SUMMERLAND, B.C., JULY 31, 1914.

Whole No. 313

Discusses Valley Problems.

Semi-Annual Session of Executive of Associated Boards of Trade Held in Summerland.

The executive of the Associated Boards of Trade held an interim session here last Monday evening. It is the custom for the executive to meet some time between the annual gatherings of the Associated Boards to further any business and attend to correspondence and other accumulated matters needing immediate attention.

There were present at Monday's meeting: President, J. F. Pringle of Armstrong; Secretary, C. Creed of the same town; J. C. Dufresne and E. W. Dynes of Penticton; S. T. Elliott of Kelowna, beside a number of members of the local Board which was officially represented by its President and Secretary, Messrs. R. H. English and C. A. McWilliams.

Much of the evening was occupied with following up resolutions that had been made at the annual session and the accumulated correspondence dealing with them. It would seem that so far many of these resolutions had failed to bring the desired results, but a number of the most important ones had either been effective or satisfactory progress was reported.

A resolution emanating from Penticton had asked that a royal commission be appointed to settle the question as to whether there existed on the prairies a combine in restraint of trade as pertained to the marketing of fruit. This will now be taken up with the recently appointed Fruit Commissioner.

The Oriental question had been taken up with the Provincial authorities, who advised that they felt they were unable to take action as this was a matter for Ottawa to deal with.

A request from the Associated Boards asking that legislation be brought before the Provincial House making it compulsory for one telephone system to give connection with another brought forth the information that the Provincial statutes already provided for the enforcement of such connection, and that the situation was also dealt with in chapter 61 of the Statutes of Canada 1908. It would seem from the report given at Monday's meeting that it were only necessary for the company or telephone system requiring connection to state its case to the railway commission when connection would be ordered.

The long standing question of the building of the railway link between Proctor and Kootenay Landing which would give complete connection with the prairie via Crow's Nest, was again considered. It will be remembered by those following this subject that a further two years' extension for the commencement of the building of this line had been given by the C.P.R. This extension expires within a few months and it is intended to unite forces with other Boards of Trade of the province to demand the building of this very important link, necessary to an all rail run across Southern B.C.

A discussion of the Canadian Northern Pacific tax exemptions in the northern towns revealed the fact that taxes had been collected in at least one city, while in another they had not yet been successful in collecting the levy.

But little progress has yet been made toward bringing about the daylight saving movement in this province. It was proposed to keep this subject alive until the desired object is realized.

D. H. Watson asked and was given permission to suggest a resolution to the effect that the provincial authorities be requested to establish a quarantine against the importation of live hogs into this province. The introduction of this subject caused much discussion, and resulted in a request that a carefully prepared resolution be submitted by the Summerland Board of Trade at the next annual meeting of the Associated Boards, which no doubt will be done.

Before the meeting was brought to a close Mr H. C. Mellor treated all present to some delicious ripe peaches, which were greatly enjoyed

C. O. F. CHURCH SERVICE.

"Brotherhood" was the strong keynote of an eloquent sermon delivered with telling force by Rev. C. H. Daly in St. Andrew's Presbyterian Church on Sunday evening last. The occasion was a service attended by the local court of the Canadian Order of Foresters. More than a score of members were led into the church by Chief Ranger W. C. W. Fosbery, occupying the front pews in the centre of the church body. There was also in attendance an unusually large congregation, who participated heartily in the evening's worship.

The service was made bright with special music, consisting of a solo by Mrs G. W. Morfitt, entitled, "The Children's Home," one also from Mrs G. N. Gartrell, "One Sweetly Solemn Thought," and an anthem, "Come Unto Me," by the choir.

Message To Fruit Growers.

Growers are urgently requested to exercise the greatest care during the process of packing apricots, peaches or plums, that no wormy fruit gets into the boxes.

You cannot afford to risk the reputation of Okanagan fruit on the open market, which you certainly will do if you include wormy apricots, peaches or plums in the product you have to offer the public.

If you expect good money for your fruit you must supply good fruit for the money, or the customer will refuse to take it, and turn a willing ear to your competitor. Another risk is the fact that one wormy peach will often cause the whole contents of the box to rot before or very soon after it gets to its destination.

For these reasons the government inspectors have received instructions to carefully inspect fruit going out, and if the boxes contain wormy fruit, the shipper must be compelled to repack before he can be allowed to send it out.

The fruit is liable also to be seized by inspectors at its destination if it should escape inspection before leaving the shipping point.

W. H. LYNE,
Assistant Inspector of Fruit Pests.

FOURTH DOMINION CONFERENCE OF FRUIT GROWERS.

The Minister of Agriculture has called a conference composed of delegates from the various provincial fruit growers' associations to meet in Grimsby, September 2nd, 3rd and 4th, to discuss subjects of vital interest to the fruit growing industry of Canada. It is expected that certain standards of packages, grades of fruit and methods of transportation, etc., will be recommended for adoption for the whole country. The object of the conference is largely that the Minister may come in direct contact with the representatives of the fruit growers and shippers, and discuss with them methods whereby the fruit growing industry may be developed in the best possible way.

Delegates have been appointed from this province as follows: W. C. Ricardo, Vernon; W. S. Foggo, Vernon; Jas. Rooke, Grand Forks; R. M. Winslow, Victoria; John E. Reekie, Kelowna; J. C. Metcalfe, Hammond; Thos. Abriel, Nakusp; Representative of Okanagan United Growers (not yet named).

ed by all, particularly the visitors from the more northern towns, following which Secretary Creed moved a vote of thanks to their hosts and to the Secretary and others who entertained several of the party during the day, which entertainment included a drive over the district. Mr Creed expressed himself as surprised with the scope of country included in this district. This motion was seconded by President Pringle, who supported Mr Creed's remarks and declared his delight with what he had seen here. The visitors had taken the opportunity to inspect the local telephone plant, and congratulated Summerland on its perseverance in the establishing of such an excellent telephone system as they had soon here.

Mr R. H. English, President of the Summerland Board, replied in a few appropriate remarks.

What The Government Is Doing For Agriculture.

Hon. Martin Burrell, Minister Of Agriculture, Explains To Constituents Work of His Department. Touches Upon Great National Questions.

Refreshingly free from any political significance, not being inspired by the fervid heat of an election campaign, the address of Hon. Martin Burrell to his constituents of this district, delivered in Empire Hall on Wednesday evening, was nevertheless illuminating not only in respect to the work of Mr. Burrell's own federal portfolio of Agriculture since it has been under his direction, but also on several issues of national importance. The Minister did not speak at any great length, confining his remarks to about an hour, but it is safe to say that he could have spoken for a great deal longer, and still held the closest attention of his hearers, so seldom it is that we are afforded such a clear-cut, authoritative and yet unbiassed outline of the progress of national affairs.

Empire Hall was by no means crowded, though the biggest part of the building was occupied. The presence of a good number of ladies scattered through the audience was a pleasing feature of the gathering which some of the speakers commented on.

CHAIRMAN'S REMARKS.

Mr. J. A. Kirk, president of the local Liberal-Conservative Association, occupied the chair, and with him on the platform were Messrs: J. M. Robinson, Hector Sutherland, Chas. H. Cordy and John Tait.

Mr. Kirk introduced Mr. Burrell in an able speech. He recalled the origin of the Liberal-Conservative party at the time of Confederation, and submitted that the party stood true to-day, in power, to its best traditions. Mr. Kirk also made reference to the number of ladies present, indicative of the interest the women of the country were taking in the conduct of the nation's affairs.

The chairman welcomed the Liberals present, assuring them that the benefit of their criticism of the government's actions was appreciated. This was the first time that the people of Summerland had the honor of a visit from their representative since he was elected in 1911. The Borden government was the first in Canada to recognize fully the value of the Department of Agriculture, and in so doing had fallen in line with a world-wide movement. Mr. Borden had selected Mr. Burrell as the best man to head that department. It was a case of the office seeking the man, and political friend and foe alike agreed that he has made good.

