

Municipal Council He About Local Projects Totaling Nearly \$150,000

Summerland municipal council was faced with a number of tentative expenditures amounting to the \$150,000 mark when it met in regular session last week.

Young Girl Just Escapes Explosion

Little Jo Wilson, 9-year-old daughter of Mr. and Mrs. Percy Wilson, Peach Orchard, narrowly escaped death or serious injury on Wednesday morning, January 23, when the stove in the kitchen of the Wilson home exploded.

Jo was just leaving the kitchen when the explosion occurred. In fact, she was only halfway through the door and the blast blew her right into the next room.

The explosion was caused when both the hot and cold water on either side of the water jacket froze. The kitchen fire was lighted as usual, Mr. Wilson not realizing the condition of his hot water system.

The entire kitchen was wrecked, the stove being completely demolished. Imprints of the stove lids can be seen on the ceiling.

Two windows were blown out, two chairs smashed, a table broken, and the front of the sewing machine caved in.

Although Mr. Wilson carries fire insurance he did not have any supplementary coverage for explosions, so he cannot hope for any redemption of loss in this respect.

Japanese Urge Participation In Community

Meeting in Kamloops over the week-end, the BC section of the Japanese Canadian Citizens' Association went on record as urging their members to join trade unions, boards of trade and similar groups.

The start of an active education campaign among Canadians of Japanese origin was announced, to help the older Japanese Canadians to take a more active part in community life with full assimilation into the Canadian way of life as the main object.

A. T. Kobayashi of Okanagan Centre was elected new president of the association succeeding Edward Ouchi of Vernon. Tom Tomiye, Kelowna, Kar Kobayashi of Kamloops and George Tsuchiya of Revelstoke are vice-presidents and Bill Okada of Greenwood, treasurer.

The association also favored elimination of the legal barriers which keep those Canadian-born Japanese who were caught in Japan at the outbreak of war from returning to Canada.

Elimination of any existing legislation which keeps Japanese-Canadians from becoming citizens of Canada in every respect is also being sought.

Tom Inaba, a member of the Summerland Japanese Canadian Club was in attendance for the sessions, while Fumi and Mae Inaba attended some of the social functions in connection with the convention.

Public Meeting to Discuss Plans For Hocking-Curling Rink Tonight

George Stoll presented his rink committee's plans for a new Summerland hockey and curling rink before the municipal council last week and urged that as many councillors as possible attend the rink discussion meeting in the IOOF hall tonight.

The plans for the rink call for an expenditure of \$30,000, but Mr. Stoll is convinced that through voluntary labor this amount could be cut considerably.

He went so far as to suggest that \$10,000 could be eliminated in this manner, also by cutting out some of the aluminum sheeting on the sides of the building.

Mr. Stoll's plan is to issue debentures at 8 percent interest to raise sufficient funds for the building.

Present plans call for a full-size hockey rink with seating and standing capacity for several hundred, plus two sheets of curling ice.

Mr. Stoll wanted the council to guarantee a portion of the park-playground property where the outdoor rink is now located. Should Own Property
Reeve C. E. Bentley replied that

Some big schemes were in prospect but with one exception they are in the early planning stage.

First and foremost was the domestic water extension bylaw which would provide the north bench-Crescent Beach area with a domestic service and thus open up a new district for more residential building.

This bylaw is nearing its final stage and announcement regarding the date it will be submitted to the taxpayers should be forthcoming shortly. Amount for the actual construction of the extended system is estimated at \$2,000.

Another major scheme which is causing considerable comment is the proposed sprinkler irrigation system for Jones Flat area.

An overall plan, including main pipe and laterals, both those which would be owned by the municipality and those owned by orchardists has been drawn up by Water Foreman E. Kercher, who has delved into the entire scheme very thoroughly.

He has estimated roughly that to provide pipe for those who wish to sprinkle and those who wish to continue with furrow-type irrigation would cost \$65,000.

This would take in the purchase of pipe already installed and in good shape. It would also provide a pipe service to every orchard if the Jones Flat area.

Needs Renewal Soon
The present system serving Jones Flat is fast reaching the point where renewals and replacements will have to be faced. In the next ten years the annual replacement which would normally have to be undertaken in this area would be about \$5,300 per year, apart from normal maintenance.

An allowance would have to be made from the general irrigation funds to Jones Flat sprinkler pipe scheme to compensate for the normal replacement, if the scheme is to go ahead.

Then, the ordinary maintenance costs would be reduced and a further allowance should be made to Jones Flat orchardists on this account, it was stated.

Therefore, about half the \$65,000 issue would be raised from the growers involved and the balance would have to be taken from general irrigation department revenue.

It is anticipated that if the scheme proceeds two bylaws would have to be prepared. One would be for Jones Flat growers alone, for their share in the \$65,000 plan. The second would involve the entire irrigation system to allow the borrowing of money this year which would normally be raised over ten years through ordinary irrigation rate assessment.

Roughly, it is estimated that it would cost Jones Flat growers \$7.50 per acre over ten years, as there are 475 acres involved.

Many growers pay a lot more than that to operate pumps for sprinkler irrigation now.

However, the committee appointed last year by Jones Flat growers and headed by W. C. Baker, is still working on details and it will probably be not for two weeks yet that the Jones Flat growers will be called together for a second session to discuss the possibilities of such a sprinkler irrigation scheme.

While the council was discussing these two plans, along with improvement to Ellison Hall estimated at between \$7,000 and \$10,000, the possibility of extending a better water service to the

Acute Coal Crisis Over By Week-end

Another week of minus zero temperatures in the minimum bracket, with still no relief in sight has been recorded in Summerland as throughout the rest of the province.

Fuel supplies are at a new low, but relief is in sight for this week, as one car of coal arrived this morning and two more cars are rolling to West Summerland and will be distributed as fast as trucks can handle the precious fuel.

Some persons have been in desperate straits for coal but the new arrivals should tide them over until further supplies arrive.

Sawdust is still in good enough supply so that no customer will be short, which is a condition away ahead of most valley points.

It is hoped that the Sawmill Box Co. will start work again tomorrow and if so the slab-wood situation will be remedied.

Cordwood is at a premium with deliveries confined to half-loads and ricks.

Okanagan Lake is frozen over from Penticton to beyond Peachland with 14 inches of ice reported off Crescent Beach.

Lake tug service has come to a standstill. One CPR tug pushed its way to Penticton Sunday and returned, inching painfully through the narrow channel, on Monday.

No More Lake Trips
That was the last trip the CPR lake service expects to make until the weather moderates and the ice lessens on the lake.

CNR tug and barge reached Peachland on Monday with some cars of coal for Penticton. CNR lake service officers indicated this would probably be the last run south of Kelowna.

Coal dealers from Penticton trucked their fuel supplies south from Peachland on Monday and Tuesday.

Freezing of Okanagan lake has meant that all apple shipments out of Summerland must be handled from the West Summerland KVR station. All local packinghouses have substantial

Safety on Highways is Now No. 1 Problem of Police Work Kiwanians Told by Inspector

"Safety on our highways is No. 1 on our law enforcement program," declared Inspector J. H. McClinton, officer in charge of the BC Police Penticton district, who was guest speaker at the Kiwanis Club of Summerland weekly meeting in the Nu-Way Annex Monday night.

The inspector's talk on police work generally and the necessity of more prevention work to cut down accidents on the highway, was one of the most thought-provoking messages delivered here in some time.

"Accidents do not happen; they are caused," he emphasized, and at one time he declared that "if this tendency continues we will have to consider the elimination of the private automobile as the means of transportation."

He stressed the necessity for "each one of us" to take an active part in co-operating for the safety of the highways. In 1948, auto accidents cost \$50 millions, with 5,133 persons injured and 187 killed.

Besides this loss there is the cost of roads, signs, police traffic officers and traffic courts.

"Eighty percent of the accidents are caused by twenty-five percent of the drivers," he stressed. "There are safe and unsafe drivers but they do not necessarily fall into the categories of skilled and unskilled drivers."

There is a big percentage of drivers who, when they get behind a wheel become extremely aggressive, irritable, intolerant, and impatient, while some are mentally unstable.

Police and the government are doing all they can to alleviate the situation, he continued, as the government is providing better and safer roads for the average driver.

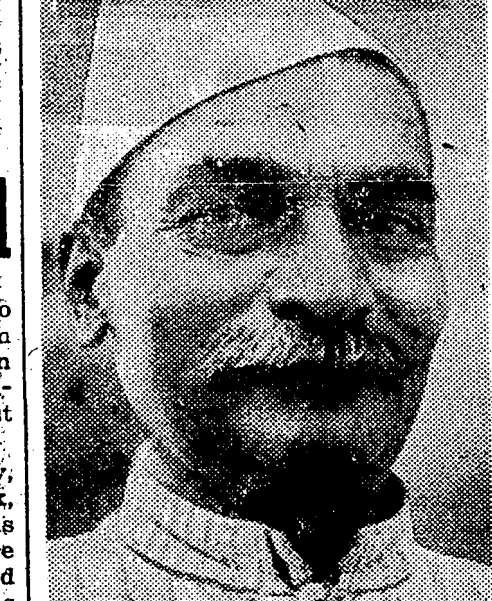

But that 25 percent insists on more speed and Inspector McClinton asked his audience to think for a moment of the opening of the Hope-Princeton highway, a well-marked road, and the resultant fatalities which have occurred.

Driver Is At Fault.
In 1948, BC Police instituted

India's President

DR. RAJENDRA PRASAD, 64-year-old disciple of the late Mohandas Gandhi, was named first president of the Indian Republic, a few days ago, by a cheering Constituent Assembly. He will be installed at ceremonies this week when India drops her status as a dominion and becomes a "sovereign democratic republic."

Vital Statistics Show Increases Over 1948

In every department, the year 1949 exceeded that of 1948 in vital statistics, Lorne G. Perry, who keeps these records for Summerland municipality, has reported.

In the past year there were 74 births in Summerland district, which was well ahead of the 66 during 1948 but did not come up to the record 91 in 1947.

For the past two years the number of boys and girls has been identical. In 1947 there were 37 boys and as many girls. In 1948 there were 33 girls and just as many sons.

Marriages also exceeded last year's figure with 36 against 21 in 1948 and 31 in 1947.

Deaths were also more frequent, although the difference was not great. In 1949 there were 36 deaths, in 1948 there were 31 and in 1947, 29.

Local Hospital Would Cease to Function if Present Plan Adopted

If the report of James A. Hamilton and Associated, hospital consultants with headquarters at Minneapolis, Minn., is carried through by the provincial department of health and welfare, Summerland will lose its general hospital by 1971.

This was the important announcement contained in an area report of the South Okanagan-Similkameen area which reached S. A. MacDonald, Summerland Hospital Society president last week from Hon. George S. Pearson, minister of health and welfare.

Instead of hospital, Summerland would be served by a community clinic, and hospital patients would be taken to Penticton.

In the long-range plan listed for this area, only Penticton, Oliver and Princeton would have community hospitals.

There are four hospitals in this area now, located at Summerland, Penticton, Oliver and Princeton. They contain 178 beds, of which 115 are considered non-acceptable by 1951, and should be replaced by 1971 along with enough additional to provide a total of 320 beds in Penticton, Princeton and Oliver.

The 27 beds in the Summerland hospital would be discarded in that period and would be included in the 180-bed hospital planned for Penticton by 1971. Oliver would have 80 beds and Princeton 60 beds.

According to the report's estimates, the population in this South Okanagan-Similkameen area was 28,400 in 1949, will be 30,500 by 1951, 40,000 by 1961, and will reach 47,000 by 1971.

On this basis, Summerland's present 3,500 population would increase to 5,400 persons by 1971, it is estimated locally.

"Most of this increase (18,600) is expected to occur around the communities of Penticton, Oliver and Osoyoos," the report indicates. The area at present contains 2.5 percent of the province's population.

Average annual death rate for the years 1942-47 in this area was 6.9, 33 percent lower than B.C.'s rate of 10.3. On the other hand the average annual birthrate is 22.9, which is 10.1 higher than the provincial rate of 20.8.

Economically Sound
The report states that the eastern portion of the region (the Okanagan) "appears fairly stable economically. Furthermore, such recessions as the area has experienced have not been so severe as to drive population from the area. The rate of population growth has increased steadily for the last three decades."

Reasons for the non-acceptance of 115 existing hospital beds by 1951 are given as follows:
"They are located in multi-storied buildings of non-fire resistant construction; or they are located in buildings which are so poorly designed and/or located that they will not readily lend themselves to further expansion; or they are in overcrowded hospitals whose auxiliary service facilities are so overburdened as to be inadequate to meet present patient loads and yet cannot be improved; or they are in hospitals whose continued existence would be a wasteful duplication of facilities and effort and, therefore, would be considered economically unsound."

"Between 1951 and 1971 an additional 63 beds will need to be replaced for the same reasons."

The specific plans laid down by the Hamilton report deal with each hospital in turn.

Penticton's building is approximately 83 years old, "and is forced to cancel his visit."

Public Works To Investigate Lake Bridge

From Victoria last Friday, Hon. E. C. Carson, minister of public works, declared that his department is investigating the possibility of constructing a bridge over Okanagan lake.

Such a bridge to solve the bottleneck caused by the inadequate ferry was advocated by The Review in last week's editorial columns.

Mr. Carson declared that a bridge seemed to be the most logical solution to the transportation difficulties of this region.

He thought such a bridge would be upwards of a mile in length but due to shelves in the lake the project might not be too costly. He expressed the hope that a considerable portion of the bridge might be built on piling driven into the lake bottom.

Engineering studies would take considerable time, he emphasized so that no decision could be made this year.

A third ferry, he said, may be built as a temporary expedient to handle the truck and bus traffic. It is anticipated that the expenditure for such an undertaking may be included in estimates to go before this session of the legislature so that construction could be completed by mid-summer.

Advertising Canned Fruits

FOR several years some growers in Summerland area, principally W. R. Powell, our ex-reeve, have been advocating the furtherance of canned fruit sales by means of adequate institutional advertising.

And for several years their efforts met with opposition from official quarters and apathy on the part of their fellow growers who saw their crops being sold on the fresh fruit market without much trouble and could see no immediate reason for any further deductions from their sales.

Apart from the fact that the soft fruit crop will probably be greatly curtailed this season because of the continued cold weather, the growers generally are realizing the reasoning behind this move for further advertising.

During the season just past, when most production records fell by the wayside, it would have helped the grower considerably if the canners had sold their entire 1948 canned fruit production in B. C.

But there was a big carryover from 1948 not only in B.C. warehouses but across the continent. Consequently, canners would not contract for as much volume with the result that Tree Fruits had to force more fresh fruit on the ready-sale markets.

The lesson is there in plain sight for anyone to see. It is now a matter of working out an

agreement between the sales agency and the canner as to the proportion each will pay and other clerical details.

Once the decks are cleared the planning of suitable advertising material can begin. The establishment of a label insignia which each British Columbia grown and packed can of fruit can display is one of the first essentials.

Then, when that insignia is fixed, the advertising programs can start their publicizing campaigns. They can stress the quality of B.C. canned fruits, they can urge the housewife to look for the insignia on the label and they can hammer that tune in every nook and corner of this nation, wherever it is feasible to ship B.C.-produced canned fruits.

The more surplus stocks of fruit which can be poured into cans the more stable will be the fresh fruit market, and the steadier the price levels.

Even though many persons are loathe to assist the canners in the promotion of the canners' own commodity—mainly because of old prejudices which do not hold true today—growers who give sufficient thought to the subject must realize the necessity for more thorough co-operation between the producer and the canner for the continued prosperity of both parties.

White Cane Week -- Feb. 5 to 12

(Guest editorial written by a blind woman who is in charge of a newstand in a large Toronto building.)

WHITE CANE WEEK! Do I hear some one ask "Why? We know all about the white cane. We see it frequently, and we always help." And yet we, The Canadian Council of the Blind and the Canadian National Institute for the Blind, jointly sponsor this educational campaign because we want to help you, our seeing friends.

Yes! We want to help you, so that when you meet your blind neighbor you will not feel confused and embarrassed. We want to help you so that when you meet this neighbor you won't be thrown into a panic trying to decide whether to avoid the subject of blindness with the utmost care, or to rack your brain in a vain effort to remember what you have read and heard so that you can discuss blindness to the exclusion of all other subjects.

We want to help you by telling you that your blind acquaintance will be a very average individual. He may like movies or music; bingo

or bowling; concerts or card parties. He may like the intense heat of summer, or the vigorous cold of winter. He may be shy and somewhat reserved, or he may be affable and friendly. Today he may be gay, tomorrow pensive. He can be very pleasant, and he can become quite annoyed. He may think modern youth is full of self-reliance and initiative; or that it is going straight to the dogs—or he may not think at all.

In short, he is just like you, your friends, and your neighbors. He has ambitions and desires, some of which he achieves, some he can't quite attain. Aren't you like that too? He wants to establish a home, raise his family and educate his children to be good Canadians. Isn't that what you want?

This is why we hold a White Cane Week, not so that you will help us more but so that through closer understanding we can help one another. In these days of stress and strain, don't we need the help each can give the other? It is closer understanding, and mutual helpfulness which we seek when we undertake this annual "White Cane Week."

Signifying Nothing

By **RUSTICUS**

My friend Gibby is a queer cuss. Though now elderly, he still threatens to tear limb from limb anybody who calls him Gabriel, or even Mr. McGonigle; and as he stands about six feet four, weighs over two hundred, and is still vigorous, his threats are not to be taken lightly.

In his youth he was the strongest man in his part of Ontario, and the story has followed him out here that once, when he was ploughing with a walking plow and team of horses and a newcomer asked for directions to the nearest village, Gibby just picked up plow, horses and all and pointed them in the direction he wished to indicate.

Now retired from physical labor, he still takes a very lively interest in life, especially its more peculiar aspects. When I visited him last summer, he was taming a black cricket which he named Archibald, and averred that he could tell the temperature to a degree, on hot days, by counting the number of chirps per minute which Archibald emitted. He demonstrated it too, but since either he or Archibald might have looked at the thermometer just before I came, I wasn't entirely convinced.

When I went over last week to pass the time of day and cosily curse the cold with him, Gibby as usual soon opened up with a characteristic proposition.

"Women is slipping," he announced, scaring his pet out Matilda out of its wits by picking up the armchair on which it was curled and shaking it off to give me a seat.

"For the last ten years or so, they've been the most sensible I ever remember in the matter of dress. Shortie to keep cool in summer, ski slacks to keep warm

in winter; short skirts, no corsets. . . . You know, it must have been an awful blow to the whaling industry when women stopped arm-curl-plating themselves. The market for whalebone dropped so low that a lot of the old whalers went right out of business, including Lionel Barrymore.

"But that New Look," he went on, stoking up his old fashioned kitchen range with a great shutting and opening of various doors, and shoving the coffee pot over the heat, "was the beginning. These fool long skirts are no benefit to anybody except clothing manufacturers, and women too bowlegged to stop a pig going through a gate.

"And now they talk of going to the flat, boyish look of the 1920s. It's crazy, that's what it is. Why should a woman want to look like a boy? Or worse, like a mere stick of wood? Who'd want to make love to a lath? I've just been looking at some old magazines in the attic, and the skimp, skinnny creatures shown in the advertisements for women's clothing would almost turn your stomach.

"Yet if the fools who set the styles—some Frenchmen, I suppose—decide that women should go back to those horrors, then like a bunch of sheep they'll do just that."

"Why not?" I demanded. "Men are just as sheep-like; they are always ashamed of a woman companion who doesn't look stylish."

"That's as may or may not be," Gibby conceded. "But men don't change styles like women do. Our clothes may vary from single to double breasted suit coats, or from a cuff on the pants to pants on the cuff, so to speak. But we don't try to change our whole shape by any radical departures in style.

"And we never try to look like the opposite sex. Why, men would just laugh their fool heads off if anybody tried to make them wear suits to give them a girlish silhouette.

Imagine men going for girlish bangs like women did and are again going in for the boyish bou. Picture me with long yellow hair across my eyes like Veronica Lake. Or in a suit padded out fore and aft to look like Rosalind Russell. "Gibby!" I chuckled. "How's the coffee?"

"Should be about brewed," he said, "but it don't smell right, that's a fact. Not so much like coffee as like hair burning—why, poor Matilda."

In a rush that shook the whole house he dashed across to the stove, whipped open the door to a sort of warming oven below the cooking oven, and out sprang Matilda, who had sought refuge therein when frightened off her chair.

"Now isn't that just like a female?" Gibby demanded. "No more sense than to dash into a ridiculous situation when frightened—just the way women dash thoughtlessly into new styles . . ."

Picking up the wriggling yellow cat, he soothed it gently in his great arms, and I seized the chance to switch the topic of our talk into other channels. Gibby is a wonderful conversationalist, but when he warms to a subject, his language is apt to become lurid, and Matilda's scorched ears were probably tender. . . .

B. C. CATTLE SHIPMENTS

Shipments of cattle in British Columbia in 1949 were 60,062 head as compared with 70,420 head shipped in 1948, states Hon. H. R. Bowman, minister of agriculture.

Pioneer Days

THIRTY YEARS AGO
January 30, 1920

Recommendation of a special committee of the Farmers' Institute has advocated the formation of a local company with authorized capital of \$100,000 of which not less than \$20,000 must be subscribed at once, for the purpose of establishing and operating a cannery here.

A number of downtown members who could not attend the joint meeting, has reorganized the Summerland Women's Institute with the following officers: President, Mrs. W. J. Robinson; vice-presidents, Mrs. S. Angove and Mrs. C. E. McCutcheon; directors, Mrs. S. A. MacDonald and Mrs. S. F. Sharp; sec-treas, Mrs. J. Tait.

Okanagan fruit crop has been sold for a total value of nearly \$6 millions.

F. A. C. Wright is the new president of Summerland Hospital Society which has authorized directors to proceed with plans and specifications and necessary financing arrangements to build a new hospital replacing the institution destroyed by fire on Dec. 14.

F. A. C. Wright has also been appointed chairman of the 1920 school board, with J. H. Bowering continuing as secretary.

In order to allow the office staff more uninterrupted time for work, the municipal office will not open until 10 a.m. and will close to the public at 4:30 p.m.

The Summerland brass band has been reorganized with the following officers: President, J. L. Logie; conductor, E. Hutchinson; manager, J. W. S. Logie; sec-treas, D. Davidson; band sergeant, Alex G. Smith.

Percy C. Tees has arrived to occupy the position of high school principal during the sickness of Principal McIntosh.

Mr. and Mrs. T. Cowan and daughter have arrived from Castor, Alta., to make their home in Summerland.

Nearly \$10,000 was contributed by Summerland for war purposes through the Red Cross, Home Comforts Club and Prisoners of War Fund.

TWENTY-FIVE YEARS AGO

January 29, 1925
Associated Growers Ltd. plans to establish its own sales agencies on the prairies, cutting loose from the Mutual brokerage.

Basil Stewart, Summerland, general manager of the Associated Growers, has suggested that the entire Transcendent crabapple crop should be marketed profitably through dehydration. Transcendent growers have suffered heavy losses in the past few years.

Sale of the old powerhouse to the Dominion government as a fish hatchery is being advocated by the council.

A two-horned electrically-driven siren for fire alarm purposes is being installed near the Empire hall.

Breakdown of the Jonathan apple is giving growers much concern.

Establishment of Imperial and Canadian marketing boards was endorsed by the BCFGA convention in Penticton last week.

It is the Law:

Right of way at highway intersections. The person in charge of a vehicle so drawn or propelled upon a highway shall have the right of way over the person in charge of another vehicle approaching from the left upon an intercommunicating highway, and shall give the right of way to the person in charge of another vehicle approaching from the right upon an intercommunicating highway; but the provisions of this section shall not excuse any person from the exercise of proper care at all times.

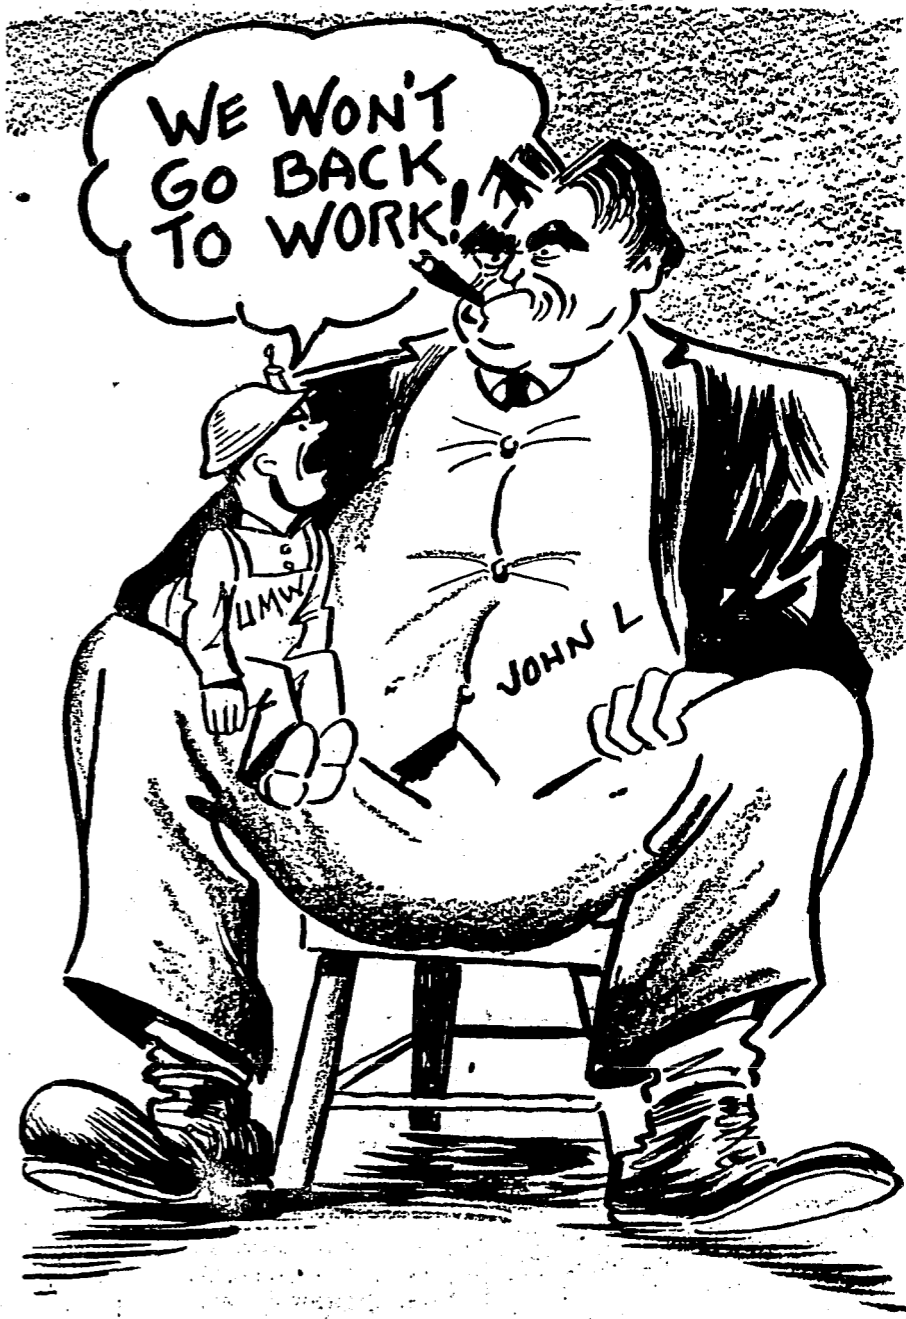

Unlawful Practice:

Throwing or causing to be deposited or to flow upon any highway any noxious, offensive, or filthy water or substance, or any empty bottle, glass container, or other article, whether broken or intact.

Professional Advice Will Be Available

The technical advice of D. M. Wright will be available on occasion during 1950. Councillor E. M. Tait reported to the municipal council last week. Mr. Wright was employed on a half-time basis as roads supervisor during 1949. Last year Mr. Wright had started a plan for revision of the rook erasher equipment and he will be called upon from time to time to supervise the furtherance of this work, council agreed.

Where's The Voice Coming From?

JUGGAN '50

Review Special Writer Tells Former Residents of Major Changes in Past Few Years

(By Kay Hill)

This is written for all out-of-town subscribers—those who remember with pleasure living in Summerland—and those who still feel that they are away from home and look forward to returning.

You have been reading the paper eagerly every week, but perhaps you haven't thought about the many changes that have occurred in the past few years.

Of course, you know that the population has nearly doubled during and since the war years which means that both West Summerland and Summerland are much busier, and the streets just crowded on Saturday nights.

You will remember, too, that the general plan of the main roads in the municipality is that of a wheel with the roads as spokes, and West Summerland as the hub.

Which road you happened to drive along if you were coming back would show some outstanding change aside from the remarkable number of new houses along the streets and here and there they are in what would have seemed unpredictable places which have proved to be charming sites.

Maybe you are coming by train, —let's say you are, and we'll take you on an imagined drive to bring you up-to-date with the indications of improvement and growth.

You know that woody feeling when you get off the KVR so early in the morning? You'll be sure to be wide awake enough to see that the Dale subdivision is a little settlement in itself now with several streets and even a grocery store.

On the way down to the Flat you'll notice an addition being put on the Baptist Church, changing its general appearance and making it a much larger and more imposing building.

Maybe you'd like a snack before we go on our sight-seeing tour. Fine, hot coffee and off we go.

Looking around West Summerland there are several new stores, and they all look well-kept. The board of trade urges a paint-up job every spring, and everybody takes quite a pride in keeping things looking fresh. At West Summerland there is a lovely new Living Memorial park-playground.

Right now Summerland isn't living up to its name! The park is piled high with snow, but it still looks pretty. The scarlet swings are bright against the drifts and the cenotaph has been moved from the school grounds and set at the entrance to the park. Bits of shrubs planted around it give promise, as their tips show through the snow, of the beautiful setting that will be a suitable background in a few years.

St. Andrew's church has been expanding, too. On the north stretches the important addition to St. Andrew's hall which includes a fine modern kitchen. In the hall the kindergarten operates three mornings a week.

Dewey Sanborn struck a modern note in town when he moved his

machine shop over behind the BC Shippers on Victoria Road, and housed it in an aluminum quonset hut.

The elementary school, where over six hundred go to school now, is a great big building, all stuccoed in a light cream and smart and fresh with new paint trimmings. On the south end are the four new classrooms and a playshed that are great for stormy days.

We're a school district now, and even have buses running out to Meadow Valley and up to Great Ranch to bring in pupils. That trip to Meadow Valley is mutually helpful because the Ski Club is out there, and people who ski are going back and forth as well as the government graders.

The Solly subdivision opposite St. Stephen's church is practically all built up and a few homes are taking on quite an established look. Hard to think of it as it was for many years an orchard.

Over at the top of Peach Orchard road right opposite the Pineo-Youngs there is a gas station, and along on the left of the main highway to the north is the white stucco Roman Catholic church. Its two steeples can be seen from many parts of Summerland.

Out around Giant's Head there is a new power station, and the old college gym has been sprayed white and has a green roof. It's the Summerland Youth Centre now and going along at night it does look better to see it bright with lights and hear the sound of games going on inside.

If we were to go out the Peachland road we'd see where Bill Beeman has his furniture factory, and turns out unpainted furniture. It's just below the first dip on the right hand side of the road.

Coming back to go down Tait's hill on the turn at Stewart's a new church,—it's on the north-east corner, and it's St. John's Lutheran.

We should take you down town to Summerland because that part of the district has certainly had its face lifted. Why the bank even has an office down there one afternoon a week, and are they ever busy!

There are two new stores, one with a coffee bar; a new post-office just waiting for the fittings so it can open; and on the corner as you turn to go to Penticton there's a service station.

There are three major changes. One is the government fish hatchery, a beautiful log building near the old fountain, and the second the greatly increased co-operative building. At Christmastime it looked quite different from the usually dull exterior presented by a packinghouse with a lighted tree at the door and the interior of the office clearly seen driving past all fixed up with colored lights and stuff.

The third is the big Cornwall cannery which is located between the Co-op and the fish hatchery. Right now you couldn't notice

Underground Cable Leads to Transformer Vault in Basement

An underground cable leading into a transformer vault in the basement of the new junior-senior high school will be essential and must be included in the municipal electrical plans for 1950.

C. J. Bleasdale, chairman of the district school board, met the council last week and asked what deal would be forthcoming in this connection.

Three 37½ transformers would be needed for the new school plant, it is estimated, while 300 feet of cable would be necessary for the leadin to the basement vault.

Although nothing definite was stated, it is likely that the council will loan the transformers to the school as the amount of electrical energy used would offset the transformer cost in less than two years, it was stated.

COLD WEATHER CLOSSES GYM
Due to the school gym being closed the scheduled high school basketball league games this Friday have been cancelled.

REVIEW CLASSIFIED ADS BRING RESULTS

MEET TOM TANDY—

Here is British Columbia's most famous baby.

Here is a first picture of Tom Tandy who officially joined the CBC's farm family, the Carsons, on November 18 and 11 days later uttered his first squeak into a microphone.

The proud parents are Ann and Bill Tandy; the proud grandparents John and Mary Carson; proudest relative, great-uncle Tom Tandy after whom the baby was named.

The vital statistics, already known to every listener of the CBC's noon-hour Farm Broadcast are: weight 7 lbs. 8 oz. on arrival; hair, sandy; resemblance, practically everybody; future residence, Willowbrook Farm.

Young Tom was persuaded to pose for this picture just after his morning bath. Yes, that's his mother.

Local Youth Activities

Teen Town

This column is especially for people with the mumps and anyone who wasn't at the dance last Saturday night. Well at last we have had it and I'm sure everyone will agree that it was really a success. There were well over two hundred Teen Towners there.

Two Greyhound buses full from Penticton and at least fifty from Vernon—people that is.

But, first thank yous should certainly go to all the kids who did such an absolutely super job of decorating. Sandy Jomori and Don Cristante were responsible for all the crepe paper on the ceiling. Ruth and Doreen were in charge of the works and helping them were Evie Heichert, Ceone Eyre, Ron Ritchie, Barb Metters, Mel Munro, Eileen Birtles, Dave Wright, Earl Bryden, Gerald Washington, and Norm Richards.

The hall looked really swell and added to the dance immensely.

Ken's Men, as far as I'm concerned, compare with Carl Dunaway any day. The elimination

dance was won by a couple from Penticton. The door prize, a Glen Miller record album, was won by a Vernon Teen-Towner.

Dancing lasted from 8:30 to 12 and the orchestra played a good selection of music. The floor is fair but it needs a good scraping and waxing, till its in top shape.

That's about all there was to the dance, otherwise than it was fun. We made money, which was practically the main object.

When the hall is all fixed up we will have the best place for Teenagers in the valley.

High School COMMENTS

On Monday night, the radio club journeyed to Penticton's CKOK station, where they put on a half hour radio play. The play was adapted from a short story "The False Gems," by Guy de Maupassant. Mrs. Lacey Fisher was the adaptor as well as the director. Those in the cast were Don Cruickshank, Leighton Nesbitt, Bud Green, Jacqueline Trafford, Olive Mason, Margaret

EVERYBODY WELCOME

Myers, Kit Muirhead, Graham Munn, Jim Birtles, Paul Birch, and Shirley Gardiner, who kindly filled in for Joan Marshall, when she was suddenly taken ill.

On Saturday night the Summerland high senior basketball team met the Kelowna high for a game. Kelowna was victorious by a fairly large margin.

The high school hockey game with Penticton, which was to have taken place last Saturday was postponed partly because of the huge valley teen town dance, which was held here last Saturday night. It has not been officially announced when this game will take place.

A bundle of belated books for 1949 arrived at the school last week, helping to fill our library shelves. There are some very interesting titles among them and students should be pleased to know that they are now in circulation.

Summerland skiers are planning to try their luck and skill at the valley ski zone championships, to be held at Penticton during the week-end. We wish them all the best of luck!

Kamloops Donates 1,000 Pints of Blood

KAMLOOPS — With 973 blood donors having given their pint of blood up to 10 p.m. Friday evening, members of the Kamloops Junior Chamber of Commerce staged another spurt to reach the 1,000-mark. It was nearly midnight when everyone called it quits but the total had reached 1,024 pints.

So essential was the need for blood that the Red Cross refused to cancel the visit to Kamloops on account of the cold weather and the clinic personnel flew in from Vancouver.

"... I am thankful for Hospital Insurance, as it has removed a large financial burden from my shoulders."

—Says ALLEN G. SCOTT

FORM HIA 22

THE PROVINCE OF BRITISH COLUMBIA

STATEMENT OF AMOUNT PAID BY B.C. HOSPITAL INSURANCE SERVICE IN SETTLEMENT OF THE HOSPITAL ACCOUNT FOR THE BENEFICIARY NAMED BELOW

DATE OF ADMISSION	DATE OF DISCHARGE	DAYS STAY	AMOUNT PAID
DAY MO. YR.	DAY MO. YR.		
- - -	- - -	- - -	\$572.00

BENEFICIARY: Allen G. Scott, Vancouver

HOSPITAL REGISTRATION NO: 48-037974

OPERATING ROOM, X-RAY AND LABORATORY FACILITIES, DRESSINGS, PRESCRIBED BY B.C. HOSPITAL INSURANCE SERVICE ON BEHALF OF BENEFICIARY. INQUIRE AT YOUR LOCAL INCOME TAX

One in six of all British Columbians were hospitalized and had their hospital bills paid last year by the B.C. Hospital Insurance Service. Many of these bills ranged from \$500 to \$1,000.

\$15,000,000 was paid in 1949 by the Hospital Insurance Service on behalf of those hospitalized under the plan.

PERSONS PAYING BY INSTALMENTS SHOULD NOT LET THEIR PAYMENTS LAPSE. JANUARY AND FEBRUARY INSTALMENT PAYMENTS ARE NOW DUE.

LATE PAYMENT OF HOSPITAL INSURANCE PREMIUMS

There are two semi-annual paying periods for those not on the instalment basis . . . November 30th and May 31st.

