

## Six break-ins are solved by Summerland R.C.M.P.

Summerland RCMP have solved six break-ins. They happened November 7 to 11 but asked the press to withhold it until this week so as not to hamper the investigation.

A Summerland juvenile pleaded guilty to the six charges before Magistrate G. S. Denroche, Judge of the Family and Children's Court on November 24 and was placed on probation for a period of 18 months and released in the custody of an Aunt in Saskatchewan and will remain with her throughout probation period. The aunt appeared in court. He will also be under the supervision of a Probation officer in Saskatchewan.

According to owner Bill Laidlaw, they took the time to get their proper size of about \$350.00 in assorted clothing. \$150.00 worth was recovered.

RCMP told the Review, after entering and helping themselves to the merchandise, they took the loot out the back door. One of them went in again, locked the back door behind him and went out the way he came in.

Laidlaw did not know anything was taken until he was called to the RCMP to assist in identifying some clothing. He thought they were referring to the clothing he lost some weeks ago when some culprits broke in his front window and made off with his display. When he found out the police had clothing not of the variety in the window, he started to look around and found much missing.

Part of the clothing was recovered under the home of the juvenile and some in a rooming house in Vancouver. The jewelry had been buried in a local orchard.

### Interest shown in Badminton

Badminton is now well under way with a very good membership turnout. The junior attendance has been especially good with well over 30 club members. Credit for this goes to Mrs. Ken Storey, Mrs. George Fudge and a few interested parents.

The juniors play 4 times a week, seniors twice a week, and one afternoon for ladies who cannot come in the evenings.

A badminton party will be held on Friday, December 3 for badminton members and their guests at the Badminton Hall.

Anyone wishing to play badminton, please contact a club member or phone Clarence Lackey at 494-1674.

by Ron Kostelnik

In Juvenile action, Kelowna edged out Summerland 4-3 in a penalty packed game played

### John Bennest and college officials make Washington tour

School Board chairman John Bennest spent a few days in Washington cities with members of the Okanagan Regional College Council.

The purpose of the trip was to study and get architectural ideas of various colleges that may apply to their complex to be constructed near Kelowna.

He said the trip was interesting and informative.

### Slippery highway causes car to make complete turn in ditch

Marilyn Fern Miller of Penticton was driving north on Highway 97 Nov. 25 when in front of the Peachland Motel she lost control and rolled over into the ditch.

She was rounding a slight curve on reasonably bare pavement but when she hit a slippery portion the rear of the car slipped backward on the shoulder and made one complete turn and landed on four wheels.

Damage to her car amounted to \$500. She was taken to the Kelowna Hospital with leg and internal injuries.

A passenger, Kate S. Falkenholt also of Penticton was not injured. No charges were laid.

### School budget nears half million

There was a very small attendance at a meeting of ratepayers held last week. There were as many municipal and school officials as there were general public.

Ken Boothe, represented the school trustees in the absence of chairman John Bennest who was in Washington on regional college business.

He said their budget this year was \$468,000 or 7 percent greater than last year. Of this 64 percent comes from the provincial government, 33 percent from Summerland and 3 percent rural. He was hopeful

### Council meeting Thursday morning

As is the usual practice when there are five Tuesdays in a month, there was no Summerland Council meeting on Tuesday morning and there will be no meeting next Tuesday either.

This meeting will be held tomorrow morning (Thursday) because three of the councillors, Barkwill, Ritchie and Powell will be in Wenatchee attending the Washington state horticultural convention next week.

### Juveniles lose 4-3 to Kelowna, Midgets victims of whipping

Kelowna goalie Ian Anderson, in the third period.

The game was marked by fights and penalties with Summerland's Bill White getting into two of them. Gordon Lackey got into the other fight for Summerland. White tangled with defenceman, Bob Reed and Renny Banuucca. Lackey tangled with Barry Dlafusop. Kelowna captain, Bob Schmidt, got a misconduct in the second period. In all, 16 penalties were called in the second, with Kelowna getting 10 of them and 12 in the whole game.

In Midget action, the home town Kelowna crew dumped visiting Summerland 9-1 on Thursday, the 25th. Robin Agur scored the lone goal for the Summerland team.

### El Rancho Broncos flying high again

The Penticton - Summerland El Rancho Broncos had plenty of scoring practise over the weekend when they almost blanked Kamloops on Friday night and Vernon the following night. Each team was allowed but one goal per game. Much credit is due netminder Bobbin for this fine record for the Broncos.

Dwayne Blagoini came up with a hat trick Friday night against Kamloops and Terry Luxton got a pair. Singles went to MacInnes, Chernoff, Rebelato and Brent to make the final score 9 to 1.

It was 15 to 1 against Vernon on Saturday night. Terry Luxton came up with a four goal effort while Ray Pico netted 3. Two each went to Blagoini, MacInnes and Hayco. McNeil and Taggart got singles.

Friday night they meet Vernon again at the Penticton arena.

Bill Laidlaw's store looks pretty quiet. One was hoisted up on the canopy and here but it wasn't so quiet on the evening entered by way of the windows. They of November 11 when two youths thought helped themselves to \$350 worth of clothing they needed to round out their wardrobe. ing — of their correct size.

### Municipal insurance questioned by ratepayers

"We now feel that our insurance is on the proper basis". This is what Councillor Barkwill told a ratepayers-meeting last week after explaining why they changed from local agents to a broker in Vancouver.

Early this year, Barkwill said he asked the brokerage firm they use in their cannery business if he would be interested in making a survey of Summerland's municipal insurance.

This he offered to do at no cost to the corporation, so after consulting with council it was decided to let him go ahead.

At that time the three local agents were handling the insurance.

Following the survey, "various serious weaknesses" were pointed out.

To confirm this they had three other insurance firms make a study and they came up with the same objections to their present coverage.

The same firm handles the insurance for B.C. Tree Fruits, Summerland School District as well as the cities of Vancouver and Toronto.

He said it was impossible for them to renew policies as they come due under the new plan because the due dates staggered so they decided to make a clean break and take a loss on cancellation clauses.

He said they realized a saving of over \$2,000 in three years but this was not the main reason for changing — it was giving better coverage, "cleaning up our insurance business. I feel now our insurance is on a much better basis."

He was asked if any of the local agents had made any recommendations and answered, "yes, minor recommendations".

When asked if they were the same recommendations they received in the survey he said there were some.

In the past, Councillor Barkwill said, when council felt they needed insurance, they asked local agents to give a quote.

It was suggested that possibly local recommendations

were made but not followed.

Councillor Powell said the "recommendations of agents (local agents) had nothing to do with this", referring to those suggested by the Vancouver firm.

Reeve Holmes said "I went into this with Mr. Smith (Municipal Clerk) and no recommendations were made."

They were asked why local agents were not given the opportunity to quote on the insurance as recommended when three other firms had the opportunity to do so.

Barkwill explained it would not be fair business to ask for quotes on the basis of a survey made by opposition firms. "Business just isn't done that way" he said. "I now feel our insurance is on a proper basis".

Mr. Barkwill felt local agents should have made a survey of the situation while they held the insurance. "The way it was we could have lost thousands of dollars in the event of a fire."

"Fifty percent in some cases," Powell added.

### Not enough clearance for rocks

Bruce E. Wyatt, Penticton lost control when he was proceeding south on Highway 97 three miles north of Summerland at 1:00 a.m. Monday.

He struck an icy spot on the road and veered off into west ditch doing \$500 damages to the undercarriage of his car from jutting rocks.

There were no injuries or charges laid.

### Building tender is accepted

A tender for \$234,150 was accepted by the Summerland School Trustees at their regular meeting Thursday night. It was in favor of Busch Construction Company for the addition to the secondary school. Work has started on the building.

School Maintenance Supervisor, Elton Knuff told the group that the birds are, poking through the nylon vent screening at the Trout Creek school and are getting into the insulation. This will be replaced with wire mesh.

School Principal John Tamblin, in a letter to the board, requested janitor service, during and after weekend activities in the school.

He said after these functions washrooms and floors need attention.

The board agreed and will employ part time help to do this work.

Excess fill has been removed from the west wing of the Summerland School to Trout

Creek at a cost of \$600 which trustees felt was very reasonable and necessary.

A total of \$258,876.04 was authorized to borrow on short term for site development, cost of secondary school addition and for heating conversion.

The Board thought it was money well spent when they authorized the payment of \$37.32 for general expenses during the recent tour made by high school students to Vancouver educational institutions. Students paid their own expenses.

Mr. Phil Pelletier is removing the trees on the Dunham property for the wood.

The next meeting will be held on December 9.

### ACTIVE YEAR REVIEWED

## Many attend annual meeting of Guide Association

The Annual Meeting of the Summerland Guide Association took place on Monday, Nov. 19th at 7:30 with a large number of mothers of Guides and Brownies present. The Treasurer's report showed the Association had a healthy balance and the Secretary's report covered varied activities of the L. A. to the Association in the past year.

Badge Secretary's Report — 80 Badges were handed out to the Guides, and 40 to the Brownies.

Mrs. W. Laidlaw District Commissioner gave her full report on the year past. She told of the 124 girls in the Guide movement in the district, with twelve leaders and six packs — two of which are Rangers. The Leader's reports cover the work they have been doing since last January. One girl received the Gold Cord and one more is trying for this honour. The

Mother and Daughter Banquet was well attended as was the Daffodil Tea in the spring.

Twenty Company Guides attended Camp Mowatu and had as guests six Guides from Vancouver. Camp Commandant was Mrs. Gladys Pool.

A group of Girl Scouts from Boise, Idaho were guests at camp. Twelve Wenauche Camp fire girls were billeted here for a weekend. Several fires were built in the surrounding area and everyone enjoyed a cookout. After one and a half hours of waiting the foil-wrapped food was ready.

Mrs. Pool was back at Camp Mowatu in August with local Rangers plus ten Rangers and their leaders from Kindersley, Bask for a week's fun. The Local Rangers have been invited to Kindersley next summer.

Ranger Kay Newwick decorated the Fall Fair booth. The

mothers of Guides and Brownies donated candles and cookies to be sold.

Mrs. Laidlaw attended several executive meetings in Penticton also the Divisional Semi-Annual at Princeton and Penticton. In October she took part in a Commissioner's training session for two days in Kelowna.

In conclusion she thanks all for donating food to the camp, the District Executive for all the work that was done, also thanks to the mothers of all Rangers, Guides and Brownies for their transportation services and for their generous donations of candy, cookies and time and effort that go into organizing our Spring Tea.

Mrs. George Naylar Brown Owl of the first pack gave a large and varied account of the pack for the past year.

Twenty girls attended camp and two Brownies placed a

wreath on Remembrance Day. This Pack has two acting Tawny Owls, Mrs. R. Barkwill and Mrs. W. Marles. Mrs. D. Clark, Brown Owl, 2nd Pack. 24 Brownies — 14 badges earned.

This pack provides the tray decorations for Easter and Xmas for hospital patients.

Tawny Owl — Mrs. K. Marten assisted by Mrs. G. Rasmussen. Brownie Owl 3rd Pack. There are 26 Brownies in this group and 5 Brownies attended camp this year.

Guide Capt. Miss E. Maynard has 34 Guides who enjoyed varied activities such as Winter Camp and twenty girls attended Summer Camp. Six patrol hikes took place this fall. They sold poppins for the Legion.

The Guide Company have had as instructors in badge work Mr. S. A. MacDonald, Mr. Bud Green, Mr. Channon Snow Dr. J. Wilcox, Mrs. J. Mason,

## Summerland Teen Town needs help to solve its problems

The Summerland Teen Town Association is having some problems. The first and most important problem is that chaperones for dances are hard to come by. As everyone knows, without adult chaperones, dances cannot be held, and without dances, Teen Town might as well cease to exist.

Another problem is that no one has contacted STT about a hall of her own. As was stated before, nothing elaborate is being sought, merely four walls and a roof; a place which varied congregations could be held.

A NOTA - SOTA conference took place in Vernon earlier in November. Two Summerland members were elected to the SOTA executive. They were Jack Bennett, premier and Dale Stevenson, athletic director.

STT is trying to build up her membership. Cards may be purchased at any dance forthcoming.

Two dances are being held in the very near future. This weekend, Saturday, the Youth of December, a tap dance at the Legion hall with the dance there will be a Council Dinner Party at the home of Janet Tamblin.

December 11th will see a dance at the Youth Centre. A British group from Vancouver will be providing music and perhaps a little prestige. A large turnout with members from all over the valley is expected.

All Council members are asked to be at the Youth Centre at 1:30 p.m. December 11th, to help decorate.

## Beavers invade Trout Creek

There have been busy beavers in Trout Creek. Steps were taken to prevent beavers from getting their daily bread from the pear trees at the north end of Trout Creek this fall.

Two females and a male have left an impressive mark in their process of making a home under the wharf. A considerable number of trees were felled, some up to five inches in diameter and dragged in to their home site hundreds of pounds of dirt, bottles and even a pail they found on the beach.

It was with considerable sorrow local residents had to obtain the permission from authorities to have a qualified trapper come in to clear the area, but there was little doubt

that they would start on the pear trees nearby, next. It is known that the bark of pear trees is a beaver delicacy.

According to Mr. Dave Spalding of the Conservation and Research Wildlife department, beavers are not plentiful in the Okanagan area, but are seen on occasion.

They were able to trap the two females and the male has not been seen since. The muskrat who also moved in after the beavers built their home, now have it all to themselves.

## Nine tables enjoy whist party

The regular Legion Whist Party was held last Thursday evening in the Rosedale Room with nine tables in play.

After an enjoyable evening, the winners declared were: Ladies First, Mrs. J. Heichert; Gentlemen's First, Mr. Styberg; Ladies Consolation, Mrs. M. Campbell (playing gentlemen).

The lunch committee for November was Mrs. B. Fleming and Mrs. E. O. Mortimer, both of whom thank the ladies and gentlemen who helped. Another committee will take over for December.

## Accident reveals no insurance

The Summerland Hill on Highway 97 was about as slippery as it could get on the evening of Nov. 24, tying up traffic until highway department trucks sanded it. It was impossible for cars without snow tires or chains to get up.

One accident was reported to RCMP when the tie-up was at its peak.

Stanley Skippings was travelling north when he was flagged down by a stalled motorist. After stopping he could not get mobile again.

A Summerland juvenile was travelling north, lost control

on the icy surface but managed to avoid hitting parked cars until he came to Skippings. Damage to both vehicles was \$300. No charges were laid as a result of the accident but the juvenile was charged with operating a motor vehicle without insurance.

## National defence department requests extension for I. Tyacke

The board of trustees of School District No. 14 at Thursday's meeting extended the leave-of-absence of Miss Isable Tyacke by one year.

The request had been made by the Department of National Defence and is to extend to August 31, 1967. The letter stated that the extension was requested because Miss Tyacke had given "outstanding service in the academic and extra curricular field".

She had been a teacher at the Oliver Elementary School prior to her present position with the Department of National Defence.

"She was a teacher at our school for two years," R. Guidi, principal of the Oliver Elementary School reported. "She was a quiet girl, conscientious and a real worker."

She was an excellent classroom teacher, took part in the physical education department and did some spare work on the organization of the school library according to Guidi.

## 'Open house' at Happyvale School

The third annual Open House of the Happy Vale Workshop at 500 Edmonton Ave., Penticton will be held Monday, Dec. 6 from 2 to 5 p.m. Tea will be served and article made by the young people of the workshop will be displayed for sale.

The P.T.A. of Happy Vale School and Workshop sponsor this event and invite the public to visit the school. The Summerland Handicapped Association co-operates in this enterprise.

### FIRST HOMESTEADER

Charles Taylor in 1883 was the first homesteader in the Alberni area. The Taylor River there honors his name.

## Election slated for councillors

There will be an election in Summerland on December 11th.

Reeve Norm Holmes was re-elected by acclamation. Although Holmes was hesitant to let his name stand this time due to his health, he told this reporter he is feeling better now than he has for some time and is looking forward to another two-year term.

"I enjoy council work", he said.

School trustees Ken Boothe and Bob Barkwill were also

re-elected by acclamation.

There are three candidates to fill the two vacant seats on council. Coming back seeking re-election are Jim Schaeffer and Scottie Ritchie. Doug Hill is the new name on the list.

Shaving was originally a protective measure since long beards were easy for opponents in combat to seize.

Summerland Review — 3

## Where are we going . . . in such a hurry?

Just a few ideas about life. Not making a living — just living.

God has given us what we often refer to as the simple things in life. Simple? Only because we take them for granted.

He has given us our creeks, lakes, trees, green grass, the spring run-off, our snow in winter. All these things are beyond man's ability to create but they are called "the simple things in life".

But most of us do not have time to appreciate these wonderful gifts as we grow older. We are always going to tomorrow — or on the weekend — but then we don't have time.

There are those who have time. They are at a stag in life when they have the greatest learning acceleration. Possibly they do not realize the greatness of that period but due to their rapid development and ability to grasp knowledge they should be given every opportunity to grow with nature so the appreciation for these great gifts will not be swallowed up completely when they too think they do not have time.

We refer to our pre-school children.

Our educators have revealed that a child will absorb more knowledge during ages three to five than during any other comparative period in their lifetime. Now there is a move to take advantage of this

in a conformational way — robbing them of nature and putting them in schools which are known as kindergartens.

Why should we force our dear ones to replace the sound of the school bell for the melody of birds. Why should we replace that scuffed up boot that kicks stones down the lane for shiny shoes to place under a desk? Why should we fill the hand that throws twigs and branches in streams with a pencil so soon? We are robbing them of a wonderful time to learn of God's creations — this too moulds personalities and appreciations that will be with them all through their lives.

If we think back — youth is but a fleeting moment — let our youngsters enjoy it. There is plenty of time for them to get into our crazy whirl. Let them do some living while there is still time.

The world is only as competitive as we make it so, let us not ask our loved ones to conform so early.

It is with regret we learn that the Penticon School Board are pushing for kindergartens and plan a referendum vote on the issue December 11. We hope the voters will turn it down.

We do not write as an expert — only as a layman that believes it is time for us to stop and ask ourselves — where are we going in such a hurry?

B.C. Fruit Growers Association delegates at the B.C. Federation of Agriculture convention in Victoria last week were, from the left, W. A. Ritchie, Cawston; Bernard Pow, Kelowna; John Luthy, Oliver; and John Kosty, Vernon.

## Farm groups reminded to "respect views of others"

VICTORIA — An appeal for all farmer-oriented organizations to respect the views of others was made by the President of the B.C. Federation of Agriculture, Lyall A. Currie.

Speaking to the Federation's 32nd Annual Convention, Mr. Currie said: "I would not expect people from varying areas in the province, or who market their crops through competing agencies, to always think in accord, but before we allow ourselves to express antagonism against each other, we must recognize that each is entitled to his own views."

He felt that those persons thinking contrary to other groups may be "just as sincere as we are in wanting what is best for agriculture."

Voting delegates and guests totalled 188 at the opening sessions, held in the Empress Hotel. They represent farm organizations from all areas of B.C.

Mr. Currie said if he had any misgivings about the future of the Federation of Agriculture it is over the wasted efforts that he sometimes encounters in meetings through one group of farmers — often in the same commodity — fighting and working against each other.

"In attempting to better understand each other we can reach compromises that will assure a more united voice for agriculture and a great respect for our Federation," he said.

Mr. Currie touched on approaches farm groups must make to government departments. "You can only gain the ear of consideration of government based on sound factual arguments, and you cannot provide this unless the resolutions which we pass in the first place are well thought out and constructive," he emphasized.

## Boothe attends executive meeting

Summerland School Trustee Ken Boothe attended a meeting of the British Columbia School Trustees Association on the weekend.

Mr. Boothe, a member of that executive for a number of years left Summerland Friday and attended meetings in Vancouver Saturday and Sunday.

## Youth Centre elects executive

Youth Centre president Ewart Wooliams chaired the annual meeting on Wednesday evening.

In his report he told the group the building had been valued by Corporation Assessor Joe Sheeley at \$28,000. The organization paid \$3,000 for it in 1949.

He expressed appreciation towards the municipal council for their annual grant of \$600. With this amount, receipts from rental and donations they have been able to carry on nicely.

Receipts for the year were \$1,244.51.

Chairman of the building committee, Ralph Cook said they are in the process of making improvements to the kitchen and washrooms. The project will be complete in the spring.

He said the furnace has been a problem. They found that burning peach pits was not sufficient and that they now have coal to use as well so it was hoped the problem would be solved.

Bill Barkwill, chairman of the nominating committee pre-

sented a list of directors willing to act. The president, vice president, secretary, treasurer and directors will be chosen at their first executive meeting.

This list was accepted by the meeting. Don Clarke, Lorne Bloomfield, Don Fisher, Mr. and Mrs. Munn, Chas. Greenough, Doreen Tait Lloyd Catrell, Mrs. Vic Parker, Murray Elliott, Mr. and Mrs. Ewart Wooliams, Mr. Hans Schmidt and one representative from the Kiwanis Club, not yet named.

## ARDA saves corporation \$145,000 in three years

Councillor Walter Powell told Summerland ratepayers at their meeting last week there will be \$215,000 spent under the ARDA program over three years on dams and flumes. The program started this year and will continue for two more.

Under ARDA the two senior governments pay two thirds of the cost and the other third is paid by the municipality.

This will mean \$70,000 will be paid by Summerland and Powell felt this could be done out of current revenue.

Five main irrigation dams will be reconstructed at a cost of \$86,000 and 24,000 feet of main line flumes will be constructed at a cost of \$129,000.

To date one third of the flume work is complete and No. 4 dam reconstructed. They plan on doing dam Nos. 2 and 3 as well as Whitehead next summer.

"When this work is complete our main worries will be over for at least 50 years," he said.

By 1967 it will be compulsory for growers to have control regulators on their line so it will produce a maximum of 6 gallons per minute. This has not been enforced due to the fruit damage last winter. Such valves are being considered on domestic water as well to avoid present restrictions.

He was asked from the floor how it is that there are 14 ac-

res in Prairie Valley that has the flume running beside the orchard but their watering is being done with domestic water.

"If we are short of domestic water why don't they get their water from the flume?" John Dunn asked.

"We are not restricting domestic water, only regulating it," Powell said and added in the Prairie Valley case he did not have any explanation other than the fact it has "been going on for years" and in the event of a water shortage, they should be forced to get their irrigation water from the flume.

He said Summerland had 9,000 acre-feet of water storage plus 3,000 acre-feet in the system which is ample but they feel it is wise to have "some in the bank".

**Reader objects to water changes**

Editor, Summerland Review  
Sir:

In reply to the proposed change in the domestic water supply for Summerland (By the Lake), as your paper puts it, I feel this spring water is the property of the citizens of Summerland (By the Laker, as it has been their water supply since Summerland was founded in the late 1800's and has been their water supply ever since.

Re: the proposed change of supplying this area by a pumping system from Okanagan Lake. This I can assure you will never meet with my approval and I am sure many others, until a proper sewage system is installed in this area.

**Loyalty to Queen, country advocated in our schools**

Dear Sir:

The principals and teachers in our schools have a duty to see that proper ideals of loyalty to our Queen and country are instilled into the minds of the pupils and that due respect is paid to the flag and Canadian institutions. I was shocked to learn that since school started in September some pupils have not sung the National Anthem or been assembled in front of the flag. This situation was verified to some extent by talking to several students from each of the schools in Summerland.

A Bo-Peep attitude is not good enough. It would be wrong to assume that the young, if left alone will come home without any help from the shepherd. Our teachers would do well to look again to Aristotle who said, "That which contributes most to the permanence of constitutions is the adaptation of education to the form of government . . . The best laws, though sanctioned by every citizen of the state, will be of no avail unless the young are trained by habit and education in the spirit of the constitution."

Yours truly,  
QUINTILIAN

**BRIDGE RESULTS**

There were seven bridge tables in play at the Rosedale room of the Legion with the following results:

**NORTH - SOUTH:** J. Garraway and W. Hepperle; Dr. and Mrs. W. Evans; R. Stewart and F. Brodie.

**EAST - WEST:** I. Gartrell and J. Poslawski; P. MacRae and R. White; E. Hall and R. Orr.

**Sum'land students build two houses**

A well attended meeting of the Trout Creek PTA was held in the Trout Creek School.

Chairman, Mrs. G. Wardle stressed the importance of taking out membership, as numbers of an organization are extremely important when presenting resolutions or recommendations, to government and official bodies.

A resolution concerning crosswalks on highways in suburban developments was passed, for presentation to the Provincial P.T.A. Convention. It is strongly felt that an overall policy is needed to guide areas where crosswalks are a problem.

P.T.A. is sponsoring a chartered Flight overseas in July of next year, at a cost of \$550.00. Members wishing to be included should make a deposit by November 25th of this year.

Mrs. Novaks room won the book prize for the month.

The \$204.00 collected for "Save the Children Fund" on Hallowe'en could be designated by the Trout Creek and Summerland youngsters for three months, or building two houses. They chose to build two houses.

Mr. Al Shipton, Supervisor of Remedial Reading at the Penticton elementary schools explained to the meeting how to help your child to be a good reader. He elaborated on these points: 1. Expose him to reading early. 2 Give him a home environment of loving, reading interested parents. 3 Expand his vocabulary. 4 Teach him to expect to succeed. 5 Encour-

age his curiosity. 6 Teach him to love reading and 7 Teach him to listen.

Mr. Shipton presented two articles, one from Red Book, Sept. issue and one from Dr. Spock, both expressing the theory that we influence our children's intelligence by how we handle them in the early ages. That operation headstart is vital, and six years is too late to start.

**Come to think of it, what has the Bank of Montreal done for me lately?**

Well sir, in the Bank's year just ended, we've provided you with a diversity of services unmatched by any other type of financial institution anywhere.

We've put your savings dollars to work—in industry, commerce, on the farm, in the fishing fleet—in communities in every section of this country.

