Winnings at Penticton Fair

Summerland Fruit Makes The Show.

Penticton's Horticultural and Agricultural Show has been pronounced "second to none that has yet been arranged in the Valley." How much Summerland fruit was displayed there, and how far it entered into making the show the success that it was is not realized until a list of the awards is perused.

The published list of prize-winners, as furnished by the secretary, does not give the addresses of the winners. As a result the districts from which the prize fruit was sent does not get due credit, and the casual reader naturally concludes that the show was made up of Penticton fruit.

Summerland apples lead in practically every class in which they were entered, thus again proving the unquestionable superiority of the product of our orchards, which not only win wherever shown abroad, but stands foremost among the high-grade Okanagan article, which cannot be excelled by any district anywhere.

In the Ten Box exhibit A. Steuart took first prize. He also took first in the Five Box on Jonathans. In this class L. C. Woodworth was first with McIntosh Red, and F. R. Gartrell second with Winesap. In the Two Box exhibit the prizes awarded to Summerland fruit were as follows:

- Jonathan—A. Steuart, first.
- Grimes Golden—A. E. Walker, first.
- McIntosh Red—L. C. Woodworth, first; J. R. Doherty, second.
- Winesap—F. R. Gartrell, first.
- Wagener—J. R. Doherty, first.
- Winter Banana—J. R. Doherty, first; A. McKay, second.
- Cox's Orange—A. Steuart, first.
- Northern Spy—F. R. Gartrell, second. No first.
- One Box Exhibit.
- Cox's Orange—S. F. Sharp, first.
- Gravenstein—A. Steuart, first.
- Grimes Golden—A. E. Walker, first.
- Jonathan—J. Steuart, first; A. Steuart, second.

- King—J. R. Brown, first; H. Bristow, second.
- McIntosh Red—L. C. Woodworth, first; J. Steuart, second.
- Rome Beauty—F. R. Gartrell, second.
- Spitzenberg—J. Steuart, first.
- Salome—F. R. Gartrell, first.
- Winesap—F. R. Gartrell, first.
- Wealthy—J. R. Doherty, first; A. Steuart, second.
- Fameuse—A. McKay, first.
- Golden Russet—J. Steuart, first.
- Northern Spy—F. R. Gartrell, first.
- Staymen Winesap—J. Steuart, first.
- Yellow Bellefleur—F. R. Gartrell, second.
- Tolman Sweet—A. Steuart, first.
- Any Other Variety—J. R. Doherty, first; J. R. Brown, second.

- Best Plate.
 - Baldwin—J. R. Brown, second.
 - Cox's Orange—S. F. Sharp, first; J. Steuart, second.
 - Grimes Golden—J. Steuart, first; A. Steuart, second.
 - Jonathan—J. Steuart, second.
 - McIntosh Red—A. Steuart, first.
 - Spitzenberg—J. Steuart, second.
 - Salome—F. R. Gartrell, first.
 - Winesap—F. R. Gartrell, first.
 - Wealthy—A. Steuart, first; J. R. Brown, second.
 - Wagener—J. R. Brown, first; J. R. Doherty, second.
 - Yellow Newton—H. Bristow, second.
 - Fameuse—C. H. Tate, second.
 - Golden Russet—J. Steuart, first; F. R. Gartrell, second.
 - Northern Spy—J. R. Brown, first.
 - Winter Banana—J. R. Doherty, second.
 - Staymen Winesap—J. Steuart, first.
 - Yellow Bellefleur—T. J. Smith, first; F. R. Gartrell, second.
 - Permain—J. R. Brown, first.
 - Best Collection Five Plates, Five Varieties.
 - First—A. Steuart. Second—S. F. Sharp. Third—F. R. Gartrell.
- The few years that were entered from here also stood well.

Wonderful Array of Fruit

Large Display of Perfect Apples at Fourth Annual Show

Competition Keen. Prizes Well Distributed.

As was stated by the Hon. Price Ellison in his opening address, the display of fruit at the Agricultural Association's Fair last year was perfection and it could therefore not be possible to excel it in the exhibit this year. However, this year's display is fully up to the high standard that has already been set, and the marvellous display of color and symmetry of form and perfection in pack is indeed a wonderful sight.

The Fair opened under not very promising weather on Wednesday afternoon. Thursday and Friday, however, were both fine, and the muddy roads of the first day quickly dried up.

The entries from outside have not been quite as large as anticipated, due, no doubt, to the district show having just been held at Vernon. There are, however, a fair proportion of these exhibits.

The artistic displays this year are an improvement over those of last year. Worthy of special mention is the very original design by Mr. Agur, depicting the marvellous transformation that has taken place here within a few years. It would be necessary to see and study the design in order to appreciate it, the idea conveyed being that the land which recently grew nothing but bull pine and sage brush is now yielding fruit of the most perfect quality. The booth next to Mr. Agur's, arranged by Mr. Orr, in which apple was enthroned as king, was also unique in design. In each step approaching the throne apples were embedded, and on the throne was a golden crown containing apples. The canopy over the throne bore the words "Apple is King." The booth which took first prize was a very artistic one built of red apples and trimmed with Oregon grape. Next to it, and taking second prize, was the display made by J. R. Brown, the chief feature of which was a Union Jack done in red, white and blue, and built with wrapped apples.

On the other side of the building was an exhibit that attracted much attention. That which received most admiration being a box of assorted "sugared sunbeams," being a confection made from fruit pulps of various kinds. While there was a great variety of color no artificial coloring was used and no gelatine or other foreign ingredient except in some cases additional fruit flavor. This display of Mrs. Fosbery's, and the one next to it, Mrs. Kerr's, containing Apple Butter, Apple Chutney, Apple Cider, and a collection of candied fruit, received special note from the judges. The other side attractions were, a fine display of jams, jellies, marmalades, etc., by the Okanagan Jam Company, a fine array of canned goods by Balcom Cannery, Ltd., and an excellent display of local views in C. P. Nelson's booth.

The show was formally opened on Thursday by the Honorable Minister of Agriculture, Price Ellison. Time and space would not permit our publishing this week the excellent speeches made at the formal opening of the show by the Honorable Minister of Agriculture, Price Ellison, and Chief Inspector Cunningham. We might say that Mr. Cunningham in his remarks outlined or suggested a practical scheme for the remedying of the unsatisfactory market conditions, and at the same time further guarding against the infection of our orchards. Mr. Cunningham's plan was well received as a practical and logical one, it being nothing less than that the Federal Government prohibit the importation of fruit from infected districts.

The prize list as published below gives the address of all winners who are not residents of Summerland.

