"Yes" vote recorded in liquor plebiscite

All four questions were given a decisive "yes" vote in the liquor plebiscite held here Monday.

Returning officer Harvey L. Wilson reported that 1,433 of the 2,600 eligible voters cast their ballots.

Results in each of the four categories voted upon were:

C of C plans fall meeting

The Summerland Chamber of Commerce will resume its fall meetings next Thursday, October 11. The meeting will start at 7:30 p.m. in the IOOF Hall. Members are asked to note that this is not a supper meeting.

A complete report of the fair will be presented to the group.

Also to be discussed is an effective advertisement campaign to draw the tourists visiting the Okanagan into Summerland.

A group discussion will also be held on ways and means of bringing outside capital into this community.

President G. C. Johnston urges all members to turn out to next week's meeting and start the season with a full attendance.

Under the Giant's Hand

The Reach for the Top team of Florence Johnson, Anthea Morgan, Philip Holman and Michael Lopatecki, are defending the reputation of last year's team by winning two of their TV appearances against Kelowna and Vernon.

Arrangements are being made to present "Shakespeare in the Round" to the school. A similar presentation was made in the evening last year by the Holiday Theatre and was considered by the school staff to have much merit.

38 inches of rain and 32.1 hours of sunshine were recorded at the research station during the past week.

	High	Low
September 26	77	52
September 27	67	54
September 28	57	46
September 29	62	43
September 30	68	43
October 1	68	46
October 2	67	47

We had a taste of the chocolate bars being sold this Saturday by the school band and can highly recommend them.

Sale of beer, ale and stout only under a public house licence for consumption on the licensed premises: yes, 816, no, 509; rejected, 108; majority, 62 per cent.

Sale of beer, ale, stout and wine only under a dining room licence for consumption with meals on licensed premises: yes, 810; no, 485; rejected 138; majority 63 per cent.

Sale of liquor under a dining lounge licence for consumption with meals on licensed premises: yes, 810; no, 460; rejected, 163; majority 64 per cent.

Sale of liquor under lounge licence for consumption on licensed premises, yes 822; no, 460; rejected, 151; majority, 64 per cent.

A 55 per cent majority is required under the liquor act to pass the plebiscite.

Mr. Wilson reported that a large number of the ballots had been rejected because they were not marked.

Two previous plebiscites had been defeated.

OPENS FIX-IT SHOP

Another sign will go up in the business district next week, when Joe Novak will open the Fix-It Shop in the premises formerly occupied by Valley Style Shop.

Mr. Novak, who has lived in Summerland for the past two years, will specialize in small equipment repairs.

J. PASSMORE

J. Passmore of Kamloops, governor of district 506 of Rotary International arrives here tomorrow to visit the Summerland Rotary Club, one of the 25 clubs in his district. In addition to addressing the Rotarians at their meeting, he will confer with Gordon Beggs, president of the local Rotary Club and other club officers on Rotary administrative matters and service activities.

Mr. Passmore is from Kamloops and is a member and past president of the Rotary club of Kamloops. He was elected a district governor for 1962-63 at Rotary's 53rd annual convention in Los Angeles, last June. He is one of 271 district governors responsible for supervising the activities of more than 11,200 Rotary clubs with (Continued on back page)

Former pastor returns to Baptist Church here

This week Rev. and Mrs. Frank W. Haskins are being welcomed to the pastorate of the Summerland Baptist Church. They are no strangers to our community, having held this office for seven years during the 1940's. Their daughter and

two sons graduated from the Summerland high school with records of service on student councils, in social activities and with high scholastic achievement.

While here, Mr. Haskins made contact with a wide audience through a regular column in the Penticton Herald, featuring views and comments on topics of general interest.

Remembering also the many young people on military service, he established a monthly "Friendly Letter" carrying pastoral messages along with the church and personal news items. So popular did this become that it has been continued by request under successive pastors as a church newsletter.

Mr. Haskins left Summerland for Edmonton to become director of young people's work for the four western provinces. More lately, he has been pastor of a fast expanding work at Hillside Baptist Church in Calgary.

REV. F. W. HASKINS

Resignation statement

The following is the text of the statement issued by resigning executive members of the Summerland Local BCFGA.

"Certain events this season have been very disturbing to members of the BCFGA Local executive and our deep concern was expressed at several meetings in Penticton and Summerland.

The matter which caused us the most distress and drew our strongest protest was the action of the Soft Fruit Pooling Committee in instituting an early pool in apricots in direct defiance of the past two conventions. This action was not only condoned by Mr. Garrish and other officials but also received their support and encouragement. We can only view this action as one of utter contempt and disregard for the wishes of the growers as expressed by their elected representatives and the refutation of the right to control their own affairs. We feel that this is a serious departure from the concept of government by consent and that it is proper and urgent for all of us in this industry to take alarm at this experiment on our liberties.

Accordingly, we wish to state that we can no longer extend our support and confidence to the present government within the industry and will submit our resignations from the executive committee at the next meeting of our Local."

(Signed):

CHAS. BERNHARDT, Chairman
HANS STOLL, Vice-Chairman
J. H. CALDWELL, Secretary-Treasurer
GEORGE STOLL
W. C. GALLOP

Heavy enrolment means shortage of classrooms

At the School Board meeting on Thursday evening John Cooke and J. P. Tamblin, Principals, were present to give monthly reports on their respective schools.

Mr. Cooke reported enrolment was down to 502 at the MacDonald School. This enabled a lower pupil load to be carried by teachers, the average being 33 in a class. At the Trout Creek School the enrolment was 88 with an average of about 30 per class. He reported he was pleased with the new members of his staff.

Mr. Tamblin gave results of internal examinations and Departmental examinations held at the end of June. He stated the summer school had operated well and enabled 31 students to advance to a higher grade.

Due to heavy enrolment of 595 (133 grade 7 and 462 secondary) there is a shortage of classroom space and one classroom in the McDonald basement is in use part-time. Also, due to increased number of students taking commercial subjects, four more typewriters are desired. He asked the School Board to give consideration to their purchase.

SELLING CHOCOLATES

A sale of chocolate bars, made especially for the Summerland Secondary School Band, will start the band season for 65 enthusiastic band youngsters on Saturday.

The door to door sale will start this Saturday and the students hope to cover the entire community.

Inland Natural Gas Co. submitted an analysis covering conversion to natural gas heating in the Secondary School. This showed that fuel costs would be increased considerably but, it was claimed, efficiency, labour costs, etc. would be greatly reduced. The cost of conversion would be approximately \$3,000.

The Board received a request from the Summerland Teachers' Association for a revision of Clause I (salary scale) of the 1962 Salary Agreement.

Negotiation of teachers' salaries on a zonal basis is presently taking place with teachers and trustees of school districts of Oliver, Kettle Valley, Keremeos, Princeton, Penticton, Summerland, Kelowna, Vernon, Armstrong, Enderby, Salmon Arm and Revelstoke taking part.

New owners for Bowladrome

The King Pin Bowladrome has been sold by owner Glenn Fell.

Purchasers are Mr. and Mrs. Bill Ramsay, of Williams Lake. The Ramsays and their family of five have now taken up residence in West Summerland. Mr. Fell, who has been employed in the municipal office since 1960, bought the bowling alley in 1956.

Mr. Ramsay expects to continue the bowling schedule much as it has been in the past, with the lanes available from 6:00 to 11:30 on public nights and with after school bowling for students.

Resignations of five executive members of the Summerland Local of the BCFGA will be submitted at a special meeting of the Local to be held in October.

The resignations are in protest against the action of the Soft Fruit Pooling Committee in instituting an early pool for apricots in what is termed "defiance" of the directives given at the last two BCFGA conventions.

Submitting their resignations are Charles Bernhardt, chairman of the Summerland Local; Hans Stoll, vice-chairman; J. H. Caldwell, secretary-treasurer; George Stoll and W. C. Gallop.

This explosive action by the executive of the Summerland Local is designed to voice lack of confidence in and withdrawal of support for the present BCFGA executive. "With the strong views we hold we feel that we cannot continue in executive office unless our views are supported by the majority of our membership in the Local", one of the resigning executive said.

At the 1962 convention in Vernon, delegates soundly defeated resolution 32 from Oliver which asked for the "setting up of a new pooling plan for all soft fruits, incorporating the principle of true market values as is now interpreted and applied to the pooling of peaches".

Contention of the Summerland Local executive is, that in setting up an early pool for apricots the pooling committee has acted in "utter contempt and disregard of the wishes of the growers as expressed by their elected representatives" and that it is "a direct refutation of the growers' rights to control their affairs."

Further the Summerland Local executive charges that the action of the Pooling Committee was not only condoned by president A. R. Garrish and other members of the BCFGA executive, but that the action also received strong support and encouragement.

Two members of the executive, Jim Mayne and F. R. (Tiny) Ganzeveld, did not sign the statement of resignation.

Mr. Mayne told the Review: "Although I am in agreement with this statement, I disagree with the method of releasing it to the public before it has been explained to a general meeting of the growers. I will make my views known at the next BCFGA meeting."

Mr. Ganzeveld said: "I agree that in a small way the Soft Fruit Pooling Committee has overstepped its instructions given at the last convention. But I do feel that the Committee was right under the circumstances. If we have any complaints to make, they should be taken to the next convention."

Kiwanians sponsor Oliver club

President Walter Toevs of the Summerland Kiwanis Club, has announced that on September 27 his club sponsored a new Kiwanis Club in Oliver. Mr. Roy Roher of Vancouver, and this district's official organizer attended the meeting in that capacity.

Lt. Gov. Doug Campbell of Summerland installed Bruce Echlan as the first president, with Bill Kreller as secretary.

The Kiwanis Club of Oliver will meet every Thursday at 6:30 p.m. at Tuck's Cafe in Oliver.

The Oliver Club is the first club to be sponsored by the Summerland Kiwanians.

Seven times B.C. champion, Tom Hickman (right) of Chilliwack is now in Holland making his first bid for the world plowing title. He receives preflight best wishes from J. D. Urquhart of Imperial Oil Limited, which is sponsoring two Canadian contestants.

B.C. man trying for World plowing title

A perennial winner of B.C. plowing awards, Tom Hickman, of Chilliwack, has flown to Holland to cut his first furrow in world championship competition.

Hickman, seven times winner of the B.C. plowing title, is competing against plowmen from 19 countries this week for the Esso Golden Plow, emblem of the world championship.

The two day contest will be held near Amsterdam.

The Chilliwack dairy farmer is one of two Canadians entered in the world championship. The other is Cyril Heynes of Emerson, Manitoba, 1961 Canadian champion and holder of the Esso Silver Plow.

Hickman, father of four daughters, began competitive plowing a number of years ago with a team of horses and a single plow. He switched to a tractor ten years ago.

The two Canadian plowmen put in a week of intensive training in Ontario before leaving for Holland. They received coaching from former Canadian and world champions and the present world title holder, Bill

Canada Savings Bonds

easy to buy
simple to cash
good to keep

The new Canada Savings Bonds pay 4½% interest for each of the first three years; 5% for each of the next three years and 5½% for each of the final eight years—an average interest to maturity in 14 years of 5.11% per year. In dollars and cents every \$100.00 you invest will grow with accumulated interest to \$172.50 at maturity.

You can buy a \$100.00 bond for as little as 29¢ a day, through the convenient Payroll Savings Plan where you work. Canada Savings Bonds can also be bought for cash, or on instalments at any bank, investment dealer, stock broker, trust or loan company.

They are available in amounts as low as \$50.00 to any Canadian resident—adult or child—up to a limit of \$10,000.00 per person.

Estates, too, may buy. Interest is payable annually by coupon, or on the higher denominations by cheque, if desired.

You can cash your Canada Savings Bonds at any time, at any bank, at full face value plus earned interest.

Buy new Canada Savings Bonds today—best ever!

Our responsibility

The overwhelming majority of Summerland voters, having favored all four choices on the local-option plebiscite on Monday, can now look forward to the development of an expanded tourist business for this community. After all, that was the main key of the call for a plebiscite: the realization that additional facilities are required to attract, and retain our share of the highly lucrative "visitor business".

While congratulating Summerland on this move, we must also urge upon all concerned — the municipal council particularly — that there shall be rigid controls exercised over both the establishment and the operation of any outlets that utilize the privileges now accorded them by the community of Summerland. We must make it quite clear that having licensed premises in our midst will not be an excuse for either second-class establishments or objectionable behaviour. Possession of a licence must not open the door to unlicensed actions.

Having passed the plebiscite, we must see to it that we press forward in obtaining our proper share of the tourist trade. Construction of one, and possibly two new hostelttries with all modern conveniences is a foregone conclusion. Certainly there will be one for the upper level portion of the community. Most likely, before long, someone will see the splendid opportunity offering at lakeside for a quiet, pleasant resort that will attract the best type of visitor.

We have realized our need for tourist accommodation, and to get it some may have sacrificed personal inclinations and feelings in their votes on Monday. We need not, as a concomitant of that, have to permit objectionable premises, or bad behaviour on the part of anyone.

There may not be, at the present time, necessary restrictive rules on our municipal books that will assure us of the kind of control we would like. We therefore urge the council to pursue both its own laws and those of other communities to see to it that Summerland has the required type of enforcement legislation. In addition, we can make it known that, as a community, while we are willing to accord to all the privilege of partaking of liquor, we will not, as the people of Summerland, permit any abuses of such privileges we are now granting, as a result of our Monday choice.

★

Can you find the time?

Blindness strikes — tragedy and hopelessness. Our community is being requested now to find the time to help the only organization in Canada equipped to serve those who have suffered the loss of sight. The Canadian National Institute for the Blind, founded in 1918, continues to grow and expand its services, not only for blind Canadians but also to help through education and treatment to "prevent blindness".

"Can you find the time to help?" asks Mrs. W. S. Rothwell, chairman of the Summerland and district branch, CNIB. With the other volunteer members on her branch, Mrs. Rothwell is, indeed, "finding the time".

In announcing the date of the annual financial campaign the local branch is asking the citizens in this district to support their campaign as generously as they can. Mrs. Rothwell said, "Commencing October 1 our citizens have the opportunity to help the more than 2,500 men, women and children in British Columbia gain self-confidence and a happier way of life." The annual tag day will be held October 13.

On the CNIB branch giving Mrs. Rothwell wholehearted assistance are vice-chairmen Robert Alstead and Mrs. Eric Tait; treasurer Mrs. J. H. Dunsdon, secretary Mrs. George Ryman; directors Miss Lois Read and Gordon Dinning.

Bank of Montreal receives top advertising award

Top rating among Canada's eight chartered banks has been given to the Bank of Montreal for its advertising, according to a survey of financial advertising conducted by Vincent Edwards and Co., New York.

The B of M also ranks sixth among the 15,000 banks in North America, as reported in the annual "Bank Ad-Views" review of Canadian and U.S. financial advertising.

The Bank of America (San Francisco) placed first among

all North American banks.

With the exception of only three years in the past 17, the B of M has been rated first among Canadian banks in the "Bank Ad-Views" survey and has received a "Socrates Award" each year. In 1946 and 1954, the bank ranked first in North America and received the "Socrates High Award of the Year."

The B of M's new advertising award follows the winning of an "award of excellence" in the "PR in Print" awards pro-

gram of the Canadian Public Relations Society, for its currency guide prepared for use by travellers to the Caribbean area.

THE OKANAGAN VALLEY

Beautiful Okanagan flanked with terraced wooded hills,
Gathering snow in winter that trickles into rills,
Feeding lakes and rivers, redeeming arid land,
Making the valley beautiful, man and nature's hand.

Orchards flaunt their beauty, shell-pink petals over all,
Yielding ripened fruit, cheek-crimsoned in the fall,
Cherries, apples, peaches, perfumed flowers give less delight
Than luscious fruit in summer, truly a lovely sight.

Hues of prismatic shading paint the flowers around cozy homes,
No such rebellious beauty has been caught by colored tomes,
Riotous form and color in flower and bush and tree,
Every garden humming with the drone of honey bee.

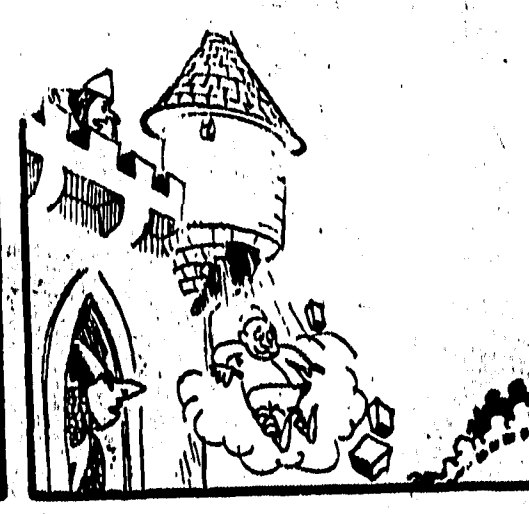

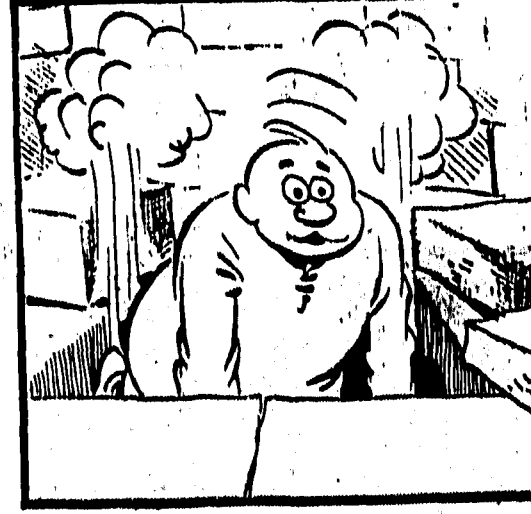

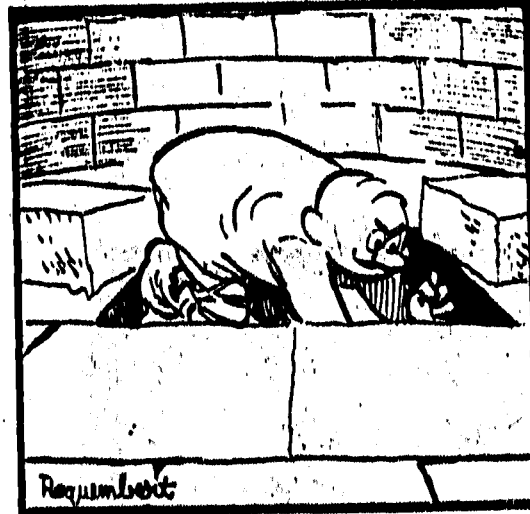

Deeper in the valley the emerald waters lie,
Mirroring the hills and trees, the valley and the sky,
Clear blue skies in summer, winter's mildest clime,
Makes the traveller linger forgetting tide and time.

Summer homes for wild fowl shimmering on wing,
Scanning reedy rivers to raise their brood in spring,
Loon and grebe and wild duck, variant in feather,
Mingle with the grey goose, jabbering all together.

Dainty little humming bird, darting like an arrow,
Finches, red and bluebird, bob-o-link, lark, sparrow,
Trees and nooks and crevices are filled with song and clatter
As the bird world seeks new homes they musically chatter.

Hills a hunter's paradise, shingly, shining sands,
Patterned for men's pleasure, can he find fairer lands?
Beautiful Okanagan, gem of the far, far West.
When I'm tired of roaming, here I'll find peace and rest.

