Canada's Delegate Ponders De-

GENERAL A. G. L. McNAUGHTON, Canada's delegate to the United Nations, obviously has weighty matters on his mind in the course of a conversation with PHILIP J. NOEL BAKER, of the United Kingdom, at Lake Success when the Security Council recently discussed formation of mediation machinery for the Hindu-Moslem fighting in Kashmir.

Legion Given Green Light by Voters in Club Licence Plebiscite

Summerland voters gave the Summerland branch, Canadian Legion, a sixty-one percent affirmative vote on Tuesday, February 3, in the plebiscite on the question of granting a veterans' club licence for the Legion premises in West Summerland.

The biggest vote ever recorded in Summerland history turned out at the Summerland and West Summerland polling divisions to give a decided "Yes" on the debated question of a club licence.

Final returns on the voting showed that 1,229 votes were recorded at the two polling divisions, out of a total possible vote of 1780.

The division of the votes was as follows:
YES 758; NO 447; REJECTED or SPOILED 24.

At the Summerland Polling Division, held in the basement of the Lakeside United church, the votes cast were divided as follows:
YES 148; NO 105; REJECTED or SPOILED 2.

West Summerland polling division votes were cast at the IOOF hall, with the following result:
YES 610; NO 342; REJECTED or SPOILED 22.

Intense interest was exhibited throughout the district on Tuesday and for many days prior, to the plebiscite voting.

The temperance groups were well organized and brought out a large proportion of their followers. The Canadian Legion also had a strong committee at work and placed cars at the disposal of their supporters who needed transportation to the polls.

The business district benefitted from the influx of voters to the polls and all stores report many extra sales arising out of the many persons coming to town for this vote.

Got 63 Percent

A majority of 55 percent was needed for the passing of this plebiscite, which, on a basis of 1229 votes would have meant that 676 Yes votes would have been necessary to pass the plebiscite.

With 758 votes recorded the affirmative gained a percentage of nearly 62 percent, some 82 votes more than were required for minimum support.

Of the rejected and spoiled ballots, about sixty percent indicated that the persons who made out their votes wrongly were in favor of the plebiscite. Chief offenders were those who wrote out the words "Yes" and "No" instead of making their crosses.

First section of the West Summerland polling division to be counted was a criterion of the final vote. This was the A to D section, which gave an affirmative of 141, a negative of 74, with two spoiled ballots, out of 217 recorded votes.

Other sections of the West Summerland division follow: D to K, 187 Yes, 85 No, 8 spoiled; L to R, 147 Yes, 87 No, 3 spoiled; R to Z, 155 Yes, 96 No, 9 spoiled.

In West Summerland division, 974 votes were recorded out of a total possible of 1377, while in Summerland polling division, the vote was 255 out of 403 possible.

W. C. W. Fosbery was returning officer for this plebiscite, and he appointed the following officials to assist him:

Deputy returning officer, C. Noel Higgin and George Forster, Summerland; P. S. Dunsdon, C. W. Haddrell, Harry Howard and Ben Newton, West Summerland.

Poll clerks, John Miller, Ray Fredrickson, Summerland; Bob Barkwill, E. C. Eingham, George Fosbery and Fred Schwass, West Summerland.

UNDULANT FEVER INCREASE CAUSES CONCERN AT HEALTH UNIT MEETING

Increase in the number of undulant fever cases in the Interior of British Columbia was discussed at great length at the quarterly meeting of the Okanagan Valley Health Unit held recently although there is no need for the public in this district to get alarmed, it was reported.

Councillor F. E. Atkinson, and School Trustees P. G. Dodwell and Mrs. A. W. Vanderburgh attended this convention from Summerland.

Undulant fever is a serious disease transmitted to human beings by domestic animals that are infected with Brucellosis. The majority of undulant fever cases, however, are caused by the use of unpasteurized milk and other dairy products.

The disease also occurs when infected meat from newly killed livestock is handled. Farmers, veterinarians, packing-house workers and butchers are in particular danger of the disease, medical authorities state. The worst hazard to the public, however, lies in raw milk. Besides undulant fever, this has been known to spread tuberculosis, typhoid fever, diphtheria and many other diseases.

New Chairman

Alderman W. T. L. Roadhouse, Kelowna, was elected chairman of the union board of health. Official appointment of W. A. Mallett as sanitary inspector in the southern portion of the health unit, was also made. Mr. Mallett succeeds H. W. Black who resigned last November.

Dr. A. N. Beattie, director of the health unit, in submitting his quarterly report, said there had been a total of 240 communicable diseases in the health unit during the last three months. Chickenpox led the list with 188 cases; mumps 9; measles 6; scarlet fever 4; whooping cough 4; German measles 3; undulant fever 1; poliomyelitis 1; gonorrhoea 21 and syphilis 1.

Dr. Beattie said with a rapidly increasing population throughout the entire area, there has been an increasing demand on the services of the health unit. He pointed out the school population has also grown, while the influx of large numbers of families has resulted in greater demand on the time of public health nurses in home visiting.

Immunization clinics for infants, pre-school and school children for smallpox, diphtheria and whooping cough have been held regularly in 24 schools and three community centres, he said.

Dr. Beattie revealed that faecal bacteria had been discovered in water samples in several places. "A

Dr. G. M. Shrum Speaker at Board Banquet

Dr. Gordon M. Shrum, head of the extension department at the University of B.C., will be guest speaker at the annual banquet of the Summerland Board of Trade in Ellison hall next Thursday evening. It is expected that about 250 trade board members and their wives will be present.

F. W. Schumann, president, will preside over the banquet function, and will introduce a lengthy list of guests who have been invited by the board to participate in this annual function.

Dr. Shrum is well-known throughout the entire province and is a capable and forceful speaker. He was head of the COTC at the university during the war years and held the rank of lieutenant-colonel.

Another highlight of the evening will be the presentation of the Reid Johnston Good Citizen cup by Reeve Johnston, and the presentation of two life memberships to board workers who have served the organization over many years.

number of samples of the untreated supplies for Okanagan Centre, Peachland, Westbank, Summerland, South and East Kelowna have been positive for faecal bacteria indicating that supplies are not at all times safe," he declared.

Dealing with milk supplies, Dr. Beattie said regular inspections have been carried out. "Bacterial counts, phosphate tests and sediment tests have been carried out on the pasteurized and raw milk in the district. The results have shown that a somewhat sub-standard product is being delivered to the consumer," he said. Dr. Beattie, however, added that each operator and dairy farmer has been co-operative and shown a keen interest in producing a clean, good quality and wholesome milk.

He said the recent food handlers' course had been successful, and that routine inspections have been carried out in local restaurants.

W. DOWNTON IS INSTALLED AS I.O.O.F. HEAD

District Deputy Grand Master W. G. Manning, of Penticton, officiated at the installation of officers of Okanagan Lodge No. 58, IOOF, in the Summerland hall on Monday, January 28. A party of some thirty Oddfellows from Penticton and another five from Oliver lodge were present for the ceremony.

William Downton was installed as noble grand of the local lodge, replacing A. Cadwell, who now has the title of past grand. Other officers for 1948 are as follows:

Vice-grand, Reg Kersey; recording secretary, Les Rumball; treasurer, James Dunsdon Jr., financial secretary, Harvey Eden; RSN, P. H. Thompson; LSN, J. Miller; RSVG, J. Khalembaoh; LSVG, Herb Pohlmann; conductor, Jim Brown; warden, Len Shannon; chaplain, E. Gillespie; inside guardian, Ken Blagborne; outside guardian, H. Mitchell; scene supporters, J. Matheson and F. Young.

Mr. C. H. Elsey left on Tuesday evening for a visit to Vancouver.

The Summerland Review

Vol. 2, No. 5

West Summerland, B.C., Thursday, February 5, 1948

Ski Tourney To Be Held February 22

On Monday, local skiers were praying for snow, so that the success of their tournament later this month would be assured.

On Tuesday, their prayers were answered and snow fell in sufficient quantities that the ski meet on February 22 is practically a certainty, unless there is an unusual mild spell before that date.

The downhill course is in splendid shape; local skiers report and some further improvement work was done on the hill in the past two weeks.

There will be no cross-country event this year, and the local tournament will consist of downhill and slalom events only. Entries from many parts of the interior are expected to be here for this big day.

This week-end, the interior ski championships are being held in Kelowna from Friday to Sunday, inclusive. Summerland will probably be represented by three of its outstanding senior plank artists, Don Agur, Walter Powell and Phil Munro.

Among the junior boys who plan to participate in Kelowna this week-end are Bob and Daryl Weitzel and Wally Day.

DECIDE SCHOOL BASKET HONORS

Penticton and Summerland high school basketball teams play on Saturday night here in the finals for the South Okanagan high school basketball championships. Jock Smith announces this week.

Winners will meet the North Okanagan champions for the right to enter B.C. championships.

B.C. finals for high school girls' basketball has been awarded to Kelowna, while New Westminster will see the boys' championships decided there.

FOOD HANDLERS COURSE GIVEN

Last evening, at the local schools, a food handlers' course, specially designed for all persons who handle food in a commercial way, such as restaurants, hotels, dairies, etc. was held under the direction of the Okanagan Valley Health Unit.

Mr. Harper, sanitarian, from Kelowna and Miss N. Carruthers, Penticton, public health nurse, were the chief lecturers. Restaurant sanitation was the main subject under discussion.

C. A. Walter, Aged 87, Laid At Rest Here

Mr. Christopher A. Walter, aged 87, founder of Walter's Ltd. packing house in Summerland and Peachland, a well-known and respected grower, packer, and shipper of fruit in the South Okanagan for a quarter of a century, passed away in the Vancouver General hospital on Thursday evening, January 29, after an illness of several months.

Born in 1860 in Indiana, the late Mr. Walter moved with his family to Alberta in 1907, and founded a store and post office in a locality known as Williston, near Castor. A short time later, Mr. Walter moved to Castor, where he operated a hardware and general merchandise store and lumber yard.

At one time, besides his main Castor business, Mr. Walter owned eleven stores in the territory surrounding Castor, Alta.

It was in 1920 that the Walter family moved to Summerland, where Mr. Walter purchased his first orchard. In the intervening years he purchased a number of orchard properties in this district and commenced his first packing house operation on a small scale in Peach Orchard.

In 1926, the first building of Walter's Ltd. packing house operation was erected on the lakefront in lower town, and later he extended his packing house operations to Peachland.

Blessed with a kindly nature, the late Mr. Walter was well and favorably known throughout the South Okanagan. His advice assisted many different organizations but he was mainly interested in the progress of Lakeside United church, Summerland. Choir work was his special hobby.

He was predeceased in 1926 by his son Willis E. Walter and Mrs. Walter predeceased him in 1943.

He leaves three daughters, Mrs. Verne Charles, Summerland; Mrs. H. J. Halvorsen and Mrs. G. C. Flamank, Vancouver; twelve grandchildren, including Mrs. Percy Wilson, Mrs. Don Tait, Walter, Lawrence and Ellis Charles, all of Summerland; and twelve great grandchildren.

The large number of persons in attendance at the funeral services at the Lakeside United church on Monday afternoon, February 2, attested to the esteem in which the well-known Summerland resident was held. Rev. H. R. Whitmore officiated at the funeral service and at the interment in Peach Orchard cemetery.

Pallbearers were A. W. Nisbet, D. Rutherford, V. Brawner, L. Fudge, R. Tingley and A. Pentland, of Peachland.

Honorary pallbearers were W. White, H. Thornthwaite, E. Fanchon, T. Hickey, H. C. Howis, G. Tada and C. B. Snow, all of Summerland.

W. DOWNTON IS INSTALLED AS I.O.O.F. HEAD

District Deputy Grand Master W. G. Manning, of Penticton, officiated at the installation of officers of Okanagan Lodge No. 58, IOOF, in the Summerland hall on Monday, January 28. A party of some thirty Oddfellows from Penticton and another five from Oliver lodge were present for the ceremony.

William Downton was installed as noble grand of the local lodge, replacing A. Cadwell, who now has the title of past grand. Other officers for 1948 are as follows:

Vice-grand, Reg Kersey; recording secretary, Les Rumball; treasurer, James Dunsdon Jr., financial secretary, Harvey Eden; RSN, P. H. Thompson; LSN, J. Miller; RSVG, J. Khalembaoh; LSVG, Herb Pohlmann; conductor, Jim Brown; warden, Len Shannon; chaplain, E. Gillespie; inside guardian, Ken Blagborne; outside guardian, H. Mitchell; scene supporters, J. Matheson and F. Young.

Mr. C. H. Elsey left on Tuesday evening for a visit to Vancouver.

By-laws For Road Work To be Decided Saturday

Summerland district taxpayers will go to the polls on Saturday, February 7, to vote on two money bylaws in connection with the hard surfacing of the main roads of this area, and the purchase of equipment so that this hard surfacing program can be completed during the summer months.

Amount involved in the two bylaws is \$40,000 and the entire council has worked out a program which will give the motorists of the municipality a system of main roads with proper surfacing which should last for a number of years.

The hard surfacing bylaw calls for an expenditure of \$28,000 over some nine miles of roads, including the completion of the roads in the Granville street area, the Giant's Head road down the Sandhill to the Trout Creek Service Station, the Hospital hill road, part of the Gulch road, a section of Garnet Valley road, and the road leading from Hastings street north to Okanagan highway.

Also provided for in this year's estimates is the elimination of a number of dangerous corners on the Garnet Valley road and a general improvement program.

The second bylaw is for \$12,000 to cover the necessary expenditure for a new road maintainer and a new truck. Without this new equipment the hard surfacing program would not be possible of completion in the one year, the municipal road department states.

Voting will take place in the municipal hall, West Summerland and the basement of the Lakeside United church, Summerland, on Saturday, between 8 a.m. and 8 p.m. W. C. W. Fosbery is the returning officer.

If the bylaws pass, then the municipal council will have authority to issue debentures for a five-year period to raise \$40,000. These debentures call for an interest rate of 2.75 percent.

Sportsmen Again Choose Snow As Prexy

"Our forests and lakes, with the wild life in them, are among our most priceless possessions," declared W. Snow to the adjourned meeting of the Summerland Fish and Game club in the Legion hall on Monday night, in giving local sportsmen his resume of the year's activities.

"But the old order of things is changing," he continued. "With the hunting and fishing licences being sold in greater numbers each year, the strain on our wild life is becoming ever greater. It is only by shorter open seasons, smaller hunting and fishing regulations that we can hope to keep what we now enjoy."

Mr. Snow was re-elected president of the local sportsmen's club for the fourth consecutive year at one of the best-attended and liveliest meetings ever held.

Other officers chosen were: Honorary president, Game Commissioner J. G. Cunningham; vice-president, Ken Blagborne; secretary-treasurer, W. A. "Bud" Stewart; re-elected, executive, Bob Barkwill, George Stoll, Granville Morgan, Joe McLachlan, Channon Snow and Francis Stewart.

It has been a reasonably successful year, declared President Snow in his review of 1947. He declared that a large number of predatory birds had been killed by the sportsmen and the campaign against unlicensed dogs, in co-operation with the police, was successful.

Rutland Loses 3-2 In First Pro-Rec Game

Summerland's outdoor hockey rink, considerably lengthened this year and with a new lighting system which gives the players every chance, is being worked to capacity every afternoon and evening and games and practices are following each other in rapid succession.

The senior Pro-Rec league, with Kelowna, Rutland and Summerland participating, is off to a good start and last Sunday afternoon saw the first of the league games, Summerland defeating Rutland Pro-Rec lads 3-2 in a tightly contested battle.

Rutland scored both its counters in the first period but Summerland fought back and single goals by Lionel Guidi and George Taylor knotted the count and Sam Imayoshi pushed home the winning counter.

Tonight, Kelowna visits Summerland in another league contest and Rutland and Summerland tangle again on Friday.

New Organization

An organization meeting was held at The Sports Centre last Thursday afternoon with the result that Bert Berry was appointed manager of the senior hockey club, with Jock Smith retaining his coaching duties. An executive of Gerry Halquist, Bob Bleasdale and George Taylor will assist Mr. Berry and Mr. Smith to operate the senior club.

As long as the ice lasts, and

New Officers Re-elected En Masse By Red Cross

Members of the Summerland branch of the Canadian Red Cross society decided last Thursday afternoon in the Parish hall to eliminate the work room from their plans for 1948, but looked ahead to a year of steady assistance from a humanitarian standpoint.

The entire slate of officers, headed by Mrs. A. K. Elliott as president was re-elected in what was probably the shortest election ever held by a local organization. Without hesitation, the meeting decided to re-elect the entire executive en masse and it was carried with despatch.

Last year, \$3,117.49 was raised through the annual membership drive and through donations, the treasurer's report given by Mrs. R. C. Palmer, revealed.

Still a Need

Although the Red Cross work does not feature so prominently as in war years, yet there is still a need, declared Mrs. Elliott, in presenting her annual report. Despite this need, and despite the branch's efforts to enlist new workers, membership remained about the same.

Quilting was carried on at the same level but there were fewer layouts and sewing work necessary. The swim and water safety work was carried out by the board of trade, while Mrs. Bertha Gillis and her helpers have continued to make up surgical dressings for the blood donor group, and had handed over some 12,000 dressings.

Special mention was made by Mrs. Elliott of the splendid organization work of J. Y. Towgood in the blood donor campaign and of Jack Dunsdon, in the annual campaign for funds.

Curtains, bed and table linen were collected for shipment overseas and the response was excellent. Mrs. Elliott continued. There were no cases of disaster relief to administer last year.

It was stated that nearly all the wool sent in had been completed into garments by Mrs. C. E. McCutcheon and her workers.

Mrs. Elliott stated that she has recommended that badges of service be ordered for the convenors of committees, as a recognition of their long and faithful service.

First Aid Plan

Mrs. A. W. Vanderburgh, in her secretarial report, declared that most people are acutely aware of the work of the Red Cross, even in peacetime. She also mentioned that first aid and stretcher equipment had been obtained by the Red Cross for the sick room at the elementary school.

Two emergency first aid kits are also available for the water safety classes and for the ski hill. Mrs. Vanderburgh reported, and the meeting decided to try and work out a plan whereby an emergency first aid depot could be established at the medical-dental building in West Summerland.

The work room is being closed at the end of this month and any further work parties will be conducted at the homes of members, it was decided.

EDITORIAL

What of the Future?

Fruit growers at their annual convention in Penticton indicated that they are looking to the future. They are asking themselves what their prospects will be in the face of declining price levels on tree fruits with continued demands from labor and suppliers of packing materials for higher wages and costs.

They also wonder who will pay for increased freight rates and they think they know the answer—the producer.

It is not altogether a rosy picture but it is one which the grower has been anticipating for some time. In fact, he thought that 1947 would see the break. The soft fruit grower had a slight decline last year and the apple grower will not receive as much for apples in the light of higher packing and picking costs, but the grower has nothing to "kick" about yet.

However, his apprehension about the future could be observed from many angles at the Penticton convention.

Oliver growers tried to indicate their desires for a more stabilized future when they introduced their poorly-worded resolution demanding that B.C. Tree Fruits obtain a higher price for the growers' commodity.

Oliver growers meant well and they were probably on the right track but their phraseology was poor and they unfortunately intimated that the central sales agency was not doing its best to obtain as much for the grower as the market would stand.

Most of the growers at the convention knew what Oliver delegates wanted and appreciated their comments on the extreme rise in cost of producing a box of stone fruit or apples. They had all experienced the same problems.

So they are asking Ottawa for some protection for the future, some guarantee that they will not experience a period in which prices on perishable products decline in the face of rising costs.

It is an admirable reaction on the growers' part, as such a situation should not be faced by the producer, the man who invariably is the first to suffer during any decline. Let us hope that Rt. Hon. Jimmy Gardiner's department takes heed of this request.

There was still another reaction which visitors to the convention felt throughout the three days of brisk business discussion. The majority of grower delegates were young men. Many of the familiar faces of the past ten to fifteen years were missing from the list of official delegates who had been given voting power. They were in attendance and at times offered their advice, gleaned over many years of executive argument, but for the most part they were content to sit back and listen while the younger men proceeded to propound their theories.

It bodes well for the fruit industry that younger men who were leading discussions indicated that they knew of the problems of the past, that they realized the pitfalls before them, and they showed a business-like attitude towards the discussions at hand and were approaching them from a sane and sensible angle.

This is a healthy situation and means that for many years to come there will be able executives to guide the industry and keep it on the right track—the track of combined co-operation towards a common goal, the goal of better returns for the primary producer.

It was not a convention with outstanding traits, nor did it command screaming headlines in the newspapers. It was a business convention, with grower-business men discussing their problems in a business-like manner.

The Legion Plebiscite

It seems rather odd that the entire municipality was asked to vote last Tuesday on the question of the granting of a club licence for the veterans of two wars, in their own premises.

This is a new departure in the machinations of the liquor control board system, a system which most persons will agree is so out-moded that it defeats the purpose for which it was originally planned—moderation in drinking.

Previously, if sufficient persons indicated their approval, the veterans were granted their club licence. In this case, 1,300 persons in a community of some 2,000 adults, signed their approval to the Legion petition,

The Furrow

Profit in 1947 To Finance Big Pulp Mill on Island

Last year's \$7,128,000 earnings of the H. R. MacMillan Export Company Limited will be the means of financing a \$12,000,000 bleached sulphate pulp mill on Vancouver Island giving direct regular employment to at least 200 persons and using only waste materials from the company's operations, it was announced by H. R. MacMillan, president, at the annual meeting of shareholders in Vancouver January 29th.

Concurrent announcement was made of ratification by the shareholders of a cash bonus to employees of the company and its subsidiaries of \$125 for each person regularly on the company's payroll, employed prior to August 1, 1947 and still on the payroll at January 31, 1948; and of \$25 to those employed from August 1, 1947 to December 31, 1947 inclusive and still on the company's payroll at January 31, 1948.

Mr. MacMillan emphasized the direct connection between the company's profit for the year ending September 30, 1947 and its decision to build a pulp mill. The plant will be capable of producing 200 tons of bleached sulphate or 225 tons of unbleached sulphate pulp daily, using nothing but by-products of the company's operations' previously going to lower value uses.

TRAVEL INCREASE

Figures released this week by the British Columbia Government Travel Bureau show that travel to British Columbia is exceeding all previous records. In December, 1947, some 8,791 cars entered on travellers' vehicle permits through border customs ports, making a grand total for 1947 of 205,234 as compared with 178,959 for 1946.

Pioneer Days

TWENTY YEARS AGO

January 27, 1928

An important conference on Okanagan lake levels was held at Kelowna with the result that the federal minister of public works, Hon. J. C. Elliott, was wired urging that Okanagan river be cleaned out and sand bars removed, otherwise serious flooding would occur next spring and summer.

Believing that the Produce Marketing Act is no different from the Minimum Wage Act and the Hours of Work act, and that they should be upheld together, the annual BCFGA convention went on record as favoring the government doing everything "in its power" to maintain such acts.

Additions are being made at the fish hatchery in order to prepare for the arrival from Alberta of five million white fish eggs.

The fire protection committee met with the council this week and will bring in recommendations involving a cost of \$8,000; also the placing of the entire municipality in one fire district.

Penny Wise

File on we women of the west. Not one among us copped open ONE place among the 10 best-dressed women of Canada. I don't think we're so much to blame, actually, as the stores. Somehow we just don't get the styles here until they're a season late. And I ask you: can a gal look well-dressed in that OLD look. No! I know the very first thing I do when I get to Montreal or New York, is hop out and buy a new chapeau.

Don't give it a second thought if your left hand is wider than your right one, or your left foot longer than your right one. Practically everybody is that way, so you're in the same boat as the rest of us. Why, we've even got two sides to our faces, as you can see in a sec if you cover one-half with a magazine.

There is an "old" side and a new "side", and if you care to take the trouble, wear your hair high on the "old" side, which will make it look younger. Okay?

Now it's an electric broom that is catching the women's fancy. First thing you know there'll be an automatic bed-maker, and dinner-cooker. Then we'll have to watch out gals, for why would the men be taking wives unto themselves then? The laundries will always darn their socks.

I wonder if the plain white marshmallows have reached your nearest store yet? I see them around town quite a bit, at two-bits for the medium-size bag. Here's one thing you can do, if you get hold of some. Place a piece of sweet chocolate on a graham cracker. Then toast a marshmallow until it's soft and golden. Now, put the mallow on top of the chocolate; press another cracker on top of it, and you've got a goody that the little people will sigh for.

When that teen-ager of yours starts pestering you (or her more glib daddy) for something you think is outlandish—don't forget that YOU, too, had your fads and your fancies. Can't you remember those yellow and green slickers with paintings plastered all over them; those ball-bottomed trousers so tight at the knee, so full at the cuff; those dresses with the waistlines down near the knees. Sho' nuff!

Now that you're NOT buying bacon at the new, high price, use all your ikum-blukum to think up new ways of serving eggs. Try scrambling some with cheese, once in a while; or chopped mushrooms.

By the way, don't let any one kid you that brown eggs are better for you than white ones. Ounce for ounce, they've the same amount of goodness in them. However, if you live

The Inside Story

By AGROLOGIST

I met Bill Luce in the Gyro hall at Penticton. Bill is extension horticulturist at Yakima, and had come up by special invitation to address the BCFGA convention. I had a most enjoyable chat with him. The general trend of our conversation is indicated in the following paragraphs.

Agrologist: "What do you think of our orchards as you drove up through Osoyoos and Oliver?"

Bill: "In general, your orchards appear to me to be in excellent condition. However, I note that many of your growers are making the same mistakes as our growers make down in Yakima. You have planted your trees much too close, and have delayed too long in carrying out a tree removal program."

Agrologist: "What do you think of our pruning methods?"

Bill: "Some of your growers are doing an excellent job, but in other orchards the trees appear to me much too thick. I imagine that a good thinning out type of pruning to let light into the tree is just as important up here in British Columbia as it is in Yakima."

Agrologist: "What feature of our convention impresses you most?"

Bill: "I have been especially impressed by the atmosphere of good fellowship. The relations between your growers, packing, house operators, sales force and government officials appear to be much closer and more harmonious than is the case with us in the State of Washington."

Agrologist: "What do you think of our method of having resolutions dealt with by the main convention?"

Bill: "I have been amazed by the number and variety of the resolutions dealt with at your convention. Your method of handling these resolutions in open meeting does take a good deal of time, but I can see some advantages to it. I have been greatly impressed by the fact that many of these resolutions have been introduced and spoken to by young men. The fact that able young men are taking such a keen interest in your industry bodes well for the future."

Agrologist: "What do you think of the coffee intervals?"

Bill: "I think it is an excellent idea to have a five-minute recess for coffee or apple juice every couple of hours during the meetings. This gives every one a chance to become better acquainted. It also relieves the tension in the meetings and helps to promote that cheerful and harmonious atmosphere which is such an outstanding characteristic of your meetings."

Agrologist: "Do your growers think it is a good idea for you to come up here and address our convention?"

Bill: "Most of our growers are broad-minded enough to realize that exchange of information is of great benefit. They enjoyed and profited by the addresses given recently in Wenatchee by Jimmy Marshall and Dick Palmer. They realize that anything that can be done to improve the quality of fruit raised in the Pacific Northwest benefits all growers, whether they live north or south of the international border line."

but still the liquor control board refused to make a decision.

Most of those 1,300 persons are still of the same mind, and went to the polls on Tuesday to allow the Legion its club licence.

The Legion will obtain its licence, but there seems to have been a lot of unnecessary expense incurred and a lot of fuss stirred up throughout our peaceful community, which could have been obviated if Mr. Kennedy and his henchmen had not backtracked.

In a community where most of the housewives prefer the brown ones (I know I do), you may be able to buy the white ones for a mite less.

Even if you can't afford to buy them, the daffodils certainly spell S-P-R-I-N-G as they shine their goldness through the florists' windows.

So, you think your curly kale is big because it grows two feet high, eh? Well, how about one that shoots 12 feet up in the air. No less. It's called a palm-kale, grows on the islands off the coast of England, and nobody seems to bat an eye at the stuff. Better start feeding your heads of kale a quart or two of liquid manure every day.

I read the other day that a man found a pearl in a sardine, and it reminds me that one of the reasons Julius Caesar invaded Britain was in order to clean-up on the pearls supposed to be found there. At that, there is a valuable pearl in the Royal Crown that was poked up from no other place than the head of the River Conway, in Wales. Probably rocked along the ocean bed from Japan or some place.

By the same token, we may think a lot of seed pearls were scattered over Princess Elizabeth's wedding gown (Duchess of Edinburgh now), but think of this: there were 32,000 REAL pearls on the dress which Marie de Medici, wife of Henry IV, wore when her son was christened. That was way back in 1601, however, when royalty did that sort of thing.

What ho for love. It's not even worth mentioning nowadays, according to Encyclopaedia Britannica, but in 1810 they didn't take such a dim view of it all. In fact, they devoted five pages to the subject, which could well occupy five books, in my mind. They gave only four lines to the atom, however, but in the recent ones it's given five pages. So...

A luncheon menu the other day listed: "Elsie's Baby." Know what it was: veal. If you wanted the "baby with clothes on", you got the stuffing.

If the movie "Captain Boycott" comes your way, be sure to see it, if only to hear the lovely, soft Irish accents, and to see the lovely scenery.

Useless information: It takes 60,000 feet of silk to make a pair of silk stockings. And not even the sheepest ones, at that. Same goes for nylon, match.

If the March of Dimes for the Children's Hospital crosses your path, don't forget to give. Even if you can fold it, it's still dimes you know. . . 10 of them, or 20.

Heavens to Betsy . . . a gull's egg in England costs 1s 6d. And you know how small they are. Never eat fried, out how they'd when they mean "ponny." Can you? And oh yes, a pound of smoked salmon, bought across the counter, would set you back 15s. I'll take kippers, please.

COMES FROM ALBERTA
Mr. N. W. Macpherson, formerly commissioner of highways for Alberta, has been appointed assistant deputy minister of public works and has now assumed his new post, states Hon. E. C. Carson, minister of public works.

BOWLING LEAGUE

Standings of the teams in the Merchants' Bowling League at January 23 was as follows:
Butcherteria 15

High Three—Ken Heales, 736; June Lamey, 667.

PUBLIC WORKS ESTIMATES

District engineers have been busy during the past several weeks preparing their estimates for public works to be carried out during the forthcoming season. This data is now being completed with a view to making provision in the estimates for the carrying out of necessary public works of a major and ordinary nature, states E. C. Carson, minister of public works.

Driving up from Pendleton, Oregon, recently were Mr. and Mrs. Reuben Radomske, accompanied by the former's sister, Mrs. J. G. Littau. They spent several days here with their parents, Mr. and Mrs. J. L. Radomske, leaving on the return trip on Wednesday, January 28th.

REVIEW CLASSIFIED ADS BRING RESULTS

Hitler's Hide-out Demolished

Adolf Hitler's air raid shelter (top), where the burned remains of the Nazi leader and Eva Braun were found in bomb-battered Berlin on Germany's collapse, in the garden of the Reichschancellery lies in ruins (bottom), after it was blown up in Berlin recently by a Russian army demolition squad. Entrance to the shelter was the large square block of steel and concrete. The concrete cylinder with conical top was an observation and ventilating tower. Ruins of the Reichschancellery are in the background.

Over Nine Thousand Books From Library

In 1947, some 9,340 books were circulated in this district from the Okanagan Union Library, Mr. W. C. W. Fosbery, librarian, reports this week.

A shipment of books was received by the library here last week and includes the following:

The Purple Plain, Bates; Portrait of the Artist As a Dead Man, Bohnamy; I'll Eat You Last, Branson; Let's Kill George, Cores; The Cinnamon Murder, Crane; The Echoing Green, Estes; The Lying Ladies, Finnegan; Return to Elysium, Grant; The Night Walkers, Norman; A Certain Rich Man, Sheehan; Private Enterprise, Thirkell; Footstep Behind Her, Wilson.

Only non-fiction book was North County, by Vale.

Progressive Year Is Reported By Lakeside United

The annual congregational meeting of the Lakeside United Church was held in the Sunday school room on January 26. Rev. H. R. Whitmore conducted the meeting, opening with prayer.

Reports read from all departments of the church showed a very progressive year and the meeting nominated a new slate of officers for the new year.

Those appointed to the board of stewards were Mrs. E. R. Butler, Miss E. M. Saunders, Mrs. Don Orr, Mrs. George Sheldrake, Miss Mary Scott, Mrs. Percy Wilson, Mr. Lee McLaughlin, Mr. A. D. Glen, and Mr. Verne Charles.

The church trustees are Mr. A. D. Glen, Mrs. Florence Stark, Mr. Lee McLaughlin, Mr. J. B. Charles, Mr. E. R. Butler and Mr. Robert Arnott, while the manse trustees appointed were Mrs. Mary Ethel Butler, Mr. Percy Thorner and Mr. J. B. Charles.

Rev. Mr. Whitmore brought the meeting to a close with the benediction, after which the attending members spent a pleasant social hour. Refreshments were served by the Junior Women's Auxiliary.

Nova Scotian Gets Pleasant Surprise Gift of B.C. Apples

By EVELYN S. TUFTS

Staff Correspondent, The Halifax Herald

OTTAWA, Jan. 21 — A Nova Scotian now living in Ottawa had a surprise today. He received a nice box of apples from a friend back home. The fruit was delicious, well colored and very carefully packed. He handed some of the apples around as an example of the improved type of pack, the "new look" and the high quality standard now being insisted upon in Annapolis Valley fruit marketing circles.

Then he noticed a label "Packed in British Columbia", it said.

This box of apples had travelled from the Pacific to the Atlantic, back again to Montreal, and thence to Ottawa. The Nova Scotia donor of the fruit who had called upon a grocer to have it sent, had presumed that he was getting Annapolis Valley apples. The order was filled with the B.C. fruit for one reason only; it was available and the local product was not.

British Columbia this year has disposed of well over 1,500,000 boxes of apples, following a national advertising campaign, in which radio, posters and publications of various kinds played an important part. They have managed to market their entire crop, some of the boxed fruit going to Brazil, Newfoundland and the British West Indies.

Nova Scotia, meanwhile, could not supply even its local demand in boxed fruit, the Department of Trade and Commerce states. Their exports would have been much greater "had the fruit been available", the report adds. Delay in securing sufficient cold storage and box packing facilities has enabled British Columbia to hawk its fruit right under the noses of their Nova Scotian competitors. They also sold apples in 35 of the 48 American states.

The increase in Great Britain's local production of apples, which is being encouraged by the government in every possible way, bodes ill for future disposal of Canadian fruit in those markets, which formerly used to absorb about 80 per cent of the Nova Scotia crop. British Columbia used to send 40 per cent of theirs to the British.

This year, the United Kingdom produced 25,000,000 bushels of apples and London barrows are now loaded with this home-grown fruit. Approximately one-third of their apple trees are less than nine years old, and 60 per cent of these are the Cox's Orange

DISTRICT PIONEER IS BURIED HERE

Funeral services were held Tuesday Jan. 13 at St. Andrew's United church for D. Lorne Sutherland, 67, who passed away on January 10.

Mr. Sutherland, who came to the Okanagan 40 years ago from Winnipeg, was an active member of the community and his Twin Lakes Dude Ranch was known far and wide.

After 26 years residence in Summerland, Mr. Sutherland moved to Marron Valley, 18 miles from Penticton, where he engaged in ranching and founded the Dude ranch.

He is survived by his wife, two sons, Donald and Gordon, and a daughter, Lorna, all at home. A brother, Harold, lives at Chilliwack, and a sister, Mrs. Eva Gunn, at Winnipeg.

Pallbearers were J. A. Cumming, Penticton, Alex Smith, S. A. MacDonald, Fred Gartrell, Thomas Young and Alex Steven, all of Summerland. Rev. H. R. Whitmore officiated and interment took place in the Peach Orchard cemetery.

variety which has long been a British favorite.

Essential for Survival

Increased domestic consumption in Canada of Nova Scotia fruit is absolutely essential for the survival of the industry, experts here contend. Apples from the Valley could very well take the place of some of the \$95,500,000 worth of imported fruits which Canadians buy every year. These imports, by the way, also include apples—\$912,405 worth last year. Peaches are also imported, in spite of the B.C. and Niagara district production, which is very substantial. More than a million dollars worth of peaches and an equal amount of pears were on the list of Canadian luxury imports during the first ten months of 1947.

As many gardeners can testify, peaches ripen and do extremely well in the Grand Pre district of the Annapolis Valley. But for some reason they have never been grown in large quantities. Varieties tried out in that area have even better color, and mature earlier, than those from the Niagara district.

Education Minister Turns Down Appeal To Split District

Hon. W. T. Straith, minister of education, has ruled that there will be no division of Cowichan School District No. 65, according to advice received by two delegates from the Duncan district.

One delegation from South Cowichan Taxpayers Assn. sought a division so that the southern end of the district centering on Cobble Hill would be allowed to secede. Four District 65 trustees waited on the minister with a proposal to divide the district.

This statement by the minister is of special interest to Penticton District 15, in the light of Penticton council's application for removal of Summerland from this school area.

The minister's official reply follows.

"Your difficulty is that there is no reason for severance which does not exist in scores of other places in British Columbia and if I should accede to your request I am afraid that it would establish a precedent for the 'breaking down' of the whole basis of larger school districts which was settled by the legislature two years ago."

