

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 12, No. 50, Whole No. 671

SUMMERLAND, B.C., FRIDAY, JULY 15, 1921.

\$2.50, Payable in Advance

INDIAN RECORD ON TROUT CREEK

Subject of Investigation by Water Board. Municipality Interested.

CREEK FALLING

May Draw On Reserve Supply Next Week. Assessor Appointed.

At Tuesday's meeting of the Municipal Council it was decided, upon the recommendation of the water committee, to have the Municipality represented by Solicitor W. C. Kelley and Municipal Clerk F. J. Nixon at the sitting of the Water Board on July 21st, when it is the intention of the Board to investigate the Indian water record on Trout Creek.

It is reported that signs directing travellers to the upper Peachland road had been placed, and also that a number of other road signs, painted some time ago for the Board of Trade were being put up by the Municipal Council.

J. Dunsdon in a communication complained that water was being backed up on his property by a small irrigation dam on Aeneas Creek, which he claimed had no right to be there. He intimated that he would require compensation for alleged damage done, and assurance that the trouble would be removed. Referred to water committee.

It was reported that a barn and ice house the property of the Municipality and located west of the Empire Hall block, though occupied, had been bringing no rent to the Municipality. Instructions were given to bill the occupant at the rate of \$5 per month.

The water committee's report told of repairs to the north main through the Cartwright property and the necessity of building a new flume at Hillpark Gardens, which was now being done. The extension of the domestic water main along Campbell Avenue was authorized on the understanding that Mr. G. J. White, the Baptist Church, and others interested would finance the extension.

The report of the water committee also covered the investigation of several complaints with respect to water service.

Mr. John Tait asked for assurance that water would be conveyed to his and other lots east of Giant's Head before next spring. He was told by the Reeve that the Council had this and other capital expenditures in mind and that they would be submitted to the ratepayers in due course. Mr. Smith, of the same neighborhood, now served by the pipe line, and Mr. P. G. Koop complained of the service they were receiving. Every effort to improve the services was promised.

Mr. C. Noel Higgin enquired as to the re-opening of the road to Crescent Beach. Campers and others were not now able to use their properties there. Very small outlay would be required to repair the road, he said. He was told that this was a provincial matter but that attention of the authorities was being drawn to the situation.

Foreman Tomlin reported that the volume of Trout Creek had dropped rapidly so that there was not more than enough for daily needs. He was authorized to send men to headwaters next week to open the gates, if the flow of the Creek should decrease in the meantime. Mr. Nixon reported that Engineer Dufresne had advised him that the dam on Canyon Creek, recently closed, was filling satisfactorily.

The public works committee recommended the rebuilding of several culverts and lengthening others. After considerable discussion it was agreed that the repairs be made under the direction of the committee at the least reasonable cost. Two new culverts, between lots 46, 50 and 51, D.L. 475, Prairie Valley, were also authorized.

The appointment of an assessor being introduced, Coun. Scott moved that tenders be invited, but he did not get a seconder. On motion of Couns. Thornber and Kirk Mr. W. C. Kelley was appointed to the position at a salary of \$500.

Teacher—What do we learn from the busy bee?
Small Boy—Not to get stung.

An ideal woman is one we frequently hear about but seldom see about.

THE WOMEN'S INSTITUTES.

On Friday, the 8th, instead of the regular monthly business meeting the West Summerland Women's Institute held a garden party at the home of Mrs. Coulter White. Some forty members were present, and a most enjoyable afternoon was spent in the pretty garden.

During the afternoon Mrs. Coulter White and Mrs. Zimmerman who were both delegates at the Women's Institute Conference held in Vernon recently gave most interesting reports of the Conference; after which afternoon tea was served on the verandah. There will be no meetings of the Institute during the summer months, the next one coming in October.

Investigates Water Complaint

Engineer Norrington of the Water Branch was a visitor here a few days ago, when he investigated the complaints with respect to the water flowing from the Zimmerman gulch on to the roads and nearby properties. We are informed that he arranged with Mr. F. R. Gartrell, the chief sufferer to allow the water and mud to flow on to his meadow as soon as the hay crop is off. He promised Mr. Gartrell to recommend to the Municipal Council that it arrange to have the owners of land about the gulch pay Mr. Gartrell to take care of the water.

Suspends Work On Prov. Road

Foreman Arkell Told to Lay Off All Workmen

No work has been done on the government roads under the charge of Foreman J. C. Arkell since July 8th when he received instructions to suspend all operations. The municipal authorities and others have been confidently expecting that the government would make much needed improvements in the lakeshore road which is now a primary highway and under the control of the department of public works.

About the time Foreman Arkell was prepared to go to work on this road, he was ordered to open up the upper road between Summerland and Peachland, because of the washouts near Crescent Beach and beyond.

It is not known whether it is the intention of the department to do any more work this season. If not, this part of South Okanagan will be left in an extremely unfortunate position. It is urged that a comparatively small expenditure would put the lake shore road in as good condition as before the washouts.

We understand that Mr. Arkell has been making estimates on work that may be done under next year's appropriations.

A thing done right today means less trouble tomorrow. If we all get behind local industry by insisting on the products grown or manufactured here, the future of this province will have no trouble or worry for any of us.

TO LEAD ELECTION FIGHT FOR UNITED FARMER PARTY.

Mr. H. W. Wood who is putting up a strenuous fight in order to return a healthy number of members in the Alberta Legislature.

CANADA'S FRUIT CROP PROSPECTS

Generally Good in B.C. Dry Weather Injurious to Eastern Orchards.

Here is what Ottawa statisticians say of Canada's fruit crop prospects according to a recent bulletin wired from the capital:

Reports from Canada's six apple growing provinces point to a crop of this fruit generally in excess of last year. There was a very heavy "drop" in June, however, which, if it continues much longer, will materially reduce the prospects.

According to the July fruit and vegetable crop report of the Department of Agriculture, British Columbia orchards, as well as those in New Brunswick and Quebec, offer promise for a 10 per cent. increase over 1920. Ontario prospects are for a 20 per cent. reduction. Baldwins, Spies, McIntosh and Russets are heavy, but Ben Davis light.

Prince Edward Island expects a big crop of all varieties. In Nova Scotia dry weather and a heavy drop have reduced the outlook. Baldwins are set heavy and a total crop is expected of 10 per cent. in excess of last year.

British Columbia expects a fair to good crop of peaches, but Ontario only looks for 95 per cent. of average. Yellow St. Johns best, Elbertas and Crawfords light.

Plums promise well in Quebec, but Ontario and Nova Scotia will probably produce only a 50 per cent. crop. In British Columbia a fair to good crop is anticipated.

Pears in Ontario and Nova Scotia also promise a 50 per cent. crop, while the prospects in British Columbia are generally good.

Fruit Prices Guaranteed

The New Zealand Government has guaranteed its fruit growers a net return of 10 per cent. on the value of exports during 1921 to the extent of 200,000 cases of approved varieties and classes of fruit. The guarantee is limited to fruit grown and shipped on consignment by bona fide fruit growers and fruit growers' co-operative societies, through the New Zealand Fruit Growers' Federation. The Federation must provide equal shipping facilities to all concerned and all fruit must be inspected by the Department of Agriculture and comply with export regulations.

Cloud Lifted From Kaleden

Development Work Being Resumed Under New Control.

As a result of a change of ownership Kaleden and its surrounding fruit lands are to experience a taste of former boom days. Since the control of the Kaleden Fruit Lands Co. fell into the hands of British interests there has been little done towards the development of that promising fruit district.

Information has recently been received that Sir William Hutcheson Poe of Ireland has purchased the interests of Capt. Banbury, who had foreclosed upon the mortgages he held on the Kaleden property. A representative of Sir William Poe visited the district a few days ago, and arrangements are being made to form a water district and to put on the market some 2,000 acres of land. Major J. C. MacDonald of the Water Rights Branch of the Department of Lands is now making a report upon the irrigation conditions of Kaleden district in preparation for the organizing of a water district. Particularly cheering to the pioneers of Kaleden is the news that all litigation has been cleared up and holders of agreements of sale from the old Company will now be able to obtain their deeds.

Beginning Early.

Apparently one still has to go to Naramata for the making of records. Plymouth Rock pullets, purchased this spring by Mrs. Marson as day-old chicks, have begun to lay at the tender age of four months, commencing their appointed duty before their own brothers have even learned to crow. More power to the eternal feminine!

Convention of Irrigators to Be At Vernon

Fifteenth Annual Meet of the Western Canada Irrigation for Okanagan City.

Natural Resources Will Be Exploited

Ranges Contain Many Reservoirs of Water Which May Be Utilized.

The Western Canada Irrigation Association is this year holding its fifteenth annual convention at Vernon, July 27, 28, 29 and 30, having been formed in 1907. In the official guide to the first convention, which was held at Calgary, July 17 and 18 of that year, it was stated that it was gradually dawning on the minds of thinking people that the most significant development in agriculture that Western Canada has yet witnessed is the movement to utilize the ground mountain streams in aiding the farmer largely to eliminate the element of uncertainty of his operations.

NATURAL RESERVOIRS.

