

# The Summerland Review

Vol. 6, No. 27

West Summerland, B.C., Thursday, July 5, 1951

**B.C. LUMBER ARRIVES**—More than 1,500,000 feet of Douglas fir is shown above on the pier at Windmill Point after being unloaded from the S.S. Seawall which arrived in Montreal last Wednesday on her maiden voyage. The new ship discharged several other million feet of wood at Halifax, St. John's and Quebec City.

## Final Returns for 1950 Apple Crop are Being Mailed to Local Growers

Growers shipping through the Summerland Co-operative Growers' Assn. are receiving through the mails today cheques for \$47,500, being the closed pools on apples, following release of final returns on apples by B.C. Tree Fruits Ltd. last week.

Other independent packinghouses are mailing final return cheques to their growers this week, it is learned.

Based on the 8,000,000 box crop, returns were down 2.45 cents from the sales agency to the packinghouses, over the 1950 returns, B.C. Tree Fruits Ltd., circular declared last week. However, as the grade of apples was better than that of the year before, the overall picture is that growers received a better return for their apples, it is stated.

Sales agency advances to packinghouses totalled \$18,276,937.12 for all fruits and vegetables, the latter commodity accounting for \$1,713,314.21. Usually this figure is much higher but the lack of soft fruit last year resulted in a much lower gross return.

## Okanagan Arc Brilliant for Dominion Day

The Okanagan Arc was seen by many people here on Sunday night, July 1, for approximately half an hour before and after 12 a.m.

This spectacular phenomena, believed to be a form of aurora borealis, arched the midnight sky from the horizon on the south to the horizon on the north in two bright undulating ribbons.

As if giant rockets were being sent up to fittingly end Canada's 84th birthday blazing points of northern lights shot up and down beneath the Arc.

The Okanagan Arc was recorded in the 12th report of the Okanagan Historical Society published in 1948 as seen here on Aug. 8 at 12:30 a.m., Aug 25 at 9:30 p.m. and again on Oct. 1 the same year.

Older residents say that now and then through the years this remarkable bright light is seen flung from skyline to skyline.

## Reid Johnston To be Installed

Reid Johnston, CPR station agent and former reeve, will be installed president of the Rotary Club of Summerland at the annual function to be held tomorrow night in the IOOF hall. He succeeds Francis Stewart who is winding up a successful term of office.

The Rotary Club of Kelowna, who sponsored Summerland, has been asked to supply the installing officer.

## Life Saving Instructions Added to Curriculum of Weekly Swim Classes

There were ninety children at Powell Beach eager and ready for action yesterday afternoon for the start of the Board of Trade and Red Cross swimming classes.

Cecil Wade is convener for the Board of Trade, with Ruth Klitz in charge of instruction and John Klitz's son, former instructor at Kelowna Aquatic teaching senior groups.

There are four classes, beginners, Juniors, Intermediates and seniors. Buses transport the children to the beach.

Others instructing are Beverley Fleming, Doreen Fleming, Carol Raincock, Marguerite Menu, Arlene Raincock, Irene Menu, Joan MacDonald, Lori Klitz, Bud Green, and David Wright.

Shirley Schumann and Joan Dickson, who are in Kelowna taking the Red Cross swimming instructors' course, will join the group later.

Life saving classes are commencing next Wednesday afternoon, at 8 o'clock in connection with these swim classes. Mr. Kitson will take the lead in instructing the senior group in this art and it is hoped that a number of Boy Scouts, who need this instruction in their tests, will participate.

Swim classes for adults will also be started next week. On Tuesday evening and on each Tuesday evening throughout the summer Mr. Kitson will be at Powell Beach to give adults lessons in swimming technique.

The trade board committee has arranged that a car will leave West Summerland Post Office at 7:15 o'clock each Tuesday night and lower town post office at 7:30 to transport adults wishing to learn to swim to Powell Beach.

## Returns on Crop Delays Census Here

The 1951 census in Summerland district has not been concluded and will probably not be finished for another two to three weeks, H. L. Wilson, one of the two enumerators for this area, informed The Review this morning.

Due to the lateness of the fruit crop returns for 1950, which are only being received by growers this week, it has been impossible to obtain accurate information for completion of the growers' forms.

Consequently, Mr. Wilson still has about 125 farm forms to complete. Mr. Howis did not have as many farms in his area and therefore will be able to clean up earlier.

Lack of ink supply for the special pens issued to enumerators was another stumbling block in the progress of census completion. The pens were believed to be sufficient for the job but all over the province they ran out of ink and much time was lost until a further supply could be obtained.

The enumerators state that if any family was missed and has not been recorded they would appreciate a telephone call and will endeavor to rectify the omission.

P/L Richard Lewis

who leaves on Tuesday, July 10, for Salzburg, Austria, 30 miles from Salzburg, Austria, as one of five B.C. Boy Scouts who will comprise the Canadian contingent to the 7th World Scout Jamboree. Local Scouts and officials are planning a sendoff for Richard next week. One Victoria, one Trail and two Vancouver Scouts are members of the B.C. group.

### SALMON ARM SCHOOLS WILL OPEN IN FALL

Salmon Arm schools will re-open in September. A charge of 30 cents per student per day for transportation will be made on all pupils living in the municipality who use school buses, four months of the fall term in order to make up the \$11,000 gap left in the school estimates by the arbitration award.

## Detailed Reply Given Local Growers on Questions Asked At Meeting Here Last Week

A. K. Loyd, president of B.C. Tree Fruits Ltd., has given detailed answers to queries made at last week's B.C.F.A. local meeting in Summerland. Mr. Albert Millar, Tree Fruits Governor from Oliver asked the sales agency head to give answers to the many questions which were shot at him from Summerland growers.

Regarding Canadian apples in Western Germany, Mr. Loyd explains that "bi-zonal Germany was included in those countries which could be assisted by the \$1.25 American subsidy, consequently any quotations which we made to them had to suffer from this reduction to be competitive, which constituted an impossible proposition."

Mr. Loyd continued: "If, as your questioner suggested, there were Canadian apples in West Germany, we would think that the most probable explanation would be that the British Food Ministry had instructed that some of the apples they purchased from Canada last year should be reshipped to the Western Germany zone."

"This might be for a number of reasons, the most probable that they were desired for military or occupational purposes. It would be entirely a sterling deal."

Mr. Dickey, C.F.D. man at Vancouver, was asked to check on the statement made by Mrs. D. Munn that Washington apples were being used at Shaughnessy Military hospital. Mr. Dickey interviewed W. A. Gregg, chief supply officer in the DVA building. The purchasing setup at Shaughnessy was explained as follows by Mr. Dickey:

"Dietary department places order with Gregg's office for all fruits, vegetables for one week at a time. Tenders are then submitted to

## Murder Charge Read to George Clark on Death Of Harold O. Tavender

Harold Oliver Tavender, aged 43, died in Summerland General hospital shortly before midnight, Saturday night, June 30, coming to an evidently violent end following a struggle which is alleged to involve another well-known Summerland man, George Frederick Clark.

Gloom settled over this community when the Dominion Day holiday weekend was marred with this tragic happening.

Clark was brought from Penticton jail on Tuesday morning to hear Magistrate Hugh Sharman read a charge of murder in connection with the Tavender death.

The preliminary hearing was immediately remanded one week until July 10, at 11 a.m., when it is expected a further remand will be sought. It will be two to three weeks before representative attorneys are ready to proceed with the case.

Police have issued only the barest comments on the case but it is known that Clark went to the Tavender home on Giant's Head road on Saturday evening.

Shots were heard and it is believed that a shotgun was used to blast an entry into the Tavender home, the lock on the front door being shattered.

There is evidence of blood in several rooms and it is clear that a struggle ensued in the home.

Near the front entrance there is a steep slope which ends with the Happy Valley road some 300 feet below. Tavender is believed to have rolled or fallen down the slope at the end of the fracas and was discovered on the road by RCMP Constables I. G. Thorsteinson and Dick Green.

Near him when the police arrived was Clark. Both men were taken to hospital where Clark was treated for a badly cut forearm. He was taken to Penticton jail early Sunday morning.

Tavender Made Statement

Local practitioners endeavored to save Tavender's life but he died shortly before midnight, nearly two hours after the alleged fight ensued.

A broken baseball bat is said to have been found part way down the slope.

RCMP officials admit that the deceased man gave a statement of some sort before his life snuffed out. No details will be revealed until the preliminary hearing.

The accused man is a brother-in-law of the late H. O. Tavender. Mrs. Tavender has not been living with her husband for some months.

The late H. O. Tavender came to Summerland from his Calgary birthplace about 15 years ago. His father died in Calgary about a year ago. He was a well-known, wealthy Alberta financier.

Remains were sent on Wednesday to Calgary for burial on Saturday, it is understood. A brother, E. R. Tavender, arrived yesterday from Calgary and made arrangements for the remains to be taken to the prairie city.

Well-Known Athlete

The accused man is one of Summerland's best known athletes, having been a star basketball and baseball player for Summerland teams for many years. He retired from active participation in these sports last year.

The Clark family has been well-known and respected here ever since Mr. and Mrs. J. W. Clark arrived from Elkhorn, Man., about thirty years ago. Their orchard is on the front bench.

During the war, George Clark enlisted in the RCAF and won the Distinguished Flying Cross, the investiture taking place about two years ago in Vancouver.

After cessation of hostilities he returned to Summerland to take over his position as packing foreman at the Summerland Co-operative Growers' Assn. In 1949 he

Continued on Page 10

## Markets for Less Than Six Million Boxes

"Both the quality and condition of our fruit have to be improved if we are to compete on the North American markets," declared Tree Fruits Governor Albert Millar to Summerland growers last week as he launched into one of the best descriptions of the need for "tailoring the crop" which has yet been delivered here.

Mr. Millar emphasized in his talk that it doesn't pay the retailer to give special display attention to low grade fruit.

Eastern Canada will only take extras and fancy grades because that section has plenty of cee grade of its own, he pointed out. The U.S. will only take the best quality, the same reason applying.

As for the size range, the U.S. insists on 80's to 163's only while eastern Canada does not want anything smaller than 180's.

This leaves western Canadian markets as the only place where cee grade and less desirable size range apples can be sold, he emphasized.

Eastern Canada can be depended upon to take 700,000 to one million boxes. Western Canada can absorb about 2,700,000 and the U.S. no more than two million boxes. This totals about five and a half million boxes, whereas last year 8 million boxes were harvested.

Mr. Millar explained that with the bumper U.S. crop, Americans only bought Canadian apples because they knew they were the "cream of the crop" and only the very best could be shipped south of the border. But even at that, they had to compete with U.S. apples selling at \$1 per box.

In the middle of Mr. Millar's explanation of the need to lower the percentage of cee grade apples to be marketed, a voice asked why cee grade wasn't processed to a greater extent last season.

"We didn't have your authority," was Mr. Millar's reply.

Another questioner asked why all the crop was packed when it was known that there would be a surplus.

"We were under contract to dispose of all the apples you wished to throw at us and we had to dispose of them somehow," was the sales agency representative's response.

### SMALL MUD SLIDE BLOCKS ROAD AT WHARF

An accumulation of irrigation water, which caused a waste pipe to break, caused a mud slide this morning over the highway at the wharf in lower town and below Mrs. T. McDougald's orchard. Traffic was detoured over the tracks to avoid the mud but is now being crossed safely. Water Foreman E. Kercher was notified and was able to shut off the water flow.

## Massed Bands At Kelowna On July 15

Summerland Band has been invited to attend a massed band concert at Kelowna on Sunday, July 15, when ten bands from various interior points are expected to play.

This massed band concert plan was inaugurated here last year when Okanagan bands were invited to the experimental station for a splendid concert in mid-summer.

The idea has spread and bands from other widely scattered parts of the province have been invited.

Expected there will be musical aggregations from Penticton, Summerland, Kelowna, Vernon, Kamloops and Revelstoke. Also asked to be present are bands from Chilliwack and Rossland.

## 1951 STONE FRUIT CROP ESTIMATES

Despite the tree loss of 1949-50, Summerland's peach crop is coming back strongly and is within 75,000 boxes this year of the record estimated crop of 1949, the annual soft fruit crop estimates issued this week by the provincial department of agriculture reveal.

Young trees coming into bearing for the first time have added greatly to the crop prospects in this district, it is revealed.

Over a million more boxes of peaches will be harvested this year in the Okanagan than was the case last season. Total is expected to be 1,222,035 boxes while in 1950 the crop was only 208,060 boxes.

Apricots show a better picture although nowhere near the 1949 standard yet. Instead of only 655 boxes as in 1950, the crop in Summerland is to be 15,000 and the total for the area is 138,950. In 1949

the estimated crop of apricots was 95,000 boxes for Summerland and 429,800 boxes for the Okanagan.

Plums crop will run to 648,800 boxes, which is approaching the bumper 1949 crop of 887,000 boxes. Plums are away down, with 75,600 boxes estimated against 181,000 in 1949.

Cherries are only a portion, Summerland expecting a smaller yield than last year, the entire Okanagan deal being on the same basis.

	Cherries		Peaches		Apricots		Plums		Prunes

## Young Peach Trees Add to Local Yield

Peach tonnage will be lower than before the 1949-50 freeze but extra tonnage from many young trees planted during the immediate post-war period should partly make up for the loss in older trees, the latest Horticultural News Letter from the provincial department of agriculture for Summerland-Peachland and Westbank area states.

The cherry crop in this area is light, and due to the weakened condition of many trees, size of the fruit may be smaller this year, it is predicted.

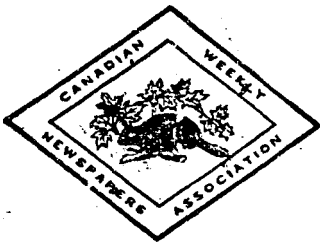

"Apricots are sizing well but the crop is only a fraction of normal. Peaches, pears and apples are now sizing rapidly. Prunes are carrying a normal crop, approximately the same tonnage as that in 1949. Plums, however, are considerably down because of heavy tree losses following the severe winters.

"Apple thinning is in progress but many trees do not require a great deal of work to space the fruit adequately.

"So far this season, orchard pests are not serious. Fire blight, on the other hand, is quite serious in some locations."

The news letter reports indications of a severe buildup of grasshoppers in this westside area and in the north some growers are spraying to control these pests.

## Are Growers Ready to Meet Costs?

ALTHOUGH many questions had been asked before and some were irrelevant to the main point, yet there was a definite trend at last week's growers' meeting which should not be overlooked.

It seems that growers have the idea that their sales agency is not reaching as many points in western Canada as they think is proper. They believe that a wider distribution system should be instituted to take care of the bigger apple crop which generally faces the sales agency.

This should not be a reflection on the part which the sales agency has played. Some growers talk in that direction but they are missing the main point. The sales agency, we believe, has done its best to cope with a bad situation and has gone as far as the growers have indicated, to date, they wish to venture.

If the growers are desirous of invading new fields in their endeavors to sell Okanagan apples, then they should be specific to the governors of B.C. Tree Fruits Ltd.

When we mention invasion of new fields, we do not venture to suggest that the growers should attempt to invade the realm of the wholesaler. There are too many ramifications in that field and the grower would have to become a salesman for too many other products to substantiate a wholesale business.

But it is becoming apparent that the wholesaler is not making sufficient effort to take care of the distribution which bumper Okanagan crops demand.

Therefore, the "manufacturer" must do his part to stimulate demand.

This can be done by employing specialty salesmen who will cover the retail outlets of western Canada, informing and demonstrating to the retailer how he can best display Okanagan apples to gain maximum sales, staging special exhibits and in general merchandising the product.

There are many other ways in which demand can be created, if sufficient time and effort is put into the deal.

But the grower must realize that the outset that such merchandising schemes will be expensive. They will add greatly to the sales cost. Those growers who criticize unwisely present expenditures for travelling costs, telephone and telegraph bills, will really have their eyes opened if confronted with the expenses involved in merchandising the Okanagan apple crop.

So the grower must make up his mind. He can stop his present bickering over petty items and inform his sales agency that he is prepared to meet the costs of disposing of his crop to every available outlet, or he can tell his sales agency that costs must be curtailed and there is to be no expenditure for salesmanship. The choice must be made, and the situation must be faced.

Despite what some disgruntled growers seem to believe, they cannot howl for curtailment and at the same time advocate wider distribution. Proper merchandising is expensive but it gets results.

## PORTRAITS

Mrs. Christine Orr

Always busy and always accomplishing a great deal, with all five feet of her stature full of energy is Mrs. Christine Orr.

Mechanically inclined, there have been times when she substituted in her own home as a carpenter, plumber and general handyman.

Born in Coventry, Warwickshire, Christine Rowley was brought to Canada at the age of five weeks. The family settled in Toronto, and often on her way to school as she walked along Spadina Avenue, she flattened her nose against the window of the jewellery shop of Charlie Orr, the man whom she later married.

It was because of her husband's poor health that they came to the Okanagan, buying an orchard in 1908.

In those days the orchard was a sandy hillside where water and wind erosion continually took off the top soil.

Mrs. Orr knew that she would have to do something about building up the soil if the orchard was to become productive.

World War I changed their plans and they were back in Toronto for awhile where Mr. Orr, a top-flight electro chemist, was one of forty men working at finishing shells for the Canadian government.

The children were not well there, however, so Mrs. Orr brought them back to Summerland, and went into action herself.

How this little person, educated at Lorette Abbey in Toronto, a pianist who had studied under Dr. Torrington at Toronto Conservatory of Music, and who had painted a bit in water colors and oils, could put her hands to the uses she did, is remarkable.

She had driven a car for many years and was a good driver, so during the depression years, when it took three years to pay for "red ink" on their cherry crop, she drove the rural mail route, substituting for W. A. Caldwell.

The mail route at that time covered thirty-three miles a day, besides collection of mail at West Summerland and Summerland, and taking the mailbags to the boat in the evening. Often she heaved the sacks across a widening span of water if road conditions had made her a little late and the boat was leaving when she arrived.

As an extra stint in the afternoon she took overloads from Peter Roe's taxi business on return trips to Penticton.

In those days it was quite a

jaunt to go to Penticton by car. Twenty-five years ago she went into the dairy business, getting cows primarily to have fertilizer for the orchard. They made corrals in the orchard, keeping the stock in them and moving them from time to time. In this way the ground was enriched. She started with three cows and ended with thirteen head being milked. This dairy business was carried on with perseverance for fifteen years. It meant early rising and all the cows were milked by hand. Milking done, she drove the car while her son Donald delivered the milk, and this was all finished in time for Donald to go to school.

Finally John Tait, then district horticulturist, said the trees were growing too well, and since hay was almost unobtainable as well, Mrs. Orr went out of what had been a profitable business in many ways.

She has had some interesting experiences on various driving trips. Once she took the three children and drove across the continent and back in a Model T Ford. Coming home late in the fall they travelled through 500 miles of mud and water in the wake of a tornado down in Missouri and with other tourists slept one night in the

## Signifying Nothing *By* RUSTICUS

It must be over twenty years since I first heard of British Israel. At that time I had a friend who has been variously described by those who knew him well as "the ideal type of English gentleman" and "a case for a psychologist". He was an enthusiastic believer in British-Israel, and for some time he had me thoroughly converted.

As you probably know, the ancient Hebrews were divided into twelve tribes, descended from the twelve sons of Jacob, of whom Joseph was the best known. Just after Solomon's time they divided into ten tribes of Israel and two tribes of Judah, and the former unwisely attempted war against the Assyrians when the latter were the most powerful empire in the world. Remember Byron's great poem, "The Assyrian came down like the wolf on the fold?" They did that more than once on the Hebrews, and they were pretty nasty customers to deal with. Had a cute little way of cutting arms and legs off most of their prisoners of war, piling the parts in a heap, mostly alive, then skinning the rest of the prisoners alive, and using the hides to cover the heap.

In the case of the Israelites, there were too many of them for that, so the Assyrians deliberately set to work to "lose" them; and did so successfully that people have wondered about the "lost tribes" ever since. (The modern Jews, of course, are descended from the two tribes of Judah.)

There have been a lot of theories about the fate of the lost ten tribes, but that of the British Israelites

is much the most interesting. They argue that since the Israelites, equally with the Jews, were God's chosen people, they could not be annihilated, or even scattered; instead, they drifted together again after escaping the Assyrians, and more or less in a body, travelled from Asia Minor through Europe, finally settling in Scandinavia and the British Isles. The British people therefore, being descended from them, are God's chosen people; likewise the Americans and Canadians, who are off-shoots of British stock.

It's a nice, comforting thought, this idea of being God's own people, and some of the "proofs" offered, in the similarity of certain English words to certain significant Hebrew ones, are very interesting. I was quite pleased, when I heard about it all, to think I was lucky enough to be born among the chosen.

I couldn't be so enthusiastic, however, about the other side of British Israelism—the prophecy part. Somehow they jumped from the "lost tribes" theory to the Great Pyramid of Egypt, and included as part of their belief that God had left a record of the future in the form of certain measurements inside that noble pile of stone and that it was possible to foretell all important world events from these measurements. They were neither in Hebrew measures, or English ones, however, but in some special unit called "Pyramid inches".

It struck me as queer that this should be, since one could take al-

most any building and work out a scheme of measurements that would fit great dates in history if you could make your own special-sized inches to do the measuring with. However, they claimed to have predicted World War I—the second of that series hadn't been thought of yet, and as far as I remember they did not foretell it. But they wrote and talked a lot about Armageddon, and the "end of this civilization", whatever that vague phrase may mean. And they revealed that their measurements indicated that May 28 of a certain year was going to be very fateful in the history of mankind—hinting that it might even be Armageddon itself.

By the time that May 28 rolled around I was quite nervous, and all that day felt apprehensive that the skies, which were disappointingly cloudy, would split open with thunder and lightning and the earth be riven to its very foundations. Nothing whatever happened, however, and my faith in British Israel was badly shaken.

What completed its downfall was reading a statement by a well-known scholar that "British Israel is just another form of nationalism—like Nazism or Fascism—which exalts one's own race at the expense of others, and thus foments injustice in the world."

After that I could never again get interested in either the lost tribes or the Great Pyramid and the instinct to answer "Present" when anyone talks of God's chosen people has almost completely died away.

### THIRTY YEARS AGO July 8, 1921

An interesting and valuable report on the subject of the water level of Okanagan Lake was submitted a few days ago by Major J. C. Macdonald to Mayor D. W. Sutherland of Kelowna. In this he points out that the level of the lake at the approach of the freshest season must be two feet lower than it has been held of late to avoid recurrence of this year's flood conditions.

Sunday afternoon saw the close of perhaps the most successful camp yet held by local Scouts. The camp was at Miller's Point, with Mrs. W. Miller the genial cook. Thirty-two Scouts were in camp with Mr. Tees, acting Scoutmaster, ASM Harris and Troop Leader Blawett in charge.

The home of Mrs. Basil Stewart was the scene of a very pretty reception on Thursday afternoon last

when she and her mother, Mrs. Van Tassel of Vancouver, were at home to nearly fifty ladies. Miss Dorothy Chew opened the door for the guests.

Wm. J. Mack, son of Mr. and Mrs. W. Mack, has resigned his position with the Union Bank at Vancouver and is now with his parents here. He has taken a position with Walters' Ltd.

Before the weekend Summerland Fruit Union expects to have shipped its fourth carload of cherries this season. The Mutual Fruit Co. shipped its first carload on Wednesday last week. The fruit was assembled at Kelowna and loaded there.

The first open air band concert of the season was given by Summerland Band in the bandstand opposite Hotel Summerland on Tuesday.

The CGIT Club, consisting of the Ok-we-su and Pollyanna girls have

returned from a week in camp at Crescent Beach. There were nineteen enrolled, with Rev. and Mrs. W. Alexander and Miss Munn in charge.

Mr. E. E. Stears has taken over the Victoria Cafe. He has had a number of years in the hotel and restaurant business, and believes there is a good opening here for a business such as his.

### TWENTY-FIVE YEARS AGO July 9, 1926

Application for reduced freight rates for the Okanagan was presented by W. M. Scott, traffic manager of the Associated Growers, at the railway commission sitting in Vernon on Wednesday. E. J. Chambers, president and general manager of the Associated, spoke of the unfairness of Ontario shippers enjoying a lower rate westward than the B.C. shippers had eastward, thereby subjecting the growers to unfair competition in their primary market. Mr. Scott substantiated his submission by comparisons which showed the eastern shipper had in some instances a cheaper rate by 65 per cent than the B.C. shipper. According to the evidence, Penticton and Summerland, being shipping points on the CPR, have an advantage in rates over other points served by two railroads.

Main line trains are passing

BRITISH COLUMBIA FOREST SERVICE

### C. C. Strachan Urges Co-operation To Hurry Flood Control Plan

Summerland council is forwarding a letter received last week by Reeve C. E. Bentley from C. C. Strachan to the Okanagan flood control committee headed by Mayor W. B. Hughes-Games of Kelowna. Mr. Strachan points out the problems which high water level creates for those living on the lake-shore and urges co-operation among various groups to implement control without further waste time. His letter follows: "Many of us in the Municipality of Summerland who have property

on the lake edge are for the third time in five years subjected to flooding to a greater or less degree. The lake is now about one and a half feet above the agreed maximum, roughly one and a half feet below the record high water in 1948.

"The flood condition causes trouble with septic tanks, kills permanent plantings, etc. The condition is particularly bad because once a high water level is attained, it lasts for several months.

"The flood condition in the case of the Okanagan is largely man-made and controllable. About eighteen years ago a survey was made and plans devised to control Okanagan Lake and river floods. Practically nothing was done to implement these plans. About three years ago the control program was reborn with high hopes for development. However, again little has been accomplished in practical control.

"It is apparent that in order to shorten this dilatory period of those responsible for implementing and carrying out the Flood Control Program—namely the Federal-Provincial authorities—it is necessary that all those areas affected must co-operate and show continued activity by continually bringing pressure to bear on the responsible authorities. Little progress is to be expected unless continued pressure and interest is maintained.

"I just wished to draw this matter to your attention, and emphasize the need for continued action, probably preferably through greater activity of the Flood Control Committee of Hughes-Games or any other procedure deemed desirable.

### June Started In Damp Way; 90 Was Tops

On one day in June, the 14th, the thermometer sneaked up to 90 degrees but apart from that one occasion temperatures were moderate during June, the record released by the climatological station at the experimental station in Summerland reveals.

There was sunshine every day, with a total of 262.2 hours amassed. The first few days of June were inclined to be moist but the total rainfall was less than an inch.

Following is the complete report for the month:

June	Max.	Min.	Rain	Sun
1	79	41		8.5
2	75	47	.04	5.3
3	72	49	.01	6.3
4	62	51	.12	7

CLAUDE B. HELLMANN

Delegates attending the 36th annual convention of Kiwanis International at St. Louis elected a prominent public utilities executive to head the organization in the year ahead.

Officers of the Kiwanis Club of Summerland were informed last night that Claude B. Hellmann, lighting department manager of the Consolidated Gas, Electric Light & Power Company of Baltimore, would succeed Don. H. Murdoch, Winnipeg, Manitoba, as president of Kiwanis International, which now is comprised of 3,300 clubs throughout the United States, Canada, Alaska, Hawaii, and the Yukon Territory.

Hellmann is also vice-president of the Arlington Federal Savings and Loan Association and president of the Roland Park Apartment Company of Baltimore.

A Kiwanian for 27 years, the new president will assume office August 1. During the past year, he served as vice-president of Kiwanis International. Previously, he had been an international trustee and governor of the Capital Kiwanis District, comprised of the District of Columbia, Delaware, Maryland, and Virginia.

women, boys and girls. Each presentation has been the subject of study in vocational guidance classes in all grades over Grade 7.

### "Best Ever" is Response to Rose Show in Auditorium

"The best ever" seems to be the consensus of opinion regarding the annual Rose Show of the horticultural society held for the first time, in the high school auditorium on Saturday evening, June 30.

There were eight classes and forty-five entries, and pleasing to the society was the fact that there were competitors from other valley points and visitors from other towns who came just to see the show.

Keen interest is always shown in the "Best Individual" class, and one man from out of town was seen to take his immaculate handkerchief out of his pocket, and carefully polish the leaves of his specimen.

The president's cup is awarded annually in the best individual class and this summer it was won by Mr. E. Sammett of Naramata with a McGredy's Yellow.

Artistic display of roses in a five-foot space for which the Sammett cup is the prize was won by Mr. Wm. Snow, Summerland. Mr. K. McKay, Naramata, had a beautiful exhibit in this class, originally arranged and greatly admired, with the rose Angel Pernet having a prominent place in the exhibit.

Mr. W. Johnson of Vernon who has 500 rose bushes in his garden and tries out newer varieties as they become available, came first in the class of six named varieties, 1 bloom each, six containers, and took home the Summerland Rose Cup donated by the late Mrs. F. A. C. Wright.

As an added attraction at the show, the president of the Society, Dr. James Marshall, arranged a delightful array of old-fashioned roses, including a moss rose, and prepared a little card history of each as added interest.

A special film on Rose Culture was shown and there was a big attendance.

Judges were Andrew Bennie, George Robinson, and Harold Barrett, all of Penticton. Mr. Barrett is parks' superintendent at Penticton.

Refreshments were sold with Miss Doreen Tait, convener, and assisting were Mrs. M. Creese, Mrs.

James Marshall, Mrs. Alec Watt and Miss Nellie Holder.

Following is the list of prize winners: Class 1—1, W. Johnson, Vernon; 2, K. McKay, Naramata; 3, Dr. J. Marshall, Summerland. Class 2—1, K. McKay; 2, Dr. J. Marshall; 3, W. Johnson. Class 3—1, G. Henry. Class 4—1, E. Sammett, Naramata; 2, Dr. J. Marshall; 3, W. Johnson. Class 5—1, Mr. Sammett; 2, K. McKay; 3, Dr. J. Marshall. Class 6—1, K. McKay; 2, Mr. Sammett; 3, Miss Doreen Tait. Class 7—1, K. McKay; 2, W. Snow; 3, W. Johnson. Class 8—1, W. Snow; 2, K. McKay.

4th in a series to bring you the facts about your Hospital Insurance plan

## Why was Co-Insurance Started?

1. To control abuse of hospital benefits and therefore help relieve the bed shortage.
2. To keep premiums as low as possible by charging a small sum to those who actually receive benefit.

One of the main problems in any hospital insurance plan is that some people will abuse the benefits. They will go to hospital when they don't need to, and will stay longer than they should. This situation results in overcrowding of hospital beds, and increased costs. Co-insurance was started to help control this situation.

Co-insurance is designed to reduce the patient's length of stay in hospital and thereby make more beds available, and in the long run reduce costs. Unfortunately there are some people who, because they pay a premium, feel that they are owed something that they can only collect by occupying a hospital bed for as long as possible. People who pay fire insurance do not want a fire, nor when they pay automobile insurance do they hope for an accident. In each case, the insurance is protection against something which is hoped will never happen.

Hospital Insurance is protection against the expense of future illness. A protection, however, designed for those who are really sick and not for those people who wish to enter hospital on any excuse solely because they paid a premium. Hospital accommodation is intended primarily for those who need skilled professional care.

The co-insurance rate is determined by the hospital's public ward rate, and ranges from \$2.00 to \$3.50 a day, for the first ten days of hospital stay. The most any individual or family group (which includes all listed dependents) will pay in co-insurance for any single year is limited to ten days co-insurance charges. Regardless of how often a person (or his dependents) may go to hospital in any one year, only a total of ten days co-insurance may be charged.

In addition to controlling abuse, co-insurance will help to raise money to pay for the higher hospital costs. Without it, premiums would be even higher than they are today. With it, the highest standard of care can be given at the lowest reasonable cost to everyone by making a small charge to those persons actually receiving benefits.

It is the wish of the government to keep operating costs of the plan, and also premiums, as low as possible. Co-insurance will help to do this.

The next article in this series will deal with the question "What are the facts of the hospital bed situation?"

Be sure to read these messages. They deal with your Hospital Insurance plan—a plan which has already paid over \$40,000,000 for more than 500,000 hospital cases, and is providing benefits for thousands more each month.

Sydney J. Smith, MLA

from Kamloops heads the Hospital Insurance Inquiry Board which opened June 25 at Vancouver. Private inquiry will take up the first two weeks prior to public hearings. The other members of the committee are as follows: D. C. Brown, MLA, Vancouver; A. W. Lundell, MLA, Revelstoke; Captain D. J. Proudfoot, MLA, Victoria; R. C. Steele, MLA, Vanderhoof; H. J. Welch, MLA, Qualicum Beach, V.I.; H. E. Winch, MLA, Vancouver; Walter Hendricks, MLA, Nelson, B.C.

**CONSIDER KELLEY STREET LOT BUSINESS PROPERTY**

The Kelley street lot on which L. E. Tupper has established his small store must be considered a business property, council decided on Tuesday when R. F. Angus, building inspector, sought advice on Mr. Tupper's plan to move the house already situated at the back of the lot towards the front and near the lot line. It was stated that the two buildings should be connected.

**MORE ABOUT  
DETAILED**

Continued from Page 1

wholesalers, strictly open competition. When returned, Gregg's office selects lowest tenders on all fruits and places order for one week with one wholesaler.

"During apple season, they specify certain varieties, when not in season or what they consider not seasonal, its just 'apples', size 125. They have been averaging about ten boxes weekly for some time, apparently for raw eating, and must be 125s. Our Winesaps in wholesalers hands for some time now have been small sizes, which explains the Washington aspect."

"The probable explanation is that they ordered 125's and at that specific time those sizes were not available from us, as there was a very considerable demand at fairly high prices for the larger sized Winesaps."

Prices of pears in Edmonton district was the subject of discussion by several speakers last week. Mr. Loyd made the following reply:

"At the beginning of the season Bartletts were shipped extensively to Canada, long before ours were ready for the market. From the government statistics we find that on July 15, U.S. Fancy, 165s and larger were sold in Edmonton—wholesaler to retailer—at \$8.75. On the 22nd they were \$8.25, on the 29th they were \$8.25 and on August 5th they were \$7.50.

"It is possible that any of these prices to the retailer could have resulted in a \$10.00 charge to the consumer."

"When the B.C. pears arrived, a similar size range in Bartletts, wholesaler to retailer, was \$5.75, with other varieties down to \$3.50. This continued throughout September, and in November d'Anjou were sold at \$4.50 wholesaler to re-

**Building Total  
For June Drops**

Two new dwellings with a permit value of \$7,800 were included in the June building permits. In the month, eight permits were issued for \$10,200, less than half the value of permits issued for the same month a year ago.

Besides the new homes, one permit for an addition to a commercial building and five permits for alterations and additions, made up the balance for June.

In June, 1950, permits valued at \$28,390 were taken out.

For the six months of 1951, 48 permits have been issued for a total of \$123,7200. In the same period of 1950, 59 permits for \$428,635 had been issued, including the \$310,000 high school permit.

tailer. "It is just conceivable that some retailer might have had a few highpriced Californian Bartletts on hand for which he was holding out on the \$10.00 basis, but it is unlikely. If he did, then it was also possible that he might have tried to extract the exorbitant profit from the first few B.C. Bartletts."

In answer to the statement there were no B.C. apples in Trail, Mr. Loyd states:

"Aside from the fact that the Trail market is supplied copiously from the Doukhobor orchards in the district and vicinity—it is also serviced by Foxall in Nelson. If they did not have any B.C. apples there—which seems in the highest degree improbable—it was for the simple reason that they did not order them. They could have ordered them from Nelson or, if the required varieties, sizes, etc., were not available, we would have been delighted to supply them from any of our other shipping centres."

Wearing the scarlet tunic of Colonel of the Grenadier Guards, Princess Elizabeth rides side-saddle, her chestnut charger "Winston" as she inspected the troops during the ceremony of Trooping of the Color at Horse Guards Parade, London. Having represented King George who is ill, the Princess (above) is shown upon her return to Buckingham Palace. She is wearing a tricorn hat which has white plume fixed in a grenade on left side, an exact copy of that worn by a colonel of the regiment in 1745.

**CO-OP REDEEMS BUILDING CERTIFICATES OF 1944**

Besides the \$47,500 being sent out today by the Summerland Co-operative Growers as the final returns on the closed apple pools, redemption of 1944 building certificates has

been authorized. This payment means a further \$11,000 distribution by the Co-op.

**LIGHTNING STRIKES TRANSFORMER IN STORM**

Electrical service in Summerland was disrupted Tuesday evening about 6 o'clock when a summer storm swept the South Okanagan. Four breaks in lines were fixed in shortly more than an hour. Telephone lines were also affected as branches were ripped off trees. One lightning bolt struck a transformer on Pender street directly north of Granville street business area, but only the fuses were affected.

**NEW HEADGEAR**—The Canadian Army's distinctive new summer field cap is shown above, modelled by officer cadet G. H. Patterson, University of Manitoba student from Winnipeg, now in training at the Royal Canadian Ordnance Corps School here. The cap, olive drab in color, shows traces of German, US and French Foreign Legion counterparts, and gives protection from glare and heat.

**BULLETIN No. 5**  
**CIVIL DEFENCE**  
**LEARN—AND LIVE**

**FIRST AID**

Following an enemy attack there will be many situations in which the public will have to act on their own initiative.

First Aid is a primary requirement . . . Lack of knowledge can result in confusion . . . Knowledge of what to do can, if acted upon quickly, save lives.

Casualties are caused mainly by blast—falling debris—shock—burns—radiation.

Explosion of an atomic bomb will greatly increase the known effects of high explosive weapons and introduce radiation problems.

. . . After an atomic explosion do not take chances with food and water in open containers.

. . . Do not start rumours.

**IMMEDIATE FRIST AID**

**SHOCK**—Lay patient flat on ground—wrap in blankets—apply hot water bottles—give tea or coffee with sugar—NO alcohol.

**BURNS**—First—treat as for shock; no hot water bottle to burned areas. Cover burned area with dry sterile dressings—no greasy substance.

Give plenty of fluids to drink. Get medical aid as soon as possible. Do not remove clothing—Do not break blisters—Do not try to clean burns.

Complete rest is essential.

**WOUNDS AND BRUISES**—Stop bleeding . . . cover with sterile dressing—treat as for shock. Get in touch with First Aid Post as soon as possible.

**HYSTERIA**—People suffering from shock are likely to behave in a dazed manner. They must be controlled at once and kept apart from others as panic can easily spread. If possible move to a quiet place.

Watch for another bulletin in next week's newspaper.

SOCIAL EDITOR Mrs. A. W. Vanderburgh

## VISITING ABROAD

Mr. and Mrs. E. R. Butler spent the holiday weekend at Spokane.

Mr. and Mrs. Elmer Johnston are planning to spend next weekend at Ymir, B.C.

Mr. and Mrs. Frank Pollock are visiting in New Westminster this week.

Mr. A. H. Corns was a passenger to Vancouver on Tuesday evening's train.

Mrs. M. K. McRae left on Monday evening to spend a short vacation in Victoria.

Mr. and Mrs. A. K. Macleod and their daughter Anne are spending the summer holidays at the coast.

Mr. Donald Nesbitt and Mr. Bill Clark motored to the coast last weekend.

Mr. E. F. (Ted) Weeks has gone to Vancouver where he is attending summer school.

Mr. and Mrs. F. J. Manning motored to Merritt and the Lower Nicola country during last weekend.

Mr. and Mrs. Tom Fisher have been visiting at Salmon Arm, returning to Summerland today.

Mr. and Mrs. George Woitte and Mr. and Mrs. Vern Charles were visitors at Silver Sands fishing camp on Shuswap lake last week.

For the summer months, Mr. Kutch Iwayoshi is at Turtleford, Sask., where he has a preaching appointment.

