

The Summerland Review

DEVOTED TO THE INTERESTS OF SUMMERLAND, PEACHLAND AND NARAMATA

Vol. 6, No. 41

SUMMERLAND, B.C., MAY 8, 1914.

Whole No. 301

Telephone Co. Lays Cable Across Lake

Sister Towns Linked By Direct Wire.

Summerland and Naramata, the sister towns facing each other on Okanagan Lake, and with so much in common, have been more closely united this week through the enterprise of the Summerland Telephone Company. "Brought closer together" we said! Yes, and seemingly in more ways than one. Heretofore the distance from shore to shore has been variously stated at from nearly three to three and one half miles. Now, with the laying of the telephone cable from the new government wharf on the Summerland side to the government wharf at Naramata, they have been brought to within a distance of but little more than two miles, according to Manager Atkins of the Telephone Company.

The laying of the cable, which was successfully accomplished on Tuesday morning, marks a new era in the development of Summerland, and more particularly perhaps Naramata. Previous to the actual connecting of the two towns a telephone line had been run to the extreme outer end of the new wharf and connection with central tested. Connection was then made between this line and the cable end which was dropped overboard attached to a heavy weight.

The placing of the cable was watched with interest by most of the directors of the company and by several interested citizens, as well as a representative of the Review. An ample length of the heavily insulated copper had been placed on a mounted reel on one end of a ferry scow, while at the other was a melted pot of pitch, and through this, which was kept hot, the cable was passed over a pulley on each edge and under a third pulley submerged in the molten pitch. It was put through this process as a further precaution against short circuiting. When all was in readiness and the shore connection complete the scow was moved off under watchful control of the crew of the "Skookum," and without mishap the other side was reached in about an hour and a quarter after 12,036 feet had been "paid out." This means that due allowance is made for "sag" and deviation from the straight line, the distance is not over 11,000 feet, and from shore to shore 12,000 feet, allowing 700 and 300 feet for the two wharves.

Throughout the course the operation was watched from Secretary Hogg's motor launch by the President and several of the directors. Immediately the scow was tied to the Naramata wharf an instrument was connected to the cable end and President Mellor informally inaugurated the new service by calling up the Summerland exchange. Several other members of the party were then given connection with friends on this side, and congratulations were the order of the hour.

WOMEN'S INSTITUTE.

At the meeting of the Women's Institute this afternoon two very interesting topics are for discussion. Mrs. R. C. Lipsitt is giving an address on "The Fireless Cook," a very reasonable instruction, and Mrs. Latimer's (of Penticton) paper on "Hyaline Culture," will be read. Both ladies are experts in the topics individually chosen, and this is exactly filling the aims of the Institute.

BIRTHS.

BOWERING—To Mr. and Mrs. J. H. Bowering, on Wednesday, May 6th, a daughter.

ROBERTSON—To Rev. and Mrs. D. E. D. Robertson, on Thursday, May 7th, a daughter.

HADDRELL—On April 11th, to Mr. and Mrs. Francis G. Haddrell, a daughter. (Correction).

MERRILL—To Mr. and Mrs. J. N. Merrill, on Friday, May 1st, a son.

B. R. Hsley, of Armstrong, Government Veterinary Inspector, was about the district on Wednesday and Thursday.

Would Organize Farmers' Agency.

Co-operation of Lower Mainland Producers. Okanagan Central Agency To Invade Coast Markets This Year.

Vancouver, May 6.—Through the offices of the Vancouver Board of Trade efforts will be directed toward the establishment of a farmer's shipping and selling organization in the Lower Mainland, similar to the Okanagan United Growers. President Jonathan Rogers is at the present time taking the matter up and has had a long conference with Manager R. Robertson of the Okanagan organization. Although the co-operative shipping and selling system has only been in operation in the Okanagan for one season, it has already demonstrated its value, and agriculturists in other parts of the province are anxious to follow the lead set in the Okanagan Valley.

It is intended to have Mr. Robertson discuss the subject at length with the Vancouver Board of Trade in the near future, and he will probably also be asked to address a number of meetings of the farmers of the Lower Mainland.

The Okanagan United Growers, which last year, during its first season, shipped most of its fruit and farm produce to the prairies, will invade the Coast market in 1914.

"There is no reason why Vancouver should not buy the fruit and garden stuffs of the Okanagan and also the farm produce of the Lower Mainland," says Mr. Rogers. "The selling efforts of the Lower Mainland farmers in the past, it appears to me, have been somewhat desultory, and as a result a good deal of garden stuffs which Vancouverites would gladly buy at home have been purchased by the wholesale from agencies across the line."

"If the Lower Mainland farmers united and arranged for large shipments into Vancouver at specified times, the wholesalers would no doubt be able to handle an increasingly large amount of their produce. If the growers were organized there as they are in the Okanagan, they would be able to sign up contracts with the merchants for the delivery of a specified amount of produce on specified days. This is the whole secret of success, it seems to me."

"Now that the Okanagan agency proposes to ship in large quantities into this city, there is no reason why some united action on the part of the Okanagan and Lower Mainland farmers could not be taken in order that the Coast consuming market here might be kept for British Columbia producers."

Mr. Rogers stated that he had received a letter from one of the milk producers' associations offering co-operation in such a united movement on the part of the farm and fruit interests. It is his intention shortly to confer with City Market Clerk McMillan on the subject with a view of ascertaining what further assistance in handling British Columbia fruit and produce can be given at the City Market. Mr. McMillan is at the present time touring the Okanagan.

Development Co. Changes.

Mr. Robinson Resigns Management. New Directors Appointed.

At a recent meeting of the Summerland Development Company, Mr. J. M. Robinson's resignation from the dual position of secretary and manager was accepted. As a director Mr. Robinson has represented in addition to his own interests in the company those of Sir Thomas Shaughnessy and others. So much of his time has been demanded of late by other matters, particularly the Hommings process which he is now introducing into Canada and the United States, and which will require that he be absent from the Valley much of the time, that Mr. J. J. Warren has been appointed to the board to represent Sir Thomas. At the annual meeting Mr. Warren was made president, G. A. Henderson vice-president, C. B. Gordon secretary, J. M. Robinson and Lieutenant-Governor Bulyon directors.

Service in the Baptist Churches on Sunday next will be conducted by Rev. S. Everton.

PAST COLLEGE STUDENT DROWNED.

Very sad news reached the many friends of David Avauche, the youngest son of Rev. F. W. Avauche, and a last year's student at the College, this week. Young Avauche, who is only just over twenty years of age, was canoeing with a friend named Thompson, on a mountain lake near Port Hammond, on Friday last, when in some way their frail craft was overturned, and both young fellows were swept away and drowned. The bodies have not yet been recovered, and search is still being made. The Rev. Avauché was well-known as a Baptist minister at Penticton, and not long ago removed with his family to Port Hammond. David was a popular student of his year, and the news of his sudden death at so early an age has been heard with profound regret both at the College and at Penticton.

Mr. John Thompson was a Port Hammond resident, aged 35, and leaves a widow and family.

School Trustees In Session.

The regular monthly meeting of the Board of School Trustees on Thursday afternoon was devoid of any matters of unusual importance. Dr. J. P. McIntyre presided over a full board.

After the minutes of the last meeting had been read and approved, the Secretary read the report of Inspector A. S. Anstey on his recent visit to the local public schools. The encouraging tone of his report was noted with satisfaction. That part of it which referred to further equipment deemed necessary for the increased efficiency of the schools was discussed in detail, and the Secretary was instructed to procure some maps, books and a little additional furniture which will be apportioned to the various schools. A special effort will be made to have three new flags here in time for Empire Day, in order that due emphasis may be laid on the meaning of this national holiday.

Trustee Shields was authorized to have several matters pertaining to the Town School attended to, including fixing an awning, adjusting windows, and repairing water connections.

