

An Emergency!

Now is the hour. Elsewhere in this issue is an urgent announcement from the B.C. Flood Emergency Fund...

The Review is only too happy to join with other newspapers in B.C. in placing its columns at the disposal of the fund to bring this urgent message.

In the name of suffering humanity, we urge every reader to open his heart and pocketbook to this urgent appeal.

Reeve Johnston Heads B.C. Emergency Flood Relief Fund Drive Here

An urgent appeal is being sent to every person in B.C. to contribute generously to the flood emergency committee fund...

This provincial committee is under the chairmanship of C. Austin Taylor, with E. E. W. Rhodes, care of the Royal Trust Co., Vancouver, as treasurer.

Summerland has taken immediate steps to assist in the drive and on Tuesday evening a campaign committee selected Reeve Reid A. Johnston as chairman.

A house-to-house canvass has been instituted and official canvassers are expected to start on their tour of the entire Summerland district before the weekend.

Representatives of many leading organizations in Summerland were summoned to the council chambers on Tuesday evening by Fred W. Schumann, president of the board of trade...

With characteristic promptness, the Summerland citizens have responded. The canvassers who were instrumental in putting Summerland "over the top" in the Red Cross drive are being pressed into service once more.

It was considered on Tuesday that a house to house canvass is essential to reach the objective in this community.

Facilities of the Red Cross are already at work in the stricken flood areas of the Fraser Valley but this extra fund will be sorely needed to augment Red Cross funds.

In this area, the loss has been comparatively nil, although considerable expense was involved in keeping Trout Creek within its banks and saving several hundred acres of valuable land on Trout Creek Point.

It is stated that a meeting of Trout Creek Point residents is being held this evening to decide what property owners in that area can do towards reimbursing those who volunteered valuable equipment to aid in the flood control.

At Tuesday's meeting, it was decided that contributions may be left for the B.C. emergency fund at the Bank of Montreal, Butler & Walden's store, the Summerland and West Summerland post offices, the municipal office and the Trout Creek Service Station.

These depots are opened to receive contributions apart from the house to house canvass.

Those present at the Tuesday meeting were: F. W. Schumann and J. E. O'Mahony, board of trade; L. G. Parry, board of trade and Legion; Reeve Reid A. Johnston and Councillor Eric Tait; Roy F. Angus, Rotary club; Mrs. A. K. Macleod and Mrs. I. F. Angus, Women's Institute; Mrs. A. K. Elliott, Red Cross and Legion W.A.; Gordon Beggs, A.O.U.; Les Rumball and Mel Ducommun, Retail Merchants; Alan Calvert and

Fitzpatrick Is Re-elected Head Fruit Shippers

F. L. Fitzpatrick of Kelowna was again selected as president of the Okanagan Federated Shippers Assn. at the annual meeting held in Kelowna on Thursday, May 27.

Other directors named at this annual session are E. J. Chambers, Penticton; P. S. Sterling, Vernon; F. McDonald, Penticton; E. J. Finch, Oliver; George Clarke, Kelowna.

This organization represents packing houses from Creston to Lilloet and the attendance was extremely good, even including delegates from Creston, who flew in for the meeting.

Chief discussion centered about recommendations of the Better Fruit Committee. A meeting of that organization has been called for Wednesday, June 9, to consider suggestions made by the packing house men.

Dunsdon and Gould Tied in Rifle Shoot

G. M. Dunsdon continued his winning ways at the Summerland Rifle club range last Sunday with a score of 99, but he had to be content to share top honors with Ed Gould, while P. S. Dunsdon was only one behind with 98.

On Sunday, the double-header here will commence at 1:30 with Vernon and Summerland Japanese nines competing in the recently formed Japanese loop.

Education Minister Is Visitor Here

Hon. W. T. Straith, minister of education, and Mrs. Straith, were visitors for a brief time Tuesday afternoon, meeting a number of the new school trustees at the high school.

Expenditure Of \$104,350 On Schools Approved By Council And Trustees

Trustees of School District No. 77 (Summerland) meeting for the first time at the local high school Thursday night, approved the extraordinary expenditure of \$104,350 to renovate the elementary school, purchase the W. C. Kelley property on Granville street for the proposed junior-senior high school and to provide equipment for the elementary school.

Last week's figures issued by Inspector J. N. Burnett did not include \$1,150 for the new equipment necessary in the schools.

Fifty percent of this amount will be borne by the government through grants, while the balance is to be raised by money bylaw in the municipality and from the rural area.

On Friday, the municipal council met and approved the estimates and set in motion the legal machinery needed to present the bylaw to the taxpayers.

P. G. Dodwell, veteran school board member, was chosen chairman of District 77 at the first meeting of trustees last Thursday.

Finance chairman will be C. J. Bleasdale, while Mrs. A. W. Vanderburgh will head a committee on health and teacher appointments.

No applications for the post of secretary-treasurer were received by the board but it is hoped that further response will be obtained for this important post.

Rutherford, Bassett & Co., Kelowna, are the board auditors.

Boil Drinking Water Advises Public Health Nurse

All drinking water during this period of extreme flood water should be boiled, Miss M. Cammaert, public health nurse, informed The Review yesterday.

All students in Summerland schools received slips this week for parents' signatures authorizing typhoid inoculations.

Inoculations at the Summerland schools commence on Friday.

Junior Ball Team Swamps Naramata 28-2

By a basketball score of 28-2, Summerland Red Sox, the new local entry in the South Okanagan junior baseball league, swamped Naramata on Wednesday, May 26.

Next Wednesday evening, the juniors play Penticton Skaha Lake Cubs at the local Living Memorial athletic park.

This game was to have been played in Princeton but that town's diamond is cut off because of the loss of a bridge so the Similkameen team is coming back to the Okanagan.

Members of the Summerland Red Sox team which swamped Naramata were: F. Gould 1b, Cristante cf, S. Jomori 3b, Kato 2b, Nesbitt lf, Kita lf, D. Weitzel rf, Elliott cf, Brawner ss, B. Weitzel c, Jacobs p, A. Gould.

Education Minister Is Visitor Here

Some of the difficulties which will face the new board were outlined on Thursday. Transportation for children from Meadow Valley to Faulder will be requested by parents in that area.

Trustees pointed out that Mrs. G. Haddrell is now travelling 44 miles each day in her own motor vehicle to transport her children from Meadow Valley to the Summerland schools.

A notation from the department of education announced that a sum of \$3,162.48 will be paid the Municipality of Summerland in compensation for tax levies lost this year because of the elimination of improvements levies on fruit orchards of five acres or more.

The council had already discussed this announcement and stated that this sum would be applied towards school costs in 1946.

Three resignations from the high school staff have been received and applications from new teachers are being dealt with by Mrs. Vanderburgh and Inspector Burnett, in co-operation with the principal.

Chairman Dodwell was named Summerland representative on the executive of the newly-organized branch of the B.C. School Trustees Assn. which embraces territory from Revelstoke south to Osoyoos and west to Princeton.

Meetings of the board will be held on the second and fourth Mondays in each month.

Jones Scores Great Victory For C.C.F. In Yale By-election

Incomplete returns only were available at prestime, but these are more than sufficient to show that O. L. Jones, CCF candidate, has obtained the biggest majority ever recorded in this riding, to be given the mandate of the people to represent Yale federal riding as Member of Parliament.

This Conservative stronghold, which was held by Hon. Grote Stirling for 25 years, went over to the CCF party for the first time in history after a hard-fought three-way battle.

Cabinet ministers and two dominion party leaders came to Yale in the past two weeks to assist their candidates.

An unofficial count has shown that more than 27,000 votes were cast in Yale riding on Monday, which is approximately 3,000 more than were recorded in the last federal election in 1945.

Mr. Jones polled approximately 12,500 votes, Mr. Bennett's total was just over 8,000 and Mr. Chambers amassed 7,500.

These figures are interesting in the light of the 1945 results, as follows: CCF, Mr. Jones candidate, 7,713; Conservatives, Hon. Grote Stirling, 9,625; Liberals, A. W. Gray, 4,705; Social Credit, 1,685; LPP, 820.

Only 16 Points In Summerland, one of the closest races in this municipality's history was recorded on Monday.

In West Summerland area, centered on the IOOF hall, Mr. Bennett was accorded a small majority, due mainly to the vote in Summerland North division No. 99, which had a majority for the Progressive-Conservative of 49.

Mr. Bennett was ahead in three divisions, tied with Mr. Jones in one, while Mr. Jones had a majority in five divisions.

In total, 1945 votes recorded in Summerland, there being sixteen rejected and spoiled ballots. Mr. Jones had a majority in 1945 over Mr. Jones of 1,912 votes.

O. L. JONES New Yale Member

Dr. R. C. Palmer Chosen Member Of UBC Senate

Dr. R. C. Palmer, superintendent of the Dominion Experimental Station at Summerland has been chosen one of fifteen members of the senate of the University of B.C., the university announced on Thursday, May 27.

He will serve a three-year term from 1948 to 1951. Eleven past members of the Senate were re-elected and four new members were added, as follows: Dr. Palmer, Summerland; Dr. R. E. Foerster, Nanaimo; Mr. E. D. Fulton, MP, Kamloops; Dr. W. Kaye Lamb, Vancouver.

Dr. C. A. H. Wright, Trail, is the only other interior member and the other ten re-elected, all from Vancouver, are: Mr. Kenneth P.

SURVEY 400,000 ACRES OF B.C. LAND

400,000 acres of land will come under survey of the land utilization research and survey division of the department of lands and forests this season, states the minister of lands and forests. Field parties have been sent out and are now busily engaged classifying the best value and use of the lands to be examined.

Lands of obvious agricultural value close to existing settlements are being dealt with first because of the need for more settlement.

The acreage to be surveyed this year lies in the Peace River district and in the east and southeastern parts of the province. Three parties in all are undertaking the work.

Caple, formerly of Summerland, Mrs. Sally Murphy Creighton, Dr. A. E. Grauer, Brigadier Sherwood Lett, CBE, DSO, MC, ED, Mr. A. E. Lord, Dr. M. Dorothy Mawdsley, Dr. W. N. Sage, Dr. A. M. Schinbein, OBE, Dr. Frank Turnbull, Dr. Harry V. Warren.

UBC Alumni Dance To Raise Award Funds

Announcement of the 1948 winner of the Summerland Scholarship Fund award will probably be made at the Summerland high school graduation exercises tentatively scheduled for Friday, June 25, Mr. A. K. Macleod informs The Review this week.

First winner of this award in 1946 was Joan Bennett and in 1947 Shirley Harvey was the choice of the selection committee consisting of the reeve and principals of the elementary and high schools.

This award is based on scholastic standing and participation in school government, athletics and such qualities as indicate general ability and leadership.

Summerland was one of the first communities to institute such a scholarship plan and it was mainly through the efforts of Judge W. C. Kelley, K.C., Dr. F. Andrew and members of the UBC Alumni Assn. in Summerland that the fund was organized.

Further funds are required to complete this fund and provide a permanent bursary. With a view to augmenting the fund, the Alumni group is staging its third annual dance at Ellison hall tomorrow night, Friday, June 4.

PEAR VARIETIES NOT COMPATIBLE SAYS STATION

(Experimental Farm News)
Studies undertaken at the Dominion Experimental station, Sannichon, B.C., in 1929 have shown that a marked degree of self-incompatibility exists in pear varieties. Of 55 varieties studied 20 were completely self-sterile and in 15 other varieties less than one per cent of the flowers matured into fruit following self-pollination.

This means that over one half of varieties tested were completely or almost entirely self-sterile. These groups include such well known varieties as Anjou, Barry, Clapp's Favorite, Comice, Crocker, Bartlett, Easter Beurre, Passe Crassane, Pitmaston, Winter, Nellis, Bosc, Clairgeau, Conference, Hardy, Louise bonne de Jersey, Seckel and Winter Bartlett.

Self-pollinations over all varieties have given an average set of 1.5 per cent while corresponding uncontrolled open-pollinations gave a 5.6 per cent set. It has been noted that in trees normally full of bloom about 4.0 per cent of the flowers should mature into fruit to obtain a satisfactory yield.

Controlled cross-pollination studies show that Bartlett, Conference and Anjou are good pollinizers for most varieties. The evidence shows, too, that when pear varieties are grown together satisfactory yields can be expected.

In commercial plantings it is estimated that at least one tree in six should be a good pollinizer for the main variety planted. Conference, Bosc and Anjou, in the order named are good pollinizers for Bartlett.

W.I. Planned Convention At UBC This Week

Women from all parts of the province were due to head for Vancouver and the University of B.C. this week to attend the ninth biennial convention of the Women's Institutes of British Columbia, June 1, 2 and 3.

Transportation difficulties have prevented a great number of delegates from attending, but Summerland is represented by Mrs. Gordon Ritchie and Mrs. E. L. F. Schon, who were in Vancouver prior to the flood conditions which have created a state of emergency throughout the province.

The twelve districts from which delegates could have been sent are the Peace River, central interior, Bulkley-Tweedsmuir, Cariboo, Kootenay and Arrow Lakes, north and south Okanagan, Salmon Arm, Similkameen, north and south Fraser and north and south Vancouver Island.

Dr. J. B. Munro, MBE, deputy minister of agriculture, was to extend greetings from the provincial department of agriculture, while Dr. Gordon Shrum was the official representative of the university. Mrs. E. Glover, president of the South Vancouver Island district board was scheduled to reply.

Scheduled guest speaker on June 1 afternoon was Dr. J. F. Booth, associate director of marketing of the department of agricultural economics and president of the Agricultural Institute of Canada. His talk was on world food problems. Discussion was to be led by Mrs. R. Doe, Salmon Arm, provincial convener. Miss Echo Lidster, supervisor of girls' and boys' clubs told of her work.

Other speakers scheduled were Miss Charlotte Black, UBC department of home economics; Mrs. E. Greer, provincial convener of home economics; Miss Amy Leigh, provincial director of social welfare; Mr. H. L. Campbell, assistant superintendent of education; Mrs. V. S. McLachlan, provincial convener of handicrafts and industries; Mrs. S. E. Gummow, W.I. superintendent; Mrs. A. S. Dennis, president of the provincial board; Mrs. E. Tyron, vice-president of Parksville; Mrs. J. H. East, Keremeos; Mrs. R. W. Chalmers, Thrums.

Three Hundred Attend Opening Of Trap Club

Entries from Lumby, Kelowna, Peachland and Penticton joined with local sportsmen for the official opening day of the Summerland Trap Club on Sunday morning, May 30, with Kelowna marksmen capturing a goodly proportion of the prize money.

Chief attraction of the day was the official opening of the new log clubhouse which the club has built by volunteer labor.

Reeve Reid Johnston was introduced by the trap club president, Dr. Lloyd Day, at approximately 10 o'clock Sunday morning and His Worship extended his congrat-

GRAHAM MUNN BREAKS RECORD

Graham Munn, son of Dr. and Mrs. W. H. B. Munn, has made a name for himself in track and field circles in Vancouver schools. Competing in St. George's school annual sports day, Graham broke four records in intermediate events and captured five first places. His records were established in the intermediate division high jump, 100, 220 and 440 yard dashes.

lations to the club on its progress before striding forward and cutting the ribbon placed across the clubhouse door.

