

Summerland Hospital Shows Net Operating Loss Of \$8,470 For Past Year

Although the Summerland hospital showed a net operating deficit of \$7,114.15, and the local hospital insurance plan suffered an operating loss of \$1,486, making a total of \$8,470.15, the actual financial position is not so grave, the annual meeting of the Summerland Hospital Society at the IOOF hall on Thursday afternoon, Feb. 24, revealed.

At the end of 1943, liabilities amounted to \$7,277.94, including a bank loan of \$4,400 which is covered by bonds. Accounts payable were \$2,239.96, with a bank overdraft of \$606.98.

Accounts receivable by the hospital at the year end amounted to \$8,042.2 while grants due and sundry revenues brought the total amount owing the hospital to \$9,056.51.

Despite the struggle which the hospital has undergone to keep accounts paid up in the past year, it was stressed throughout the meeting that the hospital, under Matron Miss May Bennest, is operating in a highly satisfactory manner and the co-operation existent between all staff members and officials is at a high point.

Under the new hospital insurance scheme all operating costs will be met and it is hoped that through the collection of outstanding accounts that all accounts payable will be met, in time, the meeting was told.

Spring Fair Date Set For May 23-24

Plans for the annual Spring Fair of the Summerland Board of Trade made rapid strides forward this week as the initial organization was undertaken.

Under the chairmanship of last year's secretary, J. R. Armstrong, the Spring Fair committee heads are now appointed.

The Occidental Fruit Co. Ltd. building will be the scene of this two-day affair again this year, as Mr. C. H. Elsey, manager, has given the trade board his consent for the use of the structure.

Dates set are Monday and Tuesday, May 23 and 24. Booths will be arranged in a similar manner to last year, but a great deal more care will be given to decorating the building than in the past two years.

One of the big features planned will be the games room, which is expected to take on a Klondike Nights atmosphere.

There will be a Fair Queen chosen again this year but it is anticipated the choice will be made in a different manner. Yesterday, tentative plans were advanced for a monster Fair Queen contest, with three local organizations sponsoring queen candidates.

Prizes will be given away in connection with the ticket sales as part of the fair queen contest and the tickets will also allow holders to admission to the fair on any of the four showings anticipated.

L. G. Perry has consented to be fair secretary and the treasurer-ship will go to Jim Muirhead.

Other committee heads consist of the following:

Dances, Fred Dundson; entertainment, Les Rumball; games, Fred Schumann; queen contest sales, Mel Ducommun; Fair Queen ceremony, Mrs. J. E. O'Mahony; advertising and publicity, G. A. Laidlaw; booth sales, Norman Holmes; building manager, Bob Pleasdale.

Blood Donor Head Will Visit Here

Col. M. D. Robertson, recently appointed director of the Blood Donor Panel of the Red Cross in B.C., will be in Summerland on Wednesday, March 9, and will meet representatives from different societies in connection with the next blood donor clinic to be held here. The tentative date is set for early in May. Col. Robertson is on a regional survey, and will go to Penticton, Oliver, and Osoyoos, as well.

David Wright, Opposition Leader, Tells AOTS of Boys' Parliament

Fifty-one members of the Summerland AOTS Club enjoyed both the excellent supper provided by the Women's Federation of St. Andrew's, and the talk on Boys' Parliament by David Wright at the regular monthly meeting on February 24.

David Wright has now represented Summerland at the Boys' Parliament for two years in a row, sponsored by the AOTS and the Boy Scouts, and he gave a very interesting account of the session, and its more important bills.

It is evident that this model parliament is a real education for the boys who attend, and David this year had the honor of being leader of the opposition.

Another AOTS-sponsored activity, the Summerland Cub pack, gave rise to an interesting report from Cubmaster H. R. Whitmore, who announced that during Scout week the Cubs held a father-and-son banquet that was a huge success, with 82 members present, and the Cubs making better speeches than their Dads.

The Cubs are making good progress, and are very keen on competing for the cup furnished by

In his opening remarks, President S. A. MacDonald declared that the hospital board had leaned heavily on the shoulder of Secretary J. E. O'Mahony in the past year, and more especially in the last six months.

He also declared the hospital to be fortunate in having such a capable matron, Miss Bennest, and staff. The staff is practically a new one and has worked in well, he said, as reports from the patients have indicated.

"Every time we hear a report of the ladies' auxiliary it makes the board report almost incidental," he declared.

Under the new setup of government hospital insurance, the supervision by the government is much more careful than ever before, he continued.

But despite the government supervision, there is still an important function for the board of directors, in conducting the affairs of the hospital, seeing that the physical aspects of the plant are maintained and in staff supervision.

It is just as important that the ladies' auxiliary continue," he concluded, "as supplies have to be kept up as before."

Payment Not Enough
In reviewing the past year, Secretary O'Mahony, whose full report appears in another column, declared that the hospital accrued about \$11,000 in losses. This was due to treatment for old age pensioners and social assistance cases. The government did provide \$3 per day for fifteen days in these cases, but this sum did not begin to cover the costs.

Now, these cases are included in the insurance plan and the hospital will receive the full amount of the patient day cost which, at this time is set at \$6.75 per day.

Mr. O'Mahony explained that the hospital is being paid for its overall operating costs at this figure, which will be due for revision every three months.

In free treatment, the hospital expended \$4,347 last year which, along with depreciation, formed the main basis for the big operating loss.

"Ward rates were not high enough to cover the cost of operation," he declared, and they were only altered near the year's end, as the hospital board did not believe the patients could afford much higher rates.

Membership in the hospital insurance plan last year dropped "very low," he continued, because of the impending government plan and the inroads made by salesmen for private insurance companies operating throughout B.C.

WCB Payments
The Workmen's Compensation Board had also refused to pay the full ward rates of the hospital but Continued on Page 4

West Summerland, B.C., Thursday, March 3, 1949

FRANK MOSSOP PASSES AWAY AT PENTICTON

Frank Mossop, a resident of Summerland district for a quarter century, passed away Tuesday evening at Penticton in his 62nd year.

Well-known in musical and dramatic circles throughout the South Okanagan, the late Mr. Mossop had been conducting the Singers' and Players' Club spring presentation, "The Pirates of Penzance," until stricken with a heart attack a few weeks ago.

Born in Yorkshire, England, the deceased man came here with his family and took up a fruit orchard in the early 1920's, after serving in the First World War.

His wife predeceased him while they were on a return trip to England following the last hostilities.

He leaves two sons, Cyril, professor of music at Mount Royal college in Calgary and George in England.

Funeral services are being conducted this afternoon from the Penticton Funeral Chapel.

JULES SIOUI, 44-year-old Quebec Indian, recently was sentenced to two years in penitentiary for conspiracy to incite Canadian Indians to rebellion. Mr. Justice George F. Gibstone, who pronounced sentence, said that Sioui, an Indian had been false, wicked, dangerous and reprehensible to the highest degree.

School Trustees to View Buildings Before Planning Junior-Senior High School

Three members of School District No. 77 (Summerland) will leave next week on a motor trip to Wenatchee and then to Vancouver with the purpose of viewing as many school buildings as possible, so that the latest thoughts in educational buildings can be incorporated in Summerland's proposed junior-senior high school.

Authority of the department of education has been obtained by the local trustees for them to proceed with sketch plans for the new school unit.

After the trip, the board will call in a competent architect and proceed with its plans.

Included in these plans will be a cafeteria-auditorium which will seat 360 to 400 for the cafeteria. Board Chairman C. J. Bleasdale and Trustees Dr. W. H. B. Munn and Dr. James Marshall will make the trip and will probably be accompanied by School Inspector J. N. Burnett.

When asked concerning a stage, Board Chairman Bleasdale replied at Monday night's board session that this would certainly be proposed in the cafeteria-auditorium plans.

The new addition to the elementary school is rapidly nearing completion and classes are being switched around so that renovation of the old classrooms can proceed.

It is believed the entire school will be completed by Easter and the trustees are planning an Open House day so that parents and other interested persons can view the renovated school building.

A complete review of the insurance carried on the school buildings will be undertaken by the board, that body, making provision to meet representatives of several insurance agencies at a special session on April 4. Replacement insurance coverage is planned for the elementary school.

Budget Down Slightly
Because of an error in the assessment figures handed the school board covering the municipal assessments for 1948, a slight revision in the school budget for this year has been made. The error in assessments amounted to \$100,000, but this will only mean a reduction in the municipal portion of the budget of \$375 to be raised by taxation.

Revised amounts needed to be raised by taxation now stand at \$55,514.49 for the municipality and \$3,682.02 for the rural district.

Agreement has been reached between the board and the teachers' salary committee over the principals' salaries. These have been tied in with the cost of living.

In the case of Elementary Principal S. A. MacDonald, a basic salary of \$2,400 was arrived at, plus \$250 administration allowance and \$50 per teacher, based on forty pupils each, as a supervisory allowance. These figures totalled \$3,850, on which the 20% cost of living award was based, bringing the 1949 salary to \$4,620.

The same basis was used in computing High School Principal A. K. Macleod's salary, his basic being \$3,000, plus \$250 administration and \$250 teachers' supervision, totalling \$3,500. With the 20 percent raise, Mr. Macleod's salary is now \$4,200.

This arrangement was approved by the school board on Monday.

Urges Action on School Financing
Dr. James Marshall, trustee on the Summerland board, urged the trustees on Monday night to take the initiative in bringing all interior boards together with a view to arriving at a general agreement on school financing.

Dr. Marshall expressed himself as particularly favorable to the government taking over all teachers' salaries.

He urged that the Okanagan school boards be brought together,

Entire District Divided Into Sections For Red Cross Annual Drive For Funds

Under the chairmanship of Jack Dundson, campaign manager, the Summerland Red Cross drive to raise \$3,000 of the national \$5,000,000 objective, goes into action this week, with the entire district divided into sections for canvassing purposes.

Summerland has raised this amount in the past two years and, as the need for Red Cross subscriptions is greater this year, due to the many national disasters in 1948, it is hoped by the local Red Cross society that the objective will be exceeded by a handsome amount.

Mrs. A. K. Elliott is chairman of the local Red Cross society and this week called on ever person in the district to be ready with their donation when the canvasser calls.

Each canvasser is equipped with an official receipt book which can be kept for income tax purposes, Mr. Dundson points out. The campaign manager has expressed his gratification at the ready response received to his appeal for canvassers.

At presstime, Mr. Dundson had obtained canvassers for every district but Peach Valley-Paradise Flat, but he expected to complete his organization today.

Among the canvassers already outlined are the following: Jones Flat: Francis Stewart and Jack Dundson.

Giant's Head road and front benches: Clive Atkinson and John Betuzzi.

Garnet Valley: Albert Dickinson and Phil Dundson.

Prairie Valley: E. C. Bingham and Les Gould.

Trout Creek: Miss Doreen Tait, Mrs. M. D. Proverbs, Mrs. Norris Laidlaw.

Lower Town: Mrs. A. Stark, Peach Orchard: Vernon Charles, Crescent Beach: George Forster, Switchback: Lionel Fudge.

Quinpoole Flats: Mrs. S. W. Feltham and Charlie Rennie, Victoria Gardens: Mrs. A. R. Dundson.

Solly subdivision: Edward (Hilly) Smith, Parkdale: Bill Sherwood.

West Summerland business area: Mel Ducommun, Norman Holmes and J. R. Armstrong.

Experimental Station: Dr. J. C. Wilcox.

Urge Generosity
The national campaign commenced on Monday, February 28 with leaders in every walk of life endorsing the drive and urging every person to contribute generously to this worthwhile cause.

One of the chief functions of the Red Cross is in rushing to the rescue when disaster strikes. In the Fraser Valley flood last year, the Red Cross was of inestimable value in assisting the victims of the raging torrent.

Even here in Summerland, when Trout Creek threatened a portion of the community, the Red Cross did valiant work in caring for the needs of the hundreds of volunteers who labored mightily to keep the rushing stream within its channel.

The Red Cross blood transfusion service has come to be a recognized life saver, while the Red Cross operates outpost hospitals, gives aid and comfort to veterans still in hospital, aids crippled children and conducts life saving and swim classes throughout Canada.

The national welfare would suffer an "immeasurable loss" without the ministrations of the Canadian Red Cross, Prime Minister St. Laurent declared this week.

"I would like to emphasize the importance of this humanitarian work to the health and well-being of the Canadian people. Without the ministrations of the Red Cross, the national welfare would suffer an immeasurable loss.

"I am sure that all Canadians will respond readily and generously to the urgent appeal for funds necessary to continue the Red Cross full peacetime program throughout 1949."

The Okanagan regional representative is Mrs. W. S. Reader, of Penticton.

Trade Board Banquet to be Held Thursday
Next Thursday evening will be the highlight of the year in Summerland Board of Trade social activities.

That date, at Ellison hall, will mark the annual banquet of the trade board and will see the presentation of the Reid Johnston Good Citizen cup, plus life memberships to several local citizens.

The banquet has been postponed a month so that there would be no danger of freezing weather spoiling the function.

1948 President F. W. Schumann will preside at the banquet, while Reeve Johnston will make the cup presentation to the Good Citizen chosen by the board of trade executive.

The Kay Hamilton Summerland Girls' Choir will make another appearance at the function.

Int. A's Take Eight-Point Lead to Vernon on Saturday in Cage Playoffs
Playing headsup basketball in the third quarter, especially, Summerland Intermediate A hoopers take an eight-point edge up to Vernon on Saturday in the semi-final round of the interior basketball playoffs, due to their 45-37 decision over the visitors at the school gym last night.

Honors were evenly divided amongst the local casaba throwers last night, but it was mainly a two-man team which appeared for Vernon, Dick Douglas and Graves were the only threats for the visitors, running in all but four of their total score.

Only once, early in the second quarter did Vernon take the lead, at the 13-13 mark. Summerland was on top for the rest of the contest, led 20-22 midway through the session and went into the fi-

Worst Fog In History Shrouds Town

Last week-end saw portions of Summerland enveloped in the worst fog in the district's history. With sunny skies combining on the icy surface of Okanagan lake, a dense fog bank resulted which encased the lakeshore for more than three days and spread eastward into the lower hills.

Vehicle drivers had to be extremely cautious as visibility was poor throughout.

On Friday afternoon, when the first fog bank arose, the CPR diesel-operated tug M.V. Okanagan and barge crashed onto a sandbar off Agur's Point at Crescent Beach.

Salvage operations continued until nearly midnight Friday without judging the big craft, but the rescue was completed late Saturday morning and the tug was released.

Kelowna and Penticton were enveloped in the fog—sometimes referred to now as "smog"—and neither city enjoyed having a taste of coast weather.

Two lake tugs, the Naramata and C.N. No. 6, collided with one another six miles south of Kelowna at 1:30 o'clock Saturday afternoon, according to a Kelowna report. Neither vessel was damaged at all, the lake being completely enveloped in fog at the time.

It is believed these two vessels were returning to Kelowna after helping release the Okanagan.

Trade Board Banquet to be Held Thursday

Next Thursday evening will be the highlight of the year in Summerland Board of Trade social activities.

That date, at Ellison hall, will mark the annual banquet of the trade board and will see the presentation of the Reid Johnston Good Citizen cup, plus life memberships to several local citizens.

The banquet has been postponed a month so that there would be no danger of freezing weather spoiling the function.

1948 President F. W. Schumann will preside at the banquet, while Reeve Johnston will make the cup presentation to the Good Citizen chosen by the board of trade executive.

The Kay Hamilton Summerland Girls' Choir will make another appearance at the function.

Teachers Thank Board for Attitude

In distinct variance to the attitudes adopted by many boards and teachers' groups throughout the province following negotiations this year for higher teachers' salaries was the letter received by School District No. 77 (Summerland) on Monday night from C. D. Kennedy, chairman of the Summerland teachers' salary committee.

Mr. Kennedy thanked the board for the co-operative manner in which the board had handled the situation. His letter read:

"This committee would like to take this opportunity of voicing its sincere appreciation of the co-operative manner in which the school board has carried on the recent negotiations with the teaching staff on salary matters."

Sanborn Property On Granville Sold To M. Bonthoux

Sale of two Granville street lots, the building and garage business of Sanborn's Garage and Machine Shop to Marcel Bonthoux of the Hi-Way Garage is announced this week, being one of the most important real estate transactions to be undertaken in the business area in some months.

Mr. Bonthoux is moving his garage business from the present premises in the L. A. Smith building on Rosedale avenue, to the Sanborn premises by April 1.

Mr. Sanborn is continuing his machine shop and sprinkler irrigation business in Summerland, but will move to another site.

Where Mr. Sanborn will locate has not been disclosed, but he states there will be no interruption in his operations.

Under the agreement for sale, Mr. Sanborn, before giving up the Granville street building at the end of the month will out off a portion of the building front and move the two gasoline pumps off the street allowance.

Mr. Bonthoux has plans for renovating and enlarging the Sanborn building at some future date.

Another Thirty Years?

WE HAVE been glancing over the files of The Review of thirty years ago. In those columns there is a detailed account of a meeting, called to consider the best type of memorial to erect for those who died in the first World War.

Now we know that a Cenotaph was finally chosen. But at the outset, there was a strong opinion in favor of some type of community building, possibly an enlargement of the school gymnasium on the Giant's Head road.

W. C. Kelley was quoted thirty years ago as recognizing "a growing demand for a new build-

ing." He suggested that \$20,000 would be required for the grounds and improvements to the building.

But what is even more impressive, was the statement attributed to Mr. Kelley, that "as the municipality will sooner or later have to provide for a new municipal building, a considerable portion of the cost could be provided by the municipality."

Thirty years later, Summerland attempted again to obtain a community hall, centrally located. Will we have to wait another thirty years before we have a gathering place sufficient for our needs including the needs of our younger people?

They Provide Entertainment

IN THE next month or so, Summerland audiences will be offered two outstanding performances by one of the most energetic and enthusiastic groups in the community. We refer, of course, to the Summerland Singers' & Players' club.

This month, the players' section presents a comedy-drama, "I Remember Mama", which mixes comedy with heart-warming scenes in a manner which will keep the audience-interest stirred up from the start.

Next month, the singers' section presents another in its Gilbert and Sullivan series, this light opera being "The Pirates of Penzance".

For a small community, Summerland has a wealth of talent and through its organization has been able to group together outstanding dramatic and vocal talent not only from Summerland but from our neighbor to the south, Penticton.

This year, the dramatic and operatic presentations will be portrayed not only in Summerland but in other South Okanagan centres.

We feel certain that the public of Summerland will pack Ellison Hall for both these events with the certainty that they will enjoy the evenings and will also be assisting an organization which well deserves the support.

The Red Cross and You

HUMAN suffering takes many forms. It may strike as illness and pain, as misfortune and natural catastrophe, as bewilderment and hopelessness against overwhelming odds.

To alleviate these sufferings, to prevent disease and to promote the health and welfare of the people of Canada—that is the task of the Canadian Red Cross Society, the task of its workers and its members—ever-renewed, ever-necessary.

As a good neighbor, as a responsible human being, each one of us wants to aid distress wherever we may find it and to prevent, if possible, its occurrence. In the complexities of the modern world, one man's hand is not enough. Only the cooperative effort of a great Society, geared to work efficiently, quickly and humanely, can hope to stem the flood of misfortune, of accident and emergencies that can overtake any one of us. Only a great Society, international in scope, can bring hope to millions of our fellowmen in other portions of the war-scarred globe.

The highest of human ideals—concern with the welfare of others—is the motivating force of Red Cross. To translate this ideal into action, Red Cross and its thousands of volunteer workers need the help of every person in Canada. By contributing your share in the 1949 March appeal for \$5,000,000, which opened on Monday, you become an active partner in one of the greatest humanitarian forces working for good in the world today.

As was pointed out last week, your contributions will be sought here by canvassers who have volunteered their time to assist in this all-important drive.

You can assist the campaign and these volunteer canvassers by deciding now what your contribution will be and have the necessary cheque or money available. Many of these canvassers have large territories to cover. Your courtesy in being ready for the canvasser will assist greatly and speed up the combined effort.

Signifying Nothing

By **RUSTICUS**

Quite a winter we have had, wasn't it? I only hope that by the time this appears in print, "wasn't it" will still be fitting. Whether it is or not, one old-timer claims that before the break came last week it was already the longest cold spell for 59 years; and that, brother, is really something.

To those who have come to Summerland since our last cold snap in 1943—and that one lasted less than three weeks—such a winter as the last must have been quite a sad surprise. I mentioned as much to one of our more recent arrivals who hailed—as so many do—from the prairies.

"Severe?" he said, "Call that winter severe? Why, it only lasted three months—back on the prairie we have five months of it every year. And it wasn't cold enough to even freeze over the lake down here; why, on the prairie—"

"But it has frozen the lake over in shorter cold spells than that," I recalled indignantly. "Once Doctor Andrew drove his car over the ice half-way to Naramata."

"Of course, you can't expect much ice when it only gets to zero," my acquaintance interrupted commiseratingly. "I've seen it thirty, forty, fifty below zero for weeks at a time. That's when it's really cold. If we had your old lake out on the prairies, we'd freeze her six feet deep all over, and some winters clean down to the Ogopogo tracks."

"Well, it'd'a froze here," I put in, "if it hadn't been so windy—"

"Wind?" said my friend loftily. "Why, you don't know what win is like here. You ought to see a real prairie blizzard, when she whips along forty or fifty miles an hour across those level plains, plucking up snow as she goes till the air is full of it and you can't

see a yard in front of you. People have been lost in daylight, and died in those prairie blizzards. They don't let school kids go out of the schools if one gets up in the daytime. When you have as little wind as you have here, it isn't a real winter at all."

"We're having a lot more wind than we've used to," I said spitefully.

"Yeah, but lookit the snow here, all so level," my friend continued. "On the prairie that would be piled in drifts eight and ten feet deep. I've seen it where the snow was level with the chimneys, and you climbed down a tunnel to get into a house door. I've seen it so deep—"

Then I remembered something in the latest paper.

"Did you ever see it forty-eight feet deep?" I asked.

"Well, don't know as I did," he admitted, "but let me tell you—"

"It's forty-eight feet deep, in the Coquihalla Pass right now," I informed him. "And the ice is eighteen inches thick on the roofs in Prince George, breaking a lot of buildings right in."

He gasped a little; I had him on the ropes. If only I could get in another blow or two. In that moment of dire need, an old story of Cool Cope's came to mind.

"Oh, your prairie winters are nothing to what we have in B.C. when we really get going," I said easily. "Up in the Chilcoot country—never been there, have you? It got so cold one winter a few years ago that it cut off all communications. Not only were telegraph and telephone lines down, and roads and railways blocked, but people couldn't talk to each other outside. The words froze in the air."

"Two lumbermen had their fac-

es battered to a pulp by the hard words they were hurling at each other! neither of them lifted a hand, because they heard no insults. A minister practicing a heavy sermon out loud had the words fall frozen in front of him and he tripped over them and broke his leg in three places. And in the spring, when the yards thawed out, the noise was so deafening—"

I didn't have to finish. My prairie acquaintance was walking away, staggering a little. I wasn't surprised; nobody could tell such yarns as he did without being at least a little drunk.

KEEP THE FLAG OF MERCY FLYING

Pioneer Days

TWENTY-FIVE YEARS AGO
February 21, 1924

Summerland Hospital Society is faced with a deficit of \$3,448.71 in 1923 operations. Patients accounts, after a considerable portion had been written off as bad debts, amounted to \$2,491.

H. H. Cress has resigned as hospital secretary. The board of directors consists of H. C. Mellor, Rev. H. A. Solly, A. E. Rose, Mrs. K. Bentley, R. C. Lipsett, C. B. Winter, P. S. Roe, John Gowans, S. B. Snider, W. Ritchie and G. J. C. White.

Summerland's first school in basketry has concluded, the two-week course being conducted by Mrs. Lloyd Armstrong of Kere-meos.

A special office and receiving station is to be opened by the Summerland Poultry Assn. L. W.

stumbal is grading and marketing the eggs.

W. Haddrell was brought in by KVR train this morning and taken to hospital. He suffered a broken right leg in an accident.

Basil Stewart has been appointed managing director pro-tem by the Associated Growers' board of directors.

THIRTY YEARS AGO
February 21, 1919

Because of limited powers for self-government, Reeve Simpson has taken objection to the provisions in the new municipal act which will go before the legislature this week.

Under the management of the Summerland staff, a Bank of Montreal branch is being opened in Naramata.

Resignation of School Principal C. W. Lees was accepted by the school board, to take effect in March.

Board of Railway Commissioners, sitting in Vernon, heard that the proposed increase in express charges and the cancelling of the commodity tariff on fruit would

Penny Wise

I know your wardrobe looks hopeless with Spring staring you right in the eyes, but you can do wonders with a yard or so of white pique, a bright-as-rainbow cluster of artificial flowers, and maybe by cutting the top of an old chapeau and covering it with something new. Buck up now.

I've been going balmy lately, making a pair of diamond socks WITH that stripe running through it. Someone's going to be lucky—when I decide just who. Trouble is I can't stop once I start, the whole business fascinates me so. Of course, I use those celluloid bobbins for holding the wool, and of course, I run out when I'm just one row from being finished. It's the same when I sew on the machine—those bobbins ALWAYS empty at the wrong time.

Speaking of sewing, wonder if you could cut your old Spring coat down into a flaring cape—lined with red, mebbe! You must admit it's an idea.

It's as refreshing to clean out your purse as it is to clean out top drawer. Try it—now.

If you've snagged the kind of husband who gets up first every day in the week, do try to beat him to the draw on Sundays, and maybe take him a cup of piping hot coffee to bed.

Next time the little ones get really bored with themselves, let them cut pictures of people and animals out of magazines, paste them onto cardboard, cut the same, and glue stand-ups to that. Then they can play make-believe, and theatre, and store, and a dozen and one games while the rain pummels down outside.

If you'd like to look smart, every time you go out, wear immaculately white gloves. Either fabric ones, or those extremely easy to wash doesn't that come up like a white collar every time they get thrown into sudsy water. Don't even have to rub the things.

have a most disastrous effect upon the fruit growing industry of B. C. R. M. Winslow opened the case for the BCFGA.

DEPARTMENT OF PUBLIC WORKS

Regulations Pursuant to Section 35 of The 'Highway Act'

Public Notice

The undersigned, being a person authorized by the Minister of Public Works, in writing, to exercise the powers vested in the said Minister, under Part II of the "Highway Act", and being of the opinion that the roads in the Electoral District of the South Okanagan are liable to damage through extraordinary traffic thereon, hereby make the following Regulation pursuant to Section 35 of the said Act.

The following load and speed limitations are imposed on the roads from 12 o'clock, midnight, February 27, 1949, in the Electoral District of the South Okanagan, until further notice.

Trucks with Pneumatic Tires:

Payload—(i.e. load carried) not to exceed 50% of the tare (i.e. unloaded) weight of the truck and not to exceed 50% of the authorized carrying capacity.

Speed—Limited to 25 miles, per hour.

Passenger Vehicles with Pneumatic Tires:

Buses having a gross weight in excess of six (6) tons are prohibited.

Speed of buses must not exceed twenty-five (25) miles per hour.

Solid Tires are prohibited entirely.

Joins Management Of Service Station

Mr. Bert Parrott informed The Review on Friday that he has not sold his Trout Creek Service Station to Mr. G. M. Wood, as stated in last week's issue. However, Mr. Wood has joined Mr. Parrott in the operation of the service station and garage. Both these men have thirty years' experience each in the garage trade.

SCOUTS - GUIDES BACK IN CIVVIES AFTER BIG WEEK

Guides and Brownies, Scouts and Cubs are back in 'civvies' this week, and their special week for the year is over for 1948. The people of this district enjoyed seeing them in their uniforms, and participating in their activities.

The Guides packed a parcel to ship overseas for their Good Deed for the week. The Brownies gave a demonstration of a meeting at a tea held by the local association, and with their limited funds bought a flowering plant to give to the hospital.

During the week the Guides were presented with a flag by Mrs. Fred Schumann on behalf of the Rebekah lodge. This gift was very much appreciated, and filled a need. It will be used on many occasions.

The Scout banquet which usually takes place in this week was deferred until a later date, and will be held sometime this spring it is expected. On Wednesday evening the Cubs had a father and son banquet.

All gathered on Sunday to parade to St. Andrew's church, and with their leaders, made an impressive line-up of over one hundred and twenty persons. The message was given by Cubmaster, Rev. H. R. Whitmore.

Auxiliary Spent More Than \$1,000

Mrs. A. R. Dunsdon, president of the Ladies Auxiliary to the Summerland hospital reported a most successful year to the annual hospital meeting in the IOOF hall last Thursday afternoon.

The secretary's report, tabled by Mrs. James Marshall, indicated a renewed effort to raise funds. Three dances were held, plus two bingo games and the auxiliary catered to many banquets.

Canning of fruit for the hospital was undertaken by the auxiliary in co-operation with local canneries, it was stated.

Mrs. T. B. Lott's treasurer's report showed more than \$1,000 revenue last year, practically the entire sum having been expended, leaving a bank balance of \$420.43.

Furnishings provided for the hospital and nurses' home amounted to \$886.62, while canning cost another \$48.23.

The Dorcas report is published in another column.

When all the auxiliary reports were concluded, President S. A. MacDonald remarked that it was an impressive list of achievements. "We wouldn't operate without the auxiliary," he declared.

Medico Believes 1948 Banner Year At Local Hospital

"From a medical standpoint, 1948 at the hospital was a banner year," declared Dr. A. W. Vanderburgh to the annual meeting of the Summerland Hospital Society at the IOOF hall last Thursday afternoon.

He attributed this success largely to the work of the matron, Miss M. Bennest.

"The organization she has set

Matron Mentions Contributions to Patients Comfort

Miss May Bennest, matron of the Summerland hospital, reported to the annual hospital meeting that the past year, from a staff standpoint, has been one of re-organization, "with the purpose of giving the best possible service to the community."

The new nurses' home, additional hospital beds and equipment have contributed in a great measure to the comfort of the nurses and patients, she declared.

"The enthusiastic and continuous co-operation of the hospital board and the ladies' auxiliary has been a source of inspiration, and really worthwhile support."

"I would like to mention contributions we have had from various clubs, organizations and private individuals. The donations in funds and in kind have been noticeably worthwhile."

"Dr. Cork, of the B.C. Hospital Insurance Service, on a recent visit was impressed by the community effort evidenced in our hospital administration.

"The newly-launched provincial hospital plan is well underway. At this time, however, we must remember that our hospital needs the continuing interest and effort of a society representative of this community. We know that we can count on such support," she concluded.

up, from a medical viewpoint, has never been equalled," he declared. "The staff also works harmoniously despite shortages. Miss Bennest took hold of the job when she was appointed matron and has done a marvellous job, besides being a terrifically hard worker."

Dr. Vanderburgh called the new maternity wing a great asset to the community, he declared that the boys would have to catch up as the new baby girls are outnumbering the males five to one.

He also paid tribute to the new radiologist, Dr. W. R. Lacroix, whose readings of the x-ray plates are "right on the beam". This machine is used to a far greater extent than ever before, he declared.

Apart from finances, the hospital went through a very successful year, he concluded, also paying tribute to the hard-working secretary, J. E. O'Mahony.

Despite Financial Troubles Many Major Improvements Made at Hospital in 1948

"The year 1948 was perhaps one of the most difficult years in the history of the Summerland hospital," J. E. O'Mahony, hospital secretary-treasurer, informed the annual meeting at the IOOF hall on Thursday afternoon in his annual report.

Mr. O'Mahony was dealing strictly with the economic side of the hospital as reports from other officials indicated that the hospital had reached a high point in administration efficiency and patient comfort and treatment.

"With costs of operation increasing each month it was found impossible to adjust ward rates to a figure which would meet these rising costs and yet be within reach of the average patient's pocketbook; hence the heavy loss on operation which will be shown by the financial statement," he declared.

Despite the shortage of funds, Mr. O'Mahony instanced many ma-

for improvements made to the hospital last year.

The Summerland Board of Trade purchased new operating room lights costing more than \$300, which were installed without charge by Mr. George Graham.

The Rotary Club of Summerland contributed a Laryngoscope, for use in the operating room, and also gave the hospital the proceeds of a raffle.

From a dance staged by the Old-Time Dance club, several valuable pieces of equipment were presented, including a folding wheel-chair and a four-slice commercial toaster.

Mr. O'Mahony listed many improvements to the hospital building, including conversion of the old x-ray room into a very fine dark room for x-ray work. The original dark room was turned into a treatment room for physiotherapy.

New Laboratory

One of the rooms upstairs was converted into a laboratory with sink and running hot and cold water. Cupboards and a work table were also installed. A new microscope is still badly needed by this department, he added.

The old nursery west of the stairs was fitted as a supply room, with shelves built on all walls, and fills a great need. The double doors giving access to the verandah next to the x-ray room were removed and a two-bed ward constructed, the cost for this alteration being \$125. A new window was installed in the diet kitchen as well as a special door.

"Considerable thought and investigation were undertaken by the board into the possibility of constructing a cold storage room and quick-freeze unit, but it was found that the cost would be too great; instead, a 17-cubic foot commercial refrigerator was purchased, costing \$515. This unit adequately takes care of the refrigeration needs of the hospital.

"The board contributed \$38.75 towards the purchase of a 'special blood bank' refrigerator installed in the Penitence hospital for the storage of Red Cross blood."

Mr. O'Mahony reviewed the attempt to change-over the diathermy machine to conform with requirements of the department of transport. However, this failed and a new machine has had to be ordered. Delivery is expected in April or May. Net cost will be about \$650.

"The breakdown of the old equipment made it necessary to purchase a new Infra Red lamp last May.

Board Was Active
"It will be gathered from the foregoing remarks that the board of directors was very active dur-

Dorcas Report of Ladies Auxiliary Shows Much Effort

Among the reports which were received with acclaim for the amount of effort and accomplishment indicated, at the annual hospital society meeting, was the Dorcas report for 1948, submitted by Mrs. E. L. Farnham on behalf of the ladies' hospital auxiliary. Following are the many items turned over to the hospital in 1948:

Thirteen baby shirts, 4 baby gowns, 23 patients gowns, 4 hot water bottle covers, roller towelling, 12 sheets, 12 baby blankets, 24 wash cloths, material for bed pan covers, 8 bath towels.

Two bias tape, 2 elastic, 2 bolts factory cotton, 12 pairs men's py-jamas, 1 roll unbleached cotton, 1 roll ticking, 2 rubber mats for floors.

20 muffin tins, 2 egg beaters, 33 tea pots, 1 dozen spoons of thread, 48 water glasses, 18 water pitchers, 24 teaspoons, 12 forks, 12 knives, 12 soup spoons, 12 coffee pots, 12 cups and saucers, 1 pair scissors, 2 pot holders, 2 dozen clothes pins, 3 kettles, 1 can opener, 3 garbage cans, 1 mirror, 1 breadknife, 1 butter knife, 1 fan, 1 hot plate, 3 towel rollers, 2 yards plastic material, 1 cake tin, 2 mixing spoons, 11 cream pitchers, 4 baskets, 1 paring knife, 1 measuring cup, 6 salt and peppers, 6 sugar bowls, 1 baby crib and mattress, 4 pie plates, 952 tins peaches, 308 tins pears and \$5 worth of Christmas decorations.

ing the year, all meetings being well attended, including ten regular and one special meeting."

Mr. O'Mahony referred briefly to the resignation of Miss M. E. Ellis as matron and the appointment in March of Miss May Bennest, stating she "has given wonderful service in her new appointment."

Some shortage of nurses has been experienced in the past year but the married nurses in the district have been giving splendid assistance during these times," he stressed.

Mr. O'Mahony expressed his sincere thanks to Miss Bennest for the splendid co-operation she has given me during this most difficult time and my thanks also to the other members of the staff."

Advent of the provincial hospital insurance plan was first felt last October, when it became necessary to prepare a lengthy report for the hospital survey. This report took eight days to complete, he stated.

In November, a complete financial and operating statement covering the first nine months of 1948 had to be compiled, with full statistical information regarding the hospital. Also required was a budget for January to September, 1949, plus estimates for the last three months of 1948.

Mr. O'Mahony concluded by paying tribute to the ladies' auxiliary for the splendid job done for the hospital and the numerous donations.

The secretary also commented on the local hospital insurance plan, which ceased to exist at December 31.

"A substantial loss was again experienced, premiums charged being quite out of line with ward rates and the costs of operation," he declared.

A highlight of the x-ray department has been the appointment of Dr. W. R. Lacroix as radiologist.

Cafe-Parlor Car On CNR Trains

Canadian National Railways announces through its local agent, W. G. Gillard, that for the comfort and convenience of its patrons, passenger trains operating in both directions between Kelowna and Kamloops are now equipped with a cafe-parlor car instead of a cafe-coach car.

The cafe-parlor car, now in service, seats 18 persons in the dining space located immediately behind the kitchen at the head-end. At the rear of the car is a spacious lounge, equipped with 12 large tapestry-upholstered chesterfield-type chairs. In the centre of the car is a smoking compartment and washroom facilities.

MORE ABOUT

HOSPITAL

Continued from Page 1

the new insurance plan intends to make the WCB contribute, the same rates in force throughout the B.C. hospitals, Mr. O'Mahony explained.

Patient days in the local hospital only amounted to 2,472 in 1942 but in 1947 the high point was reached at 5,470 and last year there was only a small drop to 5,089.

Supplies amounted to \$4,072 in 1942 but now they are more than doubled, standing at a cost of \$9,598 in 1948. Services only cost \$804 seven years ago, but in 1948 they amounted to \$1,500.

In 1942, gross patient earnings were \$6,558.50, while last year they amounted to \$28,929.70.

There was a slight drop in the number of patients, being 539, and 66 babies, 33 of each sex, for a total of 605. In 1947 the number of patients was 633, including 92 babies.

When asked concerning the outstanding patients' accounts, Secretary O'Mahony reported that he anticipated two-thirds of the amount owing would be collected.

In the election of new directors, T. M. Croil and J. R. Butler were returned and Mrs. T. E. Lott was elected a new director, replacing C. J. Bleasdale, who has retired after several years' service, because of pressure of school board affairs.

Mr. C. J. Huddleston spoke in praise of the work carried out by Mr. Bleasdale on behalf of the hospital, while votes of thanks were also accorded the directors, hospital auxiliary, matron and staff.

Dr. F. W. Andrew declared that the position of hospital secretary had reached a point where it is practically a profession.

Rev. H. R. Whitmore commended all persons connected with the hospital for their work in 1948, and especially praised the matron, for her moulding of the staff into one "family". He declared that it was practically a "blessing in disguise" when the staff resigned without notice, as a more efficient staff has now been obtained.

A number of questions were asked concerning the hospital insurance plan and those who have failed to register or comply with the regulations.

Secretary O'Mahony explained that any person who does not come under the plan and is hospitalized would pay \$7 per day public ward rates,

Players Section To Present Rich Comedy-Drama

The richly human and humorous adventures of a resourceful Norwegian immigrant's family in San Francisco at the turn of the century are told in the comedy-drama hit which is scheduled for presentation by the players' section of the Summerland Singers' and Players' Club on March 17 at Ellison Hall.

This is 'I Remember Mama', the play by John van Druten which chalked up a phenomenal run of 713 performances in New York.

Ivy Mason has been assigned the coveted role of the industrious and self-sacrificing Mama Hanson, played by Irene Dunne in the movie.

As the docile Papa Hanson who came with Mama to make a home in San Francisco because Mama's sisters were there, Alan McKenzie will be seen, while Katrix, the daughter who is an ambitious writer and acts as narrator of the nostalgic story revealed in 'I Remember Mama' will be played by Sylvia Perry.

Joan Marshall will play Christine, who is forever sharing her mother's anxieties, and Dagmar, the youngest Hanson, will be acted by Sharon Dowd. As Nels, the family's only son and would-be doctor, Basil Thornthwaite will be seen.

The noisy Uncle Chris, the most important character part, who strikes fear in the heart of everyone but Mama, will be played by Alan Butler. The three amusing aunts are played by Jean Towgood, Marian Cartwright, and Beatrice Macleod. The delightful part of the lady novelist will be played by Mollie Russel.

Summerland is extremely fortunate to have as director of the play, Lacey Fisher, who has been a well-known actor and director in Vancouver for many years. During the war Mr. Fisher directed plays such as 'The Man Who Came To Dinner', for army entertainment, and has been director of the UBC Players' Club, and Alumni Club.

As a director and actor of the Everyman's Theatre he will also be remembered from his performance here.

plus all extras.

If the patient should have come under the insurance scheme and had neglected to do so, he would face fines of \$25 and \$10 for non-registration and non-payment of insurance premiums, and would have to pay the delinquent premiums.

"The government did not wish to make this a compulsory plan but it was absolutely forced to do so," Mr. O'Mahony explained. "We would have been without hospitals in B.C. in 1949 without the plan," he felt, as none of the institutions would have been able to finance.

"It is hard to understand why people should kick about this plan," he contended.

Fellowship Meeting Of Youth for Christ Draws Big Crowd

The Summerland Youth for Christ Fellowship meeting was held on Friday evening, Feb. 25 in the Free Methodist church. The church was filled to capacity for the event, with representatives from West Summerland, Summerland, Trout Creek and Peachland churches present.

Rev. Robert Birch led the meeting, while the devotional message was given by Rev. G. G. Buhler of Kelowna.

There were vocal trios by Mr. Buhler's three daughters, who had come down from Kelowna for the occasion. Miss Beverly Gayton played an accordion solo, 'The Stranger of Galilee', and a second trio of sisters sang. They were the Johnston girls from Trout Creek.

Mr. Birch gave an object lesson taking, 'Pruning', as his subject.

Eight young people were chosen at random from the meeting, and took part in a lively Bible contest. A solo by Miss Mable Henderson, entitled, 'He'll Never Forget to Keep Me', was enjoyed. Her accompaniment was played by Miss Melva Stevenson.

As the congregation was assembling Paul Birch played the piano, and accompanist for congregational singing was Miss Elsie Johnston.

Miss Jocelyn Boyd left the staff of the Bank of Montreal at the end of February.

Socially Speaking

SOCIAL EDITOR

Mrs. A. W. Vanderburgh

Frances Willard Is WCTU Topic

The Frances Willard Union of the WCTU of Trout Creek held its February meeting on Feb. 24 at the home of Mrs. J. J. Embree. Members of the West Summerland Union were their guests, and took part in the program.

Miss Frances Giberson of Kamloops, the district president, who was to speak, was unable to be present because of illness. Mrs. Tasker of Pentiction, a returned missionary from India gave a fine devotional message taken from 1st Peter 1.

Mrs. Wesley Davis sang, 'The Burden Bearer', and Mrs. F. W. Haskins reviewed the life of Frances Willard, founder of WCTU work. Following this Mrs. Howard Milne sang a solo based on the last words of Frances Willard, 'How beautiful to be with God'.

Tea was served by the Trout Creek members.

LOSES FINGER

Clarence Carey had the misfortune to cut off his left forefinger while chopping wood on Monday morning.

VISITING ABROAD—

Mr. E. E. Campbell left on Saturday night for a short trip to Vancouver.

Dr. R. C. Palmer, superintendent of the experimental station, is away this week at Grand Forks and Creston.

Mrs. Muriel Crease is spending a week or more at Vancouver.

Mr. John Robbins, who has been staying with Capt. and Mrs. A. M. Temple, left by car at the beginning of the week to spend some months on Vancouver Island.

Mr. J. E. Millmore of the experimental station left on Sunday for Rock Creek, and will be there on business for a few days.

Mrs. W. R. Boyd, Miss Jocelyn Boyd, and little Rosalind, will go to the coast on Saturday night, to spend about a week in Vancouver. While there they will stay at the Devonshire hotel.

Mr. and Mrs. J. Y. Towgood went to Vancouver on Wednesday night for a short time. While there Mr. Towgood will attend a directors' meeting of the B.C. Co-operative Union.

Mr. C. V. Nesbitt was a passenger to Vancouver on the train Wednesday night. He has gone to the Chrysler Motor show, and to see the new cars that are being introduced this week at the coast.

Mrs. Lloyd Shannon accompanied her father, Mr. Alex Edlund, when he went to Vancouver on Tuesday evening. Mrs. Shannon will stay in Vancouver for about a week, and her father will visit there for a month before returning to his home at Wetaskiwin, Alta.

HOME AGAIN—

Mr. Jack Lawler is being welcomed back again, after spending some weeks on Vancouver Island.

Mrs. F. E. Atkinson returned last Thursday from the coast, where she has been visiting Rebekah Hodges in connection with her work as president of the provincial assembly.

Reeve R. A. Johnston returned from Victoria last Friday.

VISITING HERE—

Mrs. Jessie Mitchell, and her small son, of Pentiction, were week-end guests of Mr. and Mrs. Bulloch at the experimental station.

Mr. K. H. Orr, regional administrative officer, of Vancouver, spent Monday at the experimental station.

TWO GIRLS ATTEND SOUTH OKANAGAN CGIT CONFERENCE

Miss Merle Heavysides, president of the Summerland CGIT and Miss Arlene Raincock, secretary, attended the South Okanagan CGIT conference in Oliver on Feb. 18, 19 and 20. While in Oliver they were billeted at Mrs. Fleming's home. Mrs. Fleming is the former Margaret Stark.

Kelowna, Summerland, Pentiction, Okanagan Falls and Oliver, were represented at the gathering. There were approximately 80 girls present.

The theme of the conference was 'Be Thou My Vision'. The chair was taken by Mrs. Fry of Oliver, and by Miss Marion Smith.

While in Oliver the girls were conducted through the new Oliver high school by the principal, Mr. Cecil Ritchie.

On Sunday morning all the delegates attended church in a body. Merle and Arlene returned home on Sunday afternoon.

Honor Brown Owl With Birthday Gift At Brownie Social

The tea which the local association to the Girl Guides and Brownies held for the Brownies on Friday afternoon, Feb. 25 was a success in many ways. Brown Owl, Mrs. Lorne Perry, spoke of the aims and ideals of Brownie work, and had them give a demonstration of one of their meetings to those who had come to tea.

In the centre was their very pretty large toadstool, and around it the three latest little girls who are to become Brownies after they have attended a month.

In groups of sixes surrounding the smallest ones, the songs and games began, and followed through until they were all in a large ring.

It had been learned that it was Brown Owl's birthday, so at the end of the program, Mrs. F. V. Harrison, South Okanagan commissioner, asked Mrs. Perry to go into the centre of the ring, and a surprise presentation was made by Brownie Margaret Lott. The gift was brown owl pottery pepper and salt shakers.

A decorated birthday cake was a further surprise, and cut by Mrs. Perry at tea-time.

As a result of their Thinking Day, the Brownies used some of their 'gold' to buy a potted plant to give to the hospital.

Mrs. Harrison commended the Brownie leaders, Mrs. Perry and Mrs. Mallett, and those who had helped.

Tea was served by the sixes, assisted by the other Brownies. During tea some of Miss Hamilton's pupils played piano music.

Okanagan Lodge Officers Chosen

The officers of the Okanagan Oddfellows' lodge, No. 58 for the term from January until June are as follows: Noble Grand, Mr. Lloyd Shannon; vice-grand, Mr. John Khalembach; right supporter noble grand, Mr. Lester Arkell; left supporter noble grand, Mr. Eddie Hannah; recording secretary, Mr. Jack Raincock; treasurer, Mr. Elwood Gillespie; financial secretary, Mr. Harvey Edens; warden, Mr. Leonard Shannon; conductor, Mr. Loyal Campbell; right supporter vice-grand, Mr. John Caldwell; left supporter vice-grand, Mr. Harry Braddick; right scene supporter, Mr. John Dunn; left scene supporter, Mr. Jim Brown; chaplain, Mr. Leonard Mountford; inside guardian, Mr. Jas. Kean; outside guardian, Mr. Wm. Downton; junior past-grand, Mr. Reg. Kersey.

Ninetieth Birthday Is Celebrated

Mrs. Robert Johnston, who has lived in Summerland for nearly forty years, celebrated her ninetieth birthday at her home on Saturday afternoon, Feb. 26.

She was assisted in receiving her old friends and relatives by her daughter, Mrs. Bertha Gillis, who makes her home with her mother, and by her daughter, Mrs. Frank Doumont. Her daughter-in-law, Mrs. Elmer Johnston, poured tea.

Many gifts, flowers and cards were sent to congratulate Mrs. Johnston.

BIRTHDAY IS MARKED

Mrs. J. E. O'Mahony entertained at tea on Sunday afternoon in honor of Mr. O'Mahony's birthday, which is on March 1. The occasion was marked further by a birthday dinner on Tuesday at their home.

YOUNG KELOWNA SKI VISITORS BILLETED HERE

There were a number of girls and boys down from Kelowna for the high school ski meet. Miss Cecile and Miss Claire Scantland, and Mr. Derry Appleton were guests of Miss Doris and Mr. Don Cristante. Miss Lorraine White and Miss Mary Cameron stayed with Miss Shirley Wilson in Trout Creek. Miss Helen and Mr. Ralph dePlyffer, and Mr. Eph Day were visiting Mr. Wally Day, while Mr. Bud Williams and Mr. Don McKenzie were guests of the Weitzel boys at the home of Mr. and Mrs. Channon Snow.

SKIING ACCIDENT

Ross Tingley added himself to the list of people who have had fractured bones this winter when he broke his ankle while skiing on Saturday at the ski hill.

Mr. Frank Healy, Peach Orchard, has been a patient in Summerland hospital, having slipped and broken his ankle last week.

C-I-L FERTILIZERS

FOR TREE FRUITS AND GROUND CROPS

Nitrogen is the principal plant food substance needed by apples and other tree fruits in Okanagan, Kamloops, Lillooet, Grand Forks and Kootenays. It is available to growers in these four fertilizers:

"NITRAPRILLS" (Ammonium Nitrate 33 1/2-0-0). The most economical form in which nitrogen can be purchased in commercial fertilizers. Contains 16.75% nitrate nitrogen and 16.75% ammonia nitrogen. Will not cake under normal storage conditions.

SULPHATE OF AMMONIA (21-0-0). The standard nitrogen fertilizer, particularly valuable on alkaline soils as its continued use gradually brings down the pH of the soil.

AMMONIUM PHOSPHATE (16-20-0). For use when a cover crop requiring added phosphate is grown in the orchard. The trees are indirectly fertilized through the cover crop.

C-I-L COMPOUND FERTILIZERS. There is a specially prepared C-I-L Fertilizer for every type of Ground Crop. C-I-L 6-8-6 (Urbanite), an organic chemical mix, C-I-L 8-10-5, C-I-L 4-10-10, C-I-L 6-30-15, C-I-L 10-20-10 and others. For full particulars see your district agriculturist or packing house manager, or write direct to C-I-L Agricultural Chemicals Division, Vancouver, B.C.

Order Fertilizers Now

To insure prompt deliveries, order your spring fertilizer requirements NOW. The box-car situation is still serious and may again delay deliveries. Have your supplies on hand when you need them.

CORPORATION OF SUMMERLAND

Electric Light Department

Suppression of Radio Interference Caused by Electric Heating Pads

Cause of the Interference:

Electric heating pads and electric blankets are equipped with thermostats, which regulate the temperature and prevent overheating. The contacts on the thermostats open and close the circuit, in accordance with the variations in temperature. It is the sparking at these contacts that actually causes the interference. When the contacts become worn and pitted the interference usually is most severe. Also, the pad may not then be fully protected against fire hazard.

Description of the Noise:

The noise produced in a radio receiver by an interfering heating pad, has definite characteristics that are easily recognized. The noise may be described as an intense, hollow-sounding buzz, which usually comes on at regular intervals, although sometimes it may be quite spasmodic. The noise begins at a low pitch and gradually rises to a higher pitch, then suddenly cuts off, recurring again after a short interval, the whole procedure being repeated indefinitely.

INTERFERENCE OF THIS KIND OFTEN AFFECTS RADIO RECEPTION OVER A WIDE AREA. SUCH INTERFERENCE IS PARTICULARLY OBJECTIONABLE WHEN IT DISRUPTS NEWS BULLETINS AND OTHER IMPORTANT BROADCASTS. OWNERS OF HEATING PADS ARE THEREFORE REQUESTED TO GIVE THE FULLEST CO-OPERATION IN ELIMINATING ANY INTERFERENCE CAUSED BY THEIR EQUIPMENT.

Test:

In order to determine whether or not an electric heating pad or electric blanket is causing radio interference, it is suggested that the following test be carried out by the listener or owner of the heating pad:

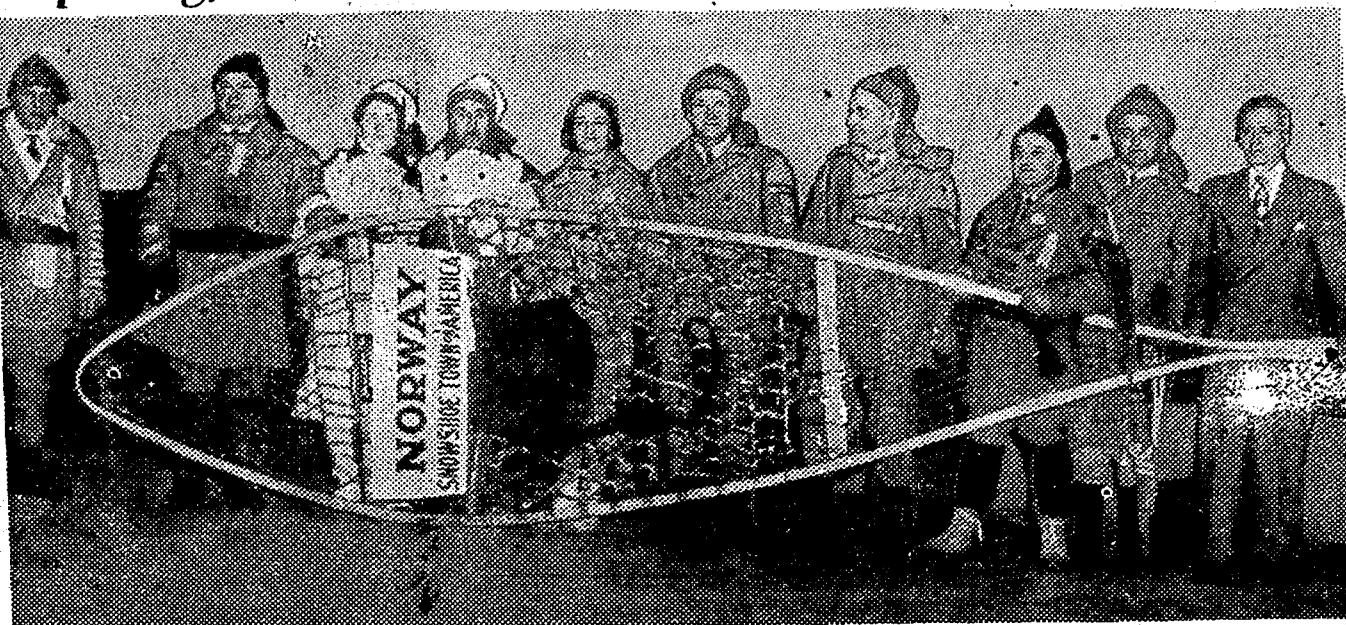

If the pad is not already in operation, plug it in, but do not expect the interference to start until the pad has reached normal operating temperature. This may take up to an hour; rolling the pad in a blanket will shorten the warming-up period. At the same time, the radio receiver should be placed in normal operation and tuned to a fairly weak station, not a local station. When the noise is heard on the receiver, immediately disconnect the pad by pulling out the plug, and note whether the noise ceases. This procedure should be repeated a number of times to ensure that some other noise is not responsible. If the noise stops each time the pad is disconnected, it definitely indicates that the pad is causing the interference. Shaking or moving the pad during the test should be avoided, as this will often cause the interference to vary or to cease altogether for a certain period.

Cure:

If the above test indicates that your heating pad is at fault, action should be taken along the following lines:

- (1) Return the pad to the dealer or manufacturer, for removal of the thermostat contacts.
- (2) Replace the pad with a non-interfering type.
- (3) Use a hot water bottle in place of the pad, between 8 a.m. and 11:30 p.m. local time.

Imposing, If Not Practical Snowshoe Returns to Maine

Fourteen feet long, a snowshoe large enough for the legendary Paul Bunyan, was part of the trappings brought to Montreal by members of the Norway Snowshoe Club of Rumford, Maine during the recent International Snowshoer's Convention. Club members are seen above displaying their huge symbol prior to boarding a special train for their homeward journey. With them on the right is H. R. PERRY, C.N.R. passenger agent, Portland, Me.

Proper Vigor Of Trees Means Higher Yields

For profitable production of tree fruits high yields per acre are essential. Low yields involve high cost per box, and the grower cannot compete on the open market, explains the Experimental Farm News in a recent release.

In addition to large quantity, high quality is also necessary. This is especially true under a buyer's market. When production is greater than consumer demand, the consumer is not interested in fruit of low quality.

In order to obtain high yields of high quality fruit, the trees must be given proper treatment throughout the year. Pruning, fertilizing, irrigating, spraying and thinning are all instrumental in affecting fruit quantity and quality. Their effects are beneficial, or the reverse, largely to the extent that they influence the general health and vigor of the trees.

In experimental work conducted at the Dominion Experimental Station at Summerland, says J. C. Wilcox, a close correlation has been found between tree vigor on the one hand, and both fruit yield and fruit quality on the other hand.

With low vigor the fruit is small, high in color and quality, but low in yield; while with high vigor the fruit is large, poor in color and quality, and high in yield. Neither condition is satisfactory.

The best degree of vigor has been found to be a happy medium between these two extremes.

Various methods of measuring tree vigor have been tested. Of these, the most satisfactory for grower use in the Okanagan Valley has been found to be the average annual terminal growth. The

MAGNESIUM IS AS NECESSARY AS LIFE BLOOD

Magnesium in the plant is just as necessary as iron in the blood and fills a similar role. In other words, magnesium is essential to the development of the green pigment, chlorophyll, without which the plant could not use the energy from sunlight to manufacture food, says C. A. Eaves, assistant, cold storage and plant nutrition, experimental station, Kentville, N.S.

Inability to maintain foliage with a healthy green color is therefore characteristic of magnesium-deficient plants. Thus we find that the lower leaves of young potato plants which are deficient in magnesium develop a yellow-green, mottled color between the veins. Later the green turns yellow except in the veins, and finally patches of dark brown, dead tissue appear.

These leaf symptoms are much the same in other crops but the time of appearance may vary. For example, apple trees do not show any signs of deficiency until the growing season is well advanced—usually in August—whereas the deficiency becomes apparent with potato plants shortly after they come up out of the ground.

Nearly Lost Spuds How serious this can become is demonstrated by the experience of one potato grower. Last summer he thought he might have to plough up his five acres of magnesium-starved potatoes, but a spray application of a 2 per cent solution of Epsom salts brought about a great improvement in the plants and prevented a complete crop failure.

The five acres were on light sandy soil and it is on these lighter soil types, where leaching by rain is relatively rapid, that mineral deficiencies are most likely to be found.

While three sprays of magnesium sulphate (20 pounds to 100 gallons of water) will quickly correct the trouble, a more permanent though slower remedy is advisable.

It has been found that 60 to 100 pounds of magnesium sulphate per acre, broadcast before planting, is suitable for potatoes, and, in the case of orchards in the Annapolis Valley, where the soil is quite acid, two tons of dolomitic limestone per acre will supply the required magnesium. Standard fertilizer mixtures containing one per cent of magnesium are recommended for maintenance, but heavier dosages should be applied where there are signs of magnesium starvation.

Healthy green leaves are necessary for good growth and satisfactory crop production. Growers are therefore urged to watch the foliage for hunger signs, and if in doubt as to the cause, consult the country agricultural representative or the nearest experimental station.

If the trees are not vigorous enough, more nitrogen needs to be applied; while if they are too vigorous, less should be applied.

Young trees growing in a leguminous cover crop sometimes need little if any additional nitrogen. Older trees growing in a heavy grass sod, however, have responded favorably to applications of sulphate of ammonia as high as 20 pounds or more per tree annually.

Increasing Demand for Information Intensifies Work of Surveys Branch

The duties of the Surveys Branch are many-fold. It supplies survey information to surveyors and the general public, checks field notes, clears applications for land, timber and other resources, maintains up-to-date reference maps and meets the demands of other departments for maps and blueprints. Duties are divided among four divisions:

1. AIR SURVEYS—Photographic air survey flying operations within the Province for mapping, stock-taking of natural resources and economic planning, is the chief function of this division. Processing of film, the production of prints and reprints and maintenance of the Provincial Government Air Photo Library arise as responsibilities subsequent to air operations. Public education through use of its extensive illustrative material has become an important function of the agency.

2. CADASTRAL SURVEYS—This division carries out detailed survey of lands, their extent and subdivisions. This important work provides a basis, not only for taxation, but for the many other types of surveys, such as forest and soil.

3. GEOGRAPHIC SURVEYS—The Geographic Division has charge of the compilation, drawing and publication of maps both geographical and for the general use of the public whether land-seeker or tourist. Individual requests for maps have increased to about 30,000 per year.

4. TOPOGRAPHIC SURVEYS—Despatch and direction survey parties in the field is the primary function of this division. Triangulation and boundary-line surveys constitute important aims of these field surveys. Approximately 35,000 square miles have been mapped to standard by this division.

The work carried out by this branch provides information and accurate inventory of the renewable resources of our Province. Such data assists materially in determining the policy of development to ensure the greatest benefit from our resources for this and succeeding generations.

