

Grand Prize for Canada

Last Thursday afternoon was one of the most thrilling days in the life of Mrs. Irvine Adams, R.R. Summerland, when she was presented with a cheque for \$2,500 as first prize by Lever Brothers Ltd. as first prize for Canada in a recent New Lux contest. In the above picture J. E. Stinson, manager of Lever Brothers Pacific Division may be seen handing over the prize cheque to Mrs. Adams in A. K. Elliott Department Store. Keith Elliott also came in for some plaudits when Mr. Stinson presented him with a \$250 cheque being the storekeeper who sold the prize winning box of Lux soap. In the lower picture Mr. Elliott can be seen presenting Mrs. Adams with a bouquet of mums while Jack Thompson of CKOV gives a covetous glance at that cheque.

Smiles All Around as \$2,500 Cheque Handed to Mrs. Adams

The thrill that comes once in a lifetime to a very few people was experienced here last Thursday afternoon when Mrs. Irvine C. Adams received a cheque for \$2,500 from J. E. Stinson, manager of Lever Brothers Pacific Division.

Mrs. Adams received this cheque as first prize in Canada for her 25-word reply to the Lever Brothers' question: "I use New Lux in my washing machine because..."

Before a gathering of friends and interested onlookers Thursday afternoon in the furniture section of A. K. Elliott Department Store where Mrs. Adams purchased her box of Lux soap, the presentation was made by Mr. Stinson.

"You must have given your reply a great deal of thought to be able to tell your story in such few words," remarked Mr. Stinson.

"On behalf of my company it gives me a great deal of pleasure to hand you this cheque for \$2,500 and I hope it will bring a great deal of pleasure to you and your husband. Personally, I am very proud that you brought this prize to B.C. as it couldn't have been awarded to a more charming lady," concluded Mr. Stinson.

Mrs. Adams assured Mr. Stinson that what she had written she

meant most sincerely.

"I have enjoyed using Lux and will continue to use it," she emphasized.

"What prompted you to enter this contest?" queried Prince Jack Thompson of Radio Station CKOV, Kelowna who recorded the affair for reproduction.

"It looked interesting," was Mrs. Adams' prompt reply. "It proved to be a contest I enjoyed very much."

"How will you spend the money?" Mrs. Adams was then queried, but she sidestepped the issue easily with the statement that she and her husband would use it as a "stopping stone to the next thing".

Mr. Elliott then made a presentation of a bouquet of bronze mums to the delighted lady of honor.

Another feature of the afternoon was the second presentation of a cheque by Mr. Stinson to Mr. Elliott.

This amount was for \$250 and was Mr. Elliott's award for being the merchant who sold the box of Lux soap to the grand prize winner for all Canada.

Mr. Stinson reminded the recipient that he had known his father.

The Summerland Review

West Summerland, B.C., Thursday, November 2, 1950

Local Interest in Attention on White House

More than ordinary interest was taken yesterday in the announcement from Blair House, Washington, D.C., that an attempt was made to assassinate President Truman, by Mrs. E. E. Bates of West Summerland, as she has a brother who is one of the men who guard the White House.

Her brother, Lieut. George Asay is presumed not to have been on duty when two men, pistols blazing, attempted to storm Blair House, across the street from the White House. President Truman was an occupant of the besieged house at the time. Both assailants were shot down, one being killed and the second seriously wounded.

Mrs. Asay, Mrs. Bates' mother, is expected here at the weekend and may have further news of her son then.

Youth Centre Will Drive For Funds

Tomorrow, Friday, November 3, the Summerland Youth Centre will be a year old.

In that year an old, abandoned building has been transformed into one of the best meeting places in the community and the youth organizations of Summerland have been provided with a home for regular meetings.

Most of this transformation has been made possible through donations and sale of debentures, plus a loan at the bank endorsed by the directors of the association, it has been explained.

This bank loan, plus needed capital expenditures to complete the project, amounts to \$3,500 and it is the hope of the Summerland Youth Centre Assn. to have local persons subscribe this amount in the next month to six weeks.

Councillor F. E. Atkinson, chairman of the association, announced this week that his directorate has decided on a second canvass of the district, commencing November 15.

This canvass will be conducted in a similar manner to last year when the objective was \$7,000. This objective was not reached, while several costly expenditures had to be made which were not in the original plan, it has been explained.

It is expected that full details of the campaign will be announced by the association next week. With Mr. Atkinson on his directorate are E. R. Butler, secretary-treasurer and G. R. Beggs, L. J. Gould, C. B. Hankins, Joe and Ross McLachlan, Mrs. D. L. Sanborn, Mrs. A. W. Vanderburgh and Edward F. Smith.

Says Summerland Only Place Taxing Hospital Property

Councillor Francis Stewart queried the council last week, once more regarding the taxing of that portion of Summerland Hospital Society property which is not directly connected with hospital buildings.

At a recent regional meeting in Vernon of the hospital societies great surprise was expressed that Summerland had levied taxes against this hospital property, Mr. Stewart pointed out.

As far as could be learned at that regional meeting no other hospital has been taxed in the interior, he stated.

Even B.C.H.S. Commissioner Detwiler expressed surprise at Summerland municipally's action.

Municipal Clerk Gordon Smith explained again that it is quite clearly laid out in the municipal act and he had obtained advice at a municipal officers' meeting in Victoria that such action must be taken under the act.

As insufficient time had been given the hospital to budget for this expenditure in 1950 the council had previously agreed to a grant in lieu of taxes but in future years the hospital society must expect to pay this tax levy, it was pointed out.

Thanks of the hospital directors for this grant were expressed in a letter received by the council on Tuesday.

FEDERAL BUILDING IS PLANNED FOR VERNON — Federal Public Works Minister Alphonse Fournier has advised Vernon Board of Trade that his department is negotiating with property owners for a federal building site. The sum of \$25,000 was passed in the department's supplementary estimates at the first of the year.

Three-Point Program to Assist Growers Who Lost Fruit Trees Last Winter to Be Presented to Cabinet at Victoria

Based on figures from the provincial department of agriculture which indicate that 336,610 fruit trees were killed in the 1949-50 sub-zero winter weather, BCFGA emergency advisory committee yesterday, at a special meeting in Kelowna, agreed to the formulation of a brief to be presented to the provincial cabinet which urges a tree removal-rehabilitation grant of just over two million dollars.

C. W. Morrow, K.C., MLA for North Okanagan, was urged to communicate with Hon. Gordon Wismer, K.C., Attorney-General, today, and arrange for a meeting with the cabinet as soon as Acting Premier Herbert Anscomb returns from a flying trip to Australia.

Besides the two million dollar subsidy which the fruit industry hopes to obtain from the provincial and federal governments to assist in replanting the thousands of trees killed by severe winter weather, the BCFGA is seeking low interest rate loans for farmers amortized over twenty years.

Three main points which the session yesterday agreed the industry should seek are:

1. Subsidy of a maximum of \$10 per 12-inch or over tree for removal of dead trees and preparing the land for replanting.
2. Replanting subsidy of \$2 per tree, or if no replanting is to be done, \$100 per acre for rehabilitation along some other agricultural line.
3. Government loans to orchardists bearing interest rate of 3 percent amortized over 20 years, first repayment not to start before 1956 except at option of orchardist.

This basis was agreed upon after a rough draft of a suggested brief from L. R. Stephens was gone over very carefully and a basis of subsidy payment as proposed by J. G. Campbell, Salmon Arm BCFGA executive member, was given a thorough overhaul.

This BCFGA committee will now pick a delegation to go to Victoria to meet the provincial cabinet. It has been proposed for some time that assistance to growers in this emergency should be split on a 50-50 basis between the provincial and federal governments. However, the basis of assistance must first come from the provincial government.

Formula for Removal

For removal of apple, cherry and pear trees and preparing land, the following suggestion by Mr. Campbell was adopted as the basis for approaching Victoria: Under two inches, nil; two-inch to five-inch trees, \$2; five-inch to seven-inch, \$4; seven-inch to twelve-inch, \$6; over 12-inch \$8.

Peaches, apricots, plums and grunes were placed in a separate category and after George Mabee led a successful one-man fight for more consideration of peach trees, the following formula was adopted: Under two inches, nil; 2-inch to 5-inch, \$2; 5-inch to 7-inch, \$4; 7-inch to 12-inch, \$5; over 12 inches, \$6.

The proportion of large size peach trees is not as great as apples.

The rehabilitation or replanting subsidy of \$2 per tree brings the total for large size apples to \$10 per tree.

At the outset, BCFGA President Ivor J. Newman told the meeting that the move to gain assistance for stricken growers was not going fast enough and he outlined attempts which had been made to get a meeting with the provincial cabinet.

It is most important to decide the basis of British Columbia's request for assistance prior to the dominion-provincial agricultural conference which will be held at Ottawa on November 30.

The federal government has stated that it will not make any decision until after that time.

Would Not Prepare Brief

President Newman also explained that the BCFGA had endeavored to get the provincial minister of agriculture to take the initiative in formation of a brief on the fruit industry's plight. He had requested that one or two men from the agricultural department be sent in to the Okanagan for this purpose.

However, this suggestion was not acceptable to the minister and the BCFGA had been guided mainly by suggestions from W. H. Robertson, deputy minister of agriculture, who proposed that a review of the fruit industry and a tabulation of acreage and other figures would

Poppy Day Posters Win Cash Prizes

Cash prizes were offered by the Canadian Legion Poppy Day committee to two grades in the junior high school for the best posters displaying the Poppy Day theme. Some excellent posters resulted and a good many have been distributed throughout the community.

In Grade 8, first prize poster was created by Patsy Dunham, with Mary Brlekovich winning second prize. In Grade 7 Sheila Bonniwell was first prize winner, with Lois Harblight second.

Just a Reminder

The Red Cross blood donor clinic arrived in West Summerland this morning. By two o'clock it started to function. The local committee, headed by J. Y. Towgood, declares that many more donors than have been given appointments can be handled. It is hoped that before the clinic closes this evening that 300 persons will have donated their blood.

Hallowe'en Quieter Than Usual Here

Although there was the usual spilling of refuse, with barrels and other articles which could be moved scattered around little actual damage was reported to the RCMP Police as the result of Hallowe'en.

RCMP Constable J. G. Thorsteinson declares that most of the Hallowe'en activities were centered in the business section and the other portions of the community were quite quiet.

Most serious report showed that the awning in front of Mel Cousins' paint store on Granville St. caught fire and was destroyed. It is not known how the conflagration commenced but it is presumed a firecracker was the cause.

No fence damage has been reported although probably minor breakages occurred.

One unconfirmed report states that a mail box on the Station Road was knocked over. However, the householder caught the two lads responsible and made them dig a new hole and replant the mailbox before they were allowed to continue on home.

Constable Thorsteinson investigated a strange light in the N. O. Solly orchard during the course of his inspection of the municipality. Much to his surprise it was an employee picking apples with his car headlights providing the illumination.

It wasn't a Hallowe'en prank after all.

Regional Jaycee Meeting Here Urges Support of All-Canadian Pipe Line

Under the direction of Les Wilson, Kelowna, regional vice-president and councillor for the South Okanagan, a regional meeting of Junior Chambers of Commerce was held in the Nu-Way Annex here Sunday afternoon with Osyoos, Penticton and Kelowna Jaycees in attendance, besides Summerland members.

In clearing away past correspondence, it was stated that any move to change the name of Yale to Okanagan federal riding would have to wait until after the next dominion census in 1951.

Regarding the proposed highway sign near Wenatchee, it was decided that this subject should be discussed with the Okanagan-Cariboo-Alaska Highway Assn, before any decision is reached.

Support was given the move for an all-Canadian gas pipe line from Alberta and all units in the Jaycees' region are being asked to support this move in letters to Premier Manning of Alberta.

Suggestion that Jaycees could co-operate to mutual advantage with G. Y. L. Crossley, field representative of the regional development division of the B.C. Department of Trade and Industry was made by Chairman Wilson. Penticton Jaycees had already had Mr. Crossley as a guest speaker.

It was decided to reinstitute the dinner going award to the Jaycee club in the region which shows the most outstanding list of activities. No award was made for 1949 and this oversight will be rectified, it

Funeral Today for Raymond H. Noble

Funeral service for the late Raymond Haywood Noble, aged 61, who passed away in Vancouver on Monday, October 30, is being held from St. Stephen's Anglican church, West Summerland this afternoon at 2:30 o'clock with Rev. Canon F. V. Harrison officiating. Interment will be in the Anglican cemetery. The late Mr. Noble was a former resident of Summerland district, having resided in Garnet Valley for many years.

Building Nudges Half Million

With two months to go, the building permit figure for the first ten months of 1950 is nudging the half million dollar mark with the new junior-senior high school as the main portion of that total.

In October, two new dwellings were started for a value of \$4,500 while five alterations and additions came to \$8,050, Roy F. Angus' building report reveals.

This provides a total of 7 permits for \$12,550 against twelve for October, 1949, at \$17,625.

For the ten months, Summerland's building figures totals \$498,155 spread over 91 permits. In the same period a year ago 142 permits had been taken out for \$287,985.

Expect Oxygen Tent This Week

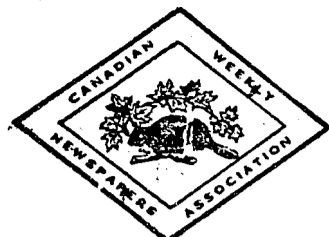

J. E. O'Mahony secretary of the Summerland General hospital was informed while at Vancouver last week attending the B.C. Hospitals Assn. annual meetings that the oxygen tent ordered for the local hospital, would be shipped here this week.

This special equipment, which has long been considered essential to the operation of the local institution, was made possible through the efforts of a special committee of the ladies' auxiliary to the hospital.

Donations by local persons and institutions plus a successful tag day, combined with a grant of one-third from the provincial government, put the project over the top financially.

WANT BORDER OPEN

OROVILLE—A recent meeting of the Okanagan Valley Chamber of Commerce unanimously passed a resolution asking that the Oroville port of entry be kept open on a 24-hour basis. It was brought out that the Oroville port is the second largest port in 1500 miles of border.

Divide Increases More Equitably

To engage in a discussion over salaries when employer and employee are debating is a dangerous practice at any time, but we just cannot resist in mentioning some views on the question of an increase in teachers' salaries.

As the present setup stands, automatic increases of four percent are allowed for each rise of five points in the cost of living index up to 165. The index is now approaching 170 and it is the teachers' contention that they should receive a double increase as the standard of living has gone up ten points in twelve months.

However, the present arbitration award does not cover the situation over 165 and so the question of how big a salary jump the teachers should be granted is now open for debate.

We trust that teachers and trustees may reach a settlement without having to entrust their cases before an arbitration court. There were some bitter words expressed in various parts of the Okanagan over the last wage dispute and a feeling of disunity between school board and staff arose in some

districts. Fortunately, any animosity was kept to an absolute minimum here, thanks to the common sense of both parties in the dispute.

But we feel inclined to agree, at least in part, with the trustees' contention that the present percentage salary increase is not fair to those in the low salary bracket in comparison to those who are receiving the top increments.

If the total amount of the salary increase was agreed upon and then divided on a more equitable basis so that those now earning the least amounts would benefit to a greater degree it would seem a fairer basis.

Those who are at the top of the salary schedule now can meet the rising cost of living in better style than those who are near the bottom of the

O engage in a discussion over salaries which ladder provided there is a similarity in numbers of dependents. And the income tax, in part, takes care of the spread between married and unmarried teachers.

For Your Tomorrow We Gave Our Today

ONLY once in the year is the public of Canada invited to take some part in a general assistance of those veterans of world wars who are in need of help.

On Poppy Day each year, the blood-red symbol of those who fought and died that we might live on in comparative peace and security is offered to the public. The individual contribution is used to assist those who came back but behind the donation is the remembrance of those who remained on the bloody battlefield.

Alfred Watts, the Dominion Command Canadian Legion president believes that "spiritually it is a day of reconsecration for all members of the Legion, to a duty and responsibility assumed by the living for the dead. We are endeavoring to live out the sacrifice they made and in that endeavor lies our highest objective".

If it is a day of highest objective for those who offered their services on behalf of their country and were fortunate enough to return then it is equally important to those who were not in such a position to serve. Theirs is an equal responsibility.

"Materially, it is a day of incalculable assistance to the veteran and his dependents who require help," declares Mr. Watts. "The manufacture of the poppy and the wreath is accomplished by veterans in vetafact shops and in homes across the country. These are men and women who cannot now work at other tasks but have the dignity of an ordinary living through this medium. In the sale of the poppy and the wreath, the individual (Legion) branch realizes sufficient money to assist the veteran and his dependents throughout the year in particular difficulties for which the government does not provide.

"There is a stone marking a bloody battle fought by the 14th Army in the Far East. On the slab are these words, 'For your tomorrow we gave our today.' That is the wording of supreme sacrifice which we humbly endeavor to follow.

"Poppy Day, with its high spiritual call and its material assistance is our day. To assist that day, let us undertake to do our part and do it well."

Poppy Day, Saturday, November 4, is not only the Legion's Day, it is the General Public's Day. Let us hope that the response is generous.

Time for Volunteer Workers

PICKING is over, more normal times are arriving, there will be more leisure time for those employed in the harvesting of the bumper apple crop from this district.

With the cessation of the busy season, residents of Summerland now have an opportunity to assist in a volunteer effort which could well be the means of telling the world about Summerland's cooperative spirit.

Volunteer workers are needed on the new rink. Many persons donated money or purchased debentures to enable the rink association to buy materials. But the money collected will not provide the type

of rink needed here without a great deal of volunteer effort.

Able-bodied citizens armed with hammers and shovels can be put to work on the new arena if they give the committee in charge some warning that they are willing to do their part. The arrival of helpers in indiscriminate numbers is not the right answer, although we imagine all volunteers will be welcome.

If everyone who has spare hours will arrange to work on the arena a fine structure will result. If this volunteer help is not forthcoming, a makeshift building only will be available this winter. It's really up to the citizens of Summerland from now on.

Signifying Nothing *By* RUSTICUS

The celebration of United Nations Day on October 24 was part of a great new surge of interest in this great organization which to many thinking men appears to be the last great hope for peace. Since the Korean war broke out, and particularly in the last few weeks, the UN has enjoyed a tremendous growth in power and prestige.

A little thing which might be a considerable help to the UN and the cause of peace would be international publicity service.

For peace depends on the friendliness of nations, one toward another; and friendliness depends, in turn, upon understanding. We fear what we do not know; if the nations of the world really knew each other's problems, difficulties, dreams and way of life generally, they would be far more inclined to help each other.

Yet how can we learn about conditions in other countries from our ordinary information services? All that we know of other lands comes from newspapers, magazines, radio and films. All of these in North America concentrate upon North American news; when they do pass out any information on other lands, it is almost invariably written by an American or Canadian visitor whose knowledge is very superficial.

All our news services emphasize the sensational, the 'current interest' slant. We were told, by press and radio, a great deal about the terrible Communist aggression in China but practically nothing about

the poverty of the Chinese people, their hunger for land and food, which made them willing to welcome almost any alternative to the corrupt ineffectiveness of Chiang-Kai-Chek.

If we, in the 'liberty-loving' Western democracies, didn't want China to go Communist, why didn't we do something about bringing justice to the common people, about simplifying their 40,000-letter alphabet which has stifled education for hundreds of years—and which the new Communist government is now improving? Why? Because we didn't know what conditions were like in China; and don't yet.

Tremendous publicity was given to the Korean war in our periodicals because American soldiers were involved; but there had been big anti-Communist struggles carried on by the British in Malaya and the French in Indo-China for years before the Korean outbreak? Why didn't we hear about them?

Our newspapers and radio give little news from any non-American country until there is a threat of war there; rarely do they mention the every day living conditions which cause wars to break out. Our magazines are little better; the popular digests not only give one-sided information but offer pre-digested opinion on it, too, as a final discouragement to original thought. Almost all our films are made about America selected slices of it—or J. Arthur Rank's England; if they touch on foreign lands at all, it is with a purely Ameri-

can—or occasionally British—point of view.

It took a modest little letter to The Summerland Review last week, for instance, to open my eyes to what the Socialist government has done for the benefit of Britain, and that quoted from a United Nations survey; most of the news of Britain, that we get is more anti-Socialist, apparently, than truthful.

It took a lecturer from Switzerland, also last week, to give me an understanding for the first time of the tremendous accomplishments of that remarkable nation. Before hearing Mr. Lendi, I was sadly like someone of whom he spoke, who thought that all the Swiss people did was—"chew holes in cheese and jodel while they did it."

Why can't there be a United Nations press bureau, which will distribute news about other countries with an international unbiased slant, as the Associated Press distributes news now with a strong American slant? Wouldn't our newspapers and radio give it a prominent place—or would the established press bureau prefer their profitable monopoly to the cause of peace?

Why shouldn't this UN information bureau distribute to our magazines and radio stations stories, articles and plays about foreign lands—by foreign writers, who really know their own countries? Also films—both feature and documentary? Films are a wonderful way

FORTY YEARS AGO November, 1910

Mr. Clark, formerly designer and foreman for the Kootenay Motor Boat Co. has arrived in Summerland to join Shields & Hatfield in building motor boats and launches here.

Accounts for \$14,794 were passed for payment by the council.

H. Dunsdon, who won out by one point over J. Dunsdon, was champion at the annual shoot of the Summerland Rifle Assn. which attracted a dozen members.

A carload of Summerland first prize apples has been sold to a firm in the Old Country. It will be exhibited at the Royal Horticultural Society show.

CPR has moved its offices to the new wharf and lake boats will dock there in future.

Rev. H. G. Estabrook preached the dedication sermon at the opening of the new Baptist church

in Peachland.

THIRTY YEARS AGO November 5, 1920

Rt. Hon. Arthur Meighen presented the case for the federal government to an attentive and appreciative audience which crowded Empire hall to capacity. J. A. McKelvie, Vernon, accompanied the prime minister.

J. W. Jones has again been chosen to contest the provincial South Okanagan seat in the coming election. J. A. Kirk was named president of Electoral District Association. Liberals have unanimously adopted L. V. Rogers as candidate. W. C. Kelley has been named president of the South Okanagan Liberal Assn.

Arthur J. Mann has been appointed assistant to Superintendent Helmer at the experimental station.

Any move towards increasing ca-

capacity of Summerlands municipal pacity of Summerland's municipal il the New Year. Councillors recently interviewed officials of the Kootenay Power Company who state they are endeavoring to get the province to share with them the cost of putting in a transformer station at the point where the power lines cross the Okanagan, near Fairview. A line would then be run up the valley.

John Tait has been elected chairman of the school board, in succession to the late F. A. C. Wright. Rev. H. A. Solly and J. W. Wheeler are new appointees on the hospital board.

New branch of the Dominion Bank, next door to the Bank of Montreal, will open its doors in West Summerland next Monday, with Peter Gray in charge and Miss Darke as assistant. This makes the fifth banking institu-

WE ASK YOU TO REMEMBER

Poppy Day

When a Boy Scout or Girl Guide approaches and asks you to Buy a Poppy

... PLEASE be Generous

Your contribution to the Poppy Fund enables disabled Veterans to earn a livelihood — it also assists Veterans and their dependents who are in need ... the Poppy Fund is devoted to the Welfare of Veterans in needy circumstances.

Poppy Wreaths

HOUSEHOLDERS—The Poppy Day committee has a number of small wreaths available so that you can recognize the Fallen on Remembrance Day. Contact A. W. Watt, Smith & Henry or The Review for further details.

This advertisement is inserted and paid for in its entirety by Summerland Branch No. 22, Canadian Legion and The Summerland Review.

Singers & Players Club

In spite of the fact that last Tuesday was Hallowe'en and the Singers were present at practice in even fewer numbers than the week before, we were pleased to see a few new faces. Perhaps next week we may expect a full turnout. We need more voices in all sections, that is both men and women, and until we get the required number at regular attendances, our rehearsals are not entirely effective.

Mrs. MacNeill began her short series of talks on voice control with a delightfully informal but instructive talk in correct breathing. This new feature of our regular meetings we feel sure should prove of great interest and benefit.

Last Sunday evening CKOK, Penticton, completed its series of Gilbert and Sullivan broadcasts. Next Sunday it will begin a series of musical comedies with a performance of "The Quaker Girl". In view of the discussion we had at our last meeting of the 1949-50 season it would be a good thing for us to listen to this series so that when later the question may come up of continuing or not to do Gilbert and Sullivan, we may have a little more knowledge of the possibilities of doing something different than we had last year.

The Players, as arranged, did not have a meeting, but the executive is still busy trying to get a full turnout of all interested for next Tuesday so that casting readings of "The Barretts of Wimpole Street" may continue.

Activities Page

The Rh twins. Two little British Columbia citizens whose lives were saved by the ready availability of the right type of blood when they were born with the Rh factor. They received replacement transfusions of blood, rushed from the Red Cross blood bank the night they were born, and for several weeks after. Now they are healthy, normal little girls. In addition to the free transfusion service, the Red Cross provincial lab in Vancouver conducts a free service, for the doctors of this province by testing the blood of expectant mothers for the Rh factor. More than 60,000 such tests have been made since 1947.

BOY SCOUT ACTIVITIES

The troop overnight hike took place this last weekend up the Shingle Creek road about 5 1/2 miles back of Summerland along Trout Creek. Although attendance was not as large as last year on account of picking, unsettled weather and a soccer game, the camp was one of the best that has been held.

The original plan was to camp without tents, but on account of the weather, tents were taken along and were pitched in the dark about 6:15 p.m. when the troop arrived at the site.

Camping was on a patrol basis with each patrol responsible for its own food, equipment, etc. Except for Friday evening, weather was excellent throughout, with only light frost at night.

Tests on firelighting cooking, axmanship and estimation of distance were carried out and two interesting games in camouflage and stalking. For an exercise in lashing an "A" type bridge was built across Trout Creek using freshly-cut aspen poles. On Sunday morning a short "Scouts own" service was held.

The troop returned to town about 2:30 p.m. Sunday afternoon.

Scouts for Poppy Day

This coming Saturday, Nov. 4, is Poppy Day when Poppies made by disabled veterans will be sold throughout Canada for the benefit of disabled veterans of both wars. It has been the custom for many years for Summerland Scouts to sell poppies on behalf of their sponsors the Summerland branch of the Canadian Legion.

Twenty-four Scouts are required on Saturday morning from 9 to 12 a.m., and they will be driven around the district for a home-to-home canvass.

Scout hat, scarf and shirt should be worn. The boys are to meet at Sanborn's Machine Shop at 9 a.m. Parents are asked to see that their boys turn out for this Troop Good Turn.

Notices: Next meeting Tuesday, Nov. 14. Meeting time is 7 p.m. sharp. Duty patrol Eagles.

MORE ABOUT—

PIONEER DAYS

Continued From Page 2
tion in Summerland.

TWENTY-FIVE YEARS AGO November 6, 1925

James Mitchell, a pioneer who was instrumental in laying out the present irrigation system passed away Sunday morning. He had been here 22 years and resided 50 years in the west.

Greatest landslide in the memory of the oldest resident took place during the past week when practically the entire side of the hill collapsed a little past Crescent Beach on the Peachland road. A peninsula comprising some two acres is jutting into the water.

With a few polls to hear from, Grote Stirling has a lead of 2730 over Col. C. E. Edgett, Liberal candidate in the federal election contest. Most of the vote lacking is in Grand Forks-Greenwood area.

Conservatives also won in the Summerland high school political contest where Rhodes Elliott carried the Tory banner to victory over the Liberals' Miss Marjorie King, 36 to 13.

Summerland girls' basketball team met Penticton girls, Okanagan champions and were defeated 24-2. Local members were H. Stewart, I. Shields, R. Harris, R. James, L. McLachlan, M. Walden and T. Howell.

Warren Gayton won the aggregate championship with a total of 34 points at the recent Brandon College track meet. He won the 100 yards dash, standing broad jump, low hurdles, and hop, step and jump. He placed third in the shot put and second honors in 220 yards, high jump and running broad jump. He also ran on the winning relay team.

High School COMMENTS

There is to be a high school barn dance on Saturday night, November 4, at the Youth Centre. There is to be square dancing and a good time for all. Wear plaid shirts and jeans or for the girls dirndl skirts and peasant blouses will be all right. Grades 9-12 are invited only. Cider, doughnuts and candy will be served. Dancing is from 8-12. Admission is free, so let's see everyone there!

Square dancing lessons are being held all this week, at noon and after school. Mr. Schwab and Mr. Greer are the instructors. On Saturday night there shouldn't be any excuse that you can't square dance.

Students' cards are now on sale. The prices are \$1.00 for grades 9, 10, 11 and 12 and 75c for grades 7 and 8. Grades 9-12, buy yours from Daryl Weitzel and grades 7 and 8 from Ken Brawner. You need a card to benefit from price reductions at school functions and the

Institute Calendar To be Ready Soon

News for those who have a thought of Christmas in their minds is that the annual Summerland calendar, established last year by the Women's Institute, complete with envelope for mailing, will be ready for sale about the end of next week.

The calendar which was sent to all parts of the world last year is being printed by The Review in sepia on white this time and has some beautiful pictures of local scenes taken by local artists.

PROPOSE B.C. MEETING

VERNON—The Okanagan and Mainline Associated Boards of Trade, meeting in Kamloops, proposed a provincial board of trade convention be held in Vernon. This suggestion will go before the B.C. Board of Trade Council meeting in Trail this month.

card also entitles you to admission to shows at a student's rate.

There is no more news this week. See you at the dance—Margaret Myers.

SCHOOL RADIO BROADCASTS

- To help ensure equality of educational opportunity throughout British Columbia by providing for smaller schools some of the advantages enjoyed by larger centres.
- To supply educational resources which are beyond the means of the individual teacher.
- Through careful presentation to arouse and foster a love of good music by making it available to schools.
- To bring to life, through dramatization, the selections on the school literature programme, and great events of the past, included in the social studies programme.
- To portray, with vividness, present-day life in other parts of Canada, the British Commonwealth and the world.
- To drive home lessons of good citizenship, to promote character development, and to encourage good neighbourliness on a national and international level.

These are some of the leading aims of:

THE B.C. DEPARTMENT OF EDUCATION

through its

DIVISION OF SCHOOL RADIO BROADCASTS

Towards the accomplishment of these aims, school programmes are broadcast daily on such general topics as: social studies, science, health, character education, English, art, French and music.

Radio facilities are provided through the co-operation of the Canadian Broadcasting Corporation and private radio stations affiliated with it. These include: CBR, Vancouver; CFJC, Kamloops; CFFR, Prince Rupert; CHWK, Chilliwack; CJAT, Trail; CJTB, Vernon; CKLN, Nelson; CKOV, Kelowna; CKPG, Prince George; and CJDC, Dawson Creek.

In addition to these services, the Department of Education also provides schools with teaching notes to accompany the broadcasts. Over 40,000 copies of such material will have gone out to schools this term. A plan of assistance has also been established whereby aid is given toward the purchase of approved radio receiving equipment, so that schools will be prepared to make the most of broadcast offerings.

Arrange to listen at home, at the same time as your children do at school, 2:00 to 2:30 p.m. each school day afternoon, between October 1 and May 31.

of spreading information, and the world's best are rarely made in Hollywood; but the best films in the world, from France, Italy, and other lands, are shut out of our theatres to allow for more third-rate Hollywood horrors.

Such an information service would do wonders for international goodwill. Probably the ordinary everyday people have it in their power, by demanding reliable foreign information, to force the setting up of such a bureau and the spreading of such information—just as we have in our power to enforce peace, if we are opposed to war. Wonder will we do anything about it—you and I?

GUIDE NEWS

1st Company
Last week's meeting concentrated on the history and composition of the Union Jack, one of the tenderfoot tests. A patrol relay was then held with Buttercups coming out on top.

At campfire an excellent report on the patrol leaders' conference was given by Jill Sanborn. First year service stars were presented to Marilyn Wade and Sheila Benning and second year stars to Jill Sanborn and Marjorie Inglis. Jill also received her emergency helper's badge.

Community projects this week consist of babysitting for the blood donor clinic tonight and selling poppies on Saturday.

Following the regular meeting a short court of honor was held at which Jill Sanborn was chosen company leader. Patsy Menu will be the new patrol leader of the Hepatica patrol with Loretta Inglis second.

2nd Company
In spite of the storm and sudden darkness there were only three absentees from the regular Friday night meeting. As the wind howled outside, the Guides, though a bit nervous, were busy with flashlights tying knots and learning semaphore.

Pathfinders' tests were passed by Patsy Dunham, Frances Atkinson and Louise Walton who have been under the instruction of Mr. Feltham.

The subject of uniforms was discussed and Guides who have left the company are asked to turn theirs in as soon as possible for resale. It has also been suggested that a new color of tie should be adopted to distinguish the new company.

Upon a request from the officials of the blood donor clinic six Guides have offered to act as baby sitters tonight.

Then Guides were also selected to sell Remembrance Day poppies in the business district on Saturday, November 4.

A new recruit, Isobel Fisher was welcomed into the company.

Final plans were made for the party which was held on Saturday by the Guides for kiddies six and under.

It was decided that the four patrols should be named for birds. They are Bluebirds—P/L F. Atkinson, second M. Marshall; Canaries, P/L L. Walton, second A. Blayne; Swallows, P/L Harbicht, second I. Reinertson; Robins, P/L P. Dunham, second N. Lewis.

Before Campfire the company formed a horseshoe and Frances Atkinson was presented with her emergency helpers' gardener, minstrel and toymaker badges. Frances gave a short summary on the patrol leaders' conference which was held last weekend in Penticton. The meeting closed with camp songs, the Guide Prayer and Taps.

Teen Town

This week's column is going to be short and sweet. (Well, short anyway.)

As most of you Teen Towners know there is a high school dance this Saturday night, so that means there won't be any Teen Town. The last dance wasn't very successful and the turnout wasn't so good so let's see everyone at the next dance which will probably be a week from Saturday. In the near future there is going to be a parent social so, kids, get your parents out to have a good time.

As I mentioned in the last column about a Teen Town raffle, it is going to be on a Teen Town sweater.

Switzerland, Cradle of Democracy, Is Subject of Colorful Lecture

The cradle of democracy, where there is no race or color bar and where the pattern for peace was set, were the distinguishing marks of Switzerland in world affairs according to Anton Lendi in an inspiring illustrated lecture on his native land in St. Andrew's church on Thursday evening, Oct. 26.

Democracy is more than 600 years old in Switzerland, the speaker stated, which is far older than any other nation can boast.

The people of the country are French, German and Italian fused into a Swiss nationality so that one does not say that he is a French Swiss or a German Swiss, but merely a Swiss. This is something for Canadians to think about, Mr. Lendi added.

Illustrating his address with colorful slides of Switzerland, Mr. Lendi pointed out with intense pride the varied agricultural production of his country with its fields and orchards nestled in the fertile valleys among the high mountains of the Alps.

Turning to industry, the speaker maintained that although wages are not high yet the Swiss have the highest standard of living in Europe. They are able to sustain this standard through constant striving for expert workmanship and quality of production in every field of endeavor.

Quality of Swiss products are known the world over. Nine out of 10 watches sold in Canada, for example, are made in Switzerland. The quality of Swiss cheese, lace and embroidery are also well known. The quality of Swiss wine is excellent but one has to go to Switzerland to get it as the Swiss drink most of it themselves.

As there are no minerals in Switzerland they have to be imported but this does not prevent them

from being a manufacturing country. Zurich is the largest city, with large factories manufacturing diesel engines, hydro generators and many other machines exported all over the world. Switzerland has over 4,000 miles of railroad, all electrified.

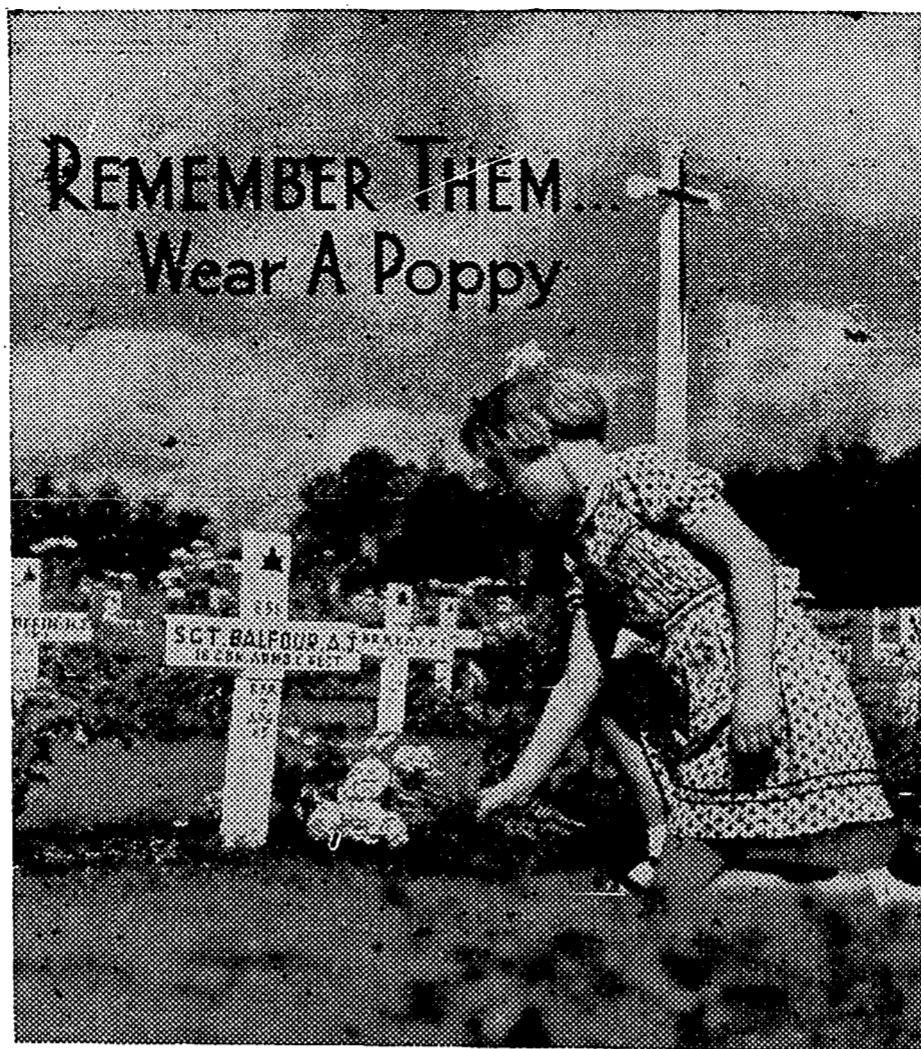

In telling the story of Henri Durant, the founder of the Red Cross, Mr. Lendi emotionally expressed the intense feeling the Swiss have for this national hero. It was quite apparent that the Swiss feel that they have contributed much toward the benefaction of the world through the Red Cross with its headquarters in Geneva. Switzerland also set the pattern for international understanding by the fact that the League of Nations headquarters was selected within its bounds.

The speaker told of the great tourist attractions available throughout Switzerland and showed films of the winter Olympic games. Other films on skiing in the Alps were also shown to the appreciative audience.

Prior to his evening appearance, Mr. Lendi addressed and showed films to the high school students and to the AOTS at its supper meeting. They were sponsored by the AOTS Club.

HOME AGAIN

Miss Nan Brennan has returned from a seven months' trip to the Old Country and is back in Summerland again at the home of her brother-in-law and sister, Mr. and Mrs. Chris Clough. Miss Brennan had a delightful time during her stay in England where she made her headquarters with her aunts at Manchester. From this centre she enjoyed trips to Wales and other places in England, and invarious parts of Scotland.

W. G. Gillard Says Social Credit at Start of New Era

"To the dozens of delegates and visitors attending the B.C. Social Credit League convention at Chilliwack and the Social Credit Association of Canada meeting at Regina, they mark the beginning of an era in the political affairs of B.C. and the Dominion of Canada as a whole," declared W. G. Gillard, CNR Summerland agent, who was a delegate to both affairs.

The fact that there were many constituencies represented at Chilliwack which never sent representation before indicated to Mr. Gillard an awakened interest in what Social Credit has to offer the people of B.C. and a dissatisfaction with present conditions, he felt.

At Regina a manifesto was presented and adopted placing before the people of Canada the concrete aims and policies of the Social Credit party that will be implemented "when Social Credit is elected as the government of Canada," he continued.

"There were people there of all walks of life, all imbued with the same spirit, the spirit of brotherhood and a confidence in the Almighty that makes everything possible, and a determination that our country will be an example to the rest of the world; where all men are equal and all people, regardless of race, creed or color can live together in harmony and understanding of each other's problems."

At both conventions there was reiterated the Social Credit belief in the sanctity of individual freedom and free enterprise, he concluded, and to preserve the sovereignty of Canada against any attempts both from within and without, to socialize or regiment the people of Canada in any way.

Plans were discussed for organizing both provincially and nationally for the next elections.

White Swans Tarry On Shores of Lake

An unusual sight greeted Reid Johnston as he was proceeding from his Crescent Beach home to his office at the West Summerland KVR station Monday morning. Near the edge of the lake were three beautiful white swans tarry on beautiful Lake Okanagan on their annual trek south.

FORMER MANAGER HERE RETIRES FROM BANK

Mr. A. G. Duncan who, with Mrs. Duncan was a recent visitor to Summerland at the home of Mr. and Mrs. C. P. Evans, has recently retired from the service of the Bank of Montreal. Mr. Duncan was manager of the West Summerland branch for about eight years before transferring to the main office foreign exchange department where he retired at the end of the past summer.

J. E. O'Mahony Re-elected by B.C. Hospitals

J. E. O'Mahony, secretary of the Summerland General hospital, was re-elected first vice-president of the B.C. Hospitals Assn. at its 33rd annual convention October 24 to 27 in Hotel Vancouver.

President for his second term is A. H. J. Sweniesky of Vancouver while second vice-president is J. B. Paine of North Vancouver.

It was the largest convention in the long history of the body, Mr. O'Mahony has informed The Review. Almost every hospital in the province was represented from Peace River to Vancouver Island.

From the interior region, Vernon, Kelowna, Summerland, Penticton, Oliver and Princeton hospitals had delegates present. An exhibition of hospital supplies and equipment was an outstanding feature, ranging from beds and kitchen equipment to chinaware and drugs in thirty booths.

One important item was a motion to amend the constitution and bylaws of the association to admit military and private hospitals to membership, if acceptable to the board of directors, also to provide for the formation of divisions within the organization, such as trustees, administrators, nurses, auxiliaries and doctors.

A resolution from the Okanagan region asking that consideration of the amendments be postponed for one year was defeated and the new constitution and bylaws adopted by a large majority.

Dr. J. C. Wilcox, Summerland, represented the Okanagan region while Mrs. Wilcox, president of Summerland Ladies' Auxiliary was delegate to the auxiliaries' convention held at the same time.

Entrance Signs to Designate Clubs

Proposed signs designating the various organizations which function in the community may be erected before winter sets in, it was announced at last Sunday's Summerland Junior Chamber of Commerce meeting held immediately prior to the regional conference in the Nu-Way Annex.

This has been a project of local Jaycees for some months but has been held up pending a complete understanding of all traffic and governmental regulations concerning signs on the highway.

It is planned to place signs at the two entrances to the community, north and south, and the organizations whose names are appended will share the cost.

Twenty-four Tiny Tots Guests at Pre-Hallowe'en Party

The Youth Centre was in gala dress for the happy occasion on Saturday afternoon, Oct. 25, of the second annual Hallowe'en costume party held by Girl Guides for small children.

A life-size ghost on the platform was a thrill for the twenty-four little guests and the huge lighted pumpkin lantern on the tea table was another interest. Tall candles were arranged on either side of the pumpkin and surrounding the table were bright apple people gayly dressed in colored leaves with hats to match.

The patrol leaders and seconds were hostesses playing games with their visitors and going through a well arranged program. Even the smallest child present enjoyed the scramble for candy kisses.

At tea time the children were seated on benches in a semi-circle around the tea table and prizes for costumes were presented.

Jane Solly made a charming Bo-Peep winning first prize, and Leila Gould as a jolly little goblin, captured the second prize.

In the comic group Sandy Gibbard impersonated a negro mammy, complete with bright pink dress and kinky curls. Vanda Wade in a complete, attractive cowgirl costume, small size, was second.

It was the birthday of both Beverly and Janet Bulloch so each was given a lighted candle and everyone joined in singing Happy Birthday To You.

Guide Captains Mrs. K. McIntosh and Miss Gweneth Atkinson were in attendance.

Tea and Sale Held By Lutheran LA

The first sale of the Ladies' Aid of St. John's Lutheran church was highly successful on Saturday afternoon, Oct. 28, in the IOOF hall.

Mrs. Herman Glaser is president of the society and Mrs. L. Skinner is secretary-treasurer.

Although the group is rather a

small one a great deal of effort went into making the tea so enjoyable.

Anticipating Hallowe'en, each little tea table was centred with a Jack O'Lantern surrounded with brightly colored autumn leaves, and flowers were used to decorate the large serving table.

Mrs. George Geres was in charge of the home cooking stall and the president and Mrs. Frank Rithaler attended to arrangements in the booth selling aprons and fancy work.

Making tea and generally looking after the kitchen were Mrs. M. Geres and Mrs. Steiniger, while Mrs. Jack Geres and Mrs. Meyerhofer served at the tea tables.

Reeve Proclaims November 4 POPPY DAY

The Proclamation stated:

"WHEREAS many of our citizens gave their lives in defence of Canada and our democratic way of life, in World War One and World War Two;

AND WHEREAS this memory is kept ever bright by the annual wearing of memorial poppies in their honour, and the honour of all other Canadians who died in world war service;

NOW, THEREFORE, I C. Edmund Bentley, Reeve of the Municipality of Summerland, do hereby proclaim Saturday, November Fourth to be Poppy Day in the Municipality of Summerland and urge that all citizens observe the day by wearing a Poppy in remembrance."

How an Iron Fireman VORTEX BURNER

saves oil

This flat, whirling flame gives more heat with less oil

OLD METHOD

Ordinary gun-type oil burners enclose the flame in a pit where much of its heat is wasted. Iron Fireman's money-saving Vortex oil burner blankets every inch of heating surface with rich radiant heat. Saves you up to 30% on oil.

CONVERT YOUR OLD FURNACE OR BOILER, OR INSTALL A SELF-FIRED UNIT

Why pay for heat you're not getting? An Iron Fireman Vortex can be installed in your present furnace or boiler in just a few hours—and then watch your fuel bills go down, home comfort go up. Complete self-fired Vortex units are available too. Exclusive Iron Fireman automatic controls. Phone or write this week sure, for a FREE survey.

Rev. D. O. Knipfel Is Guest Speaker

Rev. D. O. Knipfel was guest speaker at the autumn thank-offering meeting of St. Andrew's Federation which was held in the church hall on Thursday afternoon, Oct. 19, with Mrs. W. R. Powell presiding.

Deviotions were led by Mrs. F. E. Atkinson and Miss Ada Cochrane. Mr. Knipfel gave a comprehensive historical sketch of Bolivia and the work of Baptist missions in that country in modern times.

Tea hostesses for the afternoon were Mrs. Bancroft and Mrs. A. McLachlan.

Socially Speaking

SOCIAL EDITOR Mrs. A. W. Vanderburgh

Miss Doris Stent Leaves for Outpost Alberta Hospital

Realizing an ambition to "Go North" which she has had for a long time, Miss Doris Stent, daughter of Mr. and Mrs. Cyril Stent, Peachland highway, who has been on the staff of the Summerland General hospital for the past three years is leaving tomorrow to go to Battle River hospital at Manning, Alta. It is a mission hospital of the United church.

Miss Stent, who is a registered practical nurse, took her training at Le Pas, Manitoba, and has been a valued member of the local hospital staff.

Manning is a village away north of the Peace River area and fifty-two miles from the railroad town of Peace River. There is bus service into the small place inhabited by about one hundred persons.

The hospital is a fourteen bed one and is always a busy place serving as it does the far north bush country as well as the fine wheat farming district in which it is situated. The matron is Miss Yeoman and there are four other nurses as well as nurses' aides.

Local residents who know this part of Alberta are Mrs. Jacob Ganzeveld and Mrs. Olaf Gronlund.

Autumn Flowers Form Lovely Setting for Jaster-Arndt Nuptials

With chrysanthemums and vividly colored autumn leaves as a setting and under an archway with streamers the wedding of Miss Gerda Arndt, daughter of Mr. and Mrs. A. Arndt, and Mr. Raymond A. Jaster, son of Rev. and Mrs. Robert Jaster, Nokomis, Sask., took place in Summerland Baptist church Saturday afternoon, Oct. 28, at four o'clock. Rev. D. O. Knipfel officiated at the service.

White satin was the material of the lovely gown worn by the bride as she entered the church to be given in marriage by her father. The traditional sweetheart neckline and lily point sleeves were featured and an unpressed pleat down the front of the skirt opened to show rows of frills. At the back was a shirred bustle and the skirt fell softly into a long train. A finger tip veil bound with satin, satin neaddress with satin braid binding and seed pearls complemented the costume and a shower bouquet was of two shades of pink carnations with fern, with satin ribbons carrying carnations cascading from it.

and Mrs. W. C. Wilkin, sang; and little June and Marilyn Milne were heard in a duet.

Supper was served and the bride's shoe was auctioned before the bride threw her bouquet to be caught by one of her friends.

For the honeymoon trip by car to Coulee dam and other points in the States the bride changed to a wine gabardine suit with grey accessories and corsage of white carnations.

Mr. and Mrs. Jaster will live in West Summerland, later planning to attend school at Edmonton where they both have studied previously. The young couple are interested in going into the ministry.

Out-of-town guests were Miss Anne Glazer, Miss Irma Arndt, Miss Mae Bateman, Mr. John Borg, Vancouver; Miss Gwen Bloomfield, Duncan; Mrs. G. Lemke and Gordon, Calgary; Mrs. A. Bredin, Miss M. Bredin, Mr. and Mrs. Bruniski and family, Mr. Gus Dalhman, Kelowna; Mr. and Mrs. B. Abernathy, Miss Alvina Litvenenko, Penticton; Mr. and Mrs. R. Mayert, Cawston; Mr. and Mrs. Gogel and family, Westbank, and Mr. and Mrs. Kopp, Oliver.

HOME AGAIN

Mr. Lee McLaughlin has returned to Summerland after spending some months at Keremeos.

Mrs. C. G. Bennet and Miss May Bennet have returned from a three weeks' motor trip in Washington and to Portland and Eugene, Ore., where they visited relatives.

VISITING HERE—

Mr. E. A. Packman of Ottawa, personnel officer of the civil service commission, was a recent guest at the home of Dr. and Mrs. R. C. Palmer.

Miss Anne Glazer came in from Vancouver last weekend to attend the wedding of Miss Gerda Arndt and Mr. Raymond Jaster and visit at the home of her parents, Mr. and Mrs. John Glazer.

Mrs. G. O. Blanchet of "Clovelly", Sidney, B.C., and Mr. and Mrs. Ted McFeeley of Victoria were recent guests of Mr. and Mrs. Arthur Blanchet, Parkdale.

Miss Irma Arndt and Mr. John Borg of Vancouver were visitors at the home of the former's parents last weekend, having come from the coast for the marriage of Miss Arndt's sister, Gerda.

Miss Christine Mair formerly of the staff of the Okanagan Telephone Co. here and now employed by the same company at Kelowna has been spending two vacation weeks in Vancouver and on Vancouver Island and spent the remainder of her holidays at the home of her parents, Mr. and Mrs. H. E. Mair.

Guests of Dr. and Mrs. R. C. Palmer at the experimental station last week were Dr. C. S. Taggart, deputy minister of agriculture who has been travelling through the valley surveying last winter's free injury. Accompanying Dr. Taggart was Mr. J. B. Lander of B.C. Tree Fruits Ltd., Kelowna. Last Thursday evening Dr. Taggart addressed the joint station staffs, and on Friday morning left by plane from Penticton for eastern points.

Recent visitors at the home of Mr. and Mrs. Wendell Schwab were the former's brother and sister-in-law and four year old daughter, Mr. and Mrs. J. Schwab and Kathleen, of Vancouver. The family form an acrobatic team and have been showing in Portland for two weeks. On Monday morning they left for Kamloops where Mrs. Schwab's mother lives, and are returning to Vancouver where they are booked to appear. Later this fall they will go back to Portland for a return engagement.

Mr. and Mrs. Arthur Lamcraft said goodbye to their many friends in Summerland district and left on Tuesday for their new home at 2895 Windermere St., Vancouver. They will be missed by many friends and acquaintances here.

VISITING ABROAD

Mrs. Ivor Solly left by plane from Penticton on Saturday to fly to Nelson where she will visit her mother who has been in poor health and is in hospital there.

Miss Marion Shannon, RN, who has been on the staff of Summerland General hospital for about a year left last week to go to Montreal to take a post graduate course at the Children's hospital.

Mrs. L. Johnston and Mr. and Mrs. Joe McLachlan drove to Vancouver on Wednesday, Oct. 25, to attend the fall congregation at UBC when Mr. Don Johnston received his Bachelor of Arts degree with second class honors. Mr. Johnston is taking post graduate work this year at his Alma Mater.

Mr. and Mrs. A. Menu, Crescent Beach, are leaving next Wednesday to spend the next five months in California. They are planning to go by bus as far as Klamath Falls, Ore., where they will be met by their son who will drive them to the southern state. Mr. and Mrs. Menu will be in San Francisco for three months and in Los Angeles for the rest of their vacation.

Dr. Jas. Marshall left by plane on Tuesday morning to attend meetings of the entomological society in Toronto and will continue to St. Jean, P.Q., for a unit conference. Mr. C. V. G. Morgan left also on Tuesday to attend the St. Jean sessions. Dr. J. M. McArthur will leave on Friday and travel by plane and train to attend the Quebec unit conference.

Many Kitchen Utensils For Youth Centre From Tea-Shower

Now in the cupboard at the Youth Centre are three dozen cups and saucers, three sets of sugar bowl and cream jug, a few plates, teapot, teakettle, pot holders, bottle openers, knives, dish towels, and hand towels, as a result of the shower for the kitchen at the Youth Centre held by the local association to the Guides and Brownies.

Due to stress of fall work some of the members were unable to attend and there were fewer visitors than expected but gifts arrived splendidly and will fill a great need.

The president, Mrs. D. L. Sanborn presided at the meeting and tea arrangements were in charge of Mrs. F. E. Atkinson, Mrs. R. Lawley, Mrs. W. H. Durick and Mrs. Wm. Laidlaw.

The tea table was covered with a lovely white cloth and the centerpiece arranged by Mrs. F. V. Harrison was a delightful one of pink and white mums.

Gifts were received on another table and opened after tea.

During the meeting Guide Captain Mrs. K. McIntosh and Brown Owl, Mrs. Lawley, gave a resume of the progress of Guide and Brownie movement since its reorganization at Summerland.

Visitors to Spokane last weekend were Mr. and Mrs. Lorne Perry who motored down and returned this week.

WHEN Sickness STRIKES

Your Rexall Pharmacist keeps the faith of doctors and patients alike by filling prescriptions solely with ingredients of maximum therapeutic strength and purity. When sickness strikes... and your physician writes a prescription for you, HAVE IT FILLED BY YOUR DEPENDABLE REXALL PHARMACIST. Like your physician, he is a professional man. Years of research, study and experience have qualified him to fulfill the responsibilities required as your doctor's partner in health service.

In Memoriam—

McLachlan—In loving memory of our dear mother and grandmother, who passed away Oct. 30, 1948. "There is a road called remembrance, Where thoughts and wishes meet. We take that road in thought today. To those we cannot greet. They are where we cannot see them, Their voices we cannot hear, Yet they seem to walk beside us, Never absent, always near." —Ever remembered by her loving family. 44-1-p

In loving memory of Dad, A. N. Tellman, who passed away November 6, 1948. "Deep in our hearts you are fondly Remembered—Sweet happy memories cling round your name. True hearts that loved you with deepest affection, always will love you in death just the same. —Dearly remembered by all the Tellman family. 44-1-c

Members of the local association Girl Guides, thank those who remembered the Youth Centre Kitchen shower tea, and for those who forgot to remember please note that teaspoons, dishpan, and small plates are still needed. 44-1-c

Standard Produces Motor Oil Perfected Through Use of Atom

Development of a new motor oil perfected by use of radio-isotopes produced by the atomic energy commission is announced by Standard Oil Company of British Columbia Limited.

The new oil will be marketed immediately, Standard said, replacing the company's present premium-type RPM lubricant. In an extensive advertising program, announcing the new oil, the company states that compared with conventional oils it will cut wear-rate of critical engine parts in half, and double the low-oil-consumption life of the average automobile engine.

