PREMIUM ON WORTH.

Canada's biggest corporation is working on a scheme that was possibly suggested by the system adopted by all the major league baseball clubs. These clubs send out scouts over all the country to witness the games of the different baseball leagues. The scouts go secretly for the purpose of picking out the men who will later on be the star players. This scout idea will be used in a system which is being inaugurated by Vice-President Bury to discover the giant corporation's most capable employees for the openings higher up which are continually occurring. Mr. Bury also recognizes the value of public opinion and goodwill of the private citizen, and his scheme of promotion has a close relation to this recognition.

In large organizations many deserving employees remain practically stationary because of environment or their not coming under the purview of those who recommend men for promotions. With a view to bringing the management in closer personal touch with the employees, officers will be required to make reports on the service rendered by every officer and employee under his immediate jurisdiction. An account will be given of each man's disposition, attention to business, loyalty, zeal and more particularly of the tactful and courteous manner (or otherwise) with which he deals with the patrons of the company. Greater stress will be laid on the degree in which these latter qualifications are possessed. Due precaution will be taken to guard against adverse reports of any employee.

Of the scout idea an official of the Vice-President's office says:— "In addition to these reports a gentleman who is a good judge of human nature, of kindly disposition, whose name has not been divulged to the staff, has been selected who will travel over the road as a passenger, and in that capacity, or as a shipper or consignee will come into continual contact with the various employees, and his instructions are to look for the good points in employees, and to draw attention to, and send in the names of any of the staff whose courtesy, zeal, loyalty, ambition and knowledge mark them out as above the ordinary, and likely material for advancement."

ALCOHOLIC POISONS.

CIVILIZATION continues steadily to progress, and what a few years ago would have been looked upon as the product of the minds of fanatics is now considered seriously, and often adopted by the public generally.

We in Canada, with so many matters pertaining to material development and progress, have perhaps on the whole been a little behind our cousins to the south in the adoption of legislation bearing on social progress.

In the New York State Legislature a bill drawn as an amendment to the penal code, and which would never have gotten through the committee stage in earlier days, is now receiving serious consideration, and may become law. The same legislation will be proposed in other states as opportunity offers.

The measure provides that bottles of beer, whisky, and other beverages containing more than two per cent. of alcohol shall, before being offered for sale, be labelled "Alcohol" and "Poison" in bold face capitals, with the traditional skull and crossbones printed in red. For the label the following is proposed:—"This preparation contains alcohol, which is a habit-forming, irritant, narcotic poison." This statement was suggested by the National Scientific Temperance Federation, and is vouched for as scientifically accurate.

The argument is that a man who drinks should at least do so with his eyes open, with a knowledge of the nature of what he takes. The bill is only an attempt to apply the spirit of the pure food and drugs act to the liquor traffic.

OBITUARY.

HENRY W. KNIGHT.

To his many friends throughout Okanagan Valley the news of the sudden and wholly unexpected death of Henry W. Knight of Kaleden came as a rude shock that for a moment seemed unbelievable.

Mr. Knight was assisting a neighbor at Kaleden in rounding up some cattle, and was reaching from his saddle to open a gate when suddenly he was seen to fall from his saddle, and when friends reached his side life had departed.

Mr. Knight was a young man of 26 years, and a native of St. John, N.B., the youngest son of the late Joshua Knight, a well-known lumberman. He came west eight or ten years ago, and has been a resident of Okanagan Valley for five years or more, at first at Vernon, and for the last two years at Kaleden. Interment was made at Kaleden on Wednesday.

Those left to mourn include his mother and sister in St. John, and another sister, Mrs. Carroll Foss of Kaleden, and one brother, Ernest, a commercial man, well-known throughout the Valley.

We have to express our sympathy to-day with Mrs. S. Angove, who, returning last night from Armstrong, found in the mail a letter informing her of the sudden death of her brother, Mr. John Myers, in Guysboro, Nova Scotia. The news was a great shock to Mrs. Angove who had no idea that her brother was even ill.

Mr. W. J. Robinson went up to Vernon on this morning's boat and will stay a day or two.

