

Under the Giant's Head

We'd like to congratulate the new management of the Rialto Theatre for the fine job they have done in cleaning and modernizing the building and equipment. Must add a word of praise to your young people who certainly behaved themselves at the show Saturday night. And if you like a good western, we recommend the show this week end. Called "The Trial of Sergeant Rutledge" it is the story of a regiment of newly freed Negro soldiers under the command of white officers, shortly after the American civil war. A drama starring Jeffery Hunter and Constance Towers.

Dr. J. E. Miltimore, of the Research Station will go to Vancouver Friday to attend an organizational meeting of the Canadian Society of Animal Production (Western Section). The society is composed of animal research workers interested in better animal husbandry. Dr. Miltimore is a director of the Society and in charge of the Society's convention which will be held in Penticton June 7 and 8.

There was no precipitation last week and 64.9 hours of sunshine recorded at the Research Station.

Attending the semi-annual meeting of the South Okanagan Girl Guides Association were: division commissioner, Mrs. B. Blagborne; district commissioner Mrs. Ross McLachlan; division secretary treasurer, Mrs. Win. Durick; Tawny Owl of 1st Summerland Brownie Pack, Mrs. P. Smith, and president of the Summerland Guide Association Mrs. H. Waterhouse. The meeting was held in Princeton last Saturday.

Police court

Local RCMP wish to remind residents that dead cows are to be buried or burned and not taken to the municipal dump. Such action is contrary to the sanitation regulations.

Two out-of-town cars have been picked up for speeding recently. Leonard Moggok of Verteran, Alberta and John Hunt of Mara, B.C. appeared on separate speeding charges and fined \$15 and costs by Magistrate Reid Jorntson.

Two juvenile cases were heard on March 31. The first case involved the firing of a gun across the highway and the juvenile responsible was fined \$10 and costs.

The second charge arose when a juvenile driving a pickup truck went to sleep at the wheel. The truck went into the ditch and overturned, causing \$500 damage. The driver and a passenger were slightly injured. The juvenile was fined \$25 and costs for failing to confine his vehicle to the right portion of the highway.

April 7 is World Health Day and the theme this year is "Preserve Sight — Prevent Blindness". This little girl is suffering from a "lazy eye". Though not too serious the condition diminishes the child's vision, and if not arrested in time may lead to weak-sightedness and even eventual blindness. The way to correct this is through exercises like the one she performs. By covering the good eye she trains the lazy one to work properly.

Yacht Club plans for active year

Summerland Yacht Club will be host to the Western Canada Jolly Boat Championships August 4. This was announced at the annual meeting of the Yacht Club Monday night.

Other activities during the summer include: April 27, opening dance of the boating season; May 13, fishing derby; June 10, cruise to Penticton; June 23, outdoor supper and dance; July 1, trip to Commando Bay to meet with other Okanagan clubs and later supporting Peachland regatta; July 15, picnic at Commando Beach; July 29, a time race for the Summerland Yacht Club Trophy, followed by a pancake supper.

Corner store changes hands

Ollie's Cash Store has been sold to Mr. and Mrs. Herman Clausen of Kitimat.

The store had been operated by Mr. and Mrs. Ollie Gronlund for the past 12 1/2 years.

Mr. Gronlund was born in Sweden and came to Canada in 1905. He homesteaded in Peace River in 1927, operated a business in Nampa, Alberta and moved to Summerland in 1949.

A surprise farewell party was held at the home of Mr. Mrs. Gronlund last week when a group of friends dropped in to wish them luck and presented them with a gift of luggage.

The new proprietor, Herman Clausen was born in Germany and came to Canada in 1954. He has had store experience in Germany and operated a general store on Vancouver Island for 3 years. His wife, Ria was born in Germany and came to Canada in 1960. She was a gardener and florist in Germany. They have a two month old daughter, Joan.

August 5 and on August 26 Sailing races will be held there will be a cruise to Kelowna.

Plans were made to form a ladies' auxiliary and a meeting of this group will be held Monday evening, April 9 at 7:30 in the Yacht Club.

Re-elected commodore of the club was L. A. Smith. Vice commodore is Keith Marten; secretary Mrs. L. A. Smith and treasurer Ralph Downing.

Elected directors were Harry Dracas, Don Cristante, Fred MacInnes, Teunis Kwak, Fred Kato. Completing their two year terms are Pete Andrews and Harold Richardson.

Work party at ski hill

A ski hill work party is being organized for this Sunday to clear the site for the new 1,100 foot cable ski tow the club expects to install and have in operation for next winter. Cost of the tow is estimated at between \$500 and \$600. The work party will also clean out the brush at the bottom of the hill to widen the skiing area.

The cabin will also be receiving some attention, a new counter is to be installed and some work will be done on the windows.

The ski club expects to have some help coming over from Naramata, and is hoping for a good turnout of Summerland skiers.

If you can come and help, bring an ax or saw. Contact Don Agur, Bob Barkwill or Don Hermiston and they will arrange transportation. The work party will leave at approximately 9 a.m. Sunday morning.

Over 500 growers attend cherry forum in Kelowna

A rapidly increasing cherry production in the Okanagan Valley has already necessitated seeking markets farther afield and this search will be increasingly stepped up as the cherry crop mounts.

The farther away the market, the more difficult to provide a quality product that will readily sell.

That in a nutshell is the problem facing cherry growers and their selling agency.

Last Friday in Kelowna over 500 cherry growers from all parts of the valley gathered for a one day "Cherry Forum" to hear what should be done, what can be done to meet the challenge.

Sponsored by B.C. Tree Fruits the Cherry Forum was voted an outstanding success, and cherry growers left feeling that while there was abundant reason for planning ahead, there was no cause for panic. In fact Tree Fruits general manager, R. P. Walrod, bristled at the suggestion there was panic.

"There is a distinct difference between recognizing a situation and planning to meet it and going into a panic," Mr. Walrod said. "Perhaps the situation we envisage may not happen, but if it doesn't the program that it planned for cherries will still be to our

advantage. The only basic change in the cherry program, apart from a greater stress on quality is that maturity standards for export cherries, that is cherries to be shipped beyond the Western Canada market will be changed to allow picking at early maturity. For export, fruit showing a minimum color, but which is fresh and bright with good green stems will be accepted for export and will be packed in poly for shipment to Eastern Canada and export markets.

Fruit showing full comparative color or darker will be packed without the poly liner and earmarked for nearby markets.

Lamberts and varieties other than Bings and Vanc will be accepted of lighter color than last year for export standard.

The domestic standard, primarily for Western Canada distribution will remain pretty much as last year.

Speakers at the cherry forum were Mr. Walrod; D. C. Stevenson, sales manager; production manager Harry Van Ackeren; D. S. Sutherland, assistant to the general manager; K. O. Lapins of the Summerland Research Station; and two authorities from the United States, Dr. Harold Scromer, United States Department of Agriculture, Mar-

keting Service, Wenatche, Washington; and Ted Zacher, manager of the Wenatchee Wenoka Co-operative Growers, Washington.

Dr. Schomer, discussing the prime factors in retention of quality in sweet cherries, stressed the importance of picking when cool, preferably in the early morning. The vital necessity of keeping the cherries covered in the orchard and in the shade and of getting them to the packinghouse as quickly as possible, was explained.

Responsibility of the packing-houses is to pre-cool the cherries as quickly as possible and get them packed and into cold storage.

Observance of these practices plus proper temperature control and care on shipment to distant markets should result in a quality product, bright and fresh, being offered for sale.

On packaging and shipping of fresh cherries Mr. Zacker told of the methods used in Washington. A sizing machine has greatly speeded up packing and has enabled the marketing of a 20 lb. lug and doing away with the costly two row pack.

Mr. Zacker was enthusiastic about sizing; but his enthusiasm did not arouse response in Mr. Walrod. He told the forum flatly that B.C. Tree Fruits was keeping abreast of sizing and had a machine operating in co-operation with the Kelowna Growers Exchange, but said Mr. Walrod, "While our customers find non-sized cherries acceptable, we are not going into sizing, but where we find the competition necessitates sizing, then we'll do it".

Mr. Lapins discussed cultural practices which affect the size of cherries. He stressed the need of an adequate water supply and regularity.

Fertilization is of prime importance and the best way to stimulate tree vigor, is the simplest but most effective method is an extra application of nitrogen, but Mr. Lapins warned that this, if overdone can cause great harm.

Pruning is a means of stimulating vegetative growth and a certain balance between nitrogen fertilizing and pruning can be attained to secure the desired vigor.

Reduction of crop in some varieties, such as Van and Lambert, which tend to overset can be achieved in many ways, by removal of fruiting branches, fruit spurs, blossoms or fruit.

Mr. Lapins emphasized the importance of correct timing of all cultural operations in cherry orchards.

D. C. Stevenson dealt with the market for B.C. cherries. Mr. Van Ackeren detailed the 1962 cherry program and Mr. Sutherland spoke on processing and canning.

A brisk question period concluded the informative cherry growers meeting.

Local baseball season underway this week

A Little League Baseball meeting will be held in the Nu-way Annex on Monday, April 9 at 7:30 p.m. Parents of boys in the 9-12 age group are asked to attend. The executive told the Review that they have a large group of boys hoping to play ball this year but furtherance of the Little League activities will depend entirely on the number of parents who show up for the meeting and express an interest in seeing the boys organized once again. There has been no little league ball in Summerland for the past two years, not for lack of boys who want to play but for lack of parents to help.

The Babe Ruth meeting held last Monday was well attended and Gordon Beggs was elected president; Roy Smith vice president; Del Birch secretary.

To date 25 boys have registered for play with more expected. The first practice session will be held this Friday at the ball park starting at 5:30. 13 to 15 year old boys are included in the Babe Ruth League. Registration fee is \$3.00 including insurance and a baseball hat. Ollie Egley will be head coach assisted by Vince Senger, Floyd Gartrell; John Selinger and Allan Walton.

A field day will be held May 21 at which a car top boat made by Vince Senger will be raffled.

The Junior Red Sox will kick off the 1962 season when they meet the Kelowna Juniors at 1:30 p.m. Sunday, April 15.

Twin City Macs win easily

The Twin City Macs have breezed through all comers in British Columbia and Alberta intermediate hockey and are now ready for the Western Canada best of five final.

Never in too much trouble in their games with the Lacombe Rockets, the Macs posted a 9-6 win on Friday and came through Saturday night with an easy 6-2 win. The Macs hope to go to the home of the winner of the series now on between the Prince Albert, Sask. Anavets and the Marathon Ont. Mercuries. No date has been set.

LOST BICYCLE

The local detachment of the RCMP is requesting assistance in finding a bicycle which was stolen from the high school yard last week. The bike, a boy's model with Raleigh trade name, is red with white trim and has a whitewall tire on the front. Anyone having information about the bicycle is asked to contact the RCMP.

Thank You

I wish to announce that I have sold my store, Ollie's Cash Store, to Mr. and Mrs. Herman Clausen of Kitimat.

I would like to thank all my customers for their past patronage and support during the past 12½ years, and would ask that you continue giving the same support to the new owners.

Support the Corner Store — You Need Them — They Need You

Ollie and Lena Gronlund

Watch For Our Opening Specials

We will be having our grand opening sale soon, with many special buys.

We will continue the same policies as Mr. Gronlund, offering complete corner store service to you, and we hope that you will continue your patronage of this store.

Herman and Ria Clausen

Buy a Scout apple this Saturday

1st Summerland Troop

This coming Saturday is Scout Apple Day, which in the Summerland area is usually run off in April. In other parts of Canada and the USA, however, the date can be quite flexible and may in fact take place at any time good apples are available for sale.

Excellent cold storage apples will be available this Saturday and apple salesmen from the 1st Summerland, 2nd Summerland and Trout Creek groups will be calling on all citizens in the community to buy an apple. The price is a token, since many people, for the good of the cause, give more than the value of one apple. All money stays in the district and is used exclusively for Scouting and Cubbing activities such as camps, equipment or operating expenses.

Boys will turn out at 8:30 a.m. sharp in full uniform at the high school to receive their apples and be assigned transportation. The drive is over before noon.

There will be a prize of up to \$5 worth of goods from the Scout catalogue for the apple salesman in the 1st Summerland group turning in the most money

— D. V. Fisher, Scoutmaster.

Eugene List appearing in Penticton

On Friday, April 6, the South Okanagan Community Concert Association will present in recital in the Penticton High School Auditorium, pianist Eugene List, acclaimed by critics from New York to Copenhagen, from Buenos Aires to Bombay.

In a career which has spanned four continents, Eugene List has played well over two thousand concerts and has travelled one million miles to make this possible. In the U.S. List's annual tours have included engagements with most of the major orchestras and leading chamber ensembles, extensive radio and television appearances, recordings, and heavily booked recital schedules.

In the past few seasons, in addition to his heavy solo schedule, and appearances with his wife, the distinguished violinist Carroll Glenn, List has appeared with New York's outstanding Knickerbocker Players for a tour de force "Concerto Festival" of over fifty engagements, and also played orchestral dates in Europe during the winter.

The Community Concert Association feels that members should be assured of an evening of rare musical enjoyment at this fourth and last concert of the 1961-62 season.

DEATH BENEFITS TOTAL \$17.3 MILLION IN 1961

In British Columbia \$17.3 million has been paid out in death benefits by life insurance companies during 1961, The Canadian Life Insurance Officer reports. The corresponding 1960 total was \$15 millions.

On 3,440 ordinary policies, payments this year were \$11,127,000; on 1,080 industrial policies \$300,000; and on 2,370 group certificates \$5,915,000.

Editorials

Summerland ahead

Probably one of the biggest and most interesting promotional ideas to come our way in a long time is being done for the gigantic Seattle exposition which opens in about three weeks time.

If the estimates are correct, millions of people will be travelling from all over North America to Seattle for a "look at tomorrow."

British Columbia and the Okanagan should begin to notice the extra influx of visitors very shortly.

What can Summerland do to attract these visitors into our community. To our mind the first and most important step is to erect some clear, attractive signs, not only to mark entrances to town, but more important, to list the many facilities we have to offer.

We have noticed a very negative attitude about signs. Generally the excuse is that the highway department won't tolerate signs on the roads, another often heard remark is we don't want the entrance to our town all cluttered up with big signs.

We think it's time to take a second look and realize the value of the tourist dollar that is driving right on down the highway.

We need more big, attractive signs now, to show the motorist the many attractions of our community.

★

You and your library

"Been reading any good books lately?" is such a familiar greeting that it has become almost a stale joke. The answer isn't a joke. Too often, the reply comes, "Well, no, not just lately."

Yet public library circulation increases steadily. It sounds like a contradiction.

Canadian Library Week, celebrated April 8 to 14 this year, focuses our serious attention on the question. This is a time when libraries all across Canada take stock of themselves, their impact on the public, their needs and their services.

People are reading more than ever, they find. But that reading is turning to magazines, pocket books and pamphlets, not just hard-cover books. Many read for pleasure — but more are reading for profit. They've discovered that books are keys to information — on hobbies, business, human affairs — a form of adult education pursued at leisure.

A recent questionnaire on reading tastes showed that borrowers overwhelmingly preferred serious non-fiction (68%) to fiction (32%). Library circulation figures bear this out. Much non-fiction is, of course, borrowed by high school students in connection with their schoolwork, or by adults taking extension courses.

Other readers have found that non-fiction can be as entertaining and pleasant as fiction, that lively essays are amusing, that biography can be like a good gossip, that reading about travel is often gay and much less exhausting than travel itself.

We are forced into reading rapidly and extensively these days, since knowledge is said to double itself every ten years now. No matter how well-trained or educated, people are constantly having to take refresher courses. With increased leisure time, we find opportunity to follow our personal interests in evening classes and in books.

Part of the increased circulation in public libraries is due to our New Canadians, anxious to learn more about this country, its people and customs. Not all can read English, of course, which accounts for a vast increase in the foreign literature collections of innumerable public libraries.

Why provide books in foreign languages? Shouldn't these newcomers have to learn English or French at once?

There are several excellent reasons why the book budget is being stretched to provide reading in the New Canadian's mother tongue. For some, these books are their introduction to the very idea of a public library. The familiar authors are a solace to readers wrenched from familiar surroundings. They continue to learn and study in the old tongue, and we need people educated in any language.

For long years, libraries drifted dreamily, a collection of books with someone, trained or untrained, in charge. Now even business grows interested. Witness the multiplication of Special Libraries in industry and the professions. Inventors are coming up with streamlined techniques for speeding book processing, with duplicating machines, photo-copying, even humble devices like the label-sticking gadget that does away with the old pastebush.

Disciplined living

by Rev. P. K. Louie

John 15:1-5. "Discipleship" and "discipline" are closely related in more ways than one. Paul recognized this when he compared the Christian life to a runner who must consistently practice the self-discipline of hard and prolonged training, if he is not to drop out, defeated and distressed before the race is finished.

Disciplined living demands renunciation, leaving "certain things" out of life. That doesn't mean, of course, that the Christian life is essentially negative. It isn't. The "abundant life" in Christian living is a life carefully selected, both as to inclusion and exclusion.

Abundant living implies three things — the opening of our lives in the fullest measure to the good things of the spirit, of which we cannot have too

much; moderation in all things which are good in themselves, yet may be hurtful in excess; total abstinence from all things that are evil in themselves, or whose total effect is evil.

Christians have the statement of Jesus that the fruitless branches of a life must be cut out completely and even the good branches pruned, if a fruitful life is to result.

In the newspaper business, there is a working rule of universal application, when there is any question of the accuracy of a certain news item, or the wisdom or advisability of publishing it: "When in doubt, leave it out". It is a good rule, that has spared many writers heartaches and perhaps libel suits. And it is a good rule for the committed Christian, when he considers his Christian life from the standpoint of renunciation of self-discipline.

Letter to the Editor

The Editor,

The Summerland Review,

Dear Sir:

I want to emphasize the fact certain articles appearing in your paper are particularly offensive to say the least, some are offensive to the point of harmful stupidity, the latest is an editorial with the title "Is it too late to stop" in which there is a remark regarding the forthcoming federal election amongst a number of others. (Does that mean the so called democratic free enterprise system is weak and if so why?)

"The country has become more and more a virtual welfare state". If such is the case when what is the reason for it? Are the unemployed and their sons supposed to be your man (Friday) in wartime and then starve to death in peace time while the domineering class enjoy stupendous extravagant luxurious wealth like the one who acquired 30 million dollars before he was 44 years old. That is equal to the magnificent average net revenue of \$77.78 per hour for every hour of 44 years.

"Thru legislation the government has made it possible for a person to contribute less than a dollar a week for less than a year . . . They are then eligible for unemployment insurance for a year". (Nothing mentioned about the income tax and any of the other taxes they pay). How do you deal with those who have been unemployed without sufficient revenue to meet their normal living expenditures and without benefits of any kind for years on end and who are by force required to use money that was kept for retirement and which is bound to be depleted before it is no longer needed?

"For men with families this is not enough to keep up payments on the car, payments on the house, to cloth and feed the children — So here the welfare comes in". How does the welfare come in? At this stage I want to emphasize the fact it takes at least two people to make a sale, and of the two one must be the dealer. Now may I ask what breed of 21 jewel business man is it that enjoys selling at a profit to the working class, it is not those who do so to satisfy them-

selves? and what breed of business man is it that repossesses goods, property, etc., on which installments have been paid and thereby resulting in a loss to the buyer? I am the first one to admit the fact employment depends largely on sales but that is no justification for business to impose their greed on the working class people.

