of damages for the killing of the animal. Judge Brown concluded that Mr. Arkell had been somewhat hasty in the matter of going into the Sutherland meadow and removing the calf. He also deplored the Arkell visit to the police.

In connection with the matter of trespass, he found against Mr. Arkell to the amount of \$20, with also the general costs of the whole action, which may run up to \$150.

So that particular calf which bawled upon the range made a most expensive outcry.—Pentleton Herald.

Must Mark "Canada" On Fruit Boxes Sent Into English Markets

Ottawa, May 17.—The fruit branch of the Department of Agriculture announced today receipt of a cable to the effect that the markings on all exports of Canadian apples during the coming season must bear one of the three words, "Empire," "Canada" or "Canadian," in letters not less than half an inch in height, either stencilled or printed.

# PEACHLAND NEWS

By Our Resident Correspondent

News was recently received by the family that John McLaughlin was being transferred from Vancouver back to Montreal this week, and his parents, Mr. and Mrs. John McLaughlin, his sister, Mrs. Suddaby, and mother-in-law, Mrs. Ferguson, took a trip to the Coast last week to pay him a visit before he left for the East.

The Peachland nine played their first game of the league series at Kelowna last Thursday afternoon against

the Kelowna team, but they were not up to anything like their usual form and did not "bring home the bacon." They are not discouraged, however, and say they will turn the tables.

Mrs. J. Wilson and Miss McIntyre, of Kelowna, were visitors in town last week, guests of Mrs. Huston, while they held a little conference with some of their Orange brethren and sisters with reference to the social entertainment which the Peachland

Judges are providing on May 24. They returned home on Friday morning's boat.

G. Garlings and Fred Topham Jr. left bright and early on Friday morning of last week, via "bug" on route to Vancouver for a little visit. They are to be back in time for the next league ball game.

Mrs. J. Vass and young son, from Pentiction, were among the arrivals last week, to visit Mrs. Vass' father, Mr. R. E. Law.

Mr. and Mrs. Wm. Renfrew are the proud parents of a fine baby boy born to them on Friday, May 11.

The annual cemetery clean-up was conducted on Tuesday afternoon of this week under the auspices of the Women's Institute, but very much unlike other years since this plan was adopted, the turnout was somewhat disappointing. On former occasions there was a large representation of citizens, but it would thought by a casual summing up on Tuesday that there would be only about a third of the men folk out. The work was not nearly completed, when on former occasions the one day left the grounds taken care of from end to end.

Lloyd Williams returned home last week-end after having spent several

## EFFICIENCY IN TUNING

It takes years of careful training, then more years of hard work satisfactorily performed, before the words "experience" and "ability" take on their full meaning, and I have qualified on both these points.

Coming strongly endorsed by the best authorities in Canada—piano manufacturers who are positively particular where they put their signature as follows—

- Dominion Piano Co.
- Heintzman & Co.
- Morris & Karn Co.
- Gourlay Piano Co.
- Newcombe Piano Co.
- Fletcher Bros.
- Gerhard Heintzman House
- Mason & Risch Co., Vancouver.
- Prof. D. A. Tripp, Vancouver.
- David Ross, teacher of vocal, Vancouver

and others of highest authority. If this is too good why there are plenty six months mail order men to be had and whom piano firms call piano destroyers—whom the public often employ on a prized instrument.

**ALVIN E. PERKINS**  
A Strictly Independent Tuner  
1873 Nelson Street Vancouver, B.C.  
WILL VISIT PENTICTON SOME TIME DURING JUNE

weeks employed on a ranch in the vicinity of Westridge, on the K.V.R.

Miss Mabel Weaver returned home on Saturday last after having spent a couple of months with her sister at Castown.

Mrs. T. McLaughlin and little son spent the week-end in Peachland while Tom was looking after a few small jobs which he had left behind. Tom Sr. returned on Tuesday afternoon, leaving Tommy to visit for a time with his aunt, Mrs. E. Taylor.

Miss Dorothy Clement arrived from Rutland for a short visit with her family on Sunday last.

On the occasion of Willie Bradbury's birthday, Mrs. Bradbury invited a number of the boy's young friends in for the evening on Saturday last, and they spent a very enjoyable time with games and music. Before the party broke up, Mrs. Bradbury served dainty refreshments. Their eldest daughter, with her husband and little child, were up from Pentiction on a visit and were also present at the party.

Mr. T. Thompson returned home from Vancouver on Saturday last, and his son Bob, who was looking after the business in his father's absence, left to return to work at Pentiction.

We are glad to be able to report that George Long is getting along nicely now since his illness and he is taking a while off duty to recuperate before he starts in for the season's activities.

Mrs. H. E. McCall and son Harry returned home from Vancouver on Monday afternoon after having spent a week visiting friends and relatives in the city following the entertainment which Henry, in company with the other contestants, were treated by the Vancouver Sun after the oratorical contest.

The local camp of Trail Rangers, under the management of Rev. T. A. Sadler, motored to Crescent Beach on Saturday last to answer the challenge from the junior Scouts of Summerland to a game of baseball. On this occasion the Scouts proved too much for the Rangers, showing better form all around, but the local boys worked hard and avoided anything like a whitewash. They expect a return game in the near future on the home field.

Mrs. T. J. Evans, Mrs. Walter Wilson, Mrs. Robins and Mrs. D. C. West were among the recent arrivals, com-

ing in from Alberta to visit their father, mother and brother, Nell Evans, owing to the severe illness of Mrs. Evans Sr. who has been confined to hospital for a time. Mrs. West intends remaining for an indefinite period.

**FURNISHED THE PROOF**  
The man before the magistrate was a stranger in the village, and he was most indignant that he should suffer the humiliation of his present position. "The constable seems very certain about everything connected with my case," he sneered, "but there's one weak point in his defense. Why does he not call his fellow officer to corroborate what he says?"  
"There's only one constable station-

## Mortgage Sale of Fruit Farm

## SYNOPSIS OF LAND ACT AMENDMENTS

**PRE-EMPTIONS**  
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes.  
Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.  
Records will be granted covering only land suitable for agricultural purposes and which is not timberland, i.e., carrying over 5000 board feet per acre west of the Coast Range, and 8000 feet per acre east of that range.  
Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.  
Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres before a Crown Grant can be received.

**PURCHASE**  
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land, \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."  
**HOMEITE LEASES**  
Unsurveyed areas, not exceeding 20 acres, may be leased as homeite, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.  
**LEASES**  
For grazing and industrial purposes, areas not exceeding 640 acres may be leased by one person or a company.  
**GRAZING**  
Under the Grazing Act the Province is divided into grazing districts and the range administrator under a Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged; priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers and travellers, up to ten head.

World of Politics (By an Ex-Writer of the Ottawa Press Gallery.)

There has been considerable clarification of the anti-dumping situation in the past week and the outlook for the fruit growers of this and other provinces has improved. Hon. S. F. Tolmie brought the matter up in the House of Commons and Premier King made it reasonably clear that the Government has not decided to abandon the Stevens device of fixing "fair prices" for imported fruit on a seasonal basis. All that has been definitely decided upon, he said, is to take the power out of the hands of Mr. Euler, the minister of customs, and have it exercised by the cabinet. This is not an unreasonable proposition, providing the cabinet uses the power it still retains in a fair and equitable manner as between consumers and producers. It seems a pity, however, that the Government did not take the precaution to have caused to be sent out from Ottawa a press despatch clearly indicating just what the cabinet did in the early days of April. On the contrary, the news reached the country in the form of despatches to newspapers published in prairie provinces' cities claiming that as the result of representations made by prairie members, the Stevens anti-dumping provisions had been abolished. In his reply to Dr. Tolmie, the Premier stated that the delegation of power went to Ottawa under a misapprehension as to what the Government had done. For that the Government must take the sole responsibility as well as for the hornet's nest it produced by its failure to properly advise the country as to the purport of its action.

CAUSED DIVISION IN THE CABINET

Within the past few days the writer has received a private letter from a friend who is in a position to know a good deal of what is going on behind the scenes at Ottawa which corroborates the statement made by Premier King on the floor of the House. It appears, according to this correspondent, that the cabinet was not unanimous as to the advisability of interfering with the anti-dumping law as it stood. The Minister of Customs (Mr. Euler) and Hon. Mr. Motherwell, minister of agriculture, were both for leaving the power to fix prices in the hands of the minister. Mr. Euler, whose constituency includes the manufacturing city of Kitchener, Ont., is a strong protectionist, and is regarded with some degree of suspicion by the low tariff members of the cabinet. They considered that he had been exercising the price-fixing powers too freely and there is reason to believe that such was the case. It appears that Mr. Euler fixes prices for import purposes on a number of commodities of which very little is grown in Canada, such as head lettuce, to the detriment of the consumer public. If this is really how matters stood when the Government decided to take action on the solicitation of prairie provinces' members there may be but little cause to fear that legitimate farming industries will be allowed to suffer by the non-application of the anti-dumping law. And, on the whole, it is perhaps just as well that the Government neglected to inform the country as to the real purpose of its action as the trouble it brought on its own head has served to inform the ministers of the volume of public opinion back of the anti-dumping law. It is very satisfactory to know that the Stevens plan is still capable of being utilized and that we are not back to the tortoise-like Fielding anti-dumping regulation which usually achieved its purpose the day after tomorrow. There is still very good reason to expect that, should the fruit crop on this continent be as great as at present indicated, the Government will take the necessary steps to prevent American dumping at ruinous prices sometime before our fruit is ready to move marketwards.

MODERATE TARIFF SENTIMENT PREVAILS

The rumpus over the anti-dumping law has also served another useful purpose in demonstrating the steadily increasing strength of the lesser branches of the farming industry. The delegation which visited Ottawa included representatives from all the Canadian provinces, the largest coming from Ontario and Quebec. The Quebec delegation was eighty strong and it represented a large number of rural constituencies whose people are interested in the production of fruit, vegetables and other farm products for the Montreal market. The Ontario delegation of about the same size represented a still larger number of constituencies where the production of fruit and vegetables for the city markets constitutes the backbone of agriculture. This is a situation that should be noted, not only by the Government but by the low tariff members of the prairie provinces. It would help the latter to realize the growing strength of the branches of agricultural industry that require moderate protection. As matters stand in Canada today, and are likely to remain for some considerable time, the element of the population that is in the ascendancy when it comes to tariff matters is that section that believes in moderate protection for all classes of industry entitled to and requiring it to a more or less degree. Both the extreme low tariffists and the equally extreme high tariffists are in a distinct minority. They have shot their heaviest bolt and in future must bow to the decision of the moderate and fair-minded majority. In the prairie provinces the low tariff and free trade sentiment is abiding for the very good reason that thousands of men who in the past have been wheat farmers are now turning to mixed farming. When a wheat farmer turns to mixed farming it doesn't take him long to discover that he is in need of some protection—just about as long, probably, as it takes the prairie free trader to become a protectionist when he comes to British Columbia and buys a fruit farm. The triumph of the moderates is going to be a good thing for Canada because it means that in the future tariff measures will not be settled on the cat-fight-dog principle that has prevailed to date, but that there will be a constantly growing disposition to deal with tariff questions in a spirit of give and take. As I said in a recent article, the Dominion cannot prosper as it should until we eliminate class antagonisms and sectional jealousies. There must be co-operation on a national scale and the apparent triumph of moderate opinion in tariff matters is an indication that the day is at hand when the Canadian people will exercise an increased measure of wisdom in the conduct of the nation's affairs.

AVOIDING THE CIVIL SERVICE COMMISSION

Among the controversial bills recently discussed at Ottawa which have come in for criticism is the measure relating to the new Department of National Revenue which will enable the minister to name 125 officers with special qualifications as appraisers without reference to the Civil Service Commission. Both friendly and opposition newspapers are disposed to regard this move with some degree of suspicion. Mr. Euler, the minister in charge of the measure, is in a fairly strong position because of the fact that he is following the recommendation made by the Royal Commission which inquired into the Customs Department and which expressed the opinion that greater efficiency might be brought into the service by the employment of a number of outside men having special training for certain classes of work. The Winnipeg Free Press is of the opinion that the move is in the direction of a return to the patronage system which a majority of the people of the country had hoped we were leaving behind. "The public," remarks this newspaper, "is familiar with the operations of the system. A job is needed for some good party worker who might not be able to enter the civil service list if he had to take the tests prescribed by the Civil Service Commission. With Mr. Euler's proposed law in force he could be appointed by the minister. He might be fitted for the job; on the other hand, his main qualifications might be that he had worked hard for the party. If merit is to count in the civil service—and no other system will give the country an efficient and high spirited body of public servants—the positions should go to those qualified to handle them and not to those who desire a government job because they imagine they have earned it. The present government at Ottawa is reasonably suspected of fishing to get its hands on the civil service patronage. Its record in this respect is not altogether above board, due largely to the performance of the Postmaster General, which is one reason the public is suspicious. The Government would be wise to leave the civil service appointments to the body set up by Parliament to attend to that department of the national service." Incidentally it is interesting to note that, whereas in regard to this legislation and the new naturalization law, the Government proposes to increase the power of the ministers, in the matter of anti-dumping it has restricted the jurisdiction of a minister. Funny, isn't it? But politics is a queer game.

CORRESPONDENCE

DISAGREES WITH ARTICLE Editor, Summerland Review: I wish to state that the unsigned article in your paper of May 4 re the Kelowna Musical Festival was very unfair to the adjudicators and most uncalled for, to say the least of it. I fully endorsed most of their decisions and believe most of the competitors were thankful for their helpful remarks, and think that your contributor should have had sufficient courage to have added his name to his note as does Yours truly, GEO. WM. COPE.

DONATIONS TO LOCAL HOSPITAL

Donations on Hospital Day were received from the following: Mrs. Solly, Mrs. Andrew, Mrs. Stark, Mrs. Lipsett, Mrs. Ann, Mrs. Vanderburgh, Mrs. Nesbitt, Mrs. Clark, Mrs. Parsons, Mrs. Bentley, Mrs. Ramsay, Mrs. Walden, Mrs. Schwass, Mrs. Cran, Miss Sinclair, Mrs. Wright, Mr. A. B. Elliott, Mrs. G. Doherty, Mrs. R. Mitchell, Mrs. R. Johnson, Mrs. Mitchell, Mrs. J. E. Thompson, Mrs. T. Nelson, Mrs. F. Steuart, Mrs. Purves, Mrs. Hickey, Miss L. Campbell, Miss N. Campbell, Mrs. H. Vanderburgh, Miss B. Vanderburgh, Mrs. Beer, Mrs. Cartwright, Mrs. G. Gartrell, Mrs. Griffiths, Miss Williams, Mrs. Higgins, Mrs. Hunter, Mrs. Denny, Mrs. Pineo Young, Mrs. Marjoribanks, Miss Miles, Mrs. G. J. C. White, Mrs. Leslie, Mrs. W. Hayes, Mrs. W. M. Wright, Mrs. Theed, Mrs. Wm. KeKrr, Mrs. Cooper, Mrs. Whitfield, Mrs. H. Dunston, Mrs. Gallagher, Mrs. E. Gould, Mrs. McBerberts, Mrs. Reid Johnson, Mrs. Yolland, Mr. and Mrs. P. G. Koop, Mrs. Knowles, Mrs. Conway, Mrs. John McDougall, Mr. and Mrs. W. D. Laidlaw, Mrs. S. A. MacDonald, Mrs. Dahl, Miss M. McLaughlin, Mrs. Carvick, Mrs. Wolfner, Mrs. F. Whiskin, Mrs. Kingsell, Mrs. Mellor, Mr. W. Simpson, Dr. Andrew, set carvers; Jimmy Clark, oak tray, made by himself at manual training. Proceeds of nurses' stall, \$12.65, is being spent on purchasing an easy chair, globe for the case room light, and small articles for the kitchen.

