

Army Hut As New Home For Science Group

J. R. J. "Jock" Stirling, BCFGA president, is making representations to Ottawa in an effort to provide better facilities for the Dominion Entomological Laboratory in Summerland, local authorities have revealed here this week. It has been suggested in some quarters that one of the army huts at Vernon could be utilized here either as a temporary or semi-permanent building. Efforts are being made to impress on Ottawa authorities the necessity of taking immediate action.

Last week, the Summerland BCFGA local forwarded a strong resolution on this subject to Rt. Hon. J. G. Gardiner, minister of agriculture, Ottawa; Hon. Grote Stirling, M.P. for Yale; President Stirling and A. K. Loyd, B.C. Tree Fruits Ltd. president.

Contacted Wednesday morning, Mr. Stirling declared that no reply has been forthcoming from Ottawa yet but he is hopeful that some action will be taken to relieve the crowded and inadequate accommodation now being utilized by Dr. James Marshall, dominion entomologist, and his staff.

Practical Method
In their letter to the minister of agriculture, Summerland growers have pointed out that the moving of an army hut from Vernon to Summerland would be a practical and inexpensive method of handling the situation.

Last January, the BCFGA voted the sum of \$2,500 to be expended to further pest control and the Summerland suggestion is that this sum be devoted to the cost of providing this accommodation for the entomologists.

Summerland growers suggest that the department of agriculture at Ottawa—also appropriate \$5,000 for the purpose of re-erecting the army hut here and making it suitable for use as an entomological and chemical laboratory.

"We are advised by the officer in charge of the Okanagan fruit insects laboratory that this accommodation would be satisfactory for temporary use or even for permanent use if perhaps an equal amount is provided for certain added facilities at a later date," C. E. Bentley, chairman of the Summerland local, advised the agriculture minister.

Resolution
Following is the text of the Summerland resolution, passed last week and forwarded to Ottawa: WHEREAS, it has come to our attention that the Dominion Government is not intending to build the Entomological Laboratory at the Summerland Experimental Station this year;

AND WHEREAS, the present quarters of the entomologists and chemists are totally inadequate and unsuitable for the work;

AND WHEREAS, it is very important to this very large fruit industry, the income of which totalled twenty-five million dollars last year and which is increasing each year, that every effort be made to provide suitable facilities to experiment with all phases of pest control;

AND WHEREAS, the growers showed their support to this matter by voting the sum of Twenty-five hundred dollars (\$2,500) at the annual convention of the BCFGA, held in Kelowna in January last;

THEREFORE, BE IT RESOLVED, that this meeting of the Executive of the BCFGA, held on March 25, urges that the Dominion Government make every effort so that construction of the necessary laboratory be proceeded with this year and so that necessary and urgent experimental work may be facilitated.

Dr. J. Wilcox New President of AOTS Club

At the annual meeting of the Summerland AOTS Men's club, held on March 27, in St. Andrew's church hall, 47 members elected Dr. Jack Wilcox as their new president and heartily applauded the retiring president, Bob Butler. Other officers elected were Les Gould, vice-president; Blair Underwood, secretary, and Ken Boothe, treasurer.

Highlight of the year's work, as reported by the retiring secretary, Bert Stant, was the Hobby Fair, held by the club last June, when 560 people enjoyed the wide display of entries and exhibits in the I.O.O.F. hall.

The club has also done a great deal of work helping youngsters with various sports, and sponsored baseball, softball, basketball and hockey during the past year.

Sending a representative to Boys' Parliament, and leadership in the church grounds have also been activities of this club.

Plans for next year include, besides the regular program of sponsoring junior sports, a bigger and better Hobby Fair, and the improvement of the local Peach Orchard cemetery.

Mr. and Mrs. Ken Hoales and family will spend the Easter weekend as the guests of Mr. Hoales' brother-in-law and sister, Mr. and Mrs. Gibson Shaylor, Merritt.

Mrs. G. E. Tedder and daughters, Marilyn and Marjorie, will arrive from Kamloops tomorrow, Friday, to spend the Easter vacation at the home of Mrs. Tedder's parents, Mr. and Mrs. J. Darke.

Ski Club Lays Plans For Busy Year of Work

Although the weather is hardly conducive of activity, the Crystal Ski Runners' club, of Summerland, has definite plans for the coming months which will culminate in better skiing facilities for next winter.

On Monday evening, some of the main skiing enthusiasts in the club gathered for a discussion regarding future plans and decided to investigate the possibilities of a new hill, a new jump and added facilities at the cabin built last year.

Relocation of the tow, which proved so popular last season, is also being considered.

Work Parties
Work parties will be organized in the next few weeks and it is considered that if sufficient numbers can be interested and the work well organized, about five trips to the skiing site would accomplish a great deal towards providing better skiing next winter.

First of these work parties will be held in April 13 and 27, and Bob Barkwill has taken over the task of allocating the work and the workers. Stumps and rocks will be cleared as a continuation of last year's work. Cabin betterment is being placed under the care of Bill Snow, who will organize the work.

Consideration of the new hill is to be given with a view to improving skiing conditions for those who wish to participate in active competition. It was felt by many on Monday night that the present ski slopes do not provide sufficient practice for the skiers who would enter into competition with other clubs.

Work Towards Hill
Although the new hill may not be in readiness for next winter, the club has decided to work towards its adoption. The ski tow would also be moved to provide access to both hills at a higher elevation.

The executive was instructed to consider a membership fee which would also include tow fees for the season.

New crests are to be drawn up and a dance will be held before next season commences.

A committee has also been set up to consider the possibility of a jump being located. It was thought that a jump about 140 feet long would be sufficient for a start and it was suggested that Tom Mobraaten may be in the Okanagan this year to give advice on the location and erection of the jumps. If so, the local ski club will arrange for him to visit Summerland.

Dorothy Thompson Guest of Honor

At a shower in honor of Miss Dorothy Thompson, which was held on Tuesday evening, April 1, the Easter colors of pale green and mauve used in the decorative scheme were a compliment to the bride of the Easter season, whose marriage to Mr. Russell Kerr takes place this afternoon, Thursday, in Salmon Arm.

Co-hostesses at the miscellaneous shower were Mrs. Norman Thompson, at whose home the shower was held, and Miss Muriel Barr, the bride's only attendant.

Appropriate games were played during the evening, and a delightful luncheon was served by the hostesses.

Those attending the shower were the Mesdames A. Munn, T. W. Nelson, B. Mowat, W. F. Strachan, J. Strachan, M. K. Thomson, P. Thompson, F. Dunsdon, F. A. Blonsdale, A. Holmes, D. Spalding, Bob Soriver and A. Hurry.

Gifts were also received from Miss Mildred Clark, Mrs. W. La Plante and Mrs. C. Smith.

Mr. and Mrs. A. J. Mann returned on Tuesday morning from Vancouver, where they spent a week's holiday.

Mr. J. Gowans returned on Tuesday from a visit to the coast.

United Church Lovely Setting For Nuptials

A charming wedding was solemnized on Saturday evening, March 29, in the Lakeside United church, at 7 o'clock, when Rev. H. R. Whitmore officiated at the marriage of Helen, elder daughter of Mr. and Mrs. Roy Biernes, to Mr. Thomas A. Cooper, of Penticton.

For the beautiful candlelight ceremony the church was decorated with a springtime air, provided by daffodils, pussywillows and fern. Music was provided by Mr. Percy Thornber, who also gave an organ solo during the signing of the register.

The bride, who was given in marriage by her father, was gowned in a Victorian model of ivory satin, floor-length, with long sleeves and a triple sheer yoke, which was outlined with a satin ruffle edged with lace. A silver locket complemented the rounded neckline of the striking gown. A long veil of silk net swept from a headdress of orange blossoms, and the bride's bouquet was of Tallsmen roses and fern.

As the bride's only attendant, Miss Peggy Daniels, of Trail, wore a floor-length model of blue satin, with puffed sleeves, sweetheart neckline and a shirred bodice. Her chapel veil was of white silk net, and she wore a corsage of pink and white carnations.

Groomsman was Mr. John Anderson, of Trail, while ushers were Mr. Ted Wilson, of Summerland, and Mr. David Allan, of Penticton.

Following the wedding, a reception was held in the Legion hall, West Summerland, which was attended by 80 friends and relatives of the young couple, who were assisted in receiving their guests by the parents of the bride. Mrs. Biernes was gowned for the occasion in a frock of patio lilac, with black hat and accessories. Her corsage was of pink and white carnations.

The bride's table was centred with a three-tiered cake, which was topped with a tiny aeroplane, a compliment to the groom's occupation as an instructor for B.C. Interior Aviation, Penticton. Flanking the cake were tall white tapers, and the table was covered with a lovely lace cloth. White streamers held in place by white and pink rosebuds, cascaded to the table, and the hall was decorated elsewhere with daffodils, fern and pussy willow.

The toast to the bride was proposed by Mr. Wm. White, with the groom responding. Mr. J. Sowerbutt proposed the toast to the bridesmaid, and Mr. Anderson responded.

Following a honeymoon to Trail, the young couple will make their home for the present in Penticton.

Kamloops Is Tops In Cage Title Copping

Kamloops has proved the outstanding basketball club of the interior this year with the cage sport rapidly coming to a conclusion. Last week-end, Kamloops Kilowatts, who defeated Princeton in a torrid series, and later Rossland, Kootenay champs, met Port Alberni and triumphed for the provincial senior B crown.

Now, the Kilowatts are planning to challenge Meralomas, senior A winners, for the right to move into interprovincial championships.

Two more interior crowns also fell to the Kamloops club when they copped the intermediate A boys' title from Vernon, and the intermediate B top honors from Penticton. The A lads also defeated Trail in the Interior-Kootenay playoff and are making plans to try for provincial honors.

Kelowna Legion club and Penticton juniors played one of the most exciting games when Kelowna took the interior crown by one point on the two-game, total-point series, a free shot with five seconds to go in an overtime period deciding the torrid display. Kelowna juniors are leaving today for the coast in quest of the B.C. title.

Penticton's lone title was in the senior C competition which was taken in games against Oliver and Williams Lake. On Monday and Tuesday, April 7 and 8, the Penticton C's play Chemainus, coast champions for the provincial senior C title, games to be played at the Scout hall in Penticton.

Trail holds the intermediate girls' crown, while the intermediate A girls' championship was undecided when both Vernon and Kamloops, lone entries, defaulted.

Organize Dragoons In South Okanagan

Col. Harry Angle, D.S.O., O.C. of the 9th Armored Regiment, addressed a successful organization meeting of the British Columbia Dragoons' Assn. in the Penticton Armouries on Wednesday, March 26. Among other speakers to outline the objects of the organization was Capt. A. M. Temple, of Summerland.

Members were elected to represent various sections of the South Okanagan on the main executive of the new association.

A representative of the Whiz Bangs was also present to discuss affiliation of that group with the association.

In Summerland, all ex-members of regiments which eventually developed into the B.C. Dragoons are being asked to contact Capt. Temple or Secretary W. W. Borton with a view to making the new association truly representative of all groups.

Women's Federation Hold Fine Concert

The Women's Service club of St. Andrew's United church held a very successful social evening and short concert on Monday evening, March 31, in St. Andrew's United church and in the church hall.

The guests were members, their husbands and friends, and about 100 people comprised the large audience. Rev. H. R. Whitmore was master of ceremonies and was both popular and versatile in this role.

The first item of the short concert was a piano and violin duet by Shirley and Joyce Schumann, who are proving popular in the community for their fine performances at numerous social affairs.

Following this, a clever and amusing skit was given by Mrs. Lona Washington, Mrs. Liz Pilkington, Mrs. Phyllis Rumball, Mrs. Kay Dunsdon, Mrs. Hilda Ward and Mrs. Nina McLachlan.

A piano accordion and guitar due by Mr. A. W. Arnold and Miss Dorothy Arnold was given with talent and well received. Two vocal solos by Mrs. Nellie Stent were up to her usual excellent standard. The evening was concluded by games and community singing. A spelling-bee, with women winning over the men by a wide margin, charades and other games were enthusiastically participated in by the audience.

Mrs. Alma Fudge and Mrs. Ken Boothe were in charge of the music, while Mrs. Ruth Wilson and Mrs. E. Smith managed the refreshments.

Trout Creek Home Scene of Shower

Mrs. T. A. Cooper, the former Helen Biernes, whose marriage took place on Saturday evening, March 29, was guest-of-honor on Wednesday afternoon, March 26, when a miscellaneous shower was held at the home of Mrs. J. Dowds, Trout Creek. Hostesses were the Mesdames J. Dowds, J. Sowerbutt and E. Borgstrom.

The gifts were presented to Mrs. Cooper from a bassinet attractively decorated with pink and white roses. The chair for the bride-elect was also decorated with pink and white roses.

Refreshments were served by the hostesses at the close of an enjoyable afternoon.

Those present were the Mesdames Jessie Stewart, Helen Bonthoux, Gertie Bonthoux, Yvonne Pelletier, Edna White, E. Dowds, Rosalie Loewes, Rita Borgstrom, B. Sowerbutt and Frances Halfpenny, and the Misses Alice Smith, Jennie Sharpe, Peggy June and Terry Daniels, and Joyce Dowds.

Red Cross Campaign Highly Successful Here—Nears \$3,000

Although most districts in the province found that they are below the quotas allotted, Summerland has come through with a handsome donation to the nation-wide drive for funds for the Canadian Red Cross Society. With some areas still to be finished, the Summerland contribution has reached the high figure of \$2,700, only \$300 short of the \$3,000 objective, Jack Dunsdon, campaign treasurer, reported to The Review yesterday.

This is the highest objective ever given Summerland district in this charitable drive and it was not expected by local Red Cross officials, at the outset, that the quota would be reached. With little fanfare, the district was divided into areas, canvassers allotted, and they went to work.

Will Reach Quota

"We can expect to reach our quota now," declared Mrs. A. K. Elliott, Summerland chairman of the Red Cross Society. "It has been very gratifying to the members of the local executive and the canvassers to see such excellent results achieved. In fact, the results are considerably higher than we dared hope," she declared.

Mrs. Elliott also pointed out that Summerland residents contributed even more generously than in war years, due in main to the increased population which can be drawn from.

Within a few days of the close of the campaign, Vernon had raised only \$4,300 of the \$12,000 quota, while Kelowna district from Westbank to Oyama, had collected \$13,000. Penticton has not reached its quota, while other arts of the province have also been slow in making collections.

Funeral Service Easter Monday For Mrs. A. McKechnie

Funeral service for Mrs. Annie McKechnie, aged 66, who passed away in the Shelby hospital, Montana, on Tuesday April 1, will be held from the Lakeside United church on Easter Monday, April 7, at 2 p.m., with Rev. H. R. Whitmore officiating.

The late Mrs. McKechnie came to Summerland about three years ago from Vancouver, to reside with her son, Max McKechnie. She had recently gone to the United States to visit her daughter, Mrs. Ruth Kimball, who resides at Sunburst, Mont., when she was taken ill and passed away in hospital. She also leaves another daughter, Mrs. Bessie Christmas, at Ocean Falls, B.C., and four grandchildren, and one great-grandchild.

Interment will be in the Peach Orchard cemetery with the following pallbearers: ???

Mr. and Mrs. Tom Lott returned on Friday from a visit of three weeks in Vancouver.

Miss Margaret Smith arrived in Summerland on Tuesday to take up her residence here. She has been residing in Vancouver.

Baseball To Commence Here On Sunday, May 4

"Play Ball." That welcome note will be sounded in the South Okanagan for the first time on May 4, it was decided at the annual meeting of the South Okanagan Baseball league, held in the Nu-Way annex on Sunday afternoon last, with delegates representing ten clubs in attendance.

This season, the league is being divided into two parts, one division being in the Similkameen and the other in the South Okanagan from Rutlanw to Osoyoos.

Summerland is entering play in the South Okanagan division and will compete against Rutland, Kelowna Cubs, Peachland and Osoyoos.

In the other bracket, Copper Mountain, Princeton, Hedley, Keremeos and Cawston will be competing.

Home and Home Playing season will run from May 4 to July 20, with each team playing one home and one away game. Each team will also get a bye two Sundays.

When the regular season is concluded, the first and second-place teams in each division will play a sudden-death contest for the right to meet the bracket leaders in a two-out-of-three-game series. Then the winners of the two divisions will meet to decide the league championship.

Name of the loop has been changed to the South Okanagan-Similkameen Baseball League.

Each team will be allowed to register 24 players and the deadline for final registration has been set for July 1.

Elliott Is Prexy
A. K. Elliott, of Summerland, is the new president of this league, replacing A. W. Gray, Rutland, who has been prexy for many years. Les Gould, also of Summerland, is secretary-treasurer, and F. Barnes, of Keremeos, was named vice-executive.

Set Aside Day For Drive On Predatory Birds

Summerland's fish and game club will organize all sportsmen in the district to destroy crows and magpies, a general meeting of the club decided on Saturday night when some 32 members attended a session in the I.O.O.F. hall.

Prizes will be awarded the sportsmen who can show the greatest number of birds and eggs destroyed. It is expected that a day's shoot, probably on a Sunday, will be organized.

Further discussion ensued regarding the move to have unlicensed dogs in the municipality destroyed, as the sportsmen claim they are causing a depletion in the pheasant supply. The meeting approved of the club executive plan to obtain lists of owners of all unlicensed dogs and turn those names in to the municipality for action.

One resolution which will receive support from the Summerland sportsmen at the annual convention of the Interior fish and game bodies is that calling for government action to see that Americans do not hunt without guides. It was felt by the Summerland meeting that the regulations are too lax in this respect and visiting Americans are destroying too much game needlessly.

Attention of municipal authorities and the sanitary inspector to the presence of lime sulphur in local creeks will be drawn in the near future by the Summerland sportsmen. The executive was instructed to notify the authorities regarding this pollution of creek waters.

Among other details discussed on Saturday evening was the installation of a fish ladder with the spillway at Deer lake. The executive is working with Water Foreman E. Kercher on this project.

KEATING PRESIDENT

PEACHLAND—A meeting of the Peachland Fish, Game and Forest Protective Assn. was held on Thursday, March 27, in the Legion hall. Herbert Keating was elected president; Jack Long, vice-president; Ken Fuks, secretary; Sid Small, treasurer; George Long, O. Williamson, T. Redstone, Br. executive.

EDITORIAL

Spring Fair

Summerland Board of Trade's move to revive the spring fair, which was such a success seven years ago, should be welcomed by numerous interests in this community.

In the first place, merchants, business men and manufacturers in this vicinity will be given an opportunity to show residents of the South Okanagan many of the items they can supply even in this time of shortages.

Secondly, this fair will mean added publicity to the Summerland area. A recent speaker at a board of trade meeting declared emphatically that this community needs all the advertising it can get as, for too long, it has been reticent in proclaiming its numerous advantages.

This spring fair will provide the financial means for the board of trade to carry on its community development work and will mean that hundreds of residents from the South Okanagan area will be given an opportunity to mingle and, in many cases, renew old acquaintances.

From any point of view it is a worthwhile community endeavor and one which deserves the co-operation of all. From past experiences, we know that this co-operation will be forthcoming with a will.

* * *

Box Shook Outlook

Last year's woodworkers' strike in B.C. created a terrific problem in handling the huge interior tree fruit crop and it was only by exerting a great deal of pressure that sufficient packages were obtained to move the record output to market.

The interior fruit industry has made its moves early this year. Box factory managements have co-operated well and from Kelowna Mr. L. R. Steppens, secretary of the growers' box shook committee, has given an optimistic statement that supplies available now are, in some cases, equal to those on hand in the early summer of 1946.

Another steadying influence in the situation is the change-over in some factories of union leadership. In the case of Summerland, the big mill at Kelowna and the new mill at Rutland, employees have gone over to the AFL and have stated definitely there will be no strike in this industry this year.

Although these new unions will be endeavoring to improve the wages and working conditions of their members, they have given out indications that there will be no paralyzing of the industry and no threat to the ultimate handling of the big fruit industry. This has been heartening news to the industry management.

We can look forward this year to a season less beset with difficulties, due to the co-operation which has been shown between the fruit leaders and the mills and their employees. This harmony is welcome after last year's tumultuous episodes.

* * *

Daylight Saving

Although not all persons will agree, the majority of persons welcomed the news that daylight saving will be instituted on a province-wide basis on April 27. The provincial government has made a good move to prevent the confusion which resulted last year in some sections adopting fast time and others continuing on the former standard.

Although railways and airlines will not change their schedules to suit B.C.'s move, it is believed that bus lines will make a change when it does not affect inter-provincial traffic.

There will be some confusion at the start, as always, but the benefits to be derived from the early day far outvote the slight inconvenience at the start.

The Inside Story

By AGROLOGIST

This time Dick Palmer, was in the ornamental area digging busily near a creeping juniper. So I said, "Why all this industriousness?" Whereupon the following conversation ensued:

Dick: If you will look closely you will observe that I am layering shoots of this juniper. This is one of the surest and easiest methods of propagating creeping junipers.

Agrologist: Why bother to propagate junipers? What good are they?

Dick: Junipers have many uses. For instance, the berries of

some of the species are used to flavor gin. The wood of other species is used in making pencils.

Agrologist: For which of these purposes do you use these junipers that you are growing here on the Station?

Dick: We are growing these junipers for quite a different reason. We are endeavoring to find out which species, varieties and forms are best adapted for home beautification here in the Okanagan.

Agrologist: How many forms have you tested?

Dick: Well over 50.

Agrologist: And which of these have you found most suitable for our conditions?

Dick: In large rockeries and on dry banks where a vigorous but low growing juniper is required, this Andorra variety is highly satisfactory. You will note that it grows less than a foot high but spreads out, making a dense mat several yards in diameter. The foliage is a soft green in summer and an attractive plum color in winter.

Agrologist: What other varieties do you recommend?

Dick: Where a slightly taller form is needed, as for instance, in foundation planting, this Tamarix form of the Savin juniper is very suitable. Where a more robust grower, attaining a height of about 4 feet, is required, the Pfizer variety is ideal.

Agrologist: What about our native juniper?

Dick: Seedlings of the native juniper vary greatly in form and color. Over there you will note a creeping form which is bluish in color. Beyond it you can see a tall growing form with dense foliage of a somewhat pendulous habit. If you are prepared to search the hills for desirable forms and dig up small specimens with plenty of earth, very beautiful native junipers can be moved to the garden with excellent results.

The end of meat rationing in Canada marks a milestone on the long road leading to the return of peacetime plenty. Although meat was less strictly rationed than butter and sugar, families without children were forced to watch their supply and to skimp on steaks and roasts.

Children have proved to be the proverbial blessing where rationing is concerned. Small babies are allowed full rations. Of all goods and even the ration officials must realize that a new-born baby eats no meat, no butter, no sugar. A bit of syrup is added to their formula, but syrup has been removed from the ration list also.

Although meat rationing is over, butchers must still keep records of sales, and this is a headache to them. Apparently there is not much of a rise expected in the sale of meats, and little excitement was caused by the announcement last week that the meat ration was lifted.

I think that women are more pleased with the fact that syrup has been removed from the ration lists. Syrup is a good substitute for sugar in all baking, from cakes to puddings. And waffles and hot oakes, old favorites for Sunday morning breakfast, can now resume the place of honor on the table.

It is thought that the release of syrup will also mean that a more plentiful supply of sweets and confectionery will be on sale over local counters before too long. Cakes which of recent years have remained unloved, or at the most, skimpily decorated, will now be regaining the glamor of pre-war years. A favorite recipe for frosting calls for syrup to replace sugar, and is truly super, especially when topping a chocolate cake, wherein half the sugar is replaced by syrup. Here are the recipes:

FROSTING

1/4-teaspoon salt

2 egg whites

1 cup corn syrup

1/2-teaspoon almond flavor, or more to taste

Add salt to egg whites and beat until stiff. Gradually add corn syrup, which has been cooled to the thread stage, beating continually. Add flavoring and continue beating until frosting will stand in peaks. This will ice one extra large cake.

CHOCOLATE CAKE

1 1/2 cups sifted flour

1 1/2 cups baking powder

1/2-teaspoon salt

1/2-cup shortening

1/2-cup sugar

1 egg, well beaten

2 squares unweetened chocolate, melted

1/2-cup milk

1 teaspoon vanilla

Sift flour once, measure, add baking powder and salt and sift together three times. Cream shortening, add sugar gradually, and cream together until light and fluffy. Add 1/2-cup of the sifted dry ingredients, then add egg and beat well. Add chocolate and blend. Add flour alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla and bake in a greased pan, 8 by 8 x 2 inches, in an oven of 320 deg. F., for one hour or until done.

So with only one-half cup of sugar, a chocolate cake with deep, fluffy frosting, can draw compliments from the men of your family, and precious sugar is saved.

1 cup corn syrup

1/2-teaspoon almond flavor, or more to taste

Add salt to egg whites and beat until stiff. Gradually add corn syrup, which has been cooled to the thread stage, beating continually. Add flavoring and continue beating until frosting will stand in peaks. This will ice one extra large cake.

CHOCOLATE CAKE

1 1/2 cups sifted flour

NOT GIVEN RECOGNITION

Recognition was not given in the last issue of The Review to Mr. A. W. Arnold and Miss Dorothy Arnold, for their excellent performance of an accordion and guitar duet at the recent St. Patrick's concert, sponsored by the Lakeside United church choir.

The Mail Box

COMPULSORY PASTEURIZATION

Summerland, B.C.,
March 25, 1947.

Editor, The Review:

From time to time we have our feelings harrowed and our nervous systems agitated by stories of suffering and danger of further suffering because the people of B.C. have so far refused to be stamped into demanding legislation for the compulsory pasteurization of milk.

Many people do not believe that the process insures the security that its advocates claim. Unless milk is treated carefully and kept from infection after pasteurization, it is quite likely to be re-infected.

We will suppose that the milk leaves a perfectly clean dairy farm, is processed in a perfectly sterile apparatus and put into sterilized bottles; well and good. But these bottles are not hermetically sealed, they are only protected by a cardboard cover and their history is blank during the period of distribution to the consumer; they may, after several hours, be delivered to cleanly people who will see that the bottles are placed at once in the cooler or somewhere clean and cool, or they may be delivered to a house where cleanliness is looked upon as a pious abstraction, left for hours in the sun, handled by dirty and infected hands, poured into containers smeary from the last greasy dish-washing, and the consumer feels safe because the milk has been pasteurized. This is a dangerous confidence.

I consider that milk for domestic consumption can only be rendered perfectly safe by sterilization or pasteurization in the home and by careful treatment afterwards; jugs or containers should be filled to the brim with boiling water before being used for milk and never wiped with a cloth, even a clean one. It is such an easy thing to care for milk. I always pasteurized my children's milk and boiled all their drinking water if there was an epidemic of any kind in our neighborhood; otherwise we used the raw milk while it was still sweet and fresh.

We all sympathize with parents whose children suffer from crippling diseases and those who have delicate babies should take every care, but why wait for legislation when these precautions can so easily be attended to at home with more efficiency? And why inflict on perfectly healthy people such an unpleasant beverage as pasteurized milk? It is absurd to say it does not impair the taste of milk—just try it in your tea.

It is education we need, not legislation; mother-to-be can get all the information she needs for the care of her children; there is no excuse for ignorance; it is to her to put it into practice.

There is something rather puzzling about these cases of alleged bovine infection. How is it these cases are so isolated? One would expect to hear of several cases at once if contaminated milk was the cause; surely one child would not get all the germs; it certainly looks as though there were other things to be considered; perhaps a predisposition to disease.

Scarlet fever, typhoid fever are not conveyed by milk alone, they are really dirt diseases although, of course, cleanly people may be infected. Epidemics of these diseases have occurred in poverty-stricken districts where fresh milk was rarely seen. I do not wish to imply that pasteurization is useless, at times it is necessary, but compulsory measures carry their own dangers and can never be so effective as good care and cleanliness in the home.

LILIAN VOSPER PLUNKETT.

Pioneer Days

Thirty Years Ago

March 30, 1917

"We are in the position of trying to stretch a revenue of \$6,500,000 for this year to cover desirable expenditure of \$10,800,000, explained Premier Brewster, in Victoria, in telling the Hope-Princeton highway delegation that, at the present time, the government could not guarantee it would construct the uncompleted section of the trans-provincial highway, although he promised the work would be undertaken as soon as possible. L. W. Shatford, M.L.A., introduced the delegation. According to estimates it would cost \$250,000 to build the seventy-one uncompleted miles.

Ayrshires continue to be the popular breed here according to the Garnett Valley Livestock Association.

The third Canadian war loan was oversubscribed to the extent of \$100 millions, having a total of \$250,000,000.

An important new principle which, in effect, provides for the possible confiscation without compensation of irrigation systems for the benefit of the land-owner, has been introduced in the new water act amendment submitted by Hon. T. D. Pattullo, minister of lands.

