February 21	41	17
February 22	42	23
February 23	30	21
February 24	28	11
February 25	27	11
February 26	27	10
February 27	23	8

The figure skating club is looking for Peach Festival hats to use in one of its carnival numbers. If you have a hat, please let Mrs Joe McLachlan know.

Bridge players are reminded that the badminton club's annual tournament starts March 9. For further details phone Mrs R. L. D. Guthbert.

Things are definitely looking snowier for Summerland's enthusiastic skiers. Last Sunday the hill was too slippery for skiing, however with the new snow that has fallen this week, conditions should be excellent on Saturday and Sunday. The club is still hoping for a few more pairs of skies and poles. Any equipment you have on hand and can't use, can be put to good use on the hill. Donations should be left at Shannon's Transfer.

Bank manager G. C. (Jock) Johnston, had a bad fall last Saturday while pruning a fruit tree. The accident put Mr. Johnston in hospital with a broken arm and injuries to his hip. The bank staff tells us he will probably be laid up for two weeks.

It was ladies night at Rotary Club Friday night, when wives of the Rotarians enjoyed dinner and a social evening with their husbands. Guest speaker John Young of Keremeos told an attentive audience of his experiences in Borneo. He spent three years there as a teaching instructor under the Colombo plan. Part of his work was among the former head hunters. After assuring his listeners that there are not any head hunters left, a "wild man from Borneo" came dashing in the door in his native costume. He had a belt full of "heads" which he presented to the ladies. No, mother, he was only fooling when he said they wore Kiwanis heads.

From all reports, the Fish and Game Club's banquet on Friday night at the Yacht Club was most successful. On the dinner menu was venison, moose, elk, caribou and cougar meat. Over 75 attended the dinner and dance. Guest speaker was Wm. McLaren, Penticton, fish and game biologist for the provincial government.

Reasons for new hospital given at Society meeting

In giving his report to the annual meeting of the Hospital Society Wednesday night, president Bob Alstead discussed the planning of a proposed new hospital. He said that the hospital board had been given three courses by the provincial government: bring the present hospital up to standard at an estimated cost of \$160,000, close the hospital, or build a new one.

Mr. Alstead said that the board's feeling on the first course was that it was too much money to spend on an old building; the second suggestion they felt to be impractical; as to make it feasible Penticton hospital would have to be enlarged. In their opinion the third course was the only solution. He said that fifty percent of the cost would be borne locally. This would mean a municipal money bylaw.

The president called the meeting to order to hear the report of the 1961 annual meeting and special meeting held later in the year.

After hearing the reports, Mr. Alstead told the members present that the reason for calling the special meeting was to change auditors. He referred to a motion at the annual meeting, put on the floor by N. Aber-

neathy, and passed unanimously. The motion was that a firm of Penticton auditors be hired, to replace the firm in Kelowna who had audited the hospital's books for the past 37 years.

At the special meeting, said Mr. Alstead, the motion for this change was rescinded, and the Kelowna auditors hired.

At the presentation of the annual statement, Mr. Abernethy questioned the legality of an annual statement drawn by an auditing firm not appointed at an annual meeting. Mr. Abernethy stated that at the time no provisions had been made in the society's bylaws for such an appointment except at an annual meeting.

Dr. J. C. Wilcox, in addressing the meeting, said he had helped write the bylaws. He said that at the annual meeting an honest mistake had been made in changing auditors, and a legal mistake in rescinding the motion at a special meeting. He said that Mr. Abernethy had made a very good point, then suggested, that out of courtesy the matter be dropped.

Elected to the board for three year terms were Mrs. C. Adams, Dr. D. MacGregor and Les Rumball.

Main access road planned by council

At Tuesday night's council meeting councillor Bill Barkwill asked that planning be started on the suggestion that the road from Highway 97 to West Summerland by the Anglican Church be the main access road to the community. The road would need widening, and Councillor Barkwill felt that planning

should be started as soon as possible. Works superintendent Ken Blagborne suggested that the first step would be to locate all the property lines along the road, thus enabling council to ascertain how wide the road could be made.

A plan for a new fire hall prepared by architect J. R. Baxter was presented to council.

Cost of the building is estimated at \$39,000. The building is a split level two storey block, 79'x48', and would be situated on the corner of Jubilee Road and Pender St. The present fire hall would be demolished.

The main floor contains a large equipment area, a watch office, lounge with kitchenette, washrooms and storage space, space for future dormitories. The basement area provides equipment storage, bathroom and lockers.

After passing the plan council instructed municipal clerk G. D. Smith to prepare a ten year money bylaw.

Council once again discussed the problem of the dripping arena roof. It was their opinion that the curling club deserves action on this question. First step will be to get the advice of an aluminum roofing expert. Reeve Norman Holmes suggested having two members of the arena committee and two members of the curling club work with council on the problem.

"Measure of a nation" theme for Education Week

R. P. (TINY) WALROD Speaking on Education

"Education for the Sixties" will be the central theme of a symposium on education to be presented next Monday evening by the Summerland Teachers Association. In order to bring to the residents of the area information concerning the present position of education in B.C., how we arrived here and where we are going, an series of short talks, panels, and question and answer periods will be presented at the Summerland Secondary School Monday, March 5th at 8:00 p.m.

Three of the leading educational authorities of the Okanagan will be present. Mr. A. S. Matheson of Kelowna, former school inspector of the Summerland and Kelowna area, will speak on "Education Past".

Mr. R. P. (Tiny) Walrod, of Kelowna, member of the Chant Royal Commission on Education will speak on "Education Present"; and Mr. Reg Cox of Penticton, past president of the B.C. Teachers Federation, will discuss "Education Future".

After a break for coffee, dur-

ing which several interesting displays set up by the staff of the secondary school will be on view, a panel discussion featuring the three guests, will be held. Topic for the panel, which will be followed by a short question period, will be the theme for the Canada-wide Education Week "Education — Measure of a Nation."

Arrangements are under the committee of the Summerland direction of the Education Week Teachers Association. Chairman is John Tambyn and committee members are Ray McNabb from Trout Creek School, Bert Stent and Dave MacMurray from MacDonald School and Mrs. Marion Bouey and Win Potter of the Summerland Secondary School. The committee feels that it

is very fortunate to have three such knowledgeable and interesting speakers for the evening and feel sure that the evening will be of interest to everyone in the area.

Other events at local schools will be an open house on Wednesday at MacDonald School, where classroom visiting will be from 7 to 8 p.m. with a gymnasium display in the activity room at 8 p.m.

Thursday evening, classrooms will be open at Trout Creek school from 7 to 8 p.m. with tea and coffee being served by the Trout Creek PTA.

Any organizations in the community wishing speakers for education week should contact Mr. Tambyn at the secondary school.

MOVES TO OLIVER

Closing announced of Summerland Box factory

After 37 years of operation the Summerland Box Factory ceased operations last week.

According to a local spokesman, the box making plant is to be dismantled and moved to the Oliver Sawmill. The large storage building is all that will remain of the once active factory and sawmill.

The Summerland Box Co. was purchased last year by Northwood Mills Ltd., a subsidiary of Noranda Mines.

Closing of the box factory represents a severe blow to Summerland's economic structure, as approximately 25 monthly pay checks were issued here by the company.

The box factory had been operating on a seasonal basis for

the past few years, yet the payroll was an important part in the community's economy.

Manager Frank Tilbe will go to Oliver in a supervisory capacity and all former employees will be given an opportunity of employment at Oliver.

SIGN PORGY AND BESS SINGERS FOR CONCERT

At an executive meeting of the Summerland Overture Concert Association on Sunday, it was announced that the Porgy and Bess Singers would appear in the next concert series. The two men and a woman Negro group from New York perform songs and dances from Gershwin musicals.

Steady growth for Credit Union

Dr. Jack McArthur showed graphs of the progress of the Summerland Credit Union at its annual meeting. Over 125 members attended the potluck supper and meeting in the Rosedale Room of the Royal Canadian Legion last Thursday night.

After hearing the directors' reports, members voted to declare a three per cent dividend

on shares.

In his report of the past year president Lloyd Shannon said that the reduction of the loan from B.C. Central Credit Union to \$107,000 from \$234,000 was most encouraging. He reported that during the year Cuna Mutual Insurance Society had paid \$9,075.69 to the estates of members who had passed away. One

hundred and eighty five new members joined the Credit Union during 1961.

Three hundred and fifty-eight loans totalling \$261, 66.86 were approved during 1961.

At the election of officers, Lloyd Shannon was re-elected president.

Elected to the board of directors were John Berg and S. Dunsdon. Other directors are Dr. J. M. McArthur, John Khalambach, J. Lichtenwald, Don Blagborne, with Phillip Munro secretary to the board.

New members of the supervisory committee are A. F. MacDonald, F. Stent and H. Burdon. Other members are L. S. Jones and K. O. Lapins.

Elected to the credit committee was John Caldwell. Other members are Gordon Beggs and E. F. (Tully) Smith.

Married in spring setting

The Church of the Holy Child in West Summerland was the scene of the marriage of Joan Audrey Lloyd, daughter of Mr. and Mrs. Edward Lloyd, West Summerland, to Donald Victor Arlitt, son of Mr. and Mrs. H. Arlitt of Penticton.

The marriage took place at 11:00 a.m., Saturday, February 24. Rev. Father Guinan officiating.

Yellow daffodils gave the church a breath of spring when the young bride came down the

aisle on the arm of her father. Her white nylon and lace wedding gown featured a tiered skirt the bodice of which was accentuated with tiny bows and roses. A short chapel veil was held in place by a crown of fine net and pearls. She carried roses and carnations.

The bride's sister, Miss Carol Lloyd, as matron of honor, chose a pink cocktail length gown and carried pink and white carnations. Her headpiece was a rhinestone tiara. She carried pink and white carnations.

Wedding music was played by Mrs. H. Schaeffer. Soloist

was Miss Linda Betuzzi.

Approximately 100 guests were received at the Rosedale Room of the Royal Canadian Legion by the bridal party and their parents. The bridal table was tastefully decorated with pink geraniums and the table was centered by a beautiful three layer cake.

Mr. Emil Bonthoux acted as master of ceremonies and many toasts to the happy couple were heard.

For her going away outfit the bride chose a blue suit with white accessories. They will make their home in Penticton.

Shower for Joan Lloyd

Approximately 35 guests were present at the home of Mrs. Paul Bonthoux, Trout Creek, to honor bride elect Miss Joan Lloyd.

Miss Lloyd received a number of lovely gifts. Later in the evening a delicious lunch was served.

The event was held on the evening of Tuesday, February 20.

Fisher - Dickinson wed in lovely church setting

satin was chosen by Marilyn Louise Dickinson for her wedding to Ronald James Fisher on Saturday, February 24.

Daughter of Mr. and Mrs. Norman Dickinson and son of Mr. and Mrs. Thomas Fisher, both of West Summerland, the young couple were wed in the Summerland United Church, with Rev. P. K. Louie officiating.

Given in marriage by her father, the lovely young bride's wedding gown was accentuated by a bouquet of roses and carnations. Her chapel veil was held in place by a pearl tiara.

Acting as bridesmaid, her sister, Miss Gloria Dickinson, chose a pretty aqua blue organza gown and carried a bouquet of pink and white carnations.

Mr. Bob Bonthoux acted as groomsmen. Ushers were Mr. Norman Smith and Mr. Martin Shannon.

Later, at a reception in the IOOF Hall, the bridal party and their parents, received over 150 guests. The hall was tastefully decorated for the occasion. The bride's table was beautifully decorated and centered with a wedding cake made by the groom's grandmother, Mrs. Hayhurst. Many toasts to the happy couple were heard. Mayne McCutcheon and Bob Sheeley sent a telegram of congratulations from Australia.

A loden green suit with white accessories was chosen by the bride for a honeymoon trip to Vancouver and Seattle.

The young couple will live in Salmon Arm.

Out of town guests were Mrs. Hayhurst and Robert, Mr. and Mrs. Henry May, both of Penticton; Mr. Steve Durgan, Mr. Pete Mazur and Lenard, Mr. Gilbert Leffler of Vancouver; Mrs. B. Duxbury and family, Salmon Arm; Mr. and Mrs. Joe Khalembach of Peachland.

Arrange for Violet show

Miss Dorothy Britton, president of the Summerland African Violet Society, has announced May 5 as the date for the society's annual Violet Show.

The regular monthly meeting took place last week at the home of Mrs. I. Siegrist. As new members Mrs. Siegrist and Mrs. C. W. James were presented with a number of violets.

The novel arrangements was won by Miss Britton with Mrs. J. Brown placing second; and Mrs. J. Wilson third.

Stimulating discussion on violet culture was participated in by all those present.

March meeting of the group will be held at the home of Mrs. J. H. Brown.

Mrs. Siegrist was assisted by Mrs. James in the serving of refreshments and a most enjoyable evening was concluded.

Editorials

A waste of time . . .

Recently it was announced that the Apricot Fundae in the southern portion of the valley is being "suspended". Which, of course, means that function will have difficulty starting again.

Ending the Fundae means that a lot of people will not have a lot of thankless tasks to perform. It will mean that all the silly preparations by an entire community "for only one day" will come to an end.

Of course, it means the end of a lot of enjoyment for the people in that area. In particular, it means that hundreds of children, who look forward expectantly for many weeks to "just one day" of entertainment and excitement will be denied it.

As incidentals, it means that merchants in the area will not get a little lift to business that might be a big item in their summer's earnings. It means, naturally, that the community involved will not have an excellent chance to advertise the attractions and values it affords.

Those things, of course, do not matter. What matters is that one or two people will have another chance to waste a day or two, or to go fishing or to spend in "just hanging around" rather than promoting their own self-development through self-expression in ways that are not open to them other than through such events as the Fundae.

We are not writing this as a criticism of another community — because the same thing could happen in Summerland. We are in danger of losing our Fall Fruit Fair. Work must start soon on the Fair and unless an active group is formed at the March 8 meeting of the Chamber of Commerce — well, already people are talking of discarding the Fair.

What advantages does the Fair bring to the community?

Many people look upon it as a once a year opportunity to present a showing of handicrafts; of flowers, fruit and kindred items. Other groups utilize the Fair as a chance to bring public attention to some of their club's activities, or benefit work for various groups in the community.

It is an opportunity for this community to advertise its attractions. It is a chance, too, for the people of this community to see a number of items that normally would not come to Summerland.

And of course there is the interest of the school children in the gardening competition and the opportunity it affords them to enter into community activities at an age when they normally would not be able to do so.

So, if you are interested in continuing the fall fruit fair this year, be sure to turn out to the Chamber of Commerce meeting on March 8.

To serve or to be served

By Rev. Norman Tanner

"When I was a child, I spake as a child, I understood as a child, I thought as a child; but when I became a man I put away childish things." - I Corinthians 13:11

Children love playing, in fact, their whole life is playing. Maybe this is where we have gone wrong in interpreting Jesus' words: "Become as little children." He was speaking of attitude and innocence of life, not playing.

How often, however, are far too many people who call themselves Christians only "playing Church." They want the services to suit just exactly their private tastes; they want the minister to visit them at regular intervals (although they often fail to call him, as they do their doctor, or butcher, or lawyer or grocer); they are not at all certain that they want "all these new people" around and sitting where they are accustomed to sit. They have never learned that the church exists

not only to "glorify God" and to "sanctify the faithful", but also "to win the lost." They must have forgotten that Jesus said, "he that saveth his life shall lose it."

This is as true of individual churches as it is of individual human beings. The Church does not exist merely to promote its own existence, nor to be concerned merely with those who are already members; but to seek and to save those who are lost and lonely in a bewildered world. That is the function of the Body of Christ, and this is precisely what the Christian Church is meant to be. It is only in the light of this dynamic missionary purpose of the church that any criticism is worthy, and when criticism is made in this spirit we can only do it with humility and penitence.

Who among us has lived up to the high ideal of One who told His Disciples long ago that He had come among them "as he that serveth." This issue must be decided by every church

and every man who calls himself a Christian: "To serve or to be served — that is the Question"

Report from Parliament Hill

by David Pugh M.P.

This last week has seen the final day on the Speech from the Throne and it has produced a number of good speeches — particularly that of the Honourable David Walker, Minister of Public Works, who dealt with election promises. This was given on Thursday. Outside of the House of Commons the main talk is still on the date of the next election.

There have been a number of humorous events in this connection and the Prime Minister caused more than a ripple last Friday night when he walked into the Chamber waving a long blue paper just four minutes before closing. The Press Gallery filled up and there was a buzz of conversation as most people felt that Mr. Diefenbaker was about to announce dissolution.

While the debate continued, in a dramatic fashion he walked across to the Speaker, whispered something to him and then moved back to his seat. At six o'clock he stood up and asked

that we revert to Motions and then proceeded to make a correction in Hansard. Everyone burst out laughing including the Prime Minister who had really enjoyed his little joke.

On one or two occasions the House represented a battlefield because of the Argue defection. What the consequences of his departure from the New Democratic party and his position as leader are likely to be, I don't know but they are likely to be felt long after the bitter charges and counter charges now being exchanged so briskly have been forgotten. He may or may not be a help to the Liberal Party. Certainly he will be a loss to the NDP and I would say offhand that his ex party has been shocked to the core.

Politics are a funny business!

As shown here Canada Grade 'A' eggs are sold by five sizes, namely: Extra Large, Large, Medium, Small and Peewee. They range in weights from approximately 1½ pounds per dozen for the largest size, down to approximately 1 pound per dozen for the smallest size. Large or small, at today's prices, eggs are an excellent buy in high quality protein.

Library Report

by Kay Dunsdon
Among the new books recently received in our library is a novel "Crosswind" by Robert Henry, the pen name of a writer and airman, who travels extensively in Latin America. This is a well written book, a modern action story of an airline pilot flying with an uncertain and rakish airline, with plenty of plots and counter plots.

When Nevil Shute died last year, two unfinished manuscripts were found among his papers. Both were of a young pilot — Stephen Morris. Now they have been combined in a fine narrative of early days just after World War I when England was struggling to establish an aircraft industry.

Nevil Shute, whose real name was Norway, had an intimate and technical knowledge of the industry, which helped him to

write simply and clearly, giving the layman an interesting story of daring and hardships that early pilots had to face on barn storming tours, with constant experiments to prove the feasibility of long distance flights over water. A book men will enjoy.

"Madame" by John Selby, is the story of Madame Donner, who has risen to a life of influence and luxury as a journalist and newspaper columnist. Born of poor French Canadian parents she leaves home, very young, to be a maid in a wealthy home, where she marries her rather weak husband. She helps him in his music business writing her love torn column at odd moments.

Her two sons and a daughter grow up almost as strangers to her, one son an alcoholic, and the daughter having numerous husbands and lovers.

Looking back on her seventy years, in a series of flashbacks, Madame ponders what she should have done to help her children become better adjusted to life and thus happier people. A very human and readable book

Trail Riders hold annual gathering

The annual meeting of the Summerland Trail Riders was held Friday, Feb. 23 in the Rosedale Room of the Royal Canadian Legion, with a good attendance

Officers elected were: president, Roy Bertram; vice president, Phil Richardson; secretary treasurer; Mrs C. A. Jeffery; directors: Mrs. R. A. Bertram, Chester Reinertson, John Allen, Miss Beverly Bye.

Members discussed plans for the coming year and the meeting ended with pie and coffee.

by Herb Simpson

There was an excellent attendance of senior and junior shooters at the range on Friday evening, although previous commitments prevented some of the regular members from being there.

Highlight of the evening was the match between the "Poverty Gulchers" and the "City Slickers." The Slickers were victorious by a score of 751 to 696 even though the Gulchers had three shooters who didn't live in their district. The match was shot from the standing position with Louise Atkinson taking top place in the scoring with 95 x 100, followed by John Kalemback with 91.

Some of the local members have joined the Penticton Fish, Game and Rifle Club and are getting extra practice on their indoor range on the West Bench and they expect to shoot on the rifle and archery ranges as soon as the weather is mild enough for outdoor shooting.

Scout Notes

Very good progress is being made in badge work with eight boys having now completed 2nd class requirements, P.L. Fred Trasseil, has just completed Queen's Scout badge requirements and the three other patrol leaders are nearing 1st class completion.

The eight new recruits should be ready for investiture in two weeks time and parents are advised to arrange for uniform requirements right away.

Special group instruction on Public Health Man Badge was given through the kindness of Dr. F. C. MacInnes. Boys wishing to pass their badge should make their own arrangements with the public health nurse, Miss H. Ney, phone HY4-7186 after 5:00 p.m.