Kelowna Sections are Flooded as Mill Creek Rises After Heavy Rain

Kelowna—Owing to suddenly rising temperature after excessive rainfall, Mill Creek, which had already caused some damage to low lying property in the residential portion of the city last week, rose rapidly, flooding many gardens and creating great inconvenience to many householders. It had been hoped that all danger of further flooding was over, but such has not proved the case and since Monday, when steps were taken to block motor traffic on Sutherland and Elliott avenues, the flood has kept increasing in volume and never has receded more than a few inches at a time, to rise rapidly again shortly afterwards. At the present time Sutherland avenue is in the nature of a small lake in spite of the traffic bridge and foot bridge both having been removed and a ditch having been dug across the street with a view to affording the flood water a better chance to reach a lower level. Portions of Rowcliffe avenue and other low-lying land, including the east side of Richter street south of the bridge, have also been badly flooded, the whole territory being so saturated that land at some distance from Mill Creek is under water, even if an intervening street is fit for traffic. In some instances residents in the submerged sections have moved temporarily to other quarters, but the majority of those who have suffered inconvenience and some loss through the flooding of their properties have stayed at home and have made the best of the situation.

FROST DAMAGES BRITAIN'S FRUIT

April Chill Caught, Early Apples, Pears and Plums

The first English fruit crop report has been issued by the British Ministry of Agriculture, covering conditions on May 1, and has been cabled this office by Mr. J. Forsyth Smith, Canadian fruit trade commissioner for the United Kingdom. It appears that a heavy frost has been experienced during April, causing considerable damage to all fruit blossoms, including early apples, pears and plums. The report states, however, that the damage is not considered severe to either pears or plums, and that there are still sufficient blossoms unharmed to make good prospects for a crop of fruit.

The next English fruit report will be issued in the "Fruit and Vegetable Crop Report" to be released from this office on June 1.

Through the courtesy of the Department of Trade and Commerce, Mr. J. Forsyth Smith, Canadian fruit trade commissioner for the United Kingdom, will be visiting Canada this summer with the object of making a tour of the provinces in the interests of Canadian fruit trade with the British and continental markets.

He expects to arrive in Ottawa on June 10, and after remaining in the capital for two weeks to proceed direct to British Columbia for July, returning to Ontario and Quebec during August, and completing the tour in the Maritime provinces in September. The detailed itinerary for each province will be announced later, stating the dates and places where meetings will be held. Since Mr. Smith's last visit to this country, in 1926, he has been appointed a member of the fruit committee of the Empire Marketing Board, and has taken a prominent part in its activities. In addition, he has recently made a very successful presentation to the standing committee appointed by the British government, of Canada's application to have the Merchandise Marks Act enforced on all importations of apples, and is now touring Scandinavia and other continental markets in order to bring back the latest information as to the possibilities

of further extending our trade with those countries.

NARAMATA

Mr. Gerald Williams returned on Friday from a business trip to Vancouver which extended over several weeks. A gathering in honor of Miss Alice Myers was held at the home of Miss Vera Partridge on Thursday evening. The guest of the occasion was presented with a handsome tea set and other gifts, donated by many friends. Mr. Percy Leckenby arrived from

England on Friday, and is making his home with Mr. and Mrs. Rayner. Mr. Leckenby is a native of Yorkshire.

Mother's Day was observed at the United Church on Sunday morning, with a crowded congregation. The young people acquitted themselves well in the various items of the programme, and the service was much enjoyed. Rev. W. Aitchison officiated, and Mr. Ryall of Pentlton gave a short address. Miss Alice Myers was organist. Much water is coming down from the hills lately, the creeks being taxed to their limits, with some flooding of roads in the south part of the town. Trustees Sammett and De Beck went

up on a trip of inspection to the irrigation dams on Monday, and report a great deal of snow yet to come down.

There was a large assembly of members of the Ladies' Aid at the home of Mrs. J. M. Myers on Wednesday, the attendance being a record for the season.

CONSOLATION "Well, Mrs. Johnsing," a colored physician announced, after taking her husband's temperature, "Ah has knocked de fever outen him." "Sho' nuff," was the excited reply. "Am he gwine git well, den?" "No'm," answered the doctor. "Deys no hope fo' him, but you has de satisfaction ob knowin' dat he died cured."

PROSPERITY IS HERE

From all over Canada come references to prevailing good times. So general seem to be these indications that no one questions that they are well founded; and as spring now advances toward summer a still stronger tone to commercial life is being taken on.

British Columbia has not lagged behind. Her population has increased greatly of late years, and marked advances have been made in taking advantage of the many natural resources of the province. In this phase of activities we have recently seen the great confidence shown in the prospects of one company alone, the B.C. Electric Railway, which is intimately connected with the future development of this province and whose prospects are indicative of the opportunities offered by many businesses. The speculator bidding for dominant place among the rivals for control also shows that there is a strong pro-British feeling existing, and that our prosperity is very likely to be quite markedly influenced by British institutions. No doubt this attitude will appear to many to be quite commendable.

Prosperity of our country, if it is real, must reflect upon the living conditions of the majority of the citizens of our province. If with it there is a sure consciousness of a general tone of confidence among our people we can feel that B.C. is sharing fairly in the country's advancement. In truth, evidence of this intrude upon our notice in a great many places, and the people are feeling the benefits of expansion markedly, whether it be in agriculture, mining, fishing, lumbering or other commercial endeavors. This, it is hoped, will be the condition for some time, and especially in the fruit industry here.

CORRECT THE PUBLICITY

Some of our local organizations should undertake to correct the Department of Colonization of the C.P.R., which has just issued a "Directory of Business and Industrial Opportunities in Western Canada". According to this directory, Summerland is accredited with having a population of 500 (someone suggested they must have meant cars, surely), and then out of generosity they give us a tributary population of another 500.

A few resources we have might well be enlarged upon to our advantage, for there is no doubt this folder is an authority with a great many. It is often used by schools in our own country, and teachers in other countries call upon the C.P.R. for authoritative information, and probably this folder is frequently sent to them.

The possibility is here for us to secure a little revision of the mention we are given, and it should not be neglected. There is with each place mentioned, suggestions of business opportunities. Fruit cannery and jam factory are the only ones mentioned in Summerland.

Here is a list of assets attributed to other valley towns not mentioned in the description of Summerland: Sawmill, summer resort, sash and door factory, consolidated school, high school, greenhouses, poultry raising, ranching, electric power, two auctioneers, coal and wood yards, community hall, park, transfer, hunting, fishing, mountain streams, tourist trips.

SCHOOL SPORTS

The more one sees of the school pupils running and jumping in their sports on the high school grounds the more one becomes impressed with the many advantages which modern school life brings.

Here are boys and girls encouraged to cultivate steady responsive nerves, quick, flexible, strong muscles and, above all, a spirit of sportsmanship.

The upbuilding of the body is very important in these days of tremendous drain upon vitality, and the creation of the "play fair" idea is even more valuable.

For these reasons citizens generally give their hearty approval to the annual track and field meets of the Okanagan schools. Such events do not detract from study periods and they serve a good purpose in cultivating many sides of the young life.

IS THE ELECTION NEARLY HERE?

There's something in the air. Whether it is due to the hot wave, is hard to say.

Possibly it is that election feeling. With all this activity about getting onto the voters' list and the preparations being made by the government for public works expenditures within a few weeks, it is a fairly shrewd guess that the election is not far away.

About the end of June would be a good date if the premier can make an election plank out of the P. G. E. in the meantime. If there is no feed for that white elephant, the government may have to wait until Autumn.

But most of us will be on the qui vive for the next six weeks.