A question which came up and occasioned some discussion was the interference with school hours by music lessons which some of the pupils are taking at the College. There has been some difficulty in arranging the hours of these lessons to avoid any clash, but the Board felt that there would be no difficulty in making adjustments after the College closes for the year in about two weeks. A motion was passed that after June 1st no school children be allowed to absent themselves from school during class hours on account of music lessons. This practice came to the notice of Inspector Anstey and he desired that the school work should suffer no interference.

The chairman brought up the question of the additional teacher in the High School who may be needed for next year. This was left over till the next meeting. It cannot be definitely known what the needs of this department will be until the close of the school year. If an additional teacher is found to be necessary, the Secretary intimated that the Board would need to economize on the conveyance contracts to provide for the additional salary and keep within the estimates.

The following accounts were approved:

Teachers' salaries	\$225.00
Carotaking	32.00
J. L. Logie, secretary	10.00
Conveyance Contracts:	
H. Dunham	53.00
H. Briatow	48.00
T. J. Garnett	30.20
J. H. Bowering	36.80
A. G. Munn	24.00
Drug Company	8.45
J. E. Phinney	9.00
Municipality	08.76
G. L. McWilliams	6.25
Summerland Supply Co.	7.00
Total	\$662.06

The meeting adjourned about the middle of the afternoon till the regular June session.

SIR THOMAS SHAUGHNESSY AT THE COAST.

The President of the Canadian Pacific Railway has lately made a trip across the continent. He was at the Coast during the week-end, and was interviewed at Victoria.

Asked whether any new undertakings were contemplated by the railroad, Sir Thomas replied: "We are concentrating all our activities on finishing the extensive work already under way in British Columbia. We have a big program of improvements now proceeding, including the boring of the tunnel under the Selkirk range, the double tracking of the many miles of line through the mountains, and the terminal improvement scheme at Vancouver to complete. Work on all these is progressing very favorably."

The President said that the company hoped to be operating trains on the Hope Mountain route, the Kettle Valley line, by the middle of next year, and that it was expected that a service would be started by way of the Nicola Valley branch and Spence's Bridge early in 1915, to be utilized until the Hope Mountain cut-off is finished.

With reference to the further double-tracking on the British Columbia division, the President said that the C.P.R. would postpone additional work along that line until the Kettle Valley branch was finished. The sections which are being paralleled east and west of Kamloops and west of Revelstoke, are now nearing completion, and are expected to be ready for the heavy midsummer traffic.

"Is the C.P.R. contemplating the electrification of other sections of its line in addition to the Rogers Pass Tunnel and the Rossland-Castlegar branch?" was another question put to Sir Thomas.

"We will probably electrify a few miles each side of the big tunnel, but have not yet decided on any definite policy with regard to the other portions," he answered.

Ladies' Hospital Auxiliary.

There was a good attendance of the ladies of the Refreshment Committee for Victoria Day at a meeting held in the drawing-room of Mrs. R. M. Ross on Tuesday. The ladies are working with the energy and enthusiasm which usually characterizes their methods, at their arduous and self-imposed task of providing refreshments on the sports grounds on that day. The Sports Committee are giving them all possible help in this endeavor to add to the funds for the new hospital, and will fit up the largest tent which has been very kindly promised by Mr. A. B. Elliott as a refreshment booth.

Rifle Association.

There was only a small attendance at the regular shoot last Saturday. A tricky wind helped to keep scoring down. Leading:

	200	500	600	Total
J. Dunsdon	31	32	27	90
G. Barkwill	33	30	27	90
O. Smith	30	31	27	88
G. Loomer	30	27	26	83
F. Nixon	27	28	27	82

The next shoot will be on Saturday week, the 16th inst., when the first stage of the Price Ellison Cup will be shot off.

BUSINESS TRANSFER.

The barber business of the lake-front section changed hands this week, when Mr. F. B. Tully, who has been here for more than a year, transferred the proprietorship to Mr. McCutcheon, who comes from Regina. Mr. McCutcheon entered into possession on Thursday morning. Mr. Tully has made no definite plans for the immediate future, though he may take a trip into the Similkameen soon, and possibly later to California.

Mr. and Mrs. McCutcheon and child have rented the McWilliams house above town and are in residence there.

The arrival of Mr. and Mrs. J. M. Robinson from Toronto has been unavoidably postponed by a week or two and they are not expected before the end of the month.

Okanagan Branch Line Will Be Pushed

Gen. Manager Outlines Work To Be Carried Out by Canadian Northern.

Construction work on the Okanagan-Kamloops branch of the Canadian Northern Pacific Railway system is to be started at an early date. M. H. McLeod, general manager, is now making arrangements for the season's work, which will include the building of the new line into the Okanagan, and the completion of the transcontinental line from the Alberta boundary to Port Mann.

The plans of the C.N.P.R. call for the construction of a line from Kamloops in a general southerly and easterly direction to Armstrong and thence to Vernon, with a spur to the Okanagan Lake, near Okanagan Landing, a branch from Vernon to Lumby, and an extension from Vernon south via Kalamalka Lake to Kelowna. The line at present planned will be 140 miles in length, although it is believed in some quarters that further extensions will be made later on to connect with the other portions of the company's system in the prairie provinces via Lumby, Arrow Lake, Lardeau, and the Columbia Valley to the C.N.R. branch system now under construction in Southern and Central Alberta.

Extensive hydro-electric power schemes have been formulated by the Mackenzie & Mann interests in connection with the Okanagan branch. The company has secured power rights all along the route, it is said, and is arranging to build a power plant at Shuswap Falls, near Lumby, east of Vernon. It is definitely known that the C.N.R. intends to electrify the spur lines from Vernon to Lumby and the extension to Kelowna, and it is generally understood that there is a probability of the entire branch from Kamloops to the Okanagan also being operated eventually as a traction line.

Construction on the unfinished links of the C.N.R.'s main line in British Columbia is to be rushed to completion this year, according to General Manager McLeod's announcement. A large amount of bridge building yet remains to be done at various points along the Thompson and the North Thompson Rivers, but the grading work on the sections north of Kamloops is well advanced, and the entire route is expected to be ready for the rails by the middle of August. Steel has been already laid on 269 miles of the transcontinental, leaving 230 miles yet to be finished. The company has 3000 men at work.

The Local Market.

Vegetables locally grown are now appearing in the stores in addition to potatoes, etc., carried over from last season. The retail prices this week are as follows:—

Radishes, per bunch	5 cents.
Spring onions, "	5 "
Lettuce	5 "
Rhubarb, per lb.	5 "
Dry onions, 5 lbs.	25 "
Potatoes, per sack	\$1.80

BEATEN TO DEATH NEAR VERNON

On suspicion of brutally murdering James Berryman, one of their party whose bruised and battered body was found last Sunday morning some distance out of Vernon, five residents of the upper Valley have been arrested. The men left Lumby for a lumber camp near Cherry Creek last Thursday morning, and all were much under the influence of liquor. According to the evidence given at the inquest none of them seemed to have a very clear idea of what happened during the journey. The deceased's body bore evidence of much kicking and a very bad mauling, several ribs being broken.

Presbyterian services will be held in St. Andrew's church next Sunday morning and in the Methodist Church in the evening. Mr. Daly's morning subject will be "The First Mother," and his evening subject, "The Lovers of the Bible." At the evening service Mr. D. L. Sutherland will sing the Mother's Day Solo entitled "I'll wear a White Flower."

Promising Young Industry.

Early Vegetable Boom.

Within the last two or three months there has sprung up in our midst the nucleus of a flourishing industry promising success for the grower who will work hard and skilfully. If the "Early Vegetable" boom goes on as it has begun this year, Summerland will be looked on as the region of young and fresh and tender vegetables as well as that of luscious fruits—the combination is surely a healthful and attractive one.