W. J. McDowell, besides his task as secretary-treasurer, has been appointed general manager of the Okanagan United Growers. D. McNair, Armstrong, was offered the post of sales manager, accepted it and then withdrew. The position remains unfilled.

Determined not to permit Orientals to gain a footing in the fruit industry during the absence of the men now in the army, the women of Vancouver and vicinity, three thousand strong, have declared their determination to help gather the fruit crop.

F. A. Williams is leaving shortly for Kerobert, Sask., to take a position in a printing office.

Mrs. Kate Bentley, who went to England last fall, is having difficulty obtaining a return passage.

With several Summerland boys included, the 143rd Battalion, the Bantams, have established a record in transportation activity, taking only 18 days from Victoria to their camp in Sussex, England.

Ill health has compelled Mr. A. McLachlan to give up his position with the Summerland Supply Co.

So much interest is being aroused over automobiles here that it will not be long before the place boasts fifty automobiles—"surely a good record for a place this size."

W. B. Knox is succeeding F. B. Owens at the K.V.R. station here. The latter has been transferred to Smelter Junction, near Trail.

Need for a new ferry slip was introduced at a general meeting by Capt. P. S. Roe, during discussion of needed repairs to the government wharf.

* * *

Twenty Years Ago

April 1, 1927

Hon. Sir Charles Hibber Tupper, K.C., K.C.M.G., died on Wednesday at his Vancouver home.

Officers of the baseball club for the year are: President, Dr. F. W. Andrew; treasurer, C. E. McCutcheon; secretary, E. R. Butler; manager, George Inglis; assistant manager, C. Brittain; captain, William Snow; equipment custodian, T. Carvick.

Twelve shipping firms, representing the Sales Service, Western Canada Fruit and Products Exchange, and other independents, have not decided on their representative on the board of control under the new marketing act. O. W. Hembling is the choice of the Associated Growers. Sales Service has appointed R. B. Staples, Creston, as its general manager.

Twenty-eight years ago, the last elk in the Okanagan was shot at Vernon. Tomorrow, 25 elk will be set at liberty at Adra, on the K.V.R., twenty miles from Penticton.

It is considered that the silver vein in the Tom Kelley mine has been found again, and samples of the rock have been shown by V. Bernard and Jack Logie.

Mr. R. A. Johnston, of Coalmont, the new station agent at the K.V.R., took charge on Wednesday. His family will move here shortly and will occupy G. J. C. White's house near the Baptist church.

USE ABANDONED PIPE

Milne's Cannery has sought council permission to use an abandoned pipe line to transport surplus water from their plant to Chas. Stewart's property, where a proper pump will be constructed. On the recommendation of Councilor H. L. Wilson, the council agreed to the proposal providing it passes the approval of Water Foreman E. Korcher.

* * *

FLUME FIRE

A small fire to the rear of Mr. George Perry's home caused the fire brigade to be called out at 10 o'clock on Thursday morning. A flume was slightly damaged.

Mr. Fred Keane returned on Friday from a two months' trip to England and Ireland. Mr. Keane is a member of the staff of the Dominion Experimental Station.

 102 Radio Bldg. Kelowna, B.C.

ELECTRICAL COST NOW ESTIMATED

Detailed estimates of the cost of providing electrical service to the Laidlaw sub-division and W. McCutcheon's property at Trout Creek Point, were submitted to the council on Monday and totalled \$384.05 for six users.

An allowance will be made by the municipality of \$660, leaving \$224 to be divided between the six users.

An improvement to the Trout Creek line by the installation of a three kilowatt transformer was also advocated by Foreman T. P. Thornber, at a cost of \$240. This would allow Mr. Laidlaw, Sr., to obtain a service besides improving light conditions for six other users.

It was decided that these six users would pay \$10 apiece, Mr. Laidlaw, \$40, and the municipality would assume an extra \$30, besides the usual \$110 allowance.

INCREASE ALLOWANCE
 An increase in car allowance 's to be made to Electrical Foreman T. P. Thornber, council decided last week.

Land Development In Okanagan Is Bureau Subject

Additional wind gauges should be established in various sections of the Okanagan, it was determined at a meeting of the advisory committee of Region No. 3, of the bureau of reconstruction, which met in Kelowna on Friday, March 21. This region embraces the Okanagan, Similkameen and Grand Forks, and the bureau field representative, with headquarters in Kelowna, is G. Y. L. Crossley.

Charles Nichol's, of Princeton, reported to the meeting on arrangements for the establishment of a box mill at Princeton, the lack of adequate power being one of the main drawbacks to the establishment of this industry.

It was decided that the reconstruction bureau should be notified of the importance of the B.C. Power Commission entering the Princeton area, while Rutland delegates also urged that the power commission consider providing additional facilities for its area outside Kelowna.

Consider Parks

A committee to consider parks and playgrounds in this region was ordered set up after a submission had been received from the Kelowna Board of Trade concerning Buckland park, which is an area from the west side ferry wharf north to the mouth of Bear creek and west to the region of Bear lake.

Irrigation needs of the Grandview Flats area, near Armstrong, were stressed by John Laursen, of Armstrong, who reported that a submission had already gone forward to the minister of lands. Assistance of the advisory committee on this project was promised by the meeting.

Need of expanding primary industry to provide support for the greatly-increased population in this region was stressed and it was pointed out that, to date, this new population has, to a large extent, depended upon income from abnormal construction activity and accumulated reserves.

The importance of new land being brought under irrigation was stressed and the delay in establishing various projects of the D.V.A. was commented upon. The importance of veterans, who contemplate farming, making early application through the Veterans' Land Act administration, was emphasized. The advisory committee went on record as urging the initiation of V.L.A. Irrigation projects within this region this year.

The reconstruction bureau is planning a survey of this region to provide an analysis of the present situation in regard to population, the advantageous use of available water, the cropping of the forests integrated with agricultural requirements, the development of an adequate light and power service, a whole milk supply for the region and the reservation of suitable areas for public playgrounds.

CATTLE GUARDS UNDER DISCUSSION

C.P.R. Superintendent J. L. Palethorpe, Penticton, informed the Summerland council last week that the new cattle guard in the vicinity of Prairie Valley, has created a pocket where cattle may be injured or killed by trains. He suggested that another gate be erected on the south side of the tracks to give the cattle further access.

E. Kercher, water foreman, stated that this cattle guard was erected to government specifications and on the location allocated by the government. He will arrange to meet C.P.R. officials here to discuss the problem further.

George Haddrell and Phil Munro visited the council session, Mon., Mar. 24, concerning suggestions made previously that the Meadow Valley cattle guard is not properly constructed. They assured the council that such was not the case and the guard is working properly.

They did point out, however, that some loggers had cut the fence and skidded logs through, thus weakening the fence. These loggers were operating on municipal property and the council had no knowledge of their activities. The situation will be investigated.

petition now stand at: Hawks, 257; Eagles, 163; Beavers, 149, and Buffaloes, 116. No meeting on Good Friday; next meeting, Friday, April 11, in the school gym. Dress, full uniform with soft-soled shoes. Duty patrol, Hawks.

PAYS IN ADVANCE

West Summerland Skeet club has taken up a council offer of a ten-year lease on property above Prairie Valley, at a price of \$100, payable in advance. A previous council offer of \$150 over the ten years had been made. Councillor H. L. Wilson strongly advocated the new club and making the land available at the lower figure.

Soil

THE Pay Dirt of BRITISH COLUMBIA FARMS

The reserve strength of a farm is its soil. These reserves can be depleted by the false economy of under-fertilization, or they can be maintained by an intelligent fertilizing program designed to restore the natural elements lost by successive crops.

British Columbia farms are relatively young. Only by regarding our soil as our most precious asset, and protecting it through proper fertilization, can we avoid the fate of many older farming areas, where agriculture has ceased to be profitable due to soil depletion and erosion.

The war experience proved that every dollar invested in fertilizers returned itself many times over in volume and quality production.

What is the fertility of your soil? If in doubt, write Buckerfield's Limited, nearest branch, for soil test forms. This service is modern, unprejudiced and free.

Sweet in BUCKERFIELD'S FERTILIZERS

Friday's meeting showed a good attendance and was featured by the investiture of five new Scouts, Glen Younghusband, Gordon Younghusband, Richard Lewis, Ron Huff and Gerald Washington. The troop is very pleased to welcome these boys and will be interested to learn that two of them are already well on their way to their second class badge. Mel Monro, P/L of the Hawks, has now got into the race with Hugh McLarty for badges. Last week he was presented with five: poultryman's, horseman's, dairyman's, stockman's, cattleman's. Troop Leader McLarty received his 23rd badge, aero engineer. Graham Munn received his laundryman's badge. The second class was presented to Norman Richards.

On Easter Monday, April 7, there will be a troop hike up Cartwright mountain, leaving from the Legion hall at 8.15 a.m. sharp. Those boys expecting to pass the second class cooking test must bring one quarter-pound of meat and two potatoes. Those boys wishing to qualify for first class cooking should consult their manual as to what to bring. Every Scout should bring along sufficient food for lunch and afternoon snack. If you have billy cans, these will be useful for cooking. There will be an opportunity to pass a number of tests on the hike.

At the court of honor meeting it was decided to hold the Father and Son banquet on April 25th instead of April 18th. Mrs. Rempel has very kindly consented to organize the catering for the banquet and mothers of the Scouts should get in touch with Mrs. Rempel, phone 1578 for details.

 Come, Bring Your Friends.

Mr. and Mrs. H. P. Barr have returned from a visit to friends and relatives in Vancouver and Victoria.

MRS. A. COLDHAM GUEST OF HONOR AT PEACHLAND

PEACHLAND—A very nice bridal shower, sponsored by Mrs. MacKay and Mrs. Martin was held in the Legion hall on Monday, March 24. There were about fifty present. The bride, Mrs. Anthony Coldham, received many lovely and useful gifts.

The bride's cake, made by Mrs. Albert Smalls, and decorated by Mrs. Jean Williamson and Mrs. Dorothy Sanderson, was as beautiful as it was delicious.

A dainty tea was served. The Legion loaned the hall to the ladies.

Mrs. Coldham, in a few well chosen words, thanked them for a splendid evening.

The bridge party sponsored by the Women's Institute, was held on Friday, March 28. Although several events occurred on that date, a picnic was raised for the hospital at Summerland.

Mr. B. Sandersop, as prize winner, received a box of stationery; Mr. Sandy MacKay, as consolation, a can of talcum powder. For the ladies' first prize, a beautiful corsage went to Mrs. M. Twynname, and consolation a bracelet with bells, to Mrs. F. Witt. Everyone had a jingling good time.

The Women's Auxiliary to the Anglican church held its regular monthly meeting at the home of Mrs. Alf Ruffles. Mrs. Buck, capably carried on the business of the meeting. There were nine members present and four visitors. Rev. Harrison, of Summerland, was a guest. A very nice tea was served by the hostess.

Mr. and Mrs. Banner Vetter left on Thursday, March 27, for their home in Veteran, Alta. The Vettets have been visiting for the past week at the home of H. Ibbotson. Mrs. Vetter's mother, Mrs. Lyons, accompanied them to Veteran, where she intends to spend the summer.

Mrs. M. Dalguse and two children arrived from Hawaii, Thursday, March 27, to spend the summer with Mrs. Young.

Mrs. Hugh Wallace arrived on Saturday evening from Vancouver. Mrs. Wallace is visiting with her sister, Mrs. Nell Witt, before returning to her home at Endiang, Alta.

FEED THE PHEASANTS
 Prairie Valley, West Summerland, B.C., March 29, 1947.

Here is an open letter to the Fish and Game Assn., Summerland:

If you think so much of the game in Summerland that you want to destroy stray dogs, and I admit they are a disturbing element, I sure wonder you didn't throw the poor, starving birds a bit of feed during those days of the heavy snow, when the trees as well as ground, were covered.

I counted 41 pheasants one noon at the side of the house, eating crumbs and rolled oats I had put out for the little birds. These were so hungry that many didn't move, and they came back each noon for days. Many more fed on the stacks for weeks.

We like the game, too, but don't hurt them; just feed them, and then you gentlemen come along in the orchard and shoot, often without as much as a "by your leave."

I hope another year, you will do something for them, or there will soon be less.

L. N. HADDRELL.

Miss Clara Berg, who has been a member of the staff of the local hospital for the last year, left on Sunday evening for Vancouver. Miss Berg has accepted a position on the staff of the North Vancouver General hospital.

Miss Lavelle Day and her brother, Wallace Day, left last night, Wednesday, for Vancouver, where they will spend a week participating in the Easter skiing at Grouse Mountain.

Mrs. A. S. Underhill, Mrs. D. Kyle and Mrs. H. Brynjolfson, all of Kelowna, were guests last Thursday at the home of Dr. and Mrs. L. A. Day.

The Misses Jocelyn and Daphne Boyd, who are students at Strathcona Lodge, Shawinigan Lake, arrived from Vancouver Island, on Sunday, and are spending the Easter vacation at the home of their parents, Mr. and Mrs. W. R. Boyd.

Mrs. C. Elsey, Mrs. Arnold Gayton and Mr. Bob Bleasdale were visitors to Kamloops on Tuesday, where they went to visit Mrs. Bob Bleasdale, a patient in the Tranquille Sanatorium.

Miss H. Maddison Guest At Shower

Miss Helen Maddison, who marriage to Mr. D. Taylor will take place on Saturday, April 5, was the recipient of many lovely gifts, when a miscellaneous shower was held in her honor on the afternoon of Wednesday, March 26, at the home of Mrs. Colin McKenzie, who was co-hostess for the occasion, with Mrs. Alan McKenzie. The gifts were presented to the bride-to-be from a decorated fireplace, and she received them from a chair decorated in a similar manner. Refreshments were served by the hostesses at the close of the afternoon.

Those present were the Mesdames A. Gould, E. Kercher, W. J. Tullett, Leonard Shannon, D. Taylor, H. R. J. Richards, J. Ritchie, W. Atkinson, J. Keane, Ben Mayne, J. McKenzie, J. A. Read, and the Misses N. Holder, Lois Read, and Minnie Ritchie. Gifts were also received from Mrs. Geo. Washington, Mrs. Jim Mayne and Miss Louise Atkinson.

Mr. and Mrs. Walter Wright have moved into their new residence in Parkdale, which was formerly occupied by Mr. and Mrs. G. A. Laidlaw. Mr. and Mrs. Roy Wellwood are now living in the house formerly occupied by Mr. and Mrs. Wright and situated on the Station road.

Mrs. George Williams is a patient in the local hospital.

Miss Sybil Smith left on Friday for Silvery Beach, Squilax, B.C., after visiting for a few days at the home of her parents, Mr. and Mrs. Bob Smith.

Mr. and Mrs. E. Hunt arrived recently from West Vancouver, where they are now making their home. They will return to West Vancouver shortly.

Mr. Lorne Perry returned on Tuesday from a business trip to Vancouver.

Mr. J. Slater has received word that his, English war-bride, has been able to book passage for Canada and will be arriving in Summerland in May. Mrs. Slater is a resident of London.

K. Iwayoshi was third-place winner in the Knights of Pythias public speaking contest, held in Penticton on Monday evening. Bill Daly, of Penticton, was winner of the South Okanagan elimination and will go to Kelowna for the Okanagan finals. The subject was "Juvenile Delinquency, Its Cause and Cure."

Mrs. A. Ruggles, of Vancouver, arrived in Summerland on Tuesday, and is a guest for several days at the home of Miss Bertha Bristow. Mrs. Ruggles is also visiting her aunt, Mrs. N. Pardee, who is at present a patient in the local hospital, and her uncle, Mr. F. Hopkins.

MISS NORMA HACK HONORED HERE

A miscellaneous shower in honor of Miss Norma Hack, whose marriage to Mr. Malcolm Henry is an event of April 11, was held on Friday afternoon, March 28, at the home of Mrs. W. Pattie. Joint hostesses were the Mesdames W. Pattie, T. W. Boothé and Ed Gould.

The gifts were presented to the bride-elect in a decorated clothes basket, and following this presentation, refreshments were served by the hostesses, assisted by the Misses Joy Pattie, Rhodena Moore, Joyce and Yuriko Jomori. There were about 40 guests present.

Mrs. Gladys Chaburn returned on Tuesday from a short visit to Vancouver.

Mr. R. G. Fuller arrived in Summerland from Vancouver, on Tuesday to join the staff of the Bank of Montreal here. Miss Betty Cameron, of Summerland, also joined the bank staff recently, while Miss Nan Thornthwaite has left the bank staff to replace Miss Dorothy Thompson at Green's Drug Store.

Mr. Art Lane, formerly of Armstrong, arrived in Summerland on Tuesday, and will make his future residence here, where he will be employed as a driver for Wally's Taxi.

Mrs. H. A. Solly has returned from Trail, where she has spent the winter months as a guest at the home of her daughter.

Mr. and Mrs. Percy Thompson, Mr. Jim Thompson and Miss Dorothy Thompson (are visitors to Salmon Arm, where the wedding of Miss Dorothy Thompson to Mr. Russell Kerr, formerly a member of the Review staff, takes place today, Thursday.

Miss Muriel Barr is a visitor to Salmon Arm, where she is attending the Kerr-Thompson nuptials. Mr. Bill Reid left last week for Vancouver, where he is receiving medical treatment.

DR. BROCKINGTON INVITED TO VISIT VALLEY IN APRIL

Leonard W. Brockington, C.M.G., K.C., LL.D., D.C.L., of Ottawa, internationally famous public speaker and official historian for Canada, has accepted an invitation from President J. R. J. Stirling and the executive of the British Columbia Fruit Growers' Association to visit the Okanagan Valley on April 11 and 12, and to give an address in Kelowna on the evening of the 12th.

Efforts are being made to have this address broadcast.

Dr. Brockington, who has been keenly interested in the Okanagan Valley for many years and who visits it whenever possible, is taking time out for this purpose en route home from Vancouver, where he addresses the B.C. Teachers' Federation on April 9.

In a wire to Secretary C. A. Hayden, Dr. Brockington expressed the wish to have April 11 free from engagements so that he could visit various parts of the orchard country and examine at first hand some of the growers' processing and other enterprises associated with tree fruit production. Arrangements for this visit by Dr. Brockington were made by Mr. Stirling and Arthur K. Loyd, president of B.C. Tree Fruits, Ltd., when they were in Ottawa several weeks ago.

REVIEW CLASSIFIED ADS BRING RESULTS

Grote Stirling Endorses Federation of Agriculture In Marketing Act Plea

Continuation of orderly marketing practices is wrapped up in Bill 25, which has passed second reading in the House of Commons. This bill provides for a perpetuation of the federal commodity boards which have been operated since war days. It is not a marketing act, as proposed by B.C. growers, but at least is a stop-gap. Hon. Grote Stirling, M.P. for Yale, in moving an amendment to Bill 25, spoke at length on the needs of agriculturists in Canada. A full report of his speech, as taken from Hansard, follows:

The house resumed from Thursday, March 13, consideration of the motion of Mr. Gardiner for the second reading of Bill No. 25, to provide for the sale and export of agricultural products.

Hon. GROTE STIRLING (Yale): Mr. Speaker, last evening the minister spoke briefly after introducing this bill because, as he explained, he had taken the opportunity when the resolution preceding the bill was before the house to speak at some greater length as to the purposes of the measure. However, he did take the opportunity to explain that it was his intention when he reached the committee stage to move an amendment which, as we understood, would have considerable effect on the measure itself. After asking him a couple of questions; which he answered, I sought and obtained the permission of the house to adjourn the debate a few minutes before eleven o'clock, in order that we might have an opportunity of considering what that amendment amounted to. The minister handed around slips describing it, but I must not discuss the amendment on the second reading. I should like to observe, however, that the effect of it will be to permit the distribution of apples, and apples only, whenever the distribution is undertaken by a board set up under a provincial marketing act. Further discussion of the matter will take place when the bill is in committee and we reach the section indicated.

The purpose of this bill is to empower the minister to lay his hand on certain agricultural products required for the purposes of international or other agreements which may be made. The methods by which that object may be attained are set forth in the bill, for the bill will empower the minister to establish a board or boards which will have very wide powers. Those boards will act under the direction of the minister and will be able to acquire agricultural products designated by the governor in council, deliver them, store them, and besides that, set the price which the farmer will receive for those products. That method of arriving at the object of the bill carries with it a principle with which we are not in accord. My mind goes back to the discussions which took place in this house in 1934 on the natural products marketing bill, when the Prime Minister (Mr. Mackenzie King) fulminated violently against that bill from its first section to its last, and the Minister of Justice (Mr. Ilsley) expressed his strong opposition to its terms despite the fact that the farmers in the Annapolis valley had unanimously indicated their support of the measure. I wonder, Mr. Speaker, what the situation would have been if that bill had contained these wide powers! Is it surprising that the hon. member for Quebec South (Mr. Power) yearns for the day when the Liberal party may return to those principles which he alleges they once followed?

I say that we are not in accord with the principle involved in this bill. We do not consider it right that the farmer who produces the product should have no say in its disposition or in the price he shall receive for it, and in that regard we are on all fours with the representations made by the Canadian Federation of Agriculture a fortnight ago today. The Canadian Federation of Agriculture met the government in the early hours of the day on which the minister moved the resolution which resulted in the introduction of this bill. The view of the Canadian Federation of Agriculture is that the proper basis on which to proceed in such a matter as this is a recognition of those boards at present in existence or to come into existence under the marketing acts which have been passed in every province.

I want to point out to hon. members that the Canadian Federation of Agriculture speaks with no sectional voice in Canada. It neither speaks with the voice of one part of Canada nor speaks with the voice of farmers producing any one particular product. It is the collective voice of the farmers. There are branches of the Canadian Federation of Agriculture in eight of the nine provinces. These branches meet annually and discuss their problems. They arrive at policies. Their delegates assemble here in the city of Ottawa and in open meeting of the Canadian Federation of Agriculture they put forward their views, and the views of the federation are there hammered out, so that it is feasible for the Canadian Federation of Agriculture to meet the dominion government and set forth the policies which it advocates.

The main reason why I am so strongly in favor of recognition of the boards at present in existence under the provincial market-

ing acts is that they are producer boards. The basis of those nine acts is just this, that in the stipulated area, if there be a majority of producers of certain commodity-matter of this kind that the go into a board, they may receive permission to do so. They select their board, and that board carries out the control and the regulating of the marketing of those crops in an orderly fashion for the benefit of the producer, the benefit of the consumer and the benefit of the trade, and it is only reasonable to my mind in a matter of his kind that the government should recognize the fact that such boards are in existence and that they are efficient. The minister himself has had opportunities of working with at least some of these boards.

I would draw attention by way of illustration to the things which have happened since the war began. When the war broke out, shipping disappeared so far as commercial produce was concerned. That was an extremely serious matter for the province of Nova Scotia because their habit for generations has been to barrel their apples and to send them across the seas to the United Kingdom, to Scandinavian countries, to Newfoundland, Iceland, and the West Indies. It was not such a serious matter for the apple producers in British Columbia because for some years past from twenty-five to thirty per cent of their products had been sold in the export market, but it was sufficiently serious to deal a blow to that industry in British Columbia.

The only reason I am using the apple as an illustration is that I come from the centre of the Okanagan valley and I personally am more conversant with the conditions of the British Columbia fruit trade than I am with those of the other boards which exist in that province. I would not like it to be thought, as has been alleged in times past, that the whole strength of the movement of the Canadian Federation of Agriculture is based on the fruit industry, for that is very far from true. The fruit industry is merely one of those bodies which support the Canadian Federation of Agriculture both in its provincial branches and in the federation itself.

When that export was entirely cut off, the federal government saw fit to make financial arrangements under which the farmers might be enabled to remain on their farms and to produce this food. That was a very considerable assistance in Nova Scotia. The method adopted was largely that of turning the apples over to the processors. In British Columbia it was necessary to a far lesser degree to make use of that financial assistance because as the war developed and as employment increased consequent on the spread of industry for the war effort, the domestic market reached such proportions that it was possible for the British Columbia fruit board to sell practically all its produce in the domestic market. But in that instance it is interesting to note that when the dominion government, having set up this financial arrangement, required some body of people to deal with it at the other end, it was to these fruit boards that they turned, and they made use of them in applying this financial arrangement.

May I give an illustration. Not long ago, when shipping was again possible, the United Kingdom indicated that it desired to purchase Canadian apples. The question arose as to where these apples could be obtained, in what quantity and what the price should be. The head of the British mission was directed to the two boards, the one in Nova Scotia and the one in British Columbia. He went to see the Nova Scotia board and the British Columbia board and carried out a dicker by the ordinary methods of trade with the one and the other as to quantity and the price that should be paid. Barrels of apples in Nova Scotia and boxes of apples in British Columbia when converted into barrels, turned out to be at very much the same price, and that price was the one which was adopted in the agreement with the United Kingdom. Therefore, in these two matters the minister is not without knowledge and experience of what these boards are capable of doing. I would venture to suggest that he appreciates the assistance which those boards were able to afford in time of need.

We are not in accord with the principle behind his bill, because we believe that there should be recognition by the government of the existing boards, and it should be so stated in the bill. I intend to make that the subject of an amendment which I propose to move, seconded by the hon. mem-

ber for Brant (Mr. Charlton), and I shall now read. It is as follows:

That the said bill be not now read the second time, but that it be resolved that an Agricultural Products Association should be based on the principle that producer boards be set up under provincial marketing acts, where such boards exist or as they may from time to time come into existence, be used for the purposes of such Agricultural Products Act, instead of commodity boards established by the minister under section four of the said bill.

The phraseology adopted in the amendment is the phraseology set forth in our rules of procedure or an amendment on second reading, but I should be extremely glad if the minister would see the force of the contention and incorporate that principle in the bill.

Under these nine provincial acts as they exist today, there are a score or more of these boards dealing with all sorts of different agricultural products. Where there is a board dealing with a commodity which the minister desires to acquire, it surely is but reasonable to give the producer of that commodity the opportunity to have a say in the disposition of the product as well as the price it will bring.

Now, an observation or two with regard to what the minister was good enough to divulge last evening in the matter of an amendment which he had in mind. I know that we must not discuss it at this stage, and I do not propose to do so; but I should like to make an observation or two with regard to it to show how it came about. When the minister spoke on the resolution which preceded the introduction of the bill it was getting pretty late in the evening and the house was good enough to assist him to the extent of passing rapidly through the resolution stage and reaching the introduction of the bill, because the following week the house would revert to the debate on the address and if we had not succeeded in getting the bill into our hands that night, we should probably have had to wait a couple of weeks to see it.

As the minister drew to the end of his remarks I asked him the following questions, as reported on page 954 of Hansard: Did I understand the minister to say that the existing boards will be empowered only to carry out transactions connected with agreements which the government has entered into with other countries or will this bill enable the boards to carry out other undertakings which they have taken on with regard to shipments out of one province into another province?

Mr. Gardiner: The bill will cover interprovincial and international shipments.

Mr. Stirling: Not only connected with the agreement?

Mr. Gardiner: Not only connected with the agreement. It does provide authority to deal with interprovincial transactions.

When we received the bill and were able to read it, we could find nothing whatever in it to warrant the minister in giving these answers; and in consequence the president of the Canadian Federation of Agriculture, with three of his colleagues, called on the minister and asked him to be good enough to explain what the answers to me meant. On that occasion he told them that he had certain amendments in contemplation which he might move when the bill reached committee stage. He indicated that it would still be possible for the existing boards to carry on under the powers granted by the order in council under the War Meas-

ures Act, in the regulatory work which they had been doing outside the provinces in which these boards were set up. Again last night when the minister told us of the amendment that he proposed to move but did not indicate its character, he said that it would be possible for these existing boards to carry out regulatory work both in export and in interprovincial trade.

Mr. GARDINER: With regard to apples.

Mr. STIRLING: Yes. The minister has restricted this amendment to apples, and although a small slice of bread is better than a whole loaf if you cannot get the whole loaf, it scarcely comports with what the minister is stated to have said to the Canadian Federation of Agriculture when they met the government. I read these few words from the report got out by the Canadian Federation of Agriculture on what took place during the discussion with the cabinet.

Mr. Gardiner, Minister of Agriculture, announced that he was introducing into the commons, an act which would carry on the powers and functions of various marketing boards which had been functioning during the war and up to the present. He indicated also that the act would convey powers which would make it possible for the government to meet part of the wishes of the delegation with respect to federal marketing legislation. However, he stated the act would only be in force for one year, to be re-enacted again at that time if desired.

When we see the restrictions contained in the amendment, in that they refer to apples only and it is not by any means clear that they cover export trade as well as interprovincial trade, it leaves us with the doubt which we must carry in our minds until we reach the committee stage of the bill and can discuss them at greater length. I, therefore, sum up in this way, Mr. Speaker. We quite realize that it is necessary for the government to obtain the commodities required for certain international agreements which they have arrived at, but we contend that before the dis-

should be made, and particularly before the price is arbitrarily set by the minister, the farmers should have an opportunity of indicating their wishes with regard to what they have produced and the price at which they are able to sell it.