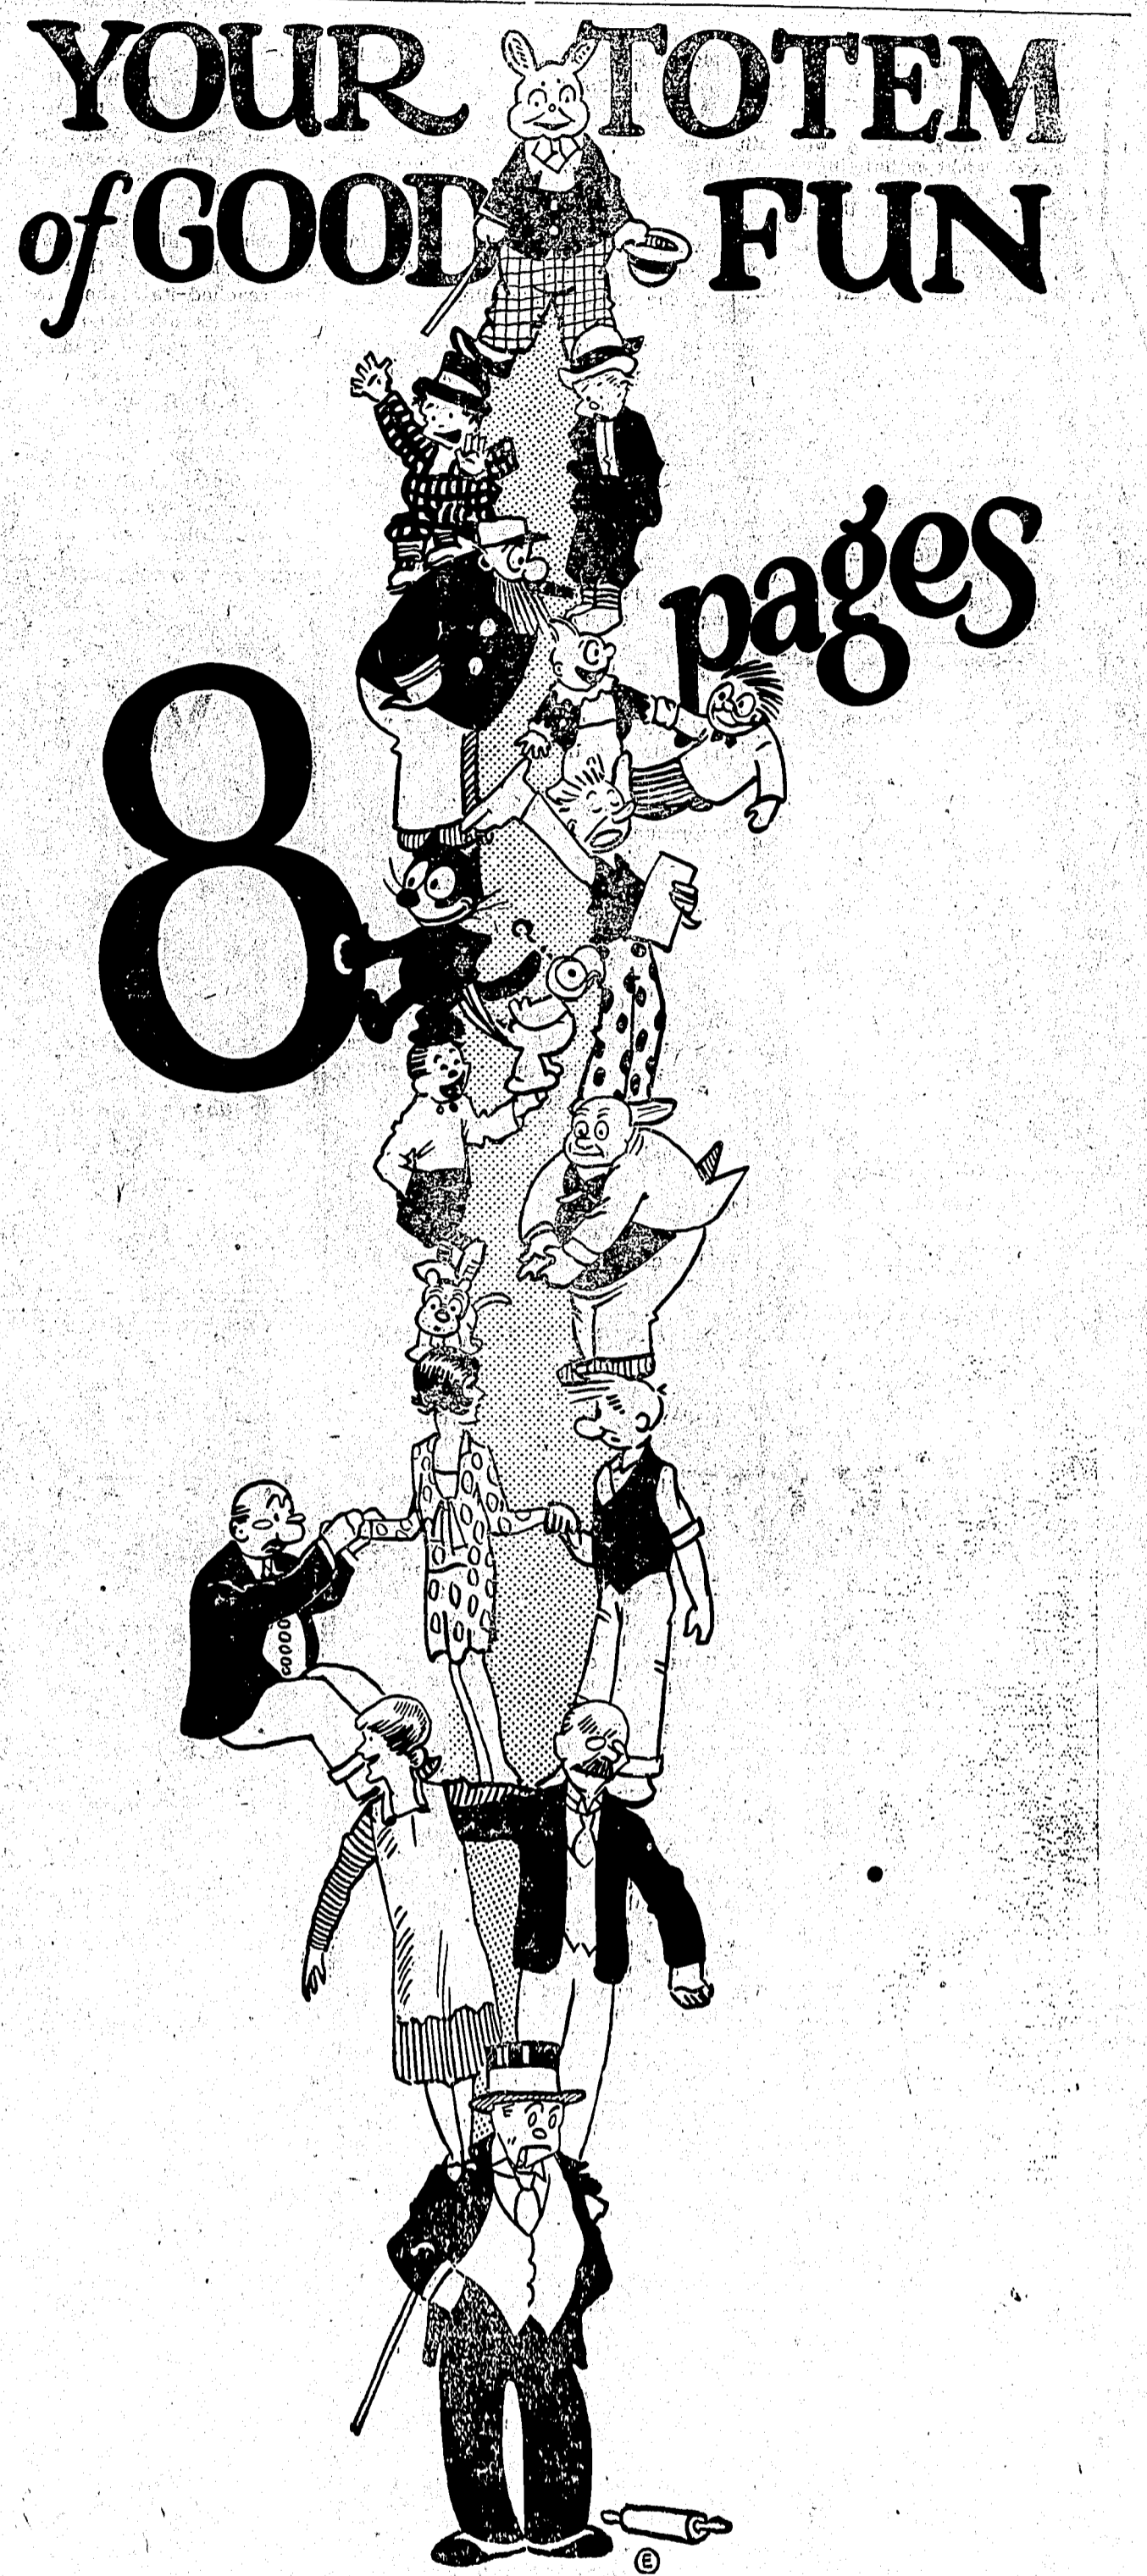

A LITTLE FORETHOUGHT NEEDED

Government road authorities, after viewing the Fish Lake road, state that they cannot make any repairs there until the high water recedes. Here is a situation where a little forethought would have been useful.

Everyone knows that Fish Lake is exceedingly popular for the month of May for spring fishing. Everyone who goes there knows that the road is nearly always in bad shape in the spring.

A few weeks ago a little work on the crook that menanders through that country would have given satisfaction to the scores of people who visit the spot.

But nothing was done and today it is too late for this month, if we accept the statement of the road foreman.

Here They Are! The funniest, most famous people that ever lived in a newspaper! ### Announcement!

The undersigned will be at W. Johnston's Hotel, West Summerland, each Tuesday, Thursday and Saturday afternoon from 2 to 5 o'clock for those who wish to take "chiropractic" adjustments according to "neurocoalmeter" readings.

C. HULTGREN, D.C., Ph.C.  
Palmer Graduate Chiropractor  
Box 432, Penticton, B.C.

This Friday and Saturday—

We are offering an extra good programme this week. The feature will be

"BEHIND THE FRONT"  
Starring Wallace Berry and Raymond Hatton

A special comedy that has played at advanced prices everywhere. Regular prices here.

Also a News reel, a Variety reel and a good Comedy.

Next Tues. & Wed., May 22 & 23—

John Barrymore in

"THE BELOVED ROGUE"  
This is a magnificent production, it's the thrill of the year, and has as much action as a Fairbanks picture. Ten reels with never a dull moment. Also a Kat Comedy and News reel.

Friday & Saturday, May 25 & 26—

Here is the picture you will want to see:  
"Babe Ruth in 'BABE COMES HOME'"

He stands alone as one of the greatest athletes. Everyone will want to see BABE. He is supported by Anna Q. Nilsson and Louise Fazenda—and that is not all.

With "Behind the Front" and "The Beloved Rogue" we will have a special six-piece orchestra, and Mr. Chas. Richards of Vancouver will give a violin solo from the stage.

# Rialto

### LOCAL HAPPENINGS

Mrs. Geo. Dewar is visiting her mother here, Mrs. Chew.

Capt. and Mrs. Webb went down to Vancouver on Friday's train.

Mr. and Mrs. W. H. Pickering, of Chu Chuá, are visiting Miss Jean Curry.

On Friday, May 18, a daughter was born at the hospital to Mr. and Mrs. S. R. Davis.

The 2nd C.M.R.'s went through Summerland on their way to camp at Kelowna, on Monday.

Mrs. Walton returned from Vernon this week, where she has been on a visit for a short time.

Rev. H. A. Solly addressed the Boy Scouts this week on good citizenship and the value of discipline.

Rev. C. H. Daly spent a day in town this week, visiting friends and staying with Mr. and Mrs. G. Munn.

Miss C. Graham left for Penticton this week. She has taken a position in that neighboring town.

Mrs. R. E. White and Ronald were in town recently for a few days, having motored down from Kamloops.

Mr. and Mrs. R. C. Verrier welcomed a daughter at the hospital on Monday, May 14. They are going to name the little girl Irene Elsie.

Mr. Jack Logie, in a letter to friends in Summerland, stated that he expects to be back the first week in June "feeling as hard as nails and like a new man."

Mr. and Mrs. J. Strothers, of Vernon, spent the week-end in Summerland. Mr. Strothers went to Keremeos on a business trip. On Monday, Mrs. H. Bristow, Mrs. Strothers' mother, motored up to Vernon with them.

A good representation from Summerland schools went up to Armstrong for the track meet to be held there Saturday. The boys were billeted on Friday night so as to have a real rest for Saturday's contests.

### UNIVERSITY PLAYERS WELL SPOKEN OF

Ina Claire, the brilliant young American actress, rose from the ranks of Ziegfeld's Follies to play the title part in "Polly With a Past," when David Belasco staged it in New York for its successful run of a year. In London, Edna Best, one of England's most charming younger actresses, had this part. In the production of the Players' Club of the University of B.C., to be staged here on May 19 in Ellison Hall under the auspices of Summerland High School, this exacting part is taken by Miss Hope Leeming, one of this year's most popular graduates.

The Vancouver Province, speaking of the leading male character, said: "In Alfred Evans the University Players' Club has a find; his performance on Wednesday night was consistently good. His sense of pantomime is excellent, and he got splendid results from his role."

The play is charmingly staged, with artistic settings and the latest in spring costumes. In the judgment of the many who have seen it to date, it affords a most entertaining evening.

The Players' Club from U.B.C. is presenting "Polly With a Past" in Ellison Hall, Saturday, May 19, for the Summerland high school. Secure your ticket from students or Macdonald's Drug. 17-2-c

Chautauqua is giving you an unusual programme of interesting and instructive entertainment this year. It is to be held on May 28, 29 and 30 in Ellison Hall. See the programme. Secure your tickets.

### KELOWNA TRIMS SUMMERLAND

#### First Baseball Game Brings Out Fast Play—Was Exciting

Baseball has started for this season in Summerland, the first game being played on Thursday. Kelowna played the local nine on the campus in a nine-inning match in which the home crew was trimmed to the tune of 4-3.

It was one of the fastest and cleanest games seen here. Daniel made two runs and Britany one. Two-base hits were made by Daniel and Steuart. For Kelowna, runs were made by Patterson, Roth and Henderson.

The lineups were as follows:  
Kelowna—Patterson, ss; Bourke, cf; Dallon, c; Cayton, 3b; Parkinson, 1b; Ryan, 2b; MacKay, lf; Roth, rf; Henderson, p.

Summerland—Nicholson, ss; Steuart, rf; Snow, cf; Adams, lf; Elwett, 1b; Britany, 2b; Daniel, 3b; Gould, p; Johnston, c; Gouche, c.

HOUSES TELL STORY IN BARRYMORE FILM

Symbolical motion picture settings, reflecting with rare fidelity the sentiment and tempo of the action shown against the various backgrounds, are achieved for the first time in "The Beloved Rogue," John Barrymore's

first starring vehicle for United Artists, which opens at the Rialto Theatre next Tuesday and Wednesday, May 22 and 23.

## Ladies!

Have you ever worn a "Perfect Fitting" Shoe?

Shoes that fit your instep, are long enough to allow freedom of toe action when exercising the feet, without at the same time being loose around the ankles and slipping on your heels; shoes which look dressy even in the plainer numbers because of the fit.

PATENTED  
**PETERS FLEXIBLE ARCH**

The shoes illustrated in this advertisement answer that description completely and are four numbers only out of FIFTY-EIGHT DIFFERENT STYLES, all made on combination lasts, meaning narrow heels and wide balls, extremely narrow or extremely wide—in regular sizes, also in large sizes right up to size 9EEE wide.

We have many of these lines in stock and will order any of the other numbers for you. Furthermore, we can save you money on this select footwear usually obtained only in high class city stores at prices above what we are asking, as has been testified by our customers repeatedly.

Made in four grades, each grade with a wide choice, at from \$5.20 to \$9.70 a pair. Every dollar you pay will give you two dollars worth of satisfaction as compared with the ordinary run of footwear.

Try a Pair!

MORE STOCK ARRIVING CONTINUALLY

## Beer's Shoe Store

acknowledged the greatest piece of art direction on the screen belongs to William Cameron Menzies, art director for the Joseph M. Schenck organization. His stupendous and entirely original settings in the latest Barrymore classic, climax all his previous efforts, in such productions as "Kluge," "The Thief of Bagdad," "The Eagle," "Rosita," "The Son of the Sheik," "The Bat" and other outstanding screen successes.

In "The Beloved Rogue," Menzies has endeavored to make his settings, depicting Paris in the Fifteenth century, actually express the "feeling" of the various sequences. That he has succeeded is apparent in the statement of Alan Crosland, director of the picture, that never before have such animated sets been built for the screen.

## Firestone Dealers

Save You Money and Serve You Better With A Tire For Your Every Need

Firestone Dealers offer you a complete line of tires, each supreme in its class, headed by the famous Firestone Gum-Dipped Ballon. All are made by Firestone in Canada's most economical tire plant—an assurance of the most for your money.

Firestone distributes tires only through regular service-giving dealers direct from Factory Branches and authorized distributors—never through mail order houses or so-called special jobbers. You are assured fresh, clean tires along with the expert service and advice of Firestone Dealers—who have been trained at Firestone Dealer Educational Meetings.

See the Firestone Dealer nearest you. He is prepared to save you money and serve you better, no matter what price tire you want to buy.

## SUMMERLAND MEANS BUSINESS WITH SOLDIER SETTLEMENT BOARD ON TAXATION PROBLEM

### New Proposals Made To Municipality But Still Unsatisfactory

### COUNCIL HAD LONG SESSION TUESDAY

### Reeve Criticizes Review Editorial on Vice-Regal Reception

There was a long list of subjects before the council for discussion on Tuesday and some important matters were dealt with.

For three years the municipality has not had to borrow anything from the bank, but this has to be done for a few months this year.

The Soldier Settlement Board has come to the conclusion that Summerland means business and has made proposals for the carrying on of the programme in a little more business-like way, but still far from satisfactory.

Mr. Huddleston was in to see about irrigation water. Already he is short, and thought that, after taking the precaution to come in early to see about the difficulty, he was going to be relieved of the necessity of coming this year.

Arrangements were made so that customers of the electric light department could secure the poles they needed on their lots, for extensions.

Arrangements were made to have Alf Johnston stationed at Canyon dam. He reported that he had been up last week and that water had started to come into the dam. The gate was open, allowing all the water to come through. It was decided that he should stay there with a helper and to keep the gate open for a while yet.

Editorial Criticized  
One of the interesting debates of the afternoon was the reeve's remarks in objection to a Review editorial referring to the recent reception to the Governor-General. He stated that he had no knowledge as to the day before. He did not know just who was responsible for the editorial but took exception to it. He considered that, as there was no letter to the council, he did not need to go. He concluded that the Legion could handle it.

Major Tweedie supported the idea expressed by the editorial although he did not know who was responsible for it. He stated that the notice had been ample and that it was, in his estimation, a municipal function.

The editor of The Review, answering, said he did not know if it was out of place to reply, but he was personally responsible for the remarks. He had purposely considered the criticism severe and considered it would have been much nicer if the event had been recognized by the municipality. At that the matter was dropped.

Electric Light Poles  
In connection with electric light matters, more poles had been received and arrangements were made to have Messrs. White and Thornthwaite unload them, leaving some in town, the balance to be brought up the hill.

When the poles were under discussion, Councillor Smith brought up the question as to where customers were to get poles suitable for their needs. This brought the information that the telephone company, when they had them, had verbally agreed to supply any needed. Both Councillors Campbell and Smith did not think this was generally known. Mr. Smith considered that the municipality should carry poles of this kind. The light was a convenience and why not make it easily available?

The real estate committee reported that Mrs. Orr wanted to secure a municipal lot, but arrangements had not been completed. The house on the Grey property was in need of repair, and it was also decided to put some insurance on it.

Wages accounts to the amount of \$818.99 were passed.

Prunings from orchards had been placed in annoying places, it was reported, and had not been burned, and now it was too late to do so. It was decided that a stop must be put to this in future.

Complaints had been made of cars parking on corners inside the "No Parking" signs. It was decided to have the constable make it his business to take the license numbers of such offending cars and report. A few fines would stop the dangerous practice.

On the Road Question  
A reply was received from Mr. P. Phillip, deputy minister of works, relative to roads. He stated that he expected to be in shortly. This brought a laugh, as the long-delayed visit promised so often was still in the offing. It was decided the clerk should write him, stating the municipal claims of overcharges on road work of the highway through town.

Mr. W. C. Kelley wrote, stating that Inspector Tait had said that it would be a more effective preventive of codling moth to pull off the fruit set in his (Kelley's) orchard, and as he is in a "B" zone area, he asked if that would be agreeable. The clerk was instructed to write that it would, and also to write to Tait to see that the work was properly done.

A letter from S. Tait, pound keeper in Prairie Valley, came in for lengthy discussion. He did not want to install a telephone, and since the municipality had not installed a pump and he had had to carry water for the stock last winter, he considered that this should be dropped. Cattle in Prairie Valley, it was reported, had become quite a bother. The clerk was instructed to write people there, that they must have a header with the cattle to save pound fees.

Water Was Lacking  
Mr. C. Huddleston and Mr. J. Shephard were in to see about water supply. (Continued on Page Three)

### MOTOR CAR REGISTRATIONS

The motor car registrations in B.C. for the first three months of this year include the following: Chevrolet, 655; Essex, 260; Chrysler, 205; Ford, 198; Pontiac, 183; McLaughlin-Buick, 119; Studebaker, 105; Overland, 95; Willys-Knight, 30; Nash, 78; Star, 82; Durant, 19; Oldsmobile, 58; Paige, 29; Hudson, 41; Hupmobile, 38; Oakland, 24; Dodge, 77.