Our mountain ranges contain natural resources only awaiting the finishing touch of skill and labour to save water sufficient to irrigate vast areas, in addition to those which are now and can be provided for by our normal water supply. A propaganda so vast and fraught with such far-reaching interest that enters so closely into the whole problem of Western Canada's colonization and future prosperity, of deep concern to every resident of the Great West and imperatively demands the impetus, constructive guidance and moulding influence that can only be effectively brought to bear by a strong and competent organization.

This, then, was the object for which the association was formed, and in its fifteen years of existence the Western Canada Irrigation Association has played no small part in the progress of irrigation development in Western Canada.

Early in March, 1907, a few enthusiastic irrigationists had concluded that irrigation in Western Canada had advanced to a point where it was important that a convention should be held and some cohesive effort made, looking to intelligent legislation on the subject. Invitations were issued to representative men throughout the three provinces of British Columbia, Alberta and Saskatchewan to attend a meeting at Calgary the following month. Among those who attended this meeting were: William Pearce, of Calgary; W. H. Fairfield, of Lethbridge; Col. J. S. Dennis, of Calgary; C. D. King, of Raymond; J. T. Hall, of Medicine Hat; I. S. G. Van Wart, of Calgary; J. R. Wheeler and Martin Woolf, of Cardston; E. L. Richardson, of Calgary; and C. W. Peterson, of Calgary.

At the meeting the basis of representation was drawn up and it was voted that a convention should be held at Calgary the following July. The first convention was opened by the Lieutenant-Governor of Saskatchewan, A. E. Forget, and among those who gave addresses were: The Hon. W. E. Cushing, Minister of Public Works in the Alberta Government; the Hon. F. J. Fulton, Commissioner of Lands and Works for Saskatchewan; A. E. Ashcroft, of Vernon; W. E. Fleming, C. W. Peterson, W. E. Fairfield and William Pearce.

VERNON CHOSEN.

The first convention having proved very successful, it was arranged that the second one should be held in British Columbia the following year, and Vernon was the city chosen. This convention was opened on August 8, 1908, and lasted two days. It was attended by 104 representative delegates, who came from British Columbia, Alberta, Saskatchewan and Manitoba. The chief subject of discussion was that of legislation applied to irrigation, and speeches on this question were made by J. S. Dennis, the Hon. F. J. Fulton, Charles Wilson, K.C., J. M. Robinson, of (Continued on Page 8)

The Chef—Too many broths don't spoil this cook. This clever cartoon is based on one of the most discussed Academy pictures by Sir William Orpen.

Hospital Now A Busy Place

Cares For Good Many Patients During Month of June.

Three hundred and fifty-nine days' treatment were given patients at the Summerland Hospital during June, the largest number of patients in the hospital on any one day being nineteen. There were actually thirty-three patients in the hospital during the month. For the first six months of this year 211 patients were in the hospital, the average time per patient being a little over 8 1/2 days.

At the meeting of the Hospital Board held last Monday accounts for June totalling \$1,231.87 were passed for payment.

Miss Johnson, the matron, was granted one month's vacation to be taken as soon as convenient.

Mr. G. J. C. White undertook to arrange if possible to obtain fire hose from the College building.

Dr. Herald, surgeon, of Kelowna, operated on several patients at the hospital this week, among them being Dr. F. W. Andrew.

Summerlands' Are Finest Cherries

Coast Reports on Shipments Sent Down From Here Past Week.

According to reports published in the Vancouver papers the Summerland district is fast coming into the limelight in the coast metropolis as a high class fruit producing section. The Province said on Thursday: "The showing of Black Tartarians and Bing cherries from Summerland was by far the best shown this season. The blacks brought from \$2.75 to \$3.00 per four-basket crate, and the Bings about 20c."

The World's market page mentions the cherries from the Okanagan thusly: "Cherries from the Okanagan were plentiful and included Black Tartarians, Bings and Royal Annes. The Bings were of excellent quality and found a ready market at \$4.50 a lug of about twenty pounds net. Royal Annes and Tartarians sold for \$2.50 a box."

The Princeton Co-operative Association has assigned.

The radical idea of a free country is one in which the judge invites the prisoner to pronounce sentence.

More Inspectors Are Appointed

Government Will More Strictly Enforce Fruit Market Act.

A general tightening up in the enforcement of the regulations of the Dominion Fruit Marks Act will come this year, according to a statement of Dominion Fruit Inspector B. M. Whyte, of Vernon, who has charge of the Dominion work of inspecting the grading and packing of fruit in the Okanagan.

In past years the Department has made a practice of giving ample warning to fruit shippers of the grades which must be kept up. Now that the shipping business is on a firm basis, the Department feels that a rigid enforcement of the regulations should be followed out. From now on therefore, the inspection will be of such a nature as to require all shippers to live up to the Act in every detail.

In 1919 Mr. Whyte was the only Dominion inspector south of Kelowna. Last year there were two south of Kelowna. This year there will be six in the Valley, three of them being south of Kelowna. Mr. Whyte is in charge of the force.

There will be two men in Vernon, two in Kelowna, including Peachland and Westbank, one in Summerland and Naramata and one for Keremeos and Penticton.

This year's staff is as follows: Vernon, Stanley French and Douglas Henderson; Kelowna, G. E. Dereham and C. N. Higgin; Summerland, W. Buchanan; Penticton, E. S. Rogers.

New Fruit House For Naramata

The Fruit Union will erect at Naramata a two storey fruit warehouse, 49 x 90 ft. The new building which will be located immediately north of the building which the Union now occupies will be of semi first proof wooden construction. H. W. Harvey of this place has been awarded the contract and Mr. Harvey states that he will begin work on the new building next Monday. The new warehouse is to be completed and turned over to the Union on September 1st.

Made-in-B.C. goods will be a feature of the Vancouver Exhibition this year, according to Manager Rolston, who states that nearly all available space in the manufacturers' building has already been spoken for. "There will no doubt be a record showing of provincial goods," he said, "and much attention will be paid to the quality of goods displayed."

SCHOOL BY-LAW TO BE UP AGAIN

Ratepayers' Meeting Strongly Favors The Building Scheme.

PAYING RENT

Board Under Heavy Expense. Would Pay Interest On \$20,000.

Summerland ratepayers will again vote on the school bylaw, which failed to get the required three-fifths vote a few weeks ago.

At a well-attended meeting, held last Tuesday evening in the Rialto theatre, there was an almost unanimous vote in favor of an amendment proposed by Mr. W. C. Kelley and seconded by Mr. S. F. Sharp to the effect that the municipal council be requested to again submit the bylaw to the ratepayers as soon as possible.

Prof. W. T. Broad dealt with the school question from the cost standpoint. Among other things he pointed out that the Department of Education is paying 50 per cent. of the cost of conveyance according to the contracts, and in addition \$100 per year extra per teacher, in view of the fact that this is a consolidated school district. These two combined meant that the department paid four-fifths of the \$4000 which it cost to operate the school vans during the school year of 1920-1921.

Another feature of the local school situation which was pointed out was that the rents which the board will be required to pay during the school year of 1921-1922 will be \$1500, and that this \$1500 would pay interest at the rate of 7-1/2 per cent. on \$20,000 invested in the needed school plant.

Early in the evening Mr. G. J. Coulter White, submitted a resolution to the effect that the voting on the school by-law be stood over until the annual elections. Later, he asked to be allowed to withdraw this motion, but his seconder Mr. S. A. Denike, would not permit. The amendment as noted above was then proposed and carried with a large vote.

Resignation to Attorney General

Police Magistrate Hutton Resigns—Objects to Attitude of Victoria.

Just before going to press, The Review learns that Police Magistrate Hutton had tendered his resignation to the Attorney-General. This, we understand, is the result of a letter from the Department of the Attorney-General which seemed to criticize the action of the Council in increasing the salary of the magistrate. The letter stated that the increase seemed to be unusually high, and asked that information justifying such an increase, before having had the assent by a minute-in-council, be supplied to the Department.

At Tuesday's meeting Municipal Clerk Nixon was instructed to forward the letter from Magistrate Hutton in which he asked for the increase and pointed out the volume of work required of the police magistrate, and in which he proposed resigning unless an increase were granted.

The letter from the Department of the Attorney-General was to be handed to the magistrate.

Cannery Pack Will Be Small

The Dominion Canners, B. C., Ltd., operating at Penticton, will pay the growers 4c a lb. for peaches. No cherries have been packed this year by that cannery, and there will be only a small pack of apricots, for which the growers will be paid 4-1-2c and 5c. An unsatisfactory market, with low prices being paid by American packers, is said to be the reason for the small pack by the Dominion Cannery.

DO WE FULLY APPRECIATE THE BEAUTY OF OUR SURROUNDINGS?

"Newcomer" Gives His Impressions of The Natural Beauty And The Latent Possibilities of This Section of The Okanagan.

It occurred to me the other day that many readers of The Review would be interested in some of the things that have presented themselves to me, a newcomer, concerning Summerland district, and the community in which it is located. With this in mind I am submitting for your consideration a series of short articles for publication, should they appeal to you as worth while, after your perusal.

As I have said I am a newcomer here, a stranger in a strange land. Even the customs of your people are new to me, and although interesting, they have had some puzzling effects upon me, and several amusing incidents might be mentioned, but I shall refrain from doing so inasmuch as the point of the joke generally landed where I least expected.

