## WAS PIONEER IN BUSINESS

### Oldest Merchandising Company in Summerland Goes Into Liquidation.

The Summerland Supply Company, the pioneer commercial concern of the community, will soon be no more. At a meeting of the shareholders held last Thursday night it was decided to go into voluntary liquidation and W. C. Kelley was appointed liquidator. As announced in our advertising columns, a meeting of the creditors of the company has been called, and just what course the winding up of the business will take will depend on the action at that meeting.

The Summerland Supply Company, Limited, was organized by J. M. Robinson and associates when he, as manager of the Summerland Development Co., opened up this territory for settlement. Later, the control of the business was acquired by A. Stark.

The company survived the trying years of development when many accounts had to be carried from year to year, but it was not able to pull through the war period in a healthy condition, and its affairs are such that the shareholders consider it best to wind up the business.

## PREPARING FOOTINGS OF STORAGE BUILDING

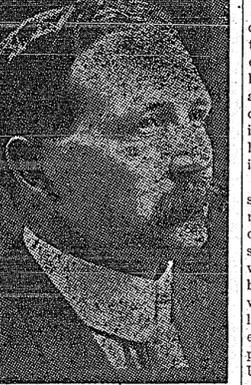

A great transformation is rapidly taking place on the site of the new storage building, an increasing gang of men with materials being busily at work preparing the foundation for the hollow tile walls. A pile driver is driving piles thirty feet into the shore of the lake, and carpenters are at work making the forms for the concrete work. Within a few weeks a considerable advance should have been made in the erection of the building.

A student in zoology pinned together a grasshopper's head, a cricket's body and a butterfly's tail. To fool his professor, he asked: "What kind of a bug is this?"

Prof.: "Did it make a humming sound when you picked it up?" Student: "Yes."

Prof.: "Then it must be a hum-bug!"

## MUCH IN THE PUBLIC EYE.

Mr. J. A. Maharg, who has been staunchly defending the rights of the West in the Dominion House. He will resign his seat at Ottawa in the near future to accept a seat in the Saskatchewan government on the invitation of Premier Martin.

## Next Week's Work In The Orchard

By R. H. Helmer. As soon as seeds are well up run the hand cultivator down the sides of the rows with the 'weeder' attachment on. This kills the young weeds and the centres can be done by horse cultivator. Then irrigate as soon as necessary. Corn can soon be planted, both for fodder and table. Where fall vetch and rye have been put in for cover crops for spring ploughing, the time to plough is near and in some cases, quite here. Do not let the crop get hard and stalky, as it then takes more moisture to rot it and it does not incorporate with the soil as readily. Thinning time will soon be here; be prepared and start early. Plantings of peas can still be put in.

## HOSPITAL OPENS THURSDAY 26

### Hon. J. D. McLean Invited To Formally Open Local New Institution.

That the opening of the new hospital will take place on the 26th, of May, was the decision of the hospital board at its last meeting, when it was arranged to invite the Hon. J. D. McLean, whose department at Victoria has supervision of the hospitals, to attend and formally open the new institution. Mr. J. W. Jones, M. L. A. will also be asked to take part in the ceremonies.

It is expected that everything will be done to make it a red-letter day in the annals of Summerland, and all citizens are requested to make it a point to visit their hospital on that day, when the Citizens Band will be in attendance, and the ladies of the Hospital Auxiliary will receive and serve tea.

## PROTEST AGAINST BUYING AM. BOXES.

A number of Okanagan fruit shippers have received protests from the Made-in-B. C. Campaign offices in Vancouver against the purchase of five cars of apple box shooks in the State of Washington. The Valley this year will use more than 400 cars of boxes, practically all of which will be made in the valley or province. It is pointed out, however, that the American box makers are asking only twelve cents per box, while the B. C. box makers have a price of eighteen cents.

## WESTERN IRRIGATION CONVENTION COMING

At a meeting of the executive of the Western Canada Irrigation Association with the city council and board of trade of Vernon, it was decided to hold the annual irrigation convention at Vernon on July 28th and 29th.

The convention will open on the Wednesday afternoon after the arrival of the train from the north, and the steamer from the south, and will close on Saturday at noon, allowing the delegates time to catch the afternoon train and steamer out.

It is estimated that from one hundred to one hundred and fifty delegates from points outside the Okanagan will be present, many of them coming from Saskatchewan and Alberta.

A dozen or more papers and lectures, dealing with subjects of vital interest to the orchardist and irrigation farmer will be presented by some of the leading authorities on the American continent; and subjects such as "Prevention of Frost in Orchards," "Effects of over-irrigation on Soils," "Irrigation District Problems," etc., will be handled by men who have made these questions their life study.