Films on Tap For Next Two Months' Dates

Mrs. J. McLachlan, secretary of the Summerland Film Council has released the films which are available here for clubs and other organizations in March and April. A wide variety of subjects is dealt with in these films, which should prove quite popular.

Apart from this two-month list, the purchase block for February and March consists of films, Ski Revels, Road Runner Battles Rattlesnake, Great Lakes and In and Around Capetown. The latter is a large film.

The March-April list follows:

Child Welfare in Sweden, 10 minutes—Shows the Swedish government's intelligent program for the care of mothers, infants, children and adolescents. Free clinics, housing, summer camps, and play facilities are shown.

Excursions in Science No. 9, 10 minutes—Deals with protective measures arrived at by science in regard to electrical disturbances, and lightning research. Loaned by the Canadian General Electric.

Fruits, Vegetables and Cooperation, 18 minutes—A group of farmers study the advantages of co-operatives, and use many successful co-operatives as their guide.

Housing in Scotland, 14 minutes—Scotland's plan for post-war building includes temporary structures, to meet the emergency need, two family houses which will later be converted into single dwellings, and permanent houses. Examples of the various types are already on exhibition and the film enables us to see how they are equipped and what life in them will be like.

Library on Wheels, 13 minutes—This film relates the story of how books are brought to families scattered over a wide area in south western B.C. Started in 1929 the travelling library now covers a 750 mile circuit in the Fraser Valley every three weeks, bringing books to hundreds of subscribers.

Let's All Sing No. 6, 10 minutes—An animated sing-song, featuring: All Through the Night, Row Row, Row Your Boat, and Waltzing Matilda.

People's Bank, 20 minutes—In fishing and mining communities, in farming and industrial settlements, Credit Unions have arisen all over Canada. Today the voluntary Credit Unions have solved the double-task of financial provision and development of communal business management.

Portage, 20 minutes—The story of how the Algonquin Indians have from generation passed on the craft of making birch-bark canoes. Primitive materials all supplied from the abundant materials of the northern forests are used. Many Indian songs have been recorded and are now heard for the first time on the screen.

Second Freedom, 18 minutes—To free the people of Britain from the fear of want, ill health, and destitute old age, the British Government has established a series of measures for social welfare that range from pre-natal care to old age pensions. This film presents the different parts of the program in practice.

Trappers of the Sea, 12 minutes—A picture of the men and processes on which Canada's lobster industry depends and the co-operatives which have improved their economic position.

Great-West Life Assisted 10,000 Home Projects

Some achievements of the Great-West Life Assurance Company are reported in this issue in the advertisement covering its 75th annual report published by Lorne Perry, who represents the company in West Summerland.

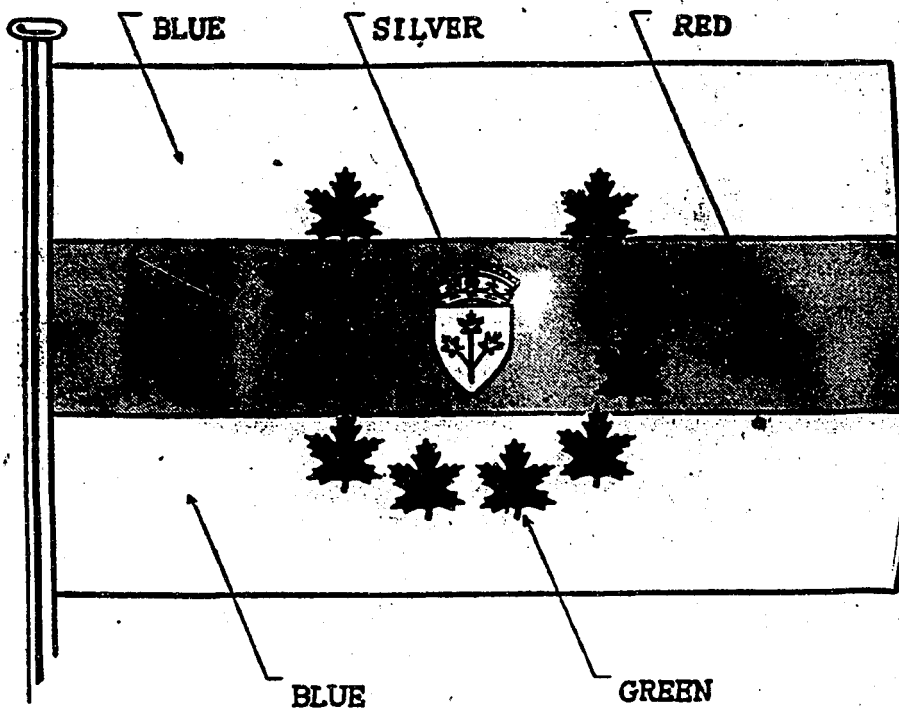

Assets of the Great-West Life reached \$331,000,000, and total business in force attained a new peak of \$1,346,000,000, providing protection for 388,000 policyholders in Canada and the United States. New business in 1948 amounted to \$198,000,000, almost four times the business placed ten years ago.

The company has assisted nearly 10,000 families to obtain homes and has helped industry expand its plants and equipment in the four years since the war, by investing \$48,000,000 in new mortgages.

During the year a marked trend toward lower premium policies was noted, resulting from the higher living costs and the greater insurance needs which they create. The decline in interest rates was arrested last year, and the yields obtainable on new investments showed a substantial improvement.

Reviewing the year's operations, H. W. Manning, vice-president and managing-director, expressed confidence in the future prospects for business. "The period which we are entering," he said, "can be one of sustained business activity and general prosperity of there is a renewed emphasis upon the reduction of costs and the encouragement of thrift."

Montreal M.P.'s New Flag Design

A bill to provide for a national flag for Canada has been given its first reading in Parliament this session. Introduced by Roland Beaudry, member of Parliament for St. James constituency in Montreal, it embodies the serviceman's badge, the maple leaf and red and blue horizontal stripes.

ALUMNI - UBC START FUND FOR DEVELOPMENT

Establishment of the Alumni-UBC development fund, an annual giving program under which former UBC students and others interested may assist the University of British Columbia, has been announced by Winston A. Shilcock, president of the UBC Alumni Association.

The fund, patterned after many successful plans in United States, is expected to raise \$20,000 or more for the general purposes of the university and for specific objectives. Solicitation will probably be restricted to Alumni.

Joseph F. Brown, Jr., Arts '23, has been named chairman of the board of directors of the fund with Richard M. Bibbs, Science '45 as

vice-chairman. There are eleven directors who will be responsible for organization and fund collection. The five trustees who will administer the fund are Dr. A. E. (Dal) Grauer, Lt. Col. W. Tom Brown, Kenneth P. Caple, Col. F. T. Fairey and Mrs. Howard T. Mitchell.

First notice of the establishment of the fund was mailed to university of B.C. alumni recently and already more than \$3,000 has been received from nearly 300 contributors.

Special objectives such as scholarships, bursaries, equipment or books may be determined by the board of directors. The fund can become part of capital gifts or a building program if desired.

Romans Knew of Value of Manure

The use of barnyard manure is as old as agriculture itself. Its value was known to the Romans, and a tenth century text-book indicates that the Arabs too were acquainted with its properties and with the value of soil-composts. Old text-books also give much information about such substances as waste wool, bones, wood ashes, and fish refuse for fertilization.

Early in the nineteenth century, chemists and botanists began studying the phenomena of plant growth and by 1844 had shown that all the substances used for manure fall into groups containing one or more of the elements, nitrogen, phosphorus, potassium, organic matter and lime.

The first three of these could be made from materials not previously drawn upon by farmers, and could be manufactured into products easy to transport and handle on the farm. They became known as artificial fertilizers, or as more commonly known today—commercial fertilizers.

The study of both plant growth and soil fertilization has made great strides since those first fundamental studies in 1800. But when in 1843, J. B. Lawes of Rothamsted, England, established the first fertilizer factory and demonstrated their value, he set the stage for improved agricultural production in Europe, particularly in England, France and Germany, which played its part in providing foodstuffs for the rapidly increasing population.

Since that time the use of commercial fertilizers has extended to almost all parts of the world.

WOULD APPEAR HERE

Elliott Shows, located at Wellington, B.C., wish to appear in Summerland on June 1 or 2, the council has been notified. A licence fee of \$20 per day will be charged the shows if they appear. A request for a local sponsor was also made, the council referring the subject to the board of trade.

TRANSIT COSTS \$750

Need of a transit for municipal works projects was introduced at a recent council meeting by Roads Engineer Don Wright. Such equipment would cost in the neighborhood of \$750, he stated. No action was taken.

Snow Clearing Equipment to Keep Road Open

HOPE—B.C.'s public works department is organizing its most up-to-date snow-clearing scheme for the Hope-Princeton highway. The new road will be opened by Labor Day.

Works Minister E. C. Carson said, "Our plan is to have the

Hope-Princeton link open every hour of the 24 for 265 days a year."

And that is no mean task. Because in the high passes along the route snow sometimes falls 12 and 15 feet deep in the dead of winter.

Department engineers have recently paid visits to Washington State to study methods used on the Stevens and Blewett passes leading to eastern Washington from Seattle.

Conditions there are similar to those along the Hope-Princeton route.

Shortly Mr. Carson said, the department will start building specially designed warehouses to store the snow removal equipment which will be of the latest type to cope with anything that comes along the route.

Because the Hope-Princeton link is built up to the latest standards of the highway department with all curves laid out to be safe at 50 miles an hour and grades reduced to a minimum and fully surfaced before it opens, the department anticipates it will make good its boast of never having to close it to traffic.

Steady Progress Revealed By Credit Union With Share Investments Nearly \$50,000

Steady, progressive growth in five years from a start of \$64 to a share investment nearing \$50,000 was revealed at the annual meeting of the Summerland and District Credit Union, held in the IOOF hall on Friday evening, Feb. 25, with an attendance of more than 125 members, guests and friends.

In this period, a Credit Union building has been completed and has been fully paid for, directors revealed.

Main point in the committee reports revealed that the local Credit Union has now grown too large for voluntary services, yet is too small yet for a full-time clerical staff to be employed.

The evening opened with a delightful banquet served by the Ladies' Hospital Auxiliary and following the lengthy business meeting dancing was enjoyed.

Walter Bleasdale, president of the Credit Union, presided over Friday's session, which indicated a keen interest in the growth of this co-operative enterprise. In five years, the Credit Union growth shows that it has filled a need in this community, Mr. Bleasdale remarked.

Gordon Beggs, vice-president, reported for the directors that final major additions had been made to the Credit Union building, which included the establishment of a modern apartment upstairs.

Need of a full-time treasurer to handle the business affairs of the union was stressed by Mr. Beggs, who declared that the directors hope to fill this post in the near future.

Need for publicity and social committees, as well as an educational committee was emphasized. The Credit Union insurance plan is working out in a satisfactory manner and it is expected that insurance coverage will be extended soon to cover all branches of insurance activity.

In his financial statement, Treasurer A. E. Smith pointed out that loans amounted to \$48,327.10, with total assets of \$55,058.70. Shares and endowment shares now stand at \$49,366.49, while the surplus stood at the end of the year at \$802, plus a portion of building expenses which will be charged as capital expenditure.

Recommend Dividend
On the basis of the surplus, the directors recommended and received the meeting approval of a three percent dividend on shares and a five percent rebate on loan interest paid.

"We have built up naturally and without much effort on the part of the members," Mr. Smith emphasized. "It would be interesting to see what would happen if everybody worked to build up a real credit union. There is no end to the possibilities."

F. R. Ganzveld, chairman of the credit committee, indicated that most loans were used for the purpose of building and repairing homes, purchasing equipment, mainly for farms, doctor and hospital bill payments, financing cars and trucks and paying for insurance.

Harvey Eden reported that the supervisory committee had investigated the affairs of the union each month and had checked carefully on the books.

Two resolutions introduced by

the directors found favor with the meeting.

First, introduced by Roy Smith, called for a \$1 adult membership fee in order to finance, in part, payment of clerical work and transportation costs to the annual credit union convention.

The second, advocated by Harvey Eden, increased the supervisory committee members from three to five.

In discussing the Credit Union and Co-operatives Health Insurance Assn., which is part of the Credit Union setup, Dr. J. C. Wilcox explained that this group has withdrawn from the hospital insurance field but is maintaining a medical insurance scheme, based on 70 percent of the cost of the combined services.

"We found that we couldn't compete with the government hospital insurance plan," explained Dr. Wilcox, who also advocated the medical insurance plan as one of the few schemes operating in B.C. which provides an adequate coverage at a comparatively low rate per year.

Mr. R. S. Oxley, on behalf of the firm of O'Brien & Oxley, thanked the Credit Union for its offer of office space when he commenced his law practice here.

Officers Elected
In election of officers and committees, H. Lemke and H. Eden were chosen for three-year terms on the board of directors.

Roy Smith and R. S. Oxley were elected for three-year terms and J. M. McArthur for two years on the supervisory committee, while C. A. Gayton was chosen for three years on the credit committee.

President Walter Bleasdale reported at length on his attendance at the annual conventions in Victoria last June of the B.C. Credit Union league and the B.C. Central Credit Union. He declared that a central credit union for all Canada is coming closer to an accomplished fact.

During the banquet, T. W. Boothe rendered two songs, accompanied by T. McKay.

Dental Health to Be Promoted in B.C.

To assist in the development of a public health dental program for the children of British Columbia, Dr. Frank McCombie, TD, LDS, RCS, has recently joined the staff of the provincial department of health and welfare.

Provincial authorities feel that this is a distinct advance in the field of public health.

On graduation from Guy's Hospital dental school, London, Dr. McCombie did further post graduate work there in children's preventive dentistry. He then practised general dentistry in Dorset, England, until the outbreak of war. He served in the British Army for the duration as a major of Royal Signals.

After the war he took a post graduate course in preventive dentistry at Guy's hospital, then established his own clinic in Beccles, Suffolk. There he practised dental surgery for a period of over two and a half years until his departure for Canada.

ONE MAIN FROZEN

Only one municipal water main has been frozen this winter, and that occurred in the neighborhood of Capt. A. M. Temple's property the council learned last week. The main at this point was down four feet.

Canadian Fashion

Caramel chambray combined with a striped material in a Minx modes dress. The folds of the striped fabric on the bodice are matched by a double peplum that flares from beneath a tiny waistline.

Meeting Place For Youth Still Paramount Problem

In his annual report to the group committee in charge of the First Summerland Troop, Boy Scouts, which is appointed annually by the Summerland branch, Canadian Legion, sponsors of the troop, Scoutmaster D. V. Fisher declared that troop strength stood at 31, with two vacancies, at the year end.

The troop has one King Scout, six First Class Scouts and nine Second Class Scouts. During the year, 110 badges and awards were earned, including one Bushman's Thong.

An apple tag day last fall realized \$128 for the Scout troop funds, while the Scouts also assisted in canvassing for three charitable organizations.

"The problem of a meeting place is still paramount for all Scout, Guide, Cub and Brownie units in Summerland," declared Dr. Fisher. "The Scouts have been most fortunate in having the use of the school gym most of the time. It is, however, far too cold in winter for anything more than purely physical activities."

"The possibility of a deal with the badminton club to use its hall for these groups in return for certain improvements to the building is receiving favorable consideration."

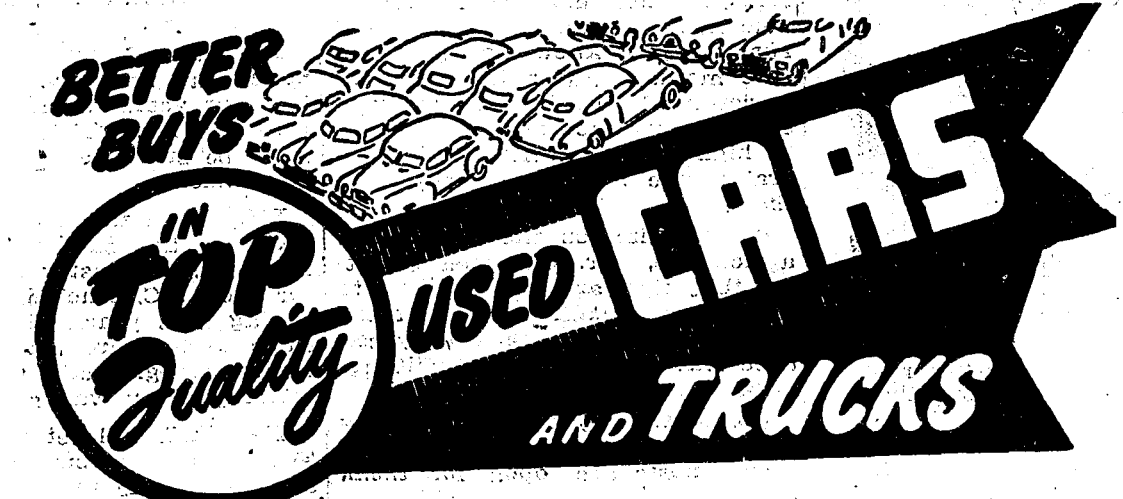

"An inter-group committee to consider this project and to formulate plans to raise funds should be formed," he concluded.

"Twelfth Night" is UBC Production

The University Players Club will present Shakespeare's "Twelfth Night" as its annual spring production. Mrs. Elsie Graham, prominent in Vancouver theatre circles, will direct the production and has announced that final castings have been completed.

Leads include Gerry Webb as Orsino; James Argue, Sir Toby Belch; Cyril Groves, Sir Andrew Aguecheek; Ron Wilson, Malvollo; Phil Keatly, Clown Feste; Betty Peyman, Viola; Jane Sherwood, Olivia; Moira Mulholland, Maria. Supporting cast will include Dick Hubbard, Tino Genis, James Redden, Ed Finnegan, Dick Parsons, Earl Bowan, Stewart Campbell, Tim Hollet-Kenyon, Norman Young.

The play will have several performances at the university and will go on tour through the province.

This year the Red Cross Must have More Money*

- More call for Red Cross**
- More Outpost Hospitals**
- More Blood Donor Services**
- Red Cross Aids Veterans**

The Red Cross must be prepared for all eventualities. Year after year the demand for Red Cross services grows. Millions of dollars have been spent in flood, fire and other disasters, in aiding the stricken and homeless.

Throughout Canada, the Red Cross operates 75 Outpost Hospitals and 2 Crippled Children's Hospitals. More are being built and more are needed. Last year over 70,000 patients were served by Outpost Hospitals.

Province by Province the Red Cross is opening its Free Blood Transfusion Service. Untold lives have been saved by this great organization. But more funds are needed to expand and maintain this humanitarian work.

Red Cross provides many services for veterans in Hospitals. Other Red Cross activities include: Junior Red Cross; Swimming and Water Safety; Nutrition Services; First Aid and Home Nursing; Women's Work Activities etc.

Your RED CROSS money is backed up by thousands of volunteer workers

*THE RED CROSS NEEDS 5 MILLION DOLLARS — 40% MORE THIS YEAR!

March of Books is Canada's Answer To European Library Renewal Plan

If it was possible to assemble all the books destroyed or lost due to World War II, they would fill two unbroken shelves from Ottawa to Toronto, with enough left over to cover Parliament Hill.

The destruction of books and libraries was one of the declared Nazi policies during World War II, and their ransacking of European literature began at home when they burned the works of Einstein, Heine, Mann, Freud, Gorko, Dreiser and Schindler. The libraries were geared to the Nazi propaganda machine to goose-step the intellectuals of the occupied countries.

In 1939 Marshal Goering said to Poland, "In accordance with the will of the Fuehrer you are to be a society of peasants and workers—you will not need a cultural class or education—your country must be made an intellectual desert."

Millions Destroyed
With the formation of a Special Service Battalion, the Nazis systematically ransacked the literature of Europe. The Slav countries and the Balkans, Norway, France, Italy and Greece, all suffered the purge of their literature. More than 55 million volumes vanished from the Ukraine alone.

In 1914 the Germans smashed the library of the University of Louvain in Belgium. In 1940 the Nazis smashed it again. This magnificent institution was the only major library that suffered severely during World War I. The principle of its restoration was so important that it was included in the Versailles Treaty.

When the Germans signed this

historic document they pledged themselves to restore manuscripts, books and other collections equal in number and value to those destroyed. Universities and schools all over the world contributed to its reconstruction.

Between the two world wars this Belgian library became world famous for its special collections and periodicals on science. Then disaster struck for the second time. In 1940 a German battery of artillery singled out this building, pouring shell after shell into the towers and stacks until it was reduced to a twisted steel frame filled with burned and rain sodden books.

Ironically enough, the Germans were making deliveries to the Louvain University library right up to the eve of the invasion of Belgium.

This is a major part of world reconstruction—the rebuilding of the mind and the intellect. Without it there can be no real or lasting reconstruction. No lasting peace.

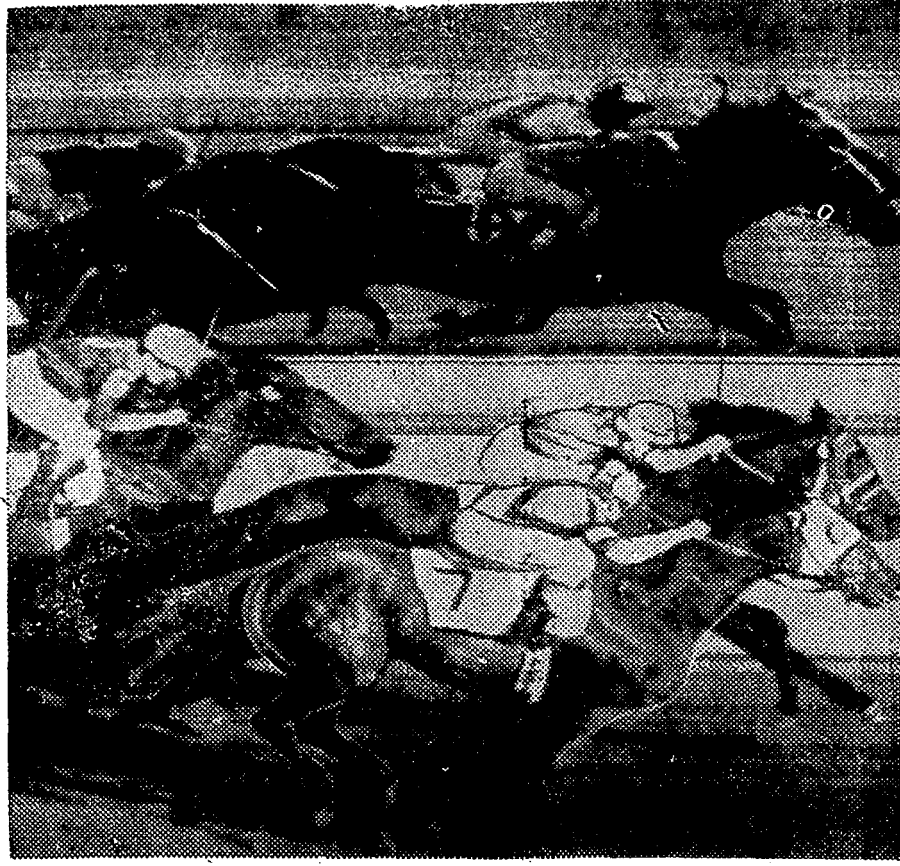

The needs are great. One thousand and sixteen of the world's libraries have sent reports of war damage to UNESCO House in Paris. This represents the loss of untabulated millions of books.

Collect Books
Canada's answer to this desperate need is the March of Books. This nation-wide campaign has been organized to collect books and periodicals of educational value from Canadians for supervised distribution to war damaged libraries.

Most in demand are recent scientific and technical publications. Material published during or after 1935 is especially required but standard works and classics in all subjects are valuable.

To ensure that delivery of all contributions is made, the Canadian Book Centre has been established in Halifax to screen books for subject matter and to sort and distribute them according to applications made by European institutions.

Look over your bookshelves and see what you can spare. To make it easier for you to contribute to the March of Books, a door-to-door collection will be made by Boy Scouts across Canada.

This track photo from Hialeah shows Maudeau (7) and the Bright Kid (4) (on rail) in a dead heat finish of the race on the turf recently at Hialeah Park. Note the mirror image which shows the horses as pictured on the opposite side of the track.

Machinery Should Be Checked Over At This Period

Spring is just around the corner, and now is the time to check farm machinery and equipment and obtain any necessary replacements.

There is probably no more forlorn figure than the farmer who has just gone to the field to seed, hay or harvest, only to find that his machine has broken down. Next in line for disappointment, says W. T. Burns, Superintendent, Dominion Experimental Substation, Smithers, B.C., is the farmer who starts his repairs on the day he should have started his field work.

In checking over machines all dirt, grease, and oils should be thoroughly washed away, using kerosene or gasoline where necessary. All bearings and other moving parts should be carefully

examined, and those showing signs of excessive wear should be renewed.

All bolts and setscrews used in adjustments, should be checked to be sure they are operative. Machines should also be checked for broken castings. These are often indicated by the presence of wire.

While it may be true that the machines were running fine the last time they were used, it is equally true that time spent checking them over during the off-season will eventually save time during the busy summer season.

Objections are frequently raised that during the winter it is too cold to work on machines. However, it is surprising how much can be done in a modest sized machine shop if fitted with a small stove, particularly if the coldest days are avoided.

A.I.C. Hears of Agriculture in High Schools

J. A. Campbell, Penticton high school teacher, addressed a meeting of the B.C. interior branch of the Agricultural Institute of Canada at the Summerland experimental station on February 21, speaking on agricultural education at the high school level.

The objectives of the present high school agriculture program, Mr. Campbell said, include the development of an appreciation of rural life, a knowledge of scientific methods, and a knowledge of agricultural skills. Agricultural subjects are not now compulsory in high school, although the general course students usually take them.

Commenting on the teachers of agriculture, Mr. Campbell regretted that they are not required to have special qualifications to teach agriculture. They are usually science teachers who also handle agriculture.

Competent agriculture teachers are in great demand today, and many posts are open for them. Men with the desired combination of training are, unfortunately, all too rare. One of the stumbling blocks is that university-trained agriculture graduates must also take teacher training before they are allowed to teach.

Mr. Campbell stressed that attempts are now being made to equip all high schools in the Okanagan with facilities to teach agriculture, but the cost of necessary equipment makes progress in this direction slow.

Outlining his course at Penticton, Mr. Campbell said that the field-trip system is a very important phase of the work. For one month the students visit a packing-house, spending a day in each department, two students per department.

Following this, students are driven in the school bus to orchards, two students at a time to one experienced grower. The boys spend the day in the orchard learning practical skills. In school,

text books, bulletins, pamphlets and magazines such as Country Life, Better Fruit, and American Fruit Grower are studied. Each student prepares a thesis using this material.

This is good as far as it goes, said Mr. Campbell, but what is really needed in rural districts is a residential vocational agricultural college.

Mr. C. Gordon O'Brien of Ottawa, general secretary of the Agricultural Institute of Canada was a visitor. In his address, he mentioned that the A.I.C. has 1,000 more members than three years ago, membership being nearly doubled. The organization is in good financial shape, with increasing reserves.

A national soil conservation policy has been drawn up following four years' work by the Institute said Mr. O'Brien. This policy is to be submitted to the Federal government.

Fifty thousand dollars in three years is the sum that has been donated by industry and business for the A.I.C. scholarship program ending this year. These scholarships were awarded to agronomists whose post-graduate training was interrupted by war service.

The A.I.C. will set up a service to advise businessmen where they can place their research problems to best advantage regarding equipment and personnel.

DISCOUNT ON PAYMENTS

B. C. Game Commission has requested advice from the council relative to payment of discounts on electric light rates for the fish hatchery, stating that it is sometimes impossible for payments to be passed through Victoria in time to meet the 20th of the month deadline. Council is replying that it cannot deviate from its bylaw and suggesting that the payments be handled through the local caretaker, Mr. A. E. Higgs, he to be reimbursed by the department.

WANTS ROAD ADVICE

Summerland Hospital Society has made a formal request for engineer advice from the municipality in connection with a proposed road to be built past the nurses' home towards the east side of the hospital property.

SAFETY POSTER CAMPAIGN STARTS

Pupils in Summerland elementary and high schools have been offered an opportunity to enter a Safety Poster Contest with pupils of Penticton and Oliver, sponsored by the United Commercial Travelers of America.

Carl Pederson, Penticton, chairman of the Okanagan council of UCT completed arrangements for this contest here on Feb. 23.

This section will be part of an international contest which has been conducted by the order for some years in Canada and the United States. Attractive cash prizes are to be awarded by the local, grand and supreme councils.

Each poster will first be sent to Vancouver in May for competition with entries from Oregon and Washington, besides B.C. points, and then to the supreme council sessions at St. Louis for the international contest.

"Such competition stimulates interest in the practice of safety not only in the school population but also in the adults of the community," Mr. Pederson explains.

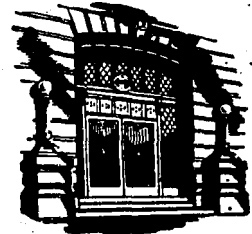

Gain Right-of-Way Through Orchard for Electric Pole Line

Formal permission was granted the municipal council recently by letter from W. A. (Bud) Stewart, on behalf of the Stewart estate, for the establishment of a right-of-way for a municipal electric pole line through his orchard on the south side of Granville street.

This line will be built through the orchard and down the lane which parallels Granville street on the south, thus eliminating poles on Granville street and providing a better service for industrial plants on that side of Granville street, and along Hastings to the B.C. Fruit Shippers.

A survey will be arranged for the orchard property so that the line will be built alongside any prospective lane which would be built if the Stewart property is ever subdivided.

A YEAR OF ACHIEVEMENT

The year 1948 was the greatest in the fifty-seven year history of the Great-West Life. Among the achievements of the year are recorded:

\$198 millions of new protection placed on the lives of more than 39,000 people in Canada and the United States.

\$22 millions paid to living policyholders and beneficiaries . . . \$25 millions credited to them for future benefits.

These figures illustrate, in part, the expansion of the Company's services in 1948.

	1948	1947
Business in Force . . .	\$1,346,000,000	\$1,207,000,000
New Business	198,000,000	195,000,000
Assets	331,000,000	304,000,000

A FUTURE TO SHARE

Great-West Life insurance is an investment in a more secure future. The Company and its 388,000 policyholders will share this future together. By entrusting their savings to the Great-West Life, these prudent people free themselves from worry about one important factor in the future. They know that their funds will be safely invested; they know that these all-important dollars will be ready when needed.

This partnership between the Great-West Life and its policyholders will endure for many, many years. In the distant future, the miracle of life insurance will continue to bring happiness and security to them and their families through the Great-West Life, the trustee of their plans for the future.

REVIEW OF SPORTS

Summerland School Skiers Capture Many Valley Awards

Summerland captured the bulk of the awards at the first annual inter-high school ski tournament ever held in the Okanagan at the Summerland ski hill in Meadow Valley last Saturday. However, Kelowna, Penticton and Oliver skiers featured prominently in many events.

In the senior boys' events, Wally Day won both major contests, downhill and slalom, while Ruth Klux, Summerland, and Jane Corbitt, Penticton, divided honors in the two girls' events.

Ralph dePfyffer of Kelowna captured the two junior boys' contests.

The first event of the day was the girls' downhill, which Ruth Klux captured in the fast time of 38 4/5 seconds. She was followed closely by Mary Ward, also of Summerland and Jane Corbitt of Penticton.

Junior boys' downhill was taken by Ralph dePfyffer, of Kelowna, with little effort. His time was 35 1/5 seconds, fastest of the day. Daryl Wilkins of Oliver was second, followed closely by Barry Wilson, of Summerland.

First five places in the senior boys' downhill went to Summerland contenders, Wally Day repeating his previous victories by easily taking this event. Ron MacRae was second and Bob Weitzel third.

In the morning, the snow was well jiced and the hill fast but as the sun grew warmer the snow turned slushy and it was impossible to make good time on the slalom runs.

Jane Corbitt was an easy winner in the girls' slalom, her combined time being 1:48 3/5. Ruth Klux and Mary Ward placing second and third to the Penticton lass.

Ralph dePfyffer scored his second victory of the day in the junior boys' slalom, but it was a battle to defeat Daryl Wilkins of Oliver. Ralph won by two-fifths of a second, while Barry Wilson was only one-fifth second behind Wilkins to place third.

Winning time in the senior boys' slalom was 2:00 1/5 and Day came through with another win, Francis Gould and Ron MacRae, both Summerland high contenders, were second and third.

Only casualty of the day was Ross Tingley, who broke a bone in his ankle in the downhill race.

Combined Titles
After the meet, a banquet was held at the high school for the skiers. Here the prize ribbons were awarded.

Combined honors went to Ralph dePfyffer in the junior boys' class and Wally Day, of course, captured the senior boys' combined. Ruth Klux captured the girls' combined award.

It is hoped that this will be the first of many annual tournaments held between the Okanagan schools.

MERCHANTS' BOWLING LEAGUE

Standing as at February 22:

Butchereria	20
Bank of Montreal	18
Frozen Food Lockers	15
Grocereria	15

Tremblers (4th game)	8

Ladies' high single, Rhoda Ritchie, 255; ladies' high three, Rhoda Ritchie, 660.
Men's high single, Don Clarke, 291; men's high three, Don Clarke, 701.
High single game, S.H.S., 1086; high three games, S.H.S., 2681.
Owing to an error the Bowladrome team, was omitted 3 points in Feb. 18 standings. It has been added to this weeks play.

B's Blasted by Kelowna Dynamo Crew by 96-48

Summerland Intermediate B's were blasted from the interior cage playoff race last Friday night at the Kelowna Scout hall when they fell prey to the Kelowna Industrial Electric Dynamos.

Summerland boys only had a seven-point deficit from the first game here, but the Dynamos turned on the heat with a rush and blasted Summerland to a 96-48 defeat.

Kelowna won the series round 147-92 and the Dynamos now go on to meet the winner of the Kamloops-Rutland series. Rutland has an edge over the mainline boys from the first game at Kamloops.

Bill Kane and Pudge Marshall led the terrific Dynamo attack, scoring 28 and 20 points respectively, as much as the entire Summerland team combined.

Denny Hack was the only Summerland player who could get into double figures, he leading the hapless losers with 13 counters.

The individual scores were:
Summerland: Day 8, Kato 4, MacRae 8, Hack 13, Cristante 4, Thornthwaite 2, Nesbitt, Jomori 8, Weitzel 1-48.

Kelowna: Giordano 6, Kane 28, Ryder 2, Hill 6, Bennett 2, Ritchie, Marshall, 20, Anderson 12, Weddell 18, Williams 2-96.

Speed Skating Carnival Plan For High Schools

On Saturday, March 12, high school students in the Okanagan Valley will gather at the Kelowna Memorial arena for the first valley-wide speed skating relay carnival, Jim Panton, provincial recreation director for the Okanagan, announces from Kelowna.

Straight races will cover distances of 440 and 880 yards and one mile. Two circuits of the arena constitute 220 yards.

Two relay races will feature four and eight-man teams, the former racing over the 880 yards and

SANDY JOMORI LEADS B'S TO CLEAR-CUT WIN

The same teams which played to a 44-all tie met again on the basketball floor at Penticton last week but the result was quite different. Summerland Int. B lads left no doubt as to the superior team when Penticton juniors were humbled by a 58-28 count.

Sandy Jomori was red hot against the Penticton team and whipped in 20 points to lead the scoring parade. Betts was the only Penticton player who could find the hoop with any regularity.

Don Cristante ran foul of the Penticton arbiter, Bill Bennest, and was banished on a disqualifying foul in the final period.

Teams were:
Summerland Int. B: Day 10, MacRae 14, Weitzel, Jomori 20, Kato 6, Cristante 6, Nesbitt 2, Thornthwaite-58.

Penticton Juniors: Tidball 1, Boulbee 2, Jeffrey 4, Ball 4, O'Connell 3, Betts 14-28.

SKIERS TRY NIGHT RUNS UNDER LIGHTS

First attempt in the Okanagan of skiing under lights at night was made by the Summerland Ski Club last evening, when Kelowna and local skiers combined to test the hill. It had been planned to have night skiing at the zone tourney but the equipment could not be obtained in time.

one mile courses, with the eight-man teams doing one and two mile events.

Also on the program are shuttle races over 220, 440 and 880 yards and finally there will be a medley relay with a team from each school racing distances of 220 to 880 yards.

Besides the competitions, valley schools are being urged to stage fifteen-minute acts or stunts. In the evening, a hockey game will be a feature, Mr. Panton states.

All entries must be handed to Mr. Panton by March 9 and he states that as this carnival is in the nature of an experiment no trophies or prizes will be awarded.

Lights Come Down At Hockey Rink As Season Ends

Last Friday saw the finish of ice hockey in Summerland but Manager George Stoll is still endeavoring to keep the game alive by planning games at the Memorial Ice Arena in Kelowna.

Lights at the hockey rink were taken down on Friday morning by Caretaker John Graham, marking the finish of a longer season than has been enjoyed by the puck enthusiasts for many years.

Charlie Wharton's skating rink was closed down for the season early last week.

Tomorrow evening the Summerland Hockey Assn. will hold a season windup meeting to review the past season and make plans for the future. New boards are badly needed at the rink, and an attempt will be made to finance this project.

SCOUT NEWS

Last Friday saw the conclusion of the instruction for Ambulance Man's badge under Dr. Vanderburgh. The following boys qualified: G. Pohlmann, V. Smith, L. Bingham, Glen and Gordon Youngusband, R. Towgood, R. Tingley and D. Blacklock. Instruction on the next King's Scout badge, "Pathfinders" starts Friday under Mr. Feltham. A new recruit, Will Woodward was welcomed to the troop.
 Notices: Meeting Friday, March 4 School gym. Duty patrol, Beavers. There will be a speaker to deal with bird life as part of Naturalists badge. —D. V. Fisher.

Okanagan Men on Farm Broadcasts

The CBC farm broadcast at noon time has carried a number of interviews with Okanagan agricultural experts and producers during the past couple of weeks and intends to feature others this month.
 Tom Leach, commentator on the farm broadcast, recorded some of these while attending the BCFGA convention in Penticton.
 On Feb. 17, C. R. Haker of Peachland was interviewed on the latest developments in spray materials and spray equipment.
 Dr. J. C. Wilcox, of the Summerland experimental station staff,

was heard on the February 24 broadcast and will be heard again at noon today. His talks were on irrigation practices and cover crops.
 Next Thursday, March 10, F. E. Atkinson, chief of the by-products laboratory at the Summerland station will discuss canneries.

John Hall, Creston orchardist, and well-known in BCFGA circles, was also heard over the broadcast last month.

GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA DEPARTMENT OF PUBLIC WORKS

PUBLIC NOTICE

The undersigned being a person authorized by the Minister of Public Works in writing to exercise the powers vested in the said Minister under Part 2 of the "Highway Act", and being of the opinion that the Highways are liable to damage through extraordinary traffic makes the following Regulations pursuant to Section 35 of the said Act:

The following load and speed limitations are imposed from twelve o'clock midnight, February 23, 1949 until further notice on all Highways within Area No. 1, of the Similkameen Electoral District.

Trucks with Pneumatic tires: Payload—(i.e. load carried) not to exceed 50% of the license carrying capacity.
 Dated at Penticton, B.C., this February 23rd, 1949.
 A. R. Colby, Asst. District Engineer.

How Will You Use Your Compulsory Savings Refund?

When you receive the cheque for your refundable taxes, why not look on it as something more than just a pleasant windfall?

This is money saved long ago, money which thoughtful folk plan to add to their other savings. They realize that frittering it away would be a backward step in their struggle for the things they want most.

Join these progressive people by depositing your cheque in your Bank of Montreal savings account. If you haven't started a B of M account yet, James Muirhead, local branch manager, invites you to do so today, so that it will be ready to receive that refund cheque. Advt

Trout Creek Residents Tell Carson \$1,100 Ready For Creek Control Work

Trout Creek Flood Control Committee, which comprises residents of the Trout Creek area, are wiring to Hon. E. C. Carson today to inform the public works department that the committee is prepared to put up \$1,100 from their own pockets towards flood control work on Trout Creek.

Although the survey of Trout Creek was made a month ago, no intimation that the government would speed up the joint arrangement for control had been received here until yesterday when Hon. Mr. Carson replied to a wire the committee had sent to Hon. E. T. Kenney, minister of lands.

Mr. Carson's wire was as follows: "Arrangements being made following study recent survey to do necessary work. Our understanding this to be on a joint basis. Could you advise firm decision this matter from your committee?"

R. T. Rose of Vancouver to Speak Tonight

Reg T. Rose, executive secretary of the Vancouver Board of Trade, will be guest speaker this evening at the annual Summerland Board of Trade banquet in Ellison hall. It is anticipated that more than 200 persons will be in attendance. Mr. Rose arrived in Summerland today and is being conducted throughout the district.

Another highlight of the annual banquet tonight will be the presentation of the Good Citizen cup to a resident picked for this honor by the 1948 executive of the Summerland Board of Trade.

Reeve Reid A. Johnston was the donor of this cup first presented in 1938. Alf McLachlan was the winner in 1948.

Three honorary life memberships in the Summerland Board of Trade are also to be presented, while another function will be the presentation of Red Cross badges of service to Red Cross officials here who have had five years or more service in the society.

Kay Hamilton's Summerland's Girls Choir will provide the highlight in entertainment.

Mr. F. W. Schumann, 1948 president of the board, will preside at tonight's function, with Reeve R. A. Johnston expressing a welcome to visitors on behalf of the municipality of Summerland.

Council Runs to Cover When Road Costs Tabled

Roads Engineer Don Wright submitted an estimate of \$30,591 to the municipal council on Tuesday for 1949 roads department expenditure, including \$13,000 black-top work which, presumably, would come from the balance of bylaw funds raised last year.

Councillor C. E. Bentley, roads department chairman, declared he had had no opportunity to discuss the estimates with Engineer Wright.

The council started to go into the figures and learned that \$6,000 had been set aside as wages, but at this juncture Reeve R. A. Johnston terminated the discussion with the suggestion the estimates be considered at a committee meeting.

There was general concurrence and no further facts were revealed for public knowledge.

Earlier, Councillor Bentley suggested another \$1,000 be allocated to continue blowing rock corners on the Garnet Valley road, a similar amount having been expended for this work in 1948.

Red Cross Canvassers Circulate As Drive Enters its Second Week

Canvassers are commencing to circulate throughout their districts as the Red Cross national campaign for funds gets into its full stride.

Every section of the municipality has been covered now, Mr. Jack Dunsdon, campaign chairman, states.

Besides those mentioned in last week's Review, A. E. Gardner has taken over the Paradise Flat-Peach Valley section, and Mrs. E. L. Farnoch is the canvasser for the hospital hill. Other canvassers in Trout Creek are Mrs. W. Woodbridge and Zella Johnston.

Few returns have been received by Mr. Dunsdon to date, although some individual subscriptions have been turned in to him at A. K. Elliott's Department Store.

Opposition leaders George Drew, Progressive Conservatives, and M. J. Coldwell, Cooperative Commonwealth Federation, united this week in calling for unanimous and generous support from the Canadian people for the \$5,000,000 national Red Cross appeal.

"The Canadian Red Cross is one of those great humanitarian agencies which provides assistance and

Mr. Magnus Tait, chairman of the Trout Creek Committee, informed the Review this morning that the committee, after a meeting last night, decided to wire a reply to Hon. Mr. Carson, declaring the residents' intention of putting up \$1,100.

It is believed that the survey undertaken in February has consisted of marking a straight and much-improved channel for Trout Creek.

Reeve Reid Johnston told The Review this morning that the council had not made any decision regarding the amount of money it is willing to set aside for this work, but the council has committed itself to assist financially.

When informed of Mr. Carson's telegram, Reeve Johnston declared that he would call a meeting of his council at once to consider what financial assistance the municipality can make.

Mr. Tait also understands that the Dominion government is prepared to assist in Trout Creek control, which would place the proposition on a four-way basis.

At Tuesday's council meeting, Councillor Eric M. Tait queried if any information had been obtained regarding the flood control undertaking.

Reeve Johnston declared that he had had luncheon with a public works official who had assured him that action would be taken soon on Trout Creek, as well as Mission Creek in the Kelowna area.

It was decided to write R. D. Browne-Clayton, M.L.A. for South Okanagan, pointing out that Trout Creek residents want action as the water is starting to rise already.

Some landowners in that area, despairing of government action, had suggested the hiring of equipment on their own to commence the flood control work. However, without any knowledge of the survey plottings, this would mean money thrown away, it was pointed out to them.

Co-op Cheques Total \$40,000

Last Friday, the Summerland Co-operative Growers' Assn. sent out cheques to its shipping members totalling \$40,000, in another of its series of grower payments. This payment consisted of finials on cherries and crabapples and advances on Newtowns, Winesaps, Wageners and sundry varieties.

Kamloops Expects Liberal Chieftain

KAMLOOPS — Liberal circles here are suggesting that Rt. Hon. Louis St. Laurent may stop off in Kamloops towards the end of this month or early in April during the course of a visit to the west coast. He is scheduled to be in Victoria March 28 to address a Liberal nominating convention. If he does come to Kamloops, the nominating convention of the Kamloops Liberal Assn. will probably be held to coincide with his visit.

Building Permits Still Way Down

Only half as many permits as one-third the value were issued in January and February of this year compared with 1948. Building Inspector Roy P. Angus reveals. The cold winter froze building activity to such an extent that only six permits were issued in the two months, four of them in February.

Value of the February permits was only \$2,650, bringing the total at the end of the month to \$3,080. In 1948, by the end of February, 13 permits valued at \$10,205 had been issued.

One dwelling permit was taken out last month with a building valuation of \$2,000. The other permits were for alterations and additions.

Babe Lander Sales Head

Mr. J. E. "Babe" Lander has been offered and has accepted the position of sales manager for B.C. Tree Fruits Ltd., a position which Mr. Dave McNair is relinquishing in June. The Review was informed in a mailed despatch which reached here at noon today.

Mr. Lander is well-known in the Okanagan and is familiar with conditions here, having been in close contact with B.C. Tree Fruits Ltd. for many years.

During the last war, he served as assistant to E. J. Chambers, administrator, fruit and vegetable division, at Ottawa and then was transferred to Toronto in the position of general manager of the Wartime Food Corporation, which was chiefly concerned with the regulation of fruit and vegetable supplies during the war.

Becomes Field Marshal

Sir William Slim

Gen. Sir William Slim, chief of the Imperial General Staff, recently was promoted to Field Marshal.

He thus completed, at the age of 57, his rise from private to the highest rank in the British Army.

Joint Action by Trade Boards Seeks Ferry For Trucks, Buses

Two main resolutions emanated from a joint session of boards of trade of the Okanagan at Westbank on Monday evening, designed to urge the provincial government to speed up service across Okanagan lake from the west side ferry landing to Kelowna.

This was the second of two joint sessions held in the past week and called primarily on the government to institute a new ferry to handle trucks and buses only by the time the Hope-Princeton highway is opened.

This resolution was submitted to all trade boards and delegates from Kelowna, Naramata, Westbank and Summerland endorsed the move on Monday. Penticton and Peachland were not represented.

Council Agrees On 440-Volt Cost to Co-op

Cost to the Summerland Co-operative Growers' Assn. for the installation of 440-volt power service to the new cold storage building will be \$4,203, the council agreed on Tuesday.

This cost will include three 100 kva transformers and an underground cable crossing the provincial highway, the municipality providing the service to a vault built by the co-op inside the building.

The fruit packing concern will be rebated this cost if an equivalent amount of electrical energy is used over five years.

Electrical Foreman T. P. Thornber declared he had understood the vault had not passed specifications of the electrical inspection department, but Councillor Eric Tait, who is also co-op president, declared that alterations in plans had been made to conform to the regulations.

Mr. Thornber also proposed some changes in service installation which had been recommended to him after a meeting between co-op officials and council members, but Councillor Atkinson brought the discussion to a head when he pointed out the council had been committed to a deal and should not be "changing and chopping around."

The council agreed to supply the 440-volt service at the stated cost of \$4,203.

Building Permits Still Way Down

Only half as many permits as one-third the value were issued in January and February of this year compared with 1948. Building Inspector Roy P. Angus reveals. The cold winter froze building activity to such an extent that only six permits were issued in the two months, four of them in February.

Value of the February permits was only \$2,650, bringing the total at the end of the month to \$3,080. In 1948, by the end of February, 13 permits valued at \$10,205 had been issued.

One dwelling permit was taken out last month with a building valuation of \$2,000. The other permits were for alterations and additions.

Start Road Work South This Year; No High Road Improvement Until 1951

Although there will be an expenditure of \$200,000 to improve Okanagan highway from Penticton to Trout Creek in 1949, there is no other major expenditure allocated in the report of Hon. E. C. Carson, minister of public works, for the completion of the west-side highway from Peachland south to Trout Creek in the next two years. By 1951, however, \$400,000 will have been expended in major works program to improve this stretch.

According to the address of Hon. Mr. Carson in the legislature last week, the entire Okanagan highway will be completed by 1951, apart from paving.

It had been hoped that work would be commenced this year to straighten and widen the Peachland-Summerland high road but there is no allocation in South Okanagan electoral district for major works program this year.

In 1950, \$200,000 will be expended in the Woods lake section of the Kelowna-Vernon highway, which is split between North and South Okanagan. In 1951, double that amount will be spent between Peachland and Penticton in South Okanagan Similkameen ridings.

There is no provision in Mr. Carson's speech for the completion of the Trout Creek bridge, but it is understood that this money has been allocated for some time and is not up for consideration in the public works budget now.

Major works expenditures amount to \$10,000,000 in each of the next three years. New bridges expected to be erected in 1949 amount to \$4,035,000, while public buildings will take up another five million dollars. Paving costs run to four million.

The public works department is planning to expend another million dollars on major highway equipment, besides the large orders already placed and not delivered.

Only ten major bridges were built last year, due to shortage of steel. Thirty-seven major bridge undertakings will be embarked upon. Culverts and fills will replace eighty old bridges.

In the program of public buildings, a new TB hospital is to be built, two new units for Essondale and other office buildings.

In accordance with the Goldenberg report on provincial-municipal relations, classification of highways is to be extended to all cities under 15,000 and special assistance given to cities of 15,000 and over.

There is also planned an extensive reclassification of arterial routes, and the program of safety signs is to be accelerated.

Last year, 283 miles of paving was completed and 375 miles are contemplated for 1949.

Highway construction commenced after the war, 599 miles of construction and reconstruction has been undertaken, of which 451 miles or 75 percent has been completed.

It is officially announced that the Hope-Princeton highway, a twelve million dollar project, will be opened on Labor Day, Sept. 5.

Modernizing of the southern-transprovincial from Osoyoos east is another major undertaking. Anarchist Mt. is to be reconstructed, there will be a two-mile revision east of Grand Forks and another at South Slooan. A new highway is being contemplated westerly from Creston to Wynndel and construction easterly of Creston.

It is hoped that construction will be completed between Rossland and Patterson and the Nelson-Nelway highway will be continued.

New Road Construction In the north, the existing road between Vernon and Armstrong and a section through Enderby are to be reconstructed.

Reconstruction of the Kamloops-Vernon highway will be continued. In considering paving, Mr. Carson declared 7 1/2 miles east of Hope to Princeton will be hard-surfaced. To the east, 10 miles from Grand Forks west, and eleven miles from Rock Creek east is to be completed.

Only paving in the Okanagan in the present program is from Armstrong to Enderby, a distance of nine miles.

New bridge construction in the Okanagan includes Mission Creek bridge out of Kelowna at a cost of \$50,000, a bridge at

Continued on Page 4

Yale Grits Gather at Orchard City

Likelihood that any compromise between Liberals and Progressive Conservatives in the naming of a candidate for Yale riding in the next federal election seems fairly remote at the present time.

Attempts of Penticton Grits to postpone the nominating convention called for next Monday, March 14, in Kelowna have failed to date.

However, Penticton is believed to still be strong for the calling of a convention at all possible dates, even though a candidate is chosen by the Monday meeting.

Summerland Liberals are holding their meeting this Saturday evening at the Nu-Way Annex to select delegates to the Monday convention. Officers for Summerland Liberal Assn. will also be chosen.

It is expected that Summerland Liberals will follow Penticton's lead and press for a joint convention to select one candidate to represent the "free enterprise parties" against the CCF candidate.

No move has been made by the CCF to select a candidate but it is considered a foregone conclusion that O. L. Jones, present MP for Yale will be the unanimous choice of the party but nomination will probably await Mr. Jones' return from Ottawa after this sitting of parliament prorogues.

Strong Candidate? Last weekend, Bob Hayman, president of the Kelowna Liberal Assn. declared that his district has a strong candidate in mind for the Liberal ticket.

There are also rumors from the Vernon area that J. Howard Thornton, president of Yale Liberal Assn. would be willing to toss his hat into the ring.

However, the situation is very much "up in the air" at present and no word has emanated from the P-C camp since Mayor T. R. E. Adams was selected as Tory candidate for Yale about any attempts on the part of that party to meet the Liberals.

Summerland, on the basis of one delegate for every 200 voters, can send 10 to 11 delegates to the convention in Kelowna on March 14.

Plan to Abandon West Summerland Fire District Okayed by Council

Arising out of a request for the municipality to absorb some of the cost of fire brigade practices, a big step forward has now been taken towards the abolition of the West Summerland fire district and the regrouping of the whole municipality into one area covered by the fire brigade.

J. R. Campbell and W. J. Bentley approached the council on Tuesday with a request for assistance in paying for brigade practices.

Council was agreed it should pay a share but then launched into a full-fledged debate on doing away with the fire district and putting the entire municipality under the one brigade.

As a consequence, the West Summerland Volunteer Fire Protection Society, which operates the fire district, has called an extraordinary meeting to

discuss the subject at the Nu-Way Annex on Friday, March 25.

Every councillor spoke in favor of the operation of a municipal fire brigade, but Councillor F. E. Atkinson pointed out that it would be necessary for a group such as the present volunteer society to continue to assist in administering the fire brigade.

Reeve Johnston urged the fire society to call a meeting and discuss the abandonment of the West Summerland district. Then, if the ratepayers in that section are agreeable, the council can proceed to establish a municipal fire brigade over the whole municipality.

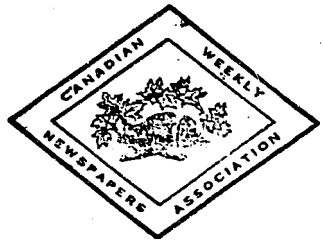

Procedure which must be followed for disbandment of the district is to be ascertained from Victoria in time for the March 25 meeting.

Fast Ticket Sale For Comedy Drama

Tickets for the Singers' and Players' production of the humorous comedy-drama, "I Remember Mama," by John van Druten are selling well, and the plan at Green's Drug Store is rapidly filling with X's. The rehearsals have been going on for some months now, and rehearsals every evening this week are adding the final touches to the play, which is anticipated with a great deal of pleasure.

The show is on March 17, at Ellison hall, under the guidance of Director Lacey Fisher.

An Interior Championship

IT IS not often that a Summerland team can climb the ladder of success to reach an interior final, but such is the case this week. The intermediate A basketball club, playing in the under 21 class, is meeting Kamloops this Saturday at the school gym in the first of a home and home, total-points, series for the interior championship.

Time was when the school gym was packed to the rafters to see these lads perform on the hardwood floor, but those days passed by some time ago. Only a handful of sports lovers, generally relatives

of the players, have given any encouragement to the boys this winter or for the past three years.

However, sports-minded residents have an opportunity this Saturday to make amends to the lads who have been struggling to keep the cage sport alive here. They can show encouragement to their home-town representatives in this sport by turning out and cheering them to victory against the Kamloops Red Devils, a strong and well-publicized basketball team from the main line.

No Time To Lose

TIME'S a-wasting. Yes, and those who live in the vicinity of Trout Creek watershed are becoming more anxious by the hour, and with good reason.

Nearly a month has elapsed now since the survey of Trout Creek was completed. It was stated by the survey party that within three days the channel could be plotted, and consideration could then be given to the division of costs so that Trout Creek could be made as safe as possible in spring flood-time.

But a month has passed by and there is still no word of any government action. If the municipality and Trout Creek residents are to be saved countless expense and loss of property from flood

damage this spring, no time should be lost in arriving at an agreement and the work commenced.

The Trout Creek area has signified time and again that it is willing to stand its share of the expense. The municipality has adopted the same attitude. The government has stated that it will do its part, but apart from the surveying of the creek the public works department has disappeared from sight as far as this project is concerned.

There is no use in trying to prevent a creek flood in May. This month and next are the times when action must be taken.

The government promised this district a deal. Let the government come forward at once and propose the agreement. Let's get on with the job.

Signifying Nothing

By **RUSTICUS**

This is the witching time of year when all good Summerlanders wonder who is going to get the good citizenship cup at the annual Board of Trade banquet. It is one of the bigger events of the year; and this columnist has always felt that Summerland is unusually fortunate, both in having such a large number of public-spirited citizens, and in the wise choices which the Board of Trade has always made.

Not all communities are so fortunate. In fact, this Good Citizen business always reminds me of a small town where I lived for a while in the far-off days of my youth and beauty.

In that community was a certain middle-aged couple — both short, fat, and very bustling—who rejoiced in the first names of Thomas and Geraldine. I won't reveal their surname, though the lady was of that stiff, formal species who rarely gets called anything else; behind their backs everybody referred to them as "Tom 'n Jerry."

They had a finger in every pie in town. Tom was in every organization for men, Jerry, in every club for women; she seemed to be either secretary or treasurer of most of them. Mixed clubs they both belonged to, and in every one took a prominent part. This included all religious and benevolent organizations; in fact, they took the lead in these too.

If any person in the community, in those harder times than these, was found to be in want, Tom or Jerry would be first to suggest hampers or subscriptions. In addition, they made a point of hiring women from these distressed families to do a bit of scrubbing or housework, and men to do gardening and odd jobs, to "help them out."

Only a few of us knew that they always exacted, from these poor people, far more work for less wages than they would get anywhere else. They never made any charitable donation that wasn't publicized; they never helped a neighbor with work, or with the loan of anything. And when a hard-up customer fell behind with his bills at Tom's store, he and Jerry, fairly hounded them to death.

Most people, however, going by surface appearances, considered them fine, kindly citizens, leaders of the community. And when at a big community rally, some fellow got up and suggested that the district choose an annual Good Citizen, I whispered to my nearest neighbor, "Bet Tom and Jerry'll get it."

"Yeah. Also, see if one of them doesn't get up and name some other person who'd be quite unsuitable, just to attract attention."

Sure enough, Tom popped up to his feet, but his suggestion was even worse than we expected; he proposed that we choose a Good Citizenship couple! Which, of course, pretty well eliminated all competition at a stroke. And of course, one of those well-meaning innocents found in every meeting immediately got up to prettily nominate Tom 'n Jerry.

There was another couple in

that town, a semi-retired farmer and his wife, who really went about doing good. They didn't publicize their donations, so nobody knew how many store bills old Bill had paid off for unfortunate neighbors, but they were not a few. Anyone in trouble invariably went to him; he was one of those level-headed men who can unravel a legal tangle or repair a stalled engine with equal skill, and he never refused to give his time or lend his tools or equipment.

His wife and he gave away more home cooking, garden stuff, and farm meat than they ever ate themselves. Their home was a mecca for kids of all ages; kids that shied away from Tom 'n Jerry's superficial smiles as if they had the evil eye.

But old Bill and his wife were quiet, unassuming folk who never talked about what they did, and were rarely prominent in any or-

ganization. Only a few close friends, and those whom they had helped, knew what they really were.

One of the latter promptly nominated them for the Good Citizenship couple, all right. But it was a very large assembly, with a great many people there who knew little of either couple mentioned. When old Tom jumped to his feet again to speak in favor of Bill and his wife—with a very obvious generosity and good fellowship—you could see the whole meeting swing mutteringly in his own favor.

So we had to hurry in a motion to have a committee appointed to take charge of the whole business. Then it was hoisted to a later meeting, and a later one still, and finally forgotten. We never did get a Good Citizenship award in that community; and I know Tom 'n Jerry were horribly disappointed.

The Giant of Giant's Head

By B. A. T.

XXIII—The Carving of the Head
With stony visage gazing south
The Valley he looks down;
If we do right, his smile is bright.
If wrong, he wears a frown.

On a mountain in Ceylon there is a footprint in the rock made, so it is said, by Adam himself. Authentic teeth of Buddha are so numerous throughout the Far East that that gentleman must have grown a new set every week. And on the southern face of Giant's Head Mountain is the profile of the King of Giants. About Adam and Buddha, the writer knows little but, concerning the Giant, full information is available, so here is the story.

One morning after an all-night session at the bridge table, our Giant was not feeling his usual happy and vigorous self. He was inclined to be gloomy and introspective.

"In a few hundred years," he mused, "I will depart this life and some lesser giant will occupy my throne. I should leave some memorial of myself to inspire the generations of the future. Something to spur kings and commoners alike to follow my shining example. I have it! I will carve my likeness on my mountain. Then for all time my people will point to it and say reverently, 'There is the Giant of Giant's Head—the

PENNY WISE

Didja ever cut a grapefruit in two, loosen each segment separately, cover lightly with brown sugar, pop into a hot oven briefly, and offer that to your family for dessert? Well, try it.

And if you run into a small squash or two, cut them in half and fill with minced round beef into which you've put chopped onion, marjoram, maybe a speck of mushroom, a and p., and bake the whole business.

greatest king the world will ever see."

