

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 6, No. 9

SUMMERLAND, B.C., SEPTEMBER 26, 1913.

Whole No. 269

Storage Dams.

Public Works Supt. Now Busy On Construction And Repairs.

Superintendent Mitchell has for some days had two crews at work building storage dams. One crew of seven or eight men are repairing and raising the new dam built at the head of Eneas Creek. When completed there will be available seven feet of water spread over a lake of good size. Another crew of about fifteen men are at work on one of the lakes at the head of Trout Creek. There will also be about seven feet of water stored in a large lake there. The lateness of the season is not likely to permit of any more work being undertaken, but if the fall happens to be an open one another lake may be dammed. The most pressing need next to the increased storage, if not more important, is the repairs to the south main. No order has yet been issued to the Superintendent for work to be done there.

Good Pictures.

There are no better pictures to be seen anywhere than the motion pictures that are being nightly thrown on the screen in Empire Hall. We were advised that Mr. Shaw's machine was of the very latest type, identically the same as is used in the best London theatres, but we did not expect to see such beautifully-colored, well-focussed and smooth-running pictures as were shown on the opening night, and we believe has been each night thereafter. The machine is a great improvement over those in general use two or three years ago. It is practically fire-proof, and in addition is enclosed within a sheet iron operating room. The films are the best produced, those in natural colors being indeed beautiful.

If Mr. Shaw maintains the same high standard as set on his opening night he will have the approval and support of the people of Summerland. The cheap, trashy film may be acceptable in some places, but is not wanted here.

Mr. Shaw shows the same pictures only two nights in succession, there being a complete change every Tuesday, Thursday, and Saturday nights. The power is generated on the place, a new engine, dynamo, etc., being placed at the rear of the building. Unfortunately something went wrong with the machinery on Monday evening shortly after the entertainment began, and the tickets were refunded. Both Tuesday and Wednesday, however, the machinery was working perfectly, even better if anything than on the first night.

Many Summerland Students at College.

As yet the attendance at Okanagan College, which opened last week is not up to normal, although more students are arriving daily, and it is hoped that the attendance will soon be at least equal to last year's.

That our own citizens appreciate the advantages of such an institution in our midst is evident by the number of local pupils attending. Among those who are taking the university, academic or business courses, are:

Freshmen—Annie Blair, Joseph Graham, A. Vanderberg.

Fourth Year—Ralph Brown, George Dale, Keith Elliott, John MacLeod, Roscoe McWilliams, Helen Sawyer.

Third Year—Carlyle Clay.

First Year—Harold Hillborn, Cyril Woodworth.

Business—Marie Arkell, Bertha Johnston, Robert Monro, Harvey Pinney, Eula Watson.

The names of the local students in music have not been learned.

The Kelowna Board of Trade takes exception to the statistics published at Vernon with reference to fruit shipments. One member claimed that the figures as published credited Vernon with much of the fruit that was shipped from the various Okanagan points, but which merely passed through Vernon.

Plans For New Wharf

Seven Hundred Foot Structure, With Shed And Slip.

Plans and specifications for the new public wharf to be built here have arrived. These may be seen by persons who propose tendering, on application to Postmaster Hayes. The official advertisement calling for tenders is published elsewhere in this paper.

The plans call for a wharf 700 ft. long by 40 ft. wide, with an inclined slip let in on the north side, near the shore end, 112 ft. long by 8 ft. wide. Between the slip and the shore, built over the water, and about 100 ft. out from the inner end will be a shelter shed 16 x 20 ft., and of neat design.

The wharf is to be constructed of pile bents and timber decking, and will extend in a north-easterly direction from the point of the bend in the shore, just south of the new culvert on Beach Avenue. Placed at this angle and being open beneath it will not offer the protection to small craft that our local yachting enthusiasts would wish.

Work on the construction must begin as soon as possible after the tender has been accepted, and must be completed within ten months from date of acceptance.

Grazing Permits.

With the purpose of encouraging the stock industry the Forestry Branch of the Department of Lands has recently adopted a policy with reference to grazing on public lands. Due provision is made for the protection of the forest reserves as well as to prevent range monopoly by large owners. Forseeing the serious disadvantage of a leasing system, and the dangers of the actual sale of grazing lands, Hon. W. R. Ross, Minister of Lands, finally decided on a permit system as the only means offering protection of the public interest, as under this system the number of stock can be limited to the actual grazing capacity of the range. Monopoly can be prevented, and full provision for keeping the grazing lands open for settlement and for the utilization of timber and of any other natural resources.

Due provision is made for the utilization of timber and of any other natural resources. The trained force already employed in the Forestry Branch will be employed for putting this new conservation policy in force.

Women's Missionary Society.

Pleasant Social Afternoon.

A most successful little social entertainment was the "Ten Cent Tea" promoted by the members of the Women's Missionary Society of the Methodist Church for the benefit of missionary work. It was held yesterday (Thursday) afternoon, and by kind permission, at the residence of Mrs. W. J. Robinson.