The speaker mentioned the Hill-born demonstration station and the experimental farm soon to be established at Trout Creek as results of the Minister's efforts. Mr. Kirk suggested that now the minister was with us it would be a good time to state some of the district's needs, suggesting a bulletin from the Department on the drying of fruit and urged the importance of extending the government telephone service to Carmi, thus giving connection with the Boundary and Kootenay districts, and with the Alberta system through Crow's Nest.

MINISTER WELL RECEIVED.

Hon. Martin Burrell was greeted with prolonged applause when he arose to speak, and expressed gratitude for the kind words of the chairman, and pleasure at again being in the Okanagan and meeting his friends, whether his political supporters or not. As there was no political campaign before them he was not looking for votes now, and had no desire to make a political speech. The Minister felt that he was representing the whole of the people of his constituency, whether his supporters or not, and that all, irrespective of party should state their needs.

THE C.N.R. DEAL.

In a few concise and well chosen phrases the Minister laid before his hearers a clear statement of the

railway question which recently occupied so much attention of Parliament and people. As was well known, business conditions have resulted in a shrinkage of revenues, causing need to curtail expenditures; and when Parliament was wrestling with matters of ordinary expenditure and revenue, along came this great question of assisting the completion of the Canadian Northern Railway. The question was whether to assist or to let the heads "paddle their own canoe." There would not have been as much objection to assisting had not the C.N.R. been linked with the names of two men. It was, however, a national institution, and if allowed to go into default, there would have been a suspension of all work, and a black eye would have been given all Canada, because of tremendous losses to bond holders.

Mr. Burrell contended that the Government had struck the hardest bargain ever made by any Canadian government, and had fully safeguarded the people's interests. Some outstanding features of this were the cutting down of the common stock held by Mackenzie & Mann, Ltd., from one hundred and sixty millions to one hundred millions, of which forty millions had been passed over to the people of Canada. Further Mackenzie & Mann had been required to put every available security against the Government's guarantee of the railway bonds. If there was now a default the Government was in a position to dismiss the directors, appoint new directors and run the railway for the people. To have the railroad taken over would have caused a serious interruption, and would have been a tremendous undertaking to finance. It was deemed better to give the promoters the chance to succeed. If they don't, then the Government can take it over and the people will have forty million dollars of common stock, and will be in every way in a much better position than had the property been taken over now. Mr. Burrell was confident that as trustees of the people the Government had handled a difficult matter in a satisfactory manner.

HOW AGRICULTURE HAS BEEN FOSTERED.

Of perhaps greatest interest were the Minister's remarks bearing more directly on his department. He felt that he might fairly claim that the present Government, as stated by Mr. Kirk, was the first to fully recognize the Department of Agriculture. Its value was in a peculiar way recognized by Mr. Borden, who had announced that if elected, material assistance would be given to the various provinces. The pledge had been fulfilled in a manner somewhat novel. When Mr. Borden attained power he immediately began to make his promise good, and asked the speaker to bring down a bill to further agriculture. Mr. Burrell felt it would be impossible to form a bill until he knew more of the conditions throughout the country, and proposed that he be permitted to appoint an expert to make a careful investigation, and that in the meantime half a million dollars annually be apportioned to the provinces in aid of agriculture. Mr. Burrell stated that he took time to look around to find the needed man, and found him at last in the person of Dr. C. C. James. In selecting Dr. James, the Minister stated that he had come in for some severe criticism even from his own colleagues, as Dr. James was said to be a Liberal. He did not think this was a matter of politics, and knew that Dr. James' heart was in the work. He had proven the wisdom of the Minister's choice and has the respect of all from coast to coast. Dr. James finally brought in a lengthy report which was carefully discussed from time to time resulting in the "Agricultural Instructions Act," an expenditure of ten million dollars spread over a period of ten years. This

(Continued on page 2.)

INSTITUTE FLOWER SHOW.

A meeting of the executive of the Women's Institute was held at the home of the president, Mrs. W. H. Hayes, on Tuesday July 28th. It had been decided at a previous meeting that the Directors would make arrangements for the Flower Show to be held August 21st, and appoint their own committees.

These were appointed: The Decorating Committee, whose duty will be to look after the decorations and see that tables are in place for the exhibits is Mrs. G. Gartrell and Mrs. J. Tait.

Fancy Work Committee—Mrs. Angwin, Mrs. G. Ross.

Committee for Flowers—Mrs. R. M. Ross, Mrs. F. Williams, Mrs. S. F. Sharp.

Food and Fruit Committee—Mrs. English, Mrs. W. Watson, Miss Munn.

Refreshments Committee—Mrs. G. J. C. White as convener, and the usual ones to assist in looking after the tea things.

Donations from Mr. A. J. Beer \$3, and Mr. R. C. Robinson \$2, were overlooked in last week's report. In the Flower Show Prize List in Section I, No. 16, it is desired that roses be excluded from the Three Vases of Flowers.

Telephone Company Declares Dividend.

Excellent Showing For First Four Months' Operations.

A dividend at the rate of 1 per cent. per month on paid up capital was declared at the annual meeting of the shareholders of the Summerland Telephone Company held yesterday afternoon. A statement of the affairs of the company as at June 30th was presented showing that a really excellent plant had been provided at a moderate cost, and that since operations began earnings had shown a satisfactory margin. Reports covering every phase of the business were presented by President Mellor and Vice-President Andrew, and the financial statement read by Secretary Hogg.

The earnings for four months were \$1966.70 and expenses \$776.85. Of this margin \$650 will be set aside for depreciation and a part of the balance placed to the credit of the shareholders as dividend.

The only unsatisfactory feature of the report was that showing the large amount of unpaid calls on capital account resulting in a serious handicap and placing the directors in an unenviable position. In order to carry on the business the directors personally have become surety for some \$7,000, much of which is maturing during the next few weeks.

An urgent appeal was made to shareholders to pay all unpaid balances or to make every effort toward this end. The directors are very confident that the stock will pay from 10 to 12 per cent. annually and some shares are now being offered at 105. Monthly rentals now total nearly \$500. Being the earnings of a local company this money is kept in the community. Thus another unnecessary drain on community finances has been cut off.

Visitors with Mr and Mrs G. N. Gartrell this week have been Mr. D. Lloyd Jones and daughter, Miss K. Lloyd-Jones, from Kelowna.

Great improvement has been manifest in the pressure behind the town water system since the laying of the large pipe. Lawn sprinklers that formerly just revolved now move rapidly, taps that formerly flowed are now gushing. There has been a corresponding benefit to the houses situated on the higher points of the system.

It was thought by the officers of the local Scout Troop that it would be necessary to discontinue the meetings during the summer months. When the question was put to the boys, however, they voted strongly to continue meeting, and accordingly they still meet every Friday evening. Some additions have been made to the ranks, and it is pleasing to see that the enthusiasm of the boys themselves will hold the troop together during the busy summer months.

Local Cannery Will Not Operate.

Failure To Agree on Terms of Lease Brings This Decision.

The Dominion Canners, Ltd., will not operate in Summerland this year, and herein is one of the greatest surprises that has come to the people of this district in a long time. Through the columns of the Review the company announced to the growers many weeks ago that they would again operate here, and this was followed up with a recent visit by the local manager to the various growers who contracted for a supply of fruit and tomatoes, and continued his preparations to begin canning as soon as sufficient fruit offered. Other contracts were signed with growers at various lake points.

On Monday the report was circulated that Mr Leitch, local manager, had hurriedly decided to withdraw and have his contracted stuff sent to the company's cannery at Vernon. When seen by the Review Mr Leitch said that he had practically decided on this move, but there was a bare possibility of his yet remaining. When asked the reason for this seeming hurried change in plans Mr Leitch stated that he had been held up for rent. He claimed that he had been unable to learn who the actual owners were, and when on Saturday he had called on Mr J. M. Robinson the latter had demanded a rental of \$300, the company to make whatever needed repairs to the wharf. This Mr Leitch considered excessive.