Since January, glass houses have gone up on specially prepared sites with surprising rapidity, and where a while ago there were a pioneer few, there are now some eighteen or twenty, sheltering great quantities of fine healthy seedlings, which are now (about the 15th inst.) going out, sturdy young plants, to mature in the open sunshine.

The early vegetable king seems to be the tomato, and then come cabbage, cucumbers, melon, corn, peppers, and the delicate spring onions and lettuce, which last come under the heading of "small vegetables."

GOING AHEAD.

A Review representative spent a profitable hour or so this week inspecting some greenhouses full of flourishing little plants, and in the smell of the warm sweet earth, and the look of the tender fresh green there seemed an atmosphere of promise and prosperity that was most attractive.

An experienced specialist in "Early Vegetables" talked hopefully of the new industry. "Our local soil is first-rate for them," he said, eyeing the neat array of boxed plants proudly, "couldn't be better, and the climate is admirably adapted for their growth, for once planted out about May 15th, the young plants can go ahead in the sunshine without fear of further frosts. Yes, I know there are those who talk of the spring cold nights, but I have no fear of them. Once be sure your plants are far enough on in growth before planting out and chilly nights won't hurt."

In answer to a question as to the financial prospects of the industry the Early Vegetable enthusiast said emphatically: "What are they worth? All the way up from nothing to \$100 an acre. A lot depends on the grower. There's much in the early vegetable industry that you've got to be educated up to, and the amateur can't succeed all at once in it any more than in other trades."

A WORD OF CAUTION.

A word of caution note was sounded for the intending grower by the enthusiast. "Keep the acreage confined," he said, "there's too much of a tendency to crowd out with plants. Give your seedlings lots of room, don't go too strongly at it, lest you overcrowd your plants and prepare a glut for the market. Both will be very bad for the Early Vegetable!"

Discussing the prospects for tomatoes the enthusiast was hopeful. "We've got a canning factory where our surplus is well housed," he said, "Markets? Well, there's always a market for good stuff, and one of the greatest human wants is plenty of young, fresh, green foodstuff in spring."

And the Review representative came away with a backward admiring glance at the orderly rows of green ready for the fields, and hinting at a harvest that will ripen to prosperity.

MORE DIRECTORS.

For the purpose of adding to the directorate the Okanagan United Growers held a special meeting at Vernon on Tuesday. Up to the present the Board of Directors has consisted of eleven members, and the purpose of putting through the new by-law permitting this number to be increased to fifteen is to provide for new local joining the Central having a representative on the Board. Immediately the By-law comes into force a twelfth member to represent the recent addition to the Central will be added to the Board.

Offsetting Competition

The thing for the merchants of this community to do in their own interests is to advertise faithfully, and to make their printed announcements interesting and helpful to those whose trade and favor are desired.

The serious competitors of the retailers of this community are the big stores of the big cities—those that send out catalogues and have mail order departments.

The poorest way to offset this competition is for our local merchants to remain silent. For them not to "speak up" is to give the mail-order houses a better chance to get the business of this community.

A WORD TO THE PUBLIC.

When you send your money out of this community, you enrich the great shops and impoverish this community. Strengthen—not weaken—the merchants of this community. It will be returned to you in the form of better service and better values.

Be Loyal to Your Own Community

Criticizes Methods Of B.C. Farmers

Lecturer From Oregon Says We Are Away Behind The Times.

The following is from a recent issue of the Hillsborough, Oregon, Independent. It contains some interesting impressions by Mr. William Schulmerich of the country through which he lectured in the recent mixed farming campaign of the Farmers' Institutes of B.C.

Lectures were given by Mr. Schulmerich on the dairy industry, and his companions lectured on fruit raising and poultry. Everywhere the lecturers appeared good crowds greeted them, and the farmers seemed eager to learn new ideas. Mr. Schulmerich says he notes a great difference in this respect over that of four years ago, when he gave his first series of lectures under the auspices of the Canadian Government.

The farmers of British Columbia are far behind those of Oregon in dairying and fruit raising, but more advanced in poultry raising. The great trouble with the farmers of that country is that they are far behind in up-to-date methods of farming, and are wasteful of what they raise. At Salmon Arm dairying is well advanced, and good stock is kept, Holsteins being the principal breed.

At Mara, in the Okanagan Valley, Mr. Schulmerich saw no change for the better in farming methods since he was there four years ago. Timothy hay is the principal crop, and this has been raised for so many years in succession that the soil has been depleted. Soil and climatic conditions are good here for the raising of alfalfa, and this crop would put the nitrogen back into the soil. Practically no cattle are kept by the farmers of this section.

Vernon is a town of 3,000, and Mr. Schulmerich found land in this region given over to the raising of fruit, principally apples. Hay is never put under cover, and in consequence about one-eighth is lost by spoiling. As long as the farmers pursue such wasteful methods they will never prosper, says Mr. Schulmerich. From Penticton south the land is occupied by the Indians. This country, which extends for six miles between Okanagan Lake and Dog Lake, is the best part of the country over which Mr. Schulmerich travelled. The Indians raise nothing but a few horses, and their land lies practically idle. From Dog Lake the party of lecturers travelled 10 miles through canyons and over hills, when they came to an open valley that possessed ideal conditions for cattle raising, but only a few head were to be seen. On land that would amply support 12,000 head Mr. Schulmerich saw only about 1,000, and last year's grass was still standing.

The people of the interior districts of British Columbia have been set back many years by the inflation of land values which obsessed the country a few years ago. Thousands of little farms were planted and sold to investors, who imagined they could plant out orchards and in a few years be rolling in wealth. People who bought this land can never realize on it, and will have to give way to others. The residents of those localities realize they have hit the toboggan, and have about reached the bottom. They are awakening from their apathy, and are eager to learn the most advanced methods of fruit raising and dairying. Mr. Schulmerich says they have a fine country, and there is no doubt but that in a few years under the stimulus of an awakening desire for better things they will prosper.

CARE OF MANURE.

Among the farmers visited in the prairie Provinces in the Agricultural Survey work in 1918, not one was found to be giving any care to prevent the waste of barnyard manure. In Ontario, so often called the "Bannér Province," 93 per cent. exercise no special care to prevent waste. In the Maritime Provinces, greater care is taken, about 40 per cent. of the farmers visited having other manure sheds or collars for storing the manure. Ontario may well copy this leaf from the book of the Eastern farmer's operations.

Prevention is better than cure. Prevent loss of the manure already being produced and it will not be so necessary to buy the expensive fertilizers to build up the sick and wornout soil. Prevent the loss of the liquids by using some sort of absorbent. Prevent loss from heating by piling and mixing carefully in flat piles, not too deep, and keep tramped. —F.C.N., in Conservation.

Summerland To The Front.

The Second of a Series of Four Articles on Matters of Vital Local Interest.

Organization is a modern policy. The organized man is a power, he moves shoulder to shoulder with his brother; the unorganized man is merely a part of a mob, with no chart or compass to guide him.

Organization is the spirit of progress, and the spirit of progress is the greatest asset a business or an individual can have.

The more people we can work with and for, the bigger and better you and I are.

We are living in an age of organization. Commercial and industrial enterprises, cities, men are thriving upon it.

We are living in an age of organized interests. Men get together to discuss things, to better conditions. They are doing it in a spirit of progress.

Reciprocity, mutuality, co-operation are combined in this spirit, and the greatest of these is co-operation.

Competition may have been the life of trade once, but it is no longer so. Competition died when the inventive genius of modern engineers devised machines that will manufacture beyond our present economic wants. Competition, then, became suicidal and destructive, and anything that is suicidal is dying—is dead. We have passed through the savage age, the stone, the competitive, and now we are passing into the co-operative. We will not be here so very long, anyway, and soon Death, the kind old nurse, will come and rock us to sleep—and we had better help one another while we may.