There were more than 300 persons either competing or visiting the club premises at the top of Prairie Valley on Sunday and they all agreed that the trap club had made progressive strides in the short time it has been in existence. The clubhouse is a well-constructed log structure which is attractive in appearance and substantial in size and design.

Wives of club members served hot dogs, coffee, sandwiches and soft drinks to visitors during the day.

First three events were 25 singles with the winner of most points being awarded the aggregate \$25 prize. Game Warden W. R. Maxson of Kelowna was the recipient of this award, having scored 71 out of a possible 75. Mr. Maxson also captured the turkey shoot.

Ken Blagborne was winner of the fourth event, a double shoot, while C. Thompson of Kelowna took the miss and out event. There were 21 ham shoots operated at the No. 2 trap while the scheduled competitive events were being run off at the new No. 1 trap.

Result of the single shoots follow:

No. 1 event—Frank Pollock and C. Thompson 24, Alf Johnston and W. R. Maxson 23, Ken Blagborne, Gordon Finch, Kelowna, G. A. Laidlaw and Jack Long, Peachland, 22 each.

No. 2 event—Alf Johnston and Cecil Wills, Lumby, 24 each; Ken Blagborne, Gerry Nelson, W. R. Maxson, Ted Topham, Peachland and H. A. Kennedy, Kelowna, 23 each; Frank Pollock, Dr. Lloyd Day, G. James and A. Wilson, Lumby and C. Thompson, Kelowna, 22 each.

No. 3 event—W. R. Maxson, Kelowna, 25; Cecil Wills, C. K. Christien, Lumby and Gerry Nelson 23; Gordon Finch and C. Thompson, Kelowna, 22.

AVERT FLOOD

Continued from Page 1
kameen was closed to all traffic from Friday to Tuesday and only light traffic is allowed over the main highway.

Bridges were out south of Penticton and traffic had to be rerouted by White Lake. Bus travel to Osoyoos and east to Trail was started again on Wednesday morning, it is reported.

At Kelowna, the KLO bridge went out and Mission Creek was on the rampage, doing considerable property damage.

Penticton creek was kept within its channel except for some seepage on Friday which created a large pool at the corner of Westminster avenue and Main street. Some basements were flooded but little damage was reported. The bridge on Ellis street was partly dismantled at the high level in the creek's activities.

PENTICTON WINS 5-2 OVER LOCALS

Summerland was defeated 5-2 in seven innings at the Living Memorial Athletic park by Penticton last night. Les Gould went the first four frames and was nicked for two hits. He gave up three runs as his infield played sloppy ball in the first inning, and three men walked in the second.

Bill Evans went into the mound in the fifth and yielded two more runs, three hits and an error in the sixth, with two down doing the damage.

Taylor and Thompson scampered across in the fourth for Summerland's only runs, Vanderburgh scoring the latter.

The local ball boys hope to bring the donkey baseball team to Summerland on June 7, but no official word was forthcoming at presstime today.

Score by innings:
Penticton 210 002 0-5
Summerland 000 200 0-2
N. Drossos, Ryan and S. Drossos;
Gould, Evans and McCargar.

No Kettle Valley railway service has been operating since Thursday evening. This morning, a local shuttle service from Brookmere commenced operation. This train connects with the east-bound No. 12 passenger. Through connection with Kootenay points by KVR has now been established.

Last weekend, four trains were stalled between Osprey Lake and Coalmont. Passengers from Thursday's KVR train out of Vancouver reached the Okanagan at midnight on Saturday.

Hundreds of main-line passengers heading west were re-routed to the Okanagan as far south as Kelowna. They were transported by bus and taxi to Penticton where CPA and Trans-Canada Airlines planes operated a shuttle service to the coast.

The Penticton airport has never seen so much air travel as has been operating since Sunday. It is expected that all the mainline passengers will reach the coast today.

Mail by Plane
Mail service has been badly disrupted. All first-class coast mail is travelling by air, while emergency express is being transported in the same manner. Only a few daily newspapers have been received, the first being delivered here on Tuesday evening.

But locally, the flood menace has abated. Trout Creek is away down and the snow has disappeared from low and middle levels and is fast going at the highest levels of the watershed. No further trouble is anticipated.

Eneas Creek in Peach Orchard has done some damage, and has caused the temporary closing of the highway in that sector, because of the cave-in of a culvert and the erosion to the roadbed.

No direct train service with the coast is expected for many days yet. Some persons are predicting that it will be near the end of June before rail connections with the coast are opened by direct route, because of the disastrous floods which have created a state of emergency in the Fraser Valley.

There, the worst flood conditions in the valley's history have caused damage estimated between \$25 and \$30 millions. Thousands are homeless. Evacuation of towns of 2,000 population has been necessary. All three armed services have been taking an active part in flood control, along with thousands of civilians trying to hold the dykes.

JONES SCORES

Continued from Page 1

Jones received 603 votes, 16 ahead of Mr. Bennett's 587 and 260 in front of Mr. Chambers, who polled 343.

According to the official lists announced by Mr. Jackson, Summerland's polling divisions allowed 2,083 votes to be recorded, after the court of revision eliminated some duplications.

All three parties worked diligently in getting out the vote, which was 300 votes more than 1945.

Conceded Election

It was announced at approximately 7:45 o'clock that Mr. Bennett had conceded the election to Mr. Jones, as results from many parts of the riding indicated the overwhelming majority being rung up by the CCF. Mr. Chambers con-

ceded at about 8:30 o'clock Monday night.

In a speech over Radio Station CKOV Monday evening, Mr. Jones declared: "This is a Red Letter day for the CCF. I shall do my utmost to serve you, regardless of party... it has been a good, clean fight." He promised to take up at Ottawa the matter of flood control in the Okanagan.

Mr. Jones visited Summerland and was congratulated by many of his supporters here on Tuesday afternoon as he was on his way to address a service club session in Penticton.

Announcement

Carl V. Nesbitt and B. Tom Washington, operating as Nesbitt & Washington, wish to advise all our friends and customers of an immediate dissolution of partnership, due to the indifferent health of Mr. Washington.

Carl Nesbitt, having purchased the interests of B. T. Washington is now operating the business as sole owner and all accounts receivable are payable to him and he assumes liability for accounts payable by the former partnership.

The same high standard of service under the direct management of Mr. Nesbitt, and with the same staff, will be maintained. Your continued support will be greatly appreciated by the new firm.

NESBITT MOTORS

Successor to Nesbitt & Washington

I wish to extend to Tommy best wishes for the future and improved health.

CARL V. NESBITT

To Carl: The very best wishes for success in the future.

B. TOM WASHINGTON

Socially Speaking

Home Again—

... are Mr. Tom Hickey and Mr. Ross McLachlan, who flew back from Vancouver on Sunday last, after attending the Postmasters convention for B.C. held in that city last week.

... is Mr. George Gould, who went back to London, Ontario, last week-end after a month's visit with his father and mother, Mr. and Mrs. Ed. Gould.

... is Mr. F. E. Atkinson, who came back from his trip to Ottawa and New Brunswick on Tuesday morning.

... is Mrs. W. J. May, who has spent two weeks visiting her daughter Mrs. Gordon McDonald, hospitalized by an operation in Rossland hospital. Her son James motored to Rossland last Friday, bringing Mrs. May and granddaughter Leslie back home on Sunday last.

... is Mr. E. H. Robson, who has been discharged from Vancouver General hospital, and was expected to reach his home today.

... are Mr. and Mrs. R. M. Johnston, who have been on a month's trip to Oshawa and Detroit, returning via the southern states. They arrived home on Monday last.

... is Dr. D. V. Fisher, of the experimental station staff, who returned via main line train on Tuesday, following a conference at Ottawa.

... is D. C. Thompson, who was one of the passengers on Thursday night's KVR train out of Vancouver. Mr. Thompson eventually arrived home shortly after midnight on Sunday morning. He witnessed the lighting of a bridge leading from Princeton to Copper Mountain and Allenby, when it was feared that the structure would fall into the swollen creek and add further flood trouble. Gasoline was sprayed on the bridge and then ignited.

Visiting at Home—

... is Mr. Alex Yeats from Trail, who stopped in briefly over the weekend to stay with Mr. and Mrs. E. H. Hannah. Mr. Yeats, who formerly worked with the Summerland Review went on Tuesday to Salmon Arm to visit other former "Reviewers", Mr. and Mrs. Russel Kerr, returning yesterday to spend until Friday with the Hannahs.

... is Miss Ada Cochrane of Vancouver, who will spend the summer with her brother-in-law and sister, Dr. and Mrs. Lloyd Day.

... is Mrs. K. E. Keeler of West Vancouver, who will spend six or more weeks with her son and daughter-in-law, Mr. and Mrs. Ken Heals.

... for the vacation between sessions at University of Toronto, is Miss Jean Angus. She arrived home on May 18 to spend the summer with her parents, Mr. and Mrs. Roy Angus.

Kamloops beat Kelowna Cubs 3-1 last unday to continue their undefeated win streak in the Interior Baseball league.

Visiting Abroad—

... is Mr. Percy Thorner, who left for a trip to Calgary on Monday last.

... were Mrs. Herb Lemke and Mrs. R. Huff, who caught the last KVR train to get through to Vancouver on Thursday, May 27. The travellers returned last Sunday night by CPA.

... are Mrs. N. O. Solly, Mrs. H. A. Solly, Mrs. D. L. Sanborn, Mrs. F. V. Harrison and Mrs. E. Hack. The group left by motor for Armstrong, to attend the Kootenay Okanagan Diocesan Women's Auxiliary convention, which was held on June 1, 2 and 3.

... is Rev. F. W. Haskins, who left Penticton by plane on Saturday last for Victoria, where he preached the morning service at the First Baptist church. Mr. Haskins is attending the Baptist Church convention in Vancouver all this week.

... are Mr. and Mrs. George Clark, who started out on Monday to motor to Calgary and Edmonton.

... if road conditions permit, are Mr. and Mrs. T. A. Walden and Mrs. T. McDonald. They hope to start Sunday for Victoria to attend the Grand Lodge of the Rebekah Assembly of B.C., which is scheduled to meet there on June 8 to 10. Mrs. McDonald is the official delegate of Faith Rebekah Lodge to the Grand Lodge.

... is Mrs. Gordon Ritchie, who has been attending a short course in weaving at the University of B.C. for the past two weeks. Because of travel conditions, Mrs. Ritchie has been asked to replace Mrs. A. K. Macleod as delegate to the Women's Institute convention, held at UBC this week, since Mrs. Ritchie is "on the spot" and Mrs. Macleod would be hard put to find her way to the coast at this time.

Church Notes—

Lakeside Church WMS will meet at the home of Rev. and Mrs. H. R. Whitmore this evening.

Mrs. George Woitte will be hostess to St. Andrew's Jr. W.A. this evening at her home in Peach Orchard.

The tenth and last for this season of the monthly films shown at the Baptist church here will be on Saturday night at 8 o'clock. The American film "The Power of God" is the main feature, with a further showing of the life of the hymn writer, Fanny Crosby.

Canon F. V. Harrison motored to Vernon on Monday last to attend a meeting with Bishop Adams.

The proposed Okanagan Cariboo Alaska Highway Assn caravan tour from Wenatchee has been cancelled because of flood conditions.

Prairie Pioneer To Go To Last Rest Here Tomorrow

The death occurred on Sunday morning, May 30, of Harry Leslie Steeves, a resident here for the past year and prior to that a pioneer of Edmonton, Alta. He was 73 years of age.

Born in Albert County, N.B., the late Mr. Steeves moved to the United States at an early age but came to Alberta in 1900, settling in the Edmonton district. He retired to Summerland a year ago.

Funeral services are being held tomorrow, Friday, at 3 o'clock from the Free Methodist church, Brother Grimes of the Church of Pentecost officiating.

Besides his wife, in Summerland, he leaves seven daughters, Mrs. Harvey Howatt, Glendon, Alta.; Mrs. Eva Besse, Princeton, B.C.; Mrs. Ralph Perrin, Aylmer, Ont.; Mrs. Elmer Gray, Glendon, Alta.; Mrs. John Kessler, Tomahawk, Alta.; and Mrs. Lawrence Slack and Mrs. Robert Lamb, Summerland; one son, Harry L., in Summerland; 39 grandchildren and 5 great grandchildren, and his aged mother, 6 brothers and 3 sisters.

HEAR REPORT ON PRESBYTERIAL

Forty-five members turned out for a near-record attendance of the United Church Women's Federation meeting held on May 27 at the home of Mrs. W. R. Powell in Prairie Valley.

The highlight of the afternoon was Mrs. T. Wallace Boothe's report on the recent Kamloops-Okanagan Presbyterial held in Penticton. This she presented in the form of a panel discussion, with Mrs. T. A. Walden, Mrs. F. Shepherd, Mrs. Bert Stent, Mrs. W. F. Ward and Mrs. W. R. Powell making up the interlocutory panel.

Mrs. Ken Boothe sang the solo "Bless This House", and following the business of the meeting tea was enjoyed in the lovely garden of Mrs. Powell's home.

Charter Plane For Princeton Trip

Frank and Cliff Carey chartered a plane from Penticton on Saturday evening and flew to Princeton, returning on Sunday. While in the air they witnessed sandbags being dropped from another plane at Keremeos, to assist those endeavoring to stem the rising flood waters of Similkameen river.

Sunday School Supervisor Sought

Fifteen of the 17 teachers of St. Andrew's Sunday school turned out for the Monday evening meeting in the Sunday school rooms, with Mrs. F. E. Atkinson, superintendent, presiding.

The principal business of the meeting was the appointment of an interim superintendent to replace Mrs. Atkinson during the next year when Rebekah assembly business will keep her away from home a great deal of the time. No decision was reached, although several suggestions were made for Rev.

MISS JEAN ANGUS IS GUEST SPEAKER

At a special meeting held on Wednesday afternoon, June 2, in St. Andrew's United church, the CGIT were hostesses to the members of the Women's Federation and St. Andrew's Service club.

Miss Jean Angus was the special speaker, when she told of work done and observed by her last summer when she worked in the Georgian Bay area mission field in Ontario.

BIRTHDAY PARTY

Five little friends sang "Happy Birthday to you" to young Douglas Laidlaw, son of Mr. and Mrs. G. A. Laidlaw, when he blew out the five candles on his birthday cake last Saturday, May 29. Douglas' co-celebrants were Donnie Robson, Douglas Rumball, Kenzie Butler, Lennie Hill and Russell Bleasdale.

Mr. Whitmore's consideration. Other business of the meeting included laying plans for the annual Sunday school picnic to be held at Powell Beach on July 29. Arrangements are to be made for those children whose parents cannot take them to the beach to meet at the church for transportation to the picnic. Mrs. E. H. Bennett was appointed convener for the prizes committee, and Mrs. A. F. Crawford is to convene the refreshments.

Miss Magda Fenwick as treasurer disclosed a favorable credit balance at the close of May, and Mr. Alan McKenzie, secretary, was instructed to order papers to be sent to the pupils during the summer holiday session.

