

Under the Giant's Head

Winner of the Review's Lucky Number contest last week was Mr. Charlie Bernhardt of West Summerland who had newspaper No. 596. Another \$2.50 is offered in this week's Lucky Number contest, this time to the person who finds

No. 1026 in one of the advertisements in this issue. It isn't a date, price, address, telephone number or any combination of numbers, but just

No. 1026 as it appears. Copies of this edition of the Review are numbered consecutively in one ad only, but only

No. 1026 is the winner. The finder should bring or mail a clipping of the ad to this office before Tuesday noon, October 11, to claim the prize.

Bishop Sovereign, former Bishop of Athabaska will be guest speaker at St. Stephen's Anglican Church Sunday at 11 a.m. Guest speaker at Summerland United Church will be Rev. N. H. MacKenzie, returned missionary from India. The story of the Bible in the Congo will be portrayed in an inspiring motion picture "Footsteps of Livingstone" in Summerland United Church, Wednesday, October 12. An address will be given by Rev. J. Raymond Tingley, District Secretary of the Canadian Bible Society.

Work on Pennask Lake road is almost finished for this year. Parking space and passouts have been provided. A work party has been called for this Sunday, so bring along your pick, crowbar and shovel. The final job is to clear the road of rocks so the grader can get over it. After this is done, the road is ready for cars.

Regarding the school dental health clinic, parents are notified that they are responsible for getting their children to the clinic at the appointed times. Parents have received cards from the school with the times marked on them.

The Summerland Retail Merchants' Assoc. wishes to draw attention to the fact that Summerland retail stores are open Saturday nights until 9 p.m.

Have you noticed the attractive new sign at the turnoff into Mountain View Home?

Kelowna Horticultural Society made a visit recently to the home of E. H. Bennett to view his display of mums and other fall flowers.

The Summerland Review

Wednesday, October 5, 1960

West Summerland, B.C.

Volume 15, No 41

Though the artist may consider this a study in still life, to the consumer it is full of life. Nutritious fruits

and vegetables, meat, poultry, eggs and dairy products are available in abundance on the market this

Thanksgiving. Canadians should indeed give thanks for this rich food bounty.

Work to commence on Yacht Club building

Commodore L. A. Smith told the Review Wednesday that work will commence on the Yacht Club building at the breakwater within two weeks time.

It is hoped to have the footings, septic tanks and cement flooring slabs in before the frost. The main building work will go on

during the winter months. The present plan proposes a 40 by 60 foot clubhouse at an estimated cost of \$12,000. The building is designed to have a full front of glass facing out on the lake. The lounge will be 30 by 48 feet in size and a board room

and kitchen are included.

On the shore side a large patio will be equipped with a barbecue fireplace.

Mr. Smith said building bonds are still being sold. Anyone wishing further information on these bonds should contact a member of the Yacht Club executive.

Mum Show Sat., Oct. 15

The annual mum show, sponsored by the Summerland Horticultural Society, will be held in the Anglican Parish Hall on Saturday, October 15 at 8:30 p.m.

The show is not only a display case for mum growers, but gives interested persons an opportunity to see and discuss the varieties of mums that grow well here.

Anyone is welcome to make an entry. Flowers must be staged by 7:30 p.m.

Prize lists are available at Alex Watt's office.

Admission is 25c and tea will be served for only 15c.

Building permits up during September

Building permits took a big jump in the right direction during the month of September.

Four permits for new dwellings were issued for a total of \$42,400 and four permits for alterations and additions on dwellings were issued totalling \$2,500.

On commercial and institutional dwellings, two new permits were issued for \$1,100. In this field one per-

Camera Club starts season

The Summerland Camera Club has started its meetings again and have decided to meet the third Monday of each month at the Nurses Residence on Hospital Hill. The club would welcome new members.

The club is now affiliated with the Color Photographic Association of Canada and at each meeting will show slides from the CPAC on various subjects with a commentary, which should prove very interesting.

Election of officers was held for the coming year. Hendrick Wouters was elected president; Mrs. C. B. Snow secretary and R. G. Killick treasurer.

Police Court

In local police court a local youth was found guilty of indecent assault on a female and was committed to Brannan Lake Industrial School for a twelve month period. The same juvenile was judged guilty of having liquor in his possession and fined \$5.00 and costs.

Word from Magistrate Reid Johnston is that the policy will be to get tough with offenders under the Motor Vehicle Act. More licences will be suspended.

What could have been a fatal accident was averted by a highway sign post when a car driven by M. Klic of Kelowna sideswiped a car driven by Thomas Itani of Westbank and came to rest against a sign post. The heavy post averted a plunge into the lake. The accident occurred at 1:50 a.m. on Highway 97 at Deep Creek. Mr. Klic was hospitalized with a broken arm. Damage to both cars amounted to approximately \$650.00. Charges are pending.

Garage Sold

Bonthoux Motors has been sold to Bob Hardie of Rutland. Marcel Bonthoux is now operating a service station at Cacha Creek. Mr. Hardie is married and has three children.

High school credits offered by night school

Several new courses have been added to the Summerland night school curriculum.

The high school courses for credits will be of interest to many people. A complete list of the courses appears in an ad on the back page of this issue.

An organizational meeting for all who are interested in these courses will be held at the High School on Wednesday, October 12 at 8:00 p.m.

Other new courses include: gift wrapping, sandwich making and cake decorating and millinery for the ladies.

The Summerland town band will be operating under the night school program this winter with bandmaster Dr. J. L. Mason as instructor. Instruction will be free for beginners and members. Some instruments are available. Further information may be obtained from the bandmaster or president Harry Killick.

Program starts Oct 12 at 7 pm for beginners and 8 pm for regular practice. Anyone wishing further information is asked to call W. R. Chalmers at HY 4-5882 or the high school.

Queen Sigrun reports

The Summerland Board of Trade Fall Fruit Fair will always be a fond memory. The stage, so beautifully decorated with many types of flowers, cost many wonderful people hours of work. The large turnout reflected our strong community spirit. Mrs. Shannon spent a lot of time organizing the crowning ceremony and preparing us for it.

Many thanks to Mrs. Shannon and also to the ladies for the flower settings and Mrs. Tamblin for her artistic decorations. I would also like to thank Mrs. Colas for generously offering to buy the material for the robe and Mrs. Cornish for donating her valuable time in the sewing of it.

All the visiting royalty were pleased with the introductory words Mr. Schuman found for every one of them. We enjoyed Mrs. Longmore's singing very much and I wish she would sing in public more often.

Later, the visiting royalty,

my princesses and myself, with our escorts, were invited to a coke party given by Mr and Mrs Schuman at their lovely home. I hope our happy faces were of some reward for the kindness extended to us by our hosts and the ladies who prepared and served all those delicious things.

There was a poor turnout for the dance, nevertheless we had a most wonderful time. With such music our spirits rose and our feet hardly touched the ground. By midnight we were very hungry as the ladies and gentlemen serving refreshments must have noticed.

The evening was over all too quickly and the day I had looked forward to the most had passed. It hasn't really passed though. I can relive those happy hours for the rest of my life.

Many people ask me how it feels to be Queen. It feels wonderful to be Queen of a town like Summerland.

Kiwanians hear report of district convention

A very good meeting was had by the club on Tuesday evening. Two guests from Penticton were introduced by Jack O'Mahoney, Stan McPherson and Ed Dewdney, and we were pleased to have with us also, Dr. Jack Ratzlaff and Ken Storey, who were introduced by the president.

Club singing was led by Ed McMillivray, assisted by Scottie Ritchie.

Blake Brandon and Frank McDonald will attend the Key Club meeting tomorrow in the High School.

Scottie Ritchie advised that an Interclub date will be held with Kelowna on Monday, October 17.

The evening's program was given over to hearing a report on the recent convention in Vancouver. The report was presented in an interesting form, John Tam-

blyn, Jerry Halquist, Walter Toeves and Scottie Ritchie each taking certain periods of Sunday, Monday and Tuesday for the subject matter of their report. The reports showed a very successful convention was held and what is rather unusual, several times the speakers stressed how good some of the speakers at the convention were.

It appears that a good deal of stress was put on the helping of youth, and some very novel ideas and projects were heard of, that are in effect across the line.

All in all there seems no doubt that a lot of good business was carried out, and in the evenings there was plenty of fun apparently. There is a possibility that next year the convention will be held in Spokane.

Childhood Habits Persist Throughout Lifetime

Instinct can sometimes be over-rated, according to Jock Johnston, manager of the Bank of Montreal's Summerland branch.

For instance, he says, many of the successful businessmen among his customers attribute their habit of regular saving to instinct, rather than to being taught the advantages of saving as children.

But it's much more likely, Mr. Johnston believes, that their habit of regular saving was begun when very young, at the suggestion of far-sighted parents.

Either way, Mr. Johnston says there's no doubt that the best time to learn the habit of regular saving is in childhood, and the younger the better. It's a simple person that gives youngsters a good start in life, and the knowledge that there's a savings account to fall back on in emergencies is often a source of confidence to

youngsters when they start out on their own.

"A single dollar will start your child's savings account at the B of M. As Mr. Johnston puts it: It might be only a small beginning, but it's a fine way to help develop habits that will be mighty valuable in the future."

If your child really wants something special - and it can be anything from a bicycle to a college education, having a personal savings account will be a strong encouragement for him to put away part of his weekly pocket money towards the objective. And it will help him to develop the invaluable habit of saving.

Drop in soon to see Mr. Johnston and ask him for a free copy of the B of M's folder entitled, "How to teach your youngsters to save." Parents everywhere are finding it helpful.

Millinery class to be at Night School

According to Mrs. Wally Harrison, who will teach a course in millinery at the Summerland Night School, it's not hard to make a hat. Most of the tricks of hat making are know-how, and one does not have to be a fine seamstress.

Persons wishing to learn the "know-how" are invited to attend the course which starts Thursday, October 13 at 8 p.m. in High School.

Mrs. Harrison has a wealth of experience in the millinery field. She spent many years working in millinery shops and has been presenting this course for 13 years both in Vancouver and Etobicoke. Mrs. Harrison says the course is quick and easy, it is not particularly difficult to make a hat and the knack can be picked up quickly.

This year the emphasis is on children's hat which should be a boon to mothers with growing youngsters. In the adult field the first step is remodelling an old

felt (felt hats are available at the Thrift Shop at nominal prices.) Students can also make a new felt if they want to.

Then the course takes the student into fabrics. They usually make two of these hats to match summer frocks.

And then to the most exciting part, the straws. Students are taught to make new straws and remodel old. This part of the course has the new Easter bonnet in view.

One delightful feature of this course is that you start to make hats right away and have plenty of time to make some little cocktail hats and children's hats for Christmas giving.

The initial fee is \$8.00 and the modest material costs are spread through the course, at no time placing a very great strain on the budget.

Square 'em up

Eight squares of dancers from all parts of the valley danced to Ray Frederickson's good calling on Saturday night at Kelowna. Leg Boyer, Scottie Hitchman and the Chet Larsens were on hand to give Ray a break now and then. A lovely moon made the drive up the lake and back a real treat in itself, and the Wagon Wheelers' hospitality left nothing to be desired.

This Saturday, Thanksgiving week end, there are two parties scheduled. Loyde Fairweather is calling for the Wheel N Stars in the KP Hall in Penticton, and Bill French emcee's Westbank's party night in the Community Hall. Buffet supper will be served at both dances.

If we expect to have a crowd at our dance on October 15, representatives from the Pairs and Squares should be on hand at both these dances. We're tossing the ball to the rest of our club this week end, and hope that some of you will make a point of visiting our two neighboring clubs this Saturday. You'll enjoy it, and your personal contact with their dancers is the best kind of invitation to come to our party.

Mrs. Isabel Jensen and family of Vancouver have been visiting her parents, Mr. and Mrs. W. Atkinson.

PTA belongs to Teachers and Parents

"Education is everybody's business".

Whoever coined the foregoing slogan certainly hit the nail on the head, for education is everybody's business.

So much depends on education, that it is not stretching the truth just to make a point, to say that as education goes, so goes the world.

Which brings us to the level at which education can become most everybody's business and that is at the local Parent-Teacher Association level.

There is much to be said for this association between parents and teachers. Parents hear their school ages discussing, criticising, praising, blaming and just plain gossiping about school, the teachers and their school mates.

At the PTA meetings they meet the teacher, they ask pertinent questions arising in many instances from the reactions of their children to schooling.

Thus the problems of both sides are brought into focus, and the association of teachers and parents also gives opportunity for quiet examination of the problems of the problem student.

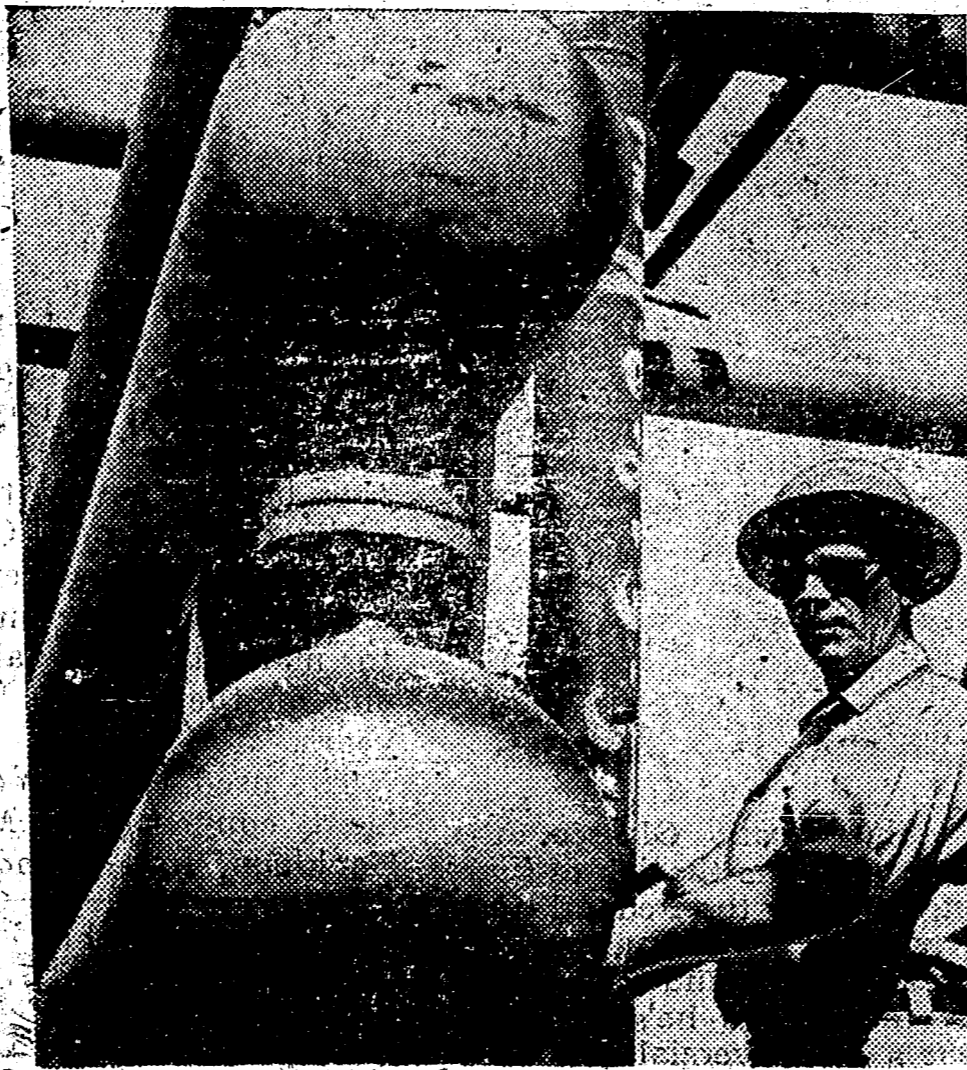

And so, parents and teachers have much to gain from active membership in their local PTA and, of course, apart from what is to be gained at the grass root level not forgetting enjoyment of getting to know one's neighbor, is that as a member of PTA a parent has the opportunity to shape education policy.

Thus, what the parent thinks today, provided that parent has a sense of responsibility to the up-coming generations and belongs to the PTA can become incorporated in the education

policy of tomorrow.

Education is indeed everybody's business, and because of the fact of parenthood, education is just a little bit more the parent's business than it is of non-parents.

So, Summerland parents are invited to attend Thursday's meeting and help plan this year's policy and then to attend regular meetings of the PTA held on the first Thursday of each month, thus keeping in touch with the trends in education today.

A worker prepares heat exchangers at the new \$4 million refinery of Canadian Oil Companies Ltd., at Innisfail, Alta., about 25 miles south of Red Deer. The plant will also refine natural gas condensate—while engineers were drilling for water for the oil refinery, a gas well blew in.

Light on the path of life

by Rev. D. M. Rathjen

"Thy Word is a lamp unto my feet and a lamp unto my path." Psa. 119:105.

Fast and safe travel on our roads and highways has been made possible by our modern means of illumination. In providing artificial light, man has done much for his own safety and comfort. In this present day no path we walk need be dark with hidden dangers.

The text quoted from the book of Psalms speaks of another source of light which the Psalmist found to be an adequate and indispensable light to illuminate the dark unknown path of life. Speaking of God's word

he says, "Thy Word is a light unto my path.

God, our Creator, never intended us to grope our way in darkness. From the beginning of time God's Word has been the lamp which has lighted a plain path and a right way that leads to eternal bliss. (Psa. 107:7 and Psa. 136:11.) Its radiant glow has revealed glories and wonders that would have been hidden to the mind of man.

The future would be a dark uncertain path if it were not for this light which God's Word alone sheds upon it. Where men have walked without its rays they have fallen into moral, spiritual and eternal ruin.

BANK OF MONTREAL

Family Finance Plan...

Bring all your personal credit needs under one roof with a low-cost B. of M. life-insured loan

Already thousands of Canadians are turning their dreams into reality with the Bank of Montreal Family Finance Plan. They've found that bringing all their credit needs under this single comprehensive plan really works wonders for them in getting the most out of their income.

Bank of Montreal Family Finance Plan loans are putting students through college, paying emergency costs, financing off-season vacation trips and filling all sorts of needs for the home and family—all adding up to easier, happier living.

If you have a steady income and can make low-cost, monthly payments, this modern plan could help you realize a good many of your dreams. All loans are life-insured, monthly payments can extend over two years—or even three—and you can borrow up to \$3,500 depending on your income.

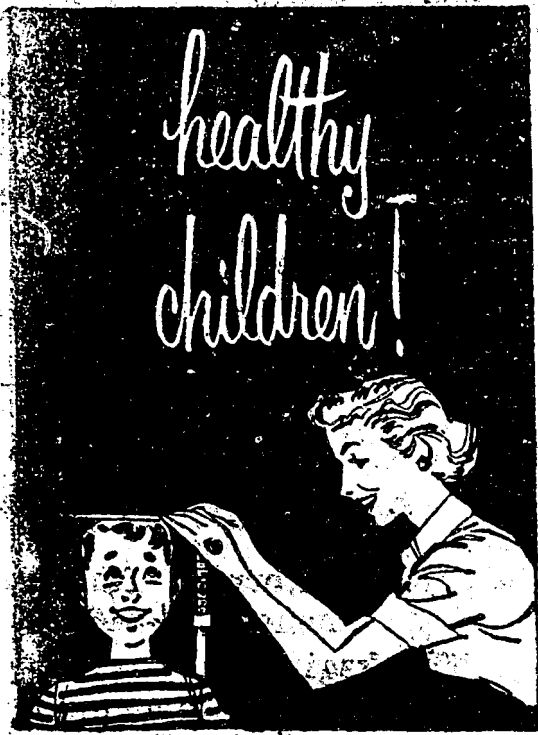

Your neighbourhood branch of the B. of M. is the place to go to, talk over your needs. Whether you are a customer or not, the same warm welcome awaits you.

Good attendance at W I variety sale

A very successful variety sale and tea was held on Saturday by the Women's Institute at IOOF Hall. A beautiful day brought out a good crowd to buy articles from the many attractive booths, enjoy tea and visits with friends. Conveners of the booths were ably assisted by other members to make this annual event one of the best in recent years.

