

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 40

SUMMERLAND, B.C., MAY 2, 1913.

Whole No. 248

School Board Special Meeting.

An extra session of the School Board was called for last Monday morning, and all were present at that meeting except Trustee Johnston. As Monday, May 5th, was the date of the next regular meeting, all agreed to make last Monday's meeting the regular meeting for May. There will probably be a special meeting toward the latter part of that month.

The reason for calling this week's special meeting was to receive and consider the resignation of one of the teachers of the Central School, namely Miss Lewis. All accumulated business, however, was dealt with, and the regular monthly accounts approved for payment.

After the reading of the minutes communications were taken up. The Layritz Nursery advised the Board that they had sent their local agent, to be donated to the schools, 15 Acacia trees and 15 Box Elder trees. Three of each of these will be used at the Town School the others around the edge inside the fence of the Central School grounds.

The next communication dealt with was a resignation from Trustee Johnston, who has removed to Alberta. The resignation was accepted, and by the same motion it was decided to hold an election to fill the vacancy, appointing Mr. Logie returning officer for that occasion.

Inspector of High Schools McLaurin, who had recently inspected the High School here had forwarded a report to the Board which was read at Monday's meeting. Some matters relative to High School work were left with the chairman to discuss with the principal.

There was a disposition on the part of some not to accept Miss Lewis's resignation without showing good reason, and there was a general feeling of regret that she had decided to leave. However, as Miss Lewis had agreed to provide a satisfactory substitute it was unanimously decided to comply with her wish and to accept her resignation to take effect May 1st. Miss Faulkner, now a student at Okanagan College, and a duly certified teacher for B.C., will take Miss Lewis's department.

One of the Trustees expressed the opinion that the pupils of the Central were asked to do too much home work but the majority were not disposed to interfere or dictate in this matter, and no action was taken.

The following accounts were paid:

Teachers' salaries	\$520.00
Janitors	32.00
J. L. Logie, Secretary	10.00
S'land Supply Co.	3.15
S'land Drug Co.	1.00
Municipality, wood	68.75
H. Dunham	69.30
Pares & Hookham	114.40
J. R. Campbell	55.00
T. J. Garnett	54.70
Total	\$928.80

RIFLE ASSOCIATION.

The first shoot of the series of four for the Dominion Silver took place on Saturday last, the following men leading.

Owing to a very gusty wind, the scoring was not so high as usual.

	200	500	600	Total
J. R. Conway	31	33	27	91
J. Dunsdon	20	30	28	87
G. Barkwill	30	32	23	85
H. Dunsdon	32	22	20	88
A. B. Nelson	20	27	24	80

With the above score of 91, Jack Conway takes the Silver Spoon given for the highest score each month.

To-morrow the usual weekly practice shoot will be held.

At an immense inter-denominational educational convention recently held at Los Angeles the Rev. A. T. Robinson was given considerable time on the program to discuss "The Great Leap and How to Stop It," on the same topic as his book, "Why They Fall." So interested were his hearers that a group of the most active workers corralled Mr. Robinson later and had him go further into details with them.

94th Anniversary

I.O.O.F. Attend Divine Service Sunday Evening.

On Sunday evening last Okanagan Lodge No. 58 celebrated the 94th anniversary of their Order in a most appropriate way by attending Divine Service at the Methodist Church. They met together in their Lodge Room at 6.30 p.m., and marched in a body to the church. Arriving at the church door the usual form of counter marching was gone through, permitting the Principal Officers to enter first. The platform was very prettily decorated with carnations, which were afterwards distributed among the ladies of the choir and some of the less fortunate ones who were unable to attend the service through illness. After the Doxology and Invocation the good old inspiring hymn "Onward, Christian Soldiers," was sung by the choir and congregation in a most hearty manner. All the hymns, which were familiar, were sung in the same way. The choir, under the direction of Mr. T. G. Beavis, with Bro. T. P. Thorner at the organ, rendered most appropriate music. A quartette composed of Miss E. Brown, Miss M. Conway, Mr. T. Beavis, and Bro. A. W. Stanley sang "God is a Spirit," Miss E. Brown sang "Hold Thou My Hand," in her usual fine style, and Bro. A. W. Stanley sang "Love Divine," which fitted in very appropriately with the subject of the sermon, "The Divine Image." Rev. F. W. Hardy, before commencing his sermon, welcomed the Brethren, and expressed his pleasure at having them there, and while not a member of their Order, and did not know their secrets, he did know of their aims and objects, which were most commendable, namely to give aid to the needy, and to try and relieve the distressed.

The sermon was a most impressive one, and among other things the preacher made clear the fact that in every man was the Divine spark, and that no matter to what low estate a man might fall, there was still that spark within him which would raise him again to the place that God intended for him, if that spark got the right inspiration to revive it back to life. He went on to explain how that man was God-like, inasmuch as he was able to do God-like things in the way of wonderful inventions and having complete control of drugs for medicinal purposes, and he deplored the fact that this same man that was made in the Divine Image, so far forgot himself that he very often polluted his wonderful being, by acts of a disgraceful character and by taking into his system that which would make him unclean. He also drove home the fact that whether a man had on his overalls or his black suit and white tie he was just as much a man so long as he did not forget to live as God intended that he should.

The pronouncing of the Benediction brought a most enjoyable and helpful service to a close.

Another meeting will be held at Naramata on Wednesday afternoon for the same purpose, so that it will not be necessary for the people of that side to come across the lake to hear the report.

Some Difficulties in Co-Operation.

It is not always plain sailing with co-operative associations which undertake to dispose of their products through a common agency. Recently says an Eastern exchange "Usually the members expect too much from the new system, and have not the confidence in each other that will enable them to overlook trifling shortcomings. Fruit growers' unions have proved quite successful in Canada and the States, usually through the skill of a tactful and energetic manager. Mr. C. F. Hale, who has been in charge of an association in Oceana County, Michigan, gave his views on co-operative markets at the recent meeting of the State Horticultural Society as reported in the Michigan Farmer.

The general dissatisfaction with present methods of marketing fruit and other farm products has turned attention to schemes of organization. One of the first difficulties is the inability of farmers to agree in matters of business. This situation has, no doubt, developed from the independent life which the farmer has, through these many years, lived. Naturally his business methods are elementary and crude, for he has always depended upon his own judgment and worked out his own plan of procedure.

For this reason the ways of doing business upon our farms are almost as numerous as are the sands on the seashore. To sacrifice this independence for a common scheme means revolution, and while all are ready to admit that it would be a splendid thing to deal through a common agency as is planned by co-operative concerns, the actual laying aside of the old method and taking a chance with the new is greater than the courage of many will stand; hence, the failure to agree and work together.

Not only the experience of Mr. Hale but also that of every other manager of a successful co-operative selling organization, testifies to the necessity of binding the members together with strong contracts in order that in times of stress they may be compelled to stand shoulder to shoulder through the fight. During the early history of the Oceana co-operative concern outside buyers were eager to discourage the members with the plan; and to do this they would go to members who produced good fruit and offer them a premium over the price paid by the organization. Unless bound to the society by a strong contract these members were quite sure to yield to the temptation of selling to the outsider and forsaking the society. A few traitorous acts of this kind ordinarily sounds the death knell of co-operative efforts, but it happened that the Oceana society pul-

WOMEN'S INSTITUTE SPRING MEETINGS.

Miss C. M. Moule, graduate of the Lillian Massey Household Science University, Toronto, will lecture on "Modern Housekeeping and Hygiene in the Home" at the Men's Club on Friday, May 9th, in the morning at 10 a.m., and in the afternoon at 2 p.m., and in Campbell's Hall, West Summerland, on Saturday afternoon, May 10th, at 2 p.m., and in the evening at 8 p.m. The public in general are cordially invited to attend these lectures as being of great educational value and general interest to agricultural communities.

At a recent sitting of the Council at Enderby the sale of that city's debentures then on hand was authorized on a 7 per cent. basis. In other words Enderby gets about 80 cents on the dollar for \$24,000 worth of debentures.

[Continued on Page 5.]

Central Selling Agency.

Delegates Busy Drawing Up Constitution.

