

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 4, No. 42

SUMMERLAND, B.C., MAY 17, 1912.

Whole No. 196

RAILWAY CONSTRUCTION NOW UNDER WAY.

Notes of Progress Along the Line.

The advent of the railway contractors has made a marked change in the volume of business about the waterfront and streets. A number of four-horse and mule teams are busily engaged transferring stores and material from the dock to the right-of-way. Messrs. Carlson & Co. have completed their large warehouse beside the dock trackage and have also built an office on the shore between their storehouse and the Post Office. A great deal of material is arriving by each trip of the Castlegar, and while many carloads are in storage, the goods are being transferred to the camps as rapidly as possible.

A resident who visited Penticton recently reports that merchants there are feeling very sore because of the establishment of the base of supplies at Summerland. That town had evidently counted on being the centre of activity for construction both east and west. According to information gathered at Carlson & Co.'s office, Summerland will be the base of supplies for construction south to Penticton and west as far as the present contract covers.

The site of the proposed line is also a scene of much animation. Here and there at short intervals sub-contractors are building quarters, and in one or two places actual removal of dirt has commenced. All along the right-of-way is being cleared. There will be ten crossings by the railway of the roads in the district, all of which with one exception have been amicably adjusted. That nearest Trout Creek Canyon will be submitted to the Railway Commission.

While there are a good many men about the town and district who have not yet commenced actual work, excellent order still prevails. Reports of petty stealing here and there being the only irregularities heard of.

A recent issue of the Oroville Gazette reports a great caravan of wagons and men passing northwards through that town heading for Okanagan Lake where they are to work on the Kettle Valley Railway. Box cars or any other sleeping accommodation was utilized, but notwithstanding that it was impossible to find shelter for them all, they were quiet and orderly.

(Star, Princeton.)

J. J. Warren, president of the Kettle Valley Railway, spent three or four days in and about Princeton last week, leaving on Saturday for Penticton. He thinks Princeton will grow with the development of its resources.

It is not probable any contracts for grading on the Kettle Valley line will be let from Princeton east or west before the latter part of summer or early fall. There is only one locating survey party in the field, Brooke's, and until he has finished it is conjectural where the line will finally be located. From the Pivemile country there are two routes by which to approach Princeton.

(Grand Forks Gazette.)

Contracts have been let for 45 miles of construction work on the Kettle Valley Railway west of Carmi to Cross, Duffy & Heckman, and Carmi is at present the scene of much preliminary construction activity, according to Chas. Mix, who returned this week from a trip up the West Fork.

Subcontracts have been let to Williams & Pendergast for nine miles, and to J. Dusault for ten miles. They are getting supplies in and having camps built to proceed with the work.

Steel is now laid from Midway to within five miles of Carmi, a distance of 27 miles. The new contract let will be rushed to completion this summer, and will take the steel close to the summit on route from Carmi to Penticton, a distance of 78 miles.

(Merritt News.)

Twohy Brothers have secured the contract for thirty miles of Kettle Valley construction, from the end of the roadbed already made out of this city towards Princeton. Bright & McDonald have secured the con-

tract for the work from the summit of the Coldwater river to the head of the Coquahalla. Dirt will begin to fly as soon as the road finished is opened for construction trains. This work is delayed on account of customs difficulties at the boundary over which the locomotives are being brought.

Last week Chief Engineer Kennedy, of the V. V. & E. telegraphed to the foreman of the Great Northern construction work at Hope to commence work up the Coquahalla. The Kettle Valley Company will not be caught napping, and it is expected that there will be a grand rush between the two companies to get the first steel laid in the Coquahalla. The dilatoriness of the engineer appointed to report upon the feasibility of a two-road route up the Coquahalla bids fair to waste the summer. Neither road can afford to wait upon such slow moving tactics, and it would seem that they are going to build the roads and then let the engineer find out that two roads are quite feasible.

WORK AT PARADISE FLAT.

A gang of about fifteen men are working a transformation in the Paradise Flat district, Summerland's latest subdivision, at the head of Peach Valley. A year or two ago, this district was a wide expanse of wooded virgin soil. Now, by man's direction, Nature is being made to yield a more profitable crop than cordwood. Development work is proceeding apace. The pipe for the irrigation system is being laid as rapidly as a shortage of labor will permit. The great work now on hand, however, is the planting of trees. A large shipment of nursery stock arrived recently, and if the ideal conditions for this work which have lately prevailed continue, rapid progress will be made. Before planting operations stop, some twenty thousand trees will have been set out.

The Paradise Flat proposition, as a whole is a most attractive one. It will appeal especially to investors who prefer to get in at the beginning of things, rather than at a later period of orchard development. All the planted tracts are being fenced, and will be served by the municipal pipeline irrigation system now being installed. Provision is also being made for a domestic system, which will be installed when the demand is called for. Already several residences are in the prospective, and Paradise Flat will not be the least among the flourishing adjuncts of Summerland, if present indications are rightly interpreted.

REAL ESTATE TRANSFERS.

The ten acre orchard on Jones Flat, the property of G. A. McLaine has been purchased by J. L. Hilborne, of Leamington, Ontario, who recently visited this district. The sale was made through the office of G. A. McWilliams.

Another property to change hands is that held by Clive Dent, of Winnipeg, an 8 1/2 acre lot opposite T. J. Garnett's. Mr. G. Marshall is the purchaser. This sale was also made by Mr. McWilliams.

RIFLE ASSOCIATION.

The attendance at the last practice shoot was all that could be desired, the whole of the members who have joined this year, nineteen in number, turning out, together with ten men from the Penticton Rifle Association. The latter motored up for a shoot over the long ranges, to get in practice for the Okanagan Shoot this week. The leading scores of the local men were:

	200	500	600	Total
M. Stournt	32	32	31	95
J. Dunsdon	33	32	30	95
O. Smith	27	33	31	91
H. Dunsdon	31	31	29	91
B. Stewart	28	32	28	88
W. Nelson	20	31	25	86
F. Gartroll	28	25	32	85
F. Nixon	26	27	20	82

On Wednesday morning about eight members of the Summerland Club journeyed to Armstrong to take part in the annual three days shoot of the Okanagan Rifle Association, and it is fully expected that they will uphold Summerland's previous successes. Practice on the range as usual this week.

ANOTHER PROTRACTED COUNCIL SESSION.

CLEAN-UP DAY TUESDAY NEXT, MAY 21.

Reeve and Coun. Robinson Will Make Provision for a Lock-up. Dog Tax By-Law Finally Passed. Garnett Valley Irrigation Rate Crops Up Again. Some Litigious Questions Raised.

The regular meeting of the Council on Tuesday last was another all-day session. Many matters of minor importance were dealt with, and a few of greater moment. It was a great day of discussion. The minutes of the last meeting were read to a full Council, and declared adopted by the Reeve.

PERSONAL INTERVIEWS.

Before proceeding with the regular business several who sought personal attention from the Council were given hearings, and adjournment for luncheon was necessary before these were concluded.

R. S. Munro, of Peach Valley, was the first heard. He came representing the interests of his brother, Dr. Munro, of Vancouver, protesting against his assessment for water rates and land values. An adjustment satisfactory to him was made on the water rates last year, but this year the charges had reverted back to the original amount. Additional assessment and general water rates had been levied on account of a pipeline ordered to be laid, but not yet installed. It was pointed out to Mr. Munro that the Assessment Roll for the year 1912 had been closed, and to open it again would be a bad precedent.