## ORCHARDS HAVE NOW RECEIVED MOTH SPRAYS

### Those in Zones Determined To Do Their Part To Halt Pests

### ACROSS BORDER TRAPS ARE SET

### Growers Urged to Use Every Effort to Stamp Out Pest

Reports from Mr. John Tait show that those whose orchards are in the moth infested area intend to give every assistance so far as they can in stamping out infection that has appeared. Both Mrs. T. C. Orr and Mr. Jas. Ritchie have applied the required sprays at the proper time and the others in their neighborhood also.

It is interesting to note in the Okanagan district the letter from Walter J. Christie, district horticultural inspector, which follows:

"This department and Mr. Hamilton, who is the field man for the Wenoka organization, are combining our efforts in combatting the codling moth, and between us have out about 250 codling moth traps all the way from the Methow valley and Pateros to Oroville.

"The first traps were out May 10 and the first moths were caught May 11, but we believe that moths were out several days before the traps were out. We have had egg-laying temperatures for several days and feel that the first cover spray should follow the calyx spray at about a ten-day interval to control the first worms and not allow any straggling worms to enter the apple trees.

"Any growers wishing codling moth bait can call at the office and will be glad to supply it to them, free of charge."

"In the Okanagan Independent the same inspector wrote on another date: "The next important spray on our programme is the calyx spray for the control of codling moth.

"In applying all sprays, thoroughness is the dominating factor and to obtain this end one should spray by some sort of system, it does not matter whose, so long as one works out some system where you will cover all of the tree with a minimum amount of time and material. In perfecting a system one should always check over his work and see where he is making his mistakes. The very best job in spraying is in poor enough."

## WILL SCRUTINIZE INDIAN MARKS

### Writing is Found in Canyon Between Kelowna and Penticton

Vancouver — Examination will be made this summer by Mr. Harlan I. Smith, Dominion government archaeologist, of the photographs of the Okanagan, according to present plans of the Victoria Memorial Museum, Ottawa.

The announcement is of particular interest in view of the examination recently made by Major K. C. Tallour of the entrance to a deep canyon opening on Okanagan Lake. An effort will be made to have Mr. Smith view the photographs on his visit to the district.

Writing to The Province, Major Tallour says of the Indian picture writings:

"They are at the only entrance to a deep Okanagan canyon, on the east side of Okanagan Lake, about fifteen miles south of Kelowna. It is a deep canyon running south for four miles. From the north there is only one entrance, the south end opens out on the lake.

"As you walk through the canyon on one side you have perpendicular rock walls to 400 feet in places; on the other it is steep shale slides at the bottom, merging higher up into the Okanagan Mountains, 4,000 feet in height. Entering the canyon from the north by a very steep and narrow trail, on the face of which, as you go down, are the Indian writings.

"They are drawn with some pigment of a brick red color and are placed about five feet up the rock face. They look as if they were meant to represent two men and an animal—perhaps 'Ogopogo's' father."

This canyon is the one through which the Kelowna-Penticton road, survey pass.

Water is lying on the road to Peachland in several places, though it is not very deep yet. It is hoped no strong winds will be blowing till the lake recedes, or a considerable stretch will likely be washed out.

## Seven Seas Traversed

We passed in luxurious comfort, free from any care or irritating responsibility and absolutely without one disturbing incident from continent to continent," stated Lady Williams-Taylor on her return from a world cruise on board the Canadian Pacific liner, the "Empress of Australia," during which four continents, twenty-one countries and twenty-six ports were visited and seven seas traversed.

"With sheltered ease," continued Lady Taylor, "we had unfolded to us the soul-penetrating magnificence and the somewhat repellent fanatical conditions of India and distraught, yet ever thrillingly interesting China. We steamed up and down the dangerous Pearl River, and saw first-hand the devastation of Canton. Mysterious Java, and almost untouched Sumatra, held us spellbound. Singapore and its ever-

growing docks amazed us, and lovely Ceylon enchanted us. But Hawaii wound itself about our hearts and, to its haunting 'Aloha Oe,' we saw it fade away through regretful tears. Not only are the islands more than fascinating, but the Royal Hawaiian Hotel would tempt any traveller to return.

"After such a wonder tour of 133 days," concluded Lady Taylor, "we 'Lotus Eating Tourists' have once again to face the realities of ordinary existence, with- out the untiring supervision and perfect organization of the mighty and far-reaching Canadian Pacific Railway and Steamship's protection and care of us. It was, indeed, with hearts full of gratitude and appreciation for our splendid captain, his staff, and for the constant and devoted attention of the cruise directors, that we finally bid farewell to our floating home—the 'Empress of Australia.'"

## PLAYERS' CLUB LIVES UP TO REPUTATION

### Presents in Clever Fashion a Difficult and Amusing Comedy

### ACTORS MEASURE UP TO DEMANDS

### University Artists Please Good-Sized Audience in Summerland

The performance of "Polly With a Past" by the Players' Club of the University of B.C. in Ellison Hall last Saturday night was pronounced by everyone in the large audience a huge success. A sparkling comedy requiring considerable ability on the part of the members of the cast, was done ample justice.

The work of Miss Hope Leeming was outstanding. In the exacting dual role of Polly Shannon and Paulette Baudit she has been pronounced by many critics to be the best that the University has yet produced. Polly, the winsome daughter of an East Indian minister, won the hearts of all, especially that of the shy but enthusiastic Rex Van Zile, while Paulette Baudit, the notorious French siren, who would have made Cleopatra look like a piker, deluded with equal facility all who were not "in" on the secret, from the susceptible Commodore Barker (W. J. Matheson) to the exceedingly world-wise millionaire, Prentice Van Zile (David Wodlinger).

The leading male role, Rex Van Zile, the bashful heir of the Van Zile millions, was ably taken by Mr. Alfred Evans. A master of pantomime, he easily brought the house to roars of laughter by his expressions and gestures. John Billings, as Clay Callum, interior decorator, and Eric North as Harry Richardson, succeeded perfectly in creating the plot, and as for explanations, the latter proved himself a true artist.

Their plans failed, however, by reason of the unexpected arrival of Cupid, whose well-planned darts dispatched two of the principal parties to their plot. The parts of the two mothers were done with pleasing ease and naturalness by Miss Frances Madley and Miss Ellen Griffin, while the difficult role of Myrtle Davis, whose craze for saving people struck terror into the hearts of all peace-loving persons, was bravely done by Miss Frances Taylor.

It speaks much for the influence of a good woman which could transform such a one as Rex from one who could become infatuated with Myrtle into one who could win the love of that personification of perfection, Polly.

Probably the most amusing character was that of Stiles, whose rheumatism required such consistent treatment that it left him a splendid prospect for the "savings" pension of Myrtle. The role, as interpreted by Mr. Sydney Blak, was ludicrous in the extreme.

Much credit is due to Mr. F. G. C. Wood, whose untiring efforts have made the University Players' Club what it is, for the production of this delightful play, also to Mr. K. Caple and Miss Maranda of the high school for their support in arranging the visit here.

DR. TEHYI HSIEH  
Distinguished Chinese lecturer appearing on Chautauqua.

## MACS OFF IN ONTARIO AREAS

### Spys Show a Lighter Crop Also—Expected Big Yields

Information has just reached here to the effect that in a district of considerable extent in Western Ontario, the crop of McIntosh Red and Northern Spy, failed to even blossom.

How far this condition prevails has not yet been ascertained, but queries from those in authority have been sent over that section of the apple-growing district. The results should be available any day now.

It is thought that this condition prevails between London and Guelph mostly. This should have been a heavy year for McIntosh in that district.

## TROUT CREEK IS NOW VERY HIGH

### Blasts Have Been Necessary to Prevent Serious Trouble

At Upper Trout Creek the water here, rising very rapidly and much driftwood and rubbish has been carried down, causing many dams to form at places that are giving the railway some worry as well as those who live along the creek.

Several blasts were necessary in order to clear the channel.

The creek is higher than it has been for many years and is taking big driftwood along with it. One big log was carried down to the John Plog bridge and it is being watched to see that drift stuff does not collect against it and cause serious trouble.

At one point a jam had raised the water to within a few feet of the K.V. T. roadbed, and was spreading off into the woods on its way down to Pauldor, where another bridge has caused some concern. All along this stretch of the creek a careful watch has to be kept for a few days, to see that no serious trouble is caused by the gathering of driftwood.

## TULIPS MAKE DELIGHTFUL EXHIBITION

### Excellent Display from Kelowna of Named Varieties

### JUDGE EXPLAINS ALL DECISIONS

### Basket Blooms Make Fine Showing With Sturdy Flowers

What was considered a very encouraging number attended last week at the tulip show at G. J. C. White's. A goodly number were there before judging was over, enjoying afternoon tea and a social time. Exhibits were of extra good quality and there was competition of really attractive flowers both in tulips and panicles. Messrs. W. T. Hunter and W. M. Fleming were judges for the occasion.

Outside the sun porch where the exhibits were displayed, the wisteria vine was at the height of its blossom, completely covering the south end of the house with a perfect mass of flowers, which added much to the delight of the occasion.

One of the outstanding exhibits came from Kelowna, sent by General Harmon, and was made up of tulips of varieties not grown here. His vase of "Picotee," a May flowering tulip, was particularly unusual and quite a full headed yellow.

"Miss Moon" was a most cheerful flower of an intense shade. Some "Scarlet Majors," another of the May flowering tulips, made a most attractive group. He sent with these, six other vases, all named and classed, so as to be quite a help to members of the Horticultural Society looking for information. Mrs. Collins, who had been at the Kelowna show, secured this exhibit for Summerland while she was there.

Among the broader group, one noticeably fine exhibit was of flowers with a metallic hue quite unusual and very attractive. The purple tulips made a showy display, and the bigger basket entries were a real treat.

After the judging, Mr. W. M. Fleming went over the different decisions, explaining why the prizes had been allotted as they were. His address was intended to assist members of the society in the growing and showing of tulips. Miss Joan McIntyre's outstanding exhibit had gone a little past show time owing to the heat, but received very favorable comment.

The society has now close to one hundred members and expects to go well over that number this summer.

The prize winners had several different entries. Those receiving awards were Miss Spencer, Mrs. Hagan, Miss Sinclair, Mrs. Elliott, Mrs. Tinos and Mrs. Collins.

Mye Ashmoren went up to Chuto Lake last week-end, but report only meager results, as the water was high and plenty of food available for the fish. In the party were Geo. Inglis, C. E. McCutcheon, Lorne Sutherland, Capt. Croose and Fred Gartroll.

## FLOOD MENACE AROUSES SOUTH OKANAGAN CITIZENS TO ACTION

### Interior Championship For Men to be Played On Kelowna Golf Links

Kelowna—An event of keen interest to the golfers of the interior of British Columbia will be staged at Kelowna on May 24, 25 and 26, being the interior championship for men, an event which has not been held in Kelowna since 1924, and for which the handsome cup donated by the business men of Kelowna is the trophy.

## JERSEY CATTLE CLUB IS TO GET FINE ANIMALS

### Many Good Prospects Assure Club's Future Success

### ALL BUT THREE CALVES PLACED

Members of the Jersey Cattle Club have received very good news as to their car of calves and the progress of the club recently. Mr. W. T. Hunter expects word any day that the animals have been shipped. The club has a bright future and is to receive a most excellent quality of foundation stock.

To the directors, one of the most gratifying features of the development of the club is the fact that it has been so well received here, and one evidence of this is that eight of the heifer calves that may be dropped by the stock that is coming have already been spoken for by future members of the club, and these at excellent figures. Another feature is that Vernon now wants a club and has asked Mr. Hunter to organize it, but he feels one at a time is quite enough.

Indirect information has been received to the effect that the bull that has been chosen is from an excellent family line. He is a three-year-old son of "You'll Do Volunteer," out of a cow by "Fern's Oxford Noble 2nd," a most notable sire of many prize winning Jerseys. This is evidence that the Summerland club is being treated to every consideration.

Seventeen of the twenty heifers that are coming have already been spoken for, and Summerland is to be given the first opportunity to take up the other three, otherwise they will be passed on if not quickly arranged for.

No meeting of the directors has been called recently as nothing portentous has made this necessary. It is just possible the animals may be exhibited at the June 4 picnic if they are here in time to get over the effects of their long trip west.

An interesting letter which Mr. W. T. Hunter received on the selection of the stock, follows:

Brampton, Ont., May 12, 1928.  
W. T. Hunter, Esq.,  
Summerland, B.C.  
Dear Mr. Hunter:

I am very glad to have your wire that I found here this morning, and to know that you were not in so much hurry for the heifers. I gather from this wire that the shipment need not be fully accredited. I had hoped that it might be possible to work in a few from partially accredited herds, but had given up the notion because I thought that you were going to discontinue the heifers from the Summerland farm, and knew that you could not take anything on to the place that was not fully accredited.

It so happens that we know of two or three exceptionally fine heifers in herds that have had one or two clean tests, and if we can work these in I think they will strengthen the shipment, as well as add to its uniformity. To make sure of this, I am wiring you today. Mr. Bull is certainly most anxious to make this lot satisfactory every way, and he will be very glad to know that we have a few more days to look around before the car leaves.

Last week he got two wonderful heifers from 60 lb. dams, and sired by a full brother to Signal of Okanagan. In my opinion, the best breeding bull on the Island of Jersey that I saw was Signal. Unfortunately he got hurt last year and had to be killed, otherwise he would have been a \$25,000 bull, as his daughters are certainly meeting with the approval of the most discriminating buyers. On my return to this country I found that there was an imported dam full brother to Signal here in Ontario, and I sold him to a Quebec breeder for \$1,000. The two heifers that I speak of are by him, and from wonderfully good cows. Our plan is to assemble thirty or thirty-five heifers that we think are good enough, and then select the twenty best from the lot. The shipments made to the southern States this winter have been so satisfactory because of a little extra care in selection, that we cannot afford to leave a stone unturned in this lot.

I think the bull that should go is an imported son of You'll Do Volunteer, from one of the best daughters of Fern's Oxford Noble 2nd. This bull had quite a bit of service on the Island, and was used here at Brampton for a couple of months, and has been in an absolutely clean herd since December. He has been here as good a breeding bull as there is, and I think you and I are particularly fortunate in having such a bull available. He broke one horn crossing the ocean, so the other one was taken off, and he is easy to handle.

By the first of the week we should be able to send you most of the details of the heifers, and by that time will probably have your list of club members.

Very best wishes,  
Faithfully yours,  
W. F. MO ASHTON.

### Reduction of Low Water Level of Lake Urged at Meeting

### GATHERING WOULD HAVE RIVER DREDGED

### Kelowna, Oliver, Falls and Penticton People Meet Engineers

The reduction of the minimum lake level by eighteen inches, provision in the proposed new dam at the mouth of the river for a more rapid run-off at the lower lake levels, and the improvement of the river between Okanagan and Skaha lakes by means of dredging were recommended at a meeting of Kelowna, Penticton, Okanagan Falls and Oliver interests at Penticton on Tuesday night.