BUILDING BY-LAW

Building Inspector Roy F. Angus informed the council on Monday that Scott Rand wishes to erect a pickers' house on his property near West Summerland. He pointed out that there are already five houses on this property and no sub-division has been made. As these houses were erected prior to the building by-law, the council agreed that nothing could be done to stop a further building being erected provided it is used exclusively for pickers' accommodation.

Mr. and Mrs. Fred Milligan (nee Shirley Caldwell), have returned from a honeymoon to coast points and have taken up residence in Summerland.

GREYHOUND BUS DEPOT

FIRE ENGINE BACK IN FRISCO HOME

SAN FRANCISCO, Calif.—Broderick No. 1, the pioneer fire-fighting machine, has been returned to its original home after a 65-year sojourn in British Columbia.

At a colorful ceremony held under clear California skies, the Broderick, which served the cities of Yale, Vernon and Kelowna during the bucket-brigade days, was handed over to the Firemen's Fund Insurance Company by Mayor W. E. Hughes-Games and Fire Chief Claude Newby, of Kelowna.

The Broderick's arrival home was marked by a public celebration and parade. The parade started at Kearney and Sacramento streets and passed the reviewing stand at California and Sansome. The Broderick was originally housed at Kearney and Sacramento.

The parade consisted of firemen in uniforms of 1850, and the Broderick and other ancient equipment, followed by the city's most modern equipment, the city band, led the parade. Participation in the commemorative activities were Mayor Hughes-Games and his entire entourage from Kelowna; Mayor Lapham of this city; James F. Crafts, president of the Fireman's Fund Insurance Company, and other local civic officials, as well as members of the Junior Chamber of Commerce.

Following Mayor Lapham's welcome, Mayor Hughes-Games presented Mr. Crafts with a specially printed book, outlining the history of the Broderick while in British Columbia, and containing the resolution of the Kelowna City Council transferring the Broderick to the Insurance company.

Chief Newby, of the K.V.F.B., and San Francisco's fire chief, Albert J. Sullivan, related some of the history of the Broderick through K.G.O. radio station. The ceremony was broadcast over the American Broadcasting Company network, and it is hoped that arrangements can be made for a re-broadcast over CKOV at a later date.

Box Shook Outlook More Promising Than Last Year

KELOWNA—Although it will be some time before the first fruits are ready to be harvested, officials have already started to make a survey of the box shook prospects, ever cognizant of how the fruit industry was virtually tied up due to the woodworkers' strike in B.C. last year. And as plans move forward to ascertain what the box shook requirements will be this year to handle the fruit and vegetable crop, they expressed some satisfaction that the picture is indeed much brighter than in 1946. Most mills in the fruit belt commenced production of shook this year slightly earlier than usual, and they now have a reasonable inventory of dry lumber to work on.

Although officials do not believe that the 1947 apple crop will equal the record-breaking yield of last year, they estimate that between 2,500,000 and 2,750,000 boxes will be required to harvest this year's crop of soft fruits and vegetables. Pears will probably take 175,000 boxes; cherries, 100,000; plums and prunes, 200,000 packages; tomatoes, 100,000; cucumbers, 150,000, and incidental products, 30,000.

L. R. Stephens, chairman of the box shook committee, summed the situation up this way. In the Vernon, Armstrong Salmon Arm and Kamloops districts, it is anticipated that the mills will be able to deliver full requirements in good time for the 1947 harvest. In the Kelowna area, which comprises the districts from Westbank to Okanent time are almost equal to the agan Centre, deliveries at the pre-deliveries at July 1, 1946, and it is not anticipated that the apple crop will be as heavy as last year. In addition to this showing, the Rutland Co-operative Society has announced its intention of completing a shook factory, and it is probable that the mill may turn out some shook towards the end of the 1947 season.

Mr. Stephens said there is also a possibility of a new shook mill being built at Princeton in time to be of considerable service for this season. The Summerland mill is

optimistic with respect to its ability to take care of the Summerland requirements and part of the Keremeos requirements.

Oliver Mill
Falling any unforeseen shut-down for any reason, the Oliver mill should be able to take care of the Oliver and Osoyoos district along with the support of the smaller mills in the Kootenays.

The mills at Creston and Castlegar will take care of the East Kootenays and will probably have some shook to spare.

"Naturally, the Pentiction area now presents the greatest problem, due to the loss of the Pentiction Sawmill," Mr. Stephens said. "However, the packinghouses in that area own the Grand Forks Sawmill and action was taken immediately to step up production at that point."

Continuing, the box shook official said that other mills both inside and outside the fruit belt have indicated their willingness to cooperate to the extent of their ability to breach the gap between requirements and supplies for the Pentiction, Naramata and Kaleden areas and there is every reason to be optimistic that this will be done.

Export Demand
In spite of a keen export demand and a continued demand for construction purposes, the shook mills have recognized their obligation to the industry and are making an excellent showing with respect to shook.

Thanks to the co-operation of the priorities officers, the box nails situation is satisfactory, Mr. Stephens concluded.

Wide Distribution Is Wise

An underwriting house, such as this company, strives for broad distribution of the securities they underwrite, because it broadens the "aftermarket."

Debtors can all be sold in Kelowna. In fact, applications for the total issue of \$400,000 are on file from that area. In order, however, to enable the Summerland area to participate in this very attractive offering, this branch is still to offer a few bonds at \$100 (and accrued interest) subject to prior sale.

K.G.M. 4% Debentures are a sound investment.

Remodelled Station And Extra Passenger Service K.V.R. Plan

Remodelling of the Kettle Valley railway station in West Summerland, with an expenditure of several thousand dollars is a distinct possibility for this spring, it is stated here this week. A contract between the CPR and Gallagher and Mundy, local contractors, is being prepared this week and is expected to be approved in Winnipeg in the next few days.

Coupled with this announcement comes notification of an improved passenger, freight and express service being inaugurated this month by the KVR. Fast freight and express are to be handled in the West Summerland area without extra charge for the local pickup and delivery.

Two passenger trains both east and west are to be operated through West Summerland daily, commencing April 27, it is stated.

Remodel Station
Work on remodelling the West Summerland station was commenced last year, but had to be discontinued because of shortage of materials, it is stated. Now, a new contract is awaiting official approval and calls for the remodelling of the present building with a larger waiting-room, rest-room facilities and an improved platform.

It is also stated that efforts are being made to improve the lighting facilities at the station to aid passengers arriving by the daily trains.

No complete details of the station plans are available this week, but it is understood that the station is to be remodelled in such a way that it will present a modern appearance in keeping with the ever-growing district it is serving.

Two Trains Daily
No exact times were available here this week, but it is believed that east and west-bound train service will be improved with the addition of trains operating about two hours ahead of the present schedule.

The ordinary eastbound run from Vancouver will probably continue from the coast centre at 6 o'clock and will continue through to the Kootenays to connect with the CPR lines at Lethbridge. Fast freight for the Nelson-Trail area will most likely be taken on this train, which goes through West Summerland at 4.35 a.m.

Another train, also with sleep-Vancouver about 8 p.m. and be in Summerland at about 6.35 o'clock the following morning, thus providing a longer stay in Vancouver and a more convenient hour for alighting at destination here.

Westbound, it is expected that from April 27 on, a passenger train will proceed through West Summerland about two hours earlier than the present train, which will make a limited number of stops en route to the coast and will land passengers in Vancouver about 8 or 9 o'clock the following morning.

Freight and Express
Delivery of fast freight and express to destination in West Summerland business area went into effect on Tuesday, April 8, Mr. Reid Johnston, local KVR agent, states. A contract is being arranged with Smith and Henry, West Summerland hauling contractors, to make these pickups and deliveries.

This contract has been pending for some weeks now but has at last arrived. Merchants and business men in the West Summerland business area can now expect to have their fast freight and express delivered without any extra charge for local delivery, Mr. Johnston states.

This service has long been in effect in other centres in this province and local merchants have been pressing for an equal concession from the CPR for some time. It was with the understanding that such a service would be inaugurated that the Summerland Retail Merchants' Assn. supported the CPR application for a franchise to operate their express truck, hauling fast freight from Penticton to Summerland and West Summerland, earlier this year.

MORE ARTICLES ARE RELEASED

Effective April 2, another long list of items were freed from price control. Among the articles removed are soft drinks, candy, confectionery and cocoa. Turkeys, ducks and geese are also freed. Other items include footwear of all kinds, wool in all forms. Refrigerators, ranges, washing machines and sewing machines are released from control. Motor vehicles, new and used, are no longer under price ceilings.

The only used goods still subject to control are wastepaper and used bags and bagging. Coal and wood fuel are freed from controls but coal does not pass from under control until April 15th.

All agricultural machinery and implements remain under price control and will stay there until most of the price controls on farm products are lifted.

This is the fourth major move made by the government in its decontrol program.

Mr. and Mrs. Harry Sowerbutt and daughter, of Calgary, were recent visitors at the home of Mr. Sowerbutt's brother and sister-in-law, Mr. and Mrs. Jim Sowerbutt.

A daughter was born to Mr. and Mrs. E. A. Lave at the Summerland hospital on Monday, April 7.

A son was born at the Summerland hospital on Tuesday, April 8, to Mr. and Mrs. D. Turner.

Call Meeting on Crescent Beach Water Service

Residents in the Crescent Beach and adjoining orchard area who are interested in the extension of the domestic water system to that district, are to be invited to meet the Summerland council on Friday, April 18, in the I.O.O.F. hall, it was announced at a special session of the council on Tuesday afternoon. Cost of this extension is estimated at some \$20,000 and would serve a large number of residents of that area. If there is sufficient interest on the part of property owners at Crescent Beach, then a by-law will probably be submitted authorizing this expenditure.

This project has been hanging fire for some time and delegations from Crescent Beach twice visited the council last year, seeking the extension of domestic water service to their area.

Cost Not Great
Reeve Powell has declared that the cost to individual property owners in that section will not be great if spread over a term of years and applied by means of an increased water rate charge. Details of the cost and a discussion of the probable financing method to be adopted, will result from this April meeting.

His Worship also points out that the division of cost will not be great in relation to the system already installed and servicing the balance of the municipality. The unit which will be tapped to extend domestic water to Crescent Beach was installed at a cost of about \$150,000, Reeve Powell points out.

All property owners in the area affected will be notified, of this special meeting by letter from the municipality.

School Bylaw Held Up For Firm Tenders

Until a definite price is forthcoming, no further action can be taken by Penticton School District No. 15, on presentation of a by-law for the renovation and modernization of the Summerland elementary school, purchase and relocation of two army huts for Penticton temporary school accommodation, and sundry other enlargement plans.

Such is the latest status of the school extension program which is causing some concern to the school trustees who wish to obtain the sanction of the taxpayers in the school district in order to proceed with work immediately and ensure that sufficient accommodation is provided for school classes next fall.

Consequently, tenders for this work are being sought and will close on Thursday, April 17.

When firm bids have been received and are accepted, the school district can then seek advice from Victoria as to what portion of the total expenditure the provincial government will shoulder. Then can be determined the amount of money necessary to be raised by by-law to complete the transaction.

Addition and renovation of the Summerland elementary school; purchase of the Judge W. C. Kelley property in West Summerland for future school development; purchase and removal of two army huts in Vernon to the Penticton school grounds; building of a gymnasium and auditorium at Naramata, and clearing and developing of grounds at Penticton are the items on which the school board is seeking tenders.

The government will make no commitment until firm figures are obtained for the expenditures which are to be made, the school board has been informed.

Original estimated cost to the projects was in the neighborhood of \$150,000, but this figure is liable to be raised because of the increasing costs of building construction.

Vol. 2, No. 14.

West Summerland, B.C., Thursday, April 10, 1947

ROTARY BALL IS SUCCESSFUL AFFAIR

One of the seasons' social highlights was the Rotary club of Summerland first annual invitation ball, held at Ellison hall on Easter Monday, with Saxie's orchestra, of Penticton, supplying the music.

Some 300 persons were in attendance and voted the affair one of the most enjoyable functions held here for some time.

Pupils of Mary Pratten's dancing school, Kelowna, performed at the outset of the function and were roundly applauded for their dancing technique. These girls were Betty Cross, Sheila Henderson, Mary Maragaret Povah, Harriet Jensen, Donna Ross, Ann Henderson and Tony and Brenda Carr, Hilton.

Refreshments were provided by members of the Canadian Legion W.A., while Reid Johnston was master of ceremonies.

WINS BOWLING TROPHY

Ian Loomer has been awarded the March trophy by the National Bowldrome for the three high scores for that month. He bowled 435, 330 and 335 for a total of 1,100. As no lady bowler had three scores of more than 249 last month, no trophy could be awarded.

Cancer Drive Points Need of Yearly Check

The second all-out, intensive campaign to further the conquest of cancer, started on April 1 and is being inaugurated by a two-week educational program through press, radio and other media, followed by a fund-raising campaign, starting April 15.

In British Columbia the B.C. Cancer Foundation and the B.C. branch of the Canadian Cancer Society are uniting forces to combat Canada's No. 2 Killer, which annually takes a terrible toll of the lives of more than 14,000 Canadians, over half of whom could be saved had they been diagnosed properly early enough and received prompt and adequate treatment.

Cancer is a subject which vitally concerns everyone because one out of every 8 Canadians will die of cancer, in fact, 37 minutes after this is read, a Canadian will die from this scourge.

The average Canadian can do little to help but the little he can do is important because self-awareness and constant vigilance may mean the saving or prolonging of his own life or the lives of his loved ones.

The first step for the layman is to make an annual medical check-up, a "must" on his health calendar. After reaching the age of 40 years, the medical check-up should be semi-annual, health authorities state.

The second step is to be ever on the watch for the seven early unmistakable warning signals which may indicate the presence of cancer and to seek immediately medical diagnosis if one or more appear.

These signs are:

1. Sores which do not heal, particularly on tongue, lips or mouth.
2. Painless lumps or thickening, especially on breast or tongue.
3. Bloody discharge from any bodily aperture.
4. Progressive change in color or size of mole, wart or birthmark.
5. Persistent indigestion, especially after 40.
6. Persistent hoarseness, unexplained cough or difficulty in swallowing.

Presence of one or more of the above does not mean cancer has been contracted, but it is not safe to delay in seeking medical advice.

Building Permits Exceed \$100,000

Building to a value of \$100,000 has commenced, or is about to commence in this municipality in the first three months of 1947, the report of Building Inspector Roy F. Angus revealed to the council this week.

Indicative of the present trend throughout the Okanagan this big figure reveals that Summerland is keeping pace with other Okanagan districts in the building boom.

Principal item in the new permits being issued is that of new dwellings to meet the ever-present need of new homes to house the many families which have moved into this district.

In March alone there were 13 permits issued for new dwellings which will be erected with a building value of \$44,700. Two permits

Ottawa To Include Sum In Supplementary Estimates For Science Service Building

That Dominion Government assistance will be forthcoming to provide needed accommodation for the Dominion Entomological Laboratory in Summerland is practically assured, advices from the tree fruit industry indicated to The Review yesterday. Official word has been received from the deputy minister of agriculture, Dr. Barton, that provision for some accommodation is being sought in supplementary estimates which will be placed before the House of Commons later in the year.

No official word has been forthcoming as to the amount to be included in these estimates but it is reliably stated in some circles here that \$20,000 is the amount to be provided.

Is In Accord

Dr. Barton has advised the BCFGA, in response to telegrams sent to the minister of agriculture, Rt. Hon. J. G. Gardiner, that various estimates had been considered regarding temporary accommodation for the laboratory here but no funds had been available.

In considering the possibility of moving an army hut from Vernon to Summerland, Dr. Barton states: "I am quite in accord and intend to explore every avenue of possibility in this respect."

The BCFGA offer of \$2,500 to assist in obtaining the army hut and moving it to Summerland, provided the dominion authorities expend further sums to improve the accommodation, "is very much appreciated," Dr. Barton has intimated, but the agriculture department has not made any decision on the necessity of taking advantage of this offer.

Outlook Promising

With such promising assurances from Ottawa, it is now considered that some definite action will be taken within the next few months towards providing suitable accommodation for the entomological department.

The original plan was to erect a science service division plant here at a cost of \$150,000, to house Dr. James Marshall's entomologists, Dr. H. R. McLarty's plant pathologists and chemists, who would assist both departments.

However, as no funds had been provided, this prospect has been shelved for some time.

The Review commenced a campaign for action on the entomological portion of the building some weeks ago. The Summerland local of the BCFGA followed up with requests for assistance from tree fruit officials and the campaign was carried to the minister of agriculture at Ottawa. Assistance of the provincial minister of agriculture, Hon. Frank Putnam, was also sought and was forthcoming.

This drive to provide proper accommodation in which experiments and technical work to aid the fruit industry as a whole, is now being concluded and was brought up-to-date yesterday with Dr. Barton's reply to the BCFGA.

GUEST AT LUNCHEON

Dr. L. W. Brockington has been invited to address a luncheon gathering at the Royal Anne hotel, Kelowna, on Saturday, April 12.

The distinguished Canadian is guest of honor at this luncheon, being arranged by the BCFGA. Reeve W. R. Powell, B.C. Tree Fruits governor; C. E. Ned' Bentley, Summerland growers, proxy, and J. R. Armstrong, The Review editor, are among the Summerland persons invited to the function.

Messrs. Jack and Percy McCallum, of Vancouver, were week-end visitors at the home of Mr. and Mrs. Wm. White.

Mr. and Mrs. A. K. Macleod are spending the Easter vacation in Vancouver, where Mr. Macleod is attending the teachers' convention during the Easter week.

The Misses M. and V. Banks are spending the Easter vacation holiday in Rossland.

Launch Ferry Today at Kelowna

Mrs. W. A. C. Bennett, wife of the M.L.A. for South Okanagan, will officiate in the launching of the new Kelowna-Westbank ferry, M.S. Legume, this morning, Thursday, April 10. No official word as to when the ferry will be put into operation has been received, or when the 24-hour ferry schedule will resume; but it is expected the latter will take effect about the end of the month.

No Progress On School Trees Assessments

Question of the assessment figures to be adopted for school purposes, still remains unsettled, it is revealed here following a conference between municipal officials of Summerland, Penticton and government officials representing the rural area in the school district.

This conference was held following receipt of a communication from Col. J. J. Fairley, deputy minister of education, suggesting that the various officials concerned with the subject of assessment, get together and come to an agreement. Summerland is contending that, as Penticton and the rural area do not assess fruit trees as improvements, then Summerland trees should not be included when dealing with assessments to proportion school costs in this district.

W. A. C. Bennett, M.L.A., when contacted, expressed surprise with the latest communication from Victoria, as he had contacted the taxation department at Victoria and had been told that Summerland's contention is correct. He had thought that the question had been settled.

Reeve W. R. Powell, Municipal Clerk F. J. Nixon and Municipal Assessor Roy F. Angus attended the consequent session with Reeve Robert Lyon, Penticton's municipal clerk and assessor, provincial government assessor and Dr. T. F. Parnley, school board chairman.

Penticton and the rural area heads claimed that there is an inequality in assessments with Summerland not assessing to the same high standard as the other two areas. They admitted that Summerland has justification in its stand.

Reeve Powell contended that if there is inequality in methods of assessment, then they can be located when a board of equalization is appointed by the provincial government to bring all assessments in the province into line.

However, he pointed out, that that is for future dealings, whereas the differences in tree assessments are vital for the present year. The Summerland municipal officials stood pat on their contention and the conference did not reach any results.

It is possible that the educational department may force the issue to an arbitration board, under new regulations which were brought into being in new legislation passed just before the provincial house prorogued last week.

In the meantime, Summerland and Penticton cannot strike a mill rate until this question is settled, it is pointed out locally.

John Vanderburgh, who attends Vancouver college, is spending the vacation at the home of his parents, Dr. and Mrs. A. W. Vanderburgh.

Mrs. A. W. Vanderburgh left last week for the coast, where she is spending a vacation in Vancouver and Victoria.

Mrs. John Soderberg, who has been visiting for a week in Vancouver, arrived home on Easter Sunday morning. She was accompanied on her return by her son and daughter-in-law, Mr. and Mrs. Walter Soderberg, of Vancouver, who are now visiting at her home.

Three Accidents Involve Local Vehicle Owners

Only six court cases were heard in Summerland court by Magistrate H. Sharman in the month of March, with two others so far this month, it is reported. Three car accidents have also occurred lately, one of which resulted in a court case.

Gordon Hussey, Peachland, was fined \$10 and costs for speeding more than 30 miles per hour through Peachland, while Hayden C. Stump also violated traffic regulations in Peachland by failing to signal for a turn. He paid \$10 and costs.

A. J. Connor, a traveller, travelled more than 20 miles per hour through lower Summerland zone and paid \$10 and costs in local court.

For failing to register a firearm, C. Noel Higgin, Summerland, was assessed \$5 and court costs.

Another motor vehicle infraction was before the court when Lloyd A. Miller paid \$5 for failing to signal.

Arising out of an accident at Trout Creek, Lloyd E. Johnson was fined \$25 and costs on a dangerous driving charge. His car collided with a vehicle driven by A. Calvert, who was not considered to be in the wrong.

William Siems, Peachland, last week drove a vehicle without 1947 licence plates and paid a fine of \$12.50 and costs.

A juvenile appeared in court last week for driving without a permit and was assessed \$5.

Early Sunday morning, a car, driven by Chris Clough and containing Mrs. Clough and David Collins, went out of control on the Penticton-Summerland road, about a mile and a half from Penticton. The car turned over, throwing Mrs. Clough and Mr. Collins out, but they escaped with bruises and slight cuts. Mr. Clough was uninjured. The car was badly damaged, but the occupants were fortunate to escape more serious injury.

Last week, motor vehicles driven by A. Fetterer and Leslie L. Walker collided at the corner by the B.C. Fruit Shippers' Ltd. packing house. Damage amounting to nearly \$200 resulted but Provincial Police Constable H. Cartmell has not laid any charges.

Constable Cartmell has notified a number of owners of tractors and other farm machinery that they cannot use these machines on the highway except to transport them from one orchard lot to another. These machines and trailers cannot be used to haul lumber and other items, he points out, unless properly licenced. There have been a number of these infractions lately and Constable Cartmell is considering prosecuting any further violators of the motor vehicles act.

Local Girl Is Bride In Salmon Arm Ceremony

In a quiet, double-ring ceremony, performed in the United church manse, Salmon Arm, on Thursday afternoon, April 3, Dorothy Frances, younger daughter of Mr. and Mrs. Percy H. Thompson, of West Summerland, was united in marriage with Mr. Russell M. Kerr, son of Mrs. M. E. Kerr, of New Westminster, and the late Mr. Kerr.

A pale blue dressmaker suit and a small, blue, feathered hat was worn by the bride, and her accessories were of black. A white shortie coat for traveling, completed her ensemble.

Miss Muriel Barr, of West Summerland, was the only attendant of the bride and chose a dressmaker suit of crushed strawberry with black hat and accessories. The groom was attended by Mr. Jim Thompson, brother of the bride.

A small reception and buffet supper at the home of Mr. and Mrs. Frank Marshall, Salmon Arm, followed the wedding.

Upon their return from a honeymoon to New Westminster and coast points, Mr. and Mrs. Kerr will make their future home in Salmon Arm, where Mr. Kerr, a former member of the staff of The Summerland Review, is now printing foreman of the Salmon Arm Observer.

EDITORIAL

A Liquor Store

The spring, 1947, session of the B.C. government has prorogued. After months of waiting, the government has come forward with its proposed revisions in liquor legislation. They have amounted to a picayune affair—elimination of the two-bit liquor permit and the end of rationing, which has been ended in every other province for some time.

It was a disappointment to most people when Attorney-General Wismer dropped his proposals that liquor legislation be amended drastically. To most people the liquor laws of this province are silly. They try to force people to hide the fact that they consume liquor when everyone knows fully well that by far the majority of persons take a drink once in a while, if not oftener.

Reading between the lines, it can be seen quite plainly that the government could not get together on the liquor question and Attorney-General Wismer was stopped in his tracks when he endeavored to follow Ontario's lead.

It did not make the government's policy any more coherent when Mr. Wismer gave as an excuse that no groups supported him in his attempts to bring in saner liquor laws, but he was inundated with letters, resolutions and delegations from those who would wish to suppress the sale of liquor still further.

That was a lame excuse, but it was probably better than none, although we are doubtful even of that statement.

But the situation is now cleared, at any rate. There will be no radical change in the control of liquor sales. Sales will continue only through government stores throughout the province.

And that brings us to the present situation in Summerland. There is a population here of more than three thousand persons. There is no liquor store here to serve the demands of the big proportion of that population.

We cannot deny the facts. Nearly a quarter of the sales of liquor and beer made in the Penticton liquor store are to Summerland residents who have travelled ten miles south and ten miles back home to make their purchases. Because the liquor commission has not seen fit to establish a store in this community, residents have to travel twenty miles to purchase their supplies.

And that means an added incentive to Summerland persons to make other purchases out of town, to the detriment of the storekeepers of Summerland and to the impoverishment of the community as a whole.

Every time purchases are made by local residents of goods which could be purchased locally, the whole community suffers. There is less business accomplished here and there is less employment created. That is a fact which cannot be denied.

It is time that the Board of Trade lent itself to a campaign to convince the Attorney-General's department of the need of a liquor store in Summerland, to serve more than 3,000 people. It was not possible in the past six months to a year to bring this project forward, as the only answer would have been that liquor laws were to be revised.

Now that we know there will be no revision, it is time the Summerland citizens took action towards obtaining a convenience which has been lacking for many years.

Objective Taken

Summerland can once again be proud of its generosity. Few communities in this province reached their objective in the Red Cross campaign which closed on March 31. Summerland was able to reach its quota of \$3,000 due to the patient work of a handful of canvassers.

This is the first peacetime drive made by the Red Cross since the cessation of hostilities and the quotas for every district were set higher than during the war years, as there is not the assistance from the federal government now that existed in wartime.

The loyal band of Red Cross workers in this area were not optimistic about the results of the 1947 drive. They thought the objective would be too high even for this generous municipality. But the majority of persons responded nobly to the appeal and the quota of \$3,000 has been reached.

Again it can be said: "Well done, Summerland."

THE LONG LONG TRAIL

Pioneer Days

Thirty Years Ago
April 6, 1917

Board of trade members offered volunteer work to repair the Doherty hill at the upper end of Prairie Valley. Good roads, better lighted streets, direction and danger signs were among the topics under discussion.

C. E. Rennie has purchased the meat market operated for the past year by J. R. Campbell.

"You cannot indefinitely pile bricks on the settlers' backs and expect them to continue carrying the load," declared J. W. Jones, M.L.A., at Victoria, in offering criticism of the new irrigation bill before the legislature. He explained that of the seventeen water systems in the Okanagan, two are municipally-owned, five mutually-owned by the land-holders, and three of which are in difficulties; one is a water company and is in trouble, and nine are water and land companies combined, five being in difficulty.

E. B. May has announced that the Bank of Montreal will commence at an early date the erection of its own office building in West Summerland.

Not enough dairy cattle are available in this district to operate a creamery, the board of trade has been informed by Superintendent Helmer of the experimental station.

When their car turned completely over on the hill past T. J. Garnett's on Saturday night, five passengers escaped any injury. The car was driven by T. B. Young and contained Mrs. Young, his parents and Miss Isabel Steuart.

The home of Mr. and Mrs. J. Hale, Trout Creek, was completely destroyed by fire on Sunday. A spark on the roof is believed to have caused the blaze.

J. A. Read has taken the position with the Summerland Supply Co. recently vacated by A. McLachlan.

The West Summerland Theatrical Syndicate has leased the Brewer building on Hastings street and will construct a gallery. Those interested in the new venture are Scott Darkis, A. H. Steven, D. Rutherford, R. Tingley and G. Henry.

Twenty Years Ago
April 8, 1927

Summerland Golf Club re-elected Dr. F. W. Andrew as president at the annual meeting, with Rev. H. A. Solly, vice-president, and A. Walden, secretary-treasurer. The executive consists of J. N. Cran, G. C. Benmore and A. Smith. More than \$1,000 was expended last year and considerable activity was evinced.

Intermediate baseball has been formed with the following officers named; Secretary, E. Walker; manager, J. C. Brittain; assistant manager, C. Brittain; assistant B. Brittain custodian, E. Walker.

A. E. Smith had the contract to move the old jailhouse up Peach Orchard hill to its new site near the Occidental Fruit Co. house. The move took two days to accomplish.

Between Peachland and Trout Creek an amount of \$12,000 has been allotted for road expenditure.

Game Warden George Gartrell has just liberated twenty-four pheasants which he received from the coast.