The used clothing department, convened by Mrs. E. Hookham, found ready sale

In connection with Fire Prevention Week the troop enjoyed two films, 'Fire in the Forest' and 'It's No Picnic' which was followed by a discussion on fire safety outdoors. Mr. N. O. Solly projected the films for us and received the thanks of the troop for his kindness. The 2nd Summerland troop under ASM Gary Schaeffer invited the group to see the films and we hope we will have more get-togethers.

There was a perfect turnout of 24 boys and points in the patrol competition were awarded for uniforms and whether or not each boy had done a good turn. Patrol points this week were Hawks 36, Beavers 44, Eagles 33 and Buffaloes 49. We hope soon to have every Scout out in full uniform.

There will be no Scout meeting next week on account of the Thanksgiving holiday, but any boy wishing to pass tests may do so by making an appointment with one of the leaders. We hope all the recruits are working hard on tenderfoot tests. Michael Inch was welcome as a new recruit to the troop.

Next meeting Monday, Oct. 17. Duty patrol Buffaloes.

D. V. Fisher, Scoutmaster

for good clothing, shoes and hats. The home baking booth under Mrs. H. C. Whitaker, was soon sold out. The flower, fruit and vegetables added a gay note and were sold by Mrs. E. M. Tait and Mrs. J. Kirk. The opportunity booth, convened by Mrs. S. A. MacDonald offered many items from jewellery to books. The many lovely gift items, aprons and novelties were attractively displayed and quickly chosen by delighted purchasers. Mrs. Gordon Ritchie was in charge of this booth. The delicious tea was convened by Mrs. Wm. Brown and Mrs. C. E. Ward. Mrs. E. O. Mortimer and Mrs. Granville Morgan collected the tea money.

An oil painting by a member, Mrs. M. E. Collas was on display and tickets on this were sold by Mrs. W. R. Powell.

A delicious pie made by Miss Dorothy Britton at the Summerland Research Station, was the prize in a "Name the recipe" contest in charge of Mrs. W.-S. Rothwell. The name chosen by Miss Britton was "Summer Snow" which was submitted by Herbert Waterhouse.

Under the Giant's Head

Last week's lucky number winner of \$5.00 was Mrs. Stan Taylor. Mrs. Taylor also won \$2.50 worth of merchandise from West Summerland Hardware, in whose ad the lucky number appeared.

This week's lucky number is worth \$2.50 and the lucky number is:

No. 183

in one of the advertisements in this issue. It isn't a date, price, address, telephone number or any combination of numbers, but just

No. 183

as it appears. Copies of this edition of the Review are numbered consecutively in one ad only, but only

No. 183

is the winner. The finder should bring or mail a clipping of the ad to this office before Tuesday noon, November 15, to claim the prize.

Summerland folks will again be able to enjoy a movie in the local theatre. At the moment we haven't received the billing for the first movie but to the best of our knowledge the theatre will be in operation Monday, November 14. Check the theatre for time and shows.

Last week while attending the B.C. Weekly Newspapers Association annual meeting in Vancouver, we talked to a CBC program director and producer regarding a CBC booster station for this area. They were very sympathetic to the need but said it would be some years before money could be found to place a booster in an area such as this, because the cost of such a station was not commensurate with the amount of coverage they could hope for in this area due to mountains. They did say they expected to increase CBC program coverage through their private valley affiliate.

Weather report from the Research Station shows colder evenings this past week, and a total of .02 inches of rain and 27.5 hours of sunshine.

Volume 15, No. 46

New record set by blood donors

359 people donated at the Red Cross Blood Clinic held here last Friday. 61 new donors turned up to help make the donations ten per cent higher than last year.

Mrs. Stark, president of the Summerland Red Cross was chairman with Nick Solly chairman of the Kiwanis Club committee. The Kiwanis Club handled telephoning and transportation.

Mrs. Phyllis Smith was nurse in charge assisted by Mrs. E. Wilson, Mrs. M. Elliot, Mrs. Chuck Bleasdale, Mrs. Ian McQuaig and Mrs.

Don Clarke.

In charge of soft drinks were Mrs. R. Russel, Mrs. M. McKechnie, Mrs. Ted Eogie, Mrs. D. Crawford and Mrs. W. Brown.

Mrs. Hookham was in charge of refreshments assisted by Mrs. Alma Fudge, Mrs. G. Washington, Mrs. Grace Whitaker, Mrs. Joe Sheeley and Mrs. C. McKenzie.

At the registration desk were Mrs. J. Marshall, Mrs. T. Lott and Mrs. N. Solly.

Building report

The October building report shows four permits were issued on alterations and additions to Dwellings for the amount of \$2,950.00. One permit was issued for a commercial building for \$10,000.00.

90 permits have been issued in the first ten months of 1960 for \$342,115.00.

The first ten months in 1959 saw 111 permits issued for a total of \$312,770.00.

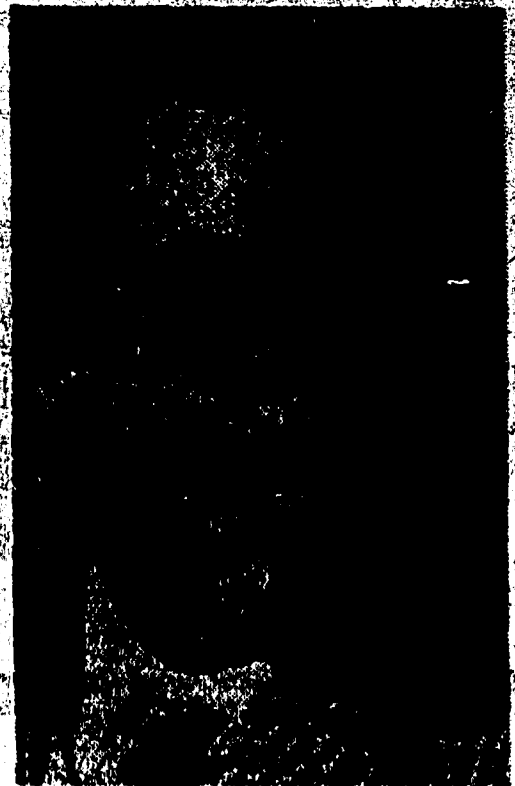

Twelve electrical permits were issued in the month of October.

Refugee family arrives Thursday

The adopted refugee family, sponsored by the local Roman Catholic Church will arrive in Salmon Arm at 8:40 p.m. this Thursday.

They will be met by a delegation from Westbank who will drive them to West Summerland. A house in Victoria Gardens will be their first home in Canada.

A number of ladies of the local CWL will be on hand to make the family welcome with a warm fire and a luncheon.

Councillor Bob Alstead tendered his resignation from Municipal Council at Tuesday night's meeting. Mr. Alstead's reason for resigning was pressure of other interests.

Two other seats will become vacant with the terms of Councillors Norman Holmes and Walter Powell expiring this year. Both have told the Review they intend to run again. Elections will be held December 8, with nominations closing Nov. 28.

A money by law and plebiscite on fluoridation will also be presented to the voters.

There will be three vacancies on the board of school trustees. The terms of Trustees John Bennett, Eric Brinton and Harvey Wright all expire at the end of this year.

"If municipal authorities cannot regulate the chlorine supply, how do they expect to regulate the fluorine supply at a safe level?"

The above question was received by the Review this week and the following answer was supplied by the fluorine committee of the Summerland Kiwanis Club.

The present chlorine equipment is not automatic. The amount of chlorine going into the water supply is adjusted manually daily, according to the amount of water being used. The council is presently planning the purchase of new modern equipment which will include a compound meter. As the flow of water varies this meter will automatically adjust the amount of chlorine and maintain it at the correct level.

If fluoridation machinery is installed in Summerland the most modern equipment will be used. A compound meter will maintain the correct proportion of 1 ppm even though there are wide fluctuations in the amount of water used. Daily tests will be taken at the plant by the water works personnel. The Public Health Nurse will also make daily tests of the water as it comes out of the tap, and the district sanitarian will make weekly tests. Thus the correct amount of fluorine will be assured at all times.

Lest we forget

Canadian Legion Week Nov. 6-12

On Friday, November 11 the people of Summerland will join with Canadians from coast to coast in observing Remembrance Day.

The parade will assemble at MacDonald School at 10:20 a.m., under the command of Parade Marshal W. C. McCutcheon, MM.

The Rev. A. S. Beames, Legion Padre, will conduct the service assisted by other members of the Summerland ministry.

Legionaires, Scouts, Cubs, Girl Guides and Brownies will take part in the parade. Music will be provided by the Summerland Town Band.

Veterans are requested to wear their decorations. The Remembrance Day banquet will be held the evening of November 11 in the Legion Hall.

Keeve F. E. Atkinson has proclaimed November 6-12 as Legion Week in Summerland.

The Reeve said: "I commend the vast amount of volunteer work and financial support the Legion gives to this community by scholarships, sponsorship of young people's sports and continuing dedication to the welfare of veterans."

"This year the Legion celebrates its 35th anniversary and increased support will bring new vitality to the Legion organization and greater benefits to many in our community."

More than \$22,000 in

scholarships has been awarded in British Columbia this year by the Canadian Legion. The financial aid is assisting more than 125 students from the University of B.C. and Victoria College to local high schools and specialized training schools.

Locally, the Canadian Legion this year gave one scholarship worth \$250.00

through Summerland Branch No. 22.

With the current emphasis on education the Legion hopes to continue to extend its scholarship plan. In addition to creating better citizens for tomorrow, it offers help and encouragement to the children of veterans who have ability but may lack financial backing.

Retail Merchants set holiday store hours

On Friday morning of last week the Retail Merchants Association met at the Nuway Cafe for a breakfast

meeting with 17 members present.

Main topic at the meeting were the Christmas and New Year store hours. It was decided to observe regular closing Monday, December 19 and open Tuesday to Thursday until 6 p.m. and Friday until 9 p.m. Stores will close Christmas Eve at 6 p.m. Stores will be closed December 25, 26 and 27. From Wednesday, December 28 to Saturday, December 31 stores will be open until 6 p.m. and will be closed January 1, 2 and 3.

HOCKEY SUNDAY

Summerland boys midget hockey team, aged 14 to 16 years, will play against the Kamloops All Star midgets this Sunday at 2 p.m. in the local arena. Come out to the first game of the season and give the boys your support. A silver collection will be taken to defray expenses.

BOYS NEEDED

More grade six and seven boys are needed to fill out squares at the classes held at the Youth Centre each Saturday at 1:00 p.m. Parents, here is a chance to help your boy learn to square dance under the able instruction of Mr. and Mrs. Chuck Inglis.

Bill Laidlaw was appointed to approach council on the possibility of having the bus come back into town.

The merchants hope to entertain the kiddies with a Christmas movie, possibly on Friday, December 23.

Mel Ducommun introduced a new member, Bob Hardie.

At the library

by Kay Dunsdon

A book of an entirely different nature than the book reviewed last week is Net of Gold by Ekert Rotholz. This is a tale of ruthless blackmail set in a contemporary setting. The story holds one with its frightening analysis of two women, Marie, the wife of an Edinburgh businessman, and Kirstie, her

Scots domestic.

We usually associate author Morley Callaghan with short stories, but The Many Colored Coat is a full length novel by this well known writer.

View From the Fortieth Floor, by T. H. White, author of Fire in the Ashes, is a modern, fast moving story of big business.

In the non-fiction group, Puerto Rico by Ruth Gruber, is an up to the minute portrait of the Island of Promise. She presents in concise and interesting fashion this tremendously successful Operation Bootstrap which since the end of World War II has turned Puerto Rico into a showcase of American democracy under Governor Muñoz. Official observers from numerous other nations have been there to view the remarkable results. Miss Gruber is an experienced writer and lecturer and journalist for the New York Herald Tribune.

A biography of travel and adventure by Ada Kearton, wife of the hunter and naturalist, is about Central Africa, Australia and New Zealand.

We will have to leave until another time to tell you of the interesting and informative books for young folk in our Library. But why not come and see for yourself. Use your Library, it's yours!

Canadian girls will have that delicately fragile look in swimming next year. This is black nylon lace on a rubber cap with waterproof inner band, and it is covered with rubber flowers. Major Canadian producers expect it to be a big seller.

Closer to the people

During the next few weeks in cities, towns and villages in B.C. some thousands of candidates will seek election as mayors, reeves, councillors and school trustees.

On past performances, this information, and the subsequent contests for local office, will be of interest to no more than three Canadians in every ten, this being the proportion of eligible electors who usually take the trouble to use their vote on these occasions. For the rest, the great majority, their reaction to local politics seemingly can be summed up in two words: "Who Cares?"

It is an extraordinary attitude to say the least for, as has been observed, of all three levels of government, federal, provincial and municipal, it is the last which, by the nature of the services for which it is responsible, is closest to the people.

These services, among them education, water sewage disposal, police, fire, lighting, parks, street construction and repairs, are indispensable to modern life. They are largely paid for, of course, out of the local taxes that are levied on us. Whether as citizens we get value for our money depends to no small extent, on the

calibre of the men and women we elect to represent us in city, town or municipal hall.

Individually and collectively such representatives will be required to make decisions affecting the well-being of the community in which they and we live and it may well be that these will not always be popular. Be that as it may, they owe the electorate no more than personal integrity, diligence and good judgement.

The rest of us owe it to ourselves, our families, and our community to make every effort to see to it that the candidates we believe most likely to display these qualities are the ones who are successful.

The reply then, to those who ask "Who Cares?" in connection with local elections is: Every citizen who is interested in how his taxes are spent and his community governed.

In Summerland this year, the annual elections should create more than the usual amount of interest. While voters will be called upon to elect three councillors and three school trustees, they also will be asked to endorse one money by law and a plebiscite on water fluoridation.

Letter to the Editor

The Editor,
Summerland Review
Dear sir:

In the last few years there has been a lot said in the newspapers about fluoridation of the water, and it seems all authorities do not agree that fluoridation of the water is the best way of dealing with fluoridation.

For instance Ontario has banned any more fluoridation of the water and the Supreme Court has given judgement as follows:

The function of a water supply is to provide pure and wholesome water and this is too well understood for argument, and that fluoridation was compulsory preventive medication.

Some writers claim that in early life it is to help the teeth, but in later life it effects the teeth, gums and bodies of people otherwise.

A couple of years ago in B.C. a vote in 32 cities, 57 villages and 30 districts in B.C. voted NO to fluoridation. Vancouver city voted against it by 40,117 votes compared to 33,839 for it.

In April, 1958, at a meeting in Frisco the assembly and house of delegates of the association of American Physicians and Surgeons of 1500 members voted unanimously to condemn the addition of any substance to public water supplies for the purpose of affecting the bodies, or the bodily or mental functions of the consumers. Ontario Legislature's private bills committee on March 6, 1958 voted 15 to 2 against legislation which would permit the city of Ottawa to fluoridate its water supply.

As to the cost of fluoridation it is estimated that 99.99 per cent of water is used for other purposes than drinking, which leaves a very small portion of fluoridation for the purpose intended. Further to this, whatever benefit might be obtained depends on the children's parents.

For instance, a Vancouver lady reports that a check in one block where she lives showed that the children used other drinks instead of water.

So to get the value of fluoridation depends on the parents and not on the system. Again in some localities the water pipes of a fluoridation system become encrusted and have had to be removed.

These reports have been taken from newspaper articles during the last few years.

A. J. Cook

WHO, US?

The greatest donor

by Rev. George E. Leasor
"For this is my blood which is shed for many for the remission of sin." Matt. 26: 28.

Last Friday 358 citizens of Summerland gave of their blood that someone else might live.

This reminds us of another who gave of his life's blood that the world might live. Some of the greatest hymns and gospel songs of history, as well as the scriptures, tell us of the value of the blood of Jesus Christ which was shed willingly for you and for me. Do you recall this familiar invitation hymn?

"Just as I am, without one plea,
But that thy blood was shed for me,
And that thou bidst me come to thee

O Lamb of God, I come"
Thus we are taught that by virtue of Jesus Christ, the Son of God, shedding his blood, the justice of God was satisfied and we, as guilty sinners, can be forgiven and justified in God's sight.

Jesus said, "This is my blood... which is shed for the remission of sins," and Paul wrote: "Much more than being now justified by His blood, we shall be saved from wrath through him" "How much more shall the blood of Christ purge your conscience from dead works to serve the living God".

How can we benefit from the life-giving, soul cleansing, blood of Jesus Christ?

"Through faith in his blood" Jesus.

Who benefits from the donor's blood? He who allows this life possessing fluid to flow into his veins.

Who benefits from the merits of the shed blood of Jesus? You who will repent of your sins and say from the depths of your heart, "My hope is built on nothing less than Jesus' blood and righteousness." That's faith in the blood of Jesus.

SOME PEOPLE SPEND MORE TIME GETTING TO THE ANCIENT FAMILY ROOTS THAN CARING FOR THE NEW TWIGS.

Tips for Parents

By HELEN R. HEWSON—Parent Education Associates

THE editor of a family magazine asked "what did the Canadian Conference on Children have to say about spanking?"

It wasn't mentioned, she was told.

The questioner was incredulous. "But didn't they discuss discipline?"

It is a common error to equate discipline with punishment.

Many parents ask, "How shall I discipline my child—what discipline should I use?" when they mean punishment.

Perhaps the word discipline seems less harsh, more genteel than straightforward "punishment."

Discipline means training, education, a way of life. When well-trained teachers, social workers, community leaders, etc., discuss discipline they are talking about the positive constructive influences in home, school and community that affect a child's development and learning.

They refer to the emotional climate in home and school, the tasks and opportunities for wholesome

play and creative interests and the child's gradual understanding of the rules of good behavior.

Good discipline is based on a knowledge of what a child is capable of understanding and being responsible for.

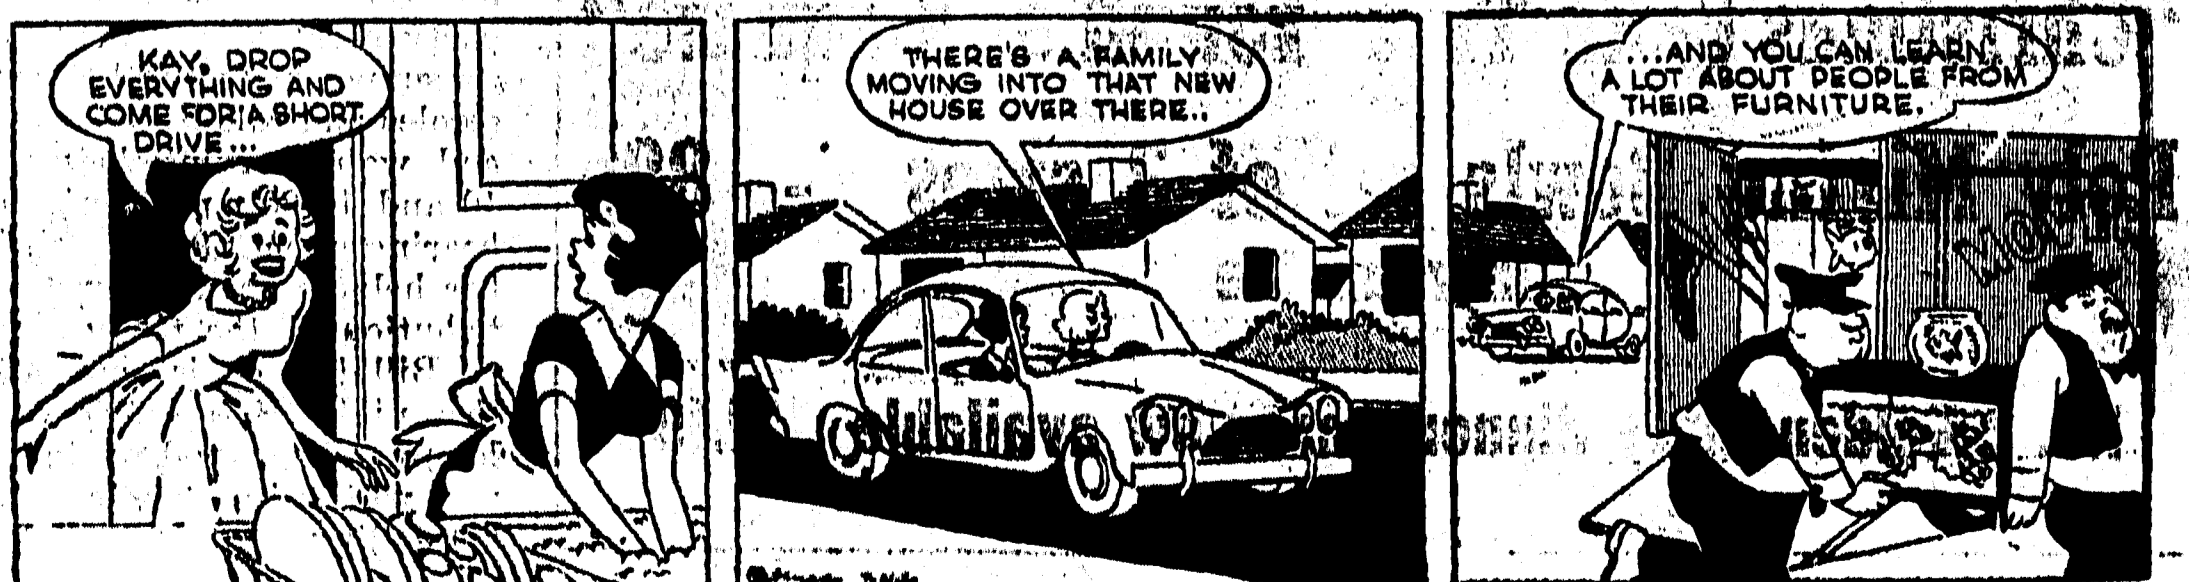

It is helped by our skill in gaining the child's trust and co-operation in our training plan, and it is helped or hindered by our own behavior.