Nine Records Fall At Annual High School Track Meet Here

Nine local high school records fell at the Summerland high school annual track meet on Wednesday, May 26, Jack Dunham contributing three and Denny Hack a couple, while Ruth Kliks amassed a high number of points for her team. Donnis Johnson cracked two broad jump records to complete a great day for the cinder stars.

House No. 1 amassed 175½ points to House No. 2's 192½ points.

With a heave of 93 feet, Jack Dunham broke the mark for the discus throw and then went on to leap 19 feet one inch in the broad jump and climaxed a perfect day with a fast 24.3/5 seconds for the 220 yards, run over a surface which was not conducive to breaking records. He scored another win in the 100 yards, making that distance in eleven seconds.

Jack Dunham led the boys 18 and under with a total of 22 points and was equalled in this performance by Ruth Kliks, who captured first places in the softball throw, low hurdles, high jump for both 16 and under and 18 under divisions.

Bev Fleming failed to win any events but she rolled up 8 points to lead the girls 18 and under class.

Denny Hack jumped 5 feet 2 inches to break the record in the 16 and under high jump and then leaped to 5 feet 2½ inches to set a new mark in the senior division high jump.

David Wright leaped 16 feet 8 inches to set a new mark for the boys 16 and under broad jump.

Donnis Johnson had leaps of 14 feet 1 inch and 14 feet 9 inches to set two new records in the broad jumps for junior and senior divisions.

The ninth record was set up for the boys 880 yard relay team, consisting of Jim Birtles, Ernie Jomori, Denny Hack and Jack Dunham. The new time was 1:46 3/5.

Detailed results follow:

Hurdles, boys 16 and under: 1, D. Hack; 2, K. Haskins; 17.3/5 sec.

Hurdles, boys 18 and under: 1, E. Kita; 2, E. Jomori; 17.4/5 sec.

Hurdles, girls 18 and under: 1, S. Wilson; 2, M. Richards; 3, M. Ward; 12 sec.

Hurdles, girls 16 and under: 1, R. Kliks; 2, D. Johnson; 3, H. Parker; 11.1/5 sec.

One mile open: 1, M. Bolton; 2, B. Weitzel; 3, D. Adams; 6:5.

Softball throw, girls: 1, R. Kliks; 2, E. Heichert; 3, J. Howard; 138 ft. 7 in.

75 yards, girls 16 and under: 1, H. Kean; 2, B. Metters; 3, E. Heichert; 10 sec.

100 yards, boys 16 and under: 1, D. Wright; 2, L. Nesbitt; 3, E. Weitzel; 11.3/5 sec.

100 yards, girls 18 and under: 1, H. Kean; 2, B. Metters; 3, J. Hack; 13.2/5 sec.

100 yards, boys 18 and under: 1, J. Dunham; 2, E. Kita; 3, L. Nesbitt; 11 sec.

High jump, girls 16 and under: 1, Ruth Kliks; 2, K. Trofimenkoff; 3, H. Kean; 4 ft. 2 3/4 in.

High jump, girls 18 and under: 1, R. Kliks; 2, K. Trofimenkoff; 3, E. Heichert; 4 ft. 1 in.

High jump, boys 16 and under: 1, D. Hack; 2, E. Green, R. Macrae (tied); 5 ft. 2 in.

High jump boys 18 and under: 1, D. Hack; 2, W. Day; 3, D. Woodbridge; 5 ft. 2 1/2 in.

880 yards, boys 18 and under: 1, M. Bolton; 2, B. Weitzel; 3, K. Haskins; 2:41.2/5.

Discus throw open: 1, J. Dunham; 2, D. Nesbitt; 3, J. Towgood; 93 ft.

220 yards, boys 16 and under: 1, J. Birtles; 2, D. Adams; 3, L. Nesbitt; 28.2/5 sec.

220 yards boys 18 and under: 1, J. Dunham; 2, M. Bolton; 3, E. Jomori; 24.3/5 sec.

Broad jump girls, 16 and under: 1, D. Johnson; 2, B. Fleming; 3, E. Heichert; 14 ft. 1 in.

Broad jump girls, 18 and under: 1, D. Johnson; 2, E. Heichert 3, B. Fleming; 14 ft. 9 in.

Broad jump boys, 16 and under: 1, D. Wright; 2, K. Holmes; 3, J. Birtles; 18 ft. 8 in.

Broad jump, boys 18 and under: 1, J. Dunham; 2, E. Kita; 3, D. Cruickshank; 19 ft. 1 in.

Bicycle race open: 1, D. Cruickshank; 2, K. Haskins; 3, E. Kita; 3:46 3/5.

Aerial Photographic Surveys to Start

Two aerial photographic detachments and 12 survey parties of the surveys branch will commence field work to relatively unknown parts of British Columbia early in June, states Hon. E. T. Kenney, minister of lands and forests.

Flying operations, under the direction of G. S. Andrews, chief air surveys engineer, will be based at Kamloops, Dog Creek, Comox, Port Hardy, Smithers, Whitehorse and Teslin at various periods during the season which extends until late September.

Two aircraft specially fitted for vertical and tri-camera photography will be used.

A. G. Slocumb will be in charge of mapping on the West Coast of Vancouver Island in the vicinity of Brooks Peninsula. It is expected he will complete the mapping along the west coast this year.

ALCOHOL COURSE
Teacher training courses in British Columbia's alcohol education program will be held this summer at the University of British Columbia and Victoria College. Possibility of setting up a program for adults will be discussed by the advisory council.

Main Line Towns Object to Plans In South Areas

REVELSTOKE—The Revelstoke and Golden boards of trade are not going to sit idly by while communities along the southern trans-provincial highway attempt to have their route designated the Trans-Canada Highway.

The Trans-Canada highway is now the central route of which the Big Bend highway is a part. It was so designated by both provincial and dominion governments over 15 years ago.

At a dinner in the Civic Centre attended by over 60 persons, 18 of them from Golden, speakers referred to the propaganda which is emanating from the south in an attempt to establish priority for the southern road.

Thomas King, MLA, Columbia, told the meeting he had received an invitation to attend the meeting at Nelson last week when a caravan from the prairie was to end up there in a publicity stunt for the southern trans-provincial highway.

Mr. King said he had replied to the invitation, expressing interest in the efforts of the southern boards, but taking exception to their attempts to obtain priority for their route over others. He said he had no quarrel to find with a city or district striving to improve its facilities but he did object to attempts to obtain priority to the disadvantage of others.

"I told them," he said, "that if they gained any advantages as a result of their caravan over the Trans-Canada, which we now have and intend to hold, we'll organize a caravan from Halifax to Victoria to make theirs look small by comparison."

HASTINGS STREET

Life of Pacific Salmon Told By Bill Snow

Some forty-five members of the Summerland AOTS club assembled in the Lakeside church hall on May 27 heard the fascinating story of the life and migration of the Pacific salmon, ably told by Bill Snow. The number of questions asked showed that either Bill or old Isaac Walton had a powerful hold on many an otherwise-sound AOTS man.

After nearly two years of trying baseball uniforms for the AOTS boys' baseball team have finally been obtained, and the bill for them was presented, to be paid from the proceeds of the AOTS request concert last March.

The boys have already played and won their first game of this season, and Vern Charles remarked that it was a pleasure to drive the boys anywhere and to watch them play. Pete Adams announced that girls' softball was going well.

Bert Whitmore, pinch-hitting for George Washington who was unavoidably absent, announced that ticket sales and entries for the Hobby Fair look promising, but more exhibits of adult hobby work

are needed. He appealed to the members, each to arrange one exhibit to be brought to the fair.

Don Blagborne suggested that as the AOTS had sponsored more boys' than girls' work so far he thought help might be given the Girl Guides. Ken Boothe moved that the club look into this, and president Gordon Beggs appointed a committee.

Several members favored the idea of the AOTS doing a little organized visiting of patients in the local hospital, and after some discussion Bert Whitmore and Vern Charles were appointed as a committee to find out when AOTS members and friends were in hospital and advise the rest of the club accordingly.

The meeting adjourned early to drive down to Trout Creek to see if the men could help in the fight against the flood.

School Cadets to Be Inspected On Friday Afternoon

Annual inspection of the Summerland High School Cadet Corps No. 1677 was postponed last Friday afternoon, as members of the corps responded to the call for assistance at Trout Creek.

This inspection will be held tomorrow, Friday, June 4, at 2:15 o'clock with Capt. C. E. Bentley (ret) as the inspecting officer. He will be accompanied by Cadet Capt. Don Nesbitt, officer commanding No. 1677; Lieut. A. Stoppa, area cadet officer, and Capt. A. K. Macleod, instructor.

Officers and NCOs of the corps this year are, in addition to Captain Nesbitt, Lieut. R. C. Palmer 2 i/c, Lieut. G. Adams, Lieut. G. Jacobs, CSM E. Thornthwaite, Sgts. A. Towgood and J. Dunham.

Evans Walloped Hard As Princeton Wins 12-4

Playing errorless ball and showing a hitting strength which was too much for the local squad to cope with, Princeton ball players provided the only disappointing local feature to the opening of Summerland's Living Memorial athletic park on Empire Day afternoon before a crowd estimated at more than a thousand persons.

Princeton won by a 12-4 count and the issue was never in doubt after the fifth inning, as Bill Evans had a decidedly off day. Big Bill was nipped for sixteen hits in seven innings and just couldn't control the horsehide.

It was a free-hitting contest which packed plenty of action and was featured by some bang-up play on both sides. However, the visitors outshone Summerland in infield play with L. Currie at third base playing sensational ball to nip half a dozen rallies.

Princeton took the offensive in the first frame when George Currie drew a pass to first and scored on Nishihara's single and a miscue in right field. In the second, two walks and four smashes through the infield resulted in four more runs scampering across to give Princeton a 5-0 lead.

In the last of the fourth Summerland really came to life when three runs crossed over and the locals drew the score closer at 5-3. Jackie Walsh started the rally with a clean single, went to second on Taylor's bunt and scored on Jimmy Thompson's clout to the outfield.

Clark was struck out but Vanderburgh came through with a single to score Thompson and came across himself when Wally Day knocked the pill into the out-

CONTRACT AWARDED

The contract for supplying and installing two 15,000 horsepower generators at the Whatshan hydro-electric development was awarded to the Canadian General Electric Company at a price of \$345,535 including spare parts.

HIGHWAY ACTION

In an effort to minimize the defacement of highway scenery by objectionable and view-obscuring signboards, the provincial government has passed an order-in-council prohibiting the placing of signs, signboards, notices, or any advertising device within 1,000 feet of any highway, it is announced by Hon. E. C. Carson.

field for his first hit of the season. But Summerland's lifted hopes were completely shattered in the fifth when Princeton went on another batting spree and clouted Evans all over the lot to bring the count to 10-3. Two errors cost two runs but the other three runs were earned on clean hits.

Kuroda added Summerland's last run in the fifth when he drew a walk and scored on Taylor's lone hit of the day.

From then on, although the locals threatened, they could do nothing with the Princeton airtight infield.

Evans was replaced in the eighth by the old war-horse, Les Gould, who threw some curves which had the mining lads breaking their necks. He showed that despite his advancing years he still has some great stuff left for a short period.

Summary: Stolen bases, Thompson; sacrifice hits, Taylor, G. Currie; two-base hit, Kuroda; three-base hit, Ingram; bases on balls, off Evans 3, off Ingram 3; struck out by Evans 2, by Gould 1, by Ingram 4; double-plays, Ingram to Mullen, G. Currie to Kovich to Mullen, Walsh to McCargar to Vanderburgh; passed balls, McCargar 1, Schull 1; hit by pitcher, Kuroda, Imayoshi by Ingram, Liberatore by Evans; umpires, E. Smith and S. Baillie.

Premier Johnson Acts To Assist Flooded Districts

Premier Byron I. Johnson announced last week the appointment of three persons to represent the provincial government in the Fraser Valley flood area. They are: Mr. W. H. Hicks, superintendent of the Dominion Experimental Farm at Agassiz, who will act for the government in that area; Mr. Rex Cox who will take charge in the Dewdney district; and Mr. W. L. Macken who will act for the government in the Chilliwack - Sumas area.

The officers have been given full authority to act on behalf of the government in proceeding with evacuation and disaster relief and have been empowered to take whatever steps they think necessary.

The premier also announced that he had made arrangements with the federal minister of trade and commerce, Hon. C. D. Howe, to hold in Vancouver all grain supplies which normally would go for export. These supplies will be made available to feed stock which may be evacuated from the Fraser Valley flood area.

Dr. J. M. Hershey New Commissioner Of Insurance Act

Dr. J. M. Hershey, assistant provincial health officer, has been appointed by the provincial cabinet as commissioner in charge of administering the province's compulsory hospitalization insurance plan, it is announced by Hon. G. S. Pearson, minister of health and welfare.

Premium payments for the plan are expected to start October 1 and the government hopes to have benefits available to the public January 1, the minister indicated.

Every person in the province must register under the new Hospital Insurance Act, whether he is to become a beneficiary or not, Mr. Pearson explained. Registration forms will probably be available in July.

P.G.E Boosts Its Freight Rates

The provincially-owned Pacific Great Eastern Railway will boost its freight rates by 21 per cent immediately, it was announced last week by Mr. John Hart, president of the railway.

The decision to increase the freight rates in line with increases awarded the national railways by the Board of Transport Commissioners was reached at a meeting Wednesday of the railway directors.

Mr. Hart said the increase was necessary because the railway needs more revenues and the existing freight rates are low as it is. Operating expenses are climbing all along the line and a considerable amount of new equipment has been ordered.

The board of directors also authorized the purchase of 50 new flat cars at a cost of \$250,000.

WEST SUMMERLAND

Thanks!

The citizens of Trout Creek, whose homes and properties were protected last week from the ravages of flood water by the people of Summerland gratefully thank each individual for the help so ably given.

A special thanks is given to those who, in addition, provided the supplies and equipment without which the job could not have been successfully completed; and to the Red Cross for providing refreshments for the workers.

Bicycles Given Out At Rialto For Contest

Clifford Ask, with 253,315 votes and Patricia Morrow with 245,355 were the winners announced at the Rialto theatre on Saturday afternoon in the bicycle contest sponsored by the theatre and eight local stores.

Reeve Reid Johnston officiated at the prize-giving function, which was handled by Mr. M. A. Metropolitan, Rialto manager, and Mr. Michael Hall, projectionist.

Four other boys and four girls received prizes donated by the merchants, as follows:

Joan Barnes, 317,530 votes, pyjamas, from the Peter Pan Toggery;

Dianne Hannah, 204,150 votes, blouse and socks, presented by the Westland Bar; Louise Walton, 153,315 votes, pair of running shoes, donated by Verrier's Meat Market; Elsie Glaser, 144,895 votes, mystery prize, from the Groceteria.

Ronald Skinner, 248,010 votes, a pen, from the Summerland Sheet Metal & Plumbing Works; Bobby Walker, 180,650 votes, running shoes, from the Family Shoe Store; Victor Smith, 149,170 votes, a Penlight, from Pollock Motors Ltd.; Ronald Wilson, 83,745 votes, softball, from Butler & Walden.