Research engineers who developed this new lubricant used a revolutionary test method which employs radio-active piston rings in test engines. With a Geiger Counter attached to the test engine, they were able to maintain a constant check on the amount of wear on vital engine parts as it actually occurred under the most severe driving conditions.

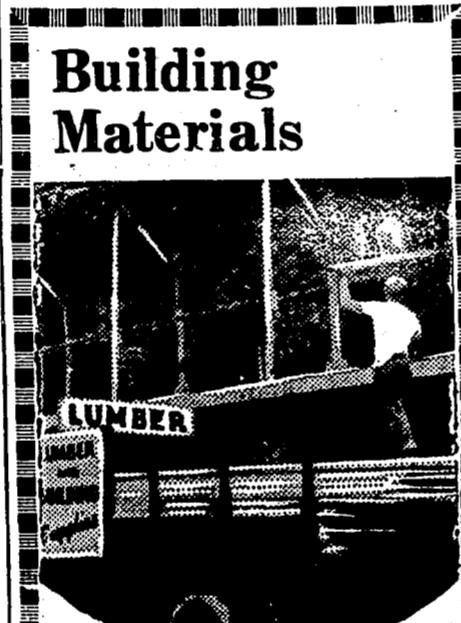

Thus, the research engineers were able to test many types of oil in a relatively short time, and more closely determine which was doing the best lubricating job. In addition, tests were completed in a matter of hours, instead of the weeks required to do this research by other methods.

Among other features of Standard's new motor oil is increased compounding which is said to double protection against formation of carbon deposits, acid, corrosion and varnish.

Meetings are being conducted throughout the province by G. C. Wightman, sales superintendent for Standard of B.C., and Ivan Trousdale, advertising manager, to acquaint the company's marketing organization of the new product.

The meeting held at Penticton was also addressed by Ralph D. Baker, president, and E. A. Bence, manager of marketing.

RETURNING TO ENGLAND Mrs. Phillips of Ipswich, England, who has been visiting at the home of her son-in-law and daughter, Mr. and Mrs. Bruce Blagborne, for the past six months started on Monday on her return trip home.

Weekly Editors to Be Heard on Air

W. Gilmour Clark, chief of press and information service of the CBC, was a recent visitor to Summerland in the course of a tour of interior towns and cities. While travelling through the hinterland Mr. Clark took recordings of talks with twelve editors of weekly newspapers. These recordings have been compiled into a short broadcast which will go on the air over the Trans-Canada network at 6 o'clock on Friday, November 17. In the Okanagan, this broadcast can be heard over Radio Station CKOV, Kelowna.

Miss Gwen Bloomfield of Duncan, V.I., was a weekend guest at the home of her parents, Mr. and Mrs. W. Bloomfield, and attended the Arndt-Jaster wedding on Saturday afternoon, Oct. 28.

Attitudes in Germany Compared to Canada

Evening Circle of the Baptist church heard Mrs. John Smith taking the devotional period at the regular meeting on Monday evening, Oct. 16 at the home of Mrs. C. H. Elsey.

Mrs. Smith compared conditions here and in Germany at the present time and related attitudes of faith and religion.

Mrs. D. O. Knipfel and Miss Ruth Dale read informative letters from Miss Jane Hood, a young Baptist missionary in the Bolivian field.

The president, Mrs. T. Racicot, presided.

At the end of the meeting the hostess served delicious refreshments.

TO VOTE ON NEW HOSPITAL BYLAW

PENTICTON—A bylaw to provide the sum of \$257,500, Penticton city's share towards the proposed new Penticton hospital has received first readings. Total cost of the hospital is placed at \$945,000. The vote will probably be held in December.

MAYOR'S SALARY DOUBLED

PENTICTON—The mayor's salary will be doubled in 1951, council has decided. The present \$1,000 per year stipend will be upped to \$2,000.

Prepare List of Roads Ready for Hard Surfacing

Councillor Eric Tait, head of the roads department, has a list of municipal roads which could be hard surfaced with only a minimum amount of preparatory work, he informed council last week.

He suggested that a committee meeting be held to study the list and determine which roads should have priority in any future road surfacing program.

At the same time, Councillor Tait opined that it is unfortunate that the roads department generally has no money at this time of year when shifting of road material can be executed with the least amount of effort and roads can be built up more readily.

The roads appropriation has been expended for some time and only the minimum amount of maintenance has been carried out recently.

Mention was made of the need of widening the road to the north bench, and the roads department agreed to investigate.

Conference Delegates Return

The national president of the Federated Women's Institutes of Canada, Mrs. H. F. Morton, of Vegreville, Alberta (right) and Mrs. A. B. McGorman, of Penhold, Alberta, president of the Alberta Women's Institutes arrived in Quebec City recently aboard the Empress of Scotland from Liverpool and Greenock. The two, along with some 37 other Canadian delegates from across Canada are returning home from the recent conference of the Associated Countrywomen of the World held at Copenhagen, Denmark, at which Mrs. Morton was elected to a vice-presidency. Formed in 1930, the organization has some six million members, 100,030 of which are Canadians and represents 102 women's organizations in some 21 countries.

Link with Early Days Broken with Departure of Miss E. Theed

Miss Elizabeth Theed left recently for Vancouver and on Tuesday, Oct. 24, started on a trip to Rothesay, N.B., where she plans to reside.

With the selling of the Theed home, and Miss Theed's leaving, a link with the early days in Summerland is broken.

Miss Theed's maternal grandparents, the late Mr. and Mrs. Wm. Kerr, with four of their children, came here well over forty years ago from St. John, N.B., and built the house which was sold recently. Mr. Kerr had been a wholesale hardware merchant in the maritime city.

Their family consisted of a son, Gordon, who was killed in World War 1; another son, Charlie, who was in the Bank of Montreal's Paris branch and now is in the Montreal office; two daughters, Mrs. Eric Agur, Peggy, who lives in California, and the late Mrs. R. F. Theed, Iona. A third daughter, Mrs. Skinner, remained in New Brunswick.

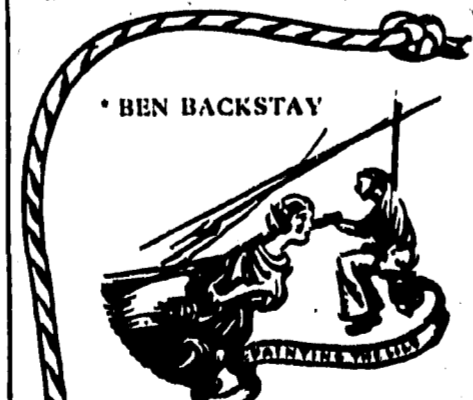

The late Mr. and Mrs. Theed made their home in Garnet Valley for many years in the house owned now by Mrs. Collins and her son, Mr. David Collins. Following the death of Mr. Kerr and Mrs. Kerr's departure to live in New Brunswick, the Theed family moved to the original home, high on the hill on the north promontory of the Peach Orchard road, with its beautiful lake view.

Would Have Council Build Water Tank

A. D. Glen approached municipal council on Oct. 24, requesting that the municipality replace a domestic water tank which services three homes at the foot of the Gulch road. Mr. Glen and the other two owners would pay all expenses but would prefer if the work was undertaken by the municipal water department. Foreman E. Kercher is being asked to investigate and report to the council.

NEARLY \$1000 IN PEACH FESTIVAL AUCTION

PENTICTON — Penticton and District Peach Festival Assn. is richer by \$975 as a result of a community auction held on October 21. Second portion of this auction plan is being held this coming Saturday. Bill Grant, of Summerland, is one of the hard-working officials whose support has made this affair so successful.

Ben Backstay was a boatswain, A very jolly boy, No lad than he more merrily Could pipe all hands ahoy.

Consumer Credit Regulations

EFFECTIVE NOVEMBER 1, 1950,

instalment sales of consumer goods at retail and loans for the purchase of consumer goods at retail will be subject to new Consumer Credit Regulations. This action has been taken under the Consumer Credit (Temporary Provisions) Act as passed by Parliament.

The Regulations apply to every person engaged in the business of selling consumer goods at retail on credit, in the business of making loans, or otherwise engaged in financing the purchase of consumer goods.

The following requirements will be in effect when retail sales are made on the instalment plan on and after November 1, 1950:

	Minimum down payment	Maximum time to pay
Motor vehicles (e.g. passenger automobiles and motorcycles).....	33 1/3%	18 months
All other consumer goods.	20%	18 months

In no case shall the down payment be less than \$5.00.

INSTALLMENT PAYMENTS are to be in regular, approximately equal, amounts of not less than \$5.00 monthly or \$1.25 weekly. Instalment payments may be varied to meet the circumstances of persons such as farmers and commercial fishermen whose incomes are subject to seasonal fluctuations.

Similar terms apply to loans granted by banks or loan companies for the purpose of purchasing consumer goods at retail.

SPECIAL PROVISIONS ARE INCLUDED WITH REGARD TO REVOLVING CREDIT ACCOUNTS, permanent budget accounts, current budget accounts, and similar plans involving payment for goods by regular instalments.

ORDINARY CHARGE ACCOUNTS ARE NOT DIRECTLY AFFECTED by the present Regulations, but steps will be taken, if necessary, to see that charge accounts are not used to evade the regulations relating to instalment sales.

THE REGULATIONS REQUIRE SELLERS, LENDERS AND FINANCE COMPANIES to maintain records of transactions, to make them available for inspection, and to furnish information on request to authorized representatives of the Government of Canada.

CONSUMER GOODS include all goods with certain exceptions. A full list of the exceptions will be found in the Regulations.

For example, the Regulations **DO NOT APPLY** to sales of real estate, stocks, bonds, securities, goods for professional or business use, buses, trucks, building materials, implements and equipment used exclusively in farming and fishing.

Penalties are provided for violation of the Regulations.

Douglas Coose
Minister of Finance

For the convenience of the public, copies of The Consumer Credit (Temporary Provisions) Act and Consumer Credit Regulations will be available at branches of the Chartered Banks throughout Canada.

Inquiries and requests for additional copies should be addressed to:

Administrator of Consumer Credit,
490 Sussex Street, Ottawa, Ontario.

Preparedness is the surest Prevention of Aggression

Serve Canada at Sea

Canada's Navy is fighting for freedom abroad

— to protect freedom at home.

The Royal Canadian Navy needs men today.

The Navy's job is a big job—important to every Canadian.

You can join us now.

Life at sea is a challenge. It's a man's life and you must be physically fit and able to live up to Navy standards.

The need is REAL—The need is NOW—ACT TODAY!

Be a sailor. Serve your country and yourself.

You'll see foreign places — and the full benefits of a service career can be yours now.

If you are between 17 and 29—have Grade 8 education or better—are a Canadian citizen or other British subject: write to the Recruiting Officer, Naval Headquarters, Ottawa; or write or see in person the Recruiting Officer at your nearest Naval Division, and find out how you can join.

IMMEDIATE OPENINGS NOW in all branches

The Royal Canadian Navy

Legislative Governing Civil Service Most Advanced in World, Rotary Told

"Our legislation for governing civil servants is the most advanced in the world and is even ahead of the United States," declared Mr. R. A. Packman, civil service commission investigator in giving Rotary Club of Summerland an insight into the working of his organization.

He described some of the duties the commission undertakes in regulating the work and care of 130,000 civil servants in about 2,600 classifications.

Leaves, transfers, appointments, after competent examinations have been undertaken, pay and classification are some of the headings reviewed by the civil service commission.

Pay is based fundamentally on the "equal pay for equal work" plan, but this raises many problems, he observed as wage rates are high in many parts of the country and much lower than in others.

He declared that in one instance a secretary in a small town was obtaining more money than the bank manager, while in one province the provincial minister of agriculture received less than some of the federal government agricultural officials.

Pass on Requests for Traffic Signs for Public Works Action

At the request of the municipal council, RCMP has requested the provincial department of public works to post 30 miles per hour signs along Okanagan Highway No. 5 from the entrance to Summerland near the George Stoll orchard to the C. P. Evans property on the lakeshore.

However, the municipal request for similar postings from Landry's to Trout Creek bridge was turned down by the RCMP on the grounds there is good visibility along this stretch of highway.

Councillor F. E. Atkinson led council disagreement with this attitude in that a considerable amount of cross traffic occurs along this stretch, particularly in summertime when the tourist cabins are busy and Powell Beach is being used a lot.

However, the council did not decide on any further action at this time.

The municipal council also pointed out to RCMP officials that a number of stop signs on roads leading onto Okanagan highway are missing and should be replaced. The police force has passed this caution on to the chief engineer notification on to the chief engineer of the provincial public works department.

Regina Lawyer to Address Agriculture Conference Nov. 22

Robert H. Milliken, KC of Regina, will be the principal speaker on the opening of the B.C. Federation of Agriculture 17th annual convention in Hotel Vancouver November 22 and 23, secretary C. E. S. Walls announces.

Born on a farm, Mr. Milliken is a graduate of both Saskatchewan and Manitoba universities and has been the legal representative of the Saskatchewan Wheat Pool for the past 28 years.

As an advisor to both the government and the Canadian Federation of Agriculture on agricultural marketing legislation, his most recent efforts on behalf of the farmer was his appearance before the Privy Council in London on behalf of the margarine appeal.

He has just returned from the annual meeting of the International Federation of Agricultural Producers in Sweden and is expected to speak to the B.C. federation on the international agricultural picture, as well as outline the legal aspects of both the provincial and dominion marketing acts.

cultural officials.

However, the principal of equal pay for equal work has proved its worth in most cases, Mr. Packman thought, and is basically sound when applied to a country as wide as Canada.

Geared to Industry

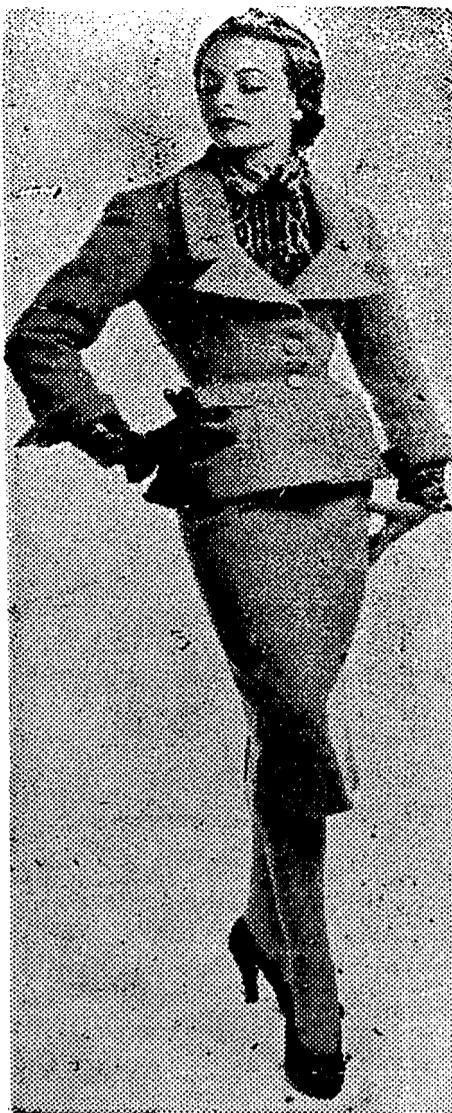

Pay ranges over a spread of some \$11,000 to \$12,000 from the junior clerk's salary to that of the deputy minister, he continued. The government has committed itself to gear civil service salaries to that of industry and it keeps in constant touch with trends in industry, Mr. Packman observed.

A civil service commission investigator audits the classifications of various jobs, tries to evaluate the jobs, not the person. Classifications and jobs are being reviewed constantly.

Staff requirements of a unit are also reviewed, unnecessary or duplicated work is watched for; procedures are reviewed and if equipment needs modernization then recommendations are made.

Accommodation and lighting problems are checked carefully, as well as the morale of the staff, while in checking personnel problems morals also sometimes come under scrutiny, he admitted ruefully.

He felt that the efficiency of the government service is constantly improving "and is not nearly as bad as a lot of people would have you believe," the speaker concluded.

SUITED IN GOLD — Jean Desses chose taintor gold for this suit trimmed with ocelot dickey and cuffs with matching hat.

Municipal Act Amendment is Being Sought

Councillor Francis Steuart queried council last week if any further action is being taken relative to legal steps in connection with the proposed Jones Flat sprinkler irrigation plan.

Summerland municipality submitted a resolution to the UBCM convention in Nelson in September requesting an amendment to the municipal act which would give the irrigation district power to proceed with Jones Flat sprinkler irrigation.

Council had been stymied in its plan because of limitations in the municipal act which would not allow financing in the method suggested.

Before the resolution reached the floor of the UBCM convention Summerland councillors discussed it with B. C. Bracewell, deputy minister of municipalities, who had promised that special legislation would be set up for approval by the B.C. legislature next spring which would give Summerland alone the right to finance in the manner requested, namely a type of local improvement plan operating within an irrigation district, in a municipality.

Summerland therefore withdrew its resolution but has heard of no further progress from Mr. Bracewell. On Tuesday it was decided to

write him again and ask for progress.

If it appears fairly certain that such an amendment to the municipal act has a chance of succeeding at Victoria then plans can be made beforehand for the Jones Flat scheme to proceed, it is thought.

LOCATE PARTY WHO PUT IN FALSE ALARM

Some false alarms are still coming in to the fire hall, Councillor Steuart reported to council on October 24. Last week a party in Trout Creek dialed the fire hall number by mistake and was detected by Okanagan Telephone Co. local manager Joe Biollo.

Your Car Should Ride On Grease!

ANNOUNCING A GREAT NEW "RPM" DEVELOPED BY ATOMIC ENERGY

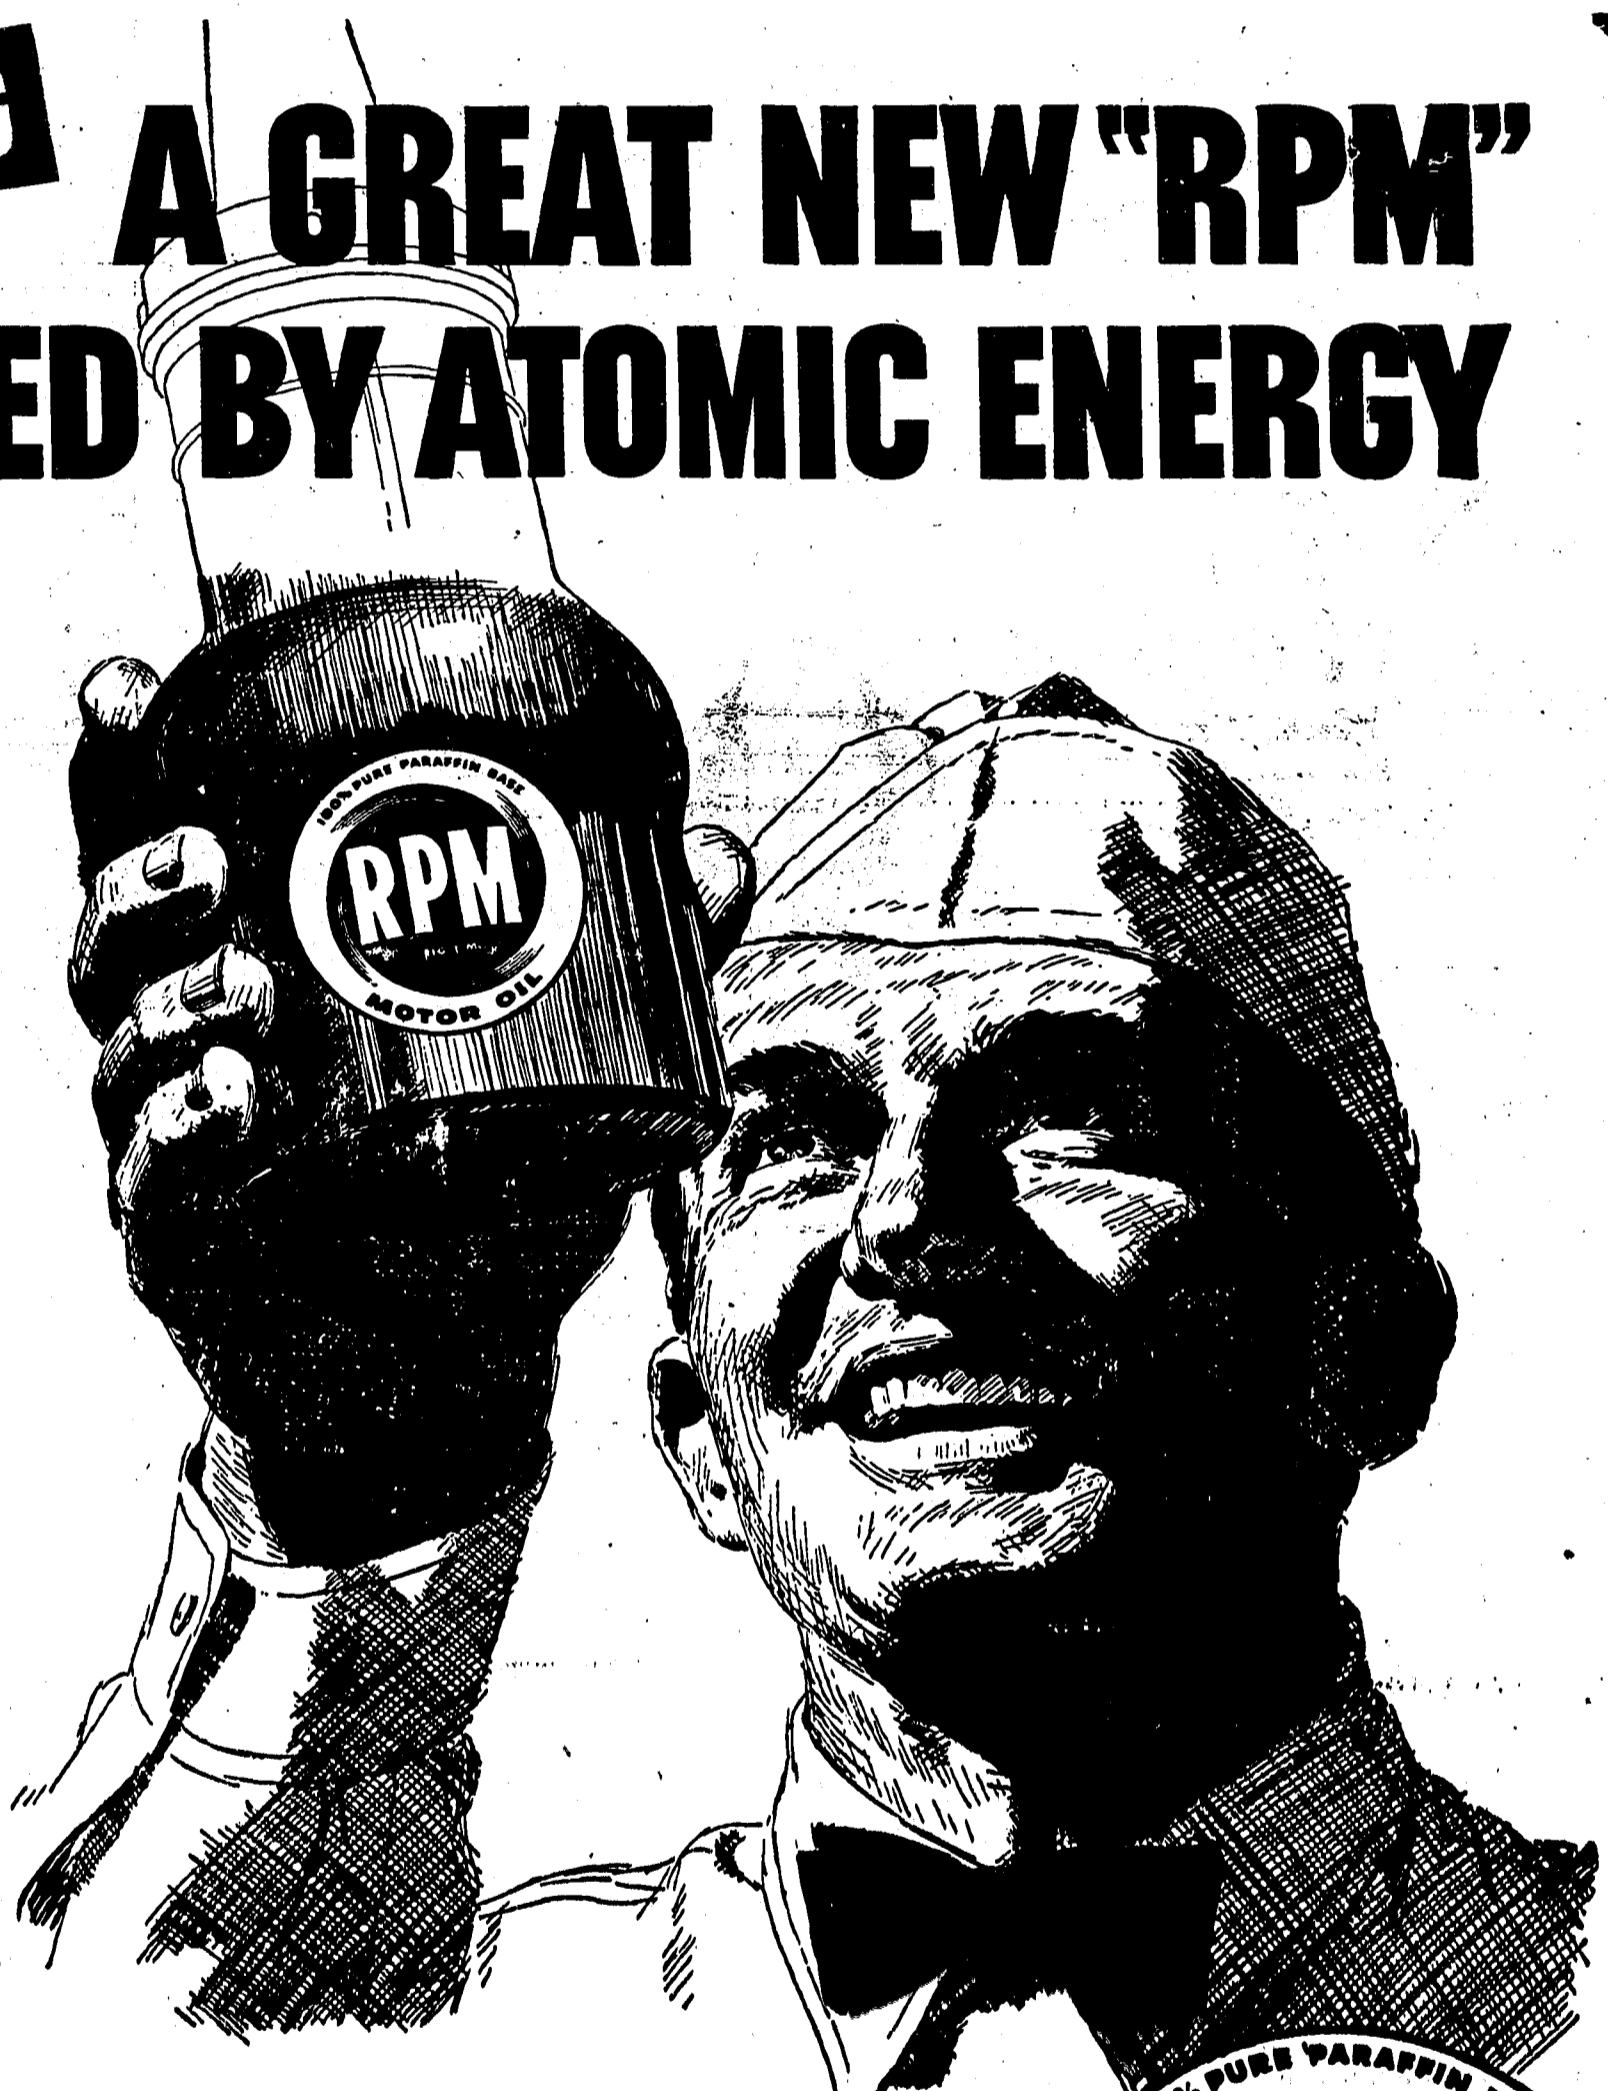

1. New atomic tool! Our scientists equipped test engines with piston rings treated at the Atomic Energy Commission's Oak Ridge Plant. For the first time, science measured wear as it happened!

2. Geiger counters detected instantly the rate at which metal wore away from these atomically treated rings—under different circumstances, and with different oils!

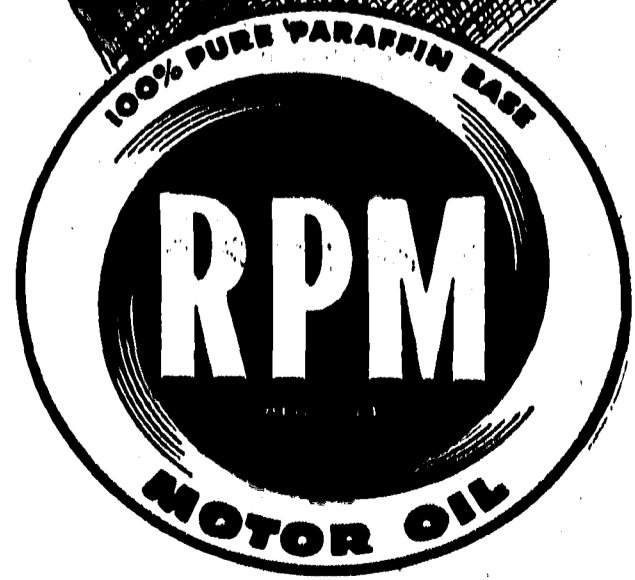

3. A New "RPM" was developed so superior that, compared with conventional oils, it doubles the life of average automobile engines between major overhauls due to lubrication. Laboratory tests proved it. Severe road service backed it up.

Doubles the life of auto engines ...in the toughest test a motor gets!

Cold operation tests under rigid controls were used to simulate stop-and-go driving conditions, the most brutal kind a motor meets. These tests showed that no motor oil gives you better protection than New RPM Motor Oil. Compared with conventional motor oils, it doubles the life of average auto engines

between major overhauls due to lubrication. It cuts in half the wear-rate of critical engine parts. It doubles protection against gummy carbon, acid, corrosion, rust and varnish . . . maintains the low-oil-consumption life of the average engine twice as long. Sold with a money-back guarantee of satisfaction.

* "Premium Type" oils designated by the American Petroleum Institute.

We take better care of your car

Fishing-Hunting Reports

(By Bert Berry)

FISHING

The cold and rough weather has made fishing on Okanagan Lake slow down considerably. No reports have reached me of any big fish being caught on the lake this week. Many of the upper lakes are still okay if you want to wet a line.

HUNTING

Howard Clark reports from Fish Lake that there are one or two cougars in that area.

A few deer came out last week and over the weekend but only three came to local hunters, from reports I have heard. C. Snow, R. Gibbard and the Barkwill brothers managed to bag one each. E. Gould was up to his Fish Lake cabin and the snow, he says, is about two inches on the top. However, cougars being around will make the hunting tough for awhile.

Fred Clarke was up last weekend to his Glen Lake cabin and hunted Kathleen Mountain. There were lots of signs and he saw several bunches but they stayed in the thick underbrush and he wasn't able to get a shot.

Quite a few parties are going out this week to hunt elk and moose.

Jack Miller and his brother Dick, from Vernon, are going into the Cariboo for moose and geese.

Ivor Neilson is going back to Mile 88. (I must take back my last report that Ivor got a moose. I was misinformed but good luck to him this time.)

E. Johnston and Joe Sheeley are

Gym Classes Being Staged Two Evenings

Gymnastic and acrobatic classes commenced at the high school gym this week, the boys' classes being held Monday evening and the girls' classes on Wednesday evenings.

W. J. Schwab has charge of the boys' classes while Miss Ann Semak has taken charge of instructing the girls' classes. All instruction is under the standard set by the Pro-Rec.

Mr. Schwab states that if the leaders' group reaches a sufficiently high standard of performance then it will be taken to the coast next Easter holidays to compete in the annual Pro-Rec championship.

On Monday evenings, from 8 to 9 o'clock junior boys will be taught gymnastics and acrobatics, while from 9 to 10:30 the leaders class will be instructed, with each member specializing in some particular endeavor, including, tumbling, acrobatics, springboard stunts, etc.

The girls' classes will start an hour earlier, at seven o'clock Wednesday evenings and continue until nine o'clock.

leaving for Prince George and other Cariboo points.

Percy Wilson, Channon Snow, Harry Parker are going to the Cariboo while George Pennington is going back to the Windermere country.

Ducks are here and a few northern mallards have been bagged in local lakes.

RETIRE AT LAST — Connie Mack, patriarch of baseball, finally decided he was through with an active role in the game recently when he handed over the reins of management of Philadelphia Athletics to Jimmy Dykes. At 87 Mack, the elder, to 70 years.

Rutland Wins Central High Soccer Games

Summerland Bluebirds soccer teams defeated Kelowna in both boys and girls battles last week but fell foul of strong Rutland squads in the final round of the central Okanagan high school soccer finals.

Last Thursday afternoon the Bluebirds took the measure of Kelowna when Austin Raham scored the only counter in the first stanza. The two teams played stout football but could not break through for further scoring.

Graham Munn was a standout at fullback, Earl Bryden and Robin Fisher were steady on the half-back line and Preston Mott was a standout among the hustling forwards.

Going to Kelowna on Saturday morning the Bluebirds held Rutland scoreless in the first half but the combination of steady Rutland pressure and an adverse wind proved too much and the northern boys took Summerland's measure 4-0.

Hooker pulled a leg muscle before the game and had to be replaced by Mike Maier. This was the only change from Thursday's lineup, which follows: Daryl Weitzel; Hooker and G. Munn; Brawn, Bryden, Fisher; Higgs, Raham, Glen Youngusband, Mott, Bingham.

But the girls' tussles were a different matter, as Summerland and Kelowna played to a draw three times, Thursday afternoon at Summerland, Friday afternoon at Kelowna and again Saturday morning at the Orchard City. Scores were 0-0, 1-1 and 1-1.

With both teams too tired for further play they flipped a coin and Summerland won. Then the Bluebirds had to play a fresh Rut-

School Debating Trophy Presented

KELOWNA—The "Leonard Perry Wade trophy", donated in memory of a Kelowna school student who was killed with the Fleet Air Arm overseas in 1945, will be emblematic of the Okanagan high school debating championship.

The Okanagan district will be divided into north, central and south zones with the winner of each zone competing in the finals. A Kelowna teachers' committee has been appointed to guide competitions in this first year and is headed by Miss Nancy Gale.

James McPherson Dies on Visit Here

James McPherson, aged 60, a brief visitor to Summerland, died suddenly on Thursday evening, October 19. Born in Liverpool, England, he came to Vancouver 30 years ago. Remains were forwarded by Pentleton Funeral Chapel to the Hamilton Undertaking Co. for funeral arrangements.

Surviving are four sons, Harry, Fred, William and James, all of Vancouver; three daughters, Mrs. J. H. Dronsfield, Mrs. G. McRitchie and Mrs. Audrey Lachur, also all of Vancouver and seven grandchildren.

land team Saturday afternoon and were consequently whitewashed 7-0, in their fourth game in three days.

First Summerland goal was scored by Olga Libicz while Doreen Kilback countered the second tally.

Summerland lineup included: Ruby Jomori; Irene Menu, Yvonne Polesello; Carol Raincock, Joan MacDonald, Winnifred Smith; Ruth Klix, Doreen Kilback, Olga Libicz, Leila Lewis, Helen Kean. Spares, Joyce Schumann and Evelyn Washington.

Volunteers from Active Local Groups Start Work on Arena; Hours Allocated Each Night

Every weekday evening and also on Wednesdays during daylight hours crews of volunteer laborers may be observed at work on the new Summerland curling-hockey arena. On Monday evening the first crew started work and is continuing this week. This plan will be carried on throughout the next month or two until the arena is ready for occupancy, it is hoped.

At a meeting of the rink association last week it was decided that each organization which has an active member working with the organization would be canvassed to supply volunteer laborers each evening.

First task is to complete the six-foot concrete wall between the abutments. These volunteers are mixing and pouring cement, among other endeavors.

Each organization is being asked to supply four men each evening that is designated. Appeals have been made to these groups already and the response has been good, it is reported.

On Monday evenings, the Curlers and AOTS Club are expected to provide the volunteers. Tuesday nights it is Kiwanis and Board of Trade turn. Wednesday, during the day, will be devoted to the Retail Merchants' help and in the evening, the Hockey Club and Jaycees go to work. Thursday night is for Rotary and Legion while Friday is Oddfellows' night.

Arrangements are being made to designate hours for volunteers from the Summerland Japanese Canadian Club.

Ralph Blewett in Charge Construction from this stage on

is under the charge of Ralph Blewett, well-known local carpenter.

Work of erecting and tying the trusses was finished last Thursday afternoon and the E. E. Tory construction crew has now completed its contract. Rest of the work will be by day labor under the charge of Mr. Blewett and with the assistance of George Stoll, arena committee president.

If sufficient volunteers are available, then the arena can be finished in plenty of time for the usual freezeup about the first of the year, Mr. Stoll expects.

The rink association also confirmed last week's report that aluminum sheeting will be used to cover the rink from the top of the cement wall over the complete trusswork.

Although this is an expensive type of covering the rink committee feels that it will be the most economical in the long run and will provide most satisfaction.

HOW THEY STAND

Total point standings and points won last week in the King-Pin bowling league are as follows:

Team	Pts	Total
Frozen Foods	4	11
Maple Leafs	4	11
Meateteria	3	10
Occidental	3	9
Westland Bar	3	8
Sanborns	4	8
Farm No. 1	1	7
Vanguards	4	6
Lucky Strikes	3	6
Credit Union	2	6
Red Sox	1	6
Pheasants	3	5
Young's Electric	3	5
Malkins	2	5
Stand Auto Court	1	5
Teachers	2	3
Farm No. 2	2	3
Review	1	2
Metco's	1	1
Daniel's Grocery	1	1
High single—George Taylor, 336;		
Helen Young, 249.		
High three—Eddie Lloyd, 665;		
Nan Thornthwaite, 616.		
High team—Frozen Foods, 3033.		

DAY SCORES DOZEN

When Pentleton Intermediate A cage crew opened the season at Kamloops with a decisive 42-38 win over the Red Devils of the Hub City, Wally Day played a prominent part, annexing an even dozen points. The young Summerland lad is playing in Pentleton this winter, he has decided.

VERNON TO VOTE ON PUBLIC LIBRARY PLAN

VERNON—Assurance has been given by the public library commission in Victoria that an order-in-council authorizing a vote on Vernon being included in the Okanagan Union Library scheme will be passed within a few days. A petition bearing 269 property owners' names was presented to the commission.

Lang Sands

Publisher of the Fraser Valley Record, Mission City, who was elected president of the Canadian Weekly Newspapers Association at the annual convention held in the Chateau Frontenac, Quebec City, October 23 to 25.

This is only the fourth time in 31 years that the office has fallen to a British Columbia rural publisher. Mr. Sands is a past president of the B.C. Division, C.W.N.A. and has been a leader in the advancement of the provincial weekly press for many years.

RETURNS FROM COAST

Mrs. M. Ritchie who has returned from the coast to live at Summerland will move into her house which has been occupied by Mr. and Mrs. M. Ducommun and their family. Mr. and Mrs. Ducommun moved into their new home on Jubilee Road this week. Mrs. Ritchie has been living in an apartment of her brother-in-law, Mr. J. Lawler for a short time.

Peaches Form One-Third Of Winter-Killed Trees

At yesterday's meeting of the BCFGA emergency advisory committee in Kelowna, the provincial government's survey of Okanagan-mainline-Grand Forks fruit trees killed in last winter's sub-zero weather was revealed for the first time. It is interesting to note that one-third of the trees killed were peaches and that this total exceeded that of apples. Most of the peach tree kill is centered in the Oliver-Osoyoos area.

Variety	Under 2-in.	2-in. to 5-in.	5-in. to 7-in.	7-in. to 12-in.	Over 12-in.	Total
Apples	5,729	6,845	14,712	46,521	33,421	107,228
Peaches	9,559	24,285	29,108	30,774	7,287	111,313
Apricots	14,335	14,108	5,515	3,233	790	37,981
Cherries	2,312	1,618	1,850	4,678	6,988	18,446
Pears	9,940	6,348	3,215	2,524	693	22,720
Plums	301	1,002	1,626	1,723	497	5,149
Prunes	3,105	6,907	12,102	9,620	2,239	33,973
TOTAL	45,581	61,913	78,128	99,073	51,915	336,610

MORE ABOUT—

THREE-POINT

Continued from Page 1

be desirable in any brief presented to the cabinet and the dominion authorities.

In the brief, the emergency advisory committee intends to go back thirty years in its review to show the growth of the industry and its growing value to the province and the dominion.

It was agreed that it must be pointed out that only a small percentage of growers have been seriously affected but they face ruin if there is no financial assistance forthcoming to remove the trees and help in replanting.

That Ottawa is in a receptive frame of mind regarding such assistance was voiced by several members yesterday and the federal authorities are only waiting to hear British Columbia's case presented in reasonable form.

Washington State fruit growers faced a similar situation to B.C., it was stated. There, the government stepped in without being asked and said: "Don't get discouraged; we'll help you as we want to keep you on the land", was the opinion of George Mabee of Oliver.

The U.S. federal authorities realize the value of keeping orchardists on the land and in a comparatively healthy financial condition, it was opined.

Any idea that the fruit industry is seeking a subsidy on "crop loss" should be spiked immediately, it was emphasized.

Cost in Nova Scotia
It was stated that the Nova Scotia fruit tree removal program was based on \$5 per tree. The government undertook the administration of the scheme and the bulldozing, which took the first dollar. The remaining four dollars went to the grower when the trees were completely removed and land prepared for further use.

Mr. Campbell produced one Kamloops grower's figures. Charging himself 60 cents per hour for work he cleared seven acres for \$3.57 per tree. However, it was pointed out that costs would vary greatly according to type of soil, age of trees and varieties.

At one point in the discussion Mr. Mabee wanted all trees of all varieties, of the same diameter, paid for on an equal basis for tree removal but his resolution was lost by an eight to three vote.

A compromise between Mr. Campbell's formula and Mr. Mabee's estimates of tree removal costs was finally reached, as already outlined.

Over Two Millions
It has been estimated that the formula for tree removal and replanting would run to \$2,052,340. Of this amount, \$673,220 would be utilized for replanting.

In the brief to Victoria, the industry will point out that B.C.

fruit growers have organized to stand on their own feet and have only appealed for federal financial assistance in emergencies created by international economic conditions "beyond the control of this industry."

Statistics on the industry's contribution to provincial and federal economy have been compiled and will be included in the brief.

It is stressed that it will take six or seven years, at the least, to bring an orchard back into production. Many growers, especially on the mainline and in Osoyoos area have been wiped out entirely.

"If it is in the best interests of Canada to foster and assist potential farmers to become established, then surely it is sound to assist a man who has already established himself as a farmer and who has encountered a heavy blow, to remain on the farm," it was emphasized.

Some idea of the loss of revenue to the fruit orchardist through loss of soft fruit crop this year will be included in the brief. This is not included with any idea of compensation but to point out the extra loss to the industry due to winter injury.

It is likely the four-man delegation which will go to Victoria will consist of President Ivor Newnam, Kelowna; J. G. (Jock) Campbell, Salmon Arm; Dolph Browne, Vernon; George Lundy, Oliver.

MORE ABOUT

SMILES

Continued from Page 1
er from the time he established the Elliott store in Summerland in 1908. Mr. Stinson was then a commercial traveller who made periodic visits to the Okanagan.

"You have just made the biggest profit on the sale of a box of Lux soap that I know of in this part of the country," was Mr. Stinson's jocular remark. "I couldn't hand it to a nicer guy", he declared amidst the applause of the audience.

Mrs. Adams has been a resident of Summerland for the past twelve years, having met her husband-to-be at the Vancouver Art School where he was attending classes.

Mr. Adams is an artist who is gaining recognition by leaps and bounds in this province. He has spent most of his life on a fruit orchard in the Summerland district but his main love is not the soil but its depiction by means of a paint brush.

Two years ago Mrs. Adams was successful in winning a Frigidaire in another nation-wide contest sponsored by Robin Hood Flour Mills.

Teachers Turn Down Proposal That Government Pay Salaries

Okanagan Valley teachers, 579 in all, at their annual convention in Vernon recently did not concur with a resolution which would put the business administration of school districts into the hands of a trained secretary-manager appointed by the department of education.

They also did not approve of a plan that teachers' salaries be paid by the provincial government in accordance with a salary schedule arranged between the department and the B.C. Teachers' Federation.

However, teachers did ask for a change in the ruling to permit a separate letter grade for English literature and English language respectively; sought copies of pamphlets from the department of agriculture for each pupil in the agricultural class; and agreed that no city should be asked to host the OVTA convention, track meet and musical festival in one year.

J. A. Spragge, first vice-president of the B.C. Teachers' Federation was one of the principal convention speakers, emphasizing the benefits derived from such conventions.

"Ours is a democratic organization, and I hope the charge of autocratic control will never be levelled at the teaching profession," Mr. Spragge said.

The speaker mentioned the "workshop" held at Qualicum Beach last May, and where a similar get-together is planned for August, 1951, when "I hope the Okanagan will be better represented numerically than in 1950," he said. Some cities will be faced with a request for teachers' salary boosts, Mr. Spragge continued, mentioning Vancouver and Victoria, in which latter municipality a seven percent increase at least will be asked.

That the government contributes some 75 percent of the cost of education; 35 percent of the total

through direct grants, and some 40 percent through the SS and MA tax, was a statement by the speaker, leaving only 25 to 30 percent to be met by the taxpayer.

In support of his argument, Mr. Spragge cited a hypothetical municipality, where one mill would raise \$5,000. Gross school expenses, supposedly, would be \$200,000 and general gross expenditures the same amount.

Grants to the school board would be \$80,000 and the SS and MA tax would provide a further approximate \$80,000. If the tax proceeds were shown as school revenue, the school rate would be eight mills and general rate 40 mills. If the tax was split 80-20, then the school rate would be 11.2 mills and the general rate 36.8 mills.

"The answer is what the municipality does with the SS and MA tax," Mr. Spragge said.

Mr. Spragge spoke of the fight being put up by the teaching profession that its members might hold public office. He said the BCTF tried to get endorsement from the Union of British Columbia Municipalities.

"Al we ask is restoration to us of a democratic right. The UBCM refused to hear us. They told us to go home. And that in a democratic country," Mr. Spragge said, referring to the UBCM convention held recently in Nelson.

He praised the B.C. School Trustees' Association, "from which we enjoy excellent co-operation."

Mr. Spragge said that 65 percent of B.C. teachers are women. The BCTF, he said, "is run largely by men; principally from secondary schools. We need more women, and more elementary school women, to take an interest in the affairs of the BCTF."

"Maybe I am a rugged individualist!"

"No reporters ever interview me. But just the same I figure every man should have his own opinions about politics, foreign affairs, business, or what have you.

"Take all this talk nowadays about old-age benefits, for instance. That's something everybody wants. And each man has a different idea of how much security he wants and how he'll get it.

"I know there are a lot of old folks in this country that really need help. But while I'm young and earning good money, I figure the big part of my own security-building job is up to me.

"So, I'm hanging on to all my life insurance and adding to it whenever I can. It gives me

and my family protection now — and a better income for the future. And it's all planned the way I want it.

"What's more, by relying on life insurance for my future security, I know exactly where I stand. My life policies are gilt-edged in any weather. I know just how much they're going to pay off — and when.

"That's the way I like it. "Maybe that makes me a rugged, individualist. But if it does, there are millions of others like me. Because most Canadians like to do things on their own!"

Local Growers Call for Continuation of Annual BCFGAs Research Grant

Summerland growers, at their annual meeting called by the Summerland Local of the B.C. Fruit Growers' Assn. yesterday afternoon at the IOOF hall, called for a renewal of the annual \$5,000 growers' grant for the Dominion Experimental Station here, considered favorably an approach to some form of insurance which would act in the same manner as being a part of the workmen's compensation act and also called upon the central body to consider preparation of an attractive booklet which would give an authentic and informative history of the fruit industry through the years.

Growers also turned down a proposal by George Stoll to urge the government to enter into a wider field of immigration; on the grounds that this was entering upon national policy.

Colin J. McKenzie is the new president of Summerland local BCFGAs, succeeding Reeve C. E. (Ned) Bentley, the incumbent for the last half dozen years. Mr. Bentley refused re-nomination.

Walter Toevs was named as secretary-treasurer in place of Mr. McKenzie and the five other executive members will be J. Y. Towgood, C. E. Bentley, Eric M. Tait, George Stoll and Walter Bleasdale. The executive, plus Henry Mohr and Harvey Walton, will be delegates to the annual BCFGAs convention in Vernon next January.

Mr. McKenzie, in accepting nomination, declared his viewpoint that the work of the BCFGAs is just as important to the industry as the actual growing of fruit. Six-Year \$5,000 Grant

Retiring President Bentley was mover of the resolution which will go to Vernon seeking renewal of the annual BCFGAs grant of \$5,000 for experimental research work to be carried out by the station here. Such a grant has been obtained for the past six years and has proved a great boon to the industry.

C. J. Huddleston advanced the proposal that the BCFGAs approach the government for an act whereby an insurance scheme could be evolved on a per box deduction basis to provide compensation for injuries in the orchards.

His resolution was purposely left wide open so that details could be worked out at a later date. In principle, the growers approved the idea and ordered it passed along to the growers' parliament next January.

More details of this proposal can be found on Page 7 of this issue. Mr. Huddleston also advanced the theory that the newer fruit growers should become more acquainted with the trials of the past and the chaotic conditions which led up to the formation of the central sales agency.

To this end he recommended that a complete history of the fruit industry be compiled and issued to registered growers in the form of an attractive booklet. His move met with unanimous support.

Only resolution which did not meet with accord was that concerning immigration, as introduced by George Stoll.

"Canada needs workers more than any other country in the world," Mr. Stoll declared in urging that a resolution be passed asking the federal authorities to lift "all unnecessary restrictions" on agricultural workers endeavoring to reach this country, that their transportation be free and the amount refunded from their wages after arrival, and that there be less discrimination against German Nationals.

There isn't enough labor to go around, Mr. Stoll stated, and all over the country there is a need for more workers. In Central Europe there are hundreds of thousands of jobless starving today.

Henry Mohr, in several discourses, stated that the United Nations has already started to work on this project and he believed the government is now prepared to proceed with more migration to Canada, especially from Greece, Germany.

Continued on Page 10

Citizens Thanked by Growers for Harvest Aid

Summerland growers, at their annual meeting in the IOOF hall yesterday afternoon, paid tribute to the assistance given them by their fellow townsmen during the hectic apple harvesting season just concluded.

J. Y. Towgood evidently voiced the feeling of all present when he declared that "the support we received from various groups certainly warrants our expression of hearty appreciation."

The meeting passed by unanimous vote a resolution voicing the growers' gratitude to the citizens of Summerland, with special mention to the merchants and the school pupils through their school board.

Plan Petition For Ellison Hall Bylaw

Members of the Canadian Legion are circulating a petition this weekend seeking more than two hundred signatures to a request which will be laid before the municipal council seeking a money by-law for the renovation of Ellison hall.

It was explained at last night's monthly meeting of the local Canadian Legion branch that a request for money by-law which has not received full council sanction must be accompanied by a petition signed by one fifth of the registered taxpayers of the municipality.

No formal request for council sanction of the bylaw has been placed before the council yet, but it is the Legion's hope that sufficient signatures will be ready by the time Tuesday, November 14, rolls around.

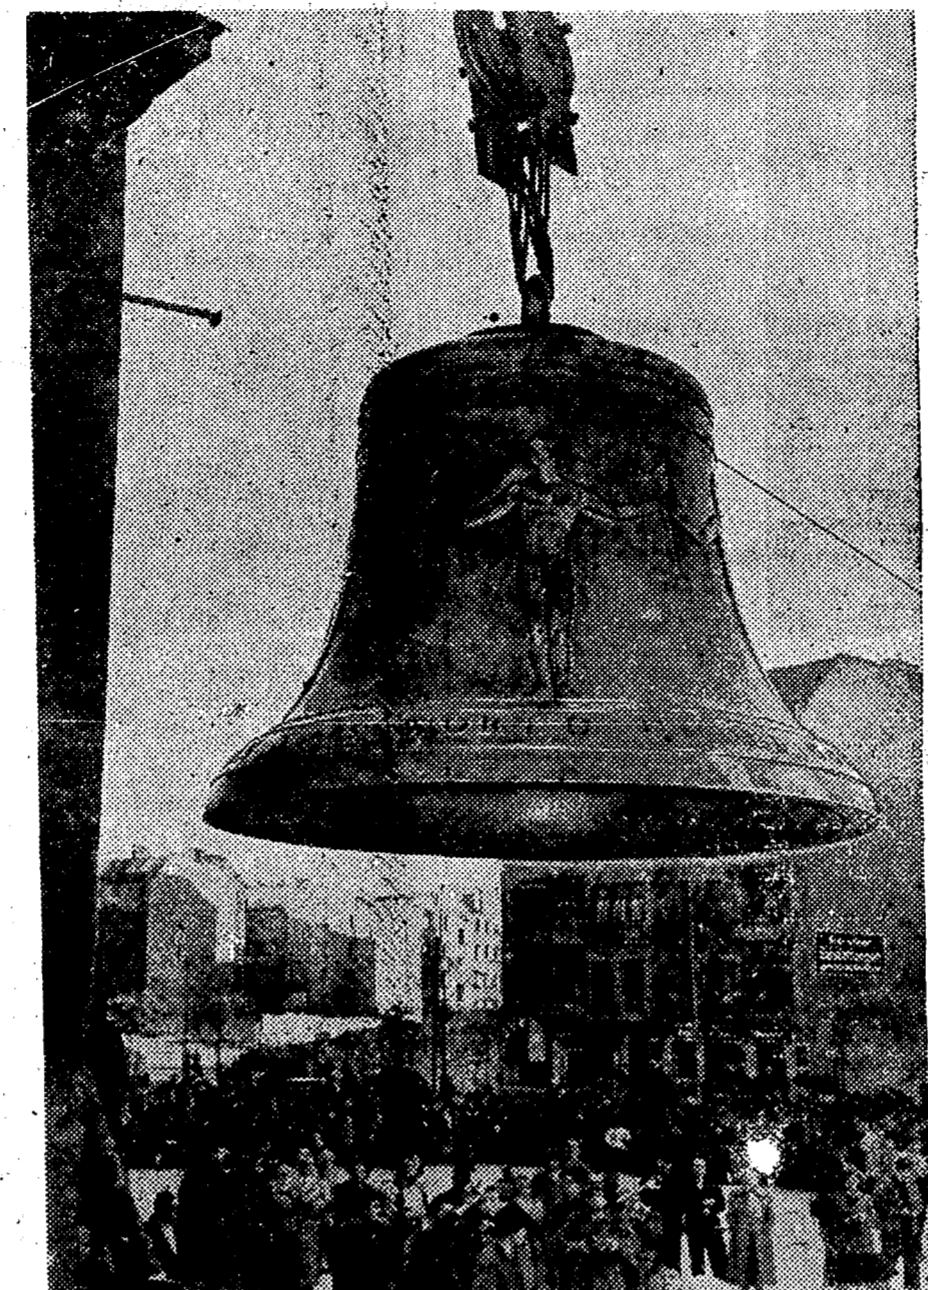

It is the Legion hope that if the petition can be completed by that time that the bylaw can be readied in time for the municipal elections in December.

D. L. Sanborn heads this Legion committee and has circulated a number of petition sheets throughout the municipality. Only registered holders of property whose names are on the municipal voters' list as such are allowed to sign this petition.

The petition only asks that the municipal council prepare a proper bylaw for submission to the ratepayers seeking their approval of a capital expenditure for renovation of Ellison hall.

This renovation would include new furnace installation and other work which would put the building into use as a community hall the year round. At present it cannot be rented in the winter because of the inadequate heating

Freedom Bell Tolls for Prisoners

THIS TEN-TON FREEDOM BELL, created for Communist-surrounded West Berlin by U.S. public subscription, tolled from the tower, Schoeneberg Town Hall recently in memory of German prisoners of war still held in Russia. Traffic came to a standstill for two minute interval. The huge bell is shown above being raised by windlass to the top of the tower as hundreds of West Berliners look on.

Veterans Parade to Cenotaph On Saturday, Remembrance Day

War veterans, together with Legion W. A. members, Boy Scouts and Girl Guides will parade behind the Summerland Band on Saturday morning in a short march to the Cenotaph for the annual Remembrance Day service which will commence at 10:45 o'clock.

President Ross McLachlan issued an urgent appeal last night at the monthly Legion meeting for all veterans to be present for this parade to commemorate those who did not return.