One aspect of discipline that received a great deal of thoughtful attention at the conference was adult behavior and the breakdown of social and ethical standards, at the adult level.

We preach one thing to our children—to be honest, unselfish, polite and friendly—and we practice expediency, self-indulgence, discrimination.

Little children are alert, friendly, compassionate and affectionate. We need to take a good hard look at our way of life, a discipline that would transform these delightful creatures into our own image.

United Church holds congregational dinner

"Where there is no vision the people perish" said Rev. P. K. Louie, as last Thursday evening 275 members of the Summerland United Church looked ahead to their vision of 1961.

Proceedings commenced with a congregational dinner convened by Mrs. W. H. Durick. She was assisted by

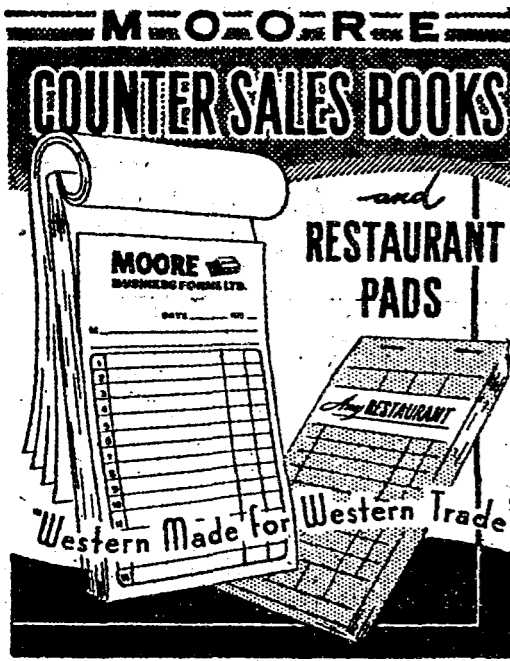

Mrs. George Washington as hostess convenor who in turn had twenty hostesses on her committee.

Following the dinner the senior choir, directed by Ken Storey, sang Goin' Home, by Duovak, and Love Is Meant To Make Us Glad, a chorus from Merrie England. Mrs. Bud Green was soloist singing Bless This House.

S. A. MacDonald, who acted as chairman, outlined the Sector Plan of Advance, in which the church is participating again this year, along with St Stephen's Anglican and four other churches of the South Okanagan.

Harvey Mitchell presented the 1961 Proposal, which was accepted as the financial goal for the year, an amount of \$23,000. Lew Wright and J. C. Wilcox spoke briefly on phases of the Sector Plan.

Rev. Louie brought the meeting to a close with his topic Our Call to Growth in Christian Witness.

Summerland Review

School Notes

by Anthea Morgan
The Ellensburg exchange students, Liz Welding, John Clemens, Crystal Raauun and Bill Hahn, left for home last Saturday. They expressed appreciation of the hospitality extended them during their stay, and took a keen interest in the differences of the local school system compared to their own. They felt that the student council meetings were

well conducted, and the idea of the third stream was valuable. The time table to them seemed confusing and they felt that in their school the students participated more in class discussion. The exchange was sponsored by the Rotary Club.

Open House in the High School will be held December 2. It is being sponsored by the Students' Council and the Key Club. The theme this year is to be "Pioneer Days." Each class will be responsible for one booth. Some of the booths already planned include: a saloon, weight guessing and bean guessing, comic book sale, white elephant, games of skill, house of horrors.

House standings to date are: House 1, 151 points; House 2, 175 points; House 3, 175½ points and House 4, 217½ points.

Report cards for the first term were handed to the parents of students in the high school Thursday evening and Friday evening of last week. Principal Songmore and teachers were very appreciative of the excellent response by the parents. At least 77 per cent of the cards were called for at which time appointments were made for further discussions between teachers and parents.

Seek funds for Pennask Road

Work this year on the Pennask Lake road was done at an actual cost of \$1,226.27

This figure, of course, does not take into consideration the considerable amount of work done gratis by members of the Fish and Game Clubs from Summerland and Kelowna.

The various clubs interested in this project will share this figure with consideration given to population, etc. Summerland's share is \$200. Donations would be gratefully received by the Summerland Fish and Game Club to help them meet this sum.

Mrs. A. J. Cantin of Manitoba, a Silver Cross mother, was selected by the Canadian Legion to represent Canadian motherhood at National Remembrance Day ceremonies at Ottawa. Mrs. Cantin's 10 children served in the armed forces during World War II. Three of her sons were killed.

Auxiliary Notes

The Summerland Hospital Auxiliary met Nov. 7 in the Red Cross Room with Mrs. D. Clark in the chair, and 22 members present.

\$340.00 has been turned in from the sale of rulers and has been earmarked for the X-ray fund.

The Auxiliary was treated to an excellent film on fluoridation by W. Laidlaw. It was informative as well as interesting. We wish to thank Mr. Laidlaw for taking time out to show the film which is under the auspices of the Kiwanis.

The Thrift Shop has had a busy year to date from which the Hospital will benefit. The people of Summerland have made this possible and we thank them for their continued support.

Attend dinner

The fourth training dinner meeting for churches taking part in the Sector Plan was held in the Incola Hotel in Penticton last Wednesday evening. Attending from Summerland were Rev. P. K. Louie, S. A. MacDonald, chairman for the United Church Sector Plan, Mrs. F. E. Atkinson, A. McLachlan, D. Spencers, Jack Wilcox, visitation chairman, Wm. Jenkinson and F. Lobban.

Registration of our Beginners Class will be completed this Friday. We are sorry that illness and other commitments have kept some interested couples from joining this year's group. However, since those already enrolled are going ahead quickly, it would not be fair to them to leave the class open any longer.

The young folks at Saturday afternoon class are enjoying themselves and learning very quickly. Registration is open for one more week. More boys are needed.

Members of the Intermediate Class who haven't had their basics in round dancing have a wonderful opportunity to learn them between 7:30 and 8 p.m. Tuesday nights. We certainly appreciate Chuck and Muriel making this extra effort and hope those interested can arrange to be there early.

Two dance notices in the mail for Nov. 12. Okanagan Landing Squares, Scotty Hitchman MC, sack lunch; Wheel N' Stars, Percy Coulter MC, KP Hall, supper served.

Goldie Charles is convening refreshments for our party night Nov. 19. A lovely supper including hot casseroles and salad is planned and we're serving between 10 and 10:30 p.m. You'll be hearing from Goldie and her helpers about your contribution to the party.

Bill French is our MC that night. He's a friendly, happy fellow, and we know you will enjoy dancing to his calling.

You'll Warm up to these meat buys

- Smoked Picnics lb. .35
- Cottage Rolls lb. 59
- No. 658
- Round Steak lb. .74
- Ground Beef lb. .39

1st Summerland Troop

After a break last Monday for Hallowe'en the troop had another excellent meeting, the fourth in a row with perfect attendance. All that is lacking is full uniforms, a few boys still lack short pants. We hope this will be rectified by next week either by obtaining them from: Mrs. G. E. Logie's uniform exchange; the Scout catalogue; by some friend discovering some old Scout shorts lying around.

Recruits Bennest and Inch completed tenderfoot tests and will be invested next week. Mr. Feltham completed instruction on Pathfinders Badge. Mr. Towgood instructed on 1st Class Signalling, Mr. Bennest on Second Class Lashings and Mr. Fisher and Mr. Horne on tenderfoot tests. Last weekend a number of boys completed their 1st Class Journey, and four Scouts wrote and passed their map reading exam. Scout Neil Mason completed his 1st Class badge requirements.

The troop had an excellent relay race with 2 patrols vs 2 patrols. This wore everyone out for at least half an hour afterwards! Marching instruction was provided by ASM Horne in preparation for Remembrance Day parade.

There will be a full turnout of Scouts at 10:15 a.m. at the MacDonald School for the Remembrance Day parade. Wear hat, shirt, scarf, long trousers and coat jacket or windbreaker.

Point scores by patrols: Beavers 142; Buffaloes 131; Hawks 118; Eagles 66. Duty patrol next week Beavers. D. V. Fisher, Scoutmaster

Council briefs

A by-law for \$65,000 for the Senior Citizens Home is under preparation to be presented to the voters at the December 8 election.

A letter from the Summerland Ministerial Association was read at council, asking if two church directories could be erected, one at the entrance to West Summerland and another at Peach Orchard Park. These would direct tourists and visitors to local churches.

It was also mentioned that the church sign erected on Highway 97 was wilfully destroyed on Hallowe'en.

The principals of MacDonald School and the high school are in accordance with a request from the school board that they might take \$1,500 from a special fund to have the trees removed from the orchard adjacent to the present playground to create a grass playground.

ground to create a grass playground.

Services for Mrs. Kampe

Mrs. Bertha May Kampe, 46 years of age, formerly of West Summerland, passed away in Penticton Hospital on Monday, November 7.

Besides her loving husband Walter, she leaves to mourn her loss two sons and two daughters: David, Victor and Isabel at home; Lorna of New Westminster; her mother, Mrs. D. T. Robison of Penticton; one sister, Mrs. O. J. (Josephine) Roberts of New Westminster; her grandmother, Mrs. J. H. Reid of Buffalo, New York.

Funeral services for the late Mrs. Bertha May Kampe will be conducted from St. Stephen's Anglican Church, Thursday, Nov. 10, at 2:30 p.m. Rev N. Tannar officiating.

Locals

Friends of Harold Cartwright will be sorry to hear he is a patient in Shaughnessy Hospital. His address is Ward F4, Shaughnessy Hospital, Vancouver 9.

Mr. and Mrs. A. B. Caldwell are enjoying a two week holiday. Mrs. Caldwell is high school secretary.

Mr. and Mrs. Alphonse Menu are home again following a two week trip in B.C. and Washington.

Mr and Mrs Bob Miller and daughter are visiting friends and relatives in Calgary and Edmonton

Kiwanis Club Notes

Tuesday night saw an evening of fun for Kiwanians, and the Sheriff had a busy evening. He managed to fine the president, vice-president, Scotty Ritchie, (2) and Doug Campbell. Also, birthdays helped swell the coffers too, and those punished for being born were Karl Dietrich, John Selinger and Bill Laidlaw.

Bill Laidlaw led the Club singing and the Club was not in very good voice, to be technically correct, it sang badly out of tune and the usual sense of pitch was missing. Ha. Ha. Ha

Members will leave on Sunday at 7:00 a.m. for Manning Park with Key Club members, to meet approximately 65 Key Club members from the Coast.

In the absence of Nick Solliv. an interim report on the Blood Clinic showed 359 pints of blood were donated. An excellent showing, and the opinion was voiced that this was in great part due to the good organization of the drive and the excellent phone work done by Club members. Nick may feel proud of his job, a job well done.

Special attention of all members is called to the meeting next week, which will be in the same place and time but on MONDAY, November 14. The Lieutenant Governor will be present, it will be Ladies Night, all new members will be inducted, and there will be a dance after the business program until midnight. This is a Kiwanis party, so a full attendance of members and wives is looked for, to enjoy the turkey dinner and dance. After the meeting in lieu of a speaker, five bingo games were played, and the winners (all of whom cheated it is said) were Ed McGillivray (twice) Fred Schumann, John Selinger and Bill Brown. The Scribe.

Proclamation

Dear Fellow Citizens:

November 6th to 12th will be observed as LEGION WEEK throughout British Columbia. It is a time of double significance for all of us. We recall with pride, and with deep compassion, the men and women who have died so bravely in the service of their country; we also are reminded of the great scope of the community services being carried on by surviving comrades who work through Canadian Legion branches everywhere.

It is with considerable pride that I commend the vast amount of volunteer work and financial support the Legion gives to this community through scholarships, sponsorship of young people's sports and continuing dedication to the welfare of veterans.

The Canadian Legion is the largest service organization in numbers in the province. This year the Legion celebrates its 35th anniversary and increased support will bring new vitality to the Legion organization and greater benefits to many in our community.

HANDYMAN ABOUT THE HOUSE

By GORDON DONALDSON

The other day when I got home my wife was on a musical furniture kick — her once-a-year urge to change the look of everything around her.

But this time she couldn't seem to get any satisfaction out of a new arrangement. "The place is just too drab," she said. So naturally, after some discussion, I could see that we needed to paint the house.

A house painting seems simple enough, just buy some paint and slap it on — but what colors? After about a month of study of interior decorating magazines and one consultation with a decorator — I thought I was ready to begin.

For one thing I had discovered that some rooms need only a dash of color to lift them from drabness, give them decorative flavor. New curtains in a sunny hue and summer texture—a change of slip covers for chairs or sofa, or even just a couple of colorful new sofa pillows may be all that is needed.

Other rooms may require a complete new background of color. Don't use the same color schemes you've been using for years. Experiment. Innovate.

This year, paint manufacturers have added literally hundreds of new tints to their palettes.

Here are some tips I gathered from my color study.

Spring green, sky blue or a subtle blue-green are ideal for family rooms that must please many tastes. Try using them as well in junior's bedroom, where their calm, relaxing effect will make his studying go more smoothly.

If Mondays are entirely too blue already, the homemaker may need kitchen colors that stimulate rather than soothe. Sunny yellows, which tend to make viewers both more cheerful and more alert, may be good bets.

To "stretch" a skimpy room or brighten one short-changed of sunlight, try a sunny yellow, pale pink, soft peach or warm beige. "Sun colors" are the newest thing being offered by paint manufacturers.

If you have problem rooms, use color for new perspective. Some houses, for example, have outside rooms with barn-like atmosphere. The cure, deep warm shades on the end walls, pastel tints in the same color (or even a contrasting hue) for side walls.

Other tips: don't use more than three colors in a room. Achieve variety and decorative interest by using shades and tints of the color or colors selected. In other words, you seek a colorful individuality for your room by varying hue (the color itself), varying its value (lightness or darkness) and varying its chroma (brightness or intensity).

What Every Citizen Should Know About Water Fluoridation

Q. What is fluoridation of the water supply?

A. All drinking water has some fluorine in it, but usually not enough to make teeth resistant to decay. By adding a little more fluorine to give a strength of one part fluorine to a million parts of water, the local water supply can make teeth resistant to decay.
A. Cuts down new tooth decay up to 65 per cent.

Q. What does it do?

A great improvement in dental health takes place for those who receive it continuously and from birth.

Q. Does it really work?

A. The capacity of fluorine to reduce dental decay was discovered as a result of observations of people drinking water with fluorine which entered the water from natural sources. The addition of fluorine artificially, has proven, by many studies all over the world, to give the same protection against tooth decay. Canada's own study was undertaken at Brantford, Ontario.

Q. How do we know?

A. The City of Brantford had very little fluorine in the water and the decay rate was high. Adjustment of fluorine content to one part per million of water in 1945 reduced decay by 65 per cent for those born since 1945 and who lived in Brantford continuously since.

Q. How much does it cost?

A. Kelowna has had fluoridated water since 1956. Cost for the salt is 8 cents a year for each person and 8 cents a year for each person for cost of equipment amortised on a 10-year basis, cost of the salt is about \$6.00 a head for a lifetime.

Q. Is it safe?

A. It is possible to study many thousands of people who have drunk naturally fluoridated water through long life times. It is known, without question, through many studies carried out by research physicians, physiologists, biochemists and chemists over the past 30 years that, at the strength of one part fluorine to a million parts of water, no harm occurs to pregnant women, children, or the aged. Neither is it injurious to the chronically ill, nor does it cause allergy. There is no evidence that artificial fluoridation is harmful, neither is there any valid reason to expect it to be so.

Q. Could an accident in the water supply cause over-dosage and severe harmful effects?

A. The automatic machinery used to add sodium fluoride prevents any such occurrence. At recommended levels 20 lbs. of sodium fluoride are needed for each 1,000,000 gallons of water. To produce even the mildest symptoms of fluoride poisoning two tons of sodium fluoride would have to be added to 1,000,000 gallons of water. This, of course, is obviously not possible in a programme of water fluoridation.

Q. Is there a better way?

A. No. The consumption of fluoride tablets is open to abuse by lack of continuous use and also to over-dose. Swabbing of teeth with fluorine solutions is expensive and liable to be insufficiently frequent. Water fluoridation is automatic, controlled by one responsible person, and subjected to daily tests by one technician and, periodically, by two other authorities.

Q. Is it needed?

A. Painfully so. Joking apart, there is one dentist to 2,400 people in B.C. at present. One dentist can give complete treatment to 1,000 people in a year. Therefore, 1,400 people per dentist must go without. More than 95 per cent of people require annual dental treatment. If all people attended the dentist as they should, about three times the present number of 600 dentists would be required in B.C. However, if there were 1,800 dentists from 25 to 30 per cent of the people could not afford proper dental treatment. Undoubtedly, we are headed for a crisis regarding the means of getting adequate dental attention. Fluoridation will improve this situation enormously.

Q. How many people in Canada and the USA are using it?

A. In Canada about 1,000,000. Winnipeg is the largest city and Kelowna the nearest city using it. In the U.S.A., there are about 40,000,000 using fluoridated water, making about 1 in every 5 persons. The large cities include Chicago, San Francisco, Milwaukee, Washington, D.C., and Philadelphia.

Q. What authorities endorse fluoridation?

A. In Canada:
The Canadian Medical Association
The Canadian Dental Association
The Toronto Academy of Medicine
The Canadian Society of Dentistry for Children
The Dental Public Health Committee of the Ontario Dental Association
Executive Council of Toronto Academy of Dentistry
The Canadian Public Health Association
The Ontario Public Health Association
The Health League of Canada

In the United States:
The American Medical Association
The American Dental Association
The American Association of Public Health Dentists
The American Public Health Association
The State and Territorial Health Officers Assoc.
The National Research Council
The U.S. Public Health Service
The American Hospital Association
The American Nurses Association
The American Water Works Association
The Commission on Chronic Illness.

Holmes reports on senior citizens' home

Councillor Norman Holmes reported to council at Tuesday night's regular meeting regarding the research he has done into the building of a senior citizens home this winter.

Councillor Holmes spent a day in Oliver going through their senior citizens home, and discussing building and maintenance with the business manager. He reported that the Oliver home, built three years ago, now stands debt free. A loan of \$20,000 has been paid off during the time the Home has been

in operation.