Advertising inspires confidence in the man on the move. He knows the town that advertises is no one-horse affair, but is alive and progressive, and a good place to go to.

Penticton is negotiating for the purchase of some celled water pipes held by the City of Vancouver. The sizes are four, six and eight inch, and if secured will be used for irrigation purposes.

HOW PAT WOULD EVADE IT.

Two Irishmen, on their way home from a funeral, were conversing about the uncertainty of life. Says Pat:

"Sure, and I'd give a thousand dollars, Moike, if I knew th' place where I was goin' t' die"

"Faith, Pat, and phwat good would that do ye?"

"Bogorra, I'd niver go near th' place at all, at all," says Pat.

IMPRESSIVE BAPTISMAL SERVICE.

An impressive baptismal service, attended by a crowded congregation, took place on Sunday afternoon at the Lakefront Baptist Church. Three female and one male candidate, all from Kaleden, were admitted into the church by Rev. C. Britten of Penticton, and the service was conducted by Rev. D. J. Welsh of Kelowna, who preached an eloquent sermon.

Suitable hymns were sung by the choir, and the beautiful solo, "The Plains of Peace" was well rendered by Miss Myrtle Clay.

A Tip To You

"Business with me has increased very much since I began advertising in the Review, and I am satisfied that my sales are fully 30 per cent. greater since I began advertising, than they would otherwise have been." Such is the unsolicited testimonial of one of our advertisers, and we pass it along as a hint to any who may wish to increase or extend their business.

WHY LIVING IS HIGH.

The story of the adventures of a head of cabbage in New York is told by the New York Press. It casts illumination upon the much discussed high cost of living. The cabbage is raised by a farmer in Connecticut. The comparatively small farmer will send 1800 to 2000 heads of cabbage to New York. For one head he receives a cent and a half. Then the head goes to the commission merchant. He lives on Riverside Drive and pays \$2,000 a year for his apartment, and keeps an automobile. His living expenses are \$6,000 a year. He sends the cabbage to the jobber who lives in an apartment which costs him \$1,500 a year—on Broadway, keeps an automobile and spends \$5,000 a year. From him the cabbage goes to the retailer, who lives in a \$700 apartment on a side street, has a corner store for which he pays \$125 a month rent, keeps two delivery wagons at a cost of \$140 a month, and spends \$2,500 a year on his living. Finally the cabbage gets to the consumer. He lives in an apartment for which he pays \$40 a month. He rides in the trolley car or the subway, he spends all he can make or a little more to live, and he pays 13 cents for that head of cabbage.

B.C. And The Ballot.

When J. J. Hill crossed the line from Canada into the United States he had to wait five years before he was allowed to vote even for constable. To-day he would have to pass, at the expiration of the incubation period, an examination in the principles of American government, and produce witnesses vouching for his probity.

Over the line in British Columbia the Hon. H. H. Stevens, M.P., is loudly complaining of the laxity in the administration of the naturalization laws. Hundreds of Japanese, he avers, cast ballots even though they have never been naturalized. Canneries, loggers, and mine operators, he asserts, keep a supply of used but otherwise perfectly good naturalization certificates on hand and pass them around among the newly arrived Asiatics they employ.

Why not? British Columbia has no educational standard to measure applicants for citizenship; it requires a residence of only three years; it does not insist upon knowledge of the English language; the franchise may have as little meaning to the applicant as Sanskrit and the cheering effect of distilled grape juice have to Mr. Bryan, still British Columbia confers the privilege. What difference does it make, under these circumstances, whether the certificate is conferred by a magistrate or by the boss of a salmon cannery?—Sunset Magazine, San Francisco.

Marketed Half Million Boxes Of B.C. Apples.

Exports To Australia Made New Record Last Year.