The matter came to the attention of the Board of Trade and a special meeting of the executive was called and both Mr Leitch and Mr Robinson interviewed. The latter while stating that capital outlay considered, the rent was not excessive, readily consented to amend his terms, and at the request of the Board wrote Mr Leitch offering the property free of rental upon consideration of the Canners repairing the wharf. This did not seem to satisfy the Canners' representative, though when asked later by the Review if he had any counter proposition the reply was in the negative. Every effort was brought to bear on Mr Leitch to have him reconsider his decision but without avail. To questions put by the Review Mr Leitch stated that there was a good supply of produce available, that our season was long, and produced the earliest tomatoes in the Valley and of the highest quality, and that the Canners were not finally quitting Summerland, and further that this year's crop would be taken care of. He declared further that his only reason for leaving was failure to make satisfactory arrangements for leasing the cannery.

The Board of Trade people on the other hand seem quite satisfied with the offer made by Mr Robinson, and are disposed to look upon the matter as an unduly hasty move on the part of the local manager which will later be regretted. Mr Warren, President of the Development Company, and Mr J. M. Robinson visited Summerland on Monday, but seemingly were unable to satisfy Mr Leitch.

Rifle Association.

Saturday last was set down for the first shoot in the Special Competition which the Association have arranged. A tricky flash-tail wind at the 600 yards brought the scoring down some.

Leading:

	200	500	600	Tl.
O. Smith	30	33	28	01
H. Dunson	30	33	28	01
W. Nelson	33	32	26	01
J. Dunson	33	32	25	00
F. Nixon	27	29	27	83
G. Loomer	31	30	21	82

The above resulted in a tie for first place between the two first scores, (the third score being counted out on the 600) and in the shoot off O. Smith won out by one point after five shots being fired.

The second stage of this competition will be shot off on Saturday, 8th August.

The Summerland Review

PUBLISHED BY THE REVIEW PRINTING & PUBLISHING COMPANY LIMITED.
RALPH E. WHITE, MANAGING DIRECTOR

SUBSCRIPTION RATES: \$2.00 PER YEAR, IN ADVANCE. SIX MONTHS \$1.00.

Advertising Rates:

LEGAL NOTICES.—Twelve Cents per line for the first insertion: Eight Cents per line for each subsequent insertion.

LAND NOTICES.—\$7.00 for 60 days, \$5.00 for 30 days.

WATER NOTICES.—30 days, 150 words and under, \$3.00; each additional 50 words, \$1.00.

THEATRICAL, ETC.—50c. per inch for first insertion, and 25c per inch each subsequent insertion.

LOCAL NOTICES or Readers, Immediately following regular locals, 20c per counted line; 10c per line each subsequent insertion. Half these rates when accompanying display advertisements.

LODGE NOTICES Etc., 25c. per week, per column inch.

FOR SALE Advertisements, Etc., 2c. per word first week; 1c. per word each subsequent week.

Transient Advertisements payable in advance.

Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Wednesday noon to insure publication in the next issue.

In accordance with schedule of prices adopted throughout the valley, charges for advertising are now being made weekly. Heretofore when five issues were made in one month the result was a loss. By the new method customers are charged each week for just the amount of space used.

FRIDAY, JULY 31, 1914.

THE NEWSPAPER AND THE DISTRICT.

The value of a live, energetic newspaper to any town or district is absolutely impossible of estimation. There are so many ways that the newspaper promotes the interest of the community and the individual citizen where it is published that it would be like trying to number the sands of the sea to enumerate them. It is the true friend of town and district, and every resident thereof, and stands ready to fight the battles even of individual citizens in a way that no other agency has either the nerve or the courage to do. It stands as a great bulwark of defence for the community and for the people.

"But this is only one feature," says the Publishers' Auxiliary.

"There's another that is seldom given much thought and that is that the newspapers of any town or city are a paying investment for such place as industrial institutions. People welcome with open arms and loud acclaim any factory costing a few thousand dollars and they think the town is wonderfully fortunate in securing a plant that will give employment to a number of people. Sometimes they even put up a bonus to secure such a plant. There are many newspapers which give employment to a number of people, and nothing is thought of it. The money that comes to the paper is spent in the town or city where it is published. None of it goes away except for ink and paper and some other small supplies that cannot be bought at home. The newspaper is essentially a home institution. It works day and night to build up its home town and spends its money freely with home people. It is published on strict business principles these days and that is the reason for the growth and prosperity that has come to many papers during the past few years.

"As a business enterprise, a good newspaper is about the best industry that any town has, and its publishers ask nothing but a square deal."

An exchange that has been figuring on the hard times has come to the conclusion that they are caused by the fact that most people buy more than they produce. It says: "We let our timber rot and buy fencing; we throw away our ashes and buy soap; we give away our hides and buy rope; we raise dogs and buy hogs; we let our manure go to waste and buy guano; we grow weeds and buy vegetables and brooms, we catch five cent fish with a \$4 rod, we build school houses and send our children off to be educated, and lastly we send our boys out with a \$40 gun and a \$10 dog to hunt for ten cent birds." The first lesson from this is, make your farm as self-sustaining as practicable, and then second endeavor to make the home community self-supporting by using home products and encouraging local industries.

WEDDING.

Archibald-Hadley.

From The Canso News, N.S.

St. Paul's Methodist Church was the scene of an interesting event on Tuesday morning, July 14th, when Miss Charlotte Renton, daughter of the late Mr Thomas Hadley, was united in marriage to Edward Archibald, formerly of Truro, and now of Nelson, B.C. The church was artistically decorated for the occasion, the ceremony being performed under an arch of lilacs by Rev Harold Tompkins.

The bride, who was given away by her brother-in-law, Mr J. Duguid, was charmingly gowned in white charmeuse satin with pearl trimming and applique lace, and wore the conventional veil and orange blossoms. She was attended by her sister, Miss Marion, wearing butercup satin with Alice blue trimming, while Mr A. McAllister supported the groom.

After a delicious wedding breakfast had been partaken of the happy

couple left on the steamer "Robert Cann," en route to Nelson, B.C., where they will reside. The bride's travelling costume was of navy blue with hat of gold and burnt orange.

Mrs. Archibald was one of Canso's most popular young ladies, and the numerous gifts received testify to the esteem in which she is held.

Previous to her marriage she was guest of honor at a linen shower at the home of Mrs J. J. Whitman, and at a novelty shower given by Mrs A. Perry. The groom's gift to the bride was a pearl brooch, to the bridesmaid, a gold bracelet set with pearls, to the organist a cameo ring, and to the best man a pearl tiepin. The wedding march was played by Mrs A. Perry.

Mrs Archibald is known to a good many Summerland people as the niece of Mrs S. Angove. She has visited here on several occasions, spending some time here as recently as last summer, when she was the guest of Mr and Mrs Angove.

A LITERARY VISITOR.

Mr and Mrs Robert J. C. Stead and their two little ones who were passengers on the "Sicamous" on Wednesday night, are guests at the home of Mrs. Mary Campbell. Mr Stead is with the Publicity Branch of the Department of Natural Resources of the C.P.R., with headquarters at Calgary, and was for some time engaged in newspaper work.

Though treated in the nature of a hobby by Mr Stead, some of his recent writings are bringing him notoriety as an author. The books of verse, "Empire Builders," "Songs of the Prairie," and "Prairie Born" from his pen are now in circulation. His latest, a novel, "The Bail Jumper," a story of western life, has just appeared in England, and is receiving very favorable comment with the English and Scottish press.

RAILWAY BUILDING IN THE BOUNDARY.

That railway construction is active in the Boundary district of British Columbia is evidenced from the following, taken from the Similkameen Star:

The tracklaying equipment is being assembled on the V.V. & E., and a forward move with steel will shortly be made from Coalmont west.

All the contractors on the Kettle Valley Construction between East Princeton and Osprey Lake are making good progress, and grading will be completed about the middle fall.

Kettle Valley surveyors are running a line in Princeton which crosses the Tulameen just above the forks of the two rivers, and parallels the V.V. & E. from the bridge across the Similkameen River to the station. It is stated that a joint station will be used by the two roads.

