

# Worst Hail Storm Valley History Means Huge Grower Loss

Hail stones, measuring in some instances nearly two inches across, pelted down on about one-third of Summerland's tree fruit acreage late Monday afternoon, causing a loss of some 50,000 boxes of apples with corresponding damage to peaches, pears and other soft fruits, including the balance of the apricot crop not yet harvested.

Some Parts Missed  
The southern end of the valley, from Osoyoos to Penticton and Naramata, missed the storm entirely, as did Peachland and Westbank, and from Oyama north. It didn't even rain at Westbank.

Dave McNeil, B.C. Tree Fruits sales manager, told The Review on Wednesday that their early calculations indicated ten per cent of the total apple crop has been destroyed, which would mean a loss of 750,000 boxes, at least, as the original Okanagan crop estimate had been boosted from 7,153,460 boxes to about 8,000,000 boxes.

Cannery apricots received the brunt of the 'cot loss, as the fresh fruit varieties were mainly picked. Total apricot loss is placed at ten per cent, or about 35,000 crates.

Some sections of peaches were nearly wiped out, but the overall loss is ten per cent. One orchard in Summerland had 130 tons of canneries peaches and it is unlikely if more than 50 tons will be picked. Okanagan peach loss would thus run about 150,000 boxes.

Pear loss will run to 15 per cent of the total crop, or some 60,000 boxes. Crabapples are also five per cent loss, while prunes will run 10 per cent; tomatoes 5 per cent, and onions 8 per cent, B.C. Tree Fruits, Ltd., estimates.

These figures are now believed to be high but no further recount will be possible for the next week, until smaller bruising on tree fruits begins to show up. Some growers who were not in the path of the big storm but who received smaller pellets of hail will have some loss which doesn't show now.

Storm Path  
This storm originated as far as the Okanagan is concerned near the headwaters of Trout Creek, and roared down that valley, swinging along the south-east side of Giant's Head and curving north to Okanagan Mission and the Kelowna district. It dwindled to an end before reaching Oyama.

The roar of the storm could be heard all over this district as it approached. There was a dull roar like distant thunder, as the hail lashed down from the mountains.

Alex W. Watts, district field inspector for the B.C. government considers that about 900 acres of the Summerland district were in the path of the severe hail storm. Other sections were also included in the first hail which fell about an hour earlier but which was not severe. The main storm descended between 5 and 5:30 o'clock Monday afternoon.

The orchard district which felt the full brunt of the hail were Trout Creek Valley, past Paradise Flat, the Experimental Station, Giant's Head road and (Continued on Page Two)

## Reeve Powell Admits Dump Was Neglected

"We have to admit that there was a neglect on the part of the municipality in not looking after the municipal dump properly," confessed Reeve W. R. Powell at last Monday's council meeting, when the council considered a letter from Major Twoddy which held the municipality responsible for the damage created by the Sunday afternoon blaze in the vicinity of the dump at the head of Prairie Valley.

At the same time, His Worship pointed to the negligence of those using the dump area and not placing material in the designated areas.

Following the big blaze of Sunday, July 21, which threatened many acres of valuable orchard land, Water Foreman E. Korcher informed the council that the fire seemed to have started beside Shingle Creek road in the vicinity of the municipal dump. But he could not state whether it had started on municipal property or on government-owned land.

On Monday, the council was still unaware of this important factor and ordered steps to be taken to acquaint it with the facts. Municipal Clerk Nixon was also instructed to obtain legal advice on the municipality's responsibility in this question.

"If there was negligence on our part then I agree we should pay Major Twoddy, but if the fire didn't start in the dump, (Continued on Page Six)

## Grandson of Local Couple Is Drowned

Albert Raymond Doherty, son of Mr. and Mrs. Albert Doherty, of Penticton and grandson of Mr. and Mrs. George H. Doherty, of Summerland was drowned in Skaha Lake on Sunday afternoon about 2 o'clock, when he stepped off a sandbar near the junction of Okanagan river and the lake.

The thirteen-year-old lad was playing with a girl and another boy in shallow water but the trio suddenly stepped over their depth. The girl was rescued by her companion but young Doherty sank and did not come to the surface again.

Nearly bathers were not attracted to the scene as the youngsters had been noisily playing and their shouts did not mean anything different.

Attempts on Sunday and Monday to locate the body failed but on Tuesday morning a party consisting of the boy's father and grandfather, accompanied by Bert and Alex Cramer, of Penticton, dragged the waters and discovered the drowned boy.

The unfortunate victim had been spending the holidays with his grandparents until Sunday morning, when he returned to Penticton.

Funeral services are being held this afternoon, Thursday, at 2 o'clock from St. Saviour's Anglican church, Penticton, with Rev. W. S. Beames officiating. Interment will be in the Lakeview cemetery where the I.O.O.F. will conduct the service.

## Scholarship Trust Deed Is Prepared

Summerland council has been asked to become trustees of the Summerland Scholarship Fund, which will provide an annual scholarship of \$250 per year for a graduate of the local high school who shows the most promise and who wishes to continue his studies at university.

It is planned that the student would continue studies at U.B.C., if suitable courses are available, or if they are unattainable in this province, the scholarship can be used to augment studies at another Canadian university.

The reeve, the principal of the high school and the principal of the elementary school will form the selection committee choosing the recipient of the annual reward.

In the official trust deed which has been prepared, the donors are mentioned as W. C. Kelley and F. W. Andrew and others residing in the province who have made contributions.

Dr. Andrew and Mr. Kelley were the originators of this scholarship fund plan which also was sponsored and mainly brought along by the U.B.C. Alumni Association.

Reeve W. R. Powell suggested on Monday that the names of all donors should be given on the trust deed, and if this was done the council would place its seal of approval on the legal form.

Municipal Clerk F. J. Nixon was instructed to acquaint Mr. John Atkins, who drew up the deed, with the council's wishes in this respect.

## Exam Results

Complete results of the examinations for Summerland high school pupils who sought university entrance in June have now been received. The pass list is as follows:

Joan Bennett, Beverly Cousins, Phyllis Dawson, Myles Dodwell, Joyce Elsey, Marlan Harvey, Donna Haskins, Phyllis Hickson, Laurence Hookham, Yuriko Jomori (supp. in mathematics), Alfred Kita, Richard Yainabs.

## FOUR DUNSDONS TOP RIFLE SCORE

Four Dunsdons topped the scorers at the rifle range last Sunday morning, with Ted Dunsdon being the winner of the day's shoot with a score of 94. A. R. Dunsdon had 93, G. M. Dunsdon dropped down from top

## Dogs at Powell Beach Nuisance

An effort will be made by the municipal council parks committee to alleviate the dog nuisance at Powell Beach. Under the pound bylaw, dogs not on a leash may be incarcerated, it was intimated at the council session on Monday.

Numerous dogs have cavorted on Powell Beach in the past few weeks to the detriment of picnic parties and bathers, who have complained bitterly of the nuisance.

It is within the council's power to impound these dogs who roam unattended, but the municipal fathers are loathe to take drastic action. They would be much happier if dog owners would realize what a nuisance their canine friends can become and keep them under control.

Magnus Tait has been appointed caretaker of Powell Beach with a nominal remuneration of \$25 for the season. He has no power to arrest miscreants at the beach but may warn wrong doers and, if necessary, can take steps to lay charges in court.

Mr. Tait's main purpose will be to see that municipal property is undamaged and that beach parties do not abuse the property placed there for the use of all bathers and picnickers.

At the end of the season, Mr. Tait will be asked to supervise the removal of municipal property which would be endangered by the winter elements and also human elements who prove thoughtless of property of public value.

## Hard Surfacing of Giant's Head Road Well Underway

First car of asphalt has been laid on the Giant's Head road this week with a second car expected here on Monday to complete that road in the 1946 municipal hard-surfacing program.

The second car will take the hard surfacing to Happy Valley it is expected.

Reeve W. R. Powell reported a good job is being accomplished by the roads department but the other municipal roads have had to be neglected. Peaches will be moving soon, he pointed out, and these roads will have to have more attention.

His suggestion that a third truck be pressed into use was adopted by the council and this vehicle will be utilized to help haul material from the rock crusher.

Until the end of the week, it is expected that crushed rock will be hauled onto the other roads and the grader used to make them more passable. Then the equipment goes back on the hard surfacing.

One snag was met by the roads department this week when Pen-

## Work At Powell Beach Is Praised By Swim Director

Amazement at the organization and the standard of instruction being received by members of the Summerland board of trade swim classes at Powell Beach was expressed last week by H. D. Whittle, provincial director of swim instructors for the Canadian Red Cross society.

Mr. Whittle was holding a class for instructors in the South Okanagan, at Penticton, and visited Summerland on Thursday afternoon when the swim classes were going full tilt, with an enrollment of approximately 175 youngsters.

The Vancouver visitor has travelled across Canada in his capacity as swim instructor and he informed the local enthusiasts that Summerland's showing would be a credit to any community many times as large.

These swim classes were organized by a board of trade committee consisting of Fred Schumann, Len Hill and Mel Ducommun.

Lavella Day, Eileen Inglis, Mary Vanderburgh, Gordon Berge, and several others have been assisting this committee in its efforts to teach youngsters the rudiments of swimming.

The trade board also instigated the building of the rafts at Powell Beach and these have been a big boon to the swim classes and to youngsters and

grown-ups alike who have been travelling to the beach at every given opportunity during the hot weather.

Workers from the packing houses co-operated with the trade board in erecting these rafts.

When told of the work being accomplished by the Summerland swim classes, Mr. Whittle brought the entire instructional class from Penticton to Powell Beach last Thursday and expressed amazement at the organization obtained by such a small group of volunteers contending with such a large swim class.

He considered that the methods of instruction were at a high level and gave the local instructors some good pointers on their work.

## NO WAR CANOE FOR REGATTA

"There hasn't been sufficient interest shown, so I don't see how we can enter a team this year," Don Tait informed The Review on Tuesday evening, when asked about Summerland's entry into the war canoe races at the Kelowna regatta on August 7 and 8.

Don Tait has tried hard to arouse sufficient interest in a war canoe crew and was meeting with fair response. However, he feels that, after Monday night's poor turnout it is pretty well a hopeless job.

"I guess we'll have to wait until next year to enter a crew," he sadly concluded.

To date, there have been no entries from Summerland in any of the swimming or diving events, at this big swim gala in Kelowna.

## W. A. McAdam in Penticton Today

Five members of the Summerland Board of Trade are attending a dinner meeting in Penticton tonight to hear W. A. McAdam, agent-general for B.C. in London, Eng., who is on a tour of this province. The banquet at the Nicola hotel is being held by the Penticton trade board.

Efforts are being made to have Mr. McAdam inspect the Summerland area while in the valley but it is not known yet if he will have the time. With Mr. McAdam is G. Rowbottom, deputy minister of trade and industry.

Mr. McAdam is expected to arrive in Penticton today.

## Two Local Residents in Greyhound Accident; No Fatalities In Crash

Fifteen persons were taken to hospital on Saturday evening following a near-fatal accident near Powers creek bridge, south of Westbank, when a big Greyhound bus careened off the highway and nosed down fifty feet, coming to a sudden halt against a tree.

Two Summerland residents were passengers in the bus, B. Miya, a Japanese, being taken to Summerland hospital for abrasions to his face and legs, and Jack Miller, Crescent Beach, escaping with a few bruises and a general shaking up.

Faulty Steering Gear  
The big, south-bound bus had cleared the curved bridge over Powers creek about 8:45 o'clock Saturday night when the steering gear seemed to lock and the bus went off the road on the left hand side on the first turn, 75 yards south of the bridge.

The Greyhound went straight off the road and careened down the slope to come to a halt against trees fifty feet down. If the bus had gone over 25 yards farther along, there was nothing to prevent a clear plunge of some 400 feet into the waters of Powers creek.

Nearly all the passengers were rudely bounced out of their seats, many of them landing full tilt at the front of the bus.

Mr. Miller was unseated and landed near the bus front but escaped any serious injuries.

An ambulance from Kelowna was summoned and injured persons were rushed back to the Orchard City hospital. A special bus was brought from Penticton to take the uninjured passengers on their journey.

To Hospital Here  
Mr. Miya was admitted to the hospital here on Saturday and remained until Tuesday, by which time he had recovered from his facial and leg injuries.

Damage to the Greyhound is estimated between \$400 and \$500 Mr. Bob Lochore, Greyhound manager at Penticton, indicates. Faulty steering gear has been blamed for the accident, Mr. Lochore states. Tony Bach, of Armstrong, was the driver of the bus.

On Wednesday evening, all the injured passengers were making a rapid recovery.

## Fastball Girls In Clout Fest

Summerland 25, Oliver 23. That was the score of last Sunday's girls' fastball contest on the local diamond, when Oliver visited, believe it or not, and only those who witnessed the high scoring contest, would be able to believe their eyes.

To say that the game was a loosely-played, free slugging match is just putting it mildly, but Summerland was never headed after the first frame. But it was close, mind you.

Muriel Barr started in the box for the winners but was relieved in the fourth after she had allowed six runs in that canto; Doreen Howard, replaced her, but she also yielded up a flock of runs helped by her team-mates' miscues.

Oliver's really bad inning was the second when Summerland took a commanding 12-2 lead, ten runs coming across in that one frame. Fleming was allowed to finish the inning but was then relieved by Perlock who did a bit better.

Only bright spot in the entire day's fielding was the performance of Kilx in left field. That little lassie picked off six dandy catches and was a bulwark of strength for the winners.

Johnston, at third base, had a particularly bad day, while Heickert, at first, made three bingles in a row, the first errors she has made all season.

It must have been the heat. Summerland travels to Oliver next Sunday for the final game of the league schedule before the play-offs commence.

The teams were as follows: Summerland—Lewis cf, Heickert 1b, Day ss, 2b, Barr p, ss, 3b, Ward rf, Kilx lf, Johnston 3b, Howard 2b, p, Glasor c, Tada 2b.

Oliver—Hutton 1b, 3b, M. Gludovatz cf, lf, Perlock 3b, p, Hodges ss, J. Fleming c, Alarie 2b, K. Gludovatz rf, c, Tompkins lf, cf, rf, M. Fleming p. 1b.

Score by Innings:  
Oliver—1 1 3 7 1 5 2 3 0—28  
Summerland—2 10 1 2 5 3 2 0 x—25

## ARMY CADETS

At the annual inspection of army cadets, at their summer camp at Chilliwack, Myles Dodwell, of Summerland, was officer commanding the parade when the cadets were inspected by Brig. E. C. Plow, in charge of M.D. XI.

The Summerland cadets returned here this week after the camp break-up, stating that this was the best organized function of the kind ever held at Chilliwack.

## Hospital Work Bid Goes To W. Jenkinson

Summerland Hospital Board has approved a tender of \$32,587 for the proposed addition and nurses' home at the hospital plant here. W. M. Jenkinson, an old-time resident of Summerland who has just returned to this district after spending the war years in eastern Canada has been awarded the contract.

No formal signatures are affixed yet and will not be until the council has accepted an offer for \$30,000 Municipality of Summerland debentures which have been offered. Bids on these bonds will be opened at the adjourned council session on Friday afternoon.

When this formality has been concluded the hospital board may proceed with its contract with Mr. Jenkinson.

Only one other bid for the general construction work was received, that being from Bennett & White, Vancouver firm, who tendered on a cost plus a fixed fee of \$4,500 basis. This tender the board turned down in favor of the local bid. Mr. Jenkinson is protected in his bid by stipulating that this figure is subject to any rise in the price of materials after June 29 of this year.

It is hoped that work on the new nurses' home and the addition to the present hospital will get underway within the next week. Mr. Jenkinson has promised the board an early start, as soon as the municipal council has provided the necessary funds through sale of the debentures.

## Fly to Ottawa on Box Shook Deal

S. M. Simpson, representing interior box shook manufacturers and L. R. Stephens, of the B.C. Shippers Federation and the box shook committee of the B.C.F.G.A. left Vancouver by air for Ottawa this week to meet War Time Prices and Trade Board heads.

The mill operators have been pressing for an increase in box shook prices because of the increase in lumber prices and the wage increases which have been put into effect. Their case and the point of view of the fruit and vegetable industry will be presented to Dominion officials.

The mill operators have been pressing for an increase in box shook prices because of the increase in lumber prices and the wage increases which have been put into effect. Their case and the point of view of the fruit and vegetable industry will be presented to Dominion officials.

## Electric Light Bylaw Being Amended

Three readings to the amended electric light bylaw were passed by the Summerland council on Monday. This new bylaw provides for a continuation of the council policy of allowing new services to the present system to applicants and a rebate to the first applicants when other users tie in with the extended service.

In the case of electric light and power extensions, the council assumes \$110 of the cost and the applicant pays the balance. If a second user comes into the picture at a later date, then the balance over \$110 is divided equally between the two users and the first applicant receives a refund of half the amount he originally expended.

Each contract of this nature will extend over a five-year period, it is planned.

This has been the system adopted latterly by the council but it has never been included as part of the electric light bylaw. The department of municipal affairs has assisted the municipality in the drawing up of the amended document.

In the case of extra service being provided for electric ranges, the council agrees to pay the first \$60 of the expense involved to provide the extra service.

Applications for electric light and power were approved on Monday, among these being (Continued on Page Two)

**Rutland And Peachland In First Spot Tie**

Peachland climbed back into a tie for first place on Sunday, defeating Osoyoos, 3-1, at Osoyoos. Rutland was defeated at Cawston, 12-3.

Harold Cousins allowed only three scattered hits and struck out 19. He was wild at times, however, and gave up five bases on balls. The team gave him errorless support and he was effective in the pinches.

Osoyoos opened the scoring in the fourth inning. Beacon walked, went to second as Lewis grounded out and to third as Dolan also grounded out. Egely walked. Then Cousins uncorked a wild pitch and Beacon scored. Peachland tied the score in the fifth, when Gummow doubled down the left field line, scoring Sutherland.

In the seventh, Ferguson singled, went to second as Gummow rolled out and raced home on Dan Cousins' single, making the score 2-1 for Peachland.

Peachland added its final counter in the eighth. Naka singled and scored as Sutherland smashed a triple to left field.

Peachland, out of Osoyoos, 10 to 3, but Pitcher (Nast) stranded 11 men on base with effective pinch pitching and excellent control.

**Ball Boys Just About Out Of League Race**

Summerland just about wrote itself out of the South Okanagan league play-off last Sunday when the local ball tossers had one terrifically bad inning at Oliver and lost another game by a 9-5 count. The cantaloupers pounded Evans hard for seven runs, with three costly errors adding to the havoc.

From that fifth inning, Oliver never had a look in on Evans, but the damage had already been done.

If Summerland had taken last Sunday's contest, it would have moved the two teams back into a tie for fourth spot, behind Rutland, Peachland and Penttici, in that order. But Oliver and Penttici now retain their tie for third spot and Summerland still holds down fourth place all by itself.

It was agreed at the season's start that only three teams would contest the play-offs, but when the loop was enlarged to include the tenth team, Princeton, there was talk of taking in four teams for the playdowns.

Stewart Starts

Ken Stewart started on the mound for the losers and pitched two innings, yielding one run in the second on a double by Bousefield. Evans then replaced him and allowed one more run in the third.

Going into the last of the fifth, Summerland was reposing with a 5-2 advantage and affairs looked rosy. But Oliver pounded Evans hard for five hits. When the smoke cleared, seven more tallies had scampered across and was the end of the ball game.

Coulter was the winners' moundman and he did a noble job, whiffing the horseshoe past 15 visiting batters, which is just about a record for this season's play in the league.

George Taylor started nicker in the first canto when he slammed out another homer with McCarger on the paths ahead of him.

Oliver came back for one run in the second when Bousefield scored McIvor on a nice double. Summerland added another in the third when McCarger singled and came around. Oliver retaliated with one run when, with two down, Lawley singled. Bray

Summerland went farther ahead in the fourth and fifth frames when Walsh and Thompson contributed scores, the former on Vanderburgh's double and the latter on Walsh's single.

Fateful Fifth

But then came the fateful fifth which Norton started off with a single which went by Taylor in centre. Bray singled and stole second and Lawley was safe when Amm booted one. With the bases loaded and one runner across, and nobody out, Jimmy Thompson stumbled at a critical moment and three runs raced across.

McIvor and Bousefield walked and the bases were cleared by Coulter's spanking triple. The latter scored on Norton's bingle to end the scoring for the game.

Neither team threatened seriously for the rest of the game, although Biagioni did reach third in the eighth canto, only to be left standing when Walsh tagged out at second on Evans' roller.

Summary: Stolen bases, Amm, Thompson, Bray; two-base hits, Vanderburgh, Bousefield; three-base hit, Coulter; home run, Taylor; bases on balls, off Coulter 2, off Evans 5; struck out, by Coulter 18, by Stewart 1, by Evans 5; left on bases, Summerland 8, Oliver 6; double play, Dinamoro to Lawley; passed balls, McIvor 1, McCarger 1; first base on errors, Summerland 2, Oliver 2; umpires, Harvey and Miller.

**PEACHLAND**  
LAW Kathleen Wright, of the R.C.A.F. (W.D.), arrived on Monday to spend a furlough at the home of her mother, Mrs. F. Wright.

Lt.-Col. F. O. St. John has returned to his home in Peachland after three weeks in Victoria.

Mr. and Mrs. P. J. Gaynor entertained a few friends for raspberries and cream on Thursday night. Those present included Mr. and Mrs. A. S. Miller, Gordon Sanderson, Miss Dor Miller and Mr. and Mrs. J. B. Gummow.

**Worst Hail**

(Continued from Page One)  
the front bench below the Giant's Head.

Districts Escaped  
Prairie Valley escaped with practically no hail, while Garnett Valley and Jones Flat areas escaped with a minimum of loss. Most of Trout Creek points missed the storm as it swung north.

Mr. Watts estimates that 25 percent of the apple crop in this area, or 50,000 boxes, have been lost. Peach loss runs 20 percent or 20,000 crates. Pears did not suffer as much as apples, being 15 to 20 percent, or about 5,800 boxes. Apricot loss will be about 3,200 crates, mostly cannery varieties.

Packing house managers here agree that the total loss on all Summerland production will be 15 percent. In no case has any individual grower lost more than 50 percent of his crop, they state, although there are a goodly number who fall in the 30 to 50 percent category.

There are one or two growers who state their loss will run to 75 percent.

Greenhouses and some office windows at the Summerland Experimental Station were smashed by the force of the icy pellets.

A chicken was killed instantly when struck by a hail stone. One grower picked up a pheasant which had been stunned by a blow and had become quite tame. Apples with great patches in their sides, peaches split in two and pears and other stone fruits lying on the ground was a common sight this week. Bark was looked rosy. But Oliver pounded Evans hard for five hits. When the smoke cleared, seven more tallies had scampered across and was the end of the ball game.

Coulter was the winners' moundman and he did a noble job, whiffing the horseshoe past 15 visiting batters, which is just about a record for this season's play in the league.

George Taylor started nicker in the first canto when he slammed out another homer with McCarger on the paths ahead of him.

Fateful Fifth

But then came the fateful fifth which Norton started off with a single which went by Taylor in centre. Bray singled and stole second and Lawley was safe when Amm booted one. With the bases loaded and one runner across, and nobody out, Jimmy Thompson stumbled at a critical moment and three runs raced across.

McIvor and Bousefield walked and the bases were cleared by Coulter's spanking triple. The latter scored on Norton's bingle to end the scoring for the game.

Neither team threatened seriously for the rest of the game, although Biagioni did reach third in the eighth canto, only to be left standing when Walsh tagged out at second on Evans' roller.

## Swim Classes

When an individual or a group works hard for the public good and is highly commended for the effort, there is certainly a feeling of satisfaction. Such praise brings a glow of pride even to those who had no part in the undertaking but who watched from the sidelines.

And so, the Summerland Board of Trade and the Council parks committee can feel justifiably proud of its efforts in the development of the free swim classes under way here and the progress which has been made in providing adequate facilities for picnic parties and swim parties at Powell Beach.

Even though this municipality does not measure up in size to such communities as Penticton, Kelowna and Vernon, yet the enrollment and organization of the swim classes equals that of any other centre in the Okanagan.

Nearly two hundred youngsters from all sections of this town are being given an opportunity to learn the rudiments of proper swim strokes and, more important still, are being taught the rudiments of being able to handle themselves in the water. This is really worthwhile.

But the speed and despatch with which the trade board committee handled the organization of the swim classes and improvements to Powell Beach proved astounding.

The swim classes commenced on Thursday, July 11. The instructional group found it almost impossible to cope with the large number because there were no rafts at Powell Beach. That evening the trade board general meeting gave the committee the green light to build suitable rafts and floats.

By the following Thursday, when the swim classes met again, two large rafts were in position and adequate facilities had been provided. Hundreds of kiddies have enjoyed these rafts to the utmost in the intervening period and they have already proved their worth.

But it was the speed of the effort which was one of the main features. Poles were purchased, a whip-around the packing houses provided the necessary labor and the rest of the materials were found when other groups were sitting idly by and wondering where to turn next for lumber.

In the meantime, the council parks committee had been busy and tidied up the beach and surrounding area, including some extensive brush clearing. A small kitchen shed and two stoves were placed there and the dressing booths and other structures painted.

Granted this work should have been organized at an earlier date, but once the need was apparent there was no time lost in its fulfillment.

Summerland can be proud of its bathing facilities, its splendid park for holiday groups and its energetic citizens who are instructing youngsters in the art of handling themselves in the water.

The Board of Trade and the Council can enjoy a satisfaction in a job well done by witnessing the hundreds who have taken advantage of the facilities provided.

## Hail

Seldom, if ever, has such a severe hail storm visited the Okanagan Valley as descended for a brief period on Monday afternoon. In the span of a few minutes countless hours of arduous effort, of careful planning, of nursing fruits and vegetables were wiped out as if by a giant hand.

It is such a helpless feeling. Man has invented many powerful weapons and through the ramifications of science has gone far to combat pests and diseases which are part of Nature. But no power has been invented to deal with the wrath of the elements. Man can only sit idly by with a feeling of awe in his heart.

It takes such a short space of time for hail to destroy a crop. There are many citizens here who, only a short time ago resided on the prairies. To them, hail is an old enemy and they know its ramifications.

But to us who have made the Okanagan their habitat, most of their lives, such a hail as descended on Monday is phenomenal. Some growers have been hit badly, with early estimates running to sixty per cent of their total crop.

There is one ray of light in the gloomy

picture, however, that the hail did not blanket the entire area of this big fruit producing district. Some valleys escaped entirely while others only suffered a slight loss.

But that is little compensation to those who bore the main brunt of the short but fierce attack from the skies.

## Canada's Export Trade

The aggregate value of Canada's merchandise export trade in the calendar year 1945 recorded a decline of 6.4 per cent from the historical maximum reached in the preceding year, the total being \$3,218,330,000 as compared with \$3,439,953,000 according to recent official figures. Sharp curtailment was shown in the export movement of war materials, the value of goods in this category falling from \$1,555,157,000 in 1944 to \$1,161,096,000 in 1945, a reduction of 25.3 per cent. On the other hand, the movement abroad of non-war goods rose from \$1,884,796,000 in 1944 to \$2,057,234,000, or by 9.1 per cent.

Domestic merchandise exports to the United States during 1945 were valued at \$1,496,977,000 as compared with \$1,801,322,000 in 1944, a decrease of eight per cent. The value of exports to the United Kingdom was \$963,288,000 as compared with \$1,235,080,000, a decline of 22 per cent. Exports to British India were worth \$307,461,000 as compared with \$174,794,000. Italy \$39,470,000 as compared with \$160,118,000. France \$76,917,000 as compared with \$14,865,000. Russia \$58,820,000 as compared with \$103,264,000. Newfoundland \$40,515,000 as compared with \$47,950,000 and the Netherlands \$39,970,000 as compared with \$94,000,000.

The total value of agricultural products exported rose from \$741,582,000 in 1944 to \$819,445,000 in 1945. Wheat exports advanced from \$384,150,000 to \$475,787,000, and wheat flour from \$90,001,000 to \$97,855,000.

Canada's domestic merchandise exports in April of this year were valued at \$178,488,000 as compared with \$178,377,000 in March and \$312,328,000 in April 1945. For the four months ending April 1946 the total value of exports was \$699,098,000 as compared with \$1,080,360,000 for the corresponding period of last year. As in preceding months of the year, the decline in April as compared with April last year was due to the practical cessation of shipments of war materials and equipment, the decrease in items clearly identifiable as such exceeding considerably the drop of \$133,835,000 in total exports.

Exports of agricultural and vegetable products dropped \$60,618,000 to \$46,436,000, the decrease being spread over many items. Wheat was slightly higher, however, at \$21,236,000 as compared with \$20,591,000, the four months' total standing at \$84,360,000 as against \$49,483,000.

The effect of the official repatriations through purchases and redemptions have been to reduce sharply the level of British investments in Canada. Total official and private repatriations by Canada from the beginning of the year to the end of 1945 approximate \$1,000,000,000, with the result that British holdings of securities in Canada are now predominantly in Canadian and corporation securities, from relatively small holdings of provincial and municipal bonds.

## August Coupons

AUGUST 1	BUTTER	R 16
AUGUST 1	MEAT	M 48
AUGUST 8	BUTTER	R 17
AUGUST 8	MEAT	M 49
AUGUST 15	SUGAR—PRESERVES	S 24 and S 25
AUGUST 15	BUTTER	R 18
AUGUST 15	MEAT	M 50
AUGUST 22	MEAT	Q 1
AUGUST 29	BUTTER	R 19
AUGUST 29	MEAT	Q 2

### COUPONS VALID THROUGH AUGUST:

SUGAR—PRESERVES	S 1 to S 23
BUTTER	R 10 to R 15
MEAT	M 40 to M 47

On August 31st Butter Coupons R 10 to R 17, and Meat Coupons M 40 to M 50 expire.

The last meat coupon in the present ration book, M50, becomes good August 15.

The new ration book will not be distributed until September 9-10.

Some of the Q coupons in the present ration book will be used to bridge the gap and will become meat coupons.

Q1 will become good for meat purchases on Thursday, August 22, and Q2 on Thursday, August 29.

### NEW RATION BOOK

The six hundred local ration boards across Canada are beginning to organize for the distribution of ration book No. 6. This book will be distributed during the week commencing September 9th but it is up to the local ration boards to decide how many days they will devote to distribution. Usually the work is done by these volunteers in three days. Book No. 6 will come into use on September 19.

### COST OF RATION BOOKS

Ration Book No. 5, which will draw to the end of its career this fall, will have served the public of Canada for ninety-five weeks. Many people overlook that it was issued as long ago as October, 1944. It was originally planned for fifty weeks but by using up the spare sheets in the book its life was extended to ninety-five weeks. Including all expenses which belong to a ration book, such as material, production, shipping and distribution costs, book No. 5 costs one and nine-tenths of a cent each.

