

Lower School Costs Provide Small Gain -- Goldenberg Report

Although there will be definite small gains to the municipality from increased grants if proposals of the Goldenberg report are approved by the B.C. government in its session which opens on Feb. 11, any major benefit to Summerland would accrue in decreased school costs, it is believed in municipal circles here. However, the heavy burden of education on the municipality will not be lessened to any great extent from adoption of Goldenberg proposals.

Regarding education, the commission recommends that the basic teachers' salary agreed upon as the amount to be paid by the government, be raised \$100 per teacher. Another recommendation would be a raise of \$3 per pupil on the allowance for current school operating expenditures, and further relief would come about by raising the government's share of transportation costs from 50 to 60 per cent.

No Great Benefits
In discussing the Goldenberg report with Reeve W. R. Powell and Municipal Clerk F. J. Nixon, The Review found that the municipality would not benefit to any great extent in other lines.

Reeve Powell pointed out that a lowering of educational costs to the municipality is Summerland's greatest need. He felt that in other deals with the government the municipality would not be in a position to benefit greatly.

Both Mr. Powell and Mr. Nixon expressed regret that irrigation Mr. Goldenberg in reports issued had not been mentioned by in the Vancouver press. However, no complete copy of the report is available here yet and it may transpire that the position of Summerland and Penticton, the only two municipalities to own their irrigation systems, and who have never received any relief from irrigation costs from the government, has been dealt with by Mr. Goldenberg.

Little saving would accrue here from the government taking over the cost of transporting prisoners to provincial jails and maintaining them there, although other municipalities would benefit greatly from this move.

No Secondary Highway
There is no roadway in Summerland which might be classed as a secondary highway, as far as is known here. Therefore, there would be no benefit to Summerland from Goldenberg's proposal that the government pay a part of the cost of constructing and maintaining secondary highways.

The government now pays the entire cost of maintaining the primary highway, No. 5, which runs through Summerland.

Municipal heads are not ready to commit themselves in praise or disapproval of the proposal to raise taxes on improvements to 75 per cent of the assessed value.

It was only last year that Summerland started to tax improvements at all and the basis here is now 50 per cent. Kelowna only taxes 31 per cent of improvements assessments, and Mayor Hughes-Games believes that such a proposal would tend to increase cheap construction of homes and buildings and would be a hindrance to industries.

Favor Principle
Local municipal officials favor the principle of a business taxation in preference to the existing trades license plan. The latter has always proved a headache for the municipality in its endeavor to try and equalize this license and place each business in a fair relation to other existing businesses.

This trade's license has long been looked upon as a type of protection for existing business houses but the Goldenberg report takes the attitude that in changing to a business tax it merely looks upon the transaction as a revenue-producing one which the municipality is entitled to from the firms and professional men engaged in making their livelihood within the municipal boundaries.

Municipal Clerk Nixon does not favor Mr. Goldenberg's plan to do away with sinking funds and finance purely with serial debentures.

COULD NOT ATTEND INVESTITURE

Probably the most disappointed man in Canada last Wednesday, Jan. 29, was Flying Officer W. N. Armstrong, of Summerland, son of Mr. and Mrs. W. Armstrong, who was unable to travel from Toronto to Vancouver to receive his Distinguished Flying Cross at the investiture at U.B.C.

F/O Armstrong is studying optometry in Toronto and notice of the investiture at the coast did not reach him in time to make arrangements for the trip west.

Of the more than eighty persons who were to receive decorations last week, only five could not appear in person.

Chancellor of U.B.C., Mr. E. W. Hamber, former lieutenant-governor, gave the introductory address and citations were read by Dr. N. A. M. MacKenzie, Lieutenant-Governor C. A. Banks, C.M.G., officiated at the ceremony.

Only eighteen of this impressive list of personnel from the three services were not in attendance at U.B.C.

Four Appeals Before Court Of Revision

Despite the general re-assessment of properties undertaken by the new municipal assessor, Roy F. Angus, only four appeals are scheduled to be heard by the Court of Revision consisting of all members of the municipal council on Saturday morning, Feb. 8.

Last year, improvements were taxed for the first time and this practice will continue. Fifty per cent of the assessment on improvements comes under the tax structure here.

The Goldenberg report, given publicity for the first time last week-end recommends that seventy-five per cent of improvements be taxed.

Details of the 1947 municipal assessment will be available following the court of revision sitting. Unofficial reports indicate that there has not been a big increase in assessments this year, but there has been a general levelling off of assessment figures. The increase is named at slightly more than \$100,000.

The revision court, however, has power to increase or decrease the overall assessment figures as it deems fit.

Want Advisory Council To Lay Down Policy

Establishment of an advisory council to the B.C. Game Department to lay down the policy which will establish game regulations and efforts at conservation is being urged by the Summerland Fish, Game and Forest Protective Assn., following a general meeting on Monday evening in the Oddfellows' hall.

Such an advisory council was first suggested by Kelowna sportsmen and has since been advocated by Vernon and Peachland.

If adopted it would consist of one representative from each of the five zones in B.C., two members appointed by the department of lands, two members representing the U.B.C. department of zoology, and a member of the B.C. Game Commission.

"In all matters of conservation and game management, the council would present its findings to the attorney-general for his information in order that he may formulate a policy for the conservation of our forests, game and fish," the resolution suggested.

Assist Fish
In dealing with other subjects, the local sportsmen decided to meet the municipal council and urge that a flume be inserted in the spillway at Deer Lake, or if this is not possible, that permission be granted to open the gate for two days in the spring, for the return of spawning fish.

The delegation to meet the council will consist of President W. Snow, H. Clark and C. Snow. Adoption of the principle that there should be bounties all the year round on predatory animals is to be urged on the game commission by the local club.

Bill Barkwill brought in a suggestion that each district in B.C. should have a game sanctuary and wished to set aside a small area in the Summerland area.

The annual meeting of the fish and game body will be held the first week of March, it was decided on Monday.

A donation of \$10 to the veterans rehabilitation committee and another of \$25 to the Living Memorial fund were voted on Monday night.

Mr. C. H. Elsay, manager of the Occidental Fruit Co. packing house here, is in Vancouver this week attending the annual convention of the Canadian Jobbers' association.

The Summerland Review

Vol. 2, No. 5.

West Summerland, B.C., Thursday, February 6, 1947.

Summerland's 40th Council

Summerland's fortieth municipal council, which took office at the first of the year, is mainly concerned with roads and higher school costs as preparations are being made to prepare a budget for 1947. Another feature which may come to pass this year will be a revision of the electric light rates and a better deal with the West Kootenay Power and Light Co., providing the municipality with a sliding scale for payment of electricity. At one time the main consideration of Summerland's council was water but now there is plenty of water but roads are the chief cause of concern.

ERIC TAIT

On January 21, the council passed its fortieth birthday. There was no celebration nor was any recognition given of the fact on that date as most council members were in Kelowna attending the BCFGA convention.

It was on January 21, 1907, that the first council meeting was held in Summerland, with J. M. Robinson as the first reeve. He was succeeded by R. H. Agur, who served in 1908-09-10. In 1911 and 1914 J. Ritchie was chief magistrate and in between times, C. H. Thompson served for 1912 and 1913.

The rest of the war years, to the end of 1918, I. Blair was reeve. E. R. Simpson held office in 1919, to be followed by J. R.

Campbell. In 1921 R. E. White took over, but J. R. Campbell returned to office in 1922, 23 and 24.

From 1925 to the end of 1928 the reeve was R. Johnston. O. G. Smith took over in 1929 and from 1930 to 1935 inclusive, the present reeve, W. R. Powell, held the reins of the municipality.

C. E. Bentley, new councillor this year, served as reeve in 1937, 1938 and 1939.

In 1940 and 1941, W. R. Powell returned to the reeve's office and then from 1942 to 1945, inclusive, C. J. Huddleston was chief magistrate.

In 1946 Mr. Powell again returned, and he is serving another term in 1947.

St. John Order Starts Appeal For Funds Here

Mrs. J. E. O'Mahony will lead the Summerland drive for funds in connection with the St. John Ambulance association appeal for one million dollars from Canadian people, a meeting of representatives of various organizations decided at the Anglican Parish hall on Monday evening.

"I think the St. John order has given Summerland a valuable service at practically no cost," declared Mrs. O'Mahony in recounting the valuable work in first aid and home nursing instruction which was carried out here throughout the war years.

She explained that no appeal had been made by the association during the war years because of the pressing needs of the Red Cross.

This national campaign by the St. John order commenced on Feb. 2 and will continue until Feb. 23. No quota has been set for this district but the B.C.

quota is \$90,000, the meeting was told.

H. E. Woodford was named treasurer for the campaign and donations may be left at a number of points in this district, including the municipal office, J. A. Road, Bank of Montreal, Butler and Walden, T. Hickey at the lower town post office, and the Trout Creek Service Station.

Appeals will be mailed to practically all householders in the district, while organizations and the schools will be asked to contribute to the fund.

It was pointed out that first aid classes are being carried on in this district now and industrial first aid instruction is also available. Instructors are also imparting their knowledge to school pupils and first aid men are available at all fires and at most athletic matches.

The St. John order has played a big part in saving lives which otherwise would have been lost and in reducing the ill effects of injuries and sickness, the Monday meeting was informed.

Mr. F. Pollock left on Sunday for a week's business to Vancouver and Portland, Ore. He was accompanied on the trip by Mr. and Mrs. Walter Blossdale.

Dr. and Mrs. L. A. Day expect to leave for Vancouver on Tuesday night, to visit for a week at the home of Mr. and Mrs. F. A. Sherrin.

Don Agur In Brilliant Win On Downhill Run At Ski Meet

Don Agur, daring Summerland skier, whirled down the treacherous half-mile course at Kelowna last Sunday to capture the open downhill ski championship at the Okanagan zone ski tournament. This was a feature of the entire two-day tourney, as Agur defeated some of the most prominent skiers in the province, including representatives of the Amber Ski Club, Princeton and the Cypress Club of Vancouver. Time for this fast-moving event was 49 seconds, just two seconds ahead of Don Smuin, Penticton and five seconds faster than Jack Wood, of the Cypress Ski Club. Rounding corners of sheer ice hidden under three inches of fresh snow, Agur repelled all other visitors in this breath-taking event which saw many bad spills but no injury. The drop is 760 feet in the half-mile and the Kelowna Ski Club has endeavored to pack as many thrills into their short half-mile downhill run as the Crystal Ski Runners here have included in their mile and a half course.

Other Winners
Zone prizes were also captured by Walter Powell and Ian McQuaig in the senior events and by Wally Day and Lavella Day, son and daughter of Dr. and Mrs. L. A. Day, in the junior events.

Most of the open events were won by skiers from points outside the Okanagan, but in the strictly Okanagan zone events, the Crystal Ski Runners did not take a back seat to anyone.

The success of local competitors at this tournament ensures plenty of competition for the Summerland tournament to be held on February 22 and 23. Princeton and Kelowna skiers especially are anxious to try and defeat Don Agur on his downhill run.

The zone tournament last week-end was a well operated affair and attracted more than a thousand spectators on Sunday afternoon.

In the men's slalom race, Walter Powell placed third in open competition and was first in the zone list. A. E. MacIntosh, Vancouver Cypress, was first in 63 4/5 seconds, while W. E. Paul, Princeton, was three-fifths seconds slower. Powell's time was equally close at 66 seconds.

Ian McQuaig, also of Summerland, was next to Powell in zone competition.

In the ladies' downhill, Lavella Day was second in the zone portion, coming behind Beatrice MacIntosh, Cypress, and Jean Ford, Kelowna, in open competition. These latter two competitors tied for first place.

Run in Blizzard
Junior boys' downhill run took place in a blinding blizzard on Sunday morning, and half an hour later the snow stopped and it was clear for the rest of the day.

In this weather, Wally Day captured first place cup in the zone race and was tied for third place with Dudley Paul, Princeton, in open event. First and second places were captured by John Ray and Steve Kassa, both of Princeton.

Another first place in zone competition was captured by Wally Day when he took the junior slalom run on an icy, steep course. He was next in line to three Princeton youths who captured the open prizes.

In the ladies' slalom, Lavella Day and Helen Ahrens, Kelowna, were tied for third place in the open event and second to Jane Corbett, Penticton, in zone competition. The latter captured first honors as well as the zone prize.

No Summerland entries were shown in the jumps, as there is no hill available here for practice. Longest jump at Kelowna was registered by Jack Wood, with 121 1/2 feet.

THREE CALLS FOR FIRE BRIGADE

Last week, the volunteer fire brigade was called out to three fires. On Monday, a car caught on fire on No. 5 highway near Peach Orchard but before the brigade could get to the scene the car was badly demolished.

On Friday morning, the fire siren called the brigade to the Capitol Motors Soderberg garage, where some inflammable material had become ignited. Although a portion of the building was scorched, the damage was not extensive and the fire was under control in a short time.

Again, a chimney fire at the home of Ben Newton was the cause of the brigade being summoned. However, there was no danger and Mr. Newton was standing by at the time to see that the sparks did not ignite the roof. Mr. Newton did not turn in the alarm.

One of the social highlights of the winter season was the Summerland Badminton club dance, held at Ellison hall on Tuesday evening, with music being supplied by Carl Dunaway's orchestra, from Kelowna.

Kelowna Mill Votes On New Union Setup

KELOWNA—Employees of the S. M. Simpson Lumber Company, Sunday afternoon voted overwhelmingly for a vote of the workers by secret ballot to ascertain whether they choose to form their own union and be affiliated with the American Federation of Labor.

W. J. Baker, Summerland, of the United Brotherhood of Carpenters and Joiners, spoke to the large gathering Sunday, and explained the advantages of an A.F. of L. contract.

At present, the mill workers belong to the United Woodworkers of American Union, and this union is affiliated with the C.I.O. It has been reported on more than one occasion that efforts are being made to purge the C.I.O. of an alleged communist element in the union. At the meeting Sunday, Mr. Baker emphasized the point that the A.F. of L. did not recognize the communist party as a legal political party, and the organization is strongly opposed to this party's platform.

Refrains Comment

S. M. Simpson, manager of the mill refrained from any comment, adding that no decision had been granted by him for the vote, but that it is "absolutely up to the employees themselves." The vote was to take place on Wednesday, February 5.

It is understood that if employees of the mill favor setting up a union of their own, it will have its own autonomy and that any branch calling a strike would not necessarily affect another.

Speaking to the gathering Sunday, Mr. Baker pointed out the advantages of the union charter, and declared that once a contract has been made with an employer, it would have to be lived up to, and that if a strike were called, it would have to have a two-thirds majority vote in favor of the action before the men walked off their jobs.

During the lumber strike last year, it was known that a large percentage of the men were opposed to being off work for such a long period, and since then, the head of the I.W.A., Howard Pritchett, declared that any increase the workers got through the strike has been off-set by increased living costs.

Commenting on the move of the A.F. of L. coming into the Valley, W. H. Sands, local representative of the Federated Fruit and Vegetable Workers' Union, thought the mill workers were "on the right track" to a more conservative and democratic organization than the C.I.O., who, in his opinion, "are far too radical in their methods."

No decision has been reached by the employees of the Summerland Box Co. regarding a vote similar to that being conducted in Kelowna. There has been some discussion at the local mill, among employees, but it is understood they have been awaiting the outcome of the Kelowna vote before taking any action.

It is generally recognized that the I.W.A. is threatening another strike in the lumber industry this June if their demands for increased wages is not met by that time.

Miss Gladys Daniels, who is training at St. Paul's hospital, Vancouver, is visiting at the home of her parents, Mr. and Mrs. Frank Daniels. Mr. Daniels returned last week from overseas.

EDITORIAL

Government Sub-Agency

The time is rapidly approaching when new motor licences will be necessary. This situation brings back to mind that there are no proper permanent facilities in Summerland to cope with the situation.

There is one police constable in Summerland who must not only look after the municipal police needs but serve Peachland and other adjacent areas. If he is to be tied down to issuing motor licences, then he cannot be expected to carry out the duties he is normally employed to do, that of policing the district.

The same situation occurred last year and due to the efforts of the municipal council and trade board, a temporary appointment was made to take the burden from the police official's shoulders.

Since then, representations have been made to the provincial government for the establishment of a sub-agency in Summerland. The crying need for such a service has been impressed on Victoria but, so far, to no avail.

Twelve months have rolled by and the issue is still being sidestepped. It is time that the B.C. government recognized the growth of this community and realizes its moral responsibility to provide better governmental services for a population of some 3,000 persons.

* * *

The Business Section

It is with much satisfaction that we learn the new roads committee of the Summerland council has laid its plans for an early start on the 1947 program. With every effort being expended now to ensure the available machinery is in working order by early spring, it would appear that valuable improvements can be expected to the municipal road system.

From our standpoint, the business section of the community, especially Granville and Hastings streets, should receive consideration this year and should have a proper surfacing.

After all, the business centre is the community's focal point. Visitors generally judge a community from the appearance of the centre where they transact their business.

No statement has been forthcoming from the council but we feel that the roads committee has in mind the surfacing of these principal streets. If it had been possible last year, the council would have considered it seriously.

But before a proper job of surfacing can be carried out, there is one important point to consider. We refer to the draining of these streets. One only needed to walk around the business section during the thaw two weeks ago to realize the pressing need for better drainage of these streets.

Opposite the post office, two weeks ago, a pool of water fifty feet long was formed. There were other pools, not as large, but just as inconvenient, in other places.

Previous councils have realized the necessity for some action but have not been able to find the necessary monies or materials with which to do the job. We hope that the 1947 council can take some definite steps to remedy this situation and provide a proper face-lifting for the centre of community life.

St. John Ambulance

Sunday saw the start of a national appeal for the St. John Ambulance Association, which wishes to raise one million dollars from Canadians by February 22.

In the Summerland district, the good work of the St. John group is well known. Dozens of persons have been trained in first aid and home nursing requirements, and their services have proved invaluable on many occasions.

Throughout the war, the St. John Ambulance made no attempt to raise funds on a national basis. Volunteers worked energetically night after night and day after day, with little or no recompense, so that as many as possible could know the rudiments of saving life.

Now, the peacetime work of the order is to continue. But funds are depleted and a million dollars is necessary that these vital

classes can carry on.

Letters are going forward to most homes in this area within the next few days, appealing for donations. Organizations are being asked to make contributions. The school children, who receive valuable information from first aid lecturers, are being asked to do their bit.

Contributions can be made to a number of central points throughout the entire district. Although no quota has been set for Summerland, ten cents per person would raise \$300. That would appear to be in line with the B.C. quota of \$90,000.

Such an amount as a dime seems little enough for any person to ensure that such valuable work will continue to flourish in peacetime as it has done in the past.

The Inside Story

By ARGOLOGIST

Some people think the tomato is a vegetable and others think it is a fruit. Be that as it may, the tomato has become an important item of diet for most of us. Fresh tomatoes in summer and canned tomatoes in winter provide agreeable forms in which to consume our daily quota of vitamin C.

Growers want tomato varieties which grow vigorously, resist diseases, ripen early and yield heavily. Canners want those varieties which produce large, firm fruits of dark color and good quality, free from green shoulders and large cores.

In an endeavor to satisfy these requirements, plant breeders have introduced a large number of tomato varieties. No less than sixty-four varieties and strains of tomato were included in the variety trials at the Summerland Experimental Station last summer. With respect to both growth characteristics and canning quality, two new introductions, Sioux and Stokesdale No. 4, gave outstandingly good results. Sioux is an introduction of the Experiment Station at Lincoln, Nebraska. Stokesdale No. 4 was introduced by Stokes Seeds Limited.

For home use, the Signet variety, which was introduced several years ago by the Summerland Experimental Station, still reigns supreme. This variety is vigorous, begins to ripen early and produces a very heavy crop over a long season. The fruits are comparatively small, averaging about 2½ inches in diameter. They are dark red in color and of excellent flavor. Furthermore, they hold their shape well when canned. In addition, this variety has a comparatively high vitamin C content.

The Feminine Front

by MURIEL HURRY

Dreams, because there is little scientific explanation for them, are usually relegated to the realms of the supernatural. But in a recent magazine, written from information collected from psychologists and other scientific sources, there appeared an enlightening article on this subject.

Do you dream? Psychologists are agreed that everybody dreams every night, but most dreams are forgotten the instant we awake. Dream books are classified as utter nonsense, as no listing of dream symbols can possibly fit the peculiarities of any particular dreamer. Age, occupation, education, interests, personality, all these influence your dreams, so that if two people dream about the same thing, an entirely different interpretation can be put upon both dreams.

Dreams can foretell the future, with major reservations. Often the subconscious mind dwells on some fear or danger, and if this danger materializes, and if we have dreamed of it upon occasion, it seems like one of the miraculous events, occasionally coming true. There are many cases on record of such odd events, but that is the reason that they are on record. The many millions of dreams that do not come true are never recorded.

In a sleep of a few seconds, we can have a dream that extends over a great period of time. Thought processes and, as a result, dream images are greatly speeded up as they pass through the sleeping mind. Science cannot yet explain why this is so, although it seems understandable that when a mind is relaxed, with no distractions, and with all our thought processes concentrated on the subject in hand, that such could be the case.

It is also true that great discoveries and inventions, as well as works of literature and art, are the results of dream inspirations. The theory of the grouping of molecules, the result of a

dream of one, August Kekule, which took place over 70 years ago, has been declared "the most brilliant piece of prediction to be found in the whole range of organic chemistry." One of Hans Christian Andersen's famous stories, Kubla Khan, by Coleridge, and Victor Herbert's waltz, "Kiss Me Again," are all the result of dreams. But it is pointed out that such dreams are the reflection of skilled minds, so that a person with no musical talent could not compose a usable melody under these circumstances, or an illiterate person a good composition.

Discussing the subject of skiing recently with a feminine enthusiast, I picked up a few hints on what the well-dressed woman should wear, both from the angle of smartness and of comfort.

The most essential article of equipment, she stated (apart from the skis, without which, any other equipment is unnecessary), is a snug ski jacket with the drawstring waistline and tight cuffs, which mitts can tuck beneath. This kind of a jacket will keep you from getting too soaked, even with numerous falls in the soft snow.

Gay colors will brighten the ski hill, and headwear runs mainly to earmuffs, with kerchiefs and ski caps following in popularity.

Women show wonderful balance in skiing, according to my informant, although she regrets their lack of courage on difficult courses and slalom hills.

Skiing is a stirring and invigorating sport, with a feeling of actual flying, unobtainable in any other sport, claim enthusiasts. Personally, chum, I'll take your word for it. After that skating episode, uh—uh!

NAMED POSTMASTER

Ross McLachlan, who assumed the post of acting postmaster in West Summerland on the retirement last October of J. H. Bowering, has been informed by the civil service commission that he has been declared qualified to take the post permanently. Mr. McLachlan is a veteran of World War II and was a prisoner of war in Germany for many months.

Why the Okanagan Is A Dry Belt

By GEO. W. JOHNSON

Although it is now some thousands of years since the great glacier finally retreated from the Okanagan Valley, geologists tell us that we are still in a glacial age. Such ages are marked by periods of advance and retreat of the ice, periods probably covering thousands of years before a state of normality is reached. So long as the retreat keeps ahead of this advance the temperature rises slightly as glaciation recedes. This is the position in which we find ourselves today. However, so long as the physical conformation and features of a given place are not seriously disturbed, precipitation remains fairly constant. Thus it is that the Okanagan, as no doubt it was before the great ice age, still remains a dry belt.

It will be noticed, however, from a study of the following averages of precipitation, that all parts of the valley are not equally dry. Generally speaking, it becomes drier as one goes from north to south. Over a number of years the averages are as follows: Vernon 15.65 inches, Kelowna 11.58, Summerland 10.45, Penticton 10.91, and Oliver, 8.71 inches. We would mention also here that the average precipitation at McCulloch is 25.84 inches. The significance of this will be noticed later. These differences are, for the most part, accounted for by the physical characteristics of the terrain over which the moisture-laden winds pass on their way from the sea.

A glance at a topographical map of the Okanagan Valley will show that it is surrounded on all sides by mountains and high plateaus.

The lake itself is 1,130 feet above sea level. Those high altitudes to the west of the valley are of particular significance as it is from the west that a large proportion of the moisture-bearing clouds approach the valley. Meteorologists tell us that the majority of the storms that approach the southern part of British Columbia originate in the Pacific Ocean, generally to the south of Japan where the polar continental air currents from Asia come in contact with tropical maritime air from the warm Japanese current, and the resulting disturbance causes storms which ultimately strike our continent.

Cloud formation is the first stage in the production of rainfall and it is necessary to digress briefly to show how this is brought about. Cloud is formed by the condensation of the invisible water vapour present in the atmosphere into the form of small liquid drops. To bring this about, air must be cooled to below the dew pitch. The only process in nature that is capable of giving rise to sufficient condensation to produce an appreciable amount of rainfall is that involved in the cooling caused by a transfer of air from low to high levels. The principal causes for the rise of air are the meeting of currents with different temperatures, when the colder, being the heavier, thrusts itself under the warmer and lifts it up, and the passage of air currents from lower to higher levels on the earth's surface.

As is well known, air always contains moisture in the form of invisible vapor, and the amount of water which can be carried before the air reaches saturation varies with the temperature. Warm air is capable of carrying more moisture than cold air. At 60 degrees F. there may be as much as 5.8 grains per cubic foot of air, whereas at 40 degrees F. the air may contain 2.9 grains only. Therefore, if a cubic foot of saturated air at 60 degrees F. is cooled to 40 degrees F., 2.9 grains of water will be condensed on the dust particles floating in the air and appear as fog or cloud. At the lower levels, provided no heat is supplied from an independent source, air cools approximately at the rate of 1 degree for each 180 feet of rise, and conversely heats at 1 degree for each 180 feet of fall, this rise and fall being quite independent of the path the air may take.

As we have said, most of the storms which reach this section of British Columbia, originate in the Pacific Ocean, and in imagination we will endeavor to trace a unit of air, say, a cubic foot, from the neighborhood of the Philippine Islands in its course across the ocean to its destination in the southern interior of British Columbia.

When it leaves the tropical regions just north of the equator, it is picked up by a good stiff breeze and carried many miles in the prevailing winds in a northerly direction. As it approaches Japan it turns almost due east. We will assume that the temperature of this cubic foot of air is 60 degrees F. When it started out it was comparatively dry, but as it passed over the ocean it sucked up moisture and approached saturation which, as we have seen, would be a content of 5.8 grains of invisible moisture. In its course across the ocean it encountered various obstacles, shed a little moisture here, picked up a little there, eventually reaching our coast cooled slightly by land breezes, but still carrying its quota of moisture. On striking the mainland, it encounters a further shock. Land surfaces are generally cooler than water surfaces, and as it passes over Vancouver it sheds a little moisture. It continues up the Fraser Valley still shedding moisture until it reaches the mountains in the Hope and Coquihalla districts. Here it is forced up the mountain sides to an altitude of from five to seven thousand feet. A plateau of about this height continues for several miles. The once moisture-laden atmosphere at 60 degrees F., by the simple process of rising, and thereby expanding, has been cooled off to say, 20 degrees F., at which temperature a cubic foot of air can only carry 1.23 grains of water in the form of invisible vapor. The balance has been disposed of in the form of cloud, rain, hail, snow, dew, or some form of precipitation. As already stated, the temperature falls at the rate of approximately 1 degree for every 180 feet of rise in the lower levels, and conversely rises as it comes down to sea level. Thus, it will readily be seen in crossing this plateau the air will be depleted of a great deal of its moisture.

By the time the eastern slopes of the plateau are reached the atmosphere, although perhaps still carrying moisture almost to the point of saturation for the higher altitudes, begins gradually to descend. In the process of descending it becomes heated by compression, and thereby capable of carrying more moisture. There is a slight drop in the neighborhood of Princeton, but it is not until Osoy Lake (3,606 ft.) is reached, that the real descent begins. From this point there is a gradual fall to Okanagan Lake (1,130 ft.). The complete journey down these eastern slopes involves a fall of nearly 5,000 feet, a rise in temperature of about 30 degrees, so that we now have an air temperature of about 50 degrees, capable of carrying nearly four grains of water. The atmosphere, therefore, instead of losing moisture, is taking it up by the process of evaporation, and this current of air which we have traced for so many thousands of miles across the ocean, which might have done so much for us in bringing copious and refreshing showers to revive and replenish the earth. When it does reach our valley, it comes down out of the hills like a marauder and a robber, licking up every bit of moisture and carrying it off. It crosses the valley and the lake where it encounters the rising slopes on the eastern bank. Here again the process is repeated, rise and fall, expansion and compression. The precipitation at McCulloch is more than twice as much as is recorded in the valley below. Thus the moisture is carried from the orchard to the hill to be caught by man's devices and returned to enrich the arid lands for his satisfaction.