Wearied by this deep thinking, the Giant went back to sleep.

But, in the months that followed, the Giant did not forget his ambition to perpetuate his head in rock. Every time he admired his reflection in a pool, his conscience bothered him for neglecting this important duty. Conscience was still good form in giant days.

There were no great sculptors in the land but the Giant, who excelled at everything, was proficient to do the carving. But how to maintain himself on the sheer face of the cliff was a problem that troubled even his great mind.

To suspend his body from above while he worked would be a difficult operation. To stand on points of rock and give his full attention to the task would be impossible. For he might be carried away by his enthusiasm and step off into space. Then he would be finished but the Head—never.

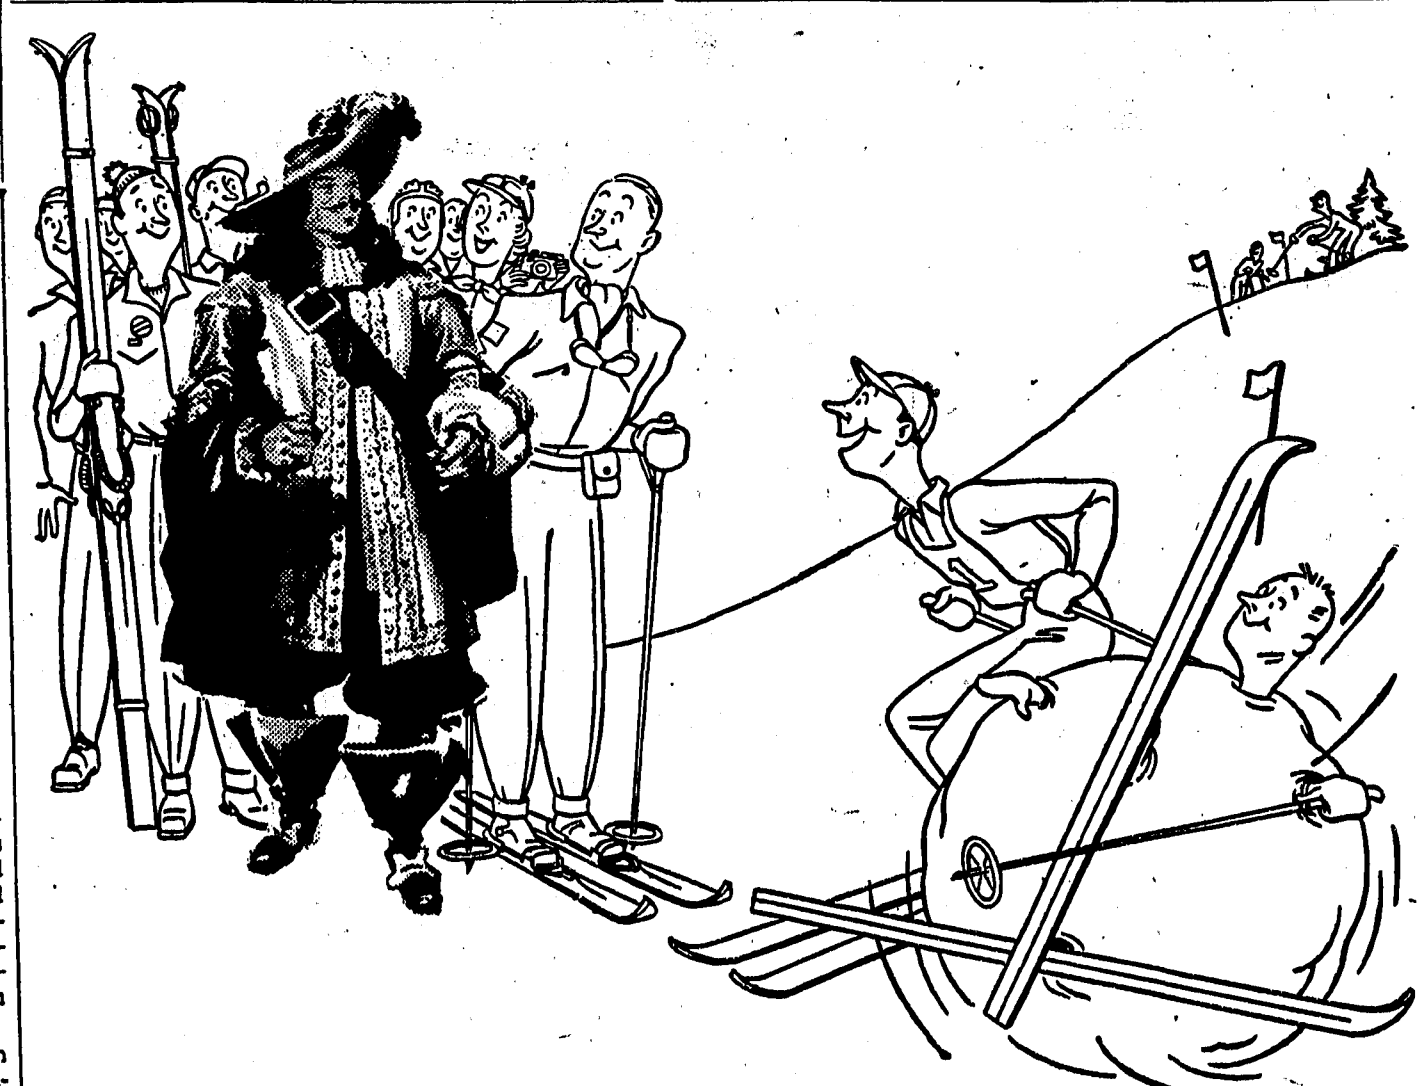

There was only one thing to do. He must ask the Fairy Queen for aid.

Immediately two fairies were sent up from Okanagan Falls to assist the Giant in his noble purpose. They built invisible scaffolds all around the jutting rock, exactly the right distances apart, so the Giant could work without fear of falling. (The scaffolds are there to this day—still invisible.)

Then for many months the Giant chipped away at the rock, shaping the Head that has delighted the eyes of beauty lovers ever since. The Giant's wife would come up the mountain and watch him at work. Finally, she decided that she would have her head carved too.

But the Giant would not agree to this. Kate was all right in her place but for his Head to have to gaze at her head through untold centuries was expediting too much.

So Kate was told that no sculptor on earth could do justice to

"Captain Morgan's in town!"

Try Captain Morgan's recipe for bringing Old Fashioneds up to date... Add 1 dash of bitters to 1 lump of sugar. Then add 1 or 2 cubes of ice, a slice of lemon, 2 ounces of Captain Morgan Gold Label Rum and a splash of soda.

Captain Morgan GOLD LABEL RUM

The rich flavour and full body of Captain Morgan Gold Label Rum result from master blending of carefully selected rare old rums.

THIS ADVERTISEMENT IS NOT PUBLISHED OR DISPLAYED BY THE LIQUOR CONTROL BOARD OR BY THE GOVERNMENT OF BRITISH COLUMBIA.

her face and that seemed to satisfy her. But the Giant elaborated, "Besides I would hate to think of your dear face being exposed to the elements through the ages to come. The wintry winds would fade it, the summer sun would blister it and it would lose that bloom and freshness that is so much a part of you."

When the Head was finished, giants from nearby nations were invited to view the finished work and attend the dedication. There was feasting and speech-making and one orator well expressed the

sentiments of the whole assembly. These were his words:

"Let this be a symbol—a symbol that the head is more important than the feet. Develop your head and what is in it and your feet will have no trouble finding their proper path through life."

Son of Pioneer Here Dies in South

Word has been received here by Mrs. H. C. Whitaker of the death of Francis H. Van Hise at Monrovia, Cal., on Feb. 16, and also, that his mother predeceased him in December, 1948. He carried on a very successful business there in a highly specialized work. He is survived by his wife, who lives at Monrovia.

The late Mr. Van Hise was one of two sons of W. E. Van Hise, at one time a professor at a college in Nebraska, who, with his brother George, took up bench land over forty years ago on what is now the Peachland road. Part of the holding is now owned by Messrs. A. E. Traylor and N. Buddingh. It was originally staked out by Mr. J. E. MacDougald for Mr. Wm. Grieve, who sold it to Geo. Van Hise for \$25.

The Van Hises put in a windmill water pump, one of the first attempts made to pump water out of the lake for irrigation purposes. Mr. MacDougald remembers that the pump worked quite well, and

would have needed only a few changes to make it thoroughly successful. There was no road for many years, and the families used a boat to go to and from Summerland.

The pumping project and orchard attempts were abandoned after some years, and the brothers moved away in the early nineteen-twenties.

Flies from Calgary For Father's Funeral

Mr. Cyril Mossop flew from Calgary for the funeral of his father, Mr. Frank Mossop, held in the funeral chapel in Penticton on Thursday, March 3.

The service was conducted by Rev. R. P. Stobie of the United church, who spoke highly of Mr. Mossop's life and work in the communities where he had lived. Mrs. McNeil of Penticton, a member of Summerland Singers' and Players' club, sang a solo, "Peace, Perfect Peace."

Mrs. Atkinson, sister of the late Mr. Mossop, accompanied Cyril to Calgary next day. Interment was in Calgary.

Faulder Resident Passes at Revelstoke

Mr. Mike Fuoco died on Feb. 24 in Revelstoke hospital, and was buried in that city. The elderly man had been in poor health for some time, and just before going to Revelstoke had been a patient in Summerland hospital.

He is survived by his son, Jack, with whom he had been making his home at Faulder, who attended the funeral, and by another son and a daughter in Vancouver.

MOTHER OF LOCAL RESIDENT PASSES AT COAST CENTRE

The death occurred on Feb. 28 of Mrs. Margaret Jane Matheson, 6029 Cartier St., Vancouver, aged 90 years.

The late Mrs. Matheson was the widow of William Matheson of Pembroke, Ont. She is survived by six daughters, Mrs. William Torrance, North Vancouver; Mrs.

Capacity Audience Enjoys Concert, Hears of Naramata Leadership School

It was interesting to the capacity audience to hear something of the curriculum of the Naramata Leadership Training school at the concert given by them in the Odd-fellows' hall on Friday evening, March 4.

The very alert principal, Rev. R. A. McLaren, spoke briefly of this school, which was started as rather an experimental undertaking, and has exceeded the most hopeful expectations, and grown amazingly.

The official opening was last November, although it had been in existence some months previously. The property and building are worth \$75,000 now, and more applications are being received from prospective students.

The term is for six months. Students of varying ages and occupations come to take this concentrated course in religious leader-

ship. Some plan to go back as lay workers in their home church; others intend to make it a full-time occupation.

Plan Summer School
A residential school, it is a Ujited church project, drawing recruits from the three western provinces. There are thirty-one attending at present. It is planned to hold a summer school in July, with accommodation for many more, and another course will be given Aug. 2-16.

Mr. McLaren was appreciative of the gifts of fruit, etc., for the larder, given by the Summerland charge at a shower.

Introductory to the program, Kaz Iwassa, president of the student council, gave a strong address telling of the aims and ideals of the school.

The music on the program was particularly good, highlighted by the violin playing of Miss Jean Jefferson, a young girl whose home is in Vancouver. Choruses of comic songs and negro spirituals were splendid, showing careful training.

Amusing Skit
There was an amusing skit based on Scott's Lochinvar, with a narrator, the actors pantomiming and literally "horsing" around the stage. The play, "Lydia," would have been more effective had there not been so many short, abrupt scenes, which took away from the sequence.

An original poem recited by Arthur Brown had a surprise ending which startled the audience as much as it must have aroused the subject of the verses.

All presentations were spoken clearly, with excellent enunciation, presumably the result of good teaching.

There was a reading by Miss Connie McMechan, a pupil who comes from Enderby, and a solo in a sweet high soprano, by Miss Beverly Boyd, whose parents live at Kaleden. Miss Estelle MacDougald, daughter of Mrs. J. L. Brown, Summerland, also took part in the entertainment.

Following the concert, refreshments were served in St. Andrew's hall by the Sunday Evening Club, sponsoring group. Money raised is used to further school business, which may take them on a tour of Alberta in their bus later in the year.

David Kydd, Montreal; Mrs. R. C. Palmer, Summerland; Mrs. James Gordon, Miss Muriel and Miss Corinne Matheson, Vancouver; three sons, John E. in Merritt, B.C.; William L. and Allan G. in Kersley, B.C.

Rev. Dr. E. D. Braden conducted the funeral service on Thursday, March 3, in Nunn and Thomson's chapel, 10th Ave. and Cambie St. Interment was in Ocean View Burial Park.

Mrs. Ella Pohlmann is a patient in St. Joseph's hospital, Victoria, which she entered yesterday for a minor operation.

Your banker works
For You

AS a depositor or borrower, you value privacy in money matters. Your banker protects that privacy. Your banking transactions are not open to the eyes and ears of your competitor, your neighbor, your community.

In other words, the manager of your branch bank and his whole staff are working for you.

Contrast this Canadian way with conditions in lands where freedom is denied—where every bank is a political tool, every banker a public official working for the State! State monopoly of banking, proposed by Socialists here, would open your banking transactions to political intrusion.

Cadets Tramp Through Snow To Rescue Man

Five high school cadets tramped through knee-deep snow on Friday to bring out Norman Roddy from his Shingle Creek cabin to the Summerland hospital.

Constable Terry Thorsteinson and Jim May drove the rescue party as far as bulldozers had cleared the road. But from then on the Cadets had to wade along a rough trail, carrying their stretcher from cadet stores.

Snow was up to the lads' knees, while ice underneath the snow made travelling that much slower. The trip in, between two and three miles, took an hour.

On the trip out, the Cadets first tried to make a sleigh of the stretcher but this failed and the stretcher was then hoisted to the shoulders of two of the Cadets, in turn.

It was 11 o'clock when the rescue party left Summerland and they got the sick man to the hospital about three o'clock that afternoon. Roddy had a severe case of the flu and was threatened with

Purebred Collie Won by Local Boy

George Brake, of Summerland, is the proud possessor of a purebred Scottish collie as the result of a contest operated recently on the Early Bird program of CKOV, Kelowna.

The pup is one of four purebreds donated by Mrs. Frances Henderson, of Enderby, a member of the Canadian Kennel Club.

In this contest, boys and girls from country districts who live on farms and fruit ranches were invited to write letters stating why they would like one of these pups.

Besides George Brake, winners were Dixie Maxwell of Sorrento, Ronald Pearson of Vernon area, and Arlene Trewitt of Oyama.

Autographed Book For Gordon Blewett

On behalf of the local Scout troop and the local committee, S. W. Feltham recently presented to Mr. Gordon Blewett, former Scoutmaster, an autographed book on Birds of North America. The presentation was made at a weekly meeting of the Scout troop.

pneumonia, it is stated. The Cadets were Morris Bolton, Fred Kato, Jim Birtles, Lorne Logie and Murray Elliott.

MORE ABOUT START ROADS

Continued from Page 1

Osoyoos lake costing \$60,000 and another at Keagon Creek, costing \$15,000.

Maintenance appropriations for 1949-50 season include \$125,000 each for North and South Okanagan and \$110,000 for Similkameen.

From this summary, it would appear that the department is going to reconstruct the road from Trout Creek to Pentiction, which is in the Similkameen riding, this year along the present route.

With the possible definite control of Okanagan lake level in the future, it is expected that a permanent road can be laid along the lakeshore between these two points, probably raised from its present level and still allow sufficient drainage.

There is no sign, in this program, of any major bridge over Trout Creek at a higher level, so that any thought of moving the highway to the upper stretches seems to have been abandoned.

No Change Until 1951
Any change in the location of the road as it swings through Summerland municipality will not come before 1951, as there is no appropriation for any work between Trout Creek and Peachland before that time.

In 1949, on the southern trans-provincial highway the following amounts are allocated: Waterman Hill, Okanagan Falls, \$40,000; Osoyoos to 9-mile creek, \$500,000; Rock Creek hill, \$200,000; Midway-Greenwood, \$200,000; Grand Forks East, \$150,000; Trail-Nelson, \$100,000; Kuskanook-Creston, \$450,000; Creston-Goat River, \$200,000; Jaf-ray-Elko, \$450,000.

In 1950, there is allocated: Osoyoos-Rock Creek, \$700,000; Greenwood-Grand Forks, \$350,000; Cranbrook-Kingsgate, \$400,000.

The final year, the Victory highway, from Grand Forks to Patter-son through the United States is contemplated at \$1,200,000, plus other expenditures farther east.

In the Okanagan, in 1949 are the following: Vernon-Armstrong, \$500,000; Enderby, \$40,000; Pentiction-Trout Creek, \$200,000.

The 1950 allocation is Kelowna-Vernon, the Woods lake section, \$200,000. Finally, in 1951, Pentiction-Peachland, \$400,000.

Expenditures For Power Extension Costly Business

Three major extensions of electrical service by the municipality this year will involve nearly \$3,500 from electric light department revenues, the council was informed on Tuesday.

It has been planned for some time to run a power line through the Steuart orchard and along the lane paralleling Granville on the south. Using No. 2 wire would mean an expenditure of \$1,024 for this project, council was informed. To continue this power line down the lane west of Hastings street would cost another \$761.

Also, present Okanagan Telephone Co. lines would have to be moved to conform with this extension and this was estimated two years ago at \$500, as the municipality's share, on a fifty-fifty basis with the telephone concern.

Trout Creek Service
Approximately \$800 would be the estimated cost of extending service to Trout Creek in order to cope with the new arrangement when the West Kootenay high tension line is brought into West Summerland next June.

It was recommended that this extension should consist of three-phase No. 4 wire.

Cost of running three-phase wire up the rest of the Sandhill to connect with Giant's Head road will also be ascertained, but the council may not be able to complete this deal until 1950.

Electrical Foreman T. P. Thornber, in presenting these figures, pointed out that a few years ago Trout Creek consumption averaged about 3,000 kwh, whereas today the consumption has jumped to about 11,500 kwh.

Pioneers For 36 Years Move To Pentiction

Mr. and Mrs. J. H. Bowering are going to move to Pentiction. They have made an exchange of houses with J. Biollo of the Okanagan Telephone Co., who will come here to live, and the Bowerings will take over his house at Pentiction about the middle of April.

They will be missed in Summerland where they have lived for thirty-six years.

It was in March 1913 that the Bowerings came here from Red Willow, near Stettler, Alta., in which province Mr. Bowering had been in the ministry for a number of years until his health broke down. He was forced to give up the work for which he had been fitted at Brandon College, and the University of Manitoba.

On the same day in 1902, Mr. Bowering, Judge W. C. Kelley, K.C., and the late Archdeacon H. A. Solly graduated from the same university.

On coming here, Mr. Bowering was employed as an assistant by the late Mr. Jas. Ritchie, who was postmaster. He did the rural mail delivery part of the day, and worked in the post-office the other part. After four years Mr. Ritchie gave up the office, Mr. Bowering took over, and was postmaster at West Summerland for 28 years.

On coming here they built the stone house on Quinpoole St., now owned by Mrs. Carpenter, living there for about twenty-five years.

In 1939 the Bank of Commerce building was bought, an addition for an apartment put on, and that was their home until 2 1/2 years ago, when their new home was built on the Station road.

Lilacs Are Guardians Of Household Says Legend

It's March! Right outside the door the lilac buds are fat and green, and a few days of warm sun will bring them to the bursting point.

According to ancient legend, lilacs are the guardians of the household. At any rate all the early settlers of this continent thought a great deal of them. Lilac shoots were even brought over on the Mayflower.

Gradually, as the pioneers travelled farther and farther west, the lilac went along too, as cuttings from the bush were packed with household effects. Their presence dotting the countryside marks the path of the original settlers.

The lilac began its life in the Balkan mountains, where it grew wild. It migrated to other European countries, and thence to the United States and Canada. Another familiar lilac, syringa persica, came to us from China. We sometimes call it mock orange, and in a couple of months its fragrant prodigal bloom will be transforming the little valleys and hillsides.

Watch for two colors of this shrub growing along the Peach Orchard road, one a pale cream, and the other a lovely deep ecru.

Legion W.A. to Send Delegate to Annual Victoria Convention

The regular monthly meeting of the Legion WA was held in the Legion hall on Tuesday, March 8, with 25 members present.

Members heard that a donation is sent each month to Shaughnessy hospital as well as a CARE parcel to England.

Plans to send a delegate to the annual WA convention to be held in Victoria on May 8 were confirmed by the meeting, which also heard that the spring bazaar on May 28 is progressing favorably. Next event is a social evening at the Legion on March 15.

Mrs. A. Lamcraft won the monthly raffle, and following tea was served by Mrs. W. Milne.

Films of California Shown to Crowded Church on Saturday

On the Baptist church movie program Saturday night films of the Pasadena Rose show, taken by Mr. Blake Milne on New Year's Day, were shown. There was a wonderful variety of floats, all made of fresh flowers, some of them containing hundreds of thousands of fresh blooms. Most of them were beautiful, and some very imaginative, all showing a tremendous amount of work. The whole parade as shown in the films was fresh, bright and colorful, interspersed with many bands and their gay music.

Some pictures of the famous California snow were seen, and as Mr. Milne said: "The oranges looked embarrassed," with the white weight holding their branches down.

Other films were "The Life of Ruth", depicting the Bible story, done with restraint and beauty, and "Out of the Night" tracing a case history of a man who was helped by the Chicago Garden City mission of Billy Sunday fame.

The church was crowded. Rev. Robert Birch acted as chairman, and Mr. and Mrs. Blake Milne

Henry V Draws Well at Rialto

The management of the Rialto theatre, and Mr. A. K. Macleod, who suggested it, brought special entertainment of much merit to the local movie house last week, with the showing of "Henry V." It gave many people who had not seen the show before a chance to enjoy it. High school students attended the matinee on Wednesday afternoon. Others had an opportunity to see it over again, and many copies of Shakespeare had the dust blown off them during the past week.

Family Gathers For 80th Birthday

Owen "Pop" Burdett celebrated his 80th birthday on Sunday when members of his family from Summerland and Pentiction gathered to honor him on the occasion. Despite his advanced years, "Pop" is in good health and enjoyed the family gathering immensely.

HOME AGAIN—

Mr. and Mrs. Gordon Robertson, and their daughter, Miss Beryl Robertson, arrived back on Monday evening from California where they have spent a large part of the winter.

Mr. P. G. Dodwell has returned from Vancouver, where he went to meet his brother, Mr. Guy Dodwell, who had come there from New York.

Mr. E. E. Campbell and Mr. Bud Gould, who accompanied him to Vancouver, brought back a two-ton truck.

Mr. C. V. Nesbitt returned from the coast Sunday.

Mrs. Walter Wright has returned after spending six weeks with her son-in-law and daughter, Mr. and Mrs. H. Locke at Kelowna. Mrs. Wright brought her small granddaughter, Sharon Locke, home with her to stay for awhile.

Mrs. T. J. Garnett and Mrs. W. Tullett returned on Sunday morning's train after a lengthy visit with relatives and friends in Vancouver.

Mr. W. A. "Bud" Stuart returned on Tuesday from a business trip to Vancouver.

Mrs. James Ritchie and her sister, Miss Kate Findlay, of Kaleden, who have been spending several months at Manitou, Man., are returning today to their Okanagan homes.

Hard Times Dance Draws Big Crowd

The Old Time Dance Club had one of the largest crowds they have drawn this winter, when they held a Hard Times' dance on Friday evening, March 4.

Costumes were many and varied, and the prize for the "best dressed" hard times' couple went to Mr. and Mrs. H. A. McCargar, who had "Mr. and Mrs." hard times suit and dress in matching bran sacks! These were very well made, and actually were attractive costumes.

Observe World Day of Prayer In Summerland

The World Day of Prayer in which millions of women throughout the world in seventy different countries participate was observed here this year in the Free Methodist church, West Summerland, with the wife of the pastor, Mrs. W. S. Angell, as leader, on Friday afternoon, March 4.

It is arranged in Canada by the Women's inter-church council, and is always held the first Friday in Lent. The program was prepared this time by the world day of prayer committee of the United States, in consultation with groups of Christian Chinese women in different parts of China. The theme was, "The Lord is thy Keeper."

Mrs. S. A. MacDonald gave the address paying tribute to the work of the late Mrs. H. C. Mellor who was secretary-treasurer for a number of years.

In most places the collection from this day is used for literature for missionary work, but it has been the custom here to send it to the Lady Cunard hospital in Lucknow to maintain a Zenana bed, which now costs \$75 per year.

It has been decided that each year the secretary will be chosen from the church in which the service is held, and Mrs. C. W. James will get as such for 1949. The collection is used as a nucleus, and before June made up to the required amount by the churches.

Mrs. MacDonald traced the life of a new recruit to missions from the time she arrived in India until posted to a mission or a hospital. She read parts from letters received from the Lady Cunard hospital telling of the patients who have occupied the Summerland bed, and how they were helped physically and spiritually.

Representatives from the various churches taking part in the devotional service were Mrs. R. O. Moore, Mrs. E. Deringer, Mrs. N. O. Solly, Mrs. F. V. Harrison, Mrs. A. McKenzie, Mrs. R. Arnett, Mrs. F. W. Haskins and Mrs. Howard Milne.

The service was well attended. Accompaniments and the offertory were played by Mrs. L. Fudge, and Mrs. B. Bergstrom sang a pleasing solo.

VISITING ABROAD—

Mrs. Phil Scurrah, and her son Robert, will leave on March 17 on their way to England to visit Mrs. Scurrah's mother, in Bolton, Lancashire, who has been ill. They expect to sail from Halifax, April 2, on the Samaria. En route to the Atlantic coast they will visit an aunt in St. Louis, and have a look at Niagara Falls. During their absence, Mr. Scurrah, who has been forced to take a year's rest, because of ill health, will stay for awhile in Penticton with Mr. Bob Scurrah, and later go to Victoria.

Mr. and Mrs. Wm. May are on a holiday trip at the coast.

Mr. Wm. White went to Vancouver Sunday evening to spend a few days there.

Mrs. J. Sheeley, wife of the municipal assessor, is holidaying at the coast for about ten days. Her youngest son Jimmie, is enjoying the trip to the coast, too.

Mr. Tom Fisher went to Vancouver at the weekend for a check-up at Shaughnessy hospital.

Mr. H. Braddick went to Vancouver on Saturday for treatment at Shaughnessy military hospital.

Dr. and Mrs. W. H. B. Munn drove to Vancouver on Wednesday. They were accompanied by Mr. C. J. Bleasdale, chairman of the school board, and Inspector J. Burnett of Penticton, and will look over modern schools at Chelan, Wash., en route, and others at the coast, before plans are made for the new Summerland junior-senior high school. Dr. Munn will attend, also, some sessions of the series of medical lectures being given at Shaughnessy hospital during the week.

Mrs. F. V. Harrison left on Tuesday night's train for Victoria to attend the Girl Guide Provincial Council meeting, representing the southern Okanagan. She will be away until the end of the week.

Dr. M. F. Welsh flew to Ontario this week to attend a convention, and to spend a three-weeks' holiday at St. Catharines.

Mrs. Kenneth McIntosh went to Vancouver on Tuesday night's train to holiday at the home of her parents.

Mrs. H. B. Mair is visiting friends and relatives in Vancouver for a few weeks. She went to the coast by train on Monday night.

Mrs. O'Leary went to Vancouver last Thursday returning home Monday morning.

Miss V. Saunders, who has been staying with her sister, Miss Elsie Saunders, for some time left for Vancouver on Tuesday evening.

Mr. Jack Lawler was called to Powell River last Wednesday following the death of his son-in-law, Mr. Norman Fraser.

Mr. Frank Pollock flew to Vancouver on Monday for a short business trip.

Mr. George Washington is a business visitor in Vancouver this week.

Service Cub in Church Parade

About fifty members of St. Andrew's Service Club attended a church parade at St. Andrew's church on Sunday morning, March 6, the first Sunday in Lent, and were addressed by the minister, Rev. H. R. Whitmore.

For Your Floral Bonnet

A gay new hair-do to do justice to your spring floral bonnet. Come in today.

MAKE BEAUTY A HABIT

EILEEN'S Beauty Parlor

EILEEN INGLIS Summerland, B.C.

VISITING HERE—

Mr. and Mrs. G. Shaler have returned from Florida, and are guests of Mrs. Shaler's brother and sister-in-law, Mr. and Mrs. K. Heales. Mr. Shaler went out to Vancouver last Thursday on a business trip, and they are expecting to make their home at Penticton in the near future.

Miss Dorothy Dawes of the Kelowna school teaching staff was down for the week-end at the home of her parents, Mr. and Mrs. Fred Dawes, Prairie Valley.

Mr. and Mrs. H. C. Winter of Victoria were guests last week of Mr. and Mrs. H. B. Mair. They have bought a house in Penticton, and intend to come back to the Okanagan soon to make their home there.

Mr. and Mrs. Eaton's son, who is an analytical chemist at Oliver, spent the week-end with them.

Mr. and Mrs. J. Monteith of Kelowna were Sunday visitors of Mr. R. F. Theed, and Miss Elizabeth Theed.

Mr. and Mrs. Stanley Holden of Love, Sask., are visitors at the home of Mr. and Mrs. J. S. Mott.

Mrs. O. Dunbar is Honored on Birthday

On Tuesday evening, Mrs. O. Dunbar was honored by a surprise party on her sixtieth birthday. Her neighbor, Len Skinner took her for a short drive and in the meantime friends and neighbors occupied her home to prepare for the surprise party.

A lovely brooch was presented to Mrs. Dunbar by the gathering, and a pleasant evening was spent. Those present were Mesdames E. Hannah, E. Bullock, L. Skinner, N. Blacklock, F. Young, F. Bennison, C. Denike, T. McDonald, A. K. Elliott and A. Holmes.

Baptist Missionary Society Honors Mrs. J. H. Bowering

On Tuesday afternoon, March 8, the members of the Baptist church missionary society met at the home of Mrs. J. H. Bowering. A gift of money was made to her by Mrs. G. J. C. White on behalf of the organization, with a suggestion that she get something for her new home with it.

For twelve years she has been an excellent treasurer, and the token was in appreciation of her, and of her faithful services.

In the business part of the meeting, Mrs. Geo. Perry was made president, to replace Mrs. F. W. Haskins, who will be leaving for Edmonton in April. Mrs. H. R. McLarty was elected treasurer to take over Mrs. Bowering's duties, and also will take charge of subscriptions for church publications, previously ably handled by Mrs. Haskins, Sr.

Mrs. W. C. Kelley gave the devotional message. Mrs. Geo. Perry had chosen an original subject as topic of missionary information. It was: "What is going on in the islands of the world?" She outlined the work of the churches in many islands in an imaginary stop-over flight around the globe.

Tea was served at the end of the meeting.

NEW ARRIVALS

A baby boy was born to Mr. and Mrs. J. R. W. Miles at the Summerland hospital on March 4.

Born in Vancouver on March 8, to Mr. and Mrs. Wm. Andrew, a son, 9 lbs. 8 oz.; a grandson for Dr. and Mrs. F. W. Andrew.

Miss Nan Brennan, of Clough's Bakery, had the misfortune to break her leg about two weeks ago, when she slipped on some ice and fell.

Above-Normal Snow Pack In Okanagan is Threat Of Floods This Spring

Snow measurements taken at the end of February indicate that the snow cover in the Okanagan was 139 percent of normal and in the Similkameen about 151 percent of normal, the water rights branch of the provincial government states in its survey and run-off forecast dated March 1.

"This indicates an above-average summer runoff for these basins providing normal temperatures and precipitation prevail until and during the run-off period," the report explains.

Snow surveys near Mazama on Trout Creek and near McCulloch show an average water content about 123 percent of last year, 120 percent of 1947 and about 139 percent of normal for the period of record.

Valley precipitation for the winter thus far has been above a ten-year average.

"If the precipitation trend continues for the remainder of the winter, a summer run-off well above average should occur," the report warns for the Okanagan.

In dealing with flood hazards, very little can be added to the text of the previous month's report, it is stated. The amount of snow throughout the province is still well above normal, and the low snow is persisting in some areas. On the other hand, in others, the thaw of the past week has afforded considerable relief by bringing off large quantities of low snow.

Carrying Capacity Less
"The soil mantle is still believed to be well saturated and many streams now have a water-carrying capacity less than that of last year,

having been choked with material brought down in the last freshet.

"With the above in mind a flood of last year's proportions could occur in the Columbia basin if cold weather were to prevail late into the spring as it did last year, and if the present trend of snowfall were to continue. In certain areas local flooding is probable, if only because of congested stream channels.

"In the Okanagan watershed, the hydrologic situation is in rather a delicate state of balance, with above normal snow-pack, comparatively moist ground conditions, and considerable snow at low elevations.

"If these conditions persist until the main spring thaw, floods could occur in this basin. Whether they do or not therefore depends entirely on the weather from now on.

"Little information is known of the amount of snow in the Fraser basin, or as to how this year compares with former years. In general, observers report greater than normal amounts of snow at low elevations, and the overall snow picture would indicate that the pattern of run-off for the Fraser will probably follow the same general pattern as the Columbia.

"However, given a normal spring, in point of time and weather, general flooding should not occur," the report concludes.

At the 4,700 foot level on Trout Creek, there was 35.7 inches of snow at February 26, with a water content of 8.5 as compared with 6.3 in 1948 and 6.2 in 1947. Average water content over nine

Pioneer Days

THIRTY YEARS AGO
February 28, 1919

The council is making careful plans to enlarge the irrigation and domestic water systems to supply the needs for a population of five thousand. The new municipal engineer, A. W. Ellison Fawkes and Water Chairman Kirk are ascertaining the total acreage to come under the Trout Creek system in the future.

Coldest weather of the winter was recorded last Monday with three above zero.

A company, believed closely connected with Dominion Cannery, is expected to build a new cannery here.

A citizens' meeting voted fifty percent in favor of a park proposition for a soldiers' memorial. Twenty-four percent favored a new civic building to comprise auditorium, library, reading rooms, billiard room, etc. Others favored purchasing the college gymnasium and adding to the building, a new school building, addition to the hospital or a memorial without naming a site. A permanent committee consisting of Messrs. Helmer, Kelley, G. J. C. White, Andrew, Simpson, Hilborn and Solly was appointed to further the meeting's wishes.

Revelstoke has suggested that British Columbia be split in two with a new province being created east of the Cascades.

Peachland has had several meetings concerning a memorial to its

years was 4.9.

From November 1 to March 1, nine inches of precipitation were recorded at Osprey lake, which is 0.32 inches departure from the normal ten-year average. In the same period a year ago, the precipitation was 10.20 inches, or 1.52 inches above the normal average.

Bobbie Sheeley's 8th Birthday Observed

Bobbie Sheeley, the middle son of Mr. and Mrs. J. Sneeley's three boys, was eight years old on March 1. For this special occasion a birthday party was held at his home, and he invited his young friends to tea. Those present were John and Brian Adams, Alan Birtles, Douglas Charles, Bruce and Larry Crawford, John Cuthbert, and the two other brothers of the family, Carlton and Jimmie.

The boys played "Cowboys and Indians" until tea-time, and came in to do full justice to Bobbie's birthday cake, after he had blown out the candles.

soldiers, the preponderance of opinion having a monument.

Cadet Charles Kerr reached home from overseas this week.

TWENTY-FIVE YEARS AGO

February 28, 1924

The Women's Institute has laid before the council a program of improvements to beautify Shaughnessy avenue and make it worthy of the municipality. Mrs. Angove presented the suggestions on behalf of the institute. Improvements to the Summerland tourist park were also suggested by Mrs. J. J. Blewett.

Date for due taxes has been set back three weeks until November 1.

G. N. Gartrell has applied to the council for permission to use a part of the old powerhouse on the lakeshore as a fish hatchery.

C. B. McCallum and T. J. McAlpine have demanded better fire protection for Shaughnessy avenue and adjacent area.

Harry Thornthwaite has inaugurated a motor passenger service between Trout Creek and the Rialto theatre.

Messrs. Farnchon and O'Mahony, recent purchasers from the Development Co. of land at the rear of H. W. Tavender property, have been assured of irrigation.

South Okanagan Health Unit Promised First Dental Clinic

At a meeting of South Okanagan Health Unit held at Kelowna on Wednesday, Feb. 23, it was announced that the services of Dr. F. McCombie, a graduate of Guy's hospital, London, had been obtained to work for the department of health in the field of preventive dentistry.

Unfortunately he and Dr. J. A. Taylor, of the health department were unable to attend the meeting, as they were marooned in a train held up between Hope and Kamloops.

Dr. McCombie will make a survey of the 14 health unit areas, and it is hoped that as dentists are available they will be obtained for the units. The Okanagan unit some time ago was promised the first dentist hired. This work would be in preventive, not curative, dentistry and the per capita cost to municipalities would go up from 30c to 40c.

Work would start with grade 1 pupils, and some pre-school children. The next year these would be re-examined, some work done in grade 2, and some pre-school children, also. This would continue in a slow progression.

All equipment would be supplied, the dentist would have no expenses, and the tentative salary has been suggested as \$4400.

Dr. Helen Zeman, director of the South Okanagan Health Unit, told the meeting that the department of health was working towards legislation regarding the inspection of meat.

The north Okanagan cattle growers have petitioned for immunization against T.E. and brucellosis. It is hoped to make the whole Okanagan a T.E. restricted area, and education along these lines is being done through cattlemen's associations.

There was considerable discussion regarding restaurant rest

rooms, which are not necessarily open to the public, although they often are available. It was thought that this was a highly desirable service, the more so, in scattered, country communities, where people come in from long distances.

A resolution was drafted to be forwarded to the department of health. It was "that regulations under the health act be amended to include specifications for wash-room facilities for the patrons of public eating places, and that such washrooms be compulsory in these establishments", and received the unanimous support of those present.

Additional caps to go over the tops of milk bottles were shown, and it was recommended that the possibility of using these be considered.

Alderman W. T. L. Roadhouse of Kelowna was re-elected chairman, and he offered congratulations from the members and himself to Dr. Zeman for her co-operative work during the past year.

Councillor F. E. Atkinson attended from Summerland council, and Mrs. A. W. Vanderburgh from Summerland School District No. 77.

Local Legion Is Represented at Zone

Members of Summerland Legion who attended the zone council meeting held at Penticton on Feb. 20, were the president, Mr. Alan Calvert, Messrs. H. Howis, Lorne Perry, Alex Watt and W. McCutcheon.

Ladies from the WA who were present at the WA zone council held the same day were Mrs. A. K. Elliott, president; Mrs. Hugh McCutcheon, Mrs. W. McCutcheon and Mrs. Phil Davis.

NOW COMES THE LEADER WITH A 7-YEAR ADVANCE IN ONE!

Welcome the New

CHEVROLET

The most Beautiful BUY of all

CHEVROLET

is the only car bringing you all these fine-car advantages at lowest cost!

MORE BEAUTIFUL FROM EVERY ANGLE!

The new Beauty-Leader Bodies by Fisher (with push-button door openers outside) are true masterpieces... with superb Leader-Line Styling that's lower, wider, racier... with extra-fine upholstery and a wide variety of alluring colors... much more beautiful from every angle—inside and outside.

MORE ROOM AT EVERY POINT!

The new Super-Size Interiors featuring extra-wide "Five-Foot Seats," give you plenty of head, leg and elbow-room for six full-grown passengers; giant rear decks have "trunk room" capacity.

JUST COUNT THE COMFORTS!

Completely effective heating* and ventilating system supplies even warmth, keeps glass clear; Push-Button Starter for simplest, easiest starting; Hand-E-Gearshift with Synchro-Mesh Transmission for maximum shifting ease. (*Heater and defroster units optional at extra cost.)

THE NEW RIDE'S A REVELATION!

A vastly improved Unitized Knee-Action Ride, combined with new shock absorbers and extra low pressure tires, gives stability, smoothness, and road-safety.

THERE'S ONLY ONE WORLD'S CHAMPION ENGINE!

You get the finer results of Chevrolet's sturdy Valve-in-Head Thrift-Master engine in all Chevrolet models... together with all of Chevrolet's money-saving economy... it's the world's champion engine for miles served, owners satisfied, and years tested and proved.

SEE ALL! ENJOY ALL!

New Panoramic Visibility, with wider curved windshield, thinner windshield pillars, and 30% more window area for extra safety.

STOP MORE SWIFTLY AND SAFELY!

The new Certi-Safe Hydraulic Brakes give even faster stops with safety... important for you and your family.

YOU'LL SAVE MORE MONEY, TOO!

Chevrolet brings you these and other important improvements at the lowest prices and with extraordinary economy of operation and upkeep.

Plus NEW CENTRE-POINT DESIGN!

A remarkable advance exclusive to Chevrolet in its field: Centre-Point Steering — Centre-Point Seating — Lower Centre of Gravity and Centre-Point Rear Suspension gives riding and driving results without precedent in low-cost motoring. That means a new kind of riding-ease and a new kind of driving-ease. Only new Centre-point Design can give you all these finer motoring results; and only the new Chevrolet brings you Centre-Point Design at lowest cost!

We cordially invite you to see the new Chevrolet—the first completely new car the leader has built in more than seven years—and the most beautiful buy of all!

You'll find it's the most beautiful buy for styling, for driving and riding ease, for performance and safety, and for sturdy endurance born of quality construction throughout... because it alone brings you all these advantages of highest-priced cars at the lowest prices and with the low cost of operation and upkeep for which Chevrolet products have always been famous.

Yes, here's the newest of all new cars—pre-tested and pre-approved on the great General Motors Proving Ground—and pre-destined to win even wider preference for Chevrolet as the most beautiful buy of all, from every point of view and on every point of value. Come in and see it—today!

(SUMMERLAND)

Financial Statement, 1948

New Standards Operating on Main Streets

All but three of the new standards and street lights are in operation in West Summerland business area. These imposing standards have transformed the appearance of the two main streets, Granville and Hastings.

These standards are extremely tall and rather tower above most buildings. However, they serve the purpose admirably for the amount of capital expenditure which could be made, it has been pointed out.

There are still two connections to be made on Hastings street and another on Granville street and Municipal Electrical Foreman T. P. Thornber states that these will be in service as soon as the ground is free of frost so that digging operations can commence.

Height of the standards is 25 feet and each globe contains one 350-watt lamp. There are thirteen standards, seven on Granville and six on Hastings.

G. Woodbridge went from the division of chemistry, and Messrs. M. D. Proverbs and Geo. Lewis from the entomology laboratory. From the plant pathology lab were Messrs. G. E. Woolliams, T. B. Lott, S. R. Cannings and Dr. M. F. Welsh.

Mr. Alex Watt, provincial agriculturist, Summerland, also went to Kelowna for the meeting.

AUDITORS' REPORT

Kelowna, British Columbia,
February 23rd, 1949

Chairman and Trustees,
School District No. 77,
West Summerland, B.C.

In accordance with your instructions, we have audited the books and records of the School District for the year ended December 31st, 1948.

As a result of our examination, we present herewith the following statements which are attached to and form a part of our report:

- "A" Balance Sheet.
- "B" Statement of Revenue and Expenditure.
- "C" Statement of Cash Receipt and Disbursements.
- "D" Surplus Account.

ASSETS

Cash in bank: We have reconciled both the General and the Building account bank balances with the records of the School District and have confirmed the balances by letter received from the bank.

Accounts Receivable - Government Grants: We were informed that application has been made for grants in respect to all eligible expenditures. Some further equipment grants of a minor nature may be recoverable when details and invoices relating to the expenditures are obtained from School District No. 15 for submission to the Department of Education.

Accounts Receivable - General: No provision has been made in these statements in respect to the balance owing by the Corporation of the District of Summerland to the School District in connection with the sale of debentures for school purposes. The amount of \$30,000.00 had been received from the Corporation to December 31st, 1948 for this purpose.

LIABILITIES

Rural Bonds: Principal owing in respect to bonds issued is shown as a liability, but accrued interest has not been provided for.

No estimated provision has been made as to the amount of the liability of the District in respect to the contract for the new buildings in course of construction at date of these statements.

We have accepted the certificate of the Secretary that there are no outstanding accounts which have not been provided for in these statements.

CERTIFICATE

All our requirements as Auditors have been complied with and subject to the foregoing remarks in our opinion the attached statements are correct and properly reflect the true financial position of the School District as at December 31st, 1948, according to the books and records examined by us and the best of the information supplied to us.

All of which is respectfully submitted,

RUTHERFORD, BAZETT & CO.,
Chartered Accountants, Auditors.

CORPORATION OF SUMMERLAND - FINANCIAL STATEMENT, 1948

AUDITORS' REPORT

Kelowna, B.C.
28th February, 1949

To the Reeve and Councillors,
The Corporation of the District of Summerland,
West Summerland, B.C.

We have made a continuous audit of the books and records of the Corporation for the year ended December 31st, 1948. We present herewith, prepared and certified to by us, and signed by the acting Treasurer, the following statements:
"A" Balance Sheet.
"A1" Schedule of Fixed Assets.
"B" Statement of Receipts and Disbursements.
"C" Statement of General Revenue and Expenditure.
"D" Operating Statement—Public Utilities.
"E" Schedule of Bonded Indebtedness.

ASSETS

Cash on hand and in bank: All cash receipts were checked periodically during the year and the cash was verified by actual count at the time of the final audit for the year under review. At that time there was a cash shortage of \$9.02 which has been adjusted by charge to miscellaneous expenditure.

All bank balances were reconciled with the records periodically during the year and also at the time of the final audit of the year under review. All bank balances as at December 31st, 1948 were further verified by letter obtained by us from the bank.

Tax Arrears—\$3,899.71; Rates—\$3,341.05: These accounts are as disclosed by the acting Treasurer's records. The collectors' records were in agreement with the acting Treasurer's records in respect to all Taxes and Rates. We checked the postings of all receipts of Taxes and rates to the Collector's Rolls for the year under review.

The postings of Electric Light Rates receipts to the Electric Light Rates Ledger were not checked by us. The outstanding balances are in agreement with the recapitulation of this ledger.

Sundry Debtors—\$1,680.18: The individual balances under this heading agree in total with the Control Account in the General Ledger.
Agreements of Sale—\$835.00: The individual balances under this heading agree in total with the Control Account in the General Ledger. Both these agreements are in arrears. Interest accruals have not been taken into account.

Tax Sale Lands—\$1.00: All proceeds of sales amounting to \$2,555.00 were set aside in a special bank account. The amount in this special account now is \$3,994.53. No expenditures were made during the year under review from this account.

General Investments and Dog Tax Fund: All securities shown as investments of General Funds and Dog Tax Fund were examined by us and found to be in order at the time of the final audit for the year under review.

Electric Light Department Surplus: The securities shown as investments under this heading were examined by us and found to be in order. The transfer of funds representing the Electric Light profit for the year less Electric Light Capital expenditure has been made to the Electric Light Special Bank Account.

Sinking Funds: All securities shown under this heading were examined by us and found to be in order.

It is noted that with all investments recorded at par the Sinking Fund is in excess of requirements by the amount of \$56,656.30.

Unexpended By-law Funds—\$27,806.92: This represents the balance of unexpended By-law funds in respect to debentures issued during the year as follows:

By-law 667 Schools	\$ 17,343.45
654 Roads	9,330.07
653 Road Equipment	1,133.40
	<u>\$ 27,806.92</u>

Summerland Scholarship Fund: The special bank account was checked by us and the bank balance was verified by letter received by us from the bank. Dominion of Canada bonds par value \$3,000.00 were examined by us and found to be in order. The letter received from the bank shows that they are holding Dominion of Canada bonds par value \$4,700.00 in safekeeping for this fund.

Schools: The School Tax levy of \$37,042.49 exceeded the amount paid to schools by the sum of \$1,757.78, which amount is shown in the Balance Sheet at the credit of School District No. 77, being balance of school levy unexpended.

The amount of \$4,065.00 was received from the City of Penticton and School District No. 15 in final settlement and has been credited to Surplus Account.

Debentures to a face value of \$49,500.00 were sold to provide funds for school purposes. The amount of \$47,614.05 was received from this sale and after deducting by-law expenses of \$270.60 and the amount already paid to S.D. No. 77, the balance of \$17,343.45 is shown as payable on these statements.

GENERAL

We have been assured by the acting Municipal Treasurer that all liabilities with the exception of an account received of \$4,255.00 for a chlorinator and certain minor accounts payable, have been provided for in the attached statements. We were informed that the installation of the chlorinator was not completed as at the date of these statements.

Statement "B" is submitted in the same form as previous years. We were informed by the acting Treasurer that all detailed information required by the Department of Municipal Affairs will be submitted when the usual annual returns are compiled and filed with that Department.

CERTIFICATE

In accordance with Section 284 of the Municipal Act, we wish to report that:

- "A" We have obtained all the information and explanations required.
- "B" In our opinion, subject to the foregoing remarks, the Balance Sheet referred to in our report is properly drawn and truly and correctly exhibits the state of the affairs of the Corporation as at December 31st, 1948, as disclosed by the books and records and information received.
- "C" We found all books, documents and accounts examined by us to be in order.
- "D" In our opinion the forms and records used are well suited to the requirements of the Corporation.

Respectfully submitted,
RUTHERFORD, BAZETT & CO.,
Chartered Accountants, Municipal Auditors

Helpful Hints On Gardening Given Society

Mr. H. H. Evans, district horticulturist, at Vernon was the speaker at the Horticultural Society meeting held on Friday evening, Feb. 26 in the Oddfellows' hall.

In the absence of Mrs. Collas, the president, Miss Doreen Tait, vice-president, was in the chair.

Mr. Evans, a vivid speaker, has not been heard here for a number of years, and drew from his great store of garden knowledge to give helpful timely knowledge on how to start a garden from 'scratch' or how to rejuvenate an old one.

He gave landscaping suggestions, spoke of borders and varieties, what to plant around the house, care of lawns, how to prune shrubs.

For a long time Mr. Evans has been judging flower shows in various centres, so he was well qualified in giving hints for growing flowers for show purposes. Amateur gardeners welcomed help along these lines.

He will retire from his position as district horticulturist in April. Refreshments were served at the end of the meeting.

"Gardening gives a great satisfaction," Mr. Evans told the horticulturists on Monday, "and your garden can become your outdoor living room."

He complimented the local horticultural society on its faithfulness and excellent work and considered that it should obtain a grant from the municipal council, as its efforts improve the appearance of the district.

If a town appears shabby and run-down, with unkempt gardens, tourists obtain a poor impression and do not return, he pointed out.

Mr. Evans is retiring as Vernon district horticulturist in April.

At the end of the meeting refreshments were served.

EVERYBODY'S BUSINESS

How many times have you said: "I must do..." "I feel terrible about not writing to..." "One of these days I'm going to see..."?

Such remarks show we all realize that procrastination is a bad habit—but that we are resigned to it. We're not really convinced that it pays to "do it now".

Yet the more we put off doing something because it is distasteful or difficult, the larger the task looms. It weighs on our minds, handicapping the performance of immediate duties and beclouding our pleasures. Obviously the sooner we do it, the happier we'll be.

Even trivial matters should be dealt with promptly in order to develop the action-habit. Is there someone you should write? If so, don't debate with yourself whether you'll write now or later. Reach for your pen!

Such spontaneous actions help to develop an efficiency that makes for success.

If it were not for life insurance agents, many people would put off taking the vitally important step of protecting their families against financial emergencies and providing an income for their own old age.

GREYHOUND

YOU can save his life

In a far northern settlement, a man meets with a serious accident. Were it not for the Red Cross, this, and scores of other sick and injured people, would be without medical or hospital care.

But the 75 Red Cross Outpost Hospitals are ever ready to serve isolated settlers. Last year over 70,000 patients received treatment through these hospitals.

This is part of the work YOUR Red Cross is carrying on. You are asked to help save lives on these lonely frontiers, to provide assistance to crippled veterans, to send relief wherever disaster strikes, to support the Red Cross Free Blood Transfusion Service, to extend help to suffering humanity everywhere.

The Red Cross work being carried on in a thousand ways is made possible by you and thousands of other Canadians. Give willingly, generously. Give now!

Red Cross services also include: Treatment for Crippled Children, Nutrition Services, Home Nursing Courses, Swimming and Water Safety, Women's Work Activities, etc.

THIS IS YOUR WORK - GIVE!

Dr. J. C. Wilcox New President Of Cancer Group

Dr. A. W. Vanderburgh was re-elected honorary president of the cancer society and Dr. J. C. Wilcox was made president, at the annual meeting held in the parish hall on Thursday evening, Feb. 25. Mr. J. E. O'Mahony is vice-president this year, the secretary is Mrs. J. E. O'Mahony, and the treasurer, Mr. E. R. Butler.

Mrs. E. R. Hookham agreed to act as campaign chairman for another year. Mrs. O'Mahony, a member of the provincial executive, and Mrs. Hookham agreed to attend the regional meeting held at Penticton on March 2.

In giving her report Mrs. Hookham thanked those who had given help in last year's campaign, Mr. E. R. Butler, Mr. H. R. J. Richards, and Mr. Harvey Wright. The quota was exceeded by \$200. This year's quota is set at \$300, and the campaign is from April 18-30.

Appreciation was expressed of Mr. E. H. Bennett's very generous gift of gladioli bulbs which were sold at the spring fair, and proceeds given to the society.

Mrs. O'Mahony thought that the highlights of the provincial meeting which she attended were the great benefits derived from dressings made available to patients through the Order of the Eastern Star and Rebekah lodges; the necessity of getting the patient to the doctor earlier; the fact that the cancer society is able to relieve financial burdens now.

Mrs. O'Mahony reported further that great strides are being made

BOY SCOUT ACTIVITIES

March is Observation Month, when Scouting all over Canada will put the emphasis on training in observation. Patrol Leaders can play a real part in this training, by making observation a part of every Patrol meeting program. Scouts are introduced to observation in the second class tests with Kim's Game and following a trail. It is likely that in some Troops the boy is given the choice of Kim's Game or following the trail, but it is much better if the Scout does both.

Perhaps you have not heard the story of how Kim's Game was originated. Here it is, as told by Roland Philipps in Letters to a Patrol Leader.

Kim, a book by Rudyard Kipling, is the story of a boy named Kimball O'Hara, who was the son of a sergeant of an Irish regiment in India. He was full of all sorts of Scouting tricks, and you'll learn a whole lot of Scouting by reading his story.

He was discovered by a gentleman who was engaged in the Government Intelligence department. This gentleman was impressed with Kim's smartness, and he thought he could probably make good use of him. However he first wanted to put him to the test.

In detective work a boy would be no good unless he was quick at noticing small details, and always

in conducting research into this disease, and a library is being started, as part of a larger library at V.G.H. This library is open to any doctor who wishes to use it.

The federal government has made generous provision for funds, if the provinces will meet it dollar for dollar.

A vote of thanks was given to Mrs. Hookham for her work in organizing and conducting the campaign for funds, and Mrs. O'Mahony was thanked for her efforts in keeping the matter before the public, and acting as secretary for the unit.

The next provincial meeting will be in Vancouver on March 14, and Mrs. O'Mahony will attend as executive member from the South Okanagan.

remembering them. In order to test him the gentleman laid before him a tray of precious stones.

After Kim had looked at them for a minute they were covered up with a cloth, and Kim was asked to state how many stones he had looked at and what kind of stones they were. At first he was rather bad at it, but he improved quickly with practice. It is from the story of Kim that Kim's Game is taken.

For the second class test the Scout is shown 24 well assorted articles for one minute, and he is then expected to remember sixteen of them. The chief point about Kim's Game is that you should always remember what it is for. It is to enable a Scout to be quick at noticing things and to remember afterwards what he has seen.

This time of year is the season for Scouts to be laying plans for collecting the necessary information to win the Naturalists badge. This badge requires keen observation of bird, animal, plant and fish life. Notes must be taken of the time of first appearance of 18 birds seen in the Summerland area. Then come notes on plants, trees, etc. As a starter for the work on bird life observation, Mr. Noel Lingford of the provincial fish hatchery gave the troop a short talk on birds at last Friday's meeting.

As a follow up to last week's talk, this Friday, Mr. Bertram Chichester, well-known Okanagan naturalist and wild life photographer will present one and one half hours of moving pictures on Okanagan wild life, scenery, fishing, mountain sheep, cougar hunting, wild geese, a trip through the Kootenays into Alberta and Waterton Lake park, etc., with a running commentary.

This will be a most interesting evening and every Scout in the troop should be present. Parents, brothers and sisters, friends of Scouts, and the general public are asked to attend and enjoy the

Studies Nursing Needs in Province

The study of the nursing needs and resources of the province is one of the salient features of the provincial hospital survey, now entering its fifth month. There is no one more qualified to make this study than Miss Lucille Petry, chief of the division of nursing, U.S. Public Health Service, who has been called in for expert advice and is now in Vancouver.

Miss Petry is on short leave of absence from her Washington post and on loan to James A. Hamilton and Associates as special consultant on nursing problems. At the conclusion of her study, her report will be presented to the hospital insurance service. In addition to studying the nursing needs of the province, Miss Petry aims at indicating what type of educational program is required to meet the situation.

films, in the school gym at 7:30 p.m. A collection will be taken in aid of the Troop Jamboree fund. Let us show Mr. Chichester how much we appreciate his kindness in coming to Summerland.

Last Friday two more Scouts, Lorne Carston and George Brake, completed their second class badge by passing their signalling test. Gerald Washington won the observation contest. Eight tenderfoot Scouts passed their second class first aid tests. Mr. Feltham gave his first lecture on the King Scout Pathfinder's badge. Mr. Feltham's lectures will continue on March 18.

Patrol scores are now: Hawks 384, Beavers 325, Buffaloes 275 and Eagles 230.

Notices: Meeting Friday, March 11, 7:00 p.m., School gym. Duty patrol, Hawks.

THANKS TO COUNCIL

Thanks of S. A. MacDonald, elementary school principal to the council for its \$25 grant towards operation of the hockey association was tendered the municipal fathers last week. He declared that the pupils had greatly enjoyed their opportunity to play the game this winter.

LIBRARY LEVY RAISED

Okanagan Union Library levy for Summerland in 1949 amounts to \$1,750, an increase of \$250, the council learned recently. This levy is based on fifty cents per person population.

Hockey and Curling Clubs Consider Combined Covered Rink at Park-Playground Site

Possibility of the hockey and curling clubs combining to build a covered rink was discussed at great length last Friday evening at a meeting of the Summerland Hockey Assn., held at the Nu-Way Annex. The site of the present hockey rink is considered desirable.

The meeting admitted the desirability of such a move, and appointed a committee consisting of Messrs. George Stoll, L. W. Rumball and C. H. Elsey to study the subject.

Members of the Living Memorial park-playground subcommittee of the Summerland Memorial Parks Committee, headed by E. H. Bennett, will discuss the subject and bring it before a full meeting of the latter group.

This was the chief topic of the windup meeting of the hockey association for the 1948-49 season, which was informed by Treasurer S. A. MacDonald that there is a deficit of \$70.83. The Old-Time Dance Club has volunteered to stage a dance in order to cover this amount, and a hockey committee headed by W. Snow will work

with the dance club.

It was stated that the hockey rink boards, constructed five years ago of old material, must be renewed before another season and it was during this discussion that the plan to combine curling and hockey activities under one roof was brought forward.

With hockey now a major sport in the Okanagan, members considered Summerland should be preparing for better facilities for the sport here.

A number of members suggested that a covered rink would prolong the season and provide more comfortable accommodation for spectators.

Reports from the various clubs comprising the hockey association revealed that about one hundred boys from the elementary school enjoyed nine weeks of hockey this winter. These lads were arranged in groups ranging from ten and under to 14 years of age. This group was under the supervision of Mr. S. A. MacDonald and Mr. Les Gould, representing the AOTS Club.

Quite a number of older boys played under the high school section, and many of them also played as regular members of the senior hockey club.

Most of the seniors' games were won by the Summerland club, who had a big season.

The financial report submitted by Mr. MacDonald showed an expenditure of \$385.83; water, light and fuel amounted to \$38.33,

HOCKEY TEAM TO PLAY AT KELOWNA

Tentative arrangements have been made by George Stoll, senior hockey club manager, for Summerland to play at the Kelowna Memorial Arena on March 20 against an all-star team from the Kelowna commercial league. The local team has had one practice on the Kelowna artificial ice already and Mr. Stoll is endeavoring to arrange other practice sessions, now that the local ice has disappeared with the warmer weather.

wages were \$266.90. From five organizations, AOTS, Rotary, Board of Trade, Canadian Legion and Municipal Council, \$125 was raised. The senior hockey players contributed \$100, the high school \$50 and the elementary school \$40, making a total of \$315.

Vanderburgh Keeps A's Out in Front As Cagers Beat Vernon to Enter Interior Finals Against Kamloops

John Vanderburgh had his eye trained right on the Vernon basket at the northern city Saturday night, with the result that he led the Summerland Intermediate A's to a solid 63-51 victory in the second of the home and home Interior basketball playoff games. On the round, Summerland won from Vernon by a count of 108 to 88.

With this win, Summerland now enters the interior finals against Kamloops, conquerors of Revelstoke.

First game of this series will be held in Summerland this Saturday with the return game at Kamloops on Saturday, March 19.

Dick Douglas was the real hero of the losing squad as he refused to give in and potted the Summerland basket for 34 points. His was the outstanding performance of the game. Graves, who was a decided threat in the first game here, was limited to two points. Morrice was next in line for Vernon with eleven markers.

Vieing for top honors with Vanderburgh were Jack Dunham, who sank the ball for 15 points and Keith McLean with an even ten.