A fatal accident occurred last week, when Henry Mathieson, a workman engaged on a trestle bridge which spans the canyon in the Kettle Valley, was knocked from the structure. His remains, badly mutilated, were recovered shortly after.

Thursday afternoon saw the annual picnic of the Baptist Sunday Schools held at Crescent Beach. More people drove than went by the "Skookum," which made two trips, and the whole made a crowd of about a hundred. The weather was perfect, slightly inclined to be warm, but this did not interfere much with the zest of the boys and girls for sports of various kinds. The picnic tea was as bountiful and enjoyable as usual, and the crowd turned homewards in the cool of the evening.

WHAT THE GOVT. IS DOING FOR AGRICULTURE.

[Continued from Page 1.]

money will be available without the vote of Parliament, no matter which party is in power. In order to afford greater assistance to the lesser developed provinces, each province is allotted \$20,000 annually, and the balance is then divided according to population. The Government had also approved a further expenditure of \$3,000,000 in departmental work. This meant that a huge sum was being spent annually in the interests of agriculture. Experimental farms were being extended and new ones established, agricultural institutions were being strengthened and yet others opened. Thus something more real was being done than simply the shouting of the phrase "Back to the soil." The great national need of furthering this movement, coupled with the question of the unemployed was dealt with at some length by the speaker.

ORIENTAL IMMIGRATION.

While mindful of the fact that he was the representative of this constituency, he was also a Minister of the Crown, and as such was with other ministers, confronted with many problems. One of such was the Oriental question. The last stage of the Vancouver episode was reviewed by Mr Burrill, who fully appreciates the seriousness of the Hindu question. Canada has been facing this problem for a long time. The speaker stated that he had come to this province some years ago with an open mind on this question, and from a humanitarian point of view it seemed but right to admit the Orientals so that they might be christianized and given the modern civilization, but in process of time he began to realize the tremendous national problem, and learned from the example of other nations which had allowed the question to drift. When one

looked across the Pacific upon the teeming millions of the Orient, one realized there was no hope of assimilation. The door must be kept fairly well closed lest the country be flooded. It does not follow that the people of the east with their older civilization are despised by Canadians. It was perhaps well for Canada that the question had been brought to a crisis. The people of the east have now a broader sympathy with British Columbia. If it is bad for B.C. to admit the Oriental it is equally bad for eastern Canada. The people of all Canada must decide for themselves and their children.

He had heard remarks of disappointment because of hard times, but the Minister assured his hearers that we here in Southern B.C. are in a much better position than in many parts of the country. He had felt hopeful that the crisis had been passed, but a declaration of war between Austria and Serbia was likely to involve all Europe, and may further tighten the strings. This opened the question of defence of Canada, and the late bitter political fight on this subject was touched upon and the Minister laid his views on the subject before his constituents. He wanted to show the world that Britain's prestige was going to be maintained by all the Dominions. (Prolonged applause). He felt that the question should not have been made one of party politics, and felt that the Liberals themselves must now realize the bad moral effect of Canada's failure to come to the aid of the mother country. If Canada is brought to face a national danger he is hopeful of united action. This danger may or may not now be upon us.

At the conclusion of Mr Burrill's address, Mr Hector Sutherland moved a vote of thanks from the meeting to the speaker in a short speech. He recalled a prophecy that he had made at the Kamloops Convention which nominated Mr Burrill, that their candidate would be the future Minister of Agriculture. That Mr Burrill had used his portfolio to the greatest of benefit to agriculture, he was sure was the opinion of all people, of whatever political persuasion.

The vote of thanks was seconded by Mr J. M. Robinson, who, speaking in a humorous vein, told of his contact with Mr Burrill in this district and also in the Old Country, which all brought to him the conviction that Mr Burrill was the right man for his position and described him as the most unassuming man of his size he ever saw. His colleagues, too, were getting on to him, and the important matters of

state were being thrust upon him. Mr Burrill was laying a new foundation for agriculture in Canada. He was dignifying the calling of the tiller of the soil. He had grappled with a big question in a big way and had landed it. "We do not get many men of this man's size," stated Mr Robinson, "take care of him."

Mr Kirk requested the audience express their feelings by applause, and the hearty response must have been gratifying to the speaker of the evening.

Mr Burrill briefly replied, expressing appreciation for his splendid reception, and the meeting dispersed shortly after ten o'clock with the National Anthem.

Corporation of the District Municipality of Summerland.

Notice is hereby given that, in pursuance of the provisions of the "Municipal Act," and of a resolution of the Municipal Council of the Corporation of the District Municipality of Summerland, passed on the 9th day of July, A.D. 1914, I will, on Tuesday, the 18th day of August, A.D. 1914, at the hour of 10 o'clock in the forenoon, at the Municipal Office, West Summerland, B.C., sell at public auction the lands, situate within the said Municipality and hereinafter set forth, for delinquent taxes and rates and taxes and rates in arrears, remaining unpaid and payable to the said Municipality by the persons or assessed owners hereinafter respectively set forth, and for interest, costs and expenses, if the total amount due is not sooner paid.

Name of Person Assessed	District	Lot	Block	Description of Property	Taxes and Interest	Costs and Expenses	Total

What to Eat?

YOUR daily problem of what to eat is very easily solved -

pass it on to us. It is not what you eat that has alone to be considered—it is the quality of what you eat. It is easy to say, "Let's have some special dish for dinner," but the mere buying of the materials for that dish does not make your dinner a success. You must have the best of everything to get the fullest enjoyment from the meal

Our reputation is built on selling the best of groceries. We have studied the "what to eat" problem for OUR OWN SAKE as well as YOURS. Come in and let us talk it over.

O. VAUGHAN

Sinning Against Your Home Town.

PART V.

"It's a Poor Bird That Spoils It's Own Nest."

Now let us get down to first principles in this "Sinning Against Our Home Town."

Let us, like a practical physician, diagnose it like a deadly malady, and proceed to cut out the growth that threatens the future of Summerland.

In this and the next articles we go to the merchant—the source where a demand is satisfied. Then we will go to the source of the demand—the public—you, our readers, and find out the trouble, whatever it may be.

"No, ma'am, we do not carry that piece of goods."

"No, I do not believe you can get it in town."

Not one word about the merchant sending out of town himself for the goods, thereby accommodating his inquirer and making a customer. In this particular instance, which we believe is duplicated many times in Summerland, the shopper desired a certain piece of goods with which to make a spring dress. She heard of the goods through a letter written her by a friend, in a distant city.

What more natural for this woman, who had given her local merchant an opportunity of getting the piece of goods for her, than to sit down and write her friend, asking if she would not mind doing her shopping for her, as she could not get it at home, and she wanted it so badly. It was a natural thing to do under the circumstances.

A few days later, along came the goods and she was glad enough to mail her cheque for the bill.

A few days later her cheque came through the exchange to her bank, where it was discounted and the bank in the distant city was credited with the money—money that should have stayed in her home town and gone to the merchant who did not have the goods, or COULD NOT HAVE SECURED THEM FOR HER.

But wait, that is not all the damage this particular nest suffered. It was not long before the new dress was finished and worn at a local function—a dress made of goods purchased out of town.

It evoked admiration and praise.

The goods were new—never before seen in this town.

"What pretty material?" "Where did you get it?" "How much did it cost?" etc.

"I simply could not get it down town. Nobody seemed to have it or know anything about it. So I sent to ———, where a friend of mine purchased it for me."

Thus the seeds of incompleteness—of doubt in the merchants of their home town was sown in the minds of this woman's friends—people who had money to spend, homes to supply and pleasures to satisfy.

A willingness to accommodate one's customers in every possible way will do much toward keeping the local trade at home, and it is a duty every merchant owes his home town to do this very thing.

The next instalment of "Sinning Against Your Home Town" will appear August 7. In it "But Here is Something Just as Good." Be sure and read it.

PLAGUE OF GRASSHOPPERS.