The Review was in telephone communication this Friday morning with Mr. G. J. C. White, the Summerland Fruit Union representative at the Vernon meeting of district unions, which is now busy drawing up a constitution for the Central Selling Agency. Mr. White says that after two days' hard work the plan is well advanced, and that the work will be completed to-day to the general satisfaction of all.

A meeting of the local fruit growers will be held on Tuesday evening at 7.30 at West Summerland, probably Campbell's Hall, to receive and endorse the report which will be presented by Mr. White. Mr. Robertson will be present at that meeting.

Another meeting will be held at Naramata on Wednesday afternoon for the same purpose, so that it will not be necessary for the people of that side to come across the lake to hear the report.

Some Difficulties in Co-Operation.

It is not always plain sailing with co-operative associations which undertake to dispose of their products through a common agency. Recently says an Eastern exchange "Usually the members expect too much from the new system, and have not the confidence in each other that will enable them to overlook trifling shortcomings. Fruit growers' unions have proved quite successful in Canada and the States, usually through the skill of a tactful and energetic manager. Mr. C. F. Hale, who has been in charge of an association in Oceana County, Michigan, gave his views on co-operative markets at the recent meeting of the State Horticultural Society as reported in the Michigan Farmer.

The general dissatisfaction with present methods of marketing fruit and other farm products has turned attention to schemes of organization. One of the first difficulties is the inability of farmers to agree in matters of business. This situation has, no doubt, developed from the independent life which the farmer has, through these many years, lived. Naturally his business methods are elementary and crude, for he has always depended upon his own judgment and worked out his own plan of procedure.

For this reason the ways of doing business upon our farms are almost as numerous as are the sands on the seashore. To sacrifice this independence for a common scheme means revolution, and while all are ready to admit that it would be a splendid thing to deal through a common agency as is planned by co-operative concerns, the actual laying aside of the old method and taking a chance with the new is greater than the courage of many will stand; hence, the failure to agree and work together.

Not only the experience of Mr. Hale but also that of every other manager of a successful co-operative selling organization, testifies to the necessity of binding the members together with strong contracts in order that in times of stress they may be compelled to stand shoulder to shoulder through the fight. During the early history of the Oceana co-operative concern outside buyers were eager to discourage the members with the plan; and to do this they would go to members who produced good fruit and offer them a premium over the price paid by the organization. Unless bound to the society by a strong contract these members were quite sure to yield to the temptation of selling to the outsider and forsaking the society. The Flower Show. To Be Held August 15th

Some New Ideas Adopted By Women's Institute.

The regular monthly meeting of the Women's Institute, which was held on April 18th in the High School building at West Summerland, was well attended, and some good papers were read. One on "Labor Saving Devices in the Home," by Mrs. R. E. White, and another on "Hints for the Laundry," by Mrs. Lipsett.

The committee appointed to interview the school teachers on the question of school gardens reported the teachers quite in favor of the idea if, at the Central School space and suitable soil could be provided, and as the Department of Agriculture has offered to supply flower seed for the schools free of charge the secretary was instructed to apply for seeds.

It was decided to hold the Annual Flower Show and Fancy Work Exhibition on August 15, in connection with which the following resolutions were passed:

Anyone wishing to exhibit free of charge as an Institute member must join the Institute before the first of June.

That children of members under 16 be allowed to exhibit free of charge.

Several new members were enrolled.

Mrs. Solly "Farewelled."

At a most successful function held last Saturday in Campbell's Hall, Mrs. Solly, wife of Rev. H. A. Solly, was farewelled previous to her departure for a year's visit in England. Some one hundred to one hundred and twenty-five members of the church and congregation were present to wish Mrs. Solly a pleasant voyage. Afternoon tea was served from four to six o'clock. Numerous small tea tables were scattered about the room with one long table in the centre, all of which were tastefully decorated with yellow flowers set in green leaves.

At five o'clock Mrs. Solly was surprised by a presentation of a purse of gold contributed by the ladies and bachelors of the congregation as a token of their esteem of her untiring work in connection with church and social life, the presentation address being made by Mr. W. C. W. Fosbery, churchwarden. The purse was presented, together with a bouquet of flowers, by little Miss Hilda Arnett, daughter of Mr. and Mrs. W. Arnett. Though taken by surprise, Mrs. Solly replied appropriately in a very charming speech. She said she did not need any token of remembrance, as she was sure that during her year's absence the memory of her many friends here would remain fresh. When she left her home in England she had felt that she was leaving all her friends behind her, and that they could never be replaced. But now, on the eve of her departure, she could count up many more intimate friends in Summerland than she had left in the Old Land, and throughout the intervening year, she would look forward to her return to this place, which she hoped would continue to be her home.

To Mr. and Mrs. Arnett is due much of the credit for the unqualified success of the function.

Quite a group of friends gathered at the wharf on Tuesday to say a last goodbye. Mrs. Solly and little ones were accompanied as far as Steamers Junction by Mr. Solly, who will return to remain here for a few days.

All dairy products are now higher than they have ever been in the history of the country. The price of butter and milk is steadily advancing and meat prices are now "away up." This is not the result of the combination of the meat packers or any other so-called trust methods. It is due solely to the scarcity of cattle in this country. The open range has disappeared and the farmer is now raising grain instead of cattle.

Excellent Prospects for a Big Crop.

False Report Which Was Given Wide Circulation Emphatically Denied—No Frost Damage Here or Elsewhere in Okanagan.

There recently appeared in some of our western metropolitan dailies reports to the effect that the British Columbia peach crop was ruined and other crop damage done by frost. This report has been as quickly denied from a number of centres, including Summerland. While it is true that we have had unseasonable cool weather, and on two or three nights there has been light frost, careful enquiry shows that no damage whatever was done. A good number of our local fruit growers were questioned and in every case assurance was given that not only was there no damage, but there was every prospect of an abundant crop, and Summerland is likely to ship more fruit than it did in 1912, when a record crop was marketed. Inquiry by telephone and otherwise from other Valley points brings equal assurance of excellent prospects. The story of ruin to the peach crop of British Columbia seemingly originated from a report sent out from Keremeos that the peach buds there had suffered.

The decision is the first important one prepared by Chairman H. L. Drayton, and there was not one dissenting voice.

RATES WERE UNREASONABLE.

"In my view," says the chairman in his decision, "the express rates charged by the defendant companies in the prairie provinces and in British Columbia are unreasonable. Reductions which have been made, and they are many, as shown by the companies' tariffs, are reductions which only little affect the manner in which the bulk of the tariff is moving, or are perhaps compensated by additions which have been made to the rates, presumably in the levelling process, in establishing a mileage basis of standard rates, as provided by the judgment. I am of the opinion that an approximately average reduction of 20 per cent. should be made by the companies in the standard maximum tariff for traffic classified as merchandise to apply only to the prairie provinces and to British Columbia."

"The Servant in the House."

In Aid of the Scott Memorial.

Contributions are coming in steadily and there is very little doubt that we shall be able to have a reminder of the manly deed and death we are perpetuating, in both Summerland and West Summerland.

On Friday evening, May 9th, Mr. Sauter will read "The Servant in the House" at the College Gymnasium, and the Misses Higgin and Mr. Ken Thomas will play appropriate music, the proceeds of the evening to be contributed to the Scott Fund.

This wonderful play has been so much discussed in the newspapers and magazines that it is hardly necessary to say much about it here, except that it may be taken as one of those examples of dramatic writing, that have drawn a great deal of the attention of the church to the stage, and that have made the former recognize more clearly year by year the enormous power for good that lies in the right use of the stage.

Though there is a great deal of genuine humor in this play, and opportunities for hearty laughter, its general atmosphere is serious.

Admission will be 50 cents to any part of the house. See adv. elsewhere in this issue.

Labor Commission To Sit Here on Monday.

The Labor Commission recently appointed by the Provincial Government to enquire into labor conditions in this province will, it is understood, sit here next Monday. Sessions have been held in the northern part of the Valley this week, and Municipal Clerk Logie has received an enquiry from one of the members asking for a place of meeting here. He has, with the permission of the Council, offered the Council Chamber, and if this were not satisfactory a hall in town would be procured. Nothing further has been heard so it is presumed that the meetings will be held in the Council Chamber.

Express Rates in the West.

Twenty Per Cent. Reduction Ordered By Railway Commission.

