OPEN-AIR CLASS FOR WESTBANK

High School Classes are Being Continued—Epidemic There

Westbank—While the school is closed on account of sickness, the principal, Mr. C. Brousson, is holding open-air classes for pupils the high school, that they may be no more time than is absolutely necessary. The Union Sunday school and church services were cancelled last Friday as these are usually held in the school rooms, and the trust did not wish the school to be closed at all during the time that the epidemic has closed the school. However, chances appear good for a school re-opening on Thursday or Monday next at the latest. It is sincerely hoped that the remainder of the term will not be interrupted, as the past term has been very much broken on account of sickness.

Mrs. C. Russell, who has been attending the winter months at the east, returned to her home here Wednesday.

Mrs. Landy and Mrs. J. Fall left their homes in Penticton on Tuesday last, after spending the week here with Mr. and Mrs. H. East.

We regret to report that Robin Wright, who broke his arm while playing at school recently and was

removed to Kelowna hospital developed pneumonia and for several days was very seriously ill. The entire community is relieved, however, to learn that Robin is now slightly better, and trusts that his condition will improve rapidly and he will be able to return home before long.

George Hewlett, of Penticton, was in Westbank on Thursday, on business connected with his ranch.

Owing to misinformation received, it was reported last week that W. H. Thacker had returned from Halcyon Hot Springs last Saturday week. While Mr. Thacker's intentions were to return on that date, his health did not allow of his leaving the Springs until last Friday, and he feels very much better for his prolonged stay and all hope that his improvement will be permanent.

A public meeting was held in the Co-operative packing house on Friday evening, when the new Community Club board presented its new rules and bylaws for the association and further plans for the Community Hall were discussed.

The Westbank Women's Institute under the auspices of Mrs. Dick, convener of legislation, had arranged to have Hon. J. W. Jones, M.L.A., speak to the members on "Laws for Women and Children" at the regular monthly meeting, April 30. It was decided to cancel this month's meeting, however, on account of the several cases of illness in the community. The Institute has accepted an invitation from the Kelowna Women's Institute to be present at its meeting on May 22.

SUMMERLAND ARTISTS SURPRISE AT KELOWNA MUSICAL FESTIVAL. BRING HOME PRIZED AWARDS

Miss Marjorie King Achieves Great Success and Many Winnings

FEWER ENTRIES THIS YEAR THAN LAST

Cups and Shields Will Soon Be Displayed in Store Window

The fourth annual Okanagan musical festival at Kelowna was formally opened on Thursday afternoon by Mayor Sutherland, when a good attendance and a fine achievement by the weather man combined to start proceedings under excellent conditions. Mayor Sutherland was commendably brief in his opening remarks, and suggested that government aid might well be extended to the festival movement. The adjudicators chosen for this year were Dr. Landsbury, of Oregon University; Dr. Rogers, of Vancouver; and Mrs. J. P. Ferguson, of the School of Fine Art, Vancouver. Dr. Rogers officiated last year, and is known to the valley. The afternoon was taken up by a number of piano, violin and vocal solos, and the evening program included some choral competitions as well as instrumental and vocal solos.

On Friday morning the Empress Theatre was called into use as well as the Scout Hall, so that many of the larger classes might go through the process of reduction by preliminary performances, with the finals to be determined later in the Scout Hall. This process was repeated on Saturday morning, the preliminary trials of elocutionists being held in the theatre.

All other sessions were held in the Scout Hall, including the final concert which attracted a large audience expressed its appreciation of the numbers performed by some of the winners.

Fewer Entries
The entries this year fell short in number as compared with last year, but practically all classes had at least one entry. An unusual number of defaulting competitors was, however, commented upon, and in some classes this peculiarity eliminated competition, and of course reduced the number of actual participants. Thus the ladies' class in elocution was apparently entered by three aspirants, of whom but one appeared. Of two men entered in a similar class, one presented himself. The same applies to the class for girls' choir, where but one entrant came forward, and to the day school choir class for grades five to eight, in which two competed instead of the three entered on the program.

This was unfortunate, as the opportunity to measure up with others is of great value; a one-man race is not especially thrilling. During the evening on Saturday, brief speeches were made by the adjudicators and visitors, and by officials, and reference having been made to the lack of harmony sometimes evident in festival circles, the chairman of the Kelowna committee took the opportunity to comment on this as applied to local conditions, and by way of explanation of the reduced number of entries from certain

points in the valley. Standard Improved
Mr. Campbell, the chairman of the committee, remarked, however, that the standard of performance was distinctly improved, and left the impression that those who refrained from entry this year were unequal to the standard being set. References were also made to the self-appointed adjudicators in various parts of the valley, these apparently propagating to themselves the right to use personal judgment, even if such judgment should conflict with the decisions of the officials appointed. This speech was, however, the only one to introduce and air local grievances, and occasioned some amusement among those who have been so shortsighted as to fail to see eye to eye with the committee of management.

A short address was given by Hon. J. Hinchliffe, who held out hopes that possibly financial aid might eventually be forthcoming from the government, and brief addresses by the adjudicators, each speaking along the lines of the particular events he or she had been called upon to judge. The presentation of trophies was graciously undertaken by Mrs. Jones, following which, beautiful bouquets were presented to Mrs. Jones, Mrs. Ferguson of Vancouver, and Mrs. Arbuckle, festival secretary.

Adjudicators Satisfy
The adjudicators this year, on the whole, constructive, and while differences of opinion may naturally exist, there was a general feeling that decisions were arrived at in a most equitable and definite manner, and that a reason could be given for awards. Dr. Landsbury inspired a degree of confidence that appeared more and more justified as the festival proceeded; Mrs. Ferguson also gave the impression of knowing exactly what to expect and how to deal with the problems incidental to her task, and Dr. Rogers created a much better impression of his judgments than he did last year.

Dr. Landsbury and Mrs. Ferguson were direct to the point in their summing up of results, and gave a mark between, was also brought down here by Marjorie King, who has been a member of these contests since she was a child, and as well as by their natural ability and home practice.

It is a pleasure to welcome another clarinet enthusiast who can bring the award home with him, and Arthur Simpson achieved a good ranking. George Mossop again won his honors and also brought the first honors home in his class. Two other contestants, although not at the top of the list in their entry, won excellent ranking. Margaret Steven and Mary Powell both of their part. Margaret has the satisfaction of losing to one we might fairly well call a Summerland girl, Janet Craig.

The total winning were really most satisfying, and Summerland has received some reward for the effort her music lovers have put forth. The cups and shields won by Summerland all shortly appear in Macdonald's window at West Summerland.

MAY SHOOT ONE DOE THIS YEAR
Few Changes in Regulations Are Announced At Victoria
Victoria, April 25.—Big game regulations promulgated by Attorney-General Pooley today allow the hunter to make a year by every hunter in the province, but apart from this important change in policy contain little amendment to the 1928 regulations. In the eastern districts, and the Cascade mountains, the only change in the season is for mountain sheep in the electoral districts of Fernie, Cranbrook and Columbia, where the animals may be shot from September 1 to November 15, inclusive, instead of from October 1 to October 31.

The seasons for big game in the western district are amended only in respect to moose and caribou in the electoral districts of Atlin and Omineca, where they may be shot from September 1 to December 15 instead of from October, as formerly.

The provision allowing for the killing of one doe during the season is the only change in bag limits in the province. Open seasons on game birds will be fixed later.

New Gravity Storage Reservoir Suggested By Vernon Council
Vernon—A suggestion that the city secure a new gravity storage reservoir to augment the present supply of water for the city, estimated cost of \$60,647, featured the meeting of the city council on Monday evening. The capacity of the suggested storage is 21,177,007 Imperial gallons, and the project is estimated to supply the city for 30 days at the general rate of use. T. G. de Wolf presented the proposals which interested the council so much that they plan to visit the site of the proposed storage basin this afternoon, leaving the city hall at 5 o'clock.

The proposal as outlined, is that lots 16, 17 and 18, Map 760, B. X. district, lying about half a mile from the city intake and within 400 yards of the city main, be made into a storage basin. It is said that the conditions there create a natural basin and that a depth of 20 feet of water could easily be stored. This basin can, it is estimated, be

Brick and Tile Plant May Be Established
Vernon—Mayor L. L. Stewart is very hopeful about the possibilities of establishing a brick and tile manufacturing plant. A sample of the clay from the deposit near the canyon leading is said to have been tested and to make a fine grade. L. J. Oakes, of Kelowna, who has been looking into the possibility of marketing glazed tile and brick, is very hopeful.

Recently an inquiry has been made by a Vancouver firm asking if it is intended to manufacture tiles suitable for the export trade. There is a considerable market in the Orient provided the quality and price permits successful competition with the plain and fancy tiles shipped there from the United Kingdom and the Continent.

Japan's new charge d'affaires, Hon. Yoshio Iwate, and his wife, have now taken up residence in Ottawa. Mr. Iwate is no stranger to the Dominion, for in 1928 he served as acting consul-general at the Canadian capital for eight months. A Japanese minister is to be accredited to Ottawa as soon as Emperor Hirohito is notified officially that Hon. Herbert M. Marler of Montreal has been designated as Canadian envoy to Japan and Mr. Iwate is at present arranging for a permanent legation building in Ottawa.

SUMMERLAND GOLFERS LOSE

Penticton Players Victorious By Eight to Three Count

Penticton golfers played an inter-club match with the Summerland club at Summerland on Sunday afternoon, April 28. The day on the whole was splendid for golfing and the visitors enjoyed a splendid outing at the northern links. The Summerland players were only able to win one match, losing by a 6-1 score.

The Summerland club displayed its usual hospitality and served tea to the Penticton players and otherwise doing everything in its power to please the visitors. The Penticton club will have the opportunity of returning this hospitality later in the summer when the northern club journeys here for a return match.

The ladies of the club also were successful in winning from the Summerland club in three out of five games. Mrs. Mitchell won from Mrs. Cran, Mrs. Greenhill lost to Mrs. Helling, Mrs. Syer defeated Mrs. Smith, Mrs. McGregor lost to Mrs. Henry while Mrs. Carmichael beat Mrs. Henry. Mrs. Mitchell, and Mrs. Cran were the captains of the two teams.

The following is the men's score for the games played on the same afternoon, Summerland players being the first named in each instance:
E. Stewart and J. Lawler lost to H. S. Thomas and G. Thomas; Stewart and Koop lost to Syer and Mitchell; Cood and Henry lost to J. Colquhoun and R. Mitchell; Cran and Young lost to Greenhill and C. Nicholl; Theed and Nicol beat Hancock and G. Ross; Hunter and Walden lost to H. Nicholl and A. Basham.

Emperor of Japan Greets Prince Henry In Tokyo Welcome

Tokyo, May 2.—The head of the oldest reigning house in the world extended such a welcome to the son of the second oldest today, as Japan has not known in a decade. Emperor Hirohito met Prince Henry of England, Duke of Gloucester, at the railway station as he arrived from Yokohama on his mission to bestow the order of the Garter on the Japanese ruler. The Emperor grasped the hand of the British prince and chatted with him for a moment after he had descended from the coach to the station platform. Then he watched smilingly as Crown Prince Chichibu left with him in a brilliant procession to the Kasumiga-aski palace, which is to be his temporary residence.

Such is Fame

Several years ago, Firestone, Ford, Edison and Burroughs were touring through West Virginia. A light on their car went bad, and they stopped at a little roadside store in the Buckhannon section. Mr. Ford went into the store to make the purchase.

"What kind of automobile lights do you have?" said Ford.
"Till take one," said Ford, "and by the way you may be interested to know that Mr. Edison is out in my car," said the merchant.
When the light was put on, it was found that a new tire was needed, so Ford went back into the store and asked what kind of tires the merchant had.
"Firestone," was the reply.
"By the way, you may be interested to know that Mr. Firestone is out there in my car, and that I am Mr. Ford—Henry Ford."
"So?" said the merchant, and he drove a long squirt of tobacco juice against the wall.
While the merchant was putting on the tire, Burroughs, who had white whiskers, leaned out of the car and said, "Good evening, sir."
The merchant looked up at him with a grin full of sarcasm and said:
"If you try to tell me that you are Santa Claus, I'll be darned if I don't crown you with this wrench."
—Kreolite News.

Good Blue Ribbon Tea
Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Three cases of violations of the Indian Act were heard at Keremeos on April 25, with Constable Hatcher of Penticton, attending. These cases arose out of the death of August Francois due to alcoholic poisoning. Pierre Souce, charged with being intoxicated, was fined \$20 and costs, while Enoch Holmes with a fine of \$10, Harry Allison with a \$75 fine and Horace Brewer with \$10 assessed against him, were convicted of supplying liquor to the deceased and to Souce.

When Advertising Ceases

A generation ago "St. Jacob's Oil" was one of the most widely advertised products in America. It was a patent medicine enjoying enormous sales. When Charles Vogeler, the head of this business, died, an "expert" went over the balance sheets and saw the enormous advertising appropriation.

This "expert" trimmed the advertising expenditure to little or nothing, reasoning that St. Jacob's Oil was so well known that it was unnecessary to spend money any longer to advertise it. Orders dwindled as advertising contracts ran out; business departed, never to return and it is safe to speculate that hardly one in fifty who read this article remembers or ever heard of St. Jacob's Oil, one of the best known products on the continent 35 years ago.

A similar thing happened to James Pyle's "Pearline"—a company which used a \$500,000 advertising fund as far back as 1904 and was one of the best known products in the entire world. The ad fund was "lopped off"; the business went dead. It tried unsuccessfully to make a comeback in 1914, and sold its plant for junk to a large soap manufacturer. Killing off the ad appropriation wrecked both of these prosperous businesses and it would do the same thing to almost any great advertising concern today.—St. Louis (Mo.) Times.

WALTER M. WRIGHT, Editor and Manager
Member of Canada Weekly Newspapers' Association

ARE RATTLESNAKES DANGEROUS?

The Cashmere Sportsmen's Association annually spends from two to three hundred dollars in bounties for predatory birds and animals. The county commissioners and the state also give bounties for certain predatory animals. If a cougar is heard of in the vicinity a special hunter is sent out after it at a great deal of effort and expense.

Yet, practically all of these animals and birds are dangerous to the wild life only. Humans are practically never injured even by the cougar.

But this country has a snake that is the bane of every picnicking party. People with children are always worrying for fear these youngsters will be bitten by a rattler. Many a picnic party has broken up because someone has seen a rattlesnake and taken the joy out of the freedom of the out-of-doors.

It seems to us that it is just as important—perhaps more important—to rid this country of rattlers as it is of predatory birds and animals. We believe that some effort should be made along this line.

Millions are spent to rid the country of dangerous plant diseases, dangerous pests in the orchards, and the troublesome earwig. Yet not one cent is spent to rid the hills of the rattler.

We believe that this question is worth study. We believe that a bounty should be paid on the rattler, or some other means used to get him away from the picnic spots of this country. He is really the only dangerous pest that this great section has to endure.—Cashmere Valley Record

THE NEW DOE LAW

The press statement that the shooting of one doe will be allowed this season is greeted with mixed feelings.

British Columbia has had a buck law for some years and although repeated efforts were made by various sporting organizations to have one doe allowed, success was not achieved until the new administration laid down its regulations for this season.

There are many arguments here in favor of allowing the shooting of a doe, but chief of them naturally is the difficulty of getting a buck. In the more settled districts many bucks have been shot off; as a result there are a large number of dry does in the hills and the deer are not increasing.

Resident deer hunters in this country are not anxious for heads, but seek only the sport, and while the meat is of no great importance to them, they make good use of it among their friends. The meat of the doe is better than that of the buck, particularly after the rutting season starts.

It all seems to come down to this. In the early weeks of our present season, starting, say, September 15, the bucks are away back in the hills and can only be reached by saddle horse expedition. The average man with Saturday afternoon or Sunday off, has neither the time nor the facilities with which to get into the buck country.

By the time snow flies in the nearer hills, say, November 15, the deer rutting season has made the buck meat unattractive, and what bucks are available then to the man making a week-end hunt certainly cannot be welcome for the value of their flesh.

It is an admitted fact that the does in this country very largely outnumber the bucks, and to allow doe hunting may, merely tend to restore nature's balance.

Pennsylvania is having a great fight over the doe shooting question and there are not a few sportsmen who believe it a retrograde step to allow the killing of the female of the species. Admittedly it is easier to shoot a doe than a buck as the doe ranges in the lower hills, more readily accessible, and furthermore she is easier to approach than the buck.

The new law apparently still allows the killing of two deer in the season, one of which may be a doe. We almost think it might be better to reduce the number to one, with some system of registration of slain animals put into effect.

One thing is certain, strong steps must be taken to combat the cougar and coyote menace. These animals prey on the deer to a tremendous extent. If we can get rid of these vermin there will be plenty of deer for all the hunters, and stock left for the future, even if we do shoot does.

We would like to see the doe law given a fair trial for a season or two. If the sportsmen honestly observe it and if the game authorities kill off the cougar and coyotes, we have no great fear of the results.

A GOOD WORD FOR GRIMES GOLDEN

Those who have received J. Forsyth Smith's report No. 71 of the apple market conditions on last season's transactions would find a very interesting comparison on boxed apple values, if they should pick out the comparisons his quotations offer.

In the range of values it is very striking to notice that in McIntosh Reds he quotes C grade selling at 7s to 8s and Fancies ranging from 7s to 8s, and naturally one wonders why these two should have ranged so closely when the grading must make the apples of the C grade appear much less in value.

A still more striking comparison appears and is only partially explained for Grimes Golden. For this variety he quotes Fancies 7s to 8s and the C grades at 7s to 8s. There is a comment that he adds to his statement relative to the marketing of this variety, and it will be quite interesting to local growers who have set out many of this excellent apple. He says: "Relatively high values of Grimes Golden are noteworthy, partly caused undoubtedly by a growing appreciation of this variety, but also by the relatively small supplies of Newtowns on the market and the tendency to depreciation of red varieties on account of the competition of abnormally low-priced red barrel varieties."

These two statements carry a world of meaning for the growers of Grimes Golden who have been a bit pessimistic over having planted a little heavily in this variety a few years back.

TOO CLOSE HOME

The only thing wrong with Lake Osoyoos is that it is too close to home for a good fishing ground as far as most folks of this locality are concerned. We heard a local resident say some time ago that when he lived about a hundred miles down the valley he used to think that the lake here was about the best fishing in the country, but now that he lives here he has to drive that far to find what he thinks is good fishing when in fact he could do better right at home. Old timers who know every stream and lake in this part of the country say that Osoyoos Lake is the best fishing of them all. Why not boats and more publicity that more people may come here to enjoy this kind of sport? It is just another case of greener pastures on the far side of the hill.—Oroville Gazette.

WORLD OF POLITICS

(By an Ex-Writer of the Ottawa Press Gallery)

As the direct consequence of a few years of steady betterment of economic conditions, the movement of Canadians to the United States has gradually declined while the general immigration movement to this country has increased. With the advent of the spring months the immigration tide set in at a rate which promises to establish a new record for the period since the war. The biggest movement of new settlers into the country since 1914 has been an increase in new arrivals numbered 166,789. It is expected that this total will be exceeded in 1929. A favorable feature of the 1928 immigration movement was that 68 per cent of the new arrivals came from the preferred countries and were people of the Nordic strain. They belonged to the nationalities whose racial superiorities were so interestingly pointed out recently by Mr. W. C. Kelley, West Summerland, in an address reported in this paper. British immigrants numbered 55,848 and of that number 23,702 came from England; 15,182 from Scotland, 9,875 from Ireland, and 5,928 from Wales. The United States during the year contributed 28,933 to the population of the Dominion, and from other preferred countries there came to our shores 27,007 people. Immigration of the less desirable kinds contributed 53,092 to the population of the Dominion. British emigration to Canada this year will include, apart from families coming out under the Empire Settlement scheme, several thousand young men coming to work on Canadian farms and who will be assisted and helped to get located by the Canadian Immigration Department. The new \$50 ocean rate will also exert an inducement to many people to come to Canada who do not intend to go in for farming. It is also anticipated that from now on there will be a steadily increasing inflow of people from the United States. Commenting on this prospect, the Winnipeg Free Press says: "During the last year or two, the United States has awakened more definitely than ever before to the progress that Canada is making, and to the expansion that is on the way through growing development and production of every kind. With that awakening has been an increase in immigration from the south. It was low in the years of post-war depression, but it mounted to 23,800 in 1927, and increased to 29,933 last year. This was more than half the number from Great Britain."

CANADA'S FIRST DIPLOMATIC JOB

The bringing down in Parliament last week of the correspondence between the governments of Canada and the United States relative to the "Tim Alone" case makes it quite evident that the Dominion is now looking after her own diplomatic business. This being a Canadian affair, the Canadian government is handling it, but in doing so is no doubt consulting with the British ambassador at Washington—Sir Esme Howard. As a Canadian editorial writer recently remarked: "Canada's experience in foreign affairs is just beginning. She will consult with Great Britain and the rest of the British Commonwealth on matters of common concern, but she will deal directly with matters affecting her alone. Her representatives have given a good account of themselves in Geneva and it is generally agreed that very capable ministers have been selected for the Canadian embassies at Washington, Paris and Tokio. There is no reason why external affairs should not be dealt with at Ottawa in a quite competent manner, as this particular question is being dealt with." Certainly no one taking the trouble to read the extended reports of the arguments put up by the Ottawa and Washington officials relative to the "Tim Alone" case need be ashamed of the first diplomatic job done by the Dominion Department of External Affairs. Canada's side of the case has been handled in a very able manner while the American document rather suggests that the U.S. officials did the best they could with a dubious case. The United States argument is weak in several respects, but more particularly in regard to the question of "continuous pursuit". The whole weight of evidence seems to indicate that the action of the U.S. coastguard cutter in sinking the Canadian ship was justifiable only in the event of such pursuit starting within the three-mile limit. When Great Britain and Canada agreed to help the United States enforce prohibition, they agreed to the search and seizure of vessels within a twelve-mile limit, it was not intended that the continuous pursuit doctrine should be in any way changed. Quite obviously the Washington authorities realize that they are in an awkward position, particularly for a nation which has engaged in war on two occasions in defence of the doctrine of the freedom of the seas. It is hard for a nation to admit that it is in the wrong, so the United States takes the quite natural course in proposing arbitration of the matter. The board of arbitration will serve the double purpose of deciding the case and, in the altogether likely event of their finding in favor of the United States, of paying the damages to be paid. The paying of the damages will not seriously inconvenience the United States. Strong prohibitionists will regret that the Dominion government has been put in the position of defending a rum-running vessel. The issue involved in the controversy, however, is not rum-running but the freedom of the seas, and it affects all nations with maritime interests. The Canadian argument in this case makes it pretty clear that both Great Britain and Canada have gone a considerable distance in assisting the United States to enforce prohibition. There is a probable predominant body of public opinion in Canada in favor of the government taking Canada right out of the rum-running business by refusing clearances of liquor cargoes to U.S. ports although it is extremely doubtful if the United States would do as much for Canada were this country trying to enforce a prohibition law and were the United States wet. One can easily picture Uncle Sam under such circumstances refusing to do anything to damage American trade and taking the stand that the enforcement of prohibition was Canada's own business. Nevertheless it is to be hoped that the Federal government will not much longer delay action putting a stop to this none too creditable line of export trade.

COST AND BENEFITS OF CONTROL

Announcement that the cost of the Committee of Direction for 1928 almost touched the \$300,000 mark naturally leads to speculation as to whether or not the expenditure involved by the Committee are worth the expenditure involved. Sixty thousand dollars looks like a lot of money to the average grower of fruit and vegetables, particularly in a year when payments received for crops will hardly serve to pay a producer's way until the new crop is ready to be marketed. Spread over the value of the commodities marketed, however, it means less than one and a half per cent of outlay for the measure of control secured. Looking back over the past season it had been difficult to visualize what was accomplished had there been no order to enforce prohibition. It is practically certain that without control this particular variety would have produced red ink instead of an average of about twenty-five cents per box when rebates are all paid. If that is even approximately correct, it would appear that the Committee was worth the money it cost in connection with the handling of Jonathans alone. At the B.C.P.G.A. convention, Mr. Finch, the representative of independent growers and shippers on the Committee, asserted that he had an \$1,000,000 for the growers. But that estimate is in two and the saving offset. There is absolutely no doubt that the money spent by the Committee was saved to the producers several times over, and with a better act, a more workable board, and a determination to enforce the law, there is every reason for anticipating that still better results will be achieved in the future. The only way to really find out the worth of the Committee is to allow the fruit business to drift back to disorderly marketing methods for a season or two. It is doubtful if five per cent of the producers would care to try such an experiment.

BRITISHERS ALERT CANADIAN TRADE

Mr. William Clark, Great Britain's able high commissioner in Canada, has been telling Western Canadian audiences that a determined effort will be made this year by mercantile firms of the Mother Country to increase the Canadian trade. Canadians generally will hope that the proposed drive works with success. There is no doubt whatever that, in recent years, partially due to the activities of the Empire Marketing Board, the sentimental preference for Canadian produce in Great Britain has been materially strengthened. The people of the Mother Country have

KING GEORGE ON CONVALESCENT STROLL

During a band concert given in front of Craigwell House, near Bogor, the King took occasion to walk down to the seaway to say a few words to the crowd collected there. The loud cheers that greeted him were interspersed with shouted good wishes for his further recovery. That both the King and Queen were delighted by the welcome accorded them may be surmised from the smiles seen in this picture which is one of the first to show the King walking after his long illness.

OLIVER GROWERS BELIEVE OTHER AREAS PREPARING TO ACCEPT CANNERY PRICE FOR TOMATOES

Southern Section of Association Agrees to Abide by Tuesday Price

DISAPPOINTED THAT WEAKNESS IS SHOWN Kelowna and Keremeos Both Apparently Willing to Take \$17.50

Oliver—Differences in varieties grown, coupled with a weakness in supporting the \$18.50 and \$20.50 per ton movement shown by Kelowna and Keremeos tomato growers, caused Oliver tomato growers to agree to whatever price is set at Tuesday's meeting of the B.C. Tomato Growers' Association at Kelowna. However, Earlianna will be the only variety grown for cannery purposes at Oliver. The usual premium of 42 per cent is asked for John Baer if the cannery desires this variety. Approximately 600,000 John Baer plants will be destroyed. Kelowna growers have agreed to supply Oliver growers with all the Earlianna plants required, at cost price.

Tomato acreage will be considerably reduced as a number of grower groups are preparing to accept the cannery price of \$17.50 per ton, will not plant this year. The emergency meeting was called following a conference between the Executive of the Oliver Tomato Growers' Association, Clarence King, secretary, and J. Spall, president of the B.C. Tomato Growers' Association, at Kelowna.

Keremeos Weakening Reports read by Mr. King showed the Keremeos growers to be weakening from the \$18.50-\$20.50 per ton stand taken at the March meeting of the B.C. Tomato Growers' Association. A telegram sent by the Keremeos growers to the central and governing body stating they were going to sign a contract for \$17.50 per ton. They were advised that they could not sign any contract until a contract had been signed by the executive of the B.C. Tomato Growers' Association. The Keremeos growers, it was pointed out by Mr. Hack, following the Executive meeting at the Kelowna B.C. manager of the Dominion Cannery, had taken Mr. Hollis' word that the cannery did not think John Baer any better variety than Earlianna for cannery purposes and the Keremeos growers had only planted the Earlianna. Oliver growers had thought he was bluffing and had gone ahead with the John Baer, with the consequent result.

Kelowna Growers Getting Restless Mr. Hack said Mr. Spall had told him, Mr. Spall had done all in his power to hold his members in support of the \$18.50-\$20.50 movement, but he felt he could hold his members no longer and they seemed to be in favor of the \$17.50 offer. As Kelowna growers are not yet ready to accept the \$17.50 price, Mr. Spall suggested to Mr. Hack, Kelowna growers had a large surplus of plants this year, owing to the acreage for cannery purposes having been reduced from 1,000 acres to 700 acres. The plants would be supplied to Oliver growers at about \$8 per thousand, which was very cheap. By Oliver growing all Earlianna variety, Keremeos, Kelowna and Oliver would be all on the same basis and it was felt with the quantity of semi-ripes which can be sold it would be better to grow them exclusively at a price of \$17.50 per ton.

In supporting the suggestion of Mr. Spall, Mr. Hack stated it was a case of supporting the organization and following the will of the majority. Some of the Kelowna growers, he said, felt the Oliver delegation had stampeded the March meeting when the \$18.50 and \$20.50 price was decided on. The plants supplied to the Oliver growers would be picked out by a delegation representing the Oliver growers, and if the season here was earlier than Kelowna the plants would be available.

Oliver is Disappointed Considerable discussion then arose. Disappointment was expressed at the other locals failing to stand pat

for the \$18.50-\$20.50 price, but it was the consensus of opinion that sooner than commit an act that might tend to break up the association, Oliver growers would bow to the will of the majority and accept the price set at the general meeting. Discussion arose on the advisability of starting an independent cannery, several suggestions being put forward, but the growers seemed to feel they were not financially strong enough to withstand the competition which was sure to arise from the Dominion Cannery. A suggestion was made that small produce canning outfits be purchased and run by the growers. The product would be marketed through the Co-operative Association acting in conjunction with the Canadian Fruit Distributors, a subsidiary company of the Associated Growers. Clarence King, secretary of the Oliver growers, stated the attitude of the Keremeos and Kelowna growers was a hard shock to the Oliver growers, but they had stuck out pretty solid with the Oliver growers. It was a case of 10,000 tons to 1,000, and he urged careful consideration of the suggestion put out by Mr. Spall. He said: "We are only backed down \$1. We will not back down on the John Baer. It was the action of the Oliver growers which had forced the cannery to offer \$17.50. We must stay with it. If the organization is gone, we are gone," he concluded.