Appoint delegate to convention

Twenty-one members of the Summerland Hospital Auxiliary met in the Health Centre Monday night with president Mrs. Les Rumball in the chair.

It was announced that the B.C. Hospital Auxiliaries convention will be held in Penticton on October 17 to 19, with Mrs. H. McLarty as Summerland delegate.

Mrs. F. E. Atkinson will conduct a workshop on Thrift Shops at the convention.

The knitting committee, under Mrs. G. Lewis turned in \$20.

It is expected a savings account of \$1,000 will be opened shortly, profit from the Thrift Shop.

Comings and Goings

John Kitson was in Chelan, Washington last week for the sailing races on Chelan Lake.

Mrs. L. W. Rumball has returned from a two week visit with relatives in Medicine Hat.

Mrs. F. E. Atkinson, accompanied by Mrs. T. A. Walden, attended the regular meeting or Sunset Rebekah Lodge, Armstrong, on Thursday, September 27. Mrs. Atkinson was invited to show her slides on her recent trip to New Zealand and Australia at this meeting. Approximately 75 guests were present from Vernon, Faulkland, Salmon Arm, Enderby and Armstrong.

Don Agur and Gordon Beggs attended a Rotary district meeting in Omak, Washington on Saturday, September 22.

Bryan Charlton, son of Mr. and Mrs. H. Charlton, has finished his basic training in the RCN at Cornwallis, N.S. He has been home on leave and has now left for Esquimalt, where he will take training as a radio-man.

Births at Hospital

Born at Summerland General Hospital to Mr. and Mrs. Wm. R. Ridley, a girl, October 2:

Mr. and Mrs. Evans Furnival of Powell River have been visiting her sister, Mrs. Cecil Morgan and family.

Recent guests at the home of Mr. and Mrs. F. E. Atkinson were Mrs. M. Hartley, daughter Anne, and Norman Harrod, all of Vancouver. Dr. Paul Simms, Department of Agriculture, Ottawa, was also a visitor.

Busy month for Overture Concert fans

Summerland Overture Concert members will receive their tickets by mail within the week, campaign manager Mrs. Brian Liebert told the Review today.

November looks as if it is going to be a busy month if members also take advantage of the Kelowna and Oliver series, with four concerts scheduled for this month. The first is mezzo Soprano Betty Allen, who is appearing in Kelowna on Monday, November 5. Then there are three very close together. Summerland's first concert is a Cuban guitarist, Rey-de-la-Torre, playing Wednesday, November 21. Kelowna has the duo-pianists, Stecher and Horowitz November 22; and Oliver presents the Columbus Boys Choir on November 23.

From then on things are a little less hectic, but no less exciting with a really fine group of artists appearing in the Okanagan this year.

Appearing here will be a brilliant young actor, Philip Hanson, who has been a leading figure in the Ashland, Oregon, Shakespeare Festival for

many years. He is on tour with a presentation of William Saroyan's "My Name is Aram" included in the repertory.

The last concert will be the Porgy and Bess Singers, featuring three extremely talented artists immersed in the tradition of the American musical theatre of this century.

Summerland members who saw the Spanish Dance Company "Susana y Jose", a year or so ago, will need no bidding to go to see them in Kelowna this year. They have also booked another Spanish artist, the world famous harpist, Nicanor Zabaleta.

Oliver has much to offer too, including the pianist Walter Hautiz, and Rolston and Moore, violin and piano.

Never before has such a variety of outstanding artists been available to the Okanagan concert goers in one season, and for the price of one membership.

Kiwanis Club Notes

Tuesday night the club's quota of 35 was exactly filled. This included two Key Club visitors, Jim Munn and Ken Smith.

Asked to speak, Key Clubber Ken Smith stated his club, with a view to financing a visit to next spring's convention, is organizing a work party starting October 5 and lasting several days, in which work for pay is solicited. Anyone with odd jobs to be done and who may be interested is asked to phone their contact man, Ed McGillivray, at Inland Realty. They are planning on combining with the Penticton club to pay an inter-club visit with Vernon on November 4. They are counting on 20 from Summerland and 17 from Penticton making a bus load.

Jack O'Mahony is celebrating his tenth(?) wedding anniversary October 4.

A letter was received from Leslie Caldwell, thanking the club for nominating her for queen, and expressing her appreciation for all they had done.

Jerry Hallquist, Doug Campbell and Jack Towgood all reported on their recent visit to the Oliver Club. Their charter night is set for November 1, with 25 signed-up members.

The meeting closed with an unique address by John Cooke, principal of the elementary school. His subject was the various degrees of IQ. To demonstrate, he first pinned numbers ranging from 35 to 140 on each member present, and then went on to tell how he classified the various groups into number brackets starting with the lower numbers, or mentally retarded, and going on to 140 or more, the genius bracket.

The Recorder was much embarrassed having drawn No. 35, but the speaker pointed out that nothing personal was meant, because as the numbers were allotted by chance, so the degrees of IQ were an accident of birth.

Mr Cooke, who had been introduced in humorous vein by Bob Alstead, was thanked by Lt. Gov. Doug Campbell.

— The Recorder.

Police court

Two West Summerland men, Paul Matkovitch and Paul Liteau, picked up \$50 fines each and lost their trophy when game warden Butch Tyler nabbed them on the Ashnola range with an untagged mountain goat. They appeared before magistrate Reid Johnston and were charged under Section 11 of the game-warden regulations and were subsequently fined.

Summerland RCMP urge motorists parking at the Royal Canadian Legion to use the parking facilities provided for patrons. Five drivers have been fined in the past few days for not heeding the parallel parking sign in front of the building.

On October 2 Mrs. Wanda Webber of West Summerland was fined \$5 and costs for failing to yield the right of way.

A Summerland juvenile also appeared on October 2 charged with not staying on the right side of a double solid line. He was fined \$5 and costs and his licence suspended 90 days.

To All Senior Citizens of Summerland:

The Summerland and District Credit Union takes pleasure in inviting you to dinner at the Canadian Legion Hall, West Summerland, at 6:00 p.m. on Thursday, October 18th. If you are able to attend, please contact Ben Mayno, at HY4-2242. Transportation will be provided where needed.

Figure Skating

with Miss Dolores Causier as professional instructor, will commence on Saturday, October 13, in the Summerland Arena.

Registration — 4 to 7 p.m.

Skating, figure and dance instruction, to begin then.

SESSIONS:

MONDAY	Juniors	3:00 to 4:30 p.m.
and	Intermediates	5:00 to 6:30 p.m.

Summerland Review

1st Summerland Troop

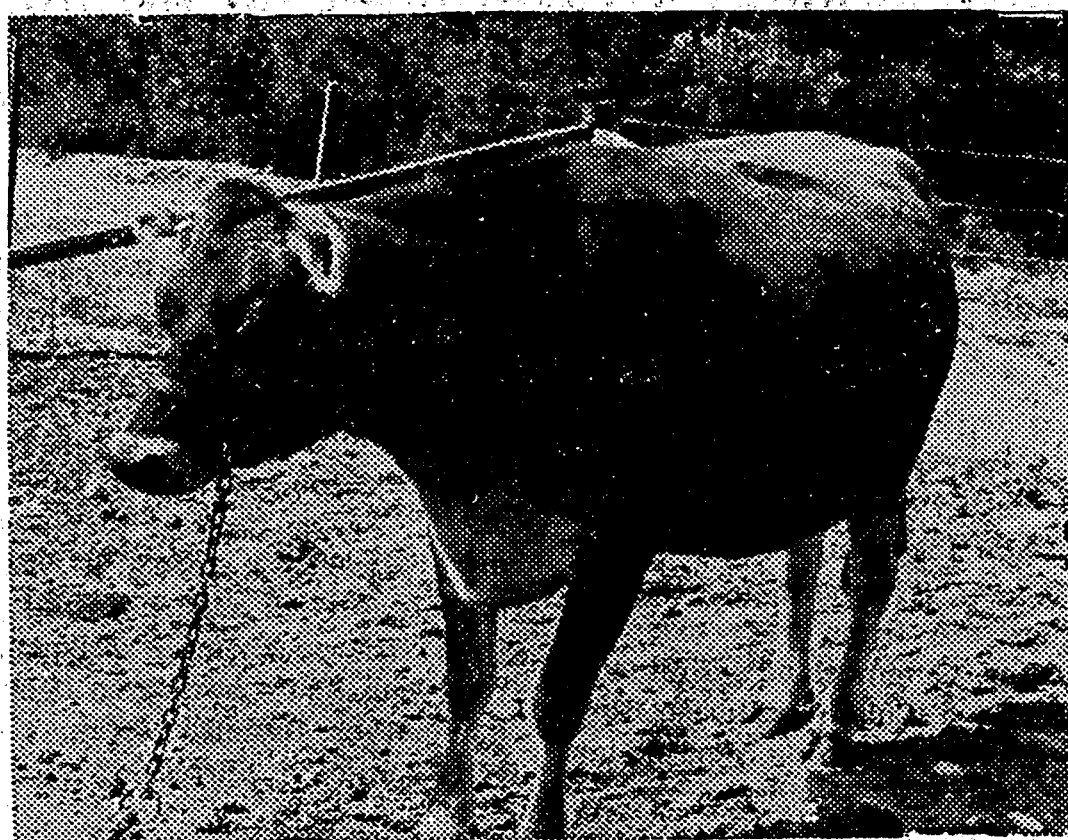

Twenty-six boys turned out for Monday's meeting, including another possible recruit. Much as we should like to take on additional boys we can't handle any more, but are willing to accept them on the waiting list. In our new patrol competition standings are: Hawks 29, Beavers 33, Buffaloes 28 and Eagles 28.

Parents are reminded that annual dues for registration (\$1.50) and troop fees (\$2.00) are now due and should be paid as soon as possible as registrations must be in by October 31. A full Scouting program for \$3.50 per year is probably to-day's biggest bargain.

The meeting consisted of an outdoor tug-o-war, instruction in Tenderfoot tests, signalling, knots and first aid and two inside games. The meeting concluded with a sing-song.

Parents are asked that boys be at the meeting on time and in full uniform. Next week's duty patrol are the Buffaloes.

— D. V. Fisher, Scoutmaster

BLOAT VICTIM — Good management practices can reduce the incidence of bloat among cattle, a victim of which is shown here. In severe cases, prompt action in piercing the paunch through the left flank may save the cow. Moderate cases can be relieved by drenching with mineral oil.

Tips on bloat of cattle

Bloating in cattle is difficult to prevent—but good management practices can help cut the number of cases.

Doctors J. E. Miltimore and J. M. McArthur of the Canada Department of Agriculture's research station at Summerland, have suggested three management steps which can reduce the hazard.

Their suggestions:

- (1) Seed and maintain a high proportion of grass in the mixture in fields to be grazed;
- (2) Wait until alfalfa and clover are fairly mature before turning cows into the fields;
- (3) Chop forage in long lengths for feeding as green feed.

Their studies have shown that fertilization of the forage stand does not increase chances of bloating unless it results in a greater proportion of legumes.

In addition to management practices, the researchers are studying heredity factors and

the use of bloat preventives with the feed.

Using sets of identical twin cattle, they found that members of a set tested with bloat-inducing feed were not affected at the same time nor were they affected the same number of times.

This indicates that breeding a bloat-resistant strain would be difficult.

Studies of heredity are not being confined to cattle. Young alfalfa plants are being analysed to see if they contain substances which promote bloating. If such substances are found, it may be possible to breed a strain which is free of them.

In tests of bloat preventives, penicillin, tallow and mineral oil proved helpful but were not considered fully reliable. On the other hand, silicones, turpentine and monosodium phosphate were found to be ineffective.

PLANNING?

USE "LOW COST" Electric HEAT

ELECTRIC HEAT HAS EVERYTHING, at a surprisingly low cost. The operating cost of an Electric Heating system compares very favourably with that of other automatic systems. Electric Heat reduces cost of building—saves space—reduces cleaning bills—and, gives convenience and comfort never before possible.

<p>AUTOMATIC Each room's temperature can be controlled by its own thermostat.</p>	<p>DEPENDABLE Safe—just like an Electric light.</p>	<p>CLEAN Flameless. No soot—no smoke—no fumes.</p>
<p>QUIET No moving parts—no noise.</p>	<p>HEAT BY WIRE NOT BY FIRE</p>	<p>SPACE-SAVING No furnace or fuel storage space required.</p>

'Mum show this Saturday

The annual Chrysanthemum Show sponsored by the Summerland Horticultural Society,

Summerland Review

will be staged in the Anglican Parish Hall this Saturday.

The show is from 3 to 9 p.m. and admission is 25c, children under 10, with parent, free. Afternoon tea will be served for 15c.

Exhibits must be staged by 1:00 p.m. Saturday.

There are 37 classes in the prize list which is obtainable from the provincial horticulturist's office. Classes include reflex type and incurved type blooms in all colors. There are also classes for spray type, pom-pom and button types.

Decorators may enter arranged bowls of geraniums, garden flowers other than mums, drift wood and mums, and dried flowers and grasses.

Thursday, October 4, 1962

Night schools starting

Night school classes will start in the Summerland Secondary School.

Art classes, conducted by R. Borsos, will start Wednesday, October 3 at 7:30 p.m.

Pottery, under Mrs. F. Sidebotham, will start Tuesday, October 9 at 7:30 p.m.

Sewing, conducted by Mrs. K. Blagborne, will commence on Monday, October 15 at 8 p.m.

Beginners' art classes, under B. Brandon, will start Monday, October 15 at 8 p.m.

The above classes all last for 20 weeks and the registration fee is \$10.

A class for singers is being planned.

A course in mathematics for parents of Grade 8 students will be announced in the near future.

In the Interrupted Education program, all persons interested in Maths 30-91; Science 10-20, Chemistry 91 are asked to re-

gister at the Secondary School on Tuesday, October 9 at 8:00 p.m.

Registrations start soon for figure skaters

The Summerland Figure Skating Club will begin its eighth season in the Summerland Arena on Saturday, October 13.

Registration of skaters will take place at the arena, beginning at 4:00 p.m. for juniors and 5:30 p.m. for intermediates and seniors.

The club is very fortunate in again securing the services of Miss Dolores Causier, one of the best professional instructors in skating in western Canada. Due to her ability, the club is at present the second strongest club in the valley, both in members and in competitive strength in the valley competitions.

The Summerland carnival was rated as having the best number performed in the valley, due to the lighting effects, drill perfection and music, in the Oriental number performed in last year's carnival.

It is hoped by the club executive that a good number of children will avail themselves of the opportunity of taking up the healthful and interesting recreation of figure skating. Further information as to fees and classes will be found in an advertisement in this issue.

GOVERNOR VISITS

(Continued from page one) a total membership of 524,000 Rotarians in 128 countries around the globe.

Speaking of the governor's visit, the president of the local club said, "He is coming here as a counselor and advisor. He has broad experience in Rotary and is well qualified to assist club officers in solving whatever problems they may have and in organizing an effective program for achieving Rotary goals in community betterment, raising the standards of businesses and professions, and in furthering international understanding."

One of the responsibilities of a Rotary district governor is to supervise the organization of new clubs in his area. Last year, more than 300 new Rotary clubs were formed in 48 countries, with clubs being organized for the first time in the Bahamas, Haiti, New Caledonia and Zanzibar.

As a Rotary governor, Mr. Passmore is serving on a global team headed by Nitish C. Lahary of Calcutta. Indian president of Rotary International.

It's unwise to pay too much,
but it's worse to pay too little.
When you pay too much you lose
a little money, that is all.
When you pay too little you
sometimes lose everything
because the thing you bought
was incapable of doing the thing
it was bought to do.

The common law of business balance
prohibits paying a little and
getting a lot. It can't be done!

If you deal with the lowest
bidder it is well to add some
for the risk you run.

The research station reports that it has not recorded a freezing temperature yet this fall. In case you are wondering why your garden and flowers have turned black, it should be explained that the station measures the temperature four feet above ground level. This is a common practice in all meteorological stations. Ground frost was quite common in Summerland Tuesday night.

We asked Fire Chief Joe McLachlan if any fires had been recorded yet during Fire Prevention Week. "No," he said, "and I don't want to hear of any either."

If you need any odd jobs done around the home, why not ask the Key Club to do it. They are willing to work after school and all day Saturday in order to raise money for their club. Some of the work they will do is, dig gardens, mow lawns, pick fruit, hoe orchards, clean storm windows and clean basements. If you have a job for the boys contact Ed McGillivray at Inland Realty.

Rev. A. A. T. Northrup, rector of St. Peter's Anglican Church in Revelstoke, and former Anglican rector in Summerland, has been named rector of the Anglican church at Port Moody.

John Kitson, Howard Oxley and David Storey spent over an hour in Okanagan Lake on Sunday, after their sail boat overturned while racing, about 11:45 a.m. They clung to their capsized boat, about 200 yards offshore, and were thrown a rope by RCMP policemen who waded into the water and pulled the trio to shore.

The annual CNIB Tag Day will be held this Saturday, October 13.

Thirty volunteer workers will be on the streets from 9 a.m. to 9 p.m. Headquarters for the tag day, which will be convened by Mrs. W. S. Rothwell, is the Red Cross Room in the Health Centre.

Anyone who misses the tag day, or fails to receive an appeal letter, may send their contribution to the CNIB treasurer, Mrs. J. H. Dunsdon, RR1, West Summerland.

The blackout which occurred here on Saturday night was caused when a light pole was sheared off by a vehicle that went off Sand Hill Road about 8:00 p.m.

Larry Stoyanowski, 17 of Summerland, swerved off the road and into the Solly orchard on Sand Hill Road knocking over a power pole. Damage to the car was estimated at \$500. The driver was uninjured.

Light service was disrupted in West Summerland for about 20 minutes and nearly two hours in the Trout Creek area.