Baby Immigrants From Shetlands

They're cute, but don't get any ideas about playing with them: they have a mother with a keen eye and a quick leg. These two baby Shetland ponies arrived in Montreal recently aboard the Cunard freighter Dorelian, as part of a group of 50 ponies bound for a Toronto ranch home. They are the first group to arrive from Scotland in several years. Fearing the worst when a photographer got close to the little ponies, the mother Shetland kicked and narrowly missed the face of a handler.

Ottawa - Victoria Take Steps to Help B.C. Flood Areas

A Fraser River rehabilitation and relief commission has been established jointly by the Dominion and provincial governments following discussions between Prime Minister W. L. Mackenzie King and Premier Byron Johnson on long distance telephone and after Premier Johnson had taken all steps necessary to combat the flood menace.

The commission consists of Major-General B. M. Hoffmeister of Vancouver, who will represent the federal government and Hon. Eric W. Hamber, CMG, former Lieutenant-Governor, who will represent the provincial government.

All measures necessary to bring about the restoration of dykes, rehabilitation of farm land and re-establishment of farmers will be directed by this commission with the assistance of competent advisors.

For the purpose of expediting the joint arrangement, Premier Johnson left for the east on Saturday to confer with Prime Minister Mackenzie King and other federal ministers with a view to ascertaining to what extent the Dominion government will share in the responsibilities of rehabilitation in all flood areas throughout the province. Insofar as it is possible the premier has endeavored to gather all available information that will contribute to a preliminary estimate of the acreage under water, the houses that have been damaged and the livestock that has been lost and other essential information necessary for arriving at a conclusion.

FISHING IS GOOD IN MOST LAKES

Fishing in Okanagan lake and most other lakes in the district have been yielding some fine catches in the past couple of weeks.

Eastern Brook trout are being captured in fair supply from Garnet Valley dam and Fish lake, with some Kamloops also taking the fly.

Munro, Eneas, Glen and other similar lakes are open and some good catches are reported, although prospective fishermen are warned to take mosquito oil or some type of preventative, as the insects are quite numerous.

Agur lake did not respond last Sunday although there was a large group of fishermen attempting to lure the fish.

Average catch from Okanagan lake is three pounds of fine Kamloops trout, with the biggest being a 17-pounder hooked recently.

CORPORATION OF SUMMERLAND

Applications are invited for the position of ASSESSOR for the Municipality of Summerland. Applications to state qualifications, and remuneration expected and to be forwarded to the undersigned by Noon on Monday, 21st Inst., endorsed "Assessor."

F. J. Nixon, Municipal Clerk.

HEAT WAVE

Continued from Page 1

machine when the new one gets here," replied Councillor Wilson.

However, the climax of this discussion came when Councillor Bentley thought it "silly" that the grader is not being used more often.

At this juncture, Councillor Wilson had been goaded far enough and he offered to resign the roads committee and hand over the task to Councillor Bentley if the latter thought the operation was "so silly".

However, nobody took Councillor Wilson's outburst very seriously, and certainly Councillor Bentley did not accept. So the council went on to other matters less ticklish than the road situation.

Water Draws Fire

But another subject which generally draws more fire than even the roads is the water situation, or generally the lack of water.

Tuesday afternoon was no exception when Frank Haddrell appeared before the council and offered a complaint about not receiving sufficient water for the amount he paid and offering suggestions as to a method of siphoning the water into his supply system.

The air was quite peaceful up to that point, but at the finish of his talk Mr. Haddrell intimated that he had been suffering long enough, that he hadn't been getting a square deal and he was prepared to fight to the last ditch even into the courts, to see that justice is done.

At this point, the peaceful atmosphere was shattered to an alarming degree by Water Foreman "Ace" Kercher, who denied, in quite unparliamentary language, Mr. Haddrell's statements regarding his supply line.

In fact, Mr. Kercher doubted the veracity of Mr. Haddrell and was not loathe to let the council know his views. In return, Mr. Haddrell also questioned Mr. Kercher's memory concerning some matters.

Bentley In the Play

But Councillor Bentley, who had been quiet during the whole scene, came into the play with no move on his part. Mr. Haddrell quoted a statement purportedly made by Mr. Bentley concerning the Haddrell supply system.

At this, Mr. Kercher became increasingly annoyed and replied that "if Bentley said that let him take my position. You (the council) would be fools to employ me as water foreman if he knows so much about it."

Councillor Bentley made suitable explanation and Mr. Kercher was appeased. He did not offer his job again to Councillor Bentley nor did the latter attempt to accept at any time.

Councillor Tait entered the fray with a suggestion that the water committee of Councillors Bentley and Wilson, along with Foreman Kercher, investigate the complaint and find a solution.

However, Foreman Kercher promised that Mr. Haddrell would receive the amount of water he pays for and Mr. Haddrell declared that "as long as I get my eight acres I won't be in again."

So, with that Mr. Haddrell re-

Amount of School Bylaw Approved

B. C. Bracewell's approval of the amount involved in the proposed \$104,350 school expenditure bylaw which will be submitted to the taxpayers for approval in the near future has been received by the local council. The bylaw will now be drawn up, given two readings and sent to Mr. Bracewell for approval. Then it will be submitted to the taxpayers and if given the latter's blessing, it will be finally approved by the council and the debentures printed.

IMPOSE TAX

The provincial sales tax, which is expected to be imposed by July 1, will be applicable to sales of electrical energy by the municipality, the municipal council was informed by the provincial finance department on Tuesday following a questionnaire which had been despatched by Municipal Clerk F. J. Nixon.

TROUT CREEK

Continued from page 1

proximate cost of this voluntary effort, so that an objective can be set when a drive for funds from Trout Creek property holders is made.

It is the intention of the Trout Creek district to reimburse those whose machinery broke down and for their operating expenses while endeavoring to stem the flood waters.

There is no question of paying for hours of work, as those who put in their time did so on a voluntary basis without thought of remuneration.

The meeting was given to understand that there would be a municipal contribution and on Tuesday the council agreed that it should co-operate in every way with the Trout Creek committee.

The council, at the instigation of Councillor Bentley, also expressed its appreciation of the community effort revealed at Trout Creek, with special mention of the women who provided refreshments for the weary workers prior to the Red Cross taking over this important task.

Reeve Reid Johnston agreed that the council has a moral obligation to assist in the remuneration of those who supplied machinery and equipment for this work.

Councillor Eric Tait has summed up the feeling of last Thursday's meeting, as follows: "Much expensive equipment was used, with no thought of recompense and those whose homes were endangered by the flood would feel better about the whole affair if they were permitted to meet at least some part of the expense involved."

The meeting also made it clear that the raising of this fund would in no way interfere with the B.C. Flood Emergency Fund which has commenced in the municipality.

tired, the council heaved a sigh, and went on with other work. It was only a matter of minutes before all persons present were in an equitable frame of mind once more.

Huge Clay Bank

Continued from Page 1

ace has been concluded.

Properties along Summerland's seven-mile stretch of lakefront have been in constant danger from lake waters for the past week and despite efforts to sand-bag many gardens have been ruined and basements flooded.

The Kelowna Board of Trade has issued an appeal to all civic bodies in the Okanagan to band together and urge on Ottawa implementation of the findings of the 1946 international joint commission on Okanagan Lake and river flood conditions.

Last attempt made to interest Ottawa was met by Kelowna city council with a question as to what extent the Kelowna municipal authorities were prepared to participate financially in controlling flood waters.

When a session is held of Okanagan representatives, Summerland will be represented by Coun-

cillors Eric Tait and C. E. Bentley.

In Summerland's watersheds, only menace is from beaver dams, which sometimes help to hold back water in dry years but in these times endanger storage dams. Water Foreman E. Kercher informed the council on Tuesday that beavers were backing up the water to a height of eight inches over the spillway of No. 2 dam, thus creating a danger.

The local council has decided to ask the game, commission to remove these beavers from the watershed area, to mitigate the danger to storage dams.

Municipal employees cleaned out the ditch from No. 4 to No. 3 dam thus allowing a run-off. Level of the runoff over the spillways on dams on Trout Creek dropped noticeably in the past week and on Sunday last only three inches of water was going over.

G. W. Pennington went in to Canyon Creek dam this week and reported favorable conditions to Foreman Kercher on Tuesday night.

Red Cross Appreciates Generous Response Of Summerland District

B.C.'s contribution of the Canadian Red Cross appeal early in the year was oversubscribed by more than 50 percent of the \$300,000 objective. Summerland contributed nearly \$3,000 on an objective of \$1,800.

E. W. Hamber, provincial chairman, has forwarded the following letter to Mr. Jack Dunsdon, campaign chairman of the Summerland drive:

"The 1948 Canadian Red Cross Campaign has now been brought to a successful conclusion. The Province of British Columbia was assigned a quota of \$300,000.00 of the \$3,000,000.00 Dominion-wide appeal. To date the total is \$470,000.00 or 56.66 percent in excess of our objective. This wonderful showing, I fully realize, was only made possible by the loyal and active co-operation of all branches and the campaign committees.

"The returns which have been received from Summerland reflects a very generous spirit on the part of the community and, it is felt, an endorsement and appreciation of the peace-time work of the Canadian Red Cross Society as well as its expenditures of vast sums on relief to the United Kingdom, Europe and Asia.

"I am very conscious that only by the effort put forth by yourself and your loyal workers was such a splendid result made possible in Summerland. The Provincial Campaign Committee and myself wish to thank you and all those who so willingly co-operated with you, for their help and continued confidence in Red Cross."

The Review editor has also received an official letter from C. F. Johnston, director of the national publicity department of the Red Cross Society.

"May I once again express grateful thanks to you for presenting the story of Red Cross to the public this year.

"When I wrote you personally some time ago pointing out the importance of this particular campaign, I felt sure, as far as possible, you would do your best for us as you have so generously done in the past. The outstanding support and co-operation given by the weekly press of Canada are greatly appreciated.

"For your personal support, may I, on behalf of the Canadian Red Cross Society say, once again, many thanks for your help."

Rubble lies in the bus station at Tel Aviv after a bombing attack recently in which Jewish sources said 40 persons were killed and 60 others injured. Man at right motions to another man (left foreground). A bus smoulders in one of the bays.

Donkeys Will Prance On Ball Diamond Here

At the Living Memorial athletic park on Monday, June 21, fifteen world-famous, trained, circus donkeys will perform in an exhibition baseball game between Summerland and Penticton clubs.

This week, the baseball club signed an agreement with Capt. Jack Bartlett, owner of the prancing mules, whereby Summerland and Penticton ball clubs will do their best to give a baseball exhibition in spite of the donkeys.

These bucking, braying beasts have performed for Hollywood and have won the gold award on four different occasions presented by the Association of American Showmen. They were also flown to combat areas throughout the world to entertain U.S. troops.

Hilarious moments will be a dime a dozen on June 21, when these animals perform for the Summerland crowd. They do not respond to the commands of the persons on their backs but have been trained to respond to the public address system.

Arrangements are being made by Councillor F. E. Atkinson, chairman of the council electric light committee, to have a line strung to the park. Capt. Bartlett will supply flood lights and a loud speaker system for the event.

This troop of donkeys has been performing in many parts of Canada and the United States for the past ten years and provides circus entertainment for all members of the family.

A popular definition of an expert is "An ordinary chap fifty miles from home." A new slang definition has appeared — "The chap who can make a bull's-eye without shooting the bull."

NEW BOUNTIES ARE SCHEDULED FOR B. C. PREDATORS

A new schedule of bounties maintaining the \$20 payment for cougars, but adjusting upwards the bounties for timber wolves and coyotes has been approved. \$40 each will be paid in the electoral districts of Kamloops, Cariboo and Lillooet for timber wolves and \$25 each through the remainder of the province.

For coyotes shot between April 1 and October 31 the new bounty is \$4. The whole pelt of the cougar must be produced when application for a bounty is made. The officer will punch a hole in the left ear before issuing the bounty. In the electoral districts of Kamloops, Cariboo and Lillooet the whole pelt and the right foreleg pad of wolves must be produced for the bounty. The officer will cut off the pad and destroy it.

For coyotes, only the scalp and right foreleg pad need be produced. The officer will destroy this.

Swim Class Registrations Now Sought

Registration forms for the free swim classes of the Summerland Board of Trade, to commence at Powell Beach on Wednesday, July 7, have now gone out to every household in the district.

These forms can be turned in to the Cake Box, Family Shoe Store or Lakeside Inn by Monday, June 21, in order to give the committee time to arrange for instructors and divide the pupils into classes.

Bus transportation is being provided, the Smith & Henry and White & Thornthwaite school buses being used for this purpose. A charge of one dollar per pupil is being made to cover these transportation costs.

This is one of the two main projects of the board of trade during the year, the other being the annual Spring Fair.

It is anticipated that the registration this year will exceed last year's record or just over 200 pupils.

Arrangements are being made by the trade board swim class committee to tie together the rafts at Powell Beach by means of heavy leather hinges, which will keep the rafts from drifting and eliminate the danger of small tots being caught between the sections.

When the prospective students are notified by the committee of the time for their classes, strict

observance of this schedule is to be given, the committee warns. Once the class is completed, the children will gather at the buses and will be transported back to their starting point.

Two series of lessons will be given each Wednesday afternoon during the summer months, in order to handle the large number of pupils who are expected to avail themselves of the opportunity to learn the rudiments of water safety.

At the end of the classes, tests will be provided according to the specifications of the Red Cross water safety plan. These are standard tests and grades according to ages are set up.

Cecil Wade and Mel Ducommun are two of the chief members of this large board of trade committee, along with Bert Berry, who has charge of the beach equipment. Many other board members are being pressed into service to assist in the smooth functioning of this annual event which is a boon in the summer life of the young people.

Building Only Half Last Year Figures May 31

Building permits in Summerland are only half the total for 1947, Roy F. Angus, building inspector, revealed this week in his report for the first five months of 1948. The total for that period this year is \$68,800 while in 1947 \$140,900 worth of permits had been issued.

The month of May saw four dwellings permitted at a cost of \$3,900, one commercial building altered at a cost of \$1,500 and three alterations and additions to homes at a cost of \$230, thus making a total of eight permits valued at \$5,630.

In May, 1947, 22 permits had been issued for a value of \$24,600. Mr. Angus' statement shows. The rainy, unseasonable weather in May partly accounts for the lack of building in that month, while June has shown an upswing, he declares.

Youngsters' Races First Event In Opening of Park

The youngsters had a grand time at the Living Memorial athletic park Empire Day, May 24, as the board of trade annual races were conducted by Gordon Beggs and an energetic committee. Races for boys and girls from four and under to 18 and under were run off as the first event in the opening ceremonies. Following are the results:

4 and under—Boys: 1st race—Freddie Metters, Jimmy Sheeley, Jimmy Jomori; 2nd race—Jimmy Sheeley, Freddie Metters, Wayne Barnes; Girls: Carol Anderson, Audrey Begs, Gail Barnes.