Mr. Munro also called attention to three other matters, upon which he had already been in communication with the Council. They were the removal of some trees from the corner of a lot, which were interfering with the growth of crops he was trying to raise, and which the Council were under promise to remove; the bad condition of the road across the alkali swamp, which needed building up with gravel; and the seepage from a leaking flume, causing alkali to rise. Coun. Lewes will investigate these matters with Supt. Mitchell.

W. J. Smith, of Garnett Valley, again emphasized a long standing complaint he has with the Council. A small dam on his property, used to raise the water in the ditch up to a level to enter the Siwash Flat flume, was overflowing, with detriment to his land. This dam was the source of Mr. Smith's domestic water supply; but the water did not run fast enough to keep the dam clear of obnoxious growth, thus affecting the purity of the water. This state of affairs has prevailed for three years.

Schemes for the abolition of this dam were discussed, and it was finally promised that the Council will investigate and act as they see fit.

PEACH ORCHARD SUB-DIVISIONS.

Mr. J. M. Sutherland presented for the approval of the Council plans of sub-divisions in Peach Orchard, lots 1 and 2, block 6, and lots 1 and 2, block 9. A contentious question arose when it developed that the legislation under which these plans had been drawn up was since amended, and this involves the question of the width of a street allowance. Mr. Sutherland argued that the Council could state the plans approved under the old legislation. Then the Registrar at Kamloops could take up any question of legality with the Attorney-General. No liability attached itself to the Council if this course were pursued. Mr. J. A. Kirk supported Mr. Sutherland in this view. The question for the Council was whether, in the face of new enactments now in force, approval could be given to plans prepared under the obsolete laws.

It was proposed in the morning to refer the question to W. C. Kelley, solicitor, for legal opinion. Later in the afternoon, however, it was resolved that the plans be affirmed in so far as the streets are concerned, and the Clerk be author-

ized to sign the same on the other conditions of the Land Act being complied with.

Mr. Sutherland brought up the question of the claim for damages presented to the Council some time since on account of sawdust in water pipes. This claim was turned down at the time on the ground that too long a time had elapsed before the Council were notified of the damage. The Clerk read from the statutes supporting this decision, and Mr. Sutherland accepted this ruling.

Mr. C. Bentley, on behalf of Mrs. K. Bentley, asked permission to consolidate two lots of four and five acres respectively, separated by an apparently unusable road allowance, into one lot of nine acres. Mrs. Bentley was prepared to replace the flumes at present in use by pipes at her own expense, if the Council would put water to one point which would serve the whole nine acres. Tacit consent was given to this.

A rebate asked for by Mr. Bentley on the ground that six days of irrigation out of sixty were lost, entitling a discount of one-tenth, was not allowed.

Regarding a road in the vicinity of their property: a short cut across a corner of a piece of land now held by Mr. Logie was being used, but this was being fenced in, and traffic would soon have to use the proper road allowance, which was in exceedingly bad condition. Mr. Bentley suggested that the Council take steps to secure the piece of land now being used, which would make a much better road, and give more satisfaction. Perhaps the Council could visit the spot and satisfy themselves as to this.

The hearing of the cases, and incidental discussion occupied the entire morning session.

T. P. Thornber, municipal electrician, was in attendance after luncheon in regard to an account presented by him, which had not yet been paid, on account of the time charged up being questioned. On a vote of the Council this account was passed. In reply to a request from Mr. Thornber, on behalf of the ladies of the Anglican Church, permission was granted to extend the electric light temporarily to Agur's boat house, at no expense to the Council.

GARNETT VALLEY IRRIGATION RATES.

The question of the Garnett Valley irrigation rate was raised by J. Dunsdon, who waited on the Council. Mr. Dunsdon stated that he was prepared to pay an irrigation rate of \$2.50 per acre, but since this was the maximum rate his agreement with the Garnett Valley Land Co., allowed, he could not recognize any discounts or rebates. Including the discount the present rate was three dollars per acre, which was higher than the Council could legally go, if they were to abide by the agreement made by the Land Co. to the lot owners.

This contention raised a discussion on the question of irrigation rates throughout the municipality. The rates must be kept uniform, and at the present scale of charges, the system is not paying expenses. The Council desire to settle the Garnett Valley amicably, avoiding, if possible, the employment of legal machinery. The advice of W. C. Kelley will be obtained on the two agreements.

The matter of irrigation rates being charged from the 1st of May, when the water was not available till some days later, was again brought to the notice of the Council. Mr. Dunsdon suggested that the water be turned on earlier, so that the system would be in full swing by May 1.

On behalf of the Civilian Rifle Association, Mr. Dunsdon asked

INSPECTOR MILLER COMING.

Secretary Logie has this morning received information that School Inspector Miller will be here next week and asks that Mr. Logie arrange for a public meeting to be held on Wednesday, the 29th inst. All interested in school matters are requested to be present at the Central School on that evening to hear what Inspector Miller has to say on the school situation in Summerland up to the present time.

EMPIRE DAY PROGRAM.

Arrangements have been made to hold a day of sports on Empire Day, Friday next, at West Summerland. The two big events are an Okanagan Valley League Football game, Vernon versus Summerland, and a baseball game, Oroville versus Summerland. These alone should draw good crowds. The athletic events are as follows:

- 100 yards flat race, open.
- 220 yards flat race, open.
- 1/2 mile flat race, open.
- 1/4 mile flat race, open.
- High jump, open.
- Long jump, open.
- Putting the weight, 14 lbs, open.
- Sack race, open.
- Entry fee for the above, 25 cents each event. The following have no entry fees:
- Thread and needle race.
- One mile relay race, four men.
- 100 yards boys under 15.
- 50 yards boys under 15.
- 50 yards girls under 15.
- 50 yards boys under 12.
- 50 yards girls under 12.
- 100 yards Boy Scout race in uniform, 14 years and under, and over 14.

A tug of war will also be held. A prize list of \$150 has been subscribed. Events will not necessarily be run in this order. Entries will be received by Chas. A. Marshall, secretary.

At 8.30 p.m., in Empire Hall "The Summerland Players" will present a three act comedy "Cousin Kate." Reserved Seat, \$1.00, admission, 75 cents.

GOD SAVE THE KING.

HOSPITAL AID.

The Ladies' Hospital Auxiliary, who have undertaken to provide for the rental of the hospital building, will hold a ten cent tea at the home of Mrs. R. M. Ross, on Tuesday afternoon, May 21st, at three o'clock. The proceeds in full will be applied to the rent account. Gentlemen as well as ladies are invited to attend, being assured a pleasant hour. There will be music while tea is being served.

PENTICTON'S TAX RATE.

The Penticton Council have struck the tax rate for the present year at 17 1/2 mills. This is 1/2 mill less than last year, despite the fact that provision will have to be made for interest and sinking fund on waterworks and electric light debentures to the extent of \$26,000. Another year the revenue from these departments will meet this, but owing to the fact that water will not be turned on before July, and electric current not before winter, the income will be small this year.