The Troop and Cub Pack attended a church parade in the 1st Baptist Church on Sunday as part of Boy Scout Week observance.

Duty patrol next week: Hawks
— D. V. Fisher, Scoutmaster

Don't
call
that
coin
yet!

If you are torn between two major purchases, perhaps you don't have to decide which it will be. Maybe you should have both!

Chances are, you can, too... by financing one or both of them on the Bank of Montreal Family Finance Plan.

When you don't have all the cash you need to buy what you want, the B. of M. Family Finance Plan is an excellent way to group several purchases under a single, low-cost, life-insured loan. Monthly repayments to suit your convenience may be extended up to three years.

So, don't call a coin — call on your nearest branch of the B. of M. and enjoy more of the things you want right now!

WORKING WITH CANADIANS IN EVERY WALK OF LIFE SINCE 1858

EDUCATION Measure of a Nation

EDUCATION WEEK IS YOUR OPPORTUNITY
TO LEARN WHAT THE SCHOOLS ARE
DOING FOR TODAY'S YOUTH...
TOMORROW'S CITIZENS.

Education Week

March 4 - 10, 1962

"The aim of education is, I think, to locate, bring out, and develop the talents which exist in every man, woman and child, so that each may use them to the greatest advantage and for the good of the community in which he lives."

— Provost J. M. Playfair

BRITISH COLUMBIA TEACHERS' FEDERATION

1815 WEST 7th AVENUE

VANCOUVER 9, B.C.

Many activities among Parkdale Place residents

by Mabel Atkinson

The chilly weather has cooled the ardor of travellers. Besides local residents from nearby towns, only Mrs. K. Group from Peace River called in February.

Our entertainment has not lagged however. The highlight of the month was the display of colored pictures, given by

Mr. and Mrs. F. E. Atkinson, of the architecture, gardens and country scenes, illustrating their recent travels from Switzerland to England. We wish them bon voyage in their explorations in New Zealand and Australia and hope to see more pictures on their return.

Mr. Bennett showed us one evening what could be done in floral display in Summerland.

Several ladies enjoyed the conveyance and invitation to the WI Valentine Tea and others attended the CGIT Tea in the United Church Hall and the Valentine Tea in the Anglican Parish Hall.

We wish to express our appreciation of a gracious gift of a collapsible wheel chair and crutches, which should come in very handy, the gift of our assistant matron, Mrs. Elliott.

Thanks also go to the donors of apples and the renewal of pictures on the walls, through the courtesy of the Art Club.

Nellie alone celebrated her birthday, treating us to a richly decorated cake to mark the occasion.

Red Cross enthusiasts keep their knitting needles clicking in front of the cherry fireplace while others while away the time enjoying a game of cards.

At present all are home and well, eagerly watching for signs of spring on the hillsides, for with February gone, spring can not be far behind.

International Tea

The CGIT girls of the Summerland United Church held a very successful "International Tea" on Saturday, February 24.

The tea, the climax of the girls' study of different nations, was well attended, with over 100 visitors.

The international theme was carried throughout the tea, with girls in the costumes of various countries. There were exhibits on American Indians, Japanese, Chinese and Hindu foods and cultures. The tables were attractively decorated.

The money earned from the tea was sent to a mission fund.

The tea was under the direction of Mrs. B. Hardie, Mrs. M. Foster, Mrs. Wynter and Mrs. D. Spencers.

WHAT A RELIEF

to know that, even if you lapsed in that snappy decision and a car accident resulted, Walter M. Wright's

INSURANCE COMPANY PAYS THE COST

you otherwise would have to shoulder.

Auditors' Report

Kelowna, B.C.
February 21, 1962

To the Reeve and Members of the Council,
The Corporation of the District of Summerland,
West Summerland, B.C.

We have examined the accompanying balance sheets of the Corporation of the District of Summerland as at December 31, 1961 and the statements of revenue and expenditure for the year ended on that date and have obtained all the information and explanations we have required. Our examination included a general review of the accounting procedures and such tests of the accounting records as we considered necessary in the circumstances.

In our opinion the accompanying balance sheets and statements of revenue and expenditure are properly drawn up in accordance with generally accepted accounting principles applied on a basis consistent with the preceding year so as to exhibit a true and correct view of the state of the affairs of the Corporation as at December 31, 1961 and the results of its operations for the year ended on that date, according to the best of our information, the explanations given to us and as shown by the books of the Corporation.

Kiwanis Club Notes

The Kiwanis Club was treated to one of those evenings at the Tuesday night meeting that seldom occur, and although it was vastly different from the usual program, and perhaps even would not have been chosen if voted upon, yet it was one of such interest, that after the speaker had left the hall, it was suggested by a charter member of the club, and a past president, that such programs and talks of this kind should be heard more often.

We were privileged to hear the Rev. Ian Hind, BA, BD, talk on the "Philosophy of Life" — Where do we come from? Why are we here? and where are we going? Rev. Hind dealt with these three points in a serious and most sincere presentation.

He spoke of the apparent conflict between science and religion, bringing out strongly that we are from the hands of God and made in His image.

As to why we are here, he suggested that is for companionship with our fellow man and our children and most of all for companionship with God.

Where are we going, after such an exposition, could only have one answer — back home, or back to God.

Introduced by Dr. J. Ratzlaff and thanked by Ken Heales, the speaker gave the club much to think about, and was warmly appreciated.

The Rev. Lyle Kennedy was with us as a guest and we enjoyed a solo by Rev. Hind prior to his talk.

Don Randle led the club singing, and was fined for only singing two songs. Jack O'Mahony celebrated a birthday and Jack Ratzlaff was inducted as sheriff by the Lt. Governor and presented with a ten gallon hat which he must wear or be fined 50c.

John Tamblin advised that next week is Education Week and requested members to lend their support. Next Monday night there will be a public meeting in the high school and the public forum scheduled should be very interesting.

Mr. Tyles offered a few thoughts on brotherhood. Last week was Brotherhood Week, but he pointed out that this should last the whole year round. — The Scribe.

IRENE GARLAND HONORED

A shower was held recently for Miss Irene (Rusty) Garland at the home of Mr. and Mrs. C. Braniff. Hostess Mrs. G. Braniff was helped in duties by co-hostess Frances Braniff.

Games were played and many beautiful gifts received.

Later in the evening, lunch was served and a beautiful shower cake presented to Miss Garland. The cake was made by the sister of the bride elect.

Miss Garland sat in a chair beautifully decorated with pink and white streamers and bells. She wore a hat decorated with bows from her gifts.

Guests who attended were: Mr. and Mrs. G. Braniff, Frances Braniff, Margaret Garland, Mrs. Harry Rennie, Mrs. Steve Blazenko, Mrs. Wilburt Jackson of Penticton; Trudy Mitchell, Linda Scott, Grace Shigoyoshi, Darlene Shannon and Evelyn Hoffman.

Unable to attend but sending gifts were: the mother of the bride elect, Mrs. J. W. Garland, who was out of town; and Mrs. O. Dodman.

Comings and Goings

Mr. and Mrs. G. E. Tedder of Kamloops were recent guests at the home of her mother, Mrs. G. E. Darke.

Mr. Vernon Borton has rejoined the air force and is at St. John, Quebec, taking basic training. His wife and children will remain here for the present.

Mrs. A. R. Gayton is spending a week at the coast.

Miss Bonnie Ganzeveld, nurse in training at Essondale, is home visiting her parents.

Miss Marjorie Campbell, daughter of Mr. and Mrs. Colin Campbell, recently graduated from the Royal Columbian Hospital, New Westminster and has taken a position at the Smithers Hospital.

David Miller, son of Mr. and Mrs. L. A. Miller, was home over the week end. He is doing road construction work at Creston. The Creston ski queen and two other young people came this far with David. The queen went on to Vernon for the winter carnival. The other two passengers, Leona Karlstrom and Dale Preddy, both of Creston, visited friends in Summerland.

Mrs. Elsie Nettleton, who has spent the last two months here has gone to Vancouver to visit her daughter before returning to Winnipeg.

Born at Summerland General Hospital on February 20 to Mr. and Mrs. Fred Miller, a boy.

Eric Tait and Dr. D. H. Heinicke went to Oroville Monday to hear a talk by A. P. Preston, of East Malling, England.

Dr. D. V. Fisher and Dr. D. H. Heinicke were in Yakima last week attending a meeting of the Northwest Dwarf Fruit Tree Association.

N. F. Putnam, Victoria, was a visitor at the research station on Friday.

Mr. and Mrs. Gordon Ritchie have returned from an extended trip to New Zealand.

Mr. and Mrs. Walter Rothwell were in Langley Friday attending a funeral.

Mrs. G. Morgan, Mrs. T. A. Walden and Mrs. C. E. McCutcheon have returned home from Long Beach, California.

Mrs. W. C. Advocaat of Vernon visited last week with Miss Mary Scott and renewed acquaintances in the district.

Mr. and Mrs. Jack Gowan and Mrs. Isabel Nelson returned on Monday from California.

Mrs. Ed Krause has returned from Owen Sound, Ontario where she was called by the illness and death of her mother.

Mrs. Gerald Dent is visiting relatives in Vancouver and Squamish.

B of M Personal chequing account simplifies paying monthly bills

Almost everyone agrees the quickest and safest way of paying bills is by cheque. Until recently, there have been only two types of accounts on which to draw cheques — current accounts and savings accounts.

Now there's a new type of account specially designed by the Bank of Montreal to meet the needs of husband and wife who pay by cheque. It's the B of M Personal Chequing Account, available at the Summerland branch.

Personal chequing accounts are economical to operate. You pay nothing in advance for your cheque-book, the service charge is only ten cents a cheque. And there's no charge for deposits to your account as there is with a current account in which there's a charge of ten cents for each entry.

With a B of M personal chequing account, you receive a quarterly statement, instead of a passbook. And your cancelled cheques, which are held by the bank for 20 years, are readily available to provide the best possible receipt for the bills you've paid.

If you'd like to hear more about this convenient new B of M service, Simon Kouwenhoven, accountant at the Summerland branch of the B of M will be happy to give you the details. See him soon!

Under the Giant's Head

Well, March certainly came in like a lion this year. The research station reports 5.6 inches of snow and 9.8 hours of sunshine during the past week.

	High	Low
February 28	23	16
March 1	27	17
March 2	24	20
March 3	20	12
March 4	25	13
March 5	33	15
March 6	29	25

Mr. and Mrs. G. E. Woolliams of Trout Creek recently received a post card from their son, David who is staying in a youth centre in Marrakech, Morocco, south of Casa Blanca. David spent the winter in London and is now touring the continent by scooter, accompanied by two friends. The boys report they are amazed at the variety and color in the eastern markets, where they bargain for beautiful articles of wool and leather. Oranges and tomatoes sell for less than one cent each. A true ambassador, David wears the Union Jack on the back of his shirt and finds his Canadian background brings him friendship and assistance wherever he goes.

Building in Summerland is taking an upswing in 1962 with a new four unit apartment building going up shortly.

Three permits for new buildings amounting to \$32,000 and 12 permits for alterations and additions, totalling \$10,500 were issued in February. In the same month last year, building permits totalled \$12,160.

In the first two months of 1962, 19 building permits have been issued amounting to \$50,150 compared with a total of \$169,060 (including Parkdale Place) in 1961.

Eleven electrical permits were issued in February.

Judging of the essay contest sponsored by the Canadian National Institute for the Blind has been completed and Louise Wright was named winner.

The contest was open to Grade 10 students and under the direction of English teacher, Mr. Win Potter. Forty five essays were entered on the subject "Be wise — take care of your eyes".

Louise is the daughter of Mr. and Mrs. Howard Wright and granddaughter of Mr. and Mrs. Walter M. Wright.

Her essay will now go to Vancouver for provincial competition. She will receive the Alstead Trophy at Awards Day in June.

The Summerland School Board, represented by chairman Ken Booths, took the four "Reach for the Top" winners out for dinner last week. The young students, Donna Powell, Florence Johnson, Howard Oxley and Gerald Turnbull chose Kelowna's Capri Motor Inn's dining room for their evening out. A. J. Longmore, secondary school principal, accompanied them.

Ice carnival slated for March 17

The annual figure skating carnival will be held on St. Patrick's Day, March 17 this year. For the past few weeks the skaters and their mothers have been working overtime to make this year's show the best ever.

Spectators will see a delightful aquatic number featuring penguins, seahorses, oysters and star fish. This number will be presented by the junior skaters and will feature colorful and imaginative costumes.

An oriental number, featuring geisha girls, etc. will be one of the highlights of the ice carnival.

The big number for the senior skaters will feature cowboy costumes, with everyone having an opportunity to show his skill on the ice.

In all, 120 skaters will take part in the carnival. Because the skaters have been taking lessons for a number of years, a high quality of skating is promised for the evening in the arena.

Tickets are now on sale from club members.

Outsiders take trophies in bonspiel

Twenty-six rinks took part in the annual ladies bonspiel in Summerland over the week end. Rinks from Merritt, Penticton, Peachland and Princeton joined the Summerland ladies for some good curling.

The A Event was won by the Mrs. M. Fairburn rink of Penticton, defeating Mrs. E. Dagg of Penticton, third spot went to Mrs. A. Gove of Summerland and fourth to Mrs. S. McInnes of Summerland.

In the B Event top honors went to Mrs. M. Topham of Peachland, winning over Mrs. L. Kennedy of Summerland. Mrs. A. Beggs of Summerland took third prize and fourth went to Mrs. H. Ganzeveld.

In C Event, first spot was taken by Mrs. Wiltse of Penticton, defeating Mrs. J. Dunsdon of Summerland. Third place went to Mrs. J. Carter of Peachland and Mrs. H. Eden of Summerland came fourth.

Mrs. Webb of Penticton was top contender for D Event with Mrs. M. Gronlund of Summerland second. Mrs. J. Cousins of Peachland took third with Mrs. H. Tilbe of Summerland fourth.

The ladies held a smorgasbord dinner on Saturday in the IOOF Hall.

Door prizes of a radio and an ash stand were won by Harry Hackman and Mrs. W. I. McPherson.

EDUCATION WEEK

The article on pages 2 and 3 of this week's issue were prepared for the Review by the Summerland Teachers' Association for Education Week.

WREN PAT MEAD

daughter of Mr. and Mrs. Roy Mead, has recently returned from a six week course in Florida. Pat is stationed at Shelburn, Nova Scotia, with the Royal Canadian Navy.

Increased use predicted for camp sites

7,489 campers registered at the provincial government's campsite north of Summerland on Highway 97 during the 1961 season, compared with 7,054 in 1960. July was the heaviest month with over 3,000 campers registered.

According to local camp site officials' indications this year point toward the best season yet. The opening of the Rogers Pass, which at the moment is slated for July, and the expected influx of visitors from the Seattle World Fair, will greatly increase use of the campsite.

Work is starting at the various Okanagan campsites to make them ready for summer. Two new sites are now under construction — one at Osoyoos and another at the Otter Bay region near Vernon. The Vernon camp will have accommodation for 55 camping units and the Osoyoos site will have 28 tent areas and nine picnic tables.

TOWN BAND MEETS

The annual meeting of the Summerland Town Band was held February 28 in the high school auditorium.

Officers elected for the coming year were: president, W. Lacey; vice president, R. Downing; directors, Debra Dunham, H. Killick, F. MacInnis; treasurer, T. Washington; and secretary, A. Simpson.

Dr. J. Mason was re-appointed bandmaster with C. Morgan as librarian.

The band looked back upon a successful year, having played at Princeton July 1, the Penticton Peach Festival parade and the Peachland Regatta as well as making several local appearances.

At the present time the band is faced with the loss of two drummers. Anyone who can play a drum, and would like to join the band, may do so by contacting any of the above officers or by coming to the high school auditorium any Wednesday night between the hours of 8 and 10 p.m.

Past, present, future - topic of symposium on education

A crowd of some 250 people received new insights into education at the symposium sponsored by the Summerland Teachers' Association in the high school auditorium on Monday night.

To tee-off Education Week the teachers' organization arranged for three speakers: A.

Macs take lead in cup playoffs

Summerland's Twin City Macs took a two game lead in the playoffs for the Coy Cup against Kamloops Chiefs over the weekend. The third game in the best of five series will be in Kamloops on Saturday. Winner of this series will meet the winner of the Kootenay intermediate playoffs.

The Twin City Macs is comprised largely of former senior A players from the Penticton Vees and the Kelowna Packers. Two Summerland boys, Allen Hooker and Jackie Howard are on the lineup.

In the first game in Penticton last Saturday night, the Macs came out on top in overtime 11-9. The game was hard fought all the way with the Macs somewhat hard pressed at times.

Sunday's game in Summerland was a different story. Kamloops put on the pressure in the first period but only managed one counter by Buddy Evans. From the second period on it was clear sailing for the Macs, and only the brilliant net minding by Kamloops' Johnny Panagrot held the score to 8-1.

S. Matheson, retired school inspector; R. P. Walrod, of the Chant Commission and B.C. Tree Fruits; and Reg Cox, Penticton principal and former president of the provincial B.C. Teachers' Federation.

Mr. Matheson, veteran of 46 years teaching in B.C. gave a resume of "Education Past". He said that development of character is the main aim of education and contrasted today's vast and expensive education system to conditions in B.C. in 1872 — 25 schools, 1000 pupils, and a total education cost of \$37,000, all paid by the government. Today there are over 325,000 pupils in B.C.'s schools, and the cost is divided between provincial and municipal governments.

Mr. Walrod, speaking on "Education Present" quoted H. G. Wells: "Civilization is a race between education and catastrophe." He said there has been criticism of education since the dawn of history, and much of today's criticism is due to the fact that we have a wide selection of pupils staying through high school instead of a selected few. Because of this, there is a danger of mediocrity being accepted as "good enough", but education can still achieve high standards if teachers make it interesting and challenging.

Mr. Cox speaking on "Education Future" agreed that the main requisite for good education is capable teachers. He said there will be so little manual labour in the future that all but about 13 per cent

of our population will have to be at least semi-skilled, which means higher education for all. He said education needs to be more flexible, more creative, and criticized the rigid limitations laid down by the Chant Report.

In a lively question period following the speeches, Mr. Matheson criticized the re-introduction of external examinations, as recommended by the Chant Report; Mr. Cox favored them. Mr. Walrod explained that moving grade 7 back to the elementary school had been recommended because pupils of that age are still too immature emotionally to fit into the ordinary high school environment. Mr. Cox was dubious about this, and definitely opposed to moving grade 10 from Senior to Junior High School.

MP reports on Parliament

by David Pugh, M.P.

This last week has seen a number of interesting statements the first being that a 9% rise in 1961 exports to a record high gave Canada its first commodity trade surplus since 1952, as reported by the Dominion Bureau of Statistics. The trade deficiency of 1960 was 97,000,000 and in 1956, 713,000,000. The Bureau further reported on record highs for 1961 in exports and imports. These figures are gratifying — particularly in regard to the supply motion debate which took place at the beginning of the week. I made a speech at this time and it is recorded in Hansard on page 1257 in the February 27 edition.

The second announcement concerned the use of nuclear warheads in Canada and the Prime Minister reiterated his previous stand: "We take the stand that in the interests of disarmament everything must be done to assure success if it can be attained and that the nuclear family should not be increased so long as there is any possibility of disarmament among the nations of the world." In answer to further questioning, Mr. Diefenbaker said: "I referred to the outbreak of war and said that in the event that nuclear war was launched, nuclear weapons should be placed in the possession of Canadians." Readers will know that there is no question of joint control with the United States and that negotiations on the subject are continuous.

A third interesting statement was to the effect that China was up to date in her payments for Canadian wheat.

The House business is proceeding with reasonable dispatch and this week saw the start of the estimated expenditures in the Department of Forestry and the Department of Public Works.

In spite of his serious illness, veteran CBC radio actor Frank Vyvyan was on hand to help when "The Carson Family" celebrated its 5,000 consecutive broadcast. Vyvyan plans the role of "Tandy" and has been with the program since it began in 1941. Now confined to a wheelchair after a heart attack, he is accompanied to the studio by his wife who assists by turning the pages of his script. "The Carson Family" is heard at 12:30 p.m. each weekday on CBC's Pacific radio network.

EDUCATION

Where are graduates of Summerland high?