6 and under—Boys: 1st race—Doug Holmes, Eddie Menu, Donald Graham; 2nd race—Denny Beeman, Lennie Hill, Alan Smith; Girls: 1st race, Barbara Fudge, Emily Kawasaki, Vickie Cuthbert; 2nd race—Betty Lynn Boothie, Phyllis Young, Carol Anderson.

8 and under—Boys: Gary Steuart, John Menu, Joe Brlekovich; Girls: Judy Smith, Joan Beggs, Anne Macleod.

10 and under—Boys: Billy Ward, Bob Metters, Gary Steuart; Girls: Mary Brlekovich, Marilyn Wade, Loretta Inglis.

12 and under—Boys: Billy Ward, Jack Pohlmann, David Doumont; Girls: Irene Menu, Evelyn Washington, Anna Brlekovich.

15 and under—Boys: Leighton Nesbitt, Gerald Washington, Roger Smith; Girls: Helen Kean, Barbara Metters, Evelyn Heichert.

18 and under—Boys: Jack Dunham, Ernie Jomori, Leighton Nesbitt; Girls: Helen Kean, Barbara Metters, Evelyn Heichert.

As a finale, a men's race brought out a speedy group, with Gordon Beggs capturing first place, followed by Len Hill and Walter Eleasdale. Fred Dunsdon tripped and fell just before the finish and Francis Steuart had to change to a hurdle race to avoid going head-first.

Peach Leaf Curl Is Prevalent Throughout Area, Says News Letter

"Since our last report the weather has settled down somewhat. The early part of the period reported was characterized by several very heavy rains. The past two days have been quite hot with warmer night temperatures prevailing."

"This is the statement for Summerland, Peachland, Westbank district contained in the latest Horticultural News letter issued by the provincial department of agriculture on June 5.

"Trout Creek which had been rising steadily for the past two weeks reached a peak on May 28. Very hard work on the part of the community succeeded in dyking the creek from its entrance on to the Trout Creek Point to the shore of Okanagan Lake preventing what might have been a serious disaster to crops and property in that area.

All creeks throughout the district are now going down but Okanagan lake is still rising. So far there has been no damage to ground crops in the low lying areas.

"Crop prospects for the district are good, considering the unusually cool wet weather experienced during the blossoming period. Broadly speaking, apricots have set a good crop. Moorparkers are spotty in places but the general outlook is average to better than average. Tiltons, Blenheims and other canner varieties appear to

have set a heavy crop. Cherries have set a below average crop, although the outlook is not as bad as has been generally feared.

Peaches have set a good crop and should exceed the 1947 tonnage due to the large number of young trees just coming into bearing. Here and there bad infestations of peach leaf curl may cut individual tonnages.

There was an extremely heavy bloom on all pears, but Bartlett's have dropped a large percentage of this leaving them rather thin set. There will not be much thinning needed on this variety. Flemish have set heavily. The outlook for apples is still not absolutely clear but to date the set appears good.

The moist spring has aided cover crop growth. Fall rye in some places reached the height of a man. Irrigation is still not necessary in most orchards.

"Vegetable plantings throughout the district are up over last year. Leafy vegetables and early potatoes have made excellent growth after a slow start. Tomatoes have suffered from the cool weather but are coming along now.

"During the past week alternating warm temperatures and rain showers have favored the spread of powdery mildew in apples and most orchards are heavily infested. The extremely wet spring has also given rise to a phenomenal infestation of peach leaf curl. Growers who applied dormant or 'pink' sprays of lime sulphur have comparatively clean orchards. The disease is very serious in most unsprayed peach orchards.

Stresses Need of Pruning Lilacs As Soon as Bloom Over

(Experimental Farm News) Spring and summer flowering shrubs should be pruned as soon as the bloom begins to fade and before seed pods develop. When pruned at this time seed production is reduced and new growth is not interfered with. The removal of old and unthrifty wood will leave more room for the new growth. If some shrubs such as lilacs are allowed to produce seed, it may reduce the size of next year's blooms, says F. V. Hutton, experimental farms service, Dominion department of agriculture.

Commonly grown shrubs which should be summer-pruned after blooming are all lilacs and most spiraea. They will require little pruning other than the removal of dead or unthrifty wood until they have been growing in one location for two or three years, however. After this the stems may become crowded and the size and quality of the flowers may deteriorate.

To keep the bush in good condition when they commence to crowd, about one-third of the old stems should be removed after blooming and an equal number of vigorous young shoots, properly spaced, be allowed to take their place. All small, weak and poorly spaced, stems should be removed at this time.

In removing stems they should be cut off close to the ground or a main stem near the ground. Do not tip prune excepting to remove dead or injured wood. With lilacs which may produce abundant seed and weaken the plant, all blooms which are not removed when pruning should be cut off just above the first leaves.

Shrubby roses, mockorange and many other flowering shrubs require little pruning and the removal of dead or injured wood will keep them in good condition.

Canadian Fashion

After five—go anywhere in this sheer black by Fashion Guild with its graceful bustle-type peplum falling over an all-around knife pleated skirt. The white guipure lace band applied in the bodice adds in finite elegance.

Two More Power Projects Approved

Two important power projects have been authorized by the government on the recommendation of the B.C. Power Commission, it is announced by Premier Byron I. Johnson. The cost involves a total of more than \$200,000.

The major project is at Silver Creek, B.C., where construction and installation of a hydro-electric power plant will be carried out to supply electrical power for the village of Hope and the area adjacent thereto. The cost of this project is \$180,000.

The other undertaking is the rehabilitation and improvement of the hydro-electric power plant at Nakusp for the purpose of improving the availability of electrical power supplied to the Village of Nakusp and adjacent area. The estimated cost of this project is \$28,000.

PAPER BIRTH-CONTROL
From a village newspaper comes this gem. "Due to the shortage of paper, a number of births will be postponed until next week."

PLAN PULP MILL

A forest management licence will be granted to the Canadian Western Timber Company, Limited, which plans a \$25,000,000 pulp mill at Duncan Bay, north of Campbell River. It will cover 57,000 to 75,000 acres, and is the first ever granted on Vancouver Island and the second in the province.

TALKING OF TREES

Trees must have protection. Like any other living thing, they can be destroyed if their enemies—fire, insects, and disease—are present in sufficient strength to overcome their natural immunity or resistance. Our trees are so vital to our welfare and prosperity that we must make sure they receive every possible care.

Join the Canadian Army Active Force NOW!

Full Hospital Services Will Be Covered By Plan

The government has purchased the Canadian Legion building on Burrard Street, Vancouver, for \$113,000 as headquarters for the compulsory, contributory hospitalization scheme which comes into effect early next year, it is announced by Hon. George S. Pearson, minister of health and welfare this week.

Also announced by Mr. Pearson were the following appointments: A. W. E. Pitkethley, chief accountant in the department of public works, executive director under Dr. J. M. Hershey, commissioner; Y. J. Lyle, assistant to Mr. Pit-

kethley; Ken Wiper, provincial registrar of voters in Victoria, to take charge of registrations and collections; Renny Englebert, free lance executive assistant to Dr. Hershey.

That the hospitalization scheme will cover full necessary hospital services on a public ward level, operating room, X-ray and special diagnostic services that are usually provided as part of hospitalization, and that old age pensioners and others receiving social allowances will have their premiums paid by the welfare department, was also announced by the Minister.

Premier Byron Johnson and Health and Welfare Minister George S. Pearson this week stated that mothers' allowances and social allowances will be increased by approximately 15% on July 1. The maximum amount paid to a single person will be increased from \$30 to \$35 a month, for man and wife or parent and one child from \$3.50 to \$50, for a family of five from \$65 to \$75.50 and the maximum payment from \$75.50 to \$84.

Gladioli Will Feature Float For Festival

E. H. Bennett's gladioli, famous throughout Canada, will feature the Summerland Board of Trade float in the big Penticton and District Peach Festival parade, the board was informed on Thursday evening.

Mr. Roy Wellwood, chairman of the tourist and publicity committee, is in charge of this endeavor. It was suggested at the meeting that the Spring Fair queen and her attendants be grouped on this float.

Mr. Wellwood also reported that he wishes any persons planning a holiday trip to take with them tourist folders of Summerland and the Okanagan and distribute them on their travels. Mr. Wellwood had a quantity of such brochures for distribution.

Progress on the sign projected for the CPR station was reported by the tourist committee chairman.

SCOUT NEWS

The last two Scout meetings have suffered in attendance owing to stiff arms from typhoid inoculations, but it is hoped that by this Friday most of the boys will have toughened up enough so that the third shot won't bother them. Even with reduced attendance the last two meetings have been good for instruction of small groups in first aid and signalling.

Those boys who wish to pass first aid on Friday bring your own triangular bandage 36 x 40 inches.

At last meeting P/L Lewis was presented with his first class badge. Secretary Blacklock received his artist's badge and P/L Rempel his church and life badge. P/L Rempel hopes to have passed his first class badge by Friday. Darwin Harbicht passed his tenderfoot tests and will be invested on Friday. Robson was admitted as a recruit to the Beaver patrol.

Two recruits are needed for the troop at this time to fill out the troop strength before camp.

Point scores now stand at Beavers 1058, Hawks 1048, Buffaloes 862 and Eagles 837. The Sharman cup will change hands at Friday's meeting.

Notices: A full attendance is requested for Friday, June 18, meeting to discuss plans for camp which will probably be held the first week of July. Duty patrol, Buffaloes.

Whizzbangs Mark 40th Anniversary

The Whizzbangs Association marked the 40th anniversary of the founding of the 2nd Canadian Mounted Rifles, B.C. Horse, at the Interior branch's annual meeting and dinner held in Salmon Arm on Sunday, June 6. During the past war the historic fighting unit was known as the B.C. Dragoons.

Over 80 members of the association gathered on Sunday from points between Penticton and Notch Hill. C. C. Barker, of Salmon Arm, was chairman. Officers elected for 1948 were: president, W. T. Fleet, Penticton; first vice-president, Eric Waldron, Kelowna; second vice-president, M. V. Maguire, Coldstream; secretary-treasurer, T. N. Midgley, Penticton; district representatives: Armstrong and north, Reg Sewell and C. C. Barker; Vernon and district, R. W. Hodgson and G. Hill; Kelowna and district, A. Crawford and J. I. Monteith; Penticton and south, Peter Adams and Warrock Arnott.

The association adopted as an official beret one in black, with a patch of French gray and the badge of the B.C. Horse, or the B.C. Dragoons. A memorial service was held at the Salmon Arm cenotaph and business sessions were conducted in the afternoon and evening. The next re-union of the Interior Whizzbangs will be held during the first week of June, 1949, at Penticton.

EXAMS IN FLOOD AREAS
Hon. W. T. Straith, K.C., minister of education, has announced that students in flood areas who have missed school should write their exams if possible and their cases will be given attention by a special adjudication committee.

TENDER SUBMITTED
The only tender submitted for construction of a nurses' home and an addition to the farm boarding house at Tranquille Sanitarium was submitted by Marwell Construction Company with a bid of \$152,843, Hon. E. C. Carson states.

Protect against Codling Moth!

DEENATE 50-W
(Ultra-Micron 50% DDT Insecticide)

EFFECTIVE-DEPENDABLE-ECONOMICAL

DEENATE 50-W gives extra protection, uniform and effective coverage impossible with coarser DDT insecticides. Its superior quality and ultra-micron particle size (2 to 3 microns) make DEENATE 50-W the most widely used DDT orchard insecticide.

For dependable, complete protection against codling moth, spray with DEENATE 50-W. For mite control, add DN Mix No. 1 to DEENATE 50-W cover sprays.

ALCOA Cryolite. Contains 90% active ingredients, wets and mixes readily, gives uniform coverage.

C-I-L SPREADER-STICKER. Makes spray more effective by helping it penetrate into "tight" spots. Insures a smooth, tough coverage that resists weathering.

CONTROL APHIDS AND PEAR PSYLLA WITH

BENEXANE 50

Gives effective control of apple aphids, mealy plum aphids and pear psylla. A wettable 50% formulation of benzene hexachloride, containing 6% gamma isomer, the active ingredient. Use as recommended by local agricultural authorities.

Another Classroom

Continued from Page 1
 tions are being filled, the letters of acceptance having been signed on Monday.

Three resignations have been received from the elementary staff, these being Mrs. E. Joslin, Miss E. Bartlett and Miss M. Gall. Their positions have not yet been filled.

New Bus Runs

Increased bus accommodation will be needed next term, and application to the provincial department of education is to be made for a new bus contract with White & Thornthwaite which would allow that firm to purchase a new 55-pupil bus in place of the one smaller bus now in use.

Expected bus pickups next fall were outlined by Mr. MacDonald, as follows: Trout Creek, 80; Lower Town, Peach Orchard and Hospital hill 100; these two districts would mean two trips each for the two White & Thornthwaite buses.

Garnet Valley and Jones Flat, 59; Prairie Valley, 69; Station road and Giant's Head, 67; Smith & Henry's large bus would make its first trip to the top of Prairie Valley and the second trip would pick up the balance of that route, plus a complete pickup of Station road and Giant's Head; the smaller Smith & Henry bus would pick-up Garnet Valley pupils and then make a second trip to pickup the Jones Flat children.

It was considered that the Garnet Valley route would have to be extended so that the bus would make a pickup at the fork in the road leading off to the rifle range. The municipal council will be asked that the bus can turn around to widen the road at this point.

Grade 13 Pupils

Another transportation problem will be that of the Grade 13 pupils to Penticton; if District 15 can accommodate the five prospective students next September. Tuition fee of approximately \$110 will probably be charged and transportation costs about \$1,400, of which the local district board pays about \$560.

No decision as to whether the tuition fee would be charged back to the pupils was made on Monday.

Nine applications for the position of secretary-treasurer were narrowed down to three, who were requested to meet at the school yesterday afternoon to be interviewed by the board's auditor.

Mrs. A. W. Vanderburgh was appointed the board's representative on the Okanagan Valley Health Unit and the Okanagan Union Library boards.

Warns About Communism In This Country

Dr. D. V. Fisher, well-known member of the experimental station staff, took time off from his close study of fruit research to give board of trade members a review of Igor Gouzenko's well-known book, "This Was My Choice", at the board monthly meeting last Thursday evening.

In reviewing this book's contents, Dr. Fisher gave the writer's word picture of conditions as he knew them in Russia.

"The Russian people are brought up to spy on everybody, even on members of their own families," explained Dr. Fisher. "Their whole training is unethical according to the Christian world as we know it."

Food is a weapon in Russia, he continued, as Russians believe that by withholding food they can bring the people into submission. Housing conditions were described, "extra fine living quarters" according to Russian standards being equivalent to the worst slums in this country.

Secret Police

The secret police, NKVD, permeate every phase of Russian national life, and members are even heads of labor unions, Dr. Fisher continued, giving one instance where three workers in an automobile factory struck and all employees were executed as an example.

Jews are as unwelcome in Russia as they were in Germany, but the Russians try to hide this fact

JURY VERDICTS IN MUTCH DEATHS

This morning, a coroner's inquest, under the charge of Coroner F. W. Andrew, Summerland, returned a verdict that Mrs. Nora J. Mutch and her two sons, Robert and Grant, of Kaleden, came to their death by violence that was caused by Robert Douglas Mutch, their husband and father, while he was in a state of great mental instability.