## Valley Visited By High Wind

### Reached Velocity of 60 for few Minutes

The Okanagan was visited on Monday night by one of the worst storms known to the old-timers. Between eleven and twelve o'clock the velocity of the wind reached sixty miles an hour. For that hour it made a record of fifty miles. Considerable damage is said to have been done in the Kelowna district. The roof of the new storage building at that place is reported to have been damaged and a silo blown down and a barn unroofed at the Aberdeen Ranch. The telephone and lighting systems were partly put out of business for a short time by the storm. No damage of any consequence is reported here, with the exception of the blowing down of a few poles.

erman, Ariette Biagioni.

## NOTED PUBLIC WOMAN TO MAKE PROLONGED STAY IN B. C.

Mrs. Emmeline Pankhurst who intends to make her home in this province for a considerable period. She adopted two war orphans and is on her way to join them at Victoria.

## K. V. R. to EXTEND to SOLDIER LANDS.

The railway wharf at the southern end of Dog Lake has been finished and D. C. Coleman, vice-president of the C. P. R., is credited with the statement that the K. V. R. will start construction work soon on the line from that point south to the new Fairview-Osoyoos irrigation project. Car barges on Dog Lake, with the strmr. "York" for motive power, will give connection with the railway spur at the head of the lake.

## OBITUARY.

John Hartley Heaton died in the General Hospital, Edmonton, on Thursday, May 7th, of cancer of the throat.

Mr. Heaton was for many years cashier in the city treasurer's office at Moose Jaw, Sask. He visited his daughter, Mrs. J. B. Thompson, here, for two months last fall. He leaves three other daughters and one son.

Plan to spend May 24th. at Crescent Beach. It's going to be a big day. Look for program next week.

## CONFIDENT CAN SATISFY COUNCIL

### Chiefs of Power Company Visitors to Summerland Today

J. Lorne Campbell, manager of the West Kootenay Power and Light Co., and Mr. Gibson the company's chief electrician, were visitors in Summerland today. They made brief calls at the office of the reeve and at the municipal office. They are meeting the Penticon municipal this afternoon or evening. Mr. Campbell expressed to the reeve his opinion that there would be no difficulty in making a mutually satisfactory agreement to extend the power line to Summerland, once the line is built as far as Penticon.

## ARMSTRONG WOMAN TAKES OWN LIFE.

Armstrong.—Returning to the house after feeding his stock, Samuel Reid, a rancher living near here, found his wife dead from an apparently self-inflicted wound. Mrs. Reid was very highly esteemed for her many excellent qualities. She had been depressed by illness and several recent deaths in the family. Her son was accidentally shot dead some years ago and her daughter and grand-daughter died of diphtheria on the same day within recent years. She was sixty-two and is survived by one son, one daughter and her husband, who is one of the pioneers of the district.

## DISPENSES WITH PUMPING LOSS

### Municipality and Trout Creek Water Community Agree. On Transfer Terms.

The Evans and adjacent properties at Trout Creek Point, heretofore irrigated by the Municipality, will be taken over by the Trout Creek Water Community, and all of Trout Creek Point will henceforth be under the one local system. Arrangements to this effect were concluded at the regular meeting of the municipal council on Tuesday, when the clerk was instructed to have the proper contract drawn up for the signature of both parties.

For several years that portion now watered by the municipality has been irrigated at a considerable cost in excess of revenue. To save this annual loss, the municipality will turn over to the Water Community the existing flumes and pipe line, now a part of the pumping system serving the lands concerned, and will do certain work in re-locating the pipe and altering the position of some of the flumes. In addition to fluming and piping turned over, the municipality will do work not to exceed in cost \$522.

We understand the Water Community has ordered additional pipe and that the alterations will be carried through at the earliest possible moment.

## RED CROSS ACTIVITIES

### World Organization for Benefit of Humanity

In December, 1918, with the approval and endorsement of the governments of the five great powers, Great Britain, Italy, Japan and the United States, a committee of their Red Cross Societies was constituted "to formulate and propose to the Red Cross Societies of the world an extended program of Red Cross activities in the interests of humanity."

As a result, a League of Red Cross Societies is organized, and in addition to the five powers already mentioned, it now includes in its membership twenty-six of the other civilized powers of the world.

This league was created to organize and stimulate throughout the world Red Cross peace activities; establish close cooperation between all Red Cross societies; fight disease and spread health; develop existing Red Cross societies and build up new ones; serve as universal clearing house for Red Cross work in peace time.

It has directed and developed anti-typhus campaigns in Eastern Europe; organized membership campaigns for Red Cross societies; instituted nursing services; created public health scholarships; sent out missions to study means of relief. It is organizing a world campaign against communicable diseases; promoting child welfare; training public health nurses for service where most needed; building up in both hemispheres the Junior Red Cross; spreading public health propaganda through publications, films, lectures, etc.