A survey was completed recently by the Secondary School Guidance Department to ascertain the present vocations of the 1960 and 1961 graduates. A total of 83 former students

were included in the survey and the vocations were divided into fifteen divisions.

The greatest number of former students are furthering their academic education, sixteen at University, and fourteen at Senior Matric. Business training has eleven to place third, and nursing is fourth with ten.

Eight girls are now married and six graduates have entered the armed services. Six students are now self-employed.

Banks, laboratory work and vocational school have attracted two graduates each, while music, sales service, RCMP and travelling each have one former student.

Only two of the eighty-three graduates are recorded as being unemployed.

EDUCATION STAMP ISSUED

A special postage stamp intended to stress the importance of education in the sixties was issued on February 28. The stamp, gold and black, depicts a young couple gazing into the future. The phrase "Strength through Education" appears in French and English in the border. On either side of the figures, in the background, are symbolic designs representing the various fields of education.

MacDONALD ELEMENTARY SCHOOL

NEW ADDITION TO MacDONALD SCHOOL

Conference on education in Montreal this week

The superintendent of schools for this district, C. E. Clay, is attending the Canadian Conference on Education being held in Montreal this week.

The opening session of the 1962 conference was held on Sunday in the Queen Elizabeth Hotel. The next morning delegate heard Dr. Claude Bissell, chairman of the Canada Council, officially open the conference and the topic "The Aims of Education in a Free Society" was discussed. In the evening Hon. John Robarts, Minister of Education and Premier of Ontario, spoke on education in a modern world.

Assemblies are also scheduled at which time such topics as television as a teaching aid, the professional status of teachers, the citizen in education, and development of student potential will be discussed.

Teacher compares Australia and B.C.

Both Grades VII and VIII are regarded by the Queensland Education Department as Elementary or Primary school grades. The children attend school from 9 a.m. to 3 p.m. with a morning break of ten minutes and one hour for lunch. Total annual holidays amount to nine weeks, four days, so that the length of the school year in Queensland and B.C. is similar.

The school day begins with a parade consisting of a flag ceremony, prayers and marching. Quite a few primary schools have adopted uniforms and those that have not forbid the wearing of make-up by girls and of jeans and unsuitable attire by boys.

The 25 hour weekly timetable devotes eight hours to English, six hours to Mathematics (both these courses are more difficult than B.C.'s); 3 hours, 20 minutes to Socials, 2 hours, 20 minutes to Physical Training, 1 hour each to Music, Art and Science (the latter is not taken as extensively as it

is in B.C.), 50 minutes to Intermissions and 1 hour, 30 minutes to Manual Training (woodwork, metalwork and geometrical drawing) and Domestic Science (sewing, drafting, cooking and mothercraft). Reports are issued three times a year and indicate the percentage gained in each subject and the final position in class.

Children may represent their schools or take part in the following sports during school hours: tennis, cricket, football, basketball, softball, athletics, swimming or ball games. Social activities are practically non-existent apart from the occasional fancy dress ball or fete. Neither Primary nor Secondary schools in Queensland have students' councils or councillors.

Parents and teachers have little to do with one another. In fact, a head master may find it extremely difficult to get the seven necessary parents to accept the honorary positions on the School Committee which is chiefly a fund-raising body with little say in the running of the school affairs.

Education Week designed for benefit of parents

Ray McNabb, president of the Summerland Teachers' Association, praised the way local teachers and citizens have cooperated to mark Education Week this year. A committee of teachers consisting of Mr. McNabb, John Tamblin, Mrs. H. Bouey, Win Potter, Bert Stent and Dave McMurray have organized projects which have this year supplemented the various schools' observations of Education Week.

Education Week, reports Mr. McNabb, is a week especially set aside to draw the public's attention to education. Although teachers hope parents are interested in education all weeks of the year, this one week gives an opportunity for the parents to visit schools, converse with teachers and glance through their children's work.

The theme of this year's Education Week is "Education — Measure of a Nation". More and more in this modern world ed-

ucation is increasing in importance.

This is the year in this province when the first impacts of the Chant Commission on Education are being felt. When asked of the local teachers' reactions to the implementations of several Chant recommendations, Mr. McNabb stated that, although the Teachers' Association had not discussed the Chant Report in detail as it effects Summerland, he felt many teachers believe some of the provincial changes have been done rather hastily.

A good school program develops children as individual persons and as citizens. The school program should be so planned that it helps the child to become an individual who has confidence in himself because of what he is and what he knows. At the same time it should guide him into becoming a responsible person who can be respected and trusted.

PROCLAMATION

To the Citizens of School District No. 77, Summerland

The week of March 4 to 10 has been designated Education Week by your Municipal Council. For the past quarter of a century Education Week has been observed throughout Canada for the purpose of arousing greater and wider interest in the problems of education.

It is hoped that during this week you will take advantage of the opportunities offered to learn more about our local school system.

SUMMERLAND SECONDARY SCHOOL

TROUT CREEK ELEMENTARY SCHOOL

Team teaching - a new venture

A visitor to Summerland Secondary School would probably be surprised if conducted into a room which appeared to bulge under the pressure of sixty students instead of the more usual 30-40 pupils. As the teacher at the front of the room is presenting the lesson, our visitor might be even more interested to see another staff member moving about the class checking homework assignments, answering individual questions, or bringing a pupil, who has been absent, up to date on some of the work he has missed. At yet another time a few students moving out of the room to take a test for which they have been absent or to be given some extra review in an area in which they have shown some weakness. Our visitor is witnessing a type instructional programme which, for lack of a better name, has been called team teaching.

Team teaching was pioneered in the United States around 1956-57. At present, more than 100 schools (mostly elementary) have replaced the traditional type of instruction with this method. The number of members may vary, ranging from a team in which two teachers combine their instruction, to teams consisting of groups of teachers including a team leader, two or three senior teachers, some newer teachers plus various teacher aids. Summerland is using a team of two experienced teachers who are combining two Mathematics 30 classes into one room, in such a way that they may be separated into two conventional classes if it appears beneficial.

The interest in this new approach to class size was first aroused when the supervising principal, Mr. A. J. Longmore,

attended a Secondary Schools Administrators' Association convention held in the spring of 1960 in Portland, Oregon. Further stimulus was given to the project when the Summerland School Board sent two teachers to Nelson, B.C. after an article had been printed in the B.C. Teacher describing team teaching as practiced in Nelson Secondary School. Upon their return, the two staff members enthusiastically agreed to try an arrangement whereby they were scheduled "back to back" on the timetable so that their classes could be placed together or separated into smaller groups throughout the year.

After six months in Summerland, at least some of the anticipated advantages seem to be materializing. It is apparent that pupils' homework can be checked more thoroughly and with less loss of actual instruction time than previously. Even with the larger number in the room individual problems can be dealt with more directly and quickly by the non teaching member of the team. The two team members feel that they have been better able to evaluate their own instruction and teaching procedures by means of mutual discussions. Individual differences of the pupils have been more easily taken care of through the use of smaller groupings of the class. Students entering the course late, being absent from school and missing tests, have been more easily brought up to date with a minimum loss of time to both the class and themselves. If one teacher is absent from school the other team member can carry on the instruction to the group without any loss to the class.

There are several other advantages listed by the proponents of this type of instruction. A younger teacher, new to a particular course, can be guided for a year by a more experienced colleague. At the end of a year, or of a unit of work, those who have been having trouble grasping the fundamentals of a subject may be taken for extra review and remedial work by one member of the team while the other member takes up some enrichment work with the section of the class that has mastered the fundamentals.

Is this type of class limited to high school mathematics? Certainly not. Most of the teams in the United States are in elementary schools. In the secondary schools many interesting combinations of teaching personnel could be considered, such as a history specialist combining with a teacher especially interested in geography to give a course in Social Studies. How about a team of three teachers whose academic backgrounds particularly fit them for physics, chemistry and biology combining to give a General Science course? —John Tamblyn.

Active teacher organization

Credit for Monday's very successful public meeting on "Education — Measure of a Nation" must go to the Summerland Teachers' Association, which organized it.

This group, comprising all the 44 teachers in our elementary and high schools, is the local branch of the provincial B.C. Teachers' Federation, corresponding to the fruit growers' local of the BCFG.

Usually its monthly meetings are concerned with matters of interest chiefly to teachers: courses of study, public relations, pensions, etc. At times teachers and trustees meet for a social evening, or to hear an outstanding speaker, as when Dr. Laycock was brought in by the STA last December. Special efforts are made to welcome new teachers, and the STA has unobtrusively done a great deal to make newcomers to our schools feel welcome and happy to stay here.

Merely by promoting teachers' welfare, the teachers' organiza-

tion contributes to the community, but its most conspicuous services are two; first, drawing public attention to our schools in Education Week, and second, offering an annual scholarship, or bursary, to help an outstanding Summerland High School graduate go on to the College of Education.

This S.T.A. Bursary, to the amount of \$200 per year, has been offered since 1955. Its first winner was Duaine Green; since that time 5 other students have won it, and the current holder, is Miss Helen Farrow; now making use of the bursary at UBC.

In early years Summerland teachers were part of the Pentiction local, but the Summerland Teachers' Association was formed in 1953, with Bill Durick as first president. Since then, teachers from elementary and high school have alternated in the presidency, and worked well together throughout the organization. Present president is Ray McNabb of Trout Creek School.

Courses will be changed for grade eight next year

September 1962 will mean a change in the Grade 8 programme. English, Mathematics, Social Studies, Science, Health, Personal Development and Guidance, Industrial Arts or Home Economics, will be required courses for all students. Time allotments will vary in English and Mathematics, depending on the student's ability. Social Studies time will be decreased and Science time will be increased.

Art and Music will become optional subjects depending on the time allotted to English and Mathematics.

French will be introduced as a required subject for most Grade 8's. It is anticipated that 70 per cent of the Grade 8's will register for this course. However, the school principal may advise a "borderline" student not to register in the course. Note this is only advice; if the parents will not consent to the principal's suggestion, the student remains in French. At the present time, the French 8 course is considered a prerequisite for French 10 and 20 courses of the University Programme.

EDUCATION WEEK

Measure of a Nation

March 4 to 10, 1962

To assist in bringing the needs and purposes of your schools to your attention,

Education Week is being observed in Summerland and across Canada.

Your school board is proud of our school facilities and teaching staff, and we

hope that you will avail yourselves of all opportunities to visit and familiarize your-

self with these institutions.

Comings and Goings

Mr. and Mrs. E. O. (Ted) Mortimer have returned from visiting in Banff, Calgary and Borden, Alberta.

Mr. and Mrs. R. E. Weitzel of Vernon, visited his mother, Mrs. Channon Snow over the week end.

Home from a winter holiday in Mexico and the southern United States are Mr. and Mrs. Jack Kirk. Mr. and Mrs. T. B. Young also arrived home this week. They had been visiting in Arizona and California. Another couple home from California is Mr. and Mrs. R. A. Johnston of Crescent Beach.

Mrs. R. Oxley returned from the coast where she has been visiting her husband Robert and son Harold.

Miss Muriel Weitzel spent a few days in Vernon last week.

Mrs. Walter Wright is visiting with her son, Allen Hickey and his wife in New Westminster.

A. C. Logan has returned from a visit to Florida and New Mexico. Mrs. Logan remained in Albuquerque, New Mexico for a longer visit with their daughter and family.

Mr. and Mrs. S. A. MacDonald are home after holidaying in California.

Mrs. Ken Boothe is in Prince George visiting her daughter, Lynn who is a teacher there.

Mr. Jack Bentley has been in Wetaskiwin, Alberta attending the funeral of his father who passed away February 19.

Teading is one way to help your education

by Kay Dunsdon

This is Education Week, and through books we enjoy, we more often gain knowledge. Two books for young people I would like to mention, are true stories of great men. The first, by Frederick Franck, is "My Friend in Africa" and tells the story of Dr. Schweitzer's hospital at Lambarene through the eyes of Bolo, a young native patient.

The story is about a real boy the author met, while setting up a dental clinic under the

auspices of Medico, and is beautifully illustrated with on the spot sketches.

"Doctor With Wings" by Allan Aldous is a real boy's adventure story, with true background details of the Flying Doctors Service, which serves the outback desert country of Australia. The author is a well known Australian writer and commentator.

For smaller children, an amusing and informative book is "Words Inside Words" by Michael Sage with hilarious line drawings by Arnold Spilka. Did you know you could find an owl in a bowl, a wind in window or a snake in a snowflake? Grown-ups enjoy this and Johnny might take to reading and enjoy it too while learning his words.

Help your child to enjoy reading by coming to the library and helping him to pick out a book.

Bridge tourney starts this Friday

The badminton club is very pleased with the number of entries they have received for their annual bridge tournament this Friday in the IOOF Hall. Indications now are for at least 15 tables, with play starting at 8 p.m. sharp.

BIRTHS

Born to Mr. and Mrs. Daryl Weitzel of Vernon, a boy, in Vernon Jubilee Hospital.

Largeness of heart

by Rev. Lyle Kennedy

Text: "Give therefore thy servant an understanding heart" 1 King 3:9.

One interpreter uses the word "largeness of heart" for "understanding heart". Surely this is not a misinterpretation. The understanding heart is a heart of sympathy and empathy.

Largeness of heart is a Christian virtue. Is anything better?

It means power to love radiantly, to act nobly, to think deeply, to enjoy richly, to suffer divinely, to plan magnificently.

It means room in the heart for both lover, neighbor and friend, for children and animals, for other nations than our own, for the poor and the rich, for nature, for all things God for all opinions, appreciations, for all faiths, response to all enthusiasms. The large of heart have no enemies, for they have already understood them, and to understand is to forgive.

What ails most of us is our narrowness of heart. We are overwhelmed with today, because the heart has no tomorrow "We are imprisoned in the cell of fear.

We are islanded in the foggy sea of doubt.

We are ringed about with the serpent-fire of suspicion.

We are walled up in pride.

We are bound hand and foot by the bands of undisciplined passion, unintelligent credulity, fatuous ignorance.

Narrowness of heart makes war; largeness of heart makes peace. Narrowness brings tears; largeness wipes them away."

Enlarge your heart! Why live in a hut when you should dwell in a palace?

Call in the workmen — courage, hope, love, wisdom, and cheer — that they may tear down your mud walls and erect for you a king's palace.

Mr. and Mrs. Donald Ariett (nee Joan Lloyd) who were united in marriage on Saturday, Feb. 24 in West Summerland.

Need for education outlined to WI

Education Week was highlighted at the March 2 meeting of the Women's Institute when Mr. J. Tamblin, substituting for Mr. A. J. Longmore, spoke on changes in education under the theme "Education is the Measure of a Nation."

He pointed out that rapid changes in our social structure due to population increase, technological advance and changes in family life all require changes in education for the present but also present problems of guessing at what the student will need to know for the world of ten or twenty years from now.

Starting with a world population of five million in 1500, increases were about one thousand per century until the year 1900, when it suddenly expanded to 1,700 million. Statisticians tell us that our own Pacific Northwest will double by 1975 and that in 40 years the world will contain 5,500 million souls. Added to this is the fact that it will not be unusual in the near future for man's life to span 125 to 150 years. Yet, automation is constantly cutting down on available jobs; records in the U.S. show that 25 per cent have already disappeared. Moreover, advance makes a man's present job outdated about every ten year so that an average worker in 30 years of working time will probably have three different jobs.

To meet these changes, education, too, must change. But

it must also estimate the future's needs. About 50 per cent of children now in school will have to work in jobs which are as yet unknown. Therefore, stress must be placed on basic ideas rather than on particular detail and adaptability must be the keynote. Again, it is stated that most girls will work about 30 years of their life time. With this break in the family pattern and shorter work weeks for all, education must also teach for leisure time and particularly for hobbies and recreation which can be shared by all members of a family. In this, churches, communities and adult classes in school must play their part.

In the area of the public school system, the challenges are to meet the facts that students exist, that they need training and that teaching facilities are necessary. The first two factors cannot be changed; therefore, if a nation or society is to meet its obligations, the only other possible change is in ways and means of teaching. Money for buildings, equipment and staff will be necessary, but the purposes of a school should be well recognized. They are primarily, to instruct and to inspire. An interesting experiment in the former is in the use of teaching machines which, when asked a direct question, give a direct answer which is to be memorized. More of the teacher's time can then be given to work for each student's development and to assist in bringing out that student's individuality. For the unknown situations of tomorrow, individual adaptability becomes increasingly important and the number of individuals who are so "educated" gives a true measure of a nation.

Mrs. A. C. Fleming thanked the speaker for an excellent and thought provoking address.

General business of the meeting included an offer by Mrs. E. C. Bingham of agriculture to give an demonstration of dahlia root trimming at the April meeting; Mrs. Barrs of citizenship asked Mrs. Moors to conduct the first ethnical language lesson counting to 10 in German; Mrs. Mortimer of cultural activities reported all wool and materials distributed and several finished articles returned; Mrs. J. McLachlan had been named to the executive of the local Cancer Society; Mrs. W. Wright had cookbooks on hand once more at \$2.35 each; a good collection of articles for USC layettes was in but other articles may go to Mrs. G. Inglis until March 23; and Mrs. H. McLarty was named delegate to the provincial biennial convention in May.

Mrs. Crozier brought a number of English magazines from a pen pal, for distribution among the members and a news item from the WI at Upper Broughton, who are raising funds by each giving a penny per waist-line inch.

Mrs. MacLachlan moved adjournment and tea was served by Mrs. Angus, Mrs. Fenwick, Mrs. Hookman and Mrs. Mair.

Summerland Review

Scout Shorts

The eight new recruits who came from the Cubs six weeks ago are just about finished Tenderfoot tests and the plan is to invest four boys next Monday and four the following Monday. Uniforms and Scout staves will be necessary.

Cub uniforms may be exchanged for Scout uniforms if available, with Mrs. Logie, opposite the United Church. New uniforms may be purchased at catalogue prices, post paid, from Miekle's Men's Wear in Kelowna. Parents with uniform problems should phone the Scoutmaster.

Excellent progress is being made with 1st and 2nd class badge work as well as proficiency badges. We wish to thank Mr. Joe McLachlan and Mr. Stan Krause for helping at this week's meeting with tests.

Please note that the proposed date for the Father and Son Banquet has been changed from March 23 to March 26.

Patrol points are: Buffaloes, 343, Eagles 311, Beavers 301 and Hawks 286. Duty patrol next week Eagles.

— D. V. Fisher, Scoutmaster

Rifle Club competes in invitational shoot

by Herb Simpson

There was plenty of activity at the indoor range this week. In addition to the usual weekly practice on Friday night, which was well attended by both adult and junior members, eight members of the Penticton, Fish, Game and Rifle Club attended an invitation shoot on Wednesday evening, March 1st.

Two four man teams from each club competed for the aggregate score with Summerland taking top place with a total of 2293. The Penticton aggregate was 2260.

Individual scores for Summerland were: H. Richardson, 297 20x; R. Maddocks, 281 5x; Bob Barkwill, 294 12x; Louise Atkinson, 287 6x; Pete Andrew 289 14x; R. Bertram, 279 8x; T. Kwak, 282 5x; J. Sheppard, 284 8x.

Other Summerland members taking part were H. Simpson, 275 7x; Don Tait, 259 5x; J. Doherty 279 5x; Mrs. J. Bentley 238 5x; Len Shannon 271 2x and J. Kalembach 274 5x.

After completing the target shooting in the prone kneeling and standing positions, the mechanical rabbits were set up. A one minute time limit was set for each team, and Penticton No. 1 team took top spot with 13 hits, followed by Summerland No. 1 with 12, Penticton No 2, 11; Summerland No 3; 11; and Summerland No. 2, 6. A sweepstake was then organized and was shot as a miss and out contest. George McNeil of Penticton collected the money with eight consecutive hits.

On Thursday evening, March 8, the Summerland club will visit the Penticton West Bench range for a return match.

What's the weather? Research Station keeps track

Where does the weather report that is published each week in the Review come from? In this article, we will give some information about the weather department at the Summerland Research Station.

Supervision of the weather station and records is under the responsibility of the animal science section under Dr. J. E. Millmore. Mr. Lloyd Uzick, technician, assumes the major responsibility for this work. Within the animal section he is assisted by Mr. Norman Younghusband, herdsman; Mr. T. Kwak and J. Jardine, assistant herdsman, routinely take evening and week end observations.

Dr. J. C. Wilcox of the Soil Section, assists in the supervision of the weather station. He is primarily interested in the lysimeters (instruments that measure the water used by field plants) and evaporation, where he has the assistance of Mr. D. Munn, technician. Mr. J. McDougald, technician, assists in the repair and maintenance of the electronic instruments.