Is the Dominion of Canada not big enough to employ all workers that are here? Evidently it is and wealthy enough. At least we were all employed at one time. Why not now? Workers are available, therefore the fault lies with irresponsible management on the part of those who own our resources and industry (on paper). In other words if you want to deal successfully with social welfare, unemployment, lawlessness, juvenile delinquency, and a multitude of other social ailments: first stop trying to play football with baseballs and create satisfactory employment for all those who need it including the juveniles, instead of just plain twentieth century slavery.

Jos. N. Giasson.

WCTU organizes education week

Youth Temperance Education Week is April 8-14 and churches, along with schools, clubs and organizations have been urged to co-operate in an all-out observance.

A continent-wide drive, it is sponsored in B.C. by the Women's Christian Temperance Union. The week has been proclaimed by Lieutenant-Governor George R. Pearkes.

During this week, Mrs. W. S. Watson, national president and world secretary for the WCTU will be touring the Okanagan. She will be speaking in Oliver, Naramata Training School, Penticton and Summerland, before going on to Kamloops for the district convention on April 12 and 13.

She will be speaking at Trout Creek Church of God on April 11 at 2 p.m. and in the Summerland United Church Hall at 7:30 p.m. There will also be a film shown, entitled "To Your Health".

Trachoma:

Greatest Threat To Man's Sight

BEFORE

AFTER

It Can Be Cured

Trachoma is the greatest single threat to the world's good sight. An estimated 500 million people, one sixth the population of the earth, are afflicted with this serious eye disease. All of them suffer visual defects of one kind or another. To many trachoma brings progressive loss of sight. On some it inflicts total blindness.

Yet if treated soon enough trachoma is a relatively easy disease to cure, as the pictures of the little Indian girl above show. On the left she appears while still suffering from trachoma — eyes secreting and squinted with pain, vision already impaired. On the right she appears after a few weeks treatment with antibiotic ointments — pain gone, eyes and vision clear.

This little girl's case might be taken as symbolic of the problem of blindness around the world. For not only trachoma but the great majority of all infectious diseases of the eye that cause complete or partial loss of sight can be cured if caught in time. Better still, most can be prevented before they even begin.

There are some 10 million blind people in the world today. About 650,000 of them are children. Many researchers put the figures even higher, at around 15 million and one million respectively, say. But all agree fully two-thirds of this darkness need never have occurred.

Trachoma, smallpox, onchocerciasis, vitamin deficiency, cataract, glaucoma, and accidents are the great cause of most blindness. Glaucoma, is responsible for 11.6 percent of all

blindness in the United States, and 14 percent in England. In England 13,000 people have lost their sight through glaucoma, 30,000 in the United States.

And so it goes around the world. The human and economic damage blindness and partial blindness inflict on the world are beyond computation. In the United States alone yearly cost of welfare services and relief payments for the blind is estimated at \$350 million.

It was in recognition of the urgent and global scope of the problem that the 109 Member States of the World Health Organization selected "Preserve Sight — Prevent Blindness" as the theme for the celebration April 7 of "World Health Day", the 14th anniversary of the United Nations specialized agency's foundation in 1948.

In his message for the anniversary, WHO's Director General Dr. M. G. Candau says: "On this World Health Day I would urge governments, health administrations and people everywhere to review what is being done and what could be done to prevent needless loss of sight. The knowledge is there — it remains to apply it on a wide enough scale to protect the sight of millions who, without this help, are doomed to darkness."

**Raisin Sour Cream Pie
Old Fashioned Delight**

Chewy bits of sweet California raisins are generously distributed throughout this custardy old-fashioned pie. It's the kind Grandmother served with pride, richly filled with eggs, sour cream and both brown and white sugars.

Chopping the raisins releases their full taste surprise. You'll find chopping an easy task if you toss the raisins in a teaspoon of melted butter or salad oil first.

Serve this caramely raisin pie warm or cold with a pouf of whipped cream if desired. It's delightful for coffee get-togethers or to serve special guests.

OLD FASHIONED RAISIN SOUR CREAM PIE

- 1 cup California raisins
- 2 eggs
- 1 cup dairy sour cream
- 1/2 cup brown sugar (packed)
- 1/2 cup sugar
- 1/8 teaspoon salt
- 1 teaspoon cinnamon
- Pastry for single 8-inch crust

Chop raisins. Combine with beaten eggs, sour cream, sugars, salt and cinnamon. Turn into pastry lined pie pan. Bake in hot oven (425 degrees F.) 10 minutes. Reduce heat to 350 degrees F. and continue baking about 25 to 30 minutes longer. Makes one 8-inch pie.

WOMEN'S PAGE

Brownies fly up in ceremony

Last Wednesday evening at the Youth Centre an impressive ceremony was held when seven Brownies flew up to Guides.

The Brownies were Rosalind Hyde, Maureen Fitzpatrick, Anne Miltimore, Ellen Gerrard, Lorraine Bennest, Donna Impett and Judy Bonthour.

District Commissioner Mrs. Nina McLachlan presented Ellen Gerrard and Maureen Fitzpatrick with their Golden Hands, and Donna Impett received her Golden Jubilee Games were held at the conclusion of the ceremonies.

The Guide Association wishes to thank the people of Summerland for their support during their recent light bulb blitz.

Girls model fashions this Friday evening

"Sing Along in Summerland" is the theme chosen by the 80 senior girls taking part in the Secondary School fashion show to be held in the school auditorium this Friday at 8:30 p.m.

As well as a delightful preview of what the well dressed Summerland teenager is wearing the girls have planned an evening's entertainment, with music by the Melodiers, a community sing-song and dance numbers.

The eight modelling scenes have a musical theme song for each, with the young models showing clothes that they have

made at home and in school. The commentary will be in the able hands of Mrs. Marion Bouey, home economics teacher at the secondary school.

Mrs. Howard White of Penficton, a beauty consultant will be in charge of makeup.

The entire program is sponsored by the Senior High School Girls Service Club and they, along with Mrs. Bouey extend an invitation to everyone to see their spring fashion show.

Comings and Goings

Mr. and Mrs. Floyd Claggett of Kelowna have moved to Summerland, buying the Martin home in Peach Orchard.

Mr. Morgan and daughter, Sherey of Vernon, spent two days last week with Mrs. G. Morgan. Also visiting Mrs. Morgan was Mrs. MacDonald of Vernon.

Mrs. Ray Wilburn returned last week from visiting her son Eddie and family in Burlington, Ontario and daughter, Muriel and family in Montreal.

Mr Don McMullen, Didsbury, Alberta was a guest of Mr. and Mrs. Walter Rothwell Friday.

Mr. W. G. McKee of Vancouver was a week end guest at the home of his parents, Mr. and Mrs. Harvey McKee. On his return to the coast he was accompanied by his wife and children who had been visiting here at the McKee home.

Mrs. Earle White has returned from a business trip to Vancouver.

Mrs. G. Graham of Vancouver, formerly of Summerland, is visiting Mrs. J. Darke.

Mrs. Peter Myrtle of Vancouver was a recent visitor with Mr. and Mrs. A. R. Gayton.

Dr and Mrs J. L. Gayton of Vancouver visited Mr. and Mrs. C. A. Gayton recently.

Mrs. Rose Fiske has taken a position in Vancouver. Her daughters, Carol and Jo-ann are staying with Mr. and Mrs. Earle White until the end of the school term.

Mrs. Wm. Wingate and Mrs. Ray Keefer, who were called here by the death of their aunt, Miss Marion Cartwright, have returned to their homes in California.

Wm. Stillwell, Hermosa Beach California, has been a guest of the Les Rumballs.

Mr. and Mrs. C. H. Apps of Vancouver spent the week end visiting his brother in law and sister, Mr. and Mrs. T. O. Mortimer.

Mrs. N. H. Charlton flew to Regina Friday because of the death of her father, Samuel Smith Read. Mr. Read passed away March 29 at the age of 84. He is also survived by his widow and another daughter, Mrs. Timothy Conaughy, Wilcox, Sask. Funeral services were held Monday in Regina.

Miss Marilyn Embree has returned to Royal Columbian Hospital after a visit with her mother Mrs. Mark Embree.

New residents in Trout Creek are Mr. and Mrs. J. P. C. Atwood. Mr Atwood is a retired game warden from the Kamloops district.

Auxiliary plans hospital tag day

May 12 will be Hospital Tag Day in Summerland. The Hospital Ladies Auxiliary is hoping for a good response to the tag tag as the money raised will go to swell the X-ray fund which now stands at \$6,017. The new machine has not yet arrived, but is expected shortly.

The Auxiliary met at the Health Centre on April 2 at 8 p.m. for its regular monthly meeting. Mrs. L. W. Rumball was in the chair as the president Mrs Rose Fiske was in Vancouver. Twenty-five members were present and Mrs. McArthur was welcomed as a new member.

The Dorcas committee reported that it has placed a new Lazy Boy chair in the hospital and has ordered five walking sticks which will be made available to patients.

The ladies heard that the May 8 regional Hospital Auxiliaries meeting is to be in Pentlcton this year, the first time such a meeting has been held outside of Vancouver.

The 2nd Brownie Pack under the leadership of Mrs. W. G. Evans, will be making the Easter treats for patients in the hospital.

The Thrift Shop is undergoing its annual spring cleaning and the ladies in charge hope to have spring wearing apparell out by Saturday. They also remind district ladies that donations, particularly of children's wear, will be gratefully accepted at the Thrift Shop.

Local artist's work on display here

Reviewed by D. M. Loan
Paintings and sculpture by Summerland artist Peter Ochs is exhibited this week in the Summerland Regional Library.

The unsuspecting art lover is caught up in the bewildering world of the mind of a twentieth century "geometric abstractionist", whirled from intricate sketch to precise parabolas of delicately toned canvases, from intriguing Moore-ish shapes of ceramic sculpture to monumental slabs of sculptured, burnished wood, and either goes into the orbit of wordless admiration, or is dashed to stupefied silence.

In some other minds a few questions arise: "What is the purpose of art?" Should the artist communicate with others through his work? "Can one determine whether a painter is an artist or simply a charlatan with a supply of paint and canvas?"

Conversations with the artist suggest these answers (in free translation): The purpose of art is expression. Mr. Ochs' paintings arise from a need to express a world of feeling. In one painting, a vague, central object shaded indefinitely from whites to blues, is an attempt to put unto canvas subconscious and, it is hoped, archetypal symbols of a unique terror which should be felt by a responsive and sensitive viewer. Some few works are in the category of technical studies in which the artist is practising his technique, as a violinist on his instrument.

Communication is enjoyable, satisfying to the soul of the artist, but an unnecessary luxury. The artist paints first of all to express himself. If sympathetic vibrations carry over to others, this is an incidental phenomenon. If they carry over to a whole society, then that artist is thought to be "great"; if there is no carry-over in the

present, they may yet ring a bell in another world of time when circumstances lead men to find meaning in the work of an ancestor. There is ample historical evidence of a cycle of interest and neglect into which all art is twisted.

The distinction between the artist and the charlatan is really explained in the above answer, in so far as the artist tends to be recognized as he who strikes a responsive bell in the hearts of his public. Since there is a time lag of recognition, of as much as 50,000 years as in the case of the caveman artist, it seems presumptuous of any man to make these decisions for history.

"I know nothing about art, but I know what I like" is the usual, offhand criticism of modern art. The comment is reasonable and fair, indeed, it is the very basis of appreciation. The idea that we need to understand art to appreciate it is part of the initiation rites of a priesthood of snobs. Intellectual gymnastics may disclose cleverness, ingenuity and logic in a work. It still may fail to strike fire in a viewer. An aesthetic appreciation of a beautiful stone, or of a masterpiece of architecture is little enhanced by explanations; the building's scaffolding makes it a more credible human achievement; it means nothing to the unexplainable insight and imagination of the idea which has been given an objective form and expression in this work of art.

In the works of Mr. Ochs, the response is rarely immediate. On this basis it can be classified with all the acclaimed art of history. An immediate and slick appeal is not often enduring. As one who has lived with three prized works of Mr. Ochs art, this reviewer can say that they have a daily growth in stature and appeal.

Teen-agers attend conference in Vernon

As everyone knows, Summerland Teen Town sent representatives to the spring conference in Salmon Apr. The meeting itself was held all day Sunday, coming to a close at 2:30 p.m. Because of differences in the Teen Towns of both the south and north regions, POTTS came to an end. The Teen Town's in the north consist of Salmon Arm on up to Prince George and Golden. In the south there is Vernon, on down to Osoyoos, and Princeton.

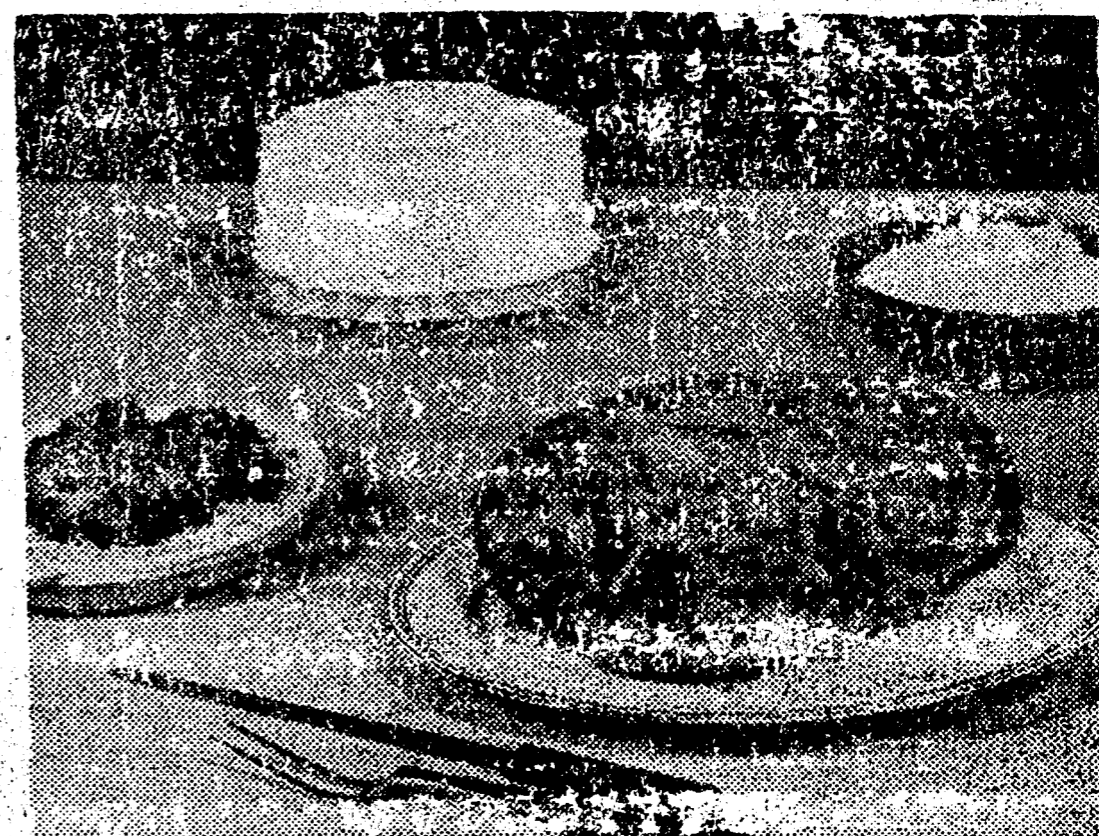

From now on the Teen Town Conferences will be held only within their own region.

The southern region is now known as the South Okanagan Teen's Associated consisting of Ronnie Wilson, Penticton, president; Brian Adams, Summer-

land, vice president; Dorothy Arase, Summerland, secretary Brian Bennest, Oliver, treasurer and Fran McKinstry, Kelowna, public relations.

I would like to thank Mrs. Day and Mrs. Young for chaperoning the dance on Saturday while the senior council was away.

— Sharon Geres.

For the main dishes on your Easter dinner menu, how about a festive looking baked, glazed ham served with fluffy whipped potatoes, buttered whole kernels of corn and a Daffodil Cake. For dessert: a light and pretty Daffodil Cake.

Big band organized in Summerland

"Moonlight Serenade", "Tuxedo Junction", "Stardust" — these are the tunes we listened to some years ago when the sounds of Glen Miller, Tommy Dorsey and other big bands were so popular. History, we are told, repeats itself and now the big band sound is regaining popularity and these same bands, along with those of the present day, are again being heard by means of records and on radio.

The characteristic sounds of the "big band" — the mellow saxophones, brilliant brass and solid rhythm are now being heard in Summerland.

A band of this type has been formed by a group of spare time musicians "just for fun" and has been in operation for a few months.

The leader of the band is Fred "Mac" MacInnes, who also plays first trombone. Playing second trombone is Stan Skipings, while the trumpet section consists of Harold Crane of Penticton, lead; Cliff Dunsdon and Ron Wilson. Freeman Reid leads the saxophone section, the other saxs are Louis Bicz, Bill Lacey, and Harry Killick. On drums is Cliff Brownlee of Penticton; Lowell Laidlaw plays bass and Ken Storey is the pianist. A total of twelve members makes this one of the biggest bands in the province.

The band, for which a name has yet to be found, has as its main objective the rather selfish aim of playing only for the

amusement of its members. However it is hoped that one or two dance engagements per year can be played in order to recover expenses, one of which is the considerable cost of the necessary library of music.

It is a coincidence that the past winter also saw the formation and first successful season of the new dance club, an organization whose members are interested in learning to dance correctly the fox trots, waltzes, tangos etc., the type of music being played by the band and dances which are finding a new popularity. Although the formation of the two groups has no actual connection they are a part of the increasing interest in spare time activities — that these activities should involve music is not surprising in Summerland where music always finds a keen reception.

The Modern Way To Be Traditionally Correct

The Bouquet Invitation Line

Wedding Invitations

Thermo-engraved (RAISED LETTERING)
Wedding and engagement announcements, birth announcements, confirmation invitations, golden and silver anniversary announcements, etc.

Thermo-engraving

(RAISED LETTERING)
Looks and feels like the finest hand engraving. The letters have an elegance and individuality only the finest hand engraving can match.

Thermo-engraving (RAISED LETTERING)
Costs about half as much as hand engraving, because it eliminates the copper plate that makes hand engraving so expensive

Looking more like a rugged athlete than an entertainer, vocalist Wally Koster has in fact devoted much of his life to sports. He has been a semi-professional football player, a hockey player and has also become a golf addict. Wally returns to CBC radio this summer with a 15 minute show of his own, each Monday on the Trans-Canada network.

Report from Parkdale Place

by Mabel Atkinson

"He felt the cheering power of spring, It made him whistle, it made him sing". The miasma of winter has given place to twittering swallows and the song of the meadow lark. The change has been truly welcome at the Home.

March brought us some gay entertainment. Mr. Eric Tait showed, one evening, in color all the glories of our own Okanagan Valley with blooming orchards, winding lakes and streams as far afield as the cliffs around San Francisco.

Mr. Tom Ritchie enthralled us with the natural and man-made beauty of New Zealand, from the bubbling hot springs, mountain scenery, architecture and industries to the glories of the New Zealand gardens.

We had an invitation to the preview of the ice carnival and enjoyed seeing sea horses, penguins, sailors, Irish colleens, sport on skates.

A pleasant drive was provided by Mrs. J. C. Wilcox to view the new highway and the floating bridge.

Besides local callers for the month, we had the honor of receiving Mrs Evelyn Shaw, president of the Rebekah Assembly from New Westminster, accompanied by members of the local Faith Lodge, No. 32, Mrs. Hilda Downs, DDP; Miss Maida Morrill, NG; Mrs. Mabel Brown,

RSNG.

One evening we welcomed the Peach Orchard skaters.