The gathering was presided over by Engineer Brydson Jack from the Coast, Dominion government engineer for the province. Present also were Engineer P. E. Doncaster, Dominion government engineer for the interior; P. Phillip, deputy minister of public works for B.C.; District Engineer Mackay, O. F. D. Norrington, water rights branch; General Road Supt. S. T. Elliott, of Kelowna; Mayor D. W. Sutherland, City Engineer Blakeborough, F. M. Buckland and E. W. Groves, of Kelowna; Mayor Barrie of the Oliver project; also Messrs. H. and V. Fairweather, Elliott and F. W. Nesbitt of Oliver, W. B. Hyne and J. H. Christie of Okanagan Falls, Reeve Kirkpatrick, T. Andrews, R. Lyon, R. J. Long, H. Leir and M. S. Peacock of Penticton. Several of those present took an active part in the discussion, while others were attending in a watching capacity.

A stenographic report of the proceedings was taken by Mr. T. K. Bernard.

Situation is Grave  
The gravity of the present situation was realized to the fullest extent. It was pointed out that Okanagan Lake is at present more than a foot above the high level provided for in the control range laid down some years ago, and there are prospects that it will go up almost another three feet by the end of June.

Mr. Doncaster read a statement which mentioned the fact that after the flooding of 1921 it had been agreed insofar as possible to maintain the level of the lake between a low water mark of 99.5 and a high water mark of 102.5, a range of three feet. The figures from year to year from that time were: 1921, 100.7; 1922, 99.7; 1923, 99.7; 1924, 99.5; 1925, 101.8; 1926, 99.8; 1927, 99.9; 1928, 101.3; 1927, 99.5 to 101.3; 1928, 100.4 to the present level of 103.65.

Precipitation records taken in the district since 1919 gave the following figures in inches: 1919, 12.16; 1920, 12.47; 1921, 12.23; 1922, 14.49; 1924, 11.11; 1925, 11.36; 1926, 13.61; 1927, 18.73. First four months of 1928, 4.51. For the past seven months the precipitation has been 17.46.

In regard to a settlement from Kelowna that stores in the main opening of the dam here still remained, he stated that of the 48 logs in the dam only four short logs remained in during the period from March 24 to May 11. The provincial government works department had also wired him with regard to the lake road, so far there had been little damage to that highway. His statement concluded with the remark that it was impossible to control the lake within the control limits set down, when periodical freshets occurred.

Injurious to Health  
Engineer E. W. Groves of Kelowna said that the present high water was detrimental to the health of Kelowna people in that the sewerage systems were being put out of commission. He believed that the lake would rise another foot within the next week or ten days and the condition was therefore quite serious. Records showed that the lake had gone up three inches in the past 24 hours. Mission Creek was now in flood at Kelowna and was bringing down 4,000 cubic feet of water per second, enough to raise the lake level one-tenth of a foot per day. This creek has two stages of flood, one from the fifteenth to the twenty-fifth of May, and the second from the tenth to the twentieth of June. It was now out of its banks for a distance of five or six miles. There still remained from three to five feet of snow at the headwaters of Mission Creek and the run-off into the creek will be longer this year than usual. Many of the other creeks were flowing not from snow but from last fall's precipitation now coming out of the ground.

Mr. Groves considered that the lake would continue rising until the end of June and the increase in height from the present level might be as nearly three feet. That would mean that the Inokashon road would be out of commission for two months. The lake water was now about one foot over the road near Penticton and was washing over it during winter periods at two or three places farther north. The only thing to do now was to plan to prevent a recurrence. The year 1904 saw a much greater flooding in the Okanagan Lake, but there were few people here then. Flooding also occurred in 1912, 1916 and 1921.

Entering on Wet Cycle  
Mayor Sutherland suggested that possibly the Okanagan was now entering upon a wet cycle. In 1904, he said, the lake was 3.4 feet higher than it is today.

Engineer Doncaster pointed out that early records of precipitation were taken from comparatively few places, while the records now obtained were from eleven to fourteen stations at various elevations in this district.

That dredging and straightening of the river might be needed was an observation from Mayor Sutherland.

"The snowfall last winter was not a record one, but the difficulty is that (Continued on Page Three)

PEACHLAND NEWS

By Our Resident Correspondent

The local baseball nine, Captain G. Garlinge and Pitcher Fred Topham, returned home from their motor trip to Vancouver on Thursday of last week in time for the league game here with Penticon. They report having enjoyed the trip very much, having gone the south route and returned via the north, making the entire trip with out mishap, not even a tire puncture. The ball game on the Peachland diamond on Thursday afternoon was a good one. The local boys were right on their toes and got away to a good start. They held the visiting team almost to the finish, and it was thought that it was Peachland's game, but a few errors changed the score sheet somewhat and the game finished five to three in favor of Penticon. We feel that a word should be said and a little commendation due the visiting team on the occasion of this game. There seems to have been some little misunderstanding with reference to the hour for the game, and the Penticon players waited at the Peachland diamond from mid-afternoon until about 5.30 before the game started, and they were very patient about it.

Mr. George Stevenson left last week en route for his summer quarters at Edmonton, expecting to be absent about three months.

After a few months' pleasant sojourn in Peachland, Miss Armstrong left on Thursday of last week to return to her home in Vancouver.

The baseball club put on its postponed concert on Friday evening of last week, and while there was a pretty fair turnout present, it was thought there might easily have been more out to help the boys. Perhaps the change in dates had considerable to do with it. There was a good programme, principally music, vocal and instrumental. The principal innovation, aside from musical numbers, was perhaps the chairman's address and spicily bits here and there between numbers. Mr. B. F. Gummow, one of the "Has Beens" of the various nines which have crowned Peachland with glory from time to time on the diamond, was the witty chairman on this occasion. A new entertainer to make his appearance on the local platform was Mr. Button, the new baker, who pleased the audience with song and mandolin. Time and space will not permit of a full account of the programme, suffice it to say that the audience was so well pleased with each number that it sent the artists all back to "do it some more." The local orchestra, "The Midnight Ramblers," ably assisted with the music.

Miss Agnes Kane came in from Calgary recently to take a position in the Edgewater Inn with Mr. and Mrs. Hampson.

The regular monthly meeting of the Women's Institute was held on Friday last. The treasurer's report showed a balance of \$224.61. The proceeds of the bazaar had reached \$65.65. The library committee reported an exchange of 65 books with the Naramata library. Mrs. Buchanan delighted the ladies with a very interesting paper

on "Fay Inchfawn, Poetess," concluding with one of her well-known poems, "The Gospel According to Mother." Miss Coltham gave a piano solo which was much appreciated.

Mr. and Mrs. Hugh Williams and son Lloyd left by motor on Tuesday morning to spend two months touring in the States and the prairies. They expect to go as far east as St. Paul.

The Edgewater Tennis Club held its opening day on Thursday, May 17, at the Edgewater Inn, under ideal weather conditions.

The new hard court was in very good shape, thanks to the efforts of local volunteers, whose willing help was greatly appreciated by Mr. J. F. Hampson, president of the new club. A number of visitors from outside points, including Kelowna, Okanagan Mission, Westbank and Summerland, were present, both as players and spectators.

A mixed doubles handicap competition was the feature of the afternoon's play, which was won by Mr. H. H. Thompson, and a prize consisting of tennis balls donated by Mr. Hampson was presented by Rev. Mr. Solly, who was among those present. Ice cream and refreshments were afterwards served to about thirty guests on the spacious verandah.

PARTY HONORS YOUNG COUPLE

Naramata Friends of Miss Myers and Mr. Hughes Gather

One of the most successful social events of the season took place in Naramata on Thursday evening, May 17, when about fifty guests were present at an engagement party given in honor of Miss Alice Myers and Mr. Frank Harrower Hughes. The early hours of the evening were spent dancing in the Unity Club, which had been tastefully decorated in mauve and white, with a large "Lovers' Moon" over the fireplace at one end of the room.

At the conclusion of the "Supper Waltz" the guests marched from the club house to the home of Mr. W. J. Young for the surprise event of the evening. The large front verandah had been transformed into a wonderful land of light and color, with a long table laden with delicacies as the centre of attraction. Souvenir place cards in the shape of wedding bells, the engaged couple's initials engraved in gold and a Kewpie doll attached by pink ribbon, indicated to the guests their allotted seats. A large doll, wonderfully dressed in full bridal regalia, formed an appropriate centre piece to the table decorations. Mrs. J. Heap, assisted by Miss Mary Young, presided as hostess. The ensuing onslaught of hungry young people soon reduced the array of goodies to a minimum, after which Mr. Heap, as toastmaster,

took charge of the ceremonies. Mr. W. S. Young's humorous toast to "The Ladies" was fittingly responded to by Mrs. D. O. Hughes. In a few well chosen words Mrs. Ruth Rounds voiced the great esteem in which Miss Myers is held by old and young alike, specially mentioning her willingness in always aiding every community effort undertaken, and wishing her every happiness in her new life. Miss Myers replied briefly, expressing her appreciation of the honor, and thanking those responsible for arranging the party. Mr. F. R. Cross, in proposing a toast to the engaged couple, laid bare some deep dark secrets concerning Mr. Hughes' past life, hoped for an improvement in doubtful tones, and warned the bride-elect to expect the worst. Mr. Hughes, replying, voiced the thanks of Miss Myers and himself for all the nice things that had been said and done on their behalf. Toasts to the "Bachelors" by Mr. J. E. Mors and the "Bachelors" by Mr. J. Heap, were responded to by Mr. D. McKay and Mr. B. Ryall respectively. Mr. Mors then read out a humorous semi-joking agreement which the bride and groom elect were alleged to have made between themselves to govern their future conduct toward each other. All the guests were invited to sign this as witnesses, and it was tendered the happy couple as a memento of the party. The entertainment was brought to a happy conclusion by the crowd joining hands and singing "For They are Jolly Good Fellows," followed by the National Anthem.

Mrs. J. Littlejohn Sr. received a box of old bloom last week from the Vancouver Sun, in recognition of her record in the number of grandchildren in this province. Mrs. Jas. Gawne reports roses in bloom in her garden on May 17, which does not seem to indicate a backward season. Mr. H. P. Salting has been confined to his house through sickness for the past week. The Canadian National Railway pile driver is here, and operations have begun on the car slip to serve the Co-operative packing house, a convenience long looked for. Mr. J. M. Myers met with a painful accident last week while irrigating, his foot being badly sprained. He will be unable to use it for some little time. There are indications of approaching weddings in Naramata. Miss Alice Myers and Miss Lillian Raitt being recipients of "showers" and personal gifts appropriate to those occasions. The lake is encroaching on the shore at an unusual rate recently, several feet advance being noted during the past week. The creek in the south end of the town has overflowed its banks for some time past. The members of the Women's Auxiliary met on Friday at the home of Mrs. F. R. Cross, who was hostess on that occasion. Mrs. R. E. Gamman presided.

HEAVY CROP OF FRUIT INDICATED IN FIRST REPORT

Horticultural Branch Issues Initial Newsletter of Present Season

CHERRY SETTING IS SOMEWHAT SPOTTY

But All Other Fruits Showing Signs of Big Yield

Vernon, May 19.—Horticultural Branch, Newsletter No. 1: While the present indications are that British Columbia will have a very satisfactory fruit crop in 1928, it is too early to forecast with any degree of certainty what the total production may be. The 1927 crop, however, while on the whole smaller than in 1926, has proven a most satisfactory crop from the standpoint of returns to the grower. The figures showing the 1927 production of all fruits follows:

Table with columns: Fruit, Boxes, Value, Manufactured Pounds, Value. Includes Apples, Crabapples, Pears, Peaches, Apricots, Plums and prunes, Cherries.

Table with columns: Fruit, Crates, Value, Manufactured Pounds, Value. Includes Strawberries, Raspberries, Blackberries, Loganberries, Gooseberries, Black Currants, Red Currants, Other Bush Fruits.

Note: Fruit from districts not otherwise provided for: 49 tons, \$9,567.

Northern End of Valley Vernon, Armstrong, Okanagan Centre, Oyama, May 18.—Following a fall of heavy precipitation our snowfall during the past winter was possibly the heaviest recorded for many years. The winter was protracted and fairly low temperatures were more the rule than the exception, which is somewhat unusual for the Okanagan. Orchard trees in general wintered very well. Slight winter injury occurred on a sudden sub-zero drop at the end of February, the low temperature occurring in conjunction with bright, warm days. This injured the peach and apricot buds, but there was no apparent injury to any of the other stone fruits, apples and pears. Some cambium injury occurred on tree trunks throughout the district, but the injury was neither very general or severe. Moisture conditions, throughout, are excellent, and although it appeared to be a late spring, since the advent of growing conditions very rapid progress has been maintained, and the actual blossoming dates are four days ahead of 1927, and the falling of the blossom has actually brought us a week ahead of last year.

Short Blossom Period The period of blossom this season was the shortest observed for a long

time. During the blossoming period of cherries the weather was very unfavorable for pollination and the set of this fruit today is: problematical, but by the next issue it may be possible to give a better indication. All other fruits with the exception of Wealthy apples have shown a heavy blossom. Weather conditions during this period have been ideal and there is every promise of an excellent set. Pest conditions are favorable with the possible exception of apple scab and woolly aphis. All vegetable crops look well at this early stage and are now beginning to show signs of rapid growth.

There is a certain amount of winter-killing in winter wheat and alfalfa in certain unfavorable locations. With the wheat, both stalling and winter-kill were responsible for the damage in this crop. Orchard operations in general, i.e. pruning, spraying and fertilizing, have received good attention throughout the district, and orchards are today showing excellent promise for production and growth. There will this year be no danger whatever of a shortage of irrigation water, so the outlook from a production standpoint for the season of 1928 is in a very promising state.

In Kelowna District Kelowna, May 18.—Trees generally came through the winter in good condition. There was some bud injury on peaches and apricots, and a few cases of trunk and top injury on apple trees. Cherries showed a large amount

of blossom and have set well. Plums and prunes also promise an excellent crop. Nearly all apple orchards showed a large amount of blossom and from present indications a larger crop of all fruits than last year may be predicted. The apple blossom is about a week earlier than last year. Onions are well up and most of them have been weeded the first time. The stand is good. Tomato plants are being transplanted to the field rapidly. There are about 25 acres of Bermuda onions. The onion acreage is estimated at 500 acres against 750 last year. The tomato acreage is about the same. There will be about 100 acres of tobacco.

Hay and fall sown grain crops never looked better. Irrigating of orchards is general, and the calyx spray on apples is in full swing. More spray is being applied this year than ever before. Fertilizers have also been used more freely than in previous years.

In This District Penticon, Keremeos, Oliver and Osoyoos, May 18.—Orchards throughout the district are looking extremely well, having come through the winter in first class shape. Moisture conditions are excellent and everything points to a heavy crop of fruit. The

weather has been quite warm the past week or so, and conditions are ideal for getting truck crops off to a good start. Practically all the fruit blossom is on, and growers are getting busy with spraying. At Osoyoos, apricots are being thinned. During the time the stone fruits were in bloom some very cool and dull weather was experienced that may affect the setting of cherries and peaches, but it is too early yet to determine just how these crops will turn out. Keremeos and Oliver will plant quite a large acreage of caniny tomatoes, and Oliver will also plant quite a lot of cantaloupes and early tomatoes. Summerland Summerland, May 16.—The orchards have passed through a normal winter with much snow during severe frost periods, with no apparent tree or fruit bud damage. During the cherry bloom period, weather conditions were bad, which is now showing up by a heavy drop in Bling and Lamberts. All other stone fruits are showing a heavy set of fruit. Apples and pears also are showing considerable blossom. The present prospects show a heavy set of most all fruits. Moisture conditions are above normal. Trees are in thrifty looking condition, and cover crops are making splendid growth. The growers have used much lime sulphur this season, and have also applied a large quantity of fertilizers.