Some of the team never did make the game at Vernon, as Jack Walsh's car became stuck in the mud outside Vernon, on the detour. Dave Snow walked and hitch-hiked into Vernon but got there after the game was over. Jomori and Adams stayed with Walsh and failed to get into town, at all.

Summerland was slow to get started with the result that Vernon cut in half the eight-point

lead from the first game. Vernon led the Saturday night game 11 to 7 at the end of the first ten minutes. From then on, Summerland took control and had a 28-22 lead midway through the game.

Vernon was outscored 19 to 12 in the third quarter but came back strongly in the final canto to outscore the visitors 18 to 16. By that time, the Summerland lads had the series nicely in the bag.

This is the first time that a Summerland cage team has reached an interior finals since the Summerland Merchants senior crew was outstanding in the interior basketball scene.

It is anticipated that a bumper crowd will be on hand at the school gym on Saturday night to witness this basketball final.

Following are the individual scores at Vernon:

Summerland—Moore 7, Vanderburgh 21, Ruppel 4, Nesbitt 2, Dunham 15, Thompson 4, McLean 10—63.

Vernon—Douglas 34, Graves 2, Tahara 2, Gerdano 2, Morrice 11, Steward, Duncan, Hopping, Koshman—51.

Peachland and Summerland Girls Divide Cage Games

Peachland and Summerland school teams divided honors at the school gym on Monday night, the local junior girls losing to the visitors 20-8 and the local junior boys taking the long end of a 42-16 score over Peachland.

Last Friday evening, Peachland junior boys took another trimming from Summerland, 40-9.

George Fudge Triple Winner Of S. Interior Shuttle Play

PENTICTON—George Fudge, of Summerland, and Win McKee, of Penticton, are the new Southern Interior badminton singles champions.

Winning in two straight sets from Ralph Riley, of Penticton, the new men's singles champion teamed up with Summerland's Bill Evans to take the men's doubles crown, and annexed the "triple crown" with Mrs. Z. Cuthbert of Summerland in the mixed doubles.

The tournament was held on Sunday in the school gymnasium, sponsored by the local badminton club, and over a hundred shuttlecock enthusiasts were on hand to see Mayor Robert Lyon award the prizes.

Miss McKee found Miss Mickey Bell, of Penticton, a tough proposition in the singles final, but the pace told in the final set, as Miss McKee took an 11-4 victory.

The ladies' doubles crown was

captured by Mrs. Ted Cardinal and Mrs. W. T. Fleet, who defeated the Summerland duo of Miss Nan Thornthwaite and Miss Dorothy McLeod, in three sets.

Badminton fans were surprised by the fine calibre of play in the new junior division. Kaleden's Bob Karrer became the first junior champion of the South Interior as he edged past M. Thomas, of Okanagan Falls in three sets.

Results of finals matches: Men's singles, George Fudge, Summerland, beat Ralph Riley, Penticton, 15-7, 15-9; ladies' singles, Miss Win McKee, Penticton, beat Miss Mickey Bell, Penticton, 11-6, 12-13, 11-4.

Men's doubles, George Fudge and Bill Evans, Summerland, beat Jim and Ralph Riley, Penticton, 15-6, 15-7; ladies' doubles, Mrs. W. T. Fleet and Mrs. Ted Cardinal, Penticton, beat Miss Nan Thornthwaite and Miss Dorothy McLeod, Summerland, 5-15, 15-8, 15-10; mixed doubles, George Fudge and Mrs. Z. Cuthbert, Summerland, beat Miss Win McKee and Ralph Riley, Penticton, 15-8, 12-15, 15-8.

Junior boys' singles, Bob Karrer, Kaleden, beat M. Thomas, Okanagan Falls, 8-15, 15-10, 15-12; girls' doubles—Mary Lou Davenport and Berta Salting, Poplar Grove, beat Maribel Burch and Ellen Garland, Penticton, 15-7, 15-6; boys' doubles, Bob Karrer and George Garlinge, Kaleden, beat Warner Gillingham and Sherman Finnis, Penticton, 15-10, 15-9. There was no play in the girls' singles bracket.

Still Await Pipe For Extensions

Adorno Biagioni waited on the council this week to ascertain when domestic water will be extended to the north bench-Crescent Beach area. He proposes to build a home in that district and does not wish to install a water system if the municipality can supply within one or two years.

He was informed that there is still a holdup on pipe delivery and no bylaw can be placed before the ratepayers until delivery can be assured and costs obtained.

Mr. Biagioni was assured that the council is keen to institute this extension but cannot take the necessary steps because of shortage of pipe.

Extraordinary Meeting of Taxpayers in West Summerland Fire District

Nu-Way Hotel Annex
FRI. MARCH 25
8 P.M.

This meeting is being called to discuss the abandonment of the West Summerland Fire District to be replaced by one Fire Brigade operating over the entire Municipality by the Municipal Council.

All ratepayers urgently requested to attend.

W. J. Beattie
Secretary-Treasurer
West Summerland Volunteer Fire Protection Society

Close Deer Season November 15 Sportsmen to Urge at Kamloops

Decision to press for a shorter deer season, to close by November 15 on the west side of Okanagan lake and to limit shooting to one buck only, over two years of age, with forked horns, in North and South Okanagan and Similkameen was made by the Summerland Fish and Game Assn. at its monthly meeting in the IOOF hall Monday night.

Some fifty sportsmen of this district agreed to press for these amendments to the game act at the Interior convention to be held

Baptist Church Hill in News Again

Mrs. Maude M. Young, writing from California, pointed out to the council on Tuesday that there is a need for a sidewalk to service 15 or 16 families residing in the Baptist Church hill area. She believed the need is far greater there than for an extension of Hastings street westside walk to bring service "to one man".

This letter touched off a full-dress debate on what to do with the Baptist Church hill regarding pedestrians and those pushing baby carriages up the shale-covered walk.

Finally, Road Engineer Don Wright was asked to investigate further.

Will Not Operate Municipal Bus Line

S. A. Bredin of Kelowna has withdrawn his application to obtain a franchise for a municipal bus service in Summerland municipality. He has declared that owing to circumstances beyond his control he has had to abandon his plan but would like to have another opportunity in the future.

Irrigation Rates Remain Unchanged

Irrigation rates will remain the same as in 1948, the council meeting declared on Tuesday when minutes of a committee session held last Thursday evening were read. Irrigation department expenditures for the current year are labelled at \$17,731, for maintenance and capital costs for concrete flumes.

on April 20 and 21 at Kamloops.

President George Stoll and C. R. Nesbitt will be the Summerland delegates to this convention.

Another major move by the local sportsmen calls for alternative seasons for blue grouse. They will seek a closed season every other year.

Throughout Monday's session, the aim of all speakers was to conserve game. It was stated that there are lots of does to be seen in the hills, but the number of fawns is scarce.

Deer have decreased at an alarming rate on the west side of the lake in South Okanagan district, it was considered, and steps towards conservation must be taken to save the deer population. Over 65 percent of the deer brought in to this district are killed in the last eight days, it was stated by one speaker.

Flagrant examples of ruthless killing of does and deer out of season were told by members, while some considered that deer tags are being tampered with, although it was conceded that the tags adopted last year are more foolproof.

President George Stoll informed the meeting of results of resolutions considered at the last South Okanagan zone meeting of sportsmen, held at Penticton.

He also declared that through the efforts of sports clubs throughout B.C., Premier Byron Johnson has announced that the whole area of Lower Campbell Lake, to be flooded, will be cleared by cutting the standing timber and clearing away the stumps, this work to be undertaken over a five-year period by the B.C. Game Commission.

NO ACTION ON CATTLE GATE

No action will be taken by the municipal council on a request by CPR Superintendent J. L. Palethorpe, Penticton, for the removal of the Texas gate at the cattle crossing at Mile 12 from the north to the south side of the track. The council was informed that the gate had been installed to plans provided by the provincial public works department and thus does not think it should take any action to change the plan.

PLUMBERS—OSTER PORT-able power drive for threading and cutting pipe, 110 volts, perfect condition, \$147.50. Oliver Hardware, Oliver, B.C. 9-2-c

TO CLEAR AT REDUCED Prices—Few sets Rose Orchard discs; one 16 foot Inboard Clinker built boat, complete. Sanborn's Garage & Machine Shop. 10-2-p

How Will You Use Your Compulsory Savings Refund?

When you receive the cheque for your refundable taxes, why not look on it as something more than just a pleasant windfall? This is money saved long ago, money which thoughtful folk plan to add to their other savings. They realize that frittering it away would be a backward step in their struggle for the things they want most.

Join these progressive people by depositing your cheque in your Bank of Montreal savings account. If you haven't started a B of M account yet, James Muirhead, local branch manager, invites you to do so today, so that it will be ready to receive that refund cheque, Advt.

Speakers Club to Publicize Red Cross

Members of the Summerland Speakers Club were guests of the gavel club of the Penticton Junior Chamber of Commerce last Thursday evening, when Radio Station CKOK arranged for all members to speak over a microphone. The local speakers club is also assisting in publicizing the Red Cross campaign by speaking over CKOK during the next two weeks. President Alex Watt, Jack Mason and Harry W. Brown spoke on the first Summerland broadcast last night.

FOR SALE—INCOME BUSINESS Block with residence, good terms. Phone 1764. 9-1f-c

FOR SALE—4 ROOM MODERN home, with bathroom, second to last house east of Methodist church, West Summerland. 9-2-p

FOR SALE—JOHN DEERE Lindeman crawler, complete with tool bar and blade, all in A-1 shape; one 400-gal Bean sprayer, with 20 pump, used 60 hours. Write P.O. Box 116, West Summerland. 10-2-p

FOR SALE—1947 FLYING STAN-dard, 8,600 miles. Ask for Leo at Sanborn's Garage. 10-2-p

FOR SALE—A LIMITED NUM-ber of building lots, excellent view and close to town. Lorne Perry Real Estate. 10-1c

FOR SALE—ONE 1925 DODGE motor with pulley, governor and gas tank, \$25; also one four-horse power Cushman motor, \$40. T. E. McCuaig, Trout Creek Service Station. 10-1-p

FOR SALE—TWO ACRES OF apples, excellent place to build. This is a real buy, only \$1,400. Lorne Perry Real Estate. 10-1-c

WANTED—A RELIABLE MAN to sell Rawleigh Products in an Okanagan locality. No experience needed to start. Write today, Rawleigh's Dept WG-C-211-189, Winnipeg, Man. 9-4-c

FOR RENT—HOUSE IN PRAI-rie Valley, \$25 a month. Lorne Perry Real Estate, Phone 128. 10-1-c

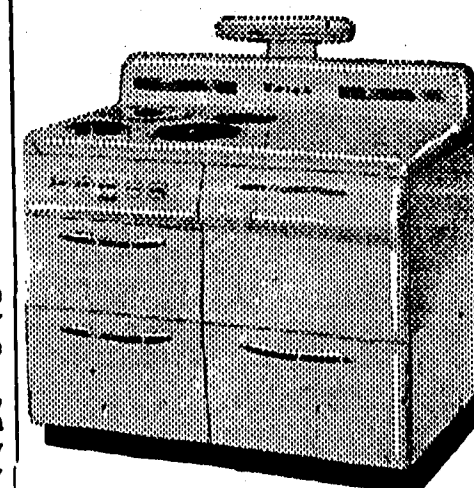

SKINNY MEN, WOMEN! GAIN 5 to 15 lbs. New pep, too. Try famous Ostrex Tonic Tablets for double results; new 'healthy' flesh, new vigor. New 'get acquainted' size only 60c. All druggists. 10-2-c

FISH AND GAME MEMBERS—Attend moving pictures on Okanagan animal life by Bertram Chichester, Kelowna, at School Gym, Friday, March 11, 7:30 p.m. Collection to aid Scout Troop. 10-1-c

IN MEMORIAM

In memory of our loving daughter who passed on March 5, 1948: If only the sky could open, And her dear little face I could see, Oh, what a wonderful feeling, I know would come over me. But she is with the Angels, Far from sin and pain, Where Jesus said: "Believe in Me, And thou shalt see her again." Ever to be remembered by Ma-ma, Daddy and Ellwood. R. E. Wright. 10-1-p

Liberals to Nominate Candidate at Further Convention in Penticton

After five hours of the stormiest session in the organization's history, Yale Liberals early Tuesday morning at Kelowna, turned down any opportunity to compromise on an independent free enterprise candidate and decided to hie to strict parties lines, with the appointment of a candidate at another nominating convention to be held in Penticton, probably within a month. A committee of four men is being selected by Liberal President J. Howard Thornton of Vernon, who presided at Monday night's meeting and was himself the subject of considerable criticism regarding operation of the executive end of the association.

Kelowna Liberals, headed by young Bob Hayman, Orchard City lawyer and also a leader of the young Liberal group in that district, led an unsuccessful battle to have Monday's nominating convention adjourned so that the Liberals and Progressive-Conservatives could get together and name an independent candidate.

This plan was blocked as there was no provision in the notice of meeting. Finally, Summerland led the attack by being successful in having Monday's nominating convention closed and a general meeting convened. But this idea was to no avail as the convention still refused Mr. Hayman's scheme for co-operation and compromise.

Vernon district Liberals were solid in their decision to hie to strict party lines. They obtained some support from older Kelowna politicians and from the Similkameen, especially Princeton. Those from Kelowna south, including the Hayman group, were almost solid in favor of the Hayman move.

No proxies were used throughout the evening, all votes being taken by show of hands or on a standing vote.

The convention commenced at one small, well-heated hall and finished in one large, no-heat hall with the delegates sitting, shivering in their overcoats from eight o'clock until nearly one o'clock in the morning.

Kelowna Resolution Focal Point

Most important point in this stormy session was the Hayman resolution which had passed by a 19 to 5 majority at a meeting of Kelowna Liberals held last Friday. The resolution realized that Yale is represented in the parliament by a CCF party member, "who does not enjoy the support of a majority of the electors in this constituency, and the overwhelming weight of public opinion aggressively favors a consolidation of the anti-socialist vote."

The resolution called for Yale Liberals to declare "their unqualified opposition to a division of the anti-socialist vote in the forthcoming general election."

"That all persons and political associations favoring a consolidation of such voting strength be called upon to participate in the choice of one candidate to contest the election as an independent candidate."

"That such candidate be committed, if he be elected, to support such legislation as he considers in the best interests of this constituency and consistent with the precepts of free enterprise."

"That the Liberal association call upon the Progressive Conservative association to take such steps as are necessary to consolidate the strength of the anti-socialist vote towards the end that we may assure a continuation of a stable and progressive form of government."

Yale Represented by CCF Member

The speaker defended the fundamental rights and liberties as portrayed by the Liberal party and declared that study groups have taught that the Liberal party has meant prosperity for Canada.

"We feel that Canada's greatness has stemmed from the Liberal party and the Liberal party's greatness," he declared, but he wished to point out a few facts to the convention:

"No Liberal has been elected since Yale was created."

"Yale is now represented by a CCF member."

"The CCF has a lively and expanding organization; Conservatives only organize during election campaigns; the Liberals have had no opportunity to make an impact on the electorate but are coming to life."

Mr. Hayman also pointed out that Mr. Jones, MP, is in Ottawa "after years of trying". He is being entrenched there and is gaining ever-widening recognition.

"Face these facts," he urged the convention. "He (Jones) is lending an attentive ear to all who have grievances. All over the riding he is extending his interests. It is the opinion of many that if he goes in again he will be a hard man to withdraw."

Mr. Hayman declared many persons have expressed their disgust at the precipitous manner in which the Conservatives named a candidate.

H. V. Craig Leads Counter Attack

But Mr. Hayman received plenty of opposition right from his home town as H. V. Craig, another lawyer, asked the chair to rule the resolution out of order, as the notice of motion only called on the convention to nominate a Liberal candidate.

"No other business can be transacted," he emphasized in wishing to stick strictly with the letter of the law.

"You can nominate or you can refuse to nominate but you cannot put resolutions to make demands on the Conservative party," Mr. Craig declared.

At this stage the convention got completely out of hand with speakers jumping up and shouting their ideas indiscriminately.

One unidentified delegate shouted from above the main convention floor: "Are we going to be sucked in as we are in the coalition?"

Three lawyers, Bob Hayman and H. V. Craig, Kelowna, and George Washington of Penticton entered into the debate as to the legality

of the notice calling the meeting. H. K. Bearsto, Vernon school principal, called for an elucidation of Mr. Craig's contention and he obtained that.

After some time, Chairman Thornton called a ten-minute recess and called his executive into a huddle.

It is reported from Kelowna that H. V. Craig, well-known Orchard City lawyer and a prominent Liberal in South Okanagan circles for years dropped dead on his way to the courtroom this morning.

When the convention reconvened first item was the report of the credentials committee which indicated that there were 170 delegates present from Enderby on the north to Oliver in the south and west to Princeton and Allenby.

Then, Chairman Thornton ruled that the Hayman motion was out of order.

Continued on Page 4

After the convention had left the Orange hall, which was much too small to hold an important convention, the delegates reconvened in the Scout hall, which never did have a chance to warm up all evening, although many of the discussions became extremely heated as the night wore on.

"What decisions we make here will have a great bearing on the future of the Liberal party in Yale," declared President Howard Thornton but before he could finish his opening remarks he was interrupted by Alderman J. W. Johnson of Penticton who demanded the appointment of a credentials committee.

This type of interruption was indicative of the feeling of the meeting and for the next hour procedure and discussion of the notice calling the meeting with some criticism of the executive work from Vernon occupied most of the time. A credentials committee was appointed and went to work, and included George Stoll of Summerland.

Bob Hayman provided one of the most impassioned speeches of the evening, warning the delegates that the "eyes of the electorate are on this convention" and its deliberations will reflect on the Liberal party.

Mr. Hayman dealt with the war years and pointed out that a new generation has grown up from the services, "young in years but taught to realize and to face facts."

date, but he declared there is an overwhelming majority of anti-socialists who favor a consolidation of the anti-socialist vote.

"The electorate want to see if we can put the interests of this district ahead of a political fight," he continued.

"It would be the simplest thing to advocate a political fight. But would that be leadership? Is that what the electorate wants? Free this riding from socialist representation," he urged, and continued by reading the Kelowna resolution.

"The electorate is waiting for just such a declaration as that," he prophesied. "This is not a vote for the Conservatives. We want a straight independent candidate who will use his vote in the best interests of the riding."

He called upon the Conservatives to withdraw Mayor T. R. B. Adams, their chosen candidate, "in the best interests of the anti-socialist vote."

"This would mean that we have stated a conviction," he declared in urging support for his resolution. "The next move would be up to the Tories. Then, if they do not withdraw the blame falls squarely on their shoulders."

"Then we would call another nominating convention and fight like hell," he concluded, pointing out that this resolution, if adopted, would mean new respect for the Liberal party.

At this stage the convention got completely out of hand with speakers jumping up and shouting their ideas indiscriminately.

One unidentified delegate shouted from above the main convention floor: "Are we going to be sucked in as we are in the coalition?"

Three lawyers, Bob Hayman and H. V. Craig, Kelowna, and George Washington of Penticton entered into the debate as to the legality

Harvey Wilson Again Heads Local Liberals

All officers were re-elected at the general meeting of the Summerland Liberal Assn., held in the Nu-Way Annex last Saturday evening. Delegates were appointed to the nominating convention in Kelowna last Monday.

Harvey Wilson was returned as president of the local Grits, with Walter M. Wright as vice-president and Colin McKenzie as secretary-treasurer. Executive members are W. R. Powell, Reeve R. A. Johnston, Gordon Robertson and W. Ritchie.

Delegates appointed for Monday's convention were: Lee McLaughlin, Gordon Robertson, Walter M. Wright, Harvey Wright, George Stoll, R. S. Oxley, W. R. Powell, Hans Stoll, Harvey Wilson, Dr. A. W. Vanderburgh and W. Ritchie. Not all these delegates could attend.

As president and secretary of the South Okanagan Liberal Assn., R. A. Johnston and Colin McKenzie were automatically delegates to the Kelowna session.

LOSES FINGER IN ACCIDENT
Les Rumball, well-known young business man, lost one finger on his left hand and badly injured another finger in an accident with a small planer Wednesday afternoon.

Denny Hack Goes To Coast Session

Mr. Denny Hack went to Vancouver Wednesday night to represent Summerland high school at the annual conference of senior high school students held at the university this week.

Students from all parts of the province are attending and will be provided with billets. There will be panel and group discussions on current civic and provincial problems. The purpose of the conference is two-fold; first to clarify ideas, and develop initiative and leadership qualities in those attending; second, to interest and stimulate other students when the delegate returns with reports of what he has learned.

School District Board Hears Highlights of Modern School Building From Touring Trustees

C. J. Bleasdale on Tuesday told School District No. 77 (Summerland) the highlights of visits paid to various schools last week, which he, board member Dr. W. H. E. Munn, and Inspector J. N. Burnett made before plans are drawn up for the proposed junior-senior high school here.

Chelan elementary school was built at a cost of \$400,000. There are ten classrooms, a small administrative suite, and a combination auditorium, gymnasium and cafeteria, the latter supplemented by a well-equipped compact kitchen.

The cafeteria gives lunch to 400 pupils, at the rate of four a second being served. The cost is 20c per day per student, including a pint of milk. The school is managed by a principal with the help of a part-time stenographer.

Acoustic tile is used throughout the school. Here it was noted that in no schools visited in the States was battleship linoleum used, because of the difficulty of proper maintenance.

Fluorescent lighting was not seen, indirect lighting being satisfactory and adequate.

A full-time visual aid man is employed at the high school in Chelan. The blinds in this school were of interest. They were attached in the centre of the window, as half-blinds, and could go down or up from that point. They were of filled canvas, and shielded without completely darkening the room.

Films could be shown satisfactorily by hanging the screen against the window, and notes taken in partial light without affecting the pictures.

No dadd was seen in any American school, though their lack was seen in marks along the wall, and their need appreciated by school principals.

See Other Schools

In Wenatchee the progression of their educational system was observed through several schools.

The Garden City and Grauer new schools at Richmond were fine examples of modern buildings where the cost had been kept down below \$15,000 per classroom. In these schools asphalt tile is used on the floors, and a great deal of glass makes well-lighted rooms.

Burnaby high and Burnaby new junior-senior high, were in the itinerary.

Wider corridors with metal lockers lining the sides, supersede stuffy cloakrooms, and simplify many problems.

Practically all schools inspected were two-storey or partially two-storey, which lessens heating and plumbing costs. Estimates are that double storey buildings cost \$8 per square foot floor space, and single storey cost is \$9 per square foot floor space, or 12% more per unit area for single storey construction.

The trend at the coast was towards keener competition in building, and somewhat lower prices, due in part to market stabilization.

The Grand Forks school has been cited as an example of economic modern school building, and the board plans to visit it probably at the end of next week.

School District May Get Fees From Ottawa

Dr. R. C. Palmer, experimental station superintendent, revealed correspondence from the central experimental station, Ottawa, to the semi-monthly meeting of School District No. 77 (Summerland), Tuesday night that the question of fees for school children attending municipal schools from experimental stations is under consideration.

This has been a subject under review for many years but to date no Dominion government assistance has ever been given the school districts.

Trustees were informed that progress is being made on the renovation of the public school, and that a twenty-year guarantee has been obtained for the playshed roof constructed at the south end of the school.

Board of Trade Annual Banquet Names F. J. Nixon Good Citizen of 1948

Fred J. Nixon, municipal clerk since 1921 and a member of the Summerland municipal staff since 1910, was named Good Citizen for 1948 at the annual banquet of the Summerland Board of Trade on Thursday evening, at the Ellison hall.

Before nearly 200 persons, Reeve Reid A. Johnston made the announcement that his own cup, presented for annual presentation in 1938, would go this year to the well-known and highly-respected municipal clerk and pioneer citizen of this district.

Mr. Nixon was unable to be present as he underwent an operation in the Penticton hospital some weeks ago and has not returned to his home here. Miss Nan Nixon, his daughter, received the Good Citizen cup from Reeve Johnston on behalf of her father.

Spontaneous applause rang through the hall, as every person present had waited expectantly to know the decision as to the 1948 Good Citizen.

This is a well-kept secret each year and a great deal of interest is aroused annually. The decision as to the Good Citizen is made by the retiring executive of the board of trade each year.

Visitors from all parts of the Okanagan were present for this year's function.

Mr. and Mrs. F. N. Gisborne, president of the Kelowna Board of Trade and Mr. and Mrs. Riley, president of the Westbank Board of Trade were guests from the north. From Penticton came Past President P. D. O'Brien and Mrs. O'Brien of the Penticton Board of Trade, and Mr. Wilf Carter, Past President of the Penticton Junior Chamber of Commerce and Mrs. Carter.

Mr. Harold Mitchell, president of the Associated Boards of Trade of the Southern Interior was present from Naramata.

Guests from Summerland included Dr. R. C. Palmer, Rotary Club president and Mrs. Palmer; Mr. Ross McLachlan, Canadian Legion branch president and Mrs. McLachlan; Mr. Gordon Beggs, AOTS Club president and Mrs. Beggs; Mr. Ken Boothe, Retail Merchants Assn. president and Mrs. Boothe.

1948 President J. E. O'Mahony and Mrs. O'Mahony were head table guests.

Blood Donor Clinic Here On May 2

Red Cross blood donor clinic will visit Summerland on May 2, according to the announcement of Col. M. D. Robertson, Victoria, chief of the B.C. division of the Red Cross blood donor panel.

Col. Robertson spoke to a group representative of most organizations in Summerland last week at the Nu-Way Annex and told of the great amount of good this service is doing in B.C.

He urged each society representative to talk blood donor service to his or her group at any given opportunity and to endeavor to make 1949 the banner year for blood donor services.

Col. Robertson stressed the great effect on the mental aspect of patients who know they can receive blood in short order.

"Donors are actually giving of themselves more than they can give in any other way," he emphasized.

Thousands of lives are saved annually through donations of blood, he said, the relief of anguish, mental anxiety and expense. Through blood transfusions patients are restored to health more quickly, thus releasing much-needed bed space.

This year, 36,500 more blood donors are going to be needed to take care of the increasing use of blood and the increased use of B.C. hospitals, he pointed out.

Col. Robertson declared that some persons refuse to give their blood because of ignorance of the benefits, indifference, selfishness and fear of the small hurt of the injection needle.

Replaced in Hour

There are very few cases where any harm can come to a person by donating blood and these cases are not accepted. He pointed out that within an hour the system will replace the one pint of blood which is removed.

In some cases suffering from hypertension, medical men advise that they give a pint of blood each month.

In answer to one query, Col. Robertson declared that blood was being given too freely, in a few cases, when the service started, but now very few, if any, cases have occurred where blood has been used when it was not actually needed.

J. Y. Towgood, blood donor service chairman in Summerland, was chairman of the meeting and received suggestions regarding this year's clinic and how the appeal for donors could be stepped up in May.

Monday, May 2, is the tentative date for the visit of the clinic, and will be confirmed later.

Large Membership

F. W. Schumann, 1948 trade board president, opened the banquet with a short address in which he declared that the board has been fortunate in having a large membership in which many members had obtained great satisfaction in working on the many projects.

"I feel certain that the board will go ahead rapidly and there will be a lot of accomplishments in 1949 under the new president, Mr. J. E. O'Mahony," he declared. He spoke of the Spring Fair on May 23 and 24 as being a highlight in the board's 1949 calendar.

Mayrhofer Family Here Now, Passengers on Ship Which Landed 347 D.P.'s Minus Visas

The fear of war and Russian influence comes home to us in hearing of the efforts of George Mayrhofer, his wife Linda, their baby son Rolf, and Linda's father Johannes Kaavats, to make their home in Canada, where the right of the individual and his personal integrity is respected.

They were passengers on the English mine-sweeper, a rebuilt trawler, "Walnut", which created consternation when it arrived at Halifax the middle of last December full of refugees many of them Estonians, and all without visas. On it were 847 persons, who embarked at Gottenborg the beginning of November, and sailed from Lysokil on Nov. 17.

The trip was promoted by a ship's captain, and some of his crew. They asked those wanting to leave the country for their passage money in advance, and also sold shares in the boat which they proposed to buy. When enough money was obtained the ship was bought, and embarkation arranged.

The ship was supposed to be sold on arrival in this country, and the share money returned to the purchasers. So far it has not been sold, and is still in Halifax harbor.

The Mayrhofer family had been living in Sweden for four years. George escaped from Norway where he had been in the German army of occupation, to Sweden in Sept. 1944, at the same time that his wife, and her father, Johannes Kaavats, native Estonians, arrived there in a small fishing boat. They state that there are some 30,000 Baltic refugees in Sweden.

The boat on which they sailed for Canada was a steamship of about 800 tons. Thirty-one persons

slept in a room 9 by 9, and the little family of three slept in a single bunk, a yard wide, two feet high, and about two yards long. The bunks were built in tiers of three. The food was fairly good, but the mother who was seasick most of the month-long, stormy voyage had to prepare food for the baby, and try to keep him clean. George Mayrhofer became ill, and reached this country in a very-run down state.

The boat went by way of the North sea in rough weather, shipped water through her coal bunkers, and was in a dangerous condition with water threatening her boilers. They stopped in Ireland, at Sligo for three days for repairs and for coal, finally arriving at Sydney, N.S., on Dec. 10. Three days later they were at Halifax, where the passengers were kept in an immigration camp until the first week in February while their cases were investigated.

Mayrhofer says that living conditions in Sweden are good; wages relatively higher than in Canada. Three and a half Swedish kronor equal a Canadian dollar. Food is more expensive there than it is here, and most of it is still rationed. Bread was taken off the restricted list only last October.

He was a worker in an electrical factory, where electric ranges and electric novelties were manufactured. Their passage cost them just over \$300 each.

Asked if he were glad to be here, he replied, "Oh, yes. We're not afraid all the time here."

They came here to relatives as Mrs. C. A. Kohlhauser is Mayrhofer's sister. They have now occupied the Kohlhauser home on the sandhill road.

Work on Trout Creek bridge is being held up because of the frost still in the ground. A. R. Colby, assistant district public works engineer, Penticton, informed The Review yesterday.

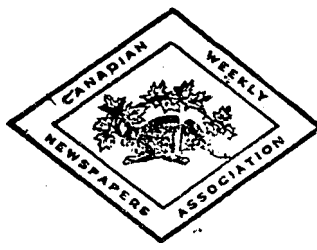

As soon as the land is in shape, excavation for the bridge abutments will proceed, Mr. Colby declared.

"It is not a big job and we are not afraid of high water, but we intend to get ahead with it as soon as weather conditions permit," he explained.

Mr. Colby stated, also, that he has no information on the work to be undertaken this year on the highway from Trout Creek to Penticton. He expects to hear details shortly from Chief Engineer Harry Anderson at Victoria.

Trout Creek Bridge Work Starts Soon

There Will Be No Compromise

FROM a jumble of accusations, legal technicalities, opposing viewpoints, sharpened tempers and lengthy rebuttals, Yale Liberals emerged with one decision which was made quite clear.

There will be no attempt on the part of that free enterprise party to associate with the other free enterprise section known as the Progressive Conservatives.

There will be a three-party fight in Yale at the next federal election and if the trend is the same as last May, the socialist viewpoint will be predominant and O. L. Jones, the prospective CCF candidate, will be elected.

Many of the Liberals at Kelowna's lengthy and acrimonious convention even went so far as to express the view that they did not care who was elected this year but the party lines must be maintained.

It was the same at the Progressive Conser-

vative convention, to a degree, in that delegates from Kelowna north, including a few from the Orchard City, wished to continue on strict party lines regardless of the consequences.

But from Kelowna south, and also including quite a few from that city, the opinion was more down-to-earth. They wanted a compromise in order that those who wish a continuation of the free enterprise system in this riding would have a chance to elect a candidate who would represent them.

After Monday's meeting there is no hope of any compromise. It will be a three-way dog fight with the CCF supporters sitting back and justifiably smirking at the two old-line parties fighting each other.

There can be little realism when old-time party cohorts refuse to budge from their time-honored way of life. It's the party or nothing with them.

Well Done, Good Citizen Fred Nixon

GENUINE pleasure was expressed on every hand at Ellison hall last Thursday evening when Reeve Johnston made the long-awaited announcement that Fred Nixon, our municipal clerk for the past three decades, had been awarded the Good Citizen Cup for 1948.

Over the years, Mr. Nixon's steady hand has kept in control the municipal fathers as they came and went. His has always been a cautious nature and because of his careful policy, the financial status of the municipality is believed to be second to none in the province.

It was particularly fitting that Mr. Nixon should be named Good Citizen at this time. He has been invalided for the past year and recently underwent a serious operation in which he lost a limb.

Mr. Nixon is returning to his home shortly where he will be welcomed by his host of friends. They are all glad that he has received this civic recognition and wish him many more years of happiness and better health.

He will be welcomed back to his office in the municipal building to take his place at council sessions and lend the municipal fathers the weight of his years of municipal experience. Such guidance cannot be bought. It can only be acquired over the years and is a valuable asset in any community.

A faithful public servant has received the highest award the community can offer and he has well earned the title of Good Citizen.

Our Highway System

THERE has been disappointment expressed that the public works highway reconstruction program does not allow for any improvement to the highway between Summerland and Deep Creek south of Peachland before 1951.

This is the inference gained from a perusal of Hon. E. C. Carson's public works program handed down in the legislature recently. It is a tremendous program and indicates that for the next three years there will be a continuation of the policy of constructing new sections of highway which have become obsolete and reconstructing existing sections to accommodate an increasing flow of traffic.

In the past three years, the Okanagan has seen a great deal of capital expenditure on Highway No. 5. It was hoped that since the highway had been widened and improved from the west-side ferry south to Deep Creek that we could expect a continuation south to Summerland this year.

However, material and equipment can only cover so much territory and the public works administration has deemed that it must expend its efforts in other quarters for the next two years.

The main ray of sunshine, as affecting this community, is that the Trout Creek-Penticton section of Okanagan highway is to be started this year. This will probably be let to contract, as it is too big a section for the public works equipment to tackle.

There is still no word as to the department's plans for relocating this section, but it is presumed

that it will follow the present right-of-way, as a new road higher up along the bench lands could hardly be built for the sum allocated, namely \$200,000.

There is one thing certain now that the three-year program of public works expenditures has been announced—there will be no money available until after 1951 for any extension of the Okanagan highway system either from Naramata north or from Westbank north.

Boards of trade can meet innumerable times and send in all the requests they wish, but the money just won't be available for any such extension, or for a bridge over Okanagan lake.

We feel that it will be necessary to increase the ferry service as even now there are long waits because of ice conditions and the slow movement of the ferry, but that is all the Okanagan can rightfully expect to receive.

This is a big province. There are two main highways running east and west to be brought to a level where they can compete with highway systems in the south. The feeder roads linking these two highways must be brought into comparative shape. Bridges need to be replaced.

These are the essentials of the road system and this policy is recognized by the public works department. It is useless and futile to consider, at this time, that there can be any deviation from this policy.

Let's get the existing roads in shape first.

Signifying Nothing

By RUSTICUS

This year the seventeenth of Ireland found me in a thoughtful mood, which was embarrassing. For a little thought made me realize that I know horribly little about the day and its patron saint, save that it and he and green and shamrocks are all somehow woven into it.

A reach to the nearest encyclopedia elicited the information that St. Patrick's real name was Suath, he was probably born in Scotland and educated in France—that's the Irish of it—and is said to have baptized 12,000 persons with his own hand in converting Ireland 1,500 years ago. The encyclopedia did not say whether he drove the snakes out of Ireland, or the monkeys, nor did it mention anything about shamrocks or green—will some Hibernian please enlighten me?

There's so much that I don't know about the Irish and their beautiful country. A few words come to mind—"colleen" and "poutan" and "shillelagh"—a few songs like the "Irish Washerwoman"—and that's about all. The only

Irishman I've ever known well was a Boer War veteran who discoursed endlessly on his experiences—all of which seemed to have taken place at the junction of the Limpopo and Crocodile Rivers—and chewed tobacco vigorously at the same time—neither of which prevented his stories from being abominably dry.

Of course, I've known several people from the north of Ireland; but they talked with a brr, said "wee" for "small" and "bairn" for "child", and in other ways were not to be detected from the thrifty Scottish people from whom they are descended.

The real Irish, apparently, are not these Ulsterites, but the people of Eire—witty, bitter, gay, sad, improvident, kind, the source of so many Pat and Mike stories, and other Irishisms.

"Sure I worked on a building so high in America that if you dropped your hammer when you went off work Saturday night, it took so long to hit the ground it'd strike you on the head as you were coming back Monday morning."

Surely it is just such an Irishism that Eire, having gained her long-desired independence from Britain and the Commonwealth, wants to force Northern Ireland to become independent with her.

"I've got what I want, but you can't have what you want if it isn't the same as I want." The north isn't eager for the idea at all, in fact, definitely opposed to it, but Eire sees nothing incongruous in using the force they hated on somebody else.

"The best thing that can be done about the Irish," the old German statesman, Bismarck, is reported to have said, "is to have them change countries with the Dutch. The Dutch would do wonders with the good soil and wet climate of Ireland; and the Irish, being too lazy to keep up the system of dykes that preserves Holland, would all be drowned in a few years and save the world from their wrangling."

Lazy and quarrelsome have been two charges laid often at the Irish; but are they justified? From

Another "Free Will" Confession

Hats off to Paisley People

In a recent issue of the *Fergus News-Record*, Editor Hugh Templin comments editorially on a fine example of public spirit and determination on the part of a small Ontario community, which should be an incentive to any other district, especially Summerland with its hopes for a community hall, hockey rink, curling rink and other places of community meeting.

Mr. Templin talks of the small town of Paisley, population 750. We will let Mr. Templin tell you the story in his own words:

"After the 2nd war ended, the people of Paisley raised the money for a rink and community centre. By purchasing a large building from the air force they got a bargain, though the cost, after alterations and rebuilding the structure, was still something over \$30,000. The building was completed and opened. Within a week, it was destroyed by fire.

"That was a crushing blow to Paisley, as it would be to any town. Insurance was only about \$15,000. It was decided at once to rebuild and a canvass raised over \$10,000 but \$25,000 wouldn't go far to replace the fine building which was burned. All through the winter and last summer further efforts to raise money were carried on, including the raffling of a car. The Caledonian Games, in connection with the Bruce County Centennial, produced a deficit instead of adding to the funds, but altogether, some \$55,000 was collected. The building of a new arena was going ahead all the time and now it is open again.

"Paisley has every reason to be proud, and we're happy to add our congratulations to those that are being showered on the northern village."

the twelfth century to the eighteenth, British armies were constantly invading Ireland, until they held the whole country in subjugation. Every attempt of the Irish to gain their freedom was repressed sternly, often with sheer butchery. ("They're hanging men in Ireland now for wearing of the green.") Is it any wonder if the Irish, after a few centuries of this got a little bitter about it? Or if, after less than thirty years of blood-bought freedom, they still feel unfriendly to the people across the water?

From around 1700 onward, seven-eighths of Irish farm land was owned by English landlords; the Irish were only tenants, reduced by rack-rents to direst poverty. Seven-eighths of the people were Roman Catholic, but all were forced to pay a tithe to the Church of England which had been foisted upon them by their conquerors. England, my England!

Wouldn't generations of this make anyone—not lazy, but just sheer hopeless? How many generations will it take to free Eire from this hopelessness, this sullenness, that have been bred into her bones?

Not too many, I think. Hardly one has passed since the Sinn Fein movement culminated in the Irish Free State; it may take several more, with full independence, before the soars of the chains have worn from Irish minds.

But a people who can sing "Mother Machree" and "Danny Boy", who can rise above repression and make their very conquerors keep one day in the year for them, and wear their color on it, are too big to stay bitter forever.

The Irish will yet make Eire a land prosperous and respected as well as proud, and as independent equals Eire, and Britain may yet be good friends. St. Patrick aid them both in making it come true.

The Mail Bag

TROUT CREEK PROPERTY
Summerland, B.C.
March 9, 1949.

Editor, The Review:

It was with much apprehension that I read in a recent issue (February 10) of your paper that the municipal assessor had been instructed to review on an upward trend the land assessment for the entire Trout Creek lakeshore property area.

There are certain factors which must be considered when the value of land is determined. Some of these are inherent, some not so.

Of the inherent properties, the location of the Trout Creek lakeshore property is of greatest importance. This cannot be tampered with. Other inherent properties such as lake level and vegetation also contribute to the value of the property.

Can the council guarantee that there will be no further floods, with the attendant discomforts that all lakeshore property owners experienced this past summer?

As land assessments increase, subdivision usually follows. Vegetation, and trees in particular, is destroyed, and the Point will be exposed to the full fury of the south wind. This certainly will lessen the value of the property as an all year residential area.

The value of land is also a function of several non-inherent factors. One of these is roads. If property is assessed highly, an owner has the right to have ready access to his property at all times. The roads must be passable in spite of mud, high water, and snow.

With further subdivision, thought must be given to adequate police protection—especially since there is a public beach and adjoining residential property.

The area in question is quite a distance from the schools and shopping centers, and this is also a factor which must be considered when determining the assessable value of property.

There is no municipal water available, and sanitation during flood periods is not of the best.

These are a few of the factors which contribute to the evaluation of property and it is hoped that the assessor and those who instruct him are willing to play their part in seeing that a fair balance is struck between the assessment and the services rendered.

Yours very truly,
C. G. WOODBRIDGE.

THANKS FOR HELP
West Summerland, B.C.
March 11, 1949.

Editor, The Review:

Will you please allow me space in your valuable paper.

To Constable Thorsteinson and the boys who poked me out I feel deeply indebted.

And to Dr. Vanderburgh and all the staff at the hospital, words fail me to convey my appreciation for the wonderful treatment received.

Sincerely,
NORMAN RODDY

CAPITALISTS

A story about two fleas who fell in love and got married. Young, industrious and ambitious the fleas worked hard and saved their money. They sacrificed their luxuries. They sacrificed fun to assure the future. One day they counted their money and were overjoyed to find they had saved \$5.

"If we can save five, we can save ten," they agreed, so their thrift continued. They toiled, economized and did a lot of planning, spurning the frivolous pleasures of other fleas. Finally came the day when their savings totalled \$10.

That day they went out and bought their own dog.

Pioneer Days

THIRTY YEARS AGO
March 7, 1919

A dividend of 6 percent on paid-up shares was declared at the annual meeting of the Summerland Telephone Co. On the board of directors are Messrs. Mellor, Andrew, Young, Ritchie, Blair and White. H. C. Mellor was re-elected president and Dr. F. W. Andrew vice-president.

First meeting ever held by the teachers of the Okanagan met in Penticton last Friday and decided to form an association which could become affiliated with the Teachers' Federation of B.C. President is J. Gordon of Kelowna. Miss Brown of Summerland is recording secretary.

Following an address here by George F. Stirling, organizer, a branch of the Federated Labor Party has been formed with the following officers: President, J. T. Washington; vice-presidents, A. J. Berr, T. H. Riley; secretary-treasurer, J. W. S. Logie; executive, A. Milne, J. C. Arkell, B. Saunders.

One of the most successful functions ever held here was the public reception at Empire hall tendered the men who have returned from the front. The Home Comfort Club sponsored the reception, with Reeve Simpson as chairman for the evening.

Gunner Clarence Phinney and Pte. Harvey Phinney reached home on Monday.

TWENTY-FIVE YEARS AGO
March 6, 1924

Only 20 cars of fruit remain in the Summerland Co-op storage. Mr. Basil Stuart has assumed the post of acting general manager of the Associated Growers.

So slight was the winter season that no ice of reasonable thickness could be harvested in this district.

Canners have fixed a price of \$17 per ton for tomatoes this season.

The parks committee, and Women's Institute are staging a bee in the Peach Orchard park this afternoon for the purpose of putting the park in shape for the coming season.

Vasseaux lake and some surrounding territory have been declared a game sanctuary of migratory birds.

Another steam engine and more machinery, including a planer, have arrived for the box factory. G. Perry, factory superintendent, was here from Vancouver this week.

Mr. and Mrs. Ira Clarke and family, who have been occupying the Campbell ranch, are returning to Penticton to live.

J. Dunsdon is confined to his home suffering concussion following a woods accident when he fell off a log and struck his head on another log.

BEGORRAH

And It's St. Patrick's Day Today

St. Patrick's Day—and if you have been anywhere near where Mr. Geo. Henry or Nat May have been today, you will have noticed the large bunch of shamrock which they always wear on March 17, to let everyone know their native soil is Ireland.

Of course, that is only for the odd stranger, not for those of us who have heard, and like to hear, them talk.

St. Patrick is a very popular saint, whose day has been commercialized so much in cards and decorations that the thought of it is all mixed up in our minds with harps, clay pipes, jaunting carts and pigs. Actually he was one of the early Christian missionaries.

The stories that we heard of St. Patrick are a mixture of history and legend. He was born about the year 389, and died about 462, nearly fifteen hundred years ago.

It is thought that he was the child of noble, Christian parents living on the coast in the north of Scotland. Sea-robbers raided the coast, and took him at the age of sixteen, a captive to Ireland, where he tended sheep for six years for a cruel chief, somewhere on the northeast coast.

He escaped on a vessel which took him to Gaul. There he lived in a monastery for a few years, then returned to his home. The thought came to him of going as a missionary to Ireland. Though his parents tried to dissuade him, he went to Gaul again, studied for fourteen years to prepare himself, then sailed the open seas trying to locate the place where he had been prisoner, finally landing near the same fields.

In time, his preaching came to the notice of the High King of Ireland, whose dwelling was at Tara. A number of trials the king followed, but in the end the king undertook to protect the Christian bishop.

A long period of great usefulness resulted, bringing Ireland in touch with West Europe and with Rome.

One of the fabulous deeds attributed to the saint is that he drove all the snakes out of Ireland, and an old legend says that for twelve days after he died there was no night.

Reg. T. Rose Cites Advantages Of Free Enterprise System as Speaker to Board Banquet

"Government is our Business", declared Reg. T. Rose, executive secretary of the Vancouver Board of Trade, guest speaker at the annual Summerland Board of Trade banquet in Ellison hall last Thursday evening. Mr. Rose delivered a weighty and impressive talk which dealt, first of all, with the lack of freedom and the large number of controls existing in Britain today and then making a comparison with Canadian and American ways of life in which freedom is stressed.

The talk bordered on the political but stressed the importance of the political aspect in everyday life, and especially what a continuation of the present system of government means to this province.

Mr. Rose was impressive in his delivery and had his material well in hand throughout.

At the outset, Mr. Rose declared that under the Labor government in England, that is a "country from which which freedom has all but fled."

There is no freedom to work where and at what job you choose, to invest savings as you think fit, no freedom to build your own house, choose your own doctor, start or run your own business, choose your own milkman or farm

your land according to your own desires and conscience.

"The theoretical justification for nationalization is that it is wrong for private interests to 'exploit' basic national needs and that the worker in a nationalized industry will work more enthusiastically than when he is working for private interests so that production will be stimulated and costs lowered," he explained.

Mr. Rose pointed to the English coal industry which must either receive a subsidy or prices must be raised still further to levels which will cripple industry and hamper exports.

"At the same time, many of the workers in the industry have shown their primary interest is to get increased wages, while they have responded very half-heartedly to urgent appeals for increased output, and they are not producing per head the coal we raised in 1938."

Mr. Rose cited cases where private industries cannot obtain sufficient raw products to manufacture in an economic manner.

Bulk Buying
Bulk buying on government account is one of the chief forms of control exercised by the Labor government which affects British Columbia, he pointed out.

"This system destroys the initiative of the producer and manufacturer by its consistent negation of the value of the trade mark," he insisted.

"On a rationing, quota basis, the foods supplied have no relation to the desire of the purchaser to buy certain standards, types or trade-marked items. He is handed that which is available — freedom of choice is denied.

"Your years of effort to build goodwill for Okanagan apples and other fruits are of no avail now."

Mr. Rose dealt with another aspect of bulk buying, that of the complete control of the market by government plan-

ners. Ministerial edicts can wipe out a market tomorrow, he emphasized.

"The system of bulk buying on government account should be brought to an end," he declared. "The published accounts of the government trading services are uninformative as they give no indication of quantities or stocks, but there is obviously a great deal wrong when £186 million of cereals are sold for £151 million, and administrative costs, trading charges and subsidies bring the loss on cereals to £57 million."

The speaker quoted other figures concerning the tremendous cost by taxation of bulk buying, and pointed to the number of civil servants employed in this manner who could be better employed in production.

Serious Effects
"The effects of the extravagant policies have been serious. The expansion of the volume of money while goods remained scarce has led to severe inflation; the increase in money incomes, the restriction of production and the attraction exerted by the consumption industries have combined to bring about a shortage of labor and maldistribution of labor.

"Attempts to direct labor by financial controls like restrictions on capital expenditure have proved to be clumsy in operation; increases of wages in the absence of standards of production have resulted in less effort.

"From this is likely to ensue a cycle of rising costs, stagnation of exports, unemployment, devaluation, which will ultimately lead to the deflation of real wages and an automatic adjustment of our standards of living."

Mr. Rose paused to look shortly at agriculture and declared that the Labor government wields a "big stick" in its eviction of farmers from their land if they do not produce according to government orders.

"The glittering banalities about public ownership mouthed by the socialist propagandist really means state ownership, bureaucratic control, eventually the police state and the use of the big stick."

Freedom Here
He turned, in comparison, to the free enterprise system and cited the following as the Canadian policy:

1. Freedom of the individual to work in the callings and localities of his choice.
2. Freedom of the individual to contract about his affairs.
3. Freedom of the individual owner of private property to start and manage an enterprise, to invest and profit thereby, to buy and to sell in a free market—insofar as this freedom does not conflict with the public interest.
4. Freedom of the individual to speak, to enquire and to discuss—in socialist circles to debate is to show "bad faith".
5. Protection for the individual—by public or private means—against the basic hazards of existence over which he may have no control.
6. Government action in economic affairs, when necessary, to ensure national security or to undertake socially desirable projects when private interests prove inadequate to conduct them.
7. Freest possible competition consistent with the public welfare. We are opposed to unregulated monopolies of any kind.
8. Free collective bargaining—the right of labor to organize and

BOY SCOUT ACTIVITIES

Nearly two hundred people, including Scouts and Guides enjoyed the colored movies on Okanagan wild life, presented in the School gym by Mr. Bertram Chichester of Kelowna accompanied by Mr. F. B. Lucas. His close up

photography on Canada Geese, mud hens and cougars was particularly interesting. A collection of over twenty dollars was realized for the Troop Jamboree fund.

Mr. and Mrs. Summerland Citizen! Have you any regular or occasional jobs for 14-year-old or older Scouts who wish to earn money to help raise their expenses to attend the Dominion Scout Jamboree in July? If so, phone Scoutmaster D. V. Fisher or Troop Secretary Don Blacklock.

At Friday's meeting eight ambulance men's badges were presented, also artists badges to Solly and Carston and master at arms badges to Solly and Dumont. This coming Friday Mr. Feltham will continue instruction on the pathfinders' badge and Mr. Lingford will deal with other phases of the naturalists badge.

Notices: P/L's are reminded of the patrol leaders conference at Oliver this Saturday and Sunday. Meeting school gym, Friday, Mar. 18 at 7 p.m. Duty patrol, Eagles.

GUIDE NEWS
At the past two meetings the Guides have been busy passing their second class tests. As the first of April marks our first birthday as an organized company, as many girls as possible should get their second class. As the weather improves, stalking and tracking tests will be taken out-of-doors.

As part of their nature study, the whole company paraded to the school gym on Friday, March 11, to see the pictures of outdoor animal life in the Okanagan and other parts of B.C. which Mr. Chichester brought down from Kelowna. The Guides gave as collection their weekly fees, which contribution goes to help the Scouts attend the "Jamboree" to be held in Ottawa this summer.

Guides who have passed certain tests are reminded to keep reviewing them as tests will be given from time to time, and also, to attain your first class certificate you must teach a tenderfoot her semaphore. Come on Friday with suggestions of how we should mark our "Birthday".

Turn Out More
Mr. Rose urged his listeners to ask themselves: "How can I, in my position, turn out more, through more effective use of every hour I work?"

He urged them to "encourage, in any endeavor of which you are a part, more research for better ways to produce, greater use of mechanical power to help workers produce, co-operation from all workers in finding and using better ways—and in sharing of all gains from such better ways with everybody, through higher wages, lower prices, shorter hours of work, better collective bargaining, larger earnings.

"Get all the understanding you can of what makes our Canadian way of producing and distributing things tick—of the parts played by savings, management, labor, agriculture, research, government, collective bargaining."

Speaking primarily to the board of trade members, Mr. Rose quoted a Dutch proverb: "If each before his own house sweeps, the village will be clean."

"We are the government," he emphasized, urging his listeners to acknowledge the duty which accompanies every right. He emphasized that voting is a civic duty and responsibility and quoted figures to show the apathy of large groups towards their responsibility as voters.

He quoted Omar Bradley, chief of staff in the U.S. army, as stating: "If we dare look on our government simply as a legacy left to us for our benefit, enrichment, and ease . . . then we shall some day waken to find that our nation has rotted as quickly as our character has decayed."

"Democratic self-government tries its people with a sterner challenge than any other system in the world . . . and while the imperfections of our democratic government have brought injustices to some, advantages to others, it has helped us to achieve greater personal dignity and more material wealth than any nation in the world."

"Men cannot be impressed into good citizenship. If they are to cherish the freedoms which come to them under democratic self-government, they cannot be disciplined into devotion. Instead, they must be taught to value the great spiritual possessions to which they are born, by assuming from childhood a share of responsibility for safeguarding those possessions."

"Good citizenship springs from an appreciation of the great value of our institutions and from active participation in them."

"Good citizenship springs from an appreciation of the great value of our institutions and from active participation in them."

On Monday, Wednesday and Friday, each week, Canadian National operates a through sleeping car from the Okanagan for passengers destined to Prairie, Eastern Canada and U.S. points. Awake next morning aboard The Continental Limited. Okanagan sleeper goes as far as Blue River, where passenger transfer is arranged to space already reserved.

And, of course, the C.N.R. also operates a through sleeper to Vancouver, six days a week.

MORE ABOUT

BOARD OF TRADE

Continued from Page 1
Reeve R. A. Johnston and Mrs. Johnston were guests of the board, the former congratulating Mr. Schumann and the trade board for bringing up the membership and holding it at a high level. He declared the board had obtained one hundred percent co-operation from the council last year and could expect the same in the coming year.

Toast to the Ladies
Mr. G. A. Laidlaw's toast to the ladies was well presented while Mrs. S. A. MacDonald gave an able reply stating on behalf of the ladies that the trade board is add-

ing to the prestige of the community and wishing the board every success.

Mr. W. M. Wright introduced the guest speaker, Mr. R. T. Rose, executive secretary of the Vancouver Trade Board. Mr. Rose's address will be found in another column.

Highlight of the entertainment part of the program was the appearance of Kay Hamilton's Summerland's girls' choir, conducted by Miss Hamilton, with Paul Birch as piano accompanist and Miss Joyce Schumann assisting with her violin in one number and Miss Shirley Gardiner as vocalist in another selection.

When Reeve Johnston arose to make the Good Citizen cup presentation he remarked that "unfortunately the gentleman is not with us," referring to Mr. Nixon's recent operation.

When presenting the cup to Miss Nixon, His Worship referred to "that wonderful father of yours who has served us so faithfully for thirty years."

Reeve Johnston declared Mr. Nixon is one of the outstanding municipal authorities in the province today, and a man of whom the citizens are proud.

"Tell him we wish him speedy recovery and when he comes back from hospital we hope to have him sit in a brand new municipal hall before Christmas." His worship concluded.

Final items on the program were the presentations of honorary life memberships to Messrs. Harry Dunsdon, Magnus Tait and Charlie Wharton, and of Red Cross badges of service. Stories on these presentations can be found in other columns of this issue.

MORE ABOUT—

LIBERALS TO NOMINATE

Continued from page 1
This decision brought Reeve R. A. Johnston of Summerland before the convention with the view that "this is one of the most important conventions ever held, due to the fact that there is a conflicting feeling in the riding."

Therefore, Mr. Johnston moved that the nominating convention be adjourned for thirty days at the call of the chair.

This motion was later amended with the time element eliminated. Oscar Matson, Penticton, seconded the motion and considered that any decision made now would be premature as if a candidate were to be chosen the very best man possible should be picked out.

Asked for guidance by one delegate, Chairman Thornton declared he was at sea. "I don't know what will 'take place,'" he admitted. "I will gather my executive together and from there will take steps."

Numerous speakers debated the Johnston-Matson motion, many of them being opposed as they wished to finish the nominating that evening.

"Name a candidate," "Let's get cracking," and similar calls echoed through the hall. One speaker believed he had been called to Kelowna under false pretenses if the convention did not proceed to nominate that night.

Another speaker declared that "by repudiating Liberal policies you have played into the Conservatives hands." To this H. K. Bearsto replied: "We haven't got onto Liberal policies yet tonight."

"If you pass this motion you give the Tories thirty days' head start," warned A. W. Gray. He wished to reconvene again right that night.

C. E. Oliver, Penticton, a defeated Liberal candidate in Yale, who boasted that he was welcomed into the Conservative nominating convention at Penticton, told of the session of that gathering and how the majority of Conservatives wanted a joint candidate.

He warned that if there is a split vote no free enterprise candidate will be elected.

A. W. Gray still urged that the meeting reconvene to nominate a candidate that night.

Another speaker, from the north, asked, "who cares about the Conservatives? We want to defeat the Conservatives."

Frank Valair, also from Vernon, evidently spoke for the strictly party supporters when he indicated that he did not care if the Liberal candidate is beaten, provided there is a Liberal candidate nominated.

Another speaker jumped to his feet and suggested that the "Conservatives and Independents here tonight get together and have a meeting of their own and let us Liberals get on with our meeting."

Then came another discussion when Mr. H. V. Craig moved that "we proceed to nominate a candidate tonight and then adjourn."

"We are concerned with the forthcoming federal election, not the one in 1956 or any other date," he advised. "We are concerned with conditions in 1949. George Drew has ambitions to become prime minister and he may succeed in his ambition. It will be unfortunate for Canada, as he will displace the Liberal government which has such a fine record of administration."

"But Drew has to get rid of a Liberal majority. To do that every seat is important to him, including Yale. If, in Yale, a CCF candidate is elected, it won't affect us as Liberals as much as to elect a friend of George Drew."

"You Liberals have to deal with 1949 and be sensible about 1949," he demanded. "Nothing would please George Drew better than to elect a candidate in Yale with your assistance."

"You are just putting yourself on the sucker list, by considering any such motion as that introduced by Hayman. I'm on one sucker list already and that sucker list is the one played by the Conservatives in Montreal and Toronto. They play the tune and you are going to dance to it."

Mr. Craig went over some back history and pointed out that for

years, "Jimmy Jones was too smart for us," in South Okanagan riding and for years no Liberal candidate could be elected.

"But finally we elected Harris and then Bull. We didn't do too badly with no prospects. If we wake up now we can elect a Liberal in Yale. We may be able to fool Mr. George Drew and keep off one more sucker list," he concluded.

H. K. Bearsto then went into a lengthy discourse which urged that the Liberals do some thorough searching to find the strongest candidate possible.

He called the Hayman resolution a "negation of democratic principles" and asked what would be done for the "young Liberals growing up around us" if such a resolution had been adopted.

"Do we believe in principles or do we believe in expediencies," he queried at one other stage. "I hope to have the privilege in this election of voting for St. Laurent."

By this time it was 11:20 o'clock and Oscar Matson pleaded for the Reid Johnston motion sought an hour earlier "to give us time to look around for the proper candidate." He admitted that he would choose Doc Fitzpatrick of Rutland on the spot if the latter would consent.

Speaker after speaker jumped up to argue technicalities but when Reid Johnston and Oscar Matson agreed that their motion gave the opportunity for the meeting to reconvene as a general session that evening the resolution was passed, at 11:40 o'clock.

Then Mr. Hayman moved that his resolution be re-opened, but the legal aspect of this was challenged by Mr. Craig.

At 11:45 o'clock Mr. Craig moved an adjournment. Chairman Thornton pleaded with the meeting for guidance as to the general intent of the convention. Art Gray, another defeated candidate, wanted the meeting to go on record as being opposed to any "coalition with the Tories."

Finally, Mr. Hayman obtained a seconder, with Mr. Craig objecting to any further consideration because of the lateness of the hour. Oscar Matson said he (Craig) was "contrary-minded."

Finally a standing vote was taken on the Kelowna resolution and it was defeated by a narrow, unannounced majority. No proxies were used.

Mr. Hayman had one final try when he asked the meeting to adjourn and bring his question before the locals, their decision to be brought before another convention.

"If we join with the Conservatives then you can close up shop as far as the Yale Liberals Assn is concerned," warned A. W. Gray. "You would never have another Liberal association again." He called for "no truck or trade" with the Conservatives.

"What is Gray trying to do, tell Penticton what they should think?" fought back Oscar Matson. "Why try to force your opinion on us?" he chided.

Ed Newton, Kelowna, called on a coalition with the "people on the left" rather than the Conservatives.

An out-and-out party campaign speech was delivered by R. F. Cruikshank, Kelowna. He stated that he had never seen so many "money-minded Liberals" in his life as when he asked them to do some work at the last election.

"Not 25 percent of the men who voted for Chambers went out to work for him or he would have got in," Mr. Cruikshank declared. "We've got to function or we are licked. The CCF hasn't a chance in the federal field; Drew is the

man we are afraid of."