It will enlarge the field for Red Cross work; mobilize relief workers in case of national calamities; keep Red Cross societies in close touch with one another; ensure the universality of the Red Cross; create a new sense of human fellowship.

For the first time in its history, therefore, civilized humanity as a whole, is declaring relentless warfare against disease, famine and the other devastating forces which are working for its downfall. In this fight the League of Red Cross Societies serves as general headquarters to direct the campaign.

## THE SCHOOL BUILDING BYLAW.

Tomorrow, the ratepayers of Summerland are asked to give their assent to a bylaw authorizing the borrowing of thirty thousand dollars for school purposes. It is the duty of every citizen to record his vote on this most important question.

The schools have long been overcrowded, making it impossible to carry on the work of teaching efficiently. The health of the children has been constantly menaced by the poor ventilation. The High School, crowded into very unsuitable quarters, is placed at a very great disadvantage, in competition with other schools of the Valley.

Summerland is a growing district and its school population is rapidly increasing. These, together with many other facts are arguments in favor of a large vote being polled for the bylaw.

It should be borne in mind also that the school board has been wrestling for considerable time with the problem of school accommodation and the decision to erect an eight room building at a cost of \$35,000 is the most economical that could be devised, consistent with the actual needs of the district.

It is to be hoped that every citizen entitled to vote will mark his, or her, ballot in favor of the bylaw tomorrow.

## UNDER THE HANDICAP OF THE STRIKE

Absenting himself completely from his office desk and unavoidably neglecting his usual routine business, the editor of The Review has been acting as amateur linotype operator and general printer, and by dint of much hard work and very long hours, and with the assistance of other amateur help, has succeeded, with this issue, in getting out a second edition under strike conditions. We expect to have professional help, beginning the first of next week, and within a short time to have our plant fully manned and operating as usual.

Wethank our many customers and friends for their indulgence and consideration, and are confident that all will overlook our shortcomings and mistakes during this distressing period. It has been absolutely impossible for us to write up and set up the report of the regular meeting of the municipal council. We trust this will be equally as good reading next week. Much to our regret, we have been unable to get into type much copy from regular correspondents and casual contributors.

## THE ORIENTAL IMMIGRATION PROBLEM

Recently Hon. S. F. Tolmie, Minister of Agriculture, declared that Canada, in British Columbia, had a similar Oriental immigration problem to that of the United States, in California, and that there was need for taking steps that would assure the control of this immigration by the Canadian people so that there would not be admitted into Canada elements which could not be assimilated. As Canadian citizens, Orientals were not desirable, Dr. Tolmie emphatically told Eastern Canadians. They did not assimilate with the Anglo-Saxon; did not, in general, as settlers, come up to the Canadians' standard of living, and almost every cent of profit they made in industry was sent out of the country.

These aspects of the Oriental problem are discussed by Dr. S. S. Osterhout, Superintendent of Oriental missions for the Methodist Church, in the current number of the British Columbia Monthly. He would insist that Chinese settlers in Canada should observe the ordinary laws of sanitation and hygiene, adopting methods of life compatible with Canadian ideals and customs. To this end he advocates a vigorous and persistent law enforcement, not spasms of inconsequential fines, and an adequate constructive social program, in this connection emphasizing the value of not more missions but outstanding social centres.

These and other suggestions that have been put forward from time to time to raise the standard of living and conduct of the Oriental settler in Canada, says the British Columbian, mean additional grants from the provincial treasury. There is a difficulty here, continues that journal, with general educa-

tional requirements so much in need of increase in money grants. It has been suggested that the Dominion could very properly vote a special appropriation for citizenship work among Hindus, Chinese and Japanese. Since 1904, when the Chinese head tax of \$500 was imposed, there has been taken in by the Dominion \$8,540,046, and some proportion of this, it is claimed, should go to special educational work among the Orientals. If this were done, there could be no objection to the continuance of the head tax. It would not be an insult to the New Republic or to Japan even, as an educational or citizenship tax.

## CORPORATION OF THE DISTRICT OF PEACHLAND

PUBLIC NOTICE IS HEREBY GIVEN to the electors of the Municipality of Peachland that I require the presence of the said electors at the Municipal Office, Peachland, on Monday the 23rd. day of May, 1921, at twelve o'clock noon, for the purpose of electing a person to represent them on the Municipal School Board as a trustee.

The mode of nomination of candidates shall be as follows:-

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and two p. m. of the day of the nomination; and the said writing may be in the form numbered 5 in the Schedule of this (Municipal Elections) Act, and shall state name, residence and occupation or description of each person proposed, in such manner as sufficiently to identify such candidate, and in the event of a poll being necessary, such poll will be opened on the 28th. day of May, 1921, at the Municipal Office Peachland. Of which every person is hereby required to take notice and govern himself accordingly.