- APRLES, Etc.
- CLASS 1.—Ten Box Exhibit.
- C. J. Thomson. A. Steuart. Bankhead Orchards, Kelowna.
- CLASS 2.—Artistic Display.
- A. Steuart. J. R. Brown. H. C. Mellor.
- CLASS 3.—Two Box Jonathan.
- J. Tait. Nelson Bros. A. Steuart.
- CLASS 4.—Two Box Exhibit.
- Newtown Pippin C. J. Thomson. R. V. Agur. J. Matheson. Kaleden.
- Spitzenberg C. J. Thomson. J. R. Brown. W. T. Shatford. Penticton.
- Winter Banana J. R. Doherty. A. McKay. C. J. Thomson.
- Wagener A. Steuart. C. J. Thomson. Nelson Bros.
- Northern Spy J. R. Brown. Bankhead Orchards. H. Reynolds.
- McIntosh Red L. C. Woodworth. W. A. Bartlett. Naramata. A. McKay.
- Grimes Golden A. E. Walker. W. A. Atkinson. J. L. Hillborn.
- Cox's Orange Pippin A. Steuart. R. V. Agur. None.
- Gravenstein A. Steuart. —
- CLASS 5.—One Box Exhibit.
- Rome Beauty C. J. Thomson. F. R. Gartrell. Geo. Graham.
- Baldwin H. Reynolds. F. R. Brown. H. C. Howis.
- R. I. Greening H. C. Mellor. A. Steuart. F. R. Gartrell.
- Wealthy A. Steuart. H. C. Howis. C. J. Thomson.
- King of Tompkins R. V. Agur. Dunsdon Bros. J. R. Brown.
- Hubbardson's Nonsuch J. Tait. H. C. Howis. F. R. Gartrell.
- Pearmain L. C. Woodworth. F. R. Gartrell. A. McKay.
- Fameuse H. C. Howis. R. V. Agur. J. Steuart.
- Russet Geo. Graham. J. Steuart. J. R. Brown.
- Talman Sweet H. C. Mellor. A. Steuart. —
- Winesap W. T. Shatford. F. R. Gartrell. —
- CLASS 6.—One Box Exhibit.
- Ben Davies J. R. Brown. J. Tait. Bankhead Orchards.
- Gano A. Steuart. J. R. Brown. W. C. W. Fosbery.
- Seek no Further J. R. Brown. Ed. Garnett. F. R. Gartrell.
- Delicious Cordy & Huddleston —
- Staymen Winesap Ed. Garnett. J. Steuart. Nelson Bros.
- Salome F. R. Gartrell. Geo. Graham. Bankhead Orchards.
- Any Other Variety Dunsdon Bros. J. R. Brown. R. R. Chew.
- CLASS 7.—Plate Exhibits.
- Spitzenberg A. Steuart. J. McLachlan. Peachland. C. N. Higgin.
- Northern Spy J. R. Brown. Bankhead Orchards. H. C. Mellor.
- Jonathan C. J. Thomson. J. Steuart. Dunsdon Bros.
- McIntosh Red C. J. Thomson. R. V. Agur. J. R. Brown.
- Wealthy A. Steuart. J. R. Brown. H. C. Howis.
- Blenheim Orange H. C. Mellor. —

The Proposed Money By-Laws

Discussed at Public Meeting.

Council's Plans Favorably Received and Action Endorsed.

The public meeting held in the Empire Hall on Tuesday afternoon, for the purpose of discussing proposed improvements and extensions of public utilities, was fairly well attended, and civic affairs were thoroughly discussed. Reeve Thomson was in the chair and outlined the Council's program. He declared the present reservoir not enough to carry through the winter. It was necessary to fill it twice last winter. It has become necessary to lay a pipe from Trout Creek to the Reservoir or pipe Eneas Creek. While the expenditure was large the extended system will cover much additional territory and yield considerably more revenue. It has become necessary to cement line the south main irrigation ditch. The hillside below is now soaked with water.

Last year the north main was in the same condition as is the south main now. It was cement-lined and is giving good service, and saving much water.

According to carefully prepared figures your council will need one hundred and ten thousand dollars to carry through their plans, and they can see no other way but this as there are many applications for domestic water that cannot now be satisfied. For the enlarging of the electric light plant and the extension of the service between thirty and thirty-five thousand will be needed.

Replying to a question the Reeve said the proposed irrigation extension will include Trout Creek Point.

Municipal Clerk Logie followed the Reeve reading figures in detail. These showed that the enlarged electric light plant would be practically self-sustaining from the first. Mr. Logie also reviewed the history of the water service, showing why Eneas Creek had been decided upon. At its headwaters there is a large watershed, good storage facilities, good elevation, and what is essential for domestic purposes good water.

The figures read by Mr. Logie gave the estimated expenditure, the amounts necessary to meet sinking fund and interest, the estimated additional revenue, shortage or surplus on each section of the extension, and the amount needed to be added to taxes to meet the deficits. \$50,000 will be required to lay the

large main down through Garnett Valley. Nearly \$25,000 to cover Jones Flat and the north section of the Municipality, together with Peach Orchard, with a pipe service. The line now serving the town from the reservoir is inadequate for the pressure, causing much expense in repairs, and must be replaced at once. Already a new pipe has been laid down past Richardson's and the Shaughnessy ranch, and to extend this new pipe will require about \$6000. \$8500 is needed at Trout Creek Point (Woodlands). \$2500 to complete the service at Paradise Flat. \$10,000 for additional storage dams, and another \$10,000 for improvement and extension of the irrigation system. The chief addition to the taxes will be incurred in the laying of the big main down through Garnett Valley. This will require 1 1/2 mills. Jones Flat 1/2 of a mill, town line 1/2 of a mill, storage and the irrigation system each 1/2 mill. Mr. Logie stated that he knew from experience what it was to be short of water. He now, however, had all he needed and knew how to appreciate it. The proposed outlay would not be of any material advantage to himself but he was desirous of seeing everybody used alike. Replying to a question from the audience the Reeve stated that Electrical Engineer Yuill had been here on Saturday and looked over the situation, reviewed the estimates, and as finally revised the amount needed would be \$31,000 to \$32,000 for an auxiliary plant and the extension of the service.

Coun. Lewes urged the necessity of putting the system over the whole district. The Municipality now had experienced men and no mistakes would be made so that the ratepayers would get value for the money expended. Trout Creek water was pronounced not good, and domestic water would be obtained from Eneas Creek. \$10,000 would put the irrigation system in good condition. The domestic water and electric light would be extended to all. With the present system but few have been served, while all have had to share in the sinking fund and debenture interest. The Council had now expended the last of the monies raised by the previous by-laws and now needed more to complete the systems.

[Continued on Page 2.]

IMPORTANT BUSINESS CHANGES.

Mr. Wm. Limmer, who for some time has been a partner in Angove & Stinson Co. Ltd., has sold his interests to Mr. T. Beavis, who has been connected with the Summerland Supply Co. Ltd. Mr. Beavis enters upon his new duties at once and is succeeded by Mr. A. L. Moreland, formerly with the Supply Co.

SUMMERLAND WINNINGS AT VERNON.

There were only two Summerland exhibitors at the Okanagan Valley Apple Show at Vernon, John Steuart and A. Steuart, the latter's exhibit being in charge of his son Muir Steuart.

John Steuart made six entries and took four first and one second, while Muir Steuart with sixteen entries took fourteen firsts and one second. This was in the box fruit line only. A number of prizes on plate stuff was also taken. Muir Steuart got first prize on the ten boxes of Jonathans, and first on six different five box lots. His ten boxes of Jonathans and five boxes of McIntosh Red got two special prizes upon the recommendation of the judges, Prof. Gardner pronouncing the five boxes of McIntosh Red the best he had ever seen. Messrs. Steuart pronounce themselves well satisfied with the awards and with the way in which the show was handled. The accommodations were good and they made special mention of the attention given them by the Secretary.

Though the refrigerator car which went off the dock last week still obstructs the slipway shipments have not been greatly delayed. Five carloads of apples for the Old Country were shipped this week. These were put aboard the Str. Aberdeen and cars were loaded at the Landing. Goods coming inward have been delivered in the same manner. C.P.R. officials expect, however, to have the car removed this week.

DOG MAKES VALUABLE FIND.

On Tuesday one of our young lady citizens lost a purse containing some \$30, and after a diligent search gave up all hope of finding it. Her delight may be imagined when she received a telephone message on Thursday afternoon stating that the purse had been found. Evidently it had been dropped while riding in a carriage with a friend as the lost purse was brought into the home of that friend some miles distant by the dog. This again displays the marvellous intelligence frequently shown by our canine pets.

RIFLE ASSOCIATION.

The 1912 season is now finished, and the rifle range closed for the year. The attendance has been better this season than for some time past, and the shooting showed a marked improvement.