Mr. C. V. G. Morgan (temporary officer in charge of Entomology) operates a weather station at the Entomological Laboratory in Trout Creek, where maximum and minimum temperature and precipitation records are obtained.

The weather station building in which the temperature is thermostatically controlled, provides housing for automatic recording of air temperature, soil temperature, rain fall, and intensity of the sun. This building

also provides a working area for recording observations and making minor repairs.

Behind the locked gate of the enclosure near the barn the following instruments are installed: lysimeter tanks, for soil irrigation experiments; experimental evaporimeters; three inch rain gauge; thermometer for measuring minimum ground temperature; wind gauge; thermometers for measuring air temperature; bright sunshine records, directional wind vane; precipitation gauge; evaporation pan with thermometers in water; and instruments for measuring humidity and dew point.

The snow fall this winter, to January 1962 was 35.50 inches. Total snow fall in the winter of 1949-50 was 69.9 inches.

Two months in the past few years have had no rain recorded at all. July 1960 and August 1955 recorded .00 precipitation.

In 1948 eight man hours a

month were spent on observation, and recording of minimum and maximum temperatures, evaporation, precipitation and hours of bright sunshine. Since that time the data collected has increased in volume and complexity, so that in 1961 weather station activities took 75 man hours each month.

The collected data is reported monthly to the Departments of Transport in Toronto and Victoria. Locally, reports are sent to the Department in Penticton, The Summerland Review, the Summerland municipal clerk and the district horticulturist, Mr. A. Watt. The research officers at the station make use of the weather data in conjunction with their projects.

The weather data is also utilized by hotel owners and Chambers of Commerce for tourist information, and heating companies frequently use the weather data for preparing briefs. Insurance companies and private individuals often use the information for documenting weather conditions at the time of accidents.

The observation station is situated south of the Animal Science building, a site that has been approved by the Agro meteorological Section, CDA, Ottawa, and the Department of Transport. It is situated 1,491 feet above sea level and 379 feet above Okanagan Lake. The east-west sides of the enclosure bear true north.

Weather records have been maintained since 1916. Since that date the highest temperature recorded was 104 degrees, a reading taken July 17, 1941 and the lowest temperature on record was a 22 degrees below zero reading taken January 25, 1950. Annual mean temperature is 47.9 degrees while average annual precipitation is 10.9 inches. The Okanagan sun shines an average of 1,994 hours every year.

Kiwanis Club Notes

Kiwanis met as usual Tuesday night with 30 present, including two Penticton visitors. In the sing song, led by Jim Schaeffer, "I've been working on the railroad" was sung, substituting the word "by-pass" for railroad. This was for the benefit of the Penticton boys.

Tommy Young had a birthday coming up which cost him the usual dollar. Tommy expressed himself, that at this stage each successive birthday was worth more and more this amount of money. So something new was tried. Tommy had the privilege of picking any four members to sing "Happy Birthday" to him. Any one who declined to sing had to pay 25c. It was surprising how many objected to sing this to him. Others, who were willing, were bribed by others to refrain from doing so. As a result — confusion, but with all, financial gain. The sheriff, in official garb, had a busy night collecting fines and bribes.

Next Tuesday, an interclub meeting with Vernon will be held at 6:30 p.m. in the Legion Hall. About 20 visitors are expected from Vernon. A smorgasbord supper will be served. And all members are urged to attend.

— The Recorder.

Hereunder is a summary of Regulations pursuant to The Highway Act, which govern the erection of buildings, signs and other structures adjacent to or on highways.

1. Outside Municipalities — all buildings must be set back at least 25 feet from the edge of the Right-of-Way of Provincial Highway, Road or Street.
2. Outside Municipal Boundaries — No signs are permitted within 1000 ft. of the Right-of-way of any Provincial Highway, Road or Street with the following exceptions:
 - (a) Certain directional signs for Motels and Resorts may be erected on the Right-of-Way under permit.
 - (b) Certain signs on business properties may be erected beyond the Right-of-way boundaries. For details on this, please check with your local District Official.
3. Inside Municipal Boundaries — No signs may be erected on the Right-of-Way of Provincial Highways, except under permit. (Ref. 2(a) above). Signs on private property are controlled by the Municipal authorities.

For further details, please contact the Department of Highways District Office.

The annual meeting of the Summerland Rod and Gun club will be held in the IOOF Hall, Monday, March 19 at 8:00 p.m. A good turnout is hoped for as election of officers is on the agenda.

Summerland will have one less grocery store April 1 when the Groceteria will change its name to Farm and Garden Supply. In place of groceries, the store will enlarge its selection of garden equipment, feed supplies and seeds. It will also feature a department of pet supplies, and rental of farm and garden equipment.

Mr. K. M. Stuart has opened an office in West Summerland in the premises formerly occupied by Inland Realty. A chartered accountant, Mr. Stuart spent the past five years in Vancouver working with the federal income tax department. Born in Summerland, he is married to the former Jocelyn Boyd. They have five children and have taken up residence in the former Stuart home on Quinpoole Road.

The Okanagan Telephone Co. has announced that its new schedule of rates applied for in a recent hearing, have been approved by the Public Utilities Commission. The new rates will take effect April 1.

Local boys in accident in Sask.

Leonard Roy Derosier, 20 and Roger Ezeard, 20 both of West Summerland, are in serious condition in St. Peter's Hospital in Melville, Sask., following a two car collision in which two Melville residents were killed.

The boys' parents are Mr. and Mrs. Donald Derosier and Mr. and Mrs. Daniel Ezeard.

The boys left here on March 6th to apply for a mining job at Compston, Manitoba, and were apparently driving back to Edmonton when the accident occurred on a highway eight miles north of the Saskatchewan town.

Killed in the crash were Mike Kravich and his son Edward of Melville. In serious condition in hospital is Mrs. Tony Sikora of Melville, Mr. Kravich's sister in law.

It was reported that the two cars hit with such force that they bounced back into ditches on each side of the road.

West Summerland, B.C.

Volume 17, No. 11

Ice Carnival Saturday

All dressed up for the Figure Skating Club's annual ice carnival are Catherine Evans (left), Beatrice Young, Susan Wilson, and Nigel Blagborne.

The carnival this Saturday night in the arena is shaping up to be one of the best to be presented by the club.

The audience will see penguins, lobsters, starfish, pink coral, King Neptune and other whimsical characters in the Nautical Fantasy number, which includes the entire cast of 120 skaters.

The younger skaters will show their skills in the Oriental Festival number featuring Chinese coolies, Siamese twins and giesha girls.

This year's grand finale takes the audience "Deep in the Heart of Texas". The young performers, complete with ten gallon hats and cowboy outfits show the results of all the hours they have practiced.

It is hoped to have new sound equipment installed for the carnival this year.

The skaters and all their

helpers who have created this carnival invite everyone to come along on Saturday night and enjoy the show.

Also featured will be pair and solo skating.

Twin City Macs now meet Trail

It's hockey again this week end for the Twin City Macs. After defeating Kamloops Chiefs 10-6 on Saturday to win a best of five series in three straight games, the Macs now meet the Trail All Stars in Penticton on the week end in the B.C. Coy Cup semi-finals.

A best of three series will be played in the Penticton arena, Friday, Saturday and Sunday.

The Trail team is comprised of young fast skating graduates of Trail's minor hockey teams, as well as a number of veteran Smoke Eaters.

Appearing on the Macs starry line-up are ex Vees Jimmy Fairburn and goalie Don Moog along with other intermediate and former senior A players.

Two Summerland boys, Allen Hooker and Jackie Howard are playing for the Twin City Macs.

Winner of this series will meet the coast representative for the provincial intermediate hockey title. The coast representative will be either Powell River or Nanaimo.

Powell reports on Codling By-law

A final draft of a bylaw to control codling moth in Summerland is now being prepared by council. At Tuesday night's municipal council meeting, Councillor Walter Powell said that the purpose of the by law is to ensure that clean fruit is grown and to further ensure that trees are not breeding places for the moth. He said that an inspection committee, to be appointed yearly by council, will evaluate the amount of infestation by the number of worms per tree and not the number of infected apples.

Council spent some time discussing the problem of the small grower, who has possibly only 10 or 20 trees and is unable to get a good spray job done during the season. Councillor Powell mentioned a specific instance where a grower on a small holding had five sprays applied at a cost of \$2.50 per tree and Mr. Powell commented that he did not pick one clean apple. Mr. Powell commented that he felt that this particular instance was due to a very poor spray job, but he felt it pointed out the fact that at present many

small growers were unable to get a good spray job.

Councillor Bill Barkwill suggested that a local grower owning a sprayer might be interested in applying sprays to small lots. At the moment council is only interested in codling moth spraying. Council decided to advertise for someone to take on this job. It was observed that most of the small growers are interested in growing clean fruit and would use the services of a commercial sprayer if one were available.

Works superintendent Ken Blagborne told council that the municipal crew will take the new mower out shortly to start the road mowing program. Councillor Barkwill asked if a letter could be included in the electric light notices asking all residents to be sure that the road sides by their property are reasonably free of stones and stumps. Mr. Blagborne reported cases, where homeowners have cleared their land and placed the rocks and stumps on the road allowance.

A delegation from the Youth Centre asked council to raise its yearly grant to \$600. This would take the place of a house to house canvass.

Tennis Club disbanding

Council expressed concern and disapproval of the action of the Summerland Tennis Club in disbanding its present organization. Mr. Kyle Steele, acting as spokesman for the former club, said the tennis organization had been dropped, but he had been asked to approach council on the matter of the \$1,200 equity the tennis club holds in the Peach Orchard park court. The 1961 council had written to the club and offered to pay the \$1,200 and at Tuesday's meeting the 1962 council moved that the money be paid.

Reeve Norman Holmes said that he could not understand the tennis club's action in disbanding its organization. He said that it appeared that the club was just going to sit back and not bother to do anything because they no longer have full control. Mr. Holmes gave as an example the figure skating club which uses the community owned arena, but does its own organizational work. He felt that the tennis court should be run in the same manner.

Mr. Steele said that only a limited number of senior players are now using the courts, but these players are hoping to give the 17 or more junior players weekly practice sessions this summer.

Councillors Powell and Barkwill both felt that the interested tennis players should get together and draw up a schedule and recommendations for the coming season. These recommendations could then be presented to council to assist it in forming policy for the future operation of the court.

Dr. Donald Richard Heinicke formerly Assistant Professor of Horticulture, University of Horticulture, University of Wisconsin, joined the staff of the Pomology Section, Research Station, Summerland, recently.

Dr. Heinicke, a native Oklahoman, graduated with his Bachelor's degree from Oklahoma State University and completed his Master's and Doctor's degrees from the University of Maryland.

Dr. Heinicke, who has a background in forestry, horticulture and plant physiology will be in charge of all aspects of the tree propagation program including rootstocks and hardy frameworks. He will, in addition, be initiating a program in agrometeorology relating especially to the effect of specific weather conditions on leaf photosynthesis.

Dr. Heinicke is married with two children and has purchased a home in Trout Creek.

His appointment was made to fill the staff vacancy caused by the transfer of Mr. G. M. Wells to the Statistical Research Service, Department of Agriculture, in Ottawa.

Meeting to-night will decide fate of Fair

Less than 20 turned out for the regular monthly meeting of the Chamber of Commerce last Thursday evening. T. S. Manning was in the chair in the absence of G. C. Johnston, who is still in hospital.

Continuation of the fall fair was discussed and members voted to explore all avenues to keep this annual showcase alive. Charlie Bernhardt was appointed chairman of a committee to meet representatives of organizations and service clubs who have taken an active part in the fair in previous years. A meeting will be held today (Thursday) at 8 p.m. in the IOOF Hall.

In other business the Chamber

favoured a request for support from the BCAA for an underpass on Highway 97 at Trout Creek. The automobile club has been asked by a number of its members to ask the provincial government for an underpass. It was said that the underpass was needed as a protection for school children.

Councillor Eric Tait reported that the underpass was on the original plans for the area, but at the time the highway was built, Trout Creek residents did not believe it was necessary.

The Chamber approved a resolution from the national Chamber, voting in favor of government controlled lotteries.

H. Richardson leads rifle club

The annual meeting of the B. C. Dragoon Summerland Rifle Club was held at the Fire Hall on Wednesday evening, March 7, with eleven members and two guests from Penticton in attendance.

Officers for the 1962 season are Honorary Presidents, "Pop" Dunsdon and Ed. Gould; President, Harold Richardson, Vice President, Len Shannon. Secretary-treasurer, Art Dunsdon, with an executive of five members. All officers were returned by acclamation, with the exception of the vice president who was chosen to replace Herb Simpson.

As attendance at the range was not good last season, it was decided to hold only one shoot each month, a starting date to be decided when weather and road conditions at the range become satisfactory.

Tops at Penticton

by Herb Simpson

Twenty-one members of the Summerland Sporting Rifle Club attended a very enjoyable shoot at the West Bench Range, Penticton, on Thursday evening March 8, as guests of the Penticton Fish, Game and Rifle Club.

High aggregate score was shot by Summerland with 3157 points. Penticton scoring 3018 points. Individual scores were: H. Richardson, 294; P. Andrew, 292; R. Maddocks, 289; Louise Atkinson, 289; C. Mann, 288; J. Doherty, 288; K. Blagborne, 287; D. Taft, 286; J. Sheppard, 284; Len Shannon, 281; R. Bertram, 279; Total 3157. Penticton individual scores were: J. Leeson, 293; E. Amos, 292; M. McEwan, 292; R. H. Hanson, 291; J. Rasmussen, 281; G. McNeil, 275; P. Leir, 265; D. Smithson 262; A. Fead 261.

Other Summerland shooters taking part were: T. Kwak, 263; H. Simpson, 264; J. Johnson, 259; Mrs. J. Bentley, 242; Frances

Bentley, 170; G. Penning, 250; Mrs. Lloyd Shannon, 286; Mrs. R. Bertram, 242.

To conclude the evening, a sweepstake was organized on targets attached to an electrically-driven device that resembled a windmill. Raymond Maddocks was the successful marksman in this event.

Excellent refreshments were served by the Ladies Auxiliary of the Penticton Club.

The Summerland members were greatly impressed with the new building on the range. It is of cement brick construction and includes a modern kitchen, washrooms, and a fireplace, with indoor range suitable for rifle, pistol and archery practice. During the spring and summer months these activities will be carried on outdoors, along with trap and fullbore rifle shooting.

The undertaking of such a project certainly shows the results of co-operation and many hours of hard work.

Merits your support

March is Red Cross month. It has been so designated because it is the month when the Canadian Red Cross presents a comprehensive review of its vast humanitarian program during the previous year and makes its annual appeal to the public for funds to maintain and expand its valuable work.

One of the most important projects of the Red Cross Society in British Columbia is its blood donor and transfusion service which provides life-saving blood and plasma for hospitals and the medical profession. The outstanding heart surgery program of Vancouver hospitals to correct congenital heart conditions has greatly increased the need of blood donations.

Generous financial support is required from the public for the operation of Red Cross blood donor clinics which make regular visits to communities throughout the province in order to maintain the supply of blood.

The many other humanitarian services provided through the medium of the Red Cross are well known and no urging should be needed to raise the finances required for their continuation.

This month the Rotary Club will again be campaigning for the Red Cross in Summerland. A door to door canvass is now being undertaken. Realizing the value of the Red Cross program, the community has always been generous with its past support. We hope you will again be generous this year.

★

En Atamo . . .

Recent events in the world today recall the words of an ancient religious rite: "Remember, man, that thou art dust, and unto dust thou shalt return!"

Scientific achievements in the past few years have served to break down the old-imagined cleavage between mind and matter, between the spiritual and the material, between intangible energy and the sort of solid reality which is now seen to be neither solid nor real.

One can readily see, in the unfolding mysteries of nuclear physics and the exploration of space, the link between God and the atom.

The instant destructibility of material things, the human body included, has an "ashes to ashes, dust to dust" message particularly apt for this Lenten part of the Christian year. There is a strikingly prophetic phrase in the original Greek text of St. Paul's picture of the end of the world: "In a moment, in the twinkling of an eye . . ." is, in the original Greek, "en atomo" — the very word now associated with atomic catastrophe.

The traditional discipline of Lent, its restrictions and self-denials, are not ends in themselves. However much it may seem desirable, or fashionable, or anything else, there is no real virtue in taking tea without sugar for forty days, or substituting an egg for a steak, or giving up other pleasures which mean no actual in abandoning them. They say this: that by the gain in free time it is possible to give one's mind over to serious things.

A philosopher of pagan Rome, Seneca, used to say "When the day's work is done and I get ready for bed and my wife has stopped talking, I examine my conscience."

Lent is a time for examining one's conscience, a time to remember, a time to look back, to look around, to look ahead — a time for stocktaking, for counting assets and for reckoning liabilities in the things that matter, a time for setting one's men-sacrifice. There is no evil in entertainments as such, and merit house in order. It is a time for balancing the spiritual against the material, for remembering the parable of the man who thought himself rich in worldly goods, and the warning "Thou fool! this night shall thy soul be required of thee. Then whose shall be those things which thou hast saved up?"

"En atamo . . ."

It is good that people should have such a time as Lent, just before the birth of a new earth in a new spring, to reflect upon the harried cycle of feverish living as it threatens to become today.

The best is yet to be!

by Rev. Ira Johnson

In a world that is being constantly flooded with reports of tension and turmoil; of crime and violence, there is need of a stabilizing message of hope.

In saying that the "Best is yet to be" we are not burying our head in the sand like the proverbial ostrich, but we are simply declaring on the authority of God's word that the "Best Is Yet To Be" for all who will align their lives with the real God of the universe. See Acts 17: 24-31. It matters not whether you are young or old; whether you have perfect health or not; whether you are rich or poor . . . you can look forward to an even better existence beyond this world and this life. Jesus said,

"No man cometh unto the Father, but unto me." (St. John 14:6) Again the scripture says: "if we confess our sins He is faithful and just to forgive us our sins and cleanse us from all unrighteousness." (1 John 1:9) Paul tells us in 1 Cor. 2:9 "Eye hath not seen, nor ears heard, neither hath it entered to the heart of man . . . the things God hath prepared for them that love him." Truly . . . the Best is yet to be!

Even if we should be called upon to go through much unpleasantness in coming days, how worthwhile to life a holy life; to live for that which is noble and redemptive, and at all times to be able to realize . . . "The Best is Yet to Be!"

PTA has role in education

The Parent-Teacher Association constitutes an ideal means of increasing understanding and creating a closer relationship between parent and teacher by providing an opportunity for them to meet socially and discuss problems associated with the training and guidance of children.

Having once met the teacher over refreshments and establishing that he is genuinely interested in the welfare of their child, parents may be encouraged to discuss at some future time their child's academic progress or lack of it, his personal development, or any other problems associated with his schooling. They may even find these discussions quite revealing and rewarding.

Also, by attending PTA meetings parents can evaluate, review and learn more about the school's program, its purposes, and its problems. Teachers can describe and explain present day methods, the use of visual aids, and the objectives of each grade.

Something all parents are anxious to learn is how to raise their children to be good citizens, with a mature outlook, a sense of responsibility, and an adequate amount of ambition, in the most painless way possible. There seems to be no easy formula for success in this endeavour but the PTA organization provides information on a large number of publications dealing with child behaviour, personality problems, discipline, and even on how to be a good parent. Local meetings provide a forum for discussion of the ideas presented in these publications.

Parents and teachers working together can initiate new projects for child training and guidance not incorporated in the present curriculum. For example, the PTA of the Trout Creek School is presently formulating plans, through a committee of parents and teachers, for the operation of a school of several weeks duration this summer. It will not be concerned with instruction in subjects in the curriculum, but rather students will be exposed to new experiences in nature study, physical training, leadership development, and art in various forms.

The purpose is twofold. First,

through the services of specialists in the area, children will be introduced to the sorts of interests, hobbies and skills, that generally can be developed working together under the only outside the schoolroom. It is hoped that this sort of experience will create new interests for the children, that it will contribute to the development of character, leadership, an enquiring mind, and that perhaps of greater importance, it will keep these young active minds working at the process of learning even though the doors of the school have been closed for the summer.

This likely will be a most interesting experiment in the education and training of young children. It is being made possible by parents and teachers auspices of the PTA.
working together under the

Summerland Review

Comings and Goings

Mr. and Mrs. Arthur Morgan have returned home to Nelson after visiting his mother, Mrs. G. Morgan.