The low tax rate would not be possible were it not for the fact that there is an increase in the assessment over last year of over one million dollars. The single tax is in force and no taxes are collected on improvements. This is a means of discouraging speculation and encouraging building to a very large extent.

A grant of five hundred dollars has been made to the Board of Trade for publicity purposes. Yet there is a strong feeling that this amount is inadequate, and a movement is on foot to ask the Council for a much larger sum and submit the whole question to the people on a referendum vote. If the necessary signatures are attached to a petition this will likely be done quite soon.

CARD OF THANKS.

The family of the late Mrs. Dale desire to express their sincere thanks for the kindness and sympathy extended to them by so many friends in the time of their bereavement.

A SUCCESSFUL PERFORMANCE.

College Choral Class Gives Cantata "The Rose Maiden."

Monday evening's performance of "The Rose Maiden," a cantata by Sir Frederic Cowen, was a success. In some respects it was the most enjoyable musical event the College has given this season. Some three years have elapsed since a local choral concert was given, but it is hoped that another three years will not elapse before another comes along.

Almost two hundred people gathered in the College Gymnasium, comfortably filling the hall. This was, perhaps, not as many as were expected, but this is a busy time of year. Certainly there were many more who would have attended had they known the nature of the music.

"The Rose Maiden" is a typically modern composition. The music carries with it a subtle suggestiveness, in harmony with the beautiful lines adapted from the German. The solo arias are for the most part simple and uninvolved, appealing on this account more strongly to the audience. The choruses were few in number but effective, and strongly rendered. Printed copies of the words allowed the audience to follow the progress of the story, though the value of this privilege was discounted when the lights were reduced.

The big hall is admirably suited to concerts of this description. The platform was arranged very effectively, and accommodated the performers, who numbered about fifty.

To Mrs. Geo. Ross belongs the honor of the evening. Seldom, if ever, has Mrs. Ross been heard to better advantage. It is some time since she has appeared upon a public platform, and it was indeed a welcome reappearance. Particularly pleasing was her solo, "The Rose of Love," and the repetitions of the tuneful air.

Miss Annie Campbell has already appeared in College recitals once or twice. Her contralto is of exceptional quality and volume. Overcoming a slight tremulousness at first she sang later with a confidence beyond her youth.

Mr. B. Newton possesses a tenor voice of wonderful clearness and strength. He reached his highest notes with surprising ease, and with no sacrifice of tone or volume. His was perhaps the heaviest solo part, "The Sleep of Even" his last solo, appealed most strongly to the audience.

Mr. Wallace Wright, baritone, was lacking in volume, but nevertheless sang his solos with rare sweetness. It was in the concerted passages that his voice was partially lost.

To Miss Loa Scheeler, accompanist, fell the hardest work of the evening. It was a difficult accompaniment, but at the hands of Miss Scheeler nothing was lost. To her should go a great deal of the credit for the success of the performance.

The chorus consisted of nearly fifty voices. The male parts were short, but still held their own. The familiar "Bridal Chorus" was their best effort as a whole. The ladies' chorus also deserves special mention.

The entire performance was a great tribute to Prof. W. H. A. Moore, the conductor, who spent much time on its preparation. Suggestions are being heard for a repeat performance, and this would be welcome, for such a work cannot be assimilated at one hearing. Choral concerts are always popular, and this work should be made one of the regular branches of the Music Department of the College, which is now properly looked upon as the centre of Summerland's musical activities.

MAYOR LOSES HIS SALARY.

Nelson, B.C., May 15.—Nelson's mayor is now without the salary of \$1,200 a year, which has been paid to the city's chief magistrate since incorporation in 1897. Announcement was made to this effect yesterday on account of the amendment to the Municipal Act, which prohibits the payment of a salary to a mayor in any city with a population of less than twenty thousand.

THE HOME CIRCLE.

Crude Thoughts From the Editorial Pen.

NO matter how your mothers may speak, their hearts are in the right place; if their attire is old-fashioned and their manners not up to the frills of the twentieth century standard, they have had experience of more value than all the schooling and extra accomplishments that you may think of shining excellence. Heed your mother—you will never regret it.

It is the mother of a household whose life is chiefly threatened by monotony. She stays at home. She is always in the house seeing the same things, hearing the same voices, doing the same work day after day, with endless regularity. The demands upon her time and strength and love and patience are increasing, and the wonder is that she does not break-down more frequently than is actually the case.

GIRLS, listen to your mothers; they are your wisest teachers, your best counsellors. Even though you have received a college education and the dear one who in all probability has denied herself to give it to you has never gone beyond the third reader, you can rest assured that it is not book learning that will keep your feet away from many pitfalls that she can warn you from in tender, loving fashion that you will do well to heed.

ONE reason why some men do not get along better in this world is because they have not the proper stimulant in their homes. Their homes lack those little touches of refinement which bring the best out of them. Neatness and taste are possible in the poorest homes. Let a woman make the atmosphere as dainty as her means allow, and she will raise her husband to the same standard. And as she elevates him the effort is felt upon herself, her children, her home, and her future.

WHEN you want to get your grandest idea of a queen, you do not think of Catherine of Russia, or of Annie of England, or Marie Theresa of Germany, but when you want to get your grandest idea of a queen you think of a plain woman who sat opposite your father at the table or walked with him arm in arm down life's pathway; sometimes to the Thanksgiving banquet, sometimes to the grave, but always together—soothing your petty griefs, correcting your childish waywardness, joining in your infantile sports, listening to your evening prayers, toiling for you with needle or at the spinning wheel, and on cold nights wrapping you up snug and warm. "Mother! mother!" Ah, she was a queen!

MANY women are martyrs, and yet they do not know it. They shut the sunshine out of their houses and their hearts, they wear veils, they carry parasols; they do all possible to keep off the subtlest and yet most potent influence which is intended to give them strength, beauty and cheerfulness.

DO not distrust your friend. You may not always understand his actions and consequently you may not interpret them aright. If he is impulsive he may not always act in accordance with your ideas, he will make mistakes, and perhaps stumble by the wayside. But if he is your friend stand up for him and believe in his goodness and virtue and his desire for your welfare. Remember that you cannot see his heart, and there is more of nobility and goodness than appears on the surface. You cannot afford to distrust him; for real friendship is rare. Do not hold yourself aloof from him but encourage him by counsel, precept and example. Help him if he is weak, and encourage him if he falters. His heart will go out in gratitude, and you both will have made the world better.

WOULD it not be a good plan for the girls in country neighborhoods to form classes, and get a competent, experienced dressmaker to teach them the principles of dressmaking. It is a satisfaction to wear well fitting, stylish dresses, though they need not be, and if home-made, would not be, expensive ones. A perfect-fitting waist pattern once secured—and this the teacher should be able to give them—endless variety may be made by different materials and modes of trimming. When their course of instruction was finished, the class might subscribe for two or three of the best fashion monthlies, and then keep up with the best new modes. They could and should be able to help one another in the parts of fitting that one cannot well do for herself, and be gaining at the same time an art useful to them all their lives.

IF all the members of a family were as courteous and kind to each other as they are to strangers, what a difference it would make in the home atmosphere.