We've lent you money to buy cars, household goods, to educate your children, to improve your business. Our year-end statement reports that, as of October 31, 1965, \$3,187,990,306 was on loan to you and your fellow Canadians in all walks of life. We also invested \$811,767,061 in high-grade Government Bonds and public securities which have a ready market and \$163,541,999 in other securities — mainly short-term credits to industry. Total deposits stood at

a record year-end high of \$4,605,387,144.

Besides our three main day-by-day functions of helping you save, lending you money and handling your chequing requirements, we've also provided you with travellers cheques, money orders and facilities for safekeeping, banking by mail, foreign exchange and the buying and selling of securities, plus every other banking service you could possibly require. And we've opened new branches so you can do all of these things conveniently.

On top of all this we'll be introducing very shortly a form of high-yield investment that will bring you a solid return guaranteed by Canada's First Bank. Watch for it! These are a few of the things we've done for you lately . . . these, and other things, we look forward to doing for you in the year ahead.

## Plenty of action in tournament

by Ron Kostelnik

The annual Senior B basketball tournament wound up Saturday night with Princeton defeating the defending champs, Winfield, 46 to 38 in the big game. The Immaculate Dons won the consolation round with a 44-33 victory over the Keremeos Sparks. Summerland won its first game with a 45-31 victory over the White and Black from Prince George but were eliminated by Winfield on Saturday. Here are the results of the games:

Game 1: Summerland whipped George Pringle 45-31. Summerland built up a 15-11 half time lead and never looked back. Gerry Mayne, with 23 points, was top man for the Rockets. Bill Fitzpatrick had 10; Gerry Marsh 5; Rod Akitt and Ray Betuzzi 4; Ed Mead and Ron Mayne 3; and captain Keith Kennedy 2.

In the second game, defending champs, Winfield won a close 50-43 contest with the Immaculate Dons, while in the third game, Princeton, enroute to the championship, walked away with a 58-30 victory over Rutland.

Revelstoke then dumped Keremeos 45-28 in a game controlled by the winners. In the consolation playoffs, Immaculate buried George Pringle 74-28. The loss eliminated George Pringle from competition then Keremeos knocked Rutland out of the tournament as they won 33-27.

Winfield outstayed our Rockets as they won a thrilling 63-55 victory before the tallness of the opposition. They outscored Winfield 25-8 in the final quarter as they kept Winfield hemmed in their own zone most of the time. Bill Fitzpatrick led the Rockets with 12 points; Gerry Marsh and Gerry Mayne 11; Ray Betuzzi 8; Keith Kennedy 9; Ron Reinerston 2; Rod Akitt and Ron Mayne 1; Fitzpatrick and Ron Mayne fouled out as did Bob Reimer and Dave Marznik for Winfield.

Revelstoke was knocked off by Princeton 40-32 as again the smoothness of the Princeton attack proved to be too much for Revelstoke.

Immaculate won the consolation event with a 44-33 victory over Keremeos.

The door prize was won by Ray McNab.

Mr. Tamblin tossed the ball for the championship game and Princeton went on to defeat Winfield. It was 20-19 at half time in Princeton's favor and then the Pioneers put the game on ice by outscoring Winfield 20-8 in the third.

The Summerland cheerleaders again put up a good show and encouraged the team. The cheerleaders are: Joyce Araase, Donna, Holmes and Isla Schepens.

## Summerland Rotary to entertain children at a Christmas party

The Rotary Club will hold their annual children's Christmas night on December 17. This was decided at their regular meeting Friday night. Harvey Wilson, Joe Akitt and Jock Johnston will be in charge.

Ladies night will be held on January 14. Secretary S. A. MacDonald in reference to a bulletin received from New Zealand said they don't have anyone making "fast bucks" down under, they make "quick quids".

The guest speaker was Tim Decie who worked with the research department of the B.C. Forestry Service for fifteen years. He is now a resident of Summerland, operating an orchard.

He gave a very interesting account of the problems facing government and industry in the field of regeneration of timber with special reference to the Prince George area.

## CGIT anticipate busy year

The C.G.I.T. of the Summerland United Church has resumed under the leadership of Mrs. Vera Foster and Miss Rosemary Day.

The slate of officers elected for the coming year are: President, Mary Foster; Vice-President, Sharon Potter; Secretary, Jo Ann Newton; Treasurer, Carolyn Norris.

Monday night the mothers were invited to the candle-light services for the installation of the officers and initiation of new members who are: Geraldine Bennett, Joan Turnbull, Lynn Hughes, Susan Potter, and Kathy Shannon.

Babysitting services were given at the UCW Bazaar held Saturday. Children were treated to cookies, freshie, and pop corn. At the bazaar, United Church calendars were sold and still have some on hand to sell.

Two members and a leader from the intermediate group attended the Fall Rally which was held earlier in November at Osoyoos.

On December 12, the annual C.G.I.T. Christmas Vesper Service will be held at 7:30 in the

church. On Christmas Eve the Vesper Service will be taken to Parkdale Place, and caroling will also be done at the Hospital Christmas Eve.

## Roads and sidewalk budget will balance at the end of year

Councillor Bill Barkwill told ratepayers last week that the 1965 budget for roads and sidewalks of \$65,000 will be almost used up by the end of the year. By October 31, they had \$23,961 left but since that time they have contracted gravel crushing and bought two new trucks which will use much of the balance.

A request was made to do something about the tent caterpillar on road allowances. Barkwill felt it would be of little use to control the road allowances when they are still in the orchards and a co-operative spray program between the municipality and the growers would be costly. Reeve Holmes said he contacted District Horticulturist Alex Watt who informed him the tent caterpillars go in cycles and they are now on the downward trend.

## Bank shows increase in all departments during the year

Bank of Montreal assets nudged \$5 billion at the October 31 year-end, while loans, deposits and earnings also reached new peaks, according to the bank's 148th annual statement, published this week.

The assets figure of \$4,997 million was up \$329 million over 1964. Loans climbed \$439 million to \$3,168 million, passing \$3 billion for the first year in history.

Bank of Montreal earnings were \$18,730,353, or \$3.08 per share, 4.9 per cent above 1964, when the per-share figure was \$2.94. Total provision for income taxes was \$19,410,311.

Total deposits at \$4,605 million rose \$265 million from 1964, while personal savings reached \$2,167 million, compared with \$2,030 million in 1964, an increase of \$137 million.

The total loan figure of \$3,168 million includes an increase of \$456 million in the key category "commercial and other loans".

Securities holdings stood at \$975 million, down \$167 million, indicating that the liquid position has been well maintained.

The net profit after taxes for the year's operations of more than 970 offices at home and abroad was \$18,730,353, an increase of \$875,470 from 1964.

Dividend payments for the year to the bank's 24,000 share holders have amounted to \$13,820,625, or \$2.27 1/2 per share 7 1/2 cents more than in 1964.

After payments of dividends the balance of earnings for the year is \$4,909,728, to be added to the balance of undivided profits of \$1,557,599 carried forward from 1964. From this total of \$6,467,327, an amount of \$5 million has been transferred to rest account, which now stands at \$163 million, leaving a balance of undivided profits carried of \$1,467,327.

## REPORT FROM PARKDALE PLACE

(Held over from last week)

Mrs. Heales and Mrs. Lanzi, members of the Morning Circle of the United Church, took some of the ladies for a drive. It was a lovely afternoon. The country side was at its best when the trees had taken on their autumn attire. Tea was served at the home of Mrs. Brandon.

We were pleased to welcome Mrs. Atkinson Home after a prolonged stay at the local hospital. She thanks the Women's Institute for their kind enquiry. All her friends will be pleased to know she is making satisfactory progress.

Mr. Jack Ellis is in hospital. We send him our best wishes for a good recovery.

Mrs. M. Grant is the only birthday celebrant this month. We all join in wishing her happiness. As she travels along the pathway leading to the next Milestone of Life may she receive many Blessings.

The outstanding event since our last report, was the dinner given by the Credit Union to which all the Senior Citizens of Summerland were invited. Several guests and three of the staff were present from Parkdale. The dinner and service in charge of the Legion Ladies Auxiliary was excellent. The Rosedale Room of the Legion Hall was the scene of a very happy gathering. A program of music and dancing was most enjoyable. We thank the officials of the Credit Union for their kind invitation. Congratulations to Mr. H. Burdon, Master of Ceremonies.

We were sorry to hear of Mrs. Scouten's accident. We send our best wishes for her recovery in the near future. Keeps smiling Kathleen.

Our gracious thanks for donations of flowers, fruit, vegetables, etc. Mr. and Mrs. Moody, 400 lbs. potatoes (Trout Creek); anonymous, one gallon of ice cream; flowers, Mrs. Bing, Mr. Marshall, Mr. Manning, United Church, Mr. T. Ritchie, Mrs. M. Britton.

Mrs. McNeil, box of carrots; Mrs. Gerard, beets; Mrs. Youman, parsley; Mr. D. C. Christlan, 1 box Rome apples; Miss Holder, 1 box apples; Mr. A. McLaughlin and Mr. D. Taylor, squash.

## Growers turn down two resolutions at annual meeting

Two resolutions were presented to the annual meeting of the Summerland Local BCFGA last week, but did not receive the sanction of the members.

One was to make the provincial government responsible for insect spraying with a goal of having insect free areas but it was felt spraying should remain the responsibility of the orchardist.

The second one, although turned down will be heard of again at the annual meeting of the association in Penticton January 18, 19 and 20.

Local Secretary Brian Liebert said it was based on the fact that fruit stands are advertising and selling fruit at such low prices that they depress retail prices all over.

It was turned down due to the wording of the resolution in that it was too vague but it was accepted in principle.

It will be rewarded and presented to the parent convention in Penticton.

Eric Tait was elected chairman of the association replacing Charlie Bernhardt who was held the position for many years and did not contest the

position. Tait had warm words of praise for the past chairman's work while holding top spot.

Elected vice-chairman was Hans Stoll, Secretary-treasurer again is Brian Liebert. Delegates are Charles Bernhardt, Rob Towgood, Colin McKenzie and John Caldwell. Alternate delegates are Adam Huva, Jim Dunsdon, Bob Smith, Harvey Eden, Arnold Boerboom, Don Tait and Bill Krause.

The local nominated both Allan Claridge of Oyama and Nigel Taylor of Kelowna for BCFGA presidency; J. M. Campbell of Salmon Arm for chairman of the B. C. Fruit Board, with Hans Stoll and R. G. Penson as members; Tree Fruits board, Bill June, N. S. Gregory and Phil Workman of Naramata; Sun - Rype, Fred Ritchie of Naramata; BCFGA executive Charles Bernhardt and Bill Ritchie of Castown.

Why are you\* headed for higher automobile insurance costs?

## Because an "average" accident last year cost \$810... a jump of \$113 in just 5 years

Automobile Insurance rates in most areas of Canada will increase in 1966. Prudent drivers ask why premiums should rise again. Here are the key reasons:

- Every year the number of vehicles on Canadian roads is increasing... but the total cost of accidents in the past five years has gone up *three times as fast* as the number of cars which together must provide the money to pay for these accidents.
- And during the past five years the number of accidents has spiralled much faster than the number of cars that are on the road.
- In that same period the total cost of insurance claims has doubled.
- Since 1960 this claims cost has been climbing at an average of \$40 million a year. This year's insurance bill for accidents will total \$400 million.
- Each accident costs more than it did five years ago — the result of more expensive and luxurious cars,

Increasing repair costs, higher medical expenses and compensation for time off work or lost income.

The only way to stop this spiral is to have fewer accidents. That is the best way, too, to out the tragic toll of 4,500 deaths and 150,000 injuries in Canada each year. *Safety pays...* It saves lives and dollars.

### \*Even Good Drivers Have Accidents

Drivers with a three-year accident-free record earn a 35 per cent discount off basic insurance rates. But even good drivers have accidents. Eighty per cent of all accidents are caused by people who have driven three or more years without an accident. That is why the basic rates go up for everyone—even the good driver who still gets his discount.

# 'Concert in color' outstanding show

By Herb Simpson

The "Concert in Color", sponsored by the Summerland Camera Club, drew an audience of about 140 people at the MacDonald School Auditorium on Saturday evening, Nov. 27.

The show brought together the efforts of nine B.C. camera clubs, including Summerland, and was made up of short series of slides, complete with taped commentary and music. Clubs participating in this concert were: Vancouver Photographic Society, presenting "A B C of B.C."; Lion's Gate Camera Club; "Animal Kingdom"; Vancouver - Pacific Branch C.P.A.C.; "Waterfront"; Capilano Camera Club; "Award winning Color Slides"; Chilliwack Camera Club; "From the Mountains to the Sea"; White Rock Camera Club; "Forces of Nature"; Summerland Camera Club; "Song of the Seasons"; New Westminster Color Photographic Society; "There is Gold"; and Victoria Camera Club, "Hawaii".

The show was brought to Summerland by Mr. and Mrs. John Hau and Mr. and Mrs. Art Cousins, members of the New Westminster Club. In

their opinion, Summerland's show, "Song of the Seasons" was one of the outstanding contributions to the concert.

There were excellent examples of photography from all the clubs, and judging from the remarks overheard at intermission and at the end of the concert, it proved to be a very entertaining evening.

Following the concert, a coffee party attended by members of the Summerland Camera Club executive, was held for the visiting photographers at the home of Dr. and Mrs. R. B. Cuthbert.

### TO RENT

## Electrical demand zooms annually

Councillor Schaeffer told Summerland ratepayers last week the demand for electricity is constantly increasing. The kilowatt requirement has increased almost two and a half times since 1960.

He said they were having no difficulty with distribution however, but they are making changes at the switching station so they may double the capacity.

The lines are in good condition according to Schaeffer, with the possible exception of Trout Creek where a new line will be needed.

In his library report, he said there are 6,500 books available. 28,000 have been issued so far this year according to the librarians.

He said to date there has been \$60,829 paid out in social assistance, of which all but about \$20,000 will be paid by the provincial government.

Councillor Ritchie said visitors to Peach Orchard Park was down by 1,000 cars this summer over last year and much of this was return trade so he looked forward to a

bright future when the tourist business returns to normal.

He explained the arena is self-supporting as far as operational expenses are concerned. The corporation pays from \$2,000 to \$3,000 per year for maintenance.

He called for more restriction of dogs. According to by-law they must be under control at all times. They have killed a young calf according to Ritchie which "is a sad state of affairs."

He also reported on the Health Unit and his real estate department.

Reeve Holmes, who will stand for re-election for another two-year term, took this opportunity to thank his council, Ken Blagborne, Gordon Smith and the municipal staff for their co-operation during the past four years he has been Reeve.

"Any success I have had is due to your help", he said.

A vote of thanks was conveyed to the council for their year's work by ratepayers present.

## Curling

Walter Toevs' rink, with Gordon Beggs, Sam Imoshi and Ken Cameron, went to Princeton on the weekend and reported that the new rink there is very nice. Walt Toevs, as President of the B.C. Curling Association, spoke at the banquet in Princeton.

There was a turkey and ham curl on the rink on Sunday, Nov. 28.

Saturday night curling is going well with 12 rinks. They are glad to welcome Joe Sheeley back.

Anyone interested in mixed curling should leave their name with Hilda Eden at the Summerland Arena. Spectators are welcome at the rink at any time.

The Senators Club would like to make up two more rinks. If any retired people are interested in curling, please get in touch with Gavin Paterson, or the Curling Club at 494-2851.

To-day the hospital building has become too small for the demands placed upon it. Demands that will increase as our towns and people increase. Service departments must be larger, well-planned and better situated in support of advancements in medical science as well as numbers of patients.

Danny, age 5 is one of many eye surgery patients cared for at Children's Hospital. During the past year 3,182 children from 141 towns in the province were admitted to the hospital's ward. Children's Hospital Travelling Clinics visits 19 major centres at intervals during the year with 1,488 patients checked and 1 re-checked during 1964. Teen Town sponsors Children's Hospital

## Teen Town again sponsor "March of Dimes" for Children's Hospital

For nineteen years the people of British Columbia by their donations to Children's Hospital March of Dimes have ensured this B. C. institution's program of treatment for the sick and crippled youngsters of our province.

In 1925 Crippled Children's Hospital cared only for orthopedic cases. In 1947 it became known as Children's Hospital and has since then cared for all types of children's disorders. Since that time thousands of B. C. youngsters including those with such disabilities as heart conditions, diabetes, arthritis, congenital conditions, epilepsy, asthma, cerebral palsy, muscular dystrophy kidney disorders, allergies and in fact practically any childhood disorder that can be named, have received treatment as either patients in the wards, in the out-patient department or at one of the 28 Travelling Clinics held periodically in 19 B. C. centres. Last year 3,182 patients from 141 towns in British Columbia were treated in the hospital's wards and 1,488 youngsters checked at the Travelling Clinics.

Last year more than 3,000 children attended out-patient clinics in Vancouver. Directly attributed to funds made possible by Children's Hospital March of Dimes collections is the continued care of many patients whose progress has reached beyond the term of acute care provided by any insurance plan. Where possible the dimes and dollars collected are put to work in caring for children from the locality in which they were donated. Needless to say the necessity for uninterrupted treatment and rehabilitation of such cases is a continuous problem at Children's and one which can only be solved by public support.

During the past year approximately \$791,000 was required to operate Children's. Of this British Columbia Hospital Insurance provided \$517,000. The largest portion of the balance as in previous years was raised by public donation.

During the first 41 years of its existence Children's Hospital cared for patients in the age groups of infants to fourteen years. This year its scope and the admission age raised to nineteen years. This adolescent unit is widely approved by medical staff in offering well thought out and greatly needed treatment facilities for the teen-age group.

Children's Hospital belongs to every town in the province regardless of size. In most localities March of Dimes is the medium through which the public can contribute and is sponsored by a local service club or fraternal organization. In Summerland local news can be secured from — 1 Summerland Teen Town, Mayor Betty Melnes; Secretary, Janet Tamblin, Phone 494-2151 or Daphne Lamb, Treasurer; 2 Oliver Teen Town, Mayor Bob Taylor or Secretary Mary Hext or 3 Osoyoos Teen Town Mayor or Jane Edwards or Secretary, Linda McRae.

For it is Children's Hospital that brings its Travelling Clinics to nineteen provincial centres. These clinics started nineteen years ago and pioneered the field for such services in North America. Originally only

## PRESENTATION MADE TO GEORGE HENRY

George Henry, centre, smiles broadly as he is presented with a new golf bag by John Bennest, left, Chairman of the School Board and Reeve Norman Holmes at a gathering in honor of his retiring after driving school buses for 46 years — without an accident. The bus replica was made by the school children.

## George Henry publicly thanked for kindness

A man who has been driving school buses since the days before they were school busses was honored at the Chamber of Commerce meeting Thursday night.

George Henry, a veteran bus driver who has driven the equivalent of twelve trips around the world which represents 1,250,000 passenger miles according to calculating by Dr. Jim Marshall, without an accident.

Seated with George at the head table was Mrs. Henry, M.C. Tom Manning, Chamber President, Reeve Norman Holmes, John Bennest, Chairman of the School Board, Ted Atkinson, Mr. and Mrs. Jim Marshall, and Howard Clark, Chamber Secretary-Treasurer.

School children had made a cardboard school bus — not containing children — but a real pro's golf bag, a sport that George takes part in more days than not.

The presentation was made by Mr. Bennest who said "It is an occasion to give honor and thanks to George Henry who has been so helpful in his job and to his community. We are all grateful to him".

He gave a brief history dating back to 1913 when George started driving horse drawn busses when he was employed with Pares & Hockham, and later operated by Mr. Henry. It was now known as Smith and Hill.

They went to a flat deck removable canopy in 1918 and to a regular school bus in the 1930's.

"He gave many lessons in discipline, good manners and good humor", Bennest said.

He holds a life membership to the Chamber of Commerce, is a charter member of the Summerland Kiwanis Club and was one of the originators of

the Golf Club.

Reeve Holmes speaking on behalf of the community said, "My feelings towards George have always been of great admiration, you have always shown a humane attitude and a sense of humor. The school children and people of Summerland are losing a very valuable servant. Your presence and personality will leave its mark on all who worked with you."

Mrs. M. Roberge directed a skit with Les Gould taking George's place behind the wheel of a bus constructed with tables and chairs.

After going through motions that so identified Mr. Henry with certain mannerisms recognized by all there, he went through the old bus route.

He called the stops, and former students came up and took their place on the bus. He had to check with George now and then to make sure he was on the right road.

David Munn was "kicked" off for cutting up — but soon got his horse and passed the bus on the way to school.

## Building permits surpass \$1 million

The total building permits for the first eleven months of this year went over the \$1 million mark according to Building Inspector John Khalembach's report at the end of November.

The total for the month of November was \$352,000. Of this total, \$111,500 represented new residential and \$2,000 for accessory buildings and \$234,150 for the addition to the secondary school. The balance, \$4,950 was for alterations and additions.

During November of 1964, permits issued totalled \$74,250 and up to and including November last year the figure was \$431,871, compared with \$1,039,230.

Construction value is up \$607,359 over the same period last.

## Flume construction stops for winter -- work on schedule

The Summerland Council went on record as favoring the formation of a Regional District and will send representation to meetings.

The intentions and advantages of becoming a regional district will be made public previous to the actual formation through a series of advertisements, according to Municipal Clerk Gordon Smith.

A request for a street light at the new Rumball home on Bench Rd. did not receive approval. They felt they should wait until the demand for a string of lights is apparent. It was suggested that there were other dark corners in town that would come under the same category.

There will be someone ready to answer phone calls during the counting of the ballots on Saturday so all citizens and news media will have the opportunity to follow the progress of the counting.

Municipal employees will receive holiday pay on December 24, 27 and 31 in addition to Christmas Day and New Year's Day.

Les Kirby of Powell Beach Plaza presented yet another plan for a sign at this place of business. John Khalembach, building inspector, and Ken Blagborne, works superintendent, conferred with Mr. Kirby on the spot and will have

a new proposal for council at their meeting December 14. Blagborne reported all flume work has been stopped for the winter. He pointed out they are on schedule, the balance of the work will be done in the spring in plenty of time before the demand for irrigation water.

Assistant Municipal Clerk, Gerry Goddard was appointed as secretary to the zoning board of appeal. The increased use of the appeal board in recent weeks made a secretary necessary.

Council agreed to pay half the cost of a base wall at Rotary Beach. The beach area is maintained by the Summerland Rotary Club and they requested council's assistance to prevent further loss of sand into the lake. Sand will be brought in to improve beach conditions. The total cost of the project is estimated at \$350.

Blagborne reported work will be started on widening a portion of Garnett Valley Road as soon as possible. He said the stretch of road near Reinertson's access is so narrow that a vehicle cannot pass the school bus. He estimated the cost of the project at \$12,230.

## Two functions planned for children before Christmas

The Summerland children will not be forgotten this Christmas.

Retail merchants met on Monday morning to plan for two functions in which the children will be included. They will be entertained at a special program at the school on Saturday, Dec. 18 starting at 2:00 p.m.

It is expected the Key Club of the school will be in charge of arrangements under the sponsorship of the Summerland Business and Professional Services Association.

Thursday, Dec. 23 at 2:00 p.m. Santa will be on hand handing out goodies to children.

## Rotary Beach to be improved

Charlie Denike brought student Gordon Boothe as a guest of the Summerland Rotary Club Friday night. Upon request he gave a humorous sketch of himself.

His interests, by his own admission, were music, sports and girls but would not list them 1, 2, 3. He has an interesting year coming up as he will win the Irish Sweepstake and wed a rich widow.

He did admit that a music career is his goal and hopes to advance in this line when he completes his high school.

The members were reminded to try to attend the Pentiction meeting on December 21 when Rotary Fellowship scholar, Joe Weisse of Grand Coulee will speak.

The Rotary club will pay half of the expenses and the municipality half to construct a retaining wall at Rotary Beach in such a manner that the sand won't be washed away each year.

Reeve Norman Holmes was present and confirmed the municipality will do their part in this project "because we feel that Rotary Beach is treated as a public park and the citizens get the benefit of it."

The total cost of the project is estimated to be about \$350.

## Basketball team line-up named

The Jr. boys and girls basketball teams were named and the following made the squads.

Junior Boys — Ken Kehler, Ron Taylor, Ken Madsen, Herb DeWitt, Art Bolton, Ray Davis, Allan Barkwill, Don Johnson, Bill McCaig, Jack Barkwill, Howard Wiens and Colley Eaton.

Junior Girls — Ghina Storey, Carolyn Norris, Patty Ste-

venson, Elizabeth Orr, Janette Jacques, Lorraine Bennest, Josephine Anderson, Nancy Barkwill, Patsy Norris, Donna Bionni, Karen Holman and Lynn Bennison.

## Car overturns on Summerland hill

Slippery road conditions were the cause of a car turning over in the ditch on Summerland Hill at 1:25 a.m. Dec. 2.

John Price of Kelowna was travelling north up the hill. He lost control when he struck a slippery patch on the road and turned over in the east ditch. A passenger, G. Head of Kelowna suffered a fractured ankle. Price and a second passenger, T. K. Watson of Vernon were not injured. Damage to the car was estimated at \$250. No charges were laid.

## Driving privileges curtailed or 6 months

Two Summerland juveniles were before G. S. Denroche, Judge of the Family and Children's Court this week.

One had final disposition suspended for failing to stop at a stop sign and the other was treated the same way for driving without insurance and was prohibited from driving a motor vehicle other than in connection with his work for a period of six months.

## Election for councillors Saturday

Civic elections will be held on Saturday.

Three candidates are competing to fill two Councillors chairs for the next two years.

Your choice will be between Jim Schaeffer, Scottie Ritchie, seeking re-election and Doug Hill who makes his bid for civic government for the first time.

