

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 5, No. 50

SUMMERLAND, B.C., JULY 11, 1913.

Whole No. 258

Council Holds an Interesting Session

Electric Light Matters Discussed.

Flume Trouble Comes Up Again. Cancelling of Debentures Further Discussed.

The dispute with the K.V.R. in reference to the irrigation flumes, the proposition to cancel the latest issue of debentures, and the supplying of free water and light to the Dominion Cannery, together with the present unsatisfactory condition of the electric light plant, were the principal topics of discussion at the regular monthly meeting of the Municipal Council held on Tuesday morning.

COMMUNICATIONS

Communications, which were read immediately after the minutes of the last meeting, included a letter from the Deputy Attorney-General asking for a payment of \$150 for fines alleged to be due the Province; from the city of Enderby with a resolution for the Council's endorsement; Supt. Langre road grant; Dominion Cannery, asking for water connection, etc.

Nothing was known of the claim from the Attorney-General's office, and the whole matter was considered an error, and the Clerk in reply is asking for further particulars.

The city Council of Enderby recently passed a resolution disapproving of the new law with reference to the cost of prisoners sent to provincial jails. This law requires that each municipality pay for prisoners sent up from that municipality. The resolution pointed out that this would work against the due enforcement of the law, as there would be a tendency for municipalities to fine and shove off to a neighboring municipality undesirable who should be behind the bars. That this is already practised is very evident right here. Constable Graham pointed out that last week not less than three vagrants had been chased out of neighboring municipalities and were found begging from house to house in Summerland. They were warned to quit town at once. The motion as presented was endorsed. While the motion requested that the province bear the cost of imprisonment, there were some who favored a levy being made on each municipality for this purpose.

UNSATISFACTORY K.V.R. FLUMING.

Municipal Solicitor Kelley laid before the Board considerable correspondence between himself and President Warren of the K.V.R. with reference to the unsatisfactory condition of the flumes crossing the right-of-way. Engineer McCarthy has always maintained that the present flumes were only temporary and that the railroad company would put in more permanent structures later, and judging from earlier correspondence this seemed to be Mr. Warren's view, but later he took the attitude that the flumes which had been disturbed, had no further responsibility. While both parties seemed to be anxious to settle the dispute in a friendly way matters at present are at a deadlock. Supt. Mitchell for the Municipality, as well as those members of the Council who have seen the new flumes, refuse to take them over, and disclaim any responsibility for damages should breaks occur. On the other side Assistant Engineer McCarthy maintains that the flumes are satisfactory. Feeling confident that they are in the right the Council have asked that Mr. Warren himself go over the work. It is hoped that Mr. Warren will comply with the request as the Council are not only hopeful of having the dispute satisfactorily adjusted, but expect to come to some arrangement whereby the railway company may be given an adequate supply of water at the station. Such supply cannot be guaranteed at present, nor until a pipe is laid from Trout Creek to the reservoir, or the proposed new main laid down through Garnett Valley.

Mr. Milligan applied for repairs to a road near Mr. Kerr's pro-

perty. With reference to this the Chairman of the Public Works Committee said that the Superintendent had instructions to make the repairs.

Messrs. Cordy & Higgin asked for a renewal of insurance on the municipal office and contents. The rate was discussed and not being considered satisfactory the matter will be taken up with Mr. Cordy.

Mr. D. L. Sutherland applied for electric light. His application was referred to the Public Works Committee.

CONCESSIONS TO DOMINION CANNERS.

The request of the Dominion Cannery for water connection which together with electric light they understood was to be granted free, was the cause of a heated discussion between the Chairman of the Finance Committee and the Chairman of the Public Works Committee. Chairman Lewes of the Public Works Committee strongly opposed the grant. Coun. Robinson, in an unusually animated reply, as strongly condemned Coun. Lewes' attitude. He thought that the wish of the people was to favor the Cannery, and while the request was comparatively trivial, to refuse would likely give the company an impression of antagonism and would doubtless work to the detriment of the community. The advice of Solicitor Kelley, who was present, was obtained, and he too approved of making the grant. The following motion, made by Coun. Robinson, seconded by Coun. Dale, was carried, Coun. Lewes only opposing:

"That the Clerk be and is hereby instructed to reply to the communication of the Dominion Cannery Ltd. that the Council are prepared to at any time enter into an agreement with them granting them free water and light under the terms of the Municipal Act."

Mr. F. L. Osler came before the Board complaining of much damage done to his orchard by water from the road. He asked that the Council raise the level of the road at the point where the water enters his property so that the flow may continue along to the flume crossing the Naper orchard. Mr. Osler says that damage has been done year after year, and that it might be easily prevented. It was pointed out by the Reeve that this opened up a large question, as the water doubtless followed a natural course. While maintaining that the Municipality was liable for the damage that had resulted Mr. Osler offered to put on the necessary teams and men to build up the road, and would bill the Municipality at any future convenient date, and if they were not disposed to take this offer or make the repairs themselves he threatened the Council with action for damages, saying he was prepared to make it a test case.

The Council has practically decided to cancel the recent debenture issue, as to keep them in the treasury means providing a considerable sum for sinking fund. To do this the approval of the Lieutenant-Governor-in-Council must be obtained. \$7,000 of these debentures have been sold, and there are a number of complicating situations which may yet prove interesting. Before adjourning, however, the Council decided to have Solicitor Kelley ask the permission of the Lieut. Governor to cancel all except \$14,000.

THE ELECTRIC LIGHT SERVICE.

The unsatisfactory condition of the electric light service came in for some consideration, and at one time the discussion was unusually interesting. Coun. Robinson claimed that the consumers were the last to be considered, while Coun. Lewes declared that there had been no complaints. Coun. Robinson replied enumerating some complaints that had been made, and said that the Public Works Committee had

President of France Welcomed Midst Royal Pomp by England.

FUTURE KING OF ENGLAND FIRST TO GREET PRESIDENT POINCARÉ.

President Poincaré of France on his arrival at Portsmouth on his first official visit to Great Britain was received by the Prince of Wales as he alighted from the steamer. The Prince can be seen in the photograph by the President's side. The President and the Prince were escorted by the Guard of Honor and various high dignitaries of state to Victoria Station, from Portsmouth, by special train, where King George received his distinguished guest, meeting him at the railroad station. President Poincaré was accompanied by the French Minister of Foreign Affairs.

The Pre-Cooling Plant

Now In Course Of Construction

Something Of The System And Its Advantages.