Those who will take part in the parade are being asked to meet at the corner of Granville and Hastings at the Smith and Henry office, by 10:30 o'clock.

D. L. Sanborn will be O. C. parade, which will move off in time to form a hollow square in front of the Cenotaph before commencement of the service.

Members of the ministerial association, led by Rev. H. R. Whitmore, president, will conduct the service. They will consist of Canon F. V. Harrison, Rev. D. O. Knipfel and Rev. C. E. Coxson.

O Canada will follow the opening prayer and after scripture reading the gathering will join in singing the hymn, O God our help in ages past. The congregation will be led in prayer, after which will come the reading of the Roll of Honor and the Response by the Legion.

A moment of silence in memory of the fallen will be followed by the Last Post and Reveille. Wreaths will then be laid on the Cenotaph and the service will conclude with the Benediction and God Save the King.

Tomorrow evening, at the IOOF hall, the annual Remembrance Day banquet is being staged for veterans and Legion W.A. members. A program of entertainment and dancing will follow the banquet, which is being planned by the W.A. with the assistance of some Legion members.

Now Flagpole
This Remembrance Day, visitors to the Cenotaph and the Living Memorial park playground will view the new flagpole for the first time. This impressive timber is 73 feet tall and was erected by the parks group this week with the assistance of the municipal electrical crew.

This flagpole, one of the most sturdy for its height in this district, was obtained by the parks committee from Mr. Tom Hooker, chief of the Summerland logging department.

SORRY PHEASANT SEASON REVIEWED BY BERRY

This has proved to be the worst pheasant season in Summerland district's history. Other valley points which used to abound in these fine game birds report the same dismal story now that the season has closed. The Review's regular fishing and hunting columnist, Bert Berry, gives his version of the reasons in this week's edition. His column can be found on The Review Sports Page, No. 9.

New, Higher Telephone Rates Go Into Effect Next Wednesday, Nov. 15

Following acceptance of the new schedule by the public utilities commission, the Okanagan Telephone Company announced this week that new telephone rates will go into effect at midnight next Wednesday, November 15.

These new rates "will enable the company to continue with its vast program of modernization and dial conversion," an official company statement received by The Review this morning states.

In Summerland, as well as Revelstoke and Salmon Arm, the new individual business rate will be \$4.75. In other communities the new schedule provides for rates from \$4.00 to \$5.75 for a similar service.

In the case of individual residences, the rate for multi-party service in Summerland, Revelstoke and Salmon Arm is \$3.25 while other areas have rates varying from \$2.75 to \$3.75.

"The commission's acceptance of the telephone company's application provides the 'go ahead' signal for ordering of dial equipment for the Penticton and Vernon exchanges," the company states.

Orders were tentatively placed in August for close to \$500,000 worth of intricate dial equipment for these exchanges to insure the manufacturer's delivery schedule. Steps are now being taken to finalize the purchase of this equipment.

Program in Two Phases
"The telephone company's program for modernization and dial conversion is to be completed in two phases. The first phase, a 3-year \$3 million program will see the three largest valley centres, Kelowna, Penticton and Vernon, converted to automatic telephone service.

"From 1954 to 1956 similar programs are planned for Revelstoke, Salmon Arm and Enderby, as the second phase. "The telephone company is now well into the initial stages of the first phase of its plan, with the completion of its \$70,000 building addition in Vernon; the start of construction of a \$50,000 dial exchange in Kelowna; the placing of orders for close to \$1 million worth of dial equipment for Kelowna, Penticton and Vernon; and for proposed community dial offices at Oyama and Winfield. These latter two exchanges will be 'on dial' in the summer of 1951," the statement concludes.

Poppy Day Sale Biggest Ever Here

Biggest returns from the sale of poppies ever recorded here were reported by W. McCutcheon, committee chairman, to the monthly Legion meeting last night.

From both the sale of poppies and wreaths an amount of \$692 was raised in the past few weeks, culminating in the Poppy Day drive last Saturday. Sale of poppies alone on Saturday raised \$315.

President Ross McLachlan commended Mr. McCutcheon and his committee on their efforts last night and also spoke of the co-operation received from Scouts, Guides and Cubs, who canvassed the community selling the blood-red poppies last Saturday.

It was stated that some persons may have been missed in the campaign and in order that those persons still wishing to purchase poppies or household wreaths may do so it was arranged that a supply morning at the offices of The Summerland Review and Bulletin.

To acquaint Cawston Bench VLA settlers with some of the difficulties they will encounter on their new project a meeting was held in Penticton last week. Dr. J. C. Wilcox was one of the speakers.

Needed One More Pint for 200 Mark at Blood Donor Clinic

Summerland turned in 199 pints of blood to the Red Cross blood donor service as a result of the clinic held in the IOOF hall, Thursday afternoon and evening, Nov. 2, under the convener'ship of Mr. J. Y. Towgood.

Great credit in obtaining this number goes to the Jaycees who telephoned every household listed in the phone book, and through whose efforts many attended, clinic officials state.

There were over two hundred who offered to give blood. Thirteen were turned down for medical reasons and a number of others because of age.

Registration was handled by Mrs. R. G. Russell of the Red Cross Corps, assisted by Mrs. H. C. Whitaker, working in the afternoon, and Mrs. Bert Berry in the evening. Mrs. H. R. J. Richards served soft drinks in the afternoon and Mrs. Russell took over for the evening.

Nursing staff convoked by Mrs. Wm. White, consisted of Mrs. Frank Doumont, Mrs. C. J. Blomdale, Mrs. S. J. Poltham and Mrs. Don Clark.

Special Buttons Presented
Mrs. J. W. Mitchell and Miss Mildred Clarke listed and gave out the special buttons to those who had

That Nasty Taste Is 'Phenolic' Flavor

Summerland delegates to the quarterly meeting of the South Okanagan health unit enquired about the taste of chlorine which persists in local domestic water, and about which some pertinent remarks have been made recently.

They were informed that the organic matter in the water, combined with the chlorine provides a "phenolic" flavor.

Phenolic or not, local delegates wanted a cure for the taste but were informed that it might be difficult to eradicate it.

Allowing the water to pour through a sand filter bed might be the answer, it was stated, or it might be necessary to bypass the reservoir.

The Summerland delegation of Councillor F. E. Atkinson and Mrs. A. W. Vanderburgh were advised to consult City Engineer Meckling of Kelowna who could give further information on Kelowna's similar water difficulties.

Bentley Blames Wage Scale Circular For Part of Labor Troubles Here

Part of the labor trouble experienced in the South Okanagan in the past season was laid to the BCFGAs Southern Council who issued a circular last spring declaring the basic wage scale for orchard workers to be 65 cents per hour, accused C. E. Bentley, Summerland Local BCFGAs chairman at the annual meeting in the IOOF hall yesterday.

"No other industry was paying as low wages as that," Mr. Bentley pointed out, and that circular went to the labor offices at the coast.

Five growers stuck to that scale, he continued and in some cases went as high as 18 cents per box for apple picking.

W. J. Beattie, farm labor placement officer here, in his annual report noted that this has been the most hectic labor year in the eight years his office has been in operation.

Firstly, there was no continuity of work and secondly the difference in farm wages here and in other parts of the province created a problem. Workers in the fields at the coast were obtaining \$1 per hour, he declared.

men from the Fraser Valley can be attracted here next summer when the berry season has concluded. For the Cornwall Canning Company he has placed an offer of employment for one hundred women next year, he declared.

Mr. Beattie expressed again the hope that growers will become more conscious of the need for workers' accommodation.

"Each year this need is becoming more and more apparent," he stressed: "If you growers will put up decent cabins it will repay you one hundred percent."

Gratitude of the growers for a job well done was expressed to Mr. Beattie and the farm labor service by Chairman Bentley.

At another stage, A. M. Temple asked what action could be taken to ensure that high school boys would be available for apple picking. He had two high school boys this year who proved much better than ordinary transient help which he has obtained for years.

Sombre Prospects this Remembrance Day

ON Saturday morning, November 11, Remembrance Day, we will stand before the Cenotaph in the Living Memorial park playground and pay tribute to our glorious dead...

It will be a fitting gesture on the part of those who were fortunate enough to return to take up their normal civilian life once more and on the part of those who could not volunteer but kept the home fires glowing for their loved ones' return.

But while we are gathered in front of that Cenotaph the thought will be uppermost in our minds... what will transpire before another Remembrance Day rolls around in 1951?

This Remembrance Day, just five years since World War II closed semi-officially, we are not at war but we are far from a state of peace.

The Korean conflict has been a proving ground for the United Nations. These United Nations, mainly through use of United States troops, have shown that they are prepared to back up their ideol-

ogy with force if an act of aggression has been perpetrated.

We all thought that the Korean war was to be a testing ground which would probably show the Russian and Korean Communists that we could back up our words with force, if necessary.

But now the Chinese Reds have entered the picture and have invaded Korean territory. They have fought against United Nations' troops and have been aided by Red airplanes.

What appeared at one time to be a test battle in a small section now has every semblance of spreading into a continent-wide war.

This would appear to sum up the situation which confronts us as we bow our heads in memory of those who gave up their lives.

That this second phase may be a titanic struggle against two of our allies in the first round is the bitterest part of all.

Let's Have Action on "Emergency"

SERIOUSNESS of the winter-kill of fruit trees in the Okanagan, Grand Forks and mainline sections of the interior was revealed in no uncertain terms last week when the fruit industry emergency committee was informed that 236,610 fruit trees had been destroyed.

It is a pity that there has been such a delay in presenting this picture to the provincial cabinet and federal authorities in Ottawa.

Now, however, the true disaster has been revealed and it appears to be just as drastic as was foretold in the first analysis.

The mere fact that such a large number of trees have been killed would not be as grave if this destruction had been spread evenly over the entire acreage under production.

On the mainline, in the North Okanagan and also in the Oliver-Osoyoos district the main brunt of this winter-killing of fruit trees has been felt.

This is an emergency which should have had more attention months ago. It is not too late to rehabilitate the man on the land who has been affected in this respect.

There is included in the overall picture, how-

ever, the grower who lost a few trees. Although he may not make a claim his trees have been included. We do not think that he should be considered to any great extent in the rehabilitation picture.

It was truly said last week at the Kelowna meeting that the government has gone to great pains to place many growers on the land.

There has been too much talking and not enough action in this emergency which has existed ever since last winter and for which no definite alleviation has yet been found.

The figure of two million dollars has been voiced as the probable amount which could form the basis for payment to those who suffered loss of trees.

The magnitude of this loss in trees and cost of replacement alone should be sufficient to quieten these scoffers. This figure does not include in any way the loss of crop suffered by these same growers this year and the industry has no intention of endeavoring to gain any compensation for this part of the loss.

This is a point which must be stressed again and again if the consumer is to realize the proper picture of the Okanagan's request for assistance in the face of this disastrous winter-kill.

Fine Home to Greet Aged Men At Terrace, B.C.

James McPherson, well-known former Summerland shoe repairer, recently was one of a group of 153 British Columbians who found a new home at Terrace, B. C., in the provincial government's new Home for Aged Men.

This group was transferred from the coast to the new home and recently the Omineca Herald carried an interesting description of the new abode:

The new Home for Aged Men opened this month in Terrace was formerly used by the Canadian Army during the last war. It is what is known as an "H" building. There is spacious accommodation to handle the 300 men that will eventually be housed there.

The home is fully staffed with efficient and specially trained personnel under Superintendent W. E. Skillicorn. Dr. Gerald May, local physician, will be the doctor in attendance and will make regular visits to the home.

Beautifully finished, fully and modernly equipped in every way the home does not give the impression of an institution but rather has the appearance of a large club.

Four roomy sleeping wards have been set up, bright and airy, with new furniture and equipment. In addition there is a sick ward. An attendant's room is off each sleeping ward as well as bathrooms with shower and bathing facilities.

Two large dining rooms, with small tables to seat four, are each equipped with a large steam table to keep the food hot for serving, an electric refrigerator, large tea and coffee urns and an electric automatic chain toaster.

Fire doors and walls have been installed between sections and adequate fire fighting equipment is stationed throughout. The entire building is electrically serviced and is steam-heated from a main boiler house with three automatic stokers.

The kitchen, which is electric throughout, is one of the most up-

JUGGAN '50

to-date with every modern convenience, including electric range, large grill plate, electric ovens, reach-in refrigerator, dish washer, deep fry unit, bread slicer, automatic toastmasters, steam chest, meat slicers, vegetable peeler, mixing machine with grinder, shredder and juicer and large coffee urns.

There is also a large walk-in cooler and two well-stocked store rooms. J. Piffer is to preside over this department.

There is also a staff dining room, housekeeping quarters with mending room and linen storage space. A complete laundry unit is

housed in the same building as the boiler room. The administration offices are housed in the main building.

There are three apartment blocks for staff residences, making 13 apartments as well as a furnished building for single men of the staff, complete with separate bedrooms and dayroom with comfortable chesterfield and occasional chairs and fire-place.

The entire unit is a permanent installation and one that will alleviate the over-crowded situation of the larger centres.

FORTY YEARS AGO

November, 1910 First annual hospital ball was held last Friday in the packing shed near the wharf.

A bylaw will be placed before the ratepayers seeking authorization for extension of the electric lighting system. More than \$15,000 will be spent if approved.

The College gymnasium is now fully equipped. College classes are running full blast and physical training is under the charge of A. W. McLeod.

Officers elected at the annual meeting of the Women's Institutes were: President, Mrs. G. J. C. White; vice-president, Mrs. W. H. Hayes; secretary, G. Anderson; directors, Mesdames Logie, Robson, Morgan, Hogg and Dowton.

A new laundry building in connection with the Hotel Summerland has been erected.

The local automobile is again in commission after having been undergoing repairs as a result of an accident on the Pentiction road.

Henry Austin, new gymnasium instructor for the Men's Club has

arrived and is preparing his schedule for winter work.

A new 28-foot motorboat built by Shields, Hatfield and Clark was tried out on Thursday.

Lieut. Governor and Mrs. Bulyea of Peachland have returned to Edmonton for the winter months.

THIRTY YEARS AGO

November 12, 1920 Okanagan's fruit shipping season has closed at a much earlier date than usual and only a few of the late varieties remain.

A trench mortar and two machine guns, trophies of war, have been received by the corporation. The GWVA has suggested a place be found for them on the new hospital grounds.

As another applicant from Vancouver had already taken a position, C. E. Pineo has been offered the position of collector and accountant for the municipality.

Government Engineer Norrington reported to council, having examined the Dale meadows and adjacent properties, which have been

flooded. Evidence of excessive amounts of water being used was noted.

Senator L. W. Shatford died in Vancouver General on Monday morning following a paralytic stroke.

Fruit Inspector B. M. Whyte laid a charge of faulty packing against the Summerland Fruit Union, Magistrate Hutton imposing a fine of \$25 and costs.

TWENTY-FIVE YEARS AGO

G. L. Slater, Vancouver business man who owns a fruit ranch in Summerland has been prominently mentioned in connection with the reorganization of the B.C. Berry Growers' Union.

A reward of \$50 is being offered by the Corporation of Summerland for information leading to the conviction of the person who tampered with the reservoir gates last Saturday.

Notwithstanding all the efforts of government officials to control the spread of codling moth by adoption of quarantine areas, stringent inspection, etc., the acreage to be controlled is on the increase.

Based on a population of 1837 the Corporation of Summerland has received \$1,465 from motor vehicle licence profits.

Postmistress of Peachland for 25 years, Mrs. L. M. McDougald has passed away.

Miss Bryco, nurse at the Summerland hospital, is leaving for Arcoia, Sask., and then to England for the winter months.

Percy Rand, Alfred Johnston, Walter Ramsay and D. Wilson have returned from the prairies where they were harvesting.

ATTEND THETA RHO SESSION

Mrs. A. K. Elliott and Mrs. F. E. Atkinson who are on the B.C. board clubs attended a meeting of the control for Robokah lodge girls' Theta Rho club at Princeton on Sunday, Nov. 5.

Signifying Nothing By RUSTICUS

Do you remember how the famous quartet of Dumas' immortal "Three Musketeers" set about buying equipment for their big campaign? None of them had much money; so three tried to make their little spin out by bargaining as carefully as they could.

There is something grand about that way of making a purchase, and I still glimpse a flash of plumed hat and velvet cloak whenever I hear someone casually or deliberately remark, "Oh, I always buy the best; it's the cheapest in the end..."

If you are that sort of shopper, I doff my ostriched-beave to you with the deepest bow my typewriter can muster. But as I straighten my creaking back, there always crops up a still small voice with the query, "What do you mean by 'the best'?"

For to a great many people 'the best' means merely the highest priced. Whenever they buy anything, they always pick the most expensive of the selection available.

Because, although you do 'got just as much as you pay for' when goods are honestly-priced, you can

be very badly gypped when they are not. And there are plenty of heads in the business world shrewd enough to take advantage of this tendency on the part of many people to prefer the highest-priced goods; the code of Athos is not that of the hucksters.

Remember how the first ball-point pens were eagerly bought for fifteen dollars because they were 'the best' a few years ago? Better ones are now retailing for 20 cents; but Mr. Reynolds made a fortune out of the 'buy the best' psychology before the price came down. Plenty of other products, from Bayer's aspirin to Kodak cameras, still sell at higher prices than rivals of equal or even superior quality to customers who judge quality by the size of the price-tag.

A sweet little story in this connection concerns a spray material which you can buy locally for controlling aphid and other pests in your garden. It was first marketed at something like twenty cents for a small bottle, but it did not sell well and its makers who had

been quite proud of their little product, consulted a sales efficiency expert. His advice was succinct and to the point: "Jack up the price to 35 cents a bottle." They did, and that spray has sold well ever since.

Too often the highest-priced is a long way from the best value for your money. If you are one of those fortunate persons whose money is more plentiful than their wants, that doesn't matter. But if your income, like mine, is much smaller than your desires, you may find the best way to bring the two within hailing distance of each other is to shop always for the best value for your money.

Of course, it is hard for anyone to know the best values of many different products. But friends can help considerably; and there are firms like Consumers' Research which make a business of analyzing comparable commercial products. Their reports are a final disillusionment for any who cling to the belief that high price always means high quality.

And surely there's more to be proud of in spending money wisely than in just spending money. After all, it was D'Artagnon, not Athos, who was the hero of 'The Three Musketeers.'

New King of Sweden Proclaimed

King Gustav VI

Prince Gustave Adolph, 68, was proclaimed King Gustave VI of Sweden in the Royal Castle, Stockholm. He succeeds the late Gustave V, who died recently after 48 years of reign.

Activities Page

BOY SCOUT ACTIVITIES

This Saturday, Nov. 11, Remembrance Day, the troop will parade with the Legion at the cenotaph. The troop will meet at Smith & Henry's yard at 10:20 a.m. Hat, scarf and shirt will be worn and a jacket if it is cold.

The patrol competition has been completed with the Hawk patrol under Victor Smith retaining the trophy. Point scores stood at: Hawks 309, Beavers 288, Eagles 260, Buffaloes 196 and Cougars 184. A new competition starts next week and it is rumored the Cougars intend to win.

Instruction covered making a camp bed, signalling and Tenderfoot tests. Next week patrol instruction on second class first aid will be given by patrol leaders.

The Eagle patrol was presented with a camp cooking grid as a

High School COMMENTS

Everyone agrees that the dance Saturday night was a huge success. The square dancing proved to be great fun. Besides square dancing there were other dances, which provided variety in the program. There were two novelty dances, one being a spot dance and the other musical knees, sometimes referred to as the squat dance. Olive and Ivan Austin won the spot dance and Yvonne Polesello and Jackie Pohlmann, the musical knees.

The first edition of the Campus Chaff was released on Friday. The editors, staff and helpers should be congratulated for doing such a good job.

The square dancing lessons which were held all last week were very successful. The students wish to extend their thanks to Mr. Greer and Mr. Schwab for their valuable assistance. The time and effort they contributed were greatly appreciated.

prize for selling the most apples on Apple Day. The star salesman in the patrol was Malcolm Lansdowne.

Notices—Next meeting, Nov. 14, 7 p.m., Youth Centre. Duty patrol—Hawks.

RUTLAND CAPTURES TWO SOCCER TITLES

Rutland high school boys and girls soccer teams, who vanquished Summerland Bluebirds in the central Okanagan finals, won the Okanagan high school championships for the second year running. Rutland boys retained the Soguel cup by defeating Vernon 7-1 while the girls beat Vernon and held onto the Shunter cup with a 2-0 shut-out.

Singers & Players Club

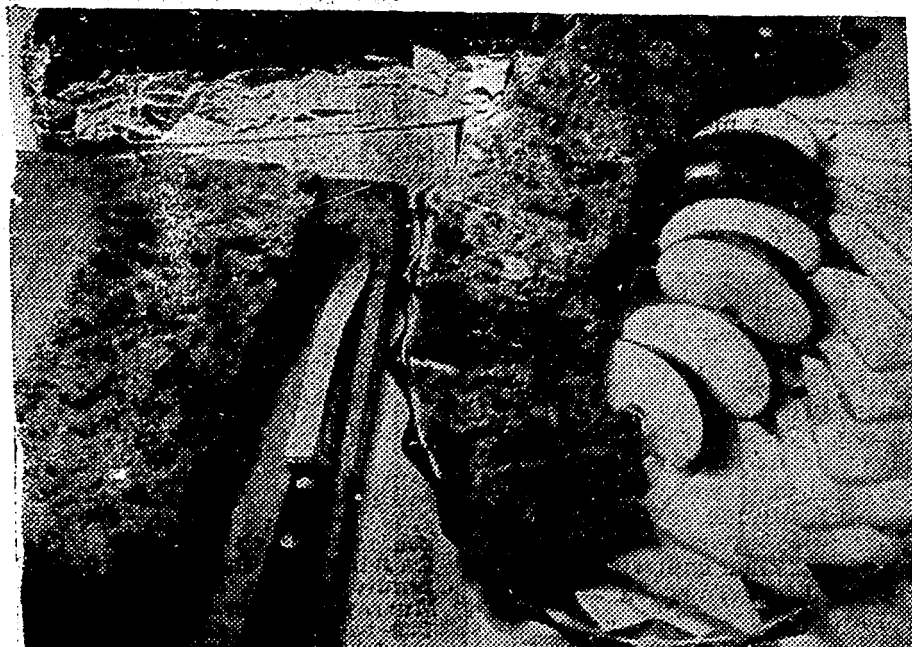

Encouraging news this week comes from Mr. Lacey Fisher. The turnout at Players was the best yet and we found more possibilities for some of the parts in the "Barretts of Wimpole Street", but a still larger turnout is necessary before it can be fully cast, as some of the important parts are still unfilled. It is still hoped that we shall be able to do this play but a final decision will have to be made quite soon and any who are still interested are urged to attend next week's reading.

What a pity it is that the Singers do not all get together at the same rehearsal. The rehearsals are going well but each week the absence more than balances the new members who are turning out and there is still far from sufficient evidence of enough interest to make any idea of an opera possible this season.

The attendance figures are: October 24, 28; October 31, 19; November 6, 22.

As we need twenty rapturous maidens and twenty dashing dragons, besides ten principals, the present situation is quite a disappointment. Again we can only repeat that we need voices for all sections and attendance now will go a long way towards helping to avoid that last minute rush which is so hard on us all. The time is so short until mid-March.

What were your impressions of the Quaker Girl? Register your reactions so that we may have a full discussion sometime about the merits of this type of entertainment. Listen next Sunday to the second in the series. Sorry we cannot tell you what it is going to be.

A slice of Christmas cake, mellowed and rich with fruits and nuts, is always best if it's allowed to age a little before cutting.

With Christmas only weeks away now is the time to be making those light and dark xmas cakes to give them ample time to ripen to a mellow mixture of rich fruit, nut and spice flavors.

Dark Christmas Cake

Three cups cake flour, 2 tsp. baking powder, 1 1/2 tsp. cinnamon, 1 tsp. cloves, 1/2 tsp. nutmeg, 3/4 tsp. mace, 1/2 tsp. salt, 1 cup shortening, 1 1/2 cups brown sugar, 3 eggs unbeaten, 2 cups raisins, 2 cups dates, 1 cup figs, 2 cups nuts, 1 cup candied cherries, 2 tbsps. candied orange peel, 2 tbsps. candied lemon peel, 1/2 cup candied pineapple, 1/2 cup preserved citron.

Sift and measure flour, then sift flour, salt, baking powder and spices together. Cream shortening and sugar, add unbeaten eggs and beat well. Add dry ingredients alternately with 1/2 cup grape or peach juice and 1 cup jam. Add lightly floured chopped fruits and nuts, and mix thoroughly. Pour into a large tube or loaf pan lined with greased waxed paper. Bake at 275 degrees for 1 hour, then increase oven heat to 300 degrees F., and bake approximately 2 hours more.

White Fruit Cake

Three-quarters cup shortening; 1 cup fine granulated or fruit sugar; 1/2 tsp. vanilla; 1/2 tsp. almond extract; 3 eggs; 1 cup bleached suetana raisins; 1 cup mixed peel; 1 cup sliced candied or maraschino cherries; 1/2 cup blanched, slivered almonds; 2 1/2 cups sifted all-purpose flour, or 2 1/2 cups sifted pastry flour; 1 tsp. baking powder; 1 tsp. salt; 3/4 cup fruit juice.

Cream fat, add sugar, vanilla and almond extract, and cream well together. Add eggs, one at a time, beating after each addition. Dredge fruit and nuts with part of the flour. Mix and sift remaining flour, salt and baking powder, and add alternately with the liquid. Mix in the floured fruit and nuts. Line a deep pan with greased paper and fill two-thirds full with the batter. Bake in a slow oven, 300 degrees F., for about 1 1/2 hours. Makes a 2 1/2 pound cake.

GUIDE NEWS

1st COMPANY

Last week's meeting concentrated on a review of tenderfoot knots. A patrol relay was held on knots and flags with the Buttercups coming out on top, and Hepaticas a close second. A novelty relay was run off, Hepaticas winning this event.

At campfire a round-table discussion of the real meaning of the 1st Guide law, "A Guide's honor is to be trusted" took place. Guides were especially asked to remember their promise to do at least one good deed every day; an idea on which the whole Guide movement is based.

Following campfire Marie Gronlund and Carol Anne Cornish received their 2nd class badges and Carol Anne Cornish received her emergency helpers badge.

Guides from both companies served tea at the baby clinic this week.

Patrol standings at present are Buttercups 120, Hepaticas 110, Forget-me-nots 103, Pimpernels 102.

If any ex-Guide has the company copy of the book "The Wolf that never sleeps" or "Scouting for Boys" would she please return them as they are needed for the 1st class tests. Also, if any former member of the company has a uniform to sell please contact Mrs. McIntosh.

2nd COMPANY

Two stalking games were played and very much enjoyed at the beginning of last Friday's meeting. These games are instructive to the Guides as they are part of their tenderfoot tests as well as teaching them to be able to approach, unseen and unheard, birds, animals, and other wild life while out on hikes or walks, and have a close look at them and learn their habits.

Several tenderfoot and second class tests were passed, and Guides were told that the next meeting would concentrate wholly upon passing prepared tests and instruction in others. It has been decided to continue in this way until the end of the year when a more relaxed program will be in effect.

Further to organizing the 2nd company, the subject of uniforms will be dealt with and a parts and price list made available to Guides. Anyone requiring new parts for uniform or other accessories must make payment before the order is sent to headquarters.

Margaret Marshall was presented with her Pathfinder's badge at campfire. Next patrol for duty—

Teen Town

Everyone had fun square dancing at the high school dance. How about trying it at Teen Town, eh kids? That would sure pep everyone up.

We decided at the last minute to have a dance this Saturday night so everyone come out and support your Teen Town. Let's see the crowd at Teen Town that we see at the high school dances.

Next week there is going to be a "Sadie Hawkins" dance so, gals, find a man (in Summerland?) and bring him along.

I am warning you a week ahead of time so you'll be able to think about it.

I don't know anything more about the raffle as there hasn't been a council meeting for 2 weeks.

Bluebirds.
Next meeting—Friday, Nov. 10, 7 p.m., Youth Centre.

Where Canadians meet their friends!

ENJOY A SUNNY Southern California WINTER IN LONG BEACH

Come to this city of surf and sunshine where the warm outdoors is full of things to see and do. BRITISH COLUMBIA'S RESOURCES AT WORK

POWER Huge water power resources mean available primary power amounting to more than 11,000,000 h.p. — primary power for mining, forestry, agriculture and manufacturing.

FORESTRY In 1949, the production in the forests of British Columbia totalled \$360,000,000 and 1950 is expected to bring a yield which will set a new high for dollar and production value. Modern conservation and reforestation methods are working hand in hand with this great production. Stands of timber include Douglas Fir, Western Hemlock, Western Red Cedar, Sitka Spruce, Western White Pine and Western Larch. Products of those forests include, lumber, plywood, pulp and paper, shingles and many other products.

AGRICULTURE This industry provides a livelihood directly and indirectly for more than 400,000 British Columbians. The value of commodities produced in 1949 is estimated at the record amount of \$145,000,000. Agriculture ranks second in dollar value among the primary industries of B.C.

MINING This important industry is still the backbone of much of the development throughout the Province. Production value in 1949 was \$140,000,000. As mining depends on a resource which once gone can never be replaced, your Government, University and Mining Companies are constantly searching for new mineral deposits.

FISHING British Columbia fisheries are famed throughout the world and are an important part of her revenue. Of the 81 species of marine life contributing to production of approximately \$58,000,000 salmon, rich in protein and delicious flavor, is the best known and most valuable. This industry provides work for thousands of fishermen, cannery workers, shipbuilders and a host of associated industries.

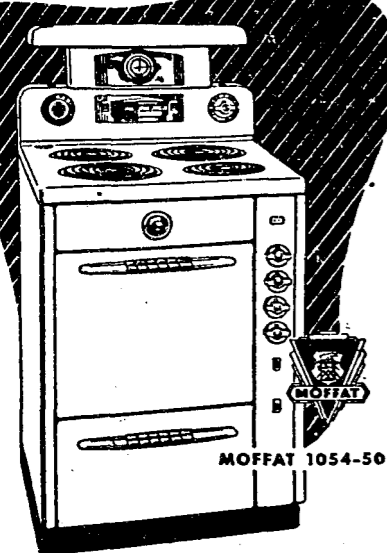

These are your resources at work for you, for your Province and for the whole Dominion of Canada.

PROVINCE OF BRITISH COLUMBIA

Hon. Byron I. Johnson, Premier

Games Add to Fun At Anglican Party

One of the most delightful Hallowe'en parties was that held by the Evening Branch of St. Stephen's W.A. on Monday, Oct. 30. About forty members and friends including a number of newcomers to Summerland enjoyed the evening.

A large pumpkin scarecrow greeted those entering, and the parish hall was appropriately decorated with Jack O'Lanterns and flowers. Mrs. A. Moyle was in charge of decorations.

After being welcomed by the president, Mrs. E. C. Bingham, the guests were entertained by a series of games and contests arranged by Mrs. J. Y. Towgood and Mrs. R. Lawley.

Further amusement was supplied by Mrs. R. Hodgson, who attired in a gay gypsy costume, read tea cups.

Delicious refreshments were served by Mrs. D. Turnbull and Mrs. Bob Barkwill, and everyone agreed that the party was one that would be remembered pleasantly.

Neighborhood Party On Hallowe'en is Fun

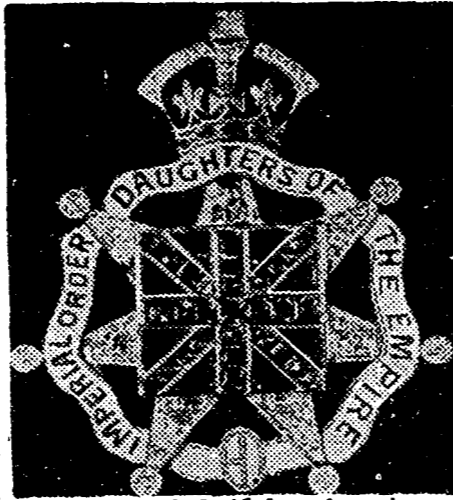

A neighborhood Hallowe'en supper party was held in the basement of the home of Mr. and Mrs. F. Pollock on Tuesday evening, Oct. 31.

Fireworks were enjoyed later on the lawn at the nearby home of Mr. and Mrs. Lionel Fudge.

Those present in costume were Larry and Bruce Crawford, Carlton, Jimmy and Bobby Sheeley, Barbara Fudge, Lynne and Gordon Boothe, Magda and Bela Wouters, John and Brian Adams, Glenn and Garry Pollock, and some of the parents of the children.

Each family represented donated to the success of the party by supplying food and fireworks.

A great deal of fun was had by all including the Crawford's cats and the Pollock's dog who joined in the spirit of mischief.

This jewelled badge has been presented to the Imperial Order Daughters of the Empire by the family of the late Mrs. Clark Murray, founder of the I.O.E. The badge was given Mrs. Murray in 1919 by the Quebec primary chapters of the organization. The seven points of the star represent seven divisions of the Commonwealth—the British Isles, Canada, India, New Zealand, South Africa, Australia and the British West Indies. The white circle indicates the bond of Empire, and the crown denotes sovereignty.

Prices Lowered to Meet Popular Demand

Saturday after Saturday through November and early December there is a bazaar and each one reflects the interest the women of this community have in working for worthy causes. Not only is Summerland helped by these endeavors but each has far-reaching results throughout the province.

One of the bigger ones was that held by Faith Rebekah Lodge, 32, on Nov. 4, which was largely attended. Prices of goods sold were very reasonable and had been lowered to meet popular approval.

Mrs. John Caldwell was general convener and headed the fanciwork stall as well. Assisting her in this booth was Mrs. A. G. Bisset, Mrs. Geo. Inglis and Mrs. H. Eden.

With Mrs. A. K. Holmes in charge the aprons were arranged and sold with Mrs. K. Blagborne, Mrs. C. Denike and Mrs. Hilda Allison a corps of assistants.

Home cooking stall was particularly well stocked under Mrs. Grace McIntyre's convenership. Her helpers were Mrs. J. H. Dunsdon, Mrs. T. McKay and Mrs. Cornish.

The children congregated in the corner where the fish pond hook always brought up an interesting catch due to Mrs. Wm. Pattie's planning.

The hall mirrored the autumn season with the tea tables decorated with lovely chrysanthemums, and the same flowers used in quantities to decorate the room.

Tea came from a kitchen in the capable hands of Mrs. L. J. Johnston assisted by Mrs. V. Lockwood, Mrs. Bella Mowat and Mrs. E. T. Washington.

Serving at the small tables were Mrs. F. W. Downes, Mrs. F. Schumann, Mrs. W. G. Gillard and Mrs. Marvin Henker.

Mrs. A. Watt Starts Children's Choir

"Lucky Summerland children", someone was heard to remark lately, "there is so much done for them".

Latest fortunate enterprise affecting children from six to twelve years is the children's choir recently started by Mrs. Alec Watt.

Mrs. Watt is teaching these young people choral singing at her home. Some of the numbers are children's songs, animal numbers, sacred groups and, of course, Christmas carols.

The six to seven age group is taken separately on Saturday mornings and the older children from eight to twelve go Tuesday afternoons after school.

There are just over a dozen in the two groups now and plenty of room for others who would like to join.

Those already in the choir are Johan Bergstrom, Grace Johnson, Diane and Robert Hannah, Marilyn McKay, Maureen Keys, Ann and John Downton, Howard Oxley, Caroline and Norman Sladen, Elspeth Tavender, Donna Butler and Audrey Beggs.

Many Members Aid In Dance Preparations At Rebekah Bazaar

The Summerland Badminton Club held a Hallowe'en dance on Tuesday evening, Oct. 31, a repetition of a traditional social event in Summerland.

Orange and black streamers, owls, cats and witches were abroad in the hall, and hats were given to guests as they came in the door.

Harry Beeman, Mrs. Jean Eadie and Miss Velva Wright were responsible for decorations assisted by the club committee, M. Walsh, George Fudge and Dave Waddell.

Most of the club members helped in one way or another and a number turned out in the afternoon to help make sandwiches as an auxiliary to the refreshment committee, Mrs. Clinton Smith, Mrs. R. C. Cuthbert and Miss Evelyn Howell.

Dunaway's orchestra, Kelowna, was in attendance and during the evening a net full of balloons was released and fell colorfully on the dancers.

There was a disappointing attendance, but those who were there enjoyed it very much.

Mr. Carl Nesbitt and Mr. Bill Downton were visitors to Vernon on a business trip Monday and Tuesday.

Billing Information

Your December 1st, 1950 Telephone Bill will be adjusted to conform with the new Tariff Rates. All adjustments will date from midnight November 15th, 1950, the Effective Date authorized by the Public Utilities Commission.

Guides May Come to Camp Sorec in 1951

Summerland reports compared most favorably with others, and membership in Guides and Brownies is the highest in the division, it was noted at the divisional meeting of Girl Guides at Osoyoos on Saturday afternoon, Nov. 4.

Main interest to Summerlanders attending was that plans are being made by Mrs. Bonnett, Oliver, camp supervisor for South Okanagan to hold a divisional camp next summer instead of several small camps.

Tentatively the camp will have an attendance of at least 150 and will be held at Camp Sorec probably from August 10 1951.

This would mean that girls from the whole division would have a chance to know each other and to exchange ideals and ideas. From the executive point of view it would mean that personnel would be arranged to manage the one large camp and it is thought that this would probably be a satisfac-

tory arrangement for many small or places who at times experience difficulty in obtaining qualified leaders at convenient dates. Mrs. Don Munday, Vancouver, a prominent guide officer, known all over the province for her woodcraft interests may attend.

It was announced, too, that one Captain and a Brown Owl from this division will be sent to Vancouver in the fall of 1951 to take intensive training, on the condition that they travel through the division afterward to assist the various centres.

Donna Jean of Allenby will be awarded the Guide Gilt Cross for bravery in taking her two sisters from their home when it was on fire.

A land ranger company has been formed at Oliver with Mrs. Rice, range leader. They have chosen to have ties of Buchanan tartan and are studying the history of the clan and planning to link themselves with the Buchanan Society in Scotland.

Mrs. Munday sent in a ranger flag head as encouragement to the new rangers and it was presented to Mrs. Rice by Mrs. Bonnett.

One hundred campfire girls from Wenatchee have been invited to pay an exchange visit next summer, the date probably being early in July. These girls will be billeted and entertained throughout the division, with Summerland having a quota.

Reports of Summerland Guide and Brownie affairs were given by Capt. Mrs. K. I. McIntosh and Brown Owl Mrs. Ryan Lawley.

Others attending from Summerland were Mrs. D. L. Sanborn, president of the local association, Mrs. W. H. Durick, official delegate from the association, Capt. Miss Gweneth Atkinson, Mrs. F. V. Harrison and Mrs. A. W. Vanderburgh.

Mr. and Mrs. G. N. Yearwood have moved into their new home in the Peach Orchard after staying for some months at the home of their uncle, Mr. J. Lawler.

Everyone is Friendly in Okanagan Says Red Cross Blood Donor Crew

"We hid the wagons on Halloween," said one of the members of the blood donor clinic when they were here last week, "and we all went to the bonfire on the beach at Pentiction."

"We always like to come to the valley," said another. "Everyone is friendly and so responsive, and especially we like the apples."

Miss Anne Hayes a graduate of University College hospital, London, Eng., was in charge of the blood donor clinic when the mobile team visited Summerland last Thursday. She is working her way around the world and has come to Canada by way of South Africa, East Africa, Ceylon, Australia and New Zealand.

There were no doctors with the team this visit but local medical men were on call during the afternoon and evening.

The other nurse travelling with the clinic was Miss Aisie Batten who graduated from the famous St. Thomas' in London and has been in Canada two and a half years.

A team is composed of twelve. Besides the nurses there were three drivers, Mrs. Doreen Cariss, and Miss Sheila Lush from Edmonton; and Miss Pearl Skinner, transport driver, WAAF, England, who came from Scotland three years ago.

A technician typing the blood of each donor was Miss Claire Williams from Winnipeg.

The six others in the group were VAD's and were Miss Lyle Ager of Ft. William, Ont.; Miss Phyllis Reid, Fraser Valley; Miss Claire Marshall and Miss Mavis McCormack, Vancouver; Miss Helen Ritchie, Nanaimo; and Miss Iga Kalejs, whose home was in Latvia.

Each team that has come to Summerland has been composed of charming girls who work with courtesy, tact, and despatch, and the same qualities were noted this time.

The trip itself is quite rigorous, some of the workers travelling in a station wagon and others in the two big vans that carry equipment. In the morning after the stage had been set for the day's operations, Miss Ager played the piano in the IOOF hall and, full of energy and "peppy" as the girls always are, they engaged in a vigorous sing-song.

The troop had come to the Okanagan from Ladysmith and Nanaimo and had been in Pentiction earlier in the week. On Friday they returned to Vancouver and would be returning to the interior at Kelowna next week.

There are approximately three teams who take turns travelling throughout the province though often a girl goes out immediately after returning to the centre at Vancouver.

The mobile team was served coffee, sandwiches and cake by Mr. and Mrs. J. Y. Towgood at the end of the clinic.

VISITING ABROAD

Dr. J. C. Wilcox was a passenger to the coast on Tuesday evening's train.

Mrs. R. Noble and her mother, Mrs. Gallagher left on Monday evening for Vancouver.

Mr. and Mrs. Cecil Wade and family are leaving tomorrow to spend the weekend at the coast.

Mr. and Mrs. J. W. Graves left on Wednesday for a holiday trip which will take them to Edmonton, Swan River, Winnipeg and Moose Jaw.

Mr. and Mrs. Blake Milne left by train on Tuesday to go to Toronto where they plan to pick up a new car. They are expecting to motor from Toronto to Florida and home by way of California.

Heirloom Clock is Presented to Nurses' Home

Mr. and Mrs. F. A. Miller, well-known elderly couple who have resided in Summerland district for a quarter century and more, are donors of a much-appreciated gift to the Nurses' Home in connection with Summerland General hospital.

A French black marble mantel clock, more than 100 years old and of considerable value as an antique, was the gift presented by Mr. and Mrs. Miller.

The clock is in perfect condition and strikes the hours and half hours. Members of the nursing staff have expressed their appreciation of the gift.

VISITING HERE—

Mr. George Young returned to Ocean Falls on Tuesday evening's train after visiting for ten days at the home of Mr. and Mrs. J. Y. Towgood.

Mr. and Mrs. Alan Barton and their little daughter Edna Mae, of Oliver, are guests this week at the home of Mrs. Barton's parents, Mr. and Mrs. Edgar Gould.

Mrs. K. Masson of Toronto, Ont. is visiting her son-in-law and daughter, Mr. and Mrs. C. O. Witherspoon and will be here for approximately a year.

LAC Larry McDonald, RCAF, is spending seven days' leave from his squadron at Tacoma, Wash., with his parents, Mr. and Mrs. Frank McDonald. He leaves this evening to return to his base.

Mr. and Mrs. C. D. Homan of Minneapolis, Minn. who were visiting for two weeks with their son-in-law and daughter, Mr. and Mrs. E. F. Smith and Mrs. Homan's mother, Mrs. D. B. MacClement, have left for their home in the States.

Constable Myles Dodwell of RCMP, Calgary, is spending a portion of his 21-day leave visiting at the home of his father, Mr. P. G. Dodwell. He will go on to Vancouver before returning to the prairie city.

NEW ARRIVALS

To Dr. and Mrs. W. G. Evans (nee Grizelda Gordon) 2151 West 42nd at Vancouver General hospital, on Saturday, Nov. 4, a daughter, weighing 5 lbs, 4 ozs., was born.

A son weighing 6 pounds, 11 3/4 ounces, was born to Mr. and Mrs. Archie Campbell, of Summerland, at the Pentiction hospital on Sunday, October 5.

At the Roseland hospital on Wednesday, November 8, a son was born to Mr. and Mrs. Gordon McDonald (nee Sadie May).

HOME AGAIN

Mrs. J. A. Clark has returned from a visit to Vancouver.

Mr. and Mrs. C. Noel Higgin have returned to Summerland after spending some weeks at Vancouver.

Mr. and Mrs. Vernon Hockley and their two children returned last week from a short holiday spent at Vancouver.

Ship Full of Gifts Greets Bride-Elect

A ship in full sail loaded with lovely gifts for opening was the surprise that astonished Miss Beverley Gayton, bride-elect of Dec. 1, when she went into the home of Mr. and Mrs. Harry Brown on Tuesday evening, Nov. 7.

Riding on realistic blue waves the white treasure boat called "The Ev an' Bill" joined the names of the engaged couple.

Co-hostesses for the shower party with Mrs. Brown were Mrs. W. M. Wright, Mrs. C. V. Nesbitt, and Miss Ruth Dale.

After the daintily-wrapped parcels were opened, Mrs. B. Bergstrom sang a solo which expressed the good wishes of those present. Miss Dale accompanied.

A contest called a Flower Romance was an amusing interlude.

Refreshments included a cake decorated in pink and white and having the words Showers of Happiness inscribed.

As well as the bride-to-be those invited were Mrs. C. A. Gayton, Mrs. James Darke, Mrs. James Ritchie, Mrs. G. J. C. White, Mrs. Dale, Mrs. C. H. Elsey, Mrs. C. M. Elsey, Mrs. Bernhardt, Mrs. J. McDougald, Mrs. Keith Sayres, Mrs. Roy Wellwood, Mrs. B. Bergstrom, Mrs. W. Sherwood, Mrs. John Smith, Mrs. A. Arndt, Mrs. R. Jaster, Mrs. D. O. Knipfel, Mrs. W. C. Wilkin, Mrs. Paul Roberge, Mrs. A. E. Trayler, Mrs. N. Buddingh, Mrs. B. A. Tingley, Mrs. T. Manning, Mrs. D. L. Milne, Mrs. Howard Milne, Mrs. George Graham, Mrs. H. R. Vanderburgh, Mrs. H. R. McLarty, Mrs. A. W. Vanderburgh and Miss Barbara Braun.

Gold Bracelet to Departing Member

Miss Gwen Lamacraft has been transferred from the West Summerland branch of the Bank of Montreal to the Denman St. branch in Vancouver. She left for the coast on Tuesday evening and is starting to work in Vancouver today.

The Lamacraft family left last week to make their home at the coast.

On Monday evening the girls on the staff of the local branch arranged a chicken dinner at the Nu-Way Cafe for Gwen and presented her with a lovely gold bracelet as a remembrance.

Baby Clinic Attended By Medical Director

There was a good attendance at the baby clinic in the IOOF hall Tuesday afternoon, Nov. 7 when Dr. H. Zeman, director of the Southern Okanagan Valley health unit was in attendance with Miss Irene Stewart, PHN.

Assisting at the clinic were Mrs. D. L. Sanborn and Mrs. Frank Doumont.

Tea was served by Guides Jill Sanborn, Eileen Wilcox, Beryl Dodman, Patsy Menu, Margaret Lott, Margaret Marshall, and Nona Lewis, under the direction of Capt. Mrs. K. I. McIntosh.

A. J. Mann Discusses Varieties

Today, throughout the fruit producing areas, the recommended standard varieties are very restricted and few in number, states a release from the department of agriculture, Ottawa.

Although commercial varieties have certain proved desirable characteristics, yet they may not possess fruits of the best qualities for particular purposes. Fruits of quality for connoisseurs to consider, as listed in this article, are varieties not generally recommended for commercial planting. They are adapted only in the more favorable fruit growing areas, says A. J. Mann, Dominion Experimental Station, Summerland.

In the case of apricot and peach, the areas in which these fruits may be grown are still more restricted.

Trees of all these varieties are available from commercial nurseries in British Columbia and enquiries should be addressed to such firms.

The early McIntosh apple, otherwise known as Rob Roy, is hardy and a biennial bearer. The fruit is early in season, attractive, and of fine texture and good quality. The individual fruits on the tree mature over a period of about two weeks. The variety is valued for dessert and also for culinary purposes.

Golden Delicious is a yellow apple. The tree is moderately hardy, a heavy cropper and requires a long growing season. Its quality as a dessert apple is outstanding. Moreover, it is held in high esteem for culinary purposes, and the fruit keeps well in storage.

Old Moorpark is an apricot variety which is also known as English Moorpark, but is entirely different from the commercial variety Wenatchee Moorpark. Old Moorpark bears heavily and is only moderately winter hardy. The fruit is somewhat soft and rather late in season, but of very high quality for dessert purposes.

Nectar is a mid-season, white flesh, semi-cling peach of high

FARM IMPROVEMENT LOANS OBTAINABLE AT B OF M FOR ANY USEFUL PURPOSE

What do you need to increase your success in farming and your comfort at home? You may be surprised to find how many good things you can buy with a Bank of Montreal Farm Improvement Loan. Why not check the following list? Construction, repair, or extension of buildings, including homes; tractors, trucks, machinery, implements; electrical, heating, or water systems; fencing, drainage, or land improvement; washing machines, refrigerators, motors, or other electrical appliances.

The only charge you pay is a simple interest of five per cent, and repayment terms are easy. That's why thousands of Canadian farmers borrow from the B of M every year. They know that a Farm Improvement Loan more than pays its inexpensive way by making possible purchases that quickly bring more profits and comfort.

Now is the time to get ahead. See Ivor Solly, B of M manager at West Summerland. He'll gladly discuss your requirements with you. —Adv.

quality. The tree bears heavily and the fruit is valued particularly for dessert. Spotlight is an early, attractive, yellow flesh peach of good quality. It is a semi-freestone and suitable both for dessert and canning.

Conference is a well-known pear in England, where it is held in high esteem. The tree appears to be only moderately productive, and has a long picking range from early to late September. It is a mid-season variety ripening from late October to early December. The fruit is medium size and not very attractive in appearance. The quality is very good for dessert.

Reeves is a high quality plum of the peach plum type, but later than that variety. The tree is productive but may tend to bi-annual bearing. It is a freestone and suitable for both dessert and culinary purposes.

Penticton "Holdout" In Contract Tieup With West Kootenay

Penticton is the only municipality which has refused to consider all details of the proposed contract with the West Kootenay Power & Light Co. Ltd.

Summerland agreed to the company contract some weeks ago and the benefits will be passed on to local consumers beginning with the December light and power accounts.

To big users of electrical energy, the saving in the new rate structure, as passed along by the local municipal electric light department, will be as much as one-third.

Last week Kelowna city council revealed that a five-year agreement had been signed and that city's industrial firms will receive most of the benefit of the savings accruing the city.

West Kootenay company is reported to have given Penticton a tentative deadline of October 31 to sign the new contract, Penticton city council refused to meet the time limit and the old agreement is still in force.

Penticton's main "beef" was centered around the stand of the West Kootenay company not being prepared to alter the contract in any way.

J. D. McMynn, Penticton West Kootenay manager, replied that "we feel that there is no reasonable ground for hesitancy or suspicion on the part of the Penticton council in signing the new contract."

Summerland, Kelowna, Princeton and Grand Forks are now all under the same contract. Penticton has had the contract under advisement since last August, he points out.

Big Bend May be Discarded Because Of Dam Prospects

REVELSTOKE—Further developments on the plan to dam the Columbia river north of Revelstoke came last week when Hon. E. C. Carson, minister of public works, said in Victoria that survey parties would make a survey of the territory east of Revelstoke to discover the feasibility of re-routing the Trans-Canada highway through Glacier National park in the event the proposed power project becomes a reality.

Mr. Carson intimated that flooding of the Big Bend territory would cover the highway and make re-routing necessary.

The minister referred to the shorter distance between Revelstoke and Golden through Glacier park and suggested that increased costs of construction through rougher territory would be compensated for by the much shorter distance.

In the meantime, there have been no further details on the power project. A. W. Lundell, M.L.A., who has just returned from the east, said he had contacted Robert H. Winters, federal minister of resources and development, who said his department had had preliminary correspondence on the subject, but the proposal had not proceeded beyond that stage.

The suggestion to build a highway through Glacier National park revives a proposal which has been advanced periodically for the last 25 years. When a route for the Trans-Canada highway was under discussion in 1927 and 1928, the direct route to Golden was advocated by the Revelstoke Board of Trade and received support for the project as far east as Winnipeg.

Try to Find Method of Preparing Cherry Wood for Commerce

Growers who have any amount of dead cherry trees ready for disposal are being cautioned against any hasty action in disposing of the wood.

Although no solution is readily available, it is understood that the regional development division of the department of trade and industry has been co-operating with the national research council in an endeavor to ascertain how this cherry wood can be salvaged to the best advantage.

It is thought that some dry-kill process might be established to make the wood ready for commercial use.

Cherry wood is used by lithographers who need a hard wood which will not shrink. This wood is also used for looms, it is reported.

Governmental research officials state that they cannot state definitely that a commercial use can be found for this cherry wood but they have information which leads them to believe that if the growers will retain their cherry wood for a time longer that it may be worth their while. The Review is informed.

September Another Record Tourist Month

British Columbia's tourist traffic continued its upward swing in September states Trade and Industry Minister L. H. Ryres.

The minister reported that foreign vehicles entering British Columbia during this period on traveller's vehicle permits totalled 27,002 as against 25,389 for the same month last year, a seven per cent increase and a new record for September travel.

CITY HALL NEARLY READY

KELOWNA—New city hall is nearing completion, although it will not be completed for the official opening November 11 as planned. Study of landscaping plans for the rear of the property will be done in the winter.

URGE ALL-CANADIAN

VERNON—At the request of O. L. Jones, MP for Yale, Vernon Board of Trade and city council have written to Premier Manning in Alberta urging that an all-Canadian route be chosen for the proposed natural gas pipeline.

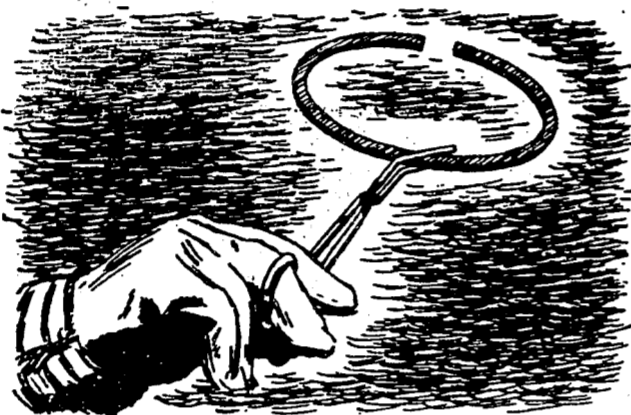

Agricultural Parley To Open November 30

OTTAWA—Because of another dominion-provincial conference on fiscal and constitutional matters which will begin on December 4, the date for the opening of the dominion-provincial agricultural conference (previously announced to open on December 4) has been advanced to November 30.

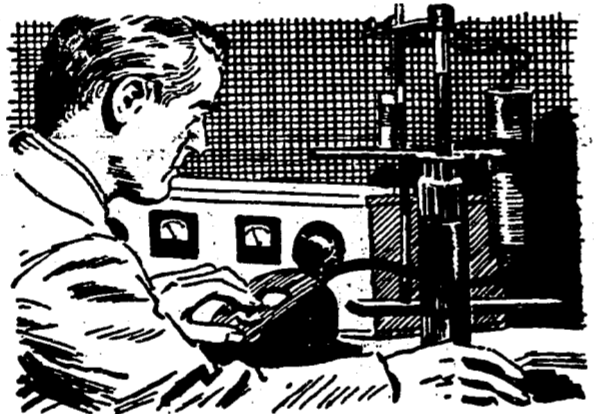

The agricultural conference will open at ten a.m. Thursday, November 30 in the railway committee room of the House of Commons and will last two or three days as may be found necessary.

This annual conference brings together representatives of federal and provincial departments of agriculture, and delegates from organized farm associations to review the agricultural situation and make plans for a production program for 1951.

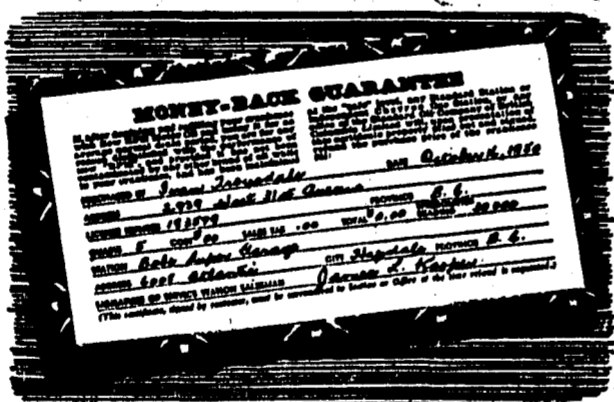

**Announcing a great new motor oil
NEW "RPM" DEVELOPED
BY ATOMIC ENERGY**

Our atom scientists equipped test engines with piston rings treated at the Atomic Energy Commission's Oak Ridge Plant. For the first time they measured wear as it happened—determined with Geiger Counters why motor oils fail. An entirely New "RPM" was developed!