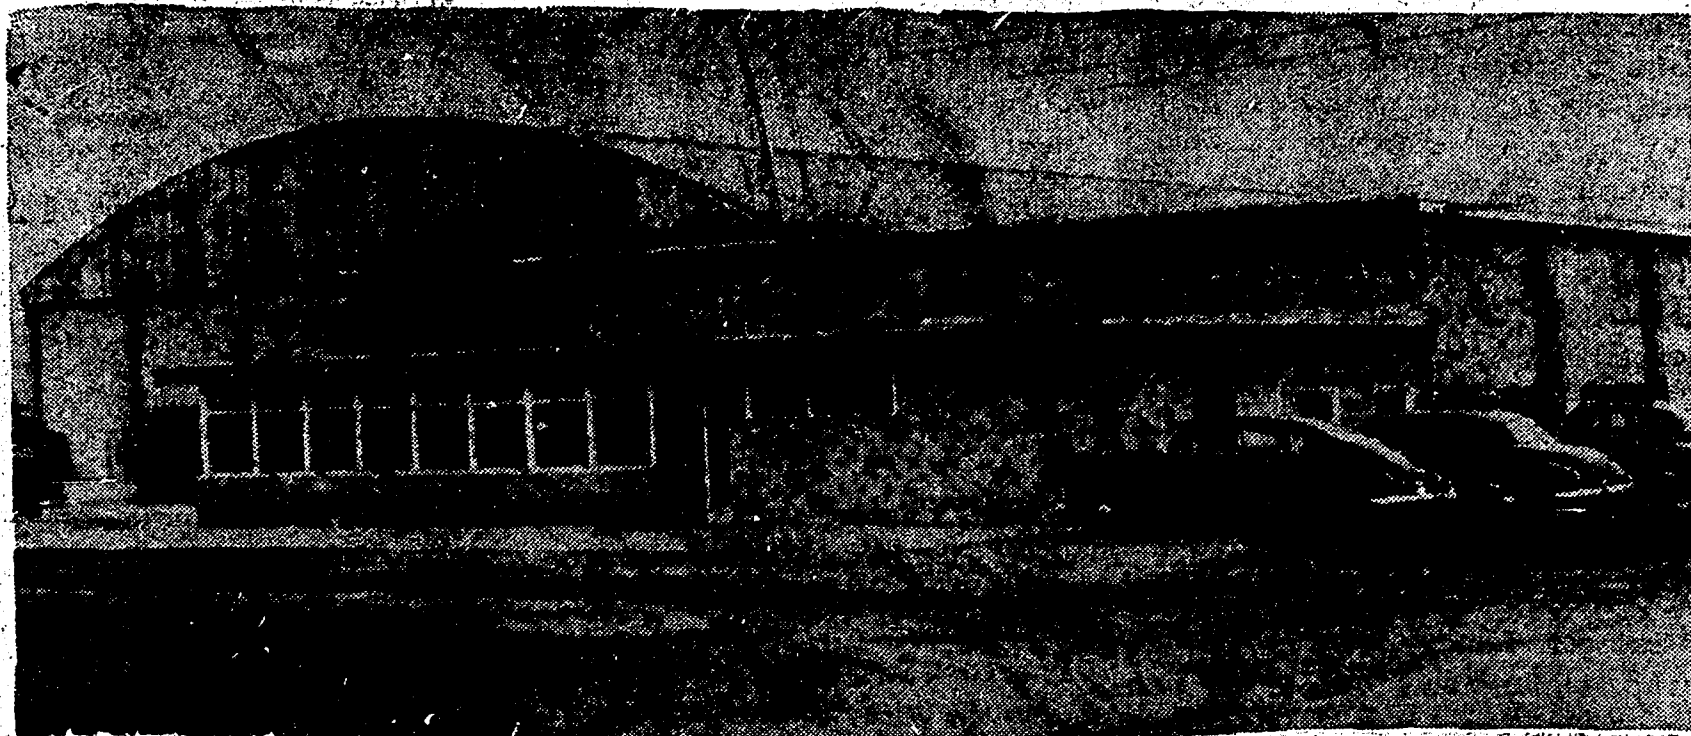

The Summerland Review

Volume 17, No. 43

West Summerland, B.C.

Thursday, October 11, 1962

5c Per Copy

Summerland's three modern packing houses, one of which is shown here, are busy this week receiving a good crop of Delicious and Newtown apples. Delicious are later this year, as picking of this variety was finished by Thanksgiving of last year. A small shortage of pickers is reported but this is expected to be overcome by the week end.

School board trustees will discuss junior colleges

B.C. School Trustees Association will hold its fifty-eighth convention in Victoria from October 15 to 17 for 500 delegates plus guest speakers and panelists in a program designed to develop the academic, as well as the business aspects of school board operation.

Attending from Summerland are school board chairman K. Booth, trustees W. S. Ritchie and Dr. W. G. Evans and secretary treasurer B. A. Tingley.

R. E. Lester of Haney, President, will preside.

Thirty-three resolutions of wide scope will be presented.

They emphasize the theme of the convention, "Leadership in Education". This is also the subject of the keynote address to be delivered by Dr. Phyllis Ross, CBE, Chancellor of the University of B.C.

With community colleges and vocational and technical training "hot subjects" throughout the province, a good deal of convention time will be given to this area. One of the resolutions to be presented suggests that such institutions should be part of the public school system, under school board jurisdiction, rather than independent operations outside the system.

Arena will open Sat.

The Summerland arena will open for the winter season on Saturday, October 13. George Stoll and David Kampe have been appointed operators.

Minor hockey players, including midgets, 15 and over, will register at 8 a.m. Bantams, 13 to 14, will register at 9 a.m.; Pee Wees, 10 to 12 at 10 a.m.; and Pups and Atoms, under 12 at 11 a.m. Ages are taken at August 1, 1962. Players should take skates and equipment, as each group will receive one hour ice time.

Registration fees for Pee Wees and under is \$8; Bantams and up, \$7.50.

Public skating will be held Saturday nights, October 13 and 20, from 8 to 10 p.m.

Starting Saturday, October 27 the Twin City Macs will play league games in the Okanagan Senior League starting at 8:30 p.m.

Figure skaters will have regular sessions starting Saturday at 4 p.m. Juniors register at 3:30 p.m. and seniors at 5 p.m.

One of the challenging resolutions proposes to eliminate review of school budgets by municipal councils. It states school boards are elected to manage school districts and are responsible to the electors. Public economy is safeguarded by the Department of Education.

This resolution contends that "municipalities are not responsible for and cannot possibly devote sufficient time to adequately judge such matters as the provision of educational services and preparation of annual (school) budgets, and therefore should not be given the right to review school board budgets and demand arbitration thereon."

The convention is expected to call again for a provincial scale to govern teachers' salaries; and to re-indorse the Chant Royal Commission recommendation for negotiation of teachers' salaries on a provincial-wide basis.

Successful operation of tennis courts reported

A letter was read to council Tuesday night from Mrs. Bob Barkwill, chairman of the local tennis committee, thanking the municipal government for their interest and co-operation in taking over the tennis courts and keeping them in order. Over 50 youngsters enjoyed play this year, under the instruction of Pierre Landry, who gave two afternoons a week for instruction as well as seeing to the upkeep of the courts. Mothers supervised the evenings and the children showed good progress, said the letter.

Also enclosed was a copy of a letter from Mr. Landry, listing some improvements for the consideration of council.

Peach Orchard court, said Mr. Landry, should have a coat of dark green paint to minimize glare. He asked that children not be allowed to play behind the retaining wall as this creates a dust problem on the court. He suggested that holes be drilled through low spots in the court to allow rain water to drain off, and that backboards be installed for practice. New bands for the nets could be sewed on to stop sagging.

Suggestions for Trout Creek court included new wire netting of a heavier gauge and new bands on the net, a bigger backboard, and a top dressing around the court to facilitate drainage.

Council remarked on the work that Mr. Landry and Mrs. Barkwill have done this year, and it was generally felt that with the

(Continued on page five)

Hatchery expanding, needs more water

The possibility of a change-over in the present Lower Town water system, now supplied from Shaughnessy Springs, to West Summerland system, was asked by B.C. Game Department, Fisheries Branch officials, Bud Green and R. C. McMynn of the provincial trout hatchery. The question was asked at a committee meeting held October 4. The fisheries department told council that the hatchery has now reached peak production capacity and will need more water if future expansion plans

are to be realized. The provincial trout hatchery is now producing around 25,000 lbs. of fish yearly, but with an ever increasing number of lakes to be stocked, they would like to triple their output of fish.

Reeve Norman Holmes said that council has no immediate plans for a change. The South Okanagan Health Unit has asked council to have a chlorinator installed as the water often has a high bacteria count.

Mr. Green said that the Fisheries Branch have indicated willingness to pay half the cost of changing over to the reservoir system, provided the trout hatchery could be allowed to use all the spring water.

Council indicated that they would give the matter further study and works superintendent Blagborne was instructed to prepare an estimate of the cost of changing lower town over to the municipal system.

In a later interview Mr Green told the Review that expansion of the present hatchery facilities is necessary with the number of lakes to be stocked increasing each year with the rapid growth of fishing as a tourist attraction.

Mr. Green said the water from the Shaughnessy Springs with its steady temperature of 51 degrees the year round is ideal for the growth of fish and that the hatchery is uniquely situated, as most of the B.C. fish hatcheries are situated on rivers with variations in temperature.

Garrish to reply at meeting

A. R. Garrish, of Oliver, president of the British Columbia Fruit Growers Association, will attend a special meeting of the Summerland Local of the BCFGA on Monday, October 15. The meeting will be held at 8 p.m. in the IOOF Hall.

The meeting was called by the executive after five members submitted their resignation last week in protest against institution of an early pool on apricots.

Resigning executive members were Charles Bernhardt, chairman of Summerland Local, Hans Stoll, vice chairman; J. W. Caldwell, secretary-treasurer, and George Stoll and W. C. Gallop.

Council notes

Councillor W. S. Ritchie presented a letter from Dr. D. A. Clarke, director of the South Okanagan Health Unit, suggesting that Summerland should invoke a meat inspection bylaw even though there is no designated abattoir here. The letter stated that although there is presently no peddling of un-inspected meat, the situation could change at any time.

Council will obtain a copy of Penticton's meat inspection bylaw and study it.

MUST PAY DOG LICENCE

Dog owners with the 1962 licence fee unpaid will be summoned to small debts court, council decided.

PARKING ONLY

The area directly between the King Pin Bowladrome and the planter is a parking area and not a street. Council will have the area properly designated with white lines and possibly blocked off at one end.

HALLOWEEN CURFEW

The 9:30 p.m. curfew law will be invoked over the Halloween week and will continue until the next council meeting. The curfew assists RCMP in controlling unruly behaviour over Halloween.

Perennial TV favorite Juliette voices her sentiments in song every Saturday night following the hockey game on the CBC television network.

Jim Onley featured in Television series

Jim Onley, well known former resident of Summerland, and a former employee of the Review, will be seen in a new TV program starting at 5:30 p.m. on Friday, October 19.

Friday Island, a fictional Gulf island off Canada's west coast, is the setting and title of the new CBC-TV adventure series, which will be seen over CHBC-TV.

Produced by CBC Vancouver and seen at 5:30 p.m. on the national network, Friday Island follows the adventures of the Grainger family from Ottawa, who, while holidaying on the

island, decide to establish a lodge there.

In the first episode, Welcome to Friday Island, the Graingers (mum, dad, Stephen and his young brother Tadpole) are planning their return to Ottawa. In this episode viewers will meet many of the people who will be featured in the series.

They are Grandpa and Aunt Sophie who live with the Graingers, and Archie and Annabelle who run the general store. Annabelle is the Island's post-woman and Archie sells food at the store.

The cast in Friday Island includes some of Vancouver's top actors and actresses: Lillian Carlson as Mum; Walter Marsh as Dad; Mark de Courcey as Stephen; Kevin Burchett as Tadpole; Jim Onley as Grandpa; Rae Brown as Aunt Sophie; Barbara Tremain as Annabelle; Robert Clothier as Archie.

Employment reaches peak

The month of September again proved to be one of plentiful job opportunities for most persons seeking employment, according to H. I. Moss, manager of the Penticton National Employment Office.

All phases of industry in this area, ranging from fruit harvesting through to retail services, report full operations. A total of 617 jobs were filled by the National Employment Office during the month.

Four persons were counselled in the field of vocational training and six persons were enrolled in training courses

Comparative figures on unemployed applicants in the area as at September 30 are: men, 221 (1961, 283); women, 205 (1961, 295).

Teachers ask for salary raise

Two meetings of Trustees and Teachers representing ten Okanagan Valley School Boards were recently held to conduct negotiations for a salary scale for 1963 for the Okanagan Branch.

Terms of reference under which the meeting would be conducted were finalized.

Presentation of the teachers' request revealed a request for a nine percent increase over 1960 provincial median scales.

The suggested minimum and maximum in each category being: 3275 and 3925; 3825 and 5875; 4150 and 6325; 4575 and 7075; 5075 and 7950; and 5550 and 8600.

Charts and estimates were used to substantiate the teachers' case for substantial salary increase.

Also considered was the recommendation that a Merit Rating Scheme for teachers should be investigated by a joint teacher-trustee team.

Shirley Harmer returns to CBC radio this fall with a twice-weekly network show, heard on Tuesday and Thursday afternoons. Accompanying her will be vibraphonist Peter Appleyard and a musical group under the direction of Lloyd Edwards.

An important meeting

There may be those who are inclined to treat the present situation, wherein five members of the Summerland Local BCFGA are tendering their resignations, as a tempest in a teapot. If the local incident was the only one, then it might be regarded as a teacup typhoon.

The fact of the matter is that there have been many such rumblings over the past four or five years. Not all of these took the same status as occurrences in Summerland — yet how else can we explain the difficulty Penticton had in getting a new chairman and executive, than a reluctance on the part of members of that local to be put "on the spot" in what they feared was an impending crisis? How else explain some of the rumblings in other parts of the Okanagan area?

Not all of these difficulties arose out of pooling problems, which have motivated the Summerland action. But if they are examined closely, it might be found that they all spring from a similar core — dissatisfaction with the operation of the industry, plus resentment at what is often spoken of, by member to member, as "the dictatorship of the industry."

That such a dictatorship exists — intended, acknowledged or otherwise, is a common view held by many growers. The action of the apricot pooling committee in ignoring the wishes of the convention can be taken as evidence that autocratic action motivates many who are leaders in many phases of the fruit business. They may feel that "the growers don't know what they want, and must be led" as we heard stated some time ago, but they have no right to act upon such empiricism. They may even be right, and the growers may not "know what's good for them or what they want" — but we do not believe the growers are either that ignorant or stupid — but even if the leaders are right, they should in a democratic movement, act in accordance with the wishes of the majority.

There are many things wrong with the fruit industry, and growers may diverge in their views on both what's wrong and the manner in which it can be adjusted. Yet all growers will agree on one fundamental problem — that the grower isn't getting a sufficiently large enough share of the price paid by the ultimate consumer for the fruit. And favoritism given one area, which has earlier soft fruits than another, is no way to either correct this or promote harmony in the industry.

That is why we fully support the action of the Summerland Local of the BCFGA in laying their resignations before their own local. They have found an untenable situation; they discovered that they could not carry out the wishes of their own members. Thus they are placing the problem before those same members who elected them to office.

Arthur R. Garrish, president of the BCFGA has told the press and radio that he feels the pooling committee to be right, as they had been given the authority to "study the situation". If the exact term in governing resolution was "study", with explicit directions pertaining to it, then, according to Webster, there could be no "action". To study a thing means to meditate, to ponder upon a thing. There is nothing in the dictionary that indicates "study" means "bring into action" or to make any overt move.

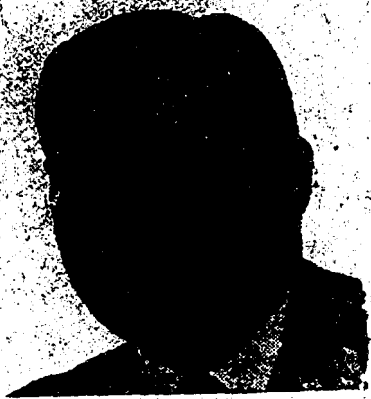

From reports of the 1962 convention it was implied that the soft-fruit group was to analyze the situation brought about by the lag in maturity of soft fruits in the Summerland area over those in that to the South, and, presumably, to bring in recommendations at the 1963 convention. Had any extreme action been thought essential, then the least that the committee could have done was to bring the matter before full dress meetings of the Locals concerned before the action took place.

Now it's up to all the growers to attend the meeting Monday night and make known their views on the action of their executive.

Tag Day this Saturday

Report from Parliament Hill

by Dave Pugh, MP

Today, Friday, has seen the close of a most interesting week in the House of Commons. The Government is standing on the premise that it has provided good government and good legislation and of course the opposition parties are condemning it roundly. To this end, motions of non-confidence have been entered and as you know have been unsuccessful.

The first of these by the Social Credit party was not acceptable to the other two opposition parties because it was based on Social Credit principles alone. The second in which the Liberals and the NDP voted together, also suffered defeat because the Social Credit joined with the Conservative Party. Now behind all this it is fast becoming apparent that the Liberals alone would like to see an early election but even at that it is doubtful whether this is the true state of affairs. Certainly if they want the support of the other opposition parties they are doing their best to alienate their affections. It may well be that this is planned and it will be interesting to watch the matter develop. My own feelings on the subject are that the people of Canada do not want an election at this time because they feel that the present members of parliament are well able to cope with the multitude of problems now facing Canada. Certainly the various points dealt with in the Speech from the Throne are set forth for this very purpose.

I look for this parliament to be most interesting. Members of all parties are cheerful and there is a good deal of resolution to get down to business. Let us hope that it continues this way.

Prior to the giving of the Speech from the Throne it was necessary to elect a new Speaker. Mr. Marcel Lambert from Edmonton, who has a fine record of service, in many ways was the unanimous choice of all parties and I must say that all leaders in the House of Commons spoke in very flattering terms on his elevation and during this week we have seen a firm hand — and I cannot stress too much the effect that this has had on the dignity and course of business in the House. All Party leaders, by the way, have spoken in favour of adopting the British system of appointing a permanent Speaker. The basis for this of course, is to ensure that the Speaker, once appointed, will stay absolutely clear of politics. Today a Speaker must stand for election and this, of course, involves him heavily in the political situation of the time.

Laugh of the Week

As in friendship so in love, we are often happier from ignorance than from knowledge. — Rochefoucauld.

Attempting to park her car a woman dented the bumper of an occupied car parked at the curb. She completed an accident report form for her insurance company, and asked her husband to check it.

He found everything in order until he came to the question: "What could the driver of the other vehicle have done to avoid the accident?"

Her reply was: "He could have parked his car somewhere else."

Hunters urged to observe safety rules

With big game and bird hunting underway in British Columbia, the Hon. Earle C. Westwood today listed the ten commandments of hunting safety. The minister urged sportsmen to get behind Hunter Safety Week and said that the difference between happy hunting and tragedy may lie in the ideas behind the following points:

1. Treat every gun with the respect due a loaded gun.
2. Watch that muzzle! Carry your gun safely; keep safety on until ready to shoot.
3. Unload guns when not in use, take down or have actions open; guns should be carried in cases to shooting area.
4. Be sure barrel is clear of obstructions, and that you have ammunition only of the proper size for the gun you carry.
5. Be sure of target before you pull trigger; know identifying features of game you hunt.
6. Never point a gun at anything you do not want to

shoot; avoid all horseplay.

7. Never climb a tree or fence or jump a ditch with a loaded gun; never pull a gun toward you by the muzzle.

8. Never shoot a bullet at a flat, hard surface or water; at target practice be sure your backstop is adequate.

9. Store guns and ammunition separately, beyond reach of children.

10. Avoid alcoholic beverages before or during shooting.

enthusiasm toward tennis that is now shown, next year will be a better year. A letter of thanks to Mr. Landry, Mrs. Barkwill and Mrs. Ken Storey will be sent on behalf of the municipality.

Works superintendent K. M. Blagborne was instructed to prepare an estimate of the cost of Mr. Landry's recommendation to be presented to the next parks board meeting.

WOMEN'S PAGE

**Honored on anniversary
and retirement date**

The permanent staff and their spouses of the Summerland Co-operative Growers' Association entertained on the evening of September 28th at a party at the home of E. A. Nicholson, who is retiring owing to ill health after working since 1944.

The day was also the 20th anniversary of Mr. and Mrs.

Nicholson.

During the evening Mr. Nicholson was presented with a lazy Boy chair on behalf of the staff by J. W. Gilmour, Manager and Mrs. C. D. Haddrell presented Mrs. Nicholson with a corsage of red rose buds.