Mr. and Mrs. Herb Rice of Vancouver, visited over the week end with relatives.

Dr. D. P. Pielou and Dr. D. L. McIntosh of the Summerland research station are in Ottawa this week.

Mr. C. O. (Chuck) Brawnner of Victoria, visited with his parents, Mr. and Mrs. V. Brawnner of Parkdale this week.

Mrs. E. R. Butler arrived home Sunday from a winter holiday in California.

Mr. and Mrs. R. G. Russel have returned from spending the winter in Arizona and California.

Miss Bertha Bristow is spending a few days in Vernon with her brother in law and sister, Mr. and Mrs. J. G. Strother.

Miss Jo-Ann Ongaro has returned to Kamloops after spending a two week holiday with her parents, Mr and Mrs. C. Ongaro. Jo-Ann, a student nurse at the Royal Inland Hospital, received her cap on February 16.

Mrs. W. Stillwill of Formosa Beach, California, was a recent visitor at the home of Mr and Mrs. Les Rumball.

Mrs. E. Creese has returned from Mexico where she spent the winter.

Attending the Okanagan Falls Women's Institute 41st anniversary tea on Tuesday were Mrs. E. O. White, Mrs. G. Inglis, Mrs. W. Rothwell, Mrs. H. Moors, Mrs. E. O. Mortimer and Mrs. W. Brown

Mrs. D. I. Gilman is home after a short trip to England. On her way home she visited her son and family, a professor in the Veterinary College at Guelph, Ontario.

Jean Desses, who is designing the trousseau for Princess Sophia of Greece, shows this evening dress in his spring collection. It is in white "Terylene" batiste printed with red, pink and orange chrysanthemums. The dress is slim with a deeply scooped neckline back and front. A sweeping train falls from the back and hangs severely straight just touching the ground.

Zone meeting of Legion Auxiliary

The Legion Ladies Auxiliary spring zone meeting was held in the Rosedale Room of the Summerland Royal Canadian Legion building on March 4. Zone chairman Mrs. Hallet presided, with Mrs. Steeves secretary and Mrs. A. Johnson standard bearer. Mrs. W. Mortimer and Mrs. A. Johnson attended as official representatives of the Summerland branch.

Mrs. T. Charity was presented with a 25 year membership pin.

The roll call showed 12 official delegates, 22 fraternal members and three table officers.

Discussion of the provincial convention to be held in Penticton May 6-9 showed plans to be well in hand. The meeting was followed by a social hour and lunch.

On March 8, the Legion Ladies Auxiliary celebrated its 35th birthday with a pot luck supper. Husbands were invited and a delicious meal was enjoyed by all.

The men were asked (and gave) their opinion on several samples of material suitable for drapes for the Rosedale Room.

The regular monthly meeting followed with 23 members present.

In Memoriam

PLEDGE — In loving memory of Mrs. John H. Pledge, who passed away March 13, 1961. No one knows our heartaches, Only those who have lost can tell, Of the grief that we bear in silence, For the one we loved so well. — Lovingly remembered by husband John H., and sons Tom H. and Reg J. and families.

WOMEN'S PAGE

Brownies entertain visitors with Japanese setting

"Konnichi Wa". That was the greeting with which the Brownies of the First Summerland Pack welcomed 20 Japanese speaking visitors to their meeting last Thursday. "Konnichiwa" means "how is this day" or "good day" in Japanese.

The whole meeting had a Japanese theme. The Youth Centre was decorated with Japanese posters, Japanese lanterns, origami (Japanese paper folding) made by Brown Owl and the Brownies. A long table held books on and books from Japan. Japanese dolls, fans, ornaments and bamboo weaving brought by the Brownies.

The centre of attraction was a complete and magnificent Japanese doll festival display, lent by Mrs. J. M. McArthur.

It stands five feet high, has five shelves each displaying ritual Japanese dolls and accoutrements all in exquisite detail and vivid color. Mrs. McArthur spoke about the display which was sent to her from Japan.

Five of the young Japanese-Canadian guests came to the meeting in gorgeous Japanese costumes. They were: Connie Kuroda, Barbara Kuoda, Donna Inaba, Diane Kita and Marie Nakagawa.

Mrs. Tada arranged a table with Japanese place settings and showed the Brownies the use of the various dishes.

As well as greeting their guests in Japanese, the Brownies knelt on the floor as Japanese girls kneel, they played a

jolly Japanese game with some of the Japanese speaking visitors, Brown Owl read a story in English, well loved by children in Japan, and the whole pack bade their guests good-bye in Japanese.

Brown Owl and Tall Owl wore Japanese coats over their uniforms. Everyone laughed when they were told that the Japanese characters on one of them said "East Coast Road".

Brown Owl (Mrs. J. L. Mason) Tall Owl (Mrs. P. Smith) Owllet (Miss Lesley Waterhouse) and Owllet-let (Miss Connie Roberge) wish to thank Mrs. Frank Kuroda for help in organizing the meeting, to thank the girls who wore the lovely Japanese costumes and the guests, who included: Mrs. M. Kuroda, Mrs. S. Tada, Mrs. K. Yamabe, Mrs. T. Kato, Mrs. B. Inaba, Mrs. Nakagawa, Mrs. T. Inaba, Mrs. R. Kuroda, Mrs. M. Kita, Mrs. R. Kita and Misses M. Inaba and A. Nakagawa and Kenfy Kuroda and Bradley Kita.

Large number attend World Day of Prayer

There was a large attendance at the World Day of Prayer service held in the Pentecostal Church on Friday afternoon, March 9th.

Those taking part were Mrs. Jack Wilcox, Mrs. E. O. Mortimer, Mrs. Bloomfield, Mrs. Miller, Mrs. Johnston, with Mrs. John Manning leader.

A most inspiring address was given by Mrs. R. H. Grant, who took for her subject the theme of this year's service "God's Love for the Whole World". She also read a letter from the missionary superintendent of the Lady Kinnard Hospital at Luck-

now, India, thanking the ladies of Summerland for their continued interest in the upkeep of the bed in that hospital.

For special music, the Melodians, under the direction of Mrs. Lionel Fudge, sang the anthem "Holy, Holy, Holy", which was greatly enjoyed by all. Mrs. G. Leasor played for the service and Mrs. John Embree and Mrs. Ward acted as ushers.

The service this year was arranged by two ladies of Montevideo, Uruguay, South America.

Pairs & Squares plan St. Patrick's dance

Summerland Pairs and Squares have their plans all made for an Irish square dance party on St. Patrick's Day, Saturday, March 17 at 8 p.m. in the Youth Centre.

Bob Emerson will emcee this

dance, and since he is one of the favorite callers in these parts, the club is preparing for a big crowd.

Gwen Hardie and Thelma Wiens are convening refreshments, and are planning a buffet to include cold ham, plenty of the jellied salads so popular with square dancers, potato salad and rolls, with cake and slices for dessert.

Decorations will naturally be on an Irish theme so put on your green shirt or skirt, and come on out for an evening of fun and good dancing.

Plans are also underway to hold a benefit dance for the Youth Centre on April 21. Ray Fredrickson, Summerland's very able caller and teacher, is donating his services as emcee for the evening, with visiting callers invited to help him out in the program.

Dancers and callers from all parts of the area will be invited to this dance, and the profits realized will be donated to the Youth Centre Association to help them meet their financial commitments.

Although primarily set up for the use of organized youth groups, the Youth Centre has been the scene of a great many wonderful evenings for square dancers, both young and old, and this will be their opportunity to show their appreciation.

Dancers will be asked to bring lunch and coffee and tea will be provided by the Pairs and Squares.

Regular lessons will continue each Wednesday night at 8:00 p.m. in the Parish Hall until the end of March.

Everyone regrets that the season is nearly over. It has been such an enjoyable one, each lesson night providing a bright spot in the week for all who attended. However, party nights will still provide square dancing during the spring and summer, until lessons get underway again in the fall.

Norman Smith heads Teen Town

Summerland Teen Town held its elections on March 10. The new Mayor is Norman Smith, with his new council of Pam Britton, Vanda Wade, Carol Lloyd, Tom Brenna, Bob Mortimore and Donna Laidlaw. The new Teen Town Sweetheart is Donna Laidlaw. These people will join the old council and junior council to start new business. Congratulations everyone.

March 31 starts an important week end for all Teen Towns up and down the Okanagan. Summerland Teen Town is going to Salmon Arm for its spring conference. Most of Summerland's council will be participating in this worthwhile conference. Look for further information in my next report.
— Sharon Geres.

Helen Tilbe heads ladies curling club

The Summerland Ladies Curling Club's annual meeting was held last Monday, March 12th. The ladies made an event of it with a few games of curling and a pot luck supper before the meeting started.

Newly elected president is Mrs. Helen Tilbe; vice president Mrs. Emily Weist; secretary, Mrs. I. Charles; and treasurer Mrs. A. Dunsdon.

Following the meeting the draw trophies were presented to the winning rinks. The Super Valu trophy went to the A. Dunsdon rink, the H. Tilbe rink taking the Overwaitea trophy; and the L. Al Smith trophy was won by the Hilda Eden rink.

Landscaping featured at Hort. Society

The Summerland Horticultural society is planning a series of three lectures at its monthly meetings in March, April and May, on landscaping new property. These talks, which will be illustrated with drawings and colored slides, will be of particular interest for owners of new homes who would like some advice on how to go about preparing their ground for a lawn, on how to achieve various effects with evergreens, what kinds of shrubs and shade trees are best suited to this area, how to get the most garden for the least effort.

The March meeting of the Society will be held next Tuesday at 8 p.m. in the Anglican Parish Hall. Mr. W. F. Morton, district horticulturist of Kelowna, will speak on principles of landscaping.

Meetings of the Society are held on the third Tuesday in February, March, April, May, September and November. A show of spring flowers will be held on the regular meeting night in April and entries are welcomed. A rose show will be held in June, garden tours may be arranged in other valley centres in July and August, and there will be a Chrysanthemum Show in October.

Employment picture brighter

Mr. H. I. Moss, manager, Pentticon National Employment Office in a report to The Review, advises that work has been resumed on those winter works projects that have been closed down due to extreme cold weather. Approximately 85 men will be working for the various municipalities. Merchants and businesses generally in the local office area appear very optimistic for the balance of this year.

Current comparative statistics of those registered for employment to March 2 are: men, 1195 and women 847 in 1962; men 1,253 and women 1,055 in 1961. During the month of February, 14 youths, boys and girls, were given vocational training counselling through the NES office, and two were successfully referred to training schools.

Rifle association meets in Kelowna

The B. C. Inland Rifle Association, which is comprised of clubs from Kamloops to Penticton met in Kelowna on Sunday afternoon to formulate plans for the 1962 season. Representatives attended from Vernon, Kelowna, Summerland and Penticton. Unfortunately the Kamloops club was not represented.

Officers for the year are: Honorary Presidents, Officers Commanding of the military units of the area; President, J. Vecqueray, Vernon, returned by acclamation; 1st vice president, P. McCallum, Kelowna; 2nd vice president, D. Craster, Vernon; Secretary-treasurer, E. Roberts, Vernon; an executive of two members from each club will be named at a later date.

the B.C.I.R.A. will be held on the Penticton range on May 20th and the date for the Summerland invitational shoot was set for July 29th.

Local shooters attending the meeting were: Mr. and Mrs. Roy Bertram, J. Kalembach, Len Shannon, J. Sheppard, R. Maddocks and H. Simpson.

In his report, President Vecqueray pointed out that the past year had not been too successful, due to many adverse circumstances. However, it was the feeling of the meeting that many troubles can be overcome this year, and that rifle shooting will again become active in the Interior. He noted that the Summerland club had shown very little activity last year, and was very concerned about it. When Summerland representatives explained the difficulties they were encountering, members of the other clubs said they would give this club all the support possible throughout the season. With such support and the co-operation of its members, the local club can look forward to a much more active year.

The annual two day shoot of

Investiture for Scouts

On Monday, four recruits were invested into the troop, namely, Ted Arkell, Jack Barkwill, Harold Wiens and Jim Haddrell. Next week the other four recruits will be invested. Instruction was carried out in signalling, estimation of distances, second class lashings and first aid.

This is the last week during which badges can be won for presentation at the Parent and Son banquet on March 26. For those boys wishing to complete requirement for the Marksman's Badge, Mr. Stan Krause, Prairie Valley Road will take tests in estimating of distances this Saturday at 9:30 a.m. and an examiner will be present at the meeting next week to ask questions on gun use and gun safety.

Patrol points are Eagles 349, Hawks, 300, Beavers 341, and Buffaloes 383. Duty patrol next week Beavers.

—D. V. Fisher, Scoutmaster.

NOTICE
Province of British Columbia
Department of Highways
Similkameen Electoral District

Notice of Road Restrictions

Pursuant to Section 27 of the Highway Act, the following load restriction is hereby imposed, effective 12:01 a.m., Thursday, March 15th, 1962 until further notice:

No person shall operate any vehicle over any road or highway in the Similkameen Electoral District lying west of Stirling Creek Bridge (approximately 20 miles east of Princeton) having a single axle weight in excess of 75% of 18,000 pounds, or a tandem axle weight in excess of 75% of 32,000 pounds, except

on No. 3 Southern Trans-Provincial Highway which is limited to legal highway loadings.

The LX factor will be disregarded. Vehicles with solid tires are prohibited.

Dated at Penticton, B.C. this 13th day of March, 1962.

Kiwanis Club Notes

Tuesday night was a big one for the Kiwanis. It was the occasion of an inter club meeting with the Vernon Club and held in the Rosedale Room of the Royal Canadian Legion.

Probably owing to the distance and other reasons the Vernon boys arrived half an hour late, but when they did show up, everybody knew it.

They suddenly burst in the door, 20 of them, marching single file and led by the blaring music of their four piece orchestra, and their president, Allan Hassell, who is a dynamo in his own right, all 325 pounds of him.

Fifty members and visitors enjoyed a smorgasbord dinner, served by the Legion Ladies Auxiliary, and fit for Kiwanians and other kings.

Hassell introduced individually the members of the Vernon club, after which president Walter Toeys introduced district Lt. Gov. Doug Campbell, who received a standing ovation. John Tamblin led the singing, choosing some of the classics from the song sheet, and encouraged competition by having Summerland and Vernon take alternate verses.

After dinner, the Vernon orchestra provided several musical selections which were greatly enjoyed.

Guest speaker A. J. Longmore gave a very interesting talk on future education.

— The Recorder.

M. P. Finnerty addresses high school students here

Penticton mayor Maurice Finnerty will address the third student seminar on March 15 in the Summerland Secondary School. His topic will be the European Common Market. Mr. Finnerty recently travelled in Europe for four months, during which time he made a study of the marketing situation.

Last week the senior students heard an address on contemporary art and its place in society. Speaker was Mr. Borsos of the Penticton high school art department.

Curling has taken top news around the school with lots of exciting action in the mixed bonspiel last week end. The Jim Sheeley rink came out on top in the A Event, with Jimmy Jamori taking the B Event and Keith Skinner tops in C Event.

Prize for the biggest end was won by Dick Dunsdon, and the prize for the first rink out of play went to the Russ Bleasdale rink.

On March 24 a band concert featuring the Castlegar and Summerland school band will be held in the high school auditorium. Tickets are on sale

now and the money realized will go toward financing a band trip later in the season.

On April 6 the high school home economics class will show clothing that they have made during the year. This show is under the direction of Mrs. Bouey.

Luxury Liner Had Shady Reputation

Ever wonder how the word "Posh" found its way into our language? "Posh" is another word for luxury, and its origin is an interesting one. The Pacific and Orient Steamship Line between Great Britain and the Orient used to charge a premium for cabins on the shady side of the ship.

Since the shady side was the port, or left-hand side, on the outward voyage, and the starboard, or right-hand side, when home ward bound, the cabins were referred to as Port Outward — Starboard Home, or P—O—S—H.

Words are fascinating creatures. They have so many faces. Take the word "bank", for example. It can mean the ground near a river, an establishment for the custody of money, or, when it's used as a verb, security of feeling, absolute reliability. "You can bank on it," we say.

These last two meanings bear a connection that is far from coincidental. The fact is, a bank represents security and reliability, especially the Bank of Montreal.

And, of course, saving at the Bank of Montreal doesn't only mean your money is safe. It also means that with money in the bank you can often take advantage of unexpected opportunities that might otherwise pass you by.

Ask Simon Kouwenhoven, accountant at the Summerland branch of the B of M about it. He'll show you how easy it is — and how profitable — to open a savings account. See him soon.

Under the Giant's Head

Yesterday was the first day of spring, officially, and the weather immediately turned colder. The research station reports that during the past week there was .0' inches of rain and 30.1 hours of sunshine.

	High	Low
March 14	41	26
March 15	46	31
March 16	49	29
March 17	54	30
March 18	49	32
March 19	52	32
March 20	49	35

The annual meeting of the Okanagan Boundary Social Credit will be held in the Royal Canadian Legion Hall in Penticton on April 2 at 5:00 p.m.

The Social Credit nomination for the forthcoming federal election will be held at this meeting.

At a public meeting in the high school auditorium at 8 p.m. of the same day, guest speakers will be national leader, Robert N. Thompson, and Premier W. A. C. Bennett.

The possibility of renovating and enlarging the ski chalet at the Meadow Valley Hill and putting in a longer cable tow will be discussed at a meeting of the Summerland Ski Club to be held at the home of Don Agur, Crescent Beach, this Saturday, March 24 at 8 p.m.

Over 100 skiers were out at the hill last Sunday for the final skiing of the season. The tow will be taken out this week.

The club is very pleased with the large turnout each week and the enthusiasm shown at the Meadow Valley ski hill.

Tow fees more than covered the cost of the rope purchased at the first of the season, and operating expenses.

Next year's plans include more promotion and publicity work by the executive members and organized classes for beginners.

Two boxes of Red Delicious apples and three Summerland couples will be leaving for Hawaii next week end. Mr. and Mrs. Water B. Powell, Mr. and Mrs. Norman Holmes and Mr. and Mrs. Cec Wade will be making the trip by jet plane.

Mrs. Powell won the tickets when her name was picked in a radio contest and because the winning entry had been filled out at Holmes and Wade Hardware, the managers of the store received free plane tickets.

The apples are going along to publicize Summerland and the Okanagan Valley, and will be given to the mayor of Honolulu. The travellers will take with them attractive Summerland cups and saucers to give away.

They are scheduled to appear on the "Hawaii Calls" program with announcer Bob Edwards. This program is televised in the United States and can be picked up by radio here.

Mr. E. Carter, a member of the Canadian National Film Board, is presently at the research station, filming and writing a script about the experimental work that is carried on at the station. The film will be included in a series about agricultural research in Canada.

The Summerland Review

Thursday, March 22, 1962

West Summerland, B.C.

Volume 17, No. 12

Firemen arrive in fancy dress

The "best dressed" firemen in the history of Summerland! That was the Summerland Fire Brigade when they answered a call to a chimney fire on Giant's Head Road last night.

The reason? Why, the whole brigade was attending the annual firemen's dinner. The siren rang just as they were being served coffee and dessert. Talk about a busman's holiday!

Golf course underway

A nine hole golf course, situated along Highway 97, near the ball park, and overlooking Okanagan Lake, is definitely in the offing.

Mr. Victor Parker, who is building the privately owned course, told the Review that some bulldozing and clearing has already been done on the site. Mr. Parker hopes to have the fairways in shape, ready for planting by next fall.

He hopes to have the nine hole course ready to open in July of 1963. A golf club house is also planned for the site but will probably not be built until the course is finished and in play.

Attractively situated above the Crescent Beach area, the course affords a magnificent view of the Okanagan Lake. The rough land should lend itself to a challenging and interesting golf course.

Meat department changes hands

The Super-Valu meat department, owned by Leo McCrea, for the past six years has been sold. The new owner is Mr. Henry Bromerhausler, formerly of Princeton and now living in Summerland.

Prior to coming to Summerland Mr. McCrea was the manager of the meat department in Penticton Safeway. Mr. McCrea's plans are indefinite for the moment, but he and his family plan to remain in Summerland for the time being.

IN REGINA HOSPITAL

The two Summerland boys, Roger Ezeard and Leonard Roy Derosier, who were injured in a two car collision near Melville, Sask. last week, have been moved to a Regina hospital.