H. R. Potter then moved a resolution: "We, the Oliver Tomato Growers' Association, do hereby advise the head organization, and whatever price agreed on by them we accept." This motion, put to vote, resulted in 25 voting for and 10 voting against. H. Tasker seconded the motion.

No John Baer to be Used The meeting then discussed the matter of securing the necessary Earlianna plants from the Kelowna growers and passed a resolution that no John Baer variety be sold to the cannery at the \$17.50 price as they considered this price for this variety most unsatisfactory.

Mr. Hack stated he was of the opinion, and so was Mr. Spall, that were they to stop the annual bidding war by the tomato growers asking the Committee of Direction to set prices in the future. This action had been considered earlier in the year and discarded, but it was now seen that if this yearly trouble was to be settled, it would be better to have the prices set by the Committee of Direction.

Mr. Eda stressed the point of keeping the organization together, and also moved a vote of thanks to the fair and unbiased manner of the meetings of the growers had been reported.

The resolution passed at the April 20 meeting was not forwarded to the Dominion Cannery by the executive at Kelowna as they believed the feeling of the Keremeos and Kelowna growers was to accept the \$17.50 per ton offer of the cannery for the Earlianna. Oliver growers are determined should the cannery now want John Baer variety, that the full price for this tomato will have to be paid. They are taking a loss in switching varieties but feel it is better to warn in February by Mr. Hollis that the cannery did not consider the John Baer any better for cannery purposes than Earlianna. Mr. Hoggan stated if the cannery paid the growers \$25 per ton for John Baer they would still make money as it was a far superior tomato. There was not the heavy dockage on the John Baer and discriminating buyers were quite aware of its superiority. The general tone of the meeting was that, although the growers were practically backing down \$1 on the price asked, they were doing this solely on account of the action of Kelowna and Keremeos growers earlier in the year. The Dominion Cannery Association split up, they would fall in line with the majority of the growers and accept the \$17.50 per ton offered by the cannery.

Another Budget of WEEK-END SPECIALS! from NICHOLL'S for SATURDAY

Stamped Pillow Cases, \$1.00 Pair
A quality, of medium weight, size 42 inch, hemstitched and well stamped in assorted designs, special value, a pair \$1.00

Hair Nets, 5 for 25c
Double mesh, human hair, cap shape shades of medium and dark brown, special 5 for 25c

30-inch Curtain Scrim, 15c Yard
White ground with floral design throughout and at border. Assorted colorings. Special yard 15c

81-inch Sheeting, 59c a Yard
A fully bleached sheeting of medium weight in this popular width. Special, per yard 59c

Ladies' Fine Cotton Vests, 49c
Very fine quality cotton some with silk stripe, prettily trimmed with silk around top and strap. All sizes. Special, each 49c

Filled Curtains, \$1.59 a Pair
Of fine white voile with neat frill of white and blue, 2 1/2 yards long. Complete with valance and tie-backs. Special, per pair \$1.59

Ladies' Silk Dresses at \$9.95
All silk flat crepe or crepe-back satin, black or colors. These are good styles and wonderful value. Special \$9.95

Every Ladies' Spring Coat in the Store is Reduced

Men's Golf Hose, 79c a Pair
Excellent colorings in greys, fawns, browns, etc., with fancy tops, good quality wool with percentage of cotton for extra wear. Special 79c

Men's Fine Caps, \$1.85
At this special price we are showing a wide selection in all sizes. Higher priced lines reduced in order to give wide selection at \$1.85

Two Good Buys in Men's Work Shirts
Well made and of roomy dimensions in either navy or butcher blue. Plain shades in a medium weight, strong material. All sizes to 18. Special at \$1.19

Work shirts of heavy drill in either khaki or navy. The same large, well cut garment in sizes up to 18. Special \$1.59

PENTICTON, B.C.

CALIFORNIA SOFT FRUIT HARD HIT BY EARLY SPRING FROST AND BAD WEATHER CONDITIONS

report severe losses on pears, same holds true in the Amer River district. Pears in the hill country have apparently been uninjured to date, as well as the Santa Clara Valley.

"The Tokay grape crop in Lodi district has been severely affected. Florin from 25 to 30 per cent less. The southern part of San Joaquin county and the eastern part of Stanislaus county show serious damage on grape vines. Some damage is also reported on the Kern county and south of both grapes and tree fruit. It is too early to estimate the loss at this time with any degree of accuracy.

"Taking it all and all, while not possible at this time to estimate the situation thoroughly in the district and on every crop, California has undoubtedly suffered one of the most severe setbacks in history of the deciduous tree crop.

"More complete information of course, is possible in a few days when it is hoped conditions will be more settled, hence more possible to make comparatively accurate estimate of the damage sustained."

KEREMEOS

(Too late for last week)

Before Magistrate Preston on Friday afternoon last, George E. Er, charged with supplying 10 to an Indian, received a fine of \$25 and costs. This liquor was supplied to Florio Aloisio, who is now in toils in the August Penitentiary.

Very slow to get started, the 1 of Keremeos are at last sold the idea of the get-together held by the Board of Trade and the board of writing it is expected at 25 local citizens will make the 1

Some members of the road g hold a dance in the Victory on Friday evening last, the m being supplied by the Twiss orchestra of Penticton. Some bri person evidently holding a grudge against the hall committee went the trouble of breaking into the basement where the electric lighting plant is installed and put water into the gasoline tank. It was not until 10 o'clock and a strenuous effort on the part of local expert, F. C. McDulloch, that the lights were available. We do know what the penalty for such low offences might be, but the serious one would like to make it serious on if the miscreant caught.

It appears as if the tomato action is settled for the year. That cannery tomatoes will be grown at Keremeos. Mr. Erant, of Dominion Cannery B.C. Ltd., in town Tuesday signing contract for 1929 acreage.

The southern part of San Joaquin county and the eastern part of Stanislaus county show serious damage on grape vines. Some damage is also reported on the Kern county and south of both grapes and tree fruit. It is too early to estimate the loss at this time with any degree of accuracy.

"Taking it all and all, while not possible at this time to estimate the situation thoroughly in the district and on every crop, California has undoubtedly suffered one of the most severe setbacks in history of the deciduous tree crop.

"More complete information of course, is possible in a few days when it is hoped conditions will be more settled, hence more possible to make comparatively accurate estimate of the damage sustained."

KEREMEOS

(Too late for last week)

Before Magistrate Preston on Friday afternoon last, George E. Er, charged with supplying 10 to an Indian, received a fine of \$25 and costs. This liquor was supplied to Florio Aloisio, who is now in toils in the August Penitentiary.

Very slow to get started, the 1 of Keremeos are at last sold the idea of the get-together held by the Board of Trade and the board of writing it is expected at 25 local citizens will make the 1

hes 215 Mile Speed

Malcolm Campbell, who, in his car, the "Blue Bird," speed of 215 miles an hour, at Cape of Good Hope, South Africa.

Hentley and Mrs. Pares had them on Tuesday of this from London, England. Mr. S. J. E. Hill and Miss Evelyn

Postmaster Bowring has installed a stamp-cancelling machine in the West Summerland office. The machine saves considerable pounding at mail sorting time and is easier to run than the old mallet.

Mr. Alf Johnston went up to Canyon dam on Thursday expecting to return late on Friday. Mr. Standerson of Peachland, who is not sent word down as to how conditions were.

Mr. and Mrs. John Cummings and their son John are taking some stock out to their property in the Peace River, at Hythe, at the end of steel. John Jr. left on Wednesday with a few days of his parents expect to leave on Saturday.

Twenty-five ladies of the local Anglican church went up to the land to attend the meeting of the deanery there. One of the speakers in the afternoon on Wednesday was Mrs. Turner Lee, who is diocesan secretary for juniors. The other speaker was Miss H. Solly, diocesan secretary for girls.

Mr. and Mrs. V. Lockwood expect to leave on a motor trip Sunday for the month of May in the western States. Mr. Wm. White will accompany them as far as Detroit. They propose going to Salt Lake City and then take the Colville Highway to Chicago. Mr. Lockwood has arranged to have his theatre and business run as usual while away.

Council Holds Tax Rate at Forty Mills (Continued from Page One.) as was proposed should be used. The rev. and other councillors thought a good job should be made of this bridge, in view of increased traffic which is likely to follow the change of location of the highway. Several bylaws were presented, covering former motions, and fixing the mill rate. Eighteen mills was set for the school rate, 18 for department and four for municipal work, making in all 40 mills for this year.

D. Kireline was appointed caretaker for the park. At the discussion of park matters the council felt that some parking rule should be made to prevent cars being parked too close to the building, which was a risk in case of fire and because it permitted some cars to stand right in front of the building, though the annoyance of the public. This was finally left to a committee to arrange.

The matter of a visit from Dr. Cuddles on the irrigation report from Summerland was taken up. Councillor Campbell was very strongly convinced that Summerland should get its claims in writing to Mr. Jones, making for a visit from Dr. Cuddles. The council considered that Mr. Jones should be left with Mr. Jones, but after further discussion, the consensus of opinion was that action should be taken, and a letter sent to Mr. Jones to the effect that Summerland council considered that Dr. Cuddles should include Summerland in his report now, and not leave it till the next session of the House.

Mr. J. A. Doble wrote that he has appointed Mr. M. G. Wilson as his arbitrator in the matter of flooded land in Garnett Valley. The council thereupon selected Major Hutton, if he would accept the duty, to speak to him.

Owing to the lengthy hours of council meetings it was decided that the former hours be resumed and meet at 2 p.m., taking routine work first and requesting that elected home make their appointments for 4 p.m.

LOCAL HAPPENINGS

Mrs. Geo. Henry went down to Vancouver on Tuesday's train.

Miss D. Dunsdon went down to the Coast on Sunday.

Mrs. F. N. Ross is a visitor from Field, staying with Dr. and Mrs. Lissett.

Mr. and Mrs. Rutherford, of Penicton were visitors to Summerland on Sunday last.

Mr. Chas. M. Broad was a visitor to town, en route to Calgary, this week.

Mr. E. Higginson was in for Friday on his way from Seattle to Edmonton.

Mr. J. A. Callaghan went on Tuesday to Kamloops to the funeral of his father-in-law.

Mr. and Mrs. Bert Anderson arrived last week from their trip to Scotland.

Mr. Donald Ross is relieving agent at the C.P.R., taking Mr. Callaghan's place during his absence.

A few were up to Fish Lake for the fishing there this week, and report fair success.

Miss Hazel Rosoman, who has been visiting Mrs. Neill, left on Monday for Vernon.

On Tuesday, April 30, a daughter was born to Mr. and Mrs. J. Blacklock at the local hospital.

Eric Tait and Bert Simpson were week-end visitors to Vaseaux Lake, staying with Mr. S. J. Darcus.

Rev. H. A. Solly went down to Vancouver the first of the week to attend a meeting of the Anglican College in that city.

Miss Phyllis Chine, of Vancouver, has been spending a week with Mr. and Mrs. John S. Ritchie, and friends in town.

At Ridley Park, Pa., on April 27, Andrew Douglas Robertson died at the age of 81 years. He is a brother of Mr. Wm. Kerr and Mrs. W. H. Hayes.

Miss Sinclair and Mrs. Shepherd went down to Vancouver on Monday as local representatives to the Presbyterian convention at that city this week.

It will be a note of interest to readers of The Review to know that the war tax has been taken out of telegrams, tickets and steamer passage.

The Co-operative expects that, by the end of the month, it will be able to settle up for the past season's work with the growers, and get out cheques for all rebates and all other returns.

Donald Ross reports fishing excellent in the Okanagan. He has out for an hour and a half one morning recently and caught some fine rainbow trout, one weighing five pounds.

Postmaster Bowring has installed a stamp-cancelling machine in the West Summerland office. The machine saves considerable pounding at mail sorting time and is easier to run than the old mallet.

Mr. Alf Johnston went up to Canyon dam on Thursday expecting to return late on Friday. Mr. Standerson of Peachland, who is not sent word down as to how conditions were.

Mr. and Mrs. John Cummings and their son John are taking some stock out to their property in the Peace River, at Hythe, at the end of steel. John Jr. left on Wednesday with a few days of his parents expect to leave on Saturday.

Caledonian Society

Make Presentation

The members of the local St. Andrew's and Caledonian Society marked the departure of Mr. and Mrs. John Cummings from the district by waiting upon them on the evening of Tuesday of this week at the home of Mr. and Mrs. James McKenzie and presenting them with a token of their esteem and cordiality in the form of a handsome eight-day clock.

The presentation was made by Mr. John Tait, president, who expressed the society's regret at their departure, but wished for them every turn of good fortune in the new north country to which they were going. Mr. Cummings, on behalf of Mrs. Cummings and himself, suitably acknowledged the gift.

Mr. H. Ramsay and Mr. David Taylor contributed to the pleasure of the evening by repeated selections on the accordion and violin. Since coming to the district several years ago, Mr. and Mrs. Cummings have very closely identified themselves with the society's social activities and will be missed from that circle, while Mr. John Cummings is a very promising member of the society's dramatic cast in its recent production, "Little Acoorns".

The family leave here this week for Hythe, in the Peace River district, and will be accompanied by the good wishes of a host of local friends.

RATTLERS ARE SEEN BY GIRLS

Hikers See Snakes While Taking Walk in Hills

Many there who will hike for miles with a gun or golf bag over their shoulder, but few there these days who hike for hiking's pleasure. It does happen sometimes. Last Saturday Miss McMillan and Misses Elsie and Molly Tim climbed Anaxist Mountain, going as far as the old loggers' camp. On the way they encountered a couple of rattlers. Their speedy observation of the safety first rule precluded them taking any snapshots.

There has been a flock of fifteen swans in Osoyoos Lake this week. This is the largest flock that has been seen here for a number of years.

Walter McKay, of Fairview, while driving on the Anaxist Mountain road last week, had the misfortune to have his car go over the side and go down a 50-foot dip. Walter jumped and escaped injury, but the car was badly wrecked.

Mr. F. W. Fenwick and Mr. G. Greer, representatives of the Great West Life, paid Osoyoos a business visit last week. They were accompanied by Mr. Jarvis, of Oliver, whose father was one of the outstanding promoters of the company and for a great many years was secretary.

R. H. and Mrs. Plasket returned on Saturday last from a holiday trip to the Coast. They were accompanied by Douglas Fraser, who has just completed his first year at the U.C. R. H. says that he is now going to have a real holiday, and within the bounds of Osoyoos golf course.

Mrs. Capt. Pattison, of Kelowna, is spending a few days at Osoyoos, the guest of Mrs. F. L. Goodman.

Here Is the Great G. B. S. HOSTILE PASSAGES BETWEEN INDIAN AGENT AND POLICE MARK INQUEST ON FRANCOIS

Here is George Bernard Shaw in his little revolving hut, fitted with vial-glass, which lets in all the sun's rays. He recently declined the offer of nomination as a British parliamentary candidate because he says it came "35 years too late."

NARAMATA

The annual meeting of the Unity Club was held on Friday and officers were elected for the ensuing year as follows: President, Mrs. E. C. Robinson; vice-president, Mrs. Ruth Rounds; secretary, Mrs. A. J. Noyes; treasurer, Mrs. H. J. Galt. The executive of the club entertained on this occasion.

Mrs. D. O. Hughes and Mrs. Frances Noyes returned last week from an extended trip to the States. Mrs. Hughes to California and Mrs. Noyes to Seattle.

Mr. Geo. Forbes, of Calgary, came in last week, and is understood to be taking up his residence here. He is at present staying at the Nuttall home, but will shortly build on his ranch, which has for some years been in charge of Mr. Nuttall.

A meeting of the Library Board was held on Friday evening, and arrangements were made to hold the annual meeting and election of officers in conjunction with the Board of Trade meeting, at which Hon. J. W. Jones, M.L.A., will be the speaker.

Considerable work is being done on local roads, including widening and straightening them wherever practicable. A powerful tractor is in use, and dredging of the creek bed in town is part of its work.

The annual tax sale of delinquent lands in the irrigation district was held by the collector, Mr. Geo. Weaver, on Tuesday morning, when several parcels were offered, and some lakeshore properties sold. Of the properties listed, several had been redeemed prior to the sale, and only a few reverted to the district.

The baseball season has got under way in the south. Omak has a crackerjack team this year and took Wenas into camp in the initial game of the season by a 11-8 count. Some heavy slugger featured the play, in fact the first man up to bat for Omak, Louie Smittin, hit the first ball pitched for a home run, just to show the boys from the city what he could do. The U.C. R. H. says that he is now going to have a real holiday, and within the bounds of Osoyoos golf course.

Mrs. Capt. Pattison, of Kelowna, is spending a few days at Osoyoos, the guest of Mrs. F. L. Goodman.

Kereomeos Jury Decides That Indian Died From Shock and Strain

Violence Suggested BY MAJOR F. J. C. BALL

Hearing is Scene of Several Clashes With Officers of Provincial Force

Kereomeos—A demonstration of antipathy between Provincial police and the district Indian agent so marked that it drew the criticism of the coroner, and at times sidetracked the evidence touching upon the death of August Francois, Penicton Indian, who was killed Thursday of this week at the inquest into the circumstances surrounding the death of the Indian, whose body was found in an abandoned automobile on the Kereomeos side of Hedley, following a drinking party, on Wednesday, April 10.

In spite of the implied contention of Major F. J. C. Ball, Indian agent, of death by violence, the jury at the Kereomeos inquest was of death through shock, the result of alcoholic poisoning and strain through severe vomiting.

Hostility Shown

The jury added a rider, lamenting the hostility shown between the Indian agent and the provincial police, and an investigation may follow.

This was the official verdict of the coroner's jury which consisted of Mr. W. B. Foreman, J. S. Coleman, J. T. Carlson, O. H. Sismey, E. C. Armstrong, and W. G. Smith.

Inspector W. R. Dunwoody of Naramata, Constable Hatcher of Penicton, and Constable Thomson of Princeton, were the provincial police at the inquest, which was presided over by Dr. J. C. Ball, Indian agent, Vernon, was also present with Mr. McLean, a lawyer representing the Indians.

Inspector W. R. Dunwoody, of Nelson, who came specially for the inquest, and Mr. Ball, engaged in a heated repartee quite outside the legal precincts of the enquiry. There was a flat contradiction in the evidence, and Mr. Ball made the remark that he was in a hostile court.

The evidence, which was lengthy, was of little interest. It showed that Francois died while left alone in the back seat of a motor car, some time before 8 o'clock; that all had been drinking heavily, and that though there was a hammer and a bunch of horseshoes in the bottom of the car, there were no signs of violence, nor was there a fight.

No Fighting, Say Indians

When found by Constable Spall, according to his evidence, there were no blood marks, but signs of violence, and Mr. Ball made the remark that he was in a hostile court.

The mark on Francois' head was the bone of contention. Dr. A. Francois, of Hedley, who made the autopsy, found that the bruise had nothing to do with the man's demise, yet the Indians, and the Indian agent, contended that there was a skull fracture and the latter opinion was heavily favored.

The responsibility for the calling of the meeting; Major Ball's wish to have the body re-examined; and evidence allegedly available to the Indian agent implying death by violence were matters that quite clouded the main interest in the hearing.

The "reasons" were that an examination of the body with Sergeant Birch, of the Mounted Police, could not be held in a hostile court.

Ball Wanted Re-examination. Constable Hatcher swore he did not see the body, but that he had seen it in the morning of the day following the tragedy, was the principal matter of dispute at the meeting; Major Ball's wish to have the body re-examined; and evidence allegedly available to the Indian agent implying death by violence were matters that quite clouded the main interest in the hearing.

Indians pointed out to Mr. Ball

he said, "You are prepared to swear that you said nothing about signing papers?"

Constable Hatcher: I have already sworn this.

Mr. Ball: What authority had you to give any instructions whatever to me?"

Constable Hatcher: As a provincial police officer and temporarily in charge of the Boundary district, it was my place to call anybody to order in this office.

Ball: You say there was no court convened here?

Hatcher: This is a provincial police office.

Ball: Can you answer a question?

Hatcher: When you ask it in the proper way.

(Stenographer's note: Argument too lively to take notes.)

A further flare-up occurred when Mr. Ball produced, as a witness, Francois' aged father.

Mr. Dunwoody: Was this witness, who had not seen Francois for a week previous, nor the body for the purpose of discrediting Dr. Francois?

Mr. Ball: Absolutely not for the purpose of discrediting anybody.

Inspector Dunwoody: Is that another witness brought on to discredit Dr. Francois?

Mr. Ball: I do not know what kind of evidence he had given.

Inspector Dunwoody: He had conversed with Dr. White and gave the latter the assurance that he would be perfectly willing to have Dr. White re-examine the skull.

Dr. White Brought Liquor. It appears that Pierre Suce and Enoch Holmes on the morning of the 9th, left for the upper valley in Suce's car. He picked up Francois about 10 a.m. and they got liquor, according to Suce, from one Horace Brewer, who, however, giving evidence, declared he had not seen Francois for two months prior to his death. Pierre was driving. They picked

up Charlie Squakim, and later, the jury if it would interest them. Constable Hatcher referred to the Sunday morning meeting as "a request made by Mr. Ball to Dr. McCaffrey for the removal of the remains of the deceased Indian to Penicton for a purpose of which I know nothing. As I understood it from Dr. McCaffrey's phone message to myself, he did not know what you wanted, and as a direct result of a request from the coroner to look you up, I spent one hour in doing so."

Argument Lively. Mr. Ball: You are prepared to swear that you said nothing about signing papers?"

Constable Hatcher: I have already sworn this.

Mr. Ball: What authority had you to give any instructions whatever to me?"

Constable Hatcher: As a provincial police officer and temporarily in charge of the Boundary district, it was my place to call anybody to order in this office.

HIGH WIND AT OLIVER BLOWS CHINAMAN CLEAR OUT OF TOWN: COURT CASE FOLLOWS RETURN

Quan Ming Hee Has Been Cause of Turmoil in the South

FLUMING TORN DOWN IN HEAL ORCHARD

Quan Ming Hee, the Chinaman who has been the cause of all the trouble in the "Oriental invasion" of Oliver, is back in the district after having been spirited away the other night.

As a result of incidents leading up to Quan's disappearance a charge was laid at Oliver Thursday against Harold Emrick, garage proprietor, that on Tuesday, May 7, he caused Quan Ming Hee to be secretly confined and imprisoned.

In court at Pentiction today the Chinaman said that at 6 o'clock Tuesday afternoon two men held him up with a gun, put him in a car and took him to a house, where he was kept. Later at night he was driven over the Richter Pass road and turned loose on the road. He made his way to Kelowna and got a drive back to Oliver, arriving at 2:45 a.m. Wednesday.

The Review's Oliver correspondent sent up the following story for this week's paper. At the time of writing nothing had been known as to how the Chinaman disappeared.

Oliver—What is said to have been the most strange windstorm ever to have taken place in this district occurred Tuesday when the only Chinaman in the district is said to have been blown off the ranch of Dr. Harold Heal and deposited in the yard of Constable McDonald of the B.C. provincial police, the missing Oriental so has not been located. It has been suggested the wind was of so much velocity that the Chinaman was blown from the field he was working into the back of a passing car, and the occupants not noticing the occurrence, drove off, no one knows where. The elements, according to the only information available, have apparently taken a hand in ridding the district of the Oriental. George Heal, brother of Dr. Harold Heal, brought the Chinaman to Oliver, British Columbia, about April 1. A delegation composed of nearly every business man and rancher in the district called on Mr. Heal and asked him if he would get rid of the Oriental. He said the district had been free of Asiatics and it was the wish of the large majority that this state of affairs would continue. Mr. Heal said that he had been told to get rid of the Chinaman. He failed to do so. Ten days ago the flames on Dr. Heal's place were reported to have been damaged to the extent of \$800. George Heal made this report to the provincial police. From other quarters it is claimed the damage does not approach this figure as the stakes supporting the main flume were cut out, this being the only damage. The disappearance of the Chinaman this last time is shrouded in mystery. Neighbors noticed nothing unusual and no one has been able to suggest the slightest idea of what has taken place.

JOY CASTERS BROADCAST

On Friday evening, May 3, the Joy Casters of Pentiction made their initial appearance in Naramata.

The program, presented under the form of a radio broadcast, was held at approximately 8 p.m. (P.S.T.). The stage effects, specially built for the occasion by Messrs. L. Smith and Steel, were filled in rapidly and were well followed with unflinching interest.

The first number was an opening chorus by the entire cast, followed by a piano solo by Mr. Wallace Melkie. Henry applause greeted the group of solos by Miss Jost, following which a delighted audience listened to saxophone solos by Bill Smith.

An attractive feature of the broadcast was the appearance of the Pentiction Male Quartette, silver medalists at the Kelowna Musical Festival. This quartet, made up of Messrs. Turner, Swift, Suddes and Fowtrel, who sang their festival number, "Ding to Me Only With Thine Eyes," and followed with a humorous duet by Messrs. Suddes and Fowtrel, winner of the gold medal at the festival, and Mr. Fowtrel; instrumental solos by Mr. Otto Gault, clarinet; Mr. Tim Sallis, violin, and Miss Helen Boyce, piano, received much well-deserved applause, as did the trio, violin, cello and piano, by Messrs. J. Webster, C. Bell and W. Melkie. A piano duet and its encore by Miss H. Reeves and Mr. B. Ryall were also well received.

Mrs. Manuel and Mr. Fowtrel gave two old favorite duets which received a hearty welcome.

Owing to a lack of time, the new songs were allowed in the second half of the program. The various members of the company again won recognition for their numbers in this section of the broadcast. The new songs were a vocal solo by Mrs. Manuel and a humorous duet by Messrs. Fowtrel and Ryall. During the entertainment there were brief messages for local time signals. These intermissions also gave the J.O.V. comedians, the "Two White Blackbirds," B. Ryall and W. Suddes, a chance to give their usual variety of well-worn jokes.

At the conclusion of the entertainment, supper was served to the visitors at the manse.

This week's musical and novel performance, which was in aid of the Naramata United Church, was arranged and conducted by Mr. B. Ryall, who acted as station announcer.

The evening was thoroughly enjoyed by an appreciative audience and was voted the most popular concert staged in Naramata for many years.—Contributed.

Associated Sends Rebate of \$108,554 To Member Locals

Vernon—The Associated Growers have recently handed \$108,554 to their locals for distribution to fruit growers of the Okanagan. This amount is the rebate on the estimated charge for central selling and pool charges. The sum represents an amount of approximately 4c a box on apples and a proportional amount on soft fruits.

An additional payment of 3c per box is being made on Jonathan apples which were shipped last season. The pool was closed before all of this variety were marketed. The price was computed at a conservative figure and since the market on a better market, so there is now an extra dividend.

TEXT BOOKS ARE DISCUSSED BY SCHOOL BOARD

Objections Raised to Books From Across the Line

In Use Here

MANY REPAIRS AT HIGH SCHOOL NEEDED

Scholars Fixing Up Part of Building for Their Own Activities

Tuesday's school board meeting was mostly on routine matters, but Mr. E. Elliott, chairman, and against purchasing books for text book purposes from across the line, and his attack upon the principle of the idea made the meeting a little more interesting. Another matter mostly of interest to taxpayers was discussed at some length by Mr. Kelley, who said that these citizens of Summerland deserve careful consideration before expenditures asked for were authorized.

Mr. Caple presented a list of books that it was desirable should be available for the pupils, and cited the books, and he also had a list of repairs that were required at the school and which need to be planned for attention during the holidays. In discussing the purchase of the books, Mr. Elliott objected to getting books from across the line. Too much of that, he thought, was being done, and the impression left upon the minds of the school folks was that of selling things necessary for education and also because it did not give Canadian institutions an incentive to provide for the country's own needs.

Mr. Kelley, speaking on the same question, pointed out the fact that these books were to be purchased from across the line, and that the case of students who could not finance the school course. Mr. Kelley stated that there were also quite a few growers and land owners who could not finance their own children's education.

Mr. Kelley stated that there were also quite a few growers and land owners who could not finance their own children's education.

BRITISH PAPERS ANGRY AT U.S.

Owen Young's New Reparations Plan is Severely Scored in England

London, May 9.—The British press today displayed the most marked unanimity that has been recorded in years in protesting against the new scheme for German reparations credited by it to Owen C. Young, chairman of the experts' commission in Paris.

The condemnations printed by morning papers were supplemented by the London evening publications and by the provincial press. Papers usually friendly to the extreme toward the United States carried editorials headed by such expressions as "Not Again, Sam," "A Cool Suggestion," "A Shabby Proposal," "No More Concessions."

Ever since Stanley Baldwin carried through Parliament the debt-funding agreement with the United States, which, through the recent agitation by Philip Snowden, has been again thrust into the limelight, there has been a smouldering indignation in certain sections of the British press. This has always been ready to break forth at the slightest suggestion of unfair treatment toward Great Britain in regard to either war debts or reparations.

The general cry of the British newspapers is that if any amount of money is to be done, it must be shared by all and not at the expense of Britain alone.

ABDUCTION CASE BEFORE COURTS

Pentiction—Mabee was committed for trial by Magistrate Pope at 4 o'clock this afternoon on the charge before Judge Brown for election.

Pentiction—A preliminary hearing is occupying the attention of the local police court at present. He had asked S. "Claire" Mabee as the accused. He is charged with abducting a girl under the age of 16 and taking her from her home without the consent of her parents. Mr. W. A. Woodward is appearing for the accused while Mr. H. H. Boyle is prosecuting on behalf of the girl's parents.

On Wednesday morning at 11:15 the case opened with the girl's testimony. According to her story, she had been coaxed into going for a ride with Mabee and he had taken her to Midway. He had asked her to go to Grand Forks, where her sister resides, and then to Spokane. Later Mabee said to her, she claimed, that he had to go to Vancouver and would be back by the following day evening and he wanted her to go with him.