On behalf of the warehouse employees, Mrs. Norman Dickinson presented Mr. Nicholson

with an electric razor and a purse of money.

Games were enjoyed during the evening after which dainty refreshments were served by the ladies. Also an anniversary cake was cut by the happy pair.

Those present were: J. W. Gilmour, Mr. and Mrs. W. Fell, Mr. and Mrs. F. W. Dunsdon, Mr and Mrs P. S. Dunsdon, Mr. and Mrs. Norman Dickinson, Mr. and Mrs. W. F. Woodbridge, Mr. and Mrs. C. D. Haddrell, Mr. and Mrs. N. Laidlaw, L. N. Charles and Mr. and Mrs. J. L. Brown, Mr. and Mrs. W. McElheron, Mr. and Mrs. Percy Austin and Mrs. L. N. Charles were unable to attend.

Practical Indian Suit

Even a make-believe Indian chief can be pretty rough on clothing when warring with the neighborhood cowboys!

It's a practical and popular Mother who makes a big contribution to the family budget while adding adventure to Junior's play hours, by converting a pair of old slacks into a costume worthy of the proudest

To perform this homemaker magic, it is suggested making Indian chief.

a felt fringe which is stitched down the outside seam of the slacks, and stitched to a simple felt vest to produce a suitable bolero top.

The fringe may be easily made by glashing two inch wide strips of felt. The sleeveless bolero may be cut from a paper pattern, or by using one of Junior's shirts. The felt fringe is applied in a similar manner around the outer edges of the bolero. To make false pockets wider strips of fringe are cut, stitched on either side of the bodice.

For armbands Junior will prize, narrow strips of felt may be decoratively stitched on a sewing machine, using threads in contrasting colors.

If you can not find Indian chief hats, Mother can fashion

one herself by cutting feather shapes from strips of felt. Feathers are stiffened by setting a zigzag sewing machine for a zigzag stitch and sewing florists wire up the center of each feather. The feathers are then attached to a head-decorated felt band cut to size.

REV. F. W. HASKINS will be inducted at a service in the Summerland Baptist Church on Thursday, October 18. He will be inducted by L. Young, of Kelowna, moderator of the Okanagan Valley Baptist Association. A social hour will follow the ceremony.

Comings and Goings

Mr. and Mrs. J. L. Brown visited in New Westminster over the Thanksgiving holiday.

Mr. and Mrs. O. Morphy, accompanied by Mr. and Mrs. G. Morphy of Rutland, motored to Banff and Lake Louise over the week end.

Mr. N. Friesen of Aldergrove visited with Mrs. Friesen over the holiday week end.

Mr. and Mrs. Jack Raincock and Michael spent the holiday in Fruitvale with their son-in-law and daughter, Mr. and Mrs. J. Kranz.

Mrs. Carolyn Menu and two children left Saturday to join her husband who is on the city police force in Edmonton.

Mr. and Mrs. Basil Thornthwaite and family visited Mr. and Mrs. H. Thornthwaite over the long week end.

Over Thanksgiving week end Miss Judy McGillivray of Spokane visited her parents, Mr and Mrs. Ed McGillivray.

Mrs. F. E. Atkinson left on Tuesday for Quesnel with Mrs. Ira Betts of Penticton, president of the Rebekah Assembly of B.C. to attend her official visit to Cariboo Rebekah Lodge No. 73 at Quesnel.

John Woolliams was home for the week end from UBC. On Saturday night he showed a group of friends pictures of Japan where he was an exchange student this year.

Mr. and Mrs. Eric Tait have returned from a trip to Edmonton and other points in Alberta.

Mr. and Mrs. Norris Laidlaw were in Radium and the Kootenays over the holidays.

Dr. and Mrs. C. C. Strachan have returned from a 2½ month tour of Europe.

Dr. and Mrs. J. M. McArthur and family attended the world fair in Seattle over the holiday.

Mr. and Mrs. John Coates have returned from a week's holiday in New Westminster.

Vern DeWitt of UBC visited his parents, Mr. and Mrs. H. DeWitt over the long week end.

Mr. and Mrs. W. W. Setter were week end visitors to the coast.

Miss Helen Farrow was here from the coast over the week end, a guest of Mr. and Mrs. C. M. Raham.

Miss Rita Greber, RN, of Vancouver General Hospital, was here for the week end with Mr and Mrs. Walter Greber.

Mr. and Mrs. A. C. Johnston were at the coast over the holiday week end.

Mr. and Mrs. Walter Charles of North Vancouver spent the Thanksgiving holiday with his parents, Mr. and Mrs. Vern Charles.

5

Money can work hard for you if you give it a real chance

Did you know the Summerland branch of the Bank of Montreal is equipped to help you start a safe and successful investment program to make spare cash do a real job of work for your future?

It's true. Buying and selling of securities is one of the many helpful services offered by the B of M. When you want investment information, the manager will be glad to put his knowledge of the security markets at your disposal. Indeed, he will call on his head office securities department, if need be. Then when you have made a decision, the Bank will attend to all the details in both the buying and selling of any securities.

The state of your current income and savings will best determine the scale of your investment program. But from time to time it's a good idea to take stock of your situation by reviewing your holdings. As a result of market changes, on which your bank manager can provide full information, it might be advisable and profitable for you to sell certain securities and buy others.

Either way, you can always be sure of getting helpful information and convenient service at the Summerland branch of the Bank of Montreal. And anything you discuss with Jock Johnston, the manager, or any of his staff, will be in absolute confidence, of course.

Attention Curlers

Anyone wishing to curl or be placed on a rink this year, please leave your name at Steve's Barber Shop, 5c-\$1.00 Store, or Holmes and Wade Ltd. by October 25.

SUMMERLAND CURLING CLUB

Kiwanians hear talk by Dr. J. Marshall

Forty sat down Tuesday night to dinner, including two visitors from the Key Club, president Bruce Hallquist and Archie McGillivray.

Ed McGillivray and Fred Schumann reported on Thursday's visit to the Oliver Club. They will be holding a charter night on November 1, when a large representation of Kiwanians and Kiwassi are urged to attend. Jerry Hallquist pointed out that this club was a product of Summerland's endeavour, and he means to organize a series of interclub visitations to Oliver by all other clubs in the district.

Herb Adams, introduced by Bob Alstead, and Don Carmichael, introduced by Bill Laidlaw, were duly inducted by Past Lt. Gov. Jack Towgood.

The Recorder was caught in an embarrassing situation over his name badge, and tried to pass the buck to Lloyd Shannon.

The speaker, Dr. James Marshall, was introduced by George Henry. He had been requested to talk on his visit to Africa, but for various undisclosed but insinuated reasons, refrained.

Instead, he gave his impressions on a book lately published, entitled "Silent Spring" which stressed to an alarming degree, the dangers of chemical pesticides applied to edible fruits and vegetables. The heads of agriculture, being concerned over how such propoganda could affect sales, and in an effort to re-assure the consumer, are pointing out how care-

fully, both grower and consumer are, by government laboratories and stations, protected and advised in all spray formulae, so that danger in consumption is reduced to the vanishing point. As he said, "It is like a page in a book a half mile thick.

Dr. Marshall's talk was greatly appreciated. He was thanked, on behalf of the club, by John Tamblin.

— The Recorder

FASTER FREIGHT SERVICE

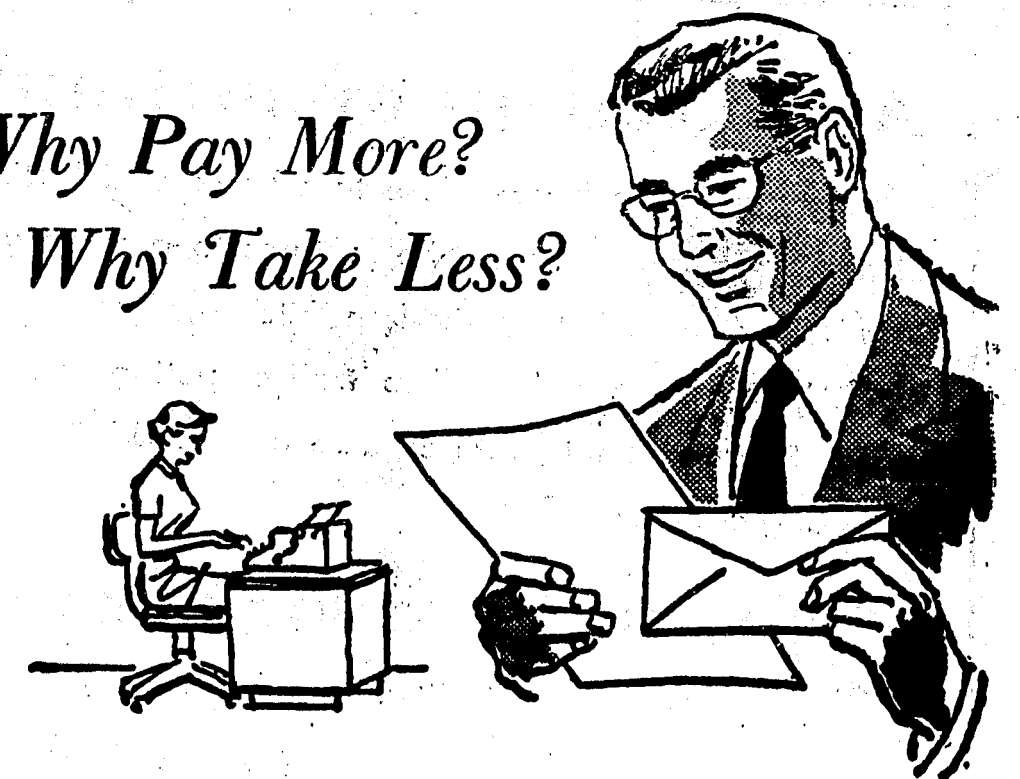

Later departure from Okanagan points and earlier arrival in Winnipeg than any other service, features the Canadian Pacific Railway's accelerated "Daysaver" freight schedule, providing for fifth morning delivery in Montreal and Toronto.

The new, stepped-up service, saving 24 hours, results from a series of recent successful tests runs conducted by Canadian Pacific.

Fruit traffic will leave each day in late afternoon from Osoyoos, early evening from Penticton, past midnight at Kelowna and arrive in Revelstoke early next morning to connect with the new "Daysaver" freight 946, eastbound from Vancouver.

This service provides second morning delivery in Edmonton. A Canadian Pacific official said the reduction in transit time can now be extended to eastern United States, cities such as Boston, Philadelphia and New York via Buffalo and Wells River Gateways.

Why Pay More?
Why Take Less?

IT'S GOOD BUSINESS TO BUY

Ref: Sec. 33 (a) & (b) Game Act (R.S.B.C. 1960, Chap. 160)

Vees playing for Shriners this Friday

The South Okanagan Shrine Club is looking for a sell-out crowd when they stage their Vees Homecoming exhibition game in Penticton October 12 at 8:00 p.m.

Being sponsored by the local club to raise funds for their Crippled Children's fund, the game will see the never-to-be-forgotten Vees, who stormed through 1955 unbeaten to bring the World Cup back to Canada, take on an all-star squad from the rest of the valley.

Contacted and definitely to be here for the game from points far afield, are Grant, Bill and Dick Warwick, Jack McIntyre, George McAvoy, Don Berry, Erunie Ruck and Mike Shabaga. Already on hand here and also slated to see action are Jim Fairburn, Kev Conway, Ivan McLelland, Bernie Bathgate, Jack Taggart and Don Moog, while bouncing down from Kelowna will be Jim Middleton.

Rush tickets are available from local Shriner's; reserve

seat tickets are available at the Hudson Bay Co., Penticton.

Hydro grant made to Peachland

B.C. Hydro and Power Authority will pay a grant of \$941 to the District of Peachland on November 30.

V. E. Norman, B.C. Hydro's Westbank-Peachland district manager, explained the amount is equal to three percent of gross revenue paid by the utility in 1961.

Total payments to Peachland this year by the Hydro Authority, including school taxes and grant, will be \$1,754.

Help for India

Since Adam and Eve the snake has been a universal symbol of evil, but there are rugged parts of India where the reptile is considered a god, and human sacrifice his rightful tribute. To fight age-old superstitions of poverty and ignorance, the Unitarian Service Committee of Canada stresses training in community development and village leadership for the most isolated and backward areas in India. USC Headquarters at 78 Sparks Street, Ottawa 4 is now asking for \$300,000 for over 80 projects of world relief, training and education.

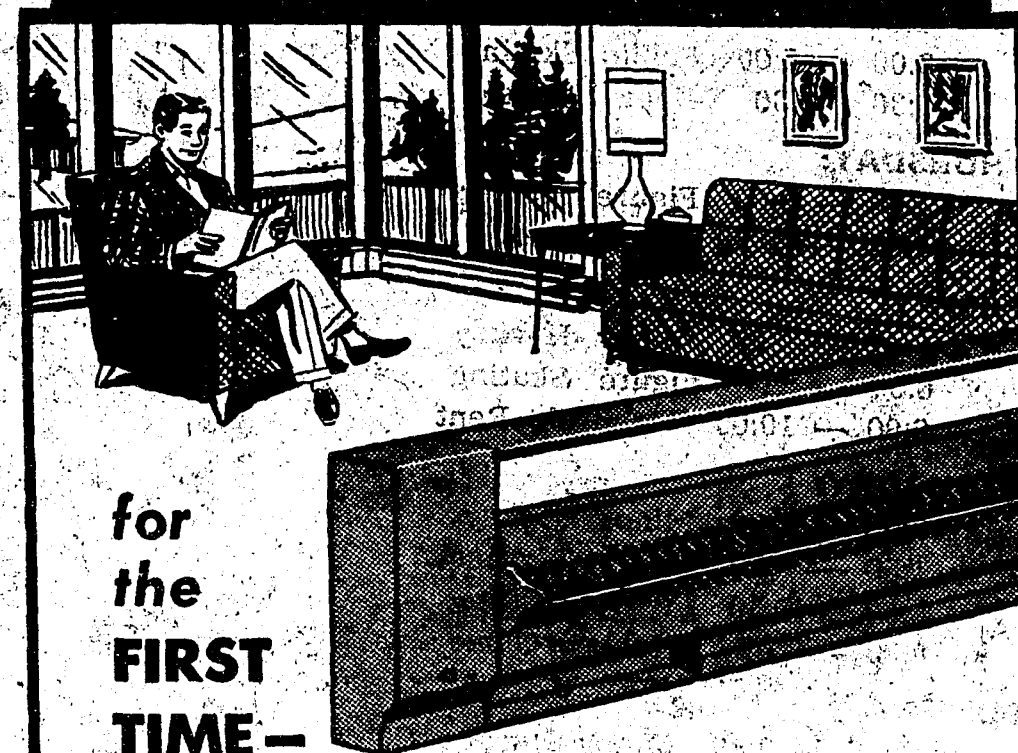

The popular operatic bass, Jan Rubes, once again serves as host and vocalist on Songs of My People, the CBC radio network program of traditional music from many lands. The show, which also features the orchestra and chorus of Ivan Romanoff, is heard each Monday evening.

Fire Prevention Week - October 7 - 13

Fires cause millions of dollars damage throughout Canada every year

October 7th to 13th, is Fire Prevention Week. This week is observed each year, in an attempt to educate our citizens and thus cut down the annual toll in life and property.

That such education is necessary, is obvious from two facts: Fire in Canada in 1961, cost Canadians over \$127,000,000 in property loss and over 500 lives, of which over 200 were children.

Learn all you can about Fire Safety, says Summerland Fire Chief Joe McLachlan, and put what you learn into practice — every day!

Here are some pointers from the Canadian Underwriters' Association that you will find useful:

Care with matches and smoking should certainly rank top of the list. These familiar objects are not so innocent when

it comes to fire. Do you know that, last year, they caused one out of every four fires in the nation

Because smoking and matches are so treacherous from the standpoint of fire safety, care with them should be your first consideration. A cigarette put aside while the smoker goes to answer a call at the door, or to look for the television program guide is so easy to forget — and so dangerous. Sometimes a cigarette tips off the ashtray and down out of sight in the upholstery. It can smoulder there unnoticed for hours. Later — maybe, after everybody's "safe in bed" — fire strikes the unguarded home.

Everyone knows they should never smoke in bed. But smoking in an armchair is equally dangerous because it makes the smoker feel a bit drowsy. He may doze off and if he is fortunate he may be awakened by flames or smoke. Top often, however, the dozing smoker is rendered unconscious before he awakens, and so becomes another fire fatality.

A match tossed into a wastebasket is an invitation to big trouble. And too often matches and lighters are left where they'll intrigue children, instead of being placed safely out of reach of those innocent hands. Children playing with matches often cause fires, but it's the adults, not the children, who are really responsible for such fires.

There's no doubt that it's the adults who are responsible for bad housekeeping, which creates fire hazards by the dozens. We permit trash to accumulate in attics and basements. Old newspapers, clothes and upholstered furniture are left lying around the house. Instead of throwing it out, we leave this rubbish there — handy fuel for many a big fire. A little systematic cleaning up of such odds and ends would prevent this type of fire.

Another great cause of fire, one in five fires in fact, according to the Canadian Underwriters' Association — is the misuse of electricity. Some people use too many extension cords from their outlets and overload

the circuit. They put in fuses that are larger than the line was designed for. They run extension cords under carpeting and hang them over nails so the ends become frayed. Frayed wiring represents an open invitation to fire. If there is any doubt about the safety of the wiring in your home, call in a qualified electrician and have him check it out.

Fire damage to lives and property can be reduced by simple precautions. But each and every one of us must assume a share of the responsibility for fire safety if we are to put an end to this senseless suffering and waste. This week — Fire Prevention Week — is a good time to start.

Is your heating equipment ready for the winter season?

October 7-13 Fire Prevention Week

Check your furnace now. Make yours a safe stove, even if it means a dirty face today. Better a black face now than something worse later on when it's really cold outside. Heating fires are the second highest cause of fires in Canada.

Your Electric Fuse is a "watch dog". Why muzzle?

"OH FIREMAN Stay away from my door"

FIRE PREVENTION IS NEVER OVER!

STOP LOOK

But Don't Listen

IF YOU HEAR ANYTHING, IT'S TOO LATE!

Do your lights dim or flash when your stove, refrigerator or any other appliances are turned on or off. If the answer is yes, then your wiring is too small and you do not have an adequate wiring system. Don't take a chance with faulty wiring! Fires are too costly and dangerous. The winter months are here and you are going to use more electricity, causing your wiring to carry a larger load. The result from an overload is heat. Too much heat on wires causes fire.

October 16	56	35

Corporal Larry Martin of the RCMP suggests local homeowners start now to take Halloween precautions. Do not leave tempting objects around your home for pranksters to tip over or take away, he advises. Leave plenty of lights on and the evening will probably be as sane and safe as last year.

He commented that last year had been particularly quiet over Halloween and he hopes that with additional patrols evident and the 9:30 p.m. curfew strictly enforced, things will be well in hand this year, with co-operation from both homeowners and young people.

Mrs. Phil Smith was the winner of the Kinetite Dress Raffle. Mrs. Don Agur picked the winning ticket on Saturday.

The Summerland Badminton Club's annual bridge tournament begins Friday, October 26 in the Anglican Parish Hall at 8:00 p.m. If you are a bridge fiend, and wish to take part, phone Mrs. Wilf Evans at HY4-6116 or Mrs. C. Bernhardt at HY4-6046.