Leonard Derosier's condition is reported as good. He is suffering from a fractured skull, but will probably be released from hospital in two weeks.

Suffering serious head injuries, Roger Ezeard regained consciousness on Tuesday of this week. As well as a skull fracture and concussion, a leg and ankle are broken.

Mrs. Don Derosier and Mr. and Mrs. Daniel Ezeard left Summerland last week to be in Regina with their sons.

Two Melville, Sask., residents were killed in the accident.

Mrs. Barbara J. Killough, daughter of Mr. and Mrs. W. C. Baker, West Summerland, was one of 28 University of British Columbia students who were honoured for outstanding academic achievement during Canadian Education Week recently. Mrs. Killough is shown examining a scroll which was presented to her at a ceremony in International House by Dr. Phyllis G. Ross, CBC, chancellor of UBC. At left is Dr. Joseph Katz, of the faculty of education, chairman of the Education Week committee at UBC. Mrs. Killough and her husband John, are both students in the faculty of education.

Bright, varied costumes presented at Ice Carnival

Over 120 skaters took part in the annual Figure Skating Club carnival in the Summerland arena on Saturday night. Most frequent comment from the capacity audience was on the great strides forward taken by the young skaters.

The senior progress trophy was won by Wendy Toews and the junior progress trophy by Kathy Caldwell. Presentations were made by Miss Dolores Casier, club professional.

The program was officially opened by Reeve Norman Holmes. The various numbers were enthusiastically received by the audience and the many varied costumes showed the hard work done by the committees and skaters committees.

Carnival convener was Mrs. Joe McLachlan, and costume conveners were Mrs. Ross McLachlan and Mrs. Sandy Fenwick. Other committees were properties: Mrs. Ryy Kuroda, Mrs. Frank Kuroda, Stan Porritt and Leo McCrea; scenery: Mrs. Allie Tamblin and the Summerland Art Club; make-up: Mrs. Flora Bergstrom, Mrs. Allie Tamblin and Miss Marion Cartwright; lighting, Gordon Blewett; publicity, Roy Steele and Phillip Munro; tickets, Pat Minchin.

Members of the Glengarry Figure Skating Club of Penticton, and the Kelowna Figure Skating Club participated in the carnival.

Theatre re-opening

The Rialto Theatre in West Summerland will be re-opening on Thursday, March 29. New managers for the theatre are Ben Draper and Bill Linkowski.

The theatre will be open on Thursday, Friday and Saturday nights, with one show at 8:00 p.m. and a Saturday matinee at 2:30 p.m. Mr. Newton told the Review that he hopes to provide top-notch movie entertainment presenting first class shows.

A new sound audio board has been installed and new projection equipment will be installed soon. Mr. Draper said that he hopes to renovate the theatre and enlarge the concession booth.

A new feature will be top hit parade records played before each show. On the opening nights free popcorn will be given out.

The first feature on opening night, Thursday, March 29, is "Oceans 11", starring Frank Sinatra, with an all star cast.

Definite possibility of Fall Fair Fruit

Summerland will have a fall fair this year. That is, if plans arranged last night come to completion. A special committee met last night and announced

that it is making satisfactory progress towards a fall fair.

The committee was appointed at a meeting of interested organization held last Thursday. Seventeen persons were in attendance, more than the turnout at the regular Chamber of Commerce meeting a week previous. After a lengthy discussion it was decided to appoint a steering committee for the fair comprised of Charlie Bernhardt, Alex Watt, W. S. Ritchie, Mrs. Lloyd Shannon and Mrs. D. Smith.

Mr. Bernhardt told the Review that the committee is making progress toward arranging for the fair. "There is a strong feeling in the community that the fair should be continued," said Mr. Bernhardt.

Chief stumbling block is finding a suitable chairman, but the steering committee feels this obstacle can be overcome.

Twin City Macs off to Powell River

Summerland Twin City Macs leave Thursday for Powell River where they will meet the Powell River Regals for the Coy Cup, emblematic of the intermediate hockey championship of the province.

The Twin City Macs defeated the Trail Hotel Intermediates, two games to one, over the week end in Penticton, to advance into the finals.

If the Macs win this series, they will meet the top intermediate hockey team from the prairies in the Okanagan very shortly, providing suitable financial arrangements can be made.

X-ray arrives for hospital

It was announced at the Hospital Board meeting that the new X-ray machine for the hospital will be arriving this week end. The X-ray was purchased from money raised by the Hospital Auxiliary.

Committee chairman appointed at Tuesday night's meeting were: house, John Betuzzi; grounds, F. M. Steuart; personnel, R. Alstead; civil defence, Bill Eyre; public relations, G. C. Johnson; by-laws, D. McGregor; advisory board, Les Rumball, finance, Don Clark; Hospital Auxiliary, Mrs. Rose Fiske; government representative, Don Clark.

A new hospital building and grounds committee was appointed comprised of R. Alstead, H. J. Barkwill, John Betuzzi, and Francis Steuart.

GORDON BEGGS

Was elected president of the Summerland Rotary Club at the annual meeting of the club last Friday. A J. Longmore was elected vice president; S. A. MacDonald secretary; Ryan Lawle treasurer; and directors will be Keith Marten; G. D. Smith and Leonard Weist. Installation officers will take place in July.

The annual Red Cross canvas conducted by the Rotary Club now taking place. Convener Jim Green.

Reporting on the annual conference of District 506 Rotary Clubs to be held in Yakima Washington on April 15, 16 and 17, Francis Steuart said that eight couples have signified they will be attending, and he expects at least eight more couples from Summerland to attend.

Featured speaker will be I. W. Ballentine Henley, national known educator, platform speaker and civic leader, and a member of the General Motors Executive Speakers' Panel. Since 1940 he has been president of the California College of Medicine in Los Angeles, which gained distinction as a growth and dynamic scientific center.

Other speakers for the conference are to be Carl E. B. of Kansas City and Clark Ernst, secretary of the Yakima Rotary Club.

Ask orchardists to be careful

Local RCMP are again asking orchardists to keep their fertilizer under lock and key. Each year at this time they receive reports of fertilizer being stolen. On March 2 a Summerland juvenile appeared in juvenile court charged with theft which involved mail in rural mail boxes. The boy was placed on six months probation.

Ian L. Swanson of Penticton appeared March 5 and was fined \$50 and costs for being intoxicated in a public place.

Kenneth Beck of West Summerland appeared in court on March 17 and was fined \$20 and costs for driving contrary to regulations. The incident occurred on Christmas Eve when Beck ran into the municipal flower planter on Main Street.

Re-opening Thursday, March 29 RIALTO THEATRE

WEST SUMMERLAND

THURSDAY, FRIDAY, SATURDAY, MARCH 29, 30 and 31

"Oceans 11"

Shows start at 8 p.m. with Saturday matinee at 2:30 p.m.

UNDER NEW MANAGEMENT

A. J. (Pete) ESLING

The appointment of A. J. (Pete) Esling as general manager of Canadin Community Newspapers Representatives is announced by George M. Tatham, chairman of the provincial board.

Mr. Esling, born and educated in Winnipeg, brings to his position an extensive background of experience in public relations. He is a former P.R. manager of Goodyear Tire and Rubber Co., and for the past two years has been an independent P.R. Counsel. He is a past president of the Canadian Public Relations Society, Toronto branch, and a former director of the national body.

Mr. Esling is well known for his activities in community work at local and national levels on behalf of such groups as the Association for Retarded Children, Boy Scouts Association, Red Cross, Canadian Conference on Education and the Canadian Highway Safety Conference.

Are you a Secularist?

by Rev. George Leasor

I saw a sign on a fire extinguisher the other day that reminded me of the present day attitude toward God. The sign read, "For emergency only". He's much like our favorite uncle. He's very rich but strict, so we don't bother to contact him or invite him to visit unless we're in need of some ready cash.

This is very contrary, of course, to what God expects of us. In fact he commands, "Thou shalt have no other Gods before me". To break this law just as serious, or perhaps more so if the order in which the commandments were given means anything - as killing, stealing, or committing adultery.

This law was given, as they all were, to make us recognize our sin. We don't deny God or war against Him. We just politely ignore Him. This is hideously sinful. This is Secularism. Being so awakened we should pray, "Oh God, forgive me for ignoring you, for putting you anywhere but first in my life. Forgive me this and all my sins and let me worship only you. Amen."

A practical application of this rather theoretical attitude would be to give God the first hour of each day for prayer and meditation, the first day of each week for worship, the first portion (10%) of your income, the first consideration in every decision, and give God's Son first place in your heart.

Sons entertain fathers at Scouts banquet

Next Monday will be the 16th annual Parent and Son dinner of the 1st Summerland Troop. The first was held on April 25, 1947 in the old Legion Hall with only Scouts in attendance, as Cubs were not then operating.

Patrol leaders at that time were Mel Munro, Jim Newton, Jerry Adams and Dean Rempel with Hugh McLarty as Troop Leader. The program included skits put on by each patrol.

This year's banquet will include Cubs and Scouts and starts at 6:15 p.m. in the Youth Centre. All parents have been notified by mail of details.

Despite mud and sickness, the Troop had an excellent turnout and four recruits: Doug McIntosh, Bill McCuaig, Don Johnson and Bill Haddrell were invested.

Mr. McKenzie was present to give the Scouts invested in the last two weeks their Leaping Wolf Badges, signifying graduation from the Pack to the Troop with 2nd Star standing.

Mr. Towgood instructed on gun handling and safety in con-

nection with the Marksmen's Badge. Mr. Bennest on 1st class first aid and Mr. Wiens on 2nd class first aid. Patrol Leader Mike Lopatecki passed 1st class signalling.

Patrol standings are as follows: Eagles 392, Hawks 340, Beavers 393 and Buffaloes 423. Duty patrol for April 2, Buffaloes - D. V. Fisher, Scoutmaster

New Sec.-Treas. for BCFGA

The appointment of N. J. J. Colin of Oliver to the position of secretary-treasurer of the British Columbia Fruit Growers' Association was announced this week.

Mr. Collin has served in the Royal Air Force and the Kenya Police, filing staff and administrative positions in both of those services.

In 1959 he moved with his several years' experience in fruit growing on the orchard of family to Oliver and there had his uncle, Mr. R. S. Collin.

He will take up his new duties with the British Columbia Fruit Growers' Association, at its head office in Kelowna on April 1st.

WORKING WITH CANADIANS IN EVERY WALK OF LIFE SINCE 1817

Editorials

A new vision

National Health Week is being celebrated this year in Canada for the 13th consecutive year. It is probably the oldest, and certainly the most widely observed annual publicity event in Canada, and the most widely supported Health Week in the world — all of which is to the credit of Canada.

There are those who find no fault with Annual Salad Week or an Annual Neck Tie Week, but criticize Annual Health Week because they say we should consider health as an important objective not only during one week, but every week. True enough. But we don't. Most sick people shouldn't be sick, but they are. Most people who are overweight should be thin. But they're not. Most of the millions of people with defective and decayed teeth should have good teeth. But they haven't. A multitude of different ailments fill hospital beds and cut short the lives of people who should be instead contributing to the national economy because they are healthy.

Surely it is logical that once a year people all over Canada, even in the most remote hamlet, should have the opportunity of learning that health is possible for everyone. And because of all national agencies, church and school, radio, television, the press, and service clubs co-operate, this is possible. It is possible because they all act at once in a concerted effort. During the rest of the year attention to health and its objective is casual and intermittent.

Perhaps thousands of citizens who learn something about health during National Health Week may become apostles of health themselves. So, like a ball of snow as it rolls on its way to become a snowman, the knowledge people gather about health in a single week will grow.

Thus we may come closer to the day when the Canadian public will think of health insurance as the application of the principles of preventative medicine, to the end that they may be healthier and longer lived each year.

Certainly we will not become healthier by ignoring such issues as fluoridation of water for the prevention of dental decay, or pasteurization of milk for the prevention of a variety of milk-borne diseases. Nor indeed will we solve the questions by the building of more hospital beds throughout Canada for the sick as the whole means of prolonging life.

Terrorism in the Kootenays — a Consolidated Mining and Smelting Company guard takes up a lonely vigil at dusk, at one of hundreds of vital points along a 600 mile power transmission network and around the industrial complex. Will Doukhobor terrorists visit his outpost in the night? The increase of Cominco security forces is one of many new protective measures in the hard-hit area. The March 6th bombing of a giant power tower caused industrial shut-downs for two months with resulting heavy unemployment, the latest and most serious of hundreds of Doukhobor depredations through the years.

Report from Parliament Hill

by David Pugh, MP

The Government's expanded program on technical and vocational training assistance required a further amount of 28 million dollars and the House has been in an uproar during the last two days on all aspects of this form of education.

From the New Democratic Party point of view the government is merely acting as a Santa Claus — pouring millions into the coffers of the provincial governments without control or thought of educational needs. Mr. Pitman of that party stated that the government's vocational training assistance program will go down in the annals of education as one of the most fantastic, misdirected programs ever conceived on the North American continent; that it was a wild spending spree; that communities will be stuck with buildings that will be out of date even before they are completed, and that he could not help wondering if the provincial governments are just taking seventy-five cents of every dollar just because they can get it.

Nothing could be farther from the truth. Today, summing up the various questions asked by the opposition, Michael Starr, the Minister of Labour, hammered out a series of irrefutable facts. He gave the basic reasons for the original legislation — that it was for the general benefit of Canada; that it was to provide technical and vocational training for all persons requiring further training or wishing to acquire greater skills

made necessary by the rapid technological changes in the world; that full autonomy was left with the provinces to decide on where the schools would be built and how many; that the provincial governments have full authority as to curriculum; that no school is built unless at the request of the provincial government and that there had been close co-operation with the federal government in this respect. He explained the flexibility under the Act and said there had been constant consultation between labour and management at the local, provincial and federal level and that advisory committees worked in conjunction with the National Employment Service.

This Act has gone over very well and the fact that more money is required proves to the hilt that the provinces are glad of such federal participation. As you know, seventy-five per cent of the capital cost of construction and future expenses in further training is borne by the federal government while fifty per cent is provided in all other categories such as on the secondary school level. Teacher training is an important aspect as in this field many teachers will have to qualify. Here again the federal government puts up fifty per cent of the cost of such training.

The debate is not completed as yet but the subject has been completely aired and I know those of you who read Hansard will see that this is another program which is for the benefit of the people of Canada.

"He failed. He left God out of his plans. He succeeded! He let God into his plans."

Knowledge needed

A subscriber told us last year that he entertained some friends from the United States. They were visiting Canada for the first time and, before leaving their home, had done considerable reading about the place they were going to visit and its historical background. When they arrived they could actually talk more intelligently about it than could their host. When they produced a sizeable list of places they wished to visit, their host was ashamed to admit that he had been to only two.

Brush up on your knowledge of your own country. Our American visitors are apt to ask questions about the places they visit. They like to know what our population is, how many provinces there are in Canada, they have been known to ask the capital cities of our provinces. And you'd be surprised to hear how often well-informed Canadians hesitate between Victoria and Vancouver when asked the capital of British Columbia.

Americans ask questions about our government, about the status of our Governor General; they like to know something about our chief exports; they are curious about the area of Canada as compared with the United States.

So, how about a refresher course on Canada before the yearly invasion of our southern neighbours?

English viewpoint reported by Welsh

(The following letter was received from Dr. Maurice F. Welsh, of the Summerland Research Station, who, with his wife and family, is spending a year at the East Malling Research Station, in Kent, England)

Dear Sir:
When we were leaving Summerland for England you suggested our reporting back to you anything especially interesting that we encountered during our stay. I remembered this the other day when I ran across, in an English library, two old books by J. T. Bealby, "Fruit Ranching in British Columbia" and "How to Make an Orchard in British Columbia." They were published in 1911 and 1912 in England, for the benefit of Englishmen planning to emigrate to the new fruit growing districts of the province.

I am sure that these books must be on the shelves of a number of homes in the B.C. Interior, but they are too seldom quoted, and of course were especially intriguing when encountered unexpectedly in an English library. Here are a few interesting excerpts from these 50 year old books:

"The actual experience of many fruit growers is a temptation for every man who desires to make money pleasantly, to set up in the business. In the Okanagan there are instances of \$500 to \$600 gross profit per acre. At Peachland one acre and a half gave a return of \$700 (\$140) in peaches. Apples and pears produce from 8 to 15 tons of fruit per acre, and average return is \$26 to \$30."

"It may be broadly stated that, with a capital of \$2,000 to \$2,500, 20 acres of good land can be cleared and planted, and that this amount of land should afford a good and sufficient income to live well upon"

Mr. Bealby toured the various districts, with these comments: "The first locality at which we stopped was Kelowna, a bright little town with an air of English neatness and prosperity.

the well-built houses standing back in large gardens, and the streets being wide. Penticton is situated between the southern end of Okanagan Lake and Dog Lake. With the completion of (Continued on next page)

Comings and Goings

Visiting at the home of Mr. and Mrs. Harvey McKee is their daughter in law, Mrs. W. G. McKee, with Ronnie and Shelly, enroute from Calgary to meet Mr. McKee in Vancouver, where they will take up residence.

Mrs. L. W. Rumball has returned home from a holiday in California.

Mr. and Mrs. Dave Nesbitt of Kamloops visited with her mother, Mrs. T. A. Waldon over the week end.

Maynard J. Embree, son of Mr. J. J. Embree of Trout Creek, has recently been appointed manager of Canadian Pacific Transport in Kelowna. Mr. Embree has been sales representative and manager for the trucking firm at Port Alberni.

Mr and Mrs. Ed Crump of Sicamous were recent visitors with Mr. and Mrs. Frank Nicholls.

Mr. P. F. Fillipoff is leaving Monday for three days in Vancouver

Mr. and Mrs. Frank Pearce of North Vancouver, and Mr. and Mrs. Frank Braidwood of Vancouver were visitors over the week end at the home of the ladies sister, Mrs. A. Inch.

Twelve members of the Summerland Free Methodist Church will travel to Omak, Washington Friday and Saturday of this week to attend a missionary meeting. Rev. and Mrs. G. E. Leasor will accompany them

Mr. and Mrs. O. I. Johnson and Garry and Linda of Trail spent the week end with Mrs. Johnson's parents, Mr. and Mrs. G. Harper of Trout Creek.

Mrs. W. A. Thom of Vernon was a recent visitor with her niece, Mrs. John Kitson and family.

Dr. and Mrs. H. R. McLarty have has a guest, Mr. Charles Fox of Manchester, England.

Mr. R. D. White of Trout Creek accompanied the BA Dealers basketball team to Trail over the week end.

GREEN'S DRUGS

An English viewpoint

(Continued from previous page)

railways now in course of construction affording a shorter direct route to the Pacific Coast from the Prairie Provinces, Penticton, at the southern gateway of the Okanagan Valley, is predestined to become a place of considerable importance."

"Summerland, some ninety (!) miles south of Kelowna on the west side of the lake, was in many respects an ideal place. There was not a single drinking saloon or store which could provide strong drink through the whole of the community. The ranchers had a most convincing air of prosperity, and were

very hospitable. We were shown 3 or 4 of the ranches belonging to the most successful of these men, whose fruit has won medals at the Royal Horticultural Society's Colonial Exhibitions in London, two years in succession.

"At Summerland we enter the country in which staple fruit crops are the peach and the tomato, as well as the apple. Here unimproved fruitland with irrigation water delivered can be bought in 5-10 acre lots at \$100 to \$200 per acre. Improved land planted with suitable apples, peaches, pears, apricots and grapes sells for \$250 to as much as \$1,000 per acre. Irrigation charges amount to \$2 to \$5 per acre per annum.

The varieties of fruit, particularly grown at Summerland are: Apples Gravenstein, Jonathan, Wagner, Spitzenberg, McIntosh Red, Yellow Newtown, Northern Spy and King; Pears Bartlett, Beurre d'Anjou and Duchesse d'Anjou-leme; Peaches: Alexander, Greensboro, Triumph, Yellow St. John, Early Crawford and Elberta; Apricots: Blenheim and Moor Park; Cherries: Bing, Black Tartarian, Royal Ann, Lambert and English Morello. Messrs. Gartrell and J. R. Brown of Summerland have been winning prize medals at the Exhibitions of Colonial Fruit organized by the Royal Horticultural Society in Great Britain.

The average net returns from good apple orchards in Summerland, when intelligently managed, range from \$200 to \$400 per acre. From an orchard of 40 acres, fruit has been gathered to the value of \$18,000 in a single season. From 110 peach trees Mr. J. R. Brown sold, in 1906, \$800 worth of fruit, or at a rate of \$1,200 per acre."