Nearly half a million boxes equal to something like 26,500,000 pounds, of B.C. apples were marketed last season according to figures compiled by Mr. R. G. L. Clark, chief inspector in British Columbia for the Dominion Fruit Inspection Department, and his assistant, Inspector A. H. Flack. The greater proportion of the fruit was grown in the Okanagan, with the Kamloops district next in point of production, and the Grand Forks section taking third place. Here are the returns from each district: Vancouver Island and the Gulf Islands, 15,560 boxes; lower mainland, 3,000; Kamloops district, 35,750; Okanagan, 371,000; Kermes, 7,000; Grand Forks, 38,000; Nelson, 10,000; Creston, 13,500; Arrow Lakes, 1500. Total, 499,310 boxes for entire province.

As indicating the extent of the fruit growing industry, Mr. Clark states that about 80,000 cases of peaches, 85,000 crates of plums and prunes, 12,000 crates of cherries, 8,500 cases of apricots, 8,000 crates of pears, were shipped out from the various districts last year.

The shipments of British Columbia grown apples from Vancouver to Australia and New Zealand last year established a new record, 31,127 cases being consigned overseas as compared with 37,127 sent from the United States to the Antipodes.

The High Cost Of Living

At the present time possibly no other subject is receiving quite as much attention in Canada as this one. It will be a surprise to most readers to know that during the fiscal year which ended March 31st, 1913, Canada paid \$11,500,000 in duty on food, and all of this large sum is virtually a direct tax on the consumer.

In glancing over the list it is easy to understand that the buying public are themselves largely to blame in many instances, for there are articles of food produced in Canada that are equal in every respect to those made in any country in the world.

In the baking powder line alone there were 607,904 lbs. imported into Canada, and this means the consumer paid in duty the enormous sum of \$67,000. There are no better goods in the world in this line than magic baking powder, and it is made in a model sanitary up-to-date factory, and can be procured in any first class store at one-half the price the imported article sells for.

Such articles as raisins, currants, and many other things, which do not grow in Canada, or are not produced here, have of necessity to be imported, and the duty paid.

If the consumer would devote a little thought and attention to this subject a large amount of money could and would be saved.—(Canadian Home Journal).

The Lesson of the Locomotive

The puffing and snorting of the construction trains on the K.V.R. line above Naramata is an early morning sound over here that is quite exhilarating to some of us who have been long away from the city's noise. But it conveys no nerve racking worry to our minds—it is rather a mental tonic. As we look across the still blue waters of the lake and note the snowy drift of smoke floating over the quiet benches into the radiantly clear air of an Okanagan morning, we recognize progress. We see a picture of the prosperous future which lies ahead of us, when our fruitlands shall be linked right up to the marts of the world beyond. Of the days when "freight" shall no longer perplex us. When our peaches, dewy and fresh from our sun-kissed orchards, will decorate, before the warm bloom has left their delicate skins, the breakfast tables of Vancouver. Who, in Vancouver will ask for peaches from Oregon when the glowing luscious peaches of Summerland and Naramata are so easily obtainable. Who will wish for California pears when the juicy globes of Summerland Bartlett's lie near at hand, fresh from the bough?

Extracts From The New "Game Act."

A new "Game Act" comes into force throughout this province on the first day of April, 1914. Its provisions are not essentially different from the requirements of the existing act, however. Following are some regulations compiled from the text of the new act:

The open season regulations shall apply to big game, bear and game birds.

Farmers, resident Indians, prospectors and surveyors are allowed under certain conditions to kill game and deer for food.

Hunting at night, and over cleared or enclosed land is prohibited.

The use of pump, repeating or automatic shotguns of any description is prohibited.

Three deer of any one species, or more than four in all, and two hundred and fifty ducks are two items on the bag limit list.

Resident hunters are required to take out licences, good for one year, as follows: Game birds and deer, \$2.50; big game and birds, \$5.00; big game, birds and trapping, \$100. For non-residents the fees will be: fishing, big game and birds, \$100; game birds, \$50, or \$5 per week; bear hunting, \$25; fishing, \$5.

Licences are not transferable.

No license will be granted to any boy under sixteen years of age, excepting at the written request of parents or guardians, who must undertake to see that such a licensee is under constant supervision.

KELOWNA GETS NEW INDUSTRY.

Calgary Company to Locate There.