The qualification for School Trustee shall be any person being a British subject of the full age of twenty-one years actually residing within the Municipal School District, and having been for the three months next preceding the day of his nomination the registered owner, in the Land Registry Office, of land or real property situate within the Municipality of the assessed value, on the last Municipal or Provincial assessment roll, of two hundred and fifty dollars or more over and above any registered judgment or charge; or being a homesteader, lessee from the Crown or pre-emptor who has resided within the Municipality for the space of one year or more immediately preceding the day of nomination, and is assessed for five hundred dollars or more on the last Municipal or Provincial assessment roll over and above any registered judgment or charge; or being a homesteader, lessee from the Crown, or pre-emptor who has resided within the Municipality for a period of one year immediately preceding the nomination, and during the remainder of said year has been the owner of said land, of which he formerly was a homesteader, lessee from the Crown, or pre-emptor, and is assessed for five hundred dollars or more on the last Municipal or Provincial assessment roll over and above any registered judgment or charge, and being otherwise qualified by the Public School Act to vote at an election of school trustees in the said School District.

Given under my hand at Peachland, this 12th. day of May, 1921.

## CLEAN COOLING SYSTEM.

This is the time of year when it is well to remember the good old method of loosening scale that has formed in the cooling system. Six pounds of washing soda dissolved in five gallons of boiling water is the correct formula. Pour this solution in the cooling system and allow it to remain for a day, then drain and flush the system out with clean water and refill.

Hope is a key with which ambition is wound up.

## WASHING RULES.

The car should never be washed in direct sunlight. If the operation is not carried out in the garage the vehicle should be in the shade while being washed. The direct rays of the sun striking on water causes heating, which tends to dull the finish. In the same way the hood should never be washed when it is hot, as directly after the run.

Some Business Enterprises Are in the 'Wetted Clay' Stage!

"No man ever wetted clay and then left it, expecting that there would be bricks by chance and fortune."  
—Plutarch.

STORES do not prosper by chance and fortune, either. The good store, before it is adequately advertised, is in the wetted clay stage of brick-making. The materials are there—but the "making process" must be followed to its conclusion.

—For a successful store is a creation, whose status must be first reached and then maintained THROUGH ADVERTISING.

—As with a newspaper, the store must be constantly made anew. Every day brings a new task of service—an imperative summons to greater effort. Last week's value-giving may have made many new friends—these must be held through this week's value offerings, and these must be ADVERTISED, that the new friends and the old may BE POSTED.

—The good store, the good business enterprise of any sort, will never really 'arrive' until ADVERTISING has placed it in close touch with its public—has carried its message, has MADE KNOWN ITS APPEAL FOR PUBLIC FAVOR.

# IMPORTANCE OF EARLY CULTIVATION IN THE ORCHARD

W. T. Macoun, Dominion Horticulturist.

If a cover crop has been left over the winter in an orchard it should not, as a rule, be allowed to grow in the spring until there is a good crop to plow under, especially in districts where droughts occur, but the land should be plowed as soon as it is dry enough to work, not waiting for the plants to grow up; thus much moisture which could otherwise be transpired by the leaves of the plants will be saved and the chance of suffering from drought lessened.

A good setting of fruit depends very much on an ample supply of moisture in the ground at blooming and setting time, and if there should be a drought after a heavy crop of clover or vetch has been plowed under late in the spring, conditions will not be at all favorable.

After the land has been plowed, it should be kept well harrowed during the early part of the season to conserve the moisture as it has been found that there is a rapid decrease of moisture unless the surface soil is kept loose. Early cultivation is desirable also because it is important to get the soil warmed up as soon as possible by letting the air in and so making conditions favorable for growth early in the season. The greater activity in growth there is in the early part of the season, the more likely is there to be a good set of fruit, especially on rather old trees where the flow of sap through the fruit spurs is not as free as in the younger trees, and if there are drying winds and a drought there may not be sufficient moisture to hold the fruit on the trees. An application of nitrogen on some soils has been found very useful in promoting greater activity of growth in the early season and so better ensuring a setting of fruit.