SYNOPSIS OF LAND ACT AMENDMENTS PRE-EMPTIONS Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes. Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent. Records will be granted covering only land suitable for agricultural purposes and which is not timber land, i.e., carrying over 5000 board feet per acre, west of the Coast Range, and 8000 feet per acre east of that Range. Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner. Pre-emption must be completed for five years and improvements made to the value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received. For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land, \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands." HOMESITE LEASES Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed. LEASES For grazing and industrial purposes, areas not exceeding 640 acres may be leased by one person or a company. GRAZING Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued, based on number range, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free permits are available for settlers, campers and travellers, up to ten head.

ELLISON HALL NEEDS ALTERATION

A surprise coming from the visit of the University Players' Club, for most of those who attended was the information that when renovating Ellison Hall, in the construction of the stage, a mistake had been made. The Club's scenery, although standard in height, was quite a bit too high for the accommodation afforded by the hall.

Only one thing remains to be done—increase the distance between the floor and ceiling so that standard height scenery may be accommodated. Either the floor will have to be lowered or the ceiling raised. The latter would seem to be the advisable alternative, for to lower the stage would put rather a handicap upon the rear seats, and besides, it is probably a more expensive undertaking.

In either case it will be some time before the alterations when planned, can be carried out, but it is something to keep in mind, for the suggested improvement will enhance the value of the hall. Along with that there was quite an apparent need for a few ventilators to be connected as the auditorium was very warm, to say nothing of the dressing rooms on the platform.

These changes, no doubt, will be kept in mind by the committee when funds are available, and outside companies wishing to show here can, in the meantime, be saved the expense of bringing in their scenery.

A GROWING INDUSTRY

Because of the early Spring season at the Coast, bulb growing has become quite an enterprise there, with a future that seemingly has not been at all over-estimated so far. Only a few experiments have been made in connection with the business as yet. It may not offer an opportunity to many up in this section of the province and will interest most of us only insofar as it may mean better bulbs and possibly at some small reduction in price. There may, however, be a few places here where suitable conditions exist that would lend themselves to this work, and the business may make a start even up here.

Those who are interesting themselves in the proposition are attempting to create a superior stock, developing an excellent quality of bulbs and in that way commanding the confidence that comes of a good reputation. Experiments that have been made comparing Coast bulbs with European tulips, show that they have succeeded to a considerable extent in achieving their objective. If in an industry as new as is the bulb growing, those who have made the venture, had only succeeded in equalling the work of European growers who have had years of experience to their credit, it would be gratifying, but in this short time to obtain superior stock, shows there must be a satisfactory future for the venture.

It, like all farming propositions, will have to combat the attacks of disease and insect pests, but as gardeners have had to combat the troubles to which the bulbs are subjected, in order to get the blossoms, this will not be such a difficult phase of the business.

The advancements so far made, are very encouraging and the business brings another money-making avenue to add to British Columbia's many attractive offerings for those with money to invest.

LESSONS FROM THE FLOOD

One lesson taught by the high water of this year is that some change is needed in the lake levels.

By mutual arrangement between the various centres in the Okanagan and the transportation companies it was proposed some years ago that the minimum winter level of the lake be set at 99.5 with the extreme high water allowed to reach 102.5, a difference of three feet. The transportation companies are understood to have stated that they could not satisfactorily operate at several of the lake wharves at any lower figure than 99.5.

But this week the lake level is practically a foot higher than the maximum provided. Such an extreme level means that the drainage system of Kelowna is practically put out of commission, and that Penticton, Okanagan Falls, Oliver and Osoyoos meadows are all flooded, the river being unable to take the water away as fast as it enters the lake.

The only solution which seems apparent is to cut down the level of the lake, even if some arrangement has to be made in connection with lengthening the wharves. If the low level of the lake was set at 98.5 and the high level at 101.5 then in flood years we would be in a much improved condition. In the present instance, for example, the lake, at a foot above its high extreme, would be only 102.5, a level which would work no particular damage to meadows or drainage systems of waterfront roads.

It is readily apparent also that the government at Ottawa is wise in adopting the recommendation of Engineer P. E. Doncaster to rebuild the dam at the mouth of the river here in order to allow for the passage of a greater amount of water in flood periods. Accompanying this as a necessary factor, is the further excavating of the river channel between Okanagan and Skaha lakes to take care of the increased amount of water to be passed through. After that will be the problem of improving the bed of the river south of Skaha Lake practically to the boundary line. Under present conditions, due to the flatness of the country through which the stream flows, flooding in spring is hard to avoid.

The whole proposition constitutes a big problem, which must, however, be grappled with speedily in order to take care of the health of Kelowna, the needs of traffic along various lakeshore roads and the interests of the owners of meadow land.

World of Politics

(By an Ex-Writer of the Ottawa Press Gallery.)

In an interesting and thoughtful article on the anti-dumping situation, the Vancouver Daily Province characterized Premier King's statement to the delegation of protest that waited upon the government as lacking in frankness—"a near-hypothetical statement entirely surrounded by loopholes." As has been pointed out in this column, however, Mr. King was in a tight position in view of the attitude of the Progressive and Liberal-Progressive members from the prairie provinces and he did the best he could under trying conditions. On the whole he managed a ticklish situation with a not inconsiderable degree of adroitness. Concluding his editorial observations the Province observes: "British Columbia producers have been seeking a seasonal tariff and there seems to be some sympathy at Ottawa with their arguments. The dump duty, applied when it is needed, taken off when it is not needed, can be made to act as a seasonal tariff. But the application must be left in the hands of trusted officials on the spot. There is no possibility of making it effective through the cumbersome means of orders-in-council. The thing is for the government, or Parliament, if necessary, to decide the principle and leave the details in the hands of the administrative officials." It will be noted by those in any degree conversant with the situation that the foregoing correctly states the method of applying the anti-dumping provisions of the Customs Act as devised by Hon. H. H. Stevens when he was minister of customs, if we include the minister himself as being one of the officials responsible for the application of the law. This is undoubtedly the most expeditious manner in which to have Canadian produce protected from the dumped surplus of American farms. I state the case when I say that the same purpose cannot be attained by an order-in-council passed by the cabinet as a whole, providing the Stevens principle is maintained, to wit, that such orders-in-council will cover all imports during the entire period the Canadian produce is being marketed. Premier King says that the cabinet can still do everything that the minister was formerly empowered to do. If that is so, the cabinet about the middle of June can, if requested to do so (and there will be no lack of requests we may be sure), pass an order-in-council fixing a fair import price on cherries for a period of six weeks. It can take like action in regard to apricots, peaches, prunes, etc., at the proper time and covering just the period necessary to assist the marketing of Canadian produce at fair prices. Cherries will be ready for the market in a few weeks now and we will not have long to wait in order to find out just what the government's intentions are in regard to anti-dumping. I am inclined to the view that the outlook is that the cabinet will assume the onus for allowing the bottom to drop out of the market for it would be both politically and economically unwise to do so. The government is crowing a bit about Canadian prosperity. It will surely not permit anything to happen to seriously impair the prosperity of 150,000 Canadian farmers.

MORE INDEMNITY FOR MEMBERS AT OTTAWA

Scant sympathy is being shown the drive of a number of members of Parliament for an increase in the sessional indemnity from \$4,000 to \$6,000. The Ottawa Evening Journal in opposing the idea remarks that Canadian legislators are not so badly looked after and proceeds to say: "For a session which averages five months they receive \$4,000, which is \$900 a month. In addition, they receive free transportation for themselves and their dependents upon all Canadian railways; are allowed travelling expenses to and from their sessional duties; are given free stenographers; and are provided with a first class restaurant where they and their families can secure meals that are actually below cost. This, for a country with such enormous obligations as Canada, is not so bad." Canadians generally will agree with the viewpoint of the Journal. The day will doubtless come when the job of representing a constituency at Ottawa will be worth more than the salary now paid, but when it does an increase of \$1,000 should be quite enough to hold for a while. In seeking the \$2,000 increase the members favoring the move clearly overreached themselves. It is satisfactory to know that a majority are opposed to the proposed raid on the treasury, and it is still more satisfactory to be assured that the most outspoken opposition came from the members of the distant provinces who have the most to lose by being members of Parliament.

HOOVER'S NOMINATION NOT SO CERTAIN

In the opinion of some of the newspapers and political observers in the United States the defeat of Herbert Hoover by Senator E. Watson, Indiana's favorite son candidate, in the presidential primaries of Indiana suggests the possibility that he may not be the Republican presidential candidate after all. The voting in both Indiana and Ohio made it clear that the farmers of the Eastern States are not any too friendly to Hoover, as in both states he polled a very heavy urban vote but ran behind in the rural districts. Clinton W. Gilbert in a Washington despatch to the New York Evening Post has this to say of the situation that has developed: "Secretary Hoover's defeat by Senator Watson in the Indiana primary strengthens the hand of his chief opponent. The fact that in Indiana, as in Ohio, he carried the cities but lost the rural districts, will be used in the Kansas convention to emphasize the point that will be made against his nomination. His foes will say that in November he will lose certain farm states west of the Mississippi River, and that he will be weak in the farming sections of pivotal states like Illinois and Ohio. Thus the primaries in these two states, while one resulted in a victory for Hoover and the other showed great strength by him in the face of powerful machine opposition, have furnished the farm belt with ammunition. The result in the farming region of both of them will constitute a threat to Hoover nomination." Mr. Gilbert is not disposed to think, however, that the threat will be fatal to Hoover's chances as he concludes: "But it is still difficult to see how the opposition, even with the arguments from Ohio and Indiana at their disposal, can head off Mr. Hoover. He will enter the convention with close to a majority of the delegates. On the other hand the New York World, which has Democratic leanings, professes to believe that the Indiana and Ohio votes will make the anti-Hooverites in the Republican party 'pluck up courage to strike new alliances and try new plans, convinced that Mr. Hoover has shot his bolt, and that it will still be possible to head him off.' If there is at least a shadow of a doubt that Mr. Hoover will not get the nomination it appears to be as good as settled that Al Smith, governor of New York State, will be the Democratic candidate, and that despite the fact that a two-thirds vote is required in the Democratic convention, while a bare majority is all that is necessary to nominate a Republican presidential candidate.

WANTED—A BUNKLESS POLITICAL PARTY

According to "Life", the Republican and Democratic parties are just about extinct organizations so far as the majority of the citizens of the big Republic are concerned. "The average citizen," says "Life," spending in a serious strain, "realizes that the Republican elephant and the Democratic donkey have come to resemble each other so closely that it is practically impossible to tell them apart. The only perceptible difference is that the elephant is somewhat larger of the two. No matter which of them comes in first on election day, the state of the nation will remain just as it was before the rumpus started. If any rural issue dares to show its head at either political convention, it will be dodged as quickly and as easily as if it were a prohibition officer. For between the Republican and Democratic leaders there exists a silent agreement which provides that neither party will ever do anything that might be embarrassing to the other. Such an unbecomingly unbusinesslike candidate, who will run for president on an honest, courageous and reasonably intelligent platform." "Life" is noted chiefly for its detestation of sham and hypocrisy and its outspoken remarks probably reflect the honest opinion of millions of American citizens. Possibly there is a considerable number of Canadian electors, including men with some discernment, who would say just as much about the political parties in Canada. Still, all things considered, it must be admitted that there is in Canada a more distinct line of cleavage between the political parties than there is in the United States. In Canada government supporters can generally be depended upon to back government measures, and the Opposition more or less consistently fulfills the functions of an opposition. But at Washington in recent years Republicans and Democrats have been more or less indiscriminately mixed up in the same stew.

FLOOD MENACE AROUSES SOUTH

(Continued from Page 1)

The ground was saturated with the fall rains," said Mr. Groves. Mr. Elliott thought it remarkable that the lakeshore road built between 1908 and 1913 should have been constructed so low, particularly after the experience of the flood of 1904.

"It was put in in the cheapest way possible," explained Mr. Groves. He went on to point out that while the high level road between Summerland and Peachland might be considered as a diversion in case of floods, it was a dangerous road. In any event to go from Penticton to Summerland one would have to make the long journey via Shingle Creek.

Mr. S. T. Elliott admitted that the high level road might be dangerous when icy in winter time, but was satisfactory now for any careful driver. It would also be improved.

Following further discussion, Mayor Sutherland moved, seconded by Mr. F. M. Buckland, Kelowna, that the minimum level of the lake be cut down by eighteen inches, bringing it to the mark of 98. This motion was eventually carried unanimously.

Major Earle, in charge of the Oliver project, outlined the gravity of the situation there. The big siphon carrying Oliver's irrigation water across the river was now only fourteen inches above the flood water and the bridge on which it was carried was not designed for the side thrust of such a flood current. Growers in that district depended largely upon tomatoes, cantaloupes, etc., and if the siphon went out, their water supply would be shut off.

Furthermore, the town's domestic water was pumped from a huge wall near the river. The pump house floor was now only a foot above the flood level. If the water rose higher, the pump must cease and the domestic supply would be cut off. He agreed with Mr. Sutherland that it was absolutely necessary to get the lake level down before the spring freshets. The lake last year was held up when more could have been taken out.

"How about the wharves at Kelowna?" asked Mr. Phillip.

"Dredging is not needed there as the wharves are low," replied Mayor Sutherland.

May Lengthen Wharves

In the event of cutting down the lake level in winter months, it might be necessary to lengthen the K.V.R. wharf at Penticton and the C.P.R. wharf at Okanagan Landing, said Mr. Doncaster.

Lengthening would also be needed for the transfer slip of the C.P.R. at Summerland and the one at Okanagan Centre. He was not sure about Peachland. An alternative would be to dredge deeper berths at the existing wharves instead of lengthening them. His statement, he explained, had no reference to the public wharves on the lake. Mr. Sutherland thought there would be no great difficulty about the C.N.R. wharves, that at Summerland being now about under water and the one at Peachland within eight inches of it.

The position at Oliver was explained by Mr. Elliott of that district, who said that most of the settlers in the "island" section had been forced to leave. Below Oliver on his own farm he had put in a dyke 425 feet long and between two and three feet high. The only way he could get milk to Oliver was to drag the cans over his property on a stone boat to the railway tracks and then bump along the railway grade in his Ford car. Water cut off all the ordinary roads. If the Oliver siphon went out, there would be nothing marketed this year. He referred also to the danger in which the sawmill there stood from high water.

Mr. Elliott produced a resolution which along the lines of the Sutherland motion and asking also that the department be requested in designing and constructing the proposed new dam at Penticton to provide for cutting the minimum lake level to 98 and also to regulate the discharge so that the lake level can be brought to the low figure before any spring freshets. Engineer Doncaster admitted that there were no technical objections to reducing the low level of the lake. The financial question would naturally have to be considered by the department.

"The whole valley is much more important than the vested interests in wharves of the transportation companies," interjected Mr. R. Lyon, Penticton.