AFTER MARCH FIRST, 1950, there will be a waiting period of one month for persons who have not paid their premiums on time. During this period they will not be eligible for hospital benefits.

This has been introduced to prevent persons from paying their premium one day and going to hospital the next.

There have been instances of this kind and it is pointed out that, obviously, such a practice is unfair to the great majority who have been making their prepayments at the proper time.

If all premiums are kept up to date, there is no need for any resident of British Columbia to worry about unpaid hospital bills.

HI-1-50

Public Health Work in London Depicted Here

A graphic picture of England during wartime and the role played by the public health service in that time was provided Rotary Club of Summerland members last Friday evening at the Nu-Way Annex by Miss Joan Appleton, public health nurse for this district.

Miss Appleton described the havoc wrought by bombs, the attitude of the mothers and children, the bravery of the people of London, the conditions in air-raid shelters and the difficulties of the public health nurses and volunteer workers.

Early in the war Britain realized that if the civilians could be kept healthy then the troops would be equally better off. Shelter life was not a healthy one but it is to the credit of public health service that although disease did spread there was not one major epidemic resulting from the shelters.

Miss Appleton described the children from the slums of London being evacuated to the country homes.

"It was a shock to the country people to find the true condition of London's children," she observed, but despite their filth, they were bright children and they did not suffer as much as was feared. Partly, their reaction to raids was created by the bravery of their mothers.

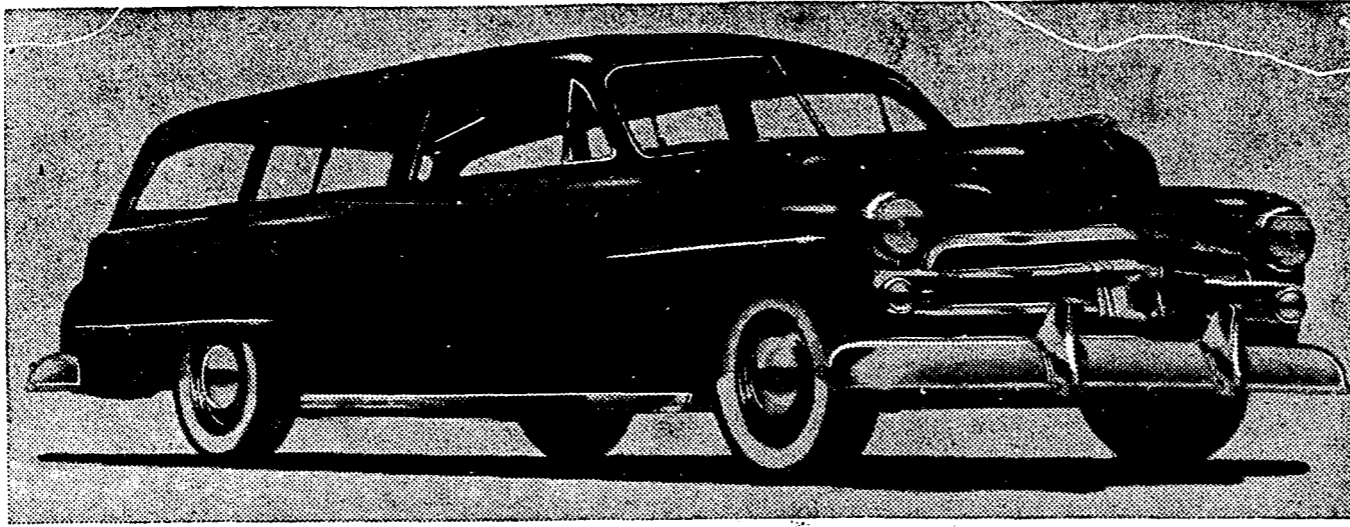

She told of the nurseries which were set up and staffed by volunteers so that the mothers could go into defence plants, and of the many sacrifices endured by the Britons.

These children of London received occupational therapy, took part in organized games, received better rations and actually improved under these trying war-time days.

In war everything can be diverted to the health of the people, but in peacetime people do not seem to realize its importance," she warned, urging more attention to public health work.

In this day of fast transportation, the health of one country can easily affect neighboring countries. This fact places great importance on the work of the World Health Organization, which is endeavoring to raise the stand-

New Dodge Deluxe Suburban

Comfortable seating for 6 passengers, and a large luggage carrying space are features of the 1950 Dodge Deluxe Suburban shown above. The rear seat may be folded to the floor, giving a carrying space of 84 cubic feet.

With the tail board down the loading area behind the front seat becomes 7 ft. 5 in. long, which makes the Suburban easily adaptable in many ways as a light commercial vehicle.

New Warehouse and Office For CGE Are Opened In Kelowna

Last Friday, January 27, the new office and warehouse of the Canadian General Electric was opened at 1255 Ellis street in Kelowna, a reception being held from 5 to 7 p.m.

Jim Purvis, who has been with the CGE company since 1930, in the valley, and is well known throughout the Okanagan, will be general manager of the new Kelowna office and distribution centre.

In the last few years two salesmen and an office supervisor have been added to the Okanagan staff of the CGE.

A small display area, almost entirely enclosed by glass, is situated in the front of the new building, with bright modern offices in soft pastel green and featuring the latest in fluorescent lighting right behind.

A warehouse with a service counter for the electrical trade occupies the rear of the building.

ard of living in those countries where the children are starving.

Throughout her talk, Miss Appleton described in amusing style many humorous incidents which occurred during wartime in England to give further proof to the oft-repeated statements concerning the grand manner in which the people of that country understood the terrors of total war.

MORE ABOUT

ACUTE COAL

Continued from Page 1

orders for shipments to the Old Country and to the United States which must move shortly.

Additional cars are expected to arrive shortly to handle this extra load over KVR line.

Coal cars which normally came down the lake on barges are being re-routed on CPR mainline to Spences Bridge and then east to Summerland. Three such cars reached Spences Bridge this week and are approaching Summerland to relieve the acute coal shortage.

These cars were destined for Smith & Henry, while White & Thornthwaite also report several cars rolling, one of which is expected here by the week-end. These cars will not supply all wants fully but will relieve the acute situation.

Nine Above Was Best In the past week the warmest temperature recorded here was nine above while the thermometer dropped consistently below zero each evening. Skies, for the most part, have been clear with the sun shining brightly for most of the day.

The weather man predicts milder temperatures for this afternoon and evening but whether there will be any crackup in the severe spell is not known yet.

With the continued cold seeping into houses not built for such extremes, more and more reports of frozen pipes have been heard. Plumbers and electricians have been kept extremely busy for days thawing pipes and repairing burst ones.

Transportation problems on the CPR and KVR have been alleviated with the CPR lines being fairly free of trouble this week. All mail is now going through and express is being handled every day. Freight shipments are beginning to catch up.

KVR trains are running each day but on a delayed schedule. No. 11 westbound went through here this morning at 5:30 o'clock, while No. 12 arrived at 11:34.

CNR mainline is still plugged at Stout in the Fraser Valley and through traffic is using CPR lines from Hope to Kamloops.

Reid Johnston, KVR West Summerland agent, reports direct telegraph communications are back to normal, while long distance telephone connections are in practically the same condition.

Workmen pushed through Coquihalla Pass to repair broken lines and had them repaired by last week-end.

Roads are in better shape now, with the Hope-Princeton in good condition. The ley state of roads in the Fraser Valley has been alleviated somewhat although travel between Hope and Chilliwack is still somewhat treacherous, travellers report.

Kelowna-Westside ferry continues to operate on a 45-minute schedule and the ferry has managed to keep the channel fairly clear.

Sectionalizing of System Considered

Sectionalizing the electric light system so that smaller areas need be cut off from power in case of breakdown is being discussed in council circles and especially by the electrical department.

Doug McMyrn, Pentleton manager of the West Kootenay Power & Light Co., Ltd., intends to survey the system and confer with Summerland electrical foreman, T. P. Thornber, on the subject.

At last week's council session there appeared to be some divergence of opinion on the subject which needed further elucidation before gaining the desired objective.

Merchants Beaten At Princeton 52-45

Mullin was hot last night at Princeton when he sparked that centre's hoop squad to a 52-45 victory over Summerland Merchants in an exhibition tilt. He countered 22 points. Walk with 14 and Noblit with 11 were Merchants' high scorers.

Summerland high school took the long end of a 29-25 count from Princeton in the preliminary.

School Drama Club Performances End

Members of the high school drama club are relaxing after their final performance of "What A Life" in Kelowna last week, when they played to an audience of some 200 who braved the wintry weather.

On January 20 they displayed their talents to a fair-sized Oliver audience and earlier in the month they portrayed the famous play to a Pentleton audience.

All three valley centres were enthusiastic over the excellent acting ability shown by the Summerland pupils and the clever casting of the play's director, Mr. Lacey Fisher.

MORE OFFICIALS TRAVEL EAST

A. K. Loyd, Tree Fruits president, goes to Montreal this week for the convention of the Canadian Fruit and Vegetable Wholesalers Assn on Feb. 6 and will then go to Ottawa for the Canadian Horticultural Council annual meetings.

F. L. (Doc) Fitzpatrick, Rutland, will be at the CHC convention in his capacity as president, while Eric Bomford, newest governor of the B.C. Tree Fruits Ltd. will also be in attendance.

J. B. Lander, sales manager, Tree Fruits, and Bob Grant are the United Fresh Fruit and Vegetable Growers Assn in New York starting January 30.

MORE ABOUT

SAFETY

Continued from page 1

10,000 prosecutions for traffic violations, along with 150,000 check-ups, but that isn't the answer to the problem, he felt.

In 12 out of every 13 accidents, the fault lies with the driver, and that other accident can be put down to some mechanical defect.

These statistics caused the speaker to remark: "Accidents do not happen—they are caused." "Dangerous driving is a crime," he continued, linking it with murder, rape, robbery, housebreaking, and like crimes. He wished that the public would take the same attitude towards dangerous driving and speeding as they do towards other serious crimes.

He instanced the driver who boasts that he can drive to the ferry from Pentleton in 45 minutes.

"We have to do more than smile and say: 'That's a bit fast.' Do you realize that you are travelling 88 feet per second when you go 60 miles per hour?"

"Where are we going to demand that tremendous speed? We only live a certain length of time, after all."

Alcohol and Fatigue

The inspector mentioned that alcohol gives a driver false confidence, makes him think he is more of a master of the machine than he is, slows reactions, impairs vision and reduces efficiency.

But the speaker listed over fatigue in the same category as the driver who has been drinking.

Experience in driving is no safeguard, he cautioned, as the safest drivers are those who are learning, as they are cautious and do not speed.

Finally, Mr. McClinton urged drivers to be courteous. He instanced men who are polite and courteous in ordinary life, when they get behind a wheel they become different persons and are impatient and discourteous, and take dangerous chances in passing slower moving vehicles.

"Courtesy is the acme of safe driving," he insisted, urging drivers when they get behind a wheel to think: "I'm going to live as long as I can," and govern themselves accordingly.

At the outset the speaker explained the advancement of police work but urged more co-operation from the public.

"We are losing touch with the people, who look on us as something apart, a special type of man," he declared, emphasizing that co-operation of the public as evidenced in the days of the "parish constable" of England is the only real basis of proper law enforcement.

FIFTY OPERATIONS TO FIND OIL ARE STARTED IN B. C.

Fifty operations in the field of oil exploration and drilling are being put underway throughout various parts of the province, it is announced by Hon. E. T. Kenney, minister of lands and forests, in reviewing the unusual activity in connection with the petroleum industry.

Up to the middle of January twenty geological permits were issued covering 1,945,940 acres. These permits are for companies desiring to make geological survey examinations.

Two geophysical permits covering 432,000 acres were issued to allow seismographic explorations while 18 licences have been issued permitting the drilling for oil over an area of 24,047 acres.

These permits and licences together with leases issued under the Coal and Petroleum Act 1936 cover an acreage of 2,413,731 acres. In addition to the permits and licences already issued permits are pending on 22 other applications.

Mr. Kenney pointed out that exploration and drilling for oil is widely scattered throughout the province. Operations are in progress in the Peace River district, Cariboo (Quesnel), Queen Charlotte Islands, Gulf Islands, Fraser Valley and throughout the Flathead (Kootenay).

GROUP READS PLAYS TO DECIDE SPRING VEHICLE

A group of Singers' and Players' Club members have been meeting to read plays, trying to decide on a play suitable for the spring production of the latter group.

Last week the gathering was at the home of Mr. S. Gladwell, Trout Creek, and a similar one was held on Tuesday evening at the home of Mr. and Mrs. J. Y. Towgood, Trout Creek.

Canada Geese Scout Sanctuary

Canon Harrison reports that two Canada geese stopped in his garden about a week ago, probably to scout its possibilities as a winter sanctuary for themselves and friends.

They stayed only a short time and were on their way again, perhaps to a place where the water would be deeper.

It was suggested that the wide circulation of the Review with its story of the hospitality given to winged guests in the rectory garden accounted for the surprise call.

Guides Find Problem In Old Country Similar To Home

In November, 1st company Summerland Girl Guides sent a Christmas parcel to the 9th Ipswich company of which Mrs. Bruce Blagborne, a Summerland Guider, was a former member, prior to her marriage and coming to live at West Summerland.

In letters from patrol leaders received here from the English company it is apparent that their interests, activities and problems are much the same as those here.

On June 3 the county of Suffolk, of which Ipswich is part, is holding a rally at which Chief Guide Lady Baden Powell is to speak.

Letters have been received, too, from Germany, expressing gratitude for five parcels sent there for distribution through International Guide Service. It is estimated that clothing gathered by this service has provided help to at least 3000 families, as well as food gifts to a large number of sick and aged people.

These Guide teams set up in Germany to receive parcels and give aid are dissolving at the end of March this year but names of German friends are being forwarded to this country so that parcels may still be sent and will be given out through them.

Install Officers Of Women's Federation

The ceremony of installation of officers of the Women's Federation of St. Andrew's church was conducted on Thursday afternoon, Jan. 19, in the church hall by Rev. H. R. Whitmore.

The work of the year was planned, headed by the recently appointed president, Mrs. T. W. Boothe.

Church government was the subject chosen by Mr. Whitmore who was the speaker for the meeting.

Tea was served by the executive headed by Mrs. T. W. Boothe and Mrs. W. F. Ward.

St. Andrew's Congregational Meeting Realizes Hall Benefit

The benefit of the new hall to St. Andrew's church was shown in the reports heard at the annual meeting preceded by a congregational supper held on Monday, Jan. 30 in the hall.

There has been an increased membership in the church during the year, and general interest and activities accelerated, and improvements made in the church in many ways.

Sunday school has a membership of 183 with a high average attendance. Mrs. F. E. Atkinson is superintendent of the senior group, Mrs. Mac Johnston of the primary, with Mrs. F. Steuart heading the beginners' department and the nursery. The school is staffed by twenty-two teachers.

There has been noted extension in the Cradle Roll membership which is convened by Mrs. Doney Wilson.

Mrs. W. F. Ward is in charge of the Mission Band, while director of CGIT is Mrs. A. J. McKenzie and leaders, Miss Marian Nickols and Miss Peggy Pringle.

Mrs. Donald Chapman gave the choir report showing benefit and pleasure to those in the choir. Mrs. H. R. Whitmore continues as choir leader and Mr. T. McKay, organist, and the work of the entire group is appreciated by the congregation.

Off To Find Warmer Clime In South

Mr. and Mrs. W. R. Powell left last Thursday by car via the Hope-Princeton highway for Vancouver at the beginning of a trip in which they are looking for warmer weather.

At Vancouver they visited until Monday morning at the home of their son and daughter-in-law, Mr. and Mrs. Rees Powell, going from the coast to Shelton, Wash., where they stopped over to see Mrs. Powell's sister, Mrs. H. E. Loop.

From then on they had no fixed destination but would probably go to San Diego and after staying in California for awhile thought of going to Arizona. They plan to be away from home two months or more.

A wire received on Monday morning from the travellers stated that the trip to the coast was "quite an experience," and "conditions in the Fraser Valley unbelievable."

Motoring to Vancouver at the same time as Mr. and Mrs. Powell and travelling with them as a two-car caravan were Mr. Bill Grant, of Oliver, and Mr. Doney Wilson.

WAITING FOR WEATHER BREAK TO RETURN HOME

Mr. and Mrs. A. E. Trayler who have been in Vancouver since last September where they are living with their daughters in their apartment are quite anxious to return to their home, but are waiting until weather conditions are more favorable for driving back.

Socially Speaking

SOCIAL EDITOR

Mrs. A. W. Vanderburgh

VISITING ABROAD

Mrs. J. L. Brown went to Vancouver last Thursday following the death of her father, Mr. W. R. Shields. She returned at the beginning of the week.

Mr. and Mrs. Walter Powell and their two daughters went over to Trail last Wednesday to visit Mrs. Powell's sister, and included some week-end skiing at Rossland in their visit. They returned to their home in Prairie Valley at the beginning of the week.

Miss June Cook, RN of the local hospital staff spent part of this week in Vancouver visiting at her home. While she was away her nursing duties were taken over by Miss Bernice Elliott.

Mr. and Mrs. W. F. Evans and the latter's mother, Mrs. F. V. Harrison motored to Vancouver on Friday via the Hope-Princeton highway encountering no difficulty on the trip.

Mr. R. Oxley was a passenger to Vancouver on the train which left in the very early hours of Tuesday.

All Manner of Boxes Ensure Many Bids At Lutheran Social

All sizes and shapes of boxes were displayed at the box social held by the Ladies' Aid of Christ Lutheran church in the basement of the home of Mr. and Mrs. Wm. Kopp on Monday evening, Jan. 30, and attended by Rev. Mr. Vorath, of Kelowna, pastor of the church.

Perhaps the one most admired was that made by Mrs. Jesse, a lovely reproduction of a little house complete with windows and doors and all made very prettily. Another excellent reproduction was Mrs. Fred Schmidt's so-called box which was in the shape of a decorated wine jug. Still another was made as a stove, complete with a dial on the oven.

Bidding was keen as boxes were auctioned by Mrs. J. Heichert, and a good sum was obtained to help to pay for the hymnals used at the services of this congregation. Altogether it was a jolly evening which everyone present enjoyed.

In charge of games was Mrs. Fred Schmidt, president of the Ladies' Aid, assisted by Mrs. W. Kopp.

Mrs. Wm. Huva was convener of coffee, and ably took care of this part of the affair.

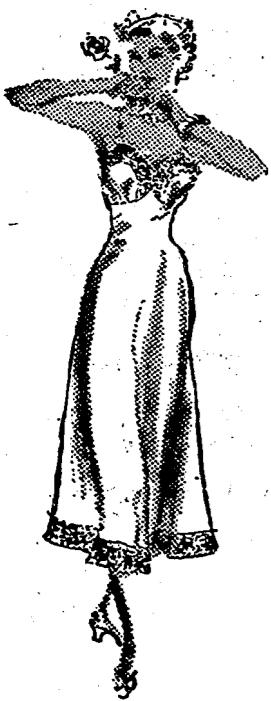

Mr. Ray Huff returned from Vancouver Saturday morning by bus. On his trip out the previous week Mr. Huff was marooned at Hope by the big snowslide which kept passengers there from Thursday until Sunday morning.

VISITING HERE—

Mr. Donald Rand is visiting at the home of his grandparents, Mr. and Mrs. Scott Rand for part of his six weeks' shore leave from the oil tanker on which he has been sailing from Ioco to California for over a year. He will go from West Summerland to visit his parents, Mr. and Mrs. Percy Rand at Courtney, VI, before joining his ship again.

Miss T. Neufeldt, who has been staying at the home of Mr. and Mrs. George Stoll while Mrs. Stoll was abroad, is visiting Mr. and Mrs. Robert Birch this week and plans to go to Vancouver before long to spend some time. Following this she will return to California, where she has made her home since coming from China where she was a missionary and teacher.

NEW ARRIVALS

In Prairie Valley on Tuesday morning, Jan. 31, a baby son was born to Mr. and Mrs. R. K. Phillips.

A son, George Alexander, was born to Mr. and Mrs. Bert Berry at Summerland General hospital on Wednesday, February 1.

The Chinese influence is shown in this slender black crepe dress with high mandarin collar and straight skirt. Distinctive beaded embroidery adds an elegant touch.

DEPARTMENT OF NATIONAL HEALTH AND WELFARE

Need Only Half Fire Coverage On Hospitals

Hospitals need only carry 50 per cent fire insurance coverage on their buildings, as the BC government accepts responsibility for the balance of any building loss on a replacement plan, the Summerland General hospital directors were informed recently by the BCHS.

This policy will mean that a reduction in the insurance coverage already carried can be effected, and there will be no need to carry a full amount of replacement insurance coverage, which would have added greatly to the yearly cost.

Need for more beds as the hospital is crowded beyond capacity was stressed by the matron, Miss M. Bennet, while the problem of enlarging and remodelling the operating room was discussed. It was suggested that the operating room windows be discarded as it is extremely difficult to keep the room warm in wintry weather. Councillor F. M. Steuart was welcomed to the hospital board last week as council representative.

the change in the roads which have relatively more hard surface than any other town in the valley, because the drifts are terrific; but the streets have all been ploughed out, and Les and his grader are a busy team.

There are so many places we could take you that we'd need a special issue for all of it, but anyway after you've had a rest you'll probably be in West Summerland again and see the new street lights. They've added a lot to the appearance of the two main streets.

Later, we'll come around to drive you out to one of the front benches where you can look out over the lake, and you'll be surprised to see the lights. Penticton blazing away to the south and out towards Naramata and beyond almost to Paradise Ranch there's an encircling string of further lights along the dark shores and sparkling like jewels on the hill-sides showing how homes have sprung up everywhere.

But when we come back there on the north will be the oddly-shaped familiar Rattlesnake mountain to let you know you're home again, and to the south the Giant's Head lying protectingly. They have not changed, but may be in the next year or so there may be a little new bump on the head of the Giant. That might be a tea house when the road to the top, that you've read about, gets built!

Start Youngster's Financial Career With One Dollar

EARLY YEARS ARE BEST IN FORMING STEADY SAVINGS HABITS

To your youngster a dollar means more now than it will in later life. If he can retain this youthful respect for money as he matures, he will be likely to form lifelong habits of wise spending and regular saving. As countless "success-stories" show, these habits are of vital assistance in career-building and happy living.

You can impress these important traits on your child's mind by using a simple method. Thousands of Canadian parents have employed it successfully. You just give your youngster a dollar to start a Bank of Montreal savings account. You encourage him to save from his pocket money for some of the things he wants. Thus, you help him to help himself, and he achieves patience and purposefulness.

Why not send him around to the B of M to open his account tomorrow? James Milnehead, local branch manager, and his staff will be glad to assist your youngster to start his own "success-story."

HASTINGS STREET

RED CROSS DRIVE STARTS MARCH 1

Hon. Eric W. Hamber, chancellor of UBC and former lieutenant-governor of B.C. has accepted the chairmanship of the 1950 Red Cross campaign in B.C. which commences March 1.

B.C.'s share of the \$5,000,000 national objective will be \$500,000 and it is anticipated Summerland's share will be the same as last year, namely \$3,000.

Mr. George H. Baillie, CPR vice-president for the Pacific region,

APPOINTED DISTRICT DEPUTY OF FORESTERS

G. E. (Ted) Logie announces in this week's issue that he has been appointed district deputy of the Independent Order of Foresters for the Summerland district. Mr. W. E. Attwood, of Kelowna, is provincial manager of the order.

will be vice-chairman of the drive. March will be known throughout the continent as Red Cross month as the Canadian appeal coincides with that of the American Red Cross.

Municipal Limits Are Now Extended

Municipal limits of Summerland have now been extended into Okanagan lake a distance of 600 feet, effective January 18, when the order-in-council was passed at Victoria, the deputy provincial secretary has announced.

However, this change in municipal boundaries did not take place in time to allow for this land to be included in the assessment rolls for 1950.

Thus, the Summerland Co-oper-

PLANNING THE MENU

Planning the week's meals is an important project and wise homemakers do their planning well in advance. Long-range scheduling of meals makes it possible to provide a wider and more pleasing diet and it is nearly always cheaper than letting meals work out on a day-to-day basis.

active Growers Assn., who erected a new packinghouse on a fill in Okanagan lake, will not be required to pay taxes on this land this year, it was stated last week at the council session.

BANK DEBTS SHOW BIG INCREASE OVER 1948

Hon. L. H. Eyres, minister of trade and industry, announced that bank debits in British Columbia, a good indication of business activity, are up 7.8% for the first 11 months of 1949 over 1948. The 11-month 1949 total is \$6,858,569,000 compared with \$6,361,356,000 for 1948. There can be no doubt that bank debits in British Columbia in 1949 surpassed all previous records, he stated.

How to Help Blind Object Of White Cane

Next week, February 5th to 11th is announced by the Canadian Council of the Blind and the Canadian National Institute for the Blind as White Cane Week. The object of this, as of previous White Cane weeks, is to inform the sighted friends and neighbors of the blind, how best and most practically to express their very real feeling of friendliness and helpfulness.

Officials of both organizations speak enthusiastically of the better understanding now existing between blind and sighted because of the information disseminated during these weeks.

A new courtesy and carefulness are noted among school children. They, like their parents, are learning to offer an arm, rather than to take the arm of a blind person wishing to cross a street. They have learned that, as in dancing, the blind follow the movement of the person whose arm they hold.

Children, too, are now watchful that no carelessly left bicycles, tricycles or wagons, on sidewalk or street, should endanger the progress of their blind friends. The blind in turn hope that this added thoughtfulness may prevent many accidents for the sighted.

Successful as these previous White Cane Weeks have been, officials of the CCB and the CNIB state they look for one further advance this year. They are hoping that the friendliness which has already expressed itself in so many helpful ways, will now have a further evidence. They are hoping that their sighted friends will share with them their enjoyment of lectures and concerts and other such recreative and educational events.

This is a wish they are rather hesitant of voicing, the same officials state. The blind know that their sighted neighbors are busy and hurried and that the additional steps or minutes it takes them to call for a blind friend must, at times, seem almost impossible of accomplishment. The reward, however, they feel is great, the reward of any friendship in which one friend supplies the need of another.

Compile Figures In Answer to Power Rate Query

Councillor F. E. Atkinson reported to the municipal council last week that he is compiling figures in answer to the complaint of the packinghouses that the local power rate for cold storage and packing plants is too high in comparison with costs in other valley centres.

Mr. George Washington produced comparisons between the Summerland Co-op power costs and other packinghouses in the Okanagan as representative of three local cold storage concerns.

Reeve C. E. Bentley expressed the wish to see the completed balance sheet on electric light department operation before seeking any definite policy on the part of the council.

It is understood that the figures of comparison in commercial lighting rates with domestic electrical consumption here would offset any higher power cost.

Discuss Agreement With Electricians

Early this month, a meeting of municipal representatives from Revelstoke, Vernon, Kelowna, Penticton and Summerland will be held to discuss the latest wage negotiation agreement between the electrical workers' union and the municipalities.

It was agreed some time ago that the municipalities involved would form a central bargaining committee within the Okanagan Municipal Assn. and endeavor to arrive at a common agreement with the union for all municipalities.

A quarterly meeting of the association will also be called shortly, the local council suggested last week.

Retiring President J. H. Horn, of Kelowna, wrote the council last week expressing his regrets at having to retire from municipal politics and extending good wishes for 1950.

May Get Film For Cafe Employees

All water tested in Summerland municipality in December was satisfactory, the monthly South Okanagan Health Unit report to last week's council session revealed.

Although restaurants generally were considered satisfactory the health director, Dr. Helen Zeman, noted that constant supervision of employees in washing dishes is required.

It is hoped that an instructional film will be available shortly and as many cafe employees as possible will be given an opportunity to view it. Also, home economics pupils at the high school will probably have a chance to see this film.

Seriousness of Fire Blight In Summerland Orchards is Stressed by Horticulturist

It is a well known fact that we have far more fire blight in Summerland orchards this past year than we have had for many years, states Alec Watt, district horticulturist. Mr. Watt has prepared the following article for the Review:

The situation all through the Okanagan is serious and may become worse unless drastic measures are taken to control the disease. What has already been done to help control this most deadly of all pear diseases?

To begin with, in December, 1949, the B.C. legislature passed by order-in-council a set of regulations governing control measures for fire blight and empowering horticultural officials to have blight removal work done at the owner's expense if said owner fails to carry out blight removal. These regulations call for stiff penalties for non-compliance.

At the 61st BCFGA convention held in Penticton a few days ago the assembled delegates passed a resolution requesting their executive to petition the government to provide additional help for the horticultural staff in carrying out the 1950 fire blight survey.

In December, a series of fire blight cutting demonstrations were held throughout the district and over 70 growers attended.

The fact that various bodies of men have seen fit to take the above precautionary steps indicates the seriousness of the situation.

What can the pear grower himself do to lessen the danger of an epidemic next season? In horticultural circular No. 73 "Diseases of Fruit Trees" published by the BC Department of Agriculture there appears the following paragraph on the control of Fire Blight:

"Control — The main control measure is the proper cutting-out of all 'hold-over' cankers during the winter when there is little danger of spreading the disease. In winter cutting, disinfection of tools and cankers is not considered necessary. No blight-cutter is sufficiently expert to be able to detect and remove all cankers at one cutting.

"Winter is the slack time with most growers, and frequent inspections should be made and cankers missed removed. One or two final inspections when the buds are beginning to burst in spring are to be especially recommended, since if any hold-over blight has been missed, it may now be detected by the moist appearance of the bark when the

bacteria becomes active. The removal of such infection centres before blossoming-time will prevent much blossom-infection. The importance of this "clean-up" work during the dormant season cannot be over-emphasized. If all 'hold-overs' could be removed, the disease would disappear unless reintroduced from outside.

"It is important not to overlook other hosts of the same disease, especially those near buildings or in some odd corner of the premises. Prunings should be gathered up and burned as soon as possible. Success in the prevention of this disease depends on co-ordinated action by the orchardist and district. It is futile for one grower to remove blighted wood from his orchards while his neighbor does not."

Co-ordinated Action
You will note the final sentences. "Success in the prevention of this disease depends on co-ordinated action by orchardist and district. It is futile for one grower to remove blighted wood from his orchard while his neighbor does not."

During the months of February and March a survey will be made of as many pear blocks as can be covered in the time available. Where blight is discovered it will be tagged with a red cloth to mark the tree harboring infection. This is intended as an aid to the grower in finding the infection. Naturally, if it is obvious to the inspector that no attempt has been made to clean up the orchard, no tagging will be done but instead the owner will be approached and requested to clean up the blight. A reinspection will then be made when the grower concerned has removed all the blighted wood that he can find.

It is most essential that an early start be made on this work in order that it may be completed during the dormant period and before the buds swell. Once the buds have swollen to an extent where the bud scales have started to separate and whitish grey segments can be seen between them it is too late to cut blight unless tools and wounds are disinfected with a solution of mercury bichloride at 1:1000 strength.

There are a large number of orchards throughout the district in which blight removal has not yet been started. Granted, heavy snow and extremely cold weather are at present keeping orchard operations at a minimum. Nevertheless, removal of blight from most of these orchards is not going to be a one-day job. In some

Honored in Paris

IOOF Encampment Installs Officers

Officers of Okanagan Encampment No. 6, IOOF, from Penticton and Summerland lodges, were installed at the Penticton temple recently by an installing team headed by DDGP O. C. Reed and DDGJW W. G. Manning.

Following are the officers of the encampment:

Chief patriarch, J. F. Khalem-bach; high priest, A. Everitt; senior warden, T. Sather; junior warden, W. Downton; recording scribe, S. P. Penty; financial scribe, L. Gibbert; treasurer, P. Kincaid; out, sentinel, D. Barnes; 1st watch, S. Hauser; 2nd watch, E. Gillespie; 3rd watch, H. Jones; 4th watch, L. Scheppens; ins. sentinel, J. Funk; guide, J. Sinclair; 1st guard tent, L. Campbell; 2nd guard tent, B. Munroe.

Other grand lodge officers who assisted in installation were: DG SW, S. Hauser; DGHP, J. Johnston; DG Scribe, R. Faulkner; DG Treasurer, J. Funk; DGIS, M. Hugo; DGOS, A. K. McLean.

orchards it is going to take several days or even weeks to carry out a thorough removal program.

It is our impression that the grower who leaves his blight cutting until the snow goes or until all the other work is done may very well be trapped by a sudden spring and may never get a thorough job done.

It would be sound practice to give A1 priority to blight removal in your orchard work now and to set a daily quota of trees to be done—not too many—say 6 trees a day. This figure will be decided by the size of your trees, the severity of blight in them, the depth of the snow in your orchard, the number of sub-zero, non-working days you figure you should allow for and finally the strength of your back.

Of special interest to all pear growers will be an article on fire blight by Dr. H. R. McLarty, officer in charge of the Dominion Laboratory of Plant Pathology, at Summerland. Growers are urged to watch for this article which will appear in the February issue of Country Life.

Get Figures on Front Bench Water Program

Copy of a telegram despatched to Premier Byron Johnson by the Young Liberal Assn of Vancouver was forwarded to the Summerland council and was heard last week.

It urged on the premier the need for some immediate action to relieve the unemployment situation and suggested public works projects as set up for the postwar period, or a scheme enabling the provincial government and municipalities to borrow at low interest rates to institute new public works.

Council discussed possible work projects here and considered the front bench irrigation system renovation in the Capt. Temple-H. L. Wilson area might be a possibility for such a proposal.

Water Foreman E. Kercher will submit a report on this project when he details work for 1950 on his irrigation program.

Tentative figures produced by Mr. Kercher suggested that the Prairie Creek main would have to be enlarged and the cost of this portion of the system would be about \$17,000, about half of which would be included in the enlarging of the main.

Full details will be given later.

SLIDES INTO POLE

On Friday evening, Jan. 20, Ernie Rositch's truck went into a skid and struck an electric light pole across Rosedale avenue from his Highway Garage. Damage to the truck was reported in the neighborhood of \$200.

Westbank Writer Advocates Toll Bridge Across Okanagan Lake to Relieve Bottleneck

The following timely article by Mrs. D. Gellatly, well-known Westbank woman, is an indication of the trend of thought among those who reside on the west side of Okanagan lake regarding future commitments of Okanagan highway travel.

(By Mrs. D. Gellatly)

Once again the lake has frozen over at Kelowna, hampering ferry operations and presenting us with the perennial problem of the ferry bottleneck and its solution.

Granted that the bottlenecks and line-ups that have occurred in the past, and are occurring with increasing frequency since the opening of the Hope-Princeton highway, do not, as pointed out by the Hon. E. C. Carson last winter, warrant the expenditure of \$400,000 for a third ferry. Indeed we heartily agree with the honorable gentleman.

Granted also that the suggestion made at that time by the then MLA for South Okanagan, R. D. Browne-Clayton, that traffic can be diverted over the Rock Creek-Carmi road.

Granted even that the pressed-for Naramata road should ever become a reality. As has been said before, the construction and upkeep of this road would be a straight "money out" of the taxpayers' pockets' proposition; the cost is prohibitive and there are no resources and no agricultural land of any value or extent to be opened up along its route.

Will the above proposed solutions eliminate the bottleneck at the ferry? In the first place many motorists will continue to travel over the west side of the lake for business or personal reasons, as well as to enjoy the scenery along that route.

Secondly, winters such as we experienced last year and are enduring this year are nothing new or rare in the valley, as the records of the past ninety years reveal. The fact that the lake did not freeze over for some twelve years prior to 1948 is no guarantee that it will be ice-free for the next decade.

Thirdly, why should traffic be

diverted over the Rock Creek-Carmi road if its original intention was to pass through the Okanagan? Not only is this no solution at all, but insofar as the Okanagan tourist trade is concerned, appears rather stupid.

Fourthly, the improving of the Allison cut-off from Princeton to Peachland is already being advocated as a logical short-cut on the Hope-Princeton highway. This trail, cut by J. F. Allison eighty years ago for the purpose of driving his cattle to and from their winter quarters at Westbank, forms the third side of a triangle; the remaining two sides being formed by the Hope-Princeton road from Princeton to Penticton and from that city north to Peachland on Highway No. 5.

This cut-off will provide a short route for those travelling to and from the northern half of the valley when time is at a premium. That this trail can be economically transformed into a motor-road is well known; three Kelowna men demonstrated their faith in this route as a future connecting link by motoring over it a dozen years ago.

Fifthly, new properties opening up on the west side of the lake will mean increased growth and

business expansion with its resulting heavier traffic and movement of fruit and produce, as well as a larger volume of ordinary motor travel.

Obviously then, the real solution for the valley as a whole is a toll-bridge across Okanagan Lake at Kelowna and/or the widening of the west side road north from the ferry. We have been told that government engineers have a blue-print for such a bridge, and this being so, what better time for its construction than now, when unemployment is widespread. Further, a bridge would be paid for by those using it, by means of a toll.

The west side road certainly would not take from any part of the valley as much traffic as would the diversion of traffic over the Rock Creek-Carmi road; also the west side road requires comparatively few miles of widening and engineering to make it an excellent motor-road. From Fintry north it is a good road in constant use. Settlers along the narrow road north of the ferry are in desperate need of a decent highway; indeed road conditions such as they exist for them are nothing short of criminal. These settlers are isolated much of the winter and often are unable, even in emergencies, to reach town, doctor or hospital.

Let us eliminate the bottleneck of ice conditions in winter and the bottleneck of tourist traffic and seasonal hauling at other times of the year by pressing for the erection of a toll-bridge and/or the widening of the westside road north from the ferry.

PAST - PRESENT - FUTURE

In its short existence as a member of the Canadian Federation, British Columbia has made vast strides both economically and socially. While its early progress was not consistently rapid, delayed as it was in many cases by events beyond local control such as the world depression of the 1930's, the final outcome was inevitable. No locality possessed of the great resources of nature could fall to advance given proper opportunity and the stimulus of sound governmental stewardship.

The pressures of development needs have in the past placed a heavy burden upon governmental finances, particularly when added to them have been the burdens of unemployment relief and other extraordinary and non-productive expenditures.