I don't want to "get in bad" with your readers, and ask forbearance should I seem to transgress upon sacred grounds of traditional opinions and customs. I shall not attempt to be "funny," and that which may appear to be an attempt at witticism on my part should be taken not as such, but I assure you that I am anything but a humorist. In fact what I have to say is said in all seriousness and sincerity.

I wonder if those of your readers who have lived in this district any length of time really appreciate the wondrous beauties of their surroundings? Some do, of course, but many, no, I would say. I have talked with many since my arrival in Summerland. Some whose homes are situated in the outlying parts of the district and others whose homes are among the orchards in the Naramata district across the lake. You would be surprised at the variant answers given to my query upon the subject. I will not dwell upon this point here, although many of those I have talked with have assured me that they do realize that they reside in a glorious district, a delightful climate and that the future holds possibilities that they never dreamed of a few years ago.

It is upon the point of possibilities that I intend to confine my remarks, if you please. The writer has visited every state in the Union across the boundary line and nearly every province in Canada. A native of the great state of Iowa, a resident of South Dakota for six years, a cowboy on the Wyoming plains before fencing obliterated the trails and in later years engaged in business that took him to all parts of the western world.

In all my travels I have never witnessed a more beautiful country than that surrounding this place. Your climate is almost ideal. The summers are not too hot nor from what I can learn, the winters too cold. There seems to be a happy medium here in that respect. Your towns, as we would call them in Yankeeland, are built upon the shores of one of God's great nature gifts—the Okanagan Lake, surrounded by friendly pine covered mountains whose gentle slopes to the water's edge have been reclaimed from their natural state and converted into thousands of orchard tracts, with full bearing orchards and homes dotting the landscape as far up and down the lake shores as the eye can travel.

There have come great changes in this Valley in the past fifteen years, when last the writer visited here. There were towns scattered along the lake shore then, and here and there bearing orchards were yielding forth delicious fruits, mostly peaches, as I remember, but those who resided here a decade and a half ago will bear me

out in the statement that a great change has come and the Valley has forged ahead amazingly.

We need only take a peep into the past to forecast the future of a community of this nature. One man said to me—he has resided near Summerland twenty-two years—that the growth will be slow in the future, because all the available land has been reclaimed, and that which is left is not worth while. How many times have I been told the same story during the past twenty years in my travels about the western world, I would not say positively, but believe it would be safe to say an hundred times or more. Yet we find that the wheels of progress drifting westward have opened the eyes of even the wisest to possibilities in their own communities that they never realized existed and on and on have come the hordes of people looking for and building homes in the land away from the congested centers.

I shall make a prediction here that may seem wild to some, but one that I believe will prove me not far wrong. The next decade will see greater advancement and development in the Okanagan Valley than that which has come during the past fifteen years. It is of the future that I propose to deal in the articles that follow. The first of these will be captioned: "When the Awakening Comes," and will appear in these columns next week.

CHEAPER GASOLINE ATTRACTS TOURISTS

Travel From States To B.C. Is Heavier: Many To Settle Here.

Dropping gasoline prices are having a distinct effect upon tourist traffic to Vancouver and other B.C. points, according to the city's information bureau, which reports a marked increase over last year's figures, largely occasioned by the return of the cost of "gas" to more nearly normal levels.

The high prices of railroad and sleeping car accommodation which have prevailed in recent times have been keeping many people at home who otherwise would have been vacationing in distant fields. The dropping cost of motor travel has, however offset this to a considerable extent this year and the roads leading up from the border are bearing a steady stream of visitors to the province.

From the hundreds of enquiries received monthly by the bureau, it is evident that in addition to those seeking recreation in our hunting districts and summer resorts, there are increasing numbers of prospective settlers who believe that British Columbia offers better opportunities for fruit farming, cattle ranching and other agricultural pursuits than are to be found in the American Pacific states.

The desirability of completing the road between Hope and Princeton is emphasized by the bureau, the management stating that a very large proportion of the enquiries received come from parties who wish to motor from Vancouver to Banff, which is impossible till the gap between the two points mentioned is filled by a good motor road.

SHOULD RE-INVEST 2 P.C. IN ADVERTISING

Newspaper advertising was strongly urged upon the druggists at the annual convention in Toronto of the Ontario Retail Druggists' Association by Frank Stockdale, conductor of the Retail Merchants' Institute, Chicago, and formerly chief of the lecture bureau, Associated Advertising Clubs of the World. Mr. Stockdale advised the druggists to seriously consider the newspaper proposition if they desired to increase their sales and add new customers to their lists of patrons. The druggist should place his advertisements on the basis of 2 per cent. sales, Mr. Stockdale said.

It isn't difficult to like a man after you discover that he thinks you a world-beater.

Still, trying to maintain a greater navy than the neighbor's doesn't cost the world a great deal more than trying to dress daughter better than the neighbor's.

H. W. HARVEY, West Summerland, B. C.

The above is a local industry with Sawmill and Box Factory at Mineola about 9 miles from Summerland, and has been operating in this district since 1907. Manufacturers of all kinds of Building and Flume Lumber, Box Shooks and Fruit Packages, employing about 65 men, including 21 married men with families and 23 returned men.

The monthly payroll of approximately \$7,000.00 circulates mostly in Summerland and district. Supplies, material, etc., as far as possible are bought locally.

The lumber is shipped to Eastern Points, used locally, and in the manufacture of Fruit Boxes.

The output of the Box Factory is mostly used by the local Fruit Packing Organizations.

Wholesale shipments are made from the railway point at Faulder, B. C., and retail shipments through the local agent, H. W. Harvey, West Summerland, B. C.

Boy Scout Column

1st SUMMERLAND TROOP B. P. SCOUTS

Headquarters, The Gymnasium.

Scoutmaster O. F. Zimmerman

Meets every Friday evening at 7.30 p.m.

July 12th, 1921.

By the enthusiasm shown by the boys at Friday's meeting there is going to be a good summer's work at Scouting. Thirty-five scouts were present for roll call and the evening's work commenced. First thing on the programme was the election of two new patrol leaders, the troop has grown so that four patrols is inadequate.

When the ballots were counted it was found that Second Noel Wright and Colin Chisholm were elected and were accordingly appointed leaders. This meant a complete readjustment of patrols; so new seconds were appointed and the scouts appointed to the several patrols.

As the troop now stands there are six patrols with leaders and seconds as follows:

No. 1, Eagles: Ronald White; 2nd, Ken. Walden.

No. 2, Kangaroos: Jack Harris; 2nd Jas. Smith.

No. 3, Coyotes: John Denike; 2nd, Lloyd Whiteford.

No. 4, Owls: Ivor Harris; 2nd, Ralph Purves.

No. 5, —: Colin Chisholm; 2nd, Mac Laycox.

No. 6, Lynx: Noel Wright; 2nd, Clyde Caldwell.

This gives seven boys to each patrol, which is quite enough for the leader to manage properly.

We are glad to welcome Scout W. Mack to the troop. He will be acting A.S.M. for the summer.

The young boys of Summerland will be interested to know that a cub pack is to be formed shortly with Mr. S. Sharp as Cubmaster. Rules and guide for the formation of such are expected shortly when enrollment begins.

As intimated last week we publish below a full list of winners at the annual sports July 1st, also a diary of camp life.

75 Yards Dash, Junior: A. Howell, Kangaroos; R. Purves, Owls; J. Wilson, Kangaroos.

220 Yards Open: R. White, Eagles; J. Denike, Coyotes; E. Wilson, Owls.

Senior Broad Jump: Wilson, Owls;

R. White, Eagles; J. Denike, Coyotes.

Junior Broad Jump: R. Purves, Owls; A. Howell, Kangaroos; George Graham, Owls.

Hop, Step and Jump, Junior: R. Purves, Owls; Howell, Kangaroos; Wilson, Coyotes.

Senior Hop, Step and Jump: Wilson, Owls; Denike, Coyotes; Walden, Kangaroos.

Signalling Competition, Patrol: Owls; Eagles; Kangaroos.

Scouting Competition: Owls; Eagles and Coyotes tie.

Putting the Shot, Juniors: George Graham, Owls; Purves, Owls; Howell, Kangaroos.

Putting the Shot, Seniors: Walden, Kangaroos; Wilson, Owls; Denike, Coyotes.

100 Yard Dash, Open: R. White, Eagles; Wilson, Owls; Denike, Coyotes.

150 Yards, Junior: A. Howell, Kangaroos; Purves, Owls; N. Solly, Eagles.

Throwing the Baseball: Walden, White, Ivor Harris.

Juniors: Purves, Owls; Nicholson, Eagles; Graham, Owls.

Senior High Jump: Wilson, Owls; Denike, Coyotes; J. Harris, Kangaroos.

Junior High Jump: Ivor Solly, Eagles; Howell, Kangaroos; Purves, Owls.

Patrol Relay Race: Owls; Kangaroos; Eagles.

Trick Diving: Clyde Caldwell; Ivor Harris; K. Gartrell.

Dive: Gartrell; I. Harris; J. Harris.

Relay Swimming Race: Owls; Coyotes.

The water was too rough to hold further water sports.

THE CAMP DIARY.