SUGGESTS COAST ENGINEER STUDY ELECTRIC NEEDS

Suggestion that Mr. Yuill, a coast electrical engineer, be brought to Summerland to survey the municipal electrical system, was made by Councillor F. E. Atkinson to last week's council meeting.

The council met representatives of the West Kootenay Power & Light Co. to discuss the municipal electrical needs last week.

An agreement was made early last year that if the West Kootenay Co. would supply regulators, then the municipality would separate its light and power services.

Foreman T. P. Thornber reported last week the necessary copper cable is now available for this separation.

The West Kootenay Company has asked that this work be proceeded with soon and will probably be undertaken on three successive week-ends.

Miss Elin Johnston, R.N., who has been a guest at the home of Mr. and Mrs. J. C. Barkwill while on a short course of public health nursing, returned to U.B.C. on Friday last.

FRANCE'S POLITICAL LEADERS Leon Blum, right, and Vincent Auriol, both Socialists, engage in fond embrace after Auriol had been notified of his election as the first president of the new-born fourth republic at Versailles Palace. Blum submitted his resignation as president-premier of the interim government. Paris was then handed a major surprise when Auriol called upon an old Socialist party veteran Paul Ramadier to select a ministry. Latest reports indicated his chances of success are slim and that France faces a long period of political jockeying.

CLOTHESPIN PARTY ENJOYED BY CGIT

On January 30, the senior CGIT Summerland girls sponsored a "Clothespin" party for members and guests at the home of Mrs. H. Milne who, with the help of Mrs. A. McKenzie, supervised the evening.

A fee of fifteen cents plus a clothespin, were the admissions to a party of games and plenty of eats. A good turnout of 30 young people was admitted to the party.

Many and varied clothespins provided the theme of the evening and these were going strong from 7.30 until 10 o'clock. Supervisor of these games was Maureen May.

The girls supplied the eats and acted as hostesses during the party, which concluded with the singing of the CGIT song, "Taps."

Mr. Louis Smith returned on Monday from a short trip to Vancouver.

Rapid Decline of Fruit Trees in Forty Years

What has happened to fruit trees in Canada in the last 40 years, is the subject of an article in the Economic Annalist by B. A. Campbell and Dr. W. C. Hopper. They point out that the 1901 census reported 21 million fruit trees in Canada and by 1941 the number had decreased to 13.8 million.

This decrease in the number of fruit trees can be accounted for in several ways, they say. Trees were planted in all sections of Canada as the country became settled and settlers had little knowledge as to adaptability of fruit trees to the climate or soil of a particular region. In many cases it was found that climate was too severe and winter killing resulted often enough to make the growing of certain fruits impracticable.

Later, as commercial agriculture developed, certain limited areas of Canada, particularly parts of Ontario, Nova Scotia, British Columbia and Quebec were found suited to growing tree fruits with the result that production expanded in these areas. In limited areas of Ontario, such as the Niagara Peninsula, plantings of tender fruits increased and replaced apple trees which could be grown over a wider area of Canada.

Also, as commercial agriculture developed, diseases and pests became more prevalent, and specialization in other types of agriculture developed. Consequently, the farmer with a few trees found it impractical to care for his fruit properly so that the small farm orchards have practically disappeared in many sections of Canada.

A similar story is told of the changes in numbers of apple trees in Canada during the 40-year period. In 1901 there were more than 15 million apple trees reported in Canada and by 1941 this total had declined to 8.5 million trees, a decline of 43.6 per cent in the period. In 1940, total production of apples was about 14 million bushels which was 25 per cent less than was reported in the census of 1900.

The most significant change in the number of trees has taken place in Ontario where the number declined from 9.5 million in 1901 to 2.9 million in 1940. The number of trees in Nova Scotia in 1941 was about the same as that reported in 1901, while the actual production of apples from commercial apple orchards in 1940 was almost double that reported from apple trees in 1900.

In British Columbia, the number of trees increased from 0.4 million to 1.5 million during the 40-year period with the result that British Columbia produced more apples than any other province in Canada.

Mrs. O'Mahony Is Red Cross Representative

Canada's 1947 peacetime Red Cross budget will be \$5,000,000, with British Columbia's quota set at \$500,000. P. S. McKergow, president of the B.C. division of the society, will tell delegates to the 28th annual meeting of the provincial council.

Hon. Eric Hamber, chancellor of the University of British Columbia and former lieutenant-governor will be provincial chairman for the B.C. Red Cross campaign, which opens on March 3 and continues for three weeks.

Delegates to the council meeting are expected to come to Vancouver from all over the province, with Mrs. J. E. O'Mahony attending from this district. Last year, 322 Red Cross representatives from 72 branches travelled from as far east as the Alberta border and as far north as Prince George and Prince Rupert, for this council meeting.

His Honor, Lieut.-Governor C. A. Banks, has been invited to officially open this two-day conference, to be held February 20-21, in the Mayfair Room, Hotel Vancouver. Morning sessions will open at 10 a.m. on both days, carrying on into the afternoon. There will be a round table conference on the evening of Feb. 20.

Dr. W. Stewart Stanbury, national director of the Red Cross blood transfusion service, will be guest speaker, during the first morning session. Reports of officers and committee chairman and election of officers for 1947 are also on the agenda.

BUSINESS is Moving to BRITISH COLUMBIA

That the Tide of Business and Expansion is Definitely Flowing Towards the West was Never so Apparent as it is Today.

With its vast natural resources, its open ice-free ports with their splendid terminal facilities, its abundance of power, its climate so salubrious as to permit of year-round operations, British Columbia is unique from the industrial standpoint.

Wartime expansion created a new economic situation, brought new industries into being, introduced new processes and new uses for the raw materials which are the basic wealth of the province. The industrial picture of today is as different from the picture of pre-war years as the modern air-liner is different from the "Flying Jenny."

British Columbia has experienced the greatest relative increase in population of all the provinces in the past few years.

INDUSTRY INVARIABLY FOLLOWS PEOPLE. BUSINESS MAKES BUSINESS.

In moving to British Columbia, industrialists are influenced to a large extent by the feeling that this province offers in itself a great and growing market.

YOU CAN DO YOUR PART TO ENCOURAGE THE MOVEMENT OF BUSINESS TO BRITISH COLUMBIA.

Out Of The Display Window And On To The Farm

Modern farm equipment has plenty of eye appeal in a store window. But the proper place for this machinery is on your farm, saving you time and labour.

You may have often admired the new, practical, profit-making farm implements now on display throughout the country. You may have wanted to put such equipment to work for you. But the cost may have made you hesitate.

Yet such equipment may be yours easily, without fuss or bother... the new barn, inside plumbing, modern, profit-making machinery, the new livestock you've wanted so badly... all the things which make a farm a better farm. A visit to Mr. Woodford, manager of the local branch of the Bank of Montreal, will show how they may become yours.

Mr. Woodford will explain the many advantages of the farm improvement loans and show you how such a loan, with its low rate of interest, can really bring modern machinery and equipment out of the display window to your farm.—Advt.

SIXTY-TWO BELOW IS COLD ENOUGH SAYS N. O. SOLLY

Nick Solly, well-known Summerland orchardist, is quite content to spend the rest of the winter in the Okanagan, following his trip north to Whitehorse, Alaska. Last week, when Mr. Solly stepped into the plane which would wing him south to Edmonton, the temperature was 62 degrees below zero.

Farther north some 200 miles, the temperature at Snag airport was said to be 81 below, a record for North America.

Mr. Solly was away from Summerland for two weeks, returning last Thursday. When he left Calgary for Edmonton, where he took the plane for the far north, good citizens were wandering around in their shirt sleeves, as it was 45 above.

When he arrived at Whitehorse, it was 35 below, stayed three days around zero and then plunged downwards to 62 below.

Crackling Noise
Asked if he had difficulty breathing, Mr. Solly stated that at that temperature the moisture from one's breath freezes so rapidly there is a crackling noise constantly with you as you walk.

Whitehorse is still suffering from the growing pains of war years, he found, on visiting this northern city following an absence of fifteen years. When he knew Whitehorse before it had a population of 300. In 1943 it had jumped to 40,000 and is now down to 30,000.

Waitresses during the wartime period would earn as high as \$100 in a night as the Americans tossed their high wages around. If a waitress only earned \$50 in tips she would be in tears, believing she was losing her appeal, Mr. Solly was told.

The Alaska highway is being well maintained by Canadian authorities using American equipment and the north country expects to have a big tourist influx in the near future. As the highway isn't well serviced yet, tourists are checked to see they have proper supplies and enough fuel and food to see them through the trip.

GOOD PROGRESS IS REPORTED BY ANGLICAN CHURCH

On Wednesday evening, Jan. 29, the annual meeting of the congregation of St. Stephen's church, West Summerland, was held in the parish hall, which was filled to capacity. Preparatory to the business meeting, an excellent supper was served by the ladies of the Evening Branch of the W.A., in which Mrs. D. L. Sanborn was assisted by a band of capable and willing helpers.

In reviewing the work of the church in 1946, the rector, Canon F. V. Harrison, spoke feelingly of the wonderful support he and Mrs. Harrison had received from all quarters. They could point to real progress, he said, and from the reports received from the church organizations it was evident these were functioning in a satisfactory manner.

The W.A. report presented by Miss Cartwright, told of collections of \$553.74, and the Evening Branch of the W.A., reported by Mrs. Moyle, showed \$356.20. The Junior W.A. had collected \$25.37, Mrs. T. Washington stated.

The Sunday school is in a healthy state and has a full complement of teachers, the meeting was told.

The report of the treasurer, Mr. J. C. Barkwill, showed \$2,007 collected in donations and offerings from approximately one hundred families. Expenditures slightly exceeded this figure, but in view of the fact that the congregation had sent in \$1,360, in addition, to the Anglican Appeal, it was felt the accounts were quite satisfactory.

A considerable amount had been spent in repairs and upkeep and the parish hall had been renovated in an attractive man-

TAKE CONTROL OF SAWMILL FIRM

In order to be assured of a supply of box shooks, a move is underway in Penticton by four packing house concerns in that area to take over a controlling interest in the Penticton Sawmills Ltd. plant and timber holdings.

Although the deal has not been ratified by all the growers in the co-operatives concerned, it is believed that negotiations will proceed to take 51 per cent of the company's stock. H. Leir is the principal shareholder in the Penticton firm.

Control of the box factory and lumber mill would then be in the growers' hands and the orchardists would be assured of an ample supply of box shooks for the Penticton district, those interested in the deal declare.

Dr. and Mrs. L. A. Day were visitors to Kelowna on Sunday, when they attended the ski meet there.

by the W.A.

Election of officers follows:

Church wardens, C. J. Huddleston and Theo Hermon; secretary, W. C. Fosbery; treasurer, J. C. Barkwill; auditor, H. E. Woodford; vestry, C. J. Clark, J. Y. Towgood, W. C. W. Fosbery, J. C. Barkwill, Dr. D. V. Fisher, H. E. Woodford, A. Calvert, G. Doherty, Miss Cartwright; envelope secretary, A. Calvert; delegates to synod, C. J. Huddleston and C. J. Clark.

Dr. H. R. McLarty left on Tuesday for Creston, where he has gone in connection with the "little cherry" disease which is causing such destruction in the Kootenay valley orchards.

BUCKERFIELD'S
PELLET FEEDS

**A NEW FORM OF LIVESTOCK RATIONS...
IMPROVES FEEDING AND
REDUCES WASTE**

Pellet feeds are here! Nutritional science and modern machinery have combined to bring Buckerfield's Vita-Grae Feeds nearer than ever to perfection.

The completely blended mashes are compressed into sealed pellets of just the right sizes for animals and poultry. Each pellet becomes a definite portion of the complete ration. No selection or "picking out" is possible, waste is eliminated with higher feed consumption—so important in early growth and fattening.

Buckerfield's Pellet Feeds will be available shortly for turkeys, rabbits, calves and dogs. Test this new feed form, which has proven so successful in all parts of the country.

DAVE TAYLOR IS NEW HEAD OF LAWN BOWLERS

Dave Taylor was elected president of the Summerland veterans lawn bowling club when the annual meeting was held in the Legion hall on Tuesday, Feb. 4, with retiring president Ben Newton in the chair.

Reports of the president and secretary-treasurer were received and adopted. Plans for the coming season's activities were discussed and a drive for new members will be made for the season, which will open about May 15.

Following is the full slate of officers chosen:

Honorary-president, John Tait; president, Dave Taylor; first vice-president, E. H. Adams; second vice-president, Mrs. D. Taylor; secretary-treasurer, J. E. Jenkinson; executive, W. Atkinson. H. Smith, W. Ritchie, Miss Jean Ritchie; match committee, D. Rutherford, B. Newton, E. Adams, D. Taylor; social committee, Miss Holder, convener; auditor, Miss Jean Ritchie; greens manager, Earl Sanborn.

Socially Speaking

Social Editor : Muriel Hurry

Dr. Maurice Welsh is a patient in the local hospital.

Mr. John Shesky has returned from Vancouver, where he had been receiving medical treatment.

Mr. and Mrs. W. D. Laidlaw are spending a holiday in Vancouver.

Miss Helen Morrison, home economics teacher at the Summerland schools has tendered her resignation. Miss Morrison was called to Regina, where her mother has undergone a serious operation and has decided to remain with her mother during convalescence. Miss Morrison's position is being filled temporarily by Mrs. N. O. Solly.

Mr. Alf McLachlan left last night, Wednesday for Vancouver, where he will spend about a week.

Mr. W. W. Smith left today, Thursday, for Amherst, N.S., on a business trip.

Miss Edna McKay, of the staff of the Kelowna hospital, will arrive tomorrow, Friday, to visit for a week at the home of Miss Kay Nisbet.

Miss Kay Nisbet, R.N., arrived recently from Kelowna, where she has been a member of the staff of the Kelowna General hospital, and will visit with her family here until the end of the month, when she expects to leave for Vancouver.

Minus three of their first-string players, Summerland school hockey team went down to defeat at the local rink last Thursday evening to a Penticton teen age club, 8-2. This is the second game played here between these two groups and a large group of Penticton fans braved the zero weather to watch the game.

Mr. T. Gelaude is visiting for a week at the home of Mr. and Mrs. J. C. Menu. Mr. Gelaude is en route from Vancouver and Victoria, where he has spent the winter months, to his home in Winnipeg.

Members of the St. Andrew's church choir entertained on Thursday evening, Jan. 30, in the United church hall in honor of Mr. Ben Newton, who for many years has been choir leader. Members and their families were present, and Mr. Newton was presented with a smoking stand. Games were played during the evening, and refreshments were served.

At the Summerland hospital on Tuesday, Jan. 4, a son was born to Mr. and Mrs. Roy Henderson.

A son was born to Mr. and Mrs. Lou Lewis at the Summerland hospital on Saturday, Feb. 1.

A son was born at the Summerland hospital on Sunday, Feb. 2, to Mr. and Mrs. Frank Carey.

Mr. and Mrs. R. J. Armstrong and son, formerly of Revelstoke, arrived in Summerland on Sunday, and will make their future home here.

Mr. Henry Kuhar left recently for the coast, where he had been called due to the illness of his father.

VISITOR FROM FRANCE

An interesting visitor to the BCFG annual convention in Kelowna was Pierre Miallet, of Versailles, France, a research horticulturist who is touring Canada and the United States. He was introduced to the convention by Dr. L. P. Batjer, U.S. Department of Agriculture, Wenatchee, and was roundly applauded when he announced that this was the first occasion he had been called upon to address a gathering in English.

Mrs. M. Rennie Passes Away

Following a long illness, Mrs. Mary Evelyn Rennie, recently of Vancouver, passed away on Monday, Jan. 27, at the home of her sister, Mrs. E. E. Campbell, West Summerland.

Born in Winooski, Vermont, 58 years ago, the late Mrs. Rennie came to B.C. 32 years ago, when she made her home in Summerland for several years before moving to the coast, where she had lived until four months ago.

Besides her husband, Charles Rennie, of Vancouver, the deceased is survived by a daughter, Mrs. R. J. Grey, of Toronto, a sister, Mrs. E. E. Campbell, West Summerland, and a brother, Mr. John Butler, of Vancouver.

Funeral services were held on Thursday, Jan. 30, from the home of E. E. Campbell, with Rev. F. W. Haskins officiating. Interment was in the Peach Orchard cemetery, with Penticton Funeral chapel in charge of arrangements.

Pallbearers were the Messrs. Arnold Gayton, Tom McDonald, Joe McLachlan and Ben Mayne.

A. Calvert Is Returned As St. John Head

Mr. A. Calvert was re-elected chairman of the Summerland branch, St. John Ambulance Assn. when the annual meeting was held at the home of Mrs. J. E. O'Mahony recently.

Mr. A. Yeats was selected as vice-chairman, and Miss Louise Atkinson was returned as honorary secretary. The executive consists of Gordon Beggs, H. Simpson and Mrs. J. E. O'Mahony. Gordon Beggs was appointed to attend fires as a first aider, with the West Summerland volunteer fire brigade.

Help Skiers

Feeling that a fully-trained first aid man should be in attendance at ski hill a committee of Gordon Beggs and Alex Yeats was appointed to discuss this subject with the local ski club. Classes in first aid and industrial first aid are now in progress the meeting was told.

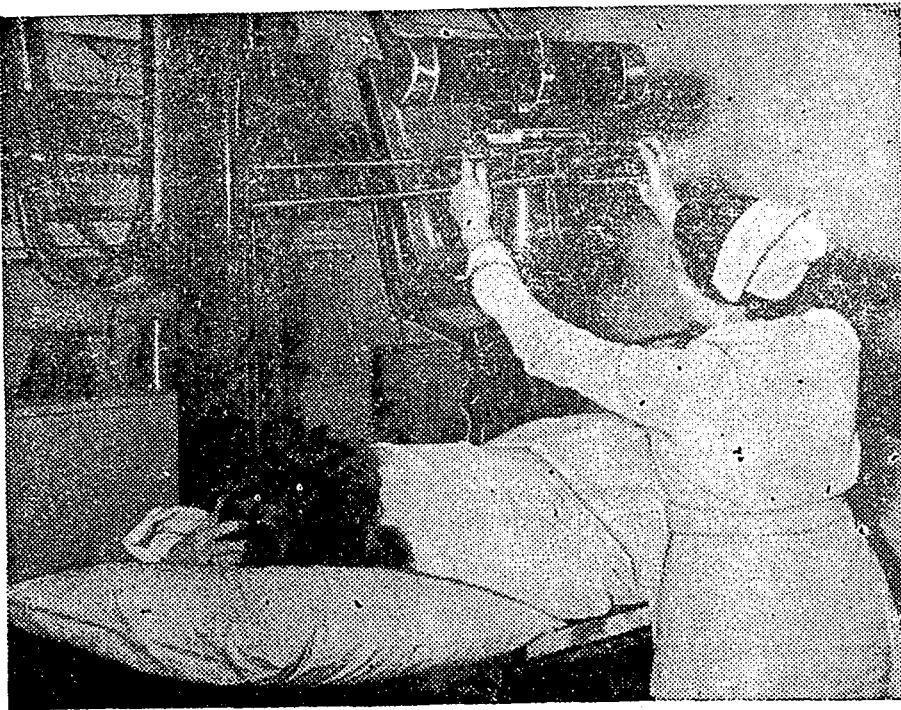

On Sunday, Feb. 2, the national campaign to raise one million dollars for St. Ambulance work, was stated, and will continue until Feb. 22.

In giving his annual report, Chairman Calvert told the meeting that 1946 had been a quiet year, with first aid classes being held in the early part. Instructors were Dr. A. W. Vanderburgh and Mrs. O'Mahony, with Dr. F. W. Andrew making the examinations. Mrs. O'Mahony assisted with the bandaging tests.

Awards were as follows: Certificates, 3; vouchers, 3; medals, 2; labels, 2; junior first aid, 13 boys.

In December, Mr. Calvert continued, a class of 28 juniors was

Hospital Safeguards Mothers-to-Be

A patient at the Royal Victoria Montreal Maternity Hospital is shown here being X-rayed with the hospital's new equipment, to determine whether or not a Caesarian operation would be advisable in her case. The new X-ray department will eliminate most of the hazards of childbirth by revealing in advance whether a labor will be normal or otherwise.

started.

"It is gratifying to note the increasing interest taken by the school children in first aid. War service certificates and badges were received by Drs. Andrew, Vanderburgh and Munn, your chairman, vice-chairman and secretary, for services rendered to the association and community during the war years.

"At the swimming classes last summer at Powell Beach, Mr. Beggs, a very active member of the centre, was constantly on hand to render assistance. This assistance was especially appreciated on account of broken glass, etc., which through carelessness, often abounds on public beaches."

New Endeavors Are Facing Red Cross In 1947

During the past year the Summerland branch has been concerned with a number of new activities in carrying out the peacetime program of the Canadian Red Cross, it was stated at last week's annual meeting of local branch.

The international aspect of the Red Cross has been shown in many ways, and one in which the whole community assisted was the enormous collection of used clothing sent to UNRRA for distribution in war-starved countries.

Locally, the disaster relief fund was called upon to assist in two cases, one in which a complete outfit of bedding was sent to a burned-out family, and again when a family of three young children, whose mother died suddenly, was entirely outfitted with warm clothing, which was unobtainable here.

Raise Big Amount

There are at present 775 members in the Summerland branch, and \$2,921.23 was raised in the membership drive, making the total amount of money realized since 1940, \$34,028.51.

Through the action of the Summerland Women's Institute, money for juices was sent to Britain instead of the usual donations for jam.

During the summer, swimming instructors were trained at Pentiction by a Red Cross teacher, who was sent to hold classes in the valley. These instructors taught at the board of trade swimming classes held at Powell Beach during the summer months.

Regular Session

In November, a regional conference of the Red Cross was held in West Summerland, when delegates from the South Okanagan attended. Guest speakers were Col. C. A. Scott, B.C. provincial commissioner for the Red Cross; P. S. McKergow, provincial president; Mrs. J. N. Mawer, provincial chairman of train service and hospital visiting; Mrs. A. Goddard, provincial work committee chairman, all of Vancouver, and Mrs. W. S. Reeder, Pentiction, regional chairman.

A banquet supper was served by the evening branch of the Anglican W.A., in the parish hall to members of the regional conference and guests. Attendance at the banquet was below expectations, due to poor road conditions, but the monetary loss was offset by a satisfactory financial adjustment made later from the provincial headquarters.

The "Welcome Home" service notified relatives and friends when veterans were expected back from overseas and often this was the first word received of their arrival.

Aided in Messages

Messages were continually sent and received between people in the district and their families in enemy-occupied countries, with whom they had no other means of contact.

Dr. F. W. Andrew's book, "The Story of Summerland," the proceeds of which he has donated to the Summerland branch of the Red Cross, is still selling, and has proved a source of revenue since it was printed several years ago.

The blood donor clinic is expected to visit West Summerland in April, and this branch will then have the opportunity to partake in the establishment of blood banks throughout Canada.

Throughout the year, the workroom, located in the parish hall, has been open and a great deal of necessary sewing and knitting has been done by its members.

Overtime Play Brings Win For Merchants

Jackie Walsh continued to find the hemp with regularity Saturday night at the local school gym, when he counted 16 points to lead Summerland Merchants over Pentiction senior C's, in a ragged but crowd-pleasing exhibition.

The final count was the biggest margin which the Merchants enjoyed throughout the evening and they came back after facing a 10-2 deficit at the end of the first ten minutes.

Walsh and Clark led a big scoring second quarter to leave the Merchants ahead, 18-16, at the breather. The teams played even ball in the third stanza but Pentiction outscored in the final ten-minute session to pull up level when the final gong sounded.

In the overtime five minutes, two long shots by Clark and two nat counters by Rocky Biagioni were more than enough to offset the visitors' lone field basket.

Raite was the high scorer for the visitors with an even dozen, but if they had taken advantage of their basket-sitting with more regularity, the final result could have been quite different.

In the prelim, one of the lowest scoring games on record saw the Legion juniors nose out a fighting Peachland crew, 8-7. Kato's counter with half a minute left to play, gave the locals the one-point lead.

Oliver plays here this Saturday night, bringing its intermediate B and senior C teams for two exhibition matches. Last Saturday night saw a poor turnout of spectators and the basketball officials are hoping for an awakening of interest among the local hoop fans when the cantaloupers appear here this weekend.

The Teams

Peachland Juniors: Long, Gaynor 1, Neil 4, Gerry, Scott, Stump, Shaw 2-7.

Summerland Legion: Fleming 2, Hack 2, Kita, Jomori, Turnbull, Elliott, Cristante 2, Kato 2-8.

Pentiction Senior C: Raite 12, Hooper 2, Adams 4, Penty 2, Kaines 6, Lawson, Hope 6, Lyon, Foreman 4-36.

Summerland Merchants: Scriver 2, Tait, Clark 12, J. Thompson 2, N. Thompson 4, Walsh 16, Biagioni 6-42.

Referees: Moore, Hack, Nesbitt.

HASTINGS STREET

SCOUT NEWS

Friday's meeting featured a visit from Summerland's former Scoutmaster, Mr. W. R. Boyd. We were all glad to see Mr. Boyd, especially as it was his pleasant duty to present Troop Leader Hugh McLarty with four more proficiency badges, Campers, Stalkers, Master-at-Arms and Pioneers, which qualified Hugh for two of the highest awards in Scouting, the right to wear the Bushman's Thong and Gold Cords. This is the first time in Summerland's history that a Scout has earned the Bushman's Thong. Mr. Boyd said a few words to the troop and pointed out the importance of the patrol leaders and older Scouts remaining in the troop as an example to the younger lads.

Despite the bad weather, the troop had a fifty per cent turnout. What happened to those less hardy boys who couldn't stand the cold? We won't mention any names. We were glad to welcome another recruit, Paddy Borton. We know he'll keep up the Borton reputation in the Scouts. Congratulations to Scouts Howard and Huff, who have completed their Tenderfoot tests.

NOTICES: Next week, instead of the regular meeting, there will be a skating party at the rink from 8 to 10 p.m. Admission, 20c, or 35c for two if you bring a partner. Refreshments of hot dogs and cocoa. Any boys intending to join the Scouts will be welcome at the party.

RENTALS RAISED TEN PER CENT

Rental price on practically all property which residents wish to renew their 1946 agreements, will be raised ten per cent, the municipal council decided last week. All properties will be rented subject to sale, rebates to be made on a pro rata basis of the rental price.

Among those wishing to rent properties were H. R. Klix, Mds. Hermiston, George Furuya, Walton and Harris, J. Cristante, J. Burnell, Mrs. Wolden, W. Sigalek and W. Hack. Mr. Mel Monro also sought council decision on a rental on a five-year rental basis.

Use of DDT and Research Work Leading to Present Trends Says Dr. Marshall

In a highly-technical address to the annual B.C.F.G.A. convention in Kelowna last week, Dr. James Marshall, Summerland, in charge of the dominion entomological department, gave the grower delegates an insight into the exhaustive steps taken in the past few years in endeavoring to find a substitute for lead arsenate spray. The answer has been found to be DDT, as announced in November in these columns.

Since 1943, DDT has been under investigation and it has now been determined that this treatment, "although of low toxicity to mature codling moth larvae, it has proved highly and persistently toxic to adult moths and newly-hatched larvae.

"Accordingly, it has given good field control of codling moth," he declared.

"It is probable that codling moth control will be better where large areas are sprayed than in the case of small plots because of reduction in the effects of moth flight from areas of higher to lower infestation," he continued.

Effective In Scale
DDT has proved effective against pear thrips and oyster-shell scale. Against buffalo tree-hopper, San Jose scale and peach twig borer, it is promising. Against pear psylla it is rela-

tively ineffective.

"Use of DDT in codling moth control has generally resulted in increased populations of European red mite and Pacific mite. Woolly aphid populations have increased but to a smaller degree.

"In combatting mites, xanthone and the monoethanolamine, ammonium and dicyclohexylamine salts of dinitrochlorophenol have been reasonably effective. Woolly-aphid control has been most readily accomplished by benzene hexachloride-oil mixture.

"Until further work is done on miticides, it is doubtful if the use of DDT is justified in B.C. except where there has been exceptional difficulty in controlling codling moth.

"With pesticides becoming more effective, new air-blast types of spray equipment may prove adequate for their application."