SPLIT OKANAGAN INTO TWO AREAS FOR CANCER GROUP

Mrs. J. E. O'Mahony and Dr. A. W. Vanderburgh attended a regional meeting of the Canadian Cancer Society in Kelowna on Friday, January 30, which was called for the purposes of planning future action to obtain more widespread knowledge of the dread disease.

The Okanagan is being divided into regions, the meeting decided, the area north from Peachland to meet at Vernon and the area from Summerland south to Osoyoos to meet in Penticton.

Efforts will be made by these regions to raise further funds for the cancer society and also to enlarge the educational campaign in the districts concerned.

Syd Hodge, Penticton is the temporary chairman of the southern region, with Miss M. Bell, also of Penticton, as secretary.

Mr. Bill Smith returned to North Bend on Monday night after spending a few days at the home of his parents, Mr. and Mrs. Bob Smith.

"Old at 40, 50, 60?" — Man, You're Crazy

Forget your age! Thousands are peppy at 70. Try popping up with Oxtrex. Contains tonic for weak, run-down bodies due solely to body's lack of iron which many men and women call "old."

Oxtrex Tonic Tastes like pop, younger feeling, this very day. Buy next acquisition, also only 50c. For sale at all drug stores everywhere.

NEW OFFICERS—

Continued from page 1

Mrs. R. F. Angus was chosen the Summerland delegate to the annual convention of the B.C. Red Cross Society in Vancouver this month and while there she will enquire about the possibility of making a collection of good used clothing to send overseas.

It was reported that the Junior Red Cross in the elementary school made a splendid collection of children's used shoes for shipment to Great Britain. These junior helpers also made donations to the crippled children's hospital in Vancouver.

The following are the officers returned for another year:

President, Mrs. A. K. Elliott; first vice-president, J. Y. Towgood; second vice-president, Miss Cartwright; third vice-president, Rev. F. W. Haskins; secretary, Mrs. A. W. Vanderburgh; treasurer, Mrs. R. C. Palmer; executive, Mrs. E. Gillis, Mrs. R. G. Russel, Mrs. Bedford Tingley, Mrs. A. Stark and Mr. W. L. McPherson.

Thanks Of Princess Elizabeth Tendered To Local Citizens Who Donated For Food Parcels

On behalf of her subjects, Her Royal Highness Princess Elizabeth has expressed her thanks to the citizens of Summerland who donated \$1,000 towards food parcels for Britain in connection with the Royal Wedding last November 20. John Colville, private secretary to Princess Elizabeth, writes from Buckingham Palace to Mr. Alan Calvert, chairman of the Royal Wedding Fund committee under date of January 2, 1948, as follows:

"I am desired by The Princess Elizabeth to request you to tell the members of the Summerland Royal Wedding Fund committee how delighted Her Royal Highness has been to learn that the sum of 1000 dollars has been collected to buy food for people in this country. This is a most acceptable wedding present, and The Princess would like all those who have so generously subscribed to know how much pleasure their kind thoughts have given."

From the Department of the Secretary of State of Canada, at Ottawa, E. H. Coleman, under secretary, wrote the following on December 20 last, to Mr. Calvert:

"I have the honor to acknowledge with thanks the receipt of your letter of the 17th instant, enclosing a communication addressed to H.R.H. The Princess Elizabeth, together with a receipt for a draft for \$1,000 contributed by the people of Summerland in connection with the wedding of Her Royal Highness."

"This department has had pleasure in forwarding the communication for transmission to Her Royal Highness, through the appropriate channels."

On behalf of the committee here, Mr. Calvert wrote as follows to Her Royal Highness on December 17:

"On behalf of the Princess Elizabeth Royal Wedding Fund committee, I am forwarding the receipt for draft for one thousand dollars to purchase food for our less fortunate fellow citizens of the Motherland, and in connection with your very thoughtful and unselfish desire."

"This amount has been voluntarily contributed by the people

of this community in the Okanagan Valley, in the Province of British Columbia the school children playing a very prominent part in the collection of the same, and has been sent on to be handled by CARE, an organization set up at Ottawa to handle food parcels for Britain.

"Expressing our warmest regards for your future happiness, and our sincere loyalty to yourself and the Duke, and trusting that we may have the privilege of welcoming you both to this beautiful section of Canada in the near future."

Advice has been received that the gifts of food received from all parts of the world as wedding presents to the Princess Elizabeth have now reached such proportions that it has been found possible to make much wider distribution than that originally contemplated, it is announced by Hon. G. S. Pearson, provincial secretary.

Her Royal Highness has now asked that the distribution should be spread over the whole of the United Kingdom and that gifts should go to needy people such as those in receipt of supplementary relief from the United Kingdom's Assistance Board. In this way, Her Royal Highness feels that the gifts so generously sent to her will give pleasure to the largest number of people and to those whose needs are greatest.

DANGEROUS DRIVING

Arising out of an accident on the Okanagan lake bridge at the outskirts of Penticton on Friday afternoon, R. Biagioni of Summerland appeared in Penticton police court on Saturday, Jan. 31, and was fined \$50 and costs on a dangerous driving charge. He pleaded not guilty but was convicted of the charge by Magistrate G. A. McLeland, of Penticton. The other car involved in the accident was driven by David Baerg, also of Summerland. Noone was injured in the collision.

Mr. George Fudge, accompanied by his mother, Mrs. F. Fudge, leaves today for a visit at the coast.

RUTLAND LOSES—

Continued from Page 1

outside teams are not available, a four-team senior loop will operate locally, last Thursday's meeting decided. Two town senior teams and two high school sextets will comprise this league and last Saturday night saw the first contest of this series, the Hot Shots and Bombers playing to a 6-all tie.

Penticton brought a strong senior team to Summerland on Monday and trounced the local pucksters 6-4. Jock Smith tallied twice for the defeated squad while George Taylor and Lionel Guidi scored singles.

School Tourney
Seven high school teams competed last Saturday in a major school tournament at Vernon. Summerland lost to Salmon Arm 5-2 but came back to defeat Rutland 1-0. Summerland was then to play Enderby, but that school had to default this contest.

Blair McRae and Keith Haskins scored the goals against Salmon Arm and the former countered the winning tally against Rutland. In that game, "Joe" Elliott was a standout between the goal posts.

Vernon won the Okanagan school hockey championship in that Saturday tournament and will play against New Westminster and Prince George for the B.C. high school hockey championship.

Last week, Summerland and Penticton high school squads tangled with the final result being a 3-all tie.

Spring Improvements Already Under Way

LOW-COST LOANS AID FORWARD LOOKING FARMERS

For many a progressive farmer, Spring is the time for putting into effect plans to make his farm more productive and more profitable.

Hundreds of Canadian farmers, looking for ready money to finance such improvements, have found the answer in a Farm Improvement Loan from the Bank of Montreal. Such loans have covered the purchase of agricultural equipment and machinery, and a score of other purposes that have helped increase farm profits.

Do you want to repair or extend your farm buildings, install a better drainage system or irrigation system, or improve your farm in any other way this Spring? If so, call at the B of M to discuss your financial requirements.

Mr. James Muirhead, manager of the local branch, will be glad to discuss your plans with you. You will find he understands a farmer's problems, and he will be anxious to help you get your improvement plans under way.

SPORTSMEN—

Continued from page 1

ation with the municipal council had also brought good results.

The president and his brother, Channon Snow, were delegates to the interior convention at Salmon Arm last May and the former also attended the provincial convention at Harrison Hot Springs, which he believed to be the highlight of the year for organized sportsmen in B.C.

During 1947 the local club offered to provide guides and search parties if any person becomes lost in the hills of this district.

President Snow also spoke of the organization of the South Okanagan zone of sportsmen's clubs, which he believed is a step in the right direction.

One of the highlights of the meeting was the draw for a Labrador pup, donated to the club by Sandy Munn. Ticket No. 42 was the winner and was held by Miss Joyce Elsey.

Three excellent sporting films concluded the meeting.

Socially Speaking

Mr. J. L. Radomske has sold his farm on Jones Flat, known locally as the old Graham place, to Mr. Steve Cocklidge. Mr. Cocklidge is a former resident of Summerland, and is returning here after several years in Winfield, B.C. The Radomske's are moving to East Kelowna about the first of March, when the Cocklidge's will take up residence here.

The Legion Women's Auxiliary is issuing an invitation to all ex-service men's wives, and their children under 12 years of age, to attend a party in the Legion hall on Saturday, February 14, at 2:30 p.m. A program of films suitable for the young people will be shown, with further entertainment provided by a number of local children. Refreshments will be served.

Mr. and Mrs. Mel Ducommun left on Sunday for Youbou and other Vancouver Island points on their annual holiday.

Mr. Ed Hannah returned last week from Vancouver, where he underwent another operation at Shaughnessy Military hospital.

Mr. Ben Sherk, an old-time resident of Summerland and more recently a resident of Vernon is visiting friends this week while staying at the home of Mr. and Mrs. E. Kercher. Mr. Sherk will continue on to San Francisco, Cal., where he will visit his two sons, Leemer and Clarence, for a period of about three months. On his return he intends to remain in Summerland for some time.

Mrs. Louis Burnell left for a visit to Vancouver on February 2.

Leaving for a visit in Vancouver on Sunday night, February 1, was Mrs. E. Hookham.

Mrs. Bertha Gillis left for a visit to the coast on February 2.

A son was born to Mr. and Mrs. R. Lenzi at the Summerland hospital on Thursday, January 29.

Miss Elsa Smith was a Sunday visitor from Sicamous at the home of her parents, Mr. and Mrs. Bob Smith. She was accompanied by Mr. and Mrs. E. Mernice, Mr. Bob Robertson, Miss G. Radloff and Mr. Dave Mernice.

Mr. and Mrs. Cafferty left last Saturday night for a holiday in Vancouver.

Dr. H. R. McLarty will be the guest speaker at the growers Chautauqua to be held in Legion hall today, Thursday, February 5. Dr. McLarty has already spoken on the work of the pathology department in Naramata and Penticton, and Mr. T. B. Lott will travel with the Chautauqua when it leaves here for other parts of the valley. Dr. James Marshall, on behalf of the entomology division, and Dr. Don Fisher with Mr. J. E. Britton from the experimental station are travelling for the whole tour, covering some 17 or 18 meetings.

Jill Sanborn was a junior hostess on January 21, when she celebrated her 11th birthday by entertaining several school friends at a morning skating party followed by a luncheon at the home of her parents, Mr. and Mrs. D. L. Sanborn. Her guests were Mary Wileman, Carol Graham, Jeanie Johnstone, Evelyn Washington, Barbara Baker and Deanna Wileman.

Friends of Blair McRae are sorry to learn he broke his right arm while playing hockey on Sunday.

Mr. and Mrs. Kay Ongora entertained a group of their Happy Valley friends on the evening of January 30.

Mrs. Blair Underwood entertained a number of mothers and children in honor of her son John's fourth birthday on January 27. The young folk seated around the birthday table to see the young honoree blow out the candles were Angus Whitmore, Keith Skinner, Marilyn Baker, Sheila York, Lorne Bowden, Roger Thomas and Gordon Underwood.

Miss Barbara Knippleburg and Miss Joyce Healy returned to Summerland on Tuesday morning after two months spent at the coast.

Rev. W. Angell is a visitor in Seattle this week attending a ministerial convention. He expects to return to West Summerland on Saturday.

Magistrate H. Sharman has returned from Vancouver, where he attended a conference of magistrates throughout British Columbia.

Constable Myles Dowdell has just completed his second part training in the RCMP, and has been appointed to the city detachment of that force in Edmonton, Alberta, according to word received by his parents here.

MANY REPORTS AT ANNUAL MEETING OF ST. ANDREW'S

St. Andrew's United church held its annual congregational meeting on Tuesday, January 27. Rev. H. R. Whitmore presided, and the members of the congregation heard comments on reports distributed from the various organizations.

Mrs. Doney Wilson and Mrs. W. F. Ward gave the highlights of the year's work on the Cradle Roll and Mission Band reports, respectively, while the Sunday school work was covered by Mr. A. McKenzie, Mrs. F. E. Atkinson, and Mrs. Francis Steuart. CGIT progress was reported by Mrs. A. McKenzie, and Mrs. S. A. MacDonald, and Mesdames M. Baker and R. McLachlan reviewed the year for the Women's Federation and Women's Service club.

Other reports were by Dr. J. C. Wilcox for the AOTS, Mr. Alex Smith for the choir, Mr. T. A. Walden for the board of stewards, and Mr. Whitmore for baptisms, funerals, etc. In the absence of Mr. W. A. Laidlaw the treasurer's report was read without comment.

Following the reports officers were elected as follows: Board of stewards, Mrs. M. Baker, Dr. J. C. Wilcox, Capt. J. E. Jenkinson, Mr. F. E. Bedford, Dr. James Marshall and Mr. S. A. MacDonald. Elected to the session, Mr. A. J. McKenzie and Mr. E. J. Minshall; and appointed as manse trustees were Mrs. W. R. Powell, Mr. Alex Smith and Mr. J. R. Campbell. Capt. J. E. Jenkinson was appointed to be delegate to Presbytery sessions.

After a vigorous discussion on the great need for more Sunday school accommodation, the board of stewards and trustees were asked to draw up plans for a new hall and report to a special congregational meeting to be called in the near future.

Following the meeting the ladies of the church served refreshments.

One of the social highlights of the end-of-winter season was the invitation dance held on Friday evening at the Ellison hall by the Order of Eastern Star Lodge No. 62, Summerland. A large crowd packed the hall to capacity and voted the affair an outstanding success. The grand march was led by Mrs. Annie Dunsdon, worthy matron and Reeve Reid A. Johnston.

Mrs. J. Drake had as a weekend visitor her daughter, Mrs. R. H. Scott. Mrs. Scott arrived on the morning of Saturday, January 31, and left for her home in Vancouver on Sunday night.

Mr. and Mrs. Don Orr made up a family party on Sunday, February 1, including Mrs. C. E. Orr and Mr. F. R. Gartrell, to drive to Ollalla to visit Mrs. Lorne Sutherland and family.

SPICES

The various spices used in the bakery business are a source of great wonder. Yet they come to us so easily, in their little tin containers, and are used so lavishly, that they have become just one more accoutrement for the kitchen.

In spite of their vast importance, how many of us stop to think of the spice plant, where it is grown and how, and which one yields these pungent and fragrant substances.

One of the many spices commonly used in the baking is the fruit of a small tree that is native to the West Indies, and flourishes in the northern part of Jamaica.

It is a very beautiful plant with the white blossoms nestled daintily against the dark evergreen foliage; the delicious fragrance carried by the breeze for a considerable distance. Even the leaf, when bruised, emits a rich odor.

The allspice tree is ordinarily called the pimento tree—the fruit of which, when distilled, gives us oil of pimento used as a remedy in toothache; and when dried in the sun, gives us our allspice, a combination flavor of cinnamon, nutmeg and clove.

Right Of Growers To Criticize Is Upheld In Resolutions Discussions

Interior B.C. tree fruit growers, gathered at their 59th annual convention in Penticton last month, mulled over some 60 resolutions which dealt with industry protection, sales and production problems, research, labor transportation, rehabilitation, income tax, school taxation and allied subjects. The grower-delegates to the convention seemed to have a firm grasp on their subjects, and the large number of younger men who had been appointed to attend the convention this year was commented upon on all sides. More than half the official delegates were young men who were attending their first growers' convention in an official capacity.

Criticizes Committee

Oliver growers submitted a criticism of "committees which ignore the wishes of the growers," dealing mainly with the fact that the pooling committee had not submitted a new plan, prior to the locals' annual meeting, as the 1947 convention had requested.

Mr. George A. Lundy told the convention that the pooling committee did not meet until after the Oliver resolution had gone forward. The soft fruit section of the pooling committee report is comprehensive but the apple section does not give much idea of the committee's future plans, he contended.

L. G. Butler, Tree Fruits governor, and a recently-appointed member of the pooling committee, came to the latter's rescue in declaring that he has been impressed with the way in which the committee had approached its problems and the results obtained. "I can assure you the manner in which they tackled their responsibility should result in your unbounded admiration," he declared.

There was a good deal of discussion with the main contention being that the pooling committee should have met at an earlier date and given the growers' annual meetings the benefit of their findings, so that resolutions could be drawn up on the findings.

Ivor J. Newman, Glenmore, gave an outstanding presentation in support of Oliver's right to criticize the actions of any committee officials.

At the Crossroads

"We are at the crossroads in this fruit industry," he declared. "Dominion marketing legislation is coming in the not too far distant future. If we don't put our house in order first then we are heading for a major crack-up."

Mr. Newman supported Mr. Lundy and the Oliver delegates in their right to voice criticism. "Don't stifle any local or shelve any resolution. Don't be afraid of criticism," he urged the growers and their officials.

As a result of this plea, the growers, by a small majority, carried the Oliver resolution.

Summerland growers presented a suggestion that a uniform cull charge adequate to cover packing house cost of handling be instituted, but this resolution met defeat on the grounds that such a scheme could not be practicable for independent packing houses.

Other resolutions under the heading of Industry Protection included a request from Oyama that a government standard be set for all tree fruit nursery stock, which met with unanimous approval. Oyama also suggested that a BCFGA committee investigate the possibility of procuring a barbed or screw-type nail for use in box making machines, and this was also carried.

From Creston came the resolution that a program be undertaken immediately for the elimination of all unwanted varieties and that each district be dealt with separately and this was agreed upon heartily.

Talk on Inspection

Growers endorsed a request from South and East Kelowna that it would be desirable to rotate inspectors where several packing houses operate in the same district. On the subject of inspectors, Winfield O.K.-Centre received support for its request for a field inspector to take charge of grower-contract work in the Winfield - Okanagan Centre - Oyama area.

Westbank growers requested that women be employed as fruit inspectors and that there be no discrimination between the sexes. Westbank also suggested that persons applying for appointment as fruit inspectors should be required to pass a color vision test. The convention agreed to these proposals.

Glenmore's request that the packing, grading and culling of fruit, as it affects the grower, be made as uniform as possible throughout the industry, met with support, although the method of carrying out this suggestion was not provided.

"The Aristocrat of Apples," was the way in which Hugh Middleton, of Creston, described the Cox Orange, but A. C. Lander, Kelowna, assistant sales manager, informed the growers that this variety is not known in Canada and as it is a small-sized apple, it is hard to sell. However, the convention agreed that Cox Orange growers should be assisted in whatever manner possible.

Improvement to secondary roads was sought by Vernon, Okanagan, Mission and Creston and the convention agreed to pass on the recommendation.

Permanent Status

Work of the Better Fruit committee, set up last year, was evidently satisfactory to the growers as a whole from comments made at the convention and South and East Kelowna local asked that this committee be given a permanent status in the BCFGA setup. The convention agreed.

Wide-spread and thorough spray programs specifically directed against any pests whose presence on the fruit may result in a certificate of freedom from disease being denied B.C. fruit allotted to export markets was another aim adopted by the growers.

As a boon for apple growers anywhere, the annual convention was urged to press for the development of a better maturity tester or gauge, as recommended by the Okanagan Federated Shippers Assn.

Creston presented a lengthy preamble giving reasons why the provincial government should consider some form of financial assistance to meet cold storage demands, and that this assistance should be either in the form of long-term low interest loans or a subsidy. The convention agreed to seek such support.

Prunes entered the discussion when Vernon growers asked that more information be given regarding cultural practices to follow to obtain the sizes required in any season.

Seek New Grants

Summerland was to the fore in seeking grants for various government research services, advocating that another \$2,500 grant be devoted to the insect control laboratory and that a vote of \$5,000 be devoted to the Summerland experimental station, as has been the custom for the past four years.

These grants were approved while another Summerland move, also endorsed, asked that the plant protection division be requested to take steps to provide suitable accommodation for their chemist in the new entomological laboratory.

Improvement in all fruit packing equipment as the subject for research by the BCFGA was adopted by the convention, while the growers joined with the Okanagan Federated Shippers Assn. in complimenting the experimental station on the results of its research into fruit troubles.

Under the general heading of rehabilitation, the immediate development of the "Stevens" property in Westbank by PFRA and other governmental grants, and the development of Cawston bench lands was urged.

Set Up Reserve

The B.C. government action on attempting to have the mountain differential on freight rates removed was endorsed by the convention, while Creston's suggestion that fruit growers be allowed to make deductions from income for reserve purposes will be referred to the federal income tax department for a suggested amendment to regulations.

Continuation of the Dominion-Provincial Emergency Farm Labor Service is being requested by the BCFGA on recommendation of the grower-delegates.

"That the whole cost of education be equitably borne by the total population of B.C. out of the consolidated revenue of the province," was advocated by Ellison delegates, and the convention endorsed this plan to remove land from the school taxation field.

Growers like the Chautauqua plan, as commenced under the direction of the departments of agriculture and are urging that such a system become part of a recognized annual program.

Daylight saving was introduced early in the convention and received a bare majority for a period of one year.

And the Pilot Lived to Tell the Tale

This series of pictures released by the U.S. Navy shows an F8F piloted by an Ensign making a landing in carrier qualification on the Tarawa. (1) Plane comes into flight deck for landing; (2) plane stalls and pilot struggles to regain control; (3) plane is almost inverted a short distance from the island structure; (4) barely clearing the island, pilot tries to recover flight level; (5) plane flips over on its back after hitting water; (6) plane takes final plunge as pilot (arrow) comes to the surface unhurt. He was picked up later. Name of pilot and time pictures were made, was not given by Navy.

from April 30 to September 30.

Want Ample Power

Fluctuation of current and lack of power in some rural areas was noted by the convention and hydro electric companies are to be asked to rectify this situation. The longest resolution on the order sheets emanated from Creston, whose growers wished the convention to urge the B.C. government to take immediate steps to provide ample power facilities to meet the needs of the Creston valley and all other districts of the fruit growing industry. Other districts favored this step.

Osoyoos is not being given coverage by CKOK in Penticton, W. McConnachie informed the gathering and the convention agreed to inform the manager of CKOK and CKOK that consideration should be given to establishing a station in the Oliver-Osoyoos area.

One delegate remarked that a booster station is being contemplated in Oliver and he received a direct challenge from an Osoyoos man: "Why have it in Oliver?" Westbank propounded that a thorough investigation into the working of the unemployment insurance act as it affects employees in the fruit packing plants canneries, the fruit and vegetable workers and seasonal occupation in general be made, with a view to having these industries and individuals exempt from all benefits and levies imposed by this act.

The convention defeated this motion. Marketing legislation to supplement the existing provincial marketing acts, in time to take care of the 1948 crop was proposed by South and East Kelowna and met with wholehearted grower support.

Summerland's move for compulsory motor vehicle insurance, with the premiums added to drivers and car-licences by which method the expense of setting up extra machinery for the collecting of these fees would be avoided, met with the approval of growers. Another Summerland resolution asking for removal of road taxes from farm tractors and equipment was withdrawn from the convention floor as the government has already made this move, it was explained.

FINED AT PENTICTON

Arising out of a motor accident on the Penticton-Summerland highway, Charles Steuart pleaded guilty on Thursday, Jan. 22, in Penticton police court to a charge of dangerous driving and was fined \$25 and costs. The other car involved in the accident was driven by Jack Morrow.

CONTINUE FARM LABOR PROGRAM

Farm labor placement offices now operating in Victoria, New Westminster and Mission will be augmented in spring and early summer by additional offices throughout the province, as local

conditions warrant, it is announced by Hon. Frank Putnam, minister of agriculture.

Mr. Putnam said he expected to negotiate an agreement soon with the Dominion Department of Labor for continuation of the Dominion-Provincial farm labor program this year.

Rapid Growth of Credit Unions Told at Annual Meeting of Local Members

There are now 14,000 Credit Unions in North America with a share capital of \$600 millions, while in Canada there are 2,700 unions, with a share capital of \$300 millions, declared John Burns, managing director of the B.C. Credit Union League in addressing the annual meeting of the Summerland and district Credit Union in the I.O.O.F. hall on Thursday evening.

This business session followed a successful turkey dinner which saw 143 members and guests crowd the hall facilities to capacity. It was a large turnout and the entire evening was voted a big success.

British Columbia started the Credit Union plan in 1939 with three unions. There are now 175 unions, with a membership of 40,000 and over five million dollars

are out on loan, Mr. Burns declared.

Lowest Loss
The largest union is the Street Railwaymen's Credit Union in Vancouver, with more than a million dollars loaned out and a loss of only \$1.25 to date. Losses of credit unions in B.C. have only amounted to one-twentieth of one per cent, the lowest percentage of any concern in North America, Mr. Burns told the meeting.

For a time, Mr. Burns dealt on the benefits offered by the C.U. & C. Health Society, which offers members of credit unions and co-operatives hospital and medical benefits. This benefit group is the only one of its kind in B.C. to maintain one hundred per cent of its reserves in 1947, Mr. Burns claimed.

Reason for this splendid show-

ing was given that the benefit society does not pay any sales commission. Two hospital schemes were taken over by the society last year.

"We feel we have a good plan, and our operating costs were less than fifteen percent of our revenues last year."

New Legislation
Mr. Burns went on to tell of the Credit Union co-operative insurance scheme, the endowment plan and the combination endowment and loan protection scheme. He also dealt with legislation which had been put through the B.C. legislature last spring.

At the coming session, the Credit Union league will endeavor to widen the scope to give unions power to make loans to municipalities.

"If you stay out of your Credit Union then you are not community-minded, for the stronger you make your union the better it is for the community," he concluded. At the outset of the meeting, visitors from Osoyoos, Keremeos and Penticton were introduced with Roy Smith acting as chairman of the banquet and business session.

Makes Rapid Strides
"Our progress has shown the need of a Credit Union here," declared Mr. Smith. "We have nothing to sell you but services to offer you. Our purpose is a worthy one and worthy of your support."

The balance sheet presented to the members indicated that the number of loans had increased to \$40,016.97 from \$13,288 in 1946 and investments had gone up to \$1,080 from \$770.29. Among the assets of the local Credit Union is listed its Granville street building, valued at \$4,628.19.

Share capital in the Credit Union had also increased from \$17,088.56 in 1946 to \$41,420.20. The division of a balance of \$1,288.92 allows for a dividend of 3 per cent on shares and a loan interest rebate of 10 per cent.

The various annual reports presented indicated that a South Okanagan chapter of Credit Unions is being formed. A. E. Smith, treasurer, reported that the growth has been steady in 1947, "in all directions."

F. E. Ganzveld, for the credit committee, declared that applications for loans had been in excess of resources and all applications had been examined and assessed on their merits.

In election of officials, Mrs. Louise Lemke was named to the supervising committee; Gordon Beggs and Mel' Monro were re-elected to the board of directors for three-year terms; F. R. Ganzveld was chosen for three years and Arnold Gayton for two years, on the credit committee.

A social evening followed the conclusion of the business session.

Bell Ringing Demonstrated To AOTS Club

A large attendance of 62 men at the January 22 meeting of the AOTS in St. Andrew's church hall was delighted by the demonstration of bell-ringing given by Mr. and Mrs. George Ryman. Mr. Ryman, who had studied the art in the Old Country, gave a short talk about bell-ringing, and he and his wife then played a number of familiar songs and hymns to their highly-appreciative audience.

Second on the entertainment program came a talk on the Boys' Parliament by David Wright, who attended it as Summerland representative, sponsored by the AOTS and the Canadian Legion. He spoke of the Boys' Parliament as the most inspiring experience he had ever had, and the pithiness and terseness of his talk were a good example to older parliamentarians.

Main business discussed by the meeting was the matter of the AOTS Request Concert, to be put on March 4 in the Legion hall. T. W. Boothe explained that any person in or out of the AOTS club could hand in a request for any person they wished to put on an act at this concert, and the committee in charge would endeavor to include it in its program. Gerry Laidlaw was appointed as the person to whom such requests are to be given.

Steve Cannings reported on the duties being undertaken by his newly-formed finance committee, which is taking a good deal of the burden of business off the general meeting.

The financial report by Treasurer Ken Boothe evoked the usual good-natured ribbing which so often enlivens meetings of the club.

Les Gould reported that hockey is going strong, with four teams organized from the elementary school boys and games and practices proceeding on a regular schedule.

Just before the meeting adjourned, President Jack Wilcox announced that of the club's 65 odd members, over 40 took an active part in some of the various AOTS activities during the year, so that the AOTS tradition of doing things rather than just talking about them is being well maintained.

HAMBER TO HEAD RED CROSS DRIVE; STARTS MARCH 1

Hon. E. W. Hamber, CMG, will again head the British Columbia Red Cross campaign committee when the annual appeal for funds opens March 1st. This is the second year for Mr. Hamber as chairman of this committee, as he also headed the 1947 drive when this province led Canada in per capita donations with a total of \$564,296 subscribed. George H. Bailey, western vice-president of the CPR will be campaign vice-chairman.

"I am sure British Columbia will hold its place in Red Cross contributions this year," states Mr. Hamber. "The wide peacetime program of the Canadian Red Cross, which embraces the new blood transfusion service, should find enthusiastic support from the public. In addition to many other activities, the Canadian Red Cross will also continue its very necessary assistance to war veterans and its overseas relief of food and clothing."

This year British Columbia's quota has been set at \$300,000 with the national objective of the society \$3,000,000. Quotas for the various Red Cross branches in B.C. are now being set and local campaign committees will be formed this month.

Mr. Don Clark left for a trip to Vancouver on Saturday, January 31. He will accompany his parents, Mr. and Mrs. J. A. Clark on a trip to California.

SCOUT NEWS

This Friday's meeting, February 6, will take the form of a skating party at Wharton's rink from 7.30 to 10 p.m. Each boy must bring a cup for cocoa. The admission is 15 cents or 25 cents if he brings his love.

Last week's column contained a misprint. The church parade is Sunday, February 15, not February 1. Boys are reminded to have their uniforms complete and clean and pressed. We will meet at the school at 10:30 a.m., where a troop picture will be taken. We want a full turnout of the troop for this picture, with staves. From the school we will march to the Church of England for 11 a.m. service. It will be the job of the duty patrol, Hawks, to see that the staves are on hand.

SPEINKLER IRRIGATION

TO IMPERIAL OIL DEALERS IN BRITISH COLUMBIA

Because of the recent decision of the Government with regard to the price of gasoline, we have reluctantly decided to discontinue imports into this Province in order to minimize our losses.

The reasons why we must take this regretted step were outlined by Mr. R. M. Pidgeon, our Division Manager for British Columbia in a statement issued on January 28th, when the 3c price increase was announced by the Government. This statement follows:

We regret that the 3c increase in gasoline price announced by the Government is not sufficient to warrant our continuing to import gasoline into British Columbia.

Accordingly, we must discontinue seeking for supplies in the California market.

Right now gasoline is selling wholesale in Seattle for the equivalent of 19 1/2c per gallon, when the larger Canadian measure, duty and sales taxes are taken into account. This is 1 1/2c more than the Government has authorized in Vancouver. Yet Vancouver and British Columbia draw supplies from the same source as Seattle.

Since last May we have been continuously urging the Coal and Petroleum Control Board and the Government for relief from the rising costs of crude oil and imported gasoline.

Our losses are now running at the rate of approximately two million dollars per year, and the increase announced would not remove us from a losing position.

We asked for a minimum of 4 1/2c per gallon. 3c per gallon represents \$725,000 less per year than 4 1/2c, and would continue us in an unsound financial position.

We advised the Government repeatedly that falling adequate relief we would have to minimize losses by discontinuing imports of gasoline.

The volume of imports has been continuously increasing with resulting increasing losses. For 1948 imports would have represented between forty and fifty percent of our total supplies.

We cannot carry on business if we must continue incurring ruinous losses, and as trustees for the many thousands of Company shareholders we have reluctantly decided that there is no alternative to the action which we are regrettably taking. We shall have to review conditions carefully before resuming importations.

In order to conserve our existing stocks and such gasoline as we may produce at our Ioco refinery, it will be necessary immediately to curtail shipments from our refinery and bulk plants in the Province.

This is being done. At the outset it will be necessary to curtail substantially our sales of gasoline to dealers.

In view of the fact that we must now restrict sales to the production available from our refinery at Ioco, we will be compelled to reduce deliveries to our dealers beginning today.

Deliveries hereafter will be at the rate of about 45% of what we estimate would be your normal requirements.

Summerland's Canadian Army Cadet Corps was proud as punch last Friday afternoon when they were the recipients of an official visit from Major J. H. Mahoney, V.C., Western Command Cadet Officer, and his aides. Major Mahoney spoke to each Cadet in the school gymnasium and then addressed the Cadets as a group, stressing the importance of Canadian citizenship and the need for every person to think of service to the country.

Immediately behind the Victoria Cross winner can be seen Cadet C.S.M. John Vanderburgh, who is partially hiding Lt. Stoppa, area cadet officer. Major Mahoney is talking to Cadet Corporal Gerry Adams in this picture and on Adams' left there are Cadets Jim Newton, Ronnie Ritchie, Lorne Logie, Jim Towgood and Art Towgood. Way over on the right is Ronnie MacRae, next to the wall, and Bud Green. If you look closely you can just see Cadet Bernard Embree in the background behind Cadet Art Towgood.

Capt. G. D. Brown, senior Cadet training officer for the B.C. area was also in the party but did not make the picture, which was taken by Robson's Studio.

Legal Department Rules Against Summerland In Dispute Over Fruit Trees

That the attorney-general's department of the B.C. government has ruled that Summerland municipality must keep its fruit trees on the assessment roll for school taxation purposes if it taxes fruit trees for municipal purposes, was the ruling handed out to the Summerland municipal council on Tuesday in a communication from Hon. W. T. Straith, the new minister of education.

This ruling by the A/G's department is at variance to the advice of the best legal counsel on corporation matters which the Summerland council obtained at Vancouver last fall, it is stated.

It is also contrary to the information given to W. A. C. Bennett, MLA for South Okanagan, when he introduced the contentious subject to the finance department of the government last spring.

In the meantime, the entire School District 15 is anxiously awaiting the outcome of the cabinet discussions and the findings of the school tax commission, which have been completed and have been placed before the government leaders.

Asked by The Review if he had any information on the findings of this commission, the member for South Okanagan stated yesterday that the cabinet is keeping this subject to itself and has issued no information at all on the probable outcome of the commission hearings.

District 15 placed its problems before the tax commission in Penticon last November, Penticon claiming that its assessment was away higher in proportion to Summerland and the rural area, while Summerland contended it should not be forced to levy an improvements assessment on fruit trees for school purposes when Penticon municipality and the rural area in district 15 do not make a similar levy. Summerland also pointed out that it has been forced, through the consolidation of schools into larger districts, to pay a large proportion of Penticon's old school debt.

No information as to the commission declarations on district 15 squabbles has been forthcoming from Victoria.

In the meantime, Penticon council is still pressing for a divorce from Summerland in the school district.

Straith Letter

Hon. Mr. Straith, the new minister of education, has turned down applications for separation made by several school districts.

In his letter to Summerland council, Mr. Straith wrote, in part: "That (A/G) department inform-

Dunsdon Deal Is Ready For Settlement

Settlement of the Jim Dunsdon-Council dispute is in sight, Reeve Reid A. Johnston informed the council on Tuesday.

This dispute arises over the Dunsdon property in Garnet Valley. Mr. Dunsdon claims the municipality has no right to go over his property to repair and maintain the municipal flume. The municipal council has claimed for the past six months that it has legal right so to do.

Wound into this dispute was the question of water supply and Reeve Johnston reported that Mr. Dunsdon and his son Steve were agreeable to a net charge of \$8 per acre foot. Maximum quantity the municipality will deliver is 25 acre feet with a 45-day minimum limit and a maximum for the season of 125 days.

With this rate for water, the Dunsdons are reported to be willing to recognize the municipality's right of access to their property in Garnet Valley.

Municipal council approved the deal tentatively agreed to by Reeve Johnston and authorized his Worship and the municipal clerk to proceed with final negotiations.

ed that since Summerland has elected to tax fruit trees for municipal purposes it should also include the value of fruit trees in its roll submitted for school taxation purposes.

"The settlement between the two municipalities appears to be a matter in which this (education) department should not intervene, but I thought that I should let you know the views of the legal department here," concluded the education minister.

There was little discussion on Tuesday by the council. It was decided to leave any action on this letter until the tax commission review of district 15 troubles has been revealed.

In the meantime, the school board has been endeavoring to arrange a meeting with the Summerland council to discuss the financial statement for 1947 which has been completed by the auditors.

It has not been possible for these two bodies to arrange a suitable date yet, but such a meeting may be held before the end of the month.

Withheld Payment

School District 15 claims Summerland municipality is in arrears between \$5,000 and \$8,000 in 1947 payments, this sum being the disputed amount involved in the tree assessments.

Summerland municipality withheld this amount in making payments to the school district last year.

It is understood from reliable sources that the school trustees have considered taking Summerland municipality into the courts in an endeavor to collect this outstanding amount. No definite action has been decided upon, it is stated.

Legal advice which Summerland municipality received last year leads the council to be-

Continued on Page 4

Jack Dunham Is Teen Town Mayor

Jack Dunham, popular teen-aged youth, was chosen to continue as mayor of Teen Town when the annual elections were held at the IOOF hall last Friday evening. He won out in a contest with Don Nesbitt.