He reminded the gathering of the Tolmie "fiasco," which he claimed to have been caused by "selfishness" on the part of the Tories. "They are so selfish they can't get along with themselves."

He referred to the late Viscount Bennett's "bombastic complex", which was "just like Drew is now."

"If we elect Drew in this federal election, then there is just as big a chance he will make as big a mess as Bennett," the speaker warned, believing this would result in a CCF official opposition.

He referred to the "Anscomb dirty double-cross".

"Let's go the Liberal way. If we don't elect a Liberal then it is nobody's fault but everybody's in this room."

At shortly after 12 midnight, with half the delegates already departed homeward bound, Jim Hendry of Penticton, complained of the futility of coming all the way to Kelowna for an evening and not accomplishing anything.

This brought a real blast from Chairman Thornton who had made 23 trips up and down the Okanagan to get this convention underway, as compared to Mr. Hendry's one. Mr. Hendry apologized for creating the wrong impression.

Then H. K. Bearsto introduced his resolution calling on a committee of four, from Vernon, Kelowna, Summerland and Penticton, to search the valley for one man to represent the consumers, labor and other interests in this riding... "a man who knows labor and understands it."

Mr. Hayman brought to the chairman's attention that his resolution to bring the Kelowna motion to the locals was still before the meeting. Charles Tupper of Penticton seconded the move. But this was again defeated by a depleted number of delegates.

Again came Mr. Bearsto's motion and after considerable more debate, some of it irrelevant, the motion found favor with the meeting. When it passed, Bob Hayman, on behalf of the Kelowna district Liberals, promised full support to any candidate chosen.

Before conclusion just before one o'clock Tuesday morning, the meeting accepted the invitation of W. G. McGregor, Penticton Liberal president, to have the next nomi-

nating convention at Penticton. Some Summerland delegates, because of slippery roads and the long wait for the ferry did not reach home until nearly four o'clock.

WCTU Convention To Be Held Here

Mrs. Robert Arnott, Peach Orchard road, was hostess to the executives of the Trout Creek and Summerland Women's Christian Temperance Unions on Thursday, March 10.

Plans were made for the district convention to be held in the Baptist church, West Summerland, April 19-20, when the provincial president, Mrs. Jas. Lade, who is also the national president, will be present. Delegates are expected from Kamloops, and throughout the valley to the border. Billets will be supplied for those requiring them.

Mrs. Lade will address meetings both evenings, and on the second night there will be a banquet, to which members of Summerland clergy and their wives will be invited. Arrangements are being made also, for a film to be shown, and for two medal contests to be held.

Well-Baby Clinic At Trout Creek

Through the kindness of Mrs. Cecil Morgan in lending her home, it has been possible to establish a well-baby clinic at Trout Creek. This is held the last Monday in each month, and is a great help to mothers in that district. Last month 19 babies were immunized and since this was evidence that it filled a need, the clinic will be continued by Miss Joan Appleton, public health nurse.

BAPTIST MISSIONARY TO SPEAK ON SUNDAY

Rev. Arthur D. Matheson, a missionary on furlough from India, is making a tour of Baptist churches in the province during March, and will speak in the Baptist church here next Sunday at both the morning and evening services.

Ten LOBA Members Travel to Princeton

Ten members of the LOBA lodge went to Princeton on Thursday, March 10, for a special meeting held there that day. Those in the party were, Mrs. E. Gould, Mrs. Eveline Gould, Mrs. Walter Gould, Mrs. G. Johanson, Mrs. Bert Brydon, Mrs. Wm. Pattie, Mrs. J. Broderick, Mrs. Don Fountain, Mrs. Bob Armour and Mrs. J. H. Walton.

The ladies arrived in time for the banquet, which preceded the meeting, addressed by B.A. Mrs. Scott, of Toronto, Ont. The Grand Mistress of B.C., Mrs. Mianie Thomas of Princeton also spoke.

After the lodge meeting, the Princeton LOL were invited to come in, and the Master of the Black Degree and the Master of the LOL, Mr. Bob Miller gave greetings. Mr. J. R. MacDonald of Princeton was another speaker. The Mistress of the Pentiction lodge, Mrs. G. Taylor brought a message from that centre, and Mistress Mrs. Wm. Pattie spoke for the Summerland lodge.

Following the formal part of the program a social time was enjoyed.

Health, Welfare Topics at W.I. Monthly Session

Mrs. C. H. Elsey, the vice-president, took the chair for the March health and welfare meeting of the Women's Institute held in the Oddfellows' hall on Friday afternoon, March 11.

With the growth of the Institute in numbers there has been also considerable enlargement of scope, and the business meeting covered many things. It was decided that various appeals for donations of money would be held over until later in the year, when they would be re-considered.

Mrs. Gordon Ritchie, convener of the health and welfare committee, gave a report on cancer control efforts, mentioning that the Summerland quota for the annual drive for funds in April is \$300.

She summarized, too, the outstanding points of the Red Cross meeting, addressed by Col. Robertson, of the blood donor committee, at which she represented the Institute.

It was noted that women donors outnumber men 3 to 1. An appeal for donors was made when the clinic is here the first week in May.

Mrs. E. R. Hookham, convener of the used clothing collection, said that the final shipment of clothing to complete the efforts that have been made the past three months, was on March 3. Altogether some 1600 pounds have been sent. There are 20 pounds of woolen material left, and it was suggested that this be made into blankets, either to sell or to send overseas. This idea was adopted as a very good one.

A letter of appreciation of the garments shipped previously was read to the meeting.

On display was the rug which Mrs. C. Orr has made during the past month to be entered in the Tweedsmuir competition. It has been done in pastel colors and shows fine workmanship.

A second display was of the pictures which have been submitted for possible inclusion in the Summerland pictorial calendar for 1950, which the Institute hopes to have ready for sale this fall. The April meeting will take the form of a talent tea.

RETURN FROM SINGAPORE

Mr. and Mrs. R. D. McLeod, the latter formerly Jean Kercher, who have been back from Singapore a short time, and Mrs. K. M. Blagborne, went to Vancouver on Wednesday for a holiday of about a week.

VISITING ABROAD—

Mrs. W. C. Kennedy, who has been visiting her parents, Mr. and Mrs. J. A. Read, for some time, returned to her home in White Rock, B.C., on Sunday evening. Mrs. Read accompanied her daughter to the coast.

Mrs. J. H. Walton visited Mr. and Mrs. J. McInnis in Keremeos last week.

Dr. J. C. Wilcox was in Kamloops last week in connection with a soil survey which is being done there on DVA land.

Mrs. J. E. O'Mahony went to Vancouver on Sunday night to attend a provincial meeting of the Canadian Cancer Society, of which she is an executive member.

Mrs. Ralph Blewett is in Vancouver this week.

Mrs. Summers of the Shirley Ann Beauty Shop went to the coast on Saturday night for a short visit.

Mr. and Mrs. A. McLachlan are holidaying at Vancouver, leaving last Saturday night.

Mr. Bert Berry left last weekend for Vancouver where he is having a checkup at Shaughnessy.

Mr. Sandy Caldwell is in Vancouver this week.

Mrs. David Munn and her two small sons, George and Jimmie, went to Vancouver on Tuesday night to visit Mrs. Munn's parents, Mr. and Mrs. Geo. Challenger.

Mrs. Sandy Fenwick and her small son Francis will fly to the coast at the week-end to spend about two and a half weeks in Victoria.

Mrs. Reuben Huva is visiting her parents, Dr. and Mrs. Dixon, in Vancouver.

Mrs. H. A. McLean went to Greenwood on Sunday to stay with her daughter, Mrs. J. Forshaw for a short time.

Mrs. R. M. Darke is a visitor in Kamloops this week, going on Tuesday to visit her brother-in-law and sister-in-law, Mr. and Mrs. G. E. Tedder.

Mr. Alan Calvert, of the experimental station office staff, returned on Sunday, after attending the annual bull sale at Kamloops, and renewing old friends and acquaintances in Kamloops and Vernon, during the past week. Mr. J. E. Miltimore of the department of animal husbandry at the station attended the bull sale also.

Mrs. F. E. Atkinson was in Vernon on Monday in connection with her work as provincial president of the Rebekah lodge.

Mr. and Mrs. Fred Schwass went out to the coast on Sunday and plan to return today.

VISITING HERE—

Mrs. Alex Bell and Miss Laura Bell of Kelowna, and Miss H. Bell of Victoria were weekend visitors of Mr. and Mrs. E. C. Bingham, Prairie Valley.

HOME AGAIN—

Dr. and Mrs. C. C. Strachan are back again after about a month spent at the coast.

It was very disappointing to Mrs. F. V. Harrison that, because of illness, she was forced to return home, and was unable to attend the Girl Guide provincial council meeting at Vancouver last week.

Mrs. Florence Stark, who has been visiting her son-in-law and daughter, Mr. and Mrs. W. H. Fleming in Oliver, for the past ten days, returned at the beginning of the week.

MARBLES IN THE SNOW
Marbles have been on the go for a few weeks now, but it was rather incongruous at West Summerland on Monday afternoon, to see five earnest little boys crouching in an intent circle playing 'nuts' and 'everythings', with snow falling all around.

Two Local Girls At Students' Recital Held in Pentiction

A students' concert, given by pupils of registered music teachers of Pentiction, Oliver and Summerland was held on Friday, Mar. 11, in the Legion hall, Pentiction.

The recital was given to an appreciative audience, in a friendly, informal atmosphere. This happy feeling must have been felt, even by the first very young performer, who opened the program, because after playing her little piece she turned to her teacher and said: "That was good, wasn't it?"

Each teacher entered two pupils and Miss Kay Hamilton sent Miss Jane Woolliams and Miss Jill Sanborn as Summerland representatives. All the numbers were of a high standard. Jane played a Handel Prelude, which is a festival test piece this year for students under 16. Jill's contribution to the program was a number called Purple Twilight.

Both were well received, and a credit to the girls and to their teacher, who has done much to advance music in this community.

NEW CHURCH SIGN

There is a new sign on the Lakeside United church which has been obtained by the board of managers of that church, and which Mr. Vernon Charles erected.

RETURNS TO HER HOME

Mrs. Carl Krause, who slipped on some ice near her house and broke her ankle, was able to return home from the hospital on Sunday.

JOINS LOCAL HOSPITAL

Miss Wilma Stewart, R.N., who has been nursing at Salmon Arm, has joined the staff of Summerland hospital.

Expect Pastor for Church of God

Rev. Will Rabel of Fort Steele was invited to visit the congregation of the Church of God, Trout Creek, and speak at some of the services, which he did last week. This growing pastorate is building a parsonage, and is hoping to have a resident pastor by June.

A number of members of the church knew Mr. Rabel previously, and it is probable that he may become the new minister.

He spoke in the church on Sunday, March 6, and again on March 13, in the meantime visiting several members' homes.

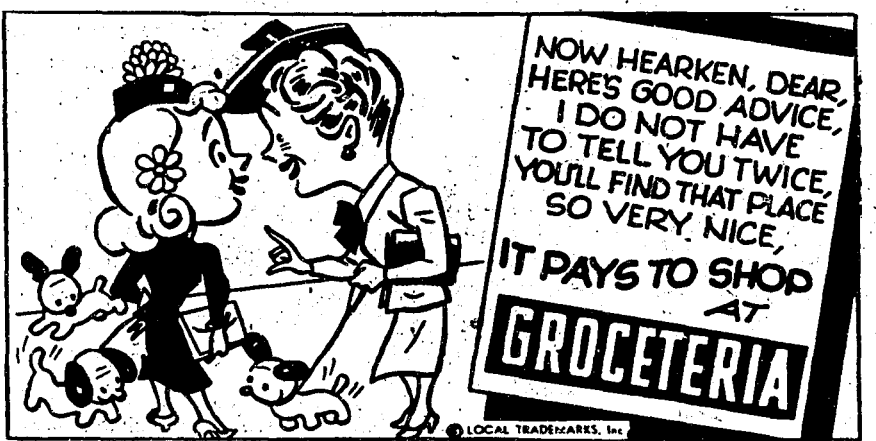

Officers Elected At CYO Meeting

A CYO meeting was held at the home of Miss Luella Polesello on the evening of March 13. This meeting was well attended, and it was felt that progress in CYO plans was made.

The newly-elected president is Lorne Logie and the secretary, Luella Polesello. The club plans to go to Oliver on St. Patrick's Day, to attend a social evening.

On April 22, it is planned to hold an evening of fun here, for the CYO members from Rutland to Oroville, with Keremeos invited, too.

After the meeting refreshments were served by Luella and her sister.

NEW SALES MANAGER—

J. B. LANDER

Two brothers will hold top positions in the sales department of B.C. Tree Fruits Ltd., the central sales agency which has the responsibility of marketing the entire tree fruit crop in central B.C. With the announcement last week by Mr. A. K. Loyd, president and general manager of Tree Fruits that J. B. Lander will take over the post to be vacated by Dave McNair in June, a second member of the Lander family takes a prominent post in the sales agency affairs. A. C. "Art" Lander has been an assistant sales manager of this central sales agency for many years.

"Babe", as J. B. is affectionately known throughout the Canadian fruit trade, started in the fruit business as a boy at Yorkton, Sask. In World War I he enlisted in the Canadian expeditionary forces and went overseas. On his return, he entered the fruit and vegetable brokerage business and remained in that trade until 1938 when he operated a fruit and vegetable shipping business for growers in the Kamloops area.

Later he was manager of the C.F.D. branch at Regina and on the request of the Dominion government was loaned to the W.P.T.B. at Ottawa where he assisted Mr. E. J. Chambers, administrator of the fruit and vegetable division for several years. Later he was transferred to Toronto to the post of general manager of the Wartime Food Corp., which was concerned chiefly with the regulation of fruit and vegetable supplies during the war years.

Following this term with the government, Mr. Lander entered business in Toronto on his own account.

He is expected to visit the Okanagan within the next week or ten days.

Vocational Training Most Important Part of School's Guidance Program, W. H. Durick Tells Rotary Club Here

The place Guidance occupies in the school, as well as in the everyday life of the pupils was the subject of an interesting talk by W. H. Durick, high school staff member, to a recent meeting of the Rotary Club of Summerland.

The speakers traced the importance of guidance down through early days to the present time, pointing out the importance of this subject in each civilization.

In grandfather's time, he pointed out, there was a limited choice of occupation. There was the home and church, which were the centres of life, and only a few vocations.

Present day times present an entirely different picture, with the growing tendency to move from rural to urban centres, "where the home and church are not necessarily the centres of interest."

Homes today are generally small, with little work to do around the house, and the head of the family is absent most of the day at his work.

Competing Interests
"The church has many competing interests", Mr. Durick pointed out, naming among a few the movies, restaurants, sports clubs, youth organizations. They are all competing to become the social centre for youth. Ease of travel by which means youth can get to places they are not known in a short time is another factor of present-day life.

"Today, youth sets its own conduct, so youth has to make its own choices, whether they be for good or bad," he declared. "We leave youth to choose his own vocation and, to a large extent, his own religion and mate."

"This is something new to society," he remarked, pointing also to the myth of romantic love which is thrown at youth through the screen, songs, stories and radio.

In the schools, guidance takes the form of putting the facts as much as possible before the students and letting them do the choosing, he stated.

In the matter of guidance, the home is important throughout the youth's life, while the church provides the philosophy and sets the goal for youth.

Vocational Training
In the school, guidance is incorporated in a number of different ways, through health, information, recreation, personal habits, social habits whereby the student must be taught to live cooperatively with society and vocational training.

In the latter category, the schools can do the most, Mr. Durick considered. First of all the

child's abilities must be ascertained and compared to the jobs which need these aptitudes and skills.

Comparison should be made to indicate how the student fits in with his own group and his group standing over a large number of persons. Intelligence tests indicate the skills the student is fitted for and the level in life he should attain.

Aptitude tests indicate what skills the youth can learn quickly, and there are also interest inventories and personality tests.

"Students sometimes haven't a true picture of what some jobs entail," he believed, as they have been glamorized by the radio and press. The true facts about the jobs must be given to youth.

Encouragement by the parents can be a wonderful thing if the youth has the aptitude, but if he hasn't the aptitude or interest in the job then he may run into frustration, Mr. Durick warned.

"We are trying to give the pupil information about himself," the speaker declared, "and about the jobs which are open to him. We must also check on the student's plan and clarify his ideas."

He termed the scheme of summer employment for youths wishing to enter certain types of employment as a valuable aid in guiding students towards their right vocation in life.

"We lack the time for individual counselling in school hours, but I hope that some day we will achieve our objective in counselling," he concluded.

CORRECTS STATEMENT

David Wright has pointed out to The Review that in the story supplied this newspaper on the last AOTS Club monthly meeting he was named as leader of the opposition in the Boys' Parliament. He reports that he was a member of the official opposition but not the leader.

Spartan Apples Now On Approved List

Several apples are worthy of mention report D. S. Blair and L. P. Spangelo of the division of horticulture, Central Experimental Farm, Ottawa.

Edgar and Newtown, both introduced by the Central Experimental Farm, are recommended for extended trial.

Edgar is an attractive apple, of good size and quality and ripens after McIntosh. Its chief merit is that it has a little longer season than McIntosh. Tree is equal to McIntosh in hardiness but is slower to come into bearing.

Newtosh is one of the best new winter varieties under test at Ottawa. Fruit is highly colored, has firm flesh and is of good quality. Tree is as hardy as McIntosh, is vigorous and productive.

Mantet, introduced by the Morden experimental station, is a promising hardy early variety. Fruit is attractive, of good size and above medium quality, ripens with Meiba.

Prairie Spy, a Minnesota intro-

duction, is a winter apple of considerable hardiness but is biennial in habit. It resembles Northern Spy in appearance but is somewhat lacking in quality. Several bud sports of Melba have occurred in recent years which are superior to Melba in appearance, firmness of flesh and keeping quality.

Some of these sports recommended for planting include: Melred, introduced by E. D. Smith and Sons and those originated by A. W. Pate, J. Platts, G. Byshe and E. Robertson. Melred and the Pate sport are of outstanding merit.

Red Atlas, originated by Wm. Sovereign, Kakabeka Falls, Ont., is identical to Atlas in shape, texture of flesh and quality, but is more highly colored. It is recommended for trial where Atlas is grown.

Spartan, a Summerland experimental station introduction, resembles McIntosh in appearance and although ripening two or three weeks later is of the same storage season as McIntosh. It appears to have better handling qualities than McIntosh. Tree hardiness at Ottawa is still to be evaluated.

Continuation of Social Services Vital to Community Progress

The Social Security Tax is specifically designed to improve health, protect the aged and relieve want throughout our province. Your government contributes as much as 80% of the cost of various social services carried on in your community.

GOVERNMENT SUPPORT OF MUNICIPAL SERVICES

Two-thirds of all money paid in Social Security and Municipal Aid Tax Collections is set aside for services . . . Old Age Pensions, Mothers' Allowance, Child Welfare, Control of Tuberculosis, Cancer and Venereal Disease, Public Health Nursing and Medical Inspection of School Children, Payment of Doctors' Bills in all cases of persons in receipt of Social Services of any kind. Hospital Grants and Mental Hygiene program. Many of these services are administered by the local municipal government, supported by Provincial Grants from money supplied by you through the Social Security and Municipal Aid Tax.

DISTRIBUTION OF TAX RECEIPTS

All money raised through the tax is used for Municipal Aid and Social Services.

EXEMPTIONS REDUCE AVERAGE RATE

A wide list of exemptions, including food, coal and wood, essential commodities and services, have the effect of reducing the actual rate of taxation. The Social Security and Municipal Aid Tax is not a hidden tax. Everyone contributes. Low-income groups have either an immediate or deferred benefit.

Three Pretty, Young Girls Will Compete for Title of 1949 Spring Fair Queen

Three pretty young girls from the Summerland elementary school will be the contestants for the honor of Fair Queen at the annual Summerland Board of Trade Spring Fair on May 23 and 24.

An innovation in the Fair Queen contest this year is that the contestants are being sponsored by three Summerland organizations and it will be on the basis of tickets sold that the queen will be decided. It is anticipated that the Queen Contest will be concluded about ten days prior to the Spring Fair, so that final arrangements for the crowning ceremony will be held.

The three girls are Rose Anne Harrison, Merle Alice Heavysides and Constance (Connie) Marilyn Shriner.

These three girls were chosen by pupils of the advanced grades in the elementary school as their choices for Spring Fair princesses.

A large number of girls were selected for the contest and the pupils narrowed the list down to these three first choices.

Three Contestants

Rose Anne Harrison is 14 years of age, the daughter of Mr. and Mrs. Metro Harrison, of the Rialto theatre. She was born in Dauphin, Man., on January 12, 1935. She will represent the Rotary Club of Summerland as Princess Rotary.

Merle Alice Heavysides is the daughter of Mr. James Heavysides and the late Mrs. Heavysides. Born in Edmonton, Alta., on April 14, 1935, she will be 14 years of age before the contest closes. She is the representative of the Summer-

RED CROSS ARTS and Crafts instructor gives this hospitalized veteran pointers on the intricate art of weaving. Weaving, leather-craft, toy-making and rug-hooking prove most popular courses given in 24 DVA hospitals across the nation.

Red Cross Badges of Service And Red Cross Corps' Pins Presented at Board Banquet

Presentation of Red Cross badges of service and Red Cross Corps pins proved a pleasing finale to the Summerland Board of Trade annual banquet at Ellison hall last Thursday evening.

Reeve R. A. Johnston officiated at this presentation which included 12 Red Cross members and four Red Cross Corps workers.

"These members of the Summerland Red Cross Society who are being honored by having the Red Cross Badge of Service presented to them have been active in Red Cross work for at least five continuous years," expressed His Worship.

"They have voluntarily given much of their time and thought, so that Summerland's contribution to Red Cross work in the province is outstanding for a municipality of this size."

Reeve Johnston also informed the gathering that Mr. D. F. Brewer, Summerland's oldest citizen had been awarded his badge of service at his home, as he is not well enough for public gatherings.

"During the war years he collected quantities of string and wound it into balls, in this way keeping the workroom supplied with string which was needed constantly."

Four Corps Pins

It was explained that the four Red Cross Corps pins were being presented by the Canadian Red Cross Society in appreciation of the services given by these women in the corps during the war years.

"They were helpful in many ways, assisting at carnivals, making supplies for the Red Cross shop and on call for all activities," Reeve Johnston declared.

Mrs. R. G. Russel, who was in charge of the Summerland Corps and members Mrs. William Pattie, Mrs. William Hack and Miss Margaret Smith, were the recipients of the pins.

Red Cross members who received their badges, and their citations were:

Dr. F. W. Andrew, honorary president, gave the proceeds of the sale of his first book, "The Story of Summerland". The book is valuable as a history of the district, as well as for the substantial sum raised for Red Cross.

Miss Marian Cartwright, member of the executive since 1939, a willing and faithful worker in the workroom, and in all Red Cross projects.

Mrs. Chas. Clarke, did a great deal of sewing, came regularly to the workroom, took sewing home week after week.

Mrs. A. K. Elliott, capable president since 1941, active and interested in all departments of Red Cross.

Mrs. Bertha Gillis, member of the executive, convener of the

home nursing committee, headed a group of nurses who have made thousands of surgical supplies that have been forwarded to headquarters.

Mrs. C. E. McCutcheon, head of the workroom wool committee—in charge of giving out supplies for knitting, and of receiving finished garments, keeping the standard up to a high order. Mrs. McCutcheon did a great deal of knitting for Red Cross, and is still doing it.

Mrs. J. E. O'Mahony, member of the executive for a number of years, active in the workroom, helped pack materials for shipments, interested in all parts of Red Cross and home nursing.

Mrs. R. C. Palmer, member of the executive, and competent treasurer of the branch. Her record is that since 1939 the auditors have never found a mistake in the books.

Mrs. E. Russel, an officer in the Red Cross Corps, and now head of the active reserve of the Red Cross Corps in Summerland.

Mrs. B. Tingley, teacher-director of Junior Red Cross. Our school had 100% membership in Junior Red Cross, and raised a very creditable amount of money for the work.

Mr. J. Y. Towgood, 1st vice-president of the branch, convener of the Summerland blood donor panel, which ran efficiently and successfully on the two occasions when a blood donor clinic was held here. At present he is working on a third clinic to be carried out the first week in May.

Mrs. A. W. Vanderburgh, the secretary of the Red Cross since 1939, convener of the Red Cross Shop during the war years, which was a very successful undertaking financially.

Council Interested In Insurance on School Buildings

When School District No. 77 (Summerland) discusses replacement insurance on its school buildings with insurance company representatives on April 4, a municipal council representative will be present to determine how insurance on other municipal buildings will be affected.

Municipal council decided on this course on March 8 when School Board Chairman C. J. Bleasdale declared that the school board feels it should be on its own when allocating its insurance.

At present, school buildings, hospital and all municipal structures are covered by one group insurance plan which has been operating for some years.

Mr. Bleasdale pointed out that the schools have been under-insured and an attempt is being made to place a proper replacement coverage. He felt that if the school building coverage is separate, then it will not disturb the policies on the other buildings, as every time there is an increase, then new policies are issued, under the present system.

Would Hold Out Transient Photographers

Endorsement of legislation proposed for this session of B.C. legislature by the Professional Photographers of B.C., was given by the council on March 8. The legislation aims at controlling the visits of transient photographers to B.C. for the protection of the public as well as that of resident photographers. The association is endeavoring to raise the standard of the profession in this province, the council was informed.

Mel Ducommun is in charge of the ticket sales contest on behalf of the Spring Fair committee and states that all three organizations are busily engaged in organizing their ticket selling committees in the endeavor to have their respective candidate elected as Fair Queen.

Although final program arrangements have not been made yet, it is anticipated that the drawing for the three articles will take place at a windup Spring Fair dance and frolic at Ellison hall on the evening of May 24.

Each ticket sold will represent a vote in the Fair Queen contest for the girl whose name appears on the ticket.

Trade Board Banquet Hears Tales of Pioneer Days as Life Memberships Presented

Tribute to the pioneers whose hard work and vision have helped in building Summerland to its present position where "we have everything we could possibly want", was paid by J. E. O'Mahony, 1949 board of trade president in presenting honorary life memberships to three old-time residents, Harry Dunsdon, Magnus Tait and Charlie Wharton.

This presentation came as a highlight of the board of trade annual banquet in the Ellison hall last Thursday evening.

Harry Dunsdon, who hiked from Sicamous to Summerland district in 1891 as a newcomer straight from Harrow, England, provided many amusing anecdotes in a spontaneous manner to keep the large audience "in stitches" throughout this reply.

Mr. Dunsdon explained that he had never been approached to become a board of trade member.

"It gives me great pleasure to be here, especially as I think back and remember that there are more people in the hall tonight than were in the whole Okanagan when I came here in 1891."

The agile pioneer, whose appearance belies his nearly eighty years told the banquet audience some details of his first appearance in the Okanagan, when he arrived at the request of the late Bob Faulder.

After leaving the train at Sicamous he walked to Vernon, stayed overnight and continued on to Okanagan Mission, as Kelowna was non-existent then. There he met David Lloyd-Jones who informed him that "Capt. Shorts might come along sometime", to take him across the lake.

Finally, he reached the lakefront in lower town, where he was given directions how to proceed to the upper reaches. He was also asked to bring up the mail sack and on arriving on "The Flat" he met Bill

Final Survey On PGE Drives Road Stakes

J. M. Stewart, member of the board of directors of the Pacific Great Eastern railway and engineering consultant to the deputy minister of railways, accompanied by Mr. C. R. Crysedale, railway construction engineer, left for Ottawa on Sunday to lay before federal officials details of the \$10,000,000 Pacific Great Eastern railway extension from Quesnel to Prince George in connection with the government's application for federal assistance, it is announced by Premier Byron I. Johnson.

In the meantime, a railway survey party has been organized and will be sent into the Quesnel district on March 15 to lay final stakes for the first 14 miles, of the Quesnel-Prince George PGE extension.

The camp will be established at Quesnel and construction work will proceed at the earliest possible moment to extend the line to the top of a rise where the permanent material yard will be located.

The work parties are being placed in the field while extra staff has been taken on in the railway department under Mr. Stewart to draw up plans and specifications with a view to calling tenders for construction of the first section of the line early in May.

From that point on the work will steadily advance as stakes are laid down and tenders called, the premier concluded.

Do Not Expect To Use Apple Floor Price

There is little likelihood that the Okanagan apple deal will be forced to use the \$2 floor price set by the Dominion government on B.C. Interior Newtowns, Staymans, Rome Beauties and Winesaps from the 1948 crop, B.C. Tree Fruits Ltd. has intimated.

It is confidently expected that the entire deal will wind up with all the 1949 crop sold, despite the proportion of small sizes.

Minister of Agriculture, Gardiner informed E. D. Fulton (P.C. Kamloops) in the House of Commons last week that he had received representations from the B.C. FGA for a floor price for unmarketed apples consequent on the loss of the British market.

The government guarantees a return of \$2 per packed box to a maximum of 200,000 boxes for sizes 180, 198 and 234 of Newtowns, Staymans and Rome Beauties and, sizes 216, 234 and 235 of Winesaps.

COUNCIL NAMES PRICE FOR CORNER OF LOT

Summerland council will offer Mrs. E. Stewart \$150 for one-tenth of an acre of her property needed to improve the sharp corner on the municipal road running west from the Trout Creek Service Station and then north to the Sandhill. Mrs. Stewart was loathe to lose her walnut trees in this corner but informed the council she would accept a fair offer.

exhibited in the Old Country.

In further reference to "old-en" days, Mr. Dunsdon remarked that there were only six people living north of the Ellis ranch on the west side of the lake when he came here.

Mr. Dunsdon is proud of the fact that he raised a family of seven and raised a big laugh when he added, "with the help of Dr. Andrew", referring to Summerland's pioneer medical practitioner.

Mrs. George Forster, Mr. Dunsdon's daughter, was the third girl to be born in Summerland. She accompanied her father and received a bouquet of flowers, presented by Mrs. F. W. Schumann, wife of the board chairman.

Sagebrush Country

Magnus Tait, another pioneer of the Trout Creek area, told the gathering that there was nothing but sagebrush and rattlesnakes in Summerland area when he first came here. The only building in the West Summerland area was the Barclay ranch.

"I never joined the board of trade because I didn't think I was a business man," remarked Charlie Wharton, popular skating rink manager, the third recipient of the board's life membership cards. "No business man would ever had stuck with a rink," he continued. "So I guess the board of trade thought that the only way to make me a member was to give me an honorary membership," he laughingly concluded.

Hospital Insurance Premium Payments Should be Made Now

British Columbia citizens who have not yet paid their six months' hospital insurance premium are advised to do so without delay.

"This," said Dr. Hershey, "will avoid their receiving delinquent notices which district offices are now preparing." Persons who experience difficulty in paying the full amount of their premium at one time are given the opportunity of paying in two semi-annual instalments, due December 31, 1948 and May 31, 1949.

Alternatively, where monthly instalments are being made, the sixth payment is due and should be completed this month in order to obtain full coverage for 1949.

Sudden and unexpected illness has already occurred in thousands of families this year and over 40,000 hospital accounts have been submitted to the hospital insurance service for payment.

"Quite apart from complying with the law," said Dr. Hershey, "it is sound and economical protection to be covered by hospital insurance against unforeseen hospital costs. The hospital insurance service has no authority to pay hospital bills on account of persons who have not brought their premium payments up to date."

Condition of Soil is Major Factor--Mason

(Experimental Farm News)

Satisfactory nutrition of fruit trees depends on three main soil factors: nutrient supply, moisture content, and physical condition. Most growers fertilize and irrigate carefully. Attention to the physical condition of the soil is equally important in contributing to maximum production, says J. L. Mason, Dominion Experimental station, Summerland, B.C.

Organic matter and its decomposition product, humus, constitute the most important factors in promoting good physical condition of surface soils. Organic matter can be supplied by growing cover crops, by mulching with straw and hay, or by applying farmyard manure.

Cover crops can be controlled by an occasional mowing or a light discing. In non-irrigated areas cover crops may use too much of the soil moisture available. Mulches or barnyard manure, however, can be successfully utilized.

The physical condition of subsoils can be improved by the roots

of cover crops. Grass roots are effective down to 18 inches, and the roots of alfalfa will penetrate several feet. Water enters heavy soils primarily through root-holes, worm-holes and cracks.

Organic matter improves soil structure, and important factor in the capacity of soil to absorb rain or irrigation water rapidly. Cultivation impairs soil structure and should be kept down to a minimum in orchards.

Debris from cover crops and mulches also protects the soil surface from soil erosion, which is serious on light soils and on hill-sides.

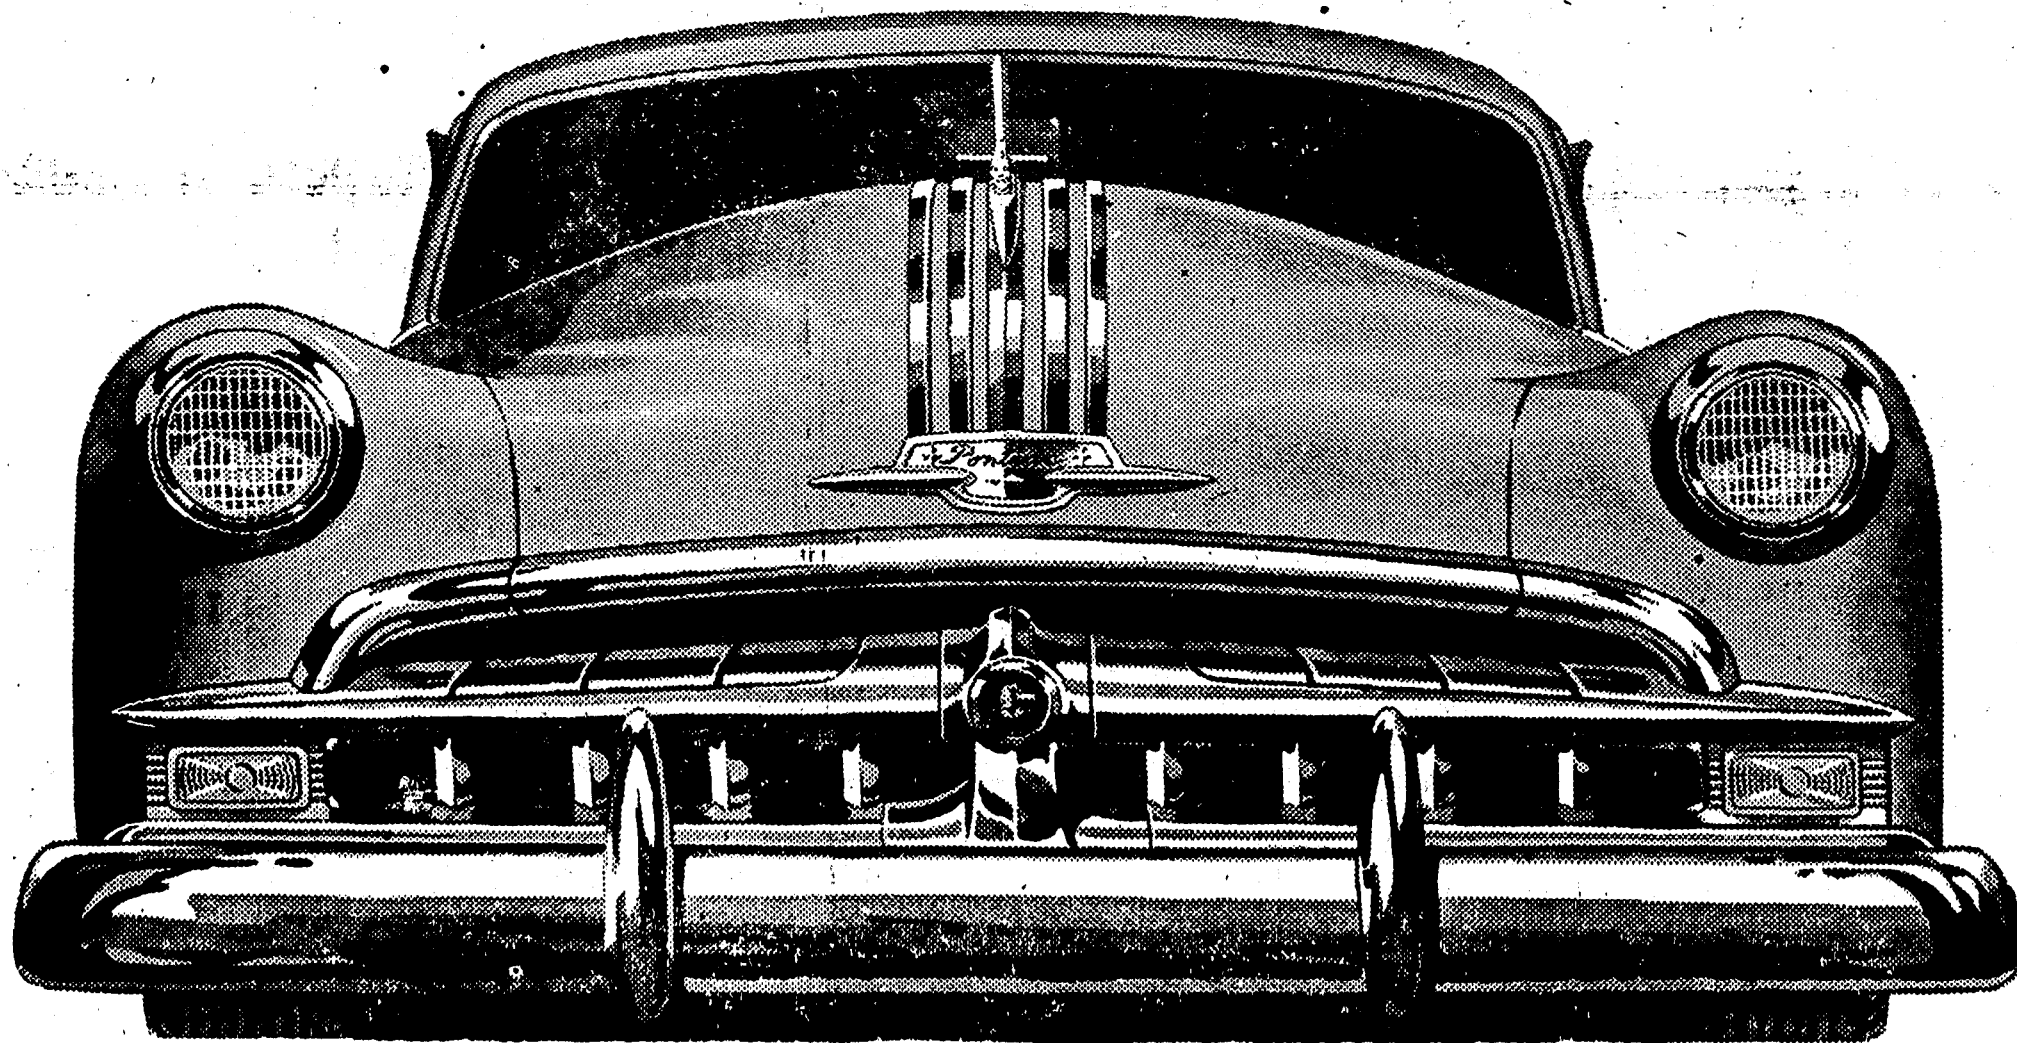

Addition of organic matter increases the productivity of soils through improving their physical condition.

Alderman Horn Municipal Head

Alderman J. H. Horn of Kelowna is the new president of the Okanagan Municipal Assn. which held its annual meeting in Penticton recently. Alderman J. W. Johnson of Penticton is the new vice-president with Councillor C. E. Bentley of Summerland and Reeve Dolph Browne of Coldstream as executive members. C. E. Brandon, Kelowna's city clerk, is honorary secretary-treasurer.

Farm Forums Discuss Many Types of Insurance Coverage

Insurance of many types was discussed in the first series of Farm Forum meetings for the New Year. The opening broadcast on January 3 was called "A Cushion for Disaster" and dealt with crop insurance.

In B.C. the 1948 Fraser Valley flood was named most often as the force most detrimental to crop and livestock production. McNaught Road, Promontory, and Matsqui forums were all affected by the flood; and East Chilliwack and South Biggar Road forums reported wind, frost, drought, and plant and animal pests and diseases as well.

Members of West Lateral forum, at Oliver, said "frost is the only thing that has wiped out an entire crop" but they have also experienced wind, hail, and losses due to plant pests and diseases.

A few forums, including West Lateral and Hazelmer, debated whether occasional instances of hail or frost could be classed as disasters. In this vein, Mount Lehman said: "Drought will sometimes cut our income and cause added worry and expense, but not to the extent of wiping us out, or even nearly so."

A question for discussion was "In view of your experience, how do you think such risks should be met?" Three forums suggested management practices be planned to avoid or prevent losses due to frost, wind, or plant pests. Peace Arch forum said "diversified types of farming seems to us a good way to reduce the risks."

TOURIST TRAVEL

Figures released by the B.C. Government travel bureau of the department of trade and industry show a slight decrease in the volume of travel by automobile through British Columbia border customs ports. In 1947, entries under travellers' vehicle permits totalled 205,216; in 1948, the total was 191,637, a drop of 13,579 automobiles.

Five forums were of the opinion that the government rather than private companies should be the agency to undertake insurance for losses due to natural disturbances. Several Fraser Valley forums thought the municipal, provincial and dominion governments should establish a disaster relief fund, set aside from the general revenue each year. In this way, they said, money would be available at once for disaster relief.

Hazelmer forum, at Surrey, reported "We are all co-op members in a small way. By extending this co-op idea these reverses could be handled. A good example is the T.E. free area."

East Chilliwack forum members condensed their findings to "put by during the years of plenty as a safeguard against lean years."

Good Value Received

The second broadcast of the series, on January 10, investigated fire, automobile accident, and life insurance.

Ten of the thirteen forums felt that they had received good value for money invested in fire insurance. Mount Lehman group stated "The rate is low for the protection given." Members of Maquire Road, Promontory, and Matsqui forums felt that more for your money can be obtained through mutual fire insurance groups. Peach Arch forum, objecting to present fire insurance rates, felt that the overhead of companies was too high because there were too many salesmen.

Most of the forums agreed on discussions questions concerning automobile insurance. There were eleven No's to the query "Do you think you get good value for your money in automobile accident insurance?" The two exceptions were East Richmond and Ryder Lake Group I. East Richmond felt that good value is obtained because many people through sad experience find that

it would have been much cheaper to buy a premium than pay for damages.

The last question for discussion was "Why do many farmers not buy life insurance?" Seven groups felt that the farmer puts the money back into the farm with the idea that he would build up his security that way. Six groups stated that the farmer couldn't afford to keep up the payments either through present lack of funds or future uncertainty as to markets. Three forums felt that better value could be obtained by investing the money in some other way than in life insurance.

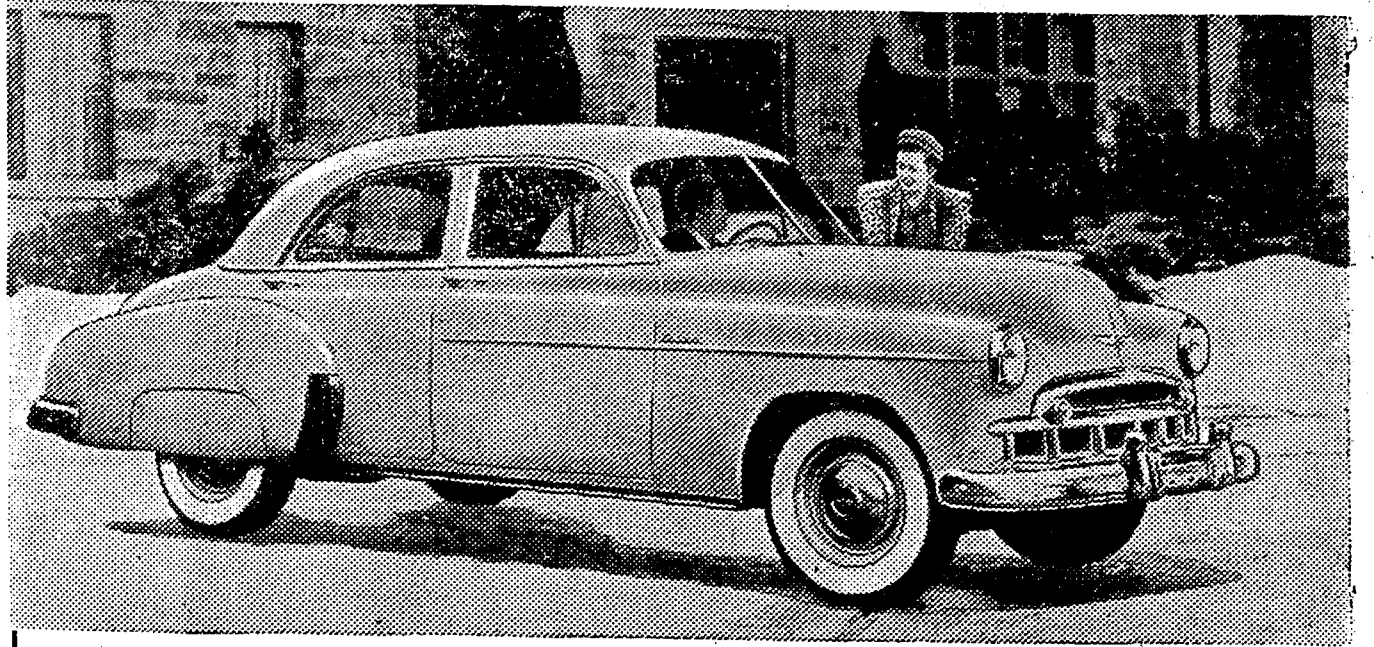

Social Security

On January 24, forums reviewed the problems of social security administration. The discussion groups unanimously agreed that the trend toward social security measures is a good thing. Mount Lehman forum said "We feel that the government should be getting ahead quicker." Peach Arch forum at Surrey stated that in their opinion a price floor for agricultural products is just as necessary to farmers as unemployment insurance is to the industrial worker and should be included in any comprehensive plan of social security. Promontory forum, in the Chilliwack district emphasized that citizens receiving security should provide some of it themselves.

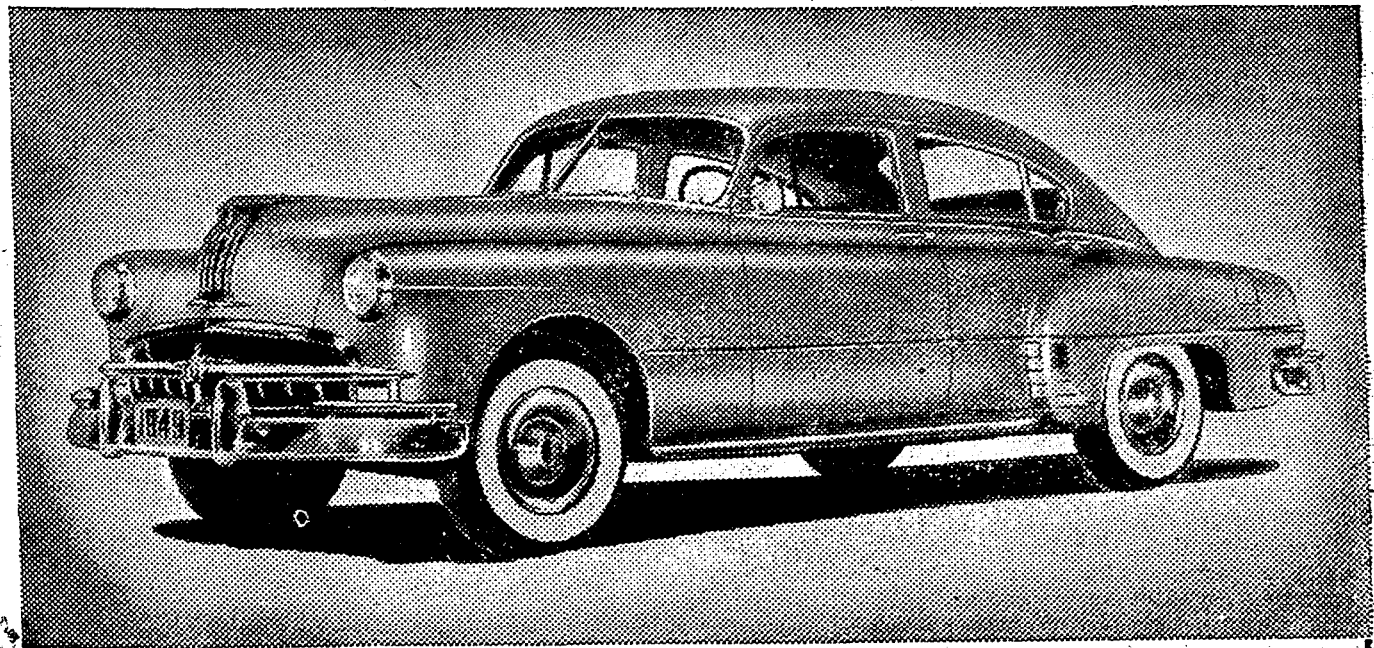

Several suggestions were forthcoming as to how the old age pension should be financed. McNaught Road forum, also at Chilliwack, said: "It was thought that the federal government should take all responsibilities." This view was shared by East Richmond, Peach Arch, South Biggar Road and Mount Lesman. "The method of financing should be through sales taxes" stated four groups, while two forums favored payroll deduction schemes.

All groups agreed that the means test should be abolished. Peach Arch forum spoke for the majority in this statement: "We think that everyone should receive an old pension at 65, and without a means test. In that way, industry and thrift would not be penalized, and those who didn't need it would pay it back in the form of income tax".

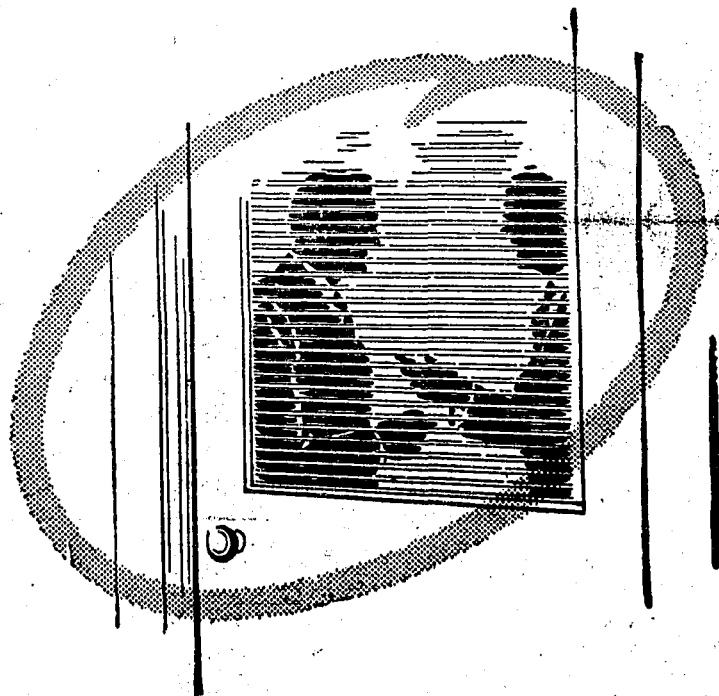

New Chevrolet and Pontiac Here Now!

The 1949 Chevrolet is completely restyled, lower, wider and is available in two series—Fleetline and Styleline—with a wide variety of body types. Shown here is the Styleline four-door deluxe sedan. There has been an immense increase in glass area with all windows deepened and widened. The windshield takes full advantage of wider bodies, curving inward at the narrowed pillars to improve sideway as well as forward vision. The gain in visibility over 1948 has been as much as 30 per cent on comparable models. The new Chevrolet for 1949 is powered by a rugged six-cylinder, valve-in-head engine.

THE NEW 1949 PONTIAC is available to Canadian motorists in four series—Chieftain, Streamliner, Fleetleader Special and Fleetleader Deluxe. Shown here is the Streamliner four-door sedan, which like the Chieftain, is available on 120-inch wheelbase with a six or eight-cylinder engine. The Fleetleader Special and Deluxe are both available on 115-inch wheelbase with a six-cylinder engine. Completely redesigned, the 1949 Pontiacs offer an entirely new concept of functional beauty. They are wider and lower than any model yet offered in the Pontiac line. GM's Hydra-Matic Drive is available as an option at extra cost on certain Pontiac models.

It's a private matter

Your bank is there to serve you in a personal, private way.

When you make a deposit your passbook is closed to anyone but you and your bank. When you arrange a loan, that is strictly between you and your bank. When you discuss private financial matters with your bank manager, you know they will stay private.

Such privacy is the very essence of Canadian banking. It permits you to deal with your bank and to use its many services on a basis of complete confidence and trust.

Meaning and Purpose of Public Health Explained to Women's Institute Meeting by Dr. H. Zeman

"The meaning and purposes of public health", prefaced with the answer as to what is public health and what it entails, was the subject of Dr. Helen Zeman, director of the South Okanagan Health Unit, guest speaker at the monthly Women's Institute meeting held in the Oddfellows' hall on Friday afternoon, March 12.

Primarily, the health of the public is the focal point of the work of the unit, Dr. Zeman explained. This work starts with the individual, as the health of each individual affects the community as a whole.

In broader aspects, community health is advanced through control, prevention and curative measures, with the unit working hand in hand with the physician.

An eminent surgeon said: "Prevention runs as a thread of gold through the whole field of medicine." The public health department interests itself entirely with the prevention of disease; cure is the business of local doctors. Those things which affect the

birth rate, and the death rate, are the concern of health units; economic losses through illnesses, their causes, and how they are spread. All this is maintained through the system of nurses, doctors, sanitarians, sanitary engineers, statisticians, bacteriologists, and epidemiologists, that are the personnel.

Discovered Germs

Public health efforts were begun in the 19th century with the discovery of the germ theory, and the knowledge that they were living growing organisms. Previous to that time, burial, fumigation, and burning were the only known means of combatting dread diseases. Epidemics were common, and terrifying. There were rapid changes in sanitation, disposal of sewage, cleanliness, so that now an epidemic of any proportion is practically unknown in countries where public health efforts are made.

Means are constantly in force to destroy harmful bacteria in water, and to eradicate rats,

mosquitoes, and body lice, which might spread disease.

With the discovery of vaccines, another stride in prevention was taken. Cholera was the first disease for which a vaccine was made.

Dr. Zeman stated that, after vaccination for smallpox, if there is a "visible scar at the point of infection, there is protection from that disease for life".

New discoveries such as the anti-serums are found continually, which prevent, modify or give life immunity.

Handling of Food

Food handling, a possible source of infection, is supervised. Those handling food are given courses. All food in public eating places must be covered and refrigerated.

Milk pasteurization is essential, as it destroys all bacteria that will produce disease in humans without affecting the food value. Through the department of agriculture there is inspection of dairy herds, sanitary inspection of premises, and of the milk handlers. There is food control in all restaurants, camps, tourist camps.

Early recognition of degenerative diseases such as TB and cancer is made through clinics, and these cases are referred to treatment centres.

Child welfare is maintained by school and baby clinics, with examination and referring to the doctor if ailments are found. Early detection and encouragement of treatment prevent many illnesses, she said.

Emotional factors are corrected through learning of home conditions. There is immunization for infants and school children. Emphasis on cleanliness, dental care, pre-natal and post-natal attention is given. Help from the public health nurses in carrying out doctors' orders is useful to many mothers.

Case findings of communicable diseases are reported, and education in treatment and prevention, through contacts in school and home are of great importance.

The business of the public health department is to "stimulate interest and curiosity" towards the prevention of disease. Through proper planning, equipment and supervision, there is a great economic saving.

"We lend a helping hand wherever we can," said Dr. Zeman, in conclusion.

Mrs. E. R. McLarty expressed the thanks of the meeting to Dr. Zeman.

O. L. Jones' Notes From Parliament Hill

MARCH 3, 1949

(By O. L. Jones, M.P. for Yale)
The public galleries have been taxed to full capacity during the last three days, with people who came to listen to what had been expected to be a first class debate on what is now well known as the Hong Kong letter. This letter was written by Mr. Drew to the then Prime Minister (Mr. Mackenzie King) in 1942. It contained certain charges against the administration for its conduct of the Hong Kong enquiry.

Claiming that the Minister of Justice (Mr. St. Laurent) had made indecent and proper use of the RCMP, the letter proceeds to tell of charges made by the minister against a man then in public office. Mr. Drew charged that the minister had not proceeded with the case, nor had the decency to withdraw, or apologize for the charge.

The letter referred to, according to the prime minister, cannot be made public, because the British Government, which was involved, would not give consent, as it would give a clue to a military code, but I rather think the P.M. meant that the documents, of which this letter was a part, could not be published in full. Anyway, Mr. Drew has now released to the press the letter, which he wrote in 1942. Its publication has not produced the explosion one was led to believe would take place on its publication.

Mr. Drew, in his Montreal speech, is reported to have said, "Make no mistake about it, we are fighting for personal and economic freedom here in Canada. We are in danger of losing that fight to the bureaucrats who accept the basic philosophy of Karl Marx no matter what political name they may adopt."

The prime minister read out a list of the persons classified as "Bureaucrats" by Mr. Drew; these included many well known Canadians, among them some Conser-

vatives. When challenged to name which one was a follower of Karl Marx, Mr. Drew failed to provide the name. So ends another attempt of the Progressive Conservative leader to lower the prestige of the prime minister.

According to a report in the Penticton Herald of February 10, both Vernon and Penticton are anxious to have the postal facilities increased in the respective towns. This is a matter that has had my constant attention since I was elected.

Early last July the post office department, Ottawa, promised to make a complete survey of the postal services in Yale. This was undertaken early last summer. As a result Enderby, Oliver and West Summerland are already in process of getting their post offices brought up to date.

This same survey disclosed the inadequate conditions in both Vernon and Penticton, as well as some of our smaller offices. Since last April, all post offices with a stamp sale over \$3000 per annum are under the jurisdiction of the public works department.

This department arranges for all rentals, repairs, and new buildings to accommodate post offices. I have made representations to this department on behalf of our various towns, particularly the two I have just mentioned, while I have reason to believe that provision will be made in the estimates for both.

I have a letter written on March 1 from Mr. Fournier, minister of public works, which says that these offices are receiving consideration. But he regrets to say, however, that until the estimates are tabled in parliament, it is not known just what provision will be made for these projects.

The greatest percentage of population increase in Canada took place in our riding, making our static postal facilities totally inadequate.

MARCH 10, 1949

Last week I received many letters requesting the removal of the "Austerity" or Luxury Tax of 25%. These letters came mostly from Grand Forks, Vancouver, Penticton, Oliver, Summerland, Vernon and Kelowna. From the letters one gets the evidence that this tax is not only unpopular, but is discriminatory. Our only chance to remedy the situation rests on the last definition.

To classify one particular trade as a luxury trade is not sound

practice—I refer to the jewellery trade, nearly all of whose stock is taxable.

The argument may be well advanced that clothing and food under given conditions become luxuries, when shoes in some exclusive stores retail at \$30.00 a pair and chocolates reach \$10.00 a box. This question has been brought before the government by several speakers already. Petitions and several requests have reached the government but the stock answer is that

a government policy affecting income or expenditure is not made public until the government is ready to act; in this way they claim to be protecting both the interests of the trade and consuming public.

Not only do I think the 25% is discriminatory, but the original object of the tax imposition has been attained, that was to conserve our dollars for war purposes and free skilled men from the jewellery trade for technical war work.

A similar request has been made to the government that they remove the Luxury Tax from soft drinks and chocolate bars. In this case the argument was advanced that youngsters should be encouraged to drink mineral water at a nominal price, in public, rather than experiment with other and more harmful drinks.

Our opportunity to discuss these items will come during the budget debate, when the revenues of this department are under review.

It has been a common subject of controversy for some time now that the government is resorting more and more to ruling by order-in-council, but very few people realized just to what extent this was true.

On Wednesday last the prime minister gave this information, in answer to a question by Mr. Deffenbaker, the grand total of Orders-in-council, including those passed under War Measures Act, came to 145,382, for the period from Sept. 1, 1939, to March 4, 1949. The prime minister pointed out that 90% of these were administrative in order-in-council being necessary to put into effect the wishes or ruling of parliament. It was also pointed out that the same system is practised by the British parliament.

With such a vast number being passed each year, it would be surprising if among them there was not the odd one that called for comment, or criticism; such was the case in relation to those passed allowing the entry into Canada of certain French families, against

the ruling of the immigration department. These cases are still under review; should the courts decide against them, then even entry by order-in-council does not give protection against deportation. The explanation given by the prime minister has taken the mystery out of a controversial subject, especially by the publication in Hansard of the first 200 of such orders, was the air clarified.

On Wednesday two votes were taken in the house, one on the speaker's ruling, the other on the CCF sub-amendment to the throne speech. I am not going to deal with the vote, but with the method of voting. Each time a vote is taken, there is a period of ten to twenty minutes taken up while the bell rings to bring all the members into the chamber, then the clerk of the house calls each member by name as the member stands up to indicate his support. This takes another thirteen to fifteen minutes, so with two votes in one afternoon, it seems to me much

valuable time is lost. In the British parliament all members file into separate corridors when a vote is taken — those for in one, and those against into the other. It then becomes a matter of counting as they enter. I could not say if it is more expeditious that way or not, but I do feel that some more effective method could be devised than the one we now employ.

We, the members from Western Canada, are looking forward to a short holiday in the west at Easter.