In summing up the codling research work, Dr. Marshall stated that "DDT is not only highly toxic to codling moths but also inhibits egg-laying. Consequently, there is reason to feel that if DDT should become generally used it will be highly effective against the codling moth. But there is, unfortunately, the other side of the story—mites."

Farm-Labor Service To Be Continued In 1947

Continuation of the Dominion-Provincial farm labor service in 1947 was forecast by Col. J. E. Wood, supervisor of general placements for the dominion labor department, to the B.C.F.G.A. convention in Kelowna last Thursday.

Wm. McGillivray, director of agricultural development and extension, B.C. Department of Agriculture, was to have spoken to the convention, as well as Col. Wood, but he was taken ill and could not attend.

For the first time since 1939, there was a surplus of labor in B.C. last year, Col. Wood declared, with 38,000 men being discharged from the armed services.

But the speaker did not believe the outlook for labor in 1947 would be as free as last year as industries, forestry, road construction and mines are all calling for more manpower.

It had been planned to discontinue the farm labor service this year but the food situation in Canada is still critical and agriculture must maintain its high

production, Col. Wood stated.

With this in mind, the Dominion government has offered the province an opportunity to continue the service on a 50-50 basis. The previous day, Mr. Putnam, minister of agriculture, had inferred that the province would be willing to co-operate in this matter.

Proper Accommodation
Need for proper accommodation for casual farm help was stressed by Col. Wood. His department is concerned with three questions in relation to demands for labor. The pay schedule, accommodation and the type of employer are the three considerations.

Regarding pay and the type of employer, Col. Wood stated that the fruit industry is right in line, but the accommodation "leaves much to be desired."

Asked if agricultural help could be brought from the prairies rather than coast cities, Col. Wood replied that no labor would be brought from outside the province as long as work is available in those other provinces.

Beattie Likes Warm Welcome Of Deep South

ATLANTA, GA.—Reports of Southern hospitality and friendliness of Augustans have not been exaggerated, W. J. Beattie, of Summerland, British Columbia, said yesterday as he vociferously acclaimed his reception here.

Mr. Beattie who, with his wife, is visiting his brother, R. J. Beattie, 1707 Fenwick street, and members of his family enthusiastically proclaimed an immediate love for the South and its people.

"It's something beyond the power of realization," he said, "all of this welcome, the gracious manner of the people; the warmth of their greetings. I've often heard of it, but the actual experience is something that beggars description."

Mr. Beattie is making his first trip into the Deep South and comes from the great fruit growing country of Okanagan valley, British Columbia.

The Canadian visitor was not surprised to find some of the apples grown in Okanagan valley on sale in Augusta.

"The storekeeper told me they are the finest apples to be found on the market anywhere," he said.

According to Mr. Beattie the fruit output of the Okanagan valley growers amounts to 8,000,000 boxes of apples and 1,500,000 boxes of peaches, besides vast quantities of pears, apricots and cherries. In the southern section of the valley, growers are turning to cantaloupes and each year there is a vast acreage under cultivation.

Receipts from the sale of fruits to December 1 last year amounted to \$0,000,000, Mr. Beattie said, adding that the products are shipped all over the world with Great Britain and the United States being the largest consumers.

"You've had more rain here since the first of January than we have in Okanagan valley in an entire year," Mr. Beattie said, as he disclosed the entire valley

is supplied with water through a vast irrigation system with the fountain-head in the mountains 40 miles from Summerland.

He pointed out that this section of British Columbia provides one of the greatest fishing and hunting grounds in North America. He said the lake in Okanagan valley is 90 miles long and varies in width from one-half to two and one-half miles.

A placement officer with the Dominion government, Mr. Beattie has charge of the distribution of labor, which he said was at an extremely low point during the war, but which recently has shows some improvement.

A native of Scotland, Mr. Beattie immigrated to North America 40 years ago and settled in the Pacific Northwest.

ALL GROUPS OF LAKESIDE CHURCH SHOW PROGRESS

Excellent progress in all departments of the church was reported to the annual meeting of the Lakeside United church, on Monday, Jan. 27, which was held in the church parlor. The congregation was well represented, with Rev. H. R. Whitmore presiding.

Reports were heard from the Women's Missionary society, Junior W.A., Sunday school, A.O.T.S., while the financial statement and treasurer's statement were also read.

Mr. V. Charles and Mr. L. McLaughlin were re-elected to the board of stewards and Mr. A. D. Glen and Mrs. P. Wilson were chosen to replace Mrs. F. W. Schumann and Mrs. H. Lemke, who retired this year. Continuing members of the board are Mrs. F. R. Stark, Miss Saunders, Mrs. G. Sheldrake and Miss M. Scott.

Mrs. Mary Gameron was appointed superintendent of the cradle roll and Mrs. E. R. Butler the delegate to presbytery and conference.

The treasurer reported having received two donations to the church, with the suggestion that these be used for some specific purpose. The meeting voted that this money be put in a fund for the electrifying of the church organ at some future date. This fund will be added to as the opportunity arises.

At the close of the meeting, the Junior W.A. served lunch and a social hour was enjoyed.

CATTELGUARD AUTHORIZED

Summerland council was informed on Monday that the B.C. government had passed an order-in-council allowing the local municipal body to proceed with a cattle guard and gate on Shingle Creek road.

TRY TO CLEAR PASS
 With last week's severe weather and heavy falls of snow, Kettle Valley Railways trains have been operating late as much as twelve hours in the last few days. These trains are being routed via Spences Bridge but it is stated attempts are being made to clear the Coquihalla Pass for direct traffic runs.

Merchants In Scoring Spree Over Oliver

Two closely-contested games were divided by Summerland hoopsters at Oliver last Friday night when the Merchants defeated the cantaloupe senior C group 51-42 and the Summerland Chiefs lost 29-27 in overtime to the Oliver int. B squad. In the first quarter the Merchants established a neat lead of eight points which they carried throughout but the southerners pressed hard practically all the way and were dangerous to the last moment.

At the half-way mark, the Merchants were out in front 29-18. Oliver dug in with a vengeance and cut down this lead by five points in the third stanza but the final ten minutes were even, the Merchants having a one-point advantage.

Off On Personals
 George Clark, Merchants' captain, distinguished himself with five personals in the dying moments of the third quarter, while Norman Thompson collected another four. Fouls were evenly divided, however, as Oliver was penalized with fifteen and Summerland collected 12.

Walsh had another big night, swishing the hemp for 16 points, while Clark came through with a valuable dozen before he retired. Jimmy Thompson was next in line with eight big points.

Norton and Francis were the main scoring threats for the southern quintette, marking up 20 points between them.

After building up a superior 19-9 lead at the half-way mark, Summerland Chiefs slackened off and the Oliverites went to town, gradually deminishing the difference until the squads were knotted 27-all at the expiration of full time. Eisenwhite's goal was the only counter in the overtime, sufficient to give Oliver the victory.

The Teams
 Summerland Chiefs: Moore 4, Nesbitt 4, Stein 2, Guidi 2, Dunham 9, Jacobs 4, Heeley 2, Miller—27.

Oliver Int. B: Mitchell 14, Charlsh McCarragher 1, Doring 2, Ritches, Joy 2, Eisenwhite 7, Hanbury 8—29.

Summerland Merchants: Walsh 16, Clark 12, J. Thompson 8, Scriver 5, Tait 4, N. Thompson 6—51.

Oliver Senior B: Lawley, Crooks 4, Francis 9, Overton 1, Norton 11, Collen 5, Elliott, Rossiter 12—42.

W. Snow and Bob Barkwill left on Thursday for Revelstoke, to attend the Ski meet.

"P" CAMPBELL IS TEACHERS' SPEAKER

Teachers from Penticton School District No. 15, to the number of fifty, gathered at the Legion hall in West Summerland on Friday evening for a banquet and business meeting. Harry "P" Campbell, Kelowna, Okanagan Valley Teachers' Assn. representative on the B.C. Teachers' Federation executive, was the principal speaker.

Mr. Campbell discussed federation matters mainly and indicated to the teachers that their affiliation with labor is more important to members of the profession residing at the coast than in interior points.

A delightful dinner was served by members of the Legion W.A.

Box Factory V Move To Form INC Union With AF of L

Twenty-two employees of Summerland Box Co., on Monday night, voted unanimously to form a Local Union of the Brotherhood of Carpenters and Joiners, an affiliate of the A.F.L. These employees were members of the I.W.A.-C.I.O. local, one of the groups to go out on strike last June. L. Burnell was named provisional president of the proposed local with C. R. Morgan as provisional secretary. Immediately the unanimous vote was taken, all sawmill workers present placed their names on a charter application.

It is stated that this number represents most of the employees now working at the Summerland Box Co., but when peak operations are resumed some sixty men are thus employed.

Monday's action follows on the lead of employees at the Simpson Sawmill and its subsidiary Kelowna Sawmills, in Kelowna, when last week those workers voted 111 to 42 in forming a similar union local.

The Kelowna employees have been organized under the I.W.A.-C.I.O.

Levy Charges
This action on the part of the Kelowna and Summerland box factory and sawmill workers is expected to touch off a full-scale labor war in the Okanagan. Already, charges have been levied by I.W.A. officials that the proposed unions are "company" unions.

W. J. Baker, Summerland, representative of the United Brotherhood of Carpenters and Joiners, was a chief speaker at organization meetings of the new Kelowna local and he was invited to attend last Monday's session held here by Summerland workers.

Vote on Monday was by secret ballot and the count was made by an independent person, it is stated.

Mr. Baker pointed out to the workers that the C and J Brotherhood bylaws require that "after a trade demand has been approved by the General Executive, two-thirds of the members affected must vote in favor of calling a strike before a strike can be called."

Dues are named at \$1 per month, with seventy-five cents remaining in the local union.

W. Page, Vancouver, western representative of the U.B.C. and J. is expected to come to the Okanagan on Friday to discuss union matters with the new locals seeking charters.

Application By C.P.R. Said To Be Approved

Although no official confirmation has been forthcoming it is reported in reliable circles here this week that the application made before the public utilities commission by the C.P.R. for permission to operate a delivery service from Penticton to Summerland for fast freight delivery and pickup, has been approved.

It is also anticipated that the firm of Smith and Henry, West Summerland, will obtain a contract from the C.P.R. to handle the freight delivery and pickup in the West Summerland business district, as well as a contract to handle express deliveries and pickup in a similar manner. Some sources state that this new service will be available next week.

No Extra Charge
If such a service is instituted, it will mean that the C.P.R. will pickup and deliver packages in West Summerland area for either express or fast freight with no extra charge for local handling.

This move places West Summerland business firms on the same basis as Penticton firms, it is believed.

Lower town business firms will obtain the same service in fast freight deliveries direct from the C.P.R. truck which travels from Penticton to West Summerland, it is understood.

The application, before the commission was opposed by the existing trucking firms on the basis that there are a sufficient number of trucks on the highway now and this service could be readily handled by existing hauling firms.

Summerland Retail Merchants Assn. and Board of Trade backed the C.P.R. application only on the understanding that a West Summerland trucking firm would obtain the contract for pickup and delivery locally.

ATTEND VALLEY MEETING

All members of Summerland council except Councillor F. E. Atkinson signified their ability to attend the next session of the Okanagan Valley Municipal Assn. which meets in Penticton on February 19. Municipal Clerk Nixon was asked by Reeve Powell to attend, as well.

Mrs. F. Booman left on Saturday, Feb. 8, for her home in New Westminster, following a three weeks visit at the home of her mother, Mrs. F. Fudge.

BUILDING PERMITS NEARLY \$20,000

Summerland's building permit total took a big jump in January when eleven permits valuing \$19,450 were taken out, Building Inspector Roy F. Angus reports.

By far the biggest proportion of this total consisted of five dwellings for a value of \$17,000. One institutional building, the hockey rink dressing room, was valued at \$1,000 and five alterations and additions came to \$1,450.

PLANS SHAPING FOR SKI RACES ON FEB. 22-23

Crystal Ski Runners are busy as bees in preparation for their annual downhill-slamol-cross-country races to be held on the local ski hill on Saturday and Sunday, Feb. 22 and 23.

Competitors from Princeton, Penticton, Kelowna and Vernon have definitely signified their intention of competing here while there is a possibility that some Vancouver competitors will be visitors.

Arrangements are being made to billet these competitors in private homes.

Last week-end there was snow to the depth of two feet on the local hill and the ski club believes there will still be plenty of the white stuff for the races despite the thaw underway right now.

Measurements taken recently show that the downhill course of a mile and a half has a drop of 1,800 feet.

Don Agur is defending the downhill-slamol trophy which he won last year against all comers.

Last week-end, at Revelstoke, Don Agur and Bill Snow represented the Okanagan zone at the western division annual meeting of the Canadian Amateur Ski Association and presented plans to include Princeton and Revelstoke in the Okanagan zone.

These two ski centres are members of the coast zone but in some quarters it is considered they should belong to the Okanagan zone, although their calibre of skiing, on the whole, is on a higher level than the straight Okanagan skiers because of greater facilities for training.

This question was not decided at Revelstoke but will be taken up later in the year. It will also be discussed further at the Okanagan zone meeting to be held in Summerland on Saturday evening, Feb. 22.

SUGGEST LOWERING LOCAL VOLTAGE

As soon as equipment is available from the West Kootenay, a systematic check of all electric transformers in the municipality will be undertaken, Monday's council meeting was told. The light department was also asked to take into consideration the lowering of the voltage.

According to recent statements, the municipal voltage is between 125 and 127 volts.

Councillor C. E. Bentley declared this is too high and suggests it be lowered five volts.

SECOND VICTORY OVER RUTLAND

Another victory at the Living Memorial hockey rink was registered by the local pucksters over Rutland last Monday evening by a 3-2 count. It was a fast-moving tilt with plenty of stiff body checks being thrown about and tempers on edge throughout.

At one stage, tempers were unleased and Allen Campbell, Summerland referee, mixed it with a Rutland player. Rutland refused to continue until Campbell was removed and he retired from the fray, being replaced by Stolin.

BAPTIST SPEAKER SPEAKS ON INDIA

An illustrated lecture on India proved an interesting topic to a gathering at the Baptist church, West Summerland, yesterday evening. The address was given by Rev. P. J. Church, a missionary in India for many years. In the afternoon, Mrs. Church gave her version of India's problems to a women's gathering.

A recent speaker at the Baptist church was Alfred Bain, a mission worker in isolated points on the Pacific Coast. His Kodachrome pictures of natives and the wild coastal scenery proved highly enlightening.

The Summerland Review

Vol. 2, No. 6. West Summerland, B.C., Thursday, February 13, 1947

Estimates For Schools Show Big Increase

School estimates, as submitted by Penticton School District No. 15 to the Summerland council Monday night, totalled \$175,592, of which Summerland's share, without any change in assessment figures, would be \$46,054. This would mean an increase of \$16,400 over last year's school costs and Penticton is up a proportionate amount.

"There goes our road program," was the gloomy conjecture of Councillor Harvey Wilson, but other members did not indicate they felt the situation was quite that bad.

However, they agreed that this might alter their plans for certain municipal expenditures, but, unless some change is made in the assessment roll for school purposes, there would be nothing to do but agree to the estimates.

If the Goldenberg report is implemented in its entirety by the B.C. government, as Premier John Hart indicated last Saturday, there would be a relief to the school district of some \$16,000.

This would mean a relief to Summerland of some \$4,160, as Summerland's share at present is 26 per cent.

Estimates submitted on Monday follow, with Summerland's share in brackets:

Administration Account
Salaries, Sec'y and staff (\$1,534) \$6,160; office expenses, (\$315) \$1,103; trustees' expenses (\$378) \$1,400.

Instruction Account
Teachers' salaries (35,500) 161,219; night school salaries (27) 515; substitute teachers' salaries (521) 1,650; teaching supplies, (2,400) 8,650; library books and supplies (330) 1,055.

Operation Account
Janitors, engineers salaries (4,032) 14,328; supplies, (500) 2,125; fuel, (1,775) 6,175; light and power, (660) 2,870; water, (100) 1,055.

Auxiliary Services
Dentistry (810) 3,000; health services, (450) 1,950; transportation, gross, (5,400) 24,129.

Maintenance
Grounds (550) 2,850; buildings, (800) 10,250; maintenance and repairs of furniture and equipment (200) 1,945.

Fixed Charges
Insurance (399) 1,626; rent (nil) 750; Workmen's Compensation Board (250) 926.

Capital Account
Sites and improvements, new construction, (nil) 150; alterations and additions (100) 1,600; new furniture and equipment (800) 5,306.

Debt Service Account
Sinking fund requirements (2,970) 11,420; interest on debentures (4,785) 18,402; promissory notes (nil) 337; other expenditures, (260) 1,000.

Total expenditures amount to \$293,641 and from this will be deducted the following grants, etc:

Basic grants, \$103,997; transportation grants, \$11,865; night school grants, \$184; grant for equipment, \$1,050; tuition fees, \$53; total, \$118,049.

Merchants In First Play-off Saturday

George Clark's Merry Merchants will cavort on the school gym floor this Saturday night against the Penticton senior B squad in the first game of the two-game total-point series in the opening stages of the interior senior basketball championships.

Last year, the Merchants just edged out Penticton in the opening round and then fell to Princeton in the finals. Princeton is the defending champions this year.

After a bad slump in mid-season, the Merchants have now hit their form again and have been turning in some convincing victories. The return game at Penticton will be played on Wednesday, Feb. 10. Total points on the two games will decide the team to meet Princeton in the second round.

Preliminary on Saturday night will see another playoff encounter when Penticton Juniors and Summerland Legion Juniors meet in a similar two-game series. Juniors will play their return match on Feb. 19.

Summerland's third entry in interior hoop play-offs is the Chiefs team, in the intermediate B division. The Chiefs play their first game on Wednesday, Feb. 10, and their return match will probably be played here on Saturday, Feb. 22.

HEADS BANQUET

REID JOHNSTON, president of the Summerland Board of Trade, who will officiate tonight at the annual banquet in the Ellison Hall. An attendance of nearly 200 is expected.

REHAB. WORK IS NOM OVER PEAK

Work of the Summerland Rehabilitation committee appears to be over the peak, reports President Dr. F. W. Andrew, only two local veterans having been discharged in the past month.

Requests for priorities, land and business loans were only slightly below average. There were 23 applications for re-establishment credits, totalling \$3,032.

"There seems to be a considerable lapse of time before title to property can be registered in Kamloops in the regular way," he continues, "and this is understandable when one considers the great number of transfers which have been made in the last two or three years."

"Steps are being taken to enable Kamloops lawyers to attend to registrations personally, and here it should be stated that the legal profession has been quite liberal in dealing with returned men."

Last fall, slightly more than \$114 was cleared on the rehab. fund.

For the month of January, Lorne Perry reported there had been 73 interviews, 62 letters written, besides a number of cards sent out.

INTEREST SHOWN IN LOCAL LOTS

Considerable interest is being shown in municipal property and a large number of requests for prices on these lots were brought before Monday's council meeting.

For Lot 31, D.L. 474, a price of \$600 was set, there being two requests from T. J. McDonald and Mr. Abernathy for this property.

Other requests were referred to the real estate committee of Councillors Atkinson and Tait for appraisal. These requests were from Harris and Walton, D. J. A. Lanson, J. E. Jenkinson, George Grant, Dan Ulrich, Lloyd Shannon and Gordon Mountford.

Mr. Shannon requested property on the Shingle creek road to be used as a gravel pit, while Mr. Mountford wished to acquire the rest of the Simpson property, some 35 acres, to increase his turkey raising industry.

WOULD RENAME STREETS

Summerland council took no action on Monday afternoon on a request from Dr. F. W. Andrew, relayed through Councillor H. L. Wilson, that Summerland roads be renamed in honor of old time residents of the municipality. It was suggested that Dr. Andrew compile a list of the old-timers as well as a suggested list of streets.

RADIO INTERFERENCE

Two definite sources of radio interference have been located in West Summerland, the bi-monthly report of Electrical Foreman T. P. Thornbor told the Monday council meeting. This information has been sent to the radio division at Ottawa but no reply has been received as yet.

SPRINKLER APPLICATION

Francis Stewart's application for sprinkler irrigation was given an okay by the council on Monday on the advice of Water Foreman E. Kercher.

May Remove Trees From Assessments For School Purposes

Possibility that assessments on commercial fruit trees, insofar as they affect the assessment rolls for school tax rate purposes, may be eliminated by Summerland municipal authorities was mooted at the Monday evening council session, following presentation of school district estimates indicating that under the present assessment Summerland will have to pay out \$16,400 more than last year. Such a move, if carried out before the assessment roll closes on February 28, would mean that Summerland's 26 per cent of the school district taxes would be cut by several thousand dollars and Penticton municipality and the rural area in the school district would have to bear a larger proportion of the costs.

In the school act trees are indicated as part of the improvements on land which are to be assessed. Summerland municipal authorities have claimed this wording includes commercial fruit trees. Penticton and the rural area of Naramata, Kaleden and Allen Grove do not assess fruit trees. Therefore, Summerland is levying a higher rate of assessment it was pointed out on Monday.

No clarification of the issue has been forthcoming from the B.C. government but it is understood that the issue will be clarified in the session now underway.

Summerland council has made no definite promise that it will take such a step, but it has instructed Assessor Roy F. Angus to compile the total assessment on trees and submit the figure. Rough estimates indicate a saving of about \$3,000 if such a move was made.

As an alternative, the Summerland council might continue in its stand that it is correct in assessing trees and then demand retroactive retribution from the rest of the school district for the extra levies in 1946 and 1947.

Discus in Harmony

There was nothing but harmony in the council session when Chairman Dr. T. F. Parmley led a delegation of School District No. 15 to the municipal hall on Monday. Other trustees were Mrs. Marjorie K. Vanderburgh and P. G. Dodwell, Summerland; Finance Chairman, W. W. Riddell; and Secretary K. J. Palmer, Penticton.

The school estimates for 1947, covering the entire district amount to \$175,592, a considerable increase over last year, mainly due to the big jump in teachers' salaries. Summerland's share would be 26% or \$46,054. Penticton takes 62% or \$110,042. The rural area is down from 13% to 11% of the assessments figures and would contribute \$19,496.

Assessment figures for 1947 were placed as follows: Penticton, \$6,464,549.50; Summerland, \$2,705,507; Rural, \$1,145,261. These are rough figures as the courts of revision on the assessment rolls had not been concluded when the figures were compiled.

Only Assessors

At the outset, Reeve W. R. Powell brought up the question of trees and assessments and was informed that neither Penticton or the rural district assess trees, whereas Summerland has always assessed trees and last year levied on 50 per cent of the improvement value.

Dr. Parmley replied that he did not consider this a fair basis and that he would rather see an equalization of assessment in all three parts of the school district. However, this was not a question for the school board to decide.

In the Cameron report, a provincial assessment board was sought to try and bring all assessments in the province into line.

In the school act trees should be assessed, contended Reeve Powell. "If we give you money in 1940, 1947 and 1948, then we can expect redress from Penticton and the rural area," he declared.

Dr. Parmley suggested that the Penticton and Summerland assessors should get together and strive to find a common basis of assessment.

Estimate Submitted

The Penticton school chairman declared that any change in Summerland's assessment at this late date would place the school district in an embarrassing position as the estimates had already been submitted to Penticton council and had been accepted.

However, it was agreed that if Summerland made such a move Penticton would have to fall in line and accept a higher proportion of the school costs, having a higher percentage of the total assessments. The rural district would be in the same position.

"We claim we are the only municipality living up to the law and the school act when we assess trees," declared Municipal Clerk Nixon, "but nobody will give us a ruling on the subject."

When the trustees retired the council decided to obtain figures from Assessor Angus and consider them at the adjourned meeting of the court of revision on the assessment rolls. This court met last Saturday and adjourned for further consideration.

SPRINKLER APPLICATION

Francis Stewart's application for sprinkler irrigation was given an okay by the council on Monday on the advice of Water Foreman E. Kercher.

Irrigation Rates Raised Fifteen Percent

Three readings were given on Monday evening by the Summerland council to a bylaw which would revise and set the irrigation rates for 1947. An upward revision of 15 per cent is being authorized by this bylaw and the percentage payments throughout the year are being altered from last year.

Rates are being set from \$5.18 for one-quarter acre or less, to \$20.70 for one acre and \$133 for ten acres. This is a sliding scale according to the number of acres involved.

Sixty per cent of the irrigation rates are to be paid by May 1, 25 per cent by August 1 and 15 per cent by October 15. Discounts of ten per cent will be allowed in each case.

If the entire amount is paid by an orchardist by May 1, a discount of 15 per cent is allowed.

Needs Funds Earlier
More than ever before, the municipality needs funds early in the year, and the irrigation rate structure has been revised to meet this need, the council was informed.

Besides this, the greatest proportion of irrigation improvements is made in the early part of the season.

Last year the payments levies as follows: 1 May, 40 per cent, 10 percent discount; 1 August, 25 per cent, 15 per cent discount; 15 October, 35 per cent, 15 per cent discount.

Total irrigation levy last year amounted to \$44,328, with discounts allowed of \$5,673.

Second connection charge is being raised this year from \$2 to \$2.50.

A penalty of six per cent is charged on irrigation tolls not paid by October 15, 1947.

Date for the court of revision on irrigation rates has been set for April 21.

E. C. Bingham will be asked to take on the task of poll tax collector for 1947, council decided on Monday. He undertook this work last year. The poll tax collections will again be divided between the local hospital and the school district.

FASTER SERVICE ON MAIL RUN

Better mail service has been assured Summerland district with the placing on Feb. 1 of a contract with A. Nicol, of Penticton, to deliver mail between Kelowna and Penticton.

This contract was formerly held by Okanagan Freight Lines and was sometimes held up because of deliveries of freight and express which had to be hauled in the same vehicle.

If the onbound K.V. train runs on schedule, the mail from the coast will reach Summerland at 6 o'clock each morning. Similarly the mail from the north will be delivered in much faster time with no delays for freight, it is stated.

Corporation of Summerland - Financial Statement, 1946

AUDITORS' REPORT

Kelowna, B.C.,
January 16th, 1947.

To the Reeve and Councillors,
The Corporation of the District of Summerland,
West Summerland, B.C.

We have made a continuous audit of the books and records of the Corporation for the twelve months ended December 31st, 1946. We present herewith, prepared and certified to by us, and signed by the Treasurer, the following statements:
"A"—Balance Sheet.
"A1"—Schedule of Fixed Assets.
"B"—Statement of Receipts and Disbursements.
"C"—Statement of General Revenue and Expenditure.
"D"—Operating Statement—Public Utilities.
"E"—Schedule of Bonded Indebtedness.
and also the following statements prepared and certified by us:
School Accounts—
"F"—Statement of Ordinary Revenue and Expenditure.
"G"—Statement of Extraordinary Revenue and Expenditure.

ASSETS

Cash on hand and in bank: All cash receipts were checked periodically during the year and the cash was verified by actual count at the time of the final audit for the year under review. All bank balances were reconciled with the records periodically during the year and also at the time of the final audit for the year under review. Bank Balances as at December 31st, 1946, were further verified by letter obtained by us from the Bank.

Tax Arrears—\$1,676.35; Rates—\$2,016.06: These accounts are as disclosed by the Treasurer's records. The collector's records were in agreement with the Treasurer's records in respect to all Taxes and Rates. We checked the postings of all receipts of Taxes and Rates to the Collector's Rolls for the year under review.

The postings of Electric Light Rates receipts to the Electric Light Rates Ledger were not checked by us. Outstanding balances are in agreement with the recapitulation of this Ledger.

Sundry Debtors—\$631.94: The individual balances under this heading agree in total with the Control Accounts in the General Ledger.

Agreements of Sale—\$1,979.02: The individual balances under this heading agree in total with the Control Account. Interest accruals have not been taken to account in respect to these agreements. One of the agreements of sale appears to be in arrears although payments on account were received during the year.

General Investments and Dog Tax Fund: All securities shown as investments of General Funds and Dog Tax Fund on hand were examined by us and found to be in order at the time of the final audit for the year under review.

Electric Light Department Surplus: The securities representing the investment of these funds were on hand and were examined by us. The transfer of funds representing the amount disbursed in respect to Capital Expenditures on the System during the year, less the Electric Light Operating Profit for the year, has been made from the Special Fund Bank Account.

Sinking Funds: All securities shown as investments of Sinking Funds on hand were examined by us and found to be in order.