There is one more result to record, the Stark Trophy. This is a gold watch donated by Mr. A. Stark, for the aggregate of the best six shoots during the season over the 200, 500 and 600 yards, and the 600, 800 and 900 yards ranges. This has been a keen competition throughout, and it was not until the close that the issue was finally decided. The scores are:

- Olivor Smith - 100 07 05 04 03 03 572
- Jas. Dunsdon - 101 06 05 08 02 02 560
- Wm. Nelson - 96 05 08 02 02 560
- H. Dunsdon - 97 01 01 01 89 80 548
- F. R. Gartrell 97 02 00 80 88, 87 548

The annual inspection will take place on the 16th inst., and all members having government rifles are requested to return same to the Secretary at once.

Mr. Wm. Limmer has purchased the Beavis cottage on the hill, now occupied by J. W. Wheeler. Mr. Wheeler, it is understood, will take his family to Garnett Valley Mill, of which he is manager.

THE APPLE SHOW.

After attending the Summerland Apple Show, and seeing the splendid display of Fruit and Vegetables, one cannot fail but be impressed with the great possibilities of Summerland; with the railroad making such rapid progress, a closer market will soon be established, and the success of Summerland is assured. What about your investments? Are you putting your spare cash

in the bank, where it is earning you a mere pittance, or are you investing in good close into town property that will double and treble its value in a year's time? Don't forget that close-in Elsey Sub-Division on Jubilee Road, which can be bought so cheap now, and which in a year's time will be worth all kinds of money. Call at my office and talk over the easy payments.

W.J. Robinson

REAL ESTATE & INSURANCE

What About Light?

Are you taking advantage of the low rate at which I am offering 25 candle-power Tungsten Lamps? Don't you want to have a brighter light at less cost than you are now paying? A few of them left, and while they last only 75 cents.

Coal.

PLEASE book your orders ahead for coal so that I will be able to order to meet your requirements. \$10.25 delivered in Town. \$11.00 delivered on the Flat.

HOW ABOUT INSURANCE?

The Money By-Laws

[Continued from Page 1.]

Additional expenditure would ultimately mean an increase of about \$12 on a ten acre lot, but he thought no one would object to paying this to insure an abundant supply and have the modern conveniences.

In replying to a question from Mr. C. N. Higgin Reeve Thomson explained that Trout Creek headwaters had been investigated and upon the recommendation of Supt. Mitchell and Coun. Dunsdon, as well as the Engineer, Eneas Creek had been decided upon. Trout Creek headwaters are difficult of access and hard to dam. Its valley will be settled shortly and everything must drain into Trout Creek. Eneas Creek affords better water. The expenditure upon it will be largely within the Municipal limits, and the main will serve ranches for a greater part of its distance, which would not be the case if a pipe were laid on Trout Creek. Engineer Yuill recommended an oil engine as an auxiliary. There seemed to be no doubt of the illegality of using irrigation water for developing electric power. Any person in the Municipality who was not getting enough irrigation water, and was so disposed, could have an injunction issued against the use of water for developing power. According to Engineer Yuill's estimate \$187 worth of oil would have generated all the electric light used during the past year. Vernon is buying at 7 cents a gallon. Ours would not cost more than 10 cents. A 16 and 14 inch main will be laid in Garnett Valley.

The proposition to develop power and re-use the water for irrigation purposes had been found impracticable. There would not be sufficient head for either.

Coun. W. J. Robinson, who was the next speaker, made a strong plea for the improvement of the various municipal public utilities. He said that the citizens must realize that this is a municipal district, not a city. Residents are far apart, but they want domestic water and electric light, and rightly so. But to give this service is going to cost something. He, too, was so placed that he was being well served now but he must also consider his brother man and he believed that all should be treated alike. One of

the benefits from the expenditure would be the increase in land values. With domestic water, electric light and telephone over the whole district Summerland would be an ideal place. Canyon Creek and Trout Creek storage dams are now carrying all they can. Coun. Robinson reviewed the recent history of locating storage sites and believed the site decided upon was the best yet. We are now using all the water available and will need more. All the land in the northern section is under contract for water and it must be put on. Better water could be obtained from Eneas Creek for domestic purposes, otherwise a filtering pipe would be needed. The speaker said he favored the use of waterpower for electric light, but he doubted if there was water to spare. A steel pipe would need to be laid connecting with the new main, and this would cost as much as an oil plant. He put much importance in electric light and believed it would be a big advertisement. The Council have long and seriously considered these matters and now submit their figures to the ratepayers, "and we are now as one of you." It is for the ratepayers to decide.

Replying to a question from Mr. G. J. C. White Reeve Thomson stated that the municipality's credit was good. The firm who had bought the previous issues of debentures are prepared to take the new issue. The Reeve stated, however, that the bond market was not good, but he believed the municipality could do a little financing. Some \$6000 sinking fund was on hand and may be used to advantage to purchase some of the new issue. The Bank of Montreal will also give assistance until the market is better. Mr. White also suggested night and day irrigation. This met with the approval of the Reeve and is likely to be soon inaugurated.

Mr. Quipp suggested a Municipal Fire Insurance scheme. J. Tait asked if any provision had been made for taking a census.

Mr. Nelson wanted to know if the proposed money were raised if the work would be done by contract or day's work, and if by contract will the council buy yellow labor? The Reeve replied that while this had not been decided upon he personally favored the work being done by day under the Municipal Superintendent. Speaking along this line Coun. Robinson said it would be

impossible to bind the next Council, but personally he favored day work.

Ex-Reeve Ritchie believed the matter had been fully explained and he could see no other way than to carry out the Council's plans. We must keep up our water systems and the outlying districts must be supplied. The electric light will be practically self-supporting and it would not be fair to keep many out of it. He moved that the meeting endorse the action of the Council and this motion was seconded by Mr. C. H. Cordy who believed the matter should be looked at in a broad-minded way. Garnett Valley must eventually be piped for domestic purposes and placing the main in that valley would answer this purpose. Mr. Ritchie said the Council were to be commended for bringing this plan on now. The present Council can't spend the money but this will be for the new Council and will be directly under the will of the people as voiced in the next election.

C. N. Higgin also endorsed the plan and said he believed that the district could not be soundly established until abundance of water is to be had.

Mr. H. Sutherland urged caution and thought it might be possible to get along another year or two under present conditions. He might favor this plan after further consideration. He urged that the first steps should be the enlarging of the bounds of the Municipality.

The motion of Messrs. Ritchie and Cordy was carried without a dissenting voice.