If any constituent has a personal problem that comes into my field of work, I shall be pleased to give such a person an opportunity to state his or her problem to me during the week after Easter.

REVIEW OF SPORTS

Summerland Cagers Take 9-Point Lead Into Second Game of Interior Playoffs Against Kamloops Red Devils

Playing a zone defence which the visitors could not crack, Summerland's Intermediate A (under 21) champion basketball club took a 45-36 lead in the finals of the division against Kamloops Red Devils on Saturday night at the school gym. But they will need every one of those nine points when they travel to Kamloops this Saturday for the second in the home and home total-points series, as the Kamloops floor is about twice the size of the local gymnasium.

Biggest crowd to see a hoop game here in several years filled nearly all available seating capacity of the small hall on Saturday to witness the young players take a small lead in the final series for the McPherson cup and the interior cage championships.

Winning team in this series goes to the coast to meet the mainline—Vancouver Island champions.

Summerland boys were full value for Saturday's win although Kamloops lads were better ball-handlers, and were definitely in better condition.

Although he was not the top scorer, Don Nesbitt was probably the hardest working lad on the Summerland team and he earned every one of his four field baskets, besides playing a great game defensively.

Main trouble with the local team, and this is one which has been the same for the past two seasons, is that the ball is not cleared away fast enough from the defense area. The ball is practically always brought up by a dribbling guard and, time after time, quick break-aways were forestalled when the ball handler did not shove the cassa up to the front area soon enough.

McLean proved himself a good playmaker throughout, while Dunham, although not showing to as good advantage as usual, was high scorer with fourteen valuable markers.

Moore was too excited at the start but steadied down as the game progressed. Vanderburgh was not hitting the hoop as he should have done, as he didn't allow himself time to get a set shot away. Thompson sank three sensational long shots which whished through without touching the rim, while Ruppel turned in a handy

Kamloops played the rest of the game with four men, so Young relented and allowed them both to come back into the play.

Play was quite even in the first quarter the score being knotted at 9-all. Summerland took charge in the second quarter, with the result that they led 20-16 at the halfway point.

There was no change in the relative position of the teams in the third quarter. Summerland still leading 30-26 going into the final quarter. In that period, Summerland outshot Kamloops 15-10 to establish the nine-point lead.

In the preliminary, Summerland's Int. B squad scored a 38-26 victory over the Pentiction Juniors, Denny Hack and MacRae being the leading point-getters.

Summary
Pentiction Juniors: Ball 6, O'Connell 2, Boulbee 6, Tidball, Betts 10, Johnson 1, Barry Ball 1, Jeffrey—26.

Summerland Int. B: Day 9, D. Hack 14, Jomori, Kato, MacRae 12, Weitzel 2, L. Nesbitt 1, Thornthwaite—38.

Kamloops Red Devils: Wakita 2, Marriott 14, Camp 6, Beesley 11, Martinson 1, McDonnell 2—36.
Summerland Int. A: McLean 5, Vanderburgh 7, Nesbitt 9, Dunham 14, Moore 2, Thompson 6, Jomori, Adams, Ruppel 2—45.

HEALTH DEPARTMENT

Norman J. Goode, formerly district sanitary engineer for Saskatchewan in the public health engineering division of the national health and welfare division, has been appointed assistant public health engineer in the provincial health and welfare department's public health engineering division.

performance for the time he was on the floor.

Marriott was the outstanding player on the Kamloops team, which was composed of only six players. Camp played a heady game until he started to throw discretion to the winds and left the floor on five personals, while Beesley and Wakita played heads up ball.

Potted Wrong Basket

Martinson provided the amusement highlight when he became confused and tossed the ball at the wrong basket. Unfortunately for Summerland his aim was not good but the crowd gave him a big hand.

Refereeing was not up to standard for an interior final, Jim Hack being loathe to call any infractions. Twenty-four personal fouls were called, 23 of them by Young, Pentiction official.

Young became rattled towards the end of the game and when Vanderburgh and Marriott rolled on the floor for a loose ball and grabbed each other more than the object of their affections the Pentiction official ruled them both off for unnecessary roughness.

This would have meant that

Organize Baseball in Junior and Senior Ranks Throughout B.C. Interior

With the advent of spring, baseball is naturally in the air and already steps have been taken to organize a junior league throughout interior centres. The senior league will find out the score within the next week, it is expected.

At Salmon Arm on Sunday, a North Okanagan-Mainline junior boys' baseball league was organized to parallel the South Okanagan junior league, which attracted widespread recognition last year, with Summerland being declared champions.

These two leagues will operate on the same rule plan and at the end of the playing season the champions of the two leagues will play off for the interior junior championship.

Les Gould, stalwart organizer of the Summerland juniors, was present at Sunday's meeting in Salmon Arm, as were Frank Evans, Jim Watson and Scotty Gordon, all of Pentiction.

Under 21 Years

Major change in regulations this year will be the advancement of the junior age limit. Players will be admitted to this league play if they have not reached the age of 21 by June 20.

Officials of the North Okanagan-Mainline league are Ray Fuoco, Kamloops, president; Joe Camozzi, Kelowna, vice-president, and Myrtle Beswell, Kamloops, secretary-treasurer.

Kamloops, Kelowna and Revelstoke will be entered definitely in the northern loop, while Rutland and Salmon Arm are likely contenders.

In senior league circles, the first organizational meeting will be held in Summerland on

Junior Ball Tossers Again Elect Jacobs

Gilbert Jacobs, now attending UBC, was re-elected president of the Summerland Junior Baseball club at the annual meeting held at Les Gould's home on Monday evening.

Members of the South Okanagan championship team were eager to start their 1949 diamond revels when they gathered for their annual session and look forward to another successful season.

All of last year's players will be available again and it is hoped that other younger talent will make competition keen for the various posts on the team.

Age limit this year is being raised to under 21 at June 30 and the boys heard Mr. Les Gould explain details of the North Okanagan-Mainline league organization which took place last Sunday at Salmon Arm.

C. Brawner was selected as vice-president for 1949, with Ron MacRae secretary and Sandy Jomori treasurer. Business manager will be Joe Sheeley, while Jack Dunham heads the advertising committee.

Members of the refreshment committee are A. Gould, Murray Elliott and Norman Holmes.

It is hoped to raise sufficient funds to purchase new baseball shirts for the team and with this aim in view membership tickets are to be sold to all persons who wish to support the juniors and become members of the club.

One-Third Mark In Red Cross Drive is Passed

With the month half gone, the Summerland district Red Cross campaign has passed the one-third mark in banked receipts, Jack Dunsdon, local chairman, stated yesterday.

Just over \$1,000 has been received from a small number of canvassers and from private donations made directly to the Red Cross drive headquarters, Mr. Dunsdon states.

Most of the canvassers have brought in their receipts, he explained, but they are waiting until they clean up the entire area before printing in their receipts, he explained.

Summerland's quota for 1949 is \$3,000, which is approximately the sum raised in the canvass last year.

Canadian objective is \$5,000,000, which is two million dollars more than in 1948. Of this, B.C.'s objective is \$500,000.

Some Okanagan districts are more than half way through the drive already, it is reported.

Beggs Heads Credit Union

Gordon Beggs was selected as president of the Summerland and District Credit Union at the first meeting held this month.

Summerland district Red Cross campaign has passed the one-third mark in banked receipts, Jack Dunsdon, local chairman, stated yesterday.

Just over \$1,000 has been received from a small number of canvassers and from private donations made directly to the Red Cross drive headquarters, Mr. Dunsdon states.

Most of the canvassers have brought in their receipts, he explained, but they are waiting until they clean up the entire area before printing in their receipts, he explained.

Summerland's quota for 1949 is \$3,000, which is approximately the sum raised in the canvass last year.

Some Okanagan districts are more than half way through the drive already, it is reported.

Still no Action

Although it is five weeks since the survey party left here with the results of its work on Trout Creek, those plans had not been received by Hon. E. C. Carson, minister of public works, last week, Magnus Tait informed the Trout Creek Blood committee.

The minister has informed the committee that as soon as these plans are presented to him, an undertaking for the relocation of Trout Creek will be considered.

Carson last week that citizens of that area would be willing to put up \$1,000 of their own money to have the creek placed in shape.

Flood Control Work on Trout Creek Started; Expect to Spend \$25,000

First bulldozing work on Trout Creek channel was undertaken this morning as the provincial government commenced its promised clearing and straightening of the creek which caused the entire community so much grief during floodtime in 1948.

After months of negotiating a plan for straightening and deepening Trout Creek has been approved. The channel between the highway bridge and the experimental station bridge will be straightened, widened and deepened.

Clearing of the channel and dyking of the banks from the highway bridge to the lake is being included in the program.

It is anticipated that the entire program of Trout Creek improvement will run between \$20,000 and \$25,000. Most of the work will be done this spring but further improvement will be undertaken in 1950.

William Ramsay, former district public works engineer, who has been on the retired list, is being employed by the public works department to supervise the flood control work both at Trout Creek and Mission Creek in Kelowna area.

Billy Miller, Peachland, will be the foreman in charge of Trout Creek work and he has already hired Vic Parker and his bulldozer to start work this morning.

A crew of ten men will be employed for a week clearing the right-of-way along the new creek channel.

Sketch Plan For Municipal Hall is Here

Sketch plans for a new municipal hall have been prepared by an architect, Reeve Reid Johnston informed The Review on Tuesday following the council meeting when brief mention was made to indicate that some progress is being made on this project.

In 1947 an elaborate plan was prepared but was considered out of the reach of the municipality at this time.

No details have been revealed as to the present plans but it is known that the council hopes that the hall will be built on its Granville street property immediately east of the Bowldrome.

Negotiations are underway between the council and Mr. W. A. (Bud) Stuart, representing the Stuart estate, to obtain a strip of land from the west side of the Stuart orchard property to allow for a driveway on the east side of the proposed municipal hall.

If the Stuart orchard is ever subdivided, then provision would be made to extend the lane south of Granville through the orchard to connect with the highway to the east.

Cemetery Group Plans Spring Cleanup Work

Summerland Cemetery Committee is prepared to work with the council for improvement of the cemetery grounds and wishes to fulfill its proposal of installing cement curbs this spring.

It was proposed last year that if a municipal crew would lay out forms and provide cement, work parties would be organized by the committee to carry out the rest of the work on a volunteer work party basis.

At a general meeting of the committee Tuesday night, it was thought that such work could proceed after May 1, if the council could agree to co-operate to this extent.

Cleanup parties would also be organized in May and June to cut down weeds and generally beautify the grounds as far as possible.

Other committee recommendations include laying of topsoil on the exposed sandy portion to try and keep down dust and dirt. Experiments on weed killing and soil sterilization were undertaken last fall and will be continued, the meeting was told.

Councillors Eric Tait, Foreman E. Korcher and Engineer D. M. Wright will probably meet soon at the cemetery with Committee Chairman Vern Charles, Rev. H. R. Whitmore and E. H. Bennett to discuss plans for the cemetery improvement, especially the curbing program.

CAN PURCHASE FLUME

A. Coldham, Peachland, can purchase 288 feet of second-hand flume from the municipality at 35 cents per lineal foot, the council agreed on Tuesday.

Another Plan to Supply 440-Volt Power For Co-op Approved by Council

Still another plan of supplying 440-volt power to the Summerland Co-op cold storage building has been worked out between the company and the municipality, following the failure of the inside vault project receiving official approval by the electrical inspector.

Councillor F. E. Atkinson informed the council on Tuesday that the latest plan is to build a substation on a small portion of the Bolton property across the road and feed the power overhead

Mr. Ramsay and Mr. S. D. H. Pope, district public works engineer, Kamloops, visited Summerland yesterday, met members of the Trout Creek Flood Control committee and discussed the project with Reeve Reid Johnston.

They announced that the work would commence this morning with Mr. Parker's bulldozer being employed.

The new right-of-way for the creek channel has been mapped out and all residents whose property is on the creek channel have been contacted and have approved of the plan, Magnus Tait and Dr. R. C. Palmer, president and secretary of the flood control committee have stated.

The new channel cuts into private property, or what has been considered private property in a few instances, but none of the residents will raise any objection to this move, it is stated.

Between the two bridges a channel, nearly straight, is to be cut fifty feet wide with the banks sloping out one foot in three. The experimental station cliffs will be protected as the channel is cut away from the banks in the spots where most damage was done last year.

Below the highway bridge, the channel will be deepened and levees will be built where it is considered necessary. It is anticipated that further work will be done in this section next year.

Between Two Bridges
Between the two bridges, however, is considered the section which requires the most immediate attention. Above the experimental station bridge there is no need for any channel work as the descent from the canyon is quite steep.

Where it is necessary to swing the creek on a curve, that change in course will be quite gradual, the engineers advise.

Trout Creek residents are jubilant today that the government has taken action after many months of negotiation. Those residents have subscribed \$1,100 towards the work of flood control in the creek and yesterday, after those most affected were consulted and expressed their views.

SUGGESTS VOTE ON DISSOLUTION OF FIRE DISTRICT

Although it is not absolutely necessary from a legal standpoint, it would be better to have a vote of the district on the matter of dissolution of the West Summerland fire district, B. C. Braeewell, deputy minister of municipal affairs has informed the council.

Consequently, it will be necessary for the extraordinary meeting of the West Summerland Fire Protection Society tomorrow night to make a decision that a vote should be taken on the subject.

The district was formed by a regularly constituted vote of the taxpayers in the West Summerland district and will be dissolved in the same manner if the residents agree.

It is the general plan that fire brigade duties should be simplified by having a brigade serving the whole municipality with probably a fire brigade society to assist in the administrative duties in connection with the brigade.

The pump for the new fire truck has now arrived and is being installed. This pump was purchased from the La France Fire Engine & Pomito Co., at a cost of \$968.77. Delivery will be taken and payment authorized after Councillor C. E. Bentley inspects the pump at Pentiction this week.

across the highway to the top of the cold storage building.

The three 37 1/2 kva transformers will be removed from lower town service and utilized in other sections of the municipality but the present three 75 kva transformers will remain to service the other industrial concerns.

Three new transformers to supply 440-volt service will be installed for the co-op building and will be utilized exclusively for that concern's operation.

More Sprinklers For Local Ranches

Every council meeting sprinkler irrigation applications are being considered by the municipal fathers. At Tuesday's meeting, main application came from a group of five on Giant's Head road, headed by Gordon Robertson, who are going into a joint scheme to service 29 acres.

Some 1,800 feet of pipe has been purchased at a cost of \$830, while salvage value of the pipe being removed amounts to about \$300.

Other sprinkler irrigation applications approved were for Charles Bernhardt, Miss E. Holder, C. E. Betuzzi, J. M. Betuzzi, Mrs. E. Bartello and Ben Trafford.

Marauder Took Smokes But Left Beer at Legion

Either the marauder who broke into the Canadian Legion club premises on Friday evening or early Saturday morning was a teetotaler or he became frightened on his "job" as not a case of beer was disturbed.

Provincial Police are still searching for the thief who forced a front window of the Legion hall last week, broke down the canteen door with an axe and stole three cartons of cigarettes and \$17 in cash.

The door was badly wrecked as the axe was used indiscriminately, and a large portion hewn out around the lock.

Although there was beer for the taking, none of it was stolen.

The \$17 in cash represented sales of tickets made by Steward Harry Howard from books on the Spring Fair Queen contest representing votes for Legion Princess Merle Heavysides. The "take" from the canteen had been removed when the premises were closed for the night on Friday.

South Okanagan Junior Ball To Start First Week in May

Liberal Executive Meets Next Wednesday

An executive meeting of the Yale Liberal Assn. has been called for Kelowna next Wednesday, March 30. It is presumed that the next Yale Liberal nominating convention date will be set then. No word as to the four-man committee which was to select a candidate or possible candidates has been received in local Grit circles here yet. President Howard Thornton was to have picked this committee.

The B.C. Liberal Assn. meets in Vancouver on April 7 and 8, President Arthur Laing has announced.

Blood Donor Registration Cards Are Here

Annual visit of the Red Cross blood donor clinic has been set definitely as Monday, May 2, J. Y. Towgood, local clinic chairman has been informed from the coast.

A large number of registration cards for possible donors has been made available for this district and can be obtained at The Review office.

Representatives of many organizations have been picking up these cards this week and already a number of signed cards have been returned.

Later, notification of the exact time when the donor is required at the clinic will be mailed to each person who has offered to donate blood.

It is hoped that with an earlier start and a more united effort that Summerland will provide 200 pints of the precious fluid at this year's clinic.

If a sufficient number of persons wish the clinic to function in the afternoon it is thought possible that arrangements can be made for both afternoon and evening clinics.

Survey of Penticton-Summerland Road to be Commenced Soon; Hope Work Will be Started by Year End

Red Cross Drive Lags in This District

Early this morning, the Summerland canvassers in the national Red Cross drive had turned in \$2,087 of the \$3,000 quota for this district, Jack Dunsdon, campaign chairman, revealed.

There are still a number of canvassers who have not turned in the results of their drive but Mr. Dunsdon is worried that Summerland will not reach the quota.

Approximately \$3,000 has been raised by this district the past two seasons and it was hoped that there would be no decline this year. However, if the present returns do not improve such will be the case, it is feared.

The drive was to have closed this week but is being extended to the month end.

Kelowna exceeded its \$12,000 quota last week-end.

COSTLY BROKEN POLE

A. E. Howard Co. Ltd., insurance adjusters, have informed local council that investigation of the municipal claim for repayment of \$60.40 for damage to the electric light pole at the Darke corner on the Station road is still proceeding. The pole was struck by a Highway Construction Co. truck operating on the co-op fill in January.

Survey of Okanagan highway from Summerland to Penticton will be undertaken as soon as a survey party is available and it is hoped that construction work on relocating this section of road will be started before the end of the year, Mr. Harry Anderson, chief engineer for the provincial public works department, told The Review last Saturday shortly after the new provincial government building was opened there by Hon. E. C. Carson, minister of public works.

In answer to a series of questions put to him by this newspaper, Mr. Anderson declared that the route of the road is not known yet and will not be decided until after the survey is made.

He intimated, however, that the route will probably follow the present right-of-way but would be brought up to a standard equivalent to the newest stretches of Okanagan highway.

If the lakeshore route is followed, and there is every likelihood that it will be, the road will probably be shovelled out into the lake, Mr. Anderson intimated.

Electrical Workers Will Get Increase

Although the final draft agreement has not been signed yet, reading of committee meeting minutes on Tuesday revealed that the council and the International Brotherhood of Electrical Workers (AFL) have decided upon the scale of wages which will be paid to members of the municipal electric light crew.

Previous raise in wages was effected on February 12, 1948, retroactive to October 1, 1947.

The new wage scale, which has been subject of negotiation for some months would take effect on April 1, it is understood.

Subforeman, under the new deal, would be increased from the present level of \$10.45 a day to \$12.30; journeyman lineman would go up from \$9.75 to \$11.60; first year groundsman increase is from \$7 to \$8.80; and second year groundsman from \$7.80 to \$9.29.

Local Roads Hold up Well By Comparison

Summerland blacktopped roads are holding up well, although there are a few spots where heaving has occurred, council was informed at this week's meeting.

It was considered that the municipal roads are holding up better this spring than most other highways in the Okanagan. Reports from Penticton and Kelowna have indicated that roads there have heaved badly.

In lower town, where the provincial highway passes through the municipality some extremely bad potholes have occurred and at one time Monday evening seven cars became stalled in the "heavens".

The road to Penticton is breaking up badly and motorists have to observe extreme caution to prevent broken springs and other damage to their cars.

Junior Chamber Organization Meeting to be Held April 1

Brent Murdoch, Victoria, president of the B.C. Junior Chamber of Commerce and Will Carter, Penticton, vice-president, visited Summerland on Tuesday and made arrangements for an organizational meeting of a Summerland Junior Chamber of Commerce.

This inaugural meeting will be held in the Nu-Way Annex on Friday, April 1, with two prominent young business men of the community, Mel Dubcommun and Mate Kersey, taking a leading part in finalizing arrangements.

An open invitation is being extended to any young men of the community who wish to join this organization to attend this meeting.

Age sphere in the junior chamber movement is generally limited to the 15-35 group.

Mr. Murdoch is visiting many interior points in his capacity as provincial president and is officiating at the initial meetings of the Princeton, Osoyoos, Salmon Arm and Lumby junior chambers, which have just been organized.

There are 22 active junior chambers in the province today, with seven new units in the process of organizing.

Mr. Anderson stated that the expenditures of \$200,000 earmarked for Penticton-Trout Creek in 1949 and the \$400,000 appropriated for Penticton - Peachland portions of the highway in 1951 are being used as a guide only.

"If we can spare the equipment and materials the work will be shovelled through as soon as possible," he declared.

However, the main point in the three-year program announced earlier in the month by Hon. Mr. Carson is that Okanagan highway will be fully reconstructed as a modern artery by the end of 1951.

When work slows down on the Hope-Princeton crews and equipment will be released for work on Okanagan highway, he pointed out, so that later in the year some action can be expected.

With modern machinery it will not be difficult to construct a new roadbed farther out in Okanagan lake and provide a straight highway between Penticton and Trout Creek, thus eliminating the winding, tortuous trail which faces present-day traffic.

Lower Town Problem
"I'll admit that lower town in Summerland presents a major problem," declared Mr. Anderson at another point.

The chief engineer would not commit himself on the possible route, but declared that if it was not for the wharf in lower town the public works department would build the road straight through from Evans point to near the bottom of Peach Orchard and out off the congested lowtown area.

However, it may be necessary to purchase property along the lake-front and push a through road on a straighter line than occurs at present.

There will be no decision on this portion until the survey party has concluded its work.

Asked if the survey would be continued this year through to Deep Creek, where the present modern hard-surfacing work finishes, Mr. Anderson replied that this will be done if the survey party can be spared for that length of time.

Whatever route is chosen, the reconstruction of the highway from Peachland south to Penticton will be modern and will conform with the new road sections already completed.

Worst Stretches First
Acquainted with local regret that the work south from Deep Creek is not to be pushed this year, Mr. Anderson pointed out that his department had to tackle the worst places first and then proceed with in between stretches.

Continued on Page 4

Offers Opportunities

"The junior chamber movement offers young men an opportunity for self development in civic and government affairs, gives them an opportunity of learning how to organize a meeting, and the proper procedure for conducting meetings," Mr. Murdoch explains.

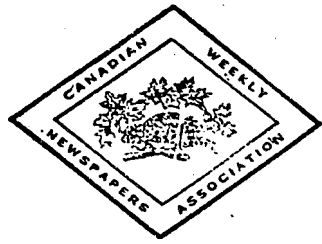

"It also teaches them how to speak before a group and express themselves clearly, concisely and constructively. The junior chamber also gives an opportunity for fellowship.

"Jaycees offer a real service to their community through a number of projects, such as:

"City beautification, tourist development, civic improvement, government development through the presentation of resolutions to provincial and federal governments, get out and register and get out and vote campaigns," he concluded.

Quite a number of young men have been approached in Summerland to join this organization and it is anticipated that the initial forming body will consist of some 25 young men.

Our Fire Protection Problem

TMORROW night, an important step in municipal progress may be taken when the West Summerland Volunteer Fire Protection Society holds an extraordinary meeting to discuss the dissolving of its fire district to be replaced by a municipal fire brigade system embracing the entire municipality.

Through the years, the fire protection society has accomplished much useful work primarily for the district it serves but also for the entire municipality.

This small group has organized and maintained a fire brigade, on a voluntary basis, which has been extremely valuable in protection of property from fire loss. The brigade was formed to function within the West Summerland district but in latter years it has been called upon to answer fire calls to all parts of the municipality, with good results.

Now, the brigade is functioning for two masters. If the fire is within the district the brigade responds under the guidance of the fire protection society. If the call is from other parts of the municipality, then it is answering under agreement with the municipal council.

With the completion of the new fire truck and the plan to cover the entire municipality for fire protection purposes, then it would seem that the time is opportune to disband the small district

and place the entire municipality under one scheme for fire protection.

But if this step is agreed upon, it must not be forgotten that the fire brigade cannot function under municipal control alone. To obtain the best results a fire brigade association or society should be formed from interested persons to provide an administrative body for the actual brigade members.

Such a society would probably function in much the same manner as the present district society, except that it would be representative of the entire area of Summerland. There would be a council representative appointed each year. Officers would be elected annually and the society would present its budget for approval to the municipal council.

This administrative body could keep alive the interest in fire protection work and carry out a duty which would not be possible for the municipal council to perform.

Other communities have worked out such a plan in a satisfactory manner. There is no reason why such a scheme would not work to the benefit of all Summerland citizens. But, primarily, the interest in fire brigade work must be maintained. The volunteers in the brigade must receive encouragement.

A Great Humanitarian Effort

TWO humanitarian steps have been taken by the Coalition government in recent weeks. The department of health and welfare has disclosed that programs for the control of arthritis and rheumatic diseases generally, and cancer have been provided in provincial estimates, in co-operation with the federal government.

In the case of cancer, the program is supplementary to the splendid work being conducted by the B.C. branch of the Canadian Cancer Society. Next month, this branch will be appealing for donations amounting to \$100,000 from citizens of this province in the annual "Conquer Cancer" campaign.

The B.C. cancer branch, through its lay education program, brings an increasing number of patients to treatment centres while the disease is still amenable to treatment.

Education of the public is an essential part of the Conquer Cancer campaign and through the voluntary subscriptions raised annually more and more people are being acquainted with details of the dread disease, more personnel is being trained and extensions of laboratory and clinical research facilities are provided.

The Dominion-Provincial program for cancer will not only assist the B.C. Cancer Institute

financially but will be utilized to further the campaign of the Conquer Cancer plan.

George Pearson, in announcing the arthritis and rheumatic disease plan, made the significant remark that "it is the small beginning of a big scheme."

At the outset, special hospital beds, clinical services and mobile units will be arranged to treat patients. B.C. is the first province to undertake a scheme of this kind on so broad a basis.

It is hoped that within a few years this program will be extended to offer wide relief to the thousands who suffer from rheumatic diseases of one kind or another. Today, there are some 45,000 persons in this province suffering from these diseases.

One of the big points in these three programs is that the government health services are striving to educate the public and provide services so that these diseases can be diagnosed and treated in their early stages when medical personnel will have an opportunity to correct the cause.

The relief of untold suffering is a great humanitarian effort and the government of this province is to be commended on its attempt to operate, in the interests of humanity.

Signifying Nothing

By
RUSTICUS

What I want to know is, when is spring?

Don't parrot that stuff about March 21 being the first day of spring; how can any fixed date mark such a variable season? One year we'll have warm balmy weather long before March 21, another there will be plenty of snow and near-zero weather at that time. So—when is spring?

Is it when the cold weather first breaks—when the first thaw comes, and bare ground shows up and the kids start playing marbles on it? That's often early March or late February; but it's unmistakably the first feel of spring.

Or should the term be applied only when weather gets warm enough for green grass, green leaves, and flowers—which places it much later?

And what flowers? The first 'oot blossoms, like strings of fluffy popcorn breaking out of mahogany buds, along about the first of April when the weather is still cool? Or the foamy acres of apple blossom, three weeks or so later, when the weather is warm enough for bees and humming-birds to be out to enjoy it?

Maybe the best time of all is in between the two, when the peaches are in bloom, pink against the blue of lake and sky, and the new green of the hills is stained with wild sunflowers in great yellow patches you can see for miles.

The first softball game on the school grounds is a pretty good sign. So is the first patch of gar-

den turned black by the old man's shovel or Joe Sheeley's roto-tiller, and the first seeds going in. And some stick up for the opening of the fishing season.

Me, I'll settle for any of it; any of spring is grand. But I would like to know when it legitimately begins. For all these spring signs listed spread from the first of March to the first of May, or later—many say that summer doesn't really begin till on in June. That's over three months; what part of it is really the start of spring?

If it's April or May, then March is really still winter, and there was no need to burst those blood vessels raging at all the cold, wet, cloudy weather we've been having; it's only to be expected. But if March 21—or any other March date—is official spring, then I want sunshine and warm weather thereafter or my money refunded.

Use do be, there was a surfer sign than either blossoms or youngster's games. Anyone who used to read Jimmy Butterfield's inimitable 'Daily Round' will remember his annual 'Ode to Spring'. Some think that Jimmy, who gambled he'd die and lost, who lived a while in Summerland years ago, was just about a shining example of a man who had sold his soul to the devil. But even they must admit he was a great columnist, and for the sake of both those who remember, and those who never knew him, I'd like to reprint that 'Ode to Spring' here.

"Er—spring!
 You perfectly priceless old thing!
 I'm frightfully bucked at the signs
 that one sees,
 The Jolly old sap in the topping
 old trees,
 The priceless old lilac and that sort
 of rot,
 It jolly well cheers a chap up,
 does it not?"

• It's so frightfully bright,
 So amazingly right,
 And one feels as one feels if one
 gets rather tight.

There's a tang in the air,
 If you know what I mean,
 And the grass, as it were,
 Is so frightfully green.

"Old fruit!
 You've given old winter the boot.
 The voice of the tallor is heard in
 the land.
 (I wonder what my rotten old cred-
 dit will stand?)

And the birds and the flowers (but
 especially the birds)
 Will be looking too perfectly price-
 less for words.

We shall have to get stocks,
 Of new ties and new socks,
 And of course we must alter the
 jolly old clocks.

So a young fellow's fancy
 Turns naturally towards
 The river and Nancy,
 Or Betty and Lord's.

In fact, as I said, you're a price-
 less old thing.
 Er—spring!"

Have You Done Your Share?

This year, the Canadian Red Cross Society is busier than ever, serving the nation. It is building a better and healthier Canada in which we may live. In country, hamlet and city, its work of mercy touches the lives of all of us. In ocean port or prairie town, Red Cross organizations are alert to the needs of the stricken. That need may arise around the corner or across the seas. But wherever it arises, the Red Cross is

ready: on the highway, in rural Outpost Hospitals, in veterans' hospitals or city homes, it tends and teaches our citizens. The arms of the Red Cross reach out to triumph over suffering everywhere. To ensure its success, the Red Cross needs your help to help others. Remember this when you make your contribution to the Society's 1949 fund campaign this March.

Pioneer Days

THIRTY YEARS AGO
 March 21, 1919

Summerland council met for another long session on Monday, the meeting extending from mid-morning through the afternoon and evening. Collector R. Pollock has been named acting clerk. The council expressed its determination that main ditches and flumes for the water system will be of ample capacity.

M. S. Middleton, Vernon, in an address at Corvallis, Ore., made the statement that the "fruit industry of B.C. has a most promising future."

A quarter ton of seeds were shipped from Summerland this week to Siberia. The shipment included 360 pounds of mangel seed, 180 pounds of carrot seed. L. D. Wilgress, Canadian trade commissioner at Vladivostok will receive the shipment from the Summerland experimental station.

A much-needed addition, 26 x 40 feet, is being built on St. Andrew's church for Sunday school purposes.

QM Sergeant George Fosbery of the forestry battalion has landed in Canada and is returning to Summerland this week.

Mr. and Mrs. P. G. Koop, who are leaving for England, were guests at a party arranged by the lawn tennis club at the home of Mr. and Mrs. E. B. May.

Robert Shannon has purchased the W. J. Docking lot in Garnet Valley.

South Okanagan riding estimates for road maintenance are listed at \$29,770.

Mr. and Mrs. J. Shepherd have taken up residence on their newly-acquired Adamson lot.

Major E. Hutton arrived from England on Tuesday and is a guest at the Hotel Summerland.

Horace Read of Seattle has purchased the A. E. Smith garage business.

TWENTY-FIVE YEARS AGO
 March 13, 1924

A booster pump scheme at a cost of \$4,000 is being considered for fire protection purposes in lower town.

Irrigation and general water rates in arrears now total \$20,000. Irrigation rates for 1928 totalling \$11,000 remain unpaid and \$5,000 from 1922.

Blowing out of stumps and other preliminary work is being done in Beach Orchard park in preparation for a big clean-up day on Thursday. Reeve Campbell is appealing to every citizen to be on hand for this purpose.

Walter M. Wright, who has spent the last year or two at Renfrew, Ont., writes that Summerland apples are selling for two pounds for 25 cents and are replacing Ontario-grown apples in their own province. Officers elected by the Summer-

BOY SCOUT ACTIVITIES

Interest in troop activities is being sustained at a very high level. The turnout last Friday was 27, almost perfect except for sickness and unavoidable absences. We are glad to hear that Ross Tingley will be back with us after Easter, after having had a session with a fractured ankle. We are also pleased to know that Darwin Harbicht is making such good progress with his broken hip and will be out of hospital in about a month's time.

Last Friday the troop received a visit from District Scoutmaster Geoff. Allington of Kaledon who gave us a talk and demonstration on hand signals. Those boys working toward their Pathfinder's badge are particularly indebted to Dr. F. W. Andrew who gave a most interesting instruction period on the history of Summerland and District. Work on Pathfinder's badge will be continued on Friday by Mr. Felfham. Mr. Noel Lingford continued his instruction on the naturalists badge dealing with fish. Mr. Earl Inglis instructed in the Tenderfoot badge.

On Saturday and Sunday four patrol leaders and the secretary, accompanied by SM Fisher, attended the Okanagan Valley Patrol Leaders conference in Oliver. The Oliver troop went to a lot of trouble to make the conference a success in arranging speakers, billets, banquet and entertainment. Included in the program was a conducted tour over the new Oliver high school. On the way home the boys did their good turn by pushing a car out of a mudhole. But Vic Smith says next time he pushes a car out of a mudhole he will keep his hat on; someone by now will have found a perfectly good P/L's hat.

Notices: During Easter holidays there will be an overnight hike—let's see if we can all make pack boards by that time! Meeting in school gym Friday at 7 p.m. Duty patrol, Buffaloes.

land branch of the GWVA are: President, W. Atkinson; 1st vice-president, E. C. H. Windler; 2nd vice-president, V. J. Bernard; secretary-treasurer, R. S. Jackson; corresponding secretary, G. Y. L. Crossley; executive, S. Bartholomew, Ned Bentley and B. Newton.

At the home of Mr. and Mrs. Alex Stuart, on March 12, their second daughter, Annie Holmes Henderson, became the bride of John Gowans, the Rev. W. A. Alexander officiating.

Miss Jean Ritchie has been appointed stenographer and assistant to the municipal clerk.

P. E. Knowles has been elected secretary-treasurer of the Summerland Hospital Society.

THE FEMINE ANGLE

A Cry for More Pockets for Women

Why don't more people put more pockets on more things for women? We have keys to doors, though not many here, keys to cars, licenses for this, tickets for that; and where are we supposed to carry them?

Now a man is well prepared. He has pockets on practically everything he wears. "Handy as the pocket on a shirt"—that's an apt saying. Men even have pockets on their pyjama coats.

Time was when every placket had a pocket—and a good idea, too. Do you remember those full skirts with a large deep pocket, unseen in its folds, holding, and ready to carry many things, from peppermints to string?

But women's clothes now just don't have pockets that are of much use.

The obvious recourse is to a large hand bag, which has the most ungetatable interior of almost any sort of carryall. If the thing would open up so that the contents could be seen! If everything didn't fall to the bottom, even if it is put in those tiny little tight pockets on the sides!

In this age of efficiency, plus, it's incredible that anyone puts up with them. Usually they are excess "leg agem", awkward to hold, often without a handle, and easily pushed off the seat in getting out of a car.

The most sensible one is the shoulder bag on a long strap. At least it takes care of itself while other things are being done, but it is prone to fly off at tangents, and get hooked on the most unpredictable objects.

So—welcome the news that gloves are coming in with a little pocket on the inside of the left cuff. Good, that's for the odd bit of change, or tickets, so hard to get at, especially if one's hands are full. And, ah! but it's true, the old-fashioned gay-nineties' pretty garter is on its way to favor, with a small zippered pocket, where one may carry folding money, and other small necessities, without lugging a purse of some kind around.

But a pocket—just an ordinary patch one though, of course, it could be as fancy as you like, or even invisible, if preferred—and there's no cause for worry. For standard equipment, lipstick, comb, money, licenses, tickets, that are practically the daily requirements—all would be there. No fuss. No clutching. Sit down. Get up. Nothing to hold, and simple as anything! Comfortable and satisfactory.

CALL FOR TENDERS
 VERNON—Tenders have been called on the new 22 classroom junior high school to be built in MacDonald park.

S. A. MacDonald Again Head of Hospital Board

S. A. MacDonald was again chosen by unanimous vote as president of the Summerland Hospital Society when the board of directors met for the first meeting in 1949 on Tuesday, March 15.

The popular president asked that a change be made but the directors left no doubt but that they are entirely satisfied with their chairman.

C. J. Huddleston and T. M. Croil were elected the two vice-presidents and committee members were appointed. Mrs. T. B. Lott was welcomed as a new director.

The committees were lined up as follows:

Grounds: Dr. J. C. Wilcox, Capt. J. E. Jenkinson, W. R. Boyd.

House: J. R. Butler, C. J. Huddleston, T. M. Croil, Mrs. A. R. Dunsdon and Mrs. T. B. Lott.

Finance: James Muirhead and H. L. Wilson.

Public Relations: J. R. Armstrong.

No action was taken by the directors on a request from the Registered Nurses Association that all nurses employed in B.C. hospitals be required to register with the B.C. association. Sympathy was expressed with the request but it was not deemed advisable to press the point at this time in view of the shortage of nurses.

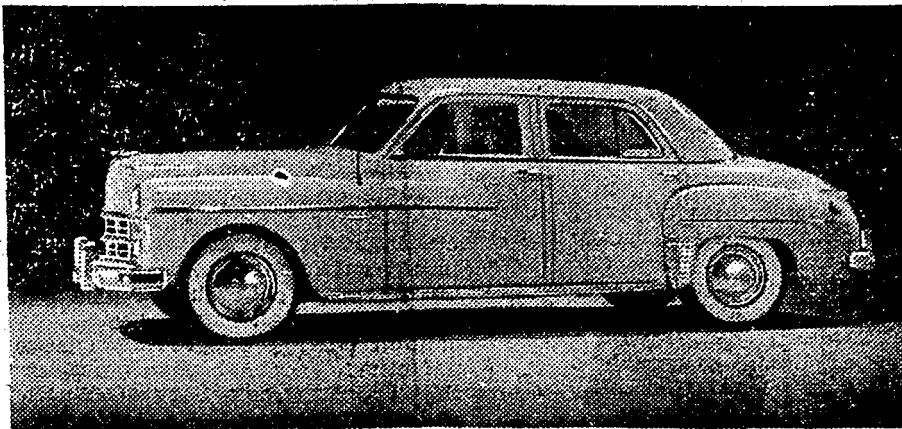

All accounts up to December 31 have been paid, but the hospital is operating about a month behind in its financing, and will have to face some heavy commitments in the near future, Secretary J. E. O'Mahony warned.

The "dumb waiter" lift has now been repaired and is in good working order. Plans for improvements to the grounds are being laid.

NAME STANDARD BEARER

VERNON—A 39-year-old Grindrod dairy farmer, W. A. Monk, was named to be North Okanagan standard bearer for the CCF in the next provincial election. In a close vote he defeated Len Wood of Armstrong.

THE NEW "FLUID-DRIVE" CUSTOM DODGE

Failed as "the finest in 35 years", the new Custom Dodge features longer wheelbase, wider seats, more head and leg room—all without increasing the overall dimensions of the car. Higher, wider windshields and chair-high seats provide better visibility for greater safety. The Custom Dodge is claimed to be the lowest-priced car with Fluid Drive. Shown above is the Custom Dodge 4-door sedan. The Custom Dodge also offers a club coupe.

Coquihalla Pass Blocked By Fifty Feet of Snow

There is little likelihood that the Coquihalla pass railway route will be re-opened before the end of May, The Review learned this week.

During the past winter, 575 inches or nearly 50 feet of snow fell in the pass and little of that fall started to melt until the first spring thaws.

Also, one of the main bridges, an eleven-span structure, has been badly damaged by snow slides while several other bridges have also been weakened badly by the heavy snowfall.

Kettle Valley work crews have not been able to get near these bridges yet because of the depth of snow which is over the tops of many of the section houses.

This week, snow was cleared as far as Coquihalla on the east and Jessica on the west and daily progress in snow clearing is reported. However, bridge repairs will take some considerable time and it is unlikely that service can be resumed for another two months, at least.

Section men who resided along the pass route left their abodes and trekked out on skis and snowshoes to Hope, where they have been awaiting an opportunity to return to their work.

Never Equalled

One sectionman, who has been 27 years in that area declared that he had never seen the equal to the snowfall this winter.

Joe Tycholaz, Romeo section foreman, stated that the snow

reached the crossarms of the telegraph poles.

Pictures shown here by CPR officials show section houses covered with snow and only the ridgepoles showing as a dark streak against the white expanse. The pictures also clearly indicate the telegraph and telephone lines down along the right-of-way.

These lines have not been restored and have created a hardship for communication companies trying to keep service open throughout the province. It will be some time before service through the Coquihalla can be restored.

DEEDS ARE LOST

John Calwell informed the council by letter on Tuesday that deeds to his property, obtained at one time by his father, had become lost. He sought advice on the procedure. The council is seeking advice from its legal representatives, Boyle & Aikins.

Fourteen Scouts May Qualify For Big Jamboree at Ottawa

How to raise funds to send up to fourteen Scouts to the Scout Jamboree at Ottawa this summer was the main basis of discussion at the organization meeting of the Boy Scout local committee held on Wednesday evening, March 16.

There are fourteen Scouts in the local troop who appear qualified to make the trip, but it will be a costly procedure to send this many from a small community.

In fact, it is believed no other group has so many possible candidates for the honor in B.C.

Scoutmaster D. V. Fisher is determined that no stone will be left unturned to finance a large contingent from Summerland to Ottawa this summer and to this end the committee executive formed at last week's meeting intends to give him every backing.

To send 14 Scouts to Ottawa would mean that the local committee would have to raise about \$400, besides the provincial and

Dominion contributions and the money put up by the boys themselves.

Another major project before the general meeting last week was the locating of a suitable hall for the four allied groups of young people, Scouts, Cubs, Guides and Brownies.

A joint meeting of the committees in charge of these four groups will be called soon to investigate all possible angles and plan for the future. It has been suggested that some deal might be arranged with the badminton club but this scheme is only in the tentative stage.

Dr. H. R. McLarty, who is vice-president of the Okanagan South group committee of Boy Scouts, was chosen chairman of the Summerland committee, with Ed (Hilly) Smith as secretary. Committee members consist of Messrs. W. R. Boyd, S. W. Feltham, A. D. Cogan, Art Sladen and Dr. Cyril Woodbridge.

Summerland troop is planning to send its patrols to the international Camp-o-ree which this year will be at Oroville in June.

WINS VALLEY TITLE

VERNON—In an overtime game, Vernon high school girls defeated Oliver 18-17 and won the Okanagan high school girls' basketball crown and the right to enter the B.C. school championships at Victoria.

Proper Management and Development of Resources Protects Future

The present and future economy of our province is based on the development of natural resources, chiefly land, forests, farms, fisheries and mines. The need for careful management of our resources is emphasized as pioneering subsidies and it becomes apparent that our resources are not inexhaustible.

The LAND BRANCH of the Department of Lands and Forests is responsible for the supervision and general administration, covering the disposal of Crown lands throughout the province and deals with such land questions as pre-emption, leases, sales, foreshore, coal, petroleum and natural gas, grants and reserves. In addition, the branch is charged with the administration of the University Endowment Lands and the Southern Okanagan Lands Project.

Divisions of the Lands Branch:

- COAL, PETROLEUM AND NATURAL GAS.**—The function of this agency is to develop the petroleum and natural gas resources and to improve and expand the coal industry.
- LAND INSPECTION.**—Inspects, classifies and evaluates land and improves for a multiplicity of purposes, in connection with pre-emptions, purchases and leases.
- LAND SETTLEMENT BOARD.**—Encourages land settlement and agricultural development. Administers the development areas at Merville, Vancouver Island and at Camp Lister in the Kootenay District.
- LAND SURVEYING.**—Expedites the solution of problems and inauguration of projects that constantly arise in connection with the administration of Crown Lands.
- LAND UTILIZATION RESEARCH AND SURVEY.**—The major objective in surveys by this branch to date has been to determine areas suitable for settlement.

The functions of the Land Branch are pointed toward the proper use and management of land, the basis of all our renewable natural resources.

FLOOD

Continued from page 1 ed their satisfaction with the engineers' plans, this money was despatched to the public works department at Victoria.

It is understood that the Dominion Department of Agriculture is willing to subscribe another \$1,000 from federal funds as its share for protection of the experimental station property.

Reeve R. A. Johnston declares that the municipal council's share has not been decided upon, but will be considered at the next sitting of the municipal fathers.

Dawson & Hall, contractors had men on the ground this morning to commence work on the new Trout Creek bridge over Okanagan Highway No. 5.

Ferry Pendozi To be Overhauled

KELOWNA—As soon as ice disappears on Okanagan lake, the M.S. Pendozi will be taken off the Kelowna-Westbank run so it can be overhauled.

The M.S. Lequime, which underwent an overhaul earlier in the year, will be put into service.

When the ferry service will be stepped up to handle increased traffic depends entirely on the Pendozi overhaul.

WANT NEW CONNECTION

Barkwill's Ltd. application for a two-inch water connection was not favored by the council on Tuesday but it was agreed that an 1 1/2 inch connection could be allowed this user.

POWER SERVICE WANTED AT ONCE

D. L. Sanborn approached the council on Tuesday with a request for immediate power service to the new building he is erecting to house his machine shop business north of the B.C. Fruit Shippers Ltd. packing house.

This power service must cross the packing house property and a right-of-way will be necessary. The B.C. Fruit Shippers Ltd. has agreed to allow the right-of-way, Mr. Sanborn explained, but the latter applicant does not wish to wait for this legal formality before obtaining his power.

If a letter is received from the packing house and the necessary application for power is received, permission for power connection will be granted, the council declared.

It was also agreed later in the council meeting that Mr. Sanborn will be reminded once more by letter that he has agreed to remove the gasoline pumps from Granville street by March 31.

BAND IS PRAISED

Summerland Band was out in full force for several fine selections played at intermissions in the Singers and Players Club presentation of "I Remember Mama" last Thursday evening at Ellison hall.

MORE ABOUT—

SURVEY

Continued from Page 1 as men and materials become available.

That is why Trepanier hill was the first section tackled in the three-year program which has just come to an end.

"It was no use completing the Hope-Princeton highway without fixing the highway from Princeton to Penticton", Mr. Anderson declared. And the Princeton-Penticton stretch formed nearly as difficult a road-building job as the Hope-Princeton.

Asked if the Hope-Princeton would be opened by Labor Day, 1949, Mr. Anderson replied that there is no reason why it shouldn't be completed, as there are only five miles of major construction left undone now.

Mr. Anderson is looking forward to the Labor Day opening as it will mark the completion of one of the biggest undertakings in the history of the public works department.

Costly Equipment. At Princeton, on that day will be assembled machinery and equipment costing some \$750,000. All the winter maintenance equipment has been purchased now and will be assembled at Princeton for the opening.

To keep the Hope-Princeton open the year round, as has been promised, will be a major undertaking. The high point on this route is about the same level as the Steven's pass in Washington and has about the same snow conditions.

But whereas the Steven's road is built up to the summit and then drops down quickly, the Hope-Princeton rises to the summit and maintains it for thirty miles. Therefore, the task of keeping this route open in winter will be much more difficult.

However, the public works department has declared it will be done and one has only to talk a few minutes to Mr. Anderson to realize that it will be accomplished or he will know the reason why.

Council Divided On Purchase of Portion of Lot

Mrs. Eva Steuart informed the council on Tuesday that its offer of \$150 for a tenth of an acre, including 14 fruit and walnut trees, is not sufficient and made a counter proposal that she be paid \$275 for this small area which the council desires to provide a gradual curve on the highway between the Trout Creek Service station and the bottom of the Sandhill.

The government paid \$25 per acre when it wanted land in the Trout Creek area, Mrs. Steuart explained.

General council opinion was against making an expenditure of approximately \$350, (including survey charges) when road costs are mounting rapidly.

Councillor F. E. Atkinson, however, came into the discussion strongly, pointing out that the council had decided upon a general program of improving this road from the top of the Sandhill to Trout Creek.

If the council balked at a \$350 expenditure now then it would be "turning time back", he believed. The council might just as well disperse with the roads engineer, and go back to its former policy of laying down road surfacing on existing roads despite their condition, he added.

He moved that Mrs. Steuart be paid her price of \$275 but there was no immediate seconder.

Costs are Mounting Councillor Tait thought Councillor Atkinson was taking a rather severe view of the question but he voiced the general council attitude that roads expenditures were being made at too rapid a pace before estimates are given their final reading.

Councillor H. L. Wilson observed that "a lot of corners need \$300 to be spent on them more than that particular one."

In order to allow a vote, Councillor Tait seconded Mr. Atkinson's resolution and it was passed with Reeve Reid Johnston voting in favor. Councillors Wilson and Bentley did not register a vote.

NO COVERING FOR APPROACH TO HALL

Several requests have been made to the council to provide an extra covering of shale or gravel in front of Ellison hall. However, it was stated by Engineer D. M. Wright at Tuesday's council meeting that forty to fifty loads would be required for a "good job" and it was deemed that this material could be used to better advantage in other parts of the municipality. The damp condition in front of the hall will not last long, council considered.

STATIONED HERE

While B.C. Police Constable Thorsteinson is absent on his holidays at the coast, policing duties here are being taken over by Constable H. H. Howk, of the Penticton detachment.

Mrs. R. McLachlan Hostess to Service Club Meeting

Mrs. Ross McLachlan acted as hostess for the evening and welcomed the members as they arrived for the regular meeting of St. Andrew's Service Club, on Monday evening, March 21, in the church hall.

When the meeting opened the president, Mrs. Jas. Marshall, introduced and welcomed four new members, Mrs. A. Johnston, Mrs. Durick, Mrs. Huff and Mrs. Jas. Miltimore. The Service Club will convene the AOTS supper Thursday evening.

Mrs. S. W. Feltham gave an interesting and detailed outline of the recent meeting at which she represented the club when Col. Robertson, chairman of the provincial Red Cross blood donor clinic, Vancouver, spoke. A donation was made to the Red Cross and several members signed blood donor cards.

At the close of the meeting tasty refreshments featuring marble cakes were served by Mrs. Floyd Thomas, Mrs. Harold Short, Mrs. Frank Young, Mrs. Leslie Rumball, Mrs. Lloyd Shannon and Miss Macil White.

Young People To Conduct Services

Three young people from the Naramata Leadership Training School will take the services in St. Andrew's and Lakeside United churches next Sunday.

There will be two girls, who will speak. One is Miss Jean Jeffer-

St. Patricks Day Tea Held at Home Of Mrs. C. H. Elsey

Mrs. C. H. Elsey was hostess at her home last Thursday afternoon for the St. Patrick's Day silver tea, which was sponsored by the Evening Auxilliary of the Baptist church. There were over forty guests, who thoroughly enjoyed the program and tea.

The combined voices of Mrs. B. Bergstrom, Mrs. W. C. Wilkin and Mrs. Howard Milne in a trio, was a pleasing part of the musical program. Mrs. Bergstrom sang two solos, and was the accompanist when Miss Laura Mott played violin selections. A humorous story of a well-meaning lady who wished to do missionary work, entitled "A Train Journey", was read by Mrs. Robert Birch just before tea.

The tea table was covered with a lace cloth, and centred with a cake decorated in the St. Patrick's motif. On either side of it there were green tapers. Touches of green and white were seen in the sandwiches, and other evidences of the day were used throughout the serving.

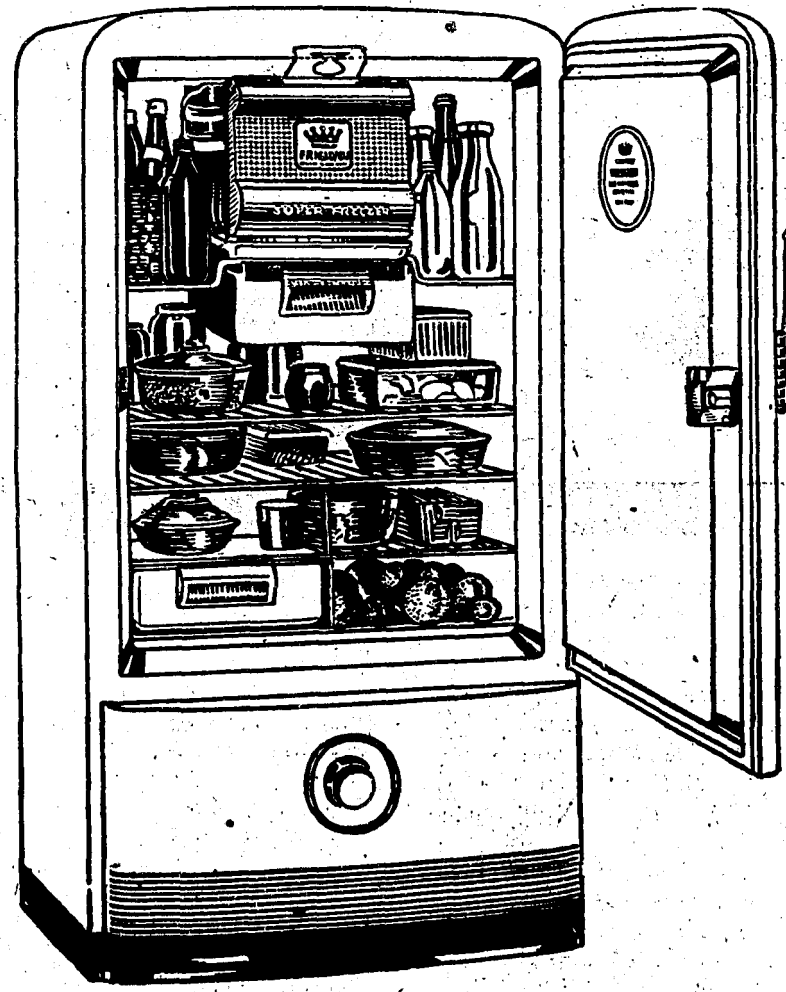

son whose home is in Vancouver, and who will be remembered for her fine violin playing when the school gave the concert here a few weeks ago.

The young man in the party is Mr. Haddon Gregory of Kamloops, who is a nephew of Mr. and Mrs. T. A. Walden.

IS IT TRUE?

BRIDE-ELECT IS SHOWER GUEST

On Sunday evening at the home of Miss 'Tra' Guidi, four friends of bride-to-be Edna Fowler gave a surprise shower for her. The three other hostesses were Mrs. Bob Scriver, Mrs. Johnnie St. Denis, and Mrs. Delmar Spalding.

The house was prettily decorated with pink and white streamers for the occasion. There were about twenty present and the miscellaneous gifts were brought in to the "music" of tin cans trailing along behind, which caused quite a bit of amusement.

Games were played, and very nice refreshments served to end the pleasant evening.

SOCIAL EDITOR Mrs. A. W. Vanderburgh

VISITING ABROAD—

Mrs. Melvin Pollock went to Vancouver on Monday night's train.

Constable and Mrs. T. Thorsteinson and their small son, Barry, are spending a holiday in Vancouver.

Mrs. J. W. Broderick left on Saturday night to vacation at the coast.

Miss Joan MacDonald spent the weekend with her sister, Estelle, at the Naramata Leadership school.

Miss Gwen Lamcraft, of the Bank of Montreal staff here, left for Vancouver and New Westminster on Saturday on her holidays.

NEW ARRIVALS

Born on Monday, March 21, to Mr. and Mrs. W. Schimpf, at the Kelowna General hospital, a son.

Born at the Summerland hospital on Thursday, March 17, to Mr. and Mrs. A. Felker, a son.

On Saturday, March 19, a son was born to Mr. and Mrs. R. J. Bangma, at the Summerland hospital.

ATTEND NARAMATA SCHOOL

The Sunday Evening Club went to Naramata on Sunday afternoon, were guests of the school at supper, and stayed for the evening service. After the church service there was an informal fireside hour, when music and films were enjoyed, and the visitors were told something of the work of the school.

Young Local Couple United At St. Andrew's

The marriage of Alice Jennie, daughter of Mr. and Mrs. Eldon Smith, and James May, son of Mr. and Mrs. Wm. May, all of Summerland, took place quietly on Saturday afternoon, March 19, at 3:30 p.m. in the United church manse, West Summerland, Rev. H. R. Whitmore, officiating.

The bride was attended by her sister Mrs. John Oliver, of Summerland, and the groomsmen was Mr. Wm. Smith, brother of the bride.

For her marriage the bride had chosen a grey suit. With this she wore a pink blouse, and a becoming pink hat of veiling and flowers, which was very pretty on her dark hair. A corsage of carnations complemented the costume. Her other accessories were black.

The matron of honor chose a green suit, with brown accessories, and a corsage of pink and white carnations.

The bride was given in marriage by her brother.

A reception for members of the immediate families was held at the home of the bride's parents. Mr. and Mrs. Smith, Mr. and Mrs. May, assisted by the bridal party received the guests.

Mrs. Smith was gowned in lime green silk, and Mrs. May in a many-flowered printed silk frock. Tulips, pink and white streamers and bells decorated the table for the wedding breakfast, besides the beautiful three-tiered wedding cake.

The couple left by train for Vancouver that evening, to spend their honeymoon at the coast. For going-away the bride wore a top-coat that exactly matched her suit, and an attractive pink beret. On their return they will make their home in Trout Creek.

The only out-of-town guests were Mr. and Mrs. Lee Smith, Penticon, brother and sister-in-law of the bride.

MRS. SOLLY IMPROVES

Friends of Mrs. H. A. Solly will be pleased to learn that she is showing some improvement after her illness of over ten weeks in the Trail General hospital. She is still in hospital, but sitting up every day now, and able to walk a few steps with support on either side.

LEAVE FOR EDMONTON

Mrs. F. W. Haskins, Keith, and Mrs. Haskins, Sr., expect to leave on Friday to join Rev. F. W. Haskins at Edmonton, where they will make their home.

VISITING HERE—

Mr. and Mrs. William Millar of Kelowna were week-end guests at the home of the latter's parents, Mr. and Mrs. Elmer Johnston.

Mrs. Stewart Beech of Salmon Arm arrived last week for a few weeks' visit at the home of her son and daughter-in-law, Mr. and Mrs. S. E. E. Beech.

Mr. H. S. Hurn, chairman of the Community Drama Office at Vancouver, was a guest of Mr. and Mrs. Lacey Fisher last week-end.

When Rev. Arthur Matheson spoke in the Baptist church on Sunday morning of his experiences as a missionary in India, his brother and sister-in-law, Inspector A. S. Matheson and Mrs. Matheson of Kelowna and his sister, Mrs. Tullett, of the Vernon school staff were down to hear him, and spent the day with several members of the congregation.

Mr. and Mrs. Geo. Mott and their daughter Wanda, who left their home in Glen Ewen, Sask., in November, and have been touring through the states, have been spending a week at the home of Mr. and Mrs. John Mott on their way back to the prairies.

Mr. and Mrs. Stanley Noble, Mr. Jas. Wilson of Armstrong, and Capt. Crewe of Vernon, visited Mr. and Mrs. J. H. Walton on Friday.

Mr. and Mrs. Howard Daniel were driven down from Kelowna on Sunday by their friends, Mr. and Mrs. Fitzgerald and Miss Reekie to have tea with Mrs. Dale and Miss Ruth Dale. "Howie" was in Kelowna with a hockey team from Trapp Tech, New Westminster.

HOME AGAIN—

Mrs. Fred Carston, Peach Orchard, returned home on Saturday after a holiday spent with friends in Victoria and Vancouver.

Miscellaneous Shower Honors Edna Fowler

Mrs. L. T. Wolffer, hospital hill, lent her home to four friends of her sister, Edna Fowler, when they arranged a miscellaneous shower in her honor on Monday evening, March 21. The hostesses were Mrs. L. J. Wignall and Misses Ione Embree, Violet Oistead and Eva Carlstrom.

When the surprised guest of honor entered the living room she was showered with confetti, and led to a specially decorated chair, over which a bell was hung. It, too, dropped confetti on her. The gifts were wheeled in and presented by her niece, little June Wolffer, whose doll carriage was trimmed with pink and white streamers to match the other decorations.

Music and a social evening was pleasantly spent, and refreshments which included angel cake, were served.

Mrs. J. E. O'Mahony Named to Board

Mrs. J. E. O'Mahony has been re-elected to the executive of the provincial board of the Canadian Cancer Society. In talking of the meeting which she attended recently in Vancouver, she said that a new nursing home is to be built adjoining the cancer clinic. It will have 15 beds and will be staffed by 4 specially-trained nurses. It will be arranged so that patients may be taken without difficulty from the home to the clinic for treatment, and will probably be the nucleus of a future much larger institution.

ADDRESSES ROTARY

Dr. R. C. Palmer addressed a luncheon meeting of the Penticon Rotary club on Monday.

Italian Bride Honored at Shower Here

New residents in Happy Valley are a bride and groom, Mr. and Mrs. Bruno Echino, who were married in Sarangerina, Pesaro province, Italy, on Jan. 29, and have come to make their home here. Mrs. Echino is a niece of Mrs. L. Bartello.

To welcome the bride a shower was held at the home of Mrs. J. Cristante on Thursday afternoon, March 10. Mrs. V. Polesello and Mrs. C. Ongaro were joint hostesses with Mrs. Cristante, and assisted in making the arrangements.