A judgment that will be of immense importance to British Columbia, and to the whole of Western Canada, was given by the Railway Commission last week, and will reduce express charges in the West by 20 per cent. The new schedule of rates will come into force on July 15 of this year. The board was satisfied that the West had carried more than its fair share of express rates.

The decision is the first important one prepared by Chairman H. L. Drayton, and there was not one dissenting voice.

RATES WERE UNREASONABLE.

"In my view," says the chairman in his decision, "the express rates charged by the defendant companies in the prairie provinces and in British Columbia are unreasonable. Reductions which have been made, and they are many, as shown by the companies' tariffs, are reductions which only little affect the manner in which the bulk of the tariff is moving, or are perhaps compensated by additions which have been made to the rates, presumably in the levelling process, in establishing a mileage basis of standard rates, as provided by the judgment. I am of the opinion that an approximately average reduction of 20 per cent. should be made by the companies in the standard maximum tariff for traffic classified as merchandise to apply only to the prairie provinces and to British Columbia."

The decision also provides that there is to be a similar reduction in special rates. A particularly important portion of the board's order is the provision for the basis of the standard maximum mileage tariffs. Under the Mabee decision the standard maximum was placed at \$5 a hundred pounds for the prairie section and \$6 for the mountain section. This is reduced to \$4 for the prairie and \$4.75 for the mountain section.

WILL HELP FRUIT INDUSTRY.

It is believed that the British Columbia reduction will be particularly valuable to the fruit industry of the coast province, as it will give them far lower express rates to the prairies. An interesting feature is the statement that the inauguration of the parcels post system in the Dominion will considerably cut down the express companies' business. This reason is given for not making a greater decrease than 20 per cent., and for not making any changes at all in the Eastern rates. After defining the difference between freight and express traffic the judgment continues:

WHAT COMPANIES URGED.

"Both Mr. Hanna of the Canadian Northern, and Mr. Stout of the Dominion Express, urged very strongly that the proposal of a twenty per cent. decrease was entirely too radical, not called for by the conditions of business, and unduly oppressive.

"In my view no smaller reduction should be considered. The express business is a matter of railway operation in this country, and the capitalization and bonded indebtedness of the different express companies have been created under such circumstances as to require no consideration in striking a rate. I can add nothing useful to what the late chief commissioner under this head said in his exhaustive judgment. The test of the rate is largely its reasonableness, in view of the service supplied, and in directing the reduction now made by this judgment, the board, I think, would be but adopting a rate basis at the present time, and in the light of the different aspects of revenue and operation now presented certainly as reasonable from the standpoint of the carrier as from that of the shipper."

Water Notice.

For License to Store or Pen Back Water.

NOTICE is hereby given that the Municipality of Summerland will apply for a License to store or pen back 960 acre feet of water from Aeneas Creek, a stream flowing in a south-easterly direction and emptying into Okanagan Lake, near Summerland. The water will be stored in a reservoir of 960 acre feet capacity, to be built at head of South Branch of Aeneas Creek, and being about five and a half miles south-west of south-west corner of Lot 1378, Osoyoos, and will be used for Domestic Water and Irrigation purposes, as authorized by Water Records Nos. 174, 1269, 1195, 227, 425, 1095, on lands in the Municipality of Summerland.

This notice was posted on the ground on the 23rd day of April, 1913. The application will be filed in the office of the Water Recorder, at Nicola.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

J. L. LOGIE,
Municipal Clerk.

Water Notice.

For License to Store or Pen Back Water.

NOTICE is hereby given that the Municipality of Summerland will apply for a license to store or pen back 650 acre feet of water from a stream flowing in a south-easterly direction into Trout Creek, near District Lot 2092, Osoyoos. The water will be stored in a reservoir of 650 acre feet capacity, to be built at Headwaters of Camp Creek, a tributary of Trout Creek, and being about six and a half miles S.S.-W. of south-west corner of Lot 1378, Osoyoos, and will be used for Domestic and Irrigation purposes, as authorized by Water Records Nos. 275, 875, 913, 960, 975, 976, 977, 978, 979, 980, 981, 982, 983, on lands in the Municipality of Summerland.

This notice was posted on the ground on the 23rd day of April, 1913. The application will be filed in the office of the Water Recorder at Nicola.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

J. L. LOGIE,
Municipal Clerk.

TENDERS.

For supply of refreshments on the Flat on May 24, 1913. Forms for the above may be obtained from the secretary, Chas. A. Marshall, and must be returned signed on or before May 12th, 1913. a25m2-9

NOTICE is hereby given that meetings of the Provincial Labor Commission will be held at the following places:

- Enderby—Monday, April 28th, 8 p.m.
- Armstrong—Tuesday, April 29th, 2 p.m.
- Vernon—Wednesday, April 30th, 2 p.m.
- Kelowna—Friday, May 2nd, 8 p.m.
- Summerland—Monday, May 5th, 10.30 a.m.
- Penticton—Tuesday, May 6th, 10 a.m.

Other meetings will be announced later.

The Commission will hear evidence on all matters affecting labor conditions in the province. All persons interested are invited to be present.

First Impressions of London.

Second of a Series of Interesting Articles by a Canadian in England.

[Written specially for THE REVIEW].

London, Eng.,
April 12th, 1913.

On waking the next morning after our arrival at the great metropolis the sun was shining brilliantly, an event I understand, which has rarely happened in the last few months. On looking from a front window across the road, the large brick wall of Kew Gardens can be seen extending along Kew Road for a distance of about half a mile. Over the wall one gets a glimpse of extensive lawns dotted here and there with large trees and shrubbery of all sizes and varieties. Flower beds of unconventional design with the most luxuriant growth of the earlier varieties of flowers can be seen in all directions. In the front of every house, also, there is a mass of green and blossoms. I am afraid, however, that I lack the vocabulary and the powers of expression to further venture along the esthetic lines.

Immediately after breakfast we hailed a motor bus which runs past our door and started for the city. On seeing one of these vehicles it is quite easy to understand why they have so quickly supplanted the famous London horse cabs. By a little squeezing, sixteen people can be seated inside and eighteen on top, entrance to the latter being gained by means of a small winding staircase at the rear of the omnibus. One could not wish for a better way of seeing London than from the top of one of these cars, and on a fine day they are crowded with sight-seers. Apart from the pleasure-seeking phase of the question, they are most convenient as a means of conveyance to any part of the city, because the city is simply swarming with them, and by transferring from one to another you can get to any part you desire. A child, if it could read, would find its way by this means of transportation, because the different parts of the city through which the omnibus goes are shown by conspicuous signs on the front and back. To facilitate the traveller, each bus line is numbered, consequently it is easy for us to remember that we take bus number 27 from Kew Gardens to Hammersmith and then either bus number 33, 9, or 11 from Hammersmith to Trafalgar Square.

The novelty of our first trip on one of these vehicles made it intensely interesting. We started up Kew Road with the Kew Gardens to our left and a handsome line of old English residences to our right, while on each side of the street are beautiful shade trees which nearly form perfect arches above the street, so luxuriant is their growth. Here we passed other motor busses and large limousines and an occasional roadster. After crossing the Thames, the streets became narrower more winding, and the traffic more dense, vehicles of every description being in evidence. The motorman began to give an exhibition of his skill as a driver on a street teeming with traffic. The way he twisted and turned that big car through such narrow spaces, dodging here and there and jockeying for an opening was simply marvellous. At numerous places along the way we drew up to the curb to take on passengers, and in doing so our shoulders would occasionally just brush past shop signs that extend over the sidewalk.

At Hammersmith we changed to another bus which goes into the heart of the city. As we came closer to Trafalgar Square the omnibus got into a seething mass of traffic, but strange to say there was no confusion. The vehicles in the street scurried along in double lines going each way. All over the city there are squares, and what are called "circuses," where several streets come together and cut one another at the same point. It does not require a very vivid imagination to realize what happens at such a place in the heart of London. It is in such places that the policeman stands pre-eminent, the mere motion of his hand bringing traffic to a standstill to let a child cross the street. With rushing vehicles coming in so many different directions that it almost makes one dizzy to watch it for very long, these policemen handle it so well that always the best of order prevails. No wonder the London "bobby" is famous all over

the civilized world. The curious part of it all is that all the drivers appear to be good-natured in the midst of it, and apparently do not mind the frequent delays. On the sidewalks, too, everyone is very polite, a habit which is, I am afraid, woefully lacking in the average Canadian or American city. Over here, even the waiters in the restaurants will thank you while you are giving them your meat order.