WE never knew a man who was faithful to his early and adopted home who was given over at the same time to any gross form of wickedness. If you find more enjoyment in the clubroom, in the literary society, in the art saloon, than you do in these unpretending home pleasures, you are on the road to ruin.

ALL the elegance in the world will not make a home, and a spoonful of love exceeds whole shiploads of furniture and all the gorgeousness the world can gather.

FRIENDS OF INDIANS WAIT ON FEDERAL GOVT.

Ottawa, May 7.—The old appeal of the British Columbia Indians for some sort of recognition of the title claimed by the Indians to lands in British Columbia was renewed to-day, when a deputation consisting of Rev. Canon Tucker of London, representing the Moral and Social Reform Council of Canada, and Rev. A. E. O'Moara of Victoria, representing the Indians and their friends, waited on the government. The ministers present were Rt. Hon. R. L. Borden, Hon. Robert Rogers, and Hon. Martin Burroll. Mr. O'Moara argued that

the Dominion government ought to take action, the Imperial and the Dominion governments having always favored a recognition of the claim or an adjudication by the survey council, while the provincial government had held that there was no issue. Hon. Robert Rogers assured the deputation he would take immediate steps toward a satisfactory solution, and would see that the rights of the Indians were safeguarded.

We do not always perceive that even the writing of a note of congratulation may be made by us the performance of a most sacred and blessed work.

RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion. LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 17, 1912.

JAIL AND POLICE.

THE IDEA of building the jail and courtroom over the electric light station is a happy one. By building there the lot on Ninth Street will be saved for other purposes, and to have the cells and courtroom above the electric light station will greatly simplify the matter of heating during the winter. The present building could well be made one storey higher and the upper storey would be readily approachable from the street. By using the same material—cement blocks—there would be an air of solidity and security that would have its moral effect. Altogether, we think this a much better site than that originally proposed, opposite the Drug Store.

That the townspeople are disappointed in the arrangement made for police protection is, of course, natural, and there is no gainsaying that the service is inadequate. To have one man about the streets during the hours of the evening when people are about may be of some use, but before there can be a real feeling of security there must be an officer on patrol well into the night, if not all night, and he should be uniformed. The simple display of brass buttons as an evidence of preparedness to enforce the law would in many instances prevent the breaking of it. In fact, the district cannot be said to be properly policed until there are two or three uniformed men, one or more of whom should be mounted. Frequent trips should be made over the district, and the construction camps visited often. These visits would act as a warning that it would be unwise to break the laws and be an evidence of the fact that the authorities are prepared to keep order. A few dollars thus spent in police patrol may be the saving of much expense later and would be cheap insurance for the safety of citizens and property.

A GREAT PUBLIC SERVANT PASSES.

A STERLING public servant, great in courage and capacity, was Judge Mabee, chairman of the Canadian Railway Commission, who died recently. Combining a judicial temperament and a fine legal training with admirable common sense, endless patience, clear cut decision and an unflinching desire to seek justice by the shortest method, this man had made the Railway Commission in many respects the most useful of our federal tribunals.

Many judges have fine ideals and admirable theories; Judge Mabee put these into practice. His way of doing business would suggest to a layman that he had a well defined idea as to how much time is wasted in the courts, how the law's delays baffle and irritate the honest man who seeks simple justice and who has neither the patience nor the money to abide the refinements of what we call legal "battles." Judge Mabee brushed aside the non-essentials firmly and quickly; he frowned upon trickery; he protected the weak and the confused witness, asking only that he tell his tale honestly. He discouraged lawyers who desired to embroider evidence and wax irrelevantly eloquent. He cared no more for the wealthiest corporation or the most eminent defendant than for the humblest petitioner. Neither prejudice nor sympathy shadowed his judgment. He sought the truth, and he had a rare capacity for getting at it under circumstances that would have discouraged a man less patient or less resourceful.

Of powerful physique, and still in his prime, Judge Mabee seemed destined to grow old in the public service—but it was written otherwise. Presiding as usual on April 29, he left the bench to go to the hospital he was never to leave alive. No man in Canada had grown more rapidly or more deservedly in public estimation; nor will be more sincerely mourned and honored. He has left the country a priceless example, by showing how much can be done by a public servant who combines high courage and signal ability with unselfishness in seeking to serve the country.—St. John Telegraph.

RELIEF IN SIGHT.

THE CASE of the West versus the railways has been placed before the Railway Commission, and if that body maintains its reputation for fairness established under the late Judge Mabee, the West may hope for a good measure of relief from the oppressive transportation charges now in vogue. It was shown at a recent sitting of the Commission at Toronto that in some cases in the West freight rates are charged more than 200 per cent. higher than in the East. The Commission decided that the onus must be placed on the railways, and that they must justify their existing western rates. The inquiry will go further, so that every phase of freight rates will be investigated. Not only will discrimination against the West as compared with the East be looked into, but also the reasonableness of the complaints of the East as well as the West, and the general basis upon which rates are established. The practical methods of the Commission and the excellent service it is giving the country was shown by the over-ruling of technicalities and other obstructions brought up by the counsel for the railway companies. So good a case has the West that not only has the onus been placed on the railways but they have been given to understand that there must be no delay in the case, and they have been ordered to give notice by May 21 when they can proceed. The whole matter of revenue and operating expenses will be investigated and unless the companies are successful in so twisting the figures as to hide the facts there can be little doubt that a material reduction in freight rates will be ordered.

CANADA'S REVENUE is expanding rapidly, and if the present pace is maintained throughout the year, the revenue from customs duties will total one hundred million dollars. The increase in April, 1912 over that of April, 1911 is more than two and a half millions.

THE SOUTHERN OKANAGAN district, which has already earned an enviable reputation for its excellent fruit, gives fair promise of becoming famous also for its mineral productions. With a mine turning out silver ore of a high grade and the discovery of free gold and rubies in its creeks and good prospects for coal in paying quantities, fruit is not likely to be our only source of wealth.

TUESDAY has been declared a civic holiday, for the purpose of a general "clean-up." While the Review has advocated a different method of scavenging and still thinks that a systematic clean-up once or twice a week should be in vogue, yet until our civic fathers see as we think they should, we would urge upon all to do their utmost to make "Clean-Up Day" a success, that our town and district may look and be the better and more sanitary.

THE CANADIAN PACIFIC is extending its operations even to the continent of Europe. For the benefit of American and Canadian travellers who flock to the Tyrolean Alps sightseeing, arrangements have been completed with the State Railways of Austria and Switzerland, whereby the observation car service now in operation on the company's system on this continent is to be inaugurated in those countries. These cars will bear the familiar legend "CANADIAN PACIFIC" and should give tourists from this continent a feeling of the nearness of home, after all. A nominal fee will make seats in the observation cars available to all travellers. To the European railways cars of this nature are an innovation, and the outcome of this enterprising experiment will be watched with interest.

EMPIRE DAY

"Cousin Kate"

a Comedy in Three Acts by Hubert Henry Davies,
will be presented by

"The Players"

on Friday, May 24, 1912,
at 8.30 p.m. in
The Opera House.

THE CAST:

Local News Items.

Dr. and Mrs. R. C. Lipsett were guests of Mr. J. M. Robinson at Hotel Naramata last week-end.

Rev. A. W. MacLeod preached in the Kelowna Methodist Church last Sunday morning and evening.