Death called a pioneer of this district last Friday with the sudden death of Hector Sutherland.

LIVING MEMORIAL PLANS BOOSTED

There is a possibility that a start will be made on Kelowna's proposed Living Memorial arena this fall. Approximately \$100,000 was collected more than a year ago and the committee in Kelowna states another \$75,000 is needed to complete the arena project. Kelowna city council is considering placing a by-law before the ratepayers to raise this sum of money so that the project can be completed.

In Penticton, the Living Memorial campaign continues in a second drive to raise \$150,000. Approximately half of this amount has been contributed by voluntary subscription.

Floral arrangements, in season, are charming.

The list of guests to be invited to the wedding is often a bone of contention. The wise parents will lend their advice, but not their insistence, when the lists are prepared. The groom will submit his own list of friends and business connections whom he finds desirable to invite. It is too often forgotten by enthusiastic older members of the family of the bride that the young people, and the groom especially, are to be given consideration, and to have the final decision in all matters.

A flustered and tired bride, too often a bundle of nerves, is a pitiful sight. The last few days before the wedding must provide rest and quiet. Small decisions and last-minute changes can be handled by those near and dear to the bride, and she should not be bothered by small, nerve-fraying upsets. The biggest, most wonderful day of her life is about to take place and she should face it with confidence and serenity.

The Inside Story

I have found out how to make a success of the fruit industry. It is very simple. The secret can be stated in six easy words: Heavy crop, high quality, low cost. These words are easily said and quickly learned and quite difficult to put into practice. That's why we have an Experimental Station—to devise and test practical methods of producing heavy yields of high quality fruit at low cost.

Apricot thinning investigations provide an example. As every apricot grower knows, hand thinning of apricots by the orthodox method is an experience procedure. In search of a more economical method of removing the surplus fruit, experimenters tried shaking them off by tapping the branches sharply with a limber ten-foot pole. Surprising to relate, this gave quite encouraging results when the pole was handled by a careful and intelligent operator. Some men prefer using a short pole with an 18-inch piece of garden hose attached to the end of it.

Experimental trees have been left entirely untrimmed. It has been found that provided they are well fed and well pruned, apricot trees will produce a heavy tonnage of marketable sized fruit without thinning. This is especially true of the Wenatchee Moorpark variety. However, where no thinning is done, the trees tend to develop the biennial bearing habit, producing a very heavy crop one year and practically no fruit the next. Furthermore, on the heavy crop year the fruit matures unevenly over a long season, with the result that frequent pickings are necessary to harvest it at the proper stage of maturity.

This year, it is planned to test dinitro sprays, applied in the full bloom period, as a possible means of reducing thinning costs. It is hoped that by applying sprays at the proper dilution, it will be possible to materially reduce the set and still leave enough fruit to make a full crop.

Growers who are interested in testing quick and economical methods of thinning apricots, are advised to get in touch with Don Fisher, at the Experimental Station.

THE Feminine Front

Muriel Hurry

There are, by actual count, at least a dozen weddings scheduled in Summerland within the coming three months. And this means that there will be showers and other social activities for the brides, in which their friends and families will be participants. And so, as all the social reports for these weddings and showers come through my hands before they appear in print, I have done a bit of research on the subject. My findings seem to me to be so useful, both to the wedding principals and to those attending these events, that I am passing a few hints along, which I hope you will find of use or interest.

There are new materials as well as the old, now obtainable for the traditional wedding gown. For those who wish to stick to satin, there is a new rayon satin, less expensive than the rich satin of pre-war years, but resembling them closely. But competing with satin will be many new materials, or old materials put to new usage. Nylon tulle, in pastels as well as white, is outstanding, and shantung and faille are two new and exciting fabrics, and lend themselves easily to the stately styles and draping. Irish linen in ice-cream pastel tones is especially lovely on the very young bride, as is crisp organdy. Marquisette, filmy silk

chiffon and georgette are interesting possibilities.

There is a trend toward color—opalescent pinks and blues, and a very new color in New York this year for the very modern bride is a pastel green with an ivory tone, which offsets the superposition of green for the wedding gown.

Latest styles in this year's designs run to bustles, panniers, cascades and much hand draping. Gowns will be tucked and embroidered with seed pearls, sequins and other embellishments. Skirts are fuller and trains are wider; old-fashioned hoops and pinks are used in some designs. Darling necklines are out but a new low neckline, filled in with flattering, filmy net, is charming. Long sleeves are still the vogue, but if short sleeves are worn, long gloves are a necessity.

Vails may be any length, and English illusion veiling is available again, and popular. Tulle and organdy are also lovely in veiling. Simple and effective headpieces can be fashioned by the voraciously bride from a bicycle clip, a circlet of millinery wire, or of matching fabric. Special hats are newer than the traditional headpieces and include flower cloches, bonnets, coils and pillboxes.

Attendants' gowns are chosen to harmonize, but to suit the indi-

vidual wearer, and are chosen to be worn after the wedding. Simple, sandal-type shoes can be worn with any dress, and useful after the wedding.

Becoming to the mother of the bride or groom, a distinguished member of the wedding party, are the new soft greys or metal tones. They are flattering to the skin and hair, and shades run from pale gold, copper, platinum, to steel grey and muted bieges.

Here are a few simple rules for wedding planning. Dress simply. Do not let a too elaborate wedding gown detract from your own joyful radiance. Decide upon a basic color scheme, then plan with good taste commonsense, simplicity and adaptability. Select your accessories carefully. Bridal jewelry should be simple.

The informal bride wears a corsage, while the formal bride will carry a shower bouquet, or perhaps a white prayer book, which lends a touch of dignity and is in the best possible taste.

A great deal of thought must be given to the planning of the trousseau. The wise bride buys only what she needs: a good suit for going away, a black, always smart basic dress, and other clothes with an eye to her future home and social obligations.

Dainty, lacy lingerie is a must, and it is allowable for the bride to be a little extravagant in her choice of a bridal nightgown, of satin, crepe or sheer, usually in white. A dainty negligee should be included, and lace-trimmed bridal slips and undies, as well as sets, tailored for everyday use.

Here is the calendar for the well-organized bride

1. Two months before your wedding, make arrangements with your minister, plan your reception, church decorations, etc., and decide on the amount you can spend on your trousseau, linen and household requirements. List your guests and prepare the invitations, to be mailed about a month before the wedding.

2. Within a month before the wedding, have the necessary shopping underway. The wedding cake should be ordered, and the menus for the luncheon or wedding breakfast prepared. Acknowledge each gift as it arrives.

3. During the last week, all should be in order. Rest as much as possible, have relaxing beauty treatments, and pack your wedding clothes.

For those who plan to give showers for the bride, there are a few rules that are in good taste to follow. Showers should be given between the time the invitations are issued, and not later than a week before the big day. Hostesses are usually old family friends or intimate friends of the bride. There are generally two showers planned for the bride-to-be. One should be sponsored by an older woman, an intimate friend of the family of the bride.

Guests will include family friends and older friends. The other shower, at which one of the bride's attendants is probably the hostess, is for former school and girlhood friends. These two showers should be miscellaneous, and if it is felt desirable to hold a third one, a nice touch is always the personal shower, in which welcome additions to the trousseau are made. The thoughtful giver will include in the gift, unless she is sure that there will be no similar gifts, a slip bearing the name of the dealer where the gift was purchased, in case of duplicates.

Decorations for the shower can be effective in their simplicity.

**Peachland Nurse
United In Marriage**

PEACHLAND—A quiet wedding took place at Okanogan, Wash., on February 24, at 7.45 p.m., when Inez May Davies, of Peachland, became the bride of John McWhinnie, of Haney, B.C. The bride is the daughter of Dr. Somas Castellonia, and the late Dr. Inez May Castellonia, of Mexico City.

In the Peachland district, Mrs. McWhinnie is well-known for her work among the older people, as she is a registered nurse and had devoted a great deal of her time to relieve the sufferings of the aged there.

Mr. and Mrs. Austin Mitchell and son, who have been residing for the past several months at Spence's B.Bridge, returned to Summerland last week, and will make their future home here.

**Everyman Theatre Play
Well Received Here**

Before a small but responsive audience, the Everyman Theatre gave their usual talented performance as they started on the second hundred of their concerts held during their tour of Western Canada. The concert was their hundred and first performance, and was held in the Ellison hall on Thursday evening, April 3.

The Last Caveman, a comedy in three acts, was the feature of the evening. Scenery for this play was startling in its utter and effective simplicity. Unlike the usual over-dressed stage it portrayed in stark realism the effect desired, and at the same time allowed the audience to concentrate upon the fine ability of the players.

In the starring role as John Duncan, the Last Caveman, was Floyd Caza, who layed the part of a young veteran disillusioned by the chaotic post-war world conditions. With no illusions left him he settles in a wilderness cabin to write a book with which he hopes to startle the placid, unthinking average citizen into an awareness of the true reasons why he fought and so many others died.

The Everyman Theatre is a repertory company comprised of young Canadian actors from the provinces of Western Canada, the majority of them without previous acting experience. Their starring plays are Canadian written and directed by Sydney Risk, well known in Canadian theatrical circles.

Mr. Risk and the entire company are proving that the artistic talent of Canada need not seek to give their abilities the desired advantages of other countries

scope. With the aim of keeping Canadian art in Canada, they are touring the country, and in the short time that they have been in existence, considerably less than a year, are already proving their theories.

A Russian comedy of one act, entitled The Marriage Proposal, preceded The Last Caveman, and did much to show the versatility of the group. All actors in the Everyman Theatre are trained to fill all roles that are at all suitable to their abilities. Roles are switched about frequently, and much scope is given to acting talent in this way.

The Marriage Proposal, which was written by Anton Chekhov, was comprised of a cast of three, A. Murray Westgate as Stepan Steanovitch; Peggy Hassard, as his daughter; Natalya, and Drew Thompson as Ivan Vassilvetch, a neighbor.

The cast of The Last Caveman was as follows: Ben Davy, David Major; Mrs. Davy, Lois McLean; Denzil Davy, Edward Follows; John Duncan, Floyd Caza; Miranda, Shirley Kerr; Mrs. Henry B. Potter, Esther Nelson; Howard Potter, Arthur Hill; Jim Bryan, A. Murray Westgate; Bill Sears, Edward McNamara; Col. Hector Fortescue, Drew Thompson.

Director was Sydney Risk, and associate director is George Broderer. Stage sets, lighting, sound effects, etc., are shared by the cast, and make-up is applied by the individual players.

The Everyman Theatre was sponsored in Summerland by the Singers' and Players' Club, who also billeted the cast here.

**Curriculum At
U.B.C. Extended
By New Course**

Many new and interesting courses in the faculty of arts and science have been approved by both the senate and board of governors and will be added to the calendar for the 1947-48 session, it is announced by the president's office of U.B.C.

Extensive new courses in the newly-established department of pharmacy and the degree-course in physical education have also been approved, details of which will be announced later.

Representing an expansion and broadening of the curriculum, these courses cover every department in the faculty, from bacteriology to zoology.

Eight new and three revised courses will be added to the fields of bacteriology, biology and botany.

Many changes and additions will also occur in the department of commerce. These will also be announced at a later date.

In English, a new course on the "History of the Theatre" will be given as an expansion of the work in drama, commenced last year.

"Introductory Human and Economic Geography" will be listed as a new course in the department of geology and geography.

Two courses in Canadian history—"History of French Canada" and "History of Canadian Defence"—are among the four additions to the curriculum of the history department.

The first regular course in international studies will be offered in September of this year under the title: "The Great Powers and World Politics."

In Slavonic Studies, four entirely new courses were scheduled: "Basic Russian," "Basic Polish," "Russian, Second Course" and "Culture of the Slavonic Peoples." It is believed that U.B.C. is the first university in Canada to offer a course in Polish.

Among the new physics courses to be given in the 1947-48 session include "Introduction to Nuclear Physics and Cosmic Rays," "Beta-ray Spectroscopy," "Quantum Theory of Wave Fields and Elementary Particles" and "Geophysics."

CANNING SUGAR DATES

The Ration Administration of the Prices Board announces that the first five coupons for canning sugar will become valid on May 15th. They will be "Y" coupons, 1 to 5 inclusive, each good for one pound of sugar. Second allotment of canning sugar will become valid on July 17th, when "Y" coupons to 10, inclusive, may be used. These coupons are also available for purposes other than canning or for preserves.

Further expansion in the rapidly growing department of social work is indicated in the addition of eight one and one-half unit courses. These include: "Administration and Supervision in Group Work," Seminars in "Foster Care Programs" and in "Problems of Old Age."

Studies in fisheries technology and parasitology will be added to the department of zoology as an extension of the work in fisheries.

Mrs. J. Shepherd returned on Monday from a two-weeks' visit to Vancouver.

Mrs. N. O. Solly and children are spending the Easter vacation in New Westminster, where they are guests of Mrs. Solly's mother.

Teen Town

By MIKE

Last Monday, we held our monthly council meeting at councillor Doris Cristante's home. His Honor Alf Kita told us of the meeting of the interior Teen Towns at Princeton. It was decided that baseball will be played this year. A league has been formed in this vicinity, including Penticton, Summerland, Westbank, Kelowna, and possibly others. Another league was formed in the Similkameen and at the coast and Kootenays. A cup was donated for the winning team of all these. The girls will be playing softball in the same place and will also play-off for a cup. Will tell you at the next dance more about these sports and practices. The coming dance this Friday will be our annual sweater girl and sweater boy contests. A big prize will be given each winner. Let's make this our best yet. There will be games to suit the taste: ping-pong, cards, etc. Dancing will commence sharply at 8:00. There will be a big prize for the best dancing couple and also mixers, with prizes for the winners. We are going to try and have a floor show. It will be the first of the year and should be good. Refreshments will be served at inter-

mission, so bring a friend and have a swell time. There will also be a short discussion on the coming baseball and softball league. Alf Kita has left for Vancouver to attend the Teen Town youth parliament. This parliament will decide about new regulations for the use of Teen Towns.

In the "cover girl" contest in Penticton, the cute girl from Osoyoos, won. Our own winner, Shirley Harvey was runner-up.

An orchestra will be formed in the near future. There are already some musicians but drums must be obtained.

Mr. and Mrs. Lewis Johnson and family were visitors on Easter Sunday at the home of Mr. and Mrs. Bill Bradbury, Peachland.

Mr. and Mrs. Forsythe, of Vernon, were visitors to Summerland at the week-end, where they attended the Taylor-Maddison wedding.

Miss Bertha Redlich, of the staff of the Experimental Station, spent the Easter week-end vacationing in Vancouver.

Mr. and Mrs. C. E. McCutcheon and Mr. and Mrs. W. D. Laidlaw were visitors for the week-end holiday to Coulee Dam and Spokane.

Farm Notes

(Experimental Farm News)

In arid and semi-arid areas, irrigation is necessary for the production of heavy crops. Farm production in Canada has been appreciably increased by irrigation, and plans for further irrigation projects give hope for still further increases.

Irrigation not only has its advantages, but also its disadvantages. For example, on the one hand, it helps to prevent wind erosion, and on the other hand, it may induce water erosion says J. C. Wilcox, Dominion Experimental Station, Summerland.

The method used in applying water to the land has been found to influence markedly the amount of soil erosion induced. This problem has received considerable attention at the Experimental Station at Summerland. In the semi-arid sections of British Columbia, two methods of applying water are popular—the furrow method and the sprinkler method. Of these two, the former has been found to induce much more erosion than the latter.

By the furrow method of irrigation, the water is led downhill in narrow rills or furrows, spaced at distances apart of from 2 feet to 6 or 8 feet, depending on the crop and on the type of soil. During the irrigation season, the soil along the furrows is washed downhill, and the furrows are thereby deepened and widened. This process is more rapid with steep slopes, with

long furrows, with bare or loose soil, with light soil, and with soil low in organic matter. With proper care, the farmer can reduce this type of erosion to a minimum. In hillside orchards, for instance, he can grow a grass sod cover crop, eliminate midsummer cultivation, keep his furrows short, and run them on the contour as much as possible.

By changing from furrow irrigation to sprinkler irrigation, fruit and vegetable growers have in many cases been able to reduce their soil erosion losses appreciably. Even sprinkler irrigation, however, needs to be carefully handled or some erosion will occur. With heavy soils, for example, it has been found necessary to apply water slowly or some of it will run off on the surface and carry loose soil with it. This problem is aggravated when the soil surface is bare.

Issued by Press and Publicity, Publicity and Extension Division, Department of Agriculture, Ottawa, Canada.

"British Columbia Prosperity Depends on Foreign Trade"

FIFTH NATIONAL FOREIGN TRADE CONFERENCE

of THE CANADIAN CHAMBER OF COMMERCE

In Collaboration with THE VANCOUVER BOARD OF TRADE

HOTEL VANCOUVER • VANCOUVER, B.C.
MAY 21st, 22nd and 23rd

The products of British Columbia's forests, farms, sea and mines must find overseas markets if the prosperity of this province and the standard of living we now enjoy is to be maintained.

Members of Boards of Trade, industrialists, government officials and others in British Columbia will welcome the opportunity of attending the first national conference of Foreign Trade to be held in Western Canada.

The three-day conference will provide an opportunity to hear national and international leaders discuss the following subjects:

1. Must Canada continue to finance her customers to retain her export position?
2. Will the United States choose the international trade organization, the reciprocal trade agreement policy or isolationist tariffs?
3. Will Imperial preference or the international trade organization contribute most to British Columbia's prosperity?
4. What prospects does the Pacific area hold for British Columbia's expanded industries?

Plan to register now for this important conference. Write today for full particulars, to the

Easter Nuptials At St. Andrew's Church Here

An attractive wedding of the Easter season was solemnized by Rev. H. R. Whitmore at St. Andrew's United church on Saturday evening, April 5, when Laura, daughter of the late Mr. and Mrs. Maddison, exchanged vows with Mr. David John Taylor, son of Mr. and Mrs. Dave Taylor, Summerland.

The church was decorated for the occasion with a beautiful arrangement of daffodil, forsythia and greenery, while dainty floral rosettes designated each pew.

The bride, who was given in marriage by her brother-in-law, Mr. H. R. J. Richards, was lovely in a street-length frock of white wool crepe, gold-trimmed at neckline and waist. With it she wore a floral hat with a small veil of white, and her flowers were Easter lilies and pink and white carnations. Her only jewelry was an onyx brooch.

Mrs. Len Shannon as matron-of-honor, wore a street-length Billie Burke wool crepe of a soft rose shade. A black sequin headdress with veil, and a corsage of pink and white carnations, completed her ensemble.

The groom was attended by Mr. Delmas Spalding, while Robert and Norman Richards acted as ushers. Music was provided by Mrs. T. H. Raeicot, and Mrs. Lionel Fudge was soloist.

Following the wedding, a reception was held at the home of Mr. and Mrs. H. R. J. Richards, brother-in-law and sister of the bride. The rooms were decorated with pink and white streamers, almond blossoms and daffodils.

The younger people were assisted in receiving their guests by Mr. and Mrs. H. R. J. Richards and Mr. and Mrs. Dave Taylor, parents of the groom. Mrs. Richards wore a rose frock with navy hat and trim, while Mrs. Taylor chose a grey silk crepe with gold button trim, and wore a matching hat. Their corsages were of pink and white carnations.

The bride's table was covered with an exquisite cloth, and was centred with the traditional three-tiered wedding cake, flanked with candles in silver holders. Pink and white streamers fell gracefully from the chandelier to the corners of the table. Floral decorations also added to the beauty of the bride's table.

The toast to the bride was proposed by Dr. A. W. Vanderburgh, and was responded to by the groom. Mr. J. Leitch, of Vancouver, proposed the toast to the attendant of the bride, to which Mr. Delmas Spalding responded.

Music was again provided by Mrs. J. H. Raeicot, and several charming songs were sung by Mrs. L. Fudge.

There were about 45 present at the reception and out-of-town guests included Mr. and Mrs. J. Leitch, Mrs. M. T. Beattie, Mr. Claude Butcher and Mr. David Forsythe, all of Vancouver, and

Social Editor : Muriel Hurry

Word has been received by Mrs. Ella Pohlman of the sudden death of her sister-in-law, Mrs. Claude Garratt, at Abernethy, Sask., on Saturday, March 29.

A daughter, Rosemary Jean, was born to Mr. and Mrs. Leonard Stevenson, at the Summerland hospital, on Thursday, April 3.

A daughter was born to Mr. and Mrs. Carey at the Summerland hospital, on Friday, April 4.

At the Summerland hospital, on Friday, April 4, a son was born to Mr. and Mrs. Gilbert Thomas.

Miss June Aubrey, of the teaching staff of the Summerland schools, is spending the Easter vacation with her family in Vancouver.

Mr. Alan Roper, of the local teaching staff, is spending the holiday season in Victoria.

Miss Joy Christie, of Okanagan Falls, was a visitor for several days this week at the home of Mr. and Mrs. J. E. Britton.

Miss Dorothy Britton, of the staff of the Vancouver Province, was a visitor over the Easter week-end at the home of her parents, Mr. and Mrs. J. E. Britton.

Miss Joyce Pohlman, of the staff of the Kelowna General hospital, was a visitor at the home of her mother at the Easter week-end.

Mr. Roy Angus is expected to return tomorrow, Friday, from Victoria, where he has been spending a week with his mother, Mrs. Forrest Angus, who is at present in ill health.

Miss Barbara Munn, who is a student at Crofton House school, Vancouver, is sending the Easter vacation at the home of her parents, Dr. and Mrs. W. H. B. Munn.

Miss Margaret Cammaret, district nurse, is attending the teachers' convention in Vancouver this week. Miss Cammaret made the trip by motor, and will visit with relatives at coast points which en route.

Miss Theresa Guidi, who has been spending the winter months at the home of her father, Mr. P. Guidi, left this week to return to Banff, where she is a staff member of the Banff Springs hotel.

Dr. Johns, of the Department of Bacteriology, Ottawa, arrived at the Dominion Experimental Station on Tuesday, where he is paying an official visit.

Dr. R. C. Palmer was a visitor to Rutland yesterday, Wednesday, where he addressed the Rutland W.I.

Mr. and Mrs. A. Ticehurst and small son arrived on Tuesday from Eastbourne, England, and are visiting Mrs. Ticehurst's father, Mr. A. Yeats, at the home Mr. and Mrs. Ed Hannah. Mr. and Mrs. Ticehurst flew from England to Stevens field, Newfoundland, last week, and continued from there by water and rail. Mr. Ticehurst was a member of the R.A.F., and they have been residents of England for the past three years. They hope to make their future home in West Summerland.

Misses Margaret and Davina Graham, of Vancouver, were visitors for the Easter week-end at the home of their brother and sister-in-law, Mr. and Mrs. John Graham.

Mrs. Jack Atkinson and daughter Sally, of Youbou, and Mrs. S. C. Pritchard and son, David, of Vancouver, are visitors for the Easter vacation at the home of their parents, Mr. and Mrs. A. E. Smith.

On Tuesday afternoon, April 8, the annual luncheon of the Mission Circle and Evening Auxiliary of the Summerland Baptist church was held. The speaker was Rev. John Hart, of India, and guests included members of the Pentiction Mission Circle. A good turnout and a successful afternoon was reported.

The afternoon and evening Easter services of the Summerland Baptist church were well attended. Communion was observed at the close of the morning service. "Words of the Risen Lord" was the topic of the morning service, and as the subject of the evening service, Rev. F. Haskins chose to speak on "The Meaning of Easter."

Miss Betty Calder, of the nursing staff of the local hospital, is spending the Easter week vacation at her home in Vancouver.

Miss Jean Rowley, who is taking vocational training at Veterans' School, Jericho Beach, Vancouver, returned there on Tuesday evening after spending an Easter vacation at the home of her parents, Mr. and Mrs. Gordon Blewett.

Mrs. J. Cristante and daughter, Doris, are visitors for two weeks at Powell River and Vancouver.

Mr. and Mrs. Dan Weis, of Vancouver, are new residents of West Summerland. Mr. Weis having purchased the business of Eddie's Shoe Repairs. Mr. Weis was with the Shaughnessy Military hospital orthopaedic department and specializes in designing shoes for crippled veterans. He was with the Canadian army for five and a half years.

Mrs. R. A. Grant and children, Lynda and Fraser, of Kelowna, were visitors last week at the home of Mrs. Grant's mother, Mrs. J. Moffat, and of her sister, Mrs. Alfred Johnston. They were joined here by Mr. Grant for the Easter week-end.

Mrs. H. Burdon and children are spending a vacation in Armstrong, where they are the guests of Mrs. Burdon's mother, Mrs. K. Crozier.

Mrs. John Hecker and sons, Roy and Kenneth, left on Tuesday evening for Vancouver, where they will spend a short vacation.

Mr. C. B. "Tim" Hill was an Easter week-end visitor to Vancouver.

Miss Margaret Johnston spent the Easter week-end visiting at Vancouver, returning to Summerland on Tuesday morning.

Mr. E. C. Bingham is relieving at the Pentiction hospital for six weeks as X-ray technician.

Mrs. W. L. Boul, of Pentiction, was a visitor last week-end to the home of Mr. and Mrs. E. C. Bingham.

Mr. W. W. Smith has left for Amherst, N.S., on a business trip.

Mr. and Mrs. Alf McLachlan left on Saturday for Toronto and Leamington, Ont., where they visit for some weeks.

Mrs. E. F. McClement has returned from Great Falls, Mont., where she has been visiting during the winter months.

Mr. and Mrs. Cyril Mossop, of Calgary, have received word by cable of the death in England on Sunday, March 30, of Mr. Mossop's mother. The remains will be cremated for their return to Canada. Mr. Mossop, Sr., and the late Mrs. Mossop left last fall for a visit to England, but Mrs. Mossop developed a serious heart condition on her arrival there and was taken to hospital, where she passed away last month.

Miss Peg Stewart, who is training at the Vancouver General hospital, was a week-end visitor at the home of her mother, Mrs. E. R. Stewart, Trout Creek.

Hugh McLarty is spending the holiday season in Victoria.

Mrs. W. Ritchie is a coast visitor this week.

Miss Shelia Stewart, who is teaching at Bradley Creek school, in the Cariboo district, was a visitor for the Easter vacation at the home of her mother, Mrs. A. Munn.

Miss Loretta Embree, of the teaching staff of the Osoyoos schools, is a visitor for the vacation at the home of her parents, Mr. and Mrs. John Embree. She was accompanied here by Miss Viola Hansen, of Osoyoos, who spent the week-end as the guest of Miss Embree.

A lovely service was held at the Lakeside United church on Easter Sunday, with the church decorated for the occasion with daffodils and forsythia. Several excellent numbers were given by the Lakeside choir, and a solo by Mrs. Alma Fudge was enjoyed by the large congregation.

Mr. Magnus Tait left last evening, Wednesday, for Vancouver, where he will attend the C.C.F. convention as a delegate from Summerland. While there, he will be a guest at the home of his brother, Mr. John Tait. Mr. Herb Lemke also left last night for Vancouver, as a delegate to the convention.

PEACHLAND—The Easter services at the Peachland Baptist church were augmented by the Summerland Baptist church choir. A solo by Mrs. Clark Wilkin was considered outstanding. The services were well attended.

Miss Roberta Parker, who teaches school in the Surrey district, Vancouver, is spending the vacation at the home of her parents, Mr. and Mrs. V. Parker, Trout Creek.

Mr. and Mrs. Wm. Radomske and children, Violet and Lloyd, of West Summerland, accompanied by Mr. and Mrs. J. E. Brettie and Warren Cockell, of Pentiction, were holiday visitors to Coulee Dam, Wash., where they attended the wedding of Phyllis Rust, cousin of Mr. Radomske, and Mr. Lewis King, both of Coulee Dam.

Dr. R. C. Palmer and Mr. N. May were visitors on Tuesday to Pentiction, where Mr. May addressed the Women's Institute, while Dr. Palmer showed slides of interest.

AWAIT FURTHER FIGURES

Summerland council did not come to any conclusion on Thursday, March 27, regarding the proposed extension of the domestic

water system to Crescent Beach and adjoining orchard property. Further figures on assessments, and the number of probable users will be compiled before the council decides any course of action, it was decided.

Man Who Planted First Peach Tree Dies Here

In the Summerland hospital on Thursday, March 27, there passed away a man whose past is related to the early pioneering days of the Okanagan Valley and other parts of B.C. The late Harry Hardy was the first settler in Peachland and had been recognized as the man who planted the first peach tree in the Okanagan.