### FUTURE PRICE CONTROL

Right Hon. J. L. Hiley, speaking in the House of Commons on the status of price control in Canada, said:

"The list of goods and groups of goods and services still under control is very large, so large that some may feel it should be further reduced. It is intended to cover virtually all of the items which are of everyday importance in the household budget, and many more; and also the items of chief importance in costs of production. In general, basic materials are included and almost all parts and components of consumer goods.

"So far as the consumer is concerned practically all food, fuel, clothing, textiles and leather goods remain under

control, as well as the significant items under the headings of kitchenware, hardware, household appliances, radios, automobiles, furniture, house furnishings and building materials. The farmer or fisherman will observe that most of the goods he needs to purchase to assist him in production are also included. The control of rents I should add, remain unchanged.

"I want to emphasize that no increase in the ceiling prices of domestic goods remaining under control is involved in this step. The basis of price control continues to be the prices authorized by the Wartime Prices and Trade Board. Demands for price increases will continue to be resisted, except in cases where the financial mood of the producer concerned make some upward adjustment imperative."

### GOLDENBERG HEARING

Resumption of the inquiry into provincial-municipal relations by H. Carl Goldenberg, will start shortly, Premier Hart has announced. Mr. Goldenberg will return to Victoria on August 4 from Montreal, in order to complete his work in drafting a report to the provincial government. The final hearings in all probability will be held on August 12, at which time the provincial government will present its case.

The Kelowna Athletic Round Table, consisting of 16 sports and 14 non-sports organizations has commenced a drive for funds.

**Ready Money FOR THE GO-AHEAD FARMER**

**Well, what d'you know!**

Every Canadian farmer sees prosperity ahead. He knows the world is short of food and food is money.

The question most farmers are asking today is "How can I get my share of that prosperity to come?"

That calls for equipment—modernization—possibly new gadgets to mechanize some of the less strenuous jobs of hand labour around the farm.

The Bank of Montreal is ready to offer the necessary financial aid to go-ahead farmers who wish to improve or modernize their farm equipment, buildings and lands.

Visit your B of M manager today. Discuss your needs freely. He is ever ready to be helpful. Remember, when you ask for a loan at the Bank of Montreal you do not ask a favour.

 J. M. Bryden, one of the most popular trustees of Kelowna school board, No. 23, has resigned, owing to pressure of business. If the Kelowna city council does not make any move in 30 days to replace this trustee then the school board can name a substitute until the end of the year.

**METERS NOT PROTECTED**

Unless persons who are plastering and stuccoing take better care of electric light metres, they will be liable to claims for damages from the municipality, the council agreed recently, after hearing complaints from T. P. Thornber, electric light foreman. Building Inspector Roy F. Angus promised his cooperation in acquainting building owners with the necessity of taking better care of the metres.

Due to a typographical error, it was stated in last week's issue of The Review that eight pairs of magpies and crows had been turned in to Roy Gilbert, who represents the Summerland Fish, Game and Forest Protective Association in this regard. This item should have read eighty pairs. The younger people of the district have made a concerted effort to destroy these bird pests and have been complimented on their excellent showing.

**Reeve Powell**

(Continued from Page One)

then I don't think we should assume the responsibility," declared Councillor F. E. Atkinson, who asked that legal advice be sought.

"I feel that if inflammable material was dumped on our property and was the cause of the fire then it was our responsibility to stop such a practice," declared Reeve Powell, "but if it was off our property then that would be a different matter."

The Sunday blaze destroyed about \$100 worth of irrigation flume, about a quarter of that amount being part of the municipal system and the rest belonging to Major Tweedy.

The council agreed that the amount involved is not much but did not feel that it could accept responsibility without further information.

His Worship also stated, before the subject was closed, that the council would have to provide some safe place where inflammable material could be burned under supervision.

It was stated by several members that they had heard of several instances where inflammable materials were dumped in the vicinity of the designated area, but not in the proper place provided by the municipality as a nuisance ground.

# Summerland Marketable Fruit Is Placed at Ten Percent

# The Summerland Review

Vo. 1, No. 10. The Summerland Review, Thursday, August 8, 1946.

Estimates of hail damage to apples in the Summerland district following last week's disastrous storm, remain unchanged here at 50,000 boxes, but it is now felt that peaches took a worse pounding than was originally thought by many observers. In the overall picture, however, it is believed that the marketable fruit crop in Summerland will be reduced by slightly more than ten per cent. As far as apples are concerned, the original estimate was low and was to have been revised upward by about the amount which was destroyed by hail.

Reports from the Kelowna area, which was the only other district besides Summerland to feel the full brunt of the storm on Monday, July 29, indicate that the damage there was not as great as was first anticipated. One authoritative source stated yesterday the Kelowna loss would not reach ten per cent.

This does not mean that some individual growers were not hard hit. On the contrary, some growers have lost up to 75 per cent of their peach tonnage.

From Ottawa comes the announcement that a hail grade, No. 3, orchard run, is being allowed for apples. Attempts are being made to have a similar grade declared permissible for peaches, pears, plums and prunes but to date official sanction has not come through to the Okanagan, W. L. Boothe, B.C. Tree Fruits Ltd., reported Wednesday evening.

## Export To Old Country

A. K. Loyd, general manager and Dave McNair, sales manager, for B.C. Tree Fruits Ltd., left the Okanagan this week for Ottawa, where they will provide Dominion authorities with the latest information on the damage from hail to the Okanagan crop. While at the Dominion capital, they will also endeavor to come to an agreement on the proportion of the Okanagan apple crop which is to be released for export this year.

## Peaches Mature Earlier

On the prairie and coast markets there is still a strong demand for fresh fruits, W. L. Boothe, Kelowna, told The Review on Wednesday. Peaches are maturing earlier than usual this season and up to August 5, 67,000 crates of peaches had been shipped to the fresh fruit market as compared with 7,000 crates last year at the same time. Except for canner varieties, apricots have now disappeared from the packing houses of the Okanagan. Exactly 300 cars of apricots were shipped last week or an average of fifty cars a day.

## Rochesters Rolling In

In Summerland packing houses apricots are practically a thing of the past, while Rochester peaches are coming in in ever-increasing amounts. Grading of Rochesters is expected to commence this week-end. Plums are also commencing to dribble in, while apples are increasing in volume with Duchess the main variety. Clapp's Favorite pears are also arriving this week and by the end of next week Bartlett pears are expected to appear for

## Early Agreement in Packing Union Demands Expected

"I think we are getting fairly close together," declared L. R. Stephens, of the B.C. Shippers' Federation, when asked by The Review on Wednesday if any progress in the dispute between the interior packing houses and the United Packing House Workers of America had been made. The labor committee of the shippers' federation met in Kelowna on Wednesday and later met one or two union representatives. The workers' union is requesting a 44-hour week in Okanagan Valley packing houses and is also requesting a better deal both in hours of work and wage rates for employees who are on a monthly wage basis but are also part of the union. Negotiations between the two parties have been carried on for some time now, but at one time it was feared that a strike would result about the end of August, in the middle of the pear and peach packing season and just prior to the biggest rush of apple packing. Speaking for the shippers, Mr. Stephens expressed the hope that the strike would not result and that a satisfactory deal could be arranged. **Statement Soon** When pressed for more information, Mr. Stephens declined to comment further but declared that a full agreement may be obtained within the next two days and a statement from both sides could be expected shortly. "Our organization in the valley wishes to co-operate," W. E. Sands, Kelowna, district chair-

## Joan Bennett First Winner Of Scholarship

Joan Bennett, 18-year-old daughter of Mr. and Mrs. E. H. Bennett, of Summerland, has been granted the first award under the recently-formed Summerland Scholarship Fund, and will be entitled to attend the University of British Columbia, with the assistance of the \$250 bursary.

Announcement of the award came on Tuesday afternoon following the meeting of the award committee, Reeve W. R. Powell, Principal A. K. Macleod, of the high school and Principal S. A. MacDonald, of the elementary school.

Participation in students' activities and qualities of leadership were points considered by the judges as well as general scholastic standing.

Born in Summerland, Joan Bennett has been a popular member of the Summerland elementary and high schools where she has received her education to date.

**Many Activities** She was prominent in the cadet corps at school and was lately made second-in-command of the boys' and girls' corps, having formerly been company commander with the rank of major.

Skiing has held a fascination for Joan while she has also been an ardent member of the school camera club. Being a member of the graduation committee took up a great deal of her time but she has also contributed to the school paper, Campus Chat.

Joan plans to attend the University of B.C. this fall and will enroll in the home economics classes there.

This Summerland Scholarship Fund was inaugurated by Dr. F. W. Andrew and W. C. Kelley, and later was made the main objective of the U.B.C. Alumni Association.

Through their efforts a sum which provides \$210 a year in benefits has been raised and for this season the Summerland Municipality has provided \$40 to reach the ultimate objective of \$250. It is hoped that by next season the entire amount will have been reached to provide for an annual bursary of \$250.

## School Addition Plans Approved

Addition of a temporary wooden building to be placed on the elementary school grounds for the industrial arts classes in Summerland has been given approval by the department of education and W. W. Armstrong has been ordered to proceed with this work.

In the meantime, work has been proceeding on reconditioning elementary basement rooms so that classes can be housed there next term and another room is being erected on the north wing of the high school, between the two present classrooms.

This additional room and the new building are of temporary structure only, and are not meant to be used for more than two years. In the meantime, plans are underway for the erection of a junior-senior school here.

These temporary additions were deemed essential to take care of the enlarged school population projected for September.

Mr. Armstrong provided the only tender for the new manual training building, his bid of \$1,675 being accepted. This amount will be boosted slightly, however, as the educational department has requested cement footings for this building, and a small shed for fuel storage will also be added. Additional bracings for the building were also specified by the Victoria authorities.

This building will be constructed directly north of the elementary school.

It was stated at the school district session in Penticton on July 31 that the contracts for the Summerland school buses are nearly in readiness but the department at Victoria wishes some additional information before official adoption can be provided.

Attempts are being made to provide transportation for five Summerland pupils who wish to attend Grade 13 classes in Penticton next term. The school district will defray this expense if any person with a suitable car and license can be found to make the trips.

## FIRST REVIEW WAS ISSUED 38 YEARS AGO

Exactly 38 years ago today the original Summerland Review came into being at Summerland, B.C., on August 8, 1908. The first publication was "devoted to the interests of Summerland, Peachland and Naramata" and was introduced by J. F. Watkins, manager, for The Review Publishing Company, Ltd., proprietors. Today The Summerland Review has been revived and is now in its third month of publication.

## Council In Quandary Over Roads

Roads and what to do with them.

That was the topic which held the Summerland council's attention for more than an hour on Friday afternoon.

It was the wish of the municipal fathers to continue the hard surfacing program, but in the meantime the peaches would be shaken to bits by the untouched gravel roads.

So the people's representatives were in a quandary and they twisted the jig-saw to every angle and still couldn't get all the pieces to fit.

But what was decided is that the hard surfacing will have to come to a stop, for the time being, anyway. Those gravel roads over which trucks laden with precious soft fruit go bouncing will have to be the main consideration for the next four to six weeks.

After that, the council may get around to completing its original program, finish the second half of Giant's Head road and the Station road, but from the tempo of Friday's meeting, that is doubtful. The hard surfacing program may have to wait until next May.

**All Angles Probed** Every possible angle was discussed by the council with Reeve Powell leading the forum. Water (Continued on Page Four)

Mr. Roy Mills of Victoria, has been visiting with his wife, Mrs. Mills, manager of the Adorable Gown Shop.

Mr. and Mrs. R. Salter, of Vancouver are visiting for two weeks at the home of Mr. and Mrs. A. F. Crawford.

## Government Sub-agency Sought for Summerland

Definite action will be taken by the Summerland council to obtain a provincial government sub-agency here so that persons in need of transfers, car licenses and other matters pertaining to regular provincial government work will not be forced to travel to Penticton for such service.

This was the council's decision on Friday afternoon last when it ordered that letters be despatched to Hon. E. C. Anson, minister of finance and Hon. John Hart, premier.

Such a decision came about from Councillor Atkinson's query as to why a replacement was not sent here when B.C. government stable Cartmell was on holidays recently.

A police constable from Penticton visited here at frequent intervals and on one call came here with no loss of time, but the councillor thought a policeman should have been sent here as a direct replacement during the holiday period.

Municipal Clerk F. J. Nixon stated that if such a service is demanded then the municipality would be called upon to pay a higher fee. He pointed out that Constable Cartmell is not appointed for Summerland alone but his territory covers from Peachland to Penticton and as Summerland is the central location he makes his home here.

The clerk also pointed out that the constable's time is taken up to a great degree with book entries and such items which would not be the case if a sub-agent's office was opened here.

"A sub-agency for this town is long overdue," declared Reeve Powell and the council lost no time in deciding to petition for the opening of such an office.

Last spring, when motorists were being called upon to travel to Penticton to obtain licenses, Summerland raised serious objection and obtained the appointment of a temporary government representative to handle this work and save motorists the inconvenience of travelling twenty miles.

## Fruit Harvest Labor Expected to Meet All Demands Made Here

Without calling on organized groups of coast labor, Summerland's fruit crop will be harvested this year mainly by transient labor, plus local personnel who normally seek part-time employment during the busy season, Mr. W. Beattie, local labor officer, informed The Review this week. Total placements to date are nearly at the 500 level, just slightly lower than the peak employment year of 1944, which had a total placement of 1,660 persons. The figure for last year through the labor office was nearly 1,000 persons.

### Transit Labor

Mr. Beattie expects to exceed the 1945 level without any undue trouble and without calling on coast labor offices for organized drafts.

Most of the labor placed here through his office has been of the transient type, Mr. Beattie declared and the number has been increased in the past week since a number of Kelowna orchardists laid off some of their help after the hail storm.

Local workers are being paid on the average sixty cents per hour, which is ten cents per hour more than the northern end of the valley. Vernon requested more laborers last week after the hail storm but the response here to the call was slight because of the lower wage scale in that area.

There is a noticeable change in the attitude of the workers, as well, Mr. Beattie told The Review. Two years ago most of the workers didn't care if they worked or not and would quit at the slightest excuse.

Now, Mr. Beattie says, there is an entirely different viewpoint. The workers are eager for work and are willing to do a good job. "They are getting down to it."

### Accommodation Scarce

One of the chief problems here, as in other sections, is the lack of accommodation, the labor officer stressed.

"Wherever a grower has accommodation for his help, he has no trouble in obtaining good quality labor. The outlook for labor for the balance of the season is promising.

"On the whole the growers are tolerant of inexperienced help and are giving new hands a chance to learn the art of picking properly. One point which stands out is that prairie workers are more willing to turn in a good day's work than those who come from the coast."

## Increased Box Shook Price Is Expected

Favorable consideration will be given interior box shook manufacturers to their application for an increase in price of box shook, because of the increased price of lumber and higher wages being paid, it is considered in the Okanagan this week following presentations made at Ottawa last week by representatives of the box manufacturers.

S. M. Simpson, Kelowna, flew to Ottawa last week to meet Wartime Prices and Trade Board officials, and present the interior manufacturers case before them. On Saturday Mr. Simpson, and other representatives, met Donald Gordon.

L. R. Stephens, Kelowna, secretary of the box shook committee of the B.C.F.G.A. and representative of the shippers' federation, also went to Ottawa to indicate the growers' views on this subject.

### Must Get Boxes

Mr. Stephens presented the grower and shipper argument that boxes must be obtained and the growers are willing to pay an increased price if the manufacturers can show the price board that their costs have increased to such an extent as to warrant the upward trend.

"We paved the way for a favorable reply," Mr. Stephens told The Review on Wednesday, explaining that the Ottawa officials had never before been given the overall picture and figures concerning the manufacturers' costs.

When these figures are presented to Ottawa Mr. Stephens feels that the raise in box shook prices will be allowed and the industry will be assured of a continuation of operation on the part of the manufacturers.

Several mills in the interior were on the point of closing down their operations if the price board would not allow an increase in the selling price of box shook. This would have been a serious situation for the fruit and vegetable industry, Mr. Stephens points out.

On Wednesday, the box shook manufacturers met in Kelowna to hear reports from Mr. Simpson, and Mr. Hugh Dalton, secretary of the B.C. Manufacturers' Assn., on their reception at Ottawa.

Mr. Gordon Bell, administrator of the box shook industry in the interior, who was appointed by the Dominion Department of Labor to end the recent box shook strike, was also present to hear these reports.

## Regatta Entry Biggest Ever To Participate

Irene Strong, Vancouver amateur swim club and Peter Salmon, Victoria Y.M.C.A., established themselves as prime favorites on Wednesday to cop the aggregate honors at the fortieth showing of the big Kelowna international regatta.

Largest group of swimmers, divers, rowers and boat racers ever to compete in this great water gala went into action yesterday and are continuing to show their wares today. Every year it is said that the regatta is bigger and better than ever and reports today indicate that the same can be said for this year's show.

Swimmers are competing at Kelowna today from Vancouver, Victoria, Seattle and more points in British Columbia than ever before. From the entry list it appears that more interest is being taken in swimming throughout British Columbia than in any previous year.

Summerland Entries Summerland was represented yesterday in the junior competition by Jim Towgood. He could not withstand the competition from his more experienced opponents and failed to place. Another local entry in junior classes is Eddie Lloyd, but he (Continued on Page Four)

## Open Tenders For Hospital Debentures

Offer of Dominion Securities Corp. Ltd., Vancouver was accepted on Friday afternoon by the Summerland council when tenders for the \$30,000 debentures for the hospital addition and nurses' home were opened. This Vancouver firm bid \$101.277 per \$100 debenture, with interest at three per cent.

Interest rates are paid half yearly at the Bank of Montreal, West Summerland, and the debentures will fall due in fifteen years, 1961.

Bids on these debentures were in direct relation to the hail damage which created havoc in this district. They were not as high as expected and it was known that the price of tenders dropped when it was announced that the hail had meant a severe loss to many growers.

Cancelled Bid One Vancouver firm, with main offices in eastern Canada, was ordered by its eastern headquarters to cancel its tender, with the suggestion to the municipality that it postpone its opening of tenders date for two weeks until the real loss to the growers could be estimated.

This, of course, the council would not do and proceeded as it planned.

Reeve W. R. Rowell stated at one stage that he had expected bids up to \$102.75. The successful tender was subject to the scrutiny of the firm's solicitor.

These debentures will now be printed, the legal opinion obtained, signature of the inspector of municipal affairs obtained and delivery made before work can be commenced on the hospital buildings, Municipal Clerk Nixon declared on Friday.

### Anxious To Start

The hospital board is anxious to start immediately as the present accommodation has been crowded to capacity and in one (Continued on Page Four)

## Roads

Summerland's municipal fathers were in a quandary last week when they discussed the subject of roads and there was little wonder that they stopped to ponder the situation long and carefully.

In the first place the council wished to continue its permanent road program, or what Reeve Powell terms the capital expenditure on roads. If they could finish the Giant's Head road and the Station road and then continue with the business section, they would have been happy.

But there was one problem which continued to face them at every turn. What would happen to the other roads in the municipality while this permanent surfacing was being completed? What would happen to the soft fruit and the apples being bounced and jostled in the trucks which have to travel over the dirt roads which would become even more pot-marked and wash-board than they are at present?

The municipality has only a limited quantity of machinery and an even more limited number of employees. They have just enough of both to do one job or the other. Either they would continue to hard surface and let the fruit bounce where it may, or they would stop the capital work and try to remedy a situation which has become increasingly worse every day.

So, the council has decided in favor of the soft fruit and the trucks which must propel it to the packing houses and the canneries. The hard surfacing will be stopped, for the time being, at least, and gravel roads will be watered where it is possible and graded. Other roads may have a light application of oil.

It was a difficult decision to make. The municipal fathers wanted to continue the capital work. But they felt that they couldn't let the other roads go completely to pot. So the other roads eventually obtained the nod.

This will be a sad blow to many residents of the two main routes which were to receive a permanent coating. They looked forward to a cessation of the terrific dust nuisance which spreads over their homes on the passing of every car or truck. Pedestrians and drivers alike would have had a smooth surface over which they would ply to and from work. They will have to suffer these nuisances for a time more, probably until late next spring.

But there is quite a bit of justification to the council's stand. The fruit crop is the main source of revenue for this municipality. By far the majority of citizens depend directly or indirectly on that fruit which should reach its destination with the least possible bruising. After all, the fruit crop must come first.

Let us hope that a far earlier start will be made in 1947 so that a proper surfacing program can be carried out with no thought of stopping for any other factor. The drivers of motor vehicles in this municipality have waited too long for roads which do not land their means of locomotion in the repair shops at too frequent intervals.

The 1946 council cannot commit its successor to any definite program but it can pass along a strong recommendation and that is what should happen in the case of the municipal roads.

## Irrigation

Last week Penticton presented the irrigation commission with a brief pointing to its anomalous position in relation to other fruit growing districts, insofar as irrigation rates are concerned.

Summerland fruit growers pay \$14.00 per acre annually in irrigation rates. Oliver and Osoyoos areas, having been under a soldier settlement board scheme financed by the provincial government, formerly paid as low as \$5 per acre and are now arriving at the \$8 mark.

Irrigation districts in the Okanagan outside of municipal boundaries have been loaned over \$3,300,000 from the Conservation Fund, and of this amount, \$1,220,000 was written off to those districts by the provincial government, plus nearly as much in interest payments.

Summerland and Penticton have had to finance their own irrigation systems and the

ratepayers have had to stand the entire burden of the heavy costs through the years. Not one cent was ever written off as the municipalities had to go on the open market to borrow and obtain no benefits from a friendly government.

And yet, Summerland and Penticton fruit growers had to place their products on the markets in competition with the produce of areas who paid as low as \$5 per acre.

That is one of the reasons why Summerland municipality has not the facilities, which its size and position warrants. With other services having to provide the money to help pay the irrigation debt, there wasn't enough left over for good roads, parks, civic centres and such necessary luxuries.

This municipality is only now reaching the stage where it can cast off its terrific irrigation burden. But the rate still remains high, extremely high at \$14.

The Association of B.C. Irrigation Districts informed Dean F. M. Clement, the one-man irrigation commission, that the orchardist cannot afford to pay more than \$8.50 per acre for irrigation water. That is a fair figure but the orchardist here has had to tighten his belt a little more than his more fortunate brother in other districts, and his fellow-townsmen who doesn't operate a fruit orchard, has assisted him in financing the load, to the detriment of many needed facilities.

It is to be hoped that Dean Clement considers the case of the irrigation districts and reaches a settlement with them whereby they will not have to pay more than \$8.50 per acre.

But it is also hoped that Dean Clement will bring in strong recommendations for consideration of the case of Summerland and Penticton municipalities.

No B.C. government has ever acknowledged the two municipalities' claim in this

matter before, although they have expressed sympathy, which is hardly enough to take care of the bank. It may be that at long last there will be an honest attempt to place all growers on an equal footing in the Okanagan, as regards irrigation rates, but somehow, after so many repeated tries, we feel that it is a forlorn hope.

We wish Penticton luck in the presentation of its petition to Dean Clement.

**APPROVES APPLICATION** Subject to the railway giving approval to cross its tracks, the council has okayed the application of Mrs. W. M. Young for electric light service to two houses west of the railway station at pt 15, D.L. 439.

## A MESSAGE FOR THOSE WHO NEED TRAINED WORKERS

### I recommend to you CANADA'S VETERANS...

To take full advantage of the great future possible for Canada, Canadian business will need men of courage and initiative — purposeful men of sound judgment. I know where such men may be found for I have worked with them, lived with them and fought with them. They are Canada's veterans and I am confident that the loyalty, initiative and unflagging determination which made them the best troops in the world, will also be the qualities so essential in Canada's business life.

Many are already skilled tradesmen, and many have a sound foundation of skills on which wise employers may build. I know of no better man-power supply in the world than the men and women from Canada's armed forces.

H. D. G. Crerar, General

## CONSIDER THESE SERVICE SKILLS

### ARMY TRADE FITTER

Only one of 216 army trades, the trade fitter was trained to make and fit new or reworked parts of guns, power trains, gearing units, valves and machine tools. He had to follow simple sketches and blueprints, and among other duties, make parts from metal castings, forgings and stock. A knowledge of the working properties of steel and non-ferrous metals was essential. He typifies thousands of veterans available to industry today.

### ELECTRICAL ARTIFICER

In the navy, this man maintained electrical navigation equipment, lighting systems, telephone switches and was a specialist in many naval electrical installations. He was a skilled machinist, qualified for general machine work and for manufacturing and repairing electrical equipment. With on-the-job training he would be capable of house and industrial wiring.

### STATIONARY ENGINEER — R.C.A.F.

His duties were the installation, operation, overhaul and repair of all heating equipment used by the R.C.A.F. He had a knowledge of steam fitting, valves, pumps of all types and underground and overhead distribution systems. He holds a current provincial first, second or third class certificate. This is only one of the many specialized trades in the R.C.A.F.

Service Skills Make GOOD Civilian Workers!

FORWARDED IN THE INTERESTS OF VETERANS BY

THE GOVERNMENT OF CANADA

### Employers—USE THESE BOOKLETS

Many Canadian employers have these booklets. The National Employment Service and Department of Veterans Affairs office will interpret them, and assist you in choosing veterans for your post-war jobs.

Mr. Andrew Bennie was a recent visitor to Vancouver, returning to Summerland last week.

**MOTH ACTIVITY LIGHT THIS YEAR**

Split Lambert cherries in the west side of Okanagan lake between Westbank and Summerland did not exceed ten per cent, while the quality of this particular cherry exceeded that of Bings, states the horticultural news letter issued from Vernon by the department of agriculture.

First clusters of field tomatoes are being picked now that the hothouse toms are complete. From Westbank, cucumbers are being shipped.

Spraying for the second brood codling moth is commencing but moth activity has been light to date. Mildew, which was more prevalent than usual this year, has been checked with the two weeks of hot, dry weather.

By the end of the week, Clapp's Favorite pears are expected to be ready in the Penticton district with peach plums over their peak and apricots about finished, says the news letter.

Farther south, codling moth control is reported as reasonably good but this insect has shown an unusual liking for pears this season. European red mite is showing up generally but not in alarming numbers, while Pacific mite is rather hard to find owing to unfavorable weather conditions earlier in the season.

Peach picking commenced in the Oliver-Osoyoos area last week and Rochester harvesting is general this week. Tomatoes, cucumbers, potatoes, cabbage and peppers are being picked in that area.

General tree growth and fruit development is satisfactory and general appearance of trees is excellent, the news letter reports for the north end of the Okanagan. The pest situation is not serious in either orchard or field crops.

**ATTACK POISON IVY**

At the instigation of Reeve Powell, the Summerland council on July 29 agreed to purchase a quantity of insecticide to combat poison ivy in Peach Orchard park. If this proves successful, further work may be done on roadways to kill poison ivy and weeds, but no definite decision was made. Cost of the insecticide is high and the council may not be able to provide further funds for a continuation of its weed-destroying program.

**A. K. Loyd Gives Growers Advice On Plantings In Accord With Market Trends**

A warning that growers with "off varieties" of the various fruit in their orchards should move as speedily as possible in replacing them with varieties with better market acceptability, and that new plantings should consist only of those requirements, was sought this week by A. K. Loyd, president and general manager of B.C. Tree Fruits Ltd.

The sole purpose of his statement, Mr. Loyd said, was to bring the facts to the growers in order that they might have some guide in their replantings from a marketing point of view.

The grower's best guarantee of a satisfactory future is his ability to produce something which the public wants and as long as he plants or continues to grow something to which the public shows no particular response, then, to that extent he prejudices his financial outlook, particularly when the market is weak.

In his statement, Mr. Loyd said he was trying to give the grower the market reaction of certain plantings and to suggest the advisability of avoiding them if it lies within the grower's power.

Many of the cherry varieties used as pollenizers are an inferior product for the market. It is difficult to secure a favorable reaction on the fresh fruit market for such varieties as Black Knight, Tartarian, Governor Wood, Biggareau and Republican, and the processors are also reluctant to accept any substantial tonnage of these varieties. The reason is that the amount of flesh in proportion to the pit gives an unsatisfactory product.

Oxheart, Waterhouse, Yellow Spanish and Centennial are also unsuitable or unacceptable, though they can be utilized for processing. Deacon is recommended as a better pollenizing variety.

The planting of sour cherries is not recommended.

**Plum Demand**

The plums coming on the market before prunes enjoy the best demand. These are June Blood, Red June, Peach Plums, Abundance, Burbank, Maynard, Gold Plum, Columbia, Tragedy, Bradshaw, Santa Rosa, Satsuma, Transparent Gage and Yakima. None of them possess exceptional quality and none of them can meet imported competition. Their chief attribute is their abundance.

The present production of peach plums is sufficient for all marketing possibilities and future plantings are not encouraged. A good red or blue plum, which would be ready for the market early, might increase plum sales prior to September.

The remaining plums collide with prunes and this definitely affects their sale.

The present production of plums is quite sufficient for the domestic market and this suggests that more plantings would be inadvisable. Better sizes in all plums would improve the demand.

Certain late varieties, such as Washington, Imperial, Purple Gage, are very unpopular and should not be planted and existing trees should be replaced at the first opportunity.

**Apricots**  
The apricot recommended is the Moorpark, although one or two of the new varieties give promise of a high quality product.

**Peaches**  
In considering peach plantings, it should be remembered that Washington is always a bit earlier than we are in all varieties. Thus when our early clings are on the market, California Alibertas are capable of importation and Washington is

prepared to move Rochesters. Some of our early clings are a most attractive peach in appearance, but for best results must be tree-ripened to a point beyond safe shipping maturity. The planting of clings is not recommended and the present Rochester plantings are sufficient.

Late peaches have brought fairly satisfactory prices but it is suggested that late varieties should be avoided in late districts. Sooner or later there will be an early winter again and the Canadian housewife is definitely not interested in peaches once cold weather starts and her attention and pocketbook are turned to other products.

**Prunes**  
It is suggested that the tonnage of Italian prunes may be top heavy and that before new plantings are undertaken, the advisability of planting earlier strains in this area should be considered.

**Pears**  
The market is not interested in such varieties of pears as California Pound, Sheldon, Laurence, Duchess, Lincoln, Winter Bartlett when the main crop is moving and they can be marketed only with difficulty.

**Apples**  
There are eight main varieties of apples upon which the growers should concentrate. These are: Wealthy, McIntosh, Jonathan, Delicious, Rome Beauty, Stayman, Newton and Winesap. The Red Delicious is recommended as the best Delicious strain.

Prior to the Mac crop there are about a half a million boxes of early season apples. About 350,000 of these are Wealthies and this is sufficient for all purposes in a normal crop year. Duchess should not be planted. There is, however, room for a well-colored early apple with reasonably good keeping qualities. The Yellow Transparent is acceptable in its present tonnage.