On June 14, an inquest in to the death of R. D. Mutch decided that death was due to drowning in Skaha lake near Kaleden, circumstantial evidence leading the jury to believe death to be suicidal while deceased was in a state of emotion from the rest of the world, he claimed.

Dissolution of the Comintern was a mere ruse, quoted Dr. Fisher from Gouzenko's book, as the foreign embassies took over where the Comintern left off.

For a time, the propaganda fed the Russians about the western world was given consideration by the speaker. Russians were told of the horrible conditions of slavery, of the deplorable conditions of jails and dungeons in America, and of workers dying at their jobs to mass produce for the capitalists.

Dr. Fisher considered that people in Canada have a duty to perform in telling the truth about Russian propaganda. He deplored the advent of Russian thought in this country and declared that the Labor Progressive Party is not just another Canadian political party but the official organization for Communist Russia.

"The loyalties of the LPP are to Russia and not to Canada," he emphasized in conclusion, stressing that most LPP leaders have been through the schools for sabotage in Russia and are endeavoring to stir up strife and anarchy in Canada.

Plenty of Fun and Games As W.I. Plays Hostess

It was not without some feeling of hesitancy that Summerland's W.I. undertook to invite "new citizens" to a get-together. There is always the feeling among the well settled and well acquainted that they may be infringing upon the strangers' privacy—"It isn't that you and I are unfriendly, but perhaps she doesn't want to be"—in effect. Nevertheless the W.I. members rallied at the Parish hall and to a woman they felt the effort well justified by the time the big affair drew to its close on Tuesday evening.

The attendance was better than even the most optimistic had forecast. In spite of the weather man, seventy ladies—27 of them guests of the Institute—packed into the Parish hall to play games and enjoy a social evening.

One bona-fide non-native newcomer to this district present on Tuesday was Mrs. Elizabeth Blunt. Elizabeth is a Dutch girl from Nymegen, who left five older sisters and four older brothers behind her when she came to Canada as Ernie Blunt's bride two years ago. The baby of that large family, and having little English as yet, this very pretty young blonde girl has been homesick. Because the CPR moves its dispatchers hither and yon with great abandon during their first years with the company, Elizabeth has already lived all over B.C. without ever having had a chance to put down any roots. Aside from the natural homesickness, she thinks B.C. is wonderful—but, and take it to heart, you old timers, Summerland isn't as friendly as have been some other places, she declares.

For this night, however, Summerland's women were out to show how friendly they could be, and all

about uttering plaintive "tweet, tweets", everyone thought the house was coming down. The quip that very nearly did bring the roof down, however, was the charade containing the Goldilock's story. When Mrs. R. C. Palmer with all the innocence extant, queried whether the baby bear's chair had a hole in it, the very rafters shook.

Guests of the Institute at this first and very successful get-acquainted party were: Mesdames C. B. Hankins, R. Biech, Frank Young, J. Slater, E. Blunt, James Mitchell, E. Martin, J. Smith, Emily Fetterer, E. Walker, W. Milne, M. A. Metropolit, Betty Fisher, Alec Graff, Ivy Mason, G. A. Fisher, Sedlar, Hooker, Barbour, Christie, Adams, Beech and Reinertson.

Dr. C. G. Woodbridge Returns With Bride

Dr. C. G. Woodbridge of the division of chemistry, science service, returned to Summerland on Monday after spending two years at State College in Pullman, Wash., where he recently received the degree of Ph. D. in chemistry. He will be associated here with Dr. H. R. McLarty.

Dr. Woodbridge brought with him his bride of two weeks, who was until their May 21 wedding, Miss Marian C. Satterlund of Bellevue, Montana. The former Miss Satterlund has also been a student at State College, and this year received her degree as Master of Science in chemistry.

Visiting Abroad—

... are Mr. and Mrs. James Bolton, with their three children, who arrived in Summerland from their Bangor, Sask., home on Monday to visit Mrs. Bolton's parents, Mr. and Mrs. H. P. Barr.

... is Dr. R. C. Palmer, superintendent of the experimental station, who is attending a series of conferences at Vancouver. From June 19 to 22 he will attend the plant breeders' conference, followed by a three-day convention of the Canadian Seed Growers' Assn. Today and tomorrow, Dr. Palmer is attending the B.C. Research Council conference.

... are Mr. and Mrs. L. W. Rumball, who left on Thursday for a motor vacation to Pacific Palisades, Cal. They were accompanied south from Seattle by their son and daughter-in-law, Mr. and Mrs. Dale Rumball, of Vancouver.

... are Mr. and Mrs. Fred Schumann, who left by motor on Sunday morning last for Banff, Lake Louise, Jasper, and wherever else their fancy takes them within the two weeks before they plan to return to Summerland.

... are Mr. and Mrs. T. A. Walden, who finally got away on their long-planned trip to coastal points on Sunday.

... is Dr. James Marshall, who left on June 9 for Victoria and Vancouver. While at the coast Dr. Marshall attended the meeting called by the director of science service in Victoria.

... are Mr. and Mrs. C. E. McCutcheon, who left on Saturday last for a motor trip to Vancouver and coast points.

... are Mr. and Mrs. George Washington, who with children Gerald and Marilyn left on June 12 for Vancouver, where they expect to stay about a week.

... are Mr. and Mrs. Earle Wilson who, accompanied by Mrs. F. Stark, left on Saturday to motor to Victoria, where they plan to attend the meeting of the Eastern Star Grand Chapter.

... are Mr. and Mrs. T. B. Young who left on Saturday to motor to the coast.

... are Mr. and Mrs. Gerry Laidlaw, who left on Wednesday morning for points south and west. They hope to go as far as Seattle and Vancouver, depending upon the gas situation, and will be away for ten days or more.

... is Mr. David Turnbull, who left by plane for the coast, where he plans to join the Royal Canadian Navy.

Church Notes—

Mrs. A. W. Vanderburgh was hostess on Monday, June 14, to the Evening Auxiliary of the Baptist church, when the members of the auxiliary gathered to enjoy a musical program and partake of a delightful tea. Pouring for the occasion were Mrs. Carl Nesbitt and Mrs. F. W. Haskins.

St. Andrew's Women's Federation is holding its regular monthly meeting this afternoon at 3 o'clock.

Flood conditions have thrown the church camps' plans asunder. Camp Sorek at the Farm beach will have to be cancelled for this season, though tentative plans are underway to use Camp Hurlburt near Vernon for the CGIT girls and for the usual boys' summer camp.

The exchange of pastors between Summerland and Keremeos planned for last Sunday had to be called off because of gas shortage.

Home Again—

... are Mr. and Mrs. C. J. Eleasdale, who flew to Vancouver for a week's holiday, returning by car via Washington.

... is Mrs. Gordon Blewett, who returned home last week from Fort St. James where she has been visiting for two months with her son-in-law and daughter, Mr. and Mrs. W. A. Tyacke, and making the acquaintance of her new granddaughter, little six-weeks-old Jeanette Patricia. Mrs. Blewett flew out from the "Fort" by way of Paul Lake, being piloted by the well known "bush pilot" Pat Carey.

... are Mr. and Mrs. A. Menu, who spent last week end visiting friends in Vernon.

... is Dr. H. R. McLarty, who arrived back from the coast this morning.

... is Mr. N. O. Solly, who made his trip to San Francisco and back with Mr. John Theed of Oliver on schedule, arriving back in Summerland on Sunday last.

Mr. and Mrs. H. Bloomfield are the parents of a baby boy who arrived at Summerland hospital on June 9.

Arranging of Decorative Bouquets is Told to W.I.

If one is really stuck for a decorative bouquet for the dining room table—and if your fingers are as deft as Mrs. E. H. Bennett's—just pick a bunch of vegetables, arrange them in a decorative bowl, and there you are.

It is a good trick if you can do it, and Mrs. Bennett showed members of the Women's Institute how it is accomplished on Friday afternoon, June 11. She didn't confine herself to the chives and asparagus, however, but also showed the ladies how to arrange beautifully and tastefully a wide variety of lovely blooms, from the tiny violas to the majestic peonies.

It was a well attended and lively meeting, with 60 members and visitors turning out to hear a wide-

ly varied assortment of reports, chief of which was Mrs. Gordon Ritchie's report of her three days as Summerland's delegate to the W.I. biennial convention at Vancouver. Mrs. Ritchie wasted none of her hours as delegate, bringing back a full and enthusiastic report of business done and targets set up for W.I.'s future work throughout the province.

The meeting was pleased to learn that their resolution submitted on behalf of Canada's senior citizens had been adopted into the B.C. convention agenda, but the big news was the winning of an award for the better farm homes entry submitted by this Institute.

Saying: "I was really sorry that the ladies who had worked so hard on the competition had not been there, but I was really very proud indeed to bring back to Summerland the honorable mention award, a cheque for \$25.00," Mrs. Ritchie handed the cheque over to Mrs. A. W. Vanderburgh as guiding genius of the effort.

Mrs. Vanderburgh promptly handed it over to Mrs. J. J. Blewett, whose accompanying house plan had contributed so greatly to the submission; and Mrs. Blewett, in her turn, just as promptly handed the award back to Mrs. E. M. Collas as part of Summerland Women's Institute's contribution to the Flood Emergency fund.

When Miss Marion Cartwright rose to move a vote of thanks to Mrs. Ritchie for her excellent report, she stressed the thought that it was a fine thing for the Institute to have had a new member as delegate. "As a past delegate of several sessions," she said, "I know what a lift of enthusiasm one gets from these conventions; and I am glad we had a delegate who was so well able to give to us all that feeling of enthusiasm."

At the motion of Mrs. A. K. Macleod, who made an excellent impromptu appeal on behalf of flood victims, it was decided to add another \$25.00 to the award cheque, making the Institute's contribution one of \$50. In addition to this donation, the Institutes throughout the province that were unharmed by the flood conditions are to be asked to contribute toward building up again those Institutes which have lost equipment and suffered property damage.

Council's One-Hour Parking Bylaw Given Rough Ride By Trade Board

Summerland council's proposed one-hour parking bylaw for Granville and Hastings streets met with a decided negative vote at the Summerland Board of Trade monthly meeting in the IOOF hall on Thursday evening.

Not a voice spoke in favor of the bylaw, which would limit parking to one hour on these streets from 8 a.m. to 6 p.m. on weekly shopping days. One board member supported the proposal and the other fifty members present voted against the bylaw.

Speakers against the proposal were emphatic in their condemnation of the council's bylaw.

George Graham stated that the Summerland Retail Merchants Assn. feels the one-hour parking is not long enough, as when people come to town to do business they want a longer period for parking purposes.

George Perry labelled the bylaw as "ridiculous", declaring that the only parking congestion occurs on

Saturday nights and the bylaw would not cover this period. With one-hour parking, Summerland would look like a ghost town, he thought.

Roy Angus thought the bylaw "a joke". He had never seen the time when he had had to walk more than three-quarters of a block from his car to the place of business he sought.

T. B. Young placed the blame for any lack of parking space on the merchants. If they would not park their cars all day on the main streets then there would be no parking problem, he considered.

Walter M. Wright, who had introduced the subject at the May board meeting, considered that this legislation could have been avoided. He felt it would stir up discord between the merchants and their customers.

"The best advertisement for Summerland is a well-filled business section," Mr. Wright considered.

At this juncture, Mr. Perry moved that the municipal council be informed the board of trade is not in favor of the proposed parking bylaw. Mr. Mel Ducommun seconded the motion and it was passed with only one contrary vote.

Easy Way to Redeem Your War Savings Certificates

B. OF M. SERVICE HELPS YOU AVOID BOTHER, SAVE MONEY

Many Canadians have found a simple way to cash their War Savings Certificates—they just deposit them with the Bank of Montreal. As each Certificate falls due, the B of M has it cashed and credited to their account—automatically. The service costs very little.

This method saves folks the chore of sorting Certificates every month, endorsing and mailing each one to Ottawa when it falls due, and then cashing or depositing the cheque for it.

Many people find this new B of M service a real help in saving for something worth while, points out J. Muirhead, local manager. Since the proceeds of their Certificates go straight into their savings accounts, they're less inclined to spend the money than if it passed through their hands first.

Make a point of putting your Certificates into B of M safe-keeping tomorrow. It's a safeguard for your plans for the future and a step you won't regret.—Advt.

CNR APPLICATION GIVEN APPROVAL

Provided that local hauling firms are utilized to handle pickup and delivery service within the municipality, the Summerland Board of Trade has approved the Canadian National Railways application to the motor transport board for permission to operate trucks for freight originating in Vancouver and other coast points.

This approval was given by the local board to the Canadian Pacific Railway when it sought a franchise to operate in the Okanagan.

The White Transport Co., CNR subsidiary, would move the freight south from Kamloops, if the application is approved.

SUMMER RECESS FOR TRADE BOARD

Summerland Board of Trade is recessing for the summer months and no regular monthly meetings will be held in July and August, the June meeting at the IOOF hall on Thursday night decided. The executive has been empowered to transact board business in the recess period.

Price Mention On Radio Given Trial

For a six months' trial period, commencing September 1, price mention will be allowed over Canadian radio stations, the board of governors of the CBC decided recently. If it is found that price mention is lowering the standard of Canadian radio, then it will be discontinued at the end of the trial period, the local board of trade has been informed.

At the May meeting of the board, a negative vote was recorded on this subject.

Future Of Old Wharf Cause Of Agitation

Condition of the old government wharf in lower town is causing the Summerland Board of Trade some anguish. The wharf planking, tops of the piles, and the stringers are in a rotten condition, and are unsafe for any traffic, the board was told on Thursday evening at the IOOF hall.

Mr. E. R. Butler, who heads a committee of investigation for the board, stated that his group has considered burning the top part of the wharf and then using dynamite for the pile removal.

However, this is an expensive proposition and Mr. George Perry

declared that it would cost about \$400 to dynamite the 700 piles involved in this wharf.

It was decided to seek legal advice as to the board's responsibility in this matter. The wharf is alleged to have been sold to the old canoe club for one dollar and later it was turned over to the board for the same amount.

This wharf has been a great asset for swimmers and divers in the lower town area and will be greatly missed. However, the board committee declares that the wharf has outlived its usefulness and now presents a grave menace to safety of any persons who use it. Large holes in the top planking render travel unsafe.

TALKING OF TREES

Trees are a crop
Just like peas, or potatoes, or peaches, or pumpkins, trees are a product of the soil. Fortunately, they do not demand a rich soil but grow well on low-quality sites unsuitable for agriculture. British Columbia has millions of acres of soil suitable only for tree growing. Trees are our most valuable crop.

Two Week Army Camp At Vernon July 4 To 18

VERNON—Vernon will return to its once-familiar routine of an army centre for the two-week period from July 4 to 18 as some 400 men from the reserve army inhabit the military camp on Mission Hill for their annual summer training routine. Men from four main B.C. reserve units and from other smaller units will be stationed in the huts used during the Exposition.