Men of Summerland! We are not insane, neither have we any intention of committing suicide. Since it has been clearly shown that reciprocity, mutuality and co-operation represent the spirit of progress, let us adopt them to the full, and marvels will be accomplished in the further advancement of our beloved Summerland and the progress of our fair Valley.

B.C. Water Power Survey.

During the season of 1918 a party of engineers of the Conservation Commission examined the water power situation in the district tributary to the water-sheds of the following rivers in interior British Columbia: Skoena, Klapox, Bulkley, Morice, Telkwa, Zymoetz and Kitsumgallum Rivers.

The season was an unusually wet one, and the country traversed very rough, with consequent poor trails, that in many instances required clearing, so that progress was necessarily slow. In spite of this, twenty-six streams in all were examined and twenty-eight power sites reported upon.

ADOPT CASH SYSTEM.

Beginning May 1st all members of the Retail Merchants' Association of Salmon Arm inaugurated a straight cash system of business. "The action," says the announcement, "has been taken after careful consideration, both in their own interest and that of their customers. The curtailing of credit by wholesale houses, and loss through uncollectable accounts have forced them to this decision, they buy to advantage and sell on a cheaper basis."

RUSH OF IMMIGRANTS.

The opening of navigation on the St. Lawrence has witnessed a great rush of immigrants landing at Quebec city. No less than ten thousand arrived within the first two or three days, five thousand within a period of twenty-four hours. This is a record for the season, but it is probable that even this record will be broken before the end of the month when the Empress and Royal liners will be coming in two at a time with an average of fifteen hundred passengers each.

SUMMERLAND FRUIT UNION

PRICE OF SEEDS IS ADVANCING. Members better buy their supply at once.

Until further notice Warehouse will be closed on Thursday afternoons.

ON HAND:

Whale Oil Soap. Arsenate of Lead.
Black Leaf 40.
Chick Feed. Clover Seed. Feed.

BRING BACK YOUR EMPTY BARRELS.

Growers! Attention!

Having decided to operate the Summerland Cannery for another season, we will require for canning a large supply of

Tomatoes and Soft Fruits

Our plans for the future in the district will largely depend on the support given us this year by the Growers.

Dominion Cannery, Ld.

What Bids Fair

To become the Most Popular Sub-Division yet presented to the People of Summerland is now on the Market

in Half - Acre lots

Five minutes' walk from Post Office, Store, Church, & School.

PRICE & TERMS WITHIN REACH OF EVERYBODY

The Opportunity is exceptional, and you cannot make any mistake in your selection.

LEGAL NOTICES.—Twelve Cents per line for the first insertion; Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES, Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, MAY 8, 1914.

COWS AND BANKS.

SEEING the advantages to be gained by the introduction of milch cows of the best type among the farmers, a number of bankers in the Western States have of late been purchasing Holsteins in the East by the carload, bringing them west and distributing them among the farmers of their districts at cost. The bankers who have been following this practice are taking their payments in monthly instalments from the earnings of the cows, and according to undoubted authority, the payments are being usually promptly met.

This action upon the part of the local bankers reveals a marked difference in the banking methods in the United States and Canada, and at the same time shows perhaps the only advantage the United States' system has over the Canadian banking method. With us our financial institutions are almost invariably national in scope, and our banks are in a position to place their money wherever in this broad Canada it best suits their purpose, and they are in no wise dependent upon, and scarcely even concerned in the industrial or commercial development of any one community. On the other hand the United States banks are almost invariably purely local institutions dependent for their business, their growth, yes—their very existence, upon the development and prosperity of its community. Hence these bankers are always ready to take a venture on anything that is likely to lend itself to the advancement of its territory, whether industrial, agricultural or commercial.

PERIODICAL MEDICAL EXAMINATIONS for everybody, as a means of detecting and checking disease in its earliest stages, were earnestly advocated by Dr. Victor C. Vaughan in an address on the subject of preventive medicine before the seventh annual meeting of the Association of Presidents of Life Insurance Companies. Looking into the future, says Scientific American, the speaker told of the time when "everybody goes to a physician twice a year and undergoes a thorough examination. The result of this examination is stated in a permanent record, and no two consecutive examinations are made by the same physician, in order that a condition overlooked by one may be detected by another. Cases of doubt, or in which there is difference of opinion, are referred to special boards." Dr. Vaughan endorsed the proposal that the insurance companies offer their policy holders free medical re-examination at stated intervals; a plan that would probably benefit the companies financially through the increased longevity of the insured.

BETTER think twice before buying that cow. A London chemist has, according to the Times, perfected a process of making artificial milk, "pure wholesome, and highly nutritious, minus the dangers of the original article from the cow." The manufactured milk is based on casein obtained from the soya bean with fatty acids, sugars and salts added. Bacilli will be introduced to manufacture cheese and butter. It is asserted that the "milk" will be manufactured cheaper than the ordinary milk can be supplied to the consumer.

THE MAN who sits with expectant countenance and idle hands waiting for prosperity to jolt up against him, and ask to be taken in over night, bids fair to be disappointed again. There was never a time yet when prosperity was looking around for furnished rooms in the house of any person on record. Prosperity is not that kind of an animal, and no man should sit with his mouth open waiting for the succulent article to drop into it. He will catch nothing but a few unsatisfactory flies, and perhaps a bad cold. The man who is really desirous of cultivating the acquaintance of the illusive creature will have to put his hustling clothes on, as heretofore, and get up and dust.

A popular noosepaper—the marriage certificate. A plumber's helper—Ten below zero.

"She did wrong to look back, didn't she, Bessie?" "Yes, mamma!" "And what do you think Lot did when his poor wife turned into a pillar of salt?" "I don't know, mamma; I s'pect he wondered where he could get a fresh one." Two little boys were discussing the strength of a bee. "He can pull more'n a fly," said one of them. "Well," said the other, "I dunno how much he can pull; but when he backs up to you and pushes, I guess you'll fall back every time."

Will Count Apples.

Selling Agency To Get Census Of Year's Crop.

Spokane, May 6.—To secure an accurate estimate of this year's apple crop a tree census of the four Pacific Northwestern States, Washington, Oregon, Idaho and Montana, is being made by agents of the North Pacific Distributors, the co-operative Central Selling Agency controlled by the growers, and having headquarters in Spokane.

It is the first time in the history of the North-west fruit industry that such a complete estimate of the crop has been made. Adopting the plan followed in the Yakima Valley, the distributors aim to take three censuses during the season in an effort to secure reliable and approximately correct information as to probable tonnage in the various districts. It has been estimated that the growers last year lost \$250,000 on account of the lack of reliable crop estimates, the early figures last season being chiefly guesswork, and 50 per cent. higher than the actual crop.

Every grower in the branches affiliated with sub-centrals of the distributors will make a detailed estimate on his crop, tree by tree, and variety by variety. The estimate of the growers will not be taken as final, but inspectors will visit every district and work on the basis of acreage and average in former years, and actual conditions on stated areas. These men will be experts, and by a double system of estimating fairly approximate figures can be secured. Using this system of estimating the Yakima Valley Fruit Growers' Association one season estimated within two carloads of its entire tonnage, and another season within 20 carloads.

Methodist services—Sunday being the day now generally known as "Mothers' Sunday," special sermons will be preached. The morning service will be held in the Methodist Church at 10.30 a.m., when the pastor will preach. The evening service will be held in St. Andrew's Church at 7 p.m., and Rev. R. W. Lee's subject will be "The Gentleness Which Makes Great." Solos will be sung by Mrs. George Ross and Mrs. G. W. Morrill.

We greatly regret the misinformation which chronicled the arrival of Mr. W. A. Doyle last week.

Mr. C. J. Thomson, whose return from Australia we announced last week is planning to set sail with his wife and family to make his home in that new land in the early fall.

The approach to the new government wharf has been completed in a substantial and workmanlike manner in keeping with the well-built structure. A considerable length of new sidewalk railing has also been put up there.