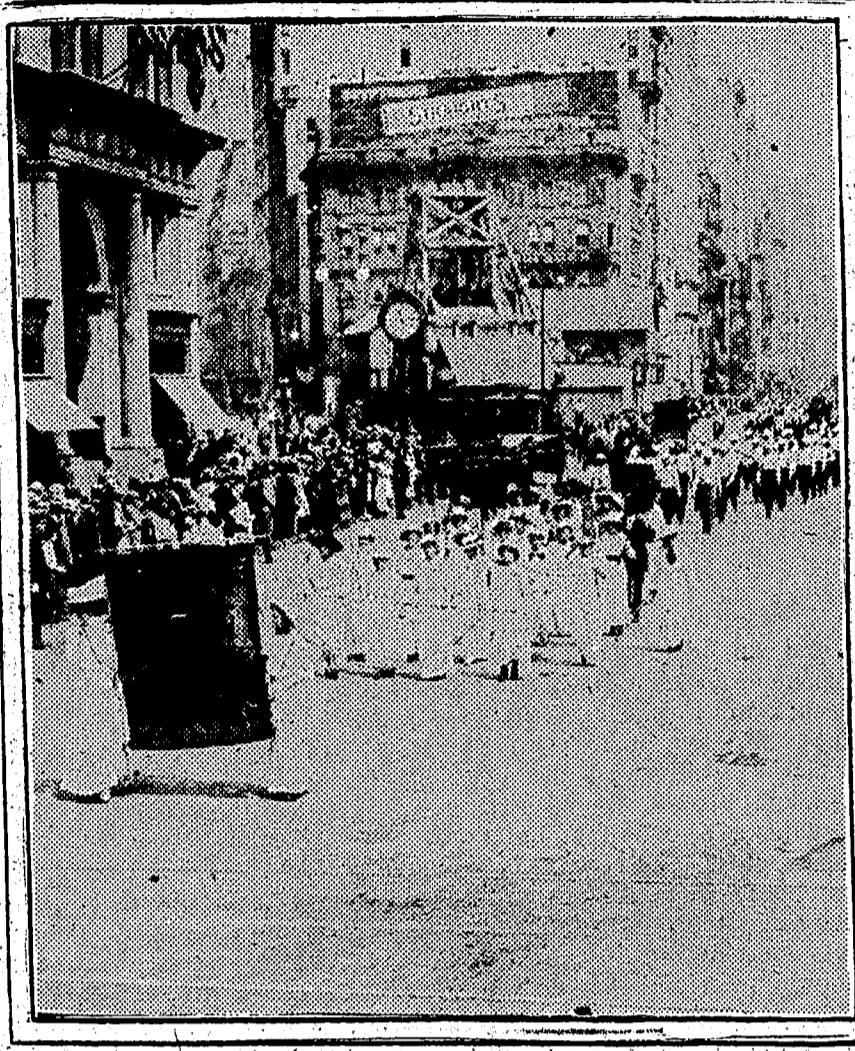

By four o'clock there was quite a large gathering of ladies in Mrs. Robinson's pretty drawing room, for the beautiful weather permitted many members from a distance to drive and walk to the very pleasant meeting place chosen. According to custom members contributed refreshments in the shape of cakes and candies, etc., and a very dainty tea was charmingly set out on a table decorated with scarlet nasturtiums and trails of smilax artistically arranged.

The informal program was principally tea, coffee and conversation, but Miss Ethel Brown and Miss Myrtle Clay sang solos which were much appreciated by their hearers. The Missionary Society consider yesterday's little tea one of the most socially successful entertainments held recently, and it was certainly thoroughly enjoyed by all present.

Rural Delivery Closes Post Offices.

In the last few months no less than 88 post offices in various parts of the Dominion, but mainly in the East, have been closed. Of that number 77 have been closed up on the inauguration of the rural mail delivery in the various districts.

Three Thousand Women Head Equal Pay Procession.

FIFTEEN THOUSAND MERE MEN FOLLOW IN PROCESSION.

"Equal Pay For Equal Work" was the slogan emblazoned on the banners of their organization which were displayed as they marched down Fifth Avenue, New York, to the grand strains of martial music. They received immense applause from the thousands of spectators assembled to greet them. As they passed along the line of march it was generally remarked that the law-abiding manner in which this demonstration was conducted was far more pleasing and satisfactory than the riotous manner of conducting such celebrations or outpourings by the militants in England, and consequently, instead of antagonizing the public by such display of organization these three thousand suffragettes won many converts to their cause.

Rev. A. W. MacLeod Called to Chilliwack.

Rev. A. W. MacLeod, who for several Sundays last month occupied the pulpit of the Chilliwack Baptist Church, has received and accepted a call from that congregation. Mr. MacLeod left on Thursday morning and will enter his new charge at once. Mrs. MacLeod and family will remain here until the latter part of October.

Their removal from here will mean a break in the family. Harry is employed with the Okanagan Telephone Company, while John will this winter teach the Gymnasium Class at Okanagan College. Miss Edna is an instructor in the business department of the same institution, while Miss Jean is local agent for the Okanagan Telephone Company. All four of these are likely to remain here, leaving only the three youngest to accompany Mrs. MacLeod to Chilliwack.

Methodist S.S. Choir Picnic.

A delightful picnic was enjoyed last Saturday afternoon by the Sunday School choir of the Methodist Church. The young folk were in charge of Rev. R. W. Lee and one or two others, and crossed over in the "Skookum" to Naramata. It was a gloriously fine afternoon and the party climbed up the steep hills behind the town and paid a visit of inspection to the long tunnel in course of construction on the Kettle Valley Railway. Tea was prepared in a sunny corner of the hills and it was quite late when the thoroughly delighted young guests came home. A most unfortunate result of the picnic, which has spoilt the recollection of it for at least one young member of the party is the fact that Miss Kathleen Brown happened in some way to get close to the poison ivy which grows in such profusion in that particular spot visited, and is suffering a good deal of pain and discomfort ever since.

Thanksgiving Day.

An Order-in-Council has been passed naming Monday, October 20th, as Thanksgiving Day.

The pre-cooling plant will not be operated any more this season.

Will Enforce Law.

Night Fishing And Other Illegal Methods Must Cease.

It looks like another case of the kettle calling the pot black, but that is no reason why both the pot and the kettle should not be polished up. In other words it would appear that some who make a practice of breaking the law are complaining because others are not adhering to the game regulations. A complaint against the whites was recently made by the Indians on the Reserve south of Trout Creek, who are now busily engaged catching and curing kickaninnies.

This species of fish, which is so popular as an article of diet among our people when eaten fresh, comes up into the creeks at night, making for the spawning grounds, and between the hours of sunset and sunrise it is not difficult to catch them in large numbers. A popular method is to have a torch or other light which will attract the fish when they may be readily scooped out in quantities. This method of fishing, which we believe is illegal, has been practised for years, and it would seem that the wholesale slaughter of these fish is rapidly resulting in diminished quantity, and possibly in their ultimate extinction.