J. L. Logie spent the latter part of this week in the hills in connection with the right-of-way of the Kettle Valley Railway.

The hot weather of the last few days has made a marked difference in the lake, the water having risen more than a foot within the last three or four days.

The C. P. R. office is being enlarged to include all the space across that end of the building. The alterations will not only give more office room, but additional waiting accommodation also.

Some International Workers of the World have, according to the Herald, arrived at Penticton. We hope that the authorities will be prepared to deport immediately any of these agitators who may appear in Summerland.

Gold and rubies have been found in small quantities in the brook running through Naramata, known as Camp Creek. A representative of the Review was recently shown three rubies, one medium-sized and two smaller, and two gold nuggets. All were taken from Camp Creek, a short distance below Bridal Veil Falls.

The following have been chosen to play in the Summerland versus Vernon Football match, at West Summerland on May 24: D. Thompson, goal; J. Dowsden, J. Woods, backs; B. Newton, J. Weeks, C. Brind, half-backs; W. Atkinson, W. King, G. Fisher, J. Lacey, J. Templeton, forwards; P. Coles and J. Forsyth, reserves.

The Toronto Ladies' Quartette which appeared in Empire Hall last Friday night proved to be one of the best companies that has visited Summerland for a long time. Those who were in attendance went anticipating a musical treat but were surprised and delighted at the high quality of the programme, each number on which received hearty encores. Each of the four ladies was a finished artiste in her specialty, and in combination made up a quartette that would be hard to equal.

On Thursday afternoon of this week, Mrs. R. C. Lipsett entertained very successfully in honor of the ladies of the College. There were about twenty-five guests, among whom were Mrs. Somerset and her daughter, Mrs. Dean-Smith, who, with Dr. Lipsett, were pioneers in Peachland. Mrs. Somerset and Mrs. Dean-Smith are on their way from California, where they have been spending the winter, to their home in Winnipeg. They are the guests of Miss Robinson, Naramata. Miss Graves, Miss Morrison and Miss Campbell, of the College, helped serve.

CORRECTION.—An important omission was made from the local news item published last week, chronicling the visit of H. L. Garraway, of the Okanagan Fruit Union, to Summerland. Regarding the contracts the Union is making with growers, it was stated that all fruit, excepting that required for local consumption and exhibition purposes, was required to be handled through the Union packing houses. To these two exceptions should have been added a third—perhaps more important than either—that of fruit contracted for by the canneries. Present indications are that a large amount of fruit will be disposed of in this way. The omission is to be regretted, since it might have conveyed to some a false impression of an otherwise fair contract.

The Standard

MONTREAL

THE STANDARD is the National Weekly Newspaper of the Dominion of Canada. It is national in all its aims.

It uses the most expensive engravings, procuring the photographs from all over the world.

Its articles are carefully selected and its editorial policy is thoroughly independent.

A subscription to The Standard costs \$2.00 per year to any address in Canada or Great Britain.

TRY IT FOR 1912!

Montreal Standard Publishing Co., Limited, Publishers.

Local News Items.

F. Whitfield has had a cottage erected at West Summerland near the Presbyterian Church.

The Summerland Tennis Club held a very successful ball in Empire Hall on Thursday evening.

G. A. McWilliams went to Vancouver Thursday morning. He will probably be absent for a fortnight.

The College students held their annual picnic on the Dairy property, Trout Creek last Saturday afternoon.

Next Friday being a holiday, the Review will be issued on Thursday. Will advertisers keep this in mind and have copy for changes in not later than Tuesday afternoon?

There is no longer any occasion for differences in time locally between individual watches. The jeweller has placed a chronometer in his window, which will henceforth give Summerland a standard time.

A. N. Fielden, of England, who has been spending some weeks in Summerland, is reported to have purchased the Theid property in Garnett Valley. Mr. Fielden is returning to England within the next few days, and the property will remain in charge of Mr. Theid.

Rev. and Mrs. F. W. Hardy went to Vancouver Monday morning to attend the Methodist Conference. Mr. and Mrs. Hardy will take a few days vacation after the Conference, and are expected to return on Saturday the 25th inst. There will be no service in the Methodist Church next Sunday.

Whether or not the schools are given a holiday on Tuesday next, Clean-Up-Day depends on Inspector Miller. If he is here on that day there will be two sessions as usual; if not, the children will be conveyed to the schools in the morning and the forenoon will be spent about the grounds, and upon those who are carried will be returned to their homes.

Penticton's hydro-electric scheme which was originally expected to cost \$71,000, will, according to Engineer Latimer's amended figures cost that town \$200,000. Already \$24,000 has been expended for steel piping and the situation is considered serious. Engineer Latimer now recommends the purchase of an oil engine costing \$20,000 to run the dynamos already contracted for.

Messrs. Fletcher & Gowen, the former an expert motor engineer, from Vancouver, and the latter a member of a motor firm in Kelowna, were in Summerland this week, demonstrating with a "Tudhope 30" car. This is a Canadian car, manufactured in Orillia, Ont., largely in use at the Coast. The machine was ferried across to Westbank from Kelowna, and from Westbank to Summerland a fast journey was made by road. Those who investigated the "Tudhope" were favorably impressed with its possibilities as an economical and hard working car for this hilly country.

TEACHERS' CERTIFICATES.

Victoria, B.C., May 14.—Notice has been given by the education department that the Council of Public Instruction has been pleased to admit to the teaching staff of British Columbia for the school year beginning July 1 next, teachers from England, Scotland, Ireland and Wales, and from the several provinces of the Dominion, who are the holders of first-class professional certificates, and to grant them British Columbia certificates of the first class.

In the case of the sister province of Quebec, the McGill Model School diploma only will be accepted as proof of the required professional training.

The Council of Public Instruction, it is also announced, has prescribed a list of text books for use in the British Columbia schools.

"COUSIN KATE."

As a splendid finish to the gala day on May 24th, "The Players," Summerland's excellent company of dramatic artistes, will play "Cousin Kate," which is, perhaps, Hubert Harry Davies' best production. The curtain will be raised promptly at 8.30, and all who purpose attending are requested to be in their seats at that hour, so that they will not miss the first part of the play. "The Players" have already been requested to put this comedy on at Kelowna and Vernon, and it is probable that they will go over farther afield.

Canning Vegetables for Winter Use.

(Farmer's Magazine.)

Many a home knows nothing of the diatetic joys of vegetables in the winter months. Such should not be if the knowledge of how to successfully can them were more understood.

Canning vegetables is not a difficult process. Perfect cleanliness and long cooking are the two secrets of success. To ensure their keeping a darkened cupboard in a cool cellar is all that is necessary.

As the choicest vegetables are the ones that make the most satisfying preparations on the summer dining table, so the good housekeeper will see that none but choice specimens are used for canning purposes. Where plenty rules, absolutely nothing but the choicest should be used. It is a safe rule never to use for canning purposes any vegetable that has passed its perfection. Peas that have begun to harden, tough asparagus, beets that are stringy or beans passed the brittle stage, will be better cast aside. Of course, the asparagus will have been attended to early in June after which will follow peas, tender onions, beans, beets, tomatoes, corn, lima beans, etc.

METHOD.