Two beautiful pictures from the old school or art, decorate our walls, compliments of Capt. Jenkinson. The pictures were the work of the late Mrs. Jenkinson

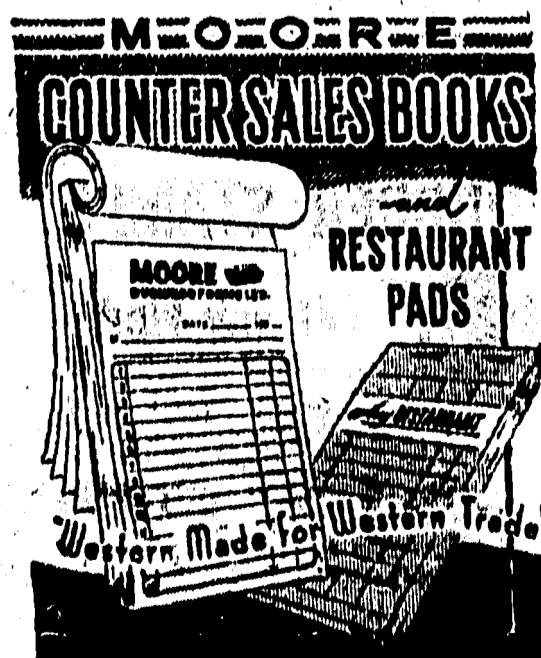

Already rich bouquets of tulips adorn the shelves and we have never lacked apples, thanks to Mrs. E. C. Hookham and others.

We shall miss very much Mrs. Caldwell, who has returned to her home, and we wish her well and hope Mrs. Crozier will enjoy her two weeks vacation at the coast to a family reunion.

Mrs. Eckersley and Mr. Mutton celebrated another birthday, the cake for the occasion provided by Naomi Circle of the United Church.

The front and back lawn are being landscaped through the courtesy of the Parks Board, and we have visions of a beautiful rose garden during the summer.

"Oh to be in Summerland, now that April is here".

On the Rifle Range

by Herb Simpson

The enthusiasm is still high at the weekly practices of the Sporting Rifle Club with an average of twenty adults and an equal number of junior members taking part.

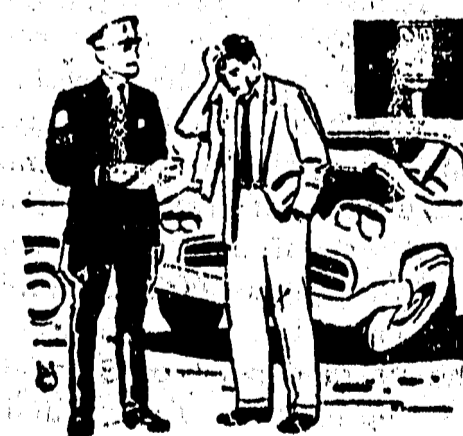

So far this season, twelve Dominion Marksmen awards have been won. Those receiving pins and crests are: J. Sheppard, gold, silver and bronze pins; K. Downes, bronze; Ted Arkell, bronze; Garry Smith, bronze; Howard Wright, bronze and silver; Bill Wilson, bronze; Mrs. Ida Johnson, gold; Mrs. Molly Bentley, bronze and silver; Herb Simpson, kneeling crest.

Many of the members are now sporting the very attractive club crests on their jackets. These may be obtained from Junius Johnson at a very moderate price.

It has been decided that the indoor range will close for this season on April 13th. On the final evening there will be team shoots and other competitions; so let's have a real good turnout for the last two shoots.

Posters will soon be appearing in town announcing the starting date for shooting on the Garnett Valley range. Anyone interested in shooting a .303 calibre rifle is welcome to attend. The ammunition is free and only a very moderate range fee will be charged.

Locals

Mrs. D. P. Pielou, Trout Creek left on Friday to spend some time in England.

Mr. and Mrs. Earle Wilson left during the week end for a trip to California.

This week end a work party from Summerland, consisting of fathers of Guides and Brownies, is travelling to Camp Mewata, north of Wilsons Landing, to clean and prepare the camp for summer outings.

Invitation extended to visit local library

Next week is Canadian Library Week, and all across Canada in cities and small communities, wherever there is a library, people are invited to visit and use their library.

The motto, "Reading is the Key" has again been chosen, to point out that the reading of books unlocks and opens the door to wider knowledge.

Reading for pleasure is a relaxation, as we settle down for an evening with a good mystery or well written novel, our imaginations are stirred and widened, by reading true tales of travel and adventure in other lands.

Books on creative arts, such as painting, modelling, carving or weaving, encourage or teach us to try our own creative ideas. The student with a thesis to write, the new chairman needing rules of procedure, or the housewife in search of ideas for re-decorating can find helpful suggestions in the reference section of our library.

During the last year, many new books in all these categories have come to our library.

A good mystery is "The Sunken Sailor", by Patricia Moyes. This is the tale of a visit to Berry Bush Inn where the Bensons went to sail their new boat. Henry found sailing a delightful sport but when murder and mystery struck the village, Henry had to assume his real identity, Inspector Tibbett of Scotland Yard. Patricia Moyes, the author, began writing for fun when in the Air Force in England. She wrote revues for barrack concerts. Since then she has done radio plays and novels.

"The Edge of Sadness" by

Edwin O'Connor is a warm and human story of an Irish American priest, and his parishioners. O'Connor is an American radio commentator and freelance writer.

The life of Louis Reil is reviewed again in this biography by E. B. Osler called "The Man Who Had to Hang". We are asked to decide whether Reil was a martyr or traitor, and the author takes his stand for Reil, and brings to light many new facts to prove his point.

"North From Thursday" by Jon Cleary, is a well written and exciting story of a Polish girl who goes to New Guinea to join her fiancée and tells of the lives of the whites and blacks in this isolated spot. Jon Cleary will be remembered as the author of "The Sundowners".

"The Social Purpose of Canada", as explained in this book endeavors to point out where Canada is going in the next 50 years. To do this the editor, Michael Oliver has brought together well known personalities, experts in their field, under the guidance of Prof. J. Jamieson of UBC. These experts express their ideas or beliefs under several headings such as moral issues, social problems, economy and politics, and present a serious analysis of Canadian society.

All these books are 1961 choices and are to be found at your library. So use your library, it's yours.

— Kay Dunsdon

Penticton planning market

The Agricultural Committee of the Penticton Chamber of Commerce has selected the Sunset Motors building as the site for a Farmers' Market, tentatively scheduled to open June 2. Seven sites were considered prior to this decision being made.

B.C. Tree Fruits have established the area from Naramata to Kaleden as the Penticton Farmers' Market tree fruit supply area. Vegetables can be supplied to the Penticton Farmers' Market by producers from a much greater area. Potatoes, tomatoes, onions, and cucumbers can only be transported to the market within the weight and tagging regulations prescribed by the B.C. Interior Vegetable Marketing Board for marketing area No. 4, embracing the South Okanagan and Similkameen. Further information can be obtained from the Agricultural Committee, Chamber of Commerce, Penticton.

The Farmers' Market Committee is looking for primary producers to supply fruits, vegetables and farm produce of all kinds for the 1962 season. Producers will sell their own produce directly to the consumer at this market.

Producers interested in taking advantage of this opportunity to sell their products direct to the consumer are requested to contact the Penticton Chamber of Commerce as soon as possible.

Kiwanis Club Notes

A very short meeting was held Tuesday evening, 25 including two Penticton visitors sat down to a salmon steak dinner.

Instead of the usual sing song, the hockey game was watched on TV, the set having thoughtfully been procured for the occasion by Jerry Halquist.

President Toevs gave reports on a Vernon Charter Club meeting and a minor club hockey banquet in Summerland, at both of which he was an invited guest.

Next Wednesday, April 11th, arrangements have been made for a chartered bus to take the entire club to pay an inter-club visit to the Vernon Club.

This will take the place of our regular Tuesday meeting.

All members please note that the bus will leave the school grounds at 5:00 p.m. sharp. So be on hand. Let's make it 100 percent.

Bill Laidlaw called for volunteers to assist in cleaning up the new proposed juvenile ski run.

The meeting closed about 8:00 p.m.

— The Recorder.

Under the Giant's Head

The fire brigade has been busy with grass fires this past week, with nearly a fire a day. So what does the brigade do for a practice? Start a grass fire of course! Wednesday night they burned out the grassy area back of the Campbell Crescent where home owners have been bothered by skunks and rodents.

Spring has arrived, according to the weather report from the research station. There was .16 inches of rain during the past week, and 36.1 hours of sunshine.

	High	Low
April 4	60	43
April 5	55	38
April 6	58	43
April 7	53	39
April 8	53	30
April 9	57	32
April 10	57	37

A film on the Eye Bank and corneal transplants will be shown at the April 16 meeting of the Summerland branch of the Canadian National Institute for the Blind. The annual meeting will be held in the Health Centre at 8 p.m.

It looks as if in the forthcoming federal election in Okanagan Boundary, we will have one of the most unique in the country. All four candidates are former MP's. The standard bearers are Elmer Philpott, Liberal; David Pugh, Conservative; O. L. Jones, New Democratic Party; and F. D. "Jack" Shaw, Social Credit. Now all we need is the date of the election.

Mr. Tom Garnett, bright and spry as ever, celebrated his 89th birthday this week.

Showing at the matinee at the Rialto Theatre this week is "Pony Soldier" not Tarzan as advertised on page 2. Tarzan will appear for the youngsters next week. The evening feature is "Up Periscope", a World War II story in which a naval officer must photograph a radio code book on a Japanese-held island. Sounds like an excellent war picture.

Eight building permits were issued last month for a total of \$26,650. In March 1961, there were 21 issued, amounting to \$143,100, including the B.C. Fruit Shippers' packinghouse for \$102,450.

Value of permits issued in the first three months of this year is \$76,800, and in the same period last year the total was \$312,160.

Seven electrical permits were issued in March.

The second "Reach for the Top" team consisting of Eleanor Martin, Janet Storey, Anthea Morgan and Philip Holman is doing very well, with another win on the TV program last Tuesday. The young people will appear again on April 24 and a win on this program will put them in the running for another \$400 scholarship.

Low cost housing rental plan discussed

Councillor W. S. Ritchie Tuesday night presented a low rental housing plan, which was discussed at a recent parks board meeting. Mr. Ritchie said that there is a need for such housing in Summerland, as many elderly men presently living in small rooms could be accommodated in such a project. He said that he thought only 10 per cent of the cost of scheme would be borne locally.

Municipal clerk Gordon Smith reported that a number of Trout Creek residents have dry wells. Council moved that the municipal crew be instructed to turn on the new domestic water line for those houses needing water, but that written instructions be given to the home owner to boil all drinking water, as the chlorinator is not hooked up yet. Council stipulated that only those whose wells are dry would be able to have the water switched on.

A letter from Mrs. H. A. Sims asked council to suggest a spot where she could locate in Summerland. Mrs. Sims is the owner of the Trepanier Serene Dog Kennels, a holiday home for dogs. She stated in her letter that since most of her customers are from Summerland, she would like to locate in this district, preferably in the Trout Creek area near the highway. Council instructed that a letter be sent to Mrs. Sims stating that she could have her kennel anywhere that is not zoned

residential.

A letter from the provincial Fisheries Branch stated that it had come to their attention that lower Summerland would be receiving its water from a new source and in this case the fisheries asked if all the spring water could be made available to them as they are planning to expand their fish hatchery.

Councillor Barkwill said that the Health Unit had requested that lower town water be chlorinated, and that was all the municipality was prepared to do. The fish hatchery is presently getting its water from an outlet below the Summerland domestic water outlet.

Fruit Fair definitely on

Summerland will definitely have a Fall Fruit Fair. Steering committee chairman Charlie Bernhardt told the Review Wednesday that plans have been finalized for the annual event. W. A. (Bill) Gilmour will head the fair committee assisted by W. F. Ward, Alec Watt, Mrs. L. Smith and C. Bernhardt. It is expected that others will be added to the committee later.

Entry forms for the children's gardening competition, held in conjunction with the fruit fair, will be distributed soon.

A full report will be given at the Chamber of Commerce dinner meeting tonight.

Council approves plans for summer ice skating

A delegation from the Summerland Figure Skating Club, consisting of Phil Munro and Dougald MacGregor, presented Tuesday night's council meeting with a proposal for making summer ice at the arena.

The proposal, presented by Mr. Munro, asked council for an option to make ice in the summer time for the next three years. According to the proposal, the figure skating club would agree to pay \$800 this year and \$1,000 yearly from then on for the use of the arena, for the figure skating program that they are planning during the summer months.

Mr. Munro told council that they would need ice during July and August with time allowed to put in ice prior to the start of the season.

He said that the association would assume the responsibility of all machinery, equipment repairs, arrange for work concerned with normal operation, as well as paying all wages, utilities and minor operating supplies.

The Figure Skating Club proposed that a 25 ton capacity condensing unit be installed at an estimated cost to the municipality of \$900, this to be repaid by the FSC at \$200 annually. Mr. Munro said that such a unit would relieve the load on the present equipment.

In discussing the Figure Skating Club's proposal, Reeve Norman Holmes commended that organization for the zeal that it is displaying in an effort to continue summer skating in Summerland.

Mr. Munro told council that in former years the club has been hampered by late starts on its program, however, it is their feeling that if the three year option can be implemented the club can start its campaign in the fall. He also pointed out the terrific tourist potential of summer skating.

Council moved that the plan be adopted. The Figure Skating Club will place its plan before the rink association tonight, where it hopes to gain full approval.

In talking to the Review later, Mr. Munro said that despite the late start in a publicity campaign, several skaters have written for confirmation of the summer skating plans.

Mrs. Millaid, Kamloops professional, is hoping to bring approximately 12 youngsters down for extra figure skating lessons. Another interested professional is Miss Mariene Dudeck, a former Penticton skater, now in Prince George, who is hoping to bring 10 skaters down. He said that other skaters have expressed interest in summer skating here, as many mothers from other towns prefer to send the skaters here as costs and

chaperoning problems are less than in Vancouver where the B.C. skaters now have to go for further training.

Plans now are for ice to go in about the first of July if the idea is approved by the rink association.

Junior Red Sox start season Sun.

The Summerland Junior Red Sox will open the baseball season against the Kelowna Juniors in Summerland this Sunday. The game starts at 1:30 p.m. in the Memorial Ball Park on Highway 97.

The Okanagan Junior Baseball League is made up of teams from Merritt, Kamloops, Vernon, Kelowna, Summerland, Penticton, Naramata and Keremeos. Each team will play 28 league games with the first four teams going into the playoffs.

The Summerland team, at this time, looks as follows: catching, Ken Pushkerinko and Joe Beggs; pitching, Keith Skinner, Jim Sheeley and Ernie Pushkerinko; first base, Dick Dunsdon; second base, Jim Jomori; short stop, Stosh Uchida; third base, Larry Dent; outfield, Dennis Lackey, Ken Beggs, Bob Mortimer, Joe Smith and George Henley.

This year several Babe Ruth players will be brought up from time to time for a try out in faster company.

Services for two residents

Mrs. Johanna Gudeit of Summerland, passed away in the Summerland Hospital on April 4, in her 95th year.

She is survived by one daughter, Mrs. C. G. (Theresa) McDougald of Summerland; two sons, Fredrick George of North Vancouver; William Rudolf of Lumby, seven grandchildren and one great grandson. She was predeceased by her husband, George Gudeit on November 22, 1946.

Funeral services for the late Mrs. Gudeit were conducted at Needles, B.C., Saturday, April 7, at 2 p.m. Interment in family plot, Needles cemetery. Rev. Charles Wilson officiating.

Mr. Harold Nolan Macpherson passed away in Summerland General Hospital on Friday, April 6.

He is survived by his wife, Barbara; one daughter, Mrs. F. R. (Barbara) Darling, Calgary; one son, Peter, West Summerland; one brother, Dawson, of Calgary; three sisters, Mrs. S. M. Brownlee, Calgary; Mrs. Earl Longworthy, Fullerton, California; Mrs. John Hill, Regina; and five grandchildren.

Remains were forwarded to Centre & Hanna, Vancouver, for funeral services and cremation.

Ready and waiting! The Summerland Twin City Macs are all set. This photo, courtesy of the Powell River News, shows the Macs for the finals of the Canadian Intermediate Hockey Championship, after they won the B.C. championship. Back row: Nick Bullock, The Macs will meet the winners of the series between Prince Albert Bugs Jones, Mike Durban, Red Boscha; Don Moog. Front row: Albert Anavets and Marathon Marcuries, being played in the prairie city. Macs will leave this week end to meet the winners.

Overture concert campaign

"More than ever" is how campaign manager Brenda Liebert sums up what the Summerland Overture Concert Association has to offer this year. With Kelowna having joined the Overture series the members have an additional four concerts they may attend, and with Kelowna building a new concert hall there should be plenty of room.

Many Summerland members took advantage of the Oliver concerts last season, and no doubt will do so again this year, so that with a possible ten concerts to attend the membership fee which remains at \$5.50 for adults, \$2.75 for students and \$13.75 for family tickets, is very, low. In fact no grocery chain store ever offered a better bargain!

"The Porgy and Bess Singers" have already been booked for next season, and Kelowna has booked the wonderful Spanish dancers "Susana y Jose" that so captivated us here in Summerland a year or so ago.

This week, April 9-14 is the campaign week for the Summerland Overture Concert Association, and the group is enthusiastically anticipating "more than ever" members. Cranna's Store is the headquarters on Thursday, Friday and Saturday afternoons from 2:30 to 5:30.

Thinning apples

Apples can be safely thinned by spraying the trees with Sevin or Amid Thin two to three weeks after bloom, reports Dr. D. V. Fisher of the Canada Department of Agriculture research station.

This operation reduced the fruit set on trees at Summerland to 60 per cent below that

Ballroom dancing gaining in popularity

The Summerland Ballroom Dance Club last week completed its first season with a brief business meeting, and election of officers.

Under the sponsorship of Commodore L. A. Smith and the Summerland Yacht Club, this dance club of thirty members has met weekly since last October in the Yacht Club. Under instruction by Mr. and Mrs. Fred A. MacInnes, members have

learned a total of eight dances—English and Viennese waltzes, foxtrot, quickstep, two step, jive; Samba and rumba — with four to six variations for each, as well as dance construction (the inter-changing of variations)

In addition to their hard work, members have enjoyed two party nights through the winter, and will be attending the regular Saturday night dance at the Yacht Club, April 14 to wind up the season.

A new executive for next year was elected: president: Sandy Jomori; vice president: Don Cristante; secretary: treasurer and Mrs. Vinge Genges and Mrs. Ken Boothe. This year members will become intermediates and a beginners group will be started in the fall.

on unsprayed trees and only one instance of overthinning occurred — on Delicious trees sprayed with Sevin. Only Sevin was used on Delicious but both chemicals were applied to McIntosh, Winesap and Newtown. Particularly good results were obtained with Newtown, which is noted for very heavy setting.

Sevin and Amid Thin are not necessarily preferable to dinitro-ortho cresol. In fact spraying with dinitros at full bloom is considered the best treatment for thinning most varieties, especially if pollinating conditions favor over setting. But Sevin and Amid Thin are handy as supplemental sprays for later use — for instance, if the fruit has not been thinned enough by dinitros — and particularly if at blossom time, the weather is such that dinitros might cause leaf burn and over thinning. Generally if humidity is high and rainfall heavy during bloom period dinitro sprays should not be used. Instead post bloom hormone sprays are recommended for thinning.

Sevin at six pounds per acre, and Amid Thin at 1.2 pounds with a surfactant emulsifier are effective as either dilute or concentrate sprays. The surfactant is an additive that aids in the distribution of the chemicals. Concentrate sprays are applied at 50 gallons of water per acre and dilute sprays at 600.

Chamber of Commerce week

While the work of the Chamber of Commerce is important all year round, this week is set aside so that the work and function of Chambers all across Canada can be highlighted.