Miss Marian Campbell has left Summerland for Vancouver, where she will spend the holidays at summer school.

Mr. Lacey Fisher has gone to River's Inlet, B.C., where he will be employed during the school vacation months.

Mrs. J. R. Armstrong is a guest for ten days at Christina Lake at the summer home of Dr. and Mrs. W. H. White of Penticton.

Mr. W. C. W. Fosbery is leaving today to visit until Monday at the home of his son-in-law and daughter, Mr. and Mrs. Julian Fry, Kamloops, B.C.

Miss Evelyn Heichert and Miss Gerda Felker have left on a two weeks' motor trip to Denver, Colorado, and plan to return by way of Calgary and Banff.

Mr. and Mrs. Harvey Mitchell, their daughter, Trudy, and the former's parents, Mr. and Mrs. L. Mitchell, motored to Chilliwack over the July 1st weekend.

Mr. and Mrs. G. G. Young and their visitors, Mr. and Mrs. O. K. Schlauch of Trochu, Alta., drove out to Chilliwack over the Dominion Day weekend.

Mr. and Mrs. Wm. Maier and their sons, Michael and Gerald, have taken their recently acquired trailer and motored to the Cariboo country where they are planning to spend the summer months.

Mr. and Mrs. J. Heichert returned last Friday from a short trip to the coast, bringing their granddaughter Judy Heichert home with them to spend the summer holidays here.

Mr. and Mrs. Reid Johnston, their daughter Miss Margaret Johnston and Miss Nan Thornthwaite motored to Spokane last Saturday, returning on Sunday evening when Miss Johnston took the train to return to Vancouver.

Mr. Jack Dunham, Mr. David Wright and Mr. Murray Elliott drove to Cultus Lake last weekend. Dave and Murray returned home, and Jack was joined by Don Cristante, Frank Kuroda and Francis Gould who have gone on a motor trip to Seattle.

## Britain Still Most Beautiful Country in World to Mrs. Milton

Mrs. M. Milton returned last Thursday by plane from England where she has spent two months visiting relatives and other old friends.

While in England Mrs. Milton enjoyed a reunion with her brother who lives in West Australia and whom she had not seen for twenty-two years. He has a thousand acre farm there with two thousand sheep.

Surrey, Kent, Hampshire, and Sussex were the counties in which the Canadian visitor stayed, and though it was cold and sunless their was no rain and the countryside was at its green loveliest.

Especially beautiful were the flowering cherry trees, the red and white May, yellow laburnums known as the golden chain tree, and the walled secluded gardens were a pleasure.

Aside from the meat shortage, Mrs. Milton reports plenty of food, and that it seemed a bit cheaper, probably, she thinks because of government subsidies. Children seemed well fed and healthy.

She found England more crowded than she remembered it and this was verified when she heard the last census returns. A great deal of building was going on with one and a quarter million homes being erected to house working people.

There were a great many small cars which generally looked as if they had been used for a long time, and the suggestion was that most of those currently manufactured are exported.

The Festival of Britain is a highly technical exhibit, Mrs. Milton was told by friends, with many specialized things shown. The Fun Fair was described as "really fun" and enjoyed by everyone.

She went across on a Strato-cruiser of the British Overseas Airways Corporation which carried about fifty passengers, and returned on a Speedbird.

When asked: "Did you like England?" her reply was: "It's still the most beautiful country in the world."

## STANDARD BRIDGE

By M. Harrison-Gray  
Dealer: South  
North-South game

North trapped himself by bidding Two Hearts after West had called Two Clubs over South's One Spade. East's jump to Four Clubs silenced South; West passed, and North funk'd a bid of Four Spades. West was held to 8 tricks for a loss of 50 points.

It is better for North to bid Two Spades on the first round. This free raise and the inference that North is short in Clubs would probably encourage South to bid Four Spades over East's Four Clubs. If he passes, however, North can now consider a bid of Four Hearts, as the safety factor has been materially increased. Four Spades would normally present no great difficulty, and even with the adverse distribution the defence has to be on its toes to beat it.

## VISITING HERE

Miss Margaret Kish of Kelowna has recently joined the office staff of the experimental station.

Mr. and Mrs. E. Lundberg of Beaverdell were weekend guests at the home of Mr. and Mrs. W. Hack.

Mrs. Barr of Vancouver is visiting at the home of Mr. and Mrs. C. N. Higgin, Crescent Beach.

Miss Doris Cristante is visiting at the home of her parents, Mr. and Mrs. J. Cristante.

Mrs. James Hazlett of Red Deer, Alta., is spending a few weeks with Mr. and Mrs. H. J. Mott.

Mr. and Mrs. Mait Kersey were weekend visitors from Salmon Arm, renewing many acquaintances here.

Mr. and Mrs. D. H. Ross of Vernon were visitors at the home of the latter's brother, J. R. Armstrong this week.

Mr. and Mrs. C. Krasuin and family left on Friday for their home at Kayville, Sask., after visiting Mr. and Mrs. Frank Healy.

Mr. Donald Rand arrived from the coast last weekend and is visiting at the home of his grandparents, Mr. and Mrs. Scott Rand.

Mr. and Mrs. Frank Edwards and their son John of Chilliwack, spent the July 1st weekend visiting Mr. and Mrs. Lawrence Rumball at their lakeshore cottage.

Miss Betty Cowper and Miss Joyce Carr of Vancouver visited Miss Julia Hack over last weekend at the home of her parents, Mr. and Mrs. W. Hack.

Guests of Mrs. D. L. Milne are Mr. and Mrs. Abe Taevs and their daughter. Mr. Taevs is a Baptist missionary on furlough from Africa.

Mrs. M. A. Noble visited her mother, Mrs. M. J. Gallagher over the holiday weekend. She was accompanied from Vancouver by Mr. and Mrs. J. Shand of the coast city.

Vancouver visitors at the home of Dr. and Mrs. L. A. Day last weekend were their son, Mr. Wally Day, Mr. and Mrs. K. S. Cowper, Mr. Bruce Williams and Mr. Ken Ozanne.

Mrs. S. McKay, her son Alex and Mrs. J. MacPhail all of Blairmore, Alta., are staying in Penticton while visiting at the home of the former's son and daughter-in-law, Mr. and Mrs. T. McKay.

Recent visitors at the home of Mr. and Mrs. H. J. Mott were Mr. and Mrs. R. Pinchbeck of Kamloops, Mr. and Mrs. F. Hazlett of Red Deer, Alta. and Mr. and Mrs. F. Piper of Grand Prairie, Alta.

Rev. Oliver Ohsberg of Edmonton, Alta., is a recent visitor at the home of Mr. and Mrs. Wm. Huva, and supplied in the pulpit of the Baptist church last Sunday, since Rev. D. O. Knipfel is on holiday.

Mr. Brant E. Bergstrom spent a week's holiday here with his wife and family en route to the Indian hospital at Miller's Bay, near Prince Rupert, after completing his third year in medicine at McGill University.

Guests at the home of Mr. and Mrs. Harry Dracas for the holiday weekend were their son, Mr. Robert Dracas, Mr. and Mrs. Leo Pearson and their daughter, Shir-lone and Miss Pauline Ethier all of Vancouver.

Mrs. Maggie Meadows of Brandon, Man., who has been visiting

## Mrs. R. M. Johnston Guest of Honor

Mrs. Walter B. Powell entertained on Wednesday evening, June 27, at her home, in honor of her sister-in-law, Mrs. R. M. Johnston, prior to the latter's departure to live at Mission, B.C.

Guests included former school classmates who presented the honoree with a gift as a remembrance from Summerland friends.

The hostess served delicious refreshments, and others present were Mrs. G. A. Laidlaw, Mrs. Bert Berry, Mrs. Harvey Mitchell, Mrs. Don Tait, and Mrs. Ken Heales.

## Federation Backs Price Support Plea

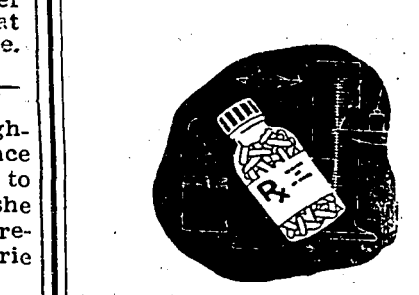

B. C. Federation of Agriculture directors, meeting recently in Penticton, added their voice to the appeal of B.C.'s tree fruit industry for inclusion in the price support plan for agricultural commodities.

Alex H. Mercer, recently returned from Mexico where 24 nations were represented at an international farmers' conference, presided in his capacity as B.C. Federation president.

## ROTARIANS HEAR SHORT TALK ON COMMON LOON

Dr. D. V. Fisher told fellow Rotarians on Friday evening last some details concerning the common Loon which can be found on lakes throughout North America from the Arctic to Montana and which winters in the southern States. Usually, only one pair of loons will be found on a small lake. They can predict a storm approaching and go into a type of "dance" on the water, he declared, in relating some experiences in trying to catch these elusive birds while on fishing expeditions.

John Kitson will be Chief Instructor for Both Classes  
SUMMERLAND BOARD OF TRADE SWIM CLASS COMMITTEE

## RECIPE HINTS

Creole Pot Roast is tasty fare for company dinner when it's dressed up with tomato soup and spiced with pickles or olives.

**Creole Pot Roast**  
Flour a 4 lb. chuck pot roast, brown in fat, season with salt and pepper. Mix 1/4 cup liquid from the bottled olives or pickles, 1/4 cup water, and 1 cup of your condensed tomato soup. Pour half of this over and around meat, top with 1/4 cup sliced stuffed olives and 1 chopped onion. Cover roaster and cook for 3 hours in a 325 degree F. oven. You may cook this in a Dutch Oven on top of the range, if you prefer. As the liquid cooks away, add more. Thicken gravy with flour, adding more water to make it the desired consistency.

## MORE ABOUT—

### PORTRAITS

Continued From Page 2

only accommodation available, the furnace room of the state prison. Twice she has driven to California. Miles and miles of roads to travel are just an invitation to her.

Gardening is her real hobby. That was started also to prevent erosion with the result that she has one of the prettiest rock gardens in the district, with many ingenious original touches and a pool. At the back of her home, which was built to her own design some twenty years ago, are little miniature greenhouses, nurseries for her larger garden. She has fine roses, too, and specimen trees, but prefers the rockery and that type of gardening.

Her membership in the Horticultural Society naturally follows her love of gardening and flower-growing, and she has often won prizes at shows for her entries.

Through the years she has been a member of the Agricultural Association and was given a set of furs for her work in decorating for the shows. The fact that her size wasn't taken into account by the well-meaning members of the association meant that if she had worn them as they were, she would have looked like a perambulating bear; this was never mentioned to the eager committee who bought them.

During World War II she worked hard for the Red Cross Society, convening the Front Bench work committee, giving out and collecting sewing, at one time canvassing the non-sewing women in the district for funds with which she bought locally warm underwear and stockings at bargain prices. These filled in gaps in children's age-group ensembles which the Red Cross was assembling at that time.

Considerable acclaim was hers two years ago when, in the biennial Women's Institute competition for the Tweedsmuir Cup, she won second place in provincial competition for a hooked rug, which she designed and made. While the craftsmanship was highly praised it was awarded second prize because it was considered by the judges more suitable for a wall hanging than a floor rug, which was the stipulation.

This year, her entry won first prize in the province. It is a lovely mat with an original Canadian motif of maple leaves in autumn colors and has figured ends. Mrs. Orr has found rug making as quite a new interest and is already planning another one.

In her home are some interesting heirlooms, lovely old dresses, a hand-chased gilt frame of a handbag belonging to an ancestor, Marianne Bracken, who married a Dean of Canterbury.

Marianne Bracken's sampler is there, too, with the date 1790, and an older one belonging to Harriet Howson, who "wrought" it in 1713. On Marianne Bracken's sampler is the line, "A woman's noblest station is retreat". Perhaps she would not have thought so if she had been faced with some of the challenges of her lively descendant!

ultation, Councillor F. E. Atkinson stated.

## May Was Record For Tourist Entry

A sharp upswing in the volume of tourist traffic entering this province during May has been noted by the department of trade and industry. Customs ports checked 18,517 cars compared with 10,771 in the same month in 1950. This is a record for May and also establishes a new high for the first five months of the year.

A. D. Gately, industrial arts instructor, will be employed during the summer months constructing additional equipment for the industrial arts section of the new high school. Labor and materials are estimated to cost approximately \$350. Approval of this plan was given by the school board on Monday evening, June 25.

An old sea shanty

# NOTES from PARLIAMENT HILL

(By O. L. JONES, MP for Yale)

The recent victory of the Progressive Conservatives in winning all four by-elections, seems to have given Mr. Drew confidence to launch a pugnacious attack on the government. During his radio speech over the CBC on Nation's Business, Mr. Drew charged Trade Minister C. D. Howe with having arranged government contracts with his own family company, "C. D. Howe Co. Ltd.," which would give that company over half a million dollars in fees.

Mr. Drew charged that the contracts had been secretly arranged without tender or without competition. In this connection, Mr. Howe has publicly stated, on several occasions, that he relinquished all connection with the company many years ago on entering parliament, although members of the family, I understand, are still in the company.

Mr. Drew also mentioned the fact that the Liberal leader in Ontario, Walter Thompson, MP, had received over \$232,000 in about four years' time from Veterans Land Act legal fees. Mr. Thompson being a lawyer. This item was disclosed in the estimates this year. Mr. Drew went on to point out that the government does not hesitate to use public funds to make large payments of this nature to those engaged in political activities on behalf of the Liberal party. At the time of writing this letter, Mr. Howe is not in Ottawa.

The government has proposed a bill to increase the salaries of judges by 20 percent. This, of course, increases their pensions 20 percent as a judge's pension is two-thirds of his salary on retirement.

The CCF and Social Credit parties took strong exception to these increases, particularly in view of the fact that a few days prior to this, the government had flatly refused to increase the basic rate of pensions for veterans. A CCF speaker pointed out the injustice of increasing judges' pensions which are now \$8,000 a year by 20 percent while the old age pensioners still receive \$40 a month, as far as the dominion government is concerned. Once again, the huge Liberal majority pushed this bill through the house.

Colonel Rutherford of the Veterans Land Act has recently returned to Ottawa after a tour of the various projects in British Columbia. He spoke with great enthusiasm of the Cawston and Westbank projects. From the conversation, I gather that there are still some parcels of land in Westbank which have not been allotted, presumably owing to the lack of suitable applicants. I mention this in

case some veterans would still like to apply for one of the holdings.

Colonel Rutherford explained the delay in developing the Pentiction bench lands. This project calls for a certain amount of steel and aluminum for piping, bridge building and pumping equipment, but he explained that all the difficulties now facing them will be eliminated in the near future, and this project will then get under way.

Hon. Paul Martin, minister of national health and welfare, moved that the house go into committee to consider the following resolution:

"That it is expedient to bring in a measure respecting allowances for blind persons and to provide for the payment to the provinces out of the consolidated revenue fund of amounts in respect of allowances for blind persons paid by the provinces, to certain persons who have attained the age of twenty-one years, and who are blind and in need of such allowances, not exceeding in respect of any recipient, seventy-five per centum of forty dollars monthly or of the amount of the allowance paid by the provinces monthly to the recipients, whichever is the lesser; and to provide for the making of agreements with the provinces in relation thereto and for the conditions and duration of such agreements."

Mr. Martin said: (in part) "I will say briefly this, that my hon. friend has welcomed with pleasure, as I am sure the country will generally, this measure separating assistance given to blind persons from assistance given to the aged. This is in keeping with the request made to me by the various

organizations representing the blind over the period of the last few years.

"Unlike the bill based on the resolution we have just passed, the contribution of the federal government in this instance is not, despite the higher commitments involved in the total program, being reduced. It continues at 75 percent.

"... as I understand the word, (substance) the bill, when presented, does have very important modifications that are changes of substance and that will improve the situation so far as blind persons are concerned."

In answer to a question as to how many blind persons over 21 years of age will benefit under this measure, Mr. Martin estimated that there are about 18,000 blind persons in the country and roughly 11,000 between the ages of 21 and 69. I congratulate the government on this progressive step, and I am sure

## Old School Gym is Reduced to 'Shambles'

Recently the padlock on the old school gymnasium was broken and entry into the building forced. This gym has been used by the Singers and Players club to design scenery. Paint was strewn around by the offenders at considerable loss to the club and leaving the main room in what School Board Chairman C. J. Bleasdale described as a "shambles".

every person in this constituency will be pleased.

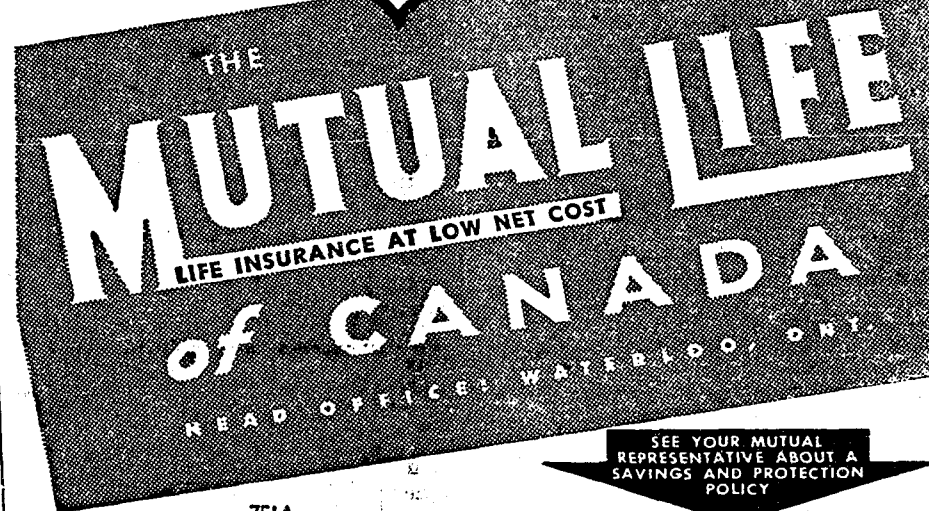

This will be my last report from Parliament Hill for the present session and I wish to thank all my readers who have so kindly written to me from time to time for their interest, and also the newspapers of the Okanagan Valley for their splendid co-operation in allowing me access to their papers to carry out this public service.

## HOUSE COMMITTEE

At a meeting of the Youth Centre Assn. last week Les Gould, Mrs. G. E. Woolliams and T. E. Lott

were appointed the house committee, to handle all details of Youth Centre rentals and general occupation.

## Three Types of Awards Given To MacDonald School Pupils

At closing exercises of MacDonald elementary school, held in the new high school auditorium on the final day of school, June 27, certificates for proficiency, citizenship and attendance were presented to many pupils. Following is the complete listing of the awards.

**Div. 12, Miss Banks**  
Proficiency: John Underwood.  
Citizenship: Ruth Lapins.  
Attendance: Alice Vogel, Trudy Mitchell.

**Div. 11 Mrs. Allison**  
Proficiency: Elaine Dunsdon.  
Citizenship: Jimmy Jomori.  
Attendance: Alice Dunsdon, Audrey Beggs.

**Div. 10, Mrs. Schaeffer**  
Proficiency: Joy Deringer.  
Citizenship: Sally Wilson.

Attendance: Vernon Gillespie.

**Div. 9, Mrs. Kean**  
Proficiency: Carol Anderson.  
Citizenship: Donna Butler.  
Attendance: Linda Betuzzi, Judy Johnston.

**Div. 8, Miss Backmeyer**  
Proficiency: Denby Coggan.  
Citizenship: Louise Shannon.  
Attendance: Dianne Gillard.

**Div. 7, Miss Dale**  
Proficiency: Johan Bergstrom.  
Citizenship: Lynn Bleasdale.  
Attendance: Laurane Bonthoux, Frank Carey, Kenneth Gronlund, David Smith, Tommy Milne, Jo-Ann Onara.

**Div. 6, Mrs. Johnston**  
Proficiency: Marilyn Embree.  
Citizenship: Robert Graham.  
Attendance: Florence Antifaev,

Douglas Holmes, Teddy Hannah, Ona Willis, Myles Gillard.

**Div. 5, Mrs. MacRae**  
Proficiency: Wilma Rabel.  
Citizenship: Audrey Pilkington.  
Attendance: David Kampe, Connie Smith.

**Div. 4, Mrs. Tingley**  
Proficiency: Diane Durick.  
Citizenship: Edwin Matsu.  
Attendance: Jean Kersey, Diane Rumball, Victor Uegama.

**Div. 3, Mr. Moore**  
Proficiency: Leonard Eurdon.  
Citizenship: Marjorie Campbell.  
Attendance: Allen Mitchell, Henry Huva, Beverley Dowds, Leone Smith, Edna Glaser.

**Div. 2, Mr. Weeks**  
Proficiency: Nan Solly.  
Citizenship: Tommy Jomori.  
Attendance: Glen Manning, Douglas Mitchell, Bill Baillie.

**Div. 1, Mr. Stent**  
Proficiency: Barbara Baker.  
Citizenship: Harold Biollo.  
Attendance: Darlene Bonthoux, Jack Gould, Beryl Dodman, Ronald Wilson, Pearl Wakefield.

## MacDonald Elementary School Promotion List for June 1951

### DIVISION 1:

#### S. A. MacDonald

**Promoted to Grade 7:** John Adams, Eileen Arndt, Barbara Baker, Harold Biollo, Ken Bissett, Ray Blagborne, Darlene Bonthoux, Joe Brlekovich, Douglas Charles, Rilla Daniels, Beatrice Davis, Eileen Derosier, Beryl Dodman, Bill Dunsdon, Douglas Dunsdon, Joyce Dunsdon, Donna Eden, Jim Eyre, Eric Gardiner, Jack Gould, Joyce Harbicht, Hope Hartley, Shirley Johnson, Anne Kersey, Margaret Lott, Richard McDougald, Dennis Martin, Wesley Matkovich, Patsy Menu, Pat Morrow, Allan Persson, Marie Pollard, Gail Stewart, Pearl Wakefield, Duncan Wilson, Ronald Wilson, Neil Youngusband.

### DIVISION 2:

#### Mr. Weeks

**Promoted to Grade 7:** Bill Baillie, Robert Brinton, Ron Fisher, Tommy Jomori, Bernice Lascelle, Larry Lemke, Glen Manning, Wayne Mitchell, Robert Mountford, Max Ongaro, Wilbert Perrit, Carol-Anne Short, Eldon Siegrist, Donald Skinner, Val Trofimenkoff, Lorna Walker, Melven Wallbank, Marilyn Washington, Anne Waters.

### Promoted to Grade 6:

Dick Armstrong, Amy Berry, Bruce Crawford, Viola Ganzefeld, Lorraine Johnson, Joan Kilback, Betty Lekei, Lou Lewis, John Menu, David Miller, Helen Miller, Doug Mitchell, Barry Motyer, Ken Pennington, Mervin Radomske, Elva Raham, Derek Saunders, Nan Solly.

### DIVISION 3:

#### Mr. Moore

**Promoted to Grade 6:** James Adams, Joan Beggs, Marney Bleasdale, Patricia Boyd, Bruce Brown, Robert Brown, Cornelius Budding, Leonard Burdon, Majorie Campbell, Dorothy Carston, Frances Daniels, Richard Davis, Ezerley Dowds, Raymond Dunsdon, Phyllis Fabb, Gaye Frisby, Donnie Ganzefeld, Noella Gibbard, Melvin Gillespie, Edna Glaser, Rita Greber, Kathleen Greenslade, Douglas Hecker, Henry Huva, Eric Karlstrom, Alvin Lekei, Bruce Lemke, Allen Mitchell, Gordon Schindel, Delmar Siegrist, Kenneth Smith, Garry Stuart, Leone Smith.

### DIVISION 4:

#### Mrs. Tingley

**Promoted to Grade 6:** Noreen Bennison, John Brandsma, David Brinton, Diane Durick, Ruby Gronlund, Dennis Hanson, Gail Henker, Barry Lewley, Ronald Manning, Edwin Matsu, Ross Norstrom, Glen Pollock, Marjorie Rabel, Carol Reimertson, Diane Rumball, Carlton Sheeley, Judy Smith, Franklin Stent, Ken Stoll, Irma Vogel, Allen Wallbank, Wendy Wright, Donna Wyles.

### Promoted to Grade 5:

Shirley Anderson, Linda Beeman, Arlene Embree, Barbara Fudge, Ruth Gronlund, Dale Gunnarson, Mitz Jomori, Jean Kersey, Lowell Laidlaw, Mayne McCutcheon, Victor Uegama, Magda Wouters.

### DIVISION 5:

#### Mrs. MacRae

**Promoted to Grade 5:** Carmon Black, Gary Daniels, Carole Davis, Ronald Fisher, Sharon Fisher, Carole Hackman, Rosalie Hoffman, Georgina Inglis, David Kampe, Yemiko Kawasaki, Susan Lauer, Marilyn McKay, Anne Macleod, Lavina Mayert, Neil Mayert, Edward Menu, James Mitchell, War-

ren Parker, Audrey Pilkington, Wilma Rabel, Robert Sheeley, Gary Short, Connie Smith, Danny Stewart, Peter Stoll, Donald Tait, Douglas Taylor, June Wolfier, Dian Young.

### DIVISION 6:

#### Mrs. Johnston

**Promoted to Grade 5:** Florence Antifaev, Sylvia Arase, Bryan Baillie, Carol Barwick, Bruce Bingham, Denis Bonthoux, Barbara Boyd, Herbie Clough, Ronald Cowan, Harold Derosier, Dorothy Dunsdon, Marlon Dunsdon, Jimmy Eden, Marilyn Embree, Bonnie Ganzefeld, Brian Gardiner, Myles Gillard, Donald Graham, Robert Graham, Teddy Hannah, Evelyn Hoffman, Violet Hollinger, Douglas Holmes, Evelyn Hutton, Larry Jackson, Elsie Karlstrom, Dick Lekei, Harold Oxley, Margaret Pollard, Martin Shannon, Ona Willis, Dianne Wilson.

### DIVISION 7:

#### Miss Dale

**Promoted to Grade 4:** Sheila Allen, Dennis Beeman, Patsy Belnes, Johan Bergstrom, Bobby Bleasdale, Lynn Bleasdale, Emilie Bonthoux, Laurane Bonthoux, Frank Carey, Lorna Charles, Sherrie Clough, Vicki Cuthbert, Ronnie Downes, Ronnie Draper, Clifford Dunsdon, Ronnie Dunsdon, Allen Fabb, Victor Felker, Michael Fredrickson, Helmut Glaser, Margaret Greenslade, Gay Greer, Kenneth Gronlund, George Guernsey, Alan Howard, Grace Johnson, Maureen Keys, David Krause, Stanley Krause, Tommy Milne, Jo-Ann Ongaro, Clifford Perritt, David Smith, Roger Solly, Edward Tavender, Richard Toevs, Donnie Turigan, Douglas Walton, Gladys Yarshanko.

### DIVISION 8:

#### Miss Backmeyer

**Promoted to Grade 4:** David Andrews, Paul Bartello, Kenneth Beggs, Victor Blewett, Lynne Boothe, Mary Carey, Robin Caldwell, Denby Coggan, Peter Frisby, Dianne Gillard, Warren Gould, Nancy Graham, Diann Hannah, Kenneth Hecker, Phyllis Lloyd, Donna McAdam, Donald McArthur, Wayne McCargar, Adele Miller, Richard Milne, Kenneth Mountford, Jerry Polesello, Marilyn Radomske, Ramona Radomske, Elinor Raincock, Bruce Rennie, Wesley Schindel, Clifford Shannon, Louise Shannon, Keith Skinner, Iana Stewart, Barbara Tait, David Williams, Phyllis Young.

### DIVISION 9:

#### Mrs. Kean

**Promoted to Grade 3:** Brian Adams, Carol Anderson, Jean Baillie, Ronald Bangma, Mary Ann Bedard, Garry Bennison, Linda Betuzzi, Ginny Braddick, Marjorie Brake, Doreen Brandsma, Donna Butler, David Davis, Ronald Derosier, Duane Dickinson, Gloria Dowds, John Downton, Carole Fawkes, Robert Felker, James Fiske, Sandra Gibbard, Linda Gidlow, Elizabeth Graham, Margaret Anne Graham, Nancy Hanson, William Hunison, Margaret Hutton, Judith Johnston, Lorna Kampe, Patricia Kennedy, Dawn Knipfel, Douglas Laidlaw, John Lott, Marjory Scott, Dennis Walker, Billy Wood, Bela Wouters, Ann Wright, Nancy Young.

### DIVISION 10:

#### Mrs. Schaeffer

**Promoted to Grade 3:** Douglas Andrews, Iris Charlton, Elsie Coxson, Joy Deringer, Vernon Dunsdon, Nolan Fisher, Leonard Jackson, Ruth Manning, Murray McArthur, Fred Metters, Estelle Miller, June Milne, Judith Mitchell, Phyllis Nilson, Gordon Parker, Timmy Perritt, Geraldine Pilkington, Ronald Pilkington, Marjorie Price, Dennis Rabel, Douglas Rumball, Laurel Schindel, Danny Schnurr, Ruth Scott, Gordon Smith, Elisabeth Tavender, Keith Taylor, Betty Turigan, Angus Whitmore, Linda Wilkin, Iris Willis, Sally Wilson.

### DIVISION 11:

#### Mrs. Allison

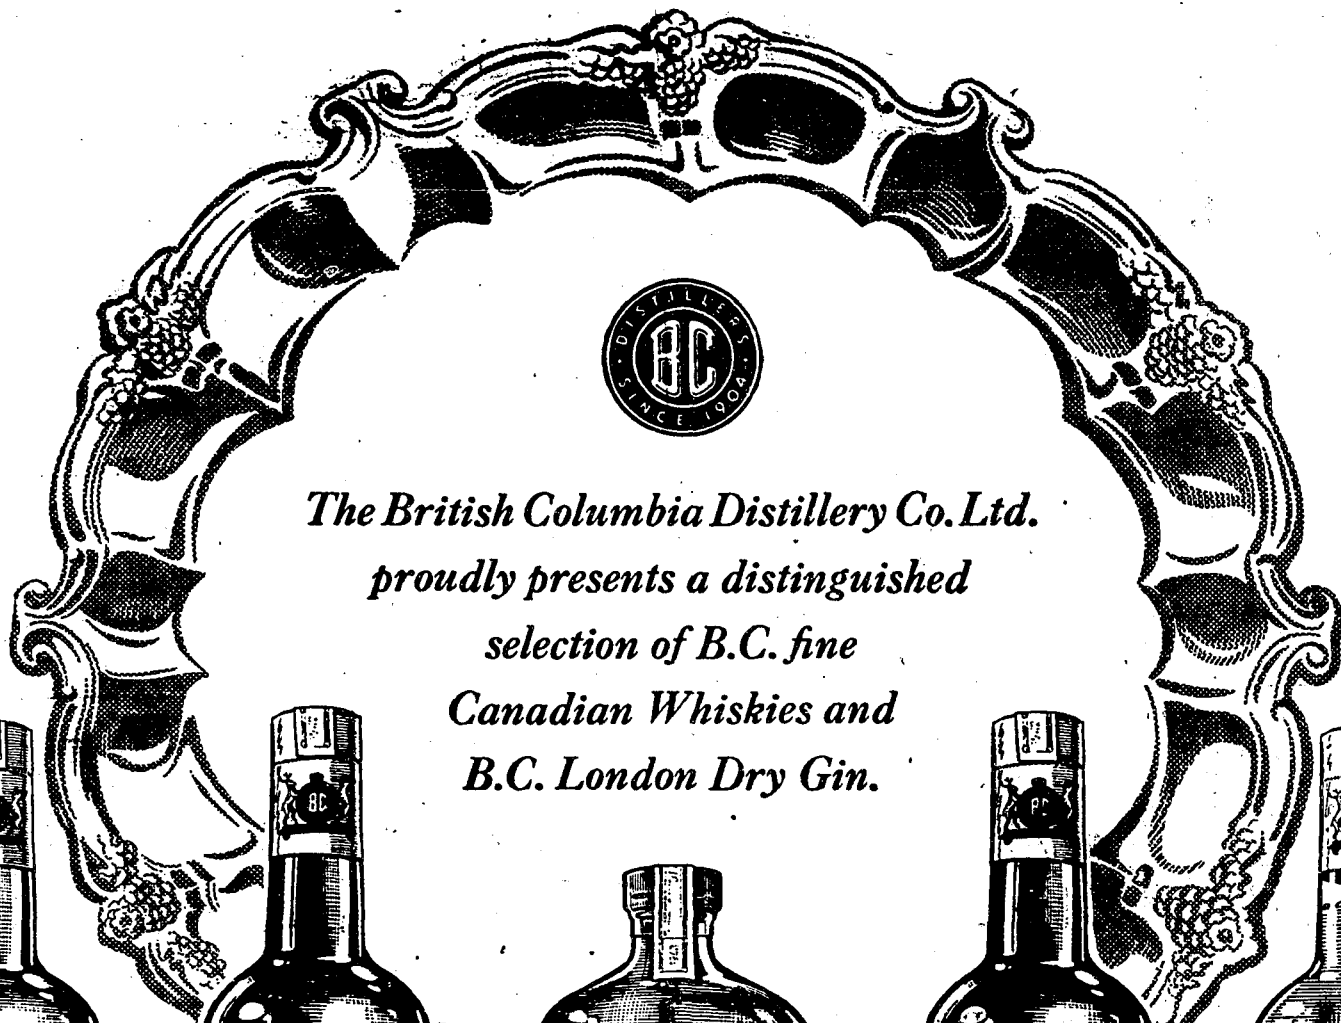

**Promoted to Grade 2:** Linda Antifaev, Robert Baillie, Kenneth Baillie, Freda Bangma, Joyce Bedard, Audrey Beggs, Russell Bleasdale, Kenny Black, Diane Bonthoux, Beverly Bullock, Toddy Burdon, George, Burnell, Mac Butler, Leslie Caldwell, Bryan Charlton, Betty Clarke, Bobby Clough, Gary Do Rosier, Marilyn Dickinson, Gloria Dickinson, Ann Downton, Alice Dunsdon, Elaine Dunsdon, Dick Dunsdon, Brian Eden, Ronald Embree, Sheila Green, Nell Gronlund, Peter Guernsey, Bobby Haddrell, Robert Hannah, Donald Henker, David Holman, Bonnie Johnson, James Jomori, Larry Yarshanko.

THE WEST'S BIGGEST SHOW

# Mosquitoes to Be Controlled

Municipal council will contribute \$75 towards a scheme to eliminate mosquitoes in Trout Creek area, it was decided on Tuesday, June 26.

Any further expenditure must be covered from contributions of those affected in that area, it was thought.

Dr. James Marshall, in charge of the entomological lab in Trout Creek, has offered the services of a large power sprayer to be used after hours. His workmen would be paid for operating the machine, Reeve Bentley explained.

It is planned to spray low-lying ground from Landry's south across the point. Two or three evenings would be taken up with the project, it was stated.

Council was informed that the old mosquito control committee is now defunct but it was considered that an informal committee could be formed quickly for the purpose of organizing control operation methods.

# Parks Board Has Authority on Use Of Powell Beach

First clash between council and the newly-formed parks board over jurisdiction was heard at last week's council session when subject of closing Powell Beach for a one-day regatta was discussed.

Reeve C. E. Bentley took the initiative that this beach has never been closed and council should not allow it on this occasion. A request from the Youth Centre for use of the beach for a summer junior regatta had been made.

However, Councillor Norman Holmes, who is also a parks board member, pointed out that operation of the beach now falls into the hands of the parks board.

Mr. Holmes contended that "we have to use a little common sense" in facing such issues and believed that use of the beach could be granted and the organization allowed to charge an admission fee. He did not think any person would object to paying to see the regatta and if they did they would have to be allowed to go onto the beach for bathing purposes.

It was agreed that this was a parks board problem.

# Ten Local Boys Are Junior Forest Wardens in This Area

Ten Summerland boys have been named junior forest wardens for this district in 1951 by the Canadian Forestry Assn.

They are Ken Bissett, Bill Dunsdon, Neil Younghusband, Erle Gardiner, Williams Charles, Allan Persson, Harold Biollo, Dennis Martin, James Eyre and Melvin Mitchell.

They will be on the lookout for forest fires and will assist forestry officials in fire prevention duties such as putting up forest fire posters, warning woods travellers to use care with campfires and smokes, and talking to their classmates on conservation.

Since the movement was started, 20,000 boys have received training. There are 150 junior forest warden clubs in B.C. and 5,000 boys are presently getting training in forestry, woods travel, forest fire prevention, conservation and good citizenship.

# Cannery Operator Comes to Summerland

Recently arrived in Summerland is Mr. F. Beaven, formerly of Burnaby, where he was in the cannery business.

Mr. Beaven has bought property on the Switchback Road from Summerland Orchards Ltd. which takes care of the holdings of the Walter's Estate.

The lot which Mr. Beaven has bought is often called the Mellor lot, and adjoins that of A. Crawford. The small house on the property under the big fir trees was once occupied by the late Mr. Hodge.

The new resident intends to build a house on the place, and Mrs. Beaven will come here to live when it is ready for occupancy.

**KELOWNA STORES TO OPEN FRIDAY NIGHT**

KELOWNA—Retail stores will remain open until 9 p.m. Friday and will close at 5 o'clock every other day. One exception are food stores which remain open until 5:30 p.m. Wednesday half holiday is to be observed.

# Fishing NOTES

(By Bert Berry)

**Okanagan Lake:** No big ones caught in this area in the last week but good catches of small ones up to two pounds have been made on good days.

**Headwaters Camp:** Road good, and accommodations. Fishing has been pretty good again here this week.

**Glen Lake:** Road okay and boats available. Both trolling and fly fishing good here.

**Silver Lake:** Road barely passable but fishing is good.

**Peachland Dam:** Road passable, no boats. Fishing pretty good by all reports, although not too big.

**Fish Lake Camp:** All accommodations here. Fish lake is pretty spotty, but all the upper chain has been consistently good.

**Garnet Valley Dam:** Road fair. The regulars are still getting the odd fish over one pound. However, there are lots of undersized ones being caught.

**Agur Lake:** Seems a bust this year. No one has caught any fish here this season. It looks very much like something has caused the lake to go barren.

**Shannon Lake:** Perch and bass are being caught in fair numbers.

# Bowlers at Kelowna On Dominion Day For Jones Cup Play

Kelowna retained its hold on the Jones cup, emblematic of South Okanagan lawn bowling championship, over Dominion Day weekend when teams from Summerland and Penticton travelled to the Orchard City but failed to make sufficient wins.

Two teams from each club participated, each team playing every other team of the opposing two centres.

J. E. Jenkinson skipped one rink consisting of Fred Brind, Earle Sanborn and Dave Taylor. Ben Newton skipped the second Summerland rink along with J. Mutton, Will Fosbery, and Ernie Adams.

# Ted Dunsdon Wins June Gold Button

Ted Dunsdon was the winner of the June gold button at the Summerland Rifle Range, having led the local marksmen with two 99 scores last month. He nearly took second prize but in a shootout with Ed Gould the latter won the silver button for second place. Ted took third place and the bronze button.

# Associated Boards President Will Not Continue in Office

PRINCETON—J. L. Jenkins of this city, who was named president of the Southern Interior Associated Boards of Trade at the recent annual general meeting in Summerland, states he will be unable to accept the position.

"I definitely informed them before the meeting that I could not take on such a job this year," Mr. Jenkins states. "I told the executive some time ago that I had too many other commitments this year to be able to do justice to the position."