For vegetable canning use glass jars and thick rubbers. The newer, wider-mouthed, straight-sided jars are more convenient than the old style. Wash and rinse them immediately before filling, in scalding water. Incline the jars so that the water runs into them as soon as the outside surface comes in contact with it and roll them over quickly.

With a few exceptions, the raw vegetables are placed in the jars; cold water enough to fill them is poured in; the covers are laid on loosely and the jars then set in a tank of cold water which should boil for three hours. The water in the tank need not be higher than three-fourths the height of the jars, but the side of the tank should be at least four inches above the tops of the jars. The tank should be covered during the boiling. Cloths laid around and under the jars will prevent their breaking.

When the cooking is within half an hour of completion, pull the tank to the back of the stove, remove the covers, and refill the jars with boiling water. The rubbers are placed in position and the jars sealed and allowed to continue cooking to the end of the required time. When the jars are cold, give the screw tops an extra twist.

PEAS.

Gather them before they become the least overgrown—a day too long on the vines will spoil them. Shell and place immediately in jars. Add salt, fill the jars with water and cook for ten minutes in salt water. Drain off the water. Then arrange as described above and cook.

BEANS.

String beans are cut into lengths, boiled for ten minutes, then put into jars, which are stood in a kettle of water and boiled for two hours. Add a teaspoonful of salt, fill the jar to overflowing with boiling water, screw up, and keep in a cool, dark place. Another plan is as follows: Wash and break each pod in two or three pieces, put on the stove in a saucepan of cold salt water and when it just commences to bubble (don't let it boil) drain the beans out and put into jars that have been washed and scalded. Have ready another saucepan of boiling salt water and fill the jars nearly to the brim, leaving just room enough for one tablespoonful of hot vinegar, screw on the tops and set away. When required for use pour off the brine and put in a saucepan of fresh water with a pinch of soda added; let them come to a boil and immediately pour off the water, then cook as you would fresh beans.

CORN.

Use well-developed corn that has not begun to harden. Cut it from the cob with a sharp knife and pack it into jars, pressing down tightly until the milk overflows the jars. Add no water. When all are filled, place the jars in a boiler and cook half an hour with the covers laid loosely on. Remove from the fire and seal, then cook for two hours longer. The preliminary cooking permits the corn to swell without endangering the jars, which may burst if tightly sealed from the first. Succotash is canned by first half filling the jars with green Lima beans, then filling the remainder of the jar with corn, pressing down firmly. Add a teaspoonful of salt to each jar, and cook like corn.

TOMATOES.

These should be thoroughly ripe. If green near the stem, they develop a disagreeable acidity in cooking. Be careful what kind of utensil is used in cooking tomatoes. Aluminum vessels are preferable; do not use tin or cheap grades of enamelled ware. Pour boiling water over the fruit and draw off the loosened skin. Cut the tomatoes in half. Put them over a fire in a stewing kettle with water enough to float them and cook until tender. Have the jars in readiness. Dip in scalding water. Set on a warm, damp cloth, adjust the rubber at the top and fill with the cooked vegetables. Dip the covers in boiling water. Adjust them and seal. When cool, tighten the covers of all screw tops. Tomatoes will not keep if exposed to the light.

Tomatoes canned whole are especially nice. Use wide-mouthed jars which admit the fruit without crushing. Have the jars scalded. Fill with tomatoes. Pour boiling water into the jars and seal. Let them stand in a covered kettle of boiling water for fifteen minutes. Cool and store.

YOUNG ONIONS.

Remove the tops and the outside skins. Wash them and fill the jars. Let them cook about two hours. Add two tablespoonfuls of boiling vinegar and a little salt to each jar before sealing.

BEEFS.

Young beets are delicious if pulled when less than an inch and a half across. Wash them and cook until tender in boiling water. Skin and slice rather thinly into jars. Lay the covers over them and set at the back of the range in a pan of boiling water. Pour over the beets a boiling hot liquor made from one part vinegar and three parts water agreeably salted. Seal the jars and set them aside to cool.

Municipality of SUMMERLAND

TUESDAY, MAY 21st, has been proclaimed a Civic Holiday by the Municipal Council, and all good citizens are called on to observe the same by making every effort to properly clean up their premises, and streets in front of same, on that day. Committees will be in charge of the work at the Lakefront and West Summerland.

J. L. LOGIE, Municipal Clerk.

WHY OWN

WEBSTER'S NEW INTERNATIONAL DICTIONARY

THE MERRIAM WEBSTER?

Because it is a NEW CRAMER-Webster, covering every field of the world's thought, action and culture. The only new unabridged dictionary in many years.

Because it defines over 400,000 words; more than ever before appeared between two covers, 2700 Pages, 6000 Illustrations.

Because it is the only dictionary with the new divided page. A "Stroke of Genius."

Because it is an encyclopedia in a single volume.

Because it is accepted by the Courts, Schools and Press as the one supreme authority.

Because he who knows Wins Success. Let us tell you about this new work.

WRITE for specimen of new divided page. G. & C. MERRIAM CO., Publishers, Springfield, Mass. Mention this paper, receive FREE a set of pocket maps.

State your needs in 'THE REVIEW' 'WASNT' Column.

"CIVIL SERVICE ACT."

THE qualifying examinations for Third-class Clerks, Junior Clerks, and Stenographers will be held at the following places, commencing on Tuesday, the 2nd July next:—
 Armstrong, Chilliwack, Cumberland, Duncan, Golden, Grand Forks, Kamloops, Kaslo, Kelowna, Ladysmith, Nanaimo, Nelson, New Westminster, Peachland, Prince Rupert, Penticton, Revelstoke, Rossland, Salmon Arm, Summerland, Vancouver, Vernon and Victoria.

Candidates must be British subjects between the ages of 21 and 30, if for Third-class Clerks; and between 16 and 21, if for Junior Clerks or Stenographers.

Applications will be accepted if received not later than the 15th June next.

Further information, together with application forms, may be obtained from the undersigned.

Section 7 of the "Civil Service Act" provides that temporary clerks and stenographers, who have not been regularly appointed by Order in Council, must pass this examination.

P. WALKER,
 Registrar, Civil Service.
 Victoria, B.C., 1st May, 1912.
 my10-je14

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
 Deputy Minister of the Interior.
 N.B.—Unauthorized publication of this advertisement will not be paid for. AUG 20

COAL PROSPECTOR'S NOTICE

TAKE NOTICE that I, John D. Rice, of West Summerland, prospector, intend to apply for a license to prospect for coal on the following described land: Commencing at a post placed about two and a half miles west of Okanagan Lake, in Okanagan District of Yale, on the bank of Trout Creek, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to the point of commencement.

Dated, May 17, 1912.
 my17-je14p JOHN D. RICE.

[Continued from Page 1.]

The Council to donate medals to accompany a trophy shield the citizens of Summerland had presented to the Association. This would be equivalent to a grant. Mr. Dunsdon will ascertain the approximate cost and report later to the Council.

This concluded the hearing of the deputations, and regular business was proceeded with.

THAT POWDER INJUNCTION.