Saturday: At last the day! 1.30 saw us all at the wharf ready for camp, and we were soon on board under the orders of A.S.Ms. Tees and Harris. We were sorry to have to leave our S.M. on the wharf, he being unable to come, so we gave him three hearty cheers as the boat pulled out. We were soon at our destination, good old Miller's Point, and had our packs on the wharf.

After the grub had been safely stowed away in the cookhouse, we drew lots for tents and sites, and then beat the officers in getting the canvas raised.

After a swim we sat down to a wonderful meal which made Mrs. Miller famous, and then started to get the tents in shape for a hurried inspection.

After camp fire we retired and stretched out on the ground and tried to sleep, but the mattress didn't seem conducive to rest. Didn't we envy the Kangaroos who won the privilege of using the mats for hav-

ing the neatest tent. However we finally dozed and forgot all until morning.

Sunday: Awakened bright and early by early birds from the patrol across the way. No more sleep until Reveille blew at 7. After getting blankets out to air we had a hurried dip and then scrambled into our uniforms for hoisting flag and prayers.

Breakfast came along at 7.30 and we were ready for it, after which we were given until 9 o'clock to make our tent and grounds as pretty as possible. At 9 we had to fall in, in front of the tent for the trying ordeal of inspection. After everyone had inspected the other for dirty knees, etc., we thought we were ready. Evidently not so. Here a piece of chewing gum paper, an orange peel, socks on inside out or something, all seemed to have been overlooked—except by the A.S.M., so we did not win the mats again and had to listen to the Kangaroos crow again, and think of the cold, cold ground. However, we were soon in the middle of P.T. and forgot about inspection.

From 10 o'clock to 11 we were given a chance to study for our tests and at 11 we all felt like a swim.

The general orders for camp were posted to-day as follows:

ROUTINE FOR CAMP.

6.45 Orderlies rise, proceed to cook house.

7 Reveille, blankets out.

7.15 Washing parade.

7.20 Hoist flag and prayers.

7.30 Parade, breakfast.

8 Free. Ready for inspection.

9 Fall in (patrols). Inspection.

9.15 Fall in. P.T.

9.30 See daily orders.

11 Swimming parade.

11.30 Fatigue work; wood for camp fire.

12 Lunch.

12 Compulsory rest—no moving about camp.

2 See daily orders.

4 Swimming parade, compulsory.

4.30 See daily orders.

6 Supper.

7 Games.

8.30 Camp Fire.

9.15 Ready for bed.

9.30 Lights out, no more talking.

Monday: Routine work until 9.30, but all appeared to be feeling better as the ground didn't seem quite so hard the second night. At 9.30 the A.S.Ms. were kept busy passing tests, each patrol seeming to be bent upon having the largest number of first class scouts. From 10.30 on we began to work on our tenderfoot work (which we are still supposed to know) ready for the patrol competition in the afternoon.

Swim at 11 as usual followed by the usual wonderful dinner. We all felt ready to rest so the hour of en-

forced quiet did not annoy us, and we felt quite ready for the competition at 2. Unfortunately we didn't win. We should have though. However, we had better luck in the fireman's lift race, landing our men in far ahead of the others, so felt very smugly satisfied.

Several of our boys were successful in doing the mile at scout pace in 12 mins. One can do it nicely in less but rules are rules, so 12 minutes it had to be, with 15 seconds leeway. If anyone thinks it is easy let him try it. After supper we chose up sides for football, and being a game it didn't matter if we did kick the A.S.M.'s shins. We did, and our side won.

Round the camp fire that night there was great excitement. The comet or something was supposed to hit us. Unfortunately the sky was cloudy so we couldn't see just where it was going to hit, so we thought around the camp fire was as safe a place as any. A.S.M. Tees began to tell us all about the stars, and by the time he had finished we were all figuring how many million miles away the comet was going to miss us by. So we went to bed contented.

The diary will be continued in next issue.

The troop will parade in full uniform to-morrow (Friday) at Ellison Hall.

A permanent blush can now be supplied by the beauty specialist. Just the thing to wear with some of the evening gowns we have seen lately.—London Opinion.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year for the death of such person, as formerly, to one year after the conclusion of the late war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Fees are remitted for 5 years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

IMPERIAL Polarine MOTOR OILS

Keeps Motors Smooth Running

Quality maintains economy. You may pay less "per gallon" for other lubricating oils but you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

USERS of Imperial Polarine Motor Oils enjoy a singular freedom from engine trouble, which is at once a source of profit and pleasure to them.

Every bearing and rubbing surface is cushioned with an unbreakable oil film which relieves friction and minimizes wear. Good compression is also maintained, saving both fuel and oil and increasing power.

Lessened repair bills, lower upkeep costs, better satisfaction and longer service from your car follow the use of Imperial Polarine Motor Oils.

Consult our Chart of Recommendations for the grade of Imperial Polarine best suited to your motor. See Charts at your dealers or write to 56 Church Street for "Automotive Lubrication," a booklet which contains the Chart and other valuable information.

IMPERIAL OIL LIMITED

Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR

The crank case of your motor should be drained, cleaned and refilled with fresh Imperial Polarine every 1,000 miles or less. Dealers who display this sign give expert crank case cleaning service, using Imperial Flushing Oil, a scientific cleaning agent which removes all dirt, grit and impurities, which are so harmful to your engine. It will pay you well to employ Imperial Polarine Crank-Case Service to-day.

WE GIVE IMPERIAL Polarine CRANKCASE SERVICE

The Summerland Review

Established August, 1908
 Published at Summerland, B.C., every Friday by
 THE REVIEW PUBLISHING COMPANY, LIMITED
 Ralph E. White, Editor and Manager

An independent family newspaper covering Peachland, Summerland and Naramata and adjacent districts.

Subscription Rates—In British Empire, in advance, \$2.50 per year; six months, \$1.40. To U.S.A. and other countries, \$3.00 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Advertisers must have copy in by Wednesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

FRIDAY, JULY 15, 1921

THE LAKESHORE ROAD AN ASSET.

It is hoped that the road officials will find a way to quickly repair and widen the lakeshore road between Summerland and Peachland. It is true that the high water this spring has done much damage to this thoroughfare and that it will cost considerable money to put it in good repair again, but we believe the benefits will justify the expenditure. A movement is under way to take care of the flood waters in the future and it is not likely that their reappearance will prove as disastrous to roads in the future.

There is one thing that must be borne in mind when we determine upon making changes and improvements in our roadways. Not only must we provide suitable roads for the accommodation of local people, but we must remember that the tourist travel must be encouraged. There is nothing that will bring tourists into this section of the province as will good roads.

A picturesque driveway, like the lakeshore road, is an asset worth more to the community than many realize. There has been little effort or pretense made in the past to develop the tourist travel into the interior districts of British Columbia, but the future will bring great changes in this respect. There is a movement on foot to induce the Government to undertake the work of advertising the beauties of this province. In another place in this issue of The Review appears an article upon the subject that should receive the attention of our readers. While the writer, Mr. Arthur Lineham, tells of the beauties of the upper and western portion he does admit that the whole province is included in his picture of the great north-west wonderland.

It will be up to each individual district to place before the world the attractive things it has to serve, and it will likewise be well to preserve and improve such assets as the lakeshore road, for as sure as day follows the night, the Okanagan Valley will be among the first of the wonders in the great "Switzerland of America" recognized by the visitors.

TURN ABOUT FAIR PLAY.

For some months past there has been a movement on boosting trade at home. We all realize that the movement is a good one and that the people of a patriotic nature will follow out the logical suggestions set forth. There is another phase of this matter that we have heard very little about, but which, according to our way of thinking, is just as important, if not more so. It is the need of a strong movement urging the city people to purchase farm products grown in the province. If it is proper that the people of the rural districts buy only goods manufactured in B.C., or Canada, as the case may be, in order to build up the manufacturing centres and keep our idle men employed, then why would it not be right and proper that the city buyers of farm and orchard products purchase from the orchards and gardens in their own province, as long as they are able to get as good or better home grown produce as from other places?

We believe the people of the cities would gladly respond if the papers in the large cities would take up the cause with as much "pep" as they have the "Made-in-B.C." movement.

While it may be argued that the movement covers the products of the rural districts as well as the manufactured goods from the cities, to the average ruralite very little has been observed in the propaganda distributed that would indicate a thought from this angle had entered into the plan. It is not too late, however, and it is hoped that this feature of the plan will become a little more conspicuous in the future.

We have a concrete example of how this matter works out. The Vancouver papers the past week have been telling us that the cherries from Summerland and the Okanagan arriving on the metropolitan markets are of the highest order, and in fact fruits from the States that have hitherto held the place of honor are forced into second place, yet we read in those same papers that Wenatchee and other southern fruits are arriving daily and our own fruits must not only outclass in quality that from the older fruit sections, but share the limited markets in our own centres.

While we are not complaining, for we know we can produce the goods to meet the test of any market in competition with these older districts, yet there is a feeling that the city folk should give preference to home grown products. By doing so they will not only encourage greater home production, but provide a more substantial and staple market for the growers, and thereby help a great deal in bringing about a more friendly feeling and a better understanding between the people of the rural districts and those of the manufacturing centres.