It is noted that with all Investments recorded at par the Sinking Fund is in excess of requirements to the extent of \$53,789.35. Unexpended By-law funds under By-law No. 224 amounting to \$5,798.62 are on deposit in the Sinking Fund Bank Account. The Sinking Fund on hand, amounting to \$5,261.33 in respect to indebtedness under By-law No. 335, which debt by arrangement has been cancelled, is also on deposit in the Sinking Fund Bank Account. We are informed that no steps were taken during the year in respect to transfer or other disposition of these amounts.

Debentures Retired and Coupons: The Debenture debt was reduced during the year by maturities and other settlements totaling \$38,800.00. All debentures retired and coupons paid during the year were examined by us.

The Debenture for \$1,000.00 shown as outstanding and past due last year, was presented and paid during the year under review.

Unspent By-law Funds: Unspent By-law funds under By-law No. 600, Hospital Aid By-law, are on deposit in a Special Bank Account and this bank balance was verified by letter received by us from the bank.

Summerland Scholarship Fund: This fund was turned over to the Municipality during the year under the terms of a Trust Deed dated June 12th, 1946. We have examined this Trust Deed. Since the date of the assumption of this Trust by the Municipality, the following transactions have taken place:

Amount of fund at June 12th, 1946:		
Made up of:		
Dominion of Canada Bonds	\$6,700.00	
Cash in Bank	1,078.30	\$7,778.30
Donations	50.00	
Interest Earnings	51.50	101.50
		7,879.80
Scholarship Payments		250.00
Amount of Fund, December 31st, 1946		\$7,629.80

This amount is now held as follows:
Cash in Special Bank Account 929.80
Dominion of Canada Bonds (Par Value) 6,700.00
\$7,629.80

The Special Bank Account was checked by us and the bank balance was verified by letter from the bank. Dominion of Canada Bonds, par value \$2,000.00, held by the Municipality were examined by us and we have accepted a certificate from the bank as to the Dominion of Canada Bonds, \$4,700.00, held by them in safe-keeping.

School: The statements indexed "F" and "G" attached hereto reflect the operation of the Board of School Trustees Account to March 31st, 1946, and the disposition of the balance of the Levy for 1946 by payments on requisition to School District No. 15, since that date to December 31st, 1946. Taking all school balances into account as at December 31st, 1946, there is a credit balance of \$56.02. This amount includes an item of \$35.14 received for rebate of War Risk Insurance, which amount is on deposit in a Special Bank Account.

Inventory of Light Poles: An apparent error in the Inventory of Light Poles, shown the previous year, has been adjusted by credit of \$584.70 to the operations of the current year. In our opinion, owing to the large amount of capital extension work being carried out, it is most important that correct records in this connection be made available by the Electric Light Department to facilitate correct segregation of expenses in the financial records.

GENERAL

We have been assured by the Municipal Treasurer that all Liabilities, with the exception of certain minor ones, have been duly provided for in the accompanying statements.

Statement "B" is submitted in the same form as in prior years. We were informed by the Treasurer that all detailed information required by the Department of Municipal Affairs will be submitted when the usual annual returns are compiled and filed with that Department.

CERTIFICATE

In accordance with section 884 of the Municipal Act, we wish to report that:

- "A" We have obtained all the information and explanations required.
- "B" In our opinion, subject to the foregoing remarks, the Balance Sheet, referred to in our report is properly drawn and truly and correctly exhibits the state of the affairs of the Corporation as disclosed by the books and records and information received.
- "C" We found all books, documents and accounts examined by us to be in order.
- "D" In our opinion the forms and records used are well suited to the requirements of the Corporation.

Respectfully submitted,
R. G. RUTHERFORD & CO.
Chartered Accountants, Municipal Auditors.

The Corporation of the District of Summerland

Mr. and Mrs. Frank Faulkner, of Regina, Sask., are visiting Mr. and Mrs. Lee Grayson in Summerland.

ATTEND VALLEY MEETING

All members of Summerland council except Councillor F. E. Atkinson, signified their ability to attend the next session of the Okanagan Valley Municipal Assn., which meets in Penticton on Feb. 19. Municipal Clerk Nixon was asked by Reeve Powell to attend, as well.

OLIVER TURNED BACK BY 45-20 SCORE SATURDAY

Summerland Merchants cavorted with a will last Saturday night before a sparse crowd at the school gym, to turn in a commanding 45-20 victory over the visiting Oliver senior C quintette. It was a big night for Bob Scriver, who packed a big offensive punch to chalk up fourteen points.

In the preliminary, a fast-moving Summerland Chiefs' team turned back the Oliver intermediate B squad to take a 29-25 tilt.

There was little doubt from the very start as to the final outcome of the senior tilt last Saturday as the Merchants turned in one of their best displays of the season. They kept the ball moving at a fast clip and ball-handled with more surety than in any previous encounter.

At the half-way mark the Merchants held a 17-1 margin, the southerners having failed to click for a single field basket. Jimmy Thompson's under-the-basket work in the final quarter was an outstanding part of the first half.

The third quarter saw the netting being disturbed with regularity and in that period alone the Merchants outscored the visitors, 17 to 6. In the final ten minutes, Oliver came to life and gained a two-point advantage, but the big lead was never threatened.

Chuck Bleasdale and Pat Gibb handled this contest extremely well and kept the play under control at all times. Twenty-four penalties were handed out to the two teams.

Oliver intermediates held a 13-12 advantage in the first half of the prelim. but two baskets by Moore, aided by Dunham and Nesbitt gave the local Chiefs an edge of 21-19 with ten minutes left to play. Guidi's two field baskets, plus singles from Jacobs and Dunham, proved more than enough to bring about Oliver's downfall.

Teams follow:
Oliver Int. B: Mitchell 8, McKerracher 2, Hanbury 2, Charlish, Eisenhuit 6, Becker, Bogyo 7, Doering, Riches—25.

Summerland Chiefs: Moore 7, Guidi 6, Nesbitt 2, Jacobs 8, Dunham 6, Adams, Miller, Stein, Healy—29.

Oliver Senior C: Norton 13, Elliott 2, Overton, Francis 2, Crooks, Lawley, Rossiter 3—20.

Summerland Merchants: Clark 7, Scriver 14, N. Thompson 1, Biagioni 5, J. Thompson 6, Tait 2, Walsh 10—45.

REVIEW CLASSIFIED ADS BRING RESULTS

OBITUARY

Mrs. Mary McGuire

Mrs. Mary McGuire, aged 79, a resident of West Summerland for the past six years, passed away in the Summerland hospital on Tuesday, Feb. 11. Deceased had lived in Saskatchewan prior to coming to Summerland. Her husband predeceased her in 1932 and she does not leave any close relatives.

Funeral services are being held Friday morning at 10 o'clock from the Catholic church, with Father Morris officiating. Interment will be in Peach Orchard cemetery, with Penticton Funeral Chapel in charge of arrangements. Pall-bearers will consist of Norman Holmes, Alphonse Taylor, Frank Arnusch and Roy Gilbert.

WITHHOLD PAYMENT

Until more information is obtained, the council is withholding payment of the Smith Garage, Kelowna, account for overhaul of the municipal International truck. This account totals more than \$780 and has been referred back to the roads committee.

LEAVE FOR ESTIMATES

Subject of a new sidewalk on Beach avenue has been left by the local council for consideration in estimates, it was decided on Monday.

NOTICE

Marjorie May Stewart, Deceased.

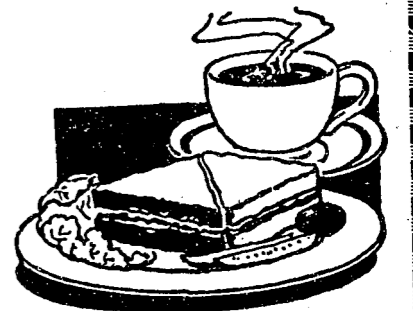

NOTICE IS HEREBY GIVEN that all persons having claims against the Estate of Marjorie May Stewart, of West Summerland, B.C., who died on the 6th day of December, 1946, are required on or before the 10th day of March, 1947, to deliver or send by prepaid letter full particulars of their claim, duly verified, to THE ROYAL TRUST COMPANY, the Executor of the Will of the said deceased, at its office at 626 West Pender Street, Vancouver, B.C.

AND TAKE NOTICE that after the last-mentioned date the said Executor will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which it shall then have had notice. DATED the 28th day of January, 1947.

THE ROYAL TRUST COMPANY, EXECUTOR,

By Boyle & Aikins, Shatford Block, Main Street, Penticton, B.C., its Solicitors.

ADMISSION—25c.

Socially Speaking

Social Editor : Muriel Hurry

Mr. and Mrs. Walter Bleasdale were recent visitors to the coast, returning to Summerland this week.

Mrs. Alice Peterson and daughter Shari left on Saturday night for New Westminster.

Miss Margaret Johnston was a week-end visitor to Vernon.

Mr. Bob Bleasdale has returned from a visit to Kamloops and Vancouver.

Mr. and Mrs. F. B. Bedford have returned from a month's vacation in California.

Jim Hack left last week for Salmo, where he will reside in future.

At the Summerland hospital on Friday, Feb. 7, a son was born to Mr. and Mrs. Charles Pearson.

Mr. John Newton was a recent visitor to New Westminster. He was accompanied there by Mr. Walter Carter.

MANY ENJOY LEGION SOCIAL

An excellent attendance was reported at the Legion social held on the evening of Jan. 28 in the Legion Hall.

Cards were played until 10:30 p.m., and winners for the evening were: Ladies' high, Mrs. R. S. Munro; low, Mrs. J. A. Read; Men's high, Mr. Thompson; low, Mr. H. McCargar. Percy Thompson was in charge of the card playing, while the rest of the committee consisted of Sandy Caldwell, Harry Hartley, Pete Pearson, George Riemer, Nat May, Walter Ramsay, Clark Baker, Janet Strachan, Betty Strachan and Steve Dunsdon.

The evening was completed with refreshments and dancing, with music provided by an impromptu, but excellent orchestra. About 80 attended the gathering, which was open to servicemen and Legion W.A. members and their families.

A similar social evening will be held on Feb. 18.

PROTESTS INCREASE

M. McLeod, Vancouver optometrist, protested the raise in the professional trade's license from \$5 to \$10 in a letter to the council on Monday. He declared that he would have to stop his Summerland calls if the license fee is to be doubled. The council is writing Mr. McLeod asking him to visit the municipal office on his next trip to Summerland.

REFER SUPERANNUATION

Application of the electrical department employees for a superannuation fund to be set up has been referred to the department in Victoria for advice by the Summerland council.

Mrs. A. Gartrell of Vancouver, who has been visiting at the home of her mother, Mrs. R. Arnott, returned yesterday, Wednesday, to her home in Vancouver.

On Saturday, Feb. 8, a son was born at the Summerland hospital to Mr. and Mrs. D. Wurtz.

Mrs. Bert Tate was a recent visitor to Calgary, where her husband, a member of the R.C.A.F., is stationed.

Mr. J. Lawler is a visitor to Vancouver and Powell River.

Mr. and Mrs. F. H. Portmall, of Regina, are visiting at the home of Mr. and Mrs. J. H. Lee-Grayson.

Miss Freda Heunichen, Mr. and Mrs. Bob McLachlan and Mr. Don Agur were visitors to Revelstoke on Monday, Feb. 10, where they attended the Western Canadian Ski Championship competition. Others from Summerland who attended were Messrs. Bill Snow, Bob Barkwill, Jim May, Charlie Betuzzi and Harry Farrow.

REPAIR ROAD MACHINERY

Progress is being made in renovating road machinery and preparing it for spring work, Foreman L. Gould reported to the council on Monday. Councillor Wilson declared that the Crescent Beach road is a disgrace at present and some work should be undertaken as soon as possible.

SCOUT NEWS

The Scout troop played host to the Penticton troop on Friday night at a skating party. Some of the members took advantage of the opportunity to bring a guest, which brought their numbers up to about 30 from Penticton. The Summerland troop was also out in full force.

Hot dogs and cocoa were served as refreshments, to round out a pleasant evening.

NOTICE—Duty patrol, Feb. 14, Eagles. The Scouts will be notified at school where the next meeting will be held.

TENDERS

Will be received by the Board of School Trustees of Penticton School District No. 15, for supplying and operating a 20-passenger bus for transportation of pupils from Summerland to Penticton and return. Particulars may be obtained from the SECRETARY, PENTICTON SCHOOL DISTRICT NO. 15, PENTICTON, B.C. The lowest, or any tender, not necessarily accepted.

DO DOLLARS DESTROY YOUR DREAMS?

Many of our fondest plans are shelved because we feel that our finances will not permit the spending necessary to bring these plans into being. Because of this, many a farmer's dream for modernizing and improving his farm never materializes.

Most farmers know what additional profits and benefits new machinery, new livestock and new household appliances can bring to the farm. The wise ones know that the lack of ready cash need not stand in the way of these things.

A visit to Mr. Woodford, manager of the local Bank of Montreal, will show you why. Through the low-interest farm improvement loan plan you may have all the modern farm machinery you need and have always wanted. In many cases, the loan can be repaid through the extra profits your improved farm will bring.

A visit to Mr. Woodford is a "go-ahead" step in the right direction.—Advvt.

Credit Union Shows Rapid Advance In 1946

Summerland and District Credit Union members reviewed twelve months of excellent progress and looked forward to a year of increasing interest in their movement when the annual meeting in the I.O.O.F. hall on Friday, Jan. 31, attracted some 75 persons.

Reports from President Stan Taylor and other heads of committees indicated that the Credit Union, now in its third year, had increased its assets from \$5,935 to \$18,831 in the twelve months.

Included in these assets is the new Credit Union building on Granville street, built in 1946 at a value of \$4,207.99, which it is estimated will be written off in six years.

The meeting voted a 3 1/2% dividend on shares and a ten per cent rebate on loan interest to take care of the balance of \$672.91 showing at the end of 1946.

Directors Elected
Walter Bleasdale, J. R. Butler and John Calcwell were elected to the directorate for three year terms, while Harvey Mitchell was voted in for two years. Continuing directors are Gordon Beggs, Roy Smith and Mel Monro.

Ken Heales was named for three years on the supervisory committee, while Harvey Eden will serve two years and Mrs. Lemke one year.

Stan Taylor headed the vote on the credit committee and will be in office three years along with Norman Holmes for two years and F. R. Ganzefeld for one year.

Reports were given by Roy Smith, A. E. Smith, F. R. Ganzefeld, Walter Bleasdale, Harvey Eden and the treasurer, Mrs. Edna Boothe.

An enthusiastic address on the credit union movement was heard

from J. W. Burns, managing director of the B.C. Credit Union League, who declared that the union's new health plan is functioning and is attracting more interest every day. He stated that a private bill is to go before the legislature this session to allow the formation of a co-operative insurance company, so that the health plan can be divorced from the societies act.

Better Support
"If you believe in credit unions at all, you should believe in them one hundred per cent," declared Mr. Burns, in urging his listeners to take advantage of all the resources offered by the credit union idea. He quoted plans whereby the Summerland union could raise its status to the \$100,000 mark practically overnight.

He advocated the union members financing in the same method as Canada financed during war years, by borrowing from the union and placing that money back as share capital drawing interest.

Mr. Burns declared that Summerland citizens are known as the most co-operative people in the province.

The Vancouver man also declared that before long members will be able to issue cheques and travellers' cheques in a similar manner to bank cheques.

Following the business session, Dr. R. C. Palmer showed a number of films of the Okanagan and the evening concluded with refreshments and dancing.

Handicaps Start In Merchants' Group

After three weeks of play, handicaps have been estimated for the participants in the Merchants' Five-pin Bowling league, and last Tuesday the play was on a handicap basis.

Including games played up to Tuesday, Jan. 28, men's high average score was held by Joe Lamey, with 216 for a single game, and 715 for three games, while Nan Thornthwaite held the women's high average, with 176, and 581 for three.

High team score for the three games and single games was won by the Family Shoe Store team, with 3,131 and 1,100 respectively.

Men's high single goes to Mate Kersey, with 296, and in the women's bracket, Mrs. Heddy Gloyn is high with 220.

PASS ACCOUNTS

Accounts totalling \$15,534.11 were passed for payment at Monday afternoon's council meeting.

CHLORINATION EXPERT

An expert on chlorination equipment will visit the council on Feb. 24, to discuss the installation of a system here.

FIRST AID...

The Order of St. John, which controls the St. John Ambulance Association and Brigade, initiated and organized throughout the British Empire the science of First Aid.

St. John Ambulance, in Canada, today is an active organization which—without charge—not only teaches the science of First Aid and Home Nursing but also, through the members of the

St. John Ambulance Brigade, renders a First Aid and Nursing Service wherever disaster may strike or injuries be suffered.

The activities of St. John Ambulance reach into many fields. In factory and home, at sporting events and public gatherings, on the open highways and on city streets, St. John Ambulance steadily goes about its business of saving lives and alleviating distress.

When you support the activities of St. John Ambulance, you play your part in saving lives that would otherwise be lost and in reducing the ill effects of injuries and sickness.

SUMMERLAND, B.C. PHONE 41
B-A GASOLINE GOODYEAR TIRES

Ever see an automobile engine scrub itself? That's exactly what happens when you use RPM Compounded Motor Oil.

Both these bottles of oil were dosed with pure carbon. In the un-compounded oil (left) the carbon settled to the bottom just as it would settle on engine parts like the grimy piston ring.

In the RPM, see how the "detergent" (or cleansing agent) disperses the carbon particles harmlessly through the oil. They can't settle down inside the engine. Rings and pistons stay clean and the carbon drains out when the RPM is changed.

You can't judge motor oil by its looks—it may seem clean but only because it has let the carbon stay in your engine.

Remember, too, that RPM sticks to the hot spots that most oils leave bare. It is genuinely a premium motor oil.

AID-TO-CHINA SEEKS \$250,000 IN PROVINCE

Two large donations received last week, one from a British Columbia industry and the other from a Chinese organization, swelled the total to-date of the Canadian Aid to China fund.

The British Columbia Electric Railway and its affiliates, and the Mah Gim Doo Hung Benevolent Society, were top-ranking contributors with a cheque for \$1,500 and \$500 respectively.

Presentation of the B.C. Electric cheque was made by Mr. Dal Grauer, president, to Chinese members of the fund executive, and the Chinese Benevolent Society cheque to Mr. W. M. Sellens, fund treasurer, by three members of that society's executive.

Other welcome contributions were received from many parts of the province, including women's organizations, and even film star "fan" clubs.

Individual donations included a generous contribution by a paralytic who felt the Chinese in China were "much worse off." He hopes the people of Canada will respond openhandedly to the appeal which seeks to raise \$250,000 in this province and \$2,500,000 nationally.

Local committees are well under way throughout the province with 15 already being organized. Acting chairmen helping preliminary organizational work are:

H. M. Jarman, Mission; Lang Sands, Abbotsford; C. A. Barber, Chilliwack; T. L. Thacker, Hope; Ralph White, Kamloops; J. Watkins, North Okanagan; G. Rowland, South Okanagan; W. Curran, Trail-Rossland; J. Stark, Nelson-Kootenays; Neil McKelvie, Prince George; E. P. Applewhite, Prince Rupert; J. B. "Barney" Williams, Alert Bay area; Les Corfield, Nanaimo; Norman King, Port Alberni, and A. Abrahamson, Revelstoke.

Chinese throughout the province are lending every assistance through a committee of local Chinese from the provincial executive. Committee members are: Frank Mah, Charles Chan Kent, and Tim Louie.

Funds raised from this appeal will be used for the purchase of clothing, drugs, shelter, medical aid, food and shelter and similar made in Canada essentials. Purchase will be shipped to China for distribution under the strict supervision of a committee of Canadians in China known as the Canadian Advisory Committee.

Fund officials emphasize this will be the only national appeal for relief to China this year.

Contributions in Summerland may be left at the Bank of Montreal.

THREE TEAMS MEET PENTICTON IN PLAY-OFFS

Penticton and Summerland basketball teams have been pitted against each other in the opening rounds of the Interior Basketball Assn. annual play-offs to decide Interior title holders, Andrew Bennie, Penticton, president, revealed yesterday.

Summerland's three teams, Merchants in senior B, Chiefs in intermediate B and Legion in junior competition all meet respective teams from Penticton.

In the senior B class, Vernon meets Kelowna, and Summerland plays Penticton in the first round. The northern winner meets Kamloops in the second round and the winner of Penticton-Summerland plays Princeton for the right to contest the final. The interior winner must be decided by March 15, while the first round is to be completed by February 18.

Only four teams are competing in intermediate B division, Kamloops meeting Kelowna and Summerland playing Penticton by February 22. Final game will be played by March 8.

Kamloops has been given a bye into the finals in the junior boys' division. Penticton and Summerland are to play off by March 1 with the winner meeting Vernon in the semi-finals. Final games are to be completed by March 29.

Kamloops and Vernon are the only entries in the intermediate A girls and boys' divisions.

Teen Town

By MIKE

Here at last, Teen Agers, are the election results and the new committees:

Your Mayor for 1947, Alfred Kita.

Aldermen: Ray Moore, deputy mayor; Doris Cristante, city treasurer; Shirley Harvey, city clerk; Joan Howard, city engineer; Jack Dunham and Don Nesbitt.

Police chief is Lee Miller and the police officers are Ed Fleming, Denny Hack, Bob Richards.

Committees are as follows:

Membership, Doris Cristante, Gwen Lamcraft, Murray Elliott. Sports, Don Nesbitt, Carroll Brawner, Mary Ward, Joan Howard. Music, Edward Kita. Canteen, Gwen Lamcraft, Ruth Nesbitt, Dorothy Arnold, Maureen May, Pat Broderick, Lavella Day. Decorations, Noreen Anderburg, Beverly Fleming, Harry Daniels, Murray Elliott. Program, Jack Dunham, Jim Hack. Public relations, Wally Day, Ed Kita, Jack Dunham, Shirley Taylor, Shirley Harvey.

If the ice is still good, we hope to have a skating party on Feb. 21. If not, we'll have a dance. In any case, let's see everyone there at the first affair of the season, and we should make it good.

A constitution has been drawn up and we hope to have this on sale soon. All Teen Towners should know the rules of their club, so everyone try to get one when they come out.

Special Notice—It is expected that we shall have an adult dancing teacher in the future, perhaps at the next dance. Here's your chance, kids, to learn everything about dancing.

That's all for now, but watch the next Review columns for the latest T.T.D.

IMPROVE PREMISES

That a distinct improvement had been made in the premises of the Nu-Way cafe and hotel, was the report tendered by the Okanagan Valley Health Unit to the Summerland council on Monday. All points previously questioned had been checked and are now up to standard. "Mrs. Taylor has proved most co-operative," was Dr. G. L. Hutton's declaration.

Here is MRS. A. K. ELLIOTT receiving the Good Citizen Cup from Reid Johnston, President of the Summerland Board of Trade. Story is below. —Photo by Robson's Studio.

Mrs. A. K. Elliott Good Citizen Cup Winner For 1946

Spontaneous and sustained applause greeted the announcement by Reid Johnston, president of the Summerland Board of Trade, at the annual banquet in Ellison hall, Thursday evening, Feb. 13, that the Reid Johnston Good Citizen Cup had been awarded for 1946 to Mrs. "Vi" Elliott, wife of A. K. Elliott, one of the most prominent of the many women workers in community life here. The presentation came as a complete surprise to Mrs. Elliott, who was summoned from the kitchen where she had been helping her fellow Rebekah members in preparation of the excellent banquet.

Reid Johnston, in presenting his cup, which is given each year to the Summerland citizen who, in the opinion of the board of trade, has proved himself or herself most worthy of the honor, commented on the great amount of work Mrs. Elliott has accomplished in community organizations, and referred to her besides, as a "wonderful mother and a good wife."

In her short reply, Mrs. Elliott expressed her thanks to the many persons who assisted her in community work and without whose aid none of her work could be accomplished.

Mrs. Elliott is president of the Summerland branch of the Canadian Red Cross Society, and is one of that important organization's most ardent workers. It is largely through her efforts that the local Red Cross has attained such a high spot among the provincial branches.

She is a past noble grand of the Faith Rebekah Lodge No. 22, has been extremely active in the Canadian Legion W.A., especially in the war years, and is a faithful worker on many United Church organizations.

Mrs. Elliott has been president of the Red Cross branch for the past eight years, was Legion W.A. president for four years, two years secretary of the provincial command of the Legion W.A., and was president of the Ladies' Aid of the United Church. She is a member of the Eastern Star lodge in Summerland and is a member of the Summerland Rehabilitation Committee.

Previous winners of the Good Citizen Cup are:

1938, E. R. Butler; 1939, C. E. "Ned" Bentley; 1940, Mrs. D. O. Solly; 1941, Dr. F. W. Andrew; 1942, S. A. MacDonald; 1943, Adam Stark; 1944, W. R. Powell; 1945, C. J. Huddleston.

HUSBAND, WIFE HAVE PECULIAR BRIDGE HANDS

Here's another coincidence for Believe-it-or-not Ripley.

Mr. and Mrs. Len Hill were playing bridge at the R. Spencer home on Tuesday night, but they were playing at separate tables, the former with a men's four and the latter at a table of the "weaker sex."

Mrs. Hill picked up her hand and discovered eight clubs plus a few other honor tricks which would make her hand a cinch five clubs. She was just on the verge of bidding five clubs when, to her amazement, she heard her husband say: "Five clubs" at the adjoining table.

His was also an initial bid. His partner took him to seven clubs and the contract was made. Mrs. Hill's partner passed and she proceeded to make seven clubs as well.

STABBED FOUR TIMES

Tommy Felix, Indian from Westbank reserve, is in jail, charged with the stabbing at midnight Saturday, on the Kelowna-Westbank ferry of Elmor Popp, Westbank. Popp, aged about 80, is suffering from deep knife wounds to the face, neck, chest and left wrist. He is a returned veteran.

FOR LIMITED COMPANY

Announcement was made from Victoria last Friday of the formation of a limited liability company, Pollock Motors, Ltd., with an authorized capital of \$25,000.

Merchants Are Taken Out Of Cage Playoffs

Summerland Merchants bowed out of the interior playoffs to Pentiction last night but it was only after the bitterest of struggles. Down 13 points going into last night's battle, Summerland won by a 44-41 count, but that wasn't enough to counteract the 49-36 lead Pentiction had attained in the first contest here last Saturday.

Another Summerland team was eliminated from the playoffs last night when the Summerland Legion absorbed a 43-8 shellacking to lost the round, 84-22.

Pentiction Int. B team took a decided edge in the other playoff game last night when they defeated Summerland Chiefs, 52-25, in the first of the two-game series. Second game in this playoff is being held in the local gym on Saturday night.

Big First Quarter

Summerland Merchants went big guns in the first quarter at Pentiction Wednesday, and whittled down the Pentiction lead to five points at one stage, but couldn't hold the pace. At the end of the first quarter, due to sensational shooting on the part of George Clark, Summerland held a 14-8 lead in the single game and had reduced the Pentiction lead to seven points.

Pentiction bucked up considerably in the second quarter, however, and outscored the Merchants, 15-11, to trail, 25-23, at the half, but still keep an 11-point lead.

At one point in the third stanza, Pentiction had amassed a 16-point lead on the series, but it was Summerland's initiative from then on. In the final quarter Norman Thompson staged a sensational shooting bout to drop in eight points, but it wasn't enough to overcome the big advantage Pentiction had gained in the first contest here last Saturday.

Pentiction won on the round, 90 to 80.

Fouls played a big part in the contest, 13 penalties being awarded each team. Summerland sank eight points out of 15 attempts, while Pentiction scored seven of 13 tries.

Scores were as follows: Summerland Merchants: Walsh 8, J. Thompson 2, Biagioni 6, Tait, Clark 11, Scriver 4, N. Thompson 18-44.

Pentiction Senior B: Brock, McGannon 3, Pollock 12, Kelly 16, Bonnost 1, Kenyon, Riley 7, Smuin 2, Marshall-41.

Summerland Chiefs: Guidi 3, Nesbitt 9, Jacobs 2, Adams, Moore 5, Dunham 6, Miller-25. Pentiction Ont. B: Nicholson 2, Collins 2, Russell 6, Brouss 9, Ryan, Raptis 12, N. Drossos 15, T. Drossos, Ashley 4, Adams 2-52.

Summerland Legion: Turnbull, Day 2, Elliott, Hack, Jomerl, Kita 2, Kato, Cristanto, Ruppel 4, Fleming-8.

Pentiction Juniors: Petley 15, Atkins 3, Kenyon 4, V. Echelman 8, Perkins, D. Echelman 4, B. Perkins, Boulding 6, Dow 8, Young-48.

Employees of Pentiction Sawmills walked out on Tuesday on direction of U.W.A. leaders.

