

# Assessment of Still Causing Concern In School District 15

Yesterday, Reeve W. R. Powell informed The Review that B. C. Bracewell, deputy minister of municipal affairs, will be in Summerland on Monday, June 16, and will discuss the contentious tree question with local municipal officials. Until that time there is little likelihood of any settlement.

There is still no settlement of the disagreement on Summerland's fruit trees, in their connection to school district assessments, it was learned on Monday evening when Pentiction School District No. 15 members met the Summerland council at the local municipal council chambers.

Readers of The Review will remember that this has been a point of contention for some months now. Summerland municipality, for municipal assessment purposes, includes commercial fruit trees on its assessment roll and levies on them for improvement purposes.

Pentiction municipality, does not include fruit trees as improvements, while the school act as revised, does not bring fruit trees into school assessment.

**Based on Total**  
Summerland municipality's share of the entire school district cost has been based, according to figures supplied the school board by the B.C. government, on the total assessment, including fruit trees.

Summerland council has protested this proportion and has asked Victoria for a ruling but to date has received no reply. Both Pentiction and Summerland municipalities have struck their 1947 tax rates without making provision for this amount in question, which is said to be in the neighborhood of \$6,000.

Summerland's fruit trees, on the 1946 assessment, were valued at \$619,000, for improvements assessment purposes.

With the fruit trees left in, the proportion of school costs is based as follows: Pentiction, 62.27 percent; Summerland, 26.23 percent; rural area, 11.10 percent.

**Cost About \$25,000**  
On this basis, Pentiction's share of the proposed school bylaw expenses would be \$7,969.75; Summerland, \$24,262.75; rural, \$10,267.50.

However, these are not fixed amounts; it is pointed out as the percentages would vary from year to year according to the changes in the three assessment rolls.

But Summerland council is far from satisfied with the present standing of its fruit trees. Reeve Powell again expressed his belief that the local council is on firm ground in its contention when the school board and council met on Monday.

His Worship referred at length on Monday to a newspaper report in a Vancouver daily which had a Pentiction dateline. This report, he declared, stated that Summerland's assessments were too low in comparison with Pentiction assessments, and Reeve Powell took extreme exception to this report.

**"Bad Actors"**  
"We have tried to work in harmony with the board, but it kind of brings the blush to the cheek when we are told we are the bad actors," he told the board.

He referred to the recent meeting between Summerland and Pentiction municipal representatives and school board members with Hon. G. M. Weir, minister of education and his deputy Col. Fairley. The whole situation had been discussed thoroughly then and Summerland was advised to obtain a ruling from the taxation and finance departments of the provincial government.

This ruling has been sought for some weeks but no action can be obtained from the government departments listed.

Until such a ruling is obtained, the actual proportion of Summerland's share in the bylaw expenses cannot be set down, the local council agreed following departure of the school trustees, but in any case the present situation would not affect the bylaw greatly as first payment is not made until 1948, when the 1947 assessment figures will be taken into account.

## Scholarship Winner Finds UBC Pleasant

Miss Joan Bennett, first Summerland Scholarship fund winner has just completed her initial year at the University of B.C. and has expressed her appreciation, not only of the honor of representing Summerland at this seat of learning, but of the life at UBC.

"I have been greatly impressed with the spirit shown on the UBC campus," she told The Review this week. "The students and the faculty are friendly and willing to help at all times. It is a great education to me."

Miss Bennett completed her first year in home economics with a percentage standing of 79.2, which gives her the highest marks in her class. There were no first class honors credited, which means 80 percent pass marks.

Since attending UBC, Joan Bennett has joined the Phrateres, a large organization of girls which is one of the strongest groups on the campus. She spent a vacation last month at their camp on Gambier Island.

Next Tuesday evening, June 10, the Summerland branch of the UBC Alumni Assn., is staging a dance at the Ellison hall to raise further funds for the Summerland Scholarship fund. This is billed as one of the outstanding dances of the year and the entire proceeds go towards this fund.

This summer, another student from Summerland schools will be chosen to attend university, as a result of this fund which still needs further monies to complete.

## CCF INVITES LABOR TO JOIN

"The CCF will shortly embark on a campaign inviting the affiliations of trade union locals to its organization," declared Arthur Turner, M.L.A. for Vancouver East, in addressing a CCF rally in Summerland last night.

"Affiliation is only welcome," he said, "when the local union, by referendum vote, and with at least two-thirds majority, have expressed their desire to become officially associated with the CCF."

Mr. Turner is on a speaking tour of the southern interior and will address 16 CCF organizations in the Okanagan and Kootenays.

Dr. Maurice Welsh returned recently from Creston where he has been engaged in field work on the "Little Cherry" disease.

Vol. 2, No. 22

West Summerland, B.C., Thursday, June 5, 1947

## SCHOLARSHIP WINNERS

Peter L. Dodwell

David L. McIntosh

## Ruth Klux Only First Winner at School Meet

Twenty-three records were broken on Friday, May 30, at the annual Okanagan schools track meet held at Vernon during the Vernon-Okanagan Exposition. Pentiction, with 140 points, carried off the premier honors for the high schools, Kelowna coming second with 121 points and Vernon a close third with 119 points.

Of the records set, Vernon cracked ten of them, Kelowna five, Pentiction and Rutland three each and Oliver and Peachland one each.

Summerland, although participating in most events, did not send up a strong team and never figured on winning aggregate cups.

Ruth Klux was the only first place winner for Summerland, placing first in the 16 and under girls' high jump, with a leap of four feet, five inches.

Finest race of the day was run between Bruce Haskins, Summerland and Bill Daly, in the mile. After being content to stay behind right from the start, Haskins made his bid about 300 yards from the finish and flashed ahead of Daly. At the finish line, however, Daly made his supreme effort and drew on a last reserve of strength to just nose out the Summerland lad.

It was a dynamic finish and had the big crowd of youngsters and adults in an uproar.

Edward Kita brought home a third place award in the boys 18 and under 120 yards hurdles.

Gerald Washington was out in front in the 75 yards for boys 12 and under, but twisted his ankle and was nosed out at the tape to place third.

Mary Marshall was the only other award winner among the locals when she placed third in the 75 yards race for girls 12 and under.

## Agrologists Hold Annual Session

The annual meeting of the interior local of the B.C. branch of the Agricultural Institute of Canada was held on May 27th at the Summerland Experimental Station, with Mr. J. J. Woods, superintendent of the Saanichton Experimental Station as guest speaker.

Mr. Woods played an important part in drawing up the B.C. Agrologists' Act, which recently was passed by the B.C. Legislative Assembly. He outlined the work of the committee leading up to the passage of the Agrologists' Act and explained the various sections that were recently amended.

The retiring executive was: President, John Smith; vice-president, J. C. Wilcox; secretary-treasurer, C. O. Gitterman; and M. Welsh, A. J. Mann, A. Moyle, and R. P. Murray.

The new executive is: President, G. E. Woolliams; vice-president, A. J. Mann; secretary-treasurer, S. Harold Cousins; and A. W. Moyle, A. Watt, J. C. Wilcox and John Smith.

## Bylaw to Raise Nearly Hundred Thousand For Renovation and Addition to Schools Now Ready

Taxpayers in Pentiction School District No. 15 will have an opportunity to vote, probably in the next two months, on a bylaw planned to raise \$92,500 for extension of schools in this area which comprises, Summerland, Pentiction and the rural area of Naramata, Kaleden and Allen Grove. Total cost of the projected renovations and additions has been set at \$177,465, of which the provincial government has agreed to pay \$84,965.

Summerland taxpayers will be paying annually on approximately one-quarter of the \$92,500, if the bylaw passes, as the actual amount will fluctuate from year to year according to the proportion of the total assessment figures each portion of the district must pay.

Each of the two municipalities will actually present the bylaw while the school district handles the affair on behalf of the rural area. The bonds which must be floated to raise this money will be guaranteed by the two municipalities and the school district for the rural area. Each year, the amount needed to pay back interest and sinking fund requirements will be estimated in the school district budget and the two municipalities will bill the school district for payment of their proportionate cost, based on percentage of total taxation.

Of the proposed extension program, more than half the expenditure is to be devoted to Summerland schools, with the renovation and additions to the elementary school as the major item. Purchase of the Judge W. C. Kelley lot on the northeast corner of Granville street, for further extension of the school area to take care of the proposed junior-senior high school, is included in the bylaw scheme.

It is planned to add to the classroom space in the elementary school by completely remodeling the present structure. When completed, the elementary school will be modernized to last for forty more years, it was stated on Monday evening last when members of the school board met the Summerland council.

The school board had previously interviewed the Pentiction council that same evening and presented the bylaw figures.

In other portions of the district, there is to be an expenditure at Naramata to provide a school auditorium, gymnasium, cafeteria and heating plant at a cost of only \$4,105.

**Army Huts**  
In Pentiction, the chief expenditure is for the purchase, removal and erecting of two large army H-huts which are to be taken from the Vernon camp and transplanted to the Pentiction high and elementary school grounds. These huts have already been purchased but will not be moved from Vernon until the bylaw is passed.

Complete figures on the costs of the various projects can be found in an adjoining column.

Costs of these projects were based on firm bids made by contractors.

It is not considered likely that the bylaw will be presented inside six weeks and another month, at least, will elapse before construction can be commenced, if and when the bylaw passes.

A sixty percent majority of those casting their votes over the entire school district is necessary for the bylaw to be approved.

**Fixed Fee Basis**

Dr. T. F. Parmley, Pentiction, chairman of the school district, explained to the Summerland council on Monday that the board proposes to undertake these construction projects on a fixed fee basis. Under this scheme, the actual cost of the building will be tabulated and the contractor will receive a fixed fee for the construction.

In this manner, it is hoped that savings of ten to twenty percent will be made, as contractors under present day conditions add at least that amount for contingencies when tendering bids on a firm basis, he explained.

The fixed fee basis was used in Pentiction to erect the wartime houses and other projects and was found quite satisfactory, the board chairman continued. A cost accountancy system will be installed and an accountant employed. Any saving thus made will also be reflected in the percentage of architects' fee, as well, stated Dr. Parmley.

Although it is not essential, the school board would prefer the voting date to be the same in all three areas of the school district, the board inferred.

Representatives of the Pentiction and Summerland municipalities, together with a school board member representing the rural area, will meet to agree on a voting day, as well as the basis on which bonds will be issued. It is possible that the entire issue will be put forward as one group, or Summerland and Pentiction may ask for separate bids on their proportions of the bond issue.

This is a question which will be decided when these representatives get together.

## Merchants Beaten

Kelowna Red Sox, leaders of the Okanagan-International ball loop, defeated Summerland Merchants 8-7 in a torrid ball game last night at Crescent Beach. Bill Evans went the seven innings for the Merchants while Leamaster and Harold Cousins were brought to bear on the Red Sox to stop a last-inning rally.

## Plans For AOTS Exhibition Are Nearly Ready

"There is a great interest not only among the school children but among adults, in the forthcoming AOTS Hobby Exhibition which we will be staging on Saturday, June 14 in the IOOF hall," declared George Washington, manager of the show, to The Review this week.

Last year, the large number of exhibits astounded visitors to this first show and this year's second annual exhibition is gathering momentum every day.

Proceeds from this exhibition will be devoted to assisting junior sports teams in the community. The AOTS has fostered junior baseball, juvenile basketball and the girls' football team in the past two years.

First prizes for the exhibitors will consist of free airplane rides, as arranged with the Southern Okanagan Flying Club, Mr. Washington states. Permission of parents must be obtained before the winning exhibitors among the younger people will be allowed to participate in the plane rides.

It is anticipated that several hundred persons will view the exhibition this year.

## ROTARY CLUB PRESENTS CHEQUE

At the weekly Rotary club supper on Friday evening, May 30, at the Ru-way Cafe annex, E. R. Fisher, treasurer of the Summerland Living Memorial Parks committee was handed a handsome cheque for \$150 as the Rotary Club of Summerland's donation to this project.

The cheque was presented on the occasion of a joint banquet the Rotary Annex being the guests of the Rotarians at dinner, more than forty persons participating in the program.

Vice-president C. J. Bleasdale, in the absence of President A. W. Nisbet, was chairman of the dinner gathering and made the presentation to Mr. Butler.

Shirley and Joyce Schumann, accompanied by Miss Kay Hamilton, provided a delightful vocal duet, as part of the planned entertainment, while the meeting concluded with a colored film depicting scenes from Vancouver Island.

Cups for the winners of the handicap five-pin bowling league operated by the Rotary club after each Friday meeting were presented to Mrs. R. F. Angus and Joe McLachlan.

Mr. G. E. Woolliams was called to Grand Forks on Tuesday to investigate field crop disease.

## Valley Councils Will Meet Here Next Thursday

On Thursday afternoon, June 12, Summerland will play host to the quarterly meeting of the Okanagan Municipal Assn. Sessions will be held in the Legion hall.

It is anticipated that some forty to fifty councillors, aldermen, Reeves and mayors from Enderby south will congregate for this meeting. Resolutions which will be submitted to the annual UBCM convention in September at Harrison Hot Springs are expected to take up the major portion of the meeting.

A luncheon is being served the visiting municipal officials at noon next Thursday with ladies of the Legion W.A. catering.

## Local Students Annex Many Honors at UBC

Peter L. Dodwell, son of Mr. and Mrs. P. G. Dodwell, well-known Summerland residents, has been awarded the coveted BCFGA annual scholarship in passing his third year in the faculty of agriculture at UBC with second class honors.

Mr. Dodwell, a veteran of the RCAF with two years' overseas service completed a tour of operations commencing with D-Day in Normandy. He was a flight lieutenant in the RCAF on retirement. The annual BCFGA scholarship involves a sum of \$125.

Another scholarship of interest to Summerland was awarded David L. McIntosh, who recently joined the staff of the Dominion Laboratory of Plant Pathology at Summerland. He receives the David Thom scholarship, awarded annually to the student leading his class in the faculty of agriculture.

Mr. McIntosh passed with first class honors from second year agriculture.

Numerous other honors were won by Summerland students at the University of British Columbia. John J. Amm was awarded second class honors in passing second year arts, while his brother, William E., received second class rating in passing first year applied science. Another second class winner in second year Arts was Brent E. Bergstrom.

Joan Bennett, Summerland scholarship winner, headed her class in obtaining second class honors in first year home economics. Douglas G. Denny won second class rating in passing his examinations in occupational agriculture, a vocational course.

Another second class honor winner was Donna L. Haskins, IOOF scholarship winner last year, who passed her first year arts. In the same year, Donald R. Johnston received second class honors.

Marian E. Campbell passed her third year in home economics, Rees K. Powell passed second year arts, while Phyllis M. Dawson passed her first year arts.

A pass mark was issued to Arthur E. Simpson in first year agriculture.

Gerhart Huva passed with supplements in second year arts. G. A. Ekins topped the Peachland students at UBC, passing with second class honors from first year arts.

Catherine B. Long passed with supplements from second year home economic.

In the faculty of applied science, forest engineering, first year, William E. Follett passed with supps.

In third year agriculture, John D. Gummow, also of Peachland passed with supps.

At the Vancouver School of Art, two Summerland students passed their exams. Mary Vanderburgh completed her third year and Lawrence Hookham passed his first year.

## PROPOSED EXPENDITURES ON SCHOOL REVISIONS

|  | Amount       | Totals       | Estimated Grant |
|--|--------------|--------------|-----------------|
| Summerland Elementary Addition                               | \$ 80,981.00 |              |                 |
| School Site—Kelley Property                                  | 10,000.00    |              |                 |
| Equipment—80 Primary desks at \$11.00                        | 880.00       |              |                 |
| —3 Teachers' desks at \$60.00                                | 180.00       |              |                 |
| —Chairs and other equipment                                  | 100.00       |              |                 |
| Architects fees (6% of \$80,981.00)                          | 4,658.00     |              |                 |
|  |              | \$ 96,779.00 | \$ 48,389.50    |
| Pentiction Sr. High—Army Huts                                |              |              |                 |
| —6 new classrooms  | \$ 29,809.00 |              |                 |
| Equipment—120 desks at \$12.00                               | 1,500.00     |              |                 |
| —6 Teachers' desks at \$60.00                                | 360.00       |              |                 |
| —Chairs and other equipment                                  | 100.00       |              |                 |
| Architects fee   | 897.00       |              |                 |
| Paid War Assets Corporation, Huts                            | 1,845.76     |              |                 |
|  |              | 34,401.76    | 17,200.50       |
| Pentiction Elementary—Army Huts                              |              |              |                 |
| —6 new classrooms  | \$ 29,809.00 |              |                 |
| Equipment—120 new desks at \$12.00                           | 1,480.00     |              |                 |
| —4 Teachers' desks at \$60.00                                | 240.00       |              |                 |
| —Chairs and other equipment                                  | 100.00       |              |                 |
| Architects fee   | 897.00       |              |                 |

## Chest X-Ray Service

There have been a number of campaigns and drives in the Summerland area throughout the past few months and they have nearly all been with the objective of raising funds to carry out worthy charitable and social service work. But now we have a campaign which does not require any money but just asks for your attendance at a certain time and at a certain place.

Late in June the tuberculosis chest x-ray clinic will come to Summerland to provide an essential service to every person over the age of fourteen, free of charge.

The Women's Institute is taking this project under its motherly wing and will be aided by the board of trade, the Rotary club and the AOTS club. It is planned to canvass every adult person in this community, to give them the time and place for their participation in this free service.

It is now well known that tuberculosis can be cured quickly and easily if caught in early stages. And there is no trouble about the x-ray itself. All you do is step up and have a picture taken. It's not quite the same as having your portrait taken, but it's the same idea.

When you have had your x-ray picture taken and receive the results later in the year, if you are negative then you know that you have nothing to worry about in respect to tuberculosis. You also know that you will not be spreading an infectious disease, and endangering other person's health.

This is a service which should be welcomed by everyone. It does not cost the participant a cent and all it takes is a minimum of time. If there is a single person over fourteen in this district who does not avail himself of this remarkable service then we suggest calling in the nearest psychiatrist, or some such competent authority.

The remarkable part about tuberculosis is that affected persons may go for some time and not be aware of the trouble which is creeping upon him. You can look well and feel well and yet have TB. And that is where the x-ray service comes into the picture. It gives you a proof of your condition.

## Father's Day

That much maligned character—Father—is soon to come into his own, at least for one day in the year. Sunday, June 15, has been decided upon as Father's Day throughout Canada and the United States, and that is official because the Canadian Father's Day committee has released the information from its department of public relations in Toronto.

In fact, this important committee has a chairman, N. L. Birrell, of Toronto. The committee includes representatives throughout Canada who are seeking to "honor dad . . . the builder of our children's future."

There is a certain amount of traditional honor to Father's Day which has been obscured for some time, as it has now come to light that this day was commenced three years before the first official Mother's Day. So dad got ahead of Mother that one time, anyway.

In 1910, Mrs. John Bruce Dodd, of Spokane, Wash., felt the need of a special day to honor father and "to call attention to father's place in the home, the training of the children, the safeguarding of the marriage tie, the protection of womanhood and childhood."

Mrs. Dodd embodied her wishes in a letter to a ministers' alliance which received it favorably, and since then has gained impetus to reach national importance. It has become the custom to wear a white rose for remembrance and a red rose for living tribute.

This year, the Father's Day tribute on June 15 marks the first official celebration of the day in Canada since before the war, during which period, with so many men away in uniform, it was not widely marked.

So, for one day at least, Father will reign supreme on Sunday, June 15.

## The Inside Story

By AGROLOGIST

Chemical war on insects continues unabated at the Experimental Station. This time the codling moth, which has survived so many campaigns, is enemy No. 1. A few nights ago preparations being made behind the Pathology Laboratory reminded me of those made before the raids which were so popular with staff officers in the First World War. There was the same bustle and excitement—the same muffled instructions—the same anxiety lest the event prove a costly failure.

In the fading light of evening the weapons of war were made ready. Instead of Mills' bombs loaded with TNT, there was a spray tank being loaded with DDT and some lethal material called "Miticide". In the darkness it was difficult to tell just who was in the party, but I recognized Jimmy Marshall's voice and I noticed that Bobby Robertson, Provincial Horticulturist, was on hand. I learned also that there was a genuine Sergeant Major in Command. This bodes ill for the codling moth. As every old soldier knows, it is the Sergeant Major who actually determines the success or failure of a raid. Sgt. Major Frank Owen is the genuine article. Actually he belongs to the Chemical Warfare Division of the Canadian Army and he is loaned to the Local Entomological Laboratory to assist in testing and perfecting modern equipment for applying spray materials.

When the zero hour arrived, the procession moved off in the approved manner. Someone showed the way with a flashlight. Gorge Lewis was at the controls of the John Deere Tractor and managed to reach the objective—No. 3 orchard—with all the paraphernalia intact. After he had received official instructions as to how to avoid the pipes underfoot, he manoeuvred the spray equipment into the orchard. Then in place of the customary barrage, there began a series of hissings and snortings which would have made St. George's dragon envious. Soon there were great volumes of fog floating through the orchard—a veritable gas attack.

When it was all over, I asked Jimmy Marshall whether the raid had been a success. There seemed to be just as much doubt as of old as to who suffered most, the raiders or the enemy. All I could get out of Jimmy was, "These new spray materials and gadgets are well worth trying but we will not know the final result until the worms are counted next autumn."

## Pioneer Days

THIRTY YEARS AGO  
June 1, 1917

With the department of agriculture agreeing to a grant of \$400, the annual fall exhibition is now assured. It will be held by the Summerland Agricultural Society, and the Women's Institutes of Summerland and West Summerland. Secretary is W. M. Wright.

Dr. E. W. Sawyer has returned to Summerland and presided over a meeting of the school board.

Bert Harvey tendered the lowest bid for the new Bank of Montreal building in West Summerland. It is understood the building will cost \$9,000 and work on the foundation will begin soon.

In South Okanagan, 970 names have been added to the voters' list, bringing the total to 2,855. A large proportion of these names are women voters.

Nothing he has seen in several years of travel from Canada to Mexico can equal the scenery of British Columbia, nor is there any climate so delightful as that of the south Okanagan, says J. W. S. Logie who, with Mrs. Logie, reached here on Saturday from Texas.

Prairie buyers are claiming they will not accept crated or No. 3 grade apples this year. Growers are being urged to increase their proportion of better quality fruit.

With a \$300 grant from the provincial government, the Summerland Hospital Society hopes to finish the upper floor of the hospital.

Though he will still be in hospital for some time, Pte. Ernest Smith one of the wounded heroes of Vimy Ridge, is doing well, his parents, Mr. and Mrs. Joseph Smith have been informed. Pte.

## RECORD PACK OF CANNED GOODS SHOWN FOR 1946

Fruits and vegetables canned in commercial plants in 1946 were the largest on record, a report of the fruit and vegetable division, Dominion Department of Agriculture discloses.

The pack of peaches from last year's crop was 1,061,074 cases compared with 484,750 cases in 1945. Other fruits, with the 1945 figures in brackets were: apples, 448,526 (208,121); apple juice, 692,488 (154,101); apricots, 104,347 (32,137); blueberries, 12,129 (3,748); cherries, 103,225 (48,524); pears, 408,081 (280,397); plums, 688,088 (350,145); raspberries, 18,069 (19,201); strawberries, 8,040 (62); all other fruits 175,795 (107,788).

In the pack of vegetables, the biggest increase was in tomato juice and peas. The 1946 pack of the former was 4,262,175 cases compared with 2,418,407 in 1945 and in peas the comparative figures are 4,081,380 and 2,971,528. The put down of corn was 1,772,872 cases as against 1,428,617 cases in the previous year. There was an increase of more than 300 per cent in the pack of tomato paste and pulp and with the exception of carrots, which at 276,000 cases in 1946 was approximately half the 1945 pack; there were substantial increases in all the other vegetables.

Jams, jellies, marmalades, and frozen fruits canned in 1946 were well above the quantity canned in 1945. A total of 2,182,875 cases of fruits and vegetables was exported from the 1946 pack, 825,545 cases more than from the 1945 pack. Aggregate value of the 1946 commodity pack of the products under review is placed at well over \$300,000,000.

Wm. Gallagher, after recovering from a hand wound, was almost completely buried by a shell explosion, but is back in the line again.

## TWENTY YEARS AGO

June 3, 1927

Kelowna has been decided upon as the head office of the Control Board states F. M. Black, chairman.

By one o'clock today, more than 1,700 persons had entered the grounds at the experimental station to take part in the afternoon's program.

Work has been started in the grounds around the Cenotaph at the school.

North of the Great ranch, work on the lake shore highway has been completed and two cars can now pass at any point.

A commodious screened-in verandah is being added to the golf clubhouse, the ladies' section being responsible for this addition.

## The Feminine Front

by MURIEL HURRY

The triple wedding which will take place in Summerland on June 20 will, by all indications, place Summerland a little more securely on that proverbial map. The Vancouver Sun and the Pentleton Herald have helped to publicize the event and the young couples are beginning to receive letters from prominent resorts, advertising their bridal suites and honeymoon attractions.

Double weddings are rare, and always much commented upon, so that a triple wedding, an almost unheard of event, is bound to attract much publicity. There has been quite a buzz of excitement around town as the big day approaches, and many questions are being asked. It seems that the relationships among the couples, and the question of just which girl is marrying which brother, are all matters of debate, except, of course, among friends and families.

The prospective grooms are brothers, the sons of Mr. and Mrs. Eldon J. Smith of Summerland. Two of the brides-to-be are sisters, the Misses Jean and Kathie Jones, daughters of Mr. and Mrs. Joseph Jones of Vancouver. The other bride, or "the spare", as she laughingly calls herself, is probably the best known of the group in Summerland, as she is a native daughter, Miss Pat Blacklock, daughter of Mrs. N. Blacklock.

The eldest of the three bridegrooms is Bill Smith, who will marry the older Jones sister, Jean. Phil Smith will take the popular Pat as his bride, while the youngest Smith brother, (not to be confused with the Smith Brothers cough drops), is Clinton, who will exchange vows with Kathie Jones.

The triple wedding was decided upon when the three brothers became engaged, and the wedding dates were all tentatively set for the early summer. As the trio of girls all wanted traditional weddings, the decision of having a triple wedding was the natural result.

The first big problem was the form of the wedding itself. When it was decided that it would take place in the Lakeside United church, with Rev. H. R. Whitmore officiating, that helpful gentleman was called upon, and the

problem set before him. Upon his advice it was decided that part of the ceremony would be mutual. That is, the young couples will line up, with their attendants, in order of the age of the brothers, and the preliminaries will be conducted in one ceremony for all the couples. The individual vows will, of course, be read in turn for each couple. This will shorten the time of the wedding, which in ordinary ceremonies, occupies about one-half an hour.

The wedding invitations were also a problem. This was finally solved to the satisfaction of all, when the parents of the Misses Jones ordered invitations to the marriage of their daughters, etc., while Mrs. Blacklock had the invitations to Pat and Phil's wedding printed individually, as the families of the brides, quite naturally have their individual friends.

Wedding dresses had to be chosen with an eye to symmetry, as were the colors and styles of gowns for the attendants. All the brides will be gowned in traditional white, although the dresses vary a little in style. Veils will all be floor-length, and attendants will be gowned in contrasting colors.

The reception, which will follow the 7 o'clock wedding, will be in the Legion hall, with the large wedding party receiving more than 100 guests. Toasts and responses are not all decided upon, but will follow the traditional trend. Honeymoon destinations are being planned, but will remain undisclosed, as the principals feel that with all the publicity attached to the wedding, they must at least have privacy on their honeymoons. Of course, the honeymoons will not be triple, as each couple have their own idea of the perfect honeymoon.

An example of the many small problems to be solved in such a large undertaking, is one that is at present puzzling the Jones sisters. They have, of course, only the one mutual father, to give them both in marriage. Now, in a case like this, does he escort the elder sister up the aisle, then scurry down again to pick up the other sister, or would it be better, if she were escorted to the altar by a family friend, or relative, then, in due course Mr. Jones could give each of his daughters in marriage at the proper time. Just a small problem, but one of many such.

However, the wedding will be an event to remember, and one that the young folks, when they are no longer so young, can tell their grandchildren about, without fear of boring them.

# BRITISH COLUMBIA'S Social Welfare Programme

## PART II

British Columbia's social legislation is designed to promote the welfare of children, individuals and families, suffering from various social needs. In addition to the provisions made under the Social Assistance, Mothers' Allowance, Old-Age Pension, Protection of Children, Children of Unmarried Parents, Adoption, Boys' Industrial School, Girls' Industrial School and Juvenile Delinquency Acts, services are available as follows:

### HOSPITALS AND INSTITUTIONS

Numerous social needs are covered by the Hospitals Act, Mental Hospitals Act, Provincial Home Act, Provincial Home for the Aged Act, Provincial Infirmarys Act and Welfare Institutions Act. These acts pertain to the treatment of persons suffering physical or mental illness; custodial care of the aged and infirm; institutional care for those who are chronically ill or incapacitated. Included in the programme of care of the mentally ill is the Mental Hygiene or preventative work of the Provincial Psychiatric and Child Guidance Clinics.

### TUBERCULOSIS INSTITUTIONS ACT

Special allowances and services to patients suffering from tuberculosis, and their families, have recently been developed and expanded.

### SERVICES AVAILABLE TO THE PUBLIC

A Field Service Staff of trained social workers is maintained throughout the province. In order to serve the public, members of the Field Service Staff are strategically located and the individual social worker is trained to deal with all phases of social assistance. They are required to use every available community resource in fulfilling their duties and they are supported in their work by counsel and guidance of the specialist in charge of specific types of assistance at headquarters. Recently a plan of decentralization has been placed in operation whereby supervisors have been transferred from divisional offices to the field in order to give supervision on the ground rather than by correspondence from headquarters. This plan eliminates the delay formerly caused through the necessity of referring cases to headquarters for a decision; now such decisions are made on the ground, resulting in a quicker and more efficient service to the public.

British Columbia's programme is the most outstanding and the most generous in Canada. The services available to those in need, at our district offices in unorganized territory and in municipalities, are the most comprehensive in the Dominion.