These conversations, she said, took place on the evening of May 2, and it was during a party at the motor car ride that Mabee asked the young girl to accompany him to Vancouver, she stated. Instead of stopping at the border, Mabee turned down the road to the mountain and stopped for the night at Midway. The next morning the girl obtained work at the Salter Hotel and later was brought to Pentiction by the provincial police. A search was started on the information given by the girl's parents.

The case continued this morning after an adjournment last night. The preliminary hearing is before Magistrate T. A. Pope.

LEGION GROUNDS BEING FIXED UP

Grading Front of Grounds and Preparation of Lawn Has Commenced

More improvement work about the Legion Hall is being done just now and, as V. Borrer says, it shows that folks this is not a dead town. It is making the place very attractive.

The grounds along the creek and immediately in front of the hall have been cleared of stone and brush and now some grading is being done to level the approach to the steps.

The new lawn, graded and planted last summer, is now being rolled and put in shape for the workers, who will be using it to a great extent this summer.

Kelowna Rotary Club Leases Beach Grounds

Kelowna—The secretary of the Board of Trade sent copies of letters to the Kelowna Rotary Club, asking that the schedule of the Kelowna-Westbank ferry be revised to include two extra trips daily, leaving Kelowna at noon and 6 p.m., and returning from Westbank at 12:30 and 6:30 p.m., and that a special return fare of ten cents be put into operation for the months of May to September, inclusive for foot passengers, on account of a lease of a portion of the foreshore extending for about half a mile south of the Westbank ferry wharf having been made by the Kelowna Rotary Club from the Kelowna Indian Department, at Ottawa, for use as a picnic ground.

She Is Flying to Fort Churchill

Martiana Hayes, girl aviator and explorer, who has left Detroit for Fort Churchill and hopes to eventually reach the Mackenzie River. Miss Hays is ambitious to become a popular writer and much of her aeroplane globe-trotting is in search of local color and atmosphere for her future writings. The photographs show Miss Hays in trim flying costume.

NATIVE PLANTS OF B.C. ARE DISCUSSED BY LECTURER

Every seat was taken in the Riako Theatre to hear Dr. Davidson's lecture on British Columbia's native plants, given under the auspices of the local Horticultural Society. From the school children to the keenest member of the Horticultural Society all were thoroughly delighted and felt well repaid for attending.

One of the striking remarks of the speaker was on the thoughtless acts of people out in the open, who, because a tree or flowering shrub attracts them, must cut it down and take home as much as they can carry, leaving the rest to wither and also because it did not give Canadian institutions an incentive to provide for the country's own needs.

Many of the beauty spots of British Columbia were shown on the screen in colors, and they made the lecture realistic and intensely interesting.

The speaker remarked that when he first came to British Columbia it was easier to get information on wild flowers of the Amazon or other distant lands than of B.C., which gave him the incentive to start an inventory of the province's own flowers.

There are many varieties of wild flowers all through the country and the most beautiful of the land goes on, weeds grow and often crowd back these beautiful plants. This is especially so in stretches of country close to towns.

The speaker interspersed his lecture with many humorous remarks, one of which dealt with the practical joke the people of the United States played upon Canadians in naming that well known thistle the Canada thistle. It had its home in Europe, was introduced to this continent via the United States, from where it crossed to this country, and then the Americans named it after Canada.

The first part of Dr. Davidson's lecture was devoted to the plants and shrubs in the humid districts about the coast and contrasted that section of country with the entirely different area of the dry belt. Both have their own flowers, and each has attractive varieties that grow profusely under such different climatic environments.

The slides he carried with him were from pictures taken on trips over the mountains in the summer time, showing the contrast of vegetation from sea level to the timber line and above. The great beds of attractive flowers that grow in such wonderfully inviting places formed a most effective frame for the picture they made. Many of the shrubs he pictured on the screen were adaptable to the uses of gardeners in the vacation.

One of the slides showed the Indians hunting for the flower roots and indicated the care they take to see that these plants are taken from the ground in such a way as not to allow them to become extinct. The spot where they had taken their plants one year would, in the next, become more profuse in the production. In one instance the Indians, who had suffered such great losses in their tribes due to the ravages of the "flu," had brought pigs to these flowering plants and induced them to root about in the plants, moving the pigs about to different locations on the mountains.

Many of the slides pictured scenes familiar to those who live in the dry belt—rock roses, sage, and saskatoons. Upon each he had interesting comments to make, such as the use of these plants in garden work for beds and border schemes.

At the close of the address, Mr. W. R. Powell, president of the Horticultural Society, called upon the audience to give its assent to a vote of thanks to the lecturer, Mr. Hornby, of the Environmental Station, who had been with Dr. Davidson on some of the trips he has taken, with others interested, in gathering about the visitor to discuss the various items of mutual interest touched upon during the lecture.

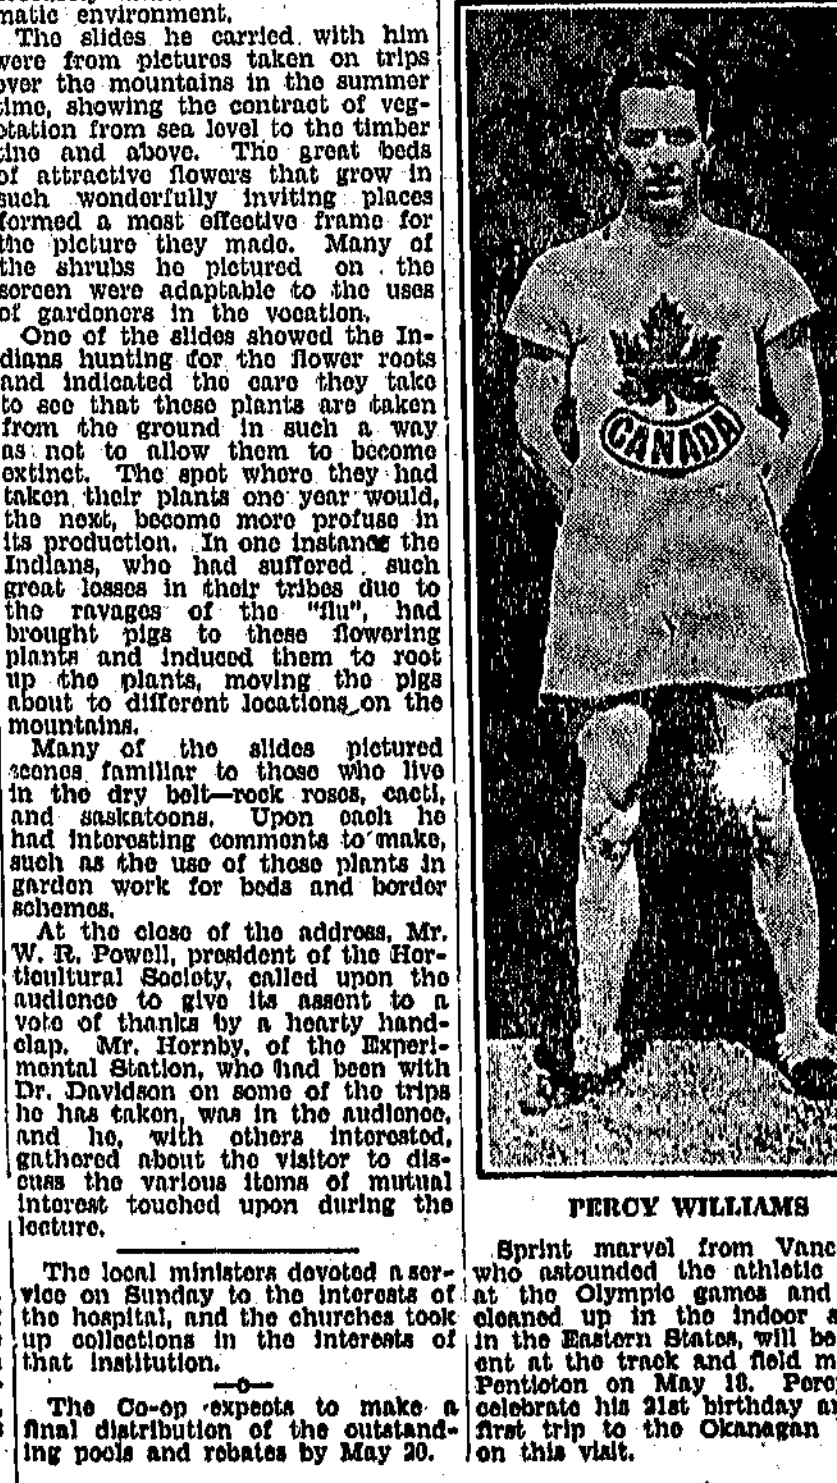

The local ministers devoted a service on Sunday to the interests of the hospital, and the churches took up collections in the interests of that institution.

The Co-op expects to make a final distribution of the outstanding pools and rebates by May 20.

Keelowna Choir Is Second at Coast

Vancouver, May 9.—St. Michael's and All Angels' boys' choir of Kelowna came second in boys' choral singing in the musical festival here Wednesday night. They were first last year. The first prize this time went to Christchurch Cathedral choir, Victoria.

Will Be Present At Track Meet

PERCY WILLIAMS

Kelowna Tax Rate Set At Forty-five Mills

Kelowna—Bylaw No. 509, to strike the rate of taxation for the year, was introduced and was read by the city clerk at the last council meeting. It provides for a total levy of 45 mills, divided into 17.55 mills for school purposes, including service of the school share of the civic debt, which would raise \$43,048.40 upon property within the city limits and \$2,908.20 on property outside the city limits but within the Kelowna School District, 16.72 mills for debenture interest and sinking fund, which would provide \$40,657.46, and 10.73 for general levy for all other civic purposes, which is estimated to bring in \$25,119.10, a grand total of \$111,833.24.

CONCERT FOR HOSPITAL IS BIG SUCCESS

Okanagan Festival Prize Winners Give Their Test Pieces

MR. MOSSOP ARRANGED EXCELLENT PROGRAM

Pentiction Orchestra Was Generous and Gave Fine Entertainment

In connection with the Hospital Week, Mr. F. Mossop arranged a most enjoyable concert at Ellison Hall on Wednesday evening, and his public spirit in this matter met with an excellent response, there being a large and enthusiastic audience, and a very considerable sum for the hospital in consequence. In matters musical, one is sure of a good program from Mr. Mossop, and on this occasion, besides our not inconsiderable local talent, we also had the full orchestra from Pentiction of over thirty performers under the baton of Mr. H. K. Whimster, who rendered several selections including their test piece, "Rosamund," in a most admirable manner. We are really grateful to our Pentiction friends for this musical treat and for their kind help.

Fresh from the recent "clean-up" of the Kelowna Musical Festival, the Summerland portion seemed to be all "stars," and rarely have we had a more delightful evening. Clarinet solos were given by Simpson and George and a number of pop. vey Weaver sang very pleasingly "O Rest Thee Babe" and again in the duet with Frances James with which these young ladies secured the prize at Kelowna while Margaret, Steven, recited prettily, Miss Marjorie King sang "Sea Wrack" and accompanied by the orchestra, "Kashmir Song" and the lovely "Who is Sylvia" given in the most beautiful style, these numbers were put delight to anyone musically minded.

Mr. Daniel opened our eyes as to what is being done at the school in matters musical, and some forty voices being under perfect control and singing in really first class style. Congratulations to Mr. Daniel and his choir, and one does not wonder they are called out leaders in the valley.

Another decided credit to Summerland is the high school girls' choir, with whom Miss Parvada seems to have worked wonders. One little criticism may be forgiven; the choir sang very prettily indeed and looked as charming as one would wish Summerland girls to look, but with the exception of one auburn-haired beauty, all were young men (No, you're wrong, it wasn't Joan), one did not notice a single smile. Why so? Surely singing should be a pleasure?

Right here in Summerland, in our opinion, an excellent example in our foremost lady singer whose platform manner is a delight to watch—not too exaggerated and yet pleasant all the time.

To complete the program, several of the principal of the Operatic Society contributed well known numbers from "The Gondoliers" and "The Mikado," those taking part being Miss Hogg, Mr. Newton, Mr. Clements and Mr. Daniel. These were up to our usual operatic standard in Summerland (though said) and met with enthusiastic approval from the audience.

Many thanks, Mr. Mossop, for a really fine concert.—Contributed.

WILL OPEN W. I. HALL AT OKANAGAN FALLS

Lieutenant-Governor Randolph Bruce and his niece, Miss Mackenzie, arrived at Pentiction, Thursday, from Victoria and proceeded by auto to Grand Forks, where they were present this afternoon on the occasion of the formal opening of a new air field there.

Hon. W. A. McKenzie, minister of mines, and Mrs. McKenzie, also came in from the capital with his son, and accompanied him on the trip to the Boundary.

The party returned today to attend the opening of the community hall at Okanagan Falls during the day. His Honor, the Lieutenant-Governor and Miss Mackenzie will have lunch at the Parham ranch at Vaseaux Lake and will proceed to Oliver in the afternoon to visit Mr. and Mrs. Thompson. In the evening they will dine with Major Fraser at his Green Lake ranch, before proceeding to the community hall.

Saturday morning the party will visit Kelowna, being at Midway at noon and in Princeton in the late afternoon. They will attend a reception and dance in Princeton during the evening.

On Saturday morning the Princeton school children, Scouts, Guides and war veterans will parade to the cenotaph for inspection. During the late morning and early afternoon hours the visitors will take a tour of the mine, including the Wilson mine, leaving on the afternoon train for the Coast.

BLAKEBURN MAN IS KILLED

Well-known Resident is Jolted from Trip at Coalmont

Princeton—Suddenly jolted from a trip of one and a half hours on the trip in the Blakeburn mine of the Coalmont Collieries, John Smith, one of the best known residents of Kelowna, was instantly killed Friday last.

The family is very well known and respected throughout the Upper Similkameen. Deceased had been a resident of Blakeburn for over seven years. His wife, Mrs. Edna, and two children, a son, John, who he resided a year, he then settled at Hodely, where he lived fourteen years, moving to Blakeburn in 1922.

He leaves to mourn his loss, besides his wife, two daughters, Mrs. McKellar of Blakeburn and Grace Edna at home; two sons, John of Medicine Hat, Alta., and Charles of Kelowna. He also leaves two sisters, Susan and Nellie, all of Manchester, England.

Funeral impressive.

The funeral was one of the most impressive ever held in the valley. Over forty cars were in the procession, all points of the upper valley being represented.

Services were held Monday, April 8, from the Church of England at Hodely. Rev. A. J. Williams officiating at a beautiful ceremony. Interment was made in Hodely cemetery.

An accidental death was the finding of a coroner's jury convening at Blakeburn to enquire into the death of John Smith, electrical engineer, who was killed Friday, D. McCaffrey of Princeton.

The verdict: "We find that John Smith came to his death by being run over by a transportation motor car of the Coalmont Collieries Ltd. while in pursuit of his regular duties."

The coroner's jury consisted of Jerry Brown (foreman), F. M. Barren, D. Morris, T. Leigh, P. Nolgen and John Thacker.

Mr. and Mrs. C. J. Kilgus had left Kelowna for Seattle, Wednesday, over the week-end. He motored up to the south. He is with the Armstrong Cork and Insulating Co.

HOSPITAL WEEK PROGRESSING

Many Membership Fees Paid—Entertainments Have Helped

Hospital Week has had a good start. The Alkum Club had a very successful social on Monday evening, a very enjoyable program being presented at the close of which the baskets were auctioned. The contribution to the hospital from this will be approximately \$20.

The returns from church collections had not been made known at the time of going to press.

The canvass for membership at the last report on Thursday was something over \$100.

The concert arranged by Mr. F. Mossop and assisted by the members of the Kelowna festival, and so generously augmented by the Pentiction Orchestral Society, will be able to hand the Hospital Society \$100.

The hospital dance will be well patronized and the bazaar under the Hospital Auxiliary auspices anticipates a very good day, as the ladies have arranged an excellent sale of cooking, garden produce, fish pond (nays the delight of the youngsters), afternoon tea by the Society Girls, and the supper in the evening.

There is no doubt that there will be generous donations on Saturday afternoon when the hospital is open to visitors who have the opportunity to bring contributions of any kind.

Mrs. J. M. Murray came in from Vancouver, Thursday, to visit with her sister, Mrs. M. E. Fisher.

PERCY WILLIAMS, WORLD FAMOUS ATHLETE, WILL BE PRESENT AT TRACK N

Vancouver Phenom to Pentiction on Saturday May 18

E. L. "BUCK" YEO TO BE RE

Williams Will Celebrate Twenty-first Birth in Pentiction

Pentiction—The valley schools that which is to be held here 18, takes on a new and interest for every resident Okanagan and neighboring view of the fact that Williams, the most famous Canadian athlete in the world, to be the guest of honor meet.

He is a young man, with severance carried him to fame at Amsterdam, who conquers on eastern track confounded even the most and whose character sullied in spite of the mud "brackets" named him a conceivable order of man the individual who has st in the hearts and minds all the Dempseys and Tun which are all seven grandfathers, the never opportunity of reciting, for it of this less sturdy ge the exploits of heroes lo clear and gone. This is a man whose name is on the Grounds a week fro day.

To grown-ups it is a s more than passing interes the school-going generatio Meet this year brings gala days in the background school athlete will be o recognition before the eye peer of all track men, winners of places will champions in their classes, and a program of should certainly produc Olympic material.

The fact that Percy Wi comes to Pentiction in measure due to the fact Mr. E. L. Yeo, of Vancou Edward High, invitation forwarded to Percy Willi Bob Grainger, from the m ition of the School Bo these invitations, were presented by Mr. Ye half of the municipality, Track Association and fu presents by several b urging their acceptance. made a sacrifice to come tation, as he celebrates birthday on "May 19," an which would be a well among his friends and rel Vancouver. However, a f come is assured him, s surely the good citizens community will show hi courtesy.

LIEUTENANT-GOVERNOR IS IN INTERIOR

Hon. Randolph Bruce Motors Over to Grand Forks Ceremony

WILL OPEN W. I. HALL AT OKANAGAN FALLS

TRAPS FOR C PROVE SUCCESSFUL

Run in Slough at V Lake is Just Starting

This week, Granville who is now maintaining traps, has a success state that the carp traps there are proving quite s. With the rising water, are attempting to find from the lake into the head for the purpose of.

Yesterday the traps cau them, and the run has ed. Some of them weigh pounds but the biggest to come. There were a suckers in the traps as new type of fish, which sent to Nanaimo for clas This fish was about ten i scales.

No bass have been see traps.

START MADE UPPER HIGH

Camp is Being Se Work to Begin Soon

Work is starting short on the construction o per highway to Peachlan At present the camp is up, above J. McDougall's over Crescent Beach. T house and several tents i erected and make quite a like showing. Mr. W. M. change of the work there stakes have been put in points along the road i expected that work will at this and very shortly, ery is expected in the co few days.

Progress has also been work at the Peachland o construction work, even most of it has been of a any nature.

Had This "Human B One Swallow" Too

Merritt—Mrs. Collins down, called at The Ho during the week to nee about the high on proving so unusual that al to tell the people about t stood straight up like a h ing. The other had a flying like a swallow. T no two weeks old, says this, and are Wyandott Collins says both chicks at judging by their appet power of consumption.

Mr. Vernon Charles from Castor, Alta., this reports the crop there ing through the ground.

THE SUMMERLAND REVIEW

(Published at Summerland, B.C.)
Established August, 1908

WALTER M. WRIGHT, Editor and Manager
Member of Canada Weekly Newspapers Association

HIS HONOR'S VISIT

His Honor the Lieutenant-Governor is in the valley, this time to officiate at the opening of the Community Hall at Okanagan Falls and to spend some time in the Similkameen Valley. Hon. Mr. Bruce, of course, needs no introduction to the Upper Country as he is a pioneer of the interior.

But the interest he manifests in the progress of the various sections of British Columbia is commendable. He takes his duties seriously and feels that being lieutenant-governor does not merely require entertaining guests at Government House, it includes also the necessity of a close and continual study of the changing needs and conditions of the province.

TOO CLOSE HOME

The only thing wrong with Lake Osoyoos is that it is too close to home for a good fishing ground as far as most folks of this locality are concerned. We heard a local resident say some time ago that when he lived about a hundred miles down the valley he used to think that the lake here was about the best fishing in the country, but now that he lives here he has to drive that far to find what he thinks is good fishing when in fact he could do better right at home. Old timers who know every stream and lake in this part of the country say that Osoyoos Lake is the best fishing of them all. Why not more boats and more publicity that more people may come here to enjoy this kind of sport? It is just another case of greener pastures on the far side of the hill.—Oroville Gazette.

THE OKANAGAN FALLS HALL

The work of the Women's Institute at Okanagan Falls in erecting a fine new community hall is a sample of what can be achieved even in a small district by united and persistent effort, backed by able individual support. This evening the Lieutenant-Governor of the province is to open officially the new building, and Hon. W. A. McKenzie will be present to lend further distinction to the occasion.

The people of Okanagan Falls have a right to be proud of their Institute and its accomplishments. There are a great many places much larger than Okanagan Falls which lack the public meeting place facilities this point has now obtained.

And to Major Fraser, who gave largely of money and effort to the project, the community should, and no doubt does, feel properly grateful.

Into the warp and woof of the community hall goes much of the old life of Okanagan Falls when it was a busier place than now and held high hopes of reaching that prominence its splendid location should justify. The new community hall is, to a considerable extent, fashioned from the lumber of the many old structures which dotted the townsite. Those who worked for the new building accomplished two things at once for, in erecting the community edifice, they at the same time demolished those buildings which had outlived their usefulness. Many of these ancient structures had the romance of old days written into them, and it seems only fitting that they should go into the framework and finishing of a building which is to mark a new era for the Falls district.

WORLD OF POLITICS

(By an Ex-Writer of the Ottawa Press Gallery)

Two speeches of more than ordinary interest bearing on Canadian relations with the United States and the relations of the big republic with the world have been delivered recently. Speaking at Montreal, William R. Castle, assistant secretary of state at Washington, made a special plea to the world in general to adopt a more understanding attitude towards Uncle Sam. C. H. Cahan, K.C., the elderly representative of a Montreal constituency in the Dominion House, addressing the members of the American Chamber of Commerce at Washington, gave a very frank exposition of the Canadian viewpoint in regard to a number of important matters affecting Canada and the United States. The verbatim report of Mr. Cahan's address before the Canadian Club of Montreal reveals it as a very smooth and able bit of special pleading on behalf of the United States. In recent years our big neighbor to the south appears to have developed a capacity for rubbing other countries the wrong way that has led to the realization at Washington that the United States is becoming somewhat unpopular.

Quite apparently President Hoover knows this and, being a business man of high standing, he thinks that something ought to be done about it. There would seem to be little doubt that the Castle speech at Montreal was an act of diplomacy on the part of the United States, and it is probably safe to assume that further acts of the same kind may be expected in the future. However that may be, the United States was held up to the Canadian audience as a big boy who may be inclined to treat smaller boys a little bit rough at times, but who in reality is a soft-hearted chap who would not think of doing another nation any real harm. Indirectly, when the Canadian people a bit of a compliment by pointing out that they are the most part made up of two of the finest races in the world—the Anglo-Saxon and the French. On the other hand, the people of the United States, he admitted, are a somewhat mixed lot and consequently prohibition, and other summary laws are more necessary in that country than in Canada. It is seldom that an American speaker is so frank on this point. Undoubtedly prohibition in the United States was brought about

chiefly because of the terrible abuses created by the entrenched liquor interests, a situation being brought about in that country that had no parallel in Canada. It is just as certain that government control of liquor selling across the border would fall far short of being as effective as it is in Canada because it would inevitably become mixed up in politics. The knowledge that this would be so constitutes one of the strongest arguments in support of President Hoover's determination to effectively enforce the prohibition law if it is at all possible to do so.

SHOULD EXPLANATIONS BE NECESSARY?

In dealing with other causes of irritation, Mr. Castle was disposed to argue that the United States is greatly misunderstood and that occasional lapses on the part of her officials in dealing with citizens and other countries are played up in the newspapers, while no mention is made of the thousands of instances when courteous treatment is extended to foreigners. Some of the complaints, he said, were due to nothing more than officials partaking of breakfasts which do not agree with them. While it is true that the kind of breakfasts consumed by our American cousins are disconcerting to all but the best of stomachs, this is at best a rather thin excuse for some of the things which American officials do which tend to make Uncle Sam unpopular. Take, by way of illustration, the failure of the United States to extend courteous treatment to Tagore, the Indian philosopher, poet and mystic, winner of the Nobel prize on one occasion. This great native of India had the misfortune to temporarily mislay his passports. Did the officials with whom he had to deal wire an explanation to Washington? Did the U.S. State Department wave formalities on behalf of so distinguished a foreigner wishing to enter the United States? Nothing of the sort happened, although that is just what would have occurred in a British country in the event of a distinguished foreigner being in such a fix. Tagore was told that such a thing "simply isn't done" for anyone by the United States. "Nature has lost his temper" and a statement which would do Uncle Sam harm in every civilized country in the world. Then, in trade matters, the United States' attitude toward other nations is creating world-wide resentment. As the Vancouver Star recently remarked: "The American tariff policy is awfully self-centred; unqualifiedly self-interest is stamped all over its entire structure. If American commerce were confined solely to the needs of its domestic market, there would be no reasonable grounds for criticizing the policy, but the U.S. is not-foot after foreign trade, and the stimulation of which her keen business men are displaying their characteristic energy backed by ample resources and a great prestige. This one-sided policy has already produced its psychological effect in the minds of foreigners, and in every trading nation in the world there is a growing feeling of resentment that will eventually reduce American export business to those products only which can not be obtained elsewhere." The Star was not overstated the case. Until such time as Uncle Sam realizes the truth it will take more than smooth and pleasant speeches to turn back the tide of resentment felt in other countries.

MR. CAHAN FRANKLY OUTSPOKEN

Canadians generally should be pleased that Mr. Cahan's Washington remarks coincided with Mr. Castle's conciliatory statements in Montreal. There was need of a little plain speaking just at that time. Touching on the prohibition problem, Mr. Cahan did not hesitate to say that, in the opinion of the great majority of thinking Canadians, the United States exceeded her rights in the sinking of the "Im Albatross" even when allowance is made for the fact that the vessel was a rum-runner. In regard to the American request that Canada should forbid the clearance of liquor-laden vessels for the United States, Mr. Cahan made the same point that the writer of this column mentioned a week ago, to wit, that, were the international situation in regard to liquor reversed, our southern neighbor, judging by her general record, would not prohibit the sending of U.S. liquor to Canada. Mr. Cahan emphasized the argument by reminding the U.S. that when some prohibition laws prevailed in several Canadian provinces no one in Canada ever thought of suggesting that the American government should stop illicit export of liquor to Canada. It is not improbable that this is the real reason for Ottawa's refusal to date to stop liquor clearances, the government probably taking the view that Canada is doing all that can be expected under the circumstances in notifying American officials of cargoes leaving Canada and likely to be landed in American ports. This undoubtedly is of material assistance to the American officials. Nevertheless, our government would probably be well advised, both for political and moral reasons, to put a stop to this traffic. It would be the decent thing to do and it might help to make Uncle Sam a little more neighborly than he sometimes is. Mr. Cahan's viewpoint as expressed at Washington in regard to the proposed St. Lawrence Waterway improvement scheme and other matters, such as the tariff, will also be acceptable to a majority of Canadians. In regard to the waterway project he pointed out that Canada can ill afford to go in for so heavy an expenditure as is proposed without being forced to abandon other national development projects of equal merit. He suggested that the plan at present be confined to a development which would permit of the use of the Canadian canals between Prescott and Montreal, works which will be destroyed, although they have cost many millions, if the larger project is agreed to. This would cost only \$146,000,000 as compared with the eight hundred odd millions involved in the larger plan. It looks like a sensible proposal.

BRACKEN'S SKIRTS ARE CLEARED

Opposition charges against the Bracken government of Manitoba appear to have been founded upon a very slim basis judging from the report brought down by the Royal Commission of inquiry a few days ago; either that or the findings of the commission are in the nature of a thorough coat of whitewash. For the latter supposition, however, there does not appear to be much ground, the evidence submitted throughout the inquiry making it pretty clear that the assertions made by Col. Taylor, Opposition leader, to the effect that the government had benefited to the extent of \$50,000 in a power deal had no better basis than mere rumor. As a consequence of the exploitation of these rumors for political purposes the province will have to pay a bill of \$30,000. Perhaps it is worth that to find out that two members of the government had been foolish enough to invest in Winnipeg Electric Railway stock when the power deal was about to go through and thereby lost their portfolios. Apart from this development and the revelation that all political parties got campaign funds from the Winnipeg Electric Company, the inquiry proved to be a fiasco.

THE WIRELESS AGE

By G.R.E.

The similarity of the physical laws relating to light and radio is quite pronounced. Take the case of the law regulating the relative strength of light at its source and its distance. Light intensity decreases inversely as the square of the distance from its source. We have the same law applied to radio: "The signal strength decreases inversely as the square of the distance from its source." Probably this latter law is based on the premise that radio waves travel with the same speed as those of light, 186,000 odd miles per second. Radio waves are also subject to the laws of refraction and reflection as applied to light, but a physical analysis of light is much the easier of the two.

The latest combination of the two—that of their instantaneous use in the form of "Movietones"—is the newest scientific development to build up a new industry. Engineers should see the combination of "light and sound" instead of "light and radio," but as the projection of sound in its most complete form has not yet been accomplished by radio apparatus, do not think that "radio" as a scientific development should be denied the use of its name in the synchronous projection of light and sound. The difficulties of projecting light and sound in synchronous form to an audience is not as difficult as first getting them reproduced on a common projection medium.