## Midgets keep losing -- Juveniles tie Pentiction

by Ron Koskelinuk  
The Summerland Juveniles finally tied a game this year as they held Pentiction to a 1-1 draw. Robin Agur scored

the lone Summerland goal. In Midget action, Pentiction had an easy time in Summerland as they dumped the home town boys 11-2. They led 2-0

after the first on goals by Jack Taggart and Eddie Hayes. They had a 5-0 in the second before centre Robin Agur put the puck past Bruce Johnston, Pentiction goalie. Bryce Parker drew an assist on the goal. The score ended 6-1 after two. In the last period, Pentiction outscored his second goal, with scored the home team 6-1. Agur the assist going to Jim Jenner in the 3rd.

In Bantam action, at the Arena Sunday, visiting Kelowna tripped the score on Summerland 9-3. Assistant captain Ron Taylor scored the first goal of the game unassisted at 3:30 of the first. Fourteen minutes later the visitors tied the score and the period ended with a 1-1 tie. In the second, Kelowna got four goals past Jerry Johnson and Glen Wertz, who shared the netminding for Summerland, and took a 5-1 lead.

In the final period, Kelowna again outscored Summerland, this time 4-2. No. 11 for Summerland, Ed Nield, got both goals. The first goal at 8:48, was unassisted while Ken Bolton got an assist on Nield's second marker which was 23 seconds after Ken Haddrell had just finished serving two minutes for clipping.

## LETTER TO EDITOR

## Insurance agents defend their position

Editor, Summerland Review.

Dear Sir:  
We did not attend the recent Ratepayers' Meeting, and while we fully realize, that was the time and place to air any complaints, we cannot let the irresponsible statements and charges by the Reeve and Councillors go unanswered.

From our experience with local Municipal Councils, major items of insurance have always been awarded to the lowest tender. In one case, almost \$100,000.00 coverage changed from one company to another for a saving of less than \$10. When we approached Council in 1964, for their approval of having the insurance handled on an "Agent of Record" basis, approval was given only after we guaranteed that "competition on bids would be maintained" . . . they didn't

trust us, but do their Vancouver broker! They "asked" for a quotation on the entire Insurance Schedule from outside brokers, but they "told" us what bits and pieces we were to bid on. Had we been given an equal opportunity, undoubtedly we could have done as well, both coverage and price-wise.

The Reeve's and Councillors' answers as to whether recommendations were over received from local agents, are ludicrous . . . one said "no", one said "yes", and one said "some".

There were suggestions and recommendations in writing, regarding coverage, as well as recommendations for improvements in Fire protection, following a Fire inspection by a company supervisor in June, 1964.

We have a letter on file,

from Council, dated June 9, 1965, the day after we attended a Council Meeting to protest the appointment of a Vancouver broker, stating their reasons for the change, but also stating, quote: "The Municipal Council now realizes, that your group should have been given an opportunity to bid on this total coverage, but at the time, did not realize that you had the facilities to get a competitive quotation." . . . yet not one member of the Council was a big enough to admit it at the recent Ratepayers' Meeting!

We still feel that we were unfairly treated, but Councillors are elected to run the Municipality to the best of their ability, and this letter would never have been written, had not Councillors Barkwill and Powell, intentionally or otherwise made a statement damag-

ing to our reputation as insurance agents.

Barkwill made a statement reported as, "The way it was, we could have lost thousands of dollars in the event of a fire" . . . "Fifty percent in some cases", Powell added.

These are irresponsible, erroneous statements, not supported by facts. The facts are — when the portion of the Fire Schedule, expiring July 1st, 1964 was renewed, we suggested (no proof of this) to the Municipal Clerk, that it had been nearly four years since the last appraisal of Municipal Properties was made and that values should be brought up to date, so that insurance would be carried to at least 90% of replacement cost. The Municipal Fire Policies were written with a 90% co-insurance clause, which means that if insurance is car-

ried to 90% of value, in the event of loss, the claim is paid in full.

It was a few months before the appraisal was completed, but on March 16, 1965, the Municipal Clerk wrote to the appraisal company, authorizing them to supply our company with a copy of the appraisal so that insurance could be revised. On March 22, 1965, a policy was issued to increase the Fire Insurance to meet the requirements of the 90% Co-insurance clause — thus guaranteeing that in the event of a fire loss, the claim for damages would be paid in full, not 50% as stated by Barkwill and Powell.

We have always treated our Clients' insurance as confidential, but as this is Public Business, we feel that this file should be open to the Ratepayers, and anyone wishing to

do so, can check it at Read and Pruden's Office.

We, the three local insurance agents feel that the statements made by Barkwill and Powell, regarding the inadequacy of fire insurance coverage, are damaging to our reputations as Insurance Agents, and demand a Public retraction and an apology by the two Councillors concerned.

Yours truly,

H. O. Pruden

## Tamblyn's host to Summerland Teen Town dinner party

By Gordon Boothe  
The dance at the Legion Hall last Saturday was a flop. Approximately fifteen teens were present. Apparently everyone went down to Penticton Teen Town for the dance there. Oh well, better luck this coming Friday — we hope. The Youth Centre will be the appointed place of assembly with the "Centors", a group from Vancouver providing the thumping and rolling. Let's have a big turnout.

December 30, the day before New Year's Eve, will see another dance at the Youth Centre with the fabulous "Shadrachs" providing "wild" entertainment.

The dinner party at the Tamblyn residence was a big success. Some fifteen members of the council were present. A somewhat heated meeting took place afterwards. Mrs. Reid, one of the Teen Town advisors, is receiving much unexpected co-operation with parents to act as chaperones. D.J.'s Mr. and Mrs. Lowe accepted, along with the Campbell's, the Selinger's

and the Boothe's. Any adults that desperately want to be chaperones should contact Mrs. Reid in Lower Summerland.

That's about all for now except that we still have no place to call our own; and, oh yes, fill those 'March of Dimes' cans.

The printed word is more reliable than the spoken word and it cannot be refuted because it is easily available for re-checking. More accurate information is obtained by reading than listening.

## Merchants decide on store hours over the Christmas season

Retail merchants met on Monday morning to discuss the store hours to be effective Christmas week.

The Monday prior to Christmas, (December 20), they will be open all day until 5:30. On Thursday, Dec. 23 they will be open until 8:00 p.m. but on Christmas Eve they will close at 5:30 rather than the usual 8:00 p.m. so their staff may be with their families that evening.

The following week, there will be no change from regular hours except they will not be open late on Friday evening which is New Year's Eve.

## Summerland splits basketball games

By Ron Kostelniuk

Friday night at the high school, the hometown Rockets and Rockettes from Summerland split the opening games of the season. In the opener, the girls led Princeton all the way except for once, in defeating the visitors 15-11. Bea Young, who scored the first basket of the season for the girls, led the attack with 7 points. Rita Rusaw had four, Jean Felker and Ann Dean two. For Princeton, the scoring was divided evenly with Lynne Blackey, Bev Laset, Sandra Biagioni, Irene Blackwell, and Caldeen Brown getting two points each. Roxy Beale had one point.

The members of this year's Rockettes are Bea Young, Rita Rusaw, Jean Felker, Kay Fenwick, Sheryl Shenton, Bev Bye, Diddy Evans, Ann Dean. All are returnees from last year except for Fenwick, Shenton, and Evans.

The Summerland cheerleaders Donna Holmes, Joyce Araase, Isla Schepens, Katie Evans, Dixie Le Brewster, and Marilmae Allen did their usual numbers plus a few new ones and were well applauded.

The Rockets played a good game but weren't able to keep up with the Pioneers from Princeton. They held them off the scoreboard until 6:33 of the first quarter when Ronnie Goodwin gave Princeton a 2-0 lead. They went on to take a 27-16 half time lead and never looked back. The Rockets were outscored in every quarter but the fourth they managed 13 points to Princeton's 10 but Summerland wound up on the short end of a 57-42 score. For the winners, Gary Atkinson, who won the scoring title in last week's tourney, was top man with 20 points. Goodwin had 16, and Randy Hume, who finished second in scoring last week, had 11 points. Russ Herrick had 6, and Bob Hanik and Franco Papa had two apiece.

For Summerland, Bill Fitzpatrick and Gerry Marsh had 10 points each, Gerry Mayne

and Ron Akitt five each, captain Keith Kennedy and Ed Mead four each, and Ray Betuzzi and Ron Mayne two each.

**Nineteen volunteers work at hospital**

The regular meeting of the Summerland Hospital Auxiliary was held Monday, Dec. 6 in the Health Centre. Mrs. Betty McIntosh, president was in the chair.

It was decided that the Auxiliary would buy a gauge for the oxygen tank on the isolette this month.

Mrs. Clarence Adams reported that there are now 19 volunteer workers registered for work at the hospital.

Five baby spoons were given to proud new mothers in the month of November.

At the Christmas sale at the Thrift Shop on Dec. 4, \$124 was made. The total receipts for the month of November at the Thrift Shop were \$360.

The Summerland Thrift Shop will be closed for the holidays from December 18 to January 8.

The next meeting in January has been changed to the second Tuesday, Jan. 11. This is the annual meeting and members are asked to bring along friends who might be interested in becoming members.

The Latin "carréta", fore-runner of the modern cart, originally meant a two-wheeled vehicle.

## SUMMERLAND STORE HOURS

Christmas Week

Monday, December 20, open 'til 5:30 pm.

Tuesday, December 21 open 'til 5:30 p.m.

Wednesday, Dec. 22 open 'til 5:30 p.m.

Thursday, Dec. 23 open 'til 8:00 p.m.

Friday, Dec. 24 open 'til 5:30 p.m.

Stores Closed Monday, December 27th.

A Few Comments...

Growers will be glad to hear their application for grants due them as a result of the winter freeze will be out shortly. They are in the process of being printed and will be mailed as soon as it is humanly possible. Ted Atkinson has been appointed administrator of the project. Seems Ted is as busy now as he was before his retirement. He is always in demand. That is the penalty he has to pay for being so efficient.

Saturday is election day. You will have to choose two councillors between three candidates — Doug Hill, Scottie Ritchie and Jim Schaeffer. We will not tell you how to vote — but you no doubt have a preference and we ask you to use your privilege on December 11th. The choice is good. It is up to you.

Looks like the Regional District is coming our way. Organizers have held a few meetings in the unorganized areas to the south but it has been quiet in this corner. We suggest they should have had a meeting in Summerland so we could all learn more of their plans. Most people are pretty well in the dark on it, not knowing enough to even come to a conclusion for or against.

According to John Khalembach's report for November, building in Summerland exceeded the million mark in eleven

month of this year. Although a fair chunk of this is institutional building, John says the bulk of it is residential building. A good indication. Nice to see so many people liking our town... Hope some industrial interests will think along these lines too.

Congratulations to Mrs. Mary Thaxton who celebrated her 90th birthday on November 30th. A nurse by profession, she has lived an active and useful life and is still keenly interested in world and community affairs. May you enjoy many more years of happiness Mrs. Thaxton.

We have had a number of calls and comments regarding our attitude towards kindergartens, for and against our editorial last week... We wish to make it clear we have no quarrel with our private kindergartens. It is fine for those who wish to send their children to these schools — it's still a free country — but we wouldn't like to see our children forced to go.

Guess we had a few people going last week wondering who this 'Mrs.' George Fudge was — especially George. No he hasn't taken the plunge. The gremlins were working overtime in our typesetting machine — or in our typewriter. Don't know which — but we did have a little fun out of the error so possibly it was the thing to do.

ORCHARD RUN

By Wally Smith

A Bulletin for Peach Growers

When I was in the office of District Horticulturist Don Allan a few days ago I picked up a bulletin entitled "Peach Growing in the Interior of B.C." which was published in the spring of 1964. The bulletin is of particular

interest at this time when the peach growing industry is staggering after the blows of last winter's freeze and growers and industry officials are wondering how it can be revived.

The first table of figures in the bulletin shows that peach prices during the last few years have averaged far below the \$120 a ton figure now estimated as necessary if the grower is going to make any profit. The table shows that in 1961 the price averaged \$76.75 a ton; in 1962 it was \$76.40, and in 1963 it was \$89.15.

On the subject of yield, Dr. Fisher notes that "Generally speaking, to be economic, average yields of 9 to 10 tons per acre per year must be the objective of a peach grower who intends to stay in business."

To maintain this average the grower will have to harvest a heavier tonnage during the bearing years of the trees because there will be years when he will lose his crop, as he did this year. Dr. Sisher calculates one crop loss every seven years based on past records, but in some areas this loss will occur more frequently.

The Summerland fruit tree expert has figures to show the average yield in the whole peach picture during past years has not exceeded five tons per acre.

This is pitifully low and, coupled with the low price, shows why peach growers have been gradually going out of peaches and replanting with other kinds of fruit.

There are some good peach growers who regularly harvest heavy yields on young trees, so to pull the valley average down to five tons there must be a lot of low yielding orchards, or orchards that have a high percentage of blank years.

That figure of \$120 a ton has been given as a minimum price the grower must receive to put peach growing on a paying basis. It wasn't plucked out of thin air, but was arrived at by a research team after careful investigation.

Calculated on an orchard box basis, 33 lbs. to the box and 60 boxes to the ton, it works out at \$2.02 a box. That is the minimum value of a box of peaches, and any grower who sells for less is working for peanuts.

Eleven-year-old Kirk Clouthier is one of many Canadians crippled by muscular dystrophy. Recently the Muscular Dystrophy Association of Canada campaigned for funds to finance research into MD. Co-operating in the nation-wide drive were hundreds of voluntary and professional fire departments.

Thanks given Howard Clark

President Tom Manning told the Summerland Chamber of Commerce annual meeting Thursday night, executive had decided to hold their annual banquet in February.

In his report he said the attendance had been good during the year and there were 60 paid up members during 1965.

The information booth at the highway was busy all summer and they paid off the loan for its construction this year.

He thanked the executive for their work with a special mention to Secretary-Treasurer Howard Clark.

There will be no meeting in January because of it being so close to the festive season.

A vote of thanks was expressed by Alan Butler towards Mr. Clark in that he donated

his honorarium to the Chamber in view of the financial circumstances of the organization. A round of applause resulted in agreement.

Reeve Holmes said they are still looking into the costs of moving the original highway cairns to highway 97. Westbank is doing a similar thing and they will learn much from this, the Reeve said.

Mr. Manning announced the Christmas "Light-Up" will be judged by the Art Club and the date of the good citizen award will be announced after the first of the year.

Eric Tait elected Chamber president

Eric Tait, a man who was active in the organization in the days when it was called Board of Trade, was elected president of the Summerland Chamber of Commerce at their annual meeting Thursday night.

Taking over Vice-President is Charlie Bernhardt and Alan Butler is the new Secretary-Treasurer.

Seven directors were elected. Howard Pruden, John Dunn, Tom White, Don Estabrook, Don Argue, Bill Laidlaw, and Bud Rusaw.

They will be officially installed in February at their annual banquet.

Retiring President Tom Manning called for the committee to give Mr. Tait their full support.

The new president thanked the members for their confidence and said "I will endeavor to carry on with the responsibilities you have placed in me."

Ted Atkinson, in thanking the retiring executive said, "The Chamber of Commerce is a most important and a most difficult organization to oper-

ate. There is no clear cut pattern to follow but rather you work towards a n y direction that needs attention"

Tired? Sluggish? Feel Better Fast

When you feel tired, sluggish, headachy, all dragged out—Little Liver Pills, Gentle, sure Carter's Little Liver Pills have been helping Canadians for well over 50 years.

Each tiny pill contains Carter's exclusive formula that has a very special action on your liver. This special action stimulates the liver bile. Keeps it flowing freely. Aids the functioning of your digestive system. Eases away that tired, upset, sluggish feeling. Helps you feel good again.

So the next time you feel tired, sluggish, headachy, take Carter's Little Liver Pills and feel better fast. Carter's Little Liver Pills, only 48¢.

"SERVING SUMMERLAND SINCE 1947"

L. J. Wallace, General Chairman, Provincial Centennial Committee of British Columbia, receives the sketch of the S. S. "Beaver" from Rear-Admiral M. G. Stirling, RCN, Flag Officer Pacific Coast. The Canadian Confederation Centennial Committee of British Columbia and the Royal Canadian Navy will collaborate in

the reconstruction of the Hudson's Bay Company's historic trading vessel S. S. "Beaver" for the 1966 and 1967 Centennial Celebrations. The project will be similar to, but more elaborate than, the conversion of the former HMCS "Cedarwood" to S. S. "Commodore" for the Provincial Centennial celebration in 1958.

**LET'S GET NEWSY . . .** Mrs. H. DeWitt travelled to Mrs. Norm Tannar and Mr. Vancouver Monday for a W. C. and Mrs. Armstrong spent a T. U. executive meeting. Plans few days last week in Vancouver for a convention in the New Year were discussed.

## Sum'land library book review

By KAY DUNSDON

The Garden of the Finzi — Continis by Giorgio Bassani, traces the lives of a Jewish family of great wealth, whose children live and play exclusively in a large walled garden. This wall becomes a symbol to the narrator, a young boy who watches as political and social changes affect this family and their friends. Translated from Italian by Isabel Quigley this book won 1962 Literary Prize in Italy.

Progeny of the Adder by Leslie Whitten is a good murder tale as is the Penterators by Anthony Gray — a story of spies and mistery threatening security of England and America.

Fruit of the Poppy by Robert Wilder is set in Mexico, a novel of the war against narcotics and the men who devote their lives to the battle against evils of this vicious trade.

My First Hundred Years in Hollywood, by Jack Warner with Dean Jennings is a very frank book full of anecdotes

of the famous by this movie tycoon who built a movie empire with his brothers. Another biography — an old book but new to us is the life of the late beloved Judge Helen Gregory McGill, written by her daughter Elsie, and tells of her work for the welfare of women and children in the early thirties.

Fisherman's Fall by Roderick Haig — Brown the well-known fly fisherman and author gives us a book on the joys and satisfactions of fishing.

A new catalogue of B.C. books has all books on B.C. or by B.C. authors with a setting in B.C. and is providing very popular with those wishing to know more of our province's historic background.

Your Summerland Branch of Okanagan Regional Library is asking for return of overdue books. We will be phoning you but hope you will help us by returning books in slot provided at back of library.

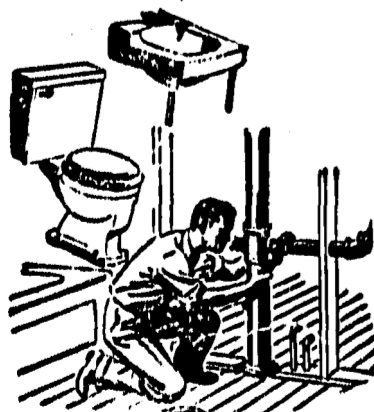

**LET'S GET NEWSY . . .**

Mr. and Mrs. Carl Finch have returned from a short visit to relatives in the Fraser Valley and Hope, B.C. While in New Westminster, the attended the wedding of Mr. Finch's brother, Percy.

Mr. and Mrs. Terry Bradley and Miss Rosealie Geres spent the weekend with relatives in Clearwater, B.C.

### Suggested cure

#### for stuffiness

Houses, like people, are not enjoyable when they are stuffy.

Fresh air is healthy. Stale air is filled with particles of dust, germs, pollens, and other impurities which bring discomfort and even ill health to the person who lives and breathes constantly in such an atmosphere.

Home heating experts at Inland Natural Gas Co. Ltd. emphasize the need for planned ventilation in every heating system to purify the air and control humidity.

Naturally, it is impractical for the homeowner to keep windows open in winter and heat the whole outdoors, yet many do, in an attempt to "let in a little fresh air".

Inland engineers point out that in the advance engineering, of modern heating systems provision has been made for adding measured amounts of fresh outside air to that inside the home, thus preventing stuffiness — and saving fuel.

The fresh air is let in, but the heat is not let out.

And this planned ventilation system does more than just add fresh air too.

Air which has been circulated through the home and returned to the heating system is forced through special filters before being re-circulated, and all foreign particles are thus removed. Some filters are even specially treated so as to kill germs and bacteria in the air.

Gas forced air heating systems are also equipped with scientifically-set humidifiers which insure that winter dryness will be no problem. Nose and throat irritations vanish.

When properly controlled, the atmosphere in any home can be as healthy and pleasant all winter as it is out on the patio all summer.

## Shifting To The Left

Canadians are steadily losing confidence in the free enterprise system, according to a cross-country opinion survey. The erosion of support for private business enterprise has been going on steadily since the war.

This doesn't mean, however, that the nation is going to suddenly swerve from the present pattern of mixed public and private ownership. It does suggest that Canadian political parties will continue to veer leftward.

In the Liberal party especially, a struggle is going on as to whether the government will swing to the left with more and faster social welfare legislation, or attempt to stand firmer against such pressures.

The survey on Canada's socialistic inclinations was taken by Elliott Research Corp., one of the country's leading survey firms. It was not, it should be added, one of the polling organizations which was off base in the recent federal elections.

According to the survey, the number of persons favoring government ownership of industry has risen from 22.8 per cent in 1964 to 24.5 per cent this year. This figure, however, is not any higher than back in 1947. The significant factor appears to be that many persons feared a depression immediately after the war, and looked to government intervention to prevent it. Does that mean

fear of a depression is rising again in Canada?

Well, hardly, according to this same survey. The economic boom which Canada has been enjoying the past four years has given rise to general optimism among all sections of the population.

While 28.4 per cent of those questioned said in 1962 that they thought a depression quite likely, this number dropped to 17.8 per cent in 1965.

In testing the public reaction to private enterprise, the survey found that socialistic inclinations were most evident among rural respondents, persons of low income, young voters, and supporters of the New Democratic and Social Credit parties.

It's not surprising that NDP supporters should show such beliefs. It might come as a shock to Premier E. C. Manning and Social Credit leader Bob Thompson, however, that his followers have socialistic inclinations.

The explanation would appear to be that Social Credit like the CCF and the New Democratic parties, appeals most strongly to the disinherited and the discontent. For all the outspoken support which Socred leaders have given to free enterprise, a good chunk of their voting support has come from people who don't really believe what the leaders have been saying. But they've been voting Socred in protest against the present system.

This is certainly what happened in B.C. back in 1952, when CCF supporters by the thousands switched to the Socred banner.

Canada is the most socialistically inclined state in the western hemisphere outside Cuba. We have built a mixed economy featuring private ownership of business large and small, alongside government ownership of a wide variety of public utilities, ranging from rail and air lines to insurance companies, chemical plants, mine processing plants, etc. Together with this, there has been an ever-increasing advance in the social welfare fields, with national medicare the latest example.

The fact that rural respondents don't have too much confidence in free enterprise provides a hint to Conservative leader Diefenbaker's strong prairie backing. It is not entirely unfair that Mr. Diefenbaker has been dubbed "the fed Tory."

Most Canadians, of course, still abhor the idea of outright government ownership of all business and industry. Even the NDP has found that government economic policies can exert just as much influence on private companies as if those companies were owned by the government.

Beavers did not bother to get a permit to build this home under the wharf at the north end of Trout Creek. They used everything in sight including a good number of native trees, mud, bottles and anything lying around the beach. They had their eyes on a pear orchard next so they were trapped.

### FELLED BY BEAVERS

Here is a tree beavers chewed down in Trout Creek but were trapped before they had time to get it down to their home under the wharf. They cleared the bank in the background before thought, with regret, they should stop the procedure.

#### In favor of kindergartens

Editor, Summerland Review, Summerland, B.C.  
Dear Sir:

Having been a mother of five children and now a grandmother of fourteen grandchildren, I would like to speak out in favor of kindergartens.

As far back as forty-five years ago I had two small children attending kindergarten in Kerrisdale, in Vancouver. The things those little tots learned there in one-half day they used and taught a smaller child during some of the hours in the other half-day at home. They were also learning to get along with other children which helped greatly in the home. There are many hours in a day in a child's life as you know how early they arise and there is plenty of time left after the one-half day kindergarten to enjoy with the mother "the simple things of life" that you speak of Mr. Editor.  
(Mrs. W. R.)  
Edna M. Powell

Many "old German mining terms originating in Saxony have been adopted in other languages.

### A resident for fifty-eight years answers last call

Mr. Daniel Rutherford passed away in Summerland November 30th at the age of 75 years.

Born in Truro, Nova Scotia, Mr. Rutherford has resided in Summerland for the past 58 years. He served with the Canadian forces during World War I.

Surviving are his loving wife Jessie; one brother Harry; one sister Mrs. Helen Ripley, both of Nova Scotia; four nieces and one nephew.

Funeral services were conducted from Wright's Funeral Home, Friday, Dec. 3 at 2 p.m. with Rev. W. S. Beames officiating. Interment was in the Peach Orchard Cemetery. Wright's Funeral Home entrusted with arrangements.

# Mary Thaxton is honoured

By Herb Simpson

A woman who has devoted her life to the service of mankind, Mrs. Mary Thaxton, celebrated her 90th birthday at her home on Station Road Tuesday, November 30. A party was arranged in her honor by Mrs. John Gray. Those attending were: Mrs. Jack Mitchell, Mrs. Ray Herndon, Mrs. Benner, Mrs. A. Martin, Mrs. R. Killick, Mrs. Scott and Mrs. Campbell.

A nurse by profession, she spent 12 years in India with the Indian Army Medical Corps Auxiliary, and was later a volunteer nursing sister during the South African War.

Before moving to Summerland, she resided in Port Coquitlam for many years and took an active part in community services. She was very active in relief work during the depression of the 1930's.

Mrs. Thaxton does all her own housework, in addition to caring for her daughter, Miss Mamie Boothe, who has been a chronic invalid for 15 years.

## Students' art work on display

Grades 8, 9 and 10 students, under the guidance of Mr. Verigin of the Secondary School will have their art on display at the Summerland Library for the next two weeks. Designs on display include collages, water-colours and industrial designs.

The students have done lovely work and we urge you to visit the Library during regular hours and have a look at them.