The Reeve read the injunction recently obtained by local application from the railway contractors against the storing of powder within the municipal limits. This injunction cites the municipality as one of the plaintiffs, but the Council repudiate the inclusion of their name as entirely unauthorized. Mr. Tunbridge, of Penticton, who served the plaintiffs, had no instruction from the Council to involve them. The matter will be enquired into further.

CONSTABLE AND LOCK-UP.

Definite steps were taken in regard to a constable and lock-up accommodation. The Reeve reported that in the exercise of the power given him at the last meeting, he had appointed E. C. Graham as Constable for the town section, at a salary of \$30 per month. The duties were particularly from the late afternoon till nearly midnight as circumstances demand. It is hoped that it will not be necessary to make this appointment permanent. Provision was made also for a lock-up. It was suggested that an appropriation be made to cover the cost of a suitable building, but after some deliberation, it was decided to leave the matter of providing for specifications and tenders for a lock-up with the Reeve and Coun. Robinson. The suggested dimensions were 12 x 16 x 8 feet, two cells and an attendance room.

COMMUNICATIONS DEALT WITH.

The Kettle Valley Railway wrote regarding the ten crossings in the municipality. In only one instance, at Trout Creek, near Mr. Neve's property, where the railway meets the road at the same level has any difficulty arisen. The nine agreed upon were approved, and the one in question will go to the Railway Commission for settlement. F. H. Hole wrote asking for a road to the Caldwell lot, which was in his charge this season. This was referred to Coun. Lewes.

W. T. Shatford, of Penticton, asked for the co-operation of Summerland in the matter of the continuation of the dredging of the Okanagan River. No action was taken in reply to this, since the Council do not unanimously favor the scheme.

Communications, from E. B. May, regarding the grade and width of the lane to the Bank of Montreal property. E. Hunt, complaining of insufficient water pressure owing to trouble with valves nearby; and D. L. Sutherland, regarding the Peach Orchard electric light extensions were all referred to Supt. Mitchell for his attention.

M. C. Skillcorn was granted a rebate of irrigation and domestic water rates on five acres above the water line, for the year 1911. Legal advice was tendered by W. C. Kelley regarding the ownership of the foreshore of the Summerland Fruit Company's sub-division on the lakefront. Later, the Clerk was authorized to approve of the plans (Block 46, L. L. 455).

The request of Mr. Kelley that the road upon which his property faced be called "Rosedale Avenue" was granted.

Messrs. Stirling & Pitcairn, of Kelowna, desiring to have a loading platform on to the road at car-level, for the fruit shed they are to erect near the wharf, suggested that the sidewalk for that section of the road be removed to the other side of the street. The Council decided, however, to have the sidewalk put in on the same conditions as that adjacent to the Okanagan Fruit Union building.

T. J. Garnott was granted a rebate of \$20.00 on 1911 rates.

J. Gantroll's communication regarding a quantity of gravel taken from his property will be dealt with by Coun. Robinson.

Coun. Lewes will take up the matter of a road to J. J. Calder's lot.

A CLEAN-UP DAY.

Out of the consideration of a letter from Dr. C. M. Smith, Medical Health Officer, came the worthy decision to have another Clean-Up Day on, Tuesday next,

A SNAP

233 Acres on Okanagan Lake for \$12,000

20 Acres cultivated with 800 Peach Trees, bearing 200 Cherries, 1 year old 250 Apple do. 400 Apple, this spring 100 Cherries do. 100 Mixed Varieties, do. 75 Grapes do.

Cordwood for Sale, for Cash. Tel. Purple 7. Box 141, Summerland.

May 21. The Council will place two teams at the disposal of the community, for the removal of rubbish collected from the roads and public places. A holiday will be called as last year, and it is hoped that the people will co-operate with the Council in their endeavors to get a respectable looking Summerland, in spite of the somewhat short notice. The two districts will organize themselves, as last year.

The Council recognize the pressing need for sanitary measures. The advisability of appointing sanitary inspectors was discussed but no appointments were made.

The Council has no power to act upon the suggestion of Duncan Woods, to provide public sanitary conveniences.

W. Arnett's letter was referred to the Superintendent.

Engineer Latimer's report was placed on file. The Clerk was instructed to write the owners of animals allowed to run at large throughout the municipality, instructing them to keep their stock off the roads.

Settlement for the municipal cemetery was presented along the lines previously decided upon. The deed is now in the hands of the Clerk. The settlement was approved by motion, and the Reeve and Coun. Robinson will look into ways and means for the administration of this property.

DOG TAX BY-LAW PASSES.

The Dog Tax By-law, No. 39, was read a third time, finally considered and passed. An annual tax of \$2.40 on every dog over six months of age, with a discount of one-sixth if paid before July 1, for the current year. Hereafter the tax will be due on January 2nd, discount being allowed for one month. All stray dogs will be impounded, kept for a week, and sold or destroyed.

The Board of Works will call for tenders for the deepening of Prairie Creek to specifications they hold.

ACCOUNTS PASSED.

The following accounts were recommended for payment and approved:

Pay Roll	\$1731.91
Summerland Supply Co., supplies	57.14

Dominion Express Co.	4.45
School Board, requisition	1098.05
Total	\$4,561.78

The Council then adjourned to meet in special session if necessary, at the call of the Reeve.

KELOWNA INCREASES ASSESSMENT.

To meet the additional fixed charges necessitated by the passage of the sewer and school by-laws, the city council of Kelowna has decided to raise the assessment on Kelowna property by half a million dollars. In the event of the passage of all the by-laws the increased assessment will allow of an additional borrowing power of \$100,000. At a special meeting of the ratifiers of Kelowna the mayor and aldermen urged the necessity of carrying the entire four.

Naramata Notes.

Geo. R. Robertson, of Penticton, was a visitor to our vicinity on Wednesday.

Mr. and Mrs. H. W. Endacott were passengers to Kelowna on Wednesday.

Miss D. Simpson paid the parental roof a visit last week, returning on Tuesday to Kelowna.

Mr. and Mrs. Reginald R. Wallace and son, of Vancouver, enjoyed a few days in town this week.

Dr. and Mrs. R. C. Lipsett spent Saturday in town the guests of Mr. Robinson at the Hotel.

The showers of Wednesday came as welcome visitors to the numerous growers of small fruits and vegetables.

Mrs. J. B. Somersett, of Winnipeg, and her daughter, Mrs. E. Dean Smith, are enjoying a short holiday season here.

The construction of the Bottle Works is proceeding rapidly and if the machinery reaches here in due time, the plant should be in running trim shortly after June 10.

The carpenters are busy on a large warehouse being built between the wharves. This building will serve a long felt want to the numerous patrons of the lake service.

The road work in town is proceeding rapidly. The blasting of a number of Nature's giants was announced with special emphasis this week. The men throughout are extremely cautious, and little fear need be entertained by the citizens.

Mr. Hyde, a recent arrival from Toronto, has announced his intention to go into the boot and shoe repairing business here shortly, as soon as his "kit" and a shipment of English leather comes along. The citizens appreciate the presence, at last, of an all-round boot and shoe man in town.

The success which attended the little ten cent concert put up by the Unity Club ladies last Thursday was a delightful surprise to almost everyone, and little wonder that the young folks, and some of those not quite so young, are beginning to talk of the next one which won't be due till 'way on in June.