Associated with the late Harry Hardy in settling the Peachland area were such well-known names as the late Charles Lambly, Wright and Thompson. It was in 1885 that Mr. Hardy came to Peachland and cut the first grass on what is now known as the Clements ranch. Primarily a cattleman, the deceased never realized when he planted his first peach tree that he was inaugurating a commercial fruit industry of vast proportions. Saw Last Spike

It was while running a pack-train through Revelstoke in November, 1885, that Mr. Hardy witnessed the driving of the last spike in the C.P.R. at Craigellachie by Sir Donald Smith, later Lord Strathcona. He has stated of this event:

"That afternoon, when I was coming back, I noticed that nearly every tie at that place was filled with spikes. You see, nearly every man on the grade was determined that he was going to drive the last spike, so they all went at it."

The late Harry Hardy called the whole population of Peachland his friends, and he was also widely known in other parts of the Okanagan. He is survived by his sister, Mrs. Jennie Lengo, of Peachland.

Many floral tributes at the funeral services in the United church at Peachland on Saturday afternoon, March 29, at 2.30 o'clock, paid mute testimony to his wide circle of friends. Rev. H. S. McDonald conducted the service.

Pallbearers for the funeral were Ted Clements, Hugh Ferguson, Danny Cousins, Chesel Haker, E. A. Baptiste and Ted Topham. Funeral arrangements were in charge of Jack Cameron.

Cattle Rancher
It was during the Granite Creek gold rush in Tulameen valley that Harry Hardy first saw the Okanagan, as he was running a pack-train from the main line to that point.

He joined Charles Lambly as a stockman and later took up land and purchased stock of his own.

Pessimists told him that peach trees could not withstand the Okanagan climate and he used to chuckle in later years as he witnessed the success which has crowned commercial efforts in this respect.

Mr. and Mrs. E. Wright and family, formerly of Keremeos, have taken up residence in Summerland, and are occupying the former Carscadden house.

Medal Contest Held By W.C.T.U. At Peachland

PEACHLAND—A medal contest, sponsored by the W.C.T.U., was held in the United church on Friday, April 4, with seventy present. Rev. H. S. McDonald gave a scripture reading and prayer at the outset. Out of the five contestants for the junior bronze medal, Gretel Domi was the winner. Two groups competed for the senior bronze medal. The first group, with six contestants, found Edith Collins the winner and Shirley Cooper was the second group winner.

Between the contests, some interesting numbers were presented, including a chorus, "Toast to Canada"; a cradle song; "I Love to Tell the Story" a solo by Doreen Clements; dialogue, "A Temperance Lecture," by eight girls.

Billie May Mannering received a book for being the most natural actress in the dialogue presentation.

Five girls recited the Ten Commandments, with Mrs. Wheatley, Mrs. McDonald and Mrs. Twiname as judges. While the judges were selecting the winners, Rev. McDonald gave an interesting temperance talk, and Miss Elliott pinned the medals on the winners.

The past president, Mrs. Pierce, invited those who learned the commandments to her home for tea and to receive their awards on Sunday, April 6.

A silver collection contributed \$6.28 to the W.C.T.U. coffers.

NEW INDUSTRY FOR KELOWNA

A new industry is being launched in Kelowna with the announcement by McGavin's Bakery Ltd., that it will build a plant at a cost of \$54,000 and will employ 23 persons. The firm intends to use its Kelowna plant as a distributing centre for the interior.

The Kelowna club has sold two portions of its property, that on Ellis street to the McGavin firm, and its Pendozi street frontage to the McColl-Frontenac oil company, it is reliably reported. The club will erect modern premises on the on the remainder of its property between these two enterprises.

SCHOOL PUPILS IN BROADCAST

PEACHLAND—A radio broadcast at Kelowna was put on by the Peachland high school on Friday, March 28. Margaret Tulmer, representing the voice of the Black and Gold, introduced the Peachland group. The Peachland announcer, Virginia Carno, then introduced the first artist, Doreen Trautman, who sang, "Alice Blue Gown." Accompanying her on the piano was Betty Mannering.

Next was the play, "My Last Duchess," by Robert Browning. Those taking part were John Long, who took the part of Browning; Douglas Shaw, as Bruno, and Gerry Stump, as Fra Pandolf; Beatrice Cousins took the part of the Duchess and Arthur that of the Duke. Director was Mr. Gerrie, high school principal.

Following the play, Barbara Topham and Gail Witt ended the program with a piano duet.

The entire party were invited to the home of W. A. C. Bennett, M.L.A., for refreshments, with Mrs. Bennett acting as a gracious hostess.

CALL FOR TENDERS

Tenders are being called for the probable erection and reconstruction of school buildings, including remodelling of the Summerland elementary school. It is necessary to obtain firm tenders for this work before a by-law can be submitted to the taxpayers of School District No. 15, or before the government will indicate the portion of the expense it will make itself liable for.

Use of 2,4-D Is Advocated

(Experimental Farm News)

Broad-leaved lawn weeds, such as cat's-ear, dandelion and plantain, have long been a curse to the professional gardener and a source of much annoyance to the home owner who prides himself on a weed-free lawn. Since the introduction and the widespread use of 2,4-D, weed control in lawns seems now to be within the reach of all who care to try this new selective herbicide.

Tests at the Dominion Experimental Station, Saanichton, B.C., indicate that 2,4-D when applied according to the manufacturer's directions, will control cat's-ear, dandelion and plantain in lawns if sprayed in the spring, summer or early fall, provided conditions are right for active growth at time of application. One spraying is usually sufficient, but a second one may be necessary to control late appearing weeds.

For best results, spraying should be done when the weather is bright and warm and when plant growth is most active. Under these conditions 2,4-D can be taken in almost immediately by the plant and the typical effect of the hormone may be apparent within 48 hours after treatment. Less certain, but generally effective control is also possible in cloudy weather, or in the periods of high humidity that prevails before or after a rain, provided, of course, that the 2,4-D is not washed off before it can be taken up by the plant.

In spraying with 2,4-D, it is essential to follow the manufacturer's recommendations or injury may result to bent grass or to white clover. As some plants are very sensitive even to very small traces of 2,4-D, great care should be exercised if the same equipment must be used for spraying flower or vegetable crops. The sprayer should be thoroughly washed out with soap and hot water and then rinsed. If possible, 2,4-D equipment for spraying anything but weeds should not be used.

After the weeds in the lawn have been killed, it is good policy to seed the bare spots with grass seed. Fertilizer may also be applied with the 2,4-D and this stimulation may be all that is necessary for the grass to fill up the holes left by the dead weeds.

Mr. and Mrs. Fred Bleasdale have moved to Westbank, where they will make their future home. Mr. Bleasdale has accepted the position of manager of the Westbank Co-operative Growers.

THIS WEEK'S RECIPE

Coffee Delight

One tbs. gelatin, 1/2 cup milk, 1 1/2 cups coffee, 2/3 cup sugar, 3 eggs, 1/2 tsp. salt, 1/2 tsp. vanilla.

Soften gelatin in cold milk. Combine hot coffee with 1/3 cup sugar, add rest of sugar to slightly beaten egg-yolks, then add the hot mixture and cook over low heat until thick. Remove from heat, stir in gelatin mixture, cool. When mixture begins to thicken fold in stiffly beaten egg-whites and vanilla. Pour into sherbet glasses and chill until firm, then serve as is.

Getting away from desserts, as such, here is a recipe for cookies that is sure to ring the bell. They can be served at any meal, are fine with tea at the afternoon sewing circle... are perfect punch-packers. And they stay quite a long time... if they don't get eaten up first.

Board of Trade Votes For Establishment of Liquor Store Loc.

By a majority of 41 to 11, the Summerland Board of Trade voted in favor of seeking a B.C. Government Liquor Store in Summerland, when the monthly meeting was held in the Legion hall on Thursday, April 10. This contentious subject was introduced in a report from the new industries committee of the board, asking that the general meeting discuss the subject and ratify by secret ballot the petition to the provincial government.

There was not as much discussion on the subject as was considered a subject of this nature would evoke. Rev. F. W. Haskins, supported by W. M. Wright, led a campaign against introduction of the subject before the board, but did not actually ask for an amendment vote to shelve the subject.

A letter has now gone forward to W. F. Kennedy, Liquor Commissioner, from the trade board, asking that a liquor store be established here. Copies of this letter have been forwarded to the Attorney-General and W. A. Bennett, M.L.A. for South.

Committee Report

The new industries committee submitted a report on the liquor store question, as follows:

1. We feel that a population of more than 3,000 persons should not be required to travel a distance of twenty miles every time they desire to make any purchase from the nearest government liquor store.

2. We feel that there will continue to be a large proportion of the population of this community who will consume beverages from such a liquor store regardless of where it is placed.

3. Further, we feel there would be no increase in the consumption by placing a liquor store in this municipality as it has been shown on repeated occasions that the easier it is to obtain an article, the less the clamor for such.

4. It is also recognized that the wealth and development of a community is based on the proportion of sales which are made within its boundaries. By forcing local persons to travel twenty miles for their purchases, the business life of the community is hampered, in that those persons who travel to make one type of purchase, will also spend money in other places of business.

5. Finally, we feel that there is a considerable demand throughout this community for a liquor store here and that the board of trade is a reasonable cross-section of the community as a whole and can speak for the municipality.

"The new industries committee respectfully requests the executive of the Summerland Board of Trade to place this report before the general membership for a secret ballot and if the meeting desires such a move, to press forward a campaign on the Attorney-General's department."

"Not Proper Place" "The board of trade is not the place to argue such a proposition," was Rev. F. W. Haskins' contention, being the first speaker, after the adoption of the new industries committee report was requested by its chairman, Art McPhail, and seconded by C. B. Hill.

"The board of trade should not be a mid-wife of a liquor store, and should not be a mouthpiece for those desiring a liquor store," continued Rev. Haskins. He contended that such an issue would be against the conscience of some members and would place them in an invidious position as members of the board.

In this contention, Rev. Haskins received the support of Walter M. Wright.

President F. W. Schumann explained that, as chairman, he would have to ask for a vote as the committee had asked for adoption of the report. Further, he wished to see this question settled once and for all and not be re-introduced every six months. The liquor store question was introduced last spring to the board of trade but did not reach the voting stage.

H. Findlow spoke on the purchases made by local persons who go to Penticton, and considered that too much money leaves the community to neighboring centers.

J. H. Pledge suggested that interests other than the board of trade should be consulted.

"Why should there be a secret ballot?" queried W. J. Beattie. "Aren't we men enough to stand up and show our feelings?" There was no reply to this query other than that the report asked for a secret ballot.

Without any further discussion, the scrutineers for the ballot were appointed and the vote proceeded, with 53 ballots turned in. One was blank, 41 voted in favor of the board taking action, and 11 were negative.

As soon as the result of voting was made known, Rev. Haskins left the hall.

WANTS INFORMATION

James Dunston, Sr., approached the council on Monday for information regarding water storage licence and right-of-way for municipal flumes across his property in Garnett Valley. This is a question which has arisen on numerous occasions and Municipal Clerk F. J. Nixon stated he will make the necessary inquiries from the water department at Kelowna.

PASSES AWAY HERE

Funeral services for the late Edwin John Riley, aged 67, who passed away in the Summerland hospital on Sunday, April 13, were held in Penticton on Tuesday, April 15. He leaves two daughters, Miss Esther Riley, formerly on the staff of the Summerland hospital; Mrs. J. Murray, and a son, William, all residing in Penticton. The late Mr. Riley had been a resident of Merritt for many years.

Summerland Review

Vol. 2, No. 15.

West Summerland, B.C., Thursday, April 17, 1947

SON OF LOCAL RESIDENTS KILLED

Funeral service for the late Frederick Wolff, son of Mr. and Mrs. Wolff, residents of Peach Orchard, Summerland, was held on Wednesday afternoon at Penticton. Deceased was one of three victims of a crash between the truck they were driving, and a KVR passenger train, which occurred at a level crossing on Penticton's Main street, Wednesday, April 9, at 11:32 p.m.

The other victims were Chester J. Izaak and Paul Abel. They were driving a half-ton truck, which was dragged 65 feet by the engine. The engine smashed head on into the truck which was estimated to be directly across the track at the time of impact. Death was said to have been instantaneous.

NU-WAY CAFE OPENS SATURDAY

Under new management of Harold and Leonard Downs, two returned men, the Nu-Way Cafe is being reopened this Saturday, April 19. The new proprietors are originally from the coast, although Harold Downs has spent the past winter in Penticton. A barber shop is to be opened within the next two weeks.

A great deal of work has been completed in renovating the cafe premises and the proprietors hope to continue this plan of progress to include the entire building.

As soon as the roof can be repaired, a systematic program of renovation is to be undertaken in connection with the hotel rooms in the same building.

Harold Downs served in the R.C.A.F., while Leonard Downs was in the Canadian army for 5½ years.

Giant's Head Road Promised As Soon As Machinery Can Be Spared From Other Projects

As soon as equipment is not needed for other planned work, a road will be constructed up Giant's Head road, Hon. E. C. Carson, minister of public works, informed Reid Johnston, past president of the Summerland Board of Trade here on Friday. A bulldozer will hew a rough grade to the top of this peak and a gravel surface will be provided, it is believed.

This project has been fostered by Mr. Johnston for some years past as he believes it would be a great scenic attraction for this district. His plan includes the eventual building of a lookout on Giant's Head as a spot which would prove to be of great interest to the travelling public as well as local residents.

The view obtainable of the Okanagan Valley from Giant's Head is unsurpassed anywhere in the Valley, those who have climbed the peculiar formation claim.

Meet Local Officials

Hon. Mr. Carson was accompanied to Summerland by W. A. C. Bennett, M.L.A. for South Okanagan, and they met here Reeve W. R. Powell, Municipal Clerk F. J. Nixon, Mr. Johnston and trade board secretary, Len Hill and E. R. Butler.

Various municipal problems were discussed with Reeve Powell, including the contentious trees assessment as it affects the school cost division.

Mr. Bennett again informed Reeve Powell that the taxation department had ruled that the trees should come out of the assessment for school purposes and he considered that was the ruling.

However, if Penticton wishes to contest the issue, then an arbitration board can be set up, according to new legislation passed at the recent session of the legislature.

In the meantime, Penticton has proceeded to set its mill rate with no provision for a re-adjustment of the school costs. Summerland council is proceeding to decide its mill rate, without the trees, and between the two, there is a difference of an approximate amount of some \$6,000.

Trout Creek Bridge

The public works minister assured the local civic officials that the Trout Creek bridge is still a live issue. He regretted that work had not been started by now but the entire public works program is being held up because of lack of machinery and materials.

He promised that the new bridge will be constructed as soon as men and materials are available. He visited the bridge and agreed that it is a dangerous bottleneck to Okanagan traffic.

Asked regarding possible relocation of the Okanagan highway from this section to Penticton, Mr. Carson stated that a survey of the best possible route is planned, but no action has been taken yet. He could not give any definite idea when such a survey will be made.

However, he assured the local men that no action towards relocating Okanagan highway can be taken until the Hope-Princeton highway project and the approaches to the highway are completed or well on the way towards completion.

Both Mr. Carson and Mr. Bennett emphasized that they could give no idea as to the possible route which the highway might take. That is entirely an engineering matter, they insisted.

In the south Okanagan, \$90,000 has been apportioned for maintenance work, while the Similkameen appropriation is \$85,000.

SEEK PRICES ON LOWER TOWN LOTS

A. E. Smith, on behalf of the Summerland Co-operative Growers Assn., approached the municipal council on Monday, seeking prices on municipal lots in the neighborhood of the packing and canning plants in lower Summerland.

For the half-lot between the fish hatchery and the cannery, a width of 26 feet, a price of \$260 was established, while for property between the Jenkinson building and the Lakeside Inn, a sum of \$1,100 was set.

Price on the old hotel site was named at \$2,500, but the council deemed that it would not part with both the hotel site and the \$1,300 property unless the co-op had definite plans for use in the near future.

Miss Brooke, of Oyama, had sought a lower town property with a depth of 25 feet for establishment of a small tea business. The council had asked \$300, which she considered ridiculous.

The council reconsidered and decided on a price of \$185, which was acceptable to the prospective purchaser. A further 12 feet of space may be available if the provincial government approves of its sale. The council is making inquiries concerning this land.

Mr. Fred Gartrell returned on Sunday afternoon from Buffalo, New York, where he was visiting relatives during the winter months.

Growers Will Hear Reports Of Officials

Next Thursday, April 24, the annual meeting to hear reports from the B.C. Fruit Board and B.C. Tree Fruits Ltd. on the past season's operations and the prospects for the coming year, will be held in Summerland, preparatory to the annual growers' convention in Kelowna in May.

G. A. Barrat, B.C. Fruit Board chairman; J. R. "Jock" Stirling, BCFGA president, and an official of Tree Fruits are expected to attend. It is hoped A. K. Loyd will be the latter official, but he could not state this definitely when last contacted.

Latest developments in the effort to obtain marketing legislation from a dominion angle will probably be heard, while labor problems likely to confront the industry this season, will be discussed.

Fish Hatchery Started This Week

Excavation and clearing work for the new provincial government fish hatchery, to be built in lower Summerland on No. 5 highway, has commenced this week and will proceed as rapidly as materials are available, it was announced here by Game Commissioner J. G. Cunningham, who visited on Monday.

This building will be erected at a cost of some \$12,000 and will be a decided asset to that section of the community, it was revealed from a study of the plans.

In the main building to be erected, on the ground floor there will be a garage, two bedrooms, a living-room, kitchen and bathroom for the caretaker and fisheries supervisor; a preparation room, large refrigeration plant, and storage room for the fry and fingerlings.

A full size basement is to be erected with a furnace and 16 hatchery troughs for the hatchery propagation.

This building will be quite attractive in appearance as it will be finished with two by eight-inch log cabin cedar siding and then varnished. The building is extensive in size, being 50 feet by 48 feet. Good insulation is provided throughout.

Harold Cullerne, Vancouver, was the architect who designed the building, but no announcement as to the contractor has been made.

This project has been sought by every fish and game club in the Okanagan and Similkameen but the Summerland spring water was the most suited for such a hatchery operation, coast officials deemed last summer when they investigated all sites and all water supplies from Salmon Arm south and in the Similkameen.

Granville Morgan, although he retired last year from the fisheries department, has consented to carry on as supervisor until a successor is brought in.

JUST \$26 SHORT

Only \$26 more is needed for Summerland to equal its objective in the recently concluded Red Cross campaign. The Summerland quota was \$3,000, more than this district has ever been asked to raise before. Despite the increased objective, the canvassers turned in \$2,974. Mr. Jack Dunston, campaign treasurer, has announced.

ATTEND WORKSHOP CONFERENCE

C. E. Bentley and B. H. Robson, chairman and vice-chairman, respectively, of the Summerland Film Council, attended the National Film board workshop, in Kelowna this week. Representatives of film councils from Kamloops south through the Okanagan and over to Princeton, attended this two-day function on Monday and Tuesday.

Mr. and Mrs. Joe McLaughlan are sending a week's holiday in Vancouver.

Mr. John Gloyd left last week-end for Copper Mountain, B.C., where he has accepted a position with the Granby Mines stores.

Improvements To Municipal Roads Expected

An estimate of needed road improvements in Summerland, apart from any hard-surfacing program, was submitted to the municipal council on Monday by Les Gould, road foreman, who had collaborated with the chairman of the roads committee, Councillor Harvey Wilson.

Among the recommendations were the following:

1. Fill at foot of hill near Jones creek to ease the grade.

2. Cutting down hill at T. Kato's property.

3. Widening of bad corners at upper end of Garnett Valley.

4. A long fill in the low part of the South Prairie Valley road where the water is close to the surface, and a corner to have a small fill near the Station road end.

5. Widen the Baptist church hill for safety of pedestrians.

6. Home of the Friendless road.

7. Bring Granville street to a proper grade for drainage and oil to lay the dust.

8. Paradiat Flat road, general widening with grader.

9. C. J. Huddleston and H. R. J. Richards' district—widen with grader where possible.

Improvement work has already been accomplished on Hastings street, Mr. Gould reported, while some work was done on the Temple corner and on other roads, including graveling of alleys.

Present weather conditions do not lend themselves to grading work, as it is too dry.

Mr. Gould also asked for council consideration in the purchase of a roller. Information will be obtained on such a purchase, council agreed.

A request was also submitted from James Mitchell, Tex Adams and Tom Hooker for the filling in of the ditch past the Campbell sub-division, with the water to be piped through the entire length.

Until arrangements can be made to obtain a bulldozer for some of this proposed reconstruction work, it was decided to proceed with what improvements can be done by the maintainer.

As plans and specifications for the proposed revision of the elementary school in Summerland have not arrived from Vancouver, the date for submitting tenders has been extended until April 28. Mr. J. J. Burnett school inspector, informed The Review yesterday. Other tenders must be submitted by April 24, as previously advertised.

Softball and Baseball Due To Start Soon

Summerland's girls' softball team is making plans to defend the Rexall trophy, emblematic of South Okanagan supremacy, in the 1947 season against an enlarged league which may take on an international tinge.

A reorganization of the league is expected this year with teams from Omak and Oroville being invited to participate. Teams likely to play on the Canadian side are Osoyoos, Oliver, Penticton and Summerland.

At a recent organization meeting, Doreen Howard was selected as president and captain of the girls' softball club, with Muriel Barry as secretary-treasurer.

Continuation of the AOTS' club sponsorship is expected this season, but coaches for the club are being sought at present.

It is anticipated that play this year will be on the school grounds. First practice has been scheduled for April 28, and it is hoped that many new players will try out for positions on the local squad.

Baseball plans are also taking shape, and last Sunday a work bee was held at Crescent Beach, where the ball players will covet this season. Practices are now being held in preparation for the season opener on Sunday, May 4.

This Friday, the softball and baseball clubs are combining in a big dance at Ellison hall to provide funds for the coming year.

Permanent Post Of Chemist To Be Established

Ralph Miles, of the dominion department of agriculture division of chemistry, is coming to Summerland early next month to conduct chemical research for the entomological branch in its work for the tree fruit industry. Dr. James Marshall, government entomologist, told The Review this week.

Mr. Miles was here several weeks last year to conduct DDT analysis and assisted greatly in the final tests which were made for codling moth control measures.

Last January, the BCFGA annual convention, on a resolution from the Summerland local, urged on the agricultural department at Ottawa the need for the establishment of a permanent post of chemist to assist the entomologists and plant pathologists.

It is understood that Ottawa has agreed with the growers' plea and Mr. Miles' appointment is to be permanent.

ATTEND WORKSHOP CONFERENCE

C. E. Bentley and B. H. Robson, chairman and vice-chairman, respectively, of the Summerland Film Council, attended the National Film board workshop, in Kelowna this week. Representatives of film councils from Kamloops south through the Okanagan and over to Princeton, attended this two-day function on Monday and Tuesday.

Mr. and Mrs. Joe McLaughlan are sending a week's holiday in Vancouver.

Mr. John Gloyd left last week-end for Copper Mountain, B.C., where he has accepted a position with the Granby Mines stores.

Hospital Rates May Get Boost Here

Possibility that hospital rates will have to be raised again was voiced at the monthly meeting of the Summerland Hospital society directors on Tuesday evening with a communication from the Kelowna hospital board stating the new scale of nurses' salaries and ward rates.

At the coast, nurses' starting salary has risen in many instances to \$140 per month, gross, so that Kelowna hospital has now adopted a scale of \$135 to \$155 per month. Summerland recently raised its gross starting rate to \$120 per month.

Ward rates at Kelowna are now \$4.50 for public ward; \$6 for semi-private, and \$7.50 for private wards, to compensate for the increase in salaries.

No action will be taken by the Summerland hospital until the regional hospitals meeting is held in May, it was decided.

Secretary J. E. O'Mahony pointed out that with the rise in cost of living, the amount to be charged for nurses' board and room should be raised from \$25 per month, the rate which has prevailed for some time.

Commencing May 1, new regulations will go into effect regarding visiting hours at the local hospital. Due to the amount of noise being created, the board has decided it must rule that no children will be allowed in the hospital building. Only two visitors will be allowed in a patient's room at one time and no smoking will be allowed in public or semi-private wards.

Notices to this effect are to be posted at the hospital, it was agreed.

The new emergency lighting units have been purchased from War Assets Corp., and are now available in case the regular lighting system fails in the operating room.

Summerland will draw any supply of whole blood it needs from the cold storage locker in Penticton, it was agreed on Tuesday. Penticton hospital board has made arrangements for the storage there of sufficient blood, under the Canadian Red Cross scheme, to provide for the needs of Summerland and Oliver hospitals, as well as Penticton.

The local board is acknowledging this service with thanks and will sign a contract with the Red Cross for this service.

Arrangements are being made with the ladies' auxiliary to the hospital, for the ordering in the near future of the furniture and equipment for the new maternity wing and nurses' home. This will mean an expenditure of considerable sums of money, it was stated.

TAKE ELECTRIC LIGHT POLES OFF GRANVILLE STREET

W. A. "Bud" Stewart has given permission for the municipal electric light department to construct a light and power line through his orchard property on Granville street to provide a direct line from the Giant's Head road to the foot of the Baptist church hill.

This will mean that the poles in the east block of Granville street will be removed. Arrangements are to be made with the Okanagan Telephone Co. to take its wires on these new poles.

Electrical Foreman T. P. Thornber stated on Monday that he is anxious to start this work in the near future.

Also discussed at Monday's session was the possibility of trading a twenty-foot strip of the Stewart property adjoining the east end of the Living Memorial park-playground for three lots, totalling 40 acres in the James lake area. This acreage is mainly alkali land although between six and seven acres could be put under cultivation, it was suggested.

Details of this deal have not been consummated as Mr. Stewart wishes to hold any action until the estate of the late Mrs. Muir Stewart has been wound up legally.

Mr. and Mrs. E. J. Mayert, of Portland, Ore., are guests at the home of Mr. Mayert's brother, Mr. Gus Mayert.

Mr. Fred Mayert of Fargo, North Dakota, is visiting at the home of his brother, Mr. Gus Mayert.

EDITORIAL

The Liquor Store

Not for some time has there been a subject which has caused so much discussion as that of the establishment of a liquor store in this community. The action of the board of trade in deciding, by nearly a four-to-one majority, to press for the store here has created a considerable stir, in view of previous attempts to introduce this subject in trade board meetings.

The board of trade was empowered to press home to the B.C. Liquor Commissioner, W. F. Kennedy, that Summerland, with a population of 3,000 persons, needs to have a liquor store here in order that those who wish to make purchases do not have to travel twenty miles.

But the board has no further power. It was not told to go out with a petition and obtain the views of all the citizens in the community. It was merely given authority to press home to the liquor commissioner a need in this district.

There will probably be opposition to such a move from those who never drink and do not wish other persons to touch either light wines, beer or hard liquor. In fact, we know there is opposition and we have been informed that certain persons are going to fight the project with every means at their disposal.

It is generally a situation of this nature which arises. We are quite sure that the "drys" are in the minority in Summerland. By this category we mean those who would prohibit any sales of beer or liquor anywhere, despite the recognized fact that prohibition and such measures will not stop some persons drinking, regardless of the laws of the land.

That opposition is generally well organized while those with more easy-going views are never organized until some drastic action by the "drys" forces them into a concerted move.

It was the same situation with the application for a licence to sell beer at the local branch of the Canadian Legion. The Legion members wished to have the same privilege of consuming beer on their premises as they had when they were in the armed services.

The Legion made the application. The "drys" circulated a petition, obtained a number of signatures, and the liquor commissioner turned down the proposition. This aroused the ire of the returned men, those who had been unused to such confinement of their liberties while they were in the services.

The Legionnaires, in turn, took action, circulated a petition and obtained nearly 1,300 signatures in their favor from a population of not more than 2,000 adults. The Legion was careful that only those who had reached their majority were allowed to affix their signatures to this document.

From this petition, it can readily be seen that the preponderance of opinion was in favor of the Legion obtaining a club licence to dispense beer to their members. We can safely say that the same proportion of persons, if not more, would favor the establishment of a liquor store in Summerland.

The Review believes this statement implicitly and it was with the view that the majority of persons honestly desire such a store in Summerland that we advocated the board of trade taking a stand on the subject in last week's editorial columns.

We contend that if the majority of persons desire any given project, then a small minority should not be allowed to stand in the way. That is a fundamental of democracy.

Announcement on Monday that the liquor control board is establishing liquor stores in suburban Vancouver centres draws a parallel case to that existing in Summerland. The smaller community here does not wish to have travel miles to purchase liquid refreshments, nor does the inhabitant of the outlying districts of Vancouver wish to travel to the centre of the city for his purchases,

Sour Note

By REIDFORD

The Inside Story

By THE AGROLOGIST

Twenty dishes of spinach at one sitting! Such a prospect might daunt even the redoubtable Pop-eye. Yet that is the ordeal which Charlie Strachan and the staff of the Fruit and Vegetable Processing Laboratory set themselves last Saturday morning. It is all part of a comprehensive research project designed to ascertain which varieties of fruits and vegetables are best adapted for preservation by freezing, and what preparation they should receive before being frozen.