If you're not content to exercise by turning the TV set on and off, badminton is now in full swing. The club is looking for new members and they meet Tuesday and Thursday evenings at 8:00 p.m. in the Badminton Hall. Junior players meet Wednesday and Friday afternoons after school.

Services for Frank Maddocks

Mr. Frank Maddocks passed away in Summerland General Hospital on Saturday, October 13, at the age of 59 years.

He is survived by his wife, Gladys; two sons, Raymond and Bruce, at home; two daughters, Mrs. Vernon (Lois) Borton of Saskatoon; Miss Frances Anne at home; three grandchildren and two sisters in England.

Funeral services were conducted from St. Stephen's Anglican Church on Tuesday, October 16 at 2:00 p.m. with Rev. Norman Tannar officiating. Interment in Anglican cemetery with graveside service conducted by members of Lodge No. 58, A.F. and A.M.

Growers endorse executive's protest

Nearly 100 Summerland growers turned out Monday night to give a vote of confidence to five executive members of the BCFGA Local who had threatened to resign in protest against pool.

The meeting was held in the IOOF Hall with visiting growers present from Penticton, Vernon, Kaleden, Naramata and Oliver.

Chairman Charlie Bernhardt read the letter of resignation, which was signed by vice chairman Hans Stoll, secretary-treasurer John Caldwell and George Stoll and Bill Gallop.

The statement was made public two weeks ago and said that the leaders in the fruit

industry had shown "utter contempt and disregard for the wishes of the growers" by instituting an early apricot pool.

Mr. Bernhardt said: "This is a serious charge, but we feel we are doing the right thing in taking a stand rather than being quiet."

"Regardless of whether the soft fruit pooling committee's action was right or wrong, the pooling committee acted against the express wishes of the convention.

Mr. Bernhardt stated: We have not been able to draw attention to this serious matter through the district council, and had to make the matter public."

The chairman quoted from the bylaws of the grower organization and the McPhee report in support of his argument.

He said: Only authority in this industry is what comes from the growers. When the growers voice a decision, it should be abided by."

We must have compulsion in marketing, he said, but not compulsion against majority of growers.

BCFGA director, Eric M. Tait, said that Mr. Bernhardt was trying to remove the authority delegated to the executive at the conventions. This, he argued would reduce the executive to the position of a rubber stamp

group (and it could be replaced by a business manager.

Mr. Tait criticized a recent editorial in the Summerland Review. "It presented only one side of the argument" he said, "It should have urged full attendance at the grower's meeting, but not taken sides."

Mr. Tait said the industry has a very effective executive which is responsible to all the growers. Other locals, he said, are complaining that not enough action is being taken.

Mr. Tait said that a recent meeting of the soft fruit pooling committee had been held in attempt to find a solution to the problems and the following broad principles were outlined: pooling regulations should be written in such a manner that the grower is encouraged to produce for the market and not for the pool; period pooling should be allowed; and pooling committees should not become a rubber stamp.

BCFGA president A. R. Garrish said he could not see any quarrel with the procedure fol-

lowed by the soft fruit pooling committee. He said the resolution last year failed to gain support because it had not received the consideration it was entitled to.

Mr. Garrish said that the Summerland growers dwelt excessively on authority of the convention and understated the authority of the executive body.

One document not quoted, he said, was the three-party contract, under which pooling is conducted, guided by the directors of the pooling committee.

A former chairman of the apple pooling committee, J. Y. Towgood, of Summerland, said that members of a committee have moral responsibilities to more than one group of growers, and it had been his experience to find committees acting on an impartial basis.

After a lengthy discussion period, Rob Towgood moved a vote of confidence in the executive, asking them to retain their offices to the annual meeting next month. This resolution passed with a large majority.

Skiers prepare for season

Skiing will start in Summerland on December 7 when a registration night will be held for new skiers. Plans drawn up over the week end by the Ski Club call for a complete program this winter to initiate adults and youngsters alike in this popular winter pastime.

Expert skiers will be on hand the opening night to explain some of the fundamentals of the sport. As soon as snow is on the hill in Meadow Valley, free classes will be given every Sunday for eight weeks.

Ski Club president Don Agur reports that a new tow will be installed shortly, the cabin will have a new floor and be fixed

inside and outside. Weeds and stones will be removed from the hill and an area set aside for toboggans. A work party will go out this Sunday and volunteers are welcome, said Mr. Agur.

Police court

Despite repeated warnings from RCMP Royal Canadian Legion patrons are still parallel parking in front of the building on Rosedale Avenue. This is an angle parking area and RCMP warn that more tickets will be handed out to persons incorrectly parked.

Howard George Ezeard of West Summerland appeared before magistrate Reid Johnston on Wednesday on a charge of supplying liquor to a minor. He was fined \$100 and costs or in default two months in jail. He elected to serve the term and was escorted to Oakalla later in the day. He was also interdicted.

Teachers meet in Penticton

Curriculum was the theme of the 41st annual Okanagan Valley Teachers' Association convention held in Penticton Thursday evening, Friday and Saturday of last week.

Very Reverend J. C. Jolley, dean of St. Paul's Cathedral in Kamloops, told the opening meeting that education is basically a search for truth. Dean Jolley said that many believe education "is the equipment for the making of a living." "Rather," he claimed, "it is the equipment for the making of a life."

Dr. Roy Daniels, head of UCB's department of English, and J. R. Meredith, provincial director of curriculum, department of education, spoke.

Dr. W. J. Hartrick of UBC told teachers "no drastic change in the education of children will take place without your approval. As long as you control your classrooms, you control education. Any change must come from the classroom teacher."

Agur.

An official opening day of the ski hill has been tentatively set for Boxing Day, when the new tow will be in operation.

The club will also attempt to establish an exchange depot for ski equipment. Ski club secretary Phil Munro says that there is a great deal of used equipment in this area, and with the increased enthusiasm being shown for skiing in Summerland, it should be brought back into use.

Tow rates will be approximately the same as in former years and a concession booth will be operated in the cabin.

"Skiers, both young and old, experienced and inexperienced, can look forward to a good season in Summerland, said Mr. Agur.

Tag day successful

The tag day for the blind conducted by the Summerland branch of the Canadian National Institute for the Blind on Saturday raised \$243.

The chairman, Mrs. W. S. Rothwell, would like to thank everyone who contributed or helped in any way to make the day a success. Special thanks go to the many volunteer workers. These were: Mrs. J. H. Dunsdon, Mrs. Colin McKenzie, Mrs. Thos. Fisher, Mrs. Ivor Nilson, Mrs. Fred Downes, Mrs. G. Ryman, Mrs. S. A. MacDonald, Mrs. Will Brown, Mrs. Eric Tait, Mrs. Thos. Winter, Mrs. R. D. White, Mrs. Phillip Smith, Mrs. Hans Moors, Mrs. C. M. Robinson, Mrs. Norris Laidlaw, Mrs. Granville Morgan, Mrs. A. L. Robinson, Mrs. F. Gibbs, Mrs. N. Charlton, Mr. and Mrs. Gordon Dinning, Robert Alstead, Misses Louise Atkinson, Dorothy Britton, Lois Read, Edith Verity, Janet and Linda Munro, Jean Charlton, Barbara Miller, Pat McCutcheon and Aloma Polesello.

Anyone who has not contributed to the campaign is urged to do so by sending a donation to the treasurer, Mrs. J. H. Dunsdon, R.R.1, West Summerland.

New tourist projects proposed by chamber

Summerland is in a favorable position for tourist development because it is one of the few suitable areas undeveloped in this province.

F. E. Atkinson reported at last week's Chamber of Commerce meeting that this statement had been made by H. F. E. Smith, industrial secretary at B.C. House, London, when he visited here in June.

Mr. Smith said that foreign capital wants to invest in B.C. and that they were interested in large projects.

Suggested developments included a sky car to the top of Giant's Head mountain, similar to projects developed in Switzerland. As well as providing an exciting trip to the top, the

view from Giant's Head is one of the best in the Okanagan.

Also suggested was the development of a game park in the Fish Lake area. Although this is a long term investment, it is the type of development foreign investors are looking for.

A complete discussion of foreign investment will take place at next month's meeting.

President G. C. Johnston reported that there are now 54 paid-up members in the chamber.

The secretary was instructed to write a letter to the registrar of voters regarding the large number of inaccuracies in the voter's list used in the recent liquor plebiscite.

Credit Union hosts dinner

Summerland and District Credit Union is observing today, Thursday, October 18, as International Credit Union Day. A dinner will be held in the Rosedale Room of the Royal Canadian Legion tonight at which the senior citizens of the community have been invited. Miss Enid Maynard will show slides taken at the South Okanagan Girl Guide Camp and on her recent trip to Japan and the Orient.

A letter from Prime Minister John G. Diefenbaker is proudly displayed this week in several thousand credit union offices across Canada. It salutes the country's 2,700,000 credit union members on the occasion of International Credit Union Day, celebrated annually on the third Thursday of October.

Extending his greetings for

this special day, October 18, the prime minister comments that the "expansion of credit unions in Canada affords strong evidence of the worthwhile functions that are being performed by them."

In the expansion noted by Mr. Diefenbaker, Canadian credit unions last year extended their membership to an additional 200,000 people — a 6% increase; increased their savings by 12.3% — another \$147.6 million; and boosted their assets by 13.3% or \$169.6 million.

The prime minister's greetings and good wishes to credit union people were sent to the Canadian office of the Credit Union National Association (CUNA) in Hamilton, Ontario and CUNA mailed a facsimile to each of the country's 4,800 credit unions.

REAL ESTATE**Three Bedroom Home**

Ultra modern three bedroom home, very large lot, with garden and trees. Large picture window, living room, dining area, very modern kitchen, approximately 1,400 square feet, full basement, partly finished in rooms. Automatic heat, three years old.

**Canadian Bible Society
film showing October 23**

The Christian Church faces its greatest hour in a world where tremendous forces are battling for the minds of men, declares Rev. J. A. Raymond Tingley, district secretary for British Columbia of the Canadian Bible Society.

Mr Tingley will be addressing a public meeting in the Summerland Baptist Church, Tuesday, October 23 at 8:00 p.m.

Mr. Tingley is travelling in the province confronting the churches with their responsibility of supporting the Bible Society in its world wide work of supplying the scriptures for every man in his own language,

while doors of opportunity are still open.

He is telling the story of the Umbundu-Portuguese Bible for Angola, which is considered to be the biggest task ever undertaken by the British and Foreign Bible Society. He speaks of the desperate need for Gospels in India and Africa, of the famine of Scriptures in many of the countries of South America, of the temporary lifting of the embargo to allow 300,000 Bibles and 300,000 New Testaments to be sent to Indonesia.

The secretary is showing an inspiring motion picture entitled, "Unto the Hills", portraying the church at work in the fascinating land of New Guinea

GRANT SCHOOL FUNDS

A special resolution proposed by Denis Donovan of Penticton and John Tamblin of Summerland which allows the Okanagan Valley Teachers' Association to grant school funds for experimental studies was approved at last week's teachers' convention in Penticton.

Schools carrying out experimental projects or special courses may apply for funds to cover costs provided the school provides written records of the results of the experiment.

Summerland Secondary School is undertaking special units in various science courses at the grade 8, 9 and 10 levels.

**Active part
taken by
teachers**

Summerland teachers played an active part in last week's 41st annual Okanagan Teachers' Association convention held in Penticton.

Bob Chalmers of the Secondary School staff was chairman of the Mathematics Teachers' panel. Discussion centered around the modern mathematics approach introduced in B.C. schools this year at the grade three and eight levels.

Mrs. Ethel Sears was elected president of the Okanagan Primary Teachers' Association and Mrs. Maureen Toevs was named secretary.

Mrs. Rudy Lidstone of Enderby and Ray McNabb of the Trout Creek School will report to the Provincial Intermediate Teachers' Association on the new association just formed in the Okanagan. The provincial association meets at Easter in Vancouver.

Mr. McNabb also spoke on the revision of the grade 4, 5, 6 and 7 arithmetic courses. The grade 4 revision is scheduled for September, 1963 and the others for the subsequent year. Other members of this panel were Al Shipton and Jim Ellis of Penticton.

Employment high

During the first ten months of the current year, a total of 121,860 men and women were placed into jobs by National Employment offices throughout the Pacific Region. Horace Keetch, regional director, Unemployment Insurance Commission, Vancouver, announced today.

"This was an increase of 12,829, or 11.7 per cent, over the total placed during the corresponding period last year", he said.

"It was also the highest number of placements recorded for any similar period since 1945", Mr. Keetch added.

Total number of placements for September was 12,845, an increase of slightly over 1,000 from the same month a year ago. Coincident with this increase was a drop of about 12 per cent in the number of persons registered for employment.

"The outlook is still bright and employment is expected to continue at a higher level than is usual at this season of the year," Mr. Keetch said.

The new Canada Savings Bonds pay 4½% interest for each of the first three years; 5% for each of the next three years and 5½% for each of the final eight years—an average interest to maturity in 14 years of 5.11% per year. In dollars and cents every \$100.00 you invest will grow with accumulated interest to \$172.50 at maturity.

You can buy a \$100.00 bond for as little as 29¢ a day, through the convenient Payroll Savings Plan where you work. Canada Savings Bonds can also be bought for cash, or on instalments at any bank, investment dealer, stock broker, trust or loan company.

They are available in amounts as low as \$50.00 to any Canadian resident—adult or child—up to a limit of \$10,000.00 per person.

Estates, too, may buy. Interest is payable annually by coupon, or on the higher denominations by cheque, if desired.

You can cash your Canada Savings Bonds at any time, at any bank, at full face value plus earned interest.

Buy new Canada Savings Bonds today—best ever!

Editorials

LETTER TO THE EDITOR

Osoyoos favors early pool

The Editor,
The Summerland Review
Dear sir:

The resignation of the Summerland BCFG Committee focuses attention upon one of the problems of this industry — who is to decide how crop returns are to be divided, and on what basis? The Summerland point of view, that in this grower-controlled industry the decision of the growers at their annual meeting must be supreme, is easily understandable.

In most matters this is how it should be and must be — but there is a good reason for questioning if the distribution of money from the crops should be decided by a majority vote of the delegates. The reason is that a majority vote could be unfair to a minority of the growers, since delegates have a divided responsibility — for the welfare of the industry as a whole, and for the interests of the local area of which they are delegates.

Changing conditions change the market value of fruit, but getting the pooling structure changed through convention decisions could be and has been a lengthy process. If a proposed change is downward, either for a variety or within a variety, delegates are going to be very reluctant to approve it, when it means lower returns for growers of their Local. Those proposing a change, if representing a minority, could be outvoted year after year. To contend that the convention in pooling, is to argue that might makes right.

The pooling committees should

be making changes as the need occurs, not waiting for conventions. This is the function which the pooling committees should be performing, but the industry has got itself into a strait-jacket through precedent, which makes the committees little more than the means by which convention decisions are carried out. This came about several years ago in connection with the apple pool when some prices for the varieties paid on a five year average was very far from reflecting what they were earning on the market.

Modifications made by the Pooling Committee did not keep up with a rapidly changing market situation, until the Convention, taking a hand in pooling matters, urged more and faster changes in the structure to reflect more accurately the market value of the varieties. In that way the Convention came to be the guiding force in Pooling affairs.

It seems to us that we have to get out of thinking the convention is, or should be, supreme.

Sometimes we need the convention to give a committee a push, and sometimes we need a Committee to make changes a Convention may be slow to authorize. So much for the general picture.

Writing now as delegates representing Osoyoos growers, the five day pool at the beginning for apricots, is very small potatoes. It is merely a device to slightly spread the marketing season and, having the first five days' shipment on their own, will have little effect on

(Continued on page 6)

Parliament Hill report

David Pugh, M.P.

Last night, Thursday, October 11, ended the debate on the speech from the Throne. The Speech from the Throne

gives in broad detail the Government's intention and covers eight full days of debate. I have spoken to many impartial observers and general comment is that there has been a lot of sword-rattling but that a party would have to be bold to do anything which would be the cause of an election at this time or in the near future. Motions showing want of confidence in the Government are traditional and indeed it is a duty of opposition parties to follow this line. The speeches throughout were of a high calibre but in many cases the differences of opinion expressed at election time were gone into more thoroughly. To those who read Hansard there is a fund of knowledge available and I am sure that many people are asking now that they have had a full report: "Did the Government deceive the people of Canada and have the steps taken to date on revaluation of the

dollar and exchange control been so far away from the steps a reasonable person would have taken?" These issues will come up again and again during the course of his parliament.

In the meantime the legislative program will be gone ahead with. This morning the first Government resolution was brought before the House and deals with export credit. A few years ago the Government increased the amount of money available and the terms of reference because of our need to guarantee payment to our exporters on goods shipped to countries where purchase money was not readily available. During the past two years this trade has increased tremendously and hence the need for further funds has been made necessary. Detailed changes in procedure must wait until a bill based on the resolution is heard in the House of Commons. However, the questioning to date has brought out two things — Government efforts to increase sales by trade missions, trade fairs and the like, and the actual enormous increase in export trade.

An Editor's opinion

Many times in the history of journalism have people remarked that people shouldn't do this or that — or refrain from same on the "editor's say-so". Yet we of the newspaper profession, large and small, take pride in the fact — and it is a fact — that many, many times have people been alerted, to an issue by reason of the "say-so" from the editor's chair.

Editors have been threatened, cajoled, wheedled, and efforts made to bribe them. Through all of this he has stoutly maintained the right to "speak his piece". Sometimes he rushes into an argument about matters with which he is unfamiliar, but not often. Customarily, the editor writes about, and expresses views on principles, it being a tradition of the craft to uphold the foundations of democracy, rather than become involved in technical disputes.

This was the stand taken recently by the editor of the Summerland Review when he spoke out about the situation in local fruit circles. While the issue involving the Summerland Local developed over soft fruit pooling — about which your editor is admittedly ignorant — the underlying core concerned a principle of democracy, and of parliamentary procedure. And on those topics we feel we can speak with authority.

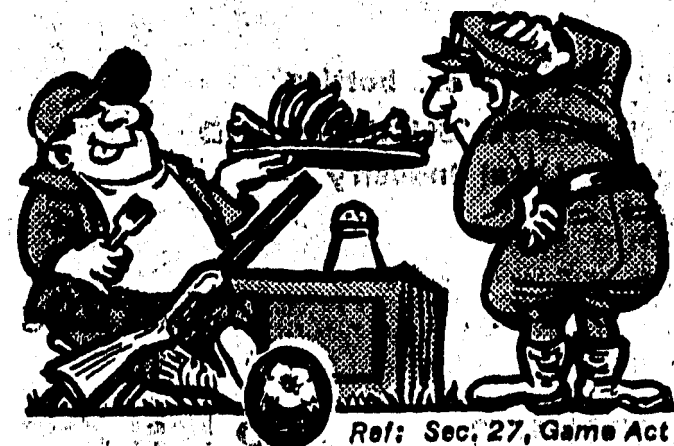

Insofar as this newspaper is concerned the rights or wrongs of an early pool for apricots are a matter for the experts. But the stand that the growers' parliament shall remain supreme, that the grower shall, by reason of his own will and choice, have the right to declare what he wants in his own industry, is paramount. Otherwise, as we stated in our previous effort, you will have dictatorship.

And after Monday evening's meeting, we can see no reason to change our stand.