The work of building the pre-cooling plant has begun. Messrs. Nelson Bros. will do the work under the supervision of Mr. Edwin Smith, who has been for months working on this scheme for the Department of Agriculture.

The plant will be a three-roomed one, and will occupy the south end of the fruit building, from the south elevator to the end of the building. This section will be divided into three rooms. The one next the street will contain the fan and appliances for chilling the air. The next room will be the pre-cooling chamber proper, while the third, next the lake, will be used to hold the fruit after pre-cooling. It also can be used as a pre-cooling room when necessary. The air used in pre-cooling will be several degrees below freezing, and when thoroughly chilled the fruit must be moved either to the cool room or to the car.

The air will be chilled by crushed ice and salt, the degree of coldness being regulated by the proportion of salt to ice. By a system of ducts the air is conveyed to one or both of the rooms, and from these rooms back to the fan room. These ducts will be along the edge of the floor, and cold air will be forced under false floors which will be perforated, and up through the fruit and drawn back from the top by the fans.

The walls of the present building are particularly good, but inside of these will be built other walls, thoroughly insulated. There will be an insulation of cork placed upon the present floor, and raised a short distance above this will be the perforated floor admitting of the free passage of the chilled air beneath cork and floor. The ice will this season be

brought in in carload lots and stored on the floor above, and dropped through a hatch-way as needed. Next year and succeeding years, however, it will no doubt be found cheaper to harvest and store the ice here, and it is very probable that a storehouse for this purpose will be erected on the hill immediately above the packing-house. In this way ice may be obtained in the quantity needed by sliding it down a chute.

The pre-cooling plant is being built by the Department of Agriculture as an experimental one, and will be the only one of its kind in Canada, and will be ready for use by August first. Mr. Smith will remain here during the fruit season, making careful note of the results obtained, and will be prepared to make any recommendations for improvements if possible.

The advantage of such a plant over the ammonia plant is its comparatively inexpensive cost of construction, making it unnecessary to tie up any great amount of capital in a plant that would only be used for a short time each year. At present fruit shipped from here is not chilled until some distance on its way. The packing house is comfortably cool, and no doubt some of the latent heat of the fruit escapes there. During the journey up the lake the cars, which are almost invariably moved at night, are opened up, and the cool air of the lake given free passage through the cars, but at no time is the fruit thoroughly chilled, and the time in which it will keep in prime condition is therefore short. When pre-cooled it will carry a long distance and arrive in as good condition as when shipped. Ice charges on route will be materially reduced.

men walking up and down the flumes doing practically nothing, and that there was no management at all. Coun. Dunsdon, another member of the Public Works Committee, contended that the outside lot owners were paying for the electric light supplied others through being taxed for the debenture interest and sinking fund. This was stoutly denied by Coun. Robinson who said that not only had the el-

ectric light plant paid for maintenance and operating, beside providing for sinking fund and interest, but had actually earned a profit above all this of \$1,000, which had gone to help make up the deficit on the irrigation system. He questioned whether this was legal as the Municipality was not running an electric light plant for profit but to give the public a satisfactory service.

Contracts Awarded by School Trustees

Town Route Goes to H. Bristow. Prairie Valley to J. H. Bowering. Some Yearly Totals.

The receiving of the annual reports, the considering of conveyance tenders, and awarding of contracts and the passing of the monthly accounts, was the principal business transacted by the School Board at its regular monthly meeting on Monday morning. With the exception of Dr. McIntyre, who was absent from town, all the members were present. The report prepared by the Secretary to be forwarded to the Department of Education showed, among other things, an inventory of school property as follows:

Furniture, etc.	\$1,250
School Grounds	1,750
Buildings	20,000
Total	\$23,000

Following is a summary of the expenditures of the past year:

Teachers' salaries	\$6,135.00
Conveyances and incidental expenses	3,529.63
Buildings	216.00
Furniture and repairs	160.18
Rigs (two) purchased	800.00
Total	\$10,840.81

Dr. C. M. Smith, Health Inspector, submitted a detailed report of his examination of the school pupils during the year. This showed that with but few exceptions the physical condition of the pupils was good. Embodied in the report were some recommendations for alterations and improvements to better sanitary conditions.

The following accounts were ordered paid:

Teachers' salaries	\$520.00
Conveyances	
H. Dunham	59.85
G. R. Hookham	98.80
J. R. Campbell	47.50
T. J. Garnett	41.80
Janitor	24.00
J. L. Logie	10.00
Scott Darkis	2.00
Calgary Herald	3.60
Summerland Drug Co.	1.25
Review Publishing Co.	8.75
W. J. Taylor, tree planting	5.00
Total	\$822.55

The tenders for conveyance for the four routes were then opened and considered. Two tenders were received for Trout Creek route, three for the town route, three for Giant's Head route, and four for Prairie Valley route. Each route was considered separately and the tenders not all awarded to the lowest tenderer. The Board showed a preference for tenderers who would themselves do the work with their own horses, objections having been made to frequent changes of both horses and drivers when done by livery stables.

Route I (Trout Creek) was first dealt with, the tenders being \$8.10 by "The Livery," and \$8.35 by H. Dunham, the present contractor. On motion of Trustee Shields, seconded by Trustee Docking, Mr. Dunham's tender was accepted. In making the motion Mr. Shields said that the Board knew the team and knew the driver, and as the tenderer himself would drive the team, and his own children would

be among those conveyed, he thought the service would be worth the higher price. While the motion was carried Chairman Robinson thought that the margin was considerable and that if Mr. Dunham's tender was accepted there must be decidedly good satisfaction and no kicks coming. Trustee Caldwell thought that the difference in the figures would leave the Board open to some criticism, but all things considered, he favored awarding the tender to Mr. Dunham.

Route II (town) was awarded to H. Bristow at \$3.00, much on the same grounds as the awarding of the tender to Mr. Dunham. Mr. Bristow has a most reliable team which he will drive himself, is a ratepayer living in the district served, and will have some of his own children in the rig. Complaints of the changing of drivers and of using different horses, and especially of the failure to maintain order among the children while en route worked against last year's contractor. Perhaps more than anything else was the decided stand taken by practically all the Board against allowing the school rig furnished by the Board to be used for other than school uses. It was stipulated by the tender put in by "The Livery" at \$2.85 that permission would be required to use the rig to carry express parcels from the wharf to West Summerland. An attempt was made to get Mr. Hookham by telephone to have him withdraw this stipulation, but he was not obtainable, and there was practically a unanimous vote in favor of awarding the contract to Mr. Bristow. James Fyffe tendered at \$2.75.