## The Mail Bag

APPRECIATES PUBLICITY  
Vancouver, B.C.  
May 26th, 1947

Editor,

The Review:

On behalf of the Boy Scouts association of B.C., Provincial Council, I wish to thank you very much for the generous publicity you have given to the current appeal for funds in your editorial and news columns.

Such publicity will, I am sure help a great deal to place before the people of your district the need for voluntary contributions from the public to help the Provincial Association to maintain and expand Scouting in B.C. As we are enabled to expand our administrative functions, hundreds of boys who are anxious to become Cubs or Scouts will be able to realize their heart's desire.

For your assistance, please accept my heartfelt thanks on behalf of thousands of boys throughout the province.

Yours very sincerely,

PRENTICE BLOEDEL,  
President B.C. Provincial  
Council,  
Boy Scouts Association.

THANKS CAR DRIVERS

Summerland, B. C.  
May 27, 1947

Editor, The Review:

On behalf of those young people of Summerland who visited the Vernon Musical Festival last week may I, through your paper say "Thank You" to those who helped to make our visit possible.

Those young people who have expressed opinions on that visit agree that it was a grand experience, that the classes and adjudicators they witnessed were inspiring and they are all filled with enthusiasm to start improving their performances in anticipation of next year's festival. That, of course, is the idea behind the festival movement, not to gain a prize or defeat a rival but to pace one another on the road to excellence.

Those who gave us assistance in the matter of transportation and whom we wish to thank especially are Mrs. A. W. Vanderburgh, Mrs. Tingley, S. A. MacDuff and members of the school board, also F. W. Schumann, F. Stewart, W. Grant, Len Hill, G. E. Williams, C. J. Huddleston.

Also thanks to The Review for this space.

KAY HAMILTON

## Plan To Rebuild Caen University; Canada Campaign

A dominion-wide campaign to raise \$100,000 in cash and 100,000 books for the restoration of the University of Caen, France was launched last week by the Caen Organization for Canada under the chairmanship of Hon. Thibaudeau Rinfret, chief justice of Canada.

In B.C. the campaign extends over the last week in May and the first ten days of June. Chairman of the drive in the province is Dr. D. O. Evans, head of the department of French at UBC.

The national conference of Canadian universities, of which Dr. N. A. M. MacKenzie is president, have pledged their full support for the campaign, as have all university, law societies, many service clubs and the Canadian Legion.

Joint chairman of the national organization are General H. D. G. Crerar, C.H., C.B., D.S.O., commander of the Canadian army overseas and the Hon. J. E. Perrault, K.C., of Montreal. Treasurer is the Hon. Wilfrid Bovey, O.B.E.

The city of Caen, a strategic point heavily fortified by the Germans and finally occupied by the 3rd Canadian division on July 9, 1944, was of necessity completely destroyed by the bombardment and bombing which preceded the Canadian attack, and the university was one of the famous landmarks demolished.

Caen has been the scene of conflicts between England and France since the Middle Ages. The university itself was founded by the English in the reign of King Henry VI, and has since that time played a leading part in the cultural development not only of France, but of England and Canada as well.

In a public letter in support of the drive, Dr. MacKenzie, UBC president, said "By one of the bitter ironies of war, the Normandy city which sent us, in the twelfth century, the first university teacher of whom British tradition has record had of necessity to be destroyed by our own bombardment. Founded by Henry VI, with a Fellow of Exeter College, Oxford, as its first rector, let it be said that Caen was restored in the reign of George VI by the collective effort of a community whose learning strikes deep roots in France, England and Canada."

A general appeal for funds and books is being made to UBC staff, students and graduates as well as to the general public.

The committee has asked that subscriptions of money be forwarded to Hon. Wilfrid Bovey, O.B.E., McGill University, Montreal, Que., and that subscriptions of books be forwarded to Marchal Nantel, Esq., K.C., librarian of the Bar of Montreal, Old Court House, Montreal, Que.

### Hart Satisfied With Negotiations

The progress of negotiations with respect to the proposed extension of the Pacific Great Eastern Railway have been highly satisfactory so far, Premier John Hart intimated upon his return to Ottawa from Montreal where he conferred with principals of the two transcontinental railways.

While in Montreal, Premier Hart conferred with W. M. Neal, CPR president and R. C. Vaughan, president of the Canadian National Railways.

As an outcome of these two conferences J. M. Stewart, deputy minister of railways was delegated to lay before the engineering experts of both railway companies the reports, maps and profiles of the survey just concluded and to discuss in detail with them the merits of the respective routes and economics of the territory to be tapped.

It is expected that further conferences will be held with Hon. Lionel Chevrier, minister of transport and Hon. Douglas Abbott, minister of finance.

### FIELD SURVEY PARTIES AT WORK

Five field survey parties, under the general direction of A. J. Campbell, will be in the field this summer to undertake the 1947 program of the provincial survey branch. Hon. E. T. Kenney, minister of lands and forests announced this week.

In the far north, a survey party under A. C. Follard will continue the British Columbia-Yukon boundary survey, made necessary by the opening up of the north country by the Alaska highway, which actually crosses and re-crosses the boundary several times.

Topographical survey of the west coast of Vancouver Island will be continued under the direction of A. G. Blodcomb, while the topographical survey of the Bridge River area will be undertaken by a party under W. R. Young.

Another important mining, forest and agricultural area will be covered in the Rossland-Trail vicinity by a party headed by A. H. Ralls, while the area of the Skeena and Nass rivers, will be surveyed by G. C. Emerson.

Mr. and Mrs. H. I. Dempster have left for a visit to points in California. During their absence their house is occupied by Mr. and Mrs. H. J. Penkoth.

### TRACK RESULTS

On Tuesday, May 20, the final events of the elementary schools annual track meet were run off, with the following results. Last week, The Review carried the results of the first day's events, on Friday, May 16.

High jump, boys' 13 and over—1, Alfred Letts; 2, Graham Munn; 3, Ken Brawner.

High jump, girls' 13 and over—1, Ruth Kliz; 2, Catherine Trofimenkoff; 3, Donnis Johnson.

Three-legged race, boys' open—1, Richard Lewis and Roger Smith; 2, George Pohlman and Ashley Austin; 3, Ken Brawner and Daryl Weitzel.

Three-legged race, girls' open—1, Margaret Jomori and Donnis Johnson; 2, Barbara Metters and Maureen Prior; 3, Amy Yamabe and Maybelle Parker.

Shuttle relay, boys' 11 and under—1, Bob Faasse, Jackie Pohlman, Orville Dodman, Meade Seigrist; 2, David Dumont, Lori Kliz, Terry Parrot, Robie Towgood; 3, Geoffrey Solly Grant McWhirter, Richard Blewett, Terry Coggan.

Shuttle relay, girls' 11 and under—1, Anna Brlekovich, Claudette Geary, Maureen Prior, Joan Dickson; 2, Doreen Fleming, Shirley Clark, Laurel Derosier, Lovette Trofimenkoff; 3, Ruby Jomori, Carol Raincock, Ely Ruppel, Frances Atkinson.

Slow bicycle, boys' open—1, Gerald Washington; 2, Don Haddrell; 3, Paddy Borton.

Slow bicycle, girls' open—1, Barbara Metters; 2, Maureen Prior; 3, Joan Dickson.

Shuttle relay, boys' 12 and over—1, Earl Bryden, Ken Brawner, Daryl Weitzel, Dean Rempel; 2, Melvin Mitchell, Leslie Bligham, Gordon Younghusband, Ronald Huff; 3, Graham Munn, Ronnie Ritchie, Gerald Washington, Roger Smith.

Shuttle relay, girls' 12 and over—1, Helen Kean, Margaret Jomori, Dorothy Heinrich, Barbara Metters; 2, Amy Yamabe, Mary Marshall Maureen Peterson, Elsie Hack; 3, Joyce Smith, Ariene Raincock, Shirley Smith, Marion Long.

### SIGHT CARE

Comparing the mechanism of the human eye with that of a camera, National Health leaders warn Canadians that there is one essential difference, which must never be forgotten.

Whereas photographic apparatus may be replaced when "out of focus or damaged," human beings are gifted with only one pair of eyes in a lifetime. Sight care is therefore imperative.

The doctors urge avoidance of eye strain. Don't gaze directly at such bright objects as the sun for protracted periods, they warn. They also remind us that at the first suspicion of eye trouble, the family physician should be consulted for early diagnosis and prompt remedial action to save the eyes.

Mrs. I. P. Barnes has arrived in England, by air on a visit to her daughter, Diana, and relatives.

Mrs. J. Gloyd spent the week-end in Princeton and Copper Mountain where her husband is employed with the Granby company stores.

Mr. and Mrs. J. A. Clark, of Vancouver, have arrived in Summerland to spend the summer vacation. They will spend three months here provided they can obtain suitable accommodation.

Mr. and Mrs. George Forster returned on Saturday from a honeymoon by motor to coast points, and have taken up residence in their new home at Crescent Beach.

Mr. Bill Sherwood and Mr. Stan Tofsrud were weekend visitors to Vancouver. They returned by motor on Monday evening, accompanied by Mrs. Sherwood, who has been visiting at the coast for the past month.

**SCOUT NEWS**

**"CAMPOREE"**

The Summerland troop is to be highly congratulated on the excellent showing made at the International Camporee held at Ruby Washington, on the weekend of May 16, 17 and 18. Every patrol and patrol leader did a first class job, particularly the Hawks under P/L Neil Monro, who won an A ribbon for general patrol efficiency, and the Buffaloes under P/L Lee Miller, who received the highest point score in the inter-patrol Scoutcraft competition.

There were 35 patrols present representing fifteen troops from either side of the border. Total cost of the trip for transportation was \$75 and each boy is asked to pay \$1.50, the balance to be found by other means. Some boys have already paid \$1 toward the cost and others have not paid anything yet. Please bring your money at Friday's meeting. The special thanks of the troop are accorded to Smith and Henry, and genial "Hilly" Smith for accommodating the troop so well in transportation and letting us off so long.

Notices:  
Next meeting on Friday, June 6— Legion hall at 7 p.m.  
Dress: Full uniform. Duty patrol: Buffaloes.

Mrs. E. C. McLean of Nelson was a visitor last week at the home of Mrs. F. Doumont.

Mrs. F. Fudge, who has been visiting for several weeks at the home of her daughter, Mrs. F. Beeman, New Westminster, returned home on Friday.

Mr. Jim Hack is spending two weeks' holiday here from his post with the CPR at Tadanac, B.C.

Social Editor : Muriel Hurry

James Hecker and H. Barnett, left on Monday evening for a Vancouver visit.

Mr. and Mrs. John Thayer and Mr. G. Schiller were visitors at the weekend with friends in Keremeos.

An engagement of interest to residents of Summerland was published in Vancouver at the weekend, when it was announced by Mr. and Mrs. A. G. Duncan, formerly of Summerland, that the marriage of their only daughter, Elizabeth Louise, (Betty), to Mr. Gerald Francis Hackney would take place in Ryerson nited church, Vancouver, on June 21. Miss Duncan is well known among the younger residents of the district, having received part of her schooling here.

Rev. H. S. McDonald of Peachland was a guest speaker on Sunday during the services at St. Andrew's and Lakeside United churches. On Sunday Rev. H. R. Whitmore took the services at the Penticton, Naramata and Peachland United churches.

Mrs. F. R. Stark left last week for Ellensburg, Wash., where she is visiting at the home of her daughter, Mrs. C. Laramie.

A daughter was born on Sunday, June 1, to Mr and Mrs. F. Morelli, at the Summerland hospital.

Mr. and Mrs. Harry G. Phipps, of Seattle, were visitors over the weekend at the home of Mr and Mrs. George W. Johnson, Beach avenue.

Mr. Percy Thornber is spending a vacation motoring throughout valley points.

Miss Marion Cambell has arrived home from Vancouver, where she has been a student at the UBC, and will spend the summer vacation at her home here.

Miss Mary Vanderburgh has completed her third year at the Vancouver School of Arts, and is visiting at the home of her parents, Dr and Mrs. A. W. Vanderburgh for a month. Miss Vanderburgh will spend the months of July and August at Moorcroft-on-the-Sea, Vancouver Island, where she will act as counsellor in arts and crafts.

Dr. A. W. Vanderburgh left on Sunday by motor for Vancouver, where he is attending the medical summer school at the Hotel Vancouver. He is expected to return on Sunday.

Mr. and Mrs. Joe Maddison and son, returned on Tuesday from Mountain Park, Alta., where they have spent the past several months, and will make their future home in Summerland.

Mr. and Mrs. Bill Walker and family are expected to return at the weekend from Keremeos, where they have been living, and will again make their home in Summerland.

Mr. and Mrs. F. J. Croft, of Flin Flon, Man., are visiting their son-in-law and daughter, Mr. and Mrs. Cecil Wade, in West Summerland. This is the first occasion Mr. and Mrs. Croft have visited British Columbia.

Mr. and Mrs. H. Clough returned to Summerland on Sunday June 1, after spending nine months in England. Although they enjoyed their stay in the Old Country, they found living conditions during the winter quite trying.

Mrs. J. Slater, of London, Eng., is the newest English war bride to arrive in Summerland. Mrs. Slater arrived here on Friday, May 30, having crossed the Atlantic on the Aquitania, to join her husband, Mr. J. Slater, who is an assistant to Mr. T. Fisher in Fisher's Men's Wear.

**CELEBRATES HIS 88TH BIRTHDAY**

C. A. Walter, well-known Summerland fruit grower and shipper, who came to Summerland in 1919 from Castor, Alta., and founded the well-known firm of Walters' Ltd., celebrated his 88th birthday on Monday, June 2.

Although he has not been in the best of health lately, Mr. Walter welcomed a large number of friends who called on him during the afternoon to wish him many years of continued health and happiness.

Since its modest beginning just after World War 1 the Walters Ltd. firm was expanded considerably and now has branches in Peachland.

Miss Nancy Hack left on Sunday night for Vancouver to re-enter training at the Vancouver General hospital after spending four weeks' holidays at her home here.

**ENGAGEMENT**

Mr. and Mrs. H. F. Stewart, Summerland, announced the engagement of their only daughter, Olive Kathleen, to Mr. A. C. Mason, of Summerland, the wedding to take place on June 11, 1947, at the Lakeside United church, Rev. H. R. Whitmore officiating. 22-1-p.

REVIEW CLASSIFIED ADS BRING RESULTS

**The Red Bricks Remain**

Proud Beacon Hill in Boston will retain its historic red bricks after all. Right after women residents of this historic spot started their sit-down strike (above), protesting a decision of the city to remodel the red brick pavements out of cement, Mayor James Curley brought peace once again to the district with an order that the hallowed walks remain. Officials earlier had claimed the rough paving caused too many accidents to pedestrians. The women pictured here are also some of the original Bostonians.

**AOTS PLAYS HOST TO JUNIOR BASEBALL BOYS**

That the Summerland AOTS is considered the model of all such clubs in British Columbia was the word brought back from Vancouver to the club's May meeting on Thursday, May 22, by Rev. H. R. Whitmore. He had attended a meeting of the central executive of the AOTS while at the coast to the United Church conference, and this statement was made by one of the executive there.

A second cause for pride at the May 22 meeting was the presence of 25 teen-age boys, alternating with the 25 members at the supper table. These were leaders of the group which the AOTS sponsors in sports, and their "daddy," Les Gould, sports supervisor for the club, introduced them to the members after the meal was over.

Both men and boys listened with keen interest to a talk by Ray York on highlights of his experiences during twelve years running pack trains in the Rockies. Packing cook-stoves and lumber on pack-horses, handling dynamite and hornet-stings on the same horse, were some of the stories, and climax of all was his account of "shooting it out" with a charging grizzly. Two fine songs by Wallace Boothe and a colored movie finished the entertainment for the evening.

During the business part of the meeting, the club's Parks Board representative, Chuck Bleasdale, announced that when Summerland's ball park and recreation ground is finished this year, it will be without a peer in the entire Okanagan Valley. As the AOTS Club had a lot to do with starting the parks movement here and with organizing junior sports, the announcement was specially gratifying.

Several other reports were given but President Jack Wilcox kept the business part of the meeting brief because of presence of so many boys as the club's guests, and after appointing Harvey Wright as representative on the committee to arrange for the visit of the tuberculosis clinic, and hearing an invitation to visit the Penticton AOTS Club on May 29, the meeting adjourned.

**FOODS THAT FIT**

"We need large servings to give us calories, but it's what we eat that'll raise our salaries", sing the nutritionists. They point out that food is important to health, and health influences earning power.

The food authorities declare, "Eat what you should, first, and then, if you must, round out your meals with the extras."

**SUN SHADOWS**

For prevention of fatigue it is essential that close work should be carried out under good lighting conditions. That means illumination which is adequate, uniform and steady.

Avoid shadows and glare, particularly when on work which requires concentration, such as reading. The source of light, the experts tell us, should never be directly in the line of vision.

**Tabernacle at Penticton Is Wedding Scene**

A charming wedding was solemnized at Bethel Tabernacle, Penticton, on Tuesday afternoon, May 27, when Mildred, daughter of Mr. and Mrs. John Heinrich of West Summerland, and Mr. Gordon Stein, son of Mr. and Mrs. Wm. Stein, of West Summerland, were united in marriage, with Rev. Fred Howell, of Penticton, officiating.

The bride was charming in traditional white, fashioned with a full net skirt gathered to a bodice of satin brocade, and with a sweetheart neckline and full, long sleeves. Her full-length veil was held in place by blue forget-me-nots, and she carried a bouquet of red carnations and fern. Her only jewelry was a gold locket.

In pale pink, turquoise, and pale yellow sheer, the trio of attendants to the bride formed a colorful and lovely background.

Maid-of-honor was Miss Eleanor Stein, sister of the groom, who wore pale pink brocaded sheer. Bridesmaids were the Misses Laura Heinrich, sister of the bride, in turquoise taffeta, and Wilma Huva, who chose pale yellow sheer. All attendants carried bouquets of seasonal flowers.

Groomsman was Mr. Jake Rithaler, while Mr. Harold Stein, brother of the bridegroom, and Mr. Wolfe were ushers.

Wedding music was provided by Mrs. Hazel Schwass at the piano, and by Mr. Laurance Howell, of Penticton.

Following the wedding, a reception was held in the Legion hall, West Summerland, which was decorated for the occasion with blue and white streamers and an assortment of seasonal flowers.

The bridal party was assisted in receiving its guests by the parents of the bride and groom. Mrs. Heinrich was gowned in a smart afternoon frock of powder blue sheer, and her corsage was of white carnations. Mrs. Wm. Stein, mother of the groom, chose a two-piece white frock, and her corsage was pink carnations.

The toast to the bride was proposed by Rev. F. Howell, and was responded to by the groom. Mr. James Wells proposed the toast the attendants of the bride, and the bestman responded.

For a honeymoon trip by motor to Vancouver, via the U.S. route, the bride wore a turquoise blue suit, with fishtail back effect, hat and accessories to match, and her corsage was of pink carnations.

Mr. and Mrs. Stein will make their future home in Summerland.

**PLATES OF BEAUTY**

Serve yourself a spoonful of youth and beauty! Yes, the government nutritionists at Ottawa insist that there is a direct and important relationship between what we eat, how we look, and how we feel.

Particularly important as "beauty foods", they say, are vegetables and fruits, which can do more for women than all the beauty shops, and the other "protective foods", which not only provide preventive medicine, but make for preservation of the "characteristics of youth".

*Make This a Family Day*

**MEN WHO MADE OKANAGAN HISTORY - - - Capt. T. W. STIRLING, O.B.E., R.N.**

**Destiny Rode the 3:30 out of Vernon:**

**N**OVEMBER 3, 1901—an ordinary day to other travellers who boarded the same train, but to one man, a day of destiny! He not only had a vision of what might be, but T. W. Stirling had a plan, too . . . he was eastward bound to seek the first commercial markets for the fruit of the Okanagan Valley.

To his efforts the fruit industry of the Okanagan owes its birth. In 1893 he had come to Kelowna from the Old Country, and in those early days with courage and ability he set about the task of establishing fruit-growing as a basic industry. T. W. Stirling founded the fruit-packing firm of Stirling & Pitcairn, noted for its integrity and the quality of its merchandise. Over the years his ideas expanded and developed. Nearly thirty years before, he had sought the first large markets beyond the confines of the district. At his death in 1930, tree fruits of all kinds were being shipped from the Okanagan in untold millions for the markets of the world.

In 1909 Capt. Stirling founded the Okanagan Investments and Trust Companies. They gave individual growers financial assistance in the planting and tending of new orchards. For the past thirty-seven years these Companies have been closely associated with the expansion of the fruit-growing industry.

**'Old-Timers' Try Gamely But Bow To Younger Lads**

It's not supposed to be told but the old-timers creaked just a little too much in the joints last Sunday at Crescent Beach and wound up lagging on the very short end of a 10-0 count, the younger and present year version of the Summerland entry into the ball league being on the deciding end.

But there was plenty of fight in the old boys as they staggered around the diamond and Bill Nicholson shone like a nigger's heel as he cavorted around the short post and dug the horsehide out of the dirt to heave it at Import Bill Bennest from Pentiction, a former star of a short few years ago.

Jim Ritchie, who used to wow the lads with the hickory back in the early thirties and quite a few years before that, started on the mound for the oldsters, having come all the way from Keremos for the treat. He had his old running mate Alf Johnston to receive his throws and little Frank Kuroda had the surprise of his life when Jim struck him out as the first man to bat.

Jim went for three innings and retired more or less gracefully and Alf went along with him. Les Gould and McCarger took over the battery posts and as they became more used to the play had the younger lads well under control for the last few innings.

But the damage had been done, as the 1947 ball merchants had amassed a paltry ten runs.

It was a very official ball game, with four umpires to call them

more or less as they saw fit. Gerry Laidlaw was on first, Dave Thompson on second and Keith Elliott hovering over third. Hilly Smith called the balls and strikes and took the usual amount of abuse always handed out to an umpire.

Jack Dunsdon, the mighty hitter of years gone by, managed to collect one for four in between scrambling about second base. Colin McKenzie looked just as fleet as ever in right field while Irvine Adams' port-side heaves from left outer garden brought back many memories. Jimmy Thompson forsake the Merchants' team to cover centrefield—quite effectively—and Jack Dickson held down the hot corner.

For the records here is the box score:

| AB             | R         | H        | PO       | A         | E         |          |

HASTINGS STREET WEST SUMMERLAND

**Helicopter Is Given Study By Valley Group**

To investigate the potentialities of the helicopter for orchard pest control, a party of Okanagan businessmen visited Yakima recently and met officials of Central Aircraft. Mr. L. G. Butler, Kelowna, has reported on the findings of this group.

On the trial flight, Mr. Butler declared he was much impressed with the flexibility of the machine and the manner in which it can be controlled in the hands of a skilled operator.

"We flew over an orchard row about eight feet above the tops of the trees at 40 mph and turned at the end for the return trip on the next row with perfect ease. The turbulence caused by the down-draft of the rotor appeared to be limited to some twenty feet on each side, which would indicate that in actual practice there would be no undue dispersal of material from the point of application."

"In the course of the demonstration the machine was made to hover, to lift itself over obstacles, to move to either side or backwards as easily as it will travel forward, and to be landed vertically, with absolute precision, in a space little greater than itself; in fact, it will move in any plane at any desired speed at the will of the pilot."

"It is true that there is still much costly pioneering to be done before a grower will be able to pick up a telephone and 'order a job' for his orchard that same afternoon with complete assurance that the results will be satisfactory; but it does seem safe to say that this method has ample promise, and is well worth encouragement by the fruit-growers of the interior of the trouble and expense of thorough investigation and development. Should adequate local backing be forthcoming, the way is open, to retain control of this undertaking in the hands of those most likely to benefit from it in the future."

"At its present rate of production the helicopter is very expensive, as is the training of personnel; the latter is of the utmost importance because, under any conditions, the machine can only be as good as the man in charge of it, upon whose skill the ultimate result will depend. It would appear from all information now available, however, that the operation can be performed at a price comparable to present costs with conventional machinery, and, as proper techniques are developed and the full extent of its employment determined, it should become competitive as to cost while offering many advantages to the grower over any other method of application that may be devised."

"Delivery of the first machine for the Okanagan is anticipated in June, by which time an operator will be trained and available; tests under the supervision of Dr. Jas. Marshall of the Dominion Entomological laboratory at Summerland, will be carried out this summer and it is hoped that the results will justify its commercial use on the orchards in 1948," he concludes.

Others who went to Yakima included O. St. P. Aitkens, Kelowna; J. B. Kidston, Coldstream; J. P. O'Brien, C. C. Agar, A. H. Bent, Pentiction; M. J. O'Brien, W. L. McTavish, Vancouver.

Friends of Mr. and Mrs. Lawrence Charles, whose marriage was an event of the past month, held a surprise party for them at their new home on Monday evening. Guests were members of the staff of Walter Ltd., where the bridegroom is employed.

**Smith and Henry Are Winners of Merchants Loop**

Smith and Henry's team has won the championship of the merchants' five-pin bowling league, following more than three months of strenuous competition at the National Bowladrome. It was a nip and tuck struggle and only one or two points separated any of the top four teams throughout the last month of play.

Seventeen teams participated in this league, which was the largest operated at the new bowling alley this winter season. Handicaps were allowed from the start of the season.

Final details of individual and team scores show that June Lamey, with 177 points had the ladies' high average, while Jack Dunsdon with 211 had the men's high average. Ladies' high single score was won by Evelyn Reid with 285 and Harry Ruppel, with 349 had the men's high single.

Team high three and high single scores went to the Family Shoe Store, with 2,984 and 1,168 points respectively.

Ladies' high three score went to Nan Thornthwaite with 621 points and men's high three was won by Gus Mayert, with 790 points.

The final standings of the seventeen teams follow:

### MARRIAGE

MARRIED — At the Anglican Church, Oliver, B.C., on Saturday, May 31, 1947, at 2 p.m., Miss Ethel May Waters, second daughter of Mr. and Mrs. William Waters, of Summerland, to Mr. Norville Rogers Wilson, second son of the late Mr. C. Wilson and Mrs. C. W. Wilson, of Penticton. 22-1-c.

"COLOURED GASOLINE TAX ACT," CHAPTER 70, B.C.S., 1946 AN ACT TO PROVIDE FOR THE COLOURING OF GASOLINE FOR CONSUMPTION BY FARMERS, FISHERMEN, AND OTHER NON-HIGHWAY USERS.

Notice is hereby given that under the provisions of the "Coloured Gasoline Tax Act," chapter 70, B.C.S., 1946, the sale of gasoline coloured purple, known as "Marked" gasoline, becomes effective on June 2nd, 1947.

The "Coloured Gasoline Tax Act" provides that no person shall purchase gasoline coloured purple EXCEPT for use for one or more of the following purposes:

- (a) For the operation of motor-boats.
- (b) For the operation of stationary engines.
- (c) For the operation of portable engines and tractors when used otherwise than on a public highway.
- (d) For the operation of logging trucks when used exclusively on other than public highways.
- (e) For the operation of railway-cars and other motor-vehicles running upon rails or tracks.
- (f) For any industrial purpose otherwise than in the operation of motor-vehicles.

THE USE OF GASOLINE COLOURED PURPLE IN MOTOR-VEHICLES ON PUBLIC HIGHWAYS IS STRICTLY PROHIBITED.

The refundable portion of the Gasoline Tax is now deducted at the source, going away with the need of refund applications.

"GASOLINE TAX ACT," CHAPTER 70, REVISED STATUTES OF BRITISH COLUMBIA, 1936 All gasoline, other than gasoline coloured purple, is subject to a tax of ten cents per gallon, as provided for under the provisions of this Act.

This gasoline may be used for any of the purposes enumerated in items (a) to (f) inclusive, but will be subject to the tax. If used as indicated application should be made to the Surveyor of Taxes, Victoria, B.C., for the refundable portion of the tax.

This Statute provides that all applications must be submitted within six months from the date of purchase, otherwise the refund is automatically voided.

Mama Robin, not knowing or caring whether it's the real thing or not, has built her nest atop an imitation deer-head on the back porch of the home of Mr. and Mrs. Charles Waybright in Pittsburg. Right when this picture was snapped, Mama was bringing home a juicy morsel for the three little hungry robins perched in the nest and not a bit concerned at the cameraman.

## Twenty Per Cent Loss On Bing Cherries Is Reported In District

Approximately 20 percent of the Bing crop in the Summerland district has been lost through splitting, it has been estimated in the past two days following wet weather of the past week. Some Bing crops, in orchards where the fruit was farther advanced than most orchards, suffered losses up to forty percent, but the overall picture is between fifteen and twenty percent.

There has been some splitting in Royal Anne cherries but this variety has not been affected to the same extent as the Bings. Lamberts are not far enough advanced to show any loss yet. On Tuesday, A. W. Watt, local field inspector for the B.C. government placed his estimate of the loss at ten to fifteen percent, but admitted that this figure was probably a light one. Managers of local packing houses estimate the damage nearer twenty percent of the Bings.

Never before has this variety of cherry split in such a green stage. Some cherries have only a whitish tinge with no sign of red coloring, yet they are damaged beyond any further commercial use.

Summerland had anticipated nearly a record cherry crop this year but the wet weather, coming after such a prolonged dry spell, has wrought severe damage. It is believed that the sudden change from extreme dryness to rainy weather has caused most of the splitting, even though the fruit was not advanced in maturity to the point where they would be affected normally. Loss in Oliver and Penticton areas, being ahead of the Summerland district, is heavier than here, it is reported.

## Road Program Is Delayed by Wet Weather

No permanent road surfacing will be laid on the Station or Prairie Valley roads until the present wet weather has been concluded, as the gravel is too wet to allow for a mix of asphalt, it was decided on Wednesday afternoon by the municipal council. If there is no rain today, and prospects of continued finer weather, a start will be made on the Station road before the weekend, otherwise the asphalt work will have to wait.

If wet weather continues, grading of secondary roads and the laying of the calcium chloride mix as a dust-layer on the clay surface road past Capt. A. M. Temple's home and Councilor H. L. Wilson's property will be undertaken, as this solution is now available here.

The sandhill road experienced a washout on Sunday but the municipal road gang had the necessary repairs completed by noon on Monday. Councilor Wilson suggested on Wednesday afternoon that an inch layer of asphalt should be laid on the Giant's Head road to preserve the surfacing placed there last year.