A meeting of the Poultry Association will be held next Thursday evening at eight o'clock at Campbell Hall. Matters of much importance to the members will be presented for consideration and it is hoped that all interested will be present.

Rod and Gun for May is out with, as usual, an attractive bill of fare for the sportsman. The Dogs of the North, A Hunting Trip to Pocologan, N.B., The History of the Canoe, Building a Sectional Boat, The Swamp Maiden, The Roughneck Fishing Club, Obnoxious Fishing in Lakes and Ponds, Ideal Trout Fishing in Ontario Waters, are some of the articles worth special mention, while the regular departments are well maintained, and the whole of interest to both Canadian and American sportsmen. W. J. Taylor, Limited, Publisher, Woodstock, Ont., issues this Canadian outdoor magazine.

For some time past illicit liquor selling has been suspected in the railway camps west of Summerland, and at the end of last week Constable Graham brought off a coup that should slacken the energies of the liquor pedlars. A man with a pack on his back came from Naramata and was followed some miles back into the country where he cached his burden of liquor at a spot evidently agreed upon beforehand. Later on a horse and rig driven by a young man from the other side of the lake came along and took up the hidden bottles with the intention of conveying them to the camps for consumption there. Constable Graham intervened, however, and made seizure of the liquor.

Court of Revision

Municipality of Summerland

NOTICE IS HEREBY GIVEN that the first sitting of the Court of Revision for the purpose of hearing complaints against the Assessment for the year 1914, will be held in the Municipal Office, West Summerland, on Thursday, May 14th, at 2 o'clock, p.m.

J. L. LOGIE,
Municipal Clerk.
West Summerland, B.C.,
April 1st, 1914.

a10-m8

Mr. Percy Greenwood returned from his trip to England last week-end.

A new tinsmith, Mr. Garbett, of Vernon, has been engaged by the Borton Heating and Plumbing Company.

A small residence building is being erected on C. W. Haddrell's lot in the Ritchie sub-division north of the Central School for Mr. and Mrs. F. G. Haddrell.

Some slight idea of the extent to which alfalfa is being sown may be gleaned from the fact that the Summerland Fruit Union has distributed among its members fully two and one half tons of alfalfa seed, this exclusive of what has been distributed by the local merchants.

FOUND—Coin bag with keys, etc. Owner may have same upon identification and payment of ad at Review Office. tf

Passing Events: Social, Personal, &c.

Mr. and Mrs. Pares have gone to Princeton to spend a few days.

Miss Alice McDougald of Peachland is on a short visit to her aunt, Mrs. Geo. Grey.

Miss Aitchison left for Ottawa yesterday (Thursday) morning to attend her sister's wedding.

Mr. and Mrs. W. M. Urquhart of Peachland were visitors at the home of Dr. and Mrs. Lipsett this week.

Mr. and Mrs. Bentley and nephew have built a tent house on Professor Campbell's lot for a summer residence.

The regular monthly general meeting of the Board of Trade will be held on Tuesday, May 12, at the office of Secretary McWilliams. m8

Mrs. A. F. Solly, who was expected in from Armstrong on Friday arrived on Monday night's boat and will be in Summerland for a few weeks.

Mr. O. Vaughan lost a somewhat valuable horse on Tuesday from lockjaw. The animal had been ailing for some time, and this rare cause of death is said to be the first case of its kind in the community.

Word has been received that the Sunday boat service on the lake will be resumed on May 31st. It is not yet definitely known whether there is to be a morning and evening call or just the one call in the evening.

The lady amateur who last Saturday had six bites in twenty minutes but failed to land the rainbow beauty who greedily gobbled all her bait, has signified her intention of camping by the creekside till that particular trout succumbs!

Rainbow trout in season! This sporting little fish is giving good fun to local devotees of the rod and line, and Garnett Valley Creeks are teeming with fine fish. Some of "the boys" who went out on Saturday and Sunday last brought home fine catches.

Dr. Spencer's sermon at the Parkdale Baptist Church on Sunday last was a particularly interesting one, and is being much discussed this week by those privileged to listen to it. Dr. Spencer's views on individualism and the community contained much valuable advice.

The arrival of the furniture belonging to the Rev. N. McNaughton, and its disposal at the parsonage indicates the coming very shortly of the new pastor of the Baptist Church. The congregations at both Parkdale and Lakefront are anxiously waiting to welcome him.

The first entire cherry orchard to be planted in Summerland has been put in by Mr. Gabriel Marshall who intends to experiment with a "straight" crop of the very finest cherries. It will be remembered that Mr. Marshall left Summerland for Chilliwack but returned before very long expressing his preference for Summerland "over and over again."

Motoring is the very latest recreation of so many of our citizens that those who are not lucky enough to possess a car are experiencing a feeling of being left! Among those who took motor trips this week were Mr. Geo. Gartrell who "did" Hedley and back in record time, and Mr. and Mrs. Jas. Ritchie who took Dr. Spencer to Kaleden and back on their motor.

E. H. Lock, who has this year completed his graduate course in arts at McMaster University, Toronto, is expected to arrive early next week. He will spend a few days in Summerland before proceeding to his home at Kaleden. Findley McWilliams, who has also completed his arts course, expects to teach at a summer school near Melville, Saskatchewan, for some months, after which he will probably enter a law office at the Coast.

An announcement included in the Ferry Company's ad. In this week's issue is indicative of that enterprising company's eagerness to be of the greatest service to its patrons. Mr. T. H. Riley has been appointed Summerland agent and as he can be found at any time at the office of W. J. Robinson, he will be able to give you any information and transact all business with customers on this side of the lake. By this arrangement parcels may be delivered to Mr. Riley instead of at the wharf end as formerly.

The Fruit Union has just received a carload of No. 1 timothy hay. m8

Mr. Paul R. Brown of Peachland was here on a business trip this week.

Mr. David Carefoot is building a pretty and comfortable bungalow on his lot in Prairie Valley.

Miss Myrtle Clay is spending a fortnight with friends at Penticton, and left home on Friday.

Captain M. W. Coode, who has been spending the winter in England, has returned to his home in Prairie Valley.

Mr. Sidney Lee of Toronto was the week-end guest of Mr. and Mrs. J. Rowley, leaving for home on Monday night's boat.

Carlson & Company's office and warehouse buildings on the lakeshore near the C.P.R. wharf were finally cleared out this week.

Mrs. Lang came in from Peachland on Monday in order to take part in the performance of the "Ladies Aid at Mohawk Cross Roads" on Tuesday night.

Walter and Henry Hewitt, who have been suffering a good deal all winter, are this week, we notice, living out of doors under the shade trees, and much benefitting from the gloriously sunny and warm weather.

Among several who have visited our town lately and inspected orchard property with a view to purchasing and settling here is a Mr. Latmer of Edmonton, who has a most favorable impression of our land.

The "Skookum" made a special trip to Kelowna yesterday for the baseball match in the Ball Park there, Kelowna versus Vernon. A number of our ball enthusiasts went up, and there were also some from Naramata and Penticton. A delightful trip was enjoyed.

Mr. G. Kellington, who has been occupying the Lawson house for the past year has gone out to Saskatchewan to look into business connected with his property there. He will be away until the fall. Mrs. Kellington, who enjoys the Okanagan summer so entirely, is remaining here.

A marvellous transformation has been effected by a prominent citizen with such thoroughness as to pass the knowledge of his own daughter, much less his friends. The Municipal Clerk of the latter part of the week has not been the Mr. J. L. Logie who has been in Summerland for about nine years, but the Mr. Logie of thirty-five years ago, back in Manitoba and Ontario, moustached but beardless.

Our non-resident readers should make a point to carefully analyse our weather report each month, and if possible make a comparison with their own local record. They will soon find that for average warmth, equability, and absence of cold snaps, together with total hours of sunshine and absence of rain, it cannot be equalled anywhere in this broad land.