Commenting on the decision of the Board, Chairman Robinson thought it important to have good, reliable men, though he had not heard much complaint of the service given by the livery last year. He would, however, personally support the plan of awarding the contracts to private ratepayers living in the district who would do the driving themselves. Wherever there is lack of discipline he said the matter should be reported by the driver to the teachers who were responsible for the conduct of the children to and from school.

For Route III (Giant's Head) there were three tenders, "The Livery," \$2.50, Jas. Fyffe, \$3, T. J. Garnett, \$2.45. The last named, being the lowest tenderer, and the contractor for last year, received the contract for next year. "The Livery," \$2.90, Jas. Fyffe, \$2.60, Fred Brind, 2.50, W. J. Bowering, \$2.30, were the tenders received for the Prairie Valley route IV. The last named received the contract, upon the motion of Trustees Docking and Caldwell.

Chairman Robinson, on being informed that the teachers selected had all accepted appointment, remarked that he believed the municipality would have a particularly good staff of teachers next year. The Trustees then adjourned till the next regular meeting.

Summerland Musical Society.

The Annual Meeting of the Summerland Musical Society was held in Elliott's Hall on Wednesday evening last.

The meeting was attended by quite a large number of old as well as quite a few new members, who were very enthusiastic, which augurs well for the coming season.

Mr. Stanley in tendering his resignation expressed regret at leaving Summerland. This information was regretfully received, and many expressions of appreciation of his work and presence with us during the past season were uttered.

The officers elected for the year were as follows:

Hon. President, Dr. F. W. Andrew.

Vice-President, A. Stark.
President, C. N. Barton.
Vice-President, C. P. Nelson.
Sec.-Treas., T. G. Beavis.
Executive Committee, C. N. Barton, C. P. Nelson, T. G. Beavis, Mrs. G. Ross, D. Williams.

After the election of office-bearers there was a thorough discussion of the work for the year.

The meeting closed with a hearty vote of thanks to Mr. and Mrs. Stanley for their very efficient help and efforts for the society.

We regret that we are unable to publish this week the promised paper by Dr. Bonequet on orchard topics. Dr. Bonequet was called to Vernon by telegram early in the week, and has not had the time to prepare the paper. We hope, however, to get it in time for next issue.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c. per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c. per counted line; 10c. per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JULY 11, 1913.

MANAGED OR NOT MANAGED?

Twice within a week have we been without electric light all over the municipality, with but the exception of a small circuit extending only a few rods from the power house. Worshippers in all the churches but one were deprived of light shortly after the service began, and from the same cause there was no light last night till late in the evening.

The municipality may consider itself fortunate that nothing more serious happened than the blowing of a fuse and the resultant darkness. The cause on both occasions was the falling of a pole bearing down with it high tension wires charged with a current of sufficient voltage to kill any living creature with whom it might come in contact.

An unavoidable accident, some one will say. Nothing of the kind. The pole that fell was reported dangerous months ago. There are a number of poles that were at one time placed for the purpose of supporting electric light wires that are now themselves being supported by the wires. These and others are liable to fall at any time and are beside decidedly unfit for a linesman to climb; his added weight is almost sure to bring them down. If this should occur, or a pole fall in such a way as to not immediately short-circuit the current, and some one runs against it, not only would a very regrettable accident result but the municipality would be in for the payment of heavy damages.

One of the reasons given for putting the electric light system under the superintendent was that it would then be his duty to inspect the pole lines, and make right any defects he might find in his moving about the district attending to the flumes, pipes, ditches, roads, etc. In this way the work of maintenance could be done at little expense and repairs made as and when needed. Has such been the result? No! decidedly no! Never has the system been in as bad condition as now. The policy practiced by the superintendent is to allow poles to remain till they fall, nor do we believe that this policy has been adopted wholly upon his own initiative. He is directed, or should be directed, by the Public Works Committee. Is it because they do not acquaint themselves with the condition of the plant which has been committed to their care, or of indifference or incapacity that this public utility is being so managed or mis-managed, or shall we say non-managed?

With all due respect to Coun. Dunsdon the plant is not only self-sustaining but yields sufficient surplus, gathered from the patrons, to provide for all repairs or minor improvements.

ENCOURAGING SHEEP RAISING.

HON. MARTIN BURRELL, Minister of Agriculture, has taken great interest since he came into office in encouraging the sheep industry of the country. During the past ten years this industry has shown a great decline. One of his first acts was to appoint a sheep commission which investigated conditions in the Maritime Provinces and British Columbia. They made an exhaustive report which has been carefully carried out.

Recently to encourage the industry in the Maritime Provinces a sheep demonstration car was sent through Nova Scotia and is now touring New Brunswick. Great interest has been taken in the car and the efforts of the department of agriculture by the farmers along the route. Two demonstrations and addresses are given a day with talks on sheep raising by experts on the care and handling of sheep for industrial purposes, for wool, lamb, mutton, etc.

"ONE out, all out" is not only the case with the street lights in town but is equally applicable to the service lines over all the municipality. Why should those citizens living north of the electric light plant be without light because something is wrong with a south line? At present the current is sent out from the power house over one wire which branches outside. A fuse in this line, just inside the building, burns out if anything outside goes wrong. The trouble may be anywhere. It must be hunted for. For a cost that might better be counted in cents than dollars each section might have its own fuse at a convenient point near the power house. Then when a breakdown occurred only the lights in that section would be affected and time would be saved in locating the trouble.

IT has come to our ears that the chairman of the Public Works Committee has surrendered, and that the ladies are to have electric power one morning a week. He is said to have telephoned this information to the secretary of the Women's Institute. It would probably be too much like an admission of defeat to announce it through the Review. We have no desire to crow but will be very glad if we have been of service to the weary housekeeper in helping her to get a fair deal. If true why not advertise the fact through the natural channel, and endeavor to get as many users as possible, and thus further increase the profits.

PULL TOGETHER, brethren. We are all here for the same purpose. Then live and let live. The best way to build up a community is for each and every man to pull together and not to rend and pull down. All the residents of a town are partners, not opponents. In all likelihood, the more business done by your rival the more you will do.

New Pastor Welcomed.

On Tuesday evening last the members of the Methodist Church gave a reception to Rev. and Mrs. R. W. Lee, who have recently arrived to superintend the work of the Methodist Church. The room had been tastefully decorated, and a very large number turned out to welcome the guests of the evening.

The chair was occupied by Mr. J. R. Brown, and that fact did much to ensure the success of the gathering. In well-chosen remarks he gave on behalf of the church a hearty welcome to Mr. and Mrs. Lee, assuring them that his hope was that the members would rally round and assist them in the development of the church.