This burden of debt reached a peak in 1933, when the net debt per capita amounted to \$100.30, while the per capita interest charges were \$11.01.

Progress has been made since those days until at the end of the last fiscal year, despite large capital expenditures on the development of the Province, the net debt per capita was but \$116.43, while the per capita interest charges were \$5.44.

This was accomplished with considerable effort on the part of your Government. It can only be, through the exercise of sound and stable financial policy that such an excellent showing can be achieved. No country can stand still economically or socially in the rapidly changing world of today, and it is necessary that every possible incentive be given to progress in British Columbia. This is being given through transportation improvements, both highway and rail, electrification, land clearing, agricultural and industrial research, and numerous and large-scale improvements in health, welfare, and educational facilities. As the figures above show, it is being done at a burden considerably lighter than was being borne on capital account over fifteen years ago.

EVERYBODY'S BUSINESS
by *Don Graham*

Have you ever felt that you had reached the "end of your rope"? Most of us have this experience at least once in a lifetime — perhaps after working long at a seemingly impossible task, or finding ourselves in a serious predicament. So it is a good thing to remember that we have within ourselves extra reserves which can carry us through many a crisis.

There is plenty of evidence to prove this fact. Countless stories of heroism reveal the human capacity to endure unbelievable stress, hardship and pain. More than one victim of a disaster at sea, struggling in icy water, felt sure that he wouldn't survive for five minutes. Yet many hours later he was still hanging on and thus lived to be rescued.

Such endurance may be demonstrated not only in connection with physical trials, but also those which are mental and emotional. And if you can keep hanging on, perhaps for even just a little while longer, the success or relief you seek will be yours!

In short, there is a whole world of truth in the old saying: "It's always darkest just before the dawn".

No family need endure hardship in the event that its breadwinner dies. Life Insurance puts within reach of every father the means to provide for all their needs, as well as for his own retirement income.

Baseball Club Invited to Join U.S. Teams

Summerland senior baseball squad is being invited to enter the Okanagan-International baseball league next summer and compete with six American teams and Penticton, the only other Canadian entry.

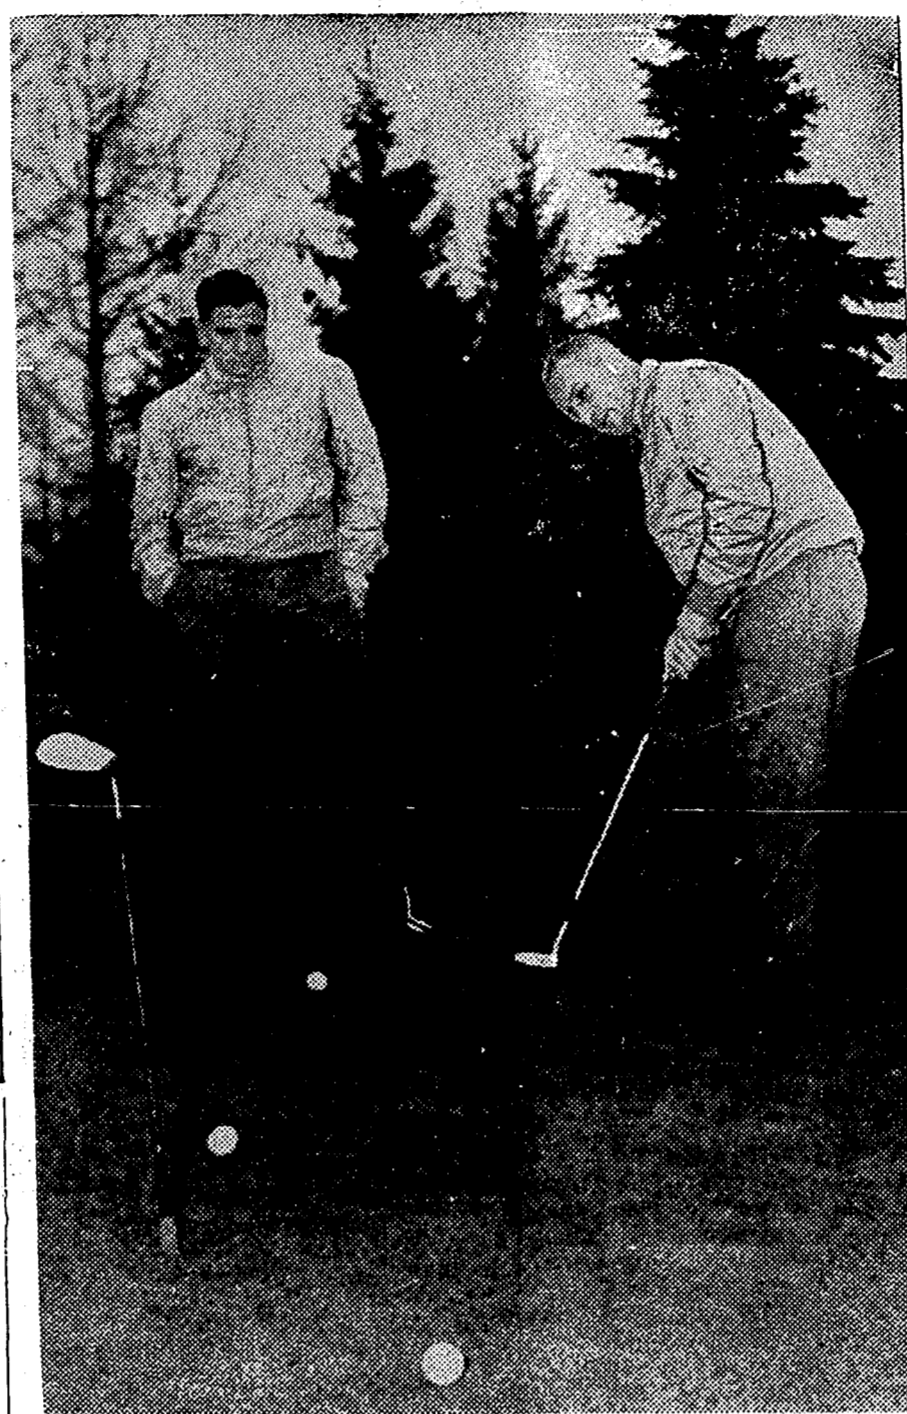

George "Scotty" Gordon, league secretary, wrote The Review editor this week, requesting the Summerland club to place an entry in the southern section of the international league.

This letter was handed over to Nan Thornthwaite, baseball club secretary who conferred with Allen Holmes, club manager. It is understood a meeting is being held forthwith to consider the proposal.

Next meeting of the league will be held at Omak this Sunday, February 5, when entry applications will be considered.

Grand Coulee, Bridgeport, Brewster, Omak, Tonasket, Oroville and Penticton are the teams now definite for the southern section and one other Canadian team is wanted.

Oliver, Kelowna and Kamloops Legion, all entries in last year's international league, want to form a northern section and embrace such teams as Princeton and Vernon, as well.

THE GREENS WERE ACTUALLY GREEN. Jules Huot putts for the first hole while Fred Archer looks on. The next day Laval sur la Lac Golf Course, near Montreal, was blanketed by deep snow. But on Jan. 5, it looked like Florida.

CURLERS INVADE PEACHLAND RINK

Thirty-two curlers, some of whom are old, experienced hands and many rank novices who never touched a broom before, went to Peachland curling rink for four hours play last Sunday.

First group started curling at 9 o'clock and the second group at 1 o'clock that afternoon.

Merchants Bow To Kelowna in Fast Cage Tilt

Dave Hayward was mainly responsible for the Kelowna Bears' victory over the Summerland Merchants last Saturday at the new Kelowna school gym in an interior senior basketball league tilt which had been postponed from last fall.

He tossed in 19 points to lead the Bears to a 52-34 win in a game which showed good play throughout with the Merchants providing a threat right into the final period.

Jackie Walsh was high man for the Merchants with 15 markers swishing through the loop.

In mid-January, the Merchants visited Penticton and lost to the southern casaba throwers by 13 points. With four minutes of play left the Merchants were only trailing by six points but the Penticton Vets applied the pressure in no uncertain terms to wind up easy winners.

There is one game left to play in the senior league schedule, Vernon being scheduled to play here this Friday. However, the school gym being closed because of cold weather, this game is being postponed.

The Merchants travelled to Princeton last night for an exhibition game along with the local high school boys' team, Now in Fourth Place

Merchants have won two games in the senior league schedule, both against Vernon, and another victory over that squad would place them safely in fourth spot in the league standings. A defeat, however, would leave them tied with the Vernon lads for bottom spot.

Kamloops still leads the league with only one defeat during the season, while Kelowna and Penticton are battling for second and third places.

Winners of the play-offs enter the provincial senior B playdowns, the interior winner travelling to the Kootenays. This section of the playoffs is tentatively set for March 24 and 25, with the winner travelling to the coast to play March 31 and April 1.

The final round sees the Interior-Kootenay-Coast winner going to Princeton on April 7 and 8, for the BC finals.

Two Players Injured

Last Saturday the Summerland school team played the preliminary at Kelowna and was walloped 83-40 after Don Cristante injured his ankle and was forced out of the game.

Weddell had a big evening with 33 points, while Kane was next in line with 20 markers. Weitzel, Jomori and Kato were the leading scorers for the hapless school team, minus both Cristante and Day through injuries.

Two One-Sided Victories Are Scored by Senior Puck Squad

Two one-sided victories were registered by Summerland's senior hockey club at the local rink during the past week. Last Friday the seniors took the measure of Osoyoos 14-4 and on Sunday the Kelowna Mill Bulldozers were blanked by a 12-0 count.

Every time out the Summerland seniors are showing to better advantage and they were disappointed that Kelowna did not send down the Stampede on Sunday as that team is leading the Kelowna commercial loop.

Highlight of the Osoyoos contest, which was a one-sided affair with some sloppy play, was that Bruce Cadden, regular Summerland goalie, was put out on the forward line and played ten minutes complete with his pads and protectors.

After ten minutes he was warm enough that he was quite content to go back between the sticks.

It was a fast-skating, heavy checking crew which faced the Kelowna invaders on Sunday. Al

McCargar was back on the defence after an absence of several games suffering from a cracked rib, and he combined nicely with Colin Mann to keep the visitors at bay.

In fact, Cadden only had to stop half a dozen pucks all afternoon. It was 3-0 when the first period ended and 8-0 going into the final canto. Four more tallies were chalked up before full time.

Scorers on Sunday were: 1, Hallquist (Roberge); 2, Holmes (Howard); 3, McLean (Roberge); 4, Howard (McCargar); 5, McCargar (Howard); 6, Kato (McCargar); 7, Taylor (Friesen); 8, Friesen (Croft); 9, Hallquist (Kato); 10, Taylor (Friesen); 11, Hallquist (Mann); 12, Mann (Croft).

STAMPEDERS HERE NEXT SUNDAY

Kelowna Stampede, leaders of the Kelowna Commercial hockey league, will make their first appearance on Summerland ice next Sunday afternoon. The Stampede were billed to play last Sunday but were held at home to await the arrival of a Penticton team.

George Stoll, manager of the local seniors, states that he has received definite assurance that the Stampede will be here next Sunday.

BLACK BOMBERS FAIL TO EXPLODE

Playing on the coldest night of the year, Summerland's senior hockey squad trimmed the Kelowna Black Bombers, of the Orchard City commercial league, 8-3 on the local ice Tuesday night, Jan. 14.

Summerland turned in the finest display of hockey of the season, to fly past the visitors right from the opening whistle and never look back.

The locals established a 5-1 lead in the first canto and were never troubled. Summerland's goalie turned in the best exhibition this year and stopped many hard shots to inspire his teammates.

Skating On Lake Is Safe But Don't Go Out Too Far

Mr. Gordon Blewett, who has been well known as a skater for many years, has been testing the ice on the lake at the bottom of Peach Orchard road. Last Friday he took a pike pole and went out until he could be seen as only a small figure.

He reported that the ice was about six inches thick, but rather dangerous for skating out near the channel which is made by the barges. This is broken every trip and makes big and menacing cracks in the nearby ice.

Since then, quite a number of children and adults who live near there have been enjoying skating at various times though much nearer the shore than Mr. Blewett's experienced try-out trips.

On Sunday afternoon a group of adult skaters were out from near the old wharf site at Summerland and going as near the boat channel as possible. They were hailed from the other side by a number of skaters from Naramata but it was not possible to skate across the lake at any spot between here and Penticton.

front bench area in the Capt. Temple-Harvey Wilson region was tentatively discussed.

It was stated that this scheme would involve \$17,000, but more definite plans and estimates will be forthcoming later in the year.

Then, to top it all off, into the council chamber came George Stoll with his plan for a \$30,000 hockey-curling rink. That put the finishing touches to an interesting afternoon's discussion and involving amounts coming fairly close to the \$150,000 mark.

Hon. Paul Martin at Lake Success

Speaking for Canada at U.N., HON. PAUL MARTIN castigated Andrei Vishinsky of the USSR who recently launched the 'peace debate.' 'The real problem,' said Mr. Martin in his speech, 'is not the preparations for war. The real problem is the fear and insecurity which lies like ice in the hearts of men everywhere.'

Rutland Takes Puck Game 7-6

Three goals fired in a few minutes spelled defeat for Summerland senior hockey club last night as Rutland emerged victors at the local rink 7-6. The locals were ahead 4-1 at one stage. McLean was the only local scorer to shoot in two counters while Friesen, Taylor, Roberge and Keyes added the other four.

George Stoll, club manager, states he will handle the whistle on Friday night when Penticton's burly icemen invade Summerland for the second time. George promises to be fair but strict enough to keep the game well in check, in an endeavor to do away with the dirty play which ensued on the first clash between Penticton and Summerland.

Escapes From Russia Zone In Germany Arrive In Summerland

Mrs. Lydia Vogel, a war widow, and her four children arrived last week from the British-occupied zone in Summerland. She came here to join her brothers, Mr. John and Mr. Herman Glaser and their families, and at present is staying at the home of the latter.

During the war the family experienced many great hardships. They were moved from Poland to the Russian occupied zone and part of the time were separated. They escaped by night to the British zone.

Monday morning the youngest girl, Irma, who is six, started at school in grade 2, and already is proud to be able to speak and recognize in print a few English words.

MORE ABOUT

LOCAL HOSPITAL

Continued from page 1

not suitable for continued use or expansion.

(Penticton is hoping to vote shortly on a bylaw to build a new 100-bed hospital with provision for further expansion later in the 20-year period.)

'We recommend, therefore, that by 1951 a new hospital of 100 beds be constructed on a different site to meet the immediate needs of this area replacing the 78 beds now in existence and providing 22 additional beds.

'Between 1951 and 1971 we recommend the construction of 80 additional beds at this hospital raising to 180 beds its total capacity by that time. 27 of these additional beds will replace ones now in operation at Summerland.'

Plans For Princeton

For Princeton a new hospital of 60 beds is recommended, '36 beds of which will replace existing beds considered non-acceptable at this time.'

Although St. Martin's hospital at Oliver is only seven years old it is non-fire resistive, is of frame construction and has neither elevators nor ramps by which patients could be removed rapidly in the event of fire.

'We do not consider that this building is suitable for expansion for general acute care,' the report declares, recommending that a new hospital of 50 beds be constructed, replacing the present 37-bed plant which may be improved or converted to chronic care use.

'Should it not be possible to carry out such construction program by 1951, we recommend that as an alternative no construction take place until such time as the recommendation for a new hospital can be carried out.'

Coming then to Summerland General hospital, the report states that this is an existing hospital which is designated a community clinic in the long-range program.

'No expansion is planned for this hospital by 1951.

'Between 1951 and 1971 we recommend that this hospital, whose 27 beds are considered non-acceptable in the long-range program, be replaced by a new community clinic without beds. There appears to be no valid reason why the bed needs of this community cannot be better supplied at Penticton.

'We recommend that the 27 beds which are now in existence at this hospital be replaced in the 1951-71 construction program of the Penticton hospital.'

Hodley, Keremoss and Osyoos are other centres where community clinics are proposed by 1971. Priority of construction is given to Penticton, St. Martin's at Oliver and Osyoos, in that order.

Physical Aspects Dealing with the physical aspects of the present Summerland General hospital, it is noted in the report that the building is 20 years old, with one-year old wing and nurses' residence.

Although the condition is pronounced good, it is noted that the structures are all frame construction and non-fire resistive. 'Service facilities are reasonably well equipped and have sufficient floor area to provide for both present needs and for an addition of approximately 15 beds with the exception of the heating plant, which is inadequate.'

Lloyd Detwiler Commissioner of Hospital Plan

Lloyd F. Detwiler, a former lecturer on economics at UBC, has been appointed commissioner of the BC Hospital Insurance Service, replacing Dr. J. M. Hershhey, who resigned in December.

This announcement was made from Victoria last week-end in a joint statement from Premier Byron Johnson and Hon. G. S. Pearson, minister of health and welfare.

Mr. Detwiler was commissioner of the social security and municipal aid tax department.

He will carry on the administration concurrently with the survey which is now being undertaken by James A. Hamilton & Associates, who are investigating the entire insurance service setup.

Other changes designed to strengthen the organization are expected to be made from time to time, the premier explained in his announcement.

Dr. Detwiler was an outstanding student at the University of B.C., having obtained his masters degree in economics there. For some years he lectured on that subject at UBC before being appointed senior research assistant in the department of finance.

It was from the latter position that he was elevated to the post of commissioner of the SS & MA tax department.

PAYS FINE FOR SHOOTING DEER

Charged with shooting a deer out of season, Robert Settle paid a minimum fine of \$25 and \$3 costs before Magistrate H. Sharnan in police court here Tuesday morning.

Constable I. G. Thorsteinson laid the charge, having found the deer in a lonely cabin near Fish Lake last week-end.

Avoids Children But Not Collision

N. R. Johnson, driving his car on the South Prairie Valley road Tuesday evening about 5 o'clock, pulled to the left to avoid two children dragging a sleigh, and did not see another auto approaching around the corner.

The result was a head-on collision with a car driven by James Dawes. Damage amounted to about \$350 to the two cars, no one being injured.

The road was quite narrow at this point, BC Police Constable I. G. Thorsteinson reports.

Eighty Citizens Atter Public Meeting to New Rink Association

Assessment of properties in the vicinity of Jubilee and Hastings caused the greatest concern to the annual court of revision of the assessment roll at the municipal chambers yesterday morning and afternoon as the full council met at the court.

Focal point of the discussion centered on the BC Fruit Shippers Ltd. property, which Assessor Joe Sheeley had upped in land value from \$1,500 to \$4,900 for the corner lot and from \$490 to \$3,000 for the inside lot.

In relation to these figures, adjoining properties on the north side of Jubilee were also raised accordingly.

However, the court deemed that as the packinghouse concern provides a much-needed service to the principal industry of the community there should be a reduction in assessment to bring it in line with that paid by the Occidental Fruit Co., Ltd., on a per box basis.

Total assessments before revision by the court were as follows: Land, \$1,407,500; improvements, \$3,365,920. In 1948 assessments, land was down approximately \$100,000 at \$1,306,834.50 and improvements were down \$300,000 at \$3,064,550.

Only 13 appeals were filed by deadline, January 28, but an equal number of appeals were filed after the closing date. All appeals, whether they were late or not, were considered by the court, but the number of assessments sustained far outweighed in numbers the alterations.

In the vicinity of Hastings and Jubilee, besides the BC Fruit Shippers property, the assessments of T. S. Manning and D. L. Sanborn had to be considered.

Yesterday morning, T. S. Manning was informed there could be no change in the assessment of his land, which had been raised from \$1,000 to \$3,500, on the basis of 14 cents per square foot.

But by the afternoon, after the court had heard C. J. Bleasdale, manager of the Fruit Shippers concern, a dividing line was laid along Jubilee and Mr. Manning's land assessment was decreased to 10 cents per square foot and so he was cut \$1,000. His land assessment now stands at \$2,500 instead of \$3,500, an increase of \$1500 over 1948.

It had been stated in the morning that the Manning property should be the same as the West Summerland Building Supplies Ltd. and Capitol Motors, both south of Jubilee, but by afternoon the court amended this stand.

On the same basis of 10 cents per foot, the D. L. Sanborn property directly north of the packinghouse was finalized at \$2,000. It had been assessed at \$490 and Assessor Sheeley had boosted it to \$3,000. This is approximately \$100 less than 10 cents per square foot.

These two decisions came after Mr. Bleasdale had pleaded his case before the court and won a substantial reduction.

Comparison Per Box
In order to show comparisons, he produced figures which indicated that on a 1,000 box basis his concern paid \$3.05 in assessments, whereas the proposed big leap would bring this figure to \$4.40.

On the present assessment basis, the Occidental Fruit Co., Ltd., which is comparable to the Fruit Shippers in that it has no trackage, pays \$3.27 and the Summerland Co-op, which is located on the lakeshore alongside trackage, pays \$4.76.

Assessor Sheeley pointed out that he had only raised the assessments to bring all businesses falling within the proposed retail

(Continued on page 8)

Annual Board of Trade Meet Tonight
Tonight at the IOOF hall the annual meeting and election of officers of the Summerland Board of Trade is being held. It is understood that Mr. J. E. O'Mahony, president of the board, will allow his name to stand for another term. Committee reports for the year will be heard, as well.

Referents: L. Young, Pentiction, and White, Vernon.

Merchants: Vanderburgh - 16, McLean 4, Ruppel 4, G. Clark 23, Nesbitt 2, Dunham 14, Guild, Walsh 15, White, W. Clark-78, Vernon: Munk 3, Barnett 9, McCluskey, McGregor 11, Dunfield 4, Graves, Koshman 6, R. Sammartino 5-38.

Clark and Walsh played superb games on defence and were mainly responsible for Vernon's never getting set for a shot. Vanderburgh was dynamite close under, and was second to Clark's 23 in the basket parade. Walsh and Dunham were close behind, although the former was not making his usual percentage of shots.

By three-quarter mark there was no doubt as to the result as the Merchants outscored Vernon 20-9 in the third quarter to lead 56-29. It was just a matter how high the totals could get from then on.

New School Plans Ready On Wednesday

Next Wednesday morning, C. J. Bleasdale, chairman of School District No. 77 (Summerland), accompanied by William K. Noppe, architect, will present the completed plans and specifications for the \$400,000 junior-senior high school to the department of education in Victoria.

As soon as the department gives the green light to the school trustees tenders will be called.

However, it is unlikely that the advertisements for tender will be possible before the local district press is published on February 23, which would mean that contracts will not be awarded before mid-March.

It had been the trustees' hope that the contract could be awarded by the end of this month so that an early start could be made in March. However, further delays in completing the plans and specifications did not allow Mr. Noppe an opportunity to finalize his work.

Unless a start is made in March on the building, it is doubtful if it can be completed in time for September occupancy, trustees are afraid.

Many Accidents On Slippery Roads In This District

Due to the slippery condition of the roads, numerous accidents have been reported to the BC Police office here in the past week to ten days.

At noon on Tuesday, H. A. J. St. Laurent, driver for Hobbs Glass Ltd., of Vancouver, was driving down Peach Orchard but could not slow down sufficiently to escape bumping into a truck proceeding in the same direction. But rather than hit the truck the driver turned off the road and ran into a tree. Result was \$40 to \$50 damages to the car.

On Sunday, Feb. 5, on the Deep Creek road en route to the curling club back of Peachland, cars driven by Neil McKerracher, Pentiction, and Peter Spackman, of Peachland, met on a blind corner. Damage was estimated at \$90 to the vehicles.

John Brown of Westbank owns two trucks and both vehicles were involved in recent accidents.

On January 30, four miles west of Peachland, Mr. Brown's truck and a car driven by J. T. Garraway of Peachland collided on a narrow mountain road. Damage was \$150 to Garraway's car with the truck escaping practically unscathed.

But, on February 3, Brown's second truck and another truck whose identity is not known here, collided six miles northwest of Peachland with about \$100 damage to the Brown vehicle.

Three vehicles were involved near the Antlers south of Peachland on January 30. Hugo Smaltz of Vernon pulled out to the right to allow a truck driven by Frank E. Smith to pass, but the Smith truck body grazed the Smaltz auto, and it came to a stop.

D. Chappell, of Kelowna, was following Smaltz and could not stop in time banging into the rear of the car in front. Damage to the two cars amounted to \$200 but the truck went on its way with no penalty.

Veterans Affairs Minister On Visit To Vernon District

VERNON - Hon. Milton F. Gregg, VC, minister of veterans affairs, returned to the city where he commanded the Canadian School of Infantry for two years during World War II, last week, calling on veterans with VLA holdings.

Mr. Gregg told the Vernon News that the leading topic of his department at the next session of Parliament is an amendment to the War Veterans Allowance Act. This amendment will make it possible to accept applications for benefits from a "new" group of veterans. These are the "old sweats" who served in Britain and other Allied countries other than Canada in World War I, the Imperials, and who have lived in Canada 20 years or more.

He termed the present unemployment situation on the Pacific and Atlantic coasts as "serious but seasonal" and declared climatic conditions have been the main factor in this situation. He believed employment prospects in 1950 would be "good."

NATIVE SON

Leslie R. Smith, formerly assistant superintendent at Cranbrook, for the Canadian Pacific Railway, has been appointed superintendent at Pentiction. He succeeds J. L. Palethorpe, retired because of ill-health. Joining the CPR at Revelstoke in 1937 as an operator, Mr. Smith later served on the prairies before becoming assistant superintendent at Nelson in 1947. He moved to Cranbrook in 1949. Les Smith is well-known to many local residents as he was born in Summerland and received his education in local schools. He is the son of Harold Smith, farm foreman at the experimental station in Summerland.

J. L. PALETHORPE, who retired last month as superintendent of the Kettle Valley division of the Canadian Pacific Railway, being replaced by Mr. Smith. Mr. Palethorpe has since been elected president of the Pentiction Board of Trade.

Delegates Miss Meeting Due to Delay of Ferry

Delay in ferry schedule Thursday afternoon, February 2, caused by the ice floes creeping into the ferry channel, was of such length that Mrs. A. W. Vanderburgh of Summerland, and Mrs. A. D. McKay of Peachland, did not arrive at the annual meeting of the Okanagan Union Library board of management until an adjournment had been called.

Mrs. F. J. Foot of East Kelowna was again named president of the board, with Mr. H. Page Brown of Armstrong as vice-president, and G. C. Hume of Glenmore as treasurer. Councillors are: Major-General R. F. L. Keller, Kelowna; Ald. W. D. Haddiston, Pentiction; Mrs. A. D. MacKay, Peachland; Mr. T. H. Elliott, Salmon Arm. Librarian Mrs. Muriel Froulkes reported there are 46,280 volumes in stock with a registration of 16,336 persons. Circulation increased 31,109 in 1949 over the previous year to a total of 273,823.

Population served by the library is 61,776. Mrs. Froulkes estimates, with 53 branches and 58 schools contained in the area, besides a number of shut-ins who are looked after by mail. Receipts for 1949 totalled \$36,042.98, expenditures were \$36,060.35, leaving a credit balance of \$217.48. Estimated budget for 1950 calls for an expenditure of \$38,500, new books' purchase to be allowed \$10,800 of this amount.

Big Assessment Raise On Land Near Jubilee And Hastings Revised

Eighty citizens of Summerland arose as one man last Thursday night in the IOOF hall to agree that a Summerland Rink Association should be formed to investigate all phases of a hockey-curling-skating rink for Summerland district.

After a lengthy explanation of the project by George Stoll, the meeting proceeded to elect officers of the proposed association and turn over to that group the problem of furthering plans.

According to plans and specifications produced by George Stoll, the rink would be erected by a contractor for \$50,000. However, he estimated that nearly \$9,000 could be saved through volunteer labor if properly organized.

George Stoll was elected president, with Cecil Wade and Joe Sheeley as vice-presidents, B. A. Sladen, secretary, and G. A. Laidlaw, treasurer.

E. H. Bennett was appointed chairman of last Thursday's well-attended organizational meeting and explained the origin of the committee of George Stoll, C. H. Elsey and L. W. Rumball which had worked on plans for a rink.

This committee was appointed by the Summerland Hockey Assn., and as a result of its findings, this meeting had been called, Mr. Bennett explained.

Views of the truss construction and completed job of a rink similar to the one proposed for Summerland were shown on a screen by Mr. Stoll, who also displayed a chalk drawing of the proposal on a large blackboard.

The rink would be 202 feet long, he explained, and would contain, besides the hockey-skating ice, two sheets of curling ice and facilities for dressing rooms and other facilities.

Grandstand seats would accommodate 500 persons on one side while there would be standing room for at least another 500 in the rink, he stated.

Mr. Stoll believed the foundations, trusses and roof could be completed for \$15,000 by Mr. E. E. Tory, Vancouver contractor, who had submitted the plans and specifications for the quonset-style rink.

Then the building could be turned over to the local committee, to complete mainly by voluntary labor properly supervised, he advocated. Out of \$17,000 worth of labor involved in the entire structure, Mr. Stoll declared that \$8,900 could be assumed by volunteers.

"I think it is very necessary to have this rink in Summerland," Mr. Stoll contended. "We should have the same facilities for winter sports as every other town in the valley. If we work ourselves we can have a rink for \$15,000 to \$20,000."

He enumerated hockey, curling and skating as the main revenue-producers during the winter, with fairs, carnivals, shows, roller skating and box lacrosse as spring and summer attractions.

Mr. Stoll declared that one "older citizen" had already volunteered to subscribe \$500 towards the project.

The only way to raise the necessary money, he believed, would be to issue debentures bearing 2 percent interest.

Hockey would realize \$400 to \$500 per year, he thought, while skating and other attractions would be money makers. He called upon Cecil Wade to produce figures regarding curling receipts.

Mr. Wade declared that two sheets of curling ice could accommodate 92 male curlers, while another 40 to 50 women could be interested in curling during afternoons. He anticipated that receipts from curling would run between \$1,000 and \$1,500 per year.

Mr. Stoll then stated that revenue from the rink could be estimated at \$2,000 per year. Later he thought that figure might possibly go to \$3,000.

Possible site for the rink was (Continued on page 8)

Teachers Salaries Up Four Percent; School Budget Under Review Friday

Teachers' salaries throughout the Okanagan will be increased four percent due to the rise in the cost of living index and according to the agreement signed between school boards and the teachers' salary committee last year.

Although the cost-of-living index for December dropped half a point to 161, it was still over the 160 level at which the teachers would automatically receive a four percent increase.

This extra salary adjustment is included in the School District No. 77 (Summerland) 1950 budget which has been approved by the department of education and is being submitted to the municipal council at a special session tomorrow afternoon.

Mr. Espley, of the accounting division of the department of edu-

Mild Weather Brings Relief To Province

Last Saturday saw the first real break in the severe wintry cold spell since before Christmas. Mild weather has prevailed since then and the weather prophets are predicting that there will be no recurrence of the really bitter cold.

High point in the past week was hit on Monday when the thermometer climbed to 43. Monday and Tuesday nights the low was just below freezing at 28 above. Two inches of snow fell on Sunday, along with a fraction of rain.

Sudden thaw last week-end disrupted train service again on the mainlines and no trains came through here from Saturday until Wednesday morning.

However, No. 11 westbound went through here at 4:20 a.m. this morning and No. 12 from Vancouver was due to arrive before noon today. If the thaw continues further slides are expected in the Fraser Canyon, where heavy falls of snow are in precarious spots on the mountainsides.

Jaycees Plan Ladies' Night

Summerland Jaycees are planning a ladies' night for their next meeting which will be held on Tuesday, March 7. This was the decision of the February banquet meeting held in the Nu-Way Annex on Tuesday last.

At least one delegate will attend the national Junior Chamber of Commerce convention in Vancouver on June 20 and 21, it was decided. President Les Rumball indicated that he would probably be at the coast for that occasion.

Jack Dunham, was chosen recording secretary, a new post which has been created in Jaycee executive ranks.

A committee was appointed to investigate possible dates for the visit here of an Oliver Minstrel Show sponsored by the Oliver Jaycees.

J. R. Butler Is Credit Union Head

At the first directors' meeting following the annual meeting last Friday night, J. R. Butler was chosen president for 1950 of the Summerland and District Credit Union, replacing Gordon Boggs.

J. W. Caldwell is vice-president and W. T. Bleasdale continues as treasurer. Annual meeting report may be found on page 2 of this issue.

Rail Tieups, Lack of Cars Prevents Apples From Rolling to Markets

With a backlog of more than 300 cars for United States points, the fruit industry is suffering along with the rest of the province from the rail transportation tieup due to slides and other winter casualties.

Western Canada markets, according to A. C. Lander, assistant sales manager of B. C. Tree Fruits Ltd., have insufficient fruit to meet demand but the sales agency hopes to rectify this situation by the week-end.

With the lake frozen over and rail links to the coast spotty and an embargo on shipments west, it has been difficult to obtain sufficient cars to ship B.C. storage-held apples, it is stated.

Once rail transportation returns to a more normal level heavy shipments will leave the Okanagan.

Eastern Canada is still spotty as there are reasonable quantities of locally-produced apples of good quality available in Ontario and Quebec. This picture may change somewhat when the move towards late winters gets underway, it is hoped.

U. S. Markets Firm
The U. S. markets continue on a firm tone as shipments out of the Pacific Northwest are held

up due to a similar rail condition as prevails in B.C. What the picture will be when heavy shipments from Washington and Oregon are possible is hard to estimate right now.

Last week Tree Fruits had about 400 cars on order for U.S. markets, and could only roll about 80 cars.

If mainline and KVE lines are open today and tomorrow there will be heavy shipments of apples from the valley to the west coast ports to meet the fruit boats ordered for the United Kingdom export deal of more than a million boxes.

These boats are expected to load between February 11 and 13 and Tree Fruits is anxious to obtain sufficient cars and free lines so that these apples can get to the ocean-going boats in time.

Here in Summerland packing-houses received orders for about 50 cars this week. On Monday four cars rolled from the West Summerland Kettle Valley station, another couple of cars went on Tuesday and one more yesterday.

Last week 212 cars were shipped by bringing the total to Feb. 4 to 10,578 cars. In 1949 at the same date 11,285 cars were shipped and in 1948, 11,775 cars.

The Community Rink Plan

GEORGE STOLL is an energetic, enthusiastic citizen who has the idea that Summerland should have indoor ice facilities in line with other centres in the B.C. hinterland.

He is a man of conviction and as such he has spent a great deal of time and his own money in endeavoring to produce plans for such an edifice which would house hockey, curling and skating under one roof.

His plans call for an expenditure of \$30,000, as a contract price. Mr. Stoll thinks this could almost be cut in half if a big volume of the labor involved was accomplished by voluntary labor.

But what he has not elucidated is that plumbing, electric wiring, inside finishing and a score of other finishing details are not included in the \$30,000 contract price. That figure represents only the outside shell of a building.

That is only a minor detail in the grand scheme, of course, but will have to be considered by the newly formed rink association officers once they get down to cases.

We hate to appear at all pessimistic in the face of Mr. Stoll's abundant enthusiasm, but the fate of previous canvasses in the Summerland area would not indicate that such a proposal as Mr. Stoll suggests would produce the necessary revenue.

Mr. Stoll believes that between \$15,000 and \$20,000 would be all the cash necessary to raise. We are afraid such a plan would call for \$25,000 expenditure even with \$10,000 voluntary labor thrown in.

The Summerland Memorial Parks Committee campaigned for \$25,000 but only succeeded in raising \$17,000, for two Living Memorial parks. The Youth Centre needed a minimum of \$7,000 but had to be content for the time being with slightly more than \$5,000.

It would appear that community projects are not favored by a percentage of persons who have

the money to assist in the advancement of the district.

There is no gainsaying that there is plenty of money in Summerland to provide the community with its needs. But those who could spare such money are not in the habit of parting with it easily. That is probably why they have a comfortable savings account to draw on at all times.

To go out and raise \$25,000 on a debenture scheme will be a difficult task. Some persons will subscribe more than they can afford and will gamble with the ice enthusiasts that they will be paid back eventually. Others will not subscribe anything like their portion to the community project, in comparison to their means.

Therefore, it would appear that the logical and fair method of building the rink would be by money bylaw.

If the community needs such a rink, and there are enough enthusiasts for it, then the bylaw will go through. By such a method the capital expenditure will be paid for by the property owners over twenty years. The operators of the rink would not have to worry about paying back capital expenditure. Their only worry would be to make the rink profitable as far as ordinary maintenance and replacement costs.

However, there appears to be a decided opinion against floating such a money bylaw right now, in the face of the probable decrease in soft fruit tonnage due to severe winter weather.

Maybe those who say such a bylaw would never pass are right. But we still believe a money bylaw is the fairest approach to an ice arena for Summerland.

Whatever the outcome, we feel that Mr. Stoll will make a good try for this arena. If we had more citizens with an equal amount of enthusiasm and pride in the advancement of the community in which they live, we would be a better community all round.

Steady Progress Reported By Local Credit Union

"A year of steady progress," was reported by the Summerland and District Credit Union at its annual banquet and business meeting held in the IOOF hall on Friday evening and attended by nearly a hundred members.

Gordon Beggs, retiring president, handled the business session and called on heads of committees for their reports.

Treasurer Walter Bleasdale indicated in his annual report that income from interest on loans, entrance fees, profit and interest from investments and rentals brought in \$3,310.88 in the year, with a surplus balance of \$936.15.

The meeting approved a three percent dividend on share capital and five percent rebate on interest paid from this surplus.

At the year end, the Credit Union had 290 members, and made 188 loans totalling \$52,417.22. Repayments in the year amounted to \$48,417.71.

Since incorporation six years ago, the Credit Union has made 470 loans for a total value of \$198,135.05. Only one loan, amounting to \$194.37, has been written off in that time.

Total Shares Paid
Total paid on shares in 1949 amounted to \$34,005.66, bringing the grand total in six years to \$118,003.22. Amount withdrawn on shares in 1949 was \$19,848.28.

In his annual report, President Gordon Beggs noted that the South Okanagan chapter of credit unions was formed in March of last year, including five credit unions. This group will be host in Penticton to the provincial credit union convention in 1950.