In the vicinity of the Bank of England one can almost feel business in the air. Without a doubt this is the commercial and banking centre of the world. Everyone with any business connection of any importance wears a silk hat and morning coat. It is quite a novel sight for a Canadian to see men of all ages in such an apparel during business hours. That it was only meant for the drawing-room, or for Sundays, or perhaps evening wear, is the impression I have always had. Another feature of the English business man which is new to the Canadian is that at about four o'clock or later, as a rule afternoon tea is served at his desk. There is no doubt that this custom has its good features as the relaxation from the nervous strain connected with business is very beneficial and often necessary.

In our itinerary we had afternoon tea at a beautifully furnished tea room. At the door we were saluted by a man in livery whose sole duty seems to be to touch his cap to people entering. Inside, waiters in various uniforms hovered around the tables, while a magnificent orchestra in the centre of the large room played Viennese waltzes and all the popular music of the day. People very often go in such a place and sit around for an hour or two over a cup of tea and listen to the music.

We returned home by the omnibus route about six o'clock in the evening rather tired but quite enthusiastic over what we had seen.

Civic Cleanliness

Town Dumps a Discredit to Canadian Towns and Cities.

Better Scavenging Regulations Essential.

(From Conservation.)

Civic cleanliness has not advanced very far in Canada. The town dump, with all its tin cans, waste paper, old rags and ash conglomerate is frequently as much a public institution as the town hall or the town council. For the sake of economy in cartage the dumps are frequently placed much too close to residential districts, and civic apathy permits them to remain there, and to grow in bulk and unsightliness.

Garbage must be disposed of, but why our civic authorities should not insist upon the burning up of much of the house waste upon the premises, either in the furnace or the kitchen stove, is something to be marvelled at. If there were more domestic tidiness in Canadian towns and cities in the way of destruction of many articles of house waste by home cremation, the gross saving to the municipality would be considerable and the town dump would be less in evidence.

Then, too, the "dump" should be supervised, and men should be employed in burning all such materials as paper, cardboard and other boxes, discarded matting, etc. This would result in the saving of space and prevent the scattering of the lighter materials by wind. Further, the destruction by fire of as much as possible of the material brought to the dump would prevent to some extent the fly nuisance from that quarter. On the completion of the burning operations, the health department should insist that all garbage should be covered first with a layer of lime, and then with clean earth, the latter for the depth of at least three feet. Of course in cities and large towns incinerators should be installed, and the dump should only be used as a repository for ashes and clean earth. Scrap should be sold.

The spring time is a good season to declare war on the town dump and on filthy back yards and lanes. If the citizens can be aroused to demand action, ACTION, the civic officials will very soon supply it.

Let us not wait until our blessings are gone before we begin to prize them.

Shiloh 25¢
The family remedy for Coughs and Colds.
Shiloh costs so little and does so much!

This label has no "second grade"

THERE'S only one quality of Canada Cement. It is the highest quality that can possibly be made with modern equipment, scientific methods and rigid inspection by expert chemists.

The Canada Cement you buy for a garden walk is the same cement that is sold by the trainload for great dams, elevators and bridges. The engineers in charge of these great works have ample facilities for testing the quality of cement.

Canada Cement

comes up to their most rigid requirements. The farmer has not these facilities for testing the quality of cement. He must buy a product upon which he can depend for a grade that is always of highest quality, and that therefore does not need to be tested.

You can place absolute reliance upon the quality of Canada Cement. It's always the same and always the best. The large output—which enables us to keep the price down, enables us also to maintain the factory equipment and organization that keeps the quality up.

A Canada Cement label appears on every bag and barrel of genuine Canada Cement. See that it's on the bags and barrels of cement that you buy.

WRITE for our free book "What the Farmer Can Do With Concrete." It has told a hundred thousand Canadian farmers of the money-saving and profit-making possibilities of concrete.

A CARGO OF CORPSES.

Nearly 6,000 bodies of dead Chinese will some time in May be shipped to China from Southern California. This gruesome cargo will be the largest single shipment of human remains in the world's history. Preparations have been so quietly carried forward that no comment has been occasioned. According to a belief of the Chinese the dead are not at rest as long as they are buried in foreign land. Hence the reason for whenever possible transporting the body to the homeland for burial. The work is being done under the direction of the Chinese Consolidated Benevolence Association of San Francisco.

Thirty-five carloads of American fruit aggregating nineteen thousand boxes were shipped into Vancouver between the first and seventh of April. This, according to the inspectors department, is typical of the trade during the whole winter and spring. Hon. Price Ellison has expressed the opinion that this shows conclusively the necessity of storing and carrying over fruit to supply our own markets.

The parent who believes every word the son or daughter tells them in regard to the conduct of the teacher is very likely to think ill of the teacher and without just reason. It is natural for youth to be prejudiced and to resent punishment even if it is just. Many a good school is spoiled by the parents upholding pupils when the proper treatment would be to up and end them and use a shingle.

Go forth with a smile on your face and you will return believing that most people are good-natured. Wear a frown and you will find plenty of quarrelsome people.

CHURCH NOTICES.

Methodist Church—Services every Sunday morning at 10.30. Sunday School at 11.30. Fortnightly evening service at 7, alternating with Presbyterian Church, West Summerland.

The Home Circle

Crude Thoughts From the Editorial Pen.

ONE fault in the way of living of not a few people is that they never make company of their own families.

AN obliging disposition may keep your wash tub and flat irons floating around the neighborhood eleven months in the year, but the same reason will bring in chicken broth and kind words in case you have a run of bilious fever.

NOWHERE is a woman's character more clearly shown, or her talents given more scope for cultivation than in home making, and in no sphere is the true woman more content and happier than in house-keeping. Home is indeed the "dearest place" on earth when rightly made, and the memory of which remains with us until death, and will do more to protect and restrain its inmates than the grandest and most eloquent sermons from the most gifted ministers and orators. In short, home is the kindergarten of all Christian work and influence, the starting point of all beautiful thoughts and deeds.

LET THE BOYS HELP. WHY is it that boys are allowed to sit in the house doing nothing while their over-worked mother is struggling against nature and fate to do about half the work waiting for her hands? Only the other day we saw three large able-bodied boys, lounging about the house, not knowing what to do with themselves, while mother, alone, tired and pale, was trying to do the work for a large family and company. Not a boy to help about the house? Why not? Is there anything about washing dishes that will injure him, or about making the beds, or sweeping, or setting the table, or washing, or ironing, or cooking a plain meal of victuals? On the contrary, there is too much to benefit him in such work, the most important of which is to gain the idea that it is not manly to let the weaker "vessel" carry all the burdens, when it is possible for strong hands to work. Most boys would gladly help in the house if they were asked to do so, and were taught how to do the work properly. Many a smart boy wants to help his tired mother, but he doesn't know how, beyond bringing in wood and water. This done, she tells him to go and play while she plods wearily on. Not a boy's work? For shame! It is positive harm to his moral character to allow him to think it is right to be idle, while mother is struggling under her burdens. Let the boys help, and those who can't get help "for love or money" will see their troubles disappear.

PHYSICAL TRAINING COURSES FOR TEACHERS.

Under the Strathcona Trust Fund for providing physical and military training to school teachers, instruction has been given by the Provincial Government for the past two years, and instructional camps will be held again this year. Physical training courses are compulsory where none of this work has been taken before, but if a teacher holds a certificate of physical training, cadet instructors courses only must be taken.

Teachers taking the cadet instructors course will assemble at Victoria on July 7, and will remain in camp approximately four weeks, at the end of which time examinations will be held, which if passed successfully lead to a commission of lieutenant in the corps of instruction, a recognized branch of the Canadian militia. The militia department undertakes the expense of transportation, camping, equipment, blankets, cooking utensils, and camp cooking stoves, and allows \$1.50 per diem to cover necessary expenses, including the supplying and cooking of rations. This sum leaves the teachers with a fair amount as spending money, as, by combining in one mess the expenses for food and cooking are materially reduced.

Last year there were about fifty teachers taking this course in Victoria, of whom fourteen were from Vancouver.