Three new varieties demand some attention as they give promise of being good apples. They are the Summerland Experimental Station's developments called Spartan, Jubilee and the as-yet-unnamed variety "4."

Unless the highest type of Cox Orange can be grown, it should not be planted. It is Britain's best apple and plantings have been increased there.

Any grower who plants more crabapples is heading for trouble.

There are other good varieties but the fact remains that the consuming public is reluctant to switch to a product he does not know from one he does know. These unfamiliar or unsatisfactory varieties are very hard to dispose of excepting at a heavy discount. In other apple provinces, one of the greatest handicaps in sales is the enormous number of different varieties which have been planted during the past half-century and which, for the most part are unknown to the consuming public.

**Plant Growth Is Described**

Synthetic hormones and their application to plant life was the topic of a short talk given the Rotary club of Summerland on Friday at noon when the weekly luncheon meeting was held in the annex room of the Nu-Way cafe.

Natural hormones are contained in vegetable tissue and stimulate growth of the plant, and scientists and chemists have been endeavoring for years to obtain a synthetic formula which would react in a similar manner, he explained.

Now, an obscure acid has been found to take the place of the original hormones and from this discovery several growth-producing acids are on the market.

The natural hormone is generally found in the tip of the plant and it works down the stem towards the roots. If the plant is wounded, he stated, then the development work of the hormone is arrested. Synthetic hormones can be placed on the wound to speed recovery process. Similarly, if roots are cut to stimulate growth, then these new acids can be utilized to repair the damage caused and provide a greater and quicker growth.

In the new weed killer, 24D, hormones are utilized to provide such a sudden stimulus to the cells that the roots burst, allowing fungus and other bacteria to enter and form a cancerous growth, which kills the weeds.

Grass is not affected by this weed killer as the leaf is not broad enough, the speaker said.

Synthetic hormones have also been used to develop tomatoes in clusters which otherwise would have been sterile. In those cases however, the resultant fruit is seedless and is inclined to shrink as the pockets where the seeds would ordinarily be are vacant.

The speaker was introduced by George Perry and thanked by Dr. H. R. McLarty.

During the past two weeks Professor and Mrs. Howell Harris and family, of Vancouver, have been visiting at the home of Mr. J. W. Harris. Professor Harris is a faculty member of U.B.C.

**The Mail Box**

**Farewell To Summerland**

Sicamous, B.C., July 22, 1946.

Editor, The Review:  
We have left the Okanagan now. We have not yet composed ourselves from the emotion of parting with this little nook of God's good earth.

In the hustle of planning, packing and preparing, we could not visit all our friends. But of course not, it would have meant a visit to every home!

For that is truly how we feel about you. Our hearts are full with gratefulness for all of you. I have travelled far and I am sure that I will keep on travelling farther, but I have never found such a beautiful atmosphere of friendliness and helpfulness and I will remember forever the lesson learned in Summerland.

The parting words of one of you, this morning, will be with me, from now on. They were: "We have the best of the deal in having the privilege to help others, and in living close to the Master!"

This, I have found, is the spirit of your Okanagan. I will carry the lesson! We would love to have remained here, my sweet wife, my son and I. We did so want to become one of you and one with you. You have rejoiced with us and you have sorrowed with us. We cannot forget it. Fate has decided for us and we must part.

In one of your churches recently we sang a hymn that brought the tears to my eyes. It ran, in part, something like this: "East or west, black or white, if he is my Father's son,

surely he must be my brother." I will carry this message along with me. I pay my humble tribute to Summerland and am proud to have your friendship.  
HAL RUGGE.

The GREEN LIGHT'S YOURS...

**Go Ahead!**

You have waited long enough for those necessary improvements. Now the green light's yours.

That extension to your outbuildings—new machinery—re-decoration of home—inside plumbing—refrigeration—washing machine—built-in sinks and tubs—all of these and a score of other things can be yours without further waiting. Your nearest Bank of Montreal branch holds the answer to your needs.

Your B of M manager is anxious to help you to bigger profits and to more comfortable living.

**BANK OF MONTREAL**

working with Canadians in every walk of life since 1817

**No Subsidies For Canned Products**

No growers' subsidies will be paid on delivery of canning crops of 1946, and the processors' ceilings on canned beans, corn, peas and tomatoes will be increased to permit payment to growers of the same gross prices including subsidy, as they received in 1945. Because canners' subsidies paid during war years on the basis of dozens of cans of product sold are to be eliminated by a similar upward adjustments of ceilings, consumers will probably pay 1-3 cents more per can for canned beans, corn, peas and tomatoes, says the Current Review on Agricultural Conditions in Canada.

In 1947, tomatoes will be sold for processing in Ontario under a system of compulsory grading, and payment will be made at graded prices. Both growers and processors favor this development, says the current Review, but the provincial department of agriculture has not been able to organize the grading stations and train the necessary staff in time for this year's canning season.

Graded sale in British Columbia has been the practice for several years. In both Ontario and British Columbia growers' boards negotiate terms of sale of the crop under provincial marketing legislation.

**"Someday Bill Will Thank You . . ."**

So said the Sun Life Agent when he delivered my son Bill's Junior Adjustable policy — but he didn't have to tell me that. I know what a help it would have been to me if, when I was twenty-one, I had been given a life assurance policy that could be continued as Whole Life, Life Paid-up at 60, or Endowment at the same age, for as much as five times the original amount without increasing the premium. Especially when that premium was based on rates for a child. I didn't have this great advantage, but I'm making sure my son has it. How about you?

MAIL THIS COUPON TODAY!

**Regatta Entry**

(Continued from Page One)  
failed to show yesterday. Ray Daughters, famous Seattle swim coach who taught Helene Madison and Johnny Weismuller, has brought a team of 13 swimmers from Washington Athletic Club. The Seattle Y is also competing, while Jim Burns, the first American ever to compete at the Kelowna regatta, has brought along a team of Yakima swimmers.

George Athans, Canada's outstanding diver, has been doing a great job in thrilling the big Kelowna crowds. He was given a commentary by Ray Daughters, who stated with conviction that there is no better diver on this continent than Athans.

One regatta official told The Review last night: "I have never heard an American give such whole-hearted praise of a Canadian's performance before." Last night the Lady of the Lake pageant was the outstanding feature, while today the bands are parading, with stars from Vancouver's Theatre under the Stars and Jubilee shows providing the main concert tonight.

**May Play Here**  
The 70-piece United States Army band from Fort Lewis, Wash., is making a big hit in the Orchard City, while another new band to this show which has met with praise is the Vancouver Fireman's Band. An old favorite, the Wenatchee drum and bugle corps is also in attendance.

An attempt was made on Tuesday to have the U.S. Army band stop in Summerland for a short concert, but arrangements could not be finalized.

Several Summerland citizens will request this aggregation to visit on Friday on their return trip to the United States but at press time it was not known if this would be possible of arrangement.

**First Win In Many Starts For Locals**

Summerland's ball club came back into the win column after a lengthy loss streak last Sunday on the local diamond when they conquered the visiting Osoyoos nine by a 13-9 count in a free-hitting slug-fest.

Unless something drastic happens to the top teams, however, this victory won't mean a thing as only the first three teams are to be included in the playoffs and Summerland has only a slim chance to get into the upper strata now.

Bill Evans was on the mound for the winners and whiffed the horsehide past eight of the south-erners. He was hard hit, however, yielding an unlucky 13, more than Jmaeff, of Osoyoos, allowed. Both pitchers allowed six walks.

Errors proved the deciding factor in this win, as the visitors committed seven miscues, five of which allowed potential runs to reach first base.

George Clark was the thief of the game, stealing five bases. Most unfortunate feature of the game came in the fifth when George Taylor, best centre-fielder in the league, wrenched the ligaments in his foot and was forced out of the game. It is unlikely he will be able to play again this season.

Osoyoos announced it would protest this win because of a decision by W. Evans, umpire-in-chief, who called Hankins safe at home plate. The visitors claimed the Summerland man ran off his baseline and should have been nodded out.

It is doubtful if the protest will come to anything as Osoyoos is in cellar position.

Summerland goes to Penticton next Sunday and if victorious will stand a much better chance of reaching a playoff position. Both Penticton and Oliver, who are in third and fourth spots, have some tough matches to play before the season ends on September 1, and if they go into a slump Summerland has an outside chance of slipping into the playoffs.

Mrs. B. Bromley and daughter Alice, of Hedley, were recent visitors at the home of Mrs. I. C. Schwass.

Mr. and Mrs. Alan Butler left recently for a two weeks' holiday at Salmon Arm and Spences Bridge.

Mr. Roy Darke, of Rocky Mountain House, is visiting his parents, Mr. and Mrs. J. Darke.

**Fastball Girls In Play-offs**

Doubling the score on the home team at Oliver last Sunday, Summerland lasses completed their fastball league schedule with an 18-9 win. This victory leaves Summerland in second place, with Penticton at the top of the heap.

Penticton has dropped but one game, and that to Summerland, in the league play, but still has another game to play with Kere-meos this Sunday. Summerland is safely in second spot with four wins and two losses, while Kere-meos is next with two wins and three losses, followed by Oliver with one win and five losses.

Playoffs are to be arranged as soon as Penticton and Kere-meos play their final game, but it will not mean much as Penticton and Summerland are definitely the playoff teams.

Jean Howard started on the mound for Summerland last Sunday but her teammates did not give her good support, eight runs being registered in the first four innings. Her sister Doreen took over in the fifth and held the Oliverites to one run for the balance of the game.

Doreen Howard also went a long way towards winning her own ball game when she clouted a homer with two on the paths in the sixth frame. Muriel Barr also socked the pill for a complete circuit in the seventh but there was nobody on board just then.

Klix played her usual sparkling game in left field, pulling off some sensational catches.

The teams lined up as follows: **SUMMERLAND** — Ward rf, Heikert 1b, Day ss, Barr 3b, D. Howard 2b p, Klix lf, Johnston cf, Glaser c, J. Howard p, Lewis 2b.

**OLIVER** — Hatton lf, Alaric 1b, Perlock 3b, Hedges ss, J. Fleming c, Beech 2b, Parker cf, Tompkins rf, M. Fleming p, Bastian rf.

Score by innings:  
S'land—1 0 4 0 0 5 3 0 5—18  
Oliver—5 2 1 0 1 0 0 0 0—9

**Drops Permit At Wrong Time**

As a result of a brawl on Granville street, three local residents were brought before Magistrate H. Sharman last month, charged by B.C. police with creating a disturbance in the business area late at night.

Orville Lewis, who was said to have been the cause of the fracas, was fined \$25 and costs. His brother, Cecil Lewis, and Karl Johnson each paid fines of \$5 and costs.

When Orville Lewis produced his pocketbook to pay his fine, a liquor permit fluttered to the desk in front of the magistrate. As the accused is a minor, he was immediately charged with being in possession of a liquor permit, contrary to B.C. Liquor Control Board regulations.

On this charge, Lewis was given three months' suspended sentence.

On a serious charge of indecent assault on an eleven-year-old girl, Matthew Maguire pleaded guilty before Magistrate Sharman last week and was sentenced to one year in Oakalla.

Arising out of a collision on the Garnett valley road, James Sadaway was brought into police court recently and charged with driving without a driver's license and operating a truck without a chauffeur's license. On the first charge he was allowed out on suspended sentence and on the second was assessed \$5 and costs.

Sadaway's truck collided at a sharp corner with a car driven by Mrs. J. Dunsdon. The Dunsdon automobile was badly damaged, especially to the body. The road in Garnett valley at this section is said to be only 13 feet wide. Both vehicles came around the corner at the same time and there was no chance to avoid the collision on the narrow road.

"Bud" Stewart reported to the B.C. police that a number of miscreants, who drove up in an automobile, hurled four rocks at his house in the early morning of July 27. Three of those rocks landed on the verandah, but a fourth crashed through a four-foot pane of glass. The offenders got away before he could identify them.

**DRAIN WATER FROM SCHOOL CORNER**

At the instigation of Penticton school district No. 15, the council will endeavor to find some means of draining water from the area between the high and elementary schools where it collects alongside the highway. This has been a source of annoyance for a long time and at one time was solved by a sump. But this sump is now inadequate.

It is the council's plan to probe the feasibility of installing a settling channel along with a revision of the present sump, or the addition of a new sump.

On Friday, Raevo Powell suggested that this would be a feasible solution to the problem inasmuch as removal of the water by means of piping or drains would be a costly and troublesome undertaking.

**Open Tenders**

(Continued from Page One)  
recent instance a bed had to be placed in a hallway.

However, until the legal transactions are completed the hospital board could only proceed at its own risk, Mr. Nixon stated, and the municipality could not give the go ahead signal until it is absolutely certain that the financial deal will be completed.

The entire hospital expenditure was estimated at \$40,000, with the building to cost \$31,000 and the equipment and furnishings another \$9,000.

**Building Tenders**

The successful building tender was submitted by W. M. Jenkinson, Summerland, at a figure of \$32,587. Heating contract goes to the D. J. Morgan company. Penticton at a cost of \$4,422.

Mr. Jenkinson's bid contained an escalator clause which provided for any increase in building material costs after June 29.

Of the total expenditure, the provincial government has agreed to put forward one-third or \$1,666, leaving the balance to be raised by the Municipality of Summerland.

Unsuccessful tenders on the municipal debentures on Friday were submitted by the following Vancouver firms:

J. Richardson & Sons, \$100.51; Lauder & Mercer, \$100.31; Odum & Brown Investments Ltd., \$100.21; Pemberton & Son, \$100.03; McDermid, Miller & McDermid, \$99.39; McMahon & Burns Ltd., \$99.00.

Beverley Gayton is spending a week visiting friends in Vancouver.

Miss Betty Baillie, of Vernon, is visiting at the home of her sister, Mrs. J. Y. Towgood.

Mr. G. Ewart Woolliams left this week for the Cariboo district, on a seed crop inspection and plant disease survey.

LOCAL COUPLE WED AT PENTICTON

The Rev. R. P. Stobie, of Penticton, officiated at the quiet marriage in the United church there, on Wednesday, July 17, of Helen Russell and Feoda Morelli. The bride was attended by Sybil Sovik, while the groomsmen was Fred Morelli.

A reception was held at the home of the bride, in Summerland, with Mary Wolfer, sister of the bride, preparing the attractive wedding supper, for immediate relatives of the families. Following a honeymoon in Vancouver, Mr. and Mrs. Morelli are making their home in Summerland.

SURPRISE PARTY FOR NEWLY-WEDS

Mr. and Mrs. F. Morelli (nee Helen Russell), whose marriage took place recently, were guests of honor at a surprise party on Friday evening, July 26, at the home of Mr. and Mrs. Walter Hall.

An enjoyable evening was spent playing court whist, after which refreshments were served by the hostess, assisted by Mrs. J. Van Gameren, and Mrs. C. Snow. The bride's table was centered by an attractive decorated cake, topped with a miniature bride and groom, and flanked with tall candles in silver holders.

Whist prizes were presented to Mrs. V. Charles and Mrs. J. Van Gameren. Men's prizes went to Ruddy Morelli and T. Parker.

Mr. Hall, after a few well-chosen words, presented Mr. and Mrs. Morelli with a magazine table and smoking stand, a presentation from the 36 friends of the young couple who attended the party.

The Misses Florence and Betty Quadvlieg, of Keremeos, are visiting at the home of their uncle and aunt, Mr. and Mrs. Harry Pilkington.

Socially Speaking

Social Editor : Muriel Hurry

Mr. A. Goldring and his sister, Mrs. Davis, are visiting in Vancouver.

Mrs. Charles Wilson left recently for Red Deer, where she will visit for some time, before returning to Greenwood, where she will make her future home.

Recent visitors at the home of Mr. and Mrs. A. D. Glen, Summerland were Mr. and Mrs. Archie McIntyre and Mr. and Mrs. James Dingwell, Grand View, Man.; Mr. and Mrs. Kinness, Sicamous; and Mrs. Maxwell, Tappen, B.C.

Bill Laidlaw and Gordon Smith left on Sunday by motor for a vacation to be spent mainly in Calgary, Alta.

Dr. and Mrs. L. A. Day entertained a number of Kelowna visitors to their West Summerland home on Saturday evening to meet Mrs. F. Sherrin, Vancouver, and Mrs. Day's sister, Miss Ada Cochrane, formerly of Toronto. The Kelowna visitors included Dr. and Mrs. Stan Underhill, Mr. and Mrs. R. P. MacLean, Mr. and Mrs. Chas. Gaddes, Mr. and Mrs. Max dePfyffer, Mr. and Mrs. W. T. L. Roadhouse, Mrs. B. Lewis, and Mrs. V. Dawson. Other guests were Mr. and Mrs. Warren Gayton, Powell River, and Mr. and Mrs. Len Hill and J. R. Armstrong, Summerland.

Dr. W. G. Evans, of Vancouver, is holidaying at the home of his parents, Mr. and Mrs. C. P. Evans.

Mr. J. McIntyre, Prince George, and Mrs. W. L. Boulton, Penticton, are visitors this week at the home of Mr. and Mrs. E. C. Bingham.

Mr. and Mrs. Quillan, who were en route from Kelowna to their home in Hardisty, Alta., were recent visitors of Mr. and Mrs. John Oliver.

Mr. and Mrs. Jim Howard, of Vancouver, were recent visitors at the home of Mr. and Mrs. Harold Short.

Mr. and Mrs. Harold Short arrived home on Sunday, after visiting in Vancouver and Chilliwack for two weeks.

Miss Evelyn Reid left on Sunday night for Vancouver, where she will visit friends and relatives for two weeks.

Mrs. Hazel Taylor has arrived home from a vacation spent at Yellowstone National Park, Montana.

Miss Doreen Nelson, who has been visiting here with her uncle and aunt, Mr. and Mrs. Karl Johnson, left at the weekend for Penticton, where she will visit relatives for several weeks before returning to her home in Nelson.

Mr. and Mrs. Wm. Lewis were weekend visitors in Sicamous.

Mr. and Mrs. Wm. Bradbury and family of Peachland were Summerland visitors at the weekend.

Mrs. H. Cartmell has returned from a holiday in Seattle and other U.S. points.

Miss May Bennest has been holidaying in California.

Mr. and Mrs. C. C. Dunham, of Arkona, Ont., and Mrs. William Campbell, of Parkhill, Ont., are visitors this week at the home of Mr. and Mrs. Herb Dunham. They will continue their visit to the coast and then return here before going back to the east. This is the first time these Ontario residents have ever visited the west and they expressed their delight with the Okanagan Valley.

Mr. and Mrs. Warren Gayton, of Powell River, are visitors in Summerland this week. Mr. Gayton is a former well-known Okanagan athlete who lived for some years in Summerland. They are guests at the home of Mr. and Mrs. C. A. Gayton.

Mr. and Mrs. D. G. Winkler and two children, David and Candace, are spending a holiday with Mrs. Winkler's sister, Mrs. R. E. Fitzpatrick, at Trout Creek Point.

PARK APPROVAL COMMITTEE

Approval of the Memorial Park committee of the council's suggestion that the new municipal hall be erected in the proposed park-playground in West Summerland formally reached the Summerland council on Monday afternoon, July 29, in a communication from Lorne Perry, committee secretary. The suggestion that the municipally-owned lot adjoining the road entrance on Granville street be kept for a park entrance and car parking was included in the correspondence. This whole question will be dealt with later by the council.

Freddie Quadvlieg, of Keremeos, is a guest of his uncle and aunt, Mr. and Mrs. A. Advocaat.

At the Summerland hospital on August 1, a daughter was born to Mr. and Mrs. Charles Krueger.

Mr. and Mrs. D. C. Carscadden and family, recently of Vancouver, have taken occupancy of their new home, the former Bank of Montreal house.

Mr. and Mrs. H. Clough, well-known Summerland residents, are leaving on August 12 for Halifax, where they will board the Aquitania on August 18, for England. They plan to be away a period up to twelve months, as they have not visited the Old Country for ten years.

Mr. and Mrs. Bill White were motor visitors to Kamloops at the weekend and were accompanied that far by their guests, Mr. and Mrs. J. Ingram, who were en route to their home in Moncton, N.B., after spending more than a month visiting here. Mr. and Mrs. White report an enjoyable weekend fishing at Dairy Lake.

Mr. D. M. Cameron, formerly of Niagara Falls, is visiting with his brother-in-law and sister, Dr. and Mrs. W. H. B. Munn. Mr. Cameron plans on making his future home in the Okanagan valley.

Miss Mary Hall, of Vancouver, was a weekend visitor at the home of Mr. and Mrs. A. G. Bisset.

Mr. Harold Wadge, of Regina, was a recent guest at the home of Mr. and Mrs. J. H. Lee-Grayson, left on Tuesday evening for Vancouver.

Mr. and Mrs. Wm. Beattie have as their guests Mrs. Beattie's daughter, Mrs. J. Rennie, and her two children, of Vancouver, who will visit here for about two weeks, and Mr. L. Wharton, also of Vancouver, who will return to his home at the weekend. Mr. and Mrs. Beattie and their guests are attending the regatta in Kelowna.

Carol Anne Short entertained many of her youthful friends on Wednesday afternoon at a party in honor of her eighth birthday.

Mr. Lloyd Gartrell has been discharged from the Penticton hospital, where he was a patient for several days last week. While there, Mrs. Gartrell visited at the home of her mother, Mrs. Swift.

Dr. and Mrs. A. O. Rosa, of Langley Prairie arrived on Monday for a three-day visit with Mrs. M. V. Dale and Miss Ruth Dale.

Mr. and Mrs. Pat Agur and son, of Rocky Mountain House, arrived on Saturday for a ten-day visit with Don Agur at Crescent Beach.

NEW MEDICAL SCHOOL

Premier Hart and Dr. Norman Mackenzie, president of the University of British Columbia, have had another conference on the establishment of a medical faculty at the university. Every effort is being made to have the faculty in operation when the fall term opens late in September. Because eastern medical schools are filled to overflowing, B.C. men who plan to be doctors may have to wait a year unless the U.B.C. medical faculty can start this year. Premier Hart and his government are determined to have the faculty opened as soon as possible.

Mr. Russel Godkin, of Vancouver, was a Summerland visitor during the week.

Mr. and Mrs. A. Cumming and Gordon and Kathleen and Mrs. E. G. Armour, all of Vancouver, are visiting this week at the home of Mrs. J. Shepherd.

Mr. and Mrs. John Robertson, of Pitt Meadows, were guests this week at the home of Mr. and Mrs. James McKenzie.

Dr. J. M. Bird, of the Agronomy department of the McDonald college, Quebec, was a visitor at the experimental station, on Tuesday.

Robbie Towgood has as his guest Barry Sinclair, of Penticton.

Miss Jean Cardno, of Elora, Ont., arrived today, Thursday, to visit at the home of Dr. and Mrs. A. W. Vanderburgh.

Rev. F. W. Haskins left on Sunday night for Keat's Island, where he will give a course of lectures at the Baptist Assembly.

Mr. and Mrs. J. W. Harris and two children, of Vancouver, are visiting for a week at the home of Mr. Harris' father, Mr. J. W. Harris, Sr.

Mr. and Mrs. Walter W. Smith, formerly of Amherst, N.S., have purchased the former Barnett residence on the Giant's Head road and will make their future home in West Summerland.

Tom Moffat and Eldon Harris, youth hostellers, of Calgary, Alta., were visitors in Summerland on August 6, en route to other valley points.

NEW HIGH FOR SUNDAY SHOW

New high for the Summerland Rifle Club Sunday shoots was registered last week-end when G. M. Dunsdon registered 96 over the three ranges. He was well in the clear as the second best went to F. G. Anderson, with a 90 score.

Other scores on Sunday follow: Ted Dunsdon, 89; A. E. Scott and D. L. Sanborn, 88; P. S. Dunsdon, 86; F. W. Dunsdon, 84; A. R. Dunsdon and J. McLachlan, 83; I. H. Dodwell and G. A. Graham, 82; A. W. Moys, 73; H.

GUESTS HONOR MISS V. TAYLOR

Miss Violet Taylor, whose marriage takes place on August 19, was the guest of honor on Thursday evening, August 1, at a shower at the home of Mrs. Joan Gloyn.

The room was beautifully decorated for the occasion with pink and blue streamers and white bells, fashioned in an attractive design. Pink and white flowers also added to the loveliness of the room. Gifts were presented the popular bride-elect in a decorated wagon, by the little daughter of the hostess, Miss Sandra Gloyn who made a charming little speech to Miss Taylor.

Mrs. Gloyn was assisted in serving by Mrs. Floyd Prosser and the Misses Flo Taylor and Doreen Howard.

Guests present included the Mesdames J. Strachan, J. Thompson, Moi McMillan, Floyd Prosser and the Misses Dorothy and Noreen Thompson, Betty Strachan, Muriel Barr, Doreen Howard, Mae Howard, Thelma Heiber, Doreen Stonehocker and Flo Taylor.

Mr. and Mrs. Sam Parkinson and family, of Vancouver, are expected to arrive on Sunday to visit Mr. and Mrs. Doney Wilson and family.

## Ferry Revenue Shows Big Increase In June

KELOWNA — Largest gross revenue increase since the Canadian and American public packed up the family automobile during the first few years of the war, due to gasoline and tire rationing, was registered by M.S. Pendozi, the Kelowna-Westbank ferry, during the month of June, while the gross take for the first six months of this year almost doubled the revenue collected during the corresponding period in 1944. Faced with the greatest influx of American and Canadian tourists in more than six years a total of 8,865 passenger cars crossed the lake in June, an increase of 4,360 over the same month last year, and 4,950 over June, 1944.

Gross revenue in June amounted to \$6,282.45, compared with \$3,694.90 in June, 1945, and only \$2,698.90 during the same month of 1944 when automobile travelling was at its lowest ebb. Institution of the 24-hour ferry service is believed to be partly responsible for the large increase, observers believe, while the ever-increasing number of city residents taking advantage of facilities at Rotary Park on the other side of the lake, especially on week-ends, has also made the government cash register tinkle more loudly.

Gross revenue for the first six months of this year amounted to \$23,736.20, compared with \$15,736.15 during the same period of last year, and only \$12,061.10 during the first half of 1944. The ferry is now operating on a 45-minute schedule during most of the day, and on an hourly basis after midnight. The sister-ship of the Pendozi is now under construction in a Vancouver shipyard, and when this is delivered during the latter part of this year, it will help the overburdened Pendozi out considerably.

#### Passenger Cars

A total of 869 trips was made between Kelowna and Westbank during the month of June compared with 499 in June, 1945, and 491 in June, 1944. A total of 8,865 passenger cars crossed the lake last month, compared with 4,505 during the same month last year, and 3,915 in June, 1944. Trucks weighing over five tons totalled 720, compared with 702 in June, 1945, and 498 in June, 1944.

Indicating that more people are visiting distant summer resorts via the medium of buses was shown when a total of 314 buses carrying over 200 passengers paid tolls to cross the lake. This compared with 274 in the same month last year, and 227 in June, 1944.

The number of passengers crossing on the ferry also showed a huge increase. A total of 28,628 people paid fares to cross the lake, compared with 21,041 in June, 1945, and only 16,725 in the same month in 1944. Freight carried on the Pendozi showed a slight increase. It totalled 919.5 tons, an increase of 137 and 254 tons over 1945 and 1944 respectively.

#### Comparative Figures

The following figures show the steady increase in gross revenue since the start of the year, compared with the same period in 1945 and 1944.

Month	1946	1945	1944
June	\$6,282	\$3,694	\$2,698
May	5,192	2,991	2,467
April	4,231	2,902	2,242
March	3,397	2,288	1,828
February	2,318	1,925	1,615
January	2,314	1,933	1,208

Final readings of two bylaws passed council last Friday afternoon, one being the electric light bylaw and the other, providing for the sale of tax lots.

## Council In Quandary Over Road Improvement

(Continued from Page One) fuel oil, asphalt oil, and other substances to make the road surface bind together even for a short period and give a smoother passage to the loaded vehicles came under the scrutiny of the municipal fathers.

Even outside advice was sought and obtained. George Henry, of Smith and Henry, was asked to visit the council chamber and give his version of the road situation. He was in favor of abandoning the permanent road program for the next few weeks and allow the maintenance equipment to straighten out the bumps on the gravel roads.

It was pointed out on Friday that when the second car of asphalt was laid on Giant's Head and rolled into place it would be near the middle of August. This car arrived on Monday and the hard surfacing work was continued until today it has been nearly all used.

This only provides a permanent surface half-way along Giant's Head and is really only about a third of the program the council announced a month ago that it would undertake this year.

More Headaches The new municipal rock crusher is not operating smoothly and is adding to the council's headaches. Reeve Powell, in a disgusted tone, explained that the bins are on their last legs and the dragline is not functioning properly, among other things.

"It all boils down to the fact that we cannot expect to do what I call capital work without proper, efficient equipment," declared His Worship.

"You can in normal times, but we aren't in normal times right now," interposed Clerk F. J. Nixon.

## Penticton Has To Cut School Building Plan

Penticton's plan to build a new high school unit, complete with cafeteria, a big industrial arts group which would be a centre for technical training, and other features has received a severe knock and is unlikely of accomplishment for several years.

Such was the message which Dr. T. F. Farnley, chairman of Penticton school district 15, provided for his members when he returned from Victoria last week.

Instead of the complete unit, it was the chairman's recommendation that the Penticton addition be comprised of twelve class-rooms, a home economics unit and cloakrooms. This section would be built as originally planned, leaving room for the other additions when the building supply situation is more settled.

This suggestion was agreed to by the school board on the motion of W. W. Riddell, Penticton and P. G. Dodwell, Summerland, who instructed the secretary to ask Architect J. Y. McCarter, Vancouver, to seek tenders on this portion of the program.

Included in this plan is an administrative suite and the heating plant. This plant was originally planned for one to three heating units, and one unit would be sufficient for the time being, it was stated.

Originally, Penticton School Board, before it was discarded and the enlarged school district came into being, had laid plans for a high school addition to cost about \$376,000. A bylaw to raise half this money, or \$188,000, was passed by Penticton taxpayers and debentures sold. The B.C. Government would finance the balance of the money needed.

But no firm bids could be obtained from any contractors on a project of this magnitude. Finally, two firm bids were obtained, the lowest of these being \$474,032, including the architect's fee of six per cent and an additional sum of \$20,000 to take care of acoustical equipment which had been decided upon after the original plan had been devised.

Thus, the school unit would cost approximately \$100,000 more than the original plan placed before Penticton rate-payers.

In view of the general unsettled condition of the building trade and the rising costs of supplies at present, Chairman Farnley strongly recommended that only a portion of the plan be proceeded with for the time being.