Just what other methods may be illegal we do not know, but the law forbids any fishing from one hour after sunset to one hour before sunrise, and torches and other similar attractions are prohibited, as are also traps and nets which will obstruct the creek. Complaint has been made by the Indians through Indian Agent Brown that Summerland citizens are intruding on the Indians' rights, and using illegal methods for catching the fish. Among our citizens are those who say that the Indians are also using other equally illegal methods. The whole has resulted in instructions being issued that warning notices be posted.

KNOWS GOOD PEACHES.

The following reference to a box of Crawford peaches sent by Mr. John Tait is only one of many such complimentary comments on the superior quality of our peaches, matured on the trees and shipped by express:

"I received the box of peaches to-day, for which I give hearty thanks, and say, sir, they are the finest I have ever seen, and I came originally from the Peach Belt of Old Ontario, the Niagara Peninsula, and lived for a number of years at Stoney Creek, so you may score, and Naramata, is very pleased!

The gorgeous autumnal flowers chosen for exhibition were a collection of exceptionally fine cut blooms, including dahlias, gladioli, zinnias and asters, while the late roses, carnations and stocks were richly fragrant and perfect in form.

First prizes were taken for the best collection of cut flowers all together and then also for dahlias, gladioli, asters, zinnias, marigolds, phlox, dianthus and verbenas. For a collection each of twelve roses, red carnations, pink carnations and white carnations, first prizes were also taken, and Mr. Wolstencroft's collection of stocks carried off the second prize.

K.V.R. Water Rates.

Municipal bonds to the extent of \$3,500 have been placed with the K.V.R. at par by the Penticton Municipal Council. This is a part of the agreement entered into between Penticton and the K.V.R., whereby the railway is exempted from irrigation rates, but will pay a domestic water rate at a minimum of \$50 per month. The rate fixed for water is 15 cents per 1000 gallons per month for the first 300,000 gallons used and 10 cents per 1000 gallons per month as supplied thereafter.

There is every indication that women will shortly be given the parliamentary franchise in Holland. In the speech from the throne delivered at the opening of the states general, the now Dutch cabinet stated its intention of granting the vote to women.

K.V.R. and C.P.R.

President Shaughnessy, of C.P.R., Makes Important Announcement.

Much speculation has existed through B.C., and particularly in this district as to the relations existing between the C.P.R. and the K.V.R. That a very close alliance existed was the general belief, but many held that it amounted to out and out ownership by the big corporation.

The statement given out by Sir Thomas Shaughnessy last week practically sets the matter at rest and shows that the C.P.R.'s president regards the Kettle Valley line as part and parcel of the C.P.R. system.

But the part of his pronouncement which interests people in this section most was his statement as to time of operation, and also the uses to which the new port may be put. As to time he did not merely hold out the hope of completion in 1915, but definitely announced operation in 1915. For its uses one important thing which he pointed out was that it would relieve congestion of the main line, and when necessary could be substituted for entire main line traffic while important changes in route and roadbed of the main line were being made. Thus it is quite probable that towns along the Columbia & Western and Kettle Valley lines will, within a year and a half more, see the long overland trains of ten or a dozen sleepers and diners passing through.

Women's Societies

Resume Work for Winter.

The Ladies Aid and Women's Missionary Society of St. Andrew's Church met at the home of Mrs. Lorne Sutherland Wednesday afternoon at three o'clock. These societies, resuming the year's work after the summer respite were heartened by a good attendance of interested members.

The first hour was given over to home mission study. The Work of the Women's Home Missionary Society of the Presbyterian Church at Grande Prairie, in the new Peace River district, was the topic of study for the day. An interesting account was given of the journey of the first Presbyterian missionaries, Rev. and Mrs. Forbes, to this far-away corner of northern Alberta. They travelled seven hundred and fifty miles from Edmonton by boat and trail, and received a warm welcome from the lonely homesteaders. This was four years ago. Since then a church, manse and hospital have been built at Grande Prairie and are the centre of hope and help for miles around in this remote region. A doctor and nurse have been sent in by the Women's Home Mission Society, who share with Mr. and Mrs. Forbes the joy of ministering to the new settlers. The great distances make the work very trying but—in Mrs. Forbes' own words—"it is worth while."

Kootenay Organizing.

Sixty fruit growers, representing many points in the interior of British Columbia, have decided to form a Central Marketing Association on a co-operative plan to handle the fruit and vegetable output of the West Kootenay and Boundary district. The government will loan up to 80 per cent. of the subscribed capital to aid in financing the organization, said Deputy Minister of Agriculture Scott, who was present.

COUPON

Cut out this Coupon, and present it at The Drug Store, and they will exchange it for 100 Votes in the \$400 Piano Contest.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES : \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates :

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$8.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES OR READERS. Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, ETC.—25c per week, per column inch.

FOR SALE Advertisements, Etc., 3c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, SEPT. 26, 1913.

Proposed Big Union Of Apple Shippers.

Growers Of Four North-Western States Would Organize Big Protective Association.

With a view to organizing all apple shipping associations, independent shippers and growers of Washington, Oregon, Idaho and Montana into a big protective organization similar to the Citrus Protective League of California, a meeting of several hundred of those concerned will be held in Spokane on Thursday, November 20, in connection with the sixth National Apple Show and Fruit Products conference.

So-called fruit politics and all matters affecting marketing methods will be eliminated at this conference, which will deal with matters in which all north-western fruit growers and shippers have a common interest, such as transportation, legislation, standardization of grading, packing and packages, and questions of control and elimination of fruit pests and diseases.

CO-OPERATION NEEDED.