Male aldermen elected were Carol Brawner, Dennis Hack, Wally Day and Murray Elliott, while Don Nesbitt automatically stepped into the aldermanic post after his mayoralty contest.

Girls who were elected to aldermanic positions consisted of Beverly Fleming, Mary Ward, Gwen Lamacraft and Marian Richards.

Electrical Union Agreement Is Signed At Last

On Tuesday evening, Summerland council received the final draft of its new agreement with the International Brotherhood of Electrical Workers AFL, based on the findings of an arbitration board which settled a wage dispute between Penticon council and its municipal electrical workers last fall.

The reeve and clerk were instructed to affix their signatures to the new agreement.

This agreement is basically the same as other contracts in the Okanagan but is amended in a few paragraphs to meet peculiarly local situations. These alterations were agreed upon following a meeting between the council and George Gee, Vancouver, representing the electrical workers union, some weeks ago.

The scale of wages, which is now universally accepted throughout the Okanagan and other interior points is based as follows:

Foreman, \$11 daily; subforeman, \$10.45; journeyman lineman, \$9.75; first year groundsman, \$7; second year groundsman, \$7.80; first year apprentice, \$7; second year apprentice, \$7.75; third year apprentice, \$8.65.

These wages are retroactive to October 1, 1947.

T. P. Thornber is the electrical foreman and has the following staff, as agreed upon by the union representative: Gordon Blewett, journeyman lineman; A. Rutherford, second year groundsman; Stewart Sanborn, third year apprentice.

Wages are based on a 40-hour week but, if necessary, the electrical crew will work 44 hours per week without overtime charges.

On a 40-hour week basis, Mr. Blewett will now receive \$195 instead of \$170; Mr. Sanborn will receive \$8.65 per day instead of \$6.80 as at present and Mr. Rutherford's daily pay will be boosted to \$7.80 from \$5.40.

Senior Hockey Team Wins Two In Past Week

Two victories and one defeat were registered by the Summerland senior hockey team in the past week. Last Thursday evening, Kelowna sent down a strong aggregation and took away a victory by a narrow 8-7 count in a rough and ready tilt.

On Friday evening, Rutland appeared here again and was walloped 9-6 by the Summerland stick-handlers.

On Tuesday, at the rink in the Living Memorial park-playground, the Summerlanders avenged an earlier defeat when Penticon was turned back 6-4 in a ding-dong fight which had plenty of action.

Rutland plays here again next Sunday afternoon while town league games and practices are occupying every available playing time in the rink setup. Tonight, Penticon and Summerland juniors are scheduled to chase the puck at the local rink.

Oliver high school was billed to appear here last Sunday afternoon but failed to put in an appearance; the boys' not being granted permission to travel because of the wintry conditions existing.

SELL AT HALF COST

Mrs. Isabel Nelson obtained a partial concession from the municipal council this week in connection with proposed improvements to the electric line which runs from the municipal line to her home. The council agreed to sell Mrs. Nelson a small transformer at half cost in order to improve the service.

SPEAKS TONIGHT

Tonight in the Ellison hall, a big attendance of board of trade members and their wives will listen to Mr. Gordon M. Shrum, head of the department of physics and director of the extension department at the University of B.C.

A speaker who is known throughout North America, Mr. Shrum is a member of the American Physical society, of the American Association for the Advancement of Science, the Royal Society of Canada and the Canadian Association of Professional Physicists.

Graduating from the University of Toronto in 1920 with a silver medal in mathematics, Mr. Shrum came to UBC as an assistant professor in physics in 1925.

THREE WINS FOR PENTICON SCHOOL

Summerland high school teams found themselves no match for the visiting Penticon quintettes when the South Okanagan championships in high school basketball playoffs were decided at the local gym on Saturday night.

Penticon juniors defeated the local lads 21 to 13, Penticon senior girls won 18-4 and the visiting senior boys won out 47-21, Raptis repeating an earlier scoring record by amassing 29 points in a big evening of offensive play.

Council Road Program Set As Bylaws Pass

With the passage of two money bylaws on Saturday, municipal fathers are now making their plans for a big road improvement program for Summerland.

Local ratepayers endorsed the plan to borrow \$28,000 for asphalt-ing some nine miles of road by a big majority. Affirmative votes numbered 211 with 27 against, for a total ballot of 238.

The same number voted for the road machinery bylaw, which allows the municipality to borrow \$10,000. The vote in this case was 203 affirmative votes, 33 against and two spoiled.

Little interest was taken in this bylaw vote and the coldness of the day probably kept many ratepayers at home. Returning officer for the vote was W. C. W. Fosbery with C. Noel-Higgin deputy in charge of the Summerland vote at Lakeside United church basement. Poll clerks were Fred Schwass and George Fosbery.

Confirms Grader

On Tuesday, the council moved to confirm the tentative purchase of the new road grader from the Finning Tractor Co. at Vancouver and also looked over bids submitted on the three-ton truck with a dump body and hoist which the municipal road department now can purchase.

These are the two items of machinery which the council will purchase to facilitate the road surfacing program. Purchase price of the maintainer is \$12,056 with a trade-in value on the present municipal machine of \$3,500.

This year it will probably be possible to eliminate three corners on the twisty Garnet Valley road. Councillor Harvey Wilson has been given tentative authority to close a deal with the Interior Contracting Co. Ltd., Penticon, for approximately \$1,100 and other expenses will probably run this figure to \$1,500. These prices must be ratified by the council before work proceeds.

Engineer R. A. Barton, Penticon, estimated that on five rock cuts there would be 2,224 cubic

Continued on page 4

CO-OP TO BUY LOWER TOWN LOTS

Summerland Co-operative Growers' Assn is making a deal with the Municipality of Summerland to purchase lots 5, 6, 7 and 8 and 18 feet of lot 9, in lower town opposite the packing plants for a sum of \$1,180.

RELOCATE PORTION OF ROAD WEST

If assistance can be obtained from the provincial public works department, the upper portion of the Prairie Valley road may be relocated for about a quarter mile to eliminate a dangerous and difficult section of the road leading out of the municipality to the west.

Phil Munro and Don Agur presented a plan to the municipal council on Tuesday and the council agreed that if assistance could be obtained to rough-grade the new road, following a proper survey, then the municipality would finish the route.

The Doherty road, as part of the route is now known would be eliminated if this new section, which would go up the "dump draw", is placed.

Street Light Extension Proposed By Atkinson; Reviews Three Years

Possibility that Summerland's street lighting system will be greatly enlarged this year and that ornamental standards may be projected for the business area of West Summerland was voiced on Tuesday afternoon by the Summerland council following presentations made by Councillor F. E. Atkinson, chairman of the electric light committee.

The latter official also dealt at some length with the financial status of his electrical department, and presented the council with a full report, in lieu of the discussion which ensued at the previous council session. Councillor Atkinson announced that he felt the council had an erroneous picture of the electrical department operation over the past few years and he set about to correct the impression.

Complete costs on the extension of the street lighting system, will be compiled and the council will then consider if the entire program is possible this year or if a program spread over the next few years will be possible.

Based on 1947 prices, the cost of installing ornamental light standards for Granville and Hastings was placed at \$2,500.

If this type of ornamental street lighting is projected it will probably have to be financed on a local improvement basis, with owners of business property paying an equal proportion to the municipality generally, it has been suggested. The other street lighting extensions would be borne by the electrical department.

"If we are not faced with too many expensive extensions to the electrical system don't you think we could start to beautify our town?" was Reeve Reid Johnston's immediate reaction to Councillor Atkinson's report.

Two Transformers

Mr. Atkinson's street lighting proposal, as outlined on Tuesday, was the result of a survey conducted by Electrical Foreman T. P. Thornber last year.

If the program is carried out, the present street lighting transformer would be utilized for West Summerland area only and another five kva transformer would be installed for lower Summerland.

In all, more than sixty street lights are included in the proposal. In West Summerland, these additions would be as follows:

Station road, one every four poles, total 6; Prairie Valley to Hutton's one every four poles, 4; Julia road, three plus one at the corner, 4; road past W. T. Boothe's home, 2; Quinpoole Flats, 2; Giant's Head road to J. W. Harris' home, 6; west end Jubilee road, 2; Parkdale, behind the Baptist church 3; the Bill Atkinson area, 3.

Other proposed street light additions would be: Peach Orchard 5, near Mrs. Fisher's home 1, switching station to hospital 2, Shaughnessy avenue 4, Beach avenue 2, Trout Creek 8.

The Review was informed on Wednesday that the \$2,500 cost of ornamental standards includes thirteen for both Granville and Hastings. Mention was made of the street lights installed at Peachland by the B.C. Power Commission. These lights cost \$45 per unit and give a very satisfactory light, council considered.

Increase Surplus

"We are on the upgrade and I believe the surplus account will be increased in 1948," was Councillor Atkinson's reaction after considering the financial status of the electrical department.

It was mentioned many times last year and again two weeks ago that the fund set aside for extension work has been depleted considerably and would have to be

Continued on page 10

Ski Tourney Is Postponed; Hold Open House

Due to conflicting dates, the Okanagan ski championships at Kelowna scheduled for last weekend have been postponed until February 20, 21 and 22, which means that the Summerland ski tournament will also be held over another week and will take place on February 29, local ski officials state.

Improvements which were accomplished last summer to the downhill course are now very evident, Don Agur states and the run is much faster and trickier than ever before. There have been some casualties on this run, with broken ski poles in evidence on many sides.

Last week's snowfall has put the hill in good shape and the run is running perfectly, now that a new power unit has been installed.

An open house day has been set for this Sunday and all persons interested in skiing here are being urged to pay the course a visit. Music will be provided at the hill by Stewart Sanborn over a public address system.

Instruction classes are being conducted regularly every week and there is a great improvement among the local talent, Mr. Agur reports.

CHIMNEY FIRE

A chimney fire at the C. J. Ripplin home in Prairie Valley resulted in the West Summerland volunteer fire brigade being called out at 1:15 o'clock on Monday. The fire spread to the attic but was quickly extinguished with little damage being done.

Prairie Valley Fruit Lands Reduced in Valuation Appeals

Twenty-four appeals were heard on Monday at the annual court of revision of the municipal assessment roll and another eight appeals, received too late for formal application, will be considered next Monday.

Two main points came out of the countless arguments and discussions on the much-discussed assessment valuations which will have a bearing on future valuing of municipal property.

Growers from Prairie Valley area convinced the court of revision that the soil in that area is not as good quality for agricultural production as most other parts of the municipality, especially the front bench, and the valuations were accordingly reduced on three major properties.

Lakeshore Lots

Also, it was found that the assessments on lakeshore property stretching from Trout Creek Point northwards are in need of revision and should be graded more closely together. This is a task which the municipal assessor has been pledged to undertake for next year's assessment.

In the meantime, the court of revision recognized the justice of several appeals on assessments of lakeshore properties, recently purchased.

Only major disagreement came at the outset of the court when several persons who had appealed were informed that their communications did not reach the

municipal office by the deadline. H. Tomlin was one of those whose appeal was a few hours late and when the chairman of the court, Councillor Harvey Wilson, in the absence of Reeve Reid A. Johnston, intimated that the court had no authority to deal with appeals which were not filed in time, Mr. Tomlin became very disgruntled.

"I'll take this matter up with the inspector of municipalities," threatened Mr. Tomlin and Councillor Wilson replied that he had every right so to do if he wished.

Delegation Appeared Councillor F. E. Atkinson rescinded the situation somewhat when he pointed out that the court of revision should not be too technical, the delegation withdrew on the promise that the court would consider its cases next week.

It was pointed out by Assessor Angus that when values decrease assessment values should be reduced to conform with the trend of the times.

Most of the appeals were approved by the court on Monday and some general reductions were made when it was pointed out that some blocks of trees had not reached production stage.

There were practically no changes in valuations of any building in the municipality.

More complete details of the individual appeals will be given in next week's issue of The Review.

Shorter Deer Season Advocated by Sports Clubs of South Zone

Every fish and game club from Kelowna south to Osoyoos and including Keremeos in the Similkameen was represented at a recent sportsmen's gathering at Penticton to discuss resolutions to be presented to the annual interior convention to be held in May.

By forming a South Okanagan zone, a united voice from this area will be heard at the interior convention.

Throughout the discussion, it was evident that the club representatives were unanimous in their belief that conservation of fish and game life in this province is essential if this sport is to continue as a major attraction.

This was the second such zone meeting, presided over by Avery King, of Penticton, as chairman. The resolutions which had been passed by the previous zone session, were again submitted, with the clubs' recommendations taken into consideration. Nearly all the first resolutions had been given the clubs' okay mark.

Two Months Only

Chief discussion centered on the deer season, and finally the Summerland resolution calling for a season from September 15 to November 15, with a bag of two bucks, was adopted by the clubs. This is two weeks shorter than last year's season, which in turn was two weeks shorter than 1946.

Penticton's resolution that only forked horns be shot and that the "box-car" type seal be re-instated, also met with the meeting's approval.

The clubs did not favor a limit of one sheep or goat and defeated such a move. They did ask that "suitable areas be restocked with sheep."

SANDS ELECTED HEAD OF TLC

KELOWNA—W. H. Sands, of Kelowna, was re-elected president of the Okanagan District Trades and Labor Council (TLC) at the annual meeting held in Kelowna.

Other officers are W. H. Fleck, Kelowna, vice-president; Mrs. M. M. Atwood, Vernon, secretary-treasurer; S. T. Jessop, Kelowna, warden; Mrs. F. Tyhurst, Penticton, statistician.

Chairmen of the standing committees are: Organization, R. A. Brown, Osoyoos; grievance, S. Pockington, Penticton; press, J. H. Osoyoos; various, W. H. Barroch, Kelowna.

Unemployment insurance, price control, veterans' pensions, old age pensions, industrial conciliation and arbitration Act 1947 (bill 39), and workmen's compensation, were among the subjects taken up by the council during the past year. The report also showed the council has reached an affiliated membership of over 3,500 members drawn from the United Brotherhood of Carpenters (AFL) Lumber and Sawmill Workers (AFL) International Brotherhood of Electrical Workers (AFL) and Federation of Fruit and Vegetable Worker's Unions (TLC).

CNR WILL HAVE TUG AND BARGE BUILT AT COAST

Yarrows Limited, Esquimalt, have received the contract for construction of a new tug for the CNR. A Vancouver firm, West Coast Shipbuilders Limited, will construct the barge. Both vessels will be shipped by rail to Kelowna and assembled.

The tug will be 88 feet, 6 inches long, have a beam of 22 feet and draft of 8 feet, and be powered with a diesel engine capable of developing 600 horsepower. A feature of this vessel will be a raised wheelhouse to allow for greater visibility and facility of operation in handling a large barge.

The barge, of steel construction, and with capacity for ten freight cars, will be 240 feet long with a 38-foot beam.

There was no move to change the elk season or bag limits, but Penticton carried a proposal that the game commission consider seriously the rapidly depleting number of moose in B.C., and act accordingly to conserve this stock.

Non-Residents

Dealing with non-residents shooting in B.C., the meeting wished the game commission to increase substantially the annual licence and trophy fees, limit them to one buck deer, and to put through a regulation that the number of the guide's licence should be attached to the non-resident's licence. The sportsmen also wished non-residents' guns sealed at the border, with the guides being made responsible for unsealing and sealing them.

Another resolution also considered that there be more restrictions on the licencing of guides. Summerland proposed that there be an increase in bounties, especially on cougar and coyotes and the clubs agreed.

Another Summerland plan asks that the B.C. government allow the game department all the revenues it receives each year from fish and game licences, etc., to be used for the propagation and conservation of fish and game.

Two Oliver resolutions seek control of aircraft used for fishing and hunting, and a ban on small-size calibres for big game.

Need More Pheasants

The pheasant season being sought by the game clubs would start on the same day as the coast, with a daily bag limit of two birds, 12 to a season. A recommendation was also passed that a heavy restocking plan be introduced to care for the influx of coast hunters when the Hope-Princeton road is opened.

With the exception of the Oliver area and the Similkameen, which would be closed, the blue grouse season recommendation would have the season open on the same day as that for deer, with three Sundays to be included.

Willow and Franklin grouse should remain closed, the meeting agreed.

Something new for the duck season has been proposed, that of a split season, the first part to open October 14 for three weeks and the second open season to end December 14. If Dominion authorities fail to recognize this suggestion, the South Okanagan game clubs wish to have a straight two month season, ending December 21.

No change was recommended for the quail season.

What Doggone Monkey Business Now?

PANDORA, Philadelphia Zoo's 8-month-old chimpanzee, is about to plant a kiss on one of the guests at her special Christmas party. The party was complete with Christmas tree, gifts and chimney, much to the pleasant bewilderment of Pandora.

Proceeds From Day Of Prayer Go To Indian Hospital

The first Friday of Lent has been, for a number of years, set aside by the women's organizations of the churches as the "Women's World Day of Prayer." This year the meeting will be held in Summerland at St. Andrew's United church on Friday, February 13, with Mrs. S. A. MacDonald, presiding.

A unique aspect of this day so far as Summerland is concerned, is that the contribution received on that day is set aside for the upkeep of a hospital bed in Lucknow, India.

Twenty-five years or more ago

the women of Summerland undertook to endow a bed in the Protestant hospital at Lucknow, and that undertaking has become a charge upon all the protestant churches here. While the contributions on this day in other communities go into a common educational fund, the Summerland contribution is earmarked for the support of "Summerland Zennanah Bed" in faraway Lucknow.

Significant of the changing economic system is the fact that this charity costs only \$20 a year at its inception, whereas it now costs \$75 yearly.

Industry Looks to Marshall Plan As Salvation When Faced With 10 Million Box Apple Crop

In 1948, interior tree fruit growers will likely be faced with a ten million box apple crop, the biggest in its history and without the British market it will be difficult to sell this huge tonnage, George E. Brown, secretary of B.C. Tree Fruits Ltd. warned the big attendance of growers at the Legion Hall last Thursday afternoon. Mr. Brown was one of the growers' Chautauqua speakers.

If the Marshall aid to Europe plan can be implemented it will mean the salvation of the B.C. apple deal this year, Mr. Brown considered, as new markets would be opened for both dried and fresh fruit.

He also considered that the severe winter being experienced in New York state may have a tremendous effect on the U.S. apple production, as there are eighteen million boxes of apples produced in that state alone. The sub-zero temperatures will likely affect the apple production there, giving the B.C. growers an opportunity to sell more across the line.

Speaking of internal workings, Mr. Brown reminded the Summerland growers that the "growers business is run by the growers themselves, and if there is some feature you think can be bettered you have the means to do it.

"B.C. Tree Fruits Ltd. does not live in an ivory tower sufficient to itself alone, but takes its instructions from the growers.

"It should be the goal of all growers to remedy defects and to strengthen the protection which they have devised for both good and less good times.

"The choice is yours, of course, but it would be well to ponder the value of the progress you have achieved against the chaos which can be studied in similar industries elsewhere," he continued.

Mr. Brown also did a spot of predicting in the course of his address and he estimated the apple crop will be ten million boxes, peaches more than two million crates and prunes over a million boxes.

Cherries were named at 400,000 crates and Mr. Brown spoke of the deprivations of the Little Cherry virus, which is creating so much havoc in the Kootenay fruit growing districts.

New Theatre for Kelowna Planned

KELOWNA—Construction of a second theatre in Kelowna by Famous Players Corporation will get underway within the next two months, cost of which will exceed \$200,000, it is revealed by Will Harper, manager of the theatre company. Mr. Harper received a letter from F. H. Gow, B.C. manager of Famous Players, stating that tenders will be called within the near future, and that the theatre equipment will be the latest type and design obtainable.

The new theatre will be built a few hundred feet west of the Empress theatre on Bernard Avenue. Demolition of the building now occupied by four stores will probably get underway within the next month or six weeks. Both movie houses will be operated by Famous Players, only class "A" pictures being shown at the new cinema. The Empress theatre will cater only to "action" pictures, more suitable for children.

Paving of Hope Princeton Road Will Start Soon

In a drive to complete the Hope-Princeton highway by the end of this year, arrangements have been made with the contractors to put on double shifts when spring opens up, Hon. E. C. Carson, minister of public works, announced this week.

At the same time, Mr. Carson warned that it might not be possible to attain that objective unless the contractors are favored by good weather conditions in early spring and late autumn.

Non-delivery of equipment on order still hinders the government's entire works program of construction work and summer and winter maintenance, Mr. Carson indicates.

Of the total 153-mile length of the project, 120 miles of the highway have been completed, and arrangements will be made to start paving operations on the completed section as early as weather conditions will permit.

This is the time of year for the growers to save themselves money and trouble, he believed, in urging the growers to start a tree removal program, both from the standpoint of better varieties but also to allow more sunlight into the trees. A definite program of tree removal can mean that in three years the orchard can be back in full production with better grades and fruit.

It is possible to get down to ten percent cee grade, Mr. Brown contended and the object for 1948 is a reasonable quantity of this grade, not more than 20 to 30 percent.

It will not be possible to handle apples any smaller than 2 1/2 to 3 inches, that is, 180s and larger, and the 2 1/2-inch size may also have to be eliminated, he warned.

Pruning, he reminded his listeners, saves money by cutting thinning costs later.

In urging special attention to a proper spray schedule, Mr. Brown stated that 200,000 Bartlett's and 150,000 cases of prunes were lost last year because of infestations. The South American market may be lost to B.C. unless more attention is paid to scale, and mites are affecting both sizes and grade.

WOULD OPERATE SCHOOL TAX SAME AS POLL TAX

KELOWNA—E. W. Barton, secretary of School District No. 23, drew the attention of city fathers to a provision in the school act regarding the levying and collection of taxes from residents who are not owners of real property. The school tax, in addition to the poll tax, applies to everyone who has been in the city for over three months.

Mr. Barton said provision is made for levying the tax in order to relieve the burden on property owners. He also pointed out the tax is collected in rural areas, adding it would be desirable that a uniform plan be followed throughout the district.

"It can readily be seen that if, for example, the non-property-owning school teacher in a rural area is required to pay a school tax while his opposite number in the city is exempt, the former will feel that he is being discriminated against. The same holds good for other occupations.

"We scarcely need point out, if such a tax were levied and collected by your council, the city taxpayers and not the board of school trustees derives the benefit," he said.

The matter was referred to finance chairman J. J. Ladd for consideration. During discussion, however, City Clerk George Dunn said there may be difficulty in collecting the tax as the city has not the power to collect from employees the same as it has under the poll tax.

SALMON ARM SCHOOLS

SALMON ARM—An extensive construction program involving an expenditure of about \$500,000 is involved in the school consolidation plans for Salmon Arm School District No. 20, as approved by the provincial department of education.

TEACHERS SEEK RAISE

SALMON ARM—A cost-of-living bonus of \$200 a year is sought by the teachers of Salmon Arm School District No. 20.

TENDERS FOR BRIDGE

Two tenders for construction of superstructure for a new Hope-Princeton bridge over the Similkameen river at Princeton were opened this week by the public works department at Victoria this week. The contract is for construction of a 250-foot steel span, with 24-foot roadway and four-foot sidewalk. Bids were put in by Western Bridge and Steel Fabricators Limited, \$112,525 and Dominion Bridge Company Limited, \$114,454.

SATIN-GLO

Enamel
Brighten up kitchen furniture and woodwork with this high quality, quick drying, hard surface, high gloss finish.

Satin Finish
Soft, lustrous semi-gloss finish for walls and woodwork. Redecorate the Satin-Glo way—you'll be pleased with the results.

Varnish
Freshen natural woodwork and add a new sheen to your floors with this clear, high gloss Varnish made to withstand hard wear.

This Satin-Glo trio will do every interior job you may have, and do it well. Satin-Glo is a Bopco product.

"She sure hauls them!"

WHEN BILL and his crew go into the woods now, they get timber out twice as fast as they used to. That new tractor Bill bought really handles those logs!

Back in town, the saw-mill is running full blast, taking all Bill's crew can deliver . . . And this extra activity, this extra income spreading around through the community is largely due to the fact that Bill went to see his bank manager and arranged a loan to buy the tractor . . .

In lumbering towns and rural hamlets, in big seaports and tiny fishing villages, bank credit — money at work — helps to increase business activity in whole communities. Your bank manager's job is to help men and women grasp opportunities and to put the bank's facilities to work for you and your neighbours.

THIS IS ONE INSTANCE OF how Canada's 3,200 branch banks play their part in the daily life and work of Canadians.

Spray Costs Reduced This Year Growers Are Told At Well-attended Chautauqua

Spray costs should be reduced this year, as there are not so many materials recommended as in past year, R. P. Murray, district agriculturist at Pentiction declared to the annual growers' Chautauqua in the Legion hall on Thursday evening.

Best attendance ever recorded here for these meetings heard the list of speakers give advice on a number of topics relating to orchard and packing house practices. More than one hundred growers were present at the afternoon and again at the evening sessions. Mr. Murray, always a popular speaker, related the recommendations of the 1948 spray calendar and first of all advocated the use of dormant spray to prevent scale. If this scale is not prevented, then B.C. is in danger of losing its few remaining export markets.

Should Be Careful

"If you are using oil, do not spray in the wind, as too heavy a deposit of oil is not recommended on peaches or apricots," he stated, also warning the orchardists against breathing any of the spray dusts.

"Don't take any chances with these new high-powered insecticides," he declared.

March 10 was named as a good round date, for the completion of

the dormant spray. For powdery mildew, three sprays were recommended by the speaker commencing when the leaves are just beginning to shape.

Dealing with summer sprays, Mr. Murray was hopeful that three first brood sprays would eliminate the codling moth almost entirely, if properly applied. These sprays should be completed by mid-June.

If this is possible a great saving in costs can be realized and with fewer sprays thinning can be accomplished at an earlier date and that is an important orchard practice, he declared.

"Mites are the real headache now but we have a good miticide available if properly applied," he continued, referring to Mono DNP, which is a "strictly Okanagan product."

"Don't breathe it or touch it at all and wear a mask when you weigh it out," he warned.

Mr. Murray explained that this miticide is unknown across the line, whereas there are a number of sprays recommended in Washington which are not recommended here because there has been no opportunity to test them properly here.

Spray coats are an important item in the growers' cost of production, the speaker concluded, declaring that some Pentiction orchardists estimated their spray charges at \$125 per acre last year.

Plant Diseases

Plant diseases formed the subject of an interesting discussion led by Dr. H. R. McLarty, plant pathology lab chieftain, who also showed the growers a number of colored slides to impress his listeners with diseases prevalent in the district.

First on Dr. McLarty's list was fire blight and he advocated cutting out all over-wintering cankers before pruning. He did not advise summer cutting but if the blight appears after blossoming, then he advocated the use of a chemical.

Boron deficiency and its control made Dr. McLarty famous throughout the horticultural world of this continent and growers in the Okanagan thought they had this trouble under control with an application of thirty pounds boric acid every three years.

But all over the valley trees are showing die-back despite the application every three years, so Dr. McLarty is advocating an open-type soil, that boric acid be applied at the rate of 15 pounds per acre every year.

If the soil is reasonably good, then Dr. McLarty still recommended the dose every three years. For a time Dr. McLarty dealt with virus diseases, which were covered quite fully by Dr. Maurice Welsh at the BCFA convention and reported in The Review last month.

Dr. James Marshall, another popular speaker, gave the growers a series of slides on spray equipment, noting the various devices being used now and showing diagrams of prospective types of sprayers.

Other speakers on the program were Ed Britton and Dr. D. V. Fisher of the experimental station and John Smith, provincial agriculturist at Oliver.

PROPOSES COSTLY WALK

Foreman E. Kercher gave the municipal council an inkling of his proposed sidewalk, on which he is estimating, from H. W. Brown's property down the hill to Nesbitt & Washington's garage. His proposal calls for a sidewalk paralleling the road on the north side. To do this, an expensive fill will be necessary and an easement obtained from John Dunn, owner of the former C. C. Wharton orchard, as the right-of-way is too narrow at this juncture. No definite steps have been taken to implement the plan.

SCENES FROM FISH LAKE CAMP

Last summer's camp at Fish Lake was a big success and an affair which Boy Scouts during their Boy Scout Week, February 15 to 22, can look back on with fond memories. Boy Scouts are taught to be inventive and the above picture indicates that they had a busy time.

Legal Department

Continued from page 1
Heve it is on firm ground in its contentions regarding the tree assessment, The Review is informed.

There has been some comment passed that this legal advice claims that Pentiction municipality and the rural district is at fault in not including fruit trees in its assessment rolls.

Summerland council has chosen to "mark time" until the tax-commission decisions are announced.

Mr. W. A. C. Bennett, M.L.A., when informed by The Review on Wednesday of Mr. Straith's letter, expressed surprise at the attorney-general's department ruling. He stated that this is at variance to the ruling given him by an official of the finance department last spring.

COUNCIL ROAD

Continued from Page 1
Yards of material to move. This was to a depth of one foot, which the local council deemed too much depth in comparison to the type of road to be constructed.

It was pointed out that the council does not intend to establish a first-class highway through Garnet Valley but is contemplating the rock point removal mainly from a safety angle.

The cost per cubic yard laid down by the Pentiction firm is \$2.35 estimating on a foot depth.

Only Three Corners
Councillor Wilson is to interview R. A. Barton this week and obtain revised estimates on moving only three or four inches below the present road level.

As it would cost more than \$5,000 to dispose of the five corners, council decided that not more than three could be accomplished this year.

This discussion also evoked the statement from Councillor Atkinson that the road maintenance appropriation should only be \$6,000 this year. When coupled with the \$9,200 which will be raised to defray this year's portion of the by-laws' repayment, Councillor Atkinson considered this to be ample for this year's estimates.

"I understand what you mean but last year maintenance cost \$12,000 besides the hard surfacing program," declared Councillor Wilson.

"But it was only \$5,400 in 1944," interceded Councillor Bentley.

"Yes, but did you maintain the roads for that amount?" countered Councillor Wilson. "I say you didn't maintain them."

Further discussion was left over to consideration of estimates later in the season.

Kelowna Volleyball Teams Win Right For Coast Trip

Kelowna teams walked away with the right to travel to Vancouver to compete in the B.C. high school finals when they defeated two Summerland teams at the local school gym on Tuesday evening.

The two boys' squads were well matched and it was a nip and tuck struggle throughout, the Orchard City lads gaining a victory in straight matches, 17-15 and 15-9.

Keith McLean, John Vandenberg, Wally Day, Les Howard, Bill McNutt and Jack Dunham made up the Summerland team which put up such a strong game against the visiting volleyball players.

Summerland girls lost both games by a wider margin than in the boys' contests. Local girls were Barbara Motters, Joan Howard, Mary Ward, Beverley Fleming, Noreen Anderberg, Laura Mott, Ruth Kluk and Barbara Munn.

This Saturday afternoon, the South Okanagan school volleyball championships will be decided with Pentiction and Oliver teams, both boys and girls, competing against the strong Summerland contenders. These games start at one o'clock Saturday afternoon.

Two Strong Cage Teams In Play-offs

Two strong young teams have been entered by the Summerland Basketball club in the interior play-offs. These two teams will contest interior honors in the junior and intermediate B classes.

Dates for the interior play-offs have been set by Andrew Bennie and Jack Hooper, president and secretary of the interior association and call for completion of the first round by February 28.

In both cases, Summerland teams play Pentiction and arrangements are underway to conclude this series by the required dates. A flip of the coin will decide which club has the final games of the home and home, total-point series.

In the senior B men's competition, Vernon plays Kelowna in the first round, and the winner competes against Kamloops, last year's champions. In the other bracket, Pentiction and Oliver play-off to enter the finals.

Only three teams are entered in the intermediate A play-offs, Kelowna and Pentiction meeting for the right to play Kamloops in the finals.

The intermediate B competition has the largest entry list, with three Kelowna and one Rutland teams meeting in the first round. At the top of the bracket, Kamloops and Vernon meet, while Summerland plays Pentiction and Oliver meets Osoyoos.

Two Kelowna teams play off in the first round of the junior boys, while Summerland and Pentiction meet in the lower bracket. The winners of this series will meet Kamloops in the final.

Only girls' teams entered this year, are two intermediate B girls' squads from Vernon and Kelowna.

Because of a revision of birthday deadlines, a rearrangement of teams was made by the Summerland club and instead of entering two intermediate and one junior teams only two teams are being entered.

The players on these squads follow:

Int B: David Turnbull, Ernie Jomori, W. Keith McLean, Gilbert F. Jacobs, Gerald Adams, Don W. Nesbitt, Alan Dinsdale, Raymond W. Moore, Lionel Guidi, James Hack, Jack Dunham.

Juniors: Edward Kita, Harry Ruppel, Murray R. Elliott, Fred Kato, Wallace A. Day, Dennis S. Hack, Donald Cristante, Leighton Nesbitt, Daryl Weitzel, Ronald MacRae, Norman Holmes, Sandy Jomori, Basil Thornthwaite and W. Edwin Fleming.

LICENCE PLATES FOR 1948 CARS BEING ISSUED

All car, chauffeurs and drivers licences for 1948 are now being issued at the B.C. Police office by Constable Terence Thorsteinson, but he hopes that arrangements will be made by the first of the week for such licences to be issued by Lorne Perry, as has been the case for the past two years.

It was part of the agreement between the council and the B.C. Police last year that the government would turn over the issuing of licences to some person independent of the police officer and allow him more freedom to carry on actual police work.

Arrangements are being made with the government agent in Pentiction for the necessary permission for Mr. Perry to carry on this work until March.

All licence plates must be affixed to motor vehicles by March 1 to escape penalty, while new registrations may be issued with licences after February 23, Constable Thorsteinson reports.

New 1948 plates are white numbers on a green background. All B.C. government cars are being issued with white plates containing red numbers.

For the first time since 1941 vehicles will be required to carry two licence plates this year.

AOTS CONVENTION

VANCOUVER—The Central AOTS Council has accepted the invitation of the Vancouver District Council of AOTS clubs to hold its annual convention in Vancouver on May 9, 10 and 11, 1948. The convention sessions will be held in Canadian Memorial church. The banquet will be held in the ballroom of the Hotel Vancouver.

Two Councillors May Go To Enderby

Councillors Net Bentley and Harvey Wilson may attend the quarterly meeting of the Okanagan Municipal Assn to be held at Enderby on Thursday, Feb. 19, it was stated at last Tuesday's council meeting. Other members of the council will not be able to attend and these two councillors tentatively agreed to represent Summerland. Councillor Bentley informed Reeve Johnston that he should attend to hear valley municipal matters discussed, but the latter stated he could not leave his business for that length of time.

CHIMNEY STACK SAFE

That the Clough Bakery chimney stack is in good shape, but a spark arrester and a cover on the sawdust hopper should be installed was the report of Building Inspector Roy F. Angus to the council on Tuesday. He had been asked to investigate this chimney following a fire alarm turned in early in January when sparks were seen pouring out of the chimney.

Sparks

Says...

THE FIGHT TO SUCCEED

Discovery after discovery and invention after invention has been heralded as revolutionary, yet looking back over the years each appears but a step, some of course more important than others, in the evolution of a miraculous system of communication—the radio.

The world and the heavens have been the laboratory of radio as men of many nations have experimented on land and sea, deserts and mountains—to learn the secrets of nature in which wireless has been trapped.

The most significant developments have been extracted from seemingly remote clues which scientific minds have wrested from nature. These calculations started the old order of things crumbling as an inquisitive mind reached into the emptiness of incommunicable space to demonstrate to those of a more practical turn of mind the pattern of the instruments needed to weave a network of unseen waves around the entire globe!

DID YOU KNOW?

SISTER SPICES — MACE AND NUTMEG

Mace and nutmeg are closely associated, coming as they do from the same beautiful tropical tree in both the East and West Indies.

When the aril, or mace of the fruit is removed we come to the shell of the nut, which is larger and harder than a filbert. If broken when gathered, the nut, which fits closely inside, would be damaged.

The unbroken nut is therefore dried in the sun and afterwards by fire heat, causing the kernel to shrink up until it rattles when the shell is shaken. The shell is then broken and the nut extracted.

The nuts are soaked in seawater and lime several times and dried, or they may be coated with lime. This preserves the substance and flavor of the nut. The nutmegs are then ready to be packed and sent to market.

Nutmeg trees usually flower for the first time about the seventh year, but if this can be postponed until the ninth year, the tree is much more valuable with its productive life augmented.

Your baker uses a good many spices daily—see and enjoy his special buns and cakes.

Annual Meeting Of Red Cross At Coast Next Month

Red Cross representatives from all over British Columbia will attend the twenty-ninth annual meeting of the B.C. division of the Canadian Red Cross society in Vancouver this month. The two-day session will open in the ballroom of the Hotel Vancouver at 10:30 a.m., February 19th and continue through to the afternoon of February 20th.

His Honor, Lieut. Governor C. A. Banks, C.M.G., honorary president of the Red Cross in B.C. will open proceedings and representatives from the three services will take part in the initial proceedings.

Guest speaker will be George Derby, O.B.E., western administrator for the DVA. Mr. Derby was B.C. Red Cross president for the first three and a half years of the war and has since carried on an active interest in the society.

Reports of all B.C. Red Cross committees will be presented by their chairmen and a new film on activities of the Canadian Red Cross will be shown. There are now 81 branches and seven committees in this province and it is expected that delegates from all over the province will attend the Vancouver meeting. Election of officers will conclude the session.