That a prominent and wealthy canning company, with headquarters in Calgary, would start within a week or two the construction of a large cannery factory in Kelowna, was the important announcement made last week by publicity commissioner, Mr. W. Beaver-Jones, of that city.

Mr. Beaver-Jones said the principals of the firm had been there, and had decided to proceed at once with the erection of a building, and had already secured options on two suitable sites.

It was not their intention continued Mr. Jones to come in as competitors of the existing cannery, as their business was really in a different line, more of the nature of Heinz, of "fifty-seven varieties" fame. The advantage to Kelowna in this was that their work-people, of whom they expected to need at least 100, would be employed all the year round.

The arrangement was so far advanced that contracts had already been made with growers in the district for sufficient tomatoes to cover the next season's output.

They had declared that they were quite ready to pay the farmer \$14 per ton for tomatoes, which was as small a price as the farmer could accept and make any thing out of it.

Canned Goods

THERE is a difference between fresh can'd goods and old stock. Only the newest is best -- having that delicate natural flavor of the fruit or vegetables. Knowing this, we buy only from factories which can their goods IMMEDIATELY AFTER THEY ARE PICKED OR GROWN --- factories which are known to work under conditions of perfect cleanliness.

You may rely absolutely on our goods. We keep a large variety rather than an extensive stock---constant renewal being our policy. Next time you use our canned goods note the fresh, natural taste---the character of them all.

Everything of Business and Social Importance

Transpiring in South Okanagan's Newest Town

Peachland Notes.

Miss Rena Elliott returned from Vernon on Monday afternoon.

Miss Marion Cossar of Penticton was the guest of Miss Olive Ferguson last week.

Miss W. Wheeler spent the weekend at Rainbow Ranch, near Okanagan Centre, returning to town on Monday.

Mrs C W Whyte left for Calgary again last week, having spent a couple of weeks with friends in the Valley.

Mrs J. B. Robinson and Miss Olive Ferguson are delegates to the Sunday School Convention at Armstrong.

A baseball match on Saturday between the High School and Town teams resulted in a victory for Town of one run.

Mrs. R. C. Lipsett spent the week-end with her sister Mrs. Robinson and returned to her home in Summerland on Monday.

Mr. and Mrs. Aides and child of Merritt, spent the week-end in town visiting Mrs Aides' father, Mr. R. H. Hueston and other friends.

Rev. I. W. Williamson and Miss R. Spencer of the B.C. Sunday School Association were in town on Thursday and addressed two meetings on Sunday School work, which were fairly well attended.

Mrs. John Gummow returned on Monday from Ontario, where she spent the winter at her old home in Hagersville, near Hamilton. She enjoyed her visit very much, yet is very glad to be home again.

Word was received in town on Saturday that Mr. Edward Lang and his wife, who left here about a year ago for Paradise, in the Annapolis Valley, N.S. were both dead. Mr. Lang has been an invalid for almost six months and his death was followed by that of his wife, who survived him only two days.

On Friday evening a number of the young people drove to Westbank to a dance in the schoolhouse. The Westbank people failed to materialize and some others thought the evening too beautiful to spend indoors, and so took moonlight drives. Nevertheless those who went there had a jolly time.

Miss McBean, librarian, who has charge of the Reading Room informs us that she is doing very well at the work. All but three of the books missing from the library have been returned. "Little Folks of 1911," "Mary Jane's Pa," and "Dorinda's Birthday" are still missing. Afternoon tea is served every afternoon, and any cookery ordered is supplied.

Some 80,000 rabbit skins have been shipped from one point in Washington State to Paris. They were done up in small packages and sent by parcel post. This is an experiment, and if successful will largely solve the rabbit nuisance problem of that and adjoining states. The new enterprise has created no small amount of interest. Even the Agricultural Department is watching the experiment hoping that they may be able to assist in making a market for that which is a pest in many parts of the west.

Kelowna will have a baseball team this summer.

Sixty carloads of machinery have been ordered for the new refinery to be built near Port Moody by the Imperial Oil Co.