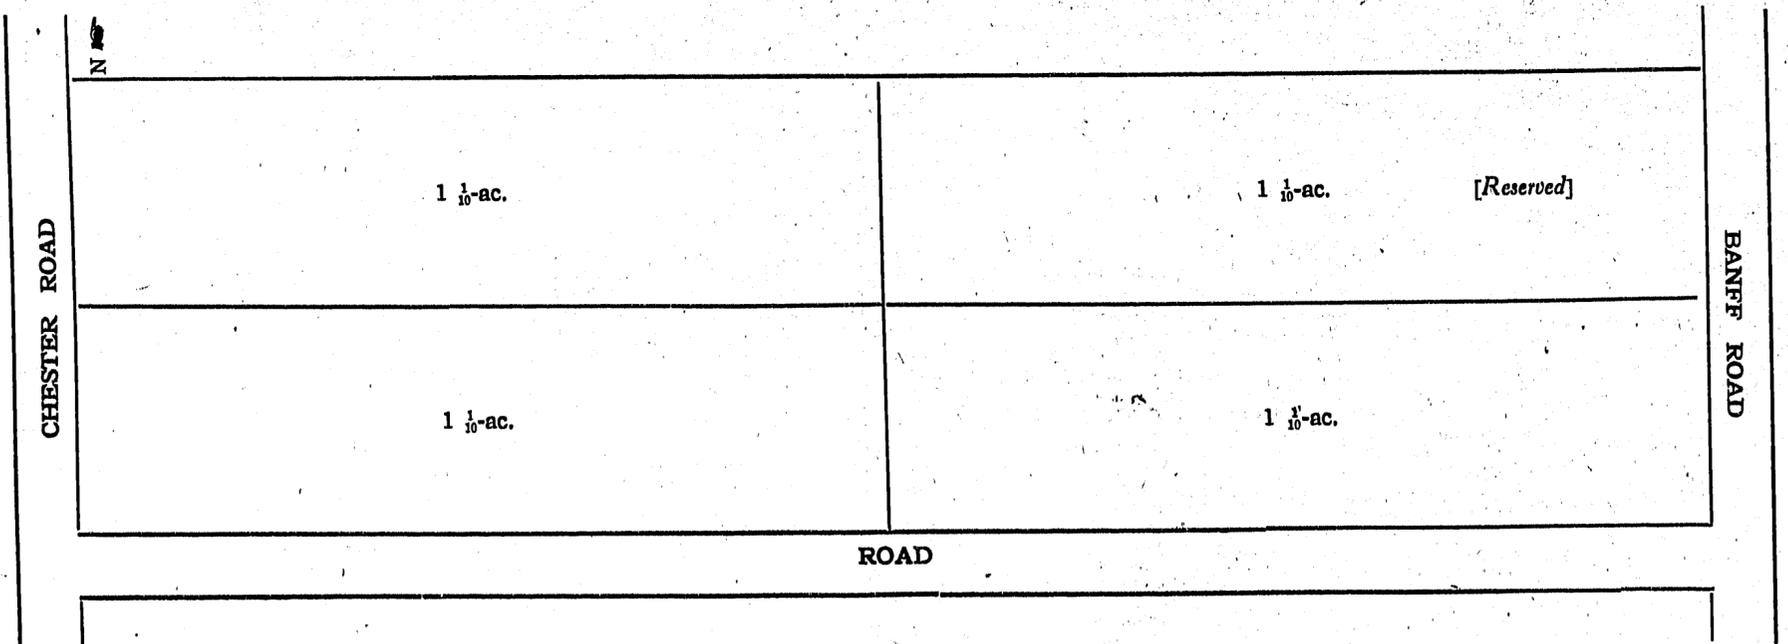

Municipal Clerk Logie called the attention of those present to the fact that a petition bearing the signature of at least 10 per cent. of the ratepayers must be presented to the Council asking them to submit a by-law for the proposed electric light expenditure.

Rev. H. A. Solly wanted to know the qualifications of a ratepayer. This said Mr. Logie is a matter that occupied a great deal of time at the recent meeting of the Union of Municipalities and it had been concluded as the law now stands to make no attempt to revise the lists and that the assessment rolls would be adhered to.

The necessary electric light petitions were signed by most of those present before leaving the room.

RESIDENTIAL ACREAGE

Adjoining TENNIS COURTS, West Summerland, B.C.

Only four lots of one acre and one-tenth each, or in lots half this size, to be sold at prices leaving a big margin of profit to the Purchaser, on the reasonable terms of one-fifth cash, the balance being spread over four years.

REMEMBER:--There are very few of these lots; the price is low and the terms easy. In order to be sure of securing one of these lots apply without delay to

S. R. MACGOWEN

SUMMERLAND - - B.C.

A Favored Valley

Recently, as announced in these columns, Mr. Carroll C. Aikins, with Messrs. Thos. Short, W. Simpson and an eastern friend, made an auto trip of nearly a thousand miles through Washington fruit valleys.

The purpose of the trip was largely to become acquainted with the general conditions prevailing in the fruit growing districts of Washington, and to place himself where he could at least make comparisons.

Throughout the journey the usual methods of obtaining information first-hand were followed, and Mr. Aikins in summing up said that there cannot but be a great and hopeful future for our own valley; that with the same number of years growth, the best of theirs is no better than the best at home, and, leaving prejudice aside, we appear to lead.

When asked if the Washington growers had any trouble marketing their fruit he replied, "Yes, but that period of loss and trouble, not to say annoyance, is passed since putting the whole fruit industry in a class by itself, governed by interstate laws."

And are the people as a rule happy and contented, and do they appear to be prosperous? "Oh, yes, that I can assure you is the case. The marked difference, between the ordinary farming communities and these where people went extensively into fruit growing was readily noticeable."

"How about the price of land?" "Improved orchards from 10 to 12 years old sell from \$1,000 to \$2,000 per acre, according to the class of facilities and conditions of the buildings, and I take it," said Mr. Aikins, "that those are prices we may reasonably hope to have prevailing here in the Okanagan Valley possibly before 10 years have rolled by."

Incidentally the character of the roads came up for a short remark. That nowhere do you come across roads that are in anyway superior to our own in B.C., and that many stretches south of the border are simply wretched. Indeed it would seem that our Provincial Government is being complimented on all sides for the excellent work being accomplished in this department.

CANADA'S TRADE GROWING RAPIDLY.

Ottawa, Oct. 22.—The trade of Canada for the first third of the present fiscal year, shows an increase of nearly eighty million dollars, or a little over 30 per cent as compared with the corresponding three months of last year. The total trade for the first four months of the present fiscal year was \$328,635,844, as compared with \$249,031,736 last year.

Imports this year totalled \$210,766,457, an increase of \$47,907,809. Exports totalled \$117,870,487, an increase of \$31,697,599.

Imports for domestic consumption during the four months totalled \$209,834,046, an increase of \$52,336,666. Domestic exports totalled \$107,308,936, an increase of \$29,604,820. Exports of agricultural products improved by nearly \$2,300,000, and exports of manufactured goods by over \$2,000,000, and exports of mine products by four and one-half million.

If the present rate of increase is continued for the full twelve months Canada's trade for the fiscal year will run over the million dollars mark.

A WESTERN FAVORITE.

The Family Herald and Weekly Star of Montreal have announced their program for 1913, and subscribers are to receive greater value than ever before, and this is saying a whole lot. In this western country, such a paper is a great blessing. It interests everybody. The hints and information it gives are worth hundreds of dollars in a year. New settlers cannot afford to be without such a paper, no other fills the bill for the west like The Family Herald and Weekly Star. In addition to the paper for a whole year, each subscriber receives a most beautiful picture entitled "Mother's Treasures." It is 23 by 29 inches, all ready for framing. The picture alone would sell at a two dollar bill in any art store in the big cities. Any home not now getting The Family Herald and Weekly Star should give it a trial for 1913. They will never regret it.

God reaches us good things by our own hands.

Thanksgiving Supper and Concert

An event that was no doubt an unqualified success (financially as well as otherwise) was the Thanksgiving Supper and Concert given by the members of the St. Andrew's Presbyterian Church and congregation last Monday evening. The supper was given in the new Campbell building at West Summerland, and the large room on the second floor proved altogether inadequate for the purpose. There was table accommodation for about one hundred, and we would not venture to guess how much food had been provided as there seemed no end to the supply, even after more than three hundred had been fed. As fast as the tables were cleared those who had dined repaired to the church near by, making room for others. In the church, after all had been catered for, a most enjoyable concert was listened to by a crowded house. In fact not only were the church pews packed but many additional seats were provided to accommodate the crowd. The opening number was a chorus, "Oh, Canada," by the church choir. Other choruses of a patriotic nature, one by eighteen girls, "The Song of Canada," and the final number by a chorus of over forty voices was well received. Among other numbers were solos by Mrs. George Gartrell, a solo by T. Beavis, solo by John Steuart, an anthem, "Lord of the Living Harvest," duet by Messrs. J. and A. Smith, Scotch Readings by J. G. Robertson, also solos by Alex. and James Smith. Not the least entertaining items were the short addresses interspersed through the program, given by Revs. A. W. McLeod, F. W. Pattison, F. W. Hardy, and C. H. Daly. The latter was also chairman of the evening.