Mrs. R. F. Angus is the Summerland delegate to this annual Red Cross convention.

Research Council Enlarges Facilities For Busy Year

Enlarged laboratories, new equipment, a larger and more diversified staff and an increased knowledge of the problems of British Columbia industry will enable the British Columbia Research Council to provide a still more complete industrial research service during 1948.

The establishment of the division of applied biology under Dr. Paul C. Trussell was one of the most important additions to the council's services during the year. The division of engineering has also expanded its facilities since the appointment of Mr. Ronald W. Klinck as head of the division.

Further additions to the staff, together with reorganization of pilot mill equipment, have enabled resumption of ore dressing research for the mining industry. The council's experimental foundry is now ready for operation. Extensive additions of new equipment have been made, particularly in the chemical, biological and physical metallurgy laboratories.

The council is now prepared to handle problems in the fields of industrial chemistry, physics, applied biology, mining, reduction metallurgy, the foundry and other metal trades, and the major branches of engineering.

The increased importance of research in industrial policy, how-

ever, is best demonstrated by the fifty per cent increase in the number of projects initiated. The enquiries handled by the council's information service increased by a similar percentage over the 1946 figure, to more than four hundred.

PUBLIC HEALTH NURSE HAS BUSY TASK IN DISTRICT

Imagine having between 900 and 1,000 small throats to look down every school year! That is what the public health nurse has to face each September and January of the year.

The throats are only a small part of the nurse's work. Working under the Okanagan Valley Health Unit out of Kelowna, under the direction of Dr. A. N. Beattie, each nurse covers a wide field of rural districts. Miss Margaret Cameron, the local public health nurse, covers Summerland, Peachland and Westbank. In addition to the 900 and more small school charges, she also supervises home nursing of tuberculosis patients, directs baby clinics, and checks those homes where absenteeism might mean the outbreak of a contagious disease.

One of the important preventions against contagious diseases is inoculation and vaccination. Most homes are familiar with young Johnny or Mary arriving home from school with a sore arm from "being punched." Usually, neither Johnny or Mary has any idea what the "punch" was, so here is a short resume of the various courses.

In the fall term the children were inoculated against scarlet fever. This meant each child who had not been recorded as previously done had a course of five inoculations.

This term the school children are being protected against diphtheria, and for children seven years and under, whooping cough in the same course. Each child will receive three "shots." Reinforcement doses of diphtheria serum are given within four years, and consist of one dose per child. By March the public health nurse hopes to have all vaccinations, both original and reinforcement doses given.

The work given to the public by the Okanagan Valley Health Unit in prevention of epidemics of contagious diseases alone is greatly appreciated by many. The teachers co-operate in "screening" for special examination by the nurse those children who appear not up to the mark, health-wise.

Name Successor For Late J. West

KELOWNA—Ken Johnson, of Calgary, has been appointed acting public relations officer of B.C. Tree Fruits Ltd., succeeding the late Jack West, who died December 27.

Mr. Johnson was formerly with the Canadian Fruit Distributors in Calgary, and was employed by B.C. Tree Fruits for about six months in 1944.

Mr. Johnson will be associated with Reg Dag of the Canadian Advertising Agency, Vancouver.

Mr. and Mrs. M. K. Munro left trip to Seattle and other coast points. They expect to return this on Friday morning for a motor week-end.

Competition From Citrus Fruit Imports Forced Prices Down On Apple Juices Here

On behalf of the directors, A. G. DesBrisay, president of B.C. Fruit Processors Ltd. and a former B.C. FGA president, gave a comprehensive outline last week to the grower's convention, of the activities of the fruit processing plants owned by the growers.

Following Mr. DesBrisay's report, W. M. Vance, manager and R. P. Walrod, production manager, told of some of the difficulties encountered in marketing the products of these processing plants.

Associated with Mr. DesBrisay on this committee are L. G. Butler, East Kelowna, vice-president; W. R. Powell, Summerland, C. C. Macdonald, Penticton, W. T. Cameron, Vernon, L. Deighton, Oliver and G. A. Barrat, Kelowna, directors.

"Exceptionally heavy imports of citrus fruits, at lower than pre-war prices, adversely affected the sale of apple juice to the extent that a considerable portion of last season's pack had to be carried over by the processors in eastern Canada, and ourselves," explained Mr. DesBrisay.

Vitaminized Juice
"In view of the marketing situation, plus our carry-over of about 60,000 cartons, we could not safely do other than reduce our pack to a point in harmony with the requirements of the market. Our pack of vitaminized juice in 1947 totals 60,082 cartons.

Apple Juice
"This is a blend of apple juice and Montserrat lime juice. While this juice is more suitable as a hot weather drink, we are enjoying a moderate demand at the present time, and we are hopeful that we will be able to establish this product as far east as Montreal. In this way we will broaden the market for our juice in an area that we are unable to reach with pure apple juice on account of higher transportation costs as compared to eastern Canada. Our pack of apple juice amounts to 66,545 cartons, making a total juice pack of 126,627 cartons.

Dehydrated Apples
"One year ago the price of choice quality dehydrated apples, in the western United States, was 41c per pound, while our Canadian ceiling was 20c per pound. Early last spring the United States government withdrew its support to the dried apple deal, and prices declined until a low of 11c per pound was reached. The present price is now from 14c to 15c per pound. This made it necessary for us to reduce our price from 20c and 16c per pound in order to hold our market. Demand has been reasonably good, and we do not anticipate any difficulty in disposing of all that we can produce, which will be over 1,000,000 pounds.

Apple Juice Concentrate
"The rapid evaporator, which we installed a year ago, proved its worth during the present season when we were forced to handle a large percentage of small-sized apples, which would have been worthless for any other purpose.

"We produced a total of 41,960 gallons. This is a very excellent product and is reputed to be of superior quality as compared to that made by eastern processors. So far we have been able to obtain a small premium on all sales.

Vinegar
"We were unable to obtain gallon glass jars in time for the vinegar season and, therefore, our sales have fallen below average and production is also down. We are not greatly concerned about this as we are now able to make other, more profitable use of the juice. Our total production of vinegar was 21,000 gallons.

Soft Fruit Nectars
"We were unable to obtain the necessary equipment until too late for commercial production. Certain pieces of this equipment did not function as intended and had to be rebuilt. We will pack sufficient of this line to test the market for consumer acceptance this coming season.

Apple Butter
"This is a line that can be produced during the off-season and we have set aside sufficient apple pulp and apple juice concentrate to enable us to process a small commercial pack. It is reasonable to expect apple butter will become an established line with us and that we will be able to increase the pack in future seasons.

Apple Jelly
"This is a new product with which we are experimenting and which we hope to establish as one of our major products. We are holding sufficient apple juice concentrate for the production of a pack sufficient to fully test the market—particularly the bakery trade. This is another line that can be produced during the off-season.

1946 Crop
"Pool prices—After paying all transportation costs on shipments from the whole area, Kamloops to Creston, also payment at pool price and the cost of hauling over 2,000 tons that had to be dumped, our pool price was \$19.02 per ton for McIntosh, Delicious, and earlier varieties, and \$20.02 per ton for the later group. We deducted \$4.35 per ton from the above prices to cover the annual payment on the capital loan to the Bank of Montreal, plus an amount for necessary plant development. Certificates of indebtedness covering this deduction of \$4.35 per ton, have been issued to all interested growers. The balance of \$14.67 per ton on Group 1, and \$15.67 per ton on Group 2, was paid by cheque to the packing houses.

1947 Pool
"It is impossible to forecast at this time what the final pool price will be. We can tell you that labor costs are up as compared to last year. Cans, cartons, and boxes are all costing more, while the price of apple juice is down 30c per carton and dehydrated apples are selling for 4c per pound less. The decline in price of these two commodities represents a reduction in our revenue of about \$9.00 per green ton of fruit.

"In addition to this, the quality of the apples which we received was far below that which was delivered last season. This year's receipts were very heavy to small sizes and deformed apples. Due to the new sprays, which largely eliminated worm stings, we have had difficulty in selecting enough large sizes to supply peelers for our dehydrating plant. Therefore, we were faced with either dumping a percentage of these small apples or turning them into concentrate where they could be held, if necessary, for future use. We are hopeful that improved plant performance and better techniques will, to some extent, off-set these adverse factors.

"We have used a total of 11,953 tons of processing apples in our own plants. 1,333 tons have been sold to Okanagan Fruit Juices, Limited, 250 tons to other firms, and we still have about 600 tons to process—making a total of 14,236 tons."

Building Permits Down Last Month

Three new dwellings, at a building value of only \$1,950 were commenced in January, 1948. R. F. Angus' building permit report for last month reveals. Only eight permits were issued with a total value of \$4,360. In January, 1947, there were 11 permits for \$19,450.

One commercial building permit was issued for \$1,000 value and four alterations and additions were valued at \$1,680.

NAME UBC SENATE MEMBERS MAY 26
Members of the convocation of the University of B.C. will elect a chancellor and 15 members of the Senate on Wednesday, May 26, the UBC president's office has announced. Dr. R. C. Palmer has been nominated by the UBC Alumni Assn of Summerland as a member of this senate. Nomination closing date is March 3.

Boys in Seventy Countries Learn to Help Others Through Teachings of Scout Movement

When 35 Canadian Boy Scouts attended the Sixth World Jamboree of Peace in France in 1947 they learned that Scouting really is a world brotherhood—they became acquainted with Scouts from 70 countries.

Canadian Scouts numbering 100,000 and Guides totalling 65,000 are included in the world membership total of the Scout and Guide movements, which now exceed the seven million figure.

Canada has a voice in world Scouting affairs in that Mr. Jackson Dodds, C.B.E., of Montreal, Dominion Scout Commissioner, is a member of the International Scout committee. He was elected to that office while representing Canada at the eleventh biennial Scout conference in France in August, 1947.

Mrs. John S. Corbett of Montreal, chief commissioner of Canada's Girl Guides, is chairman of the World Committee of the World Association of Girl Guides and Girl Scouts.

Canadian Guides and Scouts keep in touch with their fellow members throughout the world by means of correspondence. Many groups are linked up by mail with groups in other countries. Special badges encourage Guides and Scouts to develop a broad outlook through correspondence and studies on an international scale.

By exchanging visits with Guides and Scouts of other countries, Canadian members are constantly increasing their knowledge of how other people live. Naturally the bulk of such exchanges is between Canadian and United States groups, but some visits are made farther afield and plans under development provide for an extension of these activities.

There are three age groups in Scouting and Guiding in Canada as throughout the world. In Scouting there are the Wolf Cubs, age 8 to 12; the Boy Scouts, 12 to 17; and Rover Scouts, 17 to 22. In the Girl Guide movement there are the Brownies (from 7 to 11 years); Girl Guides, (10 to 14 or 15 years); and Rangers (15 to 18 years).

Their training is progressive through the three age groups by means of a system of tests supplemented by a variety of proficiency badges giving boys and girls an insight into various trades and professions.

The Scout and Guide training develops character, health and handicraft in the individual and citizenship through employment of this efficiency in service.

Some 8,500 Boy Scout leaders and 4,000 Girl Guides give voluntarily of their time in training Canada's 100,000 Boy Scouts and 65,000 Girl Guides.

Membership in Canada's Scouts

and Guides is open to all boys and girls within the age groups mentioned—there are no barriers of color, class or creed.

Under principles laid down by Lord Baden-Powell, founder of both movements, Canadian Scouts and Guides subscribe to the same laws and promise as do Scouts and Guides throughout the world. The laws in brief are:

"Trusty, Loyal and Helpful, Friendly, Courteous and Kind, Obedient, Smiling, and Thrifty, Pure as the rustling wind."

On a basis of personal honor every Canadian Scout and Guide takes this promise:

"To do my Duty to God and the King, To Help Other People at all times, And to Obey the Scout (or Guide) Law."

In Canada the Boy Scout movement proudly claims His Excellency Field Marshal the Right Hon. Viscount Alexander of Tunis, K.G., as Chief Scout, while Her Excellency Lady Alexander is honorary president of the Girl Guide Council of Canada.

The Canadian General Council of the Boy Scouts Association is the Dominion authority directing the activities of that movement, with headquarters in Ottawa. The Canadian Council, Girl Guides Association serves in a similar capacity for the girls' organization and has its headquarters in Toronto. There is close co-operation between the two movements.

Rev. Canon H. J. Cody, C.M.G., of Toronto is president of the Boy Scout Council for Canada, with Mr. Jackson Dodds, C.B.E., of Montreal as Dominion commissioner. Major-General D. C. Spry, C.B.E., D.S.O., is chief executive commissioner directing Canadian Scouting from Dominion headquarters.

Mrs. John S. Corbett of Montreal is chief commissioner of Canada's Girl Guides and presides at all sessions of the Canadian Council of the Girl Guides Association. Mrs. D. E. S. Wishart of Toronto is deputy chief commissioner, while Miss S. Dorothy Hooper is executive secretary in charge of Dominion headquarters.

In each province throughout Canada Boy Scout and Girl Guide councils administer the associations' affairs there and have under their direction a number of District Councils centred in the larger areas.

band and Donny Blacklock won the highest number of points at the Camporee Scout games. The troop also had a camp at Fish Lake during the summer holidays and during the rest of the year several hikes were made to more local points.

At present the Troop consists of 34 boys. Meetings are held every Friday in the school gym. Work is well under way on a number of badges and every week sees boys ready to take tests for badges. The Troop is planning to attend the International Camporee again this year, to be held at Okanagan Falls May 22, 23 and 24 and in addition there will be the usual quota of hikes, parties, etc.

Mrs. E. Gillespie entertained the ladies of the LOBA and their husbands in her home on February 9, when some forty guests gathered for an enjoyable social evening.

After Mr. Tait, the following were Scoutmasters or assistants, Mr. O. F. Zimmerman, Captain Creese, Jimmy Strother, Earl Wilson and Ceell Cope. Then followed a period of inactivity.

In March 1938 under the sponsorship of the local branch of the Canadian Legion, and with Scoutmaster J. Flamank and assistant Alex Williams, the Summerland Troop was reformed. When Mr. Flamank and Mr. Williams joined the services Mr. W. R. Boyd took over the Troop, followed by Gordon Blawett, who was subsequently joined by the present two assistants Don Fisher and Bill Barkwill. The present Troop leader is David Wright and the hard working secretary is Donny Blacklock.

Last year the troop made a very good showing in winning 80 badges and a Bushman's thong, one of the most difficult scouting awards to win. This was won by the then Troop Leader, Hughie McLarty. Twenty-five of the local boys attended the International Camporee, held last year at Ruby Washington a week-end camp of some 175 boys from both Canada and the U.S.A. There the Buffalo patrol, led by Les Miller with Scouts George Pohlmann, Fred Powell, Daryl Weltzel, Les Young

BOY SCOUT WEEK

FEBRUARY 15 TO 22

SCOUT LEADERS' WIVES

Hers is the sacrificial life Who is the Boy Scout leader's wife, For all alone at home she stays While he is tramping woodland ways, While she sits waiting for her squire He teaches boys the art of fire; And while the hours go dragging by He teaches boys how knots to tie, And while for him she burns a lamp He spends six weeks in camp.

The Boy Scout leader's wife must be As wise in many arts as he; Must learn to stretch a meal for four— At times for eight or nine or more— When friends of his drop into town; And never scold and never frown At midnight when he brings them back And asks for coffee and a snack; And never sigh, when on the phone He tells her she must dine alone.

The Boy Scout leader's wife must be As fond of boyhood as is he, And see the far-off future when Our country will have need of men, Good men, intelligent and true, And able men, its tasks to do, And honest men, and clean and strong, And men too big to stoop to wrong, Or never she's consent to be The wife of such an absentee.

Hoop Games With Oliver Again Split Bs Win 37-24

Summerland intermediates repeated their earlier triumph when they travelled to Oliver last week and defeated the Oliver Int. B team 37-24 in a fast-moving tilt. A combined Int. A-senior aggregation from Summerland lost to the Oliver seniors on the same card, 40-30.

The Summerland Chiefs jumped into an early 11-4 lead in the first quarter, due mainly to offensive efforts by Wally Day and Jack Dunham and never relinquished their hold on the game. At the half-way mark the Summerland lads led 18-6 and increased that lead to 28-12 by the three-quarter mark.

Day had a big night with fifteen markers, while Dunham's ten was next in line.

Big Bob Scriver had a good night, against Oliver in the senior scrap when he led the Summerland point-getters with nine markers. Other counters were equally divided amongst the visiting sharpshooters. Breen, McLeod and McIvor led the cantaloupe lads at the basket and were mainly responsible for the Oliver win.

The first half was quite even with Summerland out in front by a narrow one-point margin 15-14 but the third quarter spelled the Summerland lads' doom when Oliv-

er outscored them 13 to 5. The final quarter also showed Oliver with a slight advantage.

Teams were as follows: Summerland Chiefs: Dunham 10, Jacobs 3, Day 15, McLean 2, Kato, Jomori 2, Kita, Turnbull 2, Hack 3, Ruppel—37.

Oliver Int. B: McKerracher 5, McCrae 2, Eisenhut 8, Egerton, Taylor 4, Zelmer, Meagher, Shippin 4, Penner 1, MacIntosh—24.

Summerland: Walsh 6, Scriver 9, Rand 4, Moore 5, Guidi, Huva, Nesbitt 1, Vanderburgh 5, Dunham, McLean—30.

Oliver seniors: Breen 10, Norton, McLeod 8, Gibb 4, Becker 3, McIvor 8, Rossiter 5, Longmore 2, Collins—40.

WOLF CUB PACK STARTED LAST YEAR

During 1947 the Summerland AOTS formed a Wolf Cub pack which is now going very well under Cubmaster Rev. H. R. Whitmore and assistants Hughie McLarty and Denis Hack. This will further strengthen the Scout movement in Summerland. During 1948 it is hoped that one of the women's organizations will undertake to sponsor Girl Guides in Summerland.

Mr. J. W. Harris has returned to his home in Summerland after a visit to his son, Rev. T. E. Harris, in Langley Prairie.

Twelve New Scout Districts Formed in B. C. During 1947

The growth of Boy Scouting in British Columbia and the Yukon is reflected in the 1947 census of membership released by the British Columbia provincial council of the Boy Scouts Association.

Present membership, including Cubs, Scouts, Rovers, Cubmasters, Scoutmasters and other leaders, stands at 10,011 compared with 8,110 at the same time last year. R. Ken Jordan, executive commissioner at provincial headquarters in Vancouver, also announced that during the year 12 new Scout districts were formed throughout B.C. and the Yukon. The number of Boy Scout troops increased from 147 to 190, while Wolf Cub packs now number 216 as against 169 last year.

The new districts are Alberni Valley, Cranbrook, Fort George, Fraser-Burrard (Coquitlam, Port Ridge-Pitt Meadows, Mid-isle Ridge-Pitt Meadows, Mis-isle Ridge-Pitt Meadows, Mount Arrowsmith (Parksville, Qualicum area), Okanagan Boundary, Okanagan South, Prince Rupert and Shuswap Lake.

Districts showing greatest membership increases were Burnaby, increase of 70; Centre Okanagan, 112; North Okanagan, 63; Greater Vancouver, 634 and Greater Victoria with an increase of 106 members.

Groups sponsored by churches in the larger centres accounted for a considerable increase in the number of groups to bring the total to 241. This is an all-time high for British Columbia and the Yukon. In addition, groups were sponsored by the Canadian Legion, service clubs and parent-teacher associations, boards of trade and rod and gun clubs.

SCOUTING STARTED IN SUMMERLAND "WAY BACK" IN 1910

Except for one period, Scouting has been carried on in Summerland for 38 years. The 1st Summerland Troop was founded in 1910 by a committee of Rev. H. A. Solly, Mr. O. F. Zimmerman and Dr. F. W. Andrew with Mr. John Tait as Scoutmaster.

Since that time, under a succession of Scoutmasters and Assistant Scoutmasters, many boys have passed through the Troop. Quite a few of these boys have gone on to make outstanding careers for themselves but no matter what their subsequent careers, all have benefitted by being Scouts.

For many years the Scouts met in the Ellison hall in Peach Orchard Park. The College gym was also used as a meeting place at various times. Summer camps, a very important item to Scouts, were held at such places as Okanagan Falls, Osoyoos, Millers Point, Crescent Beach, Brents Lake and Fish Lake.

After Mr. Tait, the following were Scoutmasters or assistants, Mr. O. F. Zimmerman, Captain Creese, Jimmy Strother, Earl Wilson and Ceell Cope. Then followed a period of inactivity.

In March 1938 under the sponsorship of the local branch of the Canadian Legion, and with Scoutmaster J. Flamank and assistant Alex Williams, the Summerland Troop was reformed. When Mr. Flamank and Mr. Williams joined the services Mr. W. R. Boyd took over the Troop, followed by Gordon Blawett, who was subsequently joined by the present two assistants Don Fisher and Bill Barkwill. The present Troop leader is David Wright and the hard working secretary is Donny Blacklock.

THE WORLD'S FUTURE IS BEING DECIDED NOW

OUR TOMORROWS depend on what happens to the world's children TODAY. In ruined lands around the globe there are millions of them in misery — scrambling for shreds of food on garbage dumps, shivering in rags. On the continent of Europe, half the children born since the war are already dead of malnutrition. Those who survive — there and elsewhere — are desperately in need of food and clothing. They need schooling, too, for their neglected minds grow as sick as their withered bodies.

They are the future . . . if they are not saved, our world is lost!

Canadian Appeal for Children is now conducting its campaign to meet the challenge of these desperate and immediate needs. This is a campaign by the people of Canada, with a minimum objective of \$10,000,000 to provide food, clothing and school supplies for the children — safeguard the health of expectant and nursing mothers — in devastated lands around the world.

Wherever possible, all donations will be used for the purchase of Canadian goods, and the distribution of goods will be under the direction

of responsible United Nations operating agencies.

Your help is needed now. You sympathize. You want to give. But goodwill and good wishes are not enough. Since you may not be canvassed, don't let failure to act be on your conscience. Any BANK will accept your donation. Turn your sympathy and good wishes into a tangible contribution — go to your bank now and give.

FARMERS AND MEMBERS OF CO-OPERATIVES; consult your local organization as to the best way to make your contribution.

ST. STEPHEN'S REPORTS FINE YEAR IN 1947

The annual general meeting of St. Stephen's church was held in the parish hall on Wednesday evening, February 4. After an excellent dinner served by the evening branch of the Women's Auxiliary, the Rector, Canon F. V. Harrison thanked the officers and ladies for their help and co-operation, and reviewed the work of the past year.

Excellent reports were received from the Women's Auxiliary and its branches, and from the Sunday school. The financial report for 1947, presented by treasurer J. C. Barkwill, showed receipts at \$2,463.37, expenditures at \$2,499.04, leaving a bank balance of \$164.03.

The following officers were elected: Lay delegates, Mr. C. J. Huddleston, Mr. C. J. Clark, Mr. A. Calvert; substitutes, Mr. J. Y. Towgood, Mr. G. H. Donerty, Mr. H. Kindow, rector's warden, Mr. Theo Herman; people's warden, Mr. C. J. Huddleston; sidesmen, Mr. A. Calvert, Miss Cartwright, Mr. C. J. Clark, Mr. E. Corns, Dr. D. V. Fisher, Mr. W. C. W. Fosbery, Mr. H. Howis, Mr. C. Smythe, Mr. J. Y. Towgood; secretary, Mr. W. C. W. Fosbery; envelope secretary, Mr. A. Calvert, and auditor, Mr. J. Muirhead.

At a meeting of the Vestry, Mr. A. Calvert was appointed treasurer, replacing Mr. J. C. Barkwill, who is leaving for the Old Country.

Socially Speaking

Mr. and Mrs. A. Powrie held a reception at their Peachland home on Sunday evening, February 8, honoring their son and his bride, Mr. and Mrs. George Powrie, whose recent marriage took place in the United States. The bride is the former Mrs. Lin Anderson of Peachland and Summerland.

Mr. Jack Fraser of Summerland left on a visit to the coast on Monday, February 9.

Mr. A. W. Dinsdale left on Saturday evening for Haney, B.C., where he has been transferred by the Bank of Montreal.

On Wednesday, February 4, L.O.L. 2036 held a progressive five-hundred party at the homes of Mr. and Mrs. J. Burnell, Mr. and Mrs. William May, Mr. and Mrs. Ed Gould, Mr. and Mrs. W. Gould, Mr. and Mrs. Loyle Campbell, Mr. and Mrs. Les Gould, Mr. and Mrs. Fred Downs, and Mr. and Mrs. Harvey Waiton. The high prizes for the evening's play were won by Mr. Les Gould for the men, with a score of 2570, and by Mrs. Helen McLachlan for the ladies with a total of 2270. Mrs. Jean Long and Mr. Jack Lekei were presented with consolation prizes for low scores.

Mr. Len Mountford left for Vancouver on Monday, February 9.

Mrs. William Snow is expected to return home on Saturday, February 14, after two weeks' visit to Vancouver.

Mrs. H. J. Halvorsen and Mrs. G. C. Flamank left on Thursday, February 5, for their Vancouver homes, following their visit here to attend the funeral of their father, the late Mr. C. A. Walter.

On the evening before Miss Ann Gould's departure for Vancouver last Friday night, Mrs. H. Kuhar entertained a group of mutual friends by way of a farewell. Those invited were Mrs. George Clark, Mrs. Fred Dunsdon, Mrs. Lester Arkell, Mrs. Harry Peterson, and Miss Jean Gould. The ladies presented Miss Gould with a keepsake cigarette case.

Mr. and Mrs. J. M. Betuzzi entertained a large group of friends on the evening of February 7, honoring Mr. Betuzzi's brother, Mr. C. W. Betuzzi, on his birthday.

The Lakeside United Church Junior W.A. held its last meeting on February 5 at the home of Mrs. Louis Lemke, when the ladies made plans for the Valentine tea to be held at the church on Saturday, February 14. This group, which started only four years ago with a handful of members, now boasts an enrollment of 27, and is planning an ambitious program

of work for this year. They will be responsible next week for one of the luncheons to be served when the Presbytery meets at St. Andrew's church, and will lend their able assistance at one of the dinners for that session as well. Following the business of the meeting, tea was served by Mrs. Lemke and Mrs. Jim Dunsdon.

A daughter was born to Mr. and Mrs. J. R. W. Miles on Tuesday, February 3 at the Summerland hospital.

Mr. Ted Gould has come from Port Alberni to spend a week with his parents, Mr. and Mrs. Arthur Gould at their home in Prairie Valley, before going to his new post in Powell River.

Mrs. J. C. Wilcox had visiting her last Thursday and Friday her cousin, Major J. H. Mahony. Major Mahony is in charge of Canadian Army Cadets in Western Command, and has been making a tour of inspection of Cadet Corps throughout the province.

The evening branch of St. Stephen's W.A. served a very successful supper to about 100 persons in the Parish hall before the annual congregation meeting on the evening of Wednesday, February 4.

Mr. and Mrs. Arthur Wright have with them for a few weeks Mrs. W. L. McKinnon of Leslieville, Alberta. Mrs. McKinnon is Mrs. Wright's sister.

Mrs. Arlie Gayton arrived from Oliver on Saturday, February 7 to spend a few days with her parents, Mr. and Mrs. Will Ritchie.

After an extensive visit in Vancouver, Mr. W. D. Laidlaw returned to Summerland on Saturday last.

On Wednesday, February 4, three carloads of Summerland residents went to Naramata to present gifts from Lakeside and St. Andrew's United churches to the Naramata Youth Leadership Training school. The afternoon affair was in the form of a shower for the benefit of the school, with particular thought for bedtime snacks for the students. A wide variety of gifts was donated, ranging from a hotplate and toaster, teapots and small furnishings, to food-stuffs. Tea was served to a large number of guests from Penticton and Summerland.

Dr. Don Fisher and Mrs. J. E. Britton on behalf of the experimental station are continuing with the growers' Chautauqua on their northern Okanagan tour. They are speaking on the subjects of thinning, harvesting, and delivering of fruit to the packing houses.

Mr. Anton Holler of Paradise Flats left Summerland on January 24 for New York, where he embarked via the Holland-America line en route to Austria, by way of Holland. While in Austria he will visit his sister at St. Michele. He is expected to return to Summerland about the end of April.

St. Andrew's Women's Service club celebrated the fourth anniversary of their foundation on Monday, February 9, when Rev. R. P. Stoble of Penticton addressed their meeting. Mr. Stoble's subject was "Christian stewardship and the brotherhood of man". Following the meeting refreshments were served.

The first monthly tea of Summerland Faith Lodge 32 of the Rebekah Assembly was held at the home of Mrs. Lorraine Gillard on Wednesday, February 4.

Skeet Club To Build Log Cabin; Day Re-elected

Reporting a successful first season, Dr. L. A. Day was chosen to retain his post as president at the annual meeting of the Summerland Skeet club held recently.

This energetic sports group got away to a good start in its initial year of shoots and all members reported having enjoyed the season to the utmost. Some splendid prizes and trophies were captured by the Summerland trap shoot artists at meets here and in surrounding towns.

Biggest news emanating from the annual meeting was that the club intends to erect a large log cabin on its property at the top of Prairie Valley. A building committee of Sandy Munn, chairman, W. Nelson, Alf Johnston, D. L. Sanborn and Ken Blagborne, was chosen to complete arrangements for this structure.

A new trap has also been ordered and it is expected that delivery will be made before the season starts.

Other officers elected at the annual meeting consist of the following: Sandy Munn, vice-president; G. A. Laidlaw, secretary; W. Nelson, treasurer; field captain, Ken Blagborne; executive, Tom Nelson, D. L. Sanborn, Channon Snow.

BAPTIST CHURCH HAS SURPLUS AT END OF YEAR

The annual business meeting of the Summerland Baptist church was held on January 28, with the pastor, Rev. F. W. Haskins presiding.

Reports submitted by representatives of the various organizations showed gratifying progress in the work of the church during the past year.

The treasurer, Mr. A. Gayton, reported all obligations met, with a balance of \$250 on hand. During the year the sum of \$1200 was raised for missions and for the Crusade for Christ.

Mrs. H. R. McLarty was re-elected clerk and Mr. A. Gayton re-elected treasurer. Mr. W. Ritchie and Mr. T. Manning were elected to the Deacons' board, and other members of the board are Mr. R. Wellwood, Mr. R. Birch, Mr. W. C. Wilkin, and Mr. A. Gayton.

Plans are being considered for the construction of a primary annex.

Mr. Michael R. Nutter of Kelowna and formerly of Vernon has arrived to take over his new duties at the West Summerland branch of the Bank of Montreal.

A son was born at the Salmon Arm hospital on Saturday, Feb. 7 to Mr. and Mrs. Russell Kerr, nee Dorothy Thompson.

RECIPE HINTS

Old-fashioned Baked Beans

Soak the beans overnight in cold or tepid water. In the morning, drain wash well and remove all imperfect beans. Cover with cold water, add one-fourth of a teaspoon of baking soda and bring to the boil slowly. Continue boiling for three minutes but not longer. Turns into colander, wash well and put into the bean pot with a piece of pickled pork nicely streaked with fat and lean. Score the rind the long way into narrow strips for slices. Add one tablespoon of sugar, one tablespoon of dark molasses, one-half teaspoon of salt, one-half teaspoon of dry mustard and a tablespoon of minced onion. Fill the pot with boiling water.

cover and bake in the oven steadily for at least four hours. An all-day or all-night baking is better. Renew the water when ever necessary but do not let it come above the surface of the beans after the first has cooked down. Do not stir the beans except when the seasoning is added at first. The pork will rise to the top and form a fine, brown top. Beans cooked in this way will cause no unpleasant effect in the digestive system. Serve with these beans Boston Brown Bread, either baked or steamed or hot or cold. The oftener these beans are warmed over the better they are. On the second day they combine well with baked potatoes and sliced onion salad.

Mr. John Hecker returned at the weekend from a business trip to Vancouver.

C. J. McPherson of Vancouver is in Summerland this week on a "practice teaching" course at the Summerland high school. He was a member of the Summerland high last year. He returns to Vancouver on Friday.

Mr. Ben Saunders returned to Summerland last weekend following a motor trip to Kamloops.

Involved Deal In Light Extension Is Finally Settled

What the council hopes will be the final step in an involved electric light extension deal was taken on Tuesday when a further rebate of \$16 was allowed W. B. Eyre on his extension.

Mr. Eyre, G. H. Doherty and the municipal pound are involved in this deal. Originally, after Mr. Doherty had paid approximately \$100 for his extension, Mr. Eyre paid \$191 for his portion of extending the line to his property.

Then, the council decided to extend the system to give electricity to the Prairie Valley pound at J. Heichert's ranch and rebated Mr. Eyre \$75.

Mr. Eyre appeared at the council session on Tuesday and stated that he did not approve of the council's method of making the rebate and asked that the council consider the deal on a three-way split.

Total cost of the deal was worked out at \$573, and with two rebates of \$110 each and another of \$55 as the pound will only use service for a half-year, Mr. Eyre's proportion of the expense was found to reach approximately \$100. So another \$16 will be added to the \$75 refund already made.

A Worthy Effort

Summerland's senior service club, the Rotary Club, is instituting a really worthwhile appeal this week. This group of well-known local business and professional men has decided that the community should make an effort to assist those who suffered last year from the dread polio virus.

Objective of this club is \$2,000 and all funds raised will go directly towards aiding the disease victims, with all expenses of the campaign being borne by the Rotarians.

In most cases, a period of three years will elapse before the polio patient responds sufficiently to treatment so that the affected limb can be used again. And this is the case only when the disease did not strike so badly that the patient is crippled for life.

Treatment for polio effects is a costly business and a number of Summerland families have been placed in difficult financial straits thereby. We would be direly lacking in the milk of human kindness were we to disregard their plight and fail to respond to this appeal.

In the next few months and probably throughout the year we will probably be approached to subscribe to equally-worthy causes, most of them provincial or national in scope. But none will be more worthy of support than the Summerland Polio Fund, and we will have the satisfaction of knowing we are helping our neighbors, persons we may not know personally but whom we see every once in a while.

"This Polio Fund is something more than a generous gesture to provide funds for several of our fellow citizens who have dire need of financial assistance," states J. C. Bleasdale, Rotary president. "It provides an opportunity for each of us, in a tangible way to express our thankfulness that we have been spared the terrible scourge of polio. It provides a means of demonstrating that this community of Summerland abounds in those essential human characteristics—sympathy, unselfishness and goodwill—which are the hope of this troubled world today."

Training To Serve

The world needs self-reliant young people who have a sincere regard for others, irrespective of racial origin or religious belief, said a prominent world figure recently in discussing Boy Scout and Girl Guide movements. In Canada next week some 165,000 boys and girls will begin an annual observance known as Boy Scout-Girl Guide Week. They are proud members of two movements which are training young people in self-reliance with a respect for others regardless of racial or religious beliefs.

That the teachings of Scouting and Guiding are playing a vital role in the moulding of the citizens of the future is reflected in the further comment of the world leader quoted above: "If we can impress upon our youth principles of friendliness and mutual respect, we shall go a long way towards establishing a better understanding among the nations of the world."

It is apparent that as more and more of our children become Scouts and Guides, they will be inspired to do their best to do their duty to God and their country, to obey the Scout or Guide Law, and to help other people. It is well said that Canadian Scouts and Guides are "Training to Serve Canada." Let us work together to make these programs available to more and more Canadian boys and girls.

Democracy has proved that it can be efficient in war. It must now prove that it can be equally efficient in peace. World unity, illustrated in the general support for the United Nations, is essential if ideological divisions are not to lead to further wars.

Canada needs a sense of national unity if she is to make her most effective contribution to mankind. This can be attained where loyalty equal in quality to that given church, home, school, city and province is given to "Canadian" aspirations.

Three major factors in the life of any young person are the church, the home and the school. The Boy Scouts and the Girl Guides Association contribute a unifying action, bringing these into a progressive and integrated program of spiritual, moral, mental and physical development.

Scouting and Guiding make their contributions to international understanding because they are two world-wide organizations with a membership of some five million boys and two and one-half million girls in some seventy countries. They break down barriers of class, creed, and race. They are non-political and non-denominational.

Scouting and Guiding do not build fences—they build citizens! Canada's 165,000 Scouts and Guides, under the leadership of some 12,500 volunteer workers, are "Training to Serve Canada."

If you are interested in promoting the unity of Canada—if you want our boys and girls to develop characteristics of unselfish service by learning to help others, by learning to give as well as take, and by learning to live, then you will do well to take a personal interest in Boy Scout-Girl Guide Week, Feb. 15-22. Here is an opportunity for you to observe at first hand the Scouts and Guides of Canada as they go about their business of "Training to Serve Canada."

Princess Distributes Wedding Gifts

PRINCESS ELIZABETH, (right), supervises the packing of food parcels, sent to her and her husband, the Duke of Edinburgh, by the Dominions and Colonies as wedding gifts. The food is being distributed throughout the British Isles to old age pensioners and widows with children who have no supplementary allowances. Above photo was taken at Buckingham Palace.