The determination to hold the conference was reached at a meeting of representative shippers and organization men, called by R. H. Pennington, president of the International Apple Shipper's Association. J. H. Robbins, general manager of the North Pacific Fruit Distributors, a large co-operative marketing agency, having headquarters in Spokane, who is chairman of the committee arranging the conference, states:

"We recognize the divergence of marketing policies at this time, and realize that no one marketing organization could achieve what we shall map out. Our idea is to perfect a thorough organization under management of a high-class and capable man, who will devote his efforts to the general uplift of the deciduous fruit industry in the Pacific north-west. He could more than earn his salary from the increased returns of one year's crop if he could get the growers to use care in picking so that the fruit would not be bruised. This is only one of numerous things that must be done for the fruit business."

HOLD CONFERENCES.

During each day of the National Apple Show, November 17 to 22, growers from every district of the four Pacific north-western states will participate in conferences on marketing and distribution and financing, and an effort will be made to provide plans for the profitable utilization of orchard by-products.

ALUMINUM COOKING VESSELS.

An investigation has been carried on by the laboratory of the London Lancet into the extent and way in which various aluminum cooking vessels were affected by the usual articles of food and flavoring materials used in cooking. The only case in which a derogatory result worthy of consideration was obtained was in the use of baking soda, and this should therefore be avoided. However, a warning to this effect is frequently issued when aluminum cooking vessels are sold. It appears therefore that the use of pure aluminum cooking vessels need occasion no misgiving as to possible evil effects.—Conservation.

A man can forget to change his shirt or get shaved, but he always remembers where he left a half-smoked cigar.

Growers Hope For High Apple Prices.

Crop In Washington District Is Light.

British Columbia Apples Advertised.

Light apple crops and a general feeling of optimism among the growers as to prices, with a consequent holding back of fruit from the market, with the idea that the already good quotations will show an improvement later in the season, together with a successful commencement of operations by the North Pacific distributors, the new central marketing agency, is the trend of reports from many points in Washington, Oregon and Idaho, which have been received by J. Forsyth Smith, British Columbia markets commissioner, with headquarters in Calgary, who has forwarded them to members of the British Columbia Fruit Growers' Association.

At Cashmere, Wenatchee district, Winter Banana apples have been sold at \$2.25 f.o.b. point of shipment, and orders are being filled at \$1.40 and \$1.25 for Jonathans and King Davids.

A report from Wenatchee states that the growers are refusing to make contracts, feeling that prices will harden; Gravensteins have sold at \$1.50, and McIntosh Reds at \$1.45. Shortage of crops in the East will mean an increased demand for number two grade apples, says this report. A Milton, Ore., report speaks of the success of co-operation.

From Yakima prices predicted are: \$1.25 to \$1.40 for Jonathans and Romes; \$2 for Winter Banana and Delicious; \$1.50 to \$1.75 for Winesaps and Spitzbergs. Prices will be named shortly by the larger organizations in an effort to discourage price cutting, states this report.

"From our standpoint," states Mr. Smith, "the North Pacific fruit distributors will undoubtedly relieve the situation on the Canadian markets by absorbing the weakest and most irresponsible of the consignment shippers to our centres."

Mr. Smith states that he has been authorized to commence a campaign of advertising British Columbia apples in fifteen Alberta newspapers.

RIFLE ASSOCIATION.

The final stage of the Special Competition (King's) was concluded on Saturday last, with the following results:

	Distances	800	900	Total
	H.P.S.	75	75	150
J. Dunson	58	50	108	
H. Dunson	54	52	106	
O. Smith	46	52	98	
G. M. Loomer	88	54	92	
F. Nixon	59	38	92	
W. Nelson	43	45	88	

1st 2nd Final Ag.

Stg. Stg. Stage gre.

J. Dunson	98	78	108	-279
O. Smith	98	84	98	275
H. Dunson	87	78	106	271
W. Nelson	98	80	88	270
G. M. Loomer	92	85	92	269
F. Nixon	86	88	92	266

The prizes won at the above were:

Aggregate—
J. Dunson—Mr. May's Trophy.
Final Stage—
H. Dunson, O. Smith, G. Loomer—Col. Cartwright's Prizes.
Highest score at 1000 yds.—
G. Loomer—Gold Button.

What is more delightful than a cool, breezy day after a couple of weeks of hot, sultry weather?

Gossip has been well defined as putting two and two together, and making it five.

LOCALS.

A second pool-table has been put in the pool-room of the Syndica Hotel, Naramata this week. This latter table was purchased from the Summerland Hotel restaurant and taken across the lake on Thursday.

The banquet announced in last week's Review to be held on Thanksgiving Day, will be held on the following Monday, in order not to clash with the Presbyterian Social Gathering on Thanksgiving Day.

We very much regret to learn that Miss Kathleen Brown, daughter of Mr. J. R. Brown, of Trout Creek, is suffering from a nasty attack of poison ivy, which it is supposed she contracted at Naramata last Saturday when at a picnic.

Next Sunday is Rally Day in St. Andrew's Church. The Rally Day service prepared by the church's young people's committee will be used in the morning service. Rev. C. H. Daly will conduct the service in the evening. This will be a service of special interest to the young people.

The Summerland Review travels afar, and an interesting journey of a recent issue of ours was to the East coast of England. An Old Country holiday maker in the breezy little fishing port of Lowestoft, picked up last month copy of this voice of the Valley, and was immensely pleased to read in it the name of his nephew, a Summerland schoolboy as a prize winner in a drawing competition in connection with the Summerland Flower Show.

The September magic lured all the younger folk out, not only under the blue afternoon sky this week, but into the starlit night after regular bedtime hours. A merry boatload of evening picnickers were on the lake on Wednesday night considerably after eleven o'clock; and their happy laughter was heard enviously by some who had sleepily sought their pillows!

At the dinner table of a Summerland neighbor this week we tasted a most delicious condiment, apple vinegar. The fine tartness of a well-flavored apple was perfectly produced in it, and it put a delicious and appetizing sharpness into salad or any dish with which it was served. This apple vinegar was prepared, from a capital recipe, by an enterprising fruit grower of Summerland. Does not apple vinegar suggest a most lucrative by-product for the Valley? We understand that as a project, its manufacture is seriously under consideration by a well-known company.