Chamber of Commerce week is a good time for all merchants to ask themselves, if not members, why not? And those who are members can ask themselves what the Chamber is doing and what the individual is doing to help.

There's a lot of work for a Chamber to do at any time, but this year is a particularly important one in this district.

Besides pursuing such projects as tourist promotion, community betterment, the Chamber is working hard to keep our annual fruit fair. This is an important project for our community. But it can only succeed with your support.

Chamber of Commerce week is a good week to join the local Chamber. Keath Marten or Ken Heales will be glad to supply you with a membership card.

If you're already a member, it's a good week to ask yourself how good a member you are.

— ● —

Why not walk?

Vacation time is close, and soon we will be holidaying in cars, buses, trains and planes, hurrying around the country in a frantic effort to get to a destination.

Have you ever tried walking for seeing things? In this proposal seems startling to you in this mechanized age, you should consider some of the qualities that make up the natural scene that is preserved in our local parks and countryside.

One of the most rewarding aspects of nature is the exquisite beauty found in minutiae: the spider and his astounding sense of physics in building the web, the form of a tiny butterfly, the interlaced perfection of leaf forms or the fascinating activity of ants working on a crippled stump. None of these are easily observed from a moving automobile, yet most visitors to our countryside depend primarily on wheeled locomotion to "see" the sights.

You can look at the grand landscapes on the highways through the windshield. But to really see them you must get out of the car, at least enough to look at the foreground.

No mountain is so grand that knowing its foreground of small stones, tiny plants and even animals that inhabit it does not enhance its grandeur. For the natural world is not a miscellaneous collection of unrelated pieces, but a unified, harmonious whole; interacting and interdependent.

Walking provides good exercise, too.

— The Lion Gate Times

★

Schooling skilled Canadians

During the last few years Canadian students have been exposed to a campaign with a simple but compelling message. They were told time and again that if they quit school before graduating their chances of getting a job would be pretty slender.

In support of this argument educationists cited figures to show that unskilled workers made up an unusually large proportion of the half-million or more unemployed in Canada.

Now there are indications that the message has hit home. The latest figures from Ottawa show that in February there were about 583,000 — approximately one out of 11 members of the labor force — out of work.

More significant, however was that the labor force had grown by only one per cent during the previous 12 months. It now stands at about 6,400,000 and the growth rate during 1961 was less than half what it had been in previous years.

Experts are not certain of the reason for this but they have several theories. For one thing teen age workers now represent less than 32 per cent of the total compared with nearly 35 per cent a year ago.

This would appear to indicate that at least some teen agers have come to recognize that their chances of getting employment will be better if they complete their education.

Taking Sides

by Rev. Norman Tannar

The greatest example of mob-psychology will be remembered by Christians all over the world this coming week. Down through the centuries, the shouting still rings in our ears, "Hosanna" Blessed is he that cometh in the name of the Lord . . . Hosanna in the highest, and then the almost sudden change to the screaming, "Crucify him . . . crucify him."

Palm Sunday was a mock triumph but the scene on Good Friday was tragically real. The greed of Judas, the desire for popularity of Pilate, the envy of the Scribes, Priests and Pharisees, the brutal cruelty of the Roman Soldiers, the fickleness of the mob, the indecisiveness of the disciples was what showed when Jesus Christ brought all lives to the test.

Every Holy Week the same question comes to us: all. For the Cross stands for the true ideal of life — not covetousness but sacrifice, not popularity but loyalty, not power but obedience not cruelty but gentleness, not brute strength but patient goodness, not doubt but faithfulness. It is never easy to take the side of Jesus Christ against the world — to be like John, who stood by the cross, or Simon who bore it, or the thief who confessed the crucified as his Lord, or even the rough soldier who was moved with pity and held up the sponge with vinegar to the dying lips of Christ.

Yes, we all make an appearance on the Lord's side on Easter Day, but are we at the Lord's side on Good Friday?

"He that is not with me is against me," Matthew 12:30

Letter to the Editor

The Editor,
The Summerland Review.
Dear sir:

After reading Mr. J. N. Giasson's letter to your paper last week, I would appreciate some space to make my own comment on Mr. Giasson's views.

First of all, a newspaper is devoted to the freedom of opinion within law. Therefore I think it rather foolish to attack the material found in any newspaper as it is only a matter of opinion, as are my comments.

I gather that Mr. Giasson's subject was "Unemployment". This he claims governs most all aspects of today's social problems. With this I disagree.

Yes, Mr. Giasson I do agree that the unemployment is worsening, due to automation; immigration; higher taxes; less demand, foreign market and many other reasons. But I also suggest that unemployment is caused by the unemployed. By this I mean that in numerous cases, people would rather live on welfare and unemployment benefits than go and do honest work. They however, still find many reasons to complain about government, civic affairs and the worsening situation.

I also suggest that to blame any government for unemployment is partially wrong, not totally. The government can be held responsible for not creating work through development of resources, attracting new business, establishing industry to supply world markets and other economic and trade administration. However, I do not think that they should receive blame for those who do not attempt to look for, or try to work.

Mr. Giasson further states that at one time "we were all working". I should like to suggest that ever since confederation, there has been unemployment be it large or small. And we shall continue to have unemployment as long as foreign policies dictate to our economy. Only during war times has there been almost total employment, and it so happens that our economy seems to be based on destruction.

No, Mr. Giasson. I do not believe you when you say government and management is responsible for unemployment and unemployment is responsible for our social disorders, e.g. lawlessness, juvenile delinquency, etc. There are law abiding

citizens, juveniles who are on their way to becoming reputable people, yet they are subject to the very same laws of society.

Law and respect begin at home, and it would do many individuals good to cut their hair once in a while, stop complaining about working conditions and instead do their share in civic matters and community life, and get-together to provide employment and closer understanding of existing problems.

In conclusion I would say, it is easy to blame the government, but yet we are the voice of that government.

Bernard Draper.

Letter to Editor

The Editor,
The Summerland Review

Dear sir:
I am enclosing cheque for \$5.00 to cover subscription for two years.

We like getting the paper and look forward to getting all the bits of news that we can.

Summerland Review

WOMEN'S PAGE

Local couple married here in lovely spring setting

A lovely ceremony in the Summerland United Church on March 24 at 6 p.m. united Dorothy Jean Irene Garland and Bruce Alexander Rennie in marriage. The daughter of Mr. and Mrs. John Garland of West Summerland and the son of Mr. and Mrs. Harry Rennie, also of West Summerland, the young couple were married by Rev. P. K. Louie.

Given in marriage by her father, the bride wore a floor length gown of white nylon organza over taffeta. A small crown of seed pearls held her elbow length veil in place. A lovely bouquet of pink roses completed her wedding ensemble.

The bridal attendants, Mrs. Kathleen Wittner of Golden, B.C. matron of honor, and Miss Margaret Garland, bridesmaid, wore identical street length frocks fashioned from blue bengaline with white accessories.

The groomsmen were Dennis

Wittner of Golden and the bride's brother, John Garland and Lawrence Blazeko were ushers.

Following the ceremony, the bridal party received about 60 guests in the Rosedale Room of the Royal Canadian Legion.

For travelling the bride chose a beige suit with green accessories.

The young couple motored to Salmon Arm and then on to Donald, on the Big Bend, by train, where they will make their home.

Out of town guests included Mr. and Mrs. D. Harden, Mr. and Mrs. A. Kilback, Dever and Brian; Mr. and Mrs. J. Garland, Sr.; Mr. and Mrs. W. Jackson, Mr. and Mrs. C. Garland, Mr. and Mrs. A. Baker, Mrs. S. Baker, Mr. and Mrs. B. Latour and Mr. Pete Adams of Penticton; Mr. and Mrs. B. Webb, Marva and Lloyd of Barrier, Mr. and Mrs. E. Gilbey, Shelly and Randy of Merritt; Mrs. W. Lamb of North Battleford, Sask.; Mr. and Mrs. Dennis Wittner and Ricky of Donald, B.C.

Fashion show popular event of last week

Last Friday a very appreciative audience watched the senior girls model the lovely outfits they had created at school and home during the past few months. Mrs. Bouey and her youthful models are to be con-

gratulated on the interesting program they prepared.

Scene stealers were the tiny tots who modelled garments made for them by older sisters or babysitters.

In her very interesting commentary, Mrs. Bouey mentioned that Summerland is fortunate in having a comprehensive dry goods selection and several top notch beauty parlors. She interspersed the modelling scenes with comments on the clothes and the models.

Eight students travelled to Penticton recently to take part in a typing and short hand contest held in the Penticton high school. This was the first time Summerland commercial students have entered a contest of this sort, and although they weren't among the prize winners, the teachers felt that they gained valuable experience competing with top valley students. The contest was sponsored by the Okanagan Valley Commercial Teachers Association.

This Friday, April 13, grades 7, 8 and 9 will present a variety show featuring bands, the junior choir, choral speaking, group rhythm with hoola hoops swung to music, plus individual numbers to make up an interesting and varied program. The program starts at 8 p.m. in the secondary school auditorium and everyone is invited.

Noses will be at the grindstone next week with the Secondary School Easter exams starting. The exams will be at least two hours in length and all students are required to be at school all week, whether they are writing exams or not. Following the busy week the seniors are having an "Exam Blow-out" on Thursday night.

The graduating class raised over \$85 with its car wash recently. The money will be spent for graduation ceremonies early in June.

Miss Ruth Manning, student Summerland Hospital April 4-nurse, has returned to the Victoria Jubilee Hospital after a few days holiday with her parents, Mr. and Mrs. John Manning

Mrs. E. Hookham has returned from a visit to Victoria. Mrs. Margaret Eady, travelled back to Summerland with her.

This recipe for Daffodil Cake was tested by the Consumer Section of the Canada Department of Agriculture. The cake is a light, fat free, white and yellow sponge type, easy to make and pretty as a picture. Beat 7 egg whites (1 cup) with 1 teaspoon cream of tartar and 1/2 teaspoon salt until stiff but not dry. Gradually beat in 1/2 cup white sugar. Divide this meringue mixture into two equal parts. Into each part, gradually fold 1/2 cup sifted pastry flour and 3/4 cup white sugar sifted together. Into one, fold 4 well beaten egg yolks and 1/2 teaspoon vanilla. To the other, add 1/4 teaspoon almond extract. Spoon batters into an ungreased 9" tube pan, alternating a spoonful of the white with a spoonful of the yellow. Bake in a moderately slow oven (325F) until surface springs back when pressed lightly — about 1 hour. Immediately turn cake upside-down and leave until cold. Remove from pan and cover with a lemon icing.

OES installs officers

Mrs. Ray Leiner was installed as Worthy Matron of Summerland Chapter, Order of the Eastern Star, at a ceremony held recently. Past Worthy Matron is Mrs. Gordon Beggs, Worthy Patron, Frank Maddocks; Associate Matron, Mrs. James Heavysides; Associate Patron, Earle Wilson; Conductress, Mrs. Frank Maddocks; Associate Conductress, Mrs. Nels Charlton; Chaplain, Mrs. Fred Downes.

Secretary is Mrs. A. R. Dunsdon; treasurer, Mrs. George Forster; Marshal, Mrs. W. R. McBurney; organist, Mrs. Geo. Long; Adah, Mrs. Mildred Topham; Ruth, Mrs. Roy Mead; Esther, Mrs. J. H. Dronsfield; Martha, Mrs. Laurence Martin; Electa, Mrs. Louise Hunt; Warden, Mrs. Steve Cannings of Penticton; Sentinel, Mrs. George Washington of Penticton.

Installing officers were Mrs. Tom Marsh and Mrs. Ken Heales. Refreshments were served,

convened by Mrs. David Munn. Visitors were present from Oro Crapier, Oroville, Washington; Southern Gate Chapter, Oliver; Edina Chapter, Penticton; and Similkameen-Keremeos Chapter, Hedley.

Locals

Mrs. Margaret Sunderwood is leaving for Europe shortly for a three month holiday. She will visit with friends and relatives in Holland, Austria, Italy and Switzerland. Mrs. Sunderwood plans to fly over and will make the return trip on a Cunard liner.

Mrs. C. G. McDougald, Mr. and Mrs. Reg Hanson and Mrs. A. K. MacLean travelled to Needles, B.C. last week to attend the funeral of Mrs. McDougald's mother, Mrs. Johanna Gudelit, who passed away in

Circulation gaining at local library

This is Canadian Library Week, and we have been pleased to see so many visitors, and old friends come in, while several newcomers to Summerland have joined our library. The display of wood sculpture and abstracts by Peter Ochs, a teacher in our high school, has created a great deal of interest and discussion.

Our young people and the smaller ones are busier than ever reading new books, or looking up facts on school projects, in such varied subjects as the lives of famous doctors or writers, or what radiation does to humans, or how do frogmen breathe. Do you know? or would you have to hunt for answers like Bertha and I do to keep abreast of the modern young?

You might like to know that 1,155 books were read by juniors in the month of March, compared to 1,019 for the same period last year.

Adult fiction read was 1,355, and non-fiction, which includes books of travel and adventure, literature, poetry and the arts, was about 950. Altogether our circulation was 3,441 compared to 3,138 for the same month last year, and shows a steady rise each year. The only sorry note is the number of overdue books which seem to be forgotten, lying in some unlikely place. We are hoping that this spring cleaning time will bring our lost books to light, also that they will find their way home by the slot in the back door of the library — no questions asked! We are still mystified by the disappearance of "Successful Memory" — wonder what happened — did too much study of the system bring on amnesia. I'm sure Earle Stanley Gardner could make something of that.

Of the new books come recently to our shelves "Strange Beginning" by Naomi Jacob, is a good story of Rosie, an English showgirl, warm hearted and impulsive. Her adventures and love affairs are good light reading. Naomi Jacob is a popular English author, now living in Italy.

"The Peacemakers" by Marquis Childs is a very popular novel with locale set in Geneva and deals with the efforts of statesmen and diplomats to avert a war. The story tells how the anxious months wear on the nerves of those involved. Marquis Childs has been special correspondent for American papers in Europe for many years and his reports from Geneva,

Miss Ruth Dale, Rev. Lyle Kennedy and John McDougald have returned home after attending the B.C. Baptist convention in Vancouver.

Mrs. M. E. Collas is home after spending the winter in Santa Barbara, Calif.

Mr. and Mrs. Howard Wright have moved into their new home in the Ritchie subdivision.

Ken Heales has returned to St. George's School in Vancouver, after a ten day holiday with his parents, Mr. and Mrs. Ken Heales.

gave him the idea for this book.

A biography of Thornton W. Burgess is a joy to read. The creator of such well known, lovable characters as Peter Rabbit, Jimmy Skunk, Reddy Fox, living around the Smiling Pool, will bring back many nostalgic memories to grown ups. Burgess was a naturalist, and wrote of the conservation of wild life in his stories for children, a number of years ago. His charming tales were known all over the world.

"The Life-line", a novel by Hugo Charteris, tells in his usual original and humorous way of the mystery of Tulloch Traquhair, a famous TV personality, who comes to a quiet Scottish village to stir up considerable trouble for all concerned.

Horticultural notes

Blossoming Dates

So far this spring appears to be neither an early nor a late one. Almond trees in the Memorial Park are just coming into bloom. These are the earliest flowering trees in this area and usually precede apricots by a week or ten days. Provided we stay on schedule this would mean apricot bloom about April 20th which is close to the average date of the past fifteen years.

Grapes

Grapes are to the fore these days. Several plantings are being planned locally. With grapes, success hinges largely on the proper site and the right varieties. Grapes prefer a well drained sandy loam soil with good depth. A south slope which gets the sun early and loses it late is best. Shelter from the north wind is important too.

Although you might not think so, our climate is not consistently hot enough to ripen the later maturing varieties of grapes every year. Selection of a variety which will mature early with high sugar content is essential.

Among the well known varieties which do well here are Campbell Early, a blue grape for dessert and wine use and Diamond, a white wine grape.

Current interest centres around several hybrid grape varieties which are considered more suitable for wine making than some of the better known sorts. Among the French hybrid wine grapes Seibel 5279, a white and Seibel 9549, a blue show good promise in the Okanagan. A hybrid grape called Himrod from the Geneva Experiment Station in New York is also very promising. It is seedless and is suitable for dessert, fruit salad or wine. Another fine introduction from Geneva is Buffalo, a high quality blue dessert or wine grape.

A bulletin on grape growing in B.C. is available from this office.

Tarnished Plant Bug

What are Tarnished Plant Bugs and what sort of damage do they do? This has been a favorite question lately.

The Tarnished Plant Bug is a small copper coloured bug about 1/4 inch long. It has sharp piercing-sucking mouth parts

which it uses to take sap from plants. This feeding causes injury to the buds of many plants including pears, apples and peaches. Sticky drops of sap on pear buds at this time of year are often the result of Tarnished Bug attacks. In most cases only a few buds are injured and no great harm is done. Occasionally a full scale attack will cause damage unless controlled by a DDT spray. The same insect causes the scarring of peach fruitlets commonly known as "Monkey Face".

A. W. Watt,
District Horticulturist

West Summerland.

Community Concert Assoc. presents opera company

"For a good variety show it's hard to beat an opera" says Canada Council member Frank McKinnon. "Great music, powerful drama, ballet and visual presentation combine in tragic and comic forms to entertain an audience in the truly grand manner."

Community Concert members will be assured of just such a treat when Puccini's "La Boheme" is presented in Penticton in the fall of 1962 by the Canadian Opera Company under the direction of Herman Geiger-Torel.

The Canadian Opera Company is Canada's premier professional operatic repertory company, which over a period of twelve years has won public and critical acclaim for its annual season of opera in Toronto, and its performances across Canada and in the United States. It will bring to Penticton many fine Canadian singers, including bass Jan Rubes star of radio, television and the operatic stage, who is appearing in the Seattle Symphony's production of Verdi's "Aida" at the Seattle World Fair this summer.

The tenth annual renewal campaign of the South Okanagan Community Concert Association got under way Monday when renewal kits were issued to approximately 85 volunteer workers in Penticton, Summerland, Osoyoos, Oliver and Princeton. The purpose of the drive as in past years, is to renew memberships from past subscribers and to enroll new members.

As the Community Concert Association is organized on a membership basis, the Canadian Opera Company presentation of "La Boheme", and three other concerts of the high calibre which Community Concert members have learned to expect, will be available to members only. Membership cards will admit the holder, at no extra charge to any Community Concert in Canada or the U.S.A., space permitting.

Formerly the fee has been

Boy Scout notes

Monday's meeting suffered slightly from nearness of Easter exams but all patrols were well represented. The boys practiced the use of second class lashings by constructing tent frame shelters from Scout staves, using seven staves per shelter and eight lashings. Floor hockey was played and everyone had a lot of fun trying blindfold boxing. A brief discussion was held regarding Camporee and summer camp.