Appropos of the Hospital Bonds issued by the Municipality of Summerland, the remainder of which are now being offered our citizens, we note that the City of Kamloops has recently made a successful sale of school bonds to its citizens, and has now decided to give them a further opportunity to invest in city bonds. This new issue is for \$35,000, 7 per cent. twenty year school debentures, and the issue is being offered at par.

Dates of Fall Fairs Are Fixed

The dates of the fall fairs throughout the province have been confirmed by the department of agriculture. For fair purposes the province is divided into several circuits, of which the Okanagan is one. The Summerland Fair will be held on November 2nd and 3rd. Peachland's date is October 12th, and Naramata's October 20. Lumby, Armstrong, Pentiction and Salmon Arm fairs are all held in September, and Kelowna early in October.

FIRST FRUIT OF THE SEASON CAME FROM NARAMATA

It is generally conceded that Summerland and Naramata are the earliest fruit districts in the Valley and there has been more or less of a friendly rivalry between the two places as to which of the two brings forth the first ripe fruit of the season. Naramata placed the first cherries on the market this year, with Summerland a few hours behind, but Summerland beat her sister town across the lake on peaches, the first box arriving on the local market Saturday. They were brought in by Magnus Tait of Trout Creek and were of the Mayflower variety. The first cherries offered from the Naramata district were of the Governor Wood variety.

The Bings began coming in the latter part of last week and Lamberts are now arriving from local orchards. Both varieties are of the best, both as to color and flavor.

WHY HE REFUSED

A young theologian named Fiddle refused to accept his degree, "For," said he, "it is enough to be Fiddle, Without being Fiddle, D.D." —Philadelphia Public Ledger.

WEDDINGS.

Phinney—Forbes.

On Wednesday, June 29th, a quiet but pretty wedding was solemnized at the Presbyterian manse, Pentiction, when Miss Hazel Rennetta, eldest daughter of Mr. and Mrs. A. M. Forbes, of Lulu Island, became the bride of Mr. Harvey Brown Phinney, son of Mr. and Mrs. J. E. Phinney, of Pentiction. Rev. A. Ferguson, Miller officiated. The bride, who looked very lovely in a pretty suit of cream jersey cloth and a large white picture hat, wore a corsage bouquet of pale pink rose buds and orange blossoms, and was given in marriage by her father. Mrs. Charles Stuart, matron of honor, was most becomingly gowned. Mr. Stuart supporting the groom. After an appetizing luncheon was partaken of Mr. and Mrs. Harvey Brown Phinney left on their honeymoon tour, and on their return will reside in West Summerland, in their new home. The bride's mother was attired in black silk, with pale mauve trimmings. The groom's mother wore a beautiful costume for the occasion. The bride, who was a very popular native daughter of Vancouver, was one of the young ladies who zealously assisted the Daughters of the Empire, for "our boys" overseas, during the war, and was one of the officers of the Vindictive Chapter when organized at Marpole. One of the numerous costly presents received was a beautiful silver tea service with tray, from the bride's brother, Mr. Oakley Forbes, who was absent from home.

THE MODERN MARY

Mary had a little calf that she found was a scrub, She sold it, bought a pure-bred one, and joined the Girls' Calf Club. To-day her other pure-bred calves sport ribbons from the show, And little Mary may be seen in her own big auto. —Thos. McGillicuddy.

K.V.R. Employees Getting Less Pay

Kettle Valley Railway men are being paid a reduced wage since July 1st, the reduction, generally speaking being eight cents an hour. This reduction covers engineers, conductors, firemen, and brakemen. Machinists are now getting 77c. instead of 86c., track labour is being paid 40c. as against 48 1/2c. Telegraphers are being paid \$130 per month. For some time they have been receiving \$142.

SUMMERLAND WEATHER REPORT

Below is a report furnished by the Dominion Experimental Station here for the week ending Tuesday:

	Max.	Min.	Rain	Wind	S.S.

July 7	80	55	---	---	2.6
July 8	72	57	Trace	---	6.2
July 9	73	47	---	---	14.9
July 10	80	49	---	---	12.4
July 11	81	57	---	---	10.1
July 12	83	56	---	---	13.4

Mining operations in Northern British Columbia are on the increase, new properties are being worked, and old ones re-opened.

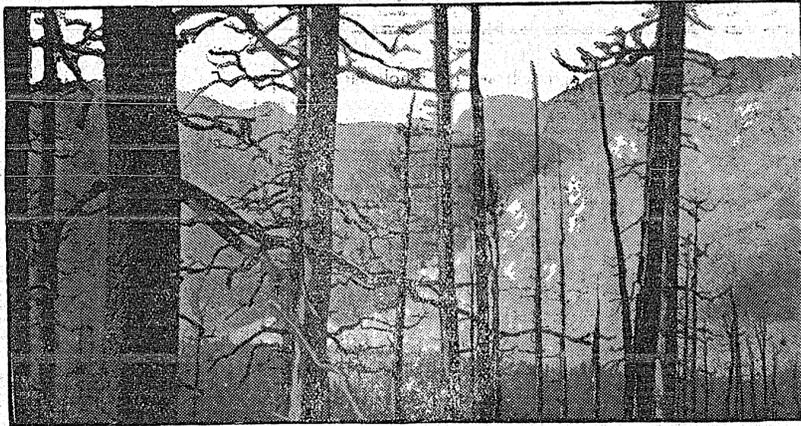

When you hear a woman say that she is on the sunny side of forty, it means that she is trying to keep her age shady.

Fashions are naturally regulated by trade conditions. Nearly all garments are worn longer in dull times than in prosperous ones.

The man who makes only penny contributions is usually a cheerful giver.

It's better to be fresh than stale—but don't get too fresh.

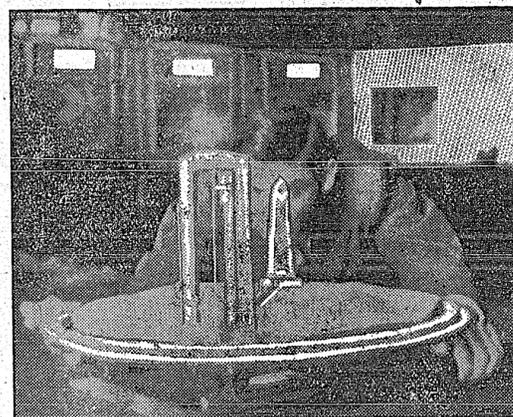

ENCOURAGING CANADIAN FORESTRY

Scene of a Forest Fire.

It was only during recent years that the public of Canada began to fully realize the value of the trees of the country, and the necessity for protecting them. One never knows the worth of a tree until its shade is gone. Canada was so rich in forests that the people imagined that their forests were inexhaustible. But year after year devastating fires swept over the wooded areas to such an alarming extent that the people at last realized that steps would have to be taken to save the trees. Twenty years ago the Canadian Forestry Association was inaugurated. To-day under the presidency of Mr. C. E. E. Usher, passenger and traffic manager of the Canadian Pacific Railway, it is one of the most flourishing organizations in the Dominion. The produce of the forests is one of the greatest assets of Canada. The pulp and paper business and the lumber business supply tens of thousands with profitable employment. The object of the Canadian Forestry Association is to preserve existing forests, to encourage tree planting, and provide the most up to date forestry administration.

The Association has now 12,500 members, the majority of whom are not financially interested in timber limits, saw mills or paper mills. It is completely independent of government departments and commercial bodies and has the more easily, on that account, won public confidence and attained great influence through its aggressive educational campaign. From the beginning the association has aimed to encourage a spirit of intelligent partnership between the federal and provincial governments and the wood-using industries in connection with the protection and management of the forests. To diminish much more than in the past the destruction of the forests by fire is considered by the association to be by far the most important problem. After that it gives due consideration to replanting and general forest management. The very effective results of its educational campaign are due to the variety of practical methods that are followed. These include public lectures through the newspapers; a speaker's bureau of three hundred voluntary workers; travelling lecture cars in the East and in the West; the preparation of travelling

The new Forest Fire Finder, an instrument recently invented to locate a fire quickly. It is expected to reduce the danger and loss from fires to a minimum. The instrument has been installed in the look-out towers in California forests and a fire can be detected 50 miles away.

structing a shelter built of trees by showing them exactly how to proceed and supplying complete data to ensure success.

"The economic importance of constructing windbreaks of trees," said Mr. Robson Black, executive secretary of the Canadian Forestry Association "cannot be overstated. Thick shelter belts are a powerful preventive of soil drift, and of wind damage to crops. A thick growth of trees protects the land to a distance equal to ten times the height of the trees. There is also to be considered the need of every farmer for fence posts and fuel and small construction timber. He may very easily and cheaply produce such necessities on his own property.

"Our tree planting campaigns are heartily endorsed by agriculturists and foresters for they are thoroughly practical. They have the financial backing of one of the prairie provinces Saskatchewan and of the railways, land companies and several wholesale houses in Winnipeg."

ALL THE READERS OF THE REVIEW SHOULD BE YOUR CUSTOMERS. ARE THEY?

Through unavoidable accident The Review appears a few hours late this week.

Messrs. M. P. Morris, J. A. and R. M. Johnson are here representing the Vancouver World this week. They expect to cover the field in two week's time.