Mrs. Mary Thaxton, a veteran of the South African War, and a former nursing sister with the Indian Army Medical Corps auxiliary has a cheerful smile as she celebrated her 90th birthday at her home in Summerland on November 30th. (Photo by Herb Simpson)

### CARDS OF THANKS

**CARD OF THANKS**  
Sincere thanks to the Summerland School Board, the Corporation of Summerland, the Chamber of Commerce and all those who took part and attended the program held on my behalf on the occasion of my retirement. A special mention to Ken Blagborne for the concern and help he always showed down through the years, to insure that the school bus got through when adverse weather conditions prevailed. It was all very much appreciated.  
George Henry 45p1

**CARD OF THANKS**  
To our friends,  
Please accept our sincere thanks and appreciation for the kindnesses during our recent bereavement in the loss of a beloved husband and father. Special thanks to Rev. L. L. Schuetze, Redlands Rebekah Lodge No. 12 and Faith Rebekah Lodge No. 32, also sincere thanks to those who donated to the heart fund.  
Irene Doherty,  
Jean and Ivan Cutler and family;  
Malcolm and May Doherty and family. 45c1

# Labour endorses school votes

Okanagan labour endorses the various school referendums to be presented to voters of the school districts in the area.

A motion to this effect was adopted by the Kelowna, Penticton, Vernon and District Labour Council at its regular meeting held in Kelowna on Dec. 5.

There were some reservations expressed as to the proposed expansion of the public school system to include kindergartens but several delegates spoke in support of the proposal.

Ron MacLellan, of Kelowna, suggested that opposition to tax supported kindergartens was one of economics rather than of principle.

"Being against the education of children is almost like be-

ing against motherhood," he said.

He felt, however, that there should be some other method of raising the funds for education besides that of direct taxation upon property.

Mrs. Bolen, of Kaleden, quoted statistics to show that children who had attended kindergartens adapt more readily into the regular school system.

There was unanimous agreement, however, that support of the schools program was essential if the Okanagan communities were to meet the needs of an expanding population. The motion, proposed by Mr. MacLellan and adopted by the meeting, urged full support for all the schools referendums.

It was decided not to hold a banquet in conjunction with the annual meeting in February. The executive was instructed to investigate the possibility of having the banquet and dance later in the year. It was suggested that this might be combined with a proposed labour school to be held in March or April.

# House light-up contest to be judged December 16 - 18

Mr. T. S. Manning, President of the Summerland Chamber of Commerce announced that the annual house light-up contest will be judged between Dec. 16 and 18 inclusive. So that the judges will know where to go, those entering this competition are asked to phone 494-2151 or 494-4611 before the above dates.

First, second and third awards will be announced before Christmas and awarded to winners at the annual Chamber of Commerce banquet in February.

# Curlers take in bonspiel

Six local rinks were entered in the Kelowna Men's open bonspiel. They had an entry of 60 rinks.

A Banff rink skipped by Kowalyk, took the A event, just edging out the Peter Beulah rink. It was excellent curling on both sides. Peter was 1 up, coming home without the last rock. With Peter were Brian Eden, Pete Eden and Sandy MacKenzie.

The Herb Lemke rink, with Casey Davis, Doney Wilson and John Caldwell, came 4th

in the D event.

Joe Elliott, skipped a rink of firemen in the firemen's open spiel at Vernon on Sunday. With him were Phil Richardson, Tom Jomori and Don Hermiton. They took first in the A event and each won a turkey.

Anyone interested in entering the Christmas Spiel is asked to phone the Summerland Curling Club at 494-2851.

Tonight, Wednesday, there will be three visiting Senior rinks here from Penticton, while three local rinks go to Penticton.

# Christmas theme at tea and sale

An old-fashioned Christmas scene greeted the guests attending the annual Christmas Tea and Sale held Nov. 27 in the United Church Hall.

Ceiling lights were festooned with greenery and the walls were decorated with holly, Okanagan variety, interspersed with parcels, gay with pretty papers and ribbons. Coal oil lamps were brought from the past to shed their soft light for the occasion. The long tea table was centered with greenery and flowers and here again sparkling oil lamps shed a soft glow. The tea tables were centered with baskets filled with candies wrapped like tiny Christmas parcels. Decorating was done by Bethel Unit general convenors for the bazaar with Mrs. J. Roy Armstrong and Mrs. Wm. Durick in charge.

UCW President, Mrs. Colin Campbell and Mrs. Philip Louie welcomed the guests and at 2:30 Mrs. Louie declared the sale open and the stalls were very well patronized. Mrs. John Holeman was at the door to receive Tea money.

Mariposa Unit had a lovely display of aprons and the Bake Table was well-stocked. A merry time was had downstairs where the CGIT girls had a baby sitting service so that mothers could enjoy the sale

C. Denike and assisted by members of other units. Pouring were: Mrs. V. Barrs and Mrs. Rex Chapman, Mrs. S. A. Macdonald and Mrs. Roy Angus.

The word salary comes from "salarium" meaning salt money — since Roman soldiers received part of their pay in salt.

# Television in Okanagan schools

A series of fifteen half hour television programs involving students from elementary grade classrooms in the Okanagan Valley have been arranged by the Okanagan Valley Teachers' Association in its drive to foster educational television in the valley. Through the co-operation of CHBC-TV, teachers have organized programs involving schools in Revelstoke, Vernon, Kelowna, Penticton, and Osoyoos.

Programs, details of which will be announced later, are scheduled for Thursdays from 5:00 to 5:30 from January 6 to April 28, 1966.

Valley teachers feel that ETV is a great aid to classroom teachers and that more use should be made of it. At present school telecasts are carried every morning from 10:00 to 10:30 on CHBC-TV and many schools are taking advantage of them.

"A TV in every school" is

the campaign currently being carried out by the group. President of the Teachers' Association, John Tamblin of Summerland, congratulated Mel Barwick of Kelowna and his committee of Mrs. Ruth Schnell of Penticton; Mrs. Vera MacKenzie of Revelstoke; Bill Sparks of Penticton; Al Kuhn of Keremeos, Ray McNabb of Summerland; Barney Bolton of Vernon for their work in this field.

# Pioneer laid to rest here Monday, December 6

Mrs. Louisa Thompson passed away in Summerland General Hospital December 3, at the age of 95 years.

Born in London, England, Mrs. Thompson has resided in Summerland for the past 54 years. She was a charter member of the Legion Auxiliary and a member of St. Stephen's W. A. and St. Stephen's Church.

Surviving are one daughter, Mrs. B. T. Washington, two granddaughters, Mrs. J. G. Mc Mynn, Midway and Mrs. R. Arworthy, Penticton. Eight grandchildren and one niece, Mrs. C. H. Denike, Summerland. She was predeceased by her husband Dave in 1960.

Funeral services were conducted from St. Stephen's Anglican Church on Monday, December 6 with Rev. N. Tanner

officiating. Interment followed in the Anglican Cemetery, Wright's Funeral Home entrusted with arrangements.

FRED SCHUMAN NEW PRESIDENT

Fred W. Schuman, right, is the new president of the South Okanagan Life Underwriters' Association. The installation ceremony was held in Penticton on

Saturday. Retiring president Ben Trafford passes the gavel on to Mr. Schuman. Both men are from Summerland.

## CENTENNIAL PLANS APPROVED

## Ottawa gives final approval to Giant's Head Park project

Summerland was included with four other B. C. communities to have their Commemorative Centennial projects approved last week.

This was announced by the Hon. Maurice Lamontagne, secretary of state for Canada and minister responsible for centennial affairs; the Hon. W. D. Black, Provincial Secretary for B. C., who is responsible for the B. C. Centennial activities and Mr. L. J. Wallace, General Chairman of the Canadian Confederation Centennial Committee of British Columbia.

Other communities included Lakeview Heights, Montney, Sayward-Kelsey Bay, and Soowahle Indian Reserve.

The Summerland project is a Centennial Park on Giant's Head Mountain and was the original suggestion of oldtimers Walter Wright and Magnus Tait.

Access of a road to the top of the mountain has been discussed by Summerland citizens for over fifty years according to local chairman Dr. Jim Marshall.

Don Agur, who has had experience in road building was called in to access the situation and after many hours of on the spot study felt a road with a maximum grade of 15 percent could be constructed for not more than \$10,000.

The road will terminate on a small plateau, about 200 yards from the summit and a well graded trail will extend from the end of the road to the summit.

Where necessary, in the interests of safety, heavy logs will be used as guard rails on the road up to the first level.

The two senior governments will contribute \$7,800, while

\$7,400 will be raised locally.

Dr. Marshall has contacted various organizations in Summerland to assist in specific projects and has met with good cooperation.

The Chairman anticipates that it may cost more than the \$15,000 to complete the project but will get started as soon as possible and go as far as they can and beyond that with the help of the community it can be done, Marshall said.

A combined meeting of Summerland organizations will be held in January to discuss future action.

It is anticipated that on the highest point on the mountain they will place a cut-stone cairn, constructed of the most enduring stone available. The cairn would bear a bronze plaque commemorating 100 years of confederation in Canada.

It has been proposed that an air-tight copper or bronze canister be sealed into the base for posterity.

It would contain some typical Canadiana, and a parchment bearing a statement signed by members of the municipal council.

## Christmas party for Brownies

The first Summerland Brownie Pack enrolled six new Tweenies. The new Brownies are Roberta Cline, Devra Embree, Lynda Lyon, Elaine Irvine, Elizabeth Watt and Lynda Marles.

Mrs. Gladys Smith, the Pack mother, was on hand to judge Brownies serving tea and toast to the guests. This is part of their Golden Hand testing. Those passing this test were Nada Sawatzky, Susan Coates and Patty Naylor.

The three Summerland Brownie Packs concluded the year with a combined Christmas party at the Youth Centre.

Two leaders, Mrs. Ivy Mason and Mrs. Audrey Mallett, were presented with cups and saucers in appreciation of their work with the Brownies. Mrs. Mason has been a Brown Owl for several years. Mrs. Mallett has been a Grey Owl as well

as an active member of the Ladies Auxiliary, and will be leaving the district soon.

The Girl Guides are to meet with Miss E. Maynard at the Nurses' Residence on Dec. 23 to decorate small Christmas trees for the hospital wards and to sing carols. This is an annual project carried out by the Guides.

## SUCCESSFUL HUNTERS

Ed Lloyd and Alf Kofihauer have returned from a successful hunting trip in the Christian Valley area. They brought home three white tail deer. They were away five days.

## Peach Orchard Park receives plaudits from happy tourist

The Summerland Council received a letter from a happy tourist this week. She spent some time in Peach Orchard Park this year, in fact they stayed longer than planned because they enjoyed it so much.

The park was described as a lovely spot with excellent supervision and facilities. The downtown stores were found to be smart and clean — the people courteous. "We would never have stopped so long had it not been for this haven", the letter concluded.

Mrs. Stan Cowie indicated to council she had no longer use for the taxi parking space on main street. The necessary changes will be made in the bylaw in this regard.

Councillor Powell said an engineer representing ARDA made his usual inspection of projects Summerland has on the go under this plan, and was very pleased with the progress and quality of the work.

It was reported last week, that work on this project had stopped. This is incorrect. They have slowed down to one crew on the project rather than three and still hope to get another 2,000 feet of flume in before spring.

A total of \$110,970 was authorized for payment representing the Nov. accounts.

A Penticton engineer had looked at the arena and offered his services to make the plans of renovating and adding to the building, including a new roof.

No official estimate in costs was given by him, but the figure of \$80,000 came up but was in no way official.

Councillor Barkwill said they should now take a good look at the project, assessing the cost with "what we get for it".

It was suggested they discuss it once more with the arena committee and other interested organizations who use or expect to use are arena facilities.

Civil Defence Director Phillips, in a letter to council informed them that his department would spend up to \$161,000 on equipment for the search and rescue squad plus a maximum of \$540 towards the purchase of a rescue truck.

Investigations are now un-

derway to determine the cost of a truck suitable for the purpose.

Councillor Schaeffer said they held a Centennial meeting the previous night and it was suggested by Don Agur he make a few "passes" at the surveyed road with his caterpillar to determine what base they have.

The question of finances came up, and Reeve Holmes said as far as he knew, council had only authorized payment equivalent to \$140 per capita for the centennial project.

Further discussion was referred to committee. A billing machine was purchased for the office.

Clerk Gordon Smith was authorized to borrow, short term, up to \$25,000 against the debentures for operational expenses.

A copy of a letter received by Mr. Ron Taylor from the Department of Lands was read, giving him authorization to purchase foreshore on the lake to build a motel provided it complied with all local bylaws. The property is just south of the Hill property.

The Summerland Industrial Development committee has had cause to write prospective companies regarding location in Summerland. Council felt they should have their own stationery, rather than use municipal letterheads.

A report from Blagborne and Khalembach indicated they had come to an agreement with Mr. Les Kirkby of Powell Beach Plaza regarding a sign for his place of business which will come within the scope of the present bylaws.

Blagborne said he was very impressed, "he has a clean operation out there. It is an asset to the area."

Highway signs, in the form of a map are placed at the entrances to town on Highway 97 indicating the population and where services are.

One large Christmas tree has been placed in the triangle

at Gulch Road and another was in the process of going up at 5 Corners.

The original plan was to put up one per year but the cost was only \$100 each, so they decided to put up a second one.

An engineer will be contacted to go ahead and make a preliminary feasibility report on supplying water to Okanagan Lakeside with water other than by the creek to enable the trout hatchery to expand their operation.

## Christmas Cantata Sunday at Summerland Baptist Church

The choir of the Summerland Baptist Church will give the Christmas Cantata, "Love Transcending" at the 11 a.m. service next Sunday.

The choir is directed by H. Wouters with Miss A. Ruth Dale as organist. The Junior choir, directed by Mrs. Ed Danallanko, will also take part in the service.

## Yule speeders may get caught in trap

Cpl. R. Stahl, head of the Summerland RCMP Detachment warned motorists this week, they will be making extensive use of radar on the highways and byways within the boundaries of Summerland during the Christmas and New Year holidays.

They have had their equipment in use for three days so far this month and have trapped 37 motorists travelling beyond the posted speed limit while going through Summerland or Trout Creek on Highway 97.

Lyle Melgrove Randall of Peachland pleaded guilty to a charge of being in the care and control of a motor vehicle while impaired Saturday when he went before Magistrate Ried Johnston.

It cost him \$150 and costs and driving privileges were taken away from him for six months.

Mr. Randall ran into the ditch and struck a pole on Friday night, 1½ miles south of Peachland. RCMP were called to the scene and the charge was laid.

Cpl. Stahl told the Review they have not had any reports of deer being killed on Highway 97 as yet this season.

## Mass Christmas Festival Dec. 22

The Summerland Secondary School will present a Christmas program with the following groups taking part: Grade 8 and 9 Band, Senior Band, Senior Secondary Choir, MacDonald Elementary School Choir, Drama Club and the audience will take part in a sing-song.

The Drama Club is presenting a Christmas play directed by Henri Frioud who is new on the teaching staff this year. Mrs. Roberge will be directing a large choir from the elementary school. Jim Grinder, who is music director at the secondary school, will direct the secondary bands and choir.

This Christmas concert will be held in the Summerland Secondary School on Dec. 22 at 7 p.m. The proceeds from this concert will help pay for a band trip to Spokane and Nelson this spring.

The space in the auditorium is limited to a seating capacity of 300. To overcome this problem the program has been divided into two parts. The bands and the secondary choir will perform in the gymnasium while the Christmas play and elementary choir perform in the auditorium. During the intermission, the audience will switch. This means that 600 tickets will be available for the concert. All groups performing expect to see a full house — please don't discourage them.

## Sum'land curling; basketball action

By Ron Kostelniuk

In an exhibition basketball game played in Summerland on Saturday, the local Comics doubled the score over the hapless McNicoll Park crew. Paced by the 15-point performance of Ken Ehler, the Comics had an 18-9 half time lead. Final score, Summerland 47 - McNicoll 23.

The point getters for the victors were Kehler with 15; Colley Eaton; Don Johnson, Herb DeWitt, and Ron Taylor with 5 each; Ray Davis with 4; Bill McCaig with 3; Alan Barkwill with 2; and Art Bolton with one.

For McNicoll, Pat Moore led with 7 points; Burgess and Folk had 6; Hannis had 2; and

Howard and Wood had one.

IN CURLING NEWS, the Greg Pruden rink leads in school curling. Pruden has not yet tasted defeat in four starts. Following Pruden are Ray Davis and Leo Bonthoux who were defeated one time each in 4 games. The Roger Clark rink brings up the rear having lost all three games so far.

## School principals report to trustees

The three principals of Summerland schools made their monthly report to the Board of Trustees Thursday night.

Principal Ray McNabb of Trout Creek acknowledged presentations made to that school.

The Summerland Branch of the Royal Canadian Legion supplied framed pictures of Queen Elizabeth and Prince Phillip and the Trout Creek P.T.A. provided a wall electric clock. Mr. McNabb said he had written a letter of thanks to these two organizations on behalf of the teachers and staff.

He had high praise for Miss Geraldine Evans in her work with the choir.

The group consists of 38 enthusiastic members from grades 4 to 7. They have been practicing every Wednesday at noon and during the past two weeks they have also met on Friday non. They will sing for the residents at Parkdale Place on December 21.

Principal John Cooko told the board 17 members of the Summerland Future Teachers' club visited MacDonald School. They were Joyce Arase, Sheryl Shenton, Janice Beggs, Patricia Bednard, Margaret Brown, Beverley DeWitt, Joan Dunsdon, Marjorie Portt, Patry Ryman, Diouwie Wouters, Darlene Kuroda, Kathleen Tavelor, Janet Tamblin and Susan Wilson.

Bill Laidlaw and Jerry Hallquist had contacted Mr. Cooko requesting the use of the activity room for a free show for Summerland children on Saturday, December 18th at 2:30 p.m. on behalf of the Summerland Business and Professional Services Association. This was granted by the board provided that organization would pay for janitor services.

The school patrol will be guests of the Kiwanis Club on December 21 to enjoy a turkey dinner at their meeting. Kiwanis supplies the equipment

for the patrol.

The choirs of MacDonald School will be singing Christmas Carols at Parkdale Place again this year.

With the aid of one rented T.V. set and two loaned to the school, the children are taking advantage of program in the school.

Some of the pupils were scheduled to visit the museum and the radio station in Penticton the following day.

According to Principal John Tamblin, more supervision will be necessary previous to, and after school for children being transported by bus. Some arrive shortly before 8 a.m. and some do not leave until 4:30 p.m. He was asked to arrange that teacher supervision be arranged.

Much of this was done previously by Mr. Tamblin and Mr. Greenough.

## TEAM TEACHING

Mr. Tamblin explained in

detail a new program of teaching that may be given consideration in the future. It had to do with team teaching.

It involved large group instruction to small group discussion then on to independent study.

For the purpose of example, he used a group of 90 students, taking a particular topic or subject.

Thirteen teachers would be used. They would each take 30 students and introduce the topic. They would then move to a large classroom where all 90 would be shown a film, explaining and showing the topic of study in detail.

This would be followed by a quiz session then down to smaller groups with each teacher taking 30 students and giving additional instruction.

At this time, an advanced group may be ready for independent study while others may need more instruction

which they receive until all are ready for the tests.

Following the tests more help is given by the teachers where necessary and some will continue on with more extensive study on the subject.

This program would take possibly a week or more to complete on a particular study.

He suggested the method may conserve teaching time and make feasible more effective use of technical aids. For example you would be showing a 40-minute film to 90 students at one time rather than the same film shown to the same number of students at three different times.

School Secretary - Treasurer Jim Haek was given authority from the Board to borrow to cover operating expenses until the provincial government grants arrive.

It will be on a short term, revolving basis with a maximum of 40,000, until March 30.

## NAMED ADMINISTRATOR

F. E. "Ted" Atkinson has been about the busiest man in this area getting application forms out to the growers for over a week, but it wasn't made publicly official that he was the administrator of the Federal-Provincial Tree Fruit & Grape Assistance Program 1965 until early this week. His job is — and will be — as big as the named organization is long.

The forms are now out, and are being distributed through the packing houses. Included with the applications, is an addressed return envelope.

Those on his advisory committee are expected to be named at an early date.

Headquarters For Hemisphere Health

— Photo by Edwin Loureiro, Star Studios

Newest shape in Washington is a gem-like headquarters for Western Hemisphere health, whose sparkle in the city skyline is just three-months old.

Neither a box, nor a variant of it, the structure instead is round — and crescent-shaped — a dual-unit edifice made up of a 300-seat circular council chamber, and a half-moon-fashioned secretariat ten floors tall.

Catching eyes and turning heads since its formal unveiling September 27, the headquarters is new home for both the Pan American Health Organization, and regional office for the World Health Organization.

Dedication of the headquarters for hemisphere health occurred just two months shy of December 2, the 63rd anniversary of the world's oldest international health agency, an occupant of the new structure.

It was Western Hemisphere statesmen who gave that agency life. Back in 1902, they voted it a budget of \$5,000, for aid to nations in "the destruction of mosquitoes and other vermin," and for staff — but not for an office it could call its own.

A single room, 375 square feet in size for all of its 11 employees, in a part of the Pan

American Union building was the full measure of the turn-of-the-century office.

In the six decades since then however, it has changed many times over. In 1949, the hemisphere agency became WHO's regional office for the Americas, and in 1950, a specialized body of the Organization of American States.

Thus the new structure is joint headquarters of an Inter-American as well as of a United Nations health organization.

This year the two organizations' combined budgets put more than \$17 million into over 400 health projects throughout the continent.

And their staff number close to 1,000 public health experts and other international civil servants, of whom 700 are in Latin America and 300 here — the latter housed for the first time under one roof in a permanent home.

Jehovah Witnesses seek convention facilities in Summerland School

The Jehovah Witnesses are making arrangements for space in the Summerland school to hold a convention April 15th to 17th.

In a request to the School Board, Mr. E. Felker said they wished to rent the auditorium, gym, 2 classrooms and the kitchen.

The board recalled when they were last here in 1958, that although many attended, the school was left in very fine condition.

However there is a question of the auditorium which is now being used for classrooms, and is divided by apple bins which may present a problem.

The board will confer with Mr. Felker.

Penticton dominate weekend hockey

By Ron Kostelniuk

In a game played at the arena Saturday, the visiting Pentictonites shut out the hometowners 6-0. A first period unassisted goal by Wayne Bogle proved to be all the visitors needed to win. Tom Wylie added two goals as did Dave McLennan, who also had an assist on Wylie's second goal, while Danny Campbell added a single.

BANTAM

The Bantams played well against Penticton in the first and third periods but fell apart in the second and wound up on the short end of a 10 to 4 score. The Penticton squad led 2 to 1 after the first and then hit the jackpot with five second period goals while Summerland managed only one. Defenceman Dwyne Portland led the Penticton attack with a hat-trick while Jeff Anderson and Rick Mahonick supplied 2 goals each. Singles went to Dwight Folk, Chris Kavalina and Seith Cannon.

For Summerland, centre Ken Hadrell, Greg Murphy, Ken Bolton and Evans were the marksmen. Assists went to Niels (2) Bolton, Hadrell, Evans and Flebbe.

MIDGET

Penticton swamped Summerland 10 to 1 on home ice in a game played at Penticton on Sunday. Robin Agur got the lone Summerland goal and George Jenner was in the nets for Summerland.

JUVENILE

There were no games played

but they will play in Vernon on the 19th and at home against Kelowna on the 23rd.

Okanagan - Mainline sales up 78 per cent over November, 1964

Okanagan Mainline Real Estate Board figures show a record jump of 78 per cent in property sales through its Multiple Listing Service for the month of November.

Ninety properties valued at \$1,760,280 were sold through M.L.S., the largest volume of sales ever achieved by the service in November. Last year total November sales were \$984,055.

Sales for the first 11 months of the current year are at the record breaking mark of \$18.5 million. This is a gain of 27% over the 1964 record total of \$14,579,443. So far this year 1,391 properties have been sold compared with 1,128 in 1964.

Listings, the number of properties offered for sale through M.L.S., also continue to run ahead of last year with 4,166 for the current 11 month period. Up to the end of November 1964 a total of 3,229 were listed with M.L.S.

The heaviest known wood in the world is black ironwood, native to the West Indies and the Florida Keys. The lightest is believed to be tano, found in Siam and the Malay Peninsula.

Winter best time to make indoor home improvements

"You can save yourself much time and trouble," says Jock Johnston, manager of the Summerland branch of the Bank of Montreal, "by having your indoor home improvements done in the winter when building tradesmen are not tied up on outdoor construction."

"And it's often more economical, too," continues Mr. Johnston, "to have all those repairs or improvements done at once."

Of course, there's always a chance that you haven't the ready cash to make those repairs and improvements now. If that's your problem, drop in at the B of M and have a chat with Mr. Johnston about a Home Improvement Loan. H.I.L.'s are available for all kinds of worthwhile purposes — from insulating the attic to wiring the basement playroom.

B of M Home Loans are inexpensive — only 6 per cent interest per annum — and they're repayable in easy monthly instalments. Why not drop in at the B of M tomorrow? Mr. Johnston will be glad to give you full details about a B of M Home Improvement Loan.

Adv't.

Schaeffer, Hill fill vacant chairs on Summerland council

Two councillors were elected to the Summerland Municipal Council on Saturday, with only 32.14 per cent of the resident electors going to the polls.

Re-elected was James H. Schaeffer who topped the polls with 480 votes, and a newcomer to civic government, D. H. (Doug) Hill came in second with 312 ballots in his favor.

Wm. "Scottie" Ritchie who was seeking re-election did not quite make the grade with his 312 votes.

It was a very light vote. There are 2,168 eligible voters in Summerland but only 697 turned out.

HOLIDAYS

MONDAYS — 27th December 1965 and 3rd January 1966

Banks in Canada during the holiday season will be closed on Monday, December 27th and Monday, January 3rd.