Finances were again discussed and it is hoped that at the next meeting, further information will be available.

Councillor Holmes will attend the next Old Age Pensioners meeting to bring them up to date on plans presented.

Drivers found for handicapped children

At the October 3 meeting of Summerland's Association for Handicapped Children it was learned that the annual campaign by mail for funds was proceeding satisfactorily, thanks to the generosity of Summerland people.

Parents and members are invited to a buffet supper in Penticton to meet Dr. J. D. McCann, professional consultant to the Association for Retarded Children of B.C. He is at present making zone visits and will be in Penticton Oct. 14. Those interested should contact Dr. Ratzlaff.

Word was received that the annual workshop will be in Vernon this year on Saturday, Oct. 15, the \$2.00 registration to include hot lunch.

Mr. McCann reported that fair success was obtained from the appeal for volunteer drivers, with Mr. Prior driving the children every morning. The afternoon trips are assigned to various drivers, both parents and volunteers.

Trade Board meets Thursday

The regular monthly Board of Trade meeting will be held in the IOOF Hall at 9 p.m. (no supper) on Thursday, October 18.

After the report of the Fall Fruit Fair committee is heard, and a limited amount of Board business attended to, the meeting will break up into standing committees to discuss winter activities.

The idea of discussion groups was initiated last spring by president W. S. Ritchie and proved very successful, with large attendance and interesting discussion groups.

It is hoped that this Thursday will see all the Trade Board members and 11 others interested at the meeting. Ideas for improvements, of both the Board and the community will be accepted and discussed. Don't forget, 9:00 p.m. in the IOOF Hall.

Curfew on Halloween 9:30 p.m.

Civic authorities are very concerned about the high incidence of juvenile vandalism in Summerland. Reports have been made of fights between rival gangs.

In an effort to start a move against this situation, council Tuesday night heard first reading of a by-law to amend the curfew hour from 11:30 p.m. to 10:30 p.m. During the week of Halloween, the curfew will be at 9:30 p.m.

This curfew will require any person up to age 18, to be off the streets at appointed times. Exceptions will be made if the person under 18 is under proper guardianship or out for a legitimate reason. In the case of repeated violation, the parent will be fined.

Funeral services for Mrs. Strachan

Mrs. Jean Strachan of West Summerland, passed away in Summerland Hospital, October 8, at the age of 71 years.

Besides her loving husband, Donald James, she is survived by three sons and two daughters, George of Lethbridge, Alberta; Mrs. Janet Duxbury, Salmon Arm; Mrs. Betty Fisher, Summerland; James with the Canadian Armed Forces overseas, William of Grand-Forks and eleven grandchildren.

Square dancing starts Saturday, October 15

This Saturday, October 15 the Pairs and Squares are starting the season off with a party night in the Youth Centre. Bob Emerson of Omak, Washington, well known for his fine singing skills, is emceeing, so we know we are in for an evening of mighty good square dancing.

Classes for junior dancers in grades 5, 6 and 7 are being organized for Saturday afternoons.

Graduates of last year's teen age class are invited to dance on Tuesday nights at the Youth Centre. If there are enough of these dancers who cannot attend on Tuesday nights to form a class on Saturday afternoons, Mrs. Stankowy will try to arrange for it. Please keep in touch with her if you are interested.

Teen age beginners are invited to learn to dance at the Youth Centre on Friday nights.

Friday, October 21st, is "Bring a beginner night" at the Youth Centre. Ray Frederickson, will be on hand, as well as members of the Pairs and Squares, to

Mom Whyte leaving B.C.

Mr. and Mrs. (Mom) Whyte, their small daughter, their staff of seven adults and the two other children they have with them, are leaving Summerland and possibly Canada.

Mrs. Whyte told the Review that the projects she has attempted in B.C. have not been successful, the Nelson project failing following the government's refusal of a licence for the Summerland home. At Nelson, land that had been promised to her to build a camp that she had proposed, was made unavailable to her.

Mrs. Whyte said that after the sale of all their possessions, other than personal effects, she and two of the girls who help her, will take a tour through the United States, not for money raising purposes, as the proceeds of the sale will provide funds, but to meet the boards of various mission groups to decide their future course.

A sale of children's clothing, toys, and household furniture will be held at Mountain View Home, starting at 6:30 p.m., Saturday, Oct 15. Much of the clothing and toys was used by the children at Whytehaven, as well as new clothing, shoes and toys which were donations from manufactures and have never been used.

Mrs. Whyte and 25 of her children appeared on the Gary Moore television show in New York and the beautiful toys the children received will be sold.

Canvass for Youth Centre October 19-20

The executive of the Summerland Youth Centre have announced a financial campaign to be held October 19 and 20. The objective is \$2500 to complete hall renovations and to provide operating expenses for the coming season.

This organization is most deserving of our support, as the Youth Centre offers a place for youth groups to hold their gatherings.

The canvass will be held from 6:30 to 9:30, October 19 and 20. Be sure to give generously when the canvasser calls.

Bands start practicing

The high school bands, under the direction of W. A. Stewart are now in full swing. Beginners, grade 7 boys and girls meet Tuesday and Thursday afternoon during school hours. The senior bands, also under Mr. Stewart, are meeting extramurally on Tuesday afternoon and Thursday evening. The senior band anticipates making group entries in the festival in the spring and are making plans now.

The Summerland high school soccer teams recently visited Penticton, winning two out of the three games played. Senior boys won 1-0 and the girls won by the same score. Junior boys lost to Penticton 4-1.

Second Next Week

The second in a series of articles on municipal assessment will appear in next week's Review.

Rehearsals start for Singers and Players

The first rehearsal of Summerland Singers and Players forthcoming production "Merrie England" will be held Tuesday, October 18 at 8 p.m. in the Summerland High School. All persons interested in taking part are invited to attend, and ability to read music or previous experience are not necessary.

The production is scheduled for next February. "Merrie England", a light opera by Edward German and Basil Hoop, is a color-

ful extravaganza based on Queen Elizabeth's romance with Sir Walter Raleigh. The settings are Windsor Town and Windsor Forest, and costumes are of the Elizabethan period.

The Sadlers Wells Opera Company recently presented this opera in London, and it was enthusiastically received by capacity houses. It was also presented by an amateur company in North Vancouver and was extremely successful.

New peaches bruise less

Introduction of several new varieties of firm fleshed peaches in British Columbia is an important step toward reducing losses to growers from peach bruising.

Dr. D. V. Fisher, Canada Department of Agriculture scientist, says that Redhaven, Fairhaven, Triogen and Solo, are being recommended by the Summerland Research Station and the Okanagan Agricultural Club for full scale planting or limited commercial trial in the Okanagan area.

be picked in good color and fully mature, and yet be delivered to the packing house, packed and shipped without loss to the grower from over-ripeness.

Furthermore, all the firm flesh varieties tested at Summerland have proved equal to or better than the soft-fleshed varieties for canning purposes.

Predicts Dr. Fisher: "Within the next 10 years there will probably be a major change, from the standard soft fleshed varieties now being grown, to the newer, firm fleshed ones."

Being evaluated are Sunhaven, which matures earlier than Redhaven, the earliest of the newly recommended varieties, and Redglobe, Earlihale, Yakima Hale, Loring and V290147, which mature with the main crop varieties.

Dr. Fisher points out that with such soft fleshed varieties as Elberta, Vedette, Veteran, Valiant, Golden Jubilee and Halehaven, it is common to have 10 per cent of a shipment culled for bruises.

With the new firm fleshed varieties, the fruit can

FOR THE BEST YEARS OF YOUR LIFE

To make the next years the best years of your life . . . means planning and saving . . . now. Whatever your hopes and desires may be—a new home—college education for your children—new leisure to enjoy, Canada Savings Bonds can help you realize them.

CANADA SAVINGS BONDS are cashable at any time at full face value, plus interest. They are really like dollars with interest coupons attached.

THEY PAY INTEREST ANNUALLY—with an average yield of 4.71 per cent per year for ten years.

THEY ARE AVAILABLE in units ranging from \$50 to \$5,000. The limit of the new series is \$10,000 per person.

CANADA SAVINGS BONDS are simple to buy—for cash or systematically out of current income.

To make the 60's the best years of your life . . .

BUY THE NEW CANADA SAVINGS BONDS NOW!

AT YOUR BANK, AUTHORIZED INVESTMENT DEALER, STOCK BROKER, TRUST OR LOAN COMPANY, OR THROUGH YOUR COMPANY'S PAYROLL SAVINGS PLAN.

Services for Mrs. R. H. Noble

Funeral services for the late Mrs. R. H. Noble (nee Mary Amelia Gallagher) were held from St. Stephen's Anglican Church on Thursday, October 6.

Mrs. Noble was born in Elkhorn, Man. In 1904 she moved to West Summerland and lived in Garnett Valley. She was married in 1928 and had since lived in Vancouver. Her husband predeceased her in 1950.

She leaves to mourn her death: her mother, Mrs. M. J. Gallagher, Vancouver; an uncle, John Mutton of Penticton and cousins, Reg Kersey of North Surrey; Maitland Kersey of Salmon Arm; Mrs. V. A. Jones of Dawson Creek; and Mr. and Mrs. Jessel of San Francisco. Pallbearers were R. Shannon, C. Elsey, D. Rutherford, Wm. A. Armstrong, Walter M. Wright, Dave Taylor. Interment was in the Anglican cemetery.

October 9 - 15

Every week fire strikes at more than one thousand Canadian homes.

In terms of dollars that means a yearly loss of maybe \$30,000,000, although the typical house fire averages under \$500 in damage.

But the ghastly truth is that three-quarters of all our fire deaths occur in those homes. And not only deaths, for hundreds of Canadians are horribly burned and often permanently scarred in those fires.

Fires rarely just "happen!" Nine out of every ten fires are the result of sheer carelessness and thoughtless neglect of simple precautions.

Regardless of the cause, experienced fire fighters say

many of the human tragedies are quite needless. Not knowing what to do, victims are often trapped by their own ignorance. They might have gotten out if they had known how.

They didn't know how. So they died. Or they survived, scarred and maimed.

Every Canadian in every home can profit by learning the simple lessons of fire prevention and fire safety.

Such is the basis of the fire services' appeal this Fire Prevention Week. It is an appeal for every man, woman and child. And it is a special appeal for the sake of the children, who make up nearly half the victims.

Night School Classes for fun and profit

Summerland night school has again this year presented a very commendable number of courses for any persons desiring a little extra "learnin'". Teachers of these courses are hopeful this year that more people will turn out for them than has been the case in past years. Some of the courses have been very well accepted, but others have just fallen through for lack of students.

This is very disappointing for the teachers and those who have spent a good bit of time getting things lined up. Some new courses have

been added this year, and there are new faces on the teaching staff. Don't let lack of experience keep you at home, beginners are welcomed at the pottery, sewing and art classes. The more advanced people have their courses too, so provision is made for everyone.

If work at the packing house or cannery has you tied up for the moment, call the high school or Mr. Chalmers and let them know you are interested. A lot of pleasure and often profit can be derived from learning a new hobby.

by Rev. P. K. Louie
 "You belong to the Church of God." I Cor. 12:4-13.
 The New Testament knows nothing of solitary Christians. What we encounter in its pages is believers gathered in a fellowship of faith. In this fellowship they shared one another's joys and sorrows; through it the strong were led to bear the burdens of the weak. And because every believer had some individual gift which he was able to bring to the service of the Church, the Body of Christ became complete, and was able to speak effectively to the pagan world around. No Christian then dreamed that he could be an effective disciple of Christ without belonging to the Church, or that the Church could fulfil her mission without the contribution that he was able to bring.

Today however one frequently meets people who claim to be good Christians, often indeed they suggest that they are better Christians than some others they know, and yet they have no place within any Church. What should one say to such people?

It is only fair to point out to them that wha ever else they are, they are NOT Christians in the New Test-

ament sense. And since the New Testament is our only guide to an understanding of the purpose of Jesus for his disciples, and of the conditions which he established for our salvation, is it not foolish to ignore its direction on so important a matter?

It may also be helpful to suggest that if their faith is indeed strong enough to stand alone, then they may owe a duty to share it with other Christians who may not be so confident. Jesus' words certainly apply at this point, "Freely ye have received, freely give." (Mat thew 10:8). And it may likewise be suggested that a day may come when they will be glad of the support of other Christians' faith.

Even more strongly, perhaps, it may be pointed out that however estimable may be the personal life of these solitary Christians, their influence cannot possibly count on those frontiers of the world where the church is contending with the forces of godlessness for the soul of mankind. For example, as one can contribute to the victims of a flood in Europe or a famine in India only by working through the Red Cross, so one can play an effective part in

(Continued on page 6)

TIPS FOR PARENTS

By EDITH HENRY—Parents Education Associates

HOMEWORK is the child's responsibility—it is HIS OWN WORK.

Where these ideas originated we have no means of knowing. What we do know is that by their misinterpretation they can do much harm.

Mrs. Brown thought she was in no way to interfere with Tommy's home assignments. She was a conscientious parent and tried to go strictly by what she believed the schools suggested.

But one day, Tommy was sick. His convalescence was slow so Mrs. Brown went across the fields to the little red school house to get his homework.

NOT AS FAST
 Asked to rest awhile, she went in. Then she knew—she knew at once—that Tommy didn't learn so quickly as some of these other children.

This little mother went home, and she and Tommy worked happily together. Tommy had the extra help a slow learner needed. At the end of the term his reward was a surprisingly good report.

Somewhere, buried in Mrs. Brown's mind, had been the idea that the education of the child is the parents' responsibility. She may not have been aware of this idea, but on it she had based her effort with Tommy.

CONCERN OF PARENTS
 She was right. The child's learning IS the concern of his parents. The school is there to help.

Homework is a new venture for many boys and girls at this time of year.

It requires that they work on their own, alone rather than in a group, and in a different environment than that of school.

Should they be left to find out ways and means for themselves?

Lacking co-operation and interest at home, it may take them several months to settle down to a homework pattern.

Their pattern may not be too efficient—they fall behind—their report is disappointing. Are they to blame?

The work done at home is, of course, the child's own responsibility.

Letter to the Editor

The Editor,
 Summerland Review,
 Summerland, B.C.

Dear Sir:

I find it difficult to understand why people who live in a so called democracy should try to force all people to drink fluoridated water whether they wish it or not. This is nothing short of mass medication, which is the antithesis of democracy. Why not give citizens a choice?

In Clinton, N.J., a dispute over fluoridation was satisfactorily settled. The Board of Health summoned dentists and physicians and agreed to the distribution of fluoride tablets by doctors to children, eight years of age and under, whose parents wished them.

The president of the Clifton Board of Health, said the board had chosen the tablet method to fight tooth decay rather than fluoridation of the city's water supply because the board felt it cheaper, less wasteful and less dangerous. He pointed out that only one-half of one percent of the city's water was consumed by the people. The rest is used for bathing, washing, sprinkling, or by industry. The tablet method, the president said, is more accurate, easier to control, and safer for those who react adversely to fluorides. Among the advantages of the program are the follow-

ing: The tablets go only to those who want them and can conceivably benefit from them (children eight years of age and under). Chronic intoxication and storage cannot possibly occur, the board points out, "as is the probable result from life-long ingestion from the water supply." Doses can be regulated precisely. Physicians and dentists are to keep tabs on patients receiving the medication, reporting their findings annually to the Health Board. Says the board: "Some people react adversely to fluoride. By the tablet method, when the doctor finds that this is occurring he will advise discontinuance."

In short this is a far safer, cheaper, more sensible way of administering medication, respecting the democratic wishes of those who do not want it and those who do. When little Johnny is sick does the doctor say: "We will just put the medicine in the water, you will all get some but that won't matter. Do, for goodness sakes though, see that Johnny drinks some water." It should be pointed out that many children take milk, fruit juice or pop, but seldom if ever, drink water. Surely we could do much worse than follow the example of Clifton, N.J. where nobody is forced to take anyone else's medicine.

Yours truly,
 Erma Anderson

Post Office Department, Ottawa, Canada

CHANGE OF DATE — for organization meeting of the Living Room Learning class "Ways to Justice" to Tuesday, October 18 at 8 p.m. at the home of Mr. and Mrs. Bert White; Trout Creek.

Public speaking course offered at Night school

The Night School is offering a course on public speaking under the direction of C. J. Clement, who is beginning his second year as a teacher in the Summerland Junior-Senior High School. Mr. Clement is well qualified to offer such a course, having taught adult public speaking classes in Abbotsford and Vancouver.

Mr. Clement has been interested in public speaking for many years. While attending the University of British Columbia he was active in the Parliamentary Forum, organized two mock parliaments, and debated on the McGoun Cup debating team in the Western Universities debating league.

Before becoming a teacher Mr. Clement was engaged as a social worker. He is often called to address service clubs and church organizations.

The course offered is intended to be of a practical nature with most of the instruction arising incidentally from the practice sessions. Some of the topics to be considered are: beginning the speech, the body of the speech, ending the speech, controlling nervousness, platform poise, diction, emphasis, gathering material, organizing the speech, proposing a toast, chairing a meeting, the impromptu speech, and other special speech situations.

Mr. Clement endeavours to establish a relaxed, infor-

mal atmosphere in his classes so that the novice may work in gradually without being under nervous tension or strain. The organizational meeting and first class will be on Thursday, October 13, at 7:30 p.m.

LOCALS

Born to Mr. and Mrs. Daryl Weitzel at Vernon Hospital on October 4, a daughter, Dawn Marie. Mrs. C. B. Snow returned home Sunday after visiting with the Weitzels.

Mr. and Mrs. Walter M. Wright and Miss Ruth Dale have returned from a month vacation, which included a three week visit with Mrs. Wright's brother, Mr. Gilbert White at Campbell, California. They travelled down by way of Highway 97 and returned by the coast road to Vancouver.

Mr. and Mrs. Thomas Pledge and sons John and Stewart of Burnaby were holiday visitors with Mr. and Mrs. J. H. Pledge.

Miss Carol Hackman was home from UBC for the weekend visiting with her parents. Carol was accompanied by Miss Lorna Hegdahl of New Westminster.

Mr. Ken Brauner of Vancouver spent Thanksgiving weekend at the home of his parents, Mr. and Mrs. V. Brauner.

TIME TO BE EATING B.C.'S FRESH GRASS-FED BEEF

All summer long the cattle have fattened on the nutritious wild grass of British Columbia's cattle country. Just as green grass gives butter its beautiful creamy colour, it gives B.C. beef its characteristic creamy fat. Choose B.C. beef and you choose flavour, tenderness and nourishment. Choose B.C. beef now and you choose beef at its prime.

AN IMPORTANT B.C. INDUSTRY

The ranchers of British Columbia are independent business men striving to produce the finest beef at the lowest possible prices. They contribute over \$17,000,000 a year to our economy but their importance cannot be measured in dollars alone. Ranching is a vital part of our agricultural industry and B.C. beef is among the best in the world.

New Owner for local Garage

Bonthoux Motors, formerly under the management of Marcel Bonthoux has been sold. Mr. Bonthoux is operating a service station at Cache Creek.

The new owner, Mr. Bob Hardie, formerly of Rutland comes to Summerland with many years of experience in the garage business. He spent 12 years working for the Bob White Service in Rutland and was on his own for three years before coming to Summerland.

Mr. and Mrs. Hardie and their three children have moved into a home on Victoria Road.

They expect to carry on the business much as usual. Bob Bonthoux intends to remain at the garage which will be known as Hardie's Service.

Born at Summerland General Hospital:

To Mr. and Mrs. Ross Fitzpatrick, a boy, on Friday, October 7.

To Mr. and Mrs. R. Clermont, a girl, October 10.

Engagement

Mr. and Mrs. William C. Baker of West Summerland announce the engagement of their only daughter, Barbara Gainford to Mr. John McLeod Killough, eldest son of Mr. and Mrs. John C. Killough of Castlegar. The wedding to be held in St. Stephen's Anglican Church, West Summerland on Nov. 5, 1960 at 11 a.m. The Rev. L. A. C. Smith of North Vancouver officiating, assisted by Rev. Norman Tanner.