Cheap Money For Farmers

Commenting on the Hon. Price Ellison's proposal to furnish government loans to farmers at a low rate of interest the Nelson News says:

"Hon. Price Ellison, who has given many striking evidences of his thorough understanding of the needs of the agricultural industry of this province, has come out strongly in favor of the proposal that the government should come to the assistance of new settlers in the way of loans at a low rate of interest. In the course of an interview at Victoria recently, upon his return from the upper country, he is quoted as saying: "It is my firm conviction that if agriculture is to be developed in this province, some means must be found of supplying the farmers with cheap money. The province has several million dollars on hand and I cannot see why it should not be loaned to the farmers at a low rate of interest instead of being loaned to the banks."

"There is no apparent reason why Mr. Ellison's suggestion should not be carried into effect, but should there be any objection to loaning government funds in the way proposed, it is hard to see why money should not be raised for the purpose on the province's credit, and re-loaned to agriculturists as is done in New Zealand, Australia and elsewhere. The whole matter, it may be added, has been more or less before the government for some time, but action in the matter, if any is to be taken, will probably be delayed until after the proposed agricultural commission has been appointed and has concluded its labors and made its report."

"When that commission is engaged upon its work, it would be well, therefore, if all those interested would place before its members the necessity for some action along the lines of supplying settlers with money and at a reasonable rate of interest, for the development of their properties. At present millions upon millions of dollars worth of soil products are being imported into British Columbia each year. There is no reason why practically all of these imports should not be produced at home. All that prevents this being done is the present backward state of agriculture in the province, due, to a very large extent, to lack of capital on the part of those engaged in the industry."

"Anything which the government may do to assist agriculture in the way of loans to bona fide settlers will be a move in the interests of British Columbia and of all its people."

Talk to the point, and stop when you have reached it. Be comprehensive in all you say and write.—John Neal.

Not alone in quantity can your grocery money be made to go further. You can save both in quantity and quality at this store.

Quantity ALONE does not make a bargain. Quality is as necessary as quantity in a bargain. For instance, a pound of cheap coffee is far dearer than a pound of moderate priced coffee. For

a lb. of bad coffee will not brew so many cups as a pound of good coffee

So, with most groceries. All our goods are bargains both in quantity AND quality. Your grocery money buys more here than in any other store in the town.

FREE Fine Engraving in Sepia of the Borden Cabinet for Readers of the "News-Advertiser."

EVERYONE wants a picture of the members of the Government of Canada. The "News-Advertiser" has had prepared for the exclusive use of its readers in this province a large engraved plate of Rt. Hon. R. L. Borden and his Ministers.

The group is redrawn from the latest photographs of the eighteen Ministers, who compose the advisers of His Royal Highness the Governor-General. It is printed in sepia on heavy board ready for framing, and will be of the greatest educational value in the home, the school, and the library.

The Prime Minister, HON. R. L. BORDEN, occupies a central position, and is shown standing at the head of the Council Table. Seated about him are his colleagues.

Dimly in the background the features of Sir John Macdonald look down on his successors.

How to Obtain the Picture

This fine engraving, of which a limited number have been prepared, will be sent

FREE OF CHARGE

to new subscribers, or to old subscribers, who renew their subscriptions for one year (\$3.00).

For out of town subscribers the picture will be tubed and postage prepaid.

Non-subscribers may obtain copies on payment of 50 cents. If mailed, ten cents extra for tubing and postage.

Applications and remittances (cash must accompany order) must be made to

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Two Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—\$4 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—10c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, NOVEMBER 1, 1912.

FRUIT FROM INFECTED DISTRICTS.

ACCORDING to Chief Inspector Cunningham this province has some twenty-six experts engaged in guarding our orchards against pests and disease. The Department goes to great expense in inspecting every importation of fruit, and when it is realized that the City of Vancouver alone, up to the middle of this month, had imported over three hundred cars of fruit, the magnitude of the task will be realized. The protection that has thus been afforded our orchards is, perhaps more than anything else, the reason our orchard products are always in the front rank. The fruit industry is now entering upon a stage of development and volume that will make the importation of the foreign article unnecessary, and we believe that Mr. Cunningham, in his address at the opening of the Apple Show, laid before our fruit growers the scheme to give them the protection, and the only protection, they need. Mr. Cunningham, who so unsparingly devotes his whole energies to the betterment of the fruit grower, now advocates the prohibiting the of importation of fruit from all infected districts. This would save the province many thousands of dollars now spent for inspection, and would give the home market to the home product, as practically all the fruit growing centres to the south are infected with codling moth, San Jose scale and other dangerous pests. This plan would still further insure the province continuing to hold the unique position it now holds among the fruit growing districts of the world—the cleanest of them all—being yet absolutely free from pests invariably found elsewhere. The enactment of such a law would not impose any hardship on the consumer. It would insure his getting clean, wholesome fruit, and Canadian fruit districts are now producing sufficient fruit to satisfy the home markets. The only difference being that fruit would come into the markets a week or two later than now when imported from more southern districts. The serious dumping problem and other unsatisfactory marketing conditions would disappear. The consumer would also get the fruit they prefer—the home grown article.

THE JAIL.

Rev. A. W. McLeod, in his pleasing address before the audience at the Thanksgiving Concert at the Presbyterian Church last Monday night, made one statement not quite in accordance with facts. Evidently our genial fellow-citizen is sticking too closely to the bush to keep himself posted on what is doing in our busy burg. Mr. McLeod took advantage of the occasion to reprimand the Review for advocating some months ago the erection of a jail, which this journal believed, in view of the coming of the railway navy, should not longer be done without. Mr. McLeod made the boast that none of the railway men, with perhaps one exception, had yet occupied the jail. We have since enquired into the facts and learn that more than a dozen men have been occupants of that building since its erection, and we are told by one of the officials that every one of these have been from the railway camps. We know, too, that the jail is only used as a last resort and this is only as it should be. Whenever it is possible other disposition is made of the men when it becomes necessary for the law to take them in charge.

THE big expenditure after all in the plan as outlined by the Municipal Council is for the storage of water and the connecting of the new reservoir with the present system. Extensions made will be largely self-supporting.

WE fear our local fruit growers made a mistake in not entering more thoroughly into the idea of the District Apple Show and not exhibiting more generally at Vernon. Only two of our citizens exhibited there. Had Summerland entered on the district display she would, without doubt, have taken the first prize. As it is Vernon now has the honor of holding the first prize for the district display of the Okanagan, with Penticton second. Much advertising capital will be made of this. No one will question that if Summerland had gone after this prize she would have captured it.

We have given preference this week to the prize lists believing that our readers would themselves make this choice. In publishing the list of the local show in the same week in which it occurred we have outdone some of our Valley contemporaries. At Penticton a partial list of the winnings appeared a week after the show, the balance the second week. Vernon's prize list came out one week after the show. We have gone to considerable inconvenience to accomplish this, but believe the effort will be appreciated by our readers.

THIS might be termed our Success Number—so replete is it with records of honors obtained by products of the soil of Summerland, the Okanagan and B.C.

The fountain of beauty is the heart, and every generous thought illustrates the walls of your chamber.—Smilos.

Little Brother—"What's o'th-quote?" Little Bigger Brother—"It's saying 'No, thank you,' when you want to holler 'Gimme!'"

Our Philosopher

IT is said that an evangelist recently told the people of a neighboring town that if they wished to see the newspaper man-of-that place converted, the immediate payment of their back subscriptions was the first step to be taken towards the desired end. That's a good practical suggestion. When a man walks into a printing office and planks down the cash for ten or fifteen years back subscription he's got genuine dyed-in-the-wool religion, and it makes a profound impression on the editor.