Other requests for road work were received by the council but any decision on those matters are to be left until the main program of the Station and Prairie Valley roads is completed. The council will then investigate its resources and determine what further steps should be taken, it was stated yesterday.

A petition, signed by nearly 25 residents affected, was presented yesterday for the closing of the road south from No. 5 highway on the road which leads onto Hastings street at the B.C. Fruit Shippers' corner.

The council agreed to study this request at its next meeting in two weeks' time. Donald Orr approached the council on behalf of residents at the foot of the Gulch road, and asked for needed repairs on this stretch. This request was also laid over for consideration, later.

## Ball Tossers Continue Their Victory Drive

### SOUTH OKANAGAN BALL LEAGUE STANDING

| Team       | P | W | L |
|------------|---|---|---|
| Summerland | 4 | 4 | 0 |
| Peachland  | 4 | 2 | 1 |
| Kelowna    | 4 | 2 | 2 |
| Trail      | 4 | 1 | 3 |
| Osoyoos    | 4 | 0 | 4 |

Three Summerland baseball teams turned on the heat last Sunday to cop victories in South Okanagan baseball games. Summerland is displaying real prowess on the ball diamond this season and has turned in some impressive wins in three age groups. At Osoyoos, Summerland Merchants had little trouble defeating the southerners 12-1. Trafford's lazy port-side heaves, had the Osoyoos batters waving frantically and after the single tally in the first stanza, there was never any doubt about the outcome.

First home run of the season was registered by George Taylor who clouted a smasher in the eighth and followed with a double in the ninth. Imayoshi at shortstop was one of the defensive stars of the game.

At Penticton on the same afternoon, the local junior lads, sponsored by the AOTS whipped the Skaha Lake juniors 10-5 at King's Park. Hitting strength was fairly evenly divided over the Summerland squad, while Allan Gould held the inside line well in hand throughout the contest. Penticton used three hurlers; Escherman, Evans and Campbell in a vain endeavor to stop the victorious Summerland juniors.

Playing at Crescent Beach on Sunday, the local Teen Towners turned in their third successive victory by whipping Oliver 16-4. Right at the outset, the local teen agers took the initiative with a run and were never headed adding four more in the third, two in the fourth, three in the sixth and six in the eighth.

Brawner, pitching for Summerland, allowed five hits and whiffed 12 batters. Furuya starred on the bases with seven steals. This coming Sunday, Summerland plays at Kelowna against the Cubs, the Japanese team, Teen Town is meeting Osoyoos at Crescent Beach while arrangements are in the offing to make this a double-header, with the juniors taking on further opposition.

At the school grounds on Sunday afternoon, the girls' football squad is breaking into the summer sports picture with their first contest against Penticton. This is an exhibition game but the scheduled games will commence shortly, Joe Sheeney reports.

Peachland, after a shaky start, is now hitting the win trail in the South Okanagan league. Last Sunday, Peachland walloped the Kelowna Cubs 13-6, with Ted Clements relieving Verne Mahle after the first four innings, to turn on the heat in earnest.

Tomorrow night, Friday, Peachland Old-Timers will try their skill against the current crop of ball-tossers. Dan Cousins is in charge of the players who shone a few years ago and is believed to be obtaining the alleged assistance of a few Summerland players.

## Cost Of New Municipal Hall Is Too Great

Summerland's proposed new municipal hall, if constructed as planned at the present time, with the addition of library and reading room space and recreational facilities below, would probably cost in the neighborhood of \$100,000, the municipal council learned to its consternation yesterday afternoon.

Plans, as submitted by the architectural firm of McCarter & Nairne, Vancouver, were received yesterday and were found to be quite complete and, as far as being inclusive of most details required for present and future needs, would be entirely satisfactory.

However, the architects expressed the fear that the cost of such a structure would be out of the question. The building, which is planned for the northeast corner of the Living Memorial park-playground, is of two-storey height with a full size basement.

In the basement, besides storage and furnace rooms, there is provision in the plans for rest rooms, and a large-size recreational room.

The main floor contains the council chamber, reeve's office, foyer, office space and the library and reading room. The second storey contains further office space and storage requirements.

Various suggestions were made yesterday as to how this building could be cut down to an expenditure which might be within the municipal pursestrings.

It was considered by the council members that an expenditure of \$100,000 would be out of the question at present. For a straight municipal hall, an expenditure of some \$30,000 was considered adequate.

The building committee of Councilors F. E. Atkinson and C. E. Bentley will go into a huddle on this question and will bring its findings at a future meeting.

## BLUE AND GOLD AT ALUMNI DANCE

An outstanding and effective decorative scheme was used by the Summerland branch of the U.B.C. Alumni assn., at its second annual dance held in the Ellison hall, Summerland, on Tuesday evening, June 10.

The university colors of blue and gold were used throughout the hall, and blue and yellow flowers were grouped before the stage, which was flanked by totem poles, while the university coat of arms hung above the orchestra. The famous U.B.C. thunderbird, legendary Indian symbol adopted by the university, also predominated the scene. All wall decorations were handmade by the alumni group, and a great deal of cleverness and originality were shown.

Old university favorites were played during the evening by Carl Dunaway's orchestra, which provided the music.

A good crowd was in attendance, and proceeds will go to the U.B.C. Alumni Scholarship fund, which recently received further donations from the Family Shoe Store, Quality Meat Market and L. A. Smith.

## Canadian Legion To Seek Plebiscite For Licence

Summerland branch of the Canadian Legion decided last night to request the provincial government liquor control board to institute a plebiscite in this municipality for the right to operate under a private beer licence in the Legion premises in West Summerland.

A year ago the local branch of war veterans sought a beer licence for their members and were turned down as no new licences were being granted at that time.

A petition was circulated against the Legion request and was sent in to Victoria by local "dry" element.

Then the Legion put out its own petition and obtained 1,800 signatures in their favor. This was held until last month when it was submitted to W. F. Kennedy, liquor commissioner.

Mr. Kennedy has replied that, despite the large number of names on the Legion petition, his office had already informed those opposing the licence request that no such permission would be granted unless a plebiscite vote was obtained.

The liquor commissioner advised that a plebiscite on a veterans club licence only could be placed before the voters of this municipality. This would not be a

## Pat Nisbet, Young Native Son, Passes

Summerland residents were shocked to hear on Wednesday, June 11 of the passing that morning at the Tranquille sanatorium of one of their native sons, Patrick Nisbet, aged 21, son of Mr. and Mrs. A. W. Nisbet, well-known residents of this community.

The young man had been a patient at the san for the past year and a half, having been sent there only six months following his discharge from the RCAF. He was a member of that service during the war for nearly four years and was discharged with the rank of Sgt.-Pilot.

Following his discharge he commenced studies at the University of B.C., but was only able to complete six months before his health broke down.

Born in Summerland, he received his early education at the local schools before joining the RCAF. Always keen in sports of every kind, he had a special interest in Boy Scouts, and was an enthusiastic member.

Besides his parents, he leaves three sisters, Mrs. A. Walker and Marjorie, in Summerland and Miss Kay Nisbet, R.N., at Vancouver, and an aunt, Mrs. D. Schock in Summerland. Other near relatives reside at Vernon.

Funeral services will be held on Saturday, June 14, but detailed arrangements were not forthcoming at press time.

## School Bylaw To be Topic at Trade Board

Crowded school conditions and some idea of the necessity for increased school accommodation is to be given members of the Summerland Board of Trade this evening, Thursday, when the June monthly meeting is held in the IOOF hall.

Col. J. N. Burnett, district school inspector, will present plans and specifications of the revisions and additions planned for the Summerland elementary school, while School Trustee P. G. Dodwell, well-known pioneer in school board activities in Summerland district, will present the board picture of the school proposals for this district No. 15.

The proposed bylaw will ask the taxpayers of District 15 to empower the two municipalities of Penticton and Summerland, plus the rural area, to float a bond issue to raise \$92,000. Total cost of the proposed school revisions in Summerland, Penticton and Naramata will be \$177,465, with the provincial government grant making up the difference.

According to local school authorities, there is every likelihood that classes in the local elementary school will have to be staggered in order to accommodate the big influx of new students to the beginners' classes.

Mr. S. A. MacDonald, elementary principal, will also be on hand to give any information necessary on conditions in the elementary school.

## WOULD COMPLETE SOUTHERN ROAD

Harold Mitchell, of Naramata, has been named president of the Associated Boards of Trade of the Southern Interior, with J. B. M. Clarke, Kamloops, as vice-president and H. Partridge, Naramata, secretary.

These selections were made at the annual meeting of the boards of trade last week at Naramata. Summerland was represented by President F. W. Schumann, Francis Stuart and H. Polhmann.

Completion of the southern transprovincial highway in preference to any northern routes is being urged with this is the early completion of the Hope-Princeton highway. This subject formed the chief topic of discussion at the

## Dates Late In Month Announced For Visit Of TB Chest Clinic

Dates for the mobile T.B. X-ray Chest Clinic visit to Summerland have now been announced by the Women's Institute, the group in charge of this important campaign in this district. The clinic will operate in Summerland on Friday, June 27, Monday, June 30 and Wednesday, July 2. It is explained that the clinic does not operate on the week-ends or on holidays, thus creating gaps of several days from the outset to the finish of the campaign.

Although the Women's Institute has taken responsibility for organizing this important campaign, assistance of other groups is also being obtained. The Rotary Club has taken charge of the complete canvass of the district while the board of trade is handling the advertising and publicity angle.

C. J. Bleasdale is handling the Rotary club project and Ross McLachlan, chairman of the trade board civic affairs committee, is handling the publicity group.

Mr. Bleasdale's committee is now busily engaged in dividing the community into sections and appointing canvassers for each section. Prior to the clinic arrival, it is planned that every home in this district will be visited and householders over the age of fourteen will be given an opportunity to visit the clinic at a specified time and date.

This is a free service and one which takes only a minimum of time on the part of the participant.

Whereas, in other years, some articles of clothing had to be removed, this will not be necessary this year, it is explained, and all that a visitor to the clinic need do is step up before the machine and have the x-ray taken.

The only provision in this statement is that metal articles, such as buckles on suspenders, should be removed from the area to be pictured.

Mr. Bleasdale states that if any person in the district has not been canvassed immediately prior to the arrival of the clinic, then a telephone communication to him will provide the necessary time for a visit.

## Entomologists Make Additions To Staff Here

Further changes in the staff of the Dominion Entomological Laboratory at Summerland have been announced this week by Dr. James Marshall. Howard Richardson and D. B. Waddell arrived here during the past week to assist in experimental work being conducted on behalf of the tree fruit industry.

Mr. Richardson, from Brandon, Man., will be assisting M. W. Proverbs on soft fruit insect control.

Dr. Waddell who has completed his work and study to obtain a Ph.D. degree at the University of Toronto, is from Victoria, and will undertake work in the Kootenays on insect transmission of virus diseases. He will go to Creston for the summer months and will cooperate with Dr. Maurice Welsh of the plant pathology laboratory.

Dr. Waddell is believed to be a permanent appointment for the local entomological lab but Mr. Richardson will return to Brandon in the fall.

W. A. Ross, head of the fruit insects unit of the Division of Entomology, from the Vineland, Ont., station, is arriving in the Okanagan shortly for a week's visit. He will inspect the work being carried on by the entomologists and will also hear from heads of the fruit industry what further work might be undertaken.

Miss Rosalie Smith, of Vancouver, has arrived here to replace Miss Margaret Dickson, stenographer, at the entomological lab. Miss Dickson is a bride-elect of this month.

## MRS. C. SNOW HAS CORRECT GUESS

Sgt.-Major Frank Owen, of the Suffield Chemical Warfare plant, has been in Summerland for the past month investigating the mechanical aspects of tree fruit spraying. He returned this week to the Suffield, Alta., plant.

Mrs. Channon Snow, of Summerland, with a guess of 4 hours, 33 minutes, 13 seconds, was correct in the Okanagan River barrel derby held by the Penticton Fish, Game and Forest Protective Assn., on the King's birthday, June 9.

The barrel was floated down Okanagan river from Okanagan to Skaha lakes and tickets were sold on the time the barrel would take in its journey. Mrs. Snow was correct in her guess, and she has been given a prize of \$150.

Also in connection with the sports day at Penticton, several prizes came to Summerland from the trap shoot.

In the 25 shoot, Dr. L. A. Day was second place winner, with Tom Nelson in third place. Of the sixteen 5 shoots, Dr. Day, Sandy Munn and Ken Blighorne brought home hams as first prizes, while Ken Blighorne also captured the miss and out shoot, defeating Game Warden Maxson, of Kelowna.

Accounts totalling \$21,815.26 were passed for payment at the council session yesterday afternoon.

## Little Cherry Inspection to Start Monday

Commencing the week of June 16, members of the horticultural branch of the provincial department of agriculture, with the assistance of the dominion and provincial plant pathological branches, will commence an inspection of all cherry trees in the South Okanagan in order to protect the large cherry industry from an infestation of Little Cherry.

As far as time will permit, all cherry trees from Osoyoos north will be given a thorough inspection to determine if any effects of this dread disease can be discovered.

Little Cherry virus has created a serious problem in Kootenay cherry orchards. The 1947 convention of the BCFGA requested that every effort be made to prevent the spread to this valley.

"If inspectors find any suspicious cases of Little Cherry, these trees will again be checked by officials who have had a number of years experience with the disease in the Kootenays," stated W. R. Foster, of the provincial agricultural department.

"If the cherry tree is diagnosed as Little Cherry the grower will be asked to remove the tree within a certain time. The co-operation of the growers in this matter is expected as they have asked for the inspection and tree removal, and also as they should know of the unfortunate experience of growers in the Kootenays where the disease has been allowed to go unchecked.

"While it is anticipated that all the growers will remove the trees diagnosed as Little Cherry, provision has to be made for anyone who does not realize the menace to himself, his neighbors and the cherry industry of the whole valley.

"If anyone fails to remove tree or trees designated as Little Cherry by a certain time, they will not only be liable to a penalty but the affected trees will be removed and the cost applied to their taxes.

"The only known method of protection from a virus disease of stone fruits like Little Cherry is inspection and removal of affected trees. The support and co-operation of all growers will be greatly appreciated," concluded Mr. Foster.

## Ferry Shuttle Service Now In Operation

Ferry service between Kelowna and the west side of Okanagan lake has been stepped up, with half-hour service being effective during the day hours. Both the new MS Lequime and the older MS Pendozi are being pressed into service as traffic on Okanagan highway No. 5 increases with more tourist and truck travel.

The MS Pendozi has now been overhauled and is back in service again. Both boats operate from 8:30 a.m. to 10 p.m., when one of the boats will be tied alongside the present ferry slip at Kelowna. Two new crews have been hired to handle the extra runs.

H. W. Stevens, government engineer stationed at Kelowna, states that the present schedule should be sufficient to handle the heavy traffic and will continue until October 31 of this year.

A complete ferry schedule can be seen in the advertising columns of this issue.

# EDITORIAL

## The First Year

Last Thursday marked completion of the first year of publication of The Summerland Review. It is a twelvemonth since the staff of this paper worked all night long to produce the initial issue. That performance was repeated the next two weeks before the many stumbling blocks were removed to allow for a more efficient operation.

The Review is now a year old and in that time it has taken an active part in numerous campaigns. It has, assisted, we feel, in the big drive for the Living Memorial fund, and has given impetus to such campaigns as the Red Cross, St. John Ambulance, Conquer Cancer, etc., besides giving publicity to a horde of minor endeavors.

In order that this desirable publicity could be possible it has been necessary to obtain support from the businessmen of the community.

The management of The Review believes that it has obtained splendid support from the business life of this community and hopes that The Review was able to give full value for this support.

We feel that The Review is being read in every home in Summerland. Our circulation figures indicate this viewpoint and our weekly newspaper is also becoming widely read in Peachland, Westbank, Kelowna, Penticton and other Okanagan points, besides those who have connections with Summerland at coastal and other Canadian points.

Our latest boost is being accepted into membership by the Canadian Weekly Newspapers Assn. This organization consists of more than 600 recognized weekly newspapers across this broad Dominion and is a group whose voice is heard in many circles.

The Review feels that, having been accepted by the CWNA as a member weekly, it is established.

We are inclined to believe that we have been a help to the community and have filled a need in community life. We have entered into several controversial issues and have disagreed with some persons and agreed with others.

This is part of the scope of a weekly newspaper, a home town paper. A spirit of complacency cannot prevail at all times and The Review feels it must step in and take sides on issues of concern to one and all, even though it cannot agree with everyone.

So, in the year to come, The Review intends to continue its policy of aggressiveness. If an issue of importance arises and there is a division of opinion, we hope to be able to declare our feelings.

We will naturally disturb some of our friends by so doing, but it will always be in a spirit of working for the benefit of the community as a whole that The Review will voice its opinions editorially. Without such a policy, no newspaper has any reason for existence.

## The Inside Story

By AGROLOGIST

Ted Atkinson has a special aptitude for converting the research into successful commercial operation. This past week he has been busy acquainting a group of fruit and vegetable inspectors with the latest information concerning processed food products. It is my understanding that the following men spent a whole week in the Summerland Fruit and Vegetable Products Laboratory:

W. Gaskill, Lethbridge; J. M. Robertson, Creston; H. Miller, Kelowna; J. M. Hay, Vancouver; H. Brown, Summerland; A. Bennis, Penticton.

These men are largely responsible for the correct grading of fruits and vegetables processed in B.C. and southern Alberta. They are responsible also for maintaining and improving the standard of fruit and vegetable products processed in these areas.

Ted Atkinson was ably assisted by Dr. Strachan who discussed technical aspects of canning with special reference to syrup cutouts net weights and drained weights.

Charlie Gitterman spoke on factory sanitation, stressing the importance of clean walls, floors and toilets, and the need for a good water supply, adequate lighting and effective drainage. He also demonstrated his pet hobby which is counting moulds in tomato products.

A good deal of the inspectors' time was devoted to examination of samples of fruits and vegetables which were processed last year. Special attention was devoted to borderline samples which were difficult to grade. In this way, the inspectors arrived at unanimity with respect to interpretation of the grading regulations. The canned products examined included prunes, cherries, raspberries, apricots, peaches, pears, nectarines, spinach, tomatoes, beans, peas, corn and pumpkin. A number of jams, purees and frozen products were also studied.

All those attending the school were highly enthusiastic regarding the benefits to the individual inspector and to the processing industry as a whole. This inspectors' school is just one more service that the Summerland Experimental Station renders to the fruit and vegetable industries.

## Right in Their Own Backyard

By REIDFORD

## THE Feminine Front

Muriel Hurry

Every woman wants to be attractive and well groomed, but many become discouraged because they have no physical beauty, and resign themselves to a dowdy and sliphod appearance.

You see them everywhere, women who gradually acquire a hopeless expression, colorless and dowdy, and looking much more unattractive than they really are in comparison with the smart women surrounding them.

These women are not altogether to blame, they honestly believe that good grooming will make little difference.

Generally they have an inferiority complex, and it is very easy to get an inferiority complex when you become a mother. When you know that nature is using your body as a machine to further her own purposes, and however willingly you have entered into the situation, once entered into, there is no backing out, you begin to feel rather insignificant. This feeling of insignificance is usually just a fleeting impression, but in some cases it persists, and real damage to the character results.

And so you see many young mothers who are letting their appearance slide. Because they are usually tired and overworked, they use the old excuse that they cannot spend either the time or the money that is required for good grooming.

Usually these women snap out of it in a few years, when the babies are school age, and once again they find themselves with a bit of time on their hands. But it is often too late then to regain a figure lost by careless treatment from five to ten years ago.

I hear so many young mothers say, with a resigned and sorry air, "Oh, it runs in the family. Mother lost her figure, and started to put on weight after she had her second baby. So did Aunt Matilda. So it's useless for me to fight against it."

Mother and Aunt Matilda were following the fashion of their time, when it was expected that young matrons would become plump. But the modern woman must smarten up. There are many and easy ways to regain that lost alhoute.

The biggest factor in the battle is time. Do not wait until you are well and strong again, following the baby's birth. At most hospitals you are started on the road to figure recovery before you are able to be out of bed. You are given exercises, encouraged to bathe yourself, and expert instruction on figure control is available.

When you are released from the hospital, your first bit of shopping should be for a good foundation garment. Your doctor will advise you on this, and his advice will usually be to buy a good, non-banded, one-way stretch elastic garment. I think the one-piece girdles with bra tops are the most effective, as they help to control that spare tire. Buy one with a good uplift bra, and then wear it, and wear it all your waking hours. Wear it from the time that you are released from the hospital until your body becomes firm and supple again, and no bulges remain.

Your doctor will probably recommend exercise before you leave the hospital. Follow his instructions faithfully, no matter how foolish they may seem, or how

friend husband laughs at your queer poses. These simple exercises do wonders for your figure, especially when it comes to flattening the tummy. Your health will improve too, and with it your morale.

This figure recovery is the biggest battle, but one well worth fighting. From then on the matter of good grooming is simplified.

Complexion care and the hair do are important. Hair and complexion are liable to become impaired during an illness, but time and care will help.

Dull coloring can be compensated by wearing sharp, clear colors, such as a red and white jacket over a navy frock, or an emerald scarf with a simple grey dress.

Choose your clothes carefully, with lines that are good for you, and that minimize your figure faults. Accentuate your good points.

Some of the smartest women I know lay no claim to physical beauty. Smart, though not necessarily expensive clothes, a good posture, a gay smile and a friendly and interesting manner are their assets. And friends and acquaintances never remark on their lack of beauty.

An interesting character is a greater asset than beauty, and an asset available to all women. It is a lucky few that have both, and then only for a short time, as beauty has an irritating habit of fading as the years pile up; but character grows, and grows faster and more permanently if you know that you are well groomed and attractive.

## FORMER LOCAL LAD CARTOONIST

In the May issue of the Country Guide there is shown a picture of R. H. Helmer, son of R. H. Helmer, Sr., formerly superintendent of the experimental station in Summerland and now residing at Langley, B.C.

In connection with the picture is a thumbnail sketch of this young man who contributes cartoons for the Country Guide. His short life history follows:

"I was born in Summerland in 1913. My first cartoons appeared on the sides of pumpkins being grown as prize specimens by the experimental farm. My art career was discouraged at this early age and my cartoons rejected.

"It wasn't until I went to high school in Merritt that my cartoons appeared again, this time in the back pages of history and geometry books. These likewise were rejected by the principal.

"I then moved to Milner and took up bush whacking but the bush grew so fast as I cut it down. I decided I would try cartooning again. This time I found someone who appreciated my art. Editors must be nearly as queer as cartoonists.

"Then came the war and five years in the air force. Two years of this time, was spent overseas; half of it as an air gunner, and the other half in hospital getting over it. At present I am building a house out of sods and old bones—falls due to the lumber shortage. I am married and have two young sons whom I hope to do the interior decorating."

## Tree Fruits Well Advanced For This Time

"Tree fruits are well advanced for this time of year," declares the regular news letter of the department of agriculture, issued from Vernon on Saturday, May 31, in reporting of the Summerland, Peachland and Westbank areas. Thinning of apricots had been in progress for about a week and peach and early apple thinning has just commenced.

"At present, the crop of Moorpark apricots appears as good as last year's although there will be less thinning needed," the report continues. "Cannery apricots are light in the Summerland area. Peaches have set heavily throughout. Although pears did not set as well as was at first anticipated, an average crop is in sight. The apple set is, as yet, uncertain but is thought to be lighter than last year.

"In many areas, field tomatoes have been set out for several weeks. These for the most part have escaped frost damage and are coming along rapidly. The first hothouse tomatoes came in last week.

The warm weather of last week aided insect activity, the report states and codling moth are emerging more rapidly, growers being busy with cover sprays. Many growers are behind schedule in spraying.

"Peach aphids were quite widespread earlier in the season but natural predators have cleaned up most of the infestations by now. Mites are already quite active in some orchards and growers are showing keen interest in control methods. Cutworm infestations have been very severe. Powdery mildew of apple is again widespread being more severe than at this stage last year.

From the Oliver, Osoyoos report comes the information that Okanagan river and connecting lakes are lower than usual and creek flows are below normal. As indicated two weeks before, the Winesap apple crop will be particularly heavy in the southern section of the Okanagan, with Delicious and other apple varieties about average.

Set on pears and cherries ranges from fair to good, while peaches and prunes have set heavily. Moorpark apricots have set heavily but other varieties are generally down.

In the Kootenay and Arrow lakes district, it is expected another heavy crop of cherries, equal to that of 1946, will be produced. Peaches, apricots and prunes are expected to show an increase over 1946.

To the north of the Okanagan, Salmon Arm district reports apples and pears setting well with prunes indicating a light crop. Cherries have set well there.

However, a tree injury comparable to boron deficiency has cropped up in the Salmon Arm district but cannot be traced to this cause. All types of tree fruits are showing this trouble and it is becoming general throughout the Salmon Arm area.

Heavy drop in soft fruits is being experienced in the Armstrong, Vernon, Osoyoos area and yields will not fulfill earlier expectations. There is a heavy drop in McIntosh and it is too early yet to anticipate how much this will effect the final yield, the report concludes.

## Pioneer Days

THIRTY YEARS AGO June 8, 1917

Five growers in the Okanagan are discussing the possibility of the Dominion government appointing a trade commission to look into the possibilities of the Oriental markets for disposal of apples. Messrs Barnes and Palmer, of the BCFGA may take this matter up with authorities when they visit Ottawa in an effort to obtain an embargo against import of United States apples into Canada.

Flour took a drop of fifty cents per barrel on all grades on Monday, the wholesale price on best grade being now \$12.90 per barrel.

Okanagan Indians hold reserves totalling 127,391 acres and valued at \$3,000,000 the Indian Reserves Commission which has sat for three years in B.C. has announced. Total value of Indian reserve land in this province is placed at \$20,000,000.

Capt. F. C. Naper, who left here early in 1915 to rejoin his old regiment, King's Own Royal Lancasters, has been killed in action. "A rest for the nerves", is the way Pte. Bedford Tingley describes his stay in hospital after being wounded when a shell exploded near his trench.

Tent caterpillars are becoming too numerous in orchards here this year, growers report.

John Kyle, director of vocational training in B.C., pointed out on a recent visit here the advisability of making preparations for the introduction of manual training and domestic science classes in the Summerland schools.

TWENTY YEARS AGO June 10, 1927

The lakeshore road to Peachland will be improved greatly this season as part of a plan of general improvements throughout the South Okanagan, states W. K. Gwyer, provincial public works engineer. Bad turns and heavy grades are to be eliminated.

In order to give additional service over their lines, the CNR is preparing to lay additional trackage at the lakefront from the co-op packing house on a curve past the old T. J. Smith wharf.

Mr. Mossop will continue as leader of the male choir, the annual meeting of that group decided.

Between fifty and sixty new pupils are expected at the central school, next term, with nearly twenty-five entering high school.

Breaking out in the front of the Stark Supply Co. store, fire soon spread to the whole building on Wednesday morning, destroying the entire stock of that company. Simpson and Gowans, the fixtures of the post office, household furnishings of Mr. Gowans and leaving many telephone communications severed. Besides this, the community loses its concert hall, which is quite a serious loss in itself. Water pressure is said to have been inadequate.

W. F. Kennedy, Conservative, defeated K. C. MacDonald, Liberal by a majority of 300 in the North Okanagan by-election.

At the home of Mrs. Thomas Dale an address to Rev. and Mrs. C. J. Coulter White was read by Mr. George Graham, expressing appreciation from the Baptist church of the devoted services they had rendered, particularly in the past two years.

More than 3,000 persons attended the big experimental station picnic on June 8, constituting a new record for attendance.

George M. Croll has been appointed a wing commander in the ICAAF, having just completed an eighteen months' staff course at Andover, Eng.

## Breakwater Site Is Set Aside

PEACHLAND—It was advised at the council meeting on May 20 that a portion of the beach be set aside for the proposed breakwater, and another portion to be kept clear for future uses. This is in accord with the building and health bylaws.

Domestic water is not to be supplied to those who obtain irrigation water for irrigation purposes, the council has pointed out. Pressure in fire hydrants is found to be low.

Miss Winnifred Valentine and Miss Mary Wildeman, of Kelowna, were visitors to Peachland on Sunday, June 1.

Rev. H. R. Whitmore, Summerland, took charge of the United church services on Sunday evening, June 1, it being missionary Sunday. Rev. H. S. MacDonald took the service in Summerland that evening.

Among those who visited the industrial exposition at Vernon were Mr. and Mrs. Redstone, Mr. and Mrs. Baptist, Mr. and Mrs. G. Topham and family, Mr. and Mrs. P. C. Gorrie and family, Mrs. E. C. Witt, Mrs. Nell Witt, Mrs. B. Munro, James Dowler, Miss Noonan, and the youngsters who participated in the May Pole dance.

Mr. and Mrs. Lawrence Sumball left last week-end by motor to spend this week at Vancouver.

Dr. and Mrs. L. A. Day left on June 10 for Banff where Dr. Day is attending the Western Canada Dental society and the B.C. Dental Assn. annual meetings.

### PEACHLAND IN BIG 10-1 WIN OVER RUTLAND

PEACHLAND—Behind the three-hit hurling of Ted Clements and a thirteen-hit attack that included six doubles, Peachland overwhelmed Rutland 10-1 at the northern town in a South Okanagan baseball league fixture, on June 1. The contest was abbreviated to six innings by a downpour of rain in the seventh inning.

Peachland jumped into the lead in the first inning as W. Cousins was safe on a felder's choice, and went to third on V. Cousins' single and scored on a wild pitch by Baoh. Clements walked. Gummow doubled to center field scoring Cousins and Clements, making the score 3-0 for Peachland. Rutland replied with its only run of the game on Naka's two errors and Bullock's single. Peachland scored twice in the second as Fulkas singled Sutherland and Ferguson across the plate. Three more runs tallied in the

third inning on singles by Gummow and Sutherland, a walk and a double by Naka. Peachland counted one each in the fourth, fifth and seventh innings when with one out, Umpire-in-chief Jack Bradley called the game. Gummow paced the Peachland offense with three hits including two doubles and Fulkas, V. Cousins, Sutherland and W. Cousins each had two hits, the latter having two doubles. Clements pitched a steady game striking out six and re-ceiving generally good support.