He referred to resignation last May of the union manager, A. E. Smith which had been accepted with regret. Walter Bleasdale was persuaded to take over the treasurer's post and "we couldn't have made a better choice," he remarked.

Roy E. Smith reported for the supervisory committee, while F. R. "Tiny" Ganzefeld for the credit committee declared that loans requested during the year amounted to \$66,413.35, with \$7,500 in request loans being rejected.

Among the items for which loans were made were orchard expenses, building, insurance, cars and trucks, machinery, real es-

tate, livestock and household furnishings.

Another report came from Harvey Mitchell of the educational committee, which had issued six bulletins to members in the year.

Increase in loan activity amounted to 30 percent. Treasurer Bleasdale reported at a later date. Membership increased 22 percent, from 238 to 290, while profits were also up, from \$726.97 to \$936.15.

"As our organization grows so must our expenses but our profits should increase in proportion," Mr. Bleasdale pointed out. "We still need a great deal of voluntary help to operate our affairs."

Want More Members

The treasurer also detailed the CU&C health services and the new CU&C insurance coverage. He urged members to discuss credit union with their neighbors and strive for one hundred new members in 1950.

Messrs. J. R. Butler, John Caldwell and Mark Embree were re-elected directors of the credit union to serve along with Directors H. Lemke, H. Eden, Gordon Beggs and M. K. Monro.

Mrs. H. Lemke was elected to a three-year term and C. V. G. Morgan to a two-year term on the supervisory committee. Norman Holmes was re-elected for a three-year term on the credit committee.

After dinner speaker was Dr. James Marshall who gave his audience a short resume of the activities of the entomological lab. at Trout Creek.

A social evening followed the business session.

BUILDING DOUBLE JANUARY OF 1949

Despite the severity of the winter, two permits for building alterations were taken out in January, Roy F. Angus, building inspector, has revealed.

Total amount for last month was \$900, over double the sum in January, 1949, which was \$430.

One alteration to a commercial institution amounted to \$150, while residence alterations and additions showed one permit for \$750.

Even though Summerland's

It is the Law:

Every pedestrian proceeding along any highway where a sidewalk is provided shall proceed upon the sidewalk.

Every pedestrian proceeding along any highway where no sidewalk is provided shall proceed on the extreme left hand side of the roadway.

Every person driving or operating a motor vehicle on any highway shall drive and operate same in a careful and prudent manner, having regard to all the circumstances, including the rate of speed and the weight and size of the motor vehicle, the nature, condition and use of the highway, and the traffic which actually is, at the time or might reasonably be expected to be on the highway.

No person shall drive or operate a motor vehicle on any highway so as to endanger the life or limb of any person, or the safety of any property. In determining any offence under this section it shall be sufficient to charge an accused person with driving to the common danger.

Vernon Hears of 1950 Road Plans

C. W. Morrow, MLA for North Okanagan, after an interview with Hon. E. C. Carson, minister of public works, announced in Vernon last week that three of the four main arteries in Vernon area would be attended to this summer. The highway promises are:

The next section of reconstruction of the Vernon-Kamloops highway will be started at the Vernon end.

Reconstruction and paving of Kalamalka Lake road is on the public works program for 1950.

As soon as the city works crew has completed installation of new sewer lines on 32nd street, renovation of the arterial highway through the city will be commenced.

Reconstruction of the Vernon-Armstrong highway will not be contemplated this year.

Building is small, it is still well ahead of Penticton which issued three permits for only \$280 last month.

Signifying Nothing

By **RUSTICUS**

Shakespeare wrote vividly of the seven successive ages of man, from "the infant, mewling and puking in his nurse's arms" to the "sans everything" stage of second childhood. But what about the four ages which modern students of humanity claim are going on in each one of us at the same time?

One, the physical age, corresponds roughly to calendar years. We are all more or less grown up physically at eighteen, and getting feeble at seventy, though there is considerable variation between individuals.

But mental age is a very different matter. Many a middle-aged adult is no clearer in his thinking than the average child of twelve; don't they say that Hollywood pleases the majority of adults by aiming their pictures to suit a mental age of thirteen?

And being grown up mentally is a very different thing from being grown up physically. What is a mental adult? That is hard to say—especially for me! At a guess, though, I'd hazard that it is one who thinks logically instead of being swayed mainly by his feelings, who tries to see both sides of any disputed question instead of just one, who can perceive and will admit when he is wrong—which most of us are, pretty frequently.

If every country put at the head of its government, particularly at the head of its foreign affairs department, mental adults who tried

to understand other countries too instead of always fighting for their own this might be a lot better world.

I'm in favor of two mental ages, myself. One would be a measure of sheer intelligence, or thinking power, such as psychologists now use in determining IQs. The other would be a measure of one's "common-sense," which is one of the most uncommon things in the world. Many a mental genius has no sense at all about business, romantic, or financial affairs; and many a slow mind is mighty logical and shrewd in its deliberations.

Closely allied to mental health, yet distinctly separate, is emotional health. The adult who gives way easily to temper, despair, or worry is still a child emotionally; and if you curse and kick your old car when it very sensibly refuses to start in this cold weather, you're not a real adult yet, no matter how many candles on your birthday cake.

One good measure of your emotional grown-up-ness is whether you are able to look on life with consistent calmness, instead of seeing it through rose-colored glasses when you're feeling good, a red mist when you're angry, and blue goggles when you're feeling down.

Another good test is the kind of politician you vote for; and this goes for mental age too. If

you can be swayed by an orator who plays on your feelings without actually offering much repast of reason; or if you vote for a certain party because your family always was Liberal (or Conservative or CCF or Communist, as the case may be) then you're still close to the mental and emotional diaper age.

There is such a thing as social age too. Shyness and nervousness in a crowd—betrayed as much by noisiness or talkativeness as by silence—feelings or awkwardness or unease, argumentativeness and airs of superiority—all are signs of a person who is socially immature. Some say that drinking is a sign of it too, even cigarette smoking; the one dulls nervous feelings, the other gives an occupational outlet for jumpy nerves.

A true emotional adult will be at ease and comfortable even with strangers, enjoy drawing them out as much as talking himself; or keep companionable silence without feeling embarrassed.

Mind you, the person who is grown up in all four ways at once is a pretty rare bird. This writer doesn't pretend to be. But if we tried as hard to encourage sound growth of the mind, the emotions, and the social reactions as we do to develop the body, we could all be more completely grown up, and more assured of peace within and peace without.

rectors
Mr. D. H. McIntosh has resigned as principal of the high school.

The Summerland girls who were engaged to go to New Zealand to remain during the apple packing season will not be able to go as the boat on which they were to sail is tied up in a New Zealand port because of a strike.

Patrons are pleased that Mrs. R. Rau has taken up dressmaking and ladies' tailoring again.

Dr. Appleby received a nasty wound over his eye while cranking his car.

At the Rialto theatre Jack Pickford is playing in His Majesty Bunker Bean.

The Summerland Review has installed a linotype and is advertising it as one of the latest models. It was the same model linotype as is operating today in the present Review office.

TWENTY-FIVE YEARS AGO
February 5, 1925
Eight hundred and eighty-five

pounds of milk is the record made in her first month by the first to begin milking of the pure-bred Jersey heifers brought to Summerland through the calf club. This two-year-old is on the F. R. Gartrell farm at Trout Creek, and but for an attack of indigestion, which lasted for a week, Mr. Gartrell believes she would have gone close to 1,000 pounds.

On Monday morning many of the phones in the district were dead including those in West Summerland, Prairie Valley and Garnett Valley. On Wednesday night the trouble was located when a leak was found in the underground cable due to a hole in the lead covering which had admitted water which had penetrated to that depth during the heavy thaw.

Summerland Poultry Association is a model for the whole province. Officers are president, Mrs. Fowler; vice-president, C. E. Pineo; directors, J. Tait, Geo. Graham and C. J. Amm.

(Continued on page 6)

Investment In the Future

Investment in British Columbia is investment in the future. The extensive development planned for this Province, and so necessary if we are to make use of our natural advantages, can only be achieved by investment, not only by the large institutions, but also by the small investor. This is indeed investment in the future—the future of British Columbia.

Development on the scale envisioned can be attained only in proportion to the extent that we show our belief in our destiny. And with this in view the economic and social growth of your Province is being encouraged by the efforts of your Government. The provincially-owned Pacific Great Eastern Railway is being pushed Northward; the already vast highway system is being extended and improved; new and greater electric power developments are being constructed throughout the Province; agricultural development, land settlement, industrial research are being pressed, and in many other ways the economic advance is being encouraged. Social changes, too, are being carried on through health and educational developments and in a variety of other ways too numerous to relate. While their part in the increased productivity of British Columbia is more difficult to evaluate, nevertheless without them economic development alone is of little value.

All this cannot be done without the expenditure of large capital sums, and it is in the provision of such moneys that the investor, large and small, can contribute not only to his own financial advantage, but to the future of British Columbia.

Through sound financial management all this has been done without too great a burden on the country. This burden of debt has on a per capita basis been sharply reduced over the past few years as is well illustrated by the following data:

Year	Net Debt	Population	Per Capita Net Debt	Per Capita Interest Charges
1938	\$136,818,000	710,000	\$192.80	\$11.01
1941	148,563,000	818,000	177.74	8.42
1945	182,160,000	960,000	187.67	6.27
1948	129,700,000	1,114,000	116.48	5.44

Local Youth Activities

GUIDE NEWS

The first meeting of the new year was held last Friday at the Youth Centre. There was a small attendance, but every guide is asked to turn out this Friday, complete in uniform with notebook and pencil as it promises to be a very important meeting.

It is certainly a treat to have a nice warm hall, the furnace working beautifully, and now a new addition — a piano for the Youth Centre — donated through the kindness of the Oddfellows.

We are all very pleased and excited about this as it will make such a difference.

Those 2nd class guides who are ready to pass their semaphore are reminded to bring their flags as they will be examined on Friday.

First class guides please have an idea of what badge tests you wish to work on. Those in the senior patrol are asked to turn out particularly, to help instruct the tenderfoots

Teen Town

Because we didn't have a council meeting last week we couldn't decide on elections. But next week for sure there will be either an election dance or an election club night.

Believe it or not we hardly made any money on the dance. By the time the expenses, such as the band and decorations were paid there wasn't much left. But at least we will have the decorations for all times.

So far nothing has been done about selling coffee at the hockey games, mainly because we hadn't been able to locate a small tent to make the coffee in. Now it looks like the good weather is with us for good so the idea will have to wait.

At present we haven't decided exactly how to run the elections.

JUNIORS CAPTURE SILVER SPOONS

At the Meadow Valley hill of the Summerland Ski Club last week-end, silver spoons were awarded to Robert Mountford in the age 8 to 12 class and Garry Blagborne in the 13 to 15 age class. These junior races are being held each Sunday. Mr. W. Milne has offered to donate second prizes of a pair of goggles for each age group.

One suggestion was to have the six people who got the most votes out of twelve running, in for two years.

The other six would be just in for a year. This would be so there would always be experienced people on the council. However, this system has two faults, one being it doesn't give enough people to be on the council and the other is, no matter how much you are interested in Teen Town, after you have been on the council for two years it is bound to become a chore.

So, if you have any good ideas concerning the running of it, let David Wright know, he'd be glad to hear them

High School COMMENTS

Last week-end eight of the SES skiers tried their luck at the Okanagan zone championships. Summerland made an excellent showing with four firsts from the high school.

Complete results may be found on the sports page.

Francis Gould, Ron Ritchie, Ron MacRae, and Daryl Weitzel are planning to journey to Rossland soon for the Rossland high school international ski meet. The top skiers from Canada and the United States are expected to be in attendance.

The grade ten girls are going to be busy this Friday preparing numerous hot dogs for hungry students. Each hot dog is 10c and the profits are to be used to buy uniforms for the 'girls' basketball team.

On February 26, it is expected that we will hold the interschool ski tournament at our local hill. Other valley schools are to attend.

Last week the re-election for the students' council took place to try to break the three-way tie between Dorothy Blacklock, Margaret Long, and Louise Washington. Dorothy Blacklock was elected.

On Monday the council had its first meeting with the new president, Jim Towgood. There were discussions for a Valentine box social, but nothing definite has been decided.

On Friday night Oliver high is to challenge Summerland high for some basketball games, both boys and girls. These games are worth attending, so try to see them. The games will be held at the gym.

Weak, Tired, Nervous, Peppless Men, Women

Get New Vim, Vigor, Vitality
Say goodbye to that weak, always tired feeling, depression and nervousness due to weak, thin blood. Get up feeling fresh, be peppy all day, have plenty of vitality left over by evening. Take cereal, containing iron, vitamin B1, calcium, phosphorus for blood building, body strengthening, stimulation, invigoration, energy, improves appetite, directly powers, costs little. New Vim, Vigor, Vitality, only 60c. Try Cereals from this day on. At all drug stores.

WEST SUMMERLAND, B.C.

B.C. and Washington Fruit Growers Have Much in Common

Dr. R. C. Palmer Tells BCFGA

In his usual, bantering style, mixing humor with reasoning, Dr. R. C. Palmer proved one of the most interesting speakers to come before the 61st BCFGA convention last month.

He was in attendance at the Washington State Fruit Growers' Assn. convention in Wenatchee last December and gave the BCFGA delegates and visitors an insight into the operations of the neighbor state directly south of the border.

Dr. Palmer saw the Washington fruit growers as an industrious and intelligent people who are courageous, resourceful and well supplied with initiative.

"They welcome Canadian visitors with warmth, friendliness and generous hospitality. They are glad to share their wealth of knowledge regarding methods of producing the highest possible quality fruit at the lowest possible cost.

"In contrast, I see these same people as keen competitors anxious to have tariff barriers reduced so as to permit sale of their peaches and apricots in volume on Canadian markets.

"I see them: less enthusiastic about arrangements which permit the sale of BC apples on US markets.

Suggests Work Together
 "They have problems similar to our own and it is to the mutual advantage of everyone concerned that we work together in the solution of these problems.

"I realize also that when it comes to marketing our cousins to the south are astute business men trained in the hard school of free enterprise wherein success goes to the quick thinker and the 'devil take the hindmost'."

Dr. Palmer had observed a \$250,000 house built by a fruit grower on the banks of the Columbia river at Wenatchee, from the profits of an apricot orchard.

He had also seen many acres of orchard near Omak where the apple trees stand dead, the result of the low temperatures experienced in

1948-49.

"With these pictures in mind I realize that fruit growing offers promise of spectacular success and also promise of tragic failure. I realize that the history of the fruit industry is one of ups and downs.

"For the past ten years fruit growers in BC have enjoyed the benefits of the 'up' period. I realize prices during the next 10-year period are unlikely to average so high no matter how efficient may be the operation of your sales agency."

Dr. Palmer noted that in Washington good prices were received for Anjou pears and Bartlett pears were disastrous. The main reason for the Bartlett pear drop was that this variety is used largely in canned fruit salads along with Hawaiian pineapple. When dock strikes prevented shipments of pineapples, then the canners did not want so many Bartletts.

Hurricanes in the banana belts reduced the supply of that fruit and housewives turned to other fruits, and paid comparatively high prices for Anjous.

Supply and Demand Law
 More than 1000 Washington fruit growers heard a panel of five marketing experts explain that the price of fruit is determined very largely by the law of supply and demand. They gave that simple reason for the below cost of production price levels on Delicious apples.

Another panel of expert horticulturists recommended the use of hardy framework stocks to make it possible to grow comparatively tender varieties of apples such as Delicious in areas where winter conditions are too extreme to permit the culture of these varieties on their own trunks and frameworks.

Dr. Palmer heard Harold Cople, manager of the Washington State apple commission explain that in order to sell the apple crop at a profit a comprehensive advertising campaign on a national scale is essential.

On the other hand, Elon Gilbert, a successful large-scale grower state that it is a waste of money to advertise if one cannot back up the advertising with a high quality product delivered to the consumer in good condition.

"With these two pictures in mind I realize that one of the foremost problems confronting BC growers is the high proportion of cee grade in our crop," declared Dr. Palmer. "I realize also that the best possible advertising which we can give our fruit is to deliver to the consumer a high-quality product in first-class condition."

Other remarks heard by Dr. Palmer included one on fire blight by an old-time pear grower, who declared that prunings must be collected from the orchard and burned before growth starts in the spring.

Two by-products being developed by Washington growers, Apricot Velva and Aqua Velva, indicate that Washington growers, like those in B.C., are beginning to appreciate the importance of developing processed products as a profitable outlet for fruit which cannot be sold to advantage in the fresh state, Dr. Palmer noted.

Two Big Fires in Vernon Business Area in Two Days

VERNON — Two disastrous fires in as many days wrecked two buildings in Vernon's business district last week. On Jan. 31, Vernon's oldest hotel, the Vernon Hotel, was completely demolished, Manager William Petruk having to rescue his wife and two children v'a a ladder from the second storey balcony.

Fire was discovered at 8:40 a.m. and by mid-afternoon the entire building was consumed. To conserve water, the firemen ceased operations after it was seen the building could not be saved and contented themselves with making certain that adjoining buildings were not endangered.

On Wednesday evening, at 7:30 o'clock, a blaze broke out in the second storey of the Valley Electric building. Major damage was to the roof and upper storey.

Support Bridge Plan for Lake

Summerland Junior Chamber of Commerce went on record Tuesday night as acclaiming the investigation promised by Hon. E. C. Carson, minister of public works, into the possibility of building a bridge across Okanagan lake.

This future relief for Okanagan traffic was interpreted by the young businessmen as the ultimate answer to the present bottleneck.

A wire was despatched to Premier Byron Johnson acclaiming the suggestion and urging that every consideration be given this bridge project.

Father and Son Scout Banquet

At Summerland Youth Centre tonight the annual father and son banquet of the 1st Summerland Troop of Boy Scouts has been arranged. A large group is expected to take part in this annual function, which coincides with Boy Scout Week throughout Canada.

Dr. Palmer heard other speakers and other subjects discussed, including the problem of mice, plant hormones, new and old varieties. He also heard growers say that they will never give up their individual freedom in favor of a centralized marketing system and others, younger than the veterans, declaring that present market trends will force growers into a centralized scheme or bankruptcy.

No Centralized System
 "I see that Washington State fruit growers association as an organization designed to promote the welfare of the fruit industry . . . as a means of acquainting growers with the most up-to-date methods of producing heavy yields of high-quality fruit at a comparatively low cost.

"I also see that this Washington growers' organizations is taking no steps to bring about the establishment of a comprehensive marketing system designed to sell the entire Washington fruit crop to the best possible advantage.

"In contrast I see the BCFGA as an organization designed to promote the welfare of the fruit industry. I see this organization taking active steps to acquaint the growers with the most up-to-date methods of raising heavy yields of high quality fruit at comparatively low cost.

"I see this organization taking another very important step — that of devising comprehensive marketing machinery to ensure that the entire fruit crop produced in the irrigated areas of B.C. is sold to the best possible advantage.

"With these contrasting pictures in mind I realize that fruit growers in Washington and B.C. are confronted with very similar problems . . . BC growers can learn a great deal about economical and efficient production methods from their cousins south of the border.

"I realize also that Washington growers may, if they wish, profit by studying the marketing machinery which has been set up by growers in B.C.

"The fruit industry of B.C. is confronted with very serious problems which require for their solution courage, initiative and perseverance. Your BCFGA is the finest organization which has yet been devised for solving fruit growers' problems. I wish you success in 1950," he concluded.

South Okanagan Zone Sportsmen Favor Split Season for Migrators

Despite the admonition of local sportsmen that it is useless to try for a split duck season, South Okanagan sportsmen have gone on record once more as favoring this type of hunting for migratory game birds.

Such was the decision of the South Okanagan zone meeting held in Penticton recently to pass on resolutions which will be submitted to the Interior Fish, Game and Forest Protective Assn convention in Penticton March 19 and 20.

First half of the duck-geese season would be October 1 to 31, with the second half to end December 31. Bag limit desired is 8 per day, 100 season.

Summerland's suggestion regarding pheasant season being October 14 to 31, to include three week-ends met with approval of the meeting. Closing time suggested is 4 p.m., instead of 3:30, bag limit two per day and 10 for the season.

Quail season would be the same as pheasants, with daily limit of six and 24 for the season.

Game Commissioner J. G. Cunningham declared his belief that grouse are at the height of their cycle increase. Consequently, southern sportsmen voted for a season September 15 to October 15, with a bag limit of eight daily and 24 season, covering all three species, Blue, Willow and Franklin.

Want One-Buck Limit

Deer season recommended was September 15 to November 30, as last year, with a continuation of one-buck limit. Summerland had suggested ending the season at

Talks In Ottawa Likely Next Week

A. K. Loyd, president and general manager, and J. B. Lander, sales manager of BC Tree Fruits Ltd., are expected to go to Ottawa next week to interview Rt. Hon. J. G. Gardiner, federal minister of agriculture. It is anticipated that they will talk on the subject of the Okanagan gift of more than a million boxes of apples to the United Kingdom and the prospect that Ottawa will allow a subsidy to BC apple growers in lieu of this gift, provided it is shown at the season's end that this portion of the crop could not be sold.

In Canada a white woman who marries an Indian becomes an Indian legally and an Indian woman who marries a white becomes a white.

Wenatchee Chiefs Officials Here Today

Three members of Wenatchee Chiefs' professional baseball club entry in the WIL ball league were due to arrive at noon today to discuss spring training possibilities here with the Summerland Board of Trade committee which has been working on this project for some weeks.

The Wenatchee visitors are also scouting the possibility of training at Kelowna and Oliver and will decide between the three centres.

J. R. Armstrong, Cecil Wade and Allen Holmes are the board of trade committee members who will discuss terms with the Wenatchee officials.

TINY BABY PASSES AWAY FROM PNEUMONIA

Shirley, the eight-months-old baby daughter of Mr. and Mrs. Walter Halls died in Summerland General Hospital on Friday afternoon, Feb. 3, of pneumonia. She is survived by her parents and one brother and one sister.

Funeral services were conducted on Monday afternoon at two o'clock at Summerland Baptist church by the pastor, Rev. D. O. Knipfel. Interment was in Peach Orchard cemetery.

Socially Speaking

SOCIAL EDITOR Mrs. A. W. Vanderburgh

World Traveller To Address Youth Rally Next Week

Many people will look forward to hearing Mr. Herb Tyler, regional vice-president of the Pacific Northwest Youth For Christ, when he speaks to the youth rally at Ellison Hall on Tuesday evening, Feb. 14, at 8 p.m.

Trained in the Bible Institute of Los Angeles he has travelled over 100,000 miles per year carrying on the work of the Youth For Christ movement, and he has spoken to hundreds of rallies.

Mr. Tyler has just returned from several weeks in Alaska, his second trip to the territory in the interests of Youth For Christ.

During the summer of 1948 he attended the World Congress of Evangelism held in Beatenberg, Switzerland, following which he travelled in 12 countries on the European continent including the three western zones of Germany.

ATTEND LEGION ZONE COUNCIL MEETING

Mr. Alan Calvert, zone commander Canadian Legion South Okanagan - Similkameen, accompanied by President Ross McLachlan, Mr. H. C. Howis and Dr. C. G. Woodbridge from the Summerland branch, attended the postponed zone council meeting at Oliver on Sunday afternoon.

SISTER DIES IN ONTARIO

Capt. and Mrs. J. E. Jenkinson have been receiving the sympathy of their many friends in the death of Mrs. Jenkinson's sister, Mrs. A. R. Murray, who died recently in Woodstock, Ontario.

VISITING HERE

Mr. R. H. Miller of Vernon is visiting his parents, Mr. and Mrs. F. A. Miller. Mr. Miller is convalescing from a broken shoulder which has kept him an invalid for some weeks.

New Addition to Baptist Church Dedicated at Service

The new \$5000 addition to Summerland Baptist church was dedicated on Sunday evening at a service held in the new Sunday school room.

A large wing, 24 ft. by 38 ft., has been added to the east side of the church. This is divided into a Sunday school room, a church parlor where meetings may be held, and a modern kitchen. One of the smaller rooms in existence prior to the alterations is now the church office and pastor's study.

In the basement there is a new automatic furnace and recreation room for the young people of the congregation and their friends.

This is the third addition which has been made at the Baptist church since the original building was erected in 1908, although minor changes have been made for convenience and comfort.

Rev. D. O. Knipfel, pastor of the church, speaking of dedication said that such a ceremony was as old as religion and as old as any type of building. Even a rude pile of stones when built as an altar were in olden times dedicated to the worship and the honor of God, he stated.

Dedicatory prayers were offered by Mr. J. McDougald and Mr. W. M. Wright, two of the deacons.

In his sermon on rebuilding the Lord's house, Mr. Knipfel related the value of the church to a community—a centre of cultural and spiritual living, raising the moral level and setting a pattern for a way of life.

Congregation Response

He continued to say that the enlarged community brought greater needs and the congregation had responded by making it possible to erect the new addition. It was his hope, he said, that its work would be carried on with dignity, prestige, and honor, teaching the way to those things that have permanence and endurance, which is only possible if built around God's house.

The choir sang the anthem, "Open The Gates Of The Temple," with Mrs. W. C. Wilkin taking the solo part, and Mrs. E. Bergstrom sang the solo, "Bless This House."

Following the service a program of music was heard; inspection of

the building was invited; and refreshments were served. Some members of the Peachland Baptist church were present for the ceremony.

NEW ARRIVALS

A baby daughter, Dawnys Ingrid, was born at the Penticton hospital on Saturday, Feb. 4, to Mr. and Mrs. Ray Norgren of Summerland.

Prizes For CWL Card Party Winners

On Thursday evening, Feb. 2, the Catholic Women's League held an enjoyable card party. The parish hall was warm and comfortable, and the evening passed pleasantly with Mrs. Emil Bonthoux winning the first prize for ladies, and Mr. Frank Drawbe holding top honors on the men's side.

Consolation prizes went to Mrs. Frank Arnusch and Mr. Emil Bonthoux.

A delicious angel cake made by Mrs. Wurst was raffled and won by Mr. John Turnbull. Refreshments were served at the end of the jolly affair.

Dr. D. V. Fisher, Scoutmaster, Tells Kiwanians Pertinent Facts About Boy Scout Week

Boy Scout Week throughout Canada commenced on Monday, February 6, and will continue until February 22. There are now 110,000 Boy Scouts in Canada training for community service and the financial drive now in progress is aimed at providing revenues to keep alive the well-knit national, provincial and district group associations, as well as the local association.

With this in mind the Kiwanis Club of Summerland listened with keen interest to the address by Dr. D. V. Fisher, local scoutmaster, at the Monday evening banquet meeting in the Nu-Way Annex.

Dr. Fisher outlined the start of the Scout movement by the late Lord Baden-Powell, who was himself a keen observer of nature and had a keen appreciation of the outdoors.

It was in England that the Scout movement started when the Chief Scout returned from South Africa shortly after the turn of the century. His ideas for the furtherance of boys' work captured the imagination of the great mass of British boys, Dr. Fisher explained.

In London today there stands a monument erected by Americans to "The Unknown Scout" who was unwittingly responsible for the start of the Boy Scouts of America movement.

An American businessman was lost in a London fog. He was guided to his destination by a Boy Scout who so impressed the visitor with his keenness to do a Good Turn that the American asked for further information.

Back to the U.S. went the visitor to start in America the Boy Scout movement.

Scouting Way of Life

Scouting means far more than a boys' club, Dr. Fisher explained, as it is a way of life, an attitude towards living. The Scout promises to do his best to be loyal to King and country, to help other people at all times and to obey the Scout law.

Foremost of these laws is that a Scout's word is to be trusted, the speaker considered.

Aim of Scouting is to make boys self-reliant and to teach them teamwork, but by direct teaching to inculcate such ideas through games and contests.

Among the subjects taught Scouts are knots, first aid, fire-making and bedmaking, signalling, lashing, felling trees, use of topographical maps, swimming and how to make themselves comfortable in adverse weather.

Well Organized

Scouting is well organized in Canada. Dr. Fisher noted, with forty to fifty district groups in the provincial organization, which comes under the direction of the national body headed by Major-General D. C. Spry.

All financial support is voluntary, apart from a small federal grant. There are 15,000 Scouts in B.C. and the movement is gaining impetus all the time, he said. Summerland has one of the best troops in the Okanagan, he added. Dr. Fisher concluded with the thought that Scouts here are glad to have such fine accommodation as has been supplied at the Youth Centre.

J. Y. Towgood, Kiwanis president, not only thanked the speak-

VISITING ABROAD

Mrs. Ethel Underwood leaves by plane tomorrow for a visit to Toledo, Ohio.

Mr. Lacey Fisher, accompanied by his son, Robin, left this morning by car for New Westminster, where he was called due to the sudden death of his niece.

Mr. David Collins was a visitor to Vancouver last week-end, returning home on Monday.

Mr. Wally Day and Mr. Keith McLean were visitors to Vancouver over the week-end.

Mr. R. A. Johnston and Mr. W. C. McGregor of Penticton left for the coast on Wednesday en route with the cabinet in Victoria on Thursday morning in the interests of standard railway organizations.

Mr. Wm. Ritchie flew to the coast last week to attend the funeral of his brother, Rev. T. Ritchie. Mr. Ritchie was accompanied by Rev. T. Ritchie's son, Mr. Cecil Ritchie, principal of South Okanagan high school, Oliver.

BREAKS ANKLE ON ICE

While skating on the lake last Sunday afternoon, Mrs. A. J. Dunsdon had the misfortune to fall and break her ankle, necessitating a cast and curtailing of her usual activities.

Sunday Evening Club Made Presentations

Several interesting items were on the agenda of the Sunday Evening Club which met at the home of Mr. and Mrs. A. Lamacraft on Feb. 5 when Miss Gwen Lamacraft and Miss Peggy Pringle were joint hostesses to the 23 members and visitors.

The devotional period was taken by Mr. and Mrs. Albert Dickinson, and after this two newly-married couples who are members of the club, Mr. and Mrs. Don Chapman and Mr. and Mrs. Dickinson, were each presented with a cup and saucer.

Mr. Alex Watt showed slides of Summerland gardens, and local views including some taken at Naramata.

Refreshments were served by the hostesses and the meeting closed with Taps.

HOME AGAIN

Mrs. Roger Tingley has returned from Vancouver and is convalescing at her home in Garnet Valley.

OLD-TIME DANCING ENJOYED IN IOOF HALL

The Oddfellows held a dance on Saturday evening in their hall at West Summerland which was considered a great success.

Old-time dancing was the feature of the evening, and everyone enjoyed it so much that it is planned to hold several more of the same sort during the early spring.

MORE ABOUT

PIONEER DAYS

Continued from Page 2
For several weeks seven trumpeter swans have been wintering along the shore by C. P. Evans'. A few days ago the number was reduced to five, and the game authorities are sending one of the dead birds to Victoria for examination to determine the cause of death, is possible.

Miss Mae Gibson and Mr. R. H. Barkwill were married quietly at the manse, Penticton, by Rev. J. F. Millar.

Three of the Tuxis boys, Shelley Knowles, Ronald White and Edward Smith acted as judges for the Scouts' debate. The negative side upheld by Scouts Jack Purves, Jim Purves and Cyril Mossop was victorious. The affirmative was upheld by Albert Doherty, John Caldwell and Gordon Nixon.

ANOTHER JERSEY JOINS HIGH CLASS

The Canadian Jersey Cattle club has announced that another cow, bred and owned by the Dominion Experimental Station at Summerland has qualified in the 4,000 pound class.

This animal is Summerland Favorite Twinkle, 97520, that in nine lactation periods has produced 71,553 pounds of milk and 4,206 pounds of butterfat.

She is a daughter of the famous sire, Brampton Standard Leader, 61582, with a long list of tested daughters and her dam is Summerland Standard's Flo, 84594, that in 11 lactation periods has produced 105,426 pounds of milk and 5,852 pounds of butterfat.

Airmen Ditch Plane and Call At Crescent Beach

Part of the interest in living at Crescent Beach is caused by the unexpected things that happen there.

Last Sunday evening in the snowstorm about 6:30 o'clock, Mr. Alphonse Menu was summoned to his front door by loud knocking, and there stood two air pilots.

They had been up to Williams Lake in a Tiger Moth and when attempting to return to Penticton completely lost their bearings.

Attracted to the lights at Paradise Ranch they flew low over the frozen lake trying to make a landing but there were too many cracks in the ice.

Flying about a bit they saw the bright light on the front porch of the Menu home, so circling again they landed on the ice just below the ranch of Mr. J. McDougald.

The fliers walked down the frozen surface to "the light that didn't fail," were taken in, given supper and finally picked up by friends from Penticton to whom they telephoned.

Monday morning they were back about 8:30 and had no difficulty in taking off and getting back to Penticton.

The Moth was piloted by Fred Snell, accompanied by a student pilot.

The numerous bearded fig trees on Barbadoes gave the island its name.

Puck Squad Entered in Cop Cup B.C. Playoffs

With the acquisition as a permanent member of the team of David Moog of Penticton as goalkeeper, the senior hockey club is expected to be a serious threat in the Coy Cup playdowns.

Three other Penticton players will join Summerland for these

playoffs, being Defencemen Bill Dolynuk and Forwards Gordie Abrams and P. Gryson.

Alex Klasoff is expected to be out in uniform again after an illness which has kept him off the silver blades for the past month.

Garnett Patton, who played for Summerland at the beginning of the season, will also be available for play from now on, while Coach Dick Steininger, who was transferred from Summerland to Merritt in the CPR service may also be available for some games.

Complete registration follows: Goal, Dave Moog; defence, Colin Mann, Allan McCargar, Les Howard, Tommy Keyes, Bill Dolynuk; forwards, Tommy Croft, George Taylor, George Friesen; Smily McLean, Fred Kato, Dick Steininger; Gerry Hallquist, Alex Klasoff; Paul Roberge; Gordie Abrams, Paul Gryson, Garnett Patton.

Minus' Defencemen Locals Lose 7-2 to Penticton Pucksters

Playing without defence stars Colin Mann and Al McCargar last Friday night, the Summerland senior hockey team went down to defeat 7-2 at the hands of the fast-skating Penticton sextette.

Going into the third period Penticton led 4-2 but speedy Joannston broke away from the pack on two separate occasions to give the visitors a 6-2 lead and cinch the contest.

Summerland was outplayed throughout and could not cope with the Penticton offensive without their two chief defencemen.

Senior League Basketball is Still in Doubt

Senior league basketball in the interior was thrown into a tangle last week when Vernon's Nick's Aces turned the tables on the Kelowna Bears and administered two sound defeats to the Orchard City quintette.

One game was left to play this week, that being the Summerland-Vernon game last night, which was scheduled for Penticton last night as the local gym was not available.

As this page goes to press, Kamloops is out in front with only one loss in the season. Penticton is next with three losses while Kelowna is in third spot with four wins.

Vernon now has three wins and Summerland two, while last night's game would decide if Summerland could stay in the running for the playoffs or would be knocked out.

A Vernon win over Summerland would mean that Kelowna and Vernon would have to meet again to decide third and fourth place spots in the senior league play-downs.

A Summerland win would necessitate a playoff with Vernon for the fourth spot in the playoffs. So it was a matter of do or die for both teams last night.

Details of the Summerland-Vernon game will be found on Page 1 of this issue.

Mary Ward in Double Win as Local Juniors Sweep Runs

Mary Ward led Summerland junior skiers to a brilliant two-way victory in the Okanagan ski zone championships at Penticton on Feb. 4 and 5, as she captured both the slalom and downhill runs.

Daryl Weitzel led his field in the junior boys' downhill while another Summerlander, Ron MacRae, captured the junior boys slalom.

Thus, Summerland skiers made a clean sweep of the junior downhill and slalom events.

In capturing the downhill, Mary Ward was a full eight seconds faster than Florence Endreny of Oliver, while in the slalom her time was 21 seconds better than Alice dePfyffer of Kelowna, with Ruth Klux in third place only one-fifth second slower than Alice.

Daryl Weitzel was only 1/5 seconds faster than his teammate Ron MacRae, in the downhill, while Francis Gould, also of Summerland, was right behind in third place.

Francis Gould placed second to MacRae in the slalom, being nearly six seconds behind.

Summerland skiers did not enter the jumping or cross country events.

Second in Class B

Only senior entry was Walter Powell who competed in the B class slalom and placed second to John McAllister of Kelowna. Ed Cormier, Penticton, was third. Winning time was 58 3/5 seconds, while Powell was clocked in 67 2/5 seconds.

In other senior events, Ed Cormier placed first in the senior cross country. Charlotte Corbitt of Penticton won both the ladies' downhill and slalom races. Reg Pratt of Penticton won the B class downhill and Fred Hack of Oliver the C class downhill. C class was captured by Pips Clark of Penticton.

Junior boys' cross country and jumping events went to Gerry Kenyon of Penticton.

B class jumping was awarded to John McAllister of Kelowna.

Combined downhill and slalom trophies went as follows: Men, John McAllister, Kelowna; ladies, Charlotte Corbitt, Penticton; junior ladies, Mary Ward, Summerland.

Complete results of the junior downhill and slalom races were:

Downhill: Junior ladies: 1, Mary Ward, 1:07 3/5; 2, Florence Endreny, Oliver, 1:15 3/5; 3, Alice dePfyffer, Kelowna, 1:16; 4, Betty Ann

Johnson, Oliver, 1:23; 5, Ruth Klux, Summerland, 1:23; 6, Brenda Hall, Oliver, 1:31 3/5; 7, Shirley Wilson, Summerland, 1:53 2/5.

Junior men: 1, Daryl Weitzel, 1:24; 2, Ron MacRae, 1:25 1/5; 3, Francis Gould, 1:26; 4, Ralph dePfyffer, Kelowna, 2:25 2/5; 5, Bud Williams, Kelowna, 2:38 4/5; 6, John Huva, Summerland, 2:40 2/5; 7, Daryl Wilkins, Penticton, and Ordie Jones, Oliver, 2:42; 8, Ron Ritchie, Summerland, 2:55 1/5; 9, Robert Richards, Summerland, 3:48; 11, Sholto Heberton, Penticton, 4:53.