The miscellaneous gifts were brought in to the bride in a decorated yagon, pulled by little Judy Betuzzi, dressed as a groom, and Aloma Polesello in a bridal costume. With her limited English the friendly newcomer was able to thank her friends for the happy afternoon, and for the gifts.

Tea was served in the dining-room, where a special chair was reserved for the bride.

Invited guests included Mrs. Alfred Biagioni, Mrs. M. Bonthoux, Mrs. Roy DeRosier, Mrs. V. Guidi, Mrs. Bob Scriver, Mrs. Wolfe, Mrs. Roy Gilbert, Mrs. Hugh McCutcheon, Mrs. J. R. Selinger, Mrs. L. Bartello, Mrs. N. Bartello, Mrs. J. Betuzzi, Mrs. C. Betuzzi, Mrs. A. E. Soderberg, Mrs. F. Lenzi and Misses Alda and Josephine Lenzi.

Surprise Shower For Bride-Elect St. Patrick's Day

A surprise miscellaneous shower for Miss Alice Smith whose marriage to Mr. Jas. May took place on Saturday, was given at her home on St. Patrick's Day by Mrs. R. Hutton, Mrs. May Hefflick and Mrs. J. L. Brown acting as joint hostesses.

A feature of the party was a shower cake, which had been decorated prettily, and on which was written, 'Showers of good wishes for Alice'. This was cut by the bride-to-be.

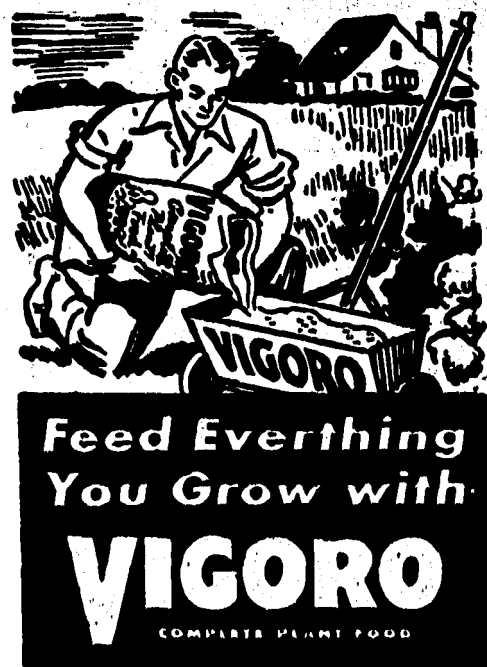

The gifts were presented in a large basket decorated to honor St. Patrick's Day, and remembering the Irish ancestry of both the bride and groom.

Those present were Mrs. W. May, Mrs. Eldon Smith, Mrs. W. McCutcheon, Mrs. Fred Gale, Mrs. Don Orr, Mrs. Bruce Johnston, Mrs. Earle Inglis, Mrs. H. Pohlmann, Mrs. L. J. Wignall, Mrs. Glen Wood, Mrs. H. Lemke, Mrs. M. McKechnie, Mrs. J. Raincock, Mrs. J. VanGameron, Mrs. Roland Morgan, Mrs. Bob Elliott, Mrs. C. Brook, Mrs. Bill Smith, Mrs. Clinton Smith, Mrs. Lee Smith, Mrs. John Oliver, Misses Esther Campbell, Jean Friesan and Willena Elliott.

Those unable to be present, but who sent gifts, were Mrs. J. Gowans, Mrs. J. Tysack, Mrs. A. Brown, Mrs. W. Arnold, Mrs. Sandy Caldwell, Mrs. Alice Horning, Mrs. C. Prescott, and Mrs. W. G. Gillard.

Fruit Processing Developing Valuable Adjunct to Main Industry, Growers Are Told

PENTICTON—The importance and value of the grower-owned fruit processing plants to orchardists was outlined to the Pentiction BCFCGA local at a meeting here by A. G. DesBrisay, president of B.C. Fruit Processors Ltd., who showed that not only is the fruit processing industry saving the grower a considerable amount of money, but that, given a chance, it can form a valuable adjunct to the main outlet.

In the crop-years 1946-47, the processing industry had paid out an overall total to growers of \$556,319.41, or \$13.21 per ton of fruit handled.

In addition, for the 1946 season alone, the fruit plants had absorbed dump charges on 2,122 tons, at a pool price of \$20 per ton, or \$42,440. And paid out, in freight

on fruit, \$54,560, and on returned empties, \$18,814.

A break-down of the \$556,319 shows that \$188,379 of this is represented in revolving-share capital certificates and the balance, \$367,935.51, in cash.

There are, then, two reasons why the grower-owned fruit processing plants are a "paying proposition," Mr. DesBrisay pointed out: Not only have they absorbed the culls, but they have made a profit of them.

The financial picture for the 1948 season cannot be made up until later, as operations for this crop year are still proceeding. However, it was shown that already 380,000 cartons of apple juice of all kinds, and 754,000 pounds of dehydrated apples have been turned out.

Some of the problems of the 1948 season included the handling of the increased quantity of small sizes. It is possible to obtain 220 pounds of dehydrated apples from a ton of normal fruit, but only 160 pounds from the small apples such as those that rolled in last fall.

Apples of the approximate two-and-a-quarter inch size cost \$8.30 to dehydrate, while the three-and-a-quarter inch apple runs only \$3.18 per ton, these charges, in both cases being minus overhead.

Million Pounds
The size factor was also in the gross quantity figures, as at least a million pounds of dehydrated apples would have been produced in a "normal" year, in place of the three-quarters of a million produced last year.

Another item produced was 42,150 pounds of "apple chops", used extensively in mince meat making; 40,000 gallons of vinegar, and a considerable amount of apple jelly, and apple butter.

Turning from figures to developments, Mr. DesBrisay said that experiments are going on all the time with a view to improving the product, and developing new items. He outlined the method by which ascorbic acid (Vitamin C) is added to the fruit.

He described some of the new products that are now being turned out.

Among those mentioned is apple concentrate, which is not only finding a market on its own, but is also the source of a new item, apple jelly, which is meeting with much greater favor than the concentrate from which it is made.

Another new item, upon which experiments are now proceeding is an apple fountain juice, for the preparation of soda fountain specialties, and drinks.

"We think this, when the tests are completed, will make an acceptable drink," Mr. DesBrisay told the growers.

One new product that met with considerable favor is the new "ap-

ple-lime" juice. An apple-grape-fruit juice is another similar product, now in production.

The Delicious apple does not, of itself, make a good juice. And, due to its "nobs", is not a convenient fruit to dehydrate. For this reason this variety has been the subject of considerable experiment, for such blends as those mentioned.

Asked by the growers which variety makes the finest juice by itself, Mr. DesBrisay said that the "Mac" is outstanding in this respect.

He mentioned the tests made with peach-nectar, but said that the 1948 crop-year had not been conducive to a real test of this product, developed the year before.

The delays and weather conditions had made it difficult to get a sufficiently high sugar content in the fruit to produce what was wanted. However, tests are proceeding with this.

Mr. DesBrisay said that the value of the processing operation could not be judged from a straight dollars and cents view alone. Having an outlet for culls had had the effect of turning a former "headache" in the red-ink column, into a profitable operation.

Before the meeting ended, Mr. DesBrisay was asked if it might happen that the sale of juice would cut into sale of fresh fruit, as had reportedly happened to the citrus industry. He said he did not think that it could happen, as there is not the same relationship between juice and fruit in the case of the apple, as there is between citrus fruits and their juice.

He said that it had found that

Present 'Pirates Of Penzance' to Three Audiences

One of the most popular of the Gilbert and Sullivan operas, The Pirates of Penzance will be presented to music and stage lovers of this district on Tuesday, April 5, at Ellison hall by the singers' section of the Summerland Singers' and Players' Club.

This outstanding performance will also be shown to audiences in Pentiction and Oliver on April 1 and 11 respectively.

This opera was first produced on April 3, 1880 and deals with the adventures of Frederick and an amazing band of pirates who carry on their business from a secluded spot on the rocky sea coast of Cornwall.

Through an error, Frederick was apprenticed to this band and he hates the life. At a rollicking drinking party in celebration of his 21st birthday he tells them he is leaving forever and intends to devote himself, heart and soul, to the destruction of their band.

While wandering about, he comes across a party of beautiful maidens, daughters of Major-General Stanley. Frederick asks for one to take pity on him in his unhappy

the "clear" juice was the most acceptable form to buyers, and that earlier forms had not obtained as good a response.

position and Mabel falls violently in love with him.

Sullivan Numbers

This is the occasion for some particularly beautiful musical numbers with Sullivan at his best, with the major-general appearing to tell of his many accomplishments and that he is the very model of a modern major-general.

In the meantime, the pirates have discovered that he was born on February 29 and therefore is only just over five years old instead of 21. They look for him and promptly annex the maidens, only to release them again when the general pleads for their return.

When the police arrive to arrest the pirates an opportunity is provided for a whole series of Gil-

bertian digs at the solid and respectable Bobby, the symbol of British respectability, law and order.

After much verbal encouragement the pirates win the fight from the policemen, but yield to the policemen's summons to yield in "Queen Victoria's name", as they love their queen.

In the finale, the pirates are discovered to be noblemen who have gone wrong. They repent, are forgiven, and there are wedding bells all around.

The caustic wit of Gilbert and some of the most tuneful numbers which Sullivan produced make this thread of nonsense one of the most delightful entertainments of the series.

EVERYBODY'S BUSINESS

Young Bill had an inner longing to be a doctor. His natural talents would have carried him far in that profession. But instead he took a job in his father's dairy plant where he could earn good pay immediately. Compared with this job, a career in medicine—with its long, non-paying years of study and struggle to get established—seemed too tough. Now, although he is prospering, Bill regrets that choice.

Of course, the penalty of choosing the easy way against our better judgment is seldom so tragic. But whenever we make self-damaging compromises or neglect opportunities . . . whenever we turn ourselves into "yes-men" . . . whenever we sidestep duties, obstacles or problems that should be faced—the price is too high!

Only by accepting difficulties as challenges do we develop our full powers.

Scarcely more than a century ago, it was impossible for the average man to provide financial security for his dependents in the event of his death. But today, through life insurance, millions have overcome this difficulty and provided security for their loved ones while saving for their own retirement.

Skinny men, women gain 5, 10, 15 lbs.

Get New Pep, Vim, Vigor

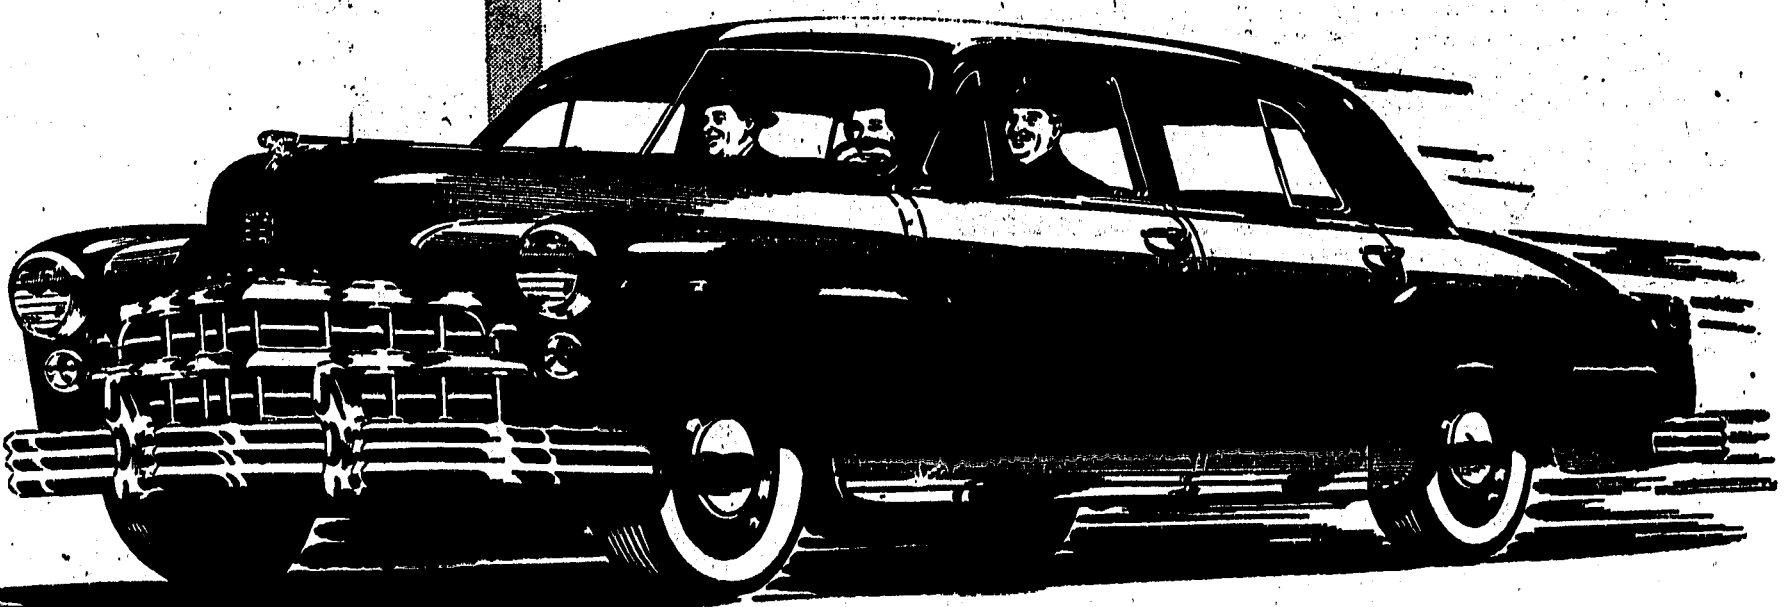

What a thrill! Bony limbs fill out; ugly hollows fill up; neck no longer scrawny; body loses half-starved, sickly "beast-pole" look. Thousands of girls, women, men, who never could gain before, are now proud of shapely, healthy-looking bodies. They thank the special vice-building, flesh-building tonic, Ostrer. Its tonics, stimulants, invigorators, iron, vitamin B₁₂, calcium, enrich blood, improve appetite and digestion so food gives you more strength and nourishment; put flesh on bare bones. Don't fear getting too fat. Stop when you've gained the 5, 10, 15 or 20 lbs. you need for normal weight. Costs little. New "get acquainted" size only 50c. Try famous Ostrer Tonic Tablets for new vigor and added pounds, this very day. At all drugists.

- DEPENDABILITY
- ECONOMY
- ROOMY COMFORT
- SMOOTH RIDING
- ..PLUS STYLE AND BEAUTY THAT LOOK AHEAD

That's what you get in the NEW DODGE

- PERFORMANCE** — The powerful Dodge L-Head engine has fewer moving parts to wear — is easier to adjust and keep in adjustment. Its amazing smoothness originates with unique 3-point Floating Power engine suspension.
- ROOMY COMFORT** — The famous Dodge Floating Ride is smoother than ever. New, longer 11 1/2 inch wheelbase further improves the Dodge "cradled" between the axle — side — allows ample head and leg room.
- VISIBILITY** — You get a wide view of the road through the new higher, wider windshield. Glass area is 37% greater. New, more efficient wipers sweep 61% more glass area. DeLuxe vents cover the whole windshield.

THE BEAUTIFUL NEW Dodge DeLuxe and Special DeLuxe models are cars you will want to see, own and drive. They're new . . . modern as tomorrow . . . with natural beauty that flows from true automobile design. There's more elbow room, leg room and head room . . . greater visibility . . . plus an amazingly s-m-o-o-t-h ride.

Get behind the wheel! You'll appreciate the many improvements that add to the Dodge reputation for Dependability, Economy, Roomy Comfort and Smooth Riding. The famous Dodge Floating Ride is even quieter and more restful because of heavier insulation, softer rubber body mountings, improved springing, new "sea-leg" shock absorbers.

You'll like the power and economy of the 97 h.p. L-Head engine . . . and the many "extra" economy features such as an oil filter, floating oil intake and self-cleaning fuel filter in the gas tank, which are standard equipment. These new cars start easier, stop faster; you can see over the hood; you can get in and out with ease.

See these great new cars today at your local Dodge-DeSoto dealer's showroom. Compare them feature by feature with other cars in their price class . . . then drive them and you'll know that they are the outstanding automobiles in the field.

Mrs. Ivy Mason Thrills Packed House in Stage Play, 'I Remember Mama'

Pathos, comedy and a very human story of an immigrant family were portrayed in a very realistic style before a packed Ellison hall last Thursday, when the players' section of the Summerland Singers' and Players' Club thrilled the large audience with its portrayal of the New York stage hit, John van Druten's "I Remember Mama".

Mrs. Ivy Mason, who was the leading character actor, made a tremendous hit with her portrayal of Mama and carried the most difficult part of the play with an easy assurance which brought spontaneous applause throughout.

Director Lacey Fisher received high praise for his splendid work in guiding the cast and in selecting the characters.

For an amateur performance, the play was outstanding for the performance of its cast and the execution of the stage management. Some twenty-five scenes flashed before the audience with only the minimum of delay to shift the scenery.

It was a rapid-fire presentation and brought gasps of admiration from every section of the hall. But apart from the celebrity of the play, the warmly human and humorous aspects were so well portrayed that they stirred the imagination of the listeners and kept interest at a high point throughout.

This was a story of the struggles of Mama and Papa Hanson who had come from Norway to make their new home in San Francisco. The story of this couple and their family was simple but the day-to-day trials of a struggling group and their many relatives had many complexities.

Commentary throughout the play was ably presented by eldest daughter Katrin, Mrs. Sylvia Perry, whose ambition was to become a writer. She told of her many memories and heartaches as a 'teen-aged girl' and entered into the parts as the episodes continued.

Shared Top Honors

Katrin shared the spotlight with Mama, but it was the latter's part, so ably taken, which kept the play at a high level throughout. Allan McKenzie was Papa, who

was a likeable, inoffensive soul ably guided by his good spouse. Dagmar, the slightly-spoiled youngest daughter was another feature character, taken by Sharon Dowd, while the other daughter, Christine, who shared her mother's matter-of-fact character, was ably acted by Joan Marshall.

Nels, the only son, had a major part and Basil Thornthwaite shone in this portrayal. Mr. Hyde, as presented by W. C. W. Fosbery, was the scholarly behind-the-scenes boarder who enthralled the family with his readings.

Three feature characters were Mama's three sisters, Aunt Trina, the pleasant but slightly dumb unmarried sister, was Mrs. Beatrice Macleod. Miss Marion Cartwright was Aunt Jenny and Mrs. Jean Towgood was Aunt Sigrid, both snooty and free with their unsolicited advice and criticism. Their character acting was superb and brought spontaneous applause.

Uncle Chris was a blustering, tipping soul who terrified all but Mama and hid his many good deeds behind his overpowering voice and belligerent exterior. Alan Butler made a very good Uncle Chris. The timid undertaker, Mr. Thorkeison, who wooed and married Aunt Trina despite the lack of a dowry, was ably acted by Blair Underwood.

Minor parts were as follows: Dr. Johnson, Cyril Stent; Arne, Ron Blacklock; a nurse, Pat Broderick; another nurse, Marion Campbell; soda clerk, Jim Towgood; Madeline, Elaine Miller; Dorothy Schiller, Ruth Nesbitt; Florence Dana Moorhead, Mrs. Molly Russel; bell boy, Terry Coggan. The "Woman" in Uncle Chris' life was well portrayed by Mrs. Eve Fisher.

No Delay in Changes
Apart from the high quality of acting, the scene arranging and

From Sea to Sea—On Foot

To EARL MITCHELL, who has walked from Vancouver to Montreal in 95 days, the remaining 1,000 miles to Halifax are no worry—he can do it in a month. At least, so he hopes.

Annoyed by traffic tie-ups, late trains or upset airplane schedules? Take a tip from 28-year-old Earl Mitchell: use your feet. What's more, Earl practices what he preaches—he has just walked from Vancouver to Montreal, 2,813 miles by railways, but close to 5,000 miles by foot, mostly along the Trans-Canada highway.

Mitchell, a native of Brandon, Man., and a veteran of both the Canadian Army Service Corps and the merchant marine, wants to prove that young Canadians are sturdier than they think. His formula is simple: get up at dawn, walk 40 miles a day, have one good meal in the afternoon and a good night's rest.

ANTHONY WALSH HEARD ON RADIO

Mr. Anthony Walsh, former teacher at the Inkameep Indian school near Oliver, was heard over the radio on the Claire Wallace program Wednesday, Mar. 16. He told of customs and food of Okanagan Indians, told an Okanagan legend, and sang two Indian songs, the first called "The Mourning Dove Song," the second, "The Sweet Bath Song." He lived on the reservation for twelve years.

During the war, he was in the services, and since that time has been studying Indian customs and lore in New Mexico and Arizona, and American administration of Indian affairs.

He is of Irish parents, born in Paris. He said his interest in Indians probably came through having grown up as a boy in close association with Irish shepherds and fishermen, who live in a simple manner.

The celerity with which the various parts were flashed before the audience meant everything to the overall performance.

If there had been any delay in changing scenes the play would have dragged, but such was far from the case.

Another bumper house was brought out at Peachland on Friday evening, and again the cast received a terrific ovation.

Mr. Fisher, the able director, who became known to Summerland audiences when he played an important part with the Everyman Theatre group, was assisted in his play direction and casting by Stanley Gladwell, who had charge of designing and stage management and Stuart Sanborn, in charge of lighting. Mrs. Margaret Solly was business manager of the production.

Irish Theme at Legion Whist Party

Legion W.A. held a successful St. Patrick's whist party for Legion members, wives and husbands on Tuesday evening, March 15, in the Legion hall.

First prizes went to Mrs. Harold Short and Mr. Jack Howard while Mr. and Mrs. Harry Thornthwaite consoled each other with the consolation prizes.

The lucky number door prize was won by Mr. A. R. Huff. Following cards, refreshments were served. Decorations in the St. Patrick's theme added to the festive occasion.

The party was arranged by Mrs. Dan Weis and Mrs. F. Young, with Legion members assisting.

CWL Card Party Draws Good Crowd

On Thursday, March 10, the Catholic Women's League held a successful whist and bridge party in the church hall. There were nine tables of whist and three of bridge. After cards films were shown by Rev. Father Meulenbergh, and enjoyed by all.

Winners at bridge were: High score, Mrs. Joan Currie and Mr. R. W. Henderson; low, Mrs. S. E. Beech and Mr. Carl Menu. At whist Mrs. H. Thornthwaite and Mr. Chas. Betuzzi were winners, and Mrs. Wolfe and Mr. Freddie Brind the losers.

Refreshments were supplied and served by the ladies of the league.

The flavor of the turnips we are getting now is greatly improved by adding half a teaspoonful of baking soda to every two medium-sized turnips, just after they start to boil? Be careful, it will foam up.

Problems and Possible Results From Blossom Thinning Sprays

VERNON—Pointing to considerable interest being aroused among orchardists on the use and effectiveness of blossom thinning sprays, following discussions on this problem at the recent Chautauqua meetings held throughout the valley, H. H. Evans, district horticulturist, has outlined some of the problems to be encountered and possible results to be expected. Growers interested in trying this method of thinning during the coming blossom period are advised to clip out this information and retain it for reference.

The materials generally used in this work are the sodium or ammoniated scale of Dinitro Cresol, both being severe, quick-killing agents of plant growth if used at too high concentrations. This indicates need of care in handling and strict adherence to recommendations until each grower has become, from actual experience, fully acquainted with the action of these materials on plant growth.

Some varieties of apples are self-fertile and tend to set heavy crops. Other varieties are inclined to be partially or completely self-sterile. These need pollination from other varieties to produce satisfactory crops. Delicious and Winesap are in the group of more or less sterility.

There is also the more or less low value varieties such as Wealthy, Duchess, and Yellow Transparent having the habit of biennial bearing, also hard and expensive to thin in the heavy crop years. These would appear to be ideal subjects for the use of chemical thinning in full crop years, advises Mr. Evans.

In five years' work on blossom chemical thinning of the Wealthy variety, carried out by the Vernon office of the Provincial Horticultural Department, considerable information was obtained, from which the following observations are passed on for the growers' guidance.

Not Fool Proof
Chemical thinning is not fool-proof. Neither will it be the complete answer to the growers' thinning problem.

Results can and will be variable from year to year depending on vigor of tree and seasonal conditions at the time of application. A cool humid condition at the time of application tends to heavier thinning by chemical action, than when weather conditions are warm and dry.

As complete a coverage of the tree is needed as when spraying for codling moth. The lower half of the tree where buds are weakest should not require as much material as the top.

Quiet weather during the spray period is very essential to uniform

coverage and a satisfactory job. A certain amount of hand thinning will be required in most years and on most varieties. This will be in proportion to the success obtained by chemical thinning.

There should be expected a definite saving in thinning costs. Early thinning by chemicals when successful ensures earlier fruit sizing. When carried over a period of years it definitely tends to improve annual bearing habits of those varieties which are chronic biennial bearers.

Foliage injury to the trees may occur and will be variable depending on strength of material used and other factors at time of application. This injury should cause no concern as the trees recover rapidly.

Shy bearing varieties, weak and light crop trees, should not be sprayed with these chemical, until the growers have gained considerable experience in handling the chemical thinning agents.

The proper time to make applications is still debatable, but for grower guidance, commence spraying when, by tapping a limb, the first petals fall and continue until about three days after full bloom.

Each grower should appraise his own conditions to determine to what extent chemical thinning sprays may be used.

It is not possible yet to recommend unconditionally the chemical method of thinning. The beginner is advised to be cautious and start with reasonably small plots.

For the present, the conventional type spray machine and guns should be used when applying chemical de-blossoming sprays, Mr. Evans concluded.

Cabinet Hears Request That Cameron Report Principle of Basic Teachers' Scale be Adopted by Government

Following representations from the Okanagan Valley school boards and the Okanagan Municipal Assn., a joint session of the Union of B.C. Municipalities and the B.C. School Trustees Assn. executives was held recently at the coast and then a delegation was sent to meet the provincial cabinet on the subject of a fixed assessment on municipalities for the cost of education.

"The delegation received a courteous reception and it is felt that the constructive suggestion that the underlying principles of the Cameron report be made effective, have made an impression, Allan G. Fellows, secretary-treasurer of the trustees group has stated in a recent release.

"If this association continues to work in co-operation with the UBCM some action should result," he believes.

The combined brief presented to Victoria was based on an Okanagan resolution, which asked "the department of education, because of the tremendous variables in education, especially teachers' salaries, which cause a very heavy burden of necessary taxation on the land, to take over fixing and payment of teachers' salaries, with a fixed assessment on municipalities for educational purposes."

Mayor Percy E. George, Victoria, Reeve Shultz of Surrey and Frank Wilson formed the delegation which waited on the cabinet.

Excerpts from the famous Cameron report were included in the presented brief. Quoted were the following:

"One of the most serious criticisms of the salary grants is the fact that the basic salaries prescribed are very far below the salaries actually paid in recent years... now... local resources must

bear the whole cost of salaries beyond the minima. This burden is spread so unevenly and has been increasing so steadily that it has become one of the major causes of our present intense dissatisfaction."

The delegation pointed out that this same situation is existent today, inasmuch as the government did not correct the injustice when alterations were made in 1946.

Basic Program
The brief claims the heart of the Cameron recommendations is contained in the following:

"We intend to recommend that a basic or provincial program or standard of schooling be set up, this program to be described in financial terms, and to be made as nearly possible available everywhere in the province by means of a grant system which will require that all property in the province be taxed at rates which are as nearly uniform as possible..."

"In the interests of equalization this basic or provincial program should be set at a level typical of a considerable number of boards in the province, so that many boards will not find it necessary to go beyond it by a great deal."

Dr. Goldenberg, in his report on provincial-municipal relations, reiterated this idea that salary grants should remain in line, with real salaries, the delegation pointed out.

"The two basic aims of the Cameron scheme... equalization of educational costs... and reduction of the load of school taxation upon real property... are both being nullified by recent developments (in teachers' salary increases)," the brief continued.

"He (Dr. Cameron) did not anticipate that the average board would have to pay salaries greatly in advance of this scale. The salary grant was intended to represent general practice. When it fails to represent general practice the

whole Cameron formula ceases to effect those things which it was intended to effect."

The brief also showed the cabinet that each school district is subject to compulsory arbitration, "completely nullifying the intention of the Cameron report."

"The case of Penticton is perhaps even more startling," the brief declared, after quoting examples of inequalities in arbitration awards in the Fraser valley.

"Their board of arbitration awarded the teachers a flat 27 percent increase across the board, an award which would have cost the school board about \$43,000... and to Penticton alone an immediate increase of some eight mills in its school costs... In other words, the arbitration board awarded to the teachers in a single increase an amount equivalent to the amount which Dr. Cameron, only three years ago, had considered would be the local share of a basic program of education."

Arbitration Awards
The brief pointed to the "exposed" position of school boards and brought out other features of the arbitration awards' injustices, from a municipal financing standpoint.

"These constant arbitrations... have a bad psychological effect... tend to cause ill feeling... upset teachers and school boards for long periods. They are as disruptive as they are expensive."

"We suggest that the time has come to grapple this problem and

to attempt to establish an orderly system of educational finance in this province... for a provincial salary scale which will be a real salary scale... any school board paying this B.C. scale should not be required to pay more.

"The Cameron formula represents basically, a satisfactory formula. But the system of calculating basic grants must be a realistic one... the failure of the provincial government to adjust our system of grants has resulted in a situation which has no merit in logic or in practice."

"The fact that the premier has already undertaken that in rural areas the mill rate for education shall not exceed eight mills suggests that there is some figure in the neighborhood of eight mills which, perhaps, can be struck."

"There is no justification for the present proposal that rural areas be guaranteed against a school mill rate in excess of eight mills

and that municipalities be permitted to pay whatever the load may happen to come to.

"A farmer operating in a rural municipality faces identical problems with his brother over the road in the rural district.

"We are not merely asking for money. The implementation of the Cameron report gave us some hope that educational costs would be equalized throughout the province, and that the local load would be kept within reasonable limit.

"Developments within the last two and a half years have proven this hope to be utterly illusory. What we are asking is that the basic intention of the Cameron report be restored and made effective."

Former Resident Is Laid at Rest

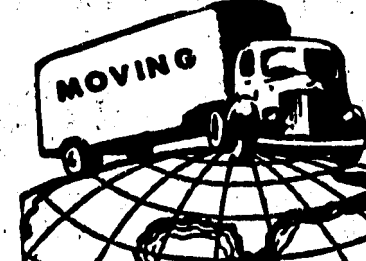

The death of Miss Ellen Miles, who reached the great age of 90 last November, took place in the Penticton hospital on Monday, March 14. She was born in England, and has no relatives in Canada.

For over sixty years she was housekeeper and nurse for the late Hon. Mrs. Coutts-Marjoribanks in England and in Vernon. For some time she kept house for Mr. Alan Agur and his boys in Prairie Valley.

Funeral services were held in the St. Saviour's church, Penticton, last Thursday afternoon, at 2:30 o'clock, Rev. W. S. Beames officiating. Interment was in Lakeview cemetery, Penticton.

Mr. D. Agur, who has been at the coast this week, returned this morning to attend the funeral.

Allen Holmes to Manage Senior Ball Club in '49

Allen Holmes consented on Tuesday evening at the Nu-Way Annex to accept the management of the Summerland senior baseball squad for the 1949 season when the organizational meeting of the club was held. Only a handful of players and supporters were on hand for this session.

This year's management is completely changed and a new slate of officers has been selected to manage ball club affairs.

Norman (Jimmy) Thompson is the new president while, for the first time in recent ball club history, the secretary-treasurer post has been accepted by a lady fan, Miss Nan Thornthwaite.

Last year's club manager, Keith Elliott, refused any active part in club management, as echoes of internal strife between the team and management last year were heard at the annual meeting Tuesday night.

After paying \$150 towards maintenance of the new Living Memorial athletic park, and for a wind-up party the club broke even on the 1948 season, and will start the new year with a balance of nearly \$100 in the treasury.

It was decided on Tuesday that a meeting of the new officers and all possible playing members will

Everything for the Sportsman CAN BE OBTAINED HERE
The Sports Centre
BERT BERRY
HASTINGS STREET

select the team captain and coaches for the season, these persons to constitute the club executive.

At an early date, the new executive will decide on its plans for a tournament here on May 24.

Manager Allen Holmes will represent the Summerland club at the interior league annual meeting at Rutland this Sunday.

Interior Ball Loop Organizes This Sunday

This Sunday at Rutland, the interior baseball league will get underway when representatives of teams from mainline, Okanagan and Similkameen points gather for their organizational meeting.

It is expected that quite a few changes may result from this session, which will be presided over by President Les Gould of Summerland.

Last year's champions, Kamloops Legion, have gone to the international loop but Kamloops CYO, Revelstoke and Salmon Arm from last year's mainline league wish to enter the interior league this season.

A second team from Penticton has also expressed its desire to field a squad in this year's interior loop.

Hedley is considered a doubtful starter but Princeton will probably wish entry once more.

Thus, there may be nine or ten teams representing all the major points in the interior seeking entry in the league, with the exception of Peachland, whose prospects have not been determined yet.

If a nine or ten-team loop is in

Bank of Montreal Wins Merchants Five-Pin League

By winning all four points with a total score of 3191 and a high game total of 1307 from Capitol Motors on Tuesday night, the Bank of Montreal has captured the Merchants' Five-Pin Bowling league title for this season.

The bankers won the first half of the schedule in a play-off with Westland Coffee Bar when the two teams tied. The same team swept the second half with a total of 33 points.

Overwaitea Ltd. team was in second place with 27 points and the Butcherteria team was third with 26 points.

As the B of M team won both sections of the league play there will be no playoff.

The Open Bowling league play-offs are underway this week. Final results of the Merchants' league play will be given in next week's issue.

Kamloops Red Devils Trounce Summerland in Second Game Of Interior Basketball Playoffs

Playing on the huge Kamloops floor Saturday night, Summerland Intermediate A's were swamped by the fast-moving Kamloops Red Devils and lost the coveted McPherson cup and the interior championship. The northerners nearly doubled the count on the Summerland crew, 54-29.

On the round, the Red Devils were victors by a count of 90-74, as Summerland took a nine-point lead, 45-36 into the second game last Saturday.

It was a smooth-operating Red Devil squad which Summerland met on Saturday and by the time the first quarter was concluded the Red Devils were within one point on the total round, having downed Summerland 14-6 on the single game total.

The second quarter saw Kamloops really take hold and tuck the ball game away. Beesley and Camp combining to outscore Summerland 15-3 and give the main line group a lead of 65-54 on the round.

In the second half, Summerland showed to better advantage but the eventual winners never lost control. The northerners held a 15-12 lead in the third quarter and were ahead 10 to 8 in the final ten minutes.

Kamloops were dynamite if given half a chance at the basket, while Summerland, although they had a good percentage of the play, were not as deadly at the hoop.

The game was rugged but not too much so, only 11 fouls being called, three on Summerland and

Kelowna proved too much for the Summerland team as they took a 3-1 lead in the initial period and led 3-2 going into the final. Summerland tired fast and Kelowna poured in three more before the final whistle.

Had the Summerland boys been fresh and had more opportunity for practice they would have given Kelowna Owls a real tussle.

In the B.C. high school finals last Saturday, Kamloops defeated Kelowna for the provincial crown.

Following are the Summerland scorers in school games:

Players	G	A	Pts
Brawner	14	6	20
Roberge	7	9	15
Stein	8	5	13
Holmes	4	9	13
Guidi	5	5	10
Kato	3	4	7

eight on Kamloops. Three technical fouls for use of improper language added spice to the engagement.

Only seven Summerland players made the trip and it fell to Harry Ruppel, of the second string, to spark the Summerland drive in the second period. He and Nesbitt, with eight and seven points each, were the top scorers.

Beesley and Camp, aided by Farquharson, Wakita and Marriot were the main stars of the Kamloops squad.

John Vanderburgh, who has been hitting the hoop with regularity in the past few weeks, was held scoreless, while Jack Dunham made but one field basket.

This puts an end to basketball in Summerland for this season, as all three teams have been eliminated from the playoffs. The Kamloops squad will meet the mainland - Vancouver Island champions, probably at the coast.

Individual scores:

Summerland—Nesbitt 7, Vanderburgh, Dunham 6, J. Thompson, Moore 4, McLean 4, Ruppel 8-29.

Kamloops Red Devils: Camp 10, Marriot 8, Beesley 17, Martinson 2, Wakita 8, Farquharson 9, McDonnell-54.

Referees: Webster, Kamloops and Young, Penticton.

High School Hockey Squad Shows To Advantage in B.C. Eliminations

Playing in the elimination series for the B.C. senior high school hockey crown, Summerland made a good start on Saturday, March 12 by defeating Rutland 9-7 in the opener but were downed by final-

ists Kelowna Owls 6-2. Games were played in the Kelowna Memorial Arena in conjunction with the first speed-skating trials held in the valley for high school students.

Chuck Brawner led the local high school boys with four brilliant goals and one assist. Paul Roberge sank two and assisted on two others, while Haskins and Maier countered the remainder.

In the first period, Rutland completely outclassed the southerners and took a 4-2 lead. But late in the session Summerland boys started to find their artificial ice legs and in the second period there was complete reversal as Summerland took control of the play.

Rutland held on valiantly, however, and despite two goals by Brawner in ten seconds, the northerners still held a 6-5 edge going into the final period. In that third canto Summerland outscored Rutland 4 goals to 2, Roberge counting twice and Brawner and Maier counting lone tallies.

George Stoll Not Happy Over Kelowna Hockey Win

Playing probably the final game of the 1948-49 season, Summerland's senior puck squad went down to defeat before the pick of the Kelowna commercial league at the Kelowna Memorial Arena last Sunday by a 3-2 count.

Manager George Stoll is still mad about the game and is far from satisfied with the refereeing or the timekeeping, claiming the final period went 12 minutes longer than regulation.

Billed for five o'clock Sun-

day afternoon, Kelowna was not ready until almost six o'clock, and the third period could not be played as the ice was needed for the Nanaimo Clippers' practice session, George Stoll states.

Despite their three weeks' lay-off, Summerland showed plenty of spirit and provided a fast game for the first period, when they took a 2-0 lead. Their opponents consisted of five players each from

MORE ABOUT

GEORGE STOLL

(Continued from Page 9)

the three leading teams of the Kelowna commercial league.

Early in the first period Alec Klasoff, assisted by Barney, shoved home the rubber in a fast play to open the scoring. Five minutes before the first period ended Rosie Campbell went through the entire Kelowna team to make the count 2-0 for Summerland.

No penalties were called in the first period but right at the start of the second, the referee became more active. Four penalties were handed out—all to Summerland—and George Stoll was far from happy over the calls, claiming they were not justified.

Playing short-handed, Summerland was on the defensive, Kelowna scoring twice to even the count. Just before the final whistle to end the second period Kelowna scored the winning tally.

George Taylor broke his skates in the first five minutes of the game and could not get a replacement.

WILL ASSIST COUNCIL

"I will certainly do what I can to assist you," declared R. D. Browne-Clayton, MLA for South Okanagan in replying to the council's notification that it approves the legislation being presented before the B.C. legislature for control of transient photographers.

Seek Report on Radio Trouble Experiment Here

Stewart Sanborn, in tracing radio interference and installing suppressors has travelled 532 miles with his radio apparatus in his own vehicle, the council learned on Tuesday.

Mr. Sanborn, who is a member of the electrical crew, has devoted part of his time while working in "office" hours to radio interference problems and \$70 has been charged in the electric light department towards this work.

The council on Tuesday voted Mr. Sanborn ten cents per mile for car allowance, which eats up \$123.50 of the \$150 set aside earlier in the season for radio interference experimental work.

Besides time spent during working hours, Mr. Sanborn has also spent a great deal of his spare hours on radio interference work with no cost to the municipality other than the mileage covered, the council was informed.

As the allotment money is nearly spent, the council is interested in hearing of any results from the experiment and has instructed

BUILD BUNKER AT GRAVEL PIT

Construction of a bunker at the gravel pit to hold about fifty yards of material, as suggested by Roads Engineer Don Wright, met with council approval on Tuesday.

Councillor C. E. Bentley declared that it is a pity his plan of organizing the entire gravel pit on more systematic lines could not be undertaken now.

The roads engineer agreed that it would be desirable but considered the scheme to be too costly for this year.

EXTEND WATER SERVICE

Fourteen prospective users have paid domestic water rates a year in advance and work on supplying water to the Sergeant subdivision is now proceeding, council was informed on Tuesday.

that a report be submitted by Mr. Sanborn.

Although Electrical Foreman T. P. Thornber declared on Tuesday that good co-operation had been obtained from owners of equipment known to be causing radio interference, some council members were doubtful that much improvement has been experienced in radio reception in this district.

To this end, Mr. Sanborn is being asked to submit his report.

Two CCF Conventions To Name Candidates for South Okanagan and Yale

Two nominating conventions have been announced by the CCF party in this district.

On Wednesday, April 20, the CCF nominating convention for Yale will be held at Penticton, where it is anticipated that O. L. Jones present CCF MP will receive the nomination once more.

As this convention is being held during the Easter recess of the House of Commons in Ottawa, Mr. Jones is expected to be present and deliver the main address.

There is practically no likelihood that Mr. Jones will receive any opposition when the candidate for the forthcoming federal election is chosen by the socialist party.

In South Okanagan provincial circles, the CCF party is starting to organize and expects to hold a nominating convention in Summerland on Saturday, April 30.

Yale Liberals Also to Meet On April 20

Meeting in Kelowna last night the Yale Liberal Assn. executive decided to call the second nominating convention for April 20, in Penticton, the same date which the CCF has selected for its convention.

The Liberals expect to meet in the afternoon and it is probable that the convention will be concluded before evening, as nomination of a candidate is the only major item on the agenda.

The CCF convention will likely convene both afternoon and evening.

The four-man committee which the first Liberal convention in Kelowna ordered President Howard Thornton to select to name a candidate or possible candidates consists of Frank Baldoock, Vernon; James Floyd, Grand Forks; G. G. Lyall, Princeton and R. F. Cruikshanks, Kelowna.

The meeting last night was attended by South Okanagan Liberal president, Reeve R. A. Johnston, accompanied by Mrs. Johnston.

His Worship expects to attend the B.C. Liberal convention in Vancouver on April 7 and 8.

Funeral for Late H. V. Farrow to be Held on Saturday

Funeral services will be held on Saturday afternoon, April 2, at 2 o'clock from the Penticton Funeral Chapel, Penticton, for the late Harold Vernon Farrow, aged 63, who passed away on Wednesday, March 30, after an illness of several years' duration.

The late Mr. Farrow was born in Leicester, England, coming to Canada and settling in Vancouver when he was 17 years of age. Twenty-eight years ago he moved his family to Summerland, first being employed as a municipal ditchman and later taking orchard property of his own.

Besides his wife and two sons, Harvey and Clarence in Summerland, the late Mr. Farrow leaves a brother, Ernest at Chilliwack and a sister, Mrs. P. F. Collin in Burnaby.

Rev. W. S. Angell will officiate at the funeral service on Saturday, with interment in Lakeview cemetery, Penticton.

Les Gould Replaces Gordon Beggs As President of AOTS Club Here

At the annual election of officers on March 24, Summerland AOTS club chose Les Gould to be president for the coming year, with Vern Charles as vice-president, Don Tait as secretary and Walter Bleasdale as treasurer.

Rotating president Gordon Beggs installed the new executive at the end of a well-attended meeting with several newcomers numbered among the fifty men present.

The earlier part of the meeting heard reports from various committee heads, and progress was the theme of all. Les Gould reported that baseball is already organized for the coming season, with the age limit for junior players raised to 21, and special arrangements made this year for helping the younger players. Les himself plans to work with them, with Joe Sheehey and Jim Heavysides taking over the older juniors.

Vern Charles announced that a cleanup of Peach Orchard cemetery was soon to be called, with prospect of considerably more municipal aid in this AOTS-originated project.

H. R. Whitmore reported that Cubs are doing extremely well with the new rooms in St. Andrew's church hall, and the newly donated competition cup spurring extra efforts.

T. W. Boothe said that plans are going forward well for the AOTS request concert on April 22, the chief need being more men for

the men's choir. A practise of this choir was held shortly after the supper, with films shown at the same time for those whose eyes were better than their voices.

At the end of the meeting, Will Jenkinson distributed tickets to be sold for the concert, and it was again pointed out that Gerry Laidlaw will receive all requests for items for the program, which may be performed by anybody in or out of the AOTS.

This completing the evening's business, the meeting adjourned under the gavel of the new president who had presented it to the club.

Red Cross Drive Nears Objective

"I think we will make it now," declared Jack Dundon to The Review this morning when announcing that collections for the Red Cross drive amounted to \$2,865. Summerland's quota is \$3,000 and as one or two more canvassers have still to make their returns it is expected the quota will be reached.

J. McLachlan New President Of Rotarians

Joe McLachlan, popular young Summerland businessman and orchardist will be selected as president of the Rotary Club of Summerland when the annual elections take place in April.

This was disclosed at last Friday's Rotary meeting when Mr. McLachlan's nomination was unopposed.

He has been vice-president for the past year, assisting the 1948-49 president, Dr. R. C. Palmer.

Roy E. Angus, secretary-treasurer for the past two years, was also named to this post again without opposition.

For the post of vice-president five names have been chosen, consisting of Reeve R. A. Johnston, Francis Steuart, James Muirhead, Allen Cross and Gordon Smith.

Defeated candidates for this post will automatically be eligible for the post of director, along with Clarke Wilkin, Mel Ducommun, S. A. MacDonald, Ken Boothe, Vern Charles, Harvey Wilson and Don Wright.

New officers will take their posts on July 1, the start of the new Rotary year.

Plans are proceeding for the annual Rotary Club Easter Monday ball at Ellison hall. A half-hour concert program featuring talented Ukrainian musicians from Vernon district are expected to be present for this affair.

J. McLachlan, popular young Summerland businessman and orchardist will be selected as president of the Rotary Club of Summerland when the annual elections take place in April.

BOARD CHAIRMAN

C. J. Bleasdale Who heads School District No. 77 (Summerland) now planning the new junior-senior high school unit.

Mass X-Ray Survey To Be Held June 3

On Friday, June 3, the mobile mass X-ray survey clinic will be held in Summerland, Miss Joan Appleton, public health nurse here, announced this morning.

Arrangements are being made to have the clinic held at the IOOF hall.

The clinical staff will spend the whole day here to make X-rays of chests as a precautionary measure against tuberculosis.

Mr. George Woitte has returned to Summerland following a visit to his former home, Lethbridge, Alta.

Formal Meeting Calls for Shelving of Fire District In Favour of One Brigade

By a unanimous vote, some twenty residents of the West Summerland fire district declared their intention to ask the Summerland council to take the necessary steps to dissolve the West Summerland Volunteer Fire Protection Society in favor of the formation of one brigade over the whole district.

This decision was reached at the Nu-Way Annex last Friday evening.

The formal resolution, which was proposed by V. M. Lockwood and seconded by H. Clough, called for the disbandment of the district in favor of a brigade covering the entire municipality, with the assets of the district being turned over to the municipality.

In nearly five years of operation, assets of \$1,794.93 had been collected besides the administrative costs of the fire district, W. J. Beattie, society secretary since its inception, told the meeting.

There were about one hundred home owners and business property holders in the district when the society was formed, and this number has been increased by at least 25 percent, the meeting was told.

In opening the meeting, President J. R. Campbell remarked that five years ago, when the district was formed, the council was not ready to institute a full-fledged fire system.

The district was formed until the municipality was ready to form a municipal brigade.

"Evidently, we have come to the period where the municipality can take over," President Campbell remarked.

He pointed out that the residents in the fire district pay for fire protection now by a direct mill levy and also pay their share of the general costs levied over the entire municipality.

Entire Area Helped That disbandment of the district would be a good thing for the municipality as a whole was the opinion expressed by H. Clough. The original understanding was that when the municipality was ready to take over the fire brigade system then the district should be abandoned.

"The committee has done a good job but the community is now large enough for a municipal fire brigade," he thought.

"Personally, I am in favor of the entire coverage of the municipality," remarked Reeve R. A. Johnston. He declared the new fire truck, costing about \$3,500, is nearly ready for the road. He believed this truck to be a credit to the municipality.

"Is there any doubt that the council will not act if we disband?" queried Mr. W. S. Fitchie.

His Worship replied that the council would take the necessary action.

W. Atkinson wished to know if some of the equipment, such as the large hose for the hydrants would always remain in the present district area. It was suggested that this could be arranged with the council.

"That would be one of the details to iron out with the council," remarked President Campbell.

"I am sure the council would consider any suggestion you might

Bright Red Fire Truck Comes Here

Yesterday, Summerland's bright red, new fire truck was seen of the streets of West Summerland for the first time.

The truck was brought here by the Penticton Engineering Works, which has had charge of the alterations necessary to alter the new Maple Leaf truck to fit the purposes of a fire engine.

Fire Chief Ed Gould and Councilor C. E. Bentley, who tested the new truck at Penticton on Tuesday both have expressed satisfaction with its performance.

The truck is equipped with a 350-gallon water storage tank which is operated from a 500-gallon per minute auxiliary pump in front of the engine.

This pump is also equipped with suction hoses which can be used to draw water from any source available in the vicinity of a fire. These suction hoses can be put in operation while the auxiliary tank is draining.

The big pump is fitted with connections to handle the 2 1/2-inch hose, while auxiliary feeds are available so that the smaller 1 1/2-inch hose can also be attached.

Nearly Complete Plenty of space is allowed for ladders, reels, axes, and other impediments so necessary for efficient fire fighting. It is a compact arrangement, with no waste space.

The outfit is complete with the exception of a one-inch hose and reel needed for the auxiliary tank.

H. M. Foreman, chief of the Penticton fire department, witnessed the tests made on Tuesday and declared that Summerland's new fire engine is an efficient unit.

The machine will be housed at the rear of the municipal hall once alterations to the building are completed.

School Trustees Choose New Penticton Architect For High School Planning

William K. Noppe, who recently established an office in Penticton, has been chosen by School District No. 77 (Summerland) as architect to draw the sketch plans for Summerland's new junior-senior high school.

Mr. Noppe formerly operated from Vancouver and has designed and supervised construction of school units at Ocean Falls and Bella Coola. He has been recommended by other school districts in the province.

Decision to obtain the services of Mr. Noppe was made by the school trustees on Monday evening following a visit from the architect, who made proposals on the supervision which he would be able to carry out.

Trout Creek Work Moving Ahead Rapidly

"They are certainly moving ahead; it looks like a very thorough job."

This was the declaration this morning of Magnus Tait, chairman of the Trout Creek Flood Control Committee in commenting on progress being made by bulldozers and men in preparing the Trout Creek channel against spring floods.

This is a joint undertaking being supervised by provincial government employees. W. Ramsay has charge of the creeks' improvement program here and Kelowna, while Billy Miller of Peachland is local foreman.

The entire survey route of the creek has been staked out and clearing of the new channel between the bridge over Highway No. 5 and the experimental station bridge is progressing. Width of the right-of-way being cleared is 200 feet.

Below the bridge two bulldozers are deepening and widening the present channel to Okanagan lake and are making very satisfactory dykes, Mr. Tait reports.

Besides the equipment now being used, more bulldozers and other heavy machinery are expected for this work next week. A power shovel used for the preliminary work on the new Trout Creek bridge has been pressed into service.

It is understood that the experimental station bridge may be widened and raised as part of the general improvement plan, as this bridge had to be abandoned during the worst of the flood period last year.

Yesterday, Provincial Engineers A. L. Carruthers and W. Ramsay made a thorough inspection of the creek and expressed their satisfaction with the plan of improvement and progress of the work.

Trustee Aubrey King, representing the rural portion, was in attendance for the first time since December.

Architect Noppe, in reply to trustees' queries, declared that there has been a levelling off of building costs, and even some recession in overall costs has been noted.

This has not come about from any drop in material costs but more from the fact that labor is beginning to become slightly uneasy about its continued steady employment and is working a little harder on the job, Mr. Noppe considered.

Also, there is competition among the construction companies which has tended to level off the production costs. Availability of materials is another factor in lowering expenditures.

Procedure now is that Mr. Noppe will draw a series of sketch plans and will confer with the local trustees until a satisfactory school unit is designed. Then, the department of education approval must be obtained before a bylaw can be submitted to the taxpayers in the school district.

Once the bylaw is passed, then the architect will proceed with the detailed plans.

It is anticipated that these details could all be completed by the end of the year and bids sought.

No Firms Allowed School Board Chairman C. J. Bleasdale stressed on Monday evening.

Miss Joan Appleton, public health nurse, received a cable from Egypt yesterday to the effect that her brother, Ronald Appleton, an officer in the RAF, had died as a result of complications following diphtheria. He had been ill for some weeks but had been considered on the road to recovery.

Current Members of Speakers Club Show Ability at Annual Banquet

The fourteenth annual banquet of the Summerland Speakers' Club was held on Tuesday evening, March 29, in the Oddfellows' hall. There were about sixty present, including currently-active speakers, their wives, friends, "graduates" and their wives.

This club is rather unique. It was formed in October, 1934 to train men for public speaking, and those who have been members are found in the council, BCFGA, AOTS, and other organizations where they are able to express themselves with clarity and force.

Twenty Members It is usually confined to twenty active members who meet once a week for debate, discussion, or to try making short speeches. There is friendly constructive criticism, and a good deal of fun—sometimes, a surprising amount of oratory!

The banquet is held each year at the end of the term, and at this the new members are given an opportunity to show the result of their training. The president for the past year has been Mr. Alex Watt, who acted as chairman.

Mr. Art Riggs, one of the outstanding pupils of the year, was chosen to give the toast to the ladies, which he did with considerable fluency. Mrs. Jim Mayne replied to this.

Mr. Nat May told a story in his inimitable way, immediately followed by Mr. W. M. Wright toast-

ing the new members. Mr. Jim Mayne replied for them, and thanked those responsible for the training received, acquitting himself admirably and with no hesitation.

Mr. Harry Brown was the next speaker, who had the rather doubtful subject, "The Gremilins Brought Twins", foisted upon him. He thought that when the new road to the top of Giant's Head is built, and a glass-sided lookout erected, gremilins might be encountered there.

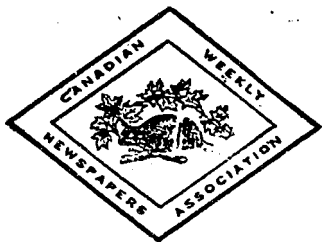

Toast To Founders Mr. Jack Mason gave the toast to the founders, two of whom, Dr. E. C. Palmer and Mr. Alex Steven, were present. Dr. Palmer, in reply, said that he is the only member who has not graduated in all the fourteen years, and is still attending.

In the absence of Mr. Jack McDougald, Mr. James Muirhead spoke briefly and amusingly.

Guests from Penticton were Mr. Art Fuller, of the Jaycees Gavel Club, and Mrs. Fuller, Mr. C. Way, and Mr. E. Hanham of the same club. Following an exhibition of his mystifying "sleight-of-hand" tricks, and there was a sing-song led by Mr. Fred Schumann, with Miss Ruth Dale as accompanist.

The LOBA catered for the excellent chicken-pie supper, and the tables were prettily arranged with spring flowers.

Cleanup and Refuse Disposal

ALTHOUGH on some days recently we wonder if spring has really arrived, yet there are others when we are certain that now is the time when we must get out into the back yards, into the lanes, into the highways and the byways and see that the accumulated debris of the winter is erased from our beautiful landscape.

There is much to be done in this community, even a casual glance around the district will tell you. Much paint is needed in places, repairs are essential in others, weeds and refuse should be cleaned away and a general Cleanup-Paintup campaign instituted.

It might be a good idea for the municipal council to take the lead and pronounce that an entire week would be designated as Cleanup Week, with municipal trucks available to assist the householders in cleaning up, not only their yards, but the area adjoining their homes.

And in this respect, there should be added a note regarding disposal of tin cans and other refuse. In many parts of the municipality can be found small deposits of unsightly tin cans discarded by persons who have no concern for the general good of the municipality.

Last year, the council decided that to control refuse disposal, the nuisance ground would be regulated and would be open on one day only, Wednesday, when a caretaker would be present.

This scheme was partly successful, but has not eliminated the disposal of refuse in other remote sections by persons who either forgot that Wednesday was the disposal day at the nuisance ground or could not make arrangements to conform with the regulations.

The council has made an honest attempt to meet the situation but evidently the one day per week is not enough. Either that, or there are some persons who will disregard any attempt at organized disposal and will dump their refuse anywhere.

In a recent report, the Okanagan Health Unit made a reference to Summerland's garbage disposal system and intimated that some further attempt must be made to regulate the disposal of refuse. We are afraid that a glance around the municipality will convince anyone that the sanitarian is correct. It will probably be costly but some further effort must be made to rid our byways of those disgraceful piles of tins.

Get On The Voters' List

LAST year's by-elections in Yale and South Okanagan there was observed the usual consternation that a large number of persons were not included on the voters' lists. Primarily, this is the fault of the prospective voters who did not take enough interest in the elections to make certain that their names were included.

However, public apathy being what it is, the governments must take steps to see that a complete coverage of every district as possible is undertaken.

This year we are likely to have two elections, the B.C. provincial election in June and the federal election in October. This is only guesswork yet, but these are the likely dates for the two contests.

Throughout B.C., as far as the provincial election is concerned, new lists are being prepared. All the voters' lists used in the 1945 election have been scrapped.

But here in South Okanagan a by-election was held since the last general election and the voters' list is more up to date.

Rather than wait until the last minute, persons who were not included in the provincial voters' list at the last provincial by-election in November should make certain now that they will be able to vote this year.

The Review has a number of registration cards available and, as a service to its readers, will be pleased to assist in having these forms filled out.

If you have been a resident of Canada for one year and of British Columbia for six months, and are a British subject or a Canadian citizen, 21 and over, then you are entitled to a vote.

And, for the first time in history, the provincial lists have been thrown open to Indians and Japanese, who are now entitled to participate in the electoral franchise.

Political parties should be working right now to make certain that every person entitled to vote is placed on the lists so that there can be no one on election day who will be refused the right to exercise their franchise.

Interest In Our Government

WHILE on the subject of voting, we were involved in an interesting discussion recently on the subject of exercising one's franchise.

From this discussion, it was revealed only too plainly that there are many in this land who refuse to take any interest in the political government of the country.

There are people who take the attitude that politics is a "game" in which they have no interest. They do not particularly like any political party or its platforms so they refuse to interest themselves in the government of the country.

There can be many and various causes for this attitude and, no doubt, these people are honest in their declarations that they want no part of politics.

It is unfortunate that there is not more in-

terest in the government of our land. Only by the maintenance of keen interest in the movement of the government and the opposition parties can we be certain that our representatives will continue to function in our interests.

If our elected representatives find that the electorate is not taking any particular interest in their activities then they become careless, with dire results to the country.

It is only by making certain that our members are given guidance and know that the electorate is watching their actions closely that we can keep them "on their toes" and operating to our benefit.

Canada can only obtain good government in direct relation to the interest that we, as citizens, show in governmental activities.

Signifying Nothing

By **RUSTICUS**

Well, well. So the Academy has given an Oscar to Sir Lawrence Olivier for his Hamlet. Orchids to Hollywood for acknowledging the superiority of an imported picture.

A lot of critics were surprised at their broadmindedness; Hollywood has never been exactly eager to give first place to other pictures or actors than her own. It's the same sort of self-absorption that inspired LIFE magazine to omit from their condensation of Churchill's memoirs all the figures showing that Britain had contributed more to World War II, up to the end of 1943 and '44 than the United States. LIFE is like that, too.

Besides, Hamlet is not a Hollywood type of picture, any more than is Henry V., which recently showed in Summerland.

More Shakespeare isn't the Hollywood pattern at all. In Henry V., for instance, the Hollywoods would probably have cast Bing Crosby as the king, and had all his great speeches changed to songs. Instead of omitting feminine interest until the end of the play, it would have been made a dominant part. Princess Katherine (played by Ingrid Bergman) would probably have come over to England with the herald, hidden

in the tun of tennis balls, to give personal defiance to Henry. Then in all the war scenes she would have appeared at the head of the French army, in gleaming aluminum armor to show off her curves better. Her quivering beautiful face in hundreds of feet of close-ups would have replaced most of the battle scenes. Henry would have had secret meetings with her instead of his soldiers in those night scenes, all leading up to the final long-drawn surrender at the end. That would have been standard, or formula, Hollywood corn.

Not that all Hollywood pictures are corn, any more than all British pictures are masterpieces. J. Arthur Rank has certainly produced some rank pictures, and Hollywood's best is well worth anybody's seeing. Though many of their producers seem brain-bound to the boy-meets-girl formula, there is always the odd one with courage to blaze a new celluloid trail.

And after all, what right have we to kick about the large percentage of very ordinary pictures that is turned out? We go to see them, don't we? As long as people look on the movie theatre as a better place to spend the evening than home, as long as parents find it easier to send the

youngsters to the show of an evening in place of finding them any better form of entertainment, and shoppers will drop in to any matinee to rest their aching feet, the industry will grind out cheap formula pictures to slough off on this unthinking, uncritical audience.

All this may change, of course, with the coming of television. The disappearing American home may get a new lease on life; the family may not stir away from that video screen unless the neighborhood theatre offers something of pretty high quality. There may yet come revolution to Celluloidia.