Cold-operation tests under rigid controls were used to simulate stop-and-go driving conditions, toughest kind a motor meets. New "RPM" was compared with the best of conventional motor oils.* Results were startling!

New RPM Motor Oil was proved in laboratory tests to double the life of average automobile engines between major overhauls due to lubrication. Severe road service backed it up. Sold with money-back guarantee of satisfaction.

Doubles engine life!

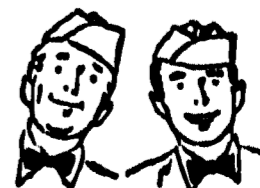

...in the toughest test a motor gets!

All tests showed the same thing... that no motor oil gives you better protection than New "RPM." Compared with conventional motor oils,* it doubles the life of average auto engines between major overhauls due to lubrication. It cuts in half the wear-rate of critical engine parts. It doubles protection against gummy carbon, acid, corrosion, rust and varnish... maintains the low-oil-consumption life of the average auto engine twice as long. Sold with a money-back guarantee of satisfaction.

* "Premium Type" oils designated by the American Petroleum Institute.

We take better care of your car

Insurance Plan to Cover Hazards Of Farming for Valley Growers

That some form of per box deduction should be made to provide a form of insurance protection for farmers and their employees to fill the lack of protection under the workmen's compensation act was the weighty suggestion discussed at length with the Rotary Club of Summerland Friday evening at the Nu-Way Annex by Dr. W. H. B. Munn, himself a member of the club.

His suggestion met with such accord that it was decided that Rotarian C. J. Huddleston should take it before the annual BCFGA meeting yesterday afternoon.

Dr. Munn pointed out that in the past few years there have been ten serious accidents in Summerland orchards. In several instances broken backs were suffered, broken legs occurred on other occasions and in one instance a girl worker lost a leg.

Orchard farming in the Okanagan is not a hazardous occupation but there have been some serious accidents, he pointed out.

The employer's responsibility is not great in these cases as the injured party must prove negligence, almost an impossibility in most cases.

In many instances it was the owner himself who suffered from the accidents.

Dr. Munn reviewed the advent of employers' liability act in the Old Country. It came into being in 1893 and was quickly copied by other countries.

Commission Acts

In Canada, the workmen's compensation act is different in each province. In B.C. a government commission administers the act with employers and doctors being responsible to report accidents.

Industry pays the cost for time lost at work and for hospital and medical costs. In the case of a death, the wife and children receive a pension from the funds supplied by industry under the provisions of the act.

Orchardists pay no compensation for their help but the industry does pay into the compensation board for its fruit packers and sorters, for the truck drivers who deliver the fruits and pays in part the compensation for the railway employee.

With such hazards as do exist in the orchard, Dr. Munn believed that the orchardist should be included in the scheme. Insurance is available and he knew of certain growers who kept up their policies for years only to drop it and then have a serious accident.

October Was Damp Month

After the long dry spell in early fall, October proved to be a damp month, the rain hampering picking on fifteen out of the thirty-one days. But at that the rainfall only amounted to 1.78 inches, a mere shower in some parts of the province.

Although the temperature dropped to freezing point on four nights in October only once did it drop below that point, when 30 degrees was registered on October 3. Sixty-four was the high point in the maximum range.

Following is the complete picture for October, as supplied by the climatological station of the Dominion Experimental Station:

Oct.	Max.	Min.	Rain	Sun
1	59	32		1.6

Military Camp at Vernon May Resume

VERNON—Although official confirmation is lacking, there are strong indications that the former basic training centre on Mission Hill will soon spring to life again. Reinforcement troops for the second battalion of the Princess Patricia's Canadian Light Infantry, part of the Korean brigade, are expected to arrive. Reports also state that \$80,000 will be spent on refurbishing the huts and re-erecting the parade square.

Prospects for Farm Labor Not Bright

Orme Lipsey, New Westminster, member of the provincial farm labor placement office, was a recent visitor to Summerland and, with W. J. Beattie, local placement officer, reviewed the labor situation here.

Mr. Lipsey does not anticipate a bright future for farm labor placements for next year, as other more lucrative positions are opening for casual laborers, especially with industries being geared to production of war materials.

The need for more accommodation for pickers is being stressed now as much as in the past, Mr. Beattie points out. If the local growers will co-operate by erecting reasonably attractive pickers' cabins then they will have a better chance of obtaining steady labor for the lengthy harvesting season.

On the other hand, it is reported that quite a few Doukhobors who used to work here through most of the summer months and were missing this year have been making enquiries about next year's prospects with the idea of returning here provided a full season's work is available.

Veteran of World War I is Buried

In Anglican Cemetery

Funeral service for the late Raymond Haywood Noble, who died in Vancouver on Monday, October 30, was conducted from St. Stephen's Anglican church, West Summerland, on Thursday afternoon, Nov. 2, by Rev. Canon F. V. Harrison.

The late Mr. Noble lived here for about three years, after coming from Minnedosa, Man., in 1925. He and his wife, Mary, then moved to the coast where they resided ever since.

A veteran of World War I, he served with the 226th Battalion. He was a life member of the Minnedosa Lodge, A.F. & A.M.

Besides his wife, he leaves two brothers in England.

Interment was in the Anglican

Fishing and Hunting Reports

(By Bert Berry)

FISHING

The big lake hasn't been kind as yet to the faithful troller as no big ones have been caught to date.

Little fishing is being done on the upper lake now that hunting is in full swing but the odd person still trying reports quite favorable luck.

White fishing has just begun on Okanagan lake. Saw two or three faithful standing by the highway but the main spawning school of whitefish is not in yet.

HUNTING

The odd northern mallard is to be had on local lakes so if the boys want to try for one they can get a chance on James, Sanborn or Three lakes.

Charlie Betuzi, Harvey Farrow and Ed Matchett are back from Merritt district, reporting fair luck on geese and ducks. The small sloughs are frozen now.

The deer situation seems to have improved considerably. There were at least twelve bucks brought into town over Saturday and Sunday, mostly from the regular hunting spots, Bald Range, Fish Lake and Acland areas. Another deer was bagged across the lake so the run seems to be on.

Haven't had any reports from parties after elk and moose but hope to give some accounts next week.

PHEASANTS

Four o'clock Thursday, October 31, 1950 arrived last week and the pheasant shooting (pardon me, hunting) season has come and gone. We can draw several conclusions to the season now that the final day is over.

First, should we have had an open season or not? I, myself, would not like to say one way or the other. There were fewer birds here in the Summerland district this year than ever, and more work done to bring about better shooting in the year immediately preceding.

During the summer of 1949 the fish and game club, in conjunction with some private citizens of Summerland, propagated over 500 pheasants by buying hen pheasants and hatching eggs with broody hens.

This group of pheasants was not old enough to be shot in 1949 and should have been ready this year. Last winter the game department supplied us with over 3,000 pounds of feed wheat for the pheasants and quail to bring them through the winter.

I have statistics on this subject and know that 2,000 pheasants were fed and brought through that cold winter. The weather was ideal for a good hatch and a good crop of pheasants. Result: the worst season ever.

What can be the cause of this? Many things can contribute to it. The more modern type of farming here leaves less cover and food for the birds; sprays that are deadly, it seems (this is not proved conclusively by game department experts) but direct contact with the spray or eating insects killed by spray seems to affect pheasants.

Dogs that hunt continually summer and winter cause the birds to be driven around so much that their vitality is depleted until they can be actually caught and destroyed by the canines. Cats contribute somewhat to this condition.

Main damage done by cats and dogs is created during nesting season when many nests of eggs or chicks are destroyed, preventing the normal reproduction of the flock.

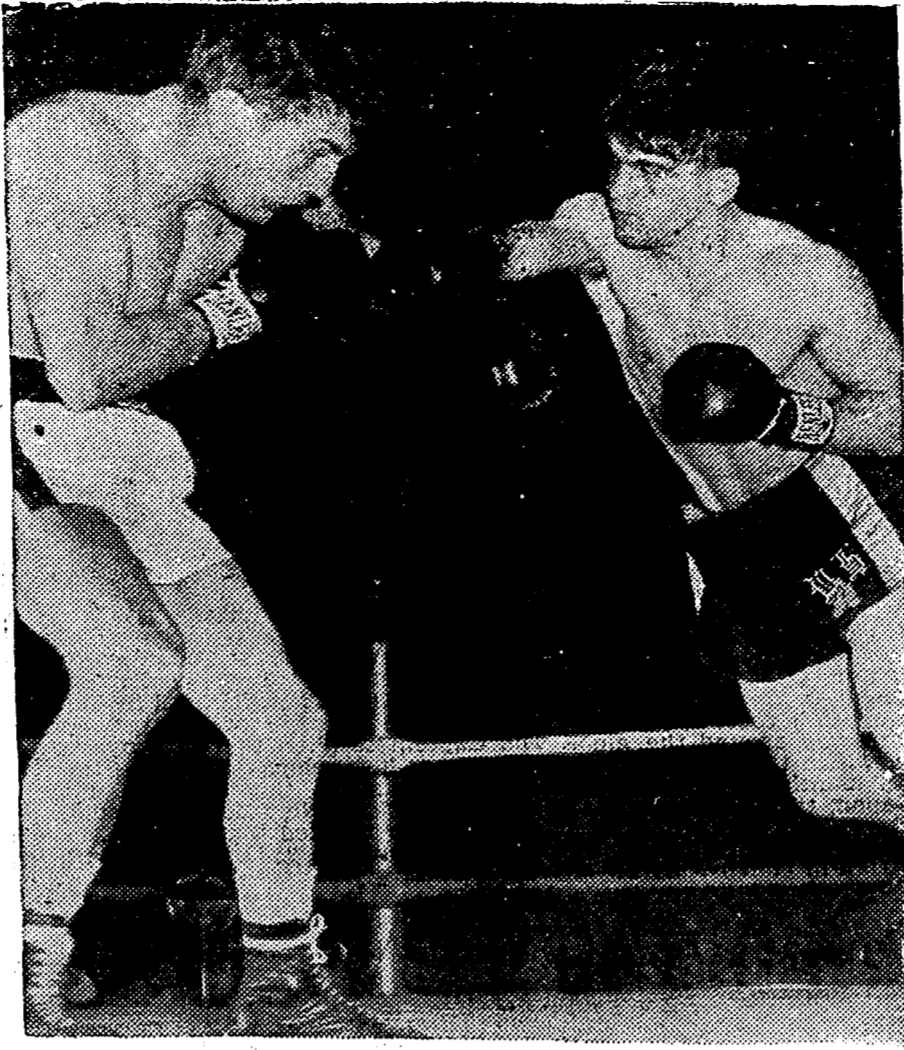

Another reason has been put forward, that of the illegal shooting of hens by hunters who won't or don't care to notice what they are shooting at; if cock birds only are shot, we will always have pheasants in the district.

Poaching in off season by adults and minors can deplete the flock as well, and by word of mouth reports this is happening and always has happened here.

You can see that many contributing factors have caused the decline of our pheasant population. Poaching, dog and cat predators and shooting of hens can and should be stopped.

The other two, sprays and better cultivation, just cannot be helped. The economy of the district comes before the privilege of shooting any game birds. We hope that if any action can be brought about by the experts in both the fields of agriculture and game management to solve the problem to both parties' satisfaction, that it will not be long in coming.

Even though we have been pessimistic in this report, we can say that there are still a few cocks and hens left in Summerland to start looking after the coming year's sports requirements.

RING ACTION. Above, Dick Howard, right, hurls his stocky form at Ray Famechon, featherweight champion of Europe, in a torrid battle at the Montreal Forum recently. The French boxer won a split decision over Howard, the under-dog before fight time. Howard, who hails from Halifax, N.S., was holding an edge over Famechon for the first few rounds, but lost out on the decision of the judges.

HOW THEY STAND

Total standings and points won last week in the King-Pin Bowling five-pin bowling league are as follows:

Team	Pts	Ttl
Meatetera	4	14
Frozen Foods	4	14
Maple Leafs	3	14
Lucky Strikes	4	10
Ked Sox	4	10

MARAUDERS DOWN GRIZZLIES

Penticton Marauders continued their victory streak in the Okanagan Canadian football field last Sunday by defeating Kelowna Grizzlies 22-1. A return game is being played at Penticton on Saturday afternoon, Remembrance Day.

WALLY DAY SCORES 22

Wally Day turned in another big game last Saturday when he led Penticton intermediate A's to a decisive victory over Kamloops Red Devils as Penticton A and B crews downed Kamloops at the Penticton gym. Walley scored 22 points against the mainliners.

TO ATTEND REGATTA

KELOWNA — Lieutenant-Governor Clarence Wallace will attend next year's Kelowna International Regatta.

Need More Help in Daytime

"The need right now is for more helpers during the daytime," declared George Stoll, Summerland Rink Assn. president, in discussing the progress of Summerland's new hockey-curling rink.

Response to night-time parties has been gratifying and all organizations have been sending their representatives in sufficient numbers to meet the needs.

However, in daytime when more work could be accomplished there is a need for further supporters, he states.

Pouring of cement should be almost completed this week or early next week at the latest and a start can then be made on the framework.

Mr. Stoll also announced that the original plans are being altered somewhat to squeeze in a third sheet of curling ice. This is being done without robbing the hockey surface at all but through a rearrangement of the seating plan.

Mr. Stoll points out that a large number of pledges of work were signed when the canvass of the community was conducted. Only a small portion of these pledges have been fulfilled and the rink group would appreciate these helpers coming forward now for daytime labor now that the harvesting season is definitely over.

No Deer for Hunters; They Travelled too Far

KELOWNA — Maurice Melkie joined a party of friends to go deer hunting recently. They went over into the Kettle River country.

His wife had a dinner engagement Saturday night and asked her parents, Mr. and Mrs. E. M. Carruthers to babysit for her.

The Melkie home is at the far end of Glenmore and enroute there for their baby-sitting chore Mr. and Mrs. Carruthers had to stop their car. There were six deer parading down the road.

The hunters never even saw a footprint. It was ever thus!

Turkeys on Block Remembrance Day

Biggest shoot of the season is being staged this Saturday afternoon, November 11, by the Summerland Trap club.

Entries are expected from Lumby, Vernon, Kelowna, and many other valley points, while a carload of expert shots may be here from Vancouver, to try their luck.

This is a straight turkey and ham shoot and will commence at 11:30 o'clock once the Remembrance Day service has been completed. This is Summerland's biggest shoot of the year and is one which is anticipated with interest by trapshooters throughout the Okanagan.

FIRST SCHOOL CAGE GAMES THIS FRIDAY

Summerland high school basketball teams, senior boys and girls and junior boys, go into action for the first time tomorrow night in the 1950-51 season playing hosts to three similar Penticton teams. Penticton is not in the same league section as Summerland but, regularly scheduled exhibition games between the two schools will be played throughout the winter.

COURTESY AND SERVICE

Mayne Chairmans Speakers' Club

James Mayne was elected president of the Summerland Speakers' Club at the annual meeting held on Tuesday evening in B.C. Tree Fruits Ltd. office here. Francis Steuart was named honorary president and Harry Brown is to be secretary.

Membership is limited to eighteen members who will meet each Tuesday evening during the winter months to improve their speaking ability.

First meeting will be at the experimental station next Tuesday

L. A. Miller Chosen New President of Social Credit Group

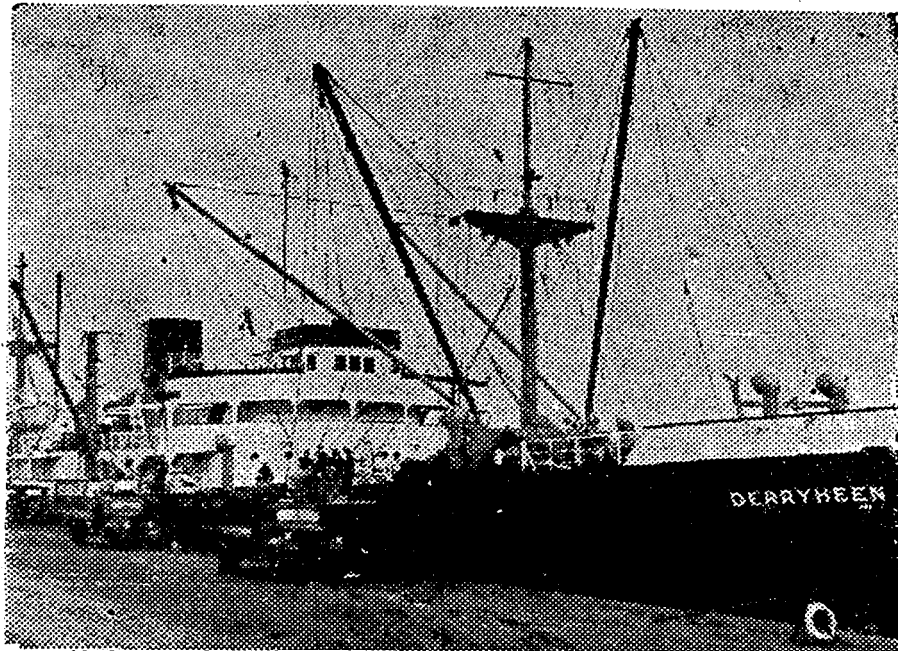

The Summerland Social Credit group held its election of officers and general meeting in the IOOF hall West Summerland, on Monday, November 6, with President W. G. Gillard as chairman.

Those elected were as follows: L. A. Miller, president; A. S. Hanson, secretary-treasurer; E. L. Miller, first vice-president; John Dunn, second vice-president, and John St. Denis third vice-president. Mr. Gillard declined to accept nomination as president in order to have more freedom and time to devote to the organization of local groups throughout Yale constituency.

A resume by Mr. Gillard of the provincial convention at Chilliwack and the national convention at Regina was received with interest.

The past president asked all the members to get behind their newly elected officers and give them the support necessary in promoting Social Credit in Summerland.

but it is hoped to obtain use of a school classroom for further sessions.

A 40-day, 9,500 mile voyage from the Island of Mauritius, in the Indian Ocean, to Montreal is a "short run" for the British freighter Derryheen, according to her master Capt. Richard Storm. The ship recently sailed into port with a cargo of sugar from half-way around the globe. The Captain recalled the last voyage in which the vessel was away from her home port in England for 18 months. The ship sailed from Britain, on that occasion, for Japan, then to Australia, New York, back to New Zealand, India, Egypt and various other countries which totalled some 80,000 sea miles before returning home. She was built in 1943 to serve with Atlantic convoys as an aircraft carrier.

Warning on Removal of Trees Given

A. W. Watt, district horticulturist, warned growers at the annual BCFGA Local meeting yesterday afternoon in the IOOF hall that those whose winter-killed trees have not been surveyed yet should not remove them if they wish any form of compensation.

Surveying all winter-killed trees is a tedious task, it was pointed out, and 68 orchards have been completed to date. There are about 450 holdings in Summerland district.

If any compensation is to be allowed, following consultations by provincial and federal authorities, then a committee consisting of Mr. Watt, a packinghouse and a BCFGA directorate representative must inspect the winter-killed trees before they are removed.

They can be uprooted but if taken from the spot then no compensation can be allowed, Mr. Watt warned.

In reviewing the past year's activities, he declared that over 2,000 acres had been covered for fire blight. Four fire blight cutting demonstrations were held with 71 in attendance as well as two bridge-grafting demonstrations, which attracted 85 growers.

Mr. Watt warned that although the plague of mice seems to have lessened, there are still quite a few mice in existence here. Small trees and those which were bridge-grafted should be protected especially, he thought.

The regular five-year survey of tree plantings was interrupted by the severe winter but is being carried on and the trees which have to be removed will be discounted from the total number of trees counted in 1949, he explained.

Experiments in chemical thinning had been carried out in cooperation with Dr. D. V. Fisher of the experimental station. Despite the light set, it has been found that there is some benefit from this method and experiments will be continued.

Of three chemical thinning tests using concentrate machines only one was successful but Mr. Watt expects that in another year some suggestions will be forthcoming. Summerland growers turned out better than any other local for the annual Chautauqua meetings, he declared.

Frank McDonald queried the speaker on the use of aluminium foil as a protection for trees against mice and Mr. Watt agreed that it is workable.

Vandals Damage Church Property

Two instances of breaking into St. Andrew's church through the forcing of a window have been brought to the attention of church officials, Rev. H. R. Whitmore announced today.

Vandals, believed to be boys approaching their early 'teens, forced a window and did considerable damage to church pews and organ. They tramped the covering into the foot pedals of the organ in vain attempt to gain further access to that instrument which is dedicated to Church men who failed to return from world wars.

Some pews were torn up and a number of communion glasses stolen, it is reported.

Police are investigating, Rev. Mr. Whitmore states.

Dental Service Ready for Fall of '51

Preventive dental service will be commenced definitely in the South Okanagan health unit by the fall of 1951 delegates to a quarterly meeting in Oliver yesterday were informed.

Councillor F. E. Atkinson and Mrs. A. W. Vanderburgh, school trustee, were present from Summerland.

At present a dental officer is taking a post graduate course in preventive dentistry and will be ready to take his position in this health unit by next fall, Dr. F. McCombie, director of preventive dental service for the department of health and welfare, told the meeting.

He was accompanied, for the first time, by Dr. J. E. Gee, B.C. Dental Association, Victoria, representative.

Kelowna has already indicated its intention of taking advantage of this service in 1951 while Summerland may be prepared to come into the scheme by that time, it was stated.

The proposal was discussed at a special meeting of School District No. 77 (Summerland) last night but no definite decision reached.

Preventive dentistry would cover pre-school and Grade 1 pupils and would gradually be enlarged to take in other grades in elementary schools in the health unit, it was stated.

Local school and health officials regard this service in a more favorable light than when it was first introduced because of alterations in the original plan and a bigger contribution by the provincial authorities, it has been stated.

Resident Here Few Weeks Passes Away Suddenly on Sunday

A resident of a few days only passed away suddenly at her home in West Summerland in the person of Marie Inga Hansen, wife of Ulrik Hansen.

Born in Norway, the late Mrs. Hansen came to Canada 29 years ago. She was in her 53rd year when death called her with tragic suddenness last Sunday evening, November 5.

The late Mrs. Hansen accompanied her husband and son, Harry, from Cloverdale to West Summerland last month when the latter purchased the shoe repair business formerly known as Dan's Shoe Repairs. The new business is known as H. & U. Shoe Renu.

Besides her husband, she leaves three sons, Alf in Vancouver, Willie at Cloverdale and Harry in West Summerland; also three grandchildren; one sister, Mrs. A. Bakke in Montana and one brother, Luis, in Cloverdale; two sisters and four brothers survive her in Norway.

Remains were forwarded to Cloverdale by Summerland Funeral Home for the funeral service being conducted this afternoon at 8 o'clock from the S. Bowell & Son Cloverdale chapel. Rev. R. F. Fenske officiating. Interment will be in the Surrey Centre cemetery, Cloverdale.

MORE ABOUT—

LOCAL GROWERS

Continued from Page 1

many and Great Britain.

A. M. Temple, supported by H. Walton, warned that the fruit growers should not seek too much as they can only provide seasonal employment.

J. Y. Towgood capped the discussion when he declared this to be a national policy issue rather than merely a BCFGA matter. Too much time is taken up at growers' conventions on subjects not directly the concern of the producers, he thought.

"Put our own house in order first", was his declaration and the meeting fell in line with this thought.

Chairman Bentley, in his opening remarks, urged growers to continue to pull out unwanted varieties. While on tree survey work this year he saw plenty of examples of peach trees which had been planted as fillers and should have been removed five to ten years ago.

He lauded the hail insurance company instituted by the BCFGA and declared that \$16,856 had been paid out in claims while there is still \$9,000 left in the treasury to start the new year. Average policy taken out amounted to \$2,145 and the average premium payment was \$116, he declared.

Mr. Bentley added his words of thanks to the people of Summerland for their help in the picking crisis.

Legion Considers Building Finance

Vice-president C. G. Woodbridge informed Summerland branch Canadian Legion members last night that the finance and building committee, charged with bringing in a feasible method of financing a new building, was not ready with finalized plans.

A survey to ascertain if financing could be arranged through Legion members themselves, on a bond basis, showed that this method would not raise the desired amount, he said.

However, other avenues of financing are open and are being investigated, he reported.

Mrs. Art Gronlund and Mrs. Olaf Gronlund, who are sisters, received word last Sunday evening, Nov. 5, of the passing of their mother, Mrs. R. Hjelmeland of Erickson, Man., who died that morning at her home. Mrs. Hjelmeland, who was seventy-nine years of age, had been in failing health for some time.

Youth Centre Drive to Complete Capital Costs At \$3,500 Has Started

Canvassers have been appointed and a community-wide drive to raise \$3,500 to pay off a bank loan and to make necessary alterations and additions to the Youth Centre building has commenced.

The campaign will be conducted on much the same basis as last year when the district was divided into 20 districts and it was the association's endeavor to raise \$7,000, considered then sufficient to finance the entire project.

A second meeting of canvassers, when the entire Youth Centre project was explained fully, was held on Tuesday evening and yesterday the campaign got underway.

In a resume of the year's activities, directors of the Summerland Youth Centre Association in a formal letter to all householders this week told of the many alterations which were made to the former College gym.

The building has been overhauled, including a new roof over three-quarters of the roof area, hardwood floor in the main hall, a furnace unit installed, main hall insulated, two fire exit doors installed, concrete walls and floor installed in the furnace room.

Besides those changes, the ceiling of the furnace room was double-planked and covered with plasterboard to meet the requirements of the fire marshal. New wiring has been installed and the plumbing reconditioned. Stage curtains were purchased and installed, windows repaired and two coats of paint applied on front and ends.

Some of these alterations were made necessary to comply with the fire marshal's act and had not been considered in the original estimate. Also, the floor was an addition not previously counted upon.

"Operating costs have been kept to a minimum but the net result now is that the association owes \$2,600 and still should complete the roof and a kitchen off the main floor on the south side," the statement declares.

Total of these amounts is estimated at \$3,500, directors state.

Once the campaign is successful the association intends to complete negotiations with the school board for acquisition of the temporary industrial arts building on the school grounds to be made into the required kitchen, it is understood.

Canvassers and Districts

Canvassers who have been chosen for the drive are:

Experimental Station: Ralph Milnes.

Trout Creek—Doug Younghusband, J. E. Miltimore, Ralph Downing.

Summerland—John Bowen, Jim Brown.

Peach Orchard—Walter Charles.

Crecent Beach—J. W. Mitchell.

North Bench—Francis Steuart and A. F. A. Crawford.

East Side Highway from F. Steuart's to top of Peach Orchard—W. C. Baker.

Hospital Hill—W. A. Laidlaw, Blair Underwood, John McDougald.

Giant's Head and North Front Bench—Walter Bleasdale, John Bettuzzi.

Giant's Head and South Front Bench—John Caldwell, Harvey Eden.

South Giant's Head—Frank McDonald, Walter Toews.

Paradise Flat—E. H. Bennett.

Continued on Page 10

VOTERS LIST IS STILL CLIMBING

On Wednesday afternoon, November 15, the annual court of revision of the voters' list was held, only one applicant for consideration coming before the court. Father A. M. Meulenbergh's application for inclusion on the voters' list could not be considered because of late filing, it was ruled.

The local voters' list continues to grow, the total yesterday being 1182 names, an increase of 64 over the 1949 voters' list.

third and succeeding years.

Total cost of operating a preventive dentistry setup has been estimated at \$9,000 per year, the department of health and welfare agreeing to make up the difference. From the local standpoint, this is a great improvement over the first scheme brought forward by the health units which would have meant an additional 15 cents per capita for any district going into the plan.

A qualified dental officer who will complete post graduate work in preventive dentistry and public health next summer is expected to be available for South Okanagan health unit by next fall.

Kelowna has already made the request for the services of this dental officer and equipment and Inspector Matheson considered it would be possible to arrange for Summerland to come into the picture.

On Tuesday afternoon the local council voiced its approval of the plan.

No Pupil Assessment

It is the school board's prerogative to assess each pupil \$2 for this preventive dental service but Summerland would total about the maximum number.

Continued on Page 10

Trustee Only Present From Rural Area

Only the rural attendance area representative, who is also the rural area trustee on School District No. 77 (Summerland) was present from the unorganized territory in the school district when the annual meeting was held on Monday evening in the medical clinic office.

C. Aubrey King was therefore re-elected rural attendance area representative and will probably be chosen trustee for the rural area at a further meeting. He has served in those capacities since No. 77 district was organized.

Inspector A. S. Matheson discussed the subject of District 77 in relation to the small rural population as compared with the overwhelming municipal percentage.

"The rural representative plan doesn't work here although it does work excellently in districts which have larger rural areas," was Mr. Matheson's contention.

The school inspector intimated that the district could be changed to provide an extra municipal area encompassing the rural district. If such a practice was undertaken, then the rural area would vote on all trustees and not on just one chosen from their number as at present.

Also, the five trustees could all be from the municipal or the rural area or some from each, according to the wishes of the proposers of the nominees.

"It is within the prerogative of the Council of Public Instruction to make the change," Mr. Matheson informed the trustees.

Trustee King, however, did not think the rural area would like the prospect of not naming one of their own number as a trustee, as could be the case under the proposed region of setup.

Council Offers Reward of \$50

\$50 reward for information leading to the conviction of a damaging municipal agreement upon by municipal council on Tuesday afternoon.

Reeve C. E. Bentley sought council acquiescence on the subject following his finding that all windows in Ellison hall had been broken and other damage done to the structure.

Councillor Norman Holmes mentioned that youngsters had picked off letters from names on the centoph and it had cost the Summerland Memorial Parks committee \$40 to replace.

Reports of other damage to municipal property were heard before council agreed with Reeve Bentley's reward suggestion.

Preventive Dentistry to be Sought by School District

Summerland moved rapidly this week towards an objective of obtaining dentistry for first grade and pre-school children of this district.

Last week at the South Okanagan health unit, a scheme whereby preventive dentistry could be made available at the start of the fall term in 1951 for those districts which acted rapidly was outlined. On Monday evening, School Inspector A. S. Matheson informed the local school district that by combining Districts 23 and 77, roughly Kelowna and environs south to Summerland, a maximum number of pupils would be available.

It has been thought that a district containing between 4,000 and 5,000 pupils would be the maximum for any one preventive dentistry scheme. Kelowna district and Summerland would total about the maximum number.

Cost on Pupil Basis

With the cost split between the two districts on a pupil basis Summerland would pay about \$300 to \$350 in the first year and not more than \$550 yearly at any stage. The maximum cost to any dental district would be \$2,000 the first year with an increase to \$3,000 for the

The Summerland Review

PROVINCIAL LIBRARIAN VICTORIA Vol. 5, No. 51 West Summerland, B.C., Thursday, November 16, 1950

STATESMAN HONORED—Rt. Hon. Anthony Eden, MP, former British foreign secretary and chancellor of the University of Birmingham, recently received an honorary doctorate of laws from McGill University in Montreal. From left to right are Principal Dr. F. Cyril James, who introduced him for his degree; Chancellor O. S. Tyndale, who conferred it; Mr. Eden; J. W. McConnell, senior governor of the university.

Council Agrees to Purchase Site for New Municipal Hall from W. A. Steuart; Also Widen Granville Block Five Feet

After months of negotiation, Summerland council came to an agreement on Tuesday evening with W. A. (Bud) Steuart regarding purchase of valuable land fronting on Granville street which is expected to have a far-reaching effect in the eventual future development of the West Summerland business district.

Principal point was the purchase of a lot 80 feet by 100 feet east of the Summerland Box Company Ltd. office for the proposed municipal hall.

On Wednesday afternoon, old plans and correspondence which passed between the municipal council and architects regarding a municipal hall were perused and Reeve C. E. Bentley was instructed to proceed with the engaging of an architect to develop plans for a municipal hall.

It was almost six o'clock when the municipal office door opened. Tuesday and Mr. Steuart entered the council chambers. He stated he had been unable to find time that day to arrive at a definite decision regarding prices on his property which Reeve Bentley and Municipal Clerk Gordon Smith had previously attempted to obtain from him.

However, at the insistence of council members, Mr. Steuart was persuaded to take a seat at the council session and start estimating.

One other point was the acquisition of a strip of land fronting the Steuart property on Granville street. Ten feet would provide a straight course for the south side of Granville from east to west throughout the entire length. However, this amount would mean that the street allowance would come right onto the box company's office steps.

A five-foot strip would be agreeable, the council intimated, provided Mr. Steuart would agree to the other sales required.

Accept Five-Foot Strip

Mr. Steuart quoted a price of \$250 for the five-foot strip 634 feet in length and \$700 for the 10-foot strip. Council quickly agreed to the \$250 price for the five-foot width.

Mr. Steuart, a year ago, had quoted \$1,770 for the municipal hall site, 80 foot frontage with 100 foot depth. Mr. Steuart agreed that this price would remain constant and council was quick to pass a motion that this land be purchased.

The owner wished to be assured that the property would be used for no other purpose except municipal hall and Clerk Gordon Smith, whose duties in endeavoring to do the necessary amount of municipal work are extremely arduous in the cramped quarters, laughingly assured Mr. Steuart that he would guarantee the usage of the property.

Need for a new municipal hall has been realized more and more by council members as they see the present facilities become more crowded.

Final deal with Mr. Steuart concerned the 20-foot piece of property fronting on Granville and 100 feet in depth which is the most westerly portion of the Steuart property. This particular section

First Readings of Power Bylaw Given

First readings of the bylaw covering the new agreement with the West Kootenay Power & Light Co. Ltd. were given by council on Tuesday. The new contract is in effect now and the first savings will be passed on to the local users in December but the bylaw could not be started until formal signatures were affixed to the contract. Approval of the inspector of municipalities must also be obtained.

Will Prepare Estimates on Ellison Hall

Estimates of a complete revision of Ellison hall, providing for all necessary capital expenditures as they appear now are being obtained by the municipal council.

If necessary, these expenditures will be pared down for bylaw purposes as the council sees fit, it is understood.

This action has been taken following a Legion-sponsored petition which had more than the necessary twenty percent of registered property owners' signatures attached.

Petition arrived at the municipal council chambers on Tuesday and authorized the council to proceed with a bylaw which would provide the money necessary to renovate Ellison hall and place it in a position where it can be rented the year-round.

It is doubtful if estimates and a bylaw can be prepared in time for the December election.

Opinions Differ

Differences in council attitude were brought to the surface on Wednesday afternoon during discussion of necessary alterations and additions.

The petition, it was pointed out, does not specify how far the council should go towards renovating Ellison hall. That is a matter for council discretion.

Reeve C. E. Bentley objected to estimates being obtained on many suggestions, believing that these are not essential now but could be done over a period of years.

Councillor Atkinson took the attitude that the council has been forced, by the petition, to find out if Ellison hall should be renovated and if the ratepayers will foot the bill. He advocated a complete listing of all necessary alterations and improvements.

It was suggested that if all the improvements were included in the bylaw the figure would run close to \$15,000. For straw vote nearly a year ago the cost was placed at \$7,500.

This figure could be increased 20 percent in the intervening period, council considers.

Councillor Atkinson did not consider this Ellison hall bylaw should have been presented for another year or until it was decided to what extent the new school auditorium would meet community needs.

However, it was left with Reeve Bentley to obtain the services of a qualified contractor who would supply estimates of cost. Council agreed that an oil-burning furnace with blower attachment would be the most practical heating installation.

Growers at Victoria to Meet Cabinet

"Our delegation received very attentive and sympathetic hearing for our brief."

Such was the text of the telegram despatched by Ivor J. Newman, BCFGA president to Secretary C. A. Hayden following the meeting at Victoria on Tuesday between the BCFGA delegation on winter-killed fruit trees and cabinet members.

Acting Premier Herbert Anscomb, minister of finance and Hon. Harry Bowman, minister of agriculture, were among those present for this conference.

BCFGA delegation consisted of President Newman, J. G. Campbell of Salmon Arm and G. A. Lundy, Oliver, BCFGA executive members; Dolph Browne, Vernon and L. R. Stephens, Kelowna, of the Okanagan Federated Shippers' Assn.

W. R. Powell of Summerland was a member of the emergency committee set up to prepare a brief and endeavor to work out some scheme for assistance for those growers who lost heavily in winter-killed fruit trees.

Removal of trees and preparation for rehabilitation of growers, while long-term loans at low interest rates, repayable in twenty years are also sought.

Trade Board Delegates Told To Vote Against Sign Motion

Summerland Board of Trade delegates to the quarterly Association of Boards of Trade of the Southern Interior meeting in Osoyoos this evening have been instructed to vote against a resolution which would discard the present stringent regulations of the public works department concerning information signs which reputable organizations wish to erect in the interests of visitors.

At the same time, last Thursday's trade board meeting in the IOOF hall, instructed delegates that they should suggest a lightening of regulations, concerning information signs which reputable organizations wish to erect in the interests of visitors.

The resolution called upon the minister of public works "to make such changes in the regulations concerning the erection of display signs in unorganized territory as will permit a proper display by merchants, traders and operators in these territories, and to instruct inspectors that no action may be taken by the tearing down of signs, or other means, unless notice is given and opportunity of appeal to the minister is granted."

Councillor F. E. Atkinson supported the motion inasmuch as he considered present regulations too strict. He pointed out that the proposed welcome sign at the Kaledon junction had been turned down by the public works people.

Such a welcome sign, informing visitors of some pertinent factors regarding the Okanagan, would be of great value, he contended.

Other trade board members agreed with this viewpoint but voted unanimously against the resolution.

Program for Cemetery is Now Planned

Plans for a long-term program of improvement in Peach Orchard cemetery were laid by a well-attended meeting in St. Andrew's church hall on Tuesday, November 14, with E. H. Bennett as chairman.

Fourteen organizations were represented and it was found that with donations and the sale of the Bennett glad blooms \$64 has been raised for cemetery work.

The municipal council will be asked to turn over the cemetery grant to the committee for use in purchase of spray materials for weed killing purposes and other purposes.

Dr. James Marshall reported on the cost of chemicals needed to sterilize the paths and roadways in the cemetery to prevent further weed growth and the committee decided on the purchase of sufficient materials at once so that it will be available for work in the spring.

It had been planned to have a work party at the cemetery this weekend but because of inclement weather this work was postponed.

Plans for improvement include another 150 feet of curbing on the road and a general cleanup of weeds.

A lengthy discussion ensued as to a general improvement program and a list of necessary improvements has been compiled. Further details of this presentation which will be made to the municipal council and the new parks board when it comes into being will be published in next week's issue of The Review.

School District Takes Insurance Policies Out Of Municipal Group

Now that the school district has obtained the services of an insurance brokerage firm, Johnson, Walton & Co., Vancouver, the school district policies are being separated from the municipal-hospital combined insurance scheme as policies come due, it was explained at Monday's trustee session.

Once all policies are segregated insurance will be brought up to full replacement value and a 90 percent co-insurance group policy taken out, Chairman Bleasdale reported.

It is understood that all arguments regarding changeover in insurance coverage have been concluded and last week a representative of the brokerage firm visited the board and clarified a number of points.

"We feel our insurance is on a sound basis," Mr. Bleasdale declared.

At Tuesday's council session, whether three-year policies for municipal and hospital coverage would be issued or whether the present policies would be allowed to lapse in turn was the question asked by Road & Pruden, local insurance agents. Reeve C. E. Bentley and Gordon Smith were authorized to deal with the question.

tion concerning commercial signs only.

March of Dimes Drive

Mr. E. E. Bates accepted the chairmanship of the annual Crippled Children's March of Dimes committee, with T. A. Walden, F. B. Bedford and Tom McKay as assistants.

Co-operation of Teen Town in the promotion of this charitable endeavor has been promised throughout the province, it was stated. The campaign proceeds from November 16 to December 2.

It was agreed by the trade board that the annual board of trade home Christmas lighting project should be prosecuted once more, while the board should interest itself in getting out the vote for the civic election.

That the trade board wishes to continue the annual kiddies' Christmas tree was evident from discussion, the executive being instructed to proceed with plans.

Municipal Hall Planning Can Proceed

AFTER months of negotiation, Summerland's municipal council on Tuesday evening clinched a deal which it is hoped will have wide-spread repercussions in years to come.

Not only did the council agree to purchase a site for a new municipal hall, thus laying the groundwork for a badly-needed municipal office building along modern lines, but there was also agreement on widening Granville street by five feet and the acquisition of a 20-foot strip of property which will provide a straight road from Granville street south along the eastern border of the park-playground.

These three steps, all of which were dependent upon the affirmative decision of W. A. Stewart, are very necessary to the future planning of the West Summerland business area.

Granville street takes a jog in its most easterly block. The acquisition of a five-foot strip along its 634-foot length will not provide a perfectly straight line throughout the three blocks but will be within a few feet of the desired relocation.

For years, a twenty-foot strip of land 100 feet in depth has stood in the way of providing a straight, through road from Granville in a southerly direction. Those who studied municipal maps could see that this would be an undesirable feature of any development in this area if it wasn't eliminated. Many attempts have been made in the past to

eliminate this jog, but now the council has succeeded.

Most persons in the community have paid a visit to the municipal office lately. It is impossible not to notice the cramped quarters and lack of facilities in this old building. The building itself is sagging and is almost in a state of collapse in spots.

It will be welcome news to most persons that the municipality has acquired a suitable site for its proposed municipal hall, will now proceed to draw plans and be ready to submit a proposal to the ratepayers early in the new year.

There is still another angle which comes to mind. With the new municipal site located east of the box company office, the municipal council can now proceed to designate the area east of the bowling alley as a roadway allowance.

With this area hard surfaced for parking purposes, an impressive entrance to the Living Memorial park playground can be obtained, a dream of the investigators of this community centre for some years.

Although it was past six o'clock Tuesday evening when the council tackled the subject of these three purchases, it was a most worthwhile windup to a regular council session.

We will appreciate this particular action in years to come.

FORTY YEARS AGO November, 1910

A rate of \$1 per employee per month has been set for each employer who wishes free hospital service for those working for them, the Summerland Hospital Board has announced. Members of the board include W. J. Robinson, R. Clouston, A. Richardson, J. G. Robinson and Major E. E. Hutton.

The medical health officer has stressed that some other method of sewage disposal besides septic tanks should be installed for the properties on the lakeshore in Summerland.

A majority vote of about seventy ratepayers declared in favor of increasing the number of councillors to seven, exclusive of the reeve. A ratepayers' association is being planned.

J. W. Harris, who has been master of the town school in Summerland has accepted a position as headmaster in the growing community of Rutland.

THIRTY YEARS AGO November 19, 1920

Former Premier W. J. Bowser, in a pre-election speech, promised the municipalities assistance in the form of annual grants which would have the effect of reducing local taxes.

Col. C. E. Edgett, independent candidate in the federal election

was a recent speaker here while L. V. Rogers, Liberal candidate in the provincial legislature conducted a campaign speech.

Rev. W. A. Alexander, formerly of Craik, Sask., was inducted into St. Andrew's congregation of West Summerland after the meeting of the Kamloops presbytery.

Mr. George Doherty is making good progress towards recovery after a serious illness.

C. E. Fineo having entered the municipal service as collector and accountant, his position with the Supply Company has been filled by R. A. Eckersley.

C. H. Elsey has been appointed district agent for the North American Life Assurance Company.

W. R. Lawrence has opened a meat market in the T. B. Young building.

TWENTY-FIVE YEARS AGO November 20, 1925

As a result of a blaze Saturday night, Hotel Summerland is now a mass of debris, with only the chimney stack remaining. Insurance of \$10,000 was carried but the loss is conservatively estimated at \$22,500. Cut glass and fine old furniture belonging to the manager, C. B. McCallum, long before he came here was destroyed. He is being besieged by well-wishers to consider rebuilding the structure, which was considered one of

the finest hotels in the interior.

Dowager Queen Alexandra died at 5:25 this afternoon following a heart attack. She was nearly 81 years of age and was the daughter of King Christian IX of Denmark.

Dedication of the Summerland Girl Guides' colors was an impressive part of the Armistice Day service Sunday afternoon. The flag was given the local company by Mrs. Morrison Sutherland. G. J. Coulter White gave the main address at Empire hall.

S. W. J. Feitham gave the Women's Institute an instructive talk on handicrafts at their monthly meeting.

Delegates from all parts of the Okanagan and Washington State gathered in Summerland 200 strong for an Oddfellows' convention yesterday. The Vernon lodge won the international championship for initiatory degree work.

Rev. W. A. Alexander and S. E. Snider of St. Andrew's church and Rev. H. Wilson and H. Mellor of Lakeside United church attended the B.C. inaugural conference of the United Church of Canada in Vancouver. The budget committee reported it will require \$4 million to take care of the work in hand, and must be raised throughout the various provinces.

Samuel Beggs, a well-known and popular local resident passed away on Sunday.

THE LEGION IS GRATEFUL
Editor, The Review:
On behalf of the Summerland
Branch of the Canadian Legion I

wish to express sincere appreciation to the business men, various organizations and all citizens of the community who gave such generous support in this year's sale of wreaths and poppies which we undertake in aid of disabled

veterans. I also wish to thank those who joined us at the Cenotaph on Remembrance Day to pay tribute to our fallen comrades.

R. S. McLACHLAN,
President, Br. 22,
Canadian Legion

WHAT IS A CREDIT UNION?

The 'Union of Your Savings in an organized way forms the basis of capital, which permits you to borrow more than you have actually saved on the understanding you will pay it back out of future earnings. Your efforts to save and good personal character inspire confidence in you and makes Credit available to you out of the Union of Your Savings, thereby creating a

Credit Union.

Government Supervision

The "Credit Unions Act" explains the powers and limitations of a Credit Union, and it is supervised by the Inspector of Credit Unions, who makes an annual examination of all accounts.

Administration and Security

A Credit Union is administered by a Board of Directors, a Credit Committee (who approve loans), a Supervisory Committee (who audit the accounts and report quarterly to the Inspector). All Committees are elected from the membership. All persons handling cash or securities are bonded. Twenty per cent of all net earnings are placed in a reserve fund yearly.

Your Savings are Doubled Your Loans are Forgiven

in the event of death before the age of 55 and graduated protection is given thereafter until the age of 70.

For further information about forming or joining a Credit Union, contact Mr. T. A. SWITZER, Provincial Government Inspector of Credit Unions, Court House, Vancouver, B.C., or the B.C. Credit Union League, 96 East Broadway, Vancouver, B.C.

GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA

Attorney-General's
Department

The Hon. G. S. Wismer, K.C.,
Attorney-General

Signifying Nothing *By* RUSTICUS

I see by the paper that there is a new Maharaajadhiraja of Nepal. Quite a mouth-filling title, that, even though it may not be quite as intriguing as the famous 'Ahkroond of Swat' who, incidentally, was not Babe Ruth.

Like most holders of ancient and exalted titles, the Maharaajadhiraja is mostly a figurehead in Nepal, and the new appointee, now only three years old, may have a rather rough time of it as he grows up. His people are stubborn and fiercely independent—Nepal never joined with India, nor permitted the British to do any more, than gently advise their government.

And with India in political ferment on one side, and Tibet now being invaded by the Chinese Communies on the other, Nepal is apt to see some lively doings in the next few years.

This little country, only one-sixth the size of British Columbia, though with five times our population, has always fascinated me. Its national costume of baggy-topped silk breeches, sleeveless jacket, and flowing white shirt, seems to typify the old picturesque East. Marvellous stories of big game hunting—elephants, tigers and the rare Indian rhinoceros—have come from Nepal. Frank Buck collected there, but rather spoiled the romantic effect of their costume by remarking that they are so much in need of Lifebuoy soap over there that he often wondered if some of the Nepalese were examples of Indian miracles—dead men still

moving around!

To alpinists, as well as to hunters, Nepal is close to paradise; very close, in fact, for it contains the highest mountains in the world. The Mt. Everest-Khanchenjanga group of the Himalayas rises right in Nepal's back yard. And the strictness with which Nepal watches the entry of foreigners—also like paradise? — is one of the difficulties which all mountaineering expeditions with eyes on Everest have to face.

Most interesting thing about the state, however, is its people. If Nepal is pitched into a war one of these days, as seems likely, it will certainly give a vallant account of itself, for its Gurkhas are among the most redoubtable warriors in the world. They are small men, but of fanatical bravery, and their docility with their national weapon, the kukri—a cross between a butcher-knife and a broadsword, Frank Buck called it—made the Gurkhas one of the most respected units of the British army back in the old days.

Nor have the aeroplanes, bombs, and tanks of modern warfare made the kukri entirely obsolete. In daylight it is indeed a feeble weapon against massed mechanized armies; but at night it's a different story. Like our own North American Indians, the Gurkhas have learned from their hunting at home to stalk in total silence, and during the last war, when some Gurkha units were brigaded with

the British troops in Italy, they loved to go out under cover of darkness looking for Germans to try their kukris on. Sometimes when battle fronts were fluid, it was hard to tell friend from foe in the darkness; but that didn't deter the Gurkhas, as a little story I've heard from several sources testifies.

It happened when British and Canadian troops were camped for the night, somewhere in Italy, very close to the enemy. Darkness had stopped the clattering tanks, the roaring planes, most of the thunder of the artillery; to a certain Canadian soldier on sentry duty, the stillness, like the night's blackness, was absolute.

Out of that black stillness, without any sound for warning, a hand suddenly slipped over his shoulder and felt for his throat. Strong fingers searched for something, found it before the startled sentry could start to move his rifle around, vanished back into the darkness again. There was nothing whatever behind him when he whirled around with rifle ready.

Yet he knew with blood-chilling certainty that a Gurkha kukri had been poised at his throat for a split second, and against that two-foot razor edge his rifle, his trained strength and skill, would have been helpless if those searching fingers had not found what they sought—the identification disk which alone, in the darkness, distinguished the allied soldiers from their enemy counterparts.

President of Rebekahs on Official Visit

Mrs. Blanche Anderson, president of the Rebekah Assembly of B.C., paid her official visit to Faith Rebekah lodge, No. 32, West Summerland, on Wednesday, Nov. 8.

Mrs. Allen Holmes, noble grand, presided over the well attended regular meeting.

In the president's official suite were Mrs. Ethel Law, district deputy president of Golden Heart, R.L. No. 60, Oliver; Mrs. Murdie Watson, district deputy president, Redlands, R.L. No. 12, Pentiction; Mrs. Pearl Betts, past assembly treasurer, Redlands No. 12, Pentiction, and Mrs. F. E. Atkinson past president of the Rebekah assembly of B.C.

The Rebekah degree was conferred on Mrs. Alice Gillespie, who will be one of the Centennial class. All candidates throughout the province are being grouped in a centennial class in commemoration of the founding of the Rebekah degree as this year the one hundredth anniversary of the Rebekah Order will be celebrated.

During the evening Mrs. A. K. Elliott presented Miss Phyllis Hill with a Rebekah lapel pin with the best wishes of the local members and regrets that Miss Hill is in Pentiction now and cannot attend regularly.

After Mrs. Anderson's splendid address a delicious banquet was enjoyed by all. This was arranged under the capable convener'ship of Mrs. R. Cornish.

During Mrs. Anderson's stay in Summerland she was the house guest of Mrs. F. E. Atkinson.

Tuesday evening a number of the members of the local lodge gathered to meet their president, and her sister.

Lovely Scenes in New W.I. Calendar

Summerland Women's Institute calendars for 1951 went on sale last week in plenty of time for Christmas overseas mailing.

The 1950 calendar was very popular and there were requests for copies long after the complete stock was sold out. In fact there were people looking for the calendar even during the past summer.

This calendar has a beautiful cover, a scene looking from Trout Creek towards Pentiction taken by Miss Marie Anderson of Maywood Photo Studio.

All the photographs are by local photographers.

Activities Page

BOY SCOUT ACTIVITIES

Note to parents of Cubs and Scouts: This coming Tuesday, November 21 the Okanagan South Boy Scouts Assn. is holding its annual meeting at 8 p.m. in the Odd-fellows' hall at Pentiction. The Okanagan South Assn. embraces Cawston, Keremeos, Kaleden, Naramata, Summerland and Pentiction and promotes Scouting activities in these districts.

Parents of all Scouts and Cubs are cordially invited by the president, Mr. Hugh Cleland, to attend this meeting and familiarize themselves with some of the background work that goes on for the movement in this area.

There will be a special speaker, Rev. E. Rands of Pentiction United church who will speak on juvenile delinquency and the value of organizations such as the Boy Scout movement in combating such tendencies.

At Tuesday's meeting every Scout was given a letter to take home to his parents regarding this meeting. You are asked to read it carefully and do your best to attend this meeting.

Tuesday's meeting was well attended and featured games, patrol instruction in first aid, tenderfoot tests and practice in semaphore signalling. Mr. E. A. Sladen chairman of our group committee visited the troop and gave the older boys an excellent instruction period on the fireman's badge. There will be further instruction on this badge next week.

Notices: Next meeting Tuesday, Nov. 21 at Youth Centre. Duty patrol, Buffaloes. From now on owing to colder weather, shorts will not be worn.—D. V. Fisher.

MAKE PRESENTATION AT KIWANIS DINNER

S. E. E. (Ted) Beech, a charter member of the Kiwanis Club of Summerland and its first treasurer, was honored with a presentation performed by President J. Y. Towgood Monday evening at the club's weekly supper meeting in the Nu-Way Annex. Mr. Beech is being transferred to Pentiction as accountant in that city's branch of the Bank of Montreal.

India Offers Asylum

This is a new picture of the 17-year-old Dalai Lama of Tibet, whose country is being invaded by Chinese Communists. The spiritual and temporal ruler sits above his crest, the thunderbolt, insignia of his power. He is to be invested with full ruling powers next year when he reaches 18. The government of India has offered to give him asylum should he flee the capital of Lhasa to avoid capture.

Teen Town

I have an apology to make concerning the dance which was to be held last Saturday night. We changed our minds because it was Remembrance Day so we're very sorry.

Mayor Doreen Stewart laid a wreath on the cenotaph on Remembrance Day.

Teen Town is going to assist the Board of Trade in the "March of Dimes" tag day, December 2. The council adopted in principle the idea of a table tennis championship for B.C. each year. This was discussed at the conference held at Kelowna about a week ago.

Well girls, have you asked a man to the Sadie Hawkins dance yet? If you haven't you had better get cracking. Please note the admission: 5c per foot height until 9 o'clock after which 5c will be added to each couple. After 10 o'clock 10c will be added to each couple. Don't forget, there'll be square dancing so let's see everyone taking part eh?

By the way, the tickets are on sale for the raffle on the sweater so make sure to buy a few (5 or 10). Remember, you have a good chance to win it.

LONG BEACH 2, CALIFORNIA

Singers & Players Club

In the Singers' practice room twenty maidens sang their woeful little ditty while twenty dragoons listened; twenty dragoons sang lustily of their pride in their dragoonship while twenty maidens listened. Patience and Grosvenor then trilled their enchanting duet "Willow Willow Waly", and Lady Jane accompanying herself on the cello, sang her beautiful recitative and soliloquy.

In the players room a handsome Browning persisted in his efforts to encourage Elizabeth Barrett to rebel against her tyrannical father and to elope with him to Italy.

With things going so well, the scenery in hand and costumes all arranged for, the executive was delighted.

Who were the twenty love sick maidens and the twenty dragoons, Patience and Grosvenor, Browning and Elizabeth? The fact is that we don't know.

We simply could not this week repeat again our oft told tale of disappointment and our well worn appeal for attendance. We had to think up something new and strange so we started off with a dream of the night of been which is so much more cheerful than the hard cold fact.

Of course there are still the faithful few who refuse to believe that the Singers and Players in all its departments is a "dead duck" for this season. We shall persist in our attempts to get going and if you have any interest in our project and would like to see how we are getting along, even though our productions may have to undergo serious changes, why not join us next Tuesday evening at 8 at the high school and find out.

Who knows but what your attendance might not be just the one to give us renewed vigor and hope.

GUIDE NEWS

First Company

Last week's meeting was taken up mainly in passing second class tests and instruction on first class to four Guides, Jill Sanborn, Marilyn Wade, Anne Beggs and Anne Solly. An unexpected quiz on general every-day knowledge was given and surprising results were shown.

Regular monthly court of honour will be held after school, Wednesday, Nov. 15, at Mrs. McIntosh's home. Plans for the forthcoming carnival and parents' night will be discussed.

The turn-out for the Remembrance Day parade was disappointing—twelve Guides being present. The Forget-me-nots received 5 points for having full attendance. Patrol standings at present are Buttercups 139, Pimpernels and Hepatica 134, Forget-me-nots 127.

Second Company

Before Friday's meeting the Guides were taken on a brisk walk in the first fall of snow, both for observation purposes and to recover some of the captain's forgotten articles.