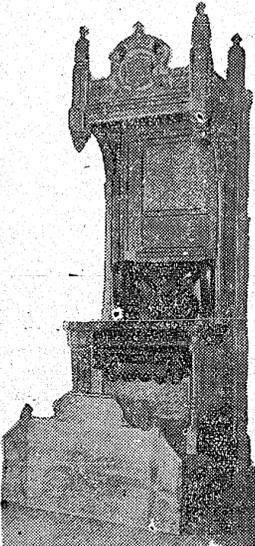

## Speaker's Chair for Canada

The Speaker's Chair which is being presented to the Canadian House of Commons by the Empire Parliamentary Association (United Kingdom branch) to take the place of that destroyed in the fire at the Parliament Buildings, Ottawa, in February, 1916, is now completed, and it is expected that the presentation will be made by the Right Hon. J. W. Lowther, speaker of the Imperial House of Commons, during the summer.

The gift has been tendered by the donors as "an abiding token of good will between both Parliaments," and has been gratefully accepted as such by the Canadian House of Commons. The chair is an exact copy of the Speaker's Chair in the House of Commons (designed by Pugin, who was Barry's assistant in the building of the New Palace of Westminster), which has been used since the occupation of the present chamber by the Commons in 1852. Like the original, the replica is a beautiful example of carved oak. It stands 13ft. 6in., surmounted by a canopy bearing the Royal Arms, which are carved in a piece of old oak taken from the roof of Westminster Hall. The seat of the chair is upholstered in green leather. The right jamb of the chair is inscribed:—"Manus justa naribus; memor et fidelis mens conscia rebus"; and on the left jamb is inscribed:—"Vocatus in precantio; libertas in legibus; hostis honori invidia; laus Deo."

The replica was executed by Messrs. Harry Hems and Sons, of Exeter, under the direction of Sir Frank Baines, of the Office of Works. It was recently on view at the rooms of the Empire Parliamentary Association, Westminster Hall, when the Speaker and a large party of Lords and Commons, were received by Sir H. d'Eville, secretary of the association, and Mr. T. Wilson, Clerk of Works and Deputy Keeper of Westminster Hall. Accompanying the chair is a framed roll of parchment, ornamentally inscribed as follows:—"This replica of the Speaker's Chair in the House of Commons, at Westminster, is herewith presented to the House of Commons at Ottawa by the United Kingdom branch of the Empire Parliamentary Association, comprising members of both Houses, as a fitting symbol of the great Parliamentary tradition which binds together the free nations of the British Commonwealth."

The scroll is signed:—"Birkenhead, Lord Chancellor; James W. Lowther, Speaker of the House of Commons, Joint President, Empire Parliamentary Association, United Kingdom branch, Westminster Hall." Formerly the Canadian Speaker, on leaving office, was entitled to take away the chair in which he sat as a perquisite, but this perquisite will now be lost. It is probable that there are some of the chairs of the old English House of Commons still in existence in country mansions. Dean Pelley, in his biography of Lord Sidmouth (Henry Addington), relates that in the dining-room of White Lodge, Richmond Park—a house given by George III. to Sidmouth in appreciation of his services

(By Courtesy of the C.P.R.) to the Crown—there were two old and bulky armchairs standing guard, one at each side of the fireplace; they were chiefly remarkable for their lumbering size and gaunt, inconvenient form, and visitors, always curious as to their history, were told they were the chairs of the House of Commons in which Addington had sat as Speaker. He originally possessed three of these chairs. He presided over the House of Commons in three consecutive Parliaments, and had the distinction of being the first Speaker of the Commons of the United Kingdom on their assembly on January 22, 1801, after the Union with Ireland. One of the chairs disappeared, Dean Pelley says, and the mystery of its fate was never solved.

The chair of the first Speaker of the first reformed House of Commons is in the Parliament House of the Commonwealth of Australia at Melbourne. It is the chair that was provided for the temporary chamber in which the House of Commons sat after the fire of 1834, and was taken away as his perquisite by Charles Manners-Sutton when he completed, late in 1834, his long term of office as Speaker. Manners-Sutton's son took the chair out to Melbourne when he was appointed Governor of Victoria, and presented it to the Legislative Assembly, whose successive Speakers sat in it for many years. In course of time another chair was substituted for it, and at the inauguration of the Commonwealth in 1901 it was placed—with a brass plate recording its history—in the House of Representatives for the use of the Speaker.

### DON'T BE A LOBSTER.

(Thrift Magazine.) We frequently hear used in a slang way, "He is a regular lobster." Now there may be more truth than slang in the expression, because there are a lot of human lobsters in the world. A lobster when left high and dry among the rocks has not enough energy to work his way back to the sea, but waits for the tide to bring the sea to him. If it does not come he stays right where he is and dies, too lazy to put forth any effort himself. Many men are stranded on the rocks of business. Instead of putting forth their own energies they are waiting for some grand friendly billow of good fortune to set them afloat.

### POINTED PARAGRAPHS.

Ice is one of the few things that are really what they're cracked up to be.