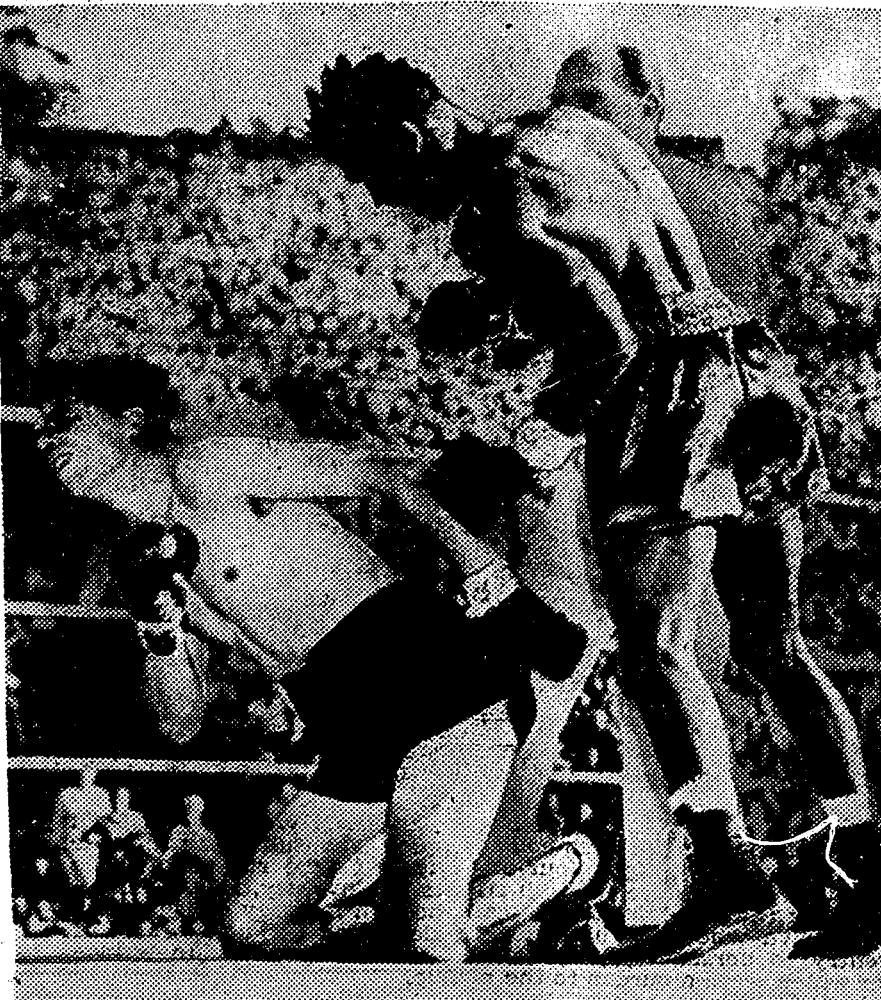

In any event, says Mr. Jenkins, the work of the associated board is better in the hands of an Okanagan man.

SUGAR RAY ROBINSON (right) along with referee OTTO NISPEL watches as his opponent, GERHARD HECHT, German lightweight, goes down to canvas after taking last punch of fight from Robinson their recent bout at Waldbuehne Stadium, Berlin, Germany. Robinson was disqualified in second round for kidney punching and declared loser of exhibition bout. Irate spectators threw soda bottles into ring at the American fighter who had to take refuge under ring until police led him out of the arena.

# Penticton Here This Sunday

After a layoff for the Dominion Day holiday weekend, both Summerland baseball teams swing into league action next Sunday.

At the Living Memorial athletic park Merchants play host to Penticton Canucks and it is the fervent hope of every local rabid fan that the hometown lads will be able to shove the southerners farther into the league cellar.

There are only five more games to play in the International league schedule and if the Merchants are to make a playoff spot they will have to hustle.

In the South Okanagan junior league, Red Sox travel to Penticton to play the Pirates of that city this Sunday.

# Fred Dunsdon Has 99 for Top Score

Fred Dunsdon still had his eye trained on the target last Sunday as he led the local marksmen at the rifle range with a 99 score.

He had to be right on the bit as Dewey Sanborn and Herb Simpson were right behind with very good 98 scores. Others were as follows:

G. M. Dunsdon 96, P. S. Dunsdon 94, J. Khalembach 93, Steve Dunsdon and Ed Gould 92, Len Shannon and A. W. Moyle 91, Ted Dunsdon 90, D. Taylor 89, Art Dunsdon 85, Doug Price, 82, Helen Price 81, Pop Dunsdon 77, Barbara Price 76.

# Merchants Lose To Oliver by 3-2 Count

Summerland Merchants, playing an exhibition game at Oliver last Sunday lost an exciting 3-2 contest to the strong Cantaloupe City entrants in the mainline league. Only three hits were counted by the Merchants but as they came in a row the Summerland representatives in the International league were able to hold their own with the southerners.

No score book was taken south by the Merchants, so a detailed resume of the game is not available here at presstime.

In other weekend exhibition games, Penticton Athletics humbled International League leaders Omak by a 9-3 score on Sunday. On Monday, Oliver came to Penticton and walloped the Athletics by a one-sided count.

# Hedley Pitcher Loses Control In Pinch to Go Down 4-3

It was a close ball game all sewed up at 3-all going into the last of the eighth at Living Memorial athletic park last Sunday afternoon when Pitcher Payne hit Bob Weitzel and then heaved the ball wildly trying to catch him on a steal. As a consequence, Bob landed on third and raced home ahead of the throw on Bonthoux's grounder.

That spelled a 4-3 victory for Red Sox over visiting Hedley Senior B's in a good, tight ball game which had the fans in excitement throughout.

Hedley outhit the Red Sox but Brawner had better control for the victors and struck out nine, besides only allowing one walk. Payne gave four passes to first and failed to strike out one batter.

Right in the first frame the Hedley battery had trouble and it spelled two runs for the Red Sox. Pohlmann walked and came across on Hooker's single and a passed ball. Hooker was caught out trying to make it for home but Ernie Jomori scored on Catcher Ray Reimer's error, to give the Red Sox a 2-0 advantage.

Hedley got one of those back in the second when Pitcher Payne singled and scored as his teammates were being retired.

Red Sox went ahead 3-1 in the sixth when Robin Fisher was safe on an error and was scored on infield grounders.

The visitors evened the count in the eighth when McLaren started affairs with a single, scoring on Fisher's miscue. Tying run was

counted by J. Beal on Ray Reimer's double.

In the last of the eighth, Bob Weitzel, who relieved Pohlmann as catcher, scored the winning tally.

# New Medical Director for Health Unit

Last Friday morning the resignation of Dr. H. B. I. Zeman, director of South Okanagan Health Unit, was accepted at a meeting of the Union Board of Health in the City Hall, Kelowna.

At a previous meeting, Dr. Zeman's resignation was refused by the health unit. There was lengthy discussion and some suggestion of splitting the area which embraces a large territory, and opinion voiced that two directors should be appointed. Dr. Zeman at that time was given three months' leave of absence.

Dr. J. A. Taylor, deputy provincial health officer was present at Friday's meeting and explained that there is no possibility of obtaining a second director at the present time.

Dr. David Clark, a recent interne at Vancouver General hospital, was accepted as director on recommendation of the department of health and welfare.

Dr. Clark is new to public health work, but will come to the Okanagan possibly at the beginning of August to work along with Dr. Harry Kennedy, director of the North Okanagan health unit, for a month's orientation.

In September Dr. Clark will be introduced to the various councils and school boards in the unit by Dr. George Elliott, assistant provincial health officer.

At the meeting it was stated that there may be a rearrangement of the South Okanagan Health Unit and the boundary area, including the towns of Greenwood and Grand Forks. This will not take place until after the preliminary results of this year's census.

Clarification of several points of policy as between health units and the department were given by Dr. Taylor.

Present at the meeting was Miss Monica Frith, director of public health nursing services for the province. Alderman Bob Knox of Kelowna, chairman of the board, presided.

The meeting was attended by Councillor F. E. Atkinson and School Trustee Mrs. A. W. Vanderburgh of Summerland.

## MURDER

Continued from page 1

gave up this post to devote his entire time to his fruit orchard.

Defence was handled on Tuesday by John S. Aikins, of the firm of Boyle & Aikins, Penticton. It is understood that Harold McInnes, KC, another well-known Penticton lawyer has been retained to handle the defence case, as well.

Prosecution attorney on behalf of the municipality is Frank Christian, of O'Brian & Christian, with offices in Penticton and Summerland.

The charge of murder "on or about June 30," was laid by Constable I. G. Thorsteinson, while Sergeant A. G. Brabazon has been conducting the gathering of evidence for the preliminary hearing. Accused was remanded in custody following adjournment of the hearing on Tuesday. No bail can be allowed until after the preliminary hearing, if then.

In such cases, where authority has been given to proceed with a definite charge in connection with a death, no inquest is necessary, police explain. Details which would be elicited at an inquest are heard by the preliminary hearing which determines if there is sufficient cause to order a trial.

No plea is necessary in connection with a preliminary hearing. If a trial is ordered then the accused has the opportunity to plead either Guilty or Not Guilty.

### MORE ABOUT—

## FINAL

Continued from Page 1

a period between December 15 and the end of the year when it became apparent that the fruit in the United States, and to a partial extent in Canada, was not moving sufficiently fast, to reduce the holdings to a safe level.

"At no time from the very beginning of the season had the British Columbia industry relaxed its efforts to sell the maximum quantity that the market would absorb, and this policy was continued throughout the whole marketing period.

"There was, however, a distinct lessening of normal selling pressure throughout the United States, with the result that their January holdings were far in excess of what they should have had at that time. The result was a movement of excessive quantities of fruit, which in too many cases were getting out of condition, to the American markets generally, with the obvious result of lessening interest on the part of the public.

"To complicate matters still further, they ran into a railway strike, which prevented them moving anything for ten days. The outcome of all this was an utterly chaotic market, which persisted for the remainder of the season.

"Prices in the United States markets have always had, and will continue to have, a very definite effect on the general outlook for the whole North American continent, and it must be remembered that our prices have to be competitive in most markets, otherwise imports (of U.S. apples into Canada) will follow."

### GOES TO PENTICTON

# Lower Power Rates for North Okanagan Follow Whatshan Plant Opening

One of the features of the opening of the new Whatshan power plant last Thursday afternoon two miles north of Needles was the announcement by B.C. Power Commission Chairman S. R. Weston that new, lower light and power rates will now be available for the North Okanagan and Kamloops areas.

Mr. Weston made this announcement on the eve of the plant opening at a special concert arranged by the Vernon Board of Trade.

Electric light rates, for ordinary users, from September 30, will be 7 cents per kwh for the first 40 kwh, 2 1/2 cents for the next 120 kwh and one cent for all over 120 kwh.

If the user has an electric range, rates are: First 60 kwh, 7c; next 180, 2 1/2 cents; over 240 kwh, one cent.

Present rate for residential users is 10 cents for the first 30 kwh used; then a reduction to three cents and finally 2 1/2 cents and 1 1/2 cents.

Power used for irrigation purposes will be set at \$5 per horsepower per month for a minimum period of three months.

Those invited to inspect the new power plant which is to bring a new life to the North Okanagan and Kamloops areas, were transported from Vernon in four Greyhound buses.

The trip took just over four hours, the party arriving at destination, on the shore of Lower Arrow Lake after midday.

After a splendidly-arranged buffet luncheon in the company cookhouse the visitors were taken to view the dam which has raised the level of Whatshan Lake fifteen feet. Provision has been made to raise the dam to provide an additional ten feet of storage water, if necessary.

Also observed was the intake for the 10,600-foot-long tunnel which was bored through the mountain to bring the Whatshan Lake water pelting down to operate the powerhouse on the shore of Lower Arrow Lake.

Although the main tunnel bringing the water to the powerhouse measures 10,600 feet, shafts and

tunnels totalling 2 1/2 miles were needed before the job was completed. Work was started in September, 1948, and it took the rock crew of Mines Western Ltd., until late April, 1950, to punch through the mountain.

Hon. E. T. Kenney, minister of lands and forests, threw the switch which put the plant into operation last Thursday afternoon, following addresses which gave credit to many power commission officials and construction company engineers who had worked diligently and hard to provide these new facilities.

Later, following a dinner, Hon. Mr. Kenney declared that there is a possibility that a huge pulp plant may be located in the Arrow Lake territory and power from Whatshan's new plant used to operate this new industry.

The Power Commission, besides operating for the entire North Okanagan, also supplies electric power for Peachland and Westbank. An underwater cable was recently laid across Okanagan lake and arrangements made with the West Kootenay Power & Light Co. to supply electricity to these two communities.

The local power plants will be moved away to other locations where the B.C. Power Commission can supply additional juice, it is believed.

Besides Mr. Weston, Commission Members Major-General W. W. Foster and F. L. Shaw were present and addressed the party on several occasions. Public Relations Director J. E. B. Shaw was on hand from Victoria while Resident Engineer T. N. Gibson of Vernon was only too eager to explain the details of the new commission plan to the party.

Attending from Summerland were Reeve C. E. Bentley, School Board Chairman C. J. Bleasdale, and Trustee J. Y. Towgood, and Board of Trade President J. R. Armstrong. Peachland, Westbank, Kelowna, and North Okanagan centres were all represented at this gala event, besides.

# A. R. Garrish Relates Plan For Industry Worked out by Pooling Processing Committee

Under the plan worked out by the pooling processing committee set up by the BCFGA this year, all returns from apples, whether on the fresh fruit market or from the use of culls, will be funnelled into the general apple pool.

This was the statement of BCFGA President A. R. Garrish of Oliver speaking to Summerland growers last week.

Recommendations from this committee have been handed in to the BCFGA central executive and have gone out to the district councils for perusal.

Walter Toews of Summerland has been a member of this hard-working committee which is headed by President Garrish.

This pooling processing committee has been working along the line of thought that commercial fruit will have to be diverted to processing in order to "tailor the crop" in years of overproduction. This would mean that culls would have to be dumped.

If all returns from processing go into the general pool, then the grower-owned B.C. Fruit Processors Ltd. would have to be re-financed, and would be changed from a salvage proposition to a balance wheel in the industry, Mr. Garrish believed.

But the processing company will retain full control of the cull apples to dispose of them as the industry sees fit, he added.

It is recommended that shares in the processing company, to pay a higher interest rate, be issued to finance operations.

Plan at Season's Start

Dealing with the effect of this planned diversion of lower grade commercial apples to the processing pool, Mr. Garrish explained that the sales agency would have to plan at the start of any season the probable tonnage to be so channelled so that the balance of the crop could be marketed efficiently and with a return which would compensate the grower adequately.

Also, the committee recommends that each variety be marketed in

the season when it is in its prime condition, thus doing away with a condition such as existed in the past year when McIntosh were still being sold in competition with late winters.

In this plan, Tree Fruits would give consideration to placing better fruit on the prairie markets, as the percentage of cee grade to be marketed would be smaller.

The committee has hopes that consideration can be given in future towards diverting from the fresh fruit market that portion of the crop which would not bear the cost of packing and distribution, as such costs are increasing each year.

Mr. Garrish also stated that his committee recommends more attention be given the condition of the fruit. In the past only size and color have been considered with little attention to actual condition.

Another recommendation is that "wherever possible" apples be diverted directly from the orchard to the processing plant. This could be done, he thought, with certain blocks of varieties known to be undesirable on the markets and in the case of halled commercial apples.

Some system of slight grading to save costs has been recommended. Regarding pooling, the committee has suggested that the program of attaining a point where all varieties, grades and sizes reflect the true market value of the product be accelerated to obtain that result in the shortest possible time.

The committee has also considered that a larger amount of fruit might be diverted from one packinghouse or one district than another and some equitable plan must be worked out to compensate the packinghouse which has suffered a loss of turnover.

Proper Type of Criticism  
Mr. Garrish concluded by reminding growers of the hardships in production which have been overcome in the past twenty years.

The technical achievements of the past twenty years have been great but they can be wiped out if the last problem is not solved: "How to obtain unity and solidarity under adverse conditions."

As the new president he did not expect an attitude of "faith and blind hope", and he expects criticism.

"But when you criticize, know who you are criticizing and what you are criticizing and where it should be voiced, which is right here in your own local meetings. We won't get anywhere or solve anything if we break up our organization by irresponsible criticism," he warned.

# Tree Removal Grant Cheques Being Sent to Interior Growers Today

Cheques totalling \$200,000 are going forward to 1,025 growers in the B.C. interior tree fruit area this week, representing the main payment from the B.C. Government's cheque for \$250,000 as the grant for fruit trees killed by the severe winter of 1949-50. Some 146,485 fruit trees are covered in this payment.

# Second Remand Granted in Murder Case

George Clark, former star athlete of this district, who has been charged with the murder of his brother-in-law, Harold O. Tavender on or about June 30, was remanded for one week for the second time when he appeared before Magistrate Hugh Sharman in local police court on Tuesday morning.

The remand was sought by Frank Christian, prosecuting attorney, who declared he was not ready to proceed with the case.

In fact, Mr. Christian doubted if the prosecution would be ready by next Tuesday, as RCMP Constable I. G. Thorsteinson has gone to Regina headquarters where exhibits are being scrutinized in RCMP laboratory. When he returns it is expected the preliminary hearing can proceed.

J. S. Aikins, defense counsel, indicated he would be in agreement to the postponement sought.

As the present courtroom is tiny, arrangements are being made to use the IOOF hall as a courtroom for this important preliminary hearing.

H. O. Tavender, 43, died in Summerland General hospital following an affray at his home on Giant's Head road on Saturday night, June 30. Clark was taken into custody and on Tuesday, July 3 was charged with murder of his brother-in-law.

The case has shocked the entire district, as the accused has been one of its most popular younger citizens and was awarded the Distinguished Flying Cross as a member of the RCAF in World War II.

# Plan Further Facilities for Tourists Here

Through the efforts of the new industries committee of the Summerland Board of Trade, Summerland may make a further effort to capture some of the valuable tourist trade in the valley.

The trade board, at the suggestion of Councillor F. E. Atkinson, new industries committee head, is compiling a list of homes where some tourist accommodation would be available.

Inspection of these homes will be carried out by the health unit sanitarian and when a complete list is available the trade board intends to hand over the information to existing tourist camps.

When these camps are filled, they can direct tourists to the private homes which have signified their willingness to take in tourists for a night.

Penticton Board of Trade instituted this plan a year ago and so successful was its operation that approximately 1,000 persons were provided with private home accommodation over the Dominion Day weekend.

Also, the Summerland board wishes information regarding householders who wish to accommodate persons who would stay for a week or two as their entire holiday.

Often enquiries are made as to the possibility of obtaining some type of accommodation, especially near the lake, so that an entire holiday can be spent in one place. If there are persons who wish to offer such portions of their homes, then the trade board is desirous of compiling such a list.

# Canadian Rangers Unit May Want To Use Ellison Hall for Training

Council is still considering what it can do for the proposed Canadian Rangers' group which may be desirous of using Ellison hall for its training and meeting periods.

An informal application for use of Ellison hall was filed through Raeve C. E. Bentley with the council on Tuesday.

A delegation from the Legion will be asked to meet council and discuss the situation.

Council is faced with a bylaw to renovate Ellison hall to bring it up to fire marshal's requirements. The Legion obtained a petition, sufficiently signed, last year requesting the council place a bylaw for the renovation of the hall before the taxpayers.

The council must put this bylaw,

After a year of deliberating, the only relief for tree removal which has been obtainable for those growers who suffered a heavy financial loss in the unprecedented subzero winter is now being distributed.

First of all, the BCFGA appointed an emergency committee which went into all phases of the Okanagan loss and presented lengthy briefs to Victoria and Ottawa on behalf of the industry. Loss from tree removal alone, irrespective of crops, amounted to \$2,000,000.

Ottawa turned a deaf ear to the Okanagan's case and the B.C. Government provided a token payment of a quarter million dollars.

When this final amount was settled upon, the BCFGA appointed a tree loss committee consisting of J. G. Campbell of Salmon Arm, chairman, G. A. Lundy of Oliver, and C. A. Hayden, secretary.

This committee ruled that 250 growers who submitted tree loss figures were not eligible. Compensation was allowed 1,025 growers who submitted estimates of tree loss.

Approximately 80 percent of the \$250,000 is being distributed this week and the balance withheld for about a month to take care of any adjustments which may be found necessary, Secretary C. A. Hayden declared in a release this week.

Method of Payment  
Compensation is not being paid on losses below 15 percent. Those receiving compensation get it on 85 percent of their tree loss. Payment per tree is based on its diameter.

Chairman Campbell declared that there are many growers whose losses would qualify them for compensation but they did not make application as they wanted their share to go to growers whose losses were greater.

Organization of the forwarding of these cheques has been undertaken by George E. Brown, Tree Fruits secretary, and his staff.

Two members of the BCFGA tree loss committee visited each area and checked the returns with the district horticulturist's office, and with all records available.

Where any discrepancy occurred or the forms were incompletely completed, the figures were altered to conform with the official records and tree count checks made by the horticulturists, packinghouse officials and BCFGA representatives, or the growers own original figures, it is explained.

# WILL RAISE LEVEL OF FIRE HYDRANTS

Three fire hydrants, including the one on Hastings street recently damaged by a motorist, will be raised in height, council decided on Tuesday. Two hydrants in particular are so low that they are not clear of ice and snow in the winter, it was stated.

# New Coach For Merchants

A new deal in the Summerland Merchants' baseball club was forecast today following a meeting of ball players and executive last night.

It was decided by the players that they wished a new coach and manager to replace Ben Trafford, pilot for the past two seasons.

Bob Bleasdale was named the new Merchants' coach while it is hoped by the ball club to appoint Harry Braddick as manager. He is expected home from a trip to Vancouver tonight.

Mr. Trafford did not attend last night's meeting but informed The Review that if the players could find a man who could provide a winning ball club then he is perfectly satisfied to step down.

He has spent a considerable amount of time endeavoring to steer the ball club in the past two years, time which he could ill afford on certain occasions, he points out.

when convenient, and it will create a problem of financing a renovation program of \$7,000 to \$10,000 if the bylaw passes.

The fire marshal has condemned use of the hall for any public gathering if present heating facilities are used.

Some councillors believed that the hall could be used by the Canadian Rangers unit without further cost as to new heating equipment, and the main cost for such hall operation would be confined to patching the roof and boarding the windows.

Last night the Legion turned down the suggestion it send a committee believing it should be left until the Ranger unit is formed.

Vol. 6, No. 28 West Summerland, B.C., Thursday, July 12, 1951

# Hopes for New Service Are Bright

After a five-year "battle", Summerland may soon be provided with a motor vehicle licensing service which will do away with the necessity of vehicle owners going to Penticton for licences or sending for them through the mail.

Superintendent Hood, head of the motor vehicle branch of the provincial government, visited Summerland recently and met members of the council and board of trade at a short session.

He proposed that the municipal office be used as an issuing centre and if the scheme is approved then, on the basis of 1949 figures, a collection fee of \$600 would be paid the municipality for this service.

In that year, the value of motor vehicle licences issued for this district was about \$21,000.

Summerland council has approved the plan and is so indicating to Superintendent Hood at Victoria.

Before the scheme can be put into effect, however, it must go before the provincial cabinet for approval.

Supt. Hood indicated that he expected to have his brief prepared by the end of July, when he would approach the cabinet.

Practically every municipality he approached with the scheme had been in hearty accord, he indicated, leaving the impression that this added service on the part of the branch has a good possibility of being carried out before many months have elapsed.

The provincial office in Penticton would assist local municipal staff in setting up a collection system, it was indicated.

NEW UNIFORMS—No longer will the Canadian sailor have to struggle to pull a snug-fitting jumper over his head when dressing or undressing. The new uniforms will also have pockets in the trousers. The new uniforms will make their appearance next month. Leading Seaman Butler is shown trying the zipper on his jacket.

# Valley Flower Show Has Sixty Classes

Prize list for the valley flower show to be held in Summerland on August 25 was finalized at a meeting in the provincial district horticulturist's office last night and attended by flower lovers from Vernon, Kelowna and Penticton, besides local officers of the Summerland Horticultural Society.

Sixty classes will comprise the big list for this show.

Among those present were Harry Evans and Bill Baverstock, Vernon; Mr. McLaughlin, H. C. S. Collett and R. P. Murray, Kelowna; Harold Barrett, Maurice Trumpour and Michael Oswell, Penticton.

# Junior Regatta Expected to Revive Water Sports Interest

Summerland's first regatta in years will be staged at Powell Beach on Wednesday afternoon, July 25, under the auspices of the Summerland Youth Centre Assn., assisted by the swim class committee of the Summerland Board of Trade.

John Kitson, who was a leading figure for some years in Kelowna Aquatic and Regatta work, is the key figure in Summerland's latest venture . . . a junior regatta.

From the Orchard City will come two speedboats, at least one war canoe crew, and a number of water skiing specialists, besides numerous swimmers and divers for exhibition events.

Penticton is expected to have two war canoe crews on hand, Novelty events and races for children 12 and under, 14 and under, 16 and under and open events are to be staged. In all, there are 27 events being planned.

Reminded of Old Times  
Not for many years has Summerland attempted a water sports meet, but old-timer residents can recount many splendid such days in the earlier days of this district.

It is hoped that with this experimental venture on July 25 will form the basis for an event of much larger, and more permanent nature.

Mr. Kitson has come to Summerland to be a member of the fruit products laboratory staff at the experimental station and intends to devote a great deal of his time to promoting swim events. He has already been of great assistance in the holding of the swim classes under the guidance of Ruth Klux, chief instructor.

One of the features of the junior regatta will be a demonstration of one of the actual swim classes. War Canoe Crews  
Kelowna and Penticton junior girls' war canoe crews are expected to compete, while several leading water ski enthusiasts from Kelowna will accompany the speedboats. It is hoped that one or two top Kelowna divers will also be here.

Summerland Band will be in attendance to add a gala touch to the afternoon.

Among the novelty events Mr. Kitson is planning are races with inner tubes, underwater nailing contests, greasy watermelon scramble, balloon race and several others, including a comedy life saving act.

Amongst the older boys' exhibition races, Roger Tait of Kelowna will probably be one of the chief contestants. The girls' relay team from Kelowna which captured the B.C. championship at the Cetus Lake regatta last year may also be present, Mr. Kitson expects.

Assisting Mr. Kitson is Mr. Cecil Wade and his committee from the board of trade swim class group, F. E. Atkinson in charge of advertising and a Youth Centre committee to take charge of refreshments.

A public address system will be installed and it is hoped to have Jim Pantou, pro-re valley instructor, on the microphone.

# Friends Rally to Pick Clark's Cherries

Proof that Summerland is a community which thinks of its fellow man was given ample scope on Monday evening when a group of more than thirty men gathered to pick the balance of George Clark's Bing cherry crop.

Clark is in custody on a charge of murder. His wife, with her two little children was unable to cope with the Clark cherry crop despite efforts of many members of her family and the Clark family.

Consequently, long-time friends, led by "Sandy" Caldwell and Ross McLachlan, of the local Legion branch, organized a cherry picking party. More than thirty invaded the Clark orchard on Monday and picked the rest of his Bing crop.

# Miss M. Bennest Has Resigned as Hospital Matron

Miss May Bennest, who has been matron of the Summerland General hospital for nearly four years, tendered her resignation to the directors as at the end of June, a special meeting of the board was informed last week.

A recurrence of poor health which forced her to take leave of absence for several months at the year end caused Miss Bennest's resignation and the board accepted it with regret, expressing the hope that she would be able to regain her health with further rest.

The board authorized its secretary to advertise for a new matron. Until a replacement is obtained, the position of matron is being filled by Mrs. J. Heavysides.

Hospital directors were pleased to hear that the BCHS would probably look with favor upon an application to increase the budget to provide a higher salary schedule for its nursing staff, in view of the increased rates being paid by hospitals in other parts of the valley.

As a consequence, the nursing salary schedule is being increased \$10 per month commencing July 1st.

Will for the lower town sidewalk has been authorized by council.

# Ivor Newman Resigns as Governor in Protest of Vote on Board Chairman

Friction which has been brewing for some time broke into the open in fruit circles this week with the resignation from the board of governors of B.C. Tree Fruits Ltd., central sales agency, of one of its two new members, Ivor J. Newman of Glenmore, immediate past president of the B.C. Fruit Growers' Assn.

Mr. Newman lost the presidency on May 31 in a contest which saw grower-directors elect Arthur R. Garrish of Oliver as the new growers' president. He was subsequently nominated as a governor, replacing L. E. Marshall of Glenmore. Tom Towgood of Oyama is the other new governor, replacing T. D. Shaw-Maclaren.

It was over the chairmanship of the board of governors that Mr. Newman broke into open mutiny. His contention was that Arthur K. Loyd, president and general manager of Tree Fruits, as an official of the company should not be chairman of the board.

Other members of the board did not agree and the vote favored a continuation of Mr. Loyd as chairman, along with his other duties.

One of the most blatant features of Mr. Newman's resignation came with a radio despatch over Kelowna Station CKOV at noon yesterday in which Mr. Newman told growers not to sign the new contract, as a protest of the present marketing setup.

New President A. R. Garrish last night replied to Mr. Newman and criticized his action in resigning as "undemocratic".

Mr. Newman intimated in his resignation radio speech that his nomination to the board of governors had been predicated on the understanding he would be seeking a change in the board of governors' setup.

President Garrish has declared Mr. Newman to be under a misapprehension regarding his nomination to the governors.

In part Mr. Newman declared that he had found at Tuesday's board of governors that "the views of the majority of governors would delay such changes to such an indefinite time that it would endanger the stability of our organization."

"The two new governors, in my opinion, were recommended by the directors for the views which we held regarding the operation of B.C. Tree Fruits Ltd."

"When I failed to make sufficient impression on the thinking of the governors to give one gleam of hope, and with the interest of the growers at heart, I felt bound to resign."

"Now in my opinion, if the growers sign the new contract which is self-perpetuating, all hope is lost of affecting a change in the management of B.C. Tree Fruits Ltd. This change is needed to restore the confidence of a great number of the growers and the wholesale fruit and vegetable trade in western Canada," he concluded.

President's Answer  
Later yesterday, Mr. Garrish replied to Mr. Newman as follows:

"I regret the action of Mr. Ivor J. Newman in resigning from the board of governors of B.C. Tree Fruits Ltd. after such a short time in office. I feel that Mr. Newman is under a misapprehension in his opinion. He was not elected to the board of governors for any specific purpose."

"The whole structure of the BCFGA and its affiliated bodies rests entirely upon democratic procedure. It is the right and duty of everyone elected by the growers to state their views and the views of the growers they represent, but in the final analysis the will of the majority must prevail."

"Any change in our organization, representation or management can and will be made when, and only when, it represents the considered opinion of a majority of the growers' body, as expressed through their elected representatives," he concluded.

# CREEKS RUNNING AT HIGH LEVEL

Reports from headwaters at Tuesday's council session indicated that Canyon Dam gates were closed on June 27 when the level was 23 feet. Eneas dam was full at the month end, it was stated.

Creeks throughout the district are running at an abnormal rate for this time of year due to the heavy rainfall.

Under Foreman E. Kercher's guidance, the curbing will be installed soon and then the walk will be soaked, rolled and allowed to settle for a time. Asphalt will be applied before the school term commences.

Burning in refuse barrels in the business area will be banned at the end of July.

# Sidewalk to New School is Started

Start has been made on the sidewalk on Granville street to connect with the high school entrance. Material has been unloaded to bring it up to grade and the municipal maintainer has been levelling it this week.

Under Foreman E. Kercher's guidance, the curbing will be installed soon and then the walk will be soaked, rolled and allowed to settle for a time. Asphalt will be applied before the school term commences.

Burning in refuse barrels in the business area will be banned at the end of July.

# Campfire Girls from Washington Guests of Southern Okanagan Guides

Sixty Campfire girls from Wenatchee, Lakeside and Chelan arrived Tuesday afternoon, July 10, in the Southern Okanagan to return the visit paid them last year by Canadian Guides from this area.

Fifteen of the guests were billeted in Summerland with their leader, Mrs. Carr. A program of interesting entertainment was prepared for them by the Summerland Local Association headed by the president, Mrs. D. L. Sanborn and by the Guides, themselves. Mrs. Clarence Adams had the task of convening food for the hungry lot.

Guides and Association members met their visitors at 8 p.m. Tuesday at the Youth Centre and after greetings and introductions all played games together.

At five o'clock all went to the experimental station for supper.

The ladies of the Legion WA assisted by getting cakes for part of the dessert.

In the evening everyone was taken to Powell Beach to enjoy swimming, a bonfire and wicker roast, and later campfire and songs.

Transportation on Tuesday was provided by Rotary Club members. Other Campfire Girls were billeted at Osoyoos, Oliver and Penticton, with Guides from Allanby and Princeton joining in the fun at Penticton.

The American girls came up by Greyhound bus. Before they left at two o'clock on Wednesday, each was presented with a small Summerland pennant. These pennants were given by Summerland Board of Trade and presentation made by Vice-President Walter M. Wright.

### PORTRAITS

**Alexander Smith**  
The story of Alex Smith is the story of the development of a thriving trucking business, and of a business partnership of over thirty years' duration. More than that it is the story of proven dependability, and the success of firmness tempered with gentleness.

large areas and the crop has to be brought to central points for handling. Only in the smallest beginnings did anyone truck his own fruit.

In those days there was orchard work to be done by horses and as at the present time, there was constant hauling of various commodities.

From Edinburgh to Sishaw Flat was quite a change for the young man who had been a despatch clerk in a large department store in the Scottish capital. For seventeen years he had been part of the busy life of the shop, working his way up from van boy.

He knew cousins of John Tait, former district horticulturist here, and when Mr. Tait was in Scotland telling of the opportunities to be found in the Okanagan, Mr. Smith decided to head for the newer country, too.

In 1908 he arrived and worked a year driving a team for the Tait brothers, John and Magnus, in Trout Creek. The next year he worked for Alex Steven, another young Scot, who had a livery van and three teams.

Here was the nucleus of a trucking business, and Okanagan centres must have trucking facilities, since the orchards spread over

Two years after Mr. Smith had been here, his fiancée, Miss "Jo" Fisher, came. She accompanied Alex Steven on his return from a trip to Scotland, bringing her beautiful big wedding-cake with her. Somewhere along the way the cake, which was part of her luggage, was lost, but as was usual in those days, turned up in time, along with the minister, Rev. J. S. Hood.

The wedding took place at the home of Mr. and Mrs. Tom Beavis in Trout Creek, with Miss Chrissie Tait, later Mrs. F. J. Nixon, as bridesmaid and Mr. Gilbert Thornber best man.

So their home was started; one which remains as it has been for over forty years, an example of happy family life.

While working for Mr. Steven in 1910, Mr. Smith turned the first sod for St. Andrew's, then, Presbyterian church. Even then Summerland people were working together and there was a great deal of volunteer labor in building the church. John Steuart was overseer for the Presbyterians and Harry Tomlin and Nelson Bros., were builders.

In 1911 he cut the first sod for Okanagan Ladies' College on Giant's Head. All the lumber for the building was hauled up the gravely hill with horses. He remembers that the first car of coal that ever came to Summerland went to the college, pulled up the

steep slope a ton at a time with two teams. The janitor, A. Trayler, was on hand to receive it.

The next year Mr. Steven sold out his livery business to two men who established the firm of Pares and Hookham. Their barn was where the Frozen Food Locker operates now.

The business was growing. There were seven teams, three for orchard work and four for hauling. Mr. Smith was made foreman and Mr. Pares brought over from Olalla a young fellow not long out from Ireland, George Henry.

So began the association of a young Scot and a spirited Irishman.

Pares and Hookham took over a contract from Alex Steven of hauling timbers for Trout Creek railway bridge. Great loads of twelve by twelves were brought from the top of Garnet Valley to the canyon site. That was a big job. Two teams were going up and two coming down constantly, each trip taking a day and a half. The road was mostly a sidehill one, and the loads so hard on the wagons that steel reaches had to be obtained for them.

In World War I Mr. Pares paid the supreme sacrifice, and when E. R. Hookham returned in 1920 he became interested in the White Lake Coal mine and wanted to sell the business.

Alex Smith and George Henry decided to join forces. Neither had money to buy it, but each had a house. Each mortgaged his house for \$1,000, and as partners they borrowed another \$1,000 from the bank. With their \$3,000 they started out, and they have been in partnership over thirty years.

In those days their assets were themselves, a Republic truck, a model T Ford truck and a school bus, which was a truck with a canvas top. One man, J. Hamlin was the staff, and Mr. Smith was the book-keeper.

The next year they had the mortgages paid off.

When they brought in their first car of coal by railway they had no

## Signifying Nothing *By RUSTICUS*

Anybody who lives in Summerland is lucky, of course, but sometimes I think that kids growing up here are especially lucky. Swimming for instance; a grand lake right at their doorsteps, with wharves to play round, and free swimming lessons every summer. How the kids I grew up with would have gloried in such a set-up.

All we had was a pond where the shore and bottom were grey mud, and the water was grey too, and mysterious amphibious creatures would come to the surface and leave a cluster of bubbles and go down again. We enjoyed our baths there tremendously, in hot weather, and had lots of fun splashing round, but we didn't learn much about swimming.

We had no instructors, and the older kids didn't know anything but an instinctive dog-paddle. We were all scared of deep water—maybe because we had to wade out such a long way to get to it, and scared to put our faces in it—maybe because it was so muddy—so whenever we tried to swim we'd hit our knees on the bottom and hold our bodies too stiff and our heads too high, and founder after a stroke or two.

The only ones who dared to go into a decent depth of water were those with water-wings. They were like a couple of bags at the end of a tube, all made of treated cloth, with a valve mouthpiece, and sometimes in quite gay colors. You'd wet them so they'd hold air, then

blow them up and lie on them in the water, with the little air-filled bags sticking up on either side. They'd support you nicely, and you could safely take both feet off the bottom and forget your worries about sinking and really try to learn some stroke you'd read or been told about.

Trouble with water wings was that you got to rely on them so much you were scared to try deep water—anything over hip-high—without their support. I'll never forget how nervous I got when a swimming instructor at a lake resort told me to stretch my arms above my head and lie down in the water and kick, saying I'd sink only an inch or so below the surface. I didn't believe it, but he showed me and finally shamed me into it, and when I found that I could lie down in the water with my feet off the bottom and my face under, and not immediately sink to the depths and drown, it gave me such confidence that I was soon able to swim alone, after a fashion, at least.

Unfortunately, that swimming instructor taught the breast stroke. It's a good solid work-horse of a stroke, fine for long distances and it works just the same whether you're right side up in the water, or upside down. But it looks so horribly old-fashioned.

Nowadays you might as well not swim at all as be unable to bury your head in the water and flail your arms out of it in the rhythmic beat of the crawl. Even though

many of those who do it have the wrong leg stroke and can't keep going for more than a few yards, nevertheless the crawl is now the only stylish stroke, and if only I were young again I'd start off with it and nothing else.

Now I'm too used to the other stroke to be able to change. Like a middle-aged man I read of, only he took instruction and persisted for years until he finally mastered it. But what he had learned was the two-beat crawl, as I remember, and by the time he had acquired it, everybody was swimming the four-beat. So he set out to make the change, spent several more years learning that—and discovered that the six-beat crawl had by now become the style.

That still-faster leg stroke seemed beyond him; he tried for years and couldn't get it. Then one summer he was on a boat trip to Florida or Glaucomorra or some place, and the boat sank. They were far out to sea, he knew there was no hope of swimming to shore, but he started swimming anyhow, automatically, and suddenly realized that in the excitement he had unconsciously slipped into the rhythm of the true, the authentic, the long-attempted six-beat crawl. In his delight he swam for hours and hours without feeling any fatigue, and was the only man of the boatload who remained above water long enough to be rescued.