Mr. H. C. Mellor gave a kindly welcome to Mr. and Mrs. Lee. He spoke of the problems facing the church, but he believed that the solution of them was at hand.

Mr. J. L. Logie, in an eloquent way voiced the sentiments of the two previous speakers. He urged the people to show their sympathy with their pastor, by regular attendance at the sanctuary. The success of the church was largely in the hands of the members. Let them be loyal and true to their own church.

Rev. C. H. Daly also welcomed Mr. and Mrs. Lee in a hearty and brotherly manner.

Rev. Wm. Boulton of Vancouver, who has known Mr. Lee for over ten years, spoke of Mr. Lee's scholastic attainments and preaching ability, and believed he would have a successful term in Summerland.

Rev. W. P. Bunt of Naramata also welcomed Mr. and Mrs. Lee.

A splendid program of music, etc., was rendered by the following: Miss E. Brown, Mr. T. Beavis, Mr. J. O. Smith, Miss Kathleen Merrill, the church choir, and the girl's choir of the Sunday School.

The Ladies Aid who had worked most assiduously, provided an abundant store of refreshments, which was heartily enjoyed. The whole evening was a magnificent success and augurs well for the future of the Summerland Methodist Church.

SUNDAY FISHING AGAIN.

The conclusion has been reached by many that Roe Bros. and their boats are the proper institution in the proper place. Were it not for them much inconvenience would be experienced, and—well, we all know people who are supersensitive; people who hate, awfully, to be laughed at, therefore they call on Roe Bros. when they are stranded on the Naramata side, either on account of motors that refuse absolutely to go, or row boats that refuse absolutely to be managed even by men hardened and made fit by athletic training.

However, Sunday fishing should be abolished. The lives of our friends, even though those friends be Americans, either by birth or adoption, should not be imperiled in such sport. Our beautiful Okanagan Lake can, in a short space of time, as some of us know, kick up such a squall that strong men, with no fish on their lines, turn pale; what then must be the innermost feelings of those who are hauling away on a ten pound trout. The terror that fills their souls on account of their guilty consciences, and the terror that fills their heads on account of the raging elements is as nothing compared to the terror of losing that fish. They think of home, they think of friends, they think of the stories they have related to those friends and deep in their hearts they know that is the only fish.

Then, again, if fishermen must, in defiance of what they have, in their youth when they were good little boys, been taught in Sunday School, go fishing on Sunday take a word of advice; leave your lady friends ashore; in a squall you cannot properly attend to your boat, your lines and your lady friends, and fish will not generally bite with four in a boat.

Five miles is a long distance to walk along the lake shore, particularly, if one's temper is somewhat ruffled, but the consoling thought is that Naramata had not moved farther south in the meantime, as is its habit.

We regret Naramata Notes received too late to be inserted this week.

A female fly will deposit 150 eggs at a laying. In warm weather these eggs hatch in eight hours. In ten days they are able bodied flies, able to lay more eggs. In killing the first fly, how many later flies do you destroy?

PRESENTATION to H. D. SUCKLING

Mr. H. D. Suckling, Accountant in the Bank of Montreal left this morning to assume a position in the Inspection Department of the Bank. His district embraces the territory between Winnipeg and Calgary, with headquarters in the former city.

The community regrets to have Mr. Suckling leave for he has made many friends here during the past few years, both in a social and business way, but we all wish him success in his new and larger sphere.

Last evening a few members of the Board of Trade, headed by the President, Mr. Mellor, waited on Mr. Suckling at his rooms and presented him with a watch chain and pendant as a souvenir of his Summerland days. Mr. Suckling was an active and valuable member of the Board of Trade, and is deeply interested in the development of the Okanagan—particularly the fruit industry. Throughout the year he took a particularly prominent part in securing the Dominion Cannery Co. to establish a factory here and visited Montreal, Hamilton and other Eastern centres on two occasions as a representative of the Board of Trade in this connection, bringing back with him on his last visit Mr. Leitch, the capable representative of the company, who has the cannerly practically ready for business.

The Review, with the business interests here, look forward to see Mr. Suckling occupying a prominent place in the commercial life of Western Canada ere long.

His successor in the bank, Mr. C. T. O. Rush of Goodrich, Ont., will arrive in a few days.

PRIVATE SALE

Household Furniture

To make quick sale the following WILL BE SOLD AT THESE REDUCEDLY LOW PRICES:

- 1 White Enamelled Bed
- Springs & Mattress \$9 worth \$14
- 1 " " " " " " " " " " " "
- 1 " " " " " " " " " " " "
- 2 Galvanized Iron Tubs 75c. each.
- 1 Camp Bed & Mattress

- 1 Rayo Lamp & Bracket \$4 worth \$6.50
- 1 Glass Lamp \$4 worth 5.50
- 1 Watering Can .50
- 2 Piano Stools \$1 each worth \$5
- 1 Shovel .75

The above can be seen any time at the residence of A. W. Stanley, Peach Orchard.

Notice to Contractors.

NARAMATA SCHOOL ADDITION.

SEALED TENDERS, superscribed "Tender for Naramata School Addition," will be received by the Honourable the Minister of Public Works up to noon of Monday, the 21st day of July, 1913, for the erection and completion of an additional school room, recreation rooms, and heating chamber to existing school-house, at Naramata, in the Okanagan District.

Plans, specifications, contract, and forms of tender may be seen on and after the 9th day of July, 1913, at the offices of the Government Agent, Mr. L. Norris, Vernon; the Secretary of the School Board, Mr. T. C. Williams, Naramata; and the Department of Public Works, Parliament Buildings, Victoria, B.C.

Intending tenderers can, for the sum of ten dollars (\$10), obtain one copy of plans and specifications by applying to the undersigned. This sum will be refunded when the plans are returned in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for a sum equal to ten per cent. of tender, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished. The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer,
Department of Public Works,
Victoria, B.C.,
July 7th, 1913. jy10-21

RIFLE ASSOCIATION.

The third Rifle League shoot took place last week, with a gusty wind at the longer ranges. Following are high scores:

Distances	200	500	600	Total
H.P.S.	35	35	35	105
G. Barkwill	33	31	32	96
H. Dunsdon	33	31	30	94
J. R. Conway	32	34	28	94
F. R. Gartrell	32	33	28	93
G. M. Loomer	31	28	33	92
O. Smith	31	29	30	90
J. Dunsdon	30	30	29	89
W. Nelson	32	26	27	85

To-morrow, Saturday, the final shoot in this series will be decided.