PL's Frances Atkinson, L. Walton and P. Dunham, were appointed as a color party for the November 11 parade.

With the assistance of the company leader, Jane Woolliams, company records were brought up to date and patrol leaders were reminded to keep their patrol points in order.

It was decided that a Christmas tea will be held by the Guides when they will have as their guests, mothers and one other adult. Guides taking part in this will also qualify for their hostess badge.

Two tenderfoot tests were completed and these girls will be on-rolled at the next meeting.

Each patrol is busily thinking up a skit for the radio broadcast over CKOK, Dec. 9. These must be handed in this week.

Each patrol leader is asked to bring sufficient sticks for one por-

Guidance of Youth for Future Life Is Task of Four-Man Team Says Durick

Although vocational guidance can roughly be divided into a job analysis and the qualifications of youths for these positions, yet it is actually much more complicated than that, W. H. Durick, who deals with guidance in the local high school, informed Kiwanis Club of Summerland on Monday evening at the Nu-Way Annex.

In grandfather's day there were only a few jobs but today there are thousands of jobs although youths have little opportunity to see them in operation or find out about them.

To bridge this gap, vocational guidance comes into the play. Job analysis was worked out to a fine point by the armed services and their findings have been passed on to industry and to educational counsellors, he explained.

Ascertain Aptitudes

The size of the youth, personal appearance and general attitude can be obtained easily through counselling but aptitudes are somewhat more difficult to ascertain, he explained.

Personality enters into the picture in a big way, Mr. Durick pointed out. Is the youth aggressive or does he work better by himself are two points which must be cleared up.

How the youth gets along with people is another big question as employment people state that more persons lose their jobs because they cannot get along with their fellow workers or bosses than for lack of interest in the actual work itself.

The counsellor must find out the youth's interests, and this can be determined fairly well by having him answer a series of test questions. These answers can be matched against the field of earning.

Some other factors to be determined include whether the pupil can obtain finances for a higher education and whether there will be sufficient employment in the chosen profession once he is ready to graduate.

Mr. Durick declared that often

the parents' preconceived ideas of what the youth should do when he grows up do not gibe with the results of guidance discoveries and provide a major stumbling block. Glamor of Uniform

The glamor of jobs, especially if uniforms are involved often provides incentive for some youths' choices. Too often the social status of the position is a prevailing factor, he stated, despite the fact that most "white collar" jobs pay less than those requiring more manual labor.

Whether the youth will be happiest in his chosen job or profession should be a guiding note, Mr. Durick felt.

"We try to show the pitfalls, the advantages and the disadvantages of certain positions," declared Mr. Durick, also pointing out that high wages at the start with little hope of advancement is too often too glittering for youth.

In conclusion, Mr. Durick stated that he considers guidance is made up from a four-man team. First is the home, which knows the youth better than any other party; secondly is the school, where guiding can take a fairly definite form; thirdly is the national employment service; and fourthly comes the employer.

All these factors can do their respective parts in making vocational guidance a success, he concluded.

THE Christmas STORY

Illustrated with **VIEW-MASTER** full color pictures IN THREE DIMENSIONS

Now see the inspiring story of the first Christmas illustrated with full color Kodachrome photographs in the amazing "come to life" realism of three dimensions. This beautiful story is told in three parts each illustrated with seven stereo scenes mounted in a sturdy View-Master Reel. 21 fascinating scenes in all for use in View-Master Stereoscopes and Projectors. A descriptive Story Folder comes with each Reel. Over 400 other interesting, educational children's and "travel" Reels to choose from! Ask for free Reel list!

Mrs. Kitty Hickey, Walter Wright are United at Osoyoos

On Friday, Nov. 10, a quiet wedding was solemnized in the Anglican church, Osoyoos, by Rev. R. E. M. Yerburgh, of Oliver, when Mrs. Kitty Hickey, Summerland, was united in marriage with Mr. Walter Wright, former manager of the Bank of Montreal branch here and now manager in Penticton.

For the occasion the bride wore a becoming brown suit, with green hat and brown accessories, and a beautiful corsage.

The couple were attended by Mr. and Mrs. Paulding of Osoyoos.

For motoring to Spokane on a short trip the bride wore a muskrat coat over her wedding ensemble.

Mr. and Mrs. Wright will make their home at Summerland.

Silk Screen Prints For New High School

At the regular meeting of the Women's Institute on Friday afternoon, Nov. 10, in the parish hall, members decided to donate four silk screen prints to the new junior-senior high school, following a course taken when the MacDonald School was renovated and four new rooms added.

Sewing classes were discussed and it is hoped after Christmas to resume these classes which proved so successful last year.

Members were asked to note that the next meeting will be the annual one. The president, Mrs. A. K. Macleod was in the chair.

SANCTION HIGHWAY

The new secondary provincial highway, which runs from Trout Creek Service Station to the top of Peach Orchard hill via the Sandhill and Giant's Head, will be known as Reference 117E, council learned on Tuesday. The order-in-council is being drawn up for government sanction now.

Brigadier J. M. Rockingham of Vancouver was given an ovation when he arrived at the new Korean Brigade training camp at Fort Lewis, Wash., this week. It is understood the entire brigade, with the exception of the advance party already in Korea, is heading for the U.S. training area. Whether the brigade, or just the 2nd Bn. Princess Patricia's Canadian Light Infantry, headed by Lt.-Col. Jim Stone, will be going to Korea is not announced yet. Shaking hands with Brigadier Rockingham in this picture is Col. W. C. Dick, chief of the Quebec Command.

MORE ABOUT

COUNCIL AGREES

Continued from Page 1
juts out in front of the north-south road on the east side of the Living Memorial park-playground and makes an inconvenient jog at the start of this 40-foot roadway.

Council has been endeavoring to acquire this piece for years and it has been Reeve Bentley's contention that the late Muir Stewart promised this section to the municipality for road purposes years ago.

One Councillor Opposed
Price determined by Mr. Bud Stewart on Tuesday was \$400 for this particular piece of land, which will be dedicated for road purposes. The council agreed to make this purchase with Councillor Francis Stewart registering a negative vote.

Council was unanimous on the other price arrangements.

Total cost of the Stewart property, therefore, will be \$2,420 and a new map showing these acquisitions will be prepared at once for signature.

On Wednesday afternoon, municipal council considered past dealings regarding a municipal hall and thought that if no legal complications could arise between the municipality and the architectural firm, McCarter & Nairne of Vancouver, then the reeve should proceed to obtain the services of an architect.

The previous sketches produced by the architectural firm had been discarded as the municipal hall proposed would have cost about \$125,000.

It is council plan that a sum of about \$35,000 to \$40,000 should be expended for a new municipal hall which would be in keeping with the dignity of the building and provide sufficient space for future expansion.

Most council members favored employment of W. K. Noppe, who is architect for the new junior-senior high school, as he operates an office in Penticton and would be available for consultations.

However, the council has no intention of becoming involved in a legal architect's battle such as Penticton's arena proposal, and will carefully determine the legal steps necessary before entering any negotiations.

Complete Two Years

At the Kamloops-Okanagan presbytery women's association meeting held last Thursday, Nov. 9, at Rutland, Mrs. J. C. Wilcox completed the two-year term as president; Mrs. James Marshall two years as secretary; and Miss Rosalie Smith the same time as corresponding secretary.

Appreciation was expressed of the efficient work done by these officers during their allotted period.

Christian Citizenship Is Subject of Talk

"Rise up ye men of God" was the opening hymn at the St. Andrew's Service Club meeting, Monday evening, Nov. 14.

Following Mrs. Ewart Woolliams gave an interesting "Indian's interpretation of the twenty-third psalm".

Discussion of the November AOTS supper resulted in Mrs. J. W. Broderick and Mrs. E. E. Bates being chosen as conveners.

Considerable time was taken up with plans for the bazaar to be held next Saturday, Nov. 18.

"Christian Citizenship", based on a discussion on this subject as heard at the WA presbytery meeting held at Rutland last week was a topic taken by Mrs. Woolliams. The speaker stressed the breadth of this field, and how much is to

WAIT FOR REPAIR LIST

Reeve Bentley suggested to council on Tuesday that repairs to the police office should be instigated. It was decided, however, to mark-time until a list of requirements is received from the RCMP.

be done in this country regarding it. "The foundation of the work is love and fellowship for all," stated Mrs. Woolliams. Some of the things now that come under the heading of Christian Citizenship are social welfare, care of older people, and work of the United Nations.

A nominating committee was chosen to make preparation for the election to be held at the December meeting.

Refreshments were enjoyed at the close of the evening, hostesses being Mrs. James Marshall, Mrs. James Mayne, Mrs. G. A. Laidlaw, and Mrs. R. Leinor.

Committee Heads for Veterans' Program

Everyone enjoyed the Remembrance Day dinner, concert and dance arranged by the Women's Auxiliary to the Canadian Legion in the IOOF hall.

The Hospital Auxiliary catered and served the delicious hot turkey dinner, and responsible for the jolly informal entertainment was a committee headed by Mrs. J. A. Read assisted by Mrs. T. Fisher, Mrs. Pruden and Mrs. Johnson.

The Head and Foot chorines were Mrs. Frank Young, Mrs. Wm. Milne, Mrs. Phil Davis, Mrs. Pruden, Mrs. T. Fisher and Mrs. Johnson.

Four Hostesses Unite To Shower Beverley Gayton Bride-Elect

Uniting as hostesses on Tuesday evening to give a shower party for Miss Beverley Gayton daughter of Mr. and Mrs. C. A. Gayton, who will be married in the Baptist church on Dec. 1, to Mr. W. Donaldson, were Mrs. R. M. Darke, Mrs. Ed Krause, Mrs. L. Skinner and Mrs. Don Fountain.

The party was held at the home of Miss Gayton's grandmother, Mrs. James Darke.

The lovely miscellaneous gifts were hidden under the pretty skirt of a large crepe paper doll, and a pink and white decorative motif was attractively used to add to the prettiness and gaiety of the occasion.

A special "shower cake", also in pink and white was cut by the bride-to-be.

Games were part of the evening's entertainment, and delicious refreshments were served.

Those invited were Mrs. C. A. Gayton, Mrs. R. H. Scott, aunt of the guest of honor, who has been visiting here from Vancouver, Mrs. W. W. Borton, Mrs. Ken Boothe, Mrs. Paul Hoffmann, Mrs. Norman Dickinson, Mrs. Paul Roberge, Mrs. V. M. Lockwood, Mrs. Stanley Taylor, Mrs. C. J. Amm, Mrs. J. Cristante, Mrs. A. Soderquist, Mrs. Vida Johnston, Mrs. Donald Orr, Mrs. Ken Anderson, Mrs. Norah Blacklock, Miss Dorothy Blacklock, Miss Marjorie Fenwick, Miss Joan Howard, Miss Rhoda Ritchie, Miss Rae Armour and Miss Elsie Soderquist.

Quiet Wedding at United Church Manse

The United church manse was the scene of a quiet wedding on Friday evening, Nov. 10, at 8:45 p.m., when Miss Ceone Eyre, daughter of Mr. and Mrs. C. B. Eyre was united in marriage with Mr. George Faasse, son of Mrs. A. C. Faasse and the late Mr. Faasse, all of West Summerland. Rev. H. R. Whitmore was the officiating minister.

For her wedding the young bride wore a pretty grey suit and pink hat, and a corsage of carnations on one.

Attending as witnesses were Mrs. Eyre, mother of the bride, and the groom's mother, Mrs. Faasse.

After a short honeymoon in Pen-tiction the couple are making their home here.

Support of U. N. Urged At W. I. Meet

Mrs. H. R. McLarty was the able speaker at the regular meeting of the Women's Institute on Friday, Nov. 10, in the parish hall. The audience listened with a great deal of interest to her topic which is one that is uppermost in the thoughts of many at present.

"Last month we celebrated the anniversary of the birth of the United Nations," said Mrs. McLarty. "It is an organization which carries with it the promise of lasting peace."

The skeleton of the speaker's address follows: "This huge organization is made up of sixty nations. The president presides over the general assembly which consists of five delegates from each country with their alternates and advisors. A two-thirds majority must be obtained when this body votes."

"There are six main councils. The first are the political and security council which must have eleven members including five of the great powers. Seven out of the eleven must vote and if one of the great powers casts a dissenting vote then the motion is defeated. "Russia has vetoed 46 times."

"A new ruling has been made lately and where a veto exists the matter may be taken up again after a lapse of 24 hours."

"The security council has the job of keeping peace in the world. Commissions have been set up to get all the information in any dispute, e.g., the Greek border dispute; the Palestine trouble; information on the armed services of each country, etc."

"The atomic energy commission consists of the 5 great powers and Canada. Gen. McNaughton is the Canadian representative."

"The economic and financial council deals with potential economic structure of a country and administers the world bank."

"The social council deals with rehabilitation of Europe, and control of disease."

"Foods and agricultural organization has to do with raising of the peoples of the world; status of women; narcotics, etc."

"The trusteeship council respects national integrity of a country. All administrative countries must discuss their programs with the council. The administrative is also the budgetary council."

"The fifth is the legal council which deals with international law."

"Korea in the last 40 years has changed from Russian to Japanese domination. Korea wanted its independence."

"Russia set up a government north of the 38th parallel, and the United States south of this parallel. A United Nations commission tried to unify the country, which resulted in the present conflict."

"The democracies and free peoples have a great task ahead. We must think critically and intelligently for only by doing so can we help the cause of freedom. Women's Institutes have this responsibility for governments listen to bodies such as the Institutes."

"We must uphold the United Nations, which is the biggest Christian ideal that has struck the world in our time."

Mr. and Mrs. W. D. Laidlaw who have been at the coast for some time because of illness returned home on Sunday morning, and are receiving a warm welcome from their family and friends.

VISITING ABROAD

Mr. Denny Hack was a weekend visitor to Vancouver.

Mr. K. B. Fraser went out to the coast on Tuesday evening's train to join Mrs. Fraser in Vancouver.

Mrs. Reid A. Johnston is leaving this evening for Vancouver and will spend the weekend in the city.

Mr. Murray Elliott and Mr. Jack Dunham drove out to Vancouver for the holiday weekend.

Mr. and Mrs. E. Kercher left last week to drive to California where they will holiday for two to three weeks.

Dr. and Mrs. W. H. B. Munn drove out to Vancouver last Saturday and will spend this week at the coast.

Mr. and Mrs. W. J. Beattie were recent visitors to Vancouver, driving over the Hope-Princeton and spending the weekend at the coast.

Mr. David Wright and Mr. Charlie Rennie motored to Vancouver where they spent the Remembrance Day weekend.

Mrs. Phil Munro is spending a short time in Vancouver having left on Monday evening for the coast.

Mr. and Mrs. K. Heales and their son, Kenneth, were among those who motored to the coast last weekend.

Dr. and Mrs. H. R. McLarty are leaving today for a short holiday at Vancouver where they will visit their son, Mr. Hugh McLarty, a student at UBC.

Mr. Alan Calvert and Mr. H. Howis were in Greenwood last week when Mr. Calvert paid his official visit to the Canadian Legion in his capacity as zone commander.

Mrs. C. C. Strachan, director on the provincial board of the Women's Institute, leaves on Saturday night to attend meetings at the coast on Nov. 20-21. Following these sessions Mrs. Strachan will be present at the B.C. Federation of Agriculture meetings, Nov. 22-23.

KIWANIS SKIT AT OKANOGAN IS PLEASING

Summerland Kiwanis' skit presented at the international annual meeting in Okanogan, Wash., last Thursday evening, November 9 was a decided success and was voted one of the best. J. E. O'Mahony reported to Monday evening's Kiwanis Club supper meeting. Lacey Fisher was in charge of the short entertainment feature which was met with spontaneous applause and laughter.

HOME AGAIN

Mr. B. A. Sladen returned on Sunday from a business trip to the prairies which took him as far east as Winnipeg. He accompanied Al Soderberg home on the last lap of the journey from Alberta.

VISITING HERE—

Mr. and Mrs. W. C. Wilkin had as a weekend visitor, Mrs. Wilkin's aunt, Mrs. J. S. Carter of San Carlos, Calif.

Guests over the weekend of Mrs. Pares and Reeve C. E. Bentley were their nephew and niece, Mr. and Mrs. Roy Heuchendorff of Vancouver.

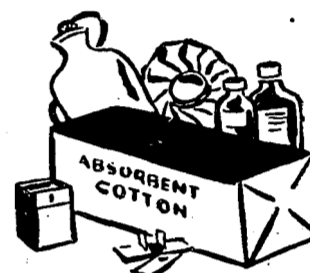

Mrs. R. H. Scott of Vancouver who spent a week visiting at the home of her mother, Mrs. James Darke, left for her home at the coast on Tuesday.

Mr. Jack Amm drove in from the coast last weekend to visit his mother, Mrs. C. J. Amm, arriving Saturday night over the Hope-Princeton highway without encountering any snow until coming in to Summerland.

Mrs. C. V. G. Morgan's mother, Mrs. G. S. Cliff of Kingston, Ont., who has been visiting here and other points in British Columbia since last August left Summerland last Friday to go to Vancouver and to travel by air from the coast to her home in the east.

Miss Elaine Miller, nurse-in-training at the Royal Inland hospital, Kamloops, has been spending a few weeks' holiday at the home of her mother, Mrs. Helen Miller.

Mrs. Mable Miles of Ottawa, who has been visiting her son and daughter-in-law, Mr. and Mrs. J. R. W. Miles, Trout Creek, left on Monday to visit her mother in Sioux City, Iowa, on the way to her home in Ontario.

Difficulties of Atlantic Cable Laying Told

Many of the trials and failures which were experienced before the Atlantic was bridged with a submarine cable were described by a man who knows much of cable operation, J. Duguid, to the monthly Summerland Board of Trade meeting in the I.O.O.F. hall last Thursday evening.

It is nearly one hundred years since the first attempts were made to lay a cable and Mr. Duguid told of the many difficulties facing these pioneers from the time that Morse made the telegraph commercially possible.

There was little knowledge then of the depth of the ocean, whether the ocean bottom was smooth or a series of hills and valleys. Also, where to locate a steamer capable of carrying 2,000 miles of cable was a major problem.

Soundings Were Taken
But in 1855 a series of soundings across the Atlantic from Newfoundland to Ireland, the shortest distance, was taken and supplied much of the preliminary information needed.

In some places the Atlantic is over three miles in depth, he observed.

In 1857 two warships, one from the U.S. and the other loaned by Great Britain started to lay the first cable but it broke and sank and the boats did not have any raising apparatus.

The next year a cable was laid and Queen Victoria talked to the United States for the first time. But that cable broke and Cyrus Field, who had promoted the scheme could not get further backing.

Experimented Seven Years

He was told in the Old Country, however, that if he developed a better type of cable that money would be forthcoming. Seven years later a much-improved cable weighing 4,000 pounds was developed. After more failures two cables were laid in 1866 and remained in operation.

But there were many snags to the operation. An insect called a

toredo bored into the cable and let in water. It had to be discovered how to mix a repellent in with the gutta percha.

Trawlers kept breaking the cable but finally a cable plow was discovered to dig a furrow in which the cable could be laid with the backwash supplying the backfill.

When breaks occur special cable trawlers cruise north and south with grapplers down to locate the broken cable.

Because fishing boats interfered with operations, cable houses were located in lonely parts of the coast. The one Mr. Duguid occupied for years was two miles from the nearest town. But there were compensations in the quantity of fishing and hunting available and in the fact that cable readers had the news even before the newspapers.

FELLOW TRAVELLERS — These three statesmen of diverse political background seemed to have a lot in common when they met at Dorval Airport in Montreal recently. Opposition leader George Drew, left, and Emanuel Shinwell, centre, Britain's defense minister, were flight-bound for Prestwick, Scotland. Canada's Defence Minister Brooke Claxton was flying back to Ottawa.

McIntosh Crop Went to Three Million Boxes Says Tree Fruits

VERNON — That some 337,000 boxes of apples already have been shipped to England as part of the United Kingdom deal, was a statement made by B.C. Tree Fruits liaison officer William Embrey, to the annual general meeting of the Coldstream local, BCFGA, held in the Coldstream WI hall last week.

A further 180,000 boxes will leave this month, and the remainder of the 1,100,000 box shipment in January.

Mr. Embrey gave a brief review of the current marketing season, which was good on soft fruits. The quality of prunes was good, and this fruit well received, he said.

Duchess apples were left until maturity; a "good policy," Mr. Embrey continued. The same applies to Wealthies, which were allowed to mature on the trees, resulting in "more satisfaction on the prairies than for some time."

That the McIntosh crop ex-

ceeded its original 2,500,000 box estimate by a further 500,000 boxes, to some 3,000,000, was a further statement.

So far the movement compares favorably with 1949. Up to November 6, 930,596 boxes have been shipped, compared to 972,000 at the same date in 1949.

Ontario and Eastern United States' 1950 crops also exceed estimates. The fruit is selling very cheaply there, the retail price equalling B.C.'s f.o.b., Mr. Embrey said.

Total sales to the United States are just under 500,000 boxes to date. Okanagan apples are reaching markets far afield, according to other figures given by Mr. Embrey, who said that 6,100 boxes of Newtowns have gone to Hong Kong; 16,628 to Venezuela; 3,200 to the British West Indies; 300 to British Malaya; 200,200 to Newfoundland; 1,600 to Bermuda and 3,105 to Hawaii.

Prospects are still fairly good for late varieties, with the grades better than they were last year.

Answering a question, Mr. Embrey said that more than 10,000 boxes of Hyslop crabs were on hand and, owing to a cannery deal with the United States, the price is better than in 1949.

During a discussion period, Tom Hill of the Coldstream Ranch, praised the Spartan variety of apple very highly.

VOTE ON WEEKLY STORE HOLIDAY

SALMON ARM—City residents will be asked on December 14 in a referendum if they wish Monday or Wednesday to be observed as the weekly holiday by local retail stores. Stores are required now to observe a half holiday on Wednesday but by mutual agreement have been closing Wednesday afternoon, as well.

More Than Quarter Million Boxes in Storage Locally

Figures released by the B.C. department of agriculture last week indicated that at November 1 nearly four million boxes of apples were in storage in the Okanagan, with Summerland having more than a quarter million boxes. Following is the breakdown of apples held in storage in this province at the first of the month:

DISTRICT	Apples (Boxes)	Pears (Boxes)
	Cold Common	
Lytton-Chase	7,807	1,000
Salmon Arm-Sorrento	120,967	
Armstrong	4,316	2,706
Vernon	460,503	14,582

B.C. Dragoons "Liberation" Tree Thrives

VERNON—In the town of Veedam, in Holland, there is a mute, but living reminder of the days when the British Columbia Dragoons were stationed there, and of the active part the regiment played in the liberation by the allied armies of that country on August 31 and September 1, 1945.

To recall these soul-searing days for the Dutch people, and as a token of the mutual ties forged during the unforgettable days of World War Two, the late Brigadier Harry H. Angle planted a maple tree, called by the Burgomaster of Veedam, J. A. Hoogkamp, the "Liberation Tree."

"The tree grows up successfully and is a symbol of our continuing friendship," writes the good burgomaster. The tree was planted exactly five years ago, in November, 1945.

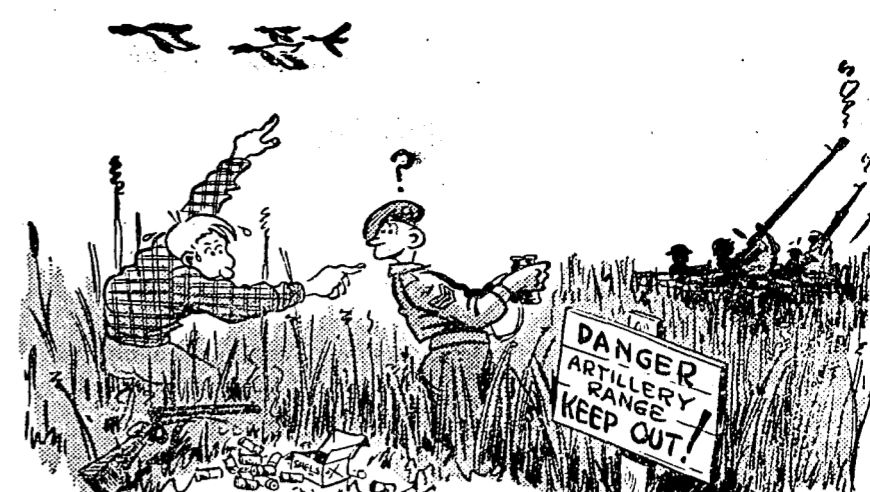

Notes on the growth of the tree and the activities of the regiment have been exchanged from time to time during the intervening period between Burgomaster Hoogkamp and Col. Angle, former commanding officer of the Valley's own regiment, who was killed recently in India.

The burgomaster wrote on the fifth anniversary of liberation. He mentioned the stay of the British Columbia Dragoons at Veedam, and sent greetings to the regiment from the inhabitants of the town.

"We still remember the days when your regiment was stationed in Veedam, and when it took an active part in the celebration of

our liberation."

Realizing the international tension now existing, even after the hopes, destined to be shortlived, but born so joyfully five years ago, that there would be no more wars, Burgomaster Hoogkamp concludes his letter by saying: "I sincerely hope that the B.C. Dragoons will not have to be called for active warfare again in these restless times in order to secure a world peace. May that part of the democratic world which struggles for peace and human rights, succeed."

First Snow of Season Forms Background for Nov. 11 Service

With freshly-fallen snow as a backdrop, an impressive Remembrance Day service was held in

front of the Cenotaph in the Living Memorial park playground, Saturday morning at 10:45 o'clock.

Led by the Summerland Band, one of the largest parades in the history of Remembrance Day services here marched from the corner of Granville and Hastings street to the park playground where they formed a hollow square in front of the Cenotaph.

With veterans in the lead, the parade consisted of Legion WA members, Boy Scouts, Girl Guides and Cubs.

Rev. H. R. Whitmore, United church, opened the service with prayer, followed by O Canada. Scripture reading was given by Rev. C. E. Coxson, Free Methodist church. The audience joined in singing O God Our Help in Ages Past, which was followed by a prayer delivered by Rev. D. O. Knipfel, Baptist church.

Ross McLachlan, Summerland Branch No. 22, Canadian Legion president, read the roll of honor of those who fell in the two world wars with the veterans responding at the conclusion: "At the going down of the sun and in the morning, We will remember them."

A moment of silence was observed in memory of the fallen heroes, the Last Post and Reveille being sounded by John Bentzli.

Reeve C. E. Bentley, on behalf of the Municipality of Summerland led an impressive parade of citizens who laid wreaths on the Cenotaph.

Rev. Canon F. V. Harrison, St. Stephen's Anglican church, gave the Benediction and the service concluded with God Save the King. The parade then marched back to the starting point and was dismissed. D. L. Sanborn was OC parade.

Legion Auxiliary Remembrance Day Banquet and Program Packs Hall

Every available inch of space was occupied Friday evening at the IOOF hall for the annual Remembrance Day banquet, followed by entertainment and a dance, staged by the Women's Auxiliary to the Canadian Legion. Nearly 200 veterans, their wives and auxiliary members were in attendance and enjoyed a memorable evening.

Dr. F. W. Andrew, honorary president of the Canadian Legion in Summerland, was banquet speaker and he amused his audience with reminiscences of a "hillbilly" family who came to Summerland in depression days.

Mrs. Vi McCutcheon, Legion Auxiliary president, welcomed banquet guests while Dr. C. G. Woodbridge, Legion first vice-president gave the toast to Our Fallen Comrades, Legion President Ross McLachlan was toastmaster. Thanks to the Hospital Auxiliary for a splendid banquet was tendered by Mrs. W. Milne.

Ben Newton's rendition of In Flanders Field was well done, Miss Ruth Dale accompanying him on the piano.

Mrs. McCutcheon presented Mrs. F. W. Andrew with a bouquet of huge 'mums and pinned a corsage on the Auxiliary honorary president, Mrs. Dale.

The entertainment program was started with a chorus of auxiliary members, in costume. Harry Howis, in a World War 1 uniform, and Mrs. Armour, dressed in a costume from the same period, sang a duet, followed by Mrs. Ken Boothe and Mrs. Vi McCutcheon dressed in airforce and WAAC uniforms, who sang songs popular in World War 11. The four singers later joined forces in a pleasing quartet.

Rev. D. O. Knippel rendered a cornet solo and later joined with John Betuzzi in a cornet duet. Harry Howis came back later in the program for a solo.

Tribute was paid to veterans of the South African war and four local veterans of this conflict were introduced to the audience.

In the male "leg show", Legionnaire Tom Fisher was adjudged by Mrs. A. W. Vanderburgh and Mrs. J. R. Armstrong to have the neatest and shapeliest pair of legs from among a group of eight contesting veterans.

Mr. and Mrs. Keith Sayers were their usual amusing best with song and guitar.

E. E. Bates' monologue on a Rus-

ian "invasion" in 1952 was hilarious and brought spontaneous applause. D. L. Sanborn was master of ceremonies for this part of the program.

The evening concluded with dancing to music supplied by Marcel Bonthoux' orchestra.

Ben Hoy Goes To Coast Post

Mr. Ben Hoy, one of the most prominent officials in agriculture circles in the Okanagan for the past forty years, has been promoted to the position of provincial horticulturist, a post held by the new deputy minister of agriculture, W. H. Robertson.

Mr. Hoy will move to Victoria from his Kelowna home.

In his place as Okanagan supervising horticulturist will step R. P. Murray, district horticulturist in Penticton for the past 30 years.

HOPE VILLAGE IS UP 337 PERCENT

HOPE—The incorporated village of Hope topped all other organized municipalities in the lower mainland in percentage of population increase since the 1941 census, according to the lower mainland regional planning board. Estimated increase is 337 percent.

NEW PENTICTON HOTEL

PENTICTON—Plans for a proposed 50-room hotel which a Vancouver syndicate wishes to erect in Penticton at the corner of Martin and Nanaimo on city-owned property, were placed before city council last week. Final decision awaits a definite bid for the property.

DATES FOR MUNICIPAL MEET

VERNON—Next meeting of the Okanagan Valley Municipal Assn. will be held in Enderby on Thursday, November 30.

URNS DOWN LIBRARY

PRINCETON—By a vote of 49 to 27 the annual school meeting turned down a proposal to join the Okanagan Union Library scheme.

GROWERS TO MEET JANUARY 16 TO 18

VERNON—C. A. Hayden announced last week that the 62nd annual convention of the B.C. Fruit Growers' Assn. will be held in Vernon, January 16, 17 and 18, 1951. The Canadian Legion centre will be the locale.

CURIOS SPECTATORS PAY FINES AT VERNON

VERNON—Spectators at fires who do not keep outside of a 500-foot radius are liable to pay fines of \$7.50 each. At the last fire in Vernon six people were ticketed for parking vehicles within the prescribed radius.

AN UNBEATABLE PAIR

Rocket Engine and Hydra-Matic Drive

A GENERAL MOTORS VALUE

OLDSMOBILE

"76"

First came Hydra-Matic—pioneered by Oldsmobile more than 10 years ago, and acknowledged as the greatest contribution to driving ease in the history of the motor car! Here at last was an engineering achievement that took the work out of driving and put pleasure in its place—a drive that outmoded the clutch pedal entirely, letting you drive without ever shifting a gear.

Then came the revolutionary "Rocket". Soon after Hydra-Matic, Oldsmobile engineers began work on an entirely new engine—one that would be better than any other motor car engine—a power plant especially designed to work with Hydra-Matic Drive, to produce a team that would revolutionize motoring.

And now the team is complete! Together, Hydra-Matic Drive and the "Rocket" engine give you brilliant performance you can't comprehend until you've experienced it! A sense of unbounded power... an ease of driving entirely new... combined with new economy—for the team makes the utmost of every gallon of gasoline. It's a team that puts Oldsmobile years ahead—and puts Oldsmobile owners years ahead. See your Oldsmobile dealer.

"88"

Oldsmobile "88", powered by the "Rocket" Engine features W'bi-laway Hydra-Matic Drive as standard equipment.

The "76", powered by an improved Big Six Engine, offers Hydra-Matic Drive as optional equipment at extra cost.

Bluebirds Drop Three Games To Pentiction

Three Pentiction school hoop squads ushered in the 1950-51 school basketball season at the gym Friday evening by walloping Summerland Bluebirds in all three contests.

Although the Bluebirds have lost their first-string lineup of last season from the senior boys' squad, this year's version turned in a neat performance and played good ball to hold the visitors to a 32-17 verdict.

The junior boys' contest was pretty well a walkaway for the visitors who came out on top of a 38-4 count. The girls' affray was a low-scoring contest, Pentiction having an 18-8 edge when the final whistle sounded.

Slow to Start
The senior boys' game was slow in getting started Pentiction only holding a 9-2 advantage at the halfway mark. Both teams opened up in the second half, with the Bluebirds holding their own in the third quarter, each team scoring ten points. The final quarter saw Pentiction take the initiative again and come out on the long end of a 9 to 5 count.

Ken Brawner led the locals with eight points while Kenyon with 11 was high man for the visitors.

Scoring was divided quite evenly in the girls' contest, while Raham was the only scorer for the Bluebirds in the junior boys' game. Every player on the Pentiction junior boys squad entered in the 38-point total.

Teams lineup as follows:
Pentiction Junior Boys—C. MacDonald 2, Peterson 2, Hansen 2, Montgomery 2, Ishikawa 1, Ehman 4, Rainbow 3, Burgart 4, Getz 4, Tibball 6, Burtch 6, Armstrong 2—38.

Summerland Junior Boys—Carston, Gerhardt, Lauer, Lawley, Klux, Uegama, Pohmann, Arndt, Towgood, Raham 4, Coggan, Lewis—4.

Pentiction Senior Girls: Corbitt 2, Riddel, McKee 4, Leir 4, Tomlin 4, Biagioni, Hyndman, Raptis 2, Constable 2, Bird Phipps—18.

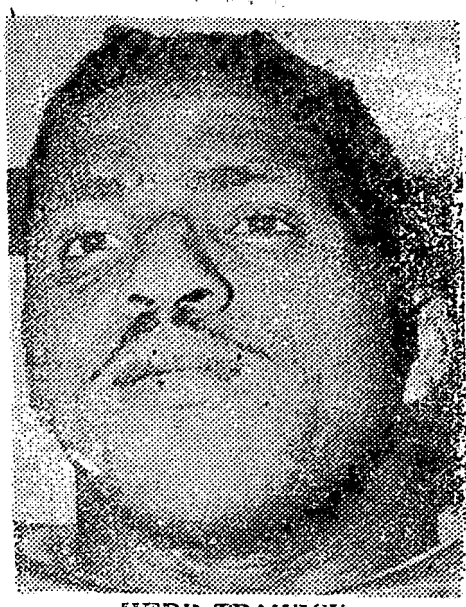

Summerland Senior Girls—Traford 2, Kean 2, Jomori, Wilson 2, Raincock, Menu 2, M. Menu, Lizbiez, Fleming—8.

Pentiction Senior Boys: Kenyon 11, Ball 7, Maisonneuve 2, Boulbee 2, Guilbault 6, Betts, Foley-Bennett, Boulding, Dow 2, Johnston Jeffery 2—32.

Summerland Senior Boys: D. Weitzel 3, Fisher 2, Brawner 8, Munn 2, Nesbitt 2, Glen Youngusband, Scriver, Thompson—17.

Kelowna Packers Top Puck League

Kelowna Packers, after winning four and drawing one game on their invasion of the coast circuit, are escocned on top of the Okanagan-Mainline hockey league, with Nanaimo close behind. Vernon, by defeating Kamloops two straight Saturday and Tuesday moved into third place with Kamloops only a fraction behind. Kerrisdale is at the bottom of the heap, with only two wins.

HERB TRAWICK
HERB TRAWICK, of the Montreal Alouettes was recently awarded the Lord Calvert trophy. The trophy is an annual award which goes to the player the AIs fans consider the most valuable to the team. Choosing Herb was unique in that it was won by a lineman, whose feats are usually overshadowed by the more glittering backfielders.

Referees' School At Pentiction

Local cagers are expressing interest in a referees' school which the provincial recreation department of the department of education is planning to stage at Pentiction this Saturday. A qualified coast arbiter is expected to make his appearance and conduct a school.

Some of the senior hoopsters and interested staff members of the local high school are expected to put in an appearance.

Senior C cagers are waiting word from Keremeos and Vernon in the hope that some exhibition tilts can be arranged in the near future. They expect word by practice time this evening.

BLUEBIRDS PLAY AT WESTBANK TOMORROW

Summerland high school Bluebirds junior boys and senior girls' basketball teams will travel to George Pringle high school at Westbank on Friday evening to inaugurate the central Okanagan school cage league.

Fishing and Hunting Reports (By Bert Berry)

FISHING

Seem to be extreme views on what the troller can expect on the big lake. Had a report from Okanagan Mission that a fisherman got a 20 1/4 pounder last week on 450 feet of line and an F.S.T.

The other extreme is from two of our own fishermen here in Summerland and they report a complete miss in their times out. Take your choice but, unless fish change their ways the big ones are due anytime now.

Whitefish fishermen are out in good numbers now, and report small catches but large fish so far. The main schools will be in anytime now.

Upper lakes are pretty well finished now and most of them frozen so that's just about the end of 1950 fishing season there.

HUNTING

A few mallards are still here on local lakes so you still have time to try as the season closes at 4:55 p.m., November 29.

Big Game

The big news of the week is that "Slim" Pennington brought in a nice elk from the Windermere country. Bert Bryden also got a moose from around Lone Butte and he told me that C. Snow had shot one the same day about 5 miles from him.

"Woody" Gillespie and party of five are up to the Cariboo to try their luck. Also, A. Elsey and Bob Bleasdale left for the Cariboo last Wednesday. Wish them lots of luck.

Talks on Spray Machines in East

Dr. James Marshall, chief of the entomological lab has returned from eastern Canada where he addressed the Ontario Entomological Society at Guelph, Ont., on "Mechanization of Orchard Spraying in B.C." and also attended a federal-provincial fruit insects control unit conference at St. Jean, Quebec. The latter conference was also attended by Dr. J. M. McArthur and C. V. G. Morgan of the local entomological unit.

Your Engine NEEDS Anti-Freeze!

... And it needs it NOW! If you wait, you may have to pay for the repair of a cracked engine block, as well as for anti-freeze. Don't like that idea? Then drive up now!

Princeton Rotary Rinks Win Bonspiel

Two Princeton curling rinks came out on top in the Rotary curling bonspiel staged at Kamloops on Monday, Nov. 6. George Schisler skipped the winning rink in the championship flight while G. Wilson skipped the winning rink in the consolation flight.

Sixteen rinks competed, five being from Kamloops and the balance from Vernon, Salmon Arm, Revelstoke, Princeton, Summerland and Pentiction.

The Summerland rink was skipped by Frank Pollock and consisted of Dr. W. H. B. Munn, Francis Stewart and C. J. Bleasdale. The two latter Rotarians had never competed in a curling match before.

merland trustees have agreed that the cost will be spread over the entire budget.

Says a statement issued by the health unit:

"Treatment will be carried out in a centrally-located dental clinic equipped as any modern dental office. The dentist will also have transportable equipment with which he can operate in the smaller centres of the health unit area.

"All the first-grade and as many preschool as may attend will be examined.

"The dentist will also be known as the dental director in the health unit. His duties will include helping everyone in the health unit area appreciate the possibilities of

**BUILDING BYLAW
UP FOR REVISION**

Summerland's revised building bylaw, which has been nearly ready for some months, finally reached the council table on Tuesday afternoon and received its first reading. Council agreed it should become effective on January 1, 1951.

ELECTION OFFICERS

W. C. W. Fosbery will be returning officer and George Forster deputy when the municipal election voting takes place at the Municipal Office and Lakeside United church basement on Saturday, December 16.

preventing the vast majority of dental diseases, as is shown possible by the latest research.

"This program is suggested as a practical approach to a most serious problem. Though bringing benefit to small numbers at the beginning, it will in time improve the dental health of all children.

"Dental disease which today adversely affects the health of very nearly all our children can be eliminated."

Sweden's New Heir Apparent

PRINCE CARL GUSTAF (above), four-year-old great grandson of King Gustaf V of Sweden, who recently died, becomes the new heir apparent to the Swedish throne. His grandfather Crown Prince Gustaf Adolf, was sworn in as the new King following the death of the former king. The boy's father, eldest son of the Crown Prince, and also named Gustaf Adolf, died in an airplane crash in 1947.

**School Board
Will Discuss
New Salaries**

That the salary committee would meet a similar body from the school teaching staff within a few days was the announcement of School Board Chairman C. J. Bleasdale at Monday's regular session of School District No. 77 (Summerland).

Recently, local teachers submitted a proposal seeking a rise in salary schedule according to agreement reached two years ago following arbitration.

The agreement called for a four percent increase for every five points in the cost of living index up to 165. In September the cost of living index rose to a fraction more than 170.

What settlement will be reached for any increase over the 165 mark will probably be the basis for negotiation between the trustees' committee, consisting of Chairman Bleasdale and Dr. James Marshall, and the teachers' group.

Mr. Bleasdale expressed the thought that local trustees and local teachers could get together and settle their differences within a few minutes, if the teachers were not bound to a valley-wide and provincial-wide agreement on salary negotiation.

School employees Union No. 323, which takes in the local janitors, has served notice on the local board that an increase in salary, due to the rise in cost of living, will be sought as from January 1, 1951.

Trustee Dr. Marshall obtained some figures on salary schedules paid in Ontario elementary schools in communities close to Summerland's size, while he was in the east.

He gave the school board the following figures—Aylmer; male, maximum \$3,300; minimum \$2,500; female, maximum \$2,200; minimum \$1,600.

Merritt: Male \$3,600 to \$2,050; female, \$2,650 to \$1,900.

Picton: Male, \$2,750 to \$2,200; female \$1,850.

**School Pupils Honor
Bride-Elect at Shower**

On Wednesday evening, Nov. 8, the girls of Grade 11 held a delightful shower for one of their former classmates, Miss Ceone Eyre, a bride of last Friday.

The party was at the home of Miss Luella Polesello's parents, Mr. and Mrs. V. Polesello, where the guest of honor was seated in a chair decorated in pink and white and asked to open a lovely basketful of gifts.

Miss Shirley Schumann arranged games as entertainment and prizes were won by Yvonne Polesello, Winnifred Smith, Ellen Brandstrup and Jean Imayoshi.

When dainty refreshments were served Mrs. Polesello assisted as well as Luella, Yvonne and Gerry, and Miss Shirley Schumann.

Besides those mentioned above those present were Misses Ann Semak, Joyce Martin, Bertha Parrott, Eileen Birtles, Betty Green, Doreen Kilback, Myrtle Harbicht, Carrie Daniels, Shirley McAdam, Phyllis Bradford, Phyllis Verrier, Margaret Jomori, Mary Marshall, Jane Woolliams, Melva Stevenson, Barbara Price, Elsie Hack and Hazel Miller.

Groups Occupying Centre

The Youth Centre is now being occupied fairly extensively although more youth organizations could be accepted.

Cubs meet Monday evening, Brownies Tuesday afternoon, Scouts Tuesday evening, Girl Guides Wednesday evening, Brownies Friday afternoon, Girl Guides Friday evening, Teen Town Saturday evening.

There are in prospect another Scout troop and a Ranger Company of Girl Guides, which could easily be accommodated in the Centre, it is stated.

"The association is very proud of the accommodation which has been developed for the youth of our community and looks forward to the time when capital expenditures have been paid for and only operating money has to be realized each year.

"In the meantime, we still need capital and although we do not expect anyone to give beyond his means we do hope that those who can will give generously towards this outstanding community development," directors state.

It is explained that either contributions or loans can be given in this campaign.

Certificates are being prepared for the \$650 loaned last year which do not bear interest. It was found that a bona fide debenture issue would be too costly so certificates in the nature of promissory notes will be despatched.

These certificates would be repaid if the Youth Centre were sold for more than its current debts and ceased to be used for youth activities, it is explained.

F. E. Atkinson is chairman and E. R. Butler treasurer of the Summerland Youth Centre Association. Directors are G. R. Beggs, L. J. Gould, C. B. Hankins, Joe McLachlan, Ross McLachlan, E. F. Smith, Mrs. D. L. Sanborn and Mrs. A. W. Vanderburgh.

ONLY TWO TO ATTEND
MUNICIPAL MEETING

Reeve C. E. Bentley and Municipal Clerk Gordon Smith will probably represent the municipality at the quarterly meeting of the Okanagan Valley Municipal Assn. in Enderby on November 29 but no other council members signified their intention of being present when the subject was introduced at Tuesday's council session.

OVER 1,000 MOOSE

MERRITT—It is reported that 1,230 moose and nearly 400 deer have been checked at Cache Creek by the game commission this season as hunters return from the Cariboo.

**Would Remove Blind
Corners on Road**

At Monday evening's school board session Aubrey King requested that another letter be despatched to L. E. Willis, assistant district engineer of the public works department, Kelowna, asking when the promised work on the Meadow Valley road would be accomplished. Mr. King stated the road foreman had promised to blast two "blind" corners in order that the school car and other vehicles could negotiate the road safely.

**Lack of Heating Pipe
Delays School Work**

Pipe for heating has not arrived yet and is holding up laying of floors and final painting in the new junior-senior high school but the contractors are still confident the classroom unit will be available by the first of the year, C. J. Bleasdale told the local school district board on Monday evening.

U. N. Cumbersome in Of Danger Says Jones; Reports on Parliament

That the United Nations is the best organization yet devised but it is too cumbersome in time of danger, was the thought delivered by O. L. Jones, MP for Yale to a small gathering in the IOOF hall on Monday evening.

Throughout his talk Mr. Jones declared himself not an alarmist but left the thought that the world is faced with a danger which the United Nations may not be able to overcome.

He considered that western Canadians are not as aware of the dangers which cloud the world picture as persons in eastern Canada and he felt the press should make its readers better acquainted with the international situation.

There were only 25 persons to hear Mr. Jones give his report on the happenings on Parliament Hill, and he deprecated this lack of interest on the part of the electorate.

Taking a look at the possible war picture, Mr. Jones considered it a cause for alarm that essential war materials such as aluminum had recently been sent to China where they could easily be used against United Nations forces.

Expenditures Not Cut

He also took a dim view of Finance Minister Abbott's declaration that non-essential expenditures would be cut whereas August and September spending showed totals \$40 millions in excess of the same months in 1949.

Mr. Jones pictured the only solution to world difficulties as emanating from one world government and one common language even if the English speaking nations have to adopt a secondary tongue.

Only by the adoption of a common language can the peoples of the world be made to understand mutual problems, he thought. Under present world conditions, conflict on a major basis may break out tomorrow and the United Nations organization would be too cumbersome to cope with it, Mr. Jones declared.

Communist aggression and its expansion is a danger which must be met, he considered, and can be combatted by meeting the needs of the "have-not" countries. The absence of security among the masses of world and the feeling of the Asiatics that they have been exploited are reasons for the great expansion of Communism.

Canada has a wheat surplus and it must come about that the eastern countries, such as China, Burma and Malaya must obtain that wheat to feed the hungry hordes, he felt.

During the short special session of parliament, members passed the \$400-million increase in defence spending without any knowledge of the true picture and the government would not concede to the repeated request that a secret session on the international situation be held.

"But we sensed that those bills must be passed," Mr. Jones declared, alluding to the defence bill as being the same as insurance on a home.

Dealing with other portions of the special session, Mr. Jones referred briefly to the railway strike and how he and his colleagues had protested against the compulsory portions of the special act which sent the railways back into action.

Endorsation of the sending of troops to Korea was another move on the part of parliament.

Civil Defence Direction

That communities should be given skilled direction in planning of civil defence was another contention made to Ottawa. He urged the councils and boards of trade to agitate for a civil defence program in all B.C. communities so that in the event of an invasion by air or land, or in any eventuality, that some persons would be in a position to take charge and direct.

The budget was the largest peacetime budget in Canadian history but the warning was given that it is probably the lowest for many years to come.

On the other hand, Canada has a very favorable credit trading balance and is in one of the best positions in this respect of any country in the world.

Mr. Jones dealt shortly with the Indian Act which was proposed, received two readings and was then withheld at the request of vehement Indian delegations. He charged that the act does not come anywhere near the act proposed by the commission which deliberated for three years on Indian affairs.

"The government ignored the report and brought in the old, 70-year-old act with only minor changes," he declared.

He pointed out that Indians' old age pension is a maximum of eight.

Japanese Collect Vegetables for Hospital

The Japanese citizens of Summerland last week collected and donated to the Summerland General Hospital a generous gift of potatoes and other vegetables. These were delivered at the hospital and have been stored away for winter consumption.

The monthly board of directors' meeting on Tuesday night expressed keen appreciation of the gift and authorized a letter of thanks be despatched to the Summerland Japanese Canadian Club.

Interest in Elections Is Starting

With nomination day only two weeks away, interest in municipal election circles is beginning to stir. Councillor Norman Holmes, who has completed a one-year term, stated definitely this morning that he would be a candidate for two years on the municipal council.

Councillor F. E. Atkinson did not state definitely but conceded that it is quite likely he will again be a candidate for re-election.

There are no other prospects in sight but there is plenty of time for other candidates to be brought forward.

School Board Chairman C. J. Bleasdale states he will seek re-election "for one more term." He does not think he will remain in public life after that time.

However, Trustee Dr. James Marshall has signified his intention of dropping out of school board circles. It has been suggested that J. Y. Towgood might be persuaded to run in his place.

For the new positions of parks board commissioners, three local men have agreed to stand. They are E. H. Bennett, W. Snow and Harry Brown. The first two men have been prominent in the Summerland Memorial Parks Committee, while Mr. Bennett has also been extremely active in cemetery committee planning.

Whether any more candidates will seek nomination is not certain now.

Maurice Welsh New President

Dr. Maurice Welsh accepted the presidency of the Summerland Badminton Club on Tuesday when a reshuffle of officers was found necessary. Cyril Morgan, whose name had been mentioned for the presidency two months ago, was unable to fill the spot.

Harry Beaman is vice-president and Miss Betty Jackson secretary-treasurer. Other executive members are Miss Evelyn Bowell and Dave Waddell.

An active program of club tournaments and interclub matches is being planned for the winter with the first interclub match scheduled for next Sunday at Kelowna. Next Thursday evening will see the first club tournament and social evening.

Improvement to club facilities, increased court lighting and added furnishings for the lounge, with provision for lighting of fires several hours ahead of scheduled play will be arranged.

Coaching for new players will be arranged for one evening, probably on Wednesday, it was suggested.

PROVINCIAL LIBRARY The Summerland Review

Vol. 5, No. 47

West Summerland, B.C., Thursday, November 23, 1950

GEN. A. G. L. McNAUGHTON, officer commanding the Canadian forces overseas, discerned a new hope for world peace as a result of the determined stand of the United Nations, against aggression, in the fifth War Memorial Address delivered recently at MacDonald College in Montreal. At right is S. G. Dobson, a member of the Board of Governors of McGill.

Local Trade Board Delegates Lead Fight Against Relaxation Of Commercial Signs on Roads

Summerland Board of Trade delegates to the quarterly meeting of the Associated Boards of Trade of the Southern Interior at Osoyoos last Thursday evening took a negative viewpoint on most subjects which occupied discussion and succeeded in blocking any attempt to press the government for a more lenient attitude regarding commercial signs on the highway.

Princeton delegate Sam Langford fought strongly for more tourist accommodation signs but was defeated.

Reeve C. E. Bentley and J. W. Armstrong, local board vice-presidents led the anti-commercial signs attitude of the Summerland group.

It was found that the motion which had been considered at the last trade board session here seeking a complete relaxation of regulations concerning commercial signs had emanated from the B.C. zone council of boards of trade. This resolution was thrown out by the Osoyoos meeting without an affirmative vote.

Then Princeton endeavored to get support for modification of the present regulations to permit the "controlled" erection of signs directing the travelling public to points of service and accommodation.

Summerland contended that it would be more feasible to press for road signs designating creeks, rivers, historical sites, mountains and other geographical points of interest than to clutter the highway with commercial signs.

A list of suggested signs of this nature has been compiled by the regional advisory committee of the department of trade and industry, headed by G. Y. L. Crossley, of Kelowna. These suggestions were given to the Osoyoos meeting.

Reeve C. E. Bentley suggested that a "signboard site" might be feasible outside each community where details of accommodations could be displayed.

Discuss Mutual Problems One of the meeting's features was the adoption of suggestion emanating from a combined associated boards of trade session at the experimental station, Summerland, last summer that committees from the two associated boards groups be formed to confer on mutual problems.

The Okanagan-Mainline associated boards had already appointed such a committee and last Thursday the Southern Interior boards decided to do likewise. The committee will consist of J. Jenkins, Princeton; E. Paulding, Osoyoos; J. L. Falsthorpe, Penticton, and J. R. Armstrong, Summerland.

Early completion of the road from Boundary Falls to Greenwood, and the Southern Trans-

Continued on Page 12

Flat Rate Principle Adopted by Teachers But Not at \$50 Level

Summerland teachers have turned down a school board proposal that they accept a flat \$50 salary increase for every five points rise in the cost-of-living index over 164.9 for the coming year. However, teachers by a small majority, decided to accept a flat rate increase principle for 1951.

The school trustees' salary committee, Chairman C. J. Bleasdale and Trustee Dr. James Marshall, will now consult other members of School District No. 77 (Summerland) trustees' board for further guidance.

Shortage of Nurses May Be Acute

Possibility that the Summerland General Hospital may be faced with a shortage of nursing staff loomed at the monthly meeting of the board of directors on Tuesday.

Secretary J. E. O'Mahony reported that advertisements for nurses at the coast had failed to bring any response but he was still hoping for some replies to advertisements in prairie papers.

There are only four nurses occupying quarters at the nurses' home now while some of the married nurses who have been employed in the past few months to fill an urgent need have given notice that they will not be available for duty in the next few weeks.

Bed occupancy in the hospital has increased lately but in July, August and September the hospital ran about half its usual capacity of patients and consequently lost money in each month's operation, it was stated.

Directors are preparing a budget for 1951, with painting of wards and hallways looming as a major necessity. Renovation of the operating room is to be undertaken this winter while installation of an auxiliary lighting plant for use during power failures was discussed.

Repairs to the roof are also in the "must" class of expenditures. Says Bill Exhorbitant

Directors received a severe shock when informed of an account tendered by an Osoyoos firm for cleaning out septic tanks at the hospital. The contract was for two cents per pound, but J. E. Jenkinson, of the grounds committee had stipulated that the hospital would not pay for liquid removal.

When the bill was submitted it totalled \$415.60 and the time elapsed for the operation was less than one day, directors were informed.

This amount is an exorbitant charge, directors stated, and passed a resolution agreeing to a flat charge of \$100. If the Osoyoos contractor will not agree to this settlement, legal advice will be taken.

No Local Entries in Packing Contest at Kelowna Next Week

There will be no Summerland representatives at the B.C. apple packing competition in Kelowna next Thursday, a review of local packing sheds reveals today.

This competition is being arranged by the Okanagan Federated Shippers Assn. for the second year to acclaim a winner and runner-up who would be sent to the international apple packing competition at Yakima, Wash.

This contest at Yakima is considered not only an international but a world championship, L. R. Stephens, shippers' secretary reports from Kelowna.

Important Agricultural Meetings Being Held at Vancouver This Week

British Columbia Federation of Agriculture is winding up its annual two-day convention in Vancouver today under the chairmanship of President Alex Mercer.

Ivor J. Newman, president of the BOFGA, is vice-president of the provincial agricultural body and C. E. S. Walls, Vancouver, is secretary-manager.

The B.C. Federation of Agriculture represents 20,000 farmers in this province and their representatives heard an interesting and informative talk from R. H. Milliken, K.C., Regina, on the legal aspects of dominion and provincial marketing legislation.

Members of the Women's Institute provincial board of directors, including Mrs. C. C. Strachan of Summerland, are interested spectators at the federation convales. Tomorrow, a second provincial

marketing conference is being called by Hon. Harry Bowman, minister of agriculture. Representatives of the cabinet and their deputies together with directors of the B.C. Federation of Agriculture will have a round-table discussion on the ten main phases of agriculture.

Among those who have been invited to this marketing conference are: Ivor J. Newman, Kelowna; Frank Aish, Abbotsford; T. P. Wilson, Vancoula; W. H. Baum brough, Vernon; H. W. Gorman Chilliwack; J. Royano, Sr., Pomberton; A. W. McLellan, Cloverdale; H. D. Arnold, Duncan; F. M. Rolohel, Chilliwack; Lloyd Hayward, Kamloops; A. K. Loyd, Kelowna; R. C. Lucas, Mission City N. van der Gieson, Kamloops; Erward Clarke, Vernon; Chas. Brubury, Vancouver; M. Poole, Kelowna; Laurie Carr, Vancouver.