The quality of a frozen packed product is influenced greatly by variety. For example, after sampling several of the aforementioned dishes of spinach, I agreed with the experts that Bloomsdale Savoy retains its flavor much better when frozen than does the King of Denmark variety.

The treatment which vegetables receive, before freezing is also most important. They should be blanched—that is to say, pre-cooked for a short time, then dipped in cold water. Spinach which has been blanched too short a time before freezing, undergoes chemical changes which make it taste like musty hay smells. I know because I tried some. On the other hand, too much blanching destroys the freshness of texture and flavor characteristic of properly frozen products.

Spinach is not the only vegetable which makes a good frozen product. Asparagus, peas, beans, cauliflower and corn are all excellent provided the right varieties and preparation methods are used.

Many fruits make highly satisfactory frozen products. Strawberries, raspberries and loganberries are just marvellous—especially with a little Jersey cream. I was not greatly impressed with frozen sweet cherries, but the sour varieties retain their flavor well and are fine for pies.

Frozen peaches taste much like the fresh product, but with most varieties the flesh tends to darken shortly after the fruit thaws out. This can be checked by adding 150 milligrams of vitamin C—ascorbic acid if you wish to be technical—to each pound of prepared fruit before freezing. The tests also revealed that three new varieties, Veefreeze, Vanguard and Spotlight, are very resistant to flesh browning.

All of which indicates that when Summerland gets that frozen food locker plant, which Tommy Yung is planning to construct, there will be plenty of information available as to what varieties of fruits and vegetables to freeze, and how to prepare them for the frozen pack process.

THE Feminine Front

Muriel Hurry

A great deal has recently been written in women's magazines about the latest news in prints. A completely new concept has taken place in prints, which has lifted the textile designing business into the fine-art category. The new lines of prints are so revolutionary that they overshadow the actual fashions in news values.

Designs are masterpieces of pattern and coloring, with story motifs and other related objects blending into a fascinating combination. Social significance themes, such as housing shortage or abstracts, portrayed by swirls and squiggles done in delicate tracery or bolder technique, are all popular.

New color mergers are appearing as more suitable to the interpretation of these designs. Gummetal and white, hot pink with lichen green, ink blue with melon and maroon, are examples of the exciting possibilities. The exotic

touch will be displayed widely this summer, with congo blossom designs, paisleys and "missionary" prints from Borneo, blooms from Hawaii and an African print that is popular with designers of the new prints, called the "tapa" print, is sure to be an exact reproduction of a primitive wooden hand look design with a stencilled look, its filled-in appearance giving it the look of a photograph.

Many of the current prints are derived from contemporary paintings. Upon occasion, an entire painting has been used, but more often a small section of it has been used as it was adapted to the fashion design.

A startling print is one developed by Tinn Lasser, a fish-scale print, with the appearance of the real fish scales. Another brilliant pattern is formed by reptiles in a very original design.

For some time I have been clipping from papers and magazines

The Mail Box

PASTEURIZATION

West Summerland, B.C.
April 14, 1947.

Editor, The Review:

I agree with Mrs. Plunkett that certain grades of raw milk should be pasteurized or raw milk that is shipped long distances to cities, but clean, raw milk produced locally from tested herds for T.B. and Bang's disease and from clean barns, is real good milk and is not to be compared to pasteurized milk. Some people who are demanding all milk be put under compulsory pasteurization are reflecting on raw milk dairymen who are doing their utmost to produce clean milk and have been of benefit to the community during the war years when milk could not be bought at any price.

Fresh, raw milk has three valuable vitamins which pasteurization destroys with heat. They are (B) (B Complex) and (C). B Complex has only been discovered recently. It prevents a form of anaemia and the vitamin is as rich in raw milk as in liver.
F. MUNRO.

Mrs. W. Snow left by plane on Tuesday from Vancouver to New York and is expected to arrive in London today, Thursday, for a visit of some weeks. Her return trip, also by plane, is scheduled for July 15. This is the first occasion Mrs. Snow has ever been in an airplane.

short household hints that should prove useful. Here are a few samples that I hope you will be able to use.

In line with the new fad of making dresses from tubular jersey, it has been suggested that the tops of old stockings make fine dresses, especially cotton and wool stockings. A little child can cut and fashion these herself and the top of the stocking can be used as a sash. A small girl will be entertained for some time in this way.

Gum may be removed from a child's hair, or from any other surface with olive oil or castor oil. Butter is also suggested to remove gum from hair. A good substitute for catsup appears in the women's column of a weekly paper. Two number 2 cans of tomato juice are used, or an equal amount of sieved canned tomatoes. Added to this is a heaping dessert spoonful of flour, one-quarter cup of mild vinegar, one whole clove and a small teaspoonful of pickling sauce. Let simmer until the mixture thickens, then strain and bottle it. This catsup is suggested as very good with baked beans.

Another hint says that if a tablespoonful of vinegar is added to the fat used for frying doughnuts, the splattering will be lessened and the doughnuts will have less tendency to absorb the fats.

A health hint states that molasses is a good source of iron. A teaspoonful of molasses gives about 10 per cent of the adult's daily requirement of iron, and about 20 per cent of a child's. None of the richness of the iron in molasses is lost in cooking. A piece of sandpaper used at a grinner to open stubborn fruit jars is a handy hint, and one I have seen used successfully.

Pioneer Days

Thirty Years Ago
April 13, 1917

The Court of Appeal at Victoria has dismissed the appeal of T. McAlpine, who appealed a verdict in favor of the municipality of Summerland. Costs of the municipality are assessed against Mr. McAlpine.

Dr. Andrew headed a board of trade delegation to the council seeking the erection of sign posts. The council will assist the trade board in this work and has granted \$20 towards the work.

Rev. H. A. Solly has approached the council on behalf of the trade board, seeking daylight saving from April 15 to October 15. He was informed that a petition should be circulated to ascertain the wishes of the public.

H. D. Suckling, former Bank of Montreal manager here, is returning to the Okanagan to manage the Penticton branch.

F. A. C. Wright, of Lebanon, Pa., has purchased the large house and land formerly owned by Mrs. W. H. A. Moore.

John Clements, an Old Country gardener, has come to make Summerland his home.

Mrs. Angove and Mrs. Andrew gave an Edison and Planola recital last night at the home of the former.

Summerland is in need of a bakery, according to our women folk.

Mr. and Mrs. Wm. Dryden received word on Monday that their son, William, had been killed in action.

Twenty Years Ago
April 14, 1927

Ditchmen appointed by the council are: Jones Flat, Ben Newton; Paradise Flat, E. Mountford; Prairie Creek, E. Vanderburgh; Garnett Valley, Mr. Handley; North Lakeshore, A. Pentland; South Lakeshore, Mr. Whitford; Giant's Head, A. Hargraves; Trout Creek, main, R. Mitchell.

Lower town residents have sought information from the council regarding installation of a fire alarm.

Tax rate for 1927 has been set as follows: Schools, 2 mills; municipal, 12 mills; debentures, 16 mills.

Retiring directors, Dr. F. W. Andrew and H. C. Mellor, were re-elected as directors of the Summerland Telephone Co. last week. The company declared a six per cent dividend on paid-up shares.

On Sunday afternoon the many friends of the late Hector Sutherland gathered in Peach Orchard to pay their last respects, Rev. H. A. Solly officiating.

Ottawa won the Stanley cup, defeating Boston Bruins, 3 to 1.

F. M. Black, former provincial treasurer of Manitoba, will be offered the chairmanship of the Central Committee of Direction for the fruit industry of the Okanagan, Hon. E. D. Barrow has announced. The chairman's salary will be \$10,000.

A quiet wedding was solemnized on Tuesday morning when Mr. Alan Cross, of Campbell River, was united in marriage to Miss Hazel Stuart.

24-HOUR FERRY SERVICE STARTS ON MAY FIRST

Twenty-four-hour ferry service will be commenced on May 1. Hon. E. C. Carson, minister of public works, declared last week at Kelowna when the new Kelowna-Westbank ferry, the M.S. Lequime, was launched. Mrs. W. B. Hughes-Games, wife of Kelowna's mayor, christened the ship in a colorful ceremony.

The Lequime is undergoing trial runs at present and is expected to relieve the M.S. Pondosi in the near future. After the latter is overhauled, the two ferries will be placed in operation for a shuttle service during the busy summer months.

At the ceremony, Mr. Carson declared: "The department of public works has looked forward to curing the headache (of ferry service) but it has many more to cure. I am sure you will enjoy this better service for many years to come."

At a Kelowna Board of Trade luncheon on Thursday, Mr. Carson said the all-night service would be started as soon as the Pondosi is overhauled. He said the department regretted discontinuing the service at the start of this year, but it was necessary in order to protect the engines of the Pondosi which were working about 18 hours per day.

"It will cure the headache for a few years, anyway, of the No. 5 highway," he declared. He also traced the many problems which the department faces regarding lack of materials, equipment and labor, and stated that as a result of the provincial government talking over the three-cent-a-gallon gasoline tax, the government will be able to hard surface 200 miles of highway yearly.

Blind Child Plays the Piano

Though blind, 21-month-old GARY TRENT, of Freelandville, Ind., can play several tunes on the piano. The boy, son of Mr. and Mrs. Robert Trent, startled relatives a few months ago when, imitating his father, he sat at the instrument and began to pick out a few tunes. Since then his style has improved and his playing is the wonder of the neighborhood.

Baptist Church Scene of Quiet Ceremony

A quiet wedding was solemnized at the Baptist church parsonage on Friday afternoon, March 28, when Isobel Beatrice, second daughter of Mr. and Mrs. C. E. Bolton, West Summerland, and Mr. George Andrew Brown, youngest son of Mrs. Barbara Brown, Summerland, were united in marriage, Rev. F. W. Haskins officiating. The bride wore a green two-piece afternoon frock, with brown hat and accessories, and her corsage was of red carnations and fern.

Miss Pearl Bolton wore an afternoon gown of olive green, with black hat and accessories. Her corsage was of red carnations and fern. The groom was attended by his brother, Mr. Jack Brown. A small reception was held at the home of the bride's parents following the ceremony, with only family members present. The traditional wedding cake centred the bride's table. Following a week's honeymoon at Powell River, the young couple are making their home in Summerland. As her sister's only attendant.

Dr. Palmer Dreams of Plant Breeding Gains

Advantages of plant breeding to obtain harder stock which will withstand diseases more readily were outlined in novel manner to the board of trade April meeting on Thursday at the Legion hall, by Dr. R. C. Palmer, experimental station superintendent.

Dr. Palmer had another of his dreams, now famous wherever he has been heard by audiences large and small and as the dream unfolded, so did he impart knowledge of the importance of plant breeding.

Back in the caveman days, primitive man picked the fruit from wild plants and dug up runners to transplant nearer to his cave, but he made no attempt to improve the stock.

Numerous Factors
In the course of his talk, Dr. Palmer explained the various steps necessary to improve plants or trees, to obtain those best suited for the particular locality, to improve the keeping qualities, to obtain seedlings which are resistant to diseases, and in the case of cherries, to obtain varieties which are resistant to splitting.

He instanced M. B. Crane, at Merton, England, who has developed a cross between a raspberry and blackberry, which has twice the ordinary number of chromosomes, has a strong shoot and no thorns.

At the Summerland Experimental Station, he spoke of the work of Arthur Mann, whose efforts to produce a water-resistant cherry has produced the Van and the Sparkle.

Other varieties which have been developed by experimental work, are Spartan and Jubilee apples, Reliable and Leslie apricots, Spotlight and Superior peaches.

In order to produce these best varieties, a study of markets must be made, processors must be questioned and lengthy experiments conducted with the hope that new varieties can be produced, hardy, disease-resistant and desirable to the market, besides having a high vitamin content.

It is fascinating work, declared the speaker, and in the discovery of new flower strains, it can be a hobby for any gardener. The fundamentals are simple but the grower must have up-to-date information and be prepared to spend some time on the experiments.

He did not advocate a hobby of establishing new varieties of fruit trees, as a great deal of time and considerable acreage is necessary.

The speaker was introduced by C. V. Nesbitt and thanked by J. E. O'Mahony.

WANT APPROACH TO ELLISON HALL MADE SAFER

That action should be taken to improve the approach to Ellison hall and provide wider culverts and suitable guard rails for the creek crossing in front of the hall, was advocated by board of trade members at the monthly meeting last Thursday in the Legion hall.

Such a request, along with suggestions for improving the grounds of Peach Orchard park, will be submitted by the trade board to the council for consideration by the council parks committee.

George Henry led a drive for improvement of the road approach to the hall, stating that a new approach with a wider sweep from Peach Orchard hill should be instituted. That the creek crossing is dangerous in its present state was his contention, as well.

Speaking for the board of trade parks committee, Gordon Blewett suggested that the wild rose bushes should be pulled out on the approach to the park; weed killer used on the poison ivy, a supervisor appointed to care for the park and Peach Orchard cemetery; drinking water, be tapped from Ellison hall kitchen to the picnic grounds; more garbage cans placed in the park; more benches and tables for luncheons and suppers provided, and street lights for the highway.

It was pointed out that many of these suggestions were already on the program of Councillor Eric Tait, as chairman of the council parks committee, but Councillor E. C. Bentley stated the council would welcome these recommendations and add them to their already large list of improvements to be undertaken in the future.

SPRINKLING IRRIGATION

Three applications for sprinkling irrigation were dealt with by the council on Monday. W. C. Drysdale's application was turned down as no irrigation water is supplied there. C. D. Orr's application was approved providing the council is not expected to supply more than four days per week if that is all the system can stand. W. Wells was granted permission to proceed with one acre off the domestic line.

NO MEMBERSHIP
Summerland's council will not subscribe to the B.C. Aviation Council membership, it was decided on Monday.

PASS ACCOUNTS
Accounts totalling \$27,043.19, were passed for payment by the municipal council on Monday.

GRAVEL CRUSHER
A further expenditure of some \$650 for a 10 h.p. motor and reduction gear, was authorized by the council last Monday afternoon to complete the work of transforming the gravel crusher into a workable unit. With the change-over in motors, it is expected the plant can be run to capacity.

CONQUER CANCER CAMPAIGN NOW WELL UNDERWAY

Ernest E. Buckerfield, provincial campaign chairman of the "Conquer Cancer" drive to raise \$300,000 to fight cancer in British Columbia asks every British Columbian to support this drive as a safeguard for himself and his loved ones.

"One out of every eight British Columbians will die of cancer," Mr. Buckerfield pointed out, "but more than half of these might be saved if there were early diagnosis and prompt and adequate treatment."

"Present facilities are all too limited. Free biopsy centres must be established throughout the province and a number of mobile diagnostic clinics made available for various areas."

"More than fifty per cent of the patients receiving treatment at the B.C. cancer clinic come from points outside the Greater Van-

COST OF FIRE

An account of \$41 for three fires outside the district, was submitted to the council on Monday by the West Summerland Fire Protection society. This included \$10 for the car fire on Peach Orchard. Councillor Harvey Wilson stated no firemen had attended this fire and wished to have more information before allowing passing of this item.

TEA AND SALE HELD BY LEGION W.A.

PEACHLAND — The Women's Auxiliary to the Legion, held an interesting tea and sale on Thursday, April 10, in the Legion hall.

Mrs. Ted Clements, president, opened the tea with a few well chosen words of welcome.

Some good music and singing were rendered during the tea hour. A long table, loaded with home cooking, fresh eggs and novelties disappeared like magic immediately the sale was opened.

There were 75 guests arranged around the small tables, which were attractively set, with spring flowers and charmingly served by the younger ladies. A nice sum was realized.

Make Presentation To Chas Stuart

On behalf of the grower members, the directors of the Summerland Co-operative Growers Assn. made a presentation on Wednesday afternoon to Mr. Chas A. Stuart, their packing house manager for the past 12 years. The gifts presented were a travelling bag and a sterling silver cigarette box, suitably engraved.

A delightful tea was served by the office staff to the directors and members of the permanent staff of the packing house.

Reeve W. R. Powell officiated at the presentation, following which those gathered together sang "For He's a Jolly Good Fellow." Mr. Stuart's reply took the form of a wish of "good management for the new management."

APPROVES COUNCIL PLAN

The AOTS club has written the municipal council expressing approval of the recently announced plan to incorporate a young people's recreation room in the municipal hall, which is proposed for the Living Memorial park-playground.

Socially Speaking

Social Editor: Muriel Hurry

Mrs. L. Fudge and daughter, Barbara, were visitors to Kelowna last week.

Mr. Carl Dahl and Dr. E. Wooten returned last Monday to their homes in Los Angeles after visiting for a week at the home of Mr. Dahl's sister, Mrs. V. Teklman.

Mr. Cliff Clarke left on Saturday for Dilke, Sask., where he is visiting his parents, Mr. and Mrs. G. Clarke.

Mrs. H. Locke, of Kelowna, was a Summerland visitor last week-end to attend the Henry-Hack wedding.

Mr. and Mrs. W. J. Henry, Mr. Gordon Henry and Miss Barbara Henry, all of Peachland, were among out-of-town guests attending the Henry-Hack wedding on Friday.

Mr. Andy McRae, who has spent the winter months at Osprey Lake, has returned to Summerland.

At the Summerland hospital on Friday, April 11, a daughter, Donna Jean, was born to Mr. and Mrs. James Strachan.

Mrs. M. K. Thompson expects to leave on Saturday evening for Victoria, where she will spend an extended visit with her sister, Mrs. C. Edgerton.

Mr. and Mrs. Dave Taylor, Sr., will spend the week-end visiting at Kamloops and Merritt.

Mr. Fred Brind and his guests, Mr. and Mrs. George Reddon, of Virden, Man., left last Saturday for Kelowna, Salmon Arm, Silver Creek and other B.C. points, where they will visit friends.

Mr. and Mrs. E. J. Quadvieg, of Keremeos, were visitors at the week-end at the homes of Mr. and Mrs. A. Advocaat and Mr. and Mrs. H. Pilkington.

Mr. and Mrs. Gordon Ritchie left on Saturday for Winnipeg, where they will visit Mrs. Ritchie's brother and sister-in-law, Mr. and Mrs. A. McMorrin.

Mr. and Mrs. J. McKenzie and Mr. and Mrs. Alan McKenzie left on Wednesday by motor for Pitt Meadows and other coast points, where they will spend a ten-day holiday.

Miss Rena Ritchie, of Vancouver, who has been visiting at the home of her grandparents, Mr. and Mrs. Wm. Ritchie, Sr., left on Wednesday for Keremeos, where she will visit her father, Mr. J. H. Ritchie, before returning to Vancouver.

PEACHLAND W.I. HOLDS LOVELY TEA

PEACHLAND — The Women's Institute held an enjoyable tea in the municipal hall on Friday, April 10, it being the occasion of the birthday of the institute.

Twelve tables each representing a month of the year, were appropriately decorated. In the absence of the president, Mrs. Twiname, the vice-president took the chair. A short program followed the business session.

Mrs. Gerrie prepared a paper entitled: "The Institute Spirit."

Miss Doreen Trautman sang two delightful numbers. Mrs. Ted Clements sang a solo. The birthday cake was made by Mrs. M. Twiname and decorated in the institute colors, green and gold. The hostesses served a nice tea.

A delightful evening of bridge was enjoyed at the home of Mrs. J. Bush on Tuesday, April 1. First prize was won by Mrs. George Topham and consolation prize by Mrs. Vern Cousins. Making up the three tables were, Mrs. A. Topham, Mrs. V. Cousins, Mrs. D. Cleal, Miss A. Topham, Mrs. G. Lang, Mrs. C. Whinton, Mrs. P. Gaynor, Mrs. N. Evans, Mrs. H. Ibbotson and Mrs. G. Topham.

Mrs. D. Cleal entertained the bridge club at the home of Mrs. P. Gaynor on Tuesday, April 8. Mrs. M. Ferguson won first prize and Mrs. A. Topham the consolation. A most enjoyable evening was had by all.

Mrs. M. Campbell arrived from Penticton on Thursday, April 10, to visit her brother, Ray Harrington, returning on Saturday.

Mrs. H. Wallace, who has been visiting her sister, Mrs. Neil Witt for the past three weeks, returned to her home at Endiang, Alta., on Wednesday, April 9.

Mrs. H. Morgan has been confined to her bed for a few days with septic throat.

Miss Loretta Gaynor arrived home from Vancouver on Saturday, April 5, to spend the Easter with her parents, Mr. and Mrs. P. J. Gaynor.

Mrs. C. Heighway left on Saturday morning, April 12, for a visit to Vancouver.

Guard Those You Love GIVE to Conquer Cancer...

Mrs. J. C. Robson is spending a few days visiting in Kelowna this week. Mrs. S. Angove left on Saturday to spend a few days in Kelowna.

Youngest Pilot

Above is Montreal's youngest pilot, 14-year-old RICHARD BEURLING, brother of the famed George "Buzz" Buerling, hero of Malta. According to Bob Schofield, instructor of the Laurentide Flying School here, Richard piloted a plane after only four hours and 20 minutes instruction, considered a record for Montreal. The average pilot flies solo only after eight to 10 hours of lessons.

NEW CLEANING FIRM

Hill's Dry Cleaners went out of existence here this week and the new firm of Summerland Dry Cleaners substituted. Mr. Al McIntosh, of Penticton, has joined this firm. Mr. C. B. "Tim" Hill has announced. Mr. McIntosh has had five years' experience in the cleaning and pressing game and specializes in silk spotting.

Wedding Reception Of Interest Here

A quiet wedding was solemnized in the Kelowna Methodist church on Wednesday afternoon, April 3, when Elsie Irene Schimpf, daughter of Mr. and Mrs. H. Schimpf, of Leader, Sask., exchanged nuptial vows with Mr. John Deering, eldest son of Mr. and Mrs. Conrad Deering, of Estuary, Sask.

The bride was charming in a traditional floor-length white gown, fashioned with a satin bodice and full net skirt. The sleeves were long and the neckline high and rounded. Her fingertip veil fell from a sweetheart headdress, and her flowers were red and white carnations and fern.

Her only attendant was Miss Helen Meyer, of Kelowna, who wore a floor-length gown of pale blue, with a floral headdress.

The groom was attended by Mr. P. Schellenberg, of Kelowna.

A small reception for close friends and relatives was held at the home of the groom's uncle and aunt, Mr. and Mrs. John Heinrich, West Summerland. The room was decorated for the occasion with pink and pale green streamers and floral arrangements.

Following a short honeymoon to U.S. points, Mr. and Mrs. Deering are making their home in Kelowna.

Children's Services At Lakeside

An Easter service for children, which was also an open session attended by parents and visitors, drew a large crowd at the Lakeside United church on Easter Sunday morning.

A great deal of time and energy was put into the planning of the services by the Sunday school teachers and by Mrs. A. G. Bissett, superintendent of the Lakeside Sunday school.

Diplomas were granted to 18 pupils for perfect attendance, and a banner was awarded to the class with the highest average attendance. This class, taught by Walter Bleasdale, is comprised of Douglas Blacklock, Jackie Pohlman and Billy Bleasdale.

There were over 100 present at the services, including 35 visitors. A hymn played by Joyce and Shirley Schumann, was a feature of the morning.

As Women see it...

Look to the women's pages of the Vancouver Daily Province for interest to refresh you . . . notes that catch the full sweep of the women's world . . . of clubs, holiday highlights and entertainment time.

You'll like Margaret Henderson's new feature "A. B. C. of the Kitchen," the amusing insight of "This Column" by Jean Howarth, the flow of information on beauty, fashion, music, menus, gracious living, and creative skills.

Business woman or homemaker, you'll find more women's news in The Province.

IT'S A DATE

Entertainment of the moment, or what's ahead in music, the theatre, and a host of other pleasures for that "evening out" are listed regularly in The Vancouver Daily Province.

Your Province pages too can guide you to holiday haunts and supply you with up-to-date tips for that "day of shopping" you've promised yourself.

ON THE PRAIRIES

News from the neighboring provinces is a regular feature in The Vancouver Daily Province. Here you'll find sidelights from the capital cities, facts and figures on production and trends. Many British Columbians of prairie origin or attachment will enjoy this section.

THE LIGHTER SIDE

The Province offers you top value in comics. Sought by all the family, your favorite cartoon characters become your personal friends in the new, larger comic section every day in The Province . . . and, of course, in color, every weekend.

Incorporation For Board Of Trade

Summerland Board of Trade is taking steps to join the Canadian Chamber of Commerce; is setting up a set of by-laws, and will investigate the possibility of seeking a charter of incorporation, the Thursday night meeting of the board was informed at the Legion hall.

Progress on the spring fair, to be held on May 23 and 24, was reported on by President Schumann and J. R. Armstrong, and the board learned that the call for space for commercial and industrial booths, is already nearly exceeding accommodation.

Dr. F. W. Andrew provided an interim report on his road naming committee and stated that names for thirty roads have been agreed upon by the committee.

A donation of \$25 was authorized towards the nation-wide drive of the Canadian Cancer Society.

ST. STEPHEN'S IS SCENE OF LOVELY SPRING NUPTIALS

A wedding of wide interest in the South Okanagan, was solemnized at St. Stephen's church, West Summerland, on Friday evening, April 11, when Norma Muriel, daughter of Mr. and Mrs. Wm. G. Hack, West Summerland, and Malcolm Graeme Henry, elder son of Mr. and Mrs. Walter J. Henry, Peachland, exchanged nuptial vows before Rev. Canon F. V. Harrison.

The bride, who was given in marriage by her father, entered the daffodil-decorated church to the strains of a wedding march played by Miss Ruth Dale.

A traditional gown of white satin, fashioned with a sweetheart neckline, a bodice that shirred from a front panel, and full-length sleeves enhanced the beauty of the lovely bride. A long veil of embroidered silk net fell softly from a floral head-dress, and her flowers were pink carnations, white hyacinths and fern. Her jewelry was a sapphire pendant, the gift of the groom, and she also wore "as something old," a family heirloom cameo ring.

Miss Julia Hack, only sister of the bride, was maid of honor, and was a picture in a pale mauve, floor-length frock of corded taffeta, styled with a full skirt, a fitted bodice and puffed sleeves. A mauve chapel veil was held in place by flowers of a deeper shade. In her shower bouquet of mixed flowers, daffodils were predominant, and her jewelry was a gold locket.

Little Jean Kersey was lovely as flower girl and her yellow curls were complemented by the long frock of hand-embroidered pale mauve sheer which she wore with a mauve headdress. She carried a white basket of mixed flowers.

The groom was attended by his only brother, Mr. Gordon Henry, of Peachland. Mr. Bud Gould was usher.

During the signing of the register, Mrs. Lionel Fudge gave a beautiful rendition of "Because."

Following the wedding, a reception for about 80 guests was held in the Legion hall, with the parents of the bride and groom assisting in receiving the guests. Mrs. Wm. Hack, the mother of the bride, chose a frock of pale blue, with a draped peplum with a bustle effect in the back. Fuchsia insets at the front neckline added a touch of color contrast. Her corsage was of deep pink carnations and fern.

Mrs. Henry, the groom's mother, was smart in a slim gown of deep mauve crepe, while her hat was of moss green with a yellow flower trim. White carnations and fern were worn en corsage.

The hall was decorated with the daffodil motif, while a stately three-tiered cake centred the bride's table.

The toast to the bride was given by Canon F. V. Harrison, and was ably responded to by the groom. Mr. Carl Nesbitt proposed the toast to the bridesmaid, to which the groomsmen responded. A toast to the little flower girl was also proposed by Canon Harrison.

Wires of congratulation were read by Canon Harrison and were received from Mr. and Mrs. Sam Rittberg, Vancouver; Mrs. Helen Lundberg and Doris, of North Vancouver, and Mrs. Everett Lundberg and Messrs. Lance and Bud Thor, all of Wells, B.C.

Tea was served at the reception by Mrs. Walter Wright and Mrs. B. T. Washington, while Mrs. Ray Moore and Mrs. Wm. Sherwood were in charge of the kitchen.

Serviteurs were the Misses Margaret Myers, Louise Washington, Ruth Nesbitt, Joy Pattie, Barbara Metters, Yuriko and Joyce Jomori, Mildred Holnick, Laura Rhell and Eleanor Stein.

Little Barbara Henry caught the bride's bouquet when it was tossed from the steps of the hall.

Following the reception, the young couple left by motor for a honeymoon to Vancouver and coast points. For travelling, the bride donned a smart chalk-stripe grey dressmaker suit, topped with a pastel blue shortie coat. Her hat was a grey pillbox with blue trim, and her corsage was of pink carnations.

Dame Fashion's own cure for spring fever are the new rayons and prints. They've never been lovelier, and are a tonic in themselves. Shown above is a black and white print, made on simple lines and good for every occasion.

F. E. Atkinson and C. C. Strachan, of the fruit products laboratory, Dominion Experimental Station, leave today, Thursday, for a month's visit to eastern Canada points. They will spend a week at the E. D. Smith and Son plant at Winona, Ont., and will also attend a meeting of fruit and vegetable products research group at Ottawa, on April 28 and 29.