NOTICE.

After July 15th all delivery of goods from the Bakery will be discontinued. Anyone wishing bread will be well supplied at the stores of A. B. Elliott and The Summerland Supply Company, Ltd, Summerland and West Summerland. The Bakery will still continue business at the same place on a cash basis.

Mrs. J. C. ARKELL.

Never believe an evil report of anyone until you can verify it yourself. Gossip is always unreliable.

The Incola Hotel

PENTICTON

Is a most desirable place to spend the Week End.

RATES AS FOLLOWS:

Friday Night, including Sunday Dinner - Six dollars.
Saturday Night, including Sunday Dinner - Three dollars

Music in spacious Rotunda

8 p.m. to 11 p.m. Saturdays.

Corporation of the District Municipality of Summerland

TAX SALE NOTICE.

NOTICE IS HEREBY GIVEN THAT, in pursuance of the provisions of the "Municipal Act," and of a resolution of the Municipal Council of the Corporation of the District Municipality of Summerland, passed on the 10th day of June, A.D. 1913, I will, on Monday, the 28th day of July, A.D. 1913, at the hour of 10 o'clock in the forenoon, at the Municipal Office, West Summerland, B.C., sell at public auction the lands situate within the said Municipality and hereinafter set forth, for delinquent taxes and rates, and taxes and rates in arrears, remaining unpaid and payable to the said Municipality by the persons or assessed owners hereinafter respectively set forth, and for interest, costs, and expenses, if the total amount due is not sooner paid.

IT CERTAINLY PAYS TO ADVERTISE IN "The Review."

Kaleden Comments Peachland Notes

BORN.—To the wife of Mr. O. Rhind, at the Gillespie Ranch, at the end of June, a son.

Dr. and Mrs. Irvine with their two children, were guests in the Hotel for part of last week.

Miss Burchall arrived from the Coast last Friday and will be the guest of her sister, Mrs. Rourke for the summer.

Mr. and Mrs. E. J. Storey, of London, England, have been staying at the Hotel for the past two weeks, and have had excellent sport fishing in the lake.

There was a special excursion to Penticton on the 1st of July which was well patronized by those who attended the sports there, returning the same evening.

Miss Purdie, who was teaching here during the previous year arrived last week from the Coast, and will be the guest of Mrs. D. D. Lapsley for the summer.

On Wednesday the 2nd, the ladies of the Mission Circle met at the home of Mrs. J. Lock, when a special study of the book, "China's New Day" was commenced.

The Public School closed its work for this year on the 27th of last month, and Miss McLaughlin, who has been in charge for the past year left for Summerland on the 1st inst., remaining in Penticton for that day.

A picnic was organized by the Young People Society and was held on the 1st inst. at Okanagan Falls, when a number availed themselves of the special trip made by the "Cygnet" and had a very enjoyable time together.

On Saturday the 5th, an ice cream social was held on the verandah of the Hotel by the friends of the Anglican church. The sum of about \$17 was raised which will be devoted to the purchase of hymn books for use in the services.

Mr. W. Atkinson, when leading his horse along the road on the benches was badly kicked on the face, and also received injuries to the jaw. We are glad to say the wound is healing nicely and hope he will soon be quite recovered from his accident.

Mr. Standen, late of Osage, Saskatchewan, came in with his son last week bringing a carload of furniture and effects with him. For the present Mr. Standen will live in Mr. Whitaker's house, but intends to build on his own lot in the fall, on the arrival of Mrs. Standen.

Rev. J. Cleland, of Penticton with Rev. H. A. Solly, who is financial agent for the diocese, paid a visit to Kaleden on the 28th June. A special communion service was held at 8 a.m. on the following day, and also a public service at 11 a.m. when the Rev. H. A. Solly preached. There were special meetings held for the consideration of future work in regard to the Anglican Church here.

The Council of the Municipality of Penticton are now advertising a number of amended by-laws, most of them for the purpose of changing the rate of interest from five to six per cent.

On Friday, Mrs. Harold McCall returned from a short visit to Vancouver.

Mr. C. C. Inglis, of Okanagan Centre, is spending a few days with old friends.

Miss Gellatly, of Gellatly, came down on Monday evening to visit friends in town.

Mr. O. Holden, of Vernon, late of Peachland, came in on Monday evening for a few days.

Miss Harten and friend, of Kelowna, are the guests of Mrs. Needham for a couple of weeks.

Mrs. C. M. Smith, of Summerland, who spent a week with Miss Smith, returned home on Saturday.

Mrs. M. N. Morrison, left for New Westminster on Tuesday, to spend a short holiday with relatives there.

Messrs. W. D. Miller and F. A. Dobbin, of Westbank, were the guests of the former's parents in the beginning of the week.

Miss Dancer, of Vancouver, is staying at the Hotel for a couple of months. She is accompanied by her companion, Miss Chapman.

Mr. Chilton, of the Northern Crown Bank, is enjoying a well-earned holiday at present. He is trying his hand at a variety of employments such as fishing and picking fruit.

Mr. H. Slater, the popular head packer is kept hustling with his willing assistants. Only about half of the cherry crop has been sent off as yet. There is abundance of small fruits which are now crowding ahead, claiming their share of attention.

The preliminary and third class examinations are being conducted in the High School rooms, under the supervision of Mr. Rogers, of the Kelowna High School. We understand that his services have been secured as teacher here next year. Mr. Forsyth is in Summerland acting as presiding examiner there.

Mr. and Mrs. J. W. Mitchell, of Calgary, now enjoying their honeymoon, arrived in town on Monday evening to spend a couple of weeks with friends here. They are the guests of Mr. and Mrs. John McGregor. The bride, who was formerly Miss Kathleen Lang, is receiving a hearty welcome from all her old friends.

Federal Aid for B.C. Agriculture.

Ottawa July 1.—Within a week the Minister of Agriculture, Hon. Martin Burrell, expects to reach an agreement with all the provinces with regard to expenditures under the aid to the Agriculture Act.

This year \$700,000 has been appropriated for that purpose, and it is to be used almost altogether for educational work. The proposed disbursements in Ontario and Prince Edward Island have been approved by the council. Manitoba

It's the same with Groceries

Copyright 1910 by G. E. Zimmerman Co. G 13

AS with an expensive, high-power racing automobile, so with groceries. The human machine needs the best fuel to get the greatest efficiency from it—just like the motor car.

GIVE the finest auto bad gasoline and you get poor speed—feed the best man alive on improper food and you see a human wreck. You owe it to yourself—for your health's sake, for your pocket's sake—to feed your stomach with the finest groceries—with good wholesome food. That is YOUR fuel.