Meanwhile the English film industry which produced Henry V and Hamlet and the fine recent films of Dickens is already on the rocks. It isn't television there, but heavy taxes plus excessive costs of production. And alas, they haven't the organization to force the sale of their poorer films all over the world; their best spread on their merits, but their stinkers lose too much.

Is Hamlet then the last bright flicker of a dying fire? I hope not; surely England won't let her picture industry die out without making every effort to save it. But it is more worth seeing than over, just in case.

An Easter Egg

Pioneer Days

THIRTY YEARS AGO

March 29, 1919

New schedule of rates for the Kelowna-Westbank ferry have cut the former rates in half. Autos may cross for \$1. A government subsidy of \$2,500 has been voted in lieu of rate reduction.

Rutland district is contemplating organizing as a municipality because of the greatly increased taxes on farm lands in unorganized districts.

Plans are being prepared by the hospital society for an isolation building of two rooms and sleeping porches.

A baby girl was born to Mr. and Mrs. Basil Steuart on Wednesday. "The Nationalization of Industry and How to Attain it" was the subject of an interesting discussion at a Federated Labor Party meeting. Mr. A. J. Beer opened the discussion with an excellent paper.

TWENTY-FIVE YEARS AGO

March 20, 1924

It is very improbable that the Associated Growers of B.C. will function again this year. President A. T. Howe and Acting Manager Basil Steuart have recommended that the big co-operative organization be disbanded and that each local decide for itself what course of action it will pursue. This decision was the result of the diversion of about 800 carloads of fruit for 1924 through the sale of orchards which were signed up to the Associated. Local co-operative growers have voiced the opinion that unless the Associated can control 90 percent of the tonnage it will be useless to carry on.

Although the fire hose had sprayed water on the numerous cleanup fires along the roadway in lower town, M. Scourah discovered at 2:30 in the morning a fire blazing briskly too near the Summerland Garage. The fire was put out with difficulty.

Summerland Library Assn., has been successfully launched with J. W. S. Logie as president, P. E. Knowles secretary-treasurer and S. A. MacDonald, Mrs. H. Pares and Mrs. T. P. Thornber, committee members.

Messrs. Mellor and Andrew were returned as directors of the Summerland Telephone Co.

W. T. Hunter made his first public appearance this week in his new role as superintendent of the experimental station.

Burning coals falling to the floor caused a blaze which nearly demolished the Morrow cottage on Shaughnessy avenue.

J. C. Barkwill and his little son narrowly escaped death when a big fir tree crashed through the roof of their home. A terrific wind caused the tree to topple. Only a rise in ground kept the tree from going right through the house. Two Japanese escaped death in a similar manner when another tree crashed through their home, just missing the bed on which they were sleeping. The wind reached a velocity of 80 miles an hour at times.

Before leaving for Edmonton, where he will continue his studies, a farewell party was held for Lloyd Miller.

Mr. and Mrs. J. D. Woods have returned from San Francisco, where the former has been employed as a carpenter in the winter months.

Arranged by S. G. Rand, a checker tournament was held between Penticton and Summerland teams. Summerland won 24 games to 8, with four drawn. The winning team was composed of Young, McCutcheon, Jackson, Ramsay, Walden and Butler.

Canada Now Larger Than Europe With Newfoundland as Province

The inclusion of Newfoundland as the tenth Canadian province suggests the spacious days of Queen Elizabeth. It recalls such gallant names as those of the Cabots, Sir Humphrey Gilbert and Sir Francis Drake.

Canada's area is now larger than that of Europe. The vastness that is Labrador can never become a panhandle such as that on the Pacific coast.

The ancient colony has long been known as the Key of the St. Lawrence—that river which Thoreau described as taking its rise 2,000 miles up in the woods and as falling "such a noise at its falling down in one place as is heard all over the world".

In Captains Courageous Rudyard Kipling told us something of the Banks of Newfoundland and of the gallant men who go down to the sea in ships.

Those harvesters of the deep will constitute a splendid addition to our population, while in financial power and a vastly widened domestic market we give them a great deal in return.

As full partner in the British Commonwealth alongside the United States and other western powers, Canada is now in a position to exercise a wider influence in international affairs. In the meantime there is domestic encouragement in the strategically valuable air-bases and in the highly important iron-ore discoveries in the Quebec-Labrador area.

When the Dominion of Canada was created in 1867 provision was made for the admission of Newfoundland into the federation but,

despite negotiations from time to time with that end in view, Newfoundland never availed itself of the privilege.

Until 1933 Newfoundland was a self-governing dominion with its own governor-general, premier and parliament and was a full-fledged member of the sisterhood of British commonwealths with a status in the Empire similar to that of the Dominion of Canada itself.

Because of financial difficulties, in 1933 Newfoundland lost its dominion status and reverted to that of a British crown colony, being governed by a British governor and a commission composed of three members appointed by the United Kingdom and three by Newfoundland. It was contemplated that this arrangement would continue only until such time as the island could again support itself.

Newfoundland, among the dozen largest islands in the world, is often called the "senior British colony", because it antedates in discovery, though not in continuous settlement, all the overseas units of the British Empire.

John Cabot, sailing in the service of Henry VII of England, discovered the island in 1497. Sir Humphrey Gilbert formally occupied Newfoundland in 1583 and the Treaty of Utrecht in 1713 acknowledged it to be British. Newfoundland's first governor-general was appointed in 1728 when Canada was still a French possession.

Labrador has been a dependency of Newfoundland, and becomes part of the new tenth province of the Dominion.

The Giant of Giant's Head

By B. A. T.

XIV.—The Founding of Honolulu A land of sunshine far, far south, With breakers noisy roar; They left behind a clime unkind And saw the Head no more.

The giants of ancient times were a prolific race and the cause of their extinction—if they are extinct—is something that has puzzled modern scientists. For the giants did not have inflation, government control or sales taxes, three things which are driving many of the present generation into early graves. Certain facts have recently come to light which prove that our Giant's descendants still flourish on a southern island—Hawaii.

The Giant of Giant's Head had forty children as far as the records show and since he named the fortieth one, Nomora, let us hope that the wish was father to the fact.

The first child, Achilles, was killed by Jack-the-Giant-Killer as history relates. Bang, a daughter, was so called because she was loud. The third was Cunard—he liked to sail boats. Next, Darwin—he had a theory. Eligible was the fifth and her name was appropriate. (It was she who, when asked what she wanted most for a wedding present, answered, "A husband!")

Next came the famous twins, Flora and Fauna, followed by Gart. The latter was a clever lad—he invented the garter. And then, always named in alphabetical order, was Hono, and about him there is a tale to be told. Hono was such a handsome boy that his youthful life was made miserable by the pursuit of the

fair sex. Girls could not buy him neckties or cokes in those prehistoric days but they had ways of showing preference.

Hono was not content to settle down in the shadow of the Head. He was ambitious. He wanted to see the world—to explore new lands beyond the far horizon. He was the Columbus of his era.

When Hono was eighteen, he gathered a group of young men of similar views around him and together they worked out a scheme to explore the Pacific Ocean. It was known that the Red Giants inhabited a land to the west, so the adventurers planned that, after they had left the western coast behind, they would head south. As the birds migrated south every fall, there must be a land of warmth and sunshine in that direction.

With the Giant's blessing, the party of twenty set forth one spring. They arrived at the coast without incident and, aided by friendly giants there, proceeded to build a boat.

The youths from the Okanagan were so manly and handsome. (It is always so!) that the coast girls were not going to let such prize specimens escape. Lulu, daughter of the Chief of Lulu Island, swept young Hono off his feet (and head) by her impetuous wooing and the other boys from the Valley were as easily captured.

Before the boat was finished, a mass marriage took place and then there were forty to sail into the unknown. Last there he still further additions, preparations were speeded and on the first of November, the happy travellers set

sail upon the uncharted sea in their ship which they christened the "Sunflower".

When the maze of islands near the coast had been left behind, the ship was pointed south and for two weeks, with favoring winds, they sailed without sight of land. It was a pleasant voyage. No sea serpents, no pirates, no radio.

Finally, land was sighted and as they neared the shore a beautiful scene unfolded before their eyes—a shining white beach, graceful palm trees and flowers in abundance. The party landed and to celebrate their successful voyage, they made garlands of flowers which they hung around each other's necks, a custom which still prevails on that same island today.

The new country was as ideal as a land of dreams. Fruit was plentiful, fish abounded in the lagoons and the climate was mild. It seemed as if an earthly paradise had been found. It was almost as good as a politician's promise.

Hono, the leader, claimed the island in the name of his father, the Giant of Giant's Head. A banner was raised upon which there was a drawing of the homo mountain.

The young giants commenced to build a city, naming it by combining the name of Hono with that of his bride, Lulu.

Further information on this colony is lacking but it is believed that these giants, due to the mild climate, gradually decreased in stature to human size. Many theories have been advanced regarding the origin of the noble race discovered on the Hawaiian Islands by Cook in 1778. It is hoped that this authentic record will end all controversy.

Marshall Urges Caution in Use Of New Sprays

Dr. James Marshall of the Dominion Entomological Laboratory Summerland, was guest speaker after the dinner held in connection with the clinical meeting of the South Okanagan branch of the B.C. Medical Association held at the Incola hotel, Penticton, last Thursday, March 24.

His subject was 'The Toxicology of the Newer Insecticides', relating the effects and symptoms which might be encountered by medical doctors in this area by the unformed or careless use of the latest spray materials. He urged the greatest caution and attention to instructions when these insecticides are used.

The organic phosphates used for the control of insects in this valley are substances of recent origin, some of them developed in Germany during World War II.

All data is on file at the laboratory, and available to anyone who wishes to learn more about these chemicals.

He related the early days of spraying when hand equipment was used, and 100 gals. applied to an acre. Lead arsenate with its cumulative poisoning to the soil has been eliminated from the Okanagan and Similkameen districts.

Caused Dermatitis

Peculiar results occur at times. One D.D.T. mixture which had been used for seven years from the border to Berkeley, Cal., and considered innocuous caused dermatitis within a week when applied as an Okanagan spray.

All D.D.T. sprays should be approached with constant apprehension, although through continual experimenting they are being made less toxic. D.D.T. actually presents little hazard now, though indiscriminate handling may give dermatitis, nausea, vomiting and sore throat. This would mean that a large dose had been acquired. There is some danger to crops, to live stock, and milk, should they come in contact with this spray.

B. C. is the first place in the world to have eliminated arsenicals from spraying practices.

Dr. Marshall told of work with chemicals, unpronounceable by the layman, with which experiments are being made, and which may be used, when their toxicities are fully known.

Nicotine alkaloid is a very potent mixture, and very dangerous to handle. Some organic phosphates have no reaction to the skin; others cause chronic poisoning, can be stored in the body, and give cumulative poisoning.

Dinitroresol, used for blossom thinning, can cause nutritional disturbance, and seriously affect the eyes.

Parathion, used in higher speed automatic sprayers, can cause headache, nausea, and impaired vision, if the greatest care is not taken in its application.

Synthesis proceeds, and even new organic compounds are being superseded by more specific sprays. The systemic insecticides act through translocation, by toxic action, through the roots of the tree, to the aerial portions.

— RECIPE HINTS —

Peanut butter scones are good for Sunday breakfast.

Peanut Scones

These are perfect for Sunday breakfast or supper, between-meal snacks, or with luncheon salads.

2 cups flour, 4 tsp. baking powder, 2 tbs. sugar, 1 tsp. salt, 2/3 cup milk, 1 tbs. butter, 4 tbs. peanut butter, 1/4 cup chopped peanuts.

Sift dry ingredients together.

Cut, or rub butter and peanut butter into the mixture. Add liquid to flour mixture, blending lightly. Toss on a floured board. Pat or roll to 1/2 inch thickness, cut into three-inch squares. Brush with melted butter and press together to form a triangle. Sprinkle tops lightly with chopped peanuts. Place on a well-oiled cookie sheet and bake in a 375 degree F. oven for about 20 minutes.

The Mail Bag

Thanks for Publicity
Penticton, B.C.,
March 15, 1949

Editor, The Review:

The sincere thanks of the South Okanagan Boy Scouts Local Association is extended to you for the publicity in your columns during the recent Scout-Guide campaign. The local Groups of the Summerland area are particularly appreciative of your co-operation.

D. G. Macdonald,
Secretary.

Summerland, B.C.,
March 25, 1949

Editor, The Review:

I have been instructed by the Summerland Girl Guide Association to convey to you the sincere appreciation of the association in respect of the very fine coverage that the Review gave the Girl Guides and Brownies during Scout and Guide Week recently concluded.

The Girl Guide movement is doing very well in Summerland, and the help of the Review contributes a great deal to its success.

Sincerely,
Mrs. James Marshall,
Secretary Summerland
Girl Guide Association.

Replies to Mr. Rose

Summerland, B.C.,
March 28, 1949.

Editor, The Review:

I am sure many Summerland people were surprised not to see any letters in last week's Review challenging Mr. Rose's unfair criticism of Britain in his speech at the recent board of trade banquet.

Mr. Rose, while boasting of Canada's freedoms stated quite truthfully that Britain is no longer free. This is a gross misstatement.

Mr. Averill Harriman, chief of

the Economic Recovery Program in Europe recently told the senate foreign relations committee that "the spirit of freedom burns just as brightly in Britain as it has ever done."

He also said: "I have seen no change for the worse in Britain as the result of socialism. The British people have the full right in the freest of democratic methods to express their desire at the elections this year. (By-election results have proved that the Labor government is still the choice of the bulk of the British people)."

Mr. Finletter, chief of the Marshall Aid mission to London, speaking in Washington, said recently that "Britain is making a great and admirable effort of self discipline and sacrifice to win the battle of the dollar gap and that, if the present program were continued, Britain would succeed in her aim to become financially independent of outside assistance by 1952."

Mr. Finletter went on to say that "austerity is real and accepted." Senator Vandenberg, speaking at the same meeting said "the willingness of the British to submit themselves to such amazing austerity was magnificent and as fine an evidence of good faith as could be given."

Production is mounting every year, new factories are being built all over the country "by private enterprise" and there are more jobs than men to fill them.

If the people of Britain are willing to put up with government direction as to what they shall manufacture and the farmers as to what they shall grow it is because of their sturdy independence and dislike of being indebted to anyone.

Every Britisher appreciates all that Canada contributed towards winning the war and looks forward to renewed trade with her when Britain's dollar shortage is a thing of the past.

M. E. CREESE.

GUIDE NEWS

At this week's meeting Guides were busy passing tests to qualify them for their second class badge. Satisfactory progress is being made and several Guides will be presented with their badges on April 1 by District Commissioner Mrs. F. V. Harrison.

At the Court of Honour last week, it was decided that we should form a senior patrol of Guides 15 years of age and over. This patrol will later form the nucleus of a Ranger Company, we hope. As these Guides were almost all Patrol leaders, it means that new PL's will be chosen from amongst those Guides receiving their second class badges.

As April 1 is our first birthday, the meeting will take the form of a party, complete with birthday cake.

Guides are reminded that, owing to the size of the Company, any Guide missing more than three meetings without a legitimate excuse will be asked to drop out.

Ever since the war Scout uniforms have been somewhat difficult to obtain and prices have risen along with other items of clothing. It has been particularly difficult to purchase neckerchiefs owing to shortage of supply.

The troop is instituting a new scheme to help make parts of uniforms more available and at reduced cost. The idea is a "quartermaster plan" whereby outgrown uniforms in good condition will be turned in for sale to the quartermaster who will resell them to a boy requiring a certain size of clothing, and at the price asked by the seller.

Shorts and shirts are most quickly outgrown. Also, any Scouts who have left the troop, or former Scouts who have uniforms they no longer want, are asked to notify the Scoutmaster or Gerald Washington, who is going to act as quartermaster. Gerald is also going to keep track of the issuing of training books such as "Tenderfoot to King Scout" and P.O. & R.

All Scouts who own troop copies of these two books are asked to bring them in at the next meeting, so that they can be numbered and re-issued.

Any Scout who wishes to purchase one of these books may do so.

Mr. Feltham completed his lectures on Pathfinders badge at the last meeting and at this Friday's meeting he will examine those boys who have taken this course. All boys working on the Pathfinders badge, should be present on Friday to take this examination. Remember the Pathfinders is one of the required badges for a King's Scout.

The troop welcomed two new recruits, Higgs and Mitchell and hopes they soon will have their tenderfoot badge work completed.

Notices: Meeting Friday April 1, school gym at 7 p.m. Duty patrol, Beavers. The Sharnan cup will be awarded at the meeting to the high scoring patrol over the last 3 months.

FORMAL

Continued from Page 1
put forward," was Reeve Johnston's assurance.

Wants Old Reel
Les Arkell declared that the Summerland Box Co. has 200 to 300 feet of hose and wants one of the old reels. If the reel was made available, then this fire protection equipment would be available to that portion of the municipal district at any time.

"Those reels are the property of the municipality," replied Mr. Campbell.

Fire Chief Ed Gould quoted Councillor Bentley as stating that the municipality would not let "anything go at the present time."

Mr. Lockwood declared that the reels are not being used now and should be loaned.

"I think that matter can be adjusted," replied Reeve Johnston.

After the passing of the formal motion, His Worship commended the fire district committee for its work and stated that "we would certainly like the committee to carry on until the change-over is made."

Secretary Beattie replied that the committee only has \$56 with which to carry on, so the council should make every effort to speed up the disbandment proceedings.

A vote of the West Summerland district will have to be taken before the fire district ceases to exist.

Before conclusion, a vote of thanks to the fire chief, the chairman and the committee of the district was accorded.

O. L. Jones, MP for Yale, in the House of Commons recently was named on two standing committees, that of agriculture and colonization, and mines, forests and waters.

New Varieties of Tomatoes Are Declared Good

(Experimental Farms News)
Among forty-eight varieties, strains and hybrid tomatoes grown at the Dominion Experimental Station, Summerland, last summer, says W. J. May, three were outstanding.

Sukawara is a local production and is well adapted to the irrigated Okanagan district. Plants were vigorous and bore a heavy yield of large, round, firm fruit. The midseason maturity, rich red color and mild flavor make this variety of special value for canning.

Longred, a variety introduced recently by the Geneva experiment station, appears very promising. The plants were vigorous and the foliage gave a good coverage of fruit, thus reducing likelihood of sunscald.

The fruit was globular, good size, very firm and uniform and ripened as a midseason crop. The deep red color, both inside and out, the very small stem and scar, and the mild flavor made the fruit remarkably attractive.

Canning tests indicate that Longred gives a very high quality pack. Thus this variety could be used for either canning or fresh market purposes.

Among several hybrids introduced by the Morden Experimental station, one from a cross between Early Chatham and Bounty produced a heavy yield of early fruit. These fruits were light red, somewhat variable in size and were inclined to be small, but general quality was considered better than that of Bounty. The total yield of ripe fruit was heavy.

In canning tests the bright color of the fruit and tendency to remain whole made the pack very attractive.

THREE STUDENTS TAKE SERVICES

Three students of the Naramata Leadership Training school took the services at St. Andrew's United and Lakeside United churches on Sunday.

Miss Jean Jefferson was in charge of the services, and played a violin voluntary following the offertory. Miss Ruth Van Zant read a scripture lesson, and spoke of impressions received at the school and of her future plans to supplement her Naramata training by attending the provincial normal school, and going on to teach.

Mr. Haddon Gregory plans to become a minister. He intends to return to his home at Kamloops, taking his senior matric there, and going on to theological college. He read the second scripture lesson, and spoke as well.

The students were favorably received, good congregations greeting them at both services.

ning that the new school unit will be planned on a sound, structural basis but will have no "frills." There will be no extra expenditures.

He did not believe that the inclusion of a gymnasium could be considered an extra expenditure and the other trustees agreed with this thought.

Inspector J. N. Burnett added that a gymnasium is an important part of any school unit being planned today.

If all the necessary planning proceeds on schedule, a bylaw could be submitted here by the end of June, it was thought.

Attend Convention
In discussing other school board matters, the annual convention of the B.C. School Trustees' Assn., was considered. Mrs. A. W. Vanderburgh will be one delegate and Trustees Dr. James Marshall and Aubrey King declared their intention of making an effort to attend.

FRED J. NIXON RETURNS HOME

Mr. Fred J. Nixon, Summerland municipal clerk, who underwent an operation last January in Penticton hospital necessitating the severing of his leg, returned to his home in West Summerland on Sunday.

Mr. Nixon is now moving about his home on crutches and is making a satisfactory recovery.

WILL SELL CANDY

Members of the Service Club of St. Andrew's church are trying their versatile hands at a new activity. When the AOTS have their request program on April 22, this club will sell candy during the evening.

The trustees have accepted an invitation to attend a gymnastic display to be held in the school gym on Friday, April 8.

Trustees also approved the attendance by local teachers of Grades 1, 2 and 3 of a Reading Conference to be held in Penticton on April 29. This conference will be addressed by an expert from Chicago and will take the line of post graduate work.

More Money for Co-op Growers

Miss B. Bristow, secretary of the Summerland Co-operative Growers' Assn. informed The Review yesterday that 1942 building certificates amounting to \$11,715 and 1946 local certificates amounting to \$6,117 are being redeemed at the Bank of Montreal on April 1.

On the same date interest on certificates totalling \$5,200 is being paid.

WILL MOVE AGAIN

Dr. and Mrs. Cedric Hornby will move from the Britton home into the house formerly occupied by Miss Elsie Saunders. The Brittons are expected back from Ontario about Eastertide.

MAIL CARRIER ILL

Mr. G. G. Mayert, rural route mail delivery carrier, suffered a heart ailment last week and was confined to the Summerland hospital. He has recovered sufficiently to leave the hospital but has not returned to the route yet.

Take Kindergarten Class on Tour

Last Wednesday morning, March 23, the kindergarten was started on a series of expeditions which will take them to see various trades and industries in the district.

The first one was to The Cake Box, where "Jerry" in his baker's costume, who looks exactly like pictures in their nursery rhyme books, showed them the bread all ready mixed to go into the loaf-forming machine. He let them see into the great ovens, where some bread was already turning brown. They saw the cake-mixer, and the doughnut-making machine, and these were explained to them in simple terms.

There were twenty small children there, and that morning Mrs. Frances Steuart was the teacher, and Mrs. R. M. Johnston, the mother.

Just before they left, Mr. and Mrs. Halquist gave each one a paper napkin with nursery rhymes on it and containing a piece of cake.

The class thoroughly enjoyed its outing, and is looking forward to the next one.

Bill 82, Agricultural Products Marketing Act, Passes Third Reading in House of Commons

FULL DRAFT OF BILL 82 GIVEN

Full text of Bill 82, the Agricultural Products Marketing Act, which has gone through two readings in the House of Commons follows:

Whereas it is desirable to improve the methods and practices of marketing agricultural products in Canada; and whereas the legislatures of the province have enacted legislation respecting the marketing of agricultural products locally within the province; and whereas it is desirable to co-operate with the provinces and to enact a measure respecting the marketing of agricultural products in interprovincial and export trade; Therefore His Majesty, by and with the consent of the Senate and House of Commons of Canada enacts as follows:

1. This Act may be cited as the Agricultural Products Marketing Act.

2. (1) The Governor in Council may order grant authority to any board or agency authorized under the law of any province to exercise powers of regulation in relation to the marketing of any agricultural product locally within the province, to regulate the marketing of such agricultural product outside the province in inter-provincial and export trade and for such purposes to exercise all or any powers like the powers exercisable by such board or agency in relation to the marketing of such agricultural produce locally within the province.

(2) The Governor in Council may by order revoke any authority granted under subsection one.

3. The Governor in Council may make regulations prescribing the terms and conditions governing the granting and revocation of authority under section two and generally may make regulations for carrying the purposes and provisions of this Act into effect.

4. Every person who violates any regulation, or any order, rule or regulation, made by any board or agency under this Act with reference to the marketing of an agricultural product outside the province in interprovincial and export trade, is guilty of an offence and is liable on summary conviction to a fine not exceeding five hundred dollars or to imprisonment not exceeding three months, or to both fine and imprisonment.

On Monday, March 14, Agriculture Minister Rt. Hon. J. G. Gardiner introduced in the House of Commons at Ottawa Bill No. 82, entitled "The Agricultural Products Marketing Act", which in simple terms means that powers are being conferred by the Dominion government on provincial marketing boards to regulate and control the sale of agricultural products interprovincially and for export.

This is the bill which the fruit industry of this province has been seeking for the last quarter century and is being greeted in fruit circles in the valley with great satisfaction.

Second and third readings have now passed the Commons and as soon as Royal assent is given the new act will become law.

When he introduced the bill, Mr. Gardiner was asked by several members to "explain".

"This bill, for which many hon. members have been asking, is complementary to the provincial legislation," he replied.

"We still want an explanation," declared Mr. Stanley Knowles, CCF.

However, at this stage, the motion was agreed to and the bill read the first time.

Full text of the bill is given in an adjoining column.

G. A. Barrat, chairman of the B.C. Fruit Board declared last week that he "feels quite bucked up about it. The bill really does the whole job, certainly as far as the fruit industry is concerned."

This Bill 82 is similar to a draft bill submitted by the B.C. Fruit Board a year ago, in conjunction with the Canadian Federation of Agriculture. Some re-wording has taken place.

George E. Brown, secretary of B.C. Tree Fruits Ltd., the growers sales agency declared last week that the "bill is quite satisfactory", and "contains everything we have asked for."

Dates Back to 1933
The first provincial marketing act was introduced in the legislature in 1933 and since that time the fruit industry has campaigned for a federal marketing act to provide interprovincial powers, as well as export.

During the war, emergency powers regulated the interprovincial and export marketing of fruit.

B.C. Members Argue
On Friday, the act was given third reading and has now been finalized. Main discussion arose over a disagreement between two B.C. members, Davie Fulton, PC of Kamloops and H. W. Herridge, CCF of Kootenay West.

Mr. Herridge, according to Dillon O'Leary writing in the Vancouver Sun, criticized Mr. Fulton for disregarding the wishes of the interior fruit growers.

Mr. Fulton called the act "unconstitutional, unnecessary and undesirable."
In reply Mr. Herridge is quoted: "I was amazed to hear the representative of a fruit growing riding in British Columbia make such a statement, in view of the attitude of fruit growers of that province towards this legislation through the years and in view of the fact that they have again endorsed this legislation by passing a resolution."

The act was denounced by Mr. Fulton for the "arbitrary powers" it gives Agriculture Minister Gardiner. It allows the minister to confiscate, to set prices and power to negotiate on behalf of Canada with other countries.

"The farmers of this country do not wish to be subject to socialist control," he argued. "They want to have control over their own affairs through their own producers' boards."

For this purpose he favored legislation fashioned after the Dominion Natural Products Marketing Act of 1934, passed by the Bennett government, but later ruled unconstitutional by the privy council.

SPENDS TIME IN JAIL

KELOWNA—George G. Hyde, official of Craig's Candies Ltd., is spending 60 days in jail in lieu of fines totalling \$2,619.46. He was charged with failing to pay sale and excise tax. Besides the delinquent taxes he was assessed \$25 or 60 days. He is serving the term.

MISS LEGION Merle Heavysides

MISS ROTARY Rose Anne Harrison

MISS HOSPITAL AUXILIARY Constance M. Shriner

Pictured above are the three pretty Elementary school pupils who were selected by their fellow students as candidates for the title of Fair Queen at the Summerland Board of Trade Spring Fair on May 23 and 24. Three organiza-

tions, Canadian Legion, Rotary and Hospital Auxiliary are embarked on a ticket selling campaign, with the girl receiving the most votes being named Fair Queen. The two other girls will be queen attendants at the open-

ing ceremonies on May 23. The tickets also admit holders to the four performances at the two-day fair, besides giving an opportunity to win three prizes, a Frigidaire electric refrigerator, lazyboy chair and mantle radio.

O. L. Jones' Notes From Parliament Hill

(By O. L. Jones, M.P. for Yale)

Mr. Abbott presented his budget on Tuesday night to a crowded house, a crowd that waited in tense expectation of the good news in the form of reduced taxes that we anticipated. We were not disappointed, the budget has provided relief to practically every taxpayer in the Dominion, both large and small.

The daily press has dealt very fully with the various figures involved, so I will deal with the reaction here in Ottawa to the budget in general.

In the house and on the street the reaction is one of satisfaction that we are to be relieved of some of the wartime austerity taxation.

It is generally accepted here that the budget is primarily aimed to gain government support at the next election; even government supporters, when charged with this in the house, do not deny it. In any case, whatever the underlying causes that brought about this relief, we are all pleased about the results. It has been pointed out by several speakers that the government that now derives praise for a generous budget is the same government that imposed the high taxation in the first place.

The presentation of the budget was a personal triumph for Mr. Douglas Abbott, who spoke for just two hours without interruption. He announced that income tax exemption for single men would be raised to \$1000.00 and \$2000.00 for married men. This exemption was long overdue as the cost of living increase had rendered the former exemption completely unrealistic.

This announcement brought cheers from every member of the house; it appeared to be a surprise to the other members of the cabinet, who listened with interest to the whole speech. The contents of this budget were a top secret until then.

Business and corporation taxes were reduced, especially those affecting small businesses, with only a slight increase for the largest corporations; even the Tories have not registered a complaint against this increase.

The 25% retail luxury tax that I wrote about last month, has been abolished; it now becomes a tax of 10% on the manufacturing cost. The tax on soft drinks also disappears, and one cent was taken off chocolate bars. Several other concessions have been granted that will give substantial relief.

SYSTEM EXTENSION WOULD SERVE 2500 ACRES

KELOWNA—Survey is now underway of the Black Mountain irrigation district with a view to extending the main canal which would bring additional 2,000 to 2,500 acres of land under cultivation. It is planned to construct a new high level ditch to obtain an extended flood water season, and if additional storage is put in Mission Creek four districts would benefit.

to the hard-pressed taxpayer.

In giving due praise to Mr. Abbott and his government for all this, one must not forget the quiet persistent work done by the private members during the last year. We have channeled numerous petitions and requests to the minister, we have interviewed and pleaded with both Mr. Abbott and other members of his department to grant these changes. In other words, we have been the spearhead of public opinion, as expressed by our constituents during the last twelve months, and no government could for long ignore this persistent demand by the general public.

Speculation as to its general bearing on an early election has been uppermost in our minds, but we do not expect an election until October, although the other date spoken of is in June. An editorial in today's Ottawa Journal says this has been like taking the rug

from under Mr. Drew's feet, pointing out that the budget has brought renewed hope to the Liberal party.

We have four emergency bills before us that must be passed by the 26th (Saturday). They take precedence over all other bills until then. The prime minister pleaded with members to be brief in their speeches to expedite them, but so far the Progressive Conservative party has shown no inclination to assist, with the result that if the time expires before the bills are passed, it is quite possible that the government would be forced to dissolve parliament immediately.

We are in continuous session from 11 a.m. until 10:30 p.m. with the usual breaks for meals. We answer our growing volume of correspondence during the odd moments (when they present themselves), attend caucus and committee meetings in between.

Shortly before leaving Kelowna I had the pleasure of spending an afternoon with Mr. Grote Stirling, so now I can give first hand information about his health to the numerous enquiries that are made to me by his friends in the house—they all wish him well and a speedy recovery.

Alan Hickey is Principal at Quiet Wedding

A wedding of much local interest took place quietly in All Saints Church of England at Kimberley, B.C., at 3 o'clock Thursday afternoon, March 10.

The officiating clergyman was the rector of the church, Rev. R. C. Henstock, when Mr. Alan Hickey, son of Mr. and Mrs. T. M. Hickey, Summerland, was quietly married to Miss Betty-Joan Stanton, daughter of Mr. and Mrs. H. F. Stanton of Kimberley.

The bride was attended by Mrs. Fred Holmes, as matron of honor, and by her sister, Miss Carole Stanton, who acted as bridesmaid. The groomsmen were Mr. Fred Holmes.

A reception for relatives and close friends was held at the home of the bride's parents, where a three-tiered wedding-cake centred

MEET GRAND MISTRESS AT PENTICTON SESSION

Mrs. E. Gould, Mrs. Wm. Pattie, Mrs. Geo. Kennedy, Mrs. Fred King, Mrs. H. Ewing, and Mr. and Mrs. J. H. Walton, attended a special meeting of the LOBA held in Penticton on Friday, March 25, at which the Grand Mistress of B.C. was present. She is Mrs. Minnie Thomas of Princeton, and was accompanied by Princeton members, who also attended the meeting.

WILL MOVE TO COAST

Miss Saunders is moving on Saturday from her former home, and will stay for a week with Mrs. A. Stark before going to the coast, where she plans to visit for a while until deciding on a permanent residence.

the beautifully-appointed table. For their honeymoon Mr. and Mrs. Hickey motored to Spokane, and on their return will make their home at Kimberley, where Mr. Hickey is on the staff of the Bank of Montreal. Before her marriage the bride was a member of the nursing staff of Kimberley hospital.

Bouquets of Spring Flowers Add Pleasing Touch to Charming Nuptials

On Thursday afternoon, March 24, at five o'clock, the marriage of Edna Annie Fowler, daughter of Mrs. A. N. Tellman, of Summerland, and the late Mr. A. N. Tellman, and Mr. Bryce Blake McNeeley, son of Mr. and Mrs. A. S. McNeeley, Carleton Place, Ont., was solemnized in the Lakeside United church by the minister, Rev. H. R. Whitmore.

The bride, who was given in marriage by her brother, Mr. Albin E. Tellman of Kelowna, wore a pretty silver grey suit, with turquoise accessories. Her hat was an off-the-face model of felt, with a veil, while her bouquet was of mixed spring flowers.

Mrs. V. O. Nesbitt of Needles, B.C., sister of the bride, was matron of honor, and she, too, wore a suit. It was of navy blue, with which pink accessories contrasted pleasingly. She carried a bouquet similar to the bride's, of spring flowers in various shades.

Mr. Delmar Spalding of Westbank was the best man. Mrs. Albin Tellman, of Kelowna, sister-in-law of the bride, played

the wedding music. A reception for about forty guests was held at the home of the bride immediately following the ceremony. Mrs. Tellman, receiving with the bridal party, was charming in a light blue suit, a black and white hat, and corsage of pink carnations. Mrs. L. T. Wolfer, another sister of the bride also assisted in receiving.

The house was decorated with pink and white streamers, and on the table there was a three-tiered wedding cake.

Mr. Chas. Nesbitt proposed the toast to the bride, to which the groom responded, and Mr. Fred Schumann gave the toast to the matron of honor. Mr. Spalding spoke in reply.

Later the bride and groom left by car for their honeymoon at Wenatchee, Wash. At present they will make their home in Summerland.

As a surprise, Mr. E. Matthon, Summerland, made a recording of the ceremony, which he later presented to the newly-married couple.

Five New Members For Faith Rebekahs

Faith Rebekah lodge No. 32 had new regalia for its initiation ceremony last Wednesday evening, March 23, when Noble Grand, Mrs. Donald Orr and the degree team initiated five new members.

Those who joined the lodge last week were Mrs. Bruce Johnston, Mrs. Elmer Johnston, Mrs. O. Thomas, Mrs. W. Toevs, and Mrs. Isabel Mowat.

After the ceremony refreshments were served by the social committee.

Mrs. F. A. Miller, Crescent Beach, is a patient in Summerland hospital.

Mrs. Vanderburgh Re-Elected by Guide Meeting

The local association of the Girl Guides and Brownies held its monthly meeting, followed by the annual meeting, last Thursday afternoon, March 24 in the parish hall, South Okanagan commissioner, Mrs. F. V. Harrison, was welcomed to the meeting after her recent illness.

Plans for Cookie Week were discussed, and Mrs. E. Hack volunteered to be at the parish hall on Monday, April 25, to give out the boxes of cookies which the Guides and Brownies will be selling that week. Mrs. C. V. Nesbitt suggested that used paper bags be provided to keep the boxes clean. There was discussion as to possible, suitable, camp sites for the proposed summer camp for the Guides.

Girls of the senior patrol, recently formed, will be asked to assist at the showings of films, and teas, to be held in the next three months, in connection with the public health well-baby clinic.

Correspondence was read from South Okanagan commissioner, Mrs. Harrison, regarding formation of a division committee in this area. It was thought that this was a good idea, and Mrs. Dewey Sanborn was appointed a delegate to this committee, with the president, ex officio. These delegates, with those from other south Okanagan centres, will form the executive of the division committee.

At the annual meeting following immediately, the secretary, Mrs. Jas. Marshall read a resume, which she had prepared, of the work done by the association during the year, summing up activities. Mrs. C. V. Nesbitt, the treasurer, gave the year's financial report.

Mrs. F. V. Harrison took the chair for the election of officers. The officers were returned, and are as follows; president, Mrs. A. W. Vanderburgh; secretary, Mrs. Jas. Marshall; treasurer, Mrs. C. V. Nesbitt; tea convener, Mrs. Earle Wilson; executive member, Mrs. Clarence Adams, and Mrs. E. V. Harrison, executive member ex officio.

Mrs. Blayne was appointed as badge secretary, an office which was not necessary when the company was first formed, but will be needed continually now. This officer secures competent people to judge the girls when they are ready for their various tests, and sees that they are tested.

Mrs. Bownett, Olliver commissioner, and delegate to the provincial council meeting, will be the speaker at the April meeting.

NEW ARRIVALS

A son was born to Mr. and Mrs. George Hack at the Penticton hospital on March 25, 1949.

OCCUPY CHEW HOUSE

Mr. and Mrs. H. J. Penketh are moving into the Chew house at Summerland shortly.

VISITING ABROAD—

Mr. and Mrs. Walter M. Wright drove to Vancouver the middle of the week, expecting to return early in April. They will visit their son and daughter-in-law, Mr. and Mrs. Howard Wright.

Mr. Harley Ewing has returned from Ridgedale, Sask., where he attended the funeral of his father.

After an absence of about ten days, at Laidlaw, B.C., where she was present at the funeral of her mother, Mrs. Long, Mrs. Jack Broderick has returned to her home.

Mrs. Wm. Hack is visiting friends at Trail for a couple of weeks.

Mr. and Mrs. H. O. Pruden drove with Mr. and Mrs. H. J. Barkwill to Vancouver on Tuesday, to spend two days at the coast.

Mrs. Florence Stark went to Vancouver on March 23 for a short holiday.

Mr. Fred Gartrell left on Sunday night's train for a visit at Vancouver.

Mr. P. LeBrun was at Vancouver last week.

Mr. Matthew Harrison is in Vancouver this week, having left on Monday night.

Mrs. C. P. Evans flew to Vancouver last week for a short visit.

Mr. and Mrs. A. Grimes left this week for North Battleford, Sask., where they will attend the week-long Feast of Pentecost conference. They are in charge of the Glad Tidings Pentecostal church in Summerland.

HOME AGAIN—

Mrs. A. B. Elliott has made her springtime return to her home here after spending the winter months with relatives at the coast.

Mr. and Mrs. A. J. Mann who have been holidaying at the coast have returned.

VISITING HERE—

Lt. (N.S.) Anne Hopkins of Shaughnessy Military hospital, Vancouver, who arrived Tuesday morning is visiting Mr. and Mrs. J. R. Armstrong this week.

Mrs. A. R. McPhail of New Westminster is a guest of her parents, Mr. and Mrs. Edgar Gould this week.

Miss Jessie Gentles of Nelson is visiting Mr. and Mrs. J. Bulloch at the experimental station. On Sunday Mr. and Mrs. Bulloch entertained Mr. and Mrs. W. A. Walton and their children, Mrs. Mitchell and son, and Mr. Jack Constantine of Penticton.

Mr. Carl Chrismas of Selma Park, B.C., spent the weekend with his brother-in-law and sister-in-law, Mr. and Mrs. Max McKechnie.

School Board Members See New Junior-Senior High School at Grand Forks Costing \$400,000

When confronted with figures of half million feet of rough lumber, 80,000 feet of finishing lumber, one carload of linoleum, three carloads of insulation, the average person sees huge piles of materials, which do not give any definite building picture. Members of the school board who went to Grand Forks last Friday to see the new school there, could see where these large amounts of building necessities are being used to advantage to construct the fine junior-senior high school at a cost of \$400,000.

Inspector C. E. Clay, who makes Grand Forks his home and headquarters, and who formerly lived at Summerland, conducted the tour of the school.

The builders are the Grand Forks school board. They have a construction superintendent. He is there to look after the interests of the board, and to supervise continually. They are fortunate in having the services of Wm. Marr, a former airman, who supervised construction on the Alcan Highway during the war.

The building is on five acres of land, and will accommodate 500 pupils. Besides the classrooms, there are a cafeteria and an auditorium to seat 450. The stage is standard-size, 24 by 56, good-sized wings, and dressing rooms. There is a gymnasium, with 450-500 seating capacity, the floor 84 by 88, with 20 feet taken at one side for bleachers. The playing floor is 64 by 88.

Large Windows
Windows will be 11 feet high, the complete length of the building on the north side, and will be of wired plate glass. Both auditorium and gym will be used as

community, as well as school halls. The heating is steam, completely air-conditioned, using stoker furnace. There is storage space for 60 tons of coal. There will be hot water all year around. The radiators have aluminum grill covers. Canvas connects the air-conditioning unit with the pipes, thus eliminating vibration and noise.

A complete public address system is to be installed, connecting with each classroom.

Laminated walls are being built between corridors, on the stair wells, and around the vault as an added fire protection. Every 32 feet there is a complete fire wall from the foundation to the roof. The stairway doors, which automatically close, are of fire proof glass which would resist heat for two hours.

The stationary windows are of double glass, back puttied, proven to keep out drafts, and making storm windows unnecessary. These were found to be entirely satisfactory in buildings on the Alcan Highway, where there was severe cold.

The ceilings in the classrooms slope from the top of windows, inward, and reflect the light. The windows are the whole side of the rooms, and it was noted that the lighting is particularly good. When necessary, it will be supplemented by incandescent lights. Teachers are provided with desk lamps to save using the classroom lights at times.

The roof is built with very heavy trusses, slopes inward, and drains to the centre, thus preventing the eaves from being clogged. Movable partitions between classrooms have been put in after the main construction was done, the linoleum laid on the larger space before the partition was put up. In this way there was a saving in labor, and the partition can be moved easily to make rooms larger or smaller.

Pretty colors are used for the dados. Different shades of mar-bleum vary the color scheme. There are green 'blackboards'. Particularly pleasing were the simple, definite lines, and decor, throughout the whole building. The exterior finish will be stucco.

Included in the inspecting party from Summerland were Trustees C. J. Bleasdale, Dr. James Marshall, Mrs. A. W. Vanderburgh and Secretary B. A. Tingley, Inspector J. N. Burnett and Trustee Mrs. R. B. White of Pentiction.

The party left on Friday and returned here on Saturday.

MORE ON: CATTLE GATE

Council has turned down a second request from J. L. Palethorpe, CPR superintendent at Pentiction for the erection, by the municipality, of a second cattleguard gate. This gate would not be on municipal property, while the cattleguard originally installed by the municipality was according to provincial government regulations the council declared.

This cottontail rabbit, caught in the rising flood waters of the Big Blue River at Beatrice, Nebraska, sits it out like any other flood refugee on the highest, driest spot he could find—a fence post. A couple of human refugees, Buck Fallstead and his son, Ray, rowing across the flood area near their inundated home, found the cold, wet bunny and rescued him.

Transit - Level To be Purchased

Roads Engineer Don Wright will be supplied with a combination transit-level, at a cost of \$315 plus tax, the council decided on a divided vote on Tuesday, March 22.

Cost will be divided between the roads and irrigation departments, but the council did not agree with Reeve Johnston's suggestion that the cost be split between four departments.

"Four ways is a bit thick," commented Acting Municipal Clerk Gordon Smith, as it had already been argued that domestic water and electric light departments would have no use for the instrument.

Councillor Bentley had argued that the expenditure should be left to the estimates after Engineer Wright had presented a request for purchase of the instrument as being necessary for continued works progress.

Councillor Eric Tait also wanted it left over for further consideration, but Reeve Johnston backed up the roads engineer and wanted action.

Councillors F. E. Atkinson and Harvey Wilson favored immediate purchase and moved a resolution to that effect. Councillor Tait, somewhat reluctantly, agreed with the motion and it was passed, Councillor Bentley refraining from voting.

FIRE COLLEGE

No action was taken by the council last week when it learned that the B.C. Fire Chiefs Assn. annual fire college will be held this year at North Vancouver.

More Mouse Injury Than Winter Kill in Local Orchards Despite Severity of Season, Says Watt

"To date there has been little sign of winter injury to tree fruits in the Summerland area," states Alex Watt, district agriculturist, Summerland. "Most varieties of stone fruits are quite sound in bud and barring a few misses on the weaker wood of J. H. Hale peaches, there doesn't seem to be any cause for real alarm. It is early yet to give the final picture. We will be able to tell more later on when the blossom buds start opening."

"The Summerland district was favored this winter by its proximity to the unfrozen portion of Okanagan lake. Temperatures were more severe to both the north and south of the Summerland area. Very deep snow covered the orchards throughout the cold spell thus helping to minimize the danger to root injury.

"The lowest recorded temperature occurred on February 13th when the thermometer at the experimental station recorded seven degrees below zero.

"So far, the most formidable outcome of the rather severe winter has been an unusually large amount of mouse damage. Mice have been on the increase throughout the Okanagan for about two years.

"This winter, their increased numbers were afforded plenty of shelter by the unusually deep snow blanket. Apple, pear and most stone fruit varieties have sustained injury from mice feeding under the snow line.

"Most injury is to young trees, but some quite large apple trees have been completely girdled.

Examine All Trees
"A great deal can be done by the grower to save these mouse-injured trees. All trees in the orchard should be examined around the crown to see if mouse damage has occurred. If bridge grafting is planned, scions should be cut immediately.

"Selection of the right kind of wood for scions is very important. For apple and pear, well-grown wood of the previous season's growth should be taken from the outer portions of the trees. Scions of good length and thickness are required. Avoid thin, weak wood. When scions are cut they

should be stored until needed in a basement or root cellar and covered over with sand or sawdust.

"Stone fruits are considered to be more difficult to bridge graft than apples or pears. Growth is so rapid with these varieties that with most young trees the best plan, if grafting is serious, is to cut the tree off below the injury and train a new shoot from below the cut. If the new shoot comes from below the original bud, it can be rebudded in the summer.

"If bridge grafting is attempted on stone fruits it should be started right away, as these reach grafting stage much earlier than apples and pears.

"Your agricultural office has circulars on the subject of bridge-grafting and can furnish further information on this matter. Where damage from mice is extensive it might be wise to employ an experienced man to do the grafting, but where only a few trees are affected the grower could safely undertake the work himself, Mr. Watt concluded.

AGREES TO PARLEY

Let's ALL pull together for B.C.!

- British Columbia has tremendous drawing power . . . as witness the fact it is Canada's fastest-growing province.
- It has "pulled" about 85,000 willing new residents from Saskatchewan, alone, during the past five years.
- New incorporations of companies in B.C. equal those of all other western provinces combined.
- British Columbia can go on progressing if we all work together and keep the confidence of investors whose savings are essential so that new jobs will be opened in this province.
- Larger than Washington, Oregon and California combined, British Columbia is a great province growing greater because its people pull together.

BRITISH COLUMBIA FEDERATION OF TRADE & INDUSTRY

Digest of "Little Man's" Budget Shows Income Tax Reductions Main Items

(By Ottawa Observer)

Seven hundred and fifty thousand Canadians were removed from income tax rolls in the budget brought down in the House of Commons Tuesday of last week by Hon. Douglas Abbott, minister of finance.

The budget, the most welcome in Canadian history, reduced the Canadian tax bill by nearly \$370,000,000. In more understandable terms, the minister of finance cut the taxes of every man, woman and child in Canada by almost \$30.

The most striking reductions were in income taxes which were cut by nearly one-third. This has been achieved, Mr. Abbott explained, by increasing exemptions for single persons from \$750 to \$1,000 and married people from \$1,500 to \$2,000.

In addition, the rates of taxation have been reduced so that not only will there be fewer taxpayers but those who still pay taxes will be paying less. Both reductions are effective as of January 1, 1949.

Exemptions for children under

16 are raised from \$100 to \$150. Exemptions for other dependents are raised from \$300 to \$400.

Illustrations of Cuts

Here are some illustrations of the income tax reductions brought about by the Liberal Government's budget:

A single person earning \$2,000 will have his tax cut from \$320 to \$236; a single person earning \$5,000 will have his taxes reduced from \$835 to \$700; if he earns \$10,000, the cut will be from \$2,253 to \$1,960.

Taxes payable by a married person without dependents at the same three levels will come down from \$170 to \$75; from \$670 to \$510, and from \$1,990 to \$1,660.

In case of married persons, with two dependents, the tax will drop in the same income groups, from \$130 to \$30; from \$630 to \$453, and from \$1,930 to \$1,582.

Mr. Abbott pointed out that Canadians who have been paying 1949 taxes by the payroll deduction method and who have been eliminated from the tax rolls as a consequence of the new budget will receive refunds.

In dollar terms, taxpayers in all brackets will be benefitted but the effect is most marked in the lower income groups.

Of special interest to 'teen-agers was the statement of the finance minister that special taxes on soft drinks, candy and chewing gum have been removed. This was interpreted as meaning that there is a fair chance that these products may soon sell for five cents again.

The fifteen percent tax on all travel tickets has been dropped as have the extra taxes on long distance telephone calls, telegrams and cables.

Canadian women will be heartened at the news that the twenty-five per cent tax on jewellery, cosmetics and toilet preparations is reduced to ten per cent and the thirty-five per cent tax on luggage, handbags and similar articles is also down to ten per cent.

Mr. Abbott said that pens and pen-

cils, which have been taxed thirty-five per cent will henceforth be subject to a levy of only ten per cent.

A further compensating factor is that, in the future, these taxes will be paid on the manufacturers' price instead of on the retail price as has been the practice in the past.

Two items which are not subject to tax reductions are liquor and tobacco.

Ceilings Taken Off

In addition to the tax changes, Mr. Abbott announced that, as of midnight, Tuesday, March 22, price ceilings are being taken off flour, bread, butter, sugar, molasses, fruits and vegetables not limited by restrictions. Several of these items are, of course, already selling below their ceiling prices. Controls still remain, however, on rents, steel and lumber.

The subsidy is withdrawn on wheat going into domestic flour. This has been subsidized by the government at 46½¢ a bushel which works out to slightly less than one cent on a twenty-four ounce loaf.

It is anticipated that the effect of the drop in subsidy will be offset by the fact that some ingredients used in the making of bread, for example, lard and shortening, cost less.

The budget brought forth good news for the small businesses. Until now companies in Canada have paid a flat 30 per cent tax on all corporate profits. Under the new plan, the tax will be only 10 per cent on profits up to \$10,000. Above \$10,000, the tax will be 33 per cent.

This tax relief is designed to encourage small companies to increase funds needed to grow and expand. A further important tax reform is the removal of double taxation on common share dividends. Shareholders to receive a tax credit against their personal income tax equal to 10% of the dividends received from common shares. This is to encourage creation of new wealth, new capital for new enterprises.

Other budget highlights: Further

3-year extension on allowances granted on oil, mineral and gas exploration companies, that is up to and including 1952; 3-year tax exemption for certain metal and industrial mineral mines; no tariff changes at present; encouragement of British trade with Canada, "we must buy more from our customers if we are to sell more"—up to the British to take advantage of opportunities in Canada; without tax changes there would be an estimated surplus of \$323 millions in the coming fiscal year; tax reductions reduce this surplus to \$87 millions.

Financial Record

Mr. Abbott summarized the financial record of this Liberal Government during the life of this present Parliament as follows:

"In October 1945 we provided tax reductions of \$300 million a year.

"In June 1946 we provided tax reductions of \$266 million a year.

"In April 1947 we provided tax reductions of \$285 million a year.

"In the 1947-48 session we provided tax reductions of \$92 million a year.

"And now in March, 1949, we are providing tax reductions of \$339 million a year.

"In these five successive budgets we have made tax reductions which now amount up to nearly \$1,300 million a year.

"During the past three years we have reduced our net debt by \$1,625 million."

USE SLAG AS BASE FOR INSULATION MATERIAL

Grand Forks city owns enormous slag piles, left there after the mines closed. It has been found that valuable insulating material can be made from this waste and it is being shipped to Moose Jaw, where it is converted to a form of rock wool, entirely satisfactory for insulation.

OBJECTS TO ENGINEERS' FAILURE TO VISIT

KELOWNA—Alderman J. H. Horn in Kelowna city council session took exception to provincial government officials, namely Engineers A. L. Carruthers, W. Ramsay and A. L. McNaughton inspecting Mission Creek without consulting civic officials in this regard. He considered that as the city is paying part of the cost the engineers should at least consult the council when they are in Kelowna.

REVIEW OF SPORTS

Caps Manager Will Conduct Ball Clinics

Vancouver Capilanos, professional ball tossers have arrived in Penticton for their two weeks spring training workout prior to the opening of the strenuous season play on the Pacific coast.

Exhibition games against an all-star aggregation of Okanagan ball players have been arranged for King's park in Penticton on April 6, 10, 11 and 13.

Besides these games, the Capilanos' manager, Bill Brennan and Bob Brown, the managing director will hold baseball clinics, to which some of the local players are expected to be invited.

The appearance of the Capilanos in Penticton has been sponsored by the Penticton branch, Canadian Legion. Any profits derived from the games and other festivities planned will go into the ball park improvement fund states Mr. Maurice Finnerty, Legion president.

Tidball Named President of Penticton Club

PENTICTON — Alderman A. E. Tidball was elected president of the Penticton Baseball Association at its annual meeting.

The slate of officers includes: City Engineer W. E. Warburton, vice-president; George "Scotty" Gordon; secretary, Charles "Casey" Phipps, treasurer; committee: Ernie Cox, Charlie Blacklock, Bill Benoit, Herb Phipps and Everett Gordon.

Wally Moore will be team manager and N. G. Kincaid umpire.

WHEN DAUTHUILLE TOOK COMMAND

Here is JAKE LAMOTTA of New York with eye closed, and his face smeared in crimson, on the receiving end of some sharp punching by LAURENT DAUTHUILLE, swift moving French middleweight in their 10-round battle in Montreal recently. Dauthuille won by an unanimous decision.

Cement Butts To be Built By Rifle Club

Phil Dunsdon was elected president of the Summerland Rifle Association at its annual meeting held on Wednesday night. Carl Nesbitt is vice-president and Adrian Moyle takes over the post of secretary-treasurer.

Chief item of business was the decision to erect cement butts to replace the wooden butts now in place. A work committee consisting of George Dunsdon, Dave Taylor, Len Shannon and Ed Gould will make a survey of the work and materials needed and volunteer labor will construct the butts.

Once this major construction job is completed the first shoot will be held, probably towards the end of April.

Gold, silver and bronze buttons are to be purchased by the club and will be presented each month to winners of first, second and third places in the weekly shoots. If any member wins a button on three consecutive weeks he will have it for permanent possession.

One of the most pleasing functions at the annual meeting was the decision to present honorary life memberships to two pioneers in rifle shooting in the Summerland club, Bill Nelson and Oliver Smith.

An executive committee consisting of Doug Price, Art Dunsdon, and Joe McLachlan was selected, while Jack Dunsdon was chosen score recorder and keeper of the ammunition and other club supplies.

It was decided that crests would be purchased for club members.

Interior Baseball Loop May Have Ten Teams

On April 10, the Interior baseball league schedule and final organization for the 1949 season will be undertaken at Rutland. Ten teams are in prospect for this loop and it is anticipated that the league will operate in two sections.

This was the result of last Sunday's initial organizational meeting held in Rutland and attended by 1948 league president Les Gould and 1949 club manager Allen Holmes.

George Nuyens of Vernon has been selected as president of the Interior league, with Bill Inglis, of the same city, as secretary. George Schisler, well-known Princeton baseball official, is vice-president.

Entries are expected from Revelstoke, Kamloops, CYO, Salmon Arm, Vernon, Winfield-Oyama, Rutland, Kelowna, Crows, Summerland and Princeton.

It has been learned here this week that Peachland is seriously considering re-organizing this year and will be desirous of entering the Interior league.

If Peachland does enter, then a ten-team league will be formed, with five teams in each section.

Two home and two away games would be played by each club, the division being those teams from

Winfield north in the upper league and Rutland south and over to Princeton in the southern section. The schedule is to be drawn up on April 10, at a further organization meeting in Rutland. Each team to be entered in the league will have one member to serve on the league executive.

Rutland and Princeton have been approached by the local ball club executive to play here in a tournament on May 24. No definite arrangement has been made but it is expected a tournament will be held at the Living Memorial athletic park on that day.

MAY ATTEND REGATTA

KELOWNA—Warner Bros. has written that a photographer may be on hand for the annual Kelowna Regatta.

Penticton Player Awarded Title of Most Valuable Star

Nick Drossos, who has competed against Summerland athletes in many sports, was awarded the cup as the player most valuable to his team when Penticton competed in the high school basketball tournament at the coast last week.

Penticton astonished most hoop officials when they downed the favorites, Duke of Connaught team and then went on to the semi-finals, only to meet defeat from Vancouver College, eventual champions of the tournament.

Drossos and Eshelman went to Kamloops to join Penticton senior B aggregation, who played the Kamloops squad Saturday night in the second game of the home and home series for the Interior championship.

Kamloops won 48-40 and clinched the title for the third year in a row.

WESTCOAST TRANSMISSION COMPANY LIMITED

NOTICE is hereby given that an application will be made to the Parliament of Canada, at the present or following ensuing session thereof, for an Act to incorporate a company under the name of Westcoast Transmission Company Limited.

The objects of the Company are to construct, install, maintain, equip, own, operate and use a pipe line or pipe lines, to transport or transmit natural gas, from the general Edmonton area of the Province of Alberta or from a point or points which are north of Township 52 in the said Province or from a point or points in the north-eastern portion of the Province of British Columbia where natural gas can be obtained to a point or points within, at or near the Cities of Vancouver and New Westminster in the Province of British Columbia, and from there to the State of Washington, and other places in the United States of America; to construct, install, maintain, equip, own, operate and use appropriate branch or lateral gathering and distributing pipe lines to the main line or lines to or from consumers, distributors or suppliers of natural gas convenient to the main line or lines; to transport, transmit, pipe and convey, natural gas from such gas, and oil gas, areas in the Provinces of Alberta and British Columbia as may be approved by duly constituted governmental authority through such pipe line or pipe lines; to construct, acquire, maintain, own, operate and use all such structures, reservoirs, plants, equipment and facilities for the gathering, transportation and storage of natural gas; to buy, or otherwise acquire natural gas and a mixture of artificial and natural gas; to sell, distribute or otherwise dispose of natural gas and a mixture of artificial and natural gas; to acquire and hold land for the purposes of the Company, subject to sections 215 to 248 inclusive of the Railway Act so far as applicable. The works of the Company will extend beyond the limits of one Province and will be declared to be for the general advantage of Canada.

The said Company requests it be subject to any Act passed by the Parliament of Canada for the purpose of regulating the construction, maintenance and operation of pipe lines, plant and equipment used in the transportation, storage and distribution of natural gas.

Dated at Ottawa, the 16th day of March, 1949.

Solicitors for the Petitioners

ACCEPTS POSITION

Mrs. Betty Haddrell has accepted a clerical post in the Summerland municipal office.

Bread is Up Butter Down In Past Week

With the release of the now famous Abbot budget last week, residents across Canada were handed many forms of relief from the high cost of living.

At the same time, the lifting of price ceilings has brought about one small raise which affects every person in every walk of life.

On Monday, the price of bread went up in Summerland and throughout the Okanagan to 12 cents per loaf from the previous 11 cents.

However, the taxes on many luxury items and semi-necessities have been reduced. Jewellery, watches, handbags and many other similar articles now have only a ten percent markup on the manufacturers' price instead of the 25 percent luxury tax on the retail price.

Last week, also, before the B.C. legislature prorogued the ban on manufacture and sale of margarine in this province was lifted.

This will mean that as soon as the product can be manufactured here it will go on sale. Some retailers here have had orders for

oleo on file for two weeks to a month but they do not expect these orders to be filled before the end of next week, at the earliest.

Butter prices have come down and the general level here for the past week has been 65 cents per pound. A level of 63 cents was maintained in some other parts of the province.

Retail stores, members of the Retail Merchants' Assn., come off their winter schedule tomorrow, April 1 and will remain open until six o'clock on Mondays, Tuesdays, Thursdays and Fridays and nine o'clock on Saturdays.

BREAKS HER ANKLE

Word was received here at the week-end that Mrs. William Laidlaw who, with her husband and Mr. and Mrs. Len Hill of Penticton are spending a holiday at Sun-Valley, Idaho, had the misfortune to break her ankle on the second day of their visit there. They will be returning towards the end of this week.

IN MEMORIAM

In loving memory of our grandfather, Mr. Amos B. Elliott, who passed away, March 27, 1939. "As long as I love, I will cherish his name,

In memory, I see him ever the same;

Still in my heart he is living yet, For I loved him too dearly to ever forget,

A beautiful memory, dearer than gold, And a grandfather, whose worth can never be told,

Alive and unseen, he stands by my side, With him forever my love will abide,"

Sadly missed by Murray, Bernice and Maxine. 13-1-c

NAMED DIRECTOR

Mr. Harry Braddick, West Summerland, was elected for a two-year term as a director of the B.C. Cold Storage Locker Association at the annual convention held in Vancouver last week.