"Avoid the fly, as you would a viper," says a health authority. That's alright. What we want to know now is how to induce the fly to avoid us.

Impressions of a Fleet Street Journalist

IV.—By L. V. MILLS.

Comparisons are always rather dangerous things to deal with, though indeed our lives are ruled by them. I have been living in a world of comparisons ever since my arrival in the Happy Valley, some of them so strong and forceful that they have upset many of my most favored theories! I have already talked of the vivid comparisons in the climate and the world of nature that have been delighting me for the last few sunny weeks, and while the sun shines so goldenly from the sapphire September sky, and the ripe fullness of harvest seems to mellow the air, I would dare venture to mention other mere material comparisons. It is a happy moment to do it. I should like also to say here, before I proceed further, that any enthusiasm I betray as to nature's lavish gifts bestowed on the Happy Valley, any admiration for the glory of "God's own Country," as I heard fair British Columbia called before ever I saw her, are sincere. Those whom long residence has made blind to the beauties of the place they live in, cannot justly estimate the effect produced by the Happy Valley on a newcomer, and that newcomer a lover and worshipper of nature in all her aspects, and it really is not just to term lover's enthusiasm insincerity!

While I was still busy packing trunks and saying farewells in the "Old Country," I was favored with a great deal of advice from a great many friends. "Giving advice" is one of the favorite recreations of one's friends; Mark Twain found that out long ago. All those who had been in Canada—and a good many who had not—felt it their duty to instruct me as to the condition of things in this vast and impressive continent. "You see, you'll find everything so very different" said some. "You will find it not very easy to adapt yourself to a new life," said several others. "It's such an uncomfortable thing to uproot all your own particular ideas and re-adjust them in new country," said one particularly anxious adviser. Then there was a kindly person who had been out in the Happy Valley before, and he felt himself indeed qualified to speak as guide, philosopher and friend, so he warned me, "You must not be too English, you know! I was English when I sailed and I became a Canadian within twenty-four hours." (A remarkably quick transformation that even my adventurous spirit dare not compass!)

Now, I listened politely and attentively to all my advisers and I remembered, deep in my heart all the time the old saw, "Those whose empire is an island are always insular in mind." I determined that never would it be through me that anyone should cast the slur on that beautiful little green island by thinking of the word "insular" while a traveller from it "was around!" I have been in a perpetual state of astonishment—delighted astonishment for the most part—ever since that moonlit August evening when I looked up at the shadowed heights of Quebec from the deck of an ocean liner. (Astonishment is a splendid tonic, mental and physical!) I believe I shall continue to be astonished as long as I live in this astonishing country. The vast areas, the fragrant airs, the feeling of "newness," the profound realization of human insignificance when compared to nature's own amplitude—the pioneer pluck of the people, the passion for labor, the happy recklessness of the Canadian disposition—(yes, even the Summerland dust)—have all astonished me. But what has astonished me most—and here I get back at last to my "comparisons"—is a sentence I heard during my first week in the Happy Valley. "Well, you see, she can hardly understand, though she is quite a sensible Englishwoman."

"English-Canadian-Canadian-English," I murmured, over and over to myself in mute astonishment, "What on earth does that mean—aren't we all English—or well, am I a Canadian at heart—or not sufficiently English that this thing should be?" I thought about this for some hours, and then as became a sojourner in the Happy Valley, I began to ask questions. "Why?" I asked of a kindly Canadian woman who looked as if she might answer my question mercifully, "Is there really any line drawn here between people of one nation, and if so—why?"

She looked at me wonderingly and she said in a voice as bewildered as mine, "Why do you, an Englishwoman, stand there and ask a Canadian that question?" Now that has made me feel as if I want to get up a good big tourist party, consisting of all the folk in the Happy Valley, Canadian and English (if so it must be) and let us all take a trip together over and around that dear little shining beautiful piece of turf whose bosom peeps above the sea," as someone has put it—for six months and then ask them again the question, "Why?"

The Happy Valley is set in a fruitful corner of beautiful Columbia, with a great desolation not many miles from it, the vast winds that sweep over the Rockies descend on it, its social life is or should be, governed greatly by the climatic conditions—which are so wonderful—so those who live in it must persevere be thinkers as well as toilers. There is but one great principle that will most happily govern our life while we dwell in it—unity of thought and action, and no comparisons!

The English maple is shedding its yellowing leaves at this very moment on the green turf of a dear little spot I know in the "Old Country," while the same queen of the forest is burning in autumnal splendour all over British Columbia. The English rose that dies in June, is blossoming more beautifully than I have ever yet seen it, in some gardens of Summerland. There is really no standard by which we can compare them—they are the same—yet different. I look at a Happy Valley girl as she passes me on the shores of this blue lake that I love already with a deep—or perhaps I should say sincere—affection. Her cheeks rival in bloom the peaches in the Valley orchards, for there is a stalwart young man not long from "the little green island" beside her, and the Empire of Home is surely somewhere in their future. Are there any distinctions where a greater Empire is concerned?

The first emigrants from the heart of the Greatest Empire, to this Empire Overseas were the grandfathers—and in many, many cases the fathers of young Canadians. If it is that the great winds that blow over the new land annihilate prejudice—it should also be that they annihilate all comparisons.

Naramata Notes. Kaleden Comments

Mr. J. H. Rounds spent the week-end in town last week.

Mrs. Frank Edgar of Summerland was visiting in town on Thursday.

Mr. H. J. Wells is now building a neat barn on his premises on Third Street.

Mrs. Cash and Mrs. Cook spent Tuesday in Summerland with Mrs. Frank Edgar.

Mr. Geo. Nuttall was ill the early part of the week, necessitating a doctor's visit.

Mrs. Burnett and two children, Miss Curry and Miss Blanchard visited Mr. Burnett at his survey camp near Summerland on Tuesday.

Mr. Bliss of Residency 2 is now filling the vacancy at the local survey office left by Mr. Osborn, who left recently to be located in the work along the Hope line.