The school board is duty bound to increase salaries in 1951 by four percent, according to an agreement which was applicable until the cost of living index rose to the 165 mark. There is no provision in the agreement between the two groups beyond that point.

It is how the salary scale will be adjusted from the 165 mark that is now under advisement. Committees from the teachers and trustees met last week.

Trustees had already informed the teachers that they did not like the teachers' suggestion that the present arrangement be carried on past the 165 mark, which would provide a four percent increase for every five points' rise.

At present, the cost of living index has gone past the 170 mark, so that the teachers' original suggestion, in effect, meant an eight percent rise above the present agreement limit.

Teachers' Statement

To provide local ratepayers with their views on the subject the teachers' salary committee chairman, W. H. Durick, issued a statement to The Review this week:

"At a meeting of the Summerland section of the Okanagan Valley Teachers' Association in September it was decided that the teachers ask the school board to extend the 1950 salary schedule in its present pattern. That is, every teacher's salary would be increased four percent for every five percent increase in the cost-of-living index.

"By this arrangement the teachers' salaries have at present dropped behind the cost-of-living index by over ten percent. However, because of the current economic situation in the valley the teachers did not request any further salary gains.

"A well-attended meeting of the Summerland teachers was held on Friday, November 17 to further discuss salary changes for 1951. At the request of the Summerland school board a secret ballot was taken on two questions.

"The first question was: Are you in favor of accepting a fifty dollar salary increase for every five points rise in the cost-of-living index above 164.9 for this year?"

"After some discussion the teachers voted almost unanimously against this question.

"The second question was: Are you willing to accept the principle of a flat rate increase in salaries for a cost-of-living adjustment for 1951?"

"This question was discussed at great length. Finally, the teachers voted in favor of it by a small majority.

"One of the reasons for the school board's rejection of the teachers' initial request was that it did not raise the minimum salaries sufficiently. The school board's proposal of a fifty dollar flat increase for every five percent rise in the cost-of-living index would not appreciably improve the position of the teachers at the lower end of the schedule.

"However, if the amount of money required to extend the schedule in its present pattern was divided equally among the teachers the lot of those teachers near the minimum would be considerably improved.

"This was one reason why the second proposal made by the school board was accepted as a stop-gap measure for one year.

"In the negotiations there are several points in which the school board and the teachers appear to be in agreement.

"First, neither the school board nor the teachers are satisfied with the present schedule which was more or less imposed on this district as a result of the Penticton arbitration two years ago.

"Secondly, both the school board and the teachers believe in better salaries for teachers who have had only a few years' teaching service. The teachers, however, believe that this situation could be improved by giving a larger yearly increase in salaries as the teacher is on the minimum salary for only one year and that his financial responsibility probably increases gradually.

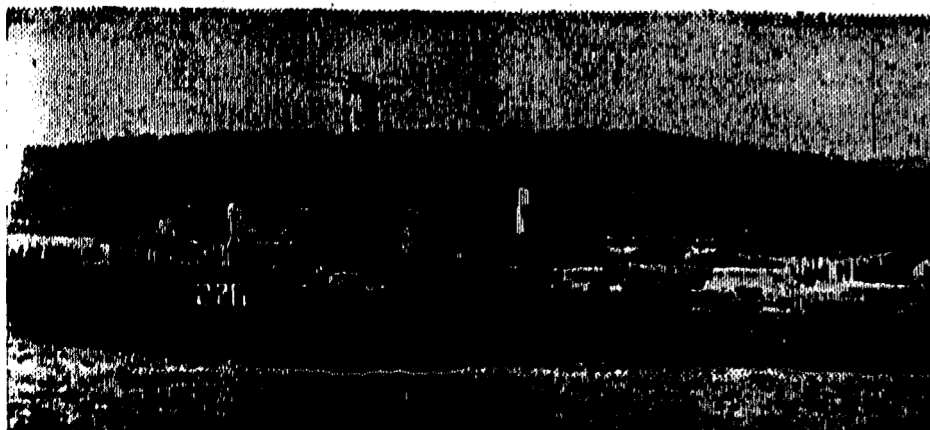

"This adjustment would, of course, mean a new salary schedule. If an active committee of board members and teachers started work immediately it is felt that by mutual agreement a new salary schedule could be negotiated this year, some members thought.

New Members Attend Anglican WA Session

Final arrangements were made for the annual bazaar and tea to be held Saturday, and during refreshments many interesting and useful articles were examined and priced.

The annual budget allotment of pledges and funds was made Monday evening, Nov. 20, when the Evening Branch Anglican WA met in the parish hall.

The meeting was particularly well attended, with Mrs. E. C. Bingham, the president, in the chair. Several new members were present.

ATLANTIC BOUND—HMCS Crescent is shown as she bids farewell to the west coast, steaming out of Esquimalt navy base bound for new duties in the Atlantic Command. She is under Lt. Cmdr. G. H. Itayev.

Those Hospital Insurance Premiums

There seems to be a lot of discussion abroad about the hospital insurance premiums which the public is being asked to pay this month. Some people are being asked to pay more than their usual amount and others do not have to pay as much as formerly.

It is probably confusing to some but a little study will soon clear up the supposed difficulties. In the advertising columns this week the subject is dealt with in a clear-cut fashion.

Down in Victoria, where all the records of the hospital insurance scheme are now on file, they were having trouble in spreading out the work. Every few months they were deluged with work and then in between times there wasn't enough work to keep the employees busy.

So, there had to be something done and the easiest method seemed to be to stagger the load evenly over the full twelve months instead of having

the bulk of payments all made on certain definite times.

We are in the throes of this readjustment, right now and the BCHS calls it cyclical billing. When this billing period is completed, then the payment load will be spread over the entire year. The head of the household who pays the premium will be called upon to pay every three months at regular intervals, but not necessarily at the end of the first three months of the year and so on.

It is the insurance scheme's hope that by so spreading payments over the entire year that a decrease in staff can come about, and thus another saving passed along to the scheme.

So, after this present "cycle" is over, regular payments will be requested every three months and there won't be any deviation in amount unless the legislature decides the entire premium schedule must be raised. But that is another matter which doesn't affect the present question period.

Mr. Jones is Disappointed

O. L. JONES, our member for Yale in the House of Commons at Ottawa was a disappointed man on Monday evening. And he had every right to be disappointed.

Not as a member of the Co-operative Commonwealth Federation, but as the man who was elected to represent all of Yale's populace, he came to Summerland to give an account of his stewardship.

Mr. Jones is a very conscientious man and he takes his position and the task he has been selected for in a very serious light. He wanted to make a progress report on the happenings at Canada's capital. He wanted to tell his story to a large, representative group of those who have a right to vote at

every federal election.

But Mr. Jones was disappointed to find a mere twenty-five persons, mostly of his own CCF faith, who were willing to take the time to hear his report. No wonder our politicians sometimes wonder if anybody cares how they run the country. Certainly, the apathy to politics in this community leaves a great deal to be desired.

There is only one compensation left for Mr. Jones. The voters in this constituency have an opportunity through the columns of this weekly newspaper to read a digest of his report. And if they couldn't be bothered to come out to a meeting, then they can make their enquiries or state their views through The Mail Bag column of this newspaper.

Youth Centre Needs One Final Push

First week of the Youth Centre canvass is now completed and although not many results are available, yet those in charge are confident that a good showing will be made.

Objective of this campaign has been set for \$3,500, just half the figure which last year was estimated would be needed to complete the capital expenditures on the property.

But in these days of rapidly-climbing values it is either a very wise or very lucky man who can estimate exactly the cost of any major repairs or alterations. Such was the case of the Youth Centre officials. They thought they had a reasonably close estimate of their requirements but in the final analysis they failed to realize the amount needed.

It is a difficult year for organizations to seek money for community propositions. Due to the shortage of soft fruit crop and lack of additional workers in the district many businesses report a drastic curtailment in buying, although the situation is improving quickly as the Christmas season ap-

proaches.

Fruit growers will probably receive more for their apple crop but those who are employed by the fruit industry did not have as long a season of employment because of the soft fruit crop lack.

However, Summerland has a splendid Youth Centre in its final stages of completion. It is one of the finest centres any community in the interior can boast. It provides a common meeting place for youth organizations and is also available for adult entertainment when not otherwise occupied.

We have gone a long way towards providing this centre on a sound basis. Just a little more push and the entire scheme can go over the top. It is up to Mr. and Mrs. Summerland Citizen to say if they want it to be a complete success. Their contribution will tell the tale.

But, whatever your views, it is only fair to the canvasser to have your donation ready when he calls. After all, he is only your neighbor who has volunteered to undertake an arduous task, and deserves a lot of consideration.

Signifying Nothing By RUSTICUS

One reader of this column—I've never heard from the other one—takes me to task at intervals for my language, or I suppose what might be called my syntax (yes, they're taxing even that now).

He says that I break innumerable rules of composition, enjoining sentences with prepositions, starting them with "and", dragging them out to far more than the sixteen words which is the theoretical limit of a good sentence. (Or is it sixty?) He says that I am full of tautology, redundancy and prolixity, as well as other things, and that I have even, on some occasions, committed that horror of all English language errors, the split infinitive. Does one "commit" that?

Such accusations bewilder me with the vastness of my ignorance, but do not worry me, probably, as much as they should. Any errors I notice are deleted, and doubtless there are many unnoticed errors, of which I am ashamed; although I have a sneaking sympathy with the editor who boasted that he put errors in his paper deliberately to make people read it more thoroughly in order to find them.

But let me confess right here that there are many small details of grammar and composition about which I really don't give a you-know-what. In fact, I agree humbly but heartily with Winston Churchill's remark that "The hoary old tradition about never ending a sentence with a proposition is one up with which I am thoroughly fed."

That applies to a number of other hoary old traditions; as long as the meaning is clear and no glaring

faults are committed, why spend much time on trivial details which will in no way improve a sentence for the average reader? Indeed, too close an adherence to all the language rules is apt to result in a stilted and repulsive style rather than an attractive, readable one. Though I've submitted my so-called writings to a rather wide variety of editors, of magazines and newspapers in three countries, it has never been minor errors of composition or grammar that have been given as reasons for rejection.

Pedants and professors of English have fairly torn their hair out by fistfuls when I've used "different" instead of "different from", but I can't see that it obscures the meaning in the least. And you can find almost all the minor rules of language, and many of the major ones, broken in the works of well-known writers who are much more successful in and famed for their use of the English language than their critics who emphasize all the rules.

In writing, and in many other things too, it seems to me that there are major rules which should indeed be followed, but also so many minor ones that if a person observed them all, he'd have no time to do anything worth while. The business of a writer is to convey ideas, and clearness is more important than hair-splitting correctness. Likewise the business of an executive is to direct, not to fuss about keeping his desk in apple-pie order, or make his writing copperplate perfect; I've seen more than one big shot who left his desk in a mess and made an illegible

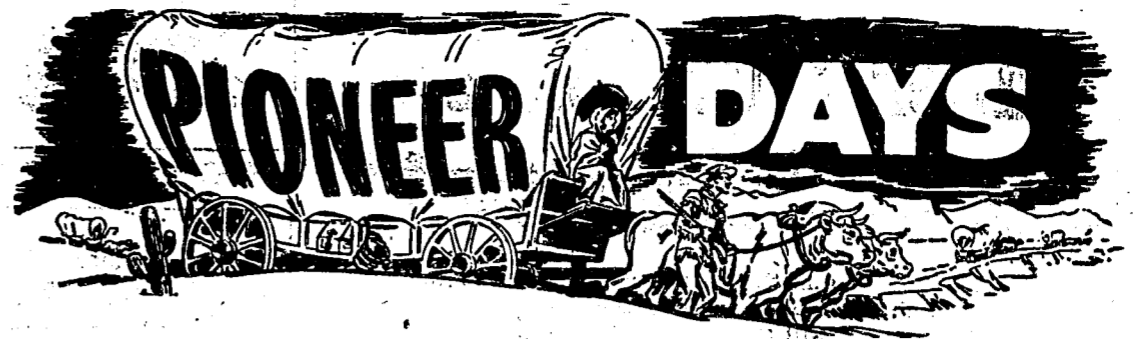

scrawl for a signature because his time was too valuable to spend straightening papers or practising calligraphy.

And the fruit-grower who wants to prune his orchard with the most efficiency and the least waste of time doesn't usually go over every spur and twig; he cuts out the medium and big stuff and lets most of the little fellows go.

If we bother too much with the small details, there is always the danger that the important things escape us altogether; like the income tax chaps who worry themselves sick about a shortage of six cents in your 1947 return, but say nothing to your neighbour who has hoodwinked them for years. It is better to grow apples than to polish them.

SEND XMAS PARCEL TO LOCAL NAVY LAD

A Christmas parcel to be sent to a Summerland boy, Eddie Fleming, whose ship the Athabaskan, is in Korean waters was arranged at the November meeting of the Women's Auxiliary to the Canadian Legion. It was held on Thursday, Nov. 9, and attended by 22 members.

THIRTY YEARS AGO

November 26, 1920
Government candidate J. A. McKelvie won the federal election contest in Yale by 381 votes, defeating Col. C. E. Edgett. Summerland voted 150 for McKelvie and 129 for Edgett. West Summerland gave McKelvie 160 votes and Edgett 167.

Mrs. Adella Kennedy won a case which was brought by the B.C. Teachers' Agency Ltd. for commission on her salary. The Vancouver court threw out the case on the grounds that no contract had been made between the agency and the Summerland school teacher.

Buildings and sites of schools on the Hospital Hill, Prairie Valley and Garnet Valley have been disposed of by the school board.

Methods of storage were investigated by E. R. Simpson and Jack Lawler, of the Summerland Fruit Union, when they visited plants in Washington State.

The proposed new road in Prairie Valley to connect the Higgin road with the main road has now been finalized. Council will pay \$200 for the roadside and provide wire for fencing one side. Ploughing, scraping and grading and

provision of fenceposts, also erection of the fence will be undertaken by property owners.

Plans showing the proposed spur from the KVR station to the Summerland Lumber Co. lot have been submitted to Council.

Mr. and Mrs. C. J. Duncan have returned to Summerland after spending the summer at Yakima.

Among those who competed in the silver medal contest conducted by the WCTU were Willie Thornber, Campbell McAlpine, Harry Wilson, Donovan Simpson and Clifford Laycox.

TWENTY-FIVE YEARS AGO

November 27, 1925
Summerland will have a community band if sufficient interest is shown to warrant organization.

A five-box exhibit of Spy apples from Major E. E. Hutton's orchard was the centre of attraction in the Associated Growers display at the Royal Winter Fair in Toronto.

Despite two blowouts and a stop for breakfast T. L. Secord made the trip from Spokane to Summerland in one day.

Formation of a Summerland Community Social Club is proposed with whist, bridge, 500 and danc-

ing being the winter's program.

Because he liked the frame, S. Gibson of Penticton bought a picture from a second-hand store. He found the name "Whistler" on the back and a date 1884. If proved to be a genuine Whistler painting it will be worth at least \$1,500.

Another bad slide occurred on the lakeshore highway above Crescent Beach, falling over the new road which had been built over the bad slide of the week before.

The Chautauqua is being enjoyed here and the local committee consists of: H. C. Mellor, W. Beattie, W. White, E. Saunders, Mrs. A. Milne, W. R. Powell, J. H. Blacklock, W. Ritchie, C. B. McCallum, J. R. Campbell, O. Atkins, A. Milne, T. J. McAlpine, W. H. Hayes, K. S. Hogg, T. G. Beavis, Ralph White, J. Rowley, D. M. Rowley, G. F. Brock, H. Stark, R. C. Lipssett, E. F. Sanborn, R. H. English, J. R. Graham, L. V. J. Feltham, T. J. Nolan, P. S. Roe, L. McLaughlin, A. M. Lestre, W. R. McLarty, W. R. Verrier, R. Pollock and J. L. Logie.

C. B. McCallum has taken over the home of Mr. and Mrs. R. H. English and has fitted it up as a hotel.

Weekly Newspaper Men See Canadian Troops Sail for East

Les Way and Dean Miller, of L. C. Way and Associates, representatives in Vancouver of the B.C. weekly newspapers who form the B.C. Weekly Newspapers Advertising Bureau, were recently privileged to join a Canadian newspaper delegation to witness the embarkation of Canadian troops from a United States northwest port for the Far East.

Following is an account of the departure as provided by these two weekly newspaper men:

As the palatial 14,000-ton troop transport slid away from the dock carrying several hundred Canadian soldiers to the Far East, the other day there was laughter and song and the spirit of adventure. The military band played stirring numbers. There were the usual good-byes and the thousand-odd Canadian and American troops, wearing the UN badge, waved their arms in a last farewell as the ship nosed out into the Pacific for "Destination Unknown".

A soldier's young wife, with a youngster clinging to her skirt, wiped the tears from her eyes and said to the lad: "We better go home now... daddy's gone." Her curly-headed son looked up and, with childhood hopefulness, asked: "But daddy's coming home for Christmas, ain't he mommy?"

There was a lump in our throat as the soldier's wife walked straight ahead, back to an empty home, with her little boy waiting for an answer she couldn't give him. Home for Christmas? Which Christmas? It was better not to break his little heart so far in advance.

This final scene at the recent embarkation from a Pacific Northwest port brought the Korean war home to this reporter more than anything else.

Representing the B.C. weekly press, we spent two days with a group of Canadian newspaper and radio men at Fort Lewis, Washington, where soldiers of the Canadian Special Brigade, spent several weeks preparing for "the big day" of departure for the Far Eastern theatre.

We were flown from Vancouver to the sprawling, 100,000-acre Fort Lewis "staging" camp in a four-engine RCAF North Star. There we learned of the joint U.S.-Canadian training operation which is making military history.

We toured the long, grey huts occupied by our Canadian boys and found them resting on their cots, playing penny-ante or clustered together in groups, packed and ready for their early morning trip to the secret point of embarkation.

The atmosphere was one of jovial camaraderie among the young "first-timers". They talked of "seeing the world" in the spirit of adventure which has been a part of wars since the first day of man's inhumanity to man. But among the men who served in the last big show there was less of the adventurous air, more of the sobering atmosphere that seems to say, "We've a job to do; let's get cracking and get it over with."

This was the first embarkation of Canadian troops from a United States West Coast port. They made up the advance group of the Canadian Army Special Force, organized as a brigade for UN service.

Units represented included the famous Princess Pats, RCASC, Signal Corps, RCOC, RCAMC, RCME, the Engineers, Provost Corps, Postal Corps and other administrative units. Their primary job is to establish a training camp at an ov-

erseas base for early arrival of more troops.

Acting for the B.C. rural press, we naturally searched out chaps from the small towns of our province. These included Gunner Alvin Rankin of Kelowna; Alfred Poupart of Fernie; Bud Coons of Dawson Creek; Driver Bill Harkness of the RCASC, formerly of Trail; Sgt. Phillip Lomas, Chemainus; Cpl. Frank Arkell of the Princess Pats and his brother, Sapper Sid Arkell, of the RCEME, from Errington, near Parksville on Vancouver Island.

They asked us to say hello to the folks back home through their local papers; said the reception they had received from the Americans at the big Fort Lewis camp was all that could be desired except, perhaps, in regard to the food. As Bill Harkness put it: "American rations are quite different from the Canadian. They don't go in for the solid foods we got in Canadian camps... too much lettuce and other greens. Fort Lewis is a great camp, but the food would be better for rabbits, or vegetarians like old George Bernard Shaw."

Gunner Rankin of Kelowna and

Alf Poupart of Fernie were all smiles as they took their assigned bunks three decks below on the big transport and settled down for the long trans-Pacific voyage.

Our press party also visited nearby McChord Field where Canada's famed RCAF Thunderbird Squadron is based for its participation in the United Nations airlift to Tokyo. Here we talked with air and ground crews of RCAF North Star transport aircraft who have earned a place of respect amongst their U.S. Air Force colleagues.

Although the American DC-8 aircraft are the same as Canada's North Star planes except for their motors, the RCAF in-line Merlin engines develop more power and speed than the radial engines of the U.S. planes.

A fascinating sidelight was revealed when the press party was told that for weeks at a time the northern bases are completely "souped-in" with literally a ceiling of "zero". However, with Ground Control Approach—an adaption of radio and radar used in the Berlin airlift—pilots are able to bring their sky-giants down to the tarmac solely by means of instruments.

This airlift has transported thousands of American troops to the Korean war theatre along with thousands of tons of vital explosives and other army material. There has been no serious accident in three months intensive operations.

Singers & Players Club

The restoration of Ellison hall to all-year-round usefulness by making its heating arrangements comply with fire precaution regulations may once again become a live issue and this is a possibility in which the Singer and Players, at present homeless, should be vitally interested.

This does not mean "No Ellison hall—no Singers and Players". There are other homes available and logically, if one good hall will accommodate all the requirements of the various groups in Summerland, then one good hall it should be. But there are evidently other groups who would find it to their advantage to contribute revenue in the way of rent to a renovated Ellison hall and, this being so, Singers and Players could also contribute in a similar manner to their own advantage.

Notwithstanding the excellencies of the new auditorium in which to present a production and in spite of the fact that we have no reason to believe that we shall not be able to continue our Tuesday night rehearsals at the school, there will be no place in which to build, prepare and store scenery, stage effects and apparatus. Such a workshop necessarily means a place in which work in progress may be

left around and worked upon in comfort.

In the immediate past, at the cost only of discomfort to a few enthusiasts, Ellison hall has, in the main, provided such a workshop. This year the prospects of working in a windowless and quite heatless Ellison hall will appeal only to fanatics. In the immediate future no other place appears to offer the necessary working space except a renovated Ellison hall.

If, therefore, Ellison hall could be, at the minimum outlay, put into use quickly, regular revenues could be established practically at once and Singers and Players could thereby make their own contribution to prevent this fine old hall from being left to decay.

Incidentally, the reason why the Singers and Players, one of the oldest organizations in Summerland, finds itself in its present homeless position is an interesting one. It has consistently been the policy to keep out of realized profits (to which the members own fees have also contributed) only sufficient money to cover the preliminary expenses of the next season's productions. All the rest of the money has been distributed between various worthwhile causes such as Manitoba Flood fund, Youth Centre, oxygen tent, UBC scholarship fund, cancer control, Red Cross, and numerous others.

Mr. and Mrs. D. Fisher and family of Beaverdell have come to Summerland to make their home and are living in Prairie Valley.

GUIDE NEWS

1st Company
Owing to the fact that the Youth Centre was in use Wednesday and the Guiders had a meeting in Penticton on Friday, the 1st company met with the 2nd company on Thursday last week. The company welcomed new recruit, Alma Lekei, who became a member of the Buttercup patrol. Also welcomed was Mrs. R. White who it is hoped will become the new lieutenant. Several first class tests were passed and a game played on the entire tenderfoot test.

At campfire Carol Anne Cornish and Patsy Menu received their second class badges.

Four Guides took the test for their laundress badge with Mrs. John Caldwell on Monday afternoon. More Guides will take the test next week. Other badges to be passed in the near future will be cyclist, needlewoman, citizen and hostess.

At the monthly Court of Honor last Wednesday it was decided to hold Parents' Night, Dec. 6. This will be conducted partly as a social evening. Those Guides trying for their hostess badge will make all arrangements and conduct the evening's activities, and be tested for the badge that evening. Parents are asked to attend this evening if at all possible. In this way it may be seen what the girls are doing at Guides and a pleasant social evening had as well.

Coming early in December is a whist party for the public. This is to raise funds for the company and also to send a Christmas parcel to an English Guide company.

If any Guides have ordered laundries, POR's, etc., will you please bring your money Friday as the order will not be sent until all the money is in.

Patrol—standings at present are, Hepaticas, 146; Forget-me-nots, 144; Buttercups, 144; Pimpernels, 139.

2nd Company
At last Thursday's meeting two tracking games were played. In the first of these each Guide had to form all the tracking signs with sticks, and then each patrol took part in a relay. A stalking game "The Captive Princess" was played, also, with each patrol taking part. A review in semaphore with Guides receiving and sending messages showed that some practise should be done. This review will be carried on at the next meeting. The following meeting will concentrate on First Aid.

Plans for the Christmas tea were made and a program arranged.

Patrol leaders handed in their "interviews" for the radio broadcast and the most suitable one will be chosen from these.

The 1st company joined us for campfire and tenderfoots, Pearl Wakefield, Marie Pollard and Isabel Fisher, were enrolled as Guides by Capt. McIntosh of the 1st company.

Carol Krause was presented with her second class badge.

Patrol points are Bluebirds, 24; Canaries, 20; Swallows, 13; Robins, 12. Next meeting, Youth Centre, Friday, Nov. 24, 7 p.m. Uniforms

Looking ahead to a future free of the handicap and pain of crippling disease are hundreds of children like these two, Lawrence, 12 and Matilda, 8, patients at Children's hospital. These youngsters, both from the Okanagan, symbol for

the fourth annual Vancouver Sun March of Dimes campaign, will look out at you from billboards, posters, counter collection tins, reminding you that along with hundreds of other British Columbia sick and crippled children, they are counting on your help.

High School COMMENTS

A school debating team of four senior students is being organized. This team plans to enter the Central Zone championships, which are to take place before December 8. The final championship award is the Leonard Wade trophy. Each team is made up of two students for the affirmative and two for the negative. Summerland will meet George Pringle students first. The two negative members will travel to Westbank to meet the George Pringle affirmative members. The two affirmative members remain in Summerland and the opposition from George Pringle travels here. If either school is unable to enter the competition, the other receives a bye in the first round. Second round debates between the winners of the initial draws will soon follow. The Central Zone draw is Summerland vs George Pringle and Kelowna vs Rutland. The topic for the first and second rounds is: "Resolved that Social Service and Municipal Aid Tax is a desirable method of raising funds for government expenses."

A glee club has been started under the instruction of the junior high music teacher, Mr. Brown. So far practices are held at noon. Mary Marshall and Shirley Schumann accompany the singing with piano and violin. All girls are cordially invited to join.

Teen Town

The Sadie Hawkins dance proved to be very successful. I wonder how Lil' Abner and Daisy May are coming along on their honeymoon. Does anyone know where they went?

The girls sure showed the boys what they could do and how to give them a good time. How about some of you boys coming to Teen Town more often. It's really a lot of fun. I think everyone really enjoyed the square dancing but how those old-timers can keep it up all night is beyond me.

There is going to be a dance this Saturday night. There will be square dancing and the ping pong tables will be set up for other entertainment. We hope to see everyone there as there may not be another dance until the parent social on Dec. 9. Incidentally kids, don't forget to get your parents out for a good time.

Don't forget the tickets for the raffle on the Teen Town sweaters are on sale so if you haven't got one be sure to get one before Dec. 9.

There will be a Summerland Teen Town column written in the

RETURNING OFFICER

Mary Ward One of UBC Girls to Move To New Residences

Mary Ward, Summerland scholarship winner, is one of one hundred girls living in temporary quarters at UBC's youth training camp who will be moving in December to the new ultra-modern residences nearing completion high above the waters of Burrard Inlet, a UBC press release announces.

Fifty girls from outside the Vancouver area will occupy the first unit by December 1 and the second unit should be ready for occupancy in January.

The last word in modern architecture, these residences are a radical departure from the gloomy dormitories that have become traditional with older universities.

Double and single rooms feature built-in furniture and closets finished in bleached hardwood veneer. Color schemes are many and

varied; each room is painted in a different shade of pastel and floor tiles are in matching colors.

One of the new residences will be named after Miss Mary Bollert, first dean of women at UBC. The other two are named in honor of Mrs. Anne Wesbrook, wife of the first university president and Dr. Isobel MacInnes, recently retired from the German department and the first woman to be appointed to the UBC faculty.

Constructed under a grant of \$650,000 from the B.C. government the three, two-storey reinforced concrete residences are but a part of a more complete plan which specifies four residences and a central lounge and recreation centre.

Almost \$7,000 have been received in donations to assist in furnishings which could not be covered by the government grant.

Francis Stuart and Joe McLachlan left last Sunday for a hunting trip to the Cariboo.

After flying the equivalent of 52 times around the globe, a "million miles" stewardess recently returned to earth. With close to eight years service to her credit, Dorothy Gilmore, 31, who has flown longer and further than any other of T.C.A.'s stewardesses, retired with a healthy total of 6,487 hours and 1,297,400 miles flown. She will be married soon to a Montreal project engineer.

Christmas Tree is Centrepiece for Service Club Bazaar

The fifteen tea tables set up in St. Andrew's hall were filled several times on Saturday afternoon, Nov. 18, when the Service Club held its annual pre-Christmas bazaar.

Welcoming the guests at the door was the president of the club, Mrs. A. J. McKenzie, and quite a Christmas atmosphere was established in the room where Miss Mary Marshall softly played Christmas carols on the piano, and a decorated Christmas tree centred the larger table on the platform.

The bazaar was convened by Mrs. G. Brown, Mrs. F. Doumont and Mrs. C. Denike and was a great success.

All sorts of pretty useful aprons were for sale under Mrs. W. B. Powell, Mrs. R. Oxley and Mrs. K. Boothe. A continuation of this stall was taken up with fancy-work in charge of Mrs. G. Washington, Mrs. H. A. McCargar and Mrs. Hilda Allison.

There were lovely knitted garments, with mittens, and socks, in pleasing color combinations that looked very inviting to those who came in from the cold wind blowing outside. Mrs. F. Young and Mrs. H. Short were responsible for this booth.

Novelties that were a great attraction to grown-ups and children alike were convened by Mrs. A. Scott, Mrs. W. Durick and Mrs. D. Wilson. Toy horses were arranged on a carousel that actually turned and made an original way of displaying them.

Mrs. C. Campbell saw that the fishing lines always had a strike, and the girls and boys enjoyed their catch.

At the well-stocked home-cooking stall were Mrs. W. F. Ward, Mrs. James Marshall and Mrs. J. Holman.

A large kitchen staff of members of the club made tea and saw that it was served with despatch.

Six Boys Gather for Keith's Birthday

Six little boys, Douglas Rumball, Bruce Rennie, Kenneth Butler, Angus Whitmore, Kenneth Hecker, and John Underwood rode the school bus to the home of Keith Skinner this week to attend his eighth birthday party.

John Underwood won the first of three games played when he produced the best picture depicting the story just told the party.

The second game found fourteen little bottles, mostly from "mother's pantry", arrayed in front of the party. The best "little cook" turned out to be Kenneth Hecker, who guessed thirteen bottles correctly.

Third game was hide the thimble. As each boy discovered a thimble he sat down, Douglas Rumball being the last one.

The lads then gathered around a prettily-decorated table, centered with a decorated box from which colored string with numbers attached was extended. Each boy was given a piece of cardboard which, when held over a lighted candle, produced a number corresponding to the number at the ends of the strings.

The lights were turned down, candles lit and "Happy Birthday" was sung to Keith Skinner.

Each boy found a "fortune" in the cake and Keith's brother Donald discovered the "lucky nickel". As each boy pulled the string in front of him he found a gift to take home.

Assisting Mrs. Skinner was Mrs. H. Rennie and Mrs. Blair Underwood.

Young Couple are United at Manse

Mr. James Ratcliffe Thompson, elder son of Mr. and Mrs. Percy H. Thompson, Peach Valley, and Miss Denise Marie Fournier, daughter of Mr. and Mrs. Serge Fournier of Bapaume, Sask., were quietly married, Saturday morning, Nov. 18, at eleven o'clock at the United church manse. Rev. H. R. Whitmore performed the ceremony.

For her wedding the bride wore a lovely wine suit with black accessories.

She was attended by Mrs. Theresa Martin, of Summerland. The groomsmen were Mr. Wilfred McAdam.

The young couple went for a short honeymoon in Washington, and are making their home at West Summerland.

Marriage in England Of Great Interest To Local Residents

Mrs. Algernon Phillips, the former Miss Monica Molesworth, arrived in Vancouver recently from England, where her marriage to Group Captain Phillips of Plymouth, retired Naval Air Service, took place on Nov. 1. She will be joined by her husband shortly, and is at present a guest of Miss A. M. J. Walker.

The groom is the brother of Sir Tom Phillips, who was lost off the Burma coast when the Prince of Wales warship went down during the war. Sir Tom was referred to by Winston Churchill as "the brains of the navy".

The bride, who spent many years in Summerland with her uncle, the late Major E. E. Hutton, has been making her home in Vancouver, and left on Aug. 31 for England.

Major Hutton's former home, known as Breton Hill, is owned now by Mr. D. M. Wright.

GREEN'S DRUG STORE

Phone 4706 Granville St.

VISITING HERE—

Mr. and Mrs. Floyd Simpson and their children drove in from Vancouver last Friday to visit Mrs. Simpson's parents, Mr. and Mrs. T. J. Garnett over the weekend.

Guests at the home of Mr. and Mrs. Dave Taylor, Garnet Valley, for about ten days are Mrs. Taylor's sister, Mrs. M. Beattie of Vancouver, and Miss Hannah Forsyth of Merritt, B.C.

Mrs. Lloyd Mino and her two children of Norwich, Ont., are spending the winter months at the home of Mrs. Minto's parents, Mr. and Mrs. C. W. James, while Rev. Lloyd Mino is taking further study at Seattle Pacific College.

Mr. and Mrs. George Slater of Kamloops, accompanied by Mr. Battersby, were visitors at the home of Mr. and Mrs. J. Slater, Giant's Head Road, at the weekend. Mr. Slater is chairman of the Kamloops school board and during his stay went to look over the new high school. Although unable to see the interior of the school he remarked that the people of Summerland should be very proud of such a fine school.

VISITING ABROAD

Mr. Keith McLean was a visitor to Vancouver early this week.

Mr. and Mrs. K. M. Steuart spent last week in Vancouver enjoying a short holiday.

Mr. Tom Charity was a passenger to the coast on Monday evening's train.

Mr. and Mrs. Art Gronlund and daughter Ruth, are visitors at the coast this week.

Among recent guests at The Guild of All Arts, Scarborough, Ont. were Mr. and Mrs. Blake Milne.

Mr. George Perry was among those going to the coast this week having left on Monday evening's train.

HOME AGAIN

Miss Betty Jackson has returned from California where she recently spent a vacation.

Advice on 'Mums Given by Speakers to Horticultural Society

The horticultural society seems to give as much pleasure, interest, and profit to its members as almost any organization in town. Perhaps this is because it combines beauty, theory and practice.

About fifty were present at the regular meeting, Friday evening, Nov. 1, in the parish hall.

Dr. D. V. Fisher traced the long history, development, and culture of 'mums, in his address, saying that the flower originated from the shasta daisy and pyrethrum. In 1827 it was imported to Holland from the Orient when breeding was started. The chrysanthemum is one of the most popular flowers and does well here.

Dr. Fisher advocated a light soil for the plant which should be divided to one shoot in the spring to pay the best dividends and should be well fertilized.

The speaker added extra interest by displaying blooms of named varieties from his own garden.

Mr. Nat May showed some fine greenhouse 'mums, as well, to show what can be done to improve the size of blooms by debudding.

A delightful film, "Four Seasons", gave a colorful pageant of the months in Gatineau Park in the Laurentian foothills.

It was decided to send letters to two old friends of the society, Mr. Ben Hoy and Mr. R. P. Murray, to congratulate them on their new appointments.

Miss Doreen Tait, president, was in the chair, and refreshments were served by Miss Nellie Holder and Miss Mott.

First Birthdays Are Celebrated

A double first birthday party was celebrated on Monday afternoon, Nov. 20, by two small people who last year occupied the hospital nursery at the same time.

The two one-year-olds were Bobbie Dunsdon, son of Mr. and Mrs. Ted Dunsdon and Janice Beggs, daughter of Mr. and Mrs. Gordon Beggs, and the party was at the home of the former young man in Victoria Gardens.

A birthday cake with one candle served a dual purpose, and the brothers and sisters of both children were present. They are Dick, Betty Ann and Louise Dunsdon, and Ann, Joan, Audrey, "Butch", and "Joe", Beggs who enjoyed the party, too. Mrs. Gordon Beggs, Mrs. B. T. Washington and Mrs. George Forster, Bobbie's aunt, were other guests.

Mrs. Irvine Adams Picks Money Out of Air

Call it luck if you like. Mrs. Irvine Adams has been picking money out of the air!

Answering her telephone on Monday afternoon this week, a voice asked, "Who wrote Lassie Come Home?" She answered, "Eric Knight", thinking one of the neighbors was in a literary mood.

To her astonishment the voice replied, "You have just won twenty-five dollars, Mrs. Adams!"

It was a give-away radio quiz program, and Mrs. Adams didn't even have her radio turned on! She was the recent recipient of a \$2,500 cheque as winner for Canada of a Lux contest.

Rebekah District Association Holds Semi-Annual Meeting

On November 9, the semi-annual meeting of Okanagan Rebekah District Association No. 1 met at Enderby, with delegates present from Princeton, Penticton, Oliver, Summerland, Kelowna, Vernon, Armstrong and Enderby.

There were also visitors from Revelstoke, New Westminster and Kamloops, including as a very special guest, Mrs. Blanche Anderson, of Kamloops, president of the Rebekah Assembly for B.C.

The Enderby Rebekah lodge acted as hostess for the meeting and was in charge of the opening ceremonies, after which the meeting was in charge of district officers. Each lodge took part in the program.

The mayor of Enderby, Mr. Johnson, paid an official visit, which was much appreciated.

As it was close to Remembrance Day, delegates of the Oddfellows' district association joined the Rebekahs in a parade to the Enderby cenotaph, where a wreath was laid in commemoration of the fallen soldiers. They then adjourned to the Oddfellows' hall where tea was served by Enderby Rebekah lodge.

Reports on the activities of the various lodges for the past six months were of great interest to the delegates. An impressive ceremony was carried out when the charter was draped in honor of one of the sisters who had recently passed away, Sister Robey, of Vernon. Sick members were also remembered.

When assembly officers and district officers were introduced to the meeting, each was presented with a beautiful corsage. During the afternoon, a delegation of Rebekahs paid a fraternal visit to the Oddfellows and each of this committee was also presented with a corsage. A similar delegation of Oddfellows paid a fraternal visit to the Rebekahs at which time they were presented with boutonnières.

After the meeting was over, Rebekahs and Oddfellows were served a very tasty banquet by the Women's Association of the United Church in Enderby. A short entertainment and dance completed the evening's program under the capable direction of Mr. J. Johnson, of Enderby.

Canon F. V. Harrison Opens WA Bazaar

The tea and bazaar of the Women's Auxiliary of St. Stephen's church was officially opened last Thursday afternoon, Nov. 16, by Canon F. V. Harrison. Mrs. Harrison, president of the society this year greeted the guests at the door.

Chrysanthemums brightened the tables where tea was served in a friendly atmosphere and in the spirit of a little more leisure that comes with autumn.

The various stalls were well stocked and their contents were the solution to many a Christmas gift problem.

Selling aprons were Mrs. Charles Clarke and Mrs. Nicholson, Sr. Mrs. Milton and Mrs. Wm. Beattie were behind the needlework and knitting counter, with Mrs. O. Eaton, Mrs. W. Calder and Mrs. Blanchette saleswomen for home cooking.

Mrs. Gladys Chadburn sold Christmas cards and Miss Marian Cartwright, assisted by Mrs. Wm. Armstrong had her usual collection of interesting second-hand articles and flowers.

A quartet consisting of Mrs. J. Mellor, Mrs. Wade, Mrs. Barr and Mrs. E. Hack were busy in the kitchen and serving tea.

The afternoon was successful financially and well attended.

F. R. (Tiny) Ganzeveld is reported as progressing favorably as a patient in the Vancouver General hospital.

HOME AGAIN

A baby son was born at the Summerland General hospital on Thursday, Nov. 16, to Mr. and Mrs. Harold Smith.

A son was born at the Vancouver General hospital, Vancouver, on Wednesday, Nov. 22, to Mr. and Mrs. J. C. Darke.

FATHER DIES IN ALBERTA

Mrs. F. J. Manning and her brother, Mr. Wesley Davis, left last Friday for Three Hills, Alberta, where they were called because of the death of their father, Mr. G. Davis.

Co-operation is Promised by Cemetery Group

Looking forward to the time when a parks board will be operating in Summerland and will need assistance, the cemetery committee meeting in St. Andrew's church hall last week expressed its willingness to assist with work parties on all large improvements to the cemetery undertaken by the new board.

The cemetery committee also expressed its willingness to assist in the planning of future work at Peach Orchard cemetery and would like to be consulted on matters of policy concerning such a planned program of development.

Other suggestions which are going forward to the municipal council to be passed on to the new parks board include the following:

1. Water service to the cemetery from the municipal pipe system on Peach Orchard road. This need not be a winter service and can be dug in a shallow trench and drained each fall. It should be one-inch pipe and would only be used under supervision of the parks board employees for landscaping work or filling of containers by cemetery visitors. It would not be installed for the purpose of private planting of flowers and shrubs.
2. Lifting of all pipe at present buried in the cemetery, cleaning this of sand and storing away for future distribution of water throughout the cemetery from the municipal connection.
3. As soon as possible, considering money and labor available, the parks board should plan and commence some landscaping along the roads, or other suitable places.
4. Sections of curbing along the roads to be laid each year with the assistance of work parties from the cemetery committee.
5. All paths and roadways in the upper section to be sprayed with sodium arsenate (or suitable material) to sterilize the soil and prevent plant growth. This work to be done this fall if at all possible.

Summerland Services

Consult this Business and Professional Directory for Your Wants

6. The above treatment to be used on a section of the burial plots to sterilize the ground between finished graves.

7. All sterilized ground, either paths or plots, to be surfaced with a mixture of sand and fine gravel, to facilitate maintaining a tidy and uniform appearance.

8. If above treatment proves suitable, all of the cemetery to be so treated as soon as possible.

9. It is desirable to see that workmen or others do their work in as tidy a manner as possible and that they must clean up all planks, unused concrete or gravel as soon as their job is completed, and leave the surrounding ground in a tidy manner.

10. We suggest that a suitable dumping place be provided for gravel or other material needed by workmen.

11. We suggest that a study be made of the possibility of regulating all future finishing of graves to conform to a standard size, which should be the edge of the paths.

12. All paths which are to be eliminated, to be treated and cared for as paths until used as graves.

13. The committee feels that the revenue derived from the sale of plots should be placed in a special parks board account, which, in their opinion, could be augmented

by special contributions from persons interested in the improvements to the cemetery and should be used by the parks board, in addition to the regular allotment from parks board funds, for cemetery improvement.

Start Youngster's Financial Career With One Dollar

EARLY YEARS ARE BEST IN FORMING STEADY SAVINGS HABIT

To your youngster a dollar means more now than it will in later life. If he can retain this youthful respect for money as he matures, he will be likely to form lifelong habits of wise spending and regular saving. As countless "success-stories" show, these habits are of vital assistance in career-building and happy living.

You can impress these important traits on your child's mind by using a simple method. Thousands of Canadian parents have employed it successfully. You just give your youngster a dollar to start a Bank of Montreal savings account. You encourage him to save from his pocket money for some of the things he wants. Thus, you help him to help himself, and he achieves patience and purposefulness.

Why not send him around to the B of M to open his account tomorrow? Ivor Holly, local branch manager, and his staff will be glad to assist your youngsters to start his own "success-story"—Adv.

Brief Presented to Cabinet Shows Five Million Dollar Crop Loss Besides Trees Killed

Last week, Ivor J. Newman, president of the B.C. Fruit Growers' Assn. headed a delegation to Victoria to present a lengthy brief to the provincial cabinet on the "emergency" which exists amongst orchardists who have suffered heavy losses of fruit trees due to last winter's severe temperatures.

"In view of the acknowledged emergency, which grows more acute with every passing day, the BCFGA and the Okanagan Federated Shippers Association, representing the industry, make this present submission and urge immediate action by the provincial government in its approach to the dominion government for co-operation in providing financial assistance," the brief commences.

At the outset the BCFGA brief endeavored to show the steady growth of the industry from 1920 to 1949 and how the winter kill brought receipts from value of fruit down sharply. The full schedule of production figures and values can be found in another column of this issue.

"This schedule shows that in spite of the unsettled readjustment conditions of the 1920's and the severe agricultural depression of the 1930's, the industry made steady growth.

"Some of this growth was due to the development of the Oliver and Osoyoos area by the provincial government for veterans' settlement, but much of it is also due to an influx of prairie farmers and to the organization and to perfecting of sales machinery, through which growers might obtain the maximum possible share of the consumers' dollar.

Little Tariff Protection

"During the 1920's the industry enjoyed very little tariff protection. While the Ottawa Agreements of 1932 improved conditions in this respect, this protection was again considerably reduced in 1935, in 1939, and again by the Geneva Trade Agreement of 1947.

"While it is admitted conditions improved in the decade commencing with 1940, it is pointed out that general improvement in returns was not apparent until the crop of 1943, and the peak reached in 1948.

"The apple crop of 1949 returned to the grower an average of about 40c per box less than what is generally recognized as overall cost of production.

"Throughout the period, 1920 to 1939, the B.C. tree fruit industry, by intelligent organization and application, developed Eastern Canadian, American and overseas markets, built an enviable reputation for their products, and made a tremendous contribution to the economy of this province and of Canada. Our apple exports to countries outside of Canada often reached as much as 50 percent of our total production.

"The outbreak of war in 1939, all but wiped out our overseas outlet, and this emergency was recognized by the federal government by the underwriting of the export portion of the 1939 crop, and thereafter, throughout war and post war years, by financial assistance to both Nova Scotia and British Columbia apple growers, as appeared necessary partially to compensate for the loss of overseas markets.

Carried Own Burden

"This industry feels that it can justly claim that, throughout its entire development including war and post war years, it has financed and carried the burden of adjustment of production programs to meet changes in market demands.

"It has attained such a high standard of quality that almost 100 percent of Canada's apple exports to United States comes from this province, and frequently our products bring premium prices in competition with American products of the same variety, size and grade; and, in doing so, it has endeavored to stand on its own feet without seeking financial assistance from provincial or federal governments, except in those emergencies created by international or economic conditions beyond the control of the industry.

"Our production program on stone fruit and pears has been stepped up in line with the increasing demands from those areas which normally look to us for supplies, including the food processing industry.

Contribution to Economy

"Cabinet members can readily visualize the tremendous contributions this industry has made to provincial and federal economies. For example, outbound shipments of fruits and vegetables in 1920 amounted to approximately 48,000 tons or 2,000 carloads, whereas in 1949 it amounted to approximately 258,

600 tons or 16,162 carloads. The total freight revenue to the railways, on outbound shipments, increased from approximately \$500,000 to \$8,500,000. The inbound freight traffic increased at a more rapid rate and revenues still more rapidly, due to post war increases in rates.

"Employment increased in packinghouses, shook mills and processing plants from approximately 1,000 persons in 1920, to approximately 8,000 persons in 1949. The amount of the annual payroll is estimated at about 300,000 for 1920 and \$8,000,000 to \$9,000,000 in 1949.

"Cold storage facilities increased from 91,000 boxes in 1924 to 6 1/2 million boxes capacity in 1949."

Figures on Trees Killed

The delegation filed a report on winter-killed trees by districts, from Lytton to Grand Forks and by com-

modity, on the basis of reports filed with Ben Hoy, supervising district horticulturist, up to October 20. This schedule is believed to represent probably 70 percent of the growers and 80 percent or more of the acreage affected.

"It will be noted that in the ninety-one orchards reporting in the Lytton-Kamloops-Chase district, 54 percent of the total trees, as at January 1, 1950, are reported as killed. In the Salmon Arm and Sorrento orchards reporting, 31 percent of their trees were killed. Vernon reports 25 percent. Practically all of the trees killed in the above areas would be apple trees—with a heavy loss of prune trees in the Vernon area.

"From Oyama, Winfield, Okanagan Centre to Kaledon, with the exception of Peachland, the loss in orchards reporting is from 6.7 percent to 15.5 percent.

"Peachland-Keremeos - Cawston and Oliver-Osoyoos report losses from 18.3 percent up to 27.9 percent. In these areas, the loss is very heavy to peach and apricot trees. The Grand Forks area reports 23.6 percent of their trees killed, and these trees would consist largely of apple trees.

Some Growers Wiped Out

"While these average losses, in themselves, represent a disaster in certain areas, it must be remembered that they do not show the complete picture. For example, while the Lytton-Kamloops-Chase district shows an average loss of 54 percent of their trees, some growers in that area have lost 100

Polio Fund Drive To Start Early in January in Canada

The Canadian Foundation for Poliomyelitis will hold its second annual national "Canadian March of Dimes" starting January 6, 1951.

The B.C. Chapter which will work in co-operation with Kinsmen clubs, has an objective of \$80,000. Proceeds from the campaign will be devoted to the welfare, treatment and rehabilitation of polio patients in all parts of the province.

Fifty-five committees have been set up throughout B.C. In centres where a Kinsmen club is in existence, this organization will conduct the campaign but where there is no Kinsmen club, other service clubs have agreed to look after the local drive.

Kinsman Jack Tyrer of Richmond is the provincial campaign chairman.

During the past year, many polio patients have benefitted from the 1950 campaign. Transportation has been provided to Vancouver for hospitalization and rehabilitation at the western centre for physical rehabilitation.

In some cases, where a woman has been stricken with polio, housekeeper services have been provided for her family.

A number of young men have not only been physically rehabilitated but have been restored to the economic life of the community. If necessary, they have been set up in trades, which have enabled them to become financially independent.

Gets Concession for Horticultural Society

W. Snow appeared before council on behalf of the Summerland Horticultural Society last week and obtained a \$10 concession for that group.

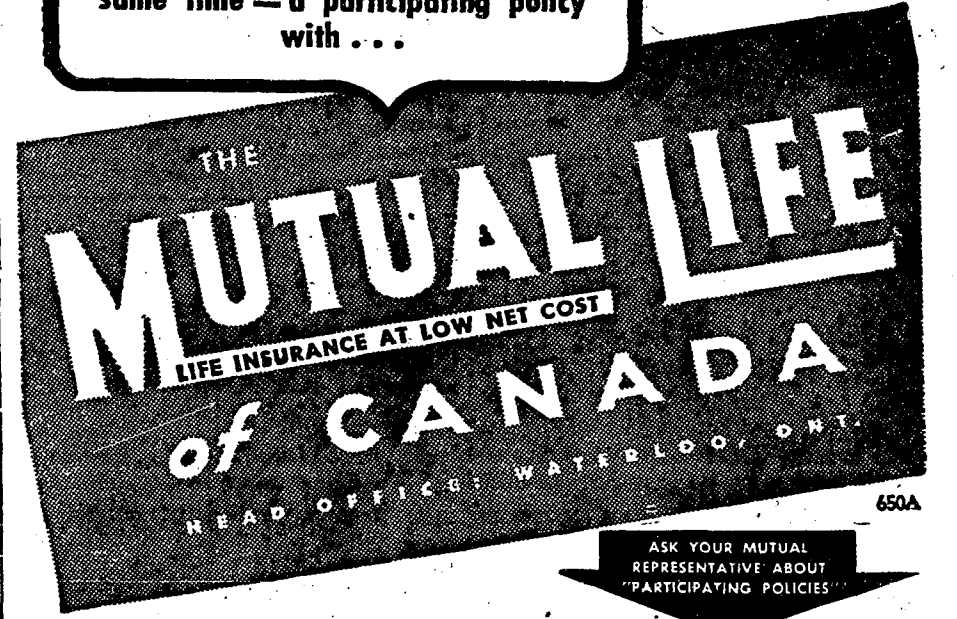

The society had staged its annual flower show in Ellison hall last Summer, had paid for all its prizes and asked no one for any money, Mr. Snow explained. But if the council charged \$20 rental then the

society would be out that much on the show.

He explained that the usual society practice of selling flowers on Saturday nights to help defray expenses had been dispensed with this year in favor of other organizations.

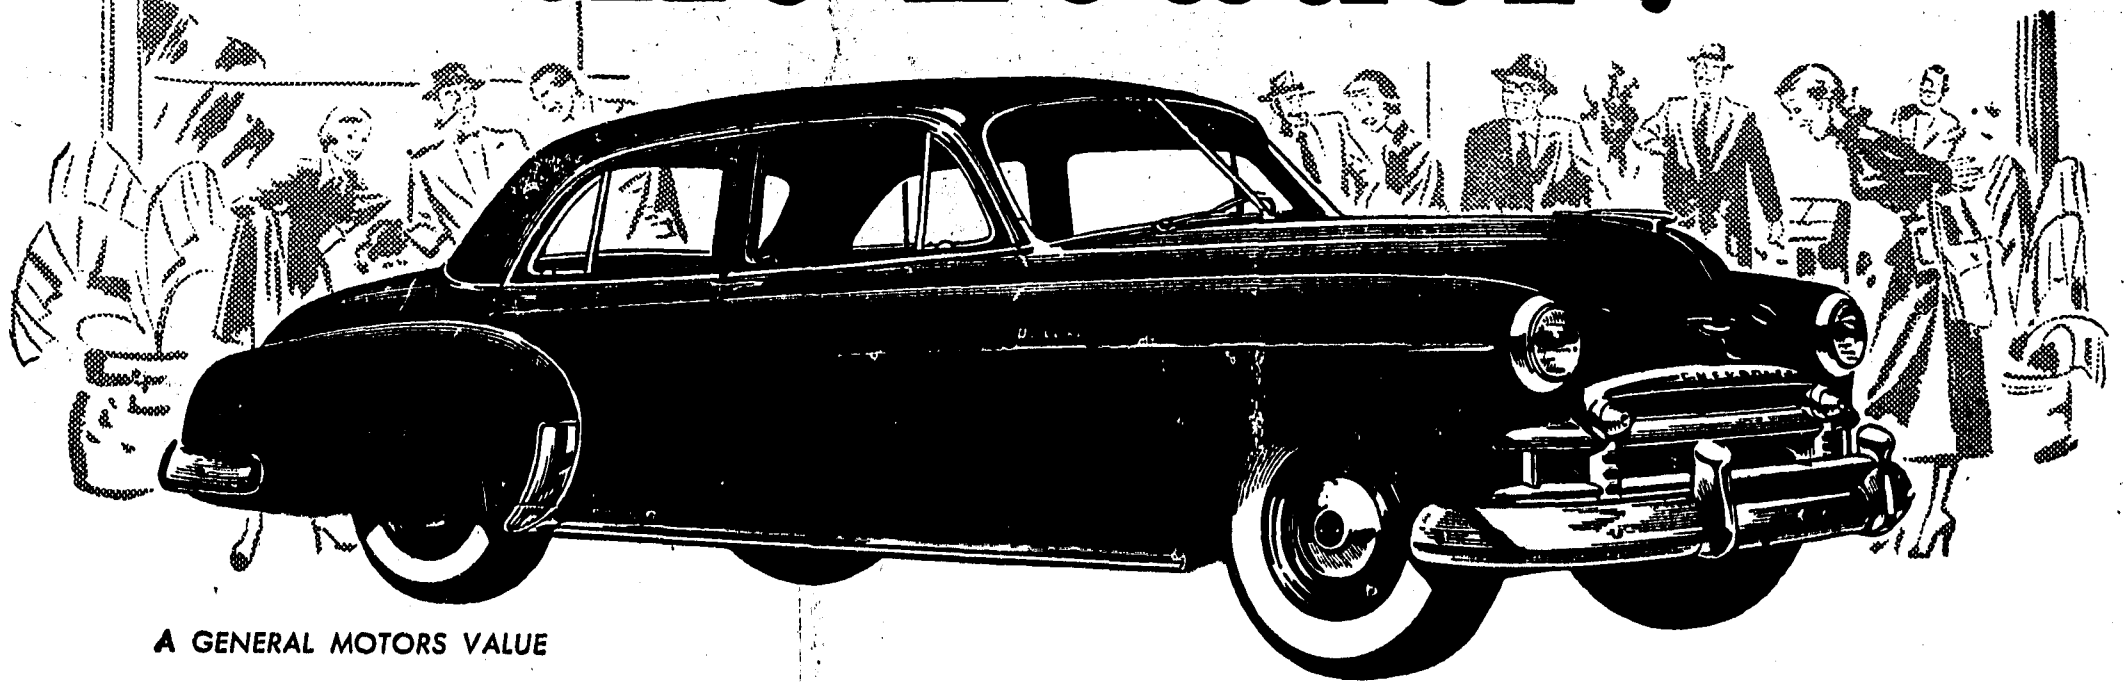

Council agreed to allow a \$10 grant to the society in lieu of half the hall rent but also stated that if Ellison hall is renovated then a review of rental policy would have to come about.

A young man's wisest investment, one that protects his family at the same time—a participating policy with...

Chevrolet's Reputation makes Chevrolet the Leader!