Point scores are: Buffaloes,

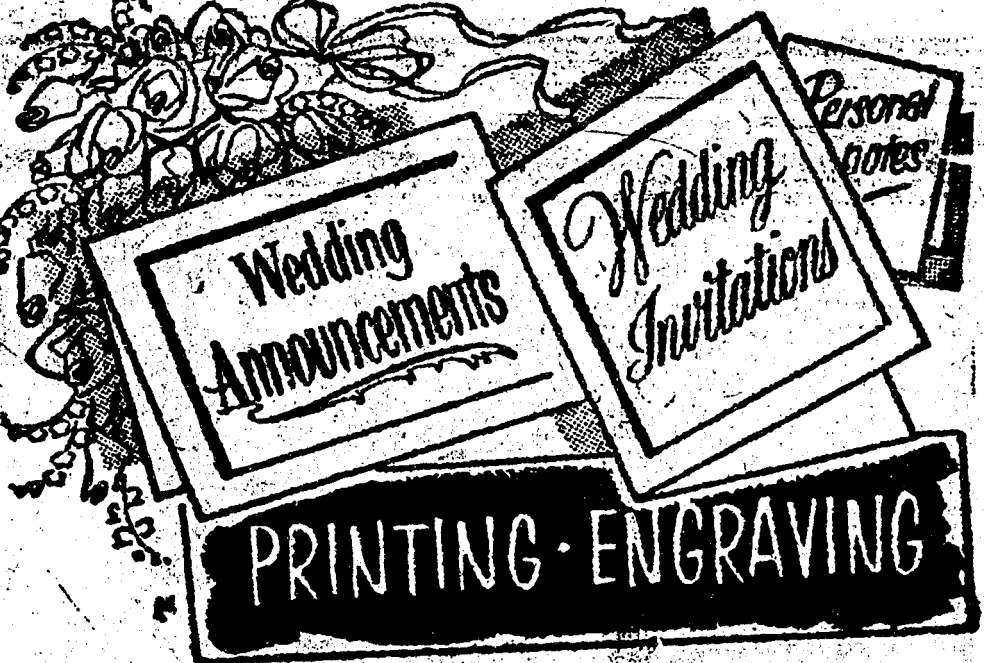

481; Eagles 442; Beavers 437 and Hawks 390. Duty patrol next week Eagles.

— D. V. Fisher, Scoutmaster.

Your Chamber of Commerce helps your community

This is Chamber of Commerce week across Canada. A week when local Chambers explain their purpose and activities, and also make their annual appeal for membership.

Here in Summerland we are fortunate in having an active Chamber doing its full share to

Help wanted

WANTED — Operator for British Columbia Fruit Growers' Association's Certified Budwood Orchard in Summerland, B.C. Must have knowledge of practical orcharding, ability to keep detailed and accurate records and be in good physical condition. The incumbent will be in charge of cultural operations on the budwood orchard and the handling and distribution of bud and scion wood. Minimum education, Grade X, maximum age, 50. For the suitable person this should develop into a permanent position. Application should state qualifications, provide references, and state salary expected. Position open June 1st. Applications will be received until May 1st by the Secretary-Treasurer, British Columbia Fruit Growers' Association, 1473 Water Street, Kelowna, B.C.

Wanted

POSITION WANTED — Young married man with typing and bookkeeping experience wishes employment. References available. Reply Box 94, Summerland Review.

Coming Events

The regular monthly meeting of the Summerland Rod and Gun Club has been cancelled for this month.

The regular meeting of the Summerland African Violet Society will be held at the home of Mrs. A. J. Lazenby, Monday, April 16 at 7:30 p.m.

For Rent

FOR RENT — Three room cottage in north end of Victoria Gardens, available May 1. Apply at sign or phone HY2-6578, Penticon. 3 15p

wards community betterment.

Associated with the Chamber is the Retail Merchants Association. Both groups work toward the general improvement of our community, with tourist promotion, signs, bargain days in stores and many other ways.

What is not sometimes realized is the importance our local Chamber has in provincial and national matters. Because it represents a cross section of our community, its voice is listened to by provincial and federal governments.

The main endeavour of the Chamber this year, has been to keep Summerland's annual Fruit Fair going. A committee, headed by Charlie Bernhardt, has been

working hard to line up an executive for the fall fair, and will be reporting shortly.

Membership in the Chamber is representative of every phase of endeavour in the Summerland area, representing many years of knowledge and experience in service to our community.

April 8-14 has been proclaimed Chamber of Commerce Week in Summerland by Reeve Norman Holmes.

The past record of accomplishments of the Summerland Chamber of Commerce are worthy of your continued support and consideration in future undertakings of this Chamber. A better community, a better tomorrow.

Dr. J. Marshall will address Chamber

Guest speaker at the regular monthly dinner meeting of the Chamber of Commerce tonight (Thursday) will be Dr. James Marshall of the research station. The meeting starts at 6:30 p.m. in the IOOF Hall.

Dr. Marshall is officer in charge of the entomology laboratory. Among his work is designing sprayers, and he was instrumental in introducing bulk bins to the Okanagan.

A report is also expected on the fall fair plans.

Taking the chair in the ab-

sence of president G. C. Johnston will be vice president T. S. Manning. Because this is Chamber of Commerce Week, Mr. Manning urges all members to make an effort to attend.

Kiwanis Club Notes

The entire Club travelled by chartered bus to Vernon Wednesday night for an interclub meeting with Vernon Kiwanis.

This takes the place of our regular Tuesday night meeting in Summerland. A report of this Vernon visit will appear in next week's Review.

Kiwanians John Tamblin, Ed McGillivray and Scotty Ritchie took 16 Summerland Key Club members to a Key Club conference in Oregon last week end. Accompanying them were three Penticon and two Orville Key Club members.

— The Recorder

THE CORPORATION OF THE DISTRICT OF SUMMERLAND

PROCLAMATION

Chamber of Commerce Week

April 8 to 14

Dear Fellow Citizens:

Chamber of Commerce Week is being observed across Canada April 8 to 14. This week has been set aside to bring about a greater understanding of the roll of community Chambers of Commerce and Boards of Trade in making individual communities better places in which to live and make a living.

A Board of Trade or Chamber of Commerce — in Canada the term means the same — is a voluntary organization of forward looking citizens of a community banded together to promote the civic, commercial, industrial and agricultural progress of the community and district in which it operates. The strength of the Chamber movement lies in the fact that it is politically non-partisan, non-sectarian and without any special vested interest.

Its operation on behalf of good citizenship, good government and good business is performed in the interest of all Canadians.

The Summerland Review

Thursday, April 19, 1962

West Summerland, B.C.

Volume 17, No. 16

Owing to the fact that the new Oliver ball park is not completed, the Oliver OBC's will use Summerland ball park this Sunday. They will meet the Pentiction senior team in a game starting at 2 p.m.

A number of Summerland players are included in the OBC's line up this year. Playing on Sunday will be Geordie Taylor, Warren Parker, Jimmy Eyres, Vern Dewitt, John Vanderburg, Chuck Aitkens and Ollie Egley.

Fifteen tables took part in the six week Summerland Badminton Club's spring bridge tournament. Teams came from Pentiction, Peachland and Summerland.

Winners of the tournament were W. Hepperle and Dr. W. G. Evans. Runner ups were O. Murrey and W. Palmer of Pentiction. Only 1,000 points separated the two teams after six weeks of play.

To help the blossoms along, the research station reports that we had 58.8 hours of sunshine last week.

The newly organized Ladies Auxiliary to the Yacht Club is planning a fashion show and coffee party in early May to feature clothes from Summerland's two fashion centres, Macil's Ladies Wear and the Valley Style Shop. The show is being convened by Mrs. H. R. McKee and the models will be chosen from among the members of the Yacht Club Auxiliary.

At the annual meeting of the Retail Merchants Association held Wednesday, W. A. (Bill) Laidlaw was elected president; Hilton Hughes vice president; Eric Williams secretary; Mrs. Helen Anderson treasurer; and executive Harry Killick, Steve Sakel, Don Impett and Henry Brummelheus.

The merchants will meet again in May to decide summer store hours.

Quote of the week: Nat May, when he received an advertising sheet in the mail suggesting what he should do with his Family Allowance cheques, "My aren't they optimistic," said Nat.

Over 100 Kiwanians are expected here for a district convention May 19 and 20. Kiwanians will use the IOOF Hall, the Yacht Club and the Royal Canadian Legion's Rosedale Room.

Are you thinking about what you can do for the fall fair?

Three mill drop in school taxes

Information received at the School Board office on distribution of school costs for 1962 will be of considerable benefit to Summerland taxpayers.

Due to a change of method of calculating grants to school districts, the local tax rate for schools will be reduced nearly three mills this year. The new formula provides a government grant of \$2,560 per teacher for operating costs (exclusive of teachers' salaries) which replaces the complicated method formerly in use.

30 Juniors finish season of badminton

The Summerland junior badminton tournament was held on Saturday evening in the Summerland Badminton Hall.

Girl's single winner was Mary Cuthbert who defeated Gillian Myles in the finals.

Boy's single winner was Mike Lopateck over George Horschel. Girl's doubles saw Mary Cuthbert and Mary Morgan win over Gillian Myles and Robin Barkwill.

In boys' doubles it was Jo Mosley and Billie Shannon over Neil Mason and Eddie Mead.

Mixed doubles saw George Horschel and Lynn Thompson win over Edgar Mosley and Sue Lopatecki.

The cup for most progress in the year went to Ruth Pielou.

Over 30 juniors took part in this season's practices, held twice a week in the badminton hall.

Two teachers attending conference

Delegates from the Summerland Teachers' Association to the B.C. Teacher's Federation 43rd annual convention will be Ray McNabb of Trout Creek School, president of the local association and David McMurray of MacDonald School.

The convention will be held in Vancouver from April 23 to 26, with BCTF president Kenneth M. Aitchison of Burnaby presiding. New approaches to teaching will be featured throughout the program. The keynote speaker is Dr. Arthur A. Lumsdaine, head of the Area of Curriculum and Instruction at the University of California at Los Angeles.

Elementary and primary class teachers and teachers of each high school subject will be meeting by groups to consider their own particular areas of instruction. Demonstrations, workshop sessions, panel discussions and addresses will involve more than 80 speakers.

The school district gross budget for 1962 (1961 figures bracketed) is \$388,001 (\$374,713); government grant, \$246,472 (\$222,771); district taxation, \$126,405 (\$143,024) with district costs broken down, Summerland municipality, \$120,348 (\$136,116); and rural area, \$6,057 (\$6,908). It will be noted that the municipal costs are reduced by \$15,768 over 1961.

Under the new formula, the school board has greater authority in expenditures in that funds available may be expended in any department subject to it being part of the basic programme.

Formerly, over-expenditures under any particular heading became a non-shareable cost of the following year.

The new method, more than ever, will benefit those districts that practice economy of operation, employ only the number of teachers approved as basic and avoid, as far as possible, costs that are regarded as in excess of the basic programme and, therefore, non-shareable by the government.

Police court

On April 6 Mary Edna Hugo appeared in police court before magistrate Reid Johnston charged with driving while not having a C class chauffeurs licence and on the same date was charged with having a truck load of logs secured with only two chains. The law requires three chains on a load of logs. Miss Hugo was fined \$10 and costs on the first charge and \$15 and costs on the second charge. Miss Hugo was charged while driving through West Summerland with a load of logs on a logging truck.

On April 13 Reginald Seed of Peachland appeared before magistrate Johnston charged with speeding in a municipality. The charge had been waived from Vernon. Seed was fined \$20 and costs.

April 17 James W. Inglis of Pentiction was fined \$50 and costs when he appeared on a charge of driving without due care and attention. The charge arose from an accident which occurred at Peachland April 6 when an head-on collision occurred between the Inglis vehicle and a car driven by Kenneth MacKenzie of Port Coquitlam, resulting in \$2,200 damage. Occupants of both vehicles were taken to Kelowna hospital for treatment.

Vernon — Mr. Justice J. G. Ruttan Wednesday fined Thomas William Milne of West Summerland \$300 and suspended his driver's licence for two years after a 12-man jury found him guilty on a reduced charge of dangerous driving. Milne was charged with criminal negligence following a two car accident here September 23, 1961.

Council replies to Trout Creek residents

Fire hydrants, mosquitoes, high taxes and domestic water were among the questions discussed when Reeve Norman Holmes and his four man council met the Trout Creek Community Association last night.

Council was present to reply to a brief the Association had presented at a regular municipal council meeting March 27. Under attack in the brief were mosquito control, cost of installing hydrants, building the domestic water system without tenders, as well as a general lack of municipal services which the residents, according to the brief, do not feel come up to the tax dollar coming from the Trout Creek area. (Figures from the assessors office show that 14.58 percent of the total municipal assessment comes from the Trout Creek area).

Before answering the brief, Reeve Holmes said that he felt Trout Creek residents appear to be very poorly informed of the work municipal council does. He went on to say that the council as a whole had been shocked and angered by the brief. Many points, said Mr. Holmes, could have been cleared up by contacting a councillor or by simply making a phone call.

Method of financing fire hydrants came in for the lion's share of the discussion. Trout Creek residents are not in favor of the voluntary method of financing the hydrants.

Councillor Walter Powell told the meeting that council, in its endeavour to place a reasonable, acceptable bylaw before the Trout Creek ratepayers found that corners had to be cut in

order to keep costs in reason, and the hydrants, which had originally appeared in the estimates, had been dropped. In discussing the water bylaw Mr Powell said that with the exception of a small levy towards Thurst Dam, Trout Creek residents had not contributed toward the West Summerland irrigation or domestic water systems. He pointed out that although Trout Creek is paying for its own system with a higher mill rate, it is enjoying the definite advantage of hooking on to a big, costly, well-established system, with added advantage of not presently having to contribute to upkeep. He said that money taken in from the water rates will go to pay off the bylaw. The West Summerland domestic water system was originally supplemented by a frontage tax on all properties contacted by the system.

In explaining why council had not called for tenders, Mr. Pow-

Sunrise services Easter Sunday

Good Friday and Easter Sunday services are being planned by Summerland churches.

Good Friday services will be held at the Baptist Church at 10:30 a.m. and in St. Stephen's Anglican Church at 11 a.m. At 7:30 p.m. in the United Church the cantata "Olivet to Calvary" will be presented.

On Easter Sunday the annual Sunrise service will be held at 7:30 a.m. in the Memorial Park. The service will be conducted by members of the Summerland Ministerial Association.

School band preparing for trip to coast May 4th

Top name in school news this week is Florence Johnson, who received the Brook Bond Co. senior essay book award for her essay on the Canadian Centenary.

The secondary school band is busy planning its spring band trip to the coast this year. Eighty-five pupils are to participate in the outing which will leave here Friday, May 4. They will play at Keremeos and Princeton on the way to New Westminster where they will be billed. On Saturday they will go to Langley where they will take part in a high school band conference. At Langley the band will take part in a mass band concert featuring four bands from provincial high schools. The band will be accompanied by a teacher and three other adults.

Vice principal John Tamblin and Mrs. Boulbae are in Vernon consulting with teachers on research that has recently been undertaken concerning scholas-

tic ability. They will also discuss audience learning with the Vernon teachers.

British Columbia's top physics students will write a special examination May 1 for a first prize of \$300 put by the Canadian Association of Physicists.

High school principals in B.C. have been asked to name their best students to sit for the exam which will be prepared by members of the department of physics at UBC.

Miss Donna Powell has been chosen as Summerland representative.

The two and a half hour exam will consist of a number of unusual problems and students will be expected to apply principles learned in classes up to the junior matriculation (physics 91) level. Candidates will be allowed to use slide rules and standard tables.

First prize money is awarded from an educational trust fund established by the Canadian Association of Physicists.

ell said that roughly half the job was material and that was up for bid, with lowest bid being accepted in most cases. He explained that the municipality had the equipment, trained personnel, and had recovered about 75 per cent of labor cost, for qualified men under the winter works program. Reeve Holmes said the job had been done with local men, first grade pipe had been used, and although \$14,000 worth of extra material had been used, expenditures would still be under the bylaw limit.

The meeting ended on a pleasant note when Reeve Holmes announced that consideration is being given to extending the street lighting in the area this year.

CNIB has active year

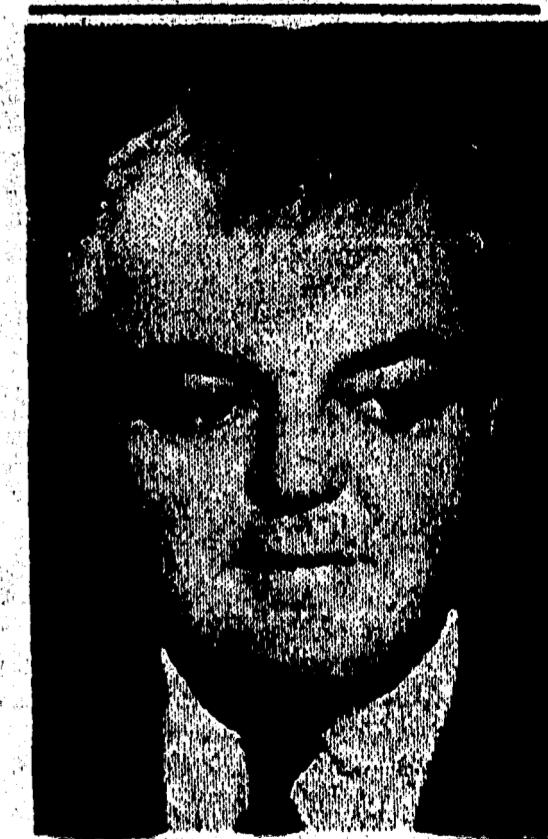

The annual meeting of the Summerland branch of the Canadian National Institute for the Blind was held Monday night in the Health Centre.

Guest speaker was J. C. Hembling of Pentiction, field secretary of the CNIB. A film was shown, with Lloyd Shannon projectionist.

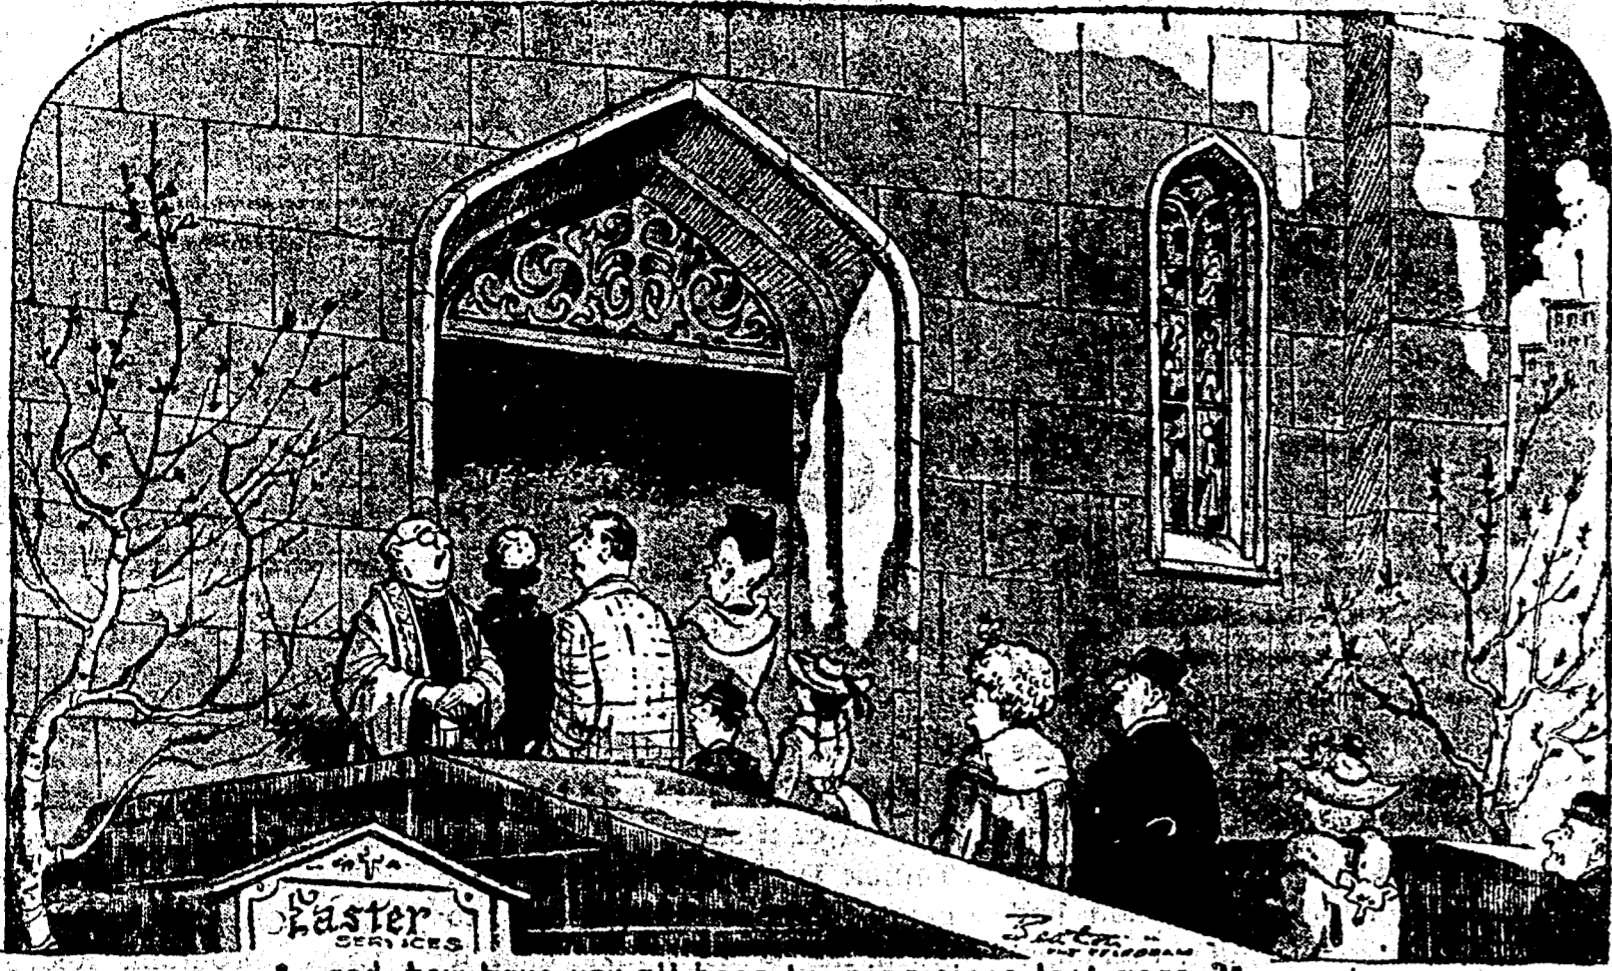

Re-elected chairman was Mrs. W. Rothwell; vice president, R. Alstead; 2nd vice president, Mrs. Eric Tait; secretary, Mrs. J. H. Dunsdon; treasurer, Miss Lois Read. Board members are Mrs. G. Ryman and G. Dinning.