One often meets with the question: "Why does the same program transmitted by various stations sound different?" Mainly because of the different frequencies of the same "band" (width) of audio frequencies. Although the original program transmitted to them over the land lines may incorporate sound frequencies up to 10,000 cycles, the frequency of 5,000, the station may cut this band down to its own idea of what sounds best, with the result one program may come to you with full-frequency "bass" and another be sadly missing in harmonies or full overtones.

Last year there seemed to be a craze among the manufacturers to produce sets that had a limited audio frequency characteristic with a result that the "booming" type of set seemed to predominate, because a cut-off filter was used that made "mimicment" of a soprano voice or even the necessary high frequencies in sound that make a voice or music clear and crisp. The manufacturers claimed that stations were not transmitting the high frequencies, so why properly amplify what was not there to amplify?

How about your radio license? Have you renewed it yet? Better drop the cost of your license a dollar bill, before the radio inspectors drop in on you and you drop \$7.50 on the magistrate's table.

This department has been asked to explain the cause and effect of the "blue glow" in the tubes that some set users have noticed. The following extracts from standard text books are given: "Radio Theory and Operating," by Dr. Mary T. Loomis, page 354-356: "If the vacuum in the tube is not good, and there is gas or air in the tube, ionization will take place. Ionization is brought about by collisions between the moving electrons and the atoms composing the gas and the consequent disruption of these atoms into negative electrons and positive ions. This causes an increased flow of current through the gas. While this was at first considered an advantage, it also caused annoyance by burning out the filaments, which could not withstand this excessive current. In extreme cases ionization is evidenced by a blue glow. The disruption and this shock to the filament causes an increased plate current, amounting to a tube flame, which is the cause of the blue glow."

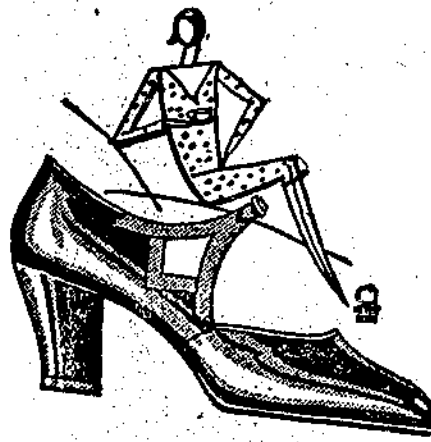

Prof. J. H. Morecroft in his "Principles of Radio Communication," page 470, states as follows: "Danger of a tube flame. Ionization—When a tube ionizes, the consequences resulting depend upon the type of the tube used and upon how quickly the condition is removed. In the case of a detecting tube, the state of ionization will generally stop the functioning of the tube. In the case of a power tube the case is different; unless the filament current is cut off, the potential is immediately reduced, the tube may be completely spoiled. Ionization practically never occurs in a tungsten filament tube because the high degree of vacuum is maintained. To care for this, a small piece of one of the volatile alkali metals is put in the tube during the process of assembly and, after the tube has been evacuated and sealed up, this is volatilized and condensed on the inner surface of the glass bulb, giving the latter its well-known silver appearance. This freshly-deposited metal is intended to absorb any appreciable gas which appears in the tube, absorbing the gas as fast as it appears. This 'getter,' as it is called, thus protects the filament surface from becoming contaminated by gas ions (poisoned), under which condition its emissive power would be much reduced."

VanDerslip, in Chapter V of his book on "The Vacuum Tube," says: "The tube goes into detail in the matter of the 'Influence of Gas on the Discharge.'" "Now as to the effects—they are principally of two kinds, resulting in a filament very quickly, due to excessive heat caused by an over-bombardment of electrons; and secondly, an increased plate current. In the former case, the operation of the tube ceases to be normal owing to the grid-bias being out of balance, and in the case of the latter, a power pack that will place a sudden rise in the "peak" value of current, "blow" a filter condenser, and the consequent short-circuiting of the plate output of the rectifier tube, this causing a further "back-firing" action on the rectifier tube and in all probability permanently spoiling it. If not completely so, it will be very short-lived."

The writer ran across a case a short time ago where a vacuum tube of the base of a power tube required the ordinary means of repair, but by adjusting the plate voltage will adjust this condition, though the writer cause being the pinning of the leads too close together at

DISPLAY AND SALE OF SHOES

See the exhibition of styles and values in our centre window Friday and Saturday. Our constant endeavor is to give Style, Fit and Good Wear at a reasonable price, and steady increase in shoe sales testifies to the fact that this is being accomplished.

Two Hundred Pairs of Ladies' Shoes are on Sale at Two Prices

\$2.95 and \$3.95
Shoes formerly priced at \$5.50 and \$8.00 are included, and all sizes are fairly well represented. Broken size ranges but good qualities and styles at an average of about half price.

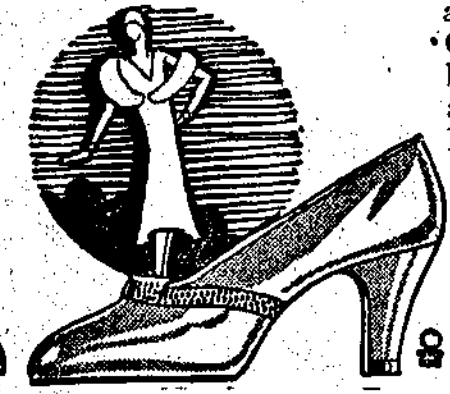

New Model Pumps with medium heels, in Patent, at \$4.95, \$5.75 and \$5.95

for Women, Misses and Children

Smart Strap styles in Black Kid, Brown Kid or Patent, at \$3.95 and \$4.50

Some excellent values at \$4.95 include Tan Calf Tie, fancy three-buttoned front in Kid and neat one-strap in Patent.

Murray's top grade One-straps and Ties in Patent for dressiest wear. Wonderful fit and quality. \$7.50 and \$7.75

Three Exceptional Values in Women's Hosiery

39c., 49c. and 69c.

Very trifling defects which cannot usually be detected, is the reason for these low prices. They come from the London Hosiery Mills, and these lines are splendid values at their regular prices.

AT 39c.—Fine Mercerized Lisle in the new season's light shades. All sizes to begin with on Friday morning.

AT 49c.—Fine quality Rayon Silk in a large range of the latest shades, including Honey Beige, Pearl Blush, Mirage, Sésan, Hoggar, Peach, Kasha Beige and Vanity. All sizes.

AT 69c.—A fine hose of Pure Thread Silk plaited with Art Silk. All sizes in a large assortment of the most desirable shades. This hose is a dollar value, looks like all pure silk and gives excellent wear.

The First of the Summer Hats

Moderate or large brims, in Mohairs, Crochets, etc. Attractive models which are distinctively for Summer wear. Although having the appearance of higher priced hats, they are at the two modest figures of \$3.95 and \$4.95

New "Long" Suits for Boys

\$11.50 - \$13.75

Snappy patterns in double-breasted style coat, vest and long trousers. Bring the boy in for a try-on as these Suits are correct as to style, fit and wearing qualities; the prices, too, are low.

Everything in Men's and Boys' SUMMER UNDERWEAR

Combinations at \$1.00

Various kinds include Naincheck, with or without buttons, sleeveless and knee length; Zimmerknit Balbriggan with short sleeves and knee length, or buttonless in sleeveless and knee length.

Zimmerknit Balbriggan with either short or long sleeves and ankle length. At \$1.25

Fine quality "Merino" in the light natural shade, with short sleeves and ankle length. \$1.25

Hatchway Naincheck, sleeveless and knee length, at this year's new low price of \$1.25

Fine quality Rayon Silk Combinations, sleeveless or knee length, Peach or White. Sizes 34 to 44, Special value, suit \$1.65

Many other lines of Summer Underwear Garments to fill every want.

PENTICTON, B.C.

CROP CONDITIONS IN VALLEY FROM MAY PROVINCIAL REPORT

Vernon District
Weather conditions since our last report have not been so conducive to growth. Wind and considerable drying winds, and frosts practically each night until April 24, with practically no precipitation. At the time of writing there is a light rain and our hopes are that this will continue for a considerable time. The soil everywhere is very dry and this is affecting the growth of all ground crops. Tree and bush fruits are now pushing their growth and orchards and sweet cherries are coming into bloom. Some orchardists are already applying water where this is available, and it is undoubtedly a wise course of action under present conditions.

and also the lettuce crop. There is an increase in acreage of lettuce in the Armstrong district.
Field crops—Growth in both hay and grain fields is very slow and unless the district gets some good rains within a short time, the crop will suffer. Grains are already beginning to show the effects of drought. Winter wheat is showing up very well considering the difficulties of this crop through the last winter and fall; some of the fields are showing a little patchiness but in general the stand is good. Alfalfa has apparently come through in most places and this crop is now making an active growth.
Up to this time there has been practically no run-off of water from the hills, but this will possibly change with the continuance of warm days and nights. There is a great deal of available amount of fertilizer used this spring both in orchards and for field crops, and by the end of this week spraying operations will be general throughout the district.
H. H. EVANS,
Asst. District Horticulturist.

Kelowna District
The weather has been very dry since the last report and a real good rain would be welcome, especially to the grain and hay crops. The past few days have been hot and the crops are pushing out their foliage rapidly. Apples and cherries are in full bloom. The onion acreage will show considerable increase over last year. Tobacco is practically all, and the tomato business is unsteady.
B. HOY,
Asst. District Horticulturist.
Penticton and Other Districts
Stone fruit bloom has been generally heavy, but apples and pears at this time appear to be lighter than last year.
In the Penticton district there is no winter injury apparent, while at Oliver and Osoyoos some frost injury has been found, but the extent of the damage cannot be determined at this time. The injury would appear to be in no way general.
The usual amount of dormant spraying has been done and orchard work generally is well in hand. Lambing is practically over, and where sheep have been carried through the winter they are reported in good lamb crop. The range lands are needing rain and warmer weather.
R. P. MURRAY,
Asst. District Horticulturist.

OKANOGAN FAIR PLAN ADVANCED

Something Doing on Land and Water During Week

Oroville—A called meeting of the fair board of the Okanagan Valley International Fair was held at the office of the secretary in Oroville on April 30 with the president of the board, P. V. Covert, presiding. Claim of the Union Title & Trust Co. for the fair ground site was allowed as was a claim of Miss Virgo for drawing maps of the grounds. The board also decided to accept the terms of the offer by the Washington Water Power Company for making a power and light

extension to the grounds. L. M. Norvell was appointed to take charge of arranging plans for the race course and buildings. According to the members of the board, it is planned to have one of the finest tracks in the state. The idea of lighting the entire track is under consideration that night races may be held.

A committee was named to outline a program which will be presented for the approval of the board at their next meeting. In speaking of some of the proposed features of this tentative program, one of the members said that it was planned to have something doing on land and water and in the air. The fair ground, which is on the shore of Lake Osoyoos, an international body of water, is ideal for such a program. It is the object of the committee, he said, to provide a program which will be worth travelling miles to see.

Victor Morgan, superintendent of the Oknak schools, was named to take charge of arrangements for the educational exhibits at the fair. In response to an invitation extended by the Oliver B.C. Board of Trade, a committee headed by Arthur Faind of Comstock met with

that body on May 8 to talk over the fair situation. The dates of the Okanagan Valley International Fair have been definitely set for September 5, 6 and 7. This will allow the assembling of exhibits for other parts of the province throughout Washington and Canada.

"Rollo's Wild Out" An Extraordinary Comedy
"Rollo's Wild Out" is the name of the highly amusing comedy which is the choice of the Players' Club of the University of British Columbia for its fourteenth annual performance, and which will be presented in the Ellison Hall on Friday evening, May 17. It is undoubtedly one of the most pleasing and popular plays which the Players' Club has offered for some time. It was very successfully produced in Vancouver, Berkeley, Cal., and in New York, where it ran for over two hundred nights with Roland Young as leading man. The interest of the play centres around the principal male role, which, in the Players' Club production is taken by Alfred Evans, one of the most talented actors the club has ever had. The play this year is particularly suitable for production by the University students because of the large number of very good role characters which give scope for the varied talents of the different members. The supporting cast is a strong one, and the variety of characters with their conflicting problems adds zest and interest to the evening's entertainment.
A variety of smart and prett costumes, and some very effective gags and chit-chat, such as would expect to find in a first-class summer home, combine to produce a series of colorful stage pictures.
The play is one of the most able dramas which the club has ever chosen. Its hilarious comic and dramatic situations ensure complete success under the club highly adequate standard of acting. It is given under the auspices of the high school and part of it proceeds will go to the hospital as part for school activities.
There has been a very good plot of work done on widening the Clutch road at the foot of the hill coming down from Mr. Jas. W. Smith's. This spot has been the scene of several accidents and the improvement is very acceptable.

So does nearly everybody else. Use them—they will more than pay their way.

Lowest Charge for An Ad., 25 Cents

WANTED—Chicken or fowl, any quantity. Highest market price paid. Write Birch Market, Penikese.

DE SALE—Baby chicks, with hen, three Island Reds and White Leghorns. Date of hatching, May 7, 8 and 15. Phone 901.

DR SALE—Leaving the district, five me an offer for house, screen, furniture, furnishings, tools, separator, chickens, 5 acres part crop 1. Phone 763.

RENT—E. N. Rowley cottage on each avenue. Apply W. C. Kelly.

DR SALE—Co-operative debenture and deduction stock, value \$449 for 100. Apply Box 1, c/o Review.

ANTED—A rowing boat in good condition, to rent or purchase. Mrs. Mat. Wilson.

ANTED—Bug, Box 18, c/o Review.

COMING EVENTS

There will be a meeting of the adow Valley Livestock Association on Tuesday, May 14, at the home of Mr. R. V. Agur at 8 p.m. interested are invited to attend.

The Hospital Bazaar will be held Ellison Hall on Thursday, May 16, starting at 2.30. Afternoon tea, 4 o'clock. Reeve O. G. and Hon. J. W. Jones will be in charge. Supper will be served from 9 to 9 p.m.

WATER BOARD ACCEPTS RATE FOR IRRIGATION

Penikese's Toll of \$12.50 Per Acre Confirmed For 1929

DEBATE ALLOWED IF SERVICE LIGHT

The provincial water board has affirmed an irrigation rate of 2.50 for the municipality of Penikese for the year 1929 in a decision on the application made by a council at the recent board session here.

In the board order irritable and tivable land is described as land which is capable of beneficial irrigation during the months of June, July and August.

It is provided that the corporation is to give an additional delivery point in case of subdivision of property, but on terms which the council may decide.

Where there is more than one delivery service for one piece of property the owner must pay the extra charge.

The council is given power to reduce the irrigation charge on irrigating land by any amount up to \$7.50 per acre.

It can be shown that any owner receiving less than his quota of water will be required to pay any amount up to \$5 per acre.

No owner may demand more than 2 1/2 acre feet of water. The corporation is to prepare roll showing the area of irritable and cultivable land.

The minimum irrigation charge on any one parcel, which may be an contiguous town lots, is \$4.

ELVIN E. PERKINS

Strictly Independent Tuner With 17 Years Service in the Okanagan

The only man ever working in the country endorsed by so high authorities as piano manufacturers, including Mr. G. Heintzman, the ad of Heintzman & Co., and others of highest authority, which is a positive guarantee of superior work on your piano, will 3 Summerland early in June and make his usual calls.

Sample of 9 Manufacturers' Testimonials

Whom It May Concern: This is to certify that Mr. A. Perkins, Piano Tuner, is authorized by us to look after our pianos, we consider him a competent and, and we are sure any piano set in his charge will receive the best attention. Tuning a piano is not a trifling piece of work if you have regard for your piano.

Respectfully, HEINTZMAN & CO., Toronto. Signed Mr. G. HEINTZMAN, 17-2-C

LOCAL HAPPENINGS

Mrs. Bolt went to Vancouver on Tuesday of this week.

Miss R. Harris returned from U.B.C. on Thursday's train.

Mr. and Mrs. Robt. Mitchell left for the Coast on Sunday last.

Mr. C. J. Gale came back from Chasse on Tuesday of this week.

Mr. Don. Ross has gone up to Sicamous to relieve the agent there.

The high school students and teachers went on a hike up to Kelley's mine Saturday last.

Mrs. Geo. Henry returned on Thursday morning from a visit to the Coast.

Mrs. Hamilton-Ramsey came in on Thursday's train to visit with Mrs. Young and Mr. C. E. Pineo.

All interested in the June 3rd celebration, meet in the Legion Hall at 8 p.m., Tuesday, May 14.

Prospects are now that the Tulip Show will be held on May 25 or 26. Last year was held on May 16, which shows that we are just one week behind last season.

Mr. K. S. Hogg and his brother, R. Hogg, of Peachland, were called to the Coast by the sudden death of their sister, Mrs. Alex. Ledingham. They returned on Thursday morning.

Mr. and Mrs. Robt. Arnott announce the engagement of their daughter, Mary Elizabeth, to Arthur Norman, eldest son of Mr. and Mrs. Geo. Carver. The marriage will take place on May 16.

The baseball boys have now a savdust diamond on the Central school grounds which offers a better playing spot than the small ones that were scattered over the ground, making it dangerous to players.

Mr. K. S. Hogg and his brother, R. Hogg, of Peachland, were called to the Coast by the sudden death of their sister, Mrs. Alex. Ledingham. They returned on Thursday morning.

Mr. Caple had a group of Tuxis Boys up to the Garnett Valley dam last week-end.

Miss E. M. Robb arrived from Wales on Monday and is with Mrs. W. R. Powell.

Capt. Creese was a visitor to Vancouver this week, going down by K.V.R. on Monday.

ed, might apply if the festival survived, and the following year was held at Vernon. Entrants might come to this city from Revelstoke, Sicamous, Salmon Arm and Kamloops and with the introduction of new blood a fresh impetus might be given a venture which appears to need it.

If the Okanagan Valley Musical Festival became a fact that it is in name a healthy rivalry might be invoked between the various centres as to which could give to it the best accommodation and setting, while attracting the highest quality and the greatest numbers in entrants and attendance.

To Kelowna people belongs the credit for the conception of the festival, first as a local and then as a valley event. In the four seasons it has lived, it has deepened the already wide interest in music. It is really going through the testing time, which comes to all events large or small which depend on public favor and patronage for their existence. The comparatively small coterie of Kelowna people who have been the mainstay are deserving of high praise, and they have even more if they prove wise enough to relinquish the personal grasp they have so far retained, and assist in guiding the venture out on the troubled waters of a truly Okanagan Valley event of a status given by its name, or will be lost sight of in the petty froth of inter-group or inter-city bickering and jealousies. In the event of the festival remaining where it was conceived and nurtured, it will become a Kelowna affair in short order.—Vernon News.

History of Shameful Vice Conditions Told by Witnesses Against Chief In Probe Now Underway at Kelowna

stitution, "Dope" Running and Bootlegging Alleged

PROVINCIAL POLICE AND UNIFORMS RAP THOMAS

d of City Force and Provincial Constable at Daggers Drawn

view readers of the following of the earlier portions of the rna police enquiry should keep ind, in justice to those "under at the probe, that this report, practice, and the defence has not en heard.

er in the history of Kelowna the city been so stirred as the recent investigation of the police department there in con with charges to the effect Chief Thomas was "tipping Chinese in connection with vice raids by provincial police and the "mounties" and as that he was receiving large of money to permit a continu of generalizing conditions in it.

Following report of some of sions is from the Kelowna: stigation of police affairs in y of Kelowna was authorized the Public Enquiries act by onor the Lieutenant-Govern- Council, who appointed Mr. V. Crease, K.C., of Victoria, ommissioner to inquire into the tions made by provincial con- ble Corrigan, of Kelowna, a members of the city police of Kelowna and into the ac- made by members of the city force of Kelowna against ble Corrigan.

H. W. Galbraith, of Vernon, gel for the commissioner; G. Norris is representing the Corrigan, Mr. V. Crease, as nel for Chief Constable R. nes, and Mr. J. F. Burne aring for the Kelowna police sioners and Kelowna city, ursor, Mr. Burne also repre- ad Mr. Constable Thomas, ras assuming the duties of l for the Kelowna police or- n Friday.

A statement signed by ex- ble George Chaplin, com- was made of interference he city police in city ter- of threats and vituper- ange being hurled at them able Corrigan meant just Mr. Chaplin also stated onstant Corrigan had deli- run into him with his car ad knocked him down while as a city policeman.

Police Commission-Strong for Law Mayor Sutherland, recalled to the witness box, stated that the accusations against the city police of which he was aware were mostly directed against the chief constable, alleging that "his hands were tied" because he could not get Thomas to act. Once, when Thomas was away, the witness stated that Chaplin went to the mayor and asked for permission to make a raid against Thomas.

Mr. Burne stated that the witness box, stated that the accusations against the city police of which he was aware were mostly directed against the chief constable, alleging that "his hands were tied" because he could not get Thomas to act. Once, when Thomas was away, the witness stated that Chaplin went to the mayor and asked for permission to make a raid against Thomas.

Sang had complained to witness that he was the only Chinaman in the city, but the condition in regard to Thomas and was therefore being annoyed by the city police. On another visit, two months later, Main Sang said to witness that he "now paid Thomas the rack."

In company with Constable Maxson, the witness said he visited Cook's pool room on Water street last year, in response to a number of complaints, and there found a bottle of beer, which was found to be adulterated. Because the arrest was made by provincial officers, Chief Thomas had told witness that the case would be referred to "give a black eye to the city police."

Found Nude Girl There In pursuit of a girl believed to be hiding in a cabin in the north end of town, witness stated that in March, 1927, on a Sunday morning at 10 o'clock, he took Constable Chaplin with him on a search of the cabins, and in one he found a girl aged 11 or 12 years alone with an Indian about 25 years of age. The girl was nude. No prosecution was made by the city police.

Questioned about the Wong She case, witness said that she was a prostitute and was arrested by himself and Maxson about June 1928, and charged with having opium in her possession. Following the arrest, a number of Chinamen called upon Thomas at his office, but Chief Thomas refused to make any statement that they had done so. Witness also told of a meeting of the Chinese with Mr. E. A. Lucas in the city police office, where the chief of Wong She was asked to sign a statement.

Witness said that Constable Chaplin had told him on a number of occasions that "his hands were tied" because he could not get Thomas to act. Once, when Thomas was away, the witness stated that Chaplin went to the mayor and asked for permission to make a raid against Thomas.

Before he left the box, subject to recall, witness stated that a great number of people in the city had sent complaints to him and asked him to enforce the law in cases where the city police refused to act.

Police Commission-Strong for Law Mayor Sutherland, recalled to the witness box, stated that the accusations against the city police of which he was aware were mostly directed against the chief constable, alleging that "his hands were tied" because he could not get Thomas to act.

Once, when Thomas was away, the witness stated that Chaplin went to the mayor and asked for permission to make a raid against Thomas.

Witness stated that he accompanied Constable Corrigan on the Main Street case, and that a Chinaman who was in the house with her, but found nothing until they were again outside the house, when a deck of opium was discovered. The witness said he had seen the board walk. Wong She was arrested, but later acquitted at the Vernon Assizes. Witness had seen considerable gambling going on from time to time in Chinatown, and from general observation believed that there was "not much police administration in the city of Kelowna."

Cross-examined by Mr. Craig, witness said that a lot of bootlegging was being carried on in Kelowna, and he had heard the opinion expressed that the city police were not doing much to stop it. He said that he had no personal knowledge of graft, however.

Kelowna Narcotic Centre The first witness on Tuesday morning was Detective Staff Sergeant G. O. Reid, of the Royal Canadian Mounted Police, K Division, Lechbridge, Alberta. Questioned by Mr. Craig, he stated that he had served from 1919 to 1928 in the interior, coming first to Grand Forks, after which he had received the information that Kelowna was distributing large quantities of narcotic drugs. He found the information to be correct, learning that drugs were being sent from Kelowna to Princeton, Keremees, Midland and logging camps near Sumnerland, with a few to a settlement near Nelson. As reports had reached his ears that the Kelowna chief of police was unreliable and likely to tip off Chinese, he had obtained authority to get two men to assist him in raids at Kelowna. The place of Leon Jip, near the Lee Sang Lung store, had been raided on one occasion when 24 quantities of drugs were seized, and a fine imposed, following conviction, of \$500. The raid had taken place on November 3, 1921, when he was assisted by Provincial Constable Corrigan.

On Monday morning Constable Corrigan was again recalled to the witness box. He said that prior to the Wong She preliminary hearing, two Chinamen, Charlie Ohu and Wong Yeung, came to his office and offered him from \$800 to \$900 if he would drop the charge against the opium pedlar. He had refused, but during the conversation that ensued he was given to understand that they handled the city police in the manner in which they had attempted to handle him.

Cross-examined by Mr. Craig, Constable Corrigan said that the first information he had received of alleged graft was in 1926, when he was at Vernon in 1926, when in conversation with several provincial policemen, it had been suggested that Thomas did nothing to stop prostitution or gambling in Kelowna, the reason being that he was paid to ignore it. Returning to Kelowna, he made no personal effort to check up on the accusations, and before the Wong She case he had not discussed it with any white man. After the Wong She case, he had taken steps generally to check up on the police work of Chief Thomas. On one occasion, Judge Swanson, one of the judges mentioned in general condition of police affairs in Kelowna, and witness thought that the judge intended to speak to the witness about a Chinaman, said the witness had some direct things run as he has without benefiting by it.

Had Not Seen Graft Reminded by Mr. Craig that this was a serious matter, witness said he had never seen Thomas accept graft. So far as he was aware, Chief Thomas had no car, did not drink or pay attention to fast women. Regarding the Wong She case, the circumstances led him to believe that the city police had tipped off the dope pedlar. Witness confirmed his statements given previously with regard to the case on and the city incident at the City Park cases in which Chief Thomas had failed to act. Referring to a raid made in 1927 on the Main Sang premises, accompanied by Constable Chaplin, he said that although they were in search of dope, they were told that a prostitute was kept there. Main Sang had once told him that the Chinamen were paying graft money to Chief Thomas, and he had never seen anything to confirm this. He had never seen anything to confirm this.

Mr. Burne asked witness if any of the cases had ever been advised by witness of his knowledge of the conditions, to which witness replied that he had never volunteered information to the city as it was not his business to do so. Had he really approached him, however, he felt that the inquiry could have been advised.

Questioned by Mr. Galbraith, witness said that Chinese restaurants were not popular in Kelowna, because drinking was allowed on the premises, as was not the case in white restaurants. He thought there was no attempt being made in the city to enforce the law. The laxity of the city police had been brought to his attention from time to time, but he could not get into it in all cases. Asked to name those from whom complaints had been received, he said that Messrs. Jim Bowes, Foot and Crookes were among those who, failing to get satisfaction from the city police, had applied to him for aid. Mr. Bowes, a Japanese, had once complained to witness that a woman in Chinatown had stolen money from him and that, upon application to the city police, he had been refused assistance. Witness referred to evidence of Provincial Constable Maxson.

Constable W. R. Maxson, provincial policeman stationed at Kelowna, was called to the witness box. He said that he had been a police officer since 1926, working under Constable Corrigan, with whom he got along very well. Under examination by Mr. Burne, witness said that he had had a telephone message from Mori last year, who wanted him to go to the Main Sang premises to recover a sum of money that had been stolen by a prostitute. Witness referred to what he had been to the city police twice and they would not act. Witness said Mori in a last office, procured a search warrant from Mr. Waddell, and proceeded to Main Sang's store. He rapped upon the door and, following an interval of a few minutes, Blanche Bailey, a prostitute, answered. Finding an entrance through another door, he arrested the woman. Before taking her to jail, however, Main Sang appeared and "wanted to square it

with a roll of bills." He refused the bribe and the sum of \$100 was paid by Charlie Chu, presumably on behalf of Main Sang. Witness stated that he accompanied Constable Corrigan on the Main Street case, and that a Chinaman who was in the house with her, but found nothing until they were again outside the house, when a deck of opium was discovered. The witness said he had seen the board walk. Wong She was arrested, but later acquitted at the Vernon Assizes. Witness had seen considerable gambling going on from time to time in Chinatown, and from general observation believed that there was "not much police administration in the city of Kelowna."

Asked to name those from whom complaints had been received, he said that Messrs. Jim Bowes, Foot and Crookes were among those who, failing to get satisfaction from the city police, had applied to him for aid. Mr. Bowes, a Japanese, had once complained to witness that a woman in Chinatown had stolen money from him and that, upon application to the city police, he had been refused assistance. Witness referred to evidence of Provincial Constable Maxson.

Constable W. R. Maxson, provincial policeman stationed at Kelowna, was called to the witness box. He said that he had been a police officer since 1926, working under Constable Corrigan, with whom he got along very well. Under examination by Mr. Burne, witness said that he had had a telephone message from Mori last year, who wanted him to go to the Main Sang premises to recover a sum of money that had been stolen by a prostitute. Witness referred to what he had been to the city police twice and they would not act. Witness said Mori in a last office, procured a search warrant from Mr. Waddell, and proceeded to Main Sang's store. He rapped upon the door and, following an interval of a few minutes, Blanche Bailey, a prostitute, answered. Finding an entrance through another door, he arrested the woman. Before taking her to jail, however, Main Sang appeared and "wanted to square it

with a roll of bills." He refused the bribe and the sum of \$100 was paid by Charlie Chu, presumably on behalf of Main Sang. Witness stated that he accompanied Constable Corrigan on the Main Street case, and that a Chinaman who was in the house with her, but found nothing until they were again outside the house, when a deck of opium was discovered. The witness said he had seen the board walk. Wong She was arrested, but later acquitted at the Vernon Assizes. Witness had seen considerable gambling going on from time to time in Chinatown, and from general observation believed that there was "not much police administration in the city of Kelowna."