The next meeting of the Ladies' Aid will be held at the home of Mrs. Languedoc on October 8. The ladies find that their society must meet oftener in order to prepare for their annual bazaar, which they intend to make as successful as their former affairs.

A small "run" was started on coal oil and candles at the Supply store on Tuesday, when it was found out that there would be no electric lights for that night. Some repairing was made at the lighting plant which would not allow of its starting up till the following day. A great improvement in the lights is noticed.

Mr. and Mrs. Geo. Woostencroft spent two days in Kelowna the early part of the week attending the Sports Day there. Mr. Woostencroft entered into the Flower Contest with fourteen entries and carried off thirteen first prizes and one second. Gardener Moore accompanied them and aided in arranging and entering the flowers.

Naramata people had the opportunity of hearing a splendid address from Mr. Myers, late of Edmonton, last Sunday afternoon. He conducted the service in the Presbyterian Church at Summerland in the morning and left for Penticton in the late afternoon, where he was to address a congregation in the evening. He left on Monday's boat.

Mr. J. A. James returned last Monday to again take up a position as timekeeper at the Valley Construction camp. Mr. James, it will be remembered, was forced to give up his position some time last May on account of ill health. He was taken to the Mission Hospital where he has been slowly regaining his strength. His friends were very glad to welcome him back, finding him looking much better than they had expected.

The tennis party given by Miss Edna Noyes last Thursday certainly deserved the title of being the best time yet. Tournaments were arranged between mixed couples of amateurs and seasoned veterans at the game, but no definite decision was made as to who were the champions. At five o'clock the playing was interrupted by the serving of very delicious refreshments at Miss Noyes' home. Such a good time was enjoyed that the young ladies are planning other afternoons just like it.

Solving The Problem

Spokane, Wash., Sept. 24.—Problems confronting the fruit growers of the Pacific north west will be threshed out by the growers themselves, aided by a number of men of national reputation in their lines, as a large feature of the conference side of the Sixth National Apple Show and Fruit Products Congress to be held at Spokane, November 17 to 22. The general conference plan considered by Chairman James S. Ramage and the board of trustees provide for having each subject opened by men recognized as authorities in that line, and thereafter to have the growers present discuss the subject informally and in detail. Among the subjects already outlined for the conferences are: the standardized pack; utilizing the lower grade fruits in by-products (with practical demonstrations); storing the fruit for market; financing the fruit crop; co-operative marketing and its vital necessity to the individual grower and to the future of the apple industry.

TO KEEP MILK SWEET.

Capt. and Mrs. Hatfield arrived home on Wednesday from Saskatchewan after a visit of five weeks.

Miss Macklin from St. John, N.B., arrived on Friday evening to visit her aunt, Mrs. Louis Kerr.

Mrs. and Miss Rowley, who have been staying in Naramata are spending some time in the hotel here.

Sir Melbourne and Lady Tait motored down from Summerland last week to visit Mr. and Mrs. Harrison.

Mr. and Mrs. A. S. Hatfield arrived home from their ranch this week after spending a most enjoyable time there with their friends.

Rev. Charles Britten, pastor of the Baptist Church in Penticton came down on Tuesday and held a service in the Baptist Church here in the evening, when he preached an excellent sermon on "Gleaning."

BIGGEST MEAT EATERS ARE AMERICANS—NOT BRITISH.

Americans are the biggest meat eaters in the world. They eat more beef per capita than the British do. Figures for meat-eating in 1909, just made public by the Bureau of Animal Industry of the Department of Agriculture, show that the per capita consumption of meat for that year in the United States was 162.20 lbs., divided as follows (fractions omitted): beef, 80 lbs.; veal, 7 lbs.; pork, 67 lbs.; mutton and lamb, 6 lbs.; goat meat, 18.

Over in England, where they boast about "good old roast beef," the per capita for that product is only 56 lbs. Moreover, the total eaten by the American is exactly the same as for the Briton—47 per cent. Inhabitants of the "tight little isle" make up their total by eating 26 lbs. of mutton a year, as against the Americans' 6 lbs.

The Spanish are the smallest meat eaters, their per capita consumption being only 49 lbs. Germany's is 113 lbs. In both Germany and France pork is the favorite meat.

HOLD ALFALFA DAY.

Tuesday, September 23, was Alfalfa Day in Spokane, and for five weeks thereafter ALFALFA, alleged to be "the hog's idea of heaven," will be the watchword throughout the Inland Empire. At the regular weekly luncheon of the chamber of commerce, Professor Perry G. Holden and his party of agricultural experts, who will lead the alfalfa campaign, were the guests of honor. Professor Holden was the principal speaker.

This luncheon was really the opening gun of the campaign which means so much to the Inland Empire, and plans have been made to give the crusaders a rousing send-off.

From then on things will begin to hum, as business men and farmers are lined up solid behind this movement.

In addition to Professor Holden and party, there were present at the luncheon representatives of the governors of Washington, Idaho and Montana, as well as representatives from the state colleges. The railroads were also well represented.

BANISH COCAINE EVIL.

The recent pharmaceutical convention in Toronto called attention to the large amount of cocaine used in Canada. The amount is far beyond what would be required for medicinal purposes. Too many people have the cocaine habit, and too many unscrupulous men are pandering to this vicious practice by providing the drug. The police know it, if the general public does not. We cannot have legislation too stringent, nor have it too thoroughly enforced, if this evil is to be effectively grappled with. It is time to realize that there are other pernicious drugs besides alcohol.

Vernon, B.C., Sept. 19.—A. F. Vennables of this city died suddenly of heart failure yesterday afternoon at 4 p.m., after being ill for only five hours. The deceased was one of the most prominent fruit growers in the Coldstream district. He was secretary of the Farmer's Institute, a director of the Fruit Union, and a man of wealth.

He is survived by his widow, three grown sons, and a married daughter. He was 62 years of age.