Maybe a shipwreck is the only hope for me, too.

that Valley Home Georgina is leading in the province. The test of 6.1 is considered exceptionally high.

Miss Roselle James was startled to see a good-sized rattlesnake sunning itself on the doorstep when she opened the front door last Friday morning. Miss James fortunately had a hoe in her hands, and with admirable courage and presence of mind, killed the snake.

Another of Summerland's pioneers passed away on July 10 in the person of Thomas Dale. He and his family moved here twenty years ago, and soon made a warm place for themselves in the community by their generous hospitality and community and church interests. Mr. Dale was a governor of the board of Okanagan College for some years, and also a member of the municipal council for some time.

Summerland's War Memorial is now in the hands of the contractors, the Vernon Granite and Marble Company, and its completion may be expected in about two months' time. The memorial is modelled after the famous Cenotaph at Whitehall, London, and it will constitute an impressive and beautiful symbol of remembrance of those from the district who answered the call to arms in the greatest conflict in history.

The forest fires in the southern Okanagan have been aggravated by two recent storms which struck the hills. Lightning on two occasions started several fires and it is stated from the local office of the forestry department that they have had more fires to deal with at one time than ever before.

Mr. and Mrs. T. G. Beavis announce the engagement of their daughter, Marion Eileen, to Mr. William J. Mack of Vancouver, the wedding to take place in Summerland United church, on Friday, Aug. 8.

A fire on Rattlesnake Mountain was caused by lightning hitting a pine tree. It travelled down the tree, ploughed through a rock pile, ending its course in a rock pile.

Mr. and Mrs. Harvey Phinney have returned from their honeymoon trip and are living on their orchard property south of Giant's Head.

### THIRTY YEARS AGO

July 15, 1921  
Police Magistrate Hutton has tendered his resignation to the attorney-general—the result of a letter from the department of the attorney-general which seemed to criticize the action of the council in increasing the salary of the magistrate. The letter stated that the increase seemed to be unusually high, and asked that information justifying such an increase, before having had the assent by a minute-in-council, be supplied to the department. At Tuesday's meeting Municipal Clerk Nixon was instructed to forward the letter from Magistrate Hutton in which he asked for the increase and pointed out the volume of work required of a police magistrate and in which he proposed resigning unless an increase were granted.

As a result of change of ownership Kaleden and its surrounding fruit lands are to experience a taste of former boom days. Since the control of the Kaleden Fruit Lands Co., fell into the hands of British interests there has been little done towards the development of that promising fruit district. Particularly cheering to the pioneers of Kaleden is the news that all litigation has been cleared up and holders of agreements of sale from the old company will now be able to obtain their deeds.

Among the law students admitted to the bar a few days ago was the name of Kenneth Murray Elliott, son of Mr. and Mrs. A. B. Elliott. Kenneth is now a barrister and solicitor.

### MISS ZONA GALE

author of The Neighbours, recently staged by the Canadian Players at the Home Theatre, Naramata, requires, in lieu of cash payment for the privilege, that rural communities plant a fruit tree for each performance of the playlet. Mr. Aikins, realizing that trees are already here in abundance, has sent \$10 in cash instead to the Summerland hospital.

Mr. J. H. Bowering, who recently returned from a visit to the Old Country, states that he is feeling ninety percent better as a result of his vacation.

A survey is now being made of the bench land on the Indian Reserve west of Pentleton. The feasibility of watering the land from either Shingle Creek or Trout Creek is being investigated, and an estimate of the cost of same will be made.

Mr. and Mrs. Harvey Phinney have returned from their honeymoon trip and are living on their orchard property south of Giant's Head.

### TWENTY-FIVE YEARS AGO

July 16, 1926  
Miss Catherine Beattie is the fortunate owner of a very valuable Jersey cow, Valley Home Georgina, No. 24328, has just completed a wonderful record for milk and butterfat production. During a 365 day test she produced 7717 1/2 pounds of milk. The average butterfat test was 6.1 and the unofficial butterfat was 470.73. The cow calved at two years and fourteen days. Mr. William Beattie, Miss Beattie's father, was assured by the inspector

## Rotarians Hear Review of Active Year as Reid Johnston Installed as New President

An active year which saw seven new members enrolled, was reviewed by Retiring President Francis Steuart to the annual installation party of the Rotary Club of Summerland held in the IOOF hall last Friday evening, July 6. Reid A. Johnston, newly-elected president for 1951-52, was officially installed in office by W. E. Adams, a Rotarian of long-standing in the Rotary Club of Kelowna, sponsors of the Summerland club.

Summerland is better off for the existence of a Rotary club and those (Rotarians) who have taken part have done something for their community," declared Mr. Adams in handing the gavel of office to Reid A. Johnston.

Frank Buckland, the Kelowna Rotarian who did more than any other person to institute a Rotary club in Summerland, was also present at the gathering.

**Other New Officers**  
 Besides Mr. Johnston, other Rotarians installed in office consisted of Vice-President S. A. MacDonald, secretary-treasurer, R. F. Angus; sergeant-at-arms, H. L. Wilson; directors, Ivor Solly, Mel Ducommun and Ross McLachlan.

Guests from out-of-town included Kelowna President H. A. Truswell and Mrs. Truswell, Princeton President Jack Jenkins and Mrs. Jenkins, Penticton President Dr. W. H. White, Oliver President T. Robin and Mrs. Robin, Frank Buckland of Kelowna, and Mr. and Mrs. S. McBride, of Oliver.

J. E. Jenkinson, vice-president of the Kiwanis Club of Summerland, and J. R. Armstrong, The Review, were guests for the evening.

New members introduced were Rotarians Harry Brown, A. D. Coggan, Dr. D. V. Fisher, J. W. Mitchell, Lorne Perry, Ivor Solly and

W. M. Wright.

H. L. Wilson proposed the vote of thanks to the Ladies' Hospital Auxiliary which provided the banquet. Dr. L. A. Day proposed the toast to the ladies, with response by Mrs. Ryan Lawley.

Ken Brawner provided two piano solos as part of the evening's entertainment. Dr. H. R. McLarty led community singing.

The "Rotary Ann Chorus" provided an amusing intermission, with half a dozen Rotarians dressed as chorus girls. They were Rotarians J. W. Mitchell, Ivor Solly, Ryan Lawley, R. F. Angus, Don Fisher and Ross McLachlan.

Club attendance in the past year was 90.17 percent, President Steuart reported, indicating that programs had been arranged around the main Rotary themes, vocational, community, club and international service.

Local Rotarians had entertained other valley clubs at a joint summer session at the experimental station, and had entertained the 1949-50 Rotary Fellowship winner on his return from Europe.

In club activities, the annual Rotary auction had again been outstanding, the club had taken Grade 12 students for the annual outing

## Ten Leading Pathologists Visit Here

Distinguished visitors in the field of plant pathology were in Summerland last Thursday, July 5. The ten men were inspecting and comparing virus diseases in stone fruits in Canada and the United States, and while here were guests of Dr. H. R. McLarty and his staff at the plant pathology laboratory.

New Brunswick was represented by Dr. D. J. Macleod, Ontario by Dr. J. H. Berkeley, Alberta by Dr. G. F. Sanford.

From Vancouver came Dr. R. E. Fitzpatrick, formerly at the plant pathology lab here, now in charge of the laboratory in Vancouver which serves the Fraser Valley.

Also from Vancouver were Mr. Wm. Foster, provincial plant pathologist, and Mr. Ian McSwan, assistant provincial pathologist.

Dr. Hugh Kirkpatrick of the US department of plant pathology was here from Wenatchee and Dr. Earl Blodgett, Washington State plant pathologist from Prosser. Dr. Ken Harker from Cornell University, was representing New York state.

Dr. and Mrs. McLarty entertained the visitors at dinner at their home on Thursday evening, July 5.

at Coulee Dam, and work parties were carried on faithfully at the new arena last fall and winter.

Transportation was provided Girl Guides and the baseball club, while donations had been made to worthy causes including the welfare service, Mr. Steuart continued. Christmas hampers were distributed and the citizenship certificates had been purchased for the guests at the first citizenship banquet. Gift apples had been sent to a Rotary club in England.

Rotarians had also sponsored a candidate for the Rotary Fellowship, Don Johnston, but had been unsuccessful.

Rotarians also contended against Kiwanians in a broomball game at the new arena opening and also played a mock softball game at the May 24 celebrations, his report continued.

In his brief remarks on taking office, Mr. Johnston paid tribute to the leadership provided by the retiring president, Francis Steuart.

### MOVED TO WINNIPEG

J. N. McPherson, at one time general freight agent for the CPR in the Okanagan with headquarters at Vernon, and until recently, general freight agent in Vancouver, has been transferred to Winnipeg, where he will assume similar duties.

BULLETIN No. 6

# CIVIL DEFENCE

LEARN—AND LIVE

# "FIRE"

Fire causes from two to one hundred times as much damage as high explosive and takes more lives. Therefore, elementary fire fighting in its many forms must be understood by everyone.

Fire requires fuel, air and heat—exclude one and the fire stops. Use water to kill a fire—sand or earth to restrict air supply—close windows and doors.

### PRECAUTION AGAINST FIRE

Get rid of inflammable material in attics and basements. (Even in peace time such material creates a high fire risk.)

Fire retarding paints do not make woodwork fireproof but only delay the outbreak of fire.

#### Home Fire Fighting Appliances—

Stirrup hand pump—garden hose—buckets—long handled shovel—garden rake—plenty of water—sand or earth.

You cannot have too much water—a rake is handy for dislodging a bomb in rafters or roof gutters—a long handled shovel for applying sand or earth—goggles and thick gloves give added protection.

#### Fighting Fires—

Keep flat to avoid heat and smoke—control fires first—then attack any bomb—keep calm and act quickly. Use a jet of water on a fire and on a bomb.

#### Incendiary Bombs—

Don't cover a bomb with earth or sand unless it is on a concrete floor—keep an eye on the room below in case the bomb burns through.

Danger spots—roofs and top floors. If it falls near you, fight it from best available cover.

Fight an oil bomb with sand or earth—don't use water.

Fight a phosphorous bomb with water—keep the area wet to prevent a fresh outbreak. When the bomb is out, put in a bucket of sand or earth and take outside.

Watch your home—don't bother about bombs in the open.

Watch for another bulletin in next week's newspaper.

## High Marks Recorded By Piano Pupils of Miss Kay Hamilton

"Good style, neat finger work; reliable memory; good touch; nice shaping of phrases", were some of the encouraging comments on performances given by pupils of Miss Kay Hamilton when candidates played before the distinguished examiner, Eric Robinson, Mus. B., FRCO, member of the faculty of the Royal Conservatory of Music, Toronto.

Exams were on June 13-14 at the Three Gables hotel, Penticton, and Summerland students have set a record this year as evidenced by the results which follow:

Grade 8, honors, Lona Deringer; grade 7, first class honors, Shirley Clarke, Maureen Prior, honors, Ken Branner, Evelyn Washington, Frances Atkinson, Joyce Schumann; grade 4, honors, Diane Rumball, Marilyn Washington, Carol Ann Cornish; grade 3, honors, Marjorie Bleasdale, Linda Beeman, pass, Richard McDougald; grade 2, first class honors, Barbara Fudge, Lynne Boothe, honors, Marilyn McKay; grade 1, first class honors, Nan Solly, Diane Durick, John Bergstrom, Lorna Charles; theory 2, midwinter, first class honors, Jean Imayoshi, Melva Stevenson.

## Little White Ribboners Enrolled in WCTU

Little White Ribboners were enrolled in the WCTU at the home of Mrs. Wilfrid Drake recently. Mrs. L. W. Mino, district president, led in the simple and effective ceremony assisted by Mrs. John Mott and Mrs. Moore, who tied the white ribbons around the wrists of the babies and pinned white bows on the older children.

These new little white ribboners are Shirley and Bonnie Preston, Bruce Milne, Sheila, Mary, Neil and Martin Drake, Glen Smith, Connie and Jimmy Roberge.

Also present were other little white ribboners, including Judy, Harold and Donna Nicholson, Sandra Knippel, Lorraine and June Milne, Marilyn and Lois Milne and Judy and Lois Mino.

Mrs. Sheldrake led the devotional and Mrs. D. L. Milne addressed the mothers. Duets were sung by Judy and Lois Mino and by June and Marilyn Mino.

Others present were Mrs. Nicholson, Mrs. Stark, Mrs. Knippel, Mrs. H. Milne, Mrs. B. Milne, Mrs. D. L. Milne, Mrs. Dycke, Mrs. Radomske, Mrs. Miller, Mrs. Mott, Mrs. Moore, Mrs. Sheldrake, Mrs. Preston, Mrs. James, Mrs. Mino, Mrs. Drake, Mrs. Roberge, Mrs. Smith and Mrs. H. Smith.

## Municipality Gets Refund Of Sales Tax

Second and final payment to the municipality covering the municipal aid tax amounted to \$21,883.79, it was revealed by Reeve C. E. Bentley at Tuesday's council meeting.

For the fiscal year period ending March 31, 1951, Summerland received \$37,767.19, as an interim payment of \$15,883.40 was received just before Christmas, 1950.

Final payments to all cities, district municipalities and villages amounted to \$5,511,343.45, while the entire total for the year was \$9,511,343.45.

Even though the amount was a substantial one, it was only two-thirds of the accounts payable for the month of June, which amounted to \$29,121.91, Tuesday's council session was informed.

If a further \$15,000 is received in December, the municipality will be substantially in the clear as Hon. Herbert Anscomb, minister of finance, would not guarantee a few months ago that the sales tax refund would run as high in 1951-52 as in 1950-51.

## VISITING HERE

Mrs. J. B. Duxbury with her little daughter of Salmon Arm is visiting this week at the home of her parents, Mr. and Mrs. D. J. Strachan.

Rev. and Mrs. Ken Kuboniwa of Vancouver are guests at the home of Mr. and Mrs. W. Henderson this week. The couple are missionaries-elect and will leave shortly for Japan.

RCMP Corporal S. C. W. Hemingway, of Radville, Sask., accompanied by Mrs. Hemingway and their five children is visiting his parents, Mr. and Mrs. W. W. Hemingway.

Mr. W. Kennedy has returned to Vancouver after a holiday spent at the home of Mr. and Mrs. A. K. Elliott, leaving Mrs. Kennedy and their children, Pamela and Keith, for a longer stay at the home of her parents.

Mr. and Mrs. J. F. McLean and their two little girls of Vancouver where the former is on the staff of UBC were recent visitors at the home of Mr. and Mrs. Ivor Solly. The family was en route to Vernon where Mr. McLean will attend the reserve army camp for a week.

Mr. and Mrs. K. P. Caple and their daughter Katherine of Vancouver are camping in the district, enjoying some fishing and called on friends in Summerland on Tuesday while driving through. Mr. Caple was formerly principal of Summerland high school and is now B.C. regional director of CBC.

Mr. and Mrs. Verne Lockwood of Bellingham, Wash., nephew and niece of Mr. and Mrs. V. M. Lockwood, spent the weekend here. They were accompanied by Mr. Lockwood's brother, Mr. W. T. Lockwood, of Bellingham, who will spend a couple of weeks here before returning to the coast.

## Church of Holy Child Holds Summer School

Sister Andree and Sister Mario, two Franciscan nuns from Greenwood are in Summerland conducting a summer school for children of the Church of the Holy Child.

About forty children started at the school on Tuesday, July 3, continuing for two weeks from that date. The children are learning their catechism and other Sunday school lessons.

The teachers are guests at the home of Mrs. Anna Wolfe and Mrs. H. D. McCutcheon.

## Early Summer Evening Ceremony Unites Daphne Boyd and Don Rand

In an early summer evening candlelit service in St. Stephen's church, West Summerland, Saturday, July 7 at 7:30, Daphne Laverock, daughter of Mr. and Mrs. William Roberts Boyd, of Laverock, Giant's Head Road, West Summerland, was united in marriage with Donald Ross Rand, son of Mr. and Mrs. Percival Rand, Wellington, Vancouver Island. Canon F. V. Harrison performed the ceremony.

The church was beautifully decorated for the marriage and white candles shed their soft flickering light on white lilies on the altar. White Esther Reid daisies, marguerites with yellow centres, potted palms, and baskets of white gladioli glowed in the light of tapers of varying length on the chancel rail.

The lovely bride, entering the church on her father's arm, was a picture of bridal loveliness in her strapless gown having a bodice of white lace, with fitted matching lace jacket with long lily-point sleeves, and bouffant skirt of three layers of white net over taffeta, which billowed from pointed insertions of the lace carried into the skirt from the bodice.

Rhinestone buttons marked the front of the collared bodice to the waistline, and a little cap of the lace was half-circled at the back with white carnations to hold the chapel veil in place. She carried a trailing bouquet of white gardenias and white daisies.

Mrs. K. M. Steuart, the bride's sister, was the charming matron of honor, and for the occasion was gowned in apple green silk organie over matching taffeta. The square neckline was outlined with a fold of the taffeta which also banded the bottom of the full floor-length skirt. A garland of white daisies was in her fair hair, and her bouquet was of the same summery flowers.

The bride's youngest sister, Rosamund, was the sweet little flower girl, in a primrose yellow silk organie floor-length frock, a replica of that of the matron of honor. She, too, wore daisies in her hair, and carried a posy of them.

Mr. Jack Amm came from New Westminster to be best man. Mr. K. M. Steuart, brother-in-law of the bride, and Mr. John Vanderburgh, Oliver, were ushers.

The delightful music for the wedding was played by Mrs. W. Swift, ATCM, of Penticton, organist, and Mr. W. J. Harris, LLCM, ALCM, Penticton, violinist.

A small informal reception was held at Laverock following the ceremony.

Mrs. Boyd received in a lovely ensemble in a Balenciaga shade, the gown having a lace pyramid coat in the same shade, with small rough straw hat having a flower in tone. Her shoes matched her costume and her corsage was of white gardenias.

Mrs. Rand, mother of the groom wore a pretty lilac frock, the bodice featuring tiny horizontal tucks, and the skirt having back fullness. Her bonnet-shaped hat repeated the color of her dress and pale pink and white carnations were in her corsage.

White carnations and white roses decorated the rooms. The tiered-wedding cake was imbedded in white tulle with white roses scattered here and there on it. The cake was surmounted with white gardenias.

Mr. J. E. O'Mahony proposed the toast to the bride with the groom responding, and Mr. Amm read the congratulatory telegrams.

For the motor honeymoon to the coast the bride changed to a tulle in a soft shade of blue, with

navy buttons as contrasting trimming. With this she wore a tiny white hat banded in navy, had navy accessories and carried a navy topcoat. White gardenias were her corsage.

For the immediate future the young couple plan to make their home at the coast.

A Minshall electronic organ was installed in the church for the wedding ceremony, and the violin which Mr. Harris played was a Mariani. Antonio Mariani lived at Pesaro, Italy, 1636-1680. This violin was of his latest period and is one of the finest examples known. It carries the certification of Hills & Sons of London, England, who are acknowledged the foremost authority on violins in the world.

### VISITING ABROAD

Mr. and Mrs. W. C. Wilkin and their two daughters are visitors in Vancouver this week.

Mrs. R. C. Palmer drove to Vancouver this week, leaving on Tuesday afternoon for the coast.

Mr. and Mrs. A. R. Dunsdon and their twin daughters, Marion and Dorothy, are leaving this weekend on a holiday motor trip to Banff, Alta.

Miss Freda Daniels has gone to Vancouver where she will make her home with Mr. and Mrs. W. F. Andrew and attend school there in the fall.

Mr. and Mrs. F. Tilbe and daughter Gloria, accompanied by Miss Donna Eden, left last Saturday for Calgary, Alta., where they will take in the Stampede and visit at Macleod, Alta. and other prairie points.

Dr. A. W. Vanderburgh, accompanied by his daughter, Mrs. David Walker and his sister, Mrs. C. V. Nesbitt, drove to Vancouver on Tuesday. Mrs. Walker was returning home after a ten days' visit with her parents. Dr. Vanderburgh and Mrs. Nesbitt returned to Summerland today.

Mr. Percy Thornber will leave next Wednesday to fly to England where he will spend a six weeks' vacation. Included in his luggage are some beautiful colored photographs of Canadian scenery which he took and which he plans to show to friends in the Old Country.

Barry Wilson, son of Mr. and Mrs. A. D. Wilson, drove the Bronson family who have been staying in Trout Creek, back to their home in Killarney, Man., by way of the United States. This week Barry flew back to Calgary, Alta., in time to have a day at the Stampede and will stay in Calgary for the summer where he will be employed in the parts department of a garage.

### NEW ARRIVALS

On Saturday, July 7, a baby boy was born at Summerland General hospital to Mr. and Mrs. Robert Barkwill, Jr.

### VISITING HERE

Mrs. Florence Medley of Sarnia, Ontario, is a guest at the home of Mrs. I. E. Green.

Teddy and Billy Rippin, sons of Mr. and Mrs. W. Rippin, Vernon, are visiting at the home of Mr. and Mrs. P. G. Dodwell.

Mr. and Mrs. S. Birch and two children of Edmonton were weekend visitors at the home of Mr. and Mrs. H. J. Mott.

Mrs. Henderson of Guelph, Ont., is visiting at the home of her son-in-law and daughter, Mr. and Mrs. Delmar Dunham.

Mrs. Stuart Jones of Hamilton, Ontario, is spending a holiday here at the home of Mrs. Rau and Miss Barbara Braun.

Miss Emily Mayhew of Vancouver is a guest at the home of her brother-in-law and sister, Mr. and Mrs. R. Blayney, Trout Creek.

Mr. Wally Day of Vancouver visited at the home of his parents, Dr. and Mrs. L. A. Day, Trout Creek, last weekend.

Miss Christine Aitken is a Vancouver visitor at the home of her parents, Mr. and Mrs. J. Aitken, experimental station.

Mr. and Mrs. E. Riddington and their children of Vancouver are visiting in Summerland for two weeks and are in the Schwass cottage at Crescent Beach.

Mr. and Mrs. W. Andrew of Vancouver arrived last weekend and are visiting this week at the home of the former's parents, Dr. and Mrs. F. W. Andrew.

Mr. and Mrs. H. Hayden and two boys returned at the weekend to their Edmonton home after visiting for a short time with Mr. and Mrs. Edward (Hilly) Smith.

## Senior Girls At Anglican Westside Camp

Delights of camping on the beautiful west side of Okanagan Lake are being enjoyed by approximately fifty senior girls, and their leaders, at the Okanagan Anglican Camp, Wilson Landing this week.

Following a week-long camp for adults and young people, several who had contributed to the program remained to assist, and deliver lectures on their work, among these being Miss Jessie Wylie, on furlough from the Anglican girls' school at Kangra, India, Miss E. Leonhardt teacher, and Miss Cholmondeley, driver of the Sunday school van for the Okanagan district, and Rev. A. R. Lett, Oyama, chaplain-director for adult camp, who is also chaplain to the current camp.

Director is Mrs. N. O. Solly of Summerland, with Mrs. L. A. C. Smith, Vernon, assistant-director and Camp Mother. Mrs. Ray Fredrickson of Summerland, camp nurse, stands ready to cope with minor scratches or serious illness.

Advanced swimming instruction is being given by Lexie Cameron, and tiny, dynamic Nancy Drake of Kelowna, who are preparing their pupils for the Royal life saving certificate. Diving and swimming instruction to beginners is also on the program.

Other leaders are Mrs. C. S. Lutener, and Misses Betty and Kay Crockett, Enderby and Marilyn Sinclair of Penticton.

Greeted by wet weather, campers soon found discomfort dispelled, for a portion of the large dining-hall was cleared for use as a recreation and lecture room, with a cheerful fire burning in a stove.

Mrs. W. Milne is enjoying a visit from her mother, Mrs. E. McKnight and her sister, Mrs. D. Bowman, and her niece, the latter's little daughter, Donna, who are here for three weeks, guests at the Milne home. The visitors will go on to Victoria and across the border before returning to the prairie province.

Pauline and Sylvia Butley of Nelson are visiting at the home of Mr. and Mrs. Ivor Solly.

### WANTED

The Summerland Board of Trade desires names of persons who have accommodation they would rent when other tourist accommodation is not available.

Also, householders who would like to cater to persons or families wishing to holiday in Summerland for one or several weeks in private homes.

Tenders must be accompanied by certified cheque for 10% of tender. Cheque will be returned if tender not accepted. Highest of any tender not necessarily accepted.  
SIDNEY SPYER  
Trustee

2006 - 32nd Street, Vernon, B.C.  
7th July, 1951.

### DON'T TAKE RISKS WITH THOSE VALUABLES YOU CANNOT REPLACE

A SAFETY DEPOSIT BOX AT THE B OF M COSTS LESS THAN TWO CENTS A DAY  
It's surprising how many possessions of real value most of us have. There are bonds and important documents like deeds, insurance policies and family papers. There are personal valuables like jewellery and those, which, worth little perhaps in themselves, are irreplaceable because of the memories that go with them.  
If you are keeping possessions such as these at home, you are running a constant risk of their loss through fire, theft or just forgetfulness. Maybe not a great risk, but it is there all the time, and it is so easy to do away with.  
For less than two cents a day, you can give your valuables the protection of a safety deposit box in the vault of the Bank of Montreal. Not, surely, a very great price to pay for the peace of mind it will bring? Drop into the West Summerland branch of the B of M when you're next that way, and ask Mr. Guimsey, the accountant, to show you his "nest" of safety deposit boxes.

### MORE ABOUT— PORTRAITS

Continued From Page 2

money to pay for it, either. Two or three people who wanted to see them get ahead paid in advance for coal, and by the time they had it delivered their debt was paid.

From then on the firm of Smith and Henry has advanced to its present status of owning thirteen trucks, two school buses and employing an average of ten men.

It's no Alger story, though. When they began they were up at six to meet the train to take express down to the boat; then there were school buses to drive; and fruit to be hauled all through the hot, dusty days. In the evenings they delivered wood and orchard boxes. Some times they even helped to make the boxes before they could deliver them. Working from six in the morning until eleven at night makes a long day.

The fact that Mr. Smith had been a despatch clerk in the Old Country helped him to plan routes and routines and save time in their business. Their first office was where Verrier's Meat Market is now. His sister-in-law, Miss Nellie Fisher, who had a tailoring shop in part of the building, answered the phone when the others were out, and George Inglis ran a taxi service from the same centre for years.

The present office of Smith and Henry is one of the oldest places on the Flat. It is one of the best sites in town commanding a view of the main street and main intersections at West Summerland, and the bright flowers in its window boxes is a familiar little touch that gives the spot distinction.

Mr. Henry drove a Reo school bus for fifteen years without a single accident. The same vehicle is still being used in the winter to take people to the ski hill.

The firm has maintained the reputation for careful driving and reliability.

Mr. Smith loves music. He has sung in choirs since he was eight years old. In Edinburgh he sang under W. S. Ingram, that great trainer of boys' choirs. He sang in Old St. Paul's, the oldest Episcopal church in the city, and in Holy Trinity, where the boys got a penny a practise, and practised as many as four times a week. If they were not at church on Sunday they forfeited their week's wages.

His tenor voice has helped the choir of St. Andrew's, West Summerland, for forty-three years, where he has seldom missed a service. For many years he was choir leader and has a gold watch given him for assistance. On that occasion Mr. Hector Sutherland spoke in appreciation and Mr. John Robertson, father of Gordon Robertson, made the presentation. The instrument was an harmonium, played by Mrs. John Steuart.

He is an elder in St. Andrew's and has been one for a long time.

Mr. Smith is a charter member of the Caledonian Society which used to further things Scottish hereabouts, and celebrate Burns' Night in a fitting way. He was always expected to open every concert with the "Rantin', Rovin'" song, which he did with pleasure and gusto.

He was president of the Operatic Society, and a member of the Singers' and Players' Club.

As for the national game of Scotland, one would expect him to be a charter member of the Summerland Golf Club, where with Dr. Andrew, Archie Rutherford, Ken Hogg, and Andy Fonwick, they hunted for and finally plotted a course on what had been Ernie Mountford's cow pasture on Paradise Plate. He still is playing and enjoying the odd game.

Often Mr. and Mrs. Smith and their four children would be at the golf club.

Sadness came to them when Sandy was killed while overseas in World War II in the RCAF. Edward is in the business here; Gordon is Summerland's Municipal Clerk, and their only daughter, Margaret, is Mrs. Bert Berry, West Summerland.

# Twenty Hits More Than Enough For Penticton Canucks Victory

Penticton Canucks went on the rampage last Sunday at Living Memorial Athletic park as two luckless Summerland hurlers failed to stem the tide. The visitors picked off 20 hits and scored 15 runs to win in a walk as the Merchants were limited to four hits and the same number of runs.

Clifton had the Merchants tied in knots, George Taylor being the only clouter who could find his offerings. The only sign of a rally didn't come until the last of the ninth, when Merchants drove in three runs.

Gil Jacobs was behind 5-1 and had allowed three hits in a row in the fifth when Manager Trafford yanked him. But Les Howard didn't have anything more on the ball and he was clouted just as hard.

Clifton struck out 16 Merchants and showed his superiority throughout. Eleven of the Penticton hits were obtained from Jacobs' deliveries while Howard yielded nine, along with four passes to first.

Val Eshelman had a big day with the hickory, scoring five for five, while Burgart and O'Connell were almost as dangerous.

It was a tight ball game for the first four innings as the visiting Canucks only had a 3-1 edge, scoring single runs in each of the first three frames.

George Taylor countered the Merchants' long rally in the second when he doubled and scored on Daryl Weitzel's clout to left field. Then came the fateful fifth when Val Eshelman got his third single, scoring on O'Connell's triple. D. Eshelman drove in O'Connell and Jacobs was waved to the showers.

### Four-Run Homer

Howard, serving his first time in a relief role, walked the first two to fill the bases. Kaines broke his heart with a grounder to right field which got past Jack Dunham and was lost among the cars, the runner making the complete circuit for a four-run homer.

That left Canucks out in front 9-1 and it was then only a matter

of time. From the second to the ninth not one Merchant got past first base. Kato started the last rally in the ninth with one away when he drew a walk, landing at third when Taylor's single to right was muffed. Gould grounded to Terabasket at second, who booted the chance, two runs scoring. Gould came all the way on Metcalfe's single to centre.

### BOX SCORE

Penticton	AB	R	H	PO	A	E
Moore, 1b	3	1	1	6	0	0

Summary: Stolen bases, Raitt, V. Eshelman 3, Taylor, Gould; sacrifice hit, Kuroda; two-base hits, Burgart, Ashley, Taylor; three-base hits, Burgart, O'Connell; home run, Kaines; bases on balls, off Clifton 1, off Jacobs 2, off Howard 4; struck out, by Clifton 16, by Jacobs 3, by Howard 3; left on bases, Penticton 11, Merchants 3; passed balls, O'Connell 1, Metcalfe 3; hit by pitcher, Brawner by Clifton; Burgart, Berdine by Howard; umpires, McCargar and Bill Tidball.

### Finch Second at B.C. Trap Shoot

Gordon Finch, a member of Kelowna and Summerland trap clubs, competed in the B.C. Trapshooting Championships at the coast recently, placing second to Jack Roach of Victoria. In the Class A singles, Finch tied with Herb Sabine of Vancouver with 96 each. In the shootoff, Finch shot a perfect 25 to capture second place.

This big event was held at the Vancouver Gun club, Oak Street, Vancouver, and attracted a party of nine marksmen from the Interior.

Frank Pollock and Ken Elagborne represented Summerland Trap club, Gordon Finch and Pete Colquhoun attended from Kelowna, Rod McIndoe was from Vernon while Lumby sent the largest delegation of Cece Wills, John Genier, L. Christian and Harold Siglet.

### MERCHANTS PLAY AT BREWSTER THIS SUNDAY

Summerland Merchants travel to Brewster this Sunday in an international league fixture. In order to gain the playoff trail, Merchants will have to win all four remaining games, according to the look of the league standing published elsewhere on this page.

Frank Pollock and Ken Elagborne represented Summerland Trap club, Gordon Finch and Pete Colquhoun attended from Kelowna, Rod McIndoe was from Vernon while Lumby sent the largest delegation of Cece Wills, John Genier, L. Christian and Harold Siglet.

**AL ACE**—The Montreal Alouettes came up with their long sought after quarterback recently when they signed the great George Ratterman to a 1951 playing contract, Ratterman, rated one of the three top field generals in the country, performed with the N.Y. Yankees last year.

# Red Sox Trample 15-8 Over Bolstered Penticton Pirates

Penticton Pirates were forced to default last Sunday's scheduled South Okanagan league contest to Summerland Red Sox but when they were able to bolster their team with some senior reinforcements the game went ahead anyway as an exhibition tilt.

But it was to no avail, for the Red Sox were too good for the Penticton squad and triumphed 15-8 in an exhibition which featured the sterling play of new First-sacker Chuck Aiken, who recently came here from Vancouver.

Not only did Aiken show the lads a thing or two about how to play first base but he batted .500 including a screaming line-drive homer in the third frame.

Ken Brawner was pitching better ball last Sunday than for some weeks, striking out 11 Penticton batters. However, he allowed five passes to first, although this wildness was eclipsed by Ball, Penticton's starting hurler, who allowed seven Red Sox to amble onto the paths the easy way.

Ball was replaced in the eighth by Eshelman, who gave up one more run before the game ended. **Early Five-Run Spurge**

Three walks, two singles and two errors resulted in a five-run rally in the second frame to give Red Sox a decided edge. With one on board, Aiken plastered his homer in the third, while Brawner followed with a single, coming home on passed balls to give the Red Sox an early 8-1 lead by the end of the third.

Doubles by Bonthoux and Pohlman drove in three more runs in the sixth to offset a four-run spurge by Penticton in the fifth.

Red Sox added two in the seventh and duplicated that in the eighth to bring their count to 15 runs.

Penticton scored a single in the sixth and two more in the seventh while a determined rally in the final frame was cut short when Pohlman cut off two runners trying to steal third, Ernie Jomori being on the receiving end.

This Sunday, Penticton Beavers come to Summerland for an important game in the league standing.

## Dumping Refuse Indiscriminately To be Investigated

Names of two persons who have dumped refuse outside the refuse ground gate during periods when the municipal dump has been closed, are known to municipal council, it was revealed at Tuesday's meeting.

Caretaker John Heichert declares one offender was a storekeeper while the name of another is on the label of a daily newspaper left in the pile of refuse dumped indiscriminately, it was stated. These names will be handed to RCMP for attention, council decided.

Also, a junk man in this district is being warned that he must not trespass on the municipal refuse grounds without council permission. The name of the man was not given by council but it was stated he has caused trouble with Caretaker Heichert and has taken the attitude that he cannot be refused permission to take scrap at will.

## No Licence for Fruit Stands

Fruit stands will not be required to take out a trade's licence this year, but this decision will not prejudice any policy laid down by future councils.

This was council's decision on Tuesday when it was pointed out that any stand owner selling other than his own fruit would be required by law to pay a trade's licence.

However, as the selling of fruit from roadside stands is in its infancy here, council has decided to take no action this year but will adopt a policy of waiting for developments.

## Estimate Over \$150,000 Final Payments Made

Final payment from the Summerland Co-operative Growers' Assn. to its shipping members from the 1950 crop goes into the mail tomorrow, Miss B. Eristow, co-op secretary announces. This is the B.C. Tree Fruits Ltd. and Associated Growers rebates from the 1950 crop and amounts to \$17,000.

In the past two weeks, the co-op has issued final pool cheques for \$47,500 and certificate redemption cheques for \$11,000, besides tomorrow's rebates of \$17,000, bringing the total to roughly \$75,500.

Independent packinghouses have also made final payments, which in total, with the co-op, must approximate between \$150,000 and \$200,000.

## NO FIRES IN JUNE

5th in a series to bring you the facts about your Hospital Insurance plan

# What are the Facts of the Hospital Bed Situation?

Hospital Insurance did not create the shortage—IT MERELY BROUGHT IT TO THE ATTENTION OF EVERYONE.

Let's look at the reasons for the present shortage of hospital beds.

*Lack of money during the depression days brought the construction of needed hospital beds to a standstill.*

*The shortage of building supplies during the war, and right after, prevented needed hospital construction.*

*The large numbers of people who moved to B.C. to live in recent years threw an extremely heavy strain upon the existing hospital beds.*

The situation was further aggravated when Hospital Insurance started. Many people who would probably not have been able to afford hospital care, suddenly found that they were able to go into hospital without having to worry about the expense.

In early 1949, the government took immediate steps to help the municipalities correct this situation. To encourage hospital construction, generous financial aid was offered to the communities. Financial aid that is unequalled by any other province in Canada.

One fact, however, is repeatedly overlooked. THE RESPONSIBILITY OF PROVIDING HOSPITAL ACCOMMODATION IS THAT OF THE COMMUNITY AND NOT OF THE PROVINCIAL GOVERNMENT. This is not a new policy. It has always been up to the municipality to build its hospitals. It is up to each community to find out what it needs, draw up its plans, select its site, and raise its portion of the cost. The provincial government acts only in providing the rest of the money (in conjunction with the Dominion grants) and advice. The only part that is new since Hospital Insurance started, is the increased amount of money put up by the provincial government.

Wherever there is a bed shortage, it is up to the local authorities to see that the beds which are needed are provided. Under the present set up, the community only has to raise its share of the cost, and the provincial government arranges the rest (the Dominion government gives a grant of \$1,000 a bed). At all times, the provincial government is willing and anxious to help communities solve their hospital problems, but it cannot be stressed too much that the responsibility for providing hospital beds rests completely with the community concerned.

Many communities have been quick to accept the government's increased cash assistance. As a result, hospital construction in B.C. has climbed steadily during the past two years, and is continuing to climb. In the ten year period before the government increased its financial assistance, there were only an average of 85 beds built per year. Since the government started its increased financial assistance, this figure has climbed to over 285 beds per year, and is climbing fast. This year it will be 571 beds, and next year will probably see over 1,000 started.

At the present time, the bed situation in B.C. is not as bad as some would make out. Leading consultants say the size and population of B.C. calls for an average of five beds for every one thousand people. With the addition of 572 beds during the past two years, we now average this figure, comparing favorably with any area in the U.S. and Canada. In fact, by the end of 1952, an anticipated increase of 2,243 beds will make our bed situation as good as any and better than most.

Hospital Insurance premiums do not pay for the building of new beds, but they do pay for the running of them. It should be remembered that for every new hospital bed placed into use, between \$3,500 and \$4,000 is needed every year just to run it. It only takes about 500 new beds in B.C. to raise the cost of running the hospitals by over \$1,800,000 a year, which is equal to a premium increase of over \$4.00 a year. After the present needs are met, how far can we afford to let hospital construction expand? As hospital construction expands, costs increase. As costs increase, premiums go up. How much can we afford?

Next week, we will give you the facts on "What about private Hospital Insurance plans?"

Be sure to read these messages. They deal with your Hospital Insurance plan—a plan which has already paid over \$40,000,000 for more than 500,000 hospital cases, and is providing benefits for thousands more each month.

# Conveyance Tenders Save School District \$1,850 but Inspector Still Object

Although a saving of \$1,850 can be effected in the new tender offered School District No. 77 (Summerland) by firms bidding for school conveyance contracts, School Inspector A. S. Matheson is still not satisfied that all tenders are in line with school transportation costs in other sections of the province.

At Tuesday evening's school board meeting he expressed dissatisfaction with the tender of White & Thornthwaite for the two lower town to Trout Creek routes, despite the fact that on the basis of the two-year contract just concluded the school board would effect the greater saving by the new tender.