That is the point where we entered into the fray. So long as the grower, wisely or otherwise, wants to control his own destiny, and so long as this is the agreed will of the majority, just so long will this newspaper continue to support him in his efforts to retain the basis of democracy. Should the grower, freely and of his own will, relinquish that right, assigning the full control of his product to others, then we shall have nothing to say on that matter.

But we shall continue to give our readers our best thoughts on the principles of all matters that relate to the upholding of democracy — and we do not think anyone will attempt to deny us that privilege, no matter how much they may differ with our opinions.

We here use the word "opinion" — and the editor must have an opinion, must expound a viewpoint, or else his writings are colorless and without use or purpose. Some have said an editor "should be impartial" but no person can write impartially. An editor may, and usually does, open his news columns to "both sides of the question". But when he types out his editorials, he is a person, with personal views. Thus it is but right and proper that he should portray such views in his own corner, the editorial column. This we shall continue to do, to the best of our ability — and any who may disagree with us will find our columns in this newspaper open to them, for a full and free expression of contrary opinion.

Farm & Garden Supply

A Junior College

What will it do for the Southern Interior?

The proposed Southern Interior Junior College will benefit the youth of the area as follows:

1. Students can commute or live close to home.
2. Closer relationship between staff and students because of smaller classes.
3. Easier adjustments from High School to College.
4. May eventually become a full University.
5. Providing University level education, first and second year, at lower cost.

Mr. John Macdonald, president of the University of British Columbia, wants Junior Colleges established. He will be in Penticton on October 31st. He will examine the qualifications of the Southern Interior area to have a Junior College.

It is important that this area demonstrate wide support for the Junior College proposal.

You can help by becoming a member of the Southern Interior Junior College Society. Memberships are \$2 and may be obtained from Mr. Ken Boothe.

The charter meeting will be held Friday, October 19, 1962 at 8:00 p.m., in the Cafeteria, Senator Shatford Building, Penticton High School, Penticton.

Everyone is invited — members only may vote.

GROVE CLOUGH,

Provisional Chairman

WI prepares for bake sale

A true and false questionaire about Summerland proved interesting, educational and amusing to the members of the Women's Institute at their regular meeting Friday afternoon, October 12 at the Parish Hall. Mrs. E. O. Mortimer, convener of Cultural Activities asked questions of the two teams chosen by the president, Mrs. W. S. Rothwell and the vice-president, Mrs. E. M. Tait. Only one point separated the teams at the finish, which shows that most of the women are well aware of the facts and incidents of local history. As a reward for winning the president's team was allowed to sing "Home Sweet Home".

During the business meeting reports of standing committees were given with all conveners making arrangements for their booths at the variety sale which will be held at the IOOF hall, Saturday, October 20. Good used clothing, home baked goods, plants, flowers, vegetables and fruit will be on sale. At the opportunity booth costume jewelry, books and many other articles may be purchased. The gift and apron booth will feature beautifully dressed dolls which will delight any little girl. A delicious tea will be served.

A donation of \$10 was made to the "Freedom from Hunger" campaign through the Lady Aberdeen Scholarship fund.

A donation was made to the local CNIB campaign and a donation of cash will be sent in October.

A shipment of cardigans and other clothing will soon be sent to the Unitarian Service Committee. The Secretary, Mrs. L. W. Rumball, read a letter from Dr. Lotta Hitchmanova asking for more cardigans in 2, 4, or 6 year sizes, heel-less stockings and all kinds of baby clothing. Knitting directions may be obtained from Mrs. Rumball, Mrs. George Inglis or Mrs. G. Dinning. Quilts size 35 by 60 inches are also needed.

The next meeting will be held on November 9, and Mrs. Gordon Ritchie will show slides taken on her recent trip through Panama, Tahiti and New Zealand. Visitors are welcome.

Locals

Mr. and Mrs. Cormie McArthur and family left Sunday for their home in Dawson Creek. They have been here for the past eight weeks while Mr. McArthur has been a patient in the Penticton Hospital.

Mr. and Mrs. A. R. Rothwell of Calgary are visiting Mr and Mrs. W. S. Rothwell

Mr and Mrs. C. V. G. Morgan and family were in Vancouver over the week end.

New books at the library

by Kay Dunsdon

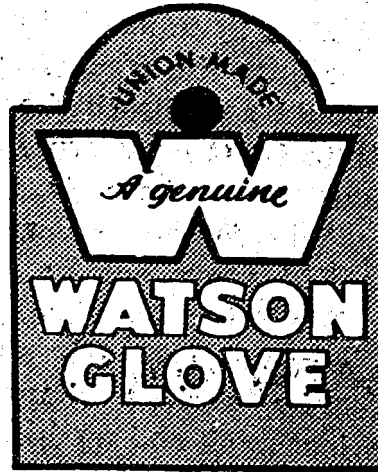

One of the more recent books to come to our library is the "San Franciscans" by Niven Busch. This is a well written and easy-to-read novel of shrewd businessmen and lawyers playing for high stakes in the banking world of a large city.

Laura Yarnum, a banker's widow, is determined to maintain the honor and prestige of her late husband, against the ruthless young attorney out to gain control of the bank. Although sworn enemies, they are drawn to each other, in spite of themselves.

"The Silver Trumpet" by Stuart Cloete, is a collection of

African stories by this well-known writer. These are the real campfire tales of old Africa, of hunting for lions, elephants and leopards, and tales of the Kaffirs and Zulus and diamonds. A man would enjoy this book.

Kiwanis Club Notes

Only 27 sat down Tuesday night. Three omitted to advise their inability to attend by the prescribed 1:30 p.m., so these three will be having a date with the sheriff.

George Henry is celebrating his 10th (?) wedding anniversary on October 30.

Chairman of the nominating committee, Jack Towgood, read out the suggested slate of officers for 1963, which will be brought up at the annual meeting on November 6.

Wally Harrison reported on repairing wind damage to one of the school bus shelters. It seems to be everyone's ambition to satisfy George Henry regarding these shelters — if possible.

Jack Towgood and Ed McGillivray outlined the program the Oliver club has arranged for their charter night November 1. They stressed the importance of a large representation of both Kiwanis and Kiwassi from Summerland, as we are the sponsoring club.

A director's meeting will be held at president Toev's home October 23.

The evening wound up with the showing of a movie film, loaned by the telephone company through Bernie Hubbard. Projectionist was Lloyd Shannon. It depicted the development and installation of the micro-wave system.

— The Recorder.

SCOUT SHORTS

1st Summerland Troop

This week the troop had a talk from Fire Chief Joe McLachlan in connection with Fire Prevention Week. Mr. McLachlan specially demonstrated the use of different fire extinguishers. His talk was very successful judging by the interest and questions from the boys. This will be followed up later by work toward the Firemen's Badge.

The regular instruction featured first class knots, second class signalling and second class first aid. Boys ready to pass any of these tests can do so by phoning any of the leaders for appointments during this week.

At last meeting we had the pleasure of presenting P. L. Roger Blagborne with his Queen's Scout Badge. Roger is leaving scouts on account of many other activities; best of luck, Roger.

— D. V. Fisher, Scoutmaster

Strikes and Spares

by Herb Simpson

Bowling got under way on Monday evening, October 1 at the Bowladrome with 23 teams entered in the mixed league for the 1962-63 season. Several new members have joined the league, among them being the new owners of the Bowladrome Bill and May Ramsay.

During the first three weeks of play, averages are established for the league is divided into A, B and C divisions according to team averages.

Results of the first week of play were as follows: Men's high single game, Earle Bryden — 260; Ladies high single game, Muriel Walker — 296; Men's high three games, Al Hooker — 698; Ladies high three games Eileen Fell — 686. High team, Questionables — 2742.

Results of the second week were: Mens high single, Eric Ek — 254; Ladies high single, Sharon Hooker — 272; Mens high three, Eric Ek — 650; Ladies high three, Sharon Hooker — 619; High team, Questionables — 2765.

A man and a lady are needed to complete the 24th team in the league, so anyone interested is asked to contact the alley managers as soon as possible.

This week the troop had a ular feature during the bowling season, so watch for more scores and bowling news next week.

OSOYOOS FAVORS

(Continued from page 3)

returns for all later cots. What we think the situation really requires is to break the rest of the season into two pools, ending the first when the surplus situation developed. Our growers feel that their cots, which sold at approximately \$100 per ton, should not be pooled with the later cots of which 1700 tons had to be diverted to processing outlets at a much lower price because the fresh fruit markets could not absorb them. If this is to be the pattern for the future, then there is no money in 'cots for anyone, and cot trees will come out in all districts. We think the justice and the economics of the situation require such a change in the apricot pool, and we have asked the Committee to make that change for this crop.

We have sought such changes at the Convention for the last two years, and our resolutions have been defeated. We have argued that the accepted general principle of reflecting market value in the pools be applied in the case of all soft fruits, and that the time when fruit is offered for sale is a factor in determining its value. This is not a new principle. (In the case of cherries for instance, away back in 1941, in the first years of central selling, there were 17 pools for Bing and Lambert cherries reflecting any small fluctuation in the market.) We feel that this aspect of value, acknowledged now in part in pooling, has to be more completely recognized. We feel that we can be outvoted for years to come at conventions and our growers continue to receive \$70 a ton for 'cots which sold for \$100. This is the reason for our request to the pooling committee.

Committee,
Osyoos Local BCFGA

Curling starts Nov. 5

A general meeting of the Summerland Curling Club was held in the club rooms Wednesday, October 3.

Regular draws for the season will start on November 5. A school will be held prior to that date for beginners or anyone wishing to brush up on their curling.

All interested in curling this winter are requested to leave their names at Holmes & Wade before October 25.

Members feel that the new plastic sheeting erected over the ice surface by the municipality this year, should improve curling considerably.

FLAMELESS

Electric HEAT

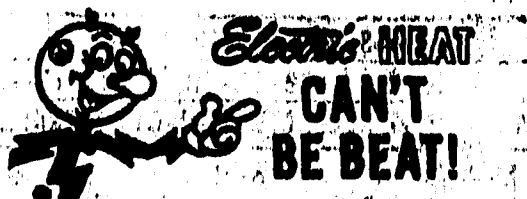

Electric Heat is even heat. It warms and feels like sunshine. It eliminates hot blasts and cold drafts. Humidity is accurately regulated.

Electric Heat assures room-by-room temperature control. A thermostat in every room gives you exact heat, when and where you want it.

Avoid the hazards of fuel and flame. With Electric Heat there is no pilot light to go out, no fuel to store, no odour, nothing to escape or leak.

Electric Heat is clean. You seldom need to clean and redecorate. Electric Heat combusts no fuel and creates no dirt. Your walls, ceilings, rugs and drapes stay clean longer.

Electric Heat eliminates what you don't want, and brings everything you want in a heating system.

USE **Flameless electric heat**

INTERNATIONAL CREDIT UNION DAY

THURSDAY, OCTOBER 18

Your Credit Union Provides:

Endowment Plans

Chequing Accounts

Loans

Personal Savings

In the Credit Union movement we believe

Credit Unions are associations of people, owned and democratically controlled by their members. Should they cease to be such, they cease to be Credit Unions.

Credit Unions are essentially thrift associations. They recognize thrift as the wise use of one's resources, which includes credit. They devote themselves to the development of regular thrift programs, to provide their members a greater measure of financial security.

Credit Unions must provide maximum protection for their members' shares, adequate surety bond coverage and systematic supervision by the auditing committee of their own members. They must have adequate annual examinations as required by law.

Credit Unions provide their members thrift and loan service that is more complete, more convenient and more thoroughly helpful than they could otherwise obtain. Where possible they provide insurance to cover the lives of their members to the extent of their loan balances and on all or a portion of their shares — for the benefit and protection of their members' families.

Credit Unions should regard the character of the borrower as the prime security consideration regardless of the amount involved, and the rate of interest can, by law, not exceed one per cent a month on the unpaid balance.

Credit Unions recognize the essential and important place banks and other financial institutions have in our economy. They appreciate the service these institutions render and believe that friendly relations with them is desirable.

Credit Unions are united with each other to increase their services to their members and fulfill their obligations to bring Credit Union benefits to all people.

Credit Unions are alert to changing conditions and should adapt themselves to changing needs and desires of their members, while they always maintain their basic integrity and principles.

Credit Unions are responsible organizations in their communities and fulfill their civic obligations in a generous and exemplary manner.

Credit Unions have demonstrated that average people can operate their own financial institutions. Credit Unions are increasingly recognized as instruments of human well-being and will continue to be, so long as they maintain and cultivate highest levels and standards of conduct.

"I had six honest serving men

(they taught me all I knew),

Their names are What — and Why — and When —

And How — and Where — and Who."

— Rudyard Kipling

What?

YOUR DOLLARS TO BE SAVED AND INVESTED.

Why?

TO PUT THEM TO WORK MAKING MORE DOLLARS

When?

NOW — WHILE YOU ARE EARNING MONEY

How?

BY BRINGING THEM IN.

Where?

TO SUMMERLAND CREDIT UNION

Who?

YOU! You and everyone in this community can get more at the Summerland and District Credit Union. Make your lazy dollars busy dollars.

SUMMERLAND AND DISTRICT CREDIT UNION

Not for profit, not for charity - but for service

Under the Giant's Head

Recently a bicycle rodeo for Cubs was held in Penticton, with approximately 60 boys participating from 6 district packs.

Cubs from the first Summerland Pack were successful in winning three of the ten prizes donated by interested business men.

Alan Barkwill won second prize, which by coincidence had been donated by the Sports Centre. Other winners were Gordon Bennest and David Steuart.

The rodeo was held in the interest of highway safety by the Penticton JayCees, headed by Gordon Harris.

Message on civil defence

The following article on civil defence was written for the Review by Ivan Phillips, Civil Defence Co-ordinator for Summerland and district.

These are anxious and critical days, yet, it is true to say that at no period, during these last few years, has the need been more urgent for calm and reasoned thinking.

Whether a threat against the peace of the world materializes or not, it is common-sense, that all of us make such preparations and take such precautions, in so far as one is able.

It is not the purpose of this message to create or spread alarm, but merely to acquaint the public with the information and guidance that has at all times been available, on request.

For instance, are you familiar with the Public Warning Signals? In May of 1961, a wallet card was mailed out to every householder with this information, for easy reference. If you have recently settled in this community, or perhaps, lost or mislaid the original, there are still a few left for distribution.

Were you interested in the "Blueprint for Survival" — "11 Steps to Survival" or did you perhaps think there was no need to bother reading it, although you had it in your possession?

A supply of these are also on hand and may be obtained (one copy to each household) on application at the Municipal Hall.

Do you possess qualifications or have a hobby, such as first aid, home nursing, radio and the like? They could prove to be of the greatest value to your community in any large scale emergency or disaster. Already many scores of such community-conscious people have registered with the Civil Defence Organization.

Ending this brief message, I (Continued on back page)

Church celebrating 57th anniversary

The Summerland Baptist Church celebrates its 57th anniversary service next Sunday with Rev. Kenneth Knight, a former pastor of the church, as guest speaker.

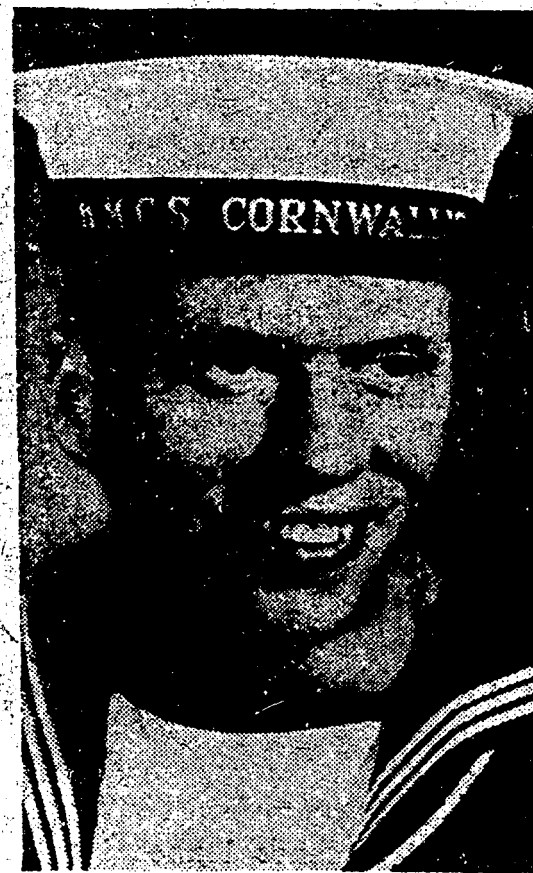

Mr. Knight resigned from the pastorate here in 1954 to go to India where he, with Mrs. Knight, has served in the hill country of the Oriyas where they established a hostel centre for students.

Mr. and Mrs. Knight, with their four children, Kathy, Bobbie, Linda and John will be guests here for the anniversary services on Sunday and a supper meeting on Monday. They are concluding their first fur-

lough during which they both engaged in studies in the east. They join a party of missionaries to sail for India from Vancouver on October 31.

Baptist work in Summerland was started by Rev. T. N. Ritchie in 1905, who was then stationed in Peachland and visited Summerland on horseback to hold meetings in the rotunda of the Summerland Hotel for some months.

A church was organized under the direction of Rev. P. H. McEwen, superintendent of missions. Mrs. M. M. Stephens is the only surviving charter member.

AWARD WINNER

Ordinary Seaman Bryan Charlton, son of Mr. and Mrs. H. Charleton, of West Summerland, has won the "Best Kit" award on graduation from a 15 week new entry training course at HMCS Cornwallis, near Digby, N.S. Ord. Sea. Charlton was born in Kelowna on June 26, 1944, and attended West Summerland Junior-Senior high school prior to being enrolled into the Navy by the RCN Recruiting Officer in Vancouver in May. (National Defence Photo).

Choral group meets on Tuesday

Those who enjoy singing are invited to the first meeting of the Summerland Mixed Choir on Tuesday, October 30 at 8:00 p.m. in the Secondary School.

Director of the group will be W. A. (Bud) Steuart. The group will be using music from the library of the former Summerland Singers and Players. Accompanist is Mrs. Delmar Dunham.

Leaders of the group plan on a wide range of singing, from Gilbert and Sullivan to modern music.

Council outlines road projects

With about \$12,000 left in the 1962 roads budget, council spent some time at the regular Tuesday night meeting discussing the road program for the remainder of this year.

Heading the list will be the completion of the Station Road Hill project. The road crew will widen the turn-off from the hill onto the Parkdale road, creating what council hopes will be an all-weather road.

Clerk G. D. Smith read a letter from the Baptist Church committee asking that the Baptist Church Hill be left as a one-way road. The letter went

on to say that the turn-off in the middle of the Station Road Hill was difficult to negotiate in icy weather and they questioned the advisability of closing the Baptist Church Hill to create a pedestrian walk.

Roads chairman H. J. Barkwill proposed completing the sidewalk on Pender Street to George Henry's property. He also suggested building a sidewalk along the front of the Anglican Church as well as widening the pavement in that area. Council approved both projects.

Road signs, a project which has been under council consideration for some time, will be started this fall. Works superintendent Ken Blagborne will erect name posts on all roads with permanent names. The posts will be wooden with metal plates attached.