Home for Paralysis Victims Planned on Vancouver Property

Recent presentation by Kinsman Percy White, chairman of the Kinsmen Paralytic committee, of a deed to property at 27th Avenue and Laurel Street, Vancouver, to Ralph Plant, vice-chairman of the Western Society of Physical Rehabilitation, marked the first step towards the erection of a centre in Vancouver for the rehabilitation of people severely disabled by paralysis.

On the property, for which the Vancouver Kinsmen club paid \$6,000, will be erected a building which will cost around \$200,000 to build and equip. About \$160,000 of this amount has already been donated by private individuals and business firms and the remaining \$40,000 will be raised by donations from private individuals.

Grants are also expected from participating government agencies. Estimated annual operating budget is between \$25,000 and \$30,000.

Total number of people in British Columbia and Alberta who will benefit from treatment at the physical rehabilitation centre, which will be started in March, cannot be estimated but it will include paraplegics, both veteran and civilian, polio victims, spastic children, double amputees and any other orthopedically disabled persons.

Specially trained personnel will staff the new centre under the direction of Martin Berry, who for the past three years has conducted physical re-training classes for the disabled in Vancouver hospitals.

Plans call for sleeping quarters for 13 students and dining accommodation for 24. Orthopedic appliances will be available for those needing them, and a matron and orderly will be in constant attendance for emergency cases.

Donations may be sent to the Western Society of Physical Rehabilitation, Room 418, 744 West Hastings, Vancouver.

The Mail Box

Summerland, B.C.
February 9, 1948

Editor, The Review:
At the Court of Revision held on Monday last a large number of taxpayers were present to contest their assessments on land, improvements or both. In nearly every case the Board conceded, and it struck me as rather strange that some of these assessments had not been appealed years ago.

The stand that most of those appealing made was that their property was poorer in comparison to other properties in the municipality by reason of location, land contour, quality of soil, amount of land possible for cultivation, condition of trees, etc.

It would appear to me that there are inequalities of assessment and that for every appeal that is allowed and which results in a loss in revenue from one lot becomes a greater burden for the rest of the properties. It also follows that there must be many lots that could stand a higher assessment.

You may say that the assessor's job is to rectify such a situation but I do not forget that the assessments were established years ago and are to a certain extent a yardstick for subsequent assessments.

I suggest that it would be a sound step and would greatly facilitate the work of the assessor if the council appointed a representative committee to study thoroughly all assessments in the municipality with the purpose of arriving at a more equitable division of taxes.

Yours truly,
N. O. Solly.

Crop Disposal Comes To Five Million Mark

At January 28, B.C. Tree Fruits Ltd. had disposed of 5,020,894 boxes of apples, with less than 500,000 going outside the North American continent, George E. Brown, Tree Fruits secretary, informed the growers' Chautauqua last Thursday. However, this disposal only marks the halfway point in the projected crop for 1948, which is believed will run around ten million boxes. There are about 1,600,000 boxes of apples left to sell from the 1947 crop.

Distribution of the 1947 crop up to January 28 was as follows:

| | |
|---------------|-----------|
| B.C. | 370,618 |
| Alberta | 609,184 |
| Saskatchewan | 593,929 |
| Manitoba | 538,227 |
| Ontario | 396,030 |
| Quebec | 668,301 |
| Nova Scotia | 16,000 |
| New Brunswick | 80,800 |
| P.E.I. | 7,200 |
| U.S.A. | 1,257,728 |
| Off-shore | 487,877 |
| | 5,020,894 |

Penny Wise

They say that necessity is the mother of invention. And that's why a cook on a train in England has discovered no less than 16 different ways of serving up—bully beef.

Penny Wise

Doesn't it tear the stomach out of you just looking at the ads in American magazines? All that sliced pineapple, all those shapely jellies, those slips that fit, those inexpensive percale sheets, those extra-short-length nylons, those stoves with two ovens, those ultra-modern home furnishings, those divine (and divinely cheap) dresses, coats, shoes. I'm killing me, just thinking about it.

If your family is getting a trifle weary of apples (and aren't we all) you could whip up a mess of apple snow. It's a simple matter of adding six tablespoons of sugar, an eighth of a teaspoon of ground nutmeg, and a teaspoon of vanilla to two and a half cups of applesauce. Beat two egg whites stiff, then add them gradually to the applesauce, beating the whole until fluffy as a cloud. Serve it as a s-m-o-o-t-h custard, and watch the youngsters (and the old ones, too) gobble it up.

Ploked pussywillows t'other day. That's what you get for living in the Right part of British Columbia. We've snowdrops nodding their pretty white heads in our direction, too. Life is beautiful.

Bought me a coat, with that new look; dangling around my ankles, full as a sail at the back, cozy hood for windy days, AND a really, truly bargain in a January sale.

If you're over 40, don't tell anyone, but do slap lots of cream on your face every day, because it'll need it. If you can manage to get the goo on during the day, do so, because men (even husbands are men, remember) don't like women to wear it to bed. Of course, the breadman, the milkman, the grocery boy, and your afternoon tea guests may not like it, either.

It may not be anyone's birthday next Sunday, but how about putting candles on the dinner table just for the heck of it, and putting gobs and gobs of whipped cream on the apple pie.

Reclamation Plan Is Protested Here

Proposed reclamation of Duck Lake in the Kootenays, with consequent alleged loss of wild life in B.C. and throughout the northwest, has brought a protest from the Summerland Fish and Game Assn. At a recent meeting, the local sportsmen voted unanimously to send telegrams of protest to Premier Byron Johnson and to W. A. C. Bennett, M.L.A. for South Okanagan. A brief is being submitted to the government on behalf of all sports clubs in the province, while sportsmen across the line are also adding their voice in protest of the drainage proposal.

Pioneer Days

THIRTY YEARS AGO
January 31, 1918

R. H. Helmer presided over the annual meeting of the local BCFGA and the Farmers' Institute, with R. V. Agur reporting on the annual growers' convention. Summerland is now in second place in membership in the BCFGA, with 71 members. Victoria leads with 115 and Vernon is third with 60. Shortage of labor was one of the chief discussions at the convention.

W. A. McKenzie defeated E. W. Mutch in the provincial by-election in Similkameen, winning by 222 votes.

Treasurer E. E. May announces that more than \$2,000 were contributed by Summerland citizens to the Canadian Patriotic Fund last year.

Officers elected by the annual meeting of the Summerland Liberal-Conservative Assn were: President, E. R. Simpson; vice-presidents, R. V. Agur, Mrs. F. W. Andrew, A. E. Elliott; secretary, J. A. Kirk; treasurer, W. C. W. Fosbery; committees, Dr. Lipsett, Miss Cooper, C. H. Tate, Mrs. S. Darks, R. Clouston, Mrs. Albert Doherty, D. Grey, Mrs. F. Gartrell, F. A. Miller, Mrs. F. A. Miller.

Speakers at the second annual get-together banquet of the board of trade included Rev. A. Henderson, Rev. H. A. Solly, Sgt. F. A. C. Wright, C. Napier, Higgin and W. C. Kelley.

Dr. R. C. Lipsett has been named president of the Summerland Purebred Stock Assn. with Thos Dale vice-president, H. Bristol secretary-treasurer and P. G. Dodwell, C. D. Marshall and C. Craig as directors.

A big landslide on the road two to three miles below Trout Creek completely blocked traffic for several hours on Friday.

A Christmas card arrived last week from a local citizen, C. C. Wharton. It was postmarked Dec. 6 and the illustration and indistinct postmark indicates that it originated in Salonika.

TWENTY YEARS AGO
February 3, 1928

Hon. T. D. Pattullo made pronouncements of policy of far-reaching importance including plans to grant relief to interior irrigationists, in a recent speech to the B.C. legislature. In brief, the government, through Mr. Pattullo promised to write down the capital charges of interior irrigation systems, thereby radically reducing the water users' liability to the province; also extension from thirty to fifty years of the period in which irrigationists may pay off money borrowed from the province to establish waterworks; elimination of compound interest on irrigation loans in respect to the moratorium period.

Hon. Price Ellison attended the old-timers' annual celebration and renewed many old acquaintances.

Municipal council has commenced work on a new fire district by-law calling for an expenditure of \$8,000, and embracing the main portions of West Summerland and Summerland business district and the residential areas immediately surrounding them. Another bylaw to institute codling moth areas is being drafted.

At the local hospital a son was born to Mr. and Mrs. N. May this week.

FITZPATRICK IS HEAD OF CHC

KELOWNA—F. L. Fitzpatrick, of Rutland, last week was elected president of the Canadian Horticultural Council, at the annual meeting being held in Ottawa. A. K. Loyd, of Kelowna, is also a past president of the organization. Fred Lewis, well-known Kelowna resident, who has taken an active part in the association, received a telegram thanking him for past services. Mr. Lewis has been forced to curtail his activities, due to ill health.

COMMUNITY ARENA

SALMON ARM—By community shares and help build Salmon Arm's Arena—is the appeal now being made by the Salmon Arm Community Co-operative Association which operates the community theatre and is now planning the construction of a new theatre and ultimately an Arena.

RAISE TEACHERS' SALARIES

ALBERNI—A \$200 per annum flat increase in teachers' salaries has been granted by the board of arbitration, as a result of the recent sitting between Alberni District School Board No. 70 and the teachers' association.

The Inside Story

By AGROLOGIST

When I opened the barn door, Jimmie Aitken greeted me with a broad smile. I could see at once that he was very pleased about something. I soon learned that he had good reason to be elated. Our conversation went somewhat along the following lines:

Agrologist: You seem very cheerful this morning—what, may I ask, is the cause of your jubilation?

Jimmie: I have just had advance notice that Estrallita has won the championship.

Agrologist: And who is Estrallita? Some Spanish dancer, I presume?

Jimmie: Don't show your ignorance, laddie. Estrallita is a verra remarkable coo. Her full name is Summerland Twinkling Estrallita and she is sired by Summerland Twinkling Standard and out of Summerland Lady Estelle.

Agrologist: I am not concerned with what she is out of—what I want to know is what she is in.

Jimmie: She is in the lead of all Jersey cows in Canada for 1947 with respect to both milk and butterfat production. Further, she has won out in both 305 and 365 day classes.

Agrologist: How many days was she actually in milk?

Jimmie: Three hundred forty-two days only, and she produced an average of 33 1/2 lbs. of milk per day.

Agrologist: How do you account for this amazing record?

Jimmie: Estrallita has verra guld breeding. She has had verra guld feeding and if I do say it mass! she has had the verra best of care.

Agrologist: Just how much feed did Estrallita consume during the year?

Jimmie: 2,181 lbs. of meal, 2,700 lbs of ensilage, 2,800 lbs of hay, 3,400 lbs of roots, 600 lbs of green cut corn and all the grass she could eat on the 153 days she was on pasture.

Agrologist: Of what is the meal composed?

Jimmie: Four parts bran, 4 parts crushed oats, 1 part protein, 2% mineral supplement and 1% salt.

Agrologist: You seem to have her rations figured out to the last ounce. Just how much did all this feed cost?

Jimmie: Exactly \$75.40 or 18c for every lb. of butterfat. Agrologist: On this basis, I imagine that Estrallita has been quite a paying proposition.

Jimmie: You are right, if I had a dozen coos like her, I wouldn't be working for the government for the small salary which I now receive.

Superannuation Plan Sought By Premier Johnson in Speeches

Implementation of a number of proposals for the bringing into effect of a greater measure of social security than is presently enjoyed throughout Canada, and British Columbia in particular, has been sought by Premier Byron Johnson, during his visit to Ottawa, it is made known this week.

Premier Johnson, it is learned, had an extended discussion with Prime Minister W. L. Mackenzie King on these matters and, since his appointment with the prime minister, had a series of conferences with members of the federal cabinet on the same subject.

The premier of British Columbia is seeking to bring into effect a system of compulsory, contributory superannuation which normally would provide security for people in their old age but make the length of usefulness of citizens longer by minimizing the number of those who are now classified as unemployables solely by virtue of their age.

Mr. Johnson, likewise, is seeking to have implemented a system of health insurance, coupled with a hospitalization program to meet the present urgent needs, and to take care of increased demands for hospital accommodation that would follow in the wake of health insurance. In this connection, he has stressed the immediate need for hospitalization and the necessity for the Dominion government

to assist financially in the construction of hospital buildings as a necessary complement to the introduction of a health insurance scheme.

Similarly, Premier Johnson has asked that more generous treatment of the old age pension scheme be accorded, not only through the greater share of the burden, but also by revision of the age limitations in order to widen the scope of the benefits.

Considerable interest was evinced in the proposals advanced and the series of conferences concluded with a final discussion with Mr. King.

"I am hopeful that something may come of the representations that I have made, and you may be assured that I will continue to press for these reforms until they are brought to fruition," the premier declared.

BLAKEBOROUGH STEPS DOWN

KELOWNA—One of Kelowna's best-known citizens, who has probably had more to do with the actual development of the Orchard City than any other resident, has stepped down from office. He is Harry A. Blakeborough, city engineer for the past 27 years, who has watched Kelowna progress steadily since the horse and buggy days.

ROUGH GRADING TO BE DEFINED IN BUILDING BYLAW

As the building bylaw does not state definitely what "rough grading" means, the Summerland council plans to amend its bylaw and specify that subdivisions must have the necessary roads and lanes cleared and graded ready for the final surfacing, before the subdivision plans can be passed.

Drainage will also be specified in the building bylaw in connection with subdivision roads.

This amendment has been brought to a head through a dispute over the rough-grading of the N. O. Solly subdivision at Trout Creek. Building Inspector Angus passed the subdivision plans believing that the roads had been rough graded according to his understanding of the bylaw.

Road Foreman Les Gould claims that the roads were not rough graded to a point where they can be surfaced, which was his understanding of the term "rough grading". The council move will eliminate any further argument over this point.

School Tax Commissioners Report Ready

The report of the six-man commission appointed under the public inquiries act to investigate problems of school taxation, especially in rural areas, was presented this week to Hon. G. S. Pearson, provincial secretary, by H. Alan MacLean, assistant deputy attorney-general and chairman of the special commission.

Copies of the report have gone to cabinet ministers whose departments would be affected by any changes that may be made in taxation legislation at the coming session.

Hon. W. T. Straith, K.C., minister of education, indicated the cabinet will begin discussion of the report and of amending legislation when Premier, Byron Johnson returns from Ottawa.

IRRIGATION COURT

Court of revision on irrigation rates will sit at 3:30 o'clock Tuesday, April 20, the municipal council agreed on Tuesday.

Street Light Extension Proposal

Continued from page 1

built up again and this statement precipitated Mr. Atkinson's report.

In dealing first with the schedule of fixed assets, Councillor Atkinson declared that the December 31, 1945 figure showed \$39,091.58 after additions during the year of \$7,689 and allowing for depreciation of \$2,057.00. By Dec. 31, 1946 the electric light system fixed assets had gone up to \$45,992.62 and at the end of last year this figure was boosted to \$54,746.59.

"Thus, in three years we have added \$28,632 or an increase of \$21,273 after covering depreciation on the whole system," he declared. "To do this, \$10,000 of the surplus account was sold.

"The total amount spent in the last three years has added 364 new users and the increase in profit in 1947 is due partly to this investment."

He pointed out that the surplus account was intended for the purpose for which it was spent when it was originally set aside.

At the end of 1945 the surplus account showed \$19,040 and it was decreased by \$9,000 in 1946. Last year, only \$1,000 was spent. The net profit in these three years was \$1,355 in 1945, \$1,982 in 1946 and \$7,460 in 1947.

New Connections

New connections in these three years were: 1945, 88; 1946, 151; 1947, 125.

"From these figures I would point out that instead of an attitude of gloom regarding the last balance sheet I would express a feeling of satisfaction. In 1947 we spent \$11,621 of municipal money on extensions, which is \$2,300 more than in any recent year and only spent \$1,000 of the surplus fund.

"The profit shown is one of the largest in the history of the system and is \$5,500 greater than the largest of the previous two years. This is due partly to the 364 extra users, partly to the new rate from the West Kootenay Power & Light Co. and partly to the new retail rates.

"When these rates are operating for a full year and even with construction of extensions on the basis of last year the surplus fund should start to increase.

(The West Kootenay deal was only effective from August 1, 1947).

"The life blood of this department is the difference between the cost of electricity and the selling price or rates levied. These are shown as follows:

1945—Rates levied, \$43,426 cost of electrical energy, \$25,253; difference, \$10,273.

1946—Rates levied, \$43,909; cost of electrical energy, \$31,848; difference, \$12,061.

1947—Rates levied, \$54,497; electrical energy cost, \$33,045; difference, \$18,452.

"With the difference of cost and selling price \$6,400 greater in 1947 than in 1946 and with the maintenance of a similar cost rate and sale rate, the margin should be sufficient so that the department will do well in 1948," he concluded.

Liability Insurance To Cover Passengers

Some members of the municipal water department operate their cars during the irrigation system to drive other municipal employees to work. For this service they are paid an extra 75 cents per day.

Walter M. Wright reported to the council on Tuesday that the municipality could be covered for liability for an insurance rate of \$10 per year for all such cars. The council has agreed to take out this insurance coverage.

Coupled with this policy, however, is another for \$10 for each car carrying such passengers. This policy would cover the car owner from public liability in case of injury to any of the passengers.

The council is leaving this part of the insurance coverage to the owners of the cars involved.

POLICE INVESTIGATION

A thorough investigation into the entire policing set-up in Kelowna and district will probably be launched in the near future while it is highly probable that some action may be taken in regard to the present police accommodation in the city.

Alf McLachlan Of 1947 Good Citizen Cup At Annual Banquet

Alf McLachlan, a resident of Summerland district for 35 years, was the recipient of the 1947 Good Citizen Cup, presented annually by Reeve Reid A. Johnston, at the annual banquet of the Summerland Board of Trade at Ellison hall last Thursday evening. A splendid banquet program was arranged for this annual affair, with Dr. Gordon M. Shrum, UBC professor of physics and head of the extension department as guest speaker.

"You have been a wonderful citizen and a pillar of the board of trade," declared Reeve Johnston, when he summoned Mr. and Mrs. McLachlan to the front of the hall. "This is the greatest honor at the command of the board of trade."

Reeve Johnston also termed Mr. McLachlan as the "busiest little man in Summerland." The recipient of this annual honor was too stunned to make an adequate reply and after extending his thanks for the honor, asked to be excused from further remarks.

"This is a real milestone in my life and I can assure you that my wife and family feel deeply grateful for this honor," declared Mr. McLachlan.

Mr. and Mrs. McLachlan took their seats amidst a hearty round of applause.

Another popular presentation was made by Vice-president J. E. O'Mahony to Dr. F. W. Andrew, who received an honorary life membership in the board of trade. Another life membership would have been presented to Mr. J. R. Campbell, but he was advised by his doctor that he should not attend the function. This was presented at a later time.

Speaking to Dr. Andrew, Mr. O'Mahony declared: "You can hardly think of a citizen who has contributed more to the board of trade and to Summerland than Dr. Andrew. Why, he was present at its birth."

"Don't think this presentation is going to put me on the shelf," replied the popular doctor. "I'm going to keep an eye on you," adding that he was glad to see younger men taking their places in the board functions.

Presents Bouquets

Bouquets were presented to Mrs. McLachlan and Mrs. Andrew by Mrs. F. W. Schumann, wife of the board president.

More than 200 persons attended this annual function which was catered to by the ladies of the local Rebekah lodge. Appreciative comments on the excellence of the repast were observed by many speakers.

Among the guests who attended were: Reeve R. A. Johnston and

Mrs. Johnston, W. A. C. Bennett, MLA and Mrs. Bennett, Mr. H. A. Truswell, Kelowna Board of Trade, Mr. P. F. Erout, Penticton Board of Trade, and Mrs. Erout; Mr. H. Mitchell, Naramata, president of the associated boards, and Mrs. Mitchell; Mr. Wilf Carter, president Penticton Junior Chamber of Commerce; Reeve C. O. Whinton, Peachland and Mrs. Whinton; Mr. Grey Rowland, Penticton Herald publisher, and Mrs. Rowland; Mr. J. L. Paethorpe, CPR superintendent and Mrs. Paethorpe; Mr. A. Calvert, president Summerland branch, Canadian Legion; Mr. C. J. Bleasdale, Rotary Club of Summerland president and Mrs. Bleasdale; Mr. Les Rumball, president, Summerland Retail Merchants Assn., and Mrs. Rumball; Dr. J. C. Wilcox, president, AOTS club, and Mrs. Wilcox.

President Schumann reported briefly on the activities of the past year, mentioning the co-operation of the municipal council and itemizing the Spring Fair, swim classes, safety campaign, and Christmas tree, as among the most prominent of the board activities.

Increase Numbers

He was glad to report an increase this year in membership over 1947 but warned that the board is not as strong as its membership but as strong as its active membership. He urged all committees to be active during the coming year and as a compensation these members would know they are making Summerland a better place in which to live.

CANNERS SHORT COURSE BEING HELD AT COAST

The 'Canners' Short Course is holding its third annual session in Vancouver this week, with meetings every day from 9 till five from Monday through to Friday, at the Moose hall. Representatives from all parts of the west attend the course, with guest speakers from U.C.L.A., Stanford University, and other centres. Summerland is providing guest speakers, including Mr. F. E. Atkinson, who will address the meeting on the subject of "Canning of Fruits," and Dr. C. C. Strachan, whose subject is "Quality and Influence by Enzymes."

Under the auspices of the B.C. Canned Foods Association and sponsored by the extension department of U.B.C., the session was given a send-off by the American Can Company in the form of a banquet on Monday evening, and will wind up with the annual meeting and election of officers on Friday, followed with a banquet tendered by the B.C. Canned Foods Association.

Summerland is well represented at this convention. Besides Mr. Atkinson and Mr. Strachan those attending from here are: Mr. and Mrs. H. J. Barkwill, Mr. Bob Barkwill, Mr. C. Avery, Mr. Lawrence Hookham, Mr. A. W. Moyle, Mr. W. G. Rempel, Mr. Blair Underwood, and Miss M. Burton.

Mrs. W. Snow has returned to Summerland from a short visit to Vancouver.

Nurses Threaten To Quit

Summerland hospital board directors are meeting in special conclave tomorrow night, Friday, to come to a decision on an upset which has occurred between members of the hospital staff and the matron, Miss M. Ellis, R.N., who came to Summerland to take charge of the hospital last November.

No official statement has been released by the hospital board, but it is known that the situation was discussed at the regular hospital board meeting Tuesday evening.

Chairman S. A. MacDonald and members of the house committee, J. R. Butler, Mrs. A. R. Dunsdon and C. J. Bleasdale are known to have spent a large part of Wednesday afternoon discussing the troubles between the matron and the hospital staff.

No decision has been reached. It is understood that several members of the nursing staff have intimated that they intend to serve notice of resignation unless changes are made in hospital conditions. Details of the nurses' grievances were not made known by the hospital directors.

Volleyball Teams Victor Southern Zone

Summerland high school volleyball artists made a clean sweep of the South Okanagan zone championships at the local gymnasium on Saturday afternoon when they trimmed Penticton and Oliver high school teams by a wide margin in all four games.

At no time did the visitors even threaten the local school lads and lassies and three points was the most any of the visiting teams amassed against the local players.

One of the features of the afternoon was an exhibition game between Summerland and Oliver with Bill McNutt doing all the serving for the Summerland squad. The rest of the team might just as well have walked off the court as McNutt's strong serve was too much for the visitors, who lost out 15-0.

In the competitive games, Summerland high boys defeated Penticton 15-1 and Oliver 15-3. The Summerland girls defeated Penticton 15-0 and Oliver 15-1.

Summerland teams now move into the semi-finals on March 6 and the finals, if successful, on March 13.

Members of the triumphant Summerland teams are:

Boys: Keith McLean, Jack Dunham, Richard Palmer, Gil Jacobson, Bill McNutt, Basil Thornthwaite, Les Howard, Don Nesbitt and John Vanderburgh.

Girls: Barbara Munn, Doris Cristante, Laura Mott, Noreen Anderson, Evelyn Helchoff, Elizabeth Morgan, Olive Mason, Beverley Fleming, Ruth Klux, Jacqueline Trafford.

Okanagan Highway Survey Soon Says Bennett

"Today I received a wire from Hon. E. C. Carson, minister of public works, who informed me that the re-survey of the Okanagan highway south from Peachland would be started before spring," declared W. A. C. Bennett, MLA for South Okanagan, at the annual banquet of the Summerland Board of Trade.

"We hope this work will be commenced this year," he continued, in referring to this much-discussed re-location of the Okanagan highway, which may take the main route through this section entirely away from the lakeshore.

Late last year the Summerland council pressed the government public works department for some knowledge on the probable route to be taken by the highway in the future, so that the municipal roads program could be planned.

Attorney-General Gordon S. Wilmer, K.C., will speak over Radio Station CKOV tonight at 9:45 on the amendments to the motor vehicle act which are effective from March 1.

BOARD OF TRADE EXECUTIVES

PRESIDENT

F. W. SCHUMANN

SECRETARY

LORNE G. PERRY

OBJECTS TO LACK OF INTEREST ON PART OF COUNCIL

"We met the municipal council and to date we have received no reply so our work is done," declared W. T. Boothe, chairman of the radio interference committee of the board of trade which recently proposed that the board make a grant of \$150 towards this work if a similar amount was forthcoming from the municipal council.

"We told Mr. Stewart Stanborn that there was no more money, but he is continuing to work, anyway," declared Mr. Boothe in a concise report to the board's meeting on Friday night at the IOOF hall.

He expressed surprise that the council had not replied to the board's suggestion and stated that he had received a great number of calls for assistance in curing radio interference.

President Schumann asked Mr. Boothe and his committee not to be too hasty as he felt that there would be some word from the council.

"I don't think they will ignore our request entirely," he informed the meeting.

H. Beaman suggested that there is a government radio man stationed at Kelowna who could be summoned to locate radio interference.

Arising out of a previous meeting, the trade board sent a petition to the associated boards of trade session in Penticton on Saturday seeking that body to petition Ottawa for another radio man to be stationed in the southern interior, as the present radio official has too wide a territory to cover.

This request received the approval of the southern boards and will be passed on to the proper authorities.

Interest in Public Health Problems is Essential to Success

Development of public interest in public health problems is one of the chief aims of the Okanagan Valley Health Unit and all such similar units, Rotarians of Summerland learned on Friday evening at the Nu-Way Annex when Dr. A. N. Beattie, medical director of the unit, Kelowna, was the guest speaker.

Dr. Beattie traced the development of interest and knowledge in communicable diseases down through the ages and declared that sanitation and communicable disease control are two vital factors in public health.

The infant mortality rate has been reduced through control of diphtheria and whooping cough. Public health needs the interest and work of every citizen, he declared and the education of the public is essential to its success. Support of service clubs and like bodies is being sought.

Council Moves To Aid Penticton In Appeal For Divorce Of School Area

Latest move in the troubled school situation in District No. 15, embracing Summerland and Penticton municipalities and the rural area of Naramata, Kaleden and Allen Grove, has been brought about by Summerland municipal council, whose members agreed on Monday at noon, during a hurried session, that they wished to support Penticton's application for divorce and thus allow Summerland to leave the confines of School District No. 15.

Reeve Reid Johnston received the unanimous decision of those council members present that they wished separation and they informed His Worship that he was at liberty to discuss the subject with Reeve Robert Lyon, Penticton.

In the meantime, the school district has brought down its budget for 1948 and presented it to Penticton council on Monday evening. A copy reached Summerland municipal office this week and was placed before the Summerland council in committee last night.

Run Own Business
Asked by The Review what had decided the council to take this action in asking for a divorce, Reeve Johnston replied: "We want to run our own business." No other explanation was forthcoming.

Last summer, when Penticton and Summerland councils and the school district met together, 1947 Reeve W. R. Powell intimated that his council would do nothing to oppose a separation which would divorce Penticton and Summerland municipalities. However, no action has been taken by the local council since that time until Monday of this week.

Councillor F. E. Atkinson was not present at this week's special and sudden Monday meeting, which followed the continuation of the court of revision of the assessment roll, but he had expressed himself as favorable to a separation from Penticton last week during the regular council session.

Dr. G. M. Shrum Hopeful Of Atomic Energy For Peacetime Purposes

"We are interested in atomic energy because our civilization is based on energy and that energy is far more important than gold," declared Dr. Gordon M. Shrum, professor of physics at the University of B.C. in addressing the annual board of trade banquet in Ellison hall on Thursday evening.

Dr. Shrum proved an enlightening guest speaker at this popular annual function and held the interest of his audience for three-quarters of an hour.

At the outset, Dr. Shrum gave his listeners an insight into the enormity of the problem of splitting the atom and the importance of the atom in the standard of living.

"Our source of energy originally came from the sun, but now it comes from the bowels of the earth in the form of coal and oil," he continued.

"If we could get the energy from atoms harnessed for peacetime purposes it would mean a great deal to our standard of living, but that is going to be difficult to do."

"We want this new energy mainly because our ordinary supply of energy is showing signs of becoming exhausted."

"The United States has not enough oil in sight to last more than a few weeks in a first-class war, and the rate of consumption is increasing rapidly. In our life time these reserves of oil will be exhausted." He was more hopeful concerning the reserves of coal.

Will be Developed
"Atomic energy will be developed maybe in ten years, twenty years or longer, but it will be developed," he prophesied.

Another reason given for the need of atomic energy is the world's food shortage. Three-quarters of the world's peoples are underfed because few people can afford to buy the food, Dr. Shrum continued.

Despite the fifteen million killed in World War II, the population of the world is over 200 million more than in 1928 and agricultural production is down to 98 percent. Each 24-hour period there is a net increase in world population of some 50,000 persons.

Under existing conditions there is little chance to increase food production, the speaker pointed out, but with a cheaper type of energy great land reclamation schemes could be evolved and more land placed under irrigation for the production of food.

Dr. Shrum also believes that many of the world's pressing medical problems will be solved with the new scientific techniques now available. Radio active atoms are being produced now at Chalk River and these are introducing new techniques in scientific knowledge and development.

New Techniques
"We will know what is going on and what the abnormal growth process is in these medical cases,"

Many Visitors To Ski Hill For Open House

More than a hundred spectators visited the Summerland Ski Club hill last Sunday afternoon at the invitation of the skiers to attend an "Open House." Several exhibition stunts and races were staged by members of the club and all present were able to see the alterations and improvements to the club hills and log cabin.

Great improvement in skiing technique among the younger members was also noticed as the ski instructors have been carrying on a diligent series of demonstrations and lectures for their benefit.

A number of local skiers are going to Kelowna this weekend to compete at the Okanagan ski tournament, while elaborate plans are being made for the annual tournament on the local hill on Sunday, Feb. 29.

Last Sunday, Walter B. Powell, Wally Day, Bob and Daryl Weitzel and Ronnie Ritchie, competed in the Princeton ski tournament, which drew a large entry list but these Summerland skiers failed to place in the money.

Some splendid exhibition jumps were witnessed by the large crowd at the Princeton ski meet.

Hope-Princeton Road Work To Be Pushed Fast

"The Hope-Princeton highway will be finished as fast as it can possibly be done and it will be hard surfaced before opening," declared Dr. R. R. Laird, MLA for Similkameen when he attended the quarterly session of the Associated Boards of Trade of the Southern Interior at Princeton on Saturday evening.

Summerland delegates were President F. W. Schumann, W. S. "Scotty" Ritchie and J. R. Armstrong.

Dr. Laird also spoke promisingly of the Cawston and west bench land in Penticton as having the highest priority, along with the Okanagan Falls dam project at a value of \$4,000,000. The minister of lands is endeavoring to interest the P.F.R.A. in these projects, he declared and he also hopes for progress in dealings with the Indian department concerning interior land holdings.

Speaking of the new leader, Premier Boss Johnson, the speaker declared he knows of no man, with the exception of Hon. John Hart, who knows more about the financial proposals of British Columbia.

Keep Open 24 Hours

"One of the major topics to come before Saturday's session was the request which emanated from Oliver and Osoyoos that the port of entry at Osoyoos be opened for 24-hour service. Co-operation of the Americans on this proposal can be obtained, the meeting was told. A joint session of associated boards representatives from all parts of B.C. will be held in Penticton on Wednesday, Feb. 25 and the southern interior boards will be represented by President H. Mitchell and Secretary W. H. Mitchell, Naramata; H. B. Morley, Penticton, and Mr. Gregory, of Princeton.

Field Secretary Larry Bokroyd
Continued on Page 4

Schumann Is Chosen Leader Of Trade Board

Fred W. Schumann, well-known Okanagan life insurance representative, was chosen for a second term as president of the Summerland Board of Trade when the annual meeting of the board was held in the IOOF hall on Friday evening.

Along with Mr. Schumann, the meeting returned J. E. O'Mahony for a second term as vice-president. Lorne G. Perry is replacing Len H. Hill as secretary, and E. R. Butler succeeds Reeve Reid A. Johnston as treasurer.

Several new faces will be seen on the board's executive, which will consist of Fred Dunsdon, George Henry, J. R. Armstrong, Cecil Wade, James Multhead, Len Hill, George Perry and Gordon Beggs.

Mr. S. A. MacDonald was returned to his post as auditor.

In presenting a few views on the past year's work, President Schumann declared that "with our membership we should accomplish a great deal more." He was disappointed in the lack of action on the part of some committees last year, while others were extremely active.

"It's been a grand year as president and I never realized before what a board of trade means to the community," he concluded.

Councillor C. E. Bentley complimented President Schumann and his executive on the success of the annual banquet held the night before.

Following the annual meeting, the board voted a sum of \$50 towards the Rotary Club Polo Fund and also voted \$10 towards the "March of Dimes" fund for crippled children, as the public response to this appeal had not been generous.

EDITORIAL

Good Citizen Award

Pioneers of this district and the comparative newcomers who have had an opportunity to meet him were not surprised when the announcement was made at the annual banquet of the Summerland Board of Trade that Mr. Alf McLachlan had been chosen as the 1947 recipient of the Good Citizen Cup, presented annually by Reeve Reid A. Johnston.

In no small manner has Mr. McLachlan aided in the development of this district over the past thirty-five years. Despite long bouts of sickness he has displayed an energy and a foresight which has stood him in good stead.

When Reeve Johnston referred to him as "the busiest little man in Summerland" he was just about right. His energies have always been devoted towards the building up and promotion of this district and he has shown a vision in regard to future possibilities of the district which few can equal.

Alf McLachlan has always been an ardent booster for Summerland and he has never been backward in letting his acquaintances know just how he feels about the district of his adoption.

Summerland would be measurably richer with the inclusion in its midst of more men of Alf's capabilities, energy and vision. Besides being Summerland's Good Citizen, Alf is also Summerland's No. 1 Booster.

Community Hall

Never was the need of a proper banquet hall brought more forcibly to the attention of local citizens than last Thursday evening when more than 200 persons shivered through the annual board of trade banquet.

It was an excellent program and was enjoyed by all present, but the large audience could not have been called in a "comfortable" state because of the lack of heat.

The Summerland Memorial Parks Committee is obtaining plans and estimates for a pavilion-type building on the living Memorial park-playground, which idea has grown out of the original plan of a surface for roller skating.

One of the main drawbacks to such a scheme is the lack of finances. To proceed with such a building as is tentatively proposed by the committee would mean the raising of possibly another \$5,000 to augment the \$17,000 already subscribed, reliable sources indicate.

The committee must have obtained added incentive to proceed with its proposal if the members were in attendance at Thursday's banquet. A well-constructed hall for community purposes, located in the West Summerland portion of the district would fill a cherished dream of many residents.

Who Pays The Shot?

We heard an employee of the provincial government make the statement the other day that the citizens pay a portion of the cost and the government provides the balance of the money.

That is a mistake which is all too common in our everyday life. Often, it is brought to our attention that through municipal taxation we are called upon to pay a proportion and the government supplies the balance.

It is a common fault. We are much too prone to disregard the obvious fact that the government has but one source of income, from the people themselves, whether it be in the form of direct taxation in the form of income tax or indirectly through sales tax or some other form of hidden taxation.

No matter how the money is raised it has to come from the people and when a governmental employee endeavors to press home a point that only a minor proportion of a fund is coming directly from the people through municipal taxation while the benevolent provincial government provides the rest, he is certainly far from the mark.

THE FOURTH ESTATE . . .

How well do you know your local newspaper editor? How often do you have occasion to call him up with an item of news other than once a year when the board of directors issues the annual financial statement? Have you ever provided him with material that would form the basis for an engaging editorial? Are you cheerfully willing to answer his questions when such things as industrial accidents or strike threats beset you or do you stall and make his news gathering difficult?

This is not a questionnaire to determine your affability

KNOWS WHEN HE'S WELL OFF

Pioneer Days

THIRTY YEARS AGO
February 14, 1918

Under the auspices of the Farmers' Institute, growers have had two meetings lately to consider entering the business of commercial seed production.

The 1918 irrigation rate has been fixed at \$3 net per acre for all lots of seven acres or more. This means a general increase of fifty cents per acre.

Thomas Ellis, the "Cattle King" of the Okanagan, passed away this week at his Victoria home in his 74th year. Mr. Ellis was the former owner of the property de-

veloped in the South Okanagan by the S.O. Land Company, of which he was a large stockholder with the Shatfords and other interests. This property extended from Naramata south to the international boundary. The town of Penticton is built on what was once known as the Ellis estate. The late Mr. Ellis was a native of Dublin, Ireland and he came to B.C. in 1863, at the age of 20. He leaves one son and seven daughters.