WANT ROAD GRADED
A request from J. D. Spalding and other neighbors, to have the road in the Bolton sub-division graded, was approved by the council, provided Mr. Bolton proceeds with the rough grading and removal of stumps, according to provisions of the original plan.

Soft Fruits Yield 20 Per Cent Bigger Crop This Year

It's Blossom Time in the Okanagan again, and whereas most persons just admire the beauty of the blooms, the orchardist is looking intently to judge the size of his crop for the coming season. In the Summerland-Peachland-Westbank area, covered by Alex W. Watt, provincial field inspector, it is estimated that the soft fruit crop will be increased from 10 to 20 per cent, according to varieties, while the apple crop will be lower by about the same amount from the high level of the record 1946 harvest.

Throughout the Okanagan, it is anticipated that the apple crop will run between seven and eight million boxes this year, or a decrease of about 15 per cent from the 1946 high of almost 9,000,000 boxes.

The heavy proportion of Newtowns in this district will bring down the average here as compared with other sections of the Okanagan, which run heavily to McIntosh. The Mac is now showing little decline from year to year, due mainly to the amount of fertilizer being applied to the soil by the fruit ranchers.

All trees in the Okanagan seem to be in healthy condition and a good set of blossoms is expected, provided undue frosts do not nip the buds. The cooler nights this week have caused growers some anxiety but in this area no reports of any particular damage have been reported.

Peaches and cherries are expected to provide the big yields in Summerland district this year. Cherries were light in 1946 and may be up 25 per cent over last year. Peaches were badly hailed, growers remember with a shudder, and if no calamity visits this district, should result in a yield higher by 20 per cent.

Apricots were heavy last season but due to increased plantings are expected to come up to the 1946 level again.

Pears will be about the same as in 1946, while apples are down 10 to 20 per cent.

Cherry blossoms have been out for the past ten days, while all soft fruit crop blossoms are now resplendent with the exception of pears, which are just starting to burst forth. Apple blossoms will be general in another week.

All trees are showing their green leaves now and the entire countryside is a mass of color.

Generally speaking, the peach crop is expected to reach a total of two million boxes, an all-time record. Dut to new plantings, apricots may reach 500,000 boxes, and prunes may reach the million mark. Cherries have been placed 30 cars ahead of last season.

MAY DAY PLANS UNDER DISCUSSION

PEACHLAND—The P.T.A. held its regular meeting in the municipal hall on Thursday, April 17, with Mrs. G. Topham in the chair. It was decided to hold a meeting on Wednesday, April 23, in the school, to make arrangements for the May Day celebrations.

Mrs. Topham, delegate to the P.T.A. convention in Victoria, delivered her report which was very interesting. She spoke of Dr. Leacock's address as being one of the highlights of the convention. One subject which was stressed was to "train our children to respect the law."

The problems most prevalent among the P.T.A.'s were "raising funds and getting the men interested enough to attend the meetings."

The P.T.A. in all provinces except British Columbia, is called "Home and School." A resolution was put forward to get all of these clubs under the same name. There was some interest shown in kindergarten schools.

Mrs. Topham thanked the members for sending her to the convention, following which, tea was served.

Plan Work Parties On Cemetery Area

Formation of a permanent committee, comprised of a member from each organization which has signified its willingness to assist, was the decision of an inaugural meeting of the Peach Drohard cemetery improvement group, held in St. Andrew's church hall on Friday evening, April 18.

Work parties are being organized to beautify the cemetery and decisions will be made shortly regarding a long-term plan to improve the grounds and put the cemetery into more presentable shapes.

Vernie Charles was selected chairman of the newly-organized committee, with Bill Laidlaw as secretary. An executive of four was chosen to consist of E. H. Bennett, Rev. H. R. Whitmore, Dr. H. R. McLarty and a representative of the I.O.O.F.

Credit has been given the AOTS club for organizing this initial meeting and arousing enthusiasm towards making the cemetery a beauty spot. Mr. E. H. Bennett, of that club, was the prime mover, assisted by Rev. H. R. Whitmore. A work party is to be organized for Wednesday afternoon, April 30, starting at one o'clock, and for those who cannot devote any time that afternoon a further work party is being organized for Saturday afternoon, May 3.

All organizations which have signified their intention of assisting in this improvements plan at the cemetery are being requested to organize their work parties and be on hand to assist.

DO NOT WANT AS MUCH IRRIGATION

Sitting as an irrigation court of revision, members of the council made several minor adjustments to the roll on Monday before adjourning for the final sitting on April 28.

Foremost in the applications could be seen the turn of events which has come about by the improvements to Summerland's water supply and the hope of most orchardists that sprinkling irrigation will cut down the amount of water which they need to take from the system each year.

In past years, the annual court of revision dealt mainly with requests for more water supply, but in every instance on Monday the request was for less water.

There are few sections of the municipality which are not adequately supplied with water now, the council intimated in its discussion.

Fate Of Golf Club Will Be Known Monday

Fate of the Summerland Golf club will probably be decided at a meeting next Monday, April 28, in the Nu-Way hotel annex. And if there isn't sufficient enthusiasm shown, final plans may be written to the golfing picture here, local officials have issued due warning.

Prior to the war, Summerland boasted a flourishing membership and a sporty golf course which was kept in good condition. But when the lads went away to the many fronts of the war years, the club went downhill rapidly.

Last year, an attempt was made to revive this popular sports pastime but did not meet with any great amount of success. Efforts have been made this spring to arouse enthusiasm and to date, apathy is the only word which has met those wishing to keep the game going.

So the few remaining club officials have decided to take a stand on Monday. If their meeting is well attended and there is a prospect that there will be sufficient membership to warrant carrying on, then the club will make plans to play in 1947. Otherwise, the club will fold up, they warn.

Also, an appeal is being made to owners of plots in the cemetery to join these organizations and work towards beautifying the plots where the remains of their relatives were laid to rest.

There is a considerable amount of work in clearing of pathways and ridding the area of weeds and other undergrowth to be accomplished, but if sufficient helpers can be obtained, a great deal of improvement can be undertaken in a short time, the meeting felt.

The executive, along with Councillor Eric Tait, chairman of the council's parks committee, this week visited and discussed further plans for the future.

On the clean-up days, the Women's Institute has offered to serve coffee to the workers.

Those present at Friday night's meeting were: H. Tomlin, I.O.O.F.; Frank Dumont, A.F. and A.M.; Dr. H. R. McLarty, Canadian Legion; Walter Charles, Board of Trade; W. A. Laidlaw, Retail Merchants' Assn.; Mr. Mott, Free Methodist church; Mark Embree, Trout Creek; Councillor Eric Tait; Mrs. M. E. Collins, Mrs. J. J. Blowitz, Women's Institute; Art Advocate, Orange Lodge; Dr. J. G. Marshall, Summerland Horticultural Society; Rev. H. R. Whitmore, St. Andrew's church; V. Charles, Lakeside United; E. H. Bennett, AOTS.

Other organizations which were not represented or who have been invited to participate, include Rotary club, Baptist church, Catholic church, Anglican church, Japanese group,

PLEASING PLAY IS PRESENTED AT PEACHLAND

PEACHLAND—The Athletic hall was filled to capacity on Friday evening, April 18, when the Parent-Teachers' association presented the play, "Aunt Samantha Rules the Roost," a comedy in three acts.

Mrs. M. Twiname as a star performer was Aunt Samantha; Sydney Smalls as Lucien Littlefield, acted the part of a gay old bachelor; Aunt Samantha's older niece, Serena Simpkins, was acted by Helen Sunstrom, and Sophie, the younger niece, by Ruth Wilson. Mrs. Nell Witt, as the village dressmaker, looked the part; and her hat was a work of art. Aunt Samantha, who raised chickens and hated men, was going to run for mayor of Simpkinsville. Irene Sunstrom, who acted the part of Polly Paine, the maid, was in love with the grocery boy, Buddie Buskins, capably acted by Ronald Redstone, and who repulsed all her advances. She finally secured some love powders and added it to the lemonade. This changed the character of everyone who drank it.

Aunt Samantha was the first. She became very light-hearted and frivolous and gave some to her opponent, Mr. Littlefield. They became very much in love; and were in a fond embrace when Annie Ambrose, "the dressmaker," and Blanch Bowers, "the woman of few words," appeared on the scene, which complicated affairs. Although the effect of the love powders soon wore away, the little maid had a chance to give; the grocery boy a drink and win a kiss and invitation to the movies. Aunt Samantha's nieces, their admirers, and the ardent lover, persuaded her to accept the proposal although she staunchly affirmed she would be mayor and run Simpkinsville and Mr. Littlefield was satisfied to run Aunt Samantha.

The play brought out many good laughs. Rev. MacDonald, as director, showed great ability.

Between acts, Mrs. F. Witt gave a reading, "A Suggestion for Men," and the high school girls sang, "Beautiful Dreamer," accompanied on the piano by Mrs. Z. Witt. Following the play, a dance was held which was enjoyed by both young and old.

ST. ANDREW'S IS CHOSEN AS SCENE FOR CEREMONY

St. Andrew's United church, West Summerland, was the scene of a pretty wedding on Wednesday afternoon, April 16, when Eva Lenora, daughter of Mr. and Mrs. G. Mayert, was united in marriage to Mr. Norman Thomas Dickinson. Rev. H. R. Whitmore officiated at the ceremony while wedding music was played by Mrs. Nellie Stent.

The bride, who was given in marriage by her father, was dressed in floor-length white satin, fashioned with long sleeves and a sweetheart neckline. Her long veil of white net, was held in place by a coronet of blue flowers and she carried a bouquet of pink carnations and snapdragon. As matron-of-honor, Mrs. John Sheskey was gowned in pink satin with a lace yoke of the same shade. Her corsage was of pink carnations, and her headdress was floral.

The bride's sister, Miss Joyce Mayert, was bridesmaid and was dressed in a white gown, styled with a satin bodice and full net skirt. Her headdress was a white Juliet cap and she carried a bouquet of pink carnations and snapdragon.

The groom was attended by his brother, Mr. Albert Dickinson, and ushers wore Messrs. Ernle and Raymond Mayert, brothers of the bride.

A reception for the many friends and relatives of the young couple was held in the Legion hall, which was decorated for the occasion with pink and white streamers and floral arrangements.

The bride and groom were assisted in receiving their guests by their parents. Mrs. Mayert was gowned in black crepe with black accessories and a corsage of red flowers, while Mrs. F. Dickinson, mother of the groom, chose a flowered jersey, with a black background and accessories, and also wore a corsage of red flowers.

The bride's table was adorned with a four-tiered cake and decorated with seasonal flowers.

The toast to the bride was proposed by Mr. John Sheskey and responded to by the groom.

The wedding supper was followed by dancing, and a short address was given by the father of the bride during the evening.

Out-of-town guests were Mrs. Fete Mayert and children, of Revelstoke; Mr. and Mrs. Bon Mayert, of Portland, Ore., and Mr. Fred Mayert, of Fargo, N.D. Mr. and Mrs. Norman Dickinson are making their home in West Summerland.

Ratepayers Will Vote On Bylaw To Raise \$20,000 For Domestic Water Extension To North Area

Summerland ratepayers will be asked to vote this year on a raise in domestic water rates to provide a sufficient annual income to offset a \$20,000 debt, in order that domestic water service may be extended to the north bench area and Crescent Beach. This was the decision reached at a meeting attended by property owners and prospective water users, held with the municipal council in the I.O.O.F. hall on Friday evening.

If the plan is adopted, nearly fifty users will be added to the domestic water system, it is expected, and this portion of the municipality will be given an opportunity to develop to a far greater extent than was previously possible.

At the Friday meeting, some consensus of opinion favored the cost being borne by the area affected without bringing the scheme into the entire domestic water system, but the majority of those present favored the latter policy.

If the plan is adopted, the quarterly charge for domestic water would be raised approximately 50 cents, it is estimated.

Present Plan
Fifty interested persons were present on Friday when Reeve W. R. Powell explained that the council had determined this project should be planned as a unit rather than attempt to carry out portions each year on a piecemeal basis.

Councillor C. E. Bentley, irrigation committee chairman, then displayed a map indicating the big loop of four-inch pipe which will cover the main portion of the north bench area, with another four-inch connection being laid down to Crescent Beach. Two-inch laterals will also be provided to serve properties not touched by the four-inch loop.

The Crescent Beach main will start between orchards owned by Mrs. Williams and J. Cristante.

This extension plan was outlined by R. A. Barton, Penticton engineer, who estimated the cost at \$20,000. It was emphasized at the (Continued on Page Four)

Urges Growers To Use DDT For Cutworms

"Recent tests made at the Dominion Entomology Laboratory, Summerland, have shown that DDT is extremely effective for cutworm control and is simple to use," declares A. W. Watt, provincial field inspector, who points out that growers should act at once in endeavoring to solve the insect problem. "The fifty per cent wettable material normally should be used," he declares.

"Last year's growers and gardeners alike suffered losses from the attacks of cutworms. Many hundreds of young tomato, cabbage and corn plants were cut down in the wake of these pests which are a menace to vegetable growers everywhere. To make matters worse, the caterpillars, not content with feeding on surface vegetation, often become air-minded and climb the trunks of young fruit trees, eating the buds and young leaves, thus leaving the trees with a ragged appearance and slowing their growth."

"Although damage of this sort is a fairly regular occurrence in the district, it is surprising the number of people who do not recognize the cutworm or his handiwork," Mr. Watt continued. "Destruction is done only by the larval form which is an ashy gray caterpillar found in the soil at this time of year. When disturbed, these caterpillars curl up readily. This pest is partial to nearly all succulent vegetation and is a destructive feeder in the garden because it usually nibbles at the base of the plant stalk just long enough for it to topple over and then moves on to the next victim. In this way, one larva can chop down many young plants in less time than it would take to eat one plant completely."

"In the past, cutworms have been held in control largely by the use of poisoned baits. An excellent bait formula with directions for use, may be found on the 1947 spray calendar. "A handy way of applying DDT is to place some of the dry material in a square of muslin, fold up the corners to form a small bag, and then shake the bag so that the powder falls around the bases of the young plants or trees."

"When treating vegetables one should not allow the DDT to come in contact with any part of young tomatoes, beans, corn, or cucumbers, and others of the melon (cucurbit) family."

"In one case reported the treatment just described was so effective that 24 hours after applying the DDT, it was possible to go around and gather handfuls of dead worms from the soil," he concluded.

Do Not Expect High Water In Lake This Year

Provincial water rights officials in Kelowna feel there is little possibility that there will be any repetition of last year's high water level, as between now and the end of July, with a normal runoff, a total of 307,000 acre feet of water is expected to flow into Okanagan lake, compared with 547,000 acre feet last year.

This runoff is expected to be 7,000 acre feet lower than the 1937-46 average, which is 314,000 acre feet, but will exceed the 1944 runoff, which was only 218,000 acre feet.

The overall picture of water supply is considered "good" by the officials, although D. K. Penfold, water rights district engineer, has pointed out that heavy wind evaporation has reduced the water content in the hills considerably.

At McCulloch, on the eastern watershed, water content in the snow was 6.37 inches at the end of February, while at the end of March, with no melting of snow, the measurement was only 5.62 inches. This deficiency represents heavy wind evaporation, states Mr. Penfold, and the measurement at the end of March is 90 per cent of a twelve-year normal.

Although the Dominion government has made no provision for flood control work in its 1947 estimates, as advocated by the report of the joint commission on Okanagan flood control, Kelowna civic officials are pressing for action and requested Hon. E. C. Carson, provincial public works minister, to pave the way for discussions between the province and Ottawa.

Present Okanagan lake level is 99.85, which is .35 above the agreed minimum, Kelowna reports state.

The flood control report calls for dredging Okanagan river and also lowering of the lake level. This would also call for dredging of Okanagan lake where C.N. and C.P. lake barges dock.

HUNDRED GUESTS ATTEND EASTERN STAR CEREMONY

At an impressive installation ceremonies in the I.O.O.F. hall on Tuesday evening, April 22, the Summerland lodge of the Order of Eastern Star was officially presented with its charter, No. 63, by Mrs. Audrey Marr, of Langley Prairie, Worthy Grand Matron for British Columbia.

Mrs. Marr presided at the ceremony which also saw Mrs. May Ward installed as Worthy Matron and Mr. Earl Wilson as Worthy Patron.

Guests were present from many outside points, including Quebec, New Brunswick, Alberta, Oroville, Wash.; Oliver, Penticton, Kelowna and Vernon. More than 100 outside guests were present as well as the 40 local members, making a total of some 154. Mr. William McLagen, of Vancouver, Grand Sentinel, was another distinguished guest at the ceremony.

Following the ceremony, a banquet was held in the hall. In the afternoon, Mrs. W. G. Rempel was hostess at a tea for members of the Eastern Star here, with Mrs. Audrey Marr as guest of honor.

MILL STARTS MONDAY
After a shut-down of two weeks for repairs, the Summerland Box Co. will recommence activities on Monday next. The company furnace and other equipment were overhauled and put into shape.

Third Session of Horticulturists Hears Wilcox

On Wednesday April 17, members of the Summerland Horticultural Society and friends visited the garden of Mrs. Hookham to see the wonderful display of daffodils, forsythia and primroses. After the garden visit they met at the Oddfellows' hall for a business meeting and talk.

Richard Palmer showed two of his father's colored films. The first film started with the spring flowers and showed the different flowers as they came out through the year, ending with the leaves turning color in the fall and the snow making a beautiful winter garden. The second film was of scenes and gardens through the Okanagan Valley. Both films were greatly admired and appreciated.

After a short business meeting, when it was arranged to meet at Mr. W. Snow's garden about the middle of May, an interesting and informative talk on soils and weed killers was given by Dr. J. C. Wilcox. Two kinds of weed killers were explained, the selective one which kills only certain plants and the one which will kill all plants.

The main selective killer is 2-4-D which will kill the broad-leaved plants such as dandelions and plantain, which are great lawn pests. 2-4-D does not kill clover in a lawn; it may make it look sick, but it will recover. Results cannot be expected in a day or two as it takes about two weeks to do its work and leaves no residue in the soil, he said. Seeds will grow again later on the same soil and will have to be treated, but just how close together the applications of 2-4-D can be made still has to be found out.

The other weed killer is sodium chlorate and is used on walks and driveways. This has a more lasting effect. It may be used in orchards if it is not sprayed too close to the trees. Poison ivy and couch or quack grass can be killed with the sodium chlorate. Care should be taken to keep it off the clothes as it burns. It is also inclined to be inflammable. More is being found out about these weed killers as different experiments are made at the Experimental station and elsewhere.

In regards to soil, Dr. Wilcox spoke of black alkali and white alkali. The black alkali is the real alkali soil and before it is fit for use it must have acids added to it to help neutralize the alkalinity; sulphur is good in this respect. The white crusted soil that is found in several places here and is commonly called alkali is really an acid soil. It is an accumulation of salts in an area that has no proper drainage. To make this soil usable it should be drained and washed out, or have an alkali such as lime, added.

A vote of thanks was given to Mrs. Hookham, Dr. Palmer, Richard Palmer and Dr. Wilcox. Coffee and doughnuts were served at the close of the meeting.

This was the third general meeting of the year, and followed along the same lines as the other two. At the March meeting, there were three films: Wildflowers, Kew Gardens, and Apple Valley, and the speakers were J. S. Mott, on dahlia growing, and W. Snow on annual growing. At the February meeting the films were on tulips from Holland, and Victoria, and the speaker was Dr. J. Marshall on rose growing.

The membership of the society now numbers 43, the largest for many years.

Civic Pride

One of the many instances of community pride and the urge to make this home town a better and more beautiful spot in which to live has been instanced in the great demand for improvements in parks, beaches and the cemetery.

Powell Beach was developed a few years ago and is still very much in the public eye as improvements are made yearly. Peach Orchard park is being uncovered from its tangled mat of underbrush and weeds and will emerge soon in its newly renovated state.

Last year, a committee representing every major organization in Summerland, was chosen to develop Summerland's Living Memorial, the park-playground and athletic grounds.

Latest move is the formation of a strong committee to improve and beautify Peach Orchard cemetery, which has long been in a disgraceful state. We can look for a great deal of progress in this endeavor and soon, we hope, there will be no need for any apologies when the last resting-place of our departed friends and relatives is mentioned.

Such interest in community activities is a refreshing sign in any town, city or district. It indicates that the persons residing within stated boundaries realize the value of their surroundings and want to improve and make their neighborhood a better place in which to live.

We would like to add, however, that property owners could also do the town a benefit if they would clear the road allowances near their property of weeds and other debris and thus give the town a smarter appearance. With so many miles of roads to consider, the municipal departments cannot cope with this situation. There aren't the employees or the money available.

But if every lot owner made a little special effort alongside his property, the result would be astonishing.

Domestic Water

Summerland ratepayers will have an opportunity this year to decide an issue of great importance to the future development of this municipality when the bylaw to authorize the council to borrow \$20,000 for domestic water extensions to the fruit area north of West Summerland and the Crescent Beach is presented.

There were two methods in which this project could have been faced. The by-law will be submitted on the premise that if the entire municipality shares in the cost, then it will mean a raise in the quarterly water payment of about fifty cents per user.

The other plan, which was considered at some length at last Friday's meeting of interested property owners and users, would have placed the entire burden on those who wish the water system now, with a lessening of the cost as the area under consideration develops in the future and more owners are taken into the scheme.

There are merits to both projects. If the financial burden is shared by all the municipal water users, then the cost to each individual family will not be too great and few persons would miss the extra fifty cents every three months.

On the other hand, if the comparatively small number of property owners and prospective users in sight at present are to share the cost, then it would mean a much heavier burden.

It will be up to the ratepayers as a whole to decide if they wish to take up a small share of this cost and add a valuable section to the domestic water system. It is an individual problem and one which every voter will have to decide for himself.

Reeve Powell rightly termed an adequate supply of domestic water "an essential in the modern way of living."

There can be no doubt that this domestic water extension is a necessity to this section of the community. It is long overdue and there is also little doubt but that the area to be served will see a big increase in property owners and development once the extension has been completed.

But is the meantime, there is only one point which can be discussed and that is: "Who should pay the cost?" Is it a cost which should be shared on a broad municipal basis or should only those who are to reap the direct benefit on completion of the system share the expense.

The Ancient Watches Over Progress

The ancient Colosseum in Rome, Italy, provides an interesting backdrop for these bricklayers as they construct the roof of a subway in the Eternal City. The "Metroolitana," as the subway is called, is designed to run from the central railway terminal in Rome, beneath the Esquiline and Quirinal hills to Piazza Venezia, to the Colosseum and then to St. Paul's Gate, where it will emerge from its tunnel and connect with the existing surface electric railway line to Ostia on the Tyrrhenian Sea.

THE Feminine Front

Muriel Hurry

Women today are far removed from the washday drudgery of our grandmother's time, but apparently we still have a long way to go. New machines and new improvements in the ritual of washdays are steadily appearing.

When the first hand washers appeared, I have been told, men wailed the fact that women would become spoiled. Heavy household chores were taken for granted, and with the large families of those days, and none of the modern electric time and work savers, spoiling was a word of which few women knew the meaning.

I often wonder what some pioneer women would think, if resurrected they could see one of the ultra modern homes pictured in the women's magazines of today. Floors and furniture gleam with a minimum of effort. The modern housewife pops her dinner into the oven of her electric stove, sets the time gadgets, pops her laundry into her automatic home laundry, and runs out to do her shopping.

Arriving home half an hour before lunch, she lifts the spun-dry clothes from her laundry unit, hangs them out in five minutes, pops a baked dinner, out of the oven, adds a crisp salad from the frig, serves a frozen dessert from the same frig, and before her husband arrives back at his office, the dishes are done in the electric dishwasher, a cake is whipped up in the electric mixer, and bakes while the said housewife is powdering her nose and dressing up for her afternoon bridge session. A great life, isn't it, girls?

This little burst of praise for modern appliances is the result of scouring the town the other day for a rack for paper towels. In one of the local hardware stores I spotted one of the new laundry units, which is, as far as I know, the first of the sort to appear in town.

This gadget does everything but hang out the clothes. In several easy steps, it washes, rinses twice and spins line dry, ten pounds of laundry. All that you do is place the clothes in the machine, set the water temperature control to warm or hot, turn it on, and go about your work for 40 minutes. Then you lift the dripless clothes from the handy porthole on top of the machine and hang them out. There are no tubs of rinse water to fill or empty, no clothes to wring and your hands do not even become damp during the entire process.

The machine, which is a Laundrell, manufactured by Jacobs, a company that made airplane parts during the war years, is compact and attractive. It is 30 inches high, and square, with rounded corners. It is a perfectly safe machine, with no wiring in which children can thrust inquisitive fingers. If the hand-

tally twisted by a child during the washing process, the electricity is automatically turned off. The loading door and only inlet is on top of the machine, so there is no danger of water spilling if the machine is opened while water remains in it. There are no wash-day odors, no fuss or mess, no floors to wipe up or splashed water, the clothes are always washed and rinsed in fresh, clean water and a minimum of hot water is used; there is no need to fill or empty the unit, all working parts are fully and safely enclosed, and there are no exposed moving parts.

Better washing results are claimed as each piece of laundry receives individual washing action and more thorough rinsing. Water is automatically drained and the clothes are given a one-minute spin to throw out any pockets of water which may have formed between the washing and the rinsing, and again before the second rinse. Clothes are washed for 17 minutes and given two rinses of four minutes each. They are then spun line dry in seven minutes, the complete cycle taking 40 minutes, with time allowed for filling and draining included.

The Laundrell is installed as a permanent fixture and, attached to the hot and cold water inlets in your basement or kitchen. The cost of installation is included in the price of the unit, which is not much more than double the price of a good standard machine. And as the Laundrell and other automatic laundry units do two or more jobs, this price seems to be in proportion. Where your old washer only washes and wrings, with your help, this wonder machine washes, rinses twice, and spins line dry with no assistance or fuss whatsoever.

The roto-dryer action extracts the water from the clean clothes in a seven-minute period at 375 revolutions per minute. They claim that it does not damage snaps, hooks, or tears off buttons. They also claim that clothes spun damp-dry by this method are easier to iron as no wrinkles are left.

Within another 10 years there are going to be so many handy gadgets in our kitchens to do jobs both large and small, that all housework will be a snap. And that day can't come too soon.

Mrs. Len Verriero, of Toronto, arrived in Summerland on Saturday, and is visiting for several weeks at the home of her parents, Mr. and Mrs. J. McPherson. Mrs. McPherson went as far as Slocan on Friday to meet Mrs. Verriero.

Mr. Harry Schimpf, formerly of Kamloops, Alta., arrived in Summerland last week, and will make his future home here.

Mr. Geo. Perry has returned from a short visit to Vancouver.

The Mail Box

LIQUOR STORE

Summerland, B.C.
April 21st, 1947.

Editor, The Review

After reading the editorials in the last two issues of The Review, and the report of the vote of the Board of Trade in favor of a liquor store in Summerland, it is plain that the drift is towards seeking to bring a government liquor store into our town. Now we ought to be thankful that, while other towns around us have liquor stores, Summerland has none. The bringing in of a liquor store would be a loss to every useful business in town, and would make for inefficiency and loss in every industry in our community. What is more serious, it would surely lead to moral and physical degradation in our people. All but the wilfully blind will admit that the drink traffic is a cancer in our body-politic. The glory and strength of democracy are in the men who stand against the drift. That great statesman—the prophet, Isaiah—said, "A man shall be as a hiding-place from the wind, as the shadow of a great rock in a weary land." The rock stops the drift of sand across the desert. When General Montgomery arrived in Africa to take command of the army, he saw an officer busy at headquarters, and he asked him what he was doing. When he answered that he was making plans for retreat, Montgomery said, "Tear them up," and from that moment he stood against retreat and turned the tide of the battle in Africa.

During the Civil War, President Lincoln saw some of the members of the armed forces, in a certain town, going into a saloon. He spoke kindly to one young man and said he did not like to see his men going into places like that. The young man refrained from going in, and he was always afterwards thankful for Lincoln's restraining word. Democracy needs such men to maintain its noble standards. Such was Gladstone, the Grand Old Man of England, of whom it was said that "his fiery eloquence routed parliaments." One such, with right on his side, the Bible says, "shall chase a thousand, and two shall put ten thousand to flight."

If you, sir, or some member of the board of trade, or any other one amongst us, would take a stand for righteousness in this case, it would recall the wavering loyalty of many others to what is right and good.

"Now's the day, and now's the hour,
See approach proud (alcohol's) power.

Chains and slavery."
True democracy depends continually on men who see the truth at first hand, and lead its people in the right way. Otherwise, even democracy may drift into an inglorious decadence.