The cafeteria, as planned, would be built to accommodate four hundred pupils. Chairman Farnley pointed out that Summerland would be faced with a similar proposition for its pupils, and might have to provide for a like number as the youngsters are brought in from such a distance every day and cannot go home for lunch.

Mrs. Emil Olson, who has been visiting her brother-in-law and sister, Mr. and Mrs. E. J. Shehrer, of Peach Valley, left on August 2 for her home at Ponoka, Alta. It was her first trip to the Okanagan and she was favorably impressed with the friendliness of the people and beauty of the orchards, stated Mr. Shehrer.

## PEACHLAND

Mrs. F. D. Miller entertained at a tea, served on Tuesday July 23, at her home.

Miss Louise Garvin is spending a few weeks at the home of her sister, Mrs. Jack Garraway.

Miss Noreen Gummow, of Victoria, recently spent two weeks at the home of Mr. and Mrs. J. B. Gummow.

Doug. Clark and Lloyd MacDougall, of Vancouver, are spending a Bohemian holiday on the beach at Peachland.

Mrs. Norman White, of Vancouver, was a recent visitor at the home of Mrs. M. Twiname.

Miss M. Draper, of Vancouver, is visiting at the home of Mrs. M. Twiname.

Mr. and Mrs. Ed. Kilner left on July 19 for Vancouver for a short holiday.

## WATER EXTENSION

Barkwill's cannery was granted permission to run a one-inch extension from the domestic water line to provide a service to the cannery plant, at the council session on July 29

# PAUL BUNYAN

## Should Have Written This

HAD Paul Bunyan, the legendary figure of woodlore, written this he would have used unrestrained language in asking the people of British Columbia to guard against forest fires.

Forest fires are not only dangerous and costly, but they deprive great areas of future yields of timber—timber which gives employment to thousands of workers, makes vast markets for British Columbia products, and supplies lumber for housing in these critical shortage days.

## PREVENT FOREST FIRES

It is not enough that each individual give immediate warning when discovering fire in forest lands. Each person should ensure that precautions are observed when making a camp fire, lighting a match, or smoking a cigarette.

**CATHEDRAL GROVE ROAD**

Hon. E. C. Carson, minister of public works, has announced that the public works department is calling tenders for twenty miles of new road through Vancouver Island's famous scenic highway around Cameron Lake and through Cathedral Grove. The job is expected to cost in the neighborhood of \$750,000. Tenders will close August 7. Cathedral Grove, one of the finest stands of tall timbers anywhere in the province and will be preserved as a provincial park for the pleasure and enjoyment of the people.

**DIVING BOARDS**

**NEW FIRE HOSE**

Permission has been granted the fire protection society to purchase a quantity of hose to replace the ARP hose which burst at the fire near the municipal dump on Sunday, July 21. The society will make the purchase and send the account to the municipality.

stand at Powell Beach were obtained last week and were installed a few days ago, thus providing further accommodation for swimmers at this popular beach. Councillor E. Tait told the council last Friday that he had been able to obtain the necessary lumber, and would see that the boards were in place as soon as brackets could be constructed.

Saturday nights at six o'clock, CBC listeners go south of the border to the mythical little city of "La Plaza" for a half-hour of authentic Latin rhythms. David Holman and Irma Lawrence as Pepe and Maestra George Calangis and his fifteen muchachos present original arrangements.

**Ruth McLarty Is Bride In Eastern Canada Ceremony**

A wedding of wide interest to the Summerland district took place in Toronto on Friday, July 19, at the Walmer Road Baptist church, when Ruth Marion, daughter of Dr. and Mrs. H. R. McLarty, became the bride of Bremner LeRoy Sargent, son of Rev. and Mrs. Leroy Sargent, of Bronte, Ont.

Officiating at the wedding was the groom's father, assisted by Dr. G. T. Webb.

The bride, who was given in marriage by her uncle, Mr. John McLarty, of Ridgetown, Ont., entered the church to the strains of the organ, played by Mr. George Lowry, of Woodstock.

The full-length gown of the bride was of the palest pink sheer, fashioned on princess lines, with sweetheart neckline, a shirred and fitted bodice, long lily-pointed sleeves and tiered skirt, featuring insets of cream lace, and an underskirt of taffeta. She wore her mother's heirloom veil of silk net, hand-embroidered in India, gathered at the top with a circlet of her mother's orange blossoms, and falling in soft folds to form a train. She carried a bouquet of cream roses and fern. Her only jewelry was a flowered pendant, a gift of the groom.

Miss Jean Angus, of Summerland, was the bride's only atten-

dant, gowned in a lovely full-length dress of delphinium blue, with sequin trim, and a tulle halo of matching blue. Her flowers were larkspur and gladioli.

Mr. Glyn Reese supported the bridegroom and ushers were Messrs. Gordon Young and John McLaurin.

During the signing of the register, Mr. Warren Hitchcock, brother-in-law of the groom, sang "O Perfect Love."

At the reception in the church parlors, the bridal party was assisted in receiving the guests by the bride's aunt, Mrs. Marion Bates, of Toronto, who wore a smart blue-grey ensemble with white accents, and by the groom's mother, in a gray chiffon gown, trimmed with lime green.

A three-tiered wedding cake centred the bride's table. The beautiful cake was embedded in tulle and flanked by pink candles in silver candle holders. The table was tastefully decorated with summer flowers and was presided over by Mrs. John McLarty and Mrs. Arthur Lee of Toronto, assisted by Mrs. J. B. McLaurin, Mrs. Charles Avery (nee Nancy Angus), Miss Marion Bates, and other friends of the bride.

For a honeymoon trip to Muskoka and northern Ontario, the bride wore a gray flowered crepe dress with wine accessories.

Mr. and Mrs. Sargent will make their future home in Toronto.

**ENLARGE POST OFFICE**

T. Hickey, who plans to enlarge the Summerland post office premises, asked the council on July 29 to reconsider its demand for \$150 for half the lot adjoining his premises. He had offered \$50 for the property but, as the assessed value is \$300 for the whole lot, the council asked \$150. The council will reply to Mr. Hickey offering him the half-lot for \$150, with payment over a five-year period. The other half of the lot will be set aside as a road entrance to the lane behind these premises.

**SELL LOTS**

Offer of \$300 for three lots was accepted by Summerland council on Monday, July 22, the bid having been made by H. Westerlaken. L. A. Smith, who rented one of these lots up to this year and who had made enquiries regarding rental again, was expected to bid on part of this property but no offer reached the council. As Mr. Smith had been given two weeks to reply, the council decided to sell to the only bidder, H. Westerlaken.

**Handle Bulbs With Great Care**

Revenue from British Columbia's bulb industry is valued at approximately \$750,000 annually. This represents a sizeable contribution to the agricultural economy of the province and also an important source of livelihood to more than 200 growers who are engaged in bulb production.

Growers who realize that it may be difficult to maintain this high revenue should appreciate the various ways at their disposal to insure that their product will be demanded by buyers.

Several simple yet effective ways of achieving this goal are outlined by J. H. Crossley, assistant in bulb work at the Saanichton experimental station. The first concerns the careful handling of bulbs. Tulips and iris more easily bruised than narcissi, and the result of rough treatment during harvesting and preparing the bulbs for market may not always become visible until after they leave the growers' hands. All unnecessary and rough handling should be avoided.

The second point concerns grading of bulbs. The present trend is towards grading with mechanical devices. In large scale operations this is necessary. No machine will grade as satisfactorily as will the human hand. It is important to check frequently the grade obtained from the machine. A final checking of machine graded bulbs with the eye may be all that is necessary to insure a proper and uniform grade.

The third concerns packing the bulbs. They should be packed to insure safe arrival at destination. Gunny sacks and paper bags used alone are unsatisfactory. Heavy grade, ventilated cartons which hold approximately 8 to 12 hundred bulbs, weighing from 35 to 70 pounds are ideal for tulips and iris.

Inside the cartons the bulbs may be segregated as to variety, quantity and size in heavy, ventilated paper bags. Excelsior should protect the outside of the mass and take up all slack within the box. For daffodils which are to be disposed of in large quantities, strongly built wooden crates which provide ventilation from all sides are recommended. Attention to these seemingly unimportant details will go a long way to establishing the buyers' confidence. With other markets for bulbs once more becoming available, careful attention to preparing, handling, grading and packing of bulbs by growers in British Columbia is important.

BAPTIST CAMP

With good attendance from Kaledon, Penticton, Summerland, Peachland, Kelowna and Vernon, the Okanagan Baptist camp was held at Trout Creek from July 30 to August 6, with Rev. Eric W. Gosden, Penticton, officiating as director and Rev. Frank Haskins, Summerland, as business manager.

Outstanding visitors to the camp were Rev. L. Keith Daniel, Edmonton, director of young people's work for the Baptist Union of western Canada, and Rev. G. Ward, Lethbridge, Alta., minister of the Baptist church there and an experienced camp leader.

Miss Gerda Arndt, Summerland, acted as secretary for the camp, while Rev. T. T. Gibson, Vernon and Rev. Albert Cursons, Kelowna, assisted.

Mornings were spent with two helpful lecture periods, while the afternoons were devoted to recreation, hikes, picnics, visits to the experimental station and swimming. Sports occupied the early and late evenings, followed by camp fires.

PLACE NAME OF DONORS IN DEED

Names of all donors to the Summerland scholarship fund will be appended to the trust deed, it was decided at the municipal council session on Friday afternoon, following a visit from Dr. F. W. Andrew, who, with W. C. Kelley, was the originator of the fund.

With this provision, the council has now accepted the deed as trustees.

Names of further donors to the fund will be added to the deed, it was provided by the council last week. Thus a permanent record of those who made the fund possible will be kept.

The reeve, together with the principals of the high and elementary schools, will form the selection committee each year, it is provided in the deed. The youngster chosen will thus be enabled to continue studies at U.B.C. or if suitable course is other Canadian university.

Joins Valley Business Firm

Mr. Douglas Dewar, of Kaledon, has returned to the Okanagan after seven years in special service with the Bank of Canada as western supervisor of foreign exchange control and with the war time prices and trade board as joint deputy chairman.

With his return to ordinary civilian life, Mr. Dewar has accepted election as a member of the board of directors of the Kelowna Investments Co. Ltd., Kelowna and Penticton.

Scottish born, Mr. Dewar came to New York in 1905 and joined the firm of Marwick, Mitchell & Co. from whose service he retired in 1939 as the senior partner on this continent and the third-ranking partner in the world-wide accountancy firm of Peat, Marwick, Mitchell & Co.

His plans to retire to his Banbury Point home at Kaledon were interrupted when Donald Gordon sent a four-word telegram from Ottawa, saying "Douglas, I need you." Mr. Dewar went east to help in Canada's war effort.

Pleased With Fire Protection

Summerland's fire brigade answered a call on Tuesday afternoon when the siren was sounded, but it turned out to be a practice only. The call was initiated by F. F. Dowling, general secretary of the fire underwriters' group, who was visiting here.

Eight of the ten firemen answered the call which was considered by Mr. Dowling as being quite satisfactory.

The coast official also remarked on the general improvement in fire protection in this municipality. He recommended certain improvements in equipment and was pleased to find that orders for part of this apparatus have already been placed and waiting fulfillment.

PEACHLAND

By virtue of a decisive 15-3 trouncing, administered to Kelowna on Sunday, Peachland remained on top of the South Okanagan Baseball league. With five games left to complete the schedule, Peachland has a record of 10 wins and 3 losses.

Harold Cousins, on the hill for the Peachland nine, pitched brilliantly, striking out 19 for the second week in succession and allowing but one earned run. He scattered seven hits.

Peachland landed on Williamson, Kelowna's starting pitcher, for 15 hits before he retired to the outfield in the seventh inning.

Peachland started the scoring in the second on Fulks' double and scored as Naka's roller got away. Naka scored as Duquomin grounded out to make it 2-0 for the locals.

In the fourth, Fulks opened with his second double, and Duquomin singled to score Fulks. Duquomin scored as Williamson was safe on Schwab's error. H. Cousins singled Williamson home. V. Cousins and D. Cousins hit safely with V. Cousins and after Cousins scoring on infield outs to make a grand total of 6 runs and 11 men at bat for the innings, and the score 8-0 for Peachland.

Kelowna scored in the fourth. Fortney and Schwab singled. Fortney scored on Cousins' error and Schwab scored on Culos' roller. Kelowna added its final run in the fifth as Williamson raced to second on Naka's overthrow, went to third as Lambkin singled and scored on a passed ball.

Peachland added one run to its total in the fifth, three in the sixth, one in the eighth and two in the ninth to add up to the 15-3 verdict.

Oddity of the conflict, was the fact that the Peachlanders had only four assists while committing three mistakes, while Kelowna had 12 assists but erred 11

# Ottawa Forests Any Move To Interior Box Mills

To implement the production of boxes in the interior of B.C., R. H. Livingstone, of the Edmonton timber controller's office has been appointed controller of lumber and lumber products in the Okanagan, the Wartime Prices and Trade Board has revealed. Mr. Livingstone visited the Summerland Box Co.'s office on Wednesday, accompanied by S. M. Simpson, of Kelowna, and L. R. Stephens, of the box shoo committee for the interior fruit and vegetable industry.

As outlined in last week's issue, the interior box manufacturers sent representatives to Ottawa to press for higher prices for the box shoo owing to increased labor and lumber costs. Some of the interior firms were threatening to close down if their demands were not met, which would have caused a serious loss to interior fruit and vegetable men.

The prices board considered the pleas of the manufacturers and promised action as soon as figures were forthcoming to show them to be operating under the difficulties they claimed. An auditor was appointed by the board to assist in collating these figures and this week the controller made his appearance to ensure that none of the plants closed down.

Gordon Bell was formerly appointed by the Dominion labor department to settle the labor angle of the mills' operations and he was a controller of the industry from a labor standpoint.

Now that there is a prospect of a big demand for Okanagan packed fruit from Great Britain and the United States there is more need than ever before for a certainty that the mills supply the necessary containers, it was pointed out to The Review on Wednesday by Mr. Stephens, of Kelowna.

Rulings by the prices board, which Mr. Livingstone will enforce are:

Box manufacturers are required to use all logs and lumber now on hand or to be acquired for manufacture of fruit containers.

They are required to operate their plants to capacity of available labor and materials in manufacture of boxes and shoo.

If normal stocks of logs are required and not available to go out and purchase lumber within ceiling prices to meet all container needs.

"At no time did we ever consider closing and we have been producing as near capacity as it has been possible to do since the settlement of the strike," commented Mr. Perry to The Review today as manager of the Summerland Box Co. plant.

Mr. Perry also stated that Mr. Livingstone was quite co-operative and intimated that he intended to assist the lumber and shoo industry to the best of his abilities within his powers under the Ottawa order.

## Schools Will Be Ready For Term Opening

Construction of the additional room to the Summerland high school is nearly completed and the basement room alterations will be finished next week, when a start on the temporary building to house the manual training classes will be made on the elementary school grounds, Pentiction School District 15 was informed at its August session on Monday evening in Pentiction.

William Armstrong has the contract for these alterations and additions.

Desks for the high school and kindergarten chairs have also arrived here to complete the major equipment requirements for the fall term opening.

The heating system in the high school here will also be repaired in time for school opening. T. Collier, Pentiction, has informed the school trustees.

Miss Evelyn Oakes, formerly stenographer at the experimental station here, has been appointed high school stenographer at Pentiction, replacing Mrs. Baird. Both school principals in Pentiction have stenographers there, the meeting was informed following a query from Trustee P. G. Dodwell, Summerland.

H. A. LeRoy informed the Pentiction trustees that it would be possible to obtain a precision lathe from Mrs. C. Stewart, Summerland for a cost of \$800. It was decided that the Pentiction schools could not stand such an expenditure at present.

### Projection Machine

It was arranged for the purchase of a Victor projection machine for the Summerland schools. Pentiction has recently obtained delivery of a second machine and it was determined that Summerland should have one for its own use.

Until delivery is made the Pentiction schools will loan Summerland one of its machines for a portion of each month, it was decided on a recommendation of Inspector Burnett.

It was also suggested that a Summerland organization should sponsor affiliation with the National Film Board for regular showing of educational films here.

### Repair Blacktop

Repairs to the blacktop walks around the Summerland schools will be undertaken if the assistance of the Summerland municipality is obtained. Trustee Dodwell asked that the latter body be contacted to institute such repairs while blacktop surfacing is available. The cost is not to exceed \$100.

Trustee Roy Angus brought up the question of the public liability insurance which the former Summerland board had carried and which has not terminated.

It was decided that all such insurance policies should be consolidated for the entire school district and cover all five schools. A record player will be purchased for Summerland schools.

## JIM TOWGOOD REGATTA WINNER

Jim Towgood, of Summerland, brought home first prize from the Kelowna regatta when he captured the 25 yards backstroke swim for interior of B.C. boys under the age of 13 years. His time was 20 3/5 seconds, which was fast enough to defeat Roger Tait, of Kelowna, and Brian Willows, also of the Orchard City, who placed second and third, respectively.

## Bowlers Lose McKenzie Cup

In the second of a home and home series, Summerland bowlers on Wednesday, August 7, lost the McKenzie cup to Pentiction. This is an inter-club series played annually between the two clubs.

Pentiction had only a narrow margin of one point last week but in the previous matches the southern club had won handily.

Last week's results, with Pentiction skips named first, follow: Lyon 23, Adams 13; Woodburn 26, Tait 22; Killick 9, Newton 20; Boggs 17, Atkinson 19.

Summerland bowlers are visiting Pentiction tonight for a friendly inter-club series and Pentiction returns here next Thursday.

## Study Hail Insurance

Industrial hail and frost insurance possibilities are to be studied by the executive of the B.C. Fruit Growers' Association and a full report provided the annual convention next January, it was decided by the officers of that group after a meeting in Kelowna on August 7.

Information is to be obtained from the superintendent of insurance at Victoria on the feasibility of obtaining hail, frost or hail and frost combined insurance.

This action has been taken following the disastrous loss to a section of the Okanagan from the hail storm on July 20.

### Need Conveyance

There is still no solution to the problem of conveying five Summerland senior high school pupils to Pentiction this next term. A driver to contract for this trip would have to be 21 years of age and have the necessary driver's license.

It had been planned that the five pupils could be driven to Pentiction daily in one of the student's cars, but the highway traffic regulations will not sanction such a move, which would have been financed by the school district.

Further planning will have to be undertaken before a solution is possible, it was said.

# The Summerland Review

Vol. 1, No. 11.

West Summerland, B.C., Thursday, August 15, 1946.

## C. G. Bennest Dies Here At Age of 64

Funeral services were held yesterday morning, Wednesday, at 10:30 o'clock, for the late Clinton George Bennest, aged 64, well-known Summerland resident for the past twelve years, who passed away in the Summerland hospital on Sunday, August 11.

The late Mr. Bennest had made a host of friends in this community where he had resided for more than a decade, having retired here from a lifetime spent in Brandon, Man.

In that prairie city, where he came as a very young boy, the deceased was known for his hockey ability. He played on a Stanley cup team when Brandon entered that historic competition many years ago. Mr. L. N. Laidlaw, of Summerland, was also a member of that famous prairie hockey team.

Throughout his life the late Mr. Bennest evinced a keen interest in athletic endeavors. He was born in Wyoming, Ont., but resided there only a short time before the family moved to Brandon.

Rev. Hugh M. Rae, of Vancouver, officiated at the funeral service held at Lakeside United Church, Summerland. Pallbearers were William and John Bennest, Dr. Wilfred Evans, William Evans, Robert Spencer, and William Milne.

Besides his widow, he leaves two sons, William in Pentiction and John, at home in Summerland; two daughters, May, Summerland, and Jean, in Vancouver; three grandsons, Grant, William and Brian, Pentiction; three brothers, E. H. Bennest, K.C. Winnipeg; E. A. Bennest, Brandon and I.C. Bennest, Hamiota, Man.; and two sisters, Mrs. R. P. Laurie, North Vancouver and Mrs. C. H. Lachmar, Hollywood, Cal.

## Subdivision Is Announced

One of the biggest subdivisions to be announced for many years in this district has been made known by Alf McLachlan who has purchased the Solly property opposite the Anglican church and extending east along the Gulch road and also the adjoining lots belonging to William and George Armstrong.

The Solly property, consisting of five acres, has been subdivided into 19 lots measuring fifty and sixty foot frontage with a depth of 125 feet. There is one-half acre block in this section as well. These lots extend eastward from the corner by the Anglican church.

There is one portion of the former Solly property at the northeast corner which is being amalgamated with the Armstrong land. Part of this block will be divided into quarter-acre lots but there is sufficient there, as well, for two two-acre blocks, one of which goes north to the road passing the Occidental Fruit Co. plant and the other two acres adjoin.

Mr. McLachlan states that a new roadway is to be constructed through this subdivision so that every lot will be easily accessible for both water and light services.

### SALE OF BUSINESS

Mr. H. C. Guest, operator of the B. & G. meat and grocery store in Summerland, lower town, has announced the sale of his business to Mr. Jack Fraser, a Vancouver business man for twenty-five years. Mr. Fraser expects to come to Summerland next week to take over the store.

## Car of Asphalt Oil To Be Ordered By Reeve

Reeve W. R. Powell has been granted authority by the council to purchase another car of road oil for the municipal roads to be used as a temporary measure to alleviate dust and to try and bind the crushed rock surface and prevent washboard.

This decision was made on Monday afternoon after considerable discussion on roads.

There is still another 600 gallons of hard surfacing material to be laid on the Glunt's Road road and that will complete the permanent surfacing program for this year.

The municipal oiling tank broke down last week before the hard surfacing program could be finished but a new engine and transmission has been ordered for this vehicle and it is expected that the tank truck will be back in operation by the first of the week.

### HONORED

JOAN BENNETT

Attractive Joan Bennett, 18-year-old daughter of Mr. and Mrs. E. H. Bennett, was chosen the first girl to be awarded the Summerland Scholarship of \$250, which will enable her to attend U.B.C. this fall and commence a home economics course.

## Ball Teams In Drive For Playoff Spot

Oliver has climbed on top of the South Okanagan ball loop a scant few points ahead of Peachland, which has played one less game. Despite last Sunday's loss, Pentiction still retains third spot, closely followed by Rutland and then Summerland.

Summerland should be able to cope with Cawston here next Sunday. If both Rutland and Pentiction lose, then Summerland would be in a tie with Pentiction for third place. Pentiction has a tough competitor in Princeton but Rutland should defeat Osoyoos, although the northerners have been in a rut of late.

League season ends on September 1, Summerland having another game here with Kelowna and an away game at Keremeos, both of which should result in Summerland wins if the locals keep up their present pace.

Although they were almost counted out two weeks ago the locals are making a fine drive in the stretch.

### SOUTH OKANAGAN LEAGUE STANDING

	W.	L.	Pct.
OLIVER	11	4	.733
PEACHLAND	10	4	.714
PENTICTON	10	5	.666
RUTLAND	9	5	.643
SUMMERLAND	9	6	.600
PRINCETON	8	7	.533
KELOWNA	6	9	.400
CAWSTON	6	9	.400
KEREMEOS	3	12	.200
OSOYOOS	3	12	.200

Results of games played Sunday, Aug. 11 (home team last): Kelowna 7, Keremeos 1; Cawston 9, Osoyoos 3; Summerland 7, Pentiction 1; Rutland 6, Oliver 13; Princeton 15, Peachland 4.

### WANT SUBSTITUTE

Substitutes for wood in the manufacture of containers for Okanagan fruit and vegetables are being sought by the B.C.F.G.A. in view of the difficulties resultant this year in obtaining a sufficient supply of box shoo. The B.C. Industrial & Scientific Research Council, which was represented recently in Okanagan talks by Dr. Maddigan and Dr. Young, has agreed to make a study of the valley requirements and supply any resultant information to the growers' executive.

## Big Export Demand For B.C. Apples From U.S. and Great Britain

Biggest fruit news of the week is the announcement from Ottawa that an export deal of 3,500,000 boxes has been authorized to the United States from Canada. What proportion of this amount will come from the Okanagan has not been revealed but it is hoped in fruit circles here that the lion's share of the packed box quota of one million boxes will come from this valley. The equivalent of two million boxes will be exported for the United States processing plants, chiefly in California, and the remaining quarter million boxes will be exported in either bulk or packed depending on the grading of the apples in Canada and the demand in the States.

Prospects are also good for the exporting of apples to the Old Country, which country is asking for 2,500,000 boxes. This deal will largely depend upon foreign exchange and the ability of the Great Britain buyers to find the necessary Canadian credits to swing the deal.

As far as both countries are concerned, the Okanagan, through its constant watch on quality products has created a big demand and it is likely that the major portion of the packed apple shipments will come from this fruit belt.

Indicative of the earliness of maturity of fruits in the Okanagan is the announcement that up to last Saturday 1,678 cars had been shipped by B.C. Tree Fruits Ltd., compared with 1,292 at the same date in 1945. Last week alone 365 cars of produce left the valley.

Peaches are away earlier than last year, 172,000 crates having been shipped as against 50,000 on August 10, a year ago. Bartlett pears show an even bigger rise, from 495 crates to 6,727. Apple shipments have reached 108,000 as compared with 54,000 last year.

Vegetable markets are generally weaker, however, and cantaloupes are slow in maturing, owing to the wet weather in June.

## Chlorination Is Hinted For Summerland

Will Summerland soon have to chlorinate its water?

Such was a question raised last Monday afternoon at the council session when Municipal Clerk F. J. Nixon spoke after a delegation from Crescent Beach waited on the council regarding domestic water for that section.

Some beach owners had frowned on water from the lake as it would have to be chlorinated and that was not to their taste, it was said.

"There is a good possibility that Summerland's domestic water supply will have to be chlorinated anyway," declared the clerk, stating that Dr. Avison, director of public health services for the Okanagan was believed to have been on the verge of urging such a step just prior to his resignation.

Councillor Atkinson agreed with the municipal clerk, stating he had been watching Summerland's water for private purposes.

## Engage New Research Man

Roy E. Henderson, of Summerland, will be engaged by the B.C.F.G.A. to carry on research work as assistant to Dr. C. C. Strachan and Adrian Moyle, at the Summerland Experimental Station research laboratories. Mr. Henderson is an ex-airforce pilot whose fruit farming venture was halted out on July 20.

Announcement of Mr. Henderson's appointment came last week at the executive meeting of the B.C.F.G.A. in Kelowna.

It was stated then by Dr. R. C. Palmer, experimental station superintendent, that the research branch, with the exception of the two permanent members, Dr. Strachan and Mr. Moyle, will be vanishing almost overnight.

Paul Buck is leaving on August 31 to take post-graduate work in food technology at the University of California. Miss Joy Walker is resigning to be married. George Strachan is leaving early next month for the Oregon State college to proceed with university work, while Neil Henderson is returning to U.B.C. about the middle of September.

Dr. Palmer recommended Mr. Roy Henderson's appointment and the B.C.F.G.A. executive agreed to the suggestion.

Mrs. Beryl Adams, with her daughter, of London, Eng., is expected to arrive in Summerland on August 18, to join her husband, Roosevelt Adams.

## Crescent Beach Still Seeking Water System

D. L. Sanborn and Noel Higgin approached the council on Monday afternoon as a deputation from Crescent Beach property owners to ascertain what steps the council has taken to provide a domestic water service for that section of the community.

It developed that little progress has been made to provide this service, as the council had been of the opinion that the cost would be prohibitive.

To extend the line to that area from the benches would probably cost, at least \$12,000 it was believed, but this was not an accurate estimate as no proper survey had been made.

Possibility of charging a frontage tax which would spread the cost over a twenty-year period was considered but this would not provide the money right now for the capital outlay.

It was estimated that the equivalent of 24 full-time water users would be served in this district, provided a system could be installed. If pumped from the lake, the cost would be \$6,500 but some residents were believed to be against such a proposal.

The delegation stated that no decision could be made in any direction until the council had surveyed the proposition and obtained some estimate of the cost. If such a course of action was undertaken, then the opinion of the ratepayers concerned could be obtained.

So, a previous committee which had accomplished some work on the project, consisting of Councillors F. E. Atkinson and Harvey Wilson was requested to continue its survey and bring in some plans to the council.

This council committee will work with Messrs Sanborn and Higgin in this matter.

## Surprise Shower For Bride-Elect

A surprise miscellaneous shower in honor of Miss Margaret Charity, a popular bride-elect of the coming week, was held on Friday, August 9, at the home of her parents, Mr. and Mrs. T. Charity. Friends gathered at the home of the hostess, Mrs. A. Curtis, before proceeding to the home of the bride-elect.

The gifts were presented to Miss Charity in a cleverly decorated pink and white basket.

The hostess was assisted in serving by Mrs. J. McPherson, Mrs. J. A. Read and Miss Lois Read.

Guests present were the Mesdames J. A. Read, J. McPherson, G. Chadburn, R. Blawett, J. Betuzzi, Bioli, Ongari, L. Jackson, R. Huff, B. Newton, T. Charity and the Misses Lois Read and Carry Harvey. Gifts were also received from the Mesdames C. E. Pearson, Wm. Atkinson and J. Bartollo.

## BRIDE-ELECT IS GUEST OF SHOWER

Mrs. Norman Thompson and Miss Noreen Thompson were co-hostesses at the home of the former on Thursday evening, August 8, at a miscellaneous shower in honor of Miss Margaret Charity, a bride-elect of August 21.

The room was tastefully decorated for the occasion with pink and white streamers, and the gifts were presented to the bride-elect in a decorated pink and white box.

Appropriate games were played during the evening, for which refreshments were served by the hostesses.

Those present were Mesdames B. Scriver, D. Spelling, P. W. Dunson, T. C. Thompson, E. Haggard, St. Denis and the Misses Noel Barr and Marion Campbell. Gifts were also received from Mrs. Blondale, Mrs. F. Strachan and the Misses Charity Thompson and Flo Taylor.

## Penticton Is Turned Back By 7-1 Count

Fighting with their backs to the wall to retain a chance for playoff berth in the South Okanagan league, Summerland's ball club turned in its smartest appearance of the season last Sunday at Penticton to take the southern squad by a 7-1 count. Bill Evans had control of the game throughout and was given snappy support by his teammates.

Penticton took the lead in the second frame but Summerland evened the count in the fourth and went ahead in the fifth and never turned back. Some close plays on the paths and some tough situations kept the interest until the final ball was hurled.

Biagioni came out of his batting slump last Sunday to deliver a double and a single when they were most needed, while Jimmy Thompson scampers around for three of the winning runs.

Sandy Dagg, peppery Penticton catcher, had the misfortune to twist his ankle in the fourth and although he came back in the game through a mutual agreement between teams, a lot of the pep went out of the losers when he was injured.