Hospital To Elect Board Next Thursday

President S. A. MacDonald and members W. R. Boyd and C. J. Huddleston are the members of the Summerland Hospital Society board whose terms of office expire this year. They are expected to allow their names to stand for re-election when the annual meeting of the Hospital society is held on Thursday evening next, Feb. 27.

This annual meeting will hear the report of the 1946 board of directors, including the hospital finances, progress of the new maternity wing and nurses' home, and elect the members to fill the three vacancies.

Fifty Patients

That the hospital has been extremely busy was revealed by the January statement submitted by Secretary J. E. O'Mahony at the board meeting on Tuesday night, when it was stated 50 patients had been admitted in January, with 540 patient days' treatment in the month.

January accounts, including \$1,500 progress payment on the buildings, totalled \$3,843.52.

New by-laws, as prepared by Dr. J. R. Wilcox and Councillor Eric Tait, were approved by the board on Tuesday and are now to become effective.

Consider Pension

A circular from the Canadian Hospital Council sought the board's views on a pension scheme for hospital staff which, if it comes into force, might mean a payment by the hospital society of five per cent of the payroll of those nurses contributing a like amount to such a scheme.

Some members did not believe a pension scheme workable as so many nurses and other staff members resign in a few years to be married. "We really run a matrimonial agency here," one member considered.

However, the board approved a pension plan in general but considered it should be on a national basis. This decision is not binding on the board but was for questionnaire purposes only.

Decision was made to lay tile on floors of the new maternity wing instead of linoleum as called for in the original plans. Linoleum would not be feasible on the ground cement floors, it was pointed out.

The board is still considering the best method of providing domestic water for the nurses' home and is considering a plan of extending the fire line, if this can be done without any extra connection charge from the municipality.

Lack of Snow Cancels Ski Races Here

Unless there is some snow before Saturday, which is most unlikely with the present sunshine and mild spring weather, the annual Summerland Crystal Ski Runners slalom-downhill-cross-country ski races will be cancelled, club officials state.

There were to have been competitors from many interior points contest these annual races but present indications are that they will be cancelled.

If there is any snowfall before spring arrives in full force the ski races will be staged, but the present depth of snow on the course prevents any events being held.

The annual race banquet, set for Sunday evening, has also been postponed.

SUNDAY SCHOOL TRAINING GIVEN

Miss Mae Tully, director of teen age and religious educational work of the B.C. Baptist Convention, will conduct a training institute for Sunday school teachers and workers in the Baptist church here next week.

The opening session of the institute will be held on Monday evening, Feb. 24, and is sponsored by the Young Adult Group of the church. Other sessions will be held on Tuesday and Wednesday evenings.

Greater efficiency in Sunday school teaching and evangelism will be the themes of addresses to be given by Miss Tully.

Mr. Wm. Ward was a visitor to Kelowna at the week-end.

TROUBLE SHOOTER TO BE PLAYED BY LOCAL CLUB

"Trouble Shooter" is the name of the play which the Summerland Singers' and Players' club is presenting in the Ellison hall on Wednesday, Feb. 26. The story is centred around the difficulties experienced by a city attorney in obtaining title to land for a new airport.

The attorney's definition of his title, Trouble Shooter, is "one who so confuses a simple issue that no one can understand it, and so everyone is satisfied with the solution."

Many humorous situations arise when the Trouble Shooter's wife rents her upstairs rooms to a stranger and when an escaped lunatic is involved in the mix-up.

Members of the caste will include Blair Underwood, Patricia Golay, Mrs. Margaret Solly, Allan Butler, Fred Schwass, Dorothy Butler, Alan McKenzie, Peggy Gunn and Mrs. Hazel Schwass.

Bennett Hits Out For More Plain Talking

W. A. C. Bennett, M.L.A. for South Okanagan, set the legislature on its collective heels last Friday when he called for a more definite statement on continuation of the coalition between Conservatives and Liberals, sought the establishment of a royal commission to investigate the liquor set-up, urged a statement on the highway construction program as planned for the post-war era, as well as an impartial survey of the school districts regarding additional financial support where necessary.

It is not possible this week to give Mr. Bennett's speech in full but a more complete story of the legislature proceedings will be given next week.

Mr. Bennett's speech was acclaimed by government members and has been received well in his constituency.

DIES OF INJURIES AT FLIN FLON

Wes Mahan, aged 36, died of injuries received underground at Flin Flon, Man., on Monday evening, Feb. 17, according to word received from his life-long friend and former fellow-worker, Cecil Wade, West Summerland.

The late Mr. Mahan visited this district last summer when his wife was residing in a cottage on the Station road and he had planned to come here permanently. However, their plans were changed and Mrs. Mahan sold their property here and returned to Flin Flon to rejoin her husband.

Born in Saskatoon, the late Mr. Mahan had spent most of his life in mining work and was shaft boss at the Flin Flon mine when the fatal accident occurred.

Besides his wife, he leaves four children, Connie, Bonn, Tom and Jack; his parents in Saskatoon; a brother in Regina, and two sisters in Saskatoon and the Yukon.

Board of Trade Has Membership of 250

Summerland Board of Trade has a membership approaching 250, President Reid Johnston told the large annual banquet in the Ellison hall last Thursday evening, making it the fourth largest trade board in B.C. from a membership standpoint. The banquet was again a huge success, with some 240 persons in attendance, filling every available space in the large hall. Guests were mainly from Pentiction.

Healthy Finances

In his address of welcome, President Johnston indicated the trade board has a healthy bank balance of \$362.02, besides war savings certificates of \$375.

Among the guests who were introduced were Graham Knight, a past president of the Pentiction Board of Trade; J. Petley, Pentiction Junior Chamber of Commerce; Everett Craig, Pentiction, another Pentiction board past president; Grev. Rowland, Pentiction Herald editor; Reeve W. Powell, Summerland, and J. R. Butler, AOTS president.

Closer co-operation between boards of trade in the Okanagan, for their mutual benefit, was the message of Mr. Knight, while Mr. Petley urged Summerland to consider seriously the formation of a junior chamber idea here to augment board of trade activities and increase interest among the younger men of the community. Mr. Craig stressed that "we owe something to the community in

School District Is Notified Trees Are Not Being Included

On Monday, Pentiction council referred the school district estimates back to the school trustees for revision, stating that the cost is too great. No specific item was questioned but the council generalized that the school costs should be revised if Pentiction taxpayers were to meet the costs, Reeve Robert Lyon informed The Review yesterday.

Summerland council has implemented its plan to eliminate trees from the assessment roll, as far as school assessments are concerned, but what action Pentiction School District No. 15 can take on the question now is still undetermined. Summerland council has notified the school board that trees are not being included in school assessments here, which means a difference in improvements assessments of \$615,865.

For municipal taxation purposes, the 1947 assessment roll has been struck at \$2,704,394.50, including taxable land at \$1,073,504.50, and taxable improvements at \$1,630,890. For municipal purposes, improvements are taxed at fifty per cent of their assessed value. Taxes are levied on one hundred per cent of land values.

Lowered Figure

For school purposes, Summerland's assessment is figured at \$2,088,529.50, with the trees excluded.

Last week, as announced in found in discussion with school trustees, that Pentiction and the rural area are not taxing trees for school purposes and thus Summerland was assessing its property holders on an unfair basis.

A letter has now gone forward from the municipal office that for school purposes, the Summerland assessment figures, which were given in rough form at the start, have now been set at the lowered figure, minus the trees.

School District 15 had already submitted its estimates for 1947 to the Pentiction council and Summerland council had shown the division of costs between these two municipalities and the rural area, according to the rough estimates of assessments then forthcoming.

This had to be accomplished by the school district by February 15, according to the school act, states the school board.

Differences in Acts

But according to the municipal act, the assessment rolls of the municipality do not have to be officially compiled before Feb. 28. This difference between the two acts is causing some confusion.

Pentiction council had accepted the school estimates, which showed the approximate division of costs. With Summerland's lower assessment figures how submitted, Pentiction municipality and the rural area will have to bear a higher proportion of the district school costs than was shown in the original estimates.

Dr. T. F. Parmley, school district chairman, when contacted by The Review yesterday, pointed out that the school board had to compile its estimates by Feb. 15.

"Now we don't know what to do," he declared, in referring to Summerland council's move. "We have to obtain a ruling but it will be for the school board to decide. We meet next Wednesday, Feb. 26, and until that time I am not taking any action."

SUMMERLAND TO CUT COSTS BY \$8,214

Here are some facts and figures, compiled by the Review, relative to the costs of education as they will affect Summerland taxpayers. They indicate Summerland's share in extra school costs and will be cut in half with trees assessment eliminated. Original tentative assessment figures, as used by the school district in submitting its estimates.

Pentiction, \$6,464,549.50, or 62.669 per cent; Summerland, \$2,705,507, or 26.228 per cent; rural, \$1,145,261, or 11.103 per cent.

Now, the assessments are reduced in Summerland's case to \$2,078,529.50, which means that Summerland's percentage on the overall assessment drops to 21.55 per cent. Pentiction goes up to 66.65, and the rural advances to 1.18.

Total school estimates were placed at \$175,592, an increase of some \$50,000 over last year. On the previous assessment, Summerland's costs would be up some \$16,400, to \$46,054.

With the revised assessment, the proportion of school costs would be:

Pentiction, \$117,032, an increase of \$6,690; Summerland, \$37,840, a decrease of \$8,214; rural, \$20,720, an increase of \$1,224.

Judge Urges Penal Reform For Youths

Penal reform, especially in relation to youthful offenders, was urged on the Summerland Board of Trade annual banquet by the guest speaker, M. M. Colquhoun, Pentiction, Judge of the County Court, in a thought-provoking address.

There is an alarming increase in crime among youths between 16 and 21 years of age, and this is not wholly due to the disruption of homes in wartime, he declared. The gravity of the situation is only now being realized, but the Canadian public is lagging behind in doing something about the situation.

No Difference

One of the worst aspects of the situation is that there is no difference in treatment between hardened criminals and youthful offenders, he declared. They are placed in the same institution, with the result that four out of five youths committed to penitentiaries become repeaters.

"Our system is a failure to the extent that 80 per cent of our youthful offenders we fail to cure," he emphasized.

Quoting authorities on the subject, Judge Colquhoun insisted that those young microcrants should be given every opportunity to regain their place in society when they have served their sentences.

He believed that three main principles should be considered, namely, segregation of first-time offenders from hardened criminals, consideration of individual needs and finally the cure.

"The cure, in Canada, is almost non-existent," he contended, believing that the solution is a system modelled on the lines of the Howard plan adopted in England and tried out in B.C. (Continued on Page 8)

which we live," in urging active participation in community endeavor.

From Foreign Lands

Reeve Powell urged on the trade board an added interest in those who still consider themselves "foreigners," but who are as much Canadian citizens now as anybody in the community. Mr. Butler pointed out that his is a service organization which functions closely on the lines of a board of trade.

Mol Ducommun, Summerland Retail Merchants' Assn. president, brought greetings from his organization while C. C. Wharton, labelled by President Johnston as representative of "the skating public," was hoarsely acclaimed.

Dr. F. W. Andrew closed the evening with a few well-chosen remarks in a Toast to the Community. In his remarks, he urged that persons should not be hurt (Continued on Page Four)

EDITORIAL

The Good Citizen Award

"There is a person whom I think should be awarded the Good Citizen Cup sometime." Such was the statement made to The Review while awaiting start of the annual board of trade banquet. The speaker was referring to Mrs. A. K. Elliott, and as those in attendance watched this busy, community-spirited woman assist her fellow Rebekah members with the banquet fare, there were others who echoed the thought. It was heard from a number of other sources.

There could be no wonder, then, that President Johnston's announcement that Mrs. Elliott had been awarded this highest honor of the year in Summerland was met with such spontaneous and enthusiastic applause.

It was a very popular choice and a deserving one, too, as the many persons who work with her on the multitude of committees in the community can vouch for.

It was mainly due to her energetic work on behalf of the Red Cross during the strenuous years that Mrs. Elliott was named the recipient of this cup. But she is well known in many other groups besides, and her conscientious endeavor has won her a host of admirers.

It was a fitting and just award and the entire district has joined in offering its collective congratulations for work well done.

Bennett On Coalition

W. A. C. Bennett, M. L. A. for South Okanagan, had a few blunt statements to make to the provincial legislature in Victoria last Friday. He is known for the bluntness of his remarks and he is also an out-and-out Coalition advocate. In fact, it is voiced in discreet circles that Mr. Bennett would have been in the cabinet today if he had not been so adamant in his advocacy of the continuance of the coalition idea.

But he is honest in his reasonings. He told the legislature in no uncertain terms that he believed in coalition, but a coalition with a high purpose. He does not believe in a coalition only for the sake of keeping the C.C.F. out of power.

However, that is the main reason why Conservatives and Liberals of provincial parties joined forces. They foresaw that if they did not take such action the socialist party would benefit from the divided vote of the two old-time parties and sweep into power.

Mr. Bennett's idealism in this connection is quite gratifying and his honesty in stating his viewpoint is commendable.

However, we fail to see that there is such a stigma in connection with the action of the provincial Grits and Tories. Actually, there is not such a wide variance of viewpoint between the two factions. Their excellent record since coalition is proof of this statement.

Both old parties believe that British Columbia is not ready for such sweeping changes as the C.C.F. wishes to institute at once. They believe in introducing various new trends gradually. Actually, the Hart administration is introducing many moves which are socialist in trend. For instance, the operation of the B.C. Power Commission is along socialistic trends.

There is nothing wrong for two sections of the people uniting in more or less common thought to defeat a third party whose views they oppose. And there is nothing wrong with coming out and saying so. The coalition government under Premier Hart, has given this province one of the ablest administrations in history. Whether such progress would have been possible without such leadership is problematical. If the Premier accepts the Senate position which is said to have been proffered him, then it will be determined if there are other leaders capable of taking his place.

It has been plain from the vote of the people that this province is not ready to accept socialistic government as advocated by the CCF. But, if the two old-line parties had not amalgamated, then a minority vote would have swept the CCF into power and there would have been a socialistic regime in B.C. before this.

We would like to see the coalition continue so that a proper vote can be recorded. If the majority of persons wish to adopt the

The Feminine Front

by MURIEL HURRY

Small children develop so quickly that they are a continual source of amusement, as well as amazement. Little Bonnie, who has not appeared in The Feminine Front for some time, has suddenly changed from a lovable baby, who lisped a few simple words, to a small lady who loves to wear ribbons in her golden curls, who does not protest so loudly and vehemently about the necessary wash periods, and who delights in a pretty fresh frock.

And so, at the ripe old age of two and a half years, the feminine personality has already taken possession. This feminine side seems to influence baby girls much sooner than the masculine counterpart influences little boys. Of course, I have never made a very deep study into the matter, but with numerous small fry always in the immediate vicinity, and each of them in a different stage of development, and with ages ranging from six months to eight years, one cannot help but make certain observations.

Between my neighbor and myself, we share seven children in this age group. And I do mean share. They are continually together, and although we try to get them separated for meals, even that is not always possible.

It may be because this group of seven is comprised of five girls and only two boys that the feminine trait is so prominent. The boys are overwhelmed by sheer numbers and, as a result, the games chosen are usually of the girls' choice.

It is of eternal interest to watch a group of children develop, but it gets rather trying at times, especially in the winter when they are housebound to a great extent. One must be immune to noise and have the patience to reclean a room that has the appearance of having been torn apart by a cyclone.

Bonnie is beginning to learn a few feminine wiles. Until recently, she had no emotional use for any person other than her mother. She was her mother's girl, and that was all there was to it. But now she will admit, with a bit of coaxing, that she might love you a little bit. But except for a favorite aunt and sometimes myself, she still has no use for outsiders. She will politely sit on your knee for a few moments before she wriggles down and runs off, and she is not as shy as formerly. But Ronnie has always loved people. He will go to anyone, and has a wide circle of friends. He loves humanity as a whole, and everyone from soup to nuts individually.

Most articles and books on the training of children stress the point that the newly-born infant is as free from impressions and habits as a chunk of clay. They

A. Calvert Is Suggested As Legion Prexy

A. Calvert was the only name proposed by the Canadian Legion members on Wednesday evening, Feb. 12, for the presidency in 1947, at the regular meeting at which nominations were registered for a great many posts.

Nominations can also be made for any post in the local Legion branch on the evening of election of officers.

Other nominations were made as follows:

Honorary president, Dr. F. W. Andrew; first vice-president, A. Caldwell, A. M. Temple; second vice-president, D. L. Sanborn, T. Charity; third vice-president, Janet Strachan; secretary-treasurer, L. G. Perry; corresponding secretary, W. J. Baker; sergeant-at-arms, Gilbert Thomas; executive, Nat May, Harold Smith, Jim Strachan, W. Atkinson, W. Ramsay, T. Charity, G. Smith, E. Bingham, D. L. Sanborn, Betty Strachan.

Auditor, W. Grant; social committee, T. Charity, W. Ramsay; sick, S. A. MacDonald; relief, D. L. Sanborn; canteen, W. Grant, A. Caldwell, P. Thompson, W. Ramsay; house and grounds, Ben Newton, Fred Thompson, W. Atkinson; Ellison hall, E. C. Bingham; membership, M. McKechnie, W. Ramsay; Scouts, W. Atkinson.

W. Grant, who succeeded the late Sid Thomas, declined nomination for the presidency this year, due to pressure of work.

A grant of \$10 to the St. John Ambulance fund was moved at the monthly meeting last week.

It was decided to make a formal request to the municipal council that all profits accruing from rental of the Ellison hall be turned back into the building for repairs and improvements. The Legion takes care of the hall and handles the renting on behalf of the council.

imply that the character of your child is formed by their environment, discipline, etc., and that the finished result is what you make it. This, to a certain extent is true.

But I have a twin niece and nephew who are still under the age of two. These twins, Marnie and Alan, have had identical treatment since the day they were born. Their father is a doctor of medicine, their mother a trained nurse. Their lives have been run like clockwork. Yet the characters of the twins are distinctively different.

I have noticed in all families that children, even when brought up under identical circumstances, develop individually. But this only goes to show that children are small adults and adults (especially men) are only overgrown children.

more sweeping trends of the CCF, then they will have their opportunity at the polls next election. It will be a truer vote than any which could be obtained with Liberals, Conservatives and C.C.F. engaged in a three-cornered battle.

The Inside Story

By ARGOLIST

Some Summerland fruit growers are convinced that they secure good results from the application of lime to their orchards, especially where stone fruits are grown. Other growers are equally sure that application of lime in this area is a waste of money. In order to obtain the facts regarding this controversy, I interviewed Dr. Wilcox, who has charge of orchard nutrition investigations at the Summerland Experimental Station. His views on this matter are summarized briefly in the following paragraphs.

Application of lime to the soil sometimes gives excellent results. This is because lime tends to correct soil acidity and also supplies calcium, one of the elements essential to normal plant growth. With soils which are alkaline or neutral in reaction and which contain adequate amounts of calcium in the form of free lime, nothing is gained by applying lime. In the Okanagan Valley, most of the surface soil was originally alkaline. However, with long years of irrigating and the use of acid fertilizers such as sulphate of ammonia and Ammophos 16-20, the surface soil has gradually been changing toward the acid side. In the heavier soils there is still plenty of free lime in the subsoil, which remains somewhat alkaline in reaction. On these soils there is no need to apply lime even though the surface soil may have a slightly acid reaction.

On the other hand, where the soil is sandy, the subsoil usually contains little, if any, free lime and continued application of acid fertilizers may eventually render both the subsoil and the surface soil undesirably acid. According to present evidence, it is only on such soils that the expense of applying lime is justified. Very few such cases have been encountered in the Okanagan Valley.

In order to ascertain whether his soil is likely to respond to applications of lime, the grower should have his soil tested for lime content. One-pound samples should be taken at depths of 0-12 inches, 12-24 inches and 24-36 inches respectively. Soil samples taken in this way and sent to the Summerland Experimental Station will be tested free of charge.

The final answer as to whether or not the application of lime is justified can best be secured by making actual experiments in the orchard. The Summerland Station will be glad to co-operate with growers and fertilizer dealers wishing to conduct such experiments.

TWO AWARDS OF LIFE MEMBERSHIP

For the first time in the history of the local trade board, life memberships were awarded at the annual banquet, held last Thursday evening, Feb. 13, with Vice-President George Perry making the presentations.

Recipients were J. H. Bowering, who retired in 1946 after more than 30 years in postal

service circles in West Summerland, and Will Ritchie, retired lumber merchant, who will soon complete 40 years' continuous residence in this community.

Mr. Bowering, in thanking the board for this life membership, spoke briefly on the efforts in the early days to obtain better mail service. It was on January 1, 1919, that Mr. Bowering became postmaster in West Summerland, which post he held until October 31, last year.

PENTICTON SCHOOL DISTRICT NO. 15 PENTICTON, B.C.

Penticton, B.C., February 12, 1947.

The Board of School Trustees, Penticton School District No. 15, Penticton, B.C., Gentlemen:

We have examined the books and records of your school district for the period, April 1st to December 31st, 1946, and as a result we present herewith the following statements:

- "A" Statement of Receipts and Disbursements.
- "B" Statement of Expenditures by Schools.
- "C" Statement of Indirect Charges.

SCOPE OF AUDIT

We have examined all receipts, and found them in order. We have also examined all vouchers for expenditure including bank vouchers, and have found that all payments have been properly authorized.

The bank balance has been verified by a certificate from your Bankers. The cash on hand has been vouched for by your Secretary.

CAPITAL EXPENDITURE

During the period land was purchased at Summerland for \$10,000.00 on which a deposit of \$500.00 has been paid.

The sum of \$5,000.00 was paid to the architects in connection with the proposed new school at Penticton. This amount was paid by the Corporation of Penticton, from the by-law money for that purpose. This amount has been shown both as a receipt and a disbursement of your school district.

Other Capital Expenditure during the period was mainly for new equipment.

ACCOUNTS RECEIVABLE

The following is a list of your Accounts Receivable as at December 31, 1946:

Estimated Grants re New Equipment	\$1,934.72
Estimated Grants re Building Alterations and Additions	4,518.92
December Transportation Grants	954.37
Balance of Grant on Primary School	560.60
	\$7,968.61

With the exception of the December Transportation Grant, which is the actual amount of the grant, the other figures are estimated on the amount applied for.

ACCOUNTS PAYABLE

The following is a list of your Accounts Payable at December 31, 1946:

December Trade Accounts	\$7,321.19
Corporation of Penticton—re Primary School	2,629.90
	\$9,951.09

The December trade accounts are all normal operating accounts. The amount owing to the Corporation of Penticton is in connection with the addition to the Primary School at Penticton.

CERTIFICATE

Subject to the foregoing remarks, the statements as presented in our opinion, exhibit a true and accurate record of the affairs of your School District at December 31, 1946, as shown by the books and records of the District and by information given us.

Yours respectfully,
CUMMING & LUNDIE,
Auditors.

Statement "A" referred to in our Report dated February 12, 1947.
CUMMING & LUNDIE,
Auditors.

Mr. Mel Ducommun is a business visitor this week to Vancouver.

Mr. Alf McLachlan returned on Tuesday morning from a visit of ten days to the coast.

Among Summerland residents who attended the nurses' annual dance at Penticton last Friday evening were Mr. and Mrs. Len Hill, Mr. and Mrs. G. A. Laidlaw, Mr. Bill Evans, Mr. J. R. Armstrong.

RUTLAND AND PENTICTON LOSE IN HOCKEY TILTS

In rapid succession, Summerland's teen-age hockey club scored victories at the Living Memorial hockey rink in West Summerland when Rutland was turned back on Wednesday night, Feb. 5, by a 4-3 count, and Penticton was vanquished Thursday night by a 6-5 count.

Both games packed plenty of thrills and it was only fight and a determination not to be beaten which brought the victories for the local puck chasers.

Going into the third period with a count of 2-all, Rutland pulled ahead at 3-2. However, goals by Furuya and Jim Maxwell proved the deciding counters. Summerland's goals earlier in the game were scored by George Taylor and Fred Kato.

On Thursday evening, Penticton led, 2-0, in the first period and increased the margin to 5-2 at the end of the second stanza.

In a desperate effort to eke out a win, Summerland used its first-string nearly the entire third period, with the result that Bruce Haskins, George Taylor and Jim Maxwell shoved in the tying counters, all of which were set up by Chuck Brawner, captain of the local sextette.

In overtime play, Bruce Haskins slapped a rebound into the Penticton nets to decide the game. Heavy body-checking by Taylor and Campbell proved a big asset in the Summerland victory.

Lee Miller proved to be sensational while between the sticks for the local lads and stopped many sure shots.

Food And Medicine For China Sought By Fund

Provision of urgently needed food and medicines with safeguards for their direct distribution by Canadians to the Chinese people, is linked by the Canadian Aid to China fund officials to a broad program of closer friendship between the peoples of the two countries and the development of China's social and economic welfare.

Trained personnel will be sent from Canada to complement the work already being done by Canadians, according to Major-General Victor W. Odlum, recently returned Canadian ambassador to China and who is honorary chairman of the fund's provincial executive. British Columbia's quota in the national \$2,500,000 drive is \$250,000.

The plan of the national organization is three-fold, states Major-General Odlum:

1. Immediate shipment of food and medicines purchased in Canada, for distribution by Canadians in China, under an arrangement which precludes any possibility of the supplies going into the "Black Market."
2. Despatch of technically trained Canadians to China to assist in welfare work.
3. Bringing to Canada through scholarships, qualified Chinese students who, after post-graduate study here, will be able to return to their own country, trained technically to play a vital role in China's development.

"The problem of China is a gigantic one," declared Major-General Odlum, "and it is obvious that our small contribution this year can be but a token gesture and acknowledgment of our responsibilities as one of the most fortunate among the family of nations."

"But it is a start on a long-range project of neighborly assistance. The Chinese have long been our friends and long been good customers of Canada. They have faith in our spirit of humanity. If that faith is destroyed through unconcern on our part, we need have no delusions as to our opportunities for future trade relations."

"This is not only a public responsibility now that UNRRA is ceasing to function, but it is also a responsibility of Canadian industry and business. I am sure that Canada, and particularly British Columbia, whose geographical position and industries are so closely knitted into the future economies of the two nations, will not shirk their duty."

"As former ambassador to China, I am not unmindful of the development of the black market there. I am also aware of the fears of some Canadians that our aid to China might fall into the hands of these profiteers."

"I can assure such fears are groundless. The distribution of these goods, bought in Canada and shipped from here, will be through Canadians whose integrity I know to be unquestioned. I should like to make that state-

ment as positive as I possibly can."

Provincial headquarters of Canadian Aid to China are located at 736 Granville street. All chartered banks are also receiving donations. Receipts are given for income tax purposes.

TAKE BIG LEAD Merchants lost by 13 points, 49-36, to Penticton senior B's in the season. Two Summerland hoop teams took a licking from Penticton at the school gym on Saturday night in the first round of the interior cage playoffs. The end of a 41-14 count.

Mrs. Magnus Tait Tells of Women's Institute Origin Here 37 Years Ago

In commemoration of the 50th anniversary of the Women's Institutes of Canada, the Summerland W.I., at their February meeting on Friday afternoon, Feb. 14, were hostesses at a Valentine tea.

The meeting was opened by the president, Mrs. M. Collas, who gave an interesting outline of W.I. work in Canada during the past 50 years, explaining how the first W.I. was formed, and the progress which they have made in the years since formation. This week has been declared Women's Institute week throughout Canada.

Several old-time members were among the record audience of over 50 attending the meeting, which was held in the Parish hall.

Mrs. Magnus Tait, a charter member, explained that the first meeting of the W.I. in Summerland was held on Nov. 8, 1910, and described the classes in canning, cooking, sewing, etc., that were held during the first years of the W.I. They also sponsored shows, which were popular with the local residents.

The oldest woman in Summerland, Mrs. Saunders was present at the meeting. Mrs. Saunders is in her 94th year, and took a bright interest in the proceedings. The oldest member present was Mrs. J. C. Robson.

The speaker for the afternoon was Mrs. A. K. Macleod, who gave a charming and interesting talk on our new citizenship regulations.

After describing a recent newsreel, appearing at the local theatre, in which the first citizenship ceremonies were held in Ottawa, on Jan. 3, Mrs. Macleod stressed the new advantages of citizenship. "A new name is added to the list of nationalities of the world," she stated, in explaining how the racial origin of Canadian citizens will now be omitted from official papers, and in place of the old term, British subject, the words, Canadian citizen, will appear.

This act also performs a service to the cause of women's rights, Mrs. Macleod continued, as under the new regulations, Canadian women are given full control of their national status.