Describing Canadian life and manners, he notes: "The Canadian housewife not only makes

her own bread; she stocks her larder with all sorts of preserved fruit. She also revels in jellies, chutneys, tomato sauce, picallilies and so forth. Jams she has no use for. In the mysteries of "sweet corn" (maize ears boiled), maple syrup, squash pie, pumpkin pie and so on, my courage will not avail to conduct me. These must be eaten to be appreciated."

The housewife may have worked hard, but her fruit rancher husband enjoyed some blessings: "As yet the orchards of B.C. are commendably free from the worst and most dangerous enemies of the insect world. Certain fungoid diseases and certain diseases which appear to owe their origin to peculiar conditions of weather in the spring are the principal enemies that the B.C. orchardist has to fight against." And again: "We are exceedingly fortunate (in the Kootenays) in the absence of insect pests. It is true that we spray our trees, but simply as a preventive. We claim to be absolutely free from any of the pests which cause much trouble and expense to fruit growers in other parts of the continent."

The assortment of spray materials has changed: "The most efficacious agent employed against insects is a mixture of lime, sulphur and salt, applied hot, in the spring before the leaf buds begin to open. For preventing or curing fungoid diseases, the remedy usually is Bordeaux mixture (lime and bluestone). For fighting insects when the trees are in leaf the agents include whale oil soap, quassia chips, kerosene, arsenate of lead, and Paris green (arsenic) besides other remedies."

Government financing has obviously changed even more than have spray practices: "The Government of B.C. is in the happy and probably unique position of having an annually increasing surplus of revenue over expenditure. This enables it to be generous to various young industries. Amongst others that it benefits substantially by direct money grants is the fruit industry." Apparently in those days "pay as you go government and aid to agriculture" were more than slogans.

Reading these books while we are living in England we can visualize quite vividly the expectations that must have accompanied many people to the Okanagan 50 years ago. The appeal would have been especially strong in a year like this one, when English weather has been as wintery as anything described for the B.C. Interior in Mr. Bealby's books.

— Maurice F. Welsh.

(Dr. Welsh will be returning to Summerland from England in June.)

Record year recorded at annual curling meeting

On Monday evening the Summerland Curling Club held its annual meeting at the rink with President Harry Hackman in the chair. There were 38 present.

Back in 1953 a money loan for \$8000 was found necessary in order to finance the installation of artificial ice and to build the clubroom. This has now all been repaid. So the chair called upon Walter Toevs and Charlie Bleasdale, president and secretary at the time, who were given the pleasure of setting a match to the mortgage paper.

For the mixed bonspiel just concluded, winners were given their own individual choices from the prize table. This procedure proved so popular that it will be tried next year at the annual bonspiel.

Lockie McKilligan described to the meeting the Point system of scoring being tried on the

prairies. A point is given for each end won, regardless of the score, and two points for a win. The object is to prevent one or two big ends from spoiling a game. He suggested we try the system next season in the C-group squares.

There are plans to make certain changes and improvements to the clubroom, but the meeting favoured postponement until such time as the arena roof has been rendered leakproof.

President Hackman told of all the effort expended so willingly by Hilda Eden to the benefit of the club, and for this she had been given a gift of some luggage. It is understood the Senior Men Curlers also showed her their appreciation.

A new innovation this year, individual trophies were set up for winners of the regular draw

with the object of maintaining interest through to the end of the curling season. This seemed to prove successful. At the meeting the chairman had the pleasure of handing these out to the players of the Hackman rink in A, the Croft rink in B, and the McCutcheon rink in C-group.

In the election of officers, Harry Hackman was retained for a third year as president; Walter Toevs was elected vice president; Bud Steuart as secretary, with the treasurer to be appointed by the executive.

Directors elected for three year terms were Jerry Hallquist and Bernie Hubbard.

The other directors are Howard Pruden and Allan Cross with still one year to go, and Joe Elliott and Stan Porritt with two years.

Teen-Town Topics
Summerland Teen Town got off to a food start Saturday night, March 17, with its new Mayor, Norman Smith. Elections within the council are as follows: Norman Smith, Mayor; George Burnell, deputy mayor; Dorothy Arase, secretary; Rosemary Day, treasurer; Joanne Campbell, advertising manager; Sharon Geres, reporter.
It was moved that a biography and picture be done on our Teen Town Sweetheart, Donna Laidlaw.
I'd like to thank Mr. and Mrs. Gerald Laidlaw for chaperoning our dance on Saturday.
Those parents who wish to chaperone a Teen Town dance at least once a year, please phone Mrs. Stankowy or Bud Green.

Kiwanis Club Notes

Thirty-two Kiwanians Tuesday night sat down to a delicious turkey dinner, served by Mac's Cafe. It was rumoured that Ken Heales deliberately placed himself at the head table, hoping this prominence might accord him the song leader's job. His initiative paid off, and he received the job and handled it masterfully.

By a strange coincidence, both Clare Elsey and Wally Harrison celebrated their 39th birthdays, together, thereby swelling the club's finances by \$1.00 each.

At the close of the meeting, all committees went into a huddle to discuss many things, including new projects. More about these will be disclosed later.

At the close of the meeting the club was entertained by an address from a member of the superior sex, something that happens much too seldom.

The speaker was Mrs. Kay Norstrom of Summerland. She was introduced by Bob Alstead, who claimed this honor was given to him because he was the handsomest man in the room, a statement which was violently, and reasonably, though mentally disputed by every member present.

Mrs. Norstrom took the club along with her on some of her exploratory travels through B.C., graphically and humorously picturing roads, scenery and general conditions. Her talk was greatly enjoyed and it is hoped she will be back again sometime to tell us more.

— The Recorder

Services for Summerland residents

Mrs. Mary Ann Dickinson

A resident here for the past 51 years, Mrs. Mary Ann Dickinson, 80, died in Summerland General Hospital on Thursday, March 15.

Mrs. Dickinson was born in Bolton, Lancs., England in 1881.

She is survived by one sister, Alice (Mrs. Thomas Smith) of Bolton, England; two daughters (Isabel) Mrs. L. A. Smith; and (Alice) Mrs. Ellwood Gillespie, both of Summerland; three sons, Frank and Norman of Summerland; and Albert of Revelstoke; 19 grandchildren and five great grandchildren.

Funeral services were conducted from the Summerland United Church on Saturday, March 17, Rev. P. K. Louie officiating. Interment in the family plot in Peach Orchard Cemetery. Six grandsons acted as pallbearers.

Thomas Patrick Scully

Mr. Thomas Patrick Scully passed away in Summerland General Hospital on Sunday, March 18, at the age of 84 years.

He is survived by his wife; four sons, John Thomas, North Vancouver; Ray Joseph, Prince George; Theodore James, Dorreen, B.C.; Patrick Meredith, Alexa Lake, B.C.; one daughter, Mrs. O. A. (Margaret) Hansen, Dorreen, B.C. eleven grandchildren and three great grandchildren.

Requiem Mass will be sung in the Church of the Holy Child, West Summerland, Thursday, March 22 at 10 a.m. with Father M. J. Guinan celebrant. Interment Peach Orchard Cemetery.

Students will appear on TV

The Summerland Secondary School will go back on the "Reach for the Top" television program with a new team, consisting of Phillip Holman, Janet Storey, Eleanor Martin and Anthea Morgan. Questions submitted to the panelists will be of a general nature and the format will be similar to the program earlier this year. Spares for the team are Carol Fiske and Mickey Jamori.

Also for television, the Summerland Secondary School is now choosing a script to use when the school appears on the program "See How They Learn" which will be televised on April 5.

Both the primary and secondary schools have been hit with the 'flu bug. Absenteeism at the secondary school is about 13 per cent, normally about 3 to 4 per cent are absent. Unless the outbreak becomes much more serious, school officials do not intend to close the school.

This Saturday a band concert will be presented in the high school auditorium, featuring Castlegar and Summerland high school bands. Band members are selling tickets and hope for a good turnout at the concert. Money raised by the ticket sales will be used to sponsor a band trip to the coast later this year.

On Friday, students will take part in an interhouse indoor

track meet. Points won by individual contestants add credits to the Houses for the Interhouse awards.

RE-ELECT GEORGE STOLL

George Stoll was re-elected president of the Summerland Rod and Gun Club at its annual meeting Monday night. Vice-president is H. Richardson, with Herb Simpson secretary treasurer.

Elected to the executive were J. Fenwick, A. Kohlhauser, H. Felker, H. Meierhofer, Harry Howard, John Dunn, L. Burnell, Bill Eyre, F. Smith, E. Trackl, Carl Radomske, A. Dewitt.

Resolutions were prepared for the annual meeting of B.C. Fish and Game Clubs to be held in Osoyoos April 7 and 8. Delegates are George Stoll and H. Richardson.

Next meeting of the club will be April 16 at the trap range.

ANNOUNCING . . .
We wish to announce that we are discontinuing the sale of all grocery and meat items at the Groceteria, effective March 31st.

However, we are not going out of business, but will continue to supply the residents of Summerland with a more complete selection of all farm and garden supplies.

May we take this opportunity to thank you for your valued support over the past years, and may we have the pleasure of serving you in the future.

Yours sincerely,

The Summerland Groceteria

The Summerland Review

Thursday, March 29, 1962

West Summerland, B.C.

Volume 17, No. 13

Under the Giant's Head

After spending 35 years with the Canadian National Railway, 23 of them as agent in Summerland, Mr. Bill Gillard retired March 26.

Although known chiefly for his work with the railway, Mr. Gillard is well known in local sporting circles and has recently been helping with the organizational work in the Twin City Mads.

He expects to leave for Europe at the end of April for an extended holiday.

Simon Kouwenhoven, Bank of Montreal accountant, has been transferred to the Burnaby main office of the B of M. The transfer will be effective as soon as manager G. C. Johnston is well enough to resume his duties. Simon has been here for 18 months. He is an active member of the Kiwanis Club.

Latest word on the condition of Roger Ezeard, the Summerland boy who was seriously injured in a car accident in Saskatchewan two weeks ago is that he is showing slight improvement. According to a letter from his mother, who travelled to Regina to be with the injured boy, the doctors say that he is showing some improvement.

The Summerland Rotary Club is sponsoring a fund to assist the injured boys. Donations may be left with the secretary, S. A. MacDonald.

An interesting and informative demonstration of cooking and baking techniques will be held in the Super-Valu on Saturday from 10 a.m. to 6 p.m. Mr. Gordon Rankins of Penticton, a sales representative with Inland Natural Gas Co. will demonstrate the various uses of prepared food mixes, meat preparation and will show how to make popcorn on a gas range. The popcorn, of course, will be for the younger visitors with coffee and cake for the older set.

Dr. J. E. Miltimore and Dr. J. L. Mason of the Research Station spoke at the Rock Creek and Boundary Beef Cattle Association meeting in Rock Creek Tuesday and to the South Okanagan Beef Cattle Association at Okanagan Falls on Wednesday. Dr. Miltimore spoke on bloat and Dr. Mason's topic was range fertilization.

Super Valu meat department has a new owner, Henry Brummelhuus, formerly of Princeton and Kelowna. A native of Holland, he came to Canada in 1952 and has spent most of the time since in B.C. He is married, with two children, and is living on Gulch Road. The former owner, Leo McCrea had operated the meat department for the past six years.

Car dirty? Have it cleaned inside and out by the secondary school grad class this Saturday from 9 a.m. to 5 p.m. at the high school.

Research techniques at the new \$640,000 Cancer Research Centre at the University of British Columbia are explained to Mrs. J. E. O'Mahony of West Summerland, by Dr. John F. McCreary, Dean of the UBC Faculty of Medicine. Mrs. O'Mahony

was one of the 150 delegates from all over British Columbia and the Yukon to attend the annual conference of the Canadian Cancer Society in Vancouver. The new Research Centre was officially opened during the conference.

It must be spring - baseball is starting

The Babe Ruth Baseball Association will hold its annual meeting in the Nu-way Annex Monday, April 2 at 8 p.m.

Reports of last season's activities will be given and election of officers held.

All parents with boys born between September 1, 1946 and September 1, 1949 are urged to attend this meeting.

A decision will be made on whether to affiliate with the Babe Ruth Association to hold playoffs with other towns.

The South Okanagan Junior Baseball League held its annual meeting in Kamloops on March 25. Representatives were present from Merritt, Kamloops, Vernon, Kelowna, Summerland, Penticton, Naramata and Keremeos.

Elected president was Harley Shockey, Vernon; vice president is Joe Sheeley of Summerland.

SPRING WEATHER

Spring has come, we hope, although the research station reports only 24.5 hours of sunshine last week with 19 inches of rain.

	High	Low
March 21	43	27
March 22	43	32
March 23	49	29
March 24	50	32
March 25	54	33
March 26	54	37
March 27	49	34

with Percy Main of Vernon as secretary-treasurer.

League play will start April 15 with Kelowna at Summerland, Vernon at Kamloops, Penticton at Naramata and Keremeos at Merritt.

The Summerland Red Sox team will hold its first practice on Sunday, April 1 at 1:00 p.m. All boys between 16 and 21 wishing to try out for the team are asked to be at the ball park at that time.

Pollution board to visit here

On Monday, April 2nd, the Pollution Control Board for British Columbia will visit the South Okanagan health unit area in order to see at first-hand the pollution problems concerning the Okanagan area. Chairman of the board is J. E. Brown, deputy minister of municipal affairs.

On Monday, April 2 at 8 p.m., the Pollution Control Board will conduct a public hearing at the Penticton Health Centre. Briefs from municipalities or other organizations will be presented to the Board.

On Tuesday, the Board will visit the old cannery plant in lower Summerland and in the evening a second hearing will be conducted in the Kelowna Community Health Centre.

Trout Creek wants more services for tax dollars

At the regular Tuesday night municipal council meeting, a delegation from the Trout Creek Community Association, consisting of executive members, Gordon Noel and Frank R. Haar presented a brief on behalf of the association.

Highlights of the brief, presented by Mr. Haar, were: "1. The matter of mosquito control has been the subject of correspondence exchanged between council and the Trout Creek Community Association, and appears to be a matter requiring the earliest attention. There appears to be a difference of opinion as to where the cost of mosquito control should fall. We wish to point out that it is the feeling of the residents of Trout Creek Area that this is properly a matter which the municipality as a whole should bear the full costs of." (Following the presentation of the brief, council discussed the mosquito control, and moved that the municipality pay the cost of the Trout Creek program).

"2. This committee has been further directed to express to council the feeling of dissatisfaction in the handling of matters pertaining to the Trout Creek Water System, and the manner in which residents of the area were required to canvass each other to make contributions for the cost of hydrants which would not otherwise become part of the water system. Originally the residents were advised that the total cost of a hydrant, if put in while the system was being laid, would be \$40, whereas in the final analysis the cost of each hydrant was placed at \$55. It is felt that the method of financing the hydrants is obviously most inequitable and unfair.

"Particular reference should

be made to the placing of a fire hydrant in the vicinity of the Trout Creek School. We have been given to understand that neither the school board nor the municipality feel any responsibility toward the financing of a hydrant at this point." (Mr. Haar qualified this statement by saying he understood a fire hydrant would be placed on the school grounds to service only the school.)

"We have been further directed to advise council of the concern expressed by the residents of Trout Creek as to whether or not the entire water project for the area is being done as economically and efficiently as possible, considering the fact that there was no competitive contract bidding called for, save and except some small portion of the entire job. We have been instructed to ask if council can give an assurance that a final figure as to the entire cost will be made public on completion of the job, and that if the cost is below the amount authorized by the by-law, then some indication regarding how the surplus will be spent.

"This committee has further been directed to state to council the feeling expressed at a general meeting of the residents of Trout Creek area that a protest be registered at the extremely low level of municipal services provided for the Trout Creek area, and which services appear disproportionate to the tax dollar realized from this area. (Mention was made of police protection, fire protection, domestic water, sewers, sidewalks, paved roads and curbs and street lighting.

In a discussion afterwards on the brief, particularly the section regarding the low level of municipal services, Councillor

W. B. Powell said that Trout Creek is always crying about receiving nothing for their taxes, but to his mind they have as much as any other outlying area. Mr. Powell went on to say that if Trout Creek is to have an organization, it would be wise to invite a councillor to the meetings to clarify any points that might arise.

Councillor Eric Tait, in addressing the delegation, said that if they hadn't called their annual meeting on a regular council night, he as a Trout Creek resident would have been present and could have cleared up some points.

Councillor Barkwill stated that in regards to the roads, that since he had been road chairman, no Trout Creek resident had ever approached him to register a complaint.

Reeve Norman Holmes told the delegation the brief would be given thorough consideration and a letter answering it point by point would be sent to the Association.

RENEE MORISSET
VICTOR BOUCHARD

quo-vitans will appear in Summerland under the auspices of the Overture Concert Association. Their program will be presented in the high school auditorium on Thursday, April 5 at 8:15 p.m.

The husband and wife team are both graduates of the Provincial Conservatory in their native city of Quebec. They completed their piano studies in Paris. As duo-pianists they gave several recitals in Paris, notably at the Canada House and for the RTE. Before their marriage in 1950 Renee Morisset had already performed two piano music with John Newmark in Montreal while Victor Bouchard completed his law course at Laval University before seriously taking up music as a career.

Tickets for the new overture concert series will be available Thursday evening. Price for the tickets is the same as last year, but this season, members reports given of the many activities of the club during the past year.

The ladies are requested to attend this meeting, as the formation of a women's group will be discussed.

home to meet expenses.

Council appointed municipal clerk G. D. Smith as vital statistics registrar to replace Lorne Perry, who recently resigned.

Yacht Club meets Monday

The annual meeting of the Summerland Yacht Club will be held on Monday, April 2nd. The meeting will be held in the Yacht Clubhouse starting at 7:30 p.m.

Election of officers for the coming season will be held, and reports given of the many activities of the club during the past year.

The ladies are requested to attend this meeting, as the formation of a women's group will be discussed. Coffee will be served.

Council briefs

Another Trout Creek delegation consisting of Gordon Dinning, Stan Porritt and A. W. Roseborough, who acted as spokesman waited on council, representing the Trout Creek Tennis Association.

Mr. Roseborough asked council to consider paying off the indebtedness of the court, amounting to \$220 and take over the court. He told council that it was the hope of the club that if the municipality took over the court, it would be made into an open public court with no admission charge.

Reeve Holmes said council would reach a decision on the matter after the Peach Orchard tennis court problem was solved.

It was moved by council that the monthly rent for Parkdale Place be changed from \$75 to \$85. Reeve Holmes explained that the increase was necessary

Convener is Mrs. J. B. Lohbart.

A Tartan Kite with a yarn tail, was a fanciful patching technique demonstrated in New York recently to show the advantages and versatility of a zigzag sewing machine.

Talk on landscaping presented to gardeners

The Summerland Horticultural Society held its regular meeting Tuesday evening in the Parish Hall with Dr. D. McIntosh, the president in the chair.

This was the best attended meeting for many months and it was noted that several newcomers to the community were present and a better attendance on the part of the regular membership.

Mr. Gordon Dinning who has been canvassing for new members, reported encouraging results.

Mr. Nat May, besides giving his usual Timely Topics, had many questions to answer from the question box.

Mr. E. H. Bennett, reported on the central executive annual meeting of the Okanagan Valley Horticultural Societies which takes in Societies from Kamloops to Oliver. The last meeting was held last November at Kelowna and proved very interesting and worthwhile. The next meeting will be held in April.

Mr. F. Morton, district horticulturist from Kelowna, gave the first of three talks on landscaping for homes.

The Society has several projects under consideration for improving our district, it was reported.

TV needs control PTA panel decides

At the March meeting of the Trout Creek PTA, a panel discussed pros and cons of television in the home and its effect on children. Four parents, Mrs. W. Davies, Mrs. J. E. Miltimore, Syd Hodge and Dr. J. M. McArthur were the panellists and George Ryman was moderator. Consensus was that TV is a good influence if controlled.

The PTA sponsors the Scout Movement at Trout Creek and the directors are G. Noel, G. Rasmussen, Ms. V. Parker, Dr. P. Peilou and Wm. Wagner.

Dr. J. M. McArthur, leader of the Cub Pack, outlined the work of the Cubs and stressed the urgent need for assistant

leaders to help with this worthwhile work. Any parent willing to help with Cub work, please contact Mr. Gordon Noel.