Box Score	
Summerland	AB R H PO A E

<b>TOTALS</b>	<b>32 1 6 27 16 5</b>

Summary—Stolen bases, Clark 2, Thompson 3, Biagioni, Moore, Dagg 2, Braddock, Russell; sacrifice hits, Walsh, Bella; two-base hits, Biagioni, Braddock, Bella; bases on balls, off Evans 4, off Bella 7; struck out, by Evans 5, by Bella 4; left on bases, Summerland 8, Penticton 9; passed balls, Dagg 3; first base on errors, Summerland 3, Penticton 2; umpires, Husband and Norwood, Penticton.

N.B.—Dagg is credited with an error and a passed ball which were actually committed by Drossos, who relieved him for half an inning while he had his ankle fixed.

Penticton's only tally came in second when Russell singled, stole second and was brought home by Bella's two-bagger to left field. The fourth looked like a big inning for Penticton after Thompson had evened the count, coming across on two errors.

In that frame the bases were loaded with none away but Bella and Gibb flied out to Evans and Benway smacked one down to Walsh who touched third for the final out.

Taylor, who pulled off three nice catches in left field and played despite his injury last Sunday, put the winners in the lead in the fifth when he came careening home on a close play

and collided with Drossos so hard the latter let the ball get away from him. Drossos was relieving for Dagg at backstop and attempted to block Taylor off the plate. It was a fatal trick to try.

The decisive runs came in the eighth, with two tallies, and in the ninth with three more which only served to put the game even more on ice.

Thompson started things in eighth when he got into second base on what should have been a sure out. Biagioni's single sent

him to third, where he scored on a passed ball. Biagioni came romping in when Walsh lined one to deep centre.

Evans started the ninth with a walk, while Clark's hard drive was muffed by Bonway. Taylor and Amm were retired but Thompson was safe on a fielder's choice, Evans scoring on a close play. The bags were cleared for two runs when Biagioni lined one to the left field fence.

Every man on the Summerland club contributed a putout, while

there were 27 assists between the two teams. Evans whiffed five and Bella accounted for four at the plate. Penticton outhit the visitors six to four, but committed two more costly errors.

In last week's account of the election of Douglas Dewar, Kaleden, it was stated that he had joined the board of directors of the Kelowna Investments Co. Ltd. This should have read Okanagan Investments Co. Ltd., Kelowna and Penticton.

**Union Library For Penticton Now Planned**

Some years ago when the Okanagan Union Library plan was being introduced into the valley, Penticton would not come into the general scheme as it had a library of its own and the majority of persons were well satisfied with the service.

Now, Penticton still has its own library, but owing to the changes in the school act, the municipality will have to pay the same per capita charge as other municipalities and districts even though it doesn't avail itself of the library facilities.

This spring, school boards in Penticton, Summerland, Naramata, Kaleden and Allan Grove were disbanded and the entire area embraced in Penticton School District No. 5. All indebtedness was grouped with the result that Summerland is being called upon to shoulder an additional \$7,000 each year, being its proportion of the overall indebtedness over and above the amount of school debt it had contracted by itself.

Under this scheme Penticton, having the biggest burden of debt, had its situation eased.

But in the matter of the Union Library, Penticton takes a small setback.

Three of the four areas now incorporated in the school district are members of the library scheme and pay on a per capita basis for the service. Under the new school act, if fifty per cent or more of the areas brought into a new district are members then the entire area shall be included in the library scheme.

So, Penticton is in the unhappy position of having turned the cold shoulder for years on the library plan and now being forced to pay as much of the cost per capita as its surrounding districts without having had an opportunity yet to avail itself of the library privileges.

**DESTROY WEEDS**

Weeds which obstruct motorists' view at corners and intersections in the municipality, will have the attention of municipal workmen, the council agreed on Aug. 2, when Councillor F. E. Atkinson drew attention to the nuisance which has grown up.

**Okanagan Couple United At St. Andrew's Church**

St. Andrew's United church, West Summerland, was the scene of a charming wedding on Saturday, August 10, when Rev. Raye, of Vancouver, officiated at the marriage of Violet Gloria, second daughter of Mr. and Mrs. Archie Taylor, of Armstrong, and William Fleming, youngest son of Mr. and Mrs. Donald J. Strachan, of West Summerland.

The church was decorated for the occasion with a lovely arrangement of pink and white streamers which fell gracefully from the chandelier to the altar. The floral decorations were of salmon pink and white gladioli.

The bride, who was given in marriage by her father, wore a beautiful floor-length gown of white silk chiffon, with the bodice embroidered with seed pearls, and with a simple but effective neckline. Seed pearls also complemented the full, sheer skirt of the long-sleeved gown. Her long veil was of embroidered silk net, with a halo headdress, and carried a bouquet of roses, which were cleverly shaded from a pale cream to a deep, rich red, and accented with both maidenhair and asparagus fern.

Attendants were the bride's two sisters, the Misses Florence and Lorna Taylor. As maid-of-honor, Miss Florence Taylor was gowned in pastel blue lace, fashioned with a long, full skirt, and a fitted bodice with a Peter Pan collar and short sleeves. Her headdress was of pink ribbon. Miss Lorna Taylor, as bridesmaid, was dressed in shell pink net, with a sweetheart neckline and shirred waist, and a headdress of blue ribbon. The maid-of-honor carried mauve and yellow asters, while the bridesmaid chose pink and white carnations. Both attendants wore elbow-length white gloves.

The groom was attended by his brother, James Strachan, and ushers were Walter Bleasdale and George Strachan.

Wedding music was played by Mr. T. P. Thornber.

Following the wedding a reception for about 30 guests was held in St. Andrew's church hall, decorated for the occasion with seasonal flowers and pink and white streamers.

The young couple were assisted in receiving their guests by

their parents. Mrs. Taylor was dressed in a smart frock of black crepe, with pink trim, and wore a black hat and accessories, while Mrs. Strachan chose pale green flowered silk with black hat and accessories. Her corsage was of white carnations with fern, while Mrs. Taylor wore a similar corsage of pink carnations.

The bride's table was centred with a beautiful double-tiered wedding cake. As the oldest friend of the bride in Summerland, Mr. J. A. Read proposed the toast to the bride, to which the groom responded. The toast to the attendants of the bride was proposed by James Strachan.

For a short honeymoon to Twin Lakes, the bride donned a pale turquoise tailored suit with a brown hat and accessories.

Upon their return, the bride and groom will make their future home in West Summerland.

Miss Jean McPherson, of Calgary, arrived on Tuesday evening to visit for three weeks at the home of her parents, Mr. and Mrs. W. L. McPherson.

**Fruit Freezing At Station Is Demonstrated**

A group of about 60 men and women, comprised of the Rutland local of the B.C.F.G.A., and many of their wives, and the Rutland Women's Institute, were visitors on Thursday afternoon, August 1, at the Dominion Experimental station, Summerland.

Following this demonstration, the lovely lawns of the farm, Mr. Nat May, the head gardener, gave an enlightening demonstration of 2-4-D, the newly-developed weed killer. The product of several different manufacturers, in various strengths, on early spring, mid-summer and autumn lawn weeds, are being tested at the station, and the results on dandelion and plantain are encouraging, he stated.

Following this demonstration, the ladies visited the flower gardens, while the men of the group inspected the orchards.

Dr. J. C. Wilcox gave a demonstration of undertree sprinkling systems, explaining the various types of portable pipe used. The ideal pressure for the sprinkler irrigation system, he stressed, was of 20 pounds of clean water.

It was pointed out by Dr. Wilcox that this type of irrigation looked hopeful for hillside orchards, where it insured less erosion than the ditch irrigation commonly in use at present. Although the cost of installation is the main disadvantage of the sprinkler system, it was pointed out that the upkeep is fairly small and that there is less labor involved.

The main demonstration of the day, and the highlight for the women visitors, was home freezing of fruits and vegetables, held in the fruit products lab. Miss Marion Casselman, of the consumer section of the department of agriculture in Ottawa, who is experimenting in the freezing of B.C. fruits and vegetables for home use, was in charge of the demonstration. After expressing her gratitude to the staff of the experimental station, for placing all needed facilities at her disposal, Miss Casselman proceeded with an actual demonstration of green beans. She stressed that freezing is the simplest method of preserving most fruits and vegetables. Most products, Miss Casselman pointed out, freeze satisfactorily with the exception of salad vegetables with a high water content, and peas.

All the steps of preparation and of the freezing were explained in a clear and interesting manner; the ideal types of containers for storage were described. Foods preserved by freezing, she claimed, have a higher vitamin content, are much more attractive for table use, and there is much less work involved in the preparation of the product.

**"Someday Bill Will Thank You . . ."**

So said the Sun Life Agent when he delivered my son Bill's Junior Adjustable policy — but he didn't have to tell me that. I know what a help it would have been to me if, when I was twenty-one, I had been given a life assurance policy that could be continued as Whole Life; Life Paid-up at 60, or Endowment at the same age, for as much as five times the original amount without increasing the premium. Especially when that premium was based on rates for a child. I didn't have this great advantage, but I'm making sure my son has it. How about you?

### One Year After

It is just a year since V-J Day was celebrated throughout the allied countries, bringing to an end the war with Japan in the Pacific. It is a sobering thought that just one year after the close of hostilities the world does not appear to be any nearer the solution of its problems. There is still strife in the world . . . granted, it is mostly verbal strife . . . but it is still strife and such disunity leads to only one thing . . . a third world war.

In Canada, we have a country which is disrupted by strikes, by misunderstanding between the English and French-speaking nationalities, by misunderstanding between the industrial east and the agricultural west which is turning more and more to industrial endeavors for a continuation of its existence.

There is little wonder that representatives of nations who do not understand each other's language cannot agree when there is such a divergence of opinion and such a suspicion of one another at home.

In Paris today there is little unity. There is a feeling of distrust among the powers. Russia distrusts the western powers while the western countries do not understand Russia and cannot, or will not, break down that mistrust.

We think that it is safe to say that those who fought for the continuation of our way of living from 1939 to 1945 were under none of the delusions of their comrades of 1914-18. They realised that the ending of the struggle would not solve the conflict.

But what they did expect was a more determined effort on the part of world leaders to reach a common understanding. They were willing to go into battle and fight for their existence with the hope that a sincere attempt would be made to win the peace.

There is still hope that the peace will be won. But the hope has faded considerably since V-J Day, when the entire North American continent went wild with joy that the guns had ceased to boom. Sober thought and reflection on the part of each one of us is necessary if the sacrifice of millions of lives is not to be in vain. If the little man on the street will determine that his voice is to be heard in unanimous appeal for a winning of the peace then we will have progressed far. It must be a united appeal and our representatives must be convinced that we will brook no half measures.

We need a greater understanding of the other man's problems today than ever before in world history.

### Hail Damage

In last week's edition of the Kelowna Courier, Capt. C. R. Bull, former M.L.A. for South Okanagan, has come forward with an excellent suggestion for recompense in the recent loss from hail damage, provided some means of bringing about the settlement can be obtained.

Capt. Bull suggests that those orchardists who were unfortunate enough to be in the hailed area, should be recompensed for their loss by the owners of property who escaped without loss. In Summerland this would mean that about two-thirds of the tonnage would pay a per box levy to assist their unfortunate neighbors on the one-third of the acreage which was affected by the disastrous storm.

The Kelowna man adds further point to his argument by stating that the Kelowna Growers' Exchange, back in the low-price days of 1935, came to an agreement regarding loss from a sudden frost in the late harvesting season. This sudden freeze-up caught a number of growers who had not sent their apples in to the packing houses. Those who had been fortunate enough to truck in their apples agreed to a per box levy so that those who were worst hit would have some returns for their picking and harvesting work.

It is probably too big an undertaking for the central marketing agency, B.C. Tree Fruits Ltd. to handle this year as authority from all the growers would have to be obtained if such a principle were to be adopted. However, individual packing houses, especially co-operatives, could come to an agreement among their own growers.

At the annual growers' convention early next year an earnest endeavor should be

made to provide some type of insurance scheme which would cover such an emergency as visited the Summerland and Kelowna areas last month.

Fortunately the number of growers affected is not great, but those who did suffer were given a severe blow. They will have a difficult time to finance for another year. Their neighbors will be receiving bountiful returns for their big, untouched crops, and a per box levy would not affect them greatly, whereas it would be a life-saver to many who suffered hail damage to an extreme degree.

Those who have suffered heavy damage will be loathe to make such suggestions, as they may think it smacks of charity. But it is far from charity. It would be a good, common sense procedure which would mean that the economic balance of the main industry of the Okanagan could be kept at a more even keel.

All growers must realize more and more that they will have to depend on their co-operation with one another if they are to continue to make a success of their industry. The central sales agency is an example of what can be done under co-operation plus legislation.

But even this organization is powerless to assist these growers who have suffered heavily. There has been no provision to take care of these disasters. Future growers' conventions should take the necessary steps.

### Valley Publicity

Last week, coast papers were full of the biggest publicity venture of the year in the Okanagan, the Kelowna Regatta, which celebrated its fortieth appearance. Visitors from all over the Pacific northwest flocked to this big swim show. It attracted more favorable publicity for the Okanagan than any other medium does in the entire year.

This week, another big Valley event is staged at Vernon, with the running of the big Vernon Days, which features beards, old-fashioned costumes and a general celebration by the entire town.

In a couple of weeks, the Knights of Pythias will hold their big celebration on Labor Day in Penticton, another annual event which draws thousands of spectators from all parts of the interior.

These annual events are enjoying a year free from war. They have been carried on despite many difficulties during the war years and are now blossoming forth in unrestricted pageantry. It is hoped they will continue to prosper and grow bigger, as they are the means of attracting thousands of dollars to the Okanagan, and provide untold thousands of dollars, worth of publicity. The Okanagan depends a lot on its tourist trade and these events are a big drawing card for visitors.

### Wayside Impressions

By HAL RUGGE

Montreal—bilingual metropolis—city of contrasts—here stern-faced, there rippling with easy French-Canadian humor.

Waiting for an appointment with a mogul in the oceanic ferry trade—what would make for closer contact with the soul of a people, than two hours in a traffic court?

A motley group, in a spittoon-festooned, stuffy, smelling room, waiting for a tardy judge, who finally rushes in, arms outstretched, looking like a gabriel descending. On closer observation he was in the third stanza of dressing, at the same time telling us to be seated again—sordid—perfunctory.

Jacques had sped past a stop sign—it was evening, street lights were glaring and one of them had been right slap-bang behind the sign . . . "you'd never know it was there, sir, and that motor cop knew it, for he looked like a jumping spider."

"Hm—bad, bad—good corner for revenue, what? Ever been here before?" "No, sir, never in eight years in Montreal—never paid a fine in my life." "Sergeant, a medal for this man and suspended sentence."

Anathole was furious—he was in a hurry—was losing money, waiting around here—walked up to the sergeant to tell him so and to ask him to put his summons on top. Sergeant had evil grin, complied.

Anathole had done nothing wrong; had tried to speed up a dozen or so slowpokes by his usual method: his horn—what was a horn for if not to untangle a traffic jam.

Judge gripped the table, drew in his legs, sat on the edge of the chair, saw red, orange, purple—exploded . . .

This very morning—(Judge was a bit late, you know)—he'd got in a jam—fool behind him made him all jittery—could not get out to tell him off—could not get his number.

Poor Anathole—fifteen dollars. Harry was well prepared—had signed declaration from his garage man, had for the last three months tried to get new cables for his brakes. "Sad affair, dreadful times, what? Suppose you had kept your car in the garage, huh?" "My living, sir, insurance selling."

Hmm—suppose we say two dollars, yes?—and uh, remember the place where you were caught? Well, suppose you go the other way—cheaper.

Toni has a peanut wagon. Don't you know that you should not park only when you are serving customers? "No, sir—nobody never told me nothin'." "Well," (leaning far over and whispering) "somebody's tellin' you now—ten dollars."

Before You Insure . . .

Social Editor : Muriel Hurry

Kathleen Lewis, of Trout Creek, is a patient in the Summerland hospital.

Mr. D. A. McPhillips, of Vancouver, has arrived to join his wife and children, who are holidaying for the summer at Trout Creek.

Mr. and Mrs. Walter M. Wright have returned from a holiday spent at Vancouver and coast points.

Mr. Charles Gooderham, Dominion Apiarist, Ottawa, and his wife and daughter, Miss Charlotte Gooderham, were visitors at the Experimental Station on Tuesday, August 13.

Miss Margaret Graham and Mrs. Geo. B. Ayers and small daughter, Shirley, all of Vancouver, arrived on Thursday for a three weeks' visit at the home of their brother and sister-in-law, Mr. and Mrs. John Graham.

Mr. Wm. Nelson, who is retiring after 30 years' service on the staff of the Dominion Experimental Station, where he held the position of foreman-carpenter, was honored on Thursday evening, August 8, when about 60 friends made a presentation to him at the Little Log Cabin at the station.

Miss Grace Pye of Moose Jaw is a guest at the home of Mr. and Mrs. A. J. Mann.

Mr. A. Calvert, of the staff of the Dominion Experimental Station, has taken up residence at Trout Creek.

Mr. H. N. Racicot, of the Dominion Laboratory of Plant Pathology, Ottawa, was an official visitor at the Summerland laboratory during the past few days. While in Summerland, Mr. and Mrs. Racicot were guests of Dr. and Mrs. H. R. McLarty.

Dr. and Mrs. C. B. Wright and daughter Mary, of Calgary, were recent visitors at the home of Mrs. Wright's brother-in-law and sister, Mr. and Mrs. W. L. McPherson.

Mrs. Harry Pilkington and daughter, Wilma, have returned from a week's visit with friends and relatives in Keremeos.

Mr. and Mrs. Eldon Smith, Mr. Bill Smith and Miss Jean Jones were visitors at Osoyoos at the week-end.

Mrs. S. K. Mears of Bell Haven, Virginia, and her brother, M. D. Hall, of Indianola, Iowa, visited at the home of their father, Mr. Cliff Hall, Trout Creek.

Mr. and Mrs. Les Rumball are spending a week's vacation on a motoring trip.

Miss Geraldine Denike of Vancouver is a guest at the home of her uncle and aunt, Mr. and Mrs. Charles Denike.

Mrs. Steve Durgan of Vancouver is visiting at the home of her brother-in-law and sister, Mr. and Mrs. G. G. Mayert, for two weeks. Mrs. Durgan will go on to Penticton to visit friends before returning to Vancouver.

Miss Ethel Mackay of Kelowna was visiting for several days this week at the home of Mr. and Mrs. Irvine Adams.

Mr. and Mrs. V. M. Lockwood returned to Summerland last week after a month's holiday spent at coastal points.

A happy reunion was held at Skana Lake, Penticton, on August 11 when Mrs. W. L. Boulton, of Penticton and her four sons and daughter, Mrs. E. C. Bingham, Summerland, and families, enjoyed a picnic, this being the first time all have been able to get together in sixteen years. All are now engaged in fruit farming, Alf and Joe being in Keremeos, Tom and Micker in Oliver and Babs, Mrs. Bingham, in West Summerland.

Mr. and Mrs. Pat Agur and young son have returned to their home in Rocky Mountain House.

Mrs. R. J. Kersey and daughter Anne left recently for a visit in Vancouver.

Rev. T. E. Harris of Langley Prairie is visiting his father, Mr. J. W. Harris.

Mr. and Mrs. J. M. Clarke and children of Rutland are visiting Mrs. Clark's parents, Mr. and Mrs. W. D. Laidlaw.

Miss M. E. Grierson of Mission City is visiting at the home of Mr. and Mrs. H. B. Mair.

Mr. N. O. Solly, who was a recent visitor to Vancouver, arrived home on Sunday. He was accompanied on his return by his wife and children, who had been visiting there for some time.

Tom Graham of Salmon Arm was a recent visitor at the home of his grandparents, Mr. and Mrs. I. P. Barnes, and at the home of Mr. and Mrs. P. Russel.

Mrs. Grayson of Moose Jaw arrived on Wednesday to visit her son-in-law and daughter, Mr. and Mrs. A. J. Mann.

Mr. and Mrs. J. Wignall and children arrived home today, Thursday, from a two weeks' vacation spent at coast points.

Mrs. D. L. Sanborn and Jill, Miss Rhona Crossley and Miss M. Molesworth left on Monday by motor via the U.S. for Vancouver, where they will spend a two or three weeks' vacation.

A party of Summerland men and women, who have been attending the Jehovah Witnesses' convention at Cleveland, Ohio, for the past two weeks, are expected to arrive home during the weekend. Those attending from the Summerland district were Mrs. J. Prior, Mrs. Wm. Mair, Mrs. Wm. Dowds, Mrs. R. Sutton, Mr. Carl Littau and Mr. and Mrs. Cliff Clarke and children.

Mr. and Mrs. T. Lott have as their house guests this week, Mr. A. H. Hutson, of Vancouver.

Dr. and Mrs. J. C. Wilcox, of the Summerland Experimental Station, have as their house guest, Miss Enid Etter, of Nelson.

SUMMERLAND ROTARY CLUB 6138 MEETS FRIDAYS 12:15 P.M.

TEEN TOWN

A very enjoyable time was experienced at the lawn dance on Friday, August 2, when there were between 30 and 40 teen agers present. Some members played ping pong while others cut a rug on the lawns. Lemonade and doughnuts were served. To-morrow evening, August 16, there will be a Teen-Town beach party. Any teen-agers wishing a ride are to be at the Odd-fellows' Hall at 7:30 sharp. Admission will be 15 cents and hot dogs will be sold. There are a few more sweaters left so, if you want one, contact Norma Hack

Fruit Matures Rapidly Here

Hotter weather has speeded maturity of fruits, the latest news letter from the horticultural branch of the provincial agricultural department states for the Summerland, Peachland and Westbank district, dated August 6, with the peak of Rochester peach movement taking place this week. Pears and the main crop of apples continue to size remarkably well, while field tomatoes, cucumbers and potatoes are moving throughout this area. A few more codling moth entries are showing up but weather conditions have aided growers in keeping this pest to a minimum. One or two small infestations of pear psylla have been discovered, but generally, pests and diseases are well under control. Penticton, Naramata, Kaleden and Keremeos indicate that present prospects show a cleaner crop than last year, as the codling moth situation is much better. Bartlett pears are expected to move by this week-end from that district, which also reports that orchards are in fine condition. Oliver and Osoyoos also state that a heavy movement of Bartlett pears is expected this week. All tree fruits are sizing satisfactorily and trees are in good shape. European Red Mite and Pacific Mite are beginning to show in numbers with the hotter weather. From Kelowna comes the report that the total tonnage will be up to previous estimates despite the ravages of the hailstorm. This will be possible because of the larger-than-average size of apples this year. The Summerland report corroborates last week's issue of The Review in that peaches show the worst loss in this district, with ten per cent of the total crop being wiped out. The apple loss has now gone down to five to eight per cent, the report states, while five to ten per cent of the pears were hailed out.

# Summerland First Time In History Tax On Improvements

For the first time in the history of the Municipality of Summerland, taxpayers are being called upon to pay taxes on fifty percent of the improvement value placed on their property. Tax notices were issued from the municipal hall last week and many owners found that they would be called upon to pay an increase of nearly one hundred percent over 1945 tax payments. Summerland was one of the last municipalities in the province which was not levying on improvements. In past years, assessment notices showed the value placed on improvements but no tax was levied thereon.

### House Owner Hit

Persons with small holdings, a lot with a home and a few trees, have been hardest hit by the increased tax payments. Persons with fruit property and no house thereon are paying about the same, while persons owning unimproved land find their tax payments decreased, in the general overall picture. Summerland is the only municipality in B.C. which levies a tax on fruit trees.

In 1945, the mill rate was 10 mills for general or municipal rate, 25 1/2 mills for schools. This year the general rate remains the same, at 10 mills, while the school rate is cut to 14 mills.

However, with fifty percent of improvements taxed this year, the general levy is increased despite the lowering of the rate on schools.

In 1945, the total amount raised by municipal taxation was \$38,744. Of this amount, \$10,459 was from general levy, and \$28,285 for schools.

The union library assessment raised \$349 and the fire protection area in West Summerland, with a two mill rate, raised \$766. These two amounts are about the same this year, the estimated levy being about \$200 greater.

### Higher Revenues

With the same ten mill general rate, an amount of about \$21,000 will be raised under the new system of taxation, while the school will reap a higher benefit of about \$29,000.

Increased cost of road maintenance and improvements, higher costs of social assistance and wages paid to some municipal employees, and numerous other smaller increases will justify this higher general taxation levy, it has been pointed out by municipal officials.

The school picture is not so clear, as it has been complicated by many changes. For the first three months the local schools were operated by the Summerland School Board and the budget and the actual expenditures were quite closely.

Then, the Summerland school system was incorporated into Penticton School District No. 15 under the provisions of the Cameron report and the amended school act. This act called for the provincial government assuming all teachers' salaries up to a stated amount.

This was supposed to be a relief to the municipalities but actually it worked in reverse in Summerland. All the school indebtedness was divided among district 15, with the result that as Penticton had a heavy debt, Summerland had to assume a quarter of the whole amount and

(Continued on Page 4)

### Extra Cantos Played To Beat Cawston Nine

George Clark's smash to right field in the twelfth inning, scoring Rocky Biagini broke up the torrid but loosely-played ball game on the local diamond last Sunday afternoon to give the Summerland tossers another win in the South Okanagan league race by a 7-6 score. It was a game replete with errors but a crowd teetering on the edge of its seat through twelve innings, the count being knotted at 6-6 when the regulation nine innings had been played.

Summerland's infield had its ups and downs last Sunday, committing ten bad miscues, but suddenly coming to life to pull off a couple of the sweetest double plays seen this year.

That was the kind of game it was, an in and out fixture which kept the interest throughout.

The Old Warhorse, Les Gould, made a splendid comeback on the mound for the winners, pitching eleven straight innings before being relieved in the final canto by Bill Evans.

### Left-handed Hurling

Left-handed Boek went the entire route for the visitors and was the main reason for Cawston lasting as long as they did. His port-side deliveries were the first of their kind Summerland batters had met this season and he had the heavy left-handed hitters biting at some bad balls.

Arm had a bad day at second, landing the local lads in booting the horsehide four times, but he had a lot of work participating in 14 plays. Biagini accepted ten chances and miscued three of them, while Walsh had two errors on five chances.

Cawston's centrefielder had a bad day, being doblited with three errors.

After an exchange of single rallies in the first frame, Caw-

(Continued on Page 8)

### Legion Council Seeks Action From V.L.A.

Further efforts to obtain six to seven hundred acres of suitable fruit and vegetable land in the Osoyoos area opened for war veterans, will be made by the South Okanagan zone council of the Canadian Legion, it was determined at a zone meeting in Summerland last Sunday afternoon.

This project has been fostered by the local zone for some time in an effort to obtain prompt action from the Veteran's Land Act department.

S. P. Thomas, Summerland Legion president, states that there are a large number who are waiting to take up this land when it is made available.

This tract is provincially owned and has been offered to the V.L.A. for returned men, but to date no further move has been made by the latter body.

The Legion zone is also pressing for a royal commission to investigate all projected lands and have them made available for the returned men.

Some 600 acres at Cawston have been surveyed already but this project has been held up until an international agreement can be effected with the U.S. government over water rights.

No such hindrance is in the way of the Osoyoos project as the land there can be supplied from the government irrigation project at Oliver, it is stated.

### "Butch" White Laid To Rest Here Today

At the Royal Inland Hospital, Kamloops there passed away early Monday morning, August 19, a well-known Summerland man, William James White, aged 58 years, after a brief illness.

A resident of the Okanagan for more than thirty years, the late Mr. White carried on a butcher business in Summerland for 22 years, and was known to his many friends as "Butch" White, because of his trade.

Born in Owen Sound, Ont., deceased came west to Calgary and after his discharge from the army at the Vernon camp during the first world war, he settled in the Okanagan, being an assistant in butcher stores in Vernon and Penticton before opening a meat business in Summerland as Downtown and White.

When his partner died, the late Mr. White carried on the business under his own name until the second world war commenced, when he re-enlisted as a butcher in the army and served mainly at the Vernon camp until two years ago, when he obtained his discharge.

For the past two years the late Mr. White had been in the butcher trade in Kamloops.

Besides his wife residing in Summerland, he leaves one son, Russel, at home here, and two daughters, Mrs. Pearl Dashwood, Youbou, Vancouver Island, and Theima, in Summerland.

Rev. F. W. Haskins officiated at the funeral service held in St. Andrew's United church this afternoon, Thursday, at 2:30 o'clock. Interment was in the Peach Orchard cemetery.

Palbearers included George Henry, C. E. McCutcheon, Walter Bolton, W. S. Neild, Ernest Brighton and Horace Read.

### VIRGINIA HARVEY GUEST OF HONOR

Miss Virginia Harvey, whose marriage takes place shortly, was the guest of honor on Tuesday evening, August 20, at a miscellaneous shower at the home of Mrs. Wm. White, who was co-hostess with Mrs. T. H. Thorn-

thwaite.

The 25 guests present spent an enjoyable evening playing court-whist, with Miss Nan Thornthwaite and Mrs. A. G. Blissett as winners.

Following the serving of refreshments, when Mrs. W. A. Caldwell and Mrs. C. F. Harvey poured tea, the gifts were presented to the bride-elect in a wheelbarrow tastefully decorated in blue and gold by the Misses Joyce Pohlmann and Joyce Stewart.

The rooms were tastefully decorated for the occasion with gladioli, sweet peas and honey-suckle.

Vol. 1, No. 12. West Summerland, B.C., Thursday, August 22, 1946.

## Carnival On Granville Is Legion Plan

Continuing a program which commenced during the war years, the Canadian Legion and Legion W.A. have announced a gigantic street carnival to be held on Granville street in West Summerland on Saturday evening, August 31.

Proceeds from this affair will be devoted to the Legion building fund, as that fast-growing organization needs to expand its present premises in view of its rapidly increasing membership.

Legion membership in the Summerland club now stands at more than 280 and it is anticipated the 300 mark will be reached by the year end.

Games of various kinds will entice the crowd on August 31, while booths selling hot dogs, coffee, cider and soft drinks always prove popular. There will be cake and a bean guessing contest.

One of the features for the youngsters will be a decorated bicycle parade which will commence in the early evening. A prize for every youngster who enters with a decorated bike has been offered.

The block from McCutcheon's and the Telephone office to Laidlaw's and Nesbitt and Washington's will be closed from six o'clock to car parking, to allow the Legion workers plenty of scope for their activities.

At the monthly Legion meeting held on Wednesday, August 14, a committee of Walter Ramsay, chairman; Alex Watt, Jack Gale, David Kean and Jack Dunsdon; was appointed to work with the Legion W.A. in promotion of this carnival.

## LITTLE DAMAGE IN HIGH WIND

Little damage was caused by the high winds which reached gale velocity on Thursday evening last, although some orchards more exposed than the rest suffered a small percentage of loss from drop.