Miss Belle Vanderburg has returned from the Arrow Lakes, where she has been teaching. She spent a week with friends at Nakusp before coming home.

Mr. W. Limmer has sold his cottage on Shaughnessy Avenue to Mr. Wilberforce. Mr. and Mrs. Limmer and daughter Alice have been in Victoria for a few weeks and, we understand, it is their intention to reside there.

Three car loads of cherries were consigned to prairie points from the Summerland Fruit Union this week, besides many express shipments. The Union employs twenty-two packers at present.

LAND REGISTRY ACT.

TO ALL WHOM IT MAY CONCERN Re Lots 4, 5, 6, 27, 28, Blk. 37, District Lot 20 Group 1, Plan 310, Kamloops Division, Yale District.

WHEREAS, proof of loss of Certificate of Title No. 7189D, issued to Annie Marget Ross and covering the above land, has been filed in this office.

NOTICE is hereby given that at the expiration of one month from the first publication hereof, I shall issue a duplicate of said Certificate of Title unless in the meantime valid objection thereto be made to me in writing.

Dated at the Land Registry Office, Kamloops, B.C., this 5th day of July, A.D. 1921.

C. OUTHETT, Deputy Registrar.

PASSING EVENTS

LOCAL, PERSONAL, SOCIAL & OTHERWISE

Mrs. C. E. Bell is visiting at the Coast.

Mr. and Mrs. G. N. Gartrell are away south on a motoring trip.

Miss Ruby Potter of Vancouver is the guest of Mrs. Robt. Mitchell.

Roy Eelsey is home for the vacation. He has been teaching at Smithers, in the northern interior.

T. B. Young is making quite an extensive addition to his garage building.

Penticton bakers have reduced the price of bread from two loaves for 25c to 10c each.

Mrs. W. C. W. Fosbery and young daughter are visiting with friends near Ewing's Landng.

Miss Hazel Harding, who has been living with her aunts the Misses Spencer, went up to Kelowna last week to visit her father.

Walters Limited claim to have made the first shipment from Summerland of cucumbers, the date being July 8th.

Miss Harwood of this place has been appointed to a position on the Summerland Public School teaching staff.

Mr. and Mrs. Harvey Phinney have returned from their honeymoon trip and are living on their orchard property south of Giant's Head.

The Young People's Society of St. Andrew's Church have sent a shipment of cherries to the Vancouver home for tubercular patients.

Mr. J. H. Bowering, who recently returned from a visit to the Old Country, states that he is feeling ninety per cent. better as a result of his vacation.

We clean or dye soiled or faded garments, house furnishings, etc. Let us mail you price list. Permanent Dye Works Ltd., 1641 4th Ave. West, Vancouver, E.C. 48tf

Among the law students admitted to the Bar a few days ago, we note the name of Kenneth Murray Elliott, son of Mr. and Mrs. A. B. Elliott. Kenneth is now a barrister and solicitor.

The survey is now being made of the bench land on the Indian Reserve west of Penticton. The feasibility of watering the land from either Shingle Creek or Trout Creek is being investigated, and an estimate of the cost of same will be made.

Mr. and Mrs. S. M. Young are expected here this month to visit for a while at the home of their son, Mr. T. B. Young. They will motor from Vancouver.

Secretary J. H. Bowering received by wire from Matsqui, B.C. the acceptance of Miss Miller to the position of second assistant to Principal Welsh at the High School. The appointment of first assistant is pending.

Another special attraction is announced this week by the Rialto Theatre. H. B. Warner the famous screen star will be seen next Tuesday and Wednesday in "One Hour Before Dawn." The effort of the Rialto people to furnish entertainments above the ordinary will doubtless be appreciated by theatre patrons who will show this appreciation by attending. Large houses greeted the special attraction last week.

Miss Zona Gale, author of "The Neighbors," recently staged by the Canadian Players at the Home theatre, Naramata, requires, in lieu of cash payment for the privilege, that rural communities plant a fruit tree for each performance of the playlet. Mr. Aikins, realizing that trees are already here in abundance, has sent \$10 in cash instead to the Summerland hospital.

Anything from town lots and one acre lots to 1000 acre stretches, ranging in price from \$7 an acre to \$1000 or \$1300 for full bearing orchards.

COULD LIMIT FRUIT WASTE

M. B. Jackson Explains How Growers Could Improve Conditions By Use Of Local Factories.

The "appalling waste and loss" of fruit on the farms, markets and in the factories of British Columbia could be avoided by co-operation, according to M. B. Jackson, M.P.P. for the islands, who publishes a long article on co-operation in agriculture in the Agricultural Journal.

"By local factories involving but small expense, the lowest grades could be converted into jam or pulp or cider, and so marketed throughout the year, or even held over to strengthen supply in following years," Mr. Jackson states. "Meantime the manufactured product could be financed upon."

"There is a great importance in avoiding glut on the market and extending the period of sale."

"Co-operation certainly should be applied to the matter of fruit growing, stock raising, poultry ranching, and dairying. By co-operation you could watch and know the market and control supply so as to meet demand, spreading the period of marketing over the entire season, getting the fancy products in fancy condition to

Some Business Enterprises Are in the 'Wetted Clay' Stage!

"No man ever wetted clay and then left it, expecting that there would be bricks by chance and fortune."
—Plutarch.

STORES do not prosper by chance and fortune, either. The good store, before it is adequately advertised, is in the wetted clay stage of brick-making. The materials are there—but the "making process" must be followed to its conclusion.

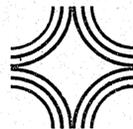

—For a successful store is a creation, whose status must be first reached and then maintained
THROUGH ADVERTISING.

—As with a newspaper, the store must be constantly made anew. Every day brings a new task of service—an imperative summons to greater effort. Last week's value-giving may have made many new friends—these must be held through this week's value offerings, and these must be ADVERTISED, that the new friends and the old may BE POSTED.

—The good store, the good business enterprise of any sort, will never really 'arrive' until ADVERTISING has placed it in close touch with its public—has carried its message, has MADE KNOWN ITS APPEAL FOR PUBLIC FAVOR.

The Review Summerland, B.C.

Peachland Doings
A Weekly Chronicle Furnished
By Our Local Representative.

Mrs. Morris of Calgary, her son and daughter are spending a month or so in Peachland, guests of Mr. and Mrs. A. J. Miller on Beach Avenue.

Mrs. Iverson went south on Wednesday evening of last week for a short visit.

The community is pleased to welcome again for the summer season Mr. and Mrs. Eddy and their boys, and are hoping that on one of these trips they will take up permanent residence among us.

After a short visit here with her son Mrs. Atkinson took the south-bound boat on Wednesday evening of last week.

Miss M. Smith was a visitor to Kelowna on Thursday.

After several weeks spent visiting in the Trepanier section Miss Montgomery went south on Thursday evening, returning again on Saturday morning accompanied by her sis-

A. J. MacKenzie met him by auto at the Kelowna-Westbank ferry to bring him this far, while Mr. Atkins and Mr. Riley of Summerland met him to take him on to Summerland for the evening service.

Mr. J. Duncan of Westbank arrived by boat on Saturday evening for a week end visit with his sister Mrs. H. McDougall and her son J. E. Kerr. He returned by auto on Sunday afternoon.

Mr. D. A. Cameron of Calgary, representing the Massey-Harris Co., arrived on Monday morning to spend the day with local agent H. E. McCall. During the day they motored to Westbank where they arranged a sub-agency under Mr. McCall's agency. Mr. Cameron left Tuesday morning for Calgary.

After a few days in town Mr. Roberts and sons left on Monday morning.

Citizens spending Monday in Kelowna were Mrs. L. Mills and Major R. G. Hardisty.

The Rev. F. Coad took the boat on Tuesday morning for Westbank, where he visited members of his con-

B.C. at St. Margaret's Church on July 27th at three o'clock.

Miss C. E. Weston has returned from her vacation spent with her pack pony "Old Dick" along the banks of the Okanagan, sleeping wherever night overtook her, and as she says "having a real rest." She tells us that travelling here is quite a different story to taking a jaunt at home, where it has been her custom to go on a walking tour at least once a year. However the beautiful scenery and the lovely lake more than compensated for the up and down roads that she had to travel over. Miss Weston resides at Major Hardisty's ranch and is organist at St. Margaret's Church at Peachland.

Master Earl Law, son of Mr. R. E. Law, recently left Peachland for Golden, B.C., where he has accepted a position with a dairyman there to assist at the dairy and take the milk route. He writes that he is enjoying the life there.

A watering trough has been installed on Beach Avenue, on the main pipe line just across from the Union packing house and near the Royal Bank. It should prove quite a boon to the ranchers hauling fruit

ADVERTISE---

ROBINSON CRUSOE DID

Here is a piece of advertising propaganda that has been going the rounds that strikes us as being about as conclusive and unanswerable as anything that has ever been written on the subject. We don't know who the author is, but he has the right idea:

"One of the most persistent advertisers in the history of success was Robinson Crusoe. He knew what he wanted—a ship—and he put up an ad. for one. He flung a shirt on a pole at the top of his island; that, in the language of the sea, was plain to every sea-faring man.

"The circulation was small—there was no other medium—but Crusoe kept at it, and despite the fact that he got no enquiries for a long time. He changed his copy—as one garment after another frayed out—and in the end got what he wanted.