White & Thornthwaite had been conveying pupils on Route 1 to Trout Creek, in a 55-passenger bus, a distance of 32.8 miles per day, at the rate of 66 cents per mile. On Route 2, to Trout Creek and return via Hospital hill and Gulch road, a distance of 28 miles, the rate was 60.9 cents per mile, or an average of 63 cents per mile.

The new tender for Routes 1 and 2 is 57 cents per mile on a three-year contract or 55 cents for a five-year contract. Both buses used are 55-passenger buses, it was stated.

Smith & Henry was the only tenderer on Routes 3 and 4, bidding 50 cents per mile for a three-year contract and 48 cents per mile on a five-year contract. This firm operates a 55-passenger bus and a 49-passenger bus, distances of the two routes being 28 and 37.2 miles respectively.

The previous contract figure was 53 cents per mile for each route.

School trustees estimated on Tuesday that the saving would be \$6 per day on the new White & Thornthwaite tender and \$3 per day on the new Smith & Henry tender, or \$1,620 per year on a rough calculation.

## Greata and Meadow Valley Bids

Two other tenders, one for the Greata ranch run submitted by Thomas Scott with his 5-passenger taxi and the other for Meadow Valley run, submitted by F. Maddocks with his seven-passenger car, were lower than previous tenders by these contractors who held the contracts for the past year.

Scott tendered 12½ cents per mile, whereas his contract ending June 30 had been 13½ cents per mile. The Maddocks tender was 14 cents per mile to Meadow Valley, against the old contract price of 15 cents.

Saving on these runs brings the cost of total transportation in this district down by about \$1,850 per year, trustees estimated.

Only one tender was received for any route offered.

It was stated that members of the school board, headed by Transportation Committee Chairman Dr. W. H. B. Munn, met the transporter.

Continued on Page 10

# Ottawa Has Briefs on 1950 Crop

It is expected in fruit industry circles that BCFGA President A. R. Garrish of Oliver and B.C. Tree Fruits Ltd. president and general manager, A. K. Loyd of Kelowna, will go to Ottawa soon to appear before the agricultural prices support board in an attempt to have the 1950 apple crop come under subsidization from that federal scheme.

The B.C. fruit industry's brief, prepared by the BCFGA executive in co-operation with the central sales agency, has already reached the prime minister, Rt. Hon. Louis St. Laurent, the minister of agriculture, Rt. Hon. J. G. Gardiner and the chairman of the prices support board, A. M. Shaw.

Mr. Shaw has replied in acknowledgement of the brief.

Dr. J. G. Taggart, deputy minister of agriculture, Ottawa, visited the Okanagan yesterday.

At Dr. R. C. Palmer's residence at the experimental stations, he was acquainted with the situation of the fruit industry by A. R. Garrish, Oliver, BCFGA president and A. K. Loyd, B.C. Tree Fruits Ltd. president and general manager.

Dr. Taggart was greatly interested in the Cawston bench VLA settlement, also the Westbank VLA promotion, and intended to visit Cawston today.

Mr. Loyd told the Review today that the general economic situation which faces the fruit industry today was explained to Dr. Taggart, who gave a sympathetic hearing.

Dr. Taggart was also informed that Mr. Garrish and Mr. Loyd would be in Ottawa soon to present further data on the interior B.C. fruit industry's application for inclusion in the agricultural prices support board subsidization plan, for the 1950 apple crop.

Briefs representing the views of interior business have been despatched by the Associated Boards of Trade of the Okanagan-Mainline and the Southern Interior.

These have gone forward to Rt. Hon. C. D. Howe, minister of trade and commerce. A third brief has been forwarded to Hon. Milton F. Gregg, minister of labor, expressing the views of interior labor, as prepared by the B.C. Fruit and Vegetable Workers Union (TLC).

Three primary reasons why the fruit industry should be included in the agricultural prices support deal were named by the associated boards of trade as follows:

Loss of markets due to currency exchange difficulties and the \$1.25 per box subsidy granted by the U.S. government to all exports from that country. This U.S. subsidy makes it impossible for B.C. to ship to most of her former foreign markets which had previously absorbed a large part of the B.C. production.

Progressively-increasing freight rates have placed an almost impossible embargo on shipments to eastern Canada and the eastern United States. The heavy freight rates have reduced the size of B.C.'s domestic market.

The growers' costs of materials and labor have risen steadily while the selling prices of apples have declined.

# Suggest Farm Loan \$5,000 Maximum Be Raised Because of Inflation

An attempt is to be made through the B.C. Federation of Agriculture to have the maximum loan of \$5,000 now possible through the Canadian Farm Loan Board extended to a higher figure because of the depreciated value of the dollar.

This was a decision of the BCFGA central executive last week, after hearing W. S. Palmer, New Westminster, farm loan board director, on the subject of loans to growers.

Mr. Palmer stated each case would have to be examined on its present merits. "No matter how many properties a grower owned, only one loan up to a maximum of \$5,000 could be allowed under the act.

The present assessed value of a

grower's property, and the case's condition on its present merits are the only factors taken into consideration by the loan board, it was stated.

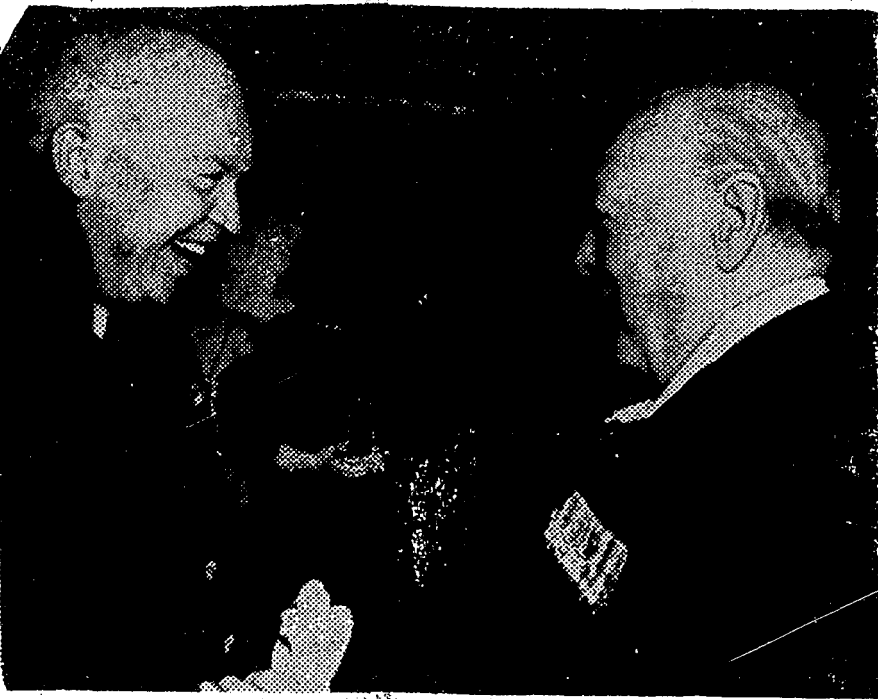

George A. Lundy, Oliver, pointed out that the present-day value of the dollar is only 40 cents compared to 50 years ago and because of this factor the maximum loan should be raised.

BCFGA executive also agreed to continue its attempt to have the 3 percent sales tax removed from sprinkler pipe purchases. It was thought a stronger case can now be presented as the federal authorities have removed the import duty on sprinkler irrigation equipment, thus establishing it as an essential to primary production, the meeting thought.

# The Summerland Review

Vol. 6, No. 29

West Summerland, B.C. Thursday, July 19, 1951

GEN. DWIGHT D. EISENHOWER (left), Atlantic Pact Supreme Commander, and Winston Churchill, Britain's wartime prime minister, exchange warm greetings at a party in London's Grosvenor House. The occasion was a dinner given by the English Speaking Union in honor of the General and Mrs. Eisenhower.

# Many Novelty Events Will Feature Next Week's Regatta

Summerland's first Junior Regatta, under the auspices of the Summerland Youth Centre Assn., assisted by the swim class committee of the Summerland Board of Trade, scheduled for Powell Beach next Wednesday afternoon, July 25, is just about set to go.

John Kitson, well-known former Kelowna Aquatic Club leader, is manager of the Regatta planning committee, assisted by other committee heads from the two organizations.

Ten or a dozen young swimmers from the Ogopogo Swim Club of Kelowna are expected to appear here next week to compete mainly in the 16 and under and open swim events.

Peachland, Naramata and Penticton swimmers are being asked to compete here in the younger kids' events.

Three speedboats are definitely coming to Summerland for this regatta, Mr. Kitson has been promised by Kelowna friends. They will bring a number of expert water skiers to demonstrate this daring art to the throng which is expected to gather at Powell Beach.

The number of war canoes to be here on Wednesday was not settled at presstime.

Although he is not certain of their appearance, Mr. Kitson has extended an invitation to Margaret Hutton's rhythmic swim group to stage a preliminary display at this regatta. Miss Hutton is champion ornamental swimmer of North America and has been mainly instrumental in bringing along a large class of youngsters at Kelowna.

Another novelty feature will be an apple box derby, in which four young competitors paddle valiantly over the 25-yard route. Mr. Kitson is making arrangements for the four packingshouses to sponsor entrants in this race.

Balloon race, a cigarette race for instructors only, inner tube race and greasy watermelon scramble are other novelty events.

Summerland Band will be in attendance and will play throughout the afternoon.

To add further interest, the regatta committee is planting ten \$1 bills around Powell Beach and all persons will be urged to join in a treasure hunt.

## CARS LOCK FENDERS IN LOWER TOWN COLLISION

A slight accident involving cars driven by Adam Lelkel of Summerland and Alexander R. Bain of 1183 Bute, Vancouver, occurred at a corner in lower town on July 6, about 2:50 p.m. Damage to the vehicles was about \$100. The accident occurred when Bain attempted to pass the Lelkel vehicle before the latter turned the corner. Front fenders became interlocked.

# 1951 APPLE CROP ESTIMATES

(OKANAGAN HORTICULTURAL DISTRICT—Apples, Crabapples, Pears, Boxes; Grapes, Pounds)

Need for "tailoring" the 1951 apple crop will be out to the minimum this year, if present estimates of the Okanagan production carries through until harvesting time. Instead of eight million boxes as the central sales agency was faced with in 1950, the current apple crop is only expected to run slightly more than six million boxes.

Here in Summerland the crop is estimated at 574,000 boxes, a decrease of nearly 100,000 boxes from the bumper 1950 yield, but still well up to average.

Crabapples show a decreased yield from 1950, but pears are well above last year's figures. The

District	Apples		Crabapples		Pears		Grapes	
	1950	1951	1950	1951	1950	1951	1950	1951
Lytton - Chase	18,519	30,000	4,269	4,800	1,493	4,000	3,200	3,800

# C. R. Haker of Peachland Appointed Chairman of New Planning Committee

A Planning Committee, with the most sweeping powers granted any investigating committee in the fruit industry's history since the days when the industry committee developed the central sales agency plan now in operation, has been appointed by the B.C. Fruit Growers' Assn. executive.

C. R. Haker, well-known young Peachland orchardist, is the chairman, selected at large, while other committee members have been chosen from representatives selected by the district councils.

Practically every phase of the fruit industry will come under the scrutiny of this committee, whose interim report is expected in time for perusal by the local prior to the 1952 convention.

Other members of the planning group are A. W. Gray of Oyama and J. E. Kidston, Coldstream, representing the North Okanagan and Mainline; I. A. Gleddie of Winfield-Okanagan Centre and James Snowsell of Glenmore for the central Okanagan; and Avery S. King, Penticton and H. McAlpine of Osoyoos, representing the South Okanagan, including Keremeos-Cawston.

Examination of the structure and operation of locals and the functions and responsibilities of the directors, the central executive and the district councils are among the main points to be considered by the planning committee.

## Study Growers Affiliates

Mr. Haker's group has also been given terms of reference to include investigating the functions and administration of B.C. Tree Fruits Ltd., B.C. Fruit Processors Ltd., and the relation in respect of responsibilities of these affiliates to the directors and the central executive.

The setup of the B.C. Fruit Board will also be studied and any other matters which may be referred to this group for examination by directors, executive or locals will come under some scrutiny.

Mr. C. A. Hayden, BCFGA secretary, states that the executive agreed that the planning committee should have complete authority to conduct its work.

President A. R. Garrish, BCFGA president from Oliver, declared following last week's executive session:

"The planning committee has a big job and no one expects that its work will be completed speedily."

The executive hopes that an interim report will be prepared for the information and study by BCFGA locals at their meetings next December in advance of the 1952 convention, which will be held in Penticton on January 16, 17 and 18.

# Second Rape Case Reported

A second rape attempt was reported to RCMP late in June, with circumstances and the general description of the man involved being identical to the rape attempt reported to police in May.

This second instance occurred near the bottom of Feltham's hill, whereas the first molestation was reported near the bottom of Peach Orchard hill.

A teen-aged girl was also involved in this second case, but she could give no complete description.

RCMP have been carrying on a thorough investigation but have not been able to apprehend the assailant.

Reeve C. E. Bentley reported to local council last week that every effort is being made to trace this molester but it is extremely difficult as no marks or scratches were made on the man by which he could be identified positively.

# Murder Hearing Still Not Ready

Although RCMP Constable I. G. Thoratkinson returned this morning from Regina where he took exhibits for examination at the main police laboratory, it is reported there is little likelihood the preliminary hearing in the murder charge against George F. Clark will proceed next Tuesday, July 24.

The accused appeared in police court on Tuesday morning, July 17, when a legal representative of both prosecution and defense sought and obtained a further remand of the hearing until July 24.

The Review learned this morning that it is unlikely that the case will proceed next week but a further, and probably final remand, will be sought.

Frank C. Christian, attorney for the prosecution, is in Vancouver this week and is not expected home until next Monday.

# Lightning Strikes in Five Areas

Lightning, during the brief electrical storm at supertime on Tuesday evening, struck in five different locations in Summerland area, disrupted electrical service temporarily and put about 100 telephones out of order.

Practically all telephone services were back in operation by noon today.

One of the worst lightning strikes was in the vicinity of the F. E. Atkinson home on south Giant's Head road. There, a bolt hit the 60,000 volt high tension line of the West Kootenay Power & Light Co. after it had crossed Trout Creek canyon from the vicinity of the experimental station.

## Right Under Wire

Mr. E. Ferritt and four of his children were walking under the line on their way from the Atkinson orchard when the lightning struck. They were uninjured.

The bolt of lightning travelled along the high tension line, jumped the huge insulators where the line turns abruptly at the corner of the Atkinson orchard, and struck a high pole.

For an instant the pole was transformed into a huge matchstick, which could be seen for miles. So intense was the heat that about an inch was burned from the circumference of the pole on the top three feet in a matter of seconds.

The lightning bolt then travelled down the wooden pole, along a guy wire which crossed the road and severed five telephone lines as well as doing damage to a telephone pole.

After hitting the pole, the bolt continued south along the telephone line until it reached a point where the line crosses the railway tracks. There it went to ground, completely severing the duplex wire at that point.

Electrical service was restored in less than an hour by the municipal crew, who had to work about 2½ hours before all repairs were completed.

Four other strikes were discovered in other parts of the municipality, telephone and electrical lines suffering from the impacts.

A telephone work crew arrived from Westbank to assist local manager, Joe Biollo in restoring service. One break still eluded them Wednesday evening but it was expected that all service would be restored today.

Telephones along the Giant's Head road, Peach Valley and down the Sandhill encompassing most of the Trout Creek area were out of order Tuesday evening and most of Wednesday. Service to the experimental station was also disrupted, one line being in operation late Wednesday afternoon.

In Penticton, a little girl was killed instantly when struck by lightning in the same storm.

## Our First Junior Regatta

**N**EXT week Summerland is to have its first water sports competition in many years. Visitors to Powell Beach will be treated to a miniature regatta, a preview of the grand affair which will be held early in August at Kelowna.

In the early years of this valley, water sports were annual events in every community which dotted beautiful Okanagan lake. Summerland, Naramata and Peachland led the Okanagan, with Kelowna and Penticton participating in a minor way.

With the advent of the motor car, however, interest in water sports waned in these communities, with the exception of Kelowna, which gradually built up its regatta to the stage where it is now the premier water show in western Canada.

The time for an awakened interest in Summerland is long past due but it took the enthusiasm

of one man who has practically lived on the water all his life to bring back this type of competition. We refer to John Kitson, a new resident of our community.

Next Wednesday there will be swim races, novelty events, diving, war canoe races and water skiing, a smattering of all the main events which can be seen at bigger aquacades. As this is the first attempt at such an organization, there are bound to be some "hitches", but in the main it will be a good show.

From the experience gained in this attempt the organizers of Summerland's first Junior Regatta can build for a bigger and better event next year and the years to come. It is to be hoped that war canoe racing and other such events can be organized here so that crews can take their rightful place in other aquatic events in the Okanagan.

## We Welcome Another Service

**O**THER municipalities, in conjunction with Summerland, are welcoming the suggestion by Superintendent Hood of the provincial motor vehicle branch that municipal offices be the issuing centres for motor vehicle licences in districts where the provincial government feels it cannot afford to install a sub-agency.

As far as Summerland is concerned, this has been the subject of a continuous campaign waged by municipal council and board of trade for the past five years.

It has always been Summerland's contention that a qualified office should be established for the issuance of motor vehicle licences for the convenience of owners who must otherwise have sent to Victoria for their plates or travelled to Penticton.

This is a fairly large business, as in 1949 the motor vehicle branch estimates \$21,000 worth of motor vehicle licences were issued. This figure has probably gone up fifteen percent in the two intervening years.

From these figures it can be estimated that nearly 1,000 owners will now be accommodated from a central issuing office in Summerland, provided the provincial cabinet agrees to the plan.

It has taken a long time to convince this particular branch of government service that it should cater more to the needs of the motoring public. It is to be hoped that other government departments will follow the cue and look over their departments with a view to providing better service for the public which employs them.

## Newman's Reversal of Thinking

**T**HOSE who have followed the struggles of the fruit industry for years read with some anxiety the declarations from Kelowna last week of Ivor J. Newman, the dethroned president of the B.C. Fruit Growers' Assn., who also resigned as governor of the growers' sales agency, B.C. Tree Fruits Ltd.

They were anxious for the future of the fruit industry because of the effect which his ill-considered statements might have on those who are disgruntled, and those who know little of the struggles towards a properly organized selling effort which racked this valley in the 1930's.

Mr. Newman's announced disagreement with the governors of Tree Fruits is not questioned by most thinking persons. He has a good point, as far as a principle is concerned.

Mr. Newman has contended that an employee of the sales agency should not be the chairman of its board of governors. In principle he is correct, but the over-riding factor of Mr. A. K. Loyd's personality has made him the only choice for the position for the past twelve years.

We will not argue the rights or wrongs of this part, as in their judgment most of the governors considered there should be no change in the chairmanship of the board. That is the right of a democracy.

In fact, we do not intend to argue the merits or demerits of Mr. Newman's action in resigning in protest. It is unusual for a man who is elected to a position of trust to quit when he fails in his first attempt to impress on his fellow members his own ideas on a subject.

It is unusual, and is not considered the democratic attitude, but that is Mr. Newman's prerogative in a democracy. And that we cannot argue.

But when the past president of the growers' parliament, the BCFGA, because of his inability to get his own way, endeavors to undermine the whole basis of the growers' structure by advising growers not to sign their contract as a protest of the board of governors' action, then he has gone beyond the pale.

He has been guilty of other indiscretions, but last week's declaration to the growers has placed Mr. Newman in an untenable position. It would be best that he retire to his orchard and let other sounder judgments carry on the fight towards a better deal for the grower.

After all, the growers have just completed organization of a planning committee which is to investigate all factors of the growers' setup. Mr. Newman would have been doing the industry a real service to have kept his counsel and placed his arguments strongly before this newly-formed planning group.

By his declarations last week, Mr. Newman reversed previous statements. At the annual BCFGA convention in Vernon last January, in his presidential speech, Mr. Newman urged growers to do nothing which would upset the present marketing setup.

The man who last week told growers not to sign the contract, declared in Vernon last January:

"The most important task, prior to the harvest and selling of the 1951 crop, is to see that the new three-party contract is signed by all growers."

**THIRTY YEARS AGO**  
July 22, 1921

Storage water was turned into the irrigation system at 5 o'clock on Tuesday. Trout Creek head-water gate was opened Sunday at 6 a.m., the water reaching here in 47 hours. Other gates, behind the main dam were opened to supply the latter. R. Johnston, who opened the gate, found the water overflowing the dam, but the level of the water in the dam dropped two inches in 24 hours.

Work on repairs to the lakeshore road, closed for six weeks, has been started by Road Foreman J. C. Arkell. Mr. Arkell is working on the worst part of the road between Mellor's and Crescent Beach. A Kelowna car came through on Tuesday and a number of other cars have been using the shore road between Summerland and

Peachland rather than the poorly-constructed upper road.

Summerland Automobile and Good Roads Association passed unanimously a resolution favoring the adoption of the upper road as the permanent road between Summerland and Peachland.

The Fruit Union has started the tenth carload of cherries rolling. A very fine field of alfalfa was out at the experimental station, being the second heavy crop this year.

The new Summerland Telephone directory has over 300 names, which is quite a list as compared with that of two or three years ago.

Miss Nicholson of the Summerland school teaching staff was operated on for appendicitis on Monday and is reported as doing well.

Mrs. H. A. Solly was honored by

the WA of St. Stephen's church when she was presented with a life membership in that organization. The presentation included a gold pin and certificate and was made by Mrs. F. A. C. Wright.

### TWENTY-FIVE YEARS AGO

July 23, 1926  
Mr. Wm. Dryden of Peachland has been appointed to fill the position of secretary-treasurer of the Summerland Co-operative Growers' Association, left vacant by the death of Robert Pollock. The appointment of Mr. Dryden was made upon consideration of his outstanding abilities and his experience in connection with the Peachland local.

Discussion of the serious water shortage question in Summerland district immediately followed a splendid address by Forsyth Smith, Canadian fruit trade commissioner to Britain, at a meeting in St. Andrew's hall. The meeting made a formal request to the municipal council to obtain the services of Engineer Groves of Kelowna immediately to report on the Osprey Lake proposition, and also Canyon Creek. A committee consisting of Messrs. Campbell and McPherson was appointed to interview growers in respect to obtaining a guarantee totalling \$15,000 to finance the Os-

## PORTRAITS

John Aidan Kitson

This man is practically amphibian, and has been since he was a little boy for he could swim ten or fifteen yards at the unusually early age of three.

His father, John Hamilton Kitson, who lives at Bear Creek, and has been in the Okanagan since 1910, has a certificate from the Royal Life Saving Society the year it was founded. That was in 1904 when it was given a Royal Charter. Before that time it was just called the Life Saving Society.

Naturally he wanted his son to swim, and taught him when he was such a small child, John Kitson, the younger, was born at Victoria. He started school at Kelowna and every school day, summer and winter, from the time he was six until he was nine, he went across the lake and back in a small boat with an outboard motor. Sometimes it was rough and stormy and often cold, but in or on water, he is happy.

The rest of his academic education was at the coast where he attended University school at Victoria for seven years. Here he participated in indoor swimming, at the indoor shooting range, played rugby and cricket, boxed and did gymnastics, and was on cross country runs. It is a good school and maintains the English public school systems and traditions.

In his last year there he was captain of the cadet corps. The disciplinary system is largely one of student government and he was head prefect, also, the year of his graduation.

At that time he tried for Royal Rhodes but failed to pass the medical requirements, so at the age of sixteen, having already acquired senior matriculation, he entered UBC.

Here he took two years in engineering, leaving it in favor of an honors chemistry course, with which degree he graduated in 1949.

In the fall of the same year he became a control chemist for B.C. Fruit Processors Ltd., doing vitamin analyses, helping with quality control in fruit juices, vinegar and apple jelly.

Last fall he came to Summerland to work for science services at the fruit products' lab here, and this spring was put on the staff of the fruit products' laboratory as an assistant chemist. He hopes to attain his master's degree, and to continue to live in the Okanagan.

Mr. Kitson says that our fruit juices compare favorably with any citrus fruits of the same size in vitamin content. The vitamin C contained in any vitaminized apple juice is equal to the same quantity of vitaminized orange or grapefruit juice, and about half the price. Markets have been built up considerably in the west in the last few years for our juice, but it is hard to compete when shipping costs are so high.

With swimming as a sideline, and a Royal Life Saving certificate he is kept busy.

In the summer of 1946 he worked for the Kelowna Aquatic Association as assistant life guard, and in the next year was head life guard for the swimming pool and the water front program in Kelowna. The city of Kelowna pays seventy percent of the salary of the guards, and the Aquatic As-

sociation does the organizing.

He has taught swimming to around three hundred children every year since that time. As head of the program he worked six days a week and had three assistants. They arranged a small aquacade every week, and found competitors

saving for that organization. In 1950 he took over from Gen. Keller of Kelowna, the job of chairman of the swimming and water safety committee for the Red Cross from Winfield to Westbank with 900 enrolled. Here he had the responsibility of eight beaches and twelve instructors, with lots of paper work and organizing details.

He thinks that six is a good age to learn to swim. Right now he isn't below his depth, although he is planning Summerland's first Junior Regatta, helping with a water show at Eagle Bay on the Shuswap, and assisting with Kelowna Regatta.

The show here will have some of the better swimmers from the North Okanagan, war canoes, speed boats, and all the swish, splash and fun that goes with water sports.

He has a "crew cut", and what do you think he carries around in the back of his truck? Have you guessed? A small boat!

for swimming meets.

On his days off, what did he do? He examined for the Red Cross swimming classes, travelling all through the Okanagan to the different centres for this purpose.

He is also the official representative and examiner for the Royal Life Saving Society in the Southern Okanagan, and teaches life

saving for that organization.

In 1950 he took over from Gen. Keller of Kelowna, the job of chairman of the swimming and water safety committee for the Red Cross from Winfield to Westbank with 900 enrolled. Here he had the responsibility of eight beaches and twelve instructors, with lots of paper work and organizing details.

## Remove Flood Danger To Cemetery Grounds

Water Foreman E. Kercher is quite concerned over the danger to Peach Orchard cemetery from flooding irrigation flumes in the neighborhood, he reported to council last week.

Installation of a section of pipe, at a cost of \$300, would alleviate the danger of material being shoved into the present system by mistake and flooding surrounding area.

Council considered the situation called for quick action and authorized Mr. Kercher to proceed

## Signifying Nothing *By* RUSTICUS

What would you do if another war came and in the course of it, the radio announced suddenly: "Enemy air fleets are bombing and dropping paratroopers in all Okanagan towns; can be expected over Penticton and Summerland in an hour!"

The instinctive reaction of modern civilized North American humanity would be to dash for the car and drive somewhere. But the highway wouldn't be very safe with enemy planes in control of the air. Others would stay home and "let 'em come," trusting in luck or a deep basement—or maybe by that time we'll all have little concrete caves in our backyards to retire to.

Still, the enemy would probably land with special little can-openers for getting into such concrete caves, and if he were the ruthless sort of enemy that our enemies are usually made out to be, the chief hope of safety would lie in escape. And we're lucky here to have limit loss acres of wilderness to retire to.

So our enemy attack would probably see a lot of people lifting their eyes unto the hills and heading thither in hopes of hiding out till the enemy were driven out again. And that poses the most interesting question of all: what would you take with you?

Probably most people would again think of their cars, and pack them up with tents, sleeping bags, cases of canned foods—surely the stores would be giving these away in such an emergency—and for that matter, the bank might as well give its money away too, before the enemy got it—but who'd want money in a case like that?

But suppose the enemy, having blown up a few buildings and taken over the town with paratroopers, sent jeeps out along the roads—or, easier, planes with machine guns? Then the people in cars, even if they had already reached Fish Lake or the back road from Thirsk or wherever they were going, and made camp—would be just sitting ducks. Maybe, if the tents were well hidden, and the men armed with rifles and resolute, they could protect themselves against ground attack, but the planes would be deadly.

When you come right down to it, the people most apt to survive, in this or any other emergency, would be those who relied on themselves rather than on what they could take with them. The people who would strike out on foot, and live off the country, taking only what they could carry on their backs, would certainly be the ones that would live the longest, especially if the enemy occupation lasted for a year or several.

It did, guns wouldn't be so much good; you could hardly pack enough ammunition. Both your food supplies and your sleeping equipment would be limited; there would be hunger and discomfort a-

plenty. For women and small children it would be almost impossible. But teen-age boys and some men would love it, and many would make a success of it, even if they started out with only such essentials as a knife, an axe, a blanket, and some flour and beans. It would mean travelling far back into the most inaccessible parts of the mountains and there building a shelter, learning to make one's small, hidden fires with rubbing sticks or bow-drill, eating all sorts of foods—roots of rock-rose and sunflower, wild berries, ground-hogs, squirrels, robins, crows. If deer or bear could be killed, their hides would have to be tanned for clothing.

Can you imagine, after a few months of this, how the less capable ones, gaunt and starving, would come staggering to the camp of the successful ones, begging for food? And the successful ones would give it to them—and the others would settle down and live off them, lazily, even complaining of the quality of the food—you know what people are. Maybe it would be better if the thrifty ones refused all help to others, in order to be sure of surviving themselves.

Then, if there were enough of them, those starving others might gang up on the capable ones and rob them, or even kill them. Or, if the capable ones were too alert and too strong, would the starving turn cannibal?

It would be interesting to see how human nature would react to such stark realities. Would we be unselfish and helpful, like the Christians we profess to be? Or would we become hard and selfish, every man for himself, with the inevitable cannibals?

Let's hope we never have to find out.

## RECIPE HINTS

Sherbet Pie is a perfect dessert for sizzling summer days. The filling is smooth and refreshing, and the graham cracker crust is spiced with a little cinnamon and nutmeg.

### Sherbet Pie

Make your favorite sherbet. Pour mixture into refrigerator tray and place in freezing compartment. When mixture is firmly frozen, remove to bowl. Break up into large lumps with fork. Beat with rotary beater until free from lumps but still a thick mush. Return to tray and place in freezing compartment until fairly firm. If frozen too hard, place in refrigerator just below freezing compartment to soften. The hand freezer may be used too. When ready to serve, pile sherbet into graham cracker crust and sprinkle with a few crumbs.

### Graham Cracker Crust

Combine 1 cup crushed graham crackers, 1/4 cup sugar, 1/4 tsp. cinnamon and 1/8 tsp. nutmeg. Add 1/4 cup melted butter, and blend thoroughly. Press mixture into 8" pie plate. Chill thoroughly.

## Scout Camp at Osprey Lake to Start Monday

Next Monday night, 21 Boy Scouts from 1st Summerland Troop, with three leaders, will board the Kettle Valley westbound train en route to summer camp at Osprey Lake.

The camp dates are July 23 to 31, inclusive, and it is expected this will be one of the most entertaining camps ever held by the local Scout group.

Scoutmaster Dr. D. V. Fisher, ASM David Munn and Jack Ellis, cook, will accompany the boys.

It will be 11:30 o'clock Monday night when the party reaches Osprey Lake and for the first night the boys will sleep on the ground under the stars.

An overnight hike to Teesee Lakes, a distance of nine miles, is planned during the week's outing, provided the weather holds out.

Visitors' day is set for Sunday, July 29, from 2:30 o'clock on. Visitors driving to the camp should follow the Faulder, Eald Range, Kirton road, Dr. Fisher suggests.

## Herb Pohlman And Band Win Loud Acclaim

Summerland Band, with Herb Pohlmann conducting, won the hearty applause of a large crowd gathered at Kelowna city park last Sunday afternoon to hear the massed bands concert.

Bands from Vernon, Kelowna, Summerland and Penticton gathered at the Orchard City for this second annual event. The first of this series was held at the experimental station in Summerland last year.

Each band was heard as a separate unit and then the four musical aggregations joined forces for the massed band concert. Each of the four band leaders took turns in leading the massed musicians. Mr. Pohlmann proved adept as leader and was given an ovation by the crowd. The program commenced at 1 o'clock and continued throughout the afternoon.

## Municipal Portion of Assistance Cost to Be Discussed by UBCM

Provincial government's attempt to change the percentage of payments in relation to social assistance cases will be one of the foremost contentious discussions at the UBCM convention at Harrison Hot Springs this fall.

This was indicated at last week's council session when the subject was introduced. B.C. government has altered the percentage from 80.20 to 75.25 and the municipalities are objecting to this change, it was stated.

Several municipalities have billed Summerland at the new 75.25 rate, but the local municipal office has refused to pay more than 20 percent, Municipal Clerk Gordon Smith states.

It is likely that the case will go before a board of arbitration to determine Summerland's liability in the dispute.

## Okanagan Teen Town Consider "Hoe-Down" or Table Tennis Tourney

Possibility of a second major Teen Town square dance festival and a table tennis tournament was discussed in Summerland last week, end when the annual mid-summer conference of Okanagan Teen Town Association was held at the Youth Centre.

Final decision on these two important functions will be made, at the fall conference slated for Armstrong.

Delegates from Armstrong, Kelowna, Summerland, Penticton, Oliver and Okanagan Landing were present last weekend to attend a big dance on Saturday night, and the day-long sessions in the Youth Centre Sunday.

It was the conference's plan to choose some project which could be called the Okanagan's main endeavor each year. Discussion was finally narrowed to the possibility of an Okanagan "Hoe down" or the table tennis tourney.

Fraser Valley Teen Towns already sponsor the annual Northwest Teen Town square dance festival attended by Summerland Teen Town for the first time this spring.

Representatives also approved the idea of each Teen Town "sponsoring" association activities for a period of six months. Armstrong and Oliver accepted the responsibility for this action on a trial basis for the next year.

Under this arrangement Teen Town Mayor Block of Armstrong was chosen president of the Okanagan association for the next six months, with Mayor Joan Roberts of Oliver as vice-president.

Conference Advisers Les Gould of Summerland was conference adviser, together with Jack Hutchings, Vancouver Sun Teen Town director and Phil Ash-

ton, provincial Teen-aid chairman, also of Vancouver.

Summerland Teen Town Mayor Leighton Nesbitt headed the host committee in charge of Sunday's conference, along with Secretary Winnie Smith, Treasurer Doreen Kilbach, Terry Coggan, Bob Nelson, Ed Kita, Arlene Raincock and Esther Metters.

Twenty-two official and unofficial delegates attend the sessions.

Both Mr. Hutchings and Mr. Ash-ton were enthusiastic over Summerland Youth Centre and declared that this community has provided more accommodation for its youth activities than most centres of much larger population.

## Junior Girls in Anglican Camp

Recent gifts to the Anglican camp at Wilson's Landing, are an engine and pump by R. Byron-Johnson, which makes possible use of the already installed water system to the kitchen. The old St. Michael's Sunday school Van was presented to All Saints Parish Vernon with the understanding it could be used for pick-up and transportation of perishable food to the camp.

During the past winter the root house was restored through the generosity of the WA of Penticton who, through Mrs. Pearson, made a donation for this work. This provides necessary cool storage.

Junior girls entered camp on July 13, on which day senior girls returned home.

BOOSTS BOWLING GREEN  
Vancouver, B.C.,  
July 12, 1951.

Editor, The Review:

May I take up space in your valuable weekly to plead for the middle-aged and those up in years for a recreation centre where they can spend a few hours in healthful exercise?

There is a very fine spot in the Living Memorial park playground, said park donated by the citizens of Summerland, of which I was an early subscriber.

Now, I understand, there are a number of middle-aged citizens who wish to have a bowling green made on that part formerly used for hockey and skating. This piece of ground is an ideal place for such a venture.

I am rather disappointed at the stand taken by the parks board in making a prohibitive proposition to the Summerland Bowling Club which is anxious to make this improvement to the park. It must be

remembered that no gate is ever made by a bowling club, therefore it does not have surplus funds.

Take Kelowna, the city laid out a splendid green which is an asset to the park and handed it over to the bowling club for \$10 a year. Penticton's green is on valuable city property and does not pay near the taxes as if it were privately owned. Vernon has a green in its park and pays a nominal fee per year.

You seem to make every endeavor to cater to the younger ones but what are you doing for those who pay for it all? Be consistent! I still follow your doings yet, although away from home.

Yours truly,

JACK TAIT.

Mrs. Jame Ritchie has returned to her home in Summerland after being away since last February.

Imagine. You can save up to \$21 on a 4-piece Suit.

Fit and Satisfaction Guaranteed

ROY'S Men's Wear  
Hastings Street

Rev. and Mrs. D. L. Embree and their baby son, Maynard, are spending the summer at the home of the former's parents, Mr. and Mrs. J. J. Embree, Trout Creek, and will be here until Sept. 1. Rev. Mr. Embree is a teacher in the Toronto Bible school. They motored here by way of the States, going to Oklahoma where they visited cousins.

Mr. and Mrs. F. E. Malherbe, Boers from Pretoria, South Africa, who are touring Canada and the United States from Ottawa to California were recent guests at Sharpe's Auto Court. From another far point, visitors last week at Sharpe's Auto Court were Mr. and Mrs. Pye whose home is in Peru.

**Okanagan Processors Club Enjoys Picnic**

On Sunday, July 15, Okanagan Processors' club members with their families enjoyed a picnic together at the KAT Ranch, property of L. J. Kelly of Rowcliffe Cannery of Kelowna and F. E. Atkinson.

There were races for the young fry and adults. Boating and swimming were also on the agenda and a good supply of ice cream and soft drinks.

At six o'clock a picnic supper was spread and a friendly visit from table to table followed. There were about 75 present.

The Okanagan Processors Club comprises canners from Osoyoos to Vernon with Mr. Ian Greenwood of Bulman's Ltd., Vernon, as president and Dr. C. C. Strachan, experimental station, Summerland, as secretary.

**VISITING HERE**

Mr. and Mrs. W. Turpin, Jr., of Vancouver and their three sons were recent visitors at the home of Mr. and Mrs. R. A. Fredrickson. Mrs. Turpin and Mrs. Fredrickson were room-mates while taking nurse's training at Vancouver General hospital.

Recent visitors at the home of Mr. and Mrs. Henry Kuhar were the former's parents, Mr. and Mrs. G. Kuhar, and his brother and sister-in-law, Mr. and Mrs. S. Kuhar, all of New Westminster who were motoring through to Banff, Calgary, and Edmonton and planning to return to the coast by way of the United States.

Mr. and Mrs. Donald Rand spent last weekend at the home of Mrs. Rand's parents, Mr. and Mrs. W. R. Boyd, and left on Tuesday evening's train for Vancouver where they will make their home for the present.

It is thirty-one years since Robert E. Wilson of Los Angeles has been united with his brother and sister, James Wilson and Miss Elizabeth Wilson, of Summerland. The southern visitors have arrived to visit for a couple of weeks at the Wilson home on Quinpoole Flats.

**Drainage Plan To be Given Further Study**

R. S. Oxley, who was instrumental in obtaining a number of signatures to a petition for a drainage scheme in the area bounded by the Prairie Valley and Station roads, has asked council to develop some plan to alleviate the high water situation in most of that area.

The petition originally covered too much territory and it was found that those who signed it only formed a small part of the assessed value total of the district suggested.

Council has decided to consult Engineer R. A. Barton in Penticton who drew up a scheme for drainage of most of that area nearly thirty years ago.

Investigation will be undertaken by council to discover an approximate cost of a scheme, also the costs of an engineer's appraisal of the situation and present it to Mr. Oxley, who is acting for a large group of property owners in that area.

Mr. Oxley pointed out to council last week that drainage from septic tanks is extremely poor and from a health angle the council should be interested in a drainage scheme, if sufficient home owners show their good faith.