ARE you willing to have better times? If so, talk good times and you may be able to convey the same spirit to some poor despondent mortal. Our manner of business has a great deal to do with the times, for the times, as the expression is commonly used, are very much what we make them. The poor, miserable, business hypochondria is never satisfied. He imagines the whole business world is wrong, and is always looking for a panic or some unforeseen evil, and constitutes to a very large measure the growler. There is never any good cheer in his business house, and the very goods on his own shelves bespeak it; when you have dealt with him you feel more like you had attended a funeral than anything else. While on the other hand, we all like to deal with a cheerful, bright, happy, business man; you always feel better after you have met him. This life of ours is full of sunshine and bright spots, and all you have to do is to gather it in. It is a free, God-given privilege; therefore, don't shut out the sunlight by burying yourself in a dark and gloomy cave of despondency, but be cheerful, happy and hopeful, and by so doing cast a few bright, cheerful rays of hope in the darkened path of some fellow being.

Local News Items.

Dr. and Mrs. Lipsett returned on Thursday night from Lethbridge and other Alberta points.

Rev. Mr. Gilbert and Mrs. Gilbert are now occupying the Thornber tent-house on the hill.

Mr. and Mrs. James Ritchie and family returned home on Monday last, having spent two weeks at the hotel in Kaleden.

Mr. E. Hunt and family are moving to the Garnett Valley mill. Mr. Hunt's cottage will be occupied during the winter by Mr. Tulley.

The students of the High School held a most enjoyable Halloween Party at the home of Mr. and Mrs. Will Ritchie on Thursday, October 31st.

The ladies of the College Faculty will be at home to their friends on Thursday, November 7th, and on the first Thursday of each succeeding month, except January.

Rev. N. A. Harkness, minister of Grandview Baptist Church, Vancouver, who was visiting at the home of his mother, West Summerland, returned to the Coast on Thursday morning.

The Overseas Club holds its first general meeting beginning the winter series next Thursday. Mr. H. Sutherland will address the members on "Canada," and Mr. William Sauter speaks on "Imperialism." Music will be furnished.

Percy Thornber met with a painful accident on Wednesday while returning from the Agricultural Hall. Mr. Thornber was riding his horse toward town when a bicycle was met and the horse shying threw Mr. Thornber from the saddle, badly wrenching one of his ankles.

The refrigerator car which has been obstructing the barge moorings at the C.P.R. dock was pulled out of the way this morning, the Str. Okanagan being delayed an hour to give assistance. The top of the car still shows above the surface, and it is expected that an effort will be made to lift it out bodily.

The special Thanksgiving services in the Presbyterian Church last Sunday were well attended. The morning service was conducted by the pastor, assisted by Rev. Mr. Burton of Vancouver. In the evening Rev. F. W. Hardy led the service. A special Thanksgiving Offering was taken up, the result of which will be announced later, while the receipts from the Thanksgiving supper were about \$115.

Elsewhere in these columns appears an ad. over the signature of Reeve Thomson, the President of the Fruit-Growers' Association which will doubtless meet with hearty response. It is understood that Mr. Thomson with some others has formulated a plan to provide the community with a cannery of sufficient capacity to suit the needs of the district and which it is proposed to have ready for operations early next season.

The Curling Club is making an early start in organizing for their winter's pleasure by calling a meeting for the 9th November. Every effort will be made to have the game in fine swing by Christmas—weather permitting—thus giving the club a longer season for play than formerly. Additional ice will be obtained, made necessary by the increased membership of last year, and the good prospects for many more, both old and new players, wishing to join now.

George Gartrell and Oliver Smith have returned from a short expedition over the hills south-east of the lake, their trip taking them near Carmi. Though they each brought back two fine deer heads they returned disappointed. A grizzly had been sighted and wounded. For hours they followed his trail marked by blood until darkness overtook them, compelling them to camp for the night. The trail had not been long resumed when a snowstorm came on covering brui'n's track, and the hunters were compelled to return disappointed.

HOSPITAL DONATIONS

Anglican Harvest Festival at Naramata—fruit and vegetables.

Mrs. W. J. Robinson—preserved fruit.

Mrs. Robertson—pickles and jolly.

Mrs. Moreland—preserved peaches and pickles.

JIMMY'S LETTER TO DAD

Okanagan College,
West Summerland, B.C.,
31st Oct., 1912.

Dear Dad,

I know that you will be wondering why I did not write you last week. Well dad I had so much work to do that I had scarcely time to breathe. I am just scratching up now a few minutes before the mail arrives, to write home. We've had quite a few events of importance since the last time I wrote. On Monday we had a real Thanksgiving dinner in the evening. The dining room was decorated, and the tables had lots of good things. The Lady Principal allowed us to take the girls down to dinner, and we sure had a ripping time. After dinner we escorted our partners over to the Sem., and spent a good time around the piano.

Last Saturday we held our first debate, "Resolved that Woman Suffrage would be beneficial." The best speech of the evening was given by Miss Woods, a member of the negative. She sure gave a great speech against the question, and proved to all the O. C. students, as well as the judges, that to allow women to vote, would be a huge farce. So say I, but don't tell sis I said so. We are now eagerly looking forward to the next meeting of the Lit. when we have a mock parliament, and discuss Home Rule for Ireland. I believe I'm going to be the constable of the house that night.

To-morrow night we expect to have our first real reception over at the Sem. I hear that the girls are making great preparations, washing curtains and ribbons, making jellies and candies, etc., but I guess I'll know more about it on Saturday morning than now. Tell mother those silk socks just arrived in time for this affair.

Well I must close now, for I've just got time to get up my Bible for to-morrow before lights go out.

I guess Pack's not going to get back with the mail before the glimmer is out. Goodbye.

Your loving son,
JIMMY.

DUKE PLEASSED WITH HIS RECEPTION.

Upon leaving the boundaries of the Province of British Columbia, H.R.H. the Duke of Connaught wrote to his Honor the Lieutenant-Governor, expressing his thanks for the kindly welcome given himself and the Duchess by the people of the province. The letter reads as follows:

"My Dear Lieutenant-Governor, On leaving British Columbia I write to you to say what great pleasure my journey through the province has given me, and how highly appreciative the Duchess and I have been of the reception we met with everywhere, and of the trouble which has been taken to decorate the houses and towns wherever we have been.

"Should you think fit to do so, I hope you will take steps to make this letter public. Believe me, yours very truly,

Signed: ARTHUR."

CAPTAIN ESTABROOKS HONORED

The Duke of Connaught presented Capt. G. L. Estabrook of the s.s. Okanagan, with a handsome gold breast pin as a memento of his visit. On the pin is the Garter with its insignia encircling the Duke's monogram surmounted by a coronet set in rubies and emeralds, all on twisted gold wire.—Kelowna Courier.

WEDDING.

TUNBRIDGE—NEVE.

On Wednesday afternoon at 2.30 o'clock, in the Anglican Church, Miss Mary Neve and Mr. Norley Tunbridge were made man and wife, Rev. H. A. Solly being the officiating clergyman. Due to the recent death of a sister of the bride the wedding was a quiet one, and only a few intimate friends were present. The bride was given away by her father. She was becomingly attired in a dark blue tailored costume, with large black picture hat. Miss Connie Neve, her sister, was bridesmaid, and was dressed in grey. The bridegroom is a citizen of Penticton, and immediately after the ceremony Mr. and Mrs. Tunbridge left for that place by motor car. From there they will go to the Coast for a two weeks' trip.