**SELECT CALVERT AS ZONE HEAD**

A. Calvert, president of the Summerland Canadian Legion branch, has been selected as the first chairman of the South Okanagan Legion zone. Previously, no officials apart from the zone representative were ever selected. A. W. Hanbury, Oliver, is the zone representative and H. R. Potter, also of Oliver, is zone secretary.

This zone session was held in Summerland last Sunday and members of the local Legion W.A. served tea in the afternoon.

Delegates from the local branch to zone meetings for the next year will be L. G. Perry, C. E. Bentley, Capt. A. M. Temple, W. Grant, B. B. Davis and H. Howls. Three of these men will be delegates with the other three as alternates.

Next zone meeting will be held in Keremeos on Sunday, August 17.

**CANADIAN FASHION**

Shown above, is an afternoon dress with its dropped waistline and longer skirt. The set-in sash highlights the new lower waistline and the big side bow plays up the long waist, too. Frock is made of corded cotton, has a full skirt and the matching sailor hat rounds out the ensemble making it a perfect afternoon one, that is practical as well as attractive because it launders beautifully.

**Improvements To Ellison Hall**

D. L. Sanborn, newly appointed chairman of the Ellison hall committee of the local Legion branch, reported at last night's Legion meeting that considerable change in conditions at this popular meeting place has taken place in the past month.

The septic tank has been repaired, the outside of the premises has been cleaned up and the inside walls have been given a coat of paint, greatly enhancing the general appearance.

Mr. Sanborn also reported that the municipal council has agreed to reshingle the south half of the roof and he has hopes that arrangements for a new furnace can be made this fall.

**HANDS OFF SAYS LOCAL COUNCIL**

Decision to oppose an application to tap Trout Creek water supply below Faulder was reached by the municipal council on Wednesday when notification that A. Pushkanenko is seeking a water licence was received. The applicant only desires to pump 2,000 gallons per hour for two and a half acres, his application stated.

Reeve Powell declared the council did not wish to take a niggardly stand on this subject but he believed that Summerland's attitude should be, on a broad principle, "hands off" Trout Creek water below the intake.

The council agreed with this policy and authorized the objection to be registered.

**DEFEAT FIVE-PIN TEAM**

Playing men's and mixed teams, the summer bowling league played hosts to a visiting delegation of Kelowna bowlers at the National Bowladrome last night and defeated the Orchard City five-pin trundlers three matches to one.

**GO TO HARRISON**

Councillors C. E. Bentley and Eric M. Tait will be the official delegates from Summerland to the Union of B.C. Municipalities convention at Harrison Hot Springs in September. Hotel accommodation has been arranged for these two municipal officials.

**Rehabilitation Secretary**  
will be at  
**LORNE PERRY'S OFFICE**  
Tuesdays - Fridays  
7.30 - 9.00

For advice on Pensions, see  
**C. E. Bentley**

**CEILING ON RESTAURANT PRICES ARE NOW ELIMINATED BUT**

*There will be very few changes in Meal Prices in Our Cafe*

Generally speaking we will continue our present scale of WPTB prices as long as it is possible in these days of rising levels on food commodities.

**MAC'S CAFE**

Phone 42..... Granville St.

**Teen Town**

Summerland Teen Town white-washed Osoyoos 8-0 on May 25, in Osoyoos. Both teams played smart ball for the first five innings behind effective pitching. Brawnner on the Summerland mound allowed but one hit and wiffed 10. Afield Summerland committed one miscue compared to five on Osoyoos. Nesbitt, with 3 for 4 and Moore with 2 for 4 including a triple were the big guns at bat.

On June 1, Summerland Teen Town travelled to Oliver and downed the home towners 18-10. The first three innings saw no score while the rest of the game featured timely hitting by the Summerland team who collected 16 safeties off the offerings of Becker. Combined with 11 Oliver errors Summerland was never in trouble after the sixth inning. Six hits and 2 errors accounted for seven runs in the sixth inning to clinch the victory.

Brawnner and Furuya divided the pitching chores, each allowing 5 runs, only 2 being earned.

Furuya, Nesbitt and Moore each collected 3 singles to lead the hitting parade.

**HAD MEDICAL ATTENTION**

E. A. MacDonald, popular principal of the Summerland elementary school, returned last week from Vancouver where he underwent a medical examination. Although he found that his health was not of the best his condition is far from being serious, he learned. This is the first occasion Mr. MacDonald has missed a day of school since coming to Summerland, a record held by few school teachers anywhere.

## BELIEVES BRITAIN WILL COME BACK

Mr. H. Clough, who returned last week from a visit of several months to England, has some interesting comments to make on conditions in that country.

Mr. and Mrs. Clough left last summer for a visit to their native land, leaving on the return trip on May 21. They arrived back in Summerland on June 1. Mr. Clough believes that Great Britain will fight back from her present economic disorder, but believes that labor will have to produce more before her present ills are dissipated.

There is plenty of food and other items in England, he said, but the householders are so confined in their ration amounts that they cannot obtain them in sufficient quantity.

The fuel situation has been grim, he stated, with production away down despite the fact that there are as many employed in the mines as there were six to seven years ago. However, the miners are working five days and being paid for six.

Mrs. Grace Moore and daughter of Lacombe, Alta., are visitors at the home of Mr. and Mrs. Ray Moore.

Mr. Jack Lawler and Mr. Frank Pollock were motor visitors to Vancouver at the beginning of the week.

## Socially Speaking

Social Editor : Muriel Hurry

Mrs. C. H. Sawle, of New Hazelton, is visiting her niece, Mrs. Ray York, in Summerland this week.

Mr. and Mrs. George Henry and Miss Bertha Bristow were visitors on Monday at the home of Mr. and Mrs. E. Hare of Okanagan Centre.

Mr. Bob Fuller, of the Bank of Montreal staff, spent the holiday weekend at his home in Vancouver.

Miss Nan Thornthwaite was a visitor to Vancouver over the holiday weekend.

Mr. Albert Barr, of Bangor, Sask., arrived in Summerland last weekend to visit his parents, Mr. and Mrs. H. P. Barr.

Mrs. J. Cristante and daughter, Doris, were holiday visitors to Vancouver, returning to Summerland on Tuesday morning.

After two and a half months in the local hospital, Mrs. N. Pardee left on Thursday night of last week for Vancouver where she will be the guest of Mrs. N. Yates, a former resident of Summerland. She was accompanied by Mrs. M. Mountford, who went on to Victoria to visit for a week with her daughter, Mrs. E. Aitken.

Mr. D. Charleton of Vancouver, is a guest at the home of Mr. and Mrs. T. J. Garnett.

Mr. and Mrs. Russel Minshull and family of Keremeos were guests at the weekend at the home of Mr. Minshull's parents, Mr. and Mrs. E. J. Minshull.

A. Advocaat is a Vancouver visitor this week.

Dianne Cooper of Trail is a holiday visitor at the home of her aunt, Mrs. Edna Boothe.

## HEATHER EDDY CROWNED QUEEN AT PEACHLAND

PEACHLAND — Crowning of Queen Heather Eddy highlighted the big May 24 celebration in Peachland, which attracted many visitors besides local residents. Arrangements for the celebration were under the charge of the Parent-Teachers' association and members of that organization had worked very effectively for all arrangements.

Queen Heather was beautifully gowned in a white lace gown over which she wore a velvet cape of Royal purple.

The princesses, Shirley May Gerrie and Doreen Clements were also attired in white lace, dotted with bows of blue and pink velvet ribbon.

The queen was presented with a silver bracelet and the princesses received diamond brooches. Reeve A. E. Miller making the presentations.

Also in attendance were Shirley Cousins, flower girl and Wayne Gillis and Don Williamson, page boys.

The May Pole dance was colorful and quite attractive, while the races, for the younger people had many participants vying for the prizes.

The ball park was enlarged for the occasion and the baseball club had also spent many hours in preparing the track for the races.

Many unusual pets were exhibited in the annual pet parade which was an opening feature of the day, at 10:30 o'clock Saturday morning.

As a fitting conclusion to a great day, two games of baseball were held, the last being between the single and the married men, causing many a laugh.

Mr. and Mrs. Carl Fraser, Whitley Lake, Alta., were visitors to Peachland on May 28.

Mr. and Mrs. Frank Gerlukt, of Osoyoos and Mr. and Mrs. C. G. McDougald, Summerland, were visitors to Peachland on May 25.

Mrs. M. Twiname spent the past week-end at Armstrong, taking in the Vernon-Okanagan Exposition en route.

Mrs. B. Lamb left Friday for Edmonton, where she has been called due to the illness of her father.

Mrs. E. Fischbacher was a recent visitor to Summerland, as a guest at the home of her son-in-law and daughter, Mr. and Mrs. D. Weis. Mrs. Fischbacher was en route from Vancouver to New York, from where she sails on June 18 on the "American" for Cherbourg, France, with Switzerland as her final destination.

Mr. T. McKay was a visitor to Trail at the weekend, from where he returned on Monday, accompanied by Mrs. McKay and their small daughter, Marilyn. Mr. and Mrs. McKay and family will make their future home in Summerland, and have taken up residence on the Station road.

Mrs. A. Hurry was a visitor to Vancouver at the weekend, and was accompanied on her return by her small son, Ronald, who has been a patient in the Children's hospital there for the past three months.

Mrs. Bill Ritchie left at the weekend for Lillooet to join her husband, who is employed there.

## Miss P. Blacklock Guest of Honor

Miss Pat Blacklock, whose marriage is an event of the coming week, was guest-of-honor at a miscellaneous shower held on Thursday afternoon, June 5, at the home of Mrs. Howard Milne, who was co-hostess for the occasion with her sister, Mrs. Blake Milne.

The decorative scheme and the presentation of the gifts were both original and charming.

Pink and white streamers from the table, behind which the bride-to-be was seated in a decorated chair, rose to gather at a chandelier, forming a bower for the bride-elect. Poetical notes were attached to the ends of the streamers, informing the bride where the many lovely gifts were hidden.

Refreshments were served at the close of the afternoon, with Mrs. F. W. Haskins and Mrs. D. L. Milne pouring. There were about 25 guests present.

### FORMER LOCAL MAN PASSES

Funeral services were held at Mill Bay United church, Victoria, on Tuesday, May 27, for James Robertson Sutherland, aged 72, who had lived for twenty years in the Summerland district. He died on Saturday, May 24, at his home at Shawnigan lake.

A native of Winnipeg, the late Mr. Sutherland served in World War I and then moved 23 years ago to Summerland where he purchased a fruit orchard in Peach Orchard. This orchard has lately been owned by A. Cameron.

He moved to Shawnigan lake three years ago.

Because of ill health he did not take an active interest in community endeavors here but had a wide circle of acquaintances. He was a member of the Masonic order in Winnipeg.

The late Mr. Sutherland was a grandson of the late Senator John Sutherland, of Winnipeg.

Besides his widow he leaves a son, Gerald, at home; one sister, Mrs. J. W. Gunn, Winnipeg; and two brothers, D. L. Sutherland, Penticton and W. H. Sutherland, Chilliwack.

### Princess in Charming Style

PRINCESS ELIZABETH is once again making public appearances, this photo showing her as she appeared while attending the annual Court of Governors of the Queen Elizabeth Hospital for Children at Hackney, London, recently. Charmingly attired in a striking fur cape, the Princess accompanied Queen Elizabeth.

### Legion W.A. Tea Is Huge Success

The W.A. to the local branch of the Canadian Legion held its annual spring tea and sale at the Legion Hall on Saturday afternoon, May 31.

There was a good crowd reported present, with ten tea tables filled during the afternoon. About \$100 was realized from the sale and raffles.

The first prize in the drawing, a lovely cutwork linen cloth, was won by Miss Rose Berlinger, while the second prize, an attractive cushion cover, went to Mr. J. R. "Tim" Armstrong. A chocolate cake which was given away was won by Mrs. H. Lemke.

An interesting program entertained the guests during the afternoon. Shirley and Joyce Schumann were feature attractions, and the Gr. 5 girls' choir gave some excellent numbers. Miss C. Thornburn's Gr. 2 boys were a credit to her training, when a choir of small boys, the "Kitchen Ribbon Band", gave several numbers. Also from her class were the two small boys who gave a solo, "Chinese Cousins". These boys, Richard McDougald and Billy Dunsdon, were in Chinese costume, and drew a great deal of favorable comment.

Mr. and Mrs. L. Fudge spent four days last week on a visit to Grand Coulee dam and other Washington points.

### FAMILY HERE FROM SCOTLAND

Mr. and Mrs. David McLure and children, Nancy and Campbell, recently of Glasgow, Scotland, were visitors last week at the home of Mr. Lloyd Gartrell.

Mr. and Mrs. McLure and family crossed on the Aquitania, docking in Halifax on May 25. They arrived in Summerland on Monday, June 2, after being met in Kelowna by Mr. Gartrell.

The McLures are one of those Scottish families who were so good to Canadians when they were overseas, and it was in this way that they became such fast friends of Mr. Gartrell, who was stationed in Scotland for some time. Having heard of the beauties of Canada, and especially B.C., heralded by so many of the lonesome soldiers, the McLure family decided to see this wonderful country for themselves, and lost no time in booking passage.

They are not disappointed, and after seeing a little more of B.C., will make Canada their future home.

Mr. and Mrs. McLure and family are in Vancouver.

### DUNSDONS TOP SHOOT

Winner of the weekly rifle shoot at the Summerland range June 1st was A. R. Dunsdon, with a high of 93. In fact, the Dunsdons made a clean sweep of all the top positions, G. M. having 91, Ted and Phil 89 and E. W. 88. Other scores were: L. Shannon, 84; Ed Gould 82, W. C. W. Fosbery 81, H. Dunsdon 80, J. McLachlan and R. A. Fredrickson 76, O. Smith 75, D. Taylor 70, A. W. Moysis 67.

Mr. and Mrs. L. H. Hill left on Friday to spend a ten-day holiday fishing in the Shuswap area.

### C.C.F. Takes Strong Stand Against Labor Legislation

Labor legislation was the topic chosen by Arthur Turner, M.L.A. for Vancouver, East, when he addressed a public meeting held at the home of Mr. and Mrs. H. Lemke, on Wednesday evening, June 4. This meeting was sponsored by the local CCF club.

Mr. Turner discussed at some length the Industrial Conciliation and Arbitration Act, or, as it is more commonly known, Bill 39, an act passed by the recent session of the legislature and which went into effect on May 15.

This act, stated Mr. Turner, places great and unfair restrictions on labor and labor unions. At the recent sessions of parliament the CCF party did all within its power to combat these restrictions by introducing 51 amendments to the act, most of which were rejected, continued Mr. Turner.

Mr. Turner spoke with authority on U.S. labor acts, and on government action on the recent U.S. strikes, stressing the point that industrial organizations are ineffective when they are dependant for legislative action on non-labor governments, which are at this time trying to check the growing power of labor unions.

Company Unions  
Among the many amendments introduced by the CCF members to Bill 39, and which were rejected by the coalition, were those to delete all references to company unions, which Mr. Turner described as the "creature of employers" used to encourage employees not to enter bona fide unions; an amendment touching on the lessening of the waiting time between the development of negotiations and arbitration by board; an amendment aimed at giving more union security; and an amendment asking for direct representatives of unions to sit on boards of conciliation.

This act also states that unions can be fined, which had been unheard of, as unions are legally non-existent, stated Mr. Turner, who thought that this act showed the "viscious attitude" of the coalition toward labor, and continued: "This condition will alienate workers and discourage industrial harmony."

Amendments introduced by the CCF to this bill also touched upon discrimination shown by employers toward employees for union activities, supervision of strike votes, organizing, and restrictions placed on the organizing of unions; arbitration boards, and section 72 of the act.

ities, supervision of strike votes, organizing, and restrictions placed on the organizing of unions; arbitration boards, and section 72 of the act.

**On Thin Ice**  
"Labor unions rest upon thin ice when they rely on legislation", stated Mr. Turner, who went on to say that as a result of Bill 39, direct participation of unions in political action must come if security is ever to be obtained for unions.

That the CCF intends to interest labor in direct political action was shown when Mr. Turner gave the following statement to The Review for release. This official decision was reached by a CCF executive board on Saturday, May 31, and is officially made public for the first time in this statement by Mr. Turner.

"The CCF will shortly embark on a campaign inviting the affiliation of trade union locals to its organization. Affiliation is only welcome, when the local unions, by referendum vote, and with at least a two-third majority, have expressed their desire to become officially associated with the CCF."

Mr. Turner was introduced by Mr. Herb Lemke, president of the Summerland CCF club, and spoke before a fair audience.  
This is the first visit to Summerland for Mr. Turner, who is making a tour of the South Okanagan, and he was favorably impressed with the district.

The Lakeside United church choir held a social evening on Thursday evening, May 29, in the Lakeside United church hall, bringing to an end the season's activities. About 25 members were present, and games and refreshments were enjoyed. The choir will resume activities early in September.

### JUNIORS WALLOP PENTICTON 17-2

After spotting them two runs in the first stanza, Summerland junior ball twirlers settled down in earnest and handed Penticton Legion juniors a terrific pasting, winning 17-2 in seven frames, at Crescent Beach on Sunday, June 1.

To Gilbert Jacobs, on the mound and Wally Day, who batted four for four and handled four nice chances at third without a miscue, go top honors in an exhibition which was nearly as good as the senior game.

Only one Penticton batter, Evans, was able to touch Jacobs deliveries as he whiffed the horsehide past eleven opposing hickory wavers and generally upset the decorum of the visiting Pentictonites. Five runs in the second left Summerland with a 5-2 margin and the result was never in doubt from then on.

Two pitchers, Swift and Campbell, endeavored to stem the Summerland tide but to no avail. The boys had the bit in their teeth and there was no stopping them. This Summerland aggregation was composed of players from the three-team junior league operating at Crescent Beach each week under the direction of Les Gould and the A.O.T.S.

### Holiday Track Meet Held For Local Youngsters

Youngsters had the time of their life on Saturday morning, May 24, when they congregated at the school grounds for the annual children's track races sponsored by the board of trade. Besides the prizes for the first three winners, every youngster was given a five-cent piece to buy an ice cream cone.

The committee in charge of this branch of board of trade activities over the holiday week-end comprised Aart Advocaat, George Washington and Gordon Beggs. Starter was A. K. Macleod and other officials were Walter Bleasdale, Joe Sheeley, and Earl Wilson.

Results of the races follow:

Boys, 6 and under—1, Doug, Holmes; 2, Eddie Menu; 3, Bobby Sheeley and Eddy Matsu, tied.

Boys, 8 and under—1, George Stohl; 2, Kenny Bisette; 3, Richard McDougald.

Boys, 10 and under—1, Cecil Clark; 2, Geoffrey Solly; 3, David Bowler.

Boys, 12 and under—1, Gerald Washington; 2, Ronnie Huff; 3, Graham Munn.

Boys, 15 and under—1, Basil Thornthwaite; 2, Denny Hack 3, Graham Munn.

Girls, 6 and under—1, Penny Mallot; 2, Ann McLeod; 3, Georgina Inglis.

Girls, 8 and under—1, Loretta Inglis; 2, Sheila Bennison; 3, Joyce Fraser.

Girls, 10 and under—1, Doreen Fleming; 2, Shirley Burnell; 3, Irene Menu.

Girls, 12 and under—1, Claudette Geary; 2, Eileen Raincock; 3, Anne Brlekovich.

Girls, 15 and under—1, Ruth Klux; 2, Barbara Metters; 3, Evelyn Heichert.

Boys, 18 and under—1, Jack Dunham; 2, Ed Kita.

Sack race, boys—1, Ed Kita; 2, Jack Dunham.

Girls, 18 and under—1, Ruth Klux; 2, Evelyn Heichert.

Sack race, girls—1, Barbara Metters; 2, Evelyn Heichert.

High jump, boys, 15 and under—1, Denny Hack; 2, B. Thornthwaite.

High jump, boys, 18 and under—1, Denny Hack; 2, Ed Kita.

Broad jump, boys, 15 and under—1, B. Thornthwaite; 2, E. Kita.

High jump, girls, 15 and under—1, Ruth Klux; 2, Shirley Wilson.

High jump, girls, 18 and under—1, Ruth Klux; 2, Shirley Wilson.

Broad jump, girls, 15 and under—1, Dennis Johnson; 2, Evelyn Heichert.

### Teen Town

By MIKE

On Wednesday, May 28, we held our regular council meeting at the home of Alderman Joan Howard. All the council were present including our three adult advisers. Among the things discussed were: Harry Daniels was to ask some of the kids about forming a Dramatics club.

A schedule has been made out for the coming baseball games.

We have received a letter from Kelowna Teen Town asking us if we wish to enter a float in their July 1st celebration; a Teen Town queen is to be entered also. A letter has been sent to Kelowna requesting more information on this. Shirley Harvey is head of this committee.

The Teen Town dances are drawing to a close but there is still one more. This Friday will be the last so let's try and make it one of the best. Among the entertainment are films that will start shortly after eight.

Among students from coast schools who are home for the summer vacation, are the Misses Daphne and Jocelyn Boyd, daughters of Mr. and Mrs. W. Boyd. The Misses Boyd attend Strathcona Lodge on Vancouver Island, and Miss Daphne Boyd was the honored winner this term of the school's Purple Ribbon, indicating the most popular student of the year. This same honor was won last year by her sister, Jocelyn.

### EYE REST

Tips on sight saving come from National Health Headquarters at Ottawa. Rest your eyes at frequent intervals, when doing close work. Look at a blank wall or some distant object. Use your eyes sparingly during illness or convalescence when they are particularly susceptible to fatigue, and always read with adequate, steady light, properly located. Avoid reading in bed for extended periods, or in moving vehicles.

Mr. and Mrs. Harry Howis returned on Friday from a visit to the coast.

### CENTRE TENNIS TEAM BEATEN

Playing on their home board courts, Summerland tennis enthusiasts were not the best of hosts on Sunday June 1 when they turned back a team from Okanagan Centre, with nine wins, two losses and one match a draw. The Summerland tennis team will travel to Okanagan Centre for a return series on Sunday, June 15.

In the men's doubles, Summerland won three and drew one. Fudge and Russel defeated Van Ackerman and Baker 6-4, 6-2; Cornwall and N. O. Solly drew with Land and Fallow, 6-2, 4-6 and won from Van Ackerman and Baker, 6-2; Macleod and P. Dodwell defeated Land and Fallow, 6-2, 6-2.

Ladies' doubles were even with two wins apiece. Mrs. Dodwell and Miss S. Harrison lost to Mrs. Hare and Mrs. Fallow, 2-6, 2-6 and won from Mrs. Van Ackerman and Mrs. Baker, 6-2, 6-0; Mrs. Russel and Mrs. N. Solly lost to Mrs. Hare and Mrs. Fallow 1-6, and defeated Mrs. Van Ackerman and Mrs. Baker, 6-3, 6-4.

All mixed doubles games went to Summerland couples. Fudge and Miss Harrison defeated Mr. and Mrs. Fallow 6-4; Pudney and Mrs. Russel defeated Mr. and Mrs. Van Ackerman, 6-4; Mr. and Mrs. P. Dodwell won from Mr. and Mrs. Baker, 6-3; and Mr. and Mrs. N. O. Solly won from Land and Mrs. Hare, 6-3.

### LOCAL BOWLERS IN VERNON MEET

Summerland bowling teams, competing for the Okanagan championship at Vernon the first day of the big exposition, fared well but on Friday Kelowna five-in open teams competition, Kelowna No. 1 team with 3,458 points was top winner, Kelowna Motors were second with 3,218 and Summerland Legion team was third with 3,174.

The Okanagan Exposition trophy went to Kelowna Motors with a score of 3,699. McGavin's Bakery, Kelowna, had 3,495 and Revelstoke Regents with 3,382 were third.

The Merchants' team composed of Phil and Jack Dunsdon, Jim Heavysides, Joe Lamey and Harry Ruppel rang up 2,937 in trophy competition. The Summerland Legion squad had 2,840 points and was composed of Jack Walsh, Rube Huva, Don Clark, O. Quissette and Ed Lloyd.

In the open teams play, another Legion team of Mait Kersey, O. Quissette, Don Clark, Rube Huva and Ed Lloyd, had a total of 3,174. A second Legion team of Mait Kersey, Don Clark, Jack Walsh, B. Hankins and W. Grant failed to come up to that score. Summerland lady bowlers were also represented in team competitions, this crew being composed of Mrs. H. Short, Mrs. Chas. Smith, Mrs. J. Gloyn, and Misses R. Smith and Evelyn Reid.

Mrs. June Lamey and Miss Nan Thornthwaite participated in ladies' singles play last week.

Mr. and Mrs. A. J. Adams, of Vancouver, have now taken up residence in their new home in Garnett Valley, adjoining the Felker property. Mr. Adams, who is a nephew of Jim and Harry Dunsdon, recently purchased this property from the council.

**SELLS HIS PROPERTY**

Mr. Aart Advocaat disposed of his fruit orchard property last week to Mr. Adam Stein, uncle of William Stein of this district, from Wetaskiwin, Alta. Poor health caused Mr. Advocaat to dispose of his property, he stated. He has gone to the coast for a visit of some three weeks and intends to settle on a smaller property in the Fraser Valley if such a location is available.

**FREE SWIMMING CLASSES** provided through the efforts of the Summerland Board of Trade, will commence on Wednesday, July 2, it was announced last weekend by Mel Ducommun, in charge of registration and transportation committee.

Three important committees have been selected to carry out the swim classes this year. Besides Mr. Ducommun, the instructors' committee is being headed by Cecil Wade and the beach supervision and property committee is under the direction of Walter Bleasdale.

In order to pay for transportation costs, each registration must be accompanied by one dollar. Arrangements have been made to transport the children to Powell Beach each Wednesday afternoon with Smith & Henry and White & Thornthwaite buses.

Children from 5 to 15 years, inclusive, will be accepted for these swim classes, but registration must be completed by Monday next, June 16, in order to allow the committees time to complete arrangements for the classes and line up instructors.

It was agreed at a recent board of trade meeting that instructors should be given remuneration of \$1.50 per afternoon in lieu of the time they spend at Powell Beach instructing the youngsters.

**Baseball**

**Red Sox Eke Out Narrow Ball Win Here**

Summerland ball fans were treated to the best brand of baseball this season at Crescent Beach on Wednesday evening, June 4, when Kelowna Red Sox staved off a last-minute push by Summerland Merchants to eke out a narrow 8-7 win.

It was a hard-hitting exhibition throughout with two Kelowna pitchers being used to keep the Summerland hitters away from the bases. Bill Evans went the seven innings for the Merchants and handled the situation well although he was in trouble many times.

Weak spot on the Merchants' lineup was Hankins, at second base, who had a decidedly off day. On the other hand, Jackie Walsh played his best game of the year to handle four chances without a miscue, at the hot corner.

Things looked black for the Merchants as Tostenson lined out a double and Newton a triple for two runs at the outset of the game. Kuroda came back with a double, Clark singled, but Kuroda was nipped at the plate Hankins connected to drive Clark home for the first Summerland run.

The second was a heart-breaker for Evans when he struck out Eddie Kilbiski only to have Clark drop the third strike and then leave it into the dirt in front of first base. Franklin singled and both runners advanced on Lesmeister's sacrifice. Hicks scored Kilbiski and Franklin came home on Hankin's wild heave.

Kelowna's scoring ended in the fourth with four big tallies. Three hits, two walks and an error accounted for these four runs, only one of which was earned, as the error came when two men were down.

But Summerland began to fight back. With two away in the fourth Walsh beat out an infield grounder which Franklin juggled just too long. Thompson walked and Amm drove Walsh home.

Two more runs were added by the locals in the fifth on singles Lesmeister; passed ball, Newton; hit by pitch Thompson by Cousins; by Clark and Kuroda. Both runners scored when Newton tossed umpires, Zaccarelli and Moore.

**Box Score**

**Summary:** Stolen bases, Tostenson, F. Kitch, Newton, Clark, Hankins, Amm; Imayoshi; sacrifice hit Lesmeister; earned runs, Kelowna 3, Summerland 4; two-base hits, Tostenson, F. Kitch, Kuroda, Amm; three-base hit Newton; bases on balls, off Lesmeister 1, off Cousins 2, off Evans 4, struck out, by Lesmeister 4, by Cousins 3, by Evans 4; wild pitch, Lesmeister; passed ball, Newton; hit by pitch Thompson by Cousins; by Clark and Kuroda. Both runners scored when Newton tossed umpires, Zaccarelli and Moore.

**Call For Registration Of Swim Class Pupils**

Free swimming classes, provided through the efforts of the Summerland Board of Trade, will commence on Wednesday, July 2, it was announced last weekend by Mel Ducommun, in charge of registration and transportation committee.

Three important committees have been selected to carry out the swim classes this year. Besides Mr. Ducommun, the instructors' committee is being headed by Cecil Wade and the beach supervision and property committee is under the direction of Walter Bleasdale.

In order to pay for transportation costs, each registration must be accompanied by one dollar. Arrangements have been made to transport the children to Powell Beach each Wednesday afternoon with Smith & Henry and White & Thornthwaite buses.

Children from 5 to 15 years, inclusive, will be accepted for these swim classes, but registration must be completed by Monday next, June 16, in order to allow the committees time to complete arrangements for the classes and line up instructors.

It was agreed at a recent board of trade meeting that instructors should be given remuneration of \$1.50 per afternoon in lieu of the time they spend at Powell Beach instructing the youngsters.

# Loss Of Old C Apple Market Blow To Okanagan

The last hopes of any export of apples to the United Kingdom during the coming season have just about flickered out, according to the latest information from England, and growers and their sales agency will now have to operate on the assumption that the large apple crop in sight will have to be marketed elsewhere. The grave problem created by the loss of a market which last year consumed two and a half million boxes of B.C. apples will call for every effort by orchardists as well as the sales and merchandizing staff of B.C. Tree Fruits Limited, officials state.

The action of the British government in issuing instructions that no money would be available for the purchase of deciduous fruits in 1947 not only affects Canada and the United States, but it is a severe blow to South African deciduous growers who have depended almost entirely upon the Old Country as a market for their export production. The shutting off of the importation of fruit from South Africa, which country is in the Sterling block, indicates the critical financial position of Great Britain.