Representatives were present from the Rebekah Lodge, Masonic Lodge, Rotary, Kiwanis, Chamber of Commerce, Hospital Auxiliary, Legion Auxiliary, Health Unit and Women's Institute. The representatives will take back pledge cards to their clubs asking members to donate their eyes to the eye bank.

It was reported that \$653.35 was raised during the annual drive and tag day in October.

New assistant general manager of the Pacific National Exhibition is Dave Dauphinee, 25 year long employee of the PNE. The appointment was made by PNE president Thomas R. Fyfe, following a recommendation from general manager A. P. Morrow.

CNIB entertains WI group

Some 35 members and guests of the Women's Institute were entertained at their regular meeting on April 13 by a group of members representing the C.N.I.B. of Penticton.

With interest, they listened to Mrs. Lynch describe the free 'talking book' library of records for blind folk by which individual selections covering all topics from cooking and hobbies to science, history or fiction are supplied postage free in special easy to handle cartoons. Soon,

Mrs. Lynch stated, the books will be replaced by tapes such as are already being used in England, thus giving unbroken continuity to stories and eliminating marring of records by mishaps.

Mrs. Ted Reed recited a humorous poem, Darwin's Mistake, and Miss Gloria Drought gave a demonstration of her skill with a Braille typewriter. Accompanying these ladies were their guides, Mrs. A. Stocks, Mrs. E. Sammet, Mrs. T. Drought and Mrs. J. Gawne, secretary of the Penticton branch CNIB. The latter announced that special handicrafts classes with a Vancouver instructor will be held in the United Church Hall for a week beginning April 30 with open house May 5. The public is invited to visit any of these sessions.

As convener of the agricultural committee Mrs. E. C. Bingham demonstrated the cutting of dahlia bulbs and supplied a generous quantity of three named varieties for WI sale at a nominal cost.

Mrs. Barrs for citizenship asked Mrs. Mair to conduct the "class" in French counting to ten and also requested assistance of members or residents of Summerland in general, in finding possible representatives of local national groups to be guests at the May meeting. If your native language or culture is classed as foreign, you are invited to let her know.

Mrs. J. MacIachlan gave a report of the annual meeting of the local Welfare Committee.

A \$5 donation was made to the Red Cross and members learned with pleasure that the USA layette submitted under the Salada Tea contest won second prize.

Mrs. Collas was appointed delegate to the district conference

in East Kelowna May 5.

Tea hostesses were Mrs. Bancroft, Mrs. V. Charles, Mrs. W. Wright and Mrs. Pearce.

Camera Club notes

At the regular monthly meeting of the Camera Club, held on Monday evening, Mr. Tom Ritchie showed a series of slides taken during his tour of New Zealand. Scenes of rugged countryside, cities and beautiful gardens were greatly enjoyed by the club members as Mr Ritchie gave a most interesting commentary on his journey.

Slides submitted by local members were previously judged by a committee of three, Bob Butler, Doug Ramsey and Norman West. These were shown at the meeting and the judges remarks and scores were read as the pictures were projected.

Harry Killick announced the results of the CPAC slide competition for March, in which five slides were entered. Summerland placed seventh in the competition with 48 points, well ahead of many of the larger centres across Canada. Mr. Killick received an honor award for his slide of the colored lights on Grand Coulee Dam. He scored 13 points out of a possible 15. Entries were also submitted by B. Butler, D. Ramsay and H. Simpson.

Double Starling bounty

The British Columbia Fruit Growers' Association's bounty on starlings has been increased this year to ten cents for each dead bird brought into collecting stations. Last year, when the bounty was five cents, well over two thousand birds were brought into collecting stations and it is hoped that this increased bounty, a much greater number of the birds will be destroyed.

Starlings, whose numbers are rapidly increasing, are a pest that can do immense damage in fruit growing areas. They must be destroyed by shooting, trapping or any other means, and it is to encourage this that the bounty has been raised. It is hoped that the collecting stations will be the same this year as last.

Although an all out campaign is urged it must be remembered that normal municipal and provincial game regulations still apply. In addition, the BCFGFA reminds starling hunters using firearms and air rifles to remember to observe normal safety rules, especially when shooting in confined areas.

★

Conquer Cancer Campaign

Supporting the Conquer Cancer Campaign is not only humanitarian, it's good business. Each year we see further tangible evidences of progress against cancer in British Columbia which show we are getting full value for our cancer donations.

Nothing underlines this better than recent reports of a 31 per cent decline in advanced cancer of the cervix among British Columbia women as the result of simple uterine tests now available to all women.

We are told that British Columbia now leads the world in this field of mass screening for early detection of cancer of the cervix. The end result: elimination of this important form of cancer as a cause of death.

This life-saving gift to the women of this province didn't come about by chance. It was made possible by many years of patient research and laboratory development, backed up by an intensive educational program aimed at getting 450,000 B.C. women to avail themselves of the test.

A research grant from the B.C. Division of the Canadian Cancer Society launched the project in 1948 and major contributions of Conquer Cancer dollars since that time have helped to bring it to its present successful stage.

Unfortunately, there are many other types of cancer for which no such answer has yet been found. The best hope for further success lies in an intensified cancer research program and continued emphasis on earlier detection by regular visits to your family doctor.

To this end, the Cancer Society is asking for your generous support with its very apt slogan: "Fight Cancer With a Checkup and a Cheque."

★

A mistake in the paper

We make mistakes, of course, and so do you; Though ours are brought much more to public view. They flaunt themselves, derisive, in our face; We'd give a lot if we could but erase Them, but we cannot; and our plight Is sealed. They're down in black and white!

Much as we deplore them, we refuse to spend Our time apologizing. In the end We must console ourselves in the thought That without errors little work is wrought.

Perfection's a fine goal at which to aim; But the unhappy man who shrinks from blame, Whenever false notes creep into his work, Off is inclined his daily tasks to shrink. We much prefer an active role to fill, And "let the scattering chips fall where they will!"

— Doane F. Klechel,
in the Superior Express 30 years ago.

Easter transition

by Rev. L. Kennedy

Even Easter bonnets and Easter gowns undergo transition after Easter Day is past. The Sunday following Easter Sunday, they will be no less lovely and attractive, but soon "my new Easter bonnet" will be "my Sunday bonnet", and after that "my hat." This transition is not an unhappy one nor undesirable. It takes a little more than one day's wearing for hat or garment to merge into the personality of the wearer.

Easter Day, itself, by transition becomes the Lord's Day. The last day of the week was celebrated as the Jewish Sabbath. This was kept by Jesus and His disciples, but Christ rose from the dead on the first day of the week. This fact brought about the celebration of the first day as the Christian Sabbath. By this transition every Sunday is an Easter Sunday, a remembrance that Christ is risen.

The Risen Christ of Easter becomes the daily Presence along every road and in every experience of life. He fulfills His promise, "Lo, I am with you always". No one can measure the influence of that promise and its fulfillment in the lives of Christians, in the spreading

of the gospel by Christian missionaries, in the history of the Church.

The wonder and joy of Easter when it is truly experienced, becomes the wonder and joy of Christ's presence with us. What joy this brings in the appreciation of nature! What joy in those households where Christ is recognized as belonging in the family circle! What joy in work and vocation as they are dedicated to Christ's service! The Easter memory and the Easter transition should fill all worshippers with joy as they gather in the sanctuary on each Lord's Day.

The hope of Easter also suffers a kind of transition. "Every man that hath this hope in him purifieth himself, even as he is pure". The hope of Easter becomes an incentive for attaining the high morality and character of Jesus. The Christian lives under the influence of the hope of eternal life. It seems that eternal life becomes a present possession and experience.

The power of the Resurrection which changes the quantity and quality and the effectiveness of a Christian's life; does not this power merge with the power and presence of the Holy Spirit given to the disciples of Christ at Pentecost?

Letter to the Editor

The Editor,
The Summerland Review.

Dear Sir:
Re, Mr. Bernard Draper:
Mr. Draper are newspapers not responsible for their editorials and besides if they did not suit you would you not criticize them the same way you do me. Also unemployment is no more caused by the unemployed than by the so called elite class who once they have acquired enough to sit on their posterior care not much what happens to the remainder of society as long as they themselves are secure and living in substantially unrestricted luxury then when war breaks out we are given a pep talk, a pat on the back, we are told we are gentlemen and must sacrifice our lives if necessary to save our country.

There are people who have never received welfare in any amount and who are losing upwards of \$2,500 a year by unemployment. I myself could earn three times that amount. In view of the circumstances under which so many people have to live here and elsewhere it is not only a matter of simple complaints it is everyone's duty to do all that is normally possible to enforce the principles of justice not just the aristocratic notion of so called justice, consider the performance by our prime minister who said in one pre-election speech: "I know what unemployment is, nobody can tell me and let me tell you this, so long as I am prime minister nobody will suffer as a consequence of it".

Who was it that begged and forced us to risk everything in war and then opened the doors wide to our enemy of only a short time before knowing fully well that only a few years previous there had been one out of every seven or eight Canadians unemployed for years in a great country whose people

boast of their freedom and free enterprise. A number of those who served will remember the recruiters' words "There will be no more unemployment." Mr. Draper, are we supposed to suffer such nude hypocrisy amongst a number of still worse things without complaining, in my opinion one must be near dead to overlook such misconduct.

I emphasize the fact any employment that is unsatisfactory from my point of view can be but little different than unmodified slavery. Anyone who don't believe this should try it themselves for a number of years, and see if they still think the same. Some of the jobs that are offered the unemployed should be given to the so called elite without pay.

What do we have governments for unless it is to take and use all necessary measures to create a favorable economic atmosphere for the working class. What we have here give me the impression it is organized to serve aristocracy in preference to all other people.

According to Mr. Draper, there has been unemployment ever since Confederation, so from my point of view this proves only one thing, namely the inadequacy of the present and all previous administrations. Wealthy nations, and Canada is certainly one of them, can have no valid excuse for widespread unemployment.

Why does our economy seem based on destruction, is that a guarantee of justice and sanity of human behaviour? Is it the fault of working class people? or the unemployed? were we on each side given the privilege to vote for or against war. The answer is an emphatic no, working class people would vote against that. Then whose fault is it? who is it that ac-

Local women elected at WCTU annual convention

The Kamloops-Okanagan District Women's Christian Temperance Union held its 52nd annual convention in Kamloops on April 12 and 13, with about 40 delegates and friends present. The president, Mrs. L. James, was in the chair.

After an inspiring devotional led by Mrs. G. Leasor of Summerland, the president then declared the convention open for business. Reports were given from local Unions each showing an active year.

During the morning period, a very interesting and informative talk was given, entitled "The cry of the Indian" by Mr. Ben Paul, teacher at the Indian Residential School at Kamloops. He spoke of the heritage of the Indian, one of which they were proud of; before the white man came, today it is different. They have no voice in which to state their opinions in regard to the affairs of their lives.

As a means of getting to understand the Indian better, he spoke of the Nicka-Micka Club, which one could join. He out-

lined its history and objects. This club was begun by a group of university women who organized themselves into a club to study about Indians and their affairs. The objects of the club are: to promote better understanding between Canadian Indians and non-Indian; to seek solutions for problems facing the Indian citizen in community life; to encourage contributions to national life that the native Indian can make through a re-new pride in their heritage and a fostering of their art and cultural expression.

During the luncheon hour, Mrs. W. S. Watson, national president, addressed an interested audience. Mrs. Watson spoke of the number of premiers who signed the proclamation, proclaiming April 8 to 14 as Youth Temperance Education Week. She said, "We as an organization need not feel we have no prestige. We must give youth the scientific facts. One in nine teenagers who drink may become an alcoholic by the time they are 30. Indulgence in alcoholic beverages never has raised the standard of living, but rather lowers it".

The afternoon session was taken up with a memorial service in honour of those who had passed on, a round table discussion, election and installation of officers for the coming year.

Elected were: president, Mrs. L. James, West Summerland; 1st vice president, Mrs. Reeve, Kamloops; 2nd vice president, Mrs. R. Smith, Kelowna; corresponding and recording secretary, Mrs. H. DeWitt, West Summerland; and treasurer, Mrs. C. Coss, Kaleden.

Services for Mrs. Solly Saturday

Dorothy Anne Onslow Solly, wife of the late Archdeacon Herbert Ames Solly, died April 17 in Nelson. Mrs. Solly was born in Carmarthen, South Wales, June 17, 1875 and came to Summerland as a bride in 1907.

Mrs. Solly was a member of the Summerland school board for 12 years, president of the hospital auxiliary for many years and in 1940 was chosen good citizen of the year. In 1955 she went to Trail to live with her daughter, Mrs. E. G. Randall.

She is survived by one daughter, Mrs. E. G. (Veronica) Randall, Tadanac, B.C.; one son Ivor Herbert Solly, Victoria; 8 grandchildren and 8 great grandchildren.

She was predeceased by her husband in 1941, a daughter, Dorothy May in 1937 and a son, Nicholas Onslow in 1962.

Funeral services for the late Mrs. Solly will be conducted in St. Stephen's Anglican Church, Saturday, April 21 at 11 a.m., Rev. Norman Tannar officiating. Interment St. Stephen's Anglican Cemetery.

Honor couple prior to trip to Europe

Mr. and Mrs. Cecil Morgan will leave during the week end where they will board a freighter to England. They will then go on a bus tour of seven countries, returning by air in about nine weeks.

Last Thursday Mrs. William Wagner and Mrs. M. D. Proverbs entertained eight ladies with a luncheon in honor of Mrs. Morgan. She was presented with a gift and flowers.

On Tuesday Mrs. Morgan's bridge club held a bon voyage party at the home of Mrs. Eric Smith. Attending were Mrs. R. Downing, Mrs. K. Carter, Mrs. L. Gartrell, Mrs. J. Miltimore, Mrs. C. Strachan and Mrs. E. Tait.

Kiwanis Club Notes

On Wednesday, April 11, 26 from Summerland paid Vernon Kiwanians an interclub visit, making the trip via Greyhound L.S. When such a gang get together, a hilarious time is usually enjoyed. Trust Jerry Hallquist for considering the needs and conveniences for all.

President Allen Hassell of Vernon filled his usual dynamic role. Apparently he was hurt over an allusion in a former issue to his 325 pounds. As a result he has made a vow that when his club makes a return interclub visit to Summerland in two months (June) he is going to be dieted down to 256 pounds. If he fails, as a penalty he will personally eat up the entire contents of the smorgasbord table. I am sure this would not go down so well with the other members.

Mr. Dawson gave an interesting talk on the development of the Vernon Irrigation District since the 1880's to the present time.

The ladies of the Kiwanis Club put on an amusing shadowgraph play, entitled "The Man In The White Coat" depicting a hospital operation.

The evening wound up with a buzz game, where only the fittest survived. We are very sorry for those who were unable to go.

At the regular Tuesday night meeting 32 sat down to dinner, including one visitor from Penticton.

Jerry Hallquist reported on the Vernon visit, and suggested another interclub meeting at Orville the first week in May. John Tamblyn reported on an excursion to Redland, Oregon where he, Ed McGillivray and Scotty Ritchie took 15 Key Club members.

Brian Liebert reported on the Babe Ruth movement and Bill Laidlaw on the Meadow Valley Ski Hill work.

Mr. Dewdney from Penticton was to have addressed the club but postponed his talk in favor of the hockey game which was watched on a TV set procured by Jerry Hallquist.

Finally the meeting was adjourned and followed by an executive meeting held at the home of president Walter Toovs.

Monday's meeting featured the season's first outdoor game of Prisoner's Base. A patrol signalling game competition was also held with Hawks the winners. Instruction was given in rope whipping, signalling and 1st class first aid.

May 18 to 20 are the dates for this year's International Camporee to be held in Oliver. The troop has voted to attend and so instruction for the next few weeks will be on lashings: It is suggested boys practice lashings at home during the next two weeks.

During the Easter holidays, several patrols are planning patrol camps. Boys should keep in touch with their patrol leaders for information on these camps.

Next meeting will be Monday, April 30. Duty patrol Beavers. D. V. Fisher, Scoutmaster.

Letter to Editor

Continued from page three)

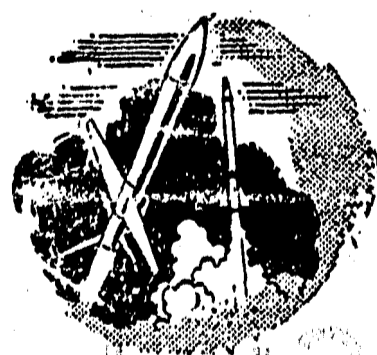

quires wealth by making and selling machinery for murder and destruction and how much useful labor does that type of people do?

Mr. Draper, you have a good enough reason to believe and as for a closer understanding of existing problems I must say the place to get evidence is right from the source, from people who know because they have labored for years in places and conditions that I doubt you yourself would want to be bothered with.

There are a number of people whose attitude toward labor is like a song of hate and my advice to those is to stop biting the hand that feeds them. If they did not have labor, including agriculture they would not be here. It is easy to understand the fact labor could get along very well without aristocracy but aristocracy would not be able to exist without labor. Those who want working class people to fight wars and sacrifice their lives for what they call peace should have enough moral fortitude to respect labor at all times and it is not being done to my satisfaction.