Cross-examined by Mr. Craig, witness said that a lot of bootlegging was being carried on in Kelowna, and he had heard the opinion expressed that the city police were not doing much to stop it. He said that he had no personal knowledge of graft, however.

Kelowna Narcotic Centre The first witness on Tuesday morning was Detective Staff Sergeant G. O. Reid, of the Royal Canadian Mounted Police, K Division, Lechbridge, Alberta. Questioned by Mr. Craig, he stated that he had served from 1919 to 1928 in the interior, coming first to Grand Forks, after which he had received the information that Kelowna was distributing large quantities of narcotic drugs. He found the information to be correct, learning that drugs were being sent from Kelowna to Princeton, Keremees, Midland and logging camps near Sumnerland, with a few to a settlement near Nelson. As reports had reached his ears that the Kelowna chief of police was unreliable and likely to tip off Chinese, he had obtained authority to get two men to assist him in raids at Kelowna. The place of Leon Jip, near the Lee Sang Lung store, had been raided on one occasion when 24 quantities of drugs were seized, and a fine imposed, following conviction, of \$500. The raid had taken place on November 3, 1921, when he was assisted by Provincial Constable Corrigan.

On Monday morning Constable Corrigan was again recalled to the witness box. He said that prior to the Wong She preliminary hearing, two Chinamen, Charlie Ohu and Wong Yeung, came to his office and offered him from \$800 to \$900 if he would drop the charge against the opium pedlar. He had refused, but during the conversation that ensued he was given to understand that they handled the city police in the manner in which they had attempted to handle him.

Cross-examined by Mr. Craig, Constable Corrigan said that the first information he had received of alleged graft was in 1926, when he was at Vernon in 1926, when in conversation with several provincial policemen, it had been suggested that Thomas did nothing to stop prostitution or gambling in Kelowna, the reason being that he was paid to ignore it. Returning to Kelowna, he made no personal effort to check up on the accusations, and before the Wong She case he had not discussed it with any white man. After the Wong She case, he had taken steps generally to check up on the police work of Chief Thomas. On one occasion, Judge Swanson, one of the judges mentioned in general condition of police affairs in Kelowna, and witness thought that the judge intended to speak to the witness about a Chinaman, said the witness had some direct things run as he has without benefiting by it.

Witness stated that he accompanied Constable Corrigan on the Main Street case, and that a Chinaman who was in the house with her, but found nothing until they were again outside the house, when a deck of opium was discovered. The witness said he had seen the board walk. Wong She was arrested, but later acquitted at the Vernon Assizes. Witness had seen considerable gambling going on from time to time in Chinatown, and from general observation believed that there was "not much police administration in the city of Kelowna."

Cross-examined by Mr. Craig, witness said that a lot of bootlegging was being carried on in Kelowna, and he had heard the opinion expressed that the city police were not doing much to stop it. He said that he had no personal knowledge of graft, however.

The raid had taken place on November 3, 1921, when he was assisted by Provincial Constable Corrigan.

On Monday morning Constable Corrigan was again recalled to the witness box. He said that prior to the Wong She preliminary hearing, two Chinamen, Charlie Ohu and Wong Yeung, came to his office and offered him from \$800 to \$900 if he would drop the charge against the opium pedlar. He had refused, but during the conversation that ensued he was given to understand that they handled the city police in the manner in which they had attempted to handle him.

Cross-examined by Mr. Craig, Constable Corrigan said that the first information he had received of alleged graft was in 1926, when he was at Vernon in 1926, when in conversation with several provincial policemen, it had been suggested that Thomas did nothing to stop prostitution or gambling in Kelowna, the reason being that he was paid to ignore it. Returning to Kelowna, he made no personal effort to check up on the accusations, and before the Wong She case he had not discussed it with any white man. After the Wong She case, he had taken steps generally to check up on the police work of Chief Thomas. On one occasion, Judge Swanson, one of the judges mentioned in general condition of police affairs in Kelowna, and witness thought that the judge intended to speak to the witness about a Chinaman, said the witness had some direct things run as he has without benefiting by it.

Had Not Seen Graft Reminded by Mr. Craig that this was a serious matter, witness said he had never seen Thomas accept graft. So far as he was aware, Chief Thomas had no car, did not drink or pay attention to fast women. Regarding the Wong She case, the circumstances led him to believe that the city police had tipped off the dope pedlar. Witness confirmed his statements given previously with regard to the case on and the city incident at the City Park cases in which Chief Thomas had failed to act. Referring to a raid made in 1927 on the Main Sang premises, accompanied by Constable Chaplin, he said that although they were in search of dope, they were told that a prostitute was kept there. Main Sang had once told him that the Chinamen were paying graft money to Chief Thomas, and he had never seen anything to confirm this. He had never seen anything to confirm this.

Mr. Burne asked witness if any of the cases had ever been advised by witness of his knowledge of the conditions, to which witness replied that he had never volunteered information to the city as it was not his business to do so. Had he really approached him, however, he felt that the inquiry could have been advised.

Questioned by Mr. Galbraith, witness said that Chinese restaurants were not popular in Kelowna, because drinking was allowed on the premises, as was not the case in white restaurants. He thought there was no attempt being made in the city to enforce the law. The laxity of the city police had been brought to his attention from time to time, but he could not get into it in all cases. Asked to name those from whom complaints had been received, he said that Messrs. Jim Bowes, Foot and Crookes were among those who, failing to get satisfaction from the city police, had applied to him for aid. Mr. Bowes, a Japanese, had once complained to witness that a woman in Chinatown had stolen money from him and that, upon application to the city police, he had been refused assistance. Witness referred to evidence of Provincial Constable Maxson.

the time had seen them go in, and this mere child, who should have been protected by the police, had not been started on a career that had made her notorious. Thomas and Chaplin did nothing in this case, but Corrigan eventually arrested them and was instrumental in having them sent to an industrial home.

Convictions Decrease Witness produced a list of Chinese convictions, showing the number of convictions in the city police court since 1914 as compiled from the police records. From 1914 to 1928, inclusive, it was shown that 132 convictions had been obtained on charges of opium dealing, disorderly houses, etc., while from 1919 to 1928, inclusive, there had been only 19, and one of the latter, the only conviction in 1928, was a fine imposed on a Chinaman for riding a bicycle on the sidewalk. He cited other incidents of industry in recent years, and said that "talk has increased, but charges have decreased."

Cross-examined by Mr. Craig, witness said that his actual knowledge of conditions concerning gambling principally, and he was aware that the provincial police made successful raids. He had not been on good terms with Thomas since the time of the Vernon letter incident, he admitted. He said that in 1920 Provincial Constable Graham had arrested some Indians for being in an intoxicated condition, but Thomas had let them off when no one was around. Constable Graham, with whom he shared an office, had told witness that he knew Thomas was getting money from the Chinese, and Constable McDonald had turned a blind eye to it. He had direct evidence, however, said witness, Chinamen were the most direct evidence, but they would not tell the truth. In this police record, he said, he had seen evidence, but he should have been charged, brought up and possibly convicted.

His relations with Graham when he had shared an office with him in the city had to be desired, witness said. Pentecost, a provincial policeman who had been decidedly friendly with Thomas, witness described as pompous and "impossible."

Judge Informed the Mayor Questioned by Mr. Burne, witness said that he had never been informed the Mayor of complaints that had been brought to the attention of the judge. Witness had also spoken to the Mayor about the conditions in Kelowna, but he had not told Dr. Wright, then police commissioner, of the state of affairs as he saw them. In reply to questions put by Mr. Galbraith, witness said that he had no confidence in Kelowna police administration due to negligence on the part of the Chief. Chinatown had a population of about 600, he said, more than double the population of 1914. About a year ago he had looked over the premises of the Royal Hotel, and he had found a veritable pig den. He thought that if gambling could not be suppressed entirely it could at least be controlled.

Mr. D. Leetle, well-known Kelowna hardware man, former police commissioner and councillor, said that he had had no confidence in him as an officer of the law. He said he had been told that sums running up to \$450 per month had been paid to Thomas for "special" favors. He had been the talk of the town, he declared, and referred at some length to his activity in the last civic election in order to clean things up.

W. T. Crookes, former Penelind constable, gave evidence that he

had failed to get satisfaction from Thomas in connection with a case. J. W. Thompson told of being informed by a Chinaman that "hush" money had been paid to the Chief. He said that Thomas formerly lived in China. Reference was made by one of the witnesses, Mr. Leetle, to the fact that at a time when the Chief was receiving \$150 per month salary he spent \$5,000 on improving the grounds of his home.

Witness produced a list of Chinese convictions, showing the number of convictions in the city police court since 1914 as compiled from the police records. From 1914 to 1928, inclusive, it was shown that 132 convictions had been obtained on charges of opium dealing, disorderly houses, etc., while from 1919 to 1928, inclusive, there had been only 19, and one of the latter, the only conviction in 1928, was a fine imposed on a Chinaman for riding a bicycle on the sidewalk. THE SUMMERLAND REVIEW

(Published at Summerland, B.C.)

HON. J. W. JONES HELPS HOSPITAL

Summerland sincerely appreciates, and especially so at this time, the work of Hon. J. W. Jones in securing the \$1,000 grant for the hospital, which donation was announced yesterday at the Hospital Bazaar.

It was a most timely gift and one which will lighten the work of the Hospital Board materially. The Board has put a generous amount of time upon the institution's affairs this year, and the members have many times met with difficulties that were of a very serious nature in financing, and for that reason they will appreciate the assistance this donation will be.

Summerland as a whole values its hospital highly, and recognizes the great benefit it is to the community, and has always found the necessary funds to keep it available for treatment of those who are in need of its assistance. For that reason it will value this gift which came at such a timely occasion—Hospital Week.

EMPIRE SHOPPING WEEK IN CANADA MAY 23 TO JUNE 1

Some facts about the Empire Shopping Week in Canada, 1928:

The "Week" elicited support and encouragement among all types of people, from His Royal Highness, the Prince of Wales, to the humblest schoolboy in Canada.

One hundred and forty-seven cities, towns and villages comprising a population of over 3,000,000 people, participated in the "Week's" activities on a definitely organized scale. Every other municipality received and used the literature and retail trade aids.

Unique combinations of merchandising and good fellowship took place in a number of cities and towns where friendly storekeepers lent their show windows for displays of their fellow-merchants' goods, and in some cases to create an exhibition of the manufactured products of the town on the main street.

In at least twenty places, "Made in Canada" shows, some lasting the whole Week, formed an integral part of Empire Shopping Week.

Women's clothing manufacturers put on style shows and demonstrations and hundreds of other manufacturers made special advertising and window displays to capitalize on the decidedly preferential air in which the Week was held.

One hundred and fifty thousand window streamers bearing the words "Empire Buyers are Empire Builders" were distributed throughout the retail trade and arrangements were made for their use.

Fifty thousand illustrated broadsides accompanying the streamers were sent direct to and used by retailers.

Thousands of retailers, departmental and chain stores supplemented these streamers by cards, decorations, etc., at their own cost and by special window displays.

Hundreds of national and local advertisers used special space on the approach of and during the "Week" lining up their own merchandising activity with the Empire publicity crest and motto.

Hundreds of newspapers had editorials, news comments, references and local advertisements on many of their pages. Scores of them had special supplements, sections or pages featuring a four column specially prepared article and interspersed with Shopping Week advertising.

The organized municipalities were fairly evenly distributed from White Horse in the Yukon District, Prince Rupert, Victoria, and Vancouver, B.C., to Charlottetown, P.E.I., Chicoutimi, Que., Bathurst, N.B., and Halifax, N.S.

Scores of mayors or other city fathers actively interested themselves in the movement and shared in the inauguration ceremonies.

Hundreds of women's organizations at luncheon, tea and regular meetings heard addresses on the objects of Empire Shopping Week and reports and comments were made in all their organization publications.

Thousands of public and secondary school pupils wrote essays based on the romantic and historical material supplied by the Executive Committee. Many of these were reproduced in local papers and prizes were awarded by local people for the best essays.

Scores of cities, towns and villages turned the "Week" into a gala occasion with band concerts, parades, special decorations and illuminations, guessing contests, entertainments, etc.

Canadian, Empire and Service Clubs in many municipalities gladly heard the news about the "Week" and many of their members rendered yeoman service on local committees.

Many hotels and restaurants put on special Empire and Canadian menus for luncheons, teas, dinners, etc., and used the crest and motto on their menu cards.

Film trailers with specially composed inspirational wording and the Patron's gracious and thoughtful opening message were freely used in many large picture houses.

Numerous meetings of teachers attending annual gatherings of educational associations cordially received Empire Shopping Week speakers.

Premiers and Cabinet Ministers used the radio freely to broadcast addresses on subjects related to Empire Shopping Week.

The local chairman's report from a western city recounting simply their organization and the work carried on covered four pages of print in the Executive Committee's report.

A large fraction of the matter published in newspapers was in the form of editorials endorsing the movement proclaiming its economic value to Canada, and urging the steady maintenance of the policy, daily, weekly, and year by year.

The design of special posters and decorations for the "Week" formed part of the regular school work in a number of art and technical schools.

Numerous local arrangements were made with several picture theatres to show Canadian and British films. Invitations to attend were accepted by many interested people.

It was clearly evident from general press reports that Empire Shopping Week in Canada proved to be the greatest factor in years in stimulating Empire Shopping and the Produced-in-Canada idea.

One more brief picture is appended outlining what happened in a village in Manitoba where the residents are staunch Canadians and citizens of the Empire, though scarcely any are of British stock. The little letter below gives a graphic description.

The photograph mentioned shows a fine decorative scheme, developed by the use of splendid posters bearing the motto: "Empire Buyers are Empire Builders"; Buy Empire Goods from Home and Overseas, several fine reproductions of the Union Jack supplemented by Produced-in-Canada streamers and others reading "Buy Made in Manitoba Products."

Here is the report, as written by the local Empire Shopping Week Secretary:

"In reply to your letter of the 23rd of April, asking for a brief report as to the events of Shopping Week in our town, I wish to give you an idea

although it is not anything to brag about.

"As has already been mentioned in one of my previous letters, we were to have a business men's entertainment just the night before the opening of this Shopping Week. I enclose a programme of it showing the members taking part in the affair.

"The entertainment turned out to be a real success. Our hall was filled to the limit. The performers did their work well to entertain the public and at the same time advertised their goods, especially those made in Canada.

"The streamers and other advertising matter you sent us helped a great deal towards getting the public to understand what we were driving at. The streamers and posters you supplied we used to decorate the stage, as you will see on the picture which I enclose herewith.

"Our show windows were decorated all over town with the streamers you sent us in the envelopes. Also products of Canadian make were displayed during the Week. Even the farmers were interested in the affair and learnt that our country is really doing something they were not aware of before. And I am sure that the people of this community will not so soon forget the lesson they have learnt.

"The idea of co-operative spirit between the merchants has certainly been improved, for our merchants took real interest in this affair and showed it by attending the meetings previous to the Shopping Week very attentively, and even went as far as to close the Week with a banquet by the Board of Trade. This banquet showed real community spirit between the merchants more than ever before, and as a board of trade we feel ourselves linked up with the wide Dominion, and wish to express our thanks for the help you have given us in order to make this Week what we managed to make it."

Your hearty support and that alone remains as the essential factor in causing "Empire Shopping Week in Canada" 1929, greatly to exceed 1928.

THE KELOWNA ENQUIRY

Kelowna seems to be in the midst of house-cleaning or of washing dirty clothes or something of the sort.

Testimony given by witnesses in the police investigation now being conducted there by a provincial government commissioner points to a very undesirable situation, with regard to vice in the Orchard City.

But the people of Kelowna are to be congratulated upon their courage and good sense in seeking a definite and comprehensive enquiry into the conditions which have created so much rumor during the past year or two. While the present odor is decidedly unpleasant, the airing and clean-up will be beneficial.

Kelowna people need not worry about undesirable publicity. People today know well enough that vice lies everywhere, scarce covered, feeding at the roots of society, and Kelowna is only doing what a lot of other communities might well adopt for themselves.

It comes as a shock to read the testimony of witnesses at the probe with regard to narcotics traffic, prostitution and other evils in the beautiful Okanagan city by the lake. But better let us know these things now than to wander along in a state of fancied holiness and security. No doubt if it can be shown that pollution exists and that the law is not being effectively carried out at Kelowna, the authorities of that city will take prompt steps to remedy matters. We have full confidence in Mayor Sutherland and his colleagues in that regard.

And while we read testimony telling of alleged graft and other evils let us remember that this account does not cover the whole enquiry. The defence has yet to be heard. We should not judge the Kelowna chief of police until he has been given an opportunity to present his side of the case.

World of Politics

(By an Ex-Writer of the Ottawa Press Gallery.)

The framers of the United States tariff bill now being considered by Congress claim that it is based upon facts obtained relative to the state of the various industries affected by the increases and that political and other considerations do not enter into the matter. It does not require much study of the tariff bill to convince one that there is much truth back of this assertion and likewise a good deal of common sense. The U.S. tariff sinks the duties on observed, did not necessarily increase the duties on commodities which are not imported in large quantities to the detriment of the American producers. They refrained from putting up the duties on fruit grown in temperate zones for the reason that imports of these fruits from Canada and other countries are negligible and do not constitute a menace to the American growers. That being so they withheld action in the interests of the consuming public. When it came to consideration of dairy products, however, the tariff builders ascertained that during last year the United States imported from Canada 300,000,000 pounds of milk and cream of a total value of \$97,000,000. Practically all of this was sent across the border by Ontario and Quebec farmers. We must admit that these figures are stupendous and that it is easy to understand why the United States farmers demanded relief. It is also easy to understand why it was granted, much as we must regret the severe blow the doubling of the duties will give to the farming interests of Eastern Canada. Then again there is some excuse, although less than in the case of milk and cream, for the increase in the duties on cedar shingles in view of the fact that these enter the United States from this province in large quantities. American producers protested, just as Canadian producers and similar circumstances, and they were met with a refusal to reduce the duties. The fact that Canadian industries will be hurt is regrettable but it cannot be gainsaid that the Americans in stiffening their tariff wall here and there did so more with the desire of helping home industries than to aim an unfriendly blow at Canada.

CANADA COULD DO LIKEWISE From the standpoint of the welfare of Canada it is to be regretted that there probably exists at Ottawa at the present moment a lack of inclination on the part of the Government to base tariff action in behalf of Canadian industries upon easily ascertainable facts. Unfortunately for this country, political exigencies constitute the governing factor in the Canadian tariff situation. The Government knows, just as Uncle Sam knows, that certain industries are feeling the effects of foreign competition. There is no doubt whatever that the fruit, vegetable and poultry industries of the Dominion are suffering just as severely from American importations as are the industries of the United States. Possibly there is not much Canadian competition. The Government can do to help the dairying interests of the East and the lumbering industry of British Columbia, but it could do much to maintain the economic equilibrium of the country by aiding industries that could be helped by tariff increases of a permanent or emergency nature. Possibly the very best illustration of this assertion is the present situation in regard to eggs. The United States duty on eggs was boosted by the present Canadian duty from eight to ten cents a dozen. With this low tariff the governing factor in egg prices in Canada this spring has been the price in Chicago, where an enormous accumulation of cold storage supplies forced values down below cost of production. The Western Canada Egg Pool has applied for an increase in the tariff to nine cents per dozen. Were this request to be granted, the poultry industry of Canada would be placed upon a profitable footing. We are all so

OVERHEARD IN MY ORCHARD An Imaginary Conversation Between Interesting Characters

Although I call myself an orchardist I most certainly belong to the amateur branch of that calling. It is a pleasure to watch the apples grow and to leave all the labor that precedes the gathering of the ripened fruit to those who understand such minor details. But there are certain jobs about an orchard that very shame compels one to do one's self, such as clearing up the untidy mess left behind them by the pruners, scraping out some time to discover a reasonably good way of disposing of the irrigation water, when there is any, has to run, and some others. On a sunny and decidedly warm afternoon recently I had been occupied for an hour or two in the usual way of looking after the small ditches, and feeling very virtuous in consequence, and also very hot. I decided to call it a day, and looked about for a shady spot where to rest. That was not easy to find, for the people who come in once a year with a horse, a barrel and a huge squirt had performed their smelly and (as I now think) totally unnecessary task that morning, and left the orchard reeking and dripping with liquid sulphur and other odiferous compounds. After hunting around for some time I discovered a reasonably dry spot under a big Gravenstein and seated myself in comfort under its leafy shade. My pipe and prepared for a siesta.

Classical lore tells us of an ancient mythical personage called Tityrus, who seems to have had much in common with me. He too, had an orchard and he, too, much preferred taking his ease under the shade of a tree while other people performed the multifarious tasks well acquainted with the tariff situation relative to fruit that it is unnecessary to enlarge upon the sub-sequent could restore to Canada the damage that will be done the drying and lumbering industries by acceding to the request of the fruit growers for an emergency tariff to prevent damage. Assuming that nothing is done at Ottawa before the House rises relative to the tariff, the situation will be that Uncle Sam has repaired the leaks in his tariff walls through which foreign importations have poured in to the injury of American producers, while Canada has adopted a passive attitude quite regardless of the welfare of the producers and the country at large. It is hard to believe that our Government and Parliament will do nothing whatever to mend the leaks in the Canadian tariff wall although there is not telling what will happen in a Parliament largely controlled by low tariff members who would cheerfully sacrifice worth-while Canadian industries to save their free trade theories. In his speech on the budget, Premier Mackenzie King said that the situation which the Government would have to face when the new U.S. tariff was announced would be met by "cool-headed action." No one can object to cool-headed action, providing that it is sensible and effectively remedial in purpose. What many Canadians friendly to the administration will regret and unequivocally condemn is fool-headed inaction. Let us hope our Government will not merit such condemnation.

It is over for a year at any rate." "I am sure, Mrs. Woolley-Hayphiz, that such a family as yours you have every cause for anxiety. It was over fifteen thousand you had last time, wasn't it. Quite a record! But a great responsibility, too, which one reflects how dependent one is on regular spraying with plenty of the important ingredients. My husband was saying this morning, after the sprayers had done our vine that he believes that nature's beneficent dew on the meadows who makes these sprays has cut down the proportion of sulphur and put in more lime to save expense. Much to be said about the needs of the insect population. So dishonest! And he the son of a man justly famed throughout this province for downright honesty! But, dear Mrs. Hayphiz, is it true that I'll have here that you are again expecting—?"

Here the voices sank to a whisper and I heard no more for a few minutes. Presently they became again "Hospital? O dear no, Mrs. Borer. I never go there. I much prefer the old home in this tree and my own family doctor and nurse. With families so large as mine and the regular every year, hospitals are no use to me. Why, in the maternity ward in that place over there I believe they have only eight of those little iron baskets, fixed up in the nursery. You know those things they get the babies all mixed up in and have to keep sorting them out. And I shouldn't be surprised if it were twenty thousand next time. But I have no anxiety so long as the spray is regular and made of the best and purest materials. Well, I do declare, if that isn't old Mr. Codlin-Moth I do hope he is coming here. Yes, he has'nt you? Come on, Mr. Borer. He often drops in of an afternoon and tastes my black leaf tea. We still have a few bottles left over from last year's spray. Good afternoon, Mr. Codlin-Moth. Come on, Mr. Borer. You know Mrs. Peachy-Borer, don't you? Here's Jane with the tea right off the hob, and I know you loved my tea."

"Yes, indeed, Mrs. Hayphiz, Mrs. Codlin says nobody makes a cure of black leaf forty like you, and there is nothing so refreshing and invigorating on a hot afternoon. Bordeaux mixture and arsenate of lead are all very well, but they seem for driving away that tired feeling and putting new life into an old insect like me. And then it is so good for young people, too. I feel tonic if taken just after a meal. Ah me! Never shall I forget that dreadful year when the mean-spirited tightwad who owns this place refused to have any spraying done at all—didn't like the noise and the smell, he said—and I lost 375 great-great-children in the epidemic that followed. We had serious thoughts of moving into the next orchard, where the owner sprays regularly three times in the summer, but I couldn't persuade Mrs. Codlin to desert the old tree where our family have lived so many generations. But Jane seems to me to have a penny whistle or some other musical instrument with which Tityrus beguiled his leisure hours while taking his ease under his favorite beech. I suddenly discovered a new way of something usually happens in the trees above. Tiny voices made themselves heard, coming from the bough immediately over my head. They were faint but perfectly distinct, and except when one of the speakers dropped his or her voice to a whisper I could hear every word. Evidently there was an interesting and animated conversation going on and I listened with all my ears. This is what I heard:

"Yes, Mrs. Peachy-Borer, I'm so glad you dropped in this afternoon. All the girls are out and I was feeling rather lonely. The boys are in a good way, hasn't it? I was getting quite afraid the poor fish who owns this place was going to cut out the spraying this year, but this morning was all the while ready and the girls have bottled a good year's supply of limo-sulphur. Some of the children were looking rather anaemic, and I was getting quite afraid of tubercles among the lot last but two, but now all anx-

incidental to the growing of fruit. I feel that I am much in sympathy with the ease-loving Tityrus. I leaned back against my tree and pulled my cap over my eyes, the line in which Virgil introduces this worthy to his readers came into my head. "Tityrus, tu patula recubans sub tegmine fagi."

While repeating this line over and over again, and trying to remember what followed, and whether it was a penny whistle or some other musical instrument with which Tityrus beguiled his leisure hours while taking his ease under his favorite beech, I suddenly discovered a new way of something usually happens in the trees above. Tiny voices made themselves heard, coming from the bough immediately over my head. They were faint but perfectly distinct, and except when one of the speakers dropped his or her voice to a whisper I could hear every word. Evidently there was an interesting and animated conversation going on and I listened with all my ears. This is what I heard:

It cannot truthfully be said that the score or more of press correspondents who are serving Canadian newspapers in London have been in the recent despatches to draw their own lights on the election in Great Britain. They are one and all just as much at sea as ever as to the probable outcome of the contest which will see millions of additional voters go to the polls, including five million women. Conservative claims of a majority of fifty, or thereabouts, in the next Parliament seem to be based upon hope rather than conviction. Labor is even less likely to secure a working majority. The best guess seems to lie between a Conservative majority so small as to be unsafe in the House of over six hundred members and a complete political deadlock with Lloyd George holding the scales.

Further Drastic Reductions on Ladies' Coats. Every coat has been reduced in price greatly in an effort to clear every one of them. There are still forty left to choose from, and each coat is a great bargain. See these on Friday morning if possible. 'Gold Dollar' PURE SILK HOSE \$1.00. Very fine gauge pure thread silk in a wide range of the season's most popular shades. This Hose is an outstanding value at \$1.00.

Everything in Summer Underwear for Summer Comfort. GREY FLANNEL TROUSERS \$3.75. All sizes up to 42 waist, in a good quality cloth of medium Grey shade.

NICHOLLS DEPARTMENT STORE. him with a look, but he only laughed and said, 'Well, ta-ta, die-lee and all that sort of thing, don't you know, eh wina-ah?' And off he went, grinning like a sick monkey. But about Araminta, I know from past experience that it was useless to object, and merely suggested mildly that she should be home by ten at latest. 'Gosh,' said Araminta, 'it won't have to be by then. And would you believe it? The mixx strolled in at breakfast time next morning as un-concerned as you please. Said she and Tony had been for a ride in his car after the dance, and that he had a flask of kerosene emulsion with him which they finished before they got back. I noticed a distinct odor of kerosene as soon as she came into the room. Fathers seem to have no control over their children in these days.' 'Nor mothers either,' said Mrs. Borer. 'What with cigarettes, varnishes, hair-creams, mixtures, cocktails, joy-rides and late hours I don't know what the girls of this day are coming to. What is wanted in this orchard is a juvenile court. At the last Female Insects' Institute meeting it was resolved that this was a crying need, and one of the ladies, Mrs. Lent-Cherie, suggested, dear Mr. Codlin, that our girls should be added to the resolution as a very suitable person to be appointed as judge. We do hope you will accept if it is offered you.' 'I don't,' replied Mr. Codlin, 'that there is not much likelihood of my holding such a post long. It would soon be discovered that my politics are not acceptable to the present government, and I should be told that I wasn't sending nearly enough children to the industrial schools, and to make room for someone of the right political color. I seem to have a very interesting case in the papers lately. But, bless my soul! it is five o'clock, and I must hurry home to help my wife put away all the bottles and cans she's got, and the girls have been

LOCAL HAPPENINGS

Mrs. E. Thomas expects to today's train to visit in Vancouver.

Mrs. Lipsett's sister, Mrs. J. B. Robinson, is visiting her this week.

Miss B. Bristow spent the weekend in Vernon visiting her sister.

Mrs. Scott Tait returned from the Coast on Monday of this week.

Mr. Nad Bentley returned from the Legion convention at Chilliwack on Tuesday.

Mrs. E. Thomas expects to leave on today's train for a visit to Vancouver.

Mr. and Mrs. Alex Miller, of Peachland, were in town for the hospital bazaar on Thursday.

Mrs. Callaghan and family returned from Kamloops on Tuesday night of this week.

Mr. Jas. Gibson has gone up to Kelowna where he has accepted a position at McDonald's garage.

Mrs. W. Boothie gave a very successful tea on Tuesday for the Ladies' Aid of the United Church.

Mrs. J. W. Harris is spending a vacation in Vancouver and the Island with members of her family.

Mr. and Mrs. A. M. Leslie were down from Kamloops, staying over the week-end with Mr. and Mrs. Angove.

Mr. Lloyd-Jones was a visitor to town on Thursday on his way through from Kelowna to Vancouver.

Messrs. Walkley Limited have been laying a new floor in their warehouse preparatory to the trucking season's demands.

Cheques for the Central fund, amounting to \$100, made up of 4c on apples and 2c on soft fruits, were distributed in Friday's mail.

The fire alarm on Saturday called help to put out a chicken house fire at J. C. Christians'. It was feared for a while that it might spread to his residence.