**Nova Scotia Problem**  
Since the United Kingdom imports deciduous fruits from many countries, the loss of this market creates another problem inasmuch as those other countries excluded will be struggling for other world markets. Also, Nova Scotia growers who shipped even larger quantities than British Columbia to Great Britain last year will have to market their entire crop elsewhere.

In the past the United Kingdom has provided the outlet for nearly all the smaller sizes of Okanagan apples, so it has become evident that no apples smaller than 180's (approx. 2 1/2 inches) can possibly be marketed this year. The only use for the extremely small apples will be for juicing. With the existence of very heavy inventories of apple and other juices in the North American continent today, certainly it will not be profitable to produce apples just for juicing. So, growers will have to start work immediately to produce sizes acceptable on all highly competitive markets which may be open to British Columbia apples. It is emphasized that while these markets do not desire small apples, neither do they want overly large sizes.

**Thinning Practices**  
How to thin and institute other orchard practices to obtain these sizes is largely a matter for individual growers. Soil and other conditions vary so much in local large producing areas that it is impossible to set down hard and fast rules. Should new growers not be well acquainted with conditions controlling size in their orchards, they should consult their nearest provincial horticulturist. Of course, even after the grower has done his utmost the weather can change sizes.

To obtain desirable size, a target must be set and it should be for a minimum size of 2 1/2" for all varieties except Delicious and Rome, which should be 2 3/4". The maximum target should be 3 1/16" for all varieties except Delicious and Rome and the maximum for these should be 3 1/4". To obtain a range within these sizes "bull's-eyes" should be aimed at and they should be as follows:

Duchess, Transparent, Wealthies, Winesaps Spitzbergs and Winter Bananas, 2 15/16"  
McIntosh, Spys, Grimes and all sundries, 2 3/4"  
Staymans Newtowns and Wagners, 2 13/16"  
Delicious, 2 3/4"  
Jonathans, 2 3/4"  
Romes, 3"

No one can hit the "bull's-eye" all the time, but the above are the sizes to shoot at and if all growers will make a sincere effort along these lines, they will judge it well worthwhile when the final returns are out the next year B.C. Tree Fruits officials state.

"Unfortunately a press despatch was published a week or so ago which stated that British Columbia fruit growers were not greatly disturbed at the loss of the United Kingdom export deal. Nothing could be farther from the truth. No one connected with the British Columbia fruit industry would give such a slap in the face to our best customer, even if it were true. The facts are that everyone interested in the distribution of B.C. apples is gravely concerned regarding the present situation. Further, no efficient selling organization can afford to lose any market any time and not be concerned about it," the official statement concludes.

## LOCAL ENTRIES IN NARAMATA SHOW

Miss Doreen Tait was winner of first prize for the best individual roses in the Naramata Flower Show, held in the Naramata Community hall on Wednesday, June 11.

Although there were only two entries from Summerland in the flower show, they both won prizes, as William Snow won a second in the best of six varieties class.

Those attending the show from Summerland were Mrs. M. Collas, Mrs. Verity and Miss Edith Verity, Mrs. Magnus Tait and Miss Doreen Tait.

This show, staged by the newly formed Naramata Women's Institute, was in charge of Mrs. R. Partridge, Mrs. R. W. Craig and Mrs. W. Sammet, secretary. Judges were M. B. Middleton, of Vernon and R. P. Murray, Pentiction. There were 110 entries.

## APPROVE SPRINKLERS

Application for irrigation sprinkling privileges were approved by the council yesterday afternoon from Capt. A. M. Temple, C. J. Bleasdale and L. W. Mountford.

## May Open New Hospital Wing In September

Possibility that the new maternity wing and nurses' home will be completed and equipped by September was voiced at the June meeting of the Summerland Hospital Society on Tuesday evening.

Plans will be made for an official opening day with invitations extended to municipal and provincial government officials to attend.

Exact date of the opening will be set later in the summer when the buildings have reached a more definite shape.

Efforts are being made to interest more organizations and individuals to make donations towards equipping the new wards in the maternity wing and to provide equipment for the nurses' home.

Some splendid donations have already been received but further contributions are being sought.

Due to the rising cost of materials and labor, the new buildings are being erected at a cost greater than the original estimated cost of construction and equipment.

Commenting on the construction work undertaken by W. M. Jenkinson, the architectural firm of Gardiner & Thornton, Vancouver, which drew the plans, expressed surprise at the excellent class of work which has gone into the building.

"The care and first-class workmanship which has gone into the buildings will prove a credit to all concerned," was Mr. Gardiner's opinion.

## Raise Nurses Salaries By \$20 Per Month

Adoption of the new scale of nurses salaries will become effective on July 1, the Summerland Hospital Society board of directors decided at the monthly meeting on Tuesday evening. This decision means an increase of \$20 per month for all nurses.

The new scale of salaries as issued by the registered nurses' association calls for a starting wage of \$140, with four raises to \$185. The present scale at the Summerland hospital is \$120 to \$135.

No change has been made in the living allowance charge, which is still on the original basis of \$25 per month.

Until the hospital finds itself unable to finance further, no increases will be made in the ward rates despite this increase in salaries. It was agreed on Tuesday. It was thought that the ward rates are as high now as the public can stand and the hospital will have to carry on at its present standard.

Miss Pauline Pearson has resigned from the nursing staff at the local hospital and will be leaving shortly for Ocean Falls. Her position will be filled by the house committee, as the hospital society does not meet again except for special meetings until September.

An insurance company has made tentative suggestions regarding its taking over the hospital insurance scheme and a representative will visit here next month to discuss all angles. This company has taken over a number of similar insurance schemes in the province, one of the latest being that of the Salmon Arm hospital group.

The local hospital society has been informed by the Department of Transport that it must either have a room lined with copper for its diathermy machine or purchase a new machine. This machine is creating a disturbance at certain wave-lengths, the report stated.

Meeting of the B.C. Hospitals Assn. is being held in Victoria, October 28 to 31, the meeting was informed.

Mr. Broyan Riha, of Vallejo, Cal., is visiting this week at the home of his grandparents, Mr. and Mrs. J. T. Washington.

# Summerland Review

Vol. 2, No. 24

West Summerland, B.C., Thursday, June 19, 1947

## OKANAGAN CHIEF MAGISTRATES JOKE OVER SIZES OF THEIR RESPECTIVE "VILLAGES"

Considerable friendly rivalry was noted at the luncheon tendered by Summerland municipal council to the visiting Okanagan Valley Municipal Assn. at the Legion hall, Summerland, on Thursday, June 12.

Reeve Robert Lyon, Pentiction, started the fun when he spoke as representing the biggest municipality in the Okanagan Valley.

Mayor Hughes-Games, Kelowna, was not to be outdone and he announced he represented the biggest city of the Okanagan.

Next in line was Mayor David Howrie and the luncheon wondered what superlative he could use to determine the ever-growing City of Vernon. He was content to bring the session down to earth by jocularly referring to his community as the "Village of Vernon".

Mayor W. R. Powell, on welcoming the visitors to Summerland, declared that "we in Summerland are not very ambitious to grow into a big city, but we are content to keep the people busy, prosperous and happy."

Thanks of the visitors to Summerland municipality were extended by Mayor Fred Scott, Kamloops, association president.

## Graduation Class Exercises Friday

At three o'clock on Friday afternoon, June 20, the graduation exercises of the Summerland high school will be held in St. Andrew's United church, West Summerland.

Presentation of the Summerland scholarship will be one of the features of the graduating exercises. Selection of the pupil to receive this second annual award was made on Monday afternoon but no announcement will be made until tomorrow afternoon.

An address by C. J. Huddleston and the valedictory address by a member of the graduating class will be other features of the program.

## SUGGEST PICNIC ON GIANTS HEAD

Those who wish to participate in a short but strenuous hike will be given an opportunity to join with board of trade members in a picnic at the top of Giant's Head. It was decided on Thursday night when the June meeting of the trade board was held in the IOOF hall.

Reid Johnston, board past president and one of the most enthusiastic advocates of a road being built to the top of Giant's Head, mainly as a tourist attraction, suggested that the board arrange a picnic some week-end.

In this request he was given some enthusiastic response and the executive was empowered to arrange for such a picnic hike, not to be confined to board members.

A. K. Macleod informed the board that on two successive Sundays a jeep had driven to the top of Giant's Head without benefit of a roadway.

## Elementary School to Be Modern Building

Complete details of the planned development of the Summerland elementary school into a modern educational unit, designed to be as modern as any school in the province, were given board of trade members in the IOOF hall on Thursday night by Col. J. N. Burnett, school inspector and Principal S. A. MacDonald, of the elementary school.

Mr. MacDonald provided his listeners with details to show how badly further accommodation is needed in the local school. The present building was designed for eight classrooms. Enrolment in April was 444 and in September there will be 480 pupils, at a conservative estimate.

This enrolment requires thirteen divisions, stated Mr. MacDonald, "and you can readily see the almost impossible situation this is, to try and fit in thirteen classes to eight rooms."

The basement is full and there are forty pupils in the library building, he continued. The basement condition could be worse but it is far from satisfactory for children, he stated.

Col. Burnett then took up the discussion with the statement that the school board has acted wisely in its building plan. School requirements up to 1954 have been estimated but it is hard to gauge high school requirements, as pupils tend to drop out of school from grade 9 onward.

"We expect more to remain in high school now as we are providing more fundamental courses" he explained.

Commenting on the proposed changes to the elementary building Mr. Burnett explained that the recess in the front will be eliminated and will thus provide extra space. The present principal's room on the left of the entrance will be extended and brought right across the recess to provide a male teachers' room.

Also on the first floor will be a

## Greece Relief Fund Starts Here This Week

With UNRRA operations in Greece ended, the current Canadian Relief to Greece appeal calls upon citizens of Canada to provide \$1,500,000 to help plac a vital role in their health program.

Citizens of Summerland are being asked to join with their fellow British Columbians in contributing to this humanitarian cause.

The plight of the people of Greece is difficult to realize. One million men, women and children lost their homes and possessions in the flames of their burned villages which were devastated by the Nazis. Today they live like animals in caves and lean-tos.

The Greeks fought valiantly on the side of the Allies to defeat the Axis. Of 7,000,000 freedom-loving Greeks, 83,700 were casualties in action; 391,600 were starved or executed, leaving 375,000 orphaned children.

In addition to two million undernourished children, there are 550,000 tubercular cases, 2,000,000 malaria victims and 24,000 disabled veterans, for whom medical supplies are urgently needed.

Contributions may be sent to any branch of the Royal Bank of Canada, or to Provincial Headquarters, Royal Bank, Hastings and Granville, Vancouver B.C. Official receipts will be issued to all donors for income tax deduction purposes.

In Summerland Mr. H. E. Woodford of the Bank of Montreal is taking subscriptions.

## Municipalities Urge Clarification Of Acts By BC Government

Inequalities in the school, taxation and municipal acts, which are tending to take the power away from the municipal act and thus deprive municipal councils of their jurisdictions should be remedied at once and a clarification of the entire picture provided, the Okanagan Municipal Assn. convention in Summerland last Thursday afternoon, June 12, decided with particular emphasis. Pentiction delegates led the resolutions on this subject, but received immediate support from Summerland and Kelowna delegates.

Municipal officials from Kamloops to Pentiction gathered at the Legion hall Thursday afternoon for the quarterly session of the association, which is in preparation for the Union of B.C. Municipalities session at Harrison Hot Springs in September.

Reeve Robert Lyon, Pentiction, introduced the inequalities which can be found in the school act and pointed, first of all, to the discrepancy in voting powers between those who reside in organized districts and those who are outside municipal boundaries.

He pointed out that in school district 15, only those who hold property can vote on a school bylaw if they reside in the municipalities of Summerland and Pentiction, while persons resident in Naramata, Kaleden and Allen Grove can register a vote on the same money bylaw provided they are on the provincial voters list. Thus a man and his wife can vote in unorganized territory plus persons who do not own land at all.

Councillor J. W. Johnson, also of Pentiction, declared that the municipal act is no longer the ruling act and is being over-ridden by the school and library acts. Power is being taken away from the councils and municipalities and vested in other groups who are not responsible for the financial arrangements, he objected.

**Urges Clarification**  
Reeve W. R. Powell, Summerland pointed out that there are so many discrepancies of a like nature to those which Pentiction had pointed out that the municipal association should take steps to try and get an interpretation and clarification of the three acts.

This suggestion met with unanimous approval of the meeting.

Another Pentiction resolution which has a local bearing, called for the definitions of the word "improvements", as contained in the municipal, public schools and taxation acts, be amended to read, mean and be interpreted as one and the same thing. This resolution was carried without comment.

It has a direct bearing on Pentiction School District 15, as this point has caused the discrepancy in assessment valuations between Pentiction and Summerland. Summerland has always assessed trees as improvements under the municipal act, whereas Pentiction has never included them.

Under recent interpretations of the school act, commercial fruit trees are not included in assessments improvements and Summerland municipality has been endeavoring to have fruit trees cut out of its portion of the assessment roll for school purposes. But Victoria will not provide a ruling on the controversial subject.

**Amend Provision**  
Another Pentiction tangle which was aired on Thursday dealt with the Municipal Incorporation Act, which precludes a city municipality being formed if more than 2,000 acres are involved. Pentiction wished to have this provision repealed and received the support of the meeting, as that municipality is anxious to incorporate as a city.

Another public schools act amendment sought by the Pentiction municipal delegation, led by Reeve Lyon and Councillor Johnson, dealt with assessment of railway lands. Under the schools act, valuation of this property is set at \$3,000 per mile and the meeting endorsed the plan to change this assessment method to that of the municipal act, which reads that assessment "shall be at its actual value."

This discrepancy in assessments mitigates against municipalities, the resolution suggested.

## Relatives of Local Persons Honored

Friends and relatives in Summerland were interested in the report appearing in last week's Vernon News of the Honors Day ceremonies held at the Vernon high school.

Ted Strother was chosen to give the valedictory address and was awarded the Ayers Citizenship cup for the senior high school. This was a pleasant surprise as the cup is new this year and the students were unaware that such an award was to be made.

Ted is the oldest son of Mr. and Mrs. J. G. Strother formerly of Summerland. Mrs. Strother, prior to her marriage, was Miss Olive Bristol.

Also of interest was the award to Alan MacDonald of the Cochran cup for the school's most outstanding athlete. Alan is the son of Mr. and Mrs. A. L. MacDonald, the latter formerly Miss Kathleen Brown of Summerland.

## Council Heads Disagree On Money Disposal

Whenever representatives of Pentiction and Summerland meet, whether it is in discussion around a table or on the playing field, there is always rivalry and sometimes there is a decided cleavage of opinion.

Distinct differences of opinion were expressed by the delegates from these two municipalities when the Okanagan Municipal Assn. met at the Legion hall, Summerland, last Thursday afternoon, and as usual, school matters were the subject of debate.

Reeve Robert Lyon told the meeting that the Pentiction School Board had set aside, practically in escrow, a large sum for school buildings. This sum is lying idle as the school board is not prepared to proceed with its original school program until building costs have decreased.

But a new bylaw for other school additions is now being prepared and will be submitted shortly. Reeve Lyon, backed by Councillor J. W. Johnson, considered that this money should be diverted to the new bylaw, rather than float a new issue of bonds.

He wished the meeting to ask the provincial government to provide legal grounds whereby municipalities could divert such monies lying in escrow.

Any action on this line was brought to an abrupt halt when City Clerk G. H. Dunn, Kelowna, informed Reeve Lyon that there is provision in the municipal act whereby a bylaw to divert monies of this kind can be placed before the ratepayers.

Reeve Lyon contended, in turn, that the school board sanction would have to be forthcoming for such a bylaw and the school board, in this case, is determined to keep the money intact for its original intention.

After being asked three times to speak on the subject, Reeve W. R. Powell, Summerland, took an opposite view from the Pentiction officials.

"Pentiction should be quite pleased that it has this unexpended money to which we are contributing a portion," was His Worship's declaration.

But Reeve Lyon declared he is afraid that Pentiction will not support the new school bylaw while the money raised earlier is still lying idle. He declared himself and his council in favor of the new bylaw but they are afraid of the public reaction.

Summerland council is equally in favor of the bylaw and is prepared to support it, but Reeve Powell declared himself personally in favor of the school board plan to keep this money intact for its original purpose and was decidedly against the Pentiction reeve's suggestion.

Shades of past differences between Pentiction and Summerland municipalities regarding the school involvement were heard by the meeting but the dispute subsided as quickly as it started and was the only point in the whole meeting where any decided difference of opinion arose.

## WOLF CUB PACK AT PEACHLAND

PEACHLAND — Parents night for the Wolf Cub pack was held in the United church basement on the evening of June 6. Mr. John Cameron, chairman of the group committee introduced Reeve Miller who gave a short talk.

Rev. H. S. McDonald introduced district commissioner, E. C. Weddell of Kelowna who presented the Cubs with a charter, warrants, group committee certificates and membership. The Cubs entertained with their special stunts.

A sumptuous lunch was served by the group committee and wives.

# EDITORIAL

## Mix-Up In Acts

Municipal delegates from all parts of the Okanagan were unanimous in Summerland last week in seeking a general clarification of the various acts under which municipalities are called upon act. Principal acts are the Municipal, Schools, Taxation and Library.

There is every justification for this stand and the provincial government should pay special heed to this request. The fact that the municipal act, which at one time was the legislation which over-shadowed all other legislation, is now being sidetracked in favor of other acts, is causing grave concern throughout the province.

Municipal councils are being called upon to collect monies from taxpayers for projects over which they have no control in an ever-increasing amount. Principal offender in this case is the school district and the new schools act, rushed through as implementation of the Cameron report is the chief offender where conflict with the municipal act is concerned.

Those who are charged with governing the destinies of municipalities are finding the task increasingly difficult because of the confusion existing between various pieces of legislation. They get to the point where they are clear in their minds regarding responsibilities under the municipal act, but when they refer to the schools act, or the taxation act, they find themselves almost hopelessly bogged down. More and more municipalities have to turn to legal opinion for a clarification of the different pieces of legislation and even some legal men find themselves at a loss to interpret the legislations correctly.

From a layman's viewpoint, it would appear that the department of education was too hasty in implementing the Cameron report. Closer study in relation to the municipal act would have eliminated much of the confusion which exists at present.

From Summerland's position, chief worry has concerned the differences in assessing commercial fruit trees under the municipal and school acts. In the municipal act, municipalities are allowed to assess trees as improvements, while the latest interpretation of the school act does not include such provision.

It would appear that Hon. Dr. Weir would have been well advised to "make haste slowly" in bringing in his amendments to the school act. They were pushed through the legislature with little opportunity for careful study.

## School Bylaw

Members of School District No. 15 are to be congratulated on their clear-cut presentation of the needs of schools in the district and the objects of the proposed bylaw on which taxpayers will register their vote shortly. They pulled no punches but gave recent meetings in Summerland a brief but concise view of the immediate necessity for further classroom and administration accommodation.

Taxpayers can grumble all they wish regarding increased cost of education but they must realize that every community in the Okanagan is suffering from growing pains and therefore must pay the piper.

Education is of vital importance for the continued economic and social welfare of the valley and if our district school children are to be given a fair opportunity to be taught according to the standards we all wish for them, then the cost will have to increase.

A few years ago the school district boards mapped out a prospective graph of the expected rise in school population. They considered most angles but even these estimates fell short of the actual increase. Penticton schools are said to be two years ahead of the original estimate while Summerland school population has almost doubled in the past six years.

Crowded together in stuffy basements and attic rooms, the young children of the present generation are not being given a fair opportunity to receive the education they warrant. Nor do these crowded conditions allow the teaching staff an opportunity to impart the knowledge.

There is nothing extravagant in the proposed bylaw for \$82,500 which the school district will present to the taxpayers of this

district. They have worked for months on these plans and only intend to make renovations and additions to take care of the most immediate and pressing needs, even though these changes are of a permanent nature.

The broader scheme of additions to the schools, as planned a few years ago, will have to wait for a time and period when building costs are not so much out of line. This includes the junior-senior high school in Summerland the new high school unit in Penticton.

The school board does not feel that it will obtain full value for the public dollar if these two big schemes were instituted now, so the trustees are only asking for sufficient additional classroom space to "get by" comfortably for the next few terms.

This appears to be sound business practice and this consideration should receive favorable reaction from the taxpayer.

## The Feminine Front

by MURIEL HURRY

Tuberculosis is an insidious disease that has a vile habit of creeping up on one, and as there are few distinctive symptoms in the early stages, the only thorough method of diagnosis is by regular chest X-rays.

If diagnosed before it is too far advanced, tuberculosis is generally quite easy to check, and will rarely prove fatal. And early diagnosis is made easy and inexpensive by the mobile X-ray clinics which cover each B.C. point yearly, giving free X-rays to all people over 14 years of age.

This year the mobile clinic will be in West Summerland on Friday, June 27, Monday, June 30 and Wednesday, July 2. Every resident of Summerland and district over 14 years of age should be alert to take advantage of this opportunity.

As tuberculosis is a contagious disease, one should consider family and loved ones if they are foolish enough to think of passing up this wonderful opportunity provided by the clinic. It is your own bad luck if you let yourself in for a long, tedious illness, but it is unforgivable carelessness if you expose others to needless suffering, with perhaps fatal results.

Do not by any means skip a year, just because your X-ray last year showed all clear. I would like to prove a little point here by citing the case of my sister-in-law, whom I will call Helen.

Six months after having a chest X-ray for T.B., which showed no signs of the disease, the mobile clinic visited the town where she resided, and Helen went as a matter of form to have another X-ray. This time the results were positive, and a visit to Tranquille was necessary. But the disease was caught in the early stages, and her family were not exposed to it for any length of time. Her three children and her husband escaped any ill results, while Helen was discharged from the San after 14 months' treatment. This would probably have been a very different story if there had been a year's delay before that second X-ray was taken.

Symptoms are rather difficult to describe as they vary with individuals. Generally, unexplained loss of appetite and weight, as well as pep, are to be suspected, but there are many cases on record of healthy looking specimens who have badly diseased lungs, as well as there are many run-down and sickly looking individuals who show no trace of the disease.

New mothers should make a chest X-ray a must, as the disease takes delight in leaping when you are in a weakened condition. And people who are subject to pleurisy or other chest weaknesses are good targets.

The Women's Institute, that hard-working group of women for whom I have a great deal of admiration, will be in charge of arrangements, and they are being assisted by two other groups of civic-minded citizens, the Rotary club, who have been assisting by canvassing the entire district, and the board of trade, who are handling the advertising and publicity.

Many people were not enthusiastic about a repeat X-ray from the clinic, because formerly it has been necessary to remove part of the clothing before having the X-ray taken, and there was not always the desired privacy for the fastidious. However, this necessity has been rectified, and this year all X-rays will be taken with the patient fully clothed. It is requested that the clothing on the upper portion of the body be free of metal fasteners or clasps, but that is the only restriction made.

So there is no excuse this year to skip a visit to the clinic. Arrangements will be made with employers for free time for employees to attend the clinic, and with notice of the date so far in advance, it should be possible for rural residents to arrange for transportation, and care of small children while the mothers are absent. Tuberculosis CAN be wiped out in Canada, and eventually throughout the world, and all that is needed is co-operation, your co-operation. With public-minded or-

## Peachland Flower Show Brings Out Many Competitors

PEACHLAND—With roses predominating, the annual summer Flower Show, staged by the Women's Institute was judged a great success in the Legion hall on Thursday, June 12.

Rev. H. S. MacDonald opened the afternoon show with well-chosen remarks on the merits of flower culture, stating that flowers grown in the Okanagan are more highly-colored and brilliant than those to be seen on the prairies.

All displays were tastefully arranged, with roses predominating throughout. Tea was served by the Girl Guides, supervised by Women's Institute members.

Judges of the displays were W. M. Todd and E. Gregory, of Kelowna.

Following are the prize winners: Bowl of roses—1. Mrs. Cameron, winner of the silver rose bowl; 2. Mr. Bean.

Three roses—1. Mrs. S. Smalls; 2. Mr. Bean.

One rose, named—1. Mrs. E. A.

organizations putting so much time and work into making a coverage of 100% of the district, it is the least we can do to help them make a success of helping us.

## The Inside Story

By AGROLOGIST

I found Dick Palmer in his office with a worried look on his usually cheerful countenance so I said, "Why so sad this fine morning?" Whereupon the following conversation took place:

Dick: Now that cherries are beginning to ripen, I am endeavoring to devise some practical, efficient yet courteous method of dealing with the pilfering of fruit from experimental station orchards.

Agrologist: Do you mean to infer that stealing of fruit from experimental trees is actually a serious problem?

Dick: Yes. Some of our results have been materially affected by the actions of thoughtless visitors who do not realize how much damage they are doing when they pick fruit in the station orchards.

Agrologist: Can you give me an example of how records have been affected by this procedure?

Dick: Yes. Arthur Mann, who has charge of fruit breeding projects on the station, has just reported to me that the crop has been stolen from some young cherry seedlings which are fruiting for the first time this year. This makes it impossible for us to evaluate these seedlings for another year, a most unfortunate situation as it is very important to the fruit industry that we be able to select and propagate the best of these seedlings as rapidly as possible.

Agrologist: Do other experimental stations have the same difficulty with pilfering?

Dick: Yes. I understand that on most stations where fruit is grown, it has been found necessary to take special measures to prevent pilfering.

Agrologist: What measures have been taken on these other stations?

Dick: At the Central Farm at Ottawa, the plantations are guarded by the RCMP. At the Vineland Experimental station in the Niagara district, a page wire fence topped with 3 strands of barbed wire has been erected around the orchards which are adjacent to the Queen Elizabeth highway. Other stations are closed to the public on Sunday and holidays.

Agrologist: Have these methods proved effective?

Dick: Yes. They have given reasonably good results, but I sincerely hope that it will not be necessary for us to adopt such drastic procedures here at Summerland. I am very hopeful that when the public realize how important it is to leave the fruit in the experimental station orchards unmolested, they will refrain from picking this fruit.

## SPRING FAIR REPORT

On behalf of the trade board Spring Fair committee, J. E. Armstrong provided the June monthly meeting with a short interim report last Thursday evening at the IOOF hall, indicating a profit on the affair of approximately \$850.

# 4 SUMMERLAND were in Greece

### HERE'S WHAT YOU'D FIND —

- 20% of your houses wrecked
- 20% of you living in roofless ruins, open fields
- 10% of your men, women and children killed
- 10% of your citizens tubercular and half of those due to die this year unless they have medical care
- 25% of your children war-orphans — homeless, ragged, starving
- 55% of the population malarial
- 90% of your railways, roads and bridges destroyed

Consider these few hard facts about Greece; our gallant wartime ally. Today, with UNRRA aid ended, the Greeks face disaster. They look to Canadians for help — so that they may help themselves!

**GIVE GREECE'S BRAVE PEOPLE AN OPPORTUNITY TO LIVE**

Send your contribution now to the Canadian Relief for Greece Committee in your community or to any branch of the Royal Bank of Canada. Contributions deductible from Income Tax.

### "Old at 40, 50, 60?" — Man, You're Crazy

Forget your age! Thousands are peppy at 70. Try "peppin' up" with Oxyrex. Contains tonic for weak, run-down feeling due solely to body's lack of iron which many men and women call "old." Re-aligns or "sets your motor" back. Try Oxyrex Tonic Tablets for new pep, vigor, vim and years younger feeling. This very day. For sale at all drug stores everywhere.

## NO LIMIT NOW ON PACIFIC MILK

At last all restrictions have been removed from your favorite milk and you may buy in unlimited quantities. Remember, Pacific Milk is the only evaporated milk packed in B.C. It is irradiated and vacuum packed. Do not accept substitutes; because plentiful supplies of Pacific Milk are now available everywhere.

Ask for it by name!  
BUY ALL YOU NEED

**NELSON INVITATION**  
An invitation has been received from the City of Nelson to the reeve of Summerland to be present at the fiftieth anniversary celebrations of that city from August 4 to 9. No intimation that Reeve Powell or any of the councillors could be present at that time was made yesterday, when the council met in its twice-monthly session.

### FASTBALL GIRLS IN INITIAL WIN

A last-inning rally resulting in four runs, gave Summerland girls' softball team a close 18-17 victory over Pentiction in the opening game of the season here last Sunday at the school grounds. Both teams were shaky at the outset but midway through the contest settled down and displayed flashes of mid-season form.

Summerland plays at Pentiction next Sunday and after that league fixtures will commence with Keremeos, Oliver, Pentiction and Summerland participating. These are the same teams which battled on the softball diamond last season.

Winners of that league will meet the central Okanagan softball winners for the Okanagan championship.

Irene Dracas started on the mound for Summerland but was relieved part way through by Muriel Walker who held the visitors more effectively.

The Summerland lineup follows: Tada of, Helkert 1b, Lewis 2b, Walker 3b, Ward rf, Dracas p, 3b, Klux lf, Jones ss, Glaser c.

Score by innings:  
Pentiction 315 230 003—17  
Summerland 430 200 144—13

Mrs. J. R. Graham, of Salmon Arm, was a visitor to Summerland over the weekend and, a guest at the home of Mr. and Mrs. R. G. Russel.

### P. G. Dodwell Provides Outline Of Needs For School Bylaw Support

An outline of the complete program of renovation of schools in School District No. 15 was given a meeting of the Summerland Board of Trade in the IOOF hall on Thursday night by P. G. Dodwell, school board member for Summerland for the past 16 years. A bylaw to raise \$92,500 will be submitted to the taxpayers of Pentiction, Summerland and the rural area shortly and calls for renovation of the Summerland elementary school, removal and relocation of two army huts for additional accommodation in Pentiction schools, completion of an auditorium, gymnasium and cafeteria in Naramata and sundry other smaller projects.

Total cost of this project is \$177,465, of which \$96,779 is for the renovation and modernization of Summerland's elementary school. The two army huts and their equipment will cost \$68,663.52, Naramata's portion is \$4,490. Pentiction's playground development and hard surf facing of the primary school area is \$5,545.98 and reconstruction of the heating plant in the Summerland high school will cost \$1,778. Sundry other expenses bring the total to \$177,465, while the government grant is \$84,965, leaving \$92,500 to be raised locally.