### A TIME FOR MODERATION.

"I believe in free speech!" exclaimed the vociferous man. "So do I," exclaimed Uncle Bill Bottletop; "so do I. But in one respect free speech reminds me of the free lunch in the old days. You hate to see a man making a pig of himself just because something's free."—Washington Star.

### CLEARLY ABSURD.

A Frenchman learning English said to his tutor: "English is a queer language. What does this sentence mean: 'Should Mr. Noble, who sits for this constituency, consent to stand again and run, he will in all probability have a walkover?'"

If a girl makes a mistake in marrying, it's either because she is too young to know better or because she is too old to do better.

## What's a Guarantee?

Our idea of a guarantee is that the manufacturer who gives one—which hasn't any tags and loopholes—believes in his product.

So much so that he stands ready to make good any loss suffered by the purchaser through defective material or workmanship.

It's mainly because of the guarantee that goes with them that we are selling and recommending Ames Holden "Auto-Shoes."

Of course, we know they give the cheapest mileage too—that they are dependable tires for any make of car, anywhere. But it's the guarantee that we talk about most. It's the straight and clean-cut, without time or mileage limits. It shifts our responsibility on to the manufacturer and he lives up to every letter of it. ## Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Cards without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvement of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stampage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

### PRE-EMPTORS' FREE GRANTS

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the late war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are retained for 5 years. Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920. SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING  
Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

# PIONEERS OF CLOVERDALE

The strongest of lures, the lure of the land, led one of the prominent business men of Winnipeg, Mr. Thomas Bulman, of the firm of Bulman Brothers, to forsake city life, about twelve years ago and take up residence in the Okanagan Valley. His ranch, "Cloverdale," has become one of the most interesting spots in the valley, comprising 3,000 acres of bench and bottom lands, presenting a fine idea of operations on a large scale in a fruit raising country, with everywhere evidence of initiative. It is situated in the Elliston district, sloping from the hills to the famous old Mission road that leads from Kelowna to Vernon. There are about 300 acres of orchard and thirty thousand fruit trees have been planted. Mixed farming is carried on, including stock raising, grain-growing, gardening, small fruit culture, orchard growing, chiefly cherries and apples and hay meadows.

There are ten miles of road built through "Cloverdale," sixty miles of fencing and the distributing system of irrigation water consists of about twelve miles of pipes and flumes. This system has recently been rebuilt in a permanent manner with vitrified clay pipe and cement diverting boxes. A trip to the head of the irrigation system was of particular interest when a fine view of the large tract was obtained. In the bright sunlight a lovely valley was unfolded — bright green meadows, dark green fields, orchard slopes, and pine clad hills.

During the war an evaporating plant was operated at "Cloverdale," and has become a permanent industry there. Carrots and onions were evaporated and sent as army supplies to the front while apples and the manufacture of tomato pulp are other industries that have been inaugurated. The yields from the valuable bottom lands average from 12 to 18 tons per acre, in onions and the yield of tomatoes is from 15 to

(1) View of a Cloverdale orchard, in the Okanagan Valley.  
(2) Fruit pickers at Cloverdale.  
(3) Horses on the Cloverdale Farm.

20 tons per acre, the canneries making contract with the growers for their output. The original owner of "Cloverdale" was Mr. George Whelan who now resides on a 200 acre tract nearby, and a visit to this fine British Columbia pioneer who, at 76 years of age, is enjoying life by reading, keeping abreast of the times and rich in experience, makes one realize that elderly men are one of the nation's greatest assets. Mr. Whelan arrived from England at the

time of the gold rush at Cariboo and made good in placer mining, afterwards losing what he had gained. He finally drifted down into the Okanagan country with "a square of canvas, an axe and a dollar," setting up a tent in two feet of snow, on Christmas eve, 1872, on the property that is now part of "Cloverdale." He acquired 320 acres of land, adding from time to time till 8000 acres was acquired and as the first farmer in the valley to grow clover, he named his farm "Cloverdale."

## Effect of Freight Rates on Business Exaggerated

Indications are multiplying that efforts of shippers and producers in many parts of the country to blame the unsatisfactory state of their businesses upon present freight rates are not going to pass unchallenged. The United States railroads are preparing to ask the Senate Committee on Interstate Commerce, when it takes up its inquiry into the railroad situation next month, to sift these statements to the bottom. Daniel Willard, president of the Baltimore & Ohio says:

"I have personally asked many large manufacturers and shippers of goods what effect it would have upon their shipments at the present time if freight charges were cancelled altogether, and if the railroads would move the tonnage offered free of charge. Invariably the answer has been that it would make practically no difference at all in the volume of business because people were not buying at the present time."