HANDYMAN ABOUT THE HOUSE

By GORDON DONALDSON

Friend of mine — (one of these days I'll run out of Friends to write about; I lose one per column) — bought a horrible old-house in the city.

It sagged, it leaked. You could hear every footfall on the aching floor. And every footfall sounded like the last but one.

Still, in he went—with his hopes, his dreams; my sander and my paint scraper.

He belongs to what he calls the Crowbar School of Home Improvement. Motto: To Improve, Remove!

To improve a new home, you add things. You slap on new paint, new wallpaper, new panelling, etc. Improving an ornate old residence is largely a matter of tearing away the debris of the ages.

For example—the paint on my friend's woodwork and window frames is nearly one-quarter inch thick. By burning, scraping and sandblasting he has now accumulated six packing cases full of old paint flakes. (Which he sneaks out by night and places beside other people's garbage cans.)

By hacking-away old plaster he has uncovered two lovely old brick fireplaces, the existence of which was unknown.

They look exactly like the modern phony brick fire-

places suburban homeowners build at considerable expense. Only when they were built it was unfashionable to expose raw brick to view in the living room.

He has jacked up the sagging beams in the basement and propped them in place with steel piping.

Through painstaking detective work he has located several of the principal creaks in the ground floor and rammed wedges under the offending planks—from below.

There's not much he can do about the upstairs creaks without removing the ceilings below. But if he continues hammering the way he's going, this situation may resolve itself.

My friend is one of thousands who are gradually reviving and repopulating the older central areas of Canadian cities.

While home improvement is a good idea no matter where you live, improving a really old house in a valuable central location is like digging your own gold mine. The value skyrockets.

And most communities encourage this to ward off creeping slum areas. Most of these improvements do NOT increase the assessment for taxation.—TNS.

Church of God

(Continued from page 3)

the world-wide battle for the Kingdom of God only by becoming a loyal member of the Church of Jesus Christ.

What we are actually doing by isolating ourselves from the Church is to weaken the Body of Christ, perhaps in such a way as to cripple its witness. Forgetting that Christ loved the Church and gave Himself for it, we are willing to cancel out some part of the result of Calvary, often in order to satisfy a personal pique.

As to what happens, to the individual who thus cuts himself off from the fellowship of the living church there can be little doubt. We have seen it happen time and again. The branch cut off from the vine withers, as Jesus said it would (John 15:6). The one coal left by itself in a hearth rapidly grows cold; dead ash takes the place of the warm glow. Solitary Christians share in this fate. They cannot be effective Christians; very often they do not even survive as Christians.

Remember, then, that you belong to the Church of God, simply because you belong to God, and your life has significance only as it is used in service. Every church has its defects; it is your privilege to work to correct them. Every church has also its sincere and devoted Christians; it is your privilege to draw from them the understanding, the patience and devotion that make you a better Christian.

And as you grow in grace you will grow in your understanding of what the Church truly is: a holy community, the Body of Christ by which He continues His work, in which we are nurtured, and grow to full stature in Him.

Kiwanis Club Notes

Twenty-seven members were present at Tuesday night's meeting and were well entertained by a short biographical sketch from two new members, Carl Dietrich and Jim Schaeffer. Both were quite funny, and it seems that Carl, who was born in Austria, came to this country in 1930. They proved to be the "Hungry Thirties" indeed for Carl, who was quite humorous in describing how he worked at first for six dollars a week, and sometimes didn't get paid, until he finally got a small business of his own, then spent two years in Vancouver, and came to Summerland just over a year ago, and says he has loved every minute of it. Jim Schaeffer was born in Saskatchewan, served overseas in the Air Force, came back from overseas in 1945 and came to Summerland in 1947.

New members of the club went on to the president's house where the topic was: What is Kiwanis and what does it do, in other words, Kiwanis education.

Fred Schumann led the club singing and Scottie Ritchie advised that the visit to Kelowna was postponed until October 24.

It is rightly said: "That some are born great, others achieve greatness and some have greatness thrust upon them." Certain members of the club have "achieved greatness" this year, and in one, not to be forgotten case it was "thrust upon him".

It all started in the early summer by a well known figure in the club, falling into the lake. Not content with this the same "hombre" and his dog, tangled with a skunk; and now we have two other well known members (all Kiwanians are well known of course) that have excelled these exploits. Indeed, they must belong to the first category "They were born great."

The incident. Both decided to go fishing, and much huffing and puffing produced little result. The final cast of the day however was a honey and produced a strange bite.

When it was landed, the fish was found to have four legs, and closer inspection showed that it was a "muskrat." The names of the experts are, as usual, being withheld, until the Game Warden closes his investigation.

However, the curious may obtain further information upon application to the manager of Overwaitea Stores or at the Men's Clothing Emporium on the corner.

The Summerland Arena

will receive applications for arena assistant until noon on October 21, 1960. Approximately 5 months work to commence Oct. 24th with a minimum of 35 hours per week of work at \$1.25 per hour.

Ability to skate and pleasant personality required.

Forward applications to:
Philip Munro,
Sec.-Treas.,
Summerland Rink Ass'n.

All those interested are invited. Previous experience or ability to read music desirable but not necessary.

Are you doing your part to prevent FIRE

Observe these simple safety rules —

1. A HOT TIP- A cigarette burns at 1325 degrees, so next time you casually throw away that "butt" be sure it's out.
2. Do not place cords in door jams.
3. Never run cords under rugs.
4. Keep your heating equipment in good repair.
5. Don't leave oily rags in a pile.
6. Keep fire extinguishers in good working shape.

Under the Giant's Head

Nobody came forward with lucky paper No. 600 last week so this week \$5.00 is offered in the Lucky Number contest. This time to the person who finds

No. 145

in one of the advertisements in this issue. It isn't a date, price, address, telephone number or any combination of numbers, but just

No. 145

as it appears. Copies of this edition of the Review are numbered consecutively in one ad only, but only

No. 145

is the winner. The finder should bring or mail a clipping of the ad to this office before Tuesday noon, October 25, to claim the prize.

Summerland will be getting a new Legion Hall. This was decided at a well attended general meeting last week. Site of the new building will be the Legion's bowling green area.

Mrs. White at Mountain View Home reports to us that the sale they are having is going along very well. She said that this Saturday is bargain day with very low prices on everything. The Whites will provide transportation from Bud's Garage at 2 and 4 p.m. for those who wish it. A special Halloween Corner has been set up to give mothers an opportunity to buy costumes and decorations.

At the regular meeting of the Summerland Horticultural Society on Friday, October 21, in the Anglican Parish Hall at 8 p.m. Gallop's Greenhouses will put on a display of tropical and semi-tropical plants and also a display of Christmas plants. These plants are very interesting and it is hoped that everyone will take this opportunity to see them and hear Mr. Gallop speak on the growing and handling of cyclamen.

.04 inches of rain were recorded during the week at the Research Station and 30.9 hours of sunshine.

Fire destroys packinghouse

Council preparing bylaw for Senior Citizens Home

Preparations are being made for a vote on the proposed Senior Citizens' Home here at the civic elections on December 7, Reeve F. E. Atkinson told the Review on Wednesday. Detailed plans and specifications are now being drawn up.

Council will apply under the winter works program for sharing of labor costs on

the home in order to help finance the approximate cost of \$150,000.00. The provincial government will pay one third of the total cost.

Councillor Norman Holmes spoke to the Old Age Pensioners Assoc. meeting Tuesday, to bring the members up to date on the planning for the proposed Senior Citizens Home.

The former Wharton property beside the park, has been decided upon as location for the home.

At the last council meeting, councillors Alstead and Holmes had suggested that this area be designated as a parking area and the Home built on the Health Centre ground. However, after meeting with the town planner Tuesday, council decided the property beside the park should be the location of the Home, with the other land to be retained for future civic improvements.

Figure Skaters begin season on Saturday

The Summerland Figure Skating Club will open its season on Saturday, October 22, with registrations at the rink of all potential skaters.

Miss Dolores Casier, their popular and talented instructor, is returning for the 4th season with the Summerland and Penticton clubs. She will attend two sessions per week Thursday and Saturday,

with a dance session on Friday evening, open to all skaters from 6 to 8 p.m. It is hoped that more skaters will take advantage of this dance session as this type of instruction is quite difficult to obtain, as many professionals do not teach dancing but figures only.

The club had a membership of 120 pupils last season and have great hopes of exceeding this in the coming season. The season will wind up with a carnival in March which is usually the highlight of the arena activities and all club members participate in this show.

Out for blood!

Regular blood donors, intending blood donors and those who haven't but should think about giving their blood, are hereby notified that on Thursday, November 4, the mobile blood donor clinic of the Canadian Red Cross will be here in Summerland.

The clinic will be held in the United Church Hall from 1:30-4:30 p.m. and 6:30 to 9:30 p.m.

Fall Fair successful

Summerland residents should receive a vote of thanks for their support of the Fall Fair, said F. Schumann, reporting to the Board of Trade last Thursday. Mr. Schumann reported that the fair was a financial success. Reeve F. E. Atkinson reviewed the history of the fair and said that a pattern had been established, and the fair should be continued and enlarged.

Two discussion groups were formed. W. A. Gilmour headed the new development committee which discussed lower town development in relation to the tourist industry. The group urged that a letter be written to National Forest Products regarding the future of Summerland Box Factory.

The Fall Fair group discussed the Queen's Ball and presented a number of new ideas for next year.

Lights out at 'Mum Show

The annual 'Mum Show, sponsored by the Summerland Horticultural Society, was postponed from Saturday night to Sunday afternoon owing to a power shortage.

122 entries, many of them outstanding blooms, were on display. H. Brown was winner of the Chrysanthemum cup. Highest points went to H. Y. Brown, Wm. Snow and E. H. Bennett. Judges were Joe McLachlan, Dr. J. Marshall, and Alex Watt.

Don McLachlan had a non-competitive 'mum exhibit at the show, which added a blaze of color.

Police court

In Summerland police court this week George Mott of this district appeared before Magistrate Reid Johnston charged with carrying a loaded gun in his car. He was fined \$15.00 and costs. The case was waived here from Westbridge.

In the same court Garry Morgan-Stewart was charged with not having a proper licence plate on his car and fined \$15.00 and costs.

B.C. Fruit Shippers back in business

(We're sorry, but the Review's pictures of the fire have not yet returned from the engravers.)

The B.C. Fruit Shippers are back in business after Saturday night's disastrous fire which completely destroyed their packing house and cold storage plant.

An office has been set up in a small building at the rear of the lot, where secretary Miss Nan Thornthwaite is holding fort with a desk and telephone. B.C. Fruit Shippers are taking fruit and are planning to set up a night shift in the Occidental packing house, probably within the next week.

The building itself was a complete loss but some of the equipment in the cold storage can be salvaged. On Wednesday morning the staff started the ticklish job of clearing away the rubble on top to enable them to get at the equipment below.

According to manager Chuck Bleasdale until the mess is cleared away to allow the adjudicators to evaluate the salvagable material, final settlement can't be made.

Once a settlement has been made with the insurance company a meeting of the

B.C. Fruit Shippers 80-odd growers will be called to receive their impressions on re-building.

If they decide to rebuild, Mr. Bleasdale told the Review, it will most likely be on the present site and the construction will be done this winter.

There were 20,000 packed boxes of apples lost, 25,000 loose boxes and three to four thousand boxes of cannery apples and pears.

The \$300,000.00 fire which broke out Saturday evening about 8 p.m., spread rapidly through the main part of the packing house, burning it to the ground in an incredibly short time.

The cold storage area was a different story. Fire chief Joe McLachlan told the Review that he and his men had high hopes of saving the building until about 4 a.m., when the fire finally took over and the cold storage went up in flames.

The west wall of the packinghouse eventually collapsed gently onto the roof of the house of Mrs. Wm. Baldwin.

Fire is thought to have started in the common storage, an older part of the building built in 1916.

School News

by Anthea Morgan

The school is bursting with activity. September saw the formation of four new Houses, House One (Purple Angels) of Garnett Valley; House Two (Spartans) of Lower Town; House Three (Typhoons) of Prairie Valley; and House Four (Grem-lins) from Trout Creek.

House standings are: House One, 131 points; Two 117½; Three 140½; Four 160 points. Two new clubs have been formed this year: Hobby Club, which includes collections and hobbies, and an Archery Club.

Principal J. Longmore reports that parents will be invited to come to the school on the evening of November 3 or afternoon of Nov. 4 to receive their children's reports for the first term.

Under the sponsorship of the Rotary Club, Ellensburg Wash., and Summerland High Schools will exchange four students each, for a period of one week, commencing October 30.

Tom Hatton, grade 11 student, is to be the guest of the Penticton Canadian club, next Tuesday.

Square dancers start season

Twelve and a half squares of dancers, all the way from Kamloops to Omak, did some wonderful dancing, to Bob Emerson's top-notch calling on Saturday night at the Youth Centre.

This Friday, all beginner dancers are invited to come to the Youth Centre, 8 p.m.

All youngsters in grades 5, 6 and 7 are invited to a free square dance party in the Youth Centre on Saturday, at 1:15 p.m. with the first square dance class to behold the following Saturday.

Intermediate dance nights start Oct. 25 at 8 p.m. in the Youth Centre.

B of T President praises fire fighters

(The following letter to the editor was written by W. S. Ritchie, president of the Summerland Board of Trade president, and we think it expresses the sentiment of the community.)

Dear Sir:

On behalf of the Board of Trade and the community I would like to congratulate Fire Chief Joe McLachlan and the members of the Summerland Volunteer Fire Brigade for the excellent job they did in fighting the disastrous fire at B.C. Fruit Shippers Ltd Saturday evening. The work of the brigade in confining the blaze and preventing it from spreading should be highly commended.

Special thanks should be given to both Penticton and Peachland for sending their fire trucks to help us. It was a fine example of neighbourly co-operation.

The civil defence fire truck proved to be a valuable piece of equipment. There has been talk of moving this unit from Penticton. I feel we should try to keep it here in the valley for emergencies of this kind.

I realize what a trying

time this has been for Mr. Bleasdale and the staff of B.C. Fruit Shippers. The speed with which they have re-organized and gone back into business shows their faith in our community. I wish them the best of luck in their future plans.

Hospital Board honors J. S. Mott

At the monthly meeting of the Summerland Hospital Board Tuesday evening, John S. Mott, janitor and caretaker was presented with a portable transistor radio as a token of appreciation for his efficient services during the past 13 years at the hospital.

Board president Bob Alstead expressed regret at losing such a competent and co-operative employee and said that every member of the board of management wished him an enjoyable retirement.

Mr. Mott, in replying said he had found his work a pleasure at all times, never felt he was being bossed around and consequently his heart was always in his work.

LUXURY LINER HAD SHADY REPUTATION

Ever wonder how the word "Posh" found its way into our language? "Posh" is another word for luxury, and its origin is an interesting one. The Pacific and Orient Steamship Line between Great Britain and the Orient used to charge a premium for cabins on the shady side of the ship.

Since the shady side was the port, or left-hand side, on the outward voyage, and the starboard, or right-hand side, when homeward bound the cabins were referred to as Port Outboard - Starboard Home, or P O S H.

Words are fascinating creatures. They have so many faces. Take the word "bank", for example. It can mean the ground near a river, an establishment for the custody of money, or, when

it's used as a verb, security of feeling, absolute reliability. "You can bank on it" we say.

These last two meanings bear a connection that is far from coincidental. The fact is, a bank represents security and reliability, especially the Bank of Montreal.

And, of course, saving at the Bank of Montreal does not only mean your money is safe. It also means that with money in the bank you can often take advantage of unexpected opportunities that might otherwise pass you by.

Ask Simon Kouwenhoven, accountant at the Summerland bank of the B of M about it. He'll show you how easy it is - and how profitable - to open a savings account. See him soon!

WI hears talk on United Nations

The program of the Women's Institute was in charge of the citizenship convener, Mrs. S. A. MacDonald at the regular meeting Friday afternoon at the Anglican Parish Hall. Mrs. MacDonald presented John Lott, who attended the United Nations Seminar at U B C last Aug. 28 - Sept. 2. Mr. Lott gave a very interesting talk on the week's activities and stated that it was a good experience and he had learned a lot about the United Nations and also about UBC. Miss Mary Scott thanked the speaker for his informative talk.

The business meeting was

conducted by the president Mrs. A. A. Fenwick. Reports showed that the variety sale on October 1st had been very successful. Members voted to send gifts to the Mental Health Association for distribution to mental patients. A donation was voted to the current CNIB campaign. Boxes of apples were donated by members to be sent to the Queen Alexandra Solarium at Victoria. It was decided to serve tea to the Old Age Pensioners Assn. after their meeting on November 15.

Girl Guide Freda Bagma gave a talk on Holland as a requirement of a Gold Cord candidate.

An oil painting by Mrs. M. E. Collas was raffled and won by Mrs. Hilda Allison.

The next meeting will be held November 18.

Society Meets

Nine members of the Summerland African Violet Society and one guest gathered at the home of Mrs. Hanson in Jones Flat on Monday evening for a pot luck supper. The hostess had centered the table with a very effective arrangement of African Violets around candelabra. After the many tasty dishes had been enjoyed there was a short business session.

The next meeting will be held Monday, November 21 at the home of Miss Dorothy Britton, Peach Orchard. A cordial invitation is extended to anyone interested in African Violets to come out and join, also to bring along any "problem plants" for discussion.

Letter to the Editor

The Editor,
The Summerland Review,
West Summerland, B.C.
Dear Sir:

A letter appeared in your issue of 12th. Inst., that dealt with the use of Sodium Fluoride in drinking water, and I crave the privilege of writing further to the matter.

In describing the letter in your publication, as "Emotional" rather than "factual" I believe that many will agree, as for example the first paragraph, "why people who live in a so called democracy should try to force all people to drink fluoridated water." Democracy is "Government by the people". When this question is put before the people to be voted upon, the people will then say, by means of their vote expressed at ballot, as to whether they approve of the addition of Sodium Fluoride to their drinking water, or not. This will be "democracy expressing itself", and the will and desires of the majority will obtain.

The letter goes on to state "Why not give citizens a choice." The opportunity to vote on the question IS GIVING CITIZENS THEIR CHOICE, so that it is not at all clear as to why such a question is asked.

It would further appear that the writer of the referred-to letter does not disagree in principle to the use of Sodium Fluoride, but declines to its use in the form of the issuance of tablets, as apparently advocated by the President of the Clinton Board of Health, as "the Board felt it cheaper, less wasteful and less dangerous", and further, "is more

accurate and easier to control."

In rebuttal to this, may I quote from the August 1960 issue of The Royal Society of Health Journal:

"Yet much dental caries is preventable by the addition of minute quantities of Fluoride, one part of fluoride in every million parts of water. This is not 'mass-medication', the parrot cry of the antagonists to fluoridation - but ordinary common sense, as it is proven beyond reasonable doubt, that this level will reduce the incidence of caries in children by at least one-third." Further "The question of toxicity of this amount of fluoride added to water supplies is completely false. It can be said quite categorically that fluoride in doses of 1 p.p.m. in water supplies is completely non-toxic. Many communities have been drinking fluoride containing waters at or above this level for more than half a century, without ill effects, and the talk of cumulative affect of Fluoride is completely unproven."

The above mentioned Journal is one of the most scientific and most respected journals in Great Britain, and I for one, am quite content to accept the findings of such Medical Authorities who have no axe to grind, but are simply stating proven facts, so that "He who runs may read."

Fluoride is NOT a medicine and its use does NOT treat decay that is already present, therefore, is NOT MEDICATION: but is a dietary factor of great importance during the formative period of a child's teeth and further more, no res-

earch scientist has been able to find any harmful effects in the amount used, i.e., 1 p.p.m

It is interesting to note, that medical authorities who endorse fluoridation include such bodies as the Canadian Medical Assn., The Canadian Dental Assn., The Canadian Public Health Assn., The National Research Council, U.S.A., and the American Medical Assn., and questions directed to the Departments of Medicine of seventy-five Universities in Canada and the U.S.A., were answered with their unqualified approval of the plan.