GILLETTS
EATS LYME DIRT
CLEANS—DISINFECTS

At a meeting of the Penticton Board of Trade held last week a resolution was passed asking the "Province" to give publicity of the contradiction of the unwarranted report with reference to the Okanagan fruit industry which appeared in that paper, and to severely censure their Penticton correspondent.

More than 2,000,000 American farmers are now using telephones in their homes, more than 100,000 having installed instruments within a year.

SUMMERLAND, B.C.

The Hand That Moves The Lever Saves 16 2-3 Per Cent. of Your Coal Bill

Here is the opportunity for the housewife to deal the high cost of living question a hard jolt without any effort on her part.

The way is to make sure that her new range is controlled by a Gurney Economizer, which will save 1 ton of coal in every 6 burned in an ordinary range.

The Economizer is to the stove what the control lever is to the engine or automobile. Without control neither is efficient.

With the Gurney Economizer it is possible to quickly vary the heat of the oven. Various foods require different temperatures. The Economizer keeps this desired temperature absolutely uniform.

It also means that when cooking is over, you may have a cool kitchen and still have your fire going—while you can have the fiercest heat in a few minutes by a slight pressure on the lever.

If you possess a Gurney-Oxford your advantages are innumerable. The Divided Flue means heat for every hole on the stove. The New Special Grate guards the lowest fire. The Broiler exposes every inch of the coals.

These features are exclusively "Gurney-Oxford."

It will furnish your kitchen handsomely—it will do your work adequately.

Summerland	- Oct. 29, 30 and 31
Vernon	- Nov. 4 to 7

Passing Events: Social, Personal, &c.

Mrs. Ernest Bate of Vernon is visiting Mrs. Arthur Solly for a few days.

A carload of apples for Australia is being shipped this week by A. H. Steven.

Mrs. R. C. Lipsett spent Wednesday and Thursday at Peachland organizing a Women's Institute.

The Darkis blacksmith shop has been moved back to the rear of the lot and a new shop is being built on the front.

Mrs. J. E. Phinney left Boston for home on Tuesday. She will break the westward journey by one or two short visits and is expected here the latter part of next week.

K. V. R. Engineer Burnett and Mrs. Burnett and son, Miss Curry and Miss Blanchard, all of Naramata, spent Tuesday on this side of the lake at Mr. Burnett's camp in Peach Valley.

Mr. and Mrs. Carroll Aikens of Naramata are spending a fortnight at Banff, and Mr. Aikens, who is now happily convalescent, is receiving much benefit from the hot springs at that beautiful neighborhood.

Mr. Freeman Nuttall of Sligo, Ireland arrived here on Wednesday evening and is the guest of Mr. and Mrs. F. D. Cooper. Mr. Nuttall is a horticulturist, having received his training in Germany. He expects to reside here permanently.

On Thursday the mirror-like surface of the lake had several boating parties out on it. There have been some camping tea parties too, and if this wonderful weather continues we shall have the summer picnic season beginning all over again.

The large congregation at the morning service in the Baptist Church last Sunday thoroughly appreciated the sweet singing of Mrs. George Ross, whose rendering of Gounod's beautiful "Oh, Divine Redeemer," was both rich and sympathetic.

Mr. and Mrs. George Ross started out yesterday (Thursday) on a vacation which is to last a month or six weeks. After a week in Chicago they are proceeding to Webster City, Iowa, and plan to visit several other places before their return here some time at the end of October.

Mr. Charles Kerr of the Bank of Montreal, Vancouver, is visiting his parents, Mr. and Mrs. Wm. Kerr, and thoroughly enjoying his holiday and reunion with friends. We are very sorry to learn that Mr. Gordon Kerr is still suffering from the effects of his recent accident, and is not yet able to be back at his work.

The sturdy and seaworthy little row-boat "The Scout," if not of the latest approved pattern, polished and finished to please, is a delight to the Summerland troop of Boy Scouts. The Scouts have had one or two quite adventurous little trips—hugging the lakeshore—in her during the winds this week, and gallantly bailing out with empty meat cans seemed to be having the time of their lives!

Mrs. George Atkins, with her five months old baby daughter, and accompanied by her nephew, Mr. James Turner, is leaving for Montreal on Sunday. They are embarking on the S.S. "Canada" for Liverpool, and will proceed to Mrs. Atkins' home near Leeds. It is only eighteen months since Mrs. Atkins came out to Summerland as a bride, and the deepest sympathy and the good wishes of the Summerland people will go with her on her sad voyage home as a widow.

Dr. Davidson, who for some time

was resident surgeon on the K.V.R.

construction work here recently

suffered a most unusual accident,

and the latest accounts were that he

was in Vancouver with his neck in

plaster, suffering from a broken

bone of the neck. While riding

along the C.P.R. main line near

Revelstoke on a hand car he heard,

while crossing a bridge, a train

approaching. Lifting his car from

the track Dr. Davidson went out to

the outer edge of the bridge to

await the passing of the train. The

vibration was so great, however,

that he lost his hold and was

thrown to the canyon below.

There is some sport to be had

at your very doors these brilliant

September mornings, especially if

you turn out at five when the day

is not yet off the bushes, and the

smoke is just rising from the rail-

road camp fires behind Naramata.

The wild duck are beginning to

put in an appearance, a brace or

so of grouse may rise almost from

under your feet, and for lack of

anything more exciting there are

plenty of kickaninnies, or even a

"fool hon." By the bye the frizzles

of the kickaninnies over the camp

fires of the Indian Reserve, send a

savory odour out on the crisp

autumnal air nightly just now.

The flavour of the little red fish

is sometimes criticized. We venture

to think there must be some

culinary secret hidden in the Siwash

frypan, for, prepared in it, the

kickaninnies is a toothsome morsel

which irresistably reminds an Old

Country resident of that national

dish—the Yarmouth bloter!

G. A. McLaine left on Wednesday morning for Victoria.

Mr. John Tait, who accompanied his wife as far as Sicamous last week, returned on Friday.

Mr. T. E. Clay of the Okanagan Realty Co., spent two days this week in Meadowland very busy in preparation for the surveyors who will arrive next week.