Mr. K. Kinnard, a former resident of Summerland, has been named manager, as well as secretary, of the Vernon Fruit Union.

Some improvement has been made in the sharp turn in the road beside the old Gartrell orchard and which has been termed "The Rialto".

The Rialto had larger crowds than it could accommodate for the

the Summerland-Peachland portion.

Two purebred Jersey heifers were purchased by A. T. Howe, Vernon at \$200 each, from two members of the Summerland boys and girls' club, Catherine Beattie and Arthur Joy.

Fifty appeals were registered before the annual court of revision on the assessment roll.

Checkers played a popular game twenty years ago, according to The Review files, and evidently there was quite a rivalry existing between lower town and West Summerland. Here is a humorous account of a checker contest as written by a contributor to The Review columns:

"Next to the Old Timers' meeting the outstanding event of the past twelve months was the checker game held in Adam Stark's store. For those who do not know where that is, it is near where the village smithy stands. The writer was not a player but an observant spectator.

"The West team came down fully convinced that it was simply a walkover, but, poor souls, how they were disillusioned. Thos. B. Young, I understand, has left for parts unknown, Muir and Charlie Stuart have left to play golf (with a foot of snow on the ground).

"If T. Ramsey could play checkers as well as he can his hand organ, no doubt the flag on Stark's flagpole would have been at half mast. McCutcheon gave as his excuse that the altitude was too low and swears he is off checkers for good unless the next game is played at the ladies' college on the Giant's Head.

"With a few more lessons, Austin Walden would in time develop into a fair player. Ben Saunders was evidently out of form and we have just learned from a very reliable source that on that particular evening he had domestic troubles in his home.

"There was one exceptionally fast player, Thos. Ramsey, whose speed not only impaired his judgment, but gave him ample opportunity to clean up on the candies—that were provided free. What else could you expect from a man who came from the Orkneys?

"R. S. Jackson would have made a much better showing if he had been matched against Alf Bloomfield and even then the results would have been questionable, especially considering he had a flat tire and remained tired all evening and we understand is still tired and expects to be so the rest of the season.

"The Summerland team, now being champions, feel that West Summerland should play a series of elimination contests with Faulder Mineola, Peachland and Crescent Beach, to prove their ability and gain the right to meet them again.

"The citizens of Summerland and West Summerland will find the next event of greatest interest. We understand Shaughnessy avenue will be specially lighted for the occasion and the town band, led by Mr. Silder, will render selections from the Post and Pasant overture and if necessary, the fire brigade will be in attendance to cool things down.

"McCutcheon considers the game referred to as a regular half-rate two performances on its opening night on Tuesday.

TWENTY YEARS AGO

February 10, 1928

Valuable work is now being done by a road crew handling a compressor drill on the Penticton-Summerland road in an effort to widen this part of the highway.

The Mail Box

Guelph, Ont.
January, 1948

Editor, The Review:

Having noticed in The Toronto Star of a lady in Summerland winning a fine prize, I am prompted to write. I was in Summerland 1913-14 straight from Glasgow. I am trying to recall some of my friends there and West Summerland, too.

On the lake front was Mr. English and family, a livery business—I remember he had a strapping son—a confectionary store, a little lady had that; and a Mr. and Mrs. Milne were in that too.

I cannot forget the Rev. Daly and family. I remember I was very home sick (I was quite young) and it wasn't until I met Mr. Daly and sang in his church that I gradually got over that. Mr. Daly's son and another fine chap came to the OAC in Guelph some years later and easily found me one Sunday night, for I was singing in Chalmers choir. I forget this other fellow's name, but they had a fruit ranch there, we had some fine times together and he became a professor and lecturer. Mr. Daly's son was a very quiet fellow and I did not see so much of him.

I recall one day in our office I noticed some baggage for Summerland, and I said I must see who this is and found out he was the son of the organist who had played for me often in Mr. Daly's church.

The Ritchie family, five daughters. Mr. Ritchie was harness maker and bootmaker in West Summerland. I stayed for some time in a fine shack on their lot and Mr. and Mrs. Ritchie and family were great to me. We used to go to church together. I am sure some of them will remember me.

Mr. Leitch of the Canadian Cannery from Hamilton. He came to can tomatoes, Tobogganing at night. Masonic dinner and dance. The building of the Kettle valley railway. My visits to Peachland, Kelowna, Naramata and Penticton. St. Andrew's picnic (the largest I was ever at), darkness coming down so quickly. The moon coming out so clear a little later.

The boys canoeing on the lake and the music (perhaps the guitar) in the distance. The lights all around the lake coming on from the different towns were all highlights to me. I shall never forget, I was getting along very well and I am sure if I had stayed I would have been successful, but I had this offer to go to Guelph, where my friend Jack Stevenson (of Paisley) had a nudge on the C.N.R. We had sent home some boxes of apples. (My folk are grocers and wine merchants in Paisley and Johnstone), they had put some advertising in and everyone at home thought we were so successful, for we put the apples in our shop windows.

I have been quite successful and I am convinced that Canada has been far ahead of nearly any other country as far as living is concerned. Guelph is a nice little town 60 miles from Toronto. I am connected with a few worth while organizations, sing quite a bit and have a whack at the piano. My name has appeared often in the Summerland News and many a time I have told my friends of "The Garden of Eden" in the Okanagan and it is only the many changes that have kept me away so long. I am sure you district must have grown the past years. I do hope this belated epistle does not bore you. I felt I just had to write and am happy in doing so, perhaps this year if you notice a tired Scotsman wending his weary way up the ravine (?) to West Summerland that will be me.

With kind regards and pleasant memories, I remain,
Yours sincerely,
Dan McKellar.

Full Congregation At Day of Prayer

The Summerland meeting of the Women's World Day of Prayer, held on Friday, February 13, brought out a full congregation of women from all Protestant churches. Mrs. S. A. MacDonald occupied the chair, and the accompanist for the meeting was Mrs. Bert Stent. Malotte's lovely version of "The Lord's Prayer" was sung by Mrs. Lionel Fudge, accompanied by Mrs. Delmar Dunham.

Secretary Mrs. H. C. Mellor reported a more than usually generous contribution received toward the support of Summerland Zenanah Bed in Lucknow Hospital for Women.

Plans are also being made to continue rock work done last year on or and would strongly advise anyone inclined to baldness to follow up checkers and we have just learned also that T. B. Young has departed for the Peace River as he could not stand the caustic remarks of his West Summerland friends.

McPherson would have been the star player of the evening if he had remained in the fold with Stark's Coits.

Canadian Appeal For Children is Well Underway

Canada today is being asked to contribute to help the needy of Europe and Asia—the boys and girls of the world who have been innocent victims of the war.

More than three million children in Europe are hungry. To protect their feet they wear rags, on their backs, too, are tattered clothes. Malnutrition is rampant. And in its wake has come tuberculosis and rickets. All diseases are on the increase. With the elements and want sapping their vitality, these children fall easy prey to illness and hospitals—those not

smashed during five years of war—and are fighting a losing struggle.

Recent surveys conducted in these countries evidence the dire plight of the hospitals. Treating the ill is a make-shift business. Labs have been wrecked and libraries sacked. Surgical instruments have been pillaged or lost. Everything that goes for the operation of a hospital is in short supply.

Canada is now in the midst of a campaign to raise funds for the children in Europe and Asia. It is the Canadian Appeal for Children. The money will be used for the purpose of food and clothing. Money will also be spent to equip hospitals. Until Europe and Asia have recovered from the ills of war, the world will remain in an unhealthy state. Any person wishing to aid in this recovery plan, may send a donation to the West Summerland branch of the Bank of Montreal.

SATIN-GLO
Enamel: Brighten up kitchen furniture and woodwork with this high quality, quick drying, hard surface, high gloss finish.
Satin Finish: Soft, lustrous semi-gloss finish for walls and woodwork. Redecorate the Satin-Glo way—you'll be pleased with the results.
Varnish: Freshen natural woodwork and add a new sheen to your floors with this clear, high gloss Varnish made to withstand hard wear.
This Satin-Glo trio will do every interior job you may have, and do it well. Satin-Glo is a Bopco product.

Committee To Propose Findings Based On Summerland Brief On Homes For Aged Problem

Formation of a committee to be chosen from the Penticton, Summerland, Princeton and Oliver boards of trade to consider proposals regarding formation of homes for the aged in the southern interior of the province was one of the highlights of the meeting of the Associated Boards of Trade of the Southern Interior held in Princeton on Saturday evening.

Summerland's brief, as prepared by J. E. O'Mahony and Rev. F. V. Harrison was received with enthusiasm and will probably form the main basis for the findings of this committee.

Mr. H. Mitchell, Naramata, associated boards president, proposed that the presidents of the four boards mentioned above appoint members for the committee and the associated secretary, W. H. Whitmore will act as liaison officer to bring the committee together.

Following is the brief presented by the Summerland Board of Trade to the Princeton session:

In presenting this brief from the Summerland Board of Trade, in connection with the care of the aged, we feel very keenly in the first place, that such care should be provided locally and that there should be many centres throughout the valley.

The elderly people would be able to stay among their friends, in their own neighbourhood.

We feel that one large building at some central point, would mean the breaking up of old ties and the removal of the aged from their own circle of friends. We do most strongly feel, that the chief happiness in old age, is to be with long-time friends and familiar surroundings.

Tall Drink!

While the "dwarfs" look on admiringly, HARRY SLOAN, world stilt-walking champ, gets his beer from the second story window of a London pub. A native of Great Yarmouth, England, Harry went into the ring as a circus performer and has worked up gradually to the 22-foot stilts he is using here.

pension cheques and other sources, would make the scheme almost self supporting.

We suggest that these homes should be within easy reach of a hospital—and we understand the Government is prepared to give limited assistance to those on pension, towards hospital care. If the home is near a hospital many would receive this aid, we are given to understand that in the case of sickness, no patient must be allowed to remain and be nursed as a patient in the home. This whole matter of sickness among the aged, is one that should be carefully considered, as it may be necessary that the whole care of the aged ill should rest entirely in the hands of the Government. We do feel that the local hospitals should not be penalized with the added cost of caring for patients from the homes for the aged.

Much of the present over-crowding in hospitals is caused by old people being kept in the wards because there is no place for them to go when discharged. This difficulty would be considerably relieved by the establishment of homes for elderly people in the various districts concerned.

The care of the aged is an ever increasing responsibility, especially in the southern interior of the province, where the dry climate and pleasant living conditions are ideal for people to live when they reach retiring age. We would therefore urge that the Associated Boards of Trade, appoint a strong committee to examine the briefs submitted, explore all angles of the question and bring in a report in time for the next quarterly meeting.

All of which is respectfully submitted.
Summerland Board of Trade.

Five Young People Offer To Join Ministry At United Church Presbytery Session Here

Highlight of the opening session of the Kamloops-Okanagan Presbytery on Tuesday, February 17, was the offering of themselves for the ministry of five young people, namely, Miss Nancy Holman and Mr. Theodore Hannah of Kamloops, Mr. Thomas Bulman and Mr. Allan Gawe of Vernon, and Mr. Allen Crewe of Kelowna.

The session, which was held at St. Andrew's United Church here on Tuesday and Wednesday of this week, opened at 10 a.m. During the morning the following reports were heard: Property committee, Mr. H. Galbraith, Vernon; pastoral relations' report, Rev. S. V. Redman, Oliver; Home Missions, Dr. M. W. Lees; Kelowna; M & M report, Rev. F. E. Tunstall, Armstrong, and Education of Students, Rev. A. E. Clements.

The obituary service in memory of two retired ministers who have passed on since the last Presbytery was held, Rev. McKee, of Salmon Arm, and Rev. J. D. Gillam of Peachland, was conducted by Rev. J. C. Goodfellow of Princeton.

Luncheon and supper were served at the church by the W.A. of Lakeside and St. Andrew's churches.

Tuesday Evening

The evening worship session was under the chairmanship of Rev. R. P. Stobie of Penticton. Joint choirs of Lakeside and St. Andrew's United churches, directed by Mrs. Gordon Ritchie, gave two musical selections, "Holy Art Thou", sung to Handel's "Largo", and Gounod's "Send out Thy Light".

Following worship, Dr. M. W. Lees gave a map picture of the work of Home Missions in this Presbytery, covering an area of 25,000 square miles.

Rev. A. L. Moran of North Kamloops held the rapt attention

of the congregation with a vivid story of his ministry through the vast, sparsely-populated north Thompson area, where he journeys, chiefly by way-freight, to five widely-separated outlying groups otherwise completely out of touch with civilization and church influence, to conduct weekly night services.

Rev. L. G. Sieber of Revelstoke presented a short report on Overseas Missions, covering the work in general terms. He commented upon a remark made to him a few weeks ago by a visiting business man from South Africa, who said: "We like your Okanagan apples at Christmas-time, but we also want from Canada Christian missionaries."

A short film was shown depicting the decision of a young medic to return to the far east as a member of the army of Christ after his discharge from the armed forces in service there.

Delegates to the Presbytery are: Rev. F. E. Runnels, Armstrong; Rev. R. E. Cribb, Chase; Rev. C. G. McKenzie, Enderby; Rev. M. W. Lees, Rev. Y. Yoshioko, Kelowna; Rev. R. M. Warne, Keremeos; Rev. S. V. Redman, Oliver; Rev. H. S. McDonald, Peachland; Rev. R. P. Stobie, Penticton; Rev. J. C. Goodfellow, Princeton; Rev. L. G. Sieber, Revelstoke; Rev. J. A. Petrie, Rutland; Rev. A. O. Clements, Salmon Arm; Rev. J. W. Payne, Vernon; Rev. D. N. Perley, Kelowna; Rev. A. L. Moran, North Thompson; Rev. H. R. Whitmore, Summerland.

Lay delegates are: Messrs. H. Ramsay, Lumby; Fred Cox, Kamloops; R. A. Magee, M. Yanamabe, Kelowna; J. N. Kennedy, Naramata; K. J. Palmer, Penticton; W. Hamill, Rutland; M. S. Cope-land, H. W. Galbraith, Vernon; Capt. J. E. Jenkinson, Summerland; and Mesdames N. D. Wilson, Armstrong; T. F. McWilliams, Kelowna; J. B. Clarke, Keremeos; H. S. McDonald, Peachland.

DR. JOE GAYTON IS APPOINTED AT VICTORIA

His many friends in Summerland will be interested to learn of the recent appointment of Dr. J. L. Gayton, B.A., M.D., D.P.H., as medical health officer for the city of Victoria. He was selected from among six applications to succeed Dr. J. L. Murray Anderson, who will become superintendent of the Royal Jubilee hospital.

Dr. Gayton received his B.A. at McMaster University, his M.D. from Manitoba and his diploma in Public Health from the University of Toronto. He is one of two examiners in public health and preventative medicine for the Medical Council of Canada.

BOARD OF TRADE VICE-PRESIDENT

J. E. O'MAHONY

DR. G. M. SHRUM

Continued from page 1

At the outset of his talk, Dr. Shrum gave his audience an inkling of the enormity of the problem which the atom presents.

Only in the last ten generations has man known anything about science and it is only in "our generation that emphasis has been placed on science." This is about the only compensation to a disastrous war.

Science Saves Lives

"Twice as many lives have been saved since the war than were lost during the war, due to the advances in science," he contended.

"Canada is spending twice as much on scientific development as Britain did in 1939 and half as much as the wealthy U.S. did in that year.

Dr. Shrum spoke on some important developments in the war years, such as the proximity fuse and radar but the really big development was atomic energy.

Canada shares atomic secrets with Great Britain and the United States and has one of the two largest known deposits of the major material, uranium. The other one is in the Belgian Congo.

There are 96 elements out of which everything in the universe is made, he declared, in starting his explanation of the atom.

Germs can be seen under the microscope but the virus is a million times smaller than the germ. The "atom" on the other hand, is a million times smaller than the virus.

When the atom is split, the tiny nucleus created is one million billion times smaller than the atom originally, he further emphasized in staggering his audience with these figures.

"When we deal with the atom we deal with numbers beyond our comprehension," he declared.

Dr. Shrum was complimentary of the board of trade banquet arrangements and also took occasion to congratulate the board on its report of a season of active work. He was introduced by Dr. R. C. Palmer, experimental station superintendent and given a vote of thanks for his talk by J. E. O'Mahony, board vice-president.

A MEETING OF ALL THOSE INTERESTED IN

Amateur Radio

Will be held in the NU-WAY ANNEX Sunday, Feb. 22 at 2:30 p.m.

BULLDOZING—30 h.p., two-ton machine, can do roadmaking, filling, levelling, excavating and specially useful where big machines cannot work.

PLOUGHING—2-Bottom Tractor Plow.

Let Doug Do It — He Goes Anywhere at Anytime

Great Accomplishments Shown During Women's Institute Week

Women's Institutes celebrated their B.C. Women's Institute Week, February 16 to 21 and looked back on a successful year of progress, and forward to greater accomplishments. During the year, their memorial fund has grown to reach \$3,600. This fund was started less than two years ago at the time of the provincial conference, and the enthusiasm of the Institutes for this scholarship fund in home economics for rural girls is shown by their fine contribution.

There are now 205 Women's Institutes in this province, with nine new ones organized during 1947 and two other re-organized. The new Institutes are Bow-Horne and Gabriola Island in the North Vancouver Island District; Nicomen Island in the North Fraser; Nukoko Lake and Sinkut in the Central Interior; Perow in the Bulkley-Tweedsmuir; Alexandria in the Cariboo; Naramata in the South Okanagan, and West Langley in the South Fraser. Quadro Island in the North Vancouver Island district and Trail in the Kootenay were re-organized.

There are also two new Institutes organized in 1948, Kinnaird in the Kootenay near Trail, and Silver Creek near Salmon Arm.

The rural housing contest launched in January is proving of great interest, and many Institutes are taking part in the discussion groups that will provide the basis for their answers to the questions. This contest, which is Dominion-wide, is organized provincially and is proving a valuable means of arousing the interest of country women in the housing needs and possibilities of the farm and rural communities.

A re-newed interest in fall fairs and flower shows has been evidenced in the reports of Institutes for the last year, and the W.I. exhibit at the Pacific National Exhibition, which was organized by the provincial president, Mrs. A. S. Dennis, was a source of much interest. The handicrafts work of

HOPE - PRINCETON

Continued from Page 1

will be in this section of the interior from April 17 to 23 and the associated boards are making arrangements for this travelling representative of the Canadian Chamber of Commerce to meet several boards in the district.

Chepakwa Indians are asking support of the associated boards for their petition to the Indian affairs department for a bridge across the Similkameen. Now they have to travel eighty miles, partly through the States, to get to Keremeos. There is some valuable land to be developed on that side of the river, it was explained.

Develop Park

One of the chief discussions centered around the development of Manning Park, on the Hope-Princeton highway. Princeton delegates, headed by Mr. Gregory, pointed out that this could be made into a wonderful winter resort, attracting skiers from all parts of the interior as well as the coast regions.

There is a downhill ski run of 3,600 feet available at Manning Park one speaker stated.

Another interesting topic was the recent attempt to exclude Japanese from being employed on crown grant timber limits and the associated boards frowned on this discrimination.

The boards also gave approval to the Okanagan Falls request for assistance in reclaiming a large acreage which is now subject to flooding each spring.

Request Program Concert Planned

With the object of raising sufficient money to equip the junior baseball team with uniforms this season, the AOTS club is sponsoring an unusual "Request Program" concert next week.

Any requests for special numbers on this program may be handed in to G. A. Laidlaw by this weekend, and he and his committee will endeavor to have them filled. They will also endeavor to have listed persons present these numbers, as far as possible.

the women was on display, and this illustrated the great interest taken by many of the Institutes in hand work such as weaving, rug making, leather work.

Girl clubs are being sponsored by many of the Women's Institutes throughout the province and the interest of the adult group in getting the younger girls started has been of benefit to all, and has stimulated the work of the Women's Institutes.

The provincial conference of Women's Institute, which is held biennially, is to be held this year for the first time at the University of British Columbia. Ample accommodation will be provided at the University for as many as can attend, and it is expected that many members as well as delegates will avail themselves of this opportunity to attend the conference and visit the university at the same time.

The university extension department is putting on a two weeks' short course in handicrafts just prior to the conference so that those who can arrive early may have the benefit of this course. The awards for the rural housing contest will also be announced, and a banner meeting is expected.

ALF McLACHLAN

Continued from Page 1

Alex W. Watt was the popular speaker providing a witty toast to the ladies, with an equally adequate response from Mrs. Lorne G. Perry. Final number on the program was the toast to the community, proposed by H. R. J. Richards in the unavoidable absence through illness of C. J. Huddleston.

Mr. Richards spoke of the great spirit of the pioneers whose foresight played such a strong part in the development of the district. Guidance of youth he termed as a great aim for any organization such as the board of trade.

Two musical items were included on the program and both numbers were of exceptionally high standard. First was provided by the Summerland Girls' Choir, under the direction of Miss Kay Hamilton. There were 27 girls in this choir and they received hearty applause.

Second musical treat was provided by Billy Hendry, talented young Penticton violinist, who won premier honors at the B.C. Musical Festival last year.

During the banquet, another young talented musician, David Woodbridge, of Summerland, provided incidental piano music which was appreciated by the large gathering.

Veterans' Children Entertained at Valentine Party

The Valentine party given by the Legion W.A. for veterans' children on Saturday, February 14, proved a highly successful affair, with nearly 200 youngsters thoroughly enjoying themselves.

A showing of films on bird and animal life, shown by Mr. C. E. Bentley from the Summerland film bank, was followed by a program by and for the children. Mrs. Tex Adams entertained with a comic solo, and duets were sung by Barbara Fudge with Lynn Boothe and Carol Ann Short with Marilyn Wade. The two little Heavysides girls, Glenn and Merle, contributed with dancing.

Mr. Charity set up his microphone, and many of the youngsters enjoyed the novelty of singing and reciting into a "mike."

The W.A. social committee, under the convenship of Mrs. J. A. Read, provided a lovely tea-party, and each child was also given a dixie-cup of ice cream and a chocolate bar.

DID YOU KNOW?

SPICES - CLOVES

The clove tree is in itself a beautiful plant. At the beginning of the nineteenth century Sir Thomas Raffles, then Governor of Java, declared that "clove trees as an avenue to a residence are perhaps unrivalled—their noble height, the beauty of their form, the luxuriance of their foliage, and above all, the spicy fragrance with which they perfume the air produce, on driving through a long line of them, a degree of exquisite pleasure only to be enjoyed in the clear, light atmosphere of these latitudes".

The leaves, flowers and bark of this lovely tree, all possess the odor peculiar to cloves. The flowers, which grow in bunches at the ends of the branches, are of a delicate peach blossom color.

As the corolla fades, the flower turns first yellow and then red. At this stage, when the fruit is developing the flowers are beaten from the tree. After being dried first by the heat of wood fires and then in the sun, they become brown and are the cloves of commerce.

A son was born to Mr. and Mrs. W. J. Grant at the Summerland hospital on Sunday, February 15.

Judge W. C. Kelley returned to his home on Friday, February 18, after a stay in the Summerland hospital.

Mrs. Britton of Easton, Sask., has returned to her home after a month's visit with her sister, Mrs. W. Collins, of Garnet Valley.

Mr. Jack Bentley is at his home in Garnet Valley, having returned from Vancouver Island, where snow conditions caused a temporary halt in his work there.

Mr. F. Hopkins returned to his home on February 16, following a lengthy stay in Summerland hospital. Mr. Hopkins was struck by a truck at the corner of Granville and Hastings prior to Christmas and has been in hospital since that time.

Renewing acquaintances in Summerland last week was Mrs. Smiley of Penticton, who visited Mrs. Ed Gould and Mrs. Pattie. While here Mrs. Smiley, a former member of Summerland Ladies' Orange lodge, attended the party given by that group on Friday, February 13.

Mr. and Mrs. Allan McKenzie of Garnet Valley have visiting them for a few days this week, Mr. H. Bawtree of Austin Creek, near Enderby.

Mr. L. Mickleson of the plant pathology laboratory returned from his vacation, spent in Alberta, on Monday, February 16.

While visiting Summerland at the invitation of the board of trade last week, Dr. G. Shrum was a house guest of Dr. and Mrs. R. C. Palmer.

Attending the zone council of South Okanagan - Similkameen Canadian Legion and Legion W.A. on Sunday, February 15, held in Osoyoos, were Mr. and Mrs. Lorne Perry, Mrs. A. K. Elliott, Mrs. A. Lamacraft, Mr. Harry Howis, Mr. A. M. Temple and Mr. Alan Calvert.

Mrs. Al Soderburg entertained fourteen small friends of her son, Ritchie Blagborne, in honor of his seventh birthday, on Thursday, February 12.

Mrs. William Hack left on Friday for a week's visit with her daughter, Mrs. M. Henry, at Hedley, B.C.

It was to celebrate Mr. George Broderick's 85th birthday that the Broderick clan gathered at the home of Mr. and Mrs. W. J. Broderick in Garnet Valley on Saturday, February 14. Mr. Broderick senior, who lives in Penticton, received birthday congratulations from sixteen members of his family, including seven grandchildren.

Summerland Ladies' Orange lodge was hostess to some sixty guests at the Legion hall on the evening of February 13, celebrating the 18th birthday of its lodge. Cards and dancing, and the cutting of the birthday cake were enjoyed by all the members. Prize winners for cards were: Ladies' high, Mrs. C. Meadows; men's high, Mr. Dracas. Consolation prizes were awarded to Mrs. Dracas and Mr. George Broderick.

Miss Betty Medd, who has been staying with Mrs. W. White, returned to Vancouver on Friday night.

Dr. and Mrs. C. C. Strachan are spending three weeks holiday in Vancouver, having left for that city on Saturday, February 14.

Miss Joyce Hutchinson, who has spent the past 15 months as a nurse on the staff of the George V Memorial hospital in Bermuda, had a very interesting journey back to Summerland, where she will remain with her sister, Mrs. R. G. Russel for the next two or three months. Leaving Bermuda by British Overseas Airlines on January 29, Miss Hutchinson stopped several days in New York City, where she took in the ice skating show put on by Sonja Henie at Madison Square Gardens. She then flew to Hamilton, Ontario, to attend the wedding of friends there, and left Hamilton to spend a day with Mrs. Bremner Sargent, the former Ruth McLarty of Summerland, at her home in Toronto. TCA brought her to Vancouver, where she visited Mrs. Bob Spencer for several days before coming to Summerland. She arrived here on Wednesday, February 11.

Mr. and Mrs. F. W. Schumann, Mr. and Mrs. W. S. Ritchie and Mr. J. R. Armstrong were visitors to Princeton on Saturday and Sunday where they attended the boards of trade session and the big ski tournament.

Mrs. Fred Lamey, who has been visiting her son and daughter-in-law, Mr. and Mrs. Joe Lamey, for the past week, returned to her home in Vancouver on Saturday night.

Mr. A. W. Nisbet returned on Saturday morning from a short business trip to Vancouver.

Mr. and Mrs. J. Y. Towgood have with them for an extended visit, Mr. Towgood's parents, Mr. and Mrs. A. S. Towgood of Oyama. The senior Towgoods returned a week ago from a three-months' trip to New Zealand, where they both were born, to visit relatives and friends there for the first time since 1919.

Lowell Laidlaw, son of Mr. and Mrs. Norris Laidlaw, celebrated his seventh birthday with a skating party on the lakeshore on Saturday, February 14. The youngsters enjoyed an exhilarating afternoon on the ice with a "weenie" and marshmallow roast providing a warming interlude.

Miss Elsie Johnson returned from Vancouver on February 16, after a two weeks' holiday in that city.

Mrs. Bertha Gillis returned to Summerland on February 14 from Vancouver, where she had gone to attend the funeral of her brother-in-law, Mr. N. B. Roantray.

Returning after a week's visit to the coast on February 14 was Mrs. S. Feltham, of Victoria Road.

Principals At Coast Wedding To Live Here

Of interest in West Summerland, where the bride and groom will make their home, was the Valentine day wedding of Mr. and Mrs. Kenneth Herbert McIntosh, which took place at 8:15 p.m. on Feb. 14, in Christ Church Cathedral, Vancouver, with Rev. T. E. Harris officiating. The bride, Elizabeth Elsey (Betty) is the daughter of Mr. and Mrs. Andrew Forgie Calder, Vancouver, and the groom is the son of Mrs. H. J. Wells of West Summerland.

Given in marriage by her father, the bride was lovely in a train length gown of ivory satin. A full-length veil of embroidered net was held in place with a coronet of seed pearls and she carried a prayer book mounted with baby orchids and freesia.

The pastel tunic gowns of her trio of attendants were styled with brief trains and harmonizing spring flowers were in their colonial bouquets. Mrs. F. Humphry, as matron of honor, was in apple green, while the bridesmaids, Miss Joan Dickson and Miss Anne Breen wore identical frocks in apricot shade.

Mr. Reuben Huva was best man and ushers were Mr. W. A. Calder and Mr. G. Huva.

For the wedding trip south, the bride changed to a grey suit, topped with a red coat and accessories in black. A reception was held in the York Room of Hotel Georgia, where the bride's table was centred with the three tier wedding cake, surrounded by spring blossoms.

Among out-of-town guests were Mr. C. H. Elsey and Miss Joyce Elsey of Summerland.

Baby Clinic at School Aids In Community Health

The child health centre of Summerland holds a "Well Baby Clinic" each Tuesday from 2:30 to 4:30, in the nurse's room of the public school. Here Miss Cammaert, ably assisted by her volunteer aide, Mrs. A. W. Vanderburgh, weighs, checks and immunizes approximately 100 infants and pre-school children monthly.

A service to the public under the direction of the Okanagan Health Unit, the well-baby clinic is another thread in the net-work of community health. The public health nurse pays regular visits to the homes where new little members have made their appearance, giving advice on dietary and sanitation problems, checking the baby's weight gain and general well being. When the child is three months old, the mother is asked to bring him in to the clinic at regular intervals.

At four months of age the courses of immunization begin, with diphtheria and whooping cough as a start. When vaccination day comes, Dr. Beattie is in attendance, as he was several weeks ago when 58 babies were vaccinated in the two hours clinic time. By the time he has attained his first birthday the baby will have completed these courses, and when he is two years old he will receive scarlet fever inoculations. Records are kept of each child from his first "weighing-in" until he is through school, providing a continuity of disease prevention and well-being throughout all the growing years of a child's life. If the child moves to another part of B.C. his records are sent to the local health unit there, so that his courses of immunization may not be interrupted.

Besides the 100 babies monthly checked in Summerland, Miss Cammaert also holds weekly well-baby clinics in Peachland and Westbank. The public health nurse stresses the fact that this is a checking clinic for well babies only; she does not diagnose or treat sick children. Mothers are requested not to bring in their children when afflicted with "sniffles" or who are in any way ill. If the records show that a certain infant has not been checked on schedule, the nurse makes a call to the home to discover the reason therefor, and to see that a doctor is in attendance, if necessary.

It lends to the community a comfortable feeling of security when this smoothly functioning net-work of health care between doctors, nurses, teachers and homes is in operation.

Mrs. George Lewis returned to Summerland on Sunday, February 15, after an extended stay in Vancouver.

Mr. and Mrs. A. K. Macleod are moving this weekend from their former residence in Peach Orchard to the Bob Barkwill house on Giant's Head road.

Friends of Mrs. George Williams are sorry to learn that she is a patient in Summerland hospital.

A daughter was born at the Penticton hospital on Monday, February 15, to Mr. and Mrs. C. L. Jacobson, nee Margaret Charity.

Court Frowns On Drinking When Driving

PENTICTON — Charged with dangerous driving and failure to produce a driver's licence, Rocco Biagioni, West Summerland, paid a total of almost \$90 in fines and costs into Penticton municipal coffers on Feb. 7, as the outcome of an accident on Lakeshore drive on Friday night, involving two trucks.

The young man pleaded guilty to the charge of failing to produce his licence, being fined \$10 and costs for this, and was then found guilty on the more serious charge, fined \$50 and costs, including witness fees, and had a blue licence issued to him.

The accident, details of which were unfolded in court, occurred a short distance east of the Okanagan River bridge. A light delivery, driven by David Baerg, had driven off to the right of the travelled portion of the highway, while proceeding towards Summerland, and was about to pick up two passengers, Rosalind Kolman, and Myrtle Taylor, when the truck driven by the accused plowed into their machine from the rear.

Fight Reported

Evidence was given that one of three men in the truck, reported to be Thomas McGurk, ran from the accident scene to catch a Greyhound bus that was approaching from Penticton. The other two were seen to be fighting near the damaged trucks.

Miss Taylor said she and Miss Kolman were going to a dance at Summerland, and were boarding the light delivery to drive there when the accident occurred.

Miss Taylor said she noted that the tail-light was on at the time, as she was getting into the back. She said she then saw the other truck "which was going at about 50 miles per hour." It crashed into the lighter machine.

The witness spoke of seeing the fight, also a man "with army pants on" running for the bus, which failed to stop for him. Miss Kolman gave corroborative evidence. This witness testified it appeared the occupants of the truck had been drinking.

Const. Tobiasson said that when he arrived at the scene the accused told him that no one was with him but that subsequently he had learned that the accused had two companions, James Thompson and Thos. McGurk.

Const. H. H. Howk corroborated this evidence, adding that there was evidence the accused was under the influence of liquor at the time, and that he could smell liquor on Thompson's breath.

Called by the accused, Thompson gave evidence of the occurrence, saying he had not seen the car they hit. At the time they were going "about 30 miles an hour."

Speed of Truck

Const. R. Mercer, conducting the prosecution, asked "Did you not know that there is a 20-mile an hour limit on that road?" He also queried how the light car could have been driven back 27 feet on a flat tire, if the striking car was only travelling at 30 miles an hour.

Taking the stand on his own behalf, the accused said there were no lights whatever on the light truck, and that for a moment he "did not realize what had happened," and that a "little light truck such as this would roll easily."

Under cross-examination, he admitted he was "in a hurry" and that he had tried to "cover up" regarding his passengers. He also admitted that he and the others "had had a few drinks."

Summing up, Magistrate G. A. McLelland said "I haven't any doubt but what the lights were on on the parked truck. You also had your own light. Then why didn't you see them? I think if you had been driving in a careful, prudent manner, you could have swung out to avoid the other car."

"We have reached the stage where there are too many accidents. Another man was killed just last night. Drinking and trying to drive a car cannot be done, and there is no doubt in my mind but that you had been drinking."

In passing sentence the magis-

Permanent Memorial to Air Training Plan

Presentation to the Dominion of Canada by the governments of the United Kingdom, New Zealand and Australia of wrought iron gates at the entrance to the air station at Trenton, Ont., in addition to the avenue of English oak trees already planted there, as a permanent memorial to the British Commonwealth Air Training Plan was announced recently at the reopening of parliament by Prime Minister Mackenzie King. Shown above is an artist's sketch of the proposed memorial gates.

Safeway Forms Subsidiary To Handle Plants

Formation of the Cardiff Co. Ltd., a Canadian company as a subsidiary to Canada Safeway, was announced at the coast last week. This company has been formed to manage cannery plants which Canada Safeway is purchasing to ensure a reliable supply of high quality fruits and vegetables for its chain stores.

F. W. Crawford, of Vancouver, widely-known in the Western Canada grocery field, is the manager of the Cardiff Co. He was Canadian manager of Safeway until two years ago, when he accepted an executive position with Regent Canfood Co., an American subsidiary of Safeway which operates canneries and processing plants across the line.

This Safeway subsidiary will manage the canning plant recently purchased from the Summerland Co-operative Growers' Assn and the Taber canning plant at Taber, Alta., which specializes in canned vegetable production.

SCOUT GROUP IS RE-APPOINTED

At the Canadian Legion monthly session in the Legion hall last week, the Summerland Scout Group, consisting of Legion members, was re-elected for 1948. This group is appointed to assist the Summerland Scout troop in its annual endeavors.

S. J. Feltham will continue as chairman of the group and will be assisted by W. R. Boyd, W. Atkinson, C. E. Bentley and H. Clough.

Mr. Feltham submitted a report to the Legion meeting indicating that great progress in Scout organization has been made throughout the year and an Okanagan South district council has now been inaugurated to assist the Scout movement throughout the South Okanagan.

In the past year, a cub pack, sponsored by the AOTS club has also been started.

strate said there was a possibility that the accused might have had his licence suspended, but that in view of the fact that his was a commercial vehicle, used in the accused's business, he was reluctant to do this, as no one was seriously hurt in the accident.

Earlier the same day, McGurk appeared in police court and was fined \$10 and costs for being intoxicated. Asked where he came from and saying "West Summerland," the accused was asked by the magistrate why he didn't stay there, when he wanted to go on a spree.

Another Divided Cage Card With Penticton Here

As a preview to the interior playoffs which commence on Saturday next at the school gymnasium, Penticton junior and intermediate B boys played here against similar Summerland cage squads last week.

Penticton juniors staged a spirited rally in the final quarter of their battle to take home the honors by a count of 34-24, but Summerland's intermediates finally shook themselves loose to take the second encounter with a 25-18 score.