R. L. McNabb, head teacher at Trout Creek, reminded parents to register children now for Grade One in September.

In the absence of Dr. D. McIntosh, the president, Mrs. P. Roberge, vice president, was in the chair.

IT'S A FACT!

A taxpayer is one who does not have to pass a civil service exam in order to work for the government.

Teen Town Topics

The dance on Saturday, March 24 was a great success. Proceeds from this dance and the coming dance will go to Lars Polson to help with the expenses of his trip and operation.

Many teeners from the Senior Teen Town Council will be attending the spring conference in Salmon Arm. We hope this conference will be as successful as the previous conferences. The teeners will be leaving Saturday, March 31st in the afternoon to be billeted the full week end, returning Sunday evening.

I would like to say thank you to Mrs. W. Mortimer and Mr. Mrs. John Coates for chairing our dance Saturday.

UNDER NEW MANAGEMENT

Editorials

Charity begins at home

According to statistics presented at the annual meeting of the Penticton Hospital Society, a total of 234, or 6 per cent of the total Penticton General Hospital patient load came from Summerland.

No doubt a number of these patients were being attended by one of the specialists who practice in Penticton, but the remaining patients who make up the six percent, and we suggest the portion is fairly large, are going to Penticton for general care.

An editorial in the Penticton Herald last week, suggested that all the outlying communities using the facilities of Penticton Hospital, and this included Summerland, should follow the example of Okanagan Falls and make a donation to the hospital. The Okanagan Falls Chamber of Commerce recently donated an air conditioner to the Penticton hospital.

We feel this to be a very commendable gesture on the part of the Okanagan Falls Chamber, but we certainly do not think the Summerland Chamber of Commerce (or any Summerland organization) should make a similar contribution, simply because Summerland has its own general hospital, built and maintained for the use of Summerland citizens.

Rather, we would say that if any organization wishes to make a donation to a hospital, they should consider our own local hospital. Already some groups are setting aside money to furnish rooms in Summerland's proposed new hospital.

But getting back to the large number of people who are attending Penticton Hospital instead of using their own community's facilities. What a difference an additional 200 patients would mean to the Summerland hospital. Instead of just breaking even each year, the hospital possibly could show a profit.

Do we, as individuals, have a stake in our local hospital? Yes, definitely so. And although freedom of choice is the right of every person, we feel that in their choice of hospitals, Summerland residents should patronize their own community.

Is it too late to stop?

With the possibility of a federal election becoming stronger every day, the various political parties are once again vying with each other to see which can promise the most in the way of hand-outs which are politely called social security benefits.

We feel they are going in the wrong direction. Since the inception of the baby bonus, the country has become more and more a virtual welfare state.

Through legislation the government has made it possible for a person to contribute less than a dollar a week for less than a year. When this point has been reached, a number find that it is impossible to continue working and get laid off for various reasons. They are then eligible for Unemployment Insurance for a year. Many of them draw for almost that time before finding suitable employment.

For men with families, this is not enough to keep up payments on the car, payments on the house, to clothe and feed the children — so here the welfare comes in. The children can't be made to suffer so poor John Taxpayer is taken for another gift, and the man out of work gets another handout.

We know there are a number of deserving welfare cases, and many people married and single who want to work who are out of work. We know there is a great need for Old Age Pensions and Disability Pensions. We know there is a growing number of people on relief who are not in the "gimme" class, but we feel sure there are a number not so much in need.

We know it is generally thought that for a political party to take a firm stand and declare all unnecessary welfare payments would cease is generally thought to be political suicide, but we wonder.

The number supported by welfare is growing at an alarming rate and as the number increases the number who pay the shot is decreased in proportion. While the workers and the doers are still in the majority it might be a good idea for someone to investigate what support would be forthcoming if welfare strings were tightened on all those families where there was an able bodied man as the nominal head of the house.

If unemployment insurance benefits were to be cut to not more than three months — if seasonal workers had to prove no other means of support before they could collect — the possibilities for reform are endless.

— The Echo, Athabasca, Alberta.

Representing Okanagan agents on the provincial council of the 500 member Insurance Agents Association of B.C. are Tom H. Osborne of Penticton and Robert D. Knox of Kelowna. Here they examine working model of ancient steam "pumper" on display at recent IAABC convention at Vancouver.

The sheltering flood

by Rev. D. M. Rathjen

The importance of the atoning blood for salvation and shelter from Divine judgement is clearly seen throughout the Scriptures. It must always be one of the central truths of the Gospel preaching.

Here is a short message by the great preacher, Charles Spurgeon on the text, "When I see the blood I will pass over you" Ex. 12:13.

"God's people are safe. But God's people are safe only through the blood; because he sees the blood-mark on their brow. They are bought with the precious blood of Christ. Nothing can hurt them, because "the blood" is upon them. It was so that night in Egypt. God spared, because he saw the blood-mark on the lintel and on the two side-posts.

And so it is with us. In the case of the Israelites, it was blood of the Paschal Lamb. In our case, it is the blood of the Lamb of God, the blood of a divinely appointed victim. Jesus Christ did not come into this world unappointed. He was sent by his Father.

Let the blood be applied to the lintel and the door posts, there is no destruction. There is a destroying angel for Egypt, but there is none for God's blood-bought people. There is a hell for the wicked, but none for the righteous. Christ saves completely; every sin washed, every blessing insured.

I have dwelt upon the efficacy of His blood; but no tongue can ever speak of its worth. I pray that God the Spirit may lead you to your trust simply, wholly, and entirely on the blood of Jesus Christ.

Seeking to find causes of flavoring

There's a difference between the flavor of apple juice and that of the cider made from it, but research hasn't so far uncovered the source of this difference.

And it's not for want of trying. So far, 17 flavor components of cider have been identified and isolated at the Canada Department of Agriculture's research station at Summerland.

Reports Summerland's Dr. J. S. Matthews: Many of the chemical reactions responsible for flavor are not known and a knowledge of them could be important to the beverage and food industries.

For instance, wines have been studied from this aspect and microbiologists consider that particular strains of yeasts are responsible for the distinctive flavor of some wines.

At Summerland, research is aimed at untangling the part that yeasts have in producing the cider flavor. Yeast cells con-

vert the sugars in the juice to alcohol but numerous other reactions are involved in converting the flavor components of the juice to cider flavors. How minute these components are can be gauged from Dr. Matthews' statement that the yield of one flavor component in 200 gallons of cider was less than one eighth of a drop.

PLANTING SEEDLINGS

Some 1,350,000 Douglas fir seedlings will be planted by the B.C. Forest Service crews this spring in the Campbell River, Cowichan Lake and Harrison Lake areas. Work has already over lands on the Island. A similar program will be undertaken in April in parts of the Prince George, Prince Rupert, Kamloops and Nelson Forest Districts.

WOMEN'S PAGE

Comings and Goings

Dr and Mrs. W. P. Stevens and family of Corvallis, Oregon, are visiting with Mr. and Mrs. S. Procuonoff.

Mr. O. Morphy returned on Friday from a month's visit to Vancouver.

Mr. and Mrs. F. W. Holley have returned to Elko, B.C. after visiting with Mrs. C. B. Snow.

Mr. and Mrs. Gordon Morphy and family of Rudland were recent visitors with Mr. Morphy's brother, Mr. and Mrs. O. Morphy.

Mr. and Mrs. J. Niblock of Trout Creek accompanied their son, Constable John Niblock of Prince George, on a trip from Prince George to Edmonton, down to Red Deer and back to Summerland.

Mr. and Mrs. Win Dent and baby son of Squamish are visiting his parents, Mr. and Mrs. Gerald Dent of Trout Creek.

Mr. and Mrs. T. H. Joy are on a trip to New York and various eastern states.

Miss Harriet Joy is visiting relatives in Vancouver and Prince George.

Mrs. R. C. Palmer and Miss Corinne Matheson of Kelowna attended the funeral of the late Miss Marion Cartwright on Monday.

Mrs. W. R. Powell and Mrs. Florence Stark have arrived home from a holiday spent in Newport Beach, California.

Mr. and Mrs. A. K. Macleod of Trail attended the funeral of the late Miss Marion Cartwright on Monday. They were guests at the home of H. C. Whitaker.

Mr. and Mrs. J. E. O'Mahoney have returned from Vancouver where they attended the opening of the Cancer Research Centre at UBC.

Mr. and Mrs. Robert Dodds, formerly of Faulkner, Man, have arrived to make their home in Summerland. Mrs. Dodds is a sister of Mrs. A. K. Elliott.

Miss Marion Cartwright dies here suddenly

Miss Marion Cartwright, 73, Summerland's Good Citizen of 1961, died suddenly at her home last Thursday, of a heart attack.

Born in Ottawa, she was the daughter of the late Lt. Col. Robert Cartwright, CMG, and Mrs. Cartwright, who settled in Summerland over 50 years ago.

She was a member of the board of stewards of St. Stephen's Anglican Church.

Among her many community activities was work with the Red Cross, in the workroom and the blood donor clinic. She was a member of the Singers' and Players' Club. She was also secretary of the Women's Institute at the time when they organized the first fruit marketing in Summerland.

She is survived by one sister, Mrs. Vida Zimmerman of Berkeley, California; three nieces in California and one niece in Liberia and other relatives in Vancouver and Ontario.

Funeral services were conducted from St. Stephen's Anglican Church Monday. Pall-

bearers were T. M. Croil, C. E. Emery, Dr. W. G. Evans, W. H. Evans, John Bennest, and Dennis Kean.

Attending the funeral from out of town were two nieces: Mrs. Wm. Wingate, Eureka, California, and Mrs. Ray Keefer, Davis, California; and cousins, Mr. and Mrs. Charles Alexander, North Vancouver.

AFRICAN VIOLET SOCIETY

The Summerland African Violet Society held its annual monthly meeting at the home of Mrs. J. H. Brown, with president Miss D. Britton presiding.

Further plans were discussed regarding the May 5 violet show and members were given pointers on how to groom plants for showing.

Colored slides of England, Scotland and Eastern Canada were shown by Mrs. N. Z. Spears of Penticton.

A lovely birthday cake was served during refreshments in honor of Miss Barbara Braun.

The April meeting will be held at the home of Mrs. A. J. Lazenby.

Sincerest thanks to Dr. Munn, nurses and staff of the hospital, also to all kind friends who wished me well in my recent illness in the Summerland hospital. Mrs. D. Rathjen.

Paintings featured at library

Two one-week shows of Okanagan artists is being featured by the Summerland Art Club from April 1 until June 23. All exhibits will be in the West Summerland library.

First show is of paintings and sculptures by Peter Ochs, Summerland. Next on the list from April 15 to 28 is Evelyn Middleton, Okanagan Falls followed by Leroy Jensen of Kelowna, April 29 to May 12.

It is hoped to have a show by Robert Borsos, Penticton, from May 13 to 26.

Last two on this spring's schedule are Vaughan Grayson (Mrs. A. J. Mann), Oyama from May 27 to June 9; and Gwen Penney of Courtenay, formerly of Summerland, June 10 to 23.

The Free Methodist Church quarterly district meeting will be held in Summerland this week end.

A Youth Rally will be held Friday evening, when the Summerland Bible Quiz team will compete with the Kelowna team. Young people, age 13-19, make up the teams.

Rev. Jim Stewart of Winfield will conduct the Saturday morning service.

Macs win Coy Cup play Alberta next

With two straight wins in Powell River, the Twin City Macs are now the Coy Cup champions, winning the B.C. intermediate hockey title. Now ready for bigger and better things, they will meet the Alberta intermediate champions, the Lacombe Rockets this weekend.

According to the Macs' manager, George Stoll, the Alberta team has a top flight line-up, with six former Edmonton Oil Kings, a former Calgary Stampeder, and an ex-Winnipeg Warrior.

Mr. Stoll told the Review that this is a good hustling team and should give the fans lots of excitement.

If the Twin City Macs win this series they will have a chance to go up against the Manitoba champions in a series to be held on the prairies.

The Macs meet the Rockets this Friday and Saturday in the Penticton arena, with a third game, if necessary, in Penticton on Monday night. Tickets are on sale at all Summerland cafes.

Sons feed fathers hamburgers and pie

The annual Father and Son Scout dinner was held Monday evening in the Youth Centre.

Almost a full turnout of smartly uniformed boys were on hand to enjoy the delicious hamburgers, pie and ice cream. Mounds of food were quickly tucked away under the watchful eye of acting chef Ed McGillivray.

Two important events highlighted the evening. Alex Watt, ten years a group committee head, was given a "Thank You" badge by Dr. H. R. McLarty, and Fred Trussell received his Queen's Scout badge, the highest honor that can be awarded a scouter.

Other Scout awards made were: 1st Class Badge and Cord: Roger Blagborne; 1st Class Badge and Cord: Mark Tamblin, B Cord; Neil Mason. Nine Scouts were presented with second class awards for their year's work and 16 proficiency badges were given out.

Cubs moving up into Scouts and receiving awards were Jack Barkwill, one proficiency award; Ted Arkell, two proficiency awards; Bill McCuaig, one proficiency award; John Leibert, three proficiency awards.

Cub awards went to Tommy Inch, two proficiency awards; Bruce McIntosh, one proficiency award; G. Smith, one proficiency award; and George McCrea, one proficiency award.

Winner of the bird house competition among the younger Cubs was Ian McKenzie and Allan

Barkwill won the competition in the older group.

The evening wound up with a sing song led by Cubmaster Brenda Leibert.

School Notes

Watch for the "Reach for the Top" program to be televised locally very shortly with four Summerland secondary students as panelists.

Summerland will also go on CHBC-TV April 5 at 5:30 p.m. on the "See How They Learn" program. It will show students learning instrumental music and feature Mr. Beames and Mr. Bicz teaching.

Students at the school are pleased and proud of the results of the Oliver Drama Festival where the first act of "Harvey" was presented by the local high school group. Ivan Sayers took the top acting award for his portrayal of Elwood Doud, the leading character.

Sewing machines are busy these days as home economic students put finishing touches on the clothes they will model at the annual fashion show to be held April 6. Girls in grades ten to twelve will model a wide range of garments.

This Saturday ten members of the secondary school and ten elementary teachers are going to Penticton to receive basic instruction on the new grade three and grade eight math courses.

Pollution control Board Hearing

On April 2nd and April 3rd, the Pollution Control Board for British Columbia will visit the South Okanagan Health Unit in order to familiarize itself with the problems of pollution in the Okanagan.

Public hearings will be convened as follows:

1. PENTICTON: April 2nd, 8:00 p.m. Penticton Health Centre, 300 Eckhardt Ave. East
2. KELOWNA: April 3rd, 8:00 p.m. Kelowna Community Health Centre, 390 Queensway Ave.

Valley municipalities and organizations may present briefs at these hearings on their concern or interest in pollution, if they so wish.

R. Bowering,
Secretary and Executive Engineer,
Pollution Control Board for
British Columbia.

Corporation of Summerland Custom Spraying

The Municipality will require an operator with his own equipment to do Custom Spraying to enforce the Codling Moth Control By-law.

For further details please contact the Municipal Office.

G. D. SMITH,
Municipal Clerk

March 21, 1962.

Horticultural Notes

STARLINGS

Nesting couples are being seen now and some large flocks were seen last fall and in the winter.

There are a number of walk-in traps around the area. These should be kept baited with cull apples, vegetable scraps, potato or meat scraps. A supply of drinking water should be kept in the trap at all times. Don't expect traps to catch starlings unless they are properly baited and serviced.

A bounty of five cents per bird still applies on all birds taken to the Sports Centre, West Summerland.

RODENT CONTROL

There has been increased mouse activity this winter. Some damage has been done to trees in heavy cover crop. Bridge grafting will be necessary in a few orchards.

The period of intense gopher activity is usually April and May. Growers are urged to continue their own individual gopher control programs. It may be some time before Rodent Control officers can bait all orchards in the area. So in the meantime, a "do it yourself" program is necessary.

FIRE-BLIGHT

Fire Blight was at a low ebb in most Summerland orchards in 1961. However a few orchards were infected. Removal and burning of overwintering cankers during the dormant period is the best way to stamp out Blight. Follow up sprays of copper sulphate and lime during the blossom period are effective in preventing infection of the blooms by insects carrying the disease bacteria on them. The Spray Calendar gives details.

IMPORTANCE OF WOOD

Men who get their living from the soil know the importance of wood for their homes and fencing. Wood resists both heat and cold and is perfect for farm plants from a poultry house to the most modern type of dairy.

SPRAYER TESTING
We will continue to run air-speed tests on air blast sprayers as requested. This test takes only a few minutes and will definitely tell you whether your machine is capable of putting the spray where it is needed. Growers who wish to arrange for a test are urged to call or leave their names at the B.C. Department of Agriculture, office, West Summerland.

A. W. Watt
District Horticulturist
B.C. Dept. of Agriculture.

Senior men conclude curling

With the end of the curling season, the Senior Men's Afternoon Rinks concluded a very successful and enjoyable winter with the usual good fellowship and rivalry.

The playdown for the Trophy was one of the most exciting if not one for the records.

The A. McEachern rink skipped by J. McDougald was leading A. Etter's rink by six points, but the Etter rink scored a seven on the tenth end to win and this made it necessary for another game and on this one the Etter rink scored a three on the tenth, but McDougald came through on the extra end to win the trophy.

Playing with J. McDougald were D. Rutherford, Rev. L. Kennedy and playing with A. Etter were H. Currie, F. Lobban and P. Taylor.

At the conclusion of the final game a presentation was made by G. Paterson of a gift certificate to Mr. and Mrs. Harvey Eden, with the thanks of the members for their courtesy and very efficient work at the rink. Everyone wished them the best and hope to see them again next season.

Apple sales very good

Only a small volume of last year's crop of apples remain to be sold, J. B. Lander, general sales manager of B.C. Tree Fruits, told a meeting of the BCFGA local here last week.

Predictions are for a large crop this year, it was reported. Any increase in volume will have to go to the export market Mr. Lander said. He stated that it is not anticipated that Canada will be shut out of the British market when England enters the European Common Market.

Another guest at the meeting was Harry Glass, an importer of Okanagan apples from Edinburgh. He said that tariffs will be set to protect British agriculture during the early stages of entry into ECM, and he said that an open market is not expected until 1970.

Don Sutherland, assistant to the general manager of Tree Fruits, outlined changes to be made in handling cannery peaches. These are: asking packing houses to allot cannery deliveries only to growers who have a commercial volume of peaches; reinstatement of the five per cent cull tolerance; hard or extra maturity peaches will be eliminated altogether; providing field service to growers at the southern end of the valley.

Kiwanis

Club Notes

Twenty four members enjoyed a wonderful stew dinner, after which Bill (Como) Laidlaw led the sing song, in his usual efficient manner.

Hilly Smith celebrated his 39th birthday. Seems like a lot of Kiwanians are at that age. By way of departure from the usual procedure, he was allowed to sing solo "Happy Birthday" to himself, which he did, surprising everyone with his unexpected talent. Each and every member present was asked to sing with him, but each preferred to pay a fine.

A letter was received from Lt. Gov. Doug Campbell, expressing his wish to pay this Club an official visit on Tuesday, May 1st. Lockie McGilligan reported on week end curling with Penticton Kiwanians.

Some six or more are planning to visit Vernon with their wives on Friday, March 30th, on the occasion of Vernon's charter night. Interclub chairman Jerry Hallquist suggested chartering a bus, and going up in one group to return Vernon's recent visit. This was met with practically unanimous approval.

The club has decided to sponsor the formation of a small side hill for juvenile beginners, and also the encouragement and sale of auto safety belts in Summerland.

Gummy Young showed some colored slides of New Zealand and Australia. Advance news of this latter must have leaked out and was probably responsible for one of the smallest attendances yet.

— The Recorder.

Auditors' Report

Kelowna, B.C.
March 9, 1962.

To the Chairman and Members,
Board of School Trustees,
School District No. 77 (Summerland)

We have examined the balance sheet of School District No. 77 (Summerland) as at December 31, 1961 and the statement of revenue and expenditure for the year ended on that date and have obtained all the information and explanations we have required. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the accompanying balance sheet and statement of revenue and expenditure are properly drawn up in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year so as to exhibit a true and correct view of the state of the affairs of the School District as at December 31, 1961 and the results of its operations for the year ended on that date, according to the best of our information and the explanations given to us and as shown by the books of the School District.

RUTHERFORD BAZETT & CO.

Chartered Accountants.