Buy Groceries for their "fuel" value: get ours.

proposals are expected shortly, Hon. George Lawrence, Minister of Agriculture for that province having had a conference with the bureau not long ago. Manitoba is to get \$51,760.

British Columbia proposals have been mailed that province, and it is to get \$47,834.

Negotiations are in progress with Saskatchewan, which is to get \$54,206, and Alberta, which is to get \$46,094. Agreements with Quebec, Nova Scotia and New Brunswick are pending. Mr. Burrell will sail for Ghent, Belgium on July 3. He will visit the exhibition there, and has planned a splendid exhibit for it. He will also look into the agricultural methods of Belgium, that country being particularly advanced in intensive farming.

A Visit to the Tower of London

A Famous Fortress with a Wealth of Historical Association.

By Mr. J. O. ROBINSON.

THERE are many interesting sights of London which we have purposely postponed seeing until the arrival of a few Canadian friends which we have been expecting. They have been with us now for about a week, consequently we have seen many things in the last few days.

Last Friday we chose the Tower of London, and it possesses a historical interest which surpasses everything else up-to-date. We took the district train to Mark Lane Station, which stands near Tower Hill. From this spot we had an excellent view of the great fortress. It is an irregular mass of buildings erected at various periods. It is surrounded by a huge wall and a deep wide moat now dry, having been drained in the year 1843. The buildings form an irregular pentagon, which covers about eighteen acres, each piercing the sky with a tower. The oldest and most prominent of them all is the White Tower, which stands conspicuously in the centre of that motley mass of Norman architecture.

The Tower of London was founded in 1078 by William the Conqueror, for the purpose of controlling and protecting the city. It is well to remember that though it is no longer a place of great military strength it has in time past been a fortress, a palace, and a prison. It was occupied as a palace by all the Kings and Queens down to Charles II., it being the custom for each monarch to lodge there before his coronation, and to ride in procession to Westminster through the city. The security of the walls made it convenient as a state prison, the first known prisoner being Ralf Flambard, Bishop of Durham, in the time of William Rufus. From that time the Tower was seldom without some captive, English or foreign, of rank and importance.

attracted a good deal of attention. Across the room is a beheading axe, which has been here since 1687, also the block on which Lord Lovat in 1747 lost his head, for the share he took in the attempt of the Pretender in 1745. Every conceivable article of war could be seen from the ancient cross bows to the latest guns. There were also axes, horsemen's hammers and maces, all designed for breaking and rending armour.

On leaving the White Tower we went into the Parade or Court yard which is in the centre of the several towers. We noticed an extensive collection of cannons, including triple guns taken from the French, of the time of Louis XIV., and some curious and grotesque mortars from India. The space in front of the Chapel of St. Peter is called Tower Green, and was used as a burial ground. In the middle is a small square plot, paved with granite, showing the site on which stood at rare intervals the scaffold on which executions of notable people took place, including Anne Boleyn and Lady Jane Grey.

The last place we visited was the Beauchamp Tower, which dates from the reign of Edward III. From early times it was used as a prison for illustrious persons. The most interesting feature here is the mural inscriptions which the unfortunates carved in the stone walls while serving their long sentences. Narrow slits, cut through the thick walls, in the form of a cross served as a window where the prisoners might look out into the court yard and watch executions, a fate which in those days they would be lucky to escape. This building, and, in fact, every part of the Tower of London, is fairly saturated with interest of a historical nature, and it seems that the history of England has been woven around those walls. As we passed through those ancient iron gates on our way back to Mark Lane station into the streets teeming with traffic, it seemed as though we had emerged from a visit of a few centuries from the dark ages instead of a trip of a few hours as sight seers.

Male Suffragist Tries To Emulate Martyr's Example.

HE SUCCEEDED IN GETTING TRAMPLED ON, BUT AS YET HE HAS NOT DIED FOR THE CAUSE.

This picture shows the police aiding the male suffragist, who during the race for the Ascot Cup, one of England's most important racing events, dashed out on the track and flourishing a revolver demanded one of the leading jockeys to stop and dismount. The jockey, however, kept on going, and the suffragist was knocked down and badly trampled. The suffragist was probably inspired by the action of Miss Emily Davison, the militant, who died from injuries she received when she interfered with the King's horse during the running of the famous Derby.

We followed the crowds of tourists through Lions Gate, where we secured tickets of admission. Quaintly attired men called "Beef-eaters," helped us to find our way about. They are all old soldiers of meritorious service and of somewhat portly appearance. We passed through the archway of the Middle Tower, originally built by Henry III., on to an ancient stone bridge which spans the moat. Going straight ahead we passed the Byward Tower, Bell Tower, and the Traitor's Gate. The last named stood between us and the river Thames, and is famous for its masonry, and for the fact that it was the main entrance when the Thames was more of a highway than it is at present. We then passed under The Bloody Tower, so called as early as 1597, being popularly believed to be the scene of the murder of Edward V. and his brother the Duke of York, as well as of Henry VI.

After passing through numerous gates and wards we came to the famous Old White Tower. The interior is of the plainest and sternest character. Every consideration is postponed to that of obtaining the greatest strength and security. The outer walls vary in thickness from fifteen feet in the lower to eleven in the upper story. A short external stair leads to a staircase in the thickness of the wall on the south side which leads to the chapel of St. John. Under these stairs is where the bones of the young princes, murdered by Richard III., were found. For the first time the antiquity of the place was fully realized, and on entering that narrow cubby hole of a door we stepped from the modern world of the twentieth century right into ancient days when the feudal lords reigned with the iron hand.

Ascending the stair we came to the Chapel of St. John. It is the largest and most complete now remaining in any Norman castle, being about 55 feet long and 31 feet wide, and the roof being 32 feet from the floor. It is kept in much the same condition, and a queer sensation is produced by gazing along those massive stone pillars towards the altar where the ancient monks worshipped nearly a thousand years ago. From here we went to that section of the Tower where the famous collection of armour is kept. It had its origin in that formed at Greenwich by Henry VIII., who received many presents of this nature from the Emperor Maximilian and others. The different types of armour worn during the various periods of history, both by men and horses, are on display, and how they ever managed to navigate, especially on a hot day, boats me. To this collection has been added all the implements of war used up to modern times, not only by the English, but by Africans, Chinese, Japanese and Indians as well. The fold gun and its carriage on which was borne the body of his late Majesty King Edward VII. on the occasion of his funeral

Local News Items

Mr. Sydney Bentley of Nanaimo is visiting friends here.