Wally Day was the only Summerland junior who found the hemp with any regularity against Penticton in the first contest. The count was knotted at 14-all midway through the game but the visitors had a two-point edge at the three-quarter mark and were never headed from then on.

Boulding, Kenyon and Young, all with superior height and weight, were the stars for Penticton, while Denny Hack and Ruppel shares honors with Day.

"I scored 12 points but it should have been 112," was Jack Dunham's rueful comment following the intermediate match which was

a low-scoring effort with Penticton leading 8-7 at the turning point. It was the final quarter which saw Summerland lads forge ahead with Dunham and Moore showing the way.

Scores were as follows:

Penticton juniors: Eshelman 6, Boulding 10, Kenyon 7, Berdine, Campbell 1, Dow 3, Swanson, Evans, Young 7, Baker, Maisonneuve 3-34.

Summerland juniors: Ruppel 4, Jomori, Hack 5, Day 9, Cristante 2, Weitzell, Elliott, Kita 2, Kato, Thornthwaite, McRae 2-24.

Penticton Int. B: Young, Adams, Sismey, Tidball 5, Hancock 4, Petley, Eshelman 3, Collins 6-18.

Summerland Int. B: Moore 4, Guidi, Jacobs 3, Jomori, McLean, Turnbull, Adams, Hack 6, Dunham 12-25.

Agricultural Products Act Is Extended

An amendment was introduced into the House of Commons on February 5 by Rt. Hon. J. G. Gardiner, minister of agriculture, asking that the house go into committee at the next sitting to consider a resolution extending the life of the agricultural products act until March 31, 1949.

Mr. Gardiner's resolution follows: "That it is expedient to bring in a measure to amend the agricultural products act by providing that the act shall be continued in force until the thirty-first day of March, 1949."

This motion was agreed to by the house.

Summerland Girl's Essay Praised

An essay by Laura Mott of Summerland has gained admission with four others for national recognition in a temperance study course sponsored by the Canadian Council of Churches.

These four essays were selected from a large list submitted throughout British Columbia for submission in the national contest. Laura's entry was in the intermediate senior class for ages 15 to 17 years.

Preston Mott's submission received honorable mention in the intermediate senior grouping for entries 12 to 14 years.

Assessments Should Vary With General Trend In Values, Says Angus

One of the chief points introduced into the discussion on Monday, Feb. 9, during the day-long initial sitting of the court of revision on the municipal assessment roll, was that when land and building values drop the assessment values should also be decreased.

"If I find assessment values dropping I intend to drop the assessments, if I'm still the assessor," declared Roy F. Angus when some question was raised that present values are really of a fictitious nature.

First of the Prairie Valley land owners to come before the court was C. J. Rippin who protested an average of \$276 per acre on land value. Prairie Valley land is assessed above its value, argued Mr. Rippin, as it does not give the yield nor has it the depth of soil of other acreages in the municipality.

"Haven't you any other avenue from which to raise your funds except from the fruit grower?" he queried, but was informed that all other avenues are paying their full share and the court was not sitting on the question of the principle of levying on the land.

For other fruit properties to compare with his Prairie Valley acreage asked for Councillor C. E. Bentley's assessment values and was informed by Mr. Angus that one of Mr. Bentley's properties has an assessment land valuation of \$210 per acre. But this block is badly cut up in sidehill and it is difficult to estimate the exact acreage in production, Mr. Angus explained.

Then Magnus Tait's orchard property was introduced and this Trout Creek property was found to be only \$250 per acre.

The court decided that the question at stake was whether the other areas are too low or Prairie Valley too high.

"I believe Trout Creek is too low," declared Mr. Angus, while Walter B. Powell informed the court he could bring in proof that Prairie Valley soil is second rate in texture. The latter grower claimed that people are under a false impression concerning the Powell pear orchard.

Yield Not High

Granted there are 25 acres in this block of pears but the yield is under 1,000 boxes to the acre, Mr. Powell stated. He consid-

ered that as far as other land is concerned the yield is far greater than Prairie Valley. Councillor F. E. Atkinson agreed with the contention that the Prairie Valley soil has not the depth or quality of other properties.

On the strength of these findings, the court reduced the Rippin land value to \$2,500 from \$2,760 but sustained the improvements assessment at \$2,530.

It was brought out by Mr. Angus at one point that the average land assessment for Siwash flat, the only acreage which is comparatively level, is \$358 per acre.

Walter B. Powell sought a readjustment not only for his own property but for others in the vicinity and obtained a reduction from \$2,880 to \$2,340 on his property of 9.8 acres but of which he claims two acres is non-productive.

He instanced one block of N. O. Solly's orchard which he claimed is assessed at only \$230 per acre and has not been changed.

The council agreed that another Prairie Valley property, that of Mrs. Hermiston should be altered to correspond to the Rippin and Powell orchards and set the tree improvements at \$255 per acre.

Building Value Down

One of the few decreases in building values was allowed A. F. Bryden, when he was successful in bringing down his building valuations from \$950 to \$805. He stated that the small house did not cost \$800 to build and it was assessed this year at \$800 value.

On the basis of his eliminating 72 big trees, George Stoll received a reduction in improvements assessment of \$360. Mr. Angus recommended this figure, bringing Mr. Stoll's improvements down from \$4,140 to \$3,780.

R. J. Gardiner contended that one acre of his five acre plot is wild hillside land and entirely unproductive. Consequently, his land was reduced from \$1,325 to \$1,190.

Herbert S. Lewes claimed only four acres of his six are planted in bearing trees and consequently had his sandhill lot improvements knocked down from \$1,840 to \$1,228.

Of his two acres of land, Robert Mitchell stated that only one acre is worthwhile from a productive standpoint. Consequently, the court eliminated the fifteen percent raise and brought down the land values from \$230 to \$200 on one lot and from \$115 to \$100 on the other.

Dropping Returns

J. H. Dunsdon had eliminated a large proportion of his trees and also went into some detail concerning the dropping returns on soft fruits compared with the rising cost of production. His improvements were based on \$250 per acre for seven acres, instead of just over nine acres, with a consequent reduction in improvements from \$2,920 to \$2,720.

First appeal to be considered was that of Major W. R. Tweedy, whose land value on nine acres was dropped from \$1,775 to \$1,286. Improvements assessment was sustained.

"I over-assessed these lots," was Mr. Angus' admission on the appeal of William Ritchie, when corresponding lot values in the neighborhood were pointed out. On one lot, land value was reduced from \$500 to \$320 and on the adjoining inner lot, the assessment went down from \$490 to \$300.

Mrs. Ollianna Hong contended that she pays six times the taxes on residence property, plus the machine shop, as was paid in 1945, but the court could not agree to any reduction in land valuation of \$345 and improvements of \$2,070 for the house, machine shop and lean-to.

Not Up to Purchase

A. D. Coggan explained to the court that his assessments on five lots are more than his purchase price from the V.L.A. and the production from the property is still quite low, due to the run-down condition of the trees and the tree-elimination program which he has been forced to undertake. He purchased this property last year.

Consequently, land value was reduced \$200 and improvements decrease amounted to \$225 on three of the five parcels. The assessment for improvements on the other two were sustained.

Assessor Angus told the court he had mistaken the lot when he assessed one portion of Barkwill's Ltd. property. He advocated that the land value be reduced from \$410 to \$250 and improvements from \$465 to \$75 and the court concurred.

Dimitri Shoch appealed from California but wrote a later letter stating that if the taxable assessment is not over 15 percent then he wished his appeal cancelled. Assessor Angus stated that the assessment valuation has only been increased fifteen percent in this case and the assessment was sustained.

H. L. Mitchell's land value on 10

acres was brought down from \$1,960 to \$1,600 and the improvements valuation from \$1,610 to \$1,200.

Brought Into Line

W. F. Woodbridge appealed against an increase of land value from \$550 to \$920 on 7.1 acres but Assessor Angus declared that the land value was low and he had only brought it in line with adjoining properties. The assessment was sustained.

Mrs. Mary Waite complained of a land assessment boost of 15 percent as there was no revenue from the property. The court ruled that this land is good value and sustained the assessment of \$860 on 10.35 acres.

B. P. Davis' appeal was discarded when Assessor Angus stated that since he had explained the fifteen percent general increase Mr. Davis had appeared satisfied.

George W. Johnson's four lots in lower town were assessed at \$375 for land. He entered an appeal on the basis of "tremendous discrepancies". He instanced the council's action in selling the fish hatchery property at \$10 per foot frontage and declared his own frontage per lot at 25 feet.

"My attendance would be futile as I have been denied accurate information at the office already," he declared, referring to a previous letter to the council when he requested information on numerous properties. The council turned a cold shoulder on his request when it was pointed out that it would take many days to prepare the information Mr. Johnson requested.

Assessments of properties in the neighborhood of Mr. Johnson revealed that like properties are similarly assessed and the court agreed that the assessment be sustained.

Lowest Land Values

Granville Morgan mentioned creek and fire hazard and the installation of two main flumes and a pole line through his Trout Creek property as instances why he should have a reduction in his assessment. His house is nearly fifty years old, he also stated and he has paid into the irrigation system for years without remuneration.

However, the court informed Mr. Morgan that his assessments on land were the lowest dealt with that day and sustained the assessment. Mr. Morgan was quite reasonable about the whole deal and left the entire matter up to the court without argument.

A lengthy list of lakeshore properties running north from Trout Creek were listed by the court and showed variations from \$150 to \$960 according to the size of the lot and the amount of swamp land involved. It was agreed that these properties should be reviewed in their entirety another year.

In the meantime, Walter H. Hill's land valuation was reduced from \$780 to \$500 and Jacob Ganzefeld received a land reduction from \$660 to \$380 for a half-acre.

J. H. N. Dutton claimed that his land is higher in value than the corresponding area, but Assessor Angus pointed out that Mr. Dutton's property has a higher elevation with less swamp area than

"Stout Fellow"

Calorie values don't seem to worry MELVIN GOODSWEN, of Ashford, England. At 16 months he scales nearly twice the weight of most babies of comparable age. He is growing so fast that his mother can't keep pace with his clothing needs and has applied for extra clothing coupons. She may have to ask for extra rations because the youngster eats so heartily. Doctors say that Melvin is in perfect health and will grow into a massive man.

his neighbors' properties. Consequently, the assessment of \$3,000 for 8.2 acres was upheld.

Land value of \$520 was sustained in the case of Allan S. Etter's 2 acres, but improvements were reduced from \$1,000 to \$550.

Mr. Angus then submitted a list of changes which he recommended to correct original mistakes when compiling the assessment roll.

The court approved reduction from \$8,050 to \$7,550 on John Hecker's bowling alley improvements assessment. Improvements on the C. E. McCutcheon property were brought down from \$2,530 to \$2,180. An error of \$1,000 had been made in valuing Councillor H. L. Wilson's house, which brought the improvements value down from \$2,555 to \$1,555.

Improvements valuation of \$4,600 was added to the list in the case of the Okanagan Telephone Co., and that company is being informed of the change.

The court then adjourned until this week when the applications of eight residents who did not file their appeals by the deadline were heard.

New Horizons of Public Service

The Great-West Life's growing responsibility for security and protection was widely extended in 1947. There are now more than 360,000 policyholders in Canada and the United States.

New protection of \$195 millions was issued to more than 58,000 policyholders through the Company's representatives during the year.

Payments to policyholders and beneficiaries amounted to \$19 millions. A further sum of \$27 millions was added to the amount—now over \$300 millions—held to meet future obligations to them.

The year's results are further evidence that the entire Great-West Life organization is united in the common endeavor of serving the best interests of its policyholders.

Reeve Johnston Banquet Chairman

Reeve Reid A. Johnston, Summerland, was chairman on Monday evening at Penticton of a large gathering of CPR employees and their wives at a banquet to honor fellow members who had retired during the past year. More than 300 persons from all parts of the Kettle Valley division were in attendance.
Among those who received presentations as a reward for their years of service was Mr. W. F. Stewart, retired agent from the Revelstoke division, who now makes Summerland his home.

BOY SCOUT ACTIVITIES

This is Scout Week, February 15 to 22, and the troop marked it by parading to the Church of England for service on Sunday morning. There was a good turnout of 25 boys and we are indebted to Mr. J. E. Butler for taking a troop photograph before the service.
Scouts and parents of scouts are reminded of the display in Laidlaw's window in town, and our thanks go to Bill and Jerry Laidlaw for permitting the use of their store.

A feature of the window display is the challenge cup presented to the troop by Mr. A. W. Nisbet in memory of his son, Pat, who was one of our finest scouts and a former troop leader.

The troop still is able to take in a few more boys who are assured of a warm welcome and an interesting and valuable experience.

Notices: Meeting on Friday, Feb. 20, in the school gym. Please be on time and in full uniform, including running shoes. Dr. J. Marshall, a former Summerland scout, and Dr. H. R. McLarty, vice-president of the district Scout Association, will be present to give us interesting addresses.

Weather Man Cannot Make Up His Mind

For a time this week, residents thought spring was practically upon them, but then the Weatherman turned the tables somewhat on Wednesday with a cold north wind which told everybody they had been just a little too optimistic.
That the winter is not entirely over could be evidenced when Weather "Prophet" Charlie Wharton inserted an advertisement on Wednesday afternoon that there would be skating "tonight", Thursday.

On Wednesday, Feb. 11, the low spot of the season was reached

PLUMBERS ISSUE OUTLET WARNING

The water supply outlet should never be below the flood level of plumbing fixtures, warns the Canadian Institute of Plumbing and Heating. Any rubber tubing such as a shampoo hose, vegetable sprayer, or laundry tub extension, should be used with care and never left connected.

This is to prevent the possibility of back-siphonage which is a continual threat in the home. Under certain circumstances the water supply will flow in reverse in the water mains of the home. This will cause a temporary vacuum or suction in the lines. Most people no doubt have had the experience of turning on the faucet and obtaining no water, only a hollow sucking noise.

Under these circumstances, if the outlet were below the surface of the water in the bathtub or basin, the impure water in the fixture would be drawn into the supply lines, polluting the pure water.

when the temperature dropped to two above. It wasn't much better Thursday with four above but the minimum climbed rapidly over the weekend and on February 15 the minimum showed only two degrees of frost.

On Feb. 17 it rose another two points to an even 32 degrees above, Monday was like a spring day, but that night was surprising as it poured with rain for a time in the late evening and then the rain suddenly turned to snow and there was nearly two inches on the ground when everyone woke up the next morning.

Tuesday noon a strong south wind ripped through the town and took away most of the moisture, leaving only a few evidences of the Monday night snow. But yesterday morning that strong breeze had turned about and started coming back from the north, with a consequent dip in the temperature.

It was also extremely windy for a short time on Sunday, with reports of greenhouse glass being caved in, and a big tree toppled on the Giant's Head near the Home for the Friendless. Other reports of minor damage were in evidence after the fierce gusts had sped on their path.

However, B.C.'s traffic tieup did not really effect this community a great deal, except that trains from Vancouver have been running late all week, having had to be re-routed via Spences Bridge. There has been a consequent delay in receipt of coast mail this week.

Most of the trouble in the Coquihalla has been repaired and CPR officials are confident that normal schedules will be in effect shortly.

Following is the weather report for the week, issued by A. Calvert at the experimental station:

| | Max. | Min. | Hrs. | Sun |
|---------|------|------|------|-----|
| Feb. 11 | 24 | 2 | 7.3 | |
| Feb. 12 | 28 | 4 | 1.8 | |
| Feb. 13 | 34 | 15 | 6.1 | |
| Feb. 14 | 42 | 22 | 0.0 | |
| Feb. 15 | 46 | 29 | 2.6 | |
| Feb. 16 | 47 | 29 | 0.0 | |
| Feb. 17 | 51 | 31 | 5.3 | |

Delegation Will Ask Summerland School Divorce At Victoria

Preliminary plans for the sending of a delegation to Victoria to discuss the tangled school situation as it affects School District No. 15 and to forward Pentiction's application for separation of Summerland from the school district were carried a step forward this week by the Summerland council.

It is unlikely that any delegation will be sent before the contents of the school tax-commission report are made known by the B.C. legislature.

This report has been tabled with the cabinet at Victoria, will be discussed by the Coalition caucus and will then probably be announced before the legislature. To date, no information on this report is forthcoming.

The B.C. legislature commences its session next week.

W. A. C. Bennett, M.L.A. for South Okanagan, met the Summerland council for an hour-long discussion on Tuesday night in committee and is believed to have offered his assistance to Summerland in any manner when the delegation goes to the coast.

Trustees Take Part

This delegation will likely comprise members of the Pentiction and Summerland councils and trustees from School District No. 15.

The Summerland council has written the school district this week expressing its intention of supporting Pentiction's separation application and asking the school board to take part in the negotiations.

It is understood Pentiction council has written the school board along similar lines.

Copies of the Summerland letter are being sent to the Minister of Education and Reeve Robert Lyon of Pentiction. The school board had made an offer to the municipalities to assist in trying to reach a successful conclusion, it is reported.

The school district budget was presented to Summerland council on Tuesday afternoon and the local municipal fathers agreed to accept the amounts specified but not the apportionment, which has been the main bone of contention for the past year and a half.

Budget Increased

This 1948 budget calls for an expenditure of \$115,842.26, an increase of \$13,603 or approximately ten percent over the district. Summerland's share has been estimated at \$48,555.43 and the estimates also call for Summerland to pay an additional \$6,498.53 of arrears from 1947.

This amount is the disputed figure involving the assessment of trees as improvements.

The school district has asked the municipal council to pay thirty percent of the estimates before February 29; but the municipal council, in lieu of its apportionment argument, has decided to pay a flat sum of \$11,900 at the end of this month.

Amounts Involved

On the basis of assessments as now listed including fruit trees in the case of Summerland, the following are the apportionments for 1948:

| | | |
|------------|--------------|--|
| Pentiction | \$115,842.26 | or 63.39 percent of the total; 1947, \$102,239 or 62.27 percent; |
| Summerland | \$48,555.43 | or 26.7 percent; 1947, \$44,565.43 or 26.7 percent; |

Summerland was levied on 28.22 percent, but did not pay this

Continued on Page 4

Fruit Shippers Plan New Cold Storage Room

With the view of providing modern equipment as suggested at recent conferences of cold storage experts in the Okanagan, the B.C. Fruit Shippers Ltd. packing house in West Summerland is making arrangements to extend its packing and storing facilities this year with the addition of a pear and soft fruit cold storage.

C. J. Bleasdale, manager of the local plant, conferred with Mr. E. Sterling, Vernon, head of the B.C. Fruit Shippers company, and obtained the okay for an expenditure of between \$6,000 and \$7,000 this year.

The common storage shed at the northwest corner of the West Summerland plant will be renovated and insulated to provide a room 40 feet by 80 feet for this new soft fruit storage.

A complete cold storage plant will be installed to care for this room alone and the cost of building renovation and machinery will run around \$7,000, Mr. Bleasdale states. The machinery consists of modern water-defrosting cold storage equipment.

Capacity of this new storage will be 30,000 boxes.

It has been pointed out by cold storage experts that the new arrivals of soft fruit daily during the season tends to keep the temperature from reaching the proper recordings when using ordinary cold storage rooms alone.

The local B.C. Fruit Shippers plant intends to truck its soft fruit into cold storage, where the field heat will be taken out and then move the fruit the next day into the new storage, where the temperature can remain constant.

It is also planned by this company to install, later in the spring, a soft fruit grader to handle cherries, apricots, plums and prunes.

B. C. To Seek Hearing On Freight Rates

Instructions have been given by the attorney-general's department to have formal application made to the board of transport commissioners for removal of the mountain differential freight rate on CPR and CNR lines operating to and from the Pacific coast, it was announced last week by Premier Byron Johnson.

In making the announcement, the premier intimated that Mr. C. K. Guild, K.C., counsel for the province in the recent hearings on the application of the two railroads for a general increase in freight rates, and his assistant, C. W. Brazier, would be asked to prepare the case in the event that a hearing should be called by the transport board.

It will be recalled that British Columbia's stand at the hearings on the general application for an increase in freight rates was that the British Columbia plea for the removal of the mountain differential should be dealt with. However, the board of transport commissioners decided to proceed with the hearing on the general application but assured counsel for the province of B.C. that every consideration would be given by the board to an application for the province for a separate hearing on the removal of the mountain differential.

Restrictions On Fruit Imports Good News Here

Good news for the producer of soft fruit and vegetables emanated from Ottawa this week when Finance Minister Abbott told the Commons that import restrictions on fresh fruits and vegetables likely will be continued throughout this year and possibly into 1949.

This statement confirms the information which Okanagan fruit and vegetable men received last month when they attended conferences at the nation's capital.

Sources close to the government indicated that Okanagan representatives that the restrictions might last even longer, possibly into 1950 and 1951, but there was no government official who would state definitely how long the finance department estimates that the restriction, because of Canada's dollar shortage, will last.

With a ban against United States soft fruit and vegetable entering Canada, the Okanagan producer can look forward to a year of steady markets and a consumer demand for all the producer can harvest.

This healthy situation may offset to a great degree the gloomier outlook in regard to the 1948 apple crop.

In this respect, the interior apple producer is expecting a ten-million box crop with little help from any of the export markets, unless the Marshall plan is implemented by that time.

There is still practically no hope given out that the Old Country market will be opened to Canada's apples this fall and without this outlet the possibility of marketing all of the biggest crop in history would appear slim, especially when there is some difficulty in being able to sell the 1947 crop, which did not come up to the seven-million box mark.

Mr. Abbott made his statement regarding continued restrictions on imports of fruit and vegetables when replying to requests that the government give Canadian growers some indication of how long the restrictions would be retained, so that they could arrange to supply all the needs of the Canadian market.

Polio Fund Response Is Satisfactory

There has been "good response" from 288 citizens of Summerland to the Summerland Polio Fund, but "we are looking forward to hearing from the other 613 who received our personal letters," says C. J. Bleasdale, president of the Rotary Club of Summerland, the organization which is appealing for \$2,000 to aid polio victims of this community.

The campaign was commenced two weeks ago and has met with a ready response from many, but there is still a great number who have not replied, Mr. Bleasdale states.

This fund will go towards easing the difficult financial burden placed on a number of Summerland families, whose members have had to undertake costly treatment in an endeavor to rid themselves of the aftermath of this dread disease.

No details as to the amount raised to date were revealed by the Rotarians but it is stated that the response from those who have replied has been quite satisfactory.

Chiefs Take 14-Point Lead To Pentiction

Summerland Chiefs, contenders for intermediate B provincial hoop honors, went into a commanding 41-27 lead at the school gym Wednesday night against Pentiction in the first round of the interior playoffs.

Sparked by Jim Hack, who rolled up 16 markers, the winners were never headed after the first quarter, when they were down two points.

These two teams meet again in Pentiction on Saturday night with total points to count. If the Chiefs come out on top on Saturday they meet Oliver, conquerors of Osoyoos, in the semi-finals of the interior playoffs.

Summerland Legion juniors, however, didn't fare so well against a bigger and heavier Pentiction junior quintette in their first round battle for cage honors. They go into the second game at Pentiction with a deficit of fifteen points, 35-24.

In the intermediate fixture, a big second quarter gain placed the Chiefs out in front 20-14 by the midway mark and the local boys were never headed from then on, gradually increasing their advantage as the game neared its conclusion.

Eshelmann was the outstanding player for the visiting Pentiction crew and he not only headed the gang on points but started every play. Outside of Hack's special intent on the hoop, floorplay was well divided throughout the winning Chiefs.

For half the game on Tuesday, the local Legionnaires were just as good as the visiting squad. Wally Day's trio of baskets bringing them to within two points of Pentiction at the halfway point, 18-16.

It was in the third quarter that the damage was done, as Kenyon and Berdine got loose and gave Pentiction an eleven-point advantage in this ten-minute period alone. Ruppel came to life for a couple of smart baskets in the fourth quarter but the local juniors could not catch up that disastrous third stanza.

Continued on Page 4

W. A. C. Bennett Opens Campaign At Progressive-Conservative Banquet

W. A. C. Bennett, M.L.A. for South Okanagan and Progressive-Conservative candidate for Yale riding by-election, opened the political campaign in Summerland when he addressed some 125 persons gathered together by the Progressive-Conservatives in Summerland at a banquet in the Legion hall on Tuesday evening.

Besides giving a short account of his stewardship in Victoria, Mr. Bennett discussed his party's plans if elected to Ottawa at the next general election, discussed provincial-domination relations, raked the Liberal administration over the coals for its short-sighted policy regarding U.S. dollars and advocated that the dominion must take a larger part in financing operations in the provinces.

Unfortunately, due to lack of space, full text of Mr. Bennett's speech cannot be given until next week's issue of The Review.

Less Than Average Water Flow Into Lake Expected

At the end of January, the Okanagan water content of the snow cover was the average of an eleven-year period and was 87 percent of last year's measurement at the same time, reports the water rights branch of the department of lands and forests at Victoria.

Soil under the snow pack on the Trout Creek snow course was moist at the end of last month and tributary streams to this creek were flowing freely.

"Unless above normal precipitation occurs during February and March a less-than-average inflow to Okanagan lake may be expected," the reports indicates. Precipitation in the Okanagan basin for the period November, to January inclusive (excluding November rain) has been 12 percent below a 10-year normal.

Snow depth on Trout Creek snow course showed a water content of 20.6 inches, with a water content of 5 inches, compared with 4.9 in 1947 and 6.2 in 1946. The 11-year average is 4.2 inches water content.

McCulloch, on the other hand, was only 18.4 inches, with four inches water content, compared with 5.4 in 1947 and 7.7 in 1946, and an 11-year average of 4.9 inches water content.

WATER SUPPLY TESTS NEGATIVE

From November 6 to January 27, tests of Summerland and West Summerland water supplies proved negative, the council was informed on Tuesday in a report from Sanatarian Harper, of Kelowna. Thirteen tests were taken in that period and only one showed anything but negative, which would lead the health unit to believe that the water was pure in that time, Mr. Harper intimated.

Despite this fact, the council still intends to proceed with its plan of installing a chlorinating plant this year, it was declared by the municipal fathers this week.

Blakeborough Asked to Aid Road Program

H. A. Blakeborough, retired Kelowna city engineer, will be asked to come to Summerland to supervise the big road surfacing program, which involves the expenditure of some \$28,000 of bylaw money, municipal council decided on Tuesday afternoon.

Mr. Blakeborough will be asked to confer with local municipal fathers regarding an agreement which would be suitable to both parties regarding supervision work.

All members of the council greeted this suggestion with enthusiasm when Reeve Reid Johnston stated he considered a responsible man should be obtained to supervise the whole road program.

It has been estimated that more than 500 feet of eight-inch pipe will be needed for culverts under local roads which are to be hard surfaced this summer. This pipe is being prepared in the local municipal works yard.

Work has already commenced on improvement to Garnet Valley road the compressor of the Interior Contracting Co. Ltd. have

E. J. Chambers To Seek Liberal Nomination For Yale Riding By-election

E. J. Chambers, president of the Associated Growers of B.C. and during war years the wartime prices and trade board administrator of fruit and vegetables, has agreed to allow his name to go before the Yale Liberal nominating convention as a standard-bearer for the Liberal party in the forthcoming by-election to elect a member of parliament to replace Hon. Grot Stirling, who resigned last fall.

This convention will be held in Pentiction at a date not yet named, but probably early next month.

A. W. Gray, of Rutland, unsuccessful candidate for the Grits at the last federal election, is the only other Liberal who has consented to date to allow his name to stand.

Mr. Chambers name has been mentioned as a likely Liberal candidate for some months, but it was not until Tuesday evening that Howard J. Thornton, president of the Yale Liberal Association received confirmation from this prominent fruit man.

Resignation of Hospital Matron Is Accepted

Resignation of Miss M. Ellis, R.N., matron of the Summerland hospital, effective March 3, was accepted by the Summerland Hospital Society on Friday evening, following a thorough investigation into alleged complaints and counter complaints between members of the nursing staff and the head nursing sister.

Members of the society's house committee, with S. A. MacDonald, hospital president, interviewed all members of the nursing staff and Miss Ellis last week prior to the meeting of the directors on Friday.

No statements as to the nature of the grievances existing between Miss Ellis and the other nurses was issued by the directors, who stated that in the interests of future hospital work they had accepted Miss Ellis' preferred resignation.

Miss Ellis came to Summerland from Provost, Alta., last November to take charge of the Summerland hospital nursing duties.

Expresses Delight "Mr. Chambers' decision is most gratifying to the federal Liberal association," declared Mr. Thornton in releasing the news to the Okanagan press on Wednesday morning. "His supporters welcome this opportunity of showing their appreciation of his fine record of service in the interests of all sections of the Okanagan Valley and neighboring communities."

Mr. Chambers has had a long career in the Okanagan fruit industry, having been connected with the Associated Growers since its outset and having held a continuous post as president and general manager for a quarter century.

His home is actually in Pentiction, although he has resided in Vernon for many years and during the war he called Ottawa his "home," if such it could be called during those times.

A former reeve of Pentiction, he and the late James Kirkpatrick, a prominent Pentiction Tory, vied for political honors in a number of ventures in the early days of that community.

Mr. Chambers had accepted the post of production manager for the B.C. fruit industry, a position suggested by Summerland growers at the 1947 BCGA convention. It elected Mr. Chambers to have to relinquish this post, it is understood.

MOVE 800 CARS OF APPLES IN PAST MONTH

Alleviation to a large extent of the car shortage situation, has meant an upsurge in apple shipments from the interior this week, A. K. Loyd, B.C. Tree Fruits general manager, informed The Review on Wednesday.

Shipments in February will amount to about 680,000 boxes, or some 800 cars, leaving the unsold balance at about one million boxes, he stated. This unsold balance consists mainly of late winters, Newtowns and Winesaps.

There is still a big carryover of apples in Ontario and that province is now instituting a big advertising campaign to sell its 1947 crop, so that B.C. apples do not stand much chance in that province's markets at present.

There are some deliveries to Montreal and Quebec City but the main bulk of shipments is going to western Canada markets.

Given reasonable acceptance in the east, the balance of the crop should be sold although it may take a little longer than most years, Mr. Loyd predicted. There are still some shipments being made to the United States, where a slight strengthening in market trends is being evidenced this week.

Junior Skiers Capture Prizes At Kelowna

Summerland junior skiers cut a great big swathe in Okanagan ski tournament circle last weekend at Kelowna, when they captured five major prizes in the zone competitions.

These young stars of tomorrow, who are showing the results of expert coaching provided at the local ski hill, will be showing their wares on Sunday next when Summerland plays host to skiers from all parts of the interior at the annual Summerland ski tournament.

Snow conditions are excellent on the Summerland hill following the heavy snowfall last weekend, local officials report, and a great day is being anticipated.

Downhill and slalom races will take up the entire card on Sunday's meet, which commences at 10 o'clock.

In senior competition last weekend, Don Agur and Walter Powell captured prizes, the former taking first prize in the zone downhill and second prize in the open downhill, while Powell placed second in the Class C zone slalom race.

Mrs. Mary Johnston placed third in the ladies zone downhill run.

Main Junior winners were Wally Day, first in the junior zone downhill and Don Cristante, first in the junior zone slalom.

Summerland, in fact, captured all four places in the junior zone slalom, Darryl Weitzel placing second to Cristante, with Wally Day third and Bob Weitzel fourth. This was a big cleanup for the local lads.

Prizes are being donated for all open events next Sunday, the Summerland merchants having been canvassed this week for prize money to make these prizes possible. Cups and trophies are also available for local club members only.

Transportation is leaving the Westland Bar twice on Sunday morning, the first group being due to depart at 9 o'clock and the second at 11 o'clock.

Tentative times for the races on Sunday are: Ladies' downhill, senior and junior, 11 a.m.; men's downhill, senior and junior, 11:30 a.m.; ladies' slalom, 2 p.m.; men's slalom, senior and junior, 3 p.m.

NO PIPE FOR CRESCENT BEACH

"What about the Crescent Beach water extension? I'm getting tired of packing water." This was the query of Don Agur to the council on Tuesday during the course of his visit to the council chambers.

Councillor Harvey Wilson explained that the cost of this extension has already gone up \$5,000 to \$35,000 since it was first estimated and pipe is still unobtainable.

There is no use in putting a by-law for such an extension when pipe is not available and the cost may go up still further before the work can be completed the councillor pointed out.

Councillor C. E. Bentley advised Mr. Agur: "Don't worry, I'm watching it, as I'm also very interested."

EDITORIAL

Let's Have That Report

For more than two weeks the B.C. cabinet has held the findings of the school tax commission. Still there is no glimmering of the results of this commission report and in the meantime school boards are turning over their 1948 budgets to the municipalities for approval.

It is time the Coalition cabinet took some direct action on this major crisis which is facing the province over the highly-unsatisfactory financial state of the educational set-up.

Unless the B.C. government is prepared to realize that prompt action is vital one of the most terrific storms in the history of this province is due to break.

Municipalities cannot stand this ever-increasing burden of school taxation. The burden must be spread more evenly and it is not the place of the municipality, which raises its funds mainly from the land, to shoulder this increased burden.

B.C. now derives its provincial revenue, to a great extent, indirectly from Dominion income tax, which is the fairest of all modes of taxation even though it does hurt on April 30.

This method of income deduction must be called upon to stand this extra burden of school costs caused by rapidly-increasing population and salary and equipment costs. The land should not be burdened further, especially in view of the possibility of reduced levels for agricultural products in the coming year.

Hon. John Hart made his most serious blunder as premier of the province when he allowed Dr. Weir, then minister of education, to rush through the consolidating of school districts before making sure that the Cameron plan for equalizing assessments throughout the province had been implemented.

Without this latter section, the Cameron report never had a chance to succeed and was never meant to be put through in the manner adopted in 1946.

It is believed in many circles that it was partly because of this educational fiasco that John Hart retired from the premiership and if the Johnson-Anscomb coalition government does not move speedily to remedy a nasty situation, it may prove the deathknell of the present coalition.

Electrical Extensions

The other night we heard a discussion on the charges for extensions of electric light service, the main objection being on the grounds that the customer was charged with the cost of installing a new transformer.

It was contended by one party that the transformer should be a municipal financial responsibility and should come out of current revenue. Or that is the surmise, because we cannot imagine where else the funds would arise for payment if the customer who asked for increased service doesn't want to pay the shot.

This has been a bone of contention in Summerland for some years past as more and more calls are received for service extensions over a wide area.

To our way of thinking there are only two methods in which this extra cost can be covered.

Either the municipality would have to borrow a large sum of money and earmark it for extensions costs and the whole municipality would be called upon to repay this money at high rates of interest, or the municipality operates as it does at present—gives the consumer an allowance out of municipal electrical revenue account and asks the consumer to stand the balance of the burden.

To our way of thinking the latter method, that now being adopted, is the most direct approach to the problem. Granted there may have to be some adjustments made from time to time if the allowance does not seem equitable in any particular period, but the principle is sound.

This method allows the municipality to operate without a great burden of extra debt and the tax rate is kept down thereby. And few persons will agree that the tax rate should go higher.

SEEK HELP FROM CANADIANS TO HELP WORLD RECOVERY PLAN

From the pockets of Canadians \$10 million is being sought by the Canadian Appeal for Children to assist children whose lives have been blighted by war in Europe and Asia. The Appeal seeks to purchase articles of food and clothing, along with medical supplies to assist these boys and girls on the road to health. Nor is education being neglected. A considerable amount will be spent on books and school supplies while libraries, too, will be assisted. The Canadian Appeal for Children commenced February 9. Similar appeals will be conducted simultaneously in 26 other countries.

Penny Wise

Half an hour before I started to write this, a man came in with a box of tenderized prunes. There's not one left now—every person in the office took one, bit into it, found it sweet, juicy and soft enough to eat without a speck of cooking. Like candy, they said; and the chubby ones said it the loudest.

Did you ever see anything more fascinating than a woman's handbag? On the inside, that is. I saw one the other day in which the gal toted around her pyjamas, and once I ran into one in which the owner toted around a miniature gold-fish bowl. Complete with gold-fish, it was. It had a leak-proof lid, with air holes, and the poor fish seemed quite happy in the with compacts and lipstick.

When friend hubby phones to say he's bringing the boss home for dinner, and you've nothing in the house but a couple of cans of pork and you-know-what, don't get yourself in a tizzy. Chances are there's nothing the boss'd rather have than p-and-b, because the more successful a man becomes, the more simple his tastes. Put them in a colorful dish, of course, and have a nifty side-salad (IF you can make a nifty side-salad without lettuce, tomatoes, or radishes). Don't forget the brown bread.

I've just had the kitchen cupboards finished in my house, and I had quite a time convincing the carpenter I wanted one very, very narrow shelf. "Just high enough to hold cups on hooks," I said, not going into the detail of how fed up I was with saucers and plates being under cups, and knocking them off every couple of days. Women should design kitchens, then maybe sinks would be the right height, there'd be a built-in chopping board, there'd be a light (or a window) over the sink, and so on. And on.

Ever notice that when your good man hums a tune, or whistles one, or even sings (?) it, it's some song that was a hit during the days when he was courting you. It's a sign that he figures he made a happy choice in picking you out from the many he had chasing after him.

It's more than likely that you don't have time to frigate around with manicures, but remember that if you're doing any real dirty job, or gardening, dig your hands into a cake of soap first, and see how nice and clean they are when they emerge from the after-work washing.