Councillor W. S. Ritchie reported that the parks board recently visited Peach Orchard Beach and is planning to build a causeway around the weeds to Windy Point, creating a public beach. He also said that the parks board hopes to complete the beach project near the Evans property in the near future.

Councillor W. B. Powell reported that the Parkdale Place committee has decided to create a staff room in the basement, using some of the furniture that was originally donated to the senior citizen's home. Mr. Powell reported that another large basement room and one smaller room, both presently unused, will be furnished as guest rooms.

He also reported that the committee would like permission to have a bell system installed. At the moment the senior citizens have no way to call for aid in case of emergency. Such a system would cost about \$400, said Mr. Powell. Both projects were approved.

Induct new Baptist minister

Induction service of the Rev. Frank W. Haskins into the pastorate of the Summerland Baptist Church was held on Thursday, October 18. Moderator was L. N. Young of Kelowna. The sermon was preached by Rev. K. Imayoshi. Mr. Roy Wellwood presented the new minister. Rev. N. V. Hovland of Penticton, Rev. J. I. Reggin of Vernon also participated in the service.

At the reception following the service, greetings on behalf of the Summerland Ministry Association were brought by Rev. D. M. Rathjen. The presentation of an interesting photograph was made by William Cooper on behalf of the First Baptist Church, Penticton.

Curfew for Hallowe'en

Tuesday night council amended the curfew by-law for Hallowe'en, making it illegal for children under 18 to be on the streets after 9:30 p.m. RCMP and extra patrols will be out on Hallowe'en and the curfew bylaw will be strictly enforced.

It's hockey night here on Saturday

Hockey is back in Summerland Saturday night when the Twin City Macs take on the Kamloops Chiefs in the local arena. This is the first of 12 games to be played in Summerland in the Okanagan Intermediate A hockey league.

New store for 5c to \$1.00

Main street will take on a new look next year with the construction announced for a new 5c to \$1.00 store.

Owner Jerry Hallquist said today that the new store will be built next to Hardie's Service, with work starting November 1 and completion expected by next June.

The one storey and basement building will be 52x100 feet of block construction. In charge of construction is Ralph Blewett.

Mr. Hallquist said that the building will have double the present store space and will feature modern conveniences throughout.

Game time is 8:30 p.m. when league president W. (Moose) Martin will introduce the managers and players. Reeve Norman Holmes will drop the first puck and the town band will be in attendance.

Manager of the Twin City Macs is George Stoll and players are from Summerland and Penticton.

Admission is adults 75c, students 35c and under 12 free, if accompanied by parents. Residents of Parkdale Place are invited guests to the league opener.

Season tickets, \$8 for adults and \$3.75 for students, are now available at the Sports Centre, or from W. G. Gillard and George Stoll.

A complete schedule for the league is printed on the back page.

Sun-Rype Products Ltd. is running "all-out"

by F. E. Atkinson
Fruit and Vegetable Processing, Research Station, Summerland.

The biggest appetite in the Okanagan is at Sun-Rype Products Ltd., Kelowna. Twenty-four thousand boxes of apples a day are being pressed for juice, or peeled for other products. The plant is operating two shifts at capacities never even contemplated a few years ago. Clear apple juice, opalescent apple juice, apple sauce, apple pie filling may be in production if you visit this busy spot.

Conventional apple boxes may still be seen stacked, on chain belts which move them forward and then feed a box off the bottom of each stack into the dumping machine. Nearby bin dumping equipment is feeding bins onto another

line. The equivalent of almost a bin of apples is used every minute. Two hundred and thirty thousand cans come into the plant on automatic conveyors from four or five bulk cars delivered daily.

Anything in the way of moving machinery interests a visitor and in this factory the center of fascination I think is the high speed juice filling, closing and cooling equipment. Back in the days when we were trying to interest large processors in making apple juice we could not find any "takers" in British Columbia. That is why apple juice manufacture was started in a small way at the Vernon Fruit Union, the original Modern Foods Limited in Kelowna and at Mr. Louis Deighton's cannery in Oliver. Cliff Fallow manager of the Woodsdale

plant of the Vernon Fruit Union pioneered the making of apple juice in the warehouse in Vernon about 1938 with equipment borrowed from the Processing Laboratory at the research station, Summerland. The original cooker was from a small cannery and was fired with a sawdust burner. He was pleased if he could maintain an output of eight 20 ounce cans a minute. Louis Deighton of Oliver made his own grinder and press. He manufactured 40,000 cans the first winter, while Cliff Fallow did 10,000 cans. Tiny Walrod got underway at the Modern Foods plant but they were very modern — they had steam under pressure!

And now if you watch the juice filler at Sun-Rype you will see 150 48 oz. cans a minute going through the line — that is 2 1/2

big cans every second — 45 gallons of juice every minute. In a day this juice line will produce 10 1/2 carloads of finished product, while behind you the apple sauce and pie filling line is operating one or the other of these products and will produce another four and one-half carloads. Thus, for every day of operation there is a small train of 15 carloads, of goods, canned, labeled, cased and ready for the market.

The Kelowna plant is one of two operated by Sun-Rype, the other in Oliver grew out of the small plant that Mr. Deighton set up in his orchard. This again is another highballing operation with a smaller but very efficient plant. An average day sees 7,500 boxes converted to juice with a finished pack of

4,500 cases.

In all, Sun-Rype employs about 300 people and this year will pack over a million cases of juice, aside from apple sauce, pie fillings, concentrates, apricot puree, glace cherries, etc. To the growers who supply the raw material it has returned up to \$1,400,000 to the Pool for a single season. Thus, in these few short years, the operations that were started with a few hundred dollars worth of equipment loaned by the Processing Lab at Summerland, to supplement what the growers already had, have grown into a multimillion dollar business. A lot of thought and effort on the part of industry leaders and employees has resulted in a benefit to all segments of society in the Okanagan.

Irvine Adams displays paintings in Kelowna

Irvine Adams, well-known Summerland artist last week closed his third one-man show within a year.

His first show was held last November in Summerland, the second in May in Penticton and the third in Kelowna.

The fine work of this dedicated artist is fast becoming known internationally as well as nationally. His pastel landscapes have been hung in London in the Pastel Society, the Summer Salon (the Royal Institute Galleries) and the Royal Society of Artists. Four of his paintings have been accepted

and hung in the Paris Salon. For the past seven years his work has been consistently shown in London and Paris. His paintings have also been exhibited in New York, Florida and British Columbia.

The great beauty of these pastel paintings are mainly of the Okanagan with some of the mountain beauty spots in the Revelstoke area. They are executed with great artistry and sincerity. The composition fine attention to detail and expert craftsmanship display the perfectionist attitude of the true artist.

Three new pictures, among many lovely scenes loaned by patrons, are "Rattlesnake Point at Kalamalka Lake", "Sunrise" (bought by Mr. and Mrs. Don Chapman of Summerland), and "Lazy Afternoon at Squally Point". The two latter were shown in a television interview with Mr. Adams.

This has been a busy year for Mr. Adams, and these impressive shows will be remembered by all who were fortunate enough to see them. One can only, like Oliver Twist, 'ask for more' of this beauty.

— M.A.

That old saw about a human being containing only 98 cents worth of chemical components may have to be revised. Now that we know about the energy value of chemicals, the duPont Co. says those in an average human body could produce 85 billion dollars worth of energy.

Weekly Newspapers meet in Victoria

WILL DOBSON

Editor of the Cowichan Leader, Duncan, is the new president of the B.C. Weekly Newspapers Association. He was elected at the closing sessions of the 44th annual convention of the BC-WNA in Victoria, Friday, October 20.

The constant improvement shown by the weekly newspapers in their presentation and service to the community was stressed by John Pinckney, president, Canadian Weekly Newspapers Association, at the 44th annual convention of the B.C. Weekly Newspaper Association, October 18, 19, 20, at the Empress Hotel, Victoria.

Tribute to the weeklies was paid by Hon. Ray Williston, Minister of Lands and Forests, greeting the publishers on behalf of the provincial government.

"Weekly newspapers do a valuable job of education in their communities," he said. "and I believe you feel the pulse of those communities bet-

ies."

Will Dobson, editor of the Cowichan Leader, Duncan, was elected president succeeding Clive Stangoe of the Williams Lake Tribune. Art Stanley, publisher of the Arrow Lakes News, Nakusp, was re-elected secretary-treasurer.

Business sessions included "workshops" in which speakers and discussion leaders were Frank Mack, production manager, and Hector Alexander, advertising manager, both of Victoria Press Ltd., publishers of the Victoria Times and the Victoria Colonist.

Airforce veterans plan reunion

The ninth annual Reunion Dinner of the Interior Ex-Air Force Association will be held in the Royal Canadian Legion, Kelowna on Saturday, November 17, at 6:30 p.m.

All former members of Commonwealth Air Forces are eligible for membership in the Association and membership is open to all ranks. Those who wish to join and to attend the dinner should get in touch with the local Association representative, Hamish MacNeil of Peachland.

A good program for the evening has been planned and it is expected that Group Captain W. K. Carr, Commanding Officer, RCAF Station, Edmonton, will be the guest speaker. A turkey dinner with all the trimmings will be provided by the Ladies' Auxiliary of Branch 26, Royal Canadian Legion and there will be the traditional door prizes. Tickets for the dinners will be available at the door.

Indications are that this will be the largest reunion in the 10 year history of the Association and all air force veterans are heartily welcome to attend.

THE TWO BEST HEATING SYSTEMS KNOWN TO MAN

Nobody questions nature's heating systems—and when it comes to home heating nothing is quite as good, as safe, dependable Esso Oil heat

With Esso you have that reassuring feeling that you always get the very best; the very best and most economical heating fuel, the very best and most reliable service.

It's not Jack Frost

This year we have seen one of the best displays of fall coloring in the Okanagan in a number of years. We have always thought that it was Jack Frost that brings the bright coloring. But we read recently that early, hard frost is an enemy, not a friend, of the color. Sunlight, not frost, is the vital agent.

The coloring process begins when September's shortening daylight prompts the trees to begin withdrawing vital sap into trunk and root and cut off circulation to the leaves. With no new chlorophyll, that magic green pigment, which enables the leaves to make sugar from air, moisture and sunlight, the leaves begin to fade. As the old chlorophyll disintegrates, yellow pigments which were there all the time, become visible. They produce the brilliant yellows of maples, birches and all their kindred. Meanwhile, sugars left in the leaves of other trees when they were sealed off begin to oxidize in the sunlight. They become pigments called xanthophyll and anthocyanin, reds, blues and purples. They produce the fiery leaves of maples and dogwoods, the deep reds and purples of oaks.

Early frost interrupts both these processes and turns the leaves sere and drab. Cool nights and bright, sunny days hasten the processes and enhance the colors. That is why the bright sunny autumn days we have had this year has brought about this colorful pageant. The only way Jack Frost helps is by staying away until the sunlight has created the color. Or, if he must come, by tripping lightly.

A careful Hallowe'en

Let's make it a safe, Hallowe'en for children and grown-ups alike next week in Summerland. There are painful burns and even more tragic accidents waiting to happen to youngsters carrying candle lighted pumpkins or dressed in flimsy, flammable clothing.

Parents are urged to keep Hallowe'en fire-safe for children, with these precautions:

1. For costumes, avoid flimsy materials and outfits with yards and yards of material in baggy sleeves and billowing skirts. Any touch of flame can start them burning.
2. Wigs and masks with fibrous "hair" are possible sources of trouble too.
3. Clothing, even sturdy dungarees, can burn. So be sure children understand they must stay away from any flame: bonfires and burning leaves outdoors; fireplaces and stoves indoors; and things like lighted matches and cigarette lighters and improperly handled fireworks.
4. Children should never carry a pumpkin lighted by a candle. Don't use them indoors, either, where they can set fire to curtains or table decorations.
5. Keep the smallest children in charge of and in sight of a responsible person at all times.
6. Care should be taken to explode all fireworks in a safe manner.
7. Fireworks should never, never be thrown in the direction of another person.

SMALL TALK

By Syms

"Mind if I use your phone?"

"Not at all. It's out of order."

The passing of harvest

by Rev. D. M. Rathjen

"The harvest is past, the summer is ended, and we are not saved." Jeremiah 8:20.

This may seem a strange lament but is a prophetic word spoken by Jeremiah concerning the bitter anguish of Judah in the day of her destruction by the Babylonians. Judah failed to heed the many warnings of the Prophets of God who warned of the dire consequence of sin. They came to realize their tragic hopeless situation and thus fulfilled the words of the Prophet in verse 20. The opportunity of reaping the benefits of God's mercy passed, the "summer" of His grace was ended and they had not availed themselves of His salvation.

The word of God in 1 Corinthians 10:11 tells us that the history of Judah and Israel

was written for "our admonition". As God, in His mercy and grace, gave them a time in which to repent and be saved, so He has given us a "day of salvation", 2 Cor. 6:2. "Now is the accepted time" with God. God is willing NOW to be gracious to the penitent sinner. However, Jesus warns, in Luke 13:25, that the door of mercy will be closed when once the summer of his grace has ended. Then it will be too late to cry to Him for salvation. Jesus said, "there will be weeping and wailing and gnashing of teeth" of the lost in their doom. Now is the opportune time!

Wanted: A sense of values

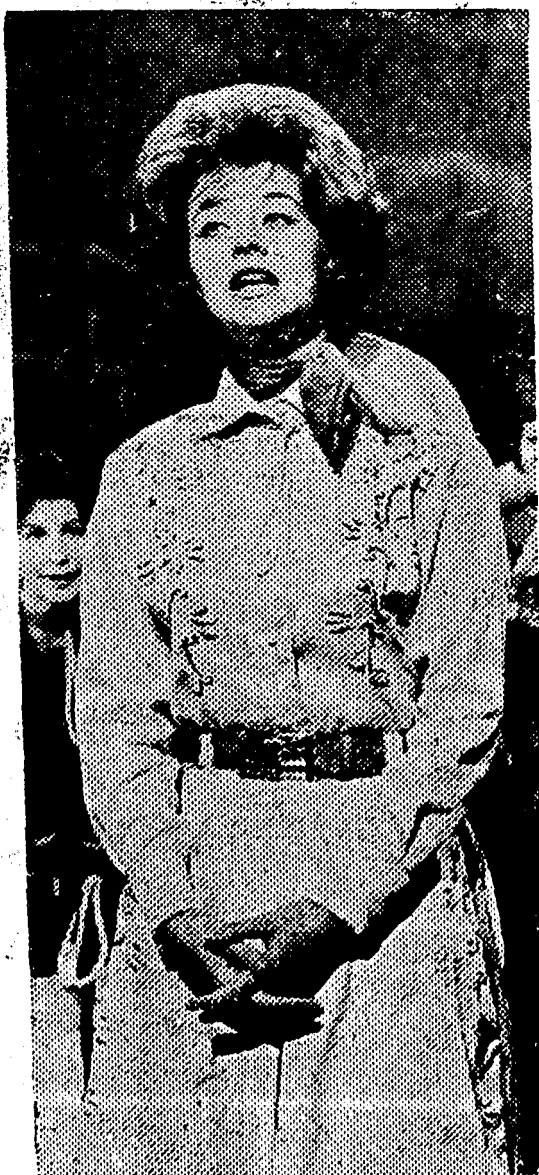

by Rev. G. Leasor

What do you value above all else in life? Very likely the thing we value most, we act like we value least. We could probably say that we place highest value on our families, our freedoms, and our faith, but do our actions correspond with our words? Do we put our family interests ahead of our financial interests? Do we exercise our freedoms, such as freedom of worship, or simply store them away to die of disuse. Do we really think God is important or do we just put Him at the top of the list and then proceed to ignore Him completely? It is a far greater insult to God to acknowledge Him with a polite nod and then forget He is present than to deny His existence.

The latter action is simply an insult to our own intelligence; the former is an insult to the power and authority of God.

Pray that we as individuals and as a community will act like we talk. That we will do the things we admit are most worthy.

Matt. 6:33 "But seek ye first the Kingdom of God and his righteousness and all these things will be added unto you".

Peggy Neville is the blond singer seen each Saturday night on CBC-TV's Red River Jamboree, the western music program produced in CBC's Winnipeg studios.

Parliament Hill report

by Dave Pugh, MP

Today, Friday, ends another good week in parliament. The bill on export credits increasing the loan capacity of the government to guarantee exports, has passed and the debate brought out many favorable facts on Canada's present export trade. The insurance aspect has been drawn on in increasing amounts and the bill now gives ample coverage for Canada's buoyant exports. The export credit provides a guarantee of payment and allows long term credit to the importers.

The Farm Credit Corporation brought into being in 1959 also required further funds and this week has seen a thorough debate at the resolution stage. This act has been tremendously beneficial to farmers throughout Canada and it is one of the acts of which the government is particularly proud. The results have been phenomenal and our farm credit facilities have been revamped. It looks as though the debate will continue for some time as there are many speakers who wish to be heard.

The Speaker of the House

is still top man from the news point of view. He is proving himself very fair and able and has shown a firmness not seen in quite some time but I must say that he is being sorely tried. A concerted effort is being made to overcome some of his rulings but down deep, most members are agreed that the course he is taking at the present time is necessary for the proper operation of debates in the House. The matter is not ended yet and no doubt there will be many shows of force before the pattern is set.

I was delighted to see certain visitors in Ottawa — Mr. and Mrs. Albert Millar of Oliver, Colonel Moss of Kelowna and Al Macdonald of Penticton. The latter has been in Washington and Ottawa on the many lumber talks with the United States.

After a spill at a hunting meet, the nouveau riche matron was rushed to a hospital. The doctor told her, "I think I'm going to give you a local anesthetic."

"Nothing doing", the injured woman wailed. "We can afford the best. Give me something imported."

WOMEN'S PAGE

Hall brightly decorated for annual WI tea Saturday

Saturday afternoon found the IOOF Hall bright with exhibits for the Women's Institute annual sale. Near the door, one came upon a table heaped with a variety of baked goods, going out in fast sale under the supervision of Mrs. Grey and her assistants, Mrs. E. Nilson and Mrs. A. Fenwick. Just ahead, all the wealth and color

of an Okanagan harvest season were displayed in flowers, fruits and vegetables in charge of Mrs. E. Bingham and her Agriculture committee members, Mrs. G. Ritchie and Mrs. H. Ward.

Further on, Mrs. V. Barrs and Mrs. S. A. MacDonald ran an Opportunity stall where one might find books of all sorts, a partial set of a very old Doulton dinnerware set used in one of Summerland's pioneer homes, a gift of china or jewellery to a useful household utensil.

At the cultural activities stall in charge of Mrs. O. E. Mortimer and Mrs. W. Brown were displayed the handcrafted articles made over months of sewing, most popular of which were aprons and children's wear. In one corner, Mrs. G. Dinning and Mrs. G. Inglis cared for a nursery of over forty dressed dolls begging for adoption.

A stall at the hall's entrance in charge of Mrs. J. MacLachlan with helpers Mrs. Angus, Mrs. Hookham, Mrs. J. Williams and Mrs. H. Whitaker was the scene of much activity and

merriment as buyers tried on used clothes and millinery.

Mrs. L. Rumball took entrance fees and tea was in charge of Mrs. H. Moors with Mrs. Cox and Mrs. Procurenoff in the kitchen and Mrs. W. Rothwell, Mrs. Inch, Mrs. J. Kirk and Mrs. E. Tait as serviteurs.