Mr. and Mrs. Mendham, who have been camping on their orchard property, formerly the Nellis lot, have rented Mr. John Tait's cottage opposite his home orchard.

The ladies of the College faculty

will be "At Home" on the first Thursday in October, from half past three to six, and on each succeeding first Thursday throughout the College year.

The Vancouver City Market is making an exhibition of B.C. produce to-morrow (Saturday). Some peaches, tomatoes and prunes have been sent down from here by private individuals.

Mrs. G. W. Morritt was the solo singer at the Methodist service in the Presbyterian Church last Sunday evening, and gave a very fine interpretation of the old and familiar favorite "Abide With Me."

We are very glad to hear that there is a slight improvement in the condition of Mrs. R. H. English, who has been severely ill. We sincerely hope she will maintain the improvement and soon be on the high-road to health again.

We very much regret to hear grave news of the condition of Mr. W. Bentley, son of Mr. and Mrs. C. J. Bentley, who is lying ill at Vancouver. He is reported to be in a critical condition and his aunt Miss MacLansborough has proceeded to Vancouver to be with him.

There has been great anxiety in the home of Mr. James Gartrell all this week. Mrs. Gartrell, we regret to learn, was seized with a severe attack of appendicitis last Saturday, and on Sunday her condition was serious. She is now somewhat better, though still very ill.

Yet another English traveller seeking a summer climate, Mr. J. Thurlow of Birmingham, England, came into Summerland last Sunday night and stayed till Tuesday night, looking around and approving. We understand that Mr. Thurlow is attracted by the sunshine and climate of the Okanagan Valley, and for the benefit of the health of a member of his family is thinking of taking up his residence in our neighborhood.

After expressing pleasure with what he has seen, and delight at the genial air, Mr. Thurlow has returned to the north with a report of his trip. We hope to welcome him back later on.

The adventurous party of young people who came from quite a small way afar—from up a hill—to see "the pictures" on Tuesday night, might have had less pleasant ending to their jaunt—but all's well that ends well!

What if the horse, buggy and all, tethered without, did disappear helter-skelter up the hill while the borrowers were enjoying the program within the hall? By the time the bridleless steed was well up a bank, he was, happily, secured, and with the rest of his belongings returned to his home. The adventurous party aforesaid arrived home in the democrat of a kindly disposed resident, a little late 'tis true, but safe and sound.

Miss Molita H. Skillen has been appointed instructor in Okanagan College in advanced English and German. Miss Skillen is a native of New Brunswick, a graduate of Brooklyn, N.Y., High School, and a B.A. of Cornell University. She graduated with honors in English, receiving her degree in 1911.

During the past two years she taught advanced English and German in the High School at Olean, New York. For two summers, while a student at Cornell, he was engaged in one of the noted settlement centres in New York City.

She is Vice-President of the Student Volunteer movement of New York State, and has much experience in Y.W.C.A. work. She has fine recommendations as a teacher, and should make a valuable addition to the College staff.—Western Outlook.

SYNOPSIS OF COAL MINING
REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lessee will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

The capitalized value of the fox industry of Prince Edward Island is now placed at \$10,000,000. Practically all of this is invested in the fur bearing animals, totaling 2480.

Advertising The Apple.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Summerland, B.C." will be received at this office until 4:00 p.m., on Tuesday, October 21, 1913, for the construction of a Wharf at Summerland, B.C.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department and at the offices of F. W. Aylmer, Esq., District Engineer, Chase, B.C., and on application to the Postmaster at Summerland, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,

All kinds of Fruit and Ornamental
Trees in Stock.

Two advertising campaigns are under contemplation on the Coast, immediately concerning the fruit growers.

One of these emanate from the Okanagan growers, and provides for proper publicity for the fruits of this Valley on the prairies and on the Coast. The other is the conception of the North Pacific Distributors, who plan a big campaign to popularise that most delectable of all fruits—the apple.

It is pleasing to note that the latter campaign is not planned on the lines of Raisin Day in California, but that it has selected as its task the work of educating the trade and the consuming public on the right time to market and to eat a given variety of the fruit—a task absolutely prerequisite to any great enlargement of demand.

An exchange says there has been a woeful lack of intelligent method in marketing the boxed apple of the Pacific Northwest, and costly lack of system all along the line. It is doubted if one retailer in ten has correct knowledge regarding the time of maturity of even the most standard sorts. The inevitable result has been to prejudice millions of householders against this king of fruits. Attracted by the beauty of their grocer's display, they have ordered and tried to consume the various varieties at the wrong time. They have been selling Arkansas Blacks in December and Wagener in April, when it should have been the other way round.

Nothing short of big co-operative organization can overcome this serious obstacle in the way of enlarging the consumption of the apple.

Growers of "Spuds" Fight For Market.

Ashcroft Farmers Attempt To Oust American Potatoes Here.

In order better to place the famous potatoes of the Ashcroft district on the tables of B.C., an association known as the Ashcroft District Potato Growers Association has just been formed. It represents the potato growers along the C.P.R. main line from Savona to Spence's Bridge.

The association will try and interest the people of British Columbia in potato growing to the extent that they will buy the Ashcroft potato in preference to tubers grown in the U.S. Great care will be taken to see that only the choicest of "spuds" are sent to the markets of Vancouver and other points in the province, and all the potatoes will be very carefully graded.

A letter has been sent by the new association asking the Progress Club to incorporate Ashcroft potatoes as well as Okanagan fruit in its campaign for "B.C. Produce for B.C. People."

MAKING CEMENT.

The welcome sound of the big whistles at the cement works was heard last Monday promptly at 6 a.m., after a close down of about three weeks. Just now half capacity will be the order owing to certain repairs. The quality and demand for Elk brand cement, made by the B.C. Portland Cement Co., of East Princeton, assures an immense output. As an industry it will mighty affect the immediate districts of Similkameen, Okanagan, Kamloops, and Nicola.—Similkameen Star.