Chairman Clark has recently made public the results of his inquiry into the assertions of Florida fruit and vegetable shippers that freight rates are now so high that they cannot profitably ship their products to market. Mr. Clark found that shipments of Florida fruits and vegetables between November 1, 1920, and February 28, 1921, amounted to 28,420 carloads, while in the corresponding period of the year before, under the old rates, such shipments had been 26,886 carloads, an increase for the present season of 1,534 carloads.

The Railway Age asserts that on April 16 the average price paid producers for cabbage in Texas was \$7 a ton, the freight rate to Chicago was \$26.30, including refrigerating charges and Federal tax on freight charges, and total cost laid down in Chicago approximately 1,000 miles from the producing fields, was \$33.30 a ton. At the same time cabbage was selling at retail in Chicago at the rate of \$140 a ton. Texas onion growers received \$42 a ton, freight to Chicago was \$22.64 a ton, total cost of onions and freight \$71.64 a ton, retail selling price in Chicago \$200 a ton. For spinach Texas producers were receiving \$.55 a ton, freight rate to Chicago was \$30.36 a ton, total of producer's net and freight \$30.91 a ton, retail selling price in Chicago \$300 a ton.

Modesty is always triumphant in the end. At the Coast they are fighting for beer, and they may not get it. Grand Forks asked for water, and she is getting water.

The Highest Powered, Most Reasonable Priced, Snappiest Appearing, Four Cylinder Car in the Market To-Day.

Mr. T. B. Young,  
West Summerland.

Dear Mr. Young,

In reply to your letter enquiring as to whether I am satisfied with the Oldsmobile car you sold me recently, and my opinion of it, I can assure you that I am delighted with it. For power, for riding ease, for room and general comfort, as well as in detailed attention to finish, this car in my opinion equals, if it does not excel any car in its class of which I have experience, and is certainly ahead of some cars of decidedly higher cost.

At the present time I have only run some eight hundred miles, but the engine is satisfactorily "run in," and I have no doubt from its general behaviour that the car will stand up.

If this expression of my opinion is of any use to you, it is quite without prejudice, and you are welcome to use it in any way you please.

Yours truly,

## Passing Events: Social, Personal, &c.

Mrs. F. A. C. Wright reached home last Friday evening from a visit to England.

R. Pollock returned a few days ago from a short business visit to the Coast.

The forty Summerland Boy Scouts have been working hard for two months to put on a good concert at the gym. next Thursday night. Be sure to come and see it.

Principal D. J. Welsh and family this week moved from the Gartrell house, near the Methodist parsonage, to the Wellington Watson cottage, corner Shaughnessy and Ninth.

Mr. and Mrs. T. G. Beauvis left for the Coast on Thursday morning on a two weeks vacation, before the busy season sets in at his offices at the Fruit Union. It is expected that his new office suite will be ready for occupation by the time he returns.

The Playlet that the Scouts will put on next Thursday is called "The Psychic Story of the Pauper Natural." There will be an extensive athletic program and music.

K. S. Hogg returned a few days ago from Vancouver where he has been visiting his father, Rev. John Hogg, D. D. Mr. Hogg, sr. and his daughter, Miss Hogg, spent the winter with the Rev. A. P. and Mrs. Ledingham, of Vancouver, Mrs. Ledingham being another daughter of his. The reverend gentleman, who is over ninety years of age, accompanied by Miss Hogg, left for his home in Winnipeg, where they will remain for the summer.

Watch for Empire Day sports program next week.

Mr. and Mrs. Fowler, with their son, arrived in Summerland on Saturday's boat to visit their daughter, Mrs. H. S. Lewes. Mr. Fowler has held the position of postmaster in his home town, in Scotland, and is now superannuated by the Government for his long and faithful services in that capacity.

Watch for Empire Day sports program next week.

Although not definitely arranged, we understand that Wm. Ritchie is contemplating a short combined business and pleasure trip to Calgary when it is probable that Mrs. Ritchie will go as far as Banff, for a vacation.

E. H. Plant left this week for Banff, where he expects to spend a month or six weeks taking the cure for rheumatism, with, it is hoped, the best possible results.

Mr. and Mrs. S. A. McDonald have moved into their recently acquired cottage on Hospital Hill.

Major Hutton's property at the upper end of Prairie Valley has been sold by G. H. Inglis & Co. to a Mr. Tait, of Enderby.

Watch for Empire Day sports program next week.

Rev. James Dunlop will go to Peachland on Sunday next to conduct the regular service in the Baptist church.

Plan to spend May 24th. at Crescent Beach. It's going to be a big day. Look for program next week.

Mr. and Mrs. J. L. Crego took the boat on Wednesday evening for Penticton where they are going to reside for the present, Mr. Crego having sold his business here to Scott Darkis.

Watch for Empire Day sports program next week.