Harry MacLeod returned from Calgary Sunday evening.

Miss Miriam White spent Wednesday and Thursday at Peachland.

Mrs. Bert McKenzie and children of Peachland are visiting Mrs. Dr. Smith.

Mrs. F. H. Hole, of Brandon, is spending a week here with her husband.

Mr. Harry Lowe, of Truro, Nova Scotia, is the guest of his sister Mrs. F. B. Tully.

John McDougald, who has been at Princeton for some months is about town this week.

The barber shop at West Summerland has been re-opened. S. R. Fraser is the new artist.

Mr. A. Kenison, graduate optician, will be at McWilliams' Pharmacy, Saturday, July 12.

Mr. W. Limmer is this week confined to his home suffering inflammation of the shoulder joint.

Mrs. Sidney L. Smith, of Hedley, and Mrs. Wm. Greer, of Calgary, registered at the Hotel early this week.

Mr. and Mrs. Frank French of Hedley, who have been visiting in Vernon, passed through Summerland last night on their way home.

F. C. Naper, who has for some months been in England, returned early this week. Mr. Naper has an orchard property in Prairie Valley.

Richard Clare, of Hedley, is here taking the entrance exams, which are being held this week. Mr. R. B. Forsyth, the new principal of the High School, is presiding.

Miss Gladys Limmer left on Monday morning on a month's vacation which she will spend at Banff. She was accompanied by her mother and little sister who will probably return in two weeks.

The attention of the members of the Summerland St. Andrew Society is called to an announcement in another column of this issue. All members, or prospective members are requested to attend.

The weather report for June, which appears on Page 3 of this issue is most extraordinary. The frequent showers have brought the total precipitation away up above normal. Irrigation was not necessary during the month.

Mr. and Mrs. M. Gatchell of Sudbury, Ontario, are at Hotel Summerland this week. Mr. and Mrs. Gatchell have spent some months at Vancouver, and are here looking over some properties, and it is possible they may buy and locate here.

Cherry boxes with false bottoms are being sent out from Wenatchee; 4,000 of these were seized in New York by the Commissioner of Weights and Measures on Tuesday, and a similar shipment on Wednesday. Is this the style of package that is coming into competition on the prairies with the honest Okanagan pack?

Mr. Alfred Cottrell, who has been for some weeks a guest at the home of his sister, Mrs. W. Limmer, left for the East last week. He will go as far as Montreal, and from there will return to San Francisco where he is required to report for duty. He will probably be sent to one of the cable stations on the Pacific, or possibly to some mainland station in the Orient.

Mr. Gus Pringle of the Winnipeg Printing & Engraving Co., publishers of several trade papers, accompanied by Mrs. Pringle, spent Thursday here inspecting his orchard property. Mr. Pringle's orchard is directly opposite the Shaughnessy Ranch. It is some seven years since he last visited this place, and Mr. Pringle is delighted with conditions as he finds them now.

On Sunday morning next there will be a special young people's service in the Methodist Church. Next Sunday is set apart by the World's S. S. Assoc. for special attention to the general work and development of the Sunday School. Service will commence at 11 a.m. instead of the regular hour of 10.30. Rev. R. P. Lee expects to give a special address and the children's choir will give appropriate music. On Sunday night Mr. Lee will preach in St. Andrew's Church; subject — "The Dynamic of the Cross."

Mrs. C. M. Smith returned from Peachland on Saturday.

Major Hutton left on Thursday morning on a trip to the Coast.

Mrs. Galt and son Norman are guests of Mrs. Galt's sister, Mrs. R. Clouston.

Mr. H. J. Collas and bride (nee Higgin) returned from their honeymoon trip on Tuesday.

Messrs. F. W. Zerenier and A. K. Mulholland came down from Kelowna by auto last Monday.

Miss E. S. Colwell and Miss I. Messinger, of the College staff, went out on Wednesday morning.

Mrs. Edith Carbury of Boston is visiting at the home of her parents, Mr. and Mrs. R. Clouston.

Mr. Gordon Dinning of the Canadian Bank of Commerce, Vernon, arrived in town on Sunday evening and is spending his vacation here.

Mr. Alex. Steuart was yesterday unloading a car of box material.

Dr. Sawyer and Mr. G. J. C. White returned from the Coast last night.

Mr. and Mrs. J. C. Robson arrived here on Thursday evening and will spend some time with their daughter, Mrs. E. R. Butler.

Mr. G. A. McWilliams arrived from the Coast last Saturday evening. He has been on the hustle ever since his arrival, attending to business, and expects to return to the Coast early next week.

Senator and Mrs. Kirkhoffer and maid are expected to arrive here on the 17th. The senator will bring with him a portable house which will be erected on his orchard near the high flume. Domestic water is now being laid on the property.

Presbyterian service next Sunday will be held in St. Andrew's Church in the morning and in the Methodist Church in the evening.

Mr. Daniel McKellar, who has recently come to Summerland from Scotland, will sing at the evening service.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

13 ACRES

Price \$2,750.

For Sale by MR. F. D. COOPER, Real Estate Broker, Peach Orchard.

COUNCIL HOLDS SESSION (Continued from page 1).

The Reeve saw no reason why the service should not be given when there is sufficient water to generate the power.

Coun. Lewes throughout maintained that there might at any time be a shortage of the supply when the day service and all-night service would need to be discontinued, and also that the service at present given was as far as he knew satisfactory, and "if the people have any complaints to make let them send them in."

Reeve Thomson in speaking of the water supply said there was no reason why householders could not have had current all summer for the purpose of ironing, etc., to which Coun. Lewes replied that they were not attempting to sell power.

Coun. Robinson declared that if the Council were not prepared to give the public as owners a satisfactory service they had better sell out and let some private corporation do it. The people must be given accommodation.

Coun. Lewes could see no revenue from an all night service or for supplying current for ironing.

"We are paying pretty nearly enough to have these and other matters attended to," was Coun. Robinson's reply. "We are paying big salaries and the work is not being attended to." After quarter of an hour's cross-firing the question was dropped, practically nothing being accomplished.

In the Public Works Committee's report was a suggestion that an electrical engineer be asked to come in and advise what would be the best system to adopt for street lighting. The same report also contained the information that the Zimmerman Gulch Road was in a dangerous condition and had been closed to traffic.