C. W. JAMES.

EASTER MONDAY RALLY HELD AT BAPTIST CHURCH

On Easter Monday, April 7, the Summerland Baptist was filled to capacity when young people from Vernon, Kelowna, Peachland, Summerland, Penticton and Kaleden, gathered together to hold an Easter rally at this central point.

Discussion groups were led by Rev. T. Gibson, of Vernon; Rev. A. Cursons, of Kelowna, and Rev. F. Haskins, of Summerland.

Contests and ball games were held in the afternoon, and a basket lunch was served at the supper hour.

In the evening session, Rev. John Hart, of India, was the main speaker, and musical items, worship and discussion formed the program.

The Inside Story

By AGROLOGIST

Full grown men doing the work of bees sounds foolish, but this is the job on which Fred Keane, Donald Strachan and Will King were employed when I visited the Experimental Station last Friday. They were truly as busy as bees in a tree of the Sophia apricot. When I asked the meaning of this strange behaviour, Fred Keane volunteered the information that they were doing breeding work with apricots. As I could see for myself, Sophia makes a magnificent tree. I was informed that it is hardy and very productive, but the fruit is of only mediocre quality. In an attempt to produce a variety with the good tree characteristics of Sophia combined with high dessert quality in the fruit, this quality is being crossed with such well known sorts as Moorpark, Blenheim and Tilton. That is the reason why the experts were so busy dabbling pollen on the blooms of Sophia.

The technique of applying the pollen is quite interesting. Blooms in the "balloon" stage — just before they open — are gathered from the varieties which it is planned to use as male parents. The anthers are removed from these blooms by rubbing them over frames made from wire screening. The anthers fall through these screens on to plates where they are permitted to dry for a day or two. This sets free the pollen which is then placed in test tubes. Each test tube is labelled with the name of the variety of the pollen which it contains. A cork is placed in the end of each test tube and when the pollen is shaken vigorously in the test tube, some of it sticks to the end of the cork. The operator then removes the cork and uses it to apply the pollen to the stigmas on blooms of the variety which is being used as the mother parent. To make sure that the blooms have not been pollinated by insects, only those in the balloon stage are used. Before applying the pollen, the petals and stamens are removed from each bloom. This is done by making a small incision with a knife just below the point where the petals are attached.

If the operator has done the bee's job properly, fruits will eventually develop. When the fruits are mature, they will be harvested and the pits removed. These pits will be sown in the autumn and the resulting seedlings set out in an orchard and raised to fruiting age. Plant breeders must have plenty of patience for it will be several years before fruits are produced on the seedlings and when they do appear, it will be fortunate if one out of a thousand of them has the desired combination of tree and fruit characteristics. However, when this one superior seedling has been produced, many thousands just like it can readily be propagated by the customary nursery practice of budding. Thus, if only one desirable new variety is secured from each thousand seedlings, this breeding project will be fully justified.

VISITING CAGERS LIKE HOSPITALITY

Jack Beach, former local school teacher, and now vice-principal of Prince George high school, was a visitor to Summerland last week as coach of the touring Prince George school basketball team. These lads were stranded in Kelowna without billet, due to a mix-up in arrangements with the school authorities there.

"I didn't know what to do, and then I thought of Summerland's well-known hospitality," declared Mr. Beach.

He telephoned to S. W. Feltham who, in turn, communicated Mr. Beach's problem to Joe McLachlan. In no time at all, Joe, the fixer, had the necessary billeting arrangements concluded.

"We are very grateful to the Summerland persons who threw open their homes to us," declared Jack Beach. "But, of course, I knew we could depend on Summerland."

As basketball has been concluded for some weeks here, no arrangements could be made to stage a game between the local school cagers and Prince George. The latter team trimmed squads in Salmon Arm, Armstrong and Kelowna prior to coming into this district.

4-Settin' and A-Thinkin'

Too tired to stand these New Zealand horses like to sit and think while the sun shines and cool breezes rustle the grass. On occasion, like the one on the right, they may bother to look your way should you happen along. Looks like it's too much effort, though. The horses, which belong to a Te Awamutu, N.Z., rancher, started the peculiar habit of squatting on haunches while resting, some time ago. If lying down, the command: "Get up, you loafers!" will bring both to the unique, sitting position.

HIGH GRADE ORE AT BEAVERDELL

at Beaverdell, reporting the cutting of three parallel veins of substantial width in the lowest workings. The mineralization is reported to be identical to that found in the high grade slopes of the neighboring Highland Bell mine and is expected to yield exceptionally high silver values.

The diamond drill core is being expressed to Vancouver for examination and sampling by E. I. Nesbitt, consulting geological engineer, under whose direction the exploration work is being done.

Exceptionally rapid progress has been made by Highland Silver Mines Ltd., since it was formed in September, 1946. Camp and mine workings have been rehabilitated, equipment including a new 315 cubic-foot-per-minute portable Ingersoll-Rand compressor and a new Sullivan diamond drill, steel and mining machinery have been purchased and installed. The Rambler workings have been surveyed, geologically mapped and an exploration program laid out by Mr. Nesbitt. Company officials report that the results of the exploration program have been very satisfactory.

Several other properties on

Wallace Mountain are held by Highland Silver Mines Ltd., and these will be systematically explored in the near future.

May Bride Honored

Miss Freda Heunichen, popular bride-elect of early May, was the guest of honor at a shower on Friday evening, when Mrs. Ken Blagbourne, Mrs. Chas Schwass and Mrs. E. Kercher were joint hostesses at the home of the latter.

In a novel presentation, the gifts were packed into a miniature well, decorated in a color motif to match the blue and white arch, which was covered with daffodils and forsythia, beneath which the bride-to-be was seated.

Refreshments were served at the close of the evening by the hostesses, and a decorated cake topped with a small bride and groom centred the table. About 30 guests were present at the shower, which was miscellaneous.

"The Stranger In The Apple"

By B. A. TINGLEY

(A Salad of Fiction and Fact)

A drink to the worm that changed our fate,
That gave us wealth and made us great.

A pledge to the pest that cured our sloth;
Here's how! A toast to the codling moth!

Let us for a moment recall the days of 30 years ago, when we planted our apple trees and waited, in idleness and anticipation, for them to bear. Then we picked the crop and read "True Love Magazine" until another harvest was ready. It is true, we applied a lime-sulphate spray every few years, but sprays for codling moth were unknown and unnecessary. We had few worries and even less money.

We had heard that down in the States the codling moth was causing loss, but we imagined that the boundary line was a wall miles high with all the gates closed. It was thought this menace would never reach our fair orchards.

Then, as in the course of time, the moth came nearer, we offered a reward to anyone who could find one. Later, we found we didn't have to hunt it, and then it became the hunter.

When the danger first became real, we thought that if we applied a yearly arsenate spray, our duty was done. The old adage that "prevention is better than cure" didn't seem to appeal to us. We were living in a fool's paradise of ignorance.

Passing by the lean and hungry years when the moth was fighting its winning battle for recognition, we arrive at the glorious present. What a gift!

Now, from blossom-time to harvest, the moth is always with us, and ever present in our thoughts. We spray with this and with that. We spray from spring till fall, in wind and in rain, in season and out of season, incessantly and intensely. With filthy solutions, with dirty looks, and with violent language.

And do we conquer the moth? We don't, but we give it such a rough time that it views the future with dread. In the spring the grandfather moth gathers the little ones about his knees (have little ones about his knees (have moths knees?) and warns them: "It's going to be a hard summer. Remember, the grower is your enemy, so always be on guard against his wicked wiles. Never bite an apple until you have first rubbed off the spray."

However, the moth has proved to be a blessing in disguise (well disguised). For look at the benefit. This eternal fight against this pest has taught the grower the value of industry. And nature, appreciating the grower's co-operation, rewards him with more fruit and better fruit, and better returns have followed.

The grower is no longer a farmer, but a horticulturist and almost a gentleman. He now has a deposit box, in which his Victory bonds are nested, hatching coupons twice a year. He has graduated to reading Esquire and the Financial Post. He has learned to hate Mr. Halsey, labor unions and fruit-price ceilings.

Mrs. Hort (abbreviated, like her dresses) now uses hormone face cream and ultra modern lipstick. As she dips her nail-polished hands daintily into the dishwasher, she is thinking about her bridge party or the lecture at the Culture club.

In other words, that wonderful era of prosperity, so eloquently foretold by promoters of 40 years ago, has arrived. And giving honor where honor is due, let's place the Medal of Merit on the tiny chest of the lowly codling moth.

Many lesser "personalities" have been remembered in stone or marble. In Egypt, Cheops built the Great Pyramid in his own honor. Memorials to Napoleon are plentiful in Europe. Would it not be fitting to erect in the park here, a worthy statue to this humble creature? Make it life-size, at least, and on it place this inscription:

"Persistent - Perennial - Penetrating and Palatable" (Pernicious?).

A

LAND
for
EX-SERVICEMEN

An agreement has been completed with the Department of Veterans' Affairs for the settlement, on Provincial Crown Lands, of Veterans as defined under Section 2 (d) of the Veterans' Land Act, 1942.

Veterans are required to personally select the land, not exceeding 160 acres, and submit formal application in duplicate to the Government Agent for the Land Recording District in which the land is situated, giving a legal description of the land, and stating whether or not they intend to seek assistance under the Veterans' Land Act; also full name, address and regimental number.

The "Veterans' Land Act" of the Dominion Government provides for financial assistance to veterans who wish to take up farming, commercial fishing or fur farming as a part or full time occupation. Consult the Regional Office, in your district, for information regarding this Act.

To those members of the Allied Forces who held homestead or pre-emption records before enlistment, the B.C. Government is prepared to give a Crown Grant to the land, without further payments or duties on the part of the ex-serviceman.

To secure this benefit an application must have been made within one year from the conclusion of the war. Special concessions are made to ex-service men, and war mariners, with regard to taxes, whereby no taxes are payable on pre-emption or homesteads for five years after entry, unless Crown Granted before that time.

Furthermore, an ex-serviceman may take up a pre-emption free of all fees or payments for improvements on the area. This provision applies to pre-emptions taken up on or after September 3, 1939.

For full information on these matters, applications should be made to the Superintendent of Lands.

DEPARTMENT OF LANDS AND FORESTS
PARLIAMENT BUILDINGS — VICTORIA
Hon. E. T. KENNEY, Minister.

Mr. and Mrs. A. H. Corns, formerly of Moose Jaw, Sask., are visiting at the home of Mr. and Mrs. W. J. Beattie prior to the completion of their new home

in the Solly sub-division. Mr. Corns was a car repairer with the CPR at Moose Jaw and on his retirement, he and Mrs. Corns selected Summerland as their future home.

DR. R. McKECHNIE SPEAKS ON CANCER HERE NEXT WEEK

To give Summerland residents an insight into the need for better facilities to cope with cancer, Dr. R. E. McKechnie, well-known Vancouver surgeon, will head a party of medical men here on Thursday evening, May 1. The local branch of the Canadian Cancer society has arranged for Dr. McKechnie to speak at the Legion hall that evening.

This talk will coincide with the current cancer fund drive which is seeking support across Canada for more funds in the battle against this scourge. If sufficient support is given by British Columbians, the cancer group intends to provide a modern cancer clinic and hospital at the coast.

The drive for funds is seeking to raise \$300,000 in B.C. and two organizations are behind this campaign. One is the B.C. Cancer Foundation and the second is the B.C. branch of the Canadian Cancer Society.

The former is concerned with the working of cancer's treatment and diagnosis, while the aims of the society are primarily educational and organizational in an endeavor to press home the point that recognition of early symptoms and prompt treatment can save thousands of lives.

In Summerland, Mrs. Hookham is campaign chairman, while E. R. Butler is president of the local branch of the Canadian Cancer Society. Reid Johnston is chairman and Mrs. J. E. O'Mahony is secretary.

RATEPAYERS WILL

(Continued from Page One)

meeting that regardless of the ratepayers approving the scheme, many months of delay could be expected because of the shortage of pipe.

It is unlikely that any start could be made this year, or at least until late in the fall.

First Proposal
Council members first presented a plan for payment of this \$20,000 based on those persons taking the new connections paying \$7.20 net per quarter instead of the present \$5.40 rate. Besides this, a levy of eight mills on the assessed value of the land, would yield the balance of the money necessary. The levy would be on the basis of 100 per cent of land assessments and 75 per cent on improvements.

As new users are added to the system due to anticipated new development in the area, the levy could be reduced accordingly, it was stated.

"You are connecting on to a system already installed at a cost of nearly \$200,000," Councillor Harvey Wilson pointed out to the meeting. The residents in the north area and Crescent Beach have paid a portion of this cost, but the land there has not paid for the system already installed.

J. McDougald was the first to raise the question of the entire community sharing in the cost of water extension, but Councillor Wilson did not agree, considering that such an area as Trout Creek, which does not obtain domestic water, would not vote in favor. He did not think ten per cent of the vote of the entire municipality would favor the adoption on a community-wide basis.

Past History
However, this pessimistic attitude was not endorsed by the meeting. Reeve Powell declared that "strangely enough," the history of Summerland shows that the majority of persons vote in favor of improvements even if they will not benefit and are still to contribute financially.

He termed domestic water as an "essential in the modern way of living," and thought that as water is such an essential thing, there would be a chance of the by-law being approved.

When a question was asked regarding domestic water, His Worship pointed out that there is no profit, as such. Any excess which the municipality obtains is ploughed back into the system in the form of the municipality's share, up to \$144 of extensions of the service to meet requirements of private owners.

He termed this as good business which, in time, will realize the municipality a handsome profit, but at present there is little excess over expenditures.

Divergent views on the question came from many speakers, including Gordon McDougald, C. Noel Higgin, P. G. Dodwell, V. M. Lockwood, H. R. J. Richards, and several others.

Motion Is Passed
As an upshot of the discussion, it was eventually moved that the scheme be submitted as a whole, to empower the council to float debentures amounting to some \$20,000 to finance the extension to the domestic water system, this cost to be borne by the domestic

water users on the basis of an increased quarterly rate.

There were only three negative votes and those against declared themselves in favor of having the system extended but wished the cost to be divided amongst the property owners and users in the north bench area and Crescent Beach.

The meeting understood that, in the event the municipality as a whole, does not wish to contribute to this extension scheme, a further bylaw will be submitted by the council and will be voted on only by property owners in the area affected.

MISS IONE SCHMIDT THREE HOSTESSES GUEST OF HONOR SERVE GUESTS

A miscellaneous shower in honor of Miss Ione Schmidt, whose marriage to Mr. Lawrence Charles takes place in the near future, was held on Monday evening, April 21, at the home of Mrs. J. Heichert, who was assisted by her daughters, Mrs. F. Young, Mrs. J. Kopp and Miss Evelyn Heichert.

The bride-elect was presented with many lovely gifts while she was seated beneath an arch of blue and pink. A balloon filled with confetti was suspended from the arch, and when broken provided a festive air.

Appropriate games and contests were played during the evening, following which, refreshments were served by the hostesses. About 30 guests were present.

Mrs. Percy Wilson, Mrs. Don Tait and Mrs. Walter Charles were joint hostesses at the home of the former on Saturday evening, April 19, when a miscellaneous shower in honor of Miss Ione Schmidt was held.

The gifts were presented from a decorated table, and games and contests were events of the evening.

Refreshments were served by the hostesses to the 15 guests present at the shower.

THIS WEEK'S RECIPE

Orange, chopped apple and shredded coconut in orange shell.

FLORIDA AMBROSIA

(Serves 6)
Three oranges, 1/4 cup chopped unpeeled red apple, 1-3 cup shredded coconut (dried, fresh or frozen).
Cut oranges in half and remove the pulp, saving the shells. If desired, flute edges of orange shells. Dice orange pulp, combine with apple and coconut, chill well and return to orange shells to serve.

A son was born to Mr. and Mrs. Lloyd Shannon at the Summerland hospital on Tuesday, April 22.

Co-operation of Canada, U. S. and Great Britain Best Hope of Peace

"The best hope for peace and understanding throughout the world is through the co-operation of the United States, Canada and Great Britain," declared Leonard W. Brockington, C.M.G., K.C., LL.D., D.C.L., one of Canada's outstanding orators and statesmen, to a luncheon tendered by the BCFGA and attended by representative citizens throughout the Okanagan and Similkameen, at Royal Anne hotel at noon on Saturday, April 12.

Dr. Brockington gave an outstanding address, full of hope for eventual international understanding and interspersed with humorous anecdotes and stories, told with a quick wit which has made him famous in three countries. "You have a great opportunity right here in the Okanagan," he declared, pointing out the closeness to the neighboring fruit areas of the U.S. and the possibility of cementing friendly relations.

Youngest Member
Regarding Great Britain and her future prospects, the speaker quoted Lord Tweedsmuir, who said: "Always remember that in the new British Commonwealth of Nations, Canada is the oldest member and Great Britain the youngest."

To illustrate the greatness of the people of Great Britain in her time of desperate need, while the bombs were dropping, he quoted many human interest stories, indicative of the generosity and depth of feeling of her residents.

He spoke of a Christmas play, given by refugees from Austria and Germany to the children of the slums of London shortly after Pearl Harbor. At the conclusion of the concert, one child proposed a collection be made for the poor of Hawaii and they collected nearly a pound sterling.

"England has usually been ahead in the morality of the age," he declared in answering present-day criticism of England. Cardinal Newman once said of England: "Let us remember that her repentance has always been greater than her sins."

Great Achievements
He reminded his audience that no country has done more to expand the borders and horizons of the world than Great Britain. Among her great achievements has been the keeping of the seas clear, and the keeping of the market places of the world open. "Her love of liberty has been the greatest of our civilization, and it will not be long before she comes again as the Mother of Freedom and the youngest member of our galaxy of nations."

Turning to the United States, Dr. Brockington declared that this country to the south doesn't realize her strength, "nor does she know what to do with it." Despite some crudities and harshness, he visualized the United States as the most generous and kind-hearted of all nations.

Standing between these two nations and in equal partnership with them, is Canada, he continued, and all three are alike in their basic conception of democracy, to give every man an equal opportunity and an abiding hatred of the doctrine of racialism.

In dealing with the strength of these nations, Dr. Brockington observed that "we are entitled to speak for the race of men because all the races have been accepted into citizenship in all three countries."

Tolerance and sportsmanship he held high in the spirit which must continue to prevail while the continuance of law and liberty are two concepts essential for civilization to endure.

Prairie Valley
Coming closer to home, Dr. Brockington spoke in glowing terms of the unity and self-discipline displayed by the fruit growers of this valley and which was imposed on them from the inside and not from pressure from without.

"No society can prosper if its producers do not prosper," he reminded his audience. "Your peaches taste sweeter and your apples are crisper if we know a fair share of the price we pay is

being returned to the producer." Turning for a moment to scientists, he declared he knows of no group of men who deserve praise more than the scientists, who do their best to advance human progress, and are adding something to human knowledge.

Dr. Brockington paused in his talk to pay tribute to the co-operation the Okanagan industry receives from such scientists as Dr. R. C. Palmer and his "skilled associates."

The people of the Okanagan act and think as Canadians, made up as it is from many different races. He termed the Okanagan a "great experimental station of international growth and understanding."

Dr. Brockington spent Friday being driven to many different points in the Okanagan, including the Dominion Experimental Station at Summerland, where he vouchsafed the thought that more attention should be given to the growing of ornamentals.

This opinion delighted Dr. Palmer as he has long been advocating more progress along this line.

At the Saturday luncheon, the speaker was introduced by Chas. A. Hayden and thanked by Mayor W. B. Games-Hughes, Kelowna, and A. K. Loyd, who presented him with a picture of Penticton orchards in bloom.

Mrs. Edna Chadburn and her son, Mr. George Chadburn, left on Saturday for Winnipeg, where they were called due to the illness of Mr. Chadburn.

A son was born at the Summerland hospital on Monday, April 21, to Mr. and Mrs. Lloyd McMillan.

Exciting News for MOTORISTS

Scenic Views Again This Year

A tremendous success last year . . . the beautiful, full-color prints which were given away FREE to motorists throughout the West. Remember them?

Again this year, Standard Dealers throughout British Columbia are bringing back these popular Scenic Views for your enjoyment. Every picture in this year's series is entirely new, reproduced in full color from actual kodachromes. They're magnificent! . . . showing some of the most beautiful scenes in the West.

Your Standard Dealer will tell you when you can start collecting your Scenic Views. Drive in and see him today.

... provided for your enjoyment by your Standard Dealer.

STANDARD DEALER

ASK YOUR STANDARD DEALER FOR

BUCKERFIELD'S

IMPROVES FEEDING, SAVES WASTE

NOW AVAILABLE FOR TURKEYS, RABBITS, CALVES & DOGS.

The troop was glad to welcome a new recruit, Dwayne Steven, who has been posted to the Eagle patrol.

The standing in the patrol competition is now as follows: Hawks, 345; Beavers, 244; Eagles, 237, and Buffaloes, 166. Dress for the banquet will be full uniform. Next meeting will be held in the school gym on May 2. Duty patrol, Eagles.

Friday's meeting after an outdoor game of prisoners' base, was given over to individual patrol preparation for the display to be given at the father and son banquet, on Friday, April 25, in the Legion hall. The banquet will begin at 6.30 p.m., and it is suggested that the boys come with their fathers, or other man, about 6.15 p.m. Mrs. Rempel, phone 1578, has made full arrangements for the catering, and the mother of any Scout who is doubtful as to what she is supposed to do, should phone Mrs. Rempel. Mothers sending food in dishes or pans should carefully label their containers.

This is the first father and son banquet the Scouts have held and a number of outside guests have been invited. It is to be hoped that every boy will be present with his father and that fathers will make a special effort to attend and learn something about the organization to which their boy belongs.

History of Women's Institute Reveals Influence of This Group on English Organization

Resume of the Story of the Women's Institute.

By STELLA E. GUMMOW

The Women's Institute owe their existence as an organization of vitality and force to the unselfish efforts of public-spirited women. From the earliest beginning, when Adelaide Hoodless started them off at Stoney Creek, until the present day, women who have planned for the future have given them life and permanency. From that first Institute there has grown up an organization that spans the world and is found in every village and community in our vast Dominion of Canada.

In 1947, we celebrate the Golden Jubilee of the Women's Institute, for it was on a cold February night in 1897 that the first Institute was organized at Stoney Creek. Little did that group of women, or even Adelaide Hoodless herself, realize that this would go down in history as an historic event, the birth of a vast organization of the Countywomen which now is the largest women's organization in the world.

Adelaide Hoodless—Founder Adelaide Hoodless was the wife of a Hamilton manufacturer and merchant. In her early life she experienced great sorrow in the loss of her eldest son at eighteen months of age, due to impure milk. This made her resolve that she would do all in her power to help other mothers. She wanted to help other women to know how to feed their families well and how to safeguard them against similar tragedy by educating them in homecraft.

At that time, her husband was chairman of the Hamilton Board of Education and she enlisted his aid in having domestic science added to the curriculum of the public schools. She was successful in this after a long struggle, and to meet the need for domestic science teachers, she organized the school of art and domestic science, financed through her efforts, by public subscription. This was soon too small, and she approached Sir William McDonald and received his support, with the result that McDonald College was erected at Guelph. In the reception room of this college a life size portrait of Adelaide Hoodless was hung by the Women's Institutes of Ontario, in tribute to her work.

The Farmers' Institutes had already been organized in Ontario, and a young Farmers' Institute member, Mr. Erland Lee, of Saltfleet County, in the vicinity of Stoney Creek, attended the experimental union at the Ontario Agricultural College at Guelph. He heard Mrs. Hoodless give a stirring talk on the need of having sewing and domestic science taught in the public schools. He was so much impressed that he resolved to ask Mrs. Hoodless to speak to the women of Saltfleet.

Both women and men were impressed by her address that evening, and she stressed the need for an organization for women similar to the Farmers' Institute. A second meeting was called a week later to talk over such an idea and in that week Mr. and Mrs. Erland Lee canvassed the countryside to such effect that a week later one hundred women and one man, Mr. Erland Lee, were present. Mrs. Hoodless again stressed the importance of women having an organization that would enable them to make better homes. She felt that if it was necessary for men to have an organization to help them to grow better crops of hay, grain and fruit, then an Institute for women would be equally helpful to them in their work. She felt that their work, home craft and mother craft, was more important than men's, in that it dealt with the home and the caring of the family.

Organization of First Women's Institute That night, the first Women's Institute was formed and from

early records of the Institute we find these words, "A nation cannot rise above the level of its homes, therefore, we women must work and study together to raise our homes to the highest possible level."

The objects of the Women's Institute were divided into six classes: Domestic economy, architecture, with special reference to heat light, sanitation, and ventilation; floriculture and horticulture; Music and art, literature, education, sociology and legislation.

These committees correspond very closely to the standing committees under which the Institutes function at the present time, citizenship, social welfare, home economics, agriculture, handicrafts and industries.

Mr. Erland Lee was always a good friend of the Women's Institutes and it was through his department of agriculture was given. This was followed by the extension work across Canada.

In 1899, the first government organizer, in the person of Laura Rose, instructor in dairying at the Ontario Agricultural college, came to Stoney Creek. Mrs. Hoodless and Miss Rose together chose the motto, "For Home and Country," which has become the worldwide symbol of the Women's Institute movement.

Women's Institutes in British Columbia To those of us in British Columbia the most interesting part of the history deals with the organization of our own province.

In 1909, the deputy minister of agriculture for B.C., Mr. W. Scott, was able to arrange to have Miss Laura Rose come out to this western province. She visited many communities that fall and organized seventeen Women's Institutes, the first being Gordon Head. I understand that Lakehill was organized the same day and, as Gordon Head is not functioning as an Institute, Lakehill has the honor of being the oldest Women's Institute which is still active.

Nelson and Nakusp, in the interior, Metchosin and Sooke were also organized that same year. Mr. Scott was superintendent of Women's Institutes, but as they grew in number, he found that he needed help in their administration so, accordingly, four women from different parts of the province, were appointed as an advisory board of the Women's Institute of British Columbia. This was done in 1911, and all Institutes then organized were registered as such by the Agricultural Assistance Act of 1911. This was replaced by a new Act in 1914 and all the Institutes in existence at that time registered under that date, which officially gives them the incorporation date of 1914. The only record of Institutes organized before that time is from their own files.

Hon. Price Ellison was minister of agriculture when the first Women's Institute advisory board was appointed, and they met in the Parliament buildings, August 14 and 15, 1911, for their first meeting. This board was made up of Mrs. Davies, of Chilliwack, afterwards elected chairman of the board; Mrs. Alfred Watt, of Metchosin, secretary; Mrs. C. Lipsett, of Summerland, and Mrs. Kilbey, of Nelson.

Organization of National Federation of Women's Institutes In 1913, after the passing of her husband, Mrs. Watt left for the Old Land with her two small boys. When war broke out and that first grim war winter came to Britain, Mrs. Watt saw the need of Women's Institutes over there. She enlisted the help of Lady Aberdeen who, as the wife of Canada's Governor-General, had seen the value of Women's Institutes to rural Canada. Writing back to far-off British Columbia, and Mr. Scott, she received all the information that she needed to organize in the Old Land. The Women's Institute movement was as popular there as it was in Canada, and it spread rapidly. The resultant increase in Britain's food supply due to the work of the Women's Institutes, was from 35 to 60 per cent of requirements. Mrs. Watt was honored by the King for her work, and the Institutes become

a vital part of the life of the country.

Because they had gone from Canada, they were lovingly called "Canada's Gift to the Motherland." The National Federation of Women's Institutes of England and Wales now has 6,329 Institutes. Their most distinguished member is Her Majesty Queen Elizabeth, president of the Sandringham Womens' Institute.

Associated Countrywomen of the World

Under the able guidance of Mrs. Watt, countrywomen's groups were organized in Scotland, Ireland, all parts of Europe, Africa, Australia and Ceylon. At an international meeting of women from all countries, in Vienna, in 1930, the Countrywomen formed the largest group. Three years later they met in Stockholm, Sweden, to organize the Associated Countrywomen of the World, with Mrs. Watt as president. Two other meetings have since been held, at Washington, in 1936, when 8,000 women were present, and in 1939 in London, with the shadow of the Great War darkening that meeting. No meetings were held during the war, but a big meeting is planned in Amsterdam, Holland, in September, 1947.

Federated Women's Institutes of Canada

In the meantime, the Women's Institute movement had gained such strength in Canada that it was organized in every province. In 1919, all nine provinces united to form the Federated Women's Institutes of Canada. Each province has two representatives on the Federated board, which acts as a "clearing house for all institute activities," and meets every two years, alternating between the east and west except when it is held in Ontario.

Mr. Roy Wolden left recently for Mission, B.C., where he will make his future home.

A daughter was born to Mr. and Mrs. Ralph Blewett at the Summerland hospital on Friday, April 18.