Dredging the River

In addition to lowering the lake, it would be necessary to dredge out the channel of the river between Okanagan and Skaha lakes, thought Mr. Groves. It should be improved so that it could carry at least 3,000 cubic feet of water per second. The provincial government could be asked to improve the river below Skaha lake for the benefit of its Oliver project.

Major Earle explained that the river at Oliver is now carrying 2,000 cubic feet per second. He hardly thought it practicable to protect the river in the south to carry fifty per cent. more water, due to the level nature of the country.

The sill of the new control dam here should be lowered, Mr. Groves thought, in order to reduce the lake level more rapidly. He mentioned that if the lake level had been down to 99.5 at May 1, it would be nearly two feet lower today than it actually is. Incidentally Mr. Groves mentioned that in 1908 three feet of water covered the Vaseux Lake road at the overhanging rock.

"It would be a godsend to the provincial works department if you can keep the high water level of the lake under 102," said Deputy Minister Phillip. "We spend large sums of money every year against the water action of the lake on this road and conditions are becoming unbearable. The lowering of the lake would help secure out the bed of Mission Creek as well. In this part of the country if the lake comes up as Mr. Groves prophesied," groans Kirkpatrick of Penticton intimated that Penticton had no objection whatever from a torsehold standpoint, to having the low level of the lake cut from 99.5 to 98. The serious condition of Oliver transportation in the event of further flooding was outlined by Mr. Nesbitt of that district. He said that the road at the overhanging rock at Vaseux Lake was wet and the road this side of the Kaledah hills was in a somewhat dangerous state. The road

was flooded at Oliver at the river bridge and the railway was threatened in several places. With highway and railway both out of commission, Oliver would be in a bad way. The loss of the siphon would also mean the loss of the orchards as the trees were too young to stand any lengthy period without water. He urged the advisability of improving the river channel to the south so that it could carry water sent to it from the lowering of the lake level, season by season.

Forty Settlers Injured

Forty settlers had already been flooded out at Oliver, said Mr. Nesbitt. It was explained by Mr. Doncaster that the plans for the new control dam here allowed for a foot lower, but he would go over them again with a view to increasing that by another six inches. It was also planned to increase the discharge section by fifty per cent. The appropriation last year for dam and river work was \$24,000, but it had not been made available at that time on account of his recommendation against closing the dam last fall for reconstruction. To have closed the dam then would have meant further trouble now.

Chairman Brydson Jack said he could see the necessity of improving the river channel in order to get it low enough to take water from the lowered lake level.

Mr. Groves suggested widening the opening out of Skaha Lake at Okanagan Falls.

The improvement of the river south of Skaha Lake was not within the purview of the Dominion department, said Mr. Doncaster.

A steady all-season flow in the river as proposed in order to keep the lake level down would have an injurious effect upon haylands at Okanagan Falls, said Mr. J. R. Christie.

After some further discussion it was moved by Messrs. Nesbitt of Oliver and Lyon of Penticton that the necessary steps be taken by the Dominion government to improve the river channel from Okanagan to Skaha lakes. This was adopted, coupled also with the suggestion that the provincial gov-

ernment co-operate by means of river improvement work south of Okanagan Falls.

On motion of Mayor Sutherland and Reeve Kirkpatrick, a vote of thanks was passed to Messrs. Brydson Jack, Phillip and Doncaster for their attendance.

The recommendations of the meeting for a reduction of the low lake level and for improvement of the river channel are along the lines advocated in a Herald editorial in this issue written before the meeting was proposed.

SUMMERLAND MEANS BUSINESS

(Continued from Page One.)

Mr. Huddleston spoke without any heat, although he evidently felt quite strongly about the matter. He said the situation looked particularly ridiculous, with flood water at such a height, that he should be without water so early, and that on Sunday last he could get no water out of his tap at all. Each year he had come before the council and had been asked to wait till next year and it would be a better situation. He had, he said, taken the precaution this spring to come early, lay the whole matter before the council so that they might plan to give him relief, and the results were no better.

Mr. Shepherd stated that for ten years he had no crops off his bench land, and apparently this year would be the same. He and Councillor Smith had quite a tilt for a few minutes. After the delegation retired, the council discussed the matter at some length and it is to be discussed still further.

The council had before it a contract to be signed for a Ford truck from Messrs. Nesbitt and Forster. The deal was closed but it was decided not to turn in the old truck but to keep it for use on small jobs.

Mr. Sanderson, of Peachland, wrote that he was going in to see the Trout Creek headwaters shortly and wanted to know if he could do the work he usually did each spring, for Summer-

land. It was decided that he should be written to again look after Summerland's interest, as he was considered a reliable man.

Borrowing from Bank

For some three years Summerland has not had to borrow any funds from the bank, but it will be necessary this year to borrow for two or three months between \$10,000 and \$15,000, and necessary arrangements were made for this.

The Soldier Settlement Board had its representative in town, and he had stated that the Board would pay taxes on lands reverted to the Board. He asked that the warrants issued to Summerland be accepted without prejudice. The council thought it better to wait and see what Penticton is going to do, since Summerland had already discussed the matter with Penticton's council. It was also thought best to ask the municipal solicitor what he thought about the matter. Fraser Valley is making a test case on the point, it was reported, and it was thought that it might be best to wait and see what the result was.

The council concluded that the only thing to do was to keep on till the action wanted was forthcoming, and to this end the clerk was instructed to write all soldier settlers with arrears for irrigation for 1921, that water must be paid by July 1, or the water would be turned off.

PROMPTLY ANSWERED

Amongst a host of good stories told by Mr. J. A. R. Cairns, the London Metropolitan police magistrate, is one concerning a would-be wag who, wanting to show his wit before some lady friends, hailed the driver of one of the old prison vans with the 'ironical query:

"Got any room inside?" "Yes, for one," replied the driver. "We've kept it for you. Jump in quick."

Not entirely disconcerted, the wag had another shot. "What's the fare?" he asked. "Bread and water—same as you had last time," said the driver.

will dispose of used articles that you no longer need. The sale gets you something you want. 1c per word per insertion. Minimum 25c for any single advt. Try one.

WANTED—Chicken or fowl, any quantity. Highest market price paid. Write Burch Market, Penticton. 11-14-c

FOR SALE OR RENT—A well-built house with good outbuildings on an acre and a third of land, in Peach Orchard. Phone F. D. Cooper. 49-14-c

UNEQUALLED BARGAIN—Ideal poultry farm. Seven acres by railway at West Summerland Station, with small orchard, good barn, excellent soil, \$850.00 on terms. F. D. Cooper, Summerland. 10-14-c

FOR RENT—Two acres of land. E. James. 14-3-pd

ANGUS, CAFE AND ICE CREAM PARLOR—Ice Cream Bricks, Soft Ice Cream, bulk, quart, 70c. Take some home. 16-14-c

FOR SALE—Good manure. E. James. 16-4-c

FOR SALE—Two democrats, \$20 and \$40 respectively. Thos. B. Young. 19-14-c

EXCEPTIONALLY good saddle pony for sale, or would trade for little pigs. Box A, Review. 19-2-c

HOUSE FOR RENT OR SALE—Modern conveniences, attractive location. Apply Beer's Shoe Store, West Summerland. 20-14-c

LEGHORN COCKERELS hatched April 15th, 10 cents each, \$9.00 per hundred. A. G. Vivian or Simpson and Gowans. Phone 1081. 20-1-c

FOR SALE—Segrag tables and chairs, a No. 5 Delaval separator in perfect condition, gallon and half paint at about half price. Lockwood's Exchange. 21-1-c

CANNING CHERRIES—We are now open to contract direct with growers for our requirements of canning cherries for 1928 pack. Price 5 cents per pound, culls out, delivered our local house, for all varieties of red sour. Make your arrangements early. Occidental Fruit Co. Ltd. 20-1-c

FOR SALE—Exceptionally good grade Jersey cow, just freshened with heifer calf. Phone Geo. Drewett, 903. 20-1-c

COMING EVENTS

St. Stephen's W.A. will hold a sale of home cooking on Wednesday, May 30, at 2.30. Afternoon tea.

Chautauqua is giving you an unusual programme of interesting and instructive entertainment this year. It is to be held on May 26, 28, 29, 30. Those who get season tickets see the play Saturday at no extra cost. Secure your ticket.

THE LAST LAUGH

A Scotsman and an Englishman went into a restaurant for tea. When this was served the Englishman caused some amusement among the people by saying, loud enough for them to hear: "Now you be mother and pour out."

The Scotsman did so. At the end of the meal he reached for his hat and said: "Now you be father and pay."

Announcement!

The undersigned will be at W. Johnston's Hotel, West Summerland, each Tuesday, Thursday and Saturday afternoon from 2 to 5 o'clock for those who wish to take "chiropractic" adjustments according to "neurological" readings.

C. HULTGREN, D.C., Ph.C. Palmer Graduate Chiropractor Box 432, Penticton, B.C.

Friday & Saturday, May 25 & 26

BABE RUTH

We've signed him—The Home Run King himself—in the leading role of a regular feature romance, "BABE COMES HOME"

See him bat, throw, field, run, slide, fight. Real world series action. And supporting him are Anna Q. Nilsson and Louise Fazenda. Also a Comedy, "Horse Play," and Fox Variety

Friday & Saturday, June 1 & 2

"THE FLAG LIEUTENANT"

A colorful, romantic drama of the British Navy, with an all-star cast. A British production, produced with complete co-operation of the British Navy. A fine glimpse is given of the Navy in port, showing the activity of the crews at boat drill. It has humor, love, action and romance.

Keep Tuesday and Wednesday, June 12 and 13, in mind. Douglas Fairbanks in "THE GAUCHO"

Rialto THEATRE West Summerland

LOCAL HAPPENINGS

On Monday Mr. Alex Mackie left for London, Ont.

Mr. G. R. Hookham came in from Vancouver on Friday, May 18.

Mrs. R. M. Ross returned from Field, B.C., arriving on Tuesday last.

Mrs. J. O'Mahony returned from Calgary on Monday of this week.

Brs. Benson of Kelowna is visiting Mr. and Mrs. F. D. Cooper.

Mrs. Bert Nelson left for a visit to Vancouver Island, going on the K.V.R. on Wednesday.

Mr. and Mrs. Keith Elliott leave today, Friday, for a short visit at the Coast.

Miss Peel and Mrs. Dugdale from England are visiting with Mr. and Mrs. C. P. Nelson.

Mr. and Mrs. J. Rowley motored to Vernon for May 24, leaving on Wednesday afternoon.

Mrs. V. Yates of Vernon spent Sunday with Mrs. Hopkins. They returned to Vernon with O. Atkins on Monday.

Cottages along the lakeshore at the foot of Peach Orchard road are now uncomfortably close to the water level.

Miss Jean Caldwell visited her home on May 24, coming over from Coal-mont.

Miss B. Johnston is spending a month on the prairies, visiting her sister, Mrs. Roantrée, at Regina.

Mrs. W. Mack, nee Marion Beavis, came for a visit with her parents this week.

The K.V.R. morning train has now changed time. It arrives at 6.58 instead of 7.30.

Mr. and Mrs. Pickering, who have been visiting Miss J. Curry, left for Chu Chua on Monday.

Mr. H. L. Kinnie, who is relieving Mr. H. Neill at the C.P.R., came to town on Monday last.

Miss Rosoman of Enderby came for a visit with Mr. and Mrs. H. Neill, arriving on Wednesday.

Mr. Alf. McLachlan is now shipping greenhouse tomatoes. He has been supplying local stores for some time.

A carload of cedar poles arrived at the wharf this week, half of them to be unloaded here and the balance sent on to Penticton.

Mr. J. C. Robson and Rev. T. W. Reed returned on Monday from Vancouver, where they were attending a church conference.

Messrs. Walters Limited are well along with the construction of the 40 x 50 addition to their packing house. They expect to have the flooring on by Saturday.

Quite a number of travellers from up the lake are taking the K.V.R. here for Coast points these days. The traffic is quite a little heavier than usual.

Mr. Reed Johnston is to have his holidays this week. Mr. McHaffey of Beaverdell will be relief agent during the former's absence from the station.

Tommy Harris has had quite a number of applications from boys who want to join the Cub troop which is to be formed some time in September.

It is rumored that the Development Company is to put up some cottages at Crescent Beach. They are taking down the old grandstand now.

The road to Crescent Beach was showing the ravages of the high water level and was gouged out at many places.

Mr. Fred Graham motored up from Seattle for a visit at his home here. He has had some fine fishing in the lake.

Your Baby and Mine

Every mother with a young baby has worrying problems. There is a correct answer for every one. Myrtle Meyer Eldred answers questions about babies and gives advice every day in the Vancouver Sun. The assurance of this valuable advice every day is its itself worth the small monthly subscription price of the Vancouver Sun. Use this Coupon!

The Vancouver Sun, West Pender St., Vancouver, B.C. Please send me the Vancouver Sun daily and week-end editions for one month, for which I have enclosed \$1.00 full price. Name: Address: (Please print name plainly)

New Cretonnes

Ladies will welcome Reversible Cretonnes as a boon to their home decorations. These are now in stock in pretty colors and new designs. Also a variety of Rayon Nets, Fancy Figured Nets and other furnishings.

Porch Rag Rugs

In all sizes, from 65c to \$1.75. These save your good floor coverings and always look well.

Bathing Suits

Are now selling fast. All shapes and sizes to choose from. Get in while we have your size and color.

LIDLAW & CO.

"Where it Pays to Deal"

Specially for the opening of the baseball season, Mr. Lockwood has secured Babe Ruth on a film of action. Babe will play ball for you on Friday and Saturday of this week, and he will be worth seeing.

Mr. and Mrs. R. C. Palmer have left for a trip east. Mr. Palmer is to speak on his work at an important convention.

An account of the baseball games at Oliver, May 24, has to be left over till next week. Summerland won the first game with Peachland, 15-0. The second game they played, with Oliver, went against them, 21-14.

"THE BUBBLE" ON OPENING NIGHT

Notable Comedy to be Given Saturday in Chautauqua Programme

"The Bubble," a sparkling comedy, will be presented on the opening night of Chautauqua, Friday, at the Arena. Chautauqua patrons will be long in forgetting "Smiling Through," "Cappy Ricks" or "Six Cylinder Love," but on Saturday evening will be presented a comedy that they will never forget, which has already met with spectacular success in the larger cities of this continent. It is highly interesting, helpful, and wonderfully entertaining, and was written largely as an effort to offset the present tendency to indulge in wild cat speculation which seems to follow prosperity.

It is the story of an old German and his wife who for twenty years have saved what money they could from the operation of a delicatessen store. They have one daughter who is the apple of their eyes. Through the skillful persuasion of a sharp salesman they place all their savings in a worthless mining security. Stock goes up, and there is great rejoicing, but the crash comes. The situation is saved by—but you will have to see the play to find out how romance, loyalty, treachery, humor and pathos are woven into a delightful, clean and wholesome comedy containing a laugh every minute—a play the whole family will enjoy.

CORRESPONDENCE

FESTIVAL CONTRIBUTOR REPLIES

Editor, Summerland Review: My attention has been directed to a letter signed by a Mr. Frank Mossop, appearing in your issue of May 11. The second paragraph of the letter reveals a weak understanding of English. I said in my article that the "festival was a success," not that the adjudicators were. There's a difference.