The extended hours service usually given on Fridays will be given on Thursday, 23rd December and Thursday, 30th December from 4:30 p.m. to 6:00 p.m. The banks will close at 3:00 p.m. on Christmas and New Year's Eve.

Revelstoke School Trustee Oscar Domke, Frank Venables and Revelstoke Mayor Arvid Lundell ponder problem in Revelstoke.

## Three interviewed for college presidency

Major steps in the establishment of the Okanagan Regional College Council meeting in Revelstoke Monday.

Council interviewed three candidates for the College presidency, heard architects' reports, appointed the Council's first full-time employee and considered a lodging-transportation formula.

The lengthy but vital business of choosing the president dominated the eight-hour meeting.

The three candidates, who

had travelled to the Okanagan from Edmonton, Montreal and England, had been selected from more than forty applicants.

An appointment is expected to be announced within a few weeks.

John Woodsworth, spokesman for the architects, reported that his group was organizing on a project basis and that a project coordinating architect specializing in educational buildings has been hired by the architects.

Jim Bigsby of Vancouver was named Administrative Assistant

to the Council. He will keep the public informed of College activities and aid councillors as the workload grows.

Bigsby is a former newspaperman with experience in university operation. He is presently a methods analyst at B.C. Hydro.

A formula suggesting basic principles for transportation assistance and low-cost boarding was discussed and will be forwarded to the nine school boards in the College area for their consideration.

Council is developing this formula to make the College equally available to students from all parts of the College area.

The Revelstoke meeting was one of many planned for participating communities at the extremities of the College district. Council members from as far away as South Okanagan and Keremeos attended.

Revelstoke Mayor Arvid Lundell greeted the Council on behalf of the city.

## 'Spectacular' rise in circulation

The Okanagan Regional Library Board of Management met at Regional Library Headquarters, Kelowna, on December 9th. The Chairman was Mr. Jack Johnson of Eneryby, and delegates representing the area from Revelstoke to the Border were in attendance.

Among the items discussed were two letters from the organizers of the Vernon Book and Film Hour commending the Regional Library for its active participation in this year's series of programs.

Regional Librarian W. P. Lofts reported on developments since the last meeting, pointing out that injections of new book stock into new buildings had shown spectacular increases in circulation.

Of particular note were the branches at Silver Creek, Penticton, Peachland, Falkland and Cherryville.

### Bridal shower for Carol Newton

Mrs. Edith Scott and Miss Linda Scott were hostesses to a bridal shower for Miss Carol Newton on Sunday, December 12. The shower was held in the Scott home on Quinpool Road.

The room was prettily decorated with the Christmas theme and Miss Karen Newton handed the bride elect many beautiful household gifts from a small chimney with a Santa Claus climbing into it.

After the gifts were opened and the guests warmly thanked tea was served and several games were enjoyed by the group.

Those attending the shower were: Mrs. M. Floor of Penticton, Mrs. Jim Newton, Miss Joanne Ritchie, Mrs. Cal Hornby, Mrs. Jean Wrest, Miss Jean Ritchie, Mrs. Tom Charity, Mrs. Iva Adolph, Mrs. Annie Johnson, Mrs. Laura Reinerton, Mrs. W. Atkinson, Miss Louise Atkinson, Mrs. Sharron Bradley, Mrs. Sheila Taylor, Miss Joanne Newton, sister of the bride to be, Mrs. C. Mac Dougall, mother of the groom to be, and Mrs. John Newton, mother of the bride to be.

The wedding is to take place in Penticton on Saturday, Dec. 18.

Publicity and public relations were better than ever before, he said, with the library enjoying excellent relations with Valley press media.

The budget for 1966 was approved. Presented by the treasurer, Mr. W. B. Hughes Games, the budget called for an increase from \$164,280 to \$180,600 to cover necessary expansion of services to all areas in the Region.

The new developments at Mica Village had resulted in an appeal for library service from the Village Community Club. The Library Board agreed to the establishment of service to Mica during the coming year. The cost of this service was to be borne by the Village Community Club.

Reporting on a recent tour of the smaller service points in the Region, Board Member Mrs. H. Latey recommended the establishment of a Bookmobile service in rural areas.

The Planning and Development Committee was asked to investigate the possible acquisition of a Bookmobile.

### LEGAL NOTICE

Vehicles having dual wheels, when required to use tire chains by the Minister of Highways, either by public notice or by the placing of signs as set down in Section 198 of the Motor Vehicle Act, must use chains on at least four tires of driving axles.

## Mrs. S. Fenwick named president of Summerland Women's Institute

The December meeting of the Summerland Branch of the Women's Institute was held Friday, Dec. 10 with Mrs. S. Fenwick in the chair, in the absence of Mrs. G. Ritchie.

Reports were given or read from the different conveners. They showed that the Institute is doing a varied and profitable work.

Interest and projects has included things of local or regional interest such as new methods for food preservation northern expansion, psychiatric services, the Okanagan Library service and buildings for the Handicapped Unitarian Services, to name but a few. The Institute also has made donations to charities.

In connection with our Northern Expansion, an interesting letter was read from the secretary of the Women's Institute at Fort Providence, N.W.T. thanking the Summerland Branch for the gift of velvet pieces for Moosehair work, and telling us a little of the work among the Indians.

Mrs. S. A. MacDonald, as convener of the Nomination Committee, brought in a slate

of new officers. Those taking office for the 1966 year are: Mrs. S. Fenwick, President; Mrs. E. O. Mortimer, Vice-President; and Mrs. W. Brown, Mrs. J. McLachlan and Mrs. G. Williams as Directors. Mrs. E. Tait remains as Secretary.

Tea was served under the management of Mrs. H. Moors. During the social hour a pleasing ceremony took place when Mrs. Fenwick called upon Mrs. O. Rumball to accept a basket of beautiful flowers from the Women's Institute as a token of their appreciation for Mrs. Rumball's untiring work on behalf of the W. I. and to congratulate her on her coming marriage.

A few species of trees are able to stretch their bark as the annual rings push it further outward. Even when old and large, beech retains a smooth, silver-gray surface, free from cracks and blotches.

## Women's Institute parcel appreciated

The Summerland W. I. received grateful thanks from the Fort Providence, N. W. T. Women's Institute for a bundle of velvet pieces they sent to them on request.

According to their Secretary Mrs. Edith K. Craig, there are not many white members in their organization and they teach the natives how to make quilts with the material sent to them.

In the letter she said they have much difficulty in obtaining teachers because they will not stay in that country so

few 15 and 16 year olds are in school and are too young to leave home. The W. I. there try to keep the girls busy with hooking rugs and the like. She speaks of them having better weather now — it is up to 10 degrees above. The river has been frozen over for four weeks.

## Husbands feted at Bridge Club

The "Paint" Bridge Club entertained their husbands at the annual Christmas dinner held in the Prince Charles Hotel Saturday, December 4.

A house-warming was then held at the new home of Dr. and Mrs. J. E. Miltimore. A decorated yule log and wind bells were presented with the best wishes of the group.

Bridge was played during the evening. Prizes were awarded to: Dr. D. V. Fisher, Men's high; Mrs. C. C. Strachan, Ladies high; Mr. Cecil Morgan, Men's low; Mrs. D. V. Fisher, Ladies low; and Mrs. Ralph Downing, Travelling prize.

Those present at the house-warming and bridge night were: Mr. and Mrs. R. Downing, Dr. and Mrs. D. V. Fisher, Mr. and Mrs. Lloyd Gartrell, Dr. and Mrs. J. E. Miltimore, Mr. and Mrs. C. Morgan, Mr. and Mrs. Eric Smith, Dr. and Mrs. C. C. Strachan and Mr. and Mrs. Eric Tait.

## Donna Gould wins Christmas turkey

Young Donna Gould, daughter of Mr. and Mrs. Alan Gould won a Christmas turkey for the

family while bowling in Penticton for having the lowest score of the night. That's Christmas spirit. There was a new bike for the highest score which was won by a Penticton man.

**LETTERS**

**CARS express thanks for publicity**  
Editor, Summerland Review;

Sir:  
On behalf of the Canadian Arthritis and Rheumatism Society I should like to offer you sincere thanks for your support in our fight against arthritis. Without your help it would have been impossible to inform British Columbians of the work of the Society.

An understanding attitude towards the health, financial and emotional problems created by arthritis is of the utmost importance and this can be achieved only by positive knowledge. It is in this respect that you have played a most important part. With your co-operation we have been able to bring the information about arthritis and its treatment to all those who need it.

We wish you and your staff happiness at Christmas time and success in 1966.

SUSAN MEEK (Mrs.)  
Information Officer  
Canadian Arthritis and Rheumatism Society  
645 West Broadway,  
Vancouver 9, B. C.

**LET'S GET NEWSY . . .**

Friends of the late Mrs. Harvey Underwood were sorry to hear of her passing in Mesa, Arizona where she made her home with her son, Blair Underwood.

Mr. and Mrs. Lowell Laidlaw of Williams Lake, were recent visitors of his parents, Mr. and Mrs. R. N. Laidlaw.

The Summerland Co - Op Board, Dr. D. V. Fisher and Dr. S. Porritt attended the Washington Horticulture Convention at Wenatchee last week.

cate that, with the right number of traps well placed through the orchard, the codling moth can be kept under control.

The large scale success of Don Allan's method will depend upon discovery of a synthetic scent that will duplicate the seductive ambergris used by the lady moth.

It is unlikely the chemical manufacturing companies will make a serious effort to develop such a scent lure, but it is an excellent project for government research.

**1200 British Columbians miss chance to collect pensions**

In January, 1966, 9,800 British Columbians who have reached the age of 69 will receive their first Old Age Security cheques of \$75.

These will be the first payments made as a result of amended legislation which allows for progressive reduction of the age requirement. This reduction will be effective each January until 1970 when payment will be made to people who have reached the age of 65.

It is believed there may be another 1,200 people in British Columbia eligible for payment in January, 1966. Applications for the benefit may be obtained at a 11 post offices.

These should be mailed, along with documentary proof of age, to Regional Director, Old Age Security, P.O. Box 1177, Victoria, B.C.

**New Methods in Pest Control**

Ever since the publication of Rachel Carson's 'Silent Spring' about three years ago there has been a growing public awareness of the danger in the use of chemicals for control of diseases and insect pests.

Many experienced horticulturists took issue with some of the conclusions drawn by Miss Carson. Although admitting that chemical control of insect pests, when improperly used, could present a health hazard to man and wild life, they contend that Miss Carson presented an exaggerated view of the situation. The risk to health is small, say the scientists, when reasonable care is exercised.

Whatever may be said for or against "Silent Spring," Miss Carson's controversial book probably has stimulated the search for insect control by methods other than through the use of toxic chemicals. This is loosely referred to as biological control.

For years the entomologists have been experimenting with different methods of biological control, and they have come up with one or two noticeable successes, and promising progress made in other efforts.

One of the later is the male codling moth sterilization program at the Summerland Research Station.

One of the latest is the male insect control is neither chemical nor biological, but makes use of the little known powers of a repellent. The experiment was conducted by the U. S. Dept. of Agriculture.

The repellent in this case is simply aluminum foil, and the insect is an aphid that injects a destructive virus into squash, cucumber, and cantaloupe plants.

A sheet of aluminum foil is

rolled out over the field and the young squash are planted through holes punched in the aluminum mulch sheet.

For some unknown reason the flying aphids are repelled by the bright aluminum foil. Plants not protected by foil are attacked by the aphids and quickly infected with the virus the aphid carries in its body.

In the tests, plants protected by aluminum foil yielded five times as much as unprotected plants which were seriously retarded by the aphid-transplanted virus.

Insecticides afford no effective control against this kind of virus because infection takes place within five seconds of the time the aphid alights on the plant. The aphid immediately jabs its sharp sucking member into the tender green plants tissue and the virus takes hold like a shot from a hypodermic needle.

No insecticide acts fast enough to kill the aphid before it infects the plant.

Cost of the aluminum mulch is \$200 an acre, but increased yield more than compensates for the added expense.

Here in the South Okanagan our local district horticulturist Don Allan has been conducting an interesting and promising experiment in codling moth control with the use of gallon size cardboard traps hung in the trees.

Baited with caged, live female moths which it is believed send out some kind of mating time scent signal, the traps have been successful in luring the sex conscious male to a sticky and lingering death on the glue painted inner walls of the trap.

Results to date would indi-

**The good work of TB Association**

The Canadian Tuberculosis Association, founded in 1900, is the oldest voluntary health agency in Canada. The B.C. Anti-Tuberculosis is an affiliate of the CTA.

At that time the TB mortality rate was higher than 90 per cent and groups across Canada were desperately concerned about the lack of treatment facilities and determined to establish a TB program.

We have passed through the eras of long-term sanatorium treatment, with prolonged bed rest, pneumo-thorax and other collapse measures, surgery, and drugs. We can look back on phenomenal progress with the mortality rate cut to a fraction of what it was even 20 years ago a short treatment time in sanatoriums, completely adequate facilities for diagnosis and treatment everywhere in Canada, and effective drugs for the treatment of this disease.

The success of TB work in Canada has been due to the co-operation between government health departments and voluntary TB associations. The Voluntary agencies have demonstrated needs and methods, and these were proven successful. In many cases government departments took over the running of proven programs, leaving the voluntary agency free to pioneer new methods and techniques.

Although many people believe that TB has been completely eradicated, it is still a disease of serious significance to Canadians with 5,000 new active cases diagnosed in 1964 and 200,000 people requiring follow up after care at chest clinics. Tuberculosis services across Canada cost the taxpayers \$100 million per year.

The task of voluntary tuberculosis agencies is to overcome the public complacency which has resulted from the partial success of our programs. The greatest objective of the agency is the prevention of tuberculosis through early diagnosis of every case and ensuring that it receives adequate treatment.

The Agency follows a five point program of public education, medical research and professional education, TB skin testing and chest x-ray surveys, health center construction and patient rehabilitation to help combat chest disease.

Tuberculosis is a community problem for which we all share equal responsibility. Every Christmas Seal donor takes an active share in this program when he supports the Christmas Seal campaign.

### BAPTISED AT FERNIE

The daughter of Mr. and Mrs. Neil Huntsley of Fernie was baptized Beverly Ann at the Christ Anglican Church, Fernie on November 14th. She is the granddaughter of Mr. and Mrs. Louie Wolfner of Summerland. Godparents were Mr. and Mrs. Roy Throssell, Quesnel and Mrs. Connie Latak, Fernie. Beverly's baptismal dress was made from her mother's wedding dress.

### "Comfort Spots" mean problems

Do you have a favorite "comfort spot" in your home?

Perhaps it is a certain chair where the temperature is always just right, where there is no draft and not too much warm air when the furnace blower is on.

Or it could be a certain room which is always just a little more comfortable than the rest of the house.

If this is the case in your home, something should be done about it.

Not a "comfort spot", but about the rest of the house.

Home heating and air conditioning engineering has advanced to the stage where every nook and corner in every room in your home can be a "comfort spot".

Good equipment design, such as that found in modern central gas heating - air conditioning systems, makes this uniform comfort possible. All parts of your house can be kept comfortably warm or cool, regardless of outside weather.

One of the major factors in maintaining this uniformity of temperature throughout the house is the design of the diffusers, or registers, as they used to be called.

Modern diffusers have scientifically engineered compound curves and louvered fins that direct the flow of warm air upward and fan-wise over wall surfaces. This air flow is so gentle and uniform the occupants of the room will not even be aware of it, yet it does the job better than ever.

The iron-grated hole in the floor that belched volcano-hot air at the ceiling, where it stayed, is a thing of the past; as is the cannon-muzzled side-wall gadget that used to send alternately hot and cold blasts into the room.

Modern diffusers are practically indistinguishable from the floor or wall in which they may be located. Some even look like the baseboard.

Home heating experts at Inland Natural Gas Co. know

just how to install air-ducts and diffusers for maximum heat efficiency and uniform comfort throughout your home.

## Teachers, students clear the snow!

There will be no problem with snow removal this year as those who govern school affairs are concerned. All the little white flakes no matter how many or how deep, will be cleared off the sidewalk before the school bell rings.

School officials may have to supply the shovels and scrapers — this has not yet been decided — but the manpower problem is solved.

The teachers and students schedule pre-arranged will arrive at school at 6:30 a. m., dressed in proper clothing, and have all walkways and driveways clear by 9:00 a. m. — in East Germany.

This was the report School Superintendent Gordon Paton gave to the Summerland School Trustees of what he saw during a recent tour behind the Iron Curtain in a study of their educational methods. He saw the teachers and students doing their early morning chores in this manner in East Germany.

## Former Summerland resident George Clarke passes at 85

Mr. George S. Clarke, former resident of Summerland passed away at Vernon on Thursday, Dec. 9 at the age of 85 years.

Mr. Clarke was born in Nova Scotia on December 1st, 1880 and received his education in that province. At an early age he moved to Verdun, Manitoba and in 1903 to Wapella, Sask., later to Fındliater, Sask. where he homesteaded and farmed for 40 years.

He retired in 1947 moving to Summerland where he lived until 1961 when he moved to Cranbrook.

He was predeceased by his loving wife Elizabeth in 1959. He is survived by two sons, Cecil of White Rock and Cliff

ford of Cranbrook; three daughters, Mrs. Wm. Showers of Port Alberni, Mrs. A. Clarke of Vancouver and Mrs. J. Dyck of Toronto, 12 grandchildren and 15 great-grandchildren.

Funeral services for the late George S. Clarke were held in Summerland Kingdom Hall on Saturday, Dec. 11 at 10 a.m. with Mr. Ervin Felker officiating. Interment took place in Peach Orchard Cemetery.

Roselawn Funeral Chapel were entrusted with funeral arrangements, Richardson and Williams, directors.

## Ernie Bennett wins Powell Rose Bowl

The horticultural society will send a petition to minister of conservation and recreation Kenneth Kiernan requesting that Snow Mountain be declared a provincial park.

Speaking to a meeting of the society earlier this week Mrs. Harold Madsen said she has visited the area many times and was dismayed to see 400 to 600 cattle grazing on the alpine meadows.

"The natural beauty of the alpine flowers will be lost forever unless we do something to preserve it," she said. "Snow" is the local name for Brent Mountain immediately west of Penticton.

### PRESENT AWARDS

Ewart Woolliams showed a collection of slides taken by members of Penticton and Summerland Camera Clubs during a summer trip to the alpine meadows in Manning Park.

The Powell Rose Bowl was presented to E. H. Bennett who attained 84 points for the grand aggregate of the Rose Show, the Fall Fair Flower Show and the Mum Show. Runners up were T. S. Manning and Mrs. E. C. Bingham.

The McKay Memorial Bowl was awarded to Mrs. Alex Inch. This award is made for grand aggregate points for arrangements over 10 inches during

the same three shows. Prizes were given in four classes at the parlor show held in conjunction with the meeting.

Mrs. E. C. Bingham came first in the classes for small arrangements using flowers, berries and seed pods. Mrs. Wally Harrison and Mrs. A. D. Wilson were second and third.

For an arrangement with a November theme, Mrs. Wilson came first with Mrs. Harrison and Mrs. Bingham second and third.

Mrs. Walter Ward won first prize for her line arrangement using evergreens and mums and Mrs. Bingham was second.

In the fourth class—a dwarf driftwood arrangement—Mrs. Bingham came first, Mrs. Harrison second and Mrs. Wilson third.

Wood siding is still the leading exterior finish for our homes. A type and grade of wood siding may be found for every purpose. It is low in cost from the standpoint of material and installation and can withstand all extremes of climate.

## Dougald MacGregor dies at 90 years

A Summerland old-timer, Mr. Dougald MacGregor, passed away in the Summerland General Hospital at the age of 90 years.

Surviving are one son, Dugal of Summerland; one daughter, Mrs. Helen Kilreggan, Scotland; and 7 grandchildren.

Funeral services were held on Monday, December 13 at 2 p.m. from the Wright's Funeral Home. Interment in Peach Orchard Cemetery with Wright's Funeral Home entrusted with arrangements.

## Summerland Council to adopt new procedure by-law soon

Authority was received by the Summerland council to continue with the 1966 RCMP contract to police the municipality. The cost will be \$9,757 for 1966. The new contract will become effective on April 1.

A preliminary report regarding a change in electrical rates was read to council. The study is being made by M. A. Thomas & Associates. The final recommendations will be made, pending consideration of further information supplied by Councillor Schaeffer to his firm.

A report from the Union of B.C. Municipalities was read by Clerk Gordon Smith which will adjust contributions from employee and employer in such a way that total contributions will not exceed the maximum under the Canada Pension Plan. The maximum contribution is now \$75.00 per year for employees. This will now be increased to \$79.00, the maximum under the Canada Pension Plan.

J. B. Hack is now qualified to carry on with Magistrate duties and has consented to fill the position of Magistrate Johnson during January and February when he will holiday in the southern States.

Councillor Barkwill said the plans for the new hospital are progressing slowly and they are now in the process of ironing out details of minor facilities outlined in the plan. It is in Victoria under study.

The Library board held a budget meeting December 9th and indicated they would need \$3,100 for operation this year compared to \$2,387 during 1965. The increase in the main was for salaries for custodians and staff.

Centennial Chairman Dr. J. Marshall requested of council that the Boy Scouts discontinue cutting Christmas trees on Giant Head Mountain due to it becoming a Centennial Park.

The scouts have been obtaining trees here for export to the coast each year.

Councillor Powell, who chaired this meeting in the absence of Reeve Holmes, said he thought the Scouts were planting trees for every one they cut. Councillor Schaeffer will investigate before any further action is taken.

Don't park in the taxi park.

### Bridge Results

Here are the results of bridge played at the Rosedale Room at the Legion Monday night with 10 tables taking part in the Mitchell movement.

Visiting this week were: Mrs. M. J. Prokopchuk and Ross Darnall of Fort St. John; John Ruhl, Lac La Hache; Mr. and Mrs. Wes Funnell, Peachland; and Warren Palmer, Penticton.

Here are the results:  
NORTH - SOUTH: Mr. and Mrs. Ray Stewart; Dr. W. Evans and Bert White; Bill Heppeler and John Paslawski; Mr. and Mrs. Don MacGillvray.

EAST - WEST: Mrs. Iras Gartrell and Warren Palmer; Mr. and Mrs. Jack Locke; Mr. and Mrs. Bud Fisher; Bert Berry and George Onushkevitch.

The Christmas master point night will be held on Dec. 27 followed by a Christmas party.

ing spot yet. But you should be able to next week at this time if the signs come down.

Council made the first move to rescind the bylaw reserving it for the taxi — but they cannot give it the final sanction until next week according to the municipal act. Mrs. Stan Cowie, who operates the taxi business in Summerland told council she had no use for the parking spot.

Clerk Gordon Smith read a proposed procedure bylaw for council to follow during their meetings. It was a copy of a one used in Kamloops with minor changes making it more applicable to Summerland.

It outlined the duties of the Reeve and the procedure of council meetings.

Due to the fact Reeve Holmes was not present, they did not want to give it final approval but they did give it the required first readings which will give them an opportunity to make changes where necessary when the Reeve returns. They did not want to hold it up any longer than necessary. "This bylaw is long overdue."

### Platter party well attended

By RON KOSTELNIUK

Friday night, the Grad class sponsored Platter Party was a success with over 100 attending.

The "Kru" entertained, a group consisting of Dale Weist, vocal; Ray Betuzzi, drums; Ken Selinger, guitar and Gordon Boothe, saxophone.

Followed by the Kru was Wayne Barry of CKOK playing hit parade records.

The Kru made a second and final appearance for the evening, and at 11:30 p.m. all the students attending went home very much pleased with the evening's entertainment.

### Schedule change for figure skaters over holidays

Because Christmas and New Year's days fall on Saturday this year, the figure skating schedule has been slightly changed.

The regular Dec. 25 practice has been changed to Thursday, Dec. 23 at the same time as usual, and the regular Jan. 1 practice will be on Thursday, Dec. 30 at the same time as usual.

The Christmas party for the figure skaters will be at the arena on Monday, Dec. 27 at 4:00 p.m.

## Juveniles get goal post happy

By Ron Koskelniuk  
In JUVENILE action, the Vernon team shutout Summerland 6-0 in a game played at the Arena on Sunday. It was a penalty studded game which featured three players getting five minutes for fighting. Summerland's Bo Lenzi got five minutes for fighting early in the second while in the third Summerland defenceman, Wayne McIrnes, and Vernon's Al Southword were called for the same infraction.

Southword scored the first marker of the game at 9:28 of the first. Tom Williamson got the assist. The second tally was at the 14:56 mark when Brian Kakoske scored an unassisted goal. In the second, Vernon got three more past Ron Fitzpatrick, who played a good game in the Summerland nets. Larry Hackman, with his first of two goals, scored at 13:16. Sandy Stevenson got the assist. Then King Cam, with assist from Williamson, and Southword, made it 4-0. Defenceman Graham Elliott made it 5-0 when he scored unassisted at 12:22. Hackman got the final goal of the game when he scored at 13:15. Southword got the assist.

Summerland was goal post happy as they hit the pipe four times and missed chances on breakaways. Of the 18 penalties called, Summerland had eight of them.

Next action for the Juvenile is this Thursday when the host Kelowna.

### Mrs. A. M. Snowde passes in 90th year

Mrs. Alice Maud Snowde passed away Friday, Dec. 17, in her 90th year. She was predeceased by her husband, G. Snowden in 1957 and by her daughter Eileen, Mrs. D. J. Ramsay, in 1960. For the past nine years she has lived with her daughter, Mrs. C. R. Adair in Summerland.

Final rites were held at the Royal Oak Crematorium, Victoria.

## Mr. and Mrs. George Henry honored at MacDonald School

Wednesday afternoon, Dec. 15, a special assembly was held at MacDonald Elementary School, at which Mr. and Mrs. George Henry were honored guests.

Mr. Henry appeared to enjoy being seated among children, as he has been accustomed to doing on the school bus every school day for 48 years. This time, though, there was a difference as he had no responsibility for the safety or behaviour of the girls and boys.