In Pentiction, eight classes are now being held entirely out of the school area, in basements, attics, etc., Mr. Dodwell explained. Four more rooms will be needed in September besides these present extra rooms. There are 1,620 students attending Pentiction schools now and in five years this figure is expected to increase to 2,000.

Mr. Dodwell explained that in 1941 money was raised in Pentiction for school development but it was deemed inadvisable to proceed with those plans because of the rising cost of building materials.

"We feel it our duty to protect the public funds and get value for the money to be expended," declared Mr. Dodwell, in explaining that a ten-year plan was commenced in 1944 and is still in effect, although delayed temporarily because of building costs. When conditions warrant a continuation then this plan will be proceeded with, he promised.

Right now, Pentiction school population is two years ahead of the expected increase. The two army huts proposed will cost \$5,700 per classroom, whereas to erect new classrooms now would cost between \$12,000 and \$15,000.

Dealing with Summerland requirements, Mr. Dodwell explained that at present there are three classes in basement rooms, one in a library room and one in a temporary building. This shows that the accommodation is entirely inadequate, he stated. There are 514 pupils in Summerland schools and in September this number will rise to six hundred.

Last year, an additional room was added to the high school, but this is a temporary expedient only. Adoption of the army hut plan did not fit into the planned picture for Summerland and when the time is ripe plans for the new high school, with gymnasium and auditorium will be presented.

These plans are being prepared now by the architects and when building costs are on the decline and value for expenditure is assured, then the school board will proceed with its plans, he declared.

In the elementary school four new classes and a playshed, plus administration offices will be added in the scheme provided for by the bylaw.

"We are withholding any heavy expenditure for the time being and are only trying to deal with present needs," he told the trade board members. "We need your support to carry on this program."

Mr. Dodwell was followed by S. A. MacDonald, elementary principal and School Inspector J. N. Burnett, whose picture of the school situation may be found in other columns of this issue. These speakers also addressed the Women's Institute monthly meeting on Friday afternoon.

### Special Film At Baptist Church

The Baptist church was crowded to capacity on Wednesday, June 4, for the showing of the film, The God of Creation, as provided by F. McRae, who gave an outline of the work being carried out by the Moody Bible Institute, of Chicago, and the Moody Institute of Science, where the film was produced.

The God of Creation is a film portraying the wonders of the universe as seen through the telescope, electronic camera and microscope. Delayed action photographs made with the electronic camera showed flowers opening, beans taking root and sprouting through the ground.

These were followed by photographs of an insect from the caterpillar to the butterfly and the final pictures showed the life of a drop of water as seen through a microscope.

The film was in technicolor and was an outstanding achievement in photography, observers stated.

Rev. R. H. Birch introduced the speaker and was chairman of the meeting.

Lionel Fudge and Joe Sheeley are on a fishing trip to Canyon lake this week.

### Pioneer Days

THIRTY YEARS AGO  
June 15, 1917

Along with Water Superintendent Rutherford, a bridge crew of the KVR has gone over the irrigation flumes along the right-of-way and big improvements have been made.

A dispute of long-standing which was thought had been fully disposed of when J. R. Brown was paid \$300 for a roadway at Trout Creek Point, cropped up again on Saturday. The clerk reported that from a blueprint which had just been received from the registry office it was now proved that this strip of land had never been the property of Mr. Brown. The clerk was instructed to ask Mr. Brown to return the \$300 to the municipality.

At the pavilion on Siwash Flat on Saturday evening, the general meeting of the Summerland Lawn Tennis Club was held, with E. B. May, elected president, P. G. Koop as vice-president and H. M. Lumsden, secretary-treasurer. Other officials are Mrs. R. H. Agur, honorary president; committee, Mrs. Koop, Miss Cartwright, Miss Clouston, Messrs. Dodwell, Huddleston and Theed.

The council has decided to pass a resolution "recommending that the public adopt daylight saving between June 15 and September 15."

Led by G. Marshall a delegation of parents visited the monthly school board meeting and expressed dissatisfaction with various actions of the board in the past few months. Dismissal of two teachers was the crux of the dispute. Animosity displayed by Mr. Marshall in his accusations, was resented by Chairman E. W. Sawyer, who said he did not think the trustees were called upon to answer questions and charges made in such a manner.

Capt. G. C. Rose, owner of the Kelowna Courier, is busy forming a forestry unit at Kelowna. As soon as the total strength of 96 is reached the draft will leave for overseas.

A gross rate of 23 mills is the tax finally made by municipal by-law on Saturday. School rate is 5 1/2 mills, interest and sinking fund 8 1/2 mills, and general rate 9 mills.

Flour has advanced 30 cents per barrel and best patents are now worth \$14 per barrel wholesale in Vancouver.

A car containing provincial land office officials, struck a mud slide near Peachland, on the lakeshore road, recently, and almost immediately another avalanche of mud descended nearly burying the car. A dozen men and a road team were needed to extricate the entrapped car.

District registrars of births, deaths and marriages now include C. P. Nelson and Walter M. Wright.

Twenty Years Ago  
June 17, 1927

Garnett Valley dam has now filled for the second time this year, and this is probably the first year in history that this condition has been attained. Eneas headwater dam is running over. Deer lake reserve is within a foot of the top and Canyon creek dam is in satisfactory condition.

Larger sized boxes have now been received for the post office on the lakefront and will be installed shortly, Postmaster Hayes reports.

E. J. Chambers has again been elected president and general manager of the Associated Growers Ltd., with Capt. D. M. Ratray, Salmon Arm, as vice-president and George A. Barrat, Kelowna, secretary-treasurer. E. E. Hutton is the Summerland representative on the directorate.

Summerland's ball team lost to Pentiction 7-4 in the ninth inning after leading up to that frame. Summerland's lineup consisted of Nicolson, Blewett, Snow, Johnston, Adams, Gould, McRoberts and Ritchie.

At Stephen's church, West Summerland, on Tuesday, June 10, the marriage was solemnized of Betty Puxon Barnes, R.N. daughter of Mr. and Mrs. Ivor P. Barnes, and Dr. Joseph Robert Graham, son of Mr. and Mrs. George Graham.

Revocation of a grant of administration to W. C. Kelley, Summerland, of an estate estimated at \$400,000, left by Arthur Booth Knox, who died at Kelowna, on April 12, was ordered in Supreme court on the application of Mrs. Ann Caroline Medley of Victoria, a niece of the deceased, who was appointed administratrix.

Summerland and Kelowna tobacco attracted some attention recently at the tobacco trade congress held in Olympia, England. E. H. Hancock, fishing near Chute creek near Naramata, is said to have seen Ogopogo.

Mr. N. May arrived last week from the Old Country and is visiting his brother, W. May.

On his return trip from Singapore to his native England, Mr. Donald McNeill visited for a few days at the home of his uncle and aunt, Mr. and Mrs. J. H. Looney-Grayson. Mr. McNeill is an officer in the British merchant marine and spoke enthusiastically about the Port of Vancouver. This was his first trip to the Okanagan and he expressed delight with the beauties of the valley.

## IMPORTANT GOVERNMENT NOTICE Respecting Price Control

The following list is a convenient summary of the Wartime Prices & Trade Board Order No. 737 and is published for the protection and guidance of the public. It does not give the full text of the Order. For full details reference should be made to the Order itself.

CLIP THIS AND KEEP FOR EASY REFERENCE

### Summary of GOODS AND SERVICES REMAINING SUBJECT TO MAXIMUM PRICE REGULATIONS

As set forth in Wartime Prices & Trade Board Order No. 737—effective June 9, 1947

#### FOODS

- All flours, flour mixes and meals.
- Yeast.
- Bread, bread rolls, and bakery products.
- Biscuits, except those completely covered with chocolate.
- Processed cereals, cooked or uncooked, including breakfast cereals, macaroni, vermicelli, spaghetti, noodles and other alimentary paste products.
- Rice, excepting wild rice.
- Pot and pearl barley.
- Shelled corn, but not including popping corn.
- Dried peas, soy beans, dried beans except lima beans and red kidney beans.
- Starchy.
- Sugar, sugar cane syrups, corn syrups, grape sugar, glucose.
- Edible molasses.
- Tea, coffee, coffee concentrates.
- Malt, malt extract, malt syrup.
- Black pepper and white pepper, and substitutes containing black or white pepper.
- Salad and cooking oils.
- Raisins, currants, prunes, dehydrated apples.
- Tomatoes, tomato sauce, tomato paste, tomato pulp, tomato purée, tomato catsup, chili sauce, when in hermetically sealed cans or glass.
- Canned pork and beans, canned spaghetti, macaroni and vermicelli.
- Canned corn, canned field beans excluding the lima and red kidney varieties.
- Canned apricots, canned peaches, canned pears.
- Fruits and vegetables in the two preceding items when frozen and sold in consumer size packages.
- Strawberry and raspberry jams, and any jam containing strawberries or raspberries.
- Meat and meat products, not including game, pet foods, and certain varieties of cooked and canned meats.
- Sausage casings, animal and artificial.
- Canned salmon, canned sea trout, canned pilchards of the 1946 or earlier packs.
- Edible animal and vegetable fats including lards and shortenings.

#### CLOTHING

- Men's, youths' and boys' coats, jackets and windbreakers made wholly or chiefly of leather.

- Men's, youths' and boys' suits or pants made wholly or chiefly of cotton or rayon.
- Men's, youths' and boys' furnishings as follows:—blouses; collars; pyjamas; nightshirts; underwear, other than that made wholly or chiefly of wool; shirts, including sport shirts other than those made wholly of all-wool or all-rayon fabric.
- Women's, misses', girls', children's and infants' garments of all kinds (but not including—(a) garments made wholly of all-wool fabric, (b) raincoats, (c) jackets and windbreakers, except when made wholly or chiefly of leather, or (d) dressing gowns).
- Knitted wear for either sex as follows: undergarments, other than those made wholly or chiefly of wool; circular knit hosiery of cotton or rayon.
- Work clothing, including aprons, for either sex, when made wholly or chiefly of cotton or leather.
- Uniforms for either sex.
- Gloves, gauntlets and mitts for either sex when made wholly or chiefly of cotton or leather, except those designed as specialized sports equipment or for specialized industrial uses.
- Brassieres; foundation garments, but not including surgical corsets.
- Diapers and diaper supports.

#### HOUSEHOLD AND OTHER TEXTILES

- Textile products as follows, when made wholly or chiefly of cotton or rayon: bedspreads; blankets, except horseblankets; dish towels; face cloths; luncheon sets; napkins; pillow cases; sheets; silence cloths; table-cloths; throw-overs; towels; wash cloths.

#### HOUSEHOLD EQUIPMENT AND SUPPLIES

- Furnaces and other heating equipment, except portable electric heaters, fireplace heaters, grates, and baskets therefor.
- Jacket heaters and other water heating equipment.
- Soap and soap compounds.

#### MOTOR VEHICLE ACCESSORIES

- Pneumatic tires and tubes when sold for the purpose of or as original equipment on agricultural machinery.

#### CONSTRUCTION PRODUCTS

- Poplar (aspen, balsam and cottonwood) and soft wood lumber of all kinds.
- Softwood veneers.
- Plywoods not wholly constructed of hardwood.
- Millwork such as doors, sashes, windows, stairs and gates, but not including screen doors or window screens.
- Pre-cut soft lumber products designed for use in residential or farm buildings, but not including fully pre-fabricated buildings.
- Gypsum board and gypsum lath.
- Wallboards and building boards.
- Cast iron, soil pipe and fittings.
- Nails.

#### AGRICULTURAL MACHINERY, IMPLEMENTS, EQUIPMENT AND SUPPLIES

- Practically all items of farm machinery, including planting, seeding and fertilizing equipment, plows, tillage implements and cultivators, haying machinery, harvesting machinery, tractors, wagons, dairy machines and equipment, sprayers and dusters.
- Articles of barn and barnyard equipment.
- Stationary gas engines.
- Harness and harness hardware.
- Barbed wire and other fencing wire and fences.
- Blender twine.
- Wheelbarrows.
- Feeds and feed products of all kinds except horse meat, pet foods, hay, straw, clam shell and poultry grit.
- Fertilizers of all kinds, but not including humus, muck, manure, sphagnum moss or peat moss.
- Gopher poisons.
- Seed field beans and seed field pens.
- Grains as follows:—wheat; barley; oats; flaxseed; buckwheat; rapeseed; sunflower seed; grain screenings.

#### RAW AND PROCESSED MATERIALS

- Basic iron and steel products and alloys including pig iron; cast iron and steel scrap, ingots, bars, plate, rods and wire.
- Primary and secondary tin and alloys containing more than 95 per cent tin.
- All fats and oils, including Vitamin A oils, of animal, vegetable or marine origin but not including refined medicinal cod liver oil and core oil.

- Glue stock, glues and adhesives of animal origin.
- Starches.
- Fibres, raw or processed, as follows: cotton, jute, sisal, all synthetic fibres and filaments excepting glass.
- Yarns and threads of, or containing any of the fibres listed above.
- Fabrics over 12 inches in width, in any state, whether knitted or woven, containing over 25 per cent by weight of the yarns and threads referred to above, including corduroy, but not including other pile fabrics.
- Elastic yarns and fabrics.
- Hides and skins from animals of a type ordinarily processed for use as a leather.
- Leathers of all kinds, other than synthetic leathers.

#### PULP AND PAPER

- Wastepaper.
- Wood pulp, except (a) dissolving grades, (b) "alpha" grades of bleach-wood sulphate, (c) "Duracel", (d) groundwood and unbleached sulphite grades sold for the manufacture of newspaper or hanging paper.

#### CONTAINERS AND PACKAGING MATERIALS

- Containers, packaging and wrapping devices of a type used for the sale or shipment of products, when made from a textile fabric and including bags, cases, envelopes, folders and sacks.

#### SERVICES

- Transportation of goods and services associated therewith.
- Warehousing; dry storage of general merchandise and household goods other than wearing apparel; cold storage, including rental of lockers and ancillary services such as processing charges in cold storage plants.
- The supplying of meals with sleeping accommodations for a combined charge, except when supplied by an employer to his employees, directly or through a servant or agent, or by a hotel as defined in Board Order No. 294.
- The packing or packaging or any other manufacturing process in respect of any goods subject to maximum prices, when performed on a custom or commission basis.

#### USED GOODS

- Used bags and used bagging and baling material.

Any material shown above processed for incorporation into, or any fabricated component part of any of the above goods is subject to maximum prices. Also any set which contains an article referred to above is subject to maximum prices even though the remainder of the set consists of articles not referred to.

K. W. TAYLOR, Chairman.

### New Orgatron To Be Installed In St. Andrews

The St. Andrew's United church will install its new Wurlitzer Orgatron next week. This organ will be the first of its kind in western Canada, and was purchased by the church at a cost of \$4,500.

The Orgatron has arrived in Vancouver, and a recital will be held there tonight, Thursday in the ballroom of the Hotel Georgia, with Mr. David Ouchterlony, a member of the Toronto Conservatory of Music, and organist and choirmaster of the Timothy Eaton Memorial Church, Toronto, as guest artist.

Following this recital the organ will be shipped to West Summerland, where a recital will be held in the St. Andrew's United church on Wednesday evening, July 2. Mr. Harold Keefer, organist of the Canadian Memorial church, Vancouver, will play the organ on that evening, and arrangements are pending for broadcast over CKOV, Kelowna.

The Orgatron is a reed organ, with the music amplified and brought out by speakers. The main speaker, weighs 300 lbs. The music from this organ is considered very rich in overtones, and is said to be hard to distinguish from fine pipe-organ music.

The organ has a dual manual keyboard, with the keyboard the same as the standard organ.

Mr. Percy Thornber, official organist for the St. Andrew's United church, will continue as organist for the new organ.

### Hundreds Attend Second Annual Hobby Show Here

Hundreds of interested spectators of all ages flocked to the IOOF hall on Saturday afternoon to witness the second annual hobby show staged by the AOTS club to interest local residents to take an active part in hobbies and to raise funds to carry on their main project of sponsoring junior sports in this community.

The hobby exhibition was not quite as large as last year, but the quality of workmanship was every bit as good. There was hardly a duplicate of last year's big display and that in itself accounts for the number of entries being slightly smaller.

Tea was served by an energetic committee of the Lakeside church W.A.

**Many Hundreds Attend**  
Nearly 700 adults passed through the turnstiles during the afternoon and evening showing, an increase over last year's attendance. Approximately \$80 in prize money was expended by the club to the many display winners.

Arrangements have been made for first prize winning youngsters to be taken aloft for airplane rides South Okanagan Flying club planes will be used, and it is believed some 14 youngsters will get a thrill this weekend.

George Washington, Summerland Co-op manager, was in charge of the hobby exhibition and reports that nearly every member of the AOTS club assisted in putting over the big show.

Around the walls of the main hall the displays filled nearly the entire space, while in the centre, the competitive entries were on display.

**Many Elephants**  
One of the most interesting displays was that of Mrs. J. Morrow, who exhibited 57 carved elephants of all sizes. It was an attractive and artistic display.

Talmadge McDonald, 2nd year student at the Institute of Technology and Art, at Calgary, had an imposing display of oils and water colors which drew an admiring audience.

The local Photography club, formed a short time ago, entered some beautiful photographic studies in both black and white and colored work. Clarke Wilkin, Mrs. M. A. Russel, T. B. Thornber and Steve

Cannings were the main exhibitors in this group.

One of the many interesting display pieces was a model of a German destroyer which was manufactured by a German prisoner-of-war at Lethbridge prison camp. All gun turrets were built with all-round traverse, and the entire model was a work of art. It was displayed by J. R. Tweedy.

A "ham" radio set owned and operated by Howard Shannon was another feature, and postcards from other "hams" operating in the three western provinces and many states across the border were shown.

An excellent display of lathe work by Jack Morrow, jr., brought many exclamations for the workmanship displayed.

**"My Doghouse"**  
"My Doghouse" was an anonymous contribution and was labelled: "Insulated, ventilated, waterproof, warm, cozy and comfortable for any dog."

Betty McClure showed her chicks in a pet display while butterflies and various types of insect pests were exhibited by Dr. James Marshall.

Eric Tait's collection of mice, gophers, squirrels, chipmunks, rock rabbits and weasels proved an interesting exhibit while Herbert Simpson's collection of butterflies was another item which drew much attention.

More ships were displayed in another corner of the hall. P. G. Dodwell contributing a sailboat model of smart lines, while E. H. and a model of the Thermopylae Robson had a ship in a bottle after conversion from a ship rig to a barque rig.

Hand-carved wooden dishes were shown by W. D. Charles, badges of World War I proved while Phil Davis' collection of interesting. Match box covers from all parts of the world were shown by Basil Thornthwaite. Pictures in silk were displayed by Mrs. W. Snow, while Mrs. Tex Adams displayed a picture combining silk work and paint.

**Variety of Displays**  
Novelty Penwood Products were displayed by R. C. Gordon, of Penticton. Mrs. Lee-Grayson had a splendid display of penwork and Mary Trofimenkoff showed a painted trav. Needlework was displayed by Mrs. B. H. Robson and Ray Robson, and Mrs. M. Fenwick showed a Jacobean design in needlework.

Pen and ink drawings were submitted by Ruth Klirk, while pottery and needlework were shown by Mrs. V. Saunders.

A table containing 23 kinds of wood with 218 pieces being cut to make the completed job was a fine example of workmanship by O. Weitzel.

Intricate designs of carpet work were shown by Mrs. O. Hong and Mrs. W. H. F. Welsh while Mr. Welsh displayed his collection of cartridges, bullets and fuse mechanisms. Old weapons were displayed by Edgar Gould and Verne Charles, while an elaborate tablecloth by Mrs. J. Prior completed the exhibits.

**Prize List For AOTS Hobby Show**

Following is the list of winners at the AOTS club Hobby Show held on Saturday at the IOOF hall:

Stamp albums—1, Richard Lewis; 2, Geoffrey Solly; 3, Jack Pohlman.

Model Gas Planes—1, Alfred Letts; 2, Wally Day.

Model Planes—1, Don Cristante; 2, Ross Tingley; 3, Harold Wurst.

Special prize, glider, J. Adams.

Bird houses—1, Ken Brawner; 2, Ross Tingley; 3, Barry Wilson.

Models—1, Wally Day; 2, Alfred Keibel; 3, Bob Weitzel.

Wood carving—1, Francis Gould; 2, Richard Lewis.

Drawing—1, Margery Yamabe; 2, Amy Yamabe; 3, Dora Haycock.

Painting—1, Amy Yamabe; 2, Joyce Smith; 3, Marion Long.

Potters—1, Ken Brawner; 2, Elsie Hack; 3, Maureen Peterson.

Public school photography—1, Barry Wilson.

High school photography—1, Richard Yamabe.

Pressed flowers—1, Melvin Mitchell.

Embroidery—1, Carol Peterson; 2, Gertrude Glaser; 3, Maureen Prior.

Sewing—1, Shirley Clarke; 2, Joy Pottle; 3, Arlene Raincock.

Knitting—1, Dorothy Blacklock; 2, Margery Yamabe; 3, Olive Austin.

Planet Books—1, Evelyn Washington; 2, Doreen Fleming; 3, Darwin Harbriht.

Scrap books—1, Ella Wileman; 2, Barbara McClure; 3, Marian Turkin.

Coin collection—1, Rose Shelly. Any other hobby—1, Shirley Allen; 2, Deanna Wileman; 3, Audrey Davis.

Special prize, 12 years—1, Joyen Schumann.

Special prize, 15 years—1, Basil Thornthwaite.

Special prize—1, Bonny Wilson.

Tickets sold—1, Keith Haskins; 2, Barbara Melters; 3, Phyllis.

Mr. H. R. J. Richards has returned from Vancouver, where he has been receiving medical treatment.

Bishop Endling of New Denver, Mr. George H. Doherty has returned home after five weeks spent on visits to Skagway, Alaska. Harrison. Bishop Endling was a Whitehorse, Y.T., Vancouver, Victoria and Yakima Wash.

### PEACHLAND BALL TEAM IN TIE FOR TOP PLACE

PEACHLAND — Overcoming an early 4-0 lead Peachland overtook Rutland on Sunday to win a close ball game 6-4. Peachland won the decision by virtue of a thirteen hit attack but the game was always in doubt because of a record ten errors made by the Peachland nine. The game was fraught with close decisions and constant arguments slowed up the game. At the end of the game it was the

intention of the Rutland management to protest the contest. The scene of the protest was the seventh inning. Holitski was safe on Mehl's error. Lingor hit a ground ball to Duquemin who fumbled. Umpire Bradley called Holitski out at second for interference and this decision brought a storm of argument from the Rutland players. After this play the Rutland rally was snuffed out and the score held at 6-4 for Peachland. Rutland scored two runs in the first inning as Bach bunted safely. Truitt was safe on Mehl's error, Holitski singled scoring Bach and Holitski scored on a fielder's choice, giving Rutland a 2-0 lead. Peachland tied the score as Fulks was safe on a fielder's choice. W. Cousins made first on an error V. Cousins singled and Fulks and W. Cousins tallied on Gummow's single to right field. E. Cousins hit a Texas leaguer to start Rutland's half of the second, was caught out at third base as Brummett was safe on Sutherland's error. Singles by Truitt and Holitski scored Brummett giving Rutland a 3-2 edge. Three errors and a single in the third put the northern team ahead 4-2. Peachland tied the score again in the fourth as Ferguson doubled, Sutherland singled, and both counted on a costly error by Bullock. Peachland won the game in the fifth inning. Warren Cousins singled, V. Cousins was safe on a miscue and Gummow tapped a bouncer to Lingor which the latter muffed allowing the Cousins brothers to cross the plate handing Peachland a 6-4 lead which was not relinquished.

## Socially Speaking

Social Editor : Muriel Hurry

Mr. and Mrs. Ken Heales have returned from Vancouver, where they have been visiting for the past week.

Mr. and Mrs. G. A. Laidlaw left yesterday, Wednesday, for Vancouver, where they will holiday for ten days.

Miss J. Hoskowsky of the Summerland teaching staff has resigned her position here, and will leave next week for Vancouver, where she will attend summer school.

Miss H. Morrison, formerly of the teaching staff of the Summerland schools, will arrive from the prairie next week and will visit in Summerland, while en route to Vancouver, at the home of Mrs. J. Shepherd.

Mrs. Bob Bleasdale has returned from Tranquille, where she has been a patient for the past year, and has again taken up residence here.

Mr. and Mrs. Fred Bedford have been Vancouver visitors this week, where they have attended the Masonic Grand lodge.

A son was born to Mr. and Mrs. Harry Parker on Thursday, June 12, at the Summerland hospital.

A daughter was born at the Summerland hospital on Friday, June 13, to Mr. and Mrs. Dave Derickson.

A daughter was born to Mr. and Mrs. Phil Munro at the Summerland hospital on Saturday, June 14.

Archdeacon D. A. Resker archdeacon of the Kootenay, is a visitor at the home of Canon and Mrs. F. V. Harrison.

John Sheskey was a visitor to Vernon during the week.

Miss Emily Mott arrived on Monday from New Westminster, where she is a member of the nursing staff of the Royal Columbian hospital, and will spend a month's vacation at the home of her parents, Mr. and Mrs. John Mott.

Mr. and Mrs. A. W. Campbell left on Wednesday on a business trip to Lennoxville, Que.

Dr. and Mrs. L. A. Day returned this week from Banff, Alta., where they attended the Western Canada Dental society's annual convention.

Mr. David MacDonald arrived at the weekend from Vancouver, and is spending a vacation at the home of his parents, Mr. and Mrs. S. A. MacDonald.

Mrs. H. Watson and son, of Lavington, B.C., are visiting at the home of Mr. and Mrs. A. W. Nisbet this week.

Miss K. Nisbet, RN, of Vancouver, is visiting at the home of her parents, Mr. and Mrs. A. W. Nisbet.

Mr. and Mrs. Norman Holmes and family have returned from a two weeks' motor trip to Saskatchewan points.

Mrs. Joseph Jones of Vancouver arrived in Summerland on Monday to complete arrangements for the wedding of her daughters, Jean and Kathie, who are principals in the triple wedding to take place tomorrow, Friday. Mr. Jones and their daughters, Margaret and Sadie will arrive tomorrow, Friday, to attend the wedding, and Miss Sadie Jones expects to remain in Summerland, where she will be employed.

Miss Audrey Pilkington was hostess to eight of her small friends on Saturday afternoon June 14, on the occasion of her sixth birthday.

Dr. Maurice Welsh of the plant pathology lab, left last weekend for Vancouver. While at the coast he will be speaking at meetings of the Western Plant board which are being held at Bowen Island hotel, June 9 to 11.

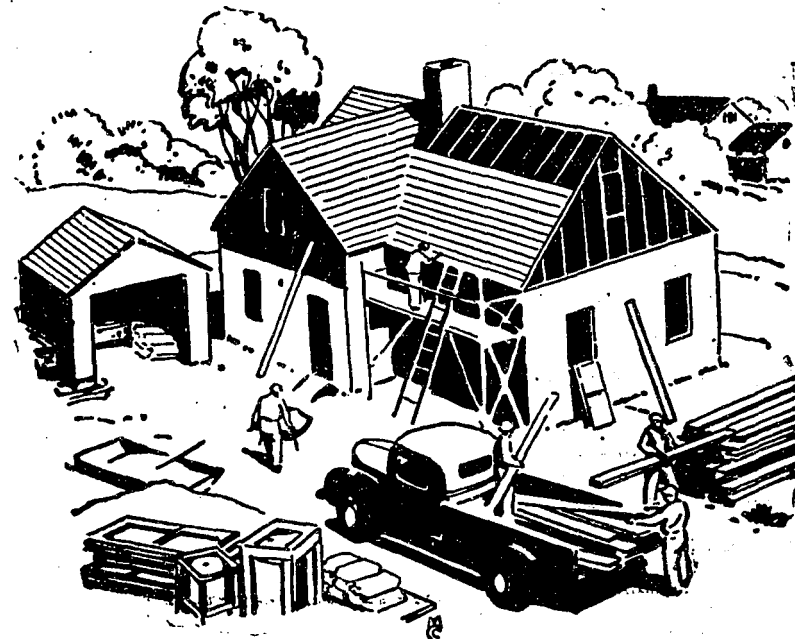

Mrs. R. Lamb returned on Saturday from Edmonton, where she had been visiting her father, who is in ill health.

Mr. R. Lamb returned on Sunday from Vancouver, where he has been receiving medical treatment for the past month.

**BUILDING IS  
 CONTINUING IN  
 SUMMERLAND**

Building permits for the first five months of 1947 amount to \$140,950, states Roy F. Angus, building inspector, in submitting his monthly report. This figure is in excess of last year's record building program and there is every indication that this figure will be greatly increased, especially if the school renovation program commences this year.

In May, 22 permits were issued for a total value of \$24,600. New dwellings numbered eight, at a value of \$1,200, while eleven additions, alterations, etc. were placed at \$2,110.

In the five months 97 permits have been issued by Mr. Angus from the municipal office.

**REHABILITATION  
 WORK LESSENS**

In the past three months, the general secretary, Lorne Perry, has had 95 interviews, written 61 letters and numerous postcards and was able to put through re-establishment credits to the value of \$5,500 a meeting of the Summerland Rehabilitation Committee was informed last week.

Receipt of \$250, half of the annual municipal grant, was acknowledged by the meeting and accounts totalling \$243 were ordered paid.

Work of the committee is decreasing rapidly and in the past three months only one service man received a discharge. Supplies of nails and plumbing fixtures are easing and there is not so much demand for priorities, the meeting was told.

Mr. Cornwall of the Bank of Montreal is the new treasurer, replacing R. D. Spencer.

**Merchants  
 Lose First One  
 In Final Inning**

After trailing for eight and a half innings and being beaten in every department, Hashimoto rose to the heights of glory on Sunday at the Rutland field by poling out a double to deep centre, scoring two runners before him and winning a South Okanagan baseball league contest for Kelowna Cubs from Summerland Merchants 6-5.

It was a grandstand finish but very degrading indeed to the Merchants who should never have lost that ball game in a thousand years. The Merchants collected sixteen hits to the Cubs eight, committed one less error and besides that Bill Evans whiffed fourteen batters.