Institute members appreciate the public's support of this annual project as receipts therefrom constitute their main source of income for the many charities, local, provincial and national, supported by them.

Locals

Mrs. Joan Zimmerman of Victoria spent last week end at the home of Mrs. H. B. Mair and daughter Christina.

Miss Patsy Tyacke, who has been attending Queen Elizabeth high school in Penticton has returned and is now living with her mother, Mrs. Joan Tyacke, Giant's Head Road. She will be attending Summerland secondary school.

Mrs. W. Wright returned last week from Vancouver where she visited friends for 10 days.

Corporal W. A. Tyacke, of the RCAF station, Sea Island, Vancouver, was a week end visitor with his family.

Mr. and Mrs. Frank Smith and family of Shell Lake, Saskatchewan were recent visitors with Mr. and Mrs. W. Matkovich. They have left for Williams Lake to visit with relatives.

Mr. and Mrs. Martin Moors, Clairmont, Alberta, were recent visitors at the home of Mr. and Mrs. Hans Moors.

Eric Tait and son Don have returned from a moose hunting trip, over 100 miles north of St. James, B.C. They bagged a moose.

Mr. and Mrs. Herb Rice of Revelstoke visited relatives here last week.

Dr. and Mrs. H. R. McLarty have returned from a week's visit in the Kootenays.

Mrs. Granville Morgan is visiting in the Kootenays this week.

United Church Women hear program on United Nations

The quarterly meeting of the United Church Women was held Monday, October 15th at 8 p.m. in the church Hall. There was a good attendance all ladies of the congregation having been invited to share in the special program.

The devotional by Mrs. P. Louie was on the theme, "Jesus the Light of the world," - scripture reading by Mrs. W. Durick.

After the general meeting the circles met individually for their monthly meeting, each leader having prepared concise reports so that the business of her circle could be handled in the 15 minute period allotted.

Reports on the preparation for the Christmas tea and sale were heard. The sale is to open at 2:30 p.m. Saturday, November 24th, and the tea and sale will all take place on the main floor. Mrs. G. Laidlaw is general convener.

The program prepared by Mrs. Vera Barrs, celebrating the 17th birthday of the United Nations was very interesting and entertaining. Representing their own countries, ladies appeared in costume and each gave a talk on life in their homeland, customs, clothes, food and its preparation and even a rundown on the duties of the housewives in their native lands. They all stressed the great "togetherness" in families there, some of them including only the immediate

family, but as in the case of Hilland, the family took in a wider circle of aunts uncles and cousins, making quite an event not only of weddings, etc. but also of birthdays in the family.

Mrs. J. O. Leiki, representing Hungary, demonstrated the headdress worn always after marriage, the little point falling at the back of the neck signifying the lady was no longer in the market for a husband.

Her talk was enlightening and entertaining as was that of Mrs. Moirs who described life in West Germany.

Mrs. Rasmussen spoke on life in Denmark, that little country where "slack" dressing is not approved of. When her husband met her on her arrival in this country wearing his shirt hanging loose in the casual manner often adopted here he was reprimanded with "It looks awful"

SUPER-VALU

(Continued from previous page) tuck it in". Mrs Wouters' humorous resume of a day's housework in Holland made the group realize that perhaps Canadian women don't take such duties too seriously after all. Among her treasures on display was a brazier of brass with a tight fitting lid. It was very old and had been used to place coals from the fire at night in to start the fires again in the morning.

Mrs. J. Kuroda and Mrs. Aoki, although they have not seen Japan, showed many articles from that country, describing their use in the home and they modelled some of the lovely costumes worn there. They were very colorful and feminine in appearance and proved that dressing in a hurry in Japanese style would be quite a challenge.

The evening ended with the serving of refreshments by the Friendship Circle.

Scout happenings

This weekend the troop goes on its fall weekend camp to Faulder. The boys leave at 4:00 p.m. Friday from the Youth Centre and return Sunday at 2:00 p.m. Transportation will be in parents cars. Patrols will camp in tents with the cabin held in reserve in case the weather should become unfavorable. All food and patrol equipment is being arranged on a patrols basis with the patrol leader in charge. Boys are requested to wear some item of red clothing — hat — shirt — scarf — jacket.

At the Monday meeting instruction in hand signals and a patrol competition in hand signals was given. Instruction in 1st class Knots, Signalling and First Aid continued. Next meet-

ing there will be tests given in these subjects.

Patrol point standings are: Buffaloes 97, Beavers 95, Eagles 82 and Hawks 79. Michael Inch was appointed patrol leader of the Eagle patrol.

There will be no meeting next Monday, October 29 on account of the week end camp having just concluded. Parents are requested to have their boys bring their \$3.50 for registration and annual dues as soon as possible. Duty patrol next meeting — Eagles.

— D. V. Fisher, Scoutmaster

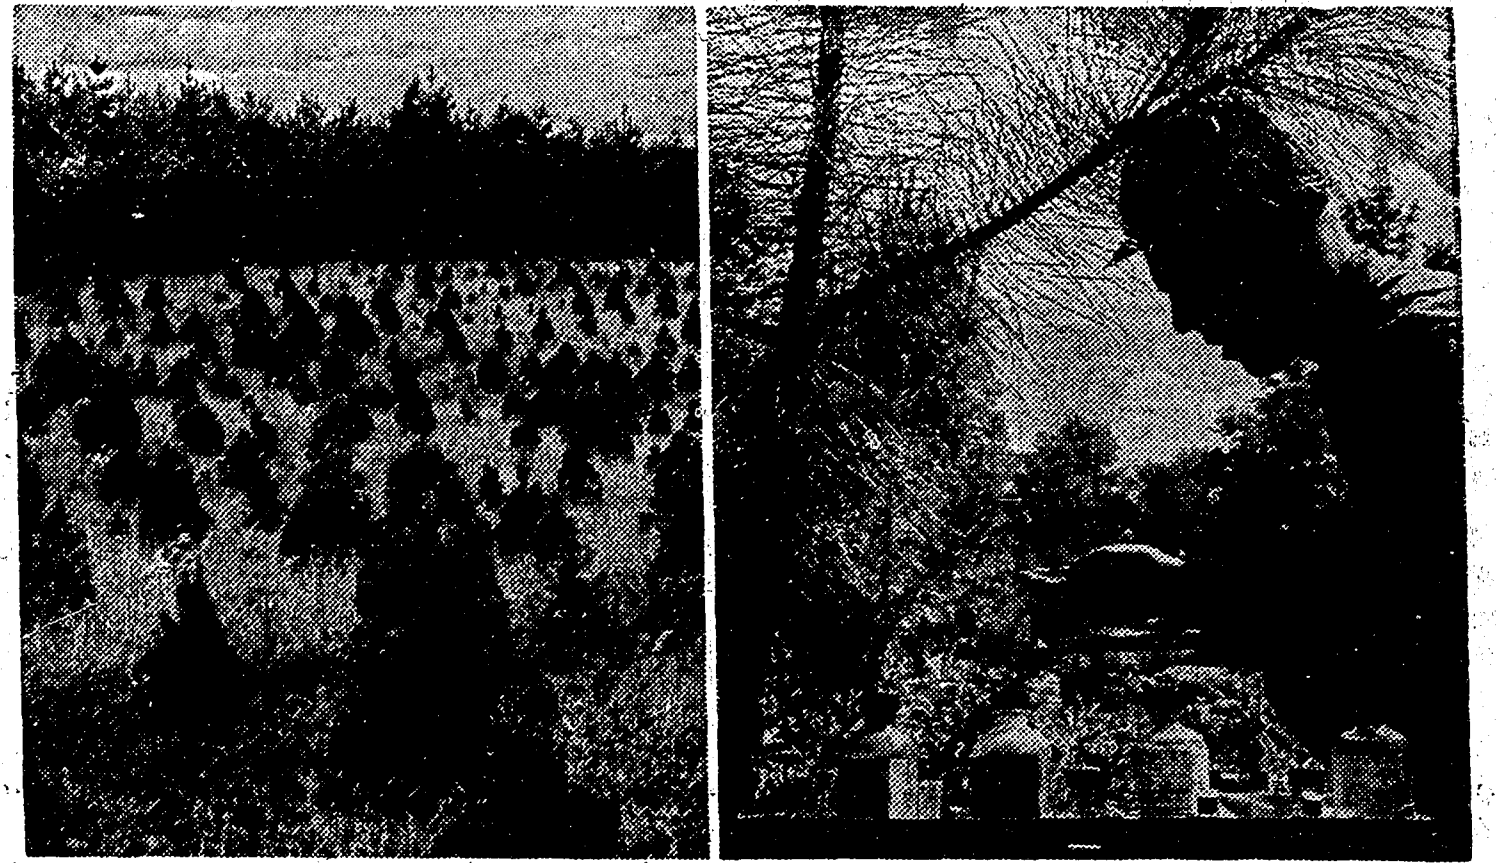

Square 'em up

Beginner's square dance lessons got underway last Friday night at 8:15 p.m. in the Youth Centre. Ray Fredrickson put the class through some of their basic instruction, and soon had them very busy trying to keep track of both left hands.

This week more new dances are expected. The Friday after that will be the final night, with registrations being made for all beginners wanting to take the 20 lessons in the series. The fees are \$5 per person for the first 10 lessons, which will take in all the Friday nights from now to Christmas. After the new year, the final 10 lessons, at the same \$5 fee, will complete the series.

A group of teen-aged dancers from Penticton will be joining the class next Friday evening. All Summerland teen-agers interested in learning to dance, are invited to come and meet these young folks, while they enjoy a fascinating new way of having fun.

Wood Harvest of the Future

This young forest (left) will not be ready for the harvest until after the year 2000 A.D. Yet because it represents Canada's woodland wealth of tomorrow, the speed and manner of its development are important to all Canadians. Today through such methods as soil analysis (right), foresters are learning more than ever before about tree growth, and their studies are constantly bearing fruit.

To remind Canadians of their dependence on these woodlands, and of the efforts made to manage them effectively, National Forest Products Week is currently being held. From the forest comes, for example, the raw material of the pulp and paper industry, Canada's leading producer, wage payer, and exporter.

CORPORATION OF SUMMERLAND

Court of Revision on 1962-63 Voters List

The annual Court of Revision on the Municipal Voters List will be held on Thursday, November 1st, at 2:00 p.m. in the Municipal Office, West Summerland, B.C. to hear complaints and correct and revise the list of electors for 1962.

October 22, 1962

Municipal Clerk
G. D. SMITH,

Kiwanis Club Notes

Twenty-seven members were present at Tuesday evening's meeting. In president Walter Toev's absence, Hilly Smith "filled" the chair.

Don Carmichael lead the singing, disclosing some unexpected talent.

Carl Dietrich and Bob Hardy, like Jack Benny, both celebrated their 39th birthdays. Every one of them, except Bob Hardy, was present. Carl couldn't expect to have "Happy Birthday" sung to him for nothing. Bob will have his opportunity at his next appearance.

Ed McGillivray reported on a visit to the Oliver club last week, and reminded those present of Oliver's charter night November 1. On the roll being called, it seemed the majority of the Summerland crew will be there.

Lt. Gov. Jack Towgood, chairman of the Red Cross blood donor clinic, stated that at next week's meeting, he will allot to each member the phone calls he will be asked to make.

Ed McGillivray asked for two volunteers to represent the Kiwanis at the next Key Club meeting. He also stated that the directors of the Penticton Key Club are planning with the Summerland Key Club, an excursion trip by bus to the Pines on the Hope-Princeton highway, with a dinner at Penticton on their return.

On Jack Towgood's motion, which was carried, Summerland Kiwanis will pay pro rata the Summerland Key Club's expenses.

The newest member, Bud Rusaw, introduced by Jerry Hallquist, was duly inducted by Jack Towgood.

Ed McGillivray introduced the speaker, Dr. Jack Ratzlaff, who gave an interesting account of his rise to fame, by tremendous exertion, in the face of almost unsurmountable difficulties. He lucidly described the transition from the poor little farmer's boy right up to the top, as sheriff of the Kiwanis Club.

Apparently, Jack had taken exception to certain derogatory remarks made by the Recorder about a temporary "birthday penalty" and demanded a public apology, which is tendered herewith, albeit reluctantly.

Jack wound up his talk with

a showing of colored slides and commentary of a combined excursion and fishing trip which he and Mrs. Ratzlaff made up to the Peace River area last year. Don Carmichael thanked the speaker.

— The Recorder.

Junior College plans outlined to T.C. PTA

The Secretary-Manager of the Pentiction Chamber of Commerce, Bruce Howard, was guest speaker at the October meeting of Trout Creek PTA.

Mr. Howard outlined the advantages of having a Junior College in the Southern Okanagan. He stated that the new president of the University of British Columbia, Dr. John B. MacDonald, will be visiting Pentiction at the end of October to examine the area's qualifications for such a college. The Southern Okanagan area is particularly suited for an institution of higher learning because of the large population of all the areas giving support to the college was somewhat over 37,000. The City of Pentiction, the meeting was told, will provide 26 acres next to Kings Park for a Junior College site.

The advantages of a Junior College were outlined to the meeting. Student costs would

be cut because many students would be able to board at home or would be within commuting distance of their homes. The smaller enrollment of a Junior College would allow more personal contact between teacher and student. Teachers would be free to teach and would not be spending time doing research. This close contact and more personal nature of a Junior College would particularly help those students who are not quite ready for the plunge into full university life. Thus the college would be a "stepping stone" between high school and the more specialized university courses.

Other business discussed at the PTA meeting included discussion on the awarding of a book prize to the room with the highest percentage of parents attending each meeting. Ray McNabb was appointed as chairman of a committee to look into the matter and also to investigate the possibility of the PTA providing a trophy or award for presentation at the school's annual Awards Day. Other members of this committee are Mrs. Muriel Proverbs and Mrs. Pat Carter.

John Cooke introduced the new grade one and two teacher to the meeting. She is Miss Heather Lawford from Vancouver Island.

It was announced that the first report cards for the Elementary School will be issued on Tuesday, November 13.

Fair again successful

A committee for new year's fall fruit fair was appointed at last week's Chamber of Commerce meeting. Committee heads will be the same as this year's fair with F. E. Atkinson as chairman. Mrs. L. Smith is secretary and G. C. Johnston is treasurer. In charge of the arena will be J. E. O'Mahony, agriculture, Eric M. Tait; junior agriculture, A. W. Watt; entertainment, Mrs. Smith; hobbies, John Cooke; children's parade, John Dunn, queen crowning, Mrs. L. Shannon, publicity, Eric Williams.

Mr. Atkinson outlined suggested improvements for next year's fair including: increased admission fees, with fees for students; assistance from fire department in arena; more action in booths; vegetable prize list publicized in April; plus other suggestions designed to enlarge the scope of the fair.

Comedian-singer Gordie Tapp has a busy season ahead. He's back for another year on the Friday night TV show, Country Hoedown and will be heard twice a week, Tuesdays and Thursdays, on the CBC Radio network program, What's on Tapp?

Curling starts with mixed bonspiel next week

Those intending to curl this year are asked to get their names in so that the rinks can be made up.

Already enough names have been entered to make up 27 rinks, considerably higher than last year.

This year the club is offering free curling instruction, beginning the first of next week. Those wishing to take advantage of these classes should con-

tact president Harry Hackman to arrange ice time.

A general revival of interest in the game locally points to a full and healthy year ahead.

The curling season starts next week with a mixed bonspiel. Play starts Thursday night in the arena with play continuing Friday and Saturday evenings, winding up with the finals on Sunday afternoon. Twenty-four rinks are entered in the 'spiel.

A likely addition Sunday will be a challenge match between the executive of the Summerland Curling Club and the Pentiction Granite Club.

The men's regular evening draw, in the form of a round robin this year, will commence on November 5. This is a departure from last year, when curlers were divided into different classifications.

CIVIL DEFENCE

(Continued from page one) would like to say that I am at the service of any member or group desiring information or guidance on Civil Defence matters. I can be found most evenings at the municipal hall basement or can be contacted at HY4-4747, or by letter, to the post office, Summerland.

Curlers

We want your names now so rinks can be made up for Men's Draw commencing November 5.

— FREE INSTRUCTIONAL CLINIC FOR BEGINNERS —

Leave names with president Harry Hackman, director Jerry Hallquist or secretary Bud Steuart.

Power Boat Squadron organized by boaters

A special meeting for the formation of a South Okanagan Power Squadron was organized by Commodore Smith and the Executives of the Summerland Yacht Club on Monday evening.

This meeting proved very successful as a Squadron was formed and 20 members registered for the course.

Officers elected were as follows: Course Chairman — Ralph Downing, Course Instructor — Clarence Lackey, Sec-Treasurer — Bill Cory.

Harvey Edwards who has already taken 2 years training in this course offered his assistance.

The first instructional meeting will be held at 8:00 p.m.

next Monday, October 29th. Anyone else wishing to take advantage of this fine instruction, could enroll next Monday.

Commodore L. A. Smith said, "We believe that before long the Government will require that all boat operators pass an inspection of this kind before they could operate a boat of any type. Those taking this course will be prepared with the knowledge received, with regard to warning lights, signaling, safety on the lake and compass reading, to mention only a few of the advantages. This course also pays financially, because passing automatically entitles you to reduction of your boat insurance policy by

10% per year.

This information proved itself in Kelowna Monday evening. Just as Commander Gordon Wilson, and Commodore Archie August, who head the Kelowna Power Squadron were about to leave for the Meeting in Summerland, a car containing five men went over the Bridge. Because of their training, they knew just what to do and worked as a team with R. C. M. P. and Skindivers.

Forty minutes after the call was received, all five bodies had been recovered. They mentioned R. C. M. P. gave the course high praise and they have enrolled three of their men to take this course in Kelowna.

Although the meeting in Summerland was held up about 2 hours on account of the accident, everyone agreed it was worth waiting for. The meeting adjourned at 12:10 a.m.

Strikes and Spares

by Herb Simpson

With the third week of bowling completed, averages have been established and the league is now divided into three sections, A, B, and C, with eight teams in each section. From now on teams will be playing only against teams in their own division, and points will be scored for each game and total pins.

Results of last week's bowling are as follows: ladies' high single, Muriel Walker — 325; ladies high three games, Muriel Walker — 735; men's high single, Bill Austen — 290; Men's high three games, Al Coffey — 767; High team, Occidentals — 2934.

One of our well known Summerland bowlers, Bob Macdonald, who is also a member of a Pentiction League, scored a high single game at the Pentiction Lanes last week and was awarded two very fine prizes. Nice going, Bob. Let's see you do it on the local alleys.

Will be back next week, with more scores and news, so until then good bowling.

Good investment service is one of B of M's "21 ways"

Many Canadians don't know that their local Bank of Montreal manager can help them increase their assets through the buying and selling of securities — that this is one of the "21 ways 2 million Canadians use the B of M".

Through systematic saving, far-sighted people usually accumulate a reserve fund of cash, some of which could be put to profitable use through wise investment in various securities. Jock Johnston, manager of the Summerland B of M branch, is always ready to put his investment knowledge at your disposal. Whatever you choose to discuss with him will be handled in absolute confidence, of course, and when the time comes to buy or sell securities, the bank can look after all the details for you.

With the friendly help of your B of M manager you can increase your income by a wise investment program. Why not drop in at the Summerland branch of the B of M when you are next passing the bank and have a chat with Mr. Johnston.

Why Pay More?
Why Take Less?