"Suppose Crusoe had taken down that signal after a time and declared 'Advertising doesn't pay.' Where would he be?" his story be now?

"Put up your signal and keep it there. Crusoe advertised under very discouraging circumstances. You've got a sure thing—it is only necessary to have the patience, persistence and pluck of Robinson Crusoe—and the good ship "Better Business" will soon tie up 'longside your pier."

The woman who hesitates is—last.

CALIFORNIA FRUITS INFERIOR TO CANADIAN

Says Trade Commissioner.

Canadian canned fruits have in general a better flavor than Californian, though the appearance of the latter, no doubt due to climatic reasons and methods of packing, is superior, it is stated in a bulletin of the Department of Trade and Commerce by Major Gordon B. Johnston, Canada's trade commissioner in Glasgow. He says further that Canadian packers pay too little attention to the important matter of grading, both in size and quality. For this reason alone, he asserts, a large amount of business which might be Canadian is allowed to go to California.

LINCOLN ON PROPERTY

Property is the fruit of labor; property is desirable; is a positive good in the world. That some should be rich shows that others may become rich, and hence is just encouragement to industry and enterprise. Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence when built.—Abraham Lincoln.

Dead men tell no tales, but their friends do.

Don't attempt the things you can't do—and some of the things you can.

HOW WINNIPEG KIDDIES ENJOY SUMMER DAYS.

A scene at a swimming pool attached to one of the school playgrounds, which attracts hundreds of kiddies every day.

ter, Mrs. Mabon and family from Vancouver.

Mrs. Jupp of Moose Jaw, Sask., with her little boy and girl en route to the Coast stopped off here to spend a week with an old acquaintance, Mrs. Robertson, and her family.

Mrs. H. A. Solly of Summerland is a guest with Mrs. Clarence at the Edgewater Inn.

Mr. Wm. Coldram is enjoying a visit from his sister who arrived on Thursday evening of last week.

Mr. and Mrs. Wm. Suddaby visited Kelowna on Friday, going up and back by stage.

Mr. and Miss Metcalf are enjoying a visit from their sister Mrs. Tees, who arrived on Friday. Mrs. Tees is the mother of Mr. Percy Tees who lived here for a short time and is well known to many citizens.

Mr. J. B. Robinson went south on Friday evening's boat to visit with friends.

Visitors to Kelowna on Saturday were the Misses Alice and Ruby Cousins, Mrs. Keys and Mrs. Phillips and Mr. W. J. Moore.

Mr. Kenneth Wright, Mrs. Wright and family motored down from their home at Kelowna on Saturday to visit his brother Mr. John Wright and family here. They motored back the same evening.

After a pleasant visit at home with her parents and sister, Miss Mary Miller left by stage to return to the Coast. Mr. M. N. Morrison was also a passenger south on the same stage.

A few of the young people joined forces at the Orange Hall on Saturday evening and enjoyed a portion of the evening tripping the light fantastic.

Mr. Lanby of Kelowna is spending a portion of the week in the vicinity canvassing for nursery stock orders.

The Greata wharf has been in bad shape for some time but we understand that satisfactory information has been received that the wharf will be put in repair shortly.

The Rev. J. Willard Litch of Vancouver, former pastor of Ruth Morton Church in South Vancouver, and now Superintendent of Missions for the Baptist denomination preached to the congregation in the Baptist Church on Sunday afternoon. Mr.

gregation and cycled home in the evening.

Mr. and Mrs. D. K. Bell and baby of Vernon arrived on Monday evening to visit Mrs. Bell's parents, Mr. and Mrs. W. White and family.

Mrs. A. J. Miller and Mrs. Morris returned Monday evening after a short visit up the lake.

Mr. Smellie of Shoal Lake, Man., with a brother from Ontario are visiting Mr. and Mrs. R. J. Hogg.

Major and Mrs. R. G. Hardisty are announcing the engagement of their daughter Margaret Victoria (Ris), grand-daughter of the late Senator Hardisty and Mrs. E. V. Hardisty of Edmonton, Alberta, to Roy Colrick Herne, son of Mr. and Mrs. Edmund Herne of Vancouver, B.C. The marriage is to take place in Peachland,

to town, as well as the usual traffic. It will also be a convenient place for autoists to fill up their radiators with nice clean cold water. This fixture has been put in by the Municipal Council and with the drinking fountain put in by the Women's Institute last year should amply supply the long felt need of the thirsty, both man and beast.

The cherries are still rolling in plenty, the various varieties crowding each other perhaps a little more so than other years. With us the crop seems all to be rushing on a little earlier than usual, but none the less in quality, as many of the varieties have developed to a larger size and better state of perfection this year.

What is the difference between the north pole and the south pole? All the difference in the world.

HOW TO BRING PROSPERITY TO B.C. THE "SWITZERLAND OF AMERICA"

Arthur Lineham.

During the period from 1843 to date, approximately half a million people have settled within the borders of British Columbia, and we are inclined to think we have achieved wonderful things, but if we compare our progress with that of other more remote parts of the Empire, we shall find there is not so much reason to sit down and feel entirely satisfied with the results obtained during the past twenty-eight years. For instance, like the Dominion of New Zealand, which was first settled in 1839, (four years ahead of this province), and which now has a population of approximately 1,200,000 people on her 103,000 square miles of territory, although the New Zealanders have been colonizing under an enormous handicap in some respects compared with ourselves. Why is it they have so far outstripped us in the race for settlement and development? The reason is, because they have consistently exploited and developed their principal asset—the pastoral and agricultural land. Everything else has been of secondary importance. They grew perfectly well that industries of all kinds would follow population.

What line have we taken? The assets which have absorbed our attention are fish, minerals and timber, each of which requires a large preliminary outlay, and employs only a nominal amount of labour, and it might be added that a large percentage of the labour employed in these industries is Oriental or Slav. The process of building up a population, and continued prosperity, in a territory as large as ours, out of the three assets mentioned, will be so slow that generations will be required to do it, without we make further effort and we have entirely overlooked the greatest feature we possess, namely, the Scenic Beauty of the Province. This is in every way the largest and most valuable asset we have, if we develop it and exploit it in an aggressive and consistent manner.

British Columbia has an approximate area of 356,000 square miles, of which 148,000 square miles are mountain tops; 144,000 square miles timber land; 40,000 square miles water, rock and muskeg, unproductive, below timber line; 20,000 square miles suitable for use when cleared and 4,000 square miles improved and partly so. An instant's thought will convince the most skeptical that our main asset is scenery, as the timbered land can be included in that category for many years to come, until it is cut, and that the logical thing to do is to develop what we have got most of. The scenic attractions in every part of British Columbia are unrivalled on the continent of America. We have a playground equal to twenty-four Switzerlands, with a variety of beauty that would be a dream of delight to thousands in Eastern Canada and the Eastern and Middle States, if the same were known to them. All that is necessary is to finish essential works that are now under way and advertise in an aggressive manner, so that the one hundred and fourteen millions on this North American continent know what we have to show them.

The task is too great for any city or municipality to undertake alone, and is entirely the duty of the Provincial Government to inaugurate and carry out for the benefit of the whole province. The main highway through the province from Vancouver to Alberta is already being constructed, but the sections which are not yet under construction should be commenced at once and rushed to completion. This road alone would give access to 600 miles of the grandest scenery in the world, and would be an enormous attraction to tourists from all parts of the Dominion and the United States. It would mean that private enterprise would put on local services at all points of interest; new communities would spring into existence at the different central points.

To bring the tide of tourist travel to British Columbia, the logical summer playground for the hundreds of thousands who travel during the hot unbearable weather in the greater portion of this continent, it is necessary to open up roads and trails to every point of interest in the province, and to provide accommodation at points where at the inauguration of the scheme, no private enterprise could be induced to undertake. For instance, a government hotel should be built and operated in both Strathcona and Jasper Parks. Not elaborate structures, but hotels after the style of those owned by the New Zealand Government; to cost not more than \$100,000 each equipped and ready for business, with accommodation for, say, one hundred guests each.

Open a tourist bureau in four of the principal cities in the province,

namely, Vancouver, Victoria, Prince Rupert, Nelson, and also in Banff and Edmonton, each with a display of enlarged photographs of everything of interest to be seen during the tourist's stay. The personnel of each office should consist at the start of two men, a manager and junior, both of whom should have travelled everywhere in the province and know from first hand experience what they are selling. They would make out a complete itinerary for any section the traveller asks for, and aid him in choosing his route and sell him coupon tickets to cover every means of transportation available.

The advantage of coupons lies in the fact that the prospective tourist has paid for his complete trip before he leaves the office and when he has once bought his transportation he will undoubtedly use it. The cost is forgotten when the money is paid and he will consider it his duty to get value for what he has spent; he will use the coupons the same as he would use a car or club tickets. Every day he can be induced to stay in the province means an expenditure of at least \$5 per day for living expenses. If he is simply directed to go from one point to another and the bureaus are not in a position to sell him coupons, the system is incomplete, and the chances are, the prospective tourist will quit before he has completed any itinerary which is given him.