Miss Grace Hurschman of the College Faculty, received news on Saturday morning of the critical illness of her father at her home, Claresholm, Alberta. She left hurriedly during the course of the morning, proceeding to Westbank by auto, ferrying to Kelowna, and from thence to Stenamos by auto again. A sad home-coming awaited Miss Hurschman, for her father passed away before she could have reached her journey's end.

The popular sale of boots and shoes which has been the chief attraction of the week at both the Supply Company's stores is to be continued for a few days. Though this sale has been taken advantage of by many, yet the stock is being continually replenished from the shelves, and many exceptional bargains are yet to be had. The bargain prices that have been put on the suits for small folks should by all means be taken advantage of.

Mr. L. C. Woodworth, who motored out to Princeton on business last week-end returned on Monday, expressing himself as "delighted to be back in Summerland." Mr. Woodworth's business takes him out and about a good deal lately to different B.C. towns, and he has been impressed with several of the advantages of the home town as compared to many others. His views on Summerland's "law and order" are particularly encouraging and gratifying to listen to.

Mrs. Neve has been a visitor to town this week as the guest of Mrs. Angove.

Mrs. Baker, of Winnipeg arrived on last night's boat on a visit to Mrs. W. J. Robinson.

Manager Dobie of the Okanagan Telephone Company was in Summerland on Wednesday.

Mr. Alfred McLachlan is away for two days' fishing in Garnett Valley with a party of anglers.

Inspector Cunningham is expected in any day now on a visit of inspection to Summerland and Naramata.

Mrs. Adamson, with her children and Miss Harvey, left last night for Nicola Valley to join her husband.

J. R. Conway, travelling salesman for Parkinson & Archibald, of Vancouver, is now using a motor cycle in his journeyings.

A daughter was born to Rev. and Mrs. D. E. D. Robertson yesterday morning. Both mother and child are doing well.

Mr. J. L. Logie spent Wednesday in Penticton on right-of-way business and left for Hope to-day in connection with the same duties.

The fruit crop is said by experts to be exactly a fortnight earlier this year than usual. Cherries are very forward, and apricots are already the size of a small nut.

The regular monthly meeting of the W.C.T.U. will be held in the parlor at the club rooms. Being the annual meeting election of officers will be held for the coming year.

A most successful opening of the Tennis Club for the season came off on Saturday, members turning up in full force. Tea was provided by the ladies, and the occasion was made a social one.

Mr. and Mrs. George Gartrell, Mrs. Gartrell's aunt, Mrs. French, of Vancouver, and Mr. E. J. Rowley motored over to Hedley Saturday, returning again on Tuesday accompanied by Mrs. French of Hedley. The latter is a sister-in-law of Mrs. Gartrell.

Trustee W. A. Caldwell has been limping this week from injuries he sustained in helping to extricate a neighbor's runaway horse from a wire fence in which it had become involved.

The reception given by the Matriculation Class in honor of the Faculty and "Old Students" of the College was a great success on Saturday night. Morton Hall was a scene of gaiety and a long program of music and games was thoroughly enjoyed.

Supt. Mitchell is pushing operations on the municipal irrigation system, cement lining, pipeline laying and other work, with all speed. T. J. McAlpin now has a gang of men under him also engaged on municipal work. This gang is laying a pipeline in the direction of Crescent Beach.

Another shipment was made last Saturday from the stock of the Dominion Cannery, Limited, which has been stored in the Fruit Union warehouse during the winter. This shipment of one carload which was destined for prairie points, leaves but a small quantity of last season's pack yet on hand.

Mr. R. Robertson, of the Okanagan United Growers, arrived here last night, and after attending to some routine business left on the noon ferry for Penticton, where he will attend a meeting of the local board to-night. Mrs. Robertson and their three children are accompanying Mr. Robertson.

A fine residence in the centre of Penticton and the property of the K.V.R., and occupied by a Mr. Jermyn and his family, was burnt down on Wednesday night, and everything in it entirely destroyed. The fire took place half-an-hour before mid-night while the family were out spending the evening.

The professional broncho buster of West Summerland undertook to hitch up a quiet horse—quiet as a sheep in fact—last Saturday. He went off very nicely but as soon as he started talking Scotch the horse became restive and bolted off to make his complaint at the Municipal Office. There he stopped and refused to go any further. The broncho buster had finally to unhitch and unharness this quiet horse before it would return to the stable.

Prohibition Order Applies To Chinese.

Asiaties of all races will be barred from entry into Canada under a new interpretation of Order-in-Council No. 897, details of which have been made public.

The new interpretation has made the Order-in-Council applicable to Chinese, Japanese and Hindus and will become effective on May 31st.

It will be remembered that the entry of laborers, skilled and unskilled, and artizans into British Columbia was prohibited for a period of six months. At the expiration of this time the order was extended for another six months, or until September 30. This order keeps out all labor under the heads named, both white and yellow, but there was some misapprehension as to how it would affect Chinese who were prepared to pay the head tax of five hundred dollars.

Under the new ruling Chinese will not be allowed in at all except certain classes, such as tourists, students or merchants. The bars will be rigidly enforced against Chinese, Japanese and Hindus as against white labor.

The Hindus are already barred under Orders-in-Council 23 and 24, which respectively call for a direct route and the possession of \$250. The new ruling will strengthen these Orders-in-Council and a shipload of Hindus, coming on a chartered vessel direct from India and each having the money qualification, would be kept out of the country as classes of labor prohibited.

A GOOD INVESTMENT.

"No investment pays better than a purchase of space in a live local newspaper. This is another fact which has not been disputed up to date. These hard facts ought to count with sensible people. Choose a local newspaper that is wide awake, progressive, up-to-date, has a healthy circulation, and enjoys the confidence of the people. Prudent buyers are constantly on the lookout for enterprising merchants. Enterprising merchants are the ones who advertise. The ones who advertise are the ones who sell the goods. No one now on earth will dispute this fact. It is hard to get around cold facts."

New Zealand pears are now on sale in Vancouver. They run from 40 to 60 to the box, and are selling wholesale at \$2.50. They show splendid quality.

Peachland Notes.

Miss Alice McDougald was a passenger to Summerland on Monday's boat.

Mr. Jno. McLaughlan spent the week-end in Vernon, returning home on Monday evening.

Mrs. D. Kirkby and friend of Pentiction, were the guests of Mr. and Mrs. McLaughlan on Friday.

Mr. Powell, student, will conduct services in St. Margaret's church during the summer months.

Mrs. George Phillips will occupy the house of Mrs. Elliott, sen., on the lakefront during the absence of her husband as a traveller for a Coast firm.

Mrs. Hugh McDougall and Miss Gertrude Powell attended the W.C.T.U. Convention in Summerland last week as delegates from the local Union.

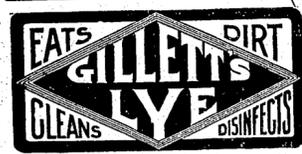

Mrs. A. W. Miller and Mrs. Seaton attended the entertainment by the Ladies' Aid in Summerland on Tuesday evening, and report an excellent time.

Mr. James Barber, of Salmon Arm, who is owner of a fruit lot in town which has not yet reached the bearing stage, spent the greater part of last week here looking after it.

Messrs. George Phillips and Charles Somerville spent Friday in Kelowna, motoring to the ferry landing and back. The following morning Mr. and Mrs. Phillips left for the Coast.

Friday evening another surprise party was given by the young people at the home of Mr. and Mrs. Thompson Elliott, when, notwithstanding the warmth, dancing was kept up until the "wee sma' hoors ayont the twal."

On Monday evening Mrs. George Lang went down to Summerland, to be present at a rehearsal of "The Mohawk Cross Roads Ladies' Aid," in which she acted the all important part of hostess, at the repeat performance on Tuesday evening.