The students of Mrs. Froud's class presented a play "Upon the Feast of Stephen". The young actors and actresses gave a very convincing performance and, no doubt, for years to come the carol about God King Wenceslas will have a very special meaning for all who saw it.

Following the play, Principal John Cooke invited Mr. and Mrs. Henry to come to the stage. In his remarks, Mr. Cooke paid tribute to Mr. Henry, not only for his faithful service during the years and for his enviable safe driving record, but for his understanding of children, his kindness and generosity, all of which contributed toward character building in his young charges. As a token of esteem and appreciation, on behalf of the students and staff, Mrs. Henry was presented with a corsage of red carnations by Mrs. Roberge and Mr. Cooke presented Mr. Henry with a garden lounge. Mr. Cooke said that it was the wish of the students that Mr. Henry continue to enjoy good health for many years to come so that the lounge would prove to be useful for relaxing following his golf games.

Mr. Henry, in replying, said that he was deeply moved to find fitting words to express his thanks. Reclining briefly on the lounge he assured those present that the gift they had chosen was suit him very well.

**CONSTRUCTION WELL UNDERWAY**  
Construction is well underway on the west wing of the Secondary School. They are a month ahead of schedule and if weather holds, they will have it closed in shortly. The addition shown is a multipurpose room that will have movable partitions.

## Fruit assistance program advisory committee named

The Minister of Agriculture, the Honourable Frank Richter, announced the following had been named to the Advisory Committee in relation to the Federal Provincial Tree Fruit and Grape Assistance Program, 1965:

Tree Fruit Assistance Program: J. Y. Towgood, Summerland; A. R. Garrish, Oliver; J. B. Kidston, Vernon; H. J. Barkwill, Summerland. One member of distributive trade, to be named.

Grape Assistance Program: R. Stewart Jr., Westbank; A. S. Biollo, Penticton; B. H. Roberts, Victoria.

As stated in the joint federal-provincial press release announcing the program, these advisory committees will be responsible to review administrative details and make recommendations as the program progresses. They will also be asked to prepare for distribution, an information pamphlet which may be used by the growers as a guide in considering how they may best use the grants for rehabilitating their operations both in relation to cultural practices and likely longer term demand for various fruit that can be selected by growers when replanting orchards and vineyards.

The Minister also announced that F. E. (Ted) Atkinson, well known to the Okanagan fruit industry had agreed to undertake the work of Program Administrator for the joint federal-provincial program of tree fruit and grape assistance.

### MORE CAROLERS WELCOME

A group of people who like to sing carols will be touring the town Christmas Eve singing the old favorites.

More voices can be used and interested persons may phone Mrs. Flora Bergstrom or Mrs. T. H. Waterhouse.

### OUTCASTS LEAD THE PACK

## Many changes in bowling standings

By RON KOSTELNIUK  
The Outcasts increased their lead in A LEAGUE while the slipping Borderlines fell to 4th place. Accidentals moved into the runner-up position 8½ pts. behind the league leaders. In the B LEAGUE the End Pins were finally knocked off first place, falling two points behind Super-Valu. String-a-longs dropped from fourth to a 6th place tie with the Roamers. In C LEAGUE, the Greenwood Gleners knocked the Wildcats out of first place and the Wildcats slipped into a second place tie with Greenback. Here are the results for the week of Dec. 13-15.

A LEAGUE		B LEAGUE		C LEAGUE	
Outcasts	36½	Super-Valu	29	Greenwood Cleaners	20
Accidentals	28	End Pins	27	Greenback	25
Albert's Sport Shop	27	Bud's Garage	26½	Wildcats	25
Borderlines	26½	Peach Brandy	23	Dodgers	24
Nex timers	25	Woodchucks	23	Peachland Pin-ups	24
Occidents	23	Roamers	21	Crackjacks	21
Boppers	19	String-a-longs	21	Latecomers	21
M.P.S.	15	Sportsman	20½	Unpredictable	19
High single: Bill Ramsay 310, Ann Dean 288, Ev Spellburg (spare) 308;		High single: Shane Mihalick 354; Ann Downton 247;		High single: Earl Sutherland 338; Sharron Bradley 181;	
High three: Ernie Harrison 772, Ann Dean 721, Ev Spellburg (spare) 720;		High three: Gordon Meakim 720; Ann Downton 667;		High three: Earl Sutherland 687; Betty Heppeler 516;	
		High team: Super-Valu 2981.		High team: Peachland Pin-ups 2390.	

**SPREADING CHRISTMAS GOOD WILL**  
Here are members of the Shirley Knight Mission Circle of the Summerland Baptist Church who decorated Parkdale Place last week. They are from left to right; Mrs. Harold Cartwright, Mrs. Frank Haskins, Mrs. Lorne Bloomfield, Mrs. Bruce, Mrs. H. Crease, Mrs. No Blacklock, Mrs. Wm. Huva, Mrs. A. Elliott, Matron at Parkdale Place and Mrs. Tom MacDonald.

## New District Council president

Mr. John Third, Penticton, was elected chairman of the Southern District Council of the BCFGA at a meeting held in Penticton Saturday afternoon at their annual meeting. Past chairman was Geoff Allington of Kaleden.

Dan Roberts, Oliver, was chosen for vice chairman and Jim Coe of Penticton, secretary.

BCFGA director, Bill Ritchie of Naramta said that organization contributed \$2,000 towards the study of codling moth control now being carried on at the Research Station. He said such a study could not be made without this financial assistance.

He was asked if he was going to let his name stand for an additional term as director and he said that although at one time he had decided not to, he has reconsidered and will vie for the position at the January convention.

Dick Sparke, Sun Rype director said they have processed 33,000 tons of apples during 1965 and expected a reasonable return for the growers this year.

He said that although there

## Raising Codling Moths isn't so easy at Research Station

Rearing codling moths on immature apples for experiments in pest control is laborious and expensive, comments Kenneth Williams of CDA's research station in Summerland.

At Summerland, scientists are testing an alternative food supply based mainly on whole wheat flour, and the results are encouraging.

Large numbers of codling moths are required at Summerland for extensive studies of the sterile-male technique of controlling the pest of apple and pear orchards. Here, too, the results are encouraging, Mr. Williams says. In the past two years, codling moth damage to fruit in test orchards has been reduced to a very

low level by using this method of control.

Putting this concept onto a commercial basis will involve the rearing and release of many thousands of moths, the researcher points out. This would accentuate the present problems arising from the use of immature apples, which must be picked in the latter part of June and held in cold storage. And since only one or two moths are reared from an apple, huge quantities would be required.

Researchers have encountered one problem with use of artificial foods for the moths, the high humidity required to prevent them drying out is conducive to growth molds. But says research Williams, this is offset by plus factors — ingredients are readily available throughout the year and the elimination of the need for cold storage.

**AT PARKDALE PLACE**  
No doubt the residents at Parkdale Place are proud of their Christmas tree again this year. Here it is after the ladies of the Baptist Church gave it their professional touch.

## Search and Rescue squad increases

The Summerland Rod and Gun Club held their monthly meeting at the I.O.O.F. Hall on December 20.

Final preparations were made for the annual trap shoot to be held at the club on Boxing Day. Also, arrangements are being made to assist the mall bore rifle club to give training and instruction in firearms to the junior members. Eight members volunteered to join the Summerland Search and Rescue organization, and with their wide knowledge of the back areas, will no doubt render valuable aid to this worthy project.

Order at  
SUMMERLAND REVIEW

**Rifle club to hold shoot**  
The 22 Sporting Rifle Club will be having a Christmas Party Thursday, Dec. 23. The Juniors will try their luck at shooting from 7 p.m. to 8:30 p.m. The Seniors will begin shooting immediately after the Juniors have finished and will continue until they are ready to give up and try again next year. Prizes will be given.

Cherry greetings  
Good times, good cheer, good friends... may they all be yours at this happy season!

Summerland Review — 3

### Gratitude at Christmas

Unto you is born this day in the city of David, a Saviour, which is Christ the Son of God.

To humble shepherds keeping watch their flocks in staid fields, the tri-angel message of the herald angels burst in fullest glory. And for the Wise from afar, the brilliant light of a shone in the heavens, guiding them their way. Then to the sacred manger, Kings and Wise Men came, to worship and adore.

Each year, as we hear the Christmas story and welcome anew the Christ Child to our hearts, we find a new meaning for a new hope for the future. For Christmas is not an ancient tale of bygone time. Christmas lives: Christmas is now. Christmas ever wondrous, ever radiant with and promise.

If Christmas would live in the hearts of men and women, there would truly be "Peace on Earth and Goodwill toward man".

As we gather around the Christmas table with loved ones and friends, let us offer a prayer in gratitude for our good fortune and ask guidance for our world leaders so in time, all mankind will be able to celebrate and appreciate the birth-day we honor each Christmas.

Let us remember the unfortunate. Those who live in starvation — those who have no roof over their heads with nothing to look forward to but darkness.

In the spirit of Christmas, let us turn our thoughts to the first Christmas and capture in our hearts all the peace, love and understanding of that day.  
Merry Christmas.

### A Few Comments...

Scottie Ritchie found out everyone of win when he was turned away at the polls on December 11. Scottie worked during his period on council — all conscientious and was dedicated to cause of his community. Being on council is a tough thankless job — (then have some editor pounding on your very once in a while) — take a rest if you can. We know you will continue to work for the community in other ways — you are just that of a guy.

There was no charge to the growers — it was on the house — the big house in Victoria.

Contractors on the west wing of the secondary school haven't been at it but a short time and already they are a month ahead of schedule. The multi-purpose rooms will be interesting to see. They will have movable partitions so rooms of many sizes can be made available, whatever the order of the day requires.

With the Christmas holiday season on us, drivers and pedestrians are reminded that now, more than ever, they must remain alert on the highway. The main points to remember are to watch for careless walking, the weather, the throttle and the bottle. Have a happy holiday season — drive and walk safely and soberly.

## Summerland Rector Blasts CBC 'Filth'

By JAMES ROE  
column from the  
Summerland Herald

Summerland — Bishop Heber hit it pretty accurately, in 1811, when he composed the lyrics for the famous "Silent Night".

At Siloam's shady rill  
Sweet the breath  
Behind the hill  
Sharon's dewy rose.  
At Siloam's shady rill  
Lily must decay;  
So that blooms  
Beneath the hill  
Shortly fade away.

Rev. Norman Tannar, of St. Stephen's Anglican Church here, hit it much harder than the gentle Heber when he lashed out and clear at what he called the "filth" of modern art, music and the CBC Broadcasting Corporation.

Teen music? "Not one of these performers can actually sing," he claimed. "It's all gimmicked. This is music? It's definitely demented."

The mouthing and strumming is craftily designed to appeal to the "primitive passions" of the teen-ager.

**MOSTLY NOISE**  
"Those people who make the records don't care what they do—so long as they sell. It's mostly just noise."

The St. Stephen's Men's Club, taking the lead from their Rector, are about to demand that the CBC either clean up its programs or get them off the screen.

So far, however, they haven't mounted an offensive against the paint-splatters and unshorn Beate facsimiles — but no doubt it'll come.

The Church has been roundly criticized by everyone from Pierre Berton up for pussy-footing around the serious social problems of our benighted age.

**THE DEVIL**  
Norman Tannar of St. Stephen's doesn't believe in soothing homilies and pious platitudes. He's got the Devil by the tail, and soon we'll wager, there'll be standing-room-only in his picturesque rural field-stone church on Gulch Road.

Good for him, and we hope he keeps it up.  
Maybe there's hope for Siloam's lily and Sharon's rose after all.

Oldest known holiday greeting card, a crude woodcut dated from 15th century Germany.

of this stuff is filled and innuendo. Normal my eye!"

Fortunately for the Tannar delivered his Sunday morning message before silver-tongued Lapierre and owl-neck Watson brought genuine striptease in other above the waist Hour Has Seven Days, active art?

of these people are boomed the Rector. Now, probably a schlemiel might put an apron to it."

missed the non-objective as "more splashes with no message."

**REALITIES**  
to," he said, "have the abnormalities. We live in a society and high living, but by it that we're still empty, hungry, conditioned."

*Season's Greetings*

On your journey through the Holiday Season, may good health and happiness always ride with you.

**SUMMERLAND ESSO SERVICE**

### HOW TO MAKE YOUR OWN 7lb. JUNIOR CURLING STONE

It's easy, fun, and costs next to nothing. The only materials you need are two empty household bleach bottles (128 oz. size), a small bag of dry mix concrete, which you can get at most hardware stores for approximately 35¢, and a roll of red or black adhesive tape.

**Directions:**

1. Cut three and one half inches off the bottom of a 128 oz. household bleach bottle to form the base of the stone.
2. Cut the top off the bottle at the second ridge under the top end of the handle. Then, cut the handle away from the remaining section of bottle. Now mix about 2 1/2 lbs. of dry mix concrete according to the directions given.
3. Pour cement into base of the stone and fill (to within 1/2 inch from top). Press neck of bottle down into the cement. Remove the handle completely above the cement line. Be sure handle is centered.
4. Cut bottom off second bottle at dotted line for top. Then cut 1/4 square hole in the centre of this part.
5. The hole in this top will slip easily over the handle of the rock giving a professional finish to the top surface. Secure top of the stone to base with a band of colored tape. If desired, the entire top could be painted a dark color for better identification of the stones. However, the colored tape will also serve this purpose.

Note: For a heavier stone, just cut the bottle neck off above base and use more concrete.

Earliest reference to Feast of Nativity attributed to St. Clement I, Pope 88-97 A. D. Another tradition has Christmas first celebrated 98 A.D.

— Canada has 27 rivers of more than 500 miles in length. "Adeste Fideles" ascribed to St. Bonaventura, who died in 1274.

# When in doubt fill in the forms -- Atkinson

Mr. Ted Atkinson, administrator, Federal-Provincial Tree Fruit and Grape Assistance Program 1965 answered questions at the BCFGA Southern District Council on Saturday afternoon.

possible" the administrator said... "make an effort in any case".

He said Victoria will rely on the opinion of the advisory board.

## November farm employment figures show sharp decrease

Farm employment decreased 109,000 between October and November, while non-farm employment rose by 40,000.

The decrease in farm employment was above average for the month owing to a sharp drop in seasonal requirements which were associated with grain harvesting. Total employment remained well ahead of year earlier.

Thus, between September and November, the rise in unemployment was about normal for the period. The November estimate of unemployment was 37,000 lower than a year earlier.

The November figure of 6,939,000 represented an increase of 231,000, or 3.4 per cent. In non agricultural industries the increase was 293,000, or 4.8 per cent.

Unemployment increased by 49,000 to 220,000 between October and November. After a month in which unemployment was virtually unchanged when it usually rises, the increase between October and November was larger than usual.

## Ottawa... And the Preservation of Canadian History

Renovation on Sussex Dr., Ottawa, street of historical interest. In preceding articles we talked about the development of our national and about the master plan to beautify Ottawa and place it in the forefront of the world's greatest capitals. The articles were designed to tell Canadians of the vast development taking place in our capital region, what this means to the nation as a whole and to evoke a sense of pride in and love for our national capital.

But in all its plans for the future, the National Capital Commission, formed by an Act of Parliament in 1959 to prepare plans for, and assist in, the development of the national capital region — bears in mind that a city without history is a city without a soul. The Act itself empowers the NCC to "administer, preserve and maintain a n y historic place or historic museum". Until the formation of NCC, as a matter of fact, no government body was responsible for the preservation of historic places in the national capital region.

Realizing that the urban population explosion, the trend toward functional building and the pressing need for new and wider streets toward the elimination of historical buildings and landmarks, the National Capital Commission carries out a specific program of classification and preservation of sites of historic interest within the region. It is conscious of its duties in historic matters knowing that too often progress is accompanied by their destruction.

From time to time the NCC is authorized to purchase certain buildings or sites with exceptional historical and architectural values. A perfect example is the case of the Thomas Brigham house which was built about 1837. This historical building was about to be sold to a demolisher when the NCC heard of the plan, promptly purchased and renovated it. Thus was preserved a magnificent example of Canadian - Georgian architecture which dates back to the time of Philemon Wright. Situated on St. Joseph Boulevard in Hull, the Brigham house was all the more important histor-

ically because it had been occupied at one time by the first mayor of the municipality of Hull.

Another interesting NCC project for the preservation and restoration of historic sites is a section of Sussex Street with one-hundred year old buildings dating back to the period of Confederation. The National Capital Commission expropriated most of the properties on the east side of the street in 1961 to create in the national capital a sector of interest both to the historian and to the tourist. This particular street provides a historical setting for part of the ceremonial driveway used by the Governor General as he rides in his carriage from his official residence at Rideau Hall to Parliament Hill for the opening of Parliament and other ceremonies.

The Canadian government also is interested in Victoria Island and Richmond Landing which are encompassed in the

Some were renting part of this time, some had not been in the business ten years ago or less, some have added to their operation during that time.

Generally, Mr. Atkinson told them — when in doubt get an application in. Explain your particular situation in writing and the board will consider it.

In some cases, where records are not available, the district horticulturist will take a district average to arrive at a ten year average. He said he is available for private interview.

He stressed that the money received in 1965 on the 1964 crop must be included in the 1964 figures.

Charlie Bernhardt felt that they could all rest assured that Mr. Atkinson would give everyone a fair hearing in all cases.

"Fill out the forms as quickly

panoramic view from Parliament Hill. Consideration is being given to converting Victoria Island into a park containing buildings of historical significance.

The National Capital Commission is interested in many activities including planning assistance to municipalities within the national capital region, the encouragement of industrial development in Ottawa and environs, urban rejuvenation and reforestation. But high on the list of its most exciting and challenging functions is the preservation and marking of historic sites.

At this joyous time, when hope and good spirits are high, we express appreciation for your continued loyalty, and wish you the best of everything for Christmas as always. Thank you.

# Packing house scheme backed for vegetables

A central vegetable packing house run by the Interior Vegetable Marketing Board may be established in the Kelowna-Vernon area.

Vegetables are now sold by the agency but handled in conjunction with fruit at six packing plants, one each in Westbank and Kelowna and four in Vernon.

The recommendation to set up a central assembly plant was made by Sam Scott, sales manager, at the annual meeting of the B.C. Interior Vegetable Marketing Board in Kelowna Thursday.

The meeting was attended by 20 representatives from 13 vegetable growing districts from the U.S. and Alberta borders to Hope and north to Quesnel.

The meeting decided to form a committee soon to study the feasibility of the recommendation and to look into the costs involved.

Mr. Scott said establishment of such a central packing house would result in a uniform grading of vegetables and reduce shipping charges for the agency.

"It would provide district people with added employment mostly seasonal," he said. "The more uniform grading would raise standards and result in better business generally and increased acreage for vegetable growing."

## STANDARDS AT STANDSTILL FOR YEARS ASSERTS MEMBER

Ben Hove, Grand Forks board member, supported the recommendation saying the standards for vegetables had been at a standstill for years. "It is time some one took hold and moved forward," he said.

Seven resolutions were presented to the meeting and six were passed.

Defeated as impracticable to enforce, was a resolution to have wholesalers destroy jute potato sacks when emptied to prevent their re-use and possibility of spreading germs from infected products.

The board and agency will ask the provincial government to permit them to name a special Interior potato combination as "household" or "utility" rather than "Grade II". The combination is approximately 80 per cent Grade I potatoes and 20 per cent Grade II which

now must be termed "No. 2". The reason for the resolution is the psychological effect the naming has on sales appeal.

The agency will ask the Summerland Research Station and horticulturists to conduct a survey into the cause of cucumbers arriving on the market in inferior condition. The board said it is thought handling after the product leaves the grower is at fault.

## BETTER PRICE FOR TOMATOES SOUGHT FROM CANNERIES

The board was also asked to try and obtain a better price for tomato canneries for tomato grower crops in 1966.

Sweet corn will now be sold through the vegetable marketing agency. Although the agency markets vegetables grown in the Interior, corn was not included before, because it was not commercially grown and required special handling. Growers found unfair competition last year and asked the agency to take over the sale.

Potato growers in the Grand Forks and Creston area will forego their privilege of selling 10 tons of early potatoes directly to retail outlets. The purpose is to inspire wholesalers to co-operate and handle more of the crop. If the co-operation isn't given, the 10 ton sales allowance will be reinstated.

The growers in District 12, the Caribou, asked the board to send representatives to their annual meeting and any other

special meetings in 1966. This has not been done in the past due to mileage problems.

Re-elected to the board were: Bernard Pow of Vernon, chairman; August Casorso, Kelowna, vice chairman and Ben Hove of Grand Forks as the third member.

L. R. Stevens of Kelowna, was re-appointed as shipper member of the board.

The United States has eased its embargo on imports of potatoes and nursery stock from British Columbia, the agricultural department reported.

However, the embargo, imposed following discovery of infestation by the golden nematode, still applies to shipments of table potatoes from B.C. and to nursery stock from B.C. nurseries which have not been checked and found pest-free under Canada's eradication program.

The department said it is expected to take about five years to assure eradication of the pest through surveys of the province and checks of fumigated land.

Until then, Canadian quarantine restrictions imposed on the southern portion of Vancouver Island last June remain in effect.

"Good King Wenceslas" died 935 A.D. (The Christmas song about him was written by Rev. J. M. Neale in the 19th century.)

# \$246 million in construction planned under winter works

Government programs for encouraging construction industry employment during the winter months show every sign of being more successful this winter than ever before.

On the basis of present figures, it is evident that the Federal-Municipal Winter Works Incentive Program this year will be the largest on record.

To date some 1,800 Canadian municipalities have indicated they will participate. Projects approved thus far will provide an estimated 6,232,955 man-days of work for an estimated 115,377 workers.

The total cost of projects approved thus far for the 1965-66 winter season is almost \$246,500,000 or \$34,000,000 more

than at this time last year. The Federal Government's share of direct payroll costs on these projects is an estimated \$50,000,000.

The Winter House Building Incentive Program has become an effective means of stabilizing employment in the housing construction industry over the entire year. To date applications have been made to have some 26,000 housing units qualify for the incentive bonus, about the same as at this time

Last year. Last winter more than 33,500 housing units eventually qualified for the \$500 bonus. Thus the cost to the Government was approximately \$17,000,000.

# Gov't assistance is discussed

A motion supporting the action of the federal and provincial government to aid fruit growers had to be reworded before approval at the final meeting for 1965 of the Okanagan-Similkameen Associated Chambers of Commerce held last Wednesday night at the El Rancho Motor Hotel.

Several delegates objected to the phrasing of the original resolution.

Bruce Howard, secretary, pointed out that a petition was being prepared after the last meeting, but it had been shelved after action on the disaster aid situation had been announced in Ottawa.

The growers should now have their aid application forms and there should be money by Christmas.

A motion was suggested, expressing satisfaction in the action of governments.

Issue was taken with the 10-year average clause.

Eric Tait of Summerland felt the 10-year clause would not be harmful from a long-range point of view.

It was pointed out that governments at both levels were

looking to the future to solve the problems of growers, and it was normal procedure in agriculture to use a 10-year average. This was done with crop insurance.

The Penticton Chamber president, Frank Christian, thought "no stamp of approval" should be given.

The initial frost plight occurred in 1965, but damage could be a question for as long as five years.

Frank McDonald of Penticton thought re-wording of the motion would solve the dilemma.

He suggested that the phrasing, "we are gratified", be used instead of, "we are satisfied".

The concern to the chamber is not on the action of the governments, but the fact that action has been taken.

The motion was passed unanimously.

## GEODUCK DOESN'T QUACK

The geoduck, though not at all abundant, is a clam that arouses considerable interest. Digging for it is considered a sport because the limited abundance, and the great depth it lives at makes it extremely difficult to secure. The habitat of the geoduck is confined to fairly well protected sandy beaches. Localities where it is definitely known to exist are Sidney Island, Tofino, Nanoose, and Seal Island near Comox.

The geoduck, the largest of the clams, is found at a depth of 3 feet in the sand, its neck or siphon extending almost to the surface of the beach. The most practical way to capture this clam is to locate it, then try to hold the neck while a partner does the digging.

When alive, clams have tightly closed shells. They may be opened with a knife or steamed open. Clams are used principally in chowder, the two most popular styles being Boston and Manhattan.

## DECEMBER 25th

St. Julius I, Pope 337-352 A.D., after having a study made by theologians, decreed December 25 as the most correct date of Christ's birth. Referred to in Roman documents as Christmas Day first, 354 A.D.

Irving Berlin's "White Christmas" was first published 1942.

## LET'S GET NEWSY . . .

Mr. and Mrs. H. McKee left on the weekend to spend Christmas on the coast where they will have a reunion with their family including their son-in-law and daughter, Mr. and Mrs. T. D. Grant and children; their daughter, Miss Vicki McKee and their son and daughter-in-law, Mr. and Mrs. G. McKee and children.

\*\*\*

Miss Rosemary Day was visiting friends in Vancouver on the weekend.

## QUICK GROWING MOOSE

At birth a calf moose is a tiny, ungainly copy of its mother. If it is one of twins, it

may weigh 13 or 14 pounds; if born singly; between 25 and 35 pounds.

The calf, helpless at birth, is kept in seclusion for a couple of days, hidden from its many enemies in a thicket or on an island. The voice of a newborn calf is a low grunt, but after a few days it develops a strident wail that is almost human. At the age of only a few days it can outrun a man and swim readily.

Of all North American big-game animals, the moose calf gains weight fastest. During the first month after birth it may gain a pound or even two pounds per day, and later in the summer may begin to put on as much as five pounds per day for a time.

Calves stay with the cow for a year, sometimes longer.

# Turn left-overs into tasty cassehole with new packaged noodle soup

Modern homemakers who wonder what to do with that left over turkey when the "13th Day of Christmas" rolls around should consider themselves lucky. Think of the homemaker of legend who was confronted with the remains of two turtle doves and a partridge in a pear tree!