**Wild Flowers Profuse on Snow Mountain**

Wild flowers on Snow Mountain are at their midsummer best at present according to two parties who climbed to the top on Sunday last.

One of the clearest views of the surrounding terrain ever attained from the mountain top greeted the mountaineers last weekend.

Councillor Eric Tait, Dr. R. C. Palmer and Mr. Darryl Rye, were in one party which made the actual climb in 4 1/2 hours.

They met a second party from Summerland at the peak. This second group consisted of Mr. and Mrs. Alex Watt, Mr. and Mrs. Steve Cannings, Mr. Ralph McIntosh and Miss Dorothy Macleod of Summerland and Mr. Watt's cousin, Mr. M. Cousins with his son Dick, of Kelowna.

False heather, lupins and paint brush were lovely and the east slope was a natural rock garden.

Mr. Tait who, with Dr. Palmer, was busily engaged taking colored photographs, declares there is nothing in Garibaldi park more beautiful than Summerland's own Snow Mountain.

**SURVEY COMMITTEE**  
E. J. Chambers and W. E. Adams, members of the BCFGA survey committee, have been asked to continue their work of examining packinghouse operations this season, on behalf of the BCFGA central executive.

When your car's right, you can travel anywhere in safety. Service from us means safety for you. Have your car prepared now for safe summer driving by our expert, reliable mechanics.

**Legion Auxiliary is Planning Joint Picnic**

The Women's Auxiliary to the Canadian Legion held its July meeting on Thursday evening, July 12, in the parish hall and will continue to have evening meetings for the rest of the year.

There was rather a small attendance and the meeting was given over to making plans for the big picnic which will be held at Powell Beach on Aug. 1.

Mrs. W. McCutcheon and Mrs. Dracas are conveners for the sports events on that date, and a ball game is on the program when WA members will play against Legion men. There will be special games and treats for the children.

It has been decided to invite only Legion and Auxiliary members and their families.

**BREAKS VERTEBRAE IN FALL FROM ORCHARD LADDER**

Mrs. A. W. Nisbet had the misfortune to fall about eight feet from a ladder from which she was picking cherries at her home on Thurs. day of last week.

She was taken to Summerland General hospital where X-ray revealed that she had broken a vertebrae in her back somewhere between her shoulders.

This necessitated having a cast put on. While she will be able to walk around it will probably be pretty uncomfortable for awhile.

**Discuss Replacement Of Wooden Apple Box**

Dr. S. E. Maddigan, director of the B.C. Research Council, will be in Kelowna next Monday, July 23, to discuss the BCFGA's request for a container which could replace the present-day apple box.

G. A. Barrat, B.C. Fruit Board chairman, states Dr. Maddigan has hope that something might be done to provide an alternative to the wooden box, which has become too costly in relation to the grower's income.

## St. Stephen's Rectory Grounds Lovely Setting for Garden Party

### VISITING HERE

Mrs. Gavin McAllister of Vancouver is visiting this week at the home of her niece, Mrs. Harvey Wright.

Mrs. R. H. Wemyss of Neepawa, Man., is visiting at the home of her brother-in-law and sister, Mr. and Mrs. S. W. J. Feltham.

Mr. and Mrs. A. J. Gray of Beaverville are staying in Penticon while visiting the latter's parents, Mr. and Mrs. W. S. Ritchie.

Mrs. H. Daubney and her daughter, Marjorie, of Victoria visited last week at the home of Mrs. J. S. Ritchie.

Mr. and Mrs. Alex Paterson and their son Colin of Edmonton are visiting at Mr. and Mrs. Dan Rutherford's home.

Mr. and Mrs. Herbert Nield and family of Calgary are vacationing at the home of the former's parents, Mr. and Mrs. W. S. Nield.

Miss Pat Tyrrell of Vancouver is spending the summer at the home of her uncle and aunt, Mr. and Mrs. Earle Wilson, Trout Creek.

Michael Fitzpatrick, son of Dr. and Mrs. R. E. Fitzpatrick, former residents now living in Vancouver is a guest at the home of Mr. and Mrs. Earle Wilson.

Mr. Don Johnston and his friend, Mr. Peter Sevenpiper were weekend coast visitors at the home of the former's mother, Mrs. L. J. Johnston.

Miss Ruth Nesbitt of Vancouver was a weekend visitor at the home of her parents, Mr. and Mrs. C. V. Nesbitt, who drove her back to the coast on Sunday.

Mr. and Mrs. E. G. W. Miles and their three daughters have come from England to make their home in the valley. Mrs. Miles is a daughter of Mrs. W. Snow at whose home the family is now visiting.

Mr. and Mrs. Wesley McCurdy, who have come from eastern Canada to make their home at Victoria, were in from the coast last weekend to visit Mr. and Mrs. J. R. Campbell.

Alberta visitors at the home of Mr. and Mrs. E. E. Campbell last weekend were Mr. and Mrs. Andrew Campbell and their two daughters, who were here from Friday until Tuesday morning.

Miss Jean Wright who, with a friend Beverley Rudman, was a visitor to the home of her parents Mr. and Mrs. Harvey Wright, returned last week to her Vancouver home.

Mrs. J. H. Riha who has been visiting for two weeks at the home of her parents, Mr. and Mrs. J. T. Washington, and with other relatives and friends, left last Saturday for her home at Vallejo, Calif.

Recent visitors at the home of Mr. and Mrs. W. R. Powell were the former's cousins, Mr. and Mrs. A. Prately and their son and daughter-in-law, Mr. and Mrs. L. Prately, of Pittsburgh, Penn.

Mr. and Mrs. Gerald B. Andrews, of Vancouver, the latter the former Macil White, are spending two weeks' holiday at the home of Mr. and Mrs. E. O. White in Summerland.

Visitors at the home of Mr. and Mrs. Harvey Wright last week were Mr. Fred Davison, of Oakville, Ont., and Miss Anne Davison, who has just returned from China where she was a United Church missionary.

Mr. and Mrs. A. W. Jensen and their son David formerly of Victoria have come to the interior to make their home at Kelowna. Mrs. Jensen and David, who had his first birthday here, have been spending a month visiting her parents, Mr. and Mrs. W. Atkinson, who drove the family to Kelowna last Saturday.

Mrs. R. M. Johnston, Judy and Charles, came in from their new home at Mission, B.C., on Monday to visit at the home of her parents, Mr. and Mrs. W. R. Powell, and to see her relatives, Mr. and Mrs. A. Prately and Mr. and Mrs. L. Prately who were visiting at the Powell home from Pittsburgh, Penn. Mr. Johnston arrives today and they will motor back home.

In the beautiful garden of St. Stephen's rectory the annual garden party of the Evening branch WA was held last night, July 18, and was highly successful.

It was a lovely evening with delightful music by the Summerland Band. No small part of the enjoyment was in walking in the peaceful grounds where colored lights and spotlighted waterfall added to the beauty.

Throngs of guests were welcomed by Canon and Mrs. F. V. Harrison and the president, Mrs. E. C. Bingham.

General convener was Mrs. Dave Turnbull.

As they entered the garden they were literally "buttonholed" by Mrs. J. Lamey and Mrs. A. Moyls with pretty buttonnieres made by Mrs. J. Y. Towgood and Mrs. Bingham.

Home cooking stall, in charge of Mrs. R. Kersey and Mrs. S. Meyers and the "Kiddies' Kookie Korner" were the centre of considerable attraction, as was the sewing convened by Mrs. W. Birtles and Mrs. Lamey.

Mrs. E. F. Weeks and her committee were kept busy supervising many games, and the fish pond.

The horse loaned by Mrs. Reinertson and ably handled by Isabel and Carol Reinertson gave many children a thrilling ride.

Mrs. R. A. Fredrickson supplied ice cream and lemonade needs of the youngsters, while Mrs. R. Lawley sold them bags of candy.

Refreshment committee consisted of Mrs. Clarence Adams, Mrs. B. T. Washington, Mrs. T. E. Lott and Miss Mildred Clark, convened by Mrs. D. L. Sanborn. Many WA members and their daughters were serving raspberry shortcake, coffee and other delicious things.

An air of excitement was created by a gypsy fortune teller, clevled by a gypsy fortune teller, clevled. Lighting effects were done by Mr. D. L. Sanborn.

### Faith Rebekah and Redlands Officers Installed Jointly

On Wednesday evening, July 11, officers of Redlands Rebekah Lodge No. 12 of Penticon and Faith No. 32 of Summerland were jointly installed, by Mrs. F. W. Schumann, district deputy president, Mrs. H. Mitchell acting as deputy marshal.

A busload of members from Penticon and the members of Faith filled the hall to capacity.

At the close of the meeting a friendly visit was enjoyed by all and a most enjoyable buffet supper was served by the social committee under the convenorship of Mrs. J. Brown.

The officers for Faith No. 32 for the ensuing term are:

Mrs. J. Raincock, noble grand; Mrs. W. Bleasdale, vice-grand; Mrs. R. Kersey, recording secretary; Mrs. T. McKay, financial secretary; Mrs. J. Dunsdon, treasurer; Mrs. Hilda Allison, warden; Mrs. H. Fiske, conductor; Mrs. E. Gillespie, color bearer; Miss Mae Howard, chaplain; Mrs. W. Pattie, inside guardian; Mrs. A. Holmes, outside guardian; Mrs. W. Hack, right supporter noble grand; Mrs. H. Eden, left supporter noble grand; Mrs. W. Toews, right supporter vice grand; Mrs. Annie Johnson, left supporter vice grand; Mrs. Grace McIntyre, junior past grand; Mrs. M. Henker, musician.

Mrs. Emily McVety of Edmonton, Alta., is a guest at the home of her sister, Mrs. D. L. Milne.

Don't  
Overtax it --

### VISITING ABROAD

Mrs. E. Hack left yesterday to spend a month visiting in Vancouver and Victoria.

Miss Milly Hudson of the Summerland General hospital nursing staff is spending a month's holiday in California.

Mr. and Mrs. Arthur Blanchet, Parkdale, have returned from a three weeks' holiday at Victoria and Vancouver.

Mr. and Mrs. Walter Wright left by car on Sunday for a holiday trip, planning to go to Victoria and other points. They were accompanied as far as Vancouver by Mrs. Horace Read.

Mr. and Mrs. Frank Doumont are leaving on Saturday to spend a vacation motoring to Trail where they will visit their friends, Mr. and Mrs. J. Gellatly and Mr. and Mrs. J. Cooper, the latter the former Miss Amy Smith. From that city they will continue to Banff and Glacier National Park before returning home.

## Baptist Vacation Bible School Has Attendance of 86

Eighty-six children were enrolled and there was an average attendance of seventy-five at the daily vacation bible school held from July 7 to 17 at the Summerland Baptist church.

The school was directed by Mrs. Howard Milne assisted by seven group leaders, Mrs. D. L. Milne, Mrs. J. Bernhardt, Mrs. Allison, Mrs. R. Jaster, Miss Wilma Huva, Miss Esther Huva and Miss Norma Arndt.

Mrs. L. Derosier, Mrs. George Graham and Miss Carol Allison also helped in many ways. Pianists were Miss Ruth Dale and Miss Jean Iwayoshi.

On the last day lemonade was donated by Mr. Ken Boothe and doughnuts were served with it. Prizes were given out for memory work and attendance cards presented, also. Mrs. Jaster's group had perfect attendance.

Tuesday evening the parents and friends of the children gathered for closing exercises. Choruses were sung by the children, led by Mrs. Jaster and accompanied by Miss Dale. This was followed by prayer and a brief talk on the school by Mrs. Howard Milne.

The classes recited the names of all the books of the Bible.

The little ones were wearing attractive crowns which were explained by Norma Arndt. Each of the six points had a star for attendance, with the daily memory verse pasted below. The groups recited, also, the memory verse for each day. Mrs. Allison's class described the booklet on "God's Gift to Us".

Esther Huva's class showed the animals made by the three younger groups.

Two rhythm band groups played, led by Elaine Dunsdon, Ruth Lapin, Linda Rumball and Lorraine Milne.

Booklets made by the four older aggregations were displayed by pupils of Mrs. Bernhardt and had attractive spatter work covers in various designs. The theme of these was God's World. These children also recited their memory verses.

Pretty wall plaques were made by Wilma Huva's group, and Mrs. Milne's senior boys had painted holders for the communion glasses. These were shown and will be used in the church.

Wilma Huva conducted a brief Bible drill which had been part of the daily program, and Mrs. Milne summarized the flannelgraph Bible stories she had been giving each day, telling and demonstrating the story of Moses for the audience with colorful and interesting pictures.

## NEW ARRIVALS

Mr. and Mrs. Ken Smith are the parents of a baby boy who was born at Summerland General hospital on Wednesday, July 11.

A son was born to Mr. and Mrs. George Ryman on Thursday, July 12, at Summerland General hospital.

On Sunday, July 15, a baby boy was born at Kelowna General hospital to Miki and Alan Wright, formerly of Trout Creek.

Those who brought the children to the school by car each day were Mrs. Jack Dunsdon, Mrs. Blake Milne, Miss Ruth Dale, W. M. Wright, C. A. Gayton, George Perry, Roy Wellwood and A. H. Corns.

**KNOW WHAT YOU'RE WORTH? Value of Your Personal Property Has Grown — Don't Be Underinsured**

Ever stop to think how many valuable things a family accumulates as the years go by and the children grow? Each time you buy furnishing, household appliances, clothing, sports and hobby equipment, jewelry and fine arts you enlarge the amount of your personal property.

And when you have occasion to buy such articles today, you realize how much more you pay for them than you did ten, five or even one year ago. For at the end of 1950, on the average, it took \$1.00 to buy what 58 cents bought in 1939, and costs have not yet been stabilized.

Perhaps it hasn't occurred to you to check your insurance to be sure it's in line with today's actual cash value of your personal property. Unless you have increased your insurance recently, you may be very much under-insured! Why not consult us about it? Remember, a few dollars more premium paid now may save you from the loss of hundreds of dollars in the event of fire, theft or other disaster. Be sure you have enough insurance! For insurance services call your local agent, Lorne Perry.

## West Kootenay Makes Three Appointments

J. D. McMynn, N. S. Trouth and W. D. Alexander were named in staff appointments announced by R. G. Anderson, general manager of the West Kootenay Power and Light Company, Limited. J. D. McMynn has been made assistant to the general manager; N. S. Trouth has become acting superintendent; Okanagan and Similkameen Division, Penticton, and W. D. Alexander has been appointed assistant secretary-treasurer.

Mr. McMynn graduated from the University of British Columbia in 1934 in electrical engineering. He joined the Consolidated Mining and Smelting Company of Canada Limited during the following year and later took leave-of-absence to attend the Canadian General Electric test course in Peterborough. Returning in 1937 he joined the staff of the West Kootenay Power and Light Company, Limited. In that year he was made superintendent of the Okanagan and Similkameen area. He leaves this post to take up his new duties at the head office in Trail. He has been a member of the Penticton Rotary Club and is a member of the Association of Professional Engineers of B.C.

Mr. Trouth graduated from the University of Alberta in 1949 as an electrical engineer following which he joined The Consolidated Mining and Smelting Company. He began working for the West Kootenay Power and Light Company at Penticton in the next year. He became acting superintendent for the area following the appointment of Mr. McMynn to assistant to the general manager.

Mr. Alexander is a chartered accountant formerly with the firm of Riddell, Stead, Graham and Hutchison of Vancouver. He succeeds the late W. Evans in the position of assistant secretary-treasurer of the company.

### Electric Extension Is Being Considered

Local council has been considering for some time the possibility of extending the electric light service to the northern section of the municipality but costs have been estimated as rather extensive.

To extend as far as the J. M. McDougald property would cost \$3,415, including rebates which would be necessary to persons who have already extended north, principally T. B. Young.

The subject is far from closed and will be given further discussion in council deliberations, it has been intimated. Councillors F. E. Atkinson and Norman Holmes have been in favor of council action on a general improvement basis or on a separate bylaw basis if it can be shown that probable new connections over a given period would be sufficient to care for a good portion of installation costs.

### NOTICE

In the matter of The Bankruptcy Act and in the matter of the proposal of Leslie Vernon McClelland, of North Kamloops, B.C. TENDERS, for the whole or by units, will be received by the undersigned up to 26th July, 1951, for the purchase of the following: Two 1949 International Trucks, Model KB58, Type of Body C & C. Two eight ton Columbia Trailers with extra equipment. All believed to be in first class condition and very little used. The same can be inspected at Ludy's Garage, Grand Forks, B.C. Terms, Cash. Tenders must be accompanied by certified cheque for 10% of tender. Cheque will be returned if tender not accepted. Highest or any tender not necessarily accepted. SIDNEY SPYER Trustee 2008 - 32nd Street, Vernon, B.C. 7th July, 1951.

**B.C. Federation to Move to Victoria**

In order to give immediate service to the various agricultural commodity groups in their dealings with the provincial government, directors of the B.C. Federation of Agriculture have decided that within the next few months they will move their office permanently from Vancouver to Victoria.

The annual convention of the B.C. Federation of Agriculture, which in previous years has always been held in Vancouver, is this year going to be held in the Legion hall, Mission City. It is hoped that by moving the meeting into the Fraser Valley that more rank and file members, over and above

the delegates, will take active participation in the discussions.

Should this innovation prove successful, the meeting will probably be held in the interior in the following year. The deciding of Mission City as the site was because of the available accommodation and strong representations made by the Mission City Board of Trade.

**PENTICTON WELCOMES TOURIST PLAN HERE**

The Penticton tourist bureau has welcomed Summerland Board of Trade attempts to organize further tourist accommodation here and has promised every co-operation in directing tourists to this centre when available accommodation in the southern city is fully occupied.

FIELD MARSHAL VISCOUNT ALEXANDER, Governor-General of Canada, is shown with HON. L. B. PEARSON, Secretary of State for External Affairs, after receiving honorary degrees of doctors of civil law in a ceremony at Oxford University. In presenting Mr. Pearson for his degree, the Public Orator referred to the Canadian minister's career at Oxford and to his prowess as a hockey player there.

**NAME PHN AS VICE-PRESIDENT**

Miss Joan Appleton, formerly public health nurse here, and now PHN for the city of Penticton, was recently elected second vice-president of the Registered Nurses' Association of B.C. at the 39th annual provincial convention held in Vancouver, June 22-23.

Miss Appleton's home is in Penticton where she lives on Skaha Lake Road with her mother, Mrs. Rowe.

**SISTER DIES, ANOTHER INJURED IN CAR CRASH**

Mrs. Earl Stevenson has received the sad news of the tragic death of her sister, Mrs. Bessie Knox, 51, of Warren, Ohio, in a traffic accident. Also seriously injured in the same accident was another sister, Mrs. Mildred Chapman of Winnipeg and her daughter, Mrs. Elva Stewart and son Robert, aged 5. The party was on its way to Chicago at the time. Mrs. Chapman has visited Summerland and is known to many persons here.

**Apricot Crop Sizing Well, Will Go Over Estimates**

Splitting of Bing cherries varied from 30 percent to 80 percent depending on location and whether trees were light or heavily laden, the latest horticultural news letter issued at July 10 reports for Summerland, Peachland, Westbank district.

Sizing of apricots and peaches "is very good", the letter continues, "and it now appears that the apricot crop will be considerably over original estimates. Prune trees are carrying a heavy load and are now showing considerable drop."

The June drop in most varieties has lessened the need to thin apples.

For this district, "the Delicious variety promises a greater crop than last year, but in all other apple varieties a drop in tonnage is expected from last year's record high. There is also the possibility of malformed apple fruits due to last April's frost."

The letter doubts if codling moth control will be as good as last year, but activity of other pests is low. Grasshoppers threatened a portion of the vegetable crop in Westbank and control sprays have been applied.

From the south, splitting of cherries varies from light in Kaleden to moderate at Penticton and heavy at Naramata.

**Bad Hail in Oliver**

Over 500 acres of the southern part of the Oliver district were seriously damaged by hail-stones over one-half inch in diameter, the letter reports. This hail fell with rain on July 6, the same day that about an inch of rain and some hail fell here.

Apricots and Transparent apples have been moving in limited quantities from the southern area since July 10, and volume has now been reached.

"Fire blight is still the number one problem of growers," Oliver-Osoyoos states. "Other diseases and insects are of little consequence so far this year, although green apple and woolly apple aphids are causing concern in some orchards. Gummosis on peaches, similar to that which occurred in 1949, has

started to appear, particularly on Elbertas".

Hail did little damage in the Kelowna district, but some splitting of cherries was caused by the rainfall early this month.

"Winter injury from the 1949-50 winter is continuing to show up, particularly on apricot trees", Kelowna's report states.

The Vernon area reports tree fruits sizing satisfactorily with the exception of Delicious, which appear to be slowing up in sizing, due mostly to winter injury. Prunes are still dropping but there is still a good crop in sight.

**Refuse Barrels To be Banned**

After July 31 no refuse can be burned in trash barrels in the business area.

This was the decision of Fire Chief Ed Gould to council last week, when it was decided to acquaint the public with this latest move in trying to rid the district of possible fire hazards.

Recently, a properly-constructed incinerator was constructed by several merchants on the south side of Granville street between Pender and Hastings. This move has proved quite satisfactory and renders fire danger nearly negligible, the fire chief has reported.

Other merchants will have to follow this lead or make arrangements for their refuse, to be removed more often than at present, it has been concluded.

Councillor Norman Holmes reported on July 10, that several Hastings street merchants are planning a common incinerator for that area.

**Fill for Sidewalk In Lower Town to Be Undertaken Soon**

Reeve C. E. Bentley and Roads Department head Councillor F. M. Stewart reported to council last week on their investigation of the sidewalk needs in lower town along the north and east side of the highway in the vicinity of the Char-Lee Boathouse.

It was determined that some fill will be necessary and this work was authorized to be undertaken as soon as possible. Probably shale or a fine crushed rock will be laid, soaked and rolled and allowed to settle for some time before any further work is done.

Cribbing under the provincial government highway where it crosses the small creek in that vicinity is in a precarious condition. Assistant District Engineer Willis of Kelowna will be asked to meet council and discuss replacing this structure which would tie in with any work the council might consider for its creek crossing.

Hedges in that area came under Reeve Bentley's scrutiny as they are encroaching on the road allowance. Owners will be notified they must trim their hedges or the municipality will have to do it for them.

**Electrical Union Disclaims Liability**

The International Brotherhood of Electrical Workers Union headquarters in Vancouver has refused to reimburse municipal council for damage to a transformer which had not been checked when installed.

According to municipal council belief, the municipality would be reimbursed by the union for any damage done through neglect of union workers.

The union disclaimed any liability, stating that the transformer had been overloaded, was replaced with a larger transformer and that no foreman was present when the installation was made.

Municipal Clerk Gordon Smith replied that the transformer had not become overloaded until the new school was cut into the circuit. Council decided, however, not to press the case further.

Canadians with modest means can invest even small amounts of surplus money in a variety of industrial stocks by participating in "mutual fund companies". Oil and gas transmission lines

can be built over mountain tops, but skirting them means cheaper construction, cheaper gas and easier and more dependable maintenance.

## Hobby Fair, Track Meet, Two Big AOTS Projects are Success

Reports on two big projects of the year, the track meet and the hobby fair, were given at the AOTS meeting held in Lakeside church basement on Thursday, June 28.

In the absence of George Washington, President Everett Bates reported on the hobby fair, which again had been very successful. In fact, he said, the whole fair was set up by 11 a.m. instead of just before opening at 2 p.m., and George Washington had been quite disgraced! Mr. Bates thanked all those who had helped with the fair.

For the track meet, Joe Sheeley reported that the events had gone off very successfully. There had been a disappointing lack of spectators, but the success of the booth looked after by George Woitte and Vern Charles had made up for the poor gate receipts.

Joe also reported that baseball was going over big with the juveniles, and requested \$25 for equipment for them, which was promptly voted. He announced that Harry Hackman had organized the pre-juvenile boys into a pee-wee ball league and this was also being enthusiastically received.

Treasurer Bill Jenkinson gave the most methodical treasurer's report heard in the club for years, as some of the former holders of that position remarked. This showed that the track meet, in spite of the heavy expense of buying trophies which will not be incurred another year, cleared \$23.64, and the hobby fair cleared \$28.

H. R. Whitmore and Frank Dou-

mont, reporting for Cubs and Scouts, announced that both are doing well, with two full packs of Cubs, 30 in each, and the Scout troop growing rapidly. Both have closed down for the summer, but Mr. Whitmore requested an assistant to help him with the Scout troop when they resume activities next fall.

Mr. Whitmore also reported for Camp Sorec, in the absence of Ernie Bennett who is in charge of that committee of the club. He said that Ernie has done an enormous amount of work for the camp, and has been disappointed with the poor turnout of helpers, but Walter Charles and a few others had helped a great deal.

The big question, Mr. Whitmore said, was to get enough men to act as leaders for the boys' camp commencing on Sunday. Eighty-two boys would be there, but so far there was only himself and Mr. Harris from Naramata to look after them, and he felt the responsibility and the work were both too much for two men. Walter Charles and George Woitte volunteered to give their help.

Ewart Woolliams said he had an interesting old map of the municipality, and wondered if the AOTS club would pay for its framing. The club agreed to do so, but did not think they should go in for historical study and storage too much, as their time and money is devoted to service for youth.

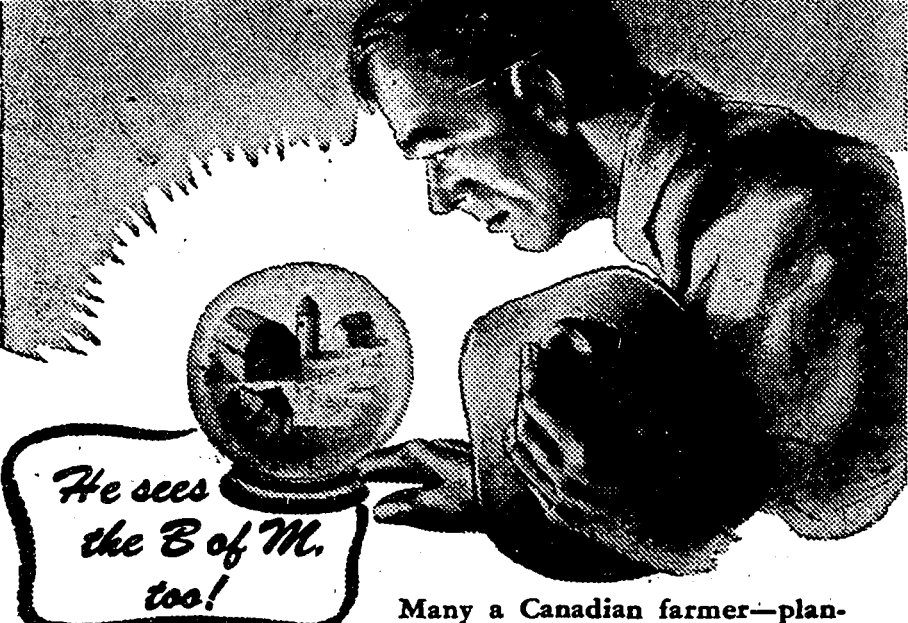

Herb Pohlmann wanted to resign from the vice-presidency because he is away so much, but the club agreed unanimously with Vern Charles' motion that "his resignation be refused—with regret."

## Railways Will Lose In Long Run Says Tree Fruits Prexy

KELOWNA—Twelve percent interim freight rate boost granted railways will represent an increase in transportation costs of four cents a box on fruit to nearby markets, and 12 cents to distant markets, A. K. Loyd, president and general manager, B.C. Tree Fruits, stated last week.

The fruit industry has been severely handicapped due to steadily rising freight rates, Mr. Loyd said. This is the third boost in three years. First increase was 21 percent and the second boost amounted to 20 percent.

"These increases impose further obstacles between ourselves and the consumers, and are detrimental to both," he said. "In the long run it will be detrimental to the railways."

Questioned if other means are being studied regarding fruit shipments, Mr. Loyd said a considerable amount is now being shipped over the Hope-Princeton highway to Vancouver markets. He indicated the rate structure will again be examined, but added road conditions make it impossible to haul fruit over a long distance to eastern markets.

## Okanagan Men Directors of Telephone Co.

At the annual meeting of the Okanagan Telephone Company held on Friday, July 6, two prominent residents of the Okanagan Valley, Mr. A. G. DesBrisay of Penticton and Mr. Everard Clarke of Vernon, were elected to the board of directors. They replace Mr. Ross Peers and Mr. B. H. Gunning who retired from the board.

Mr. DesBrisay, who is a substantial fruit grower in Penticton, is a past president of the B.C. Fruit Growers' Association (1941-1946), was a director of the Penticton Co-operative Growers from 1941 to 1949, and was a member of the original board of management of the B.C. Research Council. At present Mr. DesBrisay is president of the B.C. Fruit Processors Limited and a member of the B.C. Fruit Board.

Mr. Clarke is general manager of Shuswap Okanagan Dairy Industries Co-operative Association. He is a past president of the Vernon Board of Trade, has served as an alderman of the City of Vernon and helped organize the first rural electrification committee in British Columbia. He also acted as secretary of the Interior Dairymen's Association for seven years and is still secretary of the B.C. Dairymen's Association, as well as a member of the industries advisory committee of the B.C. Research Council.

The resignations of Mr. Peers and Mrs. Gunning were accepted with regret and the directors and shareholders expressed sincere appreciation for their long and valuable services.

The new board is composed of F. A. Sherrin, president; C. D. Campbell, vice-president; R. M. Brink, L. J. Ladner, K.C., R. W. Ley, A. G. DesBrisay and Everard Clarke.

## Rotarians Hear of Gardening as Hobby

Gardening as a hobby was the subject of an interesting address to Rotary Club of Summerland members last Friday evening at the Nu-Way Annex. Lyall Denby, of the experimental station, led the discussion and told members how he became interested in the growing of vegetables and flowers until now he is in charge of vegetable seed production at the station.

Members asked many questions on the proper care of flowers and vegetables in the garden and also on the control of insect pests.

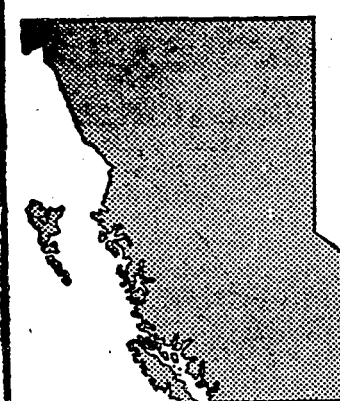

## Numerous Projects for Roads Department

The slide below Mrs. T. McDougald's on the main highway will have to be removed and not just pushed into the lake, council was informed last week when discussing the roads department.

Numerous other projects were outlined by Councillor Francis Steuart, roads department head, in-

cluding a fill at Trout Creek to keep the high water level off one stretch of road near Powell Beach.

The culvert across the roadway near the C. A. Gayton property needs further attention as it is badly choked with debris from this spring's flooding.

**BULLETIN No. 7**

# CIVIL DEFENCE

**LEARN—AND LIVE**

## HIGH EXPLOSIVE MISSILES

- TYPES OF BOMBS**—1. Those causing maximum blast effect with negligible fragments.  
2. Those producing both dangerous blast and fragments.  
3. Armour piercing type for special targets, causing damage by blast fragmentation and earth shock.

**EFFECTS**—1. Impact. 2. Blast. 3. Fragmentation. 4. Earth Shock.

- Any bomb will cause damage by force of impact even if unexploded.
- Blast will break windows—and may remove roofs and, in a limited area, collapse ordinary houses.
- Fragmentation, besides inflicting casualties can cause structural damage. This is also true of debris which may be flung violently from craters or damaged buildings.
- Earth shock, in addition to being produced by impact is produced by bombs exploding underground.

**ANTI-PERSONNEL BOMBS**—These damage chiefly by fragmentation. May have delayed fuses or only explode if subjected to movement. Should you find one intact, do not touch it. Report its discovery to your warden or police. Parachute mines and flying bombs cause damage, chiefly by blast effect. Rockets damage by blast and earth shock.

**ATOMIC BOMBS**—Although the atomic bomb damages by heat flash and gamma rays, it is essentially a blast weapon of huge destructive capabilities. Its chief effects are:

**HEAT FLASH**—Effects up to approximately two miles. Flying glass and debris at greater distances.

**RADIO ACTIVITY**—At zero fatal—three-quarters of a mile 50%—beyond this relatively few deaths.

**BUILDINGS**—Within radius of one mile from central burst estimated 30,000 houses demolished. From one to one and half miles further 35,000 require major repairs, thence for two and a half miles 50 to 100,000 require minor repairs.

**PROTECTION**—Investigations made indicate that the protection designed to resist the effect of normal high explosive missiles (other than direct hits) will give some protection against the atomic bomb. The fundamental principles of protection remain.

They are as follows:

1. **IN THE OPEN**—If a bomb is going to strike very near it can usually be heard for about two seconds. Act at once to protect yourself. **DO NOT RUN FOR COVER.**

(a) Throw yourself flat.

(b) Lie face downwards and clasp hands behind your head. Raise the chest off the ground resting on the elbows so as to prevent internal injuries.

**NOTE:** If you can, roll into a gutter or next to the curb to avoid debris; in open country, a fold in the ground or ditch.

(c) **WHEN VERY NEAR BUILDING OR OTHER COVER**—Walls, archways and doorways give protection. Shock is transmitted through walls and therefore do not lean against any part of the building and do not forget your head is your most vulnerable part.

(d) **WHEN INSIDE A BUILDING**—Keep out of the direct line of a window or door. Get near an inside, not outside wall. Flying glass is highly dangerous.

**THE GOVERNMENT OF BRITISH COLUMBIA**

**Last Frame Rally Gives Beavers 6-4 Decision Over Red Sox**

A two-run rally in the ninth frame spelled victory for Penticton Beavers at the Living Memorial park playground Sunday afternoon, with Summerland Red Sox going down to defeat 6-4.

Bryden's error in right field was the contributing factor to the Red Sox downfall at that time, although Penticton's Aiken, with a two-run triple in the third frame had paved the way for the Beavers' triumph.

As a result of Naramata's loss to Osoyoos, the Red Sox are still holding onto second spot in the league standing by a narrow margin.

Red Sox got away to a good start in the first frame when Pohlmann singled, Hooker walked, both runners advanced on Bonthoux' sacrifice and Pohlmann scored on a passed ball.

Beavers Take 4-1 Lead

That 1-0 advantage was more than wiped out in the third when Aiken tripled to score Garnett and Tomlin, coming across himself on Getz' fly. Beavers made it 4-1 in the fourth when Garnett singled Jordan across.

Back came the Red Sox in the sixth, when Aiken, first-baseman, was safe on an error and Cristante singled. Ernie Jomori's sock scored two runs.

Then came the ninth when Bryden failed to gather in a long fly and two runs scampered across.

Red Sox got one of those back in the last of the ninth when Pinch-hitter Fisher singled, stole second,

Summary: Stolen bases, Pohlmann, Aiken, Eyre, Jomori, Bryden, Fisher, Garnett, Burch 2, Jordan; sacrifice hits, Bonthoux, Maisonneuve; three-base hits, Jim Aiken (Beavers); bases on balls, off Brawner 3, off Eyre 2; struck out, by Jordan 10, by Brawner 4, by Eyre 3; double play, Cristante to Bonthoux; passed balls, Garnett 3, Pohlmann 1; hit by pitcher, Jordan by Eyre; umpires, McCargar and Bryden.

x—Batted for F. Tabor in 9th.

Summary: Stolen base, Taylor; sacrifice hit, Kinzel; two-base hits, Metcalfe, Dunham; three-base hit, C. Tabor; bases on balls, off Jacobs 3, off Tabor 2; struck out, by Jacobs 1, by Tabor 1; left on base, Merchants 9, Brewster 9, passed ball, Nelson 1; hit by pitcher, Kuroda by Tabor.

**Merchants Shaken up, Beat Brewster 6-2 with 11 Hits**

Summerland Merchants came to life with a vengeance with the hickory last Sunday at Brewster to blast their way to a comfortable 6-2 victory which gives them a slim, mathematical chance of making the playoff trail.

Under the new management of Harry Braddick and Bob Bleasdale, the club had a shakeup, with George Taylor going back to centre-field where he once proved such a potent force, Kato resuming his second sack position where he covered himself with glory as a Red Sox and Brawner holding down third base in his accustomed manner.

Brewster's Tabor had eleven strikeouts to his credit but gave up the same number of hits, to go down as the losing pitcher. As a contrast, Gil Jacobs could only fan one batter, but was only nicked for eight bingles, keeping them scattered sufficiently that little damage could be done.

Brewster took an early lead when Sparks was scored on C. Tabor's triple into left field. Merchants got that one back in the third when Dunham doubled and scored on Kato's blow.

In the fourth Merchants took the lead when Vanderburgh's single to right field was booted, scoring on Jomori's single to left. The count was evened at 2-all in the 7th when C. Tabor, who had a perfect three for three day at the bat, singled and was scored on clouts by Nelson and Beaudoin.

Then came a four-run splurge by the Merchants in the 8th to wrap up the ball game for sure. It was Brawner and Jacobs that did the major effort in this spree.

With two down, Metcalfe singled to centre while Jomori drew a walk. Brawner singled Metcalfe home, Jacobs made sure of his own ball game when he singled to score Jomori and Brawner. Jacobs came across when Sparks muffed D. Weitzel's grounder.

The team played errorless ball with the exception of Chuck Brawner, who muffed a couple at the hot spot, but he was a busy man with six hard chances to field.

Daryl Weitzel's shoestring catch in the eighth, with one on board, was the sensation of the game. George Taylor had a busy day back

**Len Shannon Places Third in Rifle Shoot at Kamloops**

Len Shannon, with 95, was third in the grand aggregate standing at the annual Kamloops Rifle club shoot held last Sunday at the mainline city. Top spot in the meet went to Capt. Ernie Work, Kamloops, who shot a 98.

The 600-yard range proved the downfall of many shooters at this big competition which brought nearly 50 marksmen to the rifle range at Kamloops.

Kelowna's No. 1 team captured the team championship, as well as the team 500-yard cup.

Two Kelowna marksmen took the 500 and 600 yard cups, being Dan and George Hill, respectively.

Bill Young of Penticton, a member of the Summerland club, placed third in the tyro class at 600 yards.

In the Summerland contingent, following were the scores: George Dunsdon, 91; Fred Dunsdon, 90; D. L. Sanborn and Herb Simpson 89, Steve Dunsdon 86, Jill Sanborn 76, Dave Taylor 73.

**Ken Blagborne "Hot" at Trap Club Shoot**

Ken Blagborne was really "hot" at the Summerland Trap club last Sunday afternoon when he led the monthly shoot with a brilliant 49 out of 50, 23 out of 24 in doubles and a perfect score in the quail shoot.

All year, Ken has been one of the most consistent shots in the local club, but on Sunday he was given some real competition.

Three perfect scores in the 25 competition were recorded, Ken Blagborne and Sandy Munn of Summerland and Peter Colquhoun of Kelowna being responsible for this excellent record.

Another perfect score from the 25 yard line was recorded by Frank Pollock to round out a particularly

keen day of shooting. The trap club is confining its activities to monthly shoots this year, feeling that rising cost of ammunition prohibits weekly or bi-monthly shoots.

# Garrish Not Able to Meet Locals Now

Pressure of organizing the necessary data to support the fruit industry's brief to the federal government for inclusion of the 1950 apple crop in the agriculture prices support act has precluded the B.C.FGA's new president A. R. Garrish of Oliver from attending meetings of grower locals.