There is a good deal of complaining about "our neighbours' hens" going forward. A general request is about to be issued that chickens be kept penned, or at least at home, during the time when our lawns are being coaxed by the sowing of fresh seed towards the refreshing greenness we like to see later.

Birds and beasts and flowers are all mistaking the gloriously warm March sunshine for May days, and brown butterflies, and the glittering tiny green beetles are out this week, imparting the atmosphere of midsummer to Summerland, as they bask under the cloudless skies. A white line of snowdrops is making a pretty bordering in some of our gardens. Not that snowdrops are May flowers, but they do not bloom so perfectly under the chill winds of the orthodox calendar, March.

Mr. R. H. Steuart met with what might have been a most serious accident while driving home up the worst part of Peach Orchard hill on Tuesday. In some way the harness became entangled and caught the horse around the neck. The terrified animal reared violently, and falling dragged the wagon with him on the edge of the gulch. College Notes.

Prof. Moore is recovering from his illness and has been able to take his classes at the College this week.

Dr. Harrington was confined to his bed with an attack of lumbago last week, but has recovered and is attending his classes again.

Mr. W. E. Armstrong went to Kelowna last week-end and took charge of the Baptist Church services there, Rev. D. J. Welsh being in Summerland.

The regular weekly meeting of the Y.W. and Y.M.C.A. was postponed to Thursday night when Rev. C. H. Daly spoke on "What's the Good of Religion?"

Quite a number of the College students went to the reception given by the Young People's Bible Class in Parkdale Baptist Church on Tuesday night. All report a most enjoyable evening.

The basketball game in the College Gymnasium between the College and Town teams was too one-sided to be interesting. The Town team was handicapped by the new members of the team not having had a chance to practise together. The College boys were shooting much better than usual and got the long end of the 28-7 score. The Summerland "Stiffs" again beat the "Hill Climbers" by 4 to 2, and the College Juniors beat their opponents by 8 to 3 in a good game, full of fast combination and good team work.

THE ORCHARD PLAYERS.

Tour Opens At Easter.

The touring party which was organized principally from Summerland and in whose preparations we have all been much interested, begins rehearsing on Monday next and opens its tour on Easter Monday, April 13th, at Kelowna, with presentations of the famous plays, "David Garrick," and "The Truth." The Players will next visit Summerland, giving a performance at the Empire Hall on Thursday, April 16th. Mrs. Soames has just returned from London, England, with the costumes, wigs, etc., designed in the best houses in the capital, and the beautiful scenery, specially painted, has already arrived. It will be remembered that Mr. Race Dunrobin, Mr. Saunterer, and Mr. and Mrs. Soames are all to be in the cast, with several other actors and actresses whose names are associated with the best traditions of the English stage.

Canadian Fruit Not Well Enough Packed.

Ontario Authority Says There Are Few Whose Work is Good

Interviewed by the Canadian Associated Press last week on the subject of alleged discrimination against Canadian apples among the Covent Garden brokers, and the proposed establishment of a Canadian sale centre in London, Mr. Smith, a Niagara fruit magnate, who has been in close touch with Covent Garden, believes the charge is made against London brokers without the slightest foundation. "No such discrimination against Canadian apples as such exists," Mr. Smith says. "On the contrary, Canadian exporters themselves are responsible for any fall in the demand for their fruit. Their packing, in some cases, is deplorable, and in a small number of cases positively dishonest."

There are only a few shippers,

in fact, whose packing can be described as good, and it is therefore small wonder the London brokers prefer to have their fruit from Oregon and other centres who guarantee packing, and whose goods on arrival are up to the standard.

Describing the Ontario apple as one of the finest, Mr. Smith is convinced that it has a great future in the London markets, if exporters will only co-operate and give a guarantee of packing.

Failing such co-operation, he feels it is a matter of sufficient importance for the Ontario Government to take in hand. This guarantee must be forthcoming. "Let them also see," he added, "that the apples are promptly shipped, and that a man shall be appointed to meet the boat on the other side who will see they are taken to London without the delay that too frequently takes place, and thus obviate as much deterioration as possible."