Friends here will be pleased to learn through Mr. N. Bentley that, while at the Legion convention at Chilliwack, Major Tweedy had said that Mrs. Tweedy was much improved in health.

The local refund and final account sales on late winter apples is expected to go out towards the end of the month. This payment dispersal hinges on when the New-town pools close.

The friends of Mrs. R. H. English will regret to learn that she suffered a slight stroke this week. She has been improving the past few days.

Mr. and Mrs. H. M. Lumsden arrived via the Panama Canal, on Pacific President, Saturday morning last, and disembarked at Victoria.

Mr. Gordon Embree, who has been with his uncle, Mr. J. J. Embree, returned to his home on the prairie at Castor, leaving on Saturday last.

This has been a busy week for unloading freight at the K.V.E. Several carload shipments of lumber, cement and other bulk goods have been arriving for local distribution.

The Tonasket Times reports that rattlers are numerous this spring. Three Twisp residents on a picnic trip up Alder Creek the other day killed 48 of the snakes.

MAGISTRATE SAYS NO CLEAR EVIDENCE THAT EMERICK HAD KIDNAPPED THE CHINAMAN

(Continued from Page One.) about, and also he could not identify the second "bold bad man," as the lawyer termed him. The witness also stated he could see all the time he was in the car, but had to gaze out the windshield, his head being held on the entire hour and a half's journey by the man in the rear seat. He also stated he did not see the license number on the car nor did he know its color. The man who he thought was the accused had not showed up for four or five days. Constable C. O. MacDonald, of the B.C. provincial police, identified the accused and stated he had inspected the car alleged to have been used in the abduction of the Chinaman. He had found the figures alleged to have been seen by Quan during his enforced ride, and they were in the upper right hand corner of the windshield. Constable MacDonald was asked if the necessary precautions were made in his shaving habits. In answer to a question by the court he defined sideburns as whiskers that grow part way down the face. At this point the court adjourned to the courthouse yard, much to the relief of spectators, who found the seats provided extremely hard, to inspect the car alleged to have been used.

Following the inspection, Mr. Woodward remarked the figures described by previous witnesses had appeared to have slipped as they were now in the lower right hand corner. Constable MacDonald gave the court the various periods of time it would take to drive to where Charlie had finished his ride. Constable Hatcher, in charge of the Boundary district, identified to Harold Emerick of Oliver, licensed on April 17 under license number 48928.

Mr. Woodward objected to the evidence of the police officers, as, at the commencement of the proceedings, all witnesses had been ordered excluded from the court. His objection was noted by the court.

Mrs. Hazel Viola Hoal, wife of George Hoal, boss of the Chinaman Quan Ming Hoo, told the court she was at home on Tuesday. They had the Chinaman working for them. They called him Charlie. His right name was Quang Hoo. On the day of the kidnapping Charlie had been playing with their son on the lawn. Charlie did not come home for supper. He should have been home at 6 o'clock. About 5:30 o'clock she had sent her small daughter, Thelma and Willie, to the school. They had been playing with her, to meet Charlie coming home with the horses. Mrs. Hoal had gone to the woodpile and while there I saw a car coming straight to the place quite fast. I saw this car coming down past Mr. Maboe's and also a man on a dark horse chasing a sorrel horse,

WEDDINGS

GARTRELL-ARNOTT A quiet but pretty wedding was celebrated this morning at the home of Mr. and Mrs. Robert Arnott, when their daughter, Mary Elizabeth, was united in marriage with Arthur Norman, eldest son of Mr. and Mrs. George N. Gartrell. The bride wore a dainty gown of white georgette, with orange blossoms, which had been worn by the groom's mother at her own wedding. The long tulle veil, which had been the bride's mother's, was held in place by ropes of pearls. Spring blooms, of rose and white, formed the wedding bouquet, while the bridesmaids carried sheafs of iris, narcissus and pink tulips. Mrs. Freda Piggott, of Armstrong, the maid of honor, wore a charming gown of flowered chiffon, while the bride's sister Helen wore green silk and chiffon.

The bride was given in marriage by her father, and the ceremony was performed by Rev. T. W. Reed. The bridal party stood in a large bay window banked with flowers, under long festoons of white lilac. The wedding march was played by Miss Margaret Stark.

After the wedding breakfast, the happy couple left for a brief honeymoon. They will make their home in Kelowna. The bride traveled in beige and flowered georgette, with hat and coat to match.

The Tonasket Times reports that rattlers are numerous this spring. Three Twisp residents on a picnic trip up Alder Creek the other day killed 48 of the snakes.

looking fellow grabbed him, and the Chinaman said he did not know. Just as soon as they grabbed him and threw him in the car, Williams swore the Chinaman told him.

Little Thelma Hoal, six years of age, said: "About three days ago I saw two men in a car come on. One got out and put Charlie in a car. I knew Mr. Emerick. He had on a red shirt and his hat turned down. He stayed in the car. The cross-examined witness said she was not certain the man in the car was Mr. Emerick. She also said she had heard her mother talk a lot about it and she had talked to her mother quite a lot about it. Questioned, she said she was not sure how far away she was when the men grabbed Charlie but she did not think he could have heard her.

Willie Nunweiler, who was with Thelma Hoal on the road, said a car came along the road. The driver looked like Mr. Emerick, but he was not sure. The car drove up to the Chinaman. One man got out and picked up the Chinaman and the car drove away. Asked how far away he and Thelma were, he showed the court by pointing to a house across the street.

Was Resumed on Tuesday Tuesday's resumption of the famous drama commenced with Magistrate Wilkins locking his dog in a cell. This over, court opened officially and Quin Ming Hoo was recalled to the witness stand at the request of Mr. Colquhoun for the prosecution. Mr. Colquhoun gave as his reason for recalling the Chinaman the fact that the witness at the first session of the preliminary hearing during his examination in chief had stated the first time he had written down the figures he allegedly saw on the windshield of the kidnapping car, was in court at the first hearing. In order to give the witness a chance to contradict this statement he wished him called. Mr. Colquhoun stated the fact that the figures had been written down by the witness previous to the first trial and he wished the magistrate to question the witness on this point. This was done and the Chinaman stated he had written down the figures the first time on Wednesday, following his wild enforced ride, at the house of George Hoal. He had also again written down the figures in Mr. Colquhoun's office.

Following this evidence the court went out to have the Chinaman demonstrate just in what position he was held in the car by the second bold bad man, as Mr. Woodward termed him, who had taken him away from his plowing. This was done, Leo Sam, the interpreter, taking the place of Quin Ming Hoo, as described in Quin's evidence.

Mrs. Hoal was recalled to the stand by W. A. Woodward, for the defence, as he wished to cross-examine her on evidence she gave regarding her movements on the afternoon of the alleged kidnapping. Mrs. Hoal swore she was in the kitchen of her house about 5:30 p.m. when her little girl came yelling to the back door. She had only been out of the house to get the mail and to talk with Mr. Venables a few minutes. This was shortly after 2 o'clock. She had returned home about 3 p.m. and did not go out again until her little girl told her something had happened.

Set Up An Alibi Mr. Woodward, for the defence, then produced three witnesses, Henry Phelps, auto mechanic and employee of Emerick's garage; W. A. Foster, barber of Oliver, and Melbourne Laing, Dominion Cannery employee, also of Oliver.

Foster, who had sworn to the fact that the accused, when seen on the day of the alleged kidnapping, was not shaven and had three or four days' growth of beard on his face.

Henry Phelps, the first witness called, stated that on the day in question he had been working at Emerick's garage. He did not keep his eyes on Mr. Emerick all the time he was working but he was certain Mr. Emerick was not out of the place for any great length of time. He had quit work at 6:20 p.m. and Emerick was at the garage at this hour. Phelps offered to produce his time book as evidence. This was acceptable to the court and the book was sent for. The witness in the meantime, after a short cross-examination by Mr. Colquhoun, was asked to stand down until the time book, which had been sent for, arrived.

Melbourne Laing, employee of the Dominion Cannery, stated that on the night in question he had gone to Emerick's garage at approximately 7:30 o'clock to pay an account of \$5. He had talked with Mr. Emerick for about five minutes about tightening the spokes in the wheels of his car and had then left for home. He was positive the day was Tuesday and, on a question by Mr. Woodward, stated he had come to give his evidence without being asked by anyone as, when he heard that Emerick had been arrested charged with the mysterious disappearance of the Chinaman, he had recalled paying the bill on the night Emerick was supposed to have done the dirty deed and thought it only right he should tell what he knew.

W. A. Foster, tonsorial operator of Oliver, stated that it was his custom to shave Mr. Emerick twice a week. He remembered distinctly shaving him on Tuesday and again on Friday. When shaving Mr. Emerick on Friday he had recalled doing work on him on the Tuesday but had not mentioned the fact at the time. Mr. Foster could not be

shaken from his story on cross-examination by Mr. Colquhoun. This concluded the taking of evidence. Then Magistrate Wilkins said: "So much contradictory evidence has been given in this case it is very difficult to arrive at a decision tonight. Frankly, I cannot see any clear evidence it was the accused who did it. Witnesses have sworn it was an unshaven man who did the deed between 5 and 8 p.m. A reputable barber of Oliver has sworn he shaved the accused on the morning of the crime. This and so many other contradictory statements in the evidence do not tend to induce me to send the case to a higher court."

KELOWNA WINS BOTH CUPS IN FINE SCHOOL ATHLETIC MEET ON PENTICTON TRACK

Orchard City Athletics Step Into Lead in Closing Hours of Day

PERCY WILLIAMS IS PRESENT AT CONTESTS

Nineteen Records Broken by Contestants—Huge Crowd in Attendance

Penticton—History was made and almost a record of records re-made at the eighth annual inter-school athletic Okanagan Valley track meet held at Penticton on Saturday, May 18, in the presence of Percy Williams, the fastest man in the sprinting game today. Nineteen records were broken during the meet. The weather was almost ideal for the purpose. There was a breeze in the morning but there was hardly any wind at all in the afternoon to bother the contestants. The track was in fine condition. Never before in any meet have such excellent take-offs for jumping been provided as on Saturday. The Penticton teachers worked a special box lunch for the boys and provided the best possible conditions to make for the breaking of records. A new innovation was brought out in the pole vault when a special box lunch was held for the landing of the pole. There was a huge crowd of spectators in attendance. Over 250 entries were received for the events. Penticton lost the High School up, which it has held for two years, to Kelowna. Kelowna also won the Public School trophy. The following are the total scores in the high school and public school events: High school—Kelowna, 63; Penticton, 53; Vernon, 44; Summerland, 17; Armstrong, 17; Oyama, 2. Public school—Kelowna, 52; Vernon, 48; Armstrong, 45; Penticton, 1; Summerland, 7; Okanagan Mission, 6; Mission Creek, 3; Fairview, 1.

Vernon and Kelowna Take Lion's Share of Trophies at Meet

Vernon and Kelowna obtained the lion's share of the silverware at the track meet held on Saturday at the Recreation Grounds. Kelowna won both the Kelowna Cup, emblematic of the public school championship of the Valley, and the Vernon A. A. Cup for the high school championship. The Bank of Commerce Cup for the girls' public school relay also goes to Kelowna while the Penticton Herald Cup for the 100-yard dash high school open boys, was won by H. Johnson of Kelowna. D. Garbutt of Kelowna won the Bank of Commerce Cup for the mile run. Vernon took the other three relay cups. The Whitten Cup for the high school senior girls' relay over the 300-yard course went from Penticton to Vernon. The Penticton Herald Cup for the high school boys' relay over 229 yards each, goes to Vernon from Kelowna, while the third cup, the Casorso trophy, for the boys' relay in the public school, goes to Vernon for the first time. Vernon also won the New Soguel Cup for the 440-yard dash when J. Thorlakson finished in 55.4 seconds. Armstrong won the half-mile cup for boys under 16 in the public school section when A. Hoover won handsily. This is the W. R. Cranna trophy. Penticton's only trophy was won by H. Johnson, who secured the Summerland Review Cup for the 220-yard dash in the high school senior section.

which if measured would have been almost 20 feet. However, he just broke earth at the take-off, and the jump was declared foul. M. Christensen, of Penticton, was superior to the other boys in the 50-yard race for boys under ten, public school. G. Powell of Summerland was second and J. Green, Vernon, third. The time was 73.5 seconds.

C. Bowen of Vernon went out in front and stayed there in the 50-yard race for girls under ten, public school. The time was 24.4 seconds. W. Neil of Summerland was second and J. Rae of Penticton was third respectively. The winning time was 73.5 seconds, the same as was made by the boys.

The 220-yard race over 50 yards is a new event and was won handsily by M. Clarke of Vernon, with Jean Donaldson of Penticton just behind. G. Gahan of Kelowna for Summerland had the lead at the finishing tape but managed to break the tape ahead of her opponent. The time was 77-10 seconds.

McGregor Breaks 220 Record—Great interest was exhibited in the 220-yard race over 50 yards. High, Herbert McGregor, Penticton, stepped out in front after rounding the corner and managed to secure a good lead to win in the fast time of 24.4 seconds. W. Neil of Summerland was second, with J. Thorlakson of Vernon third. This is a new record and also gives McGregor the Summerland Review Cup for this year.

The 100-yard race for boys under 16 in the public school, was won by E. Cochrane of Vernon in a fast race to break the old record and win in 25.4 seconds. G. Boothie of Kelowna was second and J. Green of Vernon secured a second place while Elden Baker of Penticton was third.

While the races were in progress the hop-step-jump for girls under 10, high, was completed. E. Stebbins of Kelowna was first, showing and leaped into first place with a jump of 31 ft. 73.8 ins. F. Dilworth of Kelowna was second, placing winner, Daisy Hansen of Penticton third.

T. Wilson of Kelowna, a young miss of 13 years, won the high jump for girls under 16, public, with a leap of 4 ft. 3 1/2 ins. Ruth Hansen of Penticton was second and H. V. Watt of Armstrong finished third.

Half Mile Was Thriller—The most thrilling race of the meet was run off just before lunch. In the half-mile for boys under 17, high, Murray Riddle of Penticton set a terrific pace for the first 440 yards. In fact he ran the first 440 yards under 60 seconds. In the last section he began to slow and the other boys made a desperate lunge. Only a matter of inches separated the contestants in the most grueling race of the day. The first four contestants collapsed at the end and had to be helped to the dressing room. The time was 1:01. The time for the race was exceptionally fast, making a new record.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

Another Penticton entrant, Cecil Glass, boy with a promising future, went ahead to win the 50-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

Herbert McGregor had a stiff battle in the 120 yards high hurdles, high school, for boys under 21. In the last ten-yard stretch he timed his spurt to win. The time was 2:01. The time was 1:39, with Kelowna second.

Daisy Hansen, after a slow start and after running with another girl, she flashed to the front in the 75-yard race for girls under 21, high. B. Emslie of Kelowna was right behind her while M. Smith, Armstrong, finished third. The time was 2:01. The time was 1:39, with Kelowna second.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

of 2:09.3-5. This compares well with Coast times. J. Gonchins of Armstrong set a new record for the high jump, boys under 14, public, going over the bar at 4 ft. 6 ins. This is a remarkable jump for a boy of 13 years of age. D. Todd of Kelowna was second and F. Lefroy of Vernon third. In the same jump for girls under 14, B. Wilson of Kelowna set a record in any division by clearing the rod at 4 ft. 6 1/2 ins. This jump is better than any other made by high school or public school girls in the province. The time of Vernon set a high school record of 4 ft. 6 ins. in the high school section some years ago, but this was bettered by this jump of the 13-year-old Kelowna girl. No other girl in the province can make such a remarkable jump as this young girl.

Another record fell in the 440-yard open high boys when J. Thorlakson of Kelowna galloped to the fast rate of 55.4-5 seconds. W. Neil of Summerland made a fine showing to come in second, with L. Evans of Oyama third. J. McKay of Penticton was a good fourth. The first event after dinner was the shot put for high boys under 21. T. Guernsey of Penticton heaved the 12-pound weight 36 ft. 5 1/2 ins. to win from R. Guld of Kelowna. The second place was won by J. Sawyer of Armstrong was third. This was a good throw for the first year of competition.

In the 75-yard race for girls under 16, B. Wilson of Kelowna was first in 10 seconds, with P. Walker of Okanagan Mission second and V. Rice of Vernon third. B. Wilton of Penticton failed to make a place.

Harry Johnson of Kelowna had no difficulty in winning the 100-yard dash for boys under 17, high, in 11.2-5 seconds. C. Pickrem of Vernon was second and H. Yolland of Summerland third. John Bibby of Penticton was fourth. He had a poor start.

Mary Turns the Tables—Mary Meldrum secured her revenge over Brenda Carruthers in the open high jump for girls in high school. Last year in the under 16 event Mary was beaten by Brenda Carruthers, but this year she won first place from Brenda, who finished second. D. Price of Vernon was third.

A record was made in the boys under 21 broad jump, public, when E. Hansen of Kelowna jumped a distance of 18 ft. 9 1/2 ins. R. Hamilton of Vernon took second place while J. Casorso of Kelowna was third. Albert Fraser of Penticton failed to qualify.

Jean Donaldson of Penticton ran girls under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

Another Penticton entrant, Cecil Glass, boy with a promising future, went ahead to win the 50-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

Herbert McGregor had a stiff battle in the 120 yards high hurdles, high school, for boys under 21. In the last ten-yard stretch he timed his spurt to win. The time was 2:01. The time was 1:39, with Kelowna second.

Daisy Hansen, after a slow start and after running with another girl, she flashed to the front in the 75-yard race for girls under 21, high. B. Emslie of Kelowna was right behind her while M. Smith, Armstrong, finished third. The time was 2:01. The time was 1:39, with Kelowna second.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

The 100-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

ering the old mark by 1-5 of a second. E. Wyatt of Armstrong was second and R. McKay of Fairview third. Melkie of Kelowna eliminated at 4 ft. 6 ins. in the high school high jump for boys under 21. None of the high jump records in the high school were broken during the meet. B. Megaw of Vernon was third. D. Garbutt of Kelowna, flashed ahead of the field in the last lap of the mile run for high school boys. The time of Kelowna was 4:58.4-5. V. Rice of Vernon, set second place winner while G. Blewett of Summerland was third. Murray Riddle of Penticton was fourth. The public school half-mile record for boys under 16 was brought down by A. Hoover of Armstrong to 2:18. R. Hamilton of Vernon was next in line with G. Boothie of Summerland a good third. E. Baker of Kelowna was fourth. H. Yolland of Summerland won the high jump for high school boys under 17 with a hop of 5 ft. 1 1/2 ins. Kenneth Heales of Penticton landed his shot making the final one and knocked over the bar. He managed to place second, with R. Griffin of Vernon third.

New Record for Boys—D. Todd of Kelowna brought the 75-yard race for boys under 14, public, down to 9.1-5 seconds. J. Gonchins of Armstrong was a close second and J. Quong of Vernon third. Norman Parkins was Penticton's entry in this race. Allen Poole of Kelowna equalled the former record for the 100 yards, boys under 16, public, with a run of 11 seconds. H. Cochrane, Vernon, was first in his race, a second and G. Barnes of Armstrong was third. Albert Fraser was the Penticton entry in this race.

B. Emslie of Kelowna won the 75 yards race for girls under 16, public, in 10 seconds, with P. Walker of Okanagan Mission second and V. Rice of Vernon third. B. Wilton of Penticton failed to make a place.

Harry Johnson of Kelowna had no difficulty in winning the 100-yard dash for boys under 17, high, in 11.2-5 seconds. C. Pickrem of Vernon was second and H. Yolland of Summerland third. John Bibby of Penticton was fourth. He had a poor start.

Mary Turns the Tables—Mary Meldrum secured her revenge over Brenda Carruthers in the open high jump for girls in high school. Last year in the under 16 event Mary was beaten by Brenda Carruthers, but this year she won first place from Brenda, who finished second. D. Price of Vernon was third.

A record was made in the boys under 21 broad jump, public, when E. Hansen of Kelowna jumped a distance of 18 ft. 9 1/2 ins. R. Hamilton of Vernon took second place while J. Casorso of Kelowna was third. Albert Fraser of Penticton failed to qualify.

Jean Donaldson of Penticton ran girls under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

Another Penticton entrant, Cecil Glass, boy with a promising future, went ahead to win the 50-yard race for boys under 12, public, in 71.5 seconds. V. Lanfranco of Mission Creek was second and J. Armstrong of Kelowna was third. The time was 72.5 seconds.

Herbert McGregor had a stiff battle in the 120 yards high hurdles, high school, for boys under 21. In the last ten-yard stretch he timed his spurt to win. The time was 2:01. The time was 1:39, with Kelowna second.

WASHINGTON FRUIT INTERESTS SEEK LOWER FREIGHT RATE UPON AMERICAN RAILWAYS

Reduction of Twenty Five Cents Per Hundred Is Expected

WILL CANADIAN ROADS FOLLOW SAME COURSE?

Kelowna (Committee of Direction)—Continuing the discussion of last week of conditions in the state of Washington, the following is a brief account of the Washington Interstate Commerce Commission. It is not generally known that the state of Washington, acting through its department of public works, has championed vigorously the case for lower freight rates for the fruit grower. The original of the present complaint is dated April 9, 1928. The printed briefs, on behalf of the state against the Northern Pacific Railway and most, if not all, of the railways in the United States, are dated January 18, 1929. A reply brief is dated April 6, 1929, so that any statements quoted from them are strictly up-to-date. The Yakima Valley Fruit and Credit Association and the Wenatchee Valley Traffic Association are coupled with the case as "interveners." The briefs and the exhibits constitute a very valuable summary of conditions in the fruit industry to the south. Among rates quoted are those on apples to Winnipeg, which are:

From	Apples	Pears
Wenatchee	\$1.20	1.20
Chelan	1.20	1.20
Okanagan	1.23	1.23

Rates Called Unjust—It is claimed, first, that all the many rates referred to in the complaint are unjust and unreasonable. The violation of the Interstate Commerce Act; second, that they are in excess of rates on other commodities in force prior to June 15, 1928; and, third, that they are in excess of rates on other commodities in force prior to June 15, 1928, and are greater by as much as 50% than they are maintained, although rates on many other commodities from Washington to the same destinations have been reduced, particularly since August 26, 1920, fourth, that the fruit industry of country in Washington is suffering from a serious economic depression, and, fifth, that rates on apples should be reduced in most instances to \$1.25 per 100 pounds, and in certain cases to \$1 per 100 pounds for minimum carloads of 21,000 pounds and 35,000 pounds.

Comparative reductions in rates on fresh fruit, other than apples and pears) is also sought. The original case has been heard. Reply to contentions of the railways has been filed (under date of April 6, 1929) and final hearing is understood to take place in July in time to make rates effective on this year's crops. A reduction of 25c per 100 pounds (12 1/2c per box) on apples is rather confidently expected.

Canadian Railways are correct in their statements that if reductions were given by them on fruit freight rates they would upset their working arrangements. That is, they would be bound to obtain U.S. rates and any reduction in U.S. tariffs should be felt immediately here. As the Canadian railways meet the recent U.S. reduction in wheat rates to the Atlantic seaboard, they should meet any cut in fruit rates.

Carload Movement From Washington—The total carload shipments from the entire state of Washington of all varieties of fruits and vegetables, totaled in 1927, 47,132, and in 1928, 64,052.

The following is a statement of the more important products: The very heavy increase in 1929 over 1928 for most varieties is noteworthy.

Carloads	1928	1929
Apples	38,295	28,977
Pears	614	119
Mixed fruit	2,432	1,443
Plums and prunes	5,802	2,709
Peaches	920	542
Potatoes	1,724	249
Other	9,000	9,702

Wenatchee had 882 carloads of peaches and 108 carloads of plums and prunes. Apples are not listed, so they must have been included.

Fort Worth, Texas, May 23—Reginald Rogers and James Kelly had their first air nearly 100 hours at night today in their attempt to break the Question Mark's 150-hour record.

In Air 100 Hours In Endurance Flight

NORDMAN IN THE BEAVER—Midway-Edward Nordman, of Beaverdel, was in town on Friday. Mr. Nordman has taken over the superintendency of the Beaver at Beaverdel. Reports of the new discovery of one on this property are very encouraging.

All free miners' certificates expire on May 31.

Studebaker's PRESIDENT EIGHT

World Champion Car by the world's largest builder of Eights!

\$2795 at Summerland, B.C.

DRIVE Studebaker's President Eight—undisputed stock car champion, with eleven world and twenty-three international records. Know the silken speed of its 115 horsepower straight eight motor, the comfort of its ball bearing spring suspension and hydraulic shock absorbers, the beauty of its low-slung lines. Then you will know why Studebaker sells more eights than any other maker in the world.

"Studebaker Champions" Sunday evening 10:15 to 10:45 Eastern Daylight Time. Stations WPEAF and NBC network.

WILLIAM HARRISTON, West Summerland GORDON JOHNSTON GARAGE, Penticton

EGGS TO SELL NOW BY GRADE

Inspector Appointed for This District After Long Agitation

Word was received here the past week-end through Mr. H. Waby, of Armstrong, of the appointment by the Dominion government of an inspector for the enforcement of the Federal Inspections Act as it affects poultry products, chiefly eggs.

The local poultry association has advocated this for a long time for it was considered that the industry could not advance further until this step had been taken.

The inspector will be stationed at Penticton where it will be convenient for him to inspect eggs going into cold storage there and easy to get out to the neighboring districts over which he will have to carry on his inspections.

This means that all stores will have to offer eggs graded according to the act and will have three lots, extras, firsts and pullets extras. Other grades are also provided for. To substance, this means eggs will be sold by weight and will be candled to check up any defects as to freshness, cracks and so forth. The territory for inspection will include the Okanagan, the Kootenay and Grand Forks districts, and probably as far to the west as Princeton.

Just what date the inspector will take up his duties at Penticton is not yet certain, and which inspector has been allotted to the district has not yet been announced.

WALTER M. WRIGHT, Editor and Manager Member of Canada Weekly Newspapers' Association

EMPIRE BUYERS ARE EMPIRE BUILDERS EMPIRE SHOPPING WEEK MAY 25 TO JUNE 1

A new high record even surpassing the most prosperous war years was reached in Canada's foreign trade for the year 1928. Imports were \$1,222,000,000 and exports \$1,374,000,000, which left a balance of trade in Canada's favor of \$152,000,000.

The total of Canada's trade for 1928 reached the tremendous figure of \$2,596,000,000 compared to \$2,326,000,000 for 1927, an increase of \$270,000,000.

With a population that ranks 28th among the countries of the world, Canada is fifth in total exports and third in total turnover of trade.

This huge volume of foreign trade is due mainly to three reasons:

- 1. The rich natural resources of the country. 2. The great purchasing power of the population. 3. The great efforts it is making to increase the external trade of the Dominion.

The United States is the largest supplier of commodities to Canada, total imports from that country during 1928 amounting to \$826,000,000, an increase from 1927 of \$119,000,000 when it was \$707,000,000.

On the other hand, exports to the United States from Canada for 1928 amounted to \$493,000,000 compared to \$475,000,000 in 1927, an increase of \$18,000,000.

The deficit, as it were, or perhaps it is more correct to call it the balance of trade against us in our dealings with the United States last year amounted to the vast sum of \$333,000,000 compared to \$232,000,000 in 1927.

Among a great many Canadians this situation is causing concern, for limiting our ability to increase and catch up with our exports to the United States we find a strong curb in the form of an increasing tariff barrier and it is advocated that more effort be made to purchase our requirements from those countries which are taking the larger share of Canada's exports.

When our minds follow this very logical line of reasoning we find that the British Empire is our best customer. In 1928, Canada's exports to the British Empire were \$545,000,000 in comparison with \$500,000,000 in 1927, an increase of \$45,000,000, and imports into Canada from the rest of the British Empire were \$254,000,000 for 1928 compared to \$240,000,000 for 1927, an increase of \$14,000,000, leaving a balance of trade in our favor of \$291,000,000 in 1928 and \$260,000,000 in 1927.

To sum up, we now see that with our best customer, the British Empire, we buy less from them to the tune of \$291,000,000 than they from us, and with our next best customer, the United States, we allow them to sell us \$333,000,000 worth of goods more than they purchase from us, in addition to which business is made more difficult to secure from them because of their high tariff policy.

There are many good reasons for the condition as we find it, but none that this condition should be allowed to continue and as the trend shows, become more adverse each year.

Without considering the matter from the point of view that Canada is a partner in this great organization of the British Empire, as was so practically evidenced in the war, it is quite sufficient to study it from the angle of the treatment one would accord one's best customer in business. This places us on a very familiar and sound ground for we all know that any reciprocity we can make in business in dealing with those that deal with us is given every consideration.

It is to stimulate trade within the Empire that Empire Shopping Week in Canada is being put over. The underlying principle on which the "Empire Shopping Week" will operate is that a natural first preference be given goods that are the product of the country in which the week is held, in this case Canada, other Empire products receiving the next preference. Produced in Canada goods are produced in the Empire.

The executive committee of Empire Shopping Week in Canada holds strongly to the view that the type of civilization and its promise of development as shown in countries of the British Empire is one that Canadians all desire to encourage for the sake of present and future generations. All this, it is conceived, is intimately bound up with the economic and business side of affairs that plays so great a part in the daily lives of so many Canadian citizens.

BRING OUT THE FLAG

Today is one of our national holidays — Victoria Day. Few of us, perhaps, give much thought to anything other than the program of amusement planned for the occasion.

But nevertheless the approach of the day furnishes a good opportunity for some reflection upon the protection and opportunity our Empire gives us and upon the duty we in turn owe to that Empire.

The hoisting of a flag, the putting out of bunting, has no particular value in itself, but at least serves to show that we have not lost entire sight of the patriotic touch appropriate to the birthday of the Good Queen, during whose reign so much of the growth of the British Commonwealth of Nations was achieved.