A migration of grasshoppers, almost approaching the magnitude of a plague, is reported from Quilchena Commonage, to the Hon. W. R. Ross, Minister of Lands. Quilchena Commonage is the site in the Nicola country where the Provincial Government is carrying out extensive demonstration work on semi-arid lands. According to the reports, no inconsiderable damage has been done by the grasshoppers to all the root crops in the district

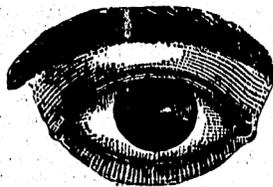

and to the hay, but they have not attacked the alfalfa, which is regarded as the chief crop in that section. The problem of combating the ravages of the strange pest, which is said to have come in clouds, is engaging the attention of the superintendent and staff.

CLOSER THAN A BROTHER.

"That French count sticks very tight to your skirts, Mae!" "Yes, I fancy he must be the original plaster of Paris."

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING RIGHTS of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-West Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

OUR NARAMATA SECTION

CANOE ACCIDENT.

Mr Prowse, C.E., narrowly escaped being drowned last Friday evening but for the presence of mind and strong swimming ability of his companion, Mr Harold Mitchell, after the capsizing of their canoe.

It appears that the two had started out for a little practice, with a possible view to entering the canoe races at Kelowna, but had gotten only a short distance from the little wharf when a strong gust of wind caught the bow of their racing craft and in a twinkling both of the occupants were in the lake, which at the time was a little rough. The distance from shore was too much for Mr Prowse, and for a while it looked serious, but with the assistance of the upturned canoe, which Mr Mitchell managed to grab before it got beyond his reach, the distressed swimmer was rescued in the nick of time.

The meetings of the Unity Club ladies will be continued for another month or so before taking their usual respite. This move has found favor owing to the presence in town of so many visitors, including the president, Mrs Gillespie, who will have to leave early in September to take up her duties in Battle Creek.

It will be gratifying news to the lovers of this charming pastime that the management of Naramata Hotel court have thrown Saturday afternoon open for tournaments which may easily be arranged for previously. It will be interesting to know that Hon. Martin Burrell upon the occasion of his recent visit here last week, fully demonstrated his ability to deliver the goods on a lawn tennis court. In a game of two sets of 6-3 and 6-4 Mr Burrell and Miss Gwen Robinson defeated Mr Bruce Cash and Miss Gladys Robinson. At times the game was featured by some very fine counter plays.

Next Saturday afternoon and thereafter through the season we may expect to see some interesting tennis tournaments.

Current Events — OF — Town & District

Squire Hill leaves shortly for the Coast where he purposes consulting a throat specialist.

Rev. W. P. Willan returned on Saturday last from attendance at the summer school at Kelowna.

Dr. J. E. Black of Vancouver, after two weeks in the Valley, returned on Thursday to his home.

Mr and Mrs Dean leave shortly for Montreal where they contemplate taking up permanent residence.

Mrs Hunt of Summerland with a brother and sister spent last Friday in town, the guests of Mrs J. H. Pushman.

Mr Oliver Wells of Senlac, Saek., a brother of J. Russell Wells, with his wife and family, are in town for a short holiday.

Mrs E. P. Roe, with her young grandson Master Stewart Pushman, spent the week-end at Peachland, the guests of her sister, Mrs Mc Dougall.

Mr W. H. Harrington, a brother of Prof. Harrington of Okanagan College, with his two nieces, the Misses Harrington of Summerland, were week-end visitors in town.

Mrs D. H. Watson and daughter Miss Olga Watson, and Mrs Cornish and Mr P. W. Racey of Rossland, B.C., were in town on Monday as guests of Mr J. M. Robinson at the hotel.

Dr and Mrs Mathison of Kelowna with their sister-in-law Mrs Katherine Mathison of Winnipeg, enjoyed a short holiday in town this week, and were registered at Hotel Naramata.

Full details of the anniversary picnic conducted by the Unity Club ladies on Thursday is unavoidably held over till next issue. Some of these details will be interesting to every reader of the Review.

Mrs Julius Block, who visited with Mrs Mason on Thursday, reports that Mr Mason is slowly improving in strength, and that the family hope to be able to make their return trip to England in September.

So the district meeting was held at Naramata this year, and this week. To-night (Friday) is to be an open meeting to which the general public are cordially invited. Two addresses will be given. One of these addresses is by Rev. J. C. Switzer of Kelowna, and the other by Rev. N. White.

Mr G. Burnett, the well-known civil engineer, after a residence of about two years in town, during railway construction work, has been transferred to Rock Creek. During his stay in town both he and Mrs Burnett have formed quite a circle of friends who regret their departure from town.

The service in the church on Sunday was featured by an illustrated lecture for the special benefit of the Boy Scouts who attended in a body. Pastor Willan can certainly talk quite interestingly to both young and old, and it is to be hoped that he may make a departure any once a month and repeat the performance in so far as illustrating his talk is concerned.

Hotel Syndica having now had its front and back verandahs decorated with appropriate tints from their own painter's brush, presents a very handsome appearance, and the moving spirits back of the undertaking are to be congratulated for their enterprise and shall we say nerve to erect at a very considerable layout of cash in a second hotel for a town of our modest proportions.

If there be in anyone's mind the notion that fruit trees won't thrive anywhere but on the high and dry bench land—land that since the days of Noah has never known a really good soaking—let him visit Mr D. McKay's place and view with wide open eyes the excellent crop of pears now assuming full growth. Mr McKay, though apparently averse to handling fruit on a large scale, bears the palm as the pioneer fruit man of this locality, having planted—for a demonstration—years ago on his pre-emption north-east of the town.

THE UNITY CLUB WELCOMES BACK THEIR PRESIDENT.

At the last session of the Unity Club a most hearty address of welcome was extended by the vice-president, Mrs W. W. Mitchell, to Mrs Gillespie, who for a little over a year has been conspicuous by her absence, as this talented lady has spent much of her time in England. Mrs Gillespie replied in fitting terms, complimenting the ladies for their good management and for the steady maintenance of the general spirit of the organization.

Mrs Firstbrook of Toronto spoke briefly to the ladies, expressing herself in favorable terms upon the unique nature of the club and the work it evidently was doing.

Another prominent visitor in attendance on the occasion was Mrs Burrell, who was in on a short visit with her sister, Mrs Cash.

Current Events.

(Continued)

Mr Ronald Smith of Penticton was in town on Sunday.

By the way, have you subscribed for the Review—if not, why not?

Mrs Carroll C. Aikins received at the tea hour on Monday a number of her Hotel Naramata friends.

Mr Harry Birnie of Vernon was in town on Wednesday renewing his acquaintance with a former classmate, Dr W. L. Robinson.

Mrs Reesor, who has taken up summer residence at the Wilkinson ranch, had luncheon in town on Wednesday with Mrs Robinson.

Miss M. Gordon came across from Summerland on Wednesday for a few hours to look after the welfare of her orchard property here.

The full particulars of a contest in baseball between "The Cubs" of Penticton and "The Big Bears" of Naramata has necessarily had to be held over till next issue.

Miss Orr, a teacher from Grandview, Man., after a pleasant holiday in town the guest of a former schoolmate, Mrs Russell Wells, returned to her home on Wednesday.

Mr Broom, the popular young engineer now residing at "Chute Creek City," (his residency is in the wilds, 16 miles back in the mountains), was in town for luncheon on Sunday.

The special ferry on Wednesday evening to Summerland to hear Hon. Martin Burrell, Minister of Agriculture, bore a large crowd and had the occasion been one anyway near an election the crowd would have been an enthusiastic one.

The electric light plant was shut down on Wednesday. For the first time in the history of town it was deemed advisable to conserve the water for irrigation purposes. Had the plant been located above the intake, this cut-off would not have been found necessary.

By the way there is nothing like keeping the ball rolling! And that is what we purpose doing. The next great big HIT will be a gipsy carnival—a great big, jolly bunch of fun loving people, all sworn natives of Naramata, are preparing to give us an evening's entertainment—way on in August. Nuf said now.