A married woman may now keep her Canadian citizenship, instead of being forced to adopt the country of her husband, as was necessary with the previous regulations.

Mrs. Macleod stressed that this new law is a symbol of our national importance, and that a Canadian citizen is still a British subject.

Contests were played before the refreshments were served, and winners were Miss M. Cartwright and Mrs. G. Inglis.

WOMEN'S SERVICE CLUB MAKES BIG STRIDES FORWARD

An increase in membership of from 12 to 69 in the three years since formation was reported at the third anniversary meeting of the Women's Service Club of the St. Andrew's United Church, held on Monday evening, Feb. 17, in the United Church hall.

Speaker for the evening was Rev. H. R. Whitmore, who lauded the service club for the fine work done since its inauguration, and outlined the work of the various women's clubs connected with the church, explaining how they were tied together to make a United Church of the World.

The meeting was opened by the new president, Mrs. Chris Underwood, and plans for a social evening to be held on March 31 were made, with a committee appointed to take charge of this.

There were five new members at the meeting. Refreshments were served, with a birthday cake topped with three candles commemorating the anniversary.

BOARD OF TRADE

(Continued from Page One) by criticisms but should be spurred on to further efforts, and examine the faults and shortcomings.

Tribute to Pioneers
He believed that the essence of co-operative spirit was instilled into the community by such old-time pioneers as J. M. Robinson, James Ritchie, R. H. Agur, J. L. Logie, A. B. Elliott and Adam Stark.

"They set a pattern which, if we act as good citizens, we will follow," he concluded, in urging his audience "to fulfill their duty as good citizens."

Program arrangements were handled by T. E. Young and W. A. "Bud" Stewart. Vocal solos by Mrs. Alma Fudge, Summerland, and Walter Wright, Penticton, were given spontaneous applause, while two Dutch songs by a duet of Mrs. Elizabeth Pilkington and Aart Advocaat proved an unusual feature of the musical portion of the program.

Toast to the ladies was given by C. W. Nesbitt, with the response from Mrs. W. H. B. Munn.

ATTEND COAST CANNERY MEET

A good representation of local cannery officials and Dominion Experimental Station personnel are attending the convention of B.C. Cannery Assn., held this week in Vancouver.

The convention got under way on Monday, Feb. 17, and will continue for the greater part of the week.

Those attending from the experimental station are Councillor

School News

(By TING)

Last Friday night a very enjoyable Valentine's social was held at the school. This affair was well attended and there were numerous activities to satisfy all of us. There were quite a few couples dancing and the "spot dance" prizes were the big (not the biggest) events of the evening. Others played bingo (no prizes); crokinole, ping-pong, and even found out their future by the aid of the Ouiga board.

Around ten o'clock, there was a scampering in the hall and we found Auctioneer Jack Dunham thumping for silence, as he told us of the box-lunches which were to be sold at this time. These lunch boxes were tastefully decorated in colors appropriate to the day—red and white. While some enjoyed their lunches, a few others ate hamburgers with great gusto—why? (we won't go into detail about that here).

After all the dishes had been washed and put away, we all trudged wearily home—satisfied after a lot of fun.

F. E. Atkinson, Dr. C. C. Strachan, Mr. A. W. Moyle and Mr. C. O. Gitterman. Mr. W. G. Rempel, manager of the Co-op Cannery, is attending, as well as H. J. and R. J. Barkwill of Barkwill's Cannery. Those attending from Milne's Cannery are Blake and Howard Milne and Lorne Bloomfield. Mr. Wm. Ritchie is also attending the convention, as is Mr. Blair Underwood of Underwood's Cannery.

Soil

THE Pay Dirt OF BRITISH COLUMBIA FARMS

The reserve strength of a farm is its soil. These reserves can be depleted by the false economy of under-fertilization, or they can be maintained by an intelligent fertilizing program designed to restore the natural elements lost by successive crops.

British Columbia farms are relatively young. Only by regarding our soil as our most precious asset, and protecting it through proper fertilization, can we avoid the fate of many older farming areas, where agriculture has ceased to be profitable due to soil depletion and erosion.

The war experience proved that every dollar invested in fertilizers returned itself many times over in volume and quality production.

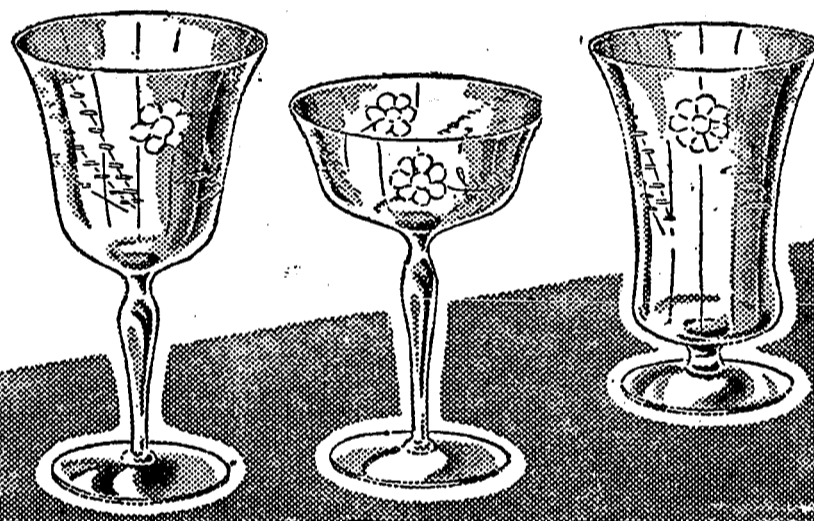

What is the fertility of your soil? If in doubt, write Buckerfield's Limited, nearest branch, for soil test forms. This service is modern, unprejudiced and free.

Signalman C. V. Harrison, R.C.C.S., left on Wednesday night, Feb. 19, for Vancouver, where he is stationed, following a two weeks' leave at the home of his parents, Canon and Mrs. F. V. Harrison.

Mr. and Mrs. Hugh McCutcheon and Mr. and Mrs. J. Morhart and daughter, Josephine, were visitors on Sunday at the homes of Mr. and Mrs. C. E. McCutcheon and Mr. and Mrs. Ted Dunsdon.

Mrs. F. W. Andrew returned on Monday from Vancouver, where she had been visiting at the home of her son and daughter-in-law, Mr. and Mrs. Bill Andrew.

Dr. and Mrs. C. C. Strachan are Vancouver visitors, where Mrs. Strachan is visiting her parents while Dr. Strachan attends the cannery convention.

Mrs. R. York left on Tuesday night for Vancouver, where she has entered St. Paul's hospital for medical treatment.

Mr. and Mrs. F. H. Portmail, who have been visiting at the home of Mr. and Mrs. J. H. Lee-Grayson, have returned to their home in Regina.

Mr. E. Britton, of the staff of the Dominion Experimental Station, will leave during the coming week for Creston, where he will attend the Agricultural Short Course, to be held there on Feb. 28.

Word has been received by Mrs. George Inglis of the death of her mother, Mrs. J. Ward, at her home in Saltcoats, Sask.

Monday, Feb. 17, following a long illness, Mrs. Ward was 91 years of age. Two of Mrs. Ward's granddaughters, Mrs. Fred Schumann and Miss Eileen Inglis, both of Summerland, are at present visiting in Saltcoats.

Word has been received that L. S. Fraser, a former employee of the Summerland Co-op, has been appointed assistant superintendent of the Smithers Experimental Station, where he will commence duties soon. Mrs. Fraser and children will move in the spring.

Miss Edna Gould, who is training at St. Paul's hospital, Vancouver, is spending a vacation at the home of her parents, Mr. and Mrs. Ed Gould.

Mrs. J. E. O'Mahony left on Tuesday evening, Feb. 18, for Vancouver, where she is attending the Red Cross Provincial Council meeting as delegate from the Summerland branch.

The first robin reported sighted in the district was seen on Tuesday, Feb. 18, by a local resident.

Mrs. William Armstrong is a patient in the local hospital.

Mrs. A. W. Thompson, of Vernon, is visiting at the home of her son-in-law and daughter, Mr. and Mrs. A. Baillie, Trout Creek.

Mr. and Mrs. J. E. Cafferky, formerly of Vancouver, have moved to Penticton, where they have taken up residence. Mr. Cafferky is the manager of the new "Sally Shop," recently opened there, and Mrs. Cafferky is the former Maureen Henry, daughter of Mr. and Mrs. George Henry, of West Summerland.

Mr. Harry Pilkington will leave tonight, Thursday, for Vancouver where he will visit his mother for several days. He will be accompanied there by Ronald Hurry who is entering the Children's Hospital for treatment.

Dr. H. R. McLarty has returned from a Creston business visit.

Mr. Walter Carter has returned from New Westminster, where he has spent the past two weeks.

Mr. and Mrs. A. W. Nisbet have returned from a Vancouver visit.

A daughter was born to Mr. and Mrs. Jack Brown at the Summerland hospital on Monday, Feb. 17.

Mr. Russell Kerr, who has been a member of the printing staff of The Review for the past seven months, left yesterday, Wednesday, for Salmon Arm, where he has accepted a similar position on the Salmon Arm Observer.

Mr. Jack Bennison has returned from a Vancouver visit.

Miss Gerry Pilkington was hostess to many of her little friends at a party in honor of her fourth birthday on Friday afternoon, Feb. 14.

Mrs. J. H. Riha of Vallejo, California, is visiting for two weeks at the home of her parents, Mr. and Mrs. B. T. Washington.

Mr. Bovair of Vancouver is visiting at the home of his brother-in-law and sister, Mr. and Mrs. Harry Dunsdon.

Mr. and Mrs. Alex Edlund of Wetaskiwin, Alta., are visiting at the home of their son-in-law and daughter, Mr. and Mrs. Lloyd Shannon.

Mr. Harry Brown has been a recent visitor to Vancouver.

Mrs. N. O. Solly was a visitor with relatives in Trail last week.

Miss Kay Nisbet has been visiting her brother, Pat Nisbet, who is a patient in the Tranquille sanatorium.

LEGION SOCIAL WELL ATTENDED

A second Legion social was held on Tuesday evening, Feb. 18, in the Legion hall, with members of the Legion and the Legion W.A. and their partners attending. A good turnout was again reported at this popular repeat affair.

Cards were played during the first part of the evening, with the following winners: Ladies', first, Mrs. W. McCutcheon, consolation, Mrs. Lydia Johnston; men's, first, Mr. Bob Smith, consolation, Eddie Hannah.

Danling followed the cards, with local players recruited.

The committee in charge of the evening was comprised of the Misses Janet and Betty Strachan, Steve Dunadon, Sandy Caldwell, Harry Hartley, Pete Pearson, George Riemer, Nat May, Walter Ramsay and Clark Baker.

STUDENTS WILL VISIT BROODER

With the co-operation of the Summerland schools, Saturday is to be visiting day at the Westmore Poultry Products' new brooder installation in West Summerland. School children are being given a conducted tour of this new Summerland industry on Saturday morning.

Also, the Westmore management is placing a display of some five different breeds of chickens, all dyed various outstanding hues, in Butler and Walden's window.

Two of these camouflaged chicks will be placed in cellophane boxes and the school children who guess the correct breed will be awarded prizes by the Westmore manager, Mr. G. W. Jaggard.

DECLINES PRESIDENCY

After holding the presidency and being a director for 18 years, D. K. Gordon declined re-nomination at the annual meeting of the Kelowna Hospital Society held last Saturday. W. J. Logie is the new president and W. E. Adams vice-president. A move to have a medical representative on the board of directors did not find favor with the meeting.

ENGAGEMENTS

Mrs. W. A. Caldwell announces the engagement of her daughter, Shirley, to Frederick George Milligan, son of Mrs. D. Milligan, New Westminster, the marriage to take place March 5th.

**MARGARET MYERS
AWARD WINNER**

The first prize in a cover contest sponsored by the B.C. School Broadcasts, was recently won by a West Summerland student, Margaret Myers, daughter of Mr. and Mrs. M. Myers.

This province-wide contest offers a first prize of \$10.00, as well as using the winning cover design on an early issue of the quarterly program published by the B.C. School Broadcasts.

Margaret is in the eighth grade of the Summerland elementary school, and only last week celebrated her fourteenth birthday.

**Hail Insurance Study
Assured By Growers**

Hail insurance occupied a prominent position in the final discussions of the BCFGGA convention at Kelowna, with the result that Summerland's resolution asking for the appointment of a committee to study zoning the tree fruit area with a view to exacting a levy on the zone basis was given the green light.

This is a system which is modelled on hail insurance company policies and was advocated by the Summerland growers, after Peachland's endeavor to have a mutual scheme put into effect was voted down by the convention.

The Peachland plan wished an overall mutual hail insurance plan financed on a package basis, but the delegates could not agree to the feasibility of this plan and subsequently another Summerland plan for a group hail insurance was withdrawn in favor of a study of zoning the area.

In brief, other resolutions which The Review could not give publicity to in previous issues because of lack of space, follow: Need for future protection of

timber reserves to assure an adequate supply of shook was recognized by the grower-delegates to such an extent that a Penticton move to have all timber "suitable for the manufacture of box shook," in the tree fruit area, set aside for this purpose, was endorsed.

This suggestion encompassed not only the Okanagan but the Kootenay areas and is to be presented to the forestry service and the ministry of lands in the B.C. government.

At the same time, the industry is asked to continue its research into the possibilities of some new container which in time may be used as a substitute for the wooden box.

Creston asked for a reforestation policy and better fire protection in the form of trails and roads in irrigation watersheds and the lands department will be acquainted with this need.

Dealing with Little Cherry, the convention implemented Dr. H. R. McLarty's annual report, and will urge the provincial minister of agriculture to pass enactments which will give power to force removal of trees definitely known to have become infected with this disease.

Such legislation might prevent the spread of Little Cherry disease from the Kootenays to the Okanagan, it was felt.

Continuation of the growers' Chautauqua, under supervision of provincial and dominion agricultural departments in the 1947 winter season met with unanimous approval.

Last year the spread between grades was increased in an endeavor to encourage growers to produce more fancy and extra fancy fruit. This course was approved by the delegates and the general principle of the five-year average was also given an okay, with the provision that this average should be changed from the 1935-39 period to the past five years' returns.

Oliver local withdrew its resolution asking for a reduction in the per package deduction on soft fruit for advertising, but late on Thursday evening Osoyoos endeavored to have an identical resolution brought in from the floor. President Jock Stirling ruled against this move and refused to allow the resolution a hearing.

Growers indicated their interest in the railways' application for increased freight rates by asking their executive to obtain more information on the provincial government's opposition to the move.

The convention recommended that the Cawston bench lands, now owned by the dominion government, be developed for the rehabilitation of returned men and women.

The Kootenays' request for a better system of forecasting weather was adopted, as it was pointed out there is a wide variation in districts. Creston also sought a more adequate supply of sprinklers for irrigation purposes, claiming that

there are no suitable types on the market.

Also on the question of sprinklers, Oliver growers received convention support for the elimination of duty on aluminum and steel pipes, black iron, and fittings brought in from the U.S. for agricultural use.

Daylight saving, on a dominion-wide basis, was adopted by the growers on the last night of their convention.

Feeling that the government does not act quickly enough when a strike threatens to paralyze industry, a Creston resolution urging the B.C. government to revise and improve its arbitration machinery, was endorsed by the growers.

Vernon and Coldstream locals voiced alarm at the rising costs of education since the implementation of the Cameron report and they received support for their move to petition the government to increase the school grant from the present fifty per cent of basic cost to at least

seventy-five per cent of basic cost.

Compulsory motor vehicle insurance, with the premium added to the driver's and car licences, will be sought from the provincial government following adoption of a Glenmore resolution.

Home Nursing...

**VITAL FACTOR in
CANADIAN HEALTH**

The need for a sound knowledge of Home Nursing is ever great. Wives and mothers who have taken the St. John Ambulance Association course in Home Nursing are able to make a definite contribution to national health. With a sound knowledge of the elementary principles and practice of Home Nursing and of hygiene and sanitation, these women are in a position to care for the sick in their own homes and play an important part in building up the health and strength of Canadians.

Instruction in Home Nursing and First Aid is readily available at the nearest branch of the St. John Ambulance Association. The teaching of Home Nursing is but one of the many activities of St. John Ambulance Association and Brigade. To continue and extend its services, support the St. John Ambulance Now.

Pioneer Days Brought To Light From Old Review Files

(Taken from the Files of The Summerland Review, January 5 to 26, 1917)

Rev. N. McNaughton, who has been pastor of the Presbyterian and Baptist churches, was guest at a farewell gathering in the Baptist church at West Summerland. He has been pastor at the Baptist church since 1914. Rev. and Mrs. McNaughton will make their home in New Westminster.

The new furnace is being installed in central school this week by Mr. Wallace.

A. Steuart and Son must have more packing house and warehouse room, and it is possible they may double the size of their present buildings.

Mr. and Mrs. J. Downton have taken over the lease on the Hotel Summerland.

The annual financial statement of the municipality of Summerland showed that tax receipts for 1916 collected amounted to \$12,737.96; irrigation rates collected were \$6,627.69; general water, \$2,445.89; domestic water, \$4,161.91; electric light, \$2,818.22; power, \$105. Disbursements amounted to \$98,706.29. Total disbursements of the municipal school board were \$12,968.43.

Mr. and Mrs. E. R. Butler entertained a few friends on the occasion of their fifth wedding anniversary.

Reeve Isaac Blair and Councillors R. Johnston, E. R. Simpson and J. R. Campbell were all returned by acclamation. For Ward 1, H. Bristow was nominated to succeed Councillor Stark, retired. On the school board, Mrs. W. C. Kelley was re-elected and Mrs. F. W. Andrew was elected a new member. After

ten years as school board secretary, J. L. Logie has resigned and J. L. Bowering has taken his place.

Dr. F. W. Andrew was elected president of the Summerland Board of Trade, Rev. H. A. Solly vice-president, C. W. Lees secretary-treasurer, and an executive of R. H. English, R. H. Helmer, J. Galt, R. V. Agur, W. Ritchie and S. Young.

A half-holiday referendum was held during the municipal elections, with Thursday obtaining a slim 71 to 60 majority over Saturdays.

Officers elected by the West Summerland Women's Institute are: Mrs. H. G. Estabrook, president; Mrs. O. Zimmerman, vice-president; Miss Dale, second vice-president; Mrs. J. J. Mitchell, secretary-treasurer; Mrs. Bent and Mrs. Gayton, auditors; Mrs. Estabrook, Mrs. Gayton, Mrs. Fosbery; program committee.

Officers elected by the Ladies' Hospital auxiliary were: President, Mrs. H. C. Lipsett; first vice-president, Mrs. H. A. Solly; second vice-president, Mrs. A. L. Moreland; secretary, Mrs. C. W. Lees; treasurer, Mrs. E. B. May; house committee, Mrs. G. Gartrell, Mrs. R. E. White; purchasing committee, Mrs. F. W. Andrew, Mrs. May, Mrs. W. J. Robinson.

W. J. Robinson will be president during 1917 of the Summerland Hospital Society directors while Messrs Higgin, Ritchie and Lipsett were re-elected to the board of directors. Mr. Helmer replaced Mrs. W. H. Hayes.

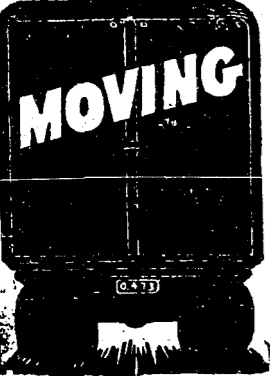

After reaching 91 years of age, Andrew Graham Campbell passed away at the home of his son, Councillor J. R. Campbell, on January 26.

When H. Bristow declined nomination for Ward 1, R. H. English was nominated and has taken his seat as councillor.

TWENTY YEARS AGO—Taken from the files of The Summerland Review, January 7 to January 28, 1927, incl.

After he had murdered his wife, with a shot through the heart from a .30-30 rifle, George Barden, of Penticton, died of gunshot wounds inflicted by Constable R. M. Robertson, who was ordered to shoot Barden who would not give himself up to police.

A resolution, calling for government legislation to procure marketing control of Okanagan fruit was carried on Thursday, January 18, by the B.C. Fruit Growers' Assn. annual convention. This convention asks for a

JUDGE URGES

(Continued from Page One)

for the first time from 1936 to 1942.

English System

He outlined the methods adopted by the nine Borstal institutions in England, five of which have no walls at all.

In the Borstal plan, the boys spend 15 hours a day in work and study, so there is no idle time. Personnel of the staff is carefully selected and each inmate of the home is given individual attention. Aptitude tests are applied and academic and trades teaching are both emphasized.

Co-operation of the boys' homes is sought, as well as that of persons in the surrounding neighborhood. Under such a plan, there have been few escapes and in England only 8.1 per cent of the discharges have again taken to a life of crime.

B.C. Endeavor

The speaker told briefly the start of the Borstal home between Vancouver and Burnaby, where 200 youthful offenders were given special consideration in the six years of operation before the exigencies of war caused its closing.

It is now planned to re-open this institution on the same site, and Judge Colquhoun urged, on his listeners to take an active interest in its promotion. He pointed out that this is a matter of concern to everyone, as it costs \$1,000 a year to maintain a criminal in a penitentiary, so that everyone's pocketbook is affected.

And under the present system, because of lack of scientific treatment of prisoners, those offenders who are costing the taxpayers so much each year, are returning again and again, he concluded.

The guest speaker was introduced by C. J. Huddleston and was thanked by Gerry Laidlaw.

TWO HUNDRED AT MASQUERADE

More than 200 persons attended the masquerade dance of the Old Time Dance club in Ellison hall on Friday evening, Feb. 14, Valentine's Day. This unit holds its dance every two weeks and has provided a good deal of social enjoyment to large gatherings from this district.

Prizes were awarded for costumes last Friday, as follows: Most natural, Beverley Gayton; prettiest dress, Pauline Soderberg; comic dress, Herb Lemke.

FOR SALE—6 ACRES, 4 ACRES young soft fruit; 6-room house, full basement, all dry lumber used; henhouse for 150 chickens; both house and chicken house stuccoed. Peach Valley, one mile from station. William Radomske. 7-1-p

MRS. LAMACRAFT INSTALLED BY LEGION W.A.

Head of the Legion W.A. for the coming year is Mrs. A. Lamacraft, who was installed with other new officers at the annual installation meeting on Tuesday evening, Feb. 11, at the Legion hall.

Other officers installed at this meeting were, vice-president, Mrs. W. Sherwood; second vice-president, Mrs. M. McKechnie; secretary, Mrs. A. Fenwick; treasurer, Mrs. H. R. McLarty; flag-bearer, Mrs. P. Davis; sergeant-at-arms, Mrs. R. Wellwood; press correspondent, Mrs. Lydia Johnston.

The new executive is comprised of the Mesdames Ed Gould, Arnold Gayton and J. McPherson, while Mrs. Ed Brennan, Mrs. J. A. Read and Mrs. E. Pohlman will form the social committee.

Besides the installation of these officers, five new members were initiated. These were the Mesdames Bill Milne, Tex Adams, B. H. Robson, Ted Logie and Jim Brown.

At the close of the busy business meeting, refreshments were served.

The Legion W.A. has been very active since the start of the year. In addition to the routine January meeting, when the new officers were elected, they served on Jan. 31 a turkey banquet to a party of about 50 Summerland teachers and their guests, and have formed a small bowling league.

On Wednesday, Feb. 5, a social evening was held in honor of the new war brides. Games were played during the evening and seven of the new brides were presented with gifts of substantial kitchen utensils.

Those presented with gifts were the Mesdames C. Smythe, T. Bell, J. Elliott, Tex Adams, A. Miller, A. Heinrich and Don Blagbourne.

A pleasant social evening was held when the brides became acquainted with the W.A. members, and refreshments were served.

LAKESIDE CHOIR IN SOCIAL EVENING

The Lakeside United Church Choir held a social evening and meeting in the ladies' parlor of the Lakeside United Church on Monday evening, Feb. 17.

Ways and means of raising funds for the coming year were discussed, but no definite conclusions arrived at.

Games were played during the evening and refreshments were served.

Fifty Millions On Roads Highlight Of Anscomb Budget

VICTORIA—In his first budget speech to the British Columbia legislature, Hon. Herbert Anscomb, minister of finance, disclosed policies of far-reaching importance including a public works program amounting to \$50,000,000, direct and indirect grants to municipalities of more than \$11,000,000, provision of more than \$15,000,000 to meet expanding social services, an estimated revenue for the coming year of \$59,000,000, which is \$12,700,000 in excess of the current fiscal year, a \$13,000,000 reduction in the net debt, appropriate provisions for the sinking fund made for the first time since 1932, and many other items of outstanding character.

Budget Highlights

(1) \$50,000,000 major public works program provided as follows: \$30,000,000 provided last year for major undertakings, \$15,000,000 to be provided in coming fiscal year out of revenue surplus, and \$5,000,000 to be borrowed specifically for bridges.

(2) \$2,250,000 for hard surfacing of roads ear-marked from 3c gasoline tax relinquished by dominion but retained by province.

(3) Current costs of highways, including charges for capital construction, total \$9,215,350. This sum absorbs practically whole of revenue accruing from basic tax on gasoline, net receipts from motor licences and motor carrier fees.

(4) Budget increases to \$6,000,000 the appropriations for maintenance of roads, bridges and ferries.

(5) Implementation of Goldenberg report involves additional expenditures of \$1,807,000 which, added to assistance given municipalities last year brings total aid up to \$4,328,000 during period of just two years.

(6) Municipalities to receive \$2,680,000 from government as reduction in cost of direct relief. Municipalities must apply those moneys, firstly, to reduce any outstanding relief loans secured from the treasury; secondly, to set up a retirement fund for the redemption of relief debts that have been funded; thirdly, to reduce sinking fund shortages and, fourthly, for capital purposes.

(7) Direct and indirect grants to municipalities during coming fiscal year, total \$11,267,000.

(8) Reduction in net debt will amount to \$13,324,000 by March 31st next, when net debt will total only \$119,324,000.

(9) Debt per capita will then amount to only \$117.33, a decrease of \$60.41, or 34%, since 1941.

(10) For first time since 1932, full amount of sinking fund instalments has been paid into the debt redemption fund during the current year. Similar payments provided for coming year. Need for appropriate debt retirement provisions stressed.

(11) Market value of sinking funds as at December 31, last, \$21,072,635.

(12) Revenue surplus of \$8,141,863 reported for year ended March 31, 1946.

(13) Current expenditures exceed main estimates by \$8,107,565.

(14) Revenue for first nine months of current fiscal year \$5,956,913, greater than like period of previous year.

(15) Ultimate total will more than take care of increased expenditures.

(16) Revenue for next fiscal year estimated at \$59,000,000, or \$12,700,000 more than revenue expected during current fiscal year.

(17) Expenditures for year ending March 31, 1948, estimated at \$58,781,840.

(18) Minister budgets for surplus of \$107,595.

(19) Appropriations of lands and forests departments increased by \$1,300,000 to \$4,137,000, enabling implementation of further policies with respect to sustained yield in forest industry and expansion of land settlement and other land projects.

(20) Appropriation for department of trade and industry increased 25% to expand tourist business and promote industrial expansion.

(21) \$10,131,000 appropriation for education meets expansion in this field of public service.

(22) Cost-of-living bonus to old-age pensioners will cost province \$1,000,000. Is temporary measure, minister states; pointing out this problem is essentially a federal responsibility.

(23) Minister of finance issued warning: Despite great increase in revenue, sum is barely sufficient to cover minimum demands upon provincial purse, "the elasticity of which is dependent not only on the willingness but the ability of the taxpayers to fill it and expand it."

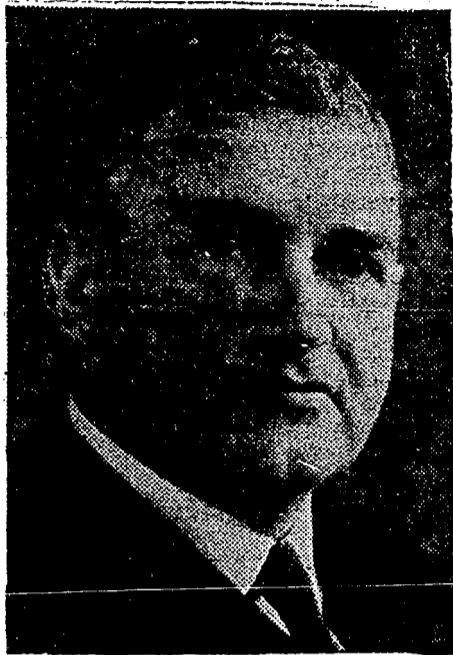

(24) \$15,045,800 appropriation for health, welfare, institutions, hospital grants, etc. Impact of advanced social measures felt by the treasury.