Electric light service was disrupted for nearly an hour late Thursday evening when a tree branch broke the high voltage line. The result of this break threw the control switch at the West Kootenay office in Penticton. Service was continued for most of West Summerland but the Crescent Beach area remained without light until next morning.

No notification of the Crescent Beach trouble was given the local superintendent of light, T. P. Thornber, until Friday morning. Bruce Haskins and Bob West discovered the broken high tension line near Ernie Campbell's orchard and had presence of mind to stand by the scene until assistance could be summoned.

When this break was fixed Crescent Beach service was resumed.

## RIFLE SCORES

For the second week in a row, Ted Dunsdon was high man at the Summerland Rifle Club Sunday shoot, having a score of 96, one point ahead of F. G. Anderson, while A. E. Scott was close behind in third place with 94.

G. M. Dunsdon 91, P. S. Dunsdon, Ed. Gould and A. R. Dunsdon 90, D. L. Sanborn 86, Joe McLachlan 83, J. S. Shelley and H. Dunsdon 82, C. B. Snow 81, Myles Dodwell 80, Bob Weitzel, D. Weitzel and G. M. Forster 77, Chas. Dodwell and G. A. Graham 76, E. Simpson 73, D. Spalding 69, A. W. Moyle, H. O. Tavender 68,

## HEPP Invades Valley For Start of Conference

Nearly a hundred of the top men in the field of horticulture, entomology and plant pathology in the Pacific northwest descended on Summerland yesterday and spent an evening in this district as the start of an annual conference on everything to do with the technical side of fruit, vegetables and seeds.

This organization, known as HEPP, has been meeting in various states and British Columbia for many years, broken only by the war period. This year's conference is a revival and has been looked forward to by all the members who enjoy a visit to British Columbia's hinterland.

Washington, Oregon, Idaho and Montana were the states below the border which sent representatives to this important meeting. Petr Venables, of Vernon, is president this year and the secretary is John Snyder, of Pullman, Wash. About forty of the delegates are from south of the border and an equal number from this province.

Ten years ago, HEPP made B.C. its rendezvous when Dr. R. C. Palmer, experimental station superintendent, was president.

Last evening, the gathering, which included men from all parts of British Columbia, attended a banquet at the experimental station, the supper being provided by the Summerland Rebekah lodge.

This morning, visits to the orchards, flower gardens and stock pens of the experimental station provided great interest to the visitors. They left about ten o'clock by car for northern parts of the Okanagan, stopping at Kelowna for lunch.

Early this afternoon they visited several large orchards and continued their journey to the Coldstream ranch for tea. Supper is being served at Vernon this evening before the final leg of the trip to Little River is made.

Two days of technical papers and discussions, with exchanges of ideas, all with the purpose of aiding the agriculturist, will occupy Friday and Saturday, interspersed with fishing trips.

On Sunday, the gathering will disperse to their homes.

Dr. R. C. Palmer was the speaker for the banquet last night and he chose as his topic the past, present and future of the Okanagan Valley.

Officials of the Summerland Experimental Station, headed by Dr. R. C. Palmer and Dr. H. R. McLarty, were hosts during the Summerland visit, while a committee of the Summerland Board of Trade made arrangements for the billeting of the visitors.

## Margaret Charity Is Bride At St. Stephen's Church

St. Stephen's Anglican church was the scene of one of the season's loveliest weddings on Wednesday afternoon, Aug. 21, when Rev. Canon F. V. Harrison officiated at the marriage of Margaret Hettie, only daughter of Mr. and Mrs. Thomas Charity, West Summerland, and Charles Louis, elder son of Mr. and Mrs. C. P. Jacobson, of Penticton.

The bride who was given in marriage by her father, was beautiful in traditional floor length sheer, fashioned with a rounded neckline, and shirred at the waist. Star-shaped appliques, set with silver studs, sprinkled the bodice of the lovely, bishop-sleeved gown. Her long veil was of embroidered silk net, with a Mary Queen of Scots headdress, and she carried a bouquet of red carnations and fern.

The bride was attended by her cousin, Miss Muriel Kirk, as maid of honor, who was gowned in delicate blue sheer, with the bodice trimmed with blue silk braid, had a shirred waistline and long sleeves. Her headdress was of ostrich feathers, with pale blue veiling, and she carried a bouquet of pink and white carnations and fern.

Miss Dorothy Jacobson, sister of the groom, was bridesmaid and chose a charming gown of pink sheer, with a sweetheart neckline and cap sleeves. Her headdress was of flowers and veiling, and she carried a bouquet of pink asters and fern.

The groom was supported by his brother, Rae Jacobson, and Charles Betuzzi was the usher.

Wedding music was played by Miss Ruth Dale, and during the signing of the register, Mr. B. Newton sang, "Until".

The altar of the church was banked with white carnations, while the steps leading to the altar were covered with pastel gladioli and stock.

Following the wedding, a reception was held at the home of the bride, with the parents of the young couple assisting in receiving the guests. The bride's mother was dressed in a smart frock of British navy with white accessories. Mrs. Jacobson chose a gray figured silk two-piece dress with black accessories and both she and Mrs. Charity wore corsages of pink and white carnations and fern.

The rooms were beautifully decorated for the occasion with pink and white streamers and a white ball and a profusion of gladioli and stock.

A lovely three-tiered wedding cake centred the bride's table. The toast to the bride was proposed by Canon Harrison and was responded to by the groom.

For a honeymoon to U.S. points the bride donned a dressmaker suit and a cleverly-designed headdress of white flowers and black veiling. Her accessories were of black plastic.

Upon their return the young couple will make their home in Penticton.

## Nearly Two Million Boxes of Apples For Old Country Marts

Although the final agreement has not been signed, it is believed in the valley today that the export shipment to Great Britain this season will amount to 1,750,000 to 2,000,000 boxes of apples. Definite word on this export deal has not been received yet from Ottawa, but local fruit officials are confident that such will be the amount allotted the Okanagan. The total export from Canada to Great Britain will probably be two and a half million boxes, with B.C. taking the lion's share of this market. It is also expected that at least a million packed boxes of apples will be exported to the United States this season.

## U.S. Market Slumps

Coupled with this news, however, is the report of a major slump in apple sales on the United States market.

Roy Boothe of B.C. Tree Fruits Ltd., Kelowna, reported to The Review on Wednesday that the U.S. fruit deal is experiencing the worst slump in many years. Prunes and Bartlett pears have also been experiencing a dropping off in demand.

Gravenstein apples, selling formerly out in California for \$3.60, plus 75 cents freight charges, have been auctioned this week on the Chicago market for \$2 and \$2.20.

Strikes, general world situation and lower pay cheques are said by American fruit men as being mainly responsible for the dropping off of sales.

On the Canadian market, however, the demand for peaches and Bartlett pears is excellent, Mr. Boothe states. To date, 400,000 cases of peaches have been shipped, while one-third of the Bartlett pears have gone to market.

Duchess and earlier apples have all been shipped to markets, sixty cars of these having gone to eastern Canada.

## Crabs Lack Demand

On the other hand, the crab-apple deal has slumped badly and there is practically no demand for transcendent crabs. Wealthy apples are starting to roll, but the early apple deal is not too bright right now, he claims.

Lack of sugar is thought to be mainly responsible for the lack of interest in crabapples, and early apples, but this picture should change when the later apples, which have a higher sugar content, start to roll to market.

Last week, 510 cars of fruit and vegetables were shipped from the Okanagan, bringing the total shipments to 2,251 cars, a big increase over the number shipped at the same time last year, namely 1,676 cars.

In the local packing houses, Bartlett pears are about at their peak, while Rochester peaches are over the hump, with V's starting to roll in. Prunes will be commencing in a week, while Wealthy and Gravenstein apples are making their appearance.

## Lorne Laidlaw Passes Away at Medicine Hat

At Medicine Hat, Alta., where he had practiced law for 37 years, Lorne Nelson Laidlaw, K.C., for the past two years a resident of Summerland, passed away on Monday, August 19.

Formerly of Brandon, the late Mr. Laidlaw was a well-known professional man in Medicine Hat business circles before retiring to Summerland, where he purchased the property of the late Major E. E. Hutton, some two years ago.

Deceased had gone to Medicine Hat for a holiday and to renew acquaintances about a month ago. It is only a week ago that a life-long friend of the late Mr. Laidlaw passed away in Summerland hospital in the person of C. G. Bennet. Both these deceased men played on the Brandon, Man. hockey team the year that city captured the historic Stanley cup.

Funeral services for the late Mr. Laidlaw were held on Wednesday, August 21, in Medicine Hat.

Besides his wife, the deceased leaves one daughter, Jane, in Toronto and a son Larry, at Bow River, Alta. Another son, Major Robert Laidlaw, also met his death on August 19, 1944, while serving with the Canadian Army.

## Teen Town To Choose Beauty Queen Here

Summerland Teen Town is sponsoring the local entry of a bathing beauty in the big contest which is part of the Knights of Pythias Labor Day celebration at Penticton on September 2.

It is possible that a contest will be staged here next week to determine who will be chosen as Miss Summerland. Entries from Oliver, Penticton, Kelowna, Vernon and Kamloops are expected to participate in this contest to choose a Queen of the Okanagan. Winner of the contest will be rewarded with a trip to Hollywood or a cash prize of \$250.

Also, on Labor Day, there will be an amateur contest at Penticton and the local Teen Towners are looking for local talent to run a preliminary contest here and send the winners to the finals.

Other features of Penticton's Labor Day celebration will be a soap box derby, a model airplane contest, an air show and a ball game between Penticton and Omak.

Anyone wishing to enter any of these contests can communicate with the Teen Towners or leave their applications with The Summerland Review.

Visitors last week with Reeve W. R. Powell and Mrs. Powell, and Mr. and Mrs. H. Enzo Loop and son, Earvin, of Shelton, Wash. Mrs. Loop is a sister of Mrs. Powell and the family have often visited Summerland prior to the war. Mr. Loop is thoroughly enjoying the pear-picking while here.

## Fastball Girls Take Initial Playoff Game

Summerland fastball girls took the initiative on Sunday in the first game of the Southern Inter-Orinals turning back the Penticton threat by a 13-11 count. Doreen Howard pitched winning ball throughout and had a slight edge over her opponent, although both sides collected fourteen hits.

This is a best of three series with the second contest being billed for Penticton this week. Penticton was on top of the loop with five wins and one loss, while Summerland had placed second with four wins and two losses.

The visitors took the lead on Sunday and were ahead 3-0 and 5-1 until the last half of the fourth when Summerland hits exploded in all directions when the dust cleared away the locals were in the lead 8-6 and were never headed from then on.

Penticton kept creeping up each inning but couldn't quite make up that bad fourth, when five runs crossed the plate.

### Weak Spots

Penticton's weak spot was shortstop while second base went badly for the Summerland team. J. Kinkado, ss. . . 5 2 1 1 4 W. McKee, p. . . 5 2 2 4 7 0 Forster, 2b. . . 5 1 2 3 3 1 R. Kinkado, c. . . 5 2 2 1 0 0 Neal, rf. . . 2 0 0 0 0 0 Kloster, cf. . . 5 0 2 0 1 0 Hockley, rf. . . 3 1 0 0 0 0

Summerland's strong points were shortstop and pitcher. The latter pitcher whiffed six of the visiting batters and allowed but one base on balls. McKee, the Penticton hurler, only struck out the first batter, Ward, and walked three to first base.

Two-base hits by Howard, Tada and Glaser were deciding factors in the stick-waving department as Penticton failed to gather in any extra base outs.

Gus Mayort handled the balls and strikes.

## EDITORIAL

### The Handwriting

Trouble in store for Summerland school trustees when they endeavor to implement their plans for a new junior-senior high school can well be seen in recent announcements concerning Penticton's difficulties in obtaining its new high school unit which was projected many months ago.

Penticton had planned a high school unit, with a big cafeteria and industrial arts wing which could be developed into a technical school centre for the entire South Okanagan.

Original plans called for a building with estimated construction costs of about \$375,000. When a firm bid could at last be obtained after many unsuccessful tries, it was \$100,000 more than the money granted by Penticton taxpayers through a school by-law.

So Summerland plans for a new school unit would appear to be forestalled for at least two years until the building trade has settled down and more normal times have appeared in the construction game.

Summerland is in need of new high school accommodation. The present high school is in an old building of frame construction, which has long since passed its usefulness. It is not adequate to cope with an ever-growing community which is ours today.

But until building supplies are more adequate and contractors can be assured of labor which will remain on the job, then it is not much use to put forward any building plans.

Summerland will have to "make do" for the time being but it can plan ahead for the time when building generally is back to normal. One of the first steps is to acquire sufficient property for the project. It is understood that school interests have an option on the W. C. Kelly property, south of the present school buildings.

This property should be acquired without further delay as it is a valuable block and already the owner has turned down more lucrative offers so that school interests can be furthered. . . Summerland should protect its interests as soon as possible and pass a bylaw to raise sufficient money to purchase the school site. Then it can proceed with its plans for a proper school unit in the future.

### Air Service

As a neighboring community and one which is affected to no small degree, Summerland should be adding its voice to that of Penticton in protest against the recent decision of the Air Transport Board to deny private companies the right of air line franchise from the Penticton port east and west to Lethbridge and Vancouver.

In its news columns last week the Penticton Herald carried a lengthy transcription of the Penticton Board of Trade reply to the thumbs down attitude of the transport body. There were three commercial firms seeking a license to operate from Penticton's airport and they were all refused.

We are definitely in the age of air travel. Our mail can be transported from one ocean to another in a matter of hours. The Okanagan is a vital cog in Canada's economic wheel and is a big exporter of fruit and vegetables.

The Okanagan has reached the stage where it needs air service direct from the valley in order to transact its important business with the minimum of delay. Important executives and business men of the Okanagan must, of necessity, leave the Okanagan for conferences in far parts of the continent, as well as the coast. They cannot always afford the slower means of travel by bus and train. Their business is pressing here at home and they should leave and return in the minimum space of time.

It is surprising that the Air Transport Board should have turned down the air franchise applications without evidently coming up-to-date on its data. We were led to believe that this board had made it plain that it desired to push air travel for Canada in every way possible.

The time has long since passed when government bureaus of such importance as the Air Transport Board can sit idly by and

bypass any important section of the country. The voters have the right to expect that their government servants are up-to-date on their information.

If these governmental bodies will not keep pace with the ever-increasing needs of this rapidly-growing province, then it is certainly time for readjustment of the executives placed in charge.

The Okanagan needs air transport service direct to and from this valley and it is high time that Ottawa woke up to the economic position this fruit-producing area now holds in its economic scheme. This is no backwoods section which can be sneered at by the effete bureaucrats of Parliament Hill.

## Donald Gordon Airs Price Control Views

Donald Gordon, Wartime Prices and Trade Board chairman, in a recent address discussed his views on the increased living costs, a subject of vital interest to all. His statement follows:

"The increase of 1.5 points in the cost of living index between June 1st and July 1st, announced by the Dominion Bureau of Statistics, places the issue squarely before us and shows us that our choice lies between a moderate and carefully controlled readjustment on the one hand and a sharp and cumulating inflation on the other," Donald Gordon, Prices Board Chairman, commented.

While this increase, he continued, was in large part expected and unavoidable it is nevertheless a matter for most serious concern. It is the clearest sort of evidence that the job of keeping prices in hand during the aftermath of the war is becoming extremely difficult.

"It provides a mild foretaste of the sort of conditions for which we are headed unless all groups in the community make a serious effort to hold the line"

About one-third of this latest increase which brought the index from 123.6 to 125.1 points, represents the seasonal advance in vegetable prices which almost invariably reach their yearly high point in the early summer, before the new crops are coming to market in volume, he declared.

"While to this extent, this rise in the index need not cause concern, the larger part of this month's increase represents changes of a more lasting character and, like the increases in the index during the two preceding months, the bulk of increase last month reflects price adjustments which had to be authorized in the face of seriously higher costs," he continued.

The advance in clothing and house furnishings prices, which account for one-third of the rise of 1.5 points are of this character and it should be pointed out that the full increase authorized in clothing and furniture prices at certain stages of production have not yet been entirely reflected at the retail price level.

"Some of the increases may also be traced to a rise in the price of a number of semi-luxury items which were removed recently from price control."

Since the end of the war, Mr. Gordon said, the cost of living index has risen by approximately 5 points and practically all of the advance has occurred since early in the present year.

"In the best of circumstances, there will be some further moderate increases in living costs, as not all of the price adjustments already authorized have been entirely reflected in retail prices. Higher costs abroad will also have some further impact on our living costs in Canada."

The Government's recently announced change in the stabilization policy were designed to allow for additional flexibility in the program necessary under post-war conditions while keeping prices under control and preserving orderly conditions in this country in the face of unfavourable developments in the United States, he asserted.

"While that policy could not rule out some moderate increase in the cost of living, it could and still can prevent sharp and disruptive increases in the price structure provided that it receives the active and responsible support of the Canadian people."

"It depends for its success upon an attitude of restraint and responsibility on the part of business, labour, farm and other groups. If particular groups exploit their bargaining power to the full in the present condition of shortage to obtain higher wages and higher returns, then we shall inevitably commence a new and severe cycle of price increases."

This in turn will generate further wage demands and widening industrial dispute and will restrict and postpone that large expansion in production upon which we are relying to overcome shortages and to provide the basis for high peacetime employment, he emphasized.

"Are we prepared to give stabilization the sort of responsible support which is essential to effective control or are specific groups going to postpone and upset our progress towards decent post-war conditions?"

## A MESSAGE FOR THOSE WHO NEED TRAINED WORKERS

### AN ARMY INSTRUMENT MECHANIC HAD TO BE GOOD!

Only one of 216 Army trades, the instrument mechanic, among other things, had to make optical, electrical or mechanical repairs to anti-aircraft fire control equipment or to any field instrument. He had to be able to use fine hand tools, watchmakers' lathes and check and calibrate instruments from a standard. He had to be able to follow blueprints, harden and temper metal parts and tools, know mathematics including trigonometry and have a knowledge of elementary electricity and optics.

Today

### He brings specialized training to industry . . .

In common with thousands of other ex-servicemen and women the instrument mechanic has a real contribution to offer Canadian industry and business. World War II was a mechanized war. Canada's soldiers, sailors and airmen, represent many hundreds of industrial skills. You will find competent journeymen among those discharged. You will find many thousands of others who have basic skills which can be converted to civilian production with additional training.

Investigate the training-on-the-job provisions of Canada's re-establishment programme. Under this, the Dominion Government adds to the wages you pay ex-servicemen and ex-service-women while they are learning. You can secure complete details through the National Employment Service, the Department of Veterans Affairs, or Canadian Vocational Training.

Men and women for the services were carefully selected on enlistment. Service experience, training, discipline and the lessons of organization add greatly to their value. Whether tradesman or not, the veteran makes the ideal employee. Canada offers none better.

Service Skills Make GOOD Civilian Workers!

THE GOVERNMENT OF CANADA

**OFFICIALS RETIRE**

E. S. H. Winn, chairman of the board administering the Workmen's Compensation Act for British Columbia, is retiring after many years of faithful service. Replacing Mr. Winn on the Workmen's Compensation board is Mr. Adam Bell, deputy minister of labor, who has been with the government for fifteen years. Another government official retiring after twenty-eight years of service, is Mr. F. J. Sehl, collector in the provincial assessor's office.

**QUESNEL GETS POWER PLANT**

Premier John Hart, on behalf of the B.C. Power Commission, announces that an agreement has been reached with the Pacific Great Eastern Railway Company for the lease of a site on which will be erected a new Diesel power plant at Quesnel. The new site will include the location of the present plant near the bank of the Quesnel river.

Mr. Hart also says the power commission will temporarily install a 120-horse-power Diesel engine at Golden to supplement the generating capacity until the new plant planned for Golden is completed.

The power commission is proceeding at full speed with construction of its giant undertaking at Campbell river to provide electrical power to the farms, suburban homes and factories of Vancouver Island. Now being called are tenders for clearing and burning brush and debris on the area that will be flooded by the head pond at Irene Pool, just above Moose Rapids, where a 1,000-foot dam is now under construction by General Construction Co., which has more than 200 men working two shifts a day on the colossal job. Tenders for the 600-acre head pond will close at Victoria, August 5, at noon.

While here he will direct a series of symphonic broadcasts in Vancouver, Toronto and Montreal. His concert with the Vancouver Symphony Orchestra will take place when he is at the west coast early in the new year.

**FIRE GROUP AND COUNCIL AGREE**

A deputation of S. W. Feltham and J. R. Campbell, from the West Summerland Fire Protection Society met the Summerland council on Monday, July 22, and ironed out several points which had been worrying the local brigade.

Mr. Feltham pointed out that the fire department had no wish to show a profit on any fires which it attends outside the designated protected area, but it wished to be reimbursed for the actual cost.

Reeve W. R. Powell replied that this was in accordance with the original agreement between the council and the fire body earlier in the year but that afterwards the latter group had asked for a specific amount for each fireman.

His Worship agreed that it was fair for those called out to fires outside the protected area should be reimbursed for their time taken and stated there was really no differences in thought between the council and the department.

A. E. Smith, who represents the board of trade fire protection committee, also visited the council and presented considerable data compiled by his committee.

As there was no time available to consider Mr. Smith's report, it was agreed he should meet the council at a later date.

Mrs. G. Tedder and daughters, Marilyn and Marjorie, of Kamloops, are expected to arrive tomorrow, Friday, to visit at the home of her parents, Mr. and Mrs. J. Darke.

Mr. P. W. Burbridge: \$250 a year for an indefinite period; two scholarships of \$125 each for general proficiency in the honor course in physics or in mathematics and physics.

Hon. W. C. Woodward: \$250 a year for five years; 1. \$125 to student of highest standing in third year commerce 261 (Marketing). 2. \$125 to student of highest standing in third year commerce 467 (Advertising).

Major-General D. M. Hogarth: \$250 a year for ten years; two scholarships of \$125 each to third year students of general proficiency and outstanding ability in agriculture.

Brigadier Noel D. Lambert: \$200 a year for five years; scholarship of \$200 to student obtaining highest standing in third year civil engineering.

Canadian Forest Products Limited: \$500 a year for five years; two scholarships of \$150 each to students of highest standing in third year forest engineering course; two prizes of \$100 each to general proficiency students graduating in forestry with B.A. Sc. degree.

Mr. George T. Cunningham: \$150 a year for five years; scholarship of \$100 to student of highest standing in third year pharmacy; cash prize of \$50 to student with most outstanding scholastic record in all years of the course in pharmacy.

Mr. George W. Norgan: \$1000 a year for ten years; \$150 each to three students with highest standing in examinations of the first year law; \$150 each to three students with highest standing in examinations in second year law. Cash prize of \$100 for best essay of a third year student in faculty

of law. Teamsters' Joint Council No. 36: \$250 a year for five years; annual bursary offered to student in any faculty or year with high scholastic standing and in need of financial assistance.

Lauder Mercer and Company Limited: \$250 a year for indefinite period; bursary of \$250 to assist a male student to enter final year leading to degree of B. Comm., based on need for financial assistance and high standing in preceding year.

General Construction Company Limited: \$500 a year for five years; scholarship of \$200 for proficiency student who completes second of applied science (engineering); \$300 for graduates in civil engineering to undertake post graduate study in engineering.

Alaska Pine Company Limited: \$600 a year for ten years; scholarship of \$150 to student of highest standing in third year honors course in economics; scholarship of \$150 to students of highest standing in third year of the honors course in chemistry; scholarship of \$150 to student of highest standing in second year commerce; scholarship of \$150 to student of highest standing in fourth year of arts and science and is proceeding to final year in forestry leading to the degree of B.S.F.

B.C. Drug Company Limited: \$100 a year for five years; scholarship of \$100 to student of highest standing in examination of second year pharmacy.

H. R. MacMillan: \$500 a year for five years; to be used for lectures in forestry.

Other Awards  
Wartime Convalescent Homes, Incorporated, Vancouver Division, provides an annual fund of approximately \$300 for bursaries available for R.C.A.F. veterans of the War, 1939-45, and their dependents on the basis of scholastic standing and financial aid.

Shanahan's Limited, offers a scholarship of \$500 open to honor graduates in chemistry in faculty of arts and science, or graduates in chemical engineering in faculty of applied science, for research in colloidal chemistry.

The Imperial Oil Limited has established four research fellowships of \$1,000 each to graduates of any approved university in Canada, offered for post-graduate work leading to a master's or Ph.D. degree in fields of petroleum engineering, petroleum geology, chemistry or chemical engineering and mechanical engineering.

Crofton House Alumnae scholarship of \$175 is available annually for a student of Crofton House School proceeding to the University of British Columbia, based on proficiency, character, leadership, scholastic ability.

Pharmaceutical Association of the Province of B.C., offers a cash prize annually of \$50 to student of most outstanding record in pharmacy in the fourth year of the course; also to the student with highest entrance qualifications entering second year.

The Grand Lodge of B.C., I.O.O.F., the Grand Encampment and the Rebekah Assembly offer annually six bursaries of \$200 each to any student in any year of any faculty. One bursary will be offered in each of the following districts of the province: (1) Vancouver Island and Powell River; (2) Greater Vancouver; (3) New Westminster and the Fraser Valley; (4) the Kootenays; (5) North and South Okanagan, including Princeton and Merritt; (6) main line of the C.P.R. east of Chilliwack and northern B.C. (Terms not yet finally approved by the donors.)

**HOSPITAL NOISE**

After some experiments the water department has concluded that the complaint of noise in the domestic water line at the Summerland hospital does not emanate from the municipal system.

**MINES ACTIVITY**

Renewed interest in silver mining has been created by the revaluation of silver by the United States, it was indicated by the Honourable R. C. MacDonald, minister of mines. The price has been increased by 19c to 90.5c an ounce. It is expected that a number of old mines may prove worthy of consideration as a result of this policy, thereby bringing back into production properties that have lain dormant for some time.

**PREMIERS MEET**

Premier E. C. Manning, of Alberta, and Premier Hart, of British Columbia, conferred in Victoria during a recent week, discussing informally matters appertaining to the fight for a reduction and equalization of freight rates and Dominion-Provincial Conference affairs.

**"Someday Bill Will Thank You . . ."**

So said the Sun Life Agent when he delivered my son Bill's Junior Adjustable policy — but he didn't have to tell me that. I know what a help it would have been to me if, when I was twenty-one, I had been given a life assurance policy that could be continued as Whole Life, Life Paid-up at 60, or Endowment at the same age, for as much as five times the original amount without increasing the premium. Especially when that premium was based on rates for a child. I didn't have this great advantage, but I'm making sure my son has it. How about you?

**CAR ACCIDENTS REPORTED HERE Summerland Pays**

(Continued from Page 1)

Several car accidents have occurred in the Summerland and Peachland areas recently with no injury to occupants but some damage to the vehicles concerned. On August 11, John Gummow, Peachland, was turning in front of the Antler Coffee Shop when a car driven by E. Keeln, Kelowna, came down the hill and collided. About \$25 damage was done to each car, it was reported.

A light delivery truck driven by D. Taylor and a car driven by John Heinrich, collided on Monday, August 12, on the Garrett Valley road, West Summerland. The cars met on a corner on the narrow road with damage of about \$100 being reported.

On Saturday evening, August 17, a car driven by George Fudge and a light delivery driven by Walter Chaples collided on the Peach Orchard hill, with about \$128 damage occurring. None of the passengers was injured.

Mr. G. Ewart Woolliams, of the staff of the laboratory of plant pathology, has returned from a recent inspection tour in the Cariboo district.

Summerland was saddled with an increase of some \$7,000. Was Free Of Debt Summerland municipality was free of school debt, having paid off all its debentures which had been issued on the original school buildings.

So, Summerland was relieved of half the cost of teachers' salaries, but the added burden of Penticton's indebtedness actually increased the amount to be raised by taxation.

Therefore, the amount to be raised by 1946 tax levies is higher than the 1945 figures.

Another change is noted in the 1946 tax notices issued last week. Last day for payment of taxes and avoiding the ten per cent penalty has been set at October 15 instead of November 15, as in former years. This has been done to give the municipal council more latitude in financing, without going to the banks and borrowing.

Municipal Clerk F. J. Nixon has pointed out the difficulty which the council experiences in financing when tax payments are made only once a year and that near the end of the year. He advocates tax payments being split into three periods throughout the year, thus making payments easier for the property owner and providing the council with money to finance more easily.

W. R. Shields, who has been renewing acquaintances here for some weeks past, has returned to his home in Vancouver.

Miss Lena Leffler of Vancouver has been visiting at the home of her brother-in-law and sister, Mr. and Mrs. G. G. Mayert.

## Socially Speaking

Social Editor : Muriel Hurry

Mr. C. H. Robinson, Dominion Agricultural Chemist, of Ottawa, was a recent visitor at the Dominion Experimental Station, where he was a guest at the home of Dr. and Mrs. R. C. Palmer. Mr. Robinson also has been visiting for the past few days at the Summerland Laboratory of Plant Pathology, and at the home of Dr. and Mrs. H. R. McLarty.

Mrs. Wm. Maxwell and children, of Oliver, are visiting at the home of her mother, Mrs. Wm. Ritchie.

Miss Beverley Gayton returned last Wednesday from a Vancouver visit.

Miss Marjorie Downer, of Toronto, is visiting at the home of Mr. and Mrs. W. W. Hemmingway.

Mr. and Mrs. Gordon York and family, who formerly lived in Peach Orchard, have left to reside in Kamloops.

Mrs. F. W. Fleming and her son, Billy, of Oliver, are visiting at the home of her mother, Mrs. F. R. Stark.

Mrs. R. Moody, of Mara, and Miss F. Woodward, of London, were recent visitors at the home of Mrs. Verne Charles.

Mr. Steve Cannings, of New Westminster, was a visitor on Friday at the home of Mr. and Mrs. David Munn.

Mr. and Mrs. Cliff Seibert and Chas. Robinson of Cultus Lake, B.C., were recent visitors at the home of Thos. B. Grandbois.

Mr. Gordon Smith and Mr. Bill Laidlaw returned last week-end from a two weeks' visit to Calgary and Banff, Alta.

Mr. H. Greenlee, formerly of Regina, has accepted a position in the hardware department of the firm of Butler and Walden, West Summerland. Mr. Greenlee was four and a half years with the R.C.A.F. and left the prairie city last April, with Mrs. Greenlee, to come to British Columbia.

Mr. and Mrs. Russel Williams, of Vancouver are visiting at the home of Mr and Mrs Jack Blewett.

Mr. Manton, of the Manton Nurseries in White Rock, was a visitor on Monday at the experimental station.

Mr. J. M. McArthur, of the staff of the Dominion Chemistry Laboratory, left on Saturday evening for Pullman, Wash., where he will do post-graduate work at the State College of Wash. While he is there Mrs. McArthur will visit her parents in Saanichtown, B.C.