In the discussion which this latter brought forth it would seem that a mistake had been made in building the road down the gulch, and that the present situation might have been foreseen. Coun. Dunsdon, who has been a resident of the district for years, said there had always been an unexplainable movement of the soil in that gulch caused perhaps by underground cavities. New holes were constantly appearing and frequent changes brought about. He claimed that a safe road could never be built there, and supported his theory by saying that some years ago Mr. Gartrell lost twenty-seven head of sheep which were tracked to this gulch, and had without a doubt been engulfed in a cave-in. Not one of them was ever found.

Constable Graham was given instructions to take action against any citizens who had not already paid their dog taxes. The re-staking of lots in the cemetery, and the numbering of the lots so that they will be easily located, was ordered.

Accounts totalling \$3,236.78 were recommended for payment by the Finance Committee. These included:

Table with 2 columns: Item, Amount. Total \$3,236.78

B. C. FRUIT IN VANCOUVER.

Housekeepers urged to wait for Home Product.

The Progress Club of Vancouver, which club has a larger range of vision than is contained within the city limits, intends to ask the housewives of Vancouver to postpone their canning and preserving until British Columbia fruits are on the market, and to specify provincial fruit when ordering fruit for this purpose.

This is the club's reply to an on-querry from Mr. R. M. Winslow, secretary of the British Columbia Fruit Growers' Association, asking what plans the club is making to advertise Okanagan fruit in Vancouver this year, at the same time thanking the club for the interest it has always shown in this regard.

Olive oil applied to the skin will soften it and build up impoverished tissue.

WEDDING.

LOCKHART-PARMINTER.

The Summerland friends of Miss R. E. Parminter and Mr. R. G. Lockhart will be interested in learning of their marriage on June 21st, in Rochester, Minn., by Rev. G. H. Gamble, of the First Baptist Church of that place.

Miss Parminter came to Summerland some months ago in company with her parents, while Mr. Lockhart has been a resident of this community for some years.

Mr. and Mrs. Lockhart will spend the winter in southern California, remaining in Rochester with Mrs. Lockhart's mother, Mrs. J. O. Parminter, who is now an invalid, until she is able to return here.

Mr. Lockhart was formerly from Sussex, New Brunswick, while Miss Parminter came from Cloverbar, Alberta.

TOWN SCHOOL.

The children of the Town School wish to thank all those whose gifts of picnic fare made the closing day at school a happy one.

Several prizes have been donated to the school this year. This generosity is much appreciated by all concerned. The arithmetic prizes were awarded on the work of the past three months:

- Second Reader—Muriel Wilson. First Reader—Ronald White. Low First Reader—Hilda Arnett. Second Primer—Harold Sculthorpe. First Primer—Thorald Borton. The spelling prizes, awarded on the results of the daily tests were gained by: Lawrence Beavis and Helen White. Progress prizes were gained by: Ronald White, Marjory Merrill, Marion Beavis.

During the summer months the W.C.T.U. find it pleasanter to meet in the evening, and on Monday evening next, the 14th inst., they will hold a half hour business session in the Ladies' Parlor at the Methodist Club Rooms, beginning at half past seven, and at eight o'clock will assemble in the Church for the remainder of their program. Among other interesting numbers will be an address by the Rev. Robert Lee on some phase of the temperance question. A very cordial invitation is extended to all men and women, young and old. If you are not interested, come and get interested. It is important.

Peachland Notes.

(Too late for last issue).

Miss Irene Elliott was a visitor to Kelowna over the week-end.

Mrs. C. M. Smith, of Summerland, spent Saturday with friends in town.

Mrs. R. C. Lipsett, of Summerland, spent Friday with her sister, Mrs. J. B. Robinson.

Miss G. Loomer left for her home in Penticton on Friday to spend her holidays there.

Messrs. Archie Seaton, Bert Elliott, Emmett Shaw and Hugh Ferguson were visitors in Kelowna last week.

Miss Alice Elliott returned on Saturday from her school in Vernon. Miss Gertrude Gummow came up from Penticton on Saturday morning.

On Saturday morning Mrs. Jno. McLaughlin returned home from Penticton, where she has spent some time with her daughter, Mrs. D. Kirkby.

Miss Smith came in on Friday from Okanagan Centre, and Mr. B. Gummow from Westbank. Holiday time brings in those who are teaching elsewhere.

Miss Edna Pentland, Public School principal, left on Saturday morning for New Westminster. She was accompanied as far as the Landing by Mr. Hugh Ferguson.

Mr. Henry Slater, head packer, was called to Vernon last week to confer with the president of the association. During his absence Mr. Harry Urquhart was in charge of the packing house.

On Thursday of last week, Mrs. C. W. Whyte left for Calgary to take a position in the Calgary library. Although only here for a short time, she had made friends who will miss her very much.

A party of young people chartered by Mr. R. J. Hogg picnicked at Fish Lake for a couple of days at the beginning of the week.

Sharing Profits

IN our amalgamation with the Angove Mercantile Coy. we are now enabled to buy in larger quantities from the wholesale houses, and thus receive the benefits of CAR RATES. In so doing we are going to share profits with our customers on articles that will admit of division.

Summerland and West Summerland.

Phones 43 and Violet 6.

NARAMATA

An Ideal Location for the Tourist. A Haven for the Homeseeker and Investor

PLAN to take a Trip to the

Okanagan this summer and stop at NARAMATA. Get acquainted with this lovely Canadian Summer Resort. A splendid Tourist Hotel with every convenience overlooking the Lake is at your service. One summer spent in Naramata means every summer spent there until you finally conclude there is no real living anywhere else.

Then a nice 5 or 10 acre Fruit Farm on the benches solves the question, and makes you independent for ever afterwards.

Communicate with OR THE OKANAGAN TRUST CO., Ltd. THE HOTEL NARAMATA J. M. ROBINSON, Manager, NARAMATA, B.C.

They spent a good time, in spite of the proximity of a bear's den.

The High School baseball team went down to play Penticton on the first, but when they got there they found themselves up against Spokane. But, being sportsmen, they played the game to the end.

Times are getting lively. The packing house is running full swing, men are engaged repairing the havoc done to the roads by the

recent heavy rains and last, but not least, the C. P. R. has men at work on a new wharf, where they intend building a station, freight shed, warehouse, etc. Come to Peachland, where the best climate in the world, and the best fruit in the world are to be found.

The Closing Exercises of the Public School took place on Friday last. We were sorry to see so few present, as we think that it is the duty

of every ratepayer, whether his children—if he has any—attend school or not, to take interest enough in the educational life of the community to spare at least one half day once or twice a year, to visit the schools. It acts as an incentive to the children and also as an encouragement to the teachers. This year there was a special treat provided for the visitors, in the shape of candies, oranges and bananas.