There are 40,000 known varieties of flies in the world. A single house fly lays 120 eggs in excrement, rotten refuse, etc. The maggots hatch in six or eight hours, and the maggots become flies in five or six days. The life cycle of a fly in midsummer is ten days. So, a single fly may have 102 children, 14,400 grandchildren, 1,728,000 great grandchildren, 207,360,000 great great grandchildren within two months. The moral is, swat the fly, and in the fourth generation you have swatted over 200 million of it.

The Unity Club.

The series of Ten Cent Teas in aid of the Club funds have been a great success, socially and financially, and the ladies of the town have taken up the idea heartily. Mrs. Fred Simpson held a Tea at her home on the benches this week, and Mrs. R. C. Robinson was another successful hostess at the Hotel Naramata. There is a business meeting this afternoon at the Club, Mrs. Julius Block being the hostess, to consider arrangements for the forthcoming concert. Mr. Fred Manchester is getting up a most promising program and this week's rehearsal betokened a great success.

The Farmers' Institute.

At tonight's meeting of the Farmers' Institute there is much interesting business to discuss, as the Institute is handling some important questions lately. Preliminary investigations are being made in the matter of the public irrigation law which is under consideration here. Local conditions are being studied with a view to localizing the operation of the law for Naramata.

Whether it will be possible to have Naramata created a Pound District is another matter being handled by the Institute, which is doing very valuable work for this community.

Work is now over for Prowse's No. 2 camp which dissolved this week. Mr. and Mrs. Prowse are in town for a few days.

One pile of garbage left undisturbed a few hours in the summer time will be a roosting place for flies that can carry disease germs into scores of homes. A few disease germs properly placed by a fly can cause illness which nets the doctor, the hospital and possibly the undertaker a big sum. A few cents expended in the first place would have prevented the infection. In sanitation is expensive all right; but sometimes a lot of people fail to realize it even when the argument is so conclusive.

Shiloh 25¢

"The Family Friend for 40 years." A never failing relief for Croup and Whooping Cough

Current Events — OF — Town & District

Mrs. Mitchell has been the guest of her daughter Bessie, at Pentiction during the week.

The Misses Bena and Grace Logie spent the week-end with their sister, Mrs. R. C. Robinson.

Mr. and Mrs. James Hayward have gone to Peachland and will spend the summer there.

Mr. D. F. Broome has left Mr. Brook's office and is now busy surveying up at the summit.

Two more residents who have removed lately are Mr. and Mrs. V. L. Watson, who have just gone to Hope.

Miss Maud McLaren was the guest at lunch of Mr. and Mrs. R. C. Robinson at the Hotel Naramata on Wednesday.

Miss Blanchard, who has been in Naramata for a year, leaves tomorrow morning for her home in the Old Country.

Mr. Harold Endacott went out on Wednesday morning's boat and will have a fortnight's trip to Calgary and on to Saskatchewan.

Dr. and Mrs. W. L. Robinson, who are spending their honeymoon in California are expected in at the end of this month and will reside at the Hotel Naramata.

Mrs. Bain and her two children have left for Fort George where their future home is to be, Mr. Bain coming in this week to take his family on the journey.

Quite a ferryload of churchgoers crossed the lake to Summerland on Sunday night. This pleasant little evening trip will be much appreciated during the summer months.

Mr. and Mrs. McKay have returned to their own house for the summer. Mrs. Burnett who has been renting it for some months has moved into the Hotel cottage which she occupied last year.

Tony Manzini, who came back to Naramata for a fortnight's holiday after the closing of the Mission Hospital was called at the end of two days to Glacier to assist in hospital work for the C.P.R. there.

The picnic season has begun and the sunny beach has been the scene of several very pleasant little parties lately. Mrs. and Miss D. Harrington and Mrs. Clay picnicked on our beach on Wednesday last enjoying Naramata sunshine.

An interesting and important contract has been accepted by Mr. Mark Manchester, who went out on Thursday morning's boat, for a journey to the Yukon. Mr. Manchester has the contract for six months to do all the electric repair work for the Yukon Gold Mining Company at Dawson City.

Fishing is in full swing, and judging from results there is some famous sport being enjoyed by local anglers. Very lucky was Mr. E. H. Hancock, who landed a fine ten pound salmon trout this week. The beauty had a good fight for its freedom and gave its captor quite a little trouble.

Capital promise for the fruit crops is hidden in the healthy beauty of the trees this spring, and there is every indication of an exceptional harvest. A frost on Monday night is suspected of having nipped some blossoming strawberries up on the benches, but the damage is inconsiderable, and the small fruit bushes are looking excellent.

It is possible now to drive right through the famous tunnel from end to end, and this notable piece of work is practically completed. The men are coming down, and the closing of the camp with the reputation for such splendid hospitality will be a great loss to our pleasure-loving residents, who have had such good times up there.

How did the Fire Scare originate? Hereby hangs a tale, for it was on the Summerland side that a blaze and smother was seen and hastily interpreted into "Syndica Hotel on Fire," by a Naramattan who was visiting across the Inko. A telephone message or two, and a rumor spread for which the only foundation was a patch of scrub being burnt on the Naramata Inko shore!

A New Department

NARAMATA is now to have a long-felt want supplied. Our lady-folk can henceforth have all their needs in the way of Staple Dry Goods,

Ladies' and Children's Underwear, Hosiery, Shirt Waists, Neckwear, &c.

supplied right at home and at reasonable prices. Goods not in stock will be gladly procured at lowest figures. Call and inspect our stock, and place a trial order.

Beginning Saturday, the 25th, ICE CREAM and a full line of SOFT DRINKS will be on sale in the Drug Department. Neilson's and other high-class Candies a specialty.

A Spring Flower Garden

Nature has endowed her early Spring flowers with a delicacy of coloring and sweetness of perfume which is withheld from her more gorgeous subjects of Summer and Autumn. A beautiful Spring garden is a joy to its possessor, and a treat to all who behold it.

Nearly all these early Spring flowers are perennials, and will stand for years. We grow these by the tens of thousands, and every plant we send out is a model of good cultivation; all well set with flower buds and shall give a wealth of bloom in a few weeks.

The following we recommend for immediate planting: Wallflowers in six choice varieties, every plant covered with bloom buds—50 cents per dozen. Arabis, single, double and variegated. Primroses, Polyanthus, Cowslips, Auriculas, Old Double Daisies, Violas, Pansies, Perennial Candytufts, Armerias, Doronicums, Primulas, etc. These may all be had at \$1. per dozen.

For other and also rarer Hardy Spring Flowers see our catalogue, or better, come and see our Nurseries at Royal and let us show you them. Catalogue mailed free on application.

Given Passport But Baggage Stolen.

Nelson O'Shaughnessy On The Golf Links.

Mexicans did not even except Nelson O'Shaughnessy, former American Charge at Mexico City, in preying on American property after the fall of Vera Cruz. Nearly all of the baggage of Mr. and Mrs. O'Shaughnessy was stolen from the special train Huerta provided for the Charge and his party to transport them to Vera Cruz after he had been handed his passports. The former Charge arrived at New Orleans on the gunboat "Yankton," and early in the day he and Mrs. O'Shaughnessy began a shopping tour to replenish their wardrobes.

Good Food need not be dear food. Plain, healthy groceries that are one hundred per cent. pure—the only kind we find it worth while to sell—are of more value than all the fancy feeding schemes you hear so much about. Give your children the kind of groceries we keep. We love the kiddies and you may rest assured that a child may eat any food article in this store with every advantage to his health.

Good food makes healthy children. Let us show you what we have done to help along the pure food movement. Come in to-day and compare our prices and quality with any other store in this country.

Fumigation Costs Have Been Reduced

Principal Chemical Used in Fumigation Work To Be Admitted Duty Free.