Yours truly,

Jos. N. Giasson.

Square 'em up

April party night for the Summerland Pairs and Squares falls on Easter week end, Saturday, April 21. It is to be a Benefit Dance for the Youth Centre, and a large crowd of dancers from all Valley points is anticipated.

Ray Fredrickson, Summerland's excellent caller and teacher, is donating his services as emcee for the evening. Visiting callers have been invited to come and help Ray with the program. Gwen and Bob Hardie are decorating the hall for the occasion. The club is providing coffee and tea, and dancers are asked to bring lunch. All profits from the dance will go to the Youth Centre Association in appreciation of the fine facilities they have furnished for the many community activities.

At an executive meeting at the home of Nettie and Lloyd Shannon on April 9th, plans were finalized for the pairs and squares annual meeting on May 2. It will be held at the home of the president, David Munn. Club members and any others interested in square dancing are invited to attend. Reports of the past year's activities will be given, and plans for the coming year will be discussed. Elections will be held to fill any vacancies on the executive, with Lil Nistor and Gwen Hardie appointed to act as nominating committee.

Since weekly lessons wound up for the season, Summerland dancers have been attending party nights in the neighboring towns of Penticton, Bridesville, Kelowna and Westbank. The wide variety of callers makes it hard to decide where to go. We are fortunate to have so many opportunities for enjoying our favorite pastime.

The young bride was complaining about her husband's drinking. "But why did you marry him, if you knew he drank so much?" asked her mother.

"I didn't know he drank at all!" said the girl, "until he came home sober one night".

In Memoriam

SCHINDEL — In loving memory of a dear husband and father, Fred Schindel, who passed away April 16, 1960.

"Days of sadness still come o'er us
Tears in silence often flow;
For memories keep you always near us,
Though you died two years ago
Some may think you are forgotten.
Though on earth you are no more.
But in memory you are with us.
As you always were before.

— Lovingly remembered and sadly missed by his wife, Sophia and family.

Junior Red Sox lose opening game 6 to 5

The Kelowna Juniors defeated the Summerland Red Sox by a score of 16-5 in the league opening game on Sunday in Summerland.

For six innings it was a good game with Kelowna holding a 4-3 lead but the Summerland team blew sky high and Kelowna went on to score nine times in the sixth and three times in the seventh.

The Red Sox had the bases loaded several times but lack of hitting and poor base run-

ing cut off rallies when runs were needed. Keith Skinner was the leading hitter with a long double to drive in two runs.

Sheeley started on the mound for the Red Sox and took the loss. He was followed by Pushkerinko and Skinner. Horning picked up the win for the Kelowna team.

On Sunday the Red Sox travel to Keremeos and on the following Sunday to Kamloops for a double headed

Twin City Macs off to Ontario for playoffs

The Twin City Macs are now well on their way to Terrace Bay, Ont. where they will meet the Marathon Mercuries for the Canadian Intermediate hockey Championship. The Macs caught the train out of Salmon Arm about 1:00 a.m. Tuesday and expect to reach the Ontario town about Thursday.

George Stoll, team coach and manager told the Review that the team hadn't been on ice for three weeks and is definitely not in as good as shape as a month ago. "But we're going out there to give it all we've got, and although we know nothing about the Ontario team we're hoping experience will tell and our boys have plenty of that," said George.

Definitely shorthanded, the Macs are short forwards Bugs Jones, Jimmy Fairburn, Red Bosscha and Geordie Taylor. Goalie Don Moog, unable to make the trip, will be replaced by Kamloops goalie Mel Rocchi. The only new recruit on the twelve man squad making the Ontario trip will be Kamloops Al Schaeffer.

The Macs romped into the finals taking the B.C. title with a win over Powell River and then took Alberta's Lacombe Rockets to move into the national finals.

Made up of Kelowna, Penticton and Summerland players, many of them former Senior A players, the Macs used Summerland as home ice this winter.

Over 72 members on Little League team

Summerland's Little League got off to a swinging start on Monday evening when the group met at the Nuway Annex to discuss 1962 activities. About 30 parents were on hand to take part in the planning and to offer help in the busy season ahead.

The committee reported that 72 Little League applications have been received to date.

During the evening's business, it was suggested that Joe Sheeley be asked to supply umpires from the junior Red Sox.

Coaches were chosen for each team and it was decided that each team will have one league game and one practice.

The games will be held on the Little League Diamond, maintained by the Kinsmen Club and the practice session will be at the MacDonald School grounds.

Practices commenced April 17. A list of teams and coaches as well as schedules will be posted on the bulletin board at MacDonald School.

A joint meeting of the Little League and Pony League will be held Monday, April 30 when the two clubs hope to iron out details for a joint financial drive.

Bud Green of the Kinsmen Club reported on the diamond situated at the Memorial Ball Park. Mr. Green told the meeting that the diamond is in good shape and ready for play.

On the Rifle Range

by Herb Simpson

The final week of shooting on the indoor range has been a busy one. On Tuesday members of the BCD Summerland Rifle Club were guests of the Sportmen taking part in the teaming Rifle Club with 22 marksmen competitions the Town Rats took top honors with 1,385 points. Members of the winning team were A. Kalinin, A. Dundson, Mrs. R. Bertram, Len Shannon and Bob Barkwill. Harold Richardson scored the high aggregate with 199 out of a possible 200 points.

On Friday evening the last shoot of the season was held with an excellent turn out of adult and junior shooters.

Prize winners were: ladies' aggregate cup: Louise Atkinson; men's aggregate cup, Bill Barkwill; junior aggregate: Andrew Baker; lucky target: Molly Bentley; lucky target, junior: Robin Barkwill after a shoot off with John Liebert; lucky target, ladies' only: Frances Bentley; most x-rings scored by a lady: Olive Bertram; bunny shoot miss and out: Frances Bentley with ten consecutive hits; consolation prizes: Margaret Hutchison and Jack Lammie.

Cup for junior possibles went to Gordon Lackey.

Apologies to Sandra Wright, her name was omitted from the list of bronze pin winners.

Hot dogs and coffee were served to complete a most enjoyable evening.

A range for 22 calibre rifles will be opened at the Garnett Valley range this season.

Five Acre Orchard

Peaches, pears, Mac apples, gentle slope, splendid soil. \$4,500 with terms.

Council moved that George Geres be appointed as assistant general superintendent under Works superintendent Ken Blagborne.

A copy of a letter to the Minister of Lands and Forests, written by Mrs. Phyllis Hickson of Trout Creek was read to council. In the letter, Mrs. Hickson reminded the minister that no action had been taken on her request that lakeshore home owners not be allowed to build boat channels into the lake. Such channels, Mrs. Hickson contends, constitute a danger to children.

Five student teachers from UBC will start practice teaching at the secondary school April 30.

Fire damages CPR dock

A fire, reported to the Summerland fire brigade by three passing youths, did an estimated \$2,000 damage to the Canadian Pacific Railway's dock on the lakefront in Summerland early Tuesday morning.

Of unknown origin, the fire had apparently smoldered for many hours before being noticed, although it has been reported that as early as 8 p.m. Monday evening a passing motorist had noticed a glow, but didn't report it.

The area most severely damaged by the blaze had just been renovated in the past year.

Out of business for the time being, the wharf was mostly handling freight from local canneries. It will probably be back in service before the fruit starts to move this year.

At one time the CPR dock was possibly the busiest and most important spot in this community. Built in the early 1900's the dock was the port of entry to Summerland. It had daily service north and south by the then, palatial CPR passenger boats. One of these, the SS Sicamous, now beached at Pen-ticton, used to call at the dock regularly.

As well as the passenger boats, ferries and car barges tied up at the busy dock.

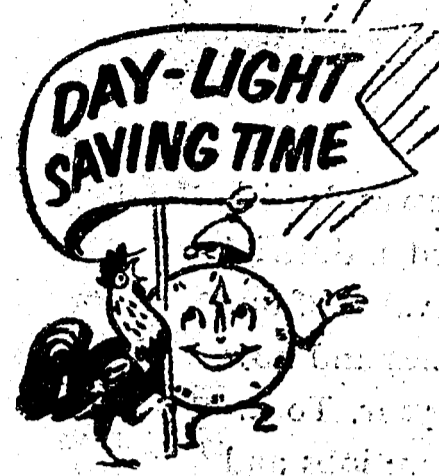

In the past few years the dock has been used almost exclusively for the moving of fruit out of this area.

The Summerland Review

Thursday, April 26, 1962

West Summerland, B.C.

Volume 17, No. 17

STARTS SUNDAY

Don't forget to turn your clock ahead one hour Saturday night before you go to bed.

Yacht Club broken into

The Summerland Yacht Club was broken into sometime early Easter Sunday morning. Entry to the building was gained by kicking in a window near the back door and reaching through to unlock the door.

After gaining entrance to the building, it is thought the thief looked for liquor but found none. Apparently in frustration he kicked in the door to the kitchen smashing it off its hinges. The only articles found missing were a couple of packs of cigarettes. RCMP are investigating.

Leonard B. Jackson of Summerland appeared before magistrate Reid Johnston charged with driving contrary to licence restrictions. He was fined \$10 and costs. Jackson was operating a motor vehicle while not wearing glasses.

April 18, Gene Mar of Kelowna appeared on a charge of speeding in the municipality. He was fined \$25 and costs.

Also on April 18 a local juvenile appeared charged with operating a vehicle with a noisy muffler. He was fined \$15 and costs.

Two cases were heard on April 24. Mrs. C. Springer of Los Angeles, Calif. was charged with driving without due care and attention. The charge arose when Mrs. Springer overturned a car she was driving about 8:00 a.m. Easter Sunday morning. She was fined \$25 and costs. Kenneth Anderson of Summerland also appeared charged with driving without due care and attention, after his car smashed into a vehicle parked on Beach Avenue in Summerland. Aggregate damage was \$500. Anderson was fined \$35 and costs.

RED SOX LOSE 13-0

The Summerland Red Sox junior baseball team played in Keremeos last Sunday and lost their second straight game by a score of 13-0.

Once again it was errors and lack of hitting that beat the Red Sox. Jim Evans pitched for Keremeos and didn't allow a hit until Joe Baggs broke up his no hitter in the ninth. Skinner also got a hit and that was it for the Summerland Juniors.

Evans was the winning pitcher and Skinner took the loss.

This Sunday the Junior Red Sox go to Kamloops for a double header.

Better signs for Powell Beach area

At the regular council meeting Tuesday night Councillor Walter B. Powell took the chair as acting reeve in the absence of Reeve Norman Holmes who will be out of town for a short time.

A letter was read from Mr. A. C. Logan of Trout Creek asking council to consider proper signs to mark the entrances and exits to the Powell Beach area. According to Mr. Logan, residents in that area experience considerable annoyance from drivers who do not use the roads properly.

Councillor Barkwill said that Mr. Logan had a very legitimate complaint as the road in question needed more signs and more control. Council discussed the problem at some length and decided to take a look at the area before making a decision.

Works superintendent K. M. Blagborne informed council that most of the main irrigation flumes will be running this week. The crews haven't been able to work too far back towards the dams because of snow.

Councillor Eric Tait reported that the Arena Association had okayed the Figure Skating Club's application for summer ice. He also discussed with council the contents of a letter from the South Okanagan Health Unit regarding the Sunoka Fruit Cannery situated in Summerland. The letter, read in council, said that the pollution control board had inspected the premises and felt that its condition created a hazard to children playing near it. Mr. Tait said that the municipality has the power to tear the building down and charge the cost to the property. Council moved that the problem be reviewed by the municipal solicitors and action taken.

Increase in municipal budget, but mill rate is lowered

A drop of one mill in the 1962 tax rate was reported at Tuesday night's council meeting.

Total mill rate this year is 33.80. One mill equals \$6,397 for general purposes and \$6,559 for school purposes.

School costs will walk away with the largest slice of the budget, despite a decided drop in the school budget due to a change in the method of calculating grants by the provincial government. 54% of the total budget will go to finance schools (the 1959 budget saw 66% go to schools) and runner-up is social assistance with a

record budget of \$73,000 (\$55,000 of this sum is recoverable from the provincial government. Total public works budget for the district amounts to \$46,513, this figure including work on roads, sidewalks and drains.

Total budget for 1962 is \$425,219.85, compared to \$395,023.10 in 1961 with a mill rate last year of 34.85.

Just where the money will come from and how it will be disbursed is shown in the following table.

Estimated Revenue

Taxation: General Municipal Purposes	\$ 95,357.75
Debenture	3,120.00
School	120,348.00

Springtime in the Okanagan

Confirmation services Sun.

Rt. Rev. W. Coleman, D.D., Bishop of Kootenay, will conduct confirmation services for 20 candidates at St. Stephen's Anglican Church this Sunday. The services will be held at

7:30 p.m.

A social hour will be held in the parish hall following the service, giving parishioners an opportunity to meet the bishop.

Increasing interest shown in Horticultural Society

The regular monthly meeting of the Summerland Horticultural

Society on Tuesday, April 17, was attended by a record number of members and visitors. The new president and executive are presenting programmes which appeal to those interested in gardening.

Mr Nat May had a larger number than usual of questions to answer from the question box. A new feature is Alex Watt's letter "Spring Breezes" sent to all members and containing suggestions and information for gardeners.

The feature of the evening was the lecture and showing of slides by Mr Morris King of the Horticultural Department, Kelowna. This is the second lecture of a series on landscaping and dealt with the proper use of shrubs in landscaping a home. The large audience, besides being entertained, gained valuable information.

Results of the parlor show were: bowl of spring bulbs, 1st Mrs A. Inch, 2nd G. Dinning; vase of spring flowering shrubs 1st, Mrs. W. F. Ward; 2nd, Mrs A. Inch.

Teen-Town Topics

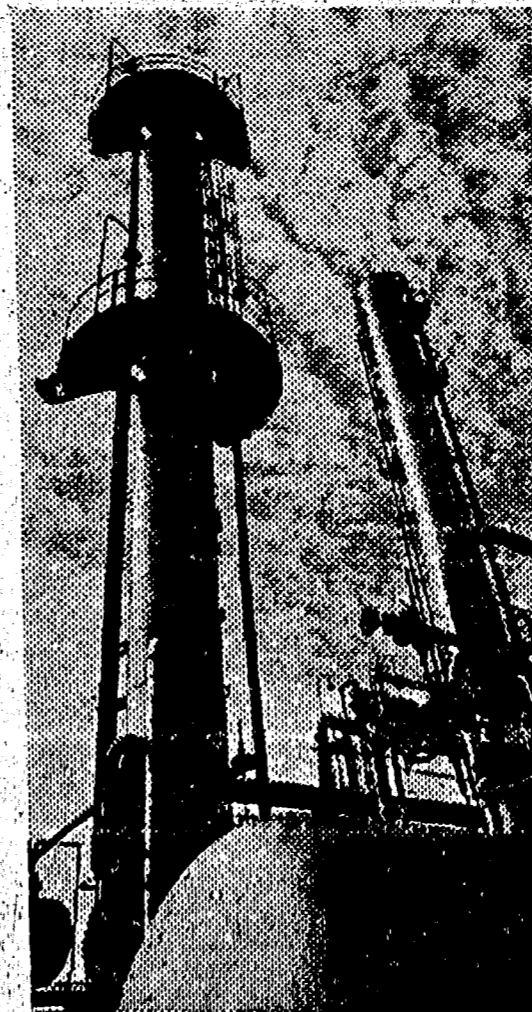

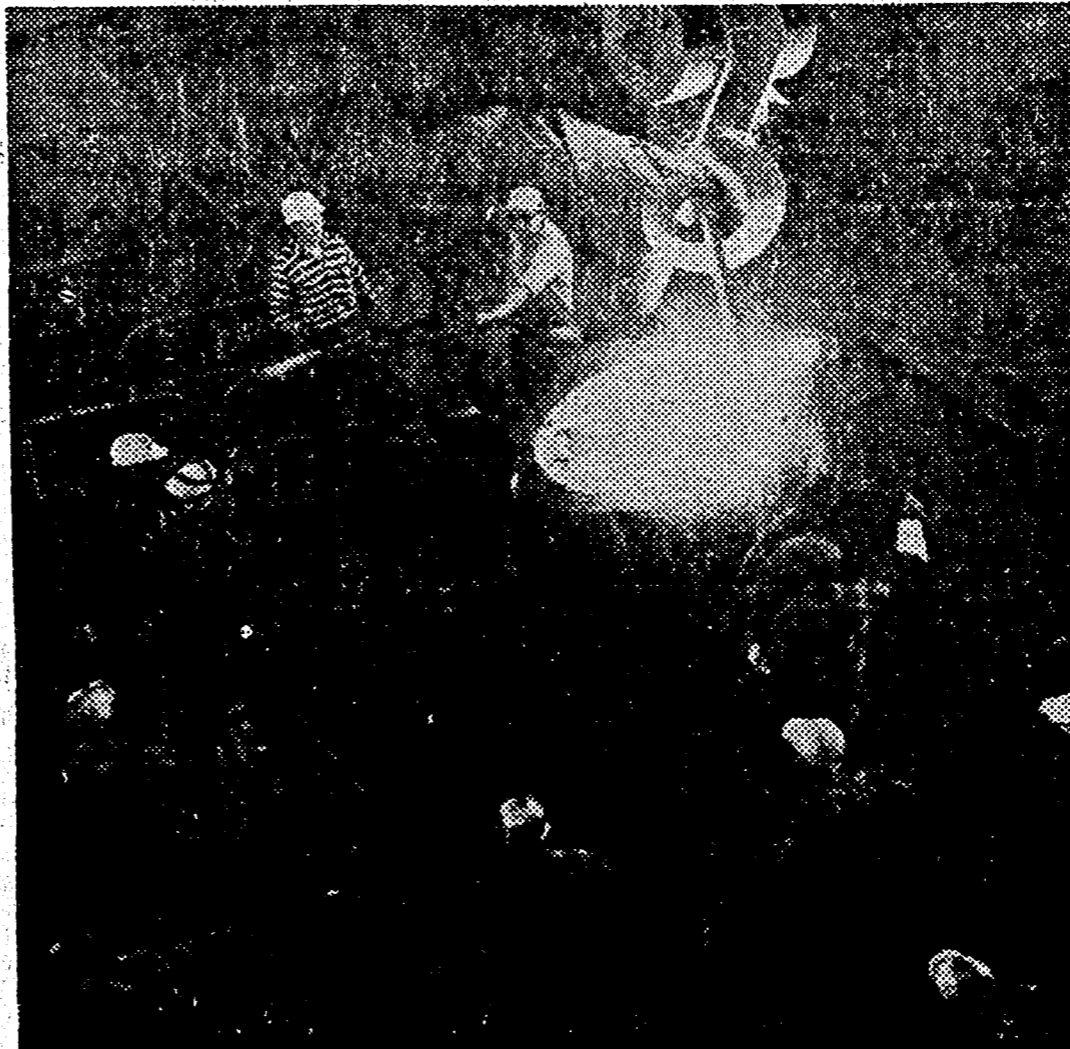

Starting Tuesday, April 24 and continuing until Friday, April 27 Summerland Teen Town will be participating in the Mayor's Conference at Penticton. Mayors and their council from the whole of British Columbia will be attending this conference.

Tuesday began with registration; Wednesday and Thursday, business meetings, and Friday closes with a dance. Thursday evening is the highlight of the conference when B.C.'s Sweetheart is chosen from the candidates from every town. Summerland's own Teen Town sweetheart candidate is Miss Donna Laidlaw.