How about making nattering one of the things you're going to give-up for Lent? It's the new-fangled word for nagging, you know, and oah be just as divorce-promoting as anything.

A Typographic Error? "Alderman and Mrs. B. — will be at home to their friends on Saturday from three o'clock until tight."

Pioneer Days

THIRTY YEARS AGO

February 22, 1918

Mrs. R. C. Lipsett, Summerland, has received an invitation from N. W. Rowell, vice-chairman of the war committee, to go to Ottawa and attend a conference on wider participation of women in the war effort. Unfortunately, Mrs. Lipsett is unable to accept the invitation.

President H. C. Mellor and Vice-president Dr. F. W. Andrew have been re-elected directors of the Summerland Telephone Co., which reports another successful year.

Practically every Sunday train in Canada, except transcontinental lines, have been discontinued.

A. E. Smith has returned from Vancouver, where he undertook an automobile engineering course.

Bert Nelson, who was wounded in head and leg, has arrived in Summerland from England, having almost completely recovered from his injuries.

Pte. Norman Phinney, who was invalided home after receiving a piece of shrapnel in his lung, while on active service arrived in Summerland.

TWENTY YEARS AGO

February 24, 1928

Many local radios were tuned in on programs being broadcasted from Kelowna station 10AY, on Sunday and Monday.

Cost of the new ferry installed in the past year between Kelowna and westside Okanagan lake was \$45,386.21, the public works department stated in Victoria in answer to a query.

A new gas power shovel landed at the CPR wharf here on Tuesday to work on the lakeshore road, especially to clear the McDougald wet slide.

West Summerland was startled by an explosion in the home of Mrs. Sideren, opposite the United church, which blew out the front of the kitchen stove, tore a window sash and glass from the frame downstairs and blew the glass from the window upstairs.

J. R. Campbell, Noel Higgin and Rev. H. A. Solly were elected directors of the Summerland hospital. A deficit in the past year of \$1,216 was shown, besides reserve for depreciation.

Mr. Dlok, Spinks has been transferred to the Bank of Montreal branch at Trail.

ASK MAT HASSEN TO CONTINUE

ARMSTRONG—Mat Hassen has been asked to reconsider his recent resignation as manager of the Interior Provincial exhibition. A recent special meeting of the exhibition directors decided to make certain concessions in management and endeavor to have Mr. Hassen continue in his post. It is understood Mr. Hassen has agreed to the best proposals.

SEEK TB-FREE AREA

VERNON—A TB free restricted area for cattle in the whole or part of the Okanagan may be set up this spring, depending on the number of cattle owners signing a petition at present in circulation. Federal and provincial governments have granted their approval to the area providing two-thirds of all cattle owners sign the petition.

Need Bylaw For Living Memorial

PENTICTON—If Penticton is to have a Living Memorial, in the form under discussion for the past two years, an ice arena, then it is likely that a by-law to raise the balance of funds required will have to be passed.

This emerged from a meeting between members of the Penticton and District Living Memorial committee, and the municipal council.

It was explained that the committee has some \$71,000 towards its objective, originally set at \$150,000, and that it is now considered that voluntary contributions will not raise the needed balance. It was estimated that in the neighborhood of \$200,000 will be required to erect the arena.

KELOWNA HAS NEW COURTROOM

KELOWNA—Kelowna's new city police court, located in the old radio building on Mill Avenue, was officially opened last week in a simple yet dignified ceremony presided over by Mayor W. B. Hughes-Games, in the presence of Magistrate Harry Angle and several members of the city council. Renovated at a cost of approximately \$400, the new police court is a big improvement over the former room in the city police office, located on the opposite side of the street.

WRONGED WRITER

One writer reports that he no longer receives rejection slips. All his stories come back marked, "Opened by mistake."

The trouble with people who drink like a fish, is that they don't drink what the fish do.

What National Employment Service is doing for this Country

1,500,000 jobs were filled through the National Employment Service in twenty-two months—January, 1946, to November, 1947.

421,146 of these jobs were found for veterans.

5,534 more were found for persons in the higher earnings bracket through the Executive and Professional Division of the Service.

26,531 more of these placements were made through the Special Placements Division for physically handicapped workers—

204 for persons totally blind, 825 for persons totally deaf, and 53 for persons handicapped by double amputations.

Make full use of your local office of the National Employment Service.

Department of Labour HUMPHREY MITCHELL, Minister of Labour A. MacNAMARA, Deputy Minister

Westbank Co-op Plans Expansion Of Facilities

WESTBANK — A program of considerable expansion, including packing and storage facilities is planned by the Westbank Co-operative Growers Association as a result of their purchase last week of the British Columbia Fruit Shippers' interests in Westbank.

will be increased another 50,000 making a total capacity of almost 120,000 boxes. This addition will consist of an extension to the two-storey cold storage building at its west end. It is expected that the CPR will also extend its car-slip at this point in order to serve this increase in tonnage. An addition for common storage will also be made, probably at the east end of the packinghouse, facing the lake. Present plans of the Growers' Association also include the installation of a rotary grader.

Close Scores Feature Final Hockey Games

Summerland and Rutland seniors played to a 5-all draw at the local hockey rink in what will probably prove the final appearance of these teams this season.

The local lads, minus Jock Smith, Klasoff, Guidi and Halquist turned on the pressure in the initial frame to lead 2-1 on goals by Brawner and McCarger, but Rutland's passing attack started to click and netted the visitors the only two goals in the second period.

Another Rutland tally early in the third period gave the visitors a 4-2 lead, but Brown, McCarger and Brawner scored in quick succession to give Summerland back the advantage. With two minutes left to play Rutland managed to shove home the equalizer.

The overtime period was scoreless, thanks to Lee Miller who made several brilliant saves.

Last Friday, Summerland and Kelowna tangled in the final game of the season, unless there is a

definite change in the weather trend. Kelowna downed the local lads 6-5 in a torrid battle.

Kelowna combined well and took a two-goal edge in the first canto and went on to a 5-1 lead by the start of the last period, Harold Stein having managed to break the ice for the locals on a pass from Brawner when Kelowna was slow in clearing.

But the final frame was all Summerland's as they outskated, outsmarted and outplayed their opponents. Abrams banged two home less than a minute apart but Kelowna sank a singleton to stay up 6-3.

Jimmy Brown potted a beautiful shot from the corner and less than a minute from the bell Brawner scored on a breakaway.

CAR HIT TWICE BY LOCOMOTIVE

VERNON—"It means a whole lot to be alive," said Thomas Cole, 66, after escaping without a scratch when his car received a double wallop from the CPR passenger train at the North Street crossing. His 1939 sedan was smashed front and rear. It hit the drive wheel of the locomotive, was flung around, struck by the tender, and thrown about 60 feet from the crossing, landing right side up.

Mr. Collie turned off the ignition, took out the key, opened the door and stepped uninjured from the vehicle. Shortly after the accident, bystanders were unable to pull open either front door, apparently wedged solid by the twist-frame.

A \$150,000 research program has been launched by the Cornell Medical College to find out the cause of alcoholism. A high figure when some fellows seem to be able to discover the cause for the price of a quick one.

BIG UPSURGE IN MINING ACTIVITY SEEN AT MERRITT

MERRITT—Merritt may yet find itself the centre of a famous mining district, if the results of the drilling and exploratory work of several well known mining companies are as good as the engineers expect in the Nicola area.

The Anaconda Copper and Brass Corporation, one of the largest base metal companies in the world is running a three-shift diamond drilling crew on Copperado mine recently acquired from the Guichon Mines Ltd.

Nearby is the Bralorne property and also the Copperondo property the former Hunter property now organized into the Copperondo Syndicate by I. W. C. Soloway and F. W. Humble.

C. P. Flater, western representative of Wesley T. Davidson, vice-president of Young Davidson Co. of Toronto, together with James Crookston from Toronto, geologist, of Royal Technical College, Glasgow, have been in the district looking over the claims. Mr. Flater has staked 14 claims for the company, called the Murray Lake Gold Mines Ltd. A fair assay for surface copper has been received and the company intends to open the property on the surface and then to diamond drill. Development on a well defined plan on a large scale will follow, backed by the finances and knowledge of the Wesley T. Davidson Co. of Toronto.

Establishment of a camp will be commenced immediately and preparations made for diamond drilling. Mr. Flater, who has had considerable experience, spent five years in copper mining in British Guiana, says there appears the possibility of great mining development.

C. J. Venn of Vancouver is also prospecting in the same area and has staked 16 claims above the Hunter group and 16 claims on the south side of Nicola Lake between the Guichon Mines at Quilchena and Nicola for his partners Dr. McCutcheon and Gil Haskamp of Vancouver. They intend to form a company and commence work in the spring. Mining engineers and geologists of large mining companies have given favorable reports on the possibilities of the Nicola copper deposits and express their opinion that at 60 feet in depth on the Anaconda property it shows strength of possibilities of much greater depth.

Herb Capozzi Has Second Pro Offer

KELOWNA—Harold "Herb" Capozzi, one of the finest all-round athletes ever to come out of Kelowna, has received his second offer of a \$4,000 contract to play tackle with the New York Football Giants. This offer was made originally a little more than a year ago. After many months of deliberation he turned it down.

Declared Herb: "As to whether I will accept it or not I am still undecided but I am very seriously thinking of turning it down."

The 220-pound Kelowna product, who has been voted first string tackle on the Northwest Conference All-Star selection two years in a row, is now in his fifth year at UBC, taking a post-graduate course and instructing in chemistry.

A speaker before the Publishers Association has stated that the newspapers of tomorrow will be highly colored. Not, we hope more so than some of 'em are today.

It has been announced that the new discovery for colds known as Alpha-Methylisothiazolamine is being put up for sale in handy containers. Nothing was said about how the name of the remedy is to be put up.

FERTILIZER REPORT

Mixed Fertilizer Prices Guaranteed Until June 30th

Some of our customers have reported rumours of further price increases. To end the uncertainty, we are guaranteeing immediately the present prices on all our Mixed Fertilizers right through to June 30th, 1948. We cannot guarantee prices on materials originating at Trail nor those on chemical simples but we do not look for increases.

Increased Demand Expected TAKE SUPPLIES NOW!

We expect a greater demand than last season. Farm returns are at an all-time high and except in isolated cases there appears little reduction of demand for farm products. This could be the first year in which an actual shortage of fertilizers appeared in B.C. The only safe assurance is to take supplies at the earliest possible moment. There are now adequate supplies of all chemicals, all in splendid mechanical condition and ready for delivery. Organics remain short, but we think will improve.

EXPECT NEW DEAL ON POWER FOR PUMP PURPOSES

That the council is dealing with the West Kootenay Power & Light Co. for a new deal in regard to pumping costs for sprinkler irrigation, was the news emanating from the council session on Tuesday when J. Y. Towgood and Francis Steuart, on behalf of a large number of sprinkler irrigationists, asked the council for some consideration.

Councillor F. E. Atkinson declared that Mr. J. D. McMynn, Penticton West Kootenay manager, has been considering this problem for some time and has asked for another two months' leeway before giving the council a decision.

In months when irrigation pumping is at its height, consumption in the municipality hardly reaches the 100,000 mark, the dividing line where the one cent rate commences from the West Kootenay to the municipality, Mr. Atkinson explained.

Mr. Towgood, in presenting the orchardists' case before the council, pointed out that Vernon, Oliver, Osoyoos and Naramata obtain a cheaper rate for water pumping from the hydro electric concerns. In view of the fact that irrigationists pay all capital costs for installation of the pumps, Mr. Towgood considered assistance should be forthcoming.

Mr. Steuart informed the council that on ten acres last year he paid \$123.99, and on the new reduced power rate the same consumption would have been \$92.96, whereas other districts named would only have paid \$33.75 for a similar amount of power.

BLAKEBOROUGH—

Continued from Page 1
ing been obtained. First sharp corner was eliminated Monday and Tuesday and the equipment moved on to the second corner yesterday.

Three corners will be eliminated in this year's program of Garnet Valley reconstruction, council agreed in a special short meeting last week. Revised estimates on eliminating corners to a depth of three inches rather than one foot were obtained by Councillor Harvey Wilson, who reported that 483 cubic yards would be involved.

To a depth of one foot, and taking in the original five corners projected, an amount of 2,224 cubic yards was involved in the original project. However, the council has decided it can only afford to treat three corners this year. Work is being undertaken on a day basis.

Some discussion arose at Tuesday's council meeting regarding the water trouble at the Smith & Henry yard and at the corner of Pender and Granville, opposite the Post Office.

Undertake Fills
Permission was obtained by the road department to hire a loader and sufficient trucks to undertake necessary fills in the Victoria Gardens area, on the sandhill, at the Post Office corner and at Smith & Henry's, where the entire yard was flooded this week.

Cause of this latter flooding was blamed by the council on the freezing of the drain pipe which crosses the road from the truck company's property to that of Nesbitt & Washington. The latter company allowed water to be dumped near the end of the drain, where it froze, causing stoppage in the drain, the council was informed.

"Do you believe in clubs for women?"
"Yes, but only after kindness falls."

ENEAS CREEK FLOODS LOTS; ICE CONDITION

Choked with ice, Eneas creek overflowed its banks this week and residents near the creek bank have had their properties flooded.

A culvert across the road in the Victoria Gardens area caused a great deal of the trouble, while every place that a break in the ice occurred the water seeped through and spread over the surrounding territory.

This creek has a very gradual fall as it flows through this portion of West Summerland area and with a full flow of water occasioned by the recent heavy snowfall which melted rapidly and ice conditions, the water could not escape except to surrounding areas.

At Tuesday's council session this creek condition was discussed shortly, with Councillor Bentley taking the stand that despite the lack of legal responsibility on the part of the municipality, there remains a moral responsibility which should not be overlooked.

He contended that municipal property is being endangered by this condition and the council should take some action towards remedying the condition.

Municipal Clerk F. J. Nixon reminded the council that the municipality might be held responsible for any future damage if the municipality moves towards changing creek conditions.

SIDEWALK IS COSTLY

Cost of installing a sidewalk at road level along the hill from the H. W. Brown corner to Nesbitt & Washington's garage would be \$2,818, for a distance of 800 feet. Foreman E. Kercher informed the council on Tuesday. The council will consider the project in committee on estimates to determine if any portion of this work can be undertaken this season.

FUNERAL SERVICES FOR MRS. BROWN NEXT MONDAY

Mrs. Barbara Henderson Brown, aged 72, passed away in the Summerland hospital on Tuesday, February 24, after a residence of some eight and a half years in this community. Born in Scotland, the elderly lady came to Canada with her family some 24 years ago and resided for fifteen of those years in Winnipeg.

Funeral services will be held from Lakeside United church, Summerland, on Monday, March 1, at 2:30 o'clock with Rev. H. R. Whitmore officiating. Interment will be in the Peach Orchard cemetery.

Summerland Funeral Home is in charge of funeral arrangements.

The late Mrs. Brown, a widow, is survived by a sister, Mrs. A. McKenzie in Edinburgh, Scotland; six sons, Hector in Winnipeg, William in Prince Rupert, Robert at Swift Current and John, James and Andrew in Summerland; three daughters, Mrs. J. G. Vin of Powell River, Mrs. A. S. Thomas of Vernon and Mrs. W. E. Armour of Gibson's Landing, B.C.; also ten grandchildren.

UBCM RAISES FEES

As the secretary is now a full-time employee, the Union of B.C. Municipalities has raised its annual fees to all municipalities. The Summerland municipal council on Tuesday agreed to pay its 1948 fee of \$75, a raise of \$25 from last year.

DELEGATION—

Continued from Page 1
amount as \$6,498.53 is still under dispute; Rural area, \$18,347.63 or 10.04 percent; last year the rural area percentage was 11.10 percent.

This indicates that through increases in assessment valuations Penticton and Summerland are to pay more in 1948 because the rural area did not keep pace with the municipalities.

In considering the estimates alone, without apportionment, the Summerland council's stand was summed up by Councillor Eric Tait, when he said, "These proposed expenditures seem to be in line. The increase of ten percent is not too severe considering the times."

When considering further co-operation with Penticton in send-

ing representation to the coast for separation, Councillor Wilson declared that "some people" think that until there is a settlement on the tree question Summerland should stay clear on the other subject.

He did not define who "some people" were but when this viewpoint was not favored by other members of the council he did not press the point.

Most of the discussion on school matters had been carried on at a closed committee meeting and there was little discussion on the estimates, as they had already been considered.

At Vernon, where the school district budget is up \$44,000, there was no objection raised to the estimates by the city council, although Vernon's share has gone up \$16,000.

Kelowna Revolts

Kelowna city council, however, faced with an increase of some \$33,903 in one year, has "revolted" and has gone on record that it refuses to pay more than \$84,000 of the amount of \$102,000 which the school board estimates request.

Kelowna's estimates are up 49.6 percent, Peachland's levy has increased 32 percent, Glenmore up 47 percent over 1947 costs and the unorganized territory is down four percent from last year, due to an actual decrease in assessment values.

Besides the increase in assessment values in the municipalities listed above, the school district has decided it will need \$33,000 more to operate this year.

CHIEFS TAKE—

Continued from page 1

The teams:

Penticton juniors: Evans, Campbell 2, Eshelmann 6, Baker 2, Swanson, Maisonneuve, Boulding 13, Young, Kenyon 10, Berdine 6—39.

Summerland juniors: Cristante 2, McRae 1, Hack 1, Kita 2, Jomori 2, Elliott, Ruppel 8, Day 8, Thornthwaite, Weitzel—24.

Penticton Int. B: Collins, Tidball 9, Adams 1, Nicholson, Eshelmann 11, Sismey, Atkins, Petley 4, Young, Hancock 2—27.

Summerland Int. B: McLean 4, Dunham 6, Moore 4, Hack 16, Jacobs 6, Guidi 3, Jomori, Turnbull, Nesbitt 2, Adams—41.

Sparks

Says . . .

RADIO BEGINS TO GROW

So often when ideas and instruments have seemed momentous at the time of their discovery, they are eventually replaced either in part or entirely, or improved upon—until ultimately the original is completely discarded.

Where, for example are the feeble sparks that were the voices of such ships as the "Titanic" and the "Lusitania"? Where are the crystal detectors that transformed electronic impulses from air back to sound.

Each device was discarded to make way for new instruments, which in time will be only stepping stones to a closer goal of perfection.

Radio will never be stagnant. There will come a day when new wonders will appear and with them new wizards.

They are active in the field today, powerful are the tools they have to work with compared to those of their predecessors.

Your radio man is alive to all these new experiments and by study and inquiry keeps abreast of the times and his business.

Socially Speaking

Mr. and Mrs. J. L. Radomske and family left Summerland for their new home in East Kelowna on Monday. At the weekend, Mr. and Mrs. Steve Coclich and family, from Winfield, arrived here to take over the Radomske property on Jones Flat.

Mr. Charles Pollock was a visitor to Summerland last week, prior to returning to Blairmore, Alta., on resumption of work at the coal mines.

Dr. and Mrs. H. R. McLarty left on Wednesday for Ontario, where they will visit their daughter, Mrs. A. Sargent, at Bronte. While in the east, Dr. McLarty who is head of the plant pathology laboratory in Summerland, will attend a conference of tree fruit pathologists at St. Catharines, Ont.

Mr. D. Waddell, of the fruit insects laboratory, leaves today for Creston with the science service mobile laboratory, to continue investigations into Little Cherry. Dr. Maurice Welsh, of the plant pathology laboratory, will join Mr. Waddell in Creston next month.

Mr. Roy Noble, in charge of cattle and forage crops at the experimental station here, is assisting at the experimental farm at Agassiz for a short time. He was accompanied to the Fraser Valley by Mrs. Noble.

Mr. W. W. Borton left on Friday evening's Kettle Valley train for a visit to Vancouver.

Mr. M. D. Proverbs, of the fruit insects laboratory is a visitor to the coast this week.

Mr. and Mrs. John Lynde of London, Eng., with their two children Peter and Jane, arrived at Pentiction by air recently and while in the Okanagan are staying with their uncle and aunt, Mr. and Mrs. W. W. Hemingway, in Summerland.

Mr. and Mrs. H. Tomlin have received word that their daughter, Miss Eileen Tomlin has returned to London, Eng., from Ottawa, where she spent two weeks' holiday. Miss Tomlin has been with UNRRA for three years, most of which time has been spent at the head office in London. She recently flew from London to Canada to spend a short holiday. Miss Tomlin expects to leave her work with UNRRA at the end of June and return to her home in Summerland next July.

Mrs. Pearl Conrad, corresponding secretary of the Canadian Cancer Society in Vancouver, was a visitor to Summerland on Saturday and met a number of members of the local branch of the society at the home of Mrs. J. E. O'Mahony in the afternoon. She discussed local and provincial plans for the forthcoming cancer campaign to be held in April. The local society has decided not to send a delegate to the annual convention of the provincial group on March 12.

Ladies of the hospital auxiliary staged a successful Bingo party on Saturday evening, which drew a large group despite the inclement weather. It is expected that some \$40 will be realized from the evening, as the prizes were donated by members.

Miss Doreen Tait has accepted a position as a stenographer at Walters' Ltd. packing house office.

Mr. C. H. Elsey has returned to Summerland from a visit to Vancouver.

Dr. R. C. Palmer, superintendent of the experimental station here, is a business visitor in Vancouver this week. He will continue on to Vancouver Island for a short holiday before returning to Summerland.

Mr. Tom Washington and Mr. Harry Peterson were coast visitors for a short period last week.

Mr. H. V. Allison, CPR auditor spent two days in West Summerland this week.

Mr. Magnus Tait and Councilor Eric Tait left on Tuesday evening for Vancouver, where they will accept delivery of a new car and will drive back to Summerland.

Mr. Blair Underwood, Mr. F. E. Atkinson, Mr. W. G. Rempel and Mr. and Mrs. H. J. "Bill" Bark will have returned from Vancouver, where they attended the annual canners' short course.

SCOUT NEWS

The troop is to be congratulated on its attendance of 30 boys last week and the good showing of uniforms. Boys needing scarfs can obtain same from the secretary. The troop wishes to thank Dr. H. R. McLarty for his most interesting and inspiring talk on "Be Prepared" last week. Our programs will be better than ever for now on as we have former A.S.M. Jim May who will be helping with instructing.

This Friday there will be an investiture of Tenderfoot Scouts, so all Tenderfoots who haven't been invested must be present.

Patrol scores are now: Eagles 778, Hawks 591, Buffaloes 426 and Beavers 353.

Notices—As the school gym will be in use on Friday the meeting will be in the Badminton hall. Gym shoes must be worn. Duty patrol, Beavers.

SUGGESTS FURNACE FOR ELLISON HALL

"Wait and see how the Living Memorial project on the park-playground comes along," was Councillor F. E. Atkinson's reply to a suggestion made to the municipal council on Tuesday that another heater or a new furnace be installed in Ellison hall.

Mr. Wright did not consider that a new hall would be forthcoming for some time in West Summerland and suggested that it would be a community service for the council to install proper heating facilities in Ellison hall.

The council agreed that Mr. Wright's suggestion was a good one but decided to lay it on the table for future consideration and to await developments at the park-playground.

DID YOU KNOW?

ROMANCE OF SPICE . . .
The real romance in the bakery industry lies in the tale of spice, for no one can hope to tantalize his customers with his pastries unless he adds spice for flavor.

The story of spice itself is entwined around strange tropical islands in the far-away corners of the earth and the daring sea-men that reached forth for their treasures.

Our tale begins in the Malay peninsula, the distributing centre for the spices that were brought from the Moluccas on route to India and Europe. As early as the 3rd century B.C. the Roman historian, Megasthenes, tells of this—the oldest trade route in the world.

In man's quest for spice these islands changed hands many times. They were first overrun by the Mohammedan traders from Coromandel and Malabar and the Hindu monopoly on cloves fell. Then the Portuguese, under Diogo Lopez de Siqueira, captured the spice islands and established trading companies, but were in turn conquered by the Dutch.

In 1705, the British, in establishing their empire, took the ports away from the Dutch and hold them to this day.

Women's Institute to Sponsor Poster Contest for Clean Streets

On the subject of "Cleaner Streets," the Summerland Women's Institute is sponsoring a poster contest for pupils of the elementary school, and is planning to award first and second prizes, the February meeting in the Parish hall last Friday afternoon, decided.

This interesting contest coincides with the municipal council decision to allow a Kelowna concern to install rubbish containers on the streets of West Summerland.

The debris which collects on the principal streets has been a subject for much discussion in the past few years and the Summerland Women's Institute decided on Friday last to do something about it.

In the business session on Friday, presided over by the vice-president, Mrs. A. K. Macleod, in the absence at the coast of Mrs. M. E. Collas, discussion included the rural housing questionnaire which has been circulated to all Institutes, and the art exhibit of water colors which will be here about March 27.

Mrs. A. W. Vanderburgh suggested that the Institute replenish the supplies in the first aid kit at the schools from time to time. As the 1947 rummage sale was so successful, it was decided by the meeting that another sale be put on this year.

Mrs. C. H. Elsey suggested that the March overseas parcel from the Institute should be forwarded to Mrs. I. P. Barnes.

It was arranged that the March guest speaker should be Rev. F. W. Haskins, whose subject will be "A Home for the Old People."

A social program concluded the meeting, Mrs. Lorne Perry providing an entertaining reading from the Pickwick Papers. Solos were rendered by Mrs. W. C. Wilkin and a duet by Mrs. Wilkin and Mrs. Lorne Perry was also much appreciated. Games completed the social program, and were followed by a Valentine tea served by Mrs. C. H. Elsey, Mrs. H. R. McLarty, Mrs. A. K. Macleod, Mrs. E. L. Famchon and Mrs. J. McLachlan.

There is an interesting theory as to why the word Pica was adopted by the printing trades. When the ecclesiastical rules were first printed in England, the Latin-speaking church dignitaries and monks were impressed by the sharply contrasting black and white appearance on the printed pages. This impression brought to mind the familiar black and white magpie, common to England, and led the monks to apply the Latin name of the bird to the religious works. Later, the word Pica was adopted as a type size in 1890 by the American Typographers Association.

New Italian Emblem

This is the new emblem for the Republic of Italy, to replace that of the exiled House of Savoy. Chosen from 197 submitted emblems, it displays a wreath of oak and olive for peace and strength, and a wheel in the background, signifying industry. In the middle is a five-pointed star.

NEW CUB PACK MAKING RAPID STRIDES AHEAD

For the past two years Cub work in the district had been dormant. Nearly a year ago the Scoutmaster approached the AOTS club to ask if the members would undertake sponsoring of the Cub pack.

The challenge was immediately accepted, as one of the main features of the club is to promote boys' work, in giving leadership and help wherever needed. After many difficulties, the group committee under the Chairman Gordon Beggs, assisted by Messrs. J. R. Butler and H. V. Stent had a full pack of thirty-six boys all lined up and ready to go; Rev. H. R. Whitmore as Cubmaster and Hugh McLarty as assistant with other help from different boys who had been active in the Scout troop.

The AOTS (2nd Summerland) pack came into being with the presentation of the charter on December 12 by District Commissioner H. R. Hatfield. Several of the parents were present when six boys were invested as "Tender Pads".

During the Christmas holidays twenty-five of the boys went for a hike up Mount Cartwright and to the joy of the boys they were able to reach the top before the Cubmaster as he was very red of face, (from exertion).

There are now ten boys ready for investiture as "Tender Pads"—the others are coming along very fast, with the "sixers" going on to their "1st Star", which all shows the keen interest of the boys.

The Cubs were recent guests of the 1st Summerland troop, their elder brothers, to an enjoyable skating party.

The meetings are held every Friday evening in St. Andrew's church hall at 8:30.

RESOURCES CONFERENCE

A one-day conference was called this week in Victoria, by Hon. E. T. Kennedy, minister of lands and forests, to discuss the correlation of natural resources utilization and conservation programs.

IRIS CULTURE IS TOPIC TO HORTICULTURISTS

Advice on the growing of Iris as given by R. P. Murray, district agriculturist at Penticton proved extremely interesting to members of the Summerland Horticultural Society meeting in the IOOF hall on Friday evening last, under the chairmanship of Dr. James Marshall.

Mr. Murray dealt with Iris culture and also told of some of the new varieties which plant breeders are developing. His talk was illustrated with colored photographs projected on the screen.

Another interesting feature of the evening was a movie on the migration of birds, as shown by W. Snow and E. C. Bingham.

This session of the society was well attended and a number of interesting topics were discussed, as emanating from the Question Box. Mrs. Magnus Tait's financial statement indicated that the society is in good financial state.

Coffee and doughnuts were served the meeting at the conclusion of the talks and pictures.

Radio Amateurs In Summerland Form Own Club

Inaugural meeting of the Summerland Amateur Radio club was held in the Nu-Way Hotel annex on Sunday afternoon with a representative gathering of "Hams" and others interested in the amateur radio field.

Doug Price, who recently came to Summerland, from Naramata to make his new home here, was chosen president of the new club, with Mike Hall, projectionist at the Rialto theatre as secretary-treasurer.

Affiliation will be arranged with the B.C. Amateur Radio Assn. and the American Radio Relay league. A constitution is to be prepared for the members, a number of whom have been operating their own amateur radio sets for some time.

Those present at the meeting included Howard Shannon, of VETAGE, Jim Schaeffer of VE7-BZ, Henry Knippleburg of VE7-AJS, Roy Knippleburg of VE7-AHX and Stewart Sanborn, Ossie Thomas, Bob Killick, Lorne Logie, Don Allison, Jim Dawes and Harold Wurst.

U.K. To Purchase Apples Down Under

Although without official confirmation, it was learned from reliable sources that the United Kingdom has made arrangements to purchase 4,000,000 boxes of apples and 250,000 boxes of pears from Australia, Tasmania and New Zealand, said A. K. Loyd, general manager of B.C. Tree Fruits Ltd.

"This is a very substantial transaction and surprising to an extent, but not unexpected," said Mr. Loyd, because the purchases can be made in sterling from these countries. (New Zealand's share is reported to be 1,000,000 boxes of apples.) It was her lack of dollars that made it impossible for Britain to buy from Canada.

Liquor Control Board
Victoria, B.C.
February 16th, 1948

Editor, "The Review",
Dear Sir:

Someone has forwarded to me a copy of your issue dated February 5th, 1948, containing an editorial headed the Legion Plebiscite, and in view of the information therein contained I thought it best to place in your hands certain material as taken from our files.

The original application for this particular Licence was placed in our hands April 24th, 1946; however, previous to this date starting on February 7th,

1946 with a petition signed by 347 residents in addition to many personal letters all strongly opposing the application which up to this point had no support whatever on our files other than the application; and it is further in acknowledging these various protests as received we did not state the application would be refused but we did assure all those opposing the application that they would be given an opportunity in due course to register their disapproval in the regular manner.

On May 1st, 1946, a letter was sent to the Canadian Legion advising them that due to the large number of protests on our file it would be impossible to favourably consider their application, and I am taking the opportunity of quoting hereunder one paragraph taken from a letter dated May 22nd, 1946, replying to ours dated May 1st of the same year.

"We realize that has been a

great deal of discussion and writing on this subject throughout the Province recently and that you must take these into your considerations. However, we feel that an injustice has been done to us and are prepared to take such steps as are necessary to insure that the Democratic way shall be preserved and no small minority be able to control our actions."

Replying to this letter under date of May 27th we suggested that possibly the solution would be the holding of a Plebiscite under the "Liquor-Control Plebiscite's Act". On April 14th, 1947, another letter was received from this Branch of the Canadian Legion wanting to know our attitude at that time, and on the 21st April a reply was sent from which I quote:

"Where opinion is divided it is very difficult for the Board to have a clear picture at this distance and if in the opinion of your Branch the majority of the people located in that locality desire you to have a licence it might be well to have a plebiscite under the "Liquor Control Plebiscite's Act". On June 4th, 1947, the Legion filed with the Board a very large petition supporting their application and in this letter stated they were still hesitant about holding a Plebiscite in spite of this overwhelming support in favour, their reason being that a Plebiscite would automatically make the Municipality "wet".

On June 7th a reply was sent stating they had the wrong impression because the question would deal only with the granting of a Veterans' Club Licence and would have no bearing whatever on the question of Beer Licences, commonly known as "Beer Parlours". On June 12th, 1947, a letter was received from the Canadian Legion advising that at a regular meeting held on June 11th, 1947, they voted unanimously to request a Plebiscite on the question of a Veterans' Club Licence and asked the Board to give whatever assistance it could in arranging this Plebiscite with the proper authorities.

While the Board has nothing whatever to do with the holding of Plebiscites which is under the jurisdiction of the Provincial Secretary, I did address a letter to the Honourable the Attorney General under date of June 17th, 1947 explaining the entire situation and asking that their request be granted, and in a letter from the Honourable the Attorney General dated June 23rd, 1947, he agreed to this suggestion with the result that the matter was then turned over to the Provincial Secretary's Department for their attention.

With this record it is rather difficult to understand your statement that a great deal of trouble and expense could have been avoided if Mr. Kennedy and his henchmen had not backtracked, because as a matter of fact, when the original flock of protests were received in February of 1946, those citizens were advised that in due course they would have an opportunity of expressing their opinion, and from the beginning to the successful conclusion of the matter the Liquor Board favoured a Plebiscite, which action was endorsed by a resolution of your local Branch of the Canadian Legion.

It should be understood that the Liquor Control Board is responsible for the administration of the "Government Liquor Act" and under this Act those not in favour of the use of liquor have certain rights, and it is our duty to see that their rights and privileges under the Act are respected in exactly the same manner as those favouring liquor, and where a serious difference of opinion exists, I know of no fairer way than a secret ballot of the individual.

The net result of our action in this particular case is that in due course a Licence will be issued to this Branch and while no doubt there will be many in this district disappointed, they must admit that the majority rule and their decision is final.

Yours faithfully,
W. F. KENNEDY,
Chairman.

Ed's Note—The Review was not referring to "back-tracking" in any particular detail of this particular application but to the change of board policy adopted prior to World War II, when plebiscites were not called for despite opposition voiced. The Review still feels that when a petition signed by 1300 citizens (Mr. Kennedy did not give the figure in this case) against that signed by 347 would provide a sufficient majority for pro-Legion action without the expense of a plebiscite.

Naturally, the Legion branch agreed (after a year) to requesting a plebiscite when it was clear no other course was open.

PUBLIC WORKS TENDERS

The provincial public works department this week published tenders for a third time for the construction of a group of buildings at the tuberculosis sanatorium at Tranquille. Previous bids have been rejected because they far exceeded provincial engineers' estimates of costs.

AGRICULTURE AT NEW PRODUCTION PEAK IN 1946

British Columbia's agricultural industry reached a new record production peak of \$118,588,777 in 1946, an increase of 15.1 percent over the \$102,991,582 value of agricultural production in 1945, according to the annual report released this week, it is announced by Hon. Frank Putnam, minister of agriculture.

The annual production value of the province's agricultural industry ranks second only to that of the forestry industry.

Increases were shown in value of production of livestock, poultry, eggs, dairy products, fruits, vegetables, grains, fodders, potatoes, honey, hops, tobacco and bulbs.

The total value of agricultural imports in 1946 was \$49,786,126, which represented a 11.4 percent increase over the 1945 total of \$43,564,551, while the value of exports showed a gain of 17.4 percent, with a total of \$33,054,715, as compared with \$28,152,502 in 1945.

Thanks!

The Rotary Club of Summerland sincerely appreciates the very generous support given by the 288 good citizens who have already responded to our Polio Fund Appeal. Your support has been very encouraging. With reasonable response from the other 613 who received our personal letter, we hope to make our objective.

It has been asked by many, whether the Fund would stay open until after the end of the month, as they would like to contribute at that time. We assure you the Fund will stay open as long as you desire. However, we are anxious to reach our objective as soon as possible.

Immediately we do so, it will be our pleasure to pass on to our friends who suffered, this generous financial expression from the kind citizens who make this Municipality of Summerland, the truly great community that it is.

May we expect your continued support.

Sincerely,

ROTARY CLUB OF SUMMERLAND

Regulation Pursuant To Section 33 Of The Highway Act

Regulating Loads and Speed on the Provincial Roads in South Okanagan Electoral District

The undersigned being a person authorized by the Minister of Public Works in writing to exercise the powers vested in the said Minister under Part 11 of the "Highway Act", and being of the opinion that the roads in the Electoral District of South Okanagan are liable to damage through extraordinary traffic thereon, hereby makes the following Regulation pursuant to Section 33 of the said Act.

The following load and speed limitations are imposed on all Provincial roads in the Electoral District of South Okanagan as from twelve o'clock midnight, Sunday, February 29th, 1948, and until further notice:—

TRUCKS WITH PNEUMATIC TIRES:

Payload—(i.e., load carried) not to exceed 50% of the tare (i.e., unloaded) weight of the truck and not to exceed 50% of the authorized carrying capacity.
Speed—Limited to 35 miles per hour.

PASSENGER VEHICLES:

Not to exceed a speed of 30 miles per hour. VEHICLES EQUIPPED WITH SOLID TIRES ARE PROHIBITED ENTIRELY.

Dated at Kelowna, B.C., this 24th day of February, 1948.

H. W. STEVENS

Assistant District Engineer
Dept. of Public Works.