At the same time, some 25 soldiers of all ranks from the local "A" Squadron, 9th Recce. Regt. B.C. Dragoons, will entrain with members of "B" Squadron, from Kelowna, and "C" Squadron, from Penticton, for the armored corps

camp to be held at Wainwright, Alta.

Many famous army units will be represented at the camp in Vernon: The Seaforth Highlanders, from Vancouver; the Canadian Scottish Regiment, from Victoria; the Rocky Mountain Rangers from Kamloops, and the Westminster Regiment, from New Westminster. Various smaller units will also send men for the summer training: the RCEME, the RCASC and RCAMC, the RC Dental Corps and the Canadian Provost Corps.

The Commanding officer probably will be one of the reserve unit C.O.'s. He has not been named as yet.

The BCD's will camp with all armored units from Western Command at Wainwright during the same two week period. Col. D. F. B. Kinloch will command the unit going to this camp. The only other reserve army unit from B.C. going to the Alberta training ground is the 13th Armored, DCOR's from Vancouver. Alberta and Saskatchewan units will comprise most of the strength.

The armored training will be directed by men from the Lord

Canadian Achievements Lauded By Rotary Speaker In Describing How Northwest Staging Route Developed

Stressing that Canada and Canadians can do their part in major construction work as well as anybody else, H. J. Wells, formerly employed by the department of transport, and now a Summerland fruit grower, gave members of the Rotary Club of Summerland a word picture of Canada's part in construction of the northwest staging route, at the club's Friday supper meeting at the Nu-Way Annex.

Mr. Wells declared that Canada is reluctant to tell even her own people of her achievements and described some of the difficulties which were surmounted by Canadians in building airports into the north country.

In 1940, Canada decided that air

strips must be constructed from Edmonton north, Grand Prairie, Fort St. John, Fort Nelson, Watson lake and Whitehorse.

Winter Highway

The only means of taking supplies and equipment in to Fort Nelson was by the McKenzie and Nelson rivers, or by small planes landing on the river. From Fort St. John to Fort Nelson, a winter highway 360 miles long, was constructed and a year's supply of equipment rushed over the frozen surface in one month.

Mr. Wells told of the huge quantities of supplies moved in on this new winter road construction.

By the fall of 1941 the airport at Fort Nelson was ready and then Watson lake was tackled, supplies moving in by boat and truck portages from Telegraph Creek north. The Liard river was used for this purpose, and it was only navigable for the month of June.

As one strip had already been constructed at Whitehorse, there was no particular difficulty in adding another strip at that point, Mr. Wells continued.

Then, in the spring of 1942, the Alaskan highway was commenced.

Airstrip Important

"The Americans did a wonderful job of getting in machinery and supplies to work north and south, but throughout the highway was secondary in importance to the airports and the airstrips had already been provided by Canada."

He quoted Gen Hogg, first Am-

NEWEST PASSENGER LINER ON THE PACIFIC COAST. T.S.S. Prince George, built for the Canadian National Steamships regular passenger and tourist service between Vancouver and Skagway, Alaska. The new ship has just finished her trials and will make her first sailing north from Vancouver June 10 with a passenger list made up of members of Los Angeles Chamber of Commerce.

erican boss of construction of the highway as stating: "We could never build the highway if the airports were not already there."

"I do not mean to minimize the fine work done by the Americans," continued Mr. Wells, but he pointed out that 90 percent of the camps were Canadian operated and Canadian engineers and companies predominated in the work.

"Canada played a big part in the building of the highway and also paid her share of the cost."

Once the main portion of the highway work was finished, the

demand was for airport enlargement, and Mr. Wells gave details of the immensity of this task in certain areas. Secondary airports were also constructed as far north as Snag, and the permanent frost presented difficulties in most places.

"Canada and Canadians can do their part as well as anybody else," concluded the speaker, giving special praise to the airlines' inspectors and the engineers. Canadian engineers are second to none in the world, he believed.

"We have a great Dominion of Canada and we have great men in it. We should be proud of our country and our people."

District Engineer Retires This Month

VERNON—S. D. H. Hope, for two years in Vernon as assistant district engineer of the provincial department of public works, has been promoted to the post of district engineer, with headquarters at Kamloops, the transfer to take place about June 18. He will succeed William Ramsay, who is retiring.

The area over which Mr. Pope will have supervision includes the following districts: Merritt, Golden, Revelstoke, North and South Okanagan and Similkameen.

The local successor to Mr. Pope is expected to be A. Gregg.

Jacobs Strikes Out 17 Batters For Red Sox

Pentiction Pirates came and saw but failed to come anywhere near conquering when they tangled with Summerland Red Sox in a South Okanagan junior league baseball contest at the Living Memorial athletic park last Sunday.

When the smoke of battle cleared, also the rain, the Red Sox had pounded two Pirate pitchers, Campbell and Evans for a 13-1 victory.

This win leaves Summerland on top of the loop with three wins and no losses.

Gilbert Jacobs had the visitors well under control throughout the game, totalling seventeen strikeouts against the hapless visitors. He allowed but one hit, that by Jeffrey, the first man to face him.

Francis Gould made a name for himself in the fifth scoring Brawnner and Jacobs ahead of him. B. Weitzel, Fred Kato and Gould were the strong boys with the hickory.

The game had to be adjourned for a time in the fourth when the rain started, but was recommenced and lasted until the eighth when the rain came down in a cloudburst, after Summerland had scored two runs, with none away.

Score by innings:

	R	H	E
Pentiction	100	000	00—1 1 5
Summerland	300	332	02—13 8 4

Campbell, Evans and O'Connell; Jacobs and B. Weitzel.

Products Bureau Job Study Essay Awards Announced

Every school district in the province was represented in the B.C. Products job study competition, sponsored by the B.C. Products Trade.

Hon. W. T. Straith, minister of Education of the Vancouver Board of Education has announced the winners of 57 awards throughout the school districts, amounting to \$2,350. Entries totalled 9,660 essays. In each inspectorial district three prizes were awarded of \$75, \$50 and \$25.

In the Kelowna-Pentiction inspectorial districts, prize winners were:

First prize, Ian G. DesBrissay, Pentiction high school, "Orchard Work". Second prize, Peter Romanchuk, Westbank high school, "Machine Shops, Foundries and Sheet Metal Shops in the Okanagan Valley". Third prize, Doreen Broadhead, Westbank high school, "Fruit Farming in the Okanagan."

Honorable mention went to the following: Jean A. Erant, Pentiction high school, "That Industrial Chemist"; D. Davenport, Pentiction high school, "The Fruit Growing Industry"; Patricia Featherstonhaugh, Westbank high school, "That Apple and I".

Dr. and Mrs. R. C. Palmer were the recipients of proud news last week when they heard of Dr. E. E. Palmer's honor in being conferred the degree of Doctor of Laws by the University of Toronto. The brother of Dr. R. C. Palmer, he has contributed greatly to the development of new plants, both flowers and vegetables.

An old car with a new paint job makes quite an impression—especially if it hits you.

PLAYING with a gun, three-year-old Michael Lipe of Pueblo, Colorado, accidentally killed his mother, Mrs. Barbara Lipe, 28. The child found a revolver in a drawer of his grandmother's home and shot his mother as she combed her hair.

New Brunswick's Minnie and Offspring

Minnie the moose nuzzles her four-day-old child, as yet unnamed, at the Bronx Zoo, New York recently. The young moose, first to be born in captivity at the Bronx Zoo, was born to Minnie and Jerry on June 2. Minnie was presented to the zoo in 1942 by the Lieutenant Governor of New Brunswick, and Jerry is a Maine moose who was presented to the zoo in 1947.

Interest in 9th Recce Regt. (B.C.D.) By Local Men at High Point

That young Summerland men have an active interest in the reserve army is evidenced from a recent nominal roll issued by Capt. T. W. Bryant, OC of C Squadron, 9th Recce Regt. (BCD) RCAC. There are now fourteen troopers enrolled from Summerland in C Squadron and others are believed to be contemplating similar action from this district. Parades are held weekly and army transport is used to take the local men to Pentiction armories and return. Weekly parade night is on Thursday and the squadron is divided into three "specialist" groups, as follows:

Gunnery—Basic principles, handling and maintenance of lights machine guns and tank gunnery.
Wireless—Theory, maintenance, R/T procedure on MK111 19 sets.
Motor Transport—Theory, maintenance, driver instructions on truck and tank.

Summer Camp
 Before the annual summer camp, which this year is at Wainwright, Alta., from July 4 to 18, the squadron members in these groups will have passed tests in their training and will take advanced training at the army camp.

Each squadron member receives pay for each weekly parade night and is also paid for his two weeks' summer camp period. Some employers make up the difference in wages between army camp pay and regular earnings for the period of two weeks.

Besides the actual training periods, the squadron members enjoy a good deal of social life at the Pentiction armories.

C Squadron is proud this year of its having won the coveted Colonel Barber cup for general efficiency within the regiment. This award was announced on April 22.

Turnout Praised
 During the visit of the Governor-General to Pentiction, C Squadron was on parade and received high compliments on its smartness, turnout and drill. Both Vis-

count Alexander of Tunis and Major-General R. F. L. Keller expressed their pleasure after the inspection.

On May 23, C Squadron participated in a successful regimental parade, sports' day and smoker held at regimental headquarters at Vernon.

A Recce scheme, planned for June 5 to 7 in the Kootenays, had to be cancelled because of floods and road conditions.

In Summerland, one of the most active supporters of the regiment is Capt. A. M. Temple, who is a member of the citizens' civilian defense committee for this district, and is also on the executive of the B.C. Dragons Assn.

This latter organization consists of personnel from all units which were affiliated with or became the B.C. Dragons Regt. Any soldier who saw service for any period with the regiment, or affiliated units, can be a member of this association.

Annual Smoker
 The annual get-together and smoker is being arranged by the association in Kelowna armories on July 21. This smoker is designed to foster the spirit of the Okanagan's own regiment and to encourage its continuity in every way possible.

Summerland has always taken a keen interest in the B.C.D's, the 9th Recce Regt. being the continuing reserve army force carrying on the BCD tradition. Lt.-Col. D. F. B. Kinloch, Vernon, is commanding officer.

Following are the Summerland men who form part of C Squadron: Trps. A. H. Barnett, D. W. Thomas, R. W. Moore, D. W. Nesbitt, B. J. Thornthwaite, H. R. Daniels, J. E. Hack, R. Ward, D. E. Healy, Y. Yamamoto, L. Miller, D. T. Turnbull, R. D. Cessford and D. J. K. Kean.

An elephant's hide weighs more than a ton.

School Principal Wins on Hearing Birth Rate

Thirteen babies came into the Summerland hospital during the month of May.

Hospital President S. A. MacDonald did some quick mental arithmetic while presiding at last week's hospital board meeting and decided that in twelve months, at this rate, there would be 156 babies born during 1948.

Also, President MacDonald thought quickly about the effect this birth rate would have on the elementary school in six years time, as he is also principal of that seat of learning and accommodation problems prove the chief headache to any school principal in this province.

The Toronto Star ran this want ad: "Wanted, lady for general office work six days a week"—Nothing wrong with that, except that it appeared under "Pets".

Beautiful Rose Display Shown Here

The remark most often heard at the Horticultural Society's rose show at the Parish hall on Monday evening, June 21, was "So much rain has spoiled our roses."

The statement may have been true so far as the gardeners were concerned; but certainly to the throng of interested beholders the sight was entrancing and the perfume superb.

The show was chiefly non-competitive, with one class of entry only being judged for award. Six single blooms in individual containers to a competitor was the entry rule and six contestants displayed 36 beautiful roses.

The rose cup went to Mr. Ken McKay of Naramata, with Society President Mrs. M. E. Coljas taking second place. To an amateur eye the other four displays, presented by Mr. W. Snow, Mrs. W. H. B. Munn, Miss Doreen Tait and Mr. Earle Wilson, all deserved awards too; there was so much beauty in evidence it was hard to pick on one particular set.

Judges were Mr. Ernie Bennett and Mr. R. P. Murray of Pentiction. The tables in the hall were covered with varieties of roses. Mr. Nat May of the experimental station had a tableful of hardy stock roses—the kind, as he termed it "that don't need a hot water bottle at their feet at the first touch of frost." Dr. James Marshall's lovely showing shared Mr. May's table.

a word about Personal Purchases in the U.S.

● If you are contemplating a trip to the United States, here are two important facts to remember:

● You may not bring back with you any merchandise which is prohibited under the Emergency Exchange Conservation Act. Find out in advance from Canadian Customs officials whether you may bring in any contemplated purchase.

● To conserve all available U.S. dollars for essential purchases, a travel ration of \$150 U.S. per person for the 12 months between Nov. 15, 1947 and Nov. 15, 1948 has been established. Be sure to get the necessary forms and details at your bank, well in advance of your trip.

This caution is given to help avoid possible embarrassment at border points.

CANADA NEEDS U.S. DOLLARS

FOREIGN EXCHANGE CONTROL BOARD OTTAWA

Only one star in every 5,000,000 can be seen by our eyes.

Conciliation Board Fails in Dispute

No agreement on any points in the dispute between the fruit and vegetable workers' union and the employers could be reached by the conciliation board which sat in Kelowna on Friday, June 11, under the chairmanship of E. S. Farr, of Victoria. The board adjourned its sessions on Saturday.

Mr. Franklin Valair of Vernon represented the union and Mr. W. E. Adams of Kelowna represented the employers. Walter S. Owen, K.C. of Vancouver acted as counsel for the employers while the union was unrepresented by legal counsel.

Chairman Farr complimented both parties on the excellent manner in which views had been presented and on the high measure of co-operation which appeared to exist between employers and employees.

Going Steady

Vernon Against Lowering Of Lake Level

VERNON — The international flood control scheme which involves lowering the level of Okanagan Lake was not viewed with favor at first glance by the city council. The Kelowna Board of Trade had appealed to the Vernon council for support in urging implementation of the scheme.

In general, the plan calls for lowering the normal Okanagan Lake level controlled at Penticon, in order for it to act as a reservoir in flood periods. Before this were done, river channels from the lake through Canada and the United States would have to be dredged and widened to prevent flooding of adjacent areas when a bigger outflow was allowed. An international group of engineers studied the problems and brought in this recommendation in 1946. Kelowna is urging action on the proposal.

Keep Water Here

Vernon council members admitted they wished more study of the engineers' recommendations, which fill a voluminous text, before making a decision, but preliminary discussion indicated general disapproval.

Kelowna School Building Program

KELOWNA — Construction of two high schools in Kelowna and Rutland at a total cost of \$744,815 will get underway immediately, with contracts awarded to Smith Brothers and Wilson. Fifty per cent of the costs will be borne by the provincial government.

In making the announcement, G. C. Hume, chairman of the board of trustees, stated cost of the first installment to the Kelowna high school will be \$407,000, while the Rutland high school will cost \$337,815. Plans for the new high school at Westbank are expected within the next few days, and tenders will be called when plans are submitted.

proval. Spokesmen intimated they preferred some scheme which would control run-off in the mountains, boosting water reserves in the Interior, rather than allowing this water to go on down into the United States.

Alderman David Howrie said residents in the Okanagan Landing area "object very much" to lowering the lake level because in winter it would leave much more exposed rocky beach and their domestic water pumps would have to be moved nearer the lake if the water table were allowed to go down.