Slalom: Junior ladies: 1, Mary Ward, 1:20; 2, Alice dePfyffer, Kelowna, 1:41 1/5; 3, Ruth Klux, Summerland, 1:41 2/5; 4, Shirley Wilson, Summerland, 2:40 4/5.

Junior men: 1, Ron MacRae, 55 2/5; 2, Francis Gould, 1:01 1/5; 3, Ralph dePfyffer, Kelowna, 1:03 3/5; 4, Daryl Wilkins, Oliver, 1:08 1/5; 5, Norman Richards, Summerland, 1:17; 6, Bud Williams, Kelowna, 1:20 1/5; 7, Daryl Weitzel, Summerland, 1:21 2/5; 8, John Bertram, Oliver, 1:34 1/5; 9, Ron Ritchie, Summerland, 1:40 3/5; 10, Gordie Jones, Oliver, 1:42 3/5; 11, John Huva, Summerland, 2:00.

PENTICTON CURLERS PLAN

Plans for a four-sheet curling club in Penticton are well underway, the estimated cost of the building being \$28,000.

Hat Trick for Taylor as Puck Team Wins 5-2

Kelowna's top commercial league team, the Stampeders, assisted by four Kelowna Firemen, proved no match for Summerland's senior hockey club before the largest crowd of the season Sunday afternoon and went down to a 5-2 defeat.

Brilliant play by Colin Mann on the defence proved the turning point of the game, while on the offensive George Taylor turned the hat trick by pouring in three goals to lead the Summerland players.

Al McCargar was a standout on the defence, but it was Mann's general all-round play which stood out above all others as Summerland wiped the ice with the visitors. It was a clean game, although inclined to become a little robust towards the finish as the players tired.

Taylor marked up No. 1 on a pass from Croft, while Mann, on a layup by Roberge rifled in a long one to make the count 2-0 going into the second stanza, Kelowna ganged up on goalie Dave Moog early in the second period to score a goal which the local lads stoutly argued should be disallowed because of a visitor in the crease.

The umps didn't see it that way so play went on, with Taylor getting his second goal unassisted and scoring again on another set-up from Croft to give Summerland a 4-1 edge into the final period.

Bruce Falgo scored for Kelowna in the third canto with a hard shot but Friesen banged in the final tally after a scramble around the net.

great deal more.
At one stage, Assessor Sheeley suggested that on a straight land value if there was any change in that particular section then there should be revisions all over the business district from the bank down Granville street and along Hastings.

to \$30,000 by the assessor was brought back to the previous figure to coincide with the per box basis.
These were the main changes in the assessment figures. Only one other business man, W. D. Laidlaw, appealed assessments on Granville street business places and his Crescent Beach property but was unsuccessful. John Hecker appealed his small lot on Granville but as it was the same as others on the south side, \$20 per foot, it was not allowed.

Prices Still too High for Most Families in Europe Mrs. Stoll Finds

From snowdrops to snow and hoping to see conditions reversed soon was the experience of Mrs. George Stoll recently returned from a three months' trip to her former home in southern Germany.
The small village of Unterseggan by Lake Constance in the rich rolling farmlands of that region to visit at the home of her mother was Mrs. Stoll's destination when she started out in October.

who continually are escaping across the Russian border. Evidence enough too, in the sad city of Pforzheim, remembered by the traveller as a pleasant place with a population about 30,000. It is a rubble heap, flattened to the ground. Formerly the centre of a watch-making industry, nothing is left.
On All Saints' Day little lights flickered heart-breakingly throughout the ruins where they had been placed with flowers to commemorate the place where whole families lie buried under the broken heaps that were their homes.

Of great help in rehabilitation are the Quakers and the Red Cross Society, supplying food, clothing, and other help; tracing displaced persons; trying to unite families.
Karlsruhe, which is in the American occupied zone, has hardly any war scars and is being rebuilt rapidly. With a better type of government, and government personnel, industries are springing up and Marshall plan aid has been received in various parts, though taxes take great percentages of earnings.
Just Meagre Necessities
It was in Switzerland when Mrs. Stoll visited her sisters at Pralle that the highest prices were found in every sort of thing. The average person isn't able to buy more than meagre necessities, although plenty is there, were prices lower.
Early in January it was like spring at Unterseggan with the fields bubbling in little white wild flowers, and the rains which were prevalent all winter promising a good spring, welcomed as offsetting the last two dry summers. With a better living, already the unhappy war years are being left behind, as the year goes into warmth and growth once more.

To Mrs. Stoll Paris still keeps its lyrical quality. In the four days she spent there taking drives through the beautiful city she noticed no damage, and it seemed to be waiting for spring to liven its streets as green leaves unfold on the tall trees along the boulevards and the rivers dance in the fresh sunshine.
In Paris for \$20 Mrs. Stoll received 7500 francs, a whole handful of money in exchange for one bill! Room, bath and breakfast was about 1850 francs. A good dinner at a restaurant cost 600 francs with expected tips high.
On the "Mary" on her way home Mrs. Stoll met young people coming from these older lands eagerly looking to Canada and the United States for a new start.
As with many who return to their former homes after long absences she found that the pull was back to her present home. Nostalgia dissolved quickly in the every day living found in Unterseggan,—little change,—two cars in the village besides those of the postman and the daily bus,—and anyway, well, home is here now!

Summerland Entry Still In Doubt

"Scotty" Gordon, secretary of the International Baseball league, announced in Penticton last night that Oliver has been accepted as the second Canadian team in the southern section of the league.
However, since last Sunday's meeting in Omak, Oroville has announced its intention of dropping out of league play.
Other league clubs are being circularized to ascertain if Summerland can replace Oroville in the league schedule and an answer will be forthcoming by mid-month, Mr. Gordon states.
Those definitely in the southern portion are Penticton, Oliver, Tonasket, Omak, Brewster, Bridgeport and Grand Coulee.

PEOPLE FAVOR CHEQUES WHEN PAYING BILLS

Cash Method Wastes Time And Is Risky.
Canadians now complete more business transactions by cheque than by cash. The reason is that paying by cash usually involves making a tiresome round of stores and offices, whereas writing and mailing cheques does the same job quickly and easily.
Another advantage is that carrying a cheque-book is much safer than keeping large sums of cash in pocket or purse. Lost cash can bring trouble ranging from irritation to tragedy. But a lost cheque-book costs nothing to replace and does not endanger the owner's savings.
Should a filled-in cheque be mislaid, a prompt call to the bank will stop payment of it. Furthermore, a cashed cheque automatically becomes a receipt, thus giving the payer extra protection.
This modern way of paying bills is available to everyone at the Bank of Montreal. James Muirhead, branch manager at West Summerland, advises that the B of M's welcome mat is out for all who wish to open accounts for this purpose. advt

EVERYBODY'S BUSINESS

by Don Graham

Look for the facts!
In this simple phrase there lies magic power to help you build a more effective personality and win greater success.
A famous industrialist was once asked how he could make so many wise decisions quickly. "I get the facts", was his reply. "Once you gather all the important information related to any matter, the facts themselves decide the issue."
Needless to say, the man who can make sound decisions most frequently and rapidly wins against his competitors in any field.
Many a new invention, too, has been made because somebody discovered new facts, or gave familiar facts a new interpretation. You may notice some little detail that others have overlooked and be inspired to change it in some way that will create a money-making invention, or lead to a valuable time-or-money-saving idea on your job.
Facts may serve us in countless other ways. They provide power for selling or convincing others. Introduced into conversation, they make our comments more effective and interesting. Used as guideposts, they keep us from the dangers of wishful thinking and impractical philosophies.
Above all, facts add to our knowledge. And "knowledge is power!"
To build a sound life insurance plan for yourself and your family, you need the help of someone who can analyze all the facts related to your future needs. The modern life insurance company representative is trained to do this—and you can rely on his recommendations.

Main Increase in School Budget for 1950 Caused By Debt Service Charge

Although School District No. 77 (Summerland) has submitted a budget requiring the taxpayers to raise \$77,318 in 1950, which is an increase of \$16,460 over 1949, the debt services account alone has increased by \$15,000 due to the new building program.

Thus the actual operating expense of the school program for 1950 will only be increased about \$1,000, despite the four percent teachers' salary increase, the provision for more teachers from September on, and the increased cost of operating the new junior-senior high school building if it is ready this year.

Members of the Summerland council termed this the "Mystery Budget" when it was presented to them last week, Board Chairman C. J. Bleasdale told his fellow trustees at the February school board session Monday evening.

As stated last week, the department of education had already given its stamp of approval to the District 77 budget and on Tuesday the municipal council gave its blessing to the estimates.

Biggest single item is that for teachers' salaries at \$70,943, against \$60,383 in 1949. This allows for the four percent increase plus the addition of four more teachers from September to December.

Administration costs are figured at \$4,335 against \$3,009 last year. Health services, supplies, janitors' salaries and supplies, repairs and maintenance, and sundry operating expenses bring this year's figure to \$95,164, against last year's estimate of \$79,775 and the actual expenditure of \$80,040.75.

Added to this are the debt services account at \$19,237,505 against \$4,347.96 expended in 1949; conveyance of pupils, \$17,036 in 1950 against \$15,533.26 in 1949.

Taking in a debit balance of \$300 in capital account, expenditures this year will amount to \$131,737.50, while in 1949 the amount expended was \$99,921.97, an increase of \$31,815.53.

But the government basic grant has been raised to \$40,000, while the rebate for health services is \$442. And the school district estimates it will receive \$1,050.55 from its 1949 fruit crop off the Kelley property, which amount in all to \$41,492.

Add the government's share of conveying pupils, \$10,191.60, and the school district will be receiving \$51,683.60, which, if subtracted from the total expenditure of \$131,737.50, leaves \$80,053.90 to be raised from taxation.

But despite the closeness of last year's budget a surplus of \$2,735.78 was left over for 1950, so the net balance to be raised from the taxpayers of the school district is \$77,318.12.

Total assessment in the district shows values of \$3,046,848 for school purposes. Summerland municipality has a total of \$2,859,145 or 93.84 percent, so its share of the amount to be raised through taxation is \$72,558.

The rural assessment comes to \$187,703 or 6.16 percent, so its share will be \$4,762.

Hope to Occupy New Post Office In Near Future

Mr. Gordon Ritchie announced recently that the contract for interior fittings for the Summerland post office has now been let and that the building will probably be occupied this spring.

Mr. Ritchie completed his part of the contract to erect a new post office building nearly six months ago but the federal departments involved took no action towards fitting the office until after the first of the year.

Mr. Charles Clark, who has been acting postmaster in lower town since the death of the late Thomas F. Hickey, has received an official notification of his appointment as postmaster. It was announced recently.

Several other applicants have been notified that their bids were not successful.

Telephone Changeover On March 7

March 7 is the tentative date announced by the Okanagan Telephone Co. when the changeover to the automatic dial telephone system will commence, the monthly meeting of the Summerland Board of Trade was informed last Thursday.

The annual trade board banquet will be held on March 9 and it is the intention to combine ceremonies of the new telephone hook-up with the banquet program if found feasible.

Telephone operators in the service of the company at Summerland will be guests of honor, besides head telephone officials from Vernon.

The fire number for Summerland when the changeover is affected will be 2000, council was informed on Tuesday. Seven fire brigade members will have additional phones installed in their homes which will ring at the same time the siren is sounded.

Merchants Down Vernon 40-37 Enter Semi-finals

Summerland Merchants won the right to meet Pentiction in the semi-final round of the Senior B basketball playoffs when they defeated Vernon Aces last night 40-37. It was a sudden death game after the teams were tied at the end of the regular schedule.

Summerland and Pentiction now meet in a two game total point series. The first game will be played at Summerland Monday night with the second scheduled for Pentiction Wednesday.

Faced with elimination Vernon was a different proposition from the team that Summerland doubled the score on last week. The Merchants went well in the first half to lead 22-15. George Clark's shooting was deadly.

In the third quarter Vernon put on a drive that carried them into the lead at the three-quarter mark 29-27. Summerland came back strong in the final period to outscore the Aces 13-8.

It was Jackie Walsh's last quarter shooting that turned the tide. He came through with three brilliant baskets just when they were needed.

The line-ups were as follows: Vernon—McGregor 5, Graves 2, Sammartino 6, Koshman 14, Barnett 6, McCluskey 2, Monk 2. Summerland—Walsh 10, Clark 14, Vanderburgh 2, MacLoan 6, White, Dunham 2, Nesbitt, Guidi, Ruppel 6.

Rental for Union Library Building Use Brings Protest From Kelowna

Summerland school trustees have taken exception to facts supplied by the Okanagan Union Library and will insist that a rental be collected from the library for the use of the building on school grounds here.

It had been decided earlier that a \$15 per month rental be charged but the library secretary, Mrs. Ffoulkes, of Kelowna, protested to the school board.

She declared that the library system is not in a position to pay rentals in the "smaller centres" and declared that 48 out of 58 library units supply buildings free of charge.

Curial Book Service If a rental is charged in Summerland for library building use then the service in books supplied would have to be curtailed in relation to the extra charge, Mrs. Ffoulkes pointed out to the school board. Nowhere else in the library district does a school board charge the library a rental fee, she added.

But these facts did not sway the school trustees when they reviewed the 1948-49 financial state-

ment of the Okanagan Union Library. It was revealed that Pentiction pays in \$4,750 and receives \$3,216.25 in salaries, rentals and other expenditures.

Kelowna, where the library headquarters are located, pays the same amount, as Pentiction and has \$3,062 returned. Both these centres have a daily library service, trustees stated.

On the other hand, Summerland, the "smaller centre," pays in \$1,750 to the library and receives back \$280 in salary payment, with only a twice-week service. Trustees have decided to remain adamant on the subject and insist that the \$15 library rental be paid from January 1.

Another contentious point discussed by school trustees on Monday was related to the library assessment of the rural area.

Population Questioned In a letter to Trustee Mrs. Vanderburgh, Mrs. Ffoulkes explained that several years ago, on the suggestion of Summerland's J. C. Barkwill, it had been decided

The Summerland Review

Vol. 5, No. 7 West Summerland, B.C., Thursday, February 16, 1950

STILL PRESS FOR HELP TO ISSUE LICENCES

Although the government has been adamant on the subject of supplying a relief licence issuing officer to assist Police Constable I. G. Thorsteinson, even for three weeks to a month, the municipal council intends to continue pressing for this service.

W. A. C. Bennett wrote the council this week outlining the attempts he has made to persuade Victoria that such a service is badly needed in Summerland district. He had not been able to persuade the proper authorities.

However, council decided to keep on trying and authorized another wire to be despatched to Victoria yesterday to Mr. Bennett urging him to present Summerland's case again.

Constable Thorsteinson commenced issuing 1950 car licence plates at the police office yesterday.

NORMAN HOLMES ON RINK GROUP

Although the suggestion was made that it might be better if the council was not represented, Councillor Norman Holmes was agreed upon as the council representative on the Summerland Rink Association executive.

It was agreed, however, that Councillor Holmes could not commit the council on his own hook but that any council decision on the subject would have to be unanimous and come after a complete discussion.

Other organizations are selecting representatives to act on the rink association executive.

Idea of Bridge Over Lake to Combat Highway Bottleneck Is Given Impetus by Trade Board

Municipal council on Tuesday agreed heartily with the Summerland Board of Trade suggestion that a bridge should be built across Okanagan lake at Kelowna to relieve the highway bottleneck at this point and decided to forward a telegram to Premier Byron Johnson to this effect.

The telegram will commend the suggestion of Hon. E. C. Carson, minister of public works, that a lake bridge may be the solution to the problem and will add support to the efforts of those who would have estimates taken of the bridge cost.

Summerland Board of Trade will take this suggestion regarding bridge endorsement to the Associated Boards of Trade of the Southern Interior meeting in Keremeos tomorrow night and seek adoption by that body.

Already the local board has circulated Westbank board, Peachland council and Pentiction council and trade board endeavoring to solicit support for the bridge plan.

J. R. Armstrong sought local trade board support to his suggestion that other road links be not confused with the bridge issue. This action was authorized at last week's annual trade board meeting which also discussed briefly the need for action on the announced plan to do away with hospital bed facilities here in the next twenty years.

A board committee will go more fully into this subject and prepare a brief.

Annual reports submitted by committee chairmen indicated that a considerable volume of work had been accomplished in 1949 by the trade board.

Issued Pamphlets Tom Manning for the tourist and publicity committee reported

Jack Dunsdon Represents Local Red Cross Branch

Jack Dunsdon, chairman of the Red Cross national drive for funds in Summerland, left this week for Vancouver to attend the annual meeting of the B.C. division which commenced this morning and will conclude tomorrow.

Speakers billed for this convention include Col. A. L. Bishop, Toronto, chairman of the Red Cross central council and Dr. W. S. Stanbury, Toronto, national Red Cross commissioner.

The local Red Cross branch executive met at the home of the president, Mrs. A. K. Elliott, on Monday afternoon for the purpose of delegating Mr. Dunsdon as Summerland's official representative.

The annual meeting of the local branch will probably be called after Mr. Dunsdon's return.

Continues In Office

J. E. O'MAHONY

Street Lighting To be Extended

Cost of street lighting extensions to the Station Road, Peach Orchard and Trout Creek sections of the municipality is being compiled, Councillor F. E. Atkinson reported to council on Tuesday. It was intimated that a start would be made in the near future towards providing this street lighting, long requested by ratepayers in these districts.

It was also stated that there is still no solution to the cutouts in electric power which have occurred in the past few weeks. There are nine fuse cutouts established on the municipal system but electricians are still arguing over possible causes.

Road Program For 1950 Will Be Ready Soon

Councillor Eric Tait served notice on municipal council Tuesday that the road program for 1950 would soon be estimated.

Although no big program is anticipated, it was suggested that some hard surfacing would be undertaken this year and seal coats applied to existing main arteries.

Suggestion was also made that channels be cut in the snowbanks along the principal business streets to allow the melting snow to drain away and relieve the water congestion.

Reeve C. E. Bentley was authorized to limit loads on trucks on municipal roads as soon as Road Foreman Les Gould indicates that such precaution is necessary.

On two sidewalks where the municipal maintainer cannot cope with snow removal, a bulldozer will be hired, council agreed.

Council was unanimous in the opinion that a new truck must be purchased to replace the International, which will probably cost a considerable sum for proper maintenance if it is not traded in this year.

As the road department has one GMC truck now it was thought advisable to replace the International with another truck of the same make.

New tires must be purchased for the maintainer and of three proposals submitted by Foreman Gould the council agreed that in the long run the purchase of four new twelve-ply tires for the four rear wheels would be most economical. Cost before discounts would be about \$983.40, he quoted.

Nearly all the culverts had been cleared by Tuesday afternoon, Mr. Gould reported.

J. E. O'Mahony Continues As Trade Board Prexy, Urging More Industries

Officers of the Summerland Board of Trade were returned to office without opposition for another year's term when the annual meeting was held in the IOOF hall Thursday evening.

J. E. O'Mahony was the unanimous choice of the meeting to continue as president for 1950-51, while J. R. "Tim" Armstrong remains as vice-president, L. G. Perry as secretary and E. R. Butler as treasurer.

Three new faces will be seen on the directorate of eight, these being G. A. Laidlaw, Don Tait and Walter Toews. Directors returned to office are James Muirhead, George Perry, Fred Dunsdon, George Henry and Cecil Wade.

Need of more industries for Summerland was stressed by President O'Mahony in his annual report.

"The severe weather which we have experienced points very clearly to the great necessity for more industries in this district, perhaps not relying entirely on the by-products of the fruit industry," he declared. "I would suggest greater efforts in this direction during the months to come."

Attendance Fell Off Mr. O'Mahony noted a slight falling off in membership in the year "due, no doubt, to the many service clubs and organizations now functioning in Summerland, but it is unfortunate that more of the 149 members who paid their dues could not find time to attend the monthly meetings and take a greater part in the work that is waiting to be done and must be done if Summerland is to continue to prosper."

The president then reviewed the activities in the past year, paying special attention to the 1949 spring fair and the swim classes which "were again very popular and much benefit derived by the numerous children who took advantage of this opportunity to learn to swim."

"There were 12 standing committees appointed for 1949," he continued. "Some of them were very active and accomplished a great deal of work."

He mentioned especially the traffic and safety committee and the town planning committee. The civic affairs group was "very active" at election time, and in the Christmas lighting competition.

In the internal management, the attendance and entertainment committees worked hard to create interest in the trade board.

The tourist and publicity committee came in for many orchids for the Summerland entry in the Pentiction Peach Festival parade. In this regard the assistance of E. H. Bennett and Joan Bennett was especially noted.

Two other committees which had brought in useful suggestions were the agricultural and new industries committees.

Last May the board was visited by the Vancouver Board of Trade good-will touring party and a gavel was presented at that time.

Wanted Consolidation Mr. O'Mahony mentioned the abortive attempt by the trade board to "consolidate the district" under one name through the post offices. "But, like the efforts made in 1908, they have so far met with little success," he added.

Besides the meetings of the Associated Boards of Trade of the Southern Interior, the local board was represented at a meeting of the Westbank board when the ferry situation was discussed.

"This is a question which promises to be a very important issue during the coming year and should be watched carefully by this board and plans made for very definite action in the interest of the westside of the lake," he concluded.

Foreman Kercher Says Cost of Flume Extension to Front Bench Prohibitive

Water Foreman E. Kercher told the council flatly on Tuesday that unless the front bench water users wished to change over to sprinkler irrigation cost of extending a flume system in that area would be prohibitive.

He declared that fifty percent of the fruit growers in that area would have nothing to do with sprinkler irrigation.

"I thought they were dissatisfied but most of them want the system left as it is," he declared. These growers receive irrigation water from the domestic system and it has long been contended by some affected growers that the supply is inadequate.

Size of the flume needed, and the length, to supply irrigation water for furrow-type systems would be prohibitive, Mr. Kercher

Want to Know More About Dental Plan

Summerland council will take no action on the subject of paying for preventive dentistry service in this district until an opportunity is given to discuss this subject with other councils.

Such an opportunity will be given next Thursday when the Okanagan Municipal Assn. holds a quarterly meeting at the Sutherland Arms, Okanagan Landing, guests of the City of Vernon.

Reeve C. E. Bentley, who is the only executive officer left in the association following last December's elections, together with Councillors Francis Steuart, Eric Tait, and Norman Holmes and Clerk Gordon Smith will be in attendance.

The South Okanagan Health Unit has obtained the services of a dental director for the territory Oyamato to the border, with each district being asked to provide a per capita fee of 15 cents besides the regular health unit levy of 30 cents.

However, there is another fee of \$2 per child for "treatment" which has not been explained and the municipality has decided not to make any decision before hearing further details of the plan.

Summerland school board went on record earlier that it was not prepared to shoulder the extra 15 cents per capita burden as it did not believe one dental director could handle such a wide area efficiently.

W. Summerland KVR Terminus

West Summerland has been KVR terminus yesterday and today since a slide fifty to sixty feet wide and twenty odd feet deep has washed out the tracks about a mile west of Pentiction. The washout was caused by seepage and occurred on Tuesday evening.

Crews worked all night on Tuesday and were still working on Wednesday afternoon when the east-bound train arriving about 2 p.m. was held at West Summerland and passengers transferred to Pentiction by bus.

West-bound people were brought up from Pentiction and entrained here.

Approximately fifty including local passengers left on the train about 3.45 Wednesday afternoon. About thirty were taken to Pentiction. Today attempts are being made to drive piles to stabilize the road bed, and difficulty is being encountered in finding a footing for them.

Transfer of passengers will continue today and until the roadbed has been repaired.

Foreman Kercher Says Cost of Flume Extension to Front Bench Prohibitive

The flume from near the Youth Centre and the siphon across Happy Valley would have to be enlarged, it was stated.

Mr. Kercher stated that the front bench growers are in the best position in Summerland, but "they kick the most." They do not have to worry about overflow water, he explained.

Ex-Councillor Wilson will be asked to meet the full council in committee on Monday, Feb. 20, to hear a full explanation from Mr. Kercher on what is involved in irrigation flume extension to the front bench.

Following this portion of the evening, the council will go into further details concerning the proposed Jones Flat sprinkler irrigation scheme.

Hospital Future in Jeopardy

Summerland residents were shocked recently in this newspaper revealed for the first time details of the James A. Hamilton survey of the South Okanagan-Similkameen hospital requirements based on a long-range 20-year plan.

This survey, based entirely on statistics, states that Summerland does not need a general hospital, equipped with beds, to cater to the needs of 3,500 persons.

It also states that Summerland in the next 20 years will not need a general hospital despite the fact contained in its own report that population increases especially in the vicinity of Penticton and Oliver will probably be 54 percent over that period.

By 1971, according to the survey's own estimates, Summerland will have a population reaching the 5,500 mark, if this district keeps pace with the general growth in the South Okanagan.

There is no reason to believe that Summerland will not grow in relation to the strides forward of other similar communities in the Okanagan, especially if a progressive attitude towards attracting new industries is carried out by our civic officials.

In the same issue of The Review a BC Hospital Insurance Service advertisement carried the announcement that one in six BC residents paying into the insurance service scheme were hospitalized in 1949.

By 1971, on this basis, 900 persons resident in Summerland would be required to travel to Penticton to seek hospital care in a given year. That would mean that 75 persons each month would have to be cared for in the Penticton hospital.

By 1971, Penticton is supposed to be equipped with 180 hospital beds. On the same basis of population increase, Penticton would then have a population of some 15,500. If one in six required hospitalization, there would be 2,600 Penticton residents each year, or 210 per month in need of hospital beds.

Between Summerland and Penticton, therefore, 285 beds would be needed and this would not take into consideration the communities of Hed-

ley, Keremeos, Cawston, Kaleden, Okanagan Falls and Naramata which would have no hospital accommodation and would be in need of a percentage of available beds.

But, there are other factors besides straight bed population. The Hamilton survey experts did not visit Summerland at all before arriving at the conclusions published in their report. Local hospital authorities assure us that no representative of the hospital consultant firm ever saw the district at first hand.

Consequently, these efficiency experts merely studied available figures and arrived at their conclusion that, as Summerland is only ten to twelve miles from Penticton then hospital needs should be consolidated in the larger area.

This conclusion has a familiar ring. It reminds us of the conclusions reached in the Cameron report on consolidation of schools into larger districts. The one difference is that Dr. Cameron left a loophole, stating that Summerland was one area which would not necessarily need to be consolidated into the Penticton district.

On this occasion, the department of education did not heed this note of warning and summarily placed this area's schools into the larger district. In two years it was so forcibly shown that Summerland should be in a separate district that the department of education was forced to cancel its arrangement and follow the suggestions of Summerland citizens.

Now, Summerland is operating an efficient school district and at less cost than when involved with the southern school district centered on Penticton.

It would appear that the James A. Hamilton survey should be given careful study by citizens of this community and action taken to impress upon the authorities in Victoria that it is not a course of wisdom to link this district and Penticton together too closely.

We feel that the residents of Summerland will not lose their autonomy in hospital affairs without being shown more reason that is indicated in the Hamilton report.

Suggest Cutting Down Retail Zone

ACTION of the court of revision on the assessment roll last week to slicing a portion of the BC Fruit Shippers Ltd. assessment and paring down the adjoining properties would lead one to believe that this portion should not be included in the retail trading zone as originally planned by the zoning bylaw.

This zoning bylaw has not become effective yet but it was with that in mind that Assessor Sheeley included business properties north of Jubilee road in the same assessment ratio as the business properties quite near but south of Jubilee.

If the assessment court intends to adopt an attitude that because a packinghouse is catering to the needs of the municipality's main industry it

should have its land assessment equalized with that of other packinghouses, then the land should not be included in the retail trading zone.

This particular section could possibly be set aside as a unit of the industrial zone, as the businesses located there cater more to the manufacturing, producing and servicing categories than to straight retailing.

By changing the zone in this manner the council could justify its stand as an assessment court that assessments across the road from the main business section should be lowered.

Otherwise, we find it hard to agree with the reasoning as propounded last week at the municipal court of revision.

Signifying Nothing

By RUSTICUS

Seven days from now the British election will take place; in fact, it will probably be all over one week from the time you are reading this. Which way are you betting on the result?

It is a momentous election, not merely for Britain, but for the world. For five years the British have been conducting an experiment to see if socialism and state control can give better satisfaction to an advanced, free, democratic country than a free enterprise form of government.

If British voters next Thursday show themselves pleased with it, it will give a powerful boost to socialism all over the world. If the socialist government is decisively defeated, free enterprisers will be able to go around with their chests sticking out.

But it is by no means a clear-cut issue, black against white, as it were. There is so much socialist legislation in force in free enterprise countries like Canada and the United States that it is hard to tell our "welfare states" from the avowedly socialist ones, save in name. And there is still enough freedom, of enterprise, speech, and thought, in Britain to keep her a long way removed from the bureaucratic absolutism of Communist Russia.

Other things, too, make it hard for anyone outside of Britain to get an accurate picture of the situation. For one, most newspapers and magazines, in Britain as on this continent, are definite-

ly anti-socialist. That is inevitable, since almost all our great publishing concerns are built up by free enterprise, and their owners naturally would not favor anything else.

But it is also pretty well inevitable that they give an anti-socialist slant to everything they print; so that we who read them are bound to get a one-sided view of the whole British political picture.

Greatest source of confusion of all, perhaps, is the tremendous prestige of the grand old war-horse, Churchill. He was so splendid during the war years, is still so colossal a personality, that many people will vote Conservative in Britain just because it means voting for Winnie. Adventurer, bon vivant, writer, orator, statesman, at seventy-five years of age he is not only heading a strenuous election campaign but to all appearances is fully fit for a five-year-term as prime minister if he wins. What a man!

Whether he would make a good peace-time prime minister or not is debatable. The conditions of peace are very different from those of war. In wartime orders are given from above and have to be obeyed — ask any veteran buck private! — and even in a democratic country the government becomes practically a dictatorship, with unlimited power over people and expenditures, including the power to suppress opposition and criticism at will.

Would Churchill be successful at the head of a government whose business it is to please people instead of ordering them about, to cut down expenses instead of spending freely? Can he think on the level of the buck private, now a citizen with a vote, instead of on the exalted level of admirals and generals where he has been wont to move?

Some say he cannot; that although a grand dictator, he is a poor democrat. Could it be that Winnie is in the wrong pew?

The party which advocates the greatest amount of dictatorial control from above is not the Conservatives, who offer release from restrictions as their election bait, but the Socialists. Wouldn't Churchill be better as leader of their party instead of his own?

How he'd revel in taking over whole industries by peace-time nationalization, as he did in wartime emergency! How he'd make the people actually like the restrictions, put upon them by rolling magnificent speeches, as he did in war-time! How infinitely more color he'd give to the drab Socialist party than the mouse-like Attlee and the austere Cripps!

Twice before Churchill has switched political parties. Could he be persuaded to make this biggest jump of all, there'd be no doubt whatever of his winning the election; and once again, Winnie would electrify the world!

Will The Old Magic Work?

It is the Law:
Except for the purpose of passing, no person shall ride a bicycle on a highway on the left side of any two other persons riding bicycles on that highway.

W. M. Wright Talks to Jaycees On Pioneer Days

"Many tasks started years ago in this community have not been completed by any means; it is up to you to carry on the pioneer work for the development of the community," declared Walter M. Wright, himself a 40-year pioneer of Summerland, in addressing the Summerland Jaycees at their banquet meeting Tuesday evening, Feb. 7, in the Nu-Way Annex.

Mr. Wright told many amusing incidents of pioneer days, of the horse races which started in Garnett Valley with the first horse and rider over Prairie Creek being judged the winner.

First settler here was James Gartrell on Trout Creek, while the first wedding to be solemnized here was that of Harry Dunsdon and the late Mrs. Dunsdon, Came For Gold.

Mr. Wright told of J. M. Robinson, who came to the Okanagan to find gold and was so entranced with the agricultural future of the valley that he went east and interested many "big names" to purchase land in Summerland district.

Jaycees were reminded that the first peach trees were yanked out when it was found that there was no market for other than straight carload lots. It was some years later before peach trees were again planted, when economic conditions were more favorable.

"Other districts in the Okanagan learned from our mistakes," reminded Mr. Wright in discussing the early days of fruit growing in Summerland.

When an experimental station was first mooted for the Okanagan Summerland, Penticton and Kelowna engaged in a "scrap" for the location of this federal research activity. But Summerland won out over the other two locations.

Mr. Wright gave the Jaycees encouragement in their plans for a road up Giant's Head, and agreed that this hill feature is the greatest attraction which Summerland can boast.

He also suggested that souvenirs of Summerland district might be constructed from the logs of the first stable built in Summerland. This old building is still standing near the Gartrell home at Trout Creek.

New Contract For PGE Is Awarded

A new contract in the extension of the PGE from Quesnel to Prince George has been let to the Canadian Ramapo Division of Joliet Steel Corporation, Niagara Falls, Ontario, it is reported by the premier's office.

The \$90,000 contract is for railway turnouts, including switches and switch stands.

It was also learned that plans for the two main bridges over the Cottonwood Canyon and Abhau Creek are nearing completion.

Tenders will be called in the spring for the substructure and steel fabrication and erection on the structures.

NEW MEMBER MOVES TRADITIONAL VOTE

Mr. A. Douglas Turnbull, new member for Rossland-Trail, moved and Mr. Alex Hope, member for Delta, seconded the traditional resolution thanking the Lieutenant-Governor for his gracious speech at the opening of the legislature on February 14th.

Pioneer Days

THIRTY YEARS AGO

February 13, 1920

H. A. Solly, F. A. C. Wright, G. J. C. White and S. B. Snider were among the Summerland delegates who attended the first provincial conference of boards of trade held in Vancouver.

Because of increasing costs of operation, public ward rate at the Summerland hospital has been increased to \$2.50 per day, with private rooms at \$3 daily. Maternity cases are 50 cents day extra, while \$5 is the operating room charge for minor operation and \$10 for a major operation. Dressings and stimulants are also extra.

A certificate of incorporation has been issued to the Summerland Storage Co., Ltd., with an authorized capital of \$100,000.

During the next five years Canada is committed to spend \$50,000,000 on one big highway across the Dominion.

For two days the council has sat as a court of revision on the assessment roll and has had to adjourn until next week. Most of the appeals were filed by J. L. Logie, former assessor, on behalf of the Summerland Development Co.

Among the Summerland basketball players who walloped Kelowna 44-6 were Roland Reid, Will Angove, Ralph Brown, and Joe Gayton, who replaced Hinton Snider.

TWENTY-FIVE YEARS AGO

February 12, 1925

Attempts are being made by the Associated Growers and the BC Berry Growers co-op to form a joint selling organization for the prairies which would be independent of the existing brokerage firms. D. McNair has announced the launching of a sales agency for the Associated in which the berry growers can join as a combined effort.

M. G. Wilson & Co., Ltd., has purchased the big livery building on the lakeshore built and owned by R. H. English. It will be used as a warehouse and sales room for orchard machinery, fertilizers, insecticides, and hay.

Residents of Trout Creek made a demand to the assessment court of revision for a general revision of assessment for taxation purposes on all Trout Creek land in that there was a big deficit in the irrigation system within municipal financing and Trout Creek obtains no benefit from this system. G. Thornber was spokesman for the Trout Creek area. It is likely that a complete re-assessment of the whole municipality may result.

Because of lack of patients, it is possible the Summerland hospital may have to be closed. J. R. Campbell is the new president and Reeve R. Johnston is vice-president.

Accepted as probationers by the Royal Jubilee hospital, Victoria, are Misses Marjorie Morrison, Kathleen Nield and Gertrude Arkell.

A severe frost in December is said to have killed soft fruit buds in the Wenatchee and Yakima fruit districts.

Summerland Retail Merchants' Assn.

"Old Scout" McClinton Addresses Annual Father and Son Banquet

Inspector J. H. McClinton, in charge of the BC Police district centred on Penticton, proved an interesting and welcome speaker to the annual Father and Son Banquet staged by 1st Summerland Troop of Boy Scouts at the new Youth Centre last Thursday evening, February 9.

The visiting speaker, himself an original scout, outlined the origin and development of scouting and showed why training in scouts is of such great value to boys.

Inspector McClinton told his audience he could sign himself Scout McClinton, Woodpecker Patrol, 1st Gilwell Park Troop.

Following the banquet, which was served by the Legion W. A. members, most of whom were the mothers of the scouts present, the program as prepared by Scoutmaster D. V. Fisher was presented.

Toast to the King was proposed by Troop Leader Don Blacklock and Victor Smith proposed the toast to the fathers, ably responded to by Ryan Lawley.

Film on Scouting. A film, showing how scouts run

an indoor meeting, was an interesting program feature and was followed by demonstrations of scoutcraft and an interesting bean-carrying competition between fathers and sons.

Interspersing these numbers were songs, led by Field Commissioner J. Scrivener, with Frank Doumont as pianist and Rev. D. O. Knipfel as cornetist.

Short talks were given by District Scoutmaster Harley Hatfield, Field Commissioner J. Scrivener, District Scoutmaster Gordon Elewett, and F. E. Atkinson, chairman of the Summerland Youth Centre committee.

Proficiency badges and certificates were presented to 20 scouts by Commissioner Hatfield.

At the outset, the scout promise was presented by the boys with grace being said by Canon F. V. Harrison. H. R. McLarty, chairman of the local Scout Group committee, acted as toastmaster.

The Connaught tunnel through Mount Macdonald in the Rockies is more than five miles long.

GUIDE NEWS

There was a good attendance at Friday's meeting, with four new Guides, flown up from Brownies. These are Margaret Marshall, Nona Lewis, Sheila Daniels and Earbara Baker.

During campfire we discussed cookie week which is in April and each Guide should try to get ten orders.

Plans are going ahead for the concert, which will be sometime in May. Mrs. Bruce and Mrs. Don Elagborne are in charge of this. We also discussed the Mother and Daughter banquet which will be near our second birthday, April 1.