While then we take our way to the sports at Oliver or at Keremeos, or to the picnic ground, let us show our colors. We have every good reason to rejoice in our Empire's greatness and our Empire ideals. The flying of the Union Jack will add a natural and proper pride to the pleasures of the holiday.

WORLD OF POLITICS

(By an Ex-Writer of the Ottawa Press Gallery)

Debate in the Dominion House at Ottawa in recent weeks have made it abundantly clear that in the administration of the affairs of the Postoffice Department there has been some reversion to the political spoils system. Developments of one kind and another in this province at least suggest the suspicion that the political axe is being applied to the necks of public servants with more vigor than discretion. Charges are also being made that political interference has been countenanced in connection with the administration of affairs in connection with which such interference should be conspicuous by its absence. Down at Ottawa the villain in the play has been Hon. Mr. Venoit, postmaster-general,

and for a short time a premier of the province of New Brunswick. The parliamentary debates made it so clear that Mr. Venoit had in numerous cases allowed politics to bring about the dismissal of postmasters, including disabled war veterans, that the Winnipeg Free Press cut loose from its party allegiance and in no uncertain terms called upon Premier King to put a stop to the Postmaster-General's performances. This newspaper stated that Mr. Venoit had been playing the party game as it is played down in New Brunswick and asserted that such actions were not permissible in connection with the administration of a department of the Federal Government, more especially when there is a Civil Service Commission whose duty it is to make appointments to office on the merit system. The Free Press suggested that Mr. Venoit should mend his ways or that Premier King should send him back to New Brunswick and put someone else in charge of the administration of postal affairs. The probabilities are that, as a consequence of the good services rendered by the Conservative Opposition and the expression of strong disapproval by the Free Press and other Liberal newspapers, the Dominion Premier will make it his business to see that Mr. Venoit acts differently from now on.

HOW ABOUT BRITISH COLUMBIA?

Comment on developments in connection with the dismissal of public servants and alleged political interference in this province is more difficult than in connection with what has been happening at Ottawa for the reason that there have been no legislative debates clearly establishing the culpability of the ministers concerned. It is not unfair to say, however, that matters have reached a point where the acts of the Tolmie government are causing grave misgivings on the part of men of independent and fair minds who gave their support to Tolmie candidates in July last. Last week Hon. W. C. Shelly came in for a lot of newspaper criticism for the dismissal of Prince Rupert of Norman Watt, government agent, a war veteran and winner of the Military Cross, a man who was badly gassed overseas and who is in a precarious state of health. He is a married man and has three young children. Mr. Watt was private secretary to Hon. T. D. Pattullo for some years, and Liberals naturally allege that his dismissal was because of his former association with Mr. Pattullo. Mr. Shelly denies this and says Mr. Watt's services were dispensed with because of participation in politics. The Canadian Legion is dissatisfied with this explanation and is making an investigation. As to the justice or otherwise of this and other cases of dismissal of public servants the writer of this column has no knowledge. Dismissals are becoming so numerous, however, that they must inevitably create an impression that will be harmful to the Tolmie administration. At the best, dismissal of public servants on charges of political partisanship on the say-so of party supporters looking for jobs is a poor business. All such charges should be dealt with by an impartial tribunal and the government would be wise, one would think, to set up a temporary tribunal in which the public would have confidence to deal with all these charges at once. Such action would relieve ministers of the Crown of the necessity of acting as judges under circumstances which always lead to criticism even when a minister is fully justified in making a dismissal. Apart from that, it would satisfy the public that accused officials would not be unfairly dealt with.

CHARGES OF POLITICAL INTERFERENCE

During the past fortnight there have been a couple of developments which justify some reference to the matter of alleged political interference of a kind that is not in the public interest. Both concern Hon. William Atkinson, minister of agriculture. One touches on the relations between the minister and the advisory board of B.C. Farmers' Institutes, secretary of the board, Mr. C. E. Whitney-Griffiths, having resigned as a protest against what he describes as "the deliberate plan of the department of agriculture to interfere with the work of the organization." In a letter addressed to members of the advisory board, Mr. Whitney-Griffiths asserted: "The minister clearly stated to me that he intends to have full and complete control of his department, which you all clearly understand means the government is determined to gain complete control of the farmers' institutes and put them back in their old places." It appears that the former government made the secretary of the advisory board an allowance of \$900 per annum for the time devoted by him to the farmers' interests, but this has been withdrawn. The minister has promised to make a statement which will undoubtedly clarify the situation. Apparently the retiring secretary has the support and approval of the members of the advisory board, which would indicate that it is at least unfortunate that friction should arise in connection with forward work relating to the agricultural industry between Mr. Atkinson and men who worked in complete harmony with the former minister of agriculture for a number of years.

THE BERRY MEN AND POLITICS

The second development that suggests political interference of an undesirable kind relates to the decision of the government not to extend the Produce Marketing Act insofar as it relates to berries over the current year, although a slight majority of the producers had voted in favor of extension. A correspondent of the Vancouver Sun who signs himself "A Real Berry Grower" alleges that the minister of agriculture reversed his announced policy because of pressure brought to bear upon the government by shippers who are members, and in some instances officers, of the Conservative associations of Mission and Chilliwack. The correspondent says in part: "Market control was never intended to benefit the shippers and the growers. It was enacted especially for the good of the berry grower. Last year the independent shippers did not make as much out of the growers as in former years and as a result they started out to have the act repealed. These shippers are prominent in both Mission and Chilliwack Conservative associations, some of them being officers, and they used the influence of those associations to back them at Victoria and because of this and the fact that they were financially able to go to Victoria and fight against the act they have won and the poor berry grower who did not have the money to fight for the act lost out." The writer of this letter goes on to point out that the MacLean administration last year appointed W. J. Manson, a life-long Conservative and ex-M.L.A., as head of the Committee of Direction simply because Mr. Manson knew berries as he has been a grower on a large scale for years. He maintains that the committee has not had a square deal and that it should have been given an opportunity to function with the strengthened law at its back for another year, but that this has been made impossible by political interference. He says that, as a consequence, the outlook for berry growers is most discouraging.

MUST FACE RESPONSIBILITY

The letter in the Sun is at least an interesting contribution and there is something about it that suggests that there is some truth back of the assertions made. Undoubtedly the Conservative Association of Chilliwack passed a resolution against the Produce Marketing Act just prior to the government's decision to discontinue the Committee of Direction. If the allegations are true, and should the berry growers experience a disastrous selling season, the government will undoubtedly have to shoulder the blame in large part and it may be safely assumed that the demand for restoration of orderly marketing methods for 1930 will be too strong to be denied. The present outlook for the berry business is that nothing short of the unexpected development of a favorable marketing situation will save the industry from a rough ride this season.

Young British Emigrant Wins Stock-Judging Competition

The pleasant-faced young man, shown above, with his horse, is Sidney Wrightson, 18, of Kingston, Ont., who won the Frontenac county stock-judging contest against 55 competitors with 80 points higher than the previous record. "He is a wonderful example of what Canada offers to young men of his type," said Premier King at the Royal Winter Fair. Wrightson was working in a mine in England not much over a year ago.

PRAIRIE SEEDING TOM BRADSHAW WELL ADVANCED ANSWERS 'TAPS'

Favorable Weather Conditions Noted and Seed in Good Condition

Canadian Crop Report No. 1, May 9.—Below will be found a brief synopsis of telegraphic reports received at the head office of the Bank of Montreal from its branches. The branch managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned. Seeding is well advanced in the prairie provinces and is proceeding satisfactorily under favorable weather conditions. The seed bed is in good condition and there is sufficient moisture for germination, although the reserve is low and rains would be beneficial. Growth has been retarded by cold backward weather, but early seeded wheat is showing through the ground; the acreage will be about the same as last year. In Quebec little seeding or plowing has been done, owing to the cold weather and the plowing operations are at least a fortnight later than the average in Ontario. In the Maritime provinces the winter was moderate, but conditions are backward owing to a period of cold weather and the springing from three to four weeks late, but crop prospects are generally favorable. Details follow:

Alberta: Western area—Wheat seeding is well advanced with about 50% completed. The sugar beet acreage will probably be 9,000 acres as compared with 7,000 last year. About 30% has been planted, as compared with 80% at this time last year. Northeastern area—Wheat seeding is about 50% completed and will ahead of last year. Southeastern area—40% of the seeding has been done under favorable weather conditions. Saskatchewan: Northern area—Wheat seeding is well advanced with weather satisfactory, although some localities are backward. Southern area—Under favorable conditions good progress has been made, with wheat seeding from 80% to 100% completed. Manitoba: More than the usual fall plowing was done and soil is in good condition. Wheat seeding is 80% to 90% completed. Owing to cold weather, germination is slow, but there is ample moisture for the present. Seeding of coarse grains is under way.

Province of Quebec Heavy rains and continued cold weather have hampered farm operations and no seeding and little plowing has been done, except on the higher lighter lands. It will take a period of warm dry weather before work becomes general. Grass pastures and fruit trees wintered well. The season's production of maple syrup was above the average.

Province of Ontario Some work has been done on high light land, but low-lying ground is still too wet to be worked. Reports indicate that fall wheat has wintered well, especially on lighter, well drained land, but is spotty on some low wet ground and is in need of warmer weather. Several thousand acres of root and bordering on Lake Erie are now flooded and will be under water until too late for seeding. Hay is of unusual growth for this time of the year. Clover and alfalfa fields wintered well and conditions are promising. Tobacco has been sown in greenhouses and plants are now showing through. There will be a 50% reduction in acreage of burley and black tobacco this year. Fruit wintered in good condition.

Maritime Provinces Apple trees are reported to be making a very favorable start and there has been little winter kill in the grass pastures. It is thought that seeding and planting of potatoes will be completed by the usual time. The potato acreage will be 10% below the five-year average, it is estimated. Province of British Columbia Due to cold wet weather, there is still much seeding and planting to be done. An average acreage of grain is being sown and a good hay crop seems assured. No serious frost damage of fruit trees has been reported, although indications point to a lighter yield than last year. Small fruit wintered well and hops are in good condition. Pastureage is fairly good but there is a shortage of irrigation water.

Pioneer Settler on Similkameen Valley Road Dies in Hospital

Princeton—That rapidly dwindling group of pioneers who may be called the fathers of the Similkameen suffered a devastating blow to its ranks Monday when Tom Bradshaw, soldier, landlord, rancher and entertainer, answered "taps." The end came quietly but with startling suddenness in Princeton hospital the late Mr. Bradshaw was regarded as one of the most stout-hearted of the old band, and though 65 years of age, was hale and hearty and in good health. He was seized with internal pains last week and when Dr. Otto DeKunth, of Vancouver, who brought Tom's daughter through a serious illness about a year ago, called, he at once had Mr. Bradshaw removed to Princeton hospital. Acute appendicitis and complications aught about the end Monday.

Tom Bradshaw was one of the most colorful of Similkameen pioneers. Born in London, England, he lived a life replete with thrilling experiences. At the age of sixteen he ran away from home and joined the colors. In the ranks he rose rapidly, and serving with the Yorkshire Light Infantry, became adjutant and was promoted for all British troops in Malta.

He was a member of the forces of the famous Lord Roberts when "Bobs" led the renowned British expedition to Khartoum. Tom served with the colors for about nine years, and went on to Australia. He later settled in the prairie provinces, and came to the Similkameen fully thirty years ago. He acquired holdings on Fifteen Mile Creek from C. C. Steward, and became one of the best known characters in the valley in the early days. He operated one of the few licensed roadhouses between Princeton and Kelowna and his place was a rendezvous for travellers.

Tom's hospitality knew no bounds. He had a cheery word for all, and never a stranger or friend came to him needing help and was not refused. His cheery manner and his matter-of-fact methods made him immensely popular. He played no small part in the development of the Similkameen, and owned seven full claims and a fraction on Wicket Plate Mountain, though he never worried much about mining.

Besides his widow he is survived by a son, Leonard, and a daughter, Edith, both at home.

Baseball Game, Track Events and Dances Will Be Features at Oliver

Oliver—The Victoria Day celebration here on May 24 will be held in the athletic grounds as usual. Good prizes will be given away. Peachland and Summerland have been drawn to play baseball at 10 a.m. with Ponitcon and Oliver at 1:30 p.m. The May Queen will be crowned at 1 p.m. sharp. This ceremony will be followed by the Maypole dance and songs by school children. Mrs. King is training the children and a good display is anticipated. Pony racing, tug-of-war and bicycle racing, jumping and all manner of sports will start at 2 p.m., with a dance at 5 p.m.

Has Berry Movie Circuit Been Leased To Famous Players?

Vernon—Information which is believed to be authentic but which has not been given official sanction is that R. E. Berry has leased his string of motion picture theatres to the Famous Players Canadian Company. Information received is that the lease is for ten years and that within a year "talkies" are to be introduced. R. E. Berry, who declines to affirm or deny the report, is understood to have been named a director of the Famous Players Canadian and will act in an advisory capacity. Berry's theatre circuit consists of Empress Theatres at Vernon, Kelowna, Ponitcon, Kamloops, the Strand at Kamloops, and at Chilliwack and the Kitlanano at Vancouver.

The Bathing Season Is Here!

"Flash" and "Woods" All-Wool Bathing Suit Await Your Selection

Children's one-piece in "Wood's" fine, all-wool sizes 22, 24 and 26, assorted fancy colors, \$1. Boys, in "Wood's" quality, with skirt, all-wool fancy colorings, sizes 26, 28, 30 and 32, Size 34 \$2. Size 34 \$2.

NICHOLLS DEPARTMENT STORE PENTICTON, B.C. The Slater Shoe

Sunshine and Showers—New Version

Above is an interior of the men's smoking-room, below a view of the rear end of the "Solarium" car. The lady on left demonstrates the shower bath.

Over ninety thousand dollars has been spent on each of the new "Solarium" cars designed for use on the long-distance all sleeping car trains of the Canadian Pacific Railway. Fifteen of them have been built at the Company's Shops at Montreal and the one pictured above; the River Thames, will be one of those in use on the Trans Canada Limited. These cars are given over entirely to the use of the passengers and contain, among other things, two green-tiled shower baths, a ladies lounge, a room and the Solarium lounge and a Solarium. This latter, which takes the place of the open platform is glazed with vitreous glass which admits all the beneficial sun rays, and permits an unbroken view in luxurious comfort. The main observation lounge is furnished with various upholstered chairs, a room and the Solarium lounge, blue and red in the room and sand colored in the compartment. A small buffet provides refreshment as usual. The dining car which is also of novel design.

PERCY WILLIAMS GIVES SCHOOL ATHLETES THE "ONCE OVER"

Here is a snapshot of Percy Williams and Reeve Macdonald of Penticton at the Recreation Grounds track, Penticton, during the Okanagan Valley School Sports last Saturday.

ROAD GANGS START JOB AT YELLOW LAKE

Marron Valley Correspondent Writes of Splendid Scenery

HEAVY LAMB CROP FOR VALLEY FARMS

Ranchers Look For Good Yield From Fields This Year

Marron Valley—W. P. Simpson has his men and machinery on the old James Grant place constructing the Yellow Lake road. Mr. Simpson knows roadmaking and all look forward to having a trip over this new highway this autumn. It is a link in one of the finest stretches of scenic highway in Southern B.C. The new section leaves the Marron Valley road at Walker's ranch; sweeps up a delightful grade to the Grant ranch buildings, down again near the lake, and on to meet the Penticton-Keremeos highway which, too, is a beautiful road. The creek which tumbles down the Keremeos side of Green Mountain might easily lead Zane Gray to mistake it for the mad old Rogue River in Southern Oregon, and to try his luck at taking steelheads therefrom.

Mr. Simpson has part of his workers engaged in reinforcing bridges preparatory to the coming of the mammoth tractors, expected for use in construction work on the Yellow Lake road. One of these machines is 40 horsepower and the other 60 horsepower. Simpson states that a revolving, tractor-drawn scraper, operated by the tractor-driver by means of ropes on either side, will arrive on the job shortly, as will also a huge grader, in addition to two already here. The camp's dining hall, etc., for the crews, are nearing completion, when a telephone will be installed, and the work is off to a good start with about twenty men at present employed.

Near-Tornado Blows Up Marron Valley had a near-tornado Monday afternoon last week. The temperature dropped rapidly, falling about half an hour. The lower slopes might easily have had snow instead of rain; it was cold enough.

Miss Dorothy Stark, formerly of Ontario, but later of Vancouver, is spending a holiday with her cousin, Mr. A. Homuth, at his ranch home here.

Mr. and Mrs. James Lauder and daughter Ellen, of Craven, Sask., are visiting Mr. and Mrs. Alex Duncan of the Roadhouse ranch. Mr. Lauder is a breeder and exhibitor of Aberdeen Angus cattle.

Growth has been slow here but the fields are sown, and farmers look for good crops, although late and dry, so far.

Mr. Burson has further improved his ranch by installing a gasoline engine for irrigation purposes.

Lamb Crop Good Messrs. Duncan and son were through the valley recently and report a splendid lamb crop, as do also Messrs. Green and son of the Elkhorn ranch. So the losses have been almost nil, and coyotes have seemed less numerous than usual.

Mr. Homuth has his ranch in good condition with a splendid band of cattle. Not quite so profitable, perhaps, but very interesting is his little friend, the bluebird, which has again nested in his mail box, as she has done for several seasons. Rather than have the little dame disturbed, Mr. Homuth puts up a temporary box for mail during the summer months.

While in the garden recently, Miss Evelyn Darragh heard a terrific hissing sound and turned just in time to see quite a large meteor hurtling through the air, obliquely in front of the cliff. When recovered sufficiently from the thrill of it, Miss Darragh travelled to the cliff, hoping to locate the meteor, but failed to do so.

Sees Fine Rainbow Several beautiful and extraordinary astral phenomena have been noted during the winter and spring in these parts, and the most beautiful "triumphal arch" the writer has ever seen was a triple rainbow, each vivid enough at times to display the seven prismatic colors simultaneously. The whole arch appeared to extend for perhaps three miles and entirely within the field, and against the high rock cliff in the background. From the steep hillside on the opposite side of the valley, it was a gorgeous sight, and it seemed that it might be an easy matter to go and "gather the gold, all my hands would hold, that lay at the foot of the rainbow." However, great as is the need for gold on a B.C. ranch, possibly the same effort, put into hard work, would bring more of the yellow metal, so the trip has never been made.

Mr. J. L. McCormick is making speedy recovery from injuries sustained from a fall about three weeks ago.

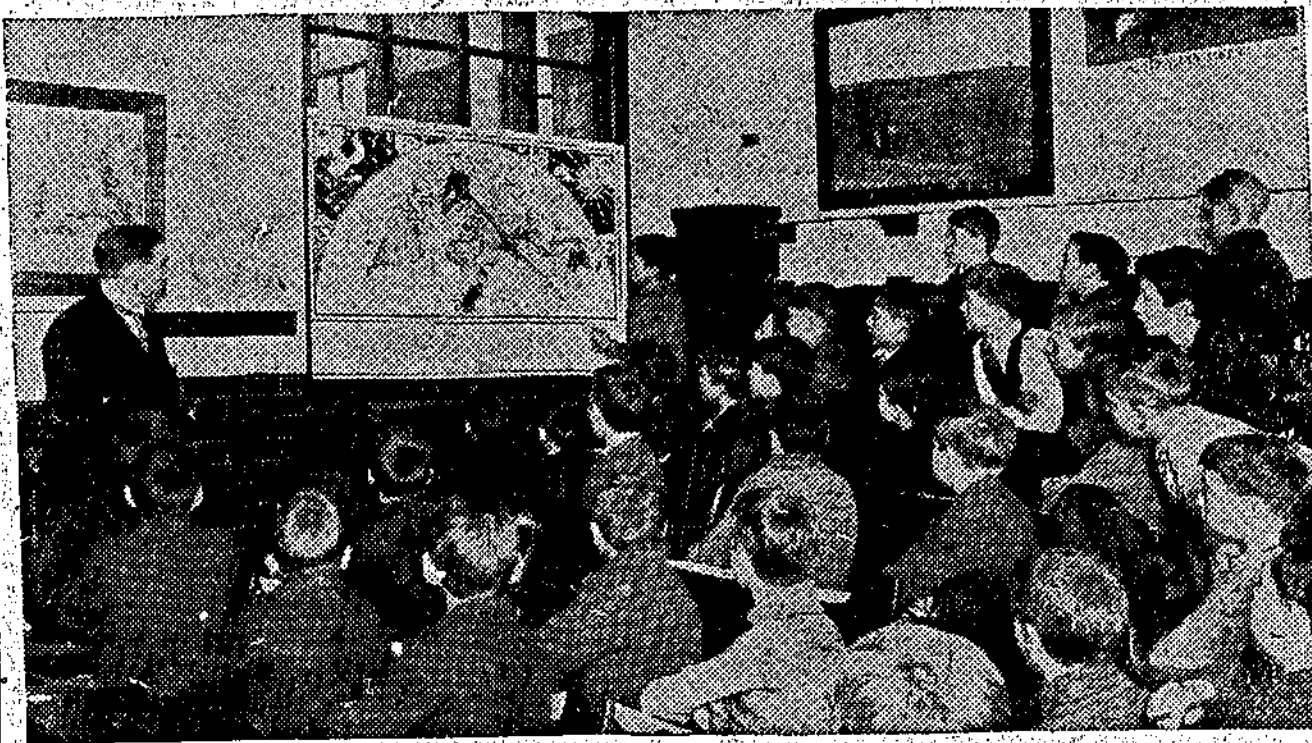

The first bottle of poison that was ever written upon that beautiful body of water.

Messrs. J. K. Thompson, J. L. McCormick and S. E. Darragh attended the Women's Institute dance at the Falls and report a most enjoyable evening.

The war canoe crew have their trial spin on Saturday night to limber up for May 24.

Mr. W. M. Dryden and Mr. John Tait were up to the funeral of the late John S. Drought at Peachland on Tuesday of this week. Mr. Drought was one of the earliest settlers there.

BRITISH SCHOOL BOYS LEARN ABOUT THE BRITISH EMPIRE

Here is a picture taken in a school in London which shows the class taking lessons on the British Empire from the map supplied to thousands of schools in the Old Country by the Empire Marketing Board. The boy with the indicator is pointing to Canada.

joyable time—good music, good crowd, good floor and good cats. The occasion was the opening of the new hall.

Mr. and Mrs. A. Conway, of Penticton, were guests at the Walker home on Sunday. They were accompanied by Mrs. Perras, who wrote "The River Saskatchewan."

Mr. Henry Thyen drove his beautiful team of Percherons to Penticton recently. One was a colt, just broken. Mr. Thyen has several of these fine animals. Babe Kruger accompanied him, returning via White Lake.

Mr. J. W. Eaton, of the Marron Lake Ranch, has made great improvements in the place during the year he has occupied it. It is a beautiful spot, and Mr. Eaton and wife see to it that it is kept spic and span.

Mr. S. E. Darragh is the proud possessor of a mother pig which has twelve sons and two daughters. So great a percentage of sons is said to be a sure sign of war.

WESTBANK

A quiet wedding was solemnized at the Peachland Union parlour on Tuesday, May 14, at 4 a.m., by Rev. Mr. Sadler, when Esther Ruth, youngest daughter of Mr. and Mrs. Ernest Smith, of Westbank, became the bride of James Angus, son of Mr. and Mrs. George Ingram, of Westbank, the only attendants being Mr. and Mrs. Douglas Gordon. The bride wore a pretty novelty ensemble, with hat to match. The gift of the groom was a gold pendant. After the ceremony the happy couple left immediately by motor for Summerland, en route to Vancouver, where the honeymoon will be spent.

Miss S. Bradford, of Armstrong, is the guest of Mr. and Mrs. J. W. Stevens at "Hardscrabble".

Mrs. Arthur Plowse (nee Miss Hilda Raymer) of Shawlgan, Vancouver Island, spent a few days recently as the guest of Mr. and Mrs. W. Brown.

The Westbank Women's Institute held a supplementary meeting on Tuesday afternoon, May 14, to discuss the possibility of securing a resident nurse for the district, and to dispose of other business which had accumulated owing to the fact that it was advised that the regular April meeting be cancelled.

On Wednesday evening a public meeting was held in the school when Miss McMann, western supervisor of the Victorian Order of Nurses, gave a splendid talk on the work of the Order, and explained the subject very clearly, with a view to forming an order for this district and Peachland. The meeting was unanimous in favoring a nurse here.

O. E. Paynter came down from the headwaters of Power's Creek last week, for supplies. He reports that practically all the snow on the slopes has melted, and that the creek cannot possibly rise any higher than it is at present, which is extremely low for this season of the year. Apparently the water shortage is general throughout the valley.

Opogogo is indeed favoring the residents here, as more neighbors claim to have seen this monster of the deep!

The Community Club held a meeting in the Co-operative packing house last Thursday evening to discuss pros and cons in re the

Safety For Your Home

It costs only a few cents a day to have a phone to call assistance in case of fire, or if you need the doctor. The feeling of security costs so little, why not have it?

Summerland Phone Co.

proposed community hall. Nothing was definitely settled, however, as it was deemed wise to submit further plans for the hall at the next meeting.

Leslie M. Howlett has received a position as fire ranger in the Bear Creek district, and leaves this week to take up his new duties at White Rock, west of Bear Creek.

Mr. Wm. R. Smith has left for Summerland, where he has been appointed bookkeeper on the survey and construction camp, which

is working on the upper highway between Peachland and Summerland.

Quite a number of local young people motored to Penticton on Saturday to take in the track meet.

Murray Smith returned from Vancouver, Monday, after a brief stay there, to arrange his future plans. It is understood that Murray expects to leave Westbank shortly, to make Vancouver his home.

NOTICE TO GROWERS of Tree Fruits and Vegetables.

In order to make the operations of the Produce Marketing Act of more benefit to growers it is essential that information be obtained by the Committee of Direction from all growers regarding acreage, plantings and shipments. Power to obtain this information is contained in Section 11 (f) of the 1929 Amendments.

Forms for this purpose may be obtained from any licensed shipper or from the Committee of Direction. These forms should be filled in by growers and returned before July 1st, 1929.

Failure to return form by the above date constitutes a breach of the Produce Marketing Act and makes the grower liable to the penalties provided in the Act.

INTERIOR TREE FRUIT AND VEGETABLE COMMITTEE OF DIRECTION Kelowna, B.C. 21-1-c

LOCAL HAPPENINGS

Mr. Harry Webb was a visitor to Summerland on Saturday last.

Mrs. M. Barr left for Port Alberni on Thursday last.

Mr. Alex Smith, a student of U.B.C., is visiting relatives here.

Dr. McKeechne of Vancouver, was in town on Sunday last.

Next year's Canadian Legion convention is to be held at Nelson.

Mrs. Holder went down to the Coast to spend a month's vacation there.

Mrs. and Miss Hack are spending a pleasant holiday with Mr. and Mrs. B. Stewart, of Kimberley.

Mrs. Wyden came up from the Coast on Monday to visit with her parents, Mr. and Mrs. H. H. Eisey.

We stand behind the Tennis Shoes we sell. Bear's Shoe Store. 21-1-c

Mr. E. Bateman was in from the Coast this week, calling at Mrs. Dale's on his way to Kelowna.

See our Tennis Footwear; you will be pleased with it. Bear's Shoe Store.

Summerland had a friendly game of baseball with Peachland on the school diamond on Tuesday evening.

Mr. H. Neill is having two weeks' vacation from the C.P.R. office here, and Mr. A. A. Johnston, of Kelowna, is relieving.

Mrs. E. Payne and Miss Doris Payne from Vancouver, were visiting Miss Olive Grant this week, leaving by car on Wednesday for Seattle.

Miss Isobel Lancaster was a visitor from Armstrong over the week-end with Mr. and Mrs. Magnus Tait. She came down to take in the field day sports at Penticton.

Mrs. Gayton Sr. left Summerland by Tuesday morning's boat for a visit to her old home in New Brunswick. Her long trip is made much more pleasant by having relatives and friends to visit at various points along the way. She expects to spend the winter in the States, returning home sometime during the following year.

TWENTY YEARS AGO

At a meeting of the Summerland Rifle Association it was arranged that, on Empire Day, May 24, the Overseas Mail rifle competition will be shot for, the range being open all day so that members can shoot over the distance either in the morning or afternoon. Prize lists and entry forms for the Okanagan rifle shoot at Vernon on June 2, 3 and 4, are now on hand and can be obtained from the secretary.

A typical prairie schooner blew into Summerland a few mornings ago bringing with it a breath of rain, before the smoke and roar of the locomotive was heard in the land. The outfit consisted of a strong wagon with good strong brakes, pulled by a stout team of horses. The wagon box was covered in caravan style with an oilcloth covering, and there were three passengers, Mr. and Mrs. Cunkey and daughter. They were moving down into the state of Washington.

Mr. and Mrs. J. S. Campbell, late of Calcutta, India, were in town this week.

Sunday's heavy rains have gladdened the hearts of the orchardists, and the whole district is now massed of blossom. The rain was the first this season and one of the heaviest on record.

F. R. Ackland, T. B. Ackland and J. Birch, three young Englishmen just out from the old land, came into Summerland this week and have located in the Meadow Valley district.