Better Dinners

"Is dinner ready, Mary?"
 "Yes, Madam—it is ready, and, I think, a great success."
 "Your cooking is improving."
 "Well perhaps it is, and I hope so, but really, Mrs. Housewife, I think our new Gurney-Oxford is partly responsible for the success I have had lately. I was never able to cook roasts and fowl so well on our old stove, and as for bread and biscuits, I used to tremble when I went to take them from the oven—they were so often soggy and heavy. Now they are always light and beautifully brown, and, if I do say it myself, something to be proud of."
 "That's true, Mary, my husband has said almost the same thing. I'm awfully glad you approve of my choice of a Gurney-Oxford. He approves because of the saving in coal since we got it, also because of the better meals he is getting."
 "Indeed he's right, Madam—and it requires so little attention."
 "That's fine, Mary. Will you serve dinner in a few minutes please."

 SUMMERLAND, B.C.**

District Convention Naramata Notes.

The Fifth Annual Convention of the Women's Missionary Society for the Okanagan District was held in the Methodist Church, Summerland, Oct. 24th, Mrs. D. H. Watson, District Organizer, presiding. Twenty-five delegates were present from outside points and many visitors, and a deep interest taken in both sessions. Reports from the various auxiliaries showed progress. Kelowna auxiliary leading in membership and money raised. Miss Williams of Naramata gave an interesting paper, "A Plea for Missions." Mrs. W. J. Robinson, Summerland, dealt with "The Christian's Relation to Missions." Greetings were extended by the Baptist Mission Circle, also the W.C.T.U. "The Problems of our Home Missions" was taken up by Mrs. G. A. Robison, Kelowna, showing the serious situation the churches of Canada are facing in regard to immigration, especially that of the west. It is of the greatest importance that Canada be built up a Christian nation. "A Round Table Conference" on auxiliary work was conducted by Mrs. Fallis, Penticton. Questions regarding different departments of the work were discussed and proved most interesting. Two members having been "called home" during the year a short memorial service was held. Supper was served in the church and a social time was spent. The evening session was presided over by Rev. G. O. Fallis. In a few words Mrs. Hardy welcomed the delegates and was replied to by Mrs. Deaver of Vernon in a suitable manner. Anthems, solos and duets were much enjoyed, also a recitation by Miss Kathleen Brown. A motion song was carried out by the Mission Band. A paper culled from addresses which had been prepared by Mrs. F. B. Stacey of Vancouver, who was the B.C. branch representative at the recent board meeting held in Toronto, was read by Mrs. J. W. Jones. A number of missionaries from China and Japan, who were on furlough, were in attendance at the board meeting, and from their addresses a splendid paper had been prepared by Mrs. Stacey. Our missionaries give all "they die daily." The address of the evening was given by Rev. F. W. Hardy, taking for his subject "The Reflex Influence of Missions." The offering amounted to \$16 which goes to the entertaining auxiliary. Miss Gray of Penticton was elected District Organizer. An invitation to hold the next convention in Vernon was accepted.

Oh, you beautiful snow! Oh, you Hallowe'en! What sport for kids! Some full grown ones, too!

Miss Irene Morgan of Penticton spent the week-end in Naramata the guest of Mrs. Boothe.

The ferry service to Penticton continues to meet with good patronage, fully justifying the experiment by the Boat Company.

The heavy blasting being kept up close to town sounds as if there was sure something doing round or near Naramata, eh!

Mrs. D. McKay and two daughters, Vera and Clara, have gone on a trip to their old home town in Manitoba, Hamiota.

Since the real closing of the tourist hotel there has been, as one would readily expect, a distinct falling off in the number of visitors to our town.

The social evening in the church basement on Thanksgiving night passed off very enjoyably. There was a good crowd out and the folks were evidently out after fun and they sure got—'twas sure up to them.

Dec. 4th! Dec. 4!! Dec. 4!!! Well what about? This: It's on that identical date that we're to fix our faces—and our finances—for another big whopping selling match at the church. The Sale of Work—to be crudely plain of speech—and what more. There is to be pork and beans, cooked to a turn, guaranteed to put "Heintz's" article back to second place at least. Dec. 4.

The Master Bridle

An invention known as the Master Bridle, does away with the bit entirely, and still gives one the perfect control of his horse. This bitless bridle is simplicity itself. It is nothing more than a leather band containing a steel spring covered with leather which runs over the nasal bone, above the nostrils, high enough not to interfere with the breathing. Then by a very simple leverage with another strap that runs under the jaw, pressure on the nose is increased or decreased at will when pulling on the reins. It seems a marvel that the world has had to wait for someone to invent this bridle that controls the horse at this most vulnerable point of his entire anatomy, the nasal bone. His power to pull, to resist the action of the reins, is reduced by this method to the point where the driver becomes absolutely the master. While at the utmost the pressure is comparatively light at this sensitive spot, the will of the rider or driver is supreme. One or two short lessons with the bridle before putting the horse in the shafts suffices to accustom him to it.

For horses that have such tender mouths that they refuse to go on the bit, this bridle also works like a charm. Blinders and cheek reins are done away with, the horse carries his head naturally and shows improvement in gait and appearance. We are not writing from the inventor's advertisements, but from actual experience, as we have tried out the Master Bridle on a spirited horse. After a ten minute lesson, we hitched her to the carriage and went for a ride. She seemed to enjoy the new experience as much as we did. One of the most interesting things about the bridle is the fact that the horse, without suffering the slightest pain, comes, after two or three lessons, to surrender himself to you. He seems almost to undergo a change in disposition. This bitless bridle is one of the humanest inventions of our times, and as such we heartily endorse it. Elbert Hubbard, himself a horseman, has been so enthusiastic over this device, that he has written a very attractive booklet setting forth its many advantages above any of the old-fashioned means of horse-control. While it will be hard to make headway against the age-long belief that a bit is a necessity in a horse's mouth, we sincerely hope to see the day when all our teaming, delivery and farm horses as well as our roadsters are driven and controlled by this safer and more intelligent method.—F. H. R. in Our Dumb Animals.

"You see, we have good streets, excellent lighting and shipping facilities. Trade conditions are good. We hope you will locate here." "I dunno," said the visitor. "Things look good. But, tell me this," "Well?" "What kind of a ball team have you?"—Washington Herald.

Instead of "patching up" your house, repair for good with concrete

A FEW bags of "Canada" cement, some stone and sand and water, mixed and placed where needed, will make an old house look like new. What is more important, the improvements,—be they porch floor, foundations, steps, chimney-caps, or column-bases—are made to last. Time, wear and weather have no effect upon concrete, except to make it stronger.

Even if you have never used concrete, you can quickly learn how from our 160-page book, "What the Farmer can do with Concrete" Which we will send to you free upon request. It will show you how to build a concrete porch as well as how to use concrete for scores of other purposes around the home and on the farm. Write for it to-day. It is absolutely free.

Address **Canada Cement Company Limited**

Coroner's Inquest

The coroner's inquest on the death of J. Peters was held last Friday afternoon in Elliott's Hall. Messrs. McAlpin, Borton, M. Beavis, Figgis, Anderson, and Chapmell were the jury empanelled. Provincial constable McDonald of Penticton assisted Coroner Andrew.

The first witness sworn was constable Ernest Graham. He knew the late J. Peters, and on the night of September 19th, picked him up and took him to Beach's bunk-house, and told him he must get out of town next morning. He was a drinking man and for three weeks, more or less, had been under the influence of liquor. On receiving instructions, after the finding of the body, he went up and took charge of it where it lay in Prairie Valley, and brought it to town. He recognized the corpse as that of J. Peters by the clothing, hair and moustache. Witness, when shown a bottle labelled and smelling of carbolic acid, identified it as the bottle found beside the body. The body was badly decomposed.