But it was stupid errors which cost Summerland the ball game. Two costly errors on pop flies committed by Bill Evans lost him his own ball game.

As a result of this first league game loss Summerland and Peachland are now tied for first place with four wins and one loss each. Peachland defeated Rutland 6-4 in the other contest Sunday.

Summerland took an early 1-0 lead last Sunday when Clark was safe on an error and Taylor singled him across. In the third Kuroda singled, stole second, went to third on a passed ball and scored on a wild pitch. With two down Taylor tripled into right field and Walsh scored him. Singles by Imayoshi and Uzawa scored Walsh and Sui Koga retired from the mound in favor of brother Mit.

In those first three innings only nine Cub batters faced Evans as he retired them in order. With two down in the fourth the Cubs scored their first tally when Hashimoto doubled to right field when Jimmy Thompson misjudged the fly ball, and allowed it to go over his head. Kawahara's single brought Hashimoto across.

Both teams scored single runs in the seventh, Amm connecting for a smart single and scoring on Imayoshi's one-base clout. Kawahara scored on Yamaoka's line drive.

But the score crept closer in the eighth when, with two down, Kitaura's high fly bounced out of Bill Evans' mitt. He went to third when Imayoshi failed to stop Clark's high peg and scored on Evans' wild pitch. Hashimoto walked and scored on singles by Kawahara and Tomiye.

That left the count 5-4 in favor of the Merchants going into the last half of the ninth. Again, with two down, Evans muffed a spinning catch and then Hashimoto lined out his double to end the ball game, scoring Mori and Sui Koga.

Fraser, an Orchard City official, was umpire and proved to be a fair umpire, although the players took exception to his threats to expel players from the field if they as much as questioned his decisions.

| Box Score    | AB | A | H | P  | A  | E |

Koga 4, by M. Koga 0, by Evans 14; bases on balls off Evans 2; left on bases, Kelowna 7, Summerland 12; wild pitches S. Koga 1, Evans 1; passed balls, Mori Koga 3, Clark 1; hit by pitcher, Mori Koga by Evans; umpires, Fraser and W. Amm.

Mr. H. Bristow left this week for Balmoral, Man., to visit a brother and sister. Mr. Bristow has not visited in Manitoba for forty years and intends to remain there for about a month.

**Old-Timers Triumph  
 On Peachland Diamond**

Nobody accused them outright, but it was felt around the ball diamond last Friday at Peachland that the old-timers delayed things so long that they could only play five innings against the current crop of Peachland ball tossers. As a result, the old has-beens, made up of former Summerland and Peachland greats came out on the top end of a 6-5 count.

That veteran hurler who still has a keen hankering to get out and try for a steady place on the mound, Les Gould was heaving trick balls around the Peachland youngsters at a great rate Friday night and, after the first wobbly inning he even had Verne Cousins under control.

Al McCarger was scooping them out of the dirt at backstop, while Jack Dunsdon and Bill Nicholson, who handled second and short respectively were the other two imports from Summerland. No details as to their rate of pay has been divulged but it is said they weren't playing for peanuts... no, it must have been peacans.

That sturdy old warhorse Dan Cousins, cavorted nimbly at the hot corner, despite his forty-odd years while in the outer garden the oldsters had Gilam, Miller and Flintoff. One or two pioneers failed to make their appearance so young Ferguson was shanghaied to first base.

Ted Clements was saving himself for Sunday's game, so Warren Cousins, youngest of the many Cousins ballplayers, whirled some mighty effective balls for the hapless youngsters.

He was ably backed up by regular catcher Verne Cousins, while such well-known horsehide handlers as Naka, Duquemin, Ken Fuiks, Sutherland Kopp, Shaw and Long filled out the regular team.

It was four to two at the end of the first and affairs didn't look

any too good for the old-timers but they added another in the second and tied the score in the fourth. Two more runs in the fifth with only one response from the younger fry ended the game. The younger players wanted to continue but the old boys, having established their lead, refused to go any farther and said it was time for coffee, anyway.

**SURVEYOR GENERAL OF  
 BRITISH COLUMBIA REPORTS**

IMPLEMENTING the policy of the Provincial Government to accelerate survey and mapping work to assist in the more rapid development of known and potential natural resources, the Surveys Branch, Department of Lands and Forests is now organizing several field parties. The lack of trained personnel, primarily caused by war circumstance, is gradually being overcome.

The demarcation of the British Columbia-Yukon Boundary line is continuing. This survey is a joint undertaking of the Federal and British Columbia Governments, but a British Columbia party is doing the work. This season the line will be run easterly from the Swift River towards Watson Lake.

The Air Surveys division, recently established, will carry out extensive air photography, the results of which will provide immediate data for many engineering projects and detail for an extensive mapping programme.

Planned aerial surveying projects for 1947, if carried out, are so comprehensive that the areas covered will exceed the total work of previous years.

Published during the past year were:

1. Revised and reprinted editions of Map 4-P, Lower Fraser Valley, 2 miles to 1 inch, which covers the area from Port Coquitlam to 20 miles east of Hope.
2. Map 3-G, Quesnel pre-emption series, and
3. Highway and Travel Map.

A backlog of fourteen large scale manuscript maps covering sections of Vancouver Island, and prepared from surveys carried out by the Topographic Division during the last ten years, have been revised and shipped to Ottawa. These data will provide the basic coverage and meet the requirements for the reproduction of ten Standard National Topographic Series maps on the scale of 1 mile to 1 inch.

The postwar industrial upsurge and heavy tourist traffic is reflected in the greatly increased demand for maps. Over 20,000 were distributed by the Geographic Division during 1946.

There is still a supply of B.C. Gasometers left, giving approximately 25,000 place names throughout the Province. These are for sale at \$1.00 per copy and may be attained by applying to the Surveys Branch, Department of Lands, where maps likewise can be secured with price list on request.

### Municipal Delegates Talk On Plan To Send Salesman East To Promote Industries

Arising out of a discussion on main line and branch line freight rates charges, Ald. O. L. Jones, Kelowna, asked the Okanagan Municipal Assn. convention meeting in Summerland on Thursday, June 12, to consider the advisability of sending a "live-wire" representative to eastern Canada to interest eastern manufacturing concerns to set up factories in the Okanagan valley.

The executive of the association will consider this question thoroughly and bring in recommendations to the next convention, which will be held in Armstrong either immediately before or after the UBCM convention at Harrison Hot Springs in September.

Vernon introduced the subject of freight rate inequalities and pointed out that there is still a tendency for secondary industries to congregate at coast areas because of transportation charges.

The department of trade and industry of the B.C. government will be asked to use its influence to regulate freight rates and charges throughout this province so that branch lines will receive equal consideration with that of main lines.

A copy of this resolution was ordered sent to the freight rates inquiry which opened at Vancouver on Monday, June 16.

**Aid To Hospitals**  
Hospitals came in for consideration by municipal officials here on Thursday when it was pointed out by Mayor David Howie, Vernon, that there is a discrepancy in payments to hospitals between patients from organized and unorganized territories.

If patients are from within municipal boundaries, the municipality contributes 70 cents per patient day and the provincial government contributes a like amount. But if the patient is from unorganized territory, the only contribution to his upkeep is from the provincial government at 70 cents per day, it was stated.

The meeting endorsed Vernon's proposal to request that the government payment for unorganized territory patients be boosted to \$1.40 a day to be brought in line with municipal patients.

**Represent Valley**  
Mayor Fred Scott, Kamloops, president of the Okanagan Municipal Assn. and member of the UBCM executive, will represent Okanagan municipalities at the Canadian Mayors and Reeves Association convention in Winnipeg on July 8, 9 and 10. He was asked to obtain all possible information on the business tax plan as it operates in other provinces, in the light of recent recommendations by the Goldenberg commission.

Mayor Scott also reported on a recent visit of the UBCM executive to the provincial cabinet and referred at some length to submissions by the UBCM on the government's implementation of the Cameron report on the school system. The UBCM endorsed a lengthy brief submitted by Mayor G. G. McGeer on behalf of the City of Vancouver.

Although the B.C. government recently passed an order-in-council assisting rural area residents who are affected by the rising cost of schools, the Thursday meeting agreed to continue to press for further revenue from the government to offset the increased cost of schools.

**Old-Age Pensions**  
Concerning the school question, Mayor Scott reported that Mr. Sewell had been commissioned to study all aspects of the new school act and had declared: "The more you read the less you know about it."

Old-age pensions are to be considered at the UBCM with the Okanagan municipal officials pressing for a reduction in the age limit to 65. Ald. Henderson, Kamloops, declared that persons out of work between 65 and 70 would only obtain unemployment insurance benefits for eight months of that period, and the rest of the time would have to depend on "charity" until they reached 70 years, if they had no other means of support.

#### HEIGHT OF AWNINGS

Height of awnings came under discussion by the board of trade on Thursday night when George Perry suggested steps should be taken to correct some which are too low. Roy F. Angus, building inspector, replied that there are regulations in the building by-law and he intends to see that any irregularities are corrected at once.

### Fountain In Lower Town Under Fire

Is the old water fountain in lower town a valuable antique or should it be replaced with a modern water fountain?

That subject caused some comment, some serious consideration and some levity at the monthly meeting of the Summerland Board of Trade on Thursday night.

A. D. Glen introduced the subject and stated that officials working for the B.C. game commission in clearing the land for the new fish hatchery were on the verge of destroying this old relic when he was instrumental in halting proceedings.

Mr. Glen stated he would hate to see this fountain destroyed as it is of value to the travelling public and has historical values.

Bill Snow, president of the Summerland Fish, Game and Forest Protective Assn., contended this fountain was built for convenience in the horse and buggy days. It is at the main entrance to a modern, attractive building—the fish hatchery—and if a fountain is desired the game commission is prepared to erect a modern one.

E. R. Butler, supported Mr. Glen in his contention that the fountain is of value to Summerland and should remain.

Dr. Andrew spoke of the pure, cool water available from this fountain and that he had seen many persons stop there to drink. In the spring, when the West Summerland water is cloudy from the run-off many persons go to this fountain for their water supply, he stated.

Mr. Glen declared he wished to see something in writing about the new fountain being erected before he would yield on the subject.

Gordon Blewett sided with Mr. Snow in the view that a modern fountain would be of more benefit than the old stone structure, which he claimed is an eye-sore.

Reid Johnston termed the fountain an "artistic piece of work", but Francis Stewart agreed "it is certainly antique", but favored a modern fountain.

Mr. Snow moved a resolution that the board go on record as favoring the removal of the fountain and the B.C. Game Commission be notified of this action. Mr. Blewett seconded this resolution but A. K. Macleod pointed out that the fountain does not belong to the board of trade.

Reid Johnston moved an amendment that if the fountain is to be moved that it be located either to the north or south of the present spot. W. C. W. Fosbery seconded this motion.

But a further amendment was brought forward by J. R. Armstrong, that, as the fountain is lo-

## Free Services For Farmers

For the purpose of assisting the farmers of Canada to meet the economic problems with which they are constantly confronted and to carry on the industry of Canadian agriculture to the advantage of the nation as a whole, the Dominion Government has several millions of dollars invested in free services and facilities.

No other industry has at its disposal such a wide and varied range of services and facilities provided by the Government. They include the Dominion-wide system of Experimental Farms and Stations, the divisions of Dairy Research, Botany and Plant Pathology, Chemistry, Entomology and Plant Protection of the Science Service, the divisions of Health of Animals, Plant Production and Livestock with their field services of the Production Service, the Marketing Service, in which is centralized the administration of all grading services of livestock and livestock products, the Production Service, the Marketing Service, in which is ducts, dairy products, poultry, eggs, fruit, vegetables, canned goods, maple products and honey, and the Division of Agricultural Economics, which serves as a fact-finding body concerning production and marketing.

Results of the research work and experiments of all these services of the Dominion Department of Agriculture are made known to farmers and the people of Canada generally through free publications, the press and radio, exhibits and other ways directed by the Publicity and Extension Division.

Those engaged in the industry of Agriculture, whether directly or indirectly are invited to make full use of the services and facilities as outlined. They are free.

BALL PARK IS UNDER REVIEW

PEACHLAND—J. B. Gummow and Ken Fuiks advised the Peachland council last Thursday evening of the work which had been accomplished at the ball park. A backstop was constructed, rocks picked up and the ground floated, besides a portion of the bank cut away. Much of the labor was donated and everyone co-operated to put the ball park into shape, they stated. The ball club, through the delegation, were congratulated on their splendid work.

Reduction of the speed limit through Peachland from 30 to 20 miles per hour is to be sought from provincial police by the Peachland council.

PEACHLAND A trade's licence was granted to Mrs. Saigenia to operate a beauty parlor.

# Two Councils Meet Tonight To Settle School Bylaw Plans

This evening, at Pentiction, the Summerland municipal council is meeting with the Pentiction municipal council and representatives of the school board on behalf of the rural area in an endeavor to come to an agreement on the basis of the proposed school bylaw. Percentages, which by the very nature of the setup will vary from year to year, will probably be settled this evening.

This session arises out of the visit here last week of B. C. Bracewell, deputy minister of municipal affairs, who talked to both councils on municipal and school matters and urged the two bodies to get together to settle their differences.

Both municipal councils have expressed the desire to have support from the ratepayers for this school by-law, which calls for an expenditure of \$177,000 and will ask the tax-payers to approve the raising of some \$92,500 by debenture bonds.

If the councils agree this evening on the percentage of the money to be raised next year to meet the first payment on the bonded indebtedness arising out of this by-law, then the legal steps to present the by-law to the public can be proceeded with despatch, it is stated.

Summerland's inclusion of trees in its municipal assessment is still at the bottom of any possible disagreement which might arise this evening at the municipal delegates' conclave.

As has been disclosed in previous issues of The Review, Summerland has taxed fruit trees municipally for years, and the municipal assessment roll figures include tree values. However, Pentiction and the rural area assessment rolls do not include fruit trees and Summerland has been endeavoring to submit its assessment figures, for school purposes only, without the trees.

As there is only one assessment roll in the Summerland municipal office, however, only one set of figures for assessment purposes has been ruled legal, to date, although the Summerland council is standing pat on its contention that a lower assessment figure should be taken for school purposes.

No ruling on this contentious point has been obtained from Victoria, where the provincial government is fighting shy from present indications.

It is unlikely that this question will be settled between the municipalities tonight, but some common basis to establish percentages for the school bylaw is expected to be found.

## Will Complete Surfacing Of Roads Soon

With the expected arrival of another car of asphalt, work of completing the hard surfacing of the Station road will probably be a major concern for the municipal roads department for the balance of the week.

When this road is completed the asphalted Prairie Valley road will be the next step, following which the council will review its road expenditures for the year and consider what further steps can be taken.

Before the oiling of Hastings street is undertaken, the trees in front of W. D. Laidlaw's home will probably be removed, according to council decision on Monday afternoon.

These trees have been the subject of much discussion during the past few months but the council on Monday decided they must be removed in order that a permanent grade can be established there for future sidewalk needs.

Reeve W. R. Powell introduced the subject of the Laidlaw trees by stating that Mr. A. Soderberg, of the Capitol Motors had objected to the trees next to his garage blocking off that side of his building and also interfering with the upstairs rooms.

It has already been pointed out that when Mr. Laidlaw purchased this property he had been led to believe that the trees were on his property. Later investigation revealed that the trees are on the street allowance.

Councillor H. L. Wilson did not vote on the subject of tree removal.

On Monday, it was stated that all but one lot owner on the east side of Hastings street had made payment for their portion of sidewalk costs. The sidewalk project will not be held up on that account but will be proceeded with, the council declared but if this owner does not fall in line the sidewalk will be terminated at his corner, as the property is the farthest north on Hastings street.

On the "dumphill" road, calcium chloride has been laid on the clay surface and is said to have been quite successful as a binding mixture and a dust leveller. The solution tends to draw moisture and thus prevent the dust from rising, but is only practical on certain surfaces, it is said.

Since the last council meeting, considerable grading and water hauling has occupied much of the time of the road crew, Road Foreman Les Gould reported on Monday.

**SUMMER RECESS ORDERED**  
Summerland Board of Trade will forgo any regular meetings during the summer months of July and August, it was decided on Thursday night. Any business will be handled by the executive and if any major problems arise

West Summerland, B. C., Thursday, June 26, 1947

## Scholarship Winner Busy Young Student

One of the busiest young students in Summerland was chosen by the selection committee as the 1947 winner of the Summerland Scholarship award of some \$250—Miss Shirley Falmer Harvey, aged 17, daughter of Mr. and Mrs. Charles F. Harvey, residents of Summerland for the past eight years.

Shirley always wanted to go to university and now this award "will make it possible," Mrs. Harvey explained to The Review this week.

Shirley Harvey, popular auburn graduating student from the Summerland high school this term, is the second winner of the Summerland Scholarship, the first winner being Joan C. Bennett, daughter of Mr. and Mrs. E. H. Bennett.

The 1947 winner is undecided what course to take up at UBC but she rather thinks that home economics will be the choice.

Mr. and Mrs. Harvey and their family moved west to the Okanagan and Similkameen valleys nineteen years ago from Wainwright, Alta. Fourteen years ago they settled in Pentiction and eight years ago moved to Summerland. All Shirley's training has been at the Pentiction and Summerland schools but now she will be able to go forward to a higher seat of learning, due to the scholarship award. Last year, she was the winner of the book prize for proficiency in Grade XI.

There is hardly an activity in the student life here that hasn't felt the influence and guidance of this young miss. For the past six months she has been secretary of the students' council and holds down the same position in the high school ski club.

She is secretary of the Okanagan Teen Town association and is town clerk of the local Teen Town. Nor does her activity stop at inscribing minutes by any means, as her athletic prowess has carried her to the captaincy of the school basketball team for several years and has also made for her a place on the school volleyball and track teams.

For three days in the next week every person over fourteen years of age will have the opportunity of obtaining a free x-ray of their chest to determine any signs of tuberculosis.

## PICNIC HIKE UP GIANT'S HEAD SET FOR NEXT SUNDAY

Under the sponsorship of the board of trade, a picnic hike up Giant's Head to view the proposed roadway and to give local residents an idea of the beautiful view to be obtained from atop this landmark is proposed for this Sunday afternoon.

Those who anticipate joining in this hike are expected to meet at Mac's Cafe on Sunday at 3 o'clock and transportation will be arranged as far as the site of the old slaughterhouse. From there, the hike will commence.

It is anticipated that it will take an hour for the hikers to reach the top of Giant's Head. A jeep will accompany the hikers, it is expected.

## T. B. Clinic To Be At I.O.O.F. Hall Tomorrow

For three days in the next week every person over fourteen years of age will have the opportunity of obtaining a free x-ray of their chest to determine any signs of tuberculosis.

The free T.B. chest clinic will arrive here tomorrow, Friday, and will be stationed at the I.O.O.F. hall. It will be here again on Monday, June 30 and again on Wednesday, July 2.

If any persons in the community have not been contacted by a member of the Rotary club and given an appointment at the clinic they may obtain a definite time by contacting C. J. Bessdale, manager of the B. C. Fruit Shippers' packing house.

## ACCEPT OFFER FOR LOCAL LAND

Bid of \$150 made by H. W. McInnes, Pentiction lawyer, on behalf of Mrs. S. McKay for a small portion of land with fruit trees was accepted by the Summerland council on Monday.

This land was believed by Mrs. McKay to have been on her property when she made a purchase some months ago, but it was later found on a survey, that the fruit trees in question were actually on the road allowance.

The municipal council ordered a re-location of the road allowance to put the fruit trees back onto saleable land.

Another offer of \$200 for this portion and another small slice of property segregated by the new road allowance, was turned down by the council as it believed Mrs. McKay had the prior right to the land. The second offer was made by I. Szling.

Mr. Szling also offered \$600 for adjoining land and the council has agreed to accept this bid.

## William Grant Dies at Pentiction

At the Pentiction hospital on Saturday, June 21, there passed away William Grant, aged 79 years, father of George S. Grant, Summerland. Deceased was born in Roxburgh, Morayshire, Scotland.

Funeral services were held from the Pentiction Funeral Chapel on Tuesday, June 24, with Rev. Burtch in charge. Interment was in the Lakewood cemetery, Pentiction, with the Pentiction Funeral Chapel in charge of arrangements.

Besides his son, in Summerland, he leaves four daughters, Mrs. J. R. Anderson, Roxburgh, Scotland; Miss C. E. Grant, Kirkby Stephen, West Moreland, England; Mrs. C. Butt, Westbank, and Mrs. T. G. Mahon, Pentiction.

## Few Mosquitoes Noted This Year

With the long-dry spring not being conducive to breeding, the 1947 mosquito crop is not expected to be troublesome, Councillor Eric Tait reported to the council on Monday on behalf of the mosquito control committee of Trout Creek.

He stated that some oil for treatment of low-lying areas had been ordered and a small amount of control work would be undertaken, but no big drive against mosquitoes would be necessary this year.

A special meeting of the board will be held.

## CONTINUE SEARCH FOR BODY OF YOUNG GIRL

At press time today, a search party using boats and grappling irons was still searching for the body of 15-year-old Joyce Mayert, daughter of Mr. and Mrs. G. G. Mayert, who disappeared while swimming at Powell Beach last night about eight o'clock.

Searchers continued a fruitless hunt until about midnight and recommenced their activities at daybreak today.

The tragedy occurred during a Grade VII swim party to mark the closing of school. The youngsters were kept under close surveillance by their teacher Mr. H. V. Stent, who spotted Joyce Mayert only a couple of minutes before her disappearance and did not observe anything the matter then.

Mary Lou Rempel, a classmate of the unfortunate girl, was near Joyce and noted her disappearance when she turned around. After hunting frantically for her, young Miss Rempel notified Mr. Stent of the tragedy and the search commenced.

## Labor Party To Remain Say Visitors Here

Edna, Lady Ritchie, and her daughter-in-law, Dr. A. C. P. Ritchie are distinguished visitors to Summerland at present, where they are guests at the home of Lady Ritchie's brother-in-law and sister, Mr. and Mrs. Lee McLaughlin.

In the opinion of both Lady Ritchie and Dr. Ritchie, the Labor government in England will be a lasting one. Dr. Ritchie thinks that there has already been much excellent work done by the Labor government. Dr. Ritchie specializes in pulmonary tuberculosis.

The citizens of England are prepared to accept the fact that the return to economic stability will take some years, explained Dr. Ritchie. However, the health of the English people has not suffered during the lean war years, despite, or probably because, of the strict rationing. According to Dr. Ritchie, the health of the British people is of a higher standard than ever before.

Both Lady Ritchie and Dr. Ritchie are delighted with Canada, and find the sunshine here the greatest attraction at present. Dr. Ritchie explained that there have been no sunny summers in England during recent years, and that following the past severe winter, the people there are rather depressed. Rationing is still extremely severe, with vegetables being about the only item of food unrationed. Clothes are strictly rationed, too, so that life there is rather monotonous, with little to relieve the dullness.

Lady Ritchie was a visitor to Summerland nine years ago, but it is Dr. Ritchie's first visit to Canada. Lady Ritchie will leave at the end of June for Illinois, where she will visit her daughter, but Dr. Ritchie will be a guest at the home of Mr. and Mrs. McLaughlin until August.

Lady Ritchie makes her home in the small village of Crick, near the city of Rugby, in North Hampshire, which is in the Midlands. Dr. Ritchie lives and works in London but she is on a year's leave from her medical duties at present.

Lady Ritchie and Dr. Ritchie will return to England at the end of November, sailing from an eastern port aboard the Empress of Canada on Nov. 27.

## Little Cherry Crew Working District

On Tuesday morning, the Little Cherry survey party reached Summerland area after covering most of the southern end of the Okanagan from Osoyoos north to Pentiction. During the next few days, a tree to tree examination will be made through all cherry blocks in this district to determine if there is any sign of this dread virus disease.

No official statement has been made but it is understood that no sign of Little Cherry has been found in the Okanagan to date.

Personnel taking part in this search are: J. Smith, Oliver; W. Touzon, W. Woods, Vancouver; M. D. Trumppour, Salmon Arm; R. P. Murray, D. Allen, Pentiction; M. S. Middleton, H. H. Swans, W. Everslock, Vernon; W. R. Foster, R. Hammond, Victoria; R. Wilson, Kelowna; Dr. H. T. McLarty, T. B. Jant, D. McInnes, and S. Woodhouse, Summerland.

## Alarm Over Loss Of Export Market Not Desirable Says Loyd

There is no need for undue alarm nor does the central sales agency look for any serious financial loss, but the growers should adjust themselves to conditions and prepare against the possibility that the export market to the Old Country will be lost to them this year, declared A. K. Loyd, in effect, in a prepared statement issued to The Review last night.

Mr. Loyd, president and general manager of B.C. Tree Fruits Ltd. the central sales agency, returned on Sunday from Geneva where he acted in an advisory capacity to Canadian officials at the international trade conference.

Last week, the sales agency announcement that there would be little likelihood of any export deal to Great Britain this year because of lack of dollar exchange has brought a mixed reception, and some involved schemes have been suggested to solve the problem.

One of the main suggestions has been the outright gift of Canadian apples to the Old Country, the apple-producing areas to be repaid on a subsidy basis by the Dominion government.

Mr. Loyd in his usual manner, has produced a calming effect by his statement that "the outlook is complicated by the very unpromising export situation, but we have had difficult situations to meet before and, with the full support and understanding of the growers are confident that we can face up to them again."

Full details of Mr. Loyd's statement follow:

**Make Every Effort**  
"A number of press dispatches, many of them garbled and obviously written by people not familiar with the situation, have somewhat confused the issue.

"Great efforts are being made, and will continue to be made, by Ottawa departments, particularly the department of agriculture, looking towards some arrangement on export which may render assistance to the fruit industry in Canada. At the present time, however, there is no undertaking whatever that any dollars will be expended by the British government on the purchase of apples. They are extremely short of dollar exchange, and it has been indicated that apple imports, in view of their heavy domestic crop, are one of the first commodities that might suffer as a result.

"In view of this, B. C. Tree Fruits have intimated to growers that they should do everything possible to get their fruit into the medium size groups, in order that, no matter what develops, they may have an acceptable product for any outlet. If this advice is followed there will be, undoubtedly, ample supplies to take care of any export agreements which might conceivably develop. However, if and if they do not develop, then the grower is in the best position to meet the situation as it appears at this moment.

**Desirable Size Groups**  
"The difficulties resulting from a shortage of dollar exchange have been in view for sometime, and they will in all probability continue for a further period. If our industry is wise it will realize this and adjust its economic and horticultural methods at every opportunity, as far as possible, to the desirable size groups.

"Further dispatches have hinted of serious financial loss. This statement has never been made by the Sales Agency, nor is it subscribed to. The outlook is complicated by the very unpromising export situation, but we have had difficult situations to meet before, and, with the full support and understanding of the growers, are confident that we can face up to them again.

"Until further information is forthcoming from government circles, it would be by far the wisest thing to do to adjust ourselves to conditions, and to take all possible precautions to meet them without getting excited or allowing ourselves to be influenced by ill-advised or sensational statements."

## Over 200 Register For Swim Classes

More than 200 children have signified their intention of participating in the Summerland Board of Trade annual free swim classes, the biggest entry list ever recorded. Opening day of these classes is set for next Wednesday, July 2, with classes at 2 and 3 p.m.

Sixteen instructors have been obtained to handle these classes and Powell Beach has been divided into ten beaches. Each pupil will go to a particular beach for instruction each Wednesday afternoon.

It is planned that the swim classes will last for eight consecutive weeks. Beach equipment is being rented for the opening day and on Monday evening the rafts were painted and sanded to prevent them becoming slippery. The inflatable raft formation is being extended this year to form two complete pools, the trade board states.

Mal Ducommun, in charge of registration and transportation states that his committee is well ahead in its plans. Each pupil desiring transportation on the Smith & Henry or White & Thornthwaite will be paid a transportation fee of one dollar.

The buses will make two round trips each afternoon and will only pick up and deliver those pupils who are scheduled to take the particular classes designated.

Cecil Wade is in charge of the instructors and is completing the program of instruction for the summer months. Mr. Wade has had a great deal of coaching in swim instruction and is a qualified lifesaving instructor, as well.

Walter Blonsdale is in charge of the trade board beach equipment committee whose task is to have the rafts and floats in readiness for the opening day. Some equipment is being loaned by the Canadian Red Cross society provincial headquarters in Vancouver.

From present indications, the swim classes will be better organized than on any previous occasion and if the pupils co-operate in getting to their allotted classes on time they will receive better instruction than has been possible in past years.

Mr. and Mrs. S. L. Kaufman, of Edmonton, were visitors this week at the home of Mr. and Mrs. H. R. J. Richards. The Kaufmans are on their return trip from California and other United States points.

JOHN HART URGES BOY SCOUT HELP

In a public statement issued in connection with the current financial appeal of The Boy Scouts association of British Columbia, John Hart, premier of B.C., endorsed this worthy cause and urged that British Columbians support it generously.

"I heartily endorse the current appeal of The Boy Scouts association for funds to assist in the extension and expansion of 'Scouting in our province', said the premier. 'The work of the Boy Scouts throughout British Columbia has always appealed to me, particularly because of its character training and good citizenship qualities in its work among our boys.'

"The responsibility of administering, supervising and extending this youth building work rests with the provincial council at Vancouver headquarters and to carry on and expand this great work the generous co-operation of the people of British Columbia is needed.

JOINS CHAMBER

Summerland Board of Trade is now a member of the Canadian Chamber of Commerce and members attending the monthly meeting in the IOOF hall on Thursday were shown a copy of the membership certificate.

Triple Wedding Solemnized At Lakeside United Church Creates Province-Wide Interest

With the Lakeside United church filled to capacity and a large crowd in the adjoining streets a triple wedding ceremony was held on Friday evening, June 20, at 7 o'clock, with Rev. H. R. Whitmore officiating. This ceremony, believed to be the only one of its kind known to be held in Canada, united in marriage William Charles Smith, Phillip Matthew Smith and Clinton Leroy Smith, sons of Mr. and Mrs. Eldon J. Smith, Summerland, with Miss Jean Gilmour Jones, Miss Patricia Elizabeth Blacklock and Miss Kathleen Mary Gilmour Jones, respectively. Miss Blacklock is the elder daughter of Mrs. Nora Blacklock, West Summerland, while the Misses Jones are the daughters of Mr. and Mrs. Joseph Jones of Vancouver.