Shortly before noon today Mr. Garrish issued a statement covering his activities at this time, as follows:

"I have been requested by a number of locals to attend meetings in the near future. I can appreciate the desire on the part of the growers to see who is at the head of their association at this particular time and I would like nothing better than to be able to visit all locals.

"I would like to point out, however, that at this time we are engaged in preparing a submission in respect of price support for the 1950 apple crop. It was agreed some time ago that this submission should be made by the B.C. Fruit Growers' Association and this inevitably involves the president taking a major part in the submission.

"It is quite impossible to do full justice to this work, to give any time whatever to my own business as a fruit grower and at the same time to visit locals.

"I would suggest that if the locals could see fit to postpone their meetings until after our submission in connection with price support, it would be of great assistance and I can assure all growers that at that time I will make every effort to attend their meetings.

"I feel at the present time, though, that the question of price support is the most vital one to the industry and must receive the undivided attention of the growers representatives."

## Carpenters' Strike Little Effect Here

There is still no settlement in sight for the valley-wide strike of the Brotherhood of Carpenters and Joiners.

But the strike has had little effect here, as the carpentering work on the one major project, the Occidental Fruit Co. new cold storage addition, has been completed. Barkwill's Ltd., addition is also well on its way to completion.

Union carpenters are asking \$1.85 per hour with an increase to \$1.93 in October. Contractors have offered \$1.75 with a rise of 10 cents October 1.

## Delay in Long Range Weather Forecasts

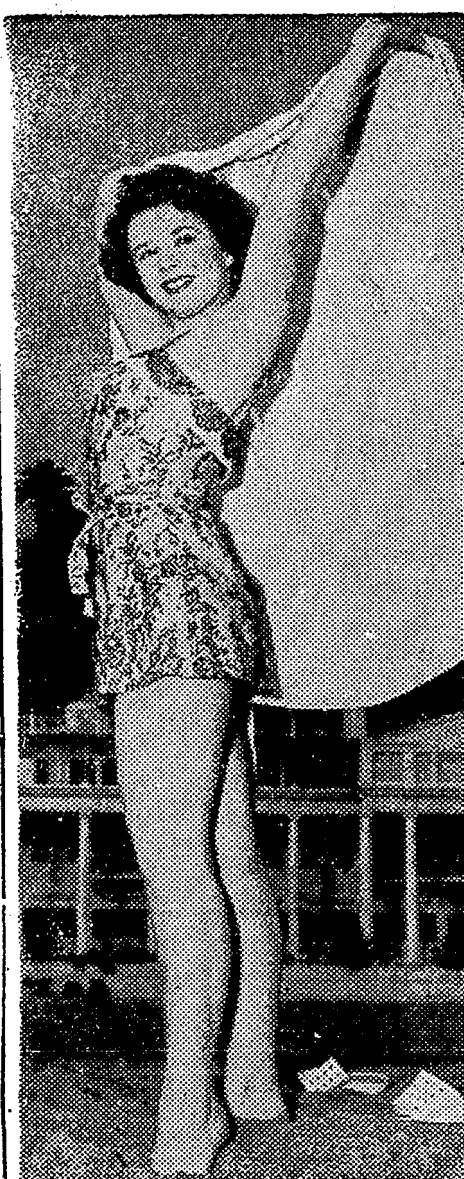

Long range weather forecasts which Hon. Lionel Chevrier, minister of transport, had informed the B.C.FGA some months ago would be organized this year, will not be available until some time next year, so the minister writes Secretary C. A. Hayden, with the explanation that circumstances over which the department had no control made this delay necessary.

However, the minister indicated that the organizing of this service would be completed at the earliest possible date.

The purpose of the long range forecast is to advise agriculturists a week or even two weeks in advance what the weather may be.

### JOINT SPRINKLER PLAN

W. T. Boothe and A. C. Fleming, new owner of the H. B. Mair property have obtained permission from Summerland council to install a joint sprinkler irrigation system to serve their adjoining fruit ranch properties.

**NICE, TOO**—When pretty Piper Laurie took off her beach robe last summer she revealed just another cute red-headed girl who proved whistle bait. But when she takes her robe off this year, she reveals a movie star. Piper, now 19, isn't getting any time for the beach at present, however, she's on tour ahead of her first two starring movies.

### ATTEND MEETING OF OKANAGAN UNION LIBRARY

Councillor Eric M. Tait and School Trustee Mrs. A. W. Vanderburgh attended a general meeting of the Okanagan Union Library board of directors in Kelowna yesterday afternoon. General discussion of mutual problems in all libraries formed the main portion of the agenda, along with the presentation of general rules for operation of headquarters staff in Kelowna.

- A Cup of Coffee
- A Light Snack
- A Full-Course Meal

They are all obtainable with the Quickest of Service. Drop in anytime.

## MORE ABOUT— CONVEYANCE

Continued from Page 1

tation companies before tenders were submitted and told them quite frankly that they had to come down in their contract tenders or the department of education would never consider their bids.

One of the firms offered to sell its buses to the school board but no provision has been made this year for any such capital expenditure, the trustees pointed out.

It was also stated that White & Thornthwaite has extra expense in the winter because chains have to be used on many occasions to traverse Peach Orchard hill.

Trustees declared that the Summerland companies have provided really dependable service at all times, and there has been no complaint regarding the operation of the bus service.

However, Inspector A. S. Matheson of Kelowna, who has had a considerable amount of experience in school bus operation, declared that the school board could easily operate a series of buses for 43 cents per mile, after purchasing four \$9,000 school buses.

### Costs 43 Cents Per Mile

He explained that allowing 7 percent interest on the investment, gas, oil, tire repairs and replacements, an average run of 30 miles per day and life of the buses at 72,000 miles, with 10 cents per mile allowance for each driver, the buses could be operated at 43 cents per mile.

On this basis he considered the White & Thornthwaite bid to be out of line, although Smith & Henry was within reason according to his calculations. Trustees did not consider Mr. Matheson had made sufficient allowance in his estimates for the cost of driver, but otherwise could find no flaw in his figures.

No decision was made by the trustees except to submit the tenders to the department at Victoria and await clarification. It was intimated by Inspector Matheson that

## Crescent Beach "Shot Up" by Dodwell

Crescent Beach residents had quite an aeronautical display on Friday afternoon last week when a Harvard trainer "plant" started "shooting up" the place.

It swooped low over the houses and trees and people ran out from all directions to see what was going on.

It dipped and turned over the lake and made the leaves on the treetops rustle as it flew over them. After a few minutes of this it turned and went west as mysteriously as it had come.

Later it was found to have been Charlie Dodwell formerly in the RCAF saluting his father's cottage and the places where he has spent many summers.

He had flown in from Abbotsford where he is taking a two weeks' reserve training course.

There will be little chance of the White & Thornthwaite tender being accepted by Victoria, although he considered the other tenders to be well in line and acceptable.

## Ex-Governor Newman Gets Sympathetic Hearing From Westbank Growers

As the Okanagan rests for a short time between the flush of cherry picking, and the time when peaches will start to roll in earnest, and with the main marketing season just around the corner, chief interest in producer circles lies in the resignation of Ivor J. Newman, former BCFGA president, from the board of governors of B.C. Tree Fruits Ltd.

## F. E. Atkinson On Mission to Leeward Isles

F. E. Atkinson, head of the tree fruits and fruit products laboratory of the experimental station in Summerland has been chosen to represent the Canadian government in a mission to the Leeward Islands, where technical advice is needed to install a new tomato cannery.

The Summerland municipal councillor left yesterday by plane for Ottawa, where he will confer today with government officials and will leave tomorrow from Montreal for his destination.

## Further Remand In Murder Case

Preliminary hearing on the charge of murder against George F. Clark, Summerland, was remanded for the fourth time on Tuesday in local police court when Defense Counsel John E. Aikins reported to Magistrate Hugh Sherman that Prosecution Attorney Frank C. Christian was not prepared to proceed.

## Dr. Plecash and Family Have Narrow Escape When Wall of Water Hits Home

One more promontory has been made in Okanagan lake as a result of a landslide across the lake between Naramata and Penticton early Friday evening.

At Westbank last week, Mr. Newman is quoted as having paid tribute to the general manager of B.C. Tree Fruits Ltd. as a man of tremendous ability and without peer in the setting up of that organization.

But today, said Mr. Newman, the job is one of selling and what is needed is a hard-headed businessman who speaks the language of the wholesalers.

As to his reasons for resigning, Mr. Newman declared the sales agency governors have grown too far away from the grower; that the present grower's contract is undemocratic and ties him up too tightly.

Many more points of dissatisfaction were named by Mr. Newman, who came to the conclusion that, having done his best to put his finger on the trouble and failed, he did not belong in an office where he could do no good, and that he therefore had to resign and put the picture of BCTF up to the growers.

However, he stated his firm belief in BCTF and the BCFGA and warned that the organization must not be scrapped.

The Westbank meeting passed the following resolution: "We, the Westbank Local BCFGA recommend that an appointed grower-members of the board should be president of B.C. Tree Fruits Ltd., and chairman of the board. We further recommend that the position of chairman of the board and general manager of BCTF should not be held by one and the same party."

It is understood that the preliminary hearing is being held up until RCMP headquarters at Regina has finalized its reports on the exhibits which will be presented in this case.

## DISPUTES BILL FOR ELECTRICAL WORK

T. F. Morrow has disputed an electrical bill for \$12.89 which was rendered last fall. On Tuesday, council agreed that the work done at the Morrow property should be removed and the account rescinded.

## Donald Allison Awarded IOOF \$200 Scholarship

Donald Allison, valedictorian of the 1951 Summerland High School graduating class, has been named winner of the Oddfellows' Lodge 1951 scholarship for the Okanagan Valley district.

Besides many other duties, Donald Allison was editor-in-chief of the SHS Bluebird Annual, one of the best productions this school committee has ever had printed.

Other scholarship winners from Summerland High this year are Jacquie Trafford, who captured both the Summerland Scholarship and the Radio Station CKQV scholarship; and John Palmer, who was awarded a second \$100 award in the Summerland Scholarship event by the Summerland UBC Alumni Society.

### OVER 200 AT FREE SWIM CLASSES

## Rules for Water Safety are Listed by Red Cross Committee

Each year the Red Cross swimming and water safety committees throughout the province help to prevent deaths by drowning and make it possible for more people to enjoy safely the sport of swimming.

Walter Toews, Mel Ducommun, John Kitson and others have assisted Mr. Wade's committee, while Ruth Kilix is chief instructor for the swim classes.

LEARN TO SWIM. Join a swim class sponsored by a recognized organization. Know your own limitations as a swimmer.

WHEN TO SWIM. Late morning and afternoon are the safest hours in which to swim.

ALWAYS HAVE A COMPANION, when fishing, swimming or boating. NEVER swim alone.

REACHING AIDS. Learn how to use all reaching aids; how to use floating objects to support yourself; how to throw hand line and ring buoy.

CRAMPS. If hit by stomach cramps, scull to support yourself and call for help. To ease leg cramps, take a deep breath, submerge, and ease cramped muscles with thumb and fingers of one hand, pressing through the muscles, to meet those of the other hand.

WEEDS. Use gentle, slow drawing and shaking movements to get out of weeds. Swim with the current, not against it, until freed.

USE STORAGE WATER FOR FIRST TIME. First storage water used this season was turned out of Canyon dam on July 16 when the gate was opened four inches, council learned on Tuesday.

## First Junior Regatta Draws Big Crowd to Popular Powell Beach

Ogopogo Swim Club of Kelowna dominated most events at the first Junior Regatta, staged at Powell Beach yesterday afternoon by the Summerland Youth Centre Assn., assisted by the swim class committee of the Summerland Board of Trade.

Competitors from Penticton, Naramata, Kelowna and Vancouver vied for honors with local swimmers in the main events.

Not a cloud marred the blue expanse above, and the shade of the trees which line Powell Beach provided ample protection for the hundreds who thronged to Summerland's first regatta in many years.

John Kitson, who was mainly responsible for the success of Summerland's first junior regatta in many years held at Powell Beach yesterday afternoon.

### REGATTA RESULTS

- 100 yds freestyle, men's open: 1, George Turner, Kelowna; 2, Eddie Lloyd, Summerland; 3, Howard Duncan, Penticton.
- 50 yds breaststroke, girls 16 and under: 1, Linda Ghezzi, Kel.; 2, Mary McKenzie, Kel.; 3, M. Anderson, Kel.
- 25 yds freestyle, girls 12 and under: 1, Gretchen Brown, Crescent Beach, Vanc.; 2, Karen Oldenberg, Kel.; 3, Eleanor Raines, West Vancouver.
- 25 yds freestyle, boys 12 and under: 1, Mike Fitzpatrick, Vancouver; 2, Jack Turner, Kel.; 3, John MacDonald, Kel.
- Ballon race, 25 yds, boys and girls 10 and under: 1, Jack Turner, Kel.; 2, Karen Oldenberg, Kel.; 3, Mike Fitzpatrick, Van.
- 8 and under, boys freestyle: 1, Brian Adams, Summerland; 2, Keith Oldenberg, Kel.
- 25 yds freestyle, boys and girls 10 and under: 1, Jack Turner, Kel.; 2, Karen Oldenberg, Kel.; 3, Doug Holmes, Summerland.
- Cigarette race: 1, John Kitson.
- 50 yds freestyle, boys 16 and under: 1, John Duncan, Penticton; 2, Eric Weyonberg, Kel.; 3, Glen Mervyn and Frank Gerrard, Kelowna.
- Under water nailing: 1, John MacDonald, Kel.; 2, Mike Fitzpatrick, Van.; 3, Jack Tucker, Kel.
- 50 yds breaststroke, ladies' open: 1, Linda Ghezzi, Kel.; 2, Mary McKenzie, Kel.; 3, Marietta Anderson, Kel.
- 50 yds freestyle, boys 14 and under: 1, Eric Weyonberg, Kel.; 2, Frank Gerrard, Kel.; 3, Glen Mervyn, Kel.
- 50 yds freestyle, girls 14 and under: 1, Thelma Gagnon, Kel.; 2, Wendy Brown, Crescent Beach; 3, Marietta Anderson, Kel.
- 50 yds backstroke, boys 16 and under: 1, Eric Weyonberg, Kel.; 2, Glen Mervyn, Kel.; 3, Jack Tucker, Kel.
- 50 yds backstroke, girls 14 and under: 1, Thelma Gagnon, Kel.; 2, ...

Although much of the regatta equipment had to be of a makeshift variety, the general program was carried out with despatch and the closeness of most races held the keen interest of the spectators throughout.

John Kitson, who was a valued member of the Kelowna Aquatic Assn. for many years, had the main responsibility for the organizing of this Junior Regatta.

He is now a Summerland resident, a staff member of the tree fruits and fruit products laboratory at the experimental station.

As Summerland swimmers have had little opportunity for swim race lessons, the visiting competitors outshone them in most cases. But a few good prospects were unearthed on Wednesday to indicate there is plenty of swimming talent here if given proper coaching and encouragement.

## Preliminary Estimates to Be Obtained

Sanction of municipal council was given on Tuesday to a proposal that Engineer R. A. Barton of Penticton be authorized to prepare a preliminary estimate of the cost of surveying a drainage area in the general district bounded by the Station and Prairie Valley roads.

This is the next step following submission of a petition from a number of residents in that area who wish a drainage scheme operating.

Deepening of Prairie Creek and the installation of fairly deep drains would probably be necessary to do a proper job, council considers.

Amount of water to be drained from neighboring land through these ditches this year would be less than usual, he also pointed out. Mr. Monroe will be told that the council has no legal responsibility in this matter.

## Ellison Hall Can be Used

There is no reason why the proposed Canadian Rangers cannot occupy Ellison hall for parades, provincial fire marshals has informed municipal council in answer to a query, provided the hall capacity is not exceeded.

## Hospital Service Enquiry Board Will Meet Here

At 10 o'clock on Wednesday morning, August 8, the board of enquiry set up by the provincial legislature to enquire into the B.C. Hospital Insurance Service, will convene a session at Summerland General hospital.

## Bought Truck for \$200; Ask Council To Ratify Deal

Reeve C. E. Bentley and Councillor Francis Steuart, head of the roads department, were faced with a problem last week. The old trailer generally used to move the dragline from the crushed rock pit to the shale pit broke down and was found to be beyond repair.

### THANKS COUNCIL FOR SURFACING HILL ROAD

Summerland General hospital has forwarded a letter of appreciation to the municipal council for the hard surfacing of the hospital hill.

### SALVATION ARMY GRANT

Usual annual grant of \$25 has been passed by council for payment to Salvation Army charity work.

## Editorial

### The Okanagan is En Fete

YESTERDAY marked the first of a number of summer attractions which will be held before crowds in many Okanagan cities.

Summerland's first junior regatta was a success from many standpoints and points the way to a gradual building up over the years until a major event can be scheduled for this centre.

Today the North Okanagan regatta is being held at Okanagan Landing. These two minor regattas are previews of the biggest regatta of all, the Kelowna International Regatta which this year will be held on August 2, 3 and 4.

The premier swim event in Western Canada will follow an altered pattern this year, as it will be a three-day event with the windup on Saturday. In

latter years it was held on Wednesday and Thursday.

Later in August will come the celebrated Vernon days and then the premier event in the South Okanagan, the Penticton and District Peach Festival.

These are attractions which will bring thousands of visitors to the Okanagan, will circulate thousands of new dollars in the valley and will add to the general publicity which is of so much value to the entire area.

The Okanagan in summertime is a gala spot, indeed. Let each and every one of us make certain that we extend that extra bit of hospitality to visitors who will take away a better impression of all of us because of such a courtesy.

### Why Was Kelowna Chosen?

WHY, asks the Kelowna Courier, was the Kelowna Regatta singled out for prosecution? And well may the question be asked.

Throughout this province countless hundreds of raffles and contests are being held, mostly in the name of community or charitable benefits. Hundreds of worthy causes are being assisted by this means.

But now, the attorney-general of this province singles out the most widely publicized event in the province to hold up as a "horrible example" for prosecution.

Kelowna Regatta officials made every attempt to keep within legal bounds. They did not perpetrate an out and out raffle, but decided on a guessing contest, coupled with an admission ticket to the big aquatic event.

Other big events in the Okanagan did not even attempt such a camouflage, but merely gave prizes to the lucky holders of winning numbers, also coupled with admission tickets.

For years, the New Westminster Rotary Club has operated a barrel guessing contest, placing a barrel in the Fraser River and issuing tickets to guess the time of arrival of the barrel.

What difference is there between the Kelowna Regatta's guessing contest and that of the New Westminster service club?

The whole hopeless situation in this province concerning raffles and contests is pointed up by Attorney-General Wismer's discriminatory action in bringing one prominent event into court. The inadequacy of present laws to cope with the situation is amply shown.

No wonder Kelowna is asking: "Why was the Regatta singled out by the A-G?"

## Signifying Nothing *By* RUSTICUS

Every time I pay a visit to the United States I am struck by the wistful respect which our neighbors have for our Canadian way of life.

It's true many Canadians envy those who live in the United States, too; their cheaper cars, clothes and above all the greater amount of money that seems to be floating around there. But the only real value of money and the things it buys is to bring a person happiness and content. And a great many Americans, despite their wealth, seem always restless and discontented, always seeking something new to do. Canadians seem to have much more stability and contentedness, despite their comparative lack of the green stuff which we all worship.

"No use building a fireplace into a house down here, except for looks," an American contractor remarked. "Folks down here don't stay home enough to really use one. Up in Canada now, people are more settled and enjoy their homes more; fireplaces are all right for you."

And when lately we drove into the American part of the Okanagan, a stranger approached us with the ready friendliness which is one of the many admirable things about our neighbors, and in the course of conversation asked hopefully:

"Are there many old vintage cars hidden away in garages up there in Canada? Models before 1920 are worth a lot of money here for antiques, but there aren't many left, because as soon as we get finished with a car we bust it up and do something with the scrap. I thought maybe up there, where people aren't always in such a rush about things, there might be quite a few sitting around . . ."

Sadly I disillusioned him. "Oh well, it doesn't matter. Guess they would be kind of scarce everywhere. But you know, we notice the way you people take time to enjoy life, instead of always tearing around like we do. . ."

"Maybe we can't afford to," I suggested.

"You can afford to just as well we can. We make more money, maybe, but we spend it fast, too; sometimes I wonder just what we get for it."

Sometimes I wonder that too, for I always notice that the American side of our valley looks less prosperous than our own. (A short pause here for everyone to sing a song of praise for B.C. Tree Fruits, who haven't been getting much praise lately.)

American roads are better, though—still. Not better than our best, indeed; our Hope-Princeton and recently-made sections of the

valley highway, compare well with anything. But on even the poorer American paved roads there doesn't seem to be the roughness and unexpected potholes that you find on ours. We ran into one section near Osoyoos where the sign "Road Under Construction" should have had the last word changed to "Destruction." Also, dangerous places or American highways seem to be much better protected than ours, with fences of stout posts connected by steel cable. There are a whole lot of places on our British Columbia roads where such safeguards are badly needed.

Most surprising thing we saw on our trip had to do with roads, and, as is often the case, was only a few miles from home. On the lake-shore highway between Penticton and Trout Creek, on our way back, we were startled to see what looked like a shaggy brown bear come whipping round a corner several feet in the air. Turned out to be a big circular bristle brush mounted in front of a tractor, like a bulldozer blade; something we had never seen before.

There was road-building equipment following it, so maybe they are going to sweep our highways clean with it. But I still think they should fill the holes and build the safety fences first.

Thursday. There will be thirty prizes for flowers; twenty for embroidery, knitting and fancy work; seventeen for cooking; and twelve for fruit and vegetable displays. There will also be other prizes for manual training work and other school projects.

The Pentowna has been taken off her run for a time as it was discovered that one of her propeller shafts was tight, which interfered with the operation of one of the engines and took away from her speed. The boat is in drydock at Okanagan Landing.

Yale is to have a three-cornered contest in the dominion election campaign as Col. C. E. Edgett, Liberal in the last campaign has announced he will contest as an Independent. F. B. Condit of Vernon was chosen by Yale Liberals at a meeting held in Penticton.

It has been announced by the department of education this week that only half of the candidates writing junior matriculation have passed.

Miss Sylvia Washington entertained some fifty friends in honor of Miss Thelma Howell whose marriage to Mr. Reginald Nowport takes place on Saturday. The bride-elect received many beautiful gifts presented by Miss Doris Jackson dressed as a commercial traveller representing the firm of which the bridegroom-to-be is an employee.

### THIRTY YEARS AGO July 20, 1921

Several thousand dollars loss will result to the fruit growers from an unprecedented hail storm which hit part of Summerland district. A careful estimate by the Fruit Union of the actual loss suffered places the total loss on apples at not more than \$15,000.

W. H. Hayes was re-elected president of the Summerland Storage Co. at a meeting of the shareholders on Monday. Major E. E. Hutton was re-elected vice-president. Messrs. Hayes, Hutton, Simpson Zimmerman, Helmer and G. Thorber were re-elected directors, with P. G. Dodwell, a new director, filling the vacancy caused by resignation of S. M. Young.

G. H. Inglis & Co. report sale of the Thomas Whitfield property to Mr. Farrow who recently arrived from Vancouver. While driving her car down the

hill at her home, Miss Sinclair had the unpleasant experience of having the car turn over on its side, but fortunately escaped with only minor injuries.

Yellow Transparent apple picking should commence this week. Sneed and Alexander peaches are being shipped in small lots. The cherry season is about over. Lambert and Olivet picking should be about finished this week. Apricot picking will be general next week.

### TWENTY-FIVE YEARS AGO July 30, 1926

Grote Stirling of Kelowna, victorious Conservative candidate in Yale during the past two campaigns, was again the unanimous choice of Conservatives of the constituency at a convention in Steward's Hall, Penticton.

The Women's Institute and the Horticultural Society will present an exhibition and flower show next

## PORTRAITS

Roy Mason White

Roy Mason White, known to his friends as "R. M." came here to live three years ago next month. In the meantime he has changed his home acre in Peach Orchard into a small experimental farm, for here he is hybridizing iris and trying for new and lovelier specimens.

Mr. White is entitled to carry quite a section of the alphabet around with him . . . MM and Bar, MSc, BSA, and FRHS are his qualifications.

He was born at Darlingford, Man. His father, W. C. White, was a farmer who had Shorthorn cattle and grew grain.

His early education was at Morden high school. At the University of Manitoba he graduated with a BSA degree having majored in entomology, animal husbandry and horticulture, and has achieved some distinction in all three since that time.

World War I broke in on his university studies and he was out of school for twelve years. He was overseas with the 27th Winnipeg Battalion. During thirty-three months in France he was wounded three times and decorated with the MM and Bar.

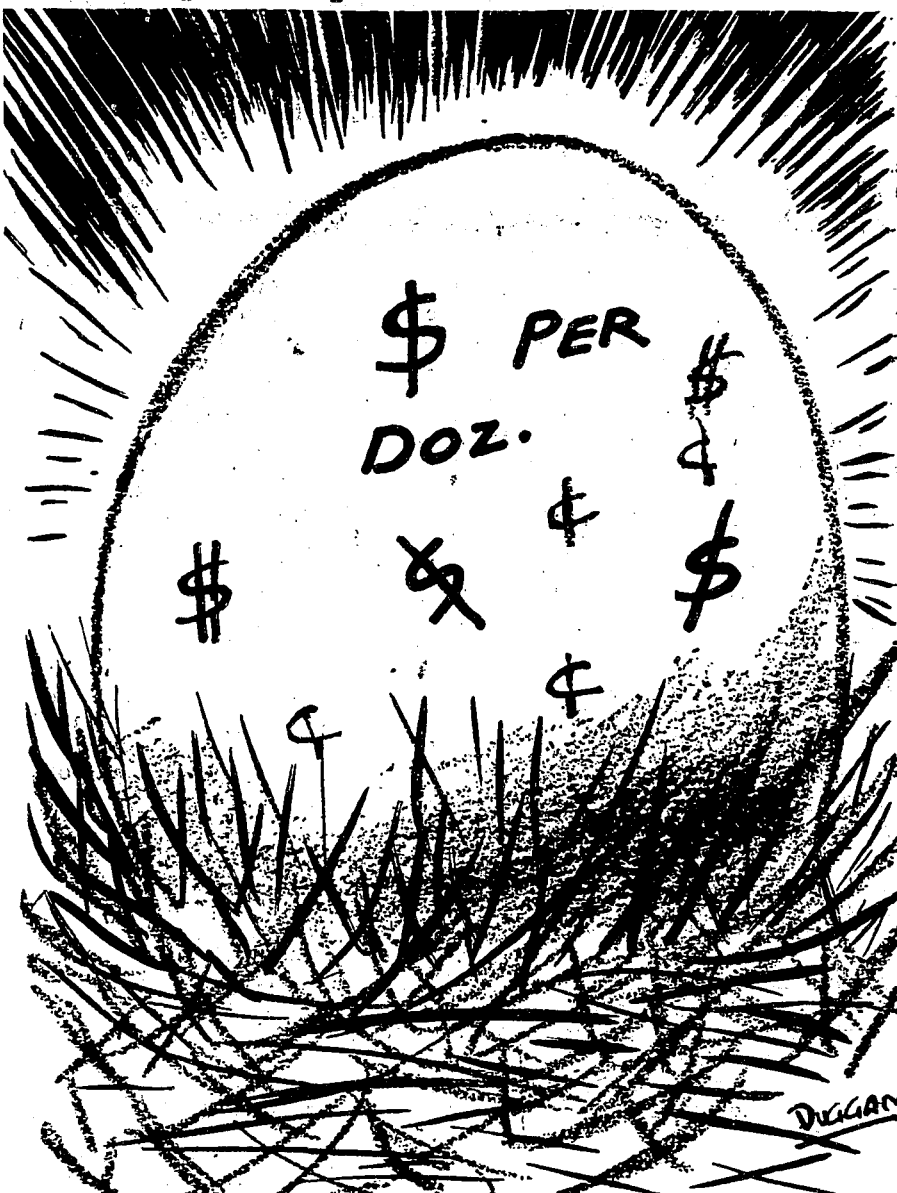

Back in Canada he served on the Soldiers' Settlement Board in Manitoba for a year and a half; was on his father's farm for some time; then back to college.

He took his MSc degree from McGill in entomology. In 1922 he was appointed to the

entomological branch of the federal department of agriculture in Manitoba, and stationed at Treeshan under the outstanding naturalist, Mr. Norman Criddle. He considers it a privilege to have worked

## Cheaper by the Dozen

### NO LONGER A FAIRY TALE

with Mr. Criddle who was highly specialized in all the diverse and broader aspects of nature.

Mr. White's paper on "The effect of defoliation of wheat by grasshoppers" won wide recognition as an authoritative treatise on this important subject.

From 1931-1948 he was at the entomological lab at Lethbridge in charge of grasshopper research for the province, and collaborated to write on "Grasshoppers of Alberta".

His findings are ready to be printed on the 'Melanoplus mexicanus mexicanus' (Saus.) the common name of which is the Lesser Migratory Grasshopper, believed to be the non-migratory form of the Rocky Mountain locust, 'Melanoplus spretus'.

In the field of animal husbandry he was on a stock judging team at Toronto Winter Fair in 1923 when he won a gold medal for judging Shorthorns, and he was on a similar team at Chicago Winter Fair. He is a fellow of the Royal Hor-

ticultural Society, a member of the American Rose Society, and a member of the American Iris Society. Locally, of course, he belongs to the horticultural society.

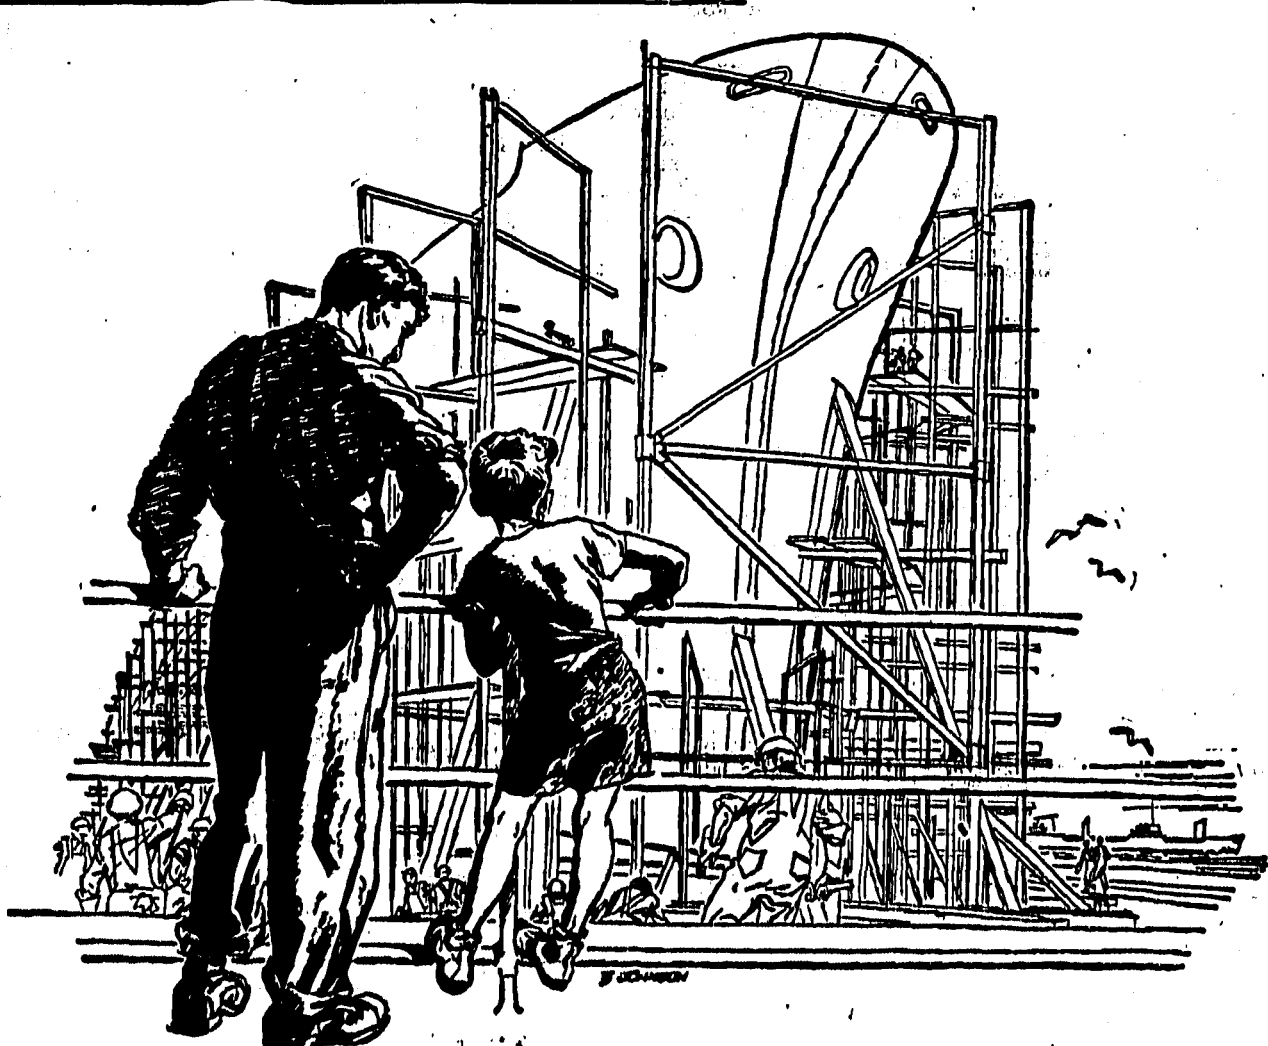

He has other hobbies, too, and has been a curler and a golfer. When he was really playing golf, one time he drove twenty-five miles to the course, did sixty-four holes, and drove back the twenty-five miles. He takes it easier now. He likes to play bridge, too.

He has always been primarily interested in growing flowers, and as soon as he joined the federal service he had a bit of time for it. Mr. Criddle was a great gardener and encouraged him in his beginnings.

In 1940 he "fell" for iris. Flowers are his recreation and when he thought of his retirement from the government service he looked around for a pleasant place to live where he could carry on his iris

## OIL MAKES A COUNTRY STRONG

### "OIL NEEDS A LOT OF THINGS, JIMMY!"

"Tankers, Jimmy, are just one of the things the oil business needs. It needs supplies for pipe lines and new refineries. It needs tank cars and trucks and storage tanks. It needs workers and material from all parts of Canada."

Bringing you oil is a big job. It employs labor and skills and ideas across the nation. In the past five years Imperial Oil alone has undertaken to invest more than \$200 millions—about \$60 for every family in Canada. Much of this money has been spent to find and develop new oil fields in the prairies, fields which mean new prosperity and new security for all Canada. But almost half of it has been invested in new tankers and pipe lines, in new refining units and in facilities to bring the products to you.

With oil playing an increasingly important part in our daily lives, the oil industry's job is bringing new strength and better living for Canadians everywhere.

# Shortage of Milk Production In B.C. Reaches Alarming Stage

The shortage of milk production in British Columbia is now reaching the "alarming" stage, states Everard Clarke, manager of the SODICA co-operative in the North Okanagan. There are many examples to show that dairy farmers throughout the province have reduced their herds. One glaring instance is the production of butter for June 1951. The figures have just been released by the Dairy Branch at Victoria.

The decrease in butter made in June this year in British Columbia is 53 per cent. Last year the province made 644,943 pounds of butter in June. This year only 304,452 pounds were made. The butter shortage in one month is equal to 17 railway freight carloads of butter. The shortage for the year is 1,200,000 pounds in B.C. This is more than 60 carloads of butter.

But, the butter shortage is the smaller part of this grim picture. Butter manufacturing is not extensively carried on in British Columbia. Ordinarily this province makes a mere 18 to 20 per cent of the butter consumed. It imports the major proportion of this butter.

More than 60 per cent of all milk in B.C. is consumed on the fluid milk market. Owing to prolonged drought, and sales of cows for slaughtering, the province is certain to be very short of fresh fluid milk this fall. In this respect it will not be different from any other part of Canada.

According to a reliable source in Vancouver there was a decrease of 60,000 pounds of milk in one day last week. This is a shortage of 30 tons of milk in a day. It means that the shortage would be 300 tons in ten days or nearly 1,000 tons of milk in a month. (nearly 1 million quarts). This is for the production of the Fraser Valley only and going into the Greater Vancouver market.

Here in the Okanagan milk production is lower than last year. The plant in Vernon is getting 1 ton of milk per day less than last year from the same farmers. The Vernon co-operative association has 26 more shippers than it had at this time last year. This is owing to the amalgamation with co-operative Kelowna farmers. The total fluid milk handled by the association, including Kelowna members, is higher than a year ago.  
As to prices paid to producers,

these are better than last year in all departments, except fluid milk. Cream producers are receiving 8 cents per pound butterfat more. Fluid milk producers are receiving 75 cents for their milk used in such products as homogenized cream, ice cream, etc. They are also receiving 8 cents more for the portion of their production going into butter, a small part of June and probably very little for the balance of the year.

In spite of better returns the output of dairy herds is drastically down. Those in closest position to the situation think it is the result of a number of factors. Last summer was dry and hay crops were reduced. This caused the farmers to cut down on their herds. The farm-labor shortage is acute. Farmers are closely inspected and requirements are very demanding to qualify to ship fluid milk. This year there was a late dry spring. Beef prices are higher. More dairy cattle were sold.

The trend to production of less dairy products is Dominion wide. As an example of this, both butter and cheese stocks in Canada are far lower than at this time last year. On July 1st Canada had 18 million pounds "less" butter on hand and 12 million pounds "less" cheese than at the same date last year. These figures are from the Dominion Bureau of Statistics. It also reports that the eggs put in storage were 70 percent less than last year, and the total stocks of dressed poultry on hand in Canada on July 1st were 4 million pounds less than last year.

## LOCAL NAVY LADS TO GO TO KOREA

Two Summerland youths will be bound for Korean waters soon when HMCS Athabasca sails from a west coast port. AE David Turnbull is home on leave this week and will report to the Athabasca on his return to the coast. AE Harry Ruppel, who has just completed his basic training in the Royal Canadian Navy, is also a member of the Athabasca's crew.

## Former Peace River Residents to Gather

The Peace River Association, formed last year, will hold its second annual get-together on Sunday, August 5th, at "The Spot" on Woods' Lake. The occasion will be in the form of a picnic, with races for the kids. Participants will bring lunches, but coffee can be obtained on the grounds. Boats will be available for those who desire a skim over the lake. All former residents of the Peace River are expected to attend. Officers will be elected.

## Visit Here in Fall

New Rotary Governor Sid Woodcock of Couer d'Alene, Idaho, will probably visit Summerland Rotary in October. Past President Francis Steuart informed the local Rotary club on Friday night at the Nu-Way Annex. Mr. Steuart was reporting on the

successful Rotary district president and secretaries conference held recently in Spokane and attended by himself and new President Reid Johnston.

# NOTICE

After July 31st, 1951, it will be an offence under the "Fire Marshall's Regulations" to burn any material of any kind in a barrel-type incinerator unless the same is approved by the Fire Chief. This order applies to the residential and commercial buildings within the West Summerland business area.

E. E. Gould,  
Fire Chief

6th in a series to bring you the facts about your Hospital Insurance plan

# WHAT ABOUT PRIVATE HOSPITAL INSURANCE PLANS?

Many people have asked, "Why don't private hospital insurance plans operate in B.C.?"

Private hospital insurance plans do not operate in B.C. because they can not match B.C.H.I.S. services for the same low premium. When the government introduced Hospital Insurance, provision was made whereby any existing plan could continue operation providing it could give equal benefits and coverage. Private plans could not do this and as a result left the field.