Alderman D. D. Harris, pointed out that the flood control scheme would be useless if people were allowed to settle on marginal lands added to the lake shore by lowering the level of water.

But main objection was to allowing run-off water to come unchecked from the hills in the Interior and flow on to the United States. One suggestion for storage here was advanced by City Engineer F. G. deWolf. This was an eight to ten foot dyke at the outlet of Swan Lake which he estimated would hold back from 9,000 to 12,000 acre feet. Dams on BX Creek flowing into Swan Lake; on Coldstream Creek flowing into Kalamalka Lake, and on lakes east of Oyama were other suggestions.

Alderman Howrie had attended hearings of the joint board of engineers two or three years ago and he told the council, "I mentioned the fact then the engineers should give study to run-offs in the higher reaches where they could hold some water for the benefit of the residents in the area rather than for storage basins lower in the United States."

Strong currents swirl around the log houses at Grand Forks, British Columbia, as the Kootenay river flooded homes as deep as eight feet. Part of the torrent escaped to flood Idaho areas downstream when a dam broke below the town.

URGES MOTORISTS TO PAY ATTENTION TO ROAD SIGNS

Plea for motorists to pay more attention to traffic safety signs was made by Mr. Herb Pohlmann, chairman of the traffic safety committee, to the monthly board of trade meeting in the IOOF hall on Thursday, June 10.

"We can put up all the signs in the world but if motorists don't pay attention then they are useless," stated Mr. Pohlmann in declaring that board recommendations on traffic signs on the provincial highway passing through Summerland have been forwarded to the necessary authorities.

Mr. Pohlmann also entered a plea for further consideration of a provincial sub-agency in Summerland to relieve the local police constable of clerical duties so that he can devote more time to traffic and other police duties.

In September, the traffic safety education campaign in the local schools will be continued, declared Mr. Pohlmann. He quoted Principal S. A. MacDonald as stating that a marked improvement in traffic habits have been noted among school children since the board of trade campaign was instituted early this year.

George Henry entered a plea for council action on elimination of grass and weeds which are creating blind corners and also obscuring signs on the roads.

NAME COMMITTEE
Executive of the Summerland Board of Trade has been instructed to name a standing committee which will interest itself in the proposed meeting of government and municipal officials on Okanagan Lake flood control. Kelowna Board of Trade has been instrumental in circularizing civic bodies throughout the valley seeking support for this meeting.

BROWNIE PACK ACCEPTS MEMBERS

"Brownies are the younger members of the Girl Guide movement. They are children between the ages of 7 and 11, and they meet together in a pack, which consists of about 24 children."

So says the Guide leaflet, but in the case of Summerland there is a pack and a half. This may bother the statistical experts, but Mrs. F. V. Harrison, Guide commissioner, is perfectly willing to allow 36 little girls to enjoy the privilege of being "Brownies", and quite unwilling to turn away the excess 12.

So popular has been this new movement in Summerland that Brownies have had to be initiated in groups, with the final fifteen little girls "taking the oath" before Mrs. Harrison on the lawn of the Parish hall on Tuesday, June 15.

Before the big moment, "Tawny Owls" Mrs. R. Thornber and Miss Jocelyn Boyd, and "Brown Owl" Mrs. Lorne Perry led the children through a number of "Brownie" games for the edification of fifteen onlooking mothers.

HOLE-IN-ONE AT REVELSTOKE COURSE

REVELSTOKE—For the first time in several years the Revelstoke Golf Club added another name to its Hall of Fame when Jack English made a hole-in-one on No. 5.

Jack is a native son of Revelstoke, now employed as a railway mail clerk between Revelstoke and Calgary.

From a syndicated medical column: "If we only knew what rubbish was in the air, we would not dare to breathe." A more comfortable alternative is just to turn off the radio.

New Entomological Lab, Dream Of Eight Years, Fast Becoming Reality

Down on Trout Creek Point, just over the bridge on the east side of Okanagan highway, a large, new building has been attracting a great deal of attention this year.

And well it might, as it houses the new laboratory of the Dominion entomological department of the science service division of the Dominion Department of Agriculture, a most important service in the life of the Okanagan fruit grower.

To Dr. Marshall, chief bug hunter of the Okanagan, this building is the culmination of a dream of many years. He has fought long and hard to realize his ambition—a building which would house, suitably, his clerical staff and his many research workers.

This new laboratory is by no means complete and a few thousands more are needed from Ottawa before it will come anywhere near Dr. Marshall's idea of a properly-equipped laboratory, but it is a big start and the energetic wily, elongated bug chaser is happier than he has been for years.

Army Hut Style
This new building is created in a similar style to the army hut structures, but is more solidly constructed and has many features which the army never needed. And there the comparison ends.

Across the front of the building, and facing north, are the small, combination offices and laboratories for the main members of the

staff, plus a well-fitted office for the chief, and a library, plus an office for the efficient laboratory secretary, Miss Rosalie Smith.

Two wings extend south from this main portion of the building the chemical wing being located on the east and the entomological wing on the west.

In the future, a lean-to greenhouse for winter experimental work, will be added.

The whole structure is at one end of a three-acre plot which at present is covered with various types of cover crops and also contains orchard trees, contingent on the entomological experiments.

Close Co-operation
Entomology is the science or natural history and description of insects, and as far as this laboratory is concerned, the chief interest is centered on the research into insects and virus which create diseases in fruit trees and cause the grower endless worries and loss of crop and production.

To this end, the entomologists work in close co-operation with the plant pathologists and the experimental station staff, the endeavors of all three units of the Dominion Department of Agriculture being to assist the fruit and vegetable grower.

Thus, the entomologists must plan their experiments in co-operation with the other two units. In the case of the cover crops, Dr. Marshall's staff works with Dr. J. C.

Wilcox of the experimental station and they hope to uncover some hitherto unknown factors concerning cover crops in relation to fruit tree production.

Personnel at Work
The plant pathologists' work is probably more closely allied with the entomologists than the experimental station so Dr. Cyril Woodbridge, whose return to Summerland and the plant pathology laboratory was announced last week, will be given space in this new entomological wing as a pathological chemist.

Chemists' experiments are as vital as any other line of research—chemists will probably say they are the most vital part—so a whole wing has been devoted to their tests.

J. R. W. Miles is one of the entomological chemists stationed at the new building in Summerland and he will be joined shortly by J. M. McArthur, who left here a year ago to continue his university studies.

On the entomological lab staff proper, besides Dr. Marshall and Miss Smith, there are C. V. Morgan, in charge of mite research; M. D. Proverbs, stone fruit insects; D. B. Waddell, Little Cherry virus transmission, now operating at Creston in conjunction with Dr. Maurice Welch, of the plant pathologists; and George Lewis, who takes care of equipment and maintenance, a most important man.

Summer assistants to these experts are two University of B.C. students, both ex-pilots in the air force, Ralph Downing, an ex-RAF type and Ian Carne, ex-RCAF.

Water Problem
When The Review reporter investigated this new structure just outside the municipal limits, Dr. Marshall was found in the basement, proudly displaying the new furnace with Iron Fireman attachment, the electric hot water heater and the large pump which draws

water from the wells needed to supply pure water for the lab.

As the lab is outside municipal limits it does not draw on the municipal system, or from Trout Creek's supply.

The cement basement walls have been waterproofed beyond the depth indicated by previous tests, but the water level rose beyond that this spring and the entomologists had as much trouble as any other person located in that area when Trout Creek went on the rampage.

On ground level, in the entomological wing, on one side are located a special lab and office and the big sprayer laboratory, which is Dr. Marshall's chief pet.

Winter Trials
In this space, he plans to carry out winter experiments on new spray equipment. To do this work properly, he has planned a portion of the outside wall so that it can be moved out temporarily and allow his experimental sprayers to operate, snow or shine.

A further feature of this room will be the mastic floor covering with a drain in the centre. By hinging a portion of the outside walls, the spray can be released outside and experiments continued with no thought to the elements.

Across the hall in this wing are the dark room and the controlled temperature room, the latter being a vital addition to the research efforts.

Across the south portion of the wing is the main entomological laboratory, well lighted with seven windows.

Chemical Wing
Construction of the chemical wing is quite similar, although the type of work will be different and

varied features will be installed. Fume closets are one of the main assets to this room where anything is liable to happen as the result of the chemists' potions—and generally does.

Another large main room covers the south portion of the wing and is the main chemical laboratory.

Dr. Marshall considers that when the building is completed and all the necessary equipment installed, the cost of the entire project will be between \$40,000 and \$50,000. To date, nearly \$25,000 has been spent.

This building is an important addition to the research field of the Okanagan and provides a decided asset to the community life of this district. It is the culmination of a dream of eight years.

The construction contract for this building was undertaken by Kenyon & Co., Penticton.

These Students Graduate Tomorrow

Doris Cristante Arthur Towgood Jean Bryden David Woodbridge Marjorie Yamabe Gilbert Jacobs Gwen Lamacraft Richard Palmer Maureen May Blair MacRae Estelle MacDonald Gordon McNutt Beryl Robertson Edward Kita Laura Motz

At St. Andrew's United church tomorrow afternoon, June 25, graduation exercises for the 1948 junior matriculation graduating class of Summerland high school will be conducted with all the pomp and ceremony befitting such a momentous occasion in the lives of the fifteen students who make up the class.

The program will be conducted by Principal A. K. Macleod with the address to the graduates being delivered by W. R. Powell, former reeve of Summerland. Valedictorian is Blair MacRae and the class poem will be delivered by Miss Maureen May.

Presentation of trophies and annual awards will occupy a portion of the program.

One of the features of the afternoon will be the award of the third annual Summerland Scholarship bursary, which was instituted here by the UBC Alumni association and has since been turned over to the municipal council. A committee consisting of the two school principals, A. K. Macleod and S. A. MacDonald and Reeve R. A. Johnston has selected the student who will be the recipient of a scholarship valued at \$250 for continuation of studies at the University of B.C.

Following the graduation ceremony, a tea is to be served and a banquet and dance will wind up a big day for the graduating class.

School prizes and academic awards in the elementary school will be given out to proficient pupils by Principal S. A. MacDonald in a ceremony scheduled for the final day of school, Wednesday, June 30.

Wobbly First Frame Loses Tight Ball Game 5-4 to Kelowna Cubs

Bill Evans had nobody but himself to blame last Sunday when he walked the first three men to face him in last Sunday's ball game at the Rutland ball diamond and four runs scampered across in the initial frame, the Kelowna Cubs hanging on to the slim margin right through to the ninth frame when the score was knotted at 4-all. The northern Japanese nine went on to win 5-4 in the tenth frame, batting in the winning run off Bob Scriver's offerings.

That first frame had all the makings of a free scoring contest as Summerland opened with two runs only to have Kelowna Cubs come right back with four. However,

Summerland scored one in the sixth and then knotted the score at 4-all in the first of the ninth. In every other department Summerland was superior, collecting eleven hits to the Japanese seven, and only making two miscues to the Cubs' five. But the diminutive northern hurler, Mit Koga, kept the Summerland hits well scattered and bore down in the pinches to get out of trouble time and again.

Big First Inning Most of the game's action was packed into the first inning. With one down, Taylor got the first of his two doubles of the day and was scored by Jimmy Thompson's single. Walsh advanced Thompson, who came home from third on a passed ball for the second run.

But Evans was plenty wild in the last half of the first, walking the first three men and allowing Hikichi to single. Mit Koga clouted out a one-baser and the second and third runs scampered across. Hikichi added the fourth on a wild pitch from Evans.

Taylor threatened in the third when he tried to come home from third on Walsh's grounder to short, but Matsuba threw him out at home.

In the sixth, Summerland crept nearer when Walsh singled and came around on Vanderburgh's double, Mende making a poor throw to home plate.

Going into the last scheduled inning, Clark drew a pass to first, but Scriver, who pinch-hit for Evans struck out. Forsythe was safe when another Koga on third booted the pill. Taylor scored Clark with a single but the two men on bases died there as

Thompson fanned and Walsh popped up to second base.

That made the count even at 4-all and no further scoring was recorded until the last of the tenth when Hikichi's clout was mishandled by Wally Day and Kitaura's single drove him home from second.

Taylor played his best game of the year with the hickory, while Summerland's team was augmented by Peachland's John Gummow at third. Gummow hadn't found his batting eye, however.

Big game of the year is scheduled for next Sunday when Kamloops appears at the Living Memorial athletic field. Kamloops is currently heading the Interior league, but Summerland will be out to avenge the one-sided victory of the main line contenders last month.

Box Score table with columns for Summerland and Kelowna Cubs, listing players and their statistics (AB, R, H, PO, A, E).

Summary table for the game, listing team statistics (30, 5, 7, 30, 10, 5) and individual player stats.

Summary: Stolen bases, Taylor 2, Clark, Matsuba, Mende; two-base hits, Taylor 2, Vanderburgh, Naka; bases on balls, off Evans 5, off Mit Koga 1; struck out, by Evans 8, by Mit Koga 8; double plays, Matsuba to Mende to Kawahara, Thompson to Vanderburgh; wild pitch, Evans 1; passed ball, S. Koga 1; umpires, Bradley and Borton.

Because of housing conditions, solitary confinement is now looked upon as luxury living.

After reading that nylon threads are good for fishing, our daughter says she occasionally catches something quite interesting with hers.

ROY BOOTHE HAS LEFT TREE FRUITS

KELOWNA—Roy Boothe, assistant sales manager of B.C. Tree Fruits since 1940, has resigned from the agency for personal reasons, it is announced by A. K. Loyd, general manager.

Mr. Boothe, prior to coming to Tree Fruits, served as manager of the Canadian Fruit Distributors at Edmonton and Calgary for 13 years. For four years he worked in the traffic department of the CPR, leaving to join the Associated Growers shortly after the association was formed in 1923.

Mr. Boothe is well-known to many local residents. He received part of his early schooling at the old Baptist College here.

National Appeal of Red Cross Exceeds Quota by 21 Percent

TORONTO—Final campaign returns issued by Canadian Red Cross officials on the society's 1948 national appeal for funds reveal that \$3,637,445 was subscribed by the people of Canada.

"We are very happy to report the successful conclusion of the 1948 campaign with all nine divisions well over the top of their provincial quotas," said Dr. Fred W. Routley, national commissioner. "The national objective of \$3,000,000 was exceeded by \$637,445 or 21%. Altogether, this has been a very satisfactory campaign. Public reaction has been most sympathetic and augers well for the future of Red Cross in Canada."

Reports from divisions all indicate public reception of their provincial campaigns as excellent. Provincial figures are: Prince Edward Island, \$23,000 or 115% of objective; Nova Scotia, \$150,152 or 125% of objective; New Brunswick, \$119,092 or 152% of objective; Quebec, \$760,000 or 101% of objective; Ontario, \$1,429,068 or 119% of objective; Manitoba, \$312,051 or 173% of objective; Saskatchewan, \$205,222 or 100% of objective; Alberta, \$182,860 or 121% of objective; British Columbia, \$456,000 or 152% of objective. Total, \$3,637,445.