"Speaking on the expenditure program as a whole, Mr. Anscomb pointed out that some 10 years ago there were spent on agriculture, fisheries, lands, forests and mines, \$2,327,000, and for old-age pensions, mothers' allowances and indigent care, \$1,856,000. Next year, the comparison will be \$5,205,000 for departments entrusted with the development and protection of vital assets, and \$5,092,500 for social services just referred to.

When commenting on those

(Continued on Page 8)

MAIDEN BUDGET

HON. HERBERT ANSCOMB—who presented his first budget as minister of finance, to the B.C. Legislature yesterday.

Chlorination System Would Cost \$3,200

Cost of installing a chlorination unit for Summerland municipality was named at \$3,200 when the local council considered estimates supplied by Wallace and Tiernan, representing Shannah's Ltd., on Monday afternoon.

This system would have an automatic control which would vary the quantity of gas in the water according to the amount of flow. A cheaper system could be installed but there would be no guarantee that the taste of chlorination could be eliminated, it was stated.

At top capacity, about three million gallons of water would be treated, which would cost approximately \$1.25 per day. Three pounds of chlorine gas would be needed for every million gallons of water treated and the gas costs 14 cents per pound.

Besides the cost of installation, there would have to be erected a suitable house to store the equipment and ensure that it could be kept at a minimum temperature of 45 degrees.

The suggestion was made that the system could be installed at the reservoir meter and could be checked by the municipal employee taking the meter readings daily.

Electricity could be utilized there to provide the proper temperature for the room.

No decision was reached by the council on the probability that it can finance the purchase of this system for Summerland this year, but this cost may be included in the estimates for 1947.

IMPROVEMENTS TO CEMETERY PLAN

This evening, the AOTS club will discuss taking as one of its projects for 1947, the improving of the Peach Orchard cemetery.

This proposal is being advanced by E. H. Bennett who, with Rev. H. E. Whitmore, discussed the project with the Summerland council on Monday.

Mr. Bennett advocates work parties from the AOTS, cleaning and straightening the paths between the plots and will also urge families whose relatives are interred there to assist in fixing up the actual plots.

Reeve Powell considered that such a move on the part of the club would be welcomed by the council and suggested that the AOTS, if it decides on the project, should work with the parks committee of Councillors Eric Tait and F. E. Atkinson.

PASSES EXAM.

Frank E. Walden, formerly of Summerland, has passed his final exams and is now a chartered accountant, according to word received from the coast yesterday. He will remain in Vancouver and will be associated with Alex Reid.

Mrs. J. Darke was hostess at a quilting bee at her home on Wednesday afternoon, Feb. 26. There were eight women present.

Police Costs Increased By \$500 For 1947

Summerland municipality will pay \$508 more for its police protection this year in line with general increases being effected by provincial police authorities, municipalities throughout the province.

But the local council only agreed to pay this increase on the understanding that relief would be granted the local police official in February and March by the appointment of some person to handle the issuance of licences.

The original increase sought was some \$870, but the B.C. police agreed to the \$508 figure after consultation with Reeve W. R. Powell, it is stated.

Last Friday, B.C. Police Constable H. Cartmell was informed from Victoria that his request to Victoria for relief from issuing car and drivers' licences was forthcoming. Constable Cartmell had already issued about a quarter of the necessary licences for the district.

Mr. Lorne G. Perry was appointed by Victoria as the issuing officer for car and drivers' licences and since that time there has been a steady procession to Mr. Perry's office.

At press time, Mr. Perry indicated that the main rush is over and more than seventy-five per cent of the licences required in this district have been issued. Car owners are required to purchase their licences by tomorrow, Friday, Feb. 28, if they wish to operate their vehicles after that date.

CONSIDER SECOND TRUCK FOR FIRE PROTECTION HERE

In line with a 1946 council move, Summerland council on Monday evening considered the purchase for fire protection purposes, a 1930 Chevrolet truck from Pollock Motors, at a cost of \$754.35, including some \$191.35 for necessary repairs to put the truck in shape.

Late last year, at the instigation of members of the West Summerland fire protection group, council considered the purchase of a truck which could be equipped with a water storage tank and pump and which would be available for fire anywhere in the municipality.

It was pointed out then that, although the amount of water was not great, if the water could be sprayed with a fog nozzle before the fire took too great a hold, such equipment would prove invaluable and had been recommended as the best type of inexpensive equipment possible for such a situation as Summerland faces.

In December, the truck then available proved inadequate for the purpose and there has not been another truck produced for the task until this week. Fire Chief Ed Gould has recommended the Pollock Motors truck.

All 1946 council members were agreeable but would not take the necessary steps to make the purchase until the new council member, C. E. "Ned" Bentley, expressed his satisfaction with the deal. He asked for more time to consider the entire situation regarding the fire protection set-up in the municipality.

WANT TO KNOW ROAD LOCATION

W. A. C. Bennett, M.L.A. for South Okanagan, will be asked to let the local council know as soon as possible what plans the provincial government has for relocating the Okanagan highway from Peachland to Pentiction.

Such a relocation project was recommended by Mr. Bennett some months ago and the local municipal council officials would like to obtain some idea of the road's possible route so they can plan their own road program.

No official mention has been made locally as to the possible route, but some persons have been conjecturing that the highway may be taken by way of the sand hill.

As soon as the frost leaves the ground, all the municipal roads will be graded, it was stated on Monday, and Reeve Powell has recommended that the grader be employed steadily throughout the daylight hours in order to whip the roads into shape as soon as possible.

While the gravel pit machinery is undergoing repair for the busy season ahead, the local road crew has been hauling shale to make necessary fills throughout the municipal system, it was reported. The sand hill has also been graded in the past week.

LEN HILL Secretary

Box Factory Workers Get New Charter

On Monday evening, workers at the Summerland Box Co. who have applied for an AFL charter, after breaking away from the IWA-CIO, were presented with their new charter, which forms the West Summerland local union No. 2742 of the United Brotherhood of Carpenters and Joiners (AFL).

Twenty-six workers at the box factory have signed the charter application and are now admitted to membership, local officials state.

Mr. L. Burnell has been named president of the new local, with William Reid as vice-president, and Claude Haddrell as secretary-treasurer. A temporary executive of Charles Leamy, Frank Tilbe and Elmer Reid was selected but an official committee will be named later when more members are obtained.

The meeting was an orderly one and no attempt was made by IWA organizers to break into the meeting, as happened in Kelowna last week.

Mr. W. Page, Vancouver western representative of the UB of C and J, and Mr. W. J. Baker, Summerland, Okanagan representative, presented the charter to the West Summerland local on Monday.

Violence flared for the first time last week between members of the newly-formed Kelowna Lumber and Sawmill Workers' Union (AFL), and representatives of the IWA-CIO, when a public meeting was crashed by IWA members and it was necessary to call the police, empty the hall and turn out the lights before order could be restored.

Thursday morning, F. M. Fulton, business agent for the IWA, rushed out to Rutland and ordered the men off work at the Rutland Co-operative Society mill. The society directors had unanimously decided not to sign a working agreement with the IWA.

Result of this action by Fulton was that the men decided to go back to work and refused to follow Fulton's injunction that they had to go out on strike. Representatives of the new AFL setup visited the Rutland mill and the employees have applied for a charter for the new union rather than continue under IWA representation.

At the Kelowna meeting last (Continued on Page Four)

Summerland Council Makes Second Try To Equalize School Costs

Apportionment of school costs in District No. 15 will be made on 1946 assessments and not on the 1947 assessment roll, Summerland council learned to its surprise on Monday afternoon. Last week, the local council informed the school district that its 1947 assessment figures, for school purposes, would be \$2,088,529, which is the municipal assessment figure, less the value of commercial fruit trees.

On Monday, the council decided to continue its stand that trees should not be included, to place this municipality in line with Pentiction and the rural area. Consequently, Assessor Roy Angus was instructed to calculate the value of trees in the 1946 assessment and this reduced 1946 assessment figure was submitted last night to the Pentiction school district monthly meeting.

Victoria Ruling

P. G. Dodwell, local trustee, informed the council on Monday that School Inspector J. J. Burnett had obtained a ruling by telephone from the deputy minister of education, Col. Fairry, that the original estimate on 1947 assessment figures was not correct and the 1946 figures should have been taken.

This action occurred because 1947 estimates were not struck by February 15, when the school act, as instigated at the last session of the B.C. legislature, states that that estimates must be provided.

The apportionment of 1946 school costs was made on 1945 figures, Mr. Dodwell stated, and the school district never have considered 1947 figures for this year.

Further Raise

On the latest revision, Summerland will have to pay 23.45 per cent of the district school costs, which is a raise again from the figure of 26.228 per cent submitted by the school district. This latest figure is based on a Summerland assessment including the trees.

Mr. Dodwell suggested that the council might have to send a representative to Victoria before its stand will be justified by educational authorities.

He expressed the fear that if school costs to Summerland continue to rise as they have done in the past two years, then the by-law for improvements to the elementary school, to be submitted this spring, would not find favor with the voters.

Then there is the future by-law to provide a proper junior-senior high school for Summerland.

No Accommodation

"We'll have these by-laws turned down and have our children on the streets," he feared.

Another question of school district procedure was raised on Monday, when the council decided to query one item in the financial statement which was published in last week's Review. This showed that Pentiction municipality was credited with "assets of Old Pentiction School Board—\$7,989.20."

No assets from the old Summerland board were shown in the statement and Summerland council is asking for an explanation.

Pentiction municipal council has raised another question with the school district regarding the disposal of interest earned on the money set aside by by-law for new school buildings there. The school trustees have not proceeded with their planned building program and have invested the money raised by by-law. However, the interest is going into their building fund for future use.

Pentiction council claims these interest earnings should be devoted towards lowering of sinking fund and interest. On Monday, the local council agreed to this principle and is backing Pentiction in its stand.

The Summerland council has also laid over the school estimates for 1947 until its next meeting in view of Pentiction council's demand that they be revised to a lower scale.

G. Washington New Manager of Co-op House

George Washington, well-known Summerland man, has been appointed packing-house manager of the Summerland Co-operative Growers Assn., replacing Charles Stewart, who resigned this year to devote his time to orchard work.

Mr. Washington first joined the Summerland Co-op. in 1927 and worked there two or three years. He returned to the organization five years ago as dispatcher and later foreman. He takes over on Saturday, Mar. 1.

Mr. Stewart has been manager of the Co-op. for the past dozen years and was connected with the organization before then as packing foreman for some twenty years.

On Monday afternoon, the Summerland Co-op. staff gathered in the main office to say farewell and good luck to the man who has guided them over such a long period. They presented Mr. Stewart with a smoking set as a gesture of their appreciation for his able management over many years.

A tea was served following the presentation.

Mrs. Collas Horticultural Society Head

With more than fifty persons in attendance, the largest number ever indicating their interest, the annual general meeting of the Summerland Horticultural Society selected Mrs. M. E. Collas as its president for 1947, succeeding Mr. E. H. Bennett. The meeting was held in the Odd-fellows' hall on Wednesday, Feb. 19.

Dr. James Marshall has been chosen vice-president, with Don McLachlan as secretary, and Mrs. Magnus Tait as treasurer. The executive consists of Mrs. E. C. Bingham, W. Snow and E. H. Bennett.

In discussion at the meeting, it was learned that an interesting season's work is planned and the society is hoping to add to its numbers to make Summerland more flower-minded.

At the opening of the meeting an interesting film showing the gift shipment of bulbs from the people of Holland to Canada and the United States, was displayed. About 150,000 bulbs were included in this shipment and the film showed their unloading, planting and finally their ultimate bloom. Another film on gardens in Victoria aroused interest.

Chief speaker of the evening was Dr. James Marshall, who gave the members some interesting and educational data on roses and their culture.

Fred Schumann New Prexy of Trade Board

Fred W. Schumann, well-known Summerland insurance agent, was the unanimous choice of the Summerland Board of Trade as president for 1947, when the annual election of officers took place in the I.O.O.F. hall on Thursday evening, Feb. 20.

Mr. Schumann succeeds Reid Johnston as the head of this popular trade board, which claims to have the fourth largest membership of any board in B.C.

Along with Mr. Schumann, J. E. O'Mahony succeeds George Perry as vice-president; Len Hill

continues as secretary, and Reid Johnston will be the 1947 treasurer.

Executive members are Francis Stewart, George Henry, Joe McLachlan, E. R. Butler, Aart Advocate, C. V. Nesbitt, Gordon Beggs and J. R. "Tim" Armstrong.

S. A. MacDonald will continue as auditor.

President Schumann, Reid Johnston and Len Hill were chosen as delegates to the quarterly meeting of the southern interior associated boards of (Continued on Page 5)

School Problems

In this tangled skein of events, the problem confronting public-spirited citizens regarding the rising costs of education, together with the evident mix-up in implementing the Cameron report before complete study could be given to its ramifications in relation to the municipal act, has the ordinary taxpayer shaking his head and wondering dimly if the whole affair is worthwhile.

That the Cameron report is a sound document and, in theory, followed the proper trend for this province, is agreed upon by most authorities. The Goldenberg report was laudatory in its comments on Dr. Cameron's attempt to solve the rising costs of education.

But it is the implementation of the Cameron report in provincial legislation which is mainly at fault. That, plus the length of distance covered by some school districts, has caused much concern.

This week, in Summerland, we have the municipality wrestling with the problem of assessments. The Cameron report was based on some form of equalization of assessments as between municipalities and other areas in a school district. But there has been no attempt made to have an equalization and Summerland's attempt to bring its position in line with Penticton and the rural area is being frustrated by edicts of the department of education.

Firstly, School District No. 15 took an approximate figure of 1947 assessments on which to base the proportion Penticton, Summerland and the rural area would be called upon to budget for in 1947. When Summerland attempted to remove its trees from improvements assessments for school purposes, a ruling was obtained from Victoria and it was found that 1946 assessments should have been used.

But the trees were in the 1946 Summerland assessments, so the local municipality is submitting its 1946 assessment figures, for school purposes, to the Penticton school district, minus the assessed value of those trees.

This is merely an attempt by Summerland to obtain an assessment value in line with Penticton and the rural area, who do not assess trees, as such. It is an attempt to obtain a sound, working basis in line with the original intent of the Cameron report.

But the department of education may take an entirely different view and in the light of previous attempts which Summerland has made to obtain a hearing to its pleas, it is quite likely the department will turn a deaf ear again.

Peachland is also suffering from the Cameron report, according to its municipal council. It is being called upon to increase its levy for school purposes, by one-third.

Kelowna city was shocked to find its proposed school costs soaring by 72 per cent, or over \$30,000 over what was paid in 1946.

Penticton council, which has not been hit to nearly the same extent as Summerland by rising school costs, has tossed the 1947 estimates back into the lap of the school district for revision, if possible.

Throughout the entire province, municipalities are groaning under the increased school burden proposed for 1947. To a great extent, this increase has been caused by rising populations and the increase granted school teachers by boards of arbitration.

But where the "rub" occurs, is that there has been no attempt to equalize assessments in school districts and until some attempt along this line is made there will be injustices and inequalities, under the combined schools system.

Unless Summerland is allowed to bring its assessment figures into line with Penticton and the rural district, this municipality will be called upon to budget for nearly \$10,000 more than the council believes it should pay. And that amount would place this municipality in a critical position, indeed, in the light of expenditures for general improvements in other branches of municipal endeavors, mainly roads.

The trend toward more feminine clothes is best seen in the blouses this Spring with their tucks and fagotting. KAY DE MILLE adds a soft bow to the neckline of her white blouse to compliment dark dressmaker suits.

(From the files of The Summerland Review, February 2 and 9, 1917)

Thirty Years Ago

T. J. McAlpine has been appointed road superintendent for South Okanagan riding. Previously, this work for the entire Okanagan, south to Trout Creek, was carried out by Hamilton Lang, Vernon.

In 1916, there were 35 births and 12 deaths, three of whom were infants. Dr. F. W. Andrew, medical health officer, reports.

Irrigation rates payments have been advanced to May 1 so that the municipal council can finance bond coupon payments in that month.

The Summerland Conservative Assn. has decided to admit women members and reserve places on the executive for them. Mrs. F. W. Andrew was chosen third vice-president. Other officers elected were E. R. Simpson, president; R. V. Agur, first vice-president; W. C. W. Fosbery, second vice-president; J. A. Kirk, secretary; A. B. Elliott, treasurer.

A new organization, the United Farmers of British Columbia, is being formed locally, with R. H. Helmer and John Tait as tentative officers. This group is organized along similar lines to prairie groups and is for farmers only.

Over a period of ten years, average yearly rainfall has been 11.64 inches. Heaviest rainfall was in 1912, with 14.62 inches. January 1916, was the coldest month, with an average maximum of 26 degrees and an average minimum of zero.

First annual banquet of the Summerland Board of Trade was held on Wednesday, Feb. 7, at Hotel Summerland, with 72 guests present. Among the speakers were Professor McLean, department of animal husbandry, and Prof. P. A. Boving, agronomist, both of U.B.C.; J. W. Jones, M.L.A.; L. V. Rogers, Kelowna. Dr. Andrew was chairman and toastmaster.

A petition to the government asking for early completion of the Hope-Princeton road, is being prepared by the Princeton trade board and is being circulated in the southern interior.

An order-in-council has been passed authorizing the Corporation of Summerland to make further expenditures on the installation of electric lights.

School estimates call for an expenditure of \$7,200, this being \$100 more than in 1916.

S. M. Young is president of the Summerland Agricultural Assn., with H. Bristow, vice-president, and W. M. Wright, secretary-treasurer.

Twenty Years Ago

Feb. 4 and 11, 1927

One of the fifteen fruit representatives called to Victoria to assist the minister of agriculture in drawing up the marketing control bill states, in a special wire to the Review, that the Manson bill, favored by the government, would absolutely nullify the agreement reached between shippers and growers at the Kelowna convention.

The government has reluctantly agreed to amend the bill and make it workable," the report states. "For the first time, both associated and independents are standing firmly together. . . . Should the present bill pass, it will mean that the shipper will have no control over any phase of the marketing of his products except to meet any liabilities which might accrue."

Magnus Tait was elected manager of the Trout Creek Water Users, with a board of F. Gartrell, G. Morgan and J. Towgood.

R. H. English was chairman of the old-timers' banquet, with W. C. Kelley as guest speaker. Jack Logie spoke on the past history of the valley.

Denying emphatically the statement of Attorney-General A. Manson that he was organizing the Okanagan Valley, for which he received a fee of \$10,000 a year, Hon. S. F. Tolmie, M.P., leader of the B.C. Conservative party, addressed a meeting in Penticton.

A male voice choir is being organized by the Canadian Legion with F. Mosop as conductor.

Two hundred tons of ice were removed from the reservoir this winter, R. Mitchell reports.

High voltage, causing the burning out of lights, has been blamed on the West Kootenay by the council, who claim the power company is sidestepping its responsibility.

J. W. Jones, M.L.A., in a lengthy speech at Victoria, was caustic in his comments regarding the budget speech of the minister of finance, Hon. Dr. McLean.

LEASE SIMPSON LOTS

Gordon Mountford will be granted a lease for ten years at \$35 per year by the Summerland council, it was agreed on Monday, for the remaining portion of the old Simpson property. He wishes to extend his turkey business and requires the additional 85 acres.

The Inside Story

By AGROLOGIST

Growers sometimes ask why technical investigators repeat their experiences so many times; why they are so cautious in making practical recommendations; why, for instance, investigators at the Summerland Experimental Station have considered it necessary to conduct orchard fertilizer investigations over a period of twenty years. The answer is: trained scientists know that a great deal of repetition is required to ensure accuracy in the results secured from experiments.

Repetition is especially important when experiments are being conducted with living materials because of the inherent variability of such material. No two cows are identical even though they may have exactly the same ancestry. There are small differences in structure and behaviour of any two plants, even though they may be of the same variety. Agricultural investigators take special precautions to reduce this natural variability in the experimental material with which they work. For instance, they may propagate all the plants to be used in a certain test from cuttings taken from one individual plant. However, even when such care has been taken to promote uniformity in material, experience has shown that it is still necessary to include several individual plants in each plot.

Then, again, the plots must be replicated, for it has been found that small variations in soil or other environmental conditions often have an important influence on the results secured. It is for this reason that experiments are commonly run in triplicate.

Investigators have also found that seasonal weather conditions often affect the results of experiments to a very marked degree. Accordingly, it is considered advisable to repeat many experiments every year for a period of several years.

Repetition of experiments takes time and space and labor, but it is essential in order to ensure reliability in the results secured. Accordingly, farmers must learn to be patient with the investigators who are endeavoring to solve agricultural problems. These scientists are well trained. They know their job. Given the necessary time and facilities they can be counted on to produce results of great practical value to the man on the land.

Nine Hundred Books Circulated In Month

There were fourteen new adult registrations and eleven new juvenile, at the local branch of the Okanagan Union Library in January, with a total of 900 books being circulated. These books were divided into 140 non-fiction, 521 fiction, and 230 juvenile.

On Monday afternoon, the Summerland council agreed to the library estimates as submitted, indicating that Summerland's share of the cost will be \$1,250 in 1947, an increase of over \$200, as the expense to this municipality in 1946 was \$1,052.

Summerland's population was set at 2,500, and the library fee works out at 50 cents per person.

New books sent to the Summerland library this month include: White Man, Peter Froucher; Night of Decision, Mrs. D. F. Grant; (The) Dim View, Basil Hoatter; That Skipper From Stonington, Theda Kenyon; Eat—and Reduce, V. H. Lindlahr; Holdfast Gaines, O. and W. Shepard; Moonrise, Theodore Strauss; Liberator, Wesley Townor; Middle-aged Man on the Flying Trapeze, James Thurber; Billy Potter, D. E. A. Wallace; Cloudy Tropics, Mrs. A. G. Winslow.

It was with pride that the women of Summerland learned last week that the highest honor of the year, the Reid Johnston Good Citizen cup had been awarded to this popular matron of the community, Vi Elliott.

There is little that can be written about Mrs. Elliott, or Vi, as she is usually called by her many friends and club associates, as the women of the district are familiar with her history, her fine family and her useful activities.

As a leader, either past or present, in most of the main clubs, lodges, etc., in Summerland, Mrs. Elliott represents the women who comprise all those organizations. In every club there must be members who do their best in a quiet manner for the cause they believe in so sincerely. Without these members the organization could not function. But they also need a leader. And the job of this leader is often the most difficult job of all. To see that all the branches and committees function smoothly, to be ever alert and on call, and greatest of all, to accept the responsibility for mistakes beyond their control is often a difficult and thankless job.

And so, at last a little glory comes to one of these hard-working leaders in community activities, and through her to her fellow club members, without whose aid, as Mrs. Elliott stated when she accepted the tribute, none of her work could be accomplished.

But Mrs. Elliott embraces humanity as a whole in her desire to help her fellow-man. Her scope of activities stretches beyond the community, and her greatest work has been for the Canadian Red Cross, of which she is now president of the Summerland branch. In her interest in the Red Cross, Mrs. Elliott expresses the broad-minded view of the modern woman, who sees the world beyond her hills or home, and feels compassion and love for suffering humanity, regardless of the petty differences of race, creed or color.

But the significant point in the awarding of this cup to Mrs. Elliott is the fact that it denotes the appreciation felt by local citizens for the worthy work of the women's organizations of the community.

This is the second time that this cup has been awarded to a woman. It was won in 1940 by Mrs. D. O. Solly, who has been a leader in the community for many years. There are a great many of these women who show the qualities of leadership in Summerland, and we hope that to them, some year in the near future, will come such a recognized award for their truly fine work.

From the many opinions I have heard expressed on the winning of the cup by Mrs. Elliott, I am sure that all the folks of Summerland feel that she is the most worthy winner who could be selected for this tribute. Orchids to you, Vi, from the women of Summerland and from THE FEMININE FRONT.

Board Supports Agrologists Act

Faced with an opposition resolution from Sidney Chamber of Commerce, Summerland Board of Trade on Thursday evening placed its stamp of approval on the legislation being proposed by the provincial legislature regarding agrologists.

The Sidney chamber was highly frightened of the trend of agriculture and claimed that such an act would restrict free enterprise and give too much power to a minority group. It would ultimately result in a type of fascism, was Sidney's claim.

However, Dr. H. R. McLarty, plan, pathologist head, and Dr. R. C. Palmer, experimental station superintendent, explained the fundamentals of the proposed legislation and paved the way for a favorable trend from the local board.

"This is a movement on the part of technical agriculturists that all those earning their living by giving out information on agriculture must be qualified," explained Dr. McLarty, who considered the movement a sound one.

Dr. Palmer stated that the Sidney resolution reads a lot of opinions into the legislation which were never intended. The act is made for the service of the man on the land, he declared.

The resolution passed unanimously by the trade board follows:

"Whereas, the purpose of the proposed act respecting agrologists is to improve the status and prestige of all those engaged in agriculture, and whereas, the welfare of the public is adequately safeguarded in the proposed act, "Be it resolved that this meeting of the Summerland Board of Trade endorses the general principles embodied in the proposed act."

REVISE CATTLE GUARD

Request that the provincial plan for a cattle guard on Shingle Creek road be revised, was made to the Summerland council on Monday by Water

Foreman E. McKercher. Necessary permission will be sought from assistant district engineer H. W. Stevens, as the planned cattle-guard will not keep out the cattle.

HASTINGS STREET

WHAT FOUR-YEAR-OLD CRAIG CAMERON, of Chicago, is warning his sister, Chere, two, about is not to go climbing into strange things. While playing with a young cousin with whom his family was visiting, Craig climbed into an empty locker. The lid snapped shut and Craig nearly smothered to death before a passing truck driver managed to pry the lid open. "Never do what I did," Craig advises his sister as he waves a warning finger.

Few Alterations Made By Court of Revision On Assessment Roll

Only slight changes were made in the 1947 assessment roll when the municipal council met on Saturday, Feb. 8, as a court of revision. All council members, except Councillor H. L. Wilson, who was appealing his assessment, were members of the court, with Reeve W. R. Powell as chairman. In general discussion on the assessment, Roy F. Angus, the new assessor, stated that he considered a good deal of levelling off had been accomplished in the latest roll.

Gone Into Houses

"I have gone into every house I could get into and examined them carefully," declared the municipal assessor. "One house

was valued for assessment purposes at \$1,800, but was put down to \$200 as it is about ready to fall down. Some old houses are in excellent shape and some ready to fall to pieces."

It was pointed out that assessments could not be based on the possible revenue to be derived therefrom, but in the case of marginal land it was Reeve Powell's contention that the capacity of land to produce must be considered and it must reach a figure where the owner could stay on the land.

Councillor Wilson's first application was for a reduction on Block 8, D.L. 675, which was affected last fall by the mysterious subterranean stream flowing from the bottom of his property. He stated that a portion of his land and 25 trees have been lost by action of the stream endangering the side of the hill above.

The assessment figure was \$200 before, but the court deemed this figure was too low, and refused the application for lowering the assessment because of loss of trees.

On a second application for Block 11, D.L. 675, where an acre of trees had been removed, Councillor Wilson obtained a reduction in improvement assessment from \$200 to \$50 on trees alone.

Seepage Water

F. G. Haddrell successfully appealed improvements assessment on one portion of his Prairie Valley holding, which has deteriorated because of seepage water. The figure in this case was reduced from \$600 to \$300. Assessor Angus agreed to this reduction and his recommendation was accepted by the court.

D. W. McLachlan, who operates greenhouses in the West Summerland business district, considered that orchard property and greenhouses should not be assessed the same, as he found his assessment the same as a 10-acre orchard, whereas gross revenues are far different.

On one greenhouse, Mr. McLachlan was granted a lowering of improvements assessment from \$1,000 to \$700 and on the other

a decrease from \$1,200 to \$800 was allowed.

Major Tweedy was successful in his application to have one acre of land reclassified as wild land. This is Lot 22, D.L. 476, Map 219.

Why Tax Raise?

Channon Snow appeared before the court to obtain information as to why his taxes had increased from \$19.05 in 1945, to \$47.45 in 1946. He stated his house, although a large one, is quite old and needs many repairs. For improvements assessment the house value was placed at \$2,700.

It was pointed out to Mr. Snow that there had been no increase in his improvements assessment, but last year improvements had become taxable for the first time, thus creating the increase in taxes payable.