Word has been received by Mr. and Mrs. C. P. Evans that their son, Dr. Wilford Evans has successfully passed his Dominion Council of Medicine examinations. Dr. Evans returned to Vancouver last week after spending a holiday at his home here.

Mr. and Mrs. C. A. Lewis expect to move next week to their new home in Penticton. Mr. John Young, of Dulyea, Sask., has purchased the C. A. Lewis home and orchard, and with his wife and son, will arrive at the latter part of September to take up occupancy.

Miss Nancy Hack, nurse-in-training at the General hospital, Vancouver, is visiting her mother, Mrs. Edith Hack.

Mrs. H. M. Kersey and daughter Dianne, of Lumby, were visitors for several days early this week with Mr. H. M. Kersey.

Miss Jean Bennest has returned to Vancouver.

Miss F. Brown, of the nursing staff of the local hospital, is a Vancouver and Victoria visitor.

Mr. and Mrs. Geo. Clark have moved into their new home, the former McArthur residence.

**FINED FOR SPEEDING**  
Speeding through the thirty-mile-per-hour zone in Peachland municipality cost William Dolyuk, of Penticton, \$5 and costs recently when he appeared on this charge before Reeve A. J. Chidley, J.P. The charge was brought by B.C. Police Constable Cartmell, of Summerland.

At the Summerland hospital on Tuesday, August 20, a daughter was born to Mr. and Mrs. Edward Lloyd.

**TED DUNSDON LEADS SHOOT**

Ted Dunsdon was top man on Sunday, Aug. 11, at the Summerland Rifle club shoot with a score of 93, one point ahead of A. E. Scott's 92. Other scores follow: Ed. Gould 90, G. M. Dunsdon 88, A. R. Dunsdon and F. G. Anderson 87, F. W. Dunsdon 85, P. S. Dunsdon and G. M. Forster 83, J. McLachlan 81, H. Dunsdon 80, B. Simpson, A. W. Moys and D. Spalding 79, J. S. Shelley 77, H. O. Tavender 76, G. A. Graham 70, Bob Wetzell and D. J. Taylor 67, M. H. Dodwell and B. McNeeley 65, C. B. Snow 61, H. B. Parker 58.

**THANKS COUNCIL**

Mrs. W. McClure, who recently made several complaints to the council regarding shortage of domestic water, has written the civic body thanking it for its consideration of her problem. The council had ordered a change in the domestic water pipe to a three-quarter-inch connection, as the grade in this position is not deemed sufficient for a smaller pipe, and the trouble seems to be solved, she reported.

**PASS ACCOUNTS**

Accounts totalling \$12,006 were passed for payment by the Summerland council on Monday afternoon.

**Noreen M. Thompson Is Bride of James Strachan**

In a beautiful garden setting at the home of Mrs. F. A. Bleasdale, Peach Orchard, the charming wedding took place on Saturday, August 17, at 7 o'clock, when Rev. Frank W. Haskins officiated at the marriage of Noreen Margaret, elder daughter of Mr. and Mrs. F. H. Thompson, and James Strachan, second son of Mr. and Mrs. D. J. Strachan, all of West Summerland.

The bride, who was given in marriage by her father wore a lovely floor-length gown of white triple sheer with silk braid inserts in the neck and waistline. Her long veil of embroidered silk net, with a self headdress, complemented with orange blossoms. Her bouquet was of pink carnations and fern.

The bride chose as her attendant her only sister, Miss Dorothy Thompson, who was gowned in pale blue net, and carried a bouquet of mauve and white gladioli, asters and carnations. The groom was attended by Mr. Bob Bleasdale.

The mother of the bride was

dressed in a smart gown of blue crepe, with beige hat and accessories and wore a corsage of pink carnations. Mrs. Strachan chose a green and white silk print, with black hat and accessories and her corsage was of white carnations.

Following the wedding a reception was held for the immediate families at the home of the bride's grandmother, Mrs. F. A. Bleasdale. The rooms were tastefully decorated with pink and white streamers and gladioli and the bride's table was centred with a beautiful three-tiered wedding cake.

The toast to the bride was proposed by her oldest friend, Mr. S. P. Thomas, and was responded to by the groom.

After the reception, the happy couple left for coast and Vancouver Island points, via Kamloops. For her honeymoon, the bride donned a brown dressmaker suit with gold and brown accessories.

Upon their return, the bride and groom will make their future home in West Summerland.

**COL. S. SWAN HEADS RED CROSS BLOOD DONORS**

Col. W. G. Swan, O.B.E., has been appointed chairman of the British Columbia Red Cross blood donors' committee, which will participate in a national peacetime Red Cross blood donation program.

During the war, W. George Lamont, chairman of the Red Cross outpost hospitals, was provincial chairman of this committee, which from inception in November, 1941, to closing on August 18, 1945, collected 78,514 donations.

After the war, Dr. W. Stuart Stanbury, N.E. Regional Blood Transfusion Officer in the British Ministry of Health during hostilities and the foremost world authority on blood transfusion was brought from England to make an exhaustive Dominion-wide survey of the peacetime needs. On his recommendation the blood donors' service is being set up in every province, with Dr. Stanbury as Red Cross national chairman of blood transfusion committees.

In British Columbia, under Col. Swan's chairmanship, permanent facilities will be set up in each key city and the collection of blood plasma will be arranged. Mobile clinics will be available for plasma collections in rural and outlying areas.

Col. Swan, who was born at Kincardine, Bruce County, and received his B.Sc. and C.E. at the University of Toronto, comes to his new appointment with a long record of community service since his arrival in Vancouver in 1910. He went overseas with the Canadian railway troops in the first war and was awarded the D.S.O. and Croix de Guerre. On his return he was for many years

with the city engineering department and later went into private consulting construction work. He has served on the school and parks boards and was industrial division chairman for the Welfare Federation. During the City's Golden Jubilee in 1936 he was chairman of the sports division.

At the outbreak of the last war he joined the defense purchasing board, later the department of munitions and supply, in 1939. He resigned in 1940 and joined the Canadian army. In 1942 he became Command Engineering Officer, Pacific Command, and served until his retirement in 1944. For his services he was awarded the O.B.E.

**Tolerance In World Body Urged Here**

Tolerance in a world federation in order to save the universe from a third world war more shocking grim than the average person will care to admit was the topic of a short and interesting talk to Summerland Rotary club on Friday, at the Nu-Way luncheon room by Rotarian A. C. Atkinson, of Penticon.

The speaker lived a great part of his life in India and travelled extensively before coming to the Okanagan to retire.

Rotary's place in the international sphere was woven into his talk and Mr. Atkinson stated: "If we as Rotarians can do anything in our power to further international understanding, then we will be doing the greatest service in our power not only for this generation but for generations to come."

At the outset, Mr. Atkinson pointed to controversies with Russia and a general misunderstanding of conditions and people in India.

"We say that democracy in our pattern must be maintained," he pointed out, stressing that Russia also believes in a type of democracy under another name and a different dress.

Not only in politics but in religion and in most lines of thought, people believe in their own special brand, he continued. "It's such a mistake to insist on our own brand of manners and customs, and believe they are the only manner of living," he contended.

He pointed to the misconceptions people on this continent have of life and customs in India. "We look upon the people of India as little savages," he stated, and related a few instances where such a belief is unfounded.

"We should get as far away as possible from these prejudices as they make for a separation of nations and provide extreme difficulty in breaking down nationalities."

He referred to the prophecies of the late H. G. Wells, who painted such a "shockingly grim picture" of a third world war.

"A third world war would be so devastating we are afraid to go into details, so we refuse to think. We hope to muddle through on a pattern of what has gone before. I am convinced we cannot for long settle down to anything like our past ways."

"We must work for a world federation in a spirit of tolerance, which need not sink nationalities, but based on an international understanding," he concluded.

**Name Successor To H. Clough**

On Friday evening, Aug. 9, the Summerland Scout committee, held a special meeting to elect a new president to succeed Mr. H. Clough, who left last week for a year in England.

Mr. Clough was thanked by the meeting for his successful handling of scouting work during the difficult days of the war, and his resignation was accepted with regret. A presentation of an Eversharp pencil was made to the retiring proxy.

In response, Mr. Clough thanked the committee for its loyal support. He also mentioned the assistance given by the Summerland branch of the Canadian Legion and in particular that of Legion President Sid Thomas.

Election of officers resulted as follows: President, S. W. Feltham; secretary, W. Atkinson; committee, C. E. Bentley, G. W. Blowett, W. R. Hoyd, Dr. D. Fisher; honorary president, H. Clough.

**DAM LEVELS**

Canyon Creek dam was at the 24-foot level on August 4 and the spillway was 3 1/4 inches open then, the council was informed on Monday. On August 5, Thirke dam was reported having 46 feet.

**Survey Power Source For North Valley**

Supplanting the information recently released by the B.C. Power Commission in their first annual report, Premier John Hart announced on August 2, that during the first three months of the present fiscal year, the total number of new customers added to the services operated by the Commission amounted to 587, bringing the total number of consumers to 14,689. A total of 832 new customers were added in the last fiscal year, so that since the beginning of operations, the number of new customers amount to 1,419.

Gross revenue for the first quarter of the current fiscal year amounts to \$164,192.92. Operating expenses, including provision for gross revenue tax, depreciation and administration costs, totalled \$196,873.77, leaving a balance for the payment on interest and sinking fund for the three months period \$67,319.15.

Members of the B.C. Power Commission visited Alert Bay and Sointula during the past week to view prospective sites for the new power plant for that district. It is proposed to connect the two communities by means of a transmission line and cable.

The annual report of the Commission disclosed that surveys had been completed for the Whatshan Lake power site near Needles in the Arrow Lakes area in connection with planning of a source of power for the North Okanagan and that a survey was now in progress to determine a source of power for Lillooet. Acquired systems in Alert Bay, Golden, Nakusp, Hope, Quesnel, Sechelt, Smithers, Terrace, Vanderhoof and Williams Lake have been surveyed and expansion programmes are being planned based on the information secured.

Investigation and reports also have been made in respect to power supply for Golden, Dawson Creek, Pouce Coupe, Rolla, Lillooet and Peachland-Westbank areas. It also was reported that surveys and engineering reports were in preparation in connection with Bamfield, Burns Lake, Malcolm Island, McBride and Tofino districts.

In addition, a large number of requests have been received on behalf of other communities and surveys have been approved for the following areas: Alberni, Ashcroft, Barnhart Vale, Barriere, Camp Lister-Husort, Canal Flats, Chase, Fort St. James, Gulf Islands, Hazelton, Houston, Kamloops, Prince George area, Princeton, Rock Creek, Sirdar, Uclueloet, Yakh and Zeballos.

The annual report further disclosed that the Commission had had an operating surplus of \$329,210.51 during its first fiscal year. The operating surplus, however, does not include provisions for rate stabilization reserve and the interest and sinking funds payable in properties which have been expropriated but upon which valuations have not yet been placed.

**REBATE ON CONNECTION**

Recently, a wire connection to J. H. Bowering's new home was installed by the electric light department, and Mr. Bowering was billed accordingly. On August 12, his complaint that he should not be charged for that portion crossing the Ritchie property across the street, was told the council and that body agreed he should be rebated a portion of the installation charge.

**HOLIDAY WAGES**

It was decided on August 2 by the local council that salaried municipal employees would receive a day holiday for every Sunday or holiday they were called upon to work, and that employees on an hourly wage would receive time and a half pay for such overtime.

**MAJOR TWEEDY SUBMITS BILL**

As the result of the fire in the vicinity of the municipal dump last month, a bill for repairing flume damage has been turned in to the municipal council for payment by Major W. R. Tweedy. He assessed part of his costs of repair at \$75.25 and this is the amount he wishes to collect from the municipality.

On Monday, August 12, the council laid this account on the table, as the legal position of the municipality in this connection has not been obtained.

**ASSESSOR HEARS COUNCIL VIEWS**

Roy F. Angus, new municipal assessor of property and land values, was called in to the council session on Monday, August 12, to discuss the revaluation work which he is to undertake this fall.

The council will be re-assessing all property in the municipality as improvements are to be part of the municipal tax scheme for the first time.

There will have to be a lot of revision to see that the burden of taxation is on a fair basis to everybody, Reeve W. R. Powell pointed out, stating that land has been fairly well equalized in value but improvements have never been checked closely for years as it was never taxed before here.

"Our intention is to equalize the valuation, not necessarily raise the value," was Reeve Powell's declaration.

Mr. Angus replied that he realized that the magnitude of his task this year and assured the council that he had already been doing considerable work on this problem.

"I think it will mean a visit to every house, both inside and out," was his opinion.

It was stated that the provincial government is endeavoring to work out an equal system of taxation for all municipalities in the province, but such a system will not be forthcoming for this year.

**Golden Wedding New Peach At Peachland Needs Name Is Celebrated**

PEACHLAND—Mr. and Mrs. Philip N. Dorland, of Peachland, celebrated their golden wedding anniversary on Sunday, July 28.

The square white house on the main highway just south of Peachland village, a landmark on the road ever since the founding of the settlement, and the Dorland home since its erection, presented a happy scene.

Friends and relations called all through the day to express their good wishes to the couple. Gifts and remembrances were offered at the anniversary luncheon. Flowers were presented from the Womens Institute of Peachland, of which Mrs. Dorland is a charter member.

Among visitors from farther afield than Peachland and Summerland were Mr. and Mrs. Harold E. McCall, Vernon; Mrs. Letitia MacIntyre, Vancouver; Mr. and Mrs. R. J. McDougall, Penticton; Mildred McCarthy, Vancouver. An only son, Hugh Dorland, of Chilliwack, was home for the occasion.

Mr. and Mrs. Dorland spent most of the fifty years of their married life in Peachland. They can be described as pioneers of that southern Okanagan community, having come to it forty-five years ago. They are among the first of those small bands of optimists who planted fruit trees along the lakeside slopes in the firm belief that the southern end of the Valley would become a great soft fruit producing area.

**Active Life**

They were for many years active in the life of the Peachland district: Mrs. Dorland in the work of the Institute and the Baptist church, her husband in the lumber mill and business of the late Hugh McDougall, his father-in-law. Before coming to the Okanagan, Mr. Dorland had been in the Dominion railway mail service and for somewhat more than a decade he returned to that work, being on the Nelson-Midway run from 1914 to 1921 and on the steamer "Sicamous" on Okanagan Lake for five years.

The couple have known pioneering experience in more than one part of the Dominion. The Dorland family were United Empire Loyalists who left New York in the Revolutionary War period, coming to the Bay of Quinte district in Ontario. It is a well-known family in that section, Prince Edward County. Mr. Dorland's mother's family, the Bulls, were also U. E. Loyalists.

Mr. Dorland came west to the prairies in 1889, living in Brandon, Man., later in Moose Jaw, and then in Calgary, whence he came to the Okanagan in 1901.

His wife, whom he married in Winnipeg in 1896, is a daughter of the late Hugh McDougall, whose family came to the Ottawa Valley from Scotland in 1832. Hugh McDougall brought his wife and children west to Moose Jaw in the early 1880's when steel was being pushed across the prairie country. He moved to Peachland in 1902 and for some years operated small sawmills and a store in the district.

Today, after lives spent in the development of various sections of Canada under pioneer conditions, Mr. and Mrs. Dorland are in good health. At 87 the husband declares that he has every expectation of celebrating, in due course, with his wife, a diamond anniversary, ten years hence. And in that hope the friends who congratulated them Sunday, joined heartily.

**Propaganda For New Growers**

Information is to be supplied to new growers of fruit and vegetables in the Okanagan, so that they can be fully conversant with conditions which led to the setting up of orderly marketing and the benefits which have been derived by the industry from such steps, the executive of the B.C.F.G.A. decided last week in Kelowna.

Throughout this agricultural area there has been a great influx of new growers who have purchased fruit and vegetable holdings at high prices.

The growers' executive, along with the Interior Vegetable Marketing Agency Ltd., believes that many of these newcomers are not conversant with the conditions which led up to the present, organized crop and should be given full information in the event that they are hard hit by lower prices in the future.

The vegetable agency recently issued the following statement in this regard:

"Land has boon and is changing hands at prices far beyond anything we have known and it is reasonable to assume that the newcomers have based their values for land on the value of the commodity grown thereon. These newcomers must be the first to feel the changing price conditions which are taking place now. Their first reaction toward controlled marketing may be that of antipathy owing to their lack of knowledge, of the need for quality and of what went on prior to controlled marketing.

Dr. R. C. Palmer, experimental station superintendent, has a brand new product which he is lovingly showing to friends these days. At Rotary, this product, a new type of peach, was exclaimed over by Rotarians at their Friday luncheon.

The only thing this peach hasn't got is a name and Dr. Palmer is making inquiries as to a suitable cognomen. If you have any ideas he will be glad to hear from you.

This peach is a seedling of the Veteran peach, only it matures ten days to two weeks earlier than the three V's. It will withstand the ordinary handling received before reaching the market, Dr. Palmer states, and its only slight drawback is that it is not large in size.

However, it is a medium-sized peach which will probably find a ready market in the future, once it is released for commercial purposes.

It was Dr. Palmer's brother, by the way, who produced the V varieties in Vineland, Ont. . . that is, the Veteran, Vidette and Valiant. They were originated in Ontario but Dr. Palmer had his brother send them west where they have been produced in larger quantities and with better results than their brethren in the east. At least, so western growers claim.

**WOULD REMOVE TREES**

Three large poplar and one elm tree on the road allowance should be removed, W. Arnett informed the local council by letter on August 12, stating that they hinder growth of potatoes and fruit trees on adjoining property owned by his wife. These trees border a narrow lane near the Bank house. Water Foreman E. Kercher has been asked to investigate the proposal.

**WILL FIX LOT PRICE**

Councillors F. E. Atkinson and D. Taylor have been requested to set a valuation on an acre and a half of lot 5, D.L. 2196, which is sought by W. Robinson, a partially disabled war veteran, for a building site. This portion of the lot would be suitable for building purposes, E. Kercher has told the council, while there is a shale pit on the northern portion.

**SET PRICE FOR LOTS**

Price of \$250 per lot has been set by the municipal council for lots 7 and 8, block 46, D.L. 455, which are under rental lease to the Sunoka Fruit Products Ltd. This company has buildings on these lots and wishes to purchase them.

**WILL ATTEND CONVENTION**

School Trustee P. G. Dodwell, of Summerland, will be one of the Penticton School District No. 15 delegates to the annual convention of the B.C. Schools Trustees' Association in Prince George on Sept. 23, 24 and 25. Chairman T. F. Parmley and Trustee W. W. Riddell and H. A. LeRoy, Penticton, will be the other delegates.

Alternative delegates are R. F. Angus, Summerland; Mrs. R. B. White, Penticton.

The trustees will receive \$10 per day travelling expenses to meet costs of attending this convention. They plan to travel north by car, accompanying Inspector J. J. Burnett and the entire trip will occupy seven to eight days.

**Hold That Match!**

DON'T throw away a lighted match, when you're in a forest area. One single match improperly extinguished, can mean the loss of thousands of dollars worth of valuable timber.

Timber is one of British Columbia's biggest industries. Directly, or indirectly, it's your business too—your business, and duty, to prevent forest fires. Forest fires not only cause material damage—human lives, too, are many times threatened and taken.

Forest areas are patrolled by watchful Forest Rangers, but their efforts are worthless if your carelessness runs rampant. It doesn't take much to start a timber stand blazing. One spark alone can do it. So be careful with that match.

**Extra Cantos**

(Continued from Page 1)

when two runs came across, McDonald and Beck scoring after hitting singles.  
 The scoring loosened in the seventh when Cawston took a 5-1 lead. McKenzie started things rolling with a double and scored on Frash's single. The latter came across when O. Beck laid down a bunt.

**Three In Seventh**

But Summerland came to life in the last half of the seventh when Walsh was scored on Vanderburgh's single. Gould drove one to centre field for a hit, going to second and scoring Vanderburgh when R. Charlton let the ball go by him. Gould came across when Charlton made another bad error, dropping Hankin's hard driven fly ball.

The count went to 6-5 for Summerland in the eighth with two more runs, two doubles by Biagioni and Clark, and a bad error

by L. Charlton at third being responsible.

But the visitors tied it up in the ninth when Amm booted Frash's roller and scored when Biagioni overthrew first base. The bags were full with only one away but R. Charlton rolled one to Les Gould who threw to Clark at home plate, forcing the runner from third. The double-play was completed by Clark to Vanderburgh at first.  
 Although both teams put men on the bags in the tenth and eleventh frames, neither side could shove them across. In the twelfth Biagioni singled, stole second and rounded the circuit when Clark drove one out to right field.

**SHOP CHANGES HANDS**

A. H. Giles, of Penticton, announced on Wednesday that he has taken over the Summerland Cycle Shop formerly operated by J. Greenwood. Mr. Giles plans to move his home to Summerland as soon as he can find accommodation.

**It's Never Too Late . . .**

When opportunity keeps knocking, there's only one thing to do—open the door.

Eight months ago we recommended a certain preferred stock at \$12, because we knew its value.

We still recommend the same stock today "at market," about \$17.

WHY? Let us tell you why.

— THE STOCK —  
 J. H. Ashdown Hdw. Co. Ltd.  
 Class "A" (Convertible into Class "B.")

**OKANAGAN INVESTMENTS CO. LTD.**

H. G. NARES, Branch Manager.

Street Building Penticton Phone 678

**WANTED TO RENT — FURNISHED** or semi-furnished house with two bedrooms, from September to June. Mrs. R. T. Green, Kaslo. 9-4-c

**WANTED — CLEAN COTTON** rags, white preferred. The Review office. Phone 156.

## Forest Fires

As a general rule the Okanagan would have been clouded with smoke clouds for many weeks past, but such have been the climatic conditions prevailing that the woods have escaped any serious conflagrations to date.

But with a continuation of the present hot, dry spell, the danger of forest fires is increasing and more and more precautions will have to be undertaken to prevent devastating fires.

Our forests are a great source of revenue in this province. Never has the lumber from these forests been so sorely needed as at the present time. They provide the life-blood for many of our communities.

It is up to every one of us to do everything in our power to prevent serious losses to the economic life of British Columbia. That cigarette should not be carelessly flicked away, that lighted match should not be tossed aside without a second look, that camp fire should not be left untended.

Forest fires are caused in a hundred different ways but generally it is the carelessness of man which is the creator of the forest conflagration.

In recent weeks the B.C. Forest Service which comes under the Department of Lands and Forests has been warning British Columbians, through the medium of the weekly press, of the danger of fires in our forests. These advertisements have stressed the great value of our forests and the necessity of preserving them in every way possible.

It is up to every person in this province to pay heed to these warnings and PREVENT FOREST FIRES.

\* \* \*

## Sports Honors

Two sports clubs in Summerland are being congratulated this week for their showing in Valley competition. Last weekend the Summerland fastball girls' team won the southern interior championship and the McInnes cup bringing honors to the town they represent.

This group of girls has practiced faithfully and hard since the league was organized in early July. By their perseverance they have made a creditable showing and are now making plans to challenge the central Okanagan winners at East Kelowna.

The A.O.T.S. club can also take pride in the girls' achievement, as a committee from this active organization sponsored the Summerland entry in the league and made it possible for the girls to compete.

In the realm of hardball, Summerland is making a valiant showing. At one time the local ball tossers were at the top of the league but a slump ensued and for a time it was not thought possible for them to even make the playoffs. After last Sunday's win they have entered into a tie with Penticton and it now looks certain that they will be competing in the playoffs.

...Nearly every member of the Summerland club was a member of the armed services. They have returned to their native town and have taken this as one of their methods of rehabilitating themselves in the ordinary routine of civilian life.

Even if they do not win the South Okanagan league championship they will have put up a good showing. There are many who would wager a few bets that they will cop the top honors, but whatever the outcome, they have brought credit to the town for their fighting spirit and willingness to make a comeback after so many years divorced from the realm of sport.

Summerland citizens can well be proud of their sports teams which are bringing favorable publicity to the community.

## Help The Merchant

Wrapping paper, paper bags and cardboard containers are in such short supply that the local merchants have had a terrific battle to find anything like a suitable wrapper or container for foodstuffs and other items they sell. And there is no relief in sight at present.

Persons with brown paper and bags and boxes would be doing themselves and their

store keepers a service by retaining these precious articles and allowing them to be used many times over.

The Wartime Prices and Trade Board has announced that it is curtailing production of wrapping paper, shopping bags, and brown envelopes due to a bottleneck in multi-wall paper bags. The board has also arranged for a reduction in the limited quantity of kraft paper bags available for export.

Multi-wall bags are used for packaging a variety of foodstuffs as well as certain building line-trades and such has been the demand for materials that the cement industry alone has reached a production of nearly 35 per cent over 1945. And cement is the largest single user of multi-wall bags.

Kraft paper is being diverted from wrapping paper, shopping bags and brown envelopes for the production of these multi-wall bags and it is estimated that the former three are less essential than the bags. A cut of ten per cent in production will mean a difference of 1,400 tons of shopping bags, 1,400 tons of wrapping paper and 100 tons of brown envelopes.

Some merchants are unable to obtain wrapping paper now and with production cut another ten per cent the situation is going to be worse. If the housewife wishes to have her perishable food products given any kind of suitable protection, then she will have to be prepared to assist the merchant by saving her wrapping paper and paper bags and boxes.

## Big Increase Coming

In an extensive article in a recent issue of the Agricultural Institute Review, M. B. Davis, Dominion Horticulturist, deals with the present and future of fruits and vegetables in Canada. The fruit and vegetable industry of Canada has expanded in the last 20 years at a rapid rate and covers a wide range of crops, says Mr. Davis. In fruits, Canada produces in commercial quantities, apples, apricots, pears, peaches, plums, cherries, grapes, strawberries, raspberries, blackberries, currants, gooseberries, cranberries, loganberries, and, recently, blueberries. In vegetables, a full line of crops is grown under various conditions in practically every province of the Dominion.

Until recently, say the last 25 years, the apple industry of Canada was largely centred in Ontario and Nova Scotia, with the older provinces of New Brunswick and Quebec occupying a small place in the production figure. Today British Columbia outstrips all other provinces in actual production, with Nova Scotia occupying second place, Ontario third, Quebec fourth, and New Brunswick fifth.

In potential production for the next ten years, based on planted acreage, Nova Scotia and British Columbia are about equal, while Ontario with heavy new plantings is in the lead, having double the British Columbia acreage. Quebec alone has acreage planting equal to British Columbia. Thus, the stage is set for a tremendous increase in apple production in Canada in the next ten to 15 years. The average production at present is around 12,000,000 bushels per year, and, barring unforeseen disasters it might conservatively be estimated that this figure will be increased to 20,000,000 bushels in the not far distant future. Either, says Mr. Davis, Canada will have to eat more fruit per capita, export more, or increase the population to take care of this potential production.

In looking to the future of the Canadian fruit industry, one is struck, continues Mr. Davis, by the trend towards a shift in apple production to the more northern parts of Ontario and Quebec, which, due to the advent of the McIntosh variety and later to the more adaptable varieties of the plant-breeding institutions, are more than competing for their share of the markets. Added to this is the recent adoption of harder rootstocks and better tree-building technique all of which assures these regions a permanent and expanding production.

**BORSTAL SYSTEM TO BE RE-ESTABLISHED IN B.C.** note of the plan of correction, with no guns, no fences, no bars, no locks to keep the boys in.

Re-establishment of the Borstal system of rehabilitating young delinquents in British Columbia will be proceeded with immediately, Hon. G. S. Wismer, K.C., attorney-general, announced upon his return from the Old Country. The Borstal school was operated in Vancouver from 1937 to 1942, but was closed down due to lack of accommodation. It is now the intention to re-establish the Borstal system with some modifications on the initial venture. The honor system will still be the key-

**WANT ESTIMATE**  
Residents of Peach Valley area have asked the Summerland council for an estimate on the cost of a domestic water extension to their premises. Under one scheme, it was considered on Monday that the cost might run to \$1,000, but another and cheaper method may be devised to provide the needed service and the council will investigate this angle before submitting any figures.

## Special Prize To Honor McIntosh In 150th Year

This year marks the 150th anniversary of the McIntosh Red Apple, most popular brand which is shipped from the Okanagan valley. It is estimated that the Mac comprises one-third of the apple tonnage in the Okanagan at the present time, and is the most widely-grown apple in the world.

In honor of this birthday a special class has been created for the Armstrong Fair, to be held on September 17, 18 and 19. This fair is better known as the B.C. Interior Provincial Exhibition.

Under the chairmanship of W. T. Cameron, Vernon, the B.C. F.G.A. fruit division committee has issued a challenge to all growers of McIntosh Red apples to compete in Class 75 which is a plate of five Macs.

First prize will be an engraved \$60 tray, which has been donated by Buckerfield's Ltd. Prizes of \$15, \$10, \$5 and \$2 are for second, third, fourth and fifth places, respectively.

Altogether, 78 classes are listed in the B.C.F.G.A. fruit division of the exhibition, with generous cash prizes and attractive special awards including 2,000 pounds of ammonium sulphate, also donated by Buckerfield's Ltd.

At the request of southern valley growers, prize money in the peach classes has been increased.

Blank entry forms are being sent to the B.C.F.G.A. local secretaries. Entries close on Sept. 9.

Commercial packing houses are also being persuaded to enter competition in three special classes, 76, 77 and 78. These classes call for one or more boxes of Wealthy, McIntosh and Delicious apples of a grade and size to be specified by the horticultural branch. Grades will be fancy or better, sizes 125 to 150, inclusive. The packing house obtaining

highest marks in each variety will receive the prize for that class. At the close of the exhibition, the boxes will be sent to the Tranquille sanatorium as a donation from the shipping houses of the interior.

## Warn About Weed Killer

A warning about the use of the hormone weed-killer, 2,4-D, has been issued by the division of botany and plant pathology, science service, Dominion Department of Agriculture.

Cases are on record, states the division, where the application of this weed killer has resulted in injury to nearby vegetable gardens or flower beds. At a time when major emphasis is being placed on food production, all possible care should be taken to prevent damage to garden plots.

2,4-D is selective in its nature when applied in the proper concentration to weeds in lawns; but many vegetables, ornamental garden plants, shrubs, and trees are just as likely to be injured as are the broad-leaved weeds.

The following precautions should be observed when applying 2,4-D:—

1. Keep well away from all ornamental plants and garden plots.
2. Do not apply 2,4-D on a windy day. The wind will carry the fine spray for some distance.
3. Clean out all spray apparatus, mixing pails, or watering cans with hot soapy water or washing soda, followed with a thorough flushing out with water before using for any other purpose.

HOSPITAL SURVEY

Graham L. Davis, hospital director for the W. K. Kellogg Foundation of Battle Creek, Michigan, will conduct a survey of hospital requirements for British Columbia at no cost to the province, it was announced by Hon. G. S. Pearson, provincial secretary. This is the first step in planning a long-range program of hospital construction and remodeling, based on community requirements.