The skating party has been arranged for Friday night at the hockey rink, with refreshments later in the Youth Centre. We have invited the Scouts to this, so we hope the weather stays in our favor, to have a successful party.

Arrangements have been made to have a nurse in attendance at the next meeting for those trying for their emergency nurses' badges, and Mr. Feltham will lecture on map reading the first Friday in March.

Second class Guides' semaphore tests will be taken at the next meeting.

BOY SCOUT ACTIVITIES

During the past week the highlight of troop activities has been the Father and Son Banquet which was attended by about 90 persons including guests of honor. The banquet in the auditorium of the Youth Centre building, was excellently prepared and served by a catering committee of the Legion W. A. under the sponsorship of Mrs. Frank Young.

The last two weeks Mr. S. W. Feltham has been giving instruction on the King's Scout Pathfinder's badge, and the final instruction was given on Tuesday night by Dr. F. W. Andrew, who gave a most interesting talk on the history of Summerland and important landmarks.

It is hoped that you fellows will get your maps into Mr. Feltham as soon as possible.

This Friday, the Girl Guides have invited the Scouts to a skating party starting at the rink at 7 p.m. After the skating there will be refreshments served at the Youth Centre. Let's have a full turnout.

Teen Town

Here is the official lowdown on next Saturday night. We are having a dance at the Youth Centre. At the dance there will be nominations for council members and voting for the mayor.

Candidates for mayor are: Ruth Fleming, Daryl Weitzel, Doreen Steuart and our present mayor, Dave Wright. Only paid up Teen Town members will be allowed to vote.

Each of these candidates will have a campaign manager speak for a few minutes at the dance on the good qualities of the person they are representing.

Nominations for council members have to be signed by three people. Voting for them will be the following week. All of this is intended to stimulate interest in the election and make sure everyone knows who they are voting for.

So we'll see you at the dance Saturday night, or else!

Notices — From now on with the new hardwood floor at the Youth Centre, running shoes must be worn or brought to meetings. Next meeting Tuesday, Feb. 21, at 7 p.m.

High School COMMENTS

Winter sports are receiving a great deal of interest from the high school students this season. At the moment ski-ing seems to be predominant in extra school circles. Night ski-ing was held last Wednesday night with many students on the beginners hill for the first time.

Okanagan schools will attend a Summerland high school ski meet on Sunday, February 26. Everyone welcome. Starting time is 12 o'clock sharp. Ron MacRae and Daryl Weitzel went canvassing the town stores in hopes of obtaining trophies for the ski meet. Their wishes were more than fulfilled.

Mary Ward, Daryl Weitzel, Ron MacRae and Ron Ritchie are leaving for Rossland this Thursday, to take part in the Rossland ski meet being held February 17 and 18. We are sure that these students will not find it difficult to add a few more laurels to their collections.

The high school skaters and hockey players are mourning the dying of winter. The boys' hockey team was defeated by Rutland last Friday night. But they showed the old spirit by playing in Kelowna this Tuesday.

Grade ten girls are challenging the Summerland municipal council to a hockey game some time in the near future. The girls held a practice last Monday. A special set of rules have been drawn up for this game. We promise you a thrill-packed evening, with all our bets placed on the grade ten girls.

A hot dog sale was held last Friday noon to provide basketball uniforms for the girls' team. Outcome has not been calculated yet.

Barry Wilson is the latest victim of the ski hill. He is suffering a chipped ankle bone. Barry is looking forward to next year's snow as he will not be able to do any more ski-ing this year.

Several students of our school have entered the essay competition, sponsored by the BC branch of the Canadian Cancer Society.

Twenty students were entertained by Olive Mason last Saturday night. On the same evening Gerald Washington entertained a number of his friends on a sleigh-riding party, which took the merry-makers two miles this side of Fish lake.

Maureen Prior and Jane Wooliams are responsible for the fine posters that often appear announcing various student activities. It is seldom realized how much time and hard work is put into this job.

Bette McClure has returned to our school after having attended the Okanagan Bible Institution in Rutland for the past three months. We all wish to welcome her back.

Each student in the high school received an individual invitation to a Valentine party given by the Christian Youth Endeavour of Summerland (C.Y.E.S.). We wish to thank this association for their kind thoughtfulness.

B. C. EXPORTS REACH NEW HIGH

Value of exports through B. C. customs ports for the first 11 months of 1949 reached \$414,008,007 an all-time high, it is announced by Hon. L. H. Ryres, minister of trade and industry. The previous all-time high was established in 1947 when \$380,010,501 worth of goods were exported. The 1948 11-month total was \$385,400,094.

TEN-PIN LEAGUE ORGANIZED

There was an attendance of about thirty at the meeting held in the bowling alley on Wednesday evening, Feb. 15, to organize a ten-pin league.

Bert Simpson was elected president; Bob Lothian, secretary; Abe Salloum, treasurer.

Seven captains were appointed. They are Jack Dunham, Doug Campbell, Ernie Harrison, Robert Bruce, Ken Heales, Clarence Adolph and Jim Heavysides. These captains and the other officers named will make up the executive.

ENEAS CREEK IS BEHAVING BETTER

Eneas Creek is behaving more normally this week but for some days last week it caused much concern to the water foreman, E. Kercher and to residents in the vicinity of its banks.

Quantities of salt were used to good effect in clearing ice deposits council stated on Tuesday.

Deepening of the creek channel last fall had a good effect and saved the creek from spreading over a wider area, it was stated.

Assessment Court of Revision Fails to Consider Most Appeals

At last week's court of revision, council members expressed the thought that the municipal assessment roll must now be in a more consolidated state than it was in some years in the past.

Few appeals were heard from fruit ranch owners this year, which led the court to congratulate Assessor Sheeley on his work of attempting to bring properties into line with those in the same district, as far as possible.

The court commenced its sittings at 10 o'clock Wednesday morning, Feb. 8 and after a luncheon adjournment, concluded shortly after 3:30 o'clock.

Apart from appeals in the vicinity of Jubilee and Hastings, as covered in last week's issue, there were ten appeals filed by Jan. 28, the deadline.

W. Rothwell's appeal against increases of \$200 per lot on his property valuation, from \$170 to \$370, was lost when the court was informed the increase brought his property in line with values in his district.

Only change in F. Page's assessment was the wiping out of \$30 assessed value of fruit trees, which are not taxed in any event.

C. J. McKenzie claimed his improvements assessment is out of line at \$5,000 for a house and a church hall. The house, he claimed, was not complete and should not be assessed at \$4,500. An allowance of \$1,000 in improvements valuation was made by the court.

May Go Higher

Grace Whitaker's appeal against a raise of \$25 a lot, from \$75 to \$100, on five small lots at Crescent Beach was not allowed. Mr. Whitaker claimed that the action of high water has made these lots unsuitable for any building project and a great deal of money would have to be expended to prevent losing portions of the property from wave action.

The court sustained the assessment and Mr. Whitaker declared he would consider a further appeal to the county court.

John Berg appealed a \$400 assessment on his fruit trees, claiming they are not in bearing stage yet. This valuation was cut in half.

W. D. Laidlaw presented a lengthy argument against increased assessments on his Granville street stores, especially those occupied by the provincial horticulturist, Read & Pruden and Butler & Walden.

These buildings are forty years old, yet the improvements assessment has been going up every year lately, he declared.

Mr. Laidlaw considered that the valuation should go down, instead, because of the age of the structures.

Mr. Laidlaw entered into a lengthy discussion with Assessor Joe Sheeley regarding the basis of assessment, claiming that he had conferred with another assessor who cut the value of a new building down 30 percent in the first year.

He was told by the court that various assessors have different methods of arriving at assessment valuation and that practices are not standardized to a full extent.

Value of Corner Lot

Also entering in the discussion was the value of corner business lots in relation to inside lots. He referred to the Laidlaw & Co. store which pays a higher assessment because it occupies a corner spot but because of the direction of the sun's rays in the afternoon cannot have windows along the sidewalk.

Mr. Laidlaw claimed that this factor alone placed the corner building on the same level as other lots in the same block but the court did not agree, pointing out corner lots as such are more valuable in any business district and was not concerned with the manner in which the lots were used.

All three business property assessments and that of Crescent Beach lot owned by Mr. Laidlaw were sustained.

H. and I. Dracas' appeal was not allowed when it was pointed out that the owners did not understand the method of assessing, and had now been given an explanation.

John Thaler was successful in having his Prairie Valley land reduced to the same level as the previous year. He pointed out that two of his five acres are swampland and two more are poor because of alkali. The raise this year had been \$850 and was wiped out.

Walter Bolton's assessment was sustained by the court, the raise in land value being from \$10 to \$800 and new improvements placed at \$3,000. This lot, on the Gulch road, was bulldozed last year and according to Mr. Bolton was only a gravel pit before he made improvements.

There are two buildings on the property and Assessor Sheeley stated he understood Mr. Bolton is receiving \$40 rental from one dwelling.

W. M. Johnson, Trout Creek district, appealed his assessments on four properties which he sub-

divided last year. Lot value was \$860 for the entire parcel before, but two are assessed now at \$250 each, a third was placed at \$1,000 and a fourth at \$1,500.

Assessor Sheeley admitted that he had made a mistake in including \$800 assessed value of trees on the fourth lot and this was eliminated. To bring this property in line with the rest it was reduced to \$1,150 on land.

Improvements assessments on these four properties, apart from the trees, were sustained.

This concluded the official list of appeals but the court continued to hear other appeals which were filed at the municipal office later than Jan. 28.

Mrs. Janetta Christie, Prairie Valley, was successful in having her land value reduced from \$600 to \$300. Court agreed that most of this property is subject to flooding.

Hans Stoll had not received his assessment notice but indicated that he had no appeal once the figures were placed before him.

Mrs. Teresa McDougald appealed her land assessment and received a reduction of \$100.

Adam Arndt appealed his land and improvements assessment, stating \$3,000 for his land, which includes two sidehills was too high. Court agreed and reduced his land \$30 per acre, to a total of \$2,700.

After comparison with a similar house built by John Glaser, the court reduced improvements assessment from \$4,000 to \$3,000. A three-room shack is included on the Arndt property, besides the main dwelling and was placed at \$300 assessment valuation.

John Hecker's appeal on his small Granville street lot was not allowed when Assessor Sheeley declared it is the same valuation as other property on the south side of Granville street, namely \$20 per foot frontage.

Trout Creek Values

H. R. McLarty entered a lengthy appeal on both land and improvements assessment but the court refused to consider either appeal. The McLarty property is assessed at \$5 per foot frontage for lakeshore property in a similar manner to other lakeshore property at Trout Creek, it was explained.

The court did not deem the assessment valuation of \$5,000 too high on the McLarty residence. "It has been raised up to what I think it should be," declared the assessor.

Other Trout Creek properties were sustained by the court including that of Eve and Florence Howden and Dr. Lloyd A. Day. The latter requested that \$1,000 improvements assessment be eliminated from his dwelling. Court was unanimous that \$6,000 was not too high an assessment on Dr. Day's new home at Trout Creek. Court decided that Vanguard

Motors did not understand the assessment system here when they appealed \$4,000 improvements assessment and pointed out that only \$475 in improvements had been made last year.

Many Canadian industries have life and accident insurance policies for their employees.

Tremendous Amount of Work for Hospital Undertaken by Auxiliary

From the various reports given by the committee convenors in their statements presented at the annual meeting of the Summerland Hospital Auxiliary held on Monday evening, Feb. 6, in the parish hall, a tremendous amount of work has been accomplished by this organization.

Total receipts for 1949 were \$1250 showing co-operation and enthusiasm in this vital community work.

Ten regular meetings were held during 1949 with one executive meeting, and the membership stands at about fifty.

Part of the revenue was realized from catering to dinners, dances and Masonic suppers. Although this method of raising funds means hard work the results amounted to \$718. One Bingo was held which netted a good sum.

The sale at the hospital of hand-knitted garments for babies has proven very satisfactory, too. Appreciation was given the nurses on the staff for looking after the sale of these articles. These garments are made by the members but anyone wishing to make them can obtain wool for the purpose from Mrs. Howard Shannon.

Various and numerous articles were purchased for the hospital during the year with linens, china and cutlery comprising most of the expenditure. The amount spent on these items under the heading of hospital furnishings and supplies was \$1053.90.

Canning is a major undertaking of the auxiliary. In 1949 fruit and tomato juice amounting to 4284 cans were done at a cost of \$298. The auxiliary feels fortun-

ate in having the privilege of doing this canning at the Barkwill Cannery where expert help and advice is given free of charge. Gratitude was expressed to the Barkwill Cannery and the Dominion Experimental Station for fruit donated for this purpose.

Before election of officers for 1950 took place Mrs. Leslie Rumball, on behalf of the members, presented Mrs. A. R. Dunsdon with a lovely corsage in appreciation of her work as president for the past two years.

It was thought that the auxiliary might fill a need at the local hospital by visiting twice a week with a basket containing candies, gum, smokes, etc., for the patients to purchase. Members will undertake, also, to perform any errands for the patients. It is not the intention to do this for remunerative purposes but as a service which members of the auxiliary would like to extend to the patients in the hospital.

HOME AGAIN

Mr. Wm. Jenkinson, who has been in Ontario this winter, drove home in a new car having a good trip all the way. Mr. Jenkinson was about a week on the road not hurrying at all, and returned by way of Chicago and Spokane.

Mrs. F. V. Harrison and Mr. and Mrs. W. F. Evans returned from Vancouver on Monday.

Mr. W. C. Waters returned to his home in Prairie Valley on Monday after three weeks spent in the Pentiction hospital.

Socially Speaking

SOCIAL EDITOR Mrs. A. W. Vanderburgh

VISITING ABROAD

Mr. and Mrs. J. E. Britton and Mrs. Britton's sister, Miss Corrigan, who came from her home in Ontario for a visit, left last week to drive to California for a few weeks' holiday.

Miss Velta Wright is on holiday for a week at her home in Winfield from her stenographic position at the experimental station office.

Dr. D. V. Fisher is in Creston this week on experimental station business.

Mr. J. R. Armstrong is spending part of this week in Vancouver, having left on Wednesday's train.

Mr. Marcel Bonthoux is a visitor this week in Vancouver attending a convention of Massey-Harris dealers.

Mr. and Mrs. V. Polesello and Mr. Don Cristante were visitors to Trail last week-end.

Mr. C. J. Bleasdale drove to Vancouver on Tuesday morning, and will proceed to Victoria where he will meet members of the department of education regarding matters pertaining to the new junior-senior high school.

Mr. and Mrs. H. R. J. Richards were on a short holiday at Vancouver this week having driven down to the coast last Sunday, returning about the middle of the week.

Mr. Len Stuart left Thursday for Myra, B.C., where he will be employed for about six weeks.

Mr. Al Soderberg left on Tuesday to drive to Vancouver on a short business trip.

Mrs. J. C. Wilcox New President Of Hospital Auxiliary

Election of officers in the Hospital Auxiliary for 1950 resulted in Mrs. J. C. Wilcox being chosen president. First vice-president is Mrs. Earle Wilson; second vice-president, Mrs. Eric Tait. Mrs. Jas. Marshall will be the secretary and Mrs. T. E. Lott, treasurer.

Appointed as a buying committee were Mrs. J. Dunsdon, Mrs. Cyril Woodbridge and Mrs. M. Kersey. Mrs. A. Sladen is corresponding secretary. Heading the catering for the Masons is Mrs. A. R. Dunsdon, while Mrs. H. Fiske convenes the cutting committee.

Heading the knitting section is Mrs. Howard Shannon. The nickel fund is taken care of by Mrs. E. L. Famchon, and Mrs. F. E. Atkinson is press correspondent.

List of Blood Donors Available

Mr. J. Y. Towgood, chairman of the Red Cross blood donor clinic has in his possession a list of all Summerland blood donors and their type of blood.

This is available to local doctors in cases of emergency, if there is no blood plasma available at Pentiction where the Red Cross supply of blood for transfusions is stored at the proper temperature.

Twice during the month of January this list has proved to be valuable. No blood for necessary transfusions was obtainable at Pentiction, in one instance, because of transportation difficulties so donors were found locally and transfusions given to good effect.

CHOIR CONCERT IS PLANNED NOW

Excitement is running high in Miss Hamilton's girls' choir as they plan to hold their annual concert in the Youth Centre on Feb. 28.

A bass section is added to the choir this year since there were a few boys who had been anxious to see a boys' choir started, but hardly enough for a separate club, so they were made part of the original choir.

The girls all have long white formals this year and should make a pretty picture as well as giving pleasure with their music.

Classes In Art Or Theatre Design To Be Held Next Week

A number of people are planning to take advantage of the visit of Mr. Cliff Robinson, from the department of extension of UBC who comes next week to conduct classes in either art or theatre design depending on the wish of the majority who attend at the high school next Monday afternoon, Feb. 20, at 4 o'clock.

It is thought that most of those attending will want to study art. The courses will be from Monday through Friday, and may be afternoon or evening,—this time to be decided at the Monday afternoon meeting.

Mr. Robinson will be interested to arrange informal gatherings with groups or with individuals in which ever of the two courses is not being taught here. Time does not permit a satisfactory two-course full time.

There is a minimum number of ten registrations required and the course is sponsored by the Women's Institute.

Lutheran Church Y. P. Form Group

Summerland has another new society — the Young People's group of Christ Lutheran church have organized and plan to meet every month.

On Sunday evening, Feb. 5, officers were chosen at the home of Mr. and Mrs. Turigan, Prairie Valley.

President is Miss Gerda Felker; vice-president, Miss Hilda Thomas; secretary, Miss Fern Turigan; treasurer, Irvine Felker. In charge of entertainment are Ernie Bobby and John Schramm.

Rev. Mr. Vorath, Kelowna, was present for the organizational meeting and conducted the devotional exercises. Rev. Mr. Lang of the Oliver Lutheran church was a visitor.

Latter part of the evening was spent playing games and refreshments were served.

LUTHERAN LADIES' AID MEETS AT TURIGAN HOME

Mrs. Wendall, Prairie Valley, has been welcomed as a new member of the ladies' aid of Christ Lutheran church. Fourteen were present at the regular meeting held at the Turigan home, Prairie Valley, on Monday evening, Feb. 13.

Mrs. Fred Schmidt, the president, read the scripture lesson and there was a sing-song.

Plans are being made to hold another social later in the month in the basement of the home of Mr. and Mrs. Wm. Kopp. This will be in aid of the Sunday school which is in need of supplies.

PLEASANT PARTY STAGED BY O.E.S. AT ELLISON HALL

One of the most pleasant dances of the winter season was that held by the Order of the Eastern Star in Ellison Hall on Friday evening, Feb. 10. The party was postponed from January because of the very cold weather but lost nothing in the transferred date.

Mrs. J. W. Mitchell was general convener for the affair with Mr. Fred Schwass and Mr. Tommy Marsh as dance committee.

Decorating was arranged by Mrs. Jack Dunsdon. Colorful insignia of the lodge was in evidence on all the walls and a large net suspended from the ceiling held balloons in gay hues.

Two spot prizes were awarded, one to Mr. Gavin Patterson and his partner, Miss Wilma Stewart; the second to Mr. Noel Lingford and Miss Betty Jackson. Saxie's orchestra from Pentiction supplied the music.

VISITING HERE—

Mr. Jim Fisher of Kelowna came down on Tuesday on an extended visit at the home of his mother, Mrs. M. E. Fisher.

Mrs. Ethel Wilson and her baby son spent last week visiting at the home of her parents, Mr. and Mrs. W. C. Waters, Prairie Valley.

Mr. Bill Smith of Vancouver visited last week at the home of his parents, Mr. and Mrs. R. R. Smith, Garnet Valley.

Mr. and Mrs. G. R. Morgan, of New Westminster, who were visiting at the home of the former's parents, Mr. and Mrs. Granville Morgan, Trout Creek, for the past week left on Sunday morning to drive to their home.

Rev. Mr. Lang of the Lutheran church, Oliver, was at West Summerland last Sunday and conducted the services of Christ Lutheran church held in the IOOF Hall in the afternoon.

NEW ARRIVALS

At the Summerland General Hospital on Wednesday morning, Feb. 15, a baby girl was born to Mr. and Mrs. G. R. Moorman. The newest little girl makes their family consist of an equal number of girls and boys—three of each.

Mr. and Mrs. Paul Roberge's daughter, who is to be called Connie Gail, arrived at Summerland General Hospital on Saturday, Feb. 11.

Evangelist Gives Ballots To His Listening Jury

Evangelist N. R. Johnson held a mock jury trial at the Lighthouse Bible Auditorium Sunday evening, Feb. 12.

Each of the audience of about ninety was given a ballot on which to check the evidence put forth by the speaker on his subject "Is Mr. X Guilty?", and his development of the thesis that "Sunday Is Not The Bible Sabbath," the belief of Seventh Day Adventists.

Using for his evidence the support of the Bible, church history, and authentic commitments of leading Protestant and Roman Catholic churchmen in nationwide news recently, Mr. Johnson proceeded with his theme.

In essence, the six points established according to his beliefs were: First, that God did not change the Sabbath from the seventh day to the first; second, that Jesus Christ did not change it; third, that the change was made after the Apostles passed away.

That which he considered Bible proof for the first three points had been given in earlier lectures by Mr. Johnson. Points four to six were newly advanced.

Fourth was that the substitution of Sunday as a day of rest for Christians, in the place of Saturday, the Sabbath of the fourth commandment, according to Mr. Johnson's teaching, was a gradual change that took place during the third, fourth, and fifth centuries, A.D. Fifth point advanced by the evangelist was that the prophet Daniel prophesied that papal Rome would attempt to change God's law. Sixth that this latter ecclesiastical power openly boasts that she made the change, on the authority of her own tradition.

Of the ballots turned in four were spoiled and sixty-five voted assent. Other ballots were not handed in for counting.

NEARLY NINETY KIDDIES ENJOY VALENTINE PARTY

The shining eyes of the 88 children seated around the tables at the Valentine party given for children under twelve years of age of veterans and Legion members by the combined efforts of the Women's Auxiliary and the Legion denoted the success of the undertaking.

The party opened at 2:30 on Saturday afternoon Feb. 11 in the parish hall. Mrs. F. Young, program convener, welcomed the mothers and children and explained that the event is held at this time of the year rather than at Christmas when there are so many other parties to attend, because it was thought that it would be more enjoyable at this later date.

Mrs. Young explained, too, that the Legion men pay for everything connected with the affair and the women "do all the work."

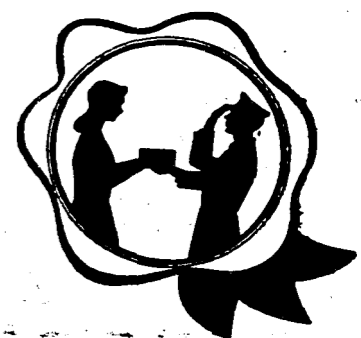

Reeve C. E. Bentley, who always enjoys the event showed some movies ordered especially for the afternoon.

As the children came in Mrs. Dan Weiss pinned a numbered heart on each one. This was for later reference and after the movies a lucky number was drawn. Ronnie Fisher was wearing its counterpart and won a \$1 bill!

After a sing-song the ladies of the auxiliary served tea from tables which looked very pretty with rows of Valentine ladies, made from suckers, marking each place. Scarlet hearts ran in a long line down the centres of the tables, and hearts were on the edges of the white paper tablecloths.

Mrs. Ted Logie convened the tea and the members assisted in the kitchen and serving.

Mrs. W. McCutcheon, president of the auxiliary, spoke briefly inviting the mothers to join the WA and expressing her pleasure at having them and the children present.

T. B. HOSPITAL
Hon. G. S. Pearson, minister of health and welfare, has announced that construction of a new T.B. hospital in Vancouver will be started soon to help alleviate the critical shortage of beds for T.B. patients in that city. The site for the new hospital in the South Vancouver district was purchased three years ago and cleared.

DON'T SELL YOUR BONDS IF YOU NEED QUICK CASH

Like hundreds of thousands of Canadians in recent years, you probably have bought a nest-egg of bonds for your future. But now you may need money to meet an emergency or opportunity, and the question is whether to sell those bonds.
James Muirhead, the Bank of Montreal's branch manager at West Summerland strongly advises against it. "Bonds represent money you've already saved," he says. "If your proposition is sound, you can keep your nest-egg intact by simply borrowing against your bonds at the B of M. When you've repaid your loan in easy instalments, you'll still have your savings in reserve."
You'll be in good company if you take Mr. Muirhead's advice. Many thousands of people, he says, use their bonds to borrow at the B of M every year. The entire cost of a loan against Government bonds is exceedingly small; indeed, it is little more than the interest you receive on the bonds themselves. advt

Snow Water Content Higher At All Levels in Okanagan Than Last Year or Normal

Okanagan and Similkameen areas have had a greater than normal precipitation this winter, especially at Osprey Lake and "if this trend continues and other climatic factors continue for the rest of the season a summer runoff above normal should be expected."
This was the report issued on February 1 in the BC snow survey bulletin by the water rights branch of the department of lands and forests.

The Okanagan-Similkameen area has a snow water content showing 131 percent of normal at Feb. 1 and 152 percent of normal.

The Nickle Plate snow course, indicative of the Similkameen, has a snow pack with a water content of 165 percent of that of last year, it was noted. The total precipitation, measured at McCulloch and Osprey Lake was considerably above normal, particularly that of Osprey Lake.

Throughout BC the snow water picture is rather involved as, with the exception of the Okanagan-Similkameen basins, other parts of the province had a water content above normal at higher levels and below normal at lower levels. One other exception is the coastal watersheds which are mainly below normal at higher elevations and above normal at lower elevations.

Okanagan-Similkameen is above normal at all elevations.

Flood Potential Possible

"If average or above average climatic conditions continue to the end of the accumulation period a general flood potential can be built up, but this cannot be predicted now; later bulletins will give clearer indications."

"The large accumulation of low snow in the coastal valleys is capable of producing serious local flooding should the rate of the present thaw accelerate, since the channel capacities of all smaller streams are reduced by ice."

"On the other hand if any considerable amount remains on the ground when the high snow-melt commences, this would definitely add to the spring flood potential as it did in 1948."

At the 4700-foot level of Trout

Creek in January 27, there was a snow depth of 30.8 inches with a water content of 7.2, compared with 4.8 in 1949 and 5.0 in 1948 at approximately the same period. Average water content over 12 years was 4.2 inches.

Across the lake at McCulloch only 5.4 inches of snow existed at the 4200-foot level, the 12-year average being 4.9.

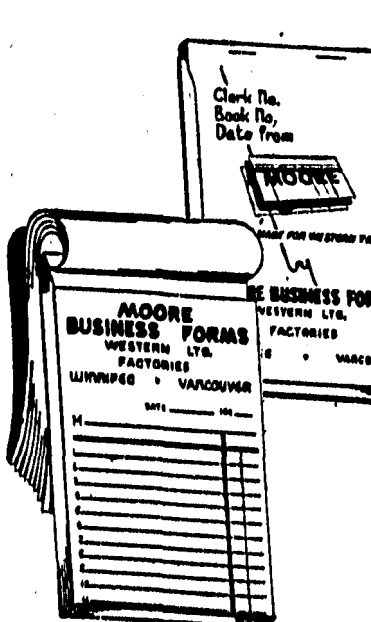

Last year, from Nov. 1, 1948, to Feb. 1, 1949, 8.91 inches of precipitation were recorded at McCulloch. For the same period, 1949 to 1950, 10.07 inches fell at McCulloch and 10.29 at Osprey Lake, the latter being 4.16 inches above the normal precipitation.

Many Interior High Schools Invited to Local Ski Tourney

High school skiers from many parts of the southern interior have been invited to come to Summerland to participate in the high school invitational ski meet at the Meadow Valley ski hill on Sunday, Feb. 26.

High schools at Rosland, Penticton, Princeton, Oliver, Kelowna, Rutland, and Vernon have been invited to send junior skiers for this tourney to meet the threat of the top-ranking junior skiers from Summerland who captured main prizes at the Okanagan zone

tournament in Penticton recently. Downhill and slalom races will be the four events for competition and will attract junior and senior school skiers. The junior age limit is 15 and under.

Skilled jumpers from Princeton are also being invited to visit Summerland on that day and add another feature to the high school tournament, likely to be the only one of its kind to be held in the valley this winter.

Five trophies valued at \$120 have been donated for this tournament and will be awarded for the following events: Best school, L. A. Smith, trophy; senior boys combined, B & B Garage trophy; senior girls combined, Laidlaw & Co.; junior boys combined, Family Shoe Store; junior girls combined, W. R. Cranna.

Ron MacRae Leads SHS To Victory Over Oliver Cagers

Ron MacRae led the senior boys' high school cage team to victory with nine points in the final stanza when they were needed most, when the local lads met Oliver at the school gym last Friday.

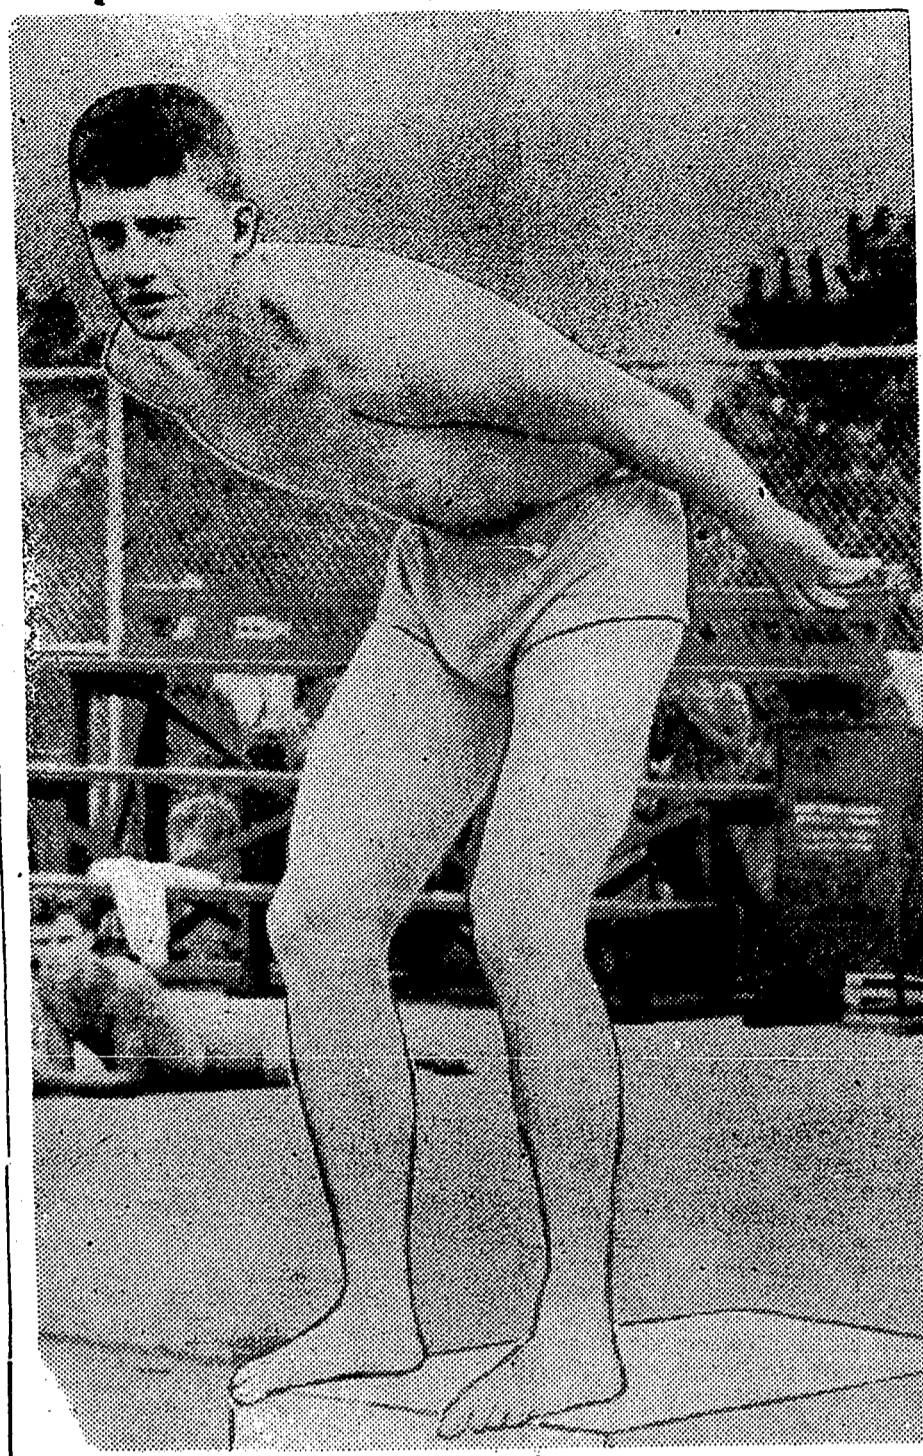

Summerland high won 44-36, outscoring the visitors by six points in the final canto.

Sandy Jomori was high scorer and kept Summerland in the race for the first part of the game while MacRae brought his total to 15 with his final period rally. Pelkey was the most dangerous man on the Oliver squad, garnering 17 markers.

Scores were tied at half-time, each team contributing 16 points and going into the final period Summerland held a slim 27-25 advantage.

In the preliminary game, Summerland girls lost to the Oliver lasses by a 22-14 count.

Empire's Best

Above PETER SALMON of Vancouver gave Canada its first Empire title at the 1950 Games at Auckland, last week, by beating out Australia's Frank O'Neill in a stirring finish. He won the 110 yard final in 60.4.

Two More Victories for Senior Puck Squad on Local Rink

Two one-sided victories were scored by Summerland's senior hockey club last week-end when Hedley Miners were trimmed 11-0 Saturday night and Kelowna Firemen bowed 8-4 on Sunday afternoon.

Only Hedley man who stood up against the Summerland combination was the goalie but he could not cope with the combination plays which threw the Hedley defence into a muddle.

On the other hand, the Summerland defence was working to perfection.

Four-star selection by Manager George Stoll chose Goalie Dan Moog, Colin Mann, George Taylor and Fred Kato.

Goals were scored as follows: 1st period: 1, Taylor (Friesen); 2, Kato (Steininger); 3, Kato (Mann); 2nd period: 4, Friesen (Mann); 5, Abrams; 6, Mann (Taylor); 7, Taylor (Friesen); 3rd period: 8, Mann (Klasoff); 9, Klasoff (Abrams); 10, Steininger; 11, Abrams.

Coy Cup Personnel With two exceptions, the entire Summerland Coy Cup team was on the ice to meet Kelowna Firemen, who were bolstered with some fast-skating juniors. Les Howard was on the injured list and Gerry Hallquist did not strip for the contest Sunday.

As in the previous night's game, Summerland lost no time in piling up an impressive total and with the first canto finished was ahead 5-0. From then on play was more evenly divided with the visiting Firemen scoring the only two for the second period. Sullivan and Lipsett were responsible for the

Kelowna scores. In the final stanza, Sullivan and Chapman tallied for the Firemen and Summerland bulged the twine for three more to leave no doubt as to the victorious team.

Friesen, Taylor, Mann and McCargar stood out for the winners. Friesen was especially hot on Sunday, scoring four of the eight local goals. Summerland scoring follows:

1st period: 1, Friesen; 2, Friesen (McCargar); 3, Gryson; 4, Abrams (Paton); 5, Friesen (Taylor). 2nd period: No score. 3rd period: 6, Friesen (Croft); 7, Steininger (McLean); 8, Croft.

Still Wait For Word on Wenatchee

Summerland baseball fans are eagerly awaiting word from Wenatchee regarding that city's Chiefs' plans for spring training.

Last Thursday afternoon three representatives of the Chiefs visited Summerland and inspected the snow-covered athletic park and the Cornwall Cannery cabins where the team would be housed if it comes here.

Although they could not commit themselves regarding the possible training site, these Wenatchee visitors expressed keen delight over the athletic park and also stated that the billeting arrangements would be sufficient for the purpose.

Between Two Towns

It was intimated that Kelowna had been ruled out because of lack of a suitable training field and the decision would probably be between Oliver and Summerland for the 1950 training grounds.

Mr. Wallace, manager of the Wenatchee radio station, was one of the party, while George Clark, manager of the club, and Mr. Munger, an old-time ball player, completed the party.

Mr. Munger recalled the early 1920's when he played and managed the Port Hammond team on the coast and had one of the smartest ball clubs in the Pacific northwest at his disposal.

They played to crowds of 10,000 in those days, Mr. Munger murmured wistfully, and that was for amateur ball. He added that the entrance fee was only 25 cents then, but a quarter went a lot farther in the '20s than it does today.

J. R. Armstrong, who heads the board of trade committee endeavoring to bring Wenatchee Chiefs to Summerland, reported on the work undertaken to date at the board of trade session Thursday evening. Ceell Wade and Allen Holmes are members of this committee.

Anglers' note—fish are generally near-sighted.

Pay Lump Sum For Hospital

Instead of paying 70 cents per patient day into the hospital insurance scheme the Municipality of Summerland will pay on a lump sum basis of \$1,232 per capita population or \$4,312 per year, it was decided at Tuesday afternoon's session.

The insurance service offered the municipality the option and it was decided that a great deal of bookwork could be eliminated. There would be little difference in cost as \$4,086.60 was paid in 1949 by Summerland.

GET DISC RECORDINGS OF THEIR SPEECHES

RENTAL

Continued from page 1

the only method of attaining a figure on rural area population would be to adopt a certain formula.

By this formula, school attendance figures are multiplied by six and the known population of the municipality concerned is then subtracted, leaving the difference the rural population.

In Summerland's case, however, the school population was multiplied by six, giving 4,536. The inspector of municipal affairs states that Summerland municipality has a population of 3,500, so the library board believes the rural portion of Summerland school district has a population of 1036.

Health department estimates give this rural area a population of 277 and even that is too high, rural representative Aubrey King informed the school board.

On the basis of that number of people the rural area assessment for library purposes has been set at \$519 this year. The school trustees will protest this figure to Mrs. Foulkes and also to Assessor Flynn at the court house in Penticton.