Another point, that will undoubtedly occur to many; opponents of fluoridation have argued that religious freedom and the right of privacy is invaded and violated, and in many instances, legal redress has been sought.

Amazingly enough, judicial opinion in the matter has been unanimous and in no single instance have Courts of Last Resort, upheld such contentions.

Surely we, as laymen, not favoured with medical knowledge or training nor with the accumulated results of years of research work on the subject, are in no position to blithely state Fluoridation is, either bad, dangerous or unwise?

As to the question of "more effective control" by the "pill" method, this would seem to answer itself. It seems to stand to reason that if pills were issued to one hundred families, a portion of these would not use them at all or spasmodically at the best, others, conceivably would think - I missed yesterday, so I'll use two today. Wherein lies control, therefore?

Thus, the question appears to boil down to this - are we interested enough in the future dental health of children to provide them NOW with a proven preventive; designed to prevent (not cure) dental caries. If we are, then we should register our interest by voting - YES - when the question comes before us.

Yours truly,
William Brown.

Advance in what?

by Rev. Norman Tannar
Pride goeth before destruction, and a haughty spirit shall bring him low: but honour shall uphold the humble spirit. Book of Proverbs

The problem of Africa and the Congo especially, say the experts, is tribalism and fear. Get rid of these two evils and Africa can advance in culture and civilization. Advance to what? or are we so naive that we consider our western civilization and culture to be the 'only' and the 'best'.

Let us have the humility to take the same point of view as we look at the African as when we look at ourselves, even though it may show us to be as naive and simple as the native.

We deplore tribalism in the African, and yet display a denominationalism in the Church. Is there so much difference between the tribal loyalties and hates of the African and the false pride and pettiness of church de-

WA Tea and Bazaar set for November 26

The fall general meeting of the United Church Women's Association was held Monday evening in the hall with members from all circles answering the roll call. A new member, Mrs. Dorothy Jones was welcomed into the group.

The theme of the devotionals given by Mrs. J. Holman.

Plans for the Christmas tea and bazaar to be held Nov. 26 were discussed and members were reminded to bring in things suitable for the fishpond, also for the 25c grab bag. Magic Circle are again baking Christmas cakes and this project is under the convenership of Mrs. D. Munn. Preparations for the tea are in the hands of Ok-

wesu Circle.

Several members of the WA will attend the Joint Fall Rally of the WMS and WA to be held this Thursday in Osoyoos, Mrs. Colin Campbell going as official delegate from Summerland.

At the conclusion of the business meeting, Mrs. J. Wilcox gave an interesting talk on the inspiring highlights of the five day General Council of Women's Association of the United Church, held in Toronto in May. Mrs. Wilcox represented this Presbytery there.

The evening concluded with refreshments served by Century circle.

The December general meeting will be held December 12.

Services held for M. McGibbon

Funeral services were held Monday in the Penticton Funeral Chapel by Rev. P. K. Louie of Summerland United Church for Maxwell (Max) McGibbon, 44, who passed away at his home in Summerland on Friday, October 7.

The late Mr. McGibbon, who had been ill for the

past two years, retired from his position as research officer in the section of vegetable nutrition, at the Summerland Research Station in February of this year.

He is survived by his wife Margaret, one son, Peter, aged 7, and a four year old daughter Dilys.

Interment was in the family plot at Oliver

Next to Credit Union

Kiwanis Club Notes

At Tuesday night's meeting, the club had present as a guest, Hans Meierhofer of the Summerland Credit Union.

President John advised that the meeting next week will be at the Catholic Hall, when a pancake and bacon supper will be served. The occasion is especially for the younger fry. Bring your children fellows, and if you haven't any, bring those of somebody else. Afterwards the boys will be taken to the hockey game in Penticton, including the School Boy Traffic Patrol.

Scottie announced that an interclub meeting with Kelowna has been arranged for next Monday. It is hoped a good number will be able to go. Please meet at school at 5:30 p.m. and travel up together.

Fred Schumann showed some very interesting pictures of Eastern Canada and was thanked by Hilly Smith.

Make next week a good turnout so that we can give the children a good time.

Elections for office will be held Tuesday, Nov. 1.

Locals

Mr. W. S. Ritchie, president of the local Board of Trade, attended a regional workshop in Vernon Friday.

Donny Tait, 19 year old son of Mr. and Mrs. Eric Tait, has left by bicycle for a tour through the southern states.

Jack Gould, son of Mr. and Mrs. Les Gould is home from Penticton Hospital where he has been since receiving injuries in a car accident this summer.

Mr and Mrs. G. Axford of Vancouver visited with Mr. and Mrs. B. A. Tingley recently.

Visitors at the home of Mr and Mrs Gordon Beggs were the former's sister, Mrs. Thelma Newport and Mr. and Mrs. Stanley Ellis, of North Vancouver.

The Corporation of the District of Summerland Municipal Voters List 1960 - 61

Take notice that a Court of Revision, will sit to revise and correct said Voter's List on Tuesday, November 1st, 1960, at 2:00 p.m. at the Municipal Office, West Summerland, B.C.

The 1960-61 Voter's List will be posted on the Notice Board at the Municipal Office on Thursday, October 20th, 1960.

G. D. SMITH,

October 20th, 1960.

Guiders meet here

At a Divisional Guiders meeting held recently at the Youth Centre, 25 Guiders from the South Okanagan were in attendance. Chairman, Divisional Commissioner Mrs. Blagborne expressed pleasure at the response from lumber companies and mills in the South Okanagan who have donated lumber for the brownie retreat, now under construction at the campsite north of Wilson's Landing.

Mrs. Ross MacLachlan told of the four Guides in Summerland who are candidates for their Gold Cord and outlined some of the

challenges which are being carried out by these girls for the community, the church and Guiding. The Guide Association booth at the Fall Fair was given as one example of the challenges. This was carried out by two of the Summerland candidates. Two others are at present working in the local library. Other challenges will be accepted by these girls during the next few weeks to help prove their capabilities and Guide spirit.

CNIB Tag Day Raises \$233.00

A very successful tag day was held Saturday by the Summerland and District branch of the CNIB, with \$233.00 being collected.

The chairman, Mrs. W. S. Rothwell, would like to thank everyone who contributed or helped in any way. Special thanks go to the volunteer workers. They included Mrs. Cecil Morgan, Mrs. Joe Sheeley, Mrs. Hans Moors, Mrs. E. M. Tait, Mrs. George Washington, Mrs. W. R. Powell, Mrs. S. A. MacDonald, Mrs. Wm. Brown, Mrs. R. Cornish, Mrs. F. E. Atkinson, Mrs. James Marshall, Mrs. M. Robinson, Mrs. H. C. Whitaker, Mrs. George Wardle, Mrs. J. H. Dunsdon, Mrs. Norris Laidlaw, Ma and Mrs. G. Dinning, Robert Alstead, Mrs. C. Jones, Mrs. Anna Swinarton, Misses Dorothy Britton, Louise Atkinson, Lois Read, Mildred Clark, Darlene Miller, Janet Munro, Anthea Morgan, Darlene Swinarton and Nan Thornthwaite

The campaign will continue during the month and all who have not sent in their contributions are urged to do so. Treasurer is Gordon Dinning, RR1, West Summerland.

Mr. and Mrs. E. J. Courney of Wenatchee, Washington, returned to their home after spending the week end with Mr. and Mrs. C. B. Snow. Also visiting at the Snow home were Mr. and Mrs. A. F. Gladbury and Nancy of Oroville, Wash

(Continued from page 3)
nominations. So often we, as Christians, seem to attach more importance to what we belong than to what we are to be.

As to fear, we are just more sophisticated than the African native and pretend a cultured indifference. From the savage beating his idol because it did not bring rain, to the modern Canadian staying away from church because he gets nothing out of it, is not so wide a gap as sometimes we suppose. Idolatry, magic and fear are closely allied, both in darkest Africa and neon-light America.

If we have something to offer, let us offer it in humility as Jesus in humility offered Himself, lest we fall into the sin of pride and deceive no one but ourselves

HANDYMAN ABOUT THE HOUSE

By GORDON DONALDSON

Fall is a pretty season. The leaves turn to red and to gold and to brown, and then they fall off and lodge in your eavestroughs.

And the eavestroughs turn from silver to brown and to black and then they fall off. And big damp patches spread down the side of your house which turns from white to brown or red to brown.

And the paint peels off in pretty big flakes. And then they fall off and float down to the ground — just like autumn leaves.

Nature's a wonderful thing. But you can beat it if you act now and clean out all those pesky leaves.

Get up there on a ladder and get to work with a broom. Most of the dirt and rust can be scraped out of the gutters with a wire brush. Hose the gutters to get rid of soot, which can corrode. Once you've cleaned them look for new leaks that may have been plugged up with dirt. Patch these before they have time to cause ugly stains on the walls below.

The common galvanized iron gutter needs to be well covered with metal primer, plus paint or eventually it will cause trouble. Aluminum, copper or stainless steel gutters will survive without this.

But no gutter is much good unless it is properly pitched. It must slope smoothly down

to the downspout. If it doesn't, bend the metal hangers to correct the slope.

Be sure the gutter edge is well below the edge of the roof. If the downspout is clogged, borrow a coil-spring auger—the type used for unclogging house drainage systems—and poke this through.

If there is no strainer on top of the downspout, fit one. An old piece of window screen wire will do.

Next, proceed on up the slope of the roof and look at the valleys—the metal drainage troughs uncovered by shingles—for rusty sections or holes. Sweep them clean of dirt or leaves.

While you're up there, have a look for loose shingles. They come away from time to time.

The asphalt kind can be stuck down with roofing cement if they tend to flap in the breeze. If a shingle has to be renailed in place be careful to pry out the nails holding down the one above before sliding it back in and hammering down.

Small leaks in the roof can be cured by sliding in a piece of heavy roofing felt and sticking down with cement.

Once you're convinced the roof is sound and ready for the winter, climb down and take things easy for a few weeks.

Then, when the last russet leaf has fallen, make one last sweep around the gutters just to make sure.—T.N.S.

Scout Activities

Work is progressing well on tests and the troop should soon have 3 or 4 new 1st class Scouts. Work on Pathfinders Badge, one of the Queen Scout's badges was commended on Monday under Mr. S. W. J. Feltham. Cub-recruits Bangma, Fenwick and Myers are to be invested next week.

Fred Grunell was appointed Patrol Leader of the Buffaloes, succeeding P. L. Robertson who has moved to Salmon Arm.

This coming Saturday, October 22, will be the date for the fall all day hike. Boys will meet at the cow barn, Research Station, at 8:30 a.m. The hike will be past Jerry Mountain on a route laid out by P.L.'s Fiske and Beaver Patrol. Leaders have arranged in their patrols for transportation to the start-

ing point and returning home at 5:00 p.m. Boys should take a lunch (to be cooked outdoors preferably) and a snack for the afternoon.

Boys wishing to pass 2nd class must take along one-quarter lb. of meat and two potatoes to cook. We hope to make plaster of paris casts of animal tracks on the hike.

Next meeting Monday, Oct. 24 at 7:00 sharp. Duty patrol Beavers. Patrol competition standing: Hawks 63, Beavers 74, Eagles 48 and Buffaloes 76.

Municipal assessments and taxation

Thank you

We want to thank the fire department and every one who rendered such wonderful and helpful assistance in saving our store and buildings from catching fire when our neighbours, the B.C. Fruit Shippers, suffered their misfortune.

T.S. Manning

(Second in a series of articles on municipal assessment. Not to be copied in whole or part without permission.)

In the first article in this series the place of property and its use as a barometer for wealth was shown. Economic changes brought about by shipping and manufacturing were cited. In the present article the impact of this, and the reversal of the ancient principle of "land means wealth" will be shown.

In Europe and America shipping and sea trading on the one hand, and industry on the other each created new demands.

But the weight of wars meant greater and greater taxation, practically all of which was derived from property. There seemed, in that day, no sure way to make other channels of money carry a realistic share of the lot.

No need here to dwell on details, nor to fix times, dates and other impediments. For the present we

need but concern ourselves with broad principles and the accumulated results of the march of events. Yet there is one item, a significant one, that must not be bypassed.

This is the advent of schooling for the masses. This did not come about in one broad step, but in a series of stages: first what in Britain, is called the public school, for which parents pay, and pay handsomely to have their boys (and later girls) attend. Broadening out of schooling to take in all children, the North American version of the "public" school necessitated new taxation, and that tax was added to increasing load already on the land.

The old style melodrama required a villain, and if there is to be one in this current series, it is that fact of putting the cost of schooling on the soil.

We can skip lightly over the period from the mid-19th century to the end of World War I. During that span of years the pressure on the land had been stepped up enormously, and the returns from it had been steadily diminishing in relation to costs of operation.

In Appreciation

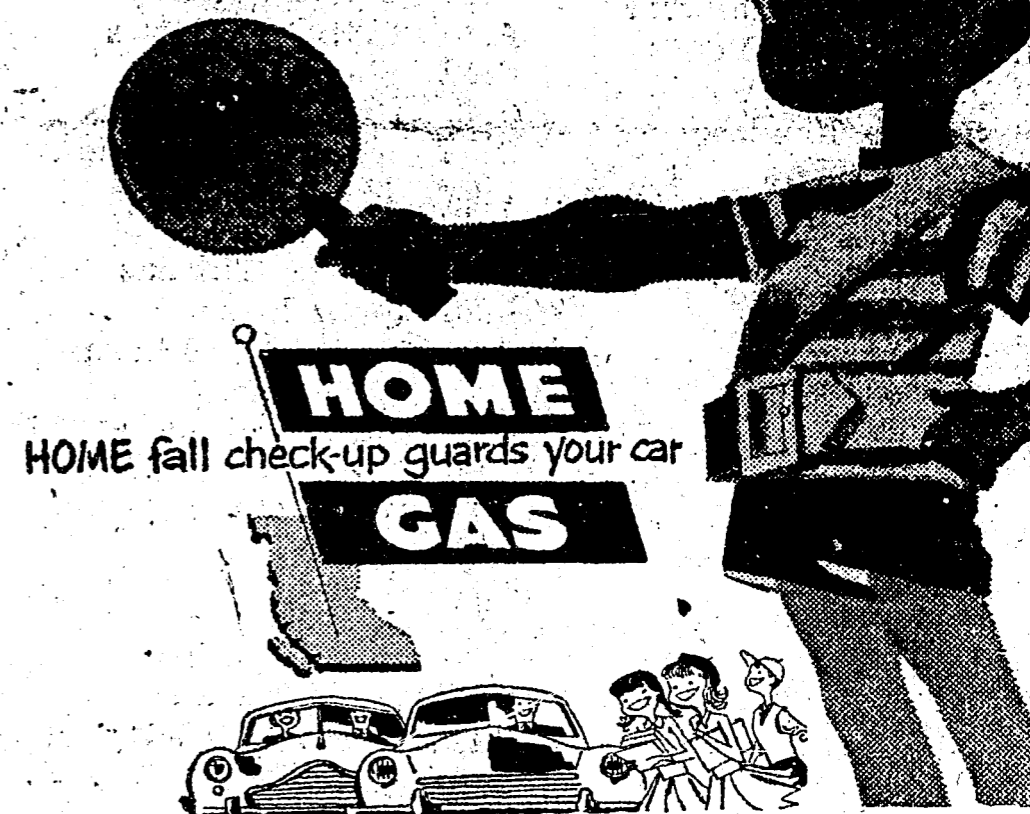

We wish to thank the members of the Summerland, Penticton and Peachland fire brigades who worked so valiantly and so long in endeavouring to control the fire which destroyed our main packing house and cold storage. Also the many individuals and organizations who helped or offered help. This is deeply appreciated.

May we mention that the interests of our growers in fruit destroyed is adequately covered by insurance.

Under the Giant's Head

Winner of the Review's Lucky Number contest last week was Mrs Helen Andall West Summerland, who had newspaper No. 145. Another \$2.50 is offered in this week's Lucky Number contest, this time to the person who finds

No. 701

one of the advertisements in this issue. It isn't a date, name, address, telephone number or any combination numbers, but just

No. 701

it appears. Copies of this edition of the Review are numbered consecutively in each ad only, but only

No. 701

the winner. The finder could bring or mail a clipping of the ad to this office before Tuesday noon, November 1, to claim the prize.

Word has been received by the Catholic Women's League that their long-awaited adopted refugee family sailed October 25. They will arrive in Quebec November 7 and probably arrive here about November 15.

Saturday Mrs. Tommy Inaba brought into the Review a couple of samples of delicious raspberries she had just picked in her garden. Mrs. Inaba said she picked over two pounds. Ah, happy Summerland.

The night school's millinery class needs more pupils to carry on. Classes meet on Thursday, Oct. 27, at 8 p.m.

Summerland branch of the Canadian Legion will hold Remembrance Day Tea on November 5.

The meeting of the Okanagan Boundary Associated Gardens of Trade will be held in Summerland, Wednesday, Oct. 2, in the IOOF Hall.

Mr. Jack Kirk of the Farm Labour office reports he had 70 applications for work this year. Of a total 771 placements, 671 were males and 100 females. The Farm Labour office will close the end of October.

Why not send your kids skating? It's the best answer to the old cry "there's nothing to do." A season ticket, a pair of skates and a youngster is all set for winter of good fun and healthy building exercise. Skating classes for boys from 10 years, 10-12 years and 13-16 years are held Tuesday, Friday and Saturday. No more "pup" teams have been added this year.

Municipal council has decided to send a letter of thanks to Penchland and Penticton for their help in fighting the disastrous B.C. shippers blaze. The local Retail Merchants Association have also sent a letter of thanks to the two committees.

The Summerland Review

Wednesday, Oct. 26, 1960

West Summerland, B.C.

Volume 15, No. 44

Council changes Site of Senior Citizen's Home

The proposed Senior Citizen's Home will be built next to the Health Centre on the southwest corner of the lot and not on the Wharton lot as formerly planned. The resolution to build on the Wharton lot was rescin-

ded at Tuesday night council meeting.

A bylaw authorizing erection of the \$160,000 home of which the municipality's share would be \$60 to \$70 thousand dollars will be presented at the municipal elections in December. Council hopes that part of the labor costs will be obtained under the government's winter works program.

Work on the financing is going on and Reeve Atkinson stated that if the finances are made available, both from government sources, and the municipal by-law, work should be ready to start on the Home by the middle of January.

Decision to change the lo-

cation was based on three factors: traffic noise on station Road hill, better drainage than on the Wharton property, and to get the optimum building site on the Wharton property, the home would have encroached 100 feet on the park playground.

B.C. Fruit Shippers back in operation

B.C. Fruit Shipper's fruit started rolling again Wednesday night at the Occidental packinghouse. They are almost up to full staff again and will handle the fruit at the Occidental on the night shift.

Manager Chuck Bleasdale told the Review that the safe had been opened and all the records found intact and readable.

The fate of B.C. Fruit Shippers has not as yet been decided as the adjustment has not been made with the insurance people. At the moment an architect is working on replacement costs of a new building in order to have these figures ready to present to the growers at a meeting which will be called as soon as the adjustment is completed.

Motorists must stop for school bus

Local RCMP are still receiving reports of motorists who fail to stop when approaching a stopped school bus. New regulations provide that motorists must stop when approaching or passing a school bus with signal lights flashing or signal arm raised.

Corporal Martin told the Review that bus drivers are going to start taking the licence numbers of cars that fail to observe this regulation, and registered owners of the vehicles will be prosecuted. Fines range from a minimum of \$10.00 to a maximum of \$300.00.

Dentists in short supply

Mr. Bob Alstead represented Summerland council at a meeting of the South Okanagan Union Board of Health in Kelowna recently. Mr. Alstead reported in regards to dental health we are running into a crisis. Today for every dentist in B.C. there are 2,400 people and a dentist can only treat 1,000 people each year. 1,400 must accept emergency treatment or nothing. Six years ago it was only 1,000 who went without dental care.