The physical training course is to be held at Victoria, Vancouver and Nanaimo for four weeks, commencing July 2, and at Vernon and Nelson for a month, commencing July 30. In this course teachers are not placed under canvas, but are allowed \$1 per day to enable them to pay for food and lodging. Teachers may elect as to what point they will take the latter course.

STEAMER STEWARD DROWNED FROM BOAT.

Nelson, April 26.—Robert Abbott, steward of the C.P.R. steamer Moyle, was drowned to-day in the Kootenay Lake near Ainsworth. He fell from the stairway into the water. As soon as the accident was noticed, the lifeboat was launched. Abbott was then swimming strongly, but before the boat reached him he sank in the ice cold waters of the lake. No sign of the body was found, although the boat was rowed over the spot where he sank for half an hour. He had been in the C.P.R. service in Nelson for six years.

FIRST STEAMER TO MONTREAL.

St. Lawrence Now Attracting Attention

The early opening of Navigation on the St. Lawrence this year is attracting a great deal of interesting comment on the possibilities of extending the season of navigation. The White Star Line "Teutonic," which left Liverpool on Saturday April 19th for Quebec and Montreal with 510 cabin and 900 third class passengers, is the first passenger steamer to Montreal this season.

On the return trip she sails on Tuesday, May 6th, instead of Saturday as formerly, the Canadian Government having designated the White Star-Dominion Line to carry the Tuesday mails.

This company is planning to give persons of small means an opportunity to go abroad for four weeks this summer, visiting England and the Continent, at a total expense of \$167.50, including cabin accommodation on the steamer and all expenses ashore. A considerable number have already signified their intention of making the trip.

ANOTHER WAY TO PRESERVE EGGS.

When eggs begin to get plentiful it is well to know how to preserve them for eating when they are scarce.

The fresher the eggs in the first instance the better they answer for keeping purposes. If possible, date the eggs on the day they are laid as a guide, which to use first later on.

Boil them in the usual way for about two and a half to three minutes, then store them in a dry but airy place. They can be kept for several months in this condition, and when they are required it is only necessary to put them in cold water and let this water get quite hot over the fire. They are then ready to eat. This method is one very much used by the French.

Another French method for raw eggs that is very successful is as follows:

Dip the eggs into a fairly strong solution of gum arabic and put them into a box filled with powdered charcoal. Keep this firmly closed. The charcoal is easily washed off when they are needed for use. The gum arabic closes the pores of the shell.

Canada has 1,000 telephone companies.

Shiloh
The family remedy for Coughs and Colds which costs so little and does so much!

As fresh as summer roses in early dew.

Such are the Groceries sold at this store. The delicate aroma of the coffee, the delicious taste of the butter—all the appetizing points of good sweet, clean food are carefully preserved at this Grocery. Even our canned and carton goods are kept in lowest quantities that they may be constantly renewed. Everything is pure and clean—cleanliness is next to godliness here.

All our Groceries are as delightfully fresh as a wild rose sparkling with dew on an early summer morning. Let a trial convince you. Send or come with an order, or phone, and a messenger will call.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR.

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 2, 1913.

EXPRESS RATES MUST BE CUT.

THE decision of the Dominion Railway Commission that the present express rates in Western Canada must be cut 20 per cent. is of the greatest importance to the Okanagan. The enormous rates which have been and are yet being charged has been a great handicap in many ways, and when forced to use express transportation merchants and other business men have always paid the charges with the feeling that they were being "soaked." The cut ordered to take effect July 15th is one step toward the removal of the oppression. It is in the matter of our fruit that the express rates have caused the greatest hardship, making it prohibitive to ship perishable fruit in mature condition. With the one-fifth reduction it is altogether probable that our growers will find it to their advantage to allow many peaches and other soft fruits to remain on the tree until they obtain their best flavor and color and then ship by express. This feature should be a great help in reclaiming the Coast markets now so strongly held by Washington and Oregon, particularly since there has been awakened in the Coast cities a spirit of loyalty to the home grown fruit. It is only reasonable to suppose that since the Railway Commission have found the western rates too high they will also find cause for ordering a reduction in western freight rates. Already evidence has been brought out to show that the west is suffering as a result of the freight charges, and we have now learned enough of the man, H. L. Drayton, now Chairman of the Commission, to know that he will not spare the transportation companies if he finds they are charging unnecessarily high freight rates. A well-known western Liberal paper says editorially that "Mr. Drayton's concise statement in favor of the west, and against the express companies, goes to show that he was wisely chosen for his present position. It was Mr. Drayton's first important decision, and does him great credit."

MANUFACTURED WAR SCARES.

RECENT revelations as the result of an investigation obtained by the leader of the Socialist party in Germany would lead one to believe that if the government of that country, and perhaps the governments of some of the other European nations, were to take over from private individuals and corporations the manufacture of the munitions of war, including the building of the ships, there would be little likelihood of the frequent revivals of "war scares" such as has been dealt out at frequent intervals during the last few years. These revelations, which are of the most scandalous nature, show that international distrust and jealousy has been purposely fostered through illegitimate means by those capitalists to whom the building of ships of war, armaments, artillery, and kindred supplies bring direct and large profits.

One private firm of Germany has been accused of employing agents in France to provide the French ultra-loyal papers with material intended to increase the popular agitation in that country against Germany, and thus give excuse for more and larger orders from the German Government to this and other private firms. The employment of secret agents to bribe the war office officials and many other underhand means have been employed to increase the demand for the implements of war.

Army and navy societies with the financial assistance of armor plate firms have been established for the purpose of popularizing the war spirit, and other pensioned officers are travelling the country preaching war. These same firms, through their bribery system, have been able to get fat prices yielding immense profits thus putting the people's money, collected by excessive taxes, into the hands of those whose business exists on the increasing demand for armament. With this business nationalized this greed for selfish gain would be removed, and the frequent "war scares" would as quickly subside.

LOSING MILLIONS.

THE damage done to timber in North America is from \$25,000,000 to \$100,000,000 annually, according to experts who have made a study of the question. From 1880 to the present time, the annual loss is estimated to be \$50,000,000. These figures do not include estimates of the losses sustained in the destruction of young growth and forest litter, in which lies the hope of future timber crops. The burning of the forest litter has the effect of making streams flow irregular, eroding river banks and destroying the fertility of land over which useless earth is deposited by swollen rivers.

Of recent years there has been a remarkable change in the attitude of the public towards these losses. Newspapers and magazines discuss questions of fire protection all the year through, rather than in the periods of danger exclusively. Governments are adopting advanced legislation, the number of fire rangers is constantly increasing and over sixty forest protective associations on the continent are actively engaged in efforts to reduce the fire loss.

With half the timber wealth of Canada within her borders, and an annual revenue from the forest which can attain a total of at least \$100,000,000, British Columbia's interest in the protection of forests from fire is almost beyond estimate. The Forest Branch is taking active measures to place the whole province under efficient protection, to the end that no such losses as have occurred in the past in other parts of the country may take place here.

THE express companies are not going to lose by the enforced reduction in their express rates. That this will be particularly the case in their connection with the fruit business is assured. The reduction in rates will no doubt greatly increase the volume of business and the larger business being done at a smaller ratio of expense will in all probability mean greater profits for the transportation companies. Much fruit which has become too ripe for shipment by freight will no doubt henceforth be delivered by express. It is not improbable that an even greater reduction in express rates as applied to fruit would be justified by a still greater increase in business.

THE prosperity of a town is not guarded by the wealth of its inhabitants, but by the uniformity with which they pull together when any important undertaking is to be accomplished. A man with a thousand dollars at his command, and a love for his town in his heart, can do more for its upbuilding than the millionaire who locks up his capital and snaps his fingers at home enterprise.

Our Philosopher

A COMMUNITY like ours, unlike a city, is no place to foster jealousies or nourish contentions. All should learn to know that what ever will conduce to the welfare of the municipality cannot injure any of her citizens. The disposition made manifest by her citizens point either to her downfall or to her rise. The character of the people make the town, not her business blocks, fine houses and modern utilities, and when people lose interest in the promotion of their town they need not hope to thrive. Harmony among the people of a community is indicative of its progress. Farmers cannot be at variance with one another and prosper; merchants cannot, churches, nor can any similar organization or community.