Dr. R. C. Palmer Dreams of Valley as Tourist Mecca

Dr. R. C. Palmer had another dream last week... a dream of the Okanagan. The popular superintendent of the Summerland Experimental Station, told the details of his dream about the Okanagan to the large gathering on the station grounds which attended the opening banquet on Wednesday, August 21, welcoming horticulturists, entomologists and plant pathologists from Washington, Oregon, Idaho and Montana, as well as from this province, to the valley.

This is the organization known as HEPP, which gathers once a year to discuss the technical difficulties besetting growers of fruits, vegetables and seeds and to exchange information relative to research into the growth and diseases of these products.

Dr. Palmer's dream commenced a million years ago. He was suspended high above this valley and all he could see was a field of ice, grinding down slowly to the "American desert to the south."

As the years sped by he saw ice receding and melting until a great lake was formed, stretching from McIntyre's Bluff to Sicamous and emptying into the Pacific from the north.

Where Summerland is located now he saw a great river bringing down sand and gravel into this portion of the valley.

Then his dream edged forward to a thousand years ago, when the ice jam at McIntyre's Bluff had broken and the water was emptying southwards into the Columbia and finally reaching the ocean at Portland. In the south part of the valley the land was barren but in the north there was

more rain and the growth was more luxurious. All that existed at Penticton was an Indian village.

Again there was a transition of the dream to a period just a hundred years ago and down at Astoria, Ore., Dr. Palmer could see hardy white pioneers setting out in their canoes to slide up the Columbia to Brewster and from there north up the Okanagan to Trout Creek Point, where they camped.

He saw big cattle ranches spread over this district and here and there ranchers planting a few fruit trees which gave forth splendid fruit.

Then he witnessed men going into the hills and creating dams and irrigating ditches; he saw orchards and towns beginning to grow; and he saw Dr. Grisdale, deputy minister of agriculture, climb the hills and look down upon the new project of the Summerland Experimental Station.

There was another jump in the dream and Dr. Palmer was taken one hundred years ahead of today.

Dr. Palmer saw a paved highway stretching around both sides of Okanagan lake; and he saw the lake dotted with luxurious tourist hotels and large auto camps. He saw good roads leading into the fishing and hunting grounds.

And, finally, he saw the Okanagan as the playground for the entire Pacific northwest.

"I welcome you to the land of my dreams," declared Dr. Palmer in concluding his welcome to the visitors.

Besides the many visitors and their wives, a number of Summerland residents who had arranged to billet the strangers, were present for the banquet, which was served by members of the Rebekah Lodge in Summerland.

On Thursday morning the visitors left for Little River, where they concluded the conference on Saturday.

Those in attendance from outside points were:

- T. H. Anstey, Agassiz, B.C.; L. P. Batjer, Wenatchee; Earle Blodgett, Prosser, Wash.; Louis R. Bryant, Pullman, Wash.; Richard M. Bullock, Wenatchee; J. Harold J. Clark, Long Beach, Wash.; Walter J. Clore, Prosser, Wash.; DeLance Franklin, Parma, Idaho; H. G. Fulton, Agassiz, B.C.; Randal L. Fitzpatrick, U.B.C., Vancouver; Wm. Foster, Victoria; K. E. Gibson, Walla Walla, Wash.; G. Howell Harris, U.B.C., Vancouver; K. M. King, Victoria; M. C. Lane, Walla Walla, Wash.; Frank P. McWhirter, O.S.C., Corvallis, Ore.; L. W. Neilson, Aberdeen, Idaho; Mr. Downes, Victoria; W. J. O'Neill, Wenatchee; J. H. Schultz, Prosser, Wash.; J. A. Smith, Oliver; John C. Snyder, Pullman, Wash.; C. O. Stanberry, Prosser, Wash.; A. H. Thompson, Wenatchee; Leonard J. Tutill, Moscow, Idaho; S. C. Vandaveyve, Pullman, Wash.; Leif Verner and Ross Watson, U. of I., Moscow; Kenneth C. Walker, Wenatchee; E. W. White, Victoria; H. L. White, Idaho.

China Visitor Likes Canada Better Now

Miss Katharine E. Hockin, who was an interesting visitor to Summerland recently, was en route to New York from seven years spent in the province of Szechuan, China, where as a missionary of the United Church of Canada, she taught English at Wuhan the famous refugee college in Loshan. She will do graduate work at the Teachers' College of Columbia University, New York.

Miss Hockin was born in China, of missionary parents, and with her widowed mother Mrs. L. H. Hockin, who has been a missionary since 1903, left Chungking in a navy truck convoy, which was moving scientific instruments for Wuhan University. Although Chungking is a bottle-neck that is difficult to escape from, Miss Hockin and her mother finally obtained a special priority to proceed by plane to Shanghai. From there they obtained passage on the S.S. General Meigs a former American transport which is now used for repatriation purposes, and from Shanghai sailed directly to San Francisco sharing accommodations in the hold with 200 other passengers of various nationalities. Travelling from San Francisco to Vancouver by train completed an entire circle of traveling methods for the women missionaries.

It was to visit Mrs. T. B. Lott, her old friend of U.B.C. days, that Miss Hockin came to Summerland last week, and was enthusiastic about the district as a vacation spot.

Miss Hockin speaks Chinese fluently and is looking forward to resuming her work there after her much-needed year's furlough is ended.

Miss Hockin thinks that Canadians do not realize their good fortune in living under Canadian ways and laws, and says that it is abnormal for the Chinese people to have the sense of responsibility that is an ingrained characteristic of the occidental races. It was also interesting to note from Miss Hockin that the cost of living in China has increased 600 per cent during difficult years, in comparison with an approximate 25 per cent cost of living increase in Canada. Miss Hockin also noticed that Canada is a more friendly place than it was before the war due, she surmises, to the necessary sharing of things as a result of the long war years.

OLD DISPUTE IS STILL CONTESTED

Dispute between the municipalities of Burnaby and Summerland over a former resident of the Home for the Friendless continues. Burnaby wishes Summerland to pay a portion of the costs of this aged woman's care, as she is now in an institution at the coast.

In accord with the position it has always taken, Summerland refuses to recognize responsibility for any inmate of the Home here.

The former inmate in question had told Burnaby authorities she was able to work for her room and board so the coast civic group considered she was not in the same class as ordinary aged people confined to the Home. Summerland has checked local officials of the Home and find that the woman was confined to her room at all times and was incapable of performing any duties.

Summerland continues to sit pat on the case.

H. Carl Goldenberg, sole commissioner appointed to enquire into provincial-municipal relations has completed his hearings. The commissioner is now engaged in examining all the presentations prior to compiling his report and recommendations.

Codling Moth Control Good

Second brood codling moth spray has been completed in the Summerland, Westbank, and Peachland areas according to the latest horticultural news letter distributed from Vernon by the department of agriculture. Wormy apples are few and far between this year, the cooler weather at nights keeping the infestation from spreading to any extent.

Rochester peach harvesting is about over and the V peaches are coming in rapidly now. Bartlett pears were at peak volume when the report was submitted the middle of last week.

Penticton area reports that the wind storm of August 15 caused only minor damage to the crop, although some orchards in exposed positions were rather badly hit in regards to Anjou pears and McIntosh apples.

Jonathan and McIntosh apples are beginning to take on color in the Penticton district; Rochester peaches are finished and the three V's are moving in quantity. Bartlett pear harvesting concluded last week-end.

In the extreme southern end of the valley, second brood codling moths are active and spraying is being carried on extensively. European Red Mite and Pacific Mite are building up and spraying for their control has been combined with the codling moth program.

Prune picking has commenced in the south, while Zucca melon, cantaloupes and watermelons are being harvested.

Vernon district reports that tree fruits sizing has slowed a bit but the average size is above normal. In general, farm crops harvesting and thrashing are well advanced. The codling moth situation appears favorable at this time.

There are fewer wormy apples at this time than for many years, the Kelowna report indicates. It is expected that that district will start McIntosh harvesting next week.

Hop Industry Starts In Valley

KELOWNA—What may ultimately lead to the starting of an entirely new industry in the Okanagan Valley took concrete form last Monday night when the City of Kelowna disposed of the water rights on the new civic airport to a group of Vancouver business men as well as selling part of the property on the Ellison field, which will not be used for the operation of an airport. Negotiations between the Kelowna Aviation Council and the Eldorado Ranch Co. were successfully completed after the Vancouver business men offered \$4,000 for the water rights and \$6,000 for the property on the eastern portion of the airstrip. The motive behind purchasing the property is for the establishment of a hop industry in the Okanagan Valley, and within the first year it is estimated that the company will employ around 15 men permanently, and around 600 on a temporary basis.

FOREST PROTECTION

The forestry department has covered one-half of its work of spraying DDT insecticide on British Columbia forests in the department's aerial warfare against an insect known as the hemlock looper. The results from the work done so far have proved highly satisfactory. To date, approximately 5,000 acres have been sprayed, the Honourable E. T. Kenny, minister of lands and forests, stated.

VERNON STORES

Vernon city council has passed the final reading of a bylaw calling for all-day closing of retail stores on Thursday. When 75 per cent of the retail businesses signified their willingness to close all day in mid-week, the Vernon council, on the advice of its solicitor, C. W. Morrow, M.L.A., passed this bylaw.

A number of Vernon grocers led by Safeway Stores Ltd., opposed the measure.

SELL FOR \$400

J. E. Jenkinson will be informed by the Summerland council that lot 49, district lot 1073 may be purchased for \$400. Mr. Jenkinson sought lot 49 and 50, but the council decided that lots 50 and 51 should be sold together and only when irrigation water service can be provided. The council is not prepared to provide water to that area at present.

Mrs. R. E. Parsons, who has been visiting relatives in Trail, arrived in Summerland on Friday evening to take up residence here.

**EARLY RESIDENT DIES**

The death has occurred in Grant's Pass, Oregon, in his 71st year, of Forbes W. Fosbery, brother of William and George Fosbery, of West Summerland. Mr. Fosbery was a resident of this district in the early days and will be remembered by many of the old timers.

**Sunday School Head Recipient of Lamp**

The Peach Orchard park was the scene of an enjoyable picnic on August 16, when the Lakeside United Sunday school held its annual summer outing. About 44 children were present, as well as teachers and many others. Races were conducted by Mrs. W. McCutcheon and Mrs. D. Orr. During the picnic supper which followed, Mrs. M. Mellor, who retired at the end of June from her duties as superintendent, was presented with a reading lamp by Graham Munn, on behalf of the Sunday school, as a token of appreciation of her faithful service and loving interest as teacher and superintendent for many years.

## Notice To Truckers:

This season, a number of truckers have been operating in the valley, soliciting fruit from the growers and packing houses, and marketing such fruit as they have been able to obtain at various points in the province. A few growers with trucks have also been attempting to market a portion of their output to dealers at points at some distance from point of production

This practice is contrary to regulations under the Natural Products Marketing (B.C.) Act, which provides fines or imprisonment for offenders.

Under the Act, B.C. Tree Fruits, Limited, of Kelowna, B.C., has been designated as the sole agency through which tree fruits produced in the area may be marketed. The marketing of tree fruits through any other agency is in violation of regulations with the single exception that shippers and growers are authorized to sell tree fruits to retailers or consumers at the point where the shipper or grower is located and in the case of the retailer such fruit is sold only to consumers.

The term "tree fruits" includes culls as well as graded fruits.

The Board has knowledge of the names of a number of offenders but it is reluctant to publish the names or to prosecute without first issuing this warning. This warning is published so that all will know that prosecutions will follow further violation of regulations.

**British Columbia Fruit Board**  
 KELOWNA, B.C.

A daughter was born at the Summerland hospital on Monday, August 26, to Mr. and Mrs. Victor Tubbs.

Mr. and Mrs. W. MacMorran, of Winnipeg, are visiting at the home of Mr. MacMorran's brother-in-law and sister, Mr. and Mrs. Gordon Ritchie. Mr. MacMorran is assistant advertising manager of the Winnipeg Free Press.

Mr. Fraser Dier returned on Tuesday from a short trip to Prince Albert and other Saskatchewan points.

Mrs. E. M. Kerr and Mr. and Mrs. W. D. Kerr and daughter, Lornamae all of New Westminster, were visitors here for two days this week on their return to the coast after a trip through Washington points. Russell Kerr, of The Review staff, is a son of Mrs. E. M. Kerr.

Visitors from Winnipeg recently at the home of Mr. J. W. Harris have been his son-in-law and daughter, Mr. and Mrs. Maurice Lansdown and their young son, Allen. They left by motor for home on Wednesday, August 28.

Rev. T. E. Harris, of Langley Prairie, who has been visiting at the home of his father, Mr. J. W. Harris, left on Tuesday to return to his home.

Mr. and Mrs. Edrt Cooper and children, of Kelowna, were visitors for a few days last week at the home of Mr. and Mrs. Bob Smith, Garnett Valley.

Mr. and Mrs. John Heinrich were visitors to Kamloops on Wednesday, where they went to meet their son, Albert Heinrich, who was on his way home from overseas service. Mr. Albert Heinrich was married while in England and his wife is expected to arrive in Summerland soon.

Mr. James Mowat M.L.A., and Mrs. Mowat, of Port Alberni, have been visiting at the home of Mr. Mr. and Mrs. H. B. Mair.

Miss Christina Mair of Vancouver is spending her vacation with her parents, Mr. and Mrs. H. B. Mair.

Mr. T. T. Elder, of Vancouver, is visiting at the home of his aunt, Mrs. J. L. Logie.

Mrs. R. A. Scott, of Welby, Sask., is visiting at the home of her daughter, Mrs. D. M. Turner. She was accompanied on her trip by her little grandson, Scott Turner, who has spent the past two months visiting in Welby.

Mr. and Mrs. C. J. Daechsel and sons, Donald and Irvine, of Strassburg, Sask., were week-end visitors at the home of Mrs. Daechsel's brother-in-law and sister, Mr. and Mrs. Herb Pohlman.

Mr. and Mrs. Wm. Sharp and daughter, Thelma, of Port Coquitlam, were Sunday visitors at the home of Mr. and Mrs. E. C. Bingham.

Miss Laura Bell, of Victoria, arrived on Wednesday, August 28, to visit Mr. and Mrs. E. C. Bingham for several days.

Registration at U.B.C. Changed

A major change in the system of registration of interest to all students intending to go to the University of British Columbia this fall, has been announced. All registrations must be completed in person between September 12 and September 20.

University officials said the expected enrollment of 8,000 would make the former system inadequate. Officials were emphatic that no limit would be placed on enrollment.

All registrants will report to the U.B.C. armory. New students will show their academic certificates and receive registration booklets at a reception table. After preliminary documentation they will advance down a line of tables where they will be assisted in filling out the many-paged booklets by advisors from each department.

University fall term starts September 23. Assembly program for all new students attending the university will be held on Thursday, September 19.

Decade Classes To Be Honored

When the U.B.C. holds its annual Fall Homecoming, a new tradition will be established this year with special "Decade Classes" being honored. The classes this year will be '16, '26, '36 and '46, as this is the thirtieth year since U.B.C.'s first congregation.

The first year, 1916, saw 40 graduates, 24 of whom are still alive. The number had increased to 186 ten years later and to 291 in 1936. This year will probably see about 600 graduates.

Among the 1926 graduates who have been noted by the U.B.C. Alumni Association are Kenneth Caple, former Summerland teacher and now program director and a member of the Board of Governors of the CBC; and Mrs. G. Ewart Woolliams, wife of the president of the Summerland branch of the alumni group.

Sunoka Building Ready For New Machinery And Greatly Increased Packout

Gallagher and Mundy, Summerland contractors, have now completed construction of the newest addition to Summerlands industrial life, the new Sunoka Products Ltd. plant and storage room on the lakeshore in lower town, Summerland.

This structure was commenced just over two months ago and has gone rapidly ahead until the final work on the main part of the building has now been completed. Built to accommodate a rapidly-expanding enterprise the building, of frame construction, measures 105 feet in width with a depth of 52 feet. The trusses in the roof are 52 feet long.

This is the first large construction job which this contracting firm has completed in the community. It was built at a cost of more than \$10,000.

New Machinery For this fall, the building will be used only as a warehouse, but next year it is planned to move the plant and equipment from the old adjoining sheds to the new structure. Much new equipment will be added to facilitate the processing of fruits.

Under the main part of this structure there is storage space provided on the bare ground for 1,200 barrels. This is a naturally cool compartment and is ideal for the purpose, states Mr. H. W. Pohlman, manager of the Sunoka plant here.

The Sunoka Products Ltd. has its headquarters in Vancouver, but under the management of Mr. Pohlman, a staff of twenty is employed nearly all year around, thus adding a worthwhile payroll to the community. There are eight women employees and twelve male employees engaged at the present time.

Heating for the processing of fruits is by means of steam from a boiler operated by coal stokers.

Fruit Products Cherries, apricots, pears, zucca melons and orange peel are the main fruits which are processed in this Summerland plant. Fruit-ettes, maraschino cherries and glazed cherries and candied peel are the products which result from the processing.

The zucca melons, which are mainly grown in the Osoyoos area, diced and made into fruitettes for fruit cocktails. These are first introduced into a solution of SO2, with calcium as a toughener, as the melon mainly consists of water.

This season, Mr. Pohlman expects to process half a million pounds of fruit and with the anticipated increase in sugar rationing quota, plus more help being available in the next year, he anticipates greatly increasing this output.

Some dried orange peel is imported from California and is manufactured into diced candied peel, so popular for the Christmas cake and pudding trade.

Cherry Processing Main operation concerns cherries, which fall into two categories, maraschino and glazed. For both processes, the cherries are placed in a brine solution to be bleached.

After soaking in the SO2 for a considerable period, they are washed in cold baths and forwarded to the pitting and steam machines. As they emerge in their new form, they are graded and sent along to the cooker, where they also receive a coloring solution which brings them back to a deep red color.

BRIAN ATKINSON TO GO TO ORIENT

Brian H. Atkinson arrived in Summerland on Saturday, August 10, from England, preparatory to continuing his journey in October to the Orient, where he will represent the British Publishers' Assn. in survey work in Japan, China and Malaya.

Mr. Atkinson received his discharge from the Canadian army while still in England and since January has been studying the book importing and exporting business with the Hachette Publishing Co., a French industry.

He made his Atlantic crossing on a small aircraft carrier and will remain with his family here until the fall when he expects the British Board of Trade will have arranged his trip to the Orient.

In the east he will represent such well-known publishing firms as Pittman's, Cassell's, Methuen's, Penguin's, Putnam's and Allen & Unwin.

PAY SHARE OF HEALTH SERVICES

Summerland's share of the provincial board of health services in this municipality for the last six months of 1946 amounts to \$334.05, half of which will be taken up by the municipal council and half by Pentticon School District No. 15.

Total cost to District 15, based on thirty cents per school population is \$1,500.30, of which Pentticon assumes \$958.20; Summerland \$334.05, and unorganized districts of Kaledon, Allen Grove and Naramata, \$214.05.

Mr. Pohlman explains that it is necessary to bleach and then add artificial coloring in order to obtain uniformity in the final color, thus providing an even grade.

The final process before packaging is the evaporation operation where the cherries are placed in chambers under a standard 180-degree temperature which never varies. They are provided with a syrup of thirty per cent sugar content.

The heat evaporates the water from the cherry and the syrup and the maraschino cherries are allowed to remain five days, with syrup being added until they reach a sugar content of 52 per cent.

Glazed cherries are treated seven days and by that time they have a 72 per cent sugar content.

At present this new plant is one large warehouse but Mr. Pohlman is planning for next year when he will have his machinery both old and new, properly arranged in the new building so that there will be a minimum of wasted time or effort in handling his perishable products.

More Hopeful For Outlet To Peace River

Despite setbacks caused by a severe winter and heavy spring thaws, very satisfactory progress is being made on construction of an outlet for the Peace River District, it was announced jointly by Premier John Hart and the Honourable E. C. Carson, minister of public works, following a recent inspection of this project, the largest single highway undertaking ever carried out by the public works department.

A summary of the \$6,500,000 highway project is as follows:

- 1. Twenty-five miles or re-grading and graveling between Progress and East Pine will be completed by the end of November.
2. The steel-concrete bridge across the East Pine, 600 feet in length, will be completed by late fall with the exception of a concrete deck. Pouring of concrete will be deferred till next spring to avoid the heavy frost.
3. A 42-mile section of old road between East Pine and Compton Creek is to be constructed at a later date at an estimated cost of \$650,000.
4. Forty miles of entirely new, right-of-way have been cleared and grubbed between Compton Creek and Pine River crossing, which is twenty miles from the summit of Pine Pass. Twelve miles of this section already has been graded and completion of grading and graveling is expected to be completed on this section by late November.
5. The highway so far has cut through three seams of coal.
6. Consideration will have to be given to improvement of the highway from Dawson Creek to Upper Creeks when the main highway project has been completed.
7. On the western side of the Pine Pass, a 32-mile section between Prince George and Summit Lake has been cleared and grubbed 75% and this entire section is expected to be completely graded and gravelled by the end of the year.
8. The section from Summit Lake to Azouetta Lake which is the summit of Pine Pass, has been cleared and grubbed for a distance of twenty-six miles, bringing the construction crew to a place called Red Rocky Creek.

When the job is completed, the construction crews will have moved 5,000,000 cubic yards of material including 450,000 yards of rock, six miles of culverts will have been laid, and more than 1,000 acres of wooded area cleared.

WOULD HOLD OFFICE

B.C. Teachers' Federation has requested Summerland council approval of a resolution which it wishes submitted to the U.B.C.M. convention next month to allow members of teaching staffs to be elected to municipal councils. Teachers cannot hold such positions now and municipal employees cannot hold positions on school boards, under the schools act. No decision was given by the council on Monday afternoon.

APPROVE APPLICATIONS

Electric light connection applications were approved by the Summerland council on Monday, August 12, from W. M. Jonkinson, for the hospital construction; Wm. Kemp and Mrs. M. Ritchie. Approved domestic water applications were from A. K. McLean and Emily Mann.

More Sugar Next Month

The Wartime Prices and Trade Board announces that there will be an increase in sugar allotments to consumers, industrial users and quota users for the balance of the year. World sugar supplies are still below requirements but stocks have improved sufficiently to allow an increase.

The increase to household consumers will amount to three pounds of sugar per person during the remainder of 1946. Two extra coupons will become valid in September, and the remaining coupons on or about December 5. This means that five sugar coupons in the new Ration Book No. 6, will be declared valid on September 19, two sugar coupons will become valid in October, three in November, and three in December.

It was felt that by announcing the increased sugar ration at this time the housewives might possibly increase their home canning knowing that they could replace the extra sugar used with the coupons becoming valid in September.

By means of a supplementary authorization in the third quarter, the increased amount to industrial users will be in the following proportions to their 1941 sugar usage: soft drink and confectionery manufacturers, 65%; biscuit and cereal manufacturers, 70%; bakers, 75%. In the fourth quarter the industrial users' sugar allotment in the three classes will be respectively, 70%, 75% and 80% per cent.

The sugar increase to quota users (hotels, restaurants, lumber camps, etc.), will be made in the fourth quarter and will be equivalent to the total increase allowed industrial users in that quarter.

INDUSTRIAL SCHOOL

The cost of constructing a new boys' industrial school near Nanaimo will be in the neighborhood of \$1,238,226 if the lowest tenders submitted to the public works department are accepted, the Honourable E. C. Carson, minister of public works, indicated, August 2.

Commission To Buy Power Plant

The British Columbia Power Commission has completed negotiations for the acquisition of the small hydro-electric plant and distribution system owned by the municipality of Peachland...

The commission's workmen are now completing an extension of the distribution system from Peachland to Great Ranch for the purpose of supplying power to the packing plant there.

The crew also is proceeding to Terrace to start construction of a distribution system in that municipality while at Vanderhoof the foundation for the new diesel plant is about 50% completed.

A diesel plant owned by the commission and situated at Duncan is now being dismantled and will be transferred to Sechart to augment the power plant there.

A small party has now started a survey on Stein Creek near Lytton, with a view to locating a source of power for that village.

HOPE-PRINCETON ROAD

Work on the Hope-Princeton road has been retarded by the shortage of men and lack of supplies due to strikes, it has been announced by Hon. E. C. Carson, minister of public works.

Contracts on this link between the coast and interior to date amount to \$2,892,000. The contracts call for the road to be completed by September of next year.

CBC SONGBIRD RETURNS

They say that when the birds fly south they always return, and that's certainly true in the case of attractive CBC songbird GWEN BRADSHAW. Just now, Gwen is home again in Winnipeg on holidays, having returned from her new home in Texas.

Ball Team Defeats Kelowna To Share Third Spot With Penticton

Table with columns for Team, W, L, Pct., Kelowna, AB, R, H, PO, A, E. Includes South Okanagan League Standings and Box Score.

Peachland is in second place and Penticton and Summerland are tied for third. Rutland and Peachland have one protested game to play which, if Rutland takes it, might cause a four-way tie for second place.

That is, if Summerland, Penticton and Peachland win next Sunday's games, and Rutland took the Peachland nine, the league standing would be well knotted and the executive worries would be commencing in earnest.

Summerland needs next Sunday's win to clinch third place and should be able to take Keremeos, although the latter team handed Rutland a 10-6 licking last Sunday.

Oliver remained in top spot with a 9-4 victory over Penticton, while Penticton defeated Osoyoos 7-1. Princeton defeated Cawston, 11-2.

Next Sunday, Oliver plays at Osoyoos, Kelowna goes to Cawston, Penticton is playing at Peachland, and Rutland travels to Princeton.

Peachland has suffered a bad loss when Harold Cousins injured his arm. The popular Peachland hurler will probably be out for the rest of the season.

After allowing Kelowna two runs in the first half of the initial inning on Sunday, the local lads settled down and brought across six tallies. Rocky Biagioni covered himself with glory when he lammed out a double with the bags loaded, and Summerland was never headed from then on.

In the fourth, Kelowna drew even, a double by Schwab sending three runs across.

But Summerland drew ahead in the last of the fourth, and Vanderburgh's unearned run in the fifth widened the gap. Single runs were brought in by Summerland in the seventh and eighth, but Kelowna failed to cross the home plate for the rest of the game.

Bill Evans went the route for the winners but it took five innings for him to warm up. Williamson was replaced by Schwab in the sixth and he held down the local batters for the rest of the game allowing but two runs.

Errors were plentiful, with Biagioni making half of Summerland's six miscues. He made up for it with the Hickory, however, as he batted 3 for 4, a third of the local hits.

Kelowna's outfield had to keep right on its toes, as the ball went out of the infield on frequent occasions.

Summary—Stolen bases, Amm, Biagioni (2), Rand, Evans (2), Reed (3), Madsen Schwab, White, Fortney, Williamson; earned runs, Summerland 3, Kelowna 3; two-base hits, Biagioni, Gould, Schwab, Brucker; 3-base hit, Amm; bases on balls, off Evans 4, off Williamson 1; struck out, by Evans 11, by Williamson 3, by Schwab 3; left on bases, Summerland 8, Kelowna 9; passed balls, Madsen 2; hit by pitcher, Amm by Williamson; umpires, Smith and V. Bolton.

Twelve-inning baseball game, played on Sunday, August 18, at Summerland.

Box score for the 12-inning game between Summerland and Kelowna.

Summary: Stolen bases, Hankins, Taylor 2, Amm 3, Thompson 3, Biagioni, Walsh 2, Clark, Vanderburgh, Frash, McDonald, J. Carmata, A. Beck; sacrifice hit, O. Beck; earned runs, Summerland 4, Cawston 3; two-base hits, Biagioni, Walsh, Clark, McKenzie; bases on balls, off Gould 1; struck out, by Gould 11, by Evans 2, by A. Beck 14; left on bases, Summerland 11, Cawston 14; double plays, Walsh to Amm to Vanderburgh, Evans to Clark to Vanderburgh; passed balls, Clark 1, Frash 1; first base on errors, Cawston 9, Summerland 4; hit by pitcher, Thompson, Clark by A. Beck, L. Carlton, J. Carmata, by Gould; umpires, B. Carlton, Cawston; H, Smith, Summerland.

Score by innings: Cawston 1 0 2 0 0 2 0 1 0 0 0-6 Summerland 1 0 0 0 0 3 2 0 0 1-7

Bowlers Raise Children's Fund Nearly Million Fish Fry For Local Lakes

Since 1940, the B.C. Lawn Bowling Association has raised a fund of \$20,000 for the Save the Children Fund, administered by the Lord Mayor of London. This group now hopes to make this sum \$25,000 by the end of the year.

All the lawn bowling clubs in the interior have contributed to this fund, and Summerland has more than held its own with other Okanagan clubs, having raised about \$100. Mr. John Tait has informed The Review.

Recent friendly interclub matches between Penticton and Summerland have added to this charity, as members competing have been assessed for the game played.

Penticton was entertained on Wednesday evening August 21, in this series.

Building Tops Million Mark

New building records were created last month when construction values during the first seven months of the year topped the one million dollar mark in the City of Kelowna.

Fish fry from the Summerland hatchery have been distributed to the number of 850,000 in lakes and rivers of the South Okanagan and Similkameen, Granville Morgan, local fish hatchery officer, has informed The Review.

These fry were mainly Kamloops trout, with some rainbow trout, as well. Egg shipments had been made to the Summerland hatchery from the Beaver lake, Lloyd's Creek and Pensa lake hatcheries.

Following is the distribution of fry from the Summerland hatchery:

- List of locations and quantities of fish fry distribution: Agar lake, West Summerland, 5,000; Allandale lake, Okanagan Falls, 5,000; Baker lake, Naramata, 5,000; Bear lake, Oliver, 10,000; Brenda and MacDonald lakes, Peachland, 3,000; Chain lake, Princeton, 5,000; DeRenzy lake, Penticton, 5,000; Garnett lake, West Summerland, 10,000; Glen lake, south fork, Peachland, 5,000; Link lake, Princeton, 5,000; MacLean lake, Okanagan Falls, 5,000; Munro lake, Naramata, 5,000; Okanagan lake, south end, Penticton, 400,000; Osoyoos lake, Osoyoos, 50,000; Osprey lake, Princeton, 10,000; Peachland dam and reservoir, Peachland, 20,000; Ratnip lake, Naramata, 5,000; Silver lake, Peachland, 10,000; Similkameen river, Keremos, 25,000; Similkameen river, Princeton, 30,000; Shaha lake, Penticton, 150,000; Spring lake, Peachland, 5,000; Trepanier lake, Peachland, 3,000; Wilson lake, Naramata, 5,000; Tulameen river, Princeton, 20,000; Princeton rearing ponds, Princeton, 5,000.

Mr. Bert Juniper, of Vancouver, has been holidaying at the home of Mrs. H. Simpson, Happy Valley.