Civil Defence officer reports

Civil Defence officer Ivan Phillips reported to council Tuesday night. Mr. Phillips suggested that one of the key personnel in the municipal crew be sent to the Civil Defence College at Armpire, Ont. for a rescue course. After taking the course, Mr. Phillips felt this person could then train others here.

Mr. Phillips hopes to raise an auxiliary fire fighting service in Summerland.

Reeve Atkinson thanked Mr. Phillips and added a word of commendation for the fine job he is doing.

Eastern Star Tea to help work in Cancer

The annual Eastern Star tea will be held October 29, in the IOOF Hall at 3 p.m. Conveners for the tea are Mrs. Nels Charlton and Mrs. J. M. McArthur.

A sale of home baking will be held in conjunction with the tea.

The main activity of the Eastern Star is its work in cancer. They provide money

for research and also spend many hours each year making dressings for the dressing stations. The tea is held to provide funds for these objectives as well as other charitable works.

A door prize of two food hampers will be given away. Mrs. G. A. Laidlaw, Worthy Matron, will receive at the door.

Be a donor November 4

The Red Cross Blood Donor Clinic objective on Friday, Nov. 4 is 300 pints. Last year 328 pints were collected and chairman N. O. Solly says he hopes the response will be as good this year.

Mrs. Eric Smith is in charge of the nursing section and refreshments are under the convenership of Mrs. R. G. Russel.

The clinic will be held in the United Church Hall, from 1:30-4:30 and 6:30-9:30.

Successful campaign for Youth Centre

E. R. Butler told the Review that the Youth Centre campaign to date has raised \$968.95. With several sources still to hear from it is hoped to raise \$1450.

The money is to be used on a new cloak room, improvements on seating, improvements in the basement and painting of the outside wall. Work on these projects will start at once.

Let's have a safe and sane Halloween

"I hope the young people of the community will cooperate this year as much as they did last year, in making this a safe and sane Halloween." Corporal Larry Martin of the local RCMP told the Review this week. "Both the police and municipal council were very pleased with their behaviour last year."

Starting October 25 a 9:30 p.m. to 6:30 a.m. curfew will be enforced for persons under the age of 18 years.

Just to be on the safe side Corporal Martin reminded householders to put away garbage cans, etc. and leave their porch lights on.

There will be free skating for everyone at the arena Halloween night, Oct. 31.

Letter explains work of Senior Citizens Home Committee

The following letter was written by Mr. E. H. Bennett, at the request of the Review, to inform our readers of the work and planning that has been done toward building a Senior Citizen's Home here in Summerland.

Dear Sir:

In reply to your request for information on the proposed Senior Citizens Boarding Type Home, I am sending you the following.

Early in 1956 the Municipal Council purchased the property known as the Dunn property or Charlie Wharton's old property, which consisted of approximately one and three-quarters acres, for the purpose of building a residence for our senior citizens.

That spring a public meeting was called by the Municipal authorities to discuss the project. At the second

meeting the following committee was formed. The members were: Mrs. F. E. Atkinson, Miss Jean Bennett, E. R. Butler, George Perry, Eric Tait, S. A. Macdonald (as secretary), E. H. Bennett (as chairman) and the late W. R. Boyd.

The committee was divided into groups to investigate different housing units throughout the province. The Home at Oliver was visited, the Valley View Home in Penticton, the Lloyd Jones Home in Kelowna, and the Rotary self-contained unit project in Kelowna. We also obtained information on a number of housing projects in the Kootenays and at the coast, and received a great deal of information from all of these sources.

After careful study of this information the committee decided on a Boarding Home

Type of accommodation, first, and suggested that latter of we might build self-contained units.

In due course a report was made to the Municipal Council on the decision of the committee.

The committee was asked to prepare rough plans of what we thought would serve the needs of Summerland and report back to the council. A rough plan was submitted to the architect who put it on a drawing and gave a rough estimate of cost. This also was presented to the council.

Early in 1958 the question arose among a number of people especially Old Age Pensioners, whether the Boarding Type Home or the Small Cottage Type Homes or Self Contained Units was most suitable. The Reeve then suggested that we put (Continued on back page)

Brownies hold enrollment ceremonies

The 1st and 2nd Brownie Packs have each held an enrollment ceremony recently. On Tuesday, Oct. 4, at the Youth Centre, Patsy Ganzeveld, Maureen Fitzpatrick and Susan Kean were enrolled into the 1st Pack whose Brown Owl is Mrs. Jack Mason and Tawny Owl Mrs. H. Waterhouse. At the same ceremony Elaine Charles and Josephine Rumpf received athletes

proficiency badges, and Diane Brennan, Jane Perry Barbara Inch and Maureen McLachlan received their Golden Hands.

On Friday, Oct. 14, the 2nd Brownie Pack under the direction of Brown Owl Mrs. W. Evans and Tawny Owl Mrs. Lawrence Charles held a similar ceremony when Jill Brennan, Barbara Brandon, Rosalie Bruce and Nancy Barkwill were enrolled, and Judy McWhinney and Sharon Potter received their Golden Bars.

At both these ceremonies District Commissioner Mrs. Ross McLachlan officiated and parents of the Brownies were present.

The 3rd Brownie Pack under the leadership of Brown Owl Mrs. Geo. Ryman has two new assistants, Mrs. L. Martin and Mrs. Mel Hyde.

Executive Plans winter Square Dances

The executive of the Pairs and Squares met at David Muan's home last Tuesday.

The treasurer's report indicated that the three dances of the summer season had been financially successful, as well as enjoyable.

A report was given on the October 15 party night. Although there were 100 dancers in attendance, very few club members turned out, owing to the B.C. Shippers fire that night. However, those present managed to handle the usual work involved, and the enthusiasm of the dancers was a good indication of how much they enjoyed the evening.

The executive felt that all the club members should be made to realize how important their contributions help

Since the membership is not large enough to pay for our instruction during the winter months, we rely on the proceeds of our party nights to finance both beginners classes and intermediate dance nights.

In addition to the profit end of things, they provide an opportunity to dance to other callers, and to meet square dancers from other towns. There is always work involved, but if it is shared no one feels overloaded and everyone can enjoy the dancing.

Plans for the next party night on Nov. 19 are well underway. Bill French will emcee, and the menu will include hot casseroles and salads.

A very attractive banner, made for the club by caller Don Popham of Kelowna, will be put up on the south wall of the Youth Centre.

Chuck Inglis has been engaged to MC the annual Christmas party. Turkey supper, including hot mince pies, was suggested, and in view of the expense involved a higher admission charge would be necessary. However, the executive felt that the increase would not be enough to keep people away. Approval of the whole membership will be sought before finalizing these plans.

The phoning committee was asked to contact all members to remind them of "Bring a beginner night" Oct. 21 and Intermediate dance night Oct. 25.

The executive expressed appreciation of Mertice Stankowy's efforts on behalf of the junior dances.

It is hoped all three dance groups will be enjoyable and well attended.

The 1960-61 Voter's List will be posted on the Notice Board at the Municipal Office on Thursday, October 20th, 1960.

G. D. SMITH,

October 20th, 1960.

Municipal Clerk.

"PAY TO THE ORDER OF..."

It took only moments to write Jim's cheque from home; it will take him only moments to turn it into cash at his local bank.

Jim's cheque is only one of 2,500,000 handled every day by a clearing system operated by the chartered banks that reaches into every corner of the nation and runs around the clock.

This vast and efficient system which enables Canadians to transfer money simply and conveniently from person to person, place to place, is one of many ways in which the chartered banks keep pace with the needs of a growing, expanding Canada.

THE CHARTERED BANKS
SERVING
YOUR COMMUNITY

Editorials

Those little emblems should be worn

We think the following editorial from the Kinderley (Sask.) Clarion expresses an idea that could be readily used in Summerland. With the Red Cross Blood Donor Clinic coming here on Friday, November 4, now is the time to follow the suggestion of editor Bob Reid and dig out those little emblems.

"Once again, I invite the owners of Blood Donor buttons to dig them out and dust them off and pin them up on their working clothes to be worn every day from now until the date of the clinic. If wearing your button does no more than remind one person to keep the clinic date open, you will have done a fine thing.

I suspect that these little emblems of citizenship if we could only remember to wear them, could do more to produce the sorely needed increase in donor attendance than all the editorials we are likely to produce in a lifetime. There are hundreds of them distributed around this district, probably languishing in bureau drawers and jewel cases. That's not what they were made for. They were made to remind the general public that there is a constant need for donations to the blood bank and that their wearers have been doing their share. It is a shame to let them lie idle when there is an important job they should be doing.

More scriptures needed

In a world where the Christian Church is facing an unprecedented opportunity despite the forces arrayed against her, it is imperative that Scripture production be speeded up to make available to the missionaries the truth which alone can make men free, declared Rev. J. A. Raymond Tingley, provincial secretary of the

Canadian Bible Society, at a largely attended rally of the local branch of the Society in the hall of the West Summerland United Church.

Rally was conducted by Rev. P. K. Louie, assisted by Rev. Lyle Kennedy and Rev. Rathjen. President of the local branch is Wilfred King, secretary is John Graham, and treasurer G. Charman.

TIPS FOR PARENTS

By HELEN R. HEWSON—Parent Education Associate.

WHEN the child is encouraged to read books at home, it not only improves his reading ability and his school work, but it also provides a means of quiet relaxation and enjoyment.

In the early years home reading should certainly be for fun. To overemphasize the practical value of reading to a child only dampens his enthusiasm.

He enjoys reading for its own sake. He enjoys turning the pages, browsing and then settling down to a good story.

There is benefit for all the family to be found in books. So often as the children grow older their parents complain, "He tells me nothing." The growing apart continues and causes distress, especially in the adolescent years.

The art of communicating with each other has never been developed. Reading and discussing books and favorite stories together is one way this art is fostered and developed.

Sharing thoughts and ideas is an art. It doesn't just happen. It grows out

of experiences shared and enjoyed in the family. Experiences that leave something to talk about.

Families who build up the habit of sharing pleasures, bits of news, jokes and moments of fun just naturally fall into the habit of talking it over when more serious matters arise.

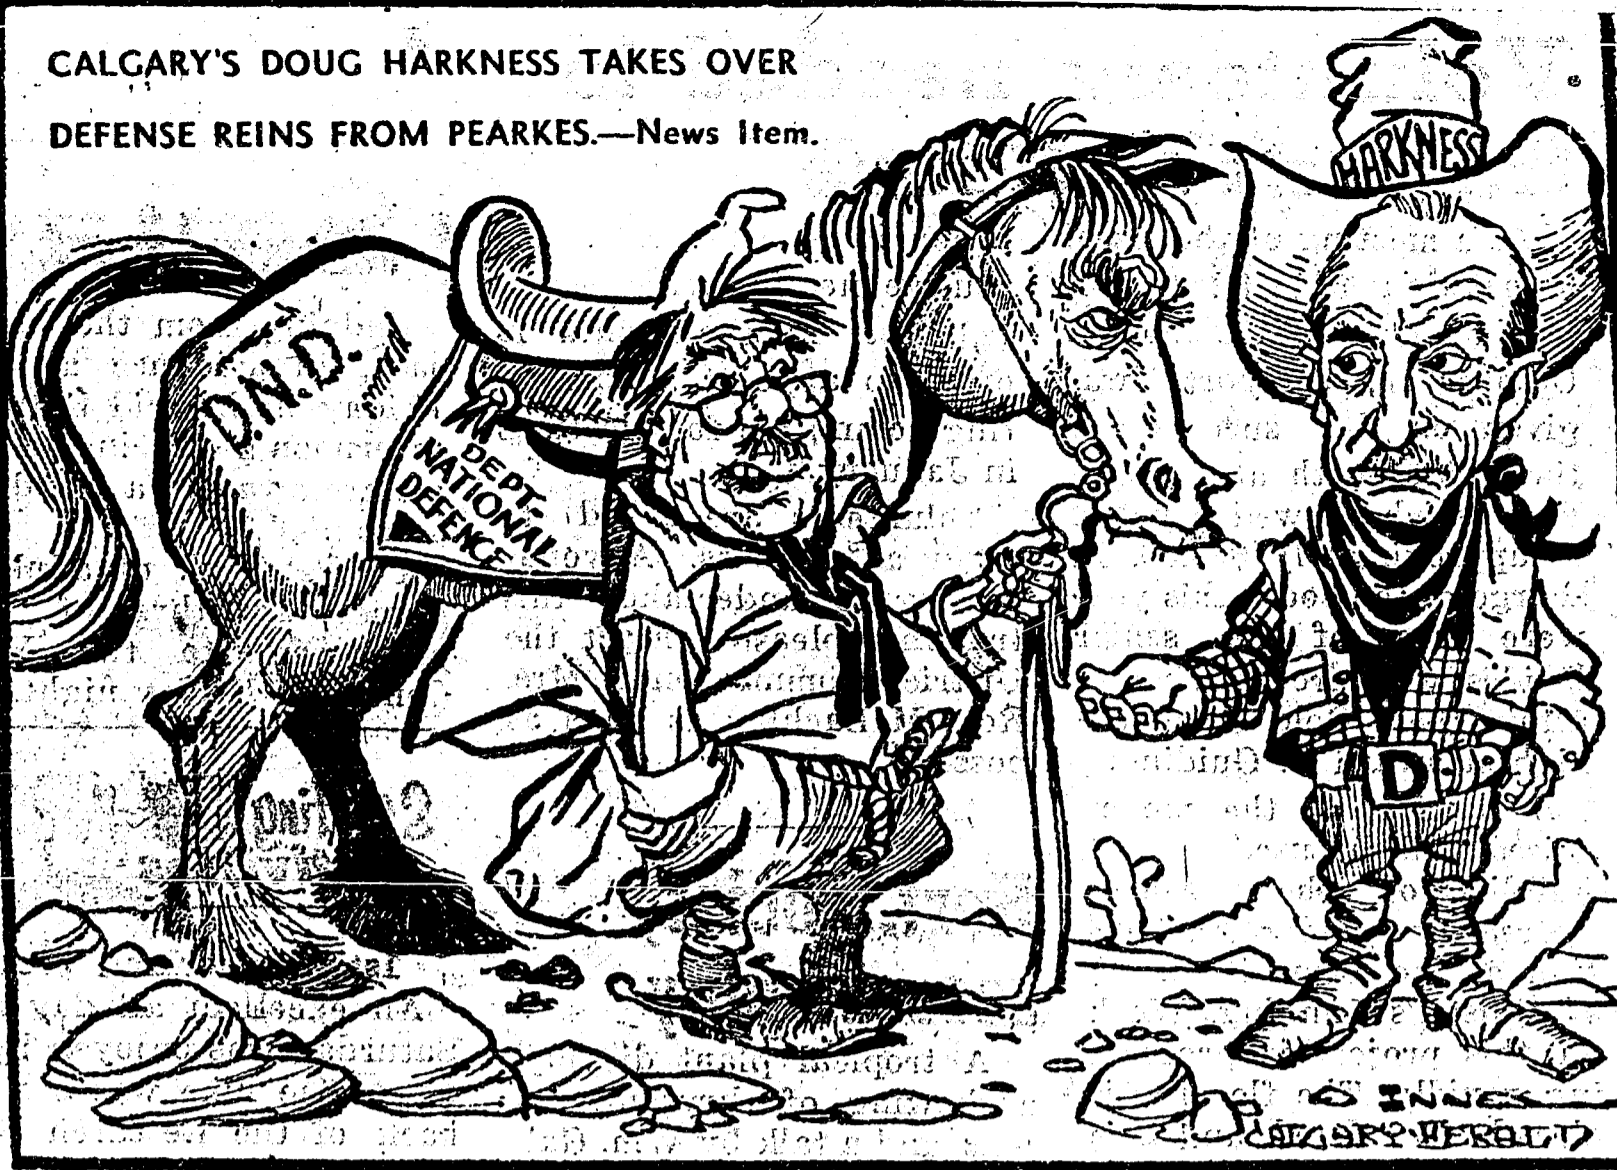

Take a trip to your local library, take the children along and let them see and choose for themselves from the book stock. If the bedtime story is not an institution in your house, get it started.

Books must be old and trusted friends if they are to have a place in building a real companionship between parent and child. They are not a device to be used in an emergency.

Changing patterns of family living have removed many of the tasks that formerly provided the time and the opportunity for shared experiences in the home.

Today's parents must make a conscious effort to develop the kind of relationship that enriches the lives of both parent and child.

CALGARY'S DOUG HARKNESS TAKES OVER DEFENSE REINS FROM PEARKES.—News Item.

"Watch her... she has a tendency to buck"

Letter to the Editor

The Editor,
Summerland Review,
West Summerland, B.C.
Dear sir:

The letter on the subject of fluoridated water written by Erma Anderson and recently published in the Summerland Review, contains many inaccuracies.

No one is trying to force all the people to drink fluoridated water, they are trying to persuade them by informing them of the benefits to dental health, and proven safety, when taken at the strength of 1 part fluorine to a million parts of water (1 p.p.m.) Since the recommendation is made in the matter of a plebiscite, democracy is served.

It is not medicine, it cures nothing, but substantially, though not completely, prevents the decay of teeth. I is not mass medicine if this infers that all must drink fluoridated water. If the process is not acceptable an appliance can be installed that will remove the fluorine. Summerland water, right now, has 0.37 ppm of fluorine. Therefore, to be consistent, an objector to fluorine should not be content until this amount is removed from the water. The arguments as to there being any effective difference between the naturally occurring fluorine, and that put in artificially, has been settled long ago. There is no difference, fluorine is presented to the body as a fluorine ion in both cases, regard less as to whether it is calcium fluoride or sodium fluoride before it is dissolved in the water.

Regarding the use of tablets, they are not cheaper. The cost for each individual for tablets is \$3.65 for the

year. It is less than 10 cents per head for the fluorine salt and less than 10 cents per head per year for a ten year amortisation of costs of the fluoridation apparatus for the water supply in Kelowna. It is preferable if all members of the community drink the fluoridated water and not children only, benefits result to the teeth.

Tablets must be taken daily by children for good results. How many parents can be relied on to supervise this?

Tablets are more dangerous as children frequently get at medicines and take lethal doses. It is virtually impossible for a dangerous amount of fluorine salt to get into the water supply by means of the apparatus.

Commenting on unfavourable reactions, the World Health Organisation Pamphlet No. 146 states "No confirmed cases of allergy to fluoride have been described in population groups drinking controlled or naturally fluoridated water."

Chronic intoxication and adverse results from storage in the body dose not take place at the level of fluorine at 1 ppm when consumed for a lifetime. If it were so the Medical and Dental Associations and the Public Health Authorities of the North American continent would be vigorously opposed to its use.

Medicines are prescribed to cure sick persons and are individually prescribed. No one has suggested that they should be put in a water supply. Fluorine is for the use of healthy persons to prevent them becoming sick, it is a nutrient and is no medicine. There are many

such processes, all fiercely objected to in their time, and now seen to be the reason why a great number of us are alive today. Such processes as vaccination, immunisation, chlorination of water, pasteurization of milk and the putting of iodine in salt are all used for the prevention of sickness of healthy people. The do not cure once a disease has been contracted.

Erma Anderson is undoubtedly keen on the preservation of health, but the doubt in the minds of lay people cannot be compared with that which was in the minds

You and your children

by Rev. L. Kennedy.

How much have your children found in their home to make God real to them? The sacrament might appear to them more powerfully had every meal at home been given a sacramental flavor through the saying of Grace. The Bible might mean more to them had its great words and thoughts been interwoven with the home life. Prayer might seem natural to them had they found it a part of the atmosphere of the home. What does it mean when God says to your son, your daughter, who stands dazed, excited, yet bewildered before this burning bush of modern knowledge, wondering vaguely what it means at the heart of it. "I am the God of your father and your mother." Does it open their eyes to the deep meaning of life? Or does it lead them to set religion aside with other childish things?

"Parents wonder why the streams are bitter when they themselves have poisoned the fountain."

of the scientific investigators. They applied a harsh, critical analysis to the problem for many years before they felt it possible to recommend the process of the fluoridation of water at the strength of 1 ppm for the prevention of 60 per cent of dental decay.