Fred Lenzi sought a decrease in his improvements assessment but the roll was sustained by the court. He had no quarrel with the assessment on land, he said, which is \$1,700 for 8.3 acres, but he queried the increase from \$1,200 to \$2,200 on improvements.

Assessor Angus explained that Mr. Lenzi has two houses, three sheds and a barn on his property and he had considered the assessment on these structures too low at \$1,200.

"We are trying to get a fair value on your property in relation to other comparative properties," Reeve Powell explained to Mr. Lenzi.

PEACHLAND IS SHOCKED BY INCREASE AT PEACHLAND DAY OF PRAYER

PEACHLAND — The World's Day of Prayer was observed at Peachland on Friday afternoon, with a good attendance at the Anglican church. Service was assisted by Mrs. Wheatly and Mrs. J. C. Witt, and others. A splendid address on prayer and missions was given by Mrs. Gertrude, president of the Mission Circle. The silver collection was over ten dollars.

Regular meeting of the W.C.T.U. was held at the home of Mrs. Elliott with Mrs. P. E. Dordland visiting again from Penticon. Ten members were present. One new member was added, making a total membership of fifteen. Mrs. Elliott was chosen as delegate to the convention, to be held in Penticon. After the regular business was transacted, the hostess served a daily tea.

Last week, the Women's Institute sponsored a bridge party in aid of the Kelowna hospital. A hand-made wax table centre piece was sold at the close of the evening, realizing a tidy sum. Mrs. Elliott is a visitor here over the week-end. Mrs. P. E. Dordland, who is now residing in Penticon, was a visitor here over the week-end. Mrs. C. C. Heighway is a visitor to Vancouver this week.

Mrs. Gertrude took charge of the junior high school recently in the absence through illness of Miss Jeseke.

Mr. Maurice Welsh, of the Kelowna school meeting and has to stay overnight at an hotel. Besides the added financial burden, Peachland council points out that its area is also threatened with the loss of its high school, which it has operated since the formation of a Peachland school board.

The new Kelowna district has recommended that a new high school be set up at Westbank to take in all high school students on the west side of Okanagan lake from Peachland to Bear Creek.

"The fees and council are of the opinion that these educational costs are comparable with the assurances received that under normal conditions, costs of education would be reduced (to the district)," declares the Peachland letter.

"There is no local reason for this tremendous increase in the amount (\$4,825) required from Peachland for the 1947-48 school period. This demand is, therefore, staggering in view of the talk regarding reduced educational costs for this municipality."

Estimates for school costs in Peachland have mounted steadily since 1942, with the exception of last year, but the levy on taxation has shown a big jump in the last three years.

Here are the comparative figures:

Year	Bathmaton Levy
1947	\$4,825
1946	\$7,286
1945	8,611
1944	7,781
1943	8,214
1942	8,588
1941	8,045
1940	4,700
1939	2,480

Back in 1942, there were three teachers in the Peachland school.

ST. JOHN FUND NEARS \$300 MARK

Appeal of the St. John Ambulance Assn. to raise one million dollars in Canada to finance its worthwhile objectives, has been extended another week, and will conclude on Saturday, March 1. Treasurer of the local appeal, H. E. Woodford, stated yesterday that \$280.50 had been collected from local citizens, organizations and business firms. This is not the final figure, as it is known that some organizations have voted moneys but they had not been received by the treasurer at press time.

THIRD HOOP TEAM BEATEN

Summerland's last chance at an interior playoff berth went west last Saturday at the local gym when the Pentiction intermediate B's handed the local Chiefs a 50-19 trouncing to take the first round of the cage players by the big total of 102-44.

Pentiction at home had amassed an impressive 52-25 lead and there was never much doubt about the final outcome. However, from a spectator standpoint, Pentiction put on a display of ball handling and shooting which was quite impressive and the local witnesses on Saturday are betting that the Pentiction team will be a hard one to defeat in the finals.

Ashley and Russell were the outstanding scorers for the visitors, while Don Nesbitt and Dunham were the big shots on the Chiefs' outfit.

In the preliminary contest, Kelowna Cobras had a narrow margin of victory over the Summerland Legion juniors, 23-21. It was an exciting tussle which had the spectators guessing to the final whistle what the outcome would be. Kato was high scorer or the Legion lads and Ryder topped the Cobras' thrusters.

Teams line up as follows: Kelowna Cobras: Giordano 4, Ryder 10, Lansdowne 3, Kane 4, Appleton, Newcombe, Hill 2—23. Summerland Legion: Cristante 3, Kita 3, Elliott 2, Jomori 2, Turnbull, Hack 3, Kato 6, Fleming 2—21.

Socially Speaking

Social Editor : Muriel Hurry

Mrs. Fred Schumann and Miss Eileen Inglis returned yesterday, Wednesday, from Saltcoats, Sask., where they have been visiting for the past three weeks.

A daughter was born at the Summerland hospital on Tuesday, Feb. 25, to Mr. and Mrs. Wm. Strachan.

Mrs. Norah Gee and her son, Garry, who have been spending an extended visit at the home of Mrs. Gee's brother-in-law and sister, Mr. and Mrs. Lloyd E. Johnson, Paradise Valley, left on Thursday night, Feb. 20, for Vancouver, where they will reside in future.

Mr. Jacob Ganzefeld who, with his wife and family, have been visiting in Summerland for some time, has purchased the Louis Desrosier orchard and residence, and will take possession in the near future.

Mrs. D. L. Milne returned on Sunday from a week's visit to Vancouver.

Dr. and Mrs. L. A. Day have returned from Vancouver, where Dr. Day was receiving treatment in the Shaughnessy Military hospital.

Mr. and Mrs. George Watt, who have been visiting in Vancouver at the home of their son, George Watt, Jr., are expected to return to Summerland at the end of this week.

Mrs. H. B. Mair is visiting this month at Vancouver, a guest of Mrs. F. P. Patterson. She will also visit, while at the coast, her son-in-law and daughter, Mr. and Mrs. D. H. Millward.

Mrs. Alice Peterson and daughter, Shari, returned on Monday from a visit to New Westminster.

Mr. John Sheskey is visiting at Rimby, Alta., where his parents have been in ill health.

Mr. A. J. Taylor, of Salmon Arm, was a week-end visitor with his daughters, Miss Flo Taylor and Mrs. W. Strachan.

Mrs. U. Guidi, of Kelowna, has been a guest at the home of Mr. and Mrs. C. Guidi.

Miss Sally Wilson entertained ten little guests at a party on Tuesday afternoon, Feb. 18, in honor of her fourth birthday.

Mr. and Mrs. F. Goldsbury, of Okanagan Falls, were visitors at the week-end at the home of Mr. and Mrs. A. Hurry.

Mr. H. Pilkington returned on Tuesday from a visit with his mother in New Westminster.

F. Schumann

(Continued from Page 1) trade gathering at Okanagan Falls last night.

A donation of \$25 was voted last Thursday to the St. John Ambulance drive, this amount being in line with other donations to worthy causes which have been made in the past year.

Vernon Board of Trade has drawn attention to its industrial exposition, which will be held from June 3 to 7, at the army camp. This is the first exposition of its kind ever held in the Okanagan and exhibits and displays from Summerland are being requested.

No action was taken by the local board on a resolution submitted by the Okanagan and main line associated trade boards pointing out the danger of an influx of Japanese into central B.C. with the removal of wartime restrictions. The associated group wished to press Ottawa for legislation to prevent such an influx, but no support was forthcoming from the Summerland gathering.

A suggestion from the Fraser Valley boards of trade that an annual conference of trade board secretaries be instituted at some central B.C. point met with local favor and the Summerland board will support any such effort.

The new executive was asked by G. E. Woolliams to consider working on a zoning by-law for this municipality. The trade board was active in introducing

the building by-law, which was put into force last season and he considered that the next logical step would be the appointment of a committee to study town planning. The meeting agreed with the suggestion.

A lengthy document from the B.C. Automobile Assn. protested the continuance of the three-cent per gallon gasoline tax imposed during the war, and especially complained about the high cost of vehicle licences. Support of the Summerland board was given these protests.

Swinging Into A New Season!

"If you want to delight your soul and fill your heart with joy" — just see the display in the

Groceteria

window this week-end.

On Saturday, we will show a number of fine, husky Baby Chicks (lively ones, too), in various colors. You will get a kick out of watching them. The point we want to impress you with is what to feed them and the amazing reasonableness of the prices of MIRACLE and BUCKERFIELD'S Mashers at this store, and Baby Chick Supplies from the Westmore Poultry Products.

WE INVITE YOU TO COME IN AND TALK IT OVER

F. W. SCHUMANN JOINS SENIOR PRODUCTION CLUB

F. W. Schumann has gained admittance to the Production club of the Manufacturers Life Assurance Co., after writing \$200,000 paid-up insurance in 1946, Mr. J. Sherratt, B.C. manager, announced this week.

Mr. Schumann had obtained membership to six junior clubs in the past, but this is the first occasion he has gained senior membership. He has been consistently on the company's honor roll for the past four years.

This well-known Summerland man is starting his 10th year with the Manufacturers Life and in 1946 ranked fourth among B.C. salesmen operating from the Vancouver office. This territory includes all of B.C. with the exception of Vancouver Island.

Prisoner Will Return Soon

Friends in the South Okanagan will be interested to learn that David Heggie, who resided in Penticton during the 1930's, is returning to that town from Siam.

During the war years, Mr. Heggie was a prisoner-of-war in a Japanese camp. While imprisoned, no word was received in the Okanagan of his whereabouts, and it was feared that he had been killed or had died in the Far East.

Mr. Heggie left Penticton about 1937 and went to Siam. His return was announced last week by Judge M. M. Colquhoun, Penticton, who has been Mr. Heggie's legal adviser for many years.

No word regarding the treatment he received while a prisoner of the Japanese has been received by Judge Colquhoun, but the latter believes that Mr. Heggie is in good health now.

SKEET RANGE SOUGHT

If the land has not already been rented to the Meadow Valley Stock Assn., Summerland council agreed on Monday to lease ten acres in upper Prairie Valley, near the apple dump, to the Summerland Skeet club as a range. The club declared its willingness to pay \$15 per year for a lease of the land but wished to have more than a year-to-year lease. Dr. L. A. Day and Sandy Munn were the club's delegation to the council.

Approval was given by Summerland council on Monday to an application by Miss C. V. Rogers for irrigation sprinkling.

W. A. C. Bennett Is Outspoken Before Provincial House

Following is the text of the speech in the B.C. Legislature on Friday, Feb. 14, by W. A. C. Bennett, M.L.A. for South Okanagan.

"Without doubt the most important matter coming before the House this session is the much heralded and much debated federal-provincial agreement.

"I am sure that the thanks of all the members of the House irrespective of party as well as every citizen of the province of British Columbia, go to the premier for his tireless efforts and singleness of purpose in sticking to this vitally important matter until a satisfactory formula was agreed upon.

"This agreement will financially help both the province and the dominion as well as every taxpayer in the province. This agreement now points the way for further co-operation between the two governments and should result in the very near future in increased old age pensions without the 'means test' payable at a younger age, national health insurance and other social services, a federal plan of public investments, on highway, reforestation and irrigation projects.

"I do not hesitate to say that any mix-up or misunderstandings with the other provinces regarding the British Columbia agreement, and there have been many, were not the fault of our premier, but due entirely to the lack of understanding and the unfortunate approach by the federal government to this question. It is difficult to understand the mind of the federal government in making its original offer to the provinces of a set amount per capita in all provinces in exchange for the provinces vacating the income and corporation tax fields for a period of years.

"No such formula was agreed upon in the 1941-42 wartime agreement. Then each province received, in lieu of income and corporation taxes, the amount which each province collected in the year previous, which amounted to \$12,048,000 to the British Columbia government, or approximately \$14 per capita on the then population of 818,000, while my native province of New Brunswick, which has objected so strongly to the British Columbia time agreement received in the wartime agreement, \$2,450,000.00 on a then population of 457,000 people, or less than \$5.50 per capita.

"The same was true in respect of all the provinces to a greater or lesser degree. The provinces of New Brunswick, Nova Scotia, Manitoba and Saskatchewan did not object then. Why then did they object to the present British Columbia agreement?

"I believe it is clear that the objections by these provinces was due to the unsound offer made by the federal government of a straight \$15 per capita to all provinces. This approach has been admitted as being unsound by the federal government as the

present formula offered all the provinces takes into account other vital factors besides the population.

"I hold that the federal government should have foreseen this situation, and if they had, and if they had not blundered, I believe an agreement would have now been made with all the provinces in Canada, and the cause of Canadian unity would have been strengthened instead of weakened as it has been by the indefensible policy of the federal government in playing province against province.

Highway Commission
"I am pleased to note by the speech from the throne that the department of public works will be spending many millions more of much needed dollars on our public highways than we have ever spent before. I think that the amount mentioned by the minister in his recent speeches throughout the province was approximately \$17,000,000 for this next years expenditure. This is a large amount of money, all of which is certainly required. However, Mr. Speaker, the members of this House and the citizens of our province are going to be disappointed if there is just going to be a continuance of the highway policy of the past, of doing a little work in the different constituencies.

"We are now well advanced into the post-war period. During the war the public works department formulated and presented a comprehensive plan of capital expenditure for highway construction and reconstruction of \$210,257,700, this work to be done over a period of years. Since the war has now been finished for a year and a half, I now call upon the government for a definite statement as to whether it intends to carry out this plan.

"With this province collecting from now on a ten cents per gallon gasoline tax and with the extremely high car licences, both of which will bring in ever-increasing revenues to the treasury, this plan can now be financed and the people of the province will hold the government to account if it does not carry out its own plan.

Reorganize Dept.
Mr. Speaker, the department of public works, is blessed with a good minister and one who is highly thought of throughout the length and breadth of the province, and he has a few extremely capable men under him, and I am satisfied that they have done their best for the highways of the province against terrific odds, but I say that now the whole department of public works should be recognized, and the government should establish a straight department of highways, as too much of the time of the highway board has been taken up with plans or government buildings and other matters which have nothing to do with the building of highways.

"The present so-called highway board was all right for the war period, but the citizens of the province now expect a genuine Highway Commission to plan and carry out the necessary extensive post-war highway projects. This department will be 'big business,' the most important in the government, and real salaries must be paid if we are to secure the highly qualified engineers that will be required.

"When this government wanted a job done, on the power question in this province, they did not hesitate to set up the B.C. Power Commission with suitable authority and with proper salaries, and I say that the department of highways is just as impor-

tant as the power commission and will be spending a lot more money.

"I call again on the government to immediately set up a genuine Highway Commission.

Education
"Another important question affecting the people of the province at the present time is the question of education. I refer to the university.

"I believe that the members of this House, rightly or wrongly understood that a new faculty of medicine would be established in the immediate post-war period at our university, and our citizens throughout the province, to say the least, are disappointed that no definite action has yet been taken on this important matter.

"I trust that the government will give a definite statement to this House on this question as differences of opinion seem to exist as to what is causing the delay. I note a Vancouver daily newspaper on Friday, January 31st, 1947, quotes the president of the university, Dr. MacKenzie, as saying, and I quote: 'Just as soon as the people in British Columbia feel they can provide the means for a good medical school, those of us at the university will be most happy to do our utmost to bring this about.'

"From the president's remarks I would take it that the delay is caused due to finances, but the matter is so important that it should be clarified by the government as I am sure that the great majority of the people throughout the province are very anxious to have the medical school established at the earliest possible moment.

Cameron Report
"Last year, following Dr. Cameron's Report, this House dealt with an act to amend the 'Public Schools Act.' Some of us in the House last session advocated that the government should only establish the financial portions of Dr. Cameron's recommendations at that time and leave the setting up of the larger school districts until another year when further enquiry could be made and meetings could be held, as recommended by Dr. Cameron himself

in his recommendation No. 2 and I quote: 'That the largest plan of the organization to be put into effect, be arrived at only after much public discussion and the gathering and weighing of all possible opinions.'

"Neither the advice of the members of the House or the definite recommendation of Dr. Cameron was followed by the ministry or the government, and these large districts have been formed with the result that instead of the government getting credit for setting up the larger districts, which to my mind are a good thing when properly constituted, the government is being blamed on every hand, and it is, I think without doubt the most unpopular measure which the government has put into effect since the coalition government was formed in 1941.

"I ask the government to have a further impartial survey made of these districts to see what further changes should be made as to the districts themselves and as to whether financial responsibility of the government through its grants should be further extended.

"I am not going to go into a lot of details and figures but I do want to point out to this House what has happened in Kelowna School District No. 23, which takes in the territory in the Okanagan Valley from Oyama to Peachland.

"I give the example first of a small municipality in that district—Peachland: On May 3rd last year, the department esti-

When Your Motor Oil Takes a Turkish Bath

Did you realize that your car engine is actually subjected to a Turkish bath every time you run it? For every gallon of gasoline it burns, your engine manufactures about a gallon of water (in the form of water vapor or steam).

Under similar laboratory treatment in the above cabinet, even the best uncompounded oil couldn't keep the metal strip on the right from rusting. See how the RPM Compounded Motor Oil has kept the other strip shiny even after 5 days in the same humidity cabinet? This special compound "weds" RPM Motor Oil and metal surfaces, keeping a protective oil film on engines under intense heat or even when they're idle for days.

RPM Motor Oil makes your miles trouble-free. Make it a habit to stop at your nearest STANDARD DEALER.

Application of the Summerland Retail Merchants' Assn. for consideration by the council of special window-lighting rate, has been laid over until the council goes further into its deal with the West Kootenay Power and Light Co.

OBTAIN ESTIMATE

Estimates are to be obtained on the cost of replacing domestic water pipe on Beach avenue, in lower town. If the council can finance the project, it was recommended on Monday that the entire length be replaced this year.

W. A. C. Bennett

(Continued from Page 6)
mated the annual cost to Peachland would be from \$1,350 to \$1,500, whereas the 1947 budget estimates Peachland's cost at \$4,582.29.

Local School Costs

"To show that this is not an isolated case, I will give you the complete comparative figures of the whole district: In May, 1946, the department stated that the total cost of operating this school district No. 23, would be approximately \$175,000; the estimated government grant, \$125,000; and the local cost to be raised by taxes, \$50,000.

"Now school costs have advanced so much apparently since the Cameron report and the department's statement last year, that the 1947 budget for the Kelowna School District amounts, not to \$175,000, but to \$314,277, and the basic government grant \$131,656, leaving a balance to be raised by local taxes of \$155,343, instead of the estimated amount of last year of \$50,000, or over three times as much.

"These figures I feel should very clearly show that the basic standard as outlined by the 'Amendment of the Public Schools Act' passed last year is now obsolete and completely out of date, and I ask that the government immediately consider not just a few amendments to this act, because I am sure that many amendments will come before this House this session as apparently it was framed in such haste, but completely redraft the basic standard to be more in line with the actual standard now existing in the province.

Irrigation

"We had quite a debate last session regarding irrigation and irrigation costs in the province and what proportion of these costs should be charged to the land itself, and what proportion should be paid for by the federal and provincial governments. I am very happy indeed that the minister of agriculture has announced that an agreement has been made with the federal department of agriculture so that the 'Prairie Farm Rehabilitation Act' will be made applicable to British Columbia.

"Ever since I became a member of this House in 1914, I have continually stressed the importance of this government bringing pressure on Ottawa to have this action brought about, and the post-war rehabilitation council made a similar recommendation in its report.

Match Federal Grant

"Now that the federal government is taking a broader view regarding irrigation in British Columbia, I trust that this government will also be more sympathetic with not only the past problems of the irrigation districts, but new development as well.

"I believe that many of the agreements entered into by the federal 'Prairie Farm Rehabilitation Act' with the prairie provinces, were based on a three-way arrangement: that a portion of

the cost, say, one-third, would be stood by the federal government, a third by the provincial government and a third by the land itself. I hope that at this session the government will vote a sum of money to match the federal dollars for this important work, and for that reason and many others, I again repeat what I said last session, that it is my considered opinion that the Water Rights Branch should be transferred from the Department of Lands to the Department of Agriculture.

B.C. Power Commission

"A few years ago this government, to its lasting credit, set up the B.C. Power Commission, and in spite of shortage of materials this commission has made splendid headway and deserves a lot of credit.

"I hope that the government this session will outline further plans for the extension of the power commission's operations and that a sum of money voted in line with section 100 of the act setting up the commission, so that rural lines might be built and extended without too high costs or electric power in the agricultural communities, along the plan which has long been followed in Ontario by the Hydro-Electric Commission there.

Elections Act

"Many rumors and press despatches have been going about in recent months regarding proposed changes in the 'Election Act,' and while, no doubt, the members of the House will have ample opportunity to discuss this matter very fully later in the session, yet at this time I want to say that I am opposed to the suggestion of compulsory voting or compulsory registration with every citizen receiving a number. Both of these actions would be undemocratic in peacetime, but I would suggest that everyone who is not on the voters' list at the time of an election, he or she be allowed to vote if they take a declaration under oath.

"Also I believe the 'Elections Act' should be amended so that no member would be elected by a minority in any constituency. I believe that we should do away completely with dual and multiple constituencies as it is unfair that any citizen should have more than one representative in this legislature. Therefore, I suggest that a redistribution bill be brought down setting up single seats in the cities as well as the rural areas and also that we establish the principle of the single transferable vote.

Liquor Problem

"The liquor problem has long been a great social question and there have been many attempts made in many countries to find a solution. I hold that there is no easy solution and that a change here and a change there will not be found to be a final method of handling this matter.

"We tried prohibition and in the minds of the majority it was not a success. We have now tried out for a number of years a system of government control with local option, which, while not being perfect, has worked even under periods of difficulty quite successfully, and I believe that before any further changes are made in the 'Liquor Act,' a Royal commission should be appointed to go into this whole question very thoroughly, dealing with the manner in which the Liquor Board is handled, the Orders-in-Council passed by the government setting the prices and methods of purchase, licences to beer parlors, the conditions of the beer parlors themselves, and the other services rendered by the hotels who secure licences, such as the dining-rooms and sleeping rooms, etc., and their standards.

"The matter should be thoroughly investigated of what effect the liquor business has on the government and the political parties of our province, as to whether or not funds for political purposes are donated to the parties or individuals for political purposes; the whole question of advertising of whether any advertising should be permitted of alcoholic beverages when the government has a policy of control.

"The commission should look into the question of whether or not the government has been more interested in extending the sale and thereby the profits of liquor or whether proper attention has been given to real control of the sale. The government today, both federal and provincial, receives enormous revenue from this business, each government receiving approximately 40 per cent of the selling price, and I believe a portion of this money should be used for educational purposes both in our schools and in adult education as to the dangers and ill effects of the excess use of alcohol.

"Coalition Government
"Many thoughtful people in this province of all political parties are wondering whether this coalition government is directing its course. There are some, myself included, who felt that this government, while being far from perfect, yet was a big improvement on the types of government we have had heretofore in this province and that the coalition government should have a permanent organization on a democratic basis so that it could plan

for policies for many years in advance.

"Unfortunately, I think the present leaders of Liberal and Progressive Conservative parties in this province take another view, that is, that this government was constituted only for the war and now that the war is over, the coalition government is only operating to meet the threat of the C.C.F. socialist party. On this point the citizens of the province, who are very interested in what type of government they are going to have, would like a definite statement at this session by the premier himself.

Hart to Senate

"If the present coalition government is in existence at the present only to meet the threat of the C.C.F. then this is a very negative policy and is certainly built on sand, and one does not need to be a prophet to see that the government will collapse.

"There are many rumors that the present premier will be going to the senate, and the vacancy still left in B.C. representations in the senate adds a lot of color to the rumor. I, of course, agree that the right of choice should be the premier's and no one I am sure would oppose his right to decide as he thinks best, but that does not stop the thinking people of this province wondering as to what will happen to their government if this situation comes about.

"This government less than two years ago, received overwhelming support from the electors and I believe they are entitled to a definite statement from the leader of the government at this time as the reason which has been mentioned for the continuation of this government, that is, the threat of the C.C.F., ceases to be a real reason today since it is very clear that there has been a tremendous swing of political thought on the whole North American continent to the immediate right of centre.

"This government and the coalition movement is today at the crossroads and the people are asking, 'Whither is it directing its course?'

EXPANSION SHOWN IN YEARLY REPORT GREAT-WEST LIFE

New protection placed in force under insurance and annuity policies aggregated \$173,345,000 on the lives of over 50,000 men, women and children in Canada and the United States, the annual report of the Great-West Life Assurance Co. indicates. This exceeds by \$52,000,000 the amount of new business placed in 1945.

Lorne Perry represents this company in West Summerland. A billion dollars of business in force was a notable milestone passed in 1946. Commencing the year with \$924,233,000, the billion-dollar mark was reached in July, and at the close of the year the total had grown to \$1,057,721,000.

Payments to policy-holders and beneficiaries totalling \$17,625,000 were distributed during 1946, \$12,000,000 of which was paid to living policy-holders.

During the war years, there was a steady improvement in civilian mortality which largely offset the extra strain arising from deaths due to the war. This improvement continued during 1946 and together with the elimination of the war hazard, resulted in the lowest rate of mortality recorded by the company for many years.

Film Council Is Formed In Summerland

Formation of a Summerland Film Council came nearer to accomplishment Friday evening when representatives of several interested local groups decided to proceed with preliminary arrangements.

C. E. "Ned" Bentley is the new chairman of the film council, with B. H. Robson as vice-chairman, and Mrs. J. McLachlan as secretary-treasurer. Dr. R. C. Palmer, Roy Smith and W. Bleasdale are members of the first executive committee.

It is planned to utilize the new film projector at the Summerland schools for purposes of providing educational and interesting films to adult gatherings in Summerland.

Formation of this film council was advocated by The Review last fall and was taken up mainly by the Canaan Legion and Board of Trade.

Most of the funds necessary to finance this undertaking have already been subscribed by various organizations. To become a member of the film library of the National Film Board a fee of \$200 must be paid, and the council hope to raise further funds to finance ordinary expenditures.

Each organization will be asked to supply persons who are willing to be trained as projectionists. This training will be undertaken at no charge by the National Film Board.

By joining the film library, hundreds of films on a wide variety of subjects will be made available to organizations in Summerland wishing to feature them at their meetings.

Representatives at the organization meeting, which was held last Friday in the Legion hall, were:

Canadian Legion, C. E. Bentley, B. Hankins; Board of Trade, George Graham, B. H. Robson; BCFGA, W. T. Bleasdale, Roy Smith; Credit Union, Gordon Beggs; H. Eden; AOTS, J. R. Butler; Women's Institute, Mrs. Collas; Mrs. J. McLachlan; Horticultural Society, E. H. Bennett; W. Snow, E. C. Bingham; Retail Merchants' Assn., Les Rumball; Rotary Club, Dr. R. C. Palmer; I.O.O.F., H. H. Dunsdon; Crys-

ENGAGEMENTS

Mrs. H. R. J. Richards announces the engagement of her youngest sister, Laura Maddison, to David John Taylor, only son of Mr. and Mrs. David Taylor, Summerland, the wedding to take place April 5, 1947.

Fifty Millions

(Continued from Page One)

trends, Mr. Anscob said: "The particular point I wish to make is simply to show the way in which we are going and to make clear that in a period of great prosperity and full employment it is well to consider what the position would be should there be any recession. If that did occur, it would be inevitable that greater demands would be made upon the government. If no recession occurs, we are still faced with mounting costs of old-age pensions, social assistance, and concomitant expenditures."

(25) Credit of province reflected in bonds sold during past year. Terms secured were better than those ever enjoyed before.

(26) Production from basic industries rose from \$358,000,000 in 1945, to \$382,000,000 in 1946.

In conclusion, Mr. Anscob said: "I think I should say that we now have a fixed income from the national government for a period of five years assuming that the agreement with the dominion passes the legislature. When I say fixed, it is subject, of course, to various changes which might take place from a population viewpoint or increased national production."

"Other than that, we should perhaps say for a time, at least, even assuming that we will retain the full volume of national employment that we are now enjoying that our revenues cannot be expected to rise appreciably but it is important to me that we are faced with the fact that as the population grows, or as the present population reaches a greater age, our social service charges continue to mount."

"The same, of course, applies to our educational costs. If they do go on, and I assume, of course, that it is the wish of the legislature that we do progress, and the legislature must automatically express the wishes of the people of the province, then I think it is inevitable that in the future there will have to be found some other source of revenue to take care of these progressively-mounting costs."

"I do not think it is necessary in the budget I have just presented, but I am issuing a warning that I think it is unavoidable and because I believe that the people should be apprised of the situation that confronts them."