With a dash of ingenuity, some tea biscuits mix and the newest packaged soup on the market . . . they can produce a Turkey Pot Pie that will be equally at home as a hearty family meal or to subdue hearty winter appetites when the young folk bring their friends home after a day in the frosty outdoors.

Add a crisp tossed salad and a big plateful of cookies and Christmas cake and your reputation as a holiday cook will be ensured. Next to jolly old Santa, you'll be tops on the popularity poll. And this is a recipe that's equally successful with left over chicken, so it can be a year-round favorite.

## TURKEY POT PIE

- 3 tablespoons butter
  - 3 tablespoons all-purpose flour
  - 1 envelope Lipton Turkey Noodle Soup Mix
  - 2 cups milk
  - dash pepper
  - 1 pkg. frozen peas
  - 1 (15-ounce) can onions, drained
  - 2 cups chopped carrot, cooked
  - 2 cups diced cooked turkey or chicken
  - 1 cup tea biscuit mix
- Preheat oven to 450 deg. F.

In medium saucepan melt butter, stir in flour, Turkey Noodle Soup Mix, milk and pepper. Bring to a boil and simmer approximately 10 minutes or until sauce thickens. Stir in peas, onions, carrots and turkey. Pour into a 2-quart casserole. Prepare tea biscuit

## INSTITUTED CHRISTMAS

St. Telesphorus, Pope 125-136 A.D., said to have instituted Christmas carols and to have ordered Christmas to be observed as a solemn feast 129 A.D. Seasonal times of these observances varied — Jan. 6, Feb. 2, March 25, April 19, May 20, Sept. 29, according to different systems of reckoning time then in use.

## EDITORIAL

Francis P. Church's classic newspaper editorial, "Yes, Virginia, There is a Santa Claus," first published in The New York Sun Sept. 21, 1897. That single editorial made Church far better known than his founding of the esteemed professional periodical, "Army & Navy Journal".

*Merry Christmas*

Our heartiest good wishes for a happy and joyous Yuletide go to you and yours.

# Surveys show need for regular medical check-ups

The Mackenzie Report showed that of 929 non-tuberculous chest conditions found in the Vancouver City survey, 347 were not previously known to medical authorities and 238 cases were very serious.

Health authorities, presently studying the report, are concerned that 81 persons referred for further medical investigation failed to visit their family doctor. 25% of those found to have lung cancer, heart disease or other non-TB chest disease, had symptoms such as chronic cough or pain or occasional bleeding when discovered — yet they had not seen their family physicians.

Christmas Seal Society officials say this indicates a need for a stepped up program of public education to alert people to the importance of medical consultation when such symptoms appear.

The Mackenzie report also found:

—Two out of three non-TB chest conditions were found in men, less than in TB where the ratio is more than three men to one woman.

—Most people found to have chest disease in the survey are over the age of 60; although 453 were under 60 — some of them in their teens. disease does not vary greatly

—The amount of non-TB chest disease does not vary greatly in different parts of the city, compared to tuberculosis which is more prevalent in the

lower social economic areas. non-tuberculous chest disease in Dr. Mackenzie said he is con-Operation Doorstep surveys is vinced that the discovery of of considerable importance.

## SHARE WITH OTHERS

by  
COMMISSIONER EDGAR GRINSTED

(Leader of The Salvation Army in Canada and Bermuda)  
Sharing is one of life's privileges.

If we could not share Christmas with friends and loved ones, the season would be bleak and lonely indeed. In fact, we enjoy MOST what we SHARE with others — the holiday meal, gifts, cards, and the festive preparatins at home and office. And indeed it is only as we SHARE, that CHRISTMAS has real meaning for us, as in this singularly Sacrel Season, we commemorate the "Wonderous Gift" that was given to us.

The season's festivities have a warmer glow when we include in our Christmas sharing, those who so easily might be forgotten in the rush and pre-occupation of Yuletide preparation —

lonely Senior Citizens, homeless men, underprivileged children, unwed mothers, families in need and many others.

It is my prayer that you will make this Christmas truly a time of sharing — not just in a monetary sense, but in a most personal way — sharing your very best of mind and spirit with others. As you do this, I am confident the miracle of this celebrated Season will bring to you as it did to Dickens' immortal Al Scroge the joy of saying — "AND TO ALL A MERRY CHRISTMAS"

**NIAGARA SCENERY** — The majesty of Niagara Falls provides a dramatic setting for this pretty visitor who appears to be deep in thought, perhaps meditating on the forces of Nature which created the cataracts. The falls are tens of thousands years old.

English Puritan government (Cromwell) forbade Christmas observance, 1643. Revived in England under restored Stuart monarchy. The ban was not repealed in New England till 1679.

*Greetings*  
on a note of cheer, may we wish you all a very happy holiday.

And a real and best assurance  
In the Quietness of Prayer!

El Rancho Broncs schedule changes

According to statistics supplied by George Stall, Manager of the Pentiction-Summerland El Rancho Broncs, two Summerland pucksters are among the leagues' top ten scorers.

Saturday Larry Palanio had a total of 27 points and stood third. Dwayne Biagioni was in eighth spot with a total of 21. George was quick to point out that his squad are not playing Friday night in the Pentiction arena as usual, they are slated to meet the Vernon Blades on Sunday afternoon at 2 p.m.

The Broncs are second in league standing. Kelowna are tops with 29, while the locals have 21. They are followed by Kamloops with 20 and Vernon with 5.

Belbin in the Pentiction-Summerland nets rates third in goal tending averages behind Kamminga and Lawrenson both of Kelowna. They have played 6 and 8 games respectively while Belbin has seen action in 15.

Don't forget — action this weekend at the Pentiction Arena is on Sunday at 2 p.m., — not Friday nights as usual.

There is a schedule change next week as well when the Broncs meet Kelowna on Pentiction ice on Thursday, Dec. 30 at 8:30 p.m.

Our heartfelt good wishes for this joyous season to all of our wonderful friends.

Peace on earth

Joy to the world through a new spirit of Peace and Good Will...this was the message of the first Christmas. May that spirit be rekindled in your heart today... and brighten your life with a deep and abiding happiness.

SELINGERS PLUMBING

CHRISTMAS GREETINGS

At Christmas, let us lift up our eyes to the glorious heavens... let us open our hearts to the holy message of hope, joy and peace everlasting.

ALAN BUTLER & STAFF

Okanagan apples were prominently displayed at a recent display of culinary art sponsored by the Association of Chefs de Cuisine at the Vancouver Vocational Institute. Food training student, Louise Ketterer (19) is no stranger to the crisp quality of Okanagan apples. Her father, John Ketterer of R.R. 3, Vernon has sixty acres where he grows apples, peaches and cherries. When she completes her training this month, Louise will return to Vernon for the Christmas holiday, before going to the United States as an airline stewardess.

## War staged on mice in Sum'land

Rodent Control Officer Mr. Bill Parsons has been busy in the municipality during the past week. In five working days, with the cooperation of growers, thousands of mice have been destroyed. The poison, is oats treated with 10/80 and is considered 100 percent effective.

Mr. Parsons organized of about 10 growers and they all worked together under the supervision and they went from orchard to orchard spreading about 15 grains of the poison at each tree and a proportional amount around flumes and fence lines or anywhere there is a growth of weeds or grass. Each man was supplied with a pail and a spoon.

There was no charge for the poison or the services of the Rodent Control Officer. The only stipulation was there must be one man in the working group for each orchard covered, and they all worked together.

On an average day they covered 250 acres but they did go as high as 400 acres one day.

According to Mr. Parsons, it is a waste of time and poison to spread on well cultivated land. Mice like to get cover so it must be placed in weeds or long grass. The poison is

effective for 18 months and where land has been treated, a 100 per cent kill is expected.

Charlie Bernhardt told the Review that most of the commercial growers took advantage of this.

"The growers were anxious to cooperate," Mr. Bernhardt said. Bill Parsons had nothing but praise for Summerland growers the way they cooperated.

### DECORATE PARKDALE PLACE

Wednesday, Dec. 11 the ladies of the Shirley Knight Mission Circle of the Baptist Church had the pleasure of decorating Parkdale Place this year.

The group served refreshments, sang a few carols and met the residents of the home. All enjoyed the afternoon.

Since 1949, hourly wage rates in manufacturing have risen faster in Canada than in the U.S., by 112 per cent here compared to 84 per cent there.

### AT BENNETT, B.C.

## "We'll be 10 minutes late -- bringing 310 for lunch"

The most unique restaurant in North America is located in that little bit of scenic magnificent which, though part of British Columbia, is wedged in between Alaska and the Yukon. It is located at Bennett, B.C. and scores 100% in feeding each and every traveller who passes through.

Patrons may eat as much as they wish from tables laden with the best of food, and may stay as long as they wish, up to 30 minutes. There is no competition and management will not accept payment. The highly efficient and pleasant staff directs each patron to a table, replenishes serving dishes as required and urges him to eat heartily.

The customers all arrive at the same time, and even when there are several hundred, the conversation among them is minimal. Why? Because they are stunned! Stunned by an array of old time dishes superbly cooked and served. Stunned because there is no juke box. Stunned because there is no panting waitress standing with pencil poised to write down his order. Stunned because there is no relay race with dirty dishes to a crockery smasher who lurks in the kitchen hating his job as a dish-washer. Stunned because the magnificent roast of sirloin of beef looks a n d smells and tastes exactly like a magnificent roast of sirloin beef, and is sliced by a well adjusted, warm hearted person with a he-man carving knife — not a razor blade.

There are no chits to add up,

no change to make, no lineup at the cash register — and, no cash register.

But management here has a tremendous advantage over restaurant operators elsewhere. They know well in advance how many guests will come, and the moment to expect them. For this astounding eating house serves in lieu of dining cars on

the White Pass Railway which serves the 110 miles between Whitehorse, Yukon and the Pacific seaport of Skagway, Alaska. Of course the meals are paid for; they are included in the price of the rail ticket. But it comes as a pleasant surprise to many tourists, and this is only one more reason to be stunned.

### Greetings

As families gather together in joyous celebration, we extend best Yuletide wishes.

Howard Clark at CLARK REALTY LTD.

## CHRISTMAS Wishes

May the joyous tidings of the first Christmas re-echo in your heart today and lift your spirit with that glorious promise of peace and good will for all.

**Builders are asking  
—what kind of heat?**

One of the major problems facing the builder of a new home is deciding what kind of heating system to install.

Economy is one of the prime factors influencing a builder's choice of heating systems. Money talks loudest, in the building business, as in any other.

The builder's first concern, naturally, is with initial cost. Installation of the system is a major item, and economy here is vital.

Also, the builder will be sure to ascertain what insulation is required or recommended with various types of heat.

The builder will be sure to ascertain what insulation is required or recommended with various types of heat.

The building contractor, who builds to sell, must also think of his prospective buyer, in choosing a heating system, and that means considering operating cost of the system, as well as performance.

Which type of heat provides the greatest comfort and convenience at the lowest cost?

Few people will argue the fact that coal and wood are probably the most economical fuels but likewise, few people today want to carry out ashes, clean sooty stovepipes, and worry about keeping a woodpile on hand or a coal bin filled.

Modern fuels, without ashes, supply without even ordering, are preferred by nearly all prospective homeowners.

Convenience is of prime importance and most people want the ultimate in modern, automatic heat control.

Today's gas forced air heating system not only heat a home economically, they also purify the air and automatically control the humidity.

Visiting his local fire station, Kirk Cloutier, 11-year-old muscular dystrophy patient, discuss the fit of a fireman's helmet with Ted Dakin.

Canadian fire fighters are helping The Muscular Dystrophy Association of Canada raise \$600,000 this year for medical research leading to a cure for MD. (Photo: Ian Sampson)

There is no stuffiness and no irritating dryness.

Builders rely on home heating experts at Inland Natural Gas Co. Ltd. to be sure they have the right heating system for every home.

Statistics show that throughout British Columbia more new homes are heated with natural gas than any other fuel.

Turkey introduced as Europe's feast piece-de-resistance via American colonies, 17th century. Wild boar, peacock swan and goose had prevailed at the Christmas feasts in the Old World earlier. (Turkeys were taken to Europe by Spanish explorers, who found them a domesticated fowl among the Aztecs in Mexico.)

**There Will Always Be Christmas**

Frank Haskins

Since last Christmas, a series of barrages of criticism have been made against the churches from a variety of sources. Criticisms range from expressions of deep concern by Christians for a more effective witness and ministry of the churches to outbursts by irresponsible commentators whose business is to traffic in controversies.

Yet all these blasts of controversy do not detract from the true joy of keeping Christmas. True to tell, for the most part, people engaged in carrying on the work of local churches are not interested in controversy. The holding of services, Sunday schools, week-day groups and the many endeavours necessary in the churches call for a great deal of service by many who in doing their tasks have no desire to enter into argumentative criticism. They are busy about something which is of benefit to the community at large.

The critics cannot spoil Christmas. Yes, even although the celebration is often used for foolish, selfish excess, the fact remains that the real reason for Christmas has the overwhelming respect and reverence of millions including those who normally do not associate themselves with any church. Again, this year the birth of One who came to teach men the way of good will and peace will be celebrated. Christmas is a reminder of the gifts of the Christian Gospel to the world, gifts of faith, hope, and love. The birth of the Saviour of the world will be celebrated as long as time lasts for there will always be Christmas.

# Falls in home greatest danger

Falls account for 45 per cent of home accidents, with fire close behind, according to the National Safety League. NSL offers some ideas to keep tragedy out of the home at Christmas.

Keep walks and steps free of ice and snow.

Keep displays and decorations clear of walks, pathways and doorways.

Don't carry a pile of packages to obstruct vision.

Keep packages on easy-to-reach shelves or in drawers, never on floors or stairs where they can trip someone.

Give the children a box or bag for gifts. Toys scattered in the house may send Grandma tumbling.

Use a sturdy ladder, never a makeshift such as a chair or piled books or boxes.

Never reach from a ladder. Get someone taller or with longer arms to put the star on the tree top.

Holidays always increase fire hazards around the home, claims NSL. Fires, burns and fire associated accidents accounted for 23 per cent of last year's home fatality victims. For Christmas, the League suggests:

Keep the tree in water so it will stay green and be less vulnerable to fire.

Never place candles near trees, curtains or other flammable materials. Use hurricane lamps over them for safety and added attractiveness.

Keep matches in hard-to-open containers away from children.

Discard frayed electric cords before a short circuit produces shock or fire. Make sure lighting sets carry CSA labels.

Use nonflammable materials (metal, glass, asbestos) for decorations wherever possible. Be sure combustible materials are flameproof.

Never use electric light sets on metal trees. Use off-the-tree spotlights or floodlights instead. A voltage leak can bring death, destruction or suffering in an instant.

Decorations and trees can be hazards to children. They chew ornaments, light bulbs or any bright object that looks good enough to eat. This could result in tragedy.

Parents are responsible for their own children and visiting children. Make sure to cover empty electric sockets or outlets on trees and decorations and make certain decorations are securely fastened.

Firearms received as Christmas gifts call for particular care. More than half all fatal firearm accidents occur in the home. Be sure they are not loaded in the house and never leave them within reach of children.

When Christmas is over, hazards remain. Dispose of wrappings at once. Place them in a metal-covered trash can or burn them without delay. Dispose of the Christmas tree. If the municipality designates tree disposal, follow the rules. Otherwise take it to an open area and burn it, keeping a fire extinguisher handy. Dry trees sometimes burn with explosive violence. Dispose, too, of dried out decorations.

"If Canada's 19,000,000 people each assumed the moral responsibility of being 'his brother's keeper,' said Gay McLaren the General Manager of NSL, 'Christmas would not be blighted by hundreds of deaths and injuries.'"

This white cat is almost a part of the main street, as he (or she) may be seen daily, wandering around minding its own business. When it wants to really look things over it makes itself at home on the hood of somebody's car, pondering, probably, on why human beings are always in such a hurry.

# Anglican bazaar huge success

The annual Christmas Bazaar and Tea sponsored by the St. Stephen's Anglican Church WA was held Saturday, December 11. The festivities began at 2:30 p.m. with the president of the Diocesan WA, Mrs. N. O. Solly of Summerland, making the bazaar officially open.

The convenor of the bazaar was Mrs. J. B. Rowe and the co-convenor was Mrs. T. M. Croil. Receiving the many guests at the door were: Mrs. N. Tannar, Mrs. N. O. Solly and Mrs. Clarence Adams.

A goal of \$500 was set for this year's bazaar and the WA is very pleased to report that they are just a few dollars short of that goal. More was raised this year than ever before.

Winners of the door prizes were as follows: Barbara Berry, doll; Mrs. G. E. Walls, Scotia St., Penticton, petit point

picture; Mrs. G. C. Johnson, Summerland, comforter. At the regular December meeting held on Tuesday, Dec. 14, it was voted that some of the money made at the bazaar be used to paint the Rectory.

**12-DAY CHRISTMAS**  
 Christmas introduced in England by St. Augustine of Canterbury, 604 A.D. In the time of Alfred the Great (871-899), the 12-day Christmas festival season was so well established in converted Britain that Danes chose it as a time to invade the realm.

We wish for you the blessings of Christmas. May the radiance of the Star of Bethlehem light your way to peace and contentment in the coming year.

## LOW CONCENTRATION

This year phosphamidon was sprayed in lower concentrations and, in conjunction with a penetrating agent, Invadine JFC, produced faster absorption by foliage so that birds were exposed to the chemical for a shorter time.

"At low dosage the budworm spray will not harm the birds," says Dr. C. D. Fowle, head of the biology department of Toronto's York University who led a research team studying the effects of the chemical.

He found that direct spraying of the birds with phosphamidon did them no harm but that even a small amount on their perches made them accumulate enough to cause sickness.

DDT, which has little or no effect on birds, continues to be used in deep forest areas away from streams.

**It's Christmas**

At Yuletide there is room for naught but hearty wish and kindly thought for those who agree and those who don't, for those who see and those who won't. What matter if we think unlike in mundane issues if we strike a common chord of fellowship and shake our hands in a friendly grip, So friends and neighbors far and near. A Merry Christmas and Happy New Year!

**Multi-purpose room under construction**

Construction on the west wing of the Secondary school in Summerland is a month ahead of schedule. The completion date was set at July 1, 1965 so it may be complete before that time.

Included in the construction is a multi-purpose room, a woodworking shop, metal mechanics shop, cupboard construction area, washroom facilities, gym equipment storage room, board offices and a boiler room.

A new innovation in school construction is the multi-purpose room.

This room, with a floor space total of about 4,000 square ft., can be made to serve from a few students in a small room to the maximum number the floor space will hold. They will be able to divide it into as many as four rooms.

It will also be possible for one teacher to supervise more

than one room at a time by leaving space at the end of movable walls.

It is felt that it will also save teaching time in that they will be able to give instructions to a greater number when necessary. This will be done by only one teacher rather than possibly two or three giving the same instruction in as many rooms.

Although the board does realize the saving of time factor, it is not the main purpose of this new type of classroom. Versatility is the big advantage. The rooms can be adapted in so many ways for better instruction.

**FIRST EMPLOYEE**

The Okanagan Regional College Council last week announced the appointment of Jim Bigby as Administrative Assistant. Bigby, who will commence his duties January 1, as the college's first full-time employee.

3. Be sure the tree is well

The Canadian Forestry Association of B. C. calls attention to the following safety rules for the handling of Christmas trees in the home.

1. Because your tree begins to lose moisture as soon as it has been cut, it is recommended that as soon as it is brought into your home, you saw off the butt end at least one inch above the original cut and then place it in a cool shady place with the butt end placed in a container of water.

2. During the entire time the tree is in use in the home, be sure the butt end is kept in water. Refill the container every day as the tree absorbs the water which keeps it fresh and green and reduces the fire hazard. Investigation carried on at the U. S. Forest Products Laboratory in Madison, Wisconsin, indicates that the use of fire-retardant chemicals often does more harm than good, hence the use of water is recommended.

supported and is away from fireplaces, radiators, television sets or other sources of heat. The tree should be placed so it will not block an exit in case of fire.

4. Lighted candles or other open flames should never be used on or about Christmas trees.

5. Check electric lights and connections. Worn, frayed wires or electric cords must not be used.

6. Avoid use of combustible decorations and flammable reflectors for the coloured lights. Metal foil "tinsel" or tinsel must be kept out of bulb sockets.

7. Avoid overloading the electric circuits. Accumulations of wrapping paper and the placing of electrical toys under

the tree should be avoided as fire hazards.

8. Potted or living Christmas trees brought into the home are favoured by some who enjoy having the same tree as many years as it remains small enough to move in and out of doors. Ample provision should be made for watering such trees, especially when indoors.

Death-defying exploits of early Canadian fur traders who braved the turbulent waters between Montreal and Grand Portage on Lake Superior are repeated by modern-day canoeists

in an exciting colour film "The Voyageurs". This twenty-minute National Film Board production is now being shown in Canadian theatres and in many other countries.

## Carol Newton exchanges vows at Penticton United Church

A wedding of interest in Summerland took place in the United Church Chapel in Penticton on December 18, when Carol Diane Newton, daughter of Mr. and Mrs. John Newton of Summerland was united in marriage to Garth MacDougall, son of Mr. and Mrs. Colin MacDougall of Penticton.

Reverend H. J. Cronin officiated at the ceremony. The church was beautifully decorated with poinsettias and holly, following a Christmas theme.

The bride, given in marriage by her father, wore a white brocade sheath and a short veil held by dainty white flowers. She carried a bouquet of poinsettias on green bows.

The matron-of-honor, Mrs. Carl Jeffrey, wore a red sheath and a red velvet bow in her hair. She carried miniature poinsettias. The best man was Mr. Nigel Lamb of Penticton and the ushers were Mr. Richard Newton, brother of the bride, and Mr. David MacDougall, brother of the groom.

Following the ceremony, the parents of the bride and groom received guests at a reception in the Three Gables Hotel, Penticton.

The toast to the bride was made by Mr. Tom Charity of Summerland and the groom responded. After a short honeymoon, the happy couple will reside in Penticton.

### JACQUIE MANN AT P. H.

Miss Jacquie Mann is returning to her home in Port Hardy, B. C. where she will spend Christmas with her family. She will return at the end of the holiday to resume her Grade 13 classes at Penticton.

## Children enjoy Christmas Rotarian program Friday night

Twenty-four children enjoyed a special Christmas program at Rotary Friday night. Harvey Wilson, Alex Watt and Joe Akitt were in charge of the evening. Cece Wade led a rousing sing-song of favourite Christmas tunes before Santa appeared to hand out gifts to all the children. Henk Wouters accompanied on the piano. Rotary members and children alike enjoyed a number of games for the little ones. Walter Marshbank of Oliver was a guest at this meeting.

# S. Okanagan Bridge Club to close off active year

The South Okanagan Contract Bridge Club has had a most successful year. Since early summer they have averaged 9 tables every Monday night. Many visitors from clubs in many of the provinces and states, added to the play.

Summerland, Peachland and Penticton players have done well in tournaments throughout the valley. Recently in a fall series in Kelowna, the winners were Mr. Bill Hepperle and his son Gordon Hepperle. Playing as a team of four with Bill and Gordon Hepperle, Wilf Evans and Jack Garraway, this group won the Kelowna club championship, and with the trophy, each won 4 master points.

Recently the club developed a library which is directed by Mrs. Peggy MacCrae. There are 40 books on bridge and they are all well used. This has been a more successful venture than the club ever expected it to be.

Bridge players of any ability are welcome, and are encouraged to come. Many who feel they would be playing over their heads would be surprised at how well they could do. Some feel that the way "duplicate" is played would confuse them when playing their hand but we have found that after one or two sessions they become as familiar with duplicate play as they are with Rubber bridge.

**AMERICAN CONTRACT BRIDGE LEAGUE**  
At the meeting in November of the ACBL — Okanagan Unit an election of officers took place. For the coming year the officers are: President, Wilfred Evans, Summerland; Vice-President, Bill Coventry, Kamloops; Secretary, Dick Thomas, Kelowna; and Treasurer, Ernie Butchart, Kelowna. The Directors are: Bert Berry, Summerland; Bob Stewart, Kelowna; Ron Corbet and Dick Flavell, Vernon; Mrs. Stalker and Mrs.

Hamer, Revelstoke; Bill Worsfold and John Chisholm, Kamloops; and Norman Brooks, Grand Forks.

The unit meets every second Sunday afternoon and the next is in Summerland on Jan. 9th. A C B L — Los Angeles announced that the Okanagan Unit with 220 members had exceeded in numbers any previous unit for membership in its first year of operation.

Two unit championships were held during the year. One, the unit team of eight, played 40 boards with Kelowna and won first. Second was South Okanagan and third was Kamloops. The open pair's championship of the unit was won by Mrs. McLeod and McDonald of Kamloops. Second was Bob Stewart and Mrs. Pearl Forsythe of Kelowna and third was Wilf Evans and W. E. Hepperle of Summerland.

Two members of the Okanagan unit attained National Masters Cards having 50 master points. They were Don Phelps of Kelowna and Bill Hepperle of Summerland.

Two large tournaments are to be held by the unit. They are Sectional tournament in October 1966 which will last 4 days with about 300 players in attendance, and the finals for the B.C.-Alberta playoffs for the selection of the Canadian team to go to the World Olympiad.

scheduled for May 1967 in Kelowna.

More than 100 men are presently working on the new Construction on the Queen Elizabeth Observatory atop road to the top of Kobau Mountain. The 12-mile paved Mount Kobau is expected to start shortly. highway is expected to be completed early in the spring.

## Kobau road construction employs more than 100 men

Construction of the road to the top of Mount Kobau is proceeding at a rapid pace with more than 100 men presently on the job. The \$1,386,910 road contract awarded to Peter Kiewit and Sons, Vancouver, is for a 12-

mile highway from the summit of Richter Pass to the top of Mount Kobau.