On Sunday evening next, August 2nd, at 7.30, Mrs Gillespie, in response to the urgent request of a number of her friends, will lecture in the Opera House on the subject "A New Earth." All of us who have lived here for years know how extremely interesting a speaker Mrs Gillespie is and will want to hear her again. The doors are open and everyone is welcome.

A trip to the tunnel camp now that the big engineering feat has been completed, still possesses a charm all its own. Such, at all events, is the evidence of a small party composed of Messrs. J. O. Robinson, J. S. Gillespie, John Firstbrook, Toronto, and son Frank, who spent last Thursday in the hills, and who were guests for a few hours with Mr Burnett at the Alexander Residency.

Another excellent outing trip is the climb to the higher lake levels where the Okanagan Trust Co. have their storage dam for irrigation purposes. This week a party consisting of Mr and Mrs E. H. Hancock and daughter Mary, and Mrs Percy Hancock from England, who is spending the summer at "Lakeview Ranch, made this higher lake their rendezvous for lunch on Monday, following the old trail, by horseback of course.

BOY SCOUTS' DOINGS.

Last Thursday week the first of a series of talks was given to the Scouts by Dr. W. L. Robinson. The doctor's idea is along the line of First Aid to the Injured. The idea is that every man should know how to help himself or his fellow in critical occasions.

In the course of the week two of the boys, Joseph Morsch and Arnold Stiff, passed their Tenderfoot test, and next week it is expected that a few more will be ready to qualify.

Other contests in signalling have been conducted from which it is apparent that before long a big percentage of the organization will be able to both receive and send with facility.

An effort is being made for the boys to get suitable quarters in which a start could be made by way of a gymnasium.

That person lives in an impregnable fortress who heeds not the smiles nor the slanders of the double faced.

The directors of the Summerland Development Company headed by the President, Mr J. J. Warren, of Penticton, held a special meeting in the company's office at Naramata on Tuesday evening.

"Pound District Act, 1912, and Pound District Amend- ment Act, 1914.

WHEREAS notice has been duly given of the intention to constitute the following district as a pound district, under the provisions of section 3 of the "Pound District Act," namely that portion of the County of Osoyoos comprised in the Naramata District and within the following boundaries:— On the south by Four Mile Creek, on the north by a coulee running from the base of the rock through which the Kettle Valley Railway has made a tunnel on their lower grade, to the Okanagan Lake, on the east by the lower grade of the Kettle Valley Railway line and on the west by the Okanagan Lake.

And whereas objection to the constitution of such proposed pound district has been received from eight proprietors of land within such proposed district:

Therefore notice is hereby given that the majority of the proprietors of land within the above-mentioned district must within thirty days from the posting and publishing of this notice, forward to the Hon. Minister of Finance and Agriculture their petition in the form required by section 5 of the Act, or otherwise such pound district will not be constituted.

Dated this 27th day of June, A.D., 1914.

Noticed the Difference?

There was a time when the product of the GARNETT VALLEY MILL was not of the Best.

There's a Difference Now.

Home-made Building Material as good as the imported article is being turned out at the local mill.

Prove This for Self.

Peachland Notes.

Mrs E. Lang is a visitor on the hill this week.

Archie Seaton and Bert Elliott visited Kelowna on Tuesday.

Miss Bina McLaughlan went down to Penticton on Tuesday evening.

Mr and Mrs Hugh Williams and family spent Tuesday in Kelowna.

Mrs. Roe of Naramata was the guest of Mrs. McDougall over Sunday.

Mr Wm. Douglas has been confined to his bed for a week with a strained back.

Mr Harry Slater was in Summerland the week-end looking after the cold storage fruit.

Mr Pound of Vernon occupied the pulpit of the Methodist Church on Sunday morning.

Mrs W. A. Lang left on Saturday morning for Manitoba, where she will join her husband.

Dr Hirschberg, manager for the Toric Optical Co. of Vancouver, will be in town professionally on Saturday.

Rev. and Miss Henderson attended the summer school for Sunday School workers held at Kelowna last week.

Mr and Mrs J. R. Brown were guests of Mr and Mrs J. B. Robinson over Sunday, returning to Summerland on Monday evening.

Mr and Mrs McLean, who were week-end guests at the home of the Misses McLaughlan, left for their home in Winnipeg on Monday morning.

Mr and Mrs McLaughlan went to Penticton the latter part of the week, called there by the serious illness of Mr D. Kirkby, their son-in-law.

Misses Essie and Lulu Brown, who have been visiting their uncle at Naramata, came up on Tuesday morning and are guests of Mrs A. D. Ferguson.

Mrs Seaton spent the week-end in Vernon, going there with her brother, Mr T. Robinson and his wife, on Thursday, when they returned to the Coast after a two week's visit spent in the Valley.

Kaleden Comments

Miss Burchall is staying with her sister, Mrs. Rourke, during the school vacation.

Miss Hawthorne, who has been staying with Mrs. A. S. Hatfield for the past two weeks has returned home to her parents in the country.

Miss Mary McGraw returned home from West Summerland last week and Miss Lizzie McGraw went back to Mrs James Ritchie at Parkdale.

Congratulations are due to Master Carl Rourke, who successfully passed the entrance examination recently held in Penticton. He plans to enter the High School at Penticton next term.

Rev. Norman McNaughton, pastor of the Summerland Baptist Church, spent the latter part of last week with Mr and Mrs H. H. Elsey as their guest returning to Summerland with them on Saturday.

Mr and Mrs H. H. Elsey with their daughter Madeline, spent last week on their bench lot giving attention to the large crop of apricots which are now ready for shipping. They returned to Summerland last Saturday.

Mr and Mrs Scott of Macleod, Alberta, are visiting with Mr and Mrs T. C. Preston on the bench. Mrs Scott is a sister of Mrs T. C. Preston, and came to assist in nursing her during her long and painful illness.

A large congregation gathered in the Baptist Church last Sunday afternoon for the service, when Rev. Chas. Britton said farewell to the congregation and while his departure is greatly regretted by all, the best wishes of his many friends go with him in his future work.

Universal sympathy is felt with Mrs T. C. Preston on account of the long period of suffering she is passing through. Latest news speaks of some improvement, and although she is still very ill, there is hope that she may recover. She is now in the care of Dr. Poarse, of Penticton.

Passing Events: Social, Personal, &c.

Dr. T. B. Turner, dentist, will spend Monday and Tuesday of each week in Summerland. Crown, Bridge and Gold Inlay work a specialty.

Dr. J. E. Black, who has been practising dentistry at West Summerland during a short visit, returned to Vancouver on Wednesday morning of this week.

Some very fine Triumph peaches were brought to the Review Office this week by Mr Magnus Tait. They have been on view in the window and have been greatly admired by passers-by.

J. N. Merrill has severed his connection with the Summerland Supply Co. having taken a position with Messrs. Johnston & Nicholson of Penticton, and will commence his new duties on August 15th.

Mrs Cornish, Miss Olga Watson, and Mr Racey, went down on the Thursday noon ferry to Penticton. Mr Racey continued his journey from that point home to Rossland, through the Boundary Country.

Friendships of former days were renewed on Wednesday of this week, when Mr and Mrs Firstbrook, who are summer visitors from Toronto to Naramata, spent the day in Summerland with Principal S. Everton of the College, and Mrs Everton.

Messrs. Stirling & Pitcairn, big growers and shippers of Kelowna, have received several large orders for New Zealand and Australia. These people have also been shipping to the Old Country, and will again do so this year on a larger scale than before.

Aided by the strength of her constitution, Mrs. W. Estabrook has been making splendid recovery from the effects of her recent accident, and is now far on the road to recovery. She is slowly regaining the use of her shoulder and arm, though the bones are not yet as firmly knit as it is hoped they will become.

We try to print all the items that are news, or that will encourage, help or cheer any of our citizens along life's rugged road. We all doubtless would enjoy reading all the news when it's about the other fellow, but our policy is to turn over to the gossips the spreading of scandals that only leave sorrows in their trail.