H. B. Taylor of Vancouver is visiting relatives here this week.

Mr. H. Snider has been spending the week end at the home of Mr. J. E. Phinney.

Miss M. Bateman of Vancouver is visiting at the home of Miss Dale, West Summerland.

Miss Grace Logie was the guest of her sister, Mrs. R. G. Robinson, Naramata, over Sunday.

Mr. Wellington Watson has sold two building lots at Naramata to Roe Brothers of that place.

Prof. S. Everton of Okanagan College occupied the pulpit of the Naramata Church last Sunday.

Jack Steven has started work on the building of a bungalow for Alex. Smith on his lot in Victoria Gardens.

Mr. Thos. Dale went to Vernon by Thursday's boat to meet Mrs. Dale who has been spending the winter in Ontario.

A case of German measles has developed at Naramata. The patient, a recent arrival there, no doubt contracted the disease before coming to Naramata.

It is said that the road between Summerland and Penticton, known as the Lakeshore Drive, and which suffered damage by last season's high water, will soon be put in first-class shape.

The university students of Okanagan College completed the writing of their McMaster spring examinations this week, bringing to a close their year's work.

Hilton Snider, a student at the College, is moving about this week on crutches caused by an accident on the campus, when he suffered a sprained ankle and the breaking of a small bone in that joint.

J. D. Johnston, who exchanged his property in Prairie Valley with W. P. Secrest for the latter's grain and stock farm at High River, Alta., has removed to the latter place with his family.

Mr. Lee and daughter of Toronto, who have been touring through the south and west were the guests last week-end of Mr. and Mrs. J. Rowley. From here they proceeded eastward on their return journey.

The Athletic Association of the College will run an excursion to Peachland to-morrow (Saturday) on the Skookum. The boat will leave the long wharf at 10 a.m., returning after the game about 5.30. Tickets for the round trip 50 cents.

The Ferry Company are contemplating putting on their summer schedule, beginning Monday, May 12th. The time table will be much the same as last summer, and particulars of the change will be announced in next week's Review.

Mr. and Mrs. Wm. McDougall, who have spent a year in our midst, occupants of the Phinney cottage, returned to Vancouver on Tuesday. Their sojourn here was for the benefit of Mr. McDougall's health, which has shown a marked improvement.

Miss E. Lewis, who has resigned her position on the Central School staff, was given a surprise party last night at the home of Mr. and Mrs. J. L. Hilborn, by a number of young people of the West Summerland congregation of the Baptist Church.

The Women's Institute has undertaken to provide the public schools with seeds, and many of the little ones are looking forward to their arrival, and are anticipating the transforming of the school grounds, or parts of them at least, into places of beauty.

On Thursday night of last week the Kelowna Musical and Dramatic Society was greeted with a well filled house upon their presentation here of "Charley's Aunt." Many favorable reports had been heard of their playing of this bright comedy, and accordingly much was expected. In every way expectations were realized to the fullest extent. The company brought with them their own scenery, specially painted for the play by Mr. McKie, of Kelowna. The excellent staging here of "Charley's Aunt" will assure the Kelowna troupe of another big house if they again visit Summerland.

Dr. Piper, of Calgary, was a visitor to town last Friday.

Irrigation water has again been turned on preparatory for the season's operations.

Mr. and Mrs. J. W. S. Logie moved to Naramata on Thursday where they will reside for the summer.

C. W. Haddrell and bride arrived on Wednesday night from England. They will reside at West Summerland.

A. F. Cotton of the Bank of Montreal branch at West Summerland left last Monday morning for the Coast on a two week's vacation.

Mr. R. G. Tait was a passenger to Vancouver the end of last week. We understand the object of Mr. Tait's visit was to undergo a minor operation.

Rev. Mr. Robertson and Mrs. Robertson arrived here Thursday night from Okanagan Centre and are now occupying the Rectory. It is understood that the Rector will conduct the service on Sunday, after which Mr. Robertson will be in charge.

Mr. K. S. Hogg has rented his cottage above Peach Orchard to Mr. A. McLachlan, who, with his family, recently arrived here from Vancouver. Mr. McLachlan was formerly a resident of Learnington, Ontario, and is a friend of Mr. Hilborn. It is said that Mr. McLachlan, if he finds conditions suitable, will buy an orchard property and remain here.

Notices containing several clauses from the Health By-law have been sent out by the Sanitary Inspector to all property owners and tenants. The authorities are insisting on cleanliness and tidiness, and already Constable Graham, who also acts as Sanitary Inspector, has made a marked improvement. Beginning at Peach Orchard and continuing right into town he has gathered and removed the weeds along the roadside and will continue this good work.

1911-12 was Canada's greatest fishing year. Value produced, \$34,667,872; 1910, \$29,965,433; increase of \$4,704,439, mostly in British Columbia.

quickly stops coughs, cures colds, and heals the throat and lungs. :: :: 25 cents.

[Continued from Page 1.]

led through because of other members who stood by loyally. Now, when organizing, one of the features most strongly impressed is to make the contracts between the organization and the members who expect to sell through it, binding; yes, not only binding but they also attach a penalty to the breaking of the agreement so that this temptation to leave is to a large extent removed.

NO STANDARD FOR GRADING GOODS.

Another difficulty is that there is no uniform methods of putting goods up for sale, being particularly true of fruit. The plan usually followed is to have each man pack his fruit at home then bring it and load same on to the cars, while the organization look up buyers and attends to the shipping. The plan brings trouble at once. What one person regarded as No. 1 fruit would compare with another's No. 2. Careful growers who give their trees care would have a fair per cent. of good fruit which they would designate as belonging to the best grade, and that properly. Others, through carelessness and ignorance, would have fruit that uniformly graded low; but, as would be natural, their best fruit would also be graded as belonging to the best grade. All parties, perhaps, mean to be honest in their packing. They do not plan to cheat but some of them do, and this becomes apparent when consignments are heard from. Purchasers of this fruit are disappointed. They could not depend upon its uniformity and consequently do not care for more.

To overcome the difficulty mentioned it becomes necessary to have the grading done where it could be properly supervised. This requires a central packing house. By installing such an institution it places the organization in such a position where the fruit could be absolutely guaranteed as marked. This is a long step forward, since the products can be readily disposed of at good prices when buyers learned the quality of the fruit put up, and that they could rely on the information placed on the outside of the pack.

INEFFICIENCY OF MANAGER.

Many failures are the result of the selection of an incapable manager by the board of directors. A knowledge of crop conditions and the best markets for sending the goods, as well as an ability to open up new avenues for distribution are essential in a manager. Then, over and above all of these is that other quality which is more impor-

tant than all the others, since it is native to the individual and not so readily acquired, and that is the quality of being absolutely honest, and loyal to the concern for which he is laboring.

STARTING WITH

THE WRONG ATTITUDE.

Another difficulty is that the average member approaches the association with the wrong attitude. Usually it becomes necessary, in order to get a sufficient number of persons in a community interested in a movement of this kind to picture its advantages rather highly. These pictures usually cling to their imagination and when it becomes necessary to take up the regular duties of co-operation they make no allowance whatever for deficiencies in human nature, with the consequence that should the manager or anyone else officially connected with the concern make a mistake such members are apt to be discouraged. In order to make such an association a success the members who co-operate should go into it with the expectation that mistakes will be made. If they approach the real work in this frame of mind they will not be disturbed when things fail to move according to an ideal program. They will rather be encouraged with every success and thereby have an increased loyalty toward the institution.

Friend, help the editor in his wild-eyed search for news. When your friends come to see you, if you are not ashamed of it, tell him; when your wife gives a tea party, if you have recovered from the effects of the gossip, drop in with the news; when a new baby arrives, fill your pockets with cigars and call; if you go to a party, steal some of the good things and leave them at our sanctum.

The ocean-going freight carried to and from Canadian seaports during the year ending March 31, 1912, was 7,324,126 tons weight. 10.5 per cent. was carried in Canadian, 56 per cent. in British, and 33 per cent. in foreign bottoms.

Mr. Billings says everybody is in the habit of bragging on Job, and Job did have considerable pashunce; but did he ever keep a district skule for 8 dollars a month and board around, or run a kun-tree newspaper?