Inspector A. Turnbull informed the school board that the 1036 population figure would be just about right for School District 15, Penticton, in which Summerland was a member before District 77 was formed.

More Card Parties Planned by C.W.L.

Mrs. John Menu and Mrs. I. J. Wignall were chosen by the CWL of the parish of the Holy Child to visit the sick for the month of February. Care of the church committee for the month will be Mrs. J. Cristante and Mrs. C. E. Pearson.

This was decided at the regular meeting held on Thursday, Feb. 9, in the church hall. Mrs. A. Menu, the president, opened the meeting with the league prayer.

Dates for card parties were set, one to be on Feb. 16, and another on March 2. This series of card parties has been enjoyable and popular.

To commemorate St. Patrick's Day a special social evening will be held, and it is hoped that the whole parish and their friends will attend to make this one the best of the season.

Young Boy, 10, Cannot Read or Write

There is a young boy of 10½ years living in Summerland who cannot read or write and he defies his mother when she attempts to have him attend school.

This was the statement which shocked School District No. 77 (Summerland) board members on Monday evening.

A complete investigation into the case is being sought from the social welfare branch and school trustees will also lend a hand to endeavor to find a satisfactory solution to the problem.

Since the term opened last fall, the young lad has been to school only 21 days, Principal S. A. MacDonald reported.

"His mother cannot do anything with him," was the report of one trustee.

VALLEY DRAMA GROUP TO MEET

A postponed meeting to set up a permanent committee for the organization and promotion of the community drama movement, and particularly the arrangement of local drama festivals, with a zone final for the valley will be held at Kelowna next Sunday afternoon, Feb. 19.

Mr. H. S. Hurn, director of school and community drama for the department of education, will attend and it is expected that delegates will be present from Kamloops, Salmon Arm, Vernon, Kelowna, Summerland, Penticton, and Oliver, as well as other interested persons.

Kelowna little Theatre group will be hosts for the affair which starts at 11 in the morning with a luncheon at the Royal Anne hotel and sessions continuing in the afternoon.

Planning to attend from Summerland are Mr. and Mrs. Lacey Fisher, and Mr. and Mrs. N. O. Solly.

Health Unit To Meet Here Feb. 22

Next meeting of the South Okanagan Health Unit is to be held in Summerland at the municipal council chambers on Wednesday, Feb. 22, it is announced. Councillor F. E. Atkinson and Mrs. A. W. Vanderburgh represent the council and school board on this unit.

Too Late to Classify HOCKEY FANS!

THE SUMMERLAND team will play their first play-off game for the BC championship, Monday, Feb. 27, 9 p.m., Kelowna Arena. Bus will leave Nu-Way at 6:30 p.m. Return trip \$1.00. Leave your reservation at Sports Centre. Come out and support the team. 7-1-c

MORE ABOUT—

BRIDGE

Continued from page 1

2,000 pamphlets had been prepared giving publicity to the district, and a float had been entered in the Peach Festival parade. These were the two highlights of the year for that committee.

Don Tait reported that most parks committee work had been handled by the council last year but that some further attention will be paid Peach Orchard beach.

Few subjects had been handed on to the national affairs' committee after emanating from the Canadian Chamber of Commerce. Chairman A. K. Macleod reported. He suggested that such a committee should select three or four subjects of national interest but with a local angle for detailed study and report.

Spray-making and apple by-products have been investigated in the past year by the new industries committee, Bob Barkwill's report stated.

Also, bringing of a hairdresser to Summerland had been investigated and he was hopeful that such a business would be established soon.

He suggested that Summerland's new industrial site, when prepared should be publicized. No more tourist camps could be advocated until the new highway location is known. Then, more fruit stands could be suggested.

On each occasion that an election was held in the past year the civic affairs committee was on the job offering transportation and publicizing the need to exercise the franchise. W. S. (Scotty) Ritchie reported. This committee also planned the Christmas outdoor lighting contest which proved more popular this year and will probably continue to grow.

Wants Instructor

Cecil Wade told of the swim classes last summer, and advocated the appointment next summer of a physical instructor who could be employed to handle youngsters at all parks and beaches. Other organizations could assist the board in financing such an appointment.

Final main report was submitted by Harry Beeman for the traffic and safety committee, one of the most energetic groups in the board during 1949. After reviewing a lengthy list of projects such as painting bicycles at the schools and obtaining instruction on safety laws for the pupils, Mr. Beeman suggested that a board project could be a training car for the high school.

This suggestion was considered one worthy of more consideration and President O'Mahony promised it would be discussed at greater length.

Voltage Checkups Are Continuing

Electrical Foreman T. P. Thorner has been requested to keep testing voltage fluctuations in various districts of the municipality. Councillor F. E. Atkinson told council on Tuesday that when the figures are presented to him then it can be decided what the middle voltage should read.

Set May 15 as Deadline for Pole Removal

By May 15 Hastings street property owners must change over their electric light connections from front to rear. municipal council has decided. By that date removal of the unsightly wooden poles will commence.

Last month property owners met council for a full-scale discussion on the changeover, as the owners claimed they should not meet the full amount of the changeover involved.

The press was excluded from the meeting at the suggestion of some of the owners and no announcement was made as to any result.

However, it has been determined that council refused to alter its position and again agreed unanimously that the entire cost of the changeover should be met by the property owner in each case.

Electrical service will be provided to the rear of the Hastings street lots by the municipality and the poles can then be removed.

Architect Breaks Leg On Pavement

William K. Noppe, architect who designed the new junior-senior high school for Summerland, had the misfortune to slip and break his leg on icy pavement in Vancouver last week.

He was due to accompany Summerland School Board Chairman C. J. Bleasdale to Victoria yesterday to meet the department of education for a perusal of the complete plans and specifications.

However, at press time it could not be ascertained if he was able to make the trip.

SUMMERLAND HOSPITAL SOCIETY

Notice is hereby given that the ANNUAL MEETING of the

Summerland Hospital Society will be held in the Parish Hall on Thursday, February 23rd, 1950 at 3 p.m.

By Order of the Board,

J. E. O'MAHONY,
Secretary-Treasurer.

The Summerland Review

Vol. 5, No. 7 West Summerland, B.C., Thursday, February 11, 1950

LANCE CORPORAL A. WOOD of Westlock, Alta., is shown above in the gear that the well dressed soldier wears for fighting in the Arctic. Lt. Wood is taking part with his regiment, the Princess Patricia's Canadian Light Infantry, in Exercise Sweetbriar which is underway in the rugged stretches of the Yukon lying north of Whitehorse. The white parka is a perfect camouflage against the snow covered hills and the goggles give much needed protection from glare. The clothing has been designed by the Army to retain a maximum of body heat which is of prime importance in the sub zero temperatures existing as the manoeuvres get underway.

Associated Trade Boards Give Unanimous Support To Bridge Over Lake Plan

With delegates from both Naramata and Penticton speaking in favor of the motion, Summerland's resolution seeking support for the plan to build a bridge across Okanagan lake from westside to Kelowna was given unanimous endorsement by the Associated Boards of Trade of the Southern Interior meeting in Keremeos last Friday evening.

Summerland's plea for support to the plan was advanced by J. E. O'Mahony, president of the Summerland Board of Trade and Reeve C. E. Bentley, of Summerland. The associated boards will wire Premier Byron Johnson lending support to the bridge idea as a relief to the traffic bottleneck on Okanagan highway.

Dental Plan Too Costly

It would cost too much. That was the general feeling of representatives of municipalities and school districts in the South Okanagan Health Unit gathered in Summerland Wednesday afternoon for a general discussion of the suggested preventive dental plan.

Delegates returned to their homes planning further discussion on the scheme.

The plan calls for a 15 cents per capita levy to pay for preventive dentistry which, in the first year at any rate, would cover only the primary grade in each school.

Dr. Hall, whose services for this plan could be obtained by the health unit was present at yesterday afternoon's meeting in the municipal council chambers.

Over Hundred Cases Of Mumps In Schools

Including two staff members, there were 107 cases of mumps in Summerland schools in January, Public Health Nurse Miss Joan Appleton reported to the school board at last week's regular board meeting.

Fortunately most cases were of a mild type and the patients were able to return to school after the tenth day. There were also a large number of contacts who had to stay away from school.

Despite the slippery condition of the school grounds last month few accidents were reported, Miss Appleton stated.

Merchants Lose Second Game of Cage Playoffs to Penticton Vets 48-42

Summerland Merchants bowed out of the senior basketball league playoffs last night when they lost to Penticton Vets 48-42 in the second game of the series. Vets won the round 90-80.

As a result of Kelowna Bears surprising victory over league-leading Kamloops Rainbows, the Vets and Bears now tangle for the league supremacy.

Penticton dominated the play for the first quarter but after that it was a close ball game, with Vanderburgh playing a "sleeper" game near the basket to lead the Merchants with 11 markers.

Again Raitt's superior height and ball-handling ability was a big factor in the Penticton win. He was high scorer with 14

while Eshelman was equally dangerous with 11 markers. Penticton led 13-0 in the first quarter but George Clark sparked a rally to pull up to 23-27 at halfway mark. Vets pulled farther away in the third quarter and Merchants managed to take a two-point edge in the final quarter.

Again, over-officiousness of Referee Ron Young tended to spoil the game in the first period but he reigned in the second half and it was a better ball game.

Merchants: Clark 9, Walsh 7, Vanderburgh 11, McLean 4, Ruppel 3, Guild 4, White, Nesbitt, Dunham 4-42.

Vets: Raitt 14, McGannon 6, Eshelman 11, Russell 8, Kincaid 2, Ashley 1, Drossos, Allison 6-48.

Former Local Man Dies in Auto Crash

Albert Milner Heinrich died in hospital at Oliver at 5 o'clock yesterday afternoon two hours after the car in which he was riding hit a post on the highway two miles south of Oliver.

Heinrich has been living in Osoyoos area but formerly was a resident of Summerland.

Other occupants of the ill-fated car were Henry Schable, his wife Laura, formerly Laura Heinrich, a sister of the deceased; Robert Heinrich, a brother, and Fred Schramm.

Schramm is in "very serious condition", according to B.C. Police at Oliver but Henry Schable who also was taken to hospital is expected to recover. Mrs. Schable and Robert Heinrich were not hospitalized.

B.C. Police state they do not know who was driving the car and have no knowledge what caused the accident.

Fire in Home Put Out Quickly

Summerland fire brigade was called out at 11 o'clock Wednesday morning to extinguish a fire which started in the woodbox of a house owned by Ed Steffans on the road immediately west of the Station road.

Eric Siems has been sleeping in the house for the past few days but otherwise the house was unoccupied. It is known as the Adams house by neighbors in that locality.

Fire commenced in the woodbox next to the stove and the house was filled with smoke when the brigade arrived. Fortunately, it was discovered before much fire damage occurred.

Referees Fail to Please in First Round of Coy Cup Hockey As Locals Bow to Kelowna

Summerland's first Coy Cup hockey bid was nipped in the bud at Kelowna Memorial arena on Monday and Tuesday nights as the all-star Kelowna commercial league team won both games by scores of 6-5 and 6-4 to take the round 12 goals to 9. Kelowna now plays Kamloops in the second round of this series for the Coy Cup, emblematic of the intermediate hockey championship of the province.

But the large number of Summerland fans who attended these two games are not entirely satisfied with their handling while Kelowna fans and players are equally irked at Summerland's referee Wendell Schwab.

Summerland held a smoother-working Kelowna crew to a five-all draw until the final two minutes of the Monday night's game when Torfason showed home the winning counter to give the northerners a 6-5 decision.

Eighteen penalties were handed out, twelve of them to Kelowna, and five coming almost in succession in the last period.

Some of the spectators endeavored to scramble onto the ice in the third period when Schwab called an interference penalty on Brian Casey. Casey blew his top and attempted to manhandle Schwab before he was forcibly restrained by the Kelowna arbiter, Bud Fraser of Kelowna.

For this flareup, Casey was awarded a ten-minute misconduct penalty which was the second one of the period, Bill Garrow of Kelowna having won the same infraction for arguing with Referee Schwab.

Post-game Mob Scene According to one Kelowna report, a mild mob scene occurred at the door of the referees dressing room after the game, but the excitement soon died down.

Dick Steiningor and George Friesen led the Summerland attackers with two goals each while Al McGargar was responsible for the fifth tally. A brace of goals each were counted by Eddie Witt and George Garrow for Kelowna while Bill Garrow and Torfason scored the others.

First period—1, Summerland, Steiningor, 8:10; 2, Kelowna, G. Garrow (Johnston) 12:28; 3, Kelowna, Witt (Lipsett) 15:50. Penalties: G. Garrow, Casey (2) Mann, Abrams, Taylor, Bishop, Steiningor, Johnston.

Second period—4, Kelowna, G. Garrow (Witt) 1:02; 5, Summerland, McGargar, 2:03; 6, Summerland, Steiningor (Roberge) 4:01; 7, Kelowna, W. Garrow, 7:25; 8, Summerland, Friesen (McGargar) 12:50; 9, Kelowna, Witt (Torfason) 14:25. Penalties: Witt, McLean, Roberge, Johnston.

Third period—10, Summerland, Friesen, 2:40; 11, Kelowna, Torfason (W. Garrow, W. Johnston) 18:18. Penalties: Witt (3), W. Johnston, 18:18. Continued on page 4

Municipalities Meet In Vernon Today

All members of Summerland Municipal Council with the exception of Councillor F. E. Atkinson are in the North Okanagan today attending a quarterly meeting of the Okanagan Municipal Association.

Reeve C. E. Bentley is the only executive member left since the civic elections of December and he will preside until new officers are elected. J. H. Horn, who was elected president last fall, declined to continue as alderman of the City of Kelowna.

Municipal delegates are guests of the City of Vernon today.

Annual Trade Board Banquet On March 9

Although the speaker for the annual board of trade banquet has not been chosen yet, all other details have been finalized, an executive meeting of the trade board was informed on Monday evening.

G. A. Laidlaw, chairman of the trade board's program committee, is in charge of arrangements and expects to make an announcement soon regarding the speaker.

The Good Citizen cup, donated originally by Reid A. Johnston for acceptance by the Good Citizen picked by the board of trade executive, will be presented as usual as a feature of the evening.

Also, two life memberships will probably be presented by the trade board to persons who have served the board for a long period of time and who, in the opinion of the board's directors, are deserving public recognition.

Entertainment features will comprise musical numbers rendered by several picked Kelowna artists.

Hospital to Seek \$1,400 From Municipalities to Finance Kitchen Changes

President S. A. MacDonald and Finance Chairman Jim Muirhead will approach Summerland municipal council next week with hat in hand looking for a municipal contribution of approximately \$1,400.00 to provide modern facilities for the hospital kitchen.

These two directors of the Summerland Hospital Society were chosen a delegation by the hospital board Tuesday night when it became apparent that these kitchen alterations and additions are essential for the continued operation of the Summerland General hospital in 1950.

Although the hospital has managed to operate under the BCHS during the past year, there has been no opportunity to accumulate any reserve for capital expenditures. Therefore, the hospital directors will appeal to the municipality for aid.

"We have to feed our patients," reminded the matron, Miss M. Bennest, in informing hospital directors once again that the hospital kitchen stove is beyond the point where it can operate economically and needs replacement.

She intimated that unless more adequate kitchen facilities are provided there is every likelihood that the kitchen staff will refuse to continue.

Three months ago the hospital directors estimated that a new electric stove, hot water tank, double-sink and minor alterations to the kitchen, as recommended by the house committee, would cost in the neighborhood of \$2,000.

Every attempt has been made to borrow this money from the government on a repayment basis or to finance in some other method. However, government officials state they are willing to pay the usual one-third of authorized capital expenditures but cannot go any farther along the way.

Therefore, the hospital directors feel they must raise the other two-thirds from the municipality if they are to operate the hospital kitchen efficiently in 1950.

Annual Meeting Today Details of the hospital predicament will probably be outlined to the annual meeting being held this afternoon at the parish hall.

Officers whose three-year term expires this year are President S. A. MacDonald, W. R. Boyd and C. J. Huddleston. Only Mr. Boyd has signified his intention of dropping out of hospital activities.

An active stand against the James A. Hamilton hospital survey, which calls for the elimination of a general hospital in Summerland during the 1951-71 period with consolidation of the district hospital needs in Penticton, was indicated by Tuesday's board meeting.

Hospital directors are preparing a resolution to forward to Hon. G. S. Pearson, minister of health and welfare, decrying this portion of the Hamilton survey report and urging that a program of hospital renewal be instituted here instead.

This resolution will also go to Premier Byron Johnson and W. A. C. Bennett, MLA for South Okanagan.

Hospital directors will also urge local civic bodies to endorse this resolution or take similar action. The municipal council, board of trade, junior chamber, retail merchants, Canadian Legion, Rotary and Kiwanis clubs and the Women's Institute will be asked to support the hospital board's contention.

Continued on page 4

WATER SAMPLES ARE SATISFACTORY

Five samples of Summerland water were taken during January by the South Okanagan Health Unit and found to be quite satisfactory, council was informed last week. Due to the cold weather, however, some variations in chlorine used was reported.

Gradual improvement in restaurant conditions was also reported and conditions in all eating places, groceries and butcher shops were said to be quite satisfactory.

Summerland Baseball Club to Play In International League This Year

Summerland has been accepted into the international baseball league and will compete with two other Canadian teams and five American clubs this summer. This spot in the southern section of the loop means that the fastest baseball in the interior will come here this summer.

Allan Holmes, new president of the Summerland Baseball club, and last year's manager, informed The Review this week that the Summerland entry had been agreed upon by the other clubs in the league in preference to Princeton and another U.S. team who were competing for an opportunity for the spot vacated by

Oroville, last year's cellar dweller. Entry fee was mailed to the league officials, Curly Cox and George "Scotty" Gordon in Penticton last Saturday. Miss Nan Thornthwaite has consented to carry on as club secretary-treasurer for a second season and the hardball boys have chosen Ben Trafford as manager for the 1950 season. The ball boys are on the lookout for new material to bolster their 1950 squad and are especially in need of another battery as this league will mean faster company than Summerland travelled in during 1949.

Gordon Beggs Again Heads First Aiders

Gordon J. Beggs was again selected as president of St. John Ambulance Assn at the annual meeting of the local branch held on Wednesday evening, February 15.

Mr. Beggs, in submitting his annual report, declared that 1949 had been a fairly quiet year for the Summerland centre with first aiders being supplied to the Okanagan ski zone tournament, spring fair and hell drivers' demonstration.

Poor response was accorded the national appeal for funds last year from Summerland residents, he noted.

The course in first aid sponsored by the Summerland centre found the following awards being received: 8 certificates, 1 voucher, 1 medallion, 4 labels, and 2 industrial first aid certificates.

First Aid Post One of the chief events of 1949 noted by Mr. Beggs was the setting up of a highway first aid post, the B & B Garage having offered space to store the necessary equipment.

From provincial headquarters for this post there was received a very complete first aid kit, haversack, blankets, stretcher, and "First Aid Post" signs to be erected at one and two-mile points on the highway.

As there have been insufficient requests, no first aid course will be held this spring, it was decided.

First aiders are being supplied for the high school ski meet this coming Sunday and one of the St. John stretchers is to be loaned to the local fire brigade.

Other officers chosen by the annual meeting are: Vice-chairman, Mrs. J. E. O'Mahony, secretary-treasurer, Miss Louise Atkinson; executive, C. Menu, C. H. Denike, A. D. Wilson; honorary chairman, H. Sharman.

School Trustees Frown On Boost In Annual Fees

B.C. School Trustees' Assn. has raised its fees from \$20 to \$50, as far as Summerland school district is concerned, but the local trustees do not know yet whether they will join this year.

It is well known that Trustee Dr. James Marshall, when he returned from the trustees' convention at Qualicum last summer turned in an adverse report on the convention activities.

Last week, it was decided to hold over payment of annual fees until the Okanagan branch meets near the end of March and discuss the subject with other school trustees.

Dr. Marshall could not see that the boost was justified as far as any further service to the local school board was concerned.

Girls Choir Will Present Music Concert

The youngest pupil of Miss Kay Hamilton's girls' choir usually opens the annual recital. This year it will be Linda Betuzal, who is six and a half years old.

The concert will be held in the Youth Centre on the evening of the last day of February and a large attendance is expected with the recital of primary importance and a secondary one in seeing what has been done at the Youth Centre.

Representatives from the intermediate department of the music class will be Eileen Wilcox and Laurel Youngusband this year.

Vocal soloist will be Shirley Schumann. The girls' choir will sing and the glee club which consists of senior club girls and the boys' bass section will take part.

Piano duets and trios are planned, too. Those on the program include Miss Hamilton, Sherrill Smith, Ella Mohr, Melva Stevenson, Frances Atkinson, Lona Woollams, Jean Imayoshi, Doreen Steuart, Maureen Prior, Shirley Doringor, Mary Marshall, Jane Clarke, Phyllis and Mildred Verrier, Jean Johnston, Jill Sanborn, Joyce Schumann, Evelyn Washington, Kit Multhead, Paul Broth, Ken Brawnner and Eugene Bates.

Orange Lodge Chooses Officers

At a recent meeting of LOJ 2086 the following officers were installed for 1950: IPM, J. H. Walton; WM, Joe Burnell; DM, Loyal Campbell; Chaplain, J. Lekei; Rec-See, Frank MacDonald; Fin-Sec, Elmer Husblihl; Treas, Dave Taylor; Marshal, W. Dracis; 1st Lect, Wm. Patton; 2nd Lect, Harry Milloy; Tyler, S. Dodmann; 1st Comm, Dave Taylor; Sr.

CORPORATION OF SUMMERLAND - FINANCIAL STATEMENT, 1949

AUDITORS' REPORT

Kelowna, B.C.,
February 14th, 1950

To the Reeve and Councillors,
The Corporation of the District of Summerland,
West Summerland, B.C.

We have conducted a continuous audit of the books and records of the Corporation for the year ended December 31st, 1949. We present herewith the following attached statements, which have been prepared and certified by us and signed by the Treasurer:

- "A" Balance Sheet
- "A1" Schedule of Fixed Assets
- "B" Statement of Receipts and Disbursements
- "C" Statement of General Revenue and Expenditure
- "D" Operating Accounts—Public Utilities
- "E" Schedule of Bonded Indebtedness

ASSETS

Cash on hand and in bank: All cash receipts were checked periodically during the year and the cash was verified by actual count at the time of the final audit for the year under review.

All bank transactions were checked by us periodically during the year and at the time of the final audit for the year under review. The bank balances were verified by reconciliation with the amounts shown to be on deposit by the bank records, which balances were confirmed by letter received by us from the bank.

Investments — Electric Light Surplus and General Funds: Certificates representing these investments were examined by us. During the year under review General Funds to the extent of \$10,000.00 were invested in Province of B.C. bonds.

Arrears — Taxes \$3,735.69; Rates \$3,449.34: The amount of taxes and rates disclosed by the Treasurer's records is in agreement with the total of the balances shown by the Collector's records. All receipts of taxes and rates were checked by us to the Collector's Roll for the year under review. We did not check postings of Electric Light Rates receipts to the Electric Light Rates Ledger but we have verified the total of the amounts outstanding by comparison with the recapitulation of this ledger.

Sundry Debtors: The total of the individual balances is in agreement with the Control Account in the General Ledger.

Okanagan Union Library: The amount shown under this heading is arrived at as follows:

Payments on account of 1949 Levy	\$1,750.00
Less: Amount at credit 1/1/49	\$ 26.41
Amount of 1949 Levy	1,694.80
	1,721.21
Payments in excess of Levy	\$ 28.79

The above amount we are informed will be taken into consideration in determining the amount to be included in the 1950 levy.

Agreement of Sale: All payments under this agreement are up to date, the balance shown as owing being payments due in 1950 and 1951.

Tax Sale Lands: Proceeds from cash sales of Tax Sale properties and receipts of payments under Agreements of Sale in respect to Tax Sale properties have been set aside in a special bank account which now stands at \$3,193.37. During the year under review \$5,000.00 was expended out of this fund for asphaltting roads. Provisions of the Municipal Act in connection with this expenditure were complied with.

Sinking Fund: All securities were examined by us and found to be in order.

Summerland Scholarship Fund: We examined Dominion of Canada bonds par value \$3,000.00 and were advised by letter from the bank that they hold for safekeeping Dominion of Canada bonds par value \$4,700.00.

Dog Tax Fund: These securities were examined by us and found to be in order.

Deferred: School District No. 77: This account has been set up to record the advances made to the School District under the provisions of By-laws Nos. 667 and 690. Contributions made to the Municipality's Sinking Fund by the School District will reduce this amount each year. The necessary adjustment in respect to Debentures issued under By-law No. 667 in 1948 has been reflected this year.

Inventory of Light Poles: This account has increased by an amount of \$283.40 over the inventory valuation as at December 31st, 1948. We wish to reiterate the remarks contained in previous reports to the effect that more adequate inventory records must be maintained by the Electric Light Department before correct segregation of costs can be reflected on the Treasurer's records.

LIABILITIES

School District No. 77: Unexpended By-law Funds: By-law No. 667: In our opinion the amount of \$136.27 is due to the School District on the basis of an adjustment for 1948 in respect thereto as follows:

Accrued interest on debentures sold under By-law No. 667	\$264.42
Less additional expenses of By-law No. 667	128.15
	\$136.27

By-law No. 690: The balance in this account represents the proceeds of the issue of debentures under this By-law of \$192,769.76 less an advance of \$5,000.00 to School District No. 77 and the By-law expenses of \$515.31.

Ordinary Account \$306.55: This amount was arrived at as follows:

Balance at credit 31/12/48	\$ 1,757.78
Levy for year (1949) (Includes \$1,885.95 discount on debentures issued under By-law No. 667)	55,949.21
	\$57,706.99
Paid to School District No. 77	\$55,514.49
Discount on sale of debentures under By-law No. 667	1,885.95
	57,400.44
Amount at credit of School District No. 77 — Ordinary account	\$ 306.55

GENERAL

We have been assured by the Treasurer that all known liabilities have been reflected on the books of the Corporation.

Statement "B" is submitted in the same form as in previous years. It is our understanding that all detailed information required by the Department of Municipal Affairs will be provided by the Treasurer when the usual annual returns are filed with the Department.

CERTIFICATE

In accordance with Section 408 of the Municipal Act, we wish to report that:

- "A" We have obtained all the information and explanations required.
- "B" In our opinion, subject to the foregoing remarks, the Balance Sheet referred to in our report is properly drawn and truly and correctly exhibits the state of the affairs of the Corporation as at December 31st, 1949, as disclosed by the books and records and information received.
- "C" We found all books, documents and accounts examined by us to be in order.
- "D" In our opinion the forms and records used are well suited to the requirements of the Corporation.

Respectfully submitted,
RUTHERFORD, BAZETT & CO.
Chartered Accountants, Municipal Auditors

EVERYBODY WELCOME

patrol.
From now on each patrol with-out a patrol box loses five points each week for the patrol until the patrol box is complete. Patrol boxes are used to keep patrol equipment together, such as pencil and paper, maps, first aid kit, ropes, instruction manuals, signed flags, bandages, etc.

The ten-minute patrol, instruction period features second-class round and square lashings; next week guy line hitch and timber hitch.

Dr. Andrew Completed his interesting talks on geography, industries, churches, prominent people, etc. of Summerland. This completes instruction on the pathfinders badge requirements. Thanks Dr. Andrew.

Mr. Lingford and Mr. Fisher instructed in signalling and Mr. Walsh dealt with topographical maps.

Announcements — Meeting for next week is changed to Monday instead of Tuesday. Meetings start sharp at 7:00, not 7:10 p.m.! Duty Patrol, Buffaloes. Since the Girl Guide skating party last week was cancelled on account of weather, the Guides have asked the troop to a party this Friday, February 24 at the Youth Centre, 7:30 p.m. Some wrong pie plates and casseroles were exchanged at the father and son banquet. Will parents check on this and if possible make exchanges.—Dr. D. V. Fisher.

Olive Mason had been elected to attend the high school conference at UBC on March 17. Nominees' names for this honor were chosen by the student body. The student council and teachers then elected a student from this list. Olive's only competitor was Ron MacRae, who lost by only a slight margin.

Enthusiasm has risen to a peak over the Summerland High School ski meet, being held this Sunday. Schools from all over the valley are sending skiers, and all spectators are welcome. A bus will be leaving from the Nu-Way at eleven o'clock sharp, for any spectator wishing transportation to the ski hill.

Monday the cadets used the generators for recharging batteries for the radio system that will be used during the day. Lorne Logie, who has proved himself an expert in this field, will be in charge of the system.

Last Saturday a party of four boys Robin Fisher, Johnny Huva, Norman Richards, and Ross Tingley packed snow down on the runs. With all the interest taken in this event it is sure to be a bang-up affair.

Summerland girls are wishing Mary Ward a hasty recovery from the mumps so that she may continue to uphold the ski-titles which she has won this year.

Saturday afternoon the volleyball teams are entering the volleyball tournament at Westbank. Owing to the heavy expenses of chartering a school bus twice in a week, students are travelling by car. Westbank students are preparing a banquet and dance for competitors.

Mr. Turnbull, school inspector for the South Okanagan, visited our high school this Tuesday.

On her sixteenth birthday, Winifred Smith entertained fifteen school friends last Friday evening. A good time was had by all.

Mr. Turnbull, school inspector for the South Okanagan, visited our high school this Tuesday.

On her sixteenth birthday, Winifred Smith entertained fifteen school friends last Friday evening. A good time was had by all.

Mr. Turnbull, school inspector for the South Okanagan, visited our high school this Tuesday.

On her sixteenth birthday, Winifred Smith entertained fifteen school friends last Friday evening. A good time was had by all.

Tuesday night was the first scout meeting held on the new hardwood floor in the Youth Centre. This is one of the finest floors in the valley and makes indoor game playing safe from splinters. Parents are asked to make sure their boys bring running shoes to scout meetings; otherwise the boys will have to remove their shoes.

The troop turned out 37 boys, well uniformed, but with a few hats and hat bands missing. Hatbands, if necessary can be made from old suitcase straps.

In the patrol inspection and competition, standings are as follows: Beavers 138, Eagles 111, Hawks 98 and Cougars 86. Each boy absent from his patrol costs the patrol a maximum of 10 points. Each boy who did not attend church the previous Sunday also loses points for his

MORE ABOUT

HOSPITAL

Continued from page 1

Lose Big Payroll

It was pointed out this week that loss of the Summerland hospital would mean elimination of a payroll amounting to \$30,000 annually here, while sending of patients to Pentiction hospital would be driving more persons to do business in the bigger centre to the south.

At the same time, Secretary J. E. O'Mahony voiced agreement with the stand being taking by the B.C. hospitals administrators that the amount of statistical information being sought by the BCHIS and other sections of the department of health and welfare is growing at such an alarming rate that further clerical help will have to be provided.

All hospital administrators are urging the BCHIS to cut down on this clerical work in order that no additional expenses be incurred in hospital administration.

Recommendation of Fire Chief Ed Gould that two new fire extinguishers be purchased was endorsed by Tuesday's hospital meeting, while if found feasible and not too expensive the nurses' home will be hooked to the hospital fire alarm system.

Mrs. J. C. Wilcox, new hospital auxiliary president, was welcomed to the hospital directors' meeting on Tuesday by President MacDonald.

Ontario fishermen think new nylon nets are too good. The sparkle of the net attracts so many fish that the piscatorial population may be endangered.

Solo is Newest Canning Peach To Emanate From Local Station

The search for peach varieties of firmer texture, combined with high quality, continues from year to year. In 1946 the Summerland experimental station introduced Spotlight to the fruit industry, and now Solo, a variety which is expected to become a useful addition to the list of firm canning peaches, is being introduced.

Solo is one of the results of a controlled breeding experiment begun in 1933, when crosses were made of Hale and Veteran. The seedlings were planted in 1936 and Solo was first selected as showing promise in 1941. Since then it has been subjected to extensive tests both as fresh fruit and as a canning variety, state A. J. Mann and F. W. L. Keene of the Summerland station.

The original tree has been a heavy annual bearer, and young trees exhibit a similar tendency. The variety sets thickly and requires heavy thinning. The tree proved hardy at the station during the moderately severe winter of 1942-43. Fruit-bud injury during the winter of 1948-49 was slight, insufficient to reduce the crop and much less severe than on Hale.

Long Picking Range
The fruit matures approximately with Valiant and Veteran.

Solo is large, well colored, yellow-fleshed, firm, juicy, good to above fair in quality and practically freestone. It has an exceptionally long picking range, remaining firm on the tree for several days after reaching maturity. Easy to pick and handle with a minimum of bruising. Solo is superior in this respect to Vedette, Valiant and Veteran.

In 1949 the fruit was clean and well finished and when canned was of attractive appearance. However, in certain seasons the appearance has been somewhat marred by patches of skin which lack normal pubescence and by the fact that the fruit is rather susceptible to the netted form of mildew known as "Rusty Spot" which may sometimes appear in the canned product.

In peeling the fresh fruit, the skin adheres moderately to the flesh, but in the canning operation no particular difficulty is experienced in this regard. When canned the quality is good.

Growers who are interested in a variety firm enough to reduce wastage in the orchard, the packing house and the cannery, may consider Solo worthy of commercial trial.

All the buwood available from four trees will be distributed to nurseymen in the summer of 1950.

Clarke Wilkin Talks To Kelowna Teaching Staff

KELOWNA—Clarke Wilkin, of Summerland, president of the Okanagan Valley Teachers' Association, addressed the monthly meeting of the local branch at the Kelowna high school recently.

Mr. Wilkin outlined the main item of business taken up at the B.C.T.F. executive meeting held in Vancouver before Christmas.

The local members were told that plans for the erection of a building in Vancouver suitable for the B.C.T.F. are proceeding satisfactorily and it is hoped that a start on the structure will be made in the near future.

Through changes in the geographical areas under the federation, Revelstoke teachers are now members of the O.V.T.A.

MORE ABOUT—

REFEREES

Continued from page 1
Garrow (minor, misconduct)
Casey (minor, misconduct)

Second Game Tuesday
On Tuesday, Summerland got back the one goal loss from the previous night but was outscored by two goals in the second and one in the third to lose 6-4.

Neutral referees had been ordered from Vernon but Bud Fraser of Kelowna was given the spot of chief arbiter and the preponderance of Summerland fans showed their disapproval of his calls in no uncertain terms.

Several times the game was called to allow peanuts to be swept from the ice and Fraser appealed to and threatened the crowd without receiving any sympathy.

One Summerland fan in particular was under strict surveillance during the last period by the arena manager and a plainclothes policeman, according to a Kelowna reporter.

George Friesen was the mainstay of Summerland's attacking strength, with a hat trick for his efforts, while Patton tallied the fourth counter.

Again Kelowna was awarded most of the penalties, especially in the final period, but Summerland failed to take advantage of the extra man advantage.

First period—1, Summerland, Friesen (Taylor, Croft) 8:52. Penalties: G. Garrow (2), Mann. Second period—2, Kelowna, Casey (Lipsett) 2:43; 2, Kelowna, G. Garrow (Newton, Johnston) 10:24; 4, Kelowna, G. Garrow (Newton, Johnston) 14:11; 5, Summerland, Patton (Abrams, Grycon) 15:26. Penalty: Dolynik.

Third period—8, Kelowna, Torfason (Lipsett, Casey) 4:35; 7, Summerland, Friesen (Croft, Taylor) 8:06; 8, Kelowna, Lipsett (Torfason) 12:30; 9, Summerland, Friesen (Taylor) 17:44; 10, Kelowna, Lipsett (Witt) 18:50. Penalties: Eldon, Casey, Dolynik.

Meets Friend on Crowded N.Y. Street

How is it that when people are in a big city and only know one or two others there they often meet those very persons?

That was what happened to Miss S. Kita on a recent motor trip to Montreal and New York with her brother, Mr. Minoru Kita.

Standing near a subway entrance on Madison ave., Miss Kita saw a girl whom she knew! The only person in New York that she might know at all was the former Violet Usawa, now Mrs. Carl Dorio, and along the street she came!

The girls had not seen each other for twelve years and it was a happy re-union. After leaving Summerland with her parents to return to Japan Miss Usawa worked for the Red Cross in that country during the war. There she met and married an American soldier, also in Red Cross.

They returned to live in the States where Mr. Dorio is a social welfare worker for the city of New York. Mrs. Dorio is a sister of Mrs. Arthur Matsu.

Christ Lutheran Social Evening Attracts 53

The second social evening held by the ladies aid of Christ Lutheran church was even larger than the first. This was on Monday evening, February 20 in the basement of the William Kopp home and was attended by 53 persons, including Rev. Mr. Vorath and his family and others from Kelowna, Rev. Mr. Lang and friends from Oliver and local guests.

Mrs. Fred Schmidt and Mrs. Kopp arranged games, sing songs and general entertainment. From the ceiling marshmallows were suspended, and these could be eaten if they could be reached, this stunt being part of the fun. Mrs. Wm. Huva and Mrs. Adam Lekei served the refreshments of doughnuts and hot dogs in their efficient way.

Proceeds from the event are to provide literature for the Sunday school.

SUGGESTS BAD CORNERS ON HILL BE IMPROVED

H. C. Howis visited the council meeting last week to suggest that the road department improve a bad corner immediately south

Community Friendship is Federation Theme

Community Friendship was the theme of St. Andrew's Federation meeting held on Thursday, February 16, with Mrs. T. W. Boothe presiding.

Visitors and members from many parts of Canada from the maritimes to the west coast were present, and Amsterdam was recently the home of the guest soloist, Mrs. Wouters.

Mrs. T. A. Walden, Mrs. A. McLachlan, and Mrs. I. C. Schwass developed the theme in their addresses. Sociability was the key-note, too, when tea was served by Mrs. H. R. Whitmore, Mrs. T. A. Walden, and Mrs. W. F. Ward, hostesses for the afternoon.