The church was beautiful for the occasion, decorated with masses of seasonal flowers, and with an arch of white streamers and red rambler roses, before which the ceremony took place.

Wedding music was provided by Percy Thornber prior to the ceremony, in which the three couples exchanged individual vows, the rest of the ceremony being mutual.

The brides and their attendants entered the church in procession, with the marriages being performed in order of the brothers' ages.

Miss Jean Gilmour Jones, bride of the eldest brother, William Charles Smith, was given in marriage by her father, Mr. Joseph Jones of Vancouver, and was gowned in white floral nylon sheer, fashioned with long sleeves, a sweetheart neckline, and a full skirt, falling from a fitted bodice. Her long veil of white embroidered net fell from a Tudor headdress, and she carried a bouquet of deep red roses and fern.

Miss Alice Smith, sister of the bridegrooms, was maid-of-honor for Miss Jean Jones, and wore rose net, floor-length, with short sleeves and a high rounded neckline. Her gloves were elbow-length, and her headdress was a rose chapel veil, falling from a floral headdress. She carried a colonial bouquet of deep shaded flowers.

Miss Patricia Blacklock, elder daughter of Mrs. N. Blacklock, exchanged vows with Phillip Matthew Smith, and was given in marriage by her cousin M. Chas. Blacklock of Penticton. Her gown was of traditional white, floor-length, with a satin bodice and sweetheart neckline, and with a full net skirt. The sleeves were short and her gloves elbow length. Her long veil of white embroidered silk net was slightly on train, and fell softly from a Mary, Queen of Scots headdress. Her only jewelry was a sapphire pendant, a gift of the groom, and her flowers were pastel roses, in a shower bouquet.

Miss Dorothy Blacklock was the attendant for her only sister, and her floor-length frock was of pale pink brocaded sheer, with short sleeves, with which she wore elbow-length pink gloves. Her chapel veil of the same shade fell from a floral headdress, and her flowers were a colonial bouquet of deep red flowers.

Miss Kathleen Mary Gilmour Jones, bride of Clinton Leroy Smith, youngest son of Mr. and Mrs. E. J. Smith, was lovely in a long frock of flowered white nylon sheer, with a V-shaped neckline and short sleeves. A deep pebbled outlined the fitted waist with a bustle effect, and her white gloves were also elbow-length. Her long veil of white embroidered net fell from a sweetheart headdress, and she carried a bouquet of deep roses. She was escorted up the aisle on the arm of a family friend,

er brides were tossed in the traditional manner to the attendants of the brides.

Mr. and Mrs. Phil Smith will make their future home in West Summerland, while Mr. and Mrs. Wm. Smith and Mr. and Mrs. Clinton Smith will reside in Summerland.

Mr. Wm. Smith is a veteran of three years' overseas service, in Italy and in Holland, where he served with the Loyal Edmonton Regiment. Mr. Phil Smith also served in the Canadian army, and was stationed in England, when the war ended. Mrs. Clinton Smith served in eastern Canada in the C.W.A.C.

Miss Nancy Ramsey, of Revelstoke was a weekend visitor at the home of Mr. and Mrs. H. Ibbotson, Peachland.

Mr. James Dowler, who has been in Peachland the past six months, returned to his home at Veteran, Alta. on June 6.

Workless Washdays with a Bendix Automatic Home Laundry. You simply set a dial, add soap—all by itself your Bendix does the rest. You never put your hands in water. All by itself the Bendix Washes, Rinses three times, damp dries clothes, shuts itself off. For further particulars see—

Features a large tree illustration and text: 'PREVENTION A MESSAGE TO THE PEOPLE OF BRITISH COLUMBIA— In the past, British Columbia has averaged about sixteen hundred forest fires a year, with a resultant loss in standing forests, felled timber, equipment, buildings, and other values. Our bill for these losses, plus the cost of fighting forest fires, has amounted to hundreds of thousands of dollars a year. The easiest fire to fight is the one that is never started. When in the woods BE CAREFUL WITH FIRE! PREVENT FOREST FIRES! R. T. KENNEY, Minister of Lands and Forests. BRITISH COLUMBIA FOREST SERVICE DEPARTMENT OF LANDS AND FORESTS'

# The Greatest Contribution To Safe Driving in 25 Years

**BANISH FEAR AND WORRY AT HIGHWAY SPEEDS!**

## only **MIRACLE SAFETY WHEELS**

GIVE YOU

### ★ **Positive Blowout Protection**

**THERE IS NO SWERVE TO YOUR CAR WITH MIRACLE SAFETY WHEELS**

If you have a blowout your car proceeds straight ahead.

You avoid costly smashups and possible loss of life.

You can relax safe in the knowledge that your car will run true

During the hot weather ahead new tires ALONE will be no guarantee of blowout or puncture protection. Miracle Safety Wheels offer POSITIVE protection . . . PREVENT blowout accidents! Even in blowouts at highway speeds there is NO sudden settling—NO horrible tendency to swerve—NO dangerous pull to either side of the road.

THEY ACTUALLY PERMIT THE DRIVER TO CONTINUE UNTIL IT IS CONVENIENT TO STOP.

### ★ **Safety At Any Speed**

Miracle Safety Wheels were invented to combat the terror of highway blowouts. They have, in fact, reduced tire failures from an unpredictable source of danger to a relatively minor inconvenience.

### ★ **Driving Comfort**

With Miracle Safety Wheels your tires are firmly locked in place . . . they cannot "move" on the rims on turns or curves as with conventional wheels. Miracle Safety Wheels make for smoother riding . . . easier handling . . . with resultant comfort.

### ★ **Sound Economy**

Locking your tires in place, Miracle Safety Wheels substantially reduce tire-wall damage. Your tires will last longer . . . give you better service. If blowout or puncture occurs, tire damage is kept to a minimum.

### ★ **Stability**

Miracle Safety Wheels make your car easier to handle by helping to eliminate shimmy and weaving.

### ★ **Relaxation At Highway Speeds**

Once you have known the satisfaction and peace of mind of driving with Miracle Safety Wheels you will never again be without them. You and your family can RELAX with Miracle Safety Wheels.

#### Here's How They Work

In blowouts with Miracle Safety Wheels, the air lets go, but patented retaining humps hold the tire straight and tight on the rim. Thus centrifugal force is able to give the effect of air pressure. As the car slows down, the tire goes down . . . AND SO DOES THE DANGER!

#### FINAL TRIBUTE PAID TO NATIVE SON, PAT NISBET

Final tribute was paid a young native son of Summerland on Saturday afternoon, June 14, when funeral services were held from St. Stephen's Anglican church, West Summerland, for the late Patrick Nisbet, popular 21-year-old son of Mr. and Mrs. A. W. Nisbet.

Rev. Canon F. V. Harrison conducted the service and interment took place in the Anglican cemetery, Summerland.

The late Mr. Nisbet passed away at Tranquille sanatorium on Wednesday, June 11. Born in Summerland, he had been an active troop leader in the local Boy Scouts troop and was the first lad to command the Summerland army school cadets, with the rank of Lieutenant-Colonel.

Enlisting in the RCAF, young Pat spent nearly three years in that service and was discharged as a Sgt.-Pilot. On discharge he entered the University of B.C. but within a few months his health broke down and he entered the san at Tranquille.

Pall-bearers for the largely-attended funeral last Saturday were Verne Charles, Lionel Fudge, S. A. MacDonald, George Hack, W. R. Boyd and Jack Stocks Penticton.

#### Magistrates Are Topic of Debate

"I have no control over police magistrates or the sentences they give," declared Attorney-General Gordon S. Wismer to the Okanagan Municipal Assn. convention in Summerland last Thursday in reply to a protest sent three months ago regarding the practice of coast magistrates in issuing "floater sentences", which only tend to send convicted criminals into interior points.

This statement brought a series of protests from valley municipal officials summed up by Mayor Hugh-Games, Kelowna, succinct retort: "A very unsatisfactory answer."

If the attorney-general's department has no control over magistrates then who has any control, the meeting asked, pointing out that the provincial government is responsible for appointing these officials.

The municipal group decided to write Hon. Mr. Wismer a further letter enquiring who is responsible for the action of police magistrates.

Actual appointment of magistrates was discussed on Thursday when the subject was introduced by Mayor David Howrie, Vernon, with a suggestion that the provincial government should not only appoint but pay the magistrates, as well.

"The magistrates are not appointed by the government but by the Liberal party in your community," retorted Ald. O. L. Jones, Kelowna, well-known CCF candidate in recent elections.

He did not approve of the Vernon plan and his suggestion that the municipal councils be allowed to nominate magistrates was agreed to by the meeting.

It was pointed out that if the provincial government both appointed and paid magistrates the government would also wish to collect all the fines, so the municipal officials did not side with the Vernon proposal.

#### PEACHLAND

Mrs. Ruth Sheplar of Spokane, was a visitor here on Tuesday, June 2.

Mr. and Mrs. A. S. Burdick, of Mission, formerly of Trepanier, were visitors here on June 11.

#### NEW BOOKS AT UNION LIBRARY

In May, 841 books were circulated from the Summerland branch of the Okanagan Union Library, W. C. W. Fosbery, librarian, states.

A number of new books reached the library recently and include: Fiction: Cider from Eden, Bruff; There was a Time, Caldwell; Tower of Babel, Canetti; Saint Steps In, Charteris; Dark Dominion, Hauser; But Look, The Morn, Kantor; In this, Thy Day, McLavery; Works, Tales, Vols 3 and 4, Poe; White Lady, Whitton; Aurora Dawn, Wouk; Madman's Memory, Vercel.

Non-Fiction: World History, Back; Fishes of the Pacific Coast of Canada, Clemens; Palmetto Braiding and Weaving, Cooke; Amateur Photographer's Handbook, Collins; Lions under the Throne, Curtis; Wind Aloft, Wind Alow, Marin-Marie; Harriah Moore and Her Circle, More; Taming a Century, Moore; American Dynasty, Tebbel.

#### Missionary Film On India Shown

Rev. Arthur Dobson, who has spent the past six years as a missionary in India, and will return there following a three months-furlough, showed an interesting story film on missionary work in India at St. Andrew's United church on Monday evening, June 16.

He was introduced by Rev. H. R. Whitmore, and a short film on the beauties of the Okanagan valley was shown at the beginning of the evening.

This film will be shown by Rev. Dobson throughout the prairie with the object of encouraging young people to attend the United, church-sponsored leadership school, which will start in Naramata in January.

The film on India was interesting and colorful, as was the accompanying commentary by Rev. Dobson.

Following the showing of the film, a meeting of the Service club to the St. Andrew's church was held in the church hall, with about 35 attending. During the short business meeting, it was voted that \$25 be donated toward a movie projector to be taken back to India by Rev. Dobson.

Refreshments were served at the close of the meeting by a committee composed of Miss J. Hoshowsky and the Mesdames H. R. Whitmore, E. Kyle and M. Hurry.

#### ROAD NAMES ARE GIVEN SUPPORT

Changes in names of a number of municipal roads will be suggested to the municipal council by a special committee convened by Dr. F. W. Andrew on behalf of the board of trade.

Dr. Andrew outlined his committee's suggested names to the trade board session on Thursday night and the general membership acquiesced in the proposal and authorized Dr. Andrew to confer with the council.

Among the names which will be perpetuated if these suggestions are carried out are: Gartrell, Barclay, Munro, Cartwright Dale, Higgin, Doherty, Agur, Fosbery, Graham, Dunsdon, Ritchie, Stewart, Goldsmith and Andrew.

These are all names of pioneers whose energies helped in developing this community. Dr. Andrew was thanked by the board for his work in this matter. Along with Dr. Andrew were George Henry, Alf McLachlan and C. E. Bentley.

First shipments of Summerland cherries went to the fresh fruit market this week but no heavy volume is expected before the first of the week.

Colorful Ceremony Marks Graduation

At the second annual ceremonies for the graduation class of the Summerland High School held on Friday afternoon, June 20, in St. Andrew's United church.

er Harvey, daughter of Mr. and Mrs. C. F. Harvey, Summerland. Miss Harvey is the second winner of this award, and it was felt that it was well deserved.

The annual banquet and dance for the student body was held the same evening in the I.O.O.F. hall, and the new president of the student council was elected.

The following presentations were made at the graduation ceremonies: The coveted Verrier trophy, given in memory of Robert F. Verrier, was presented by Mr. Macleod to Bruce Haskins, who was chosen for the honor by nomination from his fellows as possessing the best all-round qualities as a student.

The Marksman's cup was presented by Magistrate H. Sharnan to Robert Weitzel, while Robert French, as president of House I, accepted the inter-house trophy donated by the merchants of the district.

Memorial Organ To Be Heard at Recital July 2

Music lovers will have an opportunity for a splendid evening of classical numbers on Wednesday, July 2 when G. Herald Keefer, Vancouver, organist of the Canadian Memorial Chapel there and member of the Canadian College of Organists, presents a recital on the new memorial organ being installed at St. Andrew's United church.

This organ is being installed as a memorial from the United church of Summerland to those who fell in the last world war.

Opening number 88 Mr. Keefer's program will be Bach's "Cathedral Prelude and Fugue in E Minor". Choral preludes will be "Come, Saviour of the Gentiles" and "Jesus, Joy of Man's Desiring."

Municipal Map Costs Are Sought

Need for a new municipal map was expressed by the local council on Monday in considering the proposal of the board of trade committee headed by Dr. F. W. Andrew that certain streets in the municipality be named in memory of pioneer residents.

The council will obtain costs of revising and printing a new set of municipal maps, and will incorporate the suggested names, it was decided.

Drift Fence Will Have to be Moved

Cattle men who erected the drift fence at the upper end of Garnett Valley think it was a "pretty small thing for the council to do", to sell the property on which the fence was erected.

declared Reeve W. R. Powell in reference to the council sale of the property.

"My understanding was that the sale was subject to an agreement being reached regarding the fence and it was to remain until the cattlemen could make other arrangements," declared Councillor Eric Tait, but other councillors could not remember these details.

However, arrangements can be made to have the fence moved, with the cattle guard and gate on the road, if Mr. Adams will agree to keeping the gate closed to protect orchards in that area, it was explained.

Mr. William White and Dr. F. W. Andrew returned to Summerland on Tuesday from a week's visit to Vancouver. Mrs. White, who accompanied them on the trip to the coast, returned from Victoria on Wednesday.

Miss E. G. Allen, of Vancouver, former matron at the Summerland hospital, is a guest at the home of Dr. and Mrs. F. W. Andrew.

Mr. Lorne G. Perry was a visitor to Vancouver last week-end to attend the Hackney-Duncan nuptials.

**WANTS DITCH REMOVED**

Mrs. T. B. Lott approached the council on Monday to have the drainage ditch on her property removed to the side of the road allowance. This was a municipal ditch originally but under the Trout Creek drainage scheme it was deepened considerably this spring on the misunderstanding that it was on municipal property. Councillor Eric Tait was asked to obtain costs of changing the course of the ditch and Rev. Powell declared the municipality might be able to assist the Trout Creek people in the outlay.

**CO-HOTESSES AT SHOWER FOR BRIDE**

Mrs. D. J. Strachan and Mrs. J. Dunsdon were co-hostesses on Friday evening, June 13, at the home of the former, when a miscellaneous shower was held in honor of Miss Pat Blacklock, bride of last week.

The gifts were presented in a decorated umbrella, and floral decorations of pink and white gardenias were used throughout the room. The chair for the guest-of-honor was decorated with pink and white streamers falling from a white bell.

Games and contests were enjoyed during the evening, after which refreshments were served by the hostesses.

Those attending were the Mesdames E. Johnston, L. Johnston, M. Munro, H. W. Fiske, H. Eden, Shier, A. A. Fenwick, Pohlmann, A. Campbell, E. Blacklock, H. Mitchell, W. Strachan, J. Strachan, W. Bleasdale and the Misses M. Fenwick, D. Blacklock, B. Strachan and N. Blethen.

Mr. and Mrs. Adam Stein and family moved this week to their new home, formerly the home and property owned by A. Advocaat. Mr. and Mrs. Stein have been residents of Summerland for about two months, coming here from Edmonton.

**CAN TAP POWER LINE**

Permission for the municipality to tap its high power line in Garnett Valley was granted the municipal council on Monday by the Department of Transport. This connection will serve the Adams home at the top of Garnett Valley.

**ONE SERVICE TO CAMPS**

Summerland municipality will adopt the same policy as Penticton in relation to supplying electric light and power to auto camps. All but one Penticton camp has a single service covering all cabins in the camp and Summerland council agreed on Monday to that policy.

**Banquet Features Valley Products**

Okanagan Valley Municipal Assn. is the host group at the annual convention of the Union of B.C. Municipalities at Harrison Hot Springs next September and as a consequence some elaborate plans to publicize the Okanagan were laid at the municipal convention held in Summerland last Thursday.

Assistance of the Associated Boards of Trade of the Okanagan will be sought to erect a suitable stand to publicize Okanagan products. B.C. Tree Fruits Ltd., will be asked to lend a hand with this display.

Mayor Fred Scott, Kamloops, Okanagan president, suggested that a prefabricated display stand be constructed and made available for all such functions. It was also suggested that films depicting the beauties and agricultural development of the Okanagan be presented at Harrison. The Okanagan municipalities are responsible for the main banquet and according to Ald Jack Horn, Kelowna, everything but the coffee, tea, sugar and salt will be from the Okanagan.

In order to plan the menu and obtain as many dainties as possible from Okanagan points, a committee of Mayor Scott, Kamloops, Ald Horn of Kelowna and Councilor C. E. "Ned" Bentley, Summerland, was chosen to work on these details.

**Lakeside United Flood Control Again Urged On Governments**

The Lakeside United church was the scene of a lovely wedding on Wednesday, June 11, at 2 o'clock, when Olive Kathleen only daughter of Mr. and Mrs. H. F. Stewart, of Summerland, became the bride of Mr. Allen Crawford Mason, son of Mr. C. F. Mason of Vancouver, and the late Mrs. Mason.

Rev. H. R. Whitmore officiated at the ceremony, and the church was beautifully decorated for the occasion with a floral arrangement of peonies and orange blossom. Each guest pew was marked with a rose.

Given in marriage by her father, the bride was lovely in floor-length white brocaded taffeta, patterned with forget-me-nots and lover's knots. The gown was fashioned with a full skirt gathered at the waistline with a side bustle effect, and a fitted torso, sweetheart neckline and short sleeves. Her embroidered silk net veil was of fingertip length, and fell softly from a headdress of halo design. Red roses, baby's breath and fern formed her bouquet.

The bride was attended by Miss Rhoda Mason, sister of the groom, and Miss Willena Elliott.

Miss Mason was charming as maid-of-honor in deep rose brocaded taffeta, with a very full long skirt gathered to one side by a large rose and with a sweetheart neckline and short sleeves. She wore a picture hat of the same shade, and carried pastel roses with fern.

Miss Elliott chose a frock of aqua blue sheer, floor-length, with a full skirt gathered to a fitted torso, and shirred at the neckline. The sleeves were long and she wore a picture hat of matching blue. Her flowers were American Beauty roses with fern.

The groom was attended by Mr. Russell MacDonald of Penticton, while Mr. Earl Sutherland of Peachland was the usher. Wedding music was supplied by Mrs. S. Canning.

The reception following the wedding was held at the home of the bride's parents, Mr. and Mrs. H. F. Stewart. The rooms were attractively decorated with roses.

The bridal party was assisted in receiving the guests by the parents of the bride, and Mrs. J. H. Blacklock, sister of the groom. Mrs. Stewart wore a smart afternoon frock of pastel blue crepe, with matching hat and grey accessories, while Mrs. Blacklock chose a blue spun print with lace trim, with which she wore white accessories.

The bride's table was centered with a two-tiered cake, which was flanked by tapers. The table was covered with blue net over a white cloth.

The toast to the bride was proposed by Mr. E. Farnham, and the groom ably responded. Mr. H. Hartley proposed the toast to the attendants of the bride, to which the groomsman replied.

For a honeymoon trip by motor to Revelstoke, Jasper, Lake Louise, Banff, Spokane and Grand Coulee the bride donned a three-piece tailored suit of navy, with a navy bowler hat to match, and navy accessories.

The young couple will make their future home in Summerland.

Out-of-town guests included Mr. and Mrs. Alex Bennett, of Kelowna, and Mrs. David Howrie of Vernon. Mayor Howrie of Vernon was also a brief visitor, while en route to business matters at other points. Penticton guests were Misses Yvone Dimor, and Winnie Brown and Mrs. Marjorie Fell.

Mr. Allen Mason served overseas during most of the war years, seeing duty in all the European theatres of war. He was a member of the Intelligence Corps with the rank of sergeant.

Okanagan waters could be controlled at their source in the rivers and creeks flowing into the lake and irrigation supply could be aided thereby, the Okanagan Municipal Assn., meeting in Summerland on Thursday, June 12, considered. Intimation that action on Okanagan flood control is desired in the near future and that the cost should be borne by the dominion and provincial governments alone with no financial assistance from municipalities, was the decision of the meeting.

Discussion on this subject arose from correspondence received from the dominion public works department which intimated that no action would be forthcoming in the near future to implement the report of U.S. and Canadian engineers on control of Okanagan flood waters, as funds were not available.

The dominion department also stated that the work would be contingent on financial assistance arrangements being worked out with the provincial government and municipalities concerned.

The latter statement brought a chorus of disapproval from the municipal delegates, with Kelowna municipal officials taking a leading part. The Kelowna city council had already received a letter from the public works department asking what share of the cost Kelowna would be prepared to take.

Municipalities are not responsible for the dam at the foot of Okanagan lake, Mayor W. B. Hughes-Games, Kelowna, pointed out. "Kelowna will contribute nothing as it is not a municipal affair."

Mayor David Howrie, Vernon, considered that control at the source of the waters would be as beneficial as control at the outlets, and the irrigation systems of the Okanagan would benefit to a great extent thereby.

The resolution finally passed read as follows:

"Whereas the dominion and provincial governments are responsible for the navigable waters and rivers of the province and whereas the Okanagan lake, with its creeks, has been doing considerable damage through lack of control, resolved that the responsible governments take action to implement the engineers' report on flood control; and consideration be given at the same time to control at the source of the waters, as well as the lake outlets, which source control would aid materially in providing additional and badly-needed irrigation water."

Mr. and Mrs. Chas. Baine, of Vancouver, arrived on Wednesday, June 4 and are visiting at the home of Archie Miller.

**THREE CKOV SCHOLARSHIPS ARE AWARDED**

KELOWNA—The annual award of the CKOV scholarships took place on Saturday at the radio station before a small gathering of parents and intimate friends. Mr. J. W. B. Browne, managing director of CKOV, handed out \$75.00 cheques to each of the zone winners, who were:

North Okanagan: Robert Wallace, aged 18, a student of the Armstrong high school. He plans to attend the University of British Columbia and eventually to enter the ministry.

Central Okanagan: Alexa Grace Cameron, aged 17, and a student of the Kelowna high school. She desires to take her senior matriculation in Kelowna and then continue on to the University of British Columbia to specialize in either agriculture or chemistry.

South Okanagan: Beverly Celeste Cumming, also aged 17, and a student of the Penticton high school. This student desires to attend the university of British Columbia to obtain her Bachelor of Arts degree following which she intends to specialize in travel information bureau work.

A committee of five headed by F. W. Laird, president of the Okanagan Valley Teachers' association, and assisted by one student from each district, made the final selections for the award. In reaching their decision they were guided by the financial need, the scholastic ability, and the quality of leadership in each student. This is the sixth consecutive year that the scholarships have been awarded by the radio station, and the second year that the value has been increased from \$50.00 to \$75.00.

**Miracle Safety Wheels Available To Motorists**

An innovation in motoring safety is being introduced to Summerland and the South Okanagan district with this issue of The Review by Pollock Motors Ltd., of West Summerland, who are announcing Miracle Safety Wheels a device to prevent any change in direction of a car experiencing a blowout, no matter what speed or direction the automobile is travelling.

New wheels are not necessary to provide this safety measure, but ordinary car wheels are converted into Miracle Safety Wheels. Patented retaining humps are inserted to hold the tire straight and tight on the rim. In this way, centrifugal force is able to give the effect of air pressure.

In 1939, at the San Francisco World's Fair, the first demonstration of this new device attracted thousands of witnesses. Tires were dynamited while vehicles were travelling at 70 miles per hour but the cars continued to travel in a straight line.

One leading car manufacturer, in 1941, instituted Miracle Wheels as standard manufacture on all makes of the company's cars.

An efficient rim-rolling machine has now been developed for converting any standard type of wheel into a safety wheel and this machine has now been installed at Pollock Motors Ltd. Six years of testing and experimental work have gone into the manufacture of this machine.

In these tests, it is stated, that safety wheels not only provide the safety factor but improve balance, make for easier handling, and greater riding comfort, it is claimed.

The effectiveness of the safety wheel is due entirely to the substitution of centrifugal force for the air pressure which normally holds the tire in shape. As long as the tire remains in place on the rim this force will continue to push the outer body of the tire away from the wheel.

The faster the wheel is turning, the greater the force, it is pointed out. In fact, at a car speed of 70 mph the tire behaves as though it had 30 pounds of air in it.

With the conventional rim, the bead of the tire is held against the outer edge of the rim simply by the pressure on the inflated inner tube. As soon as the inner tube is punctured or blown out, the tire bead slips down into the drop centre of the rim. The practically instantaneous result is that both

tire and tube become loose on the wheel.

This generally results in both the tire and tube being damaged, but with the safety wheel, the damage is kept at a minimum, it is claimed, with the damage being confined to the direct location of the original injury.

Another factor claimed of the safety wheels is the elimination of weaving. The grooves in safety wheels hold the tire beads firmly in place and completely eliminate this head movement, which is responsible for weaving.

It is also stated that one-third less pressure can be used in tires with safety wheels, thus giving greater traction on soft surfaces or over extremely rough surfaces. Riding comfort is increased thereby.

Pollock Motors Ltd. state that the Vancouver police force, the B.C. Electric and other well-known groups and companies at Vancouver have adopted the safety wheels as standard equipment for their motor vehicles.

**CAFE MEALS**

Suggestion that Canadians give more time to study of menus in cafes, keeping health in mind, is made by experts in the nutrition field. Even those who eat out three times a day can still select healthful foods, they say.

No matter how they are priced, too many sweet or starchy foods aren't bargains in the long run. The nutritionists say that the diet demands whole wheat, rye or "Canada Approved" bread, too.

Restaurants will stock healthful foods in abundance if there is more demand for them than merely for "tasty tidbits".

**Subscriptions for Fire Victims Are Commenced Here**

Following a disastrous fire late Wednesday afternoon, June 19, which destroyed all the house furnishings and clothing belonging to Mr. and Mrs. Roy Kennedy, front bench Summerland, a subscription list has been opened by friends in this community.

The business firms of White & Thornthwaite and Fraser Grocery in Summerland and A. K. Elliott and Butler & Walden in West Summerland have opened subscription lists, and those who wish to make donations of clothing or cash to assist this well-known family may do so at these places of business.

It is believed that the fire originated from a hot plate on which some parawax had been spilled. Flames from the grease caught clothes hanging in the kitchen and before the fire was discovered the entire room was blazing.

Mrs. Kennedy was working in her garden when the blaze was discovered but the entire inside of the building was gutted before the fire brigade could put a stop to the flames.

All the Kennedys clothing and furnishings were lost. Damage to the house which is owned by Mr. Bert Fraser, and to the contents is estimated at nearly \$5,000.

Mr. Kennedy is a veteran of three years' service, and is employed by White & Thornthwaite. Both he and Mrs. Kennedy are well-known residents of this community, having resided here for many years.

For the present, the homeless family are residing with Mr. and Mrs. F. W. Schumann, nearby neighbors.

**MEN WHO MADE OKANAGAN HISTORY . . . . . J. M. ROBINSON**

**"The \$60,000 is yours Mr. Robinson."**

**A** MEMORABLE event for the Okanagan that day in 1902 when J. M. Robinson made his discovery! In the vicinity of what is now Summerland, he had found a wild peach tree. If the bench district could produce wild peaches, then surely under cultivation, peaches and perhaps other fruits would have a big commercial future. Mr. Robinson went to Montreal, told of his discovery to Sir Thomas Shaughnessy and came back with \$60,000 to finance the venture of the Summerland Development Company. As managing-director of the Company, Mr. Robinson set about the task of promoting the interests of the community and under his energetic and enthusiastic direction, Summerland grew and flourished. Today Summerland is one of the most prosperous communities in the Okanagan and the centre of its vastly developed peach-growing industry. Its early settlement owes much to the enterprising vision and active faith of J. M. Robinson, a pioneer "in league with the future."

Established in Kelowna in 1909, Okanagan Investments Ltd. and Okanagan Trust Company are the oldest and largest financial institutions of the Okanagan and have played a conspicuous part in the promotion of the fruit growing industry.

RED AND BLUE RIBBON BEEF VEAL AND PORK

GROWERS

There has been a very poor response to the appeal for signatures authorizing the deduction for your Labour Committee's operations. In view of this we feel, that unless there is a considerable response in the next few days that we have no alternative than to close up the scheme for the year.

IT'S UP TO YOU

Summerland B.C.F.G.A. Labour Committee. C. Edmund Bentley. C. J. Huddleston

HEAR WHAT HAPPENED TO JIM SMITH?

Smashed up his new car. Not his fault, of course, but neither he nor the other fellow carried insurance...

Don't let it happen to you. Consult us and protect yourself

INSURANCE - ALL KINDS

WHEN YOU NEED INCOME...

INVESTING FOR INCOME means that you want assured income, continuous and at a fair rate.

FOR ASSURED INCOME we recommend the following:

Table with columns: Investment Name, Price, Yield %. Rows for Shawinigan Water & Power, Canadian Food Products, British Rubber Co. of Can., Burrard Dry Dock Company.

We own a substantial shareholding in the above companies and offer them, subject to prior sale, at the above prices for the balance of this week.

37 years' investment counselling experience.