The "Skookum" was chartered for a special trip to Penticton on Saturday evening last by a party of ladies who numbered thirty-two. A few merry hours were whiled away in the town at the foot of the lake, such mild dissipations being indulged in as the moving picture show and ice cream refreshments. They reached Summerland on the return trip about midnight.

The great volume of fruit shipped by express from Summerland last year will easily be passed in the aggregate by this season's shipments. The quantity of cherries sent out is a good deal in excess of last season's shipment, and there is now leaving by the morning boat a daily aggregate which in weight must total nearly 18,000 pounds. This is attributable not only to the unquestionably larger volume of fruit available for shipment, but also to the fact that weather conditions have been such as to make this season at least two weeks ahead of last. Two fruit cars are now required on the Okanagan Landing-Sicamous passenger train to care for the Valley daily express output.

A spectacular dash down Shaughnessy Avenue by a pair of horses, gave rise to a good many misgivings in the minds of the people whose attention was arrested by the sight on Monday afternoon. There was a considerable volume of traffic on the main street at the time, and the practically harmless outcome of the runaway's escapade was very fortunate. They were the team of horses belonging to Mr C. Napier Higgins, and were started on their run from outside the Fruit Union building from no other apparent reason than the approach of another team behind them at a very moderate rate. They kept up their gallop until opposite the blacksmith shop, where they had sidled over to the side of the road, and were brought to a somewhat sudden standstill by placing themselves one each side of an old stump which stands at that point. An investigation of the damage revealed little harm done except to some of the front attachments of the democrat, and a scratch sustained by one of the horses.

The effects of Rev. D. E. D. Robertson, late of St. Stephen's Church, were shipped at the end of last week to Fernie, B.C.

On Wednesday the switchboard of the Okanagan Telephone Company was moved downstairs to the capacious front office of the building.

Kenneth W. Kinnard, formerly of West Summerland, and now with the Vernon Fruit Union, came down the lake on Saturday to spend the week-end here.

The name of Raymond Bent was, according to Principal R. B. Forsyth, of the High School, who writes from Victoria, omitted from the list of those students who succeeded in passing the McGill Matriculation examination.

Dr and Mrs Mathison of Kelowna, accompanied by Mrs Mathison of Winnipeg, spent last week-end in Summerland and Naramata. They were for a short time on Saturday evening and again on Monday with Mrs. R. M. Ross.

A fall from a tree last week resulted in Mr J. Carter sustaining painful injuries to one of his ankles. The injured joint is now confined to a plaster cast, and at least for another week Mr Carter will be unable to move around at all freely.

Rev. Chas. A. Britten has resigned the pastorate of Penticton Baptist Church and will go east where he will take a course in theology. Rev. Mr Britten's parents reside in Summerland. He preaches in Penticton next Sunday for the last time.

If you should undertake to write a letter to an absent friend every week telling him all the news, you would get a faint idea of the task in preparing a newspaper. Many of our townspeople recognize this and take pleasure in giving items of news. It helps us and is appreciated.

Mr and Mrs D. Watson sr., went up to Westbank last Saturday to visit Mr and Mrs Courtland Watson for about a month. Miss Myrtle Watson, who has been visiting here for a few days accompanied them. Friends of Mrs Watson will be glad to learn that she has recovered from her recent injuries, and was able to take this journey with little inconvenience.

Dr F. W. Andrew will, after August 1st, have associated with him in his medical practice here, Dr W. W. Kennedy, who took care of Dr Andrew's practice during the latter's recent visit to the Coast. Dr Kennedy obtained his M.D., C.M. degree from Kingston University, and until coming here was house surgeon at the Vancouver General Hospital, to which city he returned about two weeks ago. Dr Kennedy, who came in last Saturday evening, will reside at West Summerland, taking over Dr Andrew's office there.

In establishing a daily car barge service on this lake, the C.P.R. has put into operation an improvement to the fruit transportation service which is of untold benefit to growers and shippers. The barge calls at Summerland on the down trip early in the afternoon, and leaves Penticton at six p.m. on the up journey, calling here about an hour later. Thus the fruit gets the full benefit of the cool night breezes in transit up the lake, and by losing its high orchard temperature, arrives at its destination in correspondingly better condition. At the Landing the cars are attached to a daily freight train, and by noon of the following day the cars are on their way east or west of Sicamous.

An incident which shows up boy pluck and also the usefulness in emergencies of Boy Scout knowledge was the accident which befel young Ivor Harris, son of Mr and Mrs John W. Harris, on Wednesday. It seems that Ivor was riding his father's horse, and when some distance from home, the horse by coming to a sudden halt, pitched its young rider forward over its shoulder. In the fall Ivor came down on his arm, and both bones in the forearm were broken. Though the pain must have been considerable, he pluckily got up and led the horse home. There his elder brother realizing the extent of the injury applied bandages, according to his Scout practice, greatly alleviating the suffering of his brother. Ivor was then brought down to the doctor for further attention.

Miss Neve has been visiting for a few days at the home of Mrs. S. Angove.

Penticton's tax rate this year is 24 mills, made up of General Rate 12 mills, School Rate 5 mills, and Debenture Rate 7 mills.

Inspector W. H. Lyne is again with us, and is busy with other members of the staff on a constant watch for insects or disease injurious to fruit culture.

It pays to read the advertisements of enterprising home merchants. They are the people who make it possible to have conveniences right at your door, so to speak.

Presbyterian service will be held in St Andrew's Church next Sunday morning and in the Methodist Church in the evening. Rev. C. H. Daly will conduct both services.

A party of about thirty-six from Summerland and Naramata, dined on Wednesday evening at the Felix Hotel, with Hon. and Mrs. Martin Burrell, who are spending a vacation at Naramata.

Government Road Superintendent H. Lang was in Summerland over the week-end. Mrs. Lang and family are the guests for a while at the Peach Orchard home of Mr. and Mrs. R. H. Helmer.

Mr and Mrs James Heys and family of Vancouver arrived here on Tuesday night and are the guests of Mr and Mrs Riley. Later they will go to Peachland to reside where they have bought a five acre orchard known as the Hicks lot.

Eighteen trap shooting enthusiasts participated in yesterday's meet of the Gun Club. Highest scores were made by Messrs G. N. Gartrell and G. Barkwill. Mrs Gartrell afterwards entertained the members of the club at her home close by.

The Fruit Union has made good use of the daily car barge service since its inception at the beginning of the week. The Union has sent a car out every day this week, a good record, considering that the height of the season is still a few days off.

The de-hydrating plant at Penticton is getting a large portion of its apricot supply from Summerland, according to the Herald, which states that the plant will handle two tons daily until the rush season when its fullest capacity will be seven tons in twenty-four hours.

Mr Edwin Smith, who was in charge of the pre-cooling experimental work here last year, and is now similarly employed with the Dominion Government, came in on Wednesday night. Mr Smith still takes a keen interest in the work here, and will remain for a time getting statistics and watching results.

A show staged on Tuesday evening in Empire Hall by a pair of "duskers" drew between thirty and forty people as an audience. The performers are driving through their circuit, coming up from the south on Tuesday afternoon, and going north on Wednesday. There were some fairly good musical novelty turns on their program and the rubber faced man may be said to be "the limit."

An injury sustained about two weeks ago by Thos. Ramsay, when a section of steel pipe fell on the lower part of his leg, during the course of his work for the Municipality, was thought at the time to be of little consequence, though it necessitated his resting for a day or two. Of late the wound has been paining him somewhat, however, and examination revealed a splinter of the bone. Mr. Ramsay has had his leg in plaster for a few days, and it is hoped that the fragment may be induced to unite with the bone.

Lambert cherries from "Pleasant View Ranch," S. A. Denlke's Prairie Valley orchard, were lately shipped by Mr. Scott Darkis to New Brunswick friends. Word has come back that the fruit arrived in the best of condition, a revelation to size and quality. The fact that the cherries excited such admiration after the long journey across the continent, is certainly proof positive as to the quality of the fruit. All Mr Denlke's Lambert and Royal Anna cherries were bought by the provincial government for show purposes in the recent Winnipeg Exhibition.