An interesting event occurred on Tuesday when a party of ladies met at the residence of Mr. W. J. Robinson, in response to an invitation by Mrs. M. M. Robinson to a quilting party in honor of her two granddaughters, the Misses Gwen and Marguerite Robinson, of Naramata., prospective brides elect. A very busy afternoon was spent, two beautiful quilts, made by Mrs. Robinson, Sr., being finished, after which refreshments were served by Mrs. W. J. Robinson.

Plan to spend May 24th. at Crescent Beach. It's going to be a big day. Look for program next week.

Raked the meadows, sweet with hay,  
You think this poem is a fraud?  
But, this was an Australian Maud.  
She measured out the butter with a very solemn air;  
The milk and sugar also; and she took the greatest care  
To count the eggs correctly and to add a little bit  
Of baking powder, which you know, beginners oft omit.  
Then she stirred it all together, and Maud Muller on a Christmas Day she baked it for an hour;  
But he never quite forgave her for

leaving out the flour. —Tit-Bits.

## ? WHY ? THE RED CROSS In times of Peace?

Despite the world-wide activities of the Red Cross since the close of the war, and the incalculable amount of good which it has accomplished in the intervening period, there are still many persons, uninformed, who somewhat wonderingly ask, "Why the Red Cross in times of peace?"

The mission of the Red Cross, as it is evidenced throughout the world today, is a twofold one: Post-war work and peacetime work. Briefly summarized, their activities, as applied to the British Columbia Division, are as follows:

### Post War Work

1. To continue and complete war work amongst soldiers still in hospital.
2. To maintain the existing workshop for disabled soldiers, and to increase the number of these workshops.

### Peace Time Work

1. To train and maintain Red Cross public health nurses for service in the rural districts, as well as in the sparsely-settled pioneer sections of British Columbia.
2. To provide emergency service and outfits throughout the Province for dispatch to and service at the scene of accident or disaster.
3. To relieve sickness among the needy everywhere and anywhere in British Columbia.
4. To promote Red Cross principles and practice amongst the youth of British Columbia—to enlist their sympathies and help, and to enroll them in the Junior Red Cross.

### WANTED - \$1.00

from every man and woman in British Columbia as enrollment fee in the British Columbia Division of the Canadian Red Cross Society.

### Motor Car Should Be Inspected Fully

Some of the Points Which Need To Be Looked After at this Season—Be Ready For Summer.

- A car that has been in storage with parts properly protected will need perhaps no more than attention to lubrication, the battery, tires, and a good cleaning, but the car that has been operated through the winter will in the majority of cases need a light overhaul. This work will cover a variety of operations, but usually the following work will be included:
1. Take up on main and connecting rod bearings.
  2. Remove carbon and grind valves.
  3. Clean gasoline tank, line, and vacuum tank.
  4. Clean and adjust ignition, inspect wiring.
  5. Inspect generator and starting motor and wiring.
  6. Clean cooling system, supply new connections and belt if necessary.
  7. Tune and test motor.
  8. Clean and adjust clutch.
  9. Adjust all brakes.
  10. Remove wheels, inspect, adjust and
  11. Inspect steering, remove excess play from post and knuckles.
  12. Tighten body bolts, fenders, remove rattles.
  13. Tighten spring shackles.
  14. Inspect driving pinion shaft and propeller shaft for play.
  15. Change engine oil, transmission and rear axle oil.
  16. Lubricate chassis.
  17. Recharge battery.
- The top, if of imitation leather, will need a coat of linseed oil. It surely needs a cleaning on the inside with soap and water to remove spots. The upholstery may require repairing in spots and treatment with neat-foot oil if of leather. If imitation

leather a light rub with olive oil will do. The side curtains will undoubtedly need new windows and a few fasteners may need to be replaced. The front of the radiator may be brightened by spraying it with a mixture of kerosene and lampblack; nicked parts will need brightening, and black parts with chipped paint will need a light coat of enamel.

#### THE DIFFERENCE.

A pessimist closes an eye, wrinkles his face, draws up the corner of his mouth and says: "It can't be done." An optimist has a face full of sunshine. He beams on you and says: "It can be done," and then lets Joe do it.

But a pep-ti-mist takes off his coat, rolls up his sleeves, goes to it and does it.

Mr. Gabb had been out at an all night poker game and was trying to square himself when he got home at noon the next day. He had a package under his arm. "Wouldn't you like to know what is in this package?" asked Mr. Gabb.

"I'm not a bit interested," replied Mrs. Gabb.

"Well, I bought something for the one I love best in the world," announced Mr. Gabb with a grin.

"What did you buy yourself—collars or neckties?" snapped Mrs. Gabb.

At least the minister who rehearses his sermons certainly practices what he preaches.