Some of these present who are relatively new to the community were Mrs. Bancroft, formerly of Ocean Park, B.C.; Mrs. Barclay from Vancouver; Mrs. Duguid of Nova Scotia; and Mrs. Cyril Stent, Mrs. Budd and Mrs. Dracas, who formerly lived on the prairies.

of his property on the approach to the telephone hill. He stated three accidents had occurred recently on this corner. The request will be investigated.

Harry Bert Iris

An Important Announcement about NEW MARGENE

When the sale of Margarine in Canada became legal 12 months ago, MARGENE was the first brand to appear on the market.

At that time Margarine had been banned from Canada for 25 years. There was no way of knowing what flavour and what texture would best appeal to the Canadian palate.

In the intervening 12 months, Canada Packers has carried on week-to-week tests to find out exactly the flavour Canadians wish.

We feel we have it in the NEW MARGENE—the flavour and the texture Canadians like.

If you have not tasted the NEW MARGENE try it now.

SPREAD IT on hot toast.
SERVE IT with hot vegetables.
BAKE with it.

You will like the NEW MARGENE

LENGTHY TRAIN TRIP EN ROUTE TO COAST

Mrs. Ann Bingham, who has been spending the winter in Calgary, was travelling last week from the prairie city with her father Mr. Gibson. They spent thirty hours at Spence's Bridge, then were moved on to North Bend where they slept in the train overnight before proceeding to the coast. Mrs. Bingham and her father will stay in Victoria for a couple of months, and the former plans to return to her home at Summerland early in May.

SOCIAL EDITOR

Mrs. A. W. Vanderburgh

VISITING HERE—

Mrs. V. O. Nesbitt of Needles, B.C., flew here recently to visit her mother, Mrs. A. N. Tellman.

Renewing old acquaintances in Summerland over last weekend was Mr. Freddie Holden of Princeton.

Mrs. Vorath, of Kelowna, who accompanied her husband, Rev. Mr. Vorath when he came to attend the social of the Christ Lutheran congregation on Monday evening is staying in Summerland for a week to visit among the members of the church.

Mr. Cliff Robinson of the UBC extension department, who is conducting art classes in the high school this week, is a guest of Mr. and Mrs. H. C. Whitaker while in Summerland.

Mr. H. S. Hurn, director of school and community drama for the B.C. department of education was a weekend guest of Mr. and Mrs. Lacey Fisher.

Mr. Glenn Crich of Revelstoke is visiting at the home of Mr. and Mrs. W. H. McLean this week, guest of Mr. Keith McLean.

Mr. Andy Stewart of Allenby visited last weekend at the home of his brother and sister-in-law, Mr. and Mrs. Len Stewart.

Visitors at the home of Mr. and Mrs. A. McCargar last weekend were Mrs. McCargar's brother-in-law and sister, Mr. and Mrs. R. L. Keeley, of Penticton, and their small son, Kenneth.

Service Club Hears Reports Of Committees

In a simple impressive ceremony with 41 members present at their first meeting of the year, officers of St. Andrew's Service Club were installed by Rev. H. R. Whitmore on Monday evening, February 20 in the church hall.

Those installed were: Mrs. A. McKenzie, president; Mrs. James Marshall, past president; Mrs. A. Scott, second vice-president; Mrs. Leslie Rumball, secretary; and Mrs. S. Feltham, treasurer. Mrs. A. K. Elliott, first vice-president, was unable to be present.

The spirited hymn, Faith of our Fathers, was sung and its subject related to women's organizations and to their members by Mr. Whitmore, who led the devotional period.

Mrs. McKenzie, the president, welcomed the visitors, especially those delegates from the Federation, Mrs. A. McLachlan and Mrs. W. D. Laidlaw.

Interesting reports were given by committee heads, one of the most outstanding being on the preparation and distribution of Christmas parcels, given by Mrs. W. F. Ward and Miss Joan Appleton.

Mrs. McKenzie named other members of the executive for the year, who are Mrs. C. Morgan, pianist; Mrs. E. H. Hannah, visiting new members; Mrs. W. Powell, church decoration; Mrs. H. Mitchell, refreshment convener; Mrs. B. Underwood, hospital visitor; and Mrs. C. Reinertson, press secretary.

The meeting decided to send a food parcel to a former member of St. Andrew's Sunday school now living in Japan.

Hearing of the need for supplies and equipment in the Union Theological College at Vancouver, it was decided to ask for a list of most-wanted articles with a view to supplying some of them.

All reports showed a great deal of activity in all departments last year, and Mrs. Ward gave a brief resume of the congregational supper held in January with a reminder of the joint meeting of the congregations of Lakeside and St. Andrew's churches next Monday.

Six members were appointed to plan a spring entertainment. These were Mrs. W. B. Powell, Mrs. E. E. Bates, Mrs. C. Morgan, Mrs. A. Crawford, Miss Dorothy MacDonald and Miss Dorothy Boots.

It was thought that many of the older and shut-in members would appreciate visits from Service Club members during the next month and Mrs. F. Doumont was named to arrange for this.

The meeting decided to sponsor a concert by Naramata Leadership Training school on March 2 in St. Andrew's church.

After the Mizpah benediction delightful refreshments were served. A feature of these was the huge decorated birthday cake, marking the club's sixth birthday. Those responsible for the attractively arranged buffet were Mrs. J. C. Wilcox, Mrs. James Marshall, Mrs. D. Wilson, Mrs. W. J. Broderick, Miss Bertha Bristow and Miss Christine Mair.

NEW ARRIVALS

A baby girl, who has been named Jane Margaret, was born at Summerland General hospital to Mr. and Mrs. Lorne G. Perry on Friday, Feb. 17.

VISITING ABROAD

Miss Marion Shannon, RN of the Summerland hospital nursing staff is a visitor for part of this week at her home in Vancouver.

Mr. Glen Ellis is a patient in Shaughnessy hospital, Vancouver, where he is receiving treatment.

Mrs. R. A. Fredrickson and her son Chris are visitors at Vancouver this week.

Mrs. R. A. Johnston went to Vancouver on Saturday night's train to join Mr. Johnston, expecting to return with him in about a week.

Mrs. Horace Read is spending some time in Vancouver with Mr. Read who has been at the coast city because of illness.

Mr. Charlie Pollock was a recent visitor to Vancouver.

Mr. D. L. Shores was a visitor to Vancouver last week.

Officers for St. Stephen's Are Selected

Between seventy and eighty were present on Wednesday evening, February 16 for St. Stephen's church annual supper in the parish hall where the tables were prettily decorated with red candles and the Valentine motif.

Mrs. Earle Wilson was general convener for the friendly affair and Mrs. C. Smythe arranged the tables and decorations with all the members of the evening auxiliary helping in various ways.

Mr. C. J. Clark was appointed rector's warden and Mr. C. J. Huddleston elected people's warden at the annual meeting which followed the supper.

Mr. W. C. W. Fosbery is secretary of the church committee and Mr. Alex Watt, treasurer. Other members of the committee are Miss Marion Cartwright, Mrs. D. L. Sanborn and Messrs. H. C. Howis, A. Calvert, Hodgson, W. C. Baker, C. Smythe, J. Y. Towgood, J. C. Barkwill, A. D. Cogan, E. C. Bingham, Wilburn, A. E. Gardner and Dr. D. V. Fisher.

Lay delegates to the synod are Mr. C. J. Clark and Mr. Alex Watt. Alternate delegates are Messrs. C. J. Huddleston, H. C. Howis and Dr. Fisher.

Training School Pupils Come Here

Concerts given by the students of the Naramata Leadership Training school have been well received wherever the students have appeared, and their big bus on the street is a sign of potential entertainment.

The students are to be in West Summerland at St. Andrew's church next week, and as well as their program of music and recitations, Rev. D. K. Faris dean of boys, will speak.

Mr. Faris was formerly a missionary in China and worked with the United Nations in that country.

The silver collection to be taken is for the work of the school.

Mr. George Tait of Sudbury visited last week at the home of his brother-in-law and sister-in-law, Mr. and Mrs. D. M. Wright.

CGIT Makes Candy Baskets for Bazaar

The CGIT of St. Andrew's church meets every Wednesday and the girls are busy on a project of making candy baskets which will be used for the CGIT stall at the Ladies' Federation annual bazaar.

At the last regular meeting on Wednesday, February 15, Joan Hong was appointed as the new agreed upon at this session.

Meetings are opened with repeating the purpose of CGIT and are closed with Taps.

Legion WA Meet Discusses Bazaar

Business arrangements for the spring bazaar were discussed at the regular meeting of the Legion W.A. in the Parish hall with 30 members in attendance. Donations to the March of Dimes and the Summerland Band were agreed upon at this session.

The overseas parcel was won by Mrs. Phil Davis, who will send it to an 83-year-old aunt in England.

NEW RESIDENT HERE

Mrs. Bancroft of Ocean Park, B.C., has come to Summerland and has bought Mrs. James Darke's former home on the station road. Mrs. Bancroft's daughter, Mrs. Allison and her family will make their home with her.

Annual Meeting of "WOMAN'S WORLD DAY OF PRAYER"

Friday, Feb. 24

to be held in ST. STEPHEN'S ANGLICAN CHURCH at 3 p.m.

Mrs. E. C. Bingham Heads Auxiliary

Mrs. E. C. Bingham was elected president for 1950 of the Evening Auxiliary of St. Stephen's church at the meeting held on Monday, February 20.

Mrs. C. Smythe will be the vice-president with Mrs. J. Y. Towgood secretary and Miss Mildred Clark treasurer and Dorcas secretary.

Convener of the visiting committee is Mrs. T. B. Lott. Mrs. Eric Skinner was named head of the sewing committee and tea group is headed by Mrs. J. Lamey.

This group did a great deal of work last year in making it possible to have the church and rectory renovated.

EASY CREDIT TERMS HELP YOU PURCHASE FARM IMPROVEMENTS

The more modern your farm equipment, the less you labor and the more money you make. Your wife, too, can speed her round of chores with new work-saving devices. But, perhaps, your progress toward a better-equipped farm and home is barred by lack of ready money. If so, let a Bank of Montreal Farm Improvement Loan overcome this obstacle for you.

These loans are available to farmers for many useful purposes. Thousands have met the easy repayment terms out of the greater profits thus made possible, and they have increased efficiency and comfort at the same time.

You will find your B of M Farm Improvement Loan an economical way of getting ahead, for the only charge is interest at five per cent. Whether you want a tractor or a washing-machine, a new building or road repairs, you will be wise to talk it over as soon as you can with James Muirhead, B of M branch manager at West Summerland. SUMMERLAND SCHOOL DISTRICT NO. 77, WEST SUMMERLAND, B.C. NOTICE TO CONTRACTORS

Sealed tenders are invited for the erection of a Junior-Senior High school to be situated at West Summerland, B.C. Copies of drawings and specifications may be obtained from the Architect, William K. Noppe, either at his Penticton office, 310 Martin Street, or at his Vancouver office, 1186 Nicola Street, on or after Wednesday, February 22, 1950. A deposit of \$50.00 will be required per set of plans and this will be returned only in the event of a tender being received and the drawings and specifications returned in good condition.

Tender must be in a plain envelope endorsed "Tenders for Junior-Senior High School, Summerland School District No. 77" and addressed to the Chairman of the Board of School Trustees, c/o Secretary-Treasurer, West Summerland, B.C., and delivered not later than Wednesday, March 22, 1950.

A certified cheque equivalent to five percent of the value of the tender payable to the Board of School Trustees, Summerland School District No. 77, West Summerland, must accompany each tender. A Surety Bond for a sum equal to fifty percent of the contract price will be required.

No tender will be accepted unless written on the prescribed tender form. The lowest or any tender not necessarily accepted.

IMPORTANT JOB FOR NATIVE SON

Mr. W. J. Andrew, son of Dr. and Mrs. F. W. Andrew, has recently been appointed office superintendent of Vivian Engine Works, Ltd., Vancouver.

Former assistant timber controller for BC, Mr. Andrew, a graduate of UBC, has been prominently connected with government services in past year.

Previous to his past position he was Vancouver representative of the War Contract Settlement Board of the Department of Reconstruction and Supply.

Weak, Tired, Nervous, Pepless Men, Women

Get New Vim, Vigor, Vitality

Say goodbye to those weak, always tired feelings, depression and nervousness due to weak, thin blood. Get up feeling fresh, be peppy all day, have plenty of vitality left over by evening. Take Ostrex. Contains iron, vitamin B₁, calcium, phosphorus for blood building, body strengthening, stimulation. Invigorates system; improves appetite, digestive power. Costs little. New "get acquainted" size only 60c. Try Ostrex Tonic Tablets for new, normal pep, vim, vigor, this very day. At all druggists.

WANTS GREATER PRICE SUPPORT

VERNON — An overflow meeting of Vernon and Coldstream growers cleared up many misunderstandings regarding the Tree Fruits arrangement to send more than a million boxes of apples to Great Britain, last week, and moved to strengthen BCFGA action regarding government price support.

The resolution adopted called upon the federal government to subsidize growers on the total crop of the BC tree fruit area for 1949 to an amount equal to the average cost of production based on the figures for this cost supplied to the government during the 1949 season.

WANT VALLEY MINISTER

VERNON — Unanimous approval to a resolution asking that the Okanagan be given representation on the provincial cabinet was given by Vernon and district Liberals at their general meeting last week.

Women's Institute Committees For Work in 1950 Appointed

With the parish hall brightened with bouquets of branches from which scarlet hearts were suspended the annual Valentine party of the Women's Institute was held at its February meeting on Friday, February 10.

Committee appointments as made by the directors at an executive meeting were announced by the president, Mrs. A. K. Macleod, who explained that the whole WI is built up on the committee system. These groups meet separately and when necessary with the directors, and in this way it is believed that there is good coverage of community, provincial and wider interests. These committees may choose their own chairman; if this is not done the first named becomes chairman.

Standing committee for agriculture is made up of Mrs. E. H. Bennett, Mrs. R. C. Palmer, and Mrs. R. Blayne. Health and social welfare activities are in the hands of Mrs. S. A. MacDonald, Mrs. A. W. Vanderburgh, Mrs. C. E. McCutcheon, and Mrs. Alex Smith. The education and citizenship committee consists of Mrs. M. E. Collas, Mrs. H. R. McLarty, and Mrs. D. L. Cruickshank. Miss Marion Cartwright, Mrs. C. Orr and Mrs. W. R. Powell were named in charge of handicraft and industry, while home economics affairs will be taken care of by Mrs. R. F. Angus, Miss Mary Scott, Mrs. Geo. Inglis and Mrs. R. M. Ward.

Mrs. J. Y. Towgood was asked to arrange general entertainment, and special teas will be convened by Mrs. Geo. Woitte, Mrs. J. E. Sheldrake and Mrs. E. Mountford.

A letter of thanks was read from Miss Joan Appleton, PHN, for assistance given with social welfare during the month of January, and suggesting that good used clothing might be kept in reserve, especially for children, to be used when necessary.

Mrs. Blayne had received a communication from Mrs. O'Rourke of Vancouver stating that the Linda Lee group of weavers would like to make a valley tour early this spring. It was decided to sponsor this group. This is a type of weaving done with wool on scrim and classes will be held here for those interested in doing this sort of handicraft.

The Tweedsmuir cup competitions for this year were related. The first, a village history, must be a group effort. The second is open for a rug of typical provincial or Canadian design, conventionalized, suitable for putting on the floor and not a wall hanging. The topic for the essay is "Democracy Begins With You." It is not to exceed 1000 words and is to be on paper 8½x11 inches.

Owing to the annoying and disappointing discrepancies in standards of sizes and measurements in clothing Mrs. Macleod suggested that it might be a good idea to write to the Bureau of Standards and Measurements giving the Institute point of view on the matter.

Mrs. Collas suggested that resolutions be made ready for the next meeting so that they could be discussed and formulated for the valley conference which is to be held in Summerland in May.

Two films, The Home Town Paper, taken in Vernon and made around the Vernon News, and one of Skiing in the Laurentians were shown by Don Allison and Donnie Blacklock.

Tea was served by the executive from a table centered by a decorated Valentine cake.

Earliest polo match on record was played by the Persians.

Kelowna To Have Modern City Hall

Kelowna is to have one of the most modern buildings in western Canada when its new city hall is constructed. Building will commence as soon as the frost leaves the ground. Dominion Construction Co. was awarded the contract at a figure of \$180,000.

Front of the building, which overlooks Okanagan lake, will be finished in polished granite while the other three sides will be of architectural concrete.

Frank Kuroda showed his colored moving pictures of his trip to Honolulu and other Hawaiian beauty spots when he was guest of the Rotary Club of Summerland on Friday evening, Feb. 10.

PLAN TO DEDICATE PARKS AND BEACHES

On February 14, Municipal Clerk Gordon Smith was authorized to proceed with preliminary steps towards dedication of all parks and beaches in the municipality. Once property is dedicated for such purpose it cannot be sold except after a plebiscite by the ratepayers.

BANK DEBITS REACH ALL-TIME HIGH POINT

An increase of 7.1 per cent was recorded in bank debits in B.C. in 1949, for an all-time high record of \$7,540,592,000, Hon. Leslie H. Eyres, minister of trade and industry announces.

Control of Cancer Fight Is Continuing

More than \$100,000 have been expended in B.C. in the past six months against the dread disease of cancer, the annual meeting of the Summerland branch of the Canadian Cancer Society was informed on Tuesday, Feb. 7.

Dr. J. C. Wilcox was named president of the branch, with J. E. O'Mahony vice-president, E. R. Butler treasurer, and Mrs. J. E. O'Mahony secretary. Dr. A. W. Vanderburgh is honorary president.

With the help of 31 organized units throughout the province, Summerland branch being one of these, the work of fighting cancer has been carried on, the meeting was informed.

Local Resident Helped

Locally, one Summerland resident was assisted last year in having transportation paid to Vancouver and arranging for free cancer treatment there. Several other residents have taken advantage of the clinic held in Penticton for free checkup service. From an educational standpoint, 13,900 pamphlets were distributed

WANTS TO PLAN UPSTAIRS HALL

Mr. Abe Salloum has plans for the improvement of his Kingpin Bowladrome premises and the installation of hall facilities on the second floor of his business. However, he needs two fire escapes and has found it almost impossible to plan one of these stairways unless it ends on municipal property, mainly road or lane allowance.

Last week, when he approached council for permission to use road allowance for the purpose he was told firmly that such an allowance could not be made.

Adjoining the cancer clinic at Vancouver a new boarding-nursing home has been established in the past year, providing 16 beds. This has been badly needed for years, the meeting was informed, as many persons are too ill to leave for home after treatment.

The Canadian Cancer Society put aside \$20,000 to equip this home and most of this sum has been spent. The annual campaign for funds will be carried on this year and the meeting was glad to learn that the Kiwanis Club of Summerland has offered to sponsor and collect for the cancer society.

Fruit Growers Get \$12,000,000 From 1949 Crop

Up to January 24 advances to growers through their packing-houses from BC Tree Fruits Ltd., growers' sales agency, amounted to \$12,101,993, a recent bulletin of the growers states.

Pools which have been closed except for central rebates include the grape, apricot, canteloupe, crabapple, peach, plum, prune and cherry varieties.

Of the total amount, seven million dollars were paid out since the beginning of October.

Payments by Variety

Following are statistics revealed by the sales agency's bulletin and published by the Penticton Herald.

The grape crop reached 149,210 packages with prices ranging from \$3.79 for No. 1 blue grapes to September 17, to \$3.49 for No. 2 whites.

There were 603,339 packages in the apricot and yakimine pool with prices ranging from \$1.416 for fancies to \$1.166 for No. 3's.

The cannery price was \$147.28 per ton with those going for jam fetching \$73.64 per ton.

Fancy yakimine's fetched \$1,659 with No. 2's realizing \$1,409.

In the canteloupe pool there were 27,931 packages with a top price of \$6.142 per package for those delivered prior to July 20. No. 1 mediums held the firmest price ranging from that figure down to \$3.89 for the later shipments.

The crabapple market absorbed 84,394 packages with prices between \$1.466 and \$1.166.

The tremendous volume of 2,003,732 packages of peaches went through the pools this year.

No. 1 large, in the period July 7-13 realized \$1,655. Top price for No. 1 local maturity was \$1,505.

The best cannery price for peaches was \$118.01 per ton. Cannery smalls at the end of the season fetched \$50.13 per ton. The cannery price for halled peaches was \$89.53.

There were 168,581 packages in the plum pool with a top price of \$1,358 and a low of \$781.

More than a million packages of prunes presented a marketing problem this year. No. 1's in the period to August 22 fetched \$87. The cannery price was \$51.66 per ton.

Wide Price Range

There were 520,481 packages in the cherry pool with a wide range of prices realized.

Bings and Lamberts in the period to June 22 fetched a top price of \$4.357 for 20-pound lugs of No. 1. By August 17 this price had dropped to \$3.615.

These two varieties fetched \$314.55 per ton in the season pool for processing and canning.

Top price for Royal Anne, Windsor and Deacon cherries was \$2,509.

An interesting item is the price of \$3,635 per 20-pound lug received for the new Van Cherry, developed quite recently at the Dominion Experimental Station at Summerland.

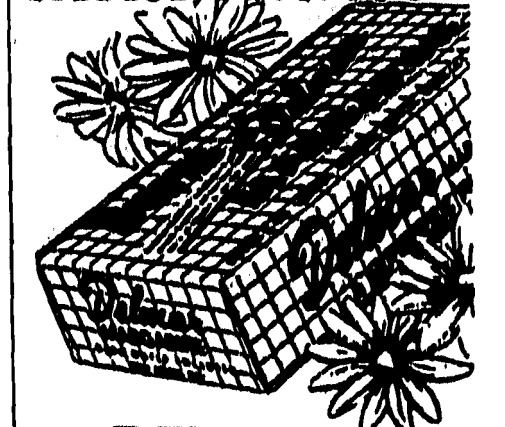

The season pool on sours was \$2,227 with a cannery price of \$163.76 per ton.

The Italians invented ice cream in the 14th century.

Cream of B.C.'s Junior Ski Crop Expected Here For Tourney This Sunday

Junior skiers in Summerland are agog this week in anticipation of the big second annual invitational high school ski meet scheduled for Sunday afternoon next, February 26, commencing at 12 noon sharp.

It is anticipated that skiers from Rossland and Princeton will come here for this big event to compete against skiers from Okanagan points.

Although the entry list closed last Friday, the final entries from all Okanagan schools have not been received but it is known that sufficient entries are in now to ensure top success.

Arrangements have been made to have the road plowed and in good shape for this weekend, while a parking space is being provided for all visitors' cars.

Transportation by bus is also being arranged for those without other means of travel, leaving the Nu-Way at 11 o'clock Sunday.

At least a dozen Princeton skiers will be here, including some expert jumpers who will give some exhibition hops. Such well known stars as Dudley Paul, Johnny Ray and Steve Kassa have promised to appear.

The Summerland juniors who visited Rossland last weekend were assured that at least three cars of junior skiers would be here for February 26, and if they show up some of the best junior skiers in Canada will be present.

Other competitors from Vernon, Rutland, Kelowna, Pentiction and Oliver are expected to make Summerland their focal point on Sunday.

Arrangements for this enterprising event have been handled almost entirely by the junior skiers themselves, with the help of a small group of enthusiasts.

They are anticipating one of the most successful slalom and downhill tournaments on record this Sunday.

Besides the cups announced last week, medals for winners have been donated by Butler & Walden, Summerland 5c to \$1 Store and The Cake Box.

Canadian Highlights at Empire Games

The short-lived incident of the Empire Games at Auckland over the 100-yard dash in which Calgary's Don Pettie was disqualified for beating the gun but later permitted to run by an appeal jury. He is wound up in the above shot of the century final. From left to right, with order of finish in brackets, they are: ALASTAIR GORDON, Australia (4th); WILLIAM DE GRUCHY, Australia (2nd); CLEM PARKER, New Zealand; DON PETTIE, Canada (3rd); JOHN TRELOAR, Australia (1st).

Junior Skiers Place High At Rossland

Daryl Weitzel, daring young Summerland junior skier, placed fourth in the big feature downhill race at the Rossland invitational high school ski meet last weekend, the feature ski attraction in the Pacific northwest for junior skiers.

Daryl's time of 1.47 was only seconds slower than the winning time of 1.33. Record for the killing hill is 1.23.

Sharing honors was Ron MacRae who placed fifth in the slalom and tenth in the downhill.

These two Summerland lads were away out in front of most of the competitors with the exception of Rossland-Trail entries. Star junior ski teams from Seattle, Tacoma, Leavenworth, Yakima, Wenatchee, Calgary, Kimberley, Trail, Rossland, Summerland and Vancouver competed.

There were sixty entries for the downhill race alone.

Francis Gould hurt his knee and Mary Ward developed mumps at Rossland last weekend which necessitated them scratching their entries. Otherwise, the Summerland team might have had a good chance to cop top team honors.

Ron Ritchie was the fifth Summerland entry.

Weitzel lost his ski in the slalom run, which eliminated him from this competition.

Walter Powell, who accompanied the juniors to Rossland, disclosed it was the fastest skiing he had ever witnessed.

Steam railways in Canada have 42,335 miles in operation.

Ten-pin League Starting Monday

Formation of a ten-pin league was undertaken by an enthusiastic group at the King-pin Bowladrome last week and next Monday, February 27 the league swings into action with the first scheduled games.

Eight teams have been formed and play will be on Mondays, Tuesdays and Thursdays for the next month. The schedule is divided into two sections, the first half concluding play on March 30.

Bert Simpson is president of the ten-pin league.

Next week's play will be as follows:

Monday, 7.15, Inkspots vs Hotshots; 9, Rialto vs Clippers. Tuesday, 7.15, Hopeful vs Broncs. Thursday, 7.15, Splits vs Nesbitt Motors.

Rest of the schedule will be printed in next week's issue.

Cecil Wade Heads New Curling Club

Keen interest in promoting curling as a winter sport in Summerland was evinced by a general meeting held in the IOOF hall Friday evening when Cecil Wade was named president of the Summerland Curling Club.

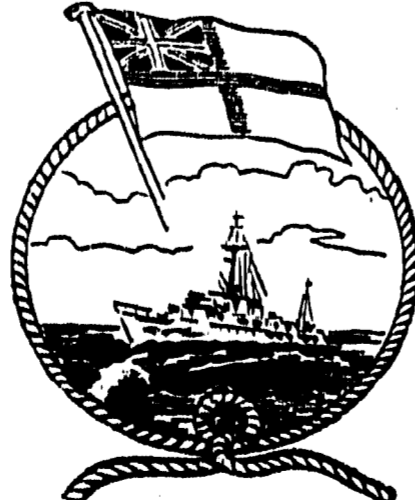

It was decided that a club would be organized, with the initial membership fee of \$5 per head of family going towards purchase of rocks. It was felt that 16 sets, sufficient for two rinks, should be purchased to start the club.

Already about \$100 has been subscribed by new members who have signified their interest in this sport.

Curlers are expected to participate in the plans for a new rink in Summerland but if this scheme does not materialize it is understood that they are prepared to build their own curling rink on the outskirts of the district, probably in a frost-pocket hollow where ice can be assured for a lengthy period.

E. (Hilly) Smith was named vice-president and J. W. Mitchell is secretary-treasurer. Committee members are Mait Kersey, John Ganzefeld, J. Y. Towgood, Harvey Farrow, W. Milne, Harry Braddick, E. Gillespie and W. Toews.

Pentiction Vets Take Big Edge In First Game of Cage Semi-finals

Allowing themselves to become disorganized by officious refereeing, Summerland Merchants bowed before the more experienced Pentiction Vets on the local school gym floor last Monday night before the best crowd of the season to lose the first game of the interior senior B cage league playoffs 51-27.

This loss meant that Pentiction Vets obtained a large stranglehold on the final playoff spot as this was the first of a total-point, two-game series with the second game being held last night at Pentiction.

For the first half of the game the visitors were held well in check despite the series of fouls called on the local lads which slowed the game down to an uninteresting free-throw shooting contest.

The third quarter saw more open play than any period and it was at this stage that Pentiction did its best work, outscoring the Merchants by twelve points after lanky Keith McLean left the floor on his fifth personal early in the second half.

For a time in the final quarter the Merchants showed spurts of power but the defense fell apart at the end and the Vets were going through at will.

Early Merchants' Lead

The first quarter opened well for the Merchants and they went into the second canto with a 9-5 lead. Lanky centreman Chuck Raitt was especially dangerous in the second quarter, however, and combined with the elusive Eshelman they whipped past the Merchants and established themselves

in front 18-13 at the halfway mark.

Kincaid was the Vets' spark-plug in the third quarter while Russel proved equally dangerous in the final canto as the Merchants continued to fall apart.

Nervousness and over-anxiousness caused the Merchants to do most of their fouling in the first half, the pettiness of the calls arousing the ire of the crowd. Referee Ron Young from Pentiction was criticized by the partisan Summerland crowd for his calling of many minor infractions.

It was only in the first half that the Merchants showed the form which gave them three victories over Vernon and Princeton recently and took them into the playoff position. After that they faded into a desperate, long-shooting group with little attempt being made to work the ball under the basket.

Superior ball-handling ability plus skill in picking off rebounds meant a great deal for the visiting Vets, who showed to good advantage in these departments.

As the preliminary, a hair-raising contest between Rutland, North Okanagan-Mainline champions, and Summerland, high school lads fell to the local lads who came through in the final quarter for a 37-34 victory.

Summerland's four-point lead at half-time fell by the wayside as the two teams entered the fourth canto, but field baskets by Jomori and Kato were sufficient for victory.

Individual Scores

Rutland: Brummet 6, Kenishita, Day 2, Singer, Fitzpatrick 5, Montgomery 2, Gillard 6, Ellergot 12-34.

Summerland: Cristante 3, MacRae 5, Kato 8, Jomori 10, Munn, Logie, Richards, D. Hack 11, D. Weitzel-37.

Pentiction Vets: Raitt 14, Eshelman 12, Russel 13, Kincaid 12, McGannon, Ashley, Allison, Moyle, Drossos-51.

Summerland Merchants: Walsh 4, Vanderburg 2, McLean 2, G. Clark 6, Ruppel 7, Dunham 4, Nesbitt 2, W. Clark, White-27.

Fouls on Pentiction, 13 out of 22 shots; by Summerland, 5 out of 14 tries.

Three Titles To be Defended This Weekend

Three titles held by the Summerland Badminton Club will be on the block this evening, Saturday and Sunday when the annual Southern Interior badminton tournament is held in Pentiction.

George Fudge will be defending three titles and hopes to retain them for the local club. He took the men's singles last year and paired with Bill Evans in the men's doubles and with Mrs. R. Cuthbert in the mixed doubles crown.

A strong contingent of players from the local club in itself practically assures the success of the tournament at Pentiction.

Besides the titleholders, others who will compete for Southern Interior honors will be Mrs. Bill Evans, Mrs. K. Smith, Miss Peggy Pringle, Miss Anne Carney, Miss Jean Bonnett, Coco Morgan, Maurice Welsh and Dave Collins. Finals of the tournament will take place on Sunday.

Princeton Falls Before Merchants By Count of 50-30

Playing a smooth, heady game which kept them in the lead all the way Summerland Merchants defeated Princeton in an exhibition basketball game at the local gym on Saturday night before a fair-sized crowd. Score was 50-30 with the Merchants completely monopolizing the play in the final canto.

George Clark was high scorer for the winners, with Walsh helping himself to 10 markers. Mullin was the only visiting cager who could find the hoop with any regularity.

At half-time Summerland led 23-18 and increased that lead another six points by three-quarter time.

In the preliminary contest Don Cristante and Sam Jomori had a big evening as they led the local high school basketers to a one-sided 60-22 victory over Allenby boys. Both these lads scored 16 points while Fred Kato was right behind with an even dozen and Graham Munn countered another nine.

Allenby: White, Schisler 3, Allen, M. White, Icky 2, Harmen 8, Ceccon 3, Carrington 6-22.

High School: Cristante 16, Jomori 16, Kato 12, Munn 9, Logie 1, Richards 2, Birtles 4-60.

Princeton: Kovich 5, Moore 1, Mullin 10, Pringle 2, Huly 2, Wilsen, Harmon 6, M. White 4-30.

Merchants: Walsh 10, McLean 5, Vanderburgh 5, Clark 16, W. Clark 4, Nesbitt 6, Ruppel 2, Dunham 4, Guidi-50.

Horticultural Society Has New Directors

A new board of directors was chosen at the annual meeting of the horticultural society on Thursday evening, Feb. 9 in the parish hall with an attendance of over fifty interested gardeners.

As is the custom of the society, five directors are named, and they with the two stationary directors, Mr. E. H. Bennett and Mr. Wm. Snow make up the board. The president, treasurer and secretary are chosen at a later directors' meeting.

The five chosen this year are Mrs. Gordon Ritchie, Miss Doreen Tait, Mr. R. M. White, Mr. W. F. Ward and Dr. Jas Marshall. The directors meeting was held on Feb 19 at the home of Mr. and Mrs. Gordon Ritchie.

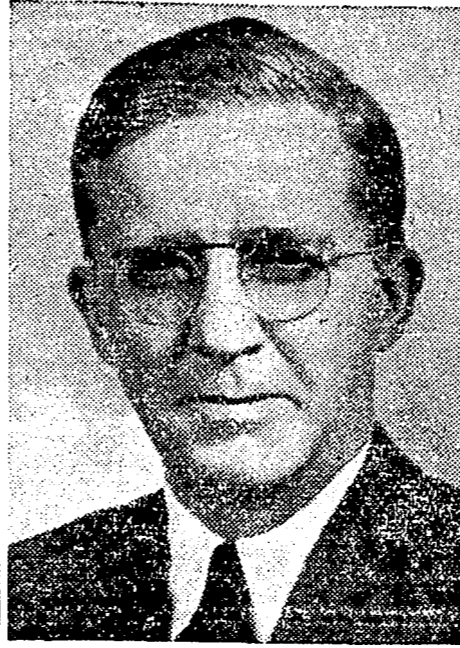

Miss Doreen Tait is the new horticultural society president, with Dr. J. Marshall first vice-president and R. M. White second vice-president. Mrs. Gordon Ritchie is secretary and W. F. Ward treasurer. Honorary president is Mrs. A. B. Elliott.

Following elections, Dr. R. C. Palmer gave an amusing fantasy relating to flower lovers and why they worked in their gardens and the happiness obtained in this way. Dr. Palmer also showed two film of local gardens. One of these films had been in Vancouver for some months where it was being shown to shut-ins.

Dr. Marshall thought that an attempt should be made to get more speakers to address the meetings and to use the epidioscope to illustrate their talks.

Mr. Bennett gave an excellent report of the rose show and the annual flower show, both of which were a great success. The plan of arrangement for the 1949 show proved to be more satisfactory than in previous years. Smaller flowers were on the centre tables with larger blooms around the outside giving a prettier effect as well as showing all the flowers to more advantage.

Mrs. O. Eaton and Mrs. E. R. Hookham served the usual refreshments of coffee and doughnuts before the group dispersed.

CHARLES G. JORDAN, formerly general agent for the Canadian Pacific Railway's passenger department at Seattle, Wash., has been appointed assistant general passenger agent at Vancouver, it has been announced by W. D. Euchanan, general passenger agent. Mr. Jordan replaces the late Ernest Officer, whose death occurred recently after many years of service with the company.

Succeeding Mr. Jordan at Seattle is Walker W. Gosnell, well-known in Vancouver and throughout the interior of B.C., and formerly district passenger agent for the Canadian Pacific at Vancouver since 1943.

In other passenger department changes announced by Mr. Euchanan, J. M. Anderson has been promoted to become district passenger agent for the C.P.R.'s coast steamship service. He has been general agent for the line's passenger operations since 1946.

Harry Newton, formerly general agent at Calgary, comes to Vancouver to be passenger traffic representative.

Drive for Red Cross Starts Next Thursday

Next Thursday will see the start of the Red Cross campaign in Summerland district when the annual meeting of the local branch will hear a report on last week's meeting by the Summerland delegate, Jack Dunsdon. Mr. Dunsdon also heads the Red Cross campaign committee which has been given the task of raising \$3,000 in donations from this district in the annual drive for funds.

He reports that most of the canvassers have been decided upon and a full list will be available next week.

The Red Cross Needs Your Help, "Give from the Heart". This is the slogan adopted for 1950.

Protest Cutting Down of Service At KVR Station

On Monday evening, Summerland Board of Trade executive went on record as being opposed to the elimination of the night duty man over the weekend at the Kettle Valley West Summerland station of the C.P.R.

Mr. Leslie Smith, new KVR superintendent at Penticton, will be acquainted with the board executive's argument that such a move does not provide a sufficiently good service for the travelling public.

It is the board's contention that when travellers alight here and the station is not open to receive the train, there is no telephone available for the visitors.

A recent ruling changed the agent's hours from 8 a.m. to 5 p.m., while the night operator goes on at midnight and works through until 8 a.m.

Both those men have a holiday on Sunday, so that the West Summerland station is not open now from 5 p.m. Saturday until midnight on Sunday night.

CHERRY POOL FINISHED
Cheques totalling \$15,000 were distributed by the Summerland Co-op this week to grower members as the final payment on the cherry pool.

gas pipe line to be built entirely on Canadian soil from Alberta to the Pacific coast. The meeting at Keremeos was unanimous in favor of this proposal as opposed to the line being built partly through United States territory.

H. K. Whimster of Penticton spoke on the proposed drive for funds in the South Okanagan for the treatment of arthritis patients and mentioned that \$5,000 is being sought.

Coloring of margarine was discussed, it being generally agreed that this is a nuisance regulation and should be abolished.

The meeting also went on record as supporting sweep-

"BETTER! NEWER!"
Sprinkler IRRIGATION

Here is portable aluminum irrigation that is near perfection. Amazing scientific developments of the A.M. Manufacturing Co. are causing much favorable comment throughout the country by farmers who know and appreciate efficient and economical sprinker irrigation.

Left: light, strong automatic loading and unloading aluminum coupler using famous Fierce patented gasket.

Above: A.M. permanent irrigation valve at the left and valve in line, showing valve opening above at the right. Both possess amazing and welcome new qualities.