The next paragraph refers to my "ungratefully" manner of writing. If Mr. Mossop is posing as an authority on courtesy, he would be well advised to attend to himself first. To the "carping sort of criticism," the judges "at sea," and the like, Mr. Mossop does not answer the points, but merely apes the small boy who says "You're another."

I attended the festival for the three days, and therefore speak of what I know. How long was Mr. Mossop there? The musical standing of the adjudicators is high, on Mr. Mossop's "certain knowledge." Is Mr. Mossop's "certain knowledge" a guarantee of anyone's musical standing? However, as I did not question the "musical standing" of the adjudicators, it may be sufficient to remark that a fine musician is not necessarily a good adjudicator. Possibly Mr. Mossop may eventually understand the distinction. Finally, I do my own thinking, and am quite able to give definite reasons for my expressed opinions, if requested by anyone sufficiently unflinched by training or experience to understand those reasons. Yours truly, "CONTRIBUTOR TO MUSICAL FESTIVAL"

Penticton, May 16, 1928.

EXPERIENCED

"I'm," said the actor (viewing the bed-sitting room "to let") "the window is very small. Wouldn't be much good in an emergency." "There isn't going to be no emergency," said the landlady firmly. "My terms is weekly in advance."

Records Are Shattered At Armstrong Inter-School Athletic Tournament

Penticton high school athletes again won the High School Cup at the seventh inter-school track meet at Armstrong on Saturday, in addition to breaking seven records.

In the public school division, Kelowna led the list with the grand total of 66 points. Vernon was second with 49, Armstrong with 38 being third. Penticton was fourth with 26. Other schools which won points were: Okanagan Mission, 3; Westbank, 3; Rutland, 2; Grindrod, 1; Oyama, 1; Kelowna Close Second

In the high school division, Penticton led with 60 points, Kelowna with 54 was a close second, Vernon with 28 was third, Armstrong had 23, Oyama 12, Summerland 9, Enderby 4. In the high school events the competition was extremely close, as the championship was not decided until the last events.

Keith MacDougall starred for Penticton, winning the low hurdles, open high jump and high jump for boys under 17, all with record-breaking marks. He also ran a wonderful race in the relay.

From almost every standpoint the meet was a great success. The day, although rather hot, was fine for running and jumping, as there was no wind. Interest was very keen, as more than twelve school competitors and a fine show-up was made by many of the smaller schools. Great credit is due the Penticton and Summerland schools which were forced to travel about 90 miles and were yet able to give such a good account of themselves. The long journey was very trying to some of the public school entries, however, and this accounts, to a great extent, for the rather poor showing of the Penticton and Summerland public schools, the latter not being able to get a point.

There were not as many schools represented at the Armstrong meet this year as were present at the Kelowna meet last season. This can be accounted for because many of the smaller schools are unable to finance such a long trip. Last year many schools in the Kelowna district were not forced to go far into Kelowna for the meet, and a large number of competitors were entered.

Programme Was Changed Some dissatisfaction was felt at the arrangements of the races. More than half of the public school events were run off in the morning, with only four or five high school events. The programme was not adhered to and the contestants did not know when their races would be called. However, the events were run off satisfactorily in the afternoon, so that there was very little cause for complaint.

The competition for the various cups was very keen, and the silverware changed hands in almost every case. The Kelowna Cup, emblematic of public school championship, was won by the Kelowna public school. The Penticton high school secured the Vernon A.A.A. Cup to gain the high school championship. The Ramsay Cup, for the high school boys' relay team, went to Kelowna, while the Whitten Cup for the high school girls' relay went to Penticton. The Penticton high school also won the mile cup, donated by the B.A.A. competition for the public school championship. The Kelowna public school boys' relay team won the Casorso Cup, while the Vernon public school girls' relay team won the new Bank of Commerce Cup. The Jacques Cup, for schools of not more than three divisions, was won by Okanagan Mission.

Records Were Broken Although no records are at hand for the public school events, still it is known that many records were broken in the public school division. One of the most outstanding records was that for the 120 yards boys' relay under 16. G. James of Vernon ran this race in the fast time of 2 min. 17.5 secs. All the times and distances either equalled or bettered those of last year, and if the records could be compiled, it would undoubtedly be found that over half of them were broken at the meet this year. This splendid showing indicates that a great deal of time and trouble has been exerted this year in order to put the valley sports on a par with those of the Coast.

In the high school division, 12 records were broken out of the 21 events. Kelowna competitors broke the records for the 220 yards and 100 yards boys under 17 events, the boys under 17 half mile, and the 75 yards for girls under 16. An Armstrong girl broke the record for the baseball throw.

Penticton athletes broke the record for both high jumps, for the pole vault, for both hurdle races, and also for the 75 yards girls open, and the girls' relay race. This was indeed a splendid record for the Penticton high school and great credit is due Mr. Boggs who helped the students a great deal, and also the pupils themselves who were willing to train so hard.

Although Summerland students did not place in the public school events, yet they obtained a first place in the boys' open broad jump, and also obtained four third places. This is a creditable showing for a small school.

Public School Results

The results in the public school division are as follows:

High jump, boys under 16—1st, G. Heron, Penticton; 2nd, R. Lupton, Kelowna; 3rd, B. Footo, Vernon. Height 4 ft. 10 ins. Gorjon Heron won this event with ease.

50 yards, boys under 10—1st, J. Greeno, Vernon; 2nd, C. Glass, Penticton; 3rd, H. Thompson, Kelowna. Time, 7 secs. flat. This time is half a second better than last year's.

100 yards, boys under 16—1st, A. Poole, Kelowna; 2nd, V. Smith, Armstrong; 3rd, S. Yamok, Rutland. Time 11 secs. This is a 35 second better than last year's time.

50 yards, girls under 10—1st, M. Clerko, Kelowna; 2nd, G. Graham, Kelowna; 3rd, Joyce Norman, Armstrong. Time 7.1 secs.

High jump, girls under 16—1st, G. Wakefield, Vernon; 2nd, K. Brown, Armstrong; 3rd, Grindrod, Height 4 ft. 4 ins.

Relay race, boys under 16—1st, Vernon, H. Cochrane, R. Immliton, J. Whitehead, G. James; 2nd, Armstrong, D. Hansen, 2nd, Vernon, I. Pilkington, S. Simmons, H. Stevenson, F. Smith; 3rd, Kelowna, B. Carruther, F. Dilworth, R. Carton, A. Watson. Time 37.4 secs, which breaks the record. The Penticton team showed fine style to win handily.

strong. Height 4 ft. 2 ins. This is an extremely good jump for a young girl, and is two inches higher than that of last year.

60 yards, boys under 12—1st, L. Fallinham, Vernon; 2nd, J. Walker, Kelowna; 3rd, J. Woodburn, Penticton. Time 6.3 secs.

Broad jump, boys open—1st, E. Wystrong on Saturday, in addition to breaking seven records.

Distance 16 ft. 5 ins. This is 11 ins. farther than last year.

75 yards, girls under 16—1st, B. Emstie, Kelowna; 2nd, P. Walker, Okanagan Mission; 3rd, O. Lynn, Penticton. Time 9.1 secs. This is exceedingly fast time.

Basketball throw, girls under 16—1st, E. Simmons, Armstrong; 2, D. Drough, Westbank; 3rd, G. Wakefield, Vernon. Distance 75 ft. 10 ins.

220 yards, boys under 16—1st, H. Cochrane, Vernon; 2nd, V. Smith, Armstrong; 3rd, L. Maranda, Kelowna. Time 26 secs. flat.

50 yards, girls under 12—1st, S. Wilson, Kelowna; 2nd, H. Somerset, Armstrong; 3rd, J. Donaldson, Penticton. Time 6.3 secs.

100 yards, boys open—1, A. Poole, Vernon; 2nd, H. Cochrane, Vernon; 3rd, E. Wyatt, Armstrong. Time 11 secs. flat. This is also very good time.

Relay race, girls under 16—1, Kelowna, B. Emstie, T. Wilson, S. Wilson, P. Woods; 2nd, Vernon, M. Cochrane, V. Rice, M. Cochrane, B. Wolfe; 3rd, Armstrong, L. Sanderson, E. Thornorton, K. Brown, M. Smith. Time, 33.2 secs.

High jump, boys under 14—1st, T. Renalo, Kelowna; 2nd, G. Donaldson, Penticton; 3rd, R. Sheppard, Oyama. Height 4 ft. 4 ins. This is a fine jump.

50 yards, girls under 14—1st, T. Wilson, Kelowna; 2nd, M. Cochrane, Vernon; 3rd, L. Sanderson, Armstrong. Time 6.2 secs.

Broad jump, boys under 14—1st, G. Heron, Penticton; 2nd, R. Sloan, Kelowna; 3rd, R. Dean, Vernon. Distance 15 feet.

Half mile, boys under 16—1, G. James, Vernon; 2nd, A. Hoover, Armstrong; 3rd, W. Sexsmith, Rutland. Time 2:17.2. This is very fast time for this race.

75 yards, boys under 14—1st, S. Wilson, Kelowna; 2nd, G. Donaldson, Penticton; 3rd, R. Dean, Vernon. Time 9.1 secs.

120 yards hurdles, boys open—1st, T. Wilson, Armstrong; 2nd, G. Renalo, Kelowna; 3rd, D. Kirkpatrick, Penticton. Time 17.3 secs.

The High School Results The complete results of the high school competition are as follows:

Baseball throw, girls open—1st, D. Connaty, Armstrong; 2nd, C. Kedziara, Penticton; 3rd, E. Smith, Summerland. Distance, 173 ft. 6 ins. This is a new record as the former record was 159 ft. 6 ins.

120 hurdles, boys open—1st, H. McGregor, Penticton; 2nd, R. Guido, Kelowna; 3rd, W. Hastings, Vernon. Time 18.2 secs. This breaks the former record by 1.5 of a second. McGregor had a clear lead all the way.

100 yards, boys under 17—1st, D. Poole, Kelowna; 2nd, H. Armsby, Vernon; 3rd, P. Campbell, Armstrong. Time, 11 secs. flat.

High jump, boys under 17—1, K. MacDougall, Penticton; 2, K. Wynne, Oyama; 3rd, B. Megaw, Vernon. Height, 5 ft. 5 ins. This event was keenly contested, the Oyama lad being forced to drop out at 5 ft. 3 ins. Keith then leaped to a new record of 5 ft. 5 ins. He is the first valley contestant to use the western roll.

High jump, girls open—1st, D. Burch, Penticton; 2nd, D. Price, Vernon; 3rd, E. Smith, Summerland. Height 4 ft. 4 ins.

220 yards, boys open—1, A. Maranda, Kelowna; 2nd, D. Brown, Armstrong; 3, W. Neal, Summerland. Time 24 secs. flat. This time is very fast and compares favorably with any Coast sprinter.

75 yards, girls under 16—1st, B. Carruthur, Kelowna; 2nd, F. Smith, Vernon; 3rd, M. Ewart, Penticton. Time 9.05 secs. This also breaks the record by about 2.5 sec.

100 yards, boys open—1st, A. Maranda, Kelowna; 2nd, D. Brown, Armstrong; 3rd, J. White, Penticton. Time 10.3 secs. This breaks the record by 2.5 sec. and also compares favorably with Coast records.

Relay race, girls open—1st, Penticton, D. Burch, M. Parrott, M. Ewart, D. Hansen; 2nd, Vernon, I. Pilkington, S. Simmons, H. Stevenson, F. Smith; 3rd, Kelowna, B. Carruther, F. Dilworth, R. Carton, A. Watson. Time 37.4 secs, which breaks the record. The Penticton team showed fine style to win handily.

Half mile, boys under 17—1st, R.

A. B. ELLIOTT

Guidi, Kelowna; 2nd, M. Riddle, Penticton; 3, J. Thorlakson, Vernon. Time 2:13 2/5. M. Riddle gave the Kelowna man a very close race, and forced the leader to break the record of 2:14 2/5.

Relay race, boys open—1st, Kelowna, A. Maranda, D. Poole, F. Cooper, R. Guidi; 2nd, Penticton, H. McGregor, J. White, I. Campbell, K. MacDougall; 3rd, Vernon, G. Carter, W. Hastings, B. Earle, H. Richards. Time 1 min. 42 secs. J. White started for Penticton and ran a very close race to hand the stick to Campbell in third place.

Campbell ran a nice race but lost further ground. MacDougall received the baton on the third lap and ran a wonderful race to gain about seven yards and give McGregor a lead of about one yard. In the last lap Maranda was too much for McGregor and led him by about a yard at the finish. The race was very keenly contested.

High jump, girls under 16—1st, R. Johnston, Kelowna; 2nd, M. Meldrum, Penticton; 3rd, D. Harrison, Armstrong. Height 4 ft. 4 ins.

High jump, boys open—1, K. MacDougall, Penticton; 2nd, C. Boyer, Kelowna; 3rd, J. Purves, Summerland. Height 5 ft. 6 ins. In this event the Kelowna entrant dropped out at 5 ft. 1 in. MacDougall showed his superb form and cleared the bar at 5 ft. 6 ins. in an exhibition jump, to establish a new record.

120 yard hurdles, boys under 17—1st, K. MacDougall, Penticton; 2nd, B. Megaw, Vernon; 3rd, J. Sanderson, Armstrong. Time 16.2. This was MacDougall's third record of the day, as the former record was 17 secs. held by Ralph Thomas of Penticton.

440 yards, boys open—1, P. Campbell, Armstrong; 2nd, H. Richards, Vernon; 3rd, C. Staples, Kelowna. Time, 57.4 secs.

75 yards, girls open—1st, D. Burch, Penticton; 2nd, D. Mason, Armstrong; 3rd, F. Dilworth, Kelowna. Time 9.2 secs. Miss Burch lowered the former record by .3 sec.

Broad jump, boys open—1st, G. Purves, Summerland; 2nd, C. Waterston, Enderby; 3rd, G. Munroe, Oyama. Distance 17 ft. 10 1/2 ins.

220 yards, boys under 17—1st, G. Purves, Summerland; 2nd, C. Waterston, Enderby; 3rd, M. Meikle, Kelowna. Time, 26.4 secs. The Penticton entrant, Roy McDougall, lost a spiked shoe half way along the course while in second place.

Pole vault, boys open—1st, B. Gwyer, Penticton; 2nd, H. Thorlakson, Vernon; 3rd, H. Spears, Enderby, and J. Stuart, Kelowna. Height 9 ft. 9 ins. Bill Gwyer showed wonderful form to break the former record of 9 ft. 6 ins.

Broad jump, boys under 17—1st, R. Guidi, Kelowna; 2nd, G. Munroe, Oyama; 3rd, D. Daines, Penticton. Distance, 17 ft. 7 1/2 ins.

One mile, open—1st, W. Mattock, Penticton; 2nd, F. Snowsall, Kelowna; 3rd, R. Spearman, Armstrong. Time, 5:06 2/5. This was a very close race and was won by a few yards only.

CONCERT PROVED REAL SUCCESS There was a very good attendance at the Alkumin Club's hospital concert on Wednesday last, and a substantial donation can be made to the funds of that institution.

Mrs. Boyd sang a solo at the opening, for which a hearty encore was given.

To specially mention the different

It Pays!