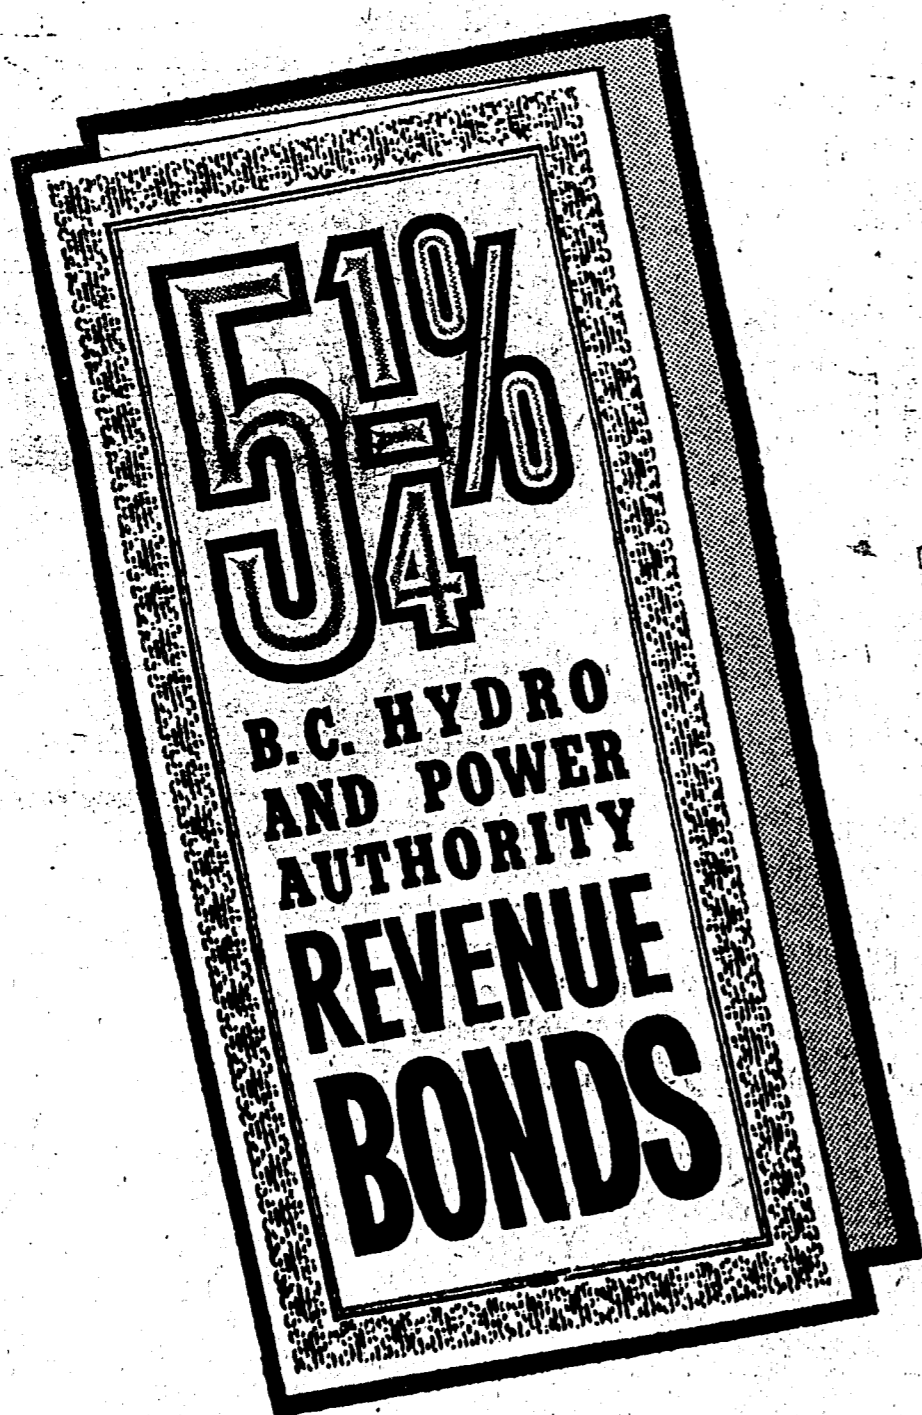

I would like to thank Mr. and Mrs. L. Burnell for chaperoning the dance on April 14 and Mr. and Mrs. S. Caldwell for chaperoning the dance on April 21.

— Sharon Geres

Immensely rich in natural resources and energy reserves, British Columbia looks forward to a future of unlimited industrial development. In the past 15 years alone, the gross value of our manufacturing production has increased by six times and now adds more than \$2 billion to the economy every year. To increase this production even further, to provide more jobs and opportunities for the people of the province, and to enable our economy to compete successfully in the markets of the world, your B.C. Hydro and Power Authority has embarked on the largest and most vital power development programme in British Columbia's history. The cornerstone of this programme is a water power potential of 40 million horsepower — equal to the entire installed generating capacity of highly industrialized Great Britain. The utilization of this tremendous resource and the dynamic new industry it will attract, make these 5 1/4% Revenue Bonds an exceptionally good investment.

What is your opinion?

In a very interesting address to the Chamber of Commerce recently, Dr. James Marshall brought up the subject of school uniforms. Dr. Marshall has recently returned from a trip to Australia and reported that he was very impressed with the uniforms used in schools in that country. His feelings were that uniforms removed much of the stress on young people, taking away much of the financial and class distinctions found in North American schools.

School uniforms have been discussed before in Summerland. A few years ago the PTA displayed several school uniforms to a group of parents.

In speaking on uniforms, Dr. Marshall said he was giving his address to the Chamber as a "trial balloon", in order to stimulate discussion on this subject. We too, feel that this is a subject that should be discussed. Therefore, we are asking our readers to drop us a line, giving their opinion on school uniforms in Summerland.

We hope to hear from you.

Take time to read label

It pays to read!

This is the advice of the Consumer Section, Canada Department of Agriculture, in stressing the value of information on canned and frozen fruits and vegetables.

Thanks to government grading regulations and inspectors, the guesswork in buying these foods is eliminated if a shopper takes the time to read the label.

A grade mark is the guide to quality and is one of the first things for which a shopper should look. In order of quality, grades for canned fruits and vegetables are "Canada Fancy", "Canada Choice" and "Canada Standard." Frozen fruits and vegetables and canned juices have two grades — "Canada Fancy" and "Canada Choice".

The grade names apply to products canned or frozen in Canada and also those that are imported and repacked. The word "Canada" cannot appear as part of the grade mark on labels on imported products sold in the original containers. However, "Fancy Grade", "Choice Grade" and "Standard Grade" must meet the corresponding "Canada" grades.

Country or origin is indicated on imported products. Labels also show the amounts in the containers. With canned fruits and vegetables it is the volume by measure in fluid ounces and with frozen products it is the net weight in ounces or pounds.

Containers for canned fruits and vegetables are of standard sizes and limited in number, while frozen products must be packed in standard net weights. This standardization helps the shopper to compare prices, the Consumer Section points out.

There are a number of other label markings that discerning shoppers will note, such as the ones showing the percentage of sugar used in a syrup packed fruit or the fact that none was added and, in the case of many fruits and vegetables, whether they are packed whole, sliced, diced or cubed.

The full story, however, cannot be told on the label. This involves a wide range of government regulations ranging from weight standards for canned fruits and vegetables to the requisite that the product must be sound, clean and wholesome.

It's that time of year

In spring, it is said, a young man's fancy lightly turns to thoughts of love.

With other men their fancy turns to thoughts of a fast buck. These fly by night operators are blooming again this spring.

People are being pestered by individuals who offer to do work, usually roofing, siding and chimney work, at supposedly low rates. Door to door salesmen of this type should be watched. There are two things a resident can do to avoid being cheated.

After checking the salesman's business licence, the residents should seek an estimate on the work and then contact local firms who will be glad to inspect the property, check if the work really requires to be done and then will quote a price.

It only takes a telephone call and it might save the caller a lot of money.

There have been many instances of people taking the word of the door to door salesmen and finding that they have paid far too much for work that should not have been done in the first place and in some cases for work that wasn't done at all.

Ask for an estimate. It might save you money.

If Christ had not died . . . and risen

by Rev. Ira Johnson

Scriptures: Romans 6:3-11
Corinthians 15:13-20
Palm Sunday, Good Friday

First Sod for the Pacific National Exhibition's new million dollar livestock arena was turned recently by John Taylor, MP; B.C. Agriculture Minister F. Richter; Vancouver Mayor Tom Alsbury and PNE president Thomas R. Fyfe. The building will not be completed in time for this year's fair.

and Easter Sunday have come and gone! But since no one has yet fully comprehended the full significance of these events, let us take time to look back over these events and ask ourselves "What if Christ had not died -- and had not risen again?"

Vernon Jacobs, whose writings suggested this subject, says: "The Cross was not an untimely circumstance in the life of Christ; it was part of the original plan. It was not something men forced upon Him, but rather was taken up voluntarily. (John 10:18). Death to the founders of other religions was a tragedy; to Christ it was victory."

But suppose Christ had not died and risen again!

If such were the case, you and I would still be living in spiritual darkness. (We would be worshipping the helpless gods of the heathen or at best be bound to the law of Moses, with its animal sacrifices. We would still be in our sins. The law of Moses condemned, but offered no decisive victory over sin. Furthermore, God's justice would not be satisfied, because it is impossible for man to atone for his sins against God. Someone was needed, to reach down from God to man, and from man up to God. This One was Christ.

But best of all, Christ brought to us the certainty of a life beyond. Not only was sin dealt with at Calvary, but its companion, death was robbed of its victory when the Lord arose from the dead! Every believer can now say with Paul: "But now is Christ risen from the dead", and again, "Thanks be unto God, which giveth us the victory through our Lord Jesus Christ." (I Cor. 15:57).

This is Cancer Sunday

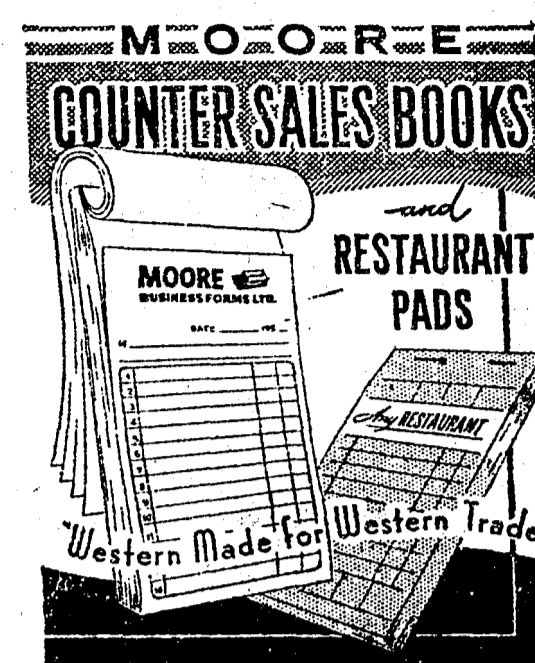

April 29 will be observed as "Cancer Sunday" in churches throughout the Summerland area.

Congregations will be asked to give thanks for the advances in medical science and cancer education which are enabling doctors to save more lives from cancer than ever before.

The observance is a traditional part of the annual Conquer Cancer Campaign, now in progress to raise \$345,000 in British Columbia and the Yukon.

In proclaiming May as Conquer Cancer Month, Reeve Norman Holmes had this to say: "It is also fitting that we take time to reflect on the gains that have been made, and to give thanks for the lives that are being saved through increased knowledge about cancer.

For this purpose, I would ask you to set aside Sunday, April 29 as Cancer Sunday".

Fresh Asparagus

Nothing tastes quite so good to winter jaded appetites as does the first spring vegetable — asparagus. Here it is with a creamy rich Hollandaise Sauce. To make the sauce, thoroughly beat 3 egg yolks in a bowl small enough to fit closely on a double boiler base. Very slowly add 1/2 cup melted butter, beating constantly. Then beat in 1 tablespoon lemon juice. Place bowl over simmering, not boiling, water. Stir constantly with a spoon until mixture thickens — 4 to 5 minutes. Remove from heat. Pour over cooked, drained asparagus. Makes about 3/4 cup.

Gold rush poems revived for Barkerville ceremonies

Works of the gold rush poet, James Anderson, the bard of the Cariboo have been published again, almost 100 years after he first broke into print in Barkerville.

The old mining town, 60 miles east of Quesnel, is being faithfully restored and the centenary celebration of Billy Barker's gold strike of 1862 will be underway there for 10 weeks this summer.

A collection of Anderson's verse in booklet form has been turned out by the Queen's Printer and will be available to Barkerville visitors for 25 cents a copy. It will be an important part of the restoration program which has been underway for the past four years under supervision of the Barkerville Restoration Advisory Committee, set up by the B.C. government.

Anderson died in England about 1923. But his rhymes, mainly his "Sawney's Letters" stand as the finest record of the humor and pathos of the life of the early miners.

Deputy Provincial Secretary L. J. Wallace, who heads the Barkerville Advisory Committee for the restoration, ordered the reprinting of the verses from old copies of the "Cariboo Sentinel" — the dollar a copy newspaper turned out in the gold camp on the Cariboo's first press.

Anderson, a young Scot, came to Barkerville in 1863, one of 10,000 fortune seekers and apparently strove to be a combination Robert Service and

Robert Burns. His verse was featured in concerts and printed in the "Sentinel" as letters to a mythical friend.

The first of these, written in February, 1864, begins:

"Dear Sawney, I sit doon to write
A screed to you by candle light
An answer to your friendly letter
I ne'er had ane that pleased me better"

He goes on to state that the letter from Scotland cost eight shillings to deliver which was "awfu", for this sum would buy four drinks of Barkerville whiskey. And he says a three-legged "Cuddy" (donkey) would have brought it faster.

He describes working conditions and marketing. He cites the names of the mines: Dead Broke, Last Chance, Never Sweat and one unprintable one which can be guessed by a rhyming reader.

He makes fun of Victoria newspaper exaggerations of the wealth of Barkerville — "The bedrock here, doon there is gold".

Anderson, who was 24 then, describes the "human snakes" that infested the camp, and the dance hall girls, the German Hurdy-Gurdy Girls

Anderson never struck it rich and in 1871 returned to his wife and family. He told the Cariboo in parting.

"But still I'll picture thee,
As some dear loved one in the days gone by,

And think what might have been
till dreaming brings,
The soothing sigh".

The paper back, 64 page booklet contains a collection of other verse born and preserved in the Cariboo. The visitor to the old gold camp will see it come alive again, as he reads,

Hourly ferry service between Vancouver and Victoria starts May 1 following the acceptance of the "City of Vancouver" by Premier W. A. C. Bennett, chair man of the B.C. Toll Authority Ferry System. The Hon. Clarence Wallace, president of Burrard Dry Docks Co. Ltd. turned the ferry over to Premier Bennett on a ceremony held at sea before 1000 guests. The new ferry joins the City of Victoria,

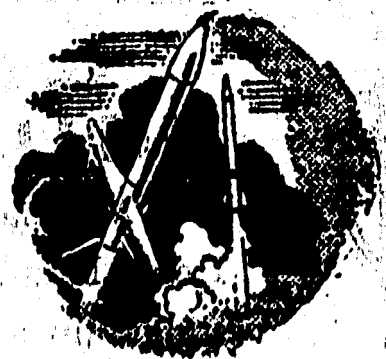

Chinook and Kahloke in starting an hourly service between Vancouver and Victoria May 1

JOKE OF THE WEEK

A radio programme giving advice to the ladies recently had some wisdom it would be well for all Canadians to ponder "Lettuce will keep better and is less likely to turn brown if you wrap your head in a towel before you put it in the refrigerator".

U.S. TRADE

On a per capita basis, for every dollar of goods that the United States buys from Canada, we buy \$15 worth of goods from the United States.

Tips for Beekeepers

Here's a timely tip for beekeepers:

Fumigating combs with acetic acid and feeding the drug Fumagillin to bees are effective measures in curbing nosema disease

This advice is offered by Dr. J. C. M. L'Arrivee, of the federal experimental farm at Brandon, Manitoba.

The acetic acid fumes destroy the spores and prevent contamination of healthy bee colonies.

Dr. L'Arrivee reports that in tests at Brandon, only one in six healthy colonies became infected with nosema disease when hived on combs fumigated with acetic acid, compared with five in six when the combs were not treated.

In fumigating with acetic acid, the supers (boxes) of brood combs are stacked and a shallow tray of glacial acetic acid is placed in the pile.

After a week's exposure to the fumes, the combs must be aired for two weeks or more, the researcher warns. Because of the bees' sensitivity to them, traces of the fumes could retard development of the colony.

SPORTS

Bowlers receive awards at banquet

The annual Summerland Bowling Banquet and Dance was held recently in the Rosedale Room of the Royal Canadian Legion. Over 160 persons were present at the banquet to participate in the following awards.

A League round robin winner was the Gutter Gang, comprised of Mary Steuart, Bob Boothoux, Lois Read, Eileen and Glenn Fell. A League semi finalists were the Gutter Gang, Occidentals, Fatigues and Hot-tots. Semi final winner was the Fatigues with Terry Farrow, Louise, McAdam, Earl Bryden, Ev Spelsberg and Frank Cook.

A League ladies high single, Eileen Fell 328; men's high single, Don Clark 345; high three, Muriel Walker 845; Don Clark 840; high average, Eileen Fell 218 and Bill Austin 219.

B League round robin winner was the Pin Heads with Ernie Rosner, Irene Rosner, Harry Birkland, Ruth Birkland and Judy Austerlund.

B League semi finalists were Pin Heads, Accidentals, Lucky Loggers, Roamers. Winners in the semi finals were Roamers with Irvin Carty, Bernice Carty,

Dick Neal, Pearl Neal and Mary Bareson.

In B League high single was won by Irene Rosner, 312 and Irvin Carty 329; high three: Bernice Carty 754 and Harry Birklund 709; high average: Bernice Carty 189 and Harry Birklund 198.

In the C League round robin winners were the Dusters with Barb Sismey, Bob Newton, Charlie Webber, Linda Sundstrom, and Jimmy Stump.

C League semi finalists were Dusters, Good Byes, Landers and Sidewinders. Winners were Landers with Don Davies, Flo Sismey, Joan Cousins, Vern Cousins and Lillian Coulter.

C League high single winners were Alice Bye 294 and Jim Quig 311; high three: Ethel Sears 628 and Hugo Harks 732; high average Betty Creighton 162 and Pete Veger 189.

Grand play off winners were the Fatigues.

A Couples Spring League will start on the first week of May and all teams entering are asked to leave their names at the alleys or phone Ev Spelsberg at HY4-7866.

Little league seeks used equipment

Little League baseball practices are being conducted now. There has had to be a revision of the schedule as there have been more boys entered since last week.

Any person having baseball equipment useful to Little League players, and wishing to donate it can do so by contacting Corporal Larry Martin and it will be picked up.

On the Rifle Range

by Herb Simpson

When the season opens at the Garnett Valley Rifle Range many new innovations will be tried which should add interest to target shooting. A range for 22 calibre sporting rifles will be set up and the 300 yard firing point has been cleared off and made ready for use by the full-bore shooters. Also, sporting rifles of .303 calibre may be used this season.

The road has been graded and a firing point for the small bore range is levelled off, but there is still some work to be done before practices can get under way, so a work party has been called for nine o'clock on Sunday morning. However, there will be shooting as soon as the work is finished, so bring your rifle along.

The .303 ammunition is free and only a very moderate range fee will be charged. So let's see you at the range, armed with a shovel, a rake and a rifle.

More news next week.

Fishing news

by Bert Berry

Okanagan Lake

Good, with an 18 pounder landed of the provincial park.

Garnett Valley Dam

Lots of small fish.

Rose Valley Dam

Fish from half to one pound and biting good.

No more reports of other local lakes as yet but will try and keep you informed.