B.C. GOVERNMENT EXHIBITION.

(Brandon Daily Sun)

The British Columbia Provincial Government this year is putting on an exhibit of the resources of the Pacific province fuller and more representative than ever before. The exhibit is located immediately in front of the main door of the display building, where an attractive pyramid of bottled fruits is the first object which meets the eye. Behind is ranked a beautiful display of fresh fruits and vegetables gathered up from all the chief centres of industry in the province. Here late strawberries meet early peaches and apricots, while cherries of every variety challenge competition for size and flavor. The apples of the crop of 1913, as firm and sound as the day they went into cold storage, bear eloquent testimony to the keeping qualities of the main product of the B.C. fruit farms. An exhibit of fresh celery gives a sample of another form of culture now being pursued with great and ever increasing results in the province.

A large spring salmon in a block of ice represents another famous industry of the maritime parts of British Columbia, supported by artistic casts of almost every food fish taken in her teeming waters. Opposite are ranged cases of carefully selected specimens of ore from working mines in the various mining camps. Gold, silver, copper, lead, zinc, asbestos, gypsum can be seen in their native condition, together with products of the smelter, marble quarries and lead works. This industry is now on a proven basis, with an output which has already reached the thirty million dollar mark, and promises to exceed all previous records during the season of 1914.

Last, but by no means least, the timber of the forests, the last great stand of timber on this continent, is adequately represented by specimens of doors, mouldings, siding, panelling, and especially of the three-ply veneer which is coming into such extensive use for interior decoration. Under the grand stand are several enormous blocks of B.C. fir, cedar and other monarchs of the bush, which give some idea of the vast size attained by these giant trees, and are well worth a visit.

A highly popular adjunct to the exhibit this year is a course of talks on the life and industries of the province given by Mr W. A. Lang, the commissioner of the provincial government, and illustrated by colored slides and moving pictures. These lectures are given in the black tent pitched across the lawn to the left of the display building, four times a day, at 2.30, 4.30, 7.30 and 9.30 p.m. They are free, and everybody is invited to take them in. The films showing the logging camps, saw mills, fisheries and canneries are the head liners of the entertainment, and everybody should pay a visit to the tent and see them.

Mr Lang is a former Brandon resident, living here seventeen years ago. For the past fifteen years he has been in the Okanagan Valley, and his headquarters as exhibition commissioner of the B.C. Government, are now at Victoria. Along with Mr Lang at the fair are a staff of capable and most courteous assistants, and a visit to this section of the big fair is well worth the time expended.

SUMMERLAND SCHOOL BOARD

Tenders for School Conveyance.

Tenders for the conveyance of school children to and from the Central School, morning and evening, will be received by the undersigned up to August 5th, 1914, on the following routes, stating the price per single trip:

- Route No. 1.—Block 9, District Lot 20 G. 1. to Central School.
- Route No. 2.—Town to Central School.
- Route No. 3.—Block 10, District Lot 411, to Central School.
- Route No. 4.—Block 92, District Lot 476, to Central School.

On routes Nos. 1, 2, and 3 the rigs will be provided by the School Board. On Route No. 4 the Contractor will furnish his own rig. Robes or rugs required in the cold weather to be furnished by Contractor.

The successful tenderer to sign the contract agreement and furnish a satisfactory bond for the due fulfillment of same.

J. L. LOGIE,
Secretary, School Board.

T. E. Clay On Calgary Marketing Conditions

My first few days in Calgary have been spent largely in taking notes of conditions and gaining impressions, and as both are of some interest to you at home I wish to pass them along.

Conditions are both favorable and unfavorable. Favorable because on the whole the consumer is in sympathy with us and wants our fruit. Unfavorable because of many blunders in both packing and shipping, and the somewhat lukewarmness of the big dealers toward us.

In conversation with leaders of the Consumers' League I gather that they want our fruit, and are willing to pay for it, but they want quality. From these same people and others I learn of blunders and conditions against us.

This spring the League was asked to give B.C. fruit the preference. When strawberries began the public was asked to wait for the B.C. berry. They waited, the B.C. berry never came, and many here are without their usual winter supply.

When cherries were in, the Central organization at Vernon shipped cherries to the Market Supt. for sale among the dealers in that building and quoted \$1 per crate Vernon, making them \$1.40 here. One of these dealers was able to buy these same cherries, packed and shipped by the Union, from the Scott Fruit Co. at Calgary for \$1.30 per crate. Why and how is not explained. This week the Central has shipped to the Supt. of the Market apricots, quoting \$1 per crate Vernon, making again \$1.40 to the dealer here, and up bobs an independent grower of Summerland and writes to the Consumers League and offers them apricots at 85 cents at Summerland, or \$1.25 to the League, the consumer, at Calgary. How can we ever expect to get decent consideration when the grower will ship to the consumer at 15 cents a crate less than the Union is offering to the dealer, who has to make a profit in turn from the same consumer.

If a large quantity of American fruit hit us and knocked the market end ways these very same growers would be the first to howl.

If the grower is going to ship direct to the consumer let him at least keep close to Union prices and not make it look like a big game on the Union's part to beat the public.

I am an independent grower and shipper and have no connection at present with the Union, but as I am not in the business for my health alone, any more than any of the rest of the growers are, I want to see the fellow who ships through the Union get a fair deal from those who from reasons of their own are not Union members.

As to impressions: My first applies to vegetables, and I am convinced that there is a big opening for us even in the early root varieties, such as beets, carrots, parsnips, etc., but they must be early, and to get them early enough means that we want water on our land April 1st instead of May 1st. The prairie stuff is now coming in, and from now on excepting corn, tomatoes, cucumbers and such we have not much show. If we had water on April 1st we could supply this market for from four to six weeks in small stuff such as I have named, as well as in those we now supply, and it would mean thousands of dollars every year. The water need only be supplied to those growing vegetables, and in proportion to the land under crop.

My impression on fruit is this: Give us the quality required and we can grab this whole western market. For appearances the American fruit has most of ours beaten four different ways. Don't get mad or blue about it, but facts are facts.

There is fruit on this market right now that makes the heart glad to gaze upon, but it ends there, the beauty is only skin deep.

I had some peaches and cream for breakfast this morning, and before I got enough sugar on to be able to eat them, I was eating sugar and cream, the peaches were entirely lost. Sour? Yes, and then some.

I saw peaches from a carload of early Crawfords that arrived this week; they had been a little too ripe and took six days to reach here, and were sold cheap, and they never should have been sold at all.

There is a mistaken idea held of the western prairie consumer. He doesn't want cheap stuff, he wants quality. Show him once the difference, and he'll buy the best irrespective of price.

TURTLES KILL DUCKS.

Pentleton residents have been complaining recently of the mysterious disappearance of ducklings from this year's broods. Until recently there was no explanation of the phenomena, and the losers were racking their heads in the endeavor to find an explanation. The thief, however, has been discovered. He is the big mud turtle which summers in the Arrowsooke Park Lake, and at points along the creek in the neighborhood. The casual observations of a pedestrian resulted in the laying bare of the identity of the marauder. As a duck was leaving the water at the Pentleton Creek bridge, according to the Herald, a turtle was seen to snap at its webbed foot. Securing a hold he drew the squawking bird beneath the water. In this case, however, a rescue was effected, the turtle making off for deep water when attacked. Some of these creatures, it is said, may be seen any day sunning themselves on the driftwood of the lake. They are reported to be quite formidable in size, many measuring eighteen inches across the shell.

He doesn't want fruit that gets ripe in the car six or seven days after picking, he wants the nearest thing to the best thing that he can get.

We have Okanagan apricots on our market to-day that make me blush every time I pass them, and I'm glad I have none of them. I have already talked to a number of consumers, and the whole cry is give us your best and we'll pay the price.

These are my impressions, and with the review of conditions may help some.

Painting and Decorating.