The new road leads to the proposed site for the Queen Elizabeth Observatory estimated to cost in excess of \$10 million. Kobau is also the site of a B.C. Forestry lookout.

Works crews are presently scattered from the bottom of the mountain to the top, with rock drillers, earth movers, caterpillars and other heavy machinery working on different sections of the new road.

The company is hiring as much local help as possible and several from the Oliver area and quite a number from Osoyoos have been hired by the construction firm. Bob Higgins, project engineer estimates that one-third of the work crew consists of men from the district.

Rumors that exorbitant union dues are being charged are unfounded according to Oliver Chamber of Commerce president-elect Alex Gough. He told the Chronicle that labourers paid a \$29 initiation fee.

Engineers report that the 12.2 mile road will wind up the side of the 6,200 ft. mountain with no more than a 7 per cent grade. The grade must be kept to a minimum to allow for the transport of heavy equipment to the site of the telescope.

The telescope will be located atop of a plateau approximately eight miles long and two miles wide. The government indicated that picnic grounds and parking facilities will be provided for tourists.

Mount Kobau was chosen over other sites in Canada because of the dry climate and because of generally clear skies and lack of industrial haze.

### SUMMERLAND UNITED CHURCH

Minister: Rev. P. K. Louie  
DEC. 25th 10:30 A.M.—Christmas Morning Family Service  
Sunday Worship Service 11 am

"Behold I bring you good tidings of great joy."

### 93 YEARS ON CHRISTMAS DAY

Mrs. W. W. Hemingway will be celebrating her 93rd birthday on Christmas Day with her family and friends at the home of Mr. and Mrs. George Dunsdon.

Christmas introduced in Germany by St. Boniface in 754 A. D. He is said to have converted to Christian use the decorated fir tree of pagan tradition.

"It Came Upon a Midnight Clear," written by Rev. Edmund H. Sears, Christmas 1848.

### Tired? Sluggish? Feel Better Fast

When you feel tired, sluggish, headachy, all dragged out—feel better fast with Carter's Little Liver Pills. Gentle, sure Carter's Little Liver Pills have been helping Canadians for well over 50 years.

Each tiny pill contains Carter's exclusive formula that has a very special action on your liver. This special action stimulates the liver bile. Keeps it flowing freely. Aids the functioning of your digestive system. Eases away that tired, upset, sluggish feeling. Helps you feel good again.

So the next time you feel tired, sluggish, headachy, take Carter's Little Liver Pills and feel better fast. Carter's Little Liver Pills, only 49¢.

### IAN HUNTER VISITING

Ian Hunter is spending Christmas with his folks, Mr. and Mrs. H. Hunter. He will be staying until the New Year.

May the true spirit of Christmas shine in your heart and bring you joy.

## SANTA AT SUMMERLAND

Here is Santa getting ready to hand out goodies to hundreds of Summerland children on Thursday afternoon. Assist-

ing him are Doug Campbell and Robin Wright (with back to camera). Joe Akitt was there as well but it is difficult to pick him out.

This very effectively decorated home of Mr. Don Hermiston was the best entry in the light-up competition this year

sponsored by the Summerland Chamber of Commerce.

— Photo by Herb Simpson

## Students win contest awards

Many students participated in the Fire Prevention Contest sponsored by the Summerland Fire Department. The awards were given out on Wednesday afternoon.

Fire Chief McLaughlan addressed the Trout Creek children and Fireman Joe Akitt the MacDonald School.

The following won a prize for art work or essays.

Deborah Ballantyne, Donna Langstroth, David Leardo, Eileen Nielsen, Ann Germain, Peter Steuart, Kevin Edge, Noni Keys, Irma Klux, Terry Morrow, Marjorie Wright, Nancy Akitt, Margo Brewster, Laurie Moore, Robin Brandon, Janice Impett;

Daryl Ask, Donna Gould, Sarah Davies, Ian MacIntosh, Eleanor Wouters, Nancy Berg, Monica Schaeffer, Bonnie Kraus, Susan Blystone, Janice Caldwell, Raymond Lenzl, Gail Abernethy, Cathy Minchin, Ja-

## Hundreds of children crowd around Santa at Memorial Park

Almost 400 children were greeted by Santa in the Summerland Park on Thursday afternoon.

The weatherman made it a little tough for the grand-old fellow in that there was no snow for his sleigh so he contacted Doug Campbell and he accommodated him with his "little red wagon".

Chocolate bars, candy canes and oranges were handed to youngsters from pre-school to Grade 4.

Another helper for Santa was the Summerland Business and Professional Services Association

## Buffet supper at Atkinson's

A buffet supper was held at the home of Mr. and Mrs. F. E. Atkinson on Boxing Day. The eleven guests were Mr. and Mrs. Art Crawford, Mr. and Mrs. Lionel Fudge, Mr. and Mrs. Francis Stuart, Mr. and Mrs. Fred Downes, Mr. and Mrs. Peter Beulah and Miss Dorothy Britton.

After the supper, all the guests enjoyed a few games.

## Council anticipates a slight surplus at the end of year

The last meeting of the year for the Summerland Municipal Council was held Tuesday morning.

It will be the last official appearance for Councillor Scottie Ritchie.

"There is no doubt that I was disappointed when I was defeated in the election," Ritchie said. "I have enjoyed my four years on council but am now looking forward to more leisure time—if I have any." "I like to think I have been some help but I feel that I possibly learned more than I contributed."

"Knowing you Scottie," Reeve Holmes said "you will still work with the community." Speaking for the council he said "it has been a pleasure working with you."

The Department of Municipal Affairs, in a letter, said the Regional district is expected to go into effect in June of 1966 and will be recorded with the Governor in Council shortly.

It will be known as the Regional District of Okanagan-Similkameen and the council will be made up from representatives within the municipalities including Keremeos, Oliver, Osoyoos, Penticton, Princeton and Summerland. Each municipality will elect their own representatives. It will take in School Districts 14, 15, 16, 17 and 77.

Reeve Holmes pondered about the value of holding a public meeting in Summerland

to explain the plan to the people, but council felt it would not be necessary.

"There will be no difference in our operation," Councillor Barkwill said, "except that they will take over the operation of our district planning." Barkwill is at present the acting member on the board for Summerland.

Decisions will be made by voting and one vote will be given for each 1,400 population. On this basis, Summerland would have three votes with its population of 4,500 to 5,000.

The by-law allowing a taxi stand on main street was cancelled.

Municipal Clerk Gordon Smith said he anticipates a slight surplus this year which will be carried over into 1966 operation. At the end of November there was \$1,200 in the machinery account, \$5,000 in the parks department and \$10,000 in the road budget but at the end of this month these figures will change but in any case these will be added to the next year budget.

During a more or less informal chat following routine business, Reeve Holmes said he felt that Summerland business people did well during December, some reporting the biggest December they have ever had.

After the usual Happy New Year greetings the business of government closed for another year.

## All this for only \$3.50 per week

W. C. Baker, Summerland, brought a menu in to the Review office which was offered to his father in a Winnipeg boarding house back in 1895, effective during the holiday season.

Apparently his father, C. C. Baker was paying the sum of \$3.50 per week for room and board and if the menu is any criterion, it must have been one of the finer boarding houses in Winnipeg.

The stock is of very fine quality, edged in gold.

Offered was a wide variety including British Columbia salmon, Sweet Bread à la Metro, Rabbit à la Parisienne, Peach Fritters à la Glass, Saddle of Mutton, Suckling Pig, Goose à la Canadienne and Venison with Wine Sauce.

Possibly Mr. Baker Sr. had Black Bear with red current jelly or Willow Duck with port wine sauce. There was Pigeon on toast as well as the native Prairie Chicken with bread sauce. Of course the English Plum Pudding with brandy sauce was there and in addition to Christmas Cake there were Ladies' Fingers and Ginger Snaps.

There were no prices shown on the menu, but if you get this choice for the special occasion as well as twenty other

meals during the week it sounds like a bargain for only \$3.50 per week plus room. If you ate as high on the hog these days, the tab would be closer to \$350 for the week and you would have to sleep on the street. You couldn't afford to buy a bed.

## School talent tremendous at Christmas program

Wednesday night was big in the Summerland Schools.

Two stages were used to accommodate 550 people attending. One in the auditorium and the other in the gymnasium with Principal John Tamblin acting as Master of Ceremonies in the gym and W. R. Chalmer in the auditorium.

Taking part in the evening were the drama club, two choirs and three bands.

The Drama Club presented "The Christmas Bug" in the auditorium with a cast con-

## Summerland organizations join forces to help others

Summerland organizations, church groups and the Summerland Welfare Department helped to make a brighter Christmas for some of the less fortunate again this year.

Thirty-nine hampers were delivered last week to homes in the municipality by municipal officials and members of the various organizations.

In addition to this, some meal tickets were given in the true Christmas spirit.

## Not too merry for the Marshalls

It was not a very merry Christmas for Dr. and Mrs. Jim Marshall.

They were on their way to Prince George to spend the festive season with their two daughters, and left Summerland about 5 a.m. Wednesday morning.

They struck black ice five miles from Falkland and the car went completely out of control.

They were both thrown out of the car. Jim onto the road and Mrs. Marshall across the ditch and into a field. It was dark at about 7 pm.

Mr. Marshall got up dazed, completely in the dark, and couldn't find his wife who was knocked unconscious.

A truck came in a few minutes and he located Mrs. Marshall in the field.

They were taken to the Vern

on Hospital. Dr. Marshall suffered a mild concussion and bruises all over his body.

Mrs. Marshall needed stitches to cuts to the head, she cracked three ribs and there was a fear of a cracked bone in her neck, plus multiple bruises.

Jim was released in 24 hours and he is staying in a Vernon hotel, but his wife is still in hospital.

The car was badly smashed but fortunately they were able to salvage their personal belongings and Christmas gifts.

## Bridge players turn out in full force on Monday night

Seventeen bridge tables were in play at the Rosedale room of the Legion Monday night, and it was followed by a little Christmas party.

Due to heavy roads, the Kelowna players decided to play it safe and chartered a bus.

Play was split in two sections, red and green. Here are the results.

RED — North-South: Jack Lockie and Bert Berry; Bob Stewart and N. Andreen. Tied were Mr. and Mrs. Jess Ford and Bill Hepperle playing with Ann McClymont.

East-West — Mrs. May Batt and Geo. Mussalem; Ernie Maynard and Mrs. Edith Burns;

Vera Crosby and Olga Bowman; John Dunn and M. Tucker.

GREEN — North-South — Jack McPherson and N. Ullman; Mr and Mrs Ray Stewart; Kay Moyle and Bill Mack Claine; Mr. and Mrs. Hilton Hughes.

East-West — Mr. and Mrs. William Gartrell; Marg Berry and Peggy Lockie; Mr. and Mrs. F. Scribner, Vancouver; John Paslawski and Warren Palmer.

## Christmas report from Parkdale Place

In the latter part of December the guests in our Home were busy weaving a tapestry that was Christmas. It was woven upon a loom of religious beliefs centuries old, and upon threads symbolized in the Birth of a Babe.

Into this fabric of Good Will the weaves worked mellow threads for family customs, brightly colours for childrens delight, the blue of the Christmas star of Bethlehem, the magic of winter's snow, the tinkling of bells, the joyous voices of carolers singing the fervent prayer of Peace on Earth, Good Will toward all men, regardless of race, colour and creed.

Christmas in Our Home was celebrated in beautiful surroundings. Outdoors the coloured lights were in harmony with those of our town and neighbouring homes. Inside, Our Home was beautifully decorated by the Ladies of the Baptist Church. As we looked at the trees so prettily decorated in their sparkles and coloured lights, our thoughts

wandered back to the days when our families were young all doing their share to make their homes places of beauty and happiness.

Our Christmas Day celebration, Dec. 24th was the happiest event of the holiday season. Our dining room looked lovely as we opened to find our place names at the two long tables decorated with small baskets of flowers.

We were pleased to have as our guests, Rev. and Mrs. Haskins, Mr. MacDonald, retired principal of the Summerland School and Mrs. MacDonald, Miss Dale, retired teacher, Mrs. J. McDonald, Mrs. M. Croese, guest of Miss Chambers. A wonderful dinner was served. At the conclusion, Mrs. McKonzie called on Mrs. Emery to

address the staff. They were heartily thanked for their kindness during the past year.

Miss Chambers, our senior guest, presented Christmas greetings to our Matron—Mrs. Elliott, Mrs. Bruce—to the members of our staff—Mrs. Parry, Mrs. Day, Mrs. Matsu, Miss Egloy, Mrs. Scouter who was welcomed after her serious accident. We wish her good recovery.

At a very happy get-together in the Lounge, each guest was presented with a gift from the members of the staff. We appreciated their kind thought.

Our gracious thanks to all the donors of beautiful plants and flowers and other gifts. Poinsettia plants from Gallops, Mrs. Nellie Walden, Mrs. May Campbell; azalia, Macil's; bouquet of mums from Super-Valu and from the Summerland School Choir; a lovely ar-

rangment of yellow mums and candles from Marjays; We were well remembered by the CGIT girls with flowers, prettily made baskets containing home-made candy. These were placed on our dining room tables,—finally a large box of goodies. We were kindly remembered by the Summerland Women's Institute—a box of the finest candy. A special thank you to Mrs. D. Rutherford for the flowers sent in memory of her late husband.

Many choirs came to sing the beautiful carols of the Christmas season—the C. G. I. T., Trout Creek, and Miss Reeves' mixed school choir. Thank you all.

Several of our guests passed another milestone of life this month—Mrs. Ashbee, Messrs Wood Fosbery, Lawler, Ellis. May God give to each one His special blessing—G o o d

Health. A serious thought as we enter 1966.

AT THE GATE OF THE YEAR

I said to the man who stood at the Gate of the Year, "Give me a light that I may tread safely into the unknown". And he replied "Go into the Darkness and put your hand into the hand of God. That shall be to you better than light and safer than a known way."

This is my last Parkdale Report. I leave Summerland to reside in the newly built Catholic Home in Vancouver. I thank my readers for their messages of appreciation.

May the New Dear bring to you all God's choicest Blessings.

— AUGUSTA EMERY

## Senior Citizens enjoy Christmas songs by Summerland choirs

Guests of Parkdale Place enjoyed the singing of two school choirs last week.

The choir at the Trout Creek School under the direction of Miss Evans entertained the staff and senior citizens at the home on Wednesday evening. Principal Mr. Ray McNabb attended with the children.

In the morning of the same day, Miss Faye Reeves brought her 50 voice choir over, and on this occasion they all joined in with a sing song.

Principal Mr. John Cooke, who was with the group told the Review "It is always a highlight of my Christmas to hear the children sing at Parkdale Place and the guests appreciate it so much."

## Mrs. Frank Tilbe wins Hawaii trip

Mrs. Frank Tilbe has hit the jackpot once again. This time it is a trip for two to Hawaii. Mrs. Tilbe makes a hobby of entering various advertised contests and has won many items down through the years, but this is one of the biggest prizes.

She entered an anti-freeze contest this time. She wrote a "25-words-or-less" jingle about the product and its new container.

She was notified two weeks ago that she was among the winners and was awarded a pair of skates and that her entry would now go on to compete for the big prize. She came first over all other B. C. entries

Four trips were given away in the same manner, one each from Manitoba, Saskatchewan, Alberta and British Columbia.

A representative of the sponsoring company indicated he will contact Mrs. Tilbe before the new year to make arrangements for the trip. They expect to go in January, possibly with the other winners. It will be their first trip to Hawaii.

Husband Frank has played the game too. Five years ago, he won a boat complete with equipment valued at \$3,000.

They will fly to Hawaii by OPA jet.

## Many enjoy Legion whist

The Rosedale Room of the Royal Canadian Legion was again the scene of an enjoyable evening when the first December Whist Party was held. The winners for the evening were: Ladies first, Mrs. Staberg; Men's first, Mr. J. Bryan; Ladies Consolation, Mrs. W. Herrington; Men's Consolation, Mr. C. W. Cook.

In charge of refreshments were Mrs. J. Gray and Mrs. M. Campbell. The centre of attraction at the supper table was a cake made in the form of a decorated Christmas tree made by Mrs. Gray. With its lighted candles it became a birthday cake for one of the players.

# EMPLOYERS

# Canada Pension Plan Deductions Begin Jan. 1st 1966

Employers must deduct contributions from employees who are aged 18 to 70 and paid at a rate equivalent to more than \$600 a year.

Contributions of 1.8% are payable on earnings of between \$600 and \$5,000 a year as set out in The Canada Pension Plan Contribution Tables.

Employers must match contributions deducted from their employees and remit the combined amount. Instructions for remitting are contained in The Canada Pension Plan Contribution Tables, sent to employers in November. If you did not receive these Tables, or if you have any enquiries regarding the Plan, contact your nearest District Taxation Office.

## The Canada Pension Plan

Issued by  
Department of National Revenue, Taxation Division  
by authority of  
The Minister, The Honourable E. J. BENSON

## Gov't thanked for assistance

The Summerland local of the BCFGA held a meeting in the IOOF hall last week. Much of the time was taken in discussion of the forthcoming aid as a result of last winter's freeze. Questions were submitted to president Eric Tait regarding making out forms and he answered all to the best of his ability.

The questions and problems were varied with a very wide scope, similar in nature to those asked of Administrator Ted Atkinson the previous Saturday in Penticton.

There were no pat answers to the questions but all were told by Mr. Tait and Mr. Jack Towgood an advisory board member, to make out the forms whenever in doubt. Tell your story and it will then be taken into consideration by the board.

Mr. Towgood even cited a case where a man had purchased an orchard one day before the bad one last winter. This would make it a little tough for him to get a 10-year average on his operation but the board is considering it and he would get assistance.

District Horticulturist addressed the group and said now is the time to obtain scions for bridge grafting. They should be kept at 35 to 40 degrees temperature in a dark place. His suggestion was to wrap them in burlap and place below frost in the ground or sawdus tand kept in the packinghouse cold storage department.

A resolution was passed thanking the provincial government for their co-operation in the mice control program just completed in Summerland.

## PUBLIC NOTICE

### RE: ZONING BY-LAW NO. 1016

PUBLIC NOTICE is hereby given that a public hearing will be held in the Municipal Office, Summerland, B.C. at 10:00 A.M. on Tuesday, January 11th, 1966, on proposed By-law Nos. 1073 and 1076 to consider the following amendments to the Zoning By-law.

1. That Lot 3, District Lot 473, Group 1, Osoyoos Division Yale District, Map 1012 be rezoned from I-1, Industrial Distribution to R-1, Single Family Residential.

2. That Lot "A", District Lot 473, Osoyoos Division Yale District, Plan 3876 be rezoned from I-1, Industrial Distribution to R-1, Single Family Residential.

3. That Lot 1, District Lot 473, Osoyoos Division Yale District, Plan 5546 be rezoned from G-2, Small Holdings to R-2, Single and Two Family Residential.

All persons whose property will be affected by such Zoning By-law may appear in person or by Attorney of by Petition. A copy of proposed By-law Nos. 1073 and 1076 and plans may be seen at the Municipal Office.

Dated at Summerland, B.C. this 21st day of December, 1965.

G. D. SMITH,  
Municipal Clerk.

Summerland Review — 3

**New Year Comments . . .**

It is six months since your editor and family arrived in Summerland. It seems much longer. Not that time has dragged but you have made us feel so much to home here that it seems we should have been here longer to have such a feeling of belonging. And so much has happened — all for the better — we feel, and it is our New Year's wish that you also feel the same way.

Then there is the CBC who can make life so boring and disgusting. We don't mean to dwell on Parson Norm's subject and steal his thunder about the program "Festival" but there should be a law about such programs monopolizing the picture-waves. It is obvious they don't care about audience ratings. It is also obvious the program doesn't rate as they don't have a sponsor for the trash. Then there is "Seven Days" that gets plenty grey at times and continues on with part interviews, showing only what they themselves wish to convey. That's public ownership.

It was a ball to assist Santa with the

Christmas Treats on Thursday afternoon. Never saw such a well behaved group of children. Enjoyed every minute of it.

As the door closes on the old year we feel very thankful. To the teachers of our children — and the encouragement of our friends. To the Municipal Council, the School board and their staffs for their co-operation in providing us with information and background. To the presidents of the various organizations and their members for patience and understanding. To the advertisers for their support and the subscribers for their interest. To those who phone in news and those who write up their club reports we thank you for your consideration. The carrier boys and girls have done a fine job and the Post Office staff are always helpful and kind. Special wishes to the senior citizens in Summerland, pioneers not only of B.C. but starters are represented here from all over our great country. Thanks also to the staff at the RCMP detachment who are always willing to cooperate.

HAPPY NEW YEAR, young and old.

**Christmas theme at library**

The Summerland Branch of the Okanagan Regional Library is bright and cheerful with Christmas decorations made by the Summerland Art Club during their Friday morning workshops. They have also provided and kept up a constant display of local and well-known artists throughout the year.

The library will be closed on Christmas Day and on New Year's Day. The hours will be the same for the other regular library days.

The library staff would like to wish one and all a very merry Christmas and a happy New Year. Come in and see them and have a look at the

lovely work of the Art Club at the same time.

LET'S GET NEWSY . . . The Old Age Pensioners Association held their annual Christmas party at the IOOF Hall last Tuesday. A program of Christmas carols was organized by Walter Cook with all the members joining in.

**LET'S GET NEWSY . . .**  
Mr. and Mrs. Garry Matkovich of Calgary are visiting relatives over the holiday.  
★ ★ ★  
Mr. and Mrs. Walter Charles and Ruth of Edmonton visited relatives and friends over the festive season.  
★ ★ ★  
Miss Heather Bergh of Edmonton, spent Christmas with her family. Marjorie Johnson also of Edmonton was home for the holidays.  
★ ★ ★  
Miss Sigren Meierhofer of Calgary was home with family and friends for Christmas.  
★ ★ ★  
Home for the holiday season are Mary Morgan, Margaret McCuaig and David Lane.

**BIRTHS**

Members of the St. Stephen's WA served coffee to the congregation at a social hour following the service of the nine lessons Sunday, Dec. 19.

Mr. and Mrs. Clarence Adams have returned from a short visit to Vancouver

At the annual gathering of the Summerland Baptist Church congregation at the home of organist Miss Ruth Dale, those present autographed a copy of the church bulletin to be sent to Miss Magda Wouters in Holland. Miss Wouters recently announced her engagement. The wedding is to take place in April.

Mr. Bill Lott from Kelowna will be spending Christmas with his grandmother, Mrs. H. K. Lott of Parkdale Place, and with other relatives

# A Happy New Year

By Rev. N. Tannar  
How words and phrases become empty sounds devoid of meaning!

To wish you 'A Happy New Year' means a concern and interest in your well being, it is in fact a prayer, or rather, it was, but we have drifted a long way from that original state.

It is New Year and time for those good resolutions once again. Maybe we have grown cynical about New Year resolutions, but there is a place and need for them in any life. Is not life but trying a little harder to improve oneself and to leave this world a little better from our relationship with it? To do it we need encouragement and help. We need meaning in our words again.

When we say "Good bye" we are saying "God be with you," and just as 'A Happy New Year' has become a saying at this time, so we have also our prayers and praises to God sink into vague, lazy, mere feeling.

It is time enough that there can be wordless prayer, silent adoration, blissful meditation; but lets make no mistake about this: our love for God, like our love for anyone else, feeds and thrives upon oral expression.

"O come, let us worship, and fall down, and kneel before the Lord our Maker," says the psalmist. His soul is filled with all goodness and satisfaction when his mouth praises God with joyful lips. Call this a psychological or a theological truth, as you will; but at least self is truly itself when directed away from self to God in prayer and praise.

## RESIDENT PASSES TUES.

Sympathy is extended to the Jack Gowans family. Mr. Gowans passed away suddenly Tuesday morning.

## LET'S GET NEWSY

Attending the University of Victoria and home for the holidays are Gloria Tillbe, Dennis Lackey, Trudy Gartrell, Helen Liebert, John Grasley, Jeanette Storey; from St. Joseph's Hospital, Victoria, is Evelyn Pelletier.

Mr. and Mrs. Terry Bradley were visitors in Mt. Vernon, Wash. on the weekend.

Other visitors in Summerland over the Christmas week-end were: Mr. and Mrs. Nels Larsson, Victoria; Mr. Allan Reid and his fiancée Miss Kathy Medd, Edmonton; Mr. Bob Reid, Vancouver, and Mr. Doug McCall, Saskatchewan visiting his parents Mr. and Mrs. Sam McCall of Lower Summerland. Also visiting in Summerland were: Mr. and Mrs. Fred Trussell and Mr. Roger Blagborne, Vancouver; Mr. Bob Madsen, Austin, Texas; Breen Bergstrom, UBC; Brian Parish.

Mr. and Mrs. Tom Fisher spent Christmas with relatives in Salmon Arm.

Heather Geddes spent the holiday in Quesnel with her brother and family.

Mr. and Mrs. Walter Wright spent Christmas day with their sister and family in Kelowna.

# Covered wagon brought old-timer

A number of friends dropped in at the Fred Gartrell home on Wednesday to wish him well on his 86 birthday.

It was celebrated complete with all the trills including a birthday cake loaded with candles.

Like Walter Wright puts it,

## Police report quiet Christmas

The Summerland detachment of the RCMP report a quiet Christmas on the highways and streets of Summerland.

Although the road conditions were far from good due to a heavy fall of snow, there were no accidents reported and traffic behaved well.

There were no liquor infractions for sure, but one could result from an investigation they are not proceeding with.

There were only two accidents in all during December with the latest one taking place on the 19th.

Ian Dale Stewart of Penticton was proceeding south on Highway 97 at the Bay View Motel, three miles south of Peachland. He hit an icy spot in the road, lost control and rolled onto the motel lawn. Damage to his car was \$400. There were no injuries and no charges were laid.