Quite a number of citizens took advantage of the splendid sunshine and leisure of last Sunday to visit the falls on Camp Creek, immediately east of town. The volume of water travelling with thundering roar down the steep declivities is now at its height, and a visit to the falls now is certainly in order.

LATEST PICTURE OF BORDEN.

The recent change of Government has made R. L. Borden the central figure of our Canadian public life. Many would like a good picture of him. We can supply one FREE. We will send anyone our paper for one year, and The Weekly Mail and Empire, (the regular rate of which is \$1.00 per year), for the same period, the two together, to include the free picture of the new Canadian Premier, for \$3.50.

The Borden picture is on fine paper suitable for framing, in photo tints, 18 x 24 inches, and is in itself as a work of art, easily worth the price of a year's subscription to either paper.

Send all orders to the office of The Summerland Review.

Baptist Church.—At West Summerland every Sunday at 10.30 a.m. Sunday School at 11.45 a.m. At the Lakeshore Church 7 p.m. Sunday School at 11 a.m. F. W. Pattison, Pastor.

Presbyterian Church Services: St. Andrew's Church, West Summerland, every Sunday morning, 10.30 a.m., Sunday School, 11.30 a.m. Evening, Fortnightly at 7 p.m., alternating with the Methodist Church.

Which is his

THERE'S no mistaking the expression of a man whose farm is well "improved." He looks as prosperous as he feels. It isn't the size of a place that counts most, nor its actual dollars-and-cents value. It's rather that "well-kept," thrifty appearance; the appearance that makes you think of fat stock, and well-filled barns, and comfortable, contented living. Neat, permanent improvements go further in giving a farm this appearance than any other feature.

Concrete Is The Ideal Material

For such improvements. It is neat, harmonizing with its surroundings in the country. Everlasting, it cannot be injured by fire, frost, wind or lightning. Age—instead of causing it to decay—actually makes it stronger.

Concrete never needs repair—first cost is last cost. New improvements can be added year after year with less expense than would be required to keep wooden structures in repair.

Concrete walks, feeding floors, dairy-barns, ice-houses, root-cellars, well-curbings, fence posts, silos—which of these does your farm need most? Whatever you want to build, it's best to build it of concrete.

Do you want to know more about this subject of permanent farm improvements? Then write for your copy of

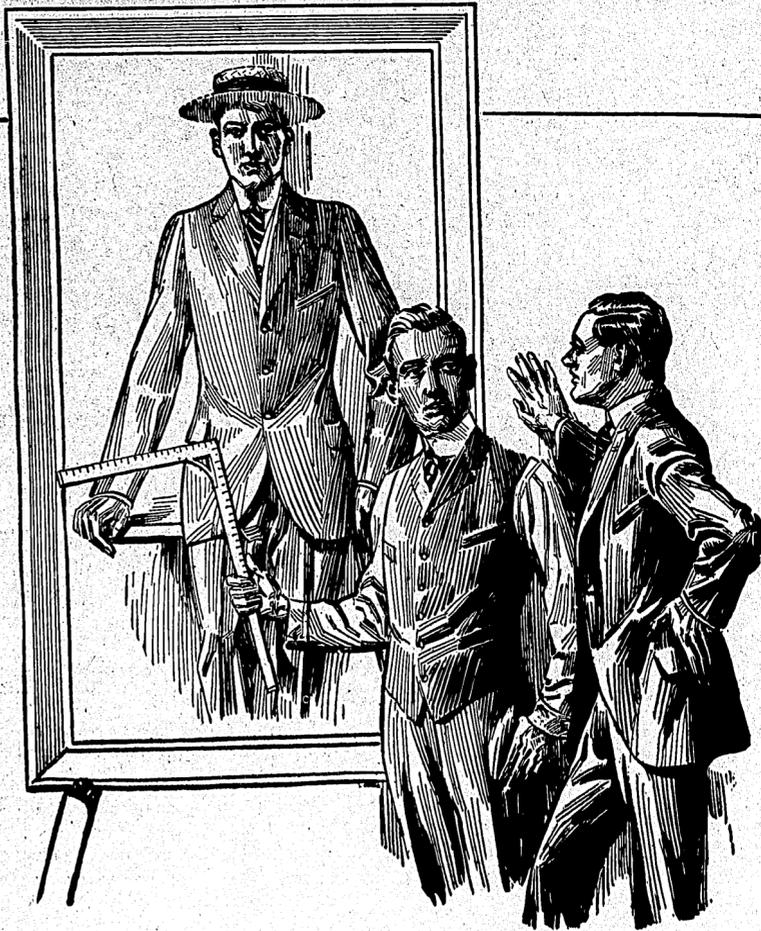

"What The Farmer Can Do With Concrete."

It's a book of 160 pages, telling how other farmers have used the "handy material" to good advantage. Published to sell at 50c. a copy, it is now being offered free to all farmers who write for it. Address

Canada Cement Co., Ltd., National Bank Building, Montreal.

TENTS

TAYLOR & Co.

PROVINCIAL FUMIGATING PLANT.

Hon. Price Ellison is at Vancouver inspecting the proposed new sites for the Provincial Government's plants for the fumigation and inspection of fruit and nursery stock.

The work of this branch of the Agricultural Department's activities has been greatly extended during the present season owing to the discovery that the mealy bug and the Mediterranean bug were being imported along with citrus fruits. As these insects do not confine themselves to citrus fruits, but are liable to spread to others, the Department has felt it necessary to take all possible steps for their eradication. The Government has been offered three sites for the proposed new plant, two by the C.P.R. and one by the Great Northern. Mr. Ellison will decide which of these offers is to be accepted.

BANK OF MONTREAL CAPITAL WILL BE \$25,000,000.

The shareholders of the Bank of Montreal have been called to attend a meeting on June 18th, to authorize application for an increase in the capital of the bank to \$25,000,000. The present capitalization is \$16,000,000.

It is stated that this is a precautionary measure, due to the bank's desire to keep up with the demand for circulation, and to keep abreast of the constant development and expansion of the country generally.

Following close on the announcement of the distribution of a bonus of one per cent to the shareholders of the Bank of Montreal came the decision of the management to seek power to make the capital \$25,000,000.

It is understood that it is not the intention of the bank to issue the additional \$9,000,000 at once, but to place it in a position to provide for increased circulation as the growth of the country demands.

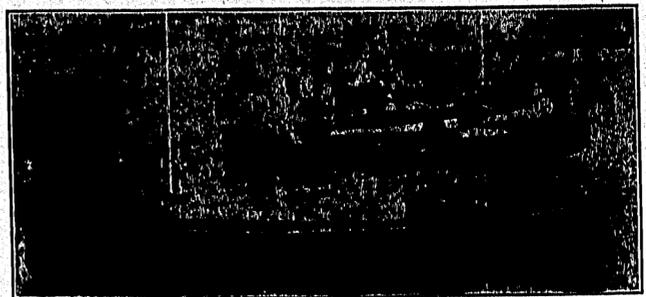

Only last year the bank increased its capital from \$14,000,000 to \$16,000,000. Ten years ago it was \$12,000,000, less by more than one-half the prospective authorized capital.

That Canada's premier banking institution intends to keep abreast of the times is fully evident, notwithstanding the conservatism which is a synonym for the management.—Montreal Star.