Yours faithfully,
H. J. Phillips, DDS, DDPH,
Regional Dental Consultant

Volunteers needed to train as Guiders

At a meeting of the Local association of Girl Guides held in the Youth Centre on October 18, a report was given on the success of the Guide booth at the Fall Fair which showed a profit of approximately \$65.00. In charge of the booth this year were three of the senior Guides who are striving to attain their Gold Cord, the highest award in Guiding.

A portion of the money raised will be used for the building of the Brownie Retreat now under construction at the campsite north of Wilson's Landing. Work on this project is proceeding rapidly. The flooring is already completed, and it is hoped to install the fireplace some time this month. A volunteer work party is required to put in uprights this week end.

The semi-annual Guiders meeting will be held in Penticton November 14 and there will be a fly up of Brownies into Guides at the Youth Centre Nov. 16.

There will be no general meeting of the Local Assoc-

iation in November. An executive meeting will be called late in the month in order to appoint a nominating committee for elections in January.

Volunteers are asked to train as Guiders. Anyone willing to undertake this training, please contact the District Commissioner, Mrs. Ross McLachlan as soon as possible.

Hort. society sees display

A tropical plant display, a showing of chrysanthemums, and a talk by Wm. Gallop was enjoyed by a large attendance at a regular Horticultural Society meeting last Friday evening in the Anglican Parish Hall. Mrs. Alez Inch, president, was in the chair.

Mr. Gallop answered many questions following his instructive talk. The cyclamen which he donated as a door prize was won by Mrs. H. B. Mair.

Square 'em up

Judging from the enthusiasm in evidence at both Friday night and Saturday afternoon's dancing lessons, we are away to a wonderful season.

Two squares of adult beginners and three of teenagers were at the Youth Centre on Friday night. Ray

1st Summerland Troop
An excellent all day hike Saturday was enjoyed by 16 boys. The hike was 6 miles back of the Research Station up to the 3500 foot level where 4 small semi-stagnant but beautiful lakes are located. Plaster of Paris casts were made of the numerous tracks of deer, bear, bobcat and coyote.

A perfect turnout of 24 boys was on hand at Monday night's meeting. Featured at the meeting was a talk by Constable Best of the local RCMP detachment who spoke on traffic rules, safety and accident reporting. Mr. Feltham continued his instruction on Pathfinder's Badge. Recruits Fenwick, Myers and Bahgma were invested into the troop. The other recruits must get a move on studying tenderfoot tests as we wish to invest several boys each meeting from now on. Parents co-operation in this is requested.

Uniforms are coming along well but there are still a number of boys lacking short pants and socks. We hope that those boys without full uniform will complete their outfit at the earliest possible date.

This week end a number of boys are going out on their 1st class hike — good luck! On account of Halloween next Monday, there will be no meeting next Monday. However boys wishing to pass tests should get in touch with the leaders.

Next meeting Monday, November 7. Duty patrol, Hawks.
D. V. Fisher, Scoutmaster.

Services Held Oct. 21 for Mrs. Shepherd

Mrs. Florence Emily Shepherd passed away in the Penticton Hospital on Tuesday, October 18 at the age of 87 years.

She is survived by two nephews and three nieces, Mr. Sam Broad, New York; Mr. Charlie Broad, Vancouver; Mrs. Molly Pelham, Penticton, Mrs. K. M. Heath, Plymouth, England and Mrs. Alice Thornber, Sheringshire, Scotland.

Funeral services were held in Summerland United Church, Friday, October 21, with Rev. P. K. Louie officiating, assisted by Rev. R. C. Gates. Interment Family plot, Peach Orchard Cemetery.

Born at Summerland General Hospital to:
Mr. and Mrs. R. Akerly,
boy, October 15.
Mr. and Mrs. D. Dalin,
girl, October 23.

Singers & Players start Practices

All the pomp and pageantry of the Elizabethan era is to be brought to the public by the Summerland Singers and Players in their production of Edward German's "Merrie England." You will stand under the legendary Herms' Oak, and be taken to the Bank of the Thames by the artistic hand of Mr. Gladwell. The costumes will be authentic reproductions of Queen Elizabeth's time with such splendid figures as the Queen herself, Sir Walter Raleigh and the Earl of Essex in attendance.

This operetta was currently revived by the Sadlers Wells Co. in England and was produced by the North Vancouver Players last year. The main principals consist of four women and five men with a complete cast of approximately forty-five. Scheduled to go on the stage late in February the singers have already started rehearsals but are still on the lookout for a few more members to fill out their numbers.

President of the organization this year is Mr. Peter Beulah of West Summerland. Mr. Stan Gladwell is stage director and Mrs. F. McNeill of Penticton musical director.

Kiwanis Club Notes

The Kiwanis Club held its Tuesday night meeting in the Catholic Hall and were hosts to the sons and daughters of members. The younger people outnumbered the members, and seemed to put away a prodigious amount of pancakes, bacon and sausages, which were cooked by Jerry Halquist, Ken Heales and Walter Toaves.

Several cars left for Penticton directly after supper, to take a number of boys to the game, and for those remaining, Nick Solly showed some appropriate films. Owing to the type of supper meeting, no business was transacted, but president John announced that elections for officers for the year 1961 will be held next week.

Nick Solly once again is spearheading the telephone round-up for the Blood Clinic, to be held in St. Andrew's Hall on the afternoon and evening of November 4. Everybody in Summerland and Trout Creek will be contacted during the coming week by telephone by a Kiwanian, and it is sincerely hoped that all who are able will lend their support

(and donate their blood) to the Red Cross Blood Bank. The demand for blood is both great and urgent, so we urge you, all of you that are able, to give us your help in this matter.

"I was framed," seems to be the comment of this sad-eyed beagle as he sits behind the wire mesh of San Antonio's dog pound. The tag on the mesh read: "Hold for burglary investigation." The beagle was left behind by young burglars who vandalized a school. But the beagle's plight brightened when his owner called to report he had a beagle that had been stolen. Police quickly dropped the "burglary" charges.

Two new Courses at Night School

If you are interested in sandwich making and cake decorating, the night school courses for these subject begin at the high school on November 2 at 8 p.m.

Mrs. K. M. Thomson, teacher in the Home Economics department at high school will be instructing.

The same evening at 8 p.m. Mrs. W. Durick will start a course in gift wrapping. On the agenda are fancy bows, decorated boxes, and specialized wrapping for invalids, gentlemen, children, young adults and those in the older age groups. Party wrapping and personalized wrapping will come later.

There is still room for

more registrations in both these groups. Remember, 8 p.m., November 2, at the

Teachers meet in Kelowna

At a general assembly on Saturday morning, the Okanagan teachers convention meeting in Kelowna heard from the British Columbia Teachers Federation, first vice president Ken Aitchison and the general secretary of the organization C. D. Owens high school.

Saturday afternoon various committees met including the executive of the Okanagan Valley Teachers' Association. A special session of the extra sessional course on mathematical Analysis given by Dr. Restrepo from the University of B.C. was held at this time.

The three day sessions ended Saturday afternoon with many teachers laden down with sample material gleaned from the large displays of educational material which lined the walls of the Kelowna High School gymnasium, and many stimulating ideas which resulted from the discussions in the section meetings.

Trout Creek PTA Elects Officers

The first meeting this fall of the Trout Creek PTA was well attended on Thursday evening when Mrs. N. Charlton, past president, installed the new officers as follows: president, Mrs. C. C. Strachan; vice president, Mrs. Roberge; secretary Mrs. H. Smiley; treasurer, Mrs. B. Swinarton; executive program, George Wardle and G. Ryman; membership, Mrs. J. Miltimore; ways and means, Mrs. S. Hodge; social, Mrs. S. Porritt; publicity, Mrs. H. Hackman; historian, Mrs. Harms. Magnus Tait is honorary president.

It was agreed to continue giving the book prize at each meeting. The class with the most parents in attendance to receive a library book, the prize for the October meeting going to the Grade 1 and 2 class.

Mrs. Harms volunteered to look after the Credit Union collections each Thursday at 12:40. Just the pupils in grades 3 to 6 participate in this.

After the business meeting a film "The Social Sixes to the Noisy Nines" was shown. Following the showing the members joined in discussing the film. The social committee served lunch.

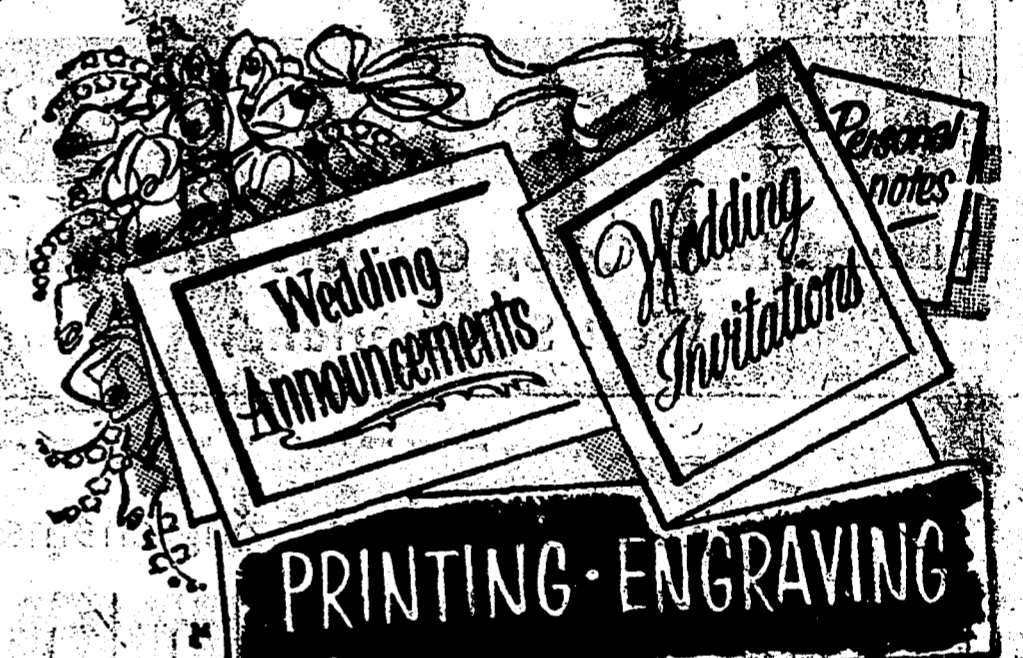

History of Municipal Assessment

(Third in a series of articles dealing with municipal assessment and taxation. Not to be reprinted in whole or part without permission.)

World War I changed the whole balance of the world's economy; among other things it intensified the burden of taxation on land. And now, for the first time, in older lands, ownership of estates became a burden rather than an asset, so much so that from then until now, large estates have increasingly been taken over by the state.

And in other parts of the world, this continent for instance, the state had to take over other estates — farms, raw land, even homes, for non-payment of taxes. World War II and events subsequent to it have changed things, made marginal lands once more profitable with more and more people having the chance to own their own home and the privilege of paying taxes on it.

To them, the mystery of values of differences and differentials in taxation and assessment is, for the most part completely bewildering. (To be continued)

HANDYMAN ABOUT THE HOUSE

By GORDON DONALDSON

Fences tell you a lot about the folk who live behind them. There are wall-fences eight feet high with broken glass on top to keep intruders out; chicken-run fences to keep youngsters in.

Friendly fences for leaning over, tiny fences for tripping over; quaint rustic fences for quaint people and paddock-type fences for horsy people.

Fences can frame a home nicely; they can also make it look dilapidated or silly.

The first thing I found was to determine what I needed a fence for, then find a type to do the job. The second was to decide if the type suited the house.

The third was to arrange with the neighbors (a) where the fence should go (b) who would pay for it and (c) how much.

I wanted a fence that would keep my children in and other people's out. Something like the Great Wall of China with an electrified top.

This was too much to ask. So I settled for a small fence that would politely discourage neighborhood kids from marching three deep across the back yard and would at least keep the dog in.

Picket fencing is attractive in short stretches but too much of it looks dull and would probably give you spots before the eyes if you looked at it too long.

To vary the picket pattern you can cut the tops of the pickets on a radius so that the top of the fence runs in a series of curves, or waves.

Horizontal wooden rails with or without diagonal bracing blend nicely with low shrubs. Unfortunately, they don't keep dogs in or out.

Basket-weave is a useful and attractive fence. It lets air through but provides shade and privacy.

This is made by weaving 12-ft. by six-inch boards in and out of four-by-four posts set slightly less than six feet apart.

A two-rail ranch fence made of plain square beams with hewn or adzed edges carries an air of expensive simplicity. It is mainly ornamental.

Later I may put some of this on the front lawn.

For the back yard, chain link is the cheapest, effective form of dogproof fencing. It can be clipped on to steel posts which are hammered straight into the ground.

But chain link without any top rail is a constant attraction for climbing children.

And what happens on the gentle summer evenings when you want to lean on the fence and contemplate?

You come away with chain patterns on your leaning parts.

So I picked chain link with wooden posts and top and bottom rails — the top for leaning, the bottom for dog-proofing.

I was introduced to the mysteries of the posthole digger.

This is a circular spade-cum-drill which you twirl around on its pole.

A three-foot wooden post should go down a further two or three feet into the ground. With a steel post it's as well to have four feet in the ground.

You can save some of this buried length by bedding the post in concrete but this is unnecessary with a light fence.

The underground part of the post must be painted with creosote preservative.

It's as well to paint the rest of the post and rails with undercoat or sealer before putting the fence up.

OVERNIGHT TRIP

Four boys of the 2nd Scout Troop, Larry Fetterer, Gary Clairmont, Billy Weillwood, and Blaine Pollock made an overnight trip to Garnett Valley Dam via Peachland recently. Six more Scouts will make the trip this weekend.

Trips are part of first class badge tests.

OPTOMETRIST

Every Tuesday 1:30 to 5:00
BOWLADROME BUILDING
West Summerland

The west wall of B.C. Fruit Shippers slowly collapsed on the home of Mrs. Wm. Baldwin, after an unsuccessful attempt by firemen to save the cold storage part of the packinghouse during the recent \$300,000 fire.

Senior Citizen's Home Committee

(Continued from page 1) out a letter and questionnaire, explaining the for and against both propositions, or rather the advantages and disadvantages of both types of housing. Mr. S. A. Macdonald and the writer also attended a meeting of the Old Age Pensioners association, and explained both types of housing. These letters and questionnaires were sent to most of the senior citizens in the community, and quite a number were completed and returned, showing a better than two to one vote for the Boarding Type Home.

Again a report was made to the Municipal Council and a discussion followed regarding certain features of the original plan. It was decided to review the original plans. Councillor Holmes was appointed as chairman of a municipal committee to take care of municipal interests, so our committee invited Councillor Holmes and Supt. Blagborne to meet with Mr. S. A. Macdonald and the writer to draw new plans and obtain an estimated cost.

This report was presented to the Municipal Council and accepted by them. It was also suggested by the Summerland Senior Citizens Housing Committee that they had fulfilled the job assigned to them and that the committee be disbanded and in their place a new committee be appointed to plan the further work needed to get the project in operation.

In the course of our investigations it was found that a minimum of 20 residents was necessary for profitable operation. Lloyd Jones Home in Kelowna accommodates 28. It was also found that more single rooms were desirable than doubles, therefore the plans were changed so that all

rooms could be used as singles or in pairs as doubles, with toilet facilities and cupboard space for each pair of rooms.

All the accommodation for the residents will be on the ground floor. The quarters for the matron will be on the second floor above the main lounge and dining room. A basement will be provided to be used for storage, heating facilities, hobby room or recreation room and for any other needed uses.

Our committee suggested that the home be built on the site purchased for that purpose in the first place, be facing east, that is facing the Memorial Park playground, be set back some distance from the park line, still leaving room in the rear for additions to the building, if and when required. This would allow for extensive landscaping of the entire property, which in time could be made into a beautiful property for the older folks. The ground work could be taken care of by the Parks Board workers, and the entire property would appear to be all part of the park scheme.

Our committee obtained a great deal of information on the whole project and it is available to any committee carrying on from here.

I trust this will give you some idea of what has been done in regard to the Senior Citizens Home, and I hope the citizens of Summerland will give this worthy project wholehearted support when the by-law is presented to provide the municipal share of the required money.

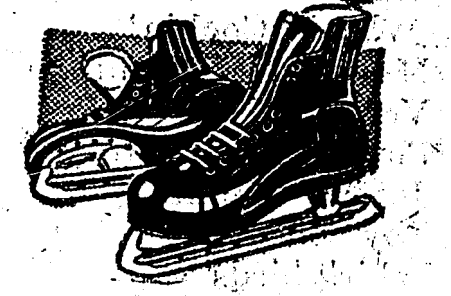

Yours very truly,
E. H. Bennett,
(former chairman Summerland Senior Citizens Housing Committee)

Electric WATER HEATERS

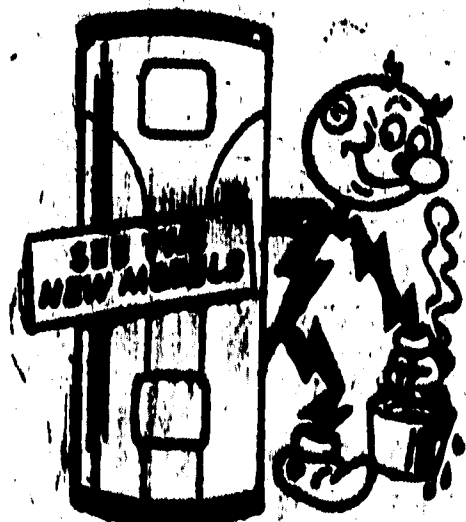

SAVE MONEY—HEAT WATER ELECTRICALLY

In most areas served by West Kootenay Power your rate for electricity is among the lowest in North America when an Electric Water Heater is used in your home. Electricity is available to operate an Electric Water Heater and other appliances in your home, at one-half the rate that would be in effect if an Electric Water Heater were not used.

Electric Water Heating in the average home costs less than 9 cents a day.

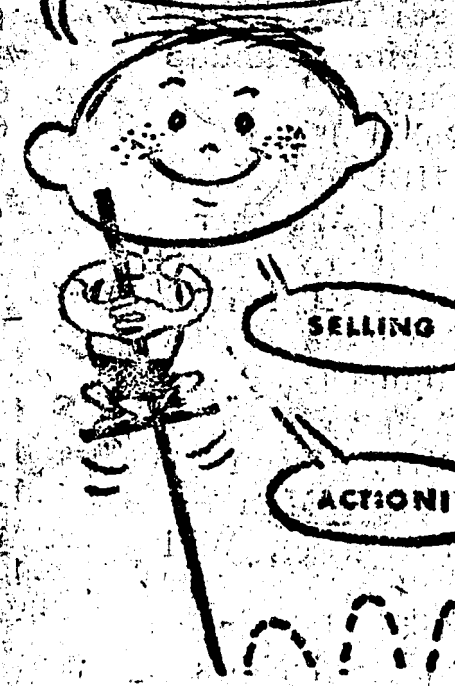

Call on the West Kootenay Power representative in your area. He will be pleased to advise you how you can save money—when you Heat Water, Electrically.

Extracts from Curfew By-law

1. From and after the final passing of this By-law, all persons under the age, or the apparent age, of eighteen (18) years, shall be required to be in their respective homes and off the streets, between the hours of 9:30 p.m. and 6:30 a.m. except where such persons are under proper control or guardianship or for some unavoidable cause.

2. Any person under the age, or the apparent age of 18 years found on the streets of the Municipality between the said hours of 9:30 p.m. and 6:30 a.m. shall be liable to be warned by any Constable or Peace Officer to go home and if after such warning, such person is found loitering on the streets, he or she may be taken home by such Constable or Peace Officer.

3. Any parent or guardian who permits his child or ward habitually to contravene this By-law shall be liable, on summary conviction to a fine not exceeding the sum of Five Dollars (\$5.00).

This By-law will be in effect from October 25, 1960, until rescinded or amended.

G. D. SMITH,
Municipal Clerk