The Canadian area of the five great lakes of 100,000 square miles forms only one-fifth of total area of the fresh water lakes in Canada.

Canada's percentage of population: rural, 55; urban, 45. United States, 21; 79.

FARSIGHT IN CAR SELECTION

THE measure of your pleasure in motoring depends on the discrimination you use in purchasing your car.

Not alone should you investigate the worth of the car itself. You should be particular about the firm that makes the car. Look a little ahead—ask yourself whether the car you're about to purchase is likely to have a factory at all behind it six months hence.

There's sure satisfaction in the choice of a McLaughlin Car—not only are McLaughlin Cars trustworthy in themselves, but they come from a factory that has been producing high-grade cars for five years, and was making high-grade carriages nearly half a century before that—a factory that is the keystone of a big organization, with completely-equipped sales depots all over Canada.

Improved and Unimproved
FRUIT LOTS

W. J. Robinson

NOTARY PUBLIC

Naramata Notes.

Miss Freda Mitchell was visiting in Penticton the latter part of last week.

Gardener Aveson purchased a horse in Summerland and had it brought over on Tuesday.

Mr. Peter Roe's house has been greatly improved by the addition of a verandah and dormer window.

Mr. Gordon Hayman and Mr. Harold Steers were week-end guests at the home of Mr. and Mrs. H. J. Wells.

The tennis talk has materialized into a meeting to be held at the home of Mrs. Noyes on Friday night.

The dance given on Saturday night by Mr. and Mrs. Walters was very well attended and enjoyed very much by all.

Mrs. Languedoc went to Summerland on Friday in order to attend a reception given for Mrs. Solly before her removal from Summerland.

We understand that Mr. and Mrs. Ellwell will reside in the Lyons' place after Mr. and Mrs. Lyons move to their fruit lot for the summer.

The Mason family is expected to arrive here from England the latter part of the week. They will take their residence in their new home above the Young residence.

One of the workmen at Brandt's camp was hurt quite badly last Thursday, and the "Skookum" made a special trip to the hospital at the Mission to take the man there.

Rev. G. O. Fallis will be with us but four Sundays more. It seems but fitting to show the deep appreciation which we all feel for his work here by giving him unusually large congregations during his few remaining Sundays among us.

The new pulpit for the Naramata Church will be in its place for this coming Sunday's service. A pulpit has long been needed and will be a valuable addition to the church interior. It is local handiwork and reflects much credit to its maker, Mr. George Cook.

At the last meeting of the Unity Club, officers for the coming year were elected. By a unanimous vote the presidency was given again to Mrs. Gillespie. Mrs. Mitchell, who presided so efficiently during the absence of the president, was chosen for Vice-President. Mrs. Hayward, who has taken the duties of Secretary for the past three years and who wished to give up the office, will be succeeded by Mrs. Salting. (Later a vote of appreciation for Mrs. Hayward's faithful work was passed by the Club.) Mrs. Cook was again given the office of Treasurer. The Club's Board of Advisor's were elected as follows: Mrs. Cash, Mrs. Hancock, and Mrs. Davies. A very satisfactory year's report was submitted by the Treasurer, showing the earnings of the Club to be well over \$200. Two new members, Mrs. David Hughes and Miss Emma Davies, were added to the roll. The next meeting, on May the 9th, will be given over entirely to properly "showering" Miss Hazel Wells.

It was an event very much enjoyed by the girls who were formerly loyal members of the Sigma Delta Club. We are speaking of the tea given by Mrs. Gillespie in honor of Miss Hazel Wells. For a time the guests earnestly endeavored to solve some problems given them, the aim of which was to enlighten the bride-elect in some future perplexities; then followed some bits of sound advice to her from each one. Later the girls passed into the dining-room, which was very prettily decorated in green, which color has much significance to Miss Wells. There, by a very clever arrangement, each person was introduced to the company, with some "inside facts" attached to each introduction. Mrs. H. J. Wells presided over the tea and coffee, and the Mesdames Manchester very ably served the refreshments. Toasts were proposed and responded to by Miss Ruth Chambers, Miss Edna Reid and Mrs. R. C. Robinson. Miss Wells responded to calls for "Speech!" After some well-chosen remarks from Mrs. Gillespie the girls gathered to give "Auld Lang Syne," and finally to depart after spending a very pleasant afternoon.

"The Dream Girl."

Empire Hall was well filled, though by no means crowded, on Wednesday evening when the operetta "The Dream Girl" was presented. The Juvenile Bostonians are becoming well known to Summerland, and will always attract a good house. Their entertainment was of a high order, full of fresh, clean humor, with a few local references that went home. The acting was always natural and easy, showing a control that could well have fitted older actors. The singing was also effective, and met with a good response. The principal parts were sung by voices of exceptional tone and strength, and all the choruses were full and clear. The dancing was graceful, varied, and never overdone, making greater effect from the variety of pretty costumes. The humor was constantly sustained by "Bill" the farmer boy, and "Mike" the soldier, whose jests and antics made a continual flow of healthy fun throughout the play. Not every travelling company presents such sterling entertainment, and the Bostonians fully maintained the worthy reputation their previous appearances in this town have made for them.

Save One Ton of Coal in Every Six

The Economizer will do it.
While the cost of living has undoubtedly been growing greater, at the same time it is true there are some inventions that will offset this increased cost of living, and the careful housewife takes advantage of these inventions.
On every Gurney-Oxford range there is an Economizer, which controls not only the drafts but also the entire combustion or burning of fuel to create heat.
This Economizer will save 1 ton of coal in every 6 that you would use with the ordinary range.
The Economizer is a simple device, absolute in its control. By merely moving the lever you can obtain any degree of even heat in the oven. This insures the satisfaction of always having light, delicately crusted bread and biscuits.
The kitchen fire ceases to be a worry if the Economizer is on your stove.
The Gurney-Oxford is the final result of experimental thought. Science has given it a Divided Flue, a new Special Grate, and a Broiler attachment.
This Gurney-Oxford range is primarily a saver of money, time, and energy.

CORDY & HIGGIN
REAL ESTATE AND INSURANCE

Delivery of rural mail by motorcycle has been tested with apparently satisfactory results in parts of the United States. It is much quicker, less cumbersome, and, where tried, less expensive, than the horse and carriage method. Rural free delivery has done much to make farm life more attractive. Improvements in the service will add to its usefulness.
It is remarked that the mail order houses have not relaxed their efforts to get business just because a few dull months in the year appear. They everlastingly keep at the advertising end of their business.
An exchange says that gossipers have motor cars benton to a frazzle when it comes to running people down.

Kaleden Comments

Mr. William King went up to Summerland last Saturday on a business trip.

Mr. Fred Ford has returned from a visit to the Old Country where he has been for the winter.

Miss Baskin of Penticton has been the guest of Mrs. Rourke for the last few days, and is now visiting with Mrs. A. B. Hatfield.

Mrs. T. C. Preston, who has been staying for the last two weeks with her daughter Mrs. Baker in Penticton, returned home last Sunday.

A new industry is being started at Okanagan Falls by Mr. Waterman. Lime kilns are being built, and the enterprise is to consist in the making of cement brick.

A special trip of the Cygnet took a party of twelve or fourteen up to Penticton Wednesday evening, April 23rd, to see the performance of "Charlie's Aunt" there.

Mrs. Seaman Hatfield went up on Thursday to Naramata to visit with Mrs. Lewis Block. Mr. Hatfield and son Harley joined her on Saturday, all returning on Monday evening.

Preparations are being made for the building of a wharf on the opposite side of the lake, and the pile driver will soon be at work, as we understand it is to be completed shortly.

Mr. and Mrs. Burbridge of Penticton have recently come into town, and have rented the house belonging to Mrs. N. K. Simpson. Mr. Burbridge will be employed in the making of cement brick at the Falls.

We understand that Mrs. James King with her two daughters is now on her way from the Old Country to join the rest of her family here. Her husband and son are very busy preparing for her reception.

Mr. H. G. Bowser and wife, of Kelowna, who were making an automobile tour in the southern part of the Valley called here, and stayed at the hotel for a day or two. They expressed great pleasure in their visit here.

Mrs. Philip Fox, with her son Teddy, who has made an extended visit in the Eastern States of U.S.A., and has spent a part of the time in the city of Denver, visiting her parents, returned home on Thursday, the 24th ult.