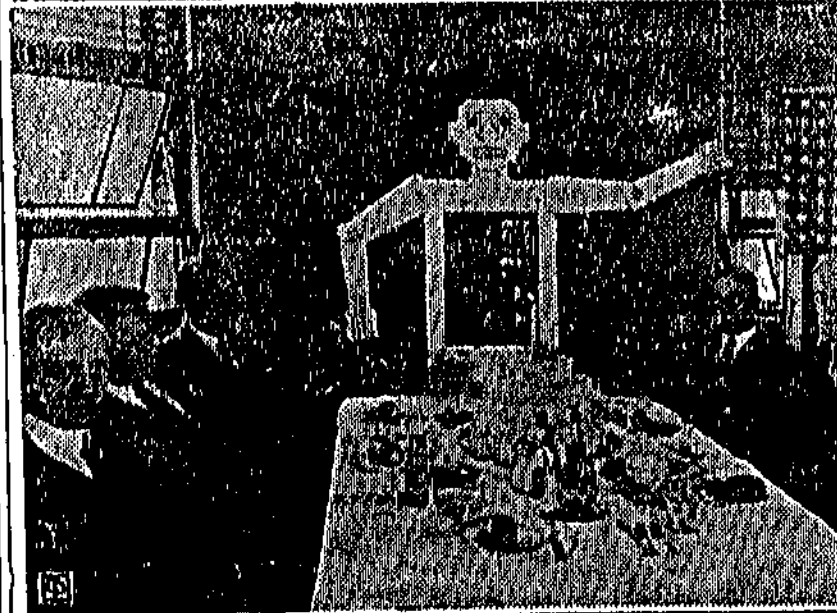

Another year at the Hill has gone into history. The annual commencement exercises took place last night in College Hall. A large and representative audience of friends and citizens greeted the student body. The chapel was filled to overflowing when Dr. Sawyer, principal, took his seat on the platform. The faculty, visiting speakers and graduating students took their respective places, as a piano duet was rendered by Messrs. Peck and C. McNoll, of the junior class. An interesting program had been arranged which included the presentation of diplomas. Wednesday had been reserved for the college sports day with a long list of events. The college cheer society also had its closing concert this week, which was a decided success.

The steamer Aberdeen leaves Okanagan Landing on Monday morning, the 24th, at 6 o'clock, calling at all points. Returning it leaves Summerland at 7 in the evening.

The war canoe crew have their trial spin on Saturday night to limber up for May 24.

Mr. W. M. Dryden and Mr. John Tait were up to the funeral of the late John S. Drought at Peachland on Tuesday of this week. Mr. Drought was one of the earliest settlers there.

TOURNAMENT CAPTURED BY SUMMERLAND

Ball Games at Oliver on Empire Day Won By Northern Town

PENITENCE LOSES TO OLIVER, 6 to 5

In First Contest Summerland Swamps Peachland 15 to 5

Oliver—Penitence baseballers put up a sterling battle in their fight for the Empire Day tournament on May 24 at Oliver, losing to the Cantaloupes 6-5.

Summerland won out from Oliver in the final game after a hard tussle, by an 11-9 score.

The first game, in the morning, was between Summerland and Peachland, with the result that Summerland walked all over the northern team...

Oliver got one run in the second inning but was unable to score...

Summerland won the advantage of a steady hurler with a great amount of seam on the ball...

LABOR SWEEPS CONSERVATIVES OUT OF POWER IN OLD COUNTRY ELECTIONS, BUT LACKS MAJORITY

Two Hundred and Eighty One Laborites Are Elected

BALDWIN'S FOLLOWERS LOSE 119 RIDINGS

All Three Party Leaders Are Successful in Holding Seats

(Special to The Review) London, May 31.—After 231 Laborites had been declared elected to the House of Commons, Thursday, Conservative newspapers conceded a Socialist victory.

The standing at 5.20 p.m. today was: Labor, 287, a net gain of 127; Conservatives, 248, a net loss of 119; Liberals, 46, a gain of 8, and others, 1.

Leaders are Re-elected Premier Baldwin, Lloyd George and Ramsay MacDonald were all re-elected, being included in the Conservative list.

THE SUMMERLAND REVIEW (Published at Summerland, B.C.) Established August, 1908

WALTER M. WRIGHT, Editor and Manager Member of Canada Weekly Newspapers Association

CONTROLLING CANADA THISTLE

In one or two places here, Canada Thistle has secured quite a firm hold, and it is not an easy weed to exterminate.

The control, for its success, demands attention to two things—the seeding habit and the rooting habit of the plant.

The seed menace requires that all stragglers in waste places, along roadsides, etc., be destroyed before maturity, by cutting, salting and pasturing, plowing under, or otherwise.

Field infestations themselves are ordinarily best dealt with by the method of starvation.

There are signs that, both in regard to the railway rates and emergency tariff questions, the Dominion government is commencing to realize that the discontent of the people of British Columbia is assuming a seriousness that demands consideration.

CANTALOUPE PRODUCTION

The following information will be of interest to cantaloupe growers, being a birdseye view of the cantaloupe crop in important United States shipping districts:

Imperial Valley, California—Acreage larger than last year, 38,360 against 33,480 in 1928, when 15,800 cars were shipped; yield per acre not expected as heavy as last year, and shipments may not run much over last season; quality promises good; first car out last Saturday; fast deal promised for next 60 days with peak of 600 cars daily possible; season opening later than usual.

Turlock, Calif. district—Decrease in cantaloupe acreage of 1,000 acres from last year, but Honey Dews, Persian melons and Casabas 2,000-acre increase; cantaloupe acreage estimated 4,000 acres, other varieties 6,000 acres. Movement begins early in July.

Merced County district, California—Acreage estimated 2,291 acres cantaloupes, against 1,990 in 1928; watermelons 2,064 this year, 1,150 last; Casabas 1,142 acres, 372 last year; movement begins early in July.

Arkansas Valley, Colorado (Rocky Ford section)—Acreage estimated 7,000 acres against 8,700 last year; 2,500 acres Honey Dews against 2,000 last year; movement begins about August 10.

Arizona, Salt River Valley—Acreage 10,326 acres, slightly above last year, yield probably little less than 1928; begins movement June 26; peak shipments July 10 to 15.

New Mexico—Estimated acreage 1,800 acres against 1,400 last year; 700 cars expected against 638 in 1928; begins moving July 10 to 12, peak last of July or first of August.

Arkansas—Acreage reduced 25 per cent. last year; movement 841 cars; movement southwestern part of state begins July 5 to 10 and up to July 25 in other sections.

North Carolina—Acreage northern part of state about same as last year; Scotland county 400 acres against 1,850 acres last year; total state, 700 acres against 2,350 in 1928. Maryland-Delaware crop about same as last year. North Carolina movement begins July 10 to 20.

Florida—Acreage about same as last year, 900 acres; Georgia crop about same as last year, starting June 5 to 10; crop not as large as commercial proposition. Indiana, Decker district—About 125 cars, same as last year; Johnson, 200 cars, 700 cars, against 800 last year.

Texas—Around 250 acres at Cotulla, ready May 20 to 25; 200 acres at Asherton, ready May 25 to June 1. Other states—Usual crop expected; commercial districts not so important as most of above.

A FATAL POLICY

The Merritt Hospital Board recently decided to close its meetings to the press, in other words, to the public. This arose because recent comments in the newspaper resulted in the resignation of the hospital matron.

Now the board decides that anything its members propose to say will be said in private. Which is rather a pity. Too many directors of public organizations are smitten with the idea that their deliberations are sacrosanct.

True, there are occasions when delicate negotiations or the like demand a degree of temporary privacy. But reasonable boards, above and beyond the limitations of the "small town" spirit, meet such a situation by means of a committee meeting.

But Merritt thinks it knows better. Some day, when an unenlightened public turns upon a cannibal-like board, the hospital directors there will see their mistake.

WORLD OF POLITICS (By an Ex-Writer of the Ottawa Press Gallery)

The decision of the Kelowna conference of last week to consider the railway rates problem to get behind Premier Tolmie and the provincial government in its fight for equality of treatment of British

Columbia by the railways should win the approval of all who have given thought to the matter. The average man is very much of an amateur when it comes to consideration of rate schedules and, as Mr. W. F. Kennedy, M.L.A., pointed out, there are lots of pitfalls to be avoided in dealing with so intricate a question.

There are signs that, both in regard to the railway rates and emergency tariff questions, the Dominion government is commencing to realize that the discontent of the people of British Columbia is assuming a seriousness that demands consideration.

RE-ORGANIZATION OF CIVIL SERVICE

Last week's criticism of the provincial government was voiced in this column because of recent dismissals of civil servants and alleged political interference in various ways. Statements issued by the ministers of the Crown after the article were written put the government in a better light in some respects.

MR. EULER AND THE UNITED STATES

It is not strange that Hon. W. D. Euler's frank speech in the House of Commons relative to Canada's refusal to date to outlaw clearances of liquor cargoes for United States ports should evoke opposing editorial opinions.

PROVINCE HOLDS CONTRARY VIEW

Under the caption, "Mr. Euler Speaks Out," The Province and the other hand says: "Mr. Euler was right to remind the United States once more—and the reminder is just as relevant in Canada—that Canada has gone out of her way to do many extraordinary things to show her friendship for the United States in the matter of the prohibition law.

SILVER VEINS AT BEAVERDELL LARGE AND RICH

Beaver and Wellington Properties Are Showing Up Well

BIG SHOWING OF STUFF IN BEAVER

Latest reports of the opening up of rich silver veins in the Beaver and the Wellington at Beaverdell indicate that the finds are considerably more important than at first indicated.

It is said that the ore vein found on the Beaver points to the presence of the richest of medium grade ore ever found on the hill. Ed. Nordman, former superintendent of the Sally, is now operating the Beaver for C. M. Oliver interests at the Coast.

The vein struck on the Wellington is said to be quite rich and of considerable width. This mine operated by Supt. Morrison and associates recently received some financial assistance from the Consolidated in connection with the taking of certain equipment and the loading of ore.

Some weeks ago they struck a good vein which has since widened out. Recent unconfirmed reports are that there is half a million dollars worth of ore in sight.

Orchards in Southern End Okanagan Looking Well

(Continued from Page 1)

come through the winter in fair condition, but there has been a certain amount of injury to both strawberry and raspberry plants. This varies with the varieties and the soil conditions.

Vegetable crops are all doing fairly well this season. There is a decrease in the acreage of onions and the potato acreage may possibly be a little higher than 1928. The tomato acreage will be very much increased over last season.

RE-ORGANIZATION OF CIVIL SERVICE

Last week's criticism of the provincial government was voiced in this column because of recent dismissals of civil servants and alleged political interference in various ways. Statements issued by the ministers of the Crown after the article were written put the government in a better light in some respects.

Indications are that the apple crop will be lighter than 1928. Cherries, plums, prunes and pears are all showing a fair prospect.

Tomatoes are about all planted, and indications are for an average crop. Apples have just been completed, and the acreage is larger than last year, approximately 600 acres.

Strawberries are just starting to bloom and the plants in most sections are looking good. The production for the whole district will be less as there has been a decrease in acreage bearing in the Okanagan Valley.

Raspberries are just showing excellent growth at the present time. The shipping season for all small fruits will start from a week to ten days later than last year.

There is at present no indication of winter injury in the orchards though it is too early to speak definitely along this line.

Other vegetable crops are looking well for this time of year, although planting on the whole, much later than the average season.

The blossoming season in the orchards in this district is in full swing. The show of bloom on McIntosh, Winesap and Jonathan is especially good.

There will be an increase in the potato acreage planted this spring. Tomato growers are now taking their plants from the greenhouses and hardening them off.

Strawberries promise an excellent crop. There will be about the same acreage as last year to pick from, but only about half the quantity was already on the ground.

There will be about the same acreage as last year to pick from, but only about half the quantity was already on the ground.

UNCONSIDERED TRIFLES

(By AUTOLYCUS)

What to do with superfluous husbands is a problem which is said to worry many married ladies who are averse to taking drastic remedies resorted to by some of the ultra-modern specimens of their sex.

A NEW SOLUTION taking the form of a pamphlet, is being prepared by one who has a somewhat peculiarly similiar play on words or their pronunciation, and if we can tolerate the one, we should be a little lenient with the other.

There are in full bloom at present, the plums just coming in. Conditions are very favorable for pollinating in such cases, and it is only fair to say that the present instance is obviously the result of a certain maladroitness in literary expression, and has probably brought more or less embarrassment on its author.

COMING EVENTS

at the Church Hall, on Saturday, 10, the Women's Missionary Society of St. Andrew's United Church will hold a miscellaneous including home cooking, ice cream, candy and other articles. Refreshments served.

the Log Cabin will be opened to visitors from June 1 and tea to be served by Mrs. J. Clements and after June 15. 22-1-c

owna May Come Under Provincial Police Jurisdiction

showing—The proceedings of the inquiry, which concluded on May 27, were not discussed at regular meeting of the city council on Monday night, at which Mr. Sutherland, Alderman Jones, Mr. McDonald and Estabrook were in attendance, but the Mayor announced that a joint conference between the provincial government and the city would be held on Monday night, May 27, to consider whether it would be advisable to have polling of the city carried out by the provincial government, an arrangement which has been entered into with a number of the smaller cities and municipalities at the Coast. Mr. Sutherland also advised that, in connection with the appointment of a successor to the late police inspector, the Attorney-General has selected a person with the necessary qualifications and to the "Juvenile" Court jurisdiction of which was much required.

Mr. Gibson, who has had trouble with an injured arm for some time, went down to Vancouver on Tuesday of this week.

Mr. Reed Johnston is taking his vacation this week from the K.V.R. station. He may include a trip to the Coast before returning for the summer's work.

Owing to delay in being certain of the hall for the flower show, the prize list could not be printed much in advance, but a good display is assured for the Parish Hall on June 9.

Mr. and Mrs. W. McMillan returned from a motor trip to the Fraser Canyon, having been to the Coast. They were delighted with the beauties of that route.

Mr. Edward J. Minshull, from Russell, B.C., has purchased Mr. K. H. L. L. residence. Mr. Minshull, with his wife and son, arrived this week and take possession on Saturday.

Peaschland baseball team defeated a pick-up team of locals on Thursday evening. Four of the team that is to play on June 3 were with the local players. The game was arranged for practice for both teams.

Mr. Roberts, provincial bee inspector, and Mr. Sheppard, of Victoria, were demonstrators at the demonstration at the Experimental Station on Thursday afternoon which a large number attended.

Mrs. W. C. Kelley and Mrs. T. McAlpine were Summerland delegates to the recent convention at Revelstoke last week at which the provincial secretary, Mrs. J. A. Gillespie, was the principal speaker. The delegates report a very successful convention.

Mr. A. A. Johnston, who was travelling at the O.P.R., had a serious attack of appendicitis and did not realize what was the matter, returned to Kelowna. When he arrived there he was in quite a serious condition. He is reported doing very well following an operation that was necessary.

Mrs. Blowett and Mrs. A. H. McLachlan left for Victoria on Monday to attend the graduation exercises of the Jubilee Hospital which were held in the Metropolitan United Church, and at which three Summerland young ladies received diplomas—Miss Laura McLachlan, Miss Eva Johnston and Miss Jean Blowett.

"The Ojai" (California newspaper) makes the following announcement: "Mrs. Irene Huntington announced the engagement of her daughter Dorothy Lee to Mr. Fred Morgan at a dinner party given in her honor on Wednesday. Mr. Morgan comes from Devonshire, England. Miss Huntington lives with her mother on the "Trianon" ranch." The marriage between Fred Morgan and Miss Huntington took place on May 10 at Ojai. The bridegroom, who is well known in Penikese, is the son of Mrs. Frank Flunkett of Winfield, and brother of Roland Morgan of Summerland and Mrs. David Turnbull of Kelowna.

LOCAL HAPPENINGS

A carload of tin tops arrived for the box factory this week.

Ewart and Jack Bowring left by motor for Trail on Thursday.

Miss M. Behan, of Penikese, was a guest of Miss A. Gould last week-end.

Mrs. A. Cross left for her home at Campbell River on Tuesday of this week.

Mr. C. N. Macdonald was down to Vancouver on a business trip Tuesday.

Mr. and Mrs. Schwass and Freddie took a motor trip to Kamloops last week-end.

Mr. F. Mossop left for Vancouver on Sunday to take up his new work in that city.

Mr. Clarence Elsey was a passenger for the Coast on Sunday's K.V.R.

Mrs. Scott Tait is visiting friends in Summerland before leaving for Essex, Ontario.

Messrs. Downton & White received a carload of cattle from the prairies this week.

Rev. Jas. J. Smithson returned from Calgary and occupied his pulpit on Sunday last.

Mrs. W. E. Rines and Mrs. Featherstonhaugh came in on Monday morning's train from California.

Mr. Roy Wright came in Friday last from Manitoba to visit with his father, Mr. John Wright.

On Tuesday afternoon Mrs. Wm. Ritchie received many of her friends for the first time since her marriage.

Miss Jean Macdonald, Miss Dolly Terry and Miss Dot Kellogg motored down from Kamloops the first of the week.

Mr. and Mrs. Jas. Campbell, Mrs. McCurdy and Mrs. W. S. Rand expect to leave by motor this week-end for Vancouver.

Miss Bertha Johnston returned on Thursday from California to take a position again in the local hospital.

Mr. Geo. D. Rothwell, Dominion animal husbandman, was in on Wednesday and paid a visit to the Experimental Station.

Mr. Landry left for the Coast on a business trip connected with his dairy, going down by train on Wednesday.

The Co-operative sent out cheques to the members on Thursday, amounting to \$14,000. A refund is still to come, which will be sent out early in June.

The Canadian Legion Hall is receiving a coat of paint, which gives the building quite a different appearance. Mr. W. Atkinson started work on it Wednesday.

Mr. H. M. Lumsden is a visitor to town this week. He spent a few days here recently and then went on up the lake to Peachland and Kelowna, returning on Thursday.

Mr. W. C. Kelley lectured to the pupils of the Penikese high school on Thursday on Shakespeare's play, "Macbeth," a play in which Mr. Kelley has spent considerable study.

Mr. Gibson, who has had trouble with an injured arm for some time, went down to Vancouver on Tuesday of this week.

Mr. Reed Johnston is taking his vacation this week from the K.V.R. station. He may include a trip to the Coast before returning for the summer's work.

The Prince of Wales has again extended his patronage to the Banff Highland Gathering and Scottish Music Festival to be held this summer at the Banff Springs Hotel in the Rockies. Pipers, dancers, and athletes from all parts of the country compete in these popular games.

Two baby black bears were great attractions recently at the Detroit Sportsman's Show. They were from Phil Lamothe of Mattawa, Ontario, and were escorted to their destination by a member of the C. P. R. general tourist department, who had sundry scars to show in proof of the existence of the babies' first teeth.

Enough flowers are planted by the Canadian Pacific Railway each year to beautify a couple of cities. The floral branch each year sends out to station agents and employees along its line plants, bulbs, shrubs, seedlings, and seeds by the tons of thousands to decorate the company's right-of-way.

Five railway cars were required to move the equipment of the mammoth Cassavant Organ recently installed in the new Royal York Hotel in Toronto. The hotel is the tallest building in the British Empire.

Tyndall stone, which shows to such great effect in the famous Banff Springs Hotel in the Rockies, is to be used in the construction of the new building for the T. Eaton Company in Toronto, the first unit of which is now being built.

The year's champion cattle raiser in British Columbia is Annie Turner, twenty-year-old daughter of James Turner, Chilhowee Bay stock breeder. Her 14-month-old short-horn steer, sired by Bradhill Marquis and weighing around 1,100 lbs., won the grand championship of all breeds at the Kamloops bull sale and fat stock show.

Each set of equipment of the Trans-Canada Limited and Mountair, and there are no less than them, is worth upwards of a million dollars this year, the new rolling stock having added considerably to the value as well as to the attraction of the famous flyer. The C. P. R. Angus Shops at Montreal were busy all winter building special sleeping, dining, and parlor lounge cars for this special de luxe service between Montreal and Vancouver and Chicago and Vancouver.

The Indian of old could wield a wicked tomahawk, but today he can handle a modern bludge. The pale-face is threatened on the golf links by Indian golfers, and it is likely that at Banff, Alberta, the Redskins will develop even greater prowess. Indian caddies, it has been decreed, are to be used on the eighteen hole golf course at the famous mountain resort, and the rising generation of Stony Indian braves are likely to become ardent golf fans.

Speed means nothing to this young Englishman, son of the Winnipeg aviator, M. Hollick-Kenyon. He is seen this summer arriving aboard the Cunarder Aurania to join his dad. His mother and sister superintend his early efforts. The Cunard Line taught him some nautical as the Aurania passed under the famous Quebec Bridge, clearing it by only a few feet.

Track Flyer to Seek the Skies

Betty Robinson, only American girl to win a track championship at Amsterdam, is taking an aviation training course at Chicago. Miss Robinson was given the decision over "Bobby" Rosenfield in the 100-metre race at the Olympic games, causing a protest to be registered by Canadians.

COMPLAIN OF SOUTH ROADS

Washboard Effect Very Noticeable—Oliver to Seek Remedy

Oliver—Road conditions are terrible and tourists are registering complaints. The Board of Trade, in an effort to have the roads put in decent shape, is taking the matter up with the district engineer. The washboard effect is extremely noticeable and one tourist reported that he was nearly bumped out of his car, a light motor.

Previous to the visit of the Lieutenant-Governor and Hon. W. A. McKenzie, the road was put in fine shape, and residents hoped this condition would last the season. This has not been the case, and now the roads are in as bad shape as they were in the spring. No doubt, according to local road-building authorities, the wrong system has been employed in dealing with the gravel used to surface the highway. The grader appears to iron out the washboards for a few days, but the effect is not lasting. On highways over which a considerable portion of the soft fruit crop has to be hauled, it will be disastrous to the fruit if the roads are not put in better shape.

Tourists coming from across the line receive a distinct shock when they first hit the highway from Osoyoos. After the smooth roads of Washington, to run into the rough and tumble roads of this part of the district creates a decidedly unfavorable impression.

Proposals have been made to lay the main road through the town, and although the money has been appropriated, no work has been done. The Board of Trade endeavored to have this work done previous to the May 24 celebration, but so far nothing has been started.

If the condition of the highway is not changed within the near future it is probable a petition will be sent to the minister of public works in the hope that some action can be taken to put the roads in shape for automobile travel.

CLEARING ROUTE FOR NEW LINK

Nearly Three Hundred Men at Work on Procter Railway Line

Nelson—Between 200 and 300 men are now at work at clearing of the right-of-way for the Procter-Kootenay Landing railway link of the C.P.R., according to W. A. Dutton, of the firm of Dutton & Grant, contractors of Winnipeg. Between 2,000 and 3,000 men will be required for the work when organization is completed.

Mr. Dutton is conferring with Mr. Grant and is settling the more important questions of organization. Mr. Dutton stated that about half of the railway construction work has been sub-let and that the firm expected to be able to finish the line easily within the time limit of the contract, which is for a period of two years.

The contractors report that good progress is being made on the clearing of the right-of-way, which is difficult on account of the telegraph wires of the Canadian Pacific Railway Company which run along the line of work.

Work involved in the making of the grade will be of large proportions. In all, 1,500,000 cubic yards of solid rock will be moved and numerous bridges and retaining walls built. Two tunnels are also to be driven near Cultus Creek. The contractors asserted that most of the supplies would be purchased at Nelson.

During the past week, G. H. N. Monkman, of the Canadian Pacific Railway engineering department, has been in the district organizing the engineering parties required on the construction. Procter will be headquarters for the engineers.

This link between Procter and Kootenay Landing will join the Crow's Nest line to the Coast-Kootenay (K.V.R.), thus giving a new route from Vancouver to Lethbridge and the southern prairies. It is to be finished by the end of next year.

KRUGER MOUNTAIN DRIFTING BACK TO RANGE CONDITIONS BECAUSE OF DRY WEATHER

Osoyoos—Kruger Mountain, just west of Osoyoos and south of the Richter Pass road, gave promise a few years ago of becoming a thriving district. It is now a desolate waste. Twelve years ago there were 22 settlers on Kruger. Today the most striking thing a visitor would note would be the number of deserted homes, crumbling mountains of blasted hopes.

Only four settlers now remain, and some of them express the hope that they will be the next to move. Seemingly the district is fast drifting back to what it is apparently best adapted for—a stock range. The average rainfall on the mountain is much too light to insure the farmer on a small area a sufficient crop to provide a fair livelihood.

Old timers will tell of the wonderful grass when they located there; then followed years of drought and grasshoppers, which, coupled with a heavy stocking of the range, soon meant barren hills. Through the inspiration of hope, many held on for years, but the day of knee-high bunch grass never came back. Farmers on Anarchist and Kruger mountains are anxious to look for rain. Some growers on Kruger Mountain report that they do not expect their crops will be worth harvesting, and they will be forced to dispose of some of their cattle or look elsewhere for food.

Reports from Anarchist Mountain state that some of the fall wheat crops are looking very fair, but that rain will be essential in the very near future if a fair stand is to be maintained. Little is expected of spring-planted crops.

Complete Long Trip—Dr. and Mrs. W. S. Plasket, of Clinton, Mass., arrived at Osoyoos on Saturday. They have just completed a tour started last fall when they went south to Florida, where they spent the winter; thence west to California, then north to B.C. The Okanagan looks north to B.C. and they will spend the summer here and possibly permanently locate in the valley.

R. P. Murray and T. Andrews, of Penikese, were among recent feeders here, on pleasure bent. They spent a few hours on the lake and report plenty of room there for fish. They wound up the day with a couple of rounds on the golf course accompanied by Messrs. Carless and Plasket.

Miss Margaret Kehoe and Miss Elsie Sim enjoyed a real hike last Saturday evening, walking all the way from Osoyoos to Mr. Kehoe's ranch on Anarchist Mountain. The distance is between twelve and fourteen miles, and the girls made it in four hours, which is fast time for mountain climbing even by highway.

Mr. Ian Brown has fitted up the building formerly used for a post office for a restaurant, and is ready to meet the requirements of the district along that line.

Raising Purebreds—Mr. E. Lacey, who moved from Kruger Mountain to a recently-located location on Osoyoos benches, where he will continue the breeding of purebred Jersey cattle, sold

two fine cows last week. The Dominion Experimental Farm at Summerland purchased the animals, and the price paid was \$300. This makes a total of four cows that Mr. Lacey has disposed of to the Farm within a year, which speaks well for the type of stock he is producing.

Practically all the young people of Osoyoos took in the dance at Oliver on the evening of May 24. A good time is generally reported, coupled with some criticism of Indians and some white men under the influence of intoxicants, rendering them obnoxious.

Tournament Captured By Summerland

(Continued from Page One) tired, however, after playing two games during the day.

Table with columns: Name, AB, R, H, PO, A, E. Lists scores for various players like Oliver, Batesee, Manuel, etc.

Major G. H. Scott, chosen by the British government to pilot the great R-100 on its maiden voyage to Canada.

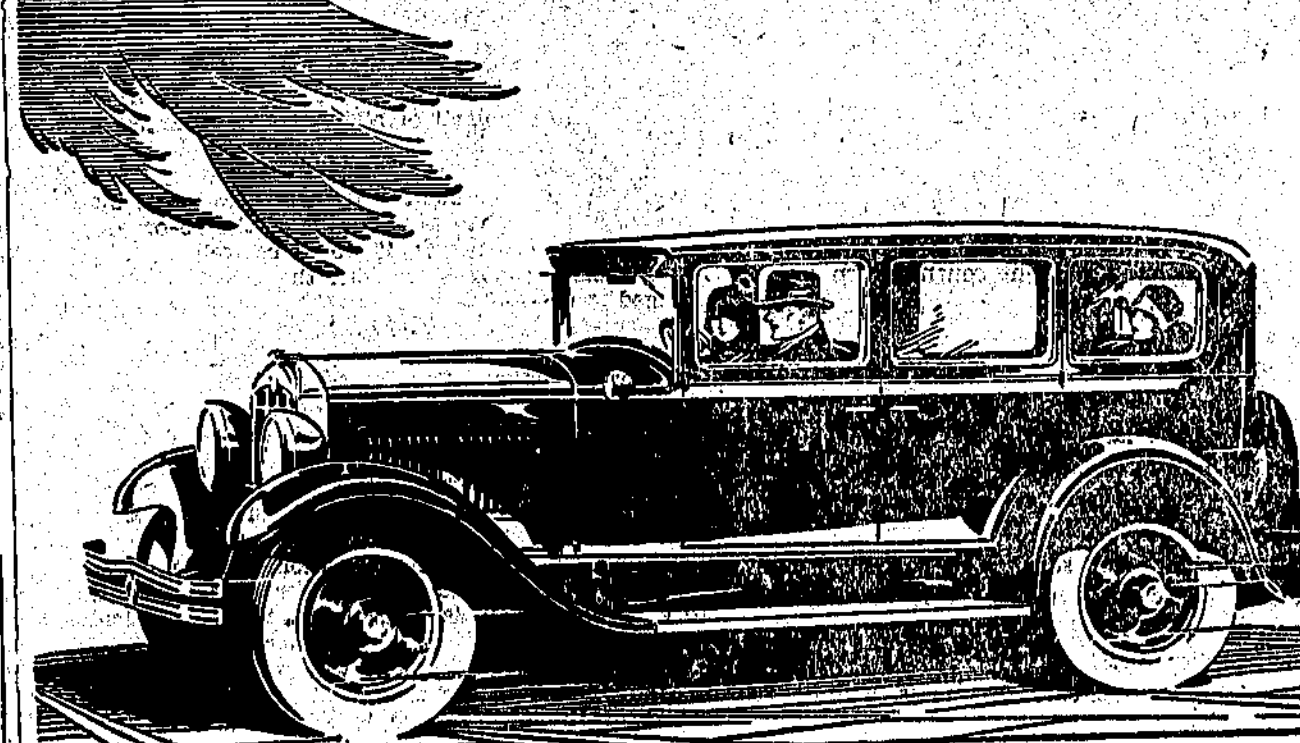

Safety For Your Home

It costs only a few cents a day to have a phone to call assistance in case of fire, or if you need the doctor. The feeling of security costs so little, why not have it?