When comparisons are made between B.C.H.I.S. and private plans, it is often forgotten that B.C.H.I.S. covers everyone, and seldom remembered that private plans were restricted in services and in membership. As a result, their benefits were limited to certain groups. In most cases, private plans select the people they will insure, and limit what they will cover.

For example, many private plans do not insure against the re-occurrence of a previous ailment, nor insure anyone over a certain age. This feature automatically excludes a large number of people. Private plans did a good job as far as they went, but they didn't go far enough. They were not designed to meet the needs of the people of B.C.

The people of B.C. needed a Hospital Insurance plan. Before B.C.H.I.S. started in 1949, nearly one out of every three persons could not pay his hospital bill. Many hospitals were losing money and cities, municipalities and the provincial government had to give cash grants to keep them in operation. Something had to be worked out to protect the people from high hospital bills, and at the same time help the hospitals. B.C.H.I.S. was the answer. B.C. citizens can now enjoy protection against large hospital bills for acute care.

Some people have said, "Give the Hospital Insurance plan back to the private plans", without considering that private plans operated before B.C.H.I.S. They operated in the midst of the conditions which made B.C.H.I.S. necessary. They didn't solve the overall situation in 1948, and they wouldn't solve it now. Private plans were good as far as they went, but they didn't go far enough to solve B.C.'s problems. To return to private plans would mean a return to conditions similar to those of 1948.

It's true that B.C.H.I.S. premiums have increased, but private plans could not have kept their premiums down in the face of rising hospital costs. If they were still in operation and giving similar coverage, their premiums would most likely be more than those now charged by B.C.H.I.S.

B.C.H.I.S. has accomplished its major objectives. People may now have protection against large hospital bills for acute care, and the hospitals are now in a position to operate on a sound financial basis.

Next week, we will discuss "What about the different hospital public ward rates?"

Be sure to read these messages. They deal with your Hospital Insurance plan—a plan which has already paid over \$40,000,000 for more than 500,000 hospital cases, and is providing benefits for thousands more each month.

Dr. Sharman, director of research for the Imperial Tobacco Co. of Great Britain and Ireland was a visitor at the Dominion Plant Pathology Laboratory here on Tuesday. Dr. Sharman was here because of his interest in the work done at the laboratory on trace element deficiency. While in Summerland the visitor from England was a guest at the home of Dr. and Mrs. C. G. Woodbridge.

### William Downton Is installed as IOOF Grand Patriarch

Grand Patriarch of Okanagan Encampment No. 6, IOOF is William Downton, of Summerland, who was installed at special services at Penticton on Wednesday, July 18.

The installing team consisted of DDGP Doug Barnes, DDGHE A. K. McLean, DDGW J. G. Reid, DD-GJW W. Manning, DDG Scribe R. Faulkner, DDG Treasurer J. Dunsdon Sr., DDGIG, Al Everett and DDGOG John Khalembach.

Other officers installed included: High priest, J. Sinclair, Penticton; senior warden, E. Gillespie; junior warden, H. Jones, Penticton; inside guard, J. Raincock; outer guard, A. Everett, Penticton; recording scribe, S. Penty, Penticton; treasurer, Les Gibbard, Penticton; financial scribe, P. Kinkade, Penticton; first watch, J. Dunsdon Sr.; second watch, D. Nield; third watch, Carl Anderson, Penticton; fourth watch, J. Khalembach; 1st guard tent, R. McLachlan; 2nd guard tent, A. Schoening, Penticton; junior past chief patriarch, Joe Sather, Penticton.

### CULVERT WAS REALLY JAMMED

Four planks measuring four feet in length, two 12 by 12 timbers about 2½ feet long, an apple stump and numerous smaller scraps were removed by an improvised scarifier from the culvert across the road near the C. A. Gayton property, Councillor Francis Stewart related to a surprised council on Tuesday.

Needless to say, the culvert is now allowing quite a quantity of water through without any trouble.

### VISITING HERE

Mrs. W. Harper and her three children of Vancouver are spending a month, guests at the home of her parents, Mr. and Mrs. W. Borton.

Mr. and Mrs. Howard Daniels and Mr. and Mrs. Elmer Daniels and their son visited Mrs. Dale and Miss Ruth Dale and other friends here last week.

Miss Louise Haar and her brother John Haar of Vancouver are visiting at the home of their uncle and aunt, Mr. and Mrs. Dewey Sanborn, Crescent Beach.

Mr. Ian MacDonald and Dr. Chambers of New Westminster visited at the home of the former's aunt, Mrs. C. J. Amm, last weekend.

Mr. and Mrs. Bill DePlonty and their daughter Shirley of Kelowna spent a few days last week at the home of Mrs. DePlonty's brother and sister-in-law, Mr. and Mrs. Chuck Stump.

Mr. and Mrs. W. G. Corns of Vancouver are visiting the former's father, Mr. A. H. Corns. Mr. W. G. Corns joined the Summerland Band in its concert at the park playground last night.

ABSM Don Healy visited his parents, Mr. and Mrs. Frank Healy for a few days in the past week, en route to his new posting in the Royal Canadian Navy at HMCS Griffin at Port Arthur, Ont.

LAC V. L. Borton who has been stationed at Tofino, B.C., spent the weekend at the home of his parents, Mr. and Mrs. W. W. Borton, leaving to go to Sea Island where he has been transferred.

### Many Hikers Take Snow Mt. Jaunt

Three parties went to Snow Mountain last Sunday and enjoyed the unparalleled view from the 7,200-foot peak. Mr. and Mrs. N. O. Solly and Geoffrey were in the first party to reach the top.

Dr. James Marshall, his two daughters Mary and Margaret, Mr. and Mrs. Walter Charles and Doug, Miss Rosalie Smith and Miss Elsie Hack comprised another group of hikers.

Mr. and Mrs. G. Van Driel and a party of Dutch friends from this district were in the third group.

### SHUTDOWN TO REPLACE DAMAGED INSULATORS

Tuesday's electric shutdown in early morning was caused by the West Kootenay crew replacing insulators damaged by the recent lightning storm. Power was off for over an hour while the ravages of the storm were repaired.

# CIVIL DEFENCE

LEARN—AND LIVE

## GAS AND GERM WARFARE

These two types of attack are not new although germ warfare has been used on a limited scale up until now. Both are designed to destroy people, livestock and even crops. If gas is not fatal, it will incapacitate soldiers and home front workers for long periods. Apart from this gas attack causes panic, which is what an enemy desires.

### GAS WARFARE—

While gas warfare does not present as much danger as atomic attack it can be serious if weather conditions are favourable, depending on wind temperature and degree of moisture. The nature of the terrain has much to do with the success of the attack. Open country allows free movement while built up areas tend to retain gas. The three most effective gases are Choking, Blister and Nerve Gas. Any of these may be distributed as vapor, as solid particles or by the process of liquid droplets.

In the case of gas attack, keep your respirator handy, make sure it is always in good condition, practice putting it on quickly, do not touch any food or water in open containers.

After a gas attack liquid and mud picked up on footwear is still dangerous material as are the vapors arising from liquid on the ground. First remove as much of danger as possible by hosing contaminated areas and where destruction has taken place cover with chemical bleach and earth. Seal off suspected areas with three inches of earth, sand or ashes. Where droplets or vapor have been used all equipment should be exposed to weathering from sun, wind and rain.

### GERM WARFARE—

Germ warfare presents new problems in civilian and military defence. It can be carried out by air in the form of mist sprays, from submarines through mist machines, by percussion bombs and by fifth column poisoning of food and water supplies.

Because germ and toxin attacks can sometimes be carried out secretly, defence is difficult. However, there are things you must do to lessen the chance of success of this type of warfare. First of all don't listen to rumours about germs, because that is what the enemy are trying to create . . . panic.

Above all report any unusual sickness among humans, animals and poultry. Keep your house clean at all times and if there is a raid don't run out from shelter immediately after.

Watch for another bulletin next week.

## Principals of Pretty Midsummer Wedding to Reside in Summerland

A pretty midsummer wedding took place in the Free Methodist church, West Summerland, on Monday afternoon, July 23, at five o'clock, when Rev. Mr. Vorath, pastor of the American Lutheran church, Kelowna, came to unite Hilda Ruth, daughter of Mrs. Wilhelmina Thomas and the late Mr. Thomas with John Schram, son of Mr. and Mrs. Peter Schram of Goodeve, Sask.

Arrangements of white daisies, deep pink hollyhocks and baby's breath beautifully decorated the church for the service.

The bride was given in marriage by her brother-in-law, Mr. Victor E. Horrocks of Edmonton, and wore a lovely bridal gown of white net over taffeta fashioned on princess lines. The fitted bodice had a sweetheart neckline with long sleeves having lily points over the hands. The skirt was in bouffant style, and the long full net veil fell into a train. On her head was a little crown of pearls and in her wedding bouquet were red and white roses, and from it fell white ribbon streamers.

There were four attendants at the wedding. Mrs. Joseph Engel of Melville, Sask., a school friend of the bride, was matron of honor and Miss Elizabeth Seibert of Oliver and Miss Winnifred Schmidt West Summerland, were bridesmaids, while the bride's little six-year-old niece, Carol Ann Horrocks

of Edmonton was flower girl. All the senior attendants wore gowns of similar design, with fitted bodices buttoned at the back to the waist, featuring off-the-shoulder necklines, and full skirts. Mrs. Engel's was of mauve taffeta, Miss Seibert's of pale blue net embellished with a lily-of-the-valley pattern, and Miss Schmidt's of pale pink net with the same flower design. Each wore a bandeau to match her costume with pearls interwoven. Their flowers were in a horse-shoe and were of white carnations, pink roses and ribbons with pale blue forget-me-nots.

The flower girl's floor-length frock was of nylon and net, ruffled at the neck and sleeves, and she wore a headdress of a net ruffle and ribbon. She carried a white basket of pink roses and scattered rose petals in the bride's path.

The best man was the bride's brother, Mr. E. Boby, West Summerland, and ushers were Mr. W. Likel, and Mr. Fred Hollinger.

Mrs. Fred Schmidt played the wedding music.

A reception for over one hundred and twenty guests was held in the Oddfellows' hall, West Summerland, where Mrs. Thomas received in a becoming navy flowered sheer with a lovely corsage of white roses. Mrs. Schram, the groom's mother, was attired in an attractive grey crepe ensemble with pink roses in her corsage.

Streamers, wedding bells, gypsophila, pink hollyhocks and blue cornflowers decorated the room, and a three-tiered wedding-cake was on the bride's table. Summer bouquets flanked the cake which had pillars of white swans to support each storey, and on the top of which were two doves each bearing a ring.

Pastor Vorath acted as master of ceremonies and proposed the toast to the bride, to which both the bride and groom responded. Others who spoke were Mr. E. Boby, the bride's brother, the bride's brother-in-law, Mr. Carl Seibert, Mr. Weber, an old friend of the family from Melville, Sask., Mrs. Seibert, Mrs. Sheldrake, Mr. Heichert, Mr. Daum of Kelowna and Mr. Victor Horrocks.

A number of old bridal customs were observed at the reception and dancing was enjoyed with music from Knobloch's trio from Peachland.

For going-away on a motor honeymoon the bride changed to a white flowered nylon net frock and white straw hat and roses in corsage.

The happy couple will make their home at West Summerland.

Out-of-town guests were groom's parents, Mr. and Mrs. Peter Schram, Goodeve, Sask.; Mr. and Mrs. J. Engel, Miss Hilda Ottenbreit, Mr. Weber, all of Melville, Sask.; the bride's brother-in-law and sister and niece, Mr. and Mrs. Victor E. Horrocks and Carol Ann of Edmonton, Alta.; Mr. and Mrs. Jack Litzberger and family, Enderby; Mr. and Mrs. Daum, Kelowna; Mr. and Mrs. Jack Dorwart and daughter; Mrs. Stefan, Sr., Mr. and Mrs. E. Steffen, Mr. and Mrs. Carl Seibert, Miss Elizabeth Seibert, Mr. and Mrs. Charlie Thomas, of Oliver; Mr. and Mrs. John Knobloch and Clarence, and their son-in-law and daughter, Peachland.

### HOME AGAIN

Mrs. Gordon Young has returned from a two weeks' holiday at her former home in Creston.

Mr. and Mrs. Jimmie Thompson have returned from the prairies and are making their home here again. Mr. Thompson is employed at the Occidental Fruit Co.

Mr. and Mrs. Cecil Wade and Mr. and Mrs. Walter Toeva returned on Tuesday from a motor trip to Revelstoke, down the Arrow Lakes on the CPR boat as Minto, to Trail, where they spent the weekend visiting friends.

LACE EDGES this blouse in white rayon crepe and pearl buttons run from the tiny collar to waistline. A cool and perfect complement to a summer skirt.

### Ontario Man Dies Suddenly on Trip

Floyd Moyer of Elmira, Ontario, died about nine o'clock on Sunday morning, July 22, at Summerland Auto Court.

The deceased man was stricken with a heart attack and died almost immediately. He had been suffering from heart trouble for several years.

Mr. Moyer, his wife, son and daughter, were on a holiday motor trip to the coast. They were just ready to leave Summerland when he was taken ill and died. He was about sixty years of age.

Mr. and Mrs. W. H. Hamilton, the former manager of the Canadian Bank of Commerce Douglas and Cormorant branch, Victoria, accompanied by Mr. Rob Roy McGregor, B.C. manager for Gooderham & Worts, were visitors to Summerland recently.

### VISITING HERE

Miss Irene Church of Chilliwack, is a guest at the home of Mr. and Mrs. E. E. Campbell.

Mrs. Doug Gordon and her son Kennie are visiting at the home of Mr. and Mrs. Chuck Stump.

Mr. and Mrs. Lundy of Vancouver are vacationing for two weeks at the home of Mr. and Mrs. Walter Bleasdale.

Mr. and Mrs. E. Barr Hall of Princeton are spending the summer holidays at their Trout Creek lakeshore home.

Miss Dorothy Blazeko of Regina is visiting her uncle and aunt, Mr. and Mrs. Steve Blazeko for two weeks' holiday.

Mr. and Mrs. Charlie Dodwell, their small son and daughter, are holidaying at Crescent Beach from their home in Vancouver.

Miss Joan Bennett is spending the remainder of the summer vacation at the home of her parents, Mr. and Mrs. E. H. Bennett.

Mr. and Mrs. J. Porter and family of Winfield were Sunday visitors at the home of Mr. and Mrs. G. Gunnarson.

Mr. and Mrs. A. Bates of Los Angeles, Cal., are guests of Rev. and Mrs. D. O. Knipfel. Mr. and Mrs. Bates are Mrs. Knipfel's uncle and aunt.

Mr. and Mrs. L. M. Perkins of Brandon, Man., who were en route to Victoria, stopped off last week to visit at the home of Miss Mary Scott, Peach Orchard.

Mr. and Mrs. Phil Scurrah of Victoria, former residents, called on old friends in Summerland last week, while visiting at the home of Mr. Bob Scurrah in Penticton.

Miss Joyce Elsey who has been holidaying in the Cariboo is at the home of her parents, Mr. and Mrs. C. H. Elsey, to spend the remainder of the school holidays here.

Mr. and Mrs. H. A. Miller of Princeton visited on Sunday at the home of the former's parents, Mr. and Mrs. F. A. Miller, Crescent Beach.

Miss Dorothy Britton came from Vancouver at the beginning of the week to spend her vacation at the home of her parents, Mr. and Mrs. J. E. Britton, Peach Orchard.

### Mrs. Vernon Charles' Home Pretty Setting For Surprise Shower

Wednesday evening, July 18, the Peach Orchard home of Mrs. Vernon Charles was prettily decorated with roses and sweet peas in honor of Miss Hilda Thomas, whose marriage to Mr. J. Schram took place on Monday.

Co-hostesses with Mrs. Charles were Mrs. M. Pollock, Mrs. G. Blewett and Mrs. J. Sheldrake.

The party was a miscellaneous surprise shower and the lovely gifts were on a lace-covered table.

Delicious refreshments were served and those invited were the bride's mother, Mrs. W. Thomas, Mrs. Frank Healy, Mrs. F. Tilbe, Mrs. J. VanGameron, Mrs. W. A. Caldwell, Mrs. Advocaat, Mrs. George Woitte, Mrs. Walter Charles, Mrs. Lawrence Charles, Mrs. H. Pohlmann, Mrs. Gordon Pohlmann, Mrs. J. J. Blewett, Mrs. Martin, Mrs. C. Adams, Mrs. J. E. Britton, Mrs. R. M. White, Miss Mary Scott, Mrs. Tyacke, Miss Joyce Healy, Miss Mary Wolfer, Miss Marina Martin and Miss Phyllis Adams.

### MRS. MALTON WAS GYPSY FORTUNE TELLER AT PARTY

The name of Mrs. M. Malton as the gypsy fortune teller at St. Stephen's Evening branch WA garden party was inadvertently omitted from last week's paper.

### NEW ARRIVALS

A baby girl was born to Mr. and Mrs. Roy Wellwood on Friday, July 20, at Summerland General hospital.

Guests at the Trout Creek home of Dr. and Mrs. L. A. Day last week and over the weekend were the former's nephew, Dr. A. R. Patterson and his daughter, Marion, of Vancouver; Dr. and Mrs. G. A. C. Walley of Vancouver; Mr. and Mrs. Harold Jackson of Spokane, and Mr. and Mrs. Peter Colquhoun and their daughter, Janice, of Kelowna.

### VISITING ABROAD

Mr. and Mrs. George Henry are spending their summer vacation at the coast.

RCMP Constable and Mrs. I. G. Thorsteinson are spending a brief motoring holiday in Spokane.

Mr. and Mrs. Ken Boothe and family left on Saturday for a holiday at the coast.

Mr. and Mrs. N. O. Solly left on Tuesday for a week's holiday at Yellowstone National Park.

Mr. Roy Wellwood and three of his children left last weekend for a short trip to Vancouver. They are expected home today.

Mr. and Mrs. A. F. Bryden and Earl left on Tuesday morning for a motoring holiday to Edmonton and other prairie points.

Mr. and Mrs. T. B. Lott and family motored to the coast this week. Mr. Lott will attend meetings of HEPP in Victoria next week.

Mr. and Mrs. R. Blayney, their daughter, Anne, and Mrs. Blayney's sister, Miss Emily Mayhew of Vancouver drove to Spokane last week for a few days' holiday.

Mr. and Mrs. J. Biollo and two sons, Harold and Freddie, left on Saturday for a three weeks' motoring holiday to eastern B.C., the Banff-Windermere highway and Edmonton, Alta.

Mrs. Dale and Miss Ruth Dale left on Saturday to motor to Vancouver. They expect to be away two or three weeks and possibly spend some time on Vancouver Island.

Mr. Peter Greer of the Summerland high school teaching staff, visited here last week after three weeks at Vancouver. He returned to the coast on Monday, accompanied by his wife and child.

Dr. and Mrs. C. G. Woodbridge left on Tuesday evening on their holidays to motor to Victoria. While in the capital city, Dr. Woodbridge will attend the sessions of the HEPP society. Others attending from the experimental station are Dr. M. Welsh and Mr. David McIntosh.

Mr. and Mrs. W. S. Nield drove to Vancouver at the beginning of the week with their son and daughter-in-law, Mr. and Mrs. Herbert Nield of Calgary, and their children who have been on vacation here. Mr. and Mrs. Nield will visit for a few days at the home of their son-in-law and daughter, Mr. and Mrs. R. Haar.

Mrs. A. J. Mann and Mrs. W. R. Foley-Bennett of Penticton are leaving this week on a trip to a rather remote spot out of Jasper, where they plan to spend two weeks sketching and photographing the beautiful scenery. Part of the time they will take horses for day trips in the mountains.

## Pay Yourself First When Pay-Day Comes

Key to Getting Ahead, Says B of M

A good many people hardly even get a look at their money on pay-day. Before they can say, "What do we owe?", it's all paid out to everybody but themselves. No one can do this for long without sinking neck-deep into a mass of money problems. Do they worry? They worry about bills to come and they worry about unexpected bills. Money is always on their mind, souring their pleasure in living. And, of course, cobwebs gather on their plans for the future.

The Bank of Montreal has lately come up with an answer to this state of affairs. It's Personal Planning, or "how to live within your income and enjoy it." Personal Planning is budget-planning with a plus. You see—ordinary budgets often turn out to be straight-jackets because they don't provide for a very important person, yourself.

There you have the plus in Personal Planning. It shows you how to draw up a 'budget-plan to meet your particular circumstances. It shows you how to pay yourself, too, on pay-day.

Ivor Solly, B of M manager at West Summerland, invites you to drop in for your copy of the bank's booklet about Personal Planning. There's no obligation—except to yourself.—Advt.

## MORE ABOUT— PORTRAITS

Continued From Page 2

growing and experimentation.

In 1910 he had visited his uncle, the Rev. Dr. McIntyre here; in 1932 he motored through the valley. His friend, Chester Neilson, provincial entomologist at Vernon further interested him in the Okanagan, and so did Ed Swales who spent a summer at the experimental station here.

Mr. White studied the meteorological records of the valley for years, and Summerland appealed to him.

The garden at the White home is developing all the time. A pretty rockery and rock bridge have been built utilizing the creek that flows behind the house. Here are the tiniest roses, Tom Thumb and saucy Red Imp. The garden extends away across the creek where there are lovely dahlias, pansies like rich shaded carpets, rose beds being started, "mums from England, and iris everywhere. Mr. White has his garden all right, and it has him! There is work enough to keep him busy all day.

His wife, the former Mary Patricia Knight of Brandon whom he married at Winnipeg twenty years ago, August 1, has to be careful of her health, but while she is leading a quiet life she does beautiful embroidery, and intricate and expert knitting. Many of the soft colors of the iris are registered in Mr. White's sox—maybe another form of collaboration!

And does he like it here, now that he is thoroughly settled? "He has just one answer to that, "You can't beat it!"

## Revive Hopes of Finding Lost Plans

Fifty miles north of Spokane, John McPeck, a farmer, has found a bit of metal aluminum, believed to be from an airplane.

This has led United States air force officials at McChord air base to search the area in the hope that the discovery may be a clue to the disappearance of an RCAF B25 plane in 1947 which took off from Penticton and was lost on a flight to Calgary.

This RCAF bomber was a photo survey plane with nine aboard, including Mr. and Mrs. Harry Knight, operators then of the Incola hotel in Penticton.

## Farms Service Director Here

Dr. S. Hopkins, director of the experimental farms service of the dominion department of agriculture, Ottawa, will visit the experimental station in Summerland tomorrow, Dr. R. C. Palmer, superintendent, announces.

Dr. Hopkins will tour the station and will address the Rotary Club of Summerland tomorrow evening.

It is eight years since a director of the farms service has visited Summerland and it is 15 years since Dr. Hopkins came west to the Okanagan, Dr. Palmer states.

Dr. Hopkins was made director of the experimental farms service within the past year and is now on a Western Canada tour of experimental farms and stations to acquaint himself with their growth and progress in the intervening period.

## CRANBROOK PASTOR COMES TO PENTECOST CHURCH HERE

Rev. and Mrs. C. W. Marshall have answered a call from Cranbrook and have arrived in Summerland to take charge of the Pentecostal church here. Rev. C. E. Preston and Mrs. Preston, who were in charge here have gone to Cranbrook for two weeks but their next pastorate is not known to date.

# Merchants on Playoff Trail; Jacobs Shuts out Mansfield

With Gil Jacobs showing complete mastery on the mound, a snappy, scrapping bunch of Merchants turned back Mansfield 3-0 last Sunday at Living Memorial athletic park in what was easily the best exhibition of baseball seen here this season.

Merchants played errorless ball to give Jacobs every support in his first shutout of the season. Not only was the game peppy but it also was the fastest contest of the year, taking over an hour and a half to complete.

By this victory, Merchants are still in the running for the fourth playoff spot, but the big hurdle is league-leading Omak who come to athletic park next Sunday afternoon.

If the Merchants can whip the Omak crew, then that playoff spot will not be nearly so far away.

Jacobs limited the Mansfield crew to three scattered singles while the Merchants were picking up six bingles, Taylor having a perfect three for three day and Kato turning in a .500 batting performance. The Merchants' port-sider whiffed seven Mansfield hickory wavers.

Soden, who was seen on the mound for Washington teams twenty years ago, started for Mansfield but was relieved by Bowers in the seventh. Merchants got four hits off Soden and two from Bowers, but all three runs were scored off Soden's deliveries.

### Kato's Winning Run

With two down in the first frame Kato walloped a long clout to left field for a triple, scoring on Taylor's single to count what proved to be the winning tally.

That should have been the only run as the Merchants next two were scored on Catcher Glessner's bad throw to third base.

In the fourth Kato singled for his second hit, went to second when Taylor was hit by a pitched ball and to third as Metcalfe's grounder retired Taylor at second. Glessner threw wildly to third to allow Kato to score and Metcalfe to advance to third where he scored on Gould's infield out.

BOX SCORE	AB	R	H	PO	A	E
Mansfield	4	0	0	3	0	0

Penticton	11	8	3	.727
Oliver	11	8	3	.727
Vernon	11	2	9	.181
Kelowna	11	1	10	.090

### Last Sunday's Results:

Oliver 7, Kamloops 3. Vernon 10, Kelowna 2.

## MERCHANTS BEAT RED SOX 16-2

Superior hitting power proved too much for the Red Sox as they tangled with their senior partners, the Merchants, in an exhibition game at Living Memorial athletic park on Wednesday night, July 18. Merchants were victorious 16-2.

Les Howard went the first four innings, when Brawner took over mound duties for the Merchants. Brawner, Disalet, a newcomer from Ontario and Bill Eyre tried their luck on the mound but couldn't stem the Merchants' tide.

## Annual Invitation Shoot this Sunday

Riflemen from many parts of the province are expected to converge on the Garnet Valley range of the Summerland Rifle club this Sunday for the annual invitational shoot held by this enterprising group.

Many interior points, including Kamloops, Vernon and Kelowna are expected to send their crack shots, while contingents from Vancouver may be present.

Spectators are welcomed by the local club for this shoot which is the annual highlight of the year's activities.

## No Place Like Home

CANADA'S TOURING DAVIS CUPPERS, Lorne Main (left) of Vancouver, Brendan Macken (centre) and Henri Rochon (right) of Montreal, arrived in Quebec City recently aboard the Empress of Canada. The trio had a terrific time overseas but admitted there's no place like home. They will meet Cuba in the Davis Cup match to be played in Montreal August 3, 4 and 5 at the Mount Royal Tennis Club.

## Playoff Spot Still Possible

Omak, leaders of the Okanogan International baseball league, come to Summerland next Sunday to play the Merchants in the second last game of the loop schedule.

Three Canadian teams, Summerland, Princeton and Penticton are knotted for fifth spot in the league standings, while Tonasket and Brewster are in a tie for third and fourth spots. Coulee Dam is comfortably fixed in second slot.

If the Merchants can topple Omak for its third defeat of the year, then they would be tied with the loser of the Tonasket-Brewster struggle for third and fourth spots.

While this is going on, Coulee Dam plays at Princeton and Penticton travels to Mansfield for other crucial games in the league schedule.

It's going to be a race for those third and fourth place slots in the playoffs, especially that last playoff berth. But the Merchants, who have hit their stride for the first time this year, look good enough to make a place.

With a little encouragement from the fans next Sunday they are just the boys to take the measure of that strong Omak nine.

In the South Okanogan loop, Red

## Dewey Sanborn Has Possible at 600 Yards

Dewey Sanborn and Fred Dunsdon, each with a high score of 98, led marksmen at the Summerland Rifle club weekly shoot last Sunday. There was a good percentage of shooters who reached the 90-odd mark, including John Khalembach 95, Ted Dunsdon 94, Jack Dunsdon 93, A. Moyle and George Dunsdon 92, Phil Dunsdon and Len Shannon 91 and Steve Dunsdon 90.

Other scores were Bill Young and Carl Nesbitt 89, Dave Taylor and Ed Gould 88, Pop Dunsdon 82, Joe Elliott 80, Barbara Price and Jill Shannon 77, Doug Price 76.

To obtain his high score of 98, Dewey Sanborn registered a brilliant possible on the 600 yard range.

Sox have slid down to a third place tie with up and coming Penticton's Beavers who "gave" league-leading Kelowna Chiefs a terrific 17-5 pounding last Sunday.

Due to the Red Sox defeat at Naramata last Sunday, the cross-the-lake team is now resting in second place.

The junior schedule winds up on August 12, Summerland plays at Oliver next Sunday, has a bye on August 5 and then plays its final contest against Kelowna here.

## Three Local Girls On Rexalls Team

Three Summerland girls are valuable acquisitions to the Penticton Rexalls softball team which is currently striving for the Okanogan championship.

The Rexalls, having disposed of Vernon are set for a series with Kamloops. They travel north this weekend and entertain the mainliners at Penticton the following Sunday. Winner plays Kelowna for the Okanogan title, it is believed.

Evelyn Helohert at third base, Kay Smith at second and Rae Armour in left field are the three Summerland lassies who cavort with the Rexalls.

## Fishing NOTES

(By Bert Berry)

Okanagan Lake hasn't been too kind to the troller this last week. However, some of the boys got a few up to two pounds. All the fish seem to be gorged on grasshoppers.

Headwaters Camp—Still pretty good except on the small size. One party reports that it was terrific fishing on Crescent and well worth the walk to it; good size up to approximately 3 pounds.

Silver Lake—Still good but road bad. Remember, no boats for hire here.

Glen Lake—Road okay and fishing pretty good. Al McIntosh got one about 2½ pounds.

Shannon Lake—Pretty good perch and bass fishing now; both fish are of good size.

Fish Lake Camp—Fish Lake itself is poor but all the upper chain very good.

Garnet Valley Dam—Some good ones being caught but mostly small ones.

Trout Creek and Eneas Creek—Both full of small, undersized fish. Lots of fun catching but you have to throw practically all back.

I saw a very sad thing last week on a trip up past the Great Ranch. Counted eight dead blue grouse that had been killed on the road. Later, talking to Ferdie Brent who lives along there, he told me that this is the average daily toll. We ourselves had to practically stop to avoid one bird but it seems other motorists are in too much of a hurry. It pays off to look after our wild life. Once gone they never come back.

## KAMLOOPS MAN ON WINNING TEAM AT BISLEY

George Farquharson of Kamloops, who competed here at the B.C. Inland Rifle Assn. shoot this spring, is a member of the Canadian rifle team which won the prized Commonwealth Rajah of Kolapore Imperial challenge cup at the Bisley, England, rifle tourney. He scored 137 out of a possible 150.

Wendell Clifton, ace pitcher for Penticton Canucks of the Okanagan-International league, has been signed by the St. Louis Browns scout, Tony Robello. Clifton is to report to Redding, Cal., immediately. Two Vancouver players were also signed.

## Four-Run Rally in Eighth Spells Defeat for Red Sox

A four-run splurge in the eighth frame proved the deciding factor at Naramata last Sunday afternoon when the cross-the-lake boys downed Summerland Red Sox 8-5 and moved into second spot in the league standing.

Two costly errors by Selgrist, who was playing third for the first time in place of Ernie Jomori, plus walks by Bill Eyre, relieving pitcher, proved the deciding factors in the Naramata rally in the fatal eighth.

Red Sox outthrew Naramata 8 to 4 while the eastern side lads committed five errors to Red Sox 3, but the Naramata team still won the ball game.

Brawner struck out 11 men before being relieved by Eyre with two on board in the eighth, and the score knotted at 5-all. Eyre, walked the next two men, forcing in R. Ward on the second pass, to give Naramata the winning run. Two more runs scored on Selgrist's second miscuo.

In the first frame, Naramata scored three runs on two walks and D. Ward's single, plus an error by Robin Fisher in left field.

Red Sox got back in the game in the second frame when Youngusband scored Aiken and Selgrist, who had earned singles. The count was knotted at three-all in the third when Aiken singled and was scored when Selgrist and Eyre clouted safe hits.

Naramata went ahead again in the last of the third when Barber tripped and scored on Pohlmann's miscuo.

Red Sox went out in front for the first time in the sixth when

Eyre and Fisher got on the paths on two consecutive errors by Tinker at short. Brawner's single to right field which was miscued allowed two runs to come across, giving the Red Sox a 5-4 advantage.

But the disastrous eighth wiped out that one-run lead with more to boot.

BOX SCORE	AB	R	H	PO	A	E
Red Sox	5	0	1	13	1	1
Pohlmann, c	5	0	0	0	0	0
Hooker, ss	4	0	0	1	0	0

Summary: Stolen bases, Aiken 2, Youngusband 2, D. Ward 4, R. Ward, Salting, Tinker 2; three-base hit, Barber; bases on balls, off Luxton 2, off Brawner 6, Eyre 2; struck out, by Luxton 8, by Brawner 11, by Eyre 2; passed balls, Ward 3; hit by pitcher, Bonthoux by Luxton; umpires, Baker and Day, both of Naramata.

MORE ABOUT

FIRST JUNIOR

Continued from page 1

race found John Kitson being the only one to come through with his "tag" still lit.

Other novelty events included under water nailing, and a watermelon race.

The big melon was supposed to be carried ashore, but after some fifty young swimmers had mauled it for a time in the water, the melon came to shore in small chunks.

Always a feature of the Kelowna Regatta, the apple box derby proved just as popular here. Local boys only were allowed in this race.

Two disappointments were the inability of war canoe crews from Kelowna and Penticton to make an appearance and the non appearance of the Summerland Band. The latter group just couldn't muster enough members who were not working hard all afternoon.

Water Skiing Thrills

Water skiing proved of intense interest to the spectators. Boats were brought by Ray Bostock of Kelowna and Gordon Kenyon of Penticton to tow the water plank artists over the smooth surface of Okanagan Lake.

Feature stunt of the water skiers was portrayed by Ray Bostock, who was towed by his toe and nonchalantly read an open book in the process of balancing his other leg on the single ski.

Among the Kelowna water ski club members present were Bostock, Allen Marshall, Gib Way, Trev Jones, Helen Murdoch and Tommy Capozzi.

Many officials aided in the smooth operation of the program. Jim Panton, Okanagan Pro-Rec official, on the microphone being one of the chief assets of the afternoon.

Jane Stirling of Kelowna was starter, while judges included Phil Rounds of Naramata and Ruth Klux, Clarence Lackey and Earle Inglis of Sumerland.

At the recorder's desk, Bev Fleming was chief recorder, assisted by Lori Klux in the prize ribbon distribution.

Walter Toevs, George Woitte, and instructors and instructresses from the trade board swim classes were on hand to assist in the program operation.

Keen interest was shown in the demonstration of swim class operation by two of the regular swim classes which operate at Powell Beach each Wednesday afternoon.

E. R. Butler, secretary-treasurer of the Summerland Youth Centre Assn., had charge of other arrangement details and was assisted by a ladies' committee at the refreshment booth.

Les Gould had charge of distributing the ten \$1 bills for the novel treasure hunt. There was a great scramble along the beach when it was announced late in the afternoon that the bills were buried in the sand.

Mrs. Gavin Patterson had charge of the completely equipped Red Cross tent. Mrs. G. E. Woolliams was in charge of the visiting contestants and seeing that they were provided with refreshments before returning home.

The ladies in the refreshment booth included Mrs. F. E. Atkinson, Mrs. A. Crawford, Mrs. Les Gould and Mrs. James Marshall.

Francis Steuart loaned his truck, which was driven by Allen Butler. Bill Sherwood was a handyman, both at the judges' stand and in the refreshment booth. C. W. Hadrell and Bert Simpson were gatekeepers and Howard Shannon's PA system was used throughout.

Gas for the motorboats was donated by several oil companies.

Total Wreck But Passengers Escape Unhurt

A sudden end to a holiday trip came at 10 o'clock Friday night for three young Aldergrove lads, when their car missed the sharp right angle curve at the bottom of Peach Orchard hill and went over the bank, landing at the water's edge twenty feet below.

None of the passengers was injured. Driver was William Andrew Obester, accompanied by two other young men from Aldergrove, Steve Malnar and Roy Baker. Two girls who had hitchhiked a ride were uninjured. Their names were not given to police.

Lights from an approaching car blinded Obester on the corner and he drove over the bank, he claims. Car is a total wreck.

Car Overtakes On Peach Orchard

Mrs. Ivy Wotton of Trout Creek received a badly cut arm in a car accident shortly after five o'clock Saturday afternoon when her car turned over while proceeding down Peach Orchard hill.

The brakes are believed to have failed and Mrs. Wotton took to the bank hoping to stop the vehicle. However, it turned over and she received a surface cut which required 20 stitches at the Summerland hospital.

Two little passengers, Carole Fox and Joan Crawford, both ten years of age, of Penticton, were unhurt.

About fifty vehicles including two Greyhound buses and several large trucks were halted by the accident which occurred just a few seconds before RCMP Constable I. G. Thorsteinson arrived on the scene returning from West Summerland to his lower town home.

WILL HAVE TO WATER STREETS

Unless the present hot spell subsides and some rain relieves the situation in the next two weeks, the municipal water cart will have to be pressed into action to water roads badly in need of grading before the soft fruit season rush commences, Councillor F. M. Steuart warned council on Tuesday.

He admitted there are "lots of complaints" being received about road conditions, but watering in this manner for grading is an expensive procedure, he pointed out.

Richard Lewis Has Grand Trip Across Canada to Montreal

Richard Lewis, Summerland's Boy Scout on his way to the 7th World Scout Congress in Austria, had his first stop across the continent at Medicine Hat, Alta., where he and Michael Randall of Trail, the second Interior Boy Scout chosen for the trip, were taken on a tour of the Cypress Hills and Elk Water Lake.

Michael Randall is the son of Mr. and Mrs. Eric Randall, the latter being a daughter of Mrs. H. A. Solly of Summerland and a well-known former resident here.

Richard describes the Elk Water lake stopover as a "very beautiful spot in the middle of the bald prairies."

It was on July 15 that he and Mike arrived at Montreal, where they had a four-day bivouac along with other members of Canada's contingent. Camp Tamaraconta was the bivouac spot and the first duty was to be blood-typed.

A church parade and sing song were held at Jubilee hall on July 16 and the contingent sailed for England on July 18.

CARS CLIP EACH OTHER IN PASSING

J. Cristante's car driven by Sandy Jomori and a car driven by Ernie Harrison, touched each other in passing on the Giant's Head road about 1:30 o'clock Sunday morning. Damage to the sides of the two vehicles amount to about \$125. No one was injured and neither car turned over.

DAMAGE TO CAR

Council was informed on Tuesday that the electrical department truck, driven by G. W. Blewett, collided with a car driven by Mrs. W. Radomske at the B.C. Fruit Shippers Ltd. corner on June 28. Damage, covered by insurance, amounted to \$250 to the car while the truck escaped undamaged.

CLAY SLIDE ON HIGHWAY

A small slide just south of Peachland blocked the highway for a short time last Thursday morning with two or three feet of clay. Public Works crew removed the obstacle.

Apple box derby: 1, Ronald Wilson; 2, Carleton Sheeley; 3, Bobby Sheeley.

Asphalt Mix Contracts Have Been Finished

With the exception of the school sidewalk job, all asphalt mix which had been contracted for private jobs has been delivered, Councillor Francis Steuart reported to council on Tuesday.

It was found the sidewalk base at the school too full of sand and it had to be refilled with crushed rock.

The concrete curb along Granville street has been completed from the IOOF hall to the school driveway now, and the works crew has cut down weeds around traffic signs in various parts of the municipality.

A suggestion had been made to council that the walk up the Baptist hill should be asphalted, Council agreed on Tuesday that the suggestion merited action.