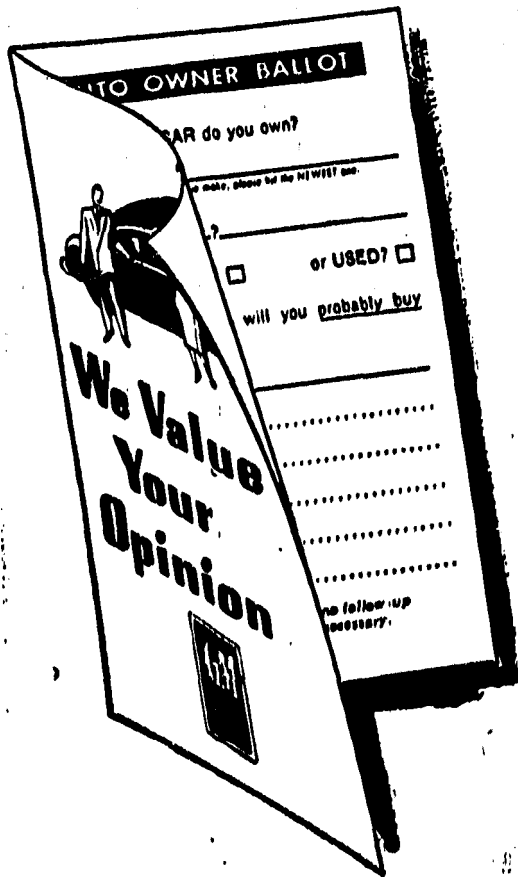

A GENERAL MOTORS VALUE

The high reputation of Chevrolet... its makers... and its dealers... were three main reasons why Chevrolet led all other makes in popularity according to recent impartial surveys among automobile owners!

What safer guide can there be than reputation, when it comes to choosing a motor car? For reputation is based on the day by day and year by year experience of Canadian motorists — driving their cars in every Canadian season, on every kind of Canadian road. Every car can claim top quality. But only one car can be Canada's favorite in popularity, in sales, in value — with the highest reputation in all parts of

the country... and that's the car to buy! Recent nation-wide surveys among automobile owners have established beyond question that Chevrolet is the leading car in reputation, three ways—the high reputation of the car itself; the high reputation of its manufacturers, General Motors; and the high reputation of Chevrolet Dealers. What safer guide can there be? You simply can't go wrong when you buy the leader — Chevrolet!

MORE ABOUT BRIEF

Continued from Page 7
percent of their trees, and while the Oliver-Osoyoos area shows an average loss of 27.9 percent of their trees, some growers have lost 100 percent of their peach, apricot and prune trees."

"The loss in value of crop for 1950 only, compared with 1949, for peaches, apricots, plums, prunes, cherries and pears is as follows:

Sales Value of Crop	1949	1950
Peaches	\$2,432,850	\$ 200,000
Cherries	1,651,765	360,000
Apricots	825,826	76,691
Pears	1,608,688	900,000
Plums	180,756	55,000
Prunes	784,989	241,000
	\$7,484,874	\$1,832,691
1950 Crop loss		5,652,183

The number of trees killed has already been published and was given the cabinet as before, the total being 336,610 trees.

Payment Per Tree
The schedule of subsidy sought in the brief was:

Apples, cherries, pears: Under two inches, nil; 2 to 5 inches, \$2; 5 to 7 inches, \$4; 7 to 12 inches, \$6; over 12 inches, \$8.

Peaches, apricots, plums and prunes: Under 2 inches, nil; 2 to 5 inches, \$2; 5 to 7 inches, \$4; 7 to 12 inches, \$6; over 12 inches, \$8.

For rehabilitation, the brief suggests \$2 per tree, and if no trees are to be replanted then rehabilitation at \$100 per acre is sought.

For removing trees and prepar-

ing land the subsidy is totalled at \$1,379,120 and for rehabilitation at \$2 per tree the cost would be \$673,220, making a grand total of \$2,052,340, it was pointed out.

"In addition to the financial assistance suggested above, it will be necessary for some growers to secure further financial assistance if they are to stay on the land, to cover ordinary living costs, plus fixed charges such as taxes, water rates, irrigation, spraying etc., and for this purpose we suggest that the provincial government appeal to the federal government for the setting up of a board with authority to extend long-term, low interest rate loans. We suggest these loans be amortized on a twenty-year basis, with interest at three percent, payment to commence in 1956.

"This industry feels that it is imperative that provincial and federal governments assist financially

with the rehabilitation of those growers who, through no fault of their own, are now deprived of the means of livelihood until they can re-establish themselves. We suggest the following as justification for requesting such assistance:

"(a) Both provincial and federal governments have recognized that it is in the best interests of Canada to assist potential farmers to become established, and, therefore, it surely must be considered sound to assist a farmer, who has already established himself as a farmer and who has encountered a heavy financial loss, to remain on his farm and continue to contribute to the primary production of the country.

"(b) Since most of the frost-killed trees are under irrigation, the acreage on which they are situated must continue to carry its share of the cost of irrigation systems, together with all the municipal or

government taxes, school taxes, etc.; but is incapable of production until the dead trees are removed.

"(c) The provincial and federal governments assisted in the rehabilitation of farmers in the Fraser Valley area after the disastrous floods of 1948 and, more recently, the Manitoba government and federal government have assisted in the rehabilitation of both farmers and urban dwellers, following the floods in the Red River Valley.

"(d) One, if not all, of the prairie governments have assisted with the rehabilitation of the farmers in the drought areas of those provinces, and it is our understanding that permanent legislation now exists in those provinces to provide for immediate action in emergencies of this kind.

"This industry does not suggest that governments be asked to compensate for the loss of the current annual crop, which loss has already

been referred to in this brief, and at this time we would like to impress upon the government that this current crop loss, due to the frost damage, is in excess of \$5,000,000.

"While officials of the fruit industry must consider the interests of all growers, we are particularly mindful, at this time, of the interests of the veterans who have been encouraged by the federal government to establish themselves in the fruit growing industry," the brief concluded.

The brief paid special attention to a letter from the South Okanagan-Similkameen zone of the Canadian Legion which urged Premier Byron Johnson to include this subject in his agenda while attending the dominion-provincial conference in the east in September and discuss it with federal cabinet ministers.

IMPORTANT ANNOUNCEMENT

SAY, BOB, HOW COME MY FIRST PAYMENT FOR 1951 PREMIUMS IS MORE THAN YOURS?

GOT SOMETHING TO DO WITH THIS NEW METHOD OF BILLING, JOHN. I'M NOT SURE THAT I UNDERSTAND IT, MYSELF, YET.

Here's the reason:

The records of registrants previously held in district offices have been centralized in Victoria.

A new system of billing for 1951 premiums . . . Cyclical Billing . . . has been introduced.

Any Cyclical Billing operation must be started off by staggering the dates for the first payable bill.

Registrants have been divided into six groups or cycles. Each individual group has been billed for an odd amount to coincide with the staggered date. Cycle "A"—2 months; Cycle "B"—2½ months; Cycle "C"—3 months; Cycle "D"—3½ months; Cycle "E"—4 months; Cycle "F"—4½ months.

In addition you will be billed for any outstanding arrears.

Subsequent billing will be for three month periods . . . see the chart below.

Advantages

- 1 Regular quarterly billing assists you in budgeting payments.
- 2 Future billings for Hospital Insurance premiums will be mailed to you every three months.
- 3 Delays previously caused by peak periods will be eliminated.

Please pay exact amount shown on your bill.

Digging Ancient Bones from Badlands Of Alberta Related to Rotarians

R. P. (Tiny) Walrod, manager of B.C. Fruit Processors' Ltd., plant in Kelowna, intrigued Summerland Rotarians with epics concerning digging bones out of Alberta soil and at the same time gave them some interesting facts concerning the formation of this planet, when he was guest speaker at the Nu-Way Annex Friday night.

As a young lad, Mr. Walrod became interested in the "bone diggers" who came from many parts of the continent to the rich Alberta fields. The Alberta badlands near the Red Deer river with its great expanses of fluted clay proved the ideal spot for discovery of prehistoric animals.

Many of these specimens are on exhibit in museums all over the world, but it was only after hours of painstaking effort that the bones were removed from their resting places and plaster casts wrapped around them.

One skeleton took five cars to move and when it was assembled in European museum was reported to be 86 feet long, he said.

Along with these relics of an an-

cient day, estimated to be 50 million years ago, can also be found palm leaves, figs and long extinct flora. From the findings research scientists can depict the world as it was then.

The entire area from the Appalachians east to British Columbia, including the prairie was an ocean with Alberta, Saskatchewan and part of Manitoba much like the Everglades of today. The Appalachians were huge, towering mountains then, he declared.

There were tropical vegetations in the arctic and glaciers at the equator those millions of years ago.

Describes Animals

Practically all animals were reptiles, and he described many of them which weighed up to 150 tons. One such creature had 2,000 teeth, he declared, and told a story of an animal leaving his native haunts, being set upon by an enemy and scuttling back to the safety of the slimy water.

Scientists are able to piece together much information on the haunts of these animals from the markings found in the ground and have to be specialized detectives in

JENKINSON TO GET RELEASE

Unless he obtains some agreement which would absolve him from personal loss or financial liability, then he would take action to force council to take such action, J. E. Jenkinson wrote the council last week in connection with the high tension wires which cross his property.

He pointed out in a letter read at last week's council session that he has been waiting since last June for a satisfactory reply. He intimated that the council is not willing to accept its responsibility in this matter.

It was agreed by council that John S. Aikins would be asked to draw up a suitable agreement with Mr. Jenkinson stating the municipality's liability in this case.

That the municipality would be liable was agreed upon by council,

their work.

Before concluding, Mr. Walrod gave his audience an insight into the start of the world. It is the general conception, he said, that the world was thrown into its present sphere from the sun a mass of incandescent gases. Gradually it congealed and cooled.

Science knows little of what is actually inside the earth but by reasoning has arrived at conclusions. Shifts in the earth's crust have indicated that the centre of the world is a core of pure iron about 4,000 miles in diameter. Bands of various strata exist above that core with the formations which can be observed covering the surface.

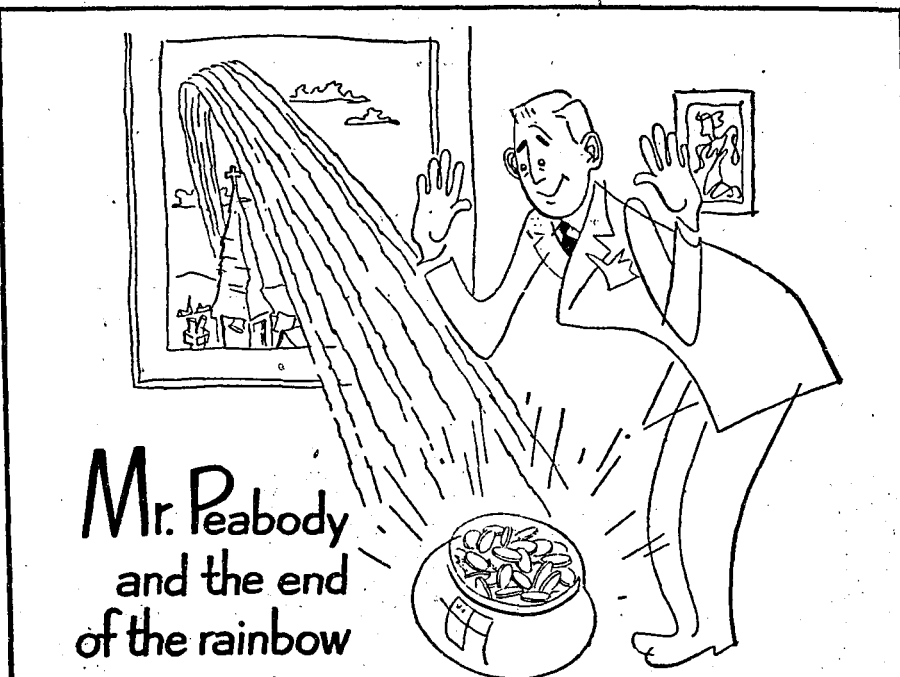

He depicted the world as it was at the start, steam rising so thickly that it turned into torrents of rain like a waterfall, continuous lightning caused by the gases in the air and meteors flashing down.

It took a billion years for the next phase in the world's metamorphosis he concluded, intimating that this was another story which would have to wait for another occasion.

NAVY "FROGMEN" in skin-tight rubber suits swam for miles through the mine infested waters of the Korean port of Wonsan to pave the way for the recent peaceful landing of United Nations forces. Their job is to locate mines, under water obstacles and sound out the best approach for

the landing craft. The frogmen suffered no casualties in the operation although they helped to rescue survivors from the minesweepers, Pledge and Pirate which were sunk by mines and Red Korean gun fire.

Mr. Peabody and the end of the rainbow

You could have knocked Mr. Peabody over with a feather. For there, right through the window of his own room, came a rainbow. And at the end of it was a huge pot of gold!

As he approached it to see if it was real, he heard the sound of bells. "The whole countryside has heard of this!" thought Mr. Peabody. "That's why the bells are ringing." And the sound of the bells grew louder . . . louder . . . LOUDER . . .

Mr. Peabody awoke with a start. The alarm clock beside his bed was ringing . . . ringing . . . RINGING. Shutting it off, he sighed sadly, got up and dressed.

Listening to the radio as he ate his breakfast, Mr. Peabody heard somebody say that old-age benefits should provide everybody with enough to retire on.

"Hmmp!" snorted Mr. Peabody to himself. "More rainbows! I like the idea of additional help for older people. But to build the kind of comfortable old-age income I want, I fully expect to need all my life insurance — and maybe more. It gives my family protection now. And it covers my own special needs in a way no mass programme could possibly do."

Arriving at his store, Mr. Peabody, like millions of other Canadians, began another day of working, earning and saving for his future security with life insurance.

"Even without pots of gold, it's a pretty good world," he said to himself. And as he worked, he began to whistle softly.

Generous Response To Thankoffering

The annual thankoffering meeting of the Women's Mission Circle of the Baptist church was held at the home of Mrs. W. C. Wilkin on Thursday afternoon, Nov. 9.

Rev. D. O. Knipfel addressed the meeting, and Mrs. J. J. Smithson, Kelowna, provincial vice-president for the Okanagan, was another speaker.

Others attending from the Orchard City were Mrs. Martin, Mrs. Harding, Mrs. Ralph Cruickshank and Mrs. Clement.

The president, Mrs. D. O. Knipfel, was in the chair, and the meeting resulted in a generous thankoffering response.

Delightful refreshments were served following the meeting.

Thirsk Dam Ready To Receive Winter

Water Foreman E. Kercher reported to council last week that Thirsk dam had been visited on October 24, and the boom under the driftwood released. It had been hoped to burn excess timbers at the dam this fall but they were too wet and had to be left until spring.

Traffic Signs Are Ready for Local Roads

New traffic signs, in connection with Summerland's new traffic bylaw, have arrived here and will be put up shortly Reeve C. E. Bentley informed Summerland council last week.

Department of public works sign vehicle was a recent visitor to the district and placed 39 miles per hour signs along the provincial highway as it passes through Summerland municipal area.

Some stop signs on municipal roads leading onto the highway were also erected but the public works crew did not have sufficient to comply with all Summerland's requests.

In connection with this traffic bylaw it was pointed out at last week's meeting that except for Granville street there will be parallel parking throughout the municipality.

This will partly solve the congestion on the street between Vanguard Motors and B.C. Fruit Shippers Ltd. buildings but it was council decision that garages should be warned that cars for sale cannot be left on the municipal roadway. The packinghouse will also be asked to co-operate by having employees' vehicles parked off the street.

Councillor E. M. Tait reported that it is proposed to institute a fill and ditch along Jubilee road in front of the Occidental packinghouse. Such a project would make it possible to put in a drain across Rosedale from the school property.

It was considered, however, that before such a drain could be established that a ditch to the creek would have to be installed.

Councillor Tait also reported that the road which was built recently alongside the Powell property to give access to the Donesky lot needs to have a drainage ditch. Cost for labor was estimated at \$91 while W. R. Powell had agreed to contribute \$20 plus cement flume towards completion of this project.

Council agreed that the proposal should proceed.

COVERAGE FOR VEHICLES

Insurance coverage on nine municipal vehicles amounts to \$680. It was stated last week at the municipal council session when the policies came up for renewal.

HOLD ANNUAL MEETING

December 11 has been set for the annual meeting of the Okanagan Union Library at Kelowna. The public library commission will be on hand, as well.

May Cut Trees at Edge of Reservoir

Councillor F. E. Atkinson informed council last week that Sanitarian Alcock of the health unit had suggested that trees along the edge of the domestic water reservoir should be cut to prevent their leaves falling into the water in the fall.

The rotting of such organic matter is one of the main reasons for the peculiar taste in Summerland drinking water, it was suggested.

It might be possible to treat the water with copper sulphate or it might be necessary to run a ditch around the edge of the reservoir to the intake.

The sanitarian recommended strongly that chlorination of Summerland water be continued while John Heichert, chlorinator, is absent on holidays.

Councillor F. E. Atkinson lectured council at some length on the use of chlorination material, explaining that by adding more chlorine up to a certain point the phenolic taste, plus the taste of the chlorination material can be eliminated.

The amount required would be many times that now being placed in the local water supply, it was stated.

All water samples in Summerland area were satisfactory in September and October the health report showed.

CREASE CLINIC OF PSYCHOLOGICAL MEDICINE
Essondale, B.C.

The Provincial Mental Health Services are administered through the Department of the Provincial Secretary and provide suitable treatment and care to meet the many and varied needs of the community.

The Preventive Services comprise a group of Child Guidance Clinics situated in Vancouver and Victoria with a travelling unit covering other areas of the Province at stated intervals.

The Crease Clinic of Psychological Medicine, as pictured above, is an active treatment and educational centre for the short term treatment of early mental illness.

The Mental Hospital Services continue to provide active treatment and care for the more advanced types of mental illness.

The school for the treatment and education of the mentally retarded child in New Westminster has been expanded and further expansion of this division is now under way.

The care of the aged is becoming an increasing problem requiring further expansion to meet the ever increasing demands. A separate division has been created with specialized units to care for the aged mentally ill. Units are now functioning at Port Coquitlam, Vernon and Terrace.

Jones Flat Plan Still Live Issue

B. C. Bracewell, deputy minister of municipalities, has given Summerland council assurance that its proposed amendment to the municipal act to allow Summerland the right to set up a type of local improvement plan within its irrigation district will go before the provincial legislature next session for adoption.

Mr. Bracewell asked Summerland council to prepare the necessary act amendment along his suggested lines and Municipal Solicitor John S. Aikins was so requested last week.

Councillor F. M. Stuart was asked if Jones Flat growers are still anxious for the combined sprinkler irrigation plan to proceed and he replied that he is being asked for progress reports right along.

He could not give council any idea whether the proposal would meet the required percentage approval but that there is a lot of interest in the plan is evident, he declared.

It was suggested last week that the new power rate offered by the council to operate sprinkler power pumps might cause some growers to decide against the combined participation scheme but Mr. Stuart did not side with this viewpoint.

Subdivision Plans Can be Registered For Campbell Lots

As last week's council session was drawing to a close, Loyie Campbell was ushered into the semi-monthly meeting and queried about the rough grading of the main road which runs on the north side of his subdivision next to the Stuart property in West Summerland.

Reeve C. E. Bentley declared that the subdivision plan could not be signed until necessary rough grading was carried out.

But Mr. Campbell declared that he had instructed Road Foreman Les Gould to carry out rough grading there a year ago and to his knowledge it had been done. He had paid the municipality for this work, he added.

But council members who had visited the spot were just as sure that the work had not been completed at the east end of the road and Foreman Gould was quoted as seeking advice regarding when this work would be completed.

This was almost too much for Mr. Campbell, who has been trying for many months to get his property subdivided and an equitable arrangement completed with his neighbors.

"I'm fed up", he declared, visibly endeavoring to hang onto his temper, and indicating that he had been patient for a long time but this was the final straw.

Council assured Mr. Campbell the whole deal was probably a misunderstanding and Councillor Tait and Reeve Bentley agreed to meet Mr. Campbell on the ground the following day. On Wednesday, when the council reconvened, it was to hear Councillor Tait report that the rough grading needed was not as extensive as was first thought by Reeve Bentley.

Mr. Campbell had agreed to post \$15 for this work and it was decided to ask the rink association to post \$20 for rough grading the road past the arena. When this was done, the plan for the Campbell and new arena subdivisions could be signed and sent to Kamloops registry office for ratification, council agreed.

Concrete Work On Customs Building Now Under Way

The pouring of concrete for the footings upon which will be erected the new Customs building at Osoyoos was commenced by the

contractor, George McLean & Associates of Vancouver, this week. Most of the site has now been levelled off and excavation for footings carried out.

Two buildings, both of reinforced concrete with brick facing, are to be erected to replace the small building which is in use at present. To the east of the highway will be

the bus terminal and examining warehouse, a one storey building with a penthouse on top. On the opposite side will be the three-storey (including basement) Customs and Immigration building. There will be seven traffic lanes altogether under the portico.

The site for the new buildings

comprise almost 4 1/2 acres. This will eventually be one slab of 6-inch, thick reinforced concrete.

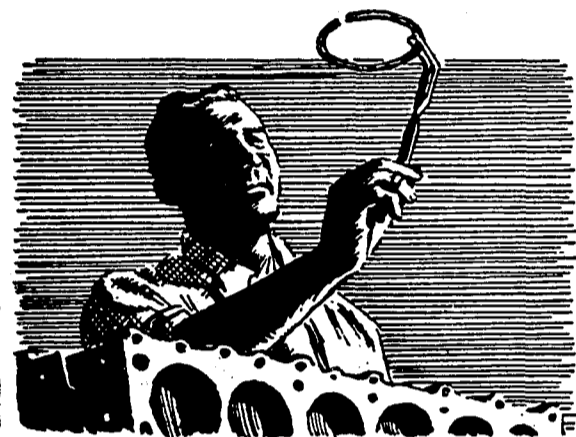

The contractor is co-operating in every way possible to keep local labor employed.

"We are fully aware of the hardships this district suffered from last winter's frost damage

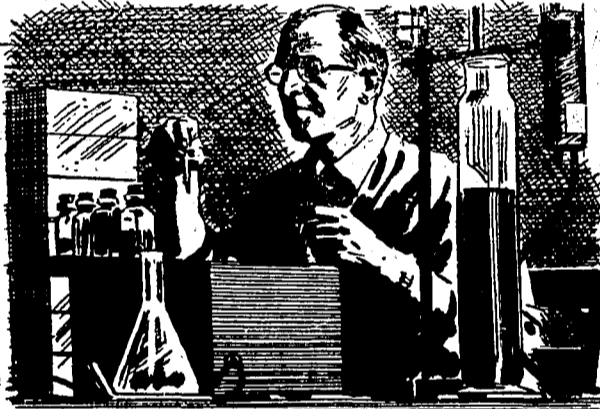

and are giving all consideration to local labor", Mr. McLean explained. Sub-contracts are being now held by Coulson Machine Works and the Osoyoos Cement Works.

Accounts totalling \$24,361.24 were passed for payment at last week's council session.

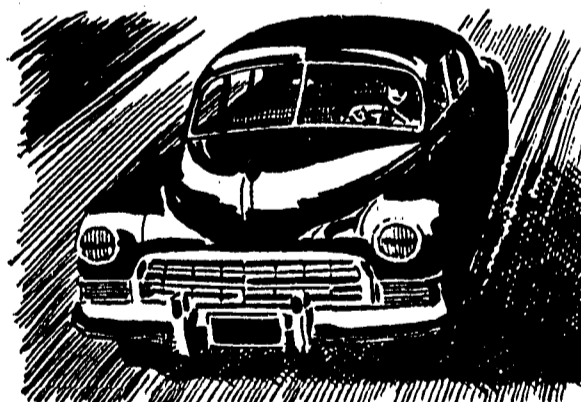

New "RPM" developed by Atomic Energy DOUBLES THE LIFE OF AUTO ENGINES! ...in the toughest test a motor gets!

New Atomic tool! By equipping test engines with piston rings treated at the Atomic Energy Commission's Oak Ridge Plant, our scientists for the first time measured wear as it happened ... found out with Geiger counters exactly why motor oils failed. A New "RPM" was developed!

Cold operation tests, under rigid controls, were used to simulate stop-and-go driving conditions...the toughest kind a motor meets. New "RPM" was compared with the best of conventional motor oils.* Results were amazing!

New RPM Motor Oil was shown to double the life of average automobile engines between major overhauls due to lubrication. Laboratory tests proved it. Severe road tests backed it up.

North opened One Diamond and South gave the natural response of Two Clubs signing off with Three Clubs on the next round over North's rebid of Two No-Trumps. West doubled and led ♠ Q, followed by ♠ J when all played low to the first trick. South took full advantage of the implications of West's unwise double. After ruffing ♠ J, he led ♠ J and went up with dummy's ♠ K when West ducked. A Spade was ruffed, followed by three rounds of Hearts and a ruff of dummy's last Spade. South now led ♠ 6, West having to win and return a trump for South to make his doubled contract. If South had attempted to draw trumps and develop tricks in Diamonds, he would probably have gone two down.

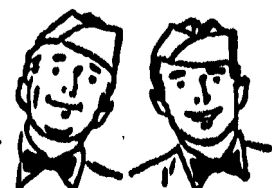

Finest engine insurance you can buy

No motor oil gives you better protection than New "RPM." Compared with conventional motor oils,* it doubles the life of average engines between major overhauls due to lubrication. It cuts in half the wear-rate of such critical engine parts as piston rings and cylinder walls. It doubles protection against gummy carbon, acid, corrosion, rust and varnish... maintains the low-oil-consumption life of the average engine twice as long. Sold with a money-back guarantee of satisfaction.

* "Premium Type" oils as designated by the American Petroleum Institute.

We take better care of your car

Local Cage Teams Make Their Debut Here This Weekend

Senior basketball makes its debut this Saturday at the school gym as the cagers prepare for what will probably be a busy winter season.

The local senior C cagers will be entertaining a strong senior B aggregation from Princeton this weekend and expect to have quite a tussle with the Similkameen lads.

As a preliminary, the Penticton Int. B team is coming here to play the Bluebirds senior boys squad from the local high school.

On Friday evening, the local high school plays its first league contests at home against George Pringle high school, Westbank, senior girls and junior boys.

Although George Clark has not been turning out yet for the local senior team, yet most of last year's squad has been turning out regularly for practice.

Keith McLéan, Jack Dunham, Don Nesbitt, Harry Ruppel, Lionel Guidi, Sandy Jomori, Fred Kato Bill Clark and Don Rand have been turning out regularly and are being molded into an efficient squad by Coach Lacey Fisher.

These lads are looking forward to the day when the new gymnasium will be ready for occupancy. It will provide Summerland with one of the best medium-sized basketball floors in the Okanagan.

Although there is no senior B league this year, the local cagers expect to play a number of senior B and C squads from various in-

terior towns during the winter months. These games will be exhibition contests only until the play-offs commence in February.

HOW THEY STAND

Standings in the King-Pin bowling league at November 15 were as follows:

Edna Daniels,	628.
High team, Pheasants,	3110.

Fishing-Hunting Reports

FISHING

The big lake has come on, as far as whitefish are concerned. The boys are getting good catches of fish and of good size. Trolling on Okanagan lake is not very good yet, with no big fish reported over the week.

BIG GAME

Several parties have left this week for the Cariboo and a party or two will be going this weekend. Ivor Neilson, I hear, really did get a moose this time and from all reports, a nice one.

Jack Price has been reported up around 92-mile but he hadn't connected yet. Bob Bleasdale and Allen Eisey were up in the Cariboo four days but didn't get a chance at a bull. Jack Miller and his brother have returned empty handed, also.

The Felker brothers left last week for Chris Creek. We wish them and the boys still up there lots of luck.

DEER

There is now and always will be a big pow-wow as to how many deer we have. I think that there are quite a few. Some hunters are luckier than others, as far as hunting goes. A lot of deer have come out this week and a lot more big deer, three and four-pointers.

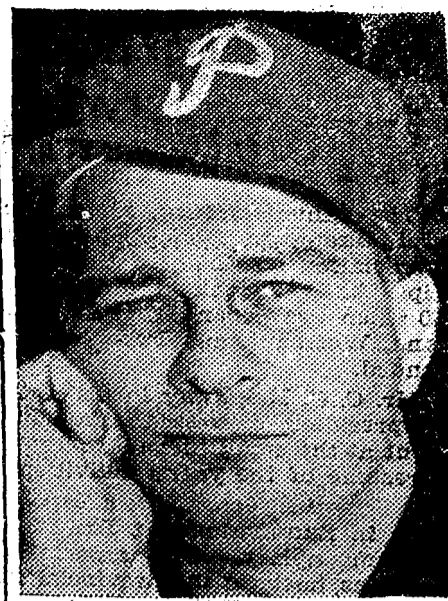

The thing we fail to realize is that the Summerland area is hunted by a lot of people besides Summerlanders. I have seen or heard of Vancouver, Kelowna and Island people getting deer here, as well as many Penticton hunters.

On an average the snow is about four inches deep back in the hills, and there are lots of bucks moving, even on the lower levels. So pick out your favorite place as the chances should be good this weekend and next. Lots of deer have been shot in the past week.

Heard that young Lorne Carston got a bear up towards Snow Mountain while on a deer hunt last weekend. This should be a good trophy for a young hunter.

DUCKS

A few northern Mallards are still around here on the lower sloughs, if you are interested.

EDDIE SAWYER, who never played an inning in the big leagues, recently was voted "manager of the year" by Philadelphia Phillies to their first pennant in 35 years last season.

Aluminum Roofing for Rink Coming

This weekend nearly \$5,000 worth of corrugated aluminum roofing material will arrive here for the new Summerland hockey-curling arena, George Stoll announced on Monday.

It is believed that Summerland rink enthusiasts were fortunate to attain this roofing material as its purchase was arranged a short time before the government announced it would be cutting down on such expenditures of materials which might be needed for war materials.

Mr. Stoll states that this will be the biggest roof expense in the province using aluminum roofing.

The main need right now on the arena project is day laborers, Mr. Stoll explains. The parties of volunteers at night are sufficient to meet the needs but a lot more vol-

Take Measure Of Westbank Hoop Squads

Summerland Bluebirds travelled to George Pringle high school last Friday for the first games in the central Okanagan high school basketball league, winning both contests.

This Friday, the Westbankers return to Summerland high for return matches.

Senior girls scored a commanding 32-18 victory but the junior boys had a hard tussle to keep ahead of the George Pringle school lads and only managed a 16-14 edge.

Sparked by Helen Kean, the Bluebird girls were out in front 13-8 at the halfway mark and gained confidence with every minute of the game. The northerners were better starters, holding a 5-2 lead at the first quarter, but the Bluebirds took over from then on. Helen Kean's fifteen markers were rivalled by Westbank's Jiyobu, who countered eleven points.

In the boys' contest, Westbank also took the lead in the first quarter 4-1, but by half-time the Bluebirds had crept closer with a meagre 10-8 advantage. This was held for the rest of the game.

The Bluebirds' main point-getter was Glen Younghusband, while

unters could be utilized to good advantage during the daytime hours.

Mr. Stoll is looking especially to those who have concluded their work in the orchards and could spare some leisure time for this community project.

The Summerland Rink Association received a cheque this week for \$500 from the administrators of the late W. C. Kelley estate. The late Mr. Kelley had pledged this sum to Mr. Stoll a short time before his sudden death and the administrators have honored the pledge.

Skinny men, women gain 5, 10, 15 lbs.
Get New Pep, Vim, Vigor

What a thrill! Bony limbs fill out; ugly hollows fill up; body loses its sickly, "bean-pole" look. Thousands praise Ostrex, weight-building tonic. Provincial highway in order to provide twenty-four hour service on an all-year route will be urged upon the government.

Delegates to the meeting voiced high praise of the provincial government's road building program.

"We should be impressed by the government's planning and the amount of work now underway. The government has a large program, but can't do everything at once," stated C. E. Bentley from Summerland. He urged the members to look at the problem not only from the local view, but at the com-

plete picture. Then they could see that the road building plan for the province is a comprehensive one, he added.

The Cawston Board of Trade will get backing to obtain an improvement in telephone service in the Cawston-Keremeos area.

The meeting also gave strong support to a resolution from Okanagan Falls seeking government action on a dam which would provide irrigation for the Campbell Meadows in that district.

G. Y. L. Crossley, from the Bureau of Economics informed the meeting of an industrial survey which would be undertaken in this region in the new year to determine what we produce, what is being consumed here, and the volume of importations. President of the association, Harold Mitchell of Naramata, urged the member boards to co-operate in this survey.

Mr. Palethorpe thanked the boards for their support in his election as a representative to the Canadian Chamber of Commerce.

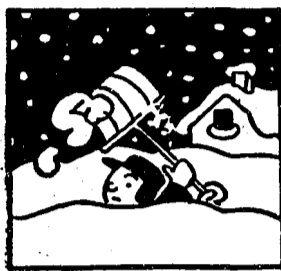

The Penticton Board of Trade extended an invitation to hold the next session there in January.

Those present from Summerland were Reeve C. E. Bentley, Alf McLachlan, Ivor Solly, J. R. Armstrong, Walter Toevs, Cecil Wade, Lorne G. Perry and Walter M. Wright.

Because of winter's extreme cold, the railroaders consider the Hornet one of the toughest on the payne division of the CNR, in Ontario.

Wish to Have Bee Masters Appointed Throughout B.C.

The annual meeting of the Central Okanagan Honey Producers' Association was held in the municipal hall, Peachland on October 30 when beekeepers from Summerland, Westbank and Peachland attended.

Mr. C. C. Heighway in his report as president expressed disappointment at the small turnout and gave a resume of the year's activities.

In June a successful Field Day was held in Summerland at Dr. D. V. Fisher's apiary. The association acted as hosts to the provincial executive of the B.C. honey producers for their annual meeting which was held at the Summerland experimental station last May.

A honey recipe book had been imported by the association for its members and excellent results had been obtained from these.

It was decided to import package bees in 1951 and these will be supplied to members at practically cost price.

Mr. W. H. Turnbull of Vernon, provincial apiarist, addressed the meeting and discussed the position of "Bee Master" in the provincial field; any beekeeper with the ne-

cessary qualifications and who can pass the required tests is eligible to be made a bee master.

By having bee masters located in all the districts throughout the province much time and expense could be saved by having them investigate and report on local outbreaks of disease instead of sending out an inspector. He wished to have the reaction of beekeepers to this proposal.

Mr. Turnbull gave an outline of a new film on bees which will be released early in the new year. Having a B.C. setting and with many districts supplying material it should prove of great interest to all beekeepers, he thought.

Officers elected for the 1951 season are honorary president, Hon. Harry Bowman; honorary vice-pres., W. H. Robertson; president, C. C. Heighway; vice-pres., Dr. D. V. Fisher; secretary-treasurer, H. C. MacNeill, Peachland; representative to provincial executive, C. C. Heighway; directors, C. C. Heighway, Dr. D. V. Fisher, H. C. MacNeill, Alec Watt, R. R. Neal, W. Ingram, Frank Bennison and Earl Sutherland; auditor, John Cameron.

dollars monthly. Indians want an opportunity to receive education in a similar manner to white children.

"Our neglect has caused our Indians to sink to their present level," was his condemnation.

Mr. Jones has been a leader in attempts made to obtain a veterans affairs committee at Ottawa and from a semi-official statement he believes the government will make this move at the next session.

Also at the last session Canadians were given the right to sue the crown, while the army act was brought up to date and three acts amalgamated into one.

Regarding old age security, Mr. Jones declared he received over 600 letters advocating the dropping of the means test. These should have gone to the prime minister, he felt. Under the present setup there is a penalty on thrift, he felt.

"The same week that we turned down the means test abolition we increased judges' salaries from \$15,000 to \$20,000 yearly," Mr. Jones bitterly observed.

Amendments to provide more safety at sea and better standards for operations of ships were in-

cluded in the Canada Shipping Act.

Send More Letters

Pipelines from Alberta to the coast for natural gas along Canadian routes had a prominent place in Mr. Jones' discussion. He urged his listeners, councils, boards of trade and any other interested parties to write the board of transport commissioners and Premier Manning of Alberta insisting that the natural gas pipeline be installed via the all-Canadian route.

Spokane was built with Canadian money and now that city is doing everything in its power to bring the gas pipeline via its city. Spokane knows that gas provides the cheapest form of power and that industry can be attracted in quantity when cheap power is available, he pointed out.

"In British Columbia we're still asleep," Mr. Jones emphasized. "We shouldn't be exploited by those below the border."

Gas pipelines are transportation, he contended. The CPR was built to build up Canada and there is no reason why pipelines should not be built on Canadian soil for the same reason, even though the cost might be 15 to 20 percent greater.

World thought is along the line of decentralization of industries but industry needs cheap power, he added.

Completion of plans for the Trans-Canada highway, for a national library, attempts to devise a national, distinctive flag, to obtain the municipal improvement loan for B.C., were discussed briefly by the speaker.

In conclusion, Mr. Jones impressed upon his listeners that he is the member for Yale and as such is ready and willing to work for all persons not just members of his party.

Briefly he mentioned the attempts made to obtain federal assistance for growers who lost their trees in last winter's severe weather. He believed the federal authorities are willing to assist but must have a lead first from Victoria.

"I feel that the province has an equal if not greater responsibility to the farmers of Canada than the federal government," he added.

Canadian railways have been commended by the mayor of Montreal for their smoke abatement efforts.

Vol. 5, No. 48 West Summerland, B.C., Thursday, November 30, 1950

Closing of Road Diverted School Property Given Endorsation of Council

Closing of Jubilee road, from Kelley to Rosedale in order to consolidate the school playground is being proposed by School District No. 77 (Summerland).

On Tuesday, the proposal was given the unanimous support of the present council, although it was pointed out that such a decision does not bind any future governing body.

This road closure was proposed some years ago and was turned down at that time on the grounds that it would be inconvenient to truckers hauling to packinghouses.

After a full discussion of the subject at Monday evening's school board session, Chairman C. J. Bleasdale brought the proposal before municipal council on Tuesday afternoon.

He pointed out that with the occupancy of the new junior-senior high school, pupils from all grades would be concentrated on the present elementary school playground.

This condition would create difficulties, he contended, and a consolidation of the available area would be the most feasible solution. Such consolidation would allow elementary school pupils' playground facilities in what is now the high school section, it was presumed.

The school district board is in favor of demolishing the present high school building.

Costly Maintenance
Mr. Bleasdale contended to council that it would be less costly in the long run to add rooms to the new high school unit where all service facilities would be available, rather than to endeavor to maintain an old frame building such as the present high school.

The old gymnasium will also be coming down and there is a possibility that the present library will either be dismantled or moved to a far corner of the school property, he declared.

All these moves are in the future but have been advocated by present school trustees, it is stated.

With the abandonment of the road between the present schools it would be necessary to build a new road along the northern boundary of the school property, it was pointed out.

This would be quite feasible provided the present high school is demolished.

One of the reasons why the project was abandoned years ago was that a portion of the H. Dunham property on the north side would have had to be purchased and a flume line moved.

Now, with the old high school demolished, the present school property on the north side could be used for the roadway, without having to purchase any more land. Council in favor.

Reeve C. E. Bentley declared that he had favored the proposal originally and still believes the road should be closed. Every council member expressed agreement and it was decided to write the school board to this effect.

It was pointed out by Mr. Bleasdale that this is the first year since the war that the school population has levelled off. The net increase was only 17 pupils this year.

Mr. Bleasdale expressed confidence the new high school and present MacDonald school will suffice Summerland for many years to come.

Canvassers Move Slowly in Drive For Youth Centre

Progress has been slow on the Youth Centre campaign with only a few of the canvassers reporting back to date to the treasurer, E. R. Butler, it was stated today.

However, the canvassers have made partial coverage of their areas and by next week it is expected that more progress will be reported.

Last night, Dr. Cyril Woodbridge, Mrs. A. W. Vanderburgh, Mrs. D. L. Sanborn and Teen Town Mayor Dorcas Stewart gave a report on the Youth Centre campaign, its objective and what has been accomplished in the past year in a broadcast over Radio Station CKOK.

PURCHASE CAR LOT

Follock Motors Ltd. has purchased a portion of the Pinco orchard at the top of Peach Orchard and has started work clearing off fruit trees so that a used car lot can be created.

To Enforce Traffic Law Right Away

Standards for all traffic signs have now been placed and most of the signs have been affixed to the standards to correspond to the new traffic bylaw which recently became law in the municipality.

RCMP Constable I. G. Thorsteinson has been requested by council to make a thorough check to ascertain that persons are respecting these traffic notices.

All the thirty mile per hour signs have been erected except two for Garnet Valley, which will go in at once.

Yellow lines on the Granville and Hastings streets sidewalks will be painted shortly designating no parking at street corners and fire hydrants, also indicating bus and taxi stands.

Parallel parking is now in force on all roads except Granville street. Marking of angle parking lanes on Granville will be delayed until spring.

It was also pointed out that no parking is allowed closer than 20 feet to any sign erected on the roadside.

Cases of vehicles being parked in front of signs thus obscuring them from view of other drivers were heard at Tuesday's council meeting.

Several expressions of approval have been passed on to individual council members over these signs while the general impression is that the 30 miles per hour warning signs have tended to stop excessive speeding on the main thoroughfares.

Healthy Balance Left in Water Bylaw Account

There is still \$6,000 in the special municipal account from the bylaw money raised for the domestic water service extension to the north bench and Crescent Beach.

Engineer R. A. Barton's account has not been submitted yet and there may be a few other bills but even then a substantial saving will accrue over the original estimate.

This money will be set aside in a savings account and will probably later be used to purchase bonds, it was intimated at Tuesday's council meeting.

No use can be made of this money for any municipal expenditure until another bylaw designating such use has been approved by the taxpayers, council was warned.

Purchase Supplies For Cemetery Care

This year there was set aside in cemetery fund account in the municipal estimates a sum of \$150 for cemetery improvement. It was proposed this money would be spent this fall, but because of inclement weather no start was possible after the apple harvest.

On Tuesday, E. H. Bennett and Dr. James Marshall of the cemetery committee obtained council approval to purchase about \$100 worth of chemical to kill grass and weed growth between the graves and about \$50 worth of cement.

The chemical will be applied early next spring while the cement will be used to further the curbing already started.

Alterations Near Completion as Baptist Church Marks Anniversary

The forty-fifth anniversary of the Baptist church was observed on Sunday, Nov. 26, with special services, and with a congregational supper on Monday evening.

It was aimed to have the outside of the church finished by this date and a great deal of the work had been done, following the recent extensive addition to the original building.

The gables are being stuccoed in cream and the lower part of the edifice finished in tan cedar shake, unifying the building, and making a fine exterior to the church.

Rev. Dr. W. C. Smalley, general secretary of the Baptist Union of Western Canada was the speaker at the morning service, and there were beautiful floral decorations

which are always so lovely in this church.

The choir had prepared special music for the day, too.

Rev. D. O. Knippel, the minister, spoke at the evening service, tracing the history of the church up to the present time. Both services were well attended.

About a hundred attended the excellent supper, convened by Miss Barbara Braun, assisted by Mrs. C. H. Elsey, Mrs. H. Brown, Mrs. A. Arndt and Mrs. N. Buddingh.

Rev. A. Willis of Vernon addressed the gathering following the supper, the choir sang, and Mrs. E. Bergstrom was a soloist.

Mr. C. V. Nesbitt gave the report of the finance committee saying that the financial objective for the day had been obtained.

Rickey Sharpe, 13-year-old world's champion wheat king from Munson, Alta., is shown at the world grain championship presentation ceremonies at the Royal Agricultural Winter Fair in Toronto. He won the CNR trophy as well as an engraved silver tray and cheque. At the left is A. J. Lomas, vice-president, central region, CNR, while in the centre is Lord Digby, DSO, MC, deputy president, Royal Agricultural Society of England, who opened the grain show.

Ellison Hall Renovation and New Municipal Hall Votes To be Presented Together

There will be no vote on Ellison hall until it can be placed before the ratepayers along with a money bylaw vote on the proposed municipal hall.

This was the statement given out at Tuesday's council session by Reeve C. E. Bentley. Otherwise, there was no comment on future plans.

Council is endeavoring to obtain estimates on all phases of renovation work at Ellison hall. After the complete picture is gathered, council can decide what portion of the work should be included in a money bylaw vote.

McCarte & Nairne, Vancouver architectural firm, is being asked to supply plans for the municipal hall which it is proposed will be erected on Granville street east of the Summerland Box Co. office.

Once plans have been agreed upon and estimates provided of the municipal hall cost, then the two bylaws can be submitted to the ratepayers, it is suggested.

Discuss Power Possibilities For New Arena

It is estimated that the lighting load of the new hockey-curling arena will amount to 17 kilowatts, council was informed on Tuesday afternoon. George Stoll, rink association prexy, intimated that provision should be made now for power to be installed at some future date.

If the interest in curling is aroused which takes place in other centres then the curlers will want to have artificial ice, Mr. Stoll pointed out. The pole line should be built now to take care of a power line when required, he thought.

The electrical department is considering taking the line down the road bordering the east side of the park and then east to the rink. This would be a long connection but would be the best in the long run, it was suggested to Mr. Stoll.

Particulars of the cost in this connection will be estimated when the rink association submits an application for the service.

Application for domestic water to serve the rink and three lots on the Campbell subdivision has already been made and it is estimated that the cost will be approximately \$780. The municipal allowance at \$144 per lot would leave \$204 for the four applicants to put up before the service can be given.

If two more lots were sold and required domestic water the service could be installed without charge to any of the applicants, it was pointed out.

OFFER INDEMNITY FOR RIGHT-OF-WAY

Municipal Clerk Gordon Smith told council on Tuesday that Municipal Solicitor John S. Atkins proposed that the council offer J. E. Jenkinson absolute indemnity in return for a right-of-way over his property for the municipal electrical line which crossed his property. Mr. Jenkinson has been endeavoring for some time to obtain some redress from the municipality because the line was strung over his property.

Council Jokes About Foreman's Muddy Appearance

Water Foreman E. Kercher arrived at Tuesday's council session with an appearance of having been working in a considerable quantity of mud. His boots were well coated and so were portions of his clothing.

He looked rather sheepishly down at his soiled garments and remarked that he was rather muddy.

"By cracky, when we get the new municipal hall you won't dare to come in looking like that," laughingly remarked Councillor Eric Tait.

But Mr. Kercher was just as quick with his laughing rejoinder: "By the time you get a new hall I probably won't be here."

But it was really all in fun.

One Hurt in Car Collision Saturday

Cars driven by Les Gould and Glen Warren collided on the South Prairie Valley road at 7:45 o'clock Saturday morning. Cause of the accident was given as due to slippery road and poor visibility.

Jack Prior, a passenger in the Warren car, was taken to hospital for treatment of cuts about the face and head.

Extensive damage was done to the two vehicles, the Gould car being estimated at \$250 and the Warren auto at \$125.

RCMP Constable I. G. Thorsteinson states no charges will be laid.

Ratepayers Meet Saturday

This Saturday afternoon the annual ratepayers' meeting is being held at the IOOF hall.

School Board Chairman C. J. Bleasdale will start the afternoon's proceedings with a report on school progress during the year and will then be followed by Reeve C. E. Bentley and his councillors. It is expected that a full report on the year's activities will be provided by the head of each department.

Discussion will probably be sought on the subject of the new municipal building and also Ellison hall renovation.

POLE LINE PROGRESS

Progress is being made in the establishment of the new pole line from the switching station over Giant's Head to the Station road and south to the box factory, Councillor F. E. Atkinson reported to council on Tuesday.

Petition for Beer Parlor Plebiscite is Circulated; New Hotel in Prospect

Possibility that Summerland may have a new, modern hotel with at least twenty rooms and provision for a club banquet hall and cafe facilities has been voiced here this week with the announcement that a petition is being circulated requesting the provincial government to allow a plebiscite on establishment of a beer parlor in this community.

Allen Holmes, proprietor of the Nu-Way Cafe and Hotel, has been granted permission by the government to circulate a petition requesting such a plebiscite.

It is understood that more than half the necessary names have been subscribed already.

Mr. Holmes has employed canvassers to undertake a review of the Summerland district and obtain names on the petition requesting the government to grant a beer plebiscite.

Only those persons who are properly registered on the last provincial voters' list as residing in West Summerland or Summerland polling divisions of South Okanagan electoral district, are allowed to sign the petition.

Persons who are not on the voters' list and who wish to become registered may do so by filling out the regular provincial form. There are a number of copies of these registration forms available in Summerland.

May Vote Next Spring
It is probable that the petition will be completed in the next two weeks and will then be forwarded to the provincial secretary's office in Victoria where arrangements for the plebiscite will go forward.

There is little likelihood of the plebiscite being called before March or April.

In an interview this week, Mr. Holmes states he is prepared to erect a modern hotel, with at least twenty spacious rooms, in a central location in the West Summerland area, if the plebiscite is successful.

Adequate provision would be included for banquet facilities and he would probably include a cafe along with the banquet room.

Asked concerning the possible site, Mr. Holmes was reticent but it is stated in some quarters that a portion of the Charles Wharton cherry orchard now owned by John Dunn adjacent to the Living Memorial park playground might be a possible location.

It is necessary to obtain 35 per cent of the voters' list on the petition for a beer plebiscite. The West Summerland and Summerland lists in the last provincial election numbered 2110 names, so that 740 names would be necessary on the petition.

Earlier this week the number of persons who had signed the petition totalled about 400, it is reported.

Cost of a modern hotel of this nature would be between \$50,000 and \$60,000, it is presumed.

Roads Get Shaling Council Informed

A general program of shaling is being carried on by the municipal roads department, Councillor Eric Tait told council this week. Generally speaking, municipal roads are in good condition.

He had no sooner made this statement than other councillors told him of various roads which need attention and Councillor Tait was busily employed making further notes for his department.

The wet weather this fall has shown a bad flaw in the policy of using calcium chloride on roads, Councillor Tait remarked. In such weather these roads have become greasy and messy, he stated.

GO TO ENDERBY TODAY

Reeve C. E. Bentley and Municipal Clerk Gordon Smith are attending the quarterly conference of the Okanagan Municipal Association in Enderby today.

No Decision on Teachers' Salaries Can be Made Before Mid-December

At the regular meeting of the school board, Monday evening, Nov. 27, it was decided that agreements with the teachers' salary committee cannot be finalized until after the executive and valley trustees' meetings to be held on Dec. 7 and Dec. 13 respectively.

The secretary was asked to write to indicate this to the teachers' representatives who it was expected, would agree to this since any settlement will be retroactive from Jan. 1, 1951.

It was regretted that only half of the fin pipes for the new school arrived in a shipment received last Saturday and though they had all been shipped, part had gone to a wrong destination and were being traced.

The flooring men are here and

Lloyd Fears Affect of Rail Rates

"After practicing every economy we can devise, on an average of all markets, it costs six cents per pound to get fruit into the hands of the consumer. It would cost that if we gave the fruit away."

Such was the statement of A. K. Loyd, B.C. Tree Fruits Ltd. president, to the B.C. Federation of Agriculture session in Vancouver last week.

He declared that if freight rates continue to rise the fruit industry of Canada would be liquidated.

Mr. Loyd stressed that the fruit turnover is nearly \$25 millions each year, providing a livelihood for 100,000 persons while paying for costs amounting to between \$7 and \$10 millions. Transportation costs \$5 to \$7 millions.

"There are three formidable obstacles to progress: "Artificial restrictions in markets with which we can trade.

"Increased cost of production in the preparation of the product."

Mr. Loyd indicated that the rate to Winnipeg had risen from \$1 to \$1.79 per 100 pounds while the rate to Minneapolis is \$1.52 and to New Orleans it is \$1.57.

"The European market is affected by sterling and the Marshall Plan. Europe is largely out, except for barter; and barter is tough."

Alex Mercer, manager of the Fraser Valley Milk Producers' Assn. was re-elected president of the B.C. Federation of Agriculture with Ivor J. Newman, BCFGA president, re-elected vice-president.

Snow Hampers Turn-out to Band Concert

The heavy snowfall of the late afternoon, Thursday, Nov. 23, kept many away from the concert given that evening by Summerland Band in the Youth Centre.

A fine program had been prepared under the band leader, Mr. H. W. Pohlmann, and it was a great pleasure to those who braved the slippery roads in order to be present.

Unfortunately for the band organization, the concert did little to raise funds needed to wipe out the band's debts from purchase of uniforms and other supplies.

Marches, waltzes and overtures by famous composers were well dispersed in the program, while one or two novelty arrangements added to the variety. The drum majorettes in their white costumes with batons twirling were given an appreciative response.

It is understood the band may stage another concert in the holiday season.

No Decision on Teachers' Salaries Can be Made Before Mid-December

there is still hope that the building may be fully occupied by the first of next term.

Tuition fees of pupils attending from the experimental station came up for further discussion and another letter regarding the matter is to be sent to Hon. James Gardiner, federal minister of agriculture, and a copy to Mr. O. L. Jones, M.P. who is conversant with the subject and has already discussed it with the minister.

A letter from Kolowna stated that road equipment was not available for another month to do work on the Meadow Valley road where Trustee Aubrey King had asked for corners to be removed and other improvements to facilitate school transportation.

Directors Report this Saturday

THIS Saturday afternoon, directors of the biggest concern in Summerland will give a report to the shareholders on the year's activities. And we wonder how many shareholders will be present for the annual meeting of ratepayers called by the municipal council?

We hope that the hall will be filled to capacity but we doubt if such will be the case.

Besides hearing the reports from various departments, it seems to us that a clearer picture of

the financial standing of the community should be prepared each year for this annual meeting.

It can be understood that the hard-worked municipal office staff could not be expected to prepare any detailed statement of expenditures and revenue but a general picture of municipal financial standing, given in a manner which would be understandable to the layman would be a welcome addition to the annual reports.

The Happy Hospital

THERE'S a "happy" hospital whose bright, cheerful patients, far from dreading a trip to the operating room, look forward eagerly to such an event because they know it means another step towards health and happiness.

It's a big, fully equipped modern hospital like many others in British Columbia, but with this difference: All its patients are children, ranging in age from infants to 14-year-olds.

It happens to be located in Vancouver, on the slopes overlooking the Fraser River, but it belongs to all the children of British Columbia.

From all over the province they come, the sick, the crippled, the seriously injured. From the Fraser Valley, the Okanagan, the Kootenays, Northern British Columbia, upcoast, Vancouver Island, metropolitan Vancouver.

Their courage, their cheerfulness, their complete confidence in the highly skilled staff of doctors

and nurses who operate Children's hospital is something so moving that it just can't be adequately described in words.

There's no price tag on treatment at Children's hospital. No parent has ever been sued because he couldn't pay the bill. If they can afford it they pay. If they can't pay all, perhaps they can pay part. (But 70 percent of the cost of medical treatment at the institution is written off every year.

Each year Children's hospital must find over and above government grants and other revenue approximately \$100,000.

Right now Children's hospital, through the annual March of Dimes drive, is asking the people of British Columbia to make an investment in the health of their children.

Could any investment yield richer dividends: Health and happiness for a sick or crippled child? Put your dime in the red and blue can today.

Signifying Nothing By RUSTICUS

"Half the people of the world will go to bed hungry tonight, and tomorrow night, just as they did last night..."

There is something appalling in that brief quotation from the Director-General of FAO. Here we complain of the high price of sirloin steak; and hear the people of the world aren't getting enough to eat of any kind of food. Not enough, even, of rice-cake, of soybean loaf, of black bread—with never a taste of meat for the men, of milk for mothers or children.

Half the world goes to bed hungry every night in the year. Even at Christmas they'll be going to bed hungry. Only 17 more snoring days to Christmas, folks, buy your Christmas turkey soon. Fourteen billion dollars to be spent on Christmas gifts in the United States this year. Peace on earth, goodwill to men.

Ever try to imagine what it would feel like never to get a full meal, day after day, week after week? Or see your children growing up with skinny bodies and swollen tummies of half-starved animals? Ever wonder how you would look on rich and prosperous North America if you were a foreigner with the little foxes of hunger gnawing underneath your ribs every hour of every day?

It will may be that food is the key to world peace, for hunger is a good breeding ground for hate; and there is a close connection between food and peace. We connect the two ourselves at Christmas time. Would we need to dread the

'hungry hordes' of Asia and Europe if we saw to it that they were hungry no longer?

It surely ought to be worth trying. All over both Americas farmers are worried about surpluses; both Canadian and United States governments are buying and hoarding huge stocks of food in order to maintain prices. Why don't we ship all this surplus food to countries that need it, before it rots—and as much more as we can raise? It seems weird that we complain of loss of markets for agricultural products when half the world goes to bed hungry every night.