Robert Milne, when sworn, said that he was a driver for the Supply Co. at West Summerland, and that about 11.30 a.m., October 24th, he found the body of a man on the west side of the Mountain House. He was lying on his right side, and his face was black. Beside the body was a bundle of blankets. After the discovery he telephoned to Constable E. Graham, and also reported the matter to Reeve Thomson about 12 o'clock. At 1 o'clock he went out with the Coroner, found an empty bottle (identified bottle in court as same) about two feet from the body labelled carbolic acid. There was no sign of a struggle having taken place. The coroner found a pipe, two plugs of tobacco, a hair comb, no money, no letters. He did not know Peters. The witness then described how he happened to find the body, which was due to the behavior of his dog. The body was twelve feet from the road and back to it.

Dr. C. M. Smith testified to making a post-mortem examination of the body. The skin was dark and discolored, due probably to decomposition. The body was that of a well-nourished man and the contents of the stomach was largely undigested food. There was further technical evidence showing the probability of the presence of carbolic acid. Other organs were good as far as could be ascertained in the advanced state of decomposition.

J. B. Lane, employed as book-keeper in Crandel's camp, identified the body as that of J. Peters. He knew deceased as a freight teamster. Peters came in April and worked about six weeks. He was a drinking man. Deceased, Mr. Lane stated, left work voluntarily. He had met Peters several times in Summerland. Last time he met him he was feeling despondent and blue. This was a month or six weeks ago. We have had no carbolic acid in our camp. Deceased could stand a great deal of drink. I heard him once say, in speaking of drinking, that if he had the power he would take the tax off whisky and put it on flour.

J. W. S. Logie was next sworn. He said he was a druggist and manager of the Summerland Drug Co. He recognized the bottle, it was a six ounce bottle. He knew deceased casually as Red Peters. In reply to the question, "Did you sell him this bottle?" Mr. Logie said, "Not that I know of. Certainly not within six weeks." We do not keep record of carbolic acid sales. There are two schedules of poisons. Those in schedule "A" must be signed for personally, and the purchaser must be personally known to the vendor. No record of sale is required for those under schedule "B," of which carbolic acid is one. The label must be marked "poison," and bear the name of contents and name of vendor. Judging from the color of acid in bottle the witness thought it old. All the acid sold in the last year was perfectly clear. He thought this must have been in the bottle for several months. He identified his own handwriting on label. Witness said he sold a lot of carbolic acid mostly in one, two or three ounce bottles, larger amounts for stable or camp use. Deceased tried to get liquor from me but did not give him any. May have sold him carbolic acid some months ago but do not think it.

Alexander Chisholm, teamster, swore that he identified deceased by his clothing. He knew Peters for four months. He was a drinking man. Last saw him five or six weeks ago; he was then melancholy, and it was difficult to get him to talk. He looked as if he had just come off a drunk.

NEW C.P.R. LINE

The most interesting railway announcement made for some time is that in connection with the building of another transcontinental line by the Canadian Pacific Railway. The proposed new line will run considerably south of the present main line between Winnipeg and Vancouver, and is estimated to save a distance of 400 miles from coast to coast.

It is also stated that the new route will have an easier grade than the existing main line. Furthermore, it is reckoned that twenty hours will be saved in the time between Winnipeg and the Pacific Coast. It will involve some very heavy tunnelling in the British Columbia section. The report comes as a surprise, following the announcement that the company will make all haste to double-track the present main line across the Dominion.

It looks as if the object of the C.P.R. were to be well prepared for extra business consequent upon the opening of the Panama Canal, for Sir Thomas Shaughnessy recently made the statement that the company proposes to add considerably to the number of its coastal service vessels. He said that the number built on the Pacific Coast would depend upon the circumstances.—Busy Man's Canada.

We should allow others' excellencies to preserve a modest opinion of our own.—Barrow.

After being out a short time the jury returned with a verdict of death by "cause unknown," which was not satisfactory to the coroner, and he sent them back with instructions to bring in a verdict according to the evidence given. The verdict, as finally given by the jury, was that death was due to poison self-administered.

Bargains for OUR Subscribers

REALIZING that the Home Paper cannot fill all the need for Reading Matter, we have compiled a List of [in our opinion] the most helpful and practical Publications which we are offering our Subscribers in clubbing combinations, at lowest possible prices.

OBITUARY.

J. Nevin Davidson passed away on Friday afternoon, October 25th at the home of his father, West Summerland. This young man came to Summerland from Vancouver last year in the hope that the Okanagan climate would restore his failing health. For some time improvement was marked, but a few weeks ago he caught a severe cold which turned to pneumonia which his system was unable to overcome. During his stay here Nevin Davidson made many friends by his genial manner and the courageous way in which he met his severe illness. His father and mother and sister left for Vancouver with the remains on Sunday's boat. Their numerous friends deeply sympathize with them in their sorrow.

Classified Advts.

3 cents per word first insertion.
1 cent per word subsequent insertions.

For Sale.

FOR SALE—Four good cows at the dairy. Records of daily and yearly production may be had.
A. A. Derrick.

LOST—Between C.P.R. wharf and ferry landing, an oak's tooth, polished and with hole in top. Return to Revlow Office and receive reward.

DRY FARMING PRIZES SWEEP BY BRITISH COLUMBIA.

At the Dry-Farming Congress, Lethbridge, British Columbia showed a large exhibit of agricultural and natural resources, and many boards of trade and districts had good showings. B.C. was awarded the trophy for the best exhibit of fruit at the congress, and had the province not been debarred from competition on account of its exhibit not being solely a dry-farming one, there is no doubt but that it would have taken the first place, as it was generally conceded to be the best on view. The first prize for early potatoes was awarded to the province, and the first and second prize was also secured for late potatoes, together with the sweepstake prize for the best potatoes on earth, the winning exhibit being sent from the Okanagan.

These prizes were won in competition with a large number of exhibits, which, the congress being an international one, came from far afield, there being large exhibits from California, Colorado, Oklahoma, Idaho, Washington and other places. There was scarcely anything in competition from British Columbia but what secured a prize. Nanaimo, whose board of trade had a creditable exhibit, took first prize for the largest mangel.

"FREE STUMPING POWDER."

There has been published in a number of the Provincial papers a report to the effect that the Provincial Government would furnish stumping powder free to settlers who wished to remove stumps from their farm property. Where this story originated is not known but it has been denied by no less an official than the Minister of Agriculture. It may have emanated, however, from the fact that members of the Farmers' Institute are furnished powder by the Department of Agriculture at a price much below the ordinary retail price.

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

Start of Double Canoe Race at one of Naramata's Regattas

Take a trip to the Okanagan this summer and stop at Naramata. Get acquainted with this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience overlooking the Lake is at your service. One summer spent in Naramata means every summer spent there until you finally conclude there is no real living anywhere else. Then a nice 5 or 10 acre fruit farm on the benches solves the question and makes you independent for ever afterwards.

Communicate with **THE HOTEL NARAMATA** OR **THE OKANAGAN TRUST CO., Ltd.**
for rates, and information regarding accommodation, amusements, etc.

FIRE AT WENATCHEE.

Wenatchee, Wash., Oct. 24.—The worst fire in the history of Wenatchee occurred this morning, when the Wenatchee Canning, Cod Storage and Ice Company's plant was totally destroyed, entailing a loss of about \$75,000 to the company, and from \$125,000 to \$150,000 to growers who had apples in storage. The cannery's loss is partially covered by \$55,000 insurance. The growers had no insurance whatever.

BRITISH COLUMBIA POTATOES WIN IN WORLD COMPETITION.

British Columbia, as at the New York Land Show, carried off the honors at Lethbridge in the potato exhibit, and Western Canada again takes the big wheat prize. That this should be so at both exhibitions is the subject for gratification. It proves that the samples of Marquis wheat, and potatoes, which won the world's prizes at New York, were not "freak produc-

tions," but that Western Canada in the one case, and British Columbia in the other, are equal to the task of producing world record crops annually, and indeed produce them every year in the ordinary course of the practice of agriculture.

Examine what is said, not him who speaks.—Abdu'l'alah.