Arrangements should be made with every transportation company in the province whereby Government coupons sold in the bureaus would be accepted by the companies, the same to be paid for as sold by the Government and the companies allowing a commission on the sale of tickets.

Finally, expert and aggressive advertising should be done on a scale that will bring results. \$100,000 for the first year is only a small amount, and the Government can increase the sum annually according to results. I am of the opinion that half a million dollars will not be considered too much within five years of the commencement of the scheme.

When the different cities and districts can see definite results from the increase in the tide of tourist travel, they will need no urging to develop the attractions which they possess; neither will the Government hesitate to spend all the money needed to augment the revenue of the province.

If this article should meet the eye of the man who lacks faith and vision and who has a doubt about the results to be obtained, I would point out the record of Switzerland proper. It is the country which most resembles British Columbia, (the "Switzerland of America"), but is only one twenty-fourth the size. The difference between the two lies in the fact that our scenery is on a larger and grander scale; our mountains are higher and more rugged; our rivers, lakes and waterfalls are more immense; and the variety of colour from forest, undergrowth and natural meadow exceeds that of Switzerland, because we have it in all its original beauty. Switzerland, during the course of many centuries, has cleared all its valleys, and they resemble huge meadows, nearly devoid of timber, and are all under pasture or cultivation. Before the Swiss realized the value of their country's scenic charms and when they depended entirely on the sale of dairy produce, they were the poorest nation in Europe, but to-day there is no more prosperous people, owing to the enormous tourist travel which they enjoy, not only during the summer months, but also in winter from the winter sports. Which latter could be developed in British Columbia when the time arrives.

Take Los Angeles as another instance of the result of aggressiveness and advertising. This city is situated in latitude thirty-four degrees north in Southern California, on the main line of the Southern Pacific Railway, about twelve miles from the ocean, in the centre of what was a dry arid plain. In 1892 it had a population of 50,395; to-day, as a result of boosting its climate, and the magnificent community spirit which it created, it boasts of an estimated population of 611,000 in the city alone, besides a number of adjacent communities, some of which are as large as Victoria, and which were hardly in existence when their campaign was first commenced. To-day, the estimated number of tourists visiting Los Angeles and Southern California is 500,000 yearly, and the estimated revenue from tourist travel in the city and adjacent districts is \$60,000,000 per annum. Los Angeles is not satisfied with its record. They have started an "All Year Club" to bring tourists there during the summer months as well as the winter season, and are raising a fund of \$900,000 to be spent in special advertising over a period of three years, to explain to

the American people that theirs is not only a winter but a summer climate. The "All Year Club" in reporting back to the main body declare that Los Angeles is the most prosperous city in the world, and that, in going after the summer business, they are only insuring a continuation of the prosperity which they have enjoyed for so many years. The committee also gives credit to the Los Angeles Chamber of Commerce for the results they have obtained, and states that their population consists of 60 per cent. of those who originally were tourists.

What Los Angeles has done we can do, only we can get bigger results. They were a city only, we are a province. They had fresh air and climate only to sell. We are the "Switzerland of America," and have the greatest aggregation of the finest scenery on the North American Continent to show to the same population they draw on. We have a summer climate that is heavenly compared to thirty-four degrees north or south, and one that will appeal to thousands who intend to take a vacation when ever possible. A trip through British Columbia by means of any transportation whatsoever, whether it be by private motor car or, for the less fortunate, by public conveyance, is an experience that will make the tourist think he has tasted paradise, and cause him to be a living advertisement for others intending to take a holiday.

Let us adopt this plan and develop the greatest asset we possess and at

the same time follow the line of least resistance. The cost is small and the risk nil. One hundred and fifty thousand dollars a year will cover every expenditure for bureaus and advertising. The finishing of the roads and trails and the building of the two hotels will provide employment for the unemployed during the coming fall and winter, and the situation at present indicates there will be an unemployment problem. There need be no further expense beyond the salary of a general manager, who would be under the honorary commission of, say, two men and a cabinet minister as chairman.

With tourists will come an average of two permanent residents to

take care of the wants of every five travellers; a certain percentage of tourists will return to settle; industries will follow the growth of population; land clearing will be carried out as demand requires; one thing will lead to another and we shall accomplish more in the next five years than we have done in the last thirty. Let us get together and do it, and not keep on waiting from year to year for something to turn up, and continually asking the Dominion or Provincial Governments for temporary works to carry us over hard times. The remedy is in our own hands.

Much so-called love is only lip deep.

A New Phone Directory

New Telephone Directories are being distributed to all our subscribers this week. Many additions to the earlier lists have made it necessary to make

MANY CHANGES IN NUMBERS

To avoid delay and wrong connections which are annoying to the person calling and no less to the mis-called subscriber, all are asked to

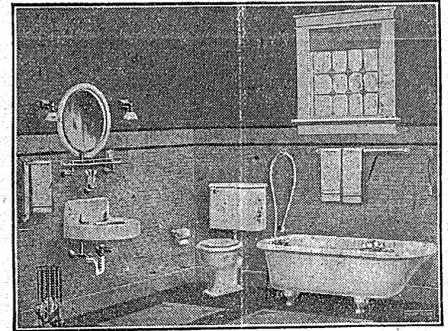

GET THE RIGHT NUMBER

of the persons wanted before calling Central.

Please destroy all old Directories.

Total Assets in excess of \$500,000,000

Branches in London (England), Paris (France), New York, Chicago, San Francisco, Spokane, Mexico City, and Newfoundland. Correspondents everywhere.

Westbank Notes

Mr. H. Brown paid a business visit to Kelowna on Saturday.

Mrs. Lundin was a passenger north on Saturday.

The Westbank Boy Scouts, under Scoutmaster James went on their monthly hike into the hills. The troop left at about 11 o'clock, camping at noon on Powers Creek and had lunch consisting of many delicacies, also fish caught by the scouts in the creek.

After lunch the scouts were examined for their tenderfoot tests, then there was an hour of instruction by the Scoutmaster.

At about 5 p.m. the camp broke up and the Fox patrol under Patrol Leader Thos. Drought laid a trail and the Eagle patrol under Patrol Leader Howard Jones tracked them home, ascertaining the trail by the helpful scout signs.

The Scoutmaster and scouts greatly enjoyed the outing.

The Westbank people held a picnic at the lake on Saturday, July 9 and enjoyed themselves immensely swimming, boating and fishing. In the evening the crowd was entertained by Mrs. McIntosh, thus ending a very pleasant day in a very pleasant manner.

The fruit crop here is larger than at first expected and a fine lot of cherries are now being brought into the packing houses.

Miss Winnifred McIntosh has returned to her home here coming in on Friday's boat. Miss McIntosh for the past year has been teaching at Hillsdown, Alberta. She was given a hearty welcome.

CONVENTION OF IRRIGATORS TO BE AT VERNON.

(Continued from Page 1.)

Summerland; other addresses were delivered by Professor Carpenter, of Denver, Colorado; Price Ellison, M.P.P.; R. E. Campbell, Dominion Superintendent of Forestry; Duncan Ross, M.P.; and the Hon. Martin Burrell.

This also was a very successful convention. Several inspiring and instructive speeches were given, and the delegates were entertained very hospitably by the citizens of Vernon. After the convention was over the Mayor, Mr. Timmins, asked the delegates to stop over a little longer so that the city could show them some more tangible hospitality and he invited all of them to a banquet given by the city.

PAST CONVENTIONS

Since 1908 the Eastern Canada Irrigation Association has held conventions east and west of the mountains in alternate years, with the exception of 1920, when for two years in succession the convention was held in Alberta. The convention in 1919 was held in Medicine Hat at a time when the movement for the development of co-operative irrigation schemes in Southern Alberta had al-

most reached a deadlock. The guarantee of Government assistance was required by the irrigation districts in the course of formation and neither the Provincial nor the Dominion Governments could see their way clear to give this guarantee.

Meanwhile three dry seasons had made matters desperate for hundreds of farmers on whose lands it was possible to bring water if only irrigation systems were constructed. The centre of the movement for irrigation extension was Lethbridge. The fine crops grown on the irrigated lands around Coaldale and elsewhere had convinced the people of Lethbridge of the great possibilities of the surrounding country if only water were brought on the land wherever it was possible. They brought their case before the convention at Medicine Hat. The opinion at this convention, extension in Southern Alberta and in Western Canada generally would be better favored by holding the fourteenth convention at Lethbridge instead of at some point in British Columbia, and a motion was made by one of the British Columbia delegates to the effect and seconded by a delegate from Saskatchewan and passed by the convention unanimously.

RETURNS TO VERNON

This year the convention is returning to Vernon after a lapse of fourteen years. Since it was last in this city conventions have been held at Calgary, Lethbridge (three times), Bassano, Maple Creek, and Medicine Hat, east of the mountains and at Kamloops (twice), Kelowna, Penticton, and Nelson, in British Columbia. Three times in the history of the association has the convention been held in the Okanagan Valley—at Vernon in 1908, Kelowna in 1912, and Penticton in 1914. All of these conventions were successful from every point of view, but from present indications this year's convention at Vernon is expected to surpass all previous ones.

Make Use of Your Pasture

Have your good pasture going to waste? If so, increase your herd and make use of it.

This Bank makes a special feature of loans to farmers. Have a talk with our local manager.