True, it would cost money to ship and distribute that food. But war costs money, too, and more than money. We are having it dinned into us daily, via press and radio, how terrific are the costs of our new re-armament program; wouldn't it be better to devote a few of those Christian billions to feeding people instead of killing them?

And it wouldn't hurt us individually to come down from round steak to pot-roast, instead of always striving for that sirloin, if thereby we enabled the rest of the world to get enough to eat. Even for once. Even just of rice-cake, or soybean-loaf, or black rye bread.

Only neither you nor I will do anything about it. We're too unimportant, too helpless; it's a good excuse. And there's only peace and Christianity in it, instead of money, so it won't interest the important people, either. Peace is

like the weather, we all talk about it, but nobody makes any real effort to do anything about it.

Which is too bad, for it wouldn't take many people pushing for peace to be effective. Used to be an old fellow at the League of Nations who paraded around wearing a big white lapel button with '2%' on it. He claimed that if only 2% of the world's population actively wanted peace, war would be impossible.

Even less than that would do it, if they controlled a few newspaper or radio outlets. In fact, a fellow came up the other day with the suggestion that if publication of war rumors and news in newspapers was made a criminal offence throughout the world, there'd be no more wars. Certainly there are times when it would seem that our newspapers and radio couldn't try much harder to whip us into a war-like frame of mind if they were paid propaganda outlets for armaments makers. Maybe the author of that suggestion thought they were; he was a Russian.

But shucks, why get all worked up over things like these? What difference does it make to you and me if half the world goes to bed hungry every night, as long as we don't? And the League of Nations is dead, and everyone knows that the Russians are just war-mongers. What are you planning to have with your Christmas pudding, my dear, hard sauce or lemon? There's an English milk sauce that is rather nice, you know...

Teen Town

The dance last Saturday night started quite late, but ended up being quite a success. It seems that the ladies' tag is the only thing that kept it going. I think the girls should be boys when it comes to men's tag.

Don't forget you are all invited to the Kiwanis Old Time dance this Friday night. Here's your chance to get a lot of fun free. All members of Teen Town get in free but the non-members have to pay 25c. Refreshments and square dancing are being provided by Teen Town. The dance starts at 9:30 and is at the Youth Centre.

We hope you haven't forgotten about the Parent Social on the 9th of Dec. Don't forget to invite your parents in case you haven't yet. All parents who haven't any children attending Teen Town are cordially invited to attend. We hope to see you all and your parents there. Admission is 50c for each person but refreshments are going to be free with the exception of pop. Good music will be played by Ken's Men so let's see everyone there 8:30 on the dot. The tickets on the raffle will also be drawn. If you haven't got one yet, remember they're still on sale. Just ask any council member. That's all for this time but remember the dance this Friday night, eh?

High School COMMENTS

The school debating team has been organized and the four to represent the school are, Jacqueline Trafford, Margaret Myers, Donald Allison and John Palmer.

The students' council held a meeting on Monday. The project on hand is the buying of a grand piano for the new auditorium. The rough estimate cost is \$1,500. To raise money, the council discussed the plan of sending letters to all those who have attended Summerland high school from as far back as the records show. The immediate problem is securing the addresses of these former students. Each person who receives a letter will be asked to donate a small sum of money. It is hoped that everyone will co-operate.

Remember the date, December 7. That is the day of the hot dog sale, which is being arranged in order to raise money for the cheer leaders' uniforms. The cost per "dog" is 10c, so everyone should be able to afford at least one.

As far as it is known, the Christmas banquet and dance will be held on the last day of the term, December 19. The Kiwanis were planning a dance for that night, but they have generously agreed to alter their date, so the school can have its traditional Christmas social.

The Christmas edition of the Chaff is well under way.

BOY SCOUTS ACTIVITIES

Troop attendance of Tuesday's meeting was 32, just two short of perfect. Parents of Scouts are reminded that absence from two consecutive meetings without a written or phoned excuse to the Scoutmasters means that a boy will be dropped from strength.

Two of our senior boys have left the troop, King Scouts Lorne Carston and George Pohlmann. The troop will certainly miss them, but they are being ably replaced in their Buffalo patrol by newly-appointed P/L Terry Coggan and Second Jack Pohlmann. George Pohlmann is continuing his Scouting work as assistant in the 1st Summerland Wolf Cub pack.

The Cougar patrol, started a year ago to take care of the big influx of recruits has served its purpose, and is now disbanded, the boys in the patrol being distributed among the regular four patrols. The four-patrol organization will make troop administration much easier.

At Tuesday's meeting two 15-minute interpatrol basketball games were played with the two patrols off the floor trying their hand at two sets of Kim's game. In this game several tenderfoot Scouts passed their second class Kim's game test.

In connection with fireman's badge requirements, Joe McLachlan gave the senior Scouts an instruction period on the operation of a hand-fired furnace, using the Anglican church furnace for demonstration.

A period of instruction was given on signalling, 2nd class first aid and tenderfoot tests.

This coming Saturday afternoon 3rd Penticton troop is visiting Summerland for a basketball game at 2:30 o'clock. Refreshments will be served afterwards. There will be a basketball practice Thursday afternoon at the Youth Centre after school for the team.

In the new patrol competition, points stand at Hawks 40, Buffaloes 39, Beavers 38 and Eagles 34.

Notices—Next meeting Tuesday, Dec. 5, at Youth Centre. Duty patrol, Beavers.—D. V. Fisher.

Singers & Players Club

"Here Comes Mr. Jordan". Well, sometime next spring anyway. The Players have finally decided upon this play as their choice for the season. It is a comedy sure to provide everybody with an excellent evening's entertainment. The movie version was a tremendous popular success.

It is not, however, all quite plain sailing yet for Lacey Fisher and his associates. Taking into consideration the members who have been to some of the meetings only, it was felt that this play should be ready to cast but last Tuesday evening there were not quite enough present to make this final and decisive.

Of course, it is men who are required and if those who have not been coming to meetings will turn out next Tuesday the final casting problem should not be a difficult one.

With this disposed of our second program will be put into operation and Mrs. J. Y. Towgood will take charge of this, beginning next Tuesday evening. Mainly, this will be the preparation of a one-act play and should prove a great deal of fun and interest for those not included in the major production. It is hoped that we will be able to run the second program as a complete unit; that is, with its own stage crew and so forth. This also should be put into working order next Tuesday evening.

By common consent the Singers have decided between now and the Christmas holidays to give over the part of the three remaining Tuesday rehearsals to the preparation of Christmas music; carols, excerpts from the Messiah and other favorites being suggested by various members. The excellent progress being made on "Patience" makes this possible, but in a sense it is only a stop-gap move since we still lack the full attendance we require to maintain our previous excellence of chorus work.

If some more singers would only indicate now that they will join us at least by the first rehearsals in 1951 we should feel more secure in our plan for producing "Patience" next March.

GUIDE NEWS

1st Company

Prior to the very enjoyable party put on by the Legion Auxiliaries, a short meeting was held.

Barbara Baker completed her second class tests and Alma Lekei passed her tenderfoot flags.

Company Leader Jill Sanborn took semaphores with the younger Guides while the PLs and Seconds made plans for Parents' Night and the radio program for Dec. 9.

Mrs. John Caldwell will take the remainder of those Guides trying for their laundress badge Monday, after school.

2nd Company

A short meeting was held on Friday night prior to the lovely party put on for both companies by the Legion ladies. New uniform parts were given out and a review in semaphores was held. There was a great improvement shown over last week. Next week there will be a general review in first aid and bedmaking.

Last spring letters were written by our Guides to Guides in far-off countries to form "pen-pal" friendships which are an important link in the sisterhood of Guiding. At the last meeting a letter from a Guide in Sweden, a pen-pal of Frances Atkinson, was read. It was decided that it will be discussed again and that Guides who have recently joined the company will have a chance to form interesting friendships with girls in other countries.

It has been decided that the tea will be held on Saturday afternoon, December 16 and a practise for the entertainment will be held at the next meeting. This tea, the refreshments and entertainment will be entirely the responsibility of the Guides in order that they gain credit for their hostess badge.

Next meeting—Youth Centre—Wednesday, Nov. 29, at 7 p.m.

HOW DO WE LOOK TO OTHERS

What is Canada in the eyes of the world? A young country still, immensely wealthy in natural resources which are being rapidly developed, a land of opportunity in every field of endeavor.

What is the average Canadian in the eyes of the world? A man with every opportunity for a free, healthy and happy life, who can aim to any place in life for which his ability and ambition fit him, and who knows his sons and daughters, if they have initiative and ability, can achieve whatever they set out to do.

Our farmers are not peasants or serfs, but independent producers whose comfortable homes, good food, facilities for the education of their children and pleasures in general would appear a miracle to hundreds of millions in other lands.

Our workingmen bargain freely for their share in the fruits of their labor. They are free and independent — no one to tell them where and when they must work. All have the opportunity for free and abundant lives. The managers, the presidents, the big employers of today have come from their ranks — and will tomorrow.

A pretty good country, Canada, through the eyes of the outside world. Its freedom and its opportunity system are worth preserving.

Mrs. Strachan New President U B C Alumni

Mrs. C. C. Strachan was elected president of the UBC Alumni Assn., Summerland branch, succeeding W. C. Wilkin, when the annual meeting was held Wednesday evening, Nov. 22 at the home of Dr. and Mrs. R. C. Palmer.

Dr. Maurice Welsh is vice-president, Mrs. Lacey Fisher secretary-treasurer, G. G. Brown press representative and Mrs. G. E. Woolliams refreshment convenor.

Principal undertaking of the year, as outlined in Mr. Wilkin's report has been the organization of the film society.

Mr. Woolliams, reporting on this activity, stated that 177 tickets were sold and that the first two showings of the series of seven were successful.

Dr. Palmer, as a member of UBC Senate, outlined some of the university activities. He stated that enrolment is 1100 lower than last year due to the loss of many veterans. He also stated that three out of the four women's residences would soon be ready for occupancy.

Refreshments were served by the hostess at the meeting's conclusion.

March of Dimes Contest Saturday

Council permission was granted the board of trade March of Dimes committee on Tuesday to conduct a campaign this Saturday afternoon to endeavor to stretch a row of dimes right along the sidewalk edge from Pender to Hastings on Granville.

E. E. Bates, trade board committee chairman, wrote council this week seeking permission.

All the dimes collected this Saturday will be forwarded to the Crippled Children's March of Dimes campaign headquarters.

An earlier story on this project can be found on Page — of this issue.

Summerland school students are being asked to supplement the efforts of the trade board committee by each contributing a dime to a central school fund.

Both the students' council of the high school and elementary school officials have agreed to such a campaign.

FINAL READINGS GIVEN

Final readings of the West Kootenay power contract bylaw and the new building bylaw, which becomes effective January 1, were given at Tuesday's council session.

Visiting Clergymen Attend Church Sale By Lutheran Ladies

To guess the number of yards of thread in a crocheted apron was one of the contests at the Christ Lutheran church sale last Saturday evening, Nov. 25. Some of the men present thought it might be in the thousands but the correct answer was 807½ yards, and even that represents many hours crocheting.

The pastor of the church, Rev. Mr. Vorath, Kelowna, spoke, as well as visitors, Rev. Mr. Hoffield of Regina, president of all Lutheran churches, and Rev. Mr. Moore, Calgary, in the valley for the opening last Sunday of the new Lutheran church in Kelowna.

The president, Mrs. Fred Schmidt, opened the bazaar with a short address and welcomed the guests at the door.

The Ladies' Aid of this church specializes in making paper flowers, and table centres of yellow and white water lilies were part of the display this time.

The small tables were bright with poinsettias and two crocheted baskets filled with paper sweet peas were part of the decoration and were later sold.

Mrs. E. Harbicht sold the flowers which brightened the end of the hall and Mrs. J. Heichert, who was responsible for much of the lovely crocheting, looked after this stall and the novelty one.

Mrs. Ivan Nelson attended to the knitting booth and Mrs. Wm. Kopp and Mrs. J. Felker sold aprons and candy.

Home-cooking was the responsibility of Mrs. J. Kilback and Mrs. A. Turigan.

For the children a lighted Christmas tree held small parcels which were purchased from Mrs. Thomas.

Mrs. Wm. Huva convened the refreshments, having Mrs. A. Leikel, Mrs. A. Felker, Mrs. R. Jesse, Mrs. Wendell and Mrs. P. Hollinger as her assistants. Girls of the Luther League served graciously.

Mrs. Wagner donated a tufted cushion which was won by Mr. J. Heichert.

Visitors from Oliver for the affair were Mr. and Mrs. George Miller.

Christmas Setting For Well Attended Anglican Bazaar

All of the pre-Christmas bazaars have been extremely well attended this year, and last Saturday, Nov. 25, the parish hall was crowded when the Evening Branch of the Women's Auxillary held its annual tea and sale.

The setting was a Christmasy one with colored lights shining out from little trees around the room and a wintry village scene set out on the top of the piano. Each small tea table was centred with a lighted candle adding flickering brightness to the tiny fir cones surrounding it.

Mrs. F. V. Harrison opened the bazaar officially and the president, Mrs. E. C. Bingham greeted the guests.

There was a very good stock in all the stalls and many novel ideas made into useful gifts.

At the baking counter where weekend food supply problems could be easily settled were Mrs. Earle Wilson and Mrs. Bert Berry. Nearby were the aprons sold by Mrs. A. R. Dunsdon, Mrs. Ryan Lawley and Mrs. B. T. Washington.

Mrs. C. Smythe and Mrs. N. O. Solly selling novelties were as interested in showing them as the buyers were to hear about them. The cosy knitted articles were taken care of by Mrs. T. B. Lott and Mrs. A. K. Macleod.

The kitchen staff had a busy time serving tea and consisted of Mrs. D. L. Sanborn, Mrs. D. Turnbull, Mrs. Lacey Fisher, Mrs. A. Moyla and Mrs. Ralph Downing.

Mrs. W. L. Evans was responsible for the attractive decorations throughout the hall, and Mrs. Moyla for the table decor.

Commissioner Tells of Girl Guide Progress

Mrs. W. H. Durick gave an excellent, well-defined report to the Girl Guide Local Association, Thursday afternoon, Nov. 23, at the regular meeting in the Youth Centre, telling of the work of the South Okanagan division as outlined at the Osyoos gathering recently.

Mrs. Durick said that to her the divisional meeting was a "short course in Guide administration" and remarked that for a successful, harmonious group each individual, and each unit, must do the part expected as well as possible.

Another speaker at the meeting was the divisional commissioner, Mrs. E. A. Titchmarsh, Penticton, who told of the growth of the Guide movement in South Okanagan since the division was formed in May, 1949. The Similkameen has been taken into this area, and a district commissioner, Mrs. Whitehouse, appointed.

Mrs. Titchmarsh thought that enthusiasm for detail and executive work sometimes overshadows the aim, and it is important to remember always why the work is being done.

It was announced that Mrs. W. A. Holden, Penticton, had been appointed district commissioner for Penticton, Naramata and Summerland.

It was urged that all association members become enrolled members and so part of the growing Guide family.

Mrs. Lawley, Brown Owl of the second pack, enlisted the help of the association, at a Brownie Christmas tea, and a committee consisting of Mrs. F. Schumann, Mrs. T. B. Lott and Mrs. George Graham, was appointed for the purpose.

Members were asked to save grocery coupons so that cutlery may be obtained for the Youth Centre. Further donations of china and tea towels were received.

Accompanying Mrs. Titchmarsh from Penticton was Mrs. Tidball, a cubmistress, who spoke briefly. Mrs. Tidball was sent last summer by provincial headquarters to the Canadian Scoutmaster training course at Ottawa, and gave a vivacious account of the camp held there. She said that a Gilwell training course for cubs will be held in the Okanagan next summer and that she will be one of the instructresses.

Guides Entertained By Legion WA

The Women's Auxiliary to the Canadian Legion generously expressed their gratitude to the Girl Guides who sold poppies this year by treating them to a lovely party in the Youth Centre on Friday evening, Nov. 24.

Following meetings of both companies the auxiliary arranged films to be shown, two reels being projected by Reeve C. E. Bentley. One showed the development of the use of wax and was interesting and instructive. The other was a comic strip.

Two contests were planned as further entertainment. Prizes for the first were won by Margaret Marshall, with Margaret Lott and Joyce Dunsdon in a tie for second prize.

In the second amusing contest each Guide was asked to hold a piece of paper on her head with one hand and on it to draw a cat sitting on a picket fence with the other. The results were various and that achieved by Eileen Wilcox was judged to be the best likeness and Beryl Dodman's was second.

A game of spin-the-plate wound up the program and refreshments of hot dogs, cocoa, and large amounts of ice cream and cake were

VISITING ABROAD

Recent visitors to Vancouver were Councilor and Mrs. Eric Tait, who motored out to the coast for a short holiday.

Mr. and Mrs. J. Y. Towgood and their son, Robbie, spent the weekend in Vancouver, driving out on Thursday and returning Sunday.

Leaving Tuesday morning, Mrs. Harvey Eden accompanied her grandmother, Mrs. Leo Lentz, who was returning to her home in Bausejour, Man. Mrs. Eden will visit there for a few days before returning. Mrs. Lentz has been the guest of her son-in-law and daughter, Mr. and Mrs. H. W. Greenlees, Peach Orchard.

served by the president, Mrs. W. McCutcheon, and Auxiliary members, Mrs. J. A. Read, Mrs. A. McJargar, Mrs. C. Clough, Mrs. Harold Short, Mrs. W. Milne and Mrs. Johnston.

Christ Lutherans Open New Church

Practically all members of Christ Lutheran church went to Kelowna last Sunday, Nov. 26, for the opening of the new Lutheran church in that city.

Rev. Mr. Vorath who is pastor of the Kelowna and Summerland congregations was in charge, with Rev. Mr. Hoffeld of Regina, president of Lutheran churches, present, along with Rev. Mr. Moore of Calgary.

The Summerland choir under Mrs. Fred Schmidt sang and their music was greatly appreciated.

VISITING ABROAD

Mrs. H. A. Solly is leaving next Tuesday to spend the winter months with her son-in-law and daughter, Mr. and Mrs. Eric Randall, in Trail, B.C.

Mr. and Mrs. L. Wurst are planning to leave about mid-December to spend the next six months with Mrs. Wurst's brother in Detroit. They expect to return to Summerland district in early summer.

Junior Anglicans Take Part in Bazaar

The juniors of the Anglican church had a stall themselves at the bazaar held last Saturday, Nov. 25, by the Evening Branch of the WA.

The girls themselves made the articles offered for sale, under their leaders, Mrs. G. Axworthy and Mrs. Bob Barkwill, and realized quite a sum of money because of their efforts.

The Juniors who had put so much time and work into their part of the sale were Margaret Lott, Barbara Baker, Joan Beggs, Leona Smith, Amy Berry, Ann and Jean Kersey, Anne Macleod, Wendy Wright, Carole Anne Short, Caroline Sladen, Dorothy and Marion Dunsdon and Sheila Allen.

Mr. W. D. Laidlaw was a visitor to Vancouver last weekend.

BAND CONCERT ATTENDANCE West Summerland, B.C. November 28, 1950.

Editor, The Review:
Last Thursday evening we attended the band concert at the Youth Centre.

It was a wonderful concert and very well put on, and the boys must have spent a good many hours practise to accomplish what they did. There were several numbers that any one of them would have been worth the price of admission, yet there were very few more there than the band boys' families. There was little or no representation from any of the organizations that are glad to have the band play at any occasion that they are putting on and the band is always ready to do so.

It is wonderful to think that such a small town as Summerland has one of the best if not the best band in the Valley. It is very disappointing for the band boys when they are unable to get support, as all they are trying to do is raise enough money to finish paying for their suits and get some much needed music.

It is nice to think that the band is not around begging to get this money but are giving us entertainment that is worth every cent of the cost of admission.

The boys tell me they are going to try it once more between Christmas and New Years and if they do let it be hoped that the different organizations that they gladly play for at any time will get behind the boys and help to make their concert a success.

Yours very truly,
V. M. LOCKWOOD

VERNON—According to a board of trade proposal, the post office department is being asked that Vernon mail be carried east and west on OPA flights and brought from Penticton by afternoon transport.

New Types of Rust Preventatives Available Now for Farm Machinery

On many Canadian farms there is a high capital investment in machines and equipment, the department of agriculture points out from Ottawa.

Rust is an ever-present enemy to the metal parts of machines, whether stored outdoors or in a shed. Metal parts which have been precisely machined or otherwise closely fitted to provide a high degree of mechanical efficiency, soon deteriorate in performance when attacked by rust or corrosion.

Much of the value in well made machines is in the cost of machinery or manufacturing to close fits or tolerances. Normal wear and depreciation must be expected in return for the services gained from long periods of normal work. Loss of mechanical efficiency due to rust, however, is a loss of investment with less return of satisfactory service.

In the past paint, oil and grease have been the chief materials for protecting machines against rust. During recent years more concerted efforts have been made by research workers and technicians in various institutions and commercial firms to reduce the susceptibility of farm machinery to rust and their consequent loss in life in service.

As a result, experts of the federal department of agriculture point out, there are now available commercially-made rust preventatives by various petroleum firms which are formulated specifically for rust prevention. These rust preventatives are in the form of a liquid or soft grease. Liquid forms may be sprayed or brushed on. Thin coatings are sufficient to prevent penetration of air or moisture to the metal surfaces to be protected. The rust preventatives are easily removed with the aid of kerosene or solvent.

Axle grease, used transmission or crank case oils, as used in the past are effective for comparatively short periods. Used oil will last for two or three weeks, while thicker layers of axle grease may serve for two or three months. The new rust preventatives now on the market, however, will provide more effective protection due to their greater adhering qualities and greater resistance to moisture and air penetration, and also protection for greater periods of time. Liquid types will last 5 or 6 months, while grease type will protect metal surfaces for 12 months or more.

The Mail Bag

CANNOT AGREE WITH GRANT
Summerland, B. C.,
Nov. 21, 1950.

Editor, The Review:

At the BCFGA meeting held in the IOOF hall on Nov. 8 the retiring president, "Ned" Bentley, during his address, remarked on the low price of apples for the 1949 season. He must have known that we did not get the cost of production and that the outlook for this year is none too bright, yet he put a resolution to the meeting, which passed, to be taken to the convention, that a grant of \$5,000 be given for "research", stating at the same time that this is the sixth year such a grant has been made.

I do not think we should be called upon to give this money under existing conditions, not forgetting the loss of soft fruit, also frost damage.

We are expected to donate to the many organizations and societies which have to be supported and is more or less our duty. To me, the outlook for the grower is not good and is a grim reminder of the days of dumping and red ink.

GROWER MEMBER.

Last of the Dutch family of Roosevelt which contributed two United States presidents, is Henri Willem Frederik van Roosevelt, an Amsterdam Chinese restaurant worker.

This is how Canadian soldiers going to Korea will be dressed if they have to fight in sub-zero temperatures. The captain shown in this picture models the Korea garb consisting of a string vest, woollen shirt, lined parka, wind-proof pants, woollen socks, heavy mitts (with separate trigger finger) and high leather topped boots with rubber soles. The cap has ear-flaps and the fur-trimmed hood pulls up over the cap. Rank insignia is worn on the front buttons of the parka.

March of Dimes Drive Starts In Summerland

With Teen Town co-operating with a board of trade committee in promotional work, the local March of Dimes in aid of the Crippled Children's hospital has commenced in Summerland.

In many of the local stores, the familiar cans have been placed to receive donations for this hospital which administers to sick and crippled children from all parts of the province.

E. E. Bates is head of the board

of trade committee in charge of the project and he announces that a novel stunt may be introduced for the final Saturday of the drive, Dec. 2.

It is being suggested that an attempt be made to fill the entire edge of the sidewalk along one block on Granville street with dimes.

Definite plans for the windup of the drive have not been concluded but this stunt is being investigated.

The Crippled Children's hospital had a modest beginning in 1923 when the B.C. Women's Institute voted \$25, which opened a small office-clinic in a downtown Vancouver building.

Four years later the first hospital was a rented three-storey resi-

dence in the Marpole district and in 1933 the original unit of the present building was erected.

During 1949 11,800 treatments were given at out-patients' clinics, in-patients received 23,133 days' care and 1,124 operations were performed. The travelling clinic saw 382 children while 2,108 days of training and treatment were received in the cerebral palsy (spastic) school.

The medical staff of this hospital comprises 108 specialists while two resident doctors provide constant supervision.

Engineers call it torque - truckers call it "pull"!

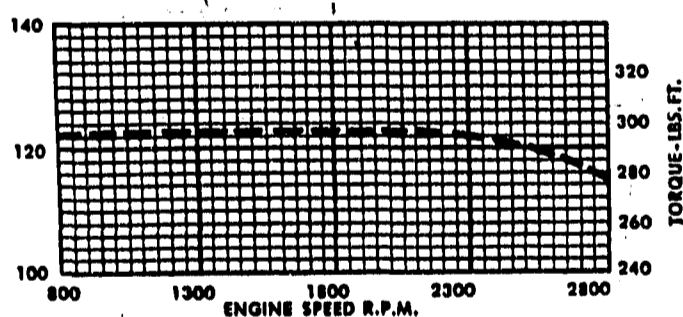

CALL it torque, or call it "pull." What we mean is **POWER** to turn wheels—to keep trucks rolling and loads moving on schedule.

You get highest sustained torque—at normal operating speeds—in a GMC valve-in-head engine. Every part of a GMC is *truck-built*, designed for long life

in trucking service under full loads.

High torque is just one GMC feature. You'll find GMC's packed with added quality—extra-value in every part of the truck. That is the reason GMC's give the *lowest-cost transportation* you can buy. Come in and let us prove that!

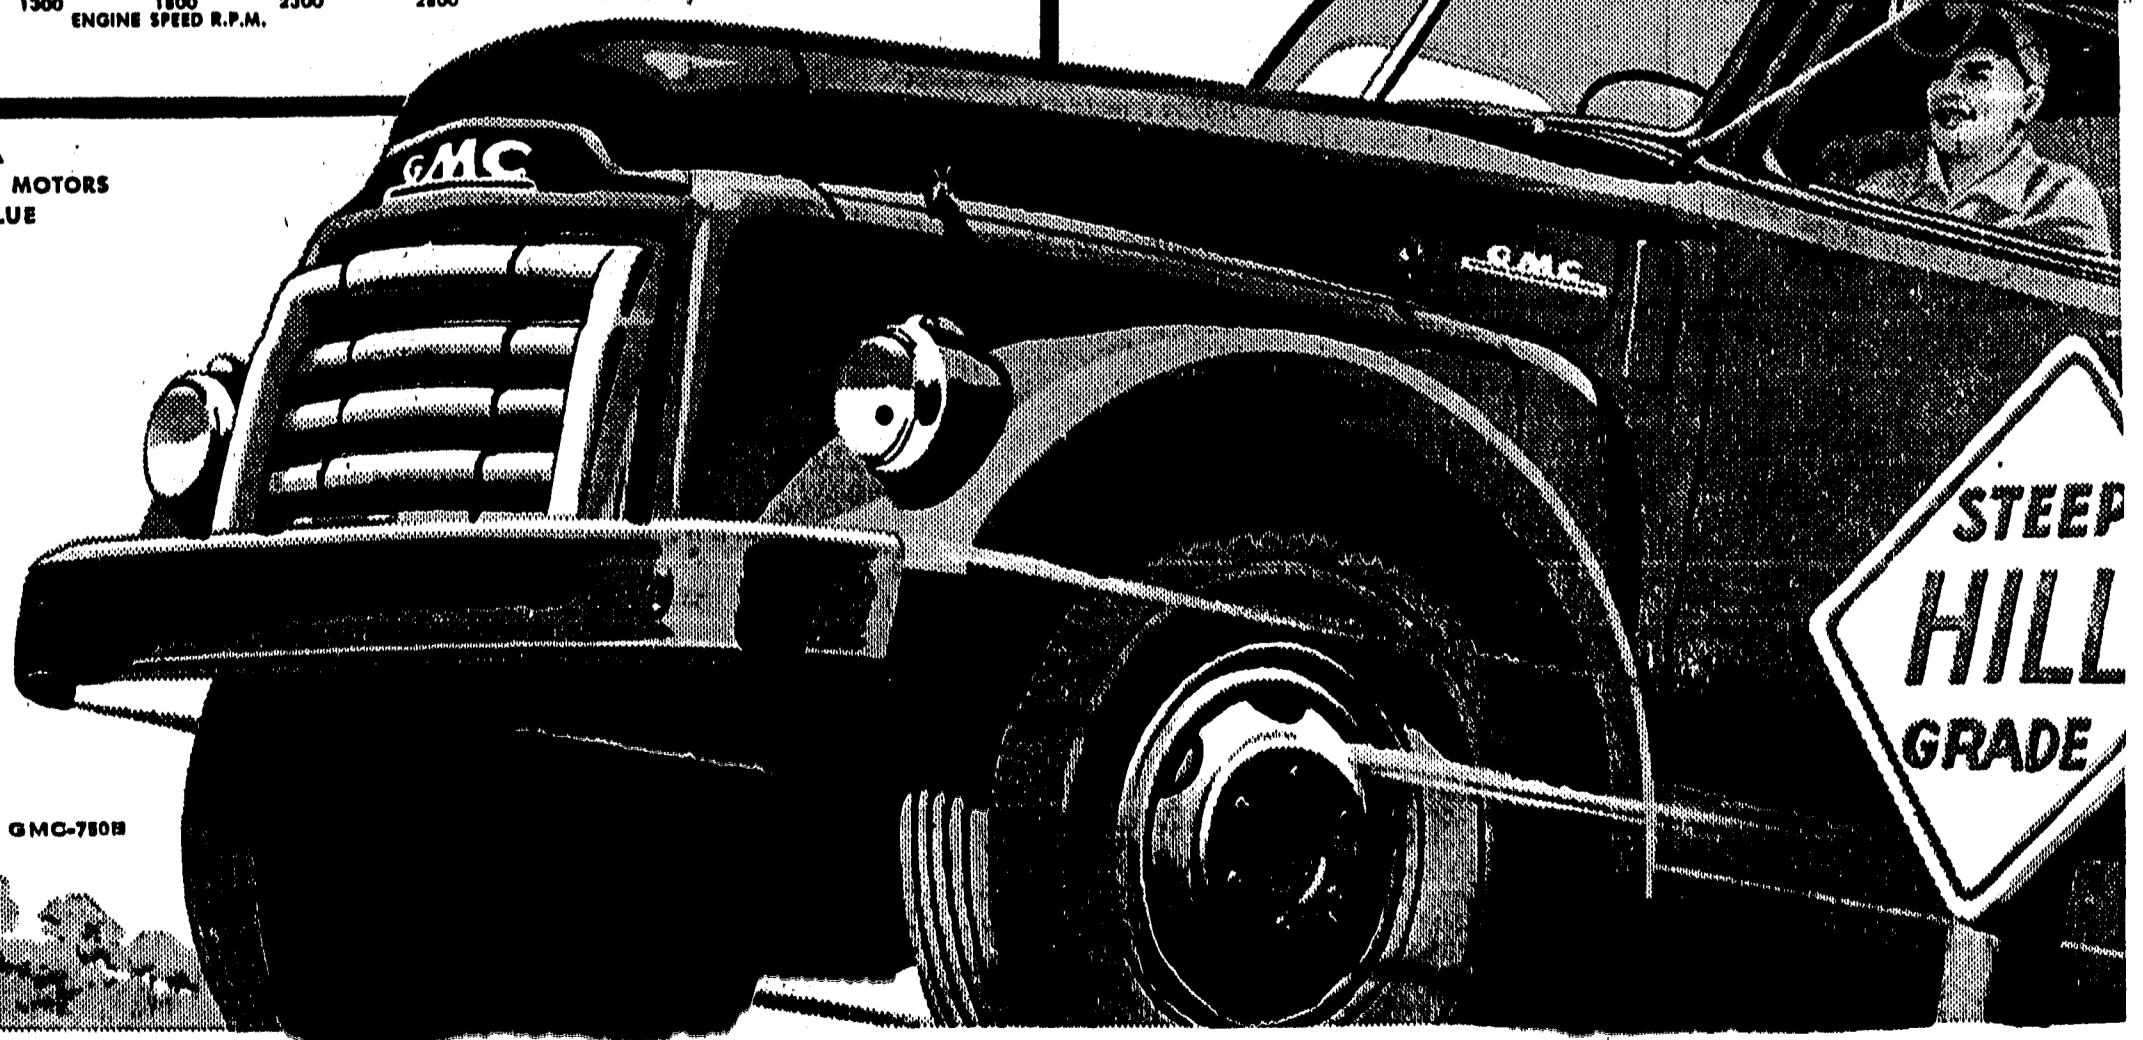

and here's where you get the most...
More "Pull" at Lower Speeds

This chart shows how GMC engines develop maximum torque at speeds as low as 800 revolutions per minute. Check the speeds in other engines before full torque is reached.

Canada Ahead of England in Secondary Education Teacher On Exchange Tells Rotarians

Miss Pat Gwyer of the Penticton high school teaching staff, who spent a year in England as an exchange teacher told Rotarians at their weekly dinner meeting in the Nu-Way Annex last Friday that Canada is ahead of the Old Country in its secondary education.

Her talk was mostly centered on secondary education schools which in 1938 adopted the tri-part system of education dividing schools into grammar, modern and technical institutions.

Children are allowed to enter grammar schools at the age of 11 on a selective examination basis, but 25 percent of the vacancies are held for scholarship students from state and preparatory schools.

If a student does not get an opportunity to enter a grammar school then the modern school is open to receive him.

One type of grammar school is the direct grant school which receives assistance from parliament, Miss Gwyer explained. The governors of the school have only one obligation in this connection and that is to reserve one quarter of the student quota for scholarship students.

Miss Gwyer observed that it is common knowledge that preparatory school students have a preference over state school students in direct-grant schools.

It was her impression that, contrary to what many persons here think, there is still a great "class consciousness" in England.

The girls' school in Manchester where Miss Gwyer taught, celebrated its 75th anniversary last year, having been founded by a group of Manchester merchants who wanted their daughters to have a more liberal education. This school has a very good standing among high schools of England, she found.

In order to be sure of enrolment in a preparatory school a child must be registered there soon after birth, she explained. Frequently, it is only possible to be enrolled if your mother, aunt or great aunt was also a student at that select institution. There is always a waiting list of many hundreds.

Experiment in Education
Miss Gwyer visited one type of school in England which is mainly an experiment in education. It is called a Comprehensive School and is co-educational. The headmaster or mistress has complete freedom in planning courses as considered most practical.

The speaker thought that Canadians might take a lesson from this system rather than adhere too rigidly to the educational programs laid down by the educational department.

At the girls school there were 50 instructresses and 500 pupils but she did not have to work as hard as in Penticton high school, Friday afternoon was free and Thursday afternoons she could visit other schools. Besides, there were numerous spare periods during the week.

Miss Gwyer felt that the most probable result of this system of two classes of secondary schools is to aggravate class distinction; that is, among students in grammar schools versus the modern schools or those in state schools versus pre-

paratory schools.

Education in England is now compulsory to the age of 16 but the English people are not accustomed yet to the system of free education, she thought.

One benefit of attendance at a preparatory rather than a state school is the variance in the number of pupils per teacher. The former has about 30 pupils per class and the latter about 50 to 60 pupils. The teacher is able to give more individual instruction in the prep school.

Miss Gwyer also told about a visit to a nursery school handling children from 2 to 5 years of age, who were allowed to do just as they pleased. Their equipment included hammers and nails, and piles of sand and buckets of water. It wasn't exactly bedlam, she stated, but there was plenty of activity.

FRANCIS J. SULLIVAN, 52-year-old Toronto lawyer and chief solicitor for the Ontario Department of Lands and Forests, whose body was found in a suite of the Chateau Laurier recently. His wife, Marion Gough Sullivan, was formally charged with the murder of her husband in Ottawa city court. Inspector Borden Hobbs of the Ottawa Police Department, said a broken whisky bottle, part of which was found in Mrs. Sullivan's luggage, was the murder weapon.

Yale Liberals To Meet Dec. 12

Annual general meeting of the Yale Liberal Assn. has been called for Tuesday, December 12 in Kelowna by A. W. Gray, president, well-known Rutland man.

Each local in Yale riding is entitled to send one delegate for every 200 voters in the division, according to the 1949 federal voters' list.

The credentials committee is headed by F. L. (Doc) Fitzpatrick of Rutland and consists of Mrs. Thompson, Penticton; Ernest Rennie, Cherryville; and Duncan McDonald, Grand Forks.

George Cruikshanks, MP for the Fraser Valley riding and the man probably known as one of the most ardent boosters for his province in the Ottawa parliament, will be the guest speaker at this important Liberal gathering.

SILVER STAR ROAD
VERNON—Vernon Board of Trade has been advised \$35,000 has been included in lands and forests estimates for construction of a highway to the summit of Silver Star provincial park.

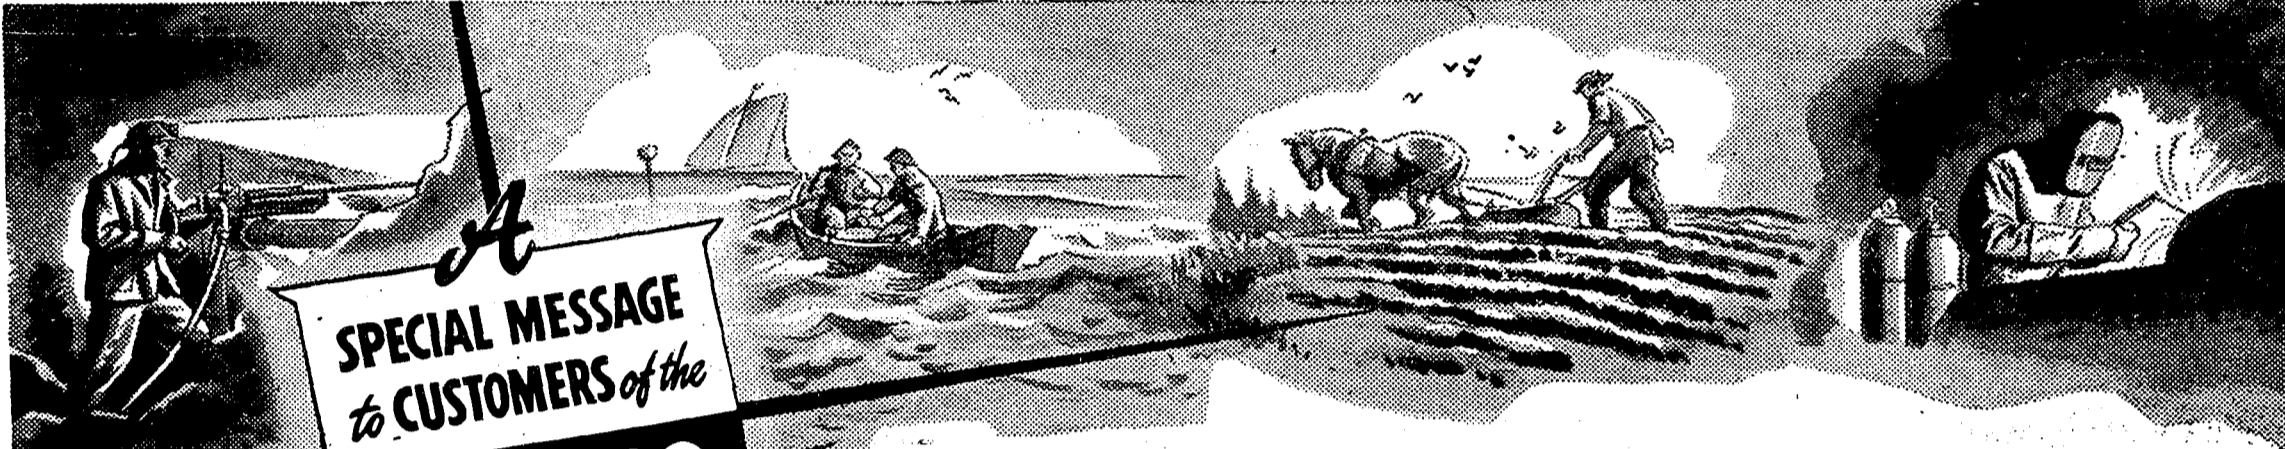

ODDFELLOWS WELCOME DISTRICT DEPUTY HERE

Cecil R. Cope, a former resident of Summerland but for the past eight years a member of Osoyoos

community, visited here Monday evening in his capacity as district deputy grand master of the IOOF lodge. He paid his official visit to Summerland lodge and was welcomed by local Oddfellows.

Your 2 Billion Dollars are BUSY... working with Canadians in every walk of life

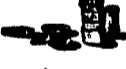

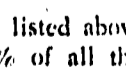

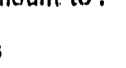

This is the money that you and 1,800,000 other B of M customers have on deposit at our branches across the nation. Through this money, you are helping to finance hundreds of thousands of Canadians... from the fishermen of Newfoundland to the lumbermen of B.C. ... who are busy building a better future for themselves and for Canada.

To private citizens... to farmers with seasonal incomes... to merchants, manufacturers and businessmen in every worthwhile line of endeavor... to municipalities, school boards and governments... to churches, hospitals and all types of public institutions... hundreds of millions of dollars are being loaned by B of M managers at more than 550 branches from the Atlantic to the Pacific.

Today, more people are saving and more people are borrowing money at "MY BANK" than ever before. You will find the story of these two billion busy dollars in the facts and figures that follow...

WHAT THE B of M HAS TO MEET ITS OBLIGATIONS:

CASH: The B of M has cash in its vaults and money on deposit with the Bank of Canada amounting to		\$ 225,417,399.97
MONEY in the form of notes of, cheques on, and deposits with other banks		150,987,587.73
INVESTMENTS: The B of M has over a billion dollars invested in high-grade government bonds and other public securities, which have a ready market. Listed on the Bank's books at a figure not greater than their market value, they amount to		1,030,048,602.81
The B of M has other investments representing, mainly short-term credits to industry. These investments are carried at		128,050,593.19
CALL LOANS: The B of M has call loans which are fully protected by quickly saleable securities. These loans amount to		67,972,396.98
QUICKLY AVAILABLE RESOURCES: The resources listed above, which can quickly be turned into cash, cover 76% of all that the Bank owes to the public. These "quick assets" amount to		\$1,602,476,580.68
LOANS: During the year, many millions of dollars have been lent to business and industrial enterprises for production of every kind — to farmers, fishermen, lumbermen and ranchers — to citizens in all walks of life, and to Provincial and Municipal Governments and School Districts. These loans, now at the highest year-end figure in the Bank's history, stand at		528,032,366.17
BANK BUILDINGS: In hamlets, villages, towns and large cities from coast to coast the B of M serves its customers at more than 550 offices. The value of the buildings owned by the Bank, together with furniture and equipment, is shown on its books at		18,450,760.51
OTHER ASSETS: These chiefly represent liabilities of customers for commitments made by the Bank on their behalf, covering foreign and domestic trade transactions		41,569,661.76
TOTAL RESOURCES WHICH THE B of M HAS TO MEET ITS OBLIGATIONS		\$2,190,529,568.92

WHAT THE B of M OWES TO OTHERS:

DEPOSITS: While many business firms, manufacturers, merchants, farmers and people in every type of business have substantial deposits with the B of M, the larger part of the money on deposit with the Bank is the savings of well over a million private citizens. The total of all deposits is		\$2,062,597,786.09
OTHER LIABILITIES: Miscellaneous items, representing mainly commitments undertaken by the Bank on behalf of customers in their foreign and domestic trade transactions		40,432,874.53
TOTAL OF WHAT THE B of M OWES ITS DEPOSITORS AND OTHERS		\$2,103,030,660.62
TO PAY ALL IT OWES, THE B of M HAS TOTAL RESOURCES, AS SHOWN ON THE LEFT SIDE OF THIS STATEMENT, AMOUNTING TO		2,190,529,568.92
WHICH MEANS THAT THE B of M HAS RESOURCES, OVER AND ABOVE WHAT IT OWES, AMOUNTING TO		\$ 87,498,708.30

This figure of \$87,498,708.30 is made up of money subscribed by the shareholders and, to some extent, of profits which have from time to time been ploughed back into the business to broaden the Bank's services and to give added protection for the depositors.

EARNINGS — After paying all overhead expenses, including staff salaries, bonuses and contributions to the Pension Fund, and after making provision for contingencies, and for depreciation of Bank premises, furniture and equipment, the B of M reports earnings for the twelve months ended October 31st, 1950, of	\$ 9,536,897.69
Provision for Dominion Income Tax and Provincial Taxes	3,594,000.00
Leaving Net Earnings of	\$ 5,942,897.69
This amount was distributed as follows:	
Dividends to Shareholders	\$ 5,600,000.00
Balance to Profit and Loss Account	2,342,897.69

**Mullins and Currie Spark
Princeton to 48-29 Victory**

Led by two veterans of many cage wars, Currie and Mullin, Princeton senior B hoopsters took the measure of Summerland Senior C's 48-29 on Saturday night at the school gym before a meagre attendance of about 50 persons.

For the first half Summerland Merchants kept in sight of the visitors, but the last half, which saw Mullin take the floor for the first time was distinctly all the visitors' way.

In the final canto, Mullin got himself an even dozen markers which just eclipsed Currie, who sank 11 points in both halves.

Jack Dunham was the only Summerland player hitting the hoop with any accuracy his nine points being top for the locals. Sandy Jomori downed three from the field in the second stanza while Rand managed another five.

The Merchants held a 14-12 advantage at one stage of the first half only to have Princeton sink eight markers without a reply.

In the second half Princeton ran its lead to 31-16 and went farther in front in the final few minutes

as the Merchants faded.

Penticton Too Strong

In the preliminary exhibition match, Penticton Int. B squad took the measure of Summerland high school Bluebirds 42-19. Tidball, Essler, Jordan and McGuire led the assault on the Summerland lads whose high scorer was Leighton Nesbitt, aided by Daryl Weitzel and Robin Fisher.

Visitors led 7-6 in the first quarter but increased the advantage to 19-8 at halfway mark. Summerland held in the third quarter but wilted in the final stanza.

Penticton: McGuire 7, Essler 8, O'Connell, Friend 3, Phillips 2, Owen, Tidball 10, Jordan 8, Tomlin 4, Bawtineimer—42.

Summerland: Weitzel 4, Fisher 4, Brawner 2, Nesbitt 7, Munn 2, Youngusband, Scriver—19.

Princeton: Currie 11, Plecash 6, Matthewson 1, Cal Huey 2, C. Huey 4, Mullin 12, Pringle 8, Nelson, Kovich 4—48.

Summerland: Jomori 6, Dunham 9, Kato 2, Guidi 4, Rand 5, McLean, Vanderburgh, Nesbitt 3, Clark—29.

Summerland Merchants travel to Princeton for a return match this Saturday.

**Big Dog Joins Kids
Enjoying New
Slide**

The children were not alone in enjoying the new slide recently erected at the west of MacDonald School.

This fine metal slide recently made by Mr. Dewey Sanborn and bought with part of the Hallowe'en shell-out money is filling a need for playground equipment for the younger girls and boys.

There has been quite a queue waiting a turn and among them a big black dog who isn't too polite in waiting and weaves in and out to get a chance to go up the steps and then slide down enjoying it thoroughly.

**Scout Association
Names Cleland**

E. H. Cleland of Penticton has been named president of the Okanagan South Boy Scouts Assn. Election took place at the annual meeting in Penticton last week.

Other officers are: R. W. Craig, KC, hon. president; Major A. H. Grant, Naramata, vice-president; N. B. McGie, secretary; J. L. Palethorpe, treasurer; Dr. J. R. Parmley, honorary surgeon.

District Commissioner Harley Hatfield presented long service badge to District Scoutmaster G. C. Allington and a Woods' badge to Scoutmaster Stan Good of Penticton.

**Penticton Arena
Will Now Proceed**

PENTICTON—W. K. Noppe, architect, has been employed to draw plans for a memorial arena in Penticton. It is understood that the suit which Mr. Noppe was bringing against the city when the arena commission decided to employ another architect will be dropped. An agreement which will provide the architect with 4 1/2 percent of the cost of the project in lieu of plans and partial supervision of construction is being drawn up.

Mr. Noppe is the architect for the new junior-senior high school in Summerland.

**AIRFORCE CANDIDATE
IS HONOR GRADUATE**

Mr. and Mrs. V. M. Lockwood have received word that their grandson, Lockie, who is with the USAF has passed out of B-29 specialist school in Texas, an honor graduate.

He is now stationed at Chanute Field, Illinois, where he will continue studies as a power plant specialist. Mr. and Mrs. Lockwood expect to meet him in Tacoma, Washington, on his Christmas leave.

**Swim Badges are
Presented to Young
Winners by Principal**

Red Cross junior swimmer badges and two intermediate swimmer badges were presented this week by Principal S. A. MacDonald at the MacDonald school to those boys and girls who successfully completed the training necessary at the classes held at Powell Beach last summer.

John Adams in Miss Ruth Klix' class won his intermediate, and Carlton Sheeley completed the tests for junior and intermediate, the former in Miss Lois Sharpe's group and the latter in Miss Klix'.

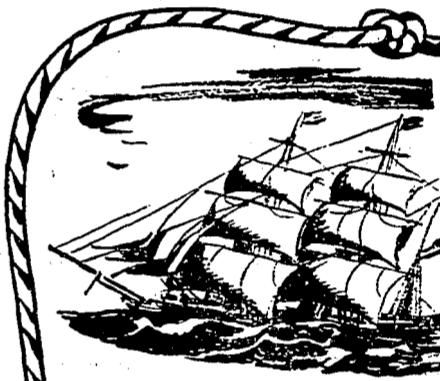

Others winning junior swimmer awards in Miss Lois Sharpe's class were: Douglas Holmes, Donald Tait, Lowell Laidlaw, Mervin Radamske, Hope Hartley, Ken Pennington and Carole Anne Short.

In Miss Klix' class the winners were: David Woolliams, Brian Adams, Ona Willis, Bobby Sheeley, Joan Beggs and Amy Berry.

Fire in Basement Causes Smoke Loss

Summerland fire brigade was summoned last Thursday afternoon at 2:15 o'clock to the Shel-drake home on the lakeshore part way to Crescent Beach to extinguish a fire which started in the basement. Damage was mainly confined to smoke with little loss from actual burning.

Ten pounds of sulphur which ignited along with a quantity of odds and ends collected in the basement caused the firemen some trouble before the blaze was extinguished.

WILL ATTEND LIBRARY MEETING IN KELOWNA

Reeve C. E. Bentley has signified his intention of attending the Okanagan Union Library annual meeting which is being held in Kelowna on December 6 instead of December 11 as previously announced, Councillor E. M. Tait is council representative and Mrs. A. W. Vanderburgh is school board representative on the library board.

BALDWIN NAMED LRB CHAIRMAN

Hon. John Cates, minister of labor, announced last week that Lt. Col. D'Arcy J. Baldwin has been named chairman of the Labor Relations Board replacing the late J. P. Hogg, K.C.

Fishing-Hunting Reports

By Bert Berry

FISHING
Fishing is confined to trolling and whitefishing on Okanagan lake now, as all upper lakes are frozen. Trollers here are still having poor fishing but are waiting for the big ones to start biting.

Whitefishing is still in good swing, so now that hunting is over you can try this. It's the last fishing, except for trolling, until next May 1.

HUNTING

Big Game

Haven't heard of anyone returning from the north with any moose this last week; however, there are several parties still up there from Summerland district.

Deer

There has been a really good run of deer this year. There also have been more hunters than ever this season, so you will hear lots of fellows, like myself, who haven't connected.

The surprising part of this season has been the coming down of the herds to lower levels so soon; in fact, a lot of them are in their winter area now and that has been the reason for the big kills in the Garnet Valley and Wildhorse to Rattlesnake Mountain area. Saw four four-pointers come off T. J. Smith ridge between Faulder and Fish Lake turnoff.

Conclusion

This will be the final report on hunting for this season. Moose, elk and deer are finished today. Ducks finished at 4:55 p.m. Nov. 29. So, fellows, I congratulate those of you who got your game and for the unlucky ones—better luck next year.

A sad part of this season for sportsmen has been the reports of cattle and horses shot and, just as bad, to run onto a doe shot by hunters in mistake and just lying there, coyote bait.

B.C. LIBERALS IN SUPPORT OF GROWERS

Led by President A. W. Gray, Yale Liberals were successful in receiving support from the B.C. Liberal Assn., meeting in Vancouver last week, for the BCFGA brief to the provincial government on the rehabilitation of fruit growers who suffered tree losses in the 1949-50 winter kill.

Mr. and Mrs. F. Krahnstoeber left on Wednesday for New York where they will embark for a six months' visit in Europe. Mr. and Mrs. Krahnstoeber expect to visit Paris, and at the latter's home in Klosters, Grisonne, Switzerland, as well as other European countries.

KELOWNA — Percy Dunn, for forty years city assessor, is retiring in February due to ill health.

B. of M. Has Resources of Two Billion

Passing the half-billion dollar mark in its current loans for the first time in its history, the Bank of Montreal today publishes its 1950 annual report in a simple, clear, humanized form of statement.

In presenting its annual statement in terms which anyone can understand, the B of M continues the course it has pioneered for six years. Unique among bank statements, the report aims to inform all Canadians of the bank's operations in employing its two-billion-dollar resources, and it points up the responsible role of the banker as the man who brings together the people who save money and the people who borrow it.

Busy People—Busy Dollars

This 133rd annual report explains that "this is the money that you and 1,800,000 other B of M customers have on deposit at our branches across the nation," and points out how hundreds of millions of this vast sum are loaned to private citizens—to farmers, merchants and manufacturers—and to public institutions ranging from governments and school boards to hospitals and churches.

This plain talk holds good throughout the report, breaking down imposing figures into the simple facts about people that they reflect. The statement is also brightened by the thumbnail sketches which have become a familiar hallmark of B of M annual reports in recent years.

Loans and Deposits

Rising more than \$40 million in a year, the bank's loans to business, governments and individuals now stand at \$528,000,000—the highest year-end figure in its history—reflecting the growing financial needs of business and industry.

Characteristic of B of M statements, resources that can be quickly turned into cash are equal to 76 percent of public liabilities. This liquid position reveals the bank's strength and its ability to meet whatever demands are made upon it.

Deposits with the B of M—in the names of 1,800,000 customers—have risen to a new high this year, and amount to \$2,062,000,000, an increase of \$43,000,000 since 1949.

After settling all overhead expenses, including staff salaries, cost-of-living bonuses and pension fund contributions, and making allowance for depreciation of bank premises and provision for contingencies, the bank reports earnings of \$9,536,000. While this is an increase of \$315,000 over 1949, a rise in taxes amounting to \$189,000 offsets the gain. Net earnings for 1950, totalling \$5,942,000 after payments of taxes, are thus up only \$126,000 on the year.

Federal and provincial taxes, at \$3,594,000, are within six thousand dollars of the amount distributed by the bank in dividends. These, on the basis of \$1 a share per annum, amounted to \$3,600,000, representing a return to the shareholders of 4.11 percent on their funds. The bank's shareholders' funds amount to \$87,498,000. This figure is made up of the money subscribed by the shareholders and, to some extent, of earnings which have from time to time been ploughed back into the business to broaden the services of the bank and to give added protection for its depositors.

WANT BIG BEND ROAD

VERNON—This city's board of trade has voted against the eastern B.C. associated boards' proposal that the southern transprovincial highway be named the Trans-Canada highway, and wants the Big Bend continued as the cross country main route.

Anscomb Heads B.C. Party to Ottawa

Hon. Herbert Anscomb, minister of finance, is heading the B.C. delegation to the dominion-provincial conference on economic affairs at Ottawa commencing next Monday, Dec. 4. Others in the delegation will be Attorney-General Wismer, Hon. W. T. Straith, provincial secretary and education minister; Hon. A. D. Turnbull, health and welfare minister; J. V. Fisher, deputy minister of finance; Dr. G. F. Amyot, deputy minister of health; E. W. Griffith, deputy minister of welfare; Lloyd F. Detwiller, BCHIS commissioner; and Percy E. Richards, executive assistant to the premier.

NEW ACCOUNTANT HERE

C. W. (Buck) Guernsey arrived last weekend from Esquimalt to assume his new duties as accountant of the Summerland branch of the Bank of Montreal. S. E. E. (Ted) Beech left on Tuesday for Penticton where he has been transferred as accountant at that city's branch.

CONTRACTORS GET RAISE

KELOWNA—Contractors have agreed to sign a working agreement with the United Brotherhood of Carpenters and Joiners of America, local No. 1370 (AFL) for a minimum of \$1.53 an hour for carpenters, effective January 15.