The Hotel Kaleden register contains the following visitors' names: J. Fraser Campbell and wife, Penticton; Mr. and Mrs. D. S. Riordan, Penticton; Mr. and Mrs. A. Thompson, Penticton; W. Chauncey Gordon, Seattle; Campbell Cutter, Vernon; S. Thompson, Penticton; E. R. Harrison, Penticton; E. Garratt, Bernard, Sask.; H. Turner, Penticton; J. D. Tompkins, Penticton; H. G. Bowser and wife, Kelowna; E. L. Bogart, Vancouver; W. G. Baskin, Penticton; W. B. McCormack, Penticton; W. C. Limpatt, Penticton; James Prather, White Lake; A. Comber, Penticton; C. J. Carr, Penticton.

-CHILDHOOD'S OBSERVATION.

Visitor (who has taken small girl on his lap): "Now, my little pet, what do you think I've taken you on my lap for?"
Small Girl: "To give me candy."
V: "No, but to give you something almost as good as candy—a real sweet kiss."
S. G.: "I'd rather have the candy; you can go and kiss my governor. That's what papa does, and he gives me the candy every time I see him do it."

MIGHT HAVE YELLOW FEVER.

A New York lady not feeling well caused the family physician to be summoned.
After looking at her tongue, feeling her pulse, etc., he said: "I do not wish to alarm you, Miss B., but your symptoms are plainly those of scarlet fever."
"Oh, no," she exclaimed in consternation; "surely not, doctor!"
"Yes," he said, "you are certainly threatened with scarlet fever."
"What shall I do, what shall I do?" she moaned in great distress.
"Oh, doctor, couldn't you throw it into some other kind of fever. Scarlet is so trying to my complexion."

Review Want and Sale ads. give Good Results.

Peachland Notes.

(Too late for last week.)

Rev. J. Marshall of Summerland conducted service in the Baptist Church on Sunday.

On Saturday morning Mrs. Ed. Lang left for Armstrong where she will spend a few days with friends.

On Monday morning Mr. Norman Pope left for Victoria where he has secured a position. Norman will be much missed by everybody, especially the girls, to whom he was a most attentive swain.

The road men in charge of the rock work under the supervision of Mr. Jas. Michael, left on Monday for Penticton, where they will improve the lake road between Summerland and Penticton.

In connection with the opening of a pool room in town two petitions have been circulated within the past week, one in favor of the room; and one against by the W.C.T.U., who have the future welfare and morality of our boys at heart. Let us hope the latter will win.

Peachlanders were both pleased and surprised when Mr. Paul Murray, late principal of the high school here, arrived in town on Tuesday evening to look after his lot here. After a few days spent as the guest of Mr. Grant Lang, he left for Nelson, where he has been offered a position on the public school staff.

The concert given on Tuesday evening under the management of the reading room committee was a complete success. Mr. Powell took the chair and introduced Rev. Mr. Hatt, whose ability as an entertainer is well known, and Mr. C. C. Inglis, whose musical voice we were all so pleased to hear again. If preaching fails with those two divines they have something else to which to turn their talents, for as entertainers they form a combination difficult to beat. Miss Jessie Henderson played all the accompaniments in her usual pleasing way.

A FRIEND IN NEED.

"My dear fellow, delighted to meet you. Just the very man I wanted to see. I wish you would kindly lend me \$20. I unfortunately left my money at home, and I haven't a cent on me."
"I'm awfully sorry, old chap, but I haven't that amount about me just now. I can fix it, though, so you can get it almost immediately."
"Ten thousand thanks, dear boy."
"Here's ten cents. Take the street car and go home and get your money."

Some Temperance Facts.

In Prince Edward Island no retail liquor selling is permitted.
Of 991 parishes in Quebec 671 are under local option; 320 under license.
In New Brunswick the Canada Temperance Act is in operation in 9 of 14 counties.
Nova Scotia's provincial prohibitory law is applicable to all the province, except Halifax.
Of Manitoba's 148 municipalities 44 are under local option, and in 27 no licenses are issued, or 71 under prohibition; 72 otherwise.
Canada is a comparatively sober country. Its per capita consumption of intoxicating liquor is less than 7 gallons; United States, 20 gallons; England, 30 gallons.

In Saskatchewan and Alberta the powers given under the local option laws are exercised to only a limited extent, but few licenses are granted, however, outside of cities and towns.

Did you ever notice how beautiful gum chewing makes a girl appear? Take her do face, and gazing steadily, one cannot find a more ideal picture. With a sharp click, clack of her teeth so white and pearly, and clashing together as with cowlish gleo, she masticates her cud. Then, too, one can note her health-tinted, well-rounded cheeks as they grow a little more rotund, through the material assistance of a big 'hunk' of gum.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

Notes on Sporting Events.

The Gymnastic and Musical Concert, given in the Penticton Opera House on Friday night, 25th ult, by the students of Okanagan College, assisted by Summerland artists, was very successful. This may not seem the most appropriate place for a report of that event, but as all concerned are known as good sports in the best sense of that much-abused word we will proceed.

The musical and literary features were fine. Misses Colwell, Ethel Brown, and Anna Hayes, and Messrs. Bentley, Alex. and James Smith were in good form and their work was highly spoken of. The accompaniments of Miss G. Hurschmann were most acceptable. The young ladies fancy marching and Indian club drill were much admired, noticeable improvement being in evidence over their work in the local gymnasium. The class work on the bars lacked the ginger the boys put into it here, but was good. Messrs. J. McLeod, T. Young, W. Middleton, and J. Graham excelled themselves in the special work and were loudly applauded. The tumbling and pyramids were fine, and the concert as a whole merited the many good things said about it by an appreciative audience. The Snake Dance, and the awe-inspiring College yell, seemed to mystify the Pentictonites, and were evidently associated in their minds with tomahawks and scalping knives. Not the least interesting and attractive feature was the splendid lunch served by the ladies of the Penticton Baptist Church to the big crowd of Summerlanders who made the trip on the "Skookum."

The base-ball team of Okanagan College visited Kelowna on Thursday afternoon to play a return match with the Kelowna ball team. The College boys were defeated by the score of 7-3. Up to the fatal seventh innings Kelowna only secured one run. Morlock was pitching in good form for the College and his support was good. Wolverton in centre field making sensational plays, pulling down long drives that seemed to be three baggers at least. When the Kelowna boys went to bat in the second half of the seventh innings it looked like another victory for the College; for they were leading 3-1. Two Kelowna men were down, and then the fireworks began. Nicholson muffed a grounder to short, and as one good turn to Kelowna deserved another, threw the ball anywhere from three feet to half a mile over "Frenchy's" head, who was holding down first sack in great shape. Everybody hit safely and before the agony was over Kelowna had five runs up, and the score was 6-3 in their favor. They secured another run in the eighth, the College being blanked in the last two innings. For Kelowna Hemmings pitched well, and his brother at short, who did the twirling in Summerland; played a great game. McDougall and Wolverton were the College stars.

The College team, with a crowd of fans, will visit Peachland on Saturday to try conclusions with the Peachland ball team. The Skookum will leave at 10 a.m. and return at 5.30 p.m.

LAKE FRONT PRE-EMPTION FOR HORSE BREEDING.

A tract of land, 160 acres in extent, lying north of Paradise Ranch on the east side of the lake, has recently been acquired by D. A. Good, formerly of Greenwood, and until recently known as Chief Packer for the K.V.R. In the course of his duties Mr. Good saw this piece of land lying unoccupied and went about to secure it. Just how this has been done is not quite clear. It is said that this, as well as much of the land lying east of the lake was railway land, but had been taken over by the Government, and it does not seem to be generally known that it is open for pre-emption—which is said to be the method by which Mr. Good is acquiring the property.

The pre-emption, which lies about Canoe Creek, has an abundant water supply, and according to undoubted authority, Mr. Good, who is an expert horseman, purposes to make a specialty of horse breeding and hog raising.

A California suffragist says women will vote as their husbands do. It might be added that the hen-pecked husbands will vote as their wives do.

HAVE YOU RE-COVERED?

If not, come and see us. A belated shipment of Head Gear just arrived. Redmond hats in all the latest shapes and shades of Straws, Panamas, Felts.