Advice from Ottawa to the Fruit Inspection Department at Vancouver announces that the Minister of Customs has placed carbon bisulphide on the free list. This change has been made at the request of Hon. Martin Burrell, Minister of Agriculture, on representations made to him by Mr. Thomas Cunningham, fruit inspector. Carbon bisulphide, which is not made by any chemical manufacturer in the Dominion, is largely used for fumigation purposes. Costing about 20 cents a pound and carrying a duty of 27½ per cent., the bill for the Vancouver fumigating station, where many tons of the chemical are used every year, has been very large, and no good purpose was served by maintaining the duty. Now the department will be able to use the money thus saved in extending its work for the protection of the residents of the province from insect pests.

It may not be generally known that every grain of imported rice, corn, grain and all nuts, peas and beans brought into the province undergoes treatment at the fumigating station before going to the wholesalers. The rice, which comes from Japan, China and Rangoon, is liable to harbor a very destructive weevil, and the grains a destructive moth known popularly as the grain moth. Treatment with the carbon bisulphide fumes completely kills all insect life, without in any way injuring the foodstuffs thus treated.

If the rice weevil or grain moth were to get into the stocks of any of the grain merchants or large stores, nothing but the vacation of the stores and complete fumigation of the premises could prevent it from carrying on its work of destruction.

Fruit Inspector Cunningham, with the placing of carbon bisulphide on the free list will carry on fumigation methods in all railway cars which are suspected of having insect infection as a result of carrying grain and farm produce.

The Dominion Government plans to exhibit samples of British Columbia fruit at the Panama-Pacific Exposition at San Francisco next year. Mr. W. A. Despard of the exhibition branch of the federal administration, has been directed to secure suitable specimens, and to this end will establish quarters in Vancouver where he will select the best samples as they appear on the market.

The Vernon Jubilee Hospital which has been facing a deficit of \$10,000 is being given a clean slate. \$5,000 was voted by the ratepayers towards clearing up the institution's debts and a like amount is being contributed by the provincial government.

Some women agree with their husbands—in name only.

Larger Business

If the business of any retailer in this community is to grow bigger in the years to come, it will not be a matter of accident or due to an increase of population only—it will be the result of intelligence added to energy, plus **ADVERTISING**

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

Successful Convention.

W.C.T.U. Gathering Here Largest Ever Held in Valley.

(Contributed)

The success of the recent W.C.T.U. convention was greatly due to the hearty co-operation of all who so kindly assisted in the work. All the meetings were well attended, and there were interesting and profitable discussions throughout the day on questions financial, social and educational. Perhaps the keynote in regard to our work was sounded by Mrs. Daly on Friday morning, in her address on "Scientific Temperance Teaching in Schools." After a lengthy discussion of this subject, a resolution was passed to the effect that a letter be sent from the Convention to the Provincial Superintendent of Education, asking him to use his influence to have the teaching of scientific temperance made compulsory in all grades of the public schools, and that it be placed alongside the other subjects for examination. At present it is taught only in the entrance class, and there is no examination.

A resolution was also passed that a letter be sent to Colonel Sam Hughes, expressing our appreciation of the fact that he had used his influence to close up the bar in the armories in Vernon.

On Thursday evening an outstanding thought of Dr. Spencer's address was that men and women should co-operate in different lines of work, including religious, social and political.

On Friday evening Rev. C. H. Daly occupied the chair. After an opening hymn the chairman led in prayer. Miss Harrington then gave a delightful violin selection and Miss Skillen a very realistic reading. Miss Harrington very kindly played again in the absence of Mrs. Ross who could not be present to sing. Miss Hirschman presiding at the piano.

Dr. Spencer's lecture was very comprehensive. He appeals for a "Banish the Bar" crusade in British Columbia, such as is taking place in the eastern and prairie provinces. The speaker showed that the bar is bad for business and it is the chief hindrance to the coming of the kingdom of heaven. He states that the failure to secure temperance laws has been due to a lack of co-operation among the churches and the different temperance societies.

The district officers elected were: Mrs. Docherty, Vernon, President; Mrs. Fenner, Summerland; Vice-President; Mrs. Millie, Kelowna, Corresponding Secretary; Mrs. Ball, Armstrong, Treasurer. The recording secretary is to be secured in the town where the convention meets, which next year is to be Armstrong.

The members of the local union wish to express their gratitude for the use of the different buildings, and to all friends who so kindly helped in different ways.

Mr. F. D. COOPER,

Peach Orchard, Summerland

"Orchard Players" Making Good.

Numerous exceedingly complimentary press comments which have been appearing recently in the Coast papers show with what favor the Orchard Players are being received by the theatre goers of the cities of that section. The following is taken from the Vancouver Sun of April 30th:—

"The Truth" is not always so hard to get at as in the case of Mrs. Warder, whose love of romance, inherited from her father, and fostered by him through her girlhood, threatens in the end to ruin her married happiness. With the best intentions in the world Becky lies her way cheerfully through life, hoodwinking "without malice or evil intent" her worshipping and extremely honest husband. There are plots and counter-plots, humor and pathos; but in the end Mrs. Warder begins to believe that "The Truth" is not a thing to trifle with, and the close is a happy one.

In the Orchard Players of B.C. Co., the character of Becky is charmingly portrayed by Miss Dora Rignold; while the frank, deep-voiced Tom receives fine treatment at the hands of Mr. William Sauter. Becky's gambling, inventive old father is in the capable hands of Mr. A. L. Soames; with Mrs. Arthur Elwyn as the justly jealous Mrs. Lindon, and Mr. L. Race Dunrobin as the smiling villain, Miss Mary Dykes appealed more to the audience than to Mr. Bolond, and the minor parts are well taken. "The Truth" will be played again this evening; with "David Garrick" on Saturday. The company is a thoroughly all-round good one, and the plot is refreshingly clean.

"AT THE MOHAWK CROSS ROADS"

Repeat Performance.

The "repeated by request" performance of "The Ladies' Aid Old Time Meeting" by the ladies of St. Andrew's Church was most successful at the Empire Hall on Tuesday. Many who had been unable to attend the first rendering of this merry and prettily staged farce thoroughly enjoyed themselves. "At The Mohawk Cross Roads," as "put on" entirely by a band of ladies whose acquaintance with stage lore and theatrical affairs is no doubt purely academic, is a delightfully clever little affair. The stage of the Empire Hall has seldom been so daintily furnished and picturesque, and the costumes of all the many ladies taking part made a charming tableau of rich color.

Several new "quips and cranks" of local meaning have been added, and created much merriment. With diffidence, however, we beg the privilege of honest press criticism, and suggest that one or two personal "local hits" were just a little too smart to be kindly or in the best possible taste. We venture to think that the originator of at least one purely personal hit could not have been in possession of some painful facts.

The appearance of the "Old Time" ladies in their quaint hooped gowns, bonnets and curls on Shaughnessy Avenue, created quite a stir early in the afternoon, and was a pretty advertisement.

A SCHOOLBOY'S COMPOSITION ON GIRLS.

Girls is the only folks that has their own way every time. Girls is of several thousand kinds, and sometimes one girl can be like several thousand other girls if she wants to do anything. Girls is alike one way, and they are all like cats. If you rub 'em the right way of the hair they'll purr and look sweet at you, but if you rub 'em the wrong way or stop on their tails they'll claw you. So long as you let a girl have her own way she's nice and sweet, but just cross her and she'll spit at you worse nor a cat. Girls is also like mules. If a girl don't want to bellow anything you can't make her. If she knows it's so she won't say so. Brother George says he doesn't like big girls but he does like little ones, and when I saw him kissing Jennie Jones last Sunday, and told him of what he'd said, he said he was biting her 'cause he didn't like her. I think he hurt her, for she hollered and run, and there was a big red spot all over both of her cheeks. This is all I know about girls, and father says the less I know about them the better off I am.

Popular Bargain SALE

will be continued a few days longer.

Boots & Shoes for Boys, Youths, Children, also Misses.

In large quantity and great variety. Regular value - from \$1.50 to \$2.75.
